SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Every person operating under a permit issued pursuant to this section is excepted from the provisions of Chapter 6 (commencing with Section 6650), Part 1 of Division 6 for aquatic plants taken

incidental to the harvest of herring eggs.

This section shall remain in effect only until 60 days after the effective date of this act, and as of that date is repealed.

SEC. 1.5. Section 8389 is added to the Fish and Game Code, to read:

8389. Herring eggs may only be taken for commercial purposes under a revocable, nontransferable permit subject to such regulations as the commission shall prescribe. SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is a possibility of an immediate exhaustion of the herring resource by an excessive overfishing caused by a sharp rise in herring prices for the far eastern markets. The Department of Fish and Game at the present has no authority to prevent, delay, or otherwise regulate the overutilization of this valuable resource. In order to save

the herring resource from harmful depletion, it is necessary that the provisions of this act become effective immediately.

CHAPTER 3

SEC. 5. This act is a clarification and restatement of existing law, and no reimbursement to local government shall be made pursuant to Section 2163 of the Revenue and Taxation Code.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This exemption shall be known as the "veterans' organization exemption."

SEC. 5. This act constitutes a clarification and restatement of existing law, and no payments shall be made to local government pursuant to Section 2163 of the Revenue and Taxation Code by reason of the operation of this act.

SEC. 6. Sections 1 and 3 of this act shall become operative at the same time as Chapter 151 of the Statutes of the 1972 Regular Session of the Legislature takes effect.

SEC. 7. This act is an urgency measure necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Assembly Bill No. 184 of the 1972 Regular Session of the Legislature was enacted as Chapter 151 of the statutes of that session. The inadvertent omission of this section from the reorganized Government Code provisions relating to the municipal courts of San Mateo County enacted in 1972, and effective on March 7, 1973, will result in an additional hardship upon the taxpayers of San Mateo County and effectively diminish the cash flow and fiscal procedures of the County of San Mateo unless this act takes effect immediately.

At the general election on November 7, 1972, the people approved Assembly Constitutional Amendment No. 95 of the 1972 Regular Session to provide for two-year legislative sessions. This act contains technical amendments to conform the statutes with changes mandated by the enactment of the constitutional amendment, other technical amendments to reflect changes in procedure as directed by rule and practices, and technical amendments to accurately reflect legislative intent with respect to legislative affairs. Since the Legislature is now operating under the constitutional amendment it is necessary that this act must take effect immediately.

CHAPTER 8

An act to amend Sections 510 and 538.2 of the Code of Civil Procedure, relating to civil actions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 14, 1973 Filed with Secretary of State March 14, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 510 of the Code of Civil Procedure, as amended by Chapter 1324 of the Statutes of 1972, is amended to read:

510. (a) Where a delivery is claimed, the plaintiff, by verified complaint or by an affidavit or declaration under penalty of perjury made by plaintiff, or by someone on his behalf, filed with the court, shall show:

(1) That the plaintiff is the owner of the property claimed or is entitled to the possession thereof, and the source of such title or right; and if plaintiff's interest in such property is based upon a written instrument, a copy thereof shall be attached;

(2) That the property is wrongfully detained by the defendant, the means by which the defendant came into possession thereof, and the cause of such detention according to his best knowledge, information, and belief;

(3) A particular description of the property, a statement of its actual value, and a statement to his best knowledge, information, and belief concerning the location of the property and of the residence and business address, if any, of the defendant;

(4) That the property has not been taken for a tax, assessment, or fine, pursuant to a statute; or seized under an execution against the property of the plaintiff; or, if so seized, that it is by statute exempt from such seizure.

(b) The court shall, without delay, examine the verified complaint or affidavit or declaration, and if it is satisfied that they meet the requirements of subdivision (a), it shall issue an order directed to the defendant to show cause why the property should not be taken from the defendant and delivered to the plaintiff. Such order shall fix the date and time for the hearing thereon, which shall be no sooner than 10 days from the issuance thereof, and shall direct the time within which service thereof shall be made upon the defendant. Such order shall inform the defendant that he may file affidavits on his behalf with the court and may appear and present testimony on his behalf at the time of such hearing, or that he may, at or prior to such hearing, file with the court a written undertaking to stay the delivery of the property, in accordance with the provisions of Section 514, and that, if he fails to appear, plaintiff will apply to the court for a writ of possession. Such order shall fix the manner in which service thereof shall be made, which shall be by personal service, or in accordance with the provisions of Section 1011, or in such manner as

the court may determine to be reasonably calculated to afford notice thereof to the defendant under the circumstances appearing from the verified complaint or affidavit or declaration.

(c) Upon examination of the verified complaint or affidavit or declaration and such other evidence or testimony as the court may, thereupon, require, a writ of possession may be issued prior to hearing, if probable cause appears that any of the following exist:

(1) The defendant gained possession of the property by theft, as defined by any section of Title 13 (commencing with Section 447) of Part 1 of the Penal Code;

(2) The property consists of one or more negotiable instruments or credit cards;

(3) By reason of specific, competent evidence shown, by testimony within the personal knowledge of an affiant or witness, the property is perishable, and will perish before any noticed hearing can be had, or is in immediate danger of destruction, serious harm, concealment, or removal from this state, or of sale to an innocent purchaser, and that the holder of such property threatens to destroy, harm, conceal, remove it from the state, or sell it to an innocent purchaser.

Where a writ of possession has been issued prior to hearing under the provisions of this section, the defendant or other person from whom possession of such property has been taken may apply to the court for an order shortening the time for hearing on the order to show cause, and the court may, upon such application, shorten the time for such hearing, and direct that the matter shall be heard on not less that 48 hours' notice to the plaintiff.

(d) Under any of the circumstances described in subdivision (a), or in lieu of the immediate issuance of a writ of possession under any of the circumstances described in subdivision (c), the court may, in addition to the issuance of an order to show cause, issue such temporary restraining orders, directed to the defendant, prohibiting such acts with respect to the property, as may appear to be necessary for the preservation of rights of the parties and the status of the property.

(e) Upon the hearing on the order to show cause, the court shall consider the showing made by the parties appearing, and shall make a preliminary determination, which party, with reasonable probability, is entitled to possession, use, and disposition of the property, pending final adjudication of the claims of the parties. If the court determines that the action is one in which a prejudgment writ of possession should issue, it shall direct the issuance of such writ.

SEC. 2. Section 538.2 of the Code of Civil Procedure, as added by Chapter 550 of the Statutes of 1972, is amended to read:

538.2. The notice of hearing issued pursuant to Section 538.1 shall provide for a hearing on the question whether a writ of attachment shall issue. The notice shall specify a hearing date not less than 10 days nor more than 30 days from its issuance and, except as otherwise ordered by the court for good cause shown, it shall be served not less

4216 357215 48

than 10 days before the hearing date. The notice and temporary restraining order shall be served and return of service shall be made as provided in this code for the service of a summons and complaint. The notice shall be accompanied by a copy of the complaint and a copy of the affidavit or affidavits filed by the plaintiff under Section 538.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 538.2 of the Code of Civil Procedure raises a question of application, which, unless resolved immediately, may lead to confusion and needless litigation. This act will avoid the problem and bring certainty into the law. Therefore, it is necessary that this act go into immediate effect.

(b) The predominate use of such building is by other than a school district or community college district, and

(c) Such building is not reconstructed, altered, or added to by the community college district at a cost exceeding ten thousand dollars ($10,000).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit this act to operate effectively and to facilitate the orderly administration of community college courses taught in

off-campus buildings prior to the commencement of the 1973–74 school year, it is necessary that this act take effect immediately.

CHAPTER 10

An act to amend Section 9607 of the Government Code, relating to statutes, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 9607 of the Government Code is amended to read:

9607. (a) Except as provided in subdivision (b), no statute or part of a statute, repealed by another statute, is revived by the repeal of the repealing statute without express words reviving such repealed statute or part of a statute.

(b) If a later enacted statute that deletes or extends the date of termination or repeal of a previously enacted law is chaptered before such date of termination or repeal, the terminated or repealed law is revived when the later enacted statute becomes operative.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this act may take effect in time to prevent several provisions of law from terminating or being repealed contrary to legislative intent, it is essential that this act take immediate effect.

CHAPTER 11

An act appropriating funds for the purpose of replacing loss of federal social service funds, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that funds appropriated by this act shall be used only to replace any loss of federal funds which will result from the proposed revision of federal regulations relating to child care and preschool services.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury the sum of eight million eight hundred six thousand five hundred dollars ($8,806,500), or as much thereof as is necessary, to the Department of Education for the purposes of the following programs for the 1972–73 fiscal year, to be allocated in accordance with the following schedule:

SEC. 3. Notwithstanding any other provision of law, the Department of Education shall allocate the funds appropriated by this act to existing programs at support levels which existed on February 15, 1973, for persons who were eligible and receiving social services under such programs as of that date. Such funds shall be used only to replace any loss of federal funds caused by revisions of the federal regulations concerning the eligibility of participants or the limitation or termination of type of social services or restriction on the use of private funds in the affected programs.

The Superintendent of Public Instruction shall insure that all public or private funds committed for the support of programs by local agencies or private agencies shall be maintained at levels established prior to February 15, 1973, in order for such agencies to be eligible for funds pursuant to this act.

SEC. 4. SEC. 5. The allocations made pursuant to this act shall be exempt from the provisions of Section 16780 of the Education Code pertaining to statewide average support from state funds and parent fees assessed per hour per child for the children's center program.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the loss of federal funds does not curtail essential social service programs, it is necessary that this act take immediate effect.

CHAPTER 12

An act to amend Sections 53570 and 53571 of the Government Code, relating to refunding of bonds, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 27, 1973. Filed with Secretary of State March 27, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 53570 of the Government Code is amended to read:

53570. The following terms shall have the following meanings:

(a) The term "local agency" means public district, public corporation, authority, agency, board, commission, county, city and county, city, school district, or other public entity or any improvement district or zone thereof.

(b) The term "revenue bonds" means:

(1) Bonds, warrants, notes or other evidence of indebtedness of a local agency denominated revenue bonds under any law of this state and payable from funds other than the proceeds of ad valorem taxes or the proceeds of ad valorem taxes or the proceeds of assessments levied upon property in the local agency.

(2) Bonds, notes, interim certificates, debentures, or other obligations of a redevelopment agency, including, but not limited to, obligations payable in whole or in part from taxes allocated to and paid into a special fund of the agency pursuant to Article 6 (commencing with Section 33670), Chapter 6, Part 1, Division 24 of the Health and Safety Code.

SEC. 2. Section 53571 of the Government Code is amended to read:

53571. It is hereby declared that it is a public purpose for a local agency to issue bonds for the purpose of refunding any revenue bonds of the local agency, whether due or not due, or which have or which may hereinafter become payable at the option of such local agency, or by consent of the bondholders, or by any lawful means whether the indebtedness evidenced by such revenue bonds be now existing or may hereafter be created.

Any such refunding bonds may be outstanding at the same time as the revenue bonds to refund which such refunding bonds are issued (subject to any contractual limitations created in the proceedings for the issuance of such revenue bonds) and may be on a parity with or subordinate to such revenue bonds.

Such refunding bonds may be issued under any applicable revenue bond law, including but not limited to, the Revenue Bond Law of 1941 (Chapter 6 of this part), the Parking Law of 1949 (Part 2 of Division 18 of the Streets and Highways Code), the Parking District Law of 1951 (Part 4 of Division 18 of the Streets and Highways Code), and the Joint Exercise of Powers Act (Articles 1 and 2, Chapter 5,

Division 7, Title 1), and the Community Redevelopment Law (Part 1 of Division 24 of the Health and Safety Code), and shall be deemed issued for a valid public purpose and a proper bond purpose under such applicable revenue bond law, and interest upon the refunding bonds or the bonds to be refunded from the date thereof to the date of payment of the bonds to be refunded or the date upon which the bonds to be refunded will be paid pursuant to call or agreement with the holders of such bonds may be paid from the proceeds of the refunding bonds or the investment of such proceeds.

SEC. 3. The powers conferred by this act are in addition and supplemental to and not in substitution for, and the limitations imposed by the act shall not affect the powers conferred by, Part 1 (commencing with Section 33000) of Division 24 of the Health and Safety Code or any other law authorizing the issuance of refunding bonds by a redevelopment agency.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many redevelopment agencies throughout the state have outstanding tax allocation bonds bearing high interest rates. By supplementing existing statutory authority contained in the Community Redevelopment Law to facilitate the issuance and sale of refunding bonds, the act will enable redevelopment agencies to take immediate advantage of prevailing bond market conditions to refinance redevelopment projects at a lower interest cost and thus assist such agencies in the alleviation of blight and the remedying of conditions injurious to the health and welfare of the inhabitants of the state. Therefore, it is necessary that this act take effect immediately.

CHAPTER 13

An act making an appropriation for the Department of Food and Agriculture, in augmentation of the Budget Act of 1972, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund in the State Treasury the sum of six hundred eighty-nine thousand eight hundred eighty dollars ($689,880) and transferred to the Department of Food and Agriculture, in augmentation of the 1972–73 support budget of such department, for continuation of the meat inspection program.

SEC 2. This appropriation to the Department of Food and Agriculture is necessary since the appropriation made by the Budget Act of 1972 for the meat inspection program was dependent upon the anticipated increase in the federal funding for such program under the state and federal cost sharing program. However, the federal legislation which would have provided for such an anticipated increase was not enacted into law.

SEC. 3. This act makes an appropriation for the usual current expenses of the state within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 14

An act to add and repeal Section 19700.747 of the Education Code, relating to the rehabilitation and replacement of unsafe school facilities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 30, 1973. Filed with Secretary of State March 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 19700.747 is added to the Education Code, to read:

19700.747. In the case of a school district which maintains only one school, there may be included in apportionments made to eligible school districts under Section 19700.745 or 19700.746, amounts needed for the purpose of renting or leasing for up to two years temporary or portable school buildings, and necessary sites therefor, to house pupils temporarily displaced by the rehabilitation or replacement of unsafe school facilities if, in the judgment of the State Allocation Board, there are no other practical means of housing the pupils of the school during the period in which the reconstruction or replacement of unsafe school facilities is taking place.

This section shall remain in effect for two years after its effective date, and upon the expiration of that time is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that projects for the rehabilitation or replacement of structurally inadequate school facilities, for which the approval of state apportionments are presently pending, may be expeditiously approved and undertaken, it is necessary that this act take immediate effect.

CHAPTER 15

An act making an appropriation for the acquisition of lands for the state park system and declaring the urgency thereof, to take effect immediately.

[Approved by Governor March 30, 1973 Filed with Secretary of State March 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the Bagley Conservation Fund to the Department of Parks and Recreation the sum of two hundred thousand dollars ($200,000) for the acquisition of certain lands in the Santa Monica Mountains located within the city limits of the City of Los Angeles near the community of Pacific Palisades for the state park system. Such acquisition shall be subject to the provisions of the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The lands described in Section 1 of this act must be acquired by April 1, 1973, in order that a grant-in-aid of four hundred thousand dollars ($400,000) may be received from the Department of Housing and Urban Development towards meeting the cost of acquisition. It is therefore necessary that this act take immediate effect.

CHAPTER 16

An act to amend Section 205.7 of, and to repeal Section 205.8 of, the Revenue and Taxation Code, relating to property taxation, making an appropriation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 4, 1973 Filed with Secretary of State April 4, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 205.7 of the Revenue and Taxation Code, as amended by Chapter 533 of the Statutes of 1972, is amended to read:

205.7. (a) There is exempt from taxation property, constituting the home, of every resident of this state who is a veteran as specified in Section 1¼ of Article XIII of the Constitution, and who, by reason of a permanent and total service-connected disability incurred in such military or naval service is blind in both eyes with visual acuity

of 5/200 or less.

Where such a person sells or otherwise disposes of such property, constituting the home, and thereafter acquires, with or without assistance from the government of the United States, any other property which such person occupies habitually as a home, the exemption allowed pursuant to this section shall apply to such other property.

No person shall be eligible for such exemption unless he was a resident of California at the time of his entry upon military or naval service, or unless he has resided in this state for five years out of the nine years immediately preceding the date of his application for the exemption, or unless he was a resident of California on November 8, 1966.

This exemption includes the home of such a person owned in either joint, common or community interest with his or her spouse.

The exemption granted to any such person or any such person and his or her spouse shall not exceed ten thousand dollars ($10,000) and shall not extend to more than one home.

An exemption granted to a claimant in accordance with the provisions of this section shall be in lieu of any other property tax exemption to which the claimant may be entitled, and no property tax exemption may be claimed by any other person with respect to the same home for which an exemption has been granted under the provisions of this section.

(b) The exemption provided by this section applies to the home of such a person which is owned by a corporation of which he is a shareholder, the rights of shareholding in which entitle him to possession of a home owned by the corporation. The exemption provided by this section shall be shown on the local roll and shall reduce the assessed value of such corporation; provided, that such reduction shall not exceed ten thousand dollars ($10,000) for any person or for any person and his spouse; and provided further, that the exemption shall not exceed the assessed value of the home to which such resident is entitled to possession. Notwithstanding any provision of law or articles of incorporation or bylaws of such corporation to the contrary, it is the intent of the Legislature that any reduction of property taxes paid by such corporation shall reflect an equal reduction in any charges by such corporation to the veteran who, by reason of his qualifying for the exemption, made possible such reduction for such corporation.

SEC. 2. Section 205.8 of the Revenue and Taxation Code is repealed.

SEC. 3. (a) The Controller shall report to the Legislature on the amount of the claims made by county auditors under Section 16113 of the Government Code for compensation for property tax revenues lost by reason of the exemption of property by subdivision (b) of Section 205.7 of the Revenue and Taxation Code, as amended by Section 1 of this act. Such report shall be made on or before the 15th day of November next following the operative date of this act,

in order that the Legislature may appropriate funds for the subventions required by Section 2163 of the Revenue and Taxation Code.

(b) It was the intent of the Legislature in the enactment of Chapter 533 of the Statutes of 1972 to make the increase in the blind veterans' exemption operative with respect to taxes for the 1973–74 fiscal year. Due to the length of the 1972 Regular Session, Chapter 533 does not become effective until after the lien date for the 1973–74 fiscal year. Therefore, the increase in the exemption provided in subdivision (a) of Section 205.7 of the Revenue and Taxation Code, as amended by Section 1 of this act, is a clarification and restatement of existing law, and no reimbursement to local government shall be made under Section 2163 of the Revenue and Taxation Code by reason of the operation of such subdivision.

SEC. 4. The sum of two thousand dollars ($2,000) is hereby appropriated from the General Fund to the State Controller for allocation and disbursement to local government pursuant to Section 2163 of the Revenue and Taxation Code to reimburse local governments for property tax revenues lost by them pursuant to subdivision (b) of Section 205.7 of the Revenue and Taxation Code, as amended by Section 1 of this act, for the 1973–74 fiscal year.

SEC. 5. The provisions of this act shall be operative for the 1973–74 fiscal year and fiscal years thereafter.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the homes of certain blind veterans may qualify for the increased exemption of ten thousand dollars ($10,000) for the 1973–74 fiscal year, thereby fulfilling the public policy of the state as expressed in Sections 1¼a and 1¼b of Article XIII of the California Constitution, it is necessary that this act take effect immediately.

CHAPTER 17

An act to amend Section 6021 of the Business and Professions Code, relating to the State Bar, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 6, 1973 Filed with Secretary of State April 6, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 6021 of the Business and Professions Code is amended to read:

6021. Within the period of 180 days next preceding the annual meeting, the board, at a meeting called for that purpose, shall elect

the president, vice presidents and treasurer for the ensuing year. Such officers shall be elected from among the board members who have at least one or more years to complete their respective terms.

The newly elected president, vice presidents and treasurer shall assume the duties of their respective offices at the conclusion of the annual meeting following their election.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for this act to apply to the election of 1973, it is necessary that it take effect immediately.

CHAPTER 18

An act to repeal and add Section 1752.15 to the Welfare and Institutions Code, relating to California Youth Authority, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 9, 1973. Filed with Secretary of State April 9, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 1752.15 of the Welfare and Institutions Code is repealed.

SEC. 2. Section 1752.15 is added to the Welfare and Institutions Code, to read:

1752.15. The director may enter into contracts, with the approval of the Director of Finance, with any county of this state upon request of the board of supervisors thereof, wherein the Department of the Youth Authority agrees to furnish temporary emergency predisposition detention facilities and necessary services incident thereto, for persons under the age of 18 years who are in the custody of the county probation officer pursuant to provisions of Chapter 2 (commencing with Section 500) of Part 1 of Division 2. Facilities of the department may be used only on a temporary basis arising from an extraordinary number of arrests incident to a mass disturbance or from other incidents when existing juvenile facilities are exhausted. They may not be used for the detention of a person described in Section 600. The county shall reimburse the state for the cost of such services, such cost to be determined by the director. The department shall present to the county, not more than once a month, a claim for the amount due the state under this section which the county shall process and pay pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code.

SEC. 3. The Department of the Youth Authority shall report to

the Legislature not later than January 15, 1975, the extent to which the department has provided facilities and services pursuant to this act. Copies of the report shall also be sent not later than January 15, 1975, to the Assembly Committee on Criminal Justice and the Senate Committee on Judiciary.

SEC. 4. This act shall remain in effect until April 1, 1975, and on such date is repealed.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 1752.15 of the Welfare and Institutions Code as presently in effect shall, by virtue of Section 2 of Chapter 1339 of the Statutes of 1970 be repealed and shall have no force or effect after March 7, 1973. The need for the provisions of this section remains. The juvenile facilities of the counties are extremely overcrowded, and the counties may not be able to provide the facilities and services necessary for the detention of juveniles in the event of a mass disturbance or other incidents. In order to provide for the facilities and services required in such an eventuality, it is necessary that this act take effect immediately.

CHAPTER 19

An act to amend Sections 1754 and 1779 of the Probate Code, and to amend Sections 13871, 13872, and 17146.5 of, and to add Sections 13861.5, 17839, and 18471 to, the Revenue and Taxation Code, relating to prisoners of war, and declaring the urgency thereof, to take effect immediately.

SEC. 5. Section 13872 of the Revenue and Taxation Code is amended to read:

13872. (a) Subdivision (a) of Section 13871 is retroactive with respect to all transfers made by any such transferor dying on or after September 16, 1940.

(b) For purposes of subdivision (b) of Section 13871 and Section 17839, if the transferor is a person who was, or is, in missing status as determined under subchapter VII (commencing with Section 5561) of Chapter 55 of Title 5 of the United States Code or under Chapter 10 (commencing with Section 551) of Title 37 of such code, it shall be conclusively presumed:

(1) That such transferor continues to be living until such missing status has been terminated; and

(2) That the date of death of such transferor is not earlier than the date on which the secretary concerned, or his designee, or the head of the agency concerned, or his designee, issues, in writing, a determination or a finding under such provisions by which such

missing status is so terminated.

(c) For purposes of paragraph (2) of subdivision (b), "secretary concerned" and "head of the agency" shall have the same meanings as they have in the provisions of the United States Code cited in subdivision (b).

SEC. 6. Section 17146.5 of the Revenue and Taxation Code is amended to read:

17146.5. (a) Gross income does not include compensation received for active service as a member below the grade of commissioned officer in the armed forces of the United States for any month during any part of which such member—

(1) Served in a combat zone during an induction period, or

(2) Was hospitalized as a result of wounds, disease, or injury incurred while serving in a combat zone during an induction period, if such hospitalization occurs prior to such member first resuming full duty status following such service, or his termination of active military duty, whichever first occurs.

(b) Gross income does not include so much of the compensation as does not exceed five hundred dollars ($500) received for active service as a commissioned officer in the armed forces of the United States for any month during any part of which such officer—

(1) Served in a combat zone during an induction period, or

(2) Was hospitalized as a result of wounds, disease, or injury incurred while serving in a combat zone during an induction period, if such hospitalization occurs prior to such officer first resuming full duty status following such service or his termination of active military duty, whichever first occurs.

(c) For purposes of this section—

(1) The term "commissioned officer" does not include a commissioned warrant officer.

(2) The term "combat zone" means any area which the President of the United States by executive order designates, for purposes of Section 112 of the Internal Revenue Code of 1954, as an area in which armed forces of the United States are or have engaged in combat.

(3) Service is performed in a combat zone only if performed on or after the date designated by the President by executive order as the date of the commencing of combatant activities in such zone, and on or before the date designated by the President by executive order as the date of the termination of combatant activities in such zone.

(4) The term "compensation" does not include pensions and retirement pay.

(5) The term "induction period" means any period during which, under laws heretofore or hereafter enacted relating to the induction of individuals for training and service in the armed forces of the United States, individuals (other than individuals liable for induction by reason of a prior deferment) are liable for induction for such training and service.

(d) (1) Gross income does not include compensation received for active service as a member of the armed forces of the United States,

for any month during any part of which such member is in a missing status (as defined in Section 551(2) of Title 37 of the United States Code) during the Vietnam Conflict as a result of such conflict, other than a period with respect to which it is officially determined (under Section 552 of such title) that he is officially absent from his post of duty without authority.

(2) Gross income does not include compensation received for active service as an employee for any month during any part of which such employee is in a missing status during the Vietnam Conflict as a result of such conflict. For purposes of this paragraph the terms "active service," "employee" and "missing status" have the respective meaning given to such terms by Section 5561 of Title 5 of the United States Code.

(3) For purposes of this part, the Vietnam Conflict began August 5, 1964, and ends on the date designated by the President by executive order as the date of the termination of combatant activities in Vietnam. For purposes of this subdivision, an individual is in a missing status as a result of the Vietnam Conflict if immediately before such status began he was performing service in Vietnam or was performing service in southeast Asia in direct support of military operations in Vietnam.

(e) The amendments to this section at the 1973–74 Regular Session of the Legislature are applicable to compensation, received by members of the armed forces of the United States described in subdivision (d) and those employees described in subdivision (d), on which the tax under this part is not due and payable prior to the date of this amendment, by virtue of the operation of Section 18434 or 18470 of this code.

SEC. 7. Section 17839 is added to the Revenue and Taxation Code, to read:

17839. (a) In the case of any individual who dies after August 5, 1964, during an induction period (as defined in Section 17146.5) while in active service as a member of the armed forces of the United States, if such death occurred while serving in a combat zone (as determined in Section 17146.5) or as a result of wounds, disease, or injury incurred while so serving, any tax imposed by this part shall not apply with respect to the taxable year in which falls the date of his death, or with respect to any prior consecutive taxable year ending on or after the first day he so served in a combat zone.

(b) Subdivision (a) is applicable to taxable years ending prior to January 1, 1974, for which the tax under this part is not due and payable by virtue of the operation of Section 18434 or 18470 of this code, and to any later taxable years not later than the taxable year in which occurs the date of death of a person in missing status under subdivision (c).

(c) For purposes of this section, in cases of persons in missing status, as such status is referred to in subdivision (b) of Section 13872, the date of death shall be determined in the same manner as in subdivision (b) of Section 13872.

SEC. 8. Section 18471 is added to the Revenue and Taxation Code, to read:

18471. (a) If refund or credit of overpayment for any taxable year resulting from the application of subdivision (d) of Section 17146.5 (including interest, additions to the tax, and additional amounts) is prevented at any time before the expiration of the applicable period specified in subdivision (b) of this section by the operation of any law or rule of law, such refund or credit of such overpayment may, nevertheless, be made or allowed if claim therefor is filed before the expiration of such applicable period.

(b) For purposes of this section, the applicable period for any individual with respect to any compensation is the period ending on whichever of the following days is later:

(1) The day which is one year after the effective date of this subdivision, or

(2) The day which is two years after the date on which the individual's missing status (within the meaning of subdivision (d) of Section 17146 5) has terminated for purposes of subdivision (d) of Section 17146.5.

SEC. 9. The public purposes of the provisions enacted in this act relating to income and inheritance taxation are to aid the administration of those tax laws by conforming the same more nearly to federal law, and to aid the morale and efficiency of the armed forces and related services of the United States.

SEC. 10. This act shall be known and may be cited as the P.O.W. Homecoming Act.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A question has been raised concerning the constitutionality of the P.O.W.-M.I.A. Family Relief Act of 1972, contained in Chapter 988 of the Statutes of 1972, since no provision is therein made for personal service or publication of notice of the judicial hearings which may be held pursuant to the provisions of such act, and there is therefore a concern that substituted service on the United States department or agency concerned may not be sufficient to meet constitutional due process standards. The families of persons who are missing in action or are still prisoners of war in southeast Asia are in immediate need of funds to provide for their shelter, food, health care, education, transportation, and other necessities of life. Hence, in order to remove any doubt concerning the validity of the act and so that immediate financial relief may be given to these families, it is necessary that this act shall go into immediate effect.

SEC. 2. Section 477 of the Code of Civil Procedure is repealed.

SEC. 3. Chapter 1 (commencing with Section 478) of Title 7 of Part 2 of the Code of Civil Procedure is repealed.

SEC. 4. Chapter 1 (commencing with Section 477) is added to Title 7 of Part 2 of the Code of Civil Procedure, to read:

CHAPTER 1. GENERAL PROVISIONS

477. Except as otherwise expressly provided, the provisional remedies, deposit in court, injunction and receivers, may not be had in justice courts.

478. A person may not be imprisoned in a civil action for debt or tort, whether before or after judgment. Nothing in this section affects any power a court may have to imprison a person who violates a court order.

SEC. 5. Section 515 of the Code of Civil Procedure, as amended by Chapter 855 of the Statutes of 1972, is amended to read:

515. The qualification of sureties under any written undertaking referred to in this chapter shall be such as are provided in Chapter 7 (commencing with Section 1041) of Title 14 of Part 2. Either party may, within two days after service of an undertaking or notice of filing an undertaking under the provisions of this chapter, give written notice to the court and the other party that he excepts to the sufficiency of the sureties If he fails to do so, he is deemed to have waived all objections to them. When a party excepts, the other party's sureties shall justify on notice within not less than two, nor more than five, days, in like manner as provided in Chapter 7 (commencing with Section 830) of Title 10 of Part 2. If the property be in the custody of the levying officer, he shall retain custody thereof until the justification is completed or waived or fails. If the sureties fail to justify, the levying officer shall proceed as if no such undertaking had been filed. If the sureties justify or the exception is waived, he shall deliver the property to the party filing such undertaking.

SEC. 6. Section 539 of the Code of Civil Procedure, as amended by Chapter 550 of the Statutes of 1972, is amended to read:

539. (a) Before issuing the notice and order pursuant to Section 538.1 or the writ pursuant to Section 538.5, the plaintiff must file with the clerk or judge a written undertaking with two or more sufficient sureties, to the effect that if the defendant recovers judgment, the plaintiff will pay all costs that may be awarded to the defendant and all damages which he may sustain by reason of the restraining order or the attachment, not exceeding the sum specified in the undertaking, and that if the restraining order or the attachment is discharged on the ground that the plaintiff was not entitled thereto under Sections 537 to 537.2, inclusive the plaintiff will pay all damages which the defendant may have sustained by reason of the restraining order or the attachment, not exceeding the sum specified in the undertaking. The sum specified in the undertaking shall be one-half (½) of the principal amount of the total indebtedness or damages claimed, excluding attorneys' fees. Nothing herein shall be construed to preclude the acceptance of an undertaking in which a larger sum is specified, if such undertaking be offered. The court on ex parte application of the plaintiff, may by written order, direct the issuance of the restraining order or the writ on the filing of an

undertaking in a lesser sum, if the court is satisfied that the defendant will be adequately protected thereby. The damages recoverable by the defendant pursuant to this section shall include all damages proximately caused by the service of the restraining order or the levy of the writ of attachment.

At any time after the issuing of the restraining order or the attachment, but not later than five days after actual notice of the levy of the writ of attachment, the defendant may except to the sufficiency of the sureties. If he fails to do so, he is deemed to have waived all objection to them. When excepted to, the plaintiff's sureties, within five days from service of written notice of exception, upon notice to the defendant of not less than two nor more than five days, must justify before the judge or clerk of the court in which the action is pending, in like manner as provided in Chapter 7 (commencing with Section 830), Title 10, Part 2; and upon failure to justify, or if others in their place fail to justify, at the time and place appointed, the writ of attachment must be vacated.

The court, at any time after issuance of the restraining order or the writ, on motion of the defendant, after notice to the plaintiff, or at the hearing pursuant to Section 538.4, may order the amount of the undertaking increased.

(b) The liability of any surety furnishing a bond pursuant to this section, if any, may be enforced on motion in the trial court without the necessity of an independent action. Notice of the motion shall be served on the persons whose liability is sought to be enforced at least 30 days prior to the time set for hearing of the motion. The notice shall state the amount of the claim and shall be supported by an affidavit or affidavits setting forth the facts on which the claim is based. Such notice and affidavit may be served in accordance with any procedure authorized by Chapter 5 (commencing with Section 1010), Title 14, Part 2. Judgment may be entered in accordance with the notice against the person or persons served therewith, unless such person or persons shall serve and file an affidavit or affidavits in opposition to the motion showing such facts as may be deemed by the judge hearing the motion sufficient to present a triable issue of fact. If such showing is made, the issues to be tried shall be specified by the court and trial thereof shall be set for the earliest date convenient to the court, allowing sufficient time for discovery. The surety shall not obtain a stay of the proceedings pending the determination of any third-party claims. Affidavits filed pursuant to this section shall conform to the requirements prescribed for affidavits filed pursuant to Section 437c.

SEC. 7. Section 667 of the Code of Civil Procedure is amended to read:

667. In an action to recover the possession of personal property, judgment for the plaintiff may be for the possession or the value thereof, in case a delivery cannot be had, and damages for the detention. If the property has been delivered to the plaintiff, and the defendant claim a return thereof judgment for the defendant may

be for a return of the property or the value thereof, in case a return cannot be had, and damages for taking and withholding the same. In an action on a contract or obligation in writing, for the direct payment of money, made payable in a specified kind of money or currency, judgment for the plaintiff, whether it be by default or after verdict, may follow the contract or obligation, and be made payable in the kind of money or currency specified therein; and in all actions for the recovery of money, if the plaintiff allege in his complaint that the same was understood and agreed by the respective parties to be payable in a specified kind of money or currency, and this fact is admitted by the default of the defendant or established by evidence, the judgment for the plaintiff must be made payable in the kind of money or currency so alleged in the complaint; and in an action against any person for the recovery of money received by such person in a fiduciary capacity, or to the use of another, judgment for the plaintiff must be made payable in the kind of money or currency so received by such person.

SEC. 8. Section 682 of the Code of Civil Procedure is amended to read:

682. The writ of execution must be issued in the name of the people, sealed with the seal of the court, and subscribed by the clerk or judge, and be directed to the sheriff, constable, or marshal, and it must intelligibly refer to the judgment, stating the court, the county, and in municipal and justice courts, the judicial district, where the judgment is entered, and if it be for money, the amount thereof, and the amount actually due thereon, and if made payable in a specified kind of money or currency, as provided in Section 667, the execution must also state the kind of money or currency in which the judgment is payable, and must require the officer to whom it is directed to proceed substantially as follows:

1. If it be against the property of the judgment debtor, it must require such officer to satisfy the judgment, with interest, out of the personal property of such debtor, or if it is against the earnings of such debtor, such levy shall be made in accordance with Section 682.3, and if sufficient personal property cannot be found, then out of his real property; or if the judgment be a lien upon real property, then out of the real property belonging to him on the day when the abstract of judgment was filed as provided in Section 674 of this code, or at any time thereafter.

2. If it be against real or personal property in the hands of the personal representatives, heirs, devisees, legatees, tenants, or trustees, it must require such officer to satisfy the judgment, with interest, out of such property.

3. If it be issued on a judgment made payable in a specified kind of money or currency, as provided in Section 667, it must also require such officer to satisfy the same in the kind of money or currency in which the judgment is made payable, and such officer must refuse payment in any other kind of money or currency; and in case of levy and sale of the property of the judgment debtor, he must refuse

payment from any purchaser at such sale in any other kind of money or currency than that specified in the execution. Any such officer collecting money or currency in the manner required by this chapter, must pay to the plaintiff or party entitled to recover the same, the same kind of money or currrency received by him, and in case of neglect or refusal to do so, he shall be liable on his official bond to the judgment creditor in three times the amount of the money so collected.

4. If it be for the delivery of the possession of real or personal property, it must require such officer to deliver the possession of the same, describing it, to the party entitled thereto, and may at the same time require such officer to satisfy any cost, damages, rents, or profits recovered by the same judgment, out of the personal property of the person against whom it was rendered, and the value of the property for which the judgment was rendered to be specified therein if a delivery thereof cannot be had; and if sufficient personal property cannot be found, then out of the real property, as provided in the first subdivision of this section.

SEC. 9. Section 684 of the Code of Civil Procedure is amended to read:

684. When the judgment is for money, or the possession of real or personal property, the same may be enforced by a writ of execution; when the judgment requires the sale of property, the same may be enforced by a writ reciting such judgment, or the material parts thereof, and directing the proper officer to execute the judgment, by making the sale and applying the proceeds in conformity therewith; when the judgment requires the performance of any other act than as above designated, a certified copy of the judgment may be served upon the party against whom the same is rendered, or upon the person or officer required thereby or by law to obey the same, and obedience thereto may be enforced by the court.

SEC. 10. Section 804 of the Code of Civil Procedure is amended to read:

804. Whenever such action is brought, the Attorney General, in addition to the statement of the cause of action, may also set forth in the complaint the name of the person rightly entitled to the office, with a statement of his right thereto.

After appearance, a defendant or his attorney is entitled to notice of all subsequent proceedings of which notice is required to be given. Where a defendant has not appeared, service of notice or papers need not be made upon him.

CHAPTER 21

An act to amend Section 4706.5 of the Labor Code, relating to workmen's compensation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 12, 1973 Filed with Secretary of State April 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4706.5 of the Labor Code, as added by Chapter 1334 of the Statutes of 1972, is amended to read:

4706.5. (a) Whenever any fatal injury is suffered by an employee under such circumstances as to entitle him to compensation benefits, but for his death, and such employee does not leave surviving him any person entitled to a dependency death benefit, the employer shall pay a sum to the Department of Industrial Relations equal to the total dependency death benefit that would be payable to a surviving spouse with no dependent minor children.

(b) Where the deceased employee leaves no surviving dependent, personal representative, heir, or other person entitled to

the accrued and unpaid compensation referred to in Section 4700, such accrued and unpaid compensation shall be paid by the employer to the Department of Industrial Relations.

(c) The payments to be made to the Department of Industrial Relations, as required by subdivisions (a) and (b), shall be placed in the General Fund for the payment of subsequent injuries specified in Article 5 (commencing with Section 4750) of this chapter. The payments so received are hereby appropriated for such purpose.

(d) The payments to be made to the Department of Industrial Relations, as required by subdivision (a), shall be paid to the department in a lump sum in the manner provided in subdivision (b) of Section 5101.

(e) The Department of Industrial Relations shall keep a record of all payments due the state under this section, and shall take such steps as may be necessary to collect such amounts.

(f) Each employer, or his insurance carrier, shall notify the administrative director, in such form as the administrative director may prescribe, of each employee death, except when the employer has actual knowledge or notice that the deceased employee left a surviving dependent.

SEC. 2. This act shall become operative March 7, 1973.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 4706.5 of the Labor Code, as added by Chapter 1334 of the Statutes of 1972, will become effective March 7, 1973. The section as originally enacted will require, on and after such date, employers, or their insurance carriers, to notify the administrative director of each employee death, the circumstances of each employee death, and the known dependents, if any, of each deceased employee. The Legislature, in enacting such section, did not intend to require such notification of each employee who dies, but only to require the notification where the deceased employee has no surviving spouse and no minor children Therefore, in order that this act will be operative on the same date as, and supersede, Section 4706.5 of the Labor Code as added by Chapter 1334 of the Statutes of 1972, it is necessary that this act take effect immediately.

CHAPTER 22

An act to amend Sections 19700.60, 19700.745, and 19700.746 of, and to add Section 19700.605 to the Education Code, relating to state school building aid, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 12, 1973 Filed with Secretary of State April 12, 1973]

0208 357546 118

The people of the State of California do enact as follows:

SECTION 1. Section 19700 60 of the Education Code is amended to read:

19700.60. Apportionments under this article from the State School Building Aid Fund shall be made for the sole purpose of reconstructing or replacing existing substandard buildings that present a potential threat to the safety of schoolchildren and which do not comply with the requirements of Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 or for the purpose of restoring facilities damaged by an earthquake after February 1, 1971, and for which there are no other state or federal funds available for such restoration. Such apportionments shall be made in the manner and subject to the conditions herein provided and in accordance with policies adopted by the board for the following purposes, all of which purposes are declared to be, and are, public works:

(a) The reconstruction, renovation, or remodeling of existing school buildings and facilities.

(b) The construction of permanent or temporary school buildings and facilities for replacement purposes.

(c) The acquisition, by purchase or lease, and the installation of classrooms for replacement purposes.

(d) The acquisition and development of school sites necessary for construction of buildings approved under this article.

(e) The construction, repair, attachment, or development of offsite facilities, utilities or improvements which the board determines are necessary to the proper operation or functioning of the school facilities for which apportionments are made.

(f) The acquisition of such additional furniture and equipment as is deemed necessary by the board to make the rehabilitated or replaced facilities properly function.

(g) Any combination of the above.

Except as is provided in Section 19700.605, apportionments shall not be made under this article for the purpose of reconstructing or replacing existing substandard buildings which have already been reconstructed or replaced using funds made available under Chapter 1575 of the Statutes of 1947, as amended, or Chapter 5 (commencing with Section 18901), Chapter 8 (commencing with Section 19401), or Chapter 10 (commencing with Section 19551) of this division.

As a part of such purposes, where a district is required by a contract entered into between itself and a contractor, to obtain at its own expense insurance covering risks incurred during any construction, reconstruction, or alteration for which an apportionment has been made, the cost thereof may be paid either directly, or by way of reimbursement, to the district out of the apportionment, or out of any apportionment made specifically covering such insurance; provided, that in other respects the apportionments are eligible for payment under provisions of this chapter.

SEC. 2. Section 19700.605 is added to the Education Code, to

read:

19700.605. Notwithstanding the provisions of Section 19700.60, apportionments under this article from the proceeds of bonds remaining from the authorization provided in the State School Building Aid Bond Law of 1966 may be made for the purpose of reconstructing or replacing existing substandard buildings that present a potential threat to the safety of school children and which were not previously constructed or reconstructed in accordance with the requirements of Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 or which if previously reconstructed to comply with the provisions of said Article 4, no longer meet the standards of structural safety prescribed under the authority of Article 4 in effect on April 10, 1933.

SEC. 3. Section 19700.745 of the Education Code is amended to read:

19700.745. Notwithstanding any provisions of this article, any school district which has levied the entire twenty-cent ($0.20) tax rate per one hundred dollars ($100) of assessed valuation permitted under Section 15518 and has declared the entire proceeds therefrom available as local matching funds for a particular project, but lacks sufficient matching funds for such project as required under this article, may file an application thereunder prior to January 1, 1974. Under such circumstances the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the twenty-cent ($0.20) tax rate and such other funds which in the opinion of the board is or can be made currently available for the project, including funds authorized by the electors from bonds or otherwise, would be necessary to construct minimum essential facilities for the project as determined by the board. Not more than forty-five million dollars ($45,000,000) available for the purposes of this article may be apportioned for increases in the basic computed state matching ratio pursuant to this section. The source of the forty-five million dollars ($45,000,000) apportioned for this purpose shall be thirty million dollars ($30,000,000) previously appropriated for this purpose from the School Building Safety Fund by Chapter 500 of the Statutes of 1972, plus an additional fifteen million dollars ($15,000,000) of bond funds remaining from the State School Building Aid Bond Law of 1966.

SEC. 4. Section 19700.746 of the Education Code is amended to read:

19700.746. Notwithstanding any provisions of this article, where less than thirty million dollars ($30,000,000) has been apportioned or otherwise reserved by the board pursuant to Section 19700.745 on January 1, 1973, the board shall apportion as grants the remainder thereof under this section for matching purposes pursuant to this article to districts which the board determines has the greatest need. Such apportionments under this section may be made only to those districts (1) which would not have been eligible to apply under

Section 19700.745 if they had levied the entire twenty-cent ($0.20) tax rate specified therein, and (2) which have filed an application by January 1, 1973 and received an apportionment under this article from the board by February 28, 1973.

SEC. 5. Any application for an apportionment of funds under Section 19700.745 of the Education Code, which application was filed subsequent to January 1, 1973, and prior to the effective date of this act, shall be deemed to have been filed within the permissible time for filing applications as prescribed by Section 19700.745, as amended by Section 3 of this act.

SEC. 6 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The one-year extension of time for filing applications for loans afforded by this act will expire on the date that nonurgency statutes enacted at the 1973–74 Regular Session will take effect. In order that school districts may make timely applications for loans prior to that time, and to insure that the hazards of structurally inadequate school buildings can be dealt with at the earliest practicable time, it is essential that this act take effect immediately.

CHAPTER 23

An act to add Section 203.5 to the Elections Code, relating to elections, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 12, 1973 Filed with Secretary of State April 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 203.5 is added to the Elections Code, to read:

203.5. A person duly registered as an elector in any precinct in California who removes therefrom within 30 days prior to an election shall, for the purpose of such election, be deemed to be a resident and qualified elector of the precinct from which he so removed until the close of the polls on the day of such election.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act shall be operative for the numerous municipal and school district elections which will be held in April, 1973, it is necessary that this act shall take effect immediately.

CHAPTER 24

An act to repeal and add Section 17401.5 of the Education Code, relating to financial support for the public schools, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 12, 1973 Filed with Secretary of State April 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 17401.5 of the Education Code, as added by Chapter 1406 of the Statutes of 1972, is repealed.

SEC. 2. Section 17401.5 is added to the Education Code, to read:

17401.5. If, due to changes in federal legislation, the entitlement under P.L. 874 of the 81st Congress for the 1972–1973 fiscal year has been reduced substantially in a district, the district superintendent may petition the Superintendent of Public Instruction for an advance of funds from the General Fund during such fiscal year of a part of the first principal apportionment to such district for the 1973–1974 fiscal year, which advance shall not exceed the amount of the computed reduction. There is hereby appropriated from the General Fund sufficient funds as needed to make the advance of funds as authorized pursuant to this section.

If, upon review of a request, the Director of Finance and the Superintendent of Public Instruction deem it necessary to provide an advance of funds, they shall certify to the Controller the amount of the advance to be allowed, and the Controller shall transfer such amount to the school district, to be repaid by reducing the first principal apportionment to be made to the district during the 1973–1974 fiscal year or alternatively, at the option of the district with the approval of the Director of Finance and the Superintendent of Public Instruction, by the withholding of equal amounts from the first principal apportionments to be made to the district during the 1973–1974, 1974–1975, and 1975–1976 fiscal years. The total amount withheld shall equal the amount of the advance, plus interest, if repayment is not made during the 1973–1974 fiscal year, at a rate to be determined by the Director of Finance.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chapter 1406 of the Statutes of 1972 added Section 17401.5 to the Education Code in order to provide assistance to school districts which suffer a substantial reduction in their entitlement to federal funds under Public Law 81-874. This assistance was intended to be available during the 1972–1973 fiscal year, but because of an inadvertence, Section 17401.5 will not become operative until July 1, 1973. In order to avoid this unintended result, to carry out the

original intent of the Legislature, to assist school districts, and to make certain technical changes, it is necessary that this act take effect immediately.

CHAPTER 25

An act relating to attendance in the public schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 12, 1973 Filed with Secretary of State April 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. (a) The day of Thursday, January 25, 1973, shall, for the purposes of all requirements of law in which computed average daily attendance of pupils in the kindergarten, elementary, high school, and community college grade levels in the public schools is a factor, be deemed to have been a day during which:

(1) School was actually taught for the minimum schoolday prescribed by law.

(2) Pupils in attendance in such grade levels on January 26, 1973, were in attendance for the minimum schoolday prescribed by law.

(b) Subdivision (a) of this section shall not apply to any school or its attending pupils, with respect to which the school district governing board or county superintendent of schools having jurisdiction had, on or before January 22, 1973, designated the day of January 25, 1973, as a day upon which the school was to be closed, either as a holiday, part of a vacation period, or other regular school closure period, or to a school or its attending pupils which had been scheduled to be in session for less than 176 days during the 1972–1973 school year.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Unusually severe weather has required numerous school districts in the state to exhaust the extra attendance days scheduled in the school term to provide a cushion with respect to the required minimum of 175 days of attendance in the next preceding fiscal year for receiving any apportionment from the State School Fund. The declaration of January 25, 1973, as a National Day of Mourning has resulted in the scheduled attendance of numerous school districts falling below the prescribed 175-day minimum. This act would alleviate the related problems. In order that the administrative problems posed by an ordinary statute may be avoided, this act should take effect before the end of the 1972–73 fiscal year. It is, therefore, necessary that this act take effect immediately.

CHAPTER 26

An act to add and repeal Sections 8210.5 and 8210.6 of the Fish and Game Code, relating to commercial fishing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 13, 1973 Filed with Secretary of State April 13, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 8210.5 is added to the Fish and Game Code, to read:

8210.5. Notwithstanding the provisions of Section 8210, in Districts 6, 7, 10, 11, 15, 16, 17, 18 and 19, silver salmon may be taken only by hook and line and only between May 15th and September 30th under the authority of a commercial fishing license. There is no bag limit. No silver salmon taken may be less than 22 inches measured from tip of the snout to the extreme tip of the tail.

This section shall remain in effect only until October 1, 1974, and as of that date is repealed.

SEC. 2. Section 8210.6 is added to the Fish and Game Code, to read:

8210.6. Notwithstanding the provisions of Section 8210, in Districts 6, 7, 10, 11, 15, 16, 17, 18 and 19, silver salmon may be taken only by hook and line and only between June 1st and September 30th under the authority of a commercial fishing license. There is no bag limit. No silver salmon taken may be less than 22 inches measured from tip of the snout to the extreme tip of the tail.

This section shall become operative October 1, 1974, and shall remain in effect only until October 1, 1976, and as of that date is repealed.

SEC. 3. The Department of Fish and Game, in cooperation with representatives of the commercial fishing industry and sport fishermen, shall annually during 1973, 1974, 1975, and 1976 evaluate the effect of the provisions of this act, and shall report its findings and recommendations thereon to the Legislature on or before December 10th of each such year. In the event that the department's evaluation in any annual report indicates that as a result of this act there has been substantial harm to the silver salmon resource, upon a finding by the director to that effect, silver salmon may be taken in Districts 6, 7, 10, 11, 15, 16, 17, 18, and 19 under the authority of a commercial fishing license by hook and line only and between April 15th and September 30th for the next following season, notwithstanding Sections 8210.5 or 8210.6, and no such silver salmon may be less than 25 inches in length during such season, measured from tip of the snout to the extreme tip of the tail and there is no bag limit. The director shall report such action to the Legislature.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

0385 357635 136

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Concern has been expressed that the capture and release of silver salmon less than 25 inches in length, particularly during the April 15 to May 15 period of the commercial salmon fishing season, has been harmful to the silver salmon resource. In order to test this claim, the opening date of the silver salmon commercial fishing season should be delayed until May 15 for two commercial salmon fishing seasons. By allowing the taking of silver salmon in the 22- to 25-inch-length class, it will be possible to determine with certainty the number of silver salmon taken in this size range and the effect of such taking on the resource.

In order to make the provisions of this act applicable to the ensuing commercial salmon fishing season, which would otherwise open on April 15, it is necessary that this act become effective immediately.

CHAPTER 27

An act to amend Section 15958.6 of the Education Code, relating to contracts of school districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 17, 1973. Filed with Secretary of State April 17, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 15958.6 of the Education Code, as added by Chapter 13 of the Statutes of 1972, is amended to read:

15958.6. Notwithstanding any limitations imposed by this article specifically with respect to electromechanical or electronic data-processing work to be done or related services to be performed, the governing board of any school district situated wholly or in part within a county having a population in excesss of 1,400,000 in which no regional educational data-processing center was in operation on July 1, 1972, and which district had contracted, prior to January 1, 1972, for such electromechanical or electronic data-processing work to be done or related services to be performed, may contract for such work to be done or related services to be performed, without regard to such limitations. As used in this section "any school district" includes a unified school district which is effective for all purposes on July 1, 1973, and which includes within its boundaries all or a part of the territory of a school district which had contracted, prior to January 1, 1972, for such electromechanical or electronic data-processing work to be done or related services to be performed.

This section shall remain in effect only until June 30, 1975, and as of that date is repealed.

SEC. 2. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Numerous school districts throughout the state, which entered into contracts for electromechanical and electronic data-processing work prior to January 1, 1972, have continued need for such work to be done, and related services to be performed, since such school districts are situated in counties in which no regional educational data-processing center is in operation. In order that such school districts may continue the orderly operation of their business, personnel, and pupil-related services without disruption due to statutory contractual limitations, it is necessary that this act take effect at the earliest possible time.

