(g) The director shall require, by regulations, testing of packaged fluid products to be performed by such methods as to provide results consistent with, and comparable to, the testing of the raw product

be enacted that serve to cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 871

An act to amend Section 39297.6 of the Health and Safety Code, relating to air pollution.

[Approved by Governor September 26, 1973 Filed with Secretary of State September 26, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 39297.6 of the Health and Safety Code is amended to read:

39297.6. (a) Notwithstanding Section 39296, with respect to wood waste from trees, vines, or bushes on property being developed for commercial or residential purposes, the governing body of an air pollution control district may, upon its own motion or the request of any person, authorize the disposal, by open outdoor fires, of such wood waste, on the property where it was grown, under the following conditions:

(1) That the governing body of the district finds that it is more desirable to dispose of such wood waste by burning than to dispose of it by other available means, such as, but not limited to, by removing it to sanitary fills.

(2) That the district has developed criteria for such disposal, which shall include provisions to improve the combustibility of such waste to reduce its smoke level.

(3) That the board has approved the criteria developed pursuant to paragraph (2).

(4) That such authorization, if granted, shall be in the form of a permit issued by the district air pollution control officer, and such permit shall allow burning only on permissive burn days as designated by the board pursuant to Section 39298.

(5) The governing body of the district may adopt rules and regulations to authorize all burning authorized under this section, to review each proposed burn prior to authorizing the air pollution control officer to issue a permit for the burn, or to delegate to the air pollution control officer the authority to approve or disapprove each proposed burn after consideration of the amount of wood waste to be burned, the season of the year, the ambient air quality, the proximity of the wood waste to developed areas, or such other or additional criteria as the governing body of the district may establish.

(6) No authorization under this subdivision shall be granted after January 1, 1977, or