CHAPTER 28

An act to amend Sections 27404 and 27420 of the Public Resources Code, relating to the coastal zone, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately

[Approved by Governor April 18, 1973 Filed with Secretary of State April 18, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 27404 of the Public Resources Code is amended to read:

27404. If, prior to November 8, 1972, any city or county has issued a building permit, no person who has obtained a vested right thereunder shall be required to secure a permit from the regional commission; providing that no substantial changes may be made in any such development, except in accordance with the provisions of this division. Any such person shall be deemed to have such vested rights if, prior to November 8, 1972, he has in good faith and in reliance upon the building permit diligently commenced construction and performed substantial work on the development and incurred substantial liabilities for work and materials necessary therefor. Expenses incurred in obtaining the enactment of an ordinance in relation to the particular development or the issuance of a permit shall not be deemed liabilities for work or material.

SEC. 2. Section 27420 of the Public Resources Code is amended to read:

27420. (a) The commission shall prescribe the procedures for permit applications and their appeal and may require a reasonable filing fee and the reimbursement of expenses. All such fees and reimbursements collected heretofore or hereafter shall be credited to, and shall be in augmentation of, the appropriation made in

Section 4 of Proposition 20 as approved by the electorate at the general election on November 7, 1972, and are hereby appropriated to the commission for the same period and for the same purposes as set forth therein.

(b) The regional commission shall give written public notice of the nature of the proposed development and of the time and place of the public hearing. Such hearing shall be set no less than 21 nor more than 90 days after the date on which the application is filed.

(c) The regional commission shall act upon an application for permit within 60 days after the conclusion of the hearing and such action shall become final after the 10th working day unless an appeal is filed within that time.

SEC. 3. It is not the intent of the Legislature, in enacting the provisions of this act, to affect any right which might otherwise vest or has vested under the law.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of this act are designed to better achieve the objectives of the California Coastal Zone Conservation Act of 1972, by clarifying the existing uncertainties as to the permit requirements of developments on which construction had commenced prior to November 8, 1972, and by specifying that application filing fees for permits shall be credited to the California Coastal Zone Conservation Commission. In order to have such fees credited to the commission as soon as possible, and to have the uncertainties as to the permit requirements clarified as soon as possible, and thus, eliminate costly construction delays, it is necessary that the provisions of this act become effective immediately.

CHAPTER 29

An act relating to mentally retarded pupils, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 27, 1973. Filed with Secretary of State April 27, 1973.]

The people of the State of California do enact as follows:

SECTION 1. The Superintendent of Public Instruction shall authorize one or more school districts or county superintendents of schools in the state to conduct a pilot program for the education of mentally retarded pupils who come within the provisions of Section 6903 of the Education Code but who are between three and five years of age.

The Superintendent of Public Instruction shall adopt rules and regulations for the conduct of such a pilot program. Such rules and regulations shall provide that the Superintendent of Public Instruction shall evaluate the effectiveness of these projects and report to the Legislature thereon no later than January 10, 1974.

SEC 2 There is hereby appropriated from the General Fund the sum of one hundred fifty-five thousand dollars ($155,000) to the Superintendent of Public Instruction to be expended in the 1973–74 fiscal year for the purposes of this act and for disbursement to school districts for all costs incurred by them pursuant to this act.

SEC. 3. This act shall become operative on July 1, 1973, and shall cease to be operative on June 30, 1974.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The authorization in Chapter 1668 of the Statutes of 1971 for a pilot program for the education of severely mentally retarded pupils will, in the absence of additional legislation, terminate on June 30, 1973, long before the effective date of ordinary statutes enacted in 1973. Termination of the pilot program on June 30, 1973, would be premature because the pilot program would not have been in operation for sufficient time for its efficacy to be fairly and accurately ascertained. This act would authorize a continuation of the pilot program from July 1, 1973, until June 30, 1974 Therefore, in order that the pilot program not terminate prematurely but continue in operation until June 30, 1974, it is necessary that this act take effect immediately.

CHAPTER 30

An act to add Section 36815 to the Government Code, relating to cities.

[Approved by Governor April 27, 1973 Filed with Secretary of State April 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 36815 is added to the Government Code, to read:

36815. Any reference to "councilman" or "councilmen" shall also mean and include "councilwoman" or "councilwomen." A female member of a city council may designate herself "councilwoman."

CHAPTER 31

An act to amend Section 14132 of the Welfare and Institutions Code, relating to Medi-Cal.

[Approved by Governor April 27, 1973. Filed with Secretary of State April 27, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 14132 of the Welfare and Institutions Code as amended by Chapter 1094 of the Statutes of 1972 is amended to read:

14132. The following is the basic schedule of benefits under this chapter:

(a) Outpatient services are covered as follows:

Physician, hospital outpatient, optometric, chiropractic, psychology, podiatric, occupational therapy, physical therapy, speech therapy, audiology, and services of persons rendering treatment by prayer or healing by spiritual means in the practice of any church or religious denomination insofar as these can be encompassed by federal participation under an approved plan.

The extent of such coverage is limited to a maximum total of two services from among the above in any month, and not to exceed twenty-four (24) services from among the above during any period of twelve (12) consecutive months; provided however that only as to physician outpatient services, any visits unused during the month immediately preceding the current month may be used in the current month, subject to the limitation that physician and other services from among the above shall not be covered in excess of twenty-four (24) among all such services during any period of twelve (12) consecutive months. As to hospital outpatient services, the above limitation on extent of coverage shall not apply to the services set forth in subdivisions (e), (f), (g), (h), (*l*), and (m) when rendered as part of a hospital outpatient visit.

(b) Hospital inpatient care, including physician services, is covered to a maximum of sixty-five (65) days in a period of twelve (12) consecutive months, subject to utilization controls.

(e) Hospital outpatient dialysis services and home hemodialysis services, including physician services, medical supplies, drugs and equipment required for dialysis, are covered, subject to utilization

044 35870 151

controls.

(f) Anesthesiologist's services when provided as part of an outpatient medical procedure, outpatient laboratory services, and X-ray services are covered to the extent prescribed.

(g) Blood and blood derivatives are covered.

(h) Emergency and essential diagnostic and restorative dental services, except for orthodontic, fixed bridgework, and partial dentures that are not necessary for balance of a complete artificial denture, are covered, subject to utilization controls. Notwithstanding the foregoing, the director may by regulation provide for certain fixed artificial dentures necessary for obtaining employment or for medical conditions which preclude the use of removable dental prostheses.

CHAPTER 32

An act relating to January 25, 1973, as a day of mourning and the computation of average daily attendance for certain public schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 1, 1973 Filed with Secretary of State May 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding Section 11253, 11402, 11420, 11501, or 17551 of the Education Code or any other provision of law to the contrary, the Superintendent of Public Instruction shall, for the

school year 1972–73, allow school districts to use a divisor of 174 in computing average daily attendance for apportionment purposes for those school districts which maintained their schools for 174 days because schools were closed pursuant to subdivision (n) of Section 6700 of the Government Code because of the proclamation of the Governor declaring January 25, 1973, to be a day of mourning relating to the death of Lyndon B. Johnson, 36th President of the United States

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Declarations of days of mourning have, in conjunction with other factors, required numerous school districts in the state to exhaust the extra attendance days scheduled in the school term to provide a cushion with respect to the required minimum of 175 days of attendance in the next preceding fiscal year for receiving any apportionment from the State School Fund, and have reduced the average daily attendance. The declaration of January 25, 1973, as a national day of mourning has resulted in the scheduled attendance of numerous school districts falling below the prescribed 175-day minimum, and in a reduction of average daily attendance. This act would alleviate the related problems resulting from such declaration. In order that the administrative problems posed by an ordinary statute may be avoided, this act should take effect on or before the commencement of the 1973–1974 fiscal year. It is, therefore, necessary that this act take effect immediately.

CHAPTER 33

An act relating to aviation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 8, 1973. Filed with Secretary of State May 8, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, any allocation from the Aeronautics Account in the State Transportation Fund to the City of Redlands in the 1973–1974 fiscal year and subsequent fiscal years, up to and including the sum of thirty-three thousand five hundred sixty-two dollars ($33,562), may be expended for that portion of such obligations incurred in prior fiscal years which would have been eligible for an allocation from such fund during such prior fiscal years.

SEC. 2. The Legislature finds and declares that this act is necessary since special facts and circumstances applicable to the City

of Redlands, and not generally applicable, make the accomplishment of this purpose impossible by any general law. There exists a dispute as to the validity of certain allocations of funds made by the Department of Aeronautics to the City of Redlands for airport expansion purposes based on a good faith expenditure of these funds, and the city's repayment of the amount of these funds to the state was made under protest that its use of these allocations for obligations related to its airport incurred in prior fiscal years was valid and proper. The Legislature further finds and declares that this is the only such acquisition of property involved, that the purpose of this act is impossible to accomplish by any general law, and that special legislation applicable only to the City of Redlands is therefore necessary.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The City of Redlands is experiencing serious financial difficulties because of uncertainty as to the application of provisions of law relating to grants of state funds for purposes of expansion of its airport. In order to resolve this uncertainty as soon as possible, it is necessary that this act go into immediate effect.

CHAPTER 34

An act to amend Section 25413.8 of the Education Code, relating to school district governing boards, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 8, 1973. Filed with Secretary of State May 8, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 25413.8 of the Education Code is amended to read:

25413.8. (a) The members of the governing board of any unified district which has an average daily attendance of 100,000 or more as of October, 1971, and which maintains a community college shall call an election for the purpose of determining whether the members shall continue to serve also as members of the governing board of any unified school district having boundaries which are coterminous with the boundaries of the community college district. The election shall be held at the general election in accordance with the provisions of this code for conducting a regular election of governing board members. The ballots used in such election shall contain the words "Separate Community College Board—Yes" and "Separate Community College Board—No." The governing board of the

district maintaining a community college shall prepare an impartial statement explaining the ballot measures and the expected results of continuing a common governing board or establishing two separate boards and such statement shall be distributed to the voters with the sample ballot and "pro" and "con" arguments, if any, as provided by law. Each elector voting at the election shall indicate the answer he desires to give in accordance with regular election procedures.

(b) If the proposition for a separate community college governing board receives a majority "yes" vote than those persons who serve as members of the governing boards of both a community college district and any such unified school district shall, on or before June 1, 1973, choose on which of the two boards they will continue to serve. Those persons who choose to serve as members of either the governing boards of a community college district or the governing board of any such unified school district shall continue to serve also as members of the governing board from which they have chosen to withdraw until their successors on such boards are elected after June 1, 1973, and have assumed office. If the city charter of the city in which the unified school district is located in whole or in part governs the appointment, nomination, or election of members of the governing board of the unified school district, the new governing board of the community college district also shall be governed by such city charter so that the separate governing boards of both the unified and community college districts after June 1, 1973, shall be appointed or nominated and elected at the same elections, under the same conditions and for the same terms of office set forth in such city charter.

(c) The election of the members of the first community college governing board shall be conducted no later than the next election held for the nomination and election of governing board members of the unified district and under the same conditions and for the same terms of office pursuant to city charter except as set forth below. Prior to such elections, and only for those elections, the governing board of the unified district shall designate three positions on the new community college district governing board for which the initial term of office shall be four years and two positions for which the initial term of office shall be two years. Thereafter, all elections of the governing board members of the community college district shall be held under the same conditions, at the same times, and for the same terms as elections for the unified district governing board pursuant to city charter. The governing board of the unified district shall continue to govern the community college district until members of the new governing board of the community college district are elected and qualified to serve, at which time the governance of the community college district shall pass to the new governing board of the community college district.

(d) The governing board of the unified district may, if it deems such action appropriate, call two special elections within the community college district prior to the dates set forth by law for the

primary and general elections of members of the governing board of the unified district, for the purpose of permitting the people of the community college district to nominate and elect governing board members of the community college district at the earliest possible time after the November 7, 1972, election. If such special primary and general elections are called, the governing board of the unified district shall designate for such elections, and only for such elections, (1) three positions on the new community college district governing board for which the initial term of office shall be four years plus the necessary number of days to allow such term to end on the same date as the end of the term of a member of the unified district governing board whose term expires in December, 1977, and (2) two positions on the new community college district governing board for which the initial term of office shall be two years plus the necessary number of days to allow such term to end on the same date as the end of the term of a member of the unified district governing board whose term expires in December, 1975. Such elections shall be held, insofar as possible, under the same conditions as elections for the unified district governing board pursuant to a city charter. Thereafter, all elections of governing board members of the community college district shall be held under the same conditions, at the same times, and for the same terms as elections for the unified district governing board pursuant to a city charter. The governing board of the unified district shall continue to govern the community college district until members of the new governing board of the community college district are elected and qualified to serve, at which time the governance of the community college district shall pass to the new governing board of the community college district.

(e) Each member of the separate governing board of the community college district shall receive the same compensation as received by members of the separate governing board of the unified district under Section 1231, notwithstanding any requirements to the contrary contained in such section.

(f) Notwithstanding subdivisions (c) and (d) of this section, if a person serving on the common governing board chooses, prior to June 1, 1973, to serve on the governing board of the community district, he shall serve as a member of the community college district governing board until the expiration of the term of the office to which he was last elected as a member of that board.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school district governing board members may take requisite action by June 1, 1973, as required by Section 1 of this act, it is necessary that this act take immediate effect.

An act to add Section 30512 to the Water Code, and to add Section 15974 to the Public Utilities Code, relating to districts.

[Approved by Governor May 10, 1973 Filed with Secretary of State May 10, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 30512 is added to the Water Code, to read:

30512. Notwithstanding Section 30500 or any other provision of this division, each member of the board of directors of the Canebrake County Water District in San Diego County, whether elected or appointed, shall be either a voter of the district or an owner of land

within the district.

SEC. 2 Section 15974 is added to the Public Utilities Code, to read:

15974. Notwithstanding Section 15952 or any other provision of this division, each member of the board of directors of the Johnsville Public Utility District in Plumas County, whether elected or appointed, shall be either a voter of the district or an owner of land within the district.

SEC. 3. The provisions of Section 1 of this act are necessary because of the very small number of registered voters of the Canebrake County Water District and the unavailability of registered voters of the district to serve on the board of directors. This problem is not common to all districts formed under the County Water District Law. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of Section 30512 of the Water Code as a special law is necessary for the solution of problems existing in the Canebrake County Water District.

SEC 4. The provisions of Section 2 of this act are necessary because of the very small number of registered voters of the Johnsville Public Utility District and the unavailability of registered voters of the district to serve on the board of directors. This problem is not common to all districts formed under the Public Utility District Act. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of Section 15974 of the Public Utilities Code as a special law is necessary for the solution of problems existing in the Johnsville Public Utility District.

SEC. 2. Section 22558 is added to the Public Utilities Code, to read

22558. In addition to all other powers authorized by this part, the Santa Maria Airport District may employ airport policemen in accordance with paragraph (17) of subdivision (a) of Section 830.4 of the Penal Code.

SEC. 3. The Legislature finds and declares that this act is necessary since special facts and circumstances applicable to the Santa Maria Airport District, and not generally applicable, make the accomplishment of this purpose impossible by any general law. The airport facilities operated by the Santa Maria Airport District are the most heavily used of any airport district in this state, and there is a need for adequate and properly certified security personnel that is not applicable at the present time to any other airport district. The Legislature further finds and declares that since these special facts and circumstances applicable only to this district are involved, the purpose of this act is impossible to accomplish by any general law, and special legislation applicable only to the Santa Maria Airport District is therefore necessary

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 5 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recent federal aviation regulations have imposed greatly increased security requirements upon airports served by federally certificated air carriers, including law enforcement officers to inspect persons and property boarding aircraft. In order to permit the Santa Maria Airport District to carry out these added responsibilities adequately and efficiently, it is necessary that this act go into effect immediately.

(b) All fees received by the department pursuant to this section shall be deposited in the Abandoned Vehicle Trust Fund, which is hereby created. (g) The public agency employing the officer shall make an appraisal of any such vehicle either prior to or within five days after removal.

(h) A county or city employee, other than an employee of a sheriff's department or a city police department, designated to remove vehicles pursuant to this section may do so only after he has mailed or personally delivered a written report identifying the vehicle and its location to the office of the Department of the California Highway Patrol located nearest to the vehicle.

SEC. 3. Section 22710 of the Vehicle Code is amended to read:

(a) Disburse any of the money in the Abandoned Vehicle Trust Fund established in subdivision (b) of Section 9250.7 to any city, county, or city and county, which establishes pursuant to Section 22660 procedures for the abatement and removal as public nuisances of any abandoned vehicles or parts thereof, to carry out such procedures. Insofar as practical, the Department of the California Highway Patrol shall prorate moneys in the fund to each county in proportion to the number of abandoned vehicles which have been surveyed throughout the state.

(b) In the alternative, provide for the removal of abandoned vehicles by franchise or contract, in which event the Department of the California Highway Patrol shall be reimbursed from the fund.

(c) Establish rules and regulations to carry out the provisions of subdivisions (a) and (b), subject to the condition that priority be given to the removal of abandoned vehicles from corridors of the state highway system, from public lands and parks, and from river and wildlife areas.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act effects the administration of the Abandoned Vehicle Trust Fund. Vehicle fees for the administration of the abandoned vehicle

program have already been collected, and it is necessary to transfer the administration of the program to the Department of the California Highway Patrol at the earliest possible time.

CHAPTER 50

The people of the State of California do enact as follows:

SECTION 1. Section 21751 of the Vehicle Code is amended to read:

CHAPTER 51

[Approved by Governor May 21, 1973 Filed with Secretary of State May 21, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 7466 is added to the Education Code, to read:

7466. The governing board of any school district or the county superintendent of schools that is operating or jointly operating a regional occupational center or program may establish and maintain regional occupational center or regional occupational program classes in industrial or school facilities located outside of the school district or the jurisdiction of the county superintendent of schools, respectively, for the purpose of providing training for students enrolled in such a center or program.

The governing board of a school district or the county superintendent of schools shall notify the Superintendent of Public Instruction, prior to the establishment of classes pursuant to this

section, of the proposed establishment

SEC. 2 This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

In order to permit the governing boards of school districts and the county superintendents of schools to plan adequately their regional occupational centers and programs for the 1973–1974 school year, and thus to permit the classes authorized by this act to begin as early as possible in that school year, it is necessary that this act take effect immediately

CHAPTER 52

An act to amend Section 18402.9 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor May 23, 1973 Filed with Secretary of State May 23, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 18402 9 of the Revenue and Taxation Code is amended to read·

18402.9 Under regulations prescribed by the Franchise Tax Board, if—

(a) A joint return has been made under this chapter for a taxable year and on such return there was omitted from gross income an amount properly includable therein which is attributable to one spouse and which is in excess of 25 percent of the amount of gross income stated in the return,

(b) The other spouse establishes that in signing the return he or she did not know of, and had no reason to know of, such omission, and

(c) Taking into account whether or not the other spouse significantly benefited directly or indirectly from the items omitted from gross income and taking into account all other facts and circumstances, it is inequitable to hold the other spouse liable for the deficiency in tax for such taxable year attributable to such omission,

then the other spouse shall be relieved of liability for tax (including interest, penalties, and other amounts) for such taxable year to the extent that such liability is attributable to such omission from gross income.

(d) For purposes of this section, the determination of the spouse to whom items of gross income (other than gross income from property) are attributable shall be made without regard to community property laws, and the amount omitted from gross

income shall be determined in the manner provided by Section 18586.1

(e) This section shall apply to all taxable years subject to the provisions of this part, but shall not apply to a year which has been closed by a statute of limitations, res judicata or otherwise.

SEC. 2. The Legislature finds and declares that the purpose of the addition of Section 18402.9 to the Revenue and Taxation Code was to eliminate a grave injustice in the tax laws by providing that an innocent spouse should not be required to pay taxes, penalties and interest resulting when the other spouse fails to report substantial amounts of income and where the innocent spouse did not know about such failure to report and further, did not use or enjoy the unreported income or the benefits thereof. In so bringing government tax collection practices into accord with basic principles of equity and fairness, the public policy as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 53

An act making an appropriation to the Department of Motor Vehicles to provide for the initial phase of the repair of the department's fire-damaged headquarters building, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the Motor Vehicle Account in the State Transportation Fund the sum of four million thirty-eight thousand dollars ($4,038,000) to the Department of Motor Vehicles to provide for the repair of the department's fire-damaged headquarters building and for other materials and services required as a result of the fire which occurred on December 25, 1972. The funds appropriated by this act shall be used in the following manner:

(a) For repayment of funds provided by Chapter 156, Statutes of 1972, Item 181	$500,000
(b) For repayment of Emergency Fund loan provided by Chapter 156, Statutes of 1972, Item 85	288,000
(c) For repayment of funds provided by Chapter 156, Statutes of 1972, Item 177	350,000
(d) For transfer to the Architecture Revolving Fund	2,900,000

SEC. 2. This act is an urgency statute necessary for the

immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

On December 25, 1972, the Department of Motor Vehicles headquarters building was severely damaged by fire. The funds appropriated by this act are required to complete the restoration of the building so the state may conduct its business with a minimum of disruption It is essential, therefore, that this act go into immediate effect.

CHAPTER 54

An act to amend Section 11708 of the Education Code, to amend Sections 3450 and 3454 of, and to add Section 3456 to, the Health and Safety Code, relating to tuberculosis tests, and declaring the urgency thereof, to take effect immediately

[Approved by Governor May 23, 1973 Filed with Secretary of State May 23, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 11708 of the Education Code is amended to read:

11708. (a) Except as provided in subdivision (h), no person shall be initially employed by a school district in a certificated or classified position unless the person has submitted to an examination within the past 60 days to determine that he is free of active tuberculosis, by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code. This examination shall consist of an X-ray of the lungs, or an approved intradermal tuberculin test, which, if positive, shall be followed by an X-ray of the lungs.

The X-ray film may be taken by a competent and qualified X-ray technician if the X-ray film is subsequently interpreted by a physician and surgeon licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code.

(b) Thereafter all employees shall be required to undergo the foregoing examination at least once each four years or more often if directed by the governing board upon recommendation of the local health officer.

(c) After such examination, each employee shall cause to be on file with the district superintendent of schools a certificate from the examining physician and surgeon showing the employee was examined and found free from active tuberculosis. The county board of education may require, by rule, that all such certificates be filed in the office of the county superintendent of schools or shall require such files be maintained in the office of the county superintendent

440 358585 258

of schools if a majority of the governing boards of the districts within such county so petition the county board of education, except that in either case a district or districts with a common board having an average daily attendance of 60,000 or more may elect to maintain the files for its employees in that district "Certificate" as used herein means a certificate signed by the examining physician and surgeon or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis. The latter, regardless of form, will constitute evidence of compliance with this section Nothing in this section shall prevent the governing board from establishing a rule requiring a more extensive physical examination than required by this section but such rule shall provide for reimbursement on the same basis as hereinafter required.

(d) This examination is a condition of initial employment and the expense incident thereto shall be borne by the applicant unless otherwise provided by rules of the governing board However, the board may, if an applicant is accepted for employment, reimburse such person in a like manner hereinafter prescribed for employees.

(e) The governing board of each district shall reimburse the employee for the cost, if any, of this examination The board may provide for the examination required by this section or may establish a reasonable fee for such examination that is reimbursable to employees of the district complying with the provisions of this section.

(f) At the discretion of the governing board this section shall not apply to those employees not requiring certification qualifications who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

The governing board may, however, require such examination and may as a contract condition require the examination of persons employed for construction or repair work if the board believes the presence of such persons in and around school premises would constitute a health hazard to pupils.

(g) If the governing board of a school district determines by resolution, after hearing, that the health of pupils in the district would not be jeopardized thereby, the provisions of this section shall not apply to any employee of the district who files an affidavit stating that he adheres to the faith or teachings of any well-recognized religious sect, denomination, or organization and in accordance with its creed, tenets, or principles depends for healing upon prayer in the practice of religion and that to the best of his knowledge and belief he is free from active tuberculosis. If at any time there should be probable cause to believe that such affiant is afflicted with active tuberculosis, he may be excluded from service until the governing board of the employing district is satisfied that he is not so afflicted.

(h) A person who transfers his employment from one school or school district to another shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate which

shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

A person who transfers his employment from a private or parochial elementary school, secondary school, or nursery school to a school or school district subject to this section shall be deemed to meet the requirements of subdivision (a) if such person can produce a certificate as provided for in Section 3450 of the Health and Safety Code which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

SEC. 2. Section 3450 of the Health and Safety Code is amended to read·

3450. (a) Except as provided in Section 3456, no person shall be initially employed by a private or parochial elementary or secondary school, or any nursery school, unless such person produces or has on file with the school a certificate showing that within the last 60 days such person has been examined and has been found to be free of communicable tuberculosis.

(b) Thereafter all employees shall be required to undergo the foregoing examination at least once each four years or more often if directed by the school upon recommendation of the local health officer.

(c) At the discretion of the governing authority of a private school, this section shall not apply to employees who are employed for any period of time less than a school year whose functions do not require frequent or prolonged contact with pupils.

"Certificate", as used in this chapter, means a document signed by the examining physician and surgeon who is licensed under Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or a notice from a public health agency or unit of the Tuberculosis Association which indicates freedom from active tuberculosis.

SEC. 3. Section 3454 of the Health and Safety Code is amended to read:

3454. (a) All volunteers in schools covered under this chapter shall also be required to have on file with the school a certificate showing that within the last four years such person has been examined and has been found to be free of communicable tuberculosis.

(b) At the discretion of the governing authority of a private school, this section shall not apply to volunteers whose functions do not necessitate frequent or prolonged contact with pupils.

SEC. 4. Section 3456 is added to the Health and Safety Code, to read:

3456. (a) A person who transfers his employment from one of the schools specified in subdivision (a) of Section 3450 to another shall be deemed to meet the requirements of subdivision (a) of

Section 3450 if such person can produce a certificate which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school previously employing him that it has such a certificate on file.

(b) A person who transfers his employment from a public elementary school or secondary school to any of the schools specified in subdivision (a) of Section 3450 shall be deemed to meet the requirements of subdivision (a) of Section 3450 if such person can produce a certificate as provided for in Section 11708 of the Education Code which shows that he was examined within the past four years and was found to be free of communicable tuberculosis, or if it is verified by the school district previously employing him that it has such a certificate on file.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

All certificated and classified employees of the public schools are only required to undergo an examination for active tuberculosis within 60 days prior to their initial appointment and thereafter at least once each four years or more often if directed by the governing board upon recommendation of the local health officer, while employees of private schools are required to be examined for communicable tuberculosis within the last two years or more often if required by the school. The imposition upon employees of private schools of more frequent mandatory examinations than those required of public school employees is discriminatory and an unnecessary burden This act would relieve that discrimination and burden. Therefore, in order that such discrimination and burden may be relieved at the earliest possible date and prior to the commencement of the 1973–1974 school year of private schools, it is necessary that this act take effect immediately.

CHAPTER 55

As used elsewhere in this act, the terms "board" and "board of directors" mean the board of directors of the Santa Clara Valley Water District.

SEC. 5. Section 26.9 of the Santa Clara County Flood Control and Water District Act (Chapter 1405 of the Statutes of 1951) is amended to read:

487 35985 287

Sec. 26.9. After the establishment of a zone in which a ground water charge may be levied, each owner or operator of a water-producing facility within said zone, until such time as said water-producing facility has been permanently abandoned, shall file with the district, on or before the 31st day of January and on or before the 31st day of July in each year, a statement setting forth the total production in acre-feet of water for the preceding six-months period (excluding the month in which the statement is due), a general description or number locating each water-producing facility, the method or basis of the computation of such water production, and the amount of the ground water charge based on such computation. If no water has been produced from said water-producing facility during the preceding six-months period, said statement shall be filed as provided for herein, setting forth that no water has been produced during said period. Said statement shall be verified by a written declaration that it is made under the penalties of perjury. The ground water charge is payable to the district on or before the last date upon which the water production statements shall be filed, and is computed by multiplying the production in acre-feet of water for each classification as disclosed in the statement by the ground water charge for each classification of water. At such time as any said water-producing facility has been permanently abandoned, the operator thereof shall give written notice of such abandonment to the district. If any operator of a water-producing facility shall fail to pay the ground water charge when due, the district shall charge interest at the rate of one percent (1%) each month on the delinquent amount of the ground water charge.

Should any owner or operator of a water-producing facility fail to register each water-producing facility, or fail to file the water production statements as required by this act, the district shall, in addition to charging interest as provided herein, assess a penalty charge against such owner or operator in an amount of ten percent (10%) of the amount found by said district to be due. The board may adopt regulations to provide that in excusable or justifiable circumstances such penalty may be reduced or waived.

When a water-measuring device is permanently attached to a water-producing facility, the record of production as disclosed by such water-measuring device shall be presumed to be accurate and shall be used as the basis for computing the water production of said water-producing facility in completing the water production statement, unless it can be shown that the water-measuring device is not measuring accurately.

When a water-measuring device is not permanently attached to a water-producing facility, the board may establish a method or methods to be used in computing the amount of water produced from such water-producing facilities.

Such methods may be based upon any, or all, or a combination of some of the following criteria: the minimum charge sufficient to cover administrative costs of collection, size of water-producing

facility discharge opening, area served by the water-producing facility, number of persons served by the water-producing facility, use of land served by the water-producing facility, crops grown on land served by the water-producing facility, or any other criteria which may be used to determine with reasonable accuracy the amount of water produced from such water-producing facility.

SEC. 6. Section 31 of the Santa Clara County Flood Control and Water District Act (Chapter 1405 of the Statutes of 1951) is amended to read:

Sec. 31. The legal title to all property, except shares of stock in mutual water companies or corporations, as provided in Section 31d of Article IV of the Constitution, acquired under the provisions of this act shall immediately and by operation of law vest in said district, and shall be held by said district, in trust for, and is hereby dedicated and set apart to, the uses and purposes set forth in this act. The board is hereby authorized and empowered to hold, use, acquire, manage, occupy and possess said property, as herein provided; and said board may determine, by resolution duly entered in their minutes that any real property, or interest therein, held by said district is no longer necessary to be retained for the uses and purposes thereof, and may thereafter sell, lease or otherwise dispose of said property pursuant to this section.

Real property which, in the unanimous judgment of the board does not have a sale value in excess of five hundred dollars ($500), or a rental value in excess of fifty dollars ($50) per month, as determined by a qualified land appraiser, or which has no access to a public road, or which consists of an easement for ingress and egress to property which, by the terms of said easement will terminate when ingress and egress is supplied to said property by a public road may be sold, leased, or conveyed by the board on terms prescribed by it.

The board may reconvey real property to the former owner by whom such property was conveyed, or from whom such property was condemned by the district, or his successor in interest for a price not less than that paid by the district for such property.

The board may by a five-sevenths vote exchange real property of equal value with any person, firm or corporation for the purpose of removing defects in the title to real property owned by the district or where the real property to be exchanged is not required for district use and the property to be acquired is required for district use.

The board may convey easements to public utility corporations in the manner prescribed by Section 50335 of the Government Code.

The board may vacate public service easements in the manner prescribed by Sections 50430 through and including 50445 of the Government Code.

In all other cases, the board shall be governed in the sale or lease or other disposition of real property by the requirements of Sections 25526, 25527, 25530 through and including 25535 of the Government Code providing for such action by counties; provided, however, that

notice of the board's intended action shall be as prescribed in Section 25363 of the Government Code.

The board may by a five-sevenths vote sell, lease, or otherwise transfer to the state, the County of Santa Clara, or to any city, school district or other special district within the Santa Clara Valley Water District, or exchange with such public entities any real or personal property or interest therein belonging to the district upon such terms and conditions as are agreed upon

The board shall establish regulations for the trade in, survey, sale or other disposition of personal property held by said district and no longer necessary to be retained for the uses and purposes thereof; provided, that any sale of personal property having a sale value in excess of one hundred dollars ($100), as determined by the board, shall be made upon public bid preceded by notice of the board's intended action given as prescribed in Section 25363 of the Government Code.

An act to add Chapter 3.5 (commencing with Section 11661) to Division 9 of the Education Code, relating to school attendance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1973 Filed with Secretary of State May 23, 1973]

The people of the State of California do enact as follows·

SECTION 1. Chapter 3.5 (commencing with Section 11661) is added to Division 9 of the Education Code, to read:

CHAPTER 3 5. ALTERNATIVE SCHEDULES

11661. Notwithstanding any other provision of law, the governing board of a school district which maintains a junior high school or high school may schedule classes in such schools so that each pupil attends classes for at least 1,200 minutes during any five-schoolday period.

Under such a schedule, any pupil may be authorized to attend school for less than the total number of days in which the school is in session during a week as long as he attends the required number of minutes per five-schoolday period.

Computations authorized by this section shall not result in an increase in state apportionments to a school district.

11662. If a pupil attends classes pursuant to a schedule adopted under the authority of this chapter, he shall be deemed to have complied with all of the requirements of this code relating to school attendance.

11663. Prior to implementing a program under the provisions of this chapter in any school of the district, the school district governing board shall consult in good faith in an effort to reach agreement with the certificated and classified employees of the school, with the parents of pupils who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the board has given adequate notice to the employees and to the parents of pupils affected.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the schedules authorized by this act to be made up and implemented as early as possible in the 1973–1974 school year, it is necessary that this act take effect immediately.

CHAPTER 64

An act to amend Section 25270 of, and to add Section 25275 to, the Vehicle Code, relating to vehicles.

[Approved by Governor May 23, 1973 Filed with Secretary of State May 23, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 25270 of the Vehicle Code is amended to read:

25270. Any pilot car required by the permit referred to in Section

35780, or any vehicle or combination of vehicles subject to such permit if specified in the permit, may display flashing amber warning lights to the front, sides or rear while actually engaged in the movement described in the permit

SEC. 2. Section 25275 is added to the Vehicle Code, to read:

25275. Any truck or truck tractor which is primarily used in the transportation of loads specified in subdivision (a) of Section 35414, may be equipped with a flashing amber warning lamp. Such lamp may be displayed to the front, sides, or rear of the combination only when its length exceeds 75 feet and when an unusual traffic hazard exists.

CHAPTER 65

An act to amend Section 38240 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1973 Filed with Secretary of State May 23, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 38240 of the Vehicle Code is amended to read:

38240. (a) The State Controller shall allocate the fees collected under Section 38230 in July and January of each fiscal year in the same manner fees are allocated under Section 11005 of the Revenue and Taxation Code.

(b) It is the intent of the Legislature that funds collected under Section 38230 be used for any one or more of the following purposes:

(1) Planning, acquiring, developing, constructing, maintaining, or administering, for the use of off-highway vehicles, trails, areas, or other facilities.

(2) Controlling the operation of motor vehicles in areas off the highways where the operation of motor vehicles is restricted or prohibited.

(3) Otherwise carrying out the provisions of this division.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The requirement for monthly allocation of off-highway vehicle license fees results in many payments ranging from less than one dollar ($1) to five dollars ($5). The cost to cities and counties of recording such amounts and to the State Controller in computing the allocations drawing warrants therefor and mailing them is in some cases greater than the amounts involved. Changing from a monthly

to a semiannual allocation will alleviate this situation. In order to provide such relief, it is necessary that this act go into effect at the earliest possible date

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an ambiguity in Section 4602.5 of the Health and Safety Code by reason of the reference to cities within a county of the 19th class as defined in Section 28040 of the Government Code. The board shall in no instance approve an application or make an apportionment therefor until it has determined to its satisfaction that the facility for which the apportionment is sought is justified by an appropriate estimate of average daily attendance and location within the district.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts may begin needed replacement or reconstruction of inadequate school facilities at the earliest possible time, it is necessary that this act, which revises procedures to be utilized after July 1, 1973, by school districts applying for state funds for such projects, go into effect immediately.

CHAPTER 97

An act to add Section 4157 to the Food and Agricultural Code, relating to the Del Mar Race Track, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 19, 1973. Filed with Secretary of State June 19, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 4157 is added to the Food and Agricultural Code, to read:

4157. The Director of Finance may enter into an agreement prior to December 31, 1973, with the State Race Track Leasing Commission and the 22nd District Agricultural Association to commit the state to advance to the Architecture Revolving Fund a sum of not to exceed one million three hundred thousand dollars ($1,300,000), if needed, for the construction of improvements at Del Mar Race Track as described in Work Order AK 22-022 of the Office of Architecture and Construction. Any such commitment shall be deemed, with respect to the project for which it is made, to constitute a deposit of funds available for expenditure by the Department of General Services for the purposes of Section 14957 of the Government Code. The Director of Finance, to the extent necessary to honor such commitment, shall authorize by executive order the withdrawal of an amount or amounts from the General Fund in the State Treasury not to exceed one million three hundred thousand dollars ($1,300,000) for transfer to the Architecture Revolving Fund. Any amount so transferred shall be used solely for the project for which the commitment was made and shall not exceed the amount necessary for the project, after deducting from the commitment the amount of all funds in the Del Mar Capital Improvement Account. Any sums so transferred shall be repaid to the General Fund, with simple interest at the average rate earned by the Pooled Money Investment Account for the month in which the transfer is made, from the first moneys placed in the Del Mar Capital Improvement Account (created by lease agreement of January 8, 1969, between the State Race Track Leasing Commission and the Del Mar Thoroughbred Club) not needed for the project for which the commitment was given; provided, that, in any case, such repayment in full with interest as specified shall be made from funds in such improvement account prior to October 1, 1975.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury to the Director of Finance the sum of one million three hundred thousand dollars ($1,300,000), or as much thereof as may be necessary, for the purpose of Section 4157 of the Food and Agricultural Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Improvements to the Del Mar Race Track, which is leased by the State Race Track Leasing Commission, are urgently needed. Although it is anticipated that subsequently there will be ample funds in the Del Mar Capital Improvement Account to finance the same as the work progresses, in order to allow the call for bids and other contract procedures to commence on approximately May 1, 1973, so that the same may culminate in construction immediately following the 1973 Del Mar racing meet, it is necessary that this act

go into effect immediately.

CHAPTER 98

An act to amend Sections 18502 and 18503 of the Health and Safety Code, relating to trailer parks, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 19, 1973 Filed with Secretary of State June 19, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 18502 of the Health and Safety Code is amended to read:

18502. Fees as applicable shall be submitted for permits.

(a) Fees for a permit to conduct any construction subject to this part as determined by the schedule of fees adopted by the commission.

(b) Plan checking fees equal to one-half of the construction, mechanical and electrical permit fees, except that the minimum fee shall be ten dollars ($10).

(c) Except for a temporary trailer park, annual operating permit fee of twenty-five dollars ($25) and an additional one dollar ($1) per lot or one dollar ($1) per camping party for the maximum number of camping parties to be accommodated at any one time in an incidental camping area.

(d) Temporary trailer park operating permit fee of twenty-five dollars ($25), with no additional fee for the lots.

(e) Change-in-name fee or transfer of ownership or possession fee of ten dollars ($10).

(f) Duplicate permit fee or amended permit fee ten dollars ($10).

SEC. 2. Section 18503 of the Health and Safety Code is amended to read:

18503. (a) Except as otherwise provided in subdivision (b), the commission by administrative rule and regulation shall establish a schedule of fees relating to construction permits for construction, mechanical and electrical installations. The fees shall apply to and be paid to the enforcement agency. Fees established for construction, mechanical and electrical installations shall be reasonably consistent with the current edition of the Uniform Building Code as published by the International Conference of Building Officials, the Uniform Plumbing Code as published by the Internation Association of Plumbing and Mechanical Officials and the Uniform Electrical Code as published by the Pacific Coast Electrical Bureau.

(b) Fees for construction, mechanical, and electrical installations in temporary trailer parks shall be determined by the enforcement agency for each such project, based on the cost of administration and

enforcement, including the cost of determining the amount of fees to be charged.

SEC. 3. The Legislature hereby determines that this legislation does not result in reimbursable local government costs under the provisions of Section 2164.3 of the Revenue and Taxation Code, since additional fees have been provided to cover such costs in subdivision (b) of Section 18503 of the Health and Safety Code, as amended by Section 2 of this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

During the forthcoming camp convention of the National Campers and Hikers Association, scheduled for July, 1973, in Los Banos, between 4,000 and 5,000 campsites will be occupied by trailers or self-contained mobilehomes. The state fee for an operative permit for a temporary trailer park, which will be required for this special camp convention, would make it economically unfeasible to hold the camp convention in California. In order that this fee may be reduced in the manner provided by this act before the camp convention, it is imperative that this act take effect immediately.

CHAPTER 99

An act to amend Sections 31621.11 and 31639.26 of the Government Code, relating to county retirement.

The people of the State of California do enact as follows:

SECTION 1. Section 31621.11 of the Government Code, as added by Chapter 997 of the Statutes of 1972, is amended to read:

31621.11. Instead of the normal rates of contribution required by Section 31621, 31621.1, or 31621.2 the board may, upon actuarial advice, establish a single rate of contributions applicable to all persons becoming members after this section is made operative in that county by the board. However, this rate shall be such as to provide the average annuity described in Section 31621, 31621.1, or 31621.2.

SEC. 2. Section 31639.26 of the Government Code, as added by Chapter 997 of the Statutes of 1972, is amended to read:

31639.26. Instead of the normal rates of contribution required by Section 31639.25 the board may, upon actuarial advice, establish a single rate of contributions applicable to all persons becoming members after this section is made operative in that county by the board. However, this rate shall be such as to provide the average

annuity described in Section 31639.25.

CHAPTER 100

An act to amend Section 1 and Section 2 of Chapter 966 of the Statutes of 1970, relating to public schools.

[Approved by Governor June 20, 1973 Filed with Secretary of State June 20, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 966 of the Statutes of 1970 is amended to read:

Section 1. Upon the application of the governing board of an elementary or unified school district, the Superintendent of Public Instruction may exempt for five fiscal years from the minimum class size standards and reporting requirements prescribed by Sections 17507 and 17507.5 of the Education Code, as follows:

(a) Five school districts shall be afforded the exemption, in each instance, for not more than four elementary schools and one junior high school maintained by the district.

(b) A sixth district shall be afforded the exemption for one elementary school maintained by the district.

No exemption shall be renewed unless a full report and evaluation of the results of the pilot program has been presented to the Legislature and to the Superintendent of Public Instruction, and the Superintendent of Public Instruction determines that the results warrant an extension of the exemption. Any exemption may be extended for a period not to exceed five fiscal years.

SEC. 2. Section 2 of Chapter 966 of the Statutes of 1970 is amended to read:

Sec. 2. The certificated employees of a school which, pursuant to Section 1 of this act, has been granted an exemption from the minimum class size standards of Sections 17507 and 17507.5 of the Education Code, shall not be subject to the provisions of Section 13506 of the Education Code which require certificated employees to be classified on the salary schedule on the basis of uniform allowances for years of training and years of experience. In lieu of such classification, the governing board of the district may establish salary schedules pursuant to which the salaries of such certificated employees are determined by job specifications rather than training and experience.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that pilot programs involving differentiated staffing

987.3. Whenever in this code a court-appointed attorney is entitled to reasonable compensation and necessary expenses, the judge of the court shall consider the following factors, no one of which alone shall be controlling:

(a) Customary fee in the community for similar services rendered by privately retained counsel to a nonindigent client.

(b) The time and labor required to be spent by the attorney.

(c) The difficulty of the defense.

(d) The novelty or uncertainty of the law upon which the decision depended.

(e) The degree of professional ability, skill, and experience called for and exercised in the performance of the services.

(f) The professional character, qualification, and standing of the attorney.

CHAPTER 102

An act to amend Sections 1, 3, and 4 of Chapter 1704 of the Statutes of 1971, relating to school attendance, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 1704 of the Statutes of 1971 is amended to read:

Section 1. The Superintendent of Public Instruction may, with the approval of the State Board of Education, authorize not more than five school districts to develop pilot programs to determine the

feasibility of extending greater flexibility to students in a class where outside experience in the community would be directly related to their studies. He may authorize the school districts to receive credit for the attendance of pupils under the pilot programs even if they are not under the immediate supervision and control of an employee of the district as required by subdivision (a) of Section 11251 of the Education Code, so long as each such student is a full-time student, enrolled for the minimum schoolday as defined in Section 11052 or 11055, and is participating in an independent study program. For purposes of computing average daily attendance, a pupil shall not be credited with more than one day of attendance for any schoolday in which he participates in a program pursuant to this act regardless of the length of time during that day in which he has been active therein.

SEC. 2. Section 3 of Chapter 1704 of the Statutes of 1971 is amended to read:

Sec. 3. The Superintendent of Public Instruction shall evaluate the programs conducted pursuant to this act and shall report thereon to the Legislature by February 1, 1976.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that additional pilot programs may commence prior to the 1973–1974 school year to make possible further studies as to the educational benefits of extending greater flexibility to students in a class where outside experience in the community would be directly related to their studies, it is necessary that this act go into immediate effect.

CHAPTER 103

An act relating to archaeological investigation by the Department of Parks and Recreation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 20, 1973. Filed with Secretary of State June 20, 1973.]

The people of the State of California do enact as follows:

SECTION 1. The Department of Parks and Recreation shall, as soon as possible after the effective date of this act, conduct an archaeological exploration of site 4-Sac-99 designated in the

University of California Archaeological Survey Record. If any human skeletal remains are found at the site, upon completion of the archaeological exploration such remains shall be reburied in a proper location but not under presently planned future structures.

SEC. 2. The sum of one hundred ten thousand dollars ($110,000) is hereby appropriated from the General Fund to the Department of Parks and Recreation for the purpose of conducting an archaeological exploration in accordance with Section 1 of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Site 4-Sac-99 designated in the University of California Archaeological Survey Record is a very large prehistoric village site that occupies the area of the proposed location for the new Governor's Mansion. Once construction of the mansion has begun, the value of this archaeological resource will be largely destroyed, because archaeological excavation of the site would be incompatible with the development of the mansion.

Therefore, in order to prevent conflict with any construction plans for the mansion and to acquire the invaluable archaeological data that this site possesses, it is necessary that this act go into immediate effect.

CHAPTER 105

An act to repeal and add Section 3149.5 of the Education Code, relating to school district organization, and declaring the urgency thereof, to take effect immediately.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that county committees on school district organization may utilize the urgently needed services of private legal counsel after June 30, 1973, it is necessary that this act, which deletes the termination date of, and revises, existing statutory authorization for such services, take effect immediately.

CHAPTER 106

An act to amend Sections 2892, 2892.1, 2892.3, and 2895 of the Business and Professions Code, relating to vocational nurses and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 20, 1973 Filed with Secretary of State June 20, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 2892 of the Business and Professions Code is amended to read:

2892. Licenses issued under this chapter prior to January 1, 1974, shall, unless renewed, expire on the last day of the month following the month in 1974 in which the licensee's birthday occurs and at two-year intervals thereafter on the last day of the month following the month in which the licensee's birthday occurs. Licenses issued under this chapter on or after January 1, 1974, shall, unless renewed,

expire at two-year intervals on the last day of the month following the month in which the licensee's birthday occurs, beginning with the second birthday following the date on which the license was issued. To renew an unexpired license, the licensee shall, on or before each of the dates on which it would otherwise expire, apply for renewal on a form prescribed by the board and pay the renewal fee prescribed by this chapter.

The board shall give written notice to a licensee 30 days in advance of the renewal date and, 90 days in advance of the expiration of the fifth year that a renewal fee has not been paid, shall give written notice to the licensee informing him in general terms of the provisions of Section 2892.4.

SEC. 2. Section 2892.1 of the Business and Professions Code is amended to read:

2892.1. Except as provided in Sections 2892.3 and 2892.5, an expired license may be renewed at any time within five years after its expiration on filing of application for renewal on a form prescribed by the board, and payment of the renewal fee in effect on the date the application for renewal is filed.

If the license is renewed more than 30 days after its expiration, the licensee, as a condition precedent to renewal, shall also pay the delinquency fee prescribed by this chapter. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid, or on the date on which the delinquency fee is paid, whichever last occurs. If so renewed, the license shall continue in effect through the date provided in Section 2892 which next occurs after the effective date of the renewal, when it shall expire if it is not again renewed.

SEC. 3. Section 2892.3 of the Business and Professions Code is amended to read:

2892.3. A revoked license is subject to expiration as provided in this article, but it may not be renewed. If it is reinstated after its expiration, the licensee, as a condition precedent to its reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the date the application for reinstatement is filed, plus the delinquency fee, if any, accrued at the time of its revocation.

SEC. 4. Section 2895 of the Business and Professions Code is amended to read:

2895. The amount of the fees prescribed by this chapter in connection with the issuance of licenses under its provisions is that fixed by the following schedule:

(a) The fee to be paid upon the filing of an application shall be fixed by the board, with the approval of the director, at not more than fifteen dollars ($15) nor less than five dollars ($5).

(b) The fee for any examination after the first is five dollars ($5).

(c) The renewal fee shall be fixed by the board with the approval of the director at no more than fifteen dollars ($15) nor less than two dollars ($2). No further fee shall be required for a license or a

renewal thereof other than as prescribed by this chapter.

(d) The delinquency fee for failure to pay the renewal fee is three dollars ($3).

(e) The initial license fee is an amount equal to the renewal fee in effect on the date the application for the license is filed, except that, if the license is issued less than one year before the date on which it will expire, then the initial license fee is 50 percent of such renewal fee. The board may, by appropriate regulation, provide for the waiver or refund of the initial license fee where the license is issued less than 45 days before the date on which it will expire.

SEC. 5. This act shall become operative on January 1, 1974.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Distributing the renewal workload of the Board of Vocational Nurse and Psychiatric Technician Examiners over a two-year period, rather than having it concentrated in a single period every other year, will result in more efficient and economical administration of the renewal process and assist the board in discharging its responsibilities relating to licensees' continuing education. In order for these benefits to be realized at the earliest possible time, it is necessary that this act take effect immediately.

[Approved by Governor June 20, 1973 Filed with Secretary of State June 20, 1973]

The people of the State of California do enact as follows:

20498. If the effective date of coverage under the federal system of members who are employees of a contracting agency under the Public Employees' Retirement System is prior to the time employee federal contributions are first deducted from the salaries and wages of such employees and a reduced benefit is provided with respect to service from and after said effective date of coverage, member contributions shall be transferred in the manner and to the extent provided in this section to the Old Age and Survivors' Insurance Revolving Fund and applied to payment of employee federal contributions for the period prior to such deductions.

There shall be transferred from the member's accumulated contributions an amount equal to employee federal contributions due for such member. The amount so transferred shall not exceed the difference between the total normal contributions of the member and the normal contributions which would have been credited to his account had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the effective date of coverage, assuming that contributions in any year were made in equal monthly installments.

The amount by which such retroactive employee contributions due for a member exceeds the amount transferred from the employee account shall be transmitted to such fund by the contracting agency and constitute an indebtedness of the member to the employer and a lien on any salary or wages payable to such employee or on his account.

Notwithstanding Sections 20654, 20932, and 20935, the amount of contributions under any election to deposit contributions for service described in subdivisions (a), (b), and (c) of Section 20930 or redeposit contributions under this part with respect to service for which retroactive employee contributions are transferable under this section and which election is then not fully paid or is made thereafter, shall be adjusted so that the total accumulated contributions in the member's account upon completion of the deposit will equal the total accumulated contributions which would be in the member's account had the deposit or redeposit been completed when amounts became transferable from the member's account under this section. Such adjustment shall be accomplished by whichever of the following means is appropriate under the facts and the provisions of this section: (1) transfer of amounts deposited where retroactive employee contributions on account of the member have not been paid, (2) reduction of the amount to be deposited under the election, or (3) refund to the member of the adjustment in his account.

If said contract is or has been amended to provide for the transfer of retroactive employee contributions in the manner provided in this section the amount by which (1) the total normal contributions of each member for the period subsequent to the effective date of coverage under the federal system less the total normal contributions which would have been credited to the account of such member had the reduced rate of contribution provided in the amended contract with the public agency been in effect from and after the aforesaid date of coverage exceed (2) the employee federal contributions for such member for the period after said date of coverage shall be paid to such member.

SEC. 2. Section 22201.7 is added to the Government Code, to read:

22201.7. The board shall upon the request of the legislative or governing body of any public agency, other than a school district, made after affirmative vote of a majority of the eligible employees

22215. All acts and proceedings heretofore taken under this part by or on behalf of the state or any other public agency for inclusion of its employees in the federal system and all modifications to the agreement executed by the board pursuant to such acts and proceedings are hereby confirmed, validated and declared legally effective. This provision shall operate to supply such legislative authorization as may be necessary to validate such acts, proceedings, and modifications based thereon as the Legislature could have provided for inclusion of such employees in the federal system.

[Approved by Governor June 29, 1973 Filed with Secretary of State June 29, 1973]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the existence of the Commission for Economic Development created by Chapter 1230 of the Statutes of 1971 in Article 4 (commencing with Section 13500) of Chapter 5 5 of Part 3 of Division 3 of Title 2 of the Government Code was not affected by the repeal of said Chapter 5.5 in Chapter 618 of the Statutes of 1972.

Chapter 618 of the Statutes of 1972 was an act to maintain various codes without substantive change. Since it was based on a report compiled in 1971 before the enactment of Chapter 1230, it did not provide for the disposition of sections of law relating to the Commission for Economic Development and the Legislature did not intend by its enactment to affect the provisions added by Chapter 1230 of the Statutes of 1971.

SEC. 2. Article 2 (commencing with Section 14999) is added to Chapter 2 of Part 5.7 of Division 3 of Title 2 of the Government Code, to read:

Article 2. Commission for Economic Development

14999. The Commission for Economic Development, hereinafter referred to as the commission, is continued in existence. The purpose of the commission is to provide continuing bipartisan legislative, executive branch and private sector support and guidance for the best possible overall economic development of the state.

14999.1. The commission replaces the existing 15-member Industry and World Trade Commission and the 15-member Tourism and Visitor Services Commission, and shall consist of 17 members appointed as follows:

Three Members of the Senate, appointed by the Senate Rules Committee.

I am eliminating from this item $109,904 which was added to increase the Board's intercounty equalization program There remains in this item sufficient funds for the Board to meet its responsibilities in this area

Item 60—For support of Secretary of State I reduce this item from $2,635,784 to $2,526,817 by reducing paragraph (a) Personal Services from $1,707,115 to $1,609,610 and paragraph (b) Operating Expenses and Equipment from $650,767 to $639,305

I am reducing this item to a level of expenditure that provides for an augmentation of 9 4 positions to the Secretary of State's original budget in the Corporate Filing and Uniform Commercial Code Divisions Coupled with the 5 proposed new positions in the original budget, this represents a 21 percent increase in the staff of these two divisions This amount will enable the department to meet its responsibilities

Item 70—For support of Public Utilities Commission I reduce this item from $7,652,847 to $7,622,847 by reducing paragraph (b) Operating Expenses and Equipment from $2,466,908 to $2,436,908

I am eliminating the funds added for Consulting Services for BART

The Commission has assured me that the budget contains sufficient funds to provide an adequate review of BART safety operations without augmentation

Item 86—For support of Augmentation for Salary Increase—Increase in Statutory Salaries I reduce this item from $92,121,000 to $92,083,000 by reducing the proposed salary increase specified therein for state officers whose salaries are specified by statute and whose compensation is paid from the General Fund, from 15.9 percent to 12 5 percent.

The increase of 15 9 percent was originally suggested to the Legislature by the administration to keep the two-year increase in statutory salaries level with increases granted the vast majority of state employees The administration later revised its request to 12 5 percent, approximately the average level of increases for state employees for the coming year The request to reduce the salary increase for statutory officers was received by the Legislature too late to act upon and I am accordingly

reducing this item to 12 5 percent which I consider to be adequate

Item 87—For support of Augmentations for Salary Increase—Increase in Statutory Salaries I reduce this item from $58,575,000 to $58,564,000 by reducing the proposed salary increase specified therein for state officers whose salaries are specified by statute and whose compensation is paid from special funds, from 15 9 percent to 12 5 percent

The increase of 15 9 percent was originally suggested to the Legislature by the administration to keep the two-year increase in statutory salaries level with increases granted the vast majority of state employees The administration later revised its request to 12 5 percent, approximately the average level of increases for state employees for the coming year The request to reduce the salary increase for statutory officers was received by the Legislature too late to act upon and I am accordingly reducing this item to 12 5 percent which I consider to be adequate.

Item 88—For support of Augmentations for Salary Increase—Increase in Statutory Salaries. I reduce this item from $32,844,000 to $32,831,000 by reducing the proposed salary increase specified therein for state officers whose salaries are specified by statute and whose compensation is paid from nongovernmental cost funds, from 15 9 percent to 12 5 percent

The increase of 15 9 percent was originally suggested to the Legislature by the administration to keep the two-year increase in statutory salaries level with increases granted the vast majority of state employees The administration later revised its request to 12 5 percent, approximately the average level of increases for state employees for the coming year. The request to reduce the salary increase for statutory officers was received by the Legislature too late to act upon and I am accordingly reducing this item to 12 5 percent which I consider to be adequate

Item 92—For Claim of the Secretary of the State Board of Control I reduce this item from $133,388 to $123,388

The claim of Computer Mailing, Inc. and Tsuruda and Reed in the amount of $10,000 is currently before the courts and I do not believe it advisable to include the claim in the Budget Act at this time

Item 118 1—For support of Department of Consumer Affairs, Division of Consumer Services I eliminate this item

I am eliminating this General Fund support item because the Division of Consumer Services serves the Special Fund constituent boards, bureaus and commissions of the Department and should be supported by special fund assessments rather than the General Fund

Item 122—For support of Bureau of Automotive Repair, Department of Consumer Affairs I reduce this item from $2,634,502 to $2,424,139 by reducing paragraph (a) Personal Services from $1,182,765 to $972,402

I am reducing this item to the level originally submitted since there are sufficient funds budgeted to handle the projected workload and meet the important program needs of the Bureau.

Item 154 1—For support of the Uninsured Employers Fund. I eliminate this item

I am eliminating this augmentation from the General Fund for transfer to the Uninsured Employers Fund. Legislation which set up the latter fund was signed with the anticipation that the Uninsured Employers Fund would be self-supporting It was never expected to be a burden on the General Fund and I am asking the department to seek legislation which will make possible the original concept of a wholly self-supporting activity

Item 194—For support of the Tahoe Regional Planning Agency I reduce this item from $100,000 to $50,000

I am reducing this item to the amount proposed in the budget I submitted in January which I believe will be adequate for the state to meet its own commitment to supplement the support of the planning agency.

Item 195 5—For support of the California Coastal Zone Conservation Commission and Regional Coastal Zone Conservation Commission I eliminate this item

I am eliminating this item because I believe the continuing appropriation made

from the Bagley Conservation Fund by Proposition 20 is sufficient to meet the needs of the Commission during the 1973–74 fiscal year It will be appropriate to review the total operational program of the Commission at the time the 1974 budget is reviewed

Item 197—For support of the Environmental Protection Program, Resources Agency and Business and Transportation Agency I reduce this item from $2,092,820 to $1,712,820

I am eliminating the $30,000 for the Joice Island walkway, $250,000 for Conservation Education, and $100,000 for a study of kelp as unnecessary augmentations of programs that already are adequately provided for in the budget. With respect to the proposed $250,000 augmentation for Conservation Education, I believe it is premature, since the administrators of the Program and the Department of Education are now negotiating toward a coordinated funding of conservation education efforts by the Department and the Program I expect to propose such coordinated funding on behalf of the Program in my budget message next year

Item 197 8—To Department of Education for School District Environmental Land Acquisition I eliminate this item

I have eliminated this item because there already are sufficient funds for this purpose in Item 197 of this Budget Act

Item 214—For support of State Lands Division, State Lands Commission, Department of Conservation I reduce this item from $2,468,177 to $2,374,600 by reducing paragraph (a) Personal Services from $2,964,753 to $2,874,970 and paragraph (b) Operating Expenses and Equipment from $650,852 to $647,058

I am reducing this item because most of the inventory of state lands which this amount provides for is being accomplished without the need for an augmentation, and funds for the remaining work should be available in the budget of the state department which will receive the services I am, however, still allowing a total augmentation of $517,000 to the original budget I submitted

Item 215—For support of Department of Fish and Game I reduce this item from $22,188,029 to $21,514,121 by reducing paragraph (a) Personal Services from $14,845,307 to $14,486,624 and paragraph (b) Operating Expenses and Equipment from $8,034,162 to $7,923,062, paragraph (d) Minor capital outlay from $372,600 to $307,600, paragraph (c) Pittman-Robertson program from $2,711,200 to $2,643,100, paragraph (f) Dingell-Johnson program from $916,500 to $909,500, paragraph (h) Anadromous Fish Act program from $697,300 to $456,600, and paragraph (m) Federal reimbursements from $3,311,675 to $3,135,000

I am reducing this item because there are insufficient funds in the Fish and Game Preservation Fund to fully finance the department's approved programs together with these additions We requested the Legislature to make this reduction on March 1, 1973, a request which was not acted upon I am now reducing the item to maintain the financial integrity of the fund

Item 227—For support of Department of Parks and Recreation I reduce this item from $24,520,537 to $24,470,537 by reducing paragraph (b) Operating Expenses and Equipment from $8,420,205 to $8,370,205

I am eliminating the funds provided to employ an outside consultant for an independent review of acquisition practices These practices already are well defined and have been subject to review to such an extent that any further expenditure of funds for such a purpose would be nonproductive

Item 227 2—For support of Department of Parks and Recreation for feasibility study of a park site at Baldwin Hills Dam I eliminate this item.

I am eliminating this item because additional staff resources have been provided to adequately meet the needs of the department The additional staff will enable the department to develop the necessary feasibility studies

Item 237 5—For support of Child Development Programs and Child Care Services, Office of Educational Liaison, Health and Welfare Agency I eliminate this item

The Federal funds available and allocated for child development programs and child care services are sufficient to allow for planned expansion of these programs

Item 243—I eliminate the subschedule set forth under Schedule (a) The

subschedule infringes upon my constitutional and statutory authority to organize, reorganize, classify and arrange the fuctions of officers and employees of a state agency under Section 3 of Article III and Section 6 of Article V of the State Constitution and Section 11152 of the Government Code, as such, the subschedule constitutes a subject of legislation outside the scope of the Budget Act

In addition, the subschedule infringes upon my constitutional authority to eliminate or reduce specific budget items, impairs the state's ability to utilize available federal funds, would severely limit current programs and would make compliance with federal law impossible

For these and other reasons, I eliminate the subschedule as invalid language and surplusage

Item 251—For support of Board of Medical Examiners I reduce this item from $2,246,190 to $2,096,190

I am reducing this item for Mexican medical student scholarships by $150,000 Because mexican student enrollment is not as great as was previously expected, the Legislature's budget augmentation will not be needed

Item 262 2—For support of Department of Health—Citizens' Advisory Council I eliminate this item.

The Citizens' Advisory Council provides advice and assistance to the Director of Health The Department of Health can provide staff as needed to support the work of the council Therefore I am eliminating the item

Item 264—For transfer of the Health Care Deposit Fund to provide for Medical Assistance Program expenditure I reduce this item from $621,728,766 to $603,184,575

I have reduced the funds for caseload expenditures by $18,544,191 in accordance with the revised estimates of the Department of Health, as reported to the Legislature in May of this year

Item 270 5—For support of Human Resources Development, Migrant Day Care I eliminate this item

The federal funds already available and allocated for Migrant Day Care programs are sufficient to allow for the continuation of this service and there is no need for any additional General Fund monies Therefore, I am eliminating the item

Item 277—For support of Department of Social Welfare—Unmet Shelter Needs I reduce this item from $1,500,000 to $750,000

I have reduced this item by $750,000 because the pending implementation of federal legislation (HR 1) makes this expenditure unnecessary The remaining $750,000 will adequately fund the program until it is taken over by the federal government on January 1, 1974

Item 278—For support of Department of Social Welfare—Homemakers' Services I reduce this item from $16,863,125 to $13,868,200

I have reduced the funds for caseload expenditures by $2,994,925 in accordance with the revised estimates of the Department of Social Welfare as reported to the Legislature in May of this year

Item 281—For support of Department of Corrections I reduce this item from $135,699,642 to $134,721,317

I am eliminating a $250,000 augmentation for the Inmate Welfare Fund because the current method of providing recreational equipment and supplies is both adequate and satisfactory

In addition, I am reducing the item by another $728,325 for inmate release funds because an increase in the minimum release funds, from $68 to $200, will still be permitted for each inmate who leaves prison

Item 281 1—For support of Department of Corrections I reduce this item from $500,000 to $100,000

I am reducing the augmentation for contracting with private agencies to provide correctional services to inmates by $400,000 until present programs may be identified and evaluated for their effectiveness The amount of $100,000 is adequate to seek and evaluate new programs to assist inmates

Item 281 2—For support of Department of Corrections I eliminate this item

The Department of Corrections currently operates four community correctional centers which are supported by state funds A fifth center was recently opened under a federal grant for research and evaluation. Additional centers should not be established until results of the federal study are known Therefore, I am eliminating this augmentation of $600,000

Item 281 3—For support of Department of Corrections I eliminate this item

I am eliminating the augmentation of $300,000 for employment of additional correctional counselors pending evaluation of the usage of correctional program supervisors recently introduced to institutions

Item 285 1—For support of Department of the Youth Authority I reduce this item from $300,000 to $100,000

I am reducing the augmentation for contracting with private agencies for correctional services to wards and parolees by $200,000 until programs may be identified and evaluated for effectiveness This remaining $100,000 augmentation, plus currently available funds, is adequate to seek and evaluate new programs to assist wards and parolees

Item 285 2—For support of Department of the Youth Authority I eliminate this item

The Department is presently operating several structured residential programs There is no clearly demonstrated need for additional funds Therefore, I am eliminating this $400,000 item

Item 285 3—For support of Department of the Youth Authority I eliminate this item

I am eliminating this augmentation of $500,000 because there is insufficient data available to support the contention that reduced caseloads for parole officers contribute significantly to public safety Until such research has been completed, existing parole agent caseloads should be maintained

Item 297—For support of Department of Education I reduce this item from $7,682,263 to $7,655,263 by reducing paragraph (a) Personal Services from $18,164,124 to $18,146,124 and paragraph (b) Operating Expenses and Equipment from $11,172,181 to $11,163,181.

I have eliminated the school nurse consultant and related expenses There is no evidence that increased consultation or technical assistance from the state is needed

Item 297 1—For augmentation of Department of Education, Superintendent of Public Instruction and State Board of Education I reduce this item from $2,101,559 to $1,500,000 by reducing paragraph (a) Personal Services from $1,398,450 to $1,000,000, and paragraph (b) Operating Expenses and Equipment from $700,792 to $497,683

The intention of this augmentation was to replace federal funding under ESEA Title V There are many worthwhile programs, such as evaluation of year-round schools, statewide testing and Mexican-American liaison funded through this money, and I am approving sufficient funds to be sure that all the highest priority services will not be discontinued if federal funds are withdrawn However, I have reduced the total by $601,559 because I do not believe the state can assume every program which will no longer be federally funded I believe the department must eliminate programs of lowest priority and strive for greater economy

Item 302—For support of Division of Libraries, Department of Education and Board of Library Examiners. I reduce this item from $2,294,760 to $2,097,198 by reducing paragraph (a) Personal Services from $2,240,073 to $2,127,091 and paragraph (b) Operating Expenses and Equipment from $6,869,657 to $6,785,077

The workload of the interlibrary loan, handicapped unit, does not justify the augmented amount in this item However, four additional positions are needed to perform necessary services Therefore, I am reducing this item only by the amount of the excess augmentation

Item 307—Compensatory education, special teacher employment programs, demonstration programs in reading and mathematics and professional development and program improvement, Department of Education I reduce this item from

$11,138,000 to $10,818,000

I have eliminated funding for the Research and Teacher Education Projects at the University of California, Los Angeles My agreement to continue funding of this project in 1972–73 did not anticipate that the project would be continued in 1973–74.

I also have eliminated the $220,000 augmentation for an Urban-Bilingual Professional Development Center project Sufficient funding and flexibility were included in the Department's support budget submitted to the Legislature in January to allow the Department to fund this project on a priority basis

Item 308 1—For the support of Chapter 638, Statutes of 1972, Department of Education I reduce this item from $515,000 to $355,000

I have included sufficient funding in this item for the continuation of this project through 1973–74, at which time a final evaluation will be completed and the project will be discontinued as a state-funded program

Funds remaining in the item provide for.

a Continuation of the 50 classes which are now being evaluated

b Evaluation, including a formal interim report in January 1974 and a final report in June 1974

c Continuation of 20 classes which are not now being evaluated

Item 308 2—For pilot cooperative improvement and dropout prevention programs I eliminate this item

This appears to be a program more properly funded in the Department of Youth Authority I therefore have asked the Department to begin negotiations for the pilot project from their support budget

Item 309.5—For Children's Centers Programs, Department of Education I reduce this item from $23,113,233 to $5,828,550 by eliminating paragraph (a) Children's Centers ($6,750,000) and paragraph (c) campus children's centers ($2,025,000), and reducing paragraph (b) Preschool education from $14,338,233 to $5,828,550

The federal funds available and allocated for child development programs are sufficient to allow for the planned expansion in the children's center programs and there is no need for General Fund contingency funding

New federal regulations are likely to cause large funding reductions in the Preschool Education Program It is not my intention for the state to automatically assume financial responsibility for previously federally funded programs without a thorough revi

F 's which remain in this item, together with state funds in Item 309(c), will allow the Preschool Education Program to continue for six months while this administration studies the program and develops stronger regulations through the legislative process

Item 310—For assistance to public libraries, Division of Libraries, Department of Education I reduce this item from $1,355,000 to $1,000,000.

I cannot support the full augmentation suggested by the Legislature, but I am leaving $200,000 in this item over and above the amount originally proposed in my budget submitted in January As proposed by the Legislative Analyst, I believe that a revised allocation system could provide for more effective use of the taxpayers' money

Item 316—For support of University of California. I reduce this item from $399,365,749 to $397,890,749

I reduce this item for the following reasons

Price Increase . . . . . —$350,000

I am approving an augmentation of $1,650,000 for this purpose

Extended Opportunity Program . . . . . —$1,000,000

The University has a successful Educational Opportunity Program Existing resources are sufficient to finance over eight percent of its undergraduate enrollment in the program which, I believe, is sufficient.

Residencies for Primary Care . . —$125,000

The University originally intended to admit 104 additional residencies for the 1973–74 year However, they have currently enrolled 78 and it does not appear that this number will substantially increase by September I am therefore proportionately reducing this item

Item 316 4—For support of University of California instructional programs in health sciences affected by Federal budget reductions I reduce this item from $1,834,000 to $1,031,000

I have accepted that part of the augmentation suggested by the Legislature which would fund the two highest priorities in this item, $820,000 for programs in the field of public health and $211,000 for the program in family practice medicine at Sonoma and the special program to train nurse practitioners at UCLA In addition, the University has over $470,000 in carryover funds from the current year available for funding of these items The remaining lower priority items which I have deleted may be funded from the University's support budget if they are deemed of higher priority than other currently supported activities

Item 316 5—For replacement of Federal Fund Reductions, University of California I reduce this item from $1,098,000 to $600,000 by reducing paragraph (a) Bankhead-Jones Funds from $166,000 to $91,000, paragraph (b) Hatch Act and McIntire-Stennis Act Funds from $404,000 to $228,000, paragraph (c) Smith-Lever Act Funds from $146,000 to $81,000 and paragraph (d) Sea Grant College Program from $182,000 to $0

I am reducing this item by $498,000 because I believe there will be sufficient funds to maintain the 1972–73 Universitywide student-faculty ratio in those programs receiving funding from a through c above and to finance the operation of the research ship The Administration is supporting legislation, already introduced, which would provide substantial money for sea grants. If passed, a portion of this money would be available to the University.

Item 316 12—For research in mosquito control, University of California I eliminate this item

The budget as originally submitted contained $300,000 for mosquito research In addition I am approving another $100,000 for this purpose in Item 316 I believe this will provide ample funds for this purpose

Item 323—For support of Trustees of the California State University and Colleges and the California State University and Colleges I reduce this item from $407,156,252 to $405,647,372 by reducing paragraph (a) Personal Services from $402,254,625 to $402,206,052 and paragraph (b) Operating Expenses and Equipment from $89,842,549 to $88,382,242

I am reducing this item for the following reasons

Replacement Equipment $1,000,000

Funds to accomplish replacement of equipment can be made available by the trustees without approval of the Department of Finance from excess salary savings, as provided in Section 28 7 (a) of the Budget Act

Educational Opportunity Programs. 428,880

Of the $1,408,880 legislative augmentation to this program, I am approving $980,000 in the budget This will provide $580,000 in grants for 2,416 third- and fourth-year students and $400,000 in grants and related staffing needs to increase the number of lower division students covered to 4,220 (fulltime equivalent) students.

Planning Funds for Year-Round Operation . . 50,000

Substantial amounts have been spent in previous years on planning for year-round operations at California State University, San Francisco With the decline in the level of enrollment growth in the California State University and College System, these additional planning funds are not needed

San Diego Educational Television 30,000

Sufficient funds already are provided in the budget to cover operations for instructional programs on the campus The funding for this station will be reviewed thoroughly during 1973–74 with the goal of developing reasonable funding formulas which can be put into use beginning in 1974–75

Item 327—For support of Board of Governors, California Community Colleges I

reduce this item from $1,137,299 to $1,087,839 by reducing paragraph (a) Personal Services from $1,587,596 to $1,541,095 and paragraph (b) Operating Expenses and Equipment from $543,570 to $540,611

I am reducing this item which would have added an architect and a specialist to the staff of the Chancellor's Office Such capabilities already exist in that organization and can be utilized to meet systemwide facility planning objectives

Item 328—For Community College extended opportunity programs, Board of Governors of the California Community Colleges I reduce this item from $7,360,000 to $6,170,500

The Legislature's proposed funding for this program would have increased community college EOP funds by more than 50 percent over the current year At present, the community colleges expend 52 percent of these funds for administration and counseling A large number of economically deprived high school graduates—minority and other—have, despite their handicaps, achieved at a normal or better than normal level in their high schools These students would need only ordinary support services in the community colleges and are too often overlooked when selecting for EOP grants Many of the economically disadvantaged are unable to continue their education I am thinking of these students when I accept $1,056,000 of the suggested augmentation I want to make the strongest plea that these dollars be used solely for grants and for the achieving minority and poor students

Item 331 1—For support of Department of General Services for working drawings, State building, San Jose I eliminate this item

Information provided by the Department of General Services indicates that a state-constructed building in San Jose cannot be economically justified at this time

Item 337—I delete from Item 337 the words "or less" Fire, safety, and public health needs cannot be forecast to the exact penny A maximum limitation is acceptable, an identical minimum is artificial and unworkable The executive department is best able to determine those minimum needs I believe that any language which mandates such spending is unreasonable and lacks constitutional authority

Item 360—For capital outlay, University of California I reduce this item from $12,970,000 to $12,922,000 by eliminating paragraph (30) Working drawings for College No 8 Academic Unit, Santa Cruz Campus ($48,000)

I am eliminating this item because the proper size of the campus at the University of California, Santa Cruz, is still under study Until the future size of this campus and the pattern of total enrollments in the universities is clarified, I believe it is premature to commence an additional college on this campus

Item 361—For capital outlay, Trustees of the California State University and Colleges I reduce this item from $26,922,000 to $23,967,000 by eliminating paragraph (49) State College, Bakersfield, Construct Science building II ($2,955,000)

I am eliminating this project because it is not of sufficiently high priority in the building program as specified by the Trustees of the California State University and Colleges

Sec 32 5—For support of public assistance programs, Department of Social Welfare I reduce this section from $680,332,600 to $664,286,700

I have reduced the estimates for caseload expenditures by $16,045, 900 in accordance with the revised estimates of the Department of Social Welfare as reported to the Legislature in May of this this year

With the above deletions and reductions, I hereby approve Assembly Bill No 110

RONALD REAGAN, Governor

Whenever by constitutional or statutory provision the revenues or receipts of any institution, department, board, bureau, commission, officer, employee, or other agency, or any moneys in any special fund created by law therefor, are to be used for salaries, support or any proper purpose, expenditures shall be made therefrom for any such purposes to the extent only of the amount herein appropriated, unless otherwise stated herein, or authorized pursuant to Section 11006 of the Government Code

Appropriations for purposes not otherwise provided for herein which have been heretofore made by any existing constitutional or statutory provision shall continue to be governed thereby.

GENERAL SECTIONS

SEC. 4. Notwithstanding any other provisions of this act, no appropriations made herein, or funds obtained from any other source, over $10,000 may be expended by any state entity for any single expansion, improvement or addition to electronic data-processing activities, personnel, equipment, facilities or supplies during fiscal year 1973–74, or any expenditure budgeted for fiscal year 1974–75 for electronic data-processing activities, personnel, equipment, facilities or supplies unless the department director certifies (or in the case of a consolidated data center, the center director), and the Director of Finance determines and states in writing that the criteria and procedures set forth in the Supplementary Report of the Committee on Conference on the Budget Act of 1973 have been met and followed.

Notwithstanding any other provisions of this act, no appropriations made herein, or funds obtained from any other source, may be expended by any state entity pursuant to a contract for expansion, improvement or addition to electronic data-processing activities, personnel, equipment, facilities or supplies as defined in the Supplementary Report of the Committee on Conference on the Budget Act of 1973, during fiscal year 1973–74 or any expenditure budgeted for fiscal year 1974–75 for such activities in excess of $10,000, unless the contract for the acquisition or rental of equipment, personal services, or supplies as these terms are defined in the Supplementary Report of the Committee on Conference on

the Budget Act of 1973 is competitively bid.

No expenditure of funds for data-processing activities shall be authorized until the director of the department requesting the expenditure and the Director of Finance certify that adequate safeguards have been developed following the criteria contained in the Supplementary Report of the Committee on Conference on the Budget Act of 1973 to insure the confidentiality of data.

The provisions of this section shall not apply to the University of California, the State Compensation Insurance Fund, or agencies provided for by Article VI of the Constitution or the Legislature.

Contracts awarded or entered into pursuant to this section for lease of electronic data-processing equipment shall be in the form of the Model Contract for Lease of Electronic Data Processing Systems and Components as outlined in Management Memo 73-13, dated May 16, 1973, for inclusion in the State Administrative Manual as Section 4960.2 (revised May 16, 1973), and no portion of such contract shall be excluded or stricken.

No funds appropriated in this act may be encumbered or expended for the purchase of electronic data-processing equipment, as defined in the supplemental report of the Committee on Conference on the Budget Act of 1973, until a new model contract has been developed and approved for such purchases, provided that any such proposed new model contract for electronic data-processing equipment purchases shall be submitted to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee 30 days prior to approval and adoption of any such new model contract.

No expenditures or encumbrances shall be made from funds appropriated in this act or from any other source for the lease, lease-purchase or purchase of electronic data processing equipment unless two bidders bidding on mainframes manufactured by different companies have been determined to be qualified for contract award in accordance with this section.

SEC. 4.1. Notwithstanding any provisions of law to the contrary, no funds appropriated in this act nor from any other sources shall be expended, encumbered or transferred to fund planning, staffing or implementation of any phase of the Revenue Consolidated Data Center or the Human Relations Consolidated Data Center (Health and Welfare Consolidated Data Center).

SEC. 5. Because it is necessary to insure the availability of adequate equipment for physical facilities constructed for the operation of custodial, mental health, educational, administrative, military, and other agencies of the state government; because uncertainties as to completion dates make precise advance planning of equipment purchases impossible; and since delivery of some kinds of equipment cannot be made for six months or longer from the date of ordering; state agencies are therefore authorized to incur obligations, to be met during the 1974–75 fiscal year, for the purchase

of equipment related to capital outlay projects for which the Legislature has appropriated construction funds; provided, that no obligation shall be incurred under the provisions of this section without the approval of the Department of Finance and the State Public Works Board Purchase orders issued and contracts entered into under the provisions of this section shall not exceed a total of two million dollars ($2,000,000) in estimated cost.

SEC. 6. No more than $2,300,000 of the funds appropriated in Item 8 of this act shall be expended for the purpose of the California Clean Car Project.

SEC. 7. Any acquisition of land or other real property included in any appropriation made herein except appropriations from the California Water Fund or the State Highway Account, State Transportation Fund or appropriations to the Board of Governors of the California Community Colleges for allocation to the community college districts shall be subject to the provisions of the Property Acquisition Law.

All property acquisitions, notwithstanding other exemptions of this section, shall be reported to the State Public Works Board.

SEC. 8. No money appropriated herein in any item for capital outlay may be expended by any state agency, including the University of California, the California State University and Colleges and the community colleges, except amounts for acquisition of land or other real property, amounts needed for equipment, minor projects and amounts appropriated specifically for preliminary surveys, studies and planning until the State Public Works Board and the Department of Finance have approved preliminary plans for the project to be financed from such item of appropriation for capital outlay with the exception that community college approvals by the Public Works Board will apply only to the allocation of state capital outlay funds appropriated heretofore and hereafter by the Legislature; including land acquisition and equipment funds; provided further, that unless excepted by the conditions of Section 20084 of the Education Code, the Public Works Board shall not approve for allocation any appropriated amounts for working drawings or construction where said working drawings or construction have been started by a community college prior to approval of the state-appropriated amounts by the Public Works Board, and all such amounts not approved by the board under this criterion shall be reverted to the unappropriated balance of the appropriate fund; provided further, no major project for which appropriation is made hereunder regarding which the Director of Finance or his authorized representative requests review of working plans shall be put out to bid until the working plans therefor have been approved by the Department of Finance; provided further, that no money appropriated herein may be spent for working drawings for any project as to which there has been made substantial change or changes from the preliminary plans as approved by the State Public Works Board and the Department of Finance unless

there has first been obtained the approval of the Department of Finance to make such change or changes; provided further, that no more than one hundred dollars ($100) of the money appropriated herein may be spent for any single unit of equipment until prior approval for purchase of such equipment shall have been given by the Department of Finance.

Nothing in this section shall be construed to limit or control the Department of Public Works in the expenditure of State Highway Account, State Transportation Fund money appropriated for capital outlay purposes.

The Department of Public Works shall report to the State Public Works Board the expenditures for capital outlay, except minor projects, from appropriations contained in this act.

SEC. 8.5. In making appropriations to state agencies which are eligible for federal assistance programs, it is the intent and understanding of the Legislature that applications made by such agencies for federal funds under any such programs shall be for the maximum amount allowable under federal law.

SEC. 9. Notwithstanding any other provision of law, the portion of each sum of money heretofore appropriated or allocated, hereby appropriated or hereafter allocated to the Regents of the University of California for capital outlay which remains after the purpose for which each said sum was appropriated or allocated has been accomplished, and which have been or hereafter are withdrawn from the State Treasury by the Regents of the University of California pursuant to the provisions of Section 23201 of the Education Code, together with increments, by way of interest or otherwise, on any such appropriation or allocations, shall be used and expended by the Regents of the University of California in executing and furthering the building and improvement program of the University of California; provided, that no such sums shall be allocated by the Regents of the University of California to projects for the purpose of augmenting those projects without prior approval of the State Public Works Board of the requested augmentation. Such sums shall be available for expenditure in payment of any encumbrances heretofore or hereafter incurred without regard to fiscal years; provided, however, that any unencumbered balances existing as of the date on which each such appropriation or allocation otherwise would lapse, shall then revert.

SEC. 10. Notwithstanding any other provisions of law, the undisbursed balances, on the effective date of this act, of the appropriations provided in the following citations, are reappropriated for the purposes provided for in said appropriations, and shall be available for expenditure until June 30, 1974.

(c) Since the State Scholarship and Loan Commission must announce in the spring of 1974 those individuals to whom College Opportunity Grants will be granted for the following fall semester of 1974 and, since the Budget Act of 1974 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to incur College Opportunity Grant obligations for the maximum number of awards authorized by Section 31263 of the Education Code in an amount not to exceed $7,000,000 during the 1973–74 fiscal year for awards to be in effect during the 1974–75 fiscal year.

(d) Since the State Scholarship and Loan Commission must announce in the spring of 1974 those individuals to whom Occupational Training Grants will be granted for the following fall semester of 1974 and, since the Budget Act of 1974 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to incur Occupational Training Grant obligations for the maximum number of awards authorized by Section 31295.5 of the Education Code in an amount not to exceed $800,000 during the 1973–74 fiscal year for awards to be in effect during the 1974–75 fiscal year.

The intent of this authorization is to prevent the occurrence of there being insufficient funds available to support state scholarships, graduate fellowships, College Opportunity Grants, or Occupational Training Grants, the recipients of which have already been notified of their award. It is necessary that the State Scholarship and Loan Commission announce awards in the spring of each year, often prior to the time the Budget Bill containing the appropriation for this purpose is enacted, in order that students receiving the awards and grants may have sufficient time to plan for entering or returning to school the following fall.

SEC. 19.7. Since it is necessary that sufficient planning time be available for expanding enrollments at existing medical schools, the State Scholarship and Loan Commission is authorized, during the 1973–74 fiscal year, to incur obligations for increased enrollments in medical schools in California, subject to the provisions of Sections 31285.1 through 31285.4 of the Education Code, by an amount not to exceed $724,200 for expenditure in 1974–75.

SEC. 19.8. Since the resolution of the final federal appropriations and subsequent allocations thereof for student financial aid programs may not be finalized prior to enactment of the Budget Act of 1973, and since there is an imperative need to provide a continuing level

of student financial aid in view of the necessity to make advance commitments to students, the following authorizations are hereby granted.

a. The University of California is authorized to incur financial aid obligations up to and not to exceed the total financial aid expenditure amounts reflected in the 1973–74 Governor's Budget for the University of California. Such authorization would be without regard to the funding sources proposed in the Governor's Budget. Such funds are not to exceed $4.1 million of which no more than $1.1 million can be for economic opportunity grants.

b. The California State University and Colleges are authorized to incur financial aid obligations up to and not to exceed the total financial aid expenditure amounts reflected in the 1973–74 Governor's Budget for the California State University and Colleges. Such authorization would be without regard to the funding sources proposed in the Governor's Budget. Such funds are not to exceed $8.4 million of which no more than $1.9 million can be for economic opportunity grants. Notwithstanding any other provision of law, the California State University and Colleges are authorized to establish necessary financial aid regulations and provision for the administration of the above. Such authorization should also include provision for the level of administrative staffing currently contained in the Governor's Budget.

c. The Board of Governors of the California Community Colleges is authorized to incur financial aid obligations up to but not to exceed $3.3 million. Notwithstanding any other provision of law, the Board of Governors is authorized to establish necessary financial aid regulations and provide for the administration of the above.

The intent of this authorization is to prevent insufficient funds from being available to support budgeted financial aids expenditures in the Economic Opportunity Grant, College Work-Study and National Direct Student Loan programs due to a reduction in anticipated federal funds. Claims will be submitted against the Emergency Fund (Item 90 of this act) and approved by the Department of Finance to provide the difference between federal reimbursements projected and federal reimbursements realized and shall be reported to the Chairman of the Joint Legislative Budget Committee on a quarterly basis.

SEC. 20. No money appropriated by this act shall be used to pay the salary of any authorized state position which was abolished effective September 1, 1973 and which position was vacant continuously during the period between October 1, 1972, and July 1, 1973. The State Controller, no later than August 1, 1973, shall notify in writing the Department of Finance of any authorized state position which was vacant continuously during such period. All such positions, except those exempt from civil service or those instructional and instructional-related positions authorized for the California State University and Colleges, are abolished effective September 1, 1973.

The State Controller, not later than 30 days prior to the convening of the 1974 Regular Session of the Legislature, shall furnish the Joint Legislative Budget Committee a report on all positions as of July 1, 1973, which were unfilled continuously during the period between October 1, 1972, and July 1, 1973.

SEC. 20.1. Notwithstanding any other provisions of law, expenditures under Item 13 of this act or any appropriation in augmentation of such item shall be exempt from the provisions of Sections 11033, 13320 and 13325 of, and Chapter 3 (commencing with Section 14250) of Part 5 of, and Chapter 6 (commencing with Section 14780) of Part 5.5 of, Division 3 of Title 2 of the Government Code, subdivision (a) of Section 713 of Title 2 of the California Administrative Code and Sections 4, 8, and 25 of this act, and may be expended as set forth in the Governor's Budget, or for such other purposes, including expenditures for such number of positions in various classifications, as may be authorized by the Joint Committee on Rules.

SEC. 21.3. Since it is imperative for the Department of the California Highway Patrol to purchase special service automobiles in order to adequately patrol the highways of this state and since such automobiles can be purchased more effectively and economically on an annual basis with relation to the model year, which so-called year bridges two fiscal years, the Department of the California Highway Patrol is authorized to incur automotive equipment purchase obligations in an amount not to exceed $1,500,000 during the 1973–74 fiscal year for delivery beginning in the 1974–75 fiscal year, and the sum of $1,500,000 is hereby appropriated from the Motor Vehicle Account, State Transportation Fund to the Department of the California Highway Patrol. This appropriation shall be available until July 1, 1974.

SEC. 21.4. Since it is imperative that the maximum amount of time possible be provided the State Board of Education in the selection of textbooks and for private publishers and the State Printer to print textbooks for the ensuing school year, the Department of Education and the Department of General Services are authorized subject to the provisions of Education Code Sections 9200 through 10001 to incur textbook printing obligations in an amount not to exceed $10 million in the aggregate during the 1973–74 fiscal year for delivery by the State Printer and private publishers to the Department of Education and local educational agencies beginning in the 1974–75 fiscal year.

SEC. 21.5. Since it is necessary to provide adequate time for planning and preparation for the 1974 State Fair, the California Exposition and Fair Executive Committee is authorized, during the 1973–74 fiscal year, to incur obligations for operating expenses related to the 1974 State Fair, in an amount not to exceed $1,500,000; provided further, that no such obligations shall be incurred for personal services, maintenance, or capital outlay projects.

SEC. 22. No purchase order for acquisition or replacement of

motor vehicles shall be issued against any appropriation made herein until the Department of General Services has investigated and established the necessity therefor.

All passenger-type motor vehicles purchased from any appropriation made by this act for the use of state employees and officers, except constitutional officers, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements, such as use by the California Highway Patrol, which would justify the need for an automobile of a heavier class.

SEC. 23. All passenger-type motor vehicles purchased either from any appropriation made by this act or from any other appropriation available therefor for the use of the Department of Public Works, except for use of officers excepted in Section 22 of this act, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

SEC. 24. None of the moneys appropriated by this act or for an expenditure which is supplemented from money appropriated by this act shall be used to purchase furnishings for any house or apartment of three or more rooms other than a dormitory which is rented to a state employee except for a superintendent of an institution, warden of a prison, or physicians. This provision shall not apply to the purchase of refrigerators, heaters, air-conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be determined by the State Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. Such furnishings are not to be provided by the state nor shall any money be paid from this appropriation for their replacement, repair or otherwise except in connection with the disposal of the same.

SEC. 25. No moneys appropriated by this act shall be used, either directly or by supplementing any other appropriation, to purchase rugs or carpets for any state office except for offices used by elective officers, the President of the University of California, a Chancellor of the University of California, the Chancellor of the California State University and Colleges, a president of a state university or college, department heads and for other facilities or areas under the control of the agencies financed by this act in accordance with standards issued by the Director of General Services. The Director of General Services shall furnish a detailed report annually to the Joint Legislative Budget Committee of all rugs or carpets purchased for state facilities under this section.

Approval of the Director of General Services shall be obtained prior to procurement and installation of such materials. The Director

of General Services may authorize the use of carpeting in other specialized facilities not meeting the established standards 30 days after notification in writing of the proposal with justification therefor to the Joint Legislative Budget Committee.

SEC. 26. Whenever herein an appropriation is made for support it shall include salaries and all other proper expenses, including repairs and equipment, incurred in connection with the institution, department, board, bureau, commission, officer, employee, or other agency, for which such appropriation is made.

Whenever herein an appropriation is made for capital outlay, it shall include acquisition of land or other real property, major construction, improvements, equipment, designs, working plans, specifications, repairs and equipment necessary in connection with a construction or improvement project.

Whenever herein any item of appropriation contains provisions for acquisition of land or other real property, it shall include all necessary expenses in connection with the acquisition of such property.

Whenever herein an appropriation is made in accordance with a schedule set forth after such appropriation, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category" or "project" means a class of expenditures such as, but not limited to:

(a) "Personal services" which shall include all expenditures for payment of officers and employees of the state; including salaries and wages, workmen's compensation, unemployment compensation benefits (if enacted into law), insurance premiums for workmen's compensation coverage, the state's contributions to the Public Employees' Retirement Fund, the Teachers' Retirement Fund, the University of California Retirement Fund to provide for that portion of retirement costs to be provided for Hastings College of Law in Item 322 of this Budget Act, the Old Age and Survivors' Insurance Revolving Fund, the State Employees' Contingency Reserve Fund, and the state's cost of a basic health benefits plan; but do not include compensation of independent contractors rendering personal services to the state under contract;

(b) "Operating expenses and equipment" which shall include all expenditures for purchase of materials, supplies, equipment, services (other than services of state officers and employees), and all other proper expenses;

(c) "Construct" or "construction" when used in connection with a capital outlay project shall include all such related things as fixtures, installed equipment, and auxiliary facilities;

(d) "Working drawings" are defined as a complete set of plans

and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs are included in the preparation of such drawings.

(e) "Minor projects" include construction, improvements, repairs and equipment projects not specifically set forth in the schedule.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to those documents entitled, "State of California Governor's Budget for 1973–74 and State of California Budget Supplement for 1973–74," submitted by the Governor to the Legislature at the 1973 Regular Session, the uniform accounting system prescribed by the Department of General Services under the provisions of Section 13290 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

SEC. 26.5. Whenever herein an appropriation is made for support or other expenses for an institution, department, board, bureau, commission, officer, employee, or other agency, there shall be charged to such appropriation from which salaries and wages are paid: workmen's compensation, the state's contribution to the Public Employees' Retirement Fund as provided by Sections 20751 and 20752 of the Government Code, the state's contribution to the Teachers' Permanent Fund and the Retirement Annuity Fund as provided by Sections 14209 and 14210 of the Education Code, the state's contribution to the Old Age and Survivors' Insurance Revolving Fund as provided by Sections 20782 and 20783 of the Government Code, the state's contribution to the State Employees' Contingency Reserve Fund and the state's contribution for the cost of a basic health benefits plan as provided by Sections 22828 and 22829 of the Government Code.

As of the effective date of this act, the state's contributions as provided by Sections 22828 and 22829 of the Government Code for any month shall be charged to the same appropriations used for payment of salaries and wages from which the employee premium contributions for such month are deducted.

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, by Sections 14209 and 14210 of the Education Code, shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section. This transfer may be chargeable to such appropriation for a previous fiscal year if there are no funds available from that fiscal year.

The State Controller may transfer to the State Payroll Revolving Fund the contributions required by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, and upon certification by the Board of Administration of the Public Employees' Retirement System in accordance with Sections 20754 and 20784 of the Government Code, may transfer from the State Payroll Revolving Fund to the Public Employees' Retirement Fund and the Old Age and Survivors' Insurance Revolving Fund the amounts of contributions so certified.

SEC. 27. The Department of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category or project designated in any schedule set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule. The Department of Finance shall furnish the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee a report on all authorizations given pursuant to this section during the preceding month.

An augmentation of any amount available for expenditure for a category or project designated in any line of any schedule for personal services or operating expenses and equipment set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule shall not exceed, in the aggregate, 20 percent of the amount so scheduled on that line.

SEC. 27.1. Item 242.5 of the Budget Act of 1972 is hereby exempted from the provisions of Section 27 of the Budget Act of 1972.

It is the intent of the Legislature that present and future employees of neuropsychiatric institutes transferred to the University of California shall have the rights and privileges they would have had as employees of the Department of Health under civil service.

SEC. 27.5. The Director of Finance is authorized to transfer funds appropriated herein under Items 111 and 112, for the support of the Department of Food and Agriculture, Item 145, for the support of the State Fire Marshal, Item 172, for the support of the Department of Housing and Community Development, and Item 243, for the support of the Department of Health to and in augmentation of Item 154, for the support of the Department of Industrial Relations, in such amounts as the Director of Finance deems necessary to implement programs or activities which the Secretary of the Agriculture and Services Agency determines to be within the scope of the California State Plan approved under the provisions of the Occupational Safety and Health Act of 1970, Public Law 91-596; provided, that the authority to make such transfers is contingent upon the award of federal grant funds under Section 23(g) of the Occupational Safety and Health Act of 1970; provided further, that no such transfers shall be authorized by the Director of Finance prior

to notification in writing to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee.

SEC. 28. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedule set forth for any appropriation in this act or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau, or other agency during the 1972–73 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration, except that the director may authorize expenditures for a new program not identified in the budget as such or for purposes which in his judgment constitute an increase in the level of services above that authorized by the Budget Act or other existing law not sooner than 30 days after notification in writing of the necessity therefor to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine.

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

SEC. 28.1. (a) The Regents of the University of California and the Trustees of the California State University and Colleges may not enter into a lease-purchase agreement with another entity, public or private, which involves building space, unless such agreement is reviewed and approved by the Legislature. Section (a) has no application to the transfer of the California State University and College headquarters to Long Beach.

(b) The Trustees of the California State University and Colleges shall not finalize any contractual agreement regarding the Long Beach office building until there has been a full and complete review and approval of associated plans, specifications, contract, lease, or other building document whatever, including any financial arrangements, by the Public Works Board.

SEC. 28.2. The Director of General Services may not initiate a lease agreement between the state and another entity, public or private, in which the state is lessee when the agreement is to be for the lease of a building or building space or both which will be for the occupancy of any agency or agencies of the state with a firm lease period of five years or longer and an annual rental in excess of $5,000 or if the agreement contains an option for the purchase of the lease property, unless not less than 30 days prior to such authorization he notifies the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative

Budget Committee or his designee in writing of his intention to initiate such an agreement, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine, provided that no funds appropriated in this act may be encumbered or expended for any lease entered into on or after July 1, 1973, for office space in the County of Sacramento unless the lease terms contain a provision that such lease may at the option of the state be canceled without penalty in the event the state builds or has built state office buildings in the City of Sacramento into which the state agency under the lease may be directed by the state to occupy, except that provisions to pay a lessor for the unamortized capital improvements put in at the state's request shall not be considered a penalty for purposes of this section.

SEC. 28.3. The Department of Social Welfare shall submit to the Department of Finance, on a quarterly basis, for its approval all assumptions underlying all estimates related to (1) average monthly caseloads for each of the categorical aid programs, (2) the average grant for each of the categorical aid programs, (3) the total estimated expenditures for each of the categorical aid programs, (4) savings or costs associated with all regulatory or statutory changes. Such approval of the Department of Finance must be secured prior to the utilization of any such estimates. A listing of all of the approved assumptions, as well as all supporting data provided by the Department of Social Welfare or developed independently by the Department of Finance, shall be made available to the Joint Legislative Budget Committee immediately following approval of the assumptions by the Department of Finance.

SEC. 28.4. No funds appropriated by this act shall be encumbered or expended for the purpose of funding any increased local governmental costs arising from the issuance of an executive order subject to the provisions of Section 2164.3 of the Revenue and Taxation Code, unless notification in writing of the necessity therefor is given at least 30 days before such encumbrance or expenditure is made to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee or such lesser time as the chairman of said committee, or his designee, may in each instance determine.

SEC. 28.5. Approvals by the Department of Finance to the creation of deficiencies pursuant to Section 11006 of the Government Code and approvals to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall be made in writing and filed with the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee within 10 days after approval stating the reasons for and amount of such authorization.

SEC. 28.6. The Director of Parks and Recreation may not advertise to award any concession contract or agreement which involves a total investment for any private party in excess of $100,000 or involves projected concessionaire gross receipts in excess of

$100,000 under the terms of the proposed agreement unless not less than 30 days prior to such advertising date, the Director of Finance notifies the Chairman of the Joint Legislative Budget Committee or his designee in writing of his intention to initiate advertising for such concession contract or agreement, or not sooner than such lesser time as the chairman of such committee or his designee, may in each instance determine; provided, that the notification shall include a finding by the Director of Parks and Recreation and the Director of Finance that the concession contract or agreement cannot reasonably be presented to the Legislature through the annual budgeting process.

SEC. 28.7. All appropriations for the support of the California State University and Colleges and the Trustees of the California State University and Colleges shall be subject to the provisions of Section 13320 of the Government Code and applicable Budget Act restrictions, with the following exception:

(a) The trustees may transfer, without the approval of the Department of Finance, excess salary savings funds from the salary savings reserve allotments for expenditure, provided they do not exceed 20 percent of salary savings. Excess salary savings funds are those funds projected to be in excess of the amount budgeted, provided that, the highest priority on the reallocaton of any funds pursuant to this section shall be the maintenance of the Educational Opportunity Program with 4,220 FTE new enrollees.

SEC. 28.8. Notwithstanding any provisions of law to the contrary, including Sections 27 and 28 of this act, no funds allocated by this act or derived from any other source may be used to fund the Center for the Study and Reduction of Violence at the Neuropsychiatric Institute, University of California at Los Angeles, or at any other state entity, without prior approval of the Legislature.

SEC. 29. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

SEC. 30. Whenever an expenditure is authorized from the Emergency Fund, from price increase funds, from the salary increase funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 31. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new positions shall be established unless authorized by the

Department of Finance on the basis of work program and organization.

The Director of Finance, or his authorized designee, shall notify the Chairman of the Joint Legislative Budget Committee and the chairmen of the committees in each house which consider appropriations within 10 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $1,000 per month. He shall also report all transfers to blanket authorizations and the establishment of any permanent position out of a blanket authorization.

All positions created pursuant to this section during the fiscal year shall terminate at the end of the fiscal year unless specific authority for their continuance is granted by the Legislature. Positions terminated at the close of a fiscal year because the Legislature failed to give specific authority for continuation may not be administratively reestablished during the subsequent fiscal year.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any salary savings reserve may be expended to pay increases in salary ranges established after July 1, 1972, unless the Department of Finance certifies to the State Personnel Board, or other salary-fixing authority, prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom. Provided, that the provisions of this paragraph shall not apply to salaries fixed by the State Personnel Board based on prevailing rates pursuant to Government Code Section 18853.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall

certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be allowed by the State Controller nor paid out of any state appropriation. Any member of any such department, board, commission or institution, who shall vote for any expenditure, or create any indebtedness against the state in excess of the respective appropriations made by this act, except by the consent of the Department of Finance and the certificate in this section provided to be first obtained, shall be liable on his official bond for the amount of such indebtedness, to be recovered in any court of competent jurisdiction by the person or persons, firm or corporation to whom such indebtedness is owing.

The Department of Finance shall submit copies of certificates approved by it under this section to the Chairman of the Joint Legislative Budget Committee, and the chairman of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 32.5. Notwithstanding the provisions of any appropriation of state funds made in the Welfare and Institutions Code for the public assistance programs, expenditures of state funds for those programs for the fiscal year ending June 30, 1974, shall not exceed, in the aggregate, the sum of six hundred eighty million three hundred thirty-two thousand six hundred dollars ($680,332,600).

The Department of Social Welfare, subject to the limit placed on aggregate expenditures by this section, may transfer funds between categorical aid programs.

The Department of Social Welfare shall administer the public assistance programs so that the counties will bear no more than the amount of welfare costs that they would be obligated to bear under the applicable provisions of the Welfare and Institutions Code, without the expenditure limitations set forth herein, and so that the amount authorized to be expended under this section shall fully cover the state's share of aid payments and for services under such programs for the 1973–74 fiscal year.

The limitations on amounts imposed by this section shall apply to

any amounts which are determined by the Director of Finance to be necessary to meet increases in cost arising out of approvals made by the Department of Finance pursuant to the provisions contained in Item 275.

Provided further, that the Director of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, or both, unrelated to any change in rule or regulation adopted during the current fiscal year which are in excess of Budget Bill estimates for 1973–74. If the Director of Finance determines during the third quarter that the estimate of expenditures will exceed the authorized expenditure in this section, he shall so report to the Legislature prior to the end of the third quarter. At such time as a report is made, the amount of the limitation shall be increased by the amount of such excess unless and until otherwise provided by law.

SEC. 32.6. No funds included in this act shall be expended for the support of any agency, board, bureau, commission, committee, council, department, division, office, or unit unless such body is operating in and reporting in the administrative structure to which it is assigned by statute, by a valid, effective, and operative reorganization plan of the Governor submitted to the Legislature, or by this act.

SEC. 32.8. As of June 30, 1973, the unencumbered balance of the revenues provided by Chapter 1326, Statutes of 1965, and appropriated by Section 32.7 of the Budget Act of 1967, shall be transferred to the unappropriated balance of the General Fund.

SEC. 32.9. No expenditure for park furnishings shall be made from any appropriation contained in this act for use by the Department of Parks and Recreation unless the department has made reasonable efforts to acquire such furnishings on a consolidated procurement basis. The department shall provide reasonable demonstration of such consolidated procurement to the Public Works Board and the Procurement Division of the Department of General Services before the board and division authorize an expenditure or approves procurement.

SEC. 33. If any item of appropriation in this act is vetoed, eliminated or reduced by the Governor under Section 10 of Article IV of the Constitution while approving portions of this act, such veto, elimination or reduction shall not affect the other portions of this act and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act and as if any reduced item of appropriation had not been reduced.

SEC. 34. If any section, subsection, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have passed this act, and each section, subsection, sentence, clause, and phrase thereof, irrespective of the fact that any one or more sections, subsections,

sentences, clauses, or phrases be declared unconstitutional.

SEC. 35. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

SEC. 36. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There exists an extreme shortage of physical facilities for the operation of the custodial, mental treatment, educational, administrative, military and other agencies of the state government, the present facilities being entirely inadequate due to great increases in population and added governmental responsibilities. The capital outlay appropriations in this budget are all in continuation of an existing program to remedy the aforesaid shortage of facilities and to promote and sustain the economy of the state. If they are not available for expenditure on July 1, 1973, the existing program will be delayed. The expeditious correction of such condition and the efficient operation of the state's business requires the immediate availability of the new capital outlay appropriation and the uninterrupted availability of reappropriated capital outlay items contained in this measure. It is therefore necessary that this act go into immediate effect.

CHAPTER 130

An act to repeal Section 4300 of, and to add Section 4300 to, the Civil Code, relating to blood tests, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1973 Filed with Secretary of State June 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4300 of the Civil Code is repealed.

SEC. 2. Section 4300 is added to the Civil Code, to read:

4300. (a) Before any person, who is or may hereafter be authorized by law to issue marriage licenses, shall issue any such license, each applicant therefor shall file with him a certificate from a duly licensed physician which certificate shall state that the applicant has been given such examination, including a standard serological test, as may be necessary for the discovery of syphilis, made not more than 30 days prior to the date of issuance of such license, and that, in the opinion of such physician, the person either

is not infected with syphilis, or if so infected, is not in a stage of that disease which is or may become communicable to the marital partner.

(b) Such certificate shall also state whether the female applicant has laboratory evidence of immunological response to rubella (German measles). Such certificate shall not contain such evidence of response to rubella where the female applicant (1) is over 50 years of age, or (2) has had a surgical sterilization or (3) presents laboratory evidence of a prior test declaring her immunity to rubella.

This subdivision shall not become operative in a county until January 1, 1974, if the Department of Public Health determines on or before the effective date of this act that there are not sufficient laboratory facilities in the county to perform the test required by this subdivision. In making this determination, the Department of Public Health shall consider the number of people in the county, and the availability of facilities and qualified personnel.

(c) Any person who by law is validly able to obtain a marriage license in the State of California is validly able to give consent to any examinations and tests required by this article. In submitting the blood specimen to the laboratory the physician shall designate that this is a premarital test.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In some counties there is an insufficient number of laboratories now capable of performing rubella tests. This will cause widespread inconvenience and delay to many individuals seeking marriage licenses. Additional time is necessary to develop an adequate number of laboratories who can perform the required tests in various areas of the state.

CHAPTER 131

An act to amend Section 13520.3 of, and to add Section 32110.5 to, the Education Code, relating to year-round schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 30, 1973. Filed with Secretary of State June 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13520.3 of the Education Code is amended to read:

13520.3. When a school district operates on a year-round schedule pursuant to Chapter 7 (commencing with Section 32100) of Division 22, the salary of an employee who is employed for the extended

school year and who previously had been assigned to a 9- or 10-month teaching position in the same district shall be adjusted in accordance with the ratio of the extension in the number of days expected to be taught by said employee to the number of days expected to be taught by employees in the district in the school year prior to the commencement of year-round operation.

A full-time probationary or permanent classroom teacher currently employed by a school district which converts to a continuous school program shall not, without his written consent, be required to teach under such program more than 180 days during a school year, or more than the number of days the schools of the district were maintained during the year preceding implementation of the continuous school program, whichever is the greater. This section shall not be construed as limiting the power of school district governing boards to govern the schools of the district, including the assignment of teachers employed by the district.

SEC. 2. Section 32110.5 is added to the Education Code, to read:

32110.5. Prior to implementing a continuous school program in any school of the district, the school district governing board shall consult in good faith in an effort to reach agreement with the certificated and classified employees of the school, with the parents of pupils who would be affected by the change, and with the community at large. Such consultation shall include at least one public hearing for which the board has given adequate notice to the employees and to the parents of pupils affected.

In school districts where a continuous school program is implemented in fewer than all of the schools maintained by the school district, the governing board of such a school district shall make every reasonable effort to assign certificated employees who prefer the regular school schedule to schools of the same level retaining the regular school schedule.

SEC. 3. Section 13520.3 of the Education Code, as amended by Section 1 of this act, shall become operative on July 1, 1973.

SEC. 4. Between the effective date of this section, and six months from such effective date, a school district in which an increase in the maximum tax rate was approved by the voters prior to January 1, 1973, for the purpose of purchasing air-conditioning equipment, and in which such work has been undertaken, may contract for the rental, lease, or lease-purchase of air-conditioning equipment or systems to be furnished, built, and installed for the school district for a period not to exceed five years, in order to facilitate the operation of year-round schools.

Air-conditioning equipment shall be deemed to be building equipment and not a building fixture. For the sole purpose of identifying that portion of each annual rental or lease payment which may represent tax exempt reimbursement to the vendor, lessor, or their assignees, bidders may include in their bids abstraction of their quotations indicating the pricing structure used to compute the annual rental or lease payments.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts operating or planning the operation of year-round schools may anticipate and plan for the assignment of teachers thereto for the 1973–74 school year, it is essential that this act become effective immediately.

The

exception provided for in the preceding sentence with respect to applications filed prior to January 1, 1970, except for transfers executed before November 30, 1970 or after July 1, 1971, shall not apply to transferees of the applications of the original applicants.

14201. The intent of the Legislature is to provide, to the extent feasible, through the provisions of this chapter and the necessarily related provisions of Chapter 7 (commencing with Section 14000) of this part, recipients of public assistance and medically indigent aged and other persons with the opportunity to enroll in prepaid health plans. It is further intended that this legislation is to benefit the people of the State of California by:

(a) Encouraging the development of more efficient delivery of health care to Medi-Cal recipients.

(b) Reducing the inflationary costs of health care.

(c) Improving the quality of medical services rendered to those eligible enrollees as defined in this chapter and Chapter 7 (commencing with Section 14000) of this part.

SEC. 98. Section 14251 of the Welfare and Institutions Code, as added by Chapter 1366 of the Statutes of 1972, is amended to read:

14251. Such association includes, but is not limited to, a multispecialty group practice or a "foundation for medical care" program. The plan may not merely indemnify for the cost of services provided. The prepaid health plan must share in the risk of providing medical and health care services.

SEC. 99. Section 14259 of the Welfare and Institutions Code, as added by Chapter 1366 of the Statutes of 1972, is amended to read:

14259. "Director" means the Director of the State Department of Health.

SEC. 101. Section 14301 of the Welfare and Institutions Code, as added by Chapter 1366 of the Statutes of 1972, is amended to read:

14301. No contract between the department and a prepaid health plan shall be approved unless the providers and facilities of the prepaid health plan meet the Medi-Cal program standards for participation as established by the director. In addition, a prepaid health plan shall meet the following requirements:

(a) Laboratory services are provided only in laboratories which are approved by the State Department of Health (except such laboratories as are exempt from approval under Section 1241 of the Business and Professions Code), participate in a performance testing program approved by the State Department of Health, or meet the conditions of participation under Title 18 of the Social Security Act.

(b) All institutions including, but not limited to, clinics, hospitals, and skilled nursing homes, shall be licensed by the State Department of Health, or be exempt from licensure by the State Department of Health. When appropriate, all medical personnel of the prepaid health care plan shall be licensed by their respective licensing boards.

(c) The prepaid health plan shall demonstrate to the department that it has adequate financial resources, physical facilities, administrative abilities and soundness of program design, to carry out its contractual obligations. For the purpose of this section, "adequate financial resources", as determined by the department, shall not be less than the minimum tangible net equity required of health care service plans pursuant to Section 12539 of the Government Code.

(d) The prepaid health plan shall provide no fewer than five physicians representing the four specialties of pediatrics, internal medicine, general surgery and obstetrics-gynecology, unless the department finds that in given communities it is not feasible or medically appropriate to provide all of these specialties.

(e) The prepaid health plan shall enroll Medi-Cal beneficiaries according to ratios established by the department, as appropriate to the medical needs of the population, but in no event shall the prepaid health care plan enroll more than 1,600 persons per full-time equivalent primary care physician and 1,200 persons per each full-time equivalent physician. These ratios may be adjusted upon the recommendation of the department if appropriate use is made of allied health manpower. No enrollment shall be permitted on the basis of part-time primary care physicians except for medical care foundations.

(f) The prepaid health plan shall furnish services in such a manner as to provide continuity of care and, when services are furnished by different providers, ready referral of patients to such services at such times as may be medically appropriate.

(g) A managing physician who is a primary care physician shall be provided to each enrollee, to the extent feasible, to supervise and

coordinate the enrollee's care. In the event that the enrollee becomes dissatisfied with his assigned managing physician, the plan shall make another managing physician available.

(h) All services shall be readily available at reasonable times to all enrollees. To the maximum extent feasible the prepaid health plan shall make all services readily accessible to enrollees who reside in the service area by either decentralizing the services to be provided or by providing transportation to the prepaid health plan facilities if adequate public transportation is not available.

(i) The prepaid health plan, to the extent reasonable and consistent with good medical practice, shall employ allied health personnel for furnishing of services.

(j) A prepaid health plan servicing a substantial patient population of a particular social or ethnic group, or whose primary language is other than English, shall to the extent feasible have staff of that respective linguistic or racial or ethnic group in sufficient numbers in the prepaid health care plan to service the enrollees at all times, including, but not limited to, the point of entry.

SEC. 103.5. Section 2 of Chapter 1130 of the Statutes of 1972 is amended to read:

In order to accomplish this purpose the Legislature intends to establish proper building standards for earthquake resistance based upon current knowledge, and intends that procedures for the design and construction of hospitals be subjected to independent review. It is further the intent of the Legislature that Division 12.5 (commencing with Section 15000) of the Health and Safety Code shall be administered by the State Department of Health, which shall contract for enforcement of such provisions with the Department of General Services which now successfully enforces the provisions of the "Field Act."

SEC. 103.6. Section 14 of Chapter 1228 of the Statutes of 1972 is amended to read:

Sec. 14. There is hereby appropriated to the State Department of Health from the General Fund the sum of two hundred thousand dollars ($200,000), or so much thereof as may be necessary, for the purposes of funding county retraining programs established pursuant to Section 5119 of the Welfare and Institutions Code.

Such lease may contain such other terms and conditions as the Department of General Services may deem to be in the best interest of the state.

SEC. 105.5. Section 598 of Chapter 1593 of the Statutes of 1971 is repealed.

SEC. 106. Section 2 of Chapter 1781 of the Statutes of 1971 is amended to read:

Sec. 2. As of June 30, 1972, up to but not to exceed five hundred thousand dollars ($500,000) of the unexpended balance of the appropriation made by Item 229, Budget Act of 1971, is appropriated to the State Department of Health for expenditure without regard to fiscal years by the department in carrying out the purposes of Part 3 (commencing with Section 1175) of Division 1 of the Health and Safety Code.

Sec. 15. Within 90 days of the effective date of this act, the Advisory Health Council shall adopt guidelines pursuant to Section 437.7 of the Health and Safety Code. By July 1, 1970, all voluntary area health planning agencies shall adopt guidelines pursuant to Section 437.7 of such code. This act shall not apply to applicants who have filed applications for licenses, prior to January 1, 1970, which meet all requirements and regulations of the appropriate state agency existing at the time of application, including at least preliminary submission of plans, but only if such applicants commence construction of their projects prior to July 1, 1971, and have on file with the State Department of Health a notarized affidavit from the building department having jurisdiction indicating that substantial progress on the approved project was attained by January 1, 1973, and have on file with the county recorder and State Department of Health a valid notice of construction completion indicating January

1, 1974, as the completion date; except that the State Department of Health shall extend the foregoing dates by no more than a total of one year in the case of projects where good cause has been shown why such extension should be granted. Except for those transfers executed before November 30, 1970, or after July 1, 1971, the exception provided for in the preceding sentence shall not apply to transferees of the applications of such applicants.

Voluntary area health planning agencies may extend, until July 1, 1972, the date upon which applicants, qualifying under the exception in this section, shall commence construction, if the voluntary area health planning agencies declare that good cause has been shown why such extension should be granted, provided that an applicant applying for such extension had, prior to January 1, 1970, received approval of a health planning association in the county wherein the applicant is located. Applicants receiving extensions of the construction commencement date shall have on file with the State Department of Health a notarized affidavit from the building department having jurisdiction indicating that substantial progress on the approved project was attained by January 1, 1974, and have on file with the county recorder and State Department of Health a valid notice of construction completion indicating January 1, 1975, as the completion date; except that the State Department of Health shall extend each of the foregoing dates by no more than a total of one year in the case of projects where good cause has been shown why such extension should be granted.

For purposes of this section, "substantial progress" is defined and evidenced as follows:

(a) For structures of three or fewer stories, completion of the foundations and footings; the structural frame; the mechanical, electrical, and plumbing rough-in; the rough flooring; the exterior walls and windows; and the finished roof.

(b) For structures of more than three stories, a contractor's schedule of work shall be filed with the State Department of Health by January 1, 1973. Every three months thereafter, until completion, evidence shall be submitted to the department that construction is progressing on that schedule.

For purposes of this section, construction of a project is deemed commenced on the date the applicant was so notified by the State Department of Health, if so notified, or on the date the applicant has completed not less than all of the following:

(a) Submission to the appropriate state agency of a written agreement executed between the applicant and a licensed general contractor to construct and complete the project within a designated time schedule in accordance with final architectural plans and specifications approved by such agency.

(b) Obtaining such initial permits or approval for commencing work on the project as is customarily issued for projects of the scope of applicant by the governmental agency having jurisdiction over the construction.

(c) Completion of construction work on the project to such a degree as to justify and require a progress payment by the applicant to the general contractor under terms of the construction agreement.

SEC. 108. The provisions of this act transferring the functions of the State Board of Public Health, the Health Planning Council, and the Health Review and Program Council to the Advisory Health Council shall become operative on July 1, 1973.

SEC. 109. This act shall become operative on July 1, 1973.

SEC. 110. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under Reorganization Plan No. 1 of 1970, the State Department of Health on July 1, 1973, succeeds to and becomes vested with all the duties, powers, purposes, responsibilities and jurisdiction of the Department of Mental Hygiene, the Department of Public Health, the Department of Health Care Services, the Department of Social Welfare with respect to social service functions thereof, the Department of Rehabilitation with respect to its alcoholism program, the Department of Consumer Affairs with respect to the healing arts boards, and the State Board of Public Health with respect to its powers to issue, amend, and revoke, rules and regulations and licenses or permits.

Upon such reorganization plan becoming operative, the Legislature enacted Chapter 1593 of the Statutes of 1971 to effect such changes in the statutes as was necessary to reflect the changes made by the reorganization plan. However, various other statutes were enacted by the Legislature at both its 1971 and 1972 sessions affecting the various state departments and other units of state government, and the new State Department of Health, and the reorganization plan itself, all of which require the immediate enactment of this act to conform the statutes to effectively execute the reorganization plan. Unless this act becomes effective immediately, various duties, powers, purposes, responsibilities, and the jurisdiction of the State Department of Health will be subject to confusion, doubt or legal challenge by both the public and by those officers and employees of the State Department of Health who are required to carry out the intent of the Legislature. In order that this situation may be alleviated at the earliest possible time, it is necessary for this act to take effect immediately.

SEC. 110.5. If both this act and Assembly Bill No. 423 are enacted into law at the 1973–74 Regular Session of the Legislature, Sections 24 and 25 of this act shall not become operative.

[Approved by Governor July 6, 1973 Filed with Secretary of State July 6, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 190.6 is added to the Streets and Highways Code, to read:

190.6. Eighth Street, which is a part of Route 243 in the City of Banning, is hereby declared to be a city street, as of September 1, 1972, within the meaning of Sections 189 and 190, and is eligible for allocation of funds for grade separation pursuant to Section 190.

The Legislature hereby finds and declares that although Eighth Street is located on the adopted highway route of Route 243, the department is unlikely to initiate construction within the reasonable future, and during an interim period the City of Banning has responsibility for construction and maintenance of the existing street. Because of critical traffic hazards at the existing Eighth Street railroad grade crossings in the City of Banning, and because the city

is frequently severed by moving and standing freight trains, impairing adequate fire, police and other emergency services, it is necessary that Eighth Street be eligible for a grade separation allocation as soon as possible.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts contituting such necessity are:

The City of Banning is presently divided by railroad tracks in such a fashion that when long trains are using the tracks there is no way for traffic, including firefighting equipment and other emergency vehicles, to move between one part of the city and the other. In order to initiate the construction of a grade separation as quickly as possible, it is necessary that this act go into effect immediately.

CHAPTER 149

An act to add Section 53069.9 to the Government Code, relating to fire hydrants, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973 Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 53069.9 is added to the Government Code, to read:

53069.9. Any public agency providing water for fire protection purposes may, by ordinance or resolution, fix and collect a charge to pay the costs of installing and of maintaining fire hydrants.

Any such charge fixed pursuant to this section may be made on all land within the public agency to which water is made available for fire protection purposes. The legislative body of the agency which fixes such a charge may establish schedules varying the charges in different localities within the agency depending on the actual cost of installing and maintaining the fire hydrants. Such charges may be collected at the same time and in the same manner as other water rates or charges collected by the public agency, or in any other manner as may be determined by the agency.

SEC. 2. The Legislature hereby finds and declares that this act is declaratory of existing state law.

SEC. 3. The Legislature hereby finds and declares that it is the intention of the Legislature that this act shall not constitute a limitation upon the right of any public agency providing retail water service to impose additional charges for costs attributable to other water services necessary to maintain and provide for an adequate system of fire protection.

SEC. 4. This act is an urgency measure necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to prevent undue economic hardship upon persons currently required to install fire hydrants for fire protection purposes, it is necessary that this act go into immediate effect.

CHAPTER 150

An act relating to the San Mateo County Flood Control District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973. Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Article 4 (commencing with Section 2169) of Chapter 1.5 of Part 4 of Division 1 of the Revenue and Taxation Code shall not apply with respect to any project initiated by the San Mateo County Flood Control District within the Colma Creek Flood Control Zone, provided a resolution of intention concerning such project is adopted by the district no later than January 1, 1974, until such time as aggregate revenues of eight million four hundred thousand dollars ($8,400,000) have been realized from taxes levied after June 30, 1973, within such zone pursuant to Section 8 of Chapter 2108 of the Statutes of 1959, as amended by Chapter 1294 of the Statutes of 1972.

SEC. 2. The Legislature finds that prior to the enactment of Chapter 1406 of the Statutes of 1972, adding Section 2169 to the Revenue and Taxation Code, the Legislature, by Chapter 1294 of the Statutes of 1972, authorized the district to levy a limited tax. The Legislature further finds that Chapter 1406 nullified the previous authority for the San Mateo County Flood Control District and the nullification was inadvertent and unintended. The purpose of this act is to implement the intent of Chapter 1294.

SEC. 3. This act is an urgency statute necessary for immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Colma Creek Flood Control Zone of the San Mateo County Flood Control District has experienced massive flooding, amounting to damage estimated in excess of 10 million dollars in the recent winter. A locally financed project is currently being planned, which project must be commenced as soon as possible to provide future flood protection. In order that the San Mateo County Flood Control District may have sufficient revenues for the 1973–74 fiscal year to

proceed with this vital project, it is necessary that this act take effect immediately.

SEC. 2. Section 6912.3 is added to the Education Code, to read:

6912.3. Notwithstanding Section 6912, any person may be employed to teach mentally retarded pupils in a sheltered workshop, occupational training program, or any other vocational education program if that person holds a designated subjects teaching credential in a subject related to the program in which the person is employed.

CHAPTER 152

county counsel, any county department, officer or employee may refrain from collecting any tax assessment, penalty or cost, license fees or money owing to the county where the amount to be collected is one dollar ($1) or less. County department officers or employees desiring to secure such authorization shall file an application therefor with the board of supervisors of the county, accompanied by a statement of the circumstances.

SEC. 3. Section 2922 of the Revenue and Taxation Code is amended to read:

2922. (a) Taxes on the unsecured roll as of July 31st if unpaid are delinquent August 31st at 5 p.m., and thereafter a delinquent penalty of 6 percent attaches to them. Taxes added to the unsecured roll after July 31st, if unpaid are delinquent at 5 p.m. on the last day of the month succeeding the month in which the assessment was added to the unsecured roll and thereafter a delinquent penalty of 6 percent attaches to them, except that taxes transferred to the unsecured roll pursuant to Section 4986 of this code to which penalties had attached while on the secured roll and also were transferred shall be subject only to the additional penalties prescribed by subdivision (b). If August 31st or the last day of any month falls on Saturday, Sunday or a legal holiday, the time of delinquency is 5 p.m. on the next business day.

(b) If taxes on the unsecured roll are unpaid by 5 p.m. of the last day of the second succeeding month after the 6 percent penalty attaches pursuant to subdivision (a), an additional penalty of 1 percent attaches to them on the first day of each month thereafter to the time of payment or to the time a court judgment is entered for the amount of the unpaid taxes and penalties, whichever occurs first. If the last day of any month falls on Saturday, Sunday or a legal holiday, the time of delinquency is 5 p.m. on the next business day.

SEC. 4. Section 4112 of the Revenue and Taxation Code, as amended by Section 4 of Chapter 586 of the Statutes of 1972, is amended to read:

4112. On redemption, the deed becomes null and any interest acquired by virtue of the sale to the state ceases.

A certificate of redemption which is issued on tax-deeded property shall be the authorization for the recording of a release of equity, or quitclaim, of the property redeemed which had been previously deeded to the state. Such release shall be executed and recorded by the tax collector for and on behalf of the state, and shall be in the form prescribed by the State Controller. The release shall be acknowledged by the county clerk, without charge, and shall be recorded with the county recorder for the recording fee of six dollars ($6). The tax collector shall collect the recording fee in addition to the redemption amount and transmit it to the county recorder.

SEC. 5. Section 4221 of the Revenue and Taxation Code is amended to read:

4221. In each succeeding fiscal year the redemptioner shall pay, before the delinquency date of the last installment of current taxes,

the sum of the following:

(a) That amount which is computed to be not less than the difference between the amounts previously paid under the provisions of this article, excepting amounts paid as interest, and

(1) 40 percent of the redemption amount when the payment is made during or prior to the first fiscal year following the year in which election was made to pay delinquent taxes in installments.

(2) 60 percent of the redemption amount when the payment is made during or prior to the second fiscal year following the year in which election was made to pay delinquent taxes in installments.

(3) 80 percent of the redemption amount when the payment is made during or prior to the third fiscal year following the year in which election was made to pay delinquent taxes in installments.

SEC. 6. Section 4377 of the Revenue and Taxation Code is amended to read:

4377. The abstract list prepared under Sections 4371 and 4373, or any photographic record thereof, shall be permanently retained by the tax collector.

CHAPTER 153

An act to amend Section 7030.5 of the Business and Professions Code, relating to contractors, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973 Filed with Secretary of State July 6, 1973]

The people of the State of California do enact as follows:

The commission, in carrying out the provisions of this act, shall consider alternatives to complete removal of the vessel and may, in lieu of complete removal, remove a portion of the vessel and construct a fishing jetty over the remaining portion contingent upon the County of Ventura contracting with the commission to maintain and operate the jetty in perpetuity. CHAPTER 157

An act relating to supplemental support, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973. Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. For the purposes of Article 7.1 (commencing with Section 17920) of Chapter 3 of Division 14 of the Education Code, the tax rate of an elementary district for the 1972–73 fiscal year shall be deemed to be the rate which had been approved by the governing board of the district if the county auditor failed to levy the tax rate authorized by Section 17925.5, and because of this failure the district would not be otherwise eligible for supplemental support.

The tax rate of any school district to which an apportionment is made pursuant to this section shall be increased in the 1973–74 fiscal year by an amount equal to the difference between the tax rate actually levied and the tax rate which would have been sufficient to meet the requirements of Section 17924.

Such increase shall occur notwithstanding the provisions of Article 6 (commencing with Section 20902) of Chapter 3 of Division 16 and for the purposes of that article the 1972–73 fiscal year tax rate of the district shall be deemed to have included the rate required to be levied pursuant to this act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It has come to the attention of the Legislature that at least one school district will not be eligible for supplemental support for the 1972–1973 fiscal year solely because of administrative oversight. In order to prevent this unfortunate result, and to permit appropriate apportionments and allowances to be made for the 1972–73 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 158

An act to add Section 2164.6 to the Revenue and Taxation Code, relating to property tax limitations and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973. Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 2164.6 is added to the Revenue and Taxation Code, to read:

2164.6. If a city, county, or special district, has been providing a service or program at its own option which is subsequently transferred to another special district, or a county service area, in addition to the maximum property tax rate authorized in Section 2169, a special district, or a county service area assuming the service or program may levy a rate sufficient to finance the service or program being so transferred. The maximum property tax rate of the city, county, or special district transferring the service or program shall be reduced by that amount of tax levy required of the city, county, or special district, to produce the amount necessary to finance the service or program being transferred to the special district or county service area.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that special districts and county service areas assuming services or programs previously performed by another unit of local government may raise sufficient revenues for the 1973–74 fiscal year to provide such services or programs, it is necessary that this act take immediate effect.

CHAPTER 159

An act to amend Sections 2530.5, 2532, 2535, and 2535.1 of the Business and Professions Code, relating to speech pathologists and audiologists, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973 Filed with Secretary of State July 6, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 2530.5 of the Business and Professions Code is amended to read:

2530.5. (a) Nothing in this chapter shall be construed as restricting hearing testing conducted by licensed physicians and surgeons or by persons conducting such tests under the direct supervision of a physician and surgeon.

(b) Nothing in this chapter shall be construed to prevent a licensed hearing aid dispenser from engaging in testing of hearing and other practices and procedures used solely for the fitting and selling of hearing aids nor do the provisions of this chapter restrict persons practicing their licensed profession and operating within the scope of their licensed profession or employed by someone operating within the scope of their licensed professions, such as persons fitting and selling hearing aids who are properly licensed or registered under the laws of the State of California.

(c) Nothing in this chapter shall be construed as restricting or preventing activities of a speech pathology or audiology nature or the use of the official title of the position for which they were employed on the part of the following persons, if they are performing those activities as part of the duties for which they were employed, are performing such activities solely within the confines of or under the jurisdiction of the organization in which they are employed and do not offer to render speech pathology or audiology services as defined in Section 2530.2, to the public for compensation, over and above the salary they receive for the performance of their official duties with the organization in which they are employed:

(1) Persons who are registered as qualified school audiometrists, pursuant to Section 1685 and Section 1686 of the Health and Safety Code;

(2) Persons who hold a valid and current credential as a speech and hearing specialist or teacher of the deaf issued by the Commission for Teacher Preparation and Licensing;

(3) Persons employed in positions as speech pathologists or audiologists by accredited colleges or universities. However, such persons may, without obtaining a license under this chapter, consult or disseminate their research findings and scientific information to other such accredited academic institutions or governmental agencies. They also may offer lectures to the public for a fee,

monetary or otherwise, without being licensed under this chapter.

(4) Persons employed as speech pathologists or audiologists by federal agencies.

(d) Nothing in this chapter shall be construed as restricting the activities in services of a graduate student or speech pathology intern in speech pathology pursuing a course of study leading to a graduate degree in speech pathology at an accredited or approved college or university or an approved clinical training facility, provided that these activities and services constitute a part of his supervised course of study and that such persons are designated by such title as "speech pathology intern," "speech pathology trainee," or other such title clearly indicating the training status appropriate to his level of training.

(e) Nothing in this chapter shall be construed as restricting the activities in services of a graduate student or audiology intern in audiology pursuing a course of study leading to a graduate degree in audiology at an accredited or approved college or university or an approved clinical training facility, provided that these activities and services constitute a part of his supervised course of study and that such persons are designated by such title as "audiology intern," "audiology trainee," or other such title clearly indicating the training status appropriate to his level of training.

(f) Nothing in this chapter shall be construed as restricting the activities and services of a speech pathologist who is obtaining his required professional experience, if such a person is under the supervision of a licensed speech pathologist or a speech pathologist holding a speech and hearing specialist credential issued by the State Board of Education pursuant to Section 13152 of the Education Code as added by Chapter 1211 of the Statutes of 1967 or qualifications deemed equivalent by the committee. The number of speech pathologists who may be supervised by a licensed speech pathologist or a speech pathologist having qualifications deemed equivalent by the committee shall be determined by the committee. The supervising speech pathologist shall register with the committee the name of each speech pathologist working under his supervision, and shall submit to the committee a description of the proposed professional responsibilities of the speech pathologists working under his supervision.

(g) Nothing in this chapter shall be construed as restricting the activities and services of an audiologist who is obtaining his required professional experience, provided that such person is under the supervision of a licensed audiologist or an audiologist having qualifications deemed equivalent by the committee. The number of audiologists who may be supervised by a licensed audiologist or an audiologist having qualifications deemed equivalent by the committee shall be determined by the committee. The supervising audiologist shall register with the committee the name of each audiologist working under his supervision, and shall submit to the committee a description of the proposed professional responsibilities

of the audiologists working under his supervision.

SEC. 2. Section 2532 of the Business and Professions Code is amended to read:

2532. (a) On and after July 1, 1974, no person shall engage in the practice of speech pathology or audiology or represent himself as a speech pathologist or audiologist unless he is licensed in accordance with the provisions of this chapter.

(b) A speech pathologist or audiologist licensed in another state and who has made application to the committee for a license in this state may perform activities and services of a speech pathology or audiological nature without a valid license for a period not to exceed 90 days from the time of submitting his application.

SEC. 3. Section 2535 of the Business and Professions Code is amended to read:

2535. Licenses issued pursuant to this chapter shall expire on December 31st of each even-numbered year, if not renewed.

SEC. 4. Section 2535.1 of the Business and Professions Code is amended to read:

2535.1. To renew an unexpired license, the holder, on or before December 31st of each even-numbered year, shall apply for renewal on a form prescribed by the committee, and pay the renewal fee prescribed by this chapter.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Present law prohibits any person from engaging in the practice of speech pathology or audiology without a license after July 1, 1973. There is the need to extend this time to July 1, 1974, so as to allow qualified persons ample time to comply with the requirements of the statute. Therefore, it is necessary that this act take effect immediately.

CHAPTER 160

An act to add Sections 53704 and 53705 to the Government Code, relating to local agencies, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973. Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 53704 is added to the Government Code, to read:

53704. A city, county or city and county which has entered into and operated a federal grant program pursuant to the authority

contained within Section 53703 may continue the operation of such program for a period not exceeding two years from the termination of any federal grant or authority for such program. The board of supervisors or city council may appropriate funds for such programs and may do all acts necessary to continue the program in operation.

SEC. 2. Section 53705 is added to the Government Code, to read:

53705. A city, county or city and county may appropriate funds and may do all acts necessary to assume and carry out or continue any program, or part thereof, which is operated by any other public agency, private person or corporation and whereby federal funds have been granted to such public agency, private person or corporation for purposes of health, education, welfare, public safety, law enforcement activities which have not been preempted by state law, prevention or reduction of crime, rehabilitation of persons convicted of crime or juvenile offenders, or public works or community improvements, where the federal funds for such programs are to be terminated or substantially reduced by the federal government; provided however, that no such program shall be operated pursuant to this section for a period exceeding two years. A city, county or city and county may perform any act or service authorized by this section by means of a contract with an independent contractor. The independent contractor may be a public agency, private person or corporation.

The board of supervisors or city council may appropriate funds for such programs and may do all acts necessary to continue the program in action.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into effect immediately. The facts constituting such necessity are:

The federal government has announced its decision to curtail a substantial number of programs funded by the Federal Office of Economic Opportunity. Such programs are now scheduled to be terminated immediately. The termination of these programs will seriously curtail the ability of the local governmental agencies to meet the health, welfare and educational needs of the citizens of this state. In order to avoid this result, it is necessary that this act take effect immediately.

SEC. 4. The Legislature hereby finds and declares that it is the intent of this legislation not to preclude the state from providing funds for the continuance of such programs.

CHAPTER 161

An act to amend Sections 38120 and 38121 of the Health and Safety Code, relating to mentally retarded persons, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 6, 1973. Filed with Secretary of State July 6, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 38120 of the Health and Safety Code is amended to read:

38120. Every adult who is or has been admitted to a state hospital as a mentally retarded patient shall have a right to a hearing by writ of habeas corpus for his release from the hospital after he or any person acting on his behalf makes a request for release to any member of the treatment staff of the state hospital or to any employee of a regional center.

The member of the treatment staff or regional center employee to whom a request for release is made shall promptly provide the person making the request for his signature or mark a copy of the form set forth below. As soon as possible, the person notified shall inform the superior court for the county in which the state hospital is located of the request for release and shall transmit a copy of the request for release to the person's parent, guardian, or conservator together with a statement that notice of judicial proceedings taken pursuant to such request will be forwarded by the court. The copy of the request for release and such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested. The person notified shall also transmit a copy of the request for release and the name and address of the person's parent, guardian, or conservator to the court.

38121. Judicial review shall be in the superior court for the county in which the state hospital is located. The adult requesting to be released shall be informed of his right to counsel by a member of the treatment staff of the state hospital and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to assist him in preparation of a petition for the writ of habeas corpus and to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for the writ of habeas corpus is filed with court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of any evidentiary hearing in the matter, to the parent, guardian, or conservator of the person seeking release or for whom release is sought. Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested.

The court shall either release the adult or order an evidentiary hearing to be held not sooner than five judicial days nor more than 10 judicial days after a copy of the petition and notice to the adult's parent, guardian, or conservator are deposited in the United States mail pursuant to this section. If the court finds (a) that the adult requesting release or for whom release is requested is not mentally retarded, or (b) that he is mentally retarded and that he is able to provide safely for his basic personal needs for food, shelter, and clothing, he shall be immediately released. If the court finds that he is mentally retarded and that he is unable to provide safely for his basic personal needs for food, shelter, or clothing, but that a responsible person or a regional center or other public or private agency is willing and able to provide therefor, the court shall release the mentally retarded adult to such responsible person or regional center or other public or private agency, as the case may be, subject to any conditions which the court deems proper for the welfare of the mentally retarded adult and which are consistent with the purposes of this division.

If in any proceeding under this section, the court finds that the adult is mentally retarded and has no parent, guardian, or

conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the Department of Public Health to initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator for the mentally retarded adult.

This section shall remain in effect only until Reorganization Plan No. 1 of 1970 becomes effective and on such date is repealed.

SEC. 3. Section 38121 of the Health and Safety Code, as added by Section 3 of Chapter 1081 of the Statutes of 1972, is amended to read:

38121. Judicial review shall be in the superior court for the county in which the state hospital is located. The adult requesting to be released shall be informed of his right to counsel by a member of the treatment staff of the state hospital and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to assist him in preparation of a petition for the writ of habeas corpus and to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for the writ of habeas corpus is filed with court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of any evidentiary hearing in the matter, to the parent, guardian, or conservator of the person seeking release or for whom release is sought. Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested.

The court shall either release the adult or order an evidentiary hearing to be held not sooner than five judicial days nor more than 10 judicial days after the petition and notice to the adult's parent, guardian, or conservator are deposited in the United States mail pursuant to this section. If the court finds (a) that the adult requesting release or for whom release is requested is not mentally retarded, or (b) that he is mentally retarded and that he is able to provide safely for his basic personal needs for food, shelter, and clothing, he shall be immediately released. If the court finds that he is mentally retarded and that he is unable to provide safely for his basic personal needs for food, shelter, or clothing, but that a responsible person or a regional center or other public or private agency is willing and able to provide therefor, the court shall release the mentally retarded adult to such responsible person or regional center or other public or private agency, as the case may be, subject to any conditions which the court deems proper for the welfare of the mentally retarded adult and which are consistent with the purposes of this division.

If in any proceeding under this section, the court finds that the adult is mentally retarded and has no parent, guardian, or conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the Department of Health to initiate, or cause to be initiated, proceedings for the

appointment of a guardian or conservator for the mentally retarded adult.

This section shall become operative on the same date as Reorganization Plan No. 1 of 1970 becomes operative.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act, because the cost of implementing this legislation is minimal on a statewide basis in relation to the effect on local tax rates.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to efficiently administer statutory provisions requiring judicial review of requests for release from state hospitals made by, or in behalf of, adults admitted thereto as mentally retarded patients, it is necessary that the law be changed to require that notice of such proceedings be given to a parent, guardian, or conservator of the person seeking release or for whom release is sought.

In order that enclosed fires, even though the smoke therefrom may be as dark or darker in shade than No. 2 on the Ringelmann Chart, may be used on islands located 15 or more miles from the mainland coast, which islands are lightly populated, to dispose of trash, which in large part results from visitors to such islands, in the most economical manner during the coming visiting season to such islands, it is necessary that this act take effect immediately.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Long delays have been experienced in the construction of facilities in Los Angeles County because of outmoded procedures built into the county charter and state law. These delays will continue, and the public peace, health and safety will be adversely affected until the procedures can be modernized. Los Angeles County is capable of making the necessary changes by July 1, 1973, but cannot do so without this implementing legislation. Consequently, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 6254.7 of the Government Code is amended to read:

6254.7. (a) All information, analyses, plans, or specifications that disclose the nature, extent, quantity, or degree of air contaminants or other pollution which any article, machine, equipment, or other contrivance will produce, which any air pollution control district or any other state or local agency or district requires any applicant to provide before such applicant builds, erects, alters, replaces, operates, sells, rents, or uses such article, machine, equipment, or other contrivance, are public records.

additional economic burden or cost is intended to be imposed hereby. Therefore, and solely as a result of this finding and determination, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to have the state law conform with the federal law which makes all air pollution emission data public records, even though such data may constitute trade secrets, so that the federal government will leave the collection of such data in the state to the State Air Resources Board and the air pollution control districts, it is necessary that this act take effect immediately.

(c) A provision that all amendments subsequent to the effective date of this part to Part 1 (commencing with Section 6001) of this division relating to sales tax and not inconsistent with this part shall automatically become a part of the transactions and use taxes ordinance; provided, however, that no such amendment shall operate so as to affect the rate of tax imposed by the district's board.

(d) A provision that the amount subject to tax shall not include the amount of sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law, or the amount of any state-administered transactions or use tax.

(e) A provision that there are exempted from the tax the gross receipts from the sale of tangible personal property to operators of waterborne vessels to be used or consumed principally outside the county in which the sale is made and directly and exclusively in the carriage of persons or property in such vessels for commercial purposes.

For the purposes of this subdivision, the sale or lease of tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

SEC. 5. Section 7262 of the Revenue and Taxation Code is amended to read:

(a) Provisions identical to those contained in Part 1 (commencing with Section 6001) of this division, insofar as they relate to use taxes and are not inconsistent with this part, except that the name of the district as the taxing agency shall be substituted for that of the state. The name of the district shall be substituted for the word "state" in the phrase "retailer engaged in business in this state" in Section 6203 and in the definition of that phrase.

An additional provision shall be included that a retailer engaged in business in the district shall not be required to collect use tax from the purchaser of tangible personal property unless the retailer ships or delivers the property into the district or participates within the district in making the sale of the property, including, but not limited to soliciting or receiving the order, either directly or indirectly, at a place of business of the retailer in the district or through any representative, agent, canvasser, solicitor, subsidiary or person in the district under authority of the retailer.

(c) A provision that the amount subject to tax shall not include the amount of any sales tax or use tax imposed by the State of California or by any city, city and county, or county pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law, or the amount of any state-administered transactions or use tax.

(d) A provision that the storage, use or other consumption of tangible personal property, the gross receipts from the sale of which have been subject to a transactions tax under any state-administered transactions and use taxes ordinance shall be exempt from the tax.

(e) A provision that the storage, use, or other consumption of tangible personal property purchased by operators of waterborne vessels and used or consumed by such operators directly and exclusively in the carriage of persons or property in such vessels for commercial purposes is exempt from the use tax.

(f) A provision that, in addition to the exemptions provided in Sections 6366 and 6366.1 of this code, the storage, use, or other consumption of tangible personal property purchased by operators of aircraft and used or consumed by such operators directly and exclusively in the use of such aircraft as common carriers of persons or property for hire or compensation under a certificate of public convenience and necessity issued pursuant to the laws of this state, the United States, or any foreign government is exempt from the use tax.

(g) A provision that the storage, use, or other consumption in the district of tangible personal property is exempt from tax if purchaser is obligated to purchase the property for a fixed price pursuant to a contract entered into prior to the operative date of the ordinance. The possession of, or the exercise of any right or power over, tangible personal property under a lease which is a continuing purchase of such property is exempt from tax for any period of time for which the lessee is obligated to lease the property for an amount fixed by a lease prior to the operative date of the ordinance. For the purposes of this subdivision, storage, use, or other consumption, or possession, or exercise of any right or power over, tangible personal property shall be deemed not to be obligated pursuant to a contract or lease for any period of time for which any party to the contract or lease has the unconditional right to terminate the contract or lease upon notice, whether or not such right is exercised.

SEC. 6. Sections 2 and 3 of this act amending Sections 7202 and 7203 of the Revenue and Taxation Code, as added by Sections 22.1 and 22.2 of Chapter 1406 of the Statutes of the 1972 Regular Session of the Legislature shall become operative or inoperative at the same time and in the same manner as is provided for the operative or inoperative date of Sections 22.1 and 22.2 by subdivision (j) of Section 34 of Chapter 1406 of the Statutes of the 1972 Regular Session of the Legislature.

SEC. 7. (a) Sections 7261 and 7262 of the Revenue and Taxation Code, as amended by Sections 4 and 5 of this act, shall become operative on January 1 of the year following the year in which the State Board of Equalization adopts an assessment ratio for state-assessed property which is identical to the ratio which is required for local assessments by Section 401 of the Revenue and Taxation Code.

(b) In the event that Sections 7261 and 7262 of the Revenue and

Taxation Code, as amended by Sections 4 and 5 of this act, become operative and the State Board of Equalization subsequently adopts an assessment ratio for state-assessed property which is higher than the ratio which is required for local assessments by Section 401 of the Revenue and Taxation Code, Sections 7261 and 7262 of the Revenue and Taxation Code, as those sections existed prior to the operative date of Sections 4 and 5 of this act, shall again become operative on the first day of the month next following the month in which such higher ratio is adopted, at which time Sections 7261 and 7262 of the Revenue and Taxation Code, as amended by Sections 4 and 5 of this act, shall be inoperative until the board again adopts an assessment ratio for state-assessed property which is identical to the ratio required for local assessments by Section 401 of the Revenue and Taxation Code.

SEC. 8. The Legislature finds and declares that the amendments to Sections 7202, 7203, 7261, and 7262 of the Revenue and Taxation Code by this act involve no "actual net loss" of sales and use tax revenues by counties, cities and counties, cities, and special districts. Items of personal property purchased by operators of aircraft or waterborne vessels and used or consumed by such operators directly and exclusively in the use of such aircraft or waterborne vessels are not subject to 80 percent of the sales and use taxes imposed by local government during the 1973 calendar year. Therefore, there is no "actual net loss" of revenue attributable to this act, and no necessity for the state to compensate counties, cities and counties, or cities for any such loss under the provisions of Section 2164 of the Revenue and Taxation Code.

CHAPTER 197

An act to add and to repeal Section 25452.6 of the Education Code, relating to school classified employees, and declaring the urgency thereof, to take effect immediately.

An act to amend Section 2362 of the Education Code, relating to school districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1973. Filed with Secretary of State July 9, 1973]

SECTION 1. Section 2362 of the Education Code is amended to read:

(b) A majority of the members of the governing board of each school district affected by the proposed change.

This section shall not be applicable to any transfer to which the provisions of Section 2364.1 apply.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to resolve any possibility of doubt as to the meaning of the provision herein amended that provides for alternative petitioning procedures in the initiation of proceedings to transfer inhabited territory from one school district to another, at the earliest possible time, and to permit urgently required pending and prospective proceedings for the more effective organization of school districts to be carried to completion at the earliest possible time, it is essential that this act take effect immediately.

CHAPTER 200

An act to amend Section 197.5 of the Civil Code, relating to children.

[Approved by Governor July 9, 1973. Filed with Secretary of State July 9, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 197.5 of the Civil Code is amended to read:

[Approved by Governor July 9, 1973 Filed with Secretary of State July 9, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding the provisions of Sections 6874, 6874.5, and 6874.6 of the Education Code, a private school shall be determined to meet the minimum educational standard relating to appropriate credentialing, notwithstanding its employment of a teacher who is not properly credentialed, if such teacher is properly credentialed to teach educationally handicapped children in a foreign country, has a diploma for special education in such foreign country, and has a minimum of four years' teaching handicapped children.

This section shall remain in effect until June 30, 1974, and as of that date is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Private schools educating children pursuant to provisions of Chapter 8.2 (commencing with Section 6870) of Division 6 of the Education Code have highly qualified teachers; however, some of the teachers in such schools do not have the appropriate credentials because, until recently, the schools were not advised that teachers in said schools were required to have the appropriate California credentials. In order to prevent the discharge of such teachers and enable such highly qualified teachers to continue to educate such children, it is necessary that a period of time be given in order for the teachers to secure the appropriate credentials.

CHAPTER 202

An act to repeal Sections 11002 and 11019 of, and to add Section 11019 to, the Business and Professions Code, relating to subdivisions.

[Approved by Governor July 9, 1973. Filed with Secretary of State July 9, 1973]

Upon receipt of such an order, the person or persons to whom the order is directed shall immediately discontinue activities in accordance with the terms of the order.

The commissioner shall after receipt of a request for hearing assign the matter to the Office of Administrative Hearings to conduct a hearing for findings of fact and determinations of the issues set forth in the order. If the hearing is not commenced within 15 days after receipt of the request for hearing, or on the date to which continued with the agreement of the person requesting the hearing, or if the decision of the commissioner is not rendered within 30 days after completion of the hearing, the order shall be deemed to be vacated.

Service and proof of service of an order issued by the commissioner pursuant to this section may be made in a manner and upon such persons as prescribed for the service of summons in Article 3 (commencing with Section 415.10), Article 4 (commencing with Section 416.10) and Article 5 (commencing with Section 417.10) of Chapter 4 of Title 5 of Part 2, of the Code of Civil Procedure.

SEC. 2. The amendment made to Section 40802 of the Vehicle Code by Section 1 of this act does not constitute a change in, but is declaratory of, existing law.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

[Approved by Governor July 9, 1973. Filed with Secretary of State July 9, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 2727.3 is added to the Business and Professions Code, to read:

2727.3. (a) A registered nurse, acting under the direction of a physician may perform: (1) tuberculin skin tests, coccidioidin skin tests, and histoplasmin skin tests, providing such administration is within the course of a tuberculosis control program, and (2) immunization techniques, providing such administration is upon standing orders of a supervising physician, or pursuant to written guidelines adopted by a hospital or medical group with whom the supervising physician is associated.

(b) The physician under whose direction the registered nurse is

acting pursuant to subdivision (a) shall require such nurse to satisfactorily demonstrate familiarity with (1) contraindication for the administration of such immunizing agents, (2) treatment of possible anaphylactic reactions, and (3) the administration of, treatment, and reactions to such immunizing agents.

(c) Nothing in this section shall be construed to require physical presence of a directing or supervising physician, or the examination by a physician of persons to be tested or immunized.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Contitution and shall go into immediate effect. The facts constituting such necessity are:

Beginning in July 1973 health departments throughout the state will be conducting public health clinics for the purpose of tuberculosis control. These clinics propose to administer skin tests and positive reactors, then refer certain persons for chest X-rays. It has been held that registered nurses may not administer the necessary tests or immunizing agents unless a physician is physically present. There exists in many rural counties a shortage of physicians and in other counties a shortage of funds necessary to have a number of physicians present at the various clinics and thereby creates difficulty or an impossibility of conducting the needed tuberculosis control program.

It is essential, therefore, to authorize registered nurses to administer specific tuberculin tests and immunizing agents under specific but routine orders issued by local health officers in order to facilitate the continuation of tuberculosis case finding programs.

SEC. 3. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 4. This act shall have no force or effect after December 31, 1975.

CHAPTER 205

The people of the State of California do enact as follows:

SECTION 1. Section 233 of the Civil Code is amended to read:

233. Any interested person may petition the superior court of the county in which a minor person described in Section 232 resides or

in which such minor person is found or in which any of the acts constituting abandonment, neglect, cruelty or habitual intemperance occurred, for an order or judgment declaring such minor person free from the custody and control of either or both of his parents. The juvenile probation officer or the county department shall render to the court a written report of the investigation with a recommendation to the court of the proper disposition to be made in the action in the best interests of said minor person. The court shall receive such report in evidence and shall read and consider the contents thereof in rendering its judgment.

SEC. 2. Section 233.5 of the Civil Code is amended to read:

233.5. A petition filed in any superior court proceeding under this chapter and any reports of the probation officer or county department designated by the board of supervisors to administer the public social services program filed in any such case may be inspected only by court personnel, the minor who is the subject of the proceeding, his parents or guardian, and the attorneys for such parties, and such other persons as may be designated by the judge of the superior court.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K–8)	High school grades (9–12)	Community college grades (13–14)
Mentally retarded (as defined in Section 6902)			
Class-size maximum of 15	$570	$440	$280
Class-size maximum of 18	420	285	130

SEC. 30. Section 18102.4 of the Education Code is amended to read:

18102.4. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of severely mentally retarded pupils in special classes

during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K–8)	High school grades (9–12)	Community college grades (13–14)
Mentally retarded (as defined in Section 6903)			
Class-size maximum of 12	$920	$785	$630

SEC. 31. Section 18102.6 of the Education Code is amended to read:

18102.6. The Superintendent of Public Instruction shall allow to each school district or county superintendent of schools for the education of educationally handicapped pupils in special classes during the current fiscal year an amount computed as follows:

(a) He shall divide the average daily attendance in each particular class size category by the maximum class size established for each particular class size category, and increase the quotient to the next highest integer where a fractional amount is produced.

(b) He shall then determine for each particular class size category the product of the amount computed under subdivision (a) multiplied by the maximum class size established by law for special day classes for the particular category.

(c) He shall then multiply the amount computed under subdivision (b) by the following amount of the particular level and category:

Category	Elementary grades (K–8)	High school grades (9–12)	Community college grades (13–14)
Educationally handicapped			
Class-size maximum of 12	$1,000	$870	$710

SEC. 31.5. Section 18105 of the Education Code is repealed.

SEC. 32. Chapter 3 (commencing with Section 20450) is added to Division 15 of the Education Code, to read:

CHAPTER 3. MAXIMUM PROPERTY TAX RATES FOR THE COUNTY SUPERINTENDENT OF SCHOOLS

Article 1. Computation of Tax Rates

20450. (a) The property tax rates that the county superintendent of schools is authorized to levy for special schools and classes shall be determined pursuant to this chapter.

(b) The maximum allowable tax rate for educable mentally retarded and the maximum allowable tax rate for trainable mentally retarded shall be determined for each in the following manner:

(1) The county superintendent shall determine the average expenditure per class, exclusive of capital outlay, for the 1972–73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts, pursuant to Section 885.5, and any other local income other than property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation of the school districts for which the program is available.

(c) The maximum allowable tax rate for special classes of physically handicapped shall be determined as follows:

(1) The county superintendent shall determine the average expenditure per type of class, exclusive of capital outlay, for the 1972–73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts pursuant to Section 885.5, and any other local income other than property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation of the districts for which the program is available.

(d) The maximum allowable tax rate for each of the physically handicapped programs of remedial instruction including special blind instruction, remedial physical education, and individual instruction shall be determined in the following manner:

(1) The county superintendent of schools shall determine the expenditure per average daily attendance, excluding capital outlay, for the 1972–73 fiscal year;

(2) He shall increase the amount per average daily attendance by

5 percent,

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, local foundation program contribution of districts pursuant to Section 885.5, and any other local income other than property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation of the districts for which each program is available.

(e) The maximum tax rate for the juvenile hall program shall be determined in the following manner:

(1) The county superintendent of schools shall determine an expenditure per unit of average daily attendance, excluding capital outlay, for the 1972–73 fiscal year;

(2) He shall increase the amount per average daily attendance by 5 percent,

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, and local income other than property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation of the county.

(f) The maximum tax rate for any program in subdivisions (b) to (e), inclusive, for each fiscal year subsequent to the 1973–74 fiscal year shall be determined by:

(1) Increasing the allowed average expenditure per class or average daily attendance for the prior year by the inflation adjustment determined by the Superintendent of Public Instruction and the Director of Finance;

(2) Multiplying the amount determined in paragraph (1) by the estimated number of classes or units of average daily attendance projected for the budget year;

(3) Reducing the amount determined in paragraph (2) by the appropriate methods prescribed in subdivision (b) to (e), inclusive, and by any amount which resulted from overestimating the number of classes pursuant to subdivisions (b) and (c) or the number of average daily attendance pursuant to subdivisions (d) and (e), and determining the tax rate pursuant to the appropriate subdivision.

20451. The maximum tax rates the county superintendent of schools may levy for the purposes and under the terms and conditions of Sections 885.5, 5661, 6955, 17263.1, 20157, and 20202 shall be that necessary to pay the estimated costs for each.

20452. The maximum tax rate the county superintendent of schools may levy pursuant to Section 6739, 6880.16, or 7456 shall be that necessary to fund the proposed authorized expenditures,

exclusive of capital outlay, after all federal aid, state aid, and local income, other than from property tax revenue has been deducted, but in no case shall the rate exceed that limit prescribed in Section 6739, 6880.16 or 7456 for current expenses only.

20453. The county superintendent of schools may levy the tax rate necessary for payments required pursuant to any school building aid law.

20454. The county superintendent may levy a tax rate for capital outlay costs for all purposes, not funded in Section 20453, except that proceeds from this tax may not be used to construct any administration facilities or centers unless, and to the extent that, a tax was levied and collected for such purpose in the 1972–73 fiscal year. The tax rate shall be levied on the areas served, but the rate in any portion of the county shall not exceed five cents ($0.05) per one hundred dollars ($100) of assessed valuation.

20455. The county superintendent of schools may levy a tax rate necessary to pay tuition charges for excess costs which are billed the county superintendent for children enrolled in mandated programs.

20456. (a) The county superintendent shall have a maximum tax rate available for the operation, maintenance and housing of the county office and for any ongoing program, not included in any previous section of this article.

(b) For fiscally independent county superintendent offices, the maximum allowable tax rate shall be the rate levied for these purposes in 1971–72 or 1972–73, whichever is higher, minus that portion of the rate levied for capital outlay and juvenile hall purposes. This maximum rate may be exceeded in the amount and under the terms specified in subdivision (c) of Section 2165 of the Revenue and Taxation Code.

(c) For fiscally nonindependent county superintendent offices, the maximum allowable tax rate shall be computed by determining the amount of expenditures for the county superintendent of schools' office, exclusive of capital outlay expenditures and expenditures for juvenile hall purposes, in 1971–72 and 1972–73 which were funded from property tax revenues attributable to the county general fund. The amount for each year shall be converted to a tax rate equivalent for that year by dividing each amount by the assessed value of the county in that year and multiplying the quotient by 100; the higher of the two resulting tax rate equivalents shall be the maximum allowable tax rate. This maximum rate may be exceeded in the manner and under the terms specified in subdivision (c) of Section 2165 of the Revenue and Taxation Code.

(d) The maximum allowable tax rate described in this section is not intended to prohibit a county from augmenting the budget of the county superintendent of schools offices from general county funds. If the budget of the county superintendent of schools, as set by the county, does not require the full amount of the maximum allowable rate, the difference between the maximum rate and the actual rate required shall not be levied and shall not be available for any other

county purpose.

(e) The maximum allowable tax rates described in this section may be increased by a majority vote of those voting on a proposition relating to such increase. Such a proposition may be voted on only in conjunction with a general countywide election.

20457. In any fiscal year, new maximum allowable rates shall be computed as if the maximum allowable rates were levied in the prior fiscal year, but such maximum allowable rates need not be levied.

20458. None of the rates authorized pursuant to this article shall be included in computing the maximum allowable tax rates for counties pursuant to Article 2 (commencing with Section 2165) of Chapter 1.5 of Part 4 of Division 1 of the Revenue and Taxation Code.

SEC. 32.5. Section 20704 of the Education Code is amended to read:

20704. The board of supervisors shall determine the rate of district tax necessary to be levied as follows:

(a) They shall divide the amount of taxes as required to be raised by the unequalized value of the secured roll, exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code, of the last assessment roll of the district after due allowance for delinquencies. The rate shall be such as will produce the amount determined as necessary to be raised by taxation on the secured roll.

(b) Except in counties that distribute property taxes according to Chapter 3 (commencing with Section 4701) of Part 8 of Division 1 of the Revenue and Taxation Code, the allowance for delinquencies shall be fixed by determining for three consecutive years of the preceding four years the percentage that the combined amounts of taxes uncollected at the end of each year bear to the total amount of taxes levied for those years.

(c) In counties that distribute property taxes according to Chapter 3 (commencing with Section 4701) of Part 8 of Division 1 of the Revenue and Taxation Code, an allowance for subsequent additions, cancellations, and corrections affecting the tax roll shall be fixed by determining for three consecutive years of the preceding four years the percentage that the combined amounts of such items at the end of each year bear to the total amount of taxes levied for those years.

An allowance for delinquencies may be fixed for which the maximum limit is established by determining for three consecutive years of the preceding four years the percentage that the combined amounts of all county levied uncollected taxes at the end of each year bears to the amount of all county levied taxes for those years.

SEC. 33. Section 20803 of the Education Code is amended to read:

20803. Any maximum rate of tax for any community college district may be increased and, having been increased, may be decreased by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the

community college district at an election which may be ordered by the governing board of the community college district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

Any decrease in an increased maximum tax rate pursuant to this section shall not be in an amount which will reduce the tax rate for the district below the maximum specified in Section 20751. The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted by the county superintendent of schools, as nearly as is practicable in accordance with the provisions of Chapter 6 (commencing with Section 1301) of Division 4.

The specification of the election order shall contain the information provided in Section 1323 of this code and shall be furnished the county superintendent of schools by the governing board of the district for all maximum tax increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall the proposed (increase decrease) in the maximum tax rates from _____ ($_____) to _____ ($_____) for each one hundred dollars ($100) of assessed valuation of property, such rate to be in effect in the _____ District for the school year (or years) 19__ to 19__, the revenues of which are to be used for _____, be authorized?" or the words "Shall the proposed (increase decrease) in the maximum tax rates from _____ ($_____) to _____ ($_____) for each one hundred dollars ($100) of assessed valuation of property commencing on _____, such rate to be in effect in the _____ District for the school years commencing 19__, the revenues of which are to be used for _____, be authorized?" Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district, the maximum tax rate of the district was increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the maximum tax rate of the district, the ballot shall contain substantially the words "Shall the existing maximum tax rate of _____

($_____) for each one hundred dollars ($100) of assessed valuation of property be continued in the _____ District for the school years 19__ to 19__, the revenues of which are to be used for _____?" Opposite such words in separate lines, the words "Yes" and "No" shall be printed with a voting square opposite each such word. Each voter shall stamp a cross in the voting square after the answer he desires to give.

Whenever the maximum tax rate of a community college district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the maximum tax rate of the district, the ballot used in the election shall show only the authorized maximum tax rate of the district in effect at the time of the election and the proposed maximum tax rate.

If an election for a decrease in an increased maximum tax rate of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1st following the election. If an election for a decrease in an increased tax rate of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1st of the next succeeding year.

SEC. 34. Section 20803.2 is added to the Education Code, to read:

20803.2. Effective September 4, 1973, and thereafter, any revenue limit per unit of average daily attendance for any elementary, high school and unified district may be increased and, having been increased, may be decreased, by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the school district at an election which may be ordered by the governing board of the school district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted as nearly as is practicable in accordance with the provisions of Chapter 6 (commencing with Section 1301) of Division 4.

The specification of the election order shall contain the information provided in Section 1323 and shall be furnished by the governing board of the district for all revenue limit increase or

decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall there be authorized an (increase, decrease) of the revenue limit per unit of average daily attendance from _____ dollars ($_____) to _____ dollars ($_____), such (increase, decrease) to be effective in the _____ School District for the (school year 19__, only, years 19__, to 19__, years commencing 19__) the revenues of which are to be used for _____?

"The estimated (increase, decrease) of the revenue limit will result in an (increase, decrease) to the tax rate of the _____ School District in the first year from _____ dollars ($_____) to _____ dollars ($_____) for each one hundred dollars ($100) of assessed valuation of property." Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district, after the effective date of this section, the revenue limit of the district had been increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the revenue limit per unit of average daily attendance of the district, the ballot shall contain substantially the words "Shall the existing revenue limit increase of _____ dollars ($_____) per unit of average daily attendance be continued in the _____ School District for the school years 19__ to 19__, the revenues of which are to be used for _____?" Opposite such words in separate lines, the words "Yes" and "No" shall be printed with a voting square opposite each such word. Each voter shall stamp a cross in the voting square after the answer he desires to give.

Whenever the revenue limit per unit of average daily attendance of a school district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the revenue limit per unit of average daily attendance of the district, the ballot used in the election shall show only the authorized revenue limit increase per unit of average daily attendance of the district in effect at the time of the election and the proposed revenue limit increase per unit of average daily attendance.

If an election for a decrease in an increased revenue limit of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1 following the election. If an election for a decrease in a revenue limit of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1 of the next succeeding year.

SEC. 35. Section 20804 of the Education Code is amended to read:

20804. Any such increase or decrease in tax rates or revenue limits shall remain in effect only for the period specified on the ballot, if such period was specified by the governing board.

SEC. 36. Section 20903 of the Education Code is amended to read:

20903. Commencing on July 1, 1973, the maximum school district tax rate of any school district maintaining kindergarten and any of grades 1 to 12, inclusive, shall be the rate computed pursuant to this article. In addition, each such district may levy a tax as authorized in Section 1905, 6880.16, 7456 for capital outlay purposes only, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code and Section 5302.5 of the Streets and Highways Code. Any other provision of law fixing the maximum school district tax rate for any such district or authorizing the levy and collection of taxes for any other purpose is hereby superseded and declared inoperative as to such districts.

SEC. 37 Section 20904 of the Education Code is amended to read:

20904. For the purposes of this section, the assessed valuation used in computing revenue limits and the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 Part 1 of Division 24 of the Health and Safety Code.

For the purposes of this section, the revenue limit computational tax rate is defined as the district's fiscal year tax rate exclusive of tax rates provided in Section 1905, 6880.16, 7456 for capital outlay purposes only, 11872 but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, 15517, 15518, 15708, 15709, 16633, 16635, 16645.9, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 20801, 20911, or 22101 of the Education Code and Section 5302.5 of the Streets and Highways Code.

In computing the sum of the tax rates pursuant to this section, Section 20808.5 shall be considered a rate upon the elementary district taxed and not on the high school district.

(a) For the 1973–74 fiscal year only, the county superintendent of schools shall compute for each school district in the county an amount equal to the sum of (1) the district's 1972–73 fiscal year revenue limit computational tax rate, multiplied by the actual assessed valuation on the secured roll of the district for the 1972–73 fiscal year, and the district's 1971–72 fiscal year revenue limit computational tax rate, multiplied by the assessed valuation on the unsecured roll of the district for the 1972–73 fiscal year, (2) the amount of areawide aid received by the district for the 1972–73 fiscal year, (3) 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972, (4) the total amount of basic state aid, equalization aid, supplemental support, and inflation cost adjustment which the districts received pursuant to the

provisions of this code and the Budget Act of 1972 as computed by the Superintendent of Public Instruction, and (5) the amount of income from the equalization offset tax pursuant to Section 17263.1.

(b) The amount computed in subdivision (a) shall be divided by the foundation program average daily attendance in the second principal apportionment and shall be the 1972–73 base revenue per unit of average daily attendance.

(c) The base revenue per unit of average daily attendance for each district shall be divided into the following amounts per unit of average daily attendance: for elementary districts, nine hundred dollars ($900); for high school districts, one thousand one hundred sixty-five dollars ($1,165); for unified districts, nine hundred eighty dollars ($980). If the result is greater than one it shall be deemed to be one.

(d) The quotient determined pursuant to subdivision (c) shall be multiplied by seventy dollars ($70) per unit of average daily attendance.

(e) The product determined pursuant to subdivision (d) shall be added to the base revenue per unit of average daily attendance determined pursuant to subdivision (b) and multiplied by the estimated foundation program unit of average daily attendance in the second principal apportionment of the districts for the 1973–74 fiscal year.

(f) The amount computed pursuant to subdivision (e) shall be compared with the total amount computed for the district pursuant to Article 2 (commencing with Section 17651), excluding Section 17668.5, Article 2.1 (commencing with Section 17671), and subdivision (a) of Section 17951. The larger of the two amounts shall be the revenue limit of the district for the 1973–74 fiscal year but in no case shall exceed 116 percent of the 1972–73 base revenue per unit of average daily attendance multiplied by the 1973–74 fiscal year estimated foundation program average daily attendance or the 1972–73 base revenue per unit of average daily attendance plus seventy dollars ($70) multiplied by the 1973–74 fiscal year estimated foundation program average daily attendance, whichever is higher. This revenue limit is exclusive of federal funds and state funds except those specified in subdivision (a).

In lieu of the revenue limit determined pursuant to the preceding paragraphs of subdivision (f) a district may request the county superintendent of schools to determine its revenue limit for the 1973–74 fiscal year using either, but not both, of the two following methods: (1) determine the base revenue per average daily attendance for the 1972–73 fiscal year by including the unused portion of a voted override in the revenue limit computational tax rate, use sixty-five dollars ($65) instead of seventy dollars ($70) as the computational amount in subdivision (d), use 115 percent instead of 116 percent as the computational limit in subdivision (f). For purposes of this paragraph, the unused portion of a voted override shall be determined as the difference between the total of the

maximum tax rate approved by an election pursuant to Section 20803 added to the actual tax rates levied, in the same fiscal year during which the election was held, for all other purposes except pursuant to Sections 1905, 7456 for capital outlay only, 11872 but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, 15517, 15518, 15708, 15709, 16633, 16635, 16645.9, 19443, 19619, 19683.5, 19687, 19688, 19695, 20801, 20930, and 22101 of the Education Code, and Section 5302.5 of the Streets and Highways Code, and the actual tax levied for the 1972–73 fiscal year, including the areawide tax rate levied but exclusive of the tax rates levied pursuant to Sections 1905, 7456 for capital outlay only, 11872 but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, 15517, 15518, 15708, 15709, 16633, 16635, 16645.9, 19443, 19619, 19683.5, 19687, 19688, 19695, 20801, 20930, and 22101 of the Education Code, and Section 5302.5 of the Streets and Highways Code.

(2) Determine the base revenue per average daily attendance for the 1972–73 fiscal year by including an amount equal to the unrestricted balance used to balance income to expenditures in the 1972–73 fiscal year with such amount not to exceed 3 percent of the total expenditures in the General Fund for the 1972–73 fiscal year, use sixty-five dollars ($65) instead of seventy dollars ($70) as the computational amount in subdivision (d), use 115 percent instead of 116 percent as the computational limit in subdivision (f). For purposes of this paragraph, the unrestricted balance shall be determined as the difference when the ending balance, less restricted amounts plus transfers of unrestricted amounts to other funds which remain as ending balances in other funds, is subtracted from the beginning balance, less restricted amounts in the 1972–73 General Fund.

Notwithstanding subdivision (f), if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per unit of foundation program average daily attendance of the 1972–73 fiscal year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the 1973–74 fiscal year, if any, multiplied by the estimated foundation program average daily attendance of the 1973–74 fiscal year. Such increased revenue limit shall not exceed the foundation program of the 1973–74 fiscal year.

(g) From the revenue limit ascertained from the comparison made pursuant to subdivision (f), there shall be subtracted the total amount of basic state aid and state equalization aid to be received by the district during the 1973–74 fiscal year, as adjusted by repayment of any advances authorized by Section 17401.5, the amount of areawide aid to be received for the 1973–74 fiscal year, and the

amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(h) The amount determined pursuant to subdivision (g) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 14100. Such adjustment, together with any rate levied in the 1972–73 fiscal year pursuant to Section 14111, shall not exceed the revenue derived by the tax rate provided in Section 14111.

(i) The amount computed pursuant to subdivision (h) shall be the local revenue limit of the district for the 1973–74 fiscal year. From the local revenue limit, there shall be subtracted 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972.

(j) From the amount computed in subdivision (i), there shall be subtracted, (1) the amount of money collected or to be collected as taxes on property on the unsecured roll of the 1973–74 fiscal year, excluding the amounts collected through the levy of taxes provided in Section 1905, 7456 for capital outlay purposes only, 11872, 15517, 15518, 15708, 15709, 16633, 16635, 16645.9, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code and Section 5302.5 of the Streets and Highways Code and (2) the income from prior year taxes.

(k) The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 1905, 6880.16, 7456 for capital outlay purposes only, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (f) notwithstanding, in no case for districts receiving state equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

SEC. 38. Section 20904.1 is added to the Education Code, to read:

20904.1. Any voted increase in the maximum tax rate, to be effective commencing with the 1973–74 fiscal year, which does not have a termination date shall be added to the 1972–73 fiscal year and 1971–72 fiscal year tax rates used to determine the 1972–73 base revenue per unit of average daily attendance.

Any voted increase in the maximum tax rate, to be effective commencing with the 1973–74 fiscal year, which does have a termination date shall be multiplied by the total estimated assessed

valuation for the 1973–74 fiscal year, and the result divided by the estimated foundation program average daily attendance of the second principal apportionment for the 1973–74 fiscal year. This override tax revenue per unit of average daily attendance shall be added to the revenue per unit of average daily attendance for the 1973–74 fiscal year prior to the computation of the revenue limit of the district for the 1973–74 fiscal year pursuant to subdivision (f) of Section 20904. For the computation of the revenue limit of the district for the year immediately following the last year of authorization of the voted override, the amount of this increase as it actually affected the revenue limit shall not be included.

SEC. 38.3. Section 20904.3 is added to the Education Code, to read:

20904.3. For any school district in which a voted override tax expired at the end of the 1973–74 fiscal year and which expended, appropriated, or obligated by contract, general purpose tax rate income during the 1972–73 fiscal year for the costs of new buildings or site acquisition, the amount that was expended, appropriated, or obligated by contract during the 1972–73 fiscal year for the costs of new buildings or site acquisition shall be subtracted from the base revenue limit used to determine the revenue limit for the 1974–75 fiscal year.

SEC. 39. Section 20905 of the Education Code is amended to read:

20905. For the 1974–75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of 301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation program units of average daily attendance of unified districts in the second principal apportionment divided by the sum of the elementary and high school units of average daily attendance of

unified districts in the second principal apportionment.

(d) The inflation adjustment jointly determined by the Department of Education and the Department of Finance, which inflation index shall not, in any event, be less than 5 percent or more than 6 percent, shall be multiplied by the appropriate foundation program amount.

(e) The product determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 2 (commencing with Section 17651), excluding Section 17668.5, Article 2.1 (commencing with Section 17651), and subdivision (a) of Section 17951 as adjusted pursuant to subdivision (e) of Section 17301 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the foundation program level of the district or the prior year revenue limit increased by fifteen percent (15%).

For the 1974–75 and 1975–76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(i) The amount determined pursuant to subdivision (h) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 14100. Such adjustment, together with any rate levied in any prior year pursuant to Section 14111, shall not exceed the

revenue derived by the tax rate provided in Section 14111. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 1905, 6880.16, 7456 for capital outlay purposes only, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code and Section 5302.5 of the Streets and Highways Code.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 1905, 6880.16, 7456 for capital outlay purposes only, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

SEC. 39.3. Section 20905.5 is added to the Education Code, to read:

20905.5. A district may add in Sections 20904 and 20905 for purposes of increasing the district's revenue limit for the budget year a portion of its loss in average daily attendance when it is anticipated that the estimated second principal apportionment units of average daily attendance, excluding defined adults and summer school average daily attendance, will be less than those of the preceding year. The number of units of average daily attendance to be added is determined as follows:

(a) When the reduction in average daily attendance is less than 1 percent of the preceding year average daily attendance no adjustment is allowed.

(b) When the reduction in average daily attendance is more than

00 106255 129

1 percent of the preceding year average daily attendance, but less than 2 percent, multiply the estimated average daily attendance, excluding defined adult and summer school average daily attendance, for the budget year by the fraction of a percent by which the difference exceeds 1 percent and add the result to the estimated average daily attendance of the budget year used to set the revenue limit.

(c) When the reduction in average daily attendance is greater than 2 percent of the preceding year average daily attendance, divide the difference in average daily attendance by two and add the quotient to the estimated average daily attendance of the budget year.

The amount calculated in subdivision (b) or (c) shall be considered an addition to the estimated average daily attendance for purposes of increasing the revenue limit, but shall not be used to compute state apportionments.

This amount of adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit in the subsequent year which otherwise would be required pursuant to Section 20907, except that to the extent that actual data differs from the estimated unit of average daily attendance used in this section, Section 20907 shall be applicable.

SEC. 40. Section 20906 of the Education Code is amended to read:

20906. Commencing September 4, 1973, the revenue limit prescribed by Section 20905 may be exceeded upon approval of a majority of the electors of the district voting on a proposition to that effect pursuant to Section 20803.2. Such approval may be granted for any period of time, and shall be added to the budget year revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (g) of Section 20905 in computing the maximum general purpose tax rate for each year in which the voted revenue limit increase is effective.

For the fiscal year following the last year in which the voted revenue limit increase is authorized, the amount of the voted revenue limit increase as it actually affected the revenue limit shall be subtracted from the revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (g) of Section 20905.

SEC. 41. Section 20909 of the Education Code is repealed.

SEC. 42. Section 20909.1 is added to the Education Code, to read:

20909.1. The unexpended proceeds of any permissive tax rate, the authorization for the levy and collection of which has been made inoperative by this article, shall be transferred to the general fund of the district on July 1, 1973. The consolidation of all tax rates previously permitted and now included to the extent needed within the total general fund rate does not preclude districts from expending funds for the purposes normally supported by such permissive restricted overrides in prior years.

SEC. 43. Section 20909.2 is added to the Education Code, to read:

20909.2. It is the intent of the Legislature that an interim study be conducted on wealth equalizing among school districts, including but not limited to such means of wealth equalizing as variable foundation programs, power or wealth equalizing, and wealth pooling.

SEC. 44. Section 20910 of the Education Code is repealed.

SEC. 45. Section 20910.5 of the Education Code is repealed.

SEC. 46. Section 20911 of the Education Code is repealed.

SEC. 47. Section 20912 of the Education Code is repealed.

SEC. 48. Chapter 3.5 (commencing with Section 20910) is added to Division 16 of the Education Code, to read:

CHAPTER 3.5. AREAWIDE TAX SUPPORT PROGRAM FOR ELEMENTARY SCHOOLS AND HIGH SCHOOLS

Article 1. Levy and Collection of Taxes

20910. For purposes of this chapter:

(a) Each elementary school district shall be deemed to comprise the kindergartens and grades 1 to 8, inclusive, maintained by the district, and the seventh and eighth grades of the district not maintained by the district because of the attendance upon a junior high school of pupils who would otherwise attend upon seventh and eighth grades maintained by the district.

(b) Each high school district shall be deemed to comprise all of grades 9 to 12, inclusive, maintained within the high school district whether maintained by a high school district or by a community college district.

(c) Each unified school district shall be deemed to be an elementary school district comprising the kindergartens and grades 1 to 8, inclusive, maintained by the district and the seventh and eighth grades of the district not maintained by the district in elementary schools because of the attendance upon a junior high school of pupils who would otherwise attend the seventh and eighth grades maintained in elementary schools by the district, and a high school district comprising all of grades 9 to 12, inclusive.

(d) In determining to which particular districts apportionments shall be made, the rules prescribed by Sections 17608, 17609, and 17610 for purposes of apportionments from the State School Fund shall be utilized.

20910.5. The provisions of this chapter shall not be applicable to the territory of any school district included in a unification proposal, pursuant to the provisions of Chapter 1246 of the Statutes of 1967, which was rejected by the electorate, and which has been restored to existence as a separate elementary school district or high school district, as the case may be, pursuant to the provisions of Chapter 1246 of the Statutes of 1967.

20911. The board of supervisors of each county shall annually, commencing with the fiscal year as specified in Section 17702.2, at

the time and in the manner of levying other county taxes, levy and cause to be collected, as provided in this chapter, additional taxes within the territory included in any school district territory for which a foundation program is computed under Section 17680.

20912. The additional taxes shall be levied and collected throughout the territory for support of the elementary school districts included therein, if Section 17680 requires the computation of an areawide foundation program for such districts. The additional taxes shall be levied and collected throughout the territory for support of the high school districts included therein if Section 17680 requires the computation of an areawide foundation program for such districts. The taxes to be annually levied and collected shall be as follows:

(a) For elementary school support, at a rate sufficient to provide the amount of elementary school areawide aid for the territory under Section 17702.2.

(b) For high school support, at a rate sufficient to provide the amount of areawide high school aid computed for the territory under Section 17702.2.

20913. The moneys received from such taxes shall be deposited in the county treasury to the credit of the elementary school fund or the high school fund, or both, in the amounts collected for and properly allocable to elementary school support and high school support, respectively. The establishment of the elementary school fund and the high school fund in the county treasury is hereby authorized.

20914. Of the moneys received from such taxes, there shall be segregated, by the county treasurer, the portion thereof derived from the territory within any elementary school district, or high school district, which is situated only partially within the county and which is not placed by law under the jurisdiction of the county superintendent of schools. The moneys so segregated shall be transferred to the county treasury of the county whose county superintendent of schools has jurisdiction of the district, to be deposited to the credit of the elementary school fund or high school fund, and such county treasury shall thereafter be the legal depositary of the funds.

20915. The distribution of all tax moneys collected upon property of the unsecured roll after the most recent lien date of taxes, for elementary school and high school purposes for a fiscal year as specified in Section 17702.2, and each fiscal year thereafter, shall be made and an amount be credited to, and allocated from, the elementary school fund or high school fund equal to the amount that would have been deposited to the fund and allocated to each school district had the rates under Section 20911 been applied to the unsecured roll.

Article 2. Apportionment of the Areawide Tax

20921. The moneys deposited to the credit of the elementary school fund and the high school fund in the county treasury pursuant to Article 1 (commencing with Section 20910) of this chapter, shall be apportioned by the county treasurer to the elementary school districts and the high school districts for which an areawide foundation program was computed pursuant to Section 17680. Apportionments shall be made upon order of the county auditor issued from time to time and as soon as practicable after deposit of the moneys to the credit of the funds.

The elementary school fund shall be apportioned to the elementary school districts and the high school fund shall be apportioned to the high school districts in the amounts computed by the county auditor.

20922. The county auditor shall compute the amounts of the tax moneys to be apportioned from the elementary school fund to each elementary school district by dividing the amount of the annual tax moneys received and credited to the elementary school fund, by the areawide elementary school foundation program computed for the districts involved, and by multiplying the quotient so derived by the foundation program of the district.

The county auditor shall compute the amounts of the tax moneys to be apportioned from the high school fund to each high school district by dividing the amount of the annual tax moneys received and credited to the high school fund, by the areawide high school foundation program computed for the districts involved, and by multiplying the quotient so derived by the foundation program of the district.

SEC. 49. Section 218.5 of the Revenue and Taxation Code is amended to read:

218.5. In order to assure the accuracy of the state's reimbursements for the homeowners' property tax exemption and to prevent duplications of the exemptions within the state and improper overlapping with other benefits provided by law, county assessors shall supply information from homeowners' property tax exemption claims and county records as is specified by written request of the board, and with the concurrence of the Controller, necessary to fully identify all homeowners' property tax exemption claims allowed by the assessors. The board may specify that the information include all or a part of the names and social security numbers of claimants and spouses and the identity and location of the dwelling to which the exemption applies. The information may be required in the form of data processing media or other media and in such format as is compatible with the recordkeeping processes of the counties and the auditing procedures of the state.

SEC. 50. Section 401.4 of the Revenue and Taxation Code is amended to read:

401.4. When valuing an owner-occupied single-family dwelling

and the land on which it is situated that may be required for the convenient occupation and use of such dwelling, if such dwelling is on land which is zoned exclusively for single-family home use or which is zoned for agricultural use where single-family homes are permitted, the assessor shall not value the land at any value greater than that which would reflect the use of the land as a site for a single-family dwelling.

As used in this section, owner-occupied single-family dwelling means any single-family dwelling occupied by an owner thereof as his principal place of residence on the lien date.

SEC. 51. Section 2164.3 of the Revenue and Taxation Code is amended to read:

2164.3. (a) The state shall pay to each county, city and county, city, special district, and school district an amount to reimburse the county, city and county, city, special district, or school district for the full costs, which are mandated by acts enacted after January 1, 1973, of any new state-mandated program or any increased level of service of an existing mandated program.

(b) Any new state program or increased level of service of an existing mandated program, which is mandated by legislative action after January 1, 1973, shall include provisions within the bill which provide an amount sufficient to cover the total cost of the mandated program for all affected counties, cities and counties, cities, special districts, and school districts as estimated by the Department of Finance. This amount shall be appropriated to the Controller for disbursement.

The Controller shall allocate the funds among counties, cities, cities and counties, special districts, and school districts for each mandated program based upon claims submitted within 45 days after the operative date of the mandate by the appropriate local government jurisdictions. Such claims shall be based on the appropriate local governmental jurisdiction's estimate of its cost for the mandated program for the fiscal year. The Controller may review claims and may reduce those which appear to be excessive or unreasonable.

The allocations to the appropriate local jurisdictions and school districts shall be made by the Controller in accordance with the provisions of each bill which mandates additional cost.

(c) For subsequent fiscal years, with respect to the costs of any mandated costs as defined in subdivision (a), the Controller shall allocate funds to each appropriate local government jurisdiction and school district to reimburse for such costs.

Claims shall be submitted by affected local governmental jurisdictions, and school districts by October 31 and, after review and adjustments, shall be paid at the time or times provided in each bill which mandates additional cost.

The claims shall include the actual cost for the prior fiscal year and the estimated cost for the current fiscal year. The Controller may reduce any claim for the current fiscal year which appear to be

excessive or unreasonable. The Controller shall adjust the payment for the current fiscal year to the local government to correct for the underpayment or overpayment of the estimated cost of the mandated cost in the prior fiscal year. The Controller may audit the records of any local government jurisdiction, or school district, to verify the actual costs of state-mandated programs.

(d) The state shall pay to each county, city and county, city and special district, the full costs of a new program or increased level of service of an existing program mandated by any state executive regulation issued after January 1, 1973. The costs of any such executive regulation shall be estimated by the Department of Finance. Cities, cities and counties, counties, and special districts shall be reimbursed in the same manner as provided in subdivisions (b) and (c). School districts shall be excluded from the provisions of this subdivision.

(e) "Increased level of service" means any requirement mandated by state law or executive regulation after January 1, 1973, which makes necessary expanded or additional costs to a county, city and county, city, special district, or school district.

(f) If a city, city and county, county, special district, or school district has been providing a service or program at its option which is subsequently mandated by the state, the state shall pay such local governmental jurisdiction or school district for such mandated service or program, and the local governmental program, and the local governmental jurisdiction, or school district shall reduce its property tax rate by the amount that the state payment replaces property tax revenues which were being expended on such service or program.

SEC. 54. Section 17053.5 of the Revenue and Taxation Code is amended to read:

(a) For taxable years beginning after December 31, 1972, in the case of qualified renters, there shall be allowed credits against the tax computed under this part, minus all other credits provided for in this part except the credit provided in Section 18551.1 (relating to withholding credit) and the credit provided in Section 17061 (relating to excess tax credit). SEC. 58. Section 23186 of the Revenue and Taxation Code is amended to read:

23186. (a) The rate of tax on banks and financial corporations shall be a percentage equal to the percentage of the total amount of net income, allocable to this state, of every corporation taxable under

Section 23151 or subdivision (b) of Section 23151.1 or paragraph (1) of either subdivision (c) or (e) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, for the next preceding calendar year or fiscal years ended during such calendar year, required to be paid to this state as franchise taxes according to or measured by such net income, and required to be paid to this state or its political subdivisions by such corporations as personal property taxes during the preceding calendar year or fiscal years ended in such calendar year; provided, however, that said rate of tax shall not exceed 11.6 percent. The percentage of the net income of every corporation taxable under Section 23151, or subdivision (b) of Section 23151.1, or paragraph (1) of either subdivision (c) or (e) of Section 23151.1, as the case may be, other than public utilities as defined in the Public Utilities Act, required to be paid to this state or its political subdivisions in personal property taxes shall be determined by ascertaining the ratio which the total amount of such personal property taxes, less 7.6 percent thereof, bears to the total amount of net income of such corporations allocable to California, increased by the amount of such personal property taxes; provided, however, that if any such corporation sustains a net loss allocable to California the personal property taxes required to be paid by such corporation to this state or its political subdivisions during the preceding calendar year or fiscal years ended during such calendar year shall be considered for the purpose of determining such ratio only to the extent which such personal property taxes exceed such net loss allocable to California.

(b) For calendar or fiscal years ending after June 30, 1973, the 11.6 percent provided in the first sentence of subdivision (a) shall be 13 percent and the 7.6 percent provided in the second sentence shall be 9 percent.

SEC. 59. Section 23332.5 of the Revenue and Taxation Code is amended to read:

23332.5. If a financial corporation ceases doing business, dissolves, or withdraws from the state during any taxable year beginning after December 31, 1972, the tax for the taxable year during which cessation of doing business, dissolution or withdrawal occurs shall be computed as prescribed by subdivision (b) or (c) of Section 23183. In determining the amount of such tax, a financial corporation will be allowed an offset against the amounts paid during the final taxable year to this state as personal property taxes, or as license fees or excise taxes as described in subdivisions (a) to (d), inclusive, of Section 23184. However, after the allowance of such offsets, the tax on a financial corporation shall not be less than the rate prescribed in Section 23151 nor less than the minimum tax prescribed in Section 23184.

SEC. 60. Section 10 of Chapter 1147 of the Statutes of 1972 is repealed.

SEC 61. Section 36 of Chapter 1406 of the Statutes of 1972 is amended to read:

Sec. 36. Gross receipts from the sale of, and the storage, use, or other consumption in this state of material, fixtures, and supplies, obligated pursuant to engineering construction project contract or a building construction contract entered into for a fixed price prior to the effective date of this act, shall not be subject to the additional sales and use tax rate imposed by this act but shall be subject to the rate of tax applicable prior to this act.

For the purposes of this section, tangible personal property shall not be deemed obligated pursuant to a contract for any period of time for which any party to the contract has a right to terminate the contract upon notice, whether or not the right is exercised.

SEC. 62. Section 50 of this act is a clarification and restatement of existing law, and no reimbursement shall be made to local government pursuant to Section 2163 of the Revenue and Taxation Code by reason of its operation. The Legislature finds that additional state-mandated local costs in this act, if any, are fully reimbursed by the appropriation for public schools contained in this act and the appropriation to counties for collecting the additional information on homeowners' exemption claims.

SEC. 63. Section 52 of this act shall become operative on June 1, 1973.

SEC. 64. This section shall apply only to the school districts of Santa Cruz County. Because of an unusual situation with respect to the junior high schools of that county, a general law cannot be made applicable.

All references to code sections in this section are to sections of the Education Code.

(a) The governing board of any elementary school district situated within a high school district maintaining a junior high school shall permit pupils who have completed the sixth year of the elementary school to attend the junior high school and shall pay to the high school district for the education of the pupils a tuition charge determined pursuant to this section.

(b) The base tuition revenue amount per unit of average daily attendance for each fiscal year, the tuition revenue amount per unit of average daily attendance of a junior high student for each fiscal year, and the total tuition to be paid each fiscal year to a high school district to which an elementary district sends junior high school students shall be computed jointly by the high school district superintendent and the county superintendent annually as follows:

(1) For the 1973–74 fiscal year only, they shall add the total of all payment received by the high school district in the 1972–73 fiscal year pursuant to Sections 5605, 5605.5, and 20808.5, exclusive of funds received pursuant to Public Law 81-874, and any funds budgeted and expended in the 1972–73 fiscal year from restricted reserves derived under Section 20808.5. The total so determined shall be divided by the average daily attendance for the second period of attendance for the 1972–73 fiscal year for the junior high schools maintained by the high school district and shall be the base tuition revenue amount per

average daily attendance for junior high school operation for the high school district.

(2) For the 1973–74 fiscal year, they shall divide the base tuition revenue amount per average daily attendance determined in paragraph (1) into one thousand thirty dollars ($1,030). If the result is greater than one, it shall be deemed to be one. The quotient so determined shall be multiplied by seventy dollars ($70) per unit of average daily attendance. The product so determined shall be added to the base tuition revenue amount per average daily attendance determined according to paragraph (1) and the sum shall be the tuition revenue limit per average daily attendance for the 1973–74 fiscal year for that high school district.

For the 1974–75 fiscal year and each fiscal year thereafter they shall divide the tuition revenue limit per average daily attendance for the prior fiscal year computed according to this subdivision into the appropriate foundation amount set according to subdivision (c) of Section 20905. If the result is more than one it shall be deemed to be one. The quotient so determined shall be multiplied by the inflation adjustment amount per average daily attendance for foundation programs determined pursuant to subdivisions (d) and (e) of Section 20905 and the result added to the tuition revenue limit per average daily attendance for the prior fiscal year. The sum shall be the tuition revenue limit per average daily attendance for the then current fiscal year.

(3) The sum computed pursuant to paragraph (2) for any fiscal year shall be multiplied by the estimated foundation program unit of average daily attendance in the second principal apportionment of the junior high schools of the high school district for that current fiscal year. The product shall be the total tuition revenue limit that the high school district may receive in that current fiscal year from the elementary districts sending students to a junior high school maintained by such high school district.

(4) From the total tuition revenue limit computed pursuant to paragraph (3) there shall be subtracted the total of the amounts that would be received by the high school district if each elementary district paid to the high school district the product of the estimated average daily attendance of seventh- and eighth-grade students attending a junior high school maintained by the high school district and the elementary district revenue limit per average daily attendance computed pursuant to Section 20904 or 20905, whichever is applicable, as computed prior to any adjustments in revenue limit for changes in junior high school tuition for that year pursuant to subdivision (g) or subdivision (h). The difference so computed according to this paragraph shall be the residual tuition amount for that current year.

(5) A computational tax rate expressed to four decimal places shall be set jointly by the high school district superintendent and the county superintendent of schools prior to July 15, 1973, in the 1973–74 fiscal year and prior to May 1 each fiscal year thereafter, which, when

multiplied by the product of the attendance ratio and each one hundred dollars ($100) of the assessed valuation of each of the elementary districts will give a sum nearest the total residual tuition amount authorized to be received by the high school district as determined pursuant to paragraph (4).

The "attendance ratio" is the ratio which the average daily attendance of pupils of the elementary school district attending grades 7 and 8 of a junior high school maintained by the high school district bears to the total average daily attendance of the elementary school district, including such pupils in grades 7 and 8, during the current fiscal year.

The total amount so computed for each elementary district pursuant to paragraph (4) shall be divided by the estimated average daily attendance of seventh- and eighth-grade students from the elementary school district which are estimated to attend a junior high school maintained by the high school district in that year and the result shall be the residual tuition amount per average daily attendance for that fiscal year for that elementary school district.

(6) For each elementary school district, the tuition payments paid to the high school district in 1972–73 under Sections 5605 and 5605.5 shall be added to the tax revenue derived by the high school district under Section 20808.5 from the assessed valuation of that elementary school district. The sum shall be divided by the average daily attendance of seventh- and eighth-grade students from the elementary school district attending a junior high school maintained by the high school district in the 1972–73 fiscal year. The result shall be increased by the sum of the amount spent per unit of average daily attendance for junior high school programs in the 1972–73 fiscal year from restricted reserves derived under Section 20808.5 and the inflation adjustment computed pursuant to paragraph (2), and shall be the comparison junior high school payment for the 1973–74 fiscal year.

(c) An elementary school district whose seventh- and eighth-grade pupils are entering junior high school and for which no tuition limit can be determined pursuant to subdivision (b) shall pay a tuition agreed upon between the high school district and the elementary school district, which shall be no less than the revenue limit per unit of average daily attendance of the elementary school district for that year.

(d) Each elementary school district sending students to a junior high school maintained by a high school district shall be billed by the county superintendent of schools, and shall pay to the high school district as tuition, an amount computed as follows:

(1) For the 1973–74 fiscal year, the sum of the revenue limit per unit of average daily attendance determined from the amount computed pursuant to subdivision (i) of Section 20904, but without any adjustments for changes in junior high school tuition payment for that year pursuant to subdivision (h), and the residual tuition amount per average daily attendance for the 1973–74 fiscal year, shall

be adjusted by one-half the difference between that sum and the comparison tuition amount per average daily attendance for the 1973–74 fiscal year computed pursuant to paragraph (6) of subdivision (b). The result shall be multiplied by the estimated average daily attendance for the 1973–74 fiscal year of seventh- and eighth-grade students attending a junior high school maintained by the high school district.

The product shall be the total tuition paid by the elementary district to the high school district as tuition for junior high attendance for the 1973–74 fiscal year.

In no case shall the tuition per unit of average daily attendance paid to the high school district be less than the local revenue limit per unit of average daily attendance of the elementary school district determined from the amount computed according to subdivision (i) of Section 20904 prior to adjustments for changes in junior high school tuition payments for that current year.

(2) For the 1974–75 fiscal year, and for each fiscal year thereafter, the sum of the revenue limit per unit of average daily attendance as computed pursuant to Section 20905 prior to any adjustments for changes in junior high tuition for that year pursuant to subdivision (h), and the residual tuition amount per average daily attendance for that current year, shall be multiplied by the estimated average daily attendance for the 1973–74 fiscal year of seventh- and eighth-grade students attending a junior high school maintained by the high school district.

The product shall be the total tuition paid by the elementary school district to the high school district as tuition for junior high school attendance for that current fiscal year.

In no case shall the tuition per unit of average daily attendance paid to the high school district be less than the revenue limit per unit of average daily attendance of the elementary district computed according to Section 20905 prior to adjustments for changes in junior high school tuition payment for that current year.

(e) In computing the sum of the tax rates pursuant to Section 20904, Section 20808.5 shall be considered a rate upon the elementary district taxes and not on the high school district. Such tax shall be increased or decreased in direct proportion to the increase or decrease in junior high school tuition derived by the difference between that sum to be paid and the comparison tuition amount per average daily attendance for the 1973–74 fiscal year computed pursuant to paragraph (6) of subdivision (b) of this section.

(f) In addition to the adjustments required by subdivision (h) of Section 20904 and subdivision (i) of Section 20905, the amount determined for any elementary district pursuant to subdivision (g) of Section 20904 and subdivision (h) of Section 20905 shall also be adjusted by the amount of any increase or decrease in tuition pursuant to this section after adjustment of the increase or decrease by 85 percent of any amount resulting from a change in the attendance ratio specified in paragraph (1) of subdivision (d).

(g) For high school districts maintaining a junior high school system which is attended by seventh- or eighth-grade students from an elementary district pursuant to this section, the foundation program amount used as the dividend for computing the annual allowed adjustment in the tuition revenue limit per unit of average daily attendance pursuant to paragraph (2) of subdivision (b) of this section shall be the average of the foundation amount set annually for elementary districts having an average daily attendance of 901 or more and high school districts having an average daily attendance of 301 or more.

SEC. 65.5. It is the intent of the Legislature that the areawide tax which was unintentionally repealed by Chapter 1406 of the Statutes of 1972 and which is reenacted by this bill be applicable for the 1973–74 fiscal year. Such levy is vital to prevent severe hardships in many school districts throughout the state.

SEC. 65.9. If Assembly Bill No. 99 of the 1973–74 Regular Session of the Legislature is chaptered prior to this act, Section 14 of this act shall not become operative.

SEC. 66. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that remedial and technical changes made by this act may be applicable to the 1973–74 fiscal year and that certain other changes may be operative on June 1, 1973, when the sales and use tax rates are scheduled to be increased, it is necessary that this act take effect immediately.

CHAPTER 209

An act to amend Sections 17303.5, 17666.2, 17666.3, 17651, 17702, 17851, 17906.2, 17951, 20902, 25505.8, and 25541.5 of, to add Sections 11475.5, 17301.1, 17702.5, 17953, 17954, and 20803 to, and Chapter 3.7 (commencing with Section 20932) to Division 16 of, and to repeal Section 20803 of, the Education Code, relating to financial support for public education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 11, 1973 Filed with Secretary of State July 11, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 11475.5 is added to the Education Code, to read:

11475.5. The Board of Governors of the California Community Colleges shall, with the approval of the Department of Finance, determine two census weeks for each term of the regular academic

year, and a single census week for summer sessions.

The Board of Governors, after appropriate study, shall develop a drop date for reporting students in active attendance which shall be no later than the day prior to the beginning of the second census week in regular academic terms; and such census weeks shall be used for all apportionment purposes for the fiscal year beginning July 1, 1975, and subsequent fiscal years.

In its study, the Board of Governors shall consider the needs of students, most particularly those who are unable to complete a term due to illness or other extenuating circumstances, while at the same time making the drop date meaningful to the measurement of average daily attendance.

In implementing the intent of this section, the Board of Governors shall insure that local governing boards maintain sufficient administrative flexibility to provide adequately for the academic needs of students.

The Board of Governors of the California Community Colleges, in cooperation with the Department of Finance, shall develop factors reflecting the relationship of actual attendance to contact hours of enrollment for the census week or weeks. The Board of Governors, during the 1973–74 and 1974–75 fiscal years, shall collect data necessary to the establishment of such census week or weeks and drop date.

Beginning with the fiscal year 1975–76, the new census week or weeks and factors shall be used for all computations of state apportionment in lieu of those prescribed in Section 11475. In the event it is determined by the Board of Governors and the Department of Finance that this new procedure cannot be wholly implemented in the 1975–76 fiscal year, provision shall be made by joint determination for a phase-in period of no longer than three years.

The chancellor's office shall study and test the validity of such factors in the 1976–77 fiscal year, and periodically thereafter, and the board of governors may make such adjustments as are necessary and as are agreed to by the Department of Finance.

SEC. 6. Section 17301.1 is added to the Education Code, to read:

17301.1 (a) The Controller shall also transfer from the General Fund to the State School Fund the sum of seventeen dollars ($17) per unit of average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, community college, and adult schools in the state, and to the county school tuition funds.

(b) The Controller shall also transfer an amount sufficient to increase the foundation program for other than adults, as defined, in community colleges by sixty dollars ($60) for the 1974–75 fiscal year, by sixty-three dollars ($63) for the 1975–76 fiscal year, and by sixty-six dollars ($66) for the 1976–77 fiscal year and each succeeding fiscal year thereafter, unless revised by the Legislature prior to July 1, 1977.

(c) The Controller shall also transfer an amount sufficient to

increase the foundation program for adults, as adults are defined in Section 5756, in community colleges by 7 percent for the 1974–75, 1975–76, and 1976–77 fiscal years, and by 6 percent for the 1977–78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

The Superintendent of Public Instruction shall adjust the foundation program levels prescribed for community college districts in order to reflect the adjustments made pursuant to this subdivision.

SEC. 7. Section 17303.5 of the Education Code is amended to read:

17303.5. The amount transferred pursuant to subdivision (b) of Section 17301 shall be expended in accordance with the following schedule:

(a) Twenty-one dollars and fifty cents ($21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance, but not to exceed an amount equal to seventy cents ($0.70) multiplied by the average daily attendance credited during the preceding fiscal year to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds, for allowance to county school service funds pursuant to subdivision (a) of Section 18352.

(b) Four dollars and forty cents ($4.40) multiplied by the total average daily attendance credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds during the preceding school year for the purposes of Article 10 (commencing with Section 18051) of Chapter 3 of this division.

(c) Nineteen dollars and fifty-two cents ($19.52) multiplied by the total average daily attendance credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds during the preceding school year, for the purposes of Sections 18060 and 18062, and Article 11 (commencing with Section 18101) of Chapter 3 of this division.

(d) Three dollars and six cents ($3.06) multiplied by the total average daily attendance credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds during the preceding school year for allowances to county school service funds pursuant to subdivision (b) of Section 18352.

(e) One dollar and sixty-seven cents ($1.67) multiplied by the average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds for

allowances to school districts for the purposes of Section 6426.

(f) One hundred eighty-four dollars and forty-one cents ($184.41) multiplied by the average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds during the preceding school year for basic aid, equalization aid, allowances for adults, and allowances to the county school tuition funds to be apportioned on account of average daily attendance. The amount expended pursuant to this subdivision shall be annually revised to reflect the adjustment prescribed by subdivision (e) of Section 17301.

(g) Eight dollars and sixty-five cents ($8.65) multiplied by the average daily attendance during the preceding school year credited to all kindergarten, elementary, high school, community college and adult schools in the state and to county school tuition funds for purposes of Chapter 7.1 (commencing with Section 6750) of Division 6.

(h) Thirty-one cents ($0.31) multiplied by the average daily attendance during the preceding school year credited to all kindergarten, elementary, high school, community college, and adult schools in the state and to county school tuition funds for the purposes of Article 12 (commencing with Section 18151) of this chapter.

SEC. 7.5. Section 17651 of the Education Code is amended to read:

17651. The Superintendent of Public Instruction shall compute for each elementary, high school, and community college district the appropriate amount of a foundation program of school support therefor, in the manner prescribed by this article, using the dollar amounts contained in the various sections of this article which apply.

SEC. 8. Section 17666.2 of the Education Code is amended to read:

17666.2. (a) Except for a community college district which qualifies under subdivision (b), for each community college district, he shall multiply the number of units of average daily attendance, during the fiscal year, in grades 13 and 14 computed for the district under Sections 11475 and 11501, subject to the provisions of Section 17611, by one thousand twenty dollars ($1,020) for the 1973–74 fiscal year, by one thousand eighty dollars ($1,080) for the 1974–75 fiscal year, by one thousand one hundred forty-three dollars ($1,143) for the 1975–76 fiscal year, by one thousand two hundred nine dollars ($1,209) for the 1976–77 fiscal year, and by an amount cumulatively increased by sixty-six dollars ($66) for each succeeding fiscal year thereafter, unless revised by the Legislature prior to July 1, 1977.

(b) For each community college district which has an average daily attendance of less than 1,001 and qualifies as a necessary small community college district as defined in Section 17666.3, the Superintendent of Public Instruction shall make one of the following computations selected with regard only to the number of certificated

employees employed or average daily attendance, whichever provides the lesser amount.

Average daily attendance	Minimum number of full-time certificated employees	Amount to be computed in each fiscal year 1973–74	1974–75	1975–76	1976–77

(c) For purposes of this section and Section 17851, the average daily attendance of a community college district shall, subject to the provisions of Section 17611, be computed in the manner prescribed by Sections 11475 and 11501, except that there shall be excluded from the computation the attendance of all students deemed "nonresident" as defined in Section 22813.

The Superintendent of Public Instruction shall exclude from the computation provided by this section the average daily attendance during the fiscal year of adults, as adults are defined in Section 5756, and of inmates of any state institution for adults or of any city, county, or city and county jail, road camp, or farm for adults.

(d) For subsequent years, he shall adjust cumulatively the dollar amounts given in the preceding subdivision by the index determined pursuant to subdivision (g) of Section 17301. Any reference to this section for any subsequent year shall be deemed to include reference to such adjusted dollar amounts.

SEC. 9. Section 17666.3 of the Education Code is amended to read:

17666.3. For the purposes of Section 17666.2, a necessary small community college district is a community college district with an average daily attendance of less than 1,001 during the fiscal year, and which comes within the following conditions:

(a) The projection of the average daily attendance, as used and defined in Section 17666.2, for the district for the next three immediately succeeding fiscal years shall not exceed 1,001.

(b) Any one of the following conditions applies:

(1) One campus of the community college district is more than 30 miles by a well-traveled road from the nearest other public community college; and either 90 percent of the students, exclusive of adults as defined in Section 5756, would be required to travel 20 miles, or 25 percent of the students, exclusive of adults as defined in

Section 5756, would be required to travel 30 miles one way from a point on a well-traveled road to the nearest other public community college.

(2) The conditions under paragraph (1) of this subdivision do not apply, but on annual application of the district the State Board of Education has determined for the fiscal year that the district is located in an area sufficiently remote so as to necessitate local current expenditures significantly higher than statewide average current expenditures for community colleges.

SEC. 14. Section 17702 of the Education Code is amended to read:

17702. The Superintendent of Public Instruction shall compute for each district described herein which does not come within the provisions of Section 17702.2 the amount, to be known as district aid, which a tax levied on each one hundred dollars ($100) of 100 percent of the assessed valuation in such district as shown by the equalized assessment roll of the district for the current year, as modified pursuant to Section 17262, would produce if levied, if such tax was:

(a) Two dollars and twenty-three cents ($2.23) in an elementary school district.

(b) One dollar and sixty-four cents ($1.64) in a high school district.

(c) Thirty-nine cents ($0.39) in a community college district.

SEC. 15. Section 17702.5 is added to the Education Code, to read:

17702.5. The Superintendent of Public Instruction shall compute for each community college district which does not come within the provisions of Section 17702.2 the amount, to be known as district aid, which a tax levied on each one hundred dollars ($100) of 100 percent of the assessed valuation in such district as shown by the equalized assessment roll of the district for the current year, as modified pursuant to Section 17262, would produce if levied, if such tax was thirty-nine cents ($0.39) in a community college district.

All references to Section 17702 shall be deemed to be this section as well.

SEC. 16. Section 17851 of the Education Code is amended to read:

17851. The Superintendent of Public Instruction shall allow to each community college district one hundred twenty-five dollars ($125) for each unit of average daily attendance in grades 13 and 14.

Average daily attendance for the purpose of this section shall be computed under Sections 11475 and 11501, subject to the provisions of Sections 17611 and 17666.2.

The Superintendent of Public Instruction shall exclude from the computation of allowances provided by this section the average daily attendance of nonresident students, adults as defined in Section 5756, and of inmates of any state institution for adults or of any city, county, or city and county jail, road camp or farm for adults.

SEC. 17. Section 17906.2 of the Education Code is amended to read:

17906.2. No state equalization aid shall be allowed unless there shall have been levied pursuant to this code, for a district during the fiscal year, a tax, exclusive of taxes levied under Sections 1822.2, 1825,

6880.16, 16750, 19443, 19619, 20801, and 22101, of not less than one dollar ($1) if an elementary district, eighty cents ($0.80) if a high school district, and one dollar and eighty cents ($1.80) if a unified district, and thirty-five cents ($0.35) if a community college district.

SEC. 18. Section 17951 of the Education Code is amended to read:

17951. The allowance for each unit of average daily attendance during the fiscal year for adults, as adults are defined in Section 5756, shall be as follows:

(a) For high school districts the allowance shall be three hundred eighty-six dollars ($386) less the product of fifty cents ($0.50) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 17262, per unit of average daily attendance exclusive of adults.

(b) For each unit of average daily attendance attached to a community college the allowance shall be five hundred fifty-six dollars ($556) less the product of twenty-four cents ($0.24) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 17262, per unit of average daily attendance exclusive of adults. The allowance for each unit of average daily attendance attached to a community college shall be increased by 7 percent for the 1974–75, 1975–76, and 1976–77 fiscal years and by 6 percent for the 1977–78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

The allowance provided by this section for each unit of average daily attendance of an adult, as an adult is defined in Section 5756, not residing in the district and not residing in any district maintaining a community college shall be limited to one hundred twenty-five dollars ($125) as basic state aid and no allowance shall be made based on state equalization aid. The total of basic and equalization aid allowed each district shall not be less than one hundred twenty-five dollars ($125) for each unit of average daily attendance during the fiscal year for resident adults, exclusive of average daily attendance in classes for inmates of any state institution for adults and for inmates of any city, county, or city and county jail, road camp or farm for adults; unless the inmate is attending a community college class or program pursuant to Section 2690 of the Penal Code, in which case such attendance shall be included.

SEC. 18.5. Section 17953 is added to the Education Code, to read:

17953. The assessed valuation referred to in Section 17951 shall be modified pursuant to Section 17262.

SEC. 18.7. Section 17954 is added to the Education Code, to read:

17954. The allowance for each unit of average daily attendance in a community college district specified in Section 17951 shall be increased by 7 percent for the 1974–75, 1975–76, and 1976–77 fiscal years and by 6 percent for the 1977–78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

SEC. 19. Section 20803 of the Education Code is repealed.

SEC. 20. Section 20803 is added to the Education Code, to read:

20803. Effective September 4, 1973, and thereafter, any revenue limit per unit of average daily attendance for any community college district may be increased and, having been increased, may be decreased, by an amount equal to or less than the amount of such increase, by a majority vote of the qualified electors of the district at an election which may be ordered by the governing board of the community college district of its own motion and shall be ordered within 90 days after the filing with the governing board of a petition signed by not less than 10 percent of the registered voters of the district, requesting that an election be ordered, unless the petitioners request that the election be consolidated with the annual election for members of the governing board, or that the election be consolidated with the general election.

The governing board shall determine whether the increase or decrease shall remain in effect for a specified or unspecified period of time, unless the petition filed by the electors provides for a specified or unspecified period of time. If a specified period is provided for in the petition or determined upon by the governing board, such period shall be stated on the ballot.

Pursuant to the order of the governing board, the election shall be called, held, and conducted as nearly as is practicable in accordance with the provisions of Chapter 6 (commencing with Section 1301) of Division 4.

The specification of the election order shall contain the information provided in Section 1323 and shall be furnished by the governing board of the district for all revenue limit increase or decrease elections ordered by it.

The costs incurred by the county clerk or registrar of voters and the county superintendent of schools in connection with this section shall be paid out of the funds of the district.

Except as otherwise herein provided, the ballot used in the election shall contain substantially the words "Shall there be authorized an (increase, decrease) of the revenue limit per unit of average daily attendance from _____ dollars ($_____) to _____ dollars ($_____), such (increase, decrease) to be effective in the _____ Community College District for the (school year 19__, only, years 19__, to 19__, years commencing 19__) the revenues of which are to be used for _____?

"The estimated (increase, decrease) of the revenue limit will result in an (increase, decrease) to the tax rate of the _____ Community College District in the first year from _____ dollars ($_____) to _____ dollars ($_____) for each one hundred dollars ($100) of assessed valuation of property." Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word. If, at any prior election held in the district, after the effective date of this section, the revenue limit of the district had been increased for a specified period of time, and if the election is called for the purpose of continuing in effect the previously authorized increase in the revenue limit per

unit of average daily attendance of the district, the ballot shall contain substantially the words "Shall the existing revenue limit increase of _____ dollars ($_____) per unit of average daily attendance be continued in the _____ community college district for the school years 19__ to 19__, the revenues of which are to be used for _____?" Opposite such words in separate lines, the words "Yes" and "No" shall be printed with a voting square opposite each such word. Each voter shall stamp a cross in the voting square after the answer he desires to give.

Whenever the revenue limit per unit of average daily attendance of a district is increased for either a specified or unspecified period of time and during such period an election is called for the purpose of further increasing the revenue limit per unit of average daily attendance of the district, the ballot used in the election shall show only the authorized revenue limit increase per unit of average daily attendance of the district in effect at the time of the election and the proposed revenue limit increase per unit of average daily attendance.

If an election for a decrease in an increased revenue limit of a district is held in any year prior to or concurrently with the district election for governing board members, any decrease adopted at such election shall become effective on July 1 following the election. If an election for a decrease in a revenue limit of a district is held in any year after the date of the district election for governing board members, any decrease adopted at such election shall not become effective until July 1 of the next succeeding year.

SEC. 21. Section 20902 of the Education Code is amended to read:

20902. Notwithstanding any other provisions of law, for the 1973–74 fiscal year, and fiscal years thereafter, the maximum tax rate for school districts other than community college districts shall be as provided in this article.

SEC. 22. Chapter 3.7 (commencing with Section 20932) is added to Division 16 of the Education Code, to read:

CHAPTER 3.7. PROPERTY TAX REVENUE CONTROL FOR COMMUNITY COLLEGE DISTRICTS

20932. For the 1973–74 fiscal year and fiscal years thereafter, the maximum tax rate for community college districts shall be as provided in this article.

20933. Commencing on July 1, 1973, the maximum tax rate of any community college district shall be the rate computed pursuant to this chapter. In addition, each such district may levy taxes as authorized in Sections 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, and 25541.5 of the Education Code and Section 5302.5 of the Streets and Highways Code. Any other provision of law fixing the maximum district tax rate for a community college district or authorizing the levy and collection of taxes for any other purpose is hereby superseded and declared inoperative to such districts.

20934. For the purposes of this section, the unused portion of a voted override shall be determined as the difference between the total of the maximum tax rate approved by an election pursuant to Section 20803 added to the actual tax rates levied, in the same fiscal year during which the election was held, for all other purposes except pursuant to Sections 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, and 25541.5 (except that portion levied for interdistrict attendance tuition agreements) of the Education Code and Section 5302.5 of the Streets and Highways Code and the actual tax levied for the 1972–73 fiscal year, exclusive of the tax rates levied pursuant to Sections 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, and 25541.5 (except that portion levied for interdistrict attendance tuition agreements) of the Education Code and Section 5302.5 of the Streets and Highways Code.

For the purposes of this section, the assessed valuation used in computing revenue limits and the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

(a) For the 1973–74 fiscal year only, the county superintendent of schools shall compute for each community college district in the county an amount equal to the sum of (1) the district's 1972–73 fiscal year tax rate plus the unlevied portion of any voted override and any special tax rate authorized as part of a district formation agreement, but exclusive of taxes provided in Section 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, or 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code, multiplied by the assessed valuation on the secured roll of the district for the 1972–73 fiscal year, and the district's 1971–72 fiscal year tax rate, plus the unlevied portion of any voted override, but exclusive of taxes provided in Section 1905, 15517, 15518, 16633, 19443, 19619, 20755, 20801, 22101, or 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code, multiplied by the assessed valuation on the unsecured roll of the district for the 1972–73 fiscal year, (2) 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972, (3) the total amount of basic state aid, equalization aid, and inflation cost adjustment which the districts received pursuant to the provisions of this code and the Budget Act of 1972 as computed by the Superintendent of Public Instruction, and (4) the amount of income from the equalization offset tax pursuant to Section 17263.1.

To the base revenue determined in this subdivision shall be added an amount of unrestricted balances used to fund expenditures; such amount shall be the average of the unrestricted balances used to fund

expenditures during 1971–72 and 1972–73, but shall not exceed an amount equal to the proceeds of a tax at the rate of five cents ($0.05) on each one hundred dollars ($100) of the assessed valuation of the district.

For purposes of this section, the unrestricted balance shall be determined as the difference between the ending balance, less restricted amounts, plus transfers of unrestricted amounts to other funds which remain as ending balances in other funds, and the beginning balance, less restricted amounts, in the general fund for the 1972–73 fiscal year.

(b) The amount computed in subdivision (a) shall be divided by the foundation program average daily attendance in the second principal apportionment and shall be the 1972–73 base revenue per unit of average daily attendance.

(c) The 1972–73 fiscal year base revenue per unit of average daily attendance for each community college district shall be divided into one thousand one hundred sixty-five dollars ($1,165). If the result is greater than one it shall be deemed to be one.

(d) The quotient determined pursuant to subdivision (c) shall be multiplied by eighty-eight dollars ($88) per unit of average daily attendance.

(e) The product determined pursuant to subdivision (d) shall be added to the base revenue per unit of average daily attendance determined pursuant to subdivision (b) and multiplied by the estimated foundation program units of average daily attendance of the second principal apportionment of the community college district for the 1973–74 fiscal year. Average daily attendance for purposes of this subdivision shall include adult and other-than-adult resident students, but shall exclude the average daily attendance of nonresident students, nondistrict residents, and residents of other districts.

(f) The amount computed pursuant to subdivision (e) shall be compared with the sum of the amounts computed for the district pursuant to Sections 17666.2 and 17951. The larger of the amounts shall be the revenue limit of the district for the 1973–74 fiscal year but shall not exceed 115 percent of the 1972–73 base revenue per unit of average daily attendance multiplied by the 1973–74 estimated foundation program average daily attendance, excluding residents of other districts and nonresident students. If the 115 percent does not provide an increase amounting to at least eighty-eight dollars ($88) above the 1972–73 base revenue per unit of average daily attendance, then the revenue limit shall be the amount which will provide an increase equal to eighty-eight dollars ($88) above the 1972–73 base revenue per unit of average daily attendance.

Notwithstanding subdivision (f), if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase

the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the 1972–73 fiscal year and the estimated Public Law 81-874 income per foundation program average daily attendance of the 1973–74 fiscal year, if any, multiplied by the estimated foundation program average daily attendance of the 1973–74 fiscal year. Such increased revenue limit shall not exceed the foundation program of the 1973–74 fiscal year.

(g) From the revenue limit ascertained from the comparison made pursuant to subdivision (f), there shall be subtracted the total amount of state basic aid and state equalization aid to be received by the district during the 1973–74 fiscal year, as adjusted by repayment of any advances made pursuant to Section 14701.5 and the amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(h) The amount determined pursuant to subdivision (g) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 14100. Such adjustment, together with any rate levied in 1972–73 pursuant to Section 14111, shall not exceed the revenue derived by the tax rate provided in Section 14111.

(i) The amount computed pursuant to subdivision (h) shall be the local revenue limit of the district for the 1973–74 fiscal year. From the local revenue limit, there shall be subtracted 32½ percent of the residual retirement reserve transferred under Chapter 117 of the Statutes of 1972.

(j) From the amount computed in subdivision (i), there shall be subtracted, (1) the amount of money collected or to be collected as taxes on property on the unsecured roll of the 1973–74 fiscal year, excluding the amounts collected through the levy of taxes provided in Sections 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, and 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code, and (2) the income from prior years taxes.

(k) The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, or 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (f) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below thirty-five cents ($0.35).

20934.5. Any voted increase in the maximum tax rate, to be effective commencing with the 1973–74 fiscal year, which does not have a termination date shall be added to the 1972–73 and 1971–72 tax rates used to determine the 1972–73 base revenue per unit of average daily attendance.

Any voted increase in the maximum tax rate, to be effective commencing with the 1973–74 fiscal year, which does have a termination date shall be multiplied by the total estimated assessed valuation for 1973–74, and the result divided by the estimated foundation program average daily attendance of the second principal apportionment for 1973–74. This override tax revenue per average daily attendance shall be added to the revenue per average daily attendance for 1973–74 prior to the computation of the revenue limit of the district for 1973–74 pursuant to subdivision (f) of Section 20934. For the computation of the revenue limit of the district for the year immediately following the last year of authorization of the voted override, the amount of this increase as it actually affected the revenue limit shall not be included.

20935. (a) For the 1974–75 fiscal year and each fiscal year thereafter, the maximum general purpose tax rate shall be computed pursuant to this section by the county superintendent of schools for each community college district in the county.

(b) The foundation program for 1974–75 fiscal years and subsequent fiscal years is as prescribed in Sections 17666.2 and 17951.

(c) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate inflated foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than 1, it shall be deemed to be 1.

(d) The foundation program per unit of average daily attendance for the prior year used as the dividend in subdivision (c) shall be as specified pursuant to Section 17666.2 for the appropriate fiscal year.

(e) For the fiscal years 1974–75, 1975–76, 1976–77, and fiscal years thereafter, the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year shall be determined for each district in accordance with Section 17666.2.

(f) The amount determined pursuant to subdivision (e) shall be multiplied by the quotient determined pursuant to subdivision (c). The resultant amount shall constitute the revenue limit inflation adjustment of the district.

(g) The revenue limit inflation adjustment for a district shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district. The sum shall be multiplied by the estimated foundation program units of average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

The average daily attendance for purposes of this subdivision shall include adults and other-than-adults resident students, but shall

exclude residents of other districts, nondistrict residents, and nonresident students.

(h) Any district which has a revenue limit computed pursuant to subdivision (g) which is less than the foundation program computed for the budget year may increase its revenue limit computed pursuant to subdivision (g) to the lesser of the foundation program level of the district or the prior year revenue limit increased by 15 percent.

Notwithstanding the preceding paragraph if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the budget year foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(i) From the amount computed pursuant to subdivision (g) or (h), there shall be subtracted the basic and equalization aid to be received for the budget year and the amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(j) The amount determined pursuant to subdivision (i) shall be adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 14100. Such adjustment, together with any rate levied in any prior year pursuant to Section 14111, shall not exceed the revenue derived by the tax rate provided in Section 14111. The adjusted amount shall be the local revenue limit of the district for the budget year.

(k) From the amount computed pursuant to subdivision (j), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, or 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code.

(*l*) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (k) shall be

divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 1905, 15517, 15518, 16750, 19443, 19619, 20755, 20801, 22101, or 25541.5 (except that portion levied for interdistrict attendance tuition agreements pursuant to that section) of the Education Code and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (h) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below thirty-five cents ($0.35).

20935.1. Commencing September 4, 1973, the revenue limit prescribed by Section 20905 may be exceeded upon approval of a majority of the electors of the district voting on a proposition to that effect pursuant to Section 20803. Such approval may be granted for any period of time, and shall be added to the budget year revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (h) of Section 20935 in computing the maximum general purpose tax rate for each year in which the voted revenue limit increase is effective.

For the fiscal year following the last year in which the voted revenue limit increase is authorized, the amount of the voted revenue limit increase as it actually affected the revenue limit shall be subtracted from the revenue limit per foundation program unit of average daily attendance of the district as determined in subdivision (h) of Section 20935.

20935.2. The unexpended proceeds of any permissive tax rate, the authorization for the levy and collection of which has been made inoperative by this article, shall be transferred to the general fund of the district on July 1, 1973. The consolidation of all tax rates previously permitted and now included to the extent needed within the total general fund rate does not preclude districts from expending funds for the purposes normally supported by such permissive restricted overrides in prior years.

20936. New community college districts without an operating tax rate for 1972–73 shall develop a base revenue figure for 1973–74, subject to approval of the Chancellor's office and the Department of Finance. This base revenue shall include payment of any obligation incurred under the terms of interdistrict attendance agreements during that year. The 1973–74 base revenue amount shall be based on data from districts which are comparable on such factors as population density, projected assessed valuation per average daily attendance, enrollment and enrollment projections, and socioeconomic composition of the district. After 1973–74, the procedure for determining annual adjustments to the base revenue for such districts shall be the same as that for all other districts.

20936.5. Whenever the computations required by Sections 20934

and 20935 result, because of estimating errors, in a total revenue limit in an amount more or less than actual data would have produced for a community college district, the district's revenue limit for the succeeding fiscal year shall be reduced a like amount if the total produced was more, and shall be increased by such an amount if the total produced was less.

20937. Any proposal for the formation of a new community college district after July 1, 1973, shall include a base revenue estimate for the first full year of district operation. This base revenue estimate shall be an inherent part of the proposition at the election for the adoption or rejection of the plans and recommendations for the formation of the new community college district.

20938. (a) A community college district may add in Sections 20934 and 20935 for purposes of increasing its revenue limit for the budget year when it is anticipated that the second principal apportionment units of average daily attendance, excluding summer sessions and adults as defined in Section 5756, will be less than those of the preceding year, an estimated number of units of average daily attendance determined as follows:

(1) When such reduction is less than 1 percent, no adjustment.

(2) When such reduction is more than 1 percent but less than 2 percent, the allowable estimated units of average daily attendance shall be the actual estimated units of average daily attendance increased by the fraction of a percent by which the percentage reduction of estimated units of average daily attendance exceeds 1 percent reduction.

(3) When such percentage estimated reduction is more than 2 percent, the allowable estimated units of average daily attendance shall be the actual estimated units of average daily attendance increased by half of the estimated numerical percentage reduction anticipated.

(b) This adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit of the district in the subsequent year which otherwise would be required pursuant to Section 20936.5. However, to the extent that actual data differ from the estimated units of average daily attendance used in this section, Section 20936.5 shall apply.

20939. The maximum tax rate authorized for the Yuba College District during the 1974–75 fiscal year may be increased by an amount sufficient to provide for residence hall expenditures committed prior to June 30, 1973, and arising from the annexation or prospective annexation of territories under the jurisdiction of the superintendents of schools for Lake and Sierra Counties.

SEC. 23. Section 25505.8 of the Education Code is amended to read:

25505.8. A district may admit and shall charge a tuition fee to nonresident students. The district may exempt from all or parts of the fee nonresidents who (a) enroll for six units or less or (b) are both citizens and residents of a foreign country. Any exemptions shall be

made with regard to all nonresidents described in (a) or (b), and shall not be made on an individual basis.

A district may, with the approval of the Board of Governors of the California Community Colleges contract with a state, the federal government, a foreign country, or an agency thereof, for payment of all or a part of a nonresident student's tuition fee.

The nonresident tuition fee shall be paid in two equal installments at the beginning of each semester, or three equal installments at the beginning of each quarter and shall be set by the governing board of each community college district not later than January 1st of each year. The fee shall represent the amount per student enrolled in the district, which is expended by the district for the current costs of education as defined by the California Accounting Manual for students enrolled in grades 13 and 14.

Each governing board shall compute the amount per student enrolled in the district.

The amount per student enrolled shall be derived by dividing the current costs expended from funds from all sources during the preceding year by the average daily attendance during the same year in grades 13 and 14. The same fee shall be charged irrespective of the type of class in which the student is enrolled.

The governing board of each community college district shall also adopt a per-unit tuition fee for nonresidents on less than a full-time basis by dividing the fee for full-time nonresidents by 30 (units). The same per-unit rate shall be charged all nonresident students attending any summer sessions maintained by the community college. The rate charged shall be the rate established for the fiscal year in which the summer session ends.

A district shall report annually to the Board of Governors of the California Community Colleges the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

The provisions of this section which require a mandatory fee for nonresidents shall not apply to any district in which during the school year 1962–63 more than 15 percent of the students enrolled were residents of another state; except that the provisions of this section shall apply to such districts beginning with the school year 1975–1976 and except that the provisions of this section which require annual reports to be filed with the Board of Governors of the California Community Colleges on the number of such students enrolled shall apply to such districts in the same manner as to any other district.

SEC. 24. Section 25541.5 of the Education Code is amended to read:

25541.5. The maximum rate of tax of any community college district is hereby increased by such amount as will produce the amount proposed to be expended by the district pursuant to any lease agreement for plant and equipment as shown by the budget as finally adopted by the governing board of the district for the current

fiscal year, less any unencumbered balances remaining at the end of the preceding fiscal year derived from the increase in the rate of tax provided by this section. A district shall not expend any of the revenue for costs incurred under a joint-powers agreement between two community college districts or between a community college district and another district or a governmental agency consumated after July 1, 1973.

The increase provided by this section shall not exceed the rate of tax levied in the county pursuant to Section 20202 during the fiscal year next preceding the formation of the district for all purposes, or ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of the property within the district, whichever is the greater.

If the district is situated in two or more counties, the increase provided by this section shall not exceed the highest rate of tax levied in any of the counties in which the district is situated pursuant to Section 20202 during the fiscal year next preceding the formation of the district for all purposes, or ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of property within the district, whichever is the greater.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate hereby provided, such balance shall be used exclusively in the following school year for the payment of any obligation incurred under the terms of a lease agreement for such school year.

The increases provided by this section to produce the amounts proposed to be expended pursuant to this section shall remain in effect until the end of the third consecutive fiscal year following the date of the first election at which the first district bond issue for community college purposes is passed, or until the end of any four-year period in which no bond issue is submitted to the voters.

SEC. 25. This act supersedes Item 303 of the Budget Act of 1973. If this act is enacted after July 1, 1973, any apportionments made to community college districts pursuant to Item 303 of the Budget Act of 1973 shall be deducted from the apportionments made under this act.

SEC. 26. The Board of Governors of the California Community Colleges shall submit a report to the Legislature prior to December 1, 1976, showing the most current trends in operating costs for community college districts. The report shall contain information that the Legislature may use to review provisions of this act for the support of community colleges.

For the 1977–78 fiscal year, and fiscal years thereafter, the increases in community college foundation programs shall be as specified in Sections 17666.2 and 17951 of the Education Code, unless changed by the Legislature.

SEC. 27. It is the intent of the Legislature to insure that the substance of Section 17951 of the Education Code, as amended by Section 18 of this act, appear in the code regardless of whether or not Assembly Bill No. 1267 of the 1973–74 Regular Session is chaptered.

Therefore, if Assembly Bill No. 1267 is chaptered after this bill, Sections 17953 and 17954 of the Education Code, as added by Sections 18.5 and 18.7 of this act, shall become operative.

If Assembly Bill No. 1267 is chaptered before this bill, or is not chaptered, then Sections 17953 and 17954 of the Education Code, as added by Sections 18.5 and 18.7 of this act, shall not become operative.

SEC. 28. It is the intent of the Legislature that the tax rate used to compute district aid for community college districts be thirty-nine cents ($0.39) per one hundred dollars ($100) of assessed valuation.

Therefore, if Assembly Bill No. 1267 of the 1973–74 Regular Session is chaptered after this bill, Section 17702.5 of the Education Code, as added by Section 15 of this act, shall become operative.

If Assembly Bill No. 1267 is not chaptered, or is chaptered before this bill, Section 17702.5 of the Education Code, as added by Section 15 of this act, shall not become operative.

SEC. 29. Any additional local programs which are mandated by this act are deemed to be fully funded by the increases in apportionments and allowances prescribed by this act.

SEC. 30. This act shall become operative on July 1, 1973.

SEC. 31. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the constitution and shall go into immediate effect. The facts constituting such necessity are:

The Legislature enacted a comprehensive plan for providing financial support for elementary and high schools at its 1972 Regular Session; that plan being prescribed in Chapter 1406 of the Statutes of 1972. The major portions of the plan are to become operative on July 1, 1973. In order to permit the revision prescribed by this act to become operative on that same date, and so facilitate the orderly and effective administration of school finance in California, it is necessary that this act take effect immediately.

CHAPTER 223

An act to add Section 54921 to the Government Code, and to add Section 16477 to the Public Utilities Code, relating to local government, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 54921 is added to the Government Code, to read:

54921. Notwithstanding Sections 54902 and 54903, any formation of recreation and park districts approved by the voters at elections conducted on or before June 26, 1973, shall be effective for assessment and taxation purposes for the 1973–74 fiscal year if the required statements and map or plat are filed on or before July 15, 1973.

SEC. 2. Section 16477 is added to the Public Utilities Code, to read:

16477. In addition to all other powers authorized by this division, the Kirkwood Meadows Public Utility District may provide snow removal and road maintenance services for public roads within the district. Prior to providing such services, the district shall obtain the consent of the public agency owning such roads. Notwithstanding the provisions of Section 16467, such snow removal or road maintenance services need not be operated on a self-sustaining, revenue-producing basis. Revenue to defray the cost of such snow removal or road maintenance services may be raised in any manner authorized by this division.

This section shall become operative only if the Kirkwood Meadows Public Utility District is incorporated on or before March 1, 1974, in which case it shall become operative on the date of incorporation of that district.

SEC. 3. The Legislature finds and declares that Section 2 of this act is necessary since special facts and circumstances applicable to the proposed Kirkwood Meadows Public Utility District, and not generally applicable, make the accomplishment of this purpose impossible by any general law. The territory proposed for inclusion within this district comprises parts of three counties, is undergoing rapid and extensive development, and the nature of the public services required in the district is peculiar to this situation in that

0 68 36 2 150 290

presently constituted governmental agencies are unable to provide these services. The Legislature further finds and declares that since these special facts and circumstances applicable only to this district are involved, the purpose of this act is impossible to accomplish by any general law, and special legislation applicable only to Kirkwood Meadows Public Utility District is therefore necessary.

SEC. 4. Any local agency electing to file documents pursuant to the provisions of Section 1 of this act shall reimburse any local government for the costs incurred by such local government by reason of the provisions of this act.

SEC. 5. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Kirkwood Meadows Public Utility District will, when incorporated, comprise territory in three counties, and the most practical and economical way to provide snow removal and road maintenance services for residents of this area would be by means of this district. The territory of the proposed district is undergoing extensive and rapid development, and there is a great and urgent need for public services by the people of this area. In order to permit the district to be created as rapidly as possible, it is necessary that this act become effective immediately. Furthermore, in order that certain recreation and park districts may levy taxes for the 1973–74 fiscal year and may provide essential services to the residents of the district at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 224

079 362165 293

Distance provided in this section shall be measured not by air line but by following the shortest road or roads connecting the points in question.

(b) A resolution adopted by a four-fifths vote of the board of directors of the district stating that the district is organized for the principal purpose of providing subsurface drainage systems to lower water tables on district lands, and also stating that the district intends to initiate proceedings to make such a change in the method of financing district operations. The resolution shall also fix a time for

hearing. Notice of the hearing shall be given as provided in Section 42.5.

SEC. 3. Section 42.4 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.4. The secretary of the board of directors shall upon the presentation of a petition pursuant to subdivision (a) of Section 42.3, determine if the signatures thereon comprise at least 10 percent of the qualified voters in the district. If the petition contains the required number of signatures, the secretary shall make a certificate to that effect and present the petition and his certificate to the board of directors.

SEC. 4. Section 42.5 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.5. If the board of directors finds that the petition has been properly presented as required pursuant to Section 42.3, then the board shall fix a time for hearing the petition, which shall not be less than two, nor more than five, weeks from the time of the presentation of the petition. It shall publish a notice of the time and place of the hearing in a newspaper of general circulation published in the county once a week for at least two weeks prior to the date of the hearing. The last publication shall be at least seven days prior to the hearing date. In addition, at least 10 days prior to the hearing a notice of hearing shall be mailed to all holders of title, or evidence of title to lands within the district as shown on the last equalized assessment roll of the county.

SEC. 5. Section 42.6 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.6. At the time of the hearing, or at any time to which it may be adjourned, the board of directors shall hear and consider all competent and relevant testimony or evidence offered in support of, or in opposition to, the proposed change in the method of financing district operations, and shall also consider any written protests filed with the board prior to, or at the time of, the hearing. As part of its proceedings the board shall ascertain and consider the cost of preparing the necessary assessment roll, and shall also determine whether the district is organized for the principal purpose of providing subsurface drainage systems to water tables on district lands.

SEC. 6. Section 42.7 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.7. If, after the hearing the board of directors determines that the public interest or welfare of the district and its inhabitants requires a change in the method of financing district operations from a tax based on assessed value to a uniform assessment based on the area of land, regardless of assessed value, then it shall by resolution adopted by a four-fifths vote of the board of directors, declare its findings, including a specific finding that the district is organized for the principal purpose of providing subsurface drainage systems to lower water tables on district lands, and shall order that thenceforth

the method of financing district operations shall be changed from a tax based on assessed value, as provided in Section 42, to a uniform assessment based on the area of land, regardless of assessed value.

SEC. 7. Section 42.8 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.8. (a) If written protests filed and not withdrawn represent more than 50 percent of the assessed value of the land within the district or more than 50 percent of the persons qualified as voters in the district then the board of directors shall not adopt the resolution authorized pursuant to Section 42.7 and the proceedings shall be abandoned.

(b) If written protests filed and not withdrawn represent more than 25 percent of the assessed value of the land within the district or more than 25 percent of the persons qualified as voters in the district, then the board of directors shall not adopt the resolution authorized pursuant to Section 42.7 unless a special election is first called and the proposal is submitted thereto and approved by the qualified voters of the district. The ballot cast at such an election shall contain the words "Shall the method of financing the district operations be changed from a tax based on assessed value to a uniform assessment based on the area of land regardless of assessed value?" or words equivalent thereto, but no particular form of ballot shall be required. Voting procedure, qualification of voters, and number of votes each shall be entitled to cast shall be governed by the provisions of Sections 7 and 7.5. When the vote is canvassed by the board of directors and entered of record, if a majority of the votes cast shall favor changing the basis of the district tax levy, the board shall thereupon pass a resolution declaring the result of the election and only then adopt the resolution authorized pursuant to Section 42.7.

SEC. 8. Section 42.9 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.9. The secretary of the district shall forthwith forward copies of the resolution adopted pursuant to Section 42.7 to the board of supervisors, the county auditor, the county tax collector the county assessor and the State Board of Equalization.

Upon receipt of the resolution the county assessor shall prepare an assessment roll showing the names and addresses and the area owned by each person owning land within the district, which roll shall be the basis for levying the district tax authorized pursuant to Section 42.

The costs of preparing the assessment roll shall be borne by the district.

SEC. 9. Section 42.95 is added to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903), to read:

Sec. 42.95. Where the assessment roll prepared pursuant to Section 42.9 is used, all assessments levied shall be assessed and collected at the same time and in the same manner as other taxes are collected for county purposes and shall be paid into the county

treasury to the credit of the district.

SEC. 10. The Legislature finds and determines as follows:

(a) Subsurface drainage systems provided by a drainage district pursuant to the Drainage District Act of 1903 (Chapter 238 of the Statutes of 1903) to lower the water table on lands within its boundaries constitute a direct benefit to such lands.

(b) It is in the public interest to permit a district authorized to provide such a drainage system to raise funds for district needs by means of an assessment based on benefits received.

(c) Because of the vagrant and complex movements of underground waters it is impracticable to identify and segregate the benefits from such a project to specific parcels of land.

(d) The fairest and most practicable method of assessing such benefits is a uniform assessment, based on area of land, without regard to assessed value.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At least two drainage districts are presently eligible for federal grants to construct urgently needed subsurface drainage systems. These districts must immediately avail themselves of the assessment procedures authorized by this act if they are to take prompt advantage of such federal grants, and it is necessary therefore that this act go into immediate effect.

1163. Whenever a special election is to be conducted pursuant to Section 1162 within 90 days of a regularly scheduled election for the governing board, the special election may be held at the same time as and then shall be consolidated with that regularly scheduled election.

Whenever a vacancy in a position on a governing board occurs within four months of the end of the term of that position, there shall be no election to fill the position. The position shall remain vacant until the person elected to serve during the succeeding term takes office.

CHAPTER 227

An act to amend Sections 938.2, 2469, 3008, 6458, 6478.1, 12910, 12951, 17655, and 22500 of, and to amend and renumber the heading of Article 4 (commencing with Section 471) of Chapter 3 of Division 1 of, the Education Code, relating to education.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 4 (commencing with Section 471) of Chapter 3 of Division 1 of the Education Code is amended and renumbered to read:

Article 5. California Education Information System

SEC. 2. Section 938.2 of the Education Code is amended to read:

938.2. If a unified school district is formed pursuant to Chapter 9 (commencing with Section 3001) or Chapter 10 (commencing with Section 3100) of Division 5 of this code to include all the territory of one or more elementary school districts, the governing board of the unified district may elect and reelect as district superintendent of schools of the unified district, or as deputy, associate, or assistant superintendent of schools of the unified district, for a four-year term, a person employed as district superintendent of schools of one of such elementary school districts at the time of the formation of the unified school district. The person may perform service in the position for the unified district for the term to which he is elected or reelected without possessing the certification document otherwise required if he has served continuously as district superintendent of the elementary district for at least 10 years prior to the formation of the unified district and if he is elected as district superintendent of schools of the unified district or as deputy, associate or assistant superintendent of schools of the unified district pursuant to this section.

SEC. 3. Section 2469 of the Education Code is amended to read:

2469. All or part of the territory of a union elementary school district which is not wholly included in a high school district may be included in a contiguous high school district upon petition of the governing board of the union elementary district to the board of supervisors of the county in which all the high school district is wholly situated, or, if the high school district is a joint district, to the board of supervisors of the county whose county superintendent of schools has jurisdiction over the joint high school district.

The board of supervisors shall make an order to include the territory of the union elementary district in such high school district. Upon the making of the order, the change of boundaries of the high school district to include such territory shall be deemed to be

completed and effective in accordance with Sections 1703 and 1704.

A copy of the order of the board of supervisors, certified by the clerk of the board, shall be recorded in the office of the county recorder of each county in which the district whose boundaries are changed is situated.

After the expiration of one year from the date of the recording of the order, the order shall be conclusive evidence that the boundaries have legally been changed and no suit shall be maintained which questions the validity of the change of boundaries.

SEC. 4. Section 3008 of the Education Code is amended to read:

3008. The procedures contained in Chapter 10 (commencing with Section 3100) of this division shall be used in the study and preparation of the master plan. Nothing in this chapter shall prohibit a county committee from making plans and recommendations, as authorized by Chapter 10 of this division, prior to the time when the State Board of Education approves the master plan for the county.

SEC. 5. Section 6458 of the Education Code is amended to read:

6458. For purposes of applications for federal funds a plan should be comprehensive in scope, and may include any or all of the program components set out below.

The State Board of Education shall act, upon recommendation of the Advisory Compensatory Education Commission, to establish a priority listing of the following program elements which shall be used in the approval of school district plans to determine those elements which shall be emphasized on a statewide basis:

(a) Reduction of ratios of pupils to teachers, directed specifically to enabling more individual attention to be given to disadvantaged pupils.

(b) Special efforts in the area of reading instruction, including the employment of additional teachers, special reading teachers, teacher aides, and volunteer aides. Special reading programs authorized pursuant to this subdivision shall be conducted pursuant to standards established under Chapter 5.8 (commencing with Section 5770) of this division.

(c) Preschool programs provided through the use of either school facilities, other public or private facilities, or any combination thereof, for children three years of age or older, involving intensive parent participation, established pursuant to standards prescribed by the State Board of Education.

Preschool programs authorized pursuant to this subdivision shall be conducted pursuant to the educational standards established by the State Board of Education under Section 16734.

(d) In-service professional study involving instruction and orientation of school district personnel to enable them to more effectively deal with disadvantaged students.

(e) School-home cooperation, including home visitation, parent education and participation, parent-teacher conferences utilizing, wherever necessary, bilingual interpreters.

(f) Cultural enrichment including the use of field trips, special

speakers, motion pictures, records, library programs, concerts and other means which serve to broaden the educational and cultural experience of the students.

(g) After-school tutoring programs utilizing the services of qualified college and university students and volunteers from the community.

(h) Remedial and corrective programs directed to enhancing the pupils' interest and competence in the English language, including extended remedial reading programs, special speech and oral programs, and the teaching of English as a second language, as, for example, where Spanish-speaking children are involved.

(i) Evaluation, testing, and consultation, involving the formulation of evaluation standards which are as rigorous as feasible under the circumstances; the yearly administration of comprehensive achievement tests to all compensatory education students; and the development and use of data based on group controls which will provide evidence of contrast, and the assembly and classification of data for use at the statewide level. A school district plan of compensatory education under this chapter shall, in order to receive approval, contain this program element.

SEC. 6. Section 6478.1 of the Education Code is amended to read:

6478.1. The Superintendent of Public Instruction may contract with not more than two school districts which have significant numbers of disadvantaged youth and are located in separate geographical areas of the state for the purpose of establishing a More Effective Schools Program in such districts. Each contracting school district shall establish such program in one elementary school within the district where the average achievement level in reading, as measured by tests given under the provisions of Chapter 5.8 (commencing with Section 5770) of this division, is at or near the lowest level for the district.

At least one contracting school district shall have an assessed valuation per unit of average daily attendance, such that one dollar ($1) of tax rate on each one hundred dollars ($100) of assessed valuation produces no more than twenty-eight dollars ($28) per unit of average daily attendance in revenue for the district.

SEC. 7. Section 12910 of the Education Code is amended to read:

12910. A termination of probation and dismissal of an accusation or information pursuant to Section 1203.4 of the Penal Code shall not, for the purpose of this division have any effect.

SEC. 8. Section 12951 of the Education Code is amended to read:

12951. The Legislature of the State of California finds that:

(a) There exists a worldwide revolutionary movement to establish a totalitarian dictatorship based upon force and power rather than upon law.

(b) This worldwide revolutionary movement is predicated upon and it is designed and intended to carry into execution the basic precepts of communism as expounded by Marx, Lenin, and Stalin.

(c) Pursuant to the objectives of the world communism

movement, in numerous foreign countries the legally constituted governments have been overthrown and totalitarian dictatorships established therein against the will of the people, and the establishment of similar dictatorships in other countries is imminently threatening. The successful establishment of totalitarian dictatorships has consistently been aided, accompanied, or accomplished by repeated acts of treachery, deceit, teaching of false doctrines, teaching untruth, together with organized confusion, insubordination, and disloyalty, fostered, directed, instigated, or employed by Communist organizations and their members in such countries.

(d) Within the boundaries of the State of California there are active disciplined Communist organizations presently functioning for the primary purpose of advancing the objectives of the world communism movement, which organizations promulgate, advocate, and adhere to the precepts and the principles and doctrines of the world communism movement. These Communist organizations are characterized by identification of their programs, policies, and objectives with those of the world communism movement, and they regularly and consistently cooperate with and endeavor to carry into execution programs, policies, and objectives substantially identical to programs, policies, and objectives of such world communism movement.

(e) One of the objectives of the world communism movement is to place its members in local government positions and in the public school system. If this objective is successful, propaganda can be disseminated by the members of these organizations among public school pupils by those members who would have the opportunity to teach them and to whom, as teachers, they would look for guidance, authority, and leadership. The members of such groups would use their positions to advocate and teach their doctrines and teach the prescribed Communist Party line group dogma or doctrine without regard to truth or free inquiry. This type of propaganda is sufficiently subtle to escape detection in the classroom.

There is a clear and present danger, which the Legislature of the State of California finds is great and imminent, that in order to advance the program, policies and objectives of the world communism movement, Communist organizations in the State of California and their members will engage in concerted effort to hamper, restrict, interfere with, impede, or nullify the efforts of the governing boards of school districts to comply with and enforce Section 9031 which prohibits the advocacy or teaching of communism with the intent to indoctrinate any pupil with or inculcate a preference in the mind of any pupil for communism for the purpose of undermining the patriotism for and the belief in the government of the United States and of the State of California in the minds of the pupils of the public school system.

The Legislature specifically finds that the requirement that all persons (certificated or noncertificated) now employed by the

school districts of this state, or hereafter making application for employment by any of such districts, shall declare under oath that they are not knowingly members of the Communist Party, is a reasonable measure to meet the clear and present danger hereinabove found.

The Legislature further specifically finds that an indirect or evasive answer to a question relating to any of the matters specified in Section 12955 or 12956, or an answer which neither affirms nor denies shall, for the purposes of this section and chapter, be considered as a failure and refusal to answer, regardless of the ground or explanation given for any such answer.

SEC. 9. Section 17655 of the Education Code is amended to read:

17655. For the purposes of Section 17655.5 a "necessary small school" is an elementary school with an average daily attendance of less than 101, exclusive of pupils attending the seventh and eighth grades of a junior high school, during the current fiscal year maintained by an elementary school district which maintains two or more schools and to which school any of the following conditions apply:

(a) If as many as five pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than 10 miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(b) If as many as 15 pupils residing in the district and attending grades kindergarten to 8, inclusive, exclusive of pupils attending the seventh and eighth grades of a junior high school in the elementary school with an average daily attendance of less than 101 would be required to travel more than five miles one way from a point on a well-traveled road nearest their home to the nearest other public elementary school.

(c) If topographical or other conditions exist in a district which would impose unusual hardships if the number of miles specified in (a) or (b) were required to be traveled or if during the fiscal year the roads which would be traveled have been impassable for more than an average of two weeks per year for the preceding five years, the governing board of the district may, on or before April 1st, request the Superintendent of Public Instruction, in writing, for an exemption from such requirements or for a reduction in the miles required. The request shall be accompanied by a statement of the conditions upon which such request is based, giving such information in such form as the Superintendent of Public Instruction may require. The Superintendent of Public Instruction shall cause an investigation to be made, and he shall either grant such request to the extent deemed necessary by him or deny the request.

SEC. 10. Section 22500 of the Education Code is amended to read:

22500. Public higher education consists of (1) all public

community colleges heretofore and hereafter established pursuant to law, (2) all state universities and all state colleges heretofore and hereafter established pursuant to law, and (3) each campus, branch and function of the University of California heretofore and hereafter established by the Regents of the University of California.

SEC. 11. Any section of any act enacted by the Legislature at its 1973–74 Regular Session, which takes effect on or before January 1, 1974, and which amends, amends and renumbers, or repeals a section amended, amended and renumbered, or repealed by this act, shall prevail over this act, whether such act is enacted prior or subsequent to this act.

CHAPTER 228

An act to amend Sections 21451 and 21454 of the Vehicle Code, relating to traffic control.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 21451 of the Vehicle Code is amended to read:

21451. Green alone or "go" on an official traffic control signal means that:

(a) Vehicular traffic facing the signal shall proceed straight through or may turn right or left. Traffic may make a semicircular or U-turn except where such turn is prohibited by signs erected at such location. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians which were lawfully within the intersection or an adjacent crosswalk at the time such signal was first exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk, but shall yield the right-of-way to all vehicles which were lawfully within the in tersection at the time such signal was first exhibited.

SEC. 2. Section 21454 of the Vehicle Code is amended to read:

21454. (a) A green arrow on an official traffic control signal means both of the following:

(1) Vehicular traffic facing the signal may make the movement indicated by the green arrow but shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such green arrow is exhibited.

(2) Vehicular traffic may make a semicircular or U-turn except where such turn is prohibited by signs erected at such location.

(b) A green arrow may be displayed alone or with red, yellow or green.

(c) It is unlawful to operate a traffic signal which is equipped with a green light and a red arrow which are shown simultaneously. A green arrow shall not be displayed so as to direct vehicular traffic in a manner as to conflict with another flow of vehicular traffic directed at the same time in another direction.

SEC. 3. Sections 1 and 2 of this act shall become operative on July 1, 1974.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 5. Any costs that may be incurred by a local agency pursuant to this act shall be paid out of funds contained in the Traffic Safety Fund specified in Section 42200 of the Vehicle Code, the road fund of a county specified in Section 42201 of the Vehicle Code, and any other revenues allocated to the local agency from the Highway Users Tax Account in the Transportation Tax Fund which may be expended to carry out the program or to perform the service required to be carried out or performed by it by this act.

CHAPTER 229

An act to amend Section 869 of the Penal Code, relating to transcripts of preliminary hearings.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 869 of the Penal Code, as amended by Chapter 544 of the Statutes of 1972, is amended to read:

869. The testimony of each witness in cases of homicide must be reduced to writing, as a deposition, by the magistrate, or under his direction, and in other cases upon the demand of the prosecuting attorney, or the defendant, or his counsel. The magistrate before whom the examination is had may, in his discretion, order the testimony and proceedings to be taken down in shorthand in all examinations herein mentioned, and for that purpose he may appoint a shorthand reporter. The deposition or testimony of the witness must be authenticated in the following form:

First—It must state the name of the witness, his place of residence, and his business or profession; except that if the witness is a peace officer, it shall state his name, and the address given in his testimony at the hearing.

Second—It must contain the questions put to the witness and his answers thereto, each answer being distinctly read to him as it is

taken down, and being corrected or added to until it conforms to what he declares is the truth, except in cases where the testimony is taken down in shorthand, the answer or answers of the witness need not be read to him.

Third—If a question put be objected to on either side and overruled, or the witness declines answering it, that fact, with the ground on which the question was overruled or the answer declined, must be stated.

Fourth—The deposition must be signed by the witness, or if he refuses to sign it, his reason for refusing must be stated in writing, as he gives it, except in cases where the deposition is taken down in shorthand, it need not be signed by the witness.

Fifth—The reporter shall, within 10 days after the close of such examination, if the defendant be held to answer the charge in superior court, or in any other case if either the defendant or the prosecution orders the transcript, transcribe his shorthand notes, making an original and one copy and as many additional copies thereof as there are defendants (other than fictitious defendants), regardless of the number of charges or fictitious defendants included in the same examination, and certify and deliver the original and all copies to the county clerk of the county in which the defendant was examined. The reporter shall, before receiving any compensation as such reporter, file with the auditor of the county his affidavit setting forth that said transcript has been delivered to the county clerk within the time herein provided for. The compensation of the reporter for any services rendered by him as such reporter in any court of this state shall be reduced one-half if the provisions of this section as to the time of filing said transcript have not been complied with by him.

Sixth—In every case in which a transcript is delivered as provided in this section, the county clerk shall file the original of said transcript with the papers in the case, and shall deliver a copy of said transcript to the district attorney immediately upon his receipt thereof and shall deliver a copy of said transcript to each defendant (other than a fictitious defendant) at least five days before trial or upon earlier demand by him without cost to him; provided, however, that if any defendant be held to answer to two or more charges upon the same examination and thereafter the district attorney shall file separate informations upon said several charges, the delivery to each such defendant of one copy of the transcript of said examination shall be a compliance with this section as to all of said informations.

Seventh—If said transcript is delivered by the reporter within the time hereinbefore provided for, the reporter shall be entitled to receive the compensation fixed and allowed by law to reporters in the superior courts of this state.

(b) When the agency itself hears the case the hearing officer shall preside at the hearing, rule on the admission and exclusion of evidence, and advise the agency on matters of law; the agency itself shall exercise all other powers relating to the conduct of the hearing but may delegate any or all of them to the hearing officer. When the hearing officer alone hears a case he shall exercise all powers relating to the conduct of the hearing.

(c) A hearing officer or agency member shall voluntarily disqualify himself and withdraw from any case in which he cannot accord a fair and impartial hearing or consideration. Any party may request the disqualification of any hearing officer or agency member by filing an affidavit, prior to the taking of evidence at a hearing, stating with particularity the grounds upon which it is claimed that a fair and impartial hearing cannot be accorded. Where the request concerns an agency member the issue shall be determined by the other members of the agency. Where the request concerns the hearing officer the issue shall be determined by the agency itself if the agency itself hears the case with the hearing officer, otherwise the issue shall be determined by the hearing officer. No agency member shall withdraw voluntarily or be subject to disqualification if his disqualification would prevent the existence of a quorum qualified to act in the particular case.

(d) The proceedings at the hearing shall be reported by a phonographic reporter.

(e) Whenever, after the agency itself has commenced to hear the case with a hearing officer presiding, a quorum no longer exists, the hearing officer who is presiding shall complete the hearing as if sitting alone and shall render a proposed decision in accordance with subdivision (b) of Section 11517 of the Government Code.

Upon approval of a compromise of, or the execution of a covenant not to sue on, a minor's disputed claim, or approval of a compromise of a pending action or proceeding to which a minor, or insane or incompetent person is a party, or giving judgment for such a person, providing for the payment or delivery of money or other property, the court making the order or giving judgment, and as a part thereof, shall make a further order authorizing and directing a parent of the minor or guardian of the minor, or insane or incompetent person, or the payer of any money to be paid for the benefit of such person, to

pay, from the money or other property to be paid or delivered, such reasonable expenses (medical or otherwise and including reimbursement to a parent or guardian), costs and attorney's fees as the court shall approve and allow therein. The remaining balance of such money or other property shall be paid, delivered or deposited as hereinabove provided.

The board of directors shall direct that at the time and in the manner required by law for the levying of taxes for county purposes, such board of supervisors shall levy, in addition to such other tax as may be levied by such board of supervisors, at the rate or rates so fixed and determined by the board of directors, a tax upon the property within the agency, or improvement district thereof benefited by the bonded debt, as the case may be, and it is made the duty of the officer or body having authority to levy taxes within each county to levy the tax so required. Taxes for the payment of the interest on or principal of any bonded debts shall be levied on the property within the agency, or improvement district thereof, benefited by the bonded debt, as determined by the board of directors in the resolution declaring the necessity to incur the debt. Taxes for other purposes of the agency shall be levied on all property in the district or portion thereof subject to the particular tax. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection, and enforcement of county ad valorem property taxes shall be applicable to such assessment, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquent and unpaid charges relating to such property shall be placed on the unsecured roll for collection. The county shall deduct from the charges collected an amount sufficient to compensate the county for costs incurred in collecting such delinquent and unpaid charges. The amount of such compensation shall be fixed by agreement between the board of supervisors and the agency's board of directors. The agency shall notify the holder of title to land whenever delinquent and unpaid charges for water and other services or either which could become a lien on such property remain delinquent and unpaid for 60 days.

SECTION 1. Section 7676 of the Public Utilities Code is amended to read:

7676. (a) Except as otherwise provided in subdivision (b) or (c), every person who, in making up or running any railroad train, places or runs, or causes to be placed or run, any freight car in the rear of passenger cars, is guilty of a misdemeanor, and if loss of life or limb results from such placing or running, is guilty of a felony.

SEC. 8. Article 5.5 (commencing with Section 59280) is added to Chapter 5 of Division 2 of Title 6 of the Government Code, to read:

Article 5.5. Refunding of Ad Valorem Tax or Assessment Bonds

59280. The legislative body shall have power under this chapter to refund bonds which constitute an indebtedness of a local agency or any improvement district or zone thereof payable, both principal and interest, from the proceeds of ad valorem taxes or ad valorem assessments which may be levied without limitation as to rate or amount upon property in the local agency or in the improvement district or zone thereof subject to taxation or assessment.

59281. Refunding bonds may be issued under this chapter for the purpose of refunding any indebtedness of the local agency which is evidenced by bonds, whether due or not due or which may thereafter become payable at the option of such local agency or by consent of the bondholders or by any lawful means.

59282. The incidental costs of issuing the refunding bonds may be paid by the purchaser of the refunding bonds or may be paid from any other legally available source including, without limitation, the general fund of the local agency, other available revenues of the local agency under the control of the legislative body, the proceeds of the sale of the refunding bonds, the interest or other gain derived from investment of any of the proceeds of the sale of the refunding bonds, any other moneys in escrow or in trust, or any combination thereof, as the legislative body may determine.

59283. The proceeds of the sale of any refunding bonds shall be deposited in escrow or in trust with any bank or trust company within or without the state, or both within or without the state, and shall be secured in accordance with the laws applicable to funds of the local agency and may, along with any other moneys available for that purpose similarly deposited, be invested or reinvested in federal securities. The term "federal securities" means those securities described in Sections 1360 and 1360.1 of the Financial Code or Section 53601 of this code.

59284. Such proceeds and reinvestments in escrow or in trust shall be in an amount at the time of the issuance of such refunding bonds sufficient to meet the requirements of either subdivision (a) or (b) of this section. Such proceeds and reinvestments in escrow or in trust shall also be certified by a certified public accountant licensed to practice in this state to be of an amount sufficient to meet such requirements.

(a) Such proceeds and investments, together with any interest or other gain to be derived from any such investment, shall be in an amount at least sufficient to pay (i) the principal of, and interest and

redemption premiums if any, on, the refunded bonds as they become due, or at designated dates prior to maturity if the legislative body has exercised or has obligated itself to exercise a redemption privilege on behalf of the local agency, and (ii) the designated costs of issuance of the refunding bonds; or

(b) Such proceeds and investments, together with any interest or other gain to be derived from any such investment, shall be in an amount at least sufficient to pay (i) the principal of, and interest and redemption premiums if any, on, the refunding bonds prior to the maturity of the bonds to be refunded or prior to a designated date or dates before the maturity of the bonds to be refunded if the legislative body has exercised or has obligated itself to exercise a redemption privilege on behalf of the local agency, (ii) the principal of, and any redemption premiums due on, such refunded bonds at maturity or at such designated date or dates and (iii) the designated costs of issuance of the refunding bonds.

59285. Upon the issuance, sale and delivery or exchange of refunding bonds pursuant to this article, if both the refunding bonds and the bonds to be refunded remain outstanding for any period of time following the date of the issuance, sale and delivery of the refunding bonds, then until the date on which the bonds to be refunded are no longer outstanding:

(a) If the local agency has met the test of subdivision (a) of Section 59284, the bonds to be refunded shall no longer be considered outstanding in any computation of the general obligation indebtedness of such local agency;

(b) If the local agency has met the test of subdivision (b) of Section 59284, then the bonds to be refunded shall be considered outstanding in any computation of the general obligation bonded indebtedness of such local agency until the date on which the refunded bonds are retired.

59286. In proceeding under the alternatives provided for in this article, it shall be unnecessary for the legislative body to give notice to the bondholders and to obtain their consents or to obtain written proposals from them, and the provisions in this chapter relating to such consents or proposals from the original bondholders shall not be applicable to any proceedings conducted pursuant to the authority in this article.

SEC. 9. Section 9.1 is added to the Embarcadero Municipal Improvement District Act (Chapter 81 of the Statutes of the 1960 First Extraordinary Session), to read:

Sec. 9.1. The legislative body of the district has jurisdiction, power and authority to conduct proceedings for the refunding of bonded indebtedness under the Refunding Assessment Bond Act of 1935, Chapter 732 of the Statutes of 1935, and under the Special Assessment and Bond Refunding Law of 1939, which is provided for in Chapter 5 (commencing with Section 59100) of Division 2 of Title 6 of the Government Code.

SEC. 10. Section 5 of the Refunding Assessment Bond Act of 1935

(Chapter 732 of the Statutes of 1935) is amended to read:

Sec. 5. (1) Jurisdiction, power, and authority to conduct proceedings for the refunding of indebtedness under this act and the levy of an assessment therefor is conferred upon the legislative bodies of cities or counties, or cities and counties, or the public district which ordered the issuance of the original bonds, as set forth herein. The legislative body, which ordered the bonds of any district which are to be refunded issued, shall have complete jurisdiction, power, and authority to conduct proceedings to refund the indebtedness of said district under this act and to levy an assessment therefor.

(2) If the district, the indebtedness of which is to be refunded, lies entirely within a municipality, the legislative body of said municipality or the public district shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness under this act and to levy an assessment therefor; and if the district, the indebtedness of which is to be refunded, lies entirely within unincorporated territory of a county, the legislative body of such county or the public district shall have complete jurisdiction, power, and authority to conduct proceedings to refund such indebtedness under this act and to levy an assessment therefor. It is the intent of this section that, in all cases of incorporation of municipalities, or annexation of territory to municipalities, or consolidation of municipalities, or exclusion of territory from municipalities, or the dissolution of municipalities, the jurisdiction, power, and authority which, under paragraph numbered (1) of this section, would have been vested in the legislative body which conducted the proceedings for the issuance of the bonds to be refunded, shall be vested in and may be exercised by the legislative body which, by reason of such incorporation, annexation, consolidation, exclusion, or dissolution, has jurisdiction at the time such refunding is begun over the territory of the assessment district; provided, however, that, in the event all of the territory of the district lies entirely within a municipality but the tax or assessment for the payment of principal and interest of the bonds which are to be refunded is levied by the legislative body of the county, the consent of the legislative body of such county to the refunding of the indebtedness of said district under this act and the levy of an assessment therefor shall be obtained as hereinafter provided.

(3) In case an assessment district lies entirely within two or more municipalities, the legislative body of any municipality in which any part of the district lies may conduct the proceedings to refund the indebtedness of said district and to levy an assessment therefor, and, in case the assessment district lies partly within unincorporated territory of a county and partly within one or more municipalities, the legislative body of the county, or of any municipality in which any portion of the district lies, may conduct proceedings to refund the indebtedness of said district, and to levy an assessment therefor; provided, however, that in any case in which the assessment district

lies entirely within two or more municipalities, or partly within unincorporated territory of a county and partly within one or more municipalities, or in any case in which the legislative body proposing to conduct the refunding proceeding is not the legislative body which levies the tax or assessment for the payment of principal and interest of the bonds to be refunded, the legislative body which proposes to conduct the refunding proceeding shall obtain the consent of the legislative body of each municipality in which any part of the district lies, of the legislative body of the county in case a part of the district lies in unincorporated territory of the county, and of the legislative body which levies the said tax or assessment for the payment of principal and interest of the bonds to be refunded, to the refunding of the indebtedness of such district under this act and the levying of an assessment therefor Such consent shall be obtained prior to the adoption of the resolution of intention in the refunding proceeding and shall be expressed by resolution, a certified copy of which shall be filed with the clerk of the legislative body which proposes to conduct the refunding proceedings on or before the date the resolution of intention in the refunding proceedings is adopted. When such consent has been given, the legislative body to which the consent has been granted shall have complete jurisdiction, power, and authority to refund the bonds of such district under this act and to levy an assessment therefor under the provisions hereof.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Bonds issued by joint powers agencies of the nature described herein were issued during a period of high interest rates. Since that period rates have declined and it is possible that substantial interest savings may be generated by the refunding of such agency's bonds. Additionally, unique problems due to rapid growth of population exist in those areas where joint powers agencies have previously financed sanitary sewer facilities. Recently adopted water quality control standards require additional sanitary sewage facilities in order to meet such standards with respect to use of water in the operation of the existing system after the introduction of water from the State Water Project occurs. Legislation authorizing joint powers agencies to finance sanitary sewer facilities expired in 1972 but it has become apparent that such powers are again necessary.

Further, the provisions of this act are vital to the financing of improvements by local agencies and improvement districts, and in order that the benefits of this act may be derived at the next district elections, it is essential that it take effect immediately.

CHAPTER 257

An act to repeal Section 13355.5 of the Vehicle Code, and to amend Section 564 of the Welfare and Institutions Code, relating to the driving privilege of juveniles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13355.5 of the Vehicle Code is repealed.

SEC. 2. Section 564 of the Welfare and Institutions Code is amended to read:

564. Upon a hearing conducted in accordance with Section 563, upon an admission by the minor of the commission of a traffic violation charged, or upon a finding that the minor did in fact commit such traffic violation, the judge, referee, or traffic hearing officer may:

(1) Reprimand the minor and take no further action, or

(2) Direct the probation officer to file a petition as provided for in Article 7 (commencing with Section 650) of this chapter, or

(3) Make any or all of the following orders:

(a) That the driving privileges of the minor be suspended or restricted as provided in Article 2 (commencing with Section 13200) of Chapter 2 of Division 6 of the Vehicle Code.

(b) That the minor attend traffic school over a period not to exceed 60 days.

(c) That the minor pay to the general fund of the county a sum, not to exceed fifty dollars ($50).

(d) That the probation officer undertake a program of supervision of the minor for a period not to exceed six months.

(e) That the minor work in a city park or recreational facility or county or regional park for not to exceed 25 hours over a period not to exceed 30 days, during times other than his hours of school attendance or employment. When the order to work is made by a referee or a traffic hearing officer, it shall be approved by a judge of the juvenile court.

The judge, referee, or traffic hearing officer shall retain jurisdiction of the case until all orders made under this section have been fully complied with.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chapters 755 and 1196 of the Statutes of 1972 were enacted to provide, among other things, that judges, referees, and traffic hearing officers, when ordering suspensions of juvenile traffic violators' driving privileges, would act in accordance with the

Vehicle Code. Chapter 755 repealed Section 13355.5 of the Vehicle Code and Chapter 1196 amended the Welfare and Institutions Code to achieve that effect. Subsequently, Chapter 1407 was enacted which had the effect of restoring Section 13355.5 of the Vehicle Code thus nullifying the effect of Chapters 755 and 1196. In order to clarify this situation and give effect to Chapters 755 and 1196 as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 258

An act to amend Section 13976 of the Water Code, relating to water quality, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 13976 of the Water Code is amended to read:

13976. (a) The moneys in the fund shall be used for the purposes set forth in this section.

(b) The board is authorized to enter into contracts with municipalities having authority to construct, operate and maintain treatment works, for grants to such municipalities to aid in the construction of eligible projects, and for reclamation of water.

Grants may be made pursuant to this section to reimburse municipalities for construction for which contracts were let subsequent to July 1, 1970, and before the first sale of bonds authorized to be issued by this chapter.

Any contract pursuant to this section may include such provisions as may be agreed upon by the parties thereto, and any such contract concerning an eligible project shall include, in substance, the following provisions:

(1) An estimate of the reasonable cost of the eligible project;

(2) An agreement by the board to pay to the municipality, during the progress of construction or following completion of construction as may be agreed upon by the parties, an amount which equals at least 12½ percent of the eligible project cost determined pursuant to federal and state laws, and regulations. Notwithstanding the provisions of any existing agreements entered into pursuant to this subdivision, the board shall pay to the municipality under any contract entered into pursuant to this subdivision for a project for which the federal grant offer was made on or after October 18, 1972, an amount which equals 12½ percent of the eligible project cost determined pursuant to federal and state law and regulations;

(3) An agreement by the municipality, (i) to proceed expeditiously with, and complete, the eligible project, (ii) to

0633 363265 442

commence operation of the treatment works on completion thereof, and to properly operate and maintain such works in accordance with applicable provisions of law, (iii) to apply for and make reasonable efforts to secure federal assistance for the eligible project, (iv) to secure the approval of the board before applying for federal assistance in order to maximize the amounts of such assistance received or to be received for all eligible projects in the state, and (v) to provide for payment of the municipality's share of the cost of the eligible project.

(c) The board may make direct grants to any municipality or by contract or otherwise undertake plans, surveys, research, development and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the board pursuant to this division and to prepare recommendations with regard thereto, including the preparation of comprehensive statewide or areawide studies and reports on the collection, treatment and disposal of waste under a comprehensive cooperative plan.

The aggregate amount of moneys which may be advanced or granted to or committed to municipalities for the purpose of planning, research and development, whether by the board or under the direction of the board or in the form of direct grants to municipalities for such purpose, shall not exceed in the aggregate such amount as may be fixed from time to time by the committee.

(d) The board may from time to time with the approval of the committee transfer moneys in the fund to the State Water Quality Control Fund to be available for loans to public agencies pursuant to Chapter 6 (commencing with Section 13400) of this division.

(e) Not more than one-half of 1 percent of the moneys deposited in the fund may be expended by the board for costs incurred in administering the provisions of this chapter.

(f) As much of the moneys in the fund as is necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

(g) The board may with the approval of the committee transfer not more than ten million dollars ($10,000,000) from the fund to a special reserve fund as additional security for the payment of the principal of and the interest on revenue bonds sold by the state as provided by law to provide funds to municipalities for needed sewage facilities. Such money shall be used for such purpose only after all other securities provided by law have been exhausted. Any money not used for such purpose shall, after retirement of the revenue bonds, be returned to the fund and be available for other purposes provided for in this section.

(h) The board may adopt rules and regulations governing the making and enforcing of contracts pursuant to this section.

SEC. 2. (a) It is the intention of the Legislature, in enacting the provisions of this act, to insure that the total amount of federal and state grants for any project for which the State Water Resources Control Board has entered into a contract pursuant to the provisions

of the Clean Water Bond Law of 1970 (Chapter 13 (commencing with Section 13970) of Division 7 of the Water Code) for a project for which the federal grant offer was made on or after October 18, 1972, shall equal 87½ percent of the eligible project cost.

(b) Notwithstanding the provisions of any such existing agreements, such agreements shall be amended to reflect the changes made by this act as if the provisions of this act had been in effect at the time of the execution of the agreements.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The construction of new treatment works is urgently needed to protect and enhance the quality of California's waters. This act will make available additional funds to permit the construction of such works at the earliest possible time. In order, therefore, to most effectively protect water quality in this state, it is necessary that this act go into immediate effect.

CHAPTER 259

An act to amend Section 11784 of, to add Article 2 (commencing with Section 11755) to Chapter 7.5 of Part 1 of Division 3 of Title 2 of, and to repeal Article 2 (commencing with Section 11755) of Chapter 7.5 of Part 1 of Division 3 of Title 2 of, and to repeal Section 11785 of, the Government Code, and to repeal Section 3 of Chapter 1254 of the Statutes of 1972, relating to electronic data processing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Article 2 (commencing with Section 11755) of Chapter 7.5 of Part 1 of Division 3 of Title 2 of the Government Code is repealed.

SEC. 2. Article 2 (commencing with Section 11755) is added to Chapter 7.5 of Part 1 of Division 3 of Title 2 of the Government Code, to read:

Article 2. California Information Systems Implementation Committee

11755. Electronic data-processing policies have been established in Sections 11700 and 11701. It is the intent of the Legislature that these policies and any others deemed necessary be implemented expeditiously.

11756. There is in state government a California Information Systems Implementation Committee, hereafter referred to as the committee. It shall consist of the Secretary of Business and Transportation, Secretary of Health and Welfare, Chairman and Vice Chairman of Assembly Committee on Ways and Means, and Chairman and Vice Chairman of Senate Committee on Finance, Director of Finance, Director of General Services, Chairman and Vice Chairman of the Joint Legislative Budget Committee, and Chairman and Vice Chairman of the Assembly Committee on Efficiency and Cost Control. The chairman shall be elected by the committee at its first meeting.

The committee shall exist for the specific purpose of formulating recommendations regarding appropriate legislative and executive actions required for implementing the state's electronic data-processing policies as set forth in Article 1 (commencing with Section 11700) of Chapter 7.

11757. The committee shall begin its work immediately.

11758. The committee, in carrying out its specific purpose, shall:

(a) Review electronic data-processing policies set forth in Article 1 (commencing with Section 11700) of Chapter 7, and Chapter 8 (commencing with Section 11775), and make recommendations for appropriate additions, deletions or revisions thereto;

(b) Develop electronic data-processing procedures for implementing the policies of protecting the privacy and confidentiality of records and the rights and privacy of the individual as established by law.

(c) Submit an annual report to the Legislature and the Governor on or before February 1, commencing in 1975, which shall specify the recommendations and procedures for implementing the conclusions of the committee.

SEC 3. Section 11784 of the Government Code is amended to read.

11784. Any contract entered into by the Department of Finance, any state agency, or any consolidated data center, concerning data-processing systems design, programming, documentation, conversion, and other aspects of data-processing operations shall require that contract personnel shall be physically on the premises of the consolidated data center or state entity in the conduct of systems design, programming, and documentation; however, these functions other than systems design may be conducted off state premises for the one-time conversion necessary to place them on the consolidated data center equipment in order to implement the consolidated data center. Training shall be conducted on state premises unless the equipment being trained for is not installed or available on state premises and such contract shall also contain a provision requiring the contractor and all of his staff working under such contract to maintain all information obtained as a result of such contract as confidential and to not divulge such information to any other person or entity. Where contracts are entered into pursuant to

0644 363310 451

this section, as a condition of such contract, provision shall be made that state personnel are to be working directly with such contract personnel to assure continuation of all projects for which the contract is let after a contractor has fulfilled his contractual obligations. Full documentation of all programs shall reside both in the data center and the state entity for which the program was written.

The provisions of this section shall not apply to the University of California, the State Compensation Insurance Fund, or agencies provided for by Article VI of the Constitution, the Legislative Counsel Bureau, or the Legislature.

SEC. 4. Section 11785 of the Government Code is repealed.

SEC. 5. Section 3 of Chapter 1254 of the Statutes of 1972 is repealed.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The implementation phase of the consolidated data centers created by statute at the 1972 Regular Session of the Legislature has begun. This act will provide for necessary continuous communication between the executive and legislative branches of government concerning various electronic processing matters. Therefore, it is necessary that this act take effect immediately so that such communication may take place during the important implementation phase of such centers.

CHAPTER 260

An act to add and repeal Section 31671.2 to the Government Code, relating to the County Employees Retirement Law of 1937, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1973 Filed with Secretary of State July 12, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 31671.2 is added to the Government Code, to read:

31671.2. Notwithstanding the provisions of Section 31671.02, any member who entered the system as an elected judge of a justice court and succeeded by operation of law to the nonelective office of clerk of a superseding municipal court shall be retired as of the first day of the calendar month next succeeding that in which he attains age 67.

SEC. 2. This act shall be operative until January 1, 1976, and thereafter is repealed and shall have no force or effect.

SEC. 3. This act is an urgency statute necessary for the

immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution.

The facts constituting such urgency are that present statutes would require an officer who had been elected to office, but whose office had been changed by operation of law, to retire at an earlier date than would be required by an elective status, and this act is necessary to prevent such earlier mandatory retirement.

CHAPTER 261

An act to add Section 4650.1 to the Public Resources Code, relating to state forests.

[Approved by Governor July 13, 1973. Filed with Secretary of State July 13, 1973]

4650.1. Notwithstanding any other provision of law, timber from state forests shall not be sold to any primary manufacturer, or to any person for resale to a primary manufacturer, who makes use of such timber at any plant not located within the United States unless it is sawn on four sides to dimensions not greater than 4 inches by 12 inches.

Any purchaser of timber from state forests who makes use of such timber in violation of this section shall be prohibited from purchasing state forest timber for a period of five years and may have his license suspended for a period of up to six months.

The department may adopt appropriate regulations to prevent the substitution of timber from state forests for timber exported from private timberlands.

SEC. 2. No provision of this act shall be construed to affect any contract entered into prior to the effective date of the act.

CHAPTER 262

An act to amend Section 1241 of the Code of Civil Procedure, relating to eminent domain.

[Approved by Governor July 13, 1973 Filed with Secretary of State July 13, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 1241 of the Code of Civil Procedure is amended to read:

1241. Before property can be taken, it must appear:

1. That the use to which it is to be applied is a use authorized by law;

For the purposes of this section, the state control agency shall be the State Water Resources Control Board, State Air Resources Board, or the Resources Agency for a project not affecting the air or water or any agency subsequently empowered to control pollution. The authority shall reimburse the control agencies for their reasonable and necessary expenses in making the certification.

In addition to the foregoing, no project for water pollution control is eligible for financing under this division unless the authority finds that local public financing cannot reasonably be obtained.

Projects shall be financed in such order of priority as the authority may determine. It may take into consideration such factors as (1) certification and recommendation of the State Water Resources Control Board, the State Air Resources Board, or the Resources Agency, (2) location of the proposed project, (3) nature of the proposed project, (4) time of application, and (5) any other factors the authority may deem pertinent. The amendments to this section enacted at the 1973–74 Regular Session of the Legislature shall apply to any applications filed prior to the effective date of such amendments. In the event that requests are received regarding

projects which would be eligible for financing except for the limitations on new debt in Section 39620, such requests shall be considered in accordance with rules and regulations of the authority at such time as new indebtedness has been authorized pursuant to Section 39620.5. Such rules and regulations shall give priority to projects which will achieve the maximum conservation and reuse of resources and to projects for the pretreatment of industrial waste prior to discharge into a sewerage system operated by a public agency. No project, construction of which was completed prior to the effective date of this section, may be financed by the authority under this division, provided, however, that additions and improvements to such a project which are commenced on or after the effective date of this section may be financed by the authority.

SEC. 3. Section 39636 is added to the Health and Safety Code, to read:

39636. The authority shall not be required to pay any property taxes or assessments upon, or in respect to, a project or any property acquired by or for the authority under the provisions of this division or upon the income therefrom, so long as the authority holds title to such project or the property or facilities comprised in the project. The exemption of the authority from taxation of any project herein provided shall cease forthwith when title to such property is transferred from the authority to any participating party. The provisions of this section shall not exempt any participating party from taxation with respect to any project, or the property or facilities comprised in any project, which may otherwise be applicable to such participating party.

SEC. 4. Section 39637 is added to the Health and Safety Code, to read:

39637. Upon dissolution of the authority, the title to all properties owned by it shall vest in and become the property of the State of California.

SEC. 4. Section 201.5 is added to the Revenue and Taxation Code, to read:

201.5. (a) Possessory interests in property acquired by or for the California Pollution Control Financing Authority pursuant to Division 27 (commencing with Section 39600) of the Health and Safety Code, whether in real or personal property, shall be subject to taxation under this code.

(b) If the amount determined pursuant to subdivision (a) is less than the amount of tax which would have been imposed if the participating party owned the pollution control facility, the contract or lease between the California Pollution Control Financing Authority and such party shall provide that the difference between the amount of tax paid pursuant to subdivision (a) and the amount determined on the basis of the full cash value of the property shall be paid by such party to the tax collector for the taxing agency at the same time as the property tax is paid.

SEC. 5. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act will affect the issuance and sale of revenue bonds and bond anticipation notes and the approval of pollution control projects. In order to provide an appropriate amount of time for whatever changes this act will require, it is necessary that it go into effect immediately.

The people of the State of California do enact as follows:

SECTION 1 Section 25.1 is added to the Civil Code, to read:

25.1. The Legislature intends that any use of or reference to the words "age of majority," "age of minority," "adult," "minor," or words of similar intent in any instrument, order, transfer, or governmental communication whatsoever made in this state:

(a) Before March 4, 1972, shall make reference to persons 21 years of age and older, or younger than 21 years of age, and

(b) On or after March 4, 1972, shall make reference to persons 18 years of age and older, or younger than 18 years of age.

An act to amend Sections 13336.5 and 13337.3 of the Education Code, relating to school certificated employees, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 20, 1973 Filed with Secretary of State August 20, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13336.5 of the Education Code is amended to read:

13336.5. Any employee classified as a substitute or temporary employee, who serves during one school year for at least 75 percent of the number of days the regular schools of the district were maintained in such school year and has performed the duties normally required of a certificated employee of the school district, shall be deemed to have served a complete school year as a probationary employee if employed as a probationary employee for the following school year.

Any such employee shall be reemployed for the following school year to fill any vacant positions in the school district for which the employee is certified.

For purposes of this section "vacant position" means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

Any employee classified as a substitute or temporary employee who has rendered the service required to qualify under this section but who has not been reemployed due to a lack of a vacant position shall be reemployed as a substitute or temporary employee for the following school year.

In any district in which appointments are made from eligible lists established by examination, special eligible lists shall be established at the end of each school year which consist of the names of those employees who met the requirements of this section. Such lists shall be in rank order based on the final scores established by examination. Such lists shall be valid for at least two school years. Offers for appointments to probationary status during the ensuing school year shall be made from such special eligible lists established by examination; provided, however, permanent or probationary employees terminated during the preceding 39 months pursuant to Section 13447, shall be given priority in employment over persons on such special eligible lists.

The employment of such persons shall be based upon the need for additional certificated employees during a particular semester or year because a certificated employee has been granted leave for a semester or year, or is experiencing long-term illness, and shall be limited, in number of persons so employed, to that need, as determined by the governing board.

Any person employed for one complete school year as a temporary employee shall, if reemployed for the following school year in a position requiring certification qualifications, be classified by the governing board as a probationary employee and the previous year's employment as a temporary employee shall be deemed one year's employment as a probationary employee for purposes of acquiring permanent status.

SEC. 2. This act shall become operative on July 1, 1973.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A corporation presently operating under this chapter shall not be required to comply with the amendments to this section enacted at the 1973–74 Regular Session of the Legislature, if such compliance would require the resignation of any person duly appointed or elected as a director of such corporation at the time such amendments become effective; provided, however, that after such amendments become effective, no person shall be appointed, elected, reappointed or reelected as a director of such corporation if such appointment, election, reappointment or reelection would be in violation of this section. For the purposes of determining such insolvency and the financial condition of such a corporation, and also for the purposes of preparation of annual statements and the provisions of Section 11505 and all other purposes not otherwise expressly provided for in this chapter, the commissioner may establish reasonable rules and regulations relating to the assets, liabilities and reserves of such corporations; otherwise such corporations shall, for such purposes, be subject to the requirements of this code as to assets, liabilities and reserves which are applicable to disability insurers.

SEC. 6. Section 11511 of the Insurance Code is amended to read:

11511. Whenever the commissioner finds such fact does not exist he shall revoke and require the surrender of such certificate. Upon any such revocation the corporation shall cease to enter into or to renew any contracts issued under the provisions of subdivisions (d) and (e) of Section 11493, except that it may continue to carry out in good faith its obligations under any such contract which was entered into prior to such revocation up to but not beyond the date of the next annual renewal of any such contract; provided, however, that a corporation

engaged at such time in the operation of a comprehensive health care program or programs under Section 11493(e) may continue, subject to the approval of the commissioner, to exercise any and all the rights and powers which corporations operating such programs are permitted to exercise under the provisions of Section 11493.3.

(c) If the contract purports to entitle more than one person to benefits or services except family hospital service contracts issued under Section 11512.1, group hospital service contracts issued under Section 11512.2 and blanket contracts issued under Section 11512.4;

(d) Unless every printed portion and any endorsement or attached papers is plainly printed in type of which the face is not smaller than 10 points,

(e) Except for group hospital service contracts and blanket contracts issued under Section 11512.2, unless the exceptions of the contract are printed with greater prominence than the benefits to which they apply;

(g) If the contract contains any provisions purporting to make any portion of the charter, constitution or bylaws of such nonprofit corporation a part of the contract unless such portion is set forth in full in the contract;

(i) If such contract contains coverage for sterilization operations or procedures and it imposes any disclaimer, restriction on, or limitation of coverage relative to the insured's reason for sterilization. All such contracts entered into or renewed on or after the effective date of the amendments to this section enacted at the 1972 Regular Session shall be construed to be in compliance with this section, and any provision in any such contract which is in conflict with this section shall be of no force or effect.

11512.2. Group hospital service contracts may be issued in conformity with all of the following conditions:

(a) Written under a master hospital service contract,

SEC. 9. Section 11515 of the Insurance Code is amended to read:

11515. The commissioner may after notice and hearing promulgate such reasonable rules and regulations, not inconsistent with the provisions of this chapter, relating to the substance, form and issuance of any contract covering the furnishing of hospital services as defined in subdivisions (d) and (e) of Section 11493 and required to be approved by him by the provisions of Section 11513, as are necessary or desirable to preserve, insofar as applicable, standards as respects substance, form and issuance comparable to the standards in such respects prescribed by Chapter 4 (commencing with Section 10270), Part 2, Division 2 of this code and applicable to disability policies, and to further the purpose or purposes for which such contracts are to be issued. CHAPTER 288

An act to amend Section 190 of the Streets and Highways Code, relating to grade separations.

[Approved by Governor August 22, 1973 Filed with Secretary of State August 22, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 190 of the Streets and Highways Code is amended to read:

190. In each annual budget report prepared by the commission

and the department under Section 143.1, commencing with the 1972–1973 fiscal year, the sum of ten million dollars ($10,000,000) shall be set aside for allocations to grade separation projects, including the elimination of existing or proposed grade crossings, the elimination of grade crossings by removal or relocation of streets or railroad tracks, and the alteration or reconstruction of existing grade separations, of separations of grade districts, cities, cities and counties, and counties on county roads or city streets as provided in Sections 189 to 191, inclusive.

An allocation shall be made of one-half of the estimated cost, after deducting therefrom any contribution to be made by the railroad corporations involved, towards any project which qualifies therefor under the provisions of those sections, except that in no event shall allocations be made to projects for the alteration or reconstruction of grade separations unless the affected railroad or railroads have agreed, or have been required by decision of the Public Utilities Commission, to contribute not less than 10 percent of the cost of such alteration or reconstruction project. In no event shall an allocation for a project effecting the elimination of grade crossings by removal or relocation of streets or railroad tracks be in excess of the estimated allocation that would otherwise be made for the construction of grade separation facilities on the existing alignment of the street and railroad tracks.

An allocation shall be made only when the affected local agency or agencies furnish evidence to the department that all necessary orders of the Public Utilities Commission have been obtained, that all necessary agreements with affected railroad or railroads have been executed, that sufficient funds from the local agency or agencies are available and that all other matters prerequisite to awarding the construction contract within a period of six months have been or can be taken care of within that time.

Funds of a local agency shall be deemed available for purposes of this section to the extent of the amount of any general obligation bonds authorized but unsold if all proceedings prior to the issuance and sale of the bonds have been validly taken and if the bonds may be validly issued and sold by the local agency at any time, even though at the time of allocation under this section the bonds have not been issued or sold. Where such bond proceedings have been taken, if the bonds are not issued and sold within six months after the time of such allocation, the commission may order the allocation canceled, and shall thereupon revert the amount thereof to the fund set aside by this section, for reallocation to another eligible project.

In any event, regardless of the method proposed by the local agency for the financing of its share of the project cost, if after an allocation has been made, the construction contract has not been awarded within one year, the commission may order the allocation canceled and the funds allocated shall revert to the fund set aside by this section.

In financing its share of the project cost, the local agency may use

0 1391 364 235 569

any funds available to it. Notwithstanding any other provision of law, when the local agency uses funds derived from any federal program in financing its share of the project cost, the allocation to be made pursuant to this section shall be computed as though such local agency contribution was derived from nonfederal sources and shall be computed as though the railroad had made its contribution pursuant to state law rather than pursuant to federal law.

The department and the commission may make allocations from a succeeding fiscal year's sum set aside for purposes of this section on and after January 1st preceding the beginning of such fiscal year. Engineering, right-of-way acquired for the project and utility relocation costs expended by a local agency or agencies prior to an allocation of funds for a project shall be included in the total cost thereof, even though expended prior to an allocation of state funds.

The first five million dollars ($5,000,000) of the fund set aside by this section each fiscal year shall be available for allocation and expenditure without regard to fiscal year.

The department and the commission shall revert as of October 1st of each fiscal year any unallocated amount of the balance of the annual sum of ten million dollars ($10,000,000) set aside by this section for that fiscal year. Any other funds that may be set aside for the purposes of this section shall be allocated prior to the allocation of the above ten million dollars ($10,000,000) and shall be available for allocation and expenditure without regard to fiscal years.

A local agency that furnishes evidence to the department that it has complied with all requirements for an allocation pursuant to this section may, if it has sufficient funds available for that purpose, proceed with the advertising for bids and the construction without prejudice to its right to receive an allocation if an allocation becomes available for that local agency before the termination of the priority list established for the year during which the construction commenced.

Such project may be constructed by the local agency or agencies concerned, or, by agreement between the local agency or agencies and the department, the department may acquire the necessary rights-of-way in the name of the local agency or agencies, execute agreements with railroad corporations, present necessary applications to the Public Utilities Commission and perform all other acts to complete the project. Construction work by the department shall be subject to the State Contract Act. Agreements between the department and local agencies are authorized relative to the handling and accounting of funds, including the making of advancements thereof so as to permit prompt payment for the work accomplished, and relative to any other phase of the work.

In the event the actual cost is less than that estimated, the allocation shall be reduced accordingly. If, after completion of the project, the actual cost exceeds that estimated, the allocation may be increased proportionately by the department and the commission. If more projects comply with the requirements hereof than can be

01391 364250 572

financed from the fund set aside by this section, allocations shall be made only to those highest on the priority list submitted by the Public Utilities Commission, except for those allocations made for projects which exceed the estimated costs. Allocations to specific projects by the department shall remain available until expended. As used in this section, "local agency" includes a separation of grade district, as well as a city, city and county, or county.

Nothing in this section shall be interpreted to allow the admittance of such dependent into a college or university unless such dependent is otherwise qualified to gain admittance to such college or university.

As used in this section, "dependent" means the children (natural or adopted), at the time of his death, of the peace officer or law enforcement officer who is killed, or who receives injuries which result in his subsequent death.

CHAPTER 295

An act to add Section 2167.1 to the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 2167.1 is added to the Revenue and Taxation Code, to read:

2167.1. (a) Notwithstanding any other provision of law to the contrary, the legislative body of any city which is encompassed entirely within the territory of a special district may elect to pay such district an amount equal to the amount such district would derive from its tax on all property within the incorporated limits of such city.

(b) If a legislative body makes an election pursuant to subdivision (a), the legislative body may increase the city's property tax rate to produce an amount equal to the amount the district would have derived from imposition of its tax on property within the city. Such rate is in addition to any rate authorized by Section 2167.

(c) If a city legislative body makes an election pursuant to subdivision (a), the district shall no longer impose such tax on property within the city, and upon collection of city taxes, such amount shall be paid by the city or transferred by the county auditor to the district.

(d) If the legislative body of a city makes an election pursuant to subdivision (a), the legislative body shall notify the county auditor, county assessor, and county tax collector by no later than the first day of September of the fiscal year in which such election becomes effective, and the county auditor shall not extend the stated portion of the district's tax on property within the city. Upon the request of the city legislative body, the county tax collector shall list each involved district on the property tax bill or an accompanying statement, clearly indicating that the city has elected to include the cost of the special district service in the city tax rate.

(e) For purposes of this section, "special district" means any special district where the county board of supervisors act as, or has appointed, the governing body of such districts providing fire or library services to one or more cities or any county library service established under Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code provided for one or more cities, if all property within the city is taxed to support such service.

(f) This section shall not apply in any case in which a city is making the payments described in this section to a district on the effective date of this section.

(g) If any additional costs are incurred by a county as a result of an election under this act by a city, such county may collect such costs from the city.

(h) This section shall apply only to cities which are in counties which have a population of 6,000,000 or more.

SEC. 2. The Legislature finds and declares that there are no state-mandated costs to local government contained in Section 1 of this act for the following reasons:

(a) Cities are given an option to make payments to special districts, which payments are not required of cities by this act.

(b) Counties are presently required to collect taxes on behalf of

cities within the county and a change in a city rate will not create any additional costs.

Therefore, no appropriation is made by this act nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to enable cities to assume financial responsibility for services provided city residents by special districts at the earliest possible time, it is necessary that this act take effect immediately.

SEC. 12. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 297

An act to amend Section 2165 of the Revenue and Taxation Code, relating to property tax limitations, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 2165 of the Revenue and Taxation Code, as added by Chapter 1406 of the Statutes of 1972, is amended to read:

2165. (a) Except as provided in subdivisions (b), (c), (d), (e), and (f), the maximum property tax rate which may be levied by any county shall be the property tax rate levied by the county for either the 1971–72 or the 1972–73 fiscal year, at the option of the board of supervisors, exclusive of the rate for bond interest and redemption charges.

(b) The county may levy a property tax rate in excess of the rate provided in subdivision (a) for the payment of validly contracted bonded indebtedness and interest thereon and for the payment of retirement and pension benefits pursuant to laws which have been, or may in the future be, approved by the voters.

(c) The county may levy a rate in excess of the rate provided in subdivision (a) if the percentage increase or decrease in population and the percentage increase or decrease in the cost of living (as determined by the California consumer price index for all items as established by the California Department of Industrial Relations) for the 12 months prior to July 1, when added together, exceeds the percentage increase or is less than the decrease in property tax revenue received by the county.

The additional rate which may be levied shall not exceed a rate which would produce an amount of revenue equal to the difference between:

(1) The revenue which would be received if revenue were to grow or decline by the same percentage as the percentage growth or reduction of population of the county and cost of living; and

(2) The revenue which would be received by levying the maximum rate in subdivision (a).

(d) The maximum tax rate which may be levied by a county may be changed by a majority of those voting in an election called for such purpose.

(e) The county may levy an additional rate in excess of the maximum rate provided in subdivision (a) to pay for any costs which are mandated by the federal government or the courts after the effective date of this article and which are not funded by the federal or state government.

The Controller may audit county rate increases under the provisions of this subdivision, and if he does not consider them to be

4247 364450 613

necessary to meet the costs of federally or court-mandated programs, may request taxpayer relief by Attorney General action.

(f) If, on January 1, 1973, the charter of a county requires the board of supervisors to (1) establish a special fund which may only be used for the acquisition and development of park land and (2) transfer annually into such fund from the county general fund a specified minimum amount, the county may levy a rate in excess of the rate provided in subdivision (a) which is sufficient to provide such minimum amount required to be transferred; provided the optional rate selected by the county under subdivision (a) did not include such levy. This subdivision does not apply to any county whose charter contains a provision that the board of supervisors may by resolution suspend transfers to such special fund after making a finding that state-imposed property tax limitations conflict with its ability to comply with the transfer of funds requirement.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that certain counties may comply in the 1973–74 fiscal year with the expressed wishes of voters of the county to provide funds for park acquisition, without curtailing other essential county services, it is necessary that this act take immediate effect.

CHAPTER 298

An act to add Sections 31681.52 and 31739.32 to the Government Code, relating to the County Employees' Retirement Law of 1937.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 31681.52 is added to the Government Code, to read:

31681.52. Every retirement allowance or optional death allowance, including an allowance payable to a survivor of a member, payable to or on account of any member of this system or of a superseded system who has been or was retired for service is hereby increased as follows:

In no event shall any allowance be increased by an amount greater than seventy-five dollars ($75) a month. A member with credit for 10 or more years of service in the system shall receive not less than twenty-five dollars ($25) a month.

This section shall not be operative in any county until such time as the board of supervisors shall, by ordinance adopted by a majority vote, make the provisions of this section applicable in such county.

SEC. 2. Section 31739.32 is added to the Government Code, to read:

31739.32. Every retirement allowance, optional death allowance, or annual death allowance, including an allowance payable to a survivor of a member, payable to or on account of any member of this system or of a superseded system who has been or was retired for disability is increased as follows:

In no event shall any allowance be increased by an amount greater than seventy-five dollars ($75) a month or less than twenty-five dollars ($25) a month. A member with credit for 10 or more years of service in the system shall receive not less than twenty-five dollars ($25) a month.

This section shall not be operative in any county until such time as the board of supervisors shall, by ordinance adopted by majority vote, make the provisions of this section applicable in such county.

CHAPTER 299

An act to amend Section 2169 of the Revenue and Taxation Code, relating to property tax limitations, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 2169 of the Revenue and Taxation Code is amended to read:

2169. (a) Notwithstanding any other provision of law, except as provided in subdivisions (b), (c), (d), (e), (f), (g), and (h) the maximum property tax rate which may be levied by any special district shall be the property tax rate levied by the special district for the 1972–1973 fiscal year, exclusive of the rate for bond interest and redemption charges. For any special district formed after the 1972–1973 fiscal year, the property tax rate limit shall be established by a vote of the people.

(b) The special district may levy a property tax rate in excess of the rate provided in subdivision (a) for the payment of validly contracted bonded indebtedness and interest thereon, and for the payment of retirement and pension benefits pursuant to laws which have been, or may in the future be, approved by the voters.

(c) The special district may levy a rate in excess of the rate provided in subdivision (a) if the percentage increase or decrease in population and the percentage increase or decrease in the cost of living (as determined by the California consumer price index as established by the California Department of Industrial Relations) for the 12 months prior to July 1, when added together, exceeds the percentage increase or is less than the decrease in property tax revenue received by the special district.

The additional rate which may be levied shall not exceed a rate which would produce an amount of revenue equal to the difference between:

(1) The revenue which would be received if revenue were to grow or decline by the same percentage as the percentage growth or reduction of population in the special district and cost of living; and

(2) The revenue which would be received by levying the maximum rate in subdivision (a).

(d) If, on the operative date of this section, any special district is a party to any contract or lease, the terms of which in substance provide (1) that the special district shall make payments to the federal government, the State of California, or any local public agency and (2) that its governing body shall, whenever necessary, levy a property tax or assessment sufficient to provide for all payments under the contract or lease in a timely manner, such special district shall be allowed to levy an additional tax rate as required to fulfill such contract or lease.

(e) The maximum tax rate which may be levied by a special district may be changed by a majority of those voting in an election called for such purpose.

(f) The special district may levy an additional rate in excess of the maximum rate provided in subdivision (a) to pay for any costs which are mandated by the federal government or the courts after the effective date of this article and which are not funded by the federal or state government.

Any special district which annexes or has annexed additional territory shall be allowed to levy an additional rate upon the territory subject to the annexation to the extent necessary to collect obligations owing to the annexing special district arising from the terms and condition of the annexation.

The Controller may audit special district rate increases under the provisions of this subdivision, and if he does not consider them to be necessary to meet the costs of federally or court-mandated programs, may request taxpayer relief by Attorney General action.

(g) In addition to the rate authorized by subdivision (a), a regional park district may levy an additional rate, if such rate has been authorized by the Legislature prior to January 1, 1973, and if such legislation contained a provision that such additional rate shall be subject to referendum. In no event shall such additional rate exceed five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and such additional rate shall be levied only under the terms and conditions specified in the legislative authorization.

(h) In the event that a county, or a district located in more than one county, elects to follow the provisions of Part 3.5 (commencing with Section 2131) of this division, the maximum property tax rate for such district shall be determined in accordance with subdivision (1) or (2), and the actual property tax rate shall then be levied in each county in which the district is located as provided in Part 3.5 (commencing with Section 2131) without regard to the limitations in Chapter 1.5 (commencing with Section 2161) or in this chapter. For the purposes of this section, "taxable property" includes all property within the district on the secured assessment rolls as certified by the county auditors, including property which is subject to an exemption for which subventions are received from the state (such as the homeowners' or business inventory exemption).

(1) If a maximum tax rate is provided in the enabling statute under which the district is organized, the maximum property tax rate for the district shall be the rate provided by statute applied to the total assessed value of the taxable property.

(2) If no maximum property tax rate is provided by statute, the maximum property tax rate for such a district shall be the rate determined by dividing the tax revenues receivable from the taxable property by the total assessed value of the taxable property. For the purposes of this subdivision, "tax revenues receivable" means the amount of tax revenue which would have been received in the 1972–73 fiscal year if property tax had been collected in regard to all taxable property without regard for delinquencies, penalties, or other modifications or adjustments to tax revenues.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect.

The facts constituting such necessity are:

Intercounty districts equalize their tax rates so that all taxpayers

of such districts bear equal tax burdens despite variations between the ratios of assessed value to full cash value in the several counties. Chapter 1406 of the Statutes of 1972, would prevent an intercounty district from equalizing completely if that would result in a tax rate in one county which exceeded the district's maximum permissible tax rate. In order to permit such districts to equalize their fiscal 1973–1974 tax rates and thereby achieve equity for all district taxpayers, it is essential that this act take effect immediately.

CHAPTER 300

An act to amend Section 17206 of the Education Code, relating to school audits.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 17206 of the Education Code is amended to read:

17206. Not later than the first day of May of each fiscal year each county superintendent of schools shall provide for an audit of all funds under his jurisdiction and control and the governing board of each district shall either provide for an audit of the books and accounts of the district or make arrangements with the county superintendent of schools having jursdiction over the district to provide for such auditing. In the event the governing board of a school district has not provided for an audit of the books and accounts of the district by April 1st, the county superintendent of schools having jurisdiction over the district shall provide for the audit.

Each audit shall include all funds of the district including the student body and cafeteria funds and accounts and any other funds under the control or jurisdiction of the district.

The cost of the audits provided for by the county superintendent of schools shall be paid from the county school service fund and the county superintendent of schools shall transfer the pro rata share of the cost chargeable to each district from district funds.

The cost of the audit provided for by a governing board shall be paid from district funds. The audit of the funds under the jurisdiction and control of the county superintendent of schools shall be paid from the county school service fund.

The audits shall be made by a certified public accountant or a public accountant, licensed by the State Board of Accountancy. Not later than November 15th, a report of each audit for the preceding fiscal year shall be filed with the county clerk and the county superintendent of schools of the county in which the district is located, the Department of Education and the Department of

4775 364525 628

Finance. The submission date may be extended to, but not later than, December 31 for justifiable cause upon written request by the auditor and approval by the county superintendent of schools. The Superintendent of Public Instruction shall make any adjustments necessary in future apportionments of state funds, to correct any discrepancies revealed by such audit reports under the provisions of Section 17414 of this code.

If a governing board or county superintendent of schools fails or is unable to make satisfactory arrangements for audit pursuant to this section, the Department of Finance may make arrangements for the audit and the cost of such audit shall be paid from school district funds or the county school service fund as the case may be.

The Department of Finance with the cooperation of the Department of Education shall prescribe the statements and other information to be included in the audit reports filed with the state. The Department of Finance may make such audits, surveys and reports, and may develop suggested procedures for carrying out the purposes of this section, as in the judgment of the department will serve the best interests of the state.

Nothing in this section shall be considered as authorizing examination into or report on the curriculum used or provided for in any school district.

CHAPTER 301

An act to add Section 16477 to the Public Utilities Code, relating to public utility districts.

[Approved by Governor August 23, 1973. Filed with Secretary of State August 24, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 16477 is added to the Public Utilities Code, to read:

16477. The Board of Directors of the Tahoe City Public Utility District and the Board of Directors of the North Tahoe Public Utility District shall each have the authority to fix and collect an annual standby charge for sewage service on all lands within the district under its jurisdiction, in such amount as the board shall specify, provided that such standby charge for sewage service shall not exceed ten dollars ($10) per acre for parcels in excess of one acre or twenty dollars ($20) per parcel for parcels less than one acre.

The Legislature hereby finds and declares that this section, applicable only to the Tahoe City Public Utility District and the North Tahoe Public Utility District is necessary because of the unique and special water management, pollution, and sewage disposal problems of the Lake Tahoe Basin.

CHAPTER 302

An act to amend Section 1013a of the Code of Civil Procedure, relating to civil actions.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 1013a of the Code of Civil Procedure, as amended by Chapter 1083 of the Statutes of 1972, is amended to read:

1013a. (a) Proof of service by mail may be made by one of the following methods:

(1) An affidavit affixed to the original, or to a true copy, of the document served and filed in the cause, showing the name and residence or business address of the person making the service, showing that he is a resident of or employed in the county where the mailing occurs, that he is over the age of 18 years and not a party to the cause, and showing the date and place of deposit in the mail, the name and address of the person served as shown on the envelope, and also showing that the envelope was sealed and deposited in the mail with the postage thereon fully prepaid.

(2) A certificate affixed to the original, or to a true copy, of the document served and filed in the cause, showing the name and business address of the person making the service, showing that he is an active member of the State Bar of California and is not a party to the cause, and showing the date and place of deposit in the mail, the name and address of the person served as shown on the envelope, and also showing that the envelope was sealed and deposited in the mail with the postage thereon fully prepaid.

(3) In case of service by the clerk of a court of record, a certificate by said clerk affixed to the original, or to a true copy of the document served and filed in the cause, showing the name of the clerk and the name of the court of which he is the clerk, and that he is not a party to the cause, and showing the date and place of deposit in the mail, the name and address of the person served as shown on the envelope, and also showing that the envelope was sealed and deposited in the mail with the postage thereon fully prepaid.

(b) Every copy served pursuant to this section shall bear a notation of the date and place of its mailing, or be accompanied by an unsigned copy of the affidavit or certificate of mailing.

SEC. 2. In enacting this act, the Legislature hereby determines and finds that any duties, obligations or responsibilities imposed on local government are minor in nature and do not result in a significant new program for local government or a significant increase in level of service of an existing mandated program, and no additional economic burden or cost is intended to be imposed hereby. Therefore, there are no state-mandated costs in this act which require reimbursement under Section 2164.3 of the Revenue

485 364555 634

and Taxation Code.

CHAPTER 303

An act to add Chapter 12 (commencing with Section 13200) to Division 5 of the Business and Professions Code, relating to animals, and making an appropriation therefor.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Chapter 12 (commencing with Section 13200) is added to Division 5 of the Business and Professions Code, to read·

CHAPTER 12 ANIMAL EUTHANASIC DEVICES

13200 For purposes of this chapter "animal euthanasic device" means any carbon monoxide gas chamber or high-altitude decompression chamber used by a person, peace officer, officer of a humane society, or officer of a pound or animal regulation department of a public agency, for the killing of any dog or cat.

13201. Except as provided in Section 13206, the State Sealer shall semiannually inspect all animal euthanasic devices to ascertain that each such device meets the standards set forth in subdivisions (a) to (d), inclusive, of Section 597u of the Penal Code, or subdivisions (a), (b), (c), and (f) of Section 597w of the Penal Code, as the case may be.

13202. Upon ascertaining that an animal euthanasic device meets the standards prescribed for such device, the State Sealer shall seal the device in a manner approved by the department.

13203. Upon ascertaining that an animal euthanasic device does not meet the standards prescribed for such device, the State Sealer shall tag such device in the manner prescribed in Section 12506.

13204. An animal euthanasic device tagged "out of order" shall be repaired or corrected, and such repair or correction shall be approved by the department, prior to subsequent use of the device for killing of dogs or cats.

13205. No animal euthanasic device, whether sealed or not, which does not meet the standards prescribed by either Section 597u or 597w of the Penal Code shall be used for the killing of dogs or cats.

13206. (a) Upon application to the State Sealer, a county sealer may be authorized by the State Sealer to inspect, seal, and tag animal euthanasic devices within his county, and thereafter the county sealer shall have the duties and authority vested by this chapter in the State Sealer.

(b) The State Sealer shall not authorize a county sealer to inspect,

4141 364570 637

seal, and tag animal euthanasic devices which are under the direct control of such county sealer.

SEC. 2. There is hereby appropriated from the General Fund to the Department of Food and Agriculture the sum of twelve thousand nine hundred forty-eight dollars ($12,948), or so much thereof as may be necessary, for the costs of enforcement of the provisions of this act for the 1973–1974 fiscal year.

CHAPTER 304

An act to repeal Section 597x of the Penal Code, as added by Chapter 887 of the Statutes of 1972, relating to animals, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 597x of the Penal Code, as added by Chapter 887 of the Statutes of 1972, is repealed.

SEC. 2. Section 1 of this act shall become operative only if Senate Bill No. 141 is chaptered and adds Chapter 12 (commencing with Section 13200) to Division 5 of the Business and Professions Code, and shall become operative at the time that Senate Bill No. 141 is chaptered by the Secretary of State.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Provisions of Chapter 887 of the Statutes of 1972 could be construed to require counties to expend money for equipment and training of personnel to enforce such provisions. However, in the event the state assumes responsibility for enforcement of such provisions, pursuant to legislation pending during the 1973–74 Regular Session, the counties should not be obliged to expend such funds, and it is necessary that the Legislature's intention in this regard be given immediate effect.

CHAPTER 305

An act to add Section 5010.5 to the Elections Code, relating to elections.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION. 1. Section 5010.5 is added to the Elections Code, to read:

5010.5. Whenever any city measure qualifies for a place on the ballot, the governing body may direct the city clerk to transmit a copy of the measure to the city attorney, unless the organization or salaries of the office of the city attorney are affected. The city attorney shall prepare an impartial analysis of the measure showing the effect of the measure on the existing law and the operation of the measure. If the measure affects the organization or salaries of the office of the city attorney, the governing board may direct the city clerk to prepare the impartial analysis. The analysis shall be printed preceding the arguments for and against the measure. The analysis shall not exceed 500 words in length.

CHAPTER 306

An act to amend Section 11552 of the Business and Professions Code, relating to real estate.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 11552 of the Business and Professions Code is amended to read:

11552. (a) If there is no advisory agency, the clerk of the governing body shall submit the tentative map to the governing body at its next regular meeting, which shall act thereon within 40 days thereafter.

If there is an advisory agency, it shall report, in writing, on the map or maps of any subdivision submitted to it within 50 days after the tentative map has been filed and the report shall approve, conditionally approve or disapprove the map or maps of the subdivision.

The governing body may authorize the advisory agency to report its action direct to the subdivider. If the governing body does not so authorize the advisory agency, the advisory agency shall make its report to the governing body, which body shall act upon the report within 10 days or at its next succeeding regular meeting after receipt of the report.

The governing body, when there is no advisory agency or the advisory agency is required by Section 11550.1 of the Business and Professions Code to submit the tentative map to the Office of Intergovernmental Management, may extend the time permitted for action on such map if it is required to allow consideration of the

evaluation received from the Office of Intergovernmental Management, but such extension shall not exceed 15 days.

Any reports or recommendations on the map or maps of any subdivision submitted to the advisory agency or governing body shall be submitted in writing to the subdivider prior to final action on the map or maps by the advisory agency or governing body. Such required submission in writing shall be deemed complied with when such reports or recommendations are placed in the mail directed to the subdivider at his designated address and bearing the proper postage.

(b) If the subdivider is dissatisfied with any action of the advisory agency with respect to the tentative map, or the kinds, nature and extent of the improvements recommended by the advisory agency to be required, he may, within 15 days after such action, appeal to the governing body, unless an appeal board has been designated in which event such appeal must be to the appeal board, for a public hearing thereon. The governing body or appeal board as the case may be shall hear the appeal, upon notice to the subdivider and the advisory agency, unless the subdivider consents to a continuance, within 15 days or at its next succeeding regular meeting. At the time fixed for the hearing the governing body or appeal board shall proceed to hear the testimony of the subdivider or any witnesses in his behalf and the testimony of the representatives of the advisory agency or any witnesses in its behalf. It may also hear the testimony of other competent persons respecting the character of the neighborhood in which the subdivision is to be located, the kinds, nature and extent of improvements, the quality or kinds of development to which the area is best adapted and any other phase of the matter with respect to which it may desire to inquire into.

Upon conclusion of the hearing the governing body or appeal board shall within seven days declare its findings based upon the testimony and documents produced before it. It may sustain, modify, reject or overrule any recommendations or rulings of the advisory agency and may make such findings as are not inconsistent with the provisions of this chapter or local ordinance adopted pursuant to this chapter.

If the subdivider or advisory agency is dissatisfied with any action of the appeal board with respect to the tentative map, or the kinds, nature and extent of the improvements required by the appeal board, either may, within 15 days after such action, appeal to the governing body. The governing body shall hear the appeal within 15 days or at its next succeeding regular meeting, unless the subdivider consents to a continuance, and shall give notice of such hearing to the subdivider, the appeal board and the advisory agency. The governing body shall hear the argument of the subdivider, the appeal board and the advisory agency or of their representatives based upon the testimony and the documents before the appeal board, and may receive documents from or hear the testimony of any competent person respecting the character of the neighborhood in which the

subdivision is to be located, the kinds, nature and extent of improvements, the quality of kinds of development to which the area is best adapted and any other phase of the matter with respect to which it may desire to inquire into. Upon conclusion of the hearing the governing body shall, within seven days, declare its findings based upon the testimony and documents produced before it or before the appeal board. It may sustain, modify, reject or overrule any recommendations or rulings of the appeal board and may make such findings as are not inconsistent with the provisions of this chapter or local ordinance adopted pursuant to this chapter

9974.9. If an applicant accepts employment in which the applicant is to be paid on the basis of straight commissions, or a drawing account against commissions, or either a drawing account or salary plus commissions, the fee payable by the applicant may be predicated upon the projected total gross earnings during the first year of employment as estimated by the employer.

Upon the conclusion of such an applicant's first 12 months of

employment, a computation of his actual total gross earnings may be provided by the applicant to the agency, and, predicated upon appropriate proof of such earnings, an adjustment in the fee shall be made in which either the agency shall refund to the applicant any excess fee paid by him or the applicant shall pay to the agency any deficiency thereon.

If the applicant's employment is terminated prior to the conclusion of the first 12 months of employment, the actual total gross earnings of the applicant for the period of employment shall be projected to 12 months on a pro rata basis as though the applicant had been employed for the entire period of 12 months, and a computation shall be made thereon. The fee paid or payable by the applicant shall be predicated upon such computation as though the applicant had been so employed

SEC. 4. Section 9975 of the Business and Professions Code is amended to read:

9975. No employment agency shall accept a fee from any applicant for employment, or send any applicant for employment without having obtained orally or in writing, a bona fide order for employment, and in no case shall such employment agency accept, directly or indirectly, a registration fee of any kind Should an employment agency send an applicant for employment and should the applicant accept employment other than that position specified in the bona fide order for employment to which the applicant was sent, but with the same employer, then the agency shall be entitled to a fee for the employment of the applicant, payable by the applicant, computed under the terms of the fee schedule in effect in the agency at the time of referral, provided that the applicant accepts employment within 180 days of the date of referral. The expiration date of the referral shall be stated in the contract.

In interagency disputes concerning the earning of a fee for placement of an applicant, the fee shall be earned by the agency responsible for the applicant being placed. A reasonable effort shall be made by the billing agency to determine that it is entitled to the fee. The applicant shall be responsible for only one full fee for any single placement, and this fact shall be so stated in the contract.

SEC. 5. Section 9977 of the Business and Professions Code is amended to read:

9977. If the applicant making a deposit on a fee for placement fails to accept employment, the employment agency shall, upon demand therefor, repay the amount of the deposit to the applicant. Unless the deposit is returned within 48 hours after demand, the employment agency shall pay to the applicant an additional sum equal to the amount of the deposit. A notice to this effect shall be inserted in all contracts between the agency and the applicant, and in all receipts given to the applicant for cash payment in advance of employment, and in the schedule of fees posted in the office of the agency, except in the fee schedules of those agencies which are exclusively employer retained and which charge no fees to

applicants. The agency shall give a receipt as prescribed by Section 9984 to every applicant from whom a deposit is received. No other deposit or prepayment of any kind may be required by an agency. If the applicant accepts employment, the deposit shall be applied to the fee to be paid by the applicant.

SEC. 6. Section 9984 of the Business and Professions Code is amended to read.

9984. (a) Every employment agency shall give to every applicant for employment from whom a fee or deposit is to be received a contract or receipt, in which is stated all of the following:

(6) The kind of work or employment.

(7) The daily hours of work; the wages or salary including any consideration of privilege.

(8) If any labor trouble exists at the placement of employment, that fact shall be stated in the contract.

(9) Any other term, condition, or understanding agreed upon between the agency and the applicant.

(b) There shall be printed on the face of the contract in type no smaller than 10-point bold the following: "This agency is licensed by the Bureau of Employment Agencies of the State of California, 1021 O Street, Sacramento, California. Inquiries concerning your contract may be sent to this address." At the bottom of the contract there shall appear a notice to the effect that the contract is the property of the applicant and shall not be taken from him.

(c) The employment agency shall in such contract undertake to repay the applicant the fee in the event the applicant fails to accept employment

(d) Every such contract or receipt shall be made and numbered consecutively in original and duplicate, both to be signed by the applicant and the person acting for the employment agency. The original shall be given to the applicant and the duplicate shall be kept on file at the agency.

An act to amend Section 585 of the Code of Civil Procedure, relating to default judgments.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 585 of the Code of Civil Procedure is amended to read:

585. Judgment may be had, if the defendant fails to answer the complaint, as follows:

1. In an action arising upon contract or judgment of a court of this state for the recovery of money or damages only, if the defendant has, or if more than one defendant, if any of the defendants have, been served, other than by publication, and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10, or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, and proof of such service of summons, shall enter the default of the defendant or defendants, so served, and immediately thereafter enter judgment for the principal amount demanded in the complaint or a lesser amount if credit has been acknowledged, together with interest allowed by law or in accordance with the terms of the contract, and the costs against the defendant, or defendants, or against one or more of the defendants. If, by rule of court, a schedule of attorney fees to be allowed has been adopted, the clerk may include in the judgment an attorney fee in accordance with such schedule (i) if the contract provides that an attorney fee be allowed in the event of an action thereon, or (ii) if the action is one in which the plaintiff is entitled by statute to recover an attorney fee in addition to money or damages; provided, that plaintiff shall have the right, upon filing a written request at the time of application for entry of the default of the defendant or defendants, to have the attorney fee fixed by the court, whereupon, after the entry of the default, the court shall, hear the application for determination of the attorney fee and render judgment for such fee and for the other relief demanded in the complaint, or a lesser amount if credit has been acknowledged, and the costs against the defendant, or defendants, or against one or more of the defendants.

2. In other actions, if the defendant has been served, other than by publication, and no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer

pursuant to Section 396b, notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10 or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed with the clerk or judge of the court within the time specified in the summons, or such further time as may be allowed, the clerk, or the judge if there be no clerk, upon written application of the plaintiff, shall enter the default of the defendant; and thereafter the plaintiff may apply to the court for the relief demanded in the complaint; the court shall hear the evidence offered by the plaintiff, and shall render judgment in his favor for such sum (not exceeding the amount stated in the complaint), as appears by such evidence to be just. If the taking of an account, or the proof of any fact, is necessary to enable the court to give judgment or to carry the judgment into effect, the court may take the account or hear the proof, or may, in its discretion, order a reference for that purpose. And where the action is for the recovery of damages, in whole or in part, the court may order the damages to be assessed by a jury; or if, to determine the amount of damages, the examination of a long account is involved by a reference as above provided.

3 In all actions where the service of the summons was by publication the plaintiff, upon the expiration of the time for answering, may, upon proof of the publication, and that no answer, demurrer, notice of motion to strike (of the character hereinafter specified), notice of motion to transfer pursuant to Section 396b, notice of motion to quash service of summons or to stay or dismiss the action pursuant to Section 418.10, or notice of the filing of a petition for writ of mandate as provided in Section 418.10 has been filed, apply in writing for judgment; and the court shall thereupon require proof to be made of the allegations of the complaint; and if the defendant is not a resident of the state, shall require the plaintiff, or his agent, to be examined, on oath, respecting any payments that have been made to the plaintiff, or to anyone for his use, on account of any demand mentioned in the complaint, and may render judgment for the amount which he is entitled to recover, provided that, in all cases affecting the title to or possession of real property, where the service of the summons was by publication and the defendant has failed to answer, no judgment shall be rendered upon proof of mere occupancy, unless such occupancy shall have continued for the time and shall have been of the character necessary to confer title by prescription, and in all cases where the plaintiff bases his claim upon a paper title, the court shall require evidence establishing plaintiff's equitable right to judgment before rendering such judgment; provided further, however, that in actions involving merely the possession of real property where the complaint is verified and shows by proper allegations that no party to the action claims title to the real property involved, either by prescription, accession, transfer, will, or succession, but only the possession thereof, the court may render judgment upon proof of

occupancy by plaintiff and ouster by defendant.

A notice of motion to strike within the meaning of this section is a notice of motion to strike the whole or any part of a pleading filed within the time within which the moving party is required otherwise to plead to such pleading. The notice of the motion to strike shall specify a hearing date not more than 15 days from the filing of such notice, plus any additional time that the moving party is otherwise required to give the adverse party The filing of such notice of motion does not extend the time within which to demur.

4. In the cases referred to in subdivisions 2 and 3 of this section, excepting those cases which involve the dissolution or annulment of marriage or separate maintenance or the custody of children, or upon application to have an attorney's fee fixed by the court pursuant to subdivision 1 of this section, the court in its discretion may permit the use of affidavits, in lieu of personal testimony, as to all or any part of the evidence or proof required or permitted to be offered, received, or heard in such cases. The facts stated in such affidavit or affidavits shall be within the personal knowledge of the affiant and shall be set forth with particularity, and each affidavit shall show affirmatively that the affiant, if sworn as a witness, can testify competently thereto

CHAPTER 313

An act to amend Section 13012 of the Education Code, relating to school districts.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13012 of the Education Code is amended to read:

13012. (a) The governing board of a small school district, which does not employ persons charged with school-community duties of counseling students and parents or guardians in their homes, may contract with any qualified social service agency or organization to secure the services, on a part-time or full-time basis, of qualified social workers as counselors in schools and in the homes of pupils. The State Board of Education shall adopt rules and regulations for the implementation of this section, but such social workers shall not be required to hold credentials or certification documents otherwise required under this code for service in the public schools.

(b) Social workers authorized to serve under this section, as well as credentialed school social workers in districts other than small school districts, may perform, but are not limited to, the performance of the following services to children, parents, school personnel, and

community agencies:

(1) Group and individual counseling and casework with parents and children relating to learning and adjustment problems of children, including parent education.

(2) Liaison with community resources offering services to schoolchildren and their families.

(3) Consultation with parents and others in crisis situations, such as truancy, drug abuse, suicide threats, assaults, and child abuse.

(4) Assessment of social and behavioral disabilities affecting learning, including but not limited to case study evaluation, recommendations for remediation or placement, and periodic reevaluation.

(5) Participation in and coordination of staff development programs for professional, paraprofessional, and classified school staff and supervision of pupil personnel services workers.

(6) Coordination of social service and mental health components of children's centers and other early childhood development programs in the public schools.

(7) Consultation and collaboration with school personnel to promote a school environment responsive to the needs of children and the planning of educational programs which will prepare children to function in a culturally diversified society.

(c) As used in this section "small school district" means any of the following school districts:

(1) A unified school district having an average daily attendance of less than 1,501.

(2) A high school district having an average daily attendance of less than 301.

(3) An elementary school district having an average daily attendance of less than 901.

CHAPTER 314

An act to amend Section 13593 of the Education Code, relating to school classified employees, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13593 of the Education Code is amended to read:

13593. All probationary and permanent part-time classified employees shall be entitled to sick leave, and all other benefits conferred by law on classified employees. Part-time employees shall be entitled to all leaves and benefits granted by the governing board

to a majority of the regular full-time employees in the classified service of the district or to regular full-time employees in the same classified positions or general class of positions; but such leaves and benefits may be prorated in the same ratio as the regular work hours per day, days per week, weeks per month, or months per year of such part-time employees bear to 8 hours per day, 40 hours per calendar week, calendar weeks per month, or 12 calendar months during the school year.

Except for prorating benefits for part-time employees as herein authorized, the governing board shall provide at least the same benefits for all regular employees in the classified service as it provides for the majority of such employees.

Nothing in this section shall be construed to prohibit the granting of additional benefits for some employees in recognition of nature of work, level of classification, or length of service.

This section shall not apply to employees properly designated as substitute, short-term, or limited-term employees, as defined in Sections 13581 and 13726 of this code, unless such employees are specifically included by a governing board, or by a personnel commission for those districts included under the provisions of Article 5 (commencing with Section 13701) of this chapter.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

This section shall not apply to those benefits authorized under the provisions of Article 1 (commencing with Section 53200) of Chapter 2 of Part 1, of Division 2 of Title 5 of the Government Code

SEC. 2. The amendments to Section 13593 of the Education Code by Section 1 of this act are declaratory of existing law. It is the intent of the Legislature that Section 13593 shall be construed to mandate part-time classified employees sick leave, vacation, and all other benefits, as conferred by existing law, on classified employees.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recent judicial construction of Education Code Section 13593 has resulted in sick leave and all other benefits for part-time classified school employees being permissively prorated by the governing board on either an hourly, daily, weekly, or monthly basis. However, existing statutes in the Education Code confer certain benefits on part-time classified employees, including 12 days sick leave and mandates that, in the case of part-time classified employees, such benefits shall be prorated in the ratio of the number of months employed bears to 12. This act would alleviate the deleterious effect such judicial construction will have upon those benefits legislatively conferred in law. It is, therefore, necessary that this act take effect immediately.

CHAPTER 318

An act relating to the Ventura Port District.

[Approved by Governor August 27, 1973 Filed with Secretary of State August 27, 1973]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any provisions of Section 6304.1 of the Harbors and Navigation Code or any other provision of law, the Ventura Port District may enter into a lease of a portion of its land and water area for the development of apartments and townhouses and boatslips. Such facilities shall be offered for lease, without discrimination based on race, creed, religion, or national origin, to all persons on equal and reasonable terms. Such leases may authorize the lessee to sublet individual dwelling units, but such leases shall not exceed a term of 50 years, after which time any improvements constructed pursuant to the lease shall revert to the Ventura Port District. Any such lease shall contain express provisions requiring the lessee to provide for reasonable public access across the leased lands to adjacent port water areas.

SEC. 2. Nothing in this act shall be construed to allow the use of tidelands or submerged lands in any manner inconsistent with the California Constitution or with the public trust for commerce, navigation, or fisheries.

SEC. 3. The Ventura Port District purchased certain lands some years ago and has since dredged such lands to create a marina. It is uncertain whether any portion of these lands constitute tidelands. The Ventura Port District proposes to develop the marina under agreement with the Department of Navigation and Ocean Development pursuant to the provisions of Division 1 (commencing with Section 30) of the Harbors and Navigation Code for small craft harbor facilities and improvements. The Legislature hereby finds that such marina development is in the public interest and that, because of the unique situation which exists with respect to the general development of the Ventura Marina, a general law cannot be made applicable and the enactment of this act as a special law is necessary

4010.5. (a) The supervising pharmacy inspector and any pharmacy inspector employed by the board or the department's Division of Investigation shall have the authority, as a public officer, to arrest, without a warrant, any person whenever such officer has reasonable cause to believe that the person to be arrested has, in his presence, violated any provision of this chapter or of the former Division 10.5 (commencing with Section 11900) or Division 10.9 (commencing with Section 11990) of the Health and Safety Code,

repealed and incorporated in Division 10 (commencing with Section 11000) of the Health and Safety Code by Chapter 1407 of the Statutes of 1972, the violation of which is declared to be a public offense. If such violation is a felony, or if the arresting officer has reasonable cause to believe that the person to be arrested has violated any such provision which is declared to be a felony, although no felony has in fact been committed, he may make an arrest although the violation or suspected violation did not occur in his presence.

(c) If a city legislative body makes an election pursuant to subdivision (a), the district shall no longer impose such tax on property within the city, and upon collection of city taxes, such amount shall be paid by the city or transferred by the county auditor to the district.

(d) If the legislative body of a city makes an election pursuant to subdivision (a), the legislative body shall notify the county auditor, county assessor, and county tax collector by no later than the first day of September of the fiscal year in which such election becomes effective, and the county auditor shall not extend the stated portion of the district's tax on property within the city. Upon the request of the city legislative body, the county tax collector shall list each involved district on the property tax bill or an accompanying statement, clearly indicating that the city has elected to include the cost of the special district service in the city tax rate.

(e) For purposes of this section, "special district" means any special district where the county board of supervisors act as, or has appointed, the governing body of such districts providing fire or library services to one or more cities or any county library service established under Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code provided for one or more cities, if all property within the city is taxed to support such service.

(f) This section shall not apply in any case in which a city is making the payments described in this section to a district on the effective date of this section.

(g) If any additional costs are incurred by a county as a result of an election under this act by a city, such county may collect such costs from the city.

(h) This section shall apply only to cities which are in counties which have a population of 6,000,000 or more.

SEC. 2. Chapter 1.5 (commencing with Section 2161) of Part 4 of Division 1 of the Revenue and Taxation Code is repealed.

SEC. 3. Chapter 3 (commencing with Section 2201) is added to Part 4 of Division 1 of the Revenue and Taxation Code, to read.

CHAPTER 3. MAXIMUM PROPERTY TAX RATES FOR LOCAL AGENCIES

Article 1. Definitions

2201. Unless the context otherwise requires, the definitions contained in this article govern the construction of this chapter. The definition of a word applies to any variants thereof; the singular tense of a word includes the plural.

2202. "Ad valorem property taxation" means any source of revenue derived from applying a property tax rate to the assessed value of property.

2203. "City" means any city whether general law or charter, except a city and county.

2204. "Classification of property" means any enumeration or grouping of property by a statute which results in it being treated differently from other property for purposes of taxation.

2205. "Costs mandated by the courts" means any increased costs incurred by a local agency in order to comply with a final court order issued after January 1, 1973. "Costs mandated by the courts" do not include (i) costs incurred as a result of a judgment in an eminent domain or condemnation proceeding, or (ii) costs incurred in order to comply with a final court order mandating the specific performance, or awarding damages as a result of nonperformance, of any contract or agreement entered into after January 1, 1973.

2206. "Costs mandated by the federal government" means any increased costs mandated upon a local agency after January 1, 1973, in order to comply with requirements of federal statute or regulation. "Costs mandated by the federal government" does not include costs which are specifically reimbursed or funded by the federal or state government.

2208. "County" means any chartered or general law county. "County" includes a city and county.

2211. "Local agency" means any city, county or special district.

2212. "Percentage change in the cost of living" means the percentage change from April 1 of the prior year to April 1 of the current year in the California Consumer Price Index for all items, as determined by the California Department of Industrial Relations.

2213. "Property tax rate" means any rate of tax or assessment which is levied per unit of assessed value of property. "Property tax rate" includes any rate or assessment which is levied on the value of land only, as well as any rate or assessment which is levied on the value of land and improvements.

2214. "Sales tax exemption" means any provision which causes a reduction in revenue to a city or county under Part 1.5 (commencing with Section 7200) of Division 2.

2215. "Special district" means any agency of the state for the local performance of governmental or proprietary functions within limited boundaries. "Special district" includes a county service area,

a maintenance district or area, an improvement district or improvement zone, or any other zone or area, formed for the purpose of designating an area within which a property tax rate will be levied to pay for a service or improvement benefiting that area. "Special district" does not include a city, a county, a school district or a community college district.

2216. County free libraries established pursuant to Chapter 2 (commencing with Section 27151) of Division 20 of the Education Code; areas receiving county fire protection services pursuant to Section 25643 of the Government Code; and county road districts established pursuant to Chapter 7 (commencing with Section 1550) of Division 2 of the Streets and Highways Code, shall be considered "special districts" for all purposes of this chapter.

Article 2. General Provisions

2225. The property tax rate limits established in this chapter are established pursuant to authorization granted to the Legislature in Section 1d of Article XIII of the State Constitution and shall apply to all local agencies notwithstanding any other provision of law.

2226. It is the intent in establishing the property tax rate limits in this chapter to establish limits that will be flexible enough to allow local agencies to continue to provide existing programs; that will be firm enough to insure that the property tax relief provided by the Legislature will be long lasting; and that will afford the voters in each local agency a more active role in the fiscal affairs of each such agency.

2227. Annually, the Department of Finance shall transmit to each city and each county an estimate of the percentage change in the population of the city or the county. Such estimates shall indicate the percentage change in the resident population, excluding the population in state mental and correctional facilities and in federal correctional and federal military installations, of each city and each county between January 1 of the prior year and January 1 of the current year. Such statements shall be transmitted by May 1.

The Department of Finance may request data from any local agency to be used to prepare the population estimate required by this section. If any local agency fails to supply the requested data, the department is not required to provide an estimate for that agency, but may do so using the method deemed most appropriate by the department.

2228. (a) The annual percentage change in population for special districts shall be the percentage established for the county pursuant to Section 2227. If a special district is located in more than one county, it may select the percentage change of any of such counties. If a special district is located entirely within a city, the annual percentage change in population for such district shall be that established for such city pursuant to Section 2227.

(b) If the governing body of a special district determines that the

02008 366165 813

county percentage change in population will not be accurate for such district, it may, within 30 days after May 1, request the department to prepare a special population estimate for the district. The department shall comply with such request prior to August 1, and the estimate prepared by the department shall be used to determine population change for purposes of this chapter. The district shall reimburse the department for the actual cost of preparing such estimate.

2229. No classification or exemption of property for purposes of ad valorem property taxation enacted by the Legislature after January 1, 1973, shall extend for more than five years or shall exempt more than 75 percent of the value thereof from such taxation.

Any such classification or exemption enacted by the Legislature after January 1, 1973, shall be reimbursed by the state for the 1973–1974 fiscal year and for each fiscal year thereafter.

For purposes of this section the actual loss of revenue does not include potential revenue from property of a type which was not being assessed and taxed on January 1, 1973.

Claims for reimbursement shall be filed according to the procedure provided in subdivision (b) of Section 16113 of the Government Code. Upon appropriation of reimbursement funds by the Legislature, the Controller shall pay such claims at the times provided in subdivision (b) of Section 16115 of the Government Code. Such claims shall be audited as provided in Section 16114 of the Government Code.

The Legislative Analyst shall review any classification or exemption of property to which this section is applicable and shall report to the Legislature on the general economic effects thereof. Such report shall be submitted at least one year prior to the date on which the classification or exemption is scheduled to terminate.

2230. The state shall annually reimburse cities and counties for the net loss of revenue from each statute enacted after January 1, 1973, which provides for a sales or use tax exemption. The reimbursement shall be made, when funds have been appropriated by the Legislature, as follows:

(a) Twenty percent of the local net loss shall be distributed to the counties in the same ratio as the total amount of sales and use taxes collected in each county is to the whole. This amount of money shall be deposited by the board of supervisors in the local transportation fund established pursuant to Section 29530 of the Government Code. These moneys shall become part of the local transportation fund and shall be appropriated in the same manner and for the same purposes specified in Section 29531 of the Government Code.

(b) Eighty percent of the local net loss shall be distributed to cities and counties in the same ratio as provided in Section 30462 for the distribution of moneys from the Cigarette Tax Fund.

The distribution of reimbursement moneys pursuant to this section shall be made at the same time and in the same manner as provided in Section 30462 for the distribution of moneys from the Cigarette Tax Fund

02008 366180 816

For purposes of this section the Director of Finance shall estimate the annual net loss of revenue to local agencies. In the case of legislative bills which provide for a sales or use tax exemption, the Director of Finance shall prepare an estimate of the annual net loss of revenue to local agencies during the initial fiscal year in which the bill becomes effective. An appropriation consistent with such estimate shall be included in the bill. In subsequent fiscal years an appropriation to reimburse local agencies as required by this section shall be included in the State Budget. The amount included each year in the State Budget shall be changed by the estimated percentage change from the prior year, in the amount of revenue distributed to cities and counties pursuant to Part 1.5 (commencing with Section 7200) of Division 2.

For purposes of this section the net loss of revenue does not include (i) potential revenue from the sale or use of property of a type which was not being taxed on January 1, 1973, or (ii) the amount which would have been deducted by the Board of Equalization pursuant to Section 7204.3 for the cost of administering local sales and use tax ordinances.

In lieu of distributing reimbursement revenue as provided in this section, any statute exempting property from sales or use tax may provide an alternative procedure for such distribution.

2231. (a) The state shall pay to each local agency and each school district an amount to reimburse the local agency or the school district for the full costs, which are mandated by acts enacted after January 1, 1973, of any new state-mandated program or any increased level of service of an existing mandated program.

(b) Any new state program or increased level of service of an existing mandated program, which is mandated by legislative action after January 1, 1973, shall include provisions within the bill which provide an amount sufficient to cover the total cost of the mandated program for all affected local agencies and school districts, as estimated by the Department of Finance. This amount shall be appropriated to the Controller for disbursement.

The Controller shall allocate the funds among local agencies and school districts for each mandated program based upon claims submitted within 45 days after the operative date of the mandate by the appropriate local agency or school district. Such claims shall be based on the appropriate local agency's, or school district's, estimate of its cost for the mandated program for the fiscal year. The Controller may review claims and may reduce those which appear to be excessive or unreasonable.

The allocations to the appropriate local agencies or school districts shall be made by the Controller in accordance with the provisions of each bill which mandates additional cost.

(c) For subsequent fiscal years, with respect to the costs of any mandated costs as defined in subdivision (a), the Controller shall allocate funds to each appropriate local agency or school district to

02008 366200 820

reimburse for such costs.

Claims shall be submitted by affected local agencies and school districts by October 31 and, after review and adjustments, shall be paid at the time or times provided in each bill which mandates additional cost.

The claims shall include the actual cost for the prior fiscal year and the estimated cost for the current fiscal year. The Controller may reduce any claim for the current fiscal year which appear to be excessive or unreasonable. The Controller shall adjust the payment for the current fiscal year to the local agency or school district to correct for the underpayment or overpayment of the estimated cost of the mandated cost in the prior fiscal year. The Controller may audit the records of any local agency or school district to verify the actual costs of state-mandated programs.

(d) The state shall pay to each local agency the full costs of a new program or increased level of service of an existing program mandated by any state executive regulation issued after January 1, 1973. The costs of any such executive regulation shall be estimated by the Department of Finance. Local agencies shall be reimbursed in the same manner as provided in subdivisions (b) and (c). School districts shall be excluded from the provisions of this subdivision.

(e) "Increased level of service" means any requirement mandated by state law or executive regulation after January 1, 1973, which makes necessary expanded or additional costs to a local agency or a school district.

(f) If a local agency or a school district has been providing a service or program at its option which is subsequently mandated by the state, the state shall pay such local agency or school district for such mandated service or program, and the local agency or school district shall reduce its property tax rate by the amount that the state payment replaces property tax revenues which were being expended on such service or program.

2232. Any funds received by a local agency pursuant to the provisions of this chapter may be used for any public purpose.

Article 4. Maximum Property Tax Rates

2260. The maximum property tax rates for local agencies shall be those established pursuant to the provisions of this article or of Article 6, 7 or 8 of this chapter (commencing with Section 2201) and shall exclude the following from the determination thereof: (1) any property tax rate levied to pay the cost of interest and redemption charges on bonded or other indebtedness which was authorized prior to the effective date of this section, together with any reserve or sinking funds required in connection therewith; (2) any property tax rate levied to pay the cost of interest and redemption charges on bonded or other indebtedness which was authorized after the effective date of this section by the voters of such agency, together with any reserve or sinking funds required in connection therewith;

(3) any property tax rate levied to pay the cost of interest charges on notes of a local agency issued in anticipation of bonds, if such bonds were authorized prior to the effective date of this section or were authorized by the voters of such agency after the effective date of this section, and if the principal amount of any such notes is payable only from proceeds of the sale of such bonds; (4) any property tax rate levied to pay the cost of interest and redemption charges on refunding bonds or on bonds issued pursuant to Section 53541 of the Government Code or Section 71960 of the Water Code, together with any reserve or sinking funds required in connection therewith; (5) any property tax rate levied to pay the cost of retirement and pension benefits provided pursuant to laws which have been approved by the voters of a local agency; (6) any property tax rate levied to pay the cost of payments or contributions which are required to be made to a special fund by specific provision of a city or county charter; (7) any property tax rate levied pursuant to a city charter procedure ordinance for the purpose of paying principal and interest on assessment bonds or for the purpose of paying annual costs of maintenance and operation of improvements financed pursuant to city charter procedure, when the levy is made in relation to benefits derived and not in accordance with the last equalized city or county assessment roll; and (8) any property tax rate levied on behalf of a county superintendent of schools.

2261. The maximum property tax rate which may be levied by any county for general purposes shall be the combination of all countywide property tax rates which were levied for general county purposes in either the 1971–1972 or the 1972–1973 fiscal year, at the option of the board of supervisors

2262. The maximum property tax rate which may be levied by any city shall be:

(1) For general law cities, the aggregate of all citywide property tax rates which were levied for general city purposes in either the 1971–1972 or the 1972–1973 fiscal year, at the option of the city council, provided that if the aggregate of such property tax rates was less than one dollar ($1) in both the 1971–1972 and the 1972–1973 fiscal years, the maximum property tax rate for such cities shall be one dollar ($1). In addition, any property tax rate authorized by the voters of a city as provided in Section 43068 of the Government Code which was not levied as part of the aggregate of citywide taxes in the fiscal year selected by the city council pursuant to this subdivision may also be levied.

(2) For charter cities, the maximum rate, or rates, specified in the charter; provided that any rate in excess of such maximum rate which is authorized by Section 43072 of the Government Code or by Section 35 of Chapter 1 of the Statutes of 1968 (First Extraordinary Session) and which was levied during either the 1971–1972 or the 1972–1973 fiscal year may continue to be levied. If no maximum rate is specified in the charter, the maximum rate shall be the rate levied by the city for either the 1971–1972 or the 1972–1973 fiscal year, at the

02008 366230 826

option of the city council. In addition, if the voters of a charter city, pursuant to provisions of the charter or of general law, have authorized an additional rate, such augmented rate shall be the maximum property tax rate.

2262.1. A city may adjust, or cause to be adjusted, its maximum property tax rate as determined pursuant to the provisions of this chapter in order to comply with the provisions of Section 43073 of the Government Code.

2263. The maximum property tax rate which may be levied by, or on behalf of, a special district shall be:

(1) The maximum property tax rate authorized by the enabling statute under which the district is organized; provided that any rate in excess of such maximum rate which is authorized by Section 35 of Chapter 1 of the Statutes of 1968 (First Extraordinary Session) and which was levied during either the 1971–1972 or the 1972–1973 fiscal year may continue to be levied.

(2) If no such maximum property tax rate is provided by statute, or if a maximum property tax rate is provided but such rate is applicable only to a portion of the purposes for which such district is levying an ad valorem property tax, the maximum rate shall be the rate levied by, or on behalf of, the district for either the 1971–1972 or the 1972–1973 fiscal year, at the option of the governing body of the district. If a district operates on a calendar year, the maximum rate which may be levied pursuant to this subdivision shall be that levied in either calendar 1972 or calendar 1973, at the option of the governing body of the district.

(3) In addition, if the voters of a district, pursuant to provisions of the enabling statute under which the district is organized, have authorized an additional rate, such augmented rate shall be the maximum property tax rate.

2263.1. This section shall apply only to special districts formed between January 1, 1972, and the effective date of this section

(a) For special districts the governing body of which is separately and directly elected by the qualified voters of the district, in the event that a maximum property tax rate cannot be established for such district pursuant to the provisions of Section 2263, the governing body may, by resolution, apply to the board of supervisors of the county in which the district, or the major portion of the assessed value thereof, is located to determine the maximum tax rate. Upon receipt of such a resolution the board of supervisors shall, by resolution, determine the maximum tax rate for the district. Such rate shall be sufficient to permit the district to provide the programs and services for which it was formed.

(b) For special districts the governing body of which is a city council, a board of supervisors or is appointed to office, in the event that a maximum tax rate cannot be established for such district pursuant to the provisions of Section 2263, the governing body may, by resolution, apply to the local agency formation commission in the county in which the district is located to determine the maximum tax

rate. Upon receipt of such a resolution the local agency formation commission shall hold a hearing and shall determine the maximum tax rate for the district. Such rate shall be sufficient to permit the district to provide the programs and services for which it was formed Procedures for holding such a hearing and making such a determination shall follow, as nearly as is practicable, the procedures provided in the District Reorganization Act (Division 1 (commencing with Section 56000) of Title 6 of the Government Code) for hearing and determination by a local agency formation commission.

2263.2. After the effective date of this section the formation of a special district shall not be effective for property tax purposes unless a maximum property tax rate has been established by the voters of the district pursuant to the provisions of Article 6 (commencing with Section 2285) provided, however, that the maximum property tax rate for a maintenance district formed pursuant to the Improvement Act of 1911 or the Municipal Improvement Act of 1913 may be established prior to or concurrently with the formation of such district by any petition or by supplemental written consent executed by property owners holding at least 60 percent in area of the land to be benefited. The procedures for such petition or supplemental written consent shall follow the procedures provided in the Majority Protest Act of 1931.

2263.3. A special district may adjust, or cause to be adjusted, its maximum property tax rate as determined pursuant to the provisions of this chapter in order to comply with the provisions of Section 43073 of the Government Code.

2264. In the event that a local agency elects to follow the provisions of Part 3.5 (commencing with Section 2131) of this division, for levying a property tax rate in certain special districts, the maximum property tax rate for such districts shall be determined as provided in this section. For all purposes of this chapter, such maximum property tax rate shall be applied to the total assessed value within such district. In such situations the actual property tax rate for such a district shall be levied in each county in which the district is situated as provided in Part 3.5 without regard to the limitations provided elsewhere in this article.

(a) If a maximum property tax rate is provided in the enabling statute under which the district is organized, the maximum property tax rate for the district shall be the rate provided by statute.

(b) If no maximum property tax rate is provided by statute, the maximum property tax rate for such a district shall be the rate determined by dividing the receivable property tax revenue of the district by the total assessed value within the district. The governing body of a district may elect, at its option, to use either the 1971–1972 or the 1972–1973 fiscal year as the basis for determining the maximum property tax rate pursuant to this subdivision.

(c) As used in this section:

(1) "Receivable property tax revenue" means the amount of

0 2008 366260 832

revenue from ad valorem property taxation which a district would have received in any fiscal year if the district's ad valorem property taxes for such year had been collected for all taxable property within the district, without regard to delinquencies, penalties or other modifications or adjustments.

(2) "Total assessed value within the district" means all assessed value in each county in which the district is located which is subject to ad valorem property taxation by, or on behalf of, such district; plus the assessed value in each such county which is attributable to the homeowners' property tax exemption and to the business inventory property tax exemption and which otherwise would have been subject to ad valorem property taxation by, or on behalf of, such district.

2265. In lieu of the maximum property tax rates established by other provisions of this article, the voters of a local agency may establish a maximum property tax rate for such agency pursuant to the provisions of Article 6 (commencing with Section 2285).

2266. This section shall provide an alternate procedure to the other provisions of this article for establishing maximum property tax rates.

The maximum property tax rate which may be levied by, or on behalf of, a local agency shall be a rate equivalent to the following:

(1) The maximum property tax rate which could have been levied for such agency pursuant to any provision of this article for the prior fiscal year, plus

(2) A property tax rate on the secured roll which would produce an amount of property tax revenue equal to the following:

(a) The amount of property tax revenue which would be received by such agency in the current fiscal year by levying the rate identified in subparagraph (1) of this paragraph against the agency's total assessed value for the current fiscal year, subtracted from

(b) The amount of property tax revenue which would be received by such agency in the current fiscal year if its property tax revenue from the prior year were to change by a percentage equal to the following: the percentage change in the population of the agency (as determined pursuant to Sections 2227 or 2228) plus the percentage change in the cost of living (as determined pursuant to Section 2212) which is applicable to the agency.

As used in this section "property tax revenue from the prior year" means the revenue which would have been received by a local agency in the prior fiscal year by levying the maximum property tax rate authorized by this article against the total assessed value for such year.

As used in this section "total assessed value" means all assessed value subject to ad valorem property taxation by a local agency plus assessed value attributable to the homeowners' property tax exemption and to the business inventory property tax exemption.

2266.1. In the event that a special district employs a system of ad valorem property taxation in which the district assessment roll is not

based upon the full cash value of the assessed property, the provisions of Section 2266 shall not apply to such district, and this section shall provide an alternate procedure to the other provisions of this article for establishing the maximum property tax rate of such district.

The maximum property tax rate which may be levied by, or on behalf of, a special district subject to the provisions of this section shall be a rate equivalent to the following:

(1) The rate established for such special district pursuant to the provisions of Section 2263, plus

(2) A rate obtained by multiplying the rate determined pursuant to subdivision (1) by the percentage change in the total assessed value of property within the district as shown on the current equalized secured assessment roll of the county, and the total assessed value of property within the district as shown on the equalized secured assessment roll of the county for the 1972–1973 fiscal year.

As used in this section, "total assessed value" shall have the same meaning as in Section 2266.

2267. In the event that an error or omission occurred in determining the property tax rate which was levied by, or on behalf of, a local agency in either the 1971–1972 fiscal year or the 1972–1973 fiscal year, the maximum property tax rate for such agency for purposes of this chapter shall be the property tax rate which would have been levied, in either such fiscal year, if such error or omission had not occurred.

Article 5. Additional Property Tax Rates

2270. A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) to pay the cost of: (1) interest and redemption charges on bonded or other indebtedness authorized prior to the effective date of this section, together with any reserve or sinking funds required in connection therewith; (2) interest and redemption charges on bonded or other indebtedness authorized after the effective date of this section by the voters of such agency, together with any reserve or sinking funds required in connection therewith; (3) interest charges on notes of a local agency issued in anticipation of bonds, if such bonds were authorized prior to the effective date of this section or were authorized by the voters of such agency after the effective date of this section, and if the principal amount of any such notes is payable only from proceeds of the sale of such bonds; (4) interest and redemption charges on refunding bonds or on bonds issued pursuant to Section 53541 of the Government Code or Section 71960 of the Water Code, together with any reserve or sinking funds required in connection therewith; (5) retirement and pension benefits provided pursuant to laws which have been approved by the voters of such agency; and (6) payments or contributions which are required to be

0 2008 366 290 838

made to a special fund by specific provision of a city or county charter; provided, however, that this subdivision shall not apply to any city or county whose charter contains a provision permitting the governing body to suspend or defer such payments or contributions upon making a finding that statutory limitations on ad valorem property taxation limit the ability of the city or county to make such payments or contributions.

2271. A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) to pay costs mandated by the federal government or costs mandated by the courts which are not funded by federal or state government.

The Controller may audit any rate imposed under this section and any data related to the establishment thereof. If the Controller determines that such rate exceeds a rate which would be necessary to meet the federally mandated or court mandated costs, or if the Controller determines that such rate has been levied to pay any cost mandated by a court which has resulted from litigation entered into in order to avoid the property tax rate limits established by this chapter, he shall request the Attorney General to bring an action under Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure to force a reduction in the rate.

2272. A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) for the purpose of complying with Sections 5302.5, 6467, 6468, 8809, and 10206 of the Streets and Highways Code or with Section 43240 of the Government Code or with Article 1 (commencing with Section 13371) of Chapter 7.5 of Division 6 of the Public Utilities Code.

2273. (a) A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) for the purpose of meeting the costs of written contractual obligations, leases and agreements, including determinations made pursuant to the Meyers-Milias-Brown Act (Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 of the Government Code), which were entered into, or authorized by the governing body or by the voters of such agency, prior to January 1, 1973, if:

(1) The local agency incurred no costs or budgeted no expenditures under the contractual obligation or agreement during the 1972–1973 fiscal year but will incur such costs in subsequent fiscal years, or

(2) The local agency did incur costs pursuant to the contractual obligation or agreement in the 1972–1973 fiscal year, but in subsequent fiscal years such costs increase in an amount which exceeds either the growth rate in the local agency's assessed value or its growth rate in population and cost of living as determined pursuant to Section 2212 and Sections 2227 or 2228.

(b) The additional rate which may be levied to meet costs

described in paragraph (1) of subdivision (a) shall be that rate in each fiscal year which produces the amount of revenue needed to meet the actual annual costs of the contract or obligation.

(c) The additional rate which may be levied in each fiscal year to meet costs described in paragraph (2) of subdivision (a) shall be that rate which produces an amount of revenue equal to the difference between (i) the cost of the contract for the current year and (ii) the adjusted base year cost of the contract. Such adjusted base year cost shall be determined as follows: (i) for the 1973–1974 fiscal year, the actual cost of the contract in the 1972–1973 fiscal year shall be multiplied by either the percentage increase in population and the cost of living or the percentage increase in assessed value which is applicable to the local agency, whichever is greater. The product of such multiplication plus the actual cost of the contract during the 1972–1973 fiscal year shall be the adjusted base cost of the contract; (ii) for each subsequent fiscal year, the adjusted base year cost of the contract of the prior year shall be multiplied by either the percentage increase in the cost of living and population or the percentage increase in assessed value which is applicable to the local agency, whichever is greater. The product of such multiplication plus the adjusted base year cost of the contract in the prior fiscal year shall be the adjusted base cost of the contract in the current year.

(d) No local agency may levy an additional rate as provided in this section after the termination of the contractual obligation or agreement described in subdivision (a); provided that a local agency may continue to levy an additional rate equal to the rate levied for the entire last year of such a contract or agreement if (i) the local agency enters a new contractual obligation which provides for substantially similar kinds of services or goods as the terminated contract, and (ii) the new contractual obligation concerns personal services, consumable goods or personal property and does not in any manner involve real property as defined in Section 104.

The additional property tax rate authorized by this section shall apply (i) to contractual obligations arising from the exercise of options and (ii) to contractual obligations arising from contingent promises. Except as specifically provided by this section, the additional property tax rate authorized by this section does not apply to contractual obligations incurred by mutual agreement of the contracting parties after January 1, 1973.

2273.1. The provisions of Section 2273 shall apply to a contract or lease signed after January 1, 1973, if a local agency, in anticipation of such contract, shall have taken formal action prior to January 1, 1973, to implement one or more projects to be acquired or constructed pursuant to such contract.

"Formal action to implement any one or more projects" means:

(a) The incurring of a liability for a substantial portion of an architectural or engineering contract relating to the project; or

(b) The acquisition of land or improvements for the project.

2273.2. If, prior to January 1, 1973, a local agency was a party to

02008 366320 844

any contract or lease, the terms of which provide (1) that the local agency shall make payments to the federal government, the State of California or any other local agency and (2) that the governing body of such local agency shall, whenever necessary, levy an ad valorem property tax sufficient to provide for all payments under the contract or lease in a timely manner, such local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) for the purpose of making such payments as are required by such contract or lease

2274. (a) In the event of an emergency which constitutes a danger to the public health, safety or welfare, or of a general disaster, which requires a local agency to incur additional costs which cannot be met under the maximum property tax rates provided by this chapter (commencing with Section 2201), a local agency may levy, or have levied on its behalf, an additional rate which will produce 1 percent of the amount produced by its maximum property tax rate. Such a rate shall be authorized by a two-thirds vote of the governing body and shall be levied for one year only.

In the event that the property tax rate has been set when an additional rate is authorized pursuant to this subdivision, such additional rate may be levied in the next following fiscal year

(b) If the additional rate authorized by subdivision (a) is not sufficient to meet the costs incurred as a result of the emergency or general disaster, a local agency may, by resolution, request the Controller to authorize an additional amount of ad valorem property taxation in excess of that authorized pursuant to subdivision (a).

The local agency shall, upon request of the Controller, provide the Controller with such facts and evidence as will enable him to authorize an additional amount pursuant to the provisions of this subdivision.

Upon receipt of the resolution requesting the authorization of an additional amount, the Controller shall hold a public hearing within the jurisdiction of the local agency or as near thereto as is practicable At the conclusion of the hearing he shall authorize an additional amount if he makes the following findings: (1) An emergency or general disaster does exist the costs of which cannot be met under the agency's maximum property tax rate and under the additional tax rate provided in subdivision (a). (2) Such costs are the responsibility of the local agency and cannot be met from revenue sources other than the property tax. (3) Such costs are not within the immediate control of the local agency but are due rather to general economic or social conditions, or both, or acts of God. (4) The emergency or general disaster endangers public health, safety or welfare.

The additional amount authorized pursuant to this subdivision may be raised during a single fiscal year or, at the discretion of the local agency, a portion of such amount may be raised in each of several fiscal years.

0 2008 36 6 335 847

In any fiscal year a local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter which will be sufficient to produce the amount authorized pursuant to this subdivision, or the portion thereof which the local agency has determined will be raised in such fiscal year.

2275. A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) to pay the cost of interest and redemption charges, together with any reserve or sinking funds required in connection therewith, on any note or other evidence of indebtedness which such agency is authorized by statute to issue in the event of emergencies involving major damage to, and destruction of, such agency's works or facilities. Such rate shall be levied without regard to the provisions of Section 2274.

2276. A local agency to which Section 2267 is applicable, may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to Section 2267 for the purpose of repaying any indebtedness which was incurred in order to pay the operating costs of such agency during the fiscal years in which an error or omission occurred in determining the property tax rate for such agency.

2277. A local agency may levy, or have levied on its behalf, a rate in addition to the maximum property tax rate established pursuant to this chapter (commencing with Section 2201) for the purpose of paying the actual cost of holding an election pursuant to the provisions of Article 6 (commencing with Section 2285).

2278. In the event that a local agency is required to pay or is authorized to collect any fees, assessments, charges or obligations as a term or condition of a "governmental reorganization," as such term is defined in Section 2295, the local agency may levy, or have levied on its behalf, a rate, in addition to the maximum property tax rate established pursuant to this chapter, for the purpose of paying or collecting the actual amount of such fees, assessments, charges, or obligations.

Article 6. Tax Rate Limit Elections

2285. For the purposes of this article, the term "qualified voter of the local agency" means a voter who meets the specific qualifications, if any, set forth for voters of that local agency for other purposes. If no such specific qualifications exist, the term means a registered voter, as defined in the Elections Code, residing within the area within which the election will be held; if there are no registered voters within that area, the term means a landowner, in which case each landowner shall have one vote. If such landowner is a partnership, joint tenancy or tenancy in common, the vote to which such landowner is entitled may be cast by any of the partners, joint tenants or tenants in common; provided that only one such vote

shall be cast on behalf of the landowner.

As used in this section "landowner" means any person shown on the last equalized assessment roll as the owner of land; provided that where such person is no longer the owner, the term shall mean any person entitled to be shown as the owner on the next assessment roll.

2286 (a) No local agency formed after the effective date of this chapter shall levy, or have levied on its behalf, any property tax rate unless a maximum property tax rate has been approved for such agency. If an election is held on the formation of a local agency, the maximum property tax rate for such agency shall be included in describing the local agency on the ballot in the formation question.

(b) In the event that a local agency which was in existence on the effective date of this chapter desires to change its maximum property tax rate, the governing body of such agency shall call a special election, pursuant to the provisions of this article, to approve a new maximum property tax rate for the agency.

(c) No maximum property tax rate described in subdivision (a) or (b) shall be approved except by a majority vote of the qualified voters of that local agency voting on the issue.

2287. A maximum property tax rate election shall be held according to the law otherwise applicable to elections held by such a local agency; provided that the governing body of the local agency may authorize the use of mailed ballots whenever there are 250 or fewer qualified voters eligible to vote in such election.

2288. A maximum property tax rate election held by a local agency formed under a law which does not provide a procedure for elections shall be conducted by the county clerk, as follows:

(a) The election shall be held not less than 74 days nor more than 120 days following the call of the election by the governing body of the local agency. The call of the election shall specify whether the election shall be by mailed ballots or not.

(b) Not less than 15 days nor more than 30 days before the election, the county clerk shall compile the index of voters eligible to vote in the election as of the 30th day preceding the election, establish the election board, precinct boards, and precincts, as needed, and mail out the ballots or sample ballots.

(c) Except as provided herein, such elections shall be called, conducted, and canvassed as provided in the Elections Code for the calling, conducting, and canvassing of general elections.

(d) The local agency shall reimburse the county in full for the services performed by the county clerk upon presentation of a bill to the local agency

(e) In the event that the governing body of a local agency authorizes the use of mailed ballots pursuant to Section 2287, the procedure to be used in mailing and canvassing the ballots shall be the procedure prescribed in Chapter 4 (commencing with Section 14600) of Division 9 and in Chapter 7 (commencing with Section 18200) of Division 10 of the Elections Code for the mailing and canvassing of absentee ballots; provided, however, that a ballot shall

0 2008 366365 853

be mailed to each qualified voter and an application for a ballot shall not be required.

2289. Whenever possible, elections to approve maximum property tax rates shall be consolidated with other elections. In the event that an election to approve a maximum property tax rate is not consolidated with another election, the governing body calling the election shall state, in the resolution calling the election, the reasons why such consolidation is impracticable

2295. As used in this article "governmental reorganization" means any formation of, annexation to, detachment from, consolidation of, dissolution of, or other territorial adjustment in the boundaries of, a local agency "Governmental reorganization" includes those boundary adjustments of local agencies which are not subject to the provisions of Chapter 6 6 (commencing with Section 54773) of Part 1, Division 2, Title 5 or of Division 1 (commencing with Section 56000) of Title 6 of the Government Code, as well as those boundary adjustments of local agencies which are subject to such provisions of the Government Code.

2296. Except as provided in Section 2263.2, whenever a governmental reorganization occurs, the maximum property tax rate for any local agency whose boundaries are changed by such reorganization shall be determined as provided in this article.

2297. In the event that the boundaries of a local agency are altered by a governmental reorganization, the maximum property tax rate for such an agency, after the reorganization has occurred, shall continue to be the maximum property tax rate which had been established, pursuant to the provisions of this article or of Article 4, for such agency prior to the reorganization.

2298. In the event that a governmental reorganization makes it necessary or desirable for a local agency to exceed the maximum property tax rate provided in Section 2297, the governing body of such agency shall call an election pursuant to the provisions of Article 6 to establish a new maximum property tax rate for such agency. Such an election may be consolidated with any election which may be called on the proposed governmental reorganization.

Article 8. Functional Consolidation: Effect on Maximum Property Tax Rates

2305. As used in this article "functional consolidation" means the transfer, from one local agency to another, of both of the following. (1) the responsibility for providing a program or a service to an area within the jurisdiction of the transferring agency and (2) the responsibility for levying a property tax rate within such area to pay the cost of such service or program.

2306. Whenever a functional consolidation occurs, the maximum property tax rate for any local agency affected by such functional consolidation shall be determined as provided in this article.

2307. The local agency which transfers a program or service shall reduce its maximum property tax rate as provided in this section. Such reduction shall be effective beginning with the fiscal year after the transfer has occurred.

(a) The local agency shall determine the actual cost of providing the transferred program or service during the last full fiscal year in which such function or service was provided.

(b) The local agency shall determine the amount of the costs determined pursuant to subdivision (a) which are attributable to expenses for general administration and capital outlay and which cannot be transferred to the agency assuming the responsibility for providing the program or service; provided that such amount shall not exceed 10 percent of the amount determined pursuant to subdivision (a).

(c) The local agency shall subtract the amount determined pursuant to subdivision (b) from the amount determined pursuant to subdivision (a).

(d) The local agency shall determine the property tax rate which would have been required to produce the amount determined pursuant to subdivision (c) during the last full fiscal year in which the transferred program or service was provided and shall reduce its maximum property tax rate thereby.

2308. The maximum property tax rate for a local agency assuming the responsibility for providing a program or service and for levying a tax to pay the cost thereof, as a result of a functional consolidation, shall be the maximum property tax rate for such agency established prior to the functional consolidation plus such additional rate as may be necessary to pay the actual costs of providing such program or service.

The Controller may audit any rate imposed under this section and if he determines that the rate exceeds a rate which would be necessary to pay the actual costs incurred as a result of functional consolidation, he shall request the Attorney General to bring an action under Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure to force a reduction in the rate.

2309. Any adjustment in the maximum property tax rate of a local

0 2008 366390 858

The department may make the estimate if in the opinion of the department there is available adequate information upon which to base the estimate. Upon completion of the estimate, the Department of Finance shall file a certified copy thereof with the department and the Controller.

The respective departments, in making the computations required by these sections, shall add to the total population of all counties and cities and counties all increases of population shown by the estimate.

If, in any year during which any county or city and county may apply to the Department of Finance to estimate the increase in population under this section, the total population of the cities within a county, as determined by actual census, exceeds the Department of Finance estimate of the population of the county, the total population of the cities shall be deemed the population of the county for purposes of this section, and upon receipt of satisfactory evidence of the population figures of said cities as determined by said census,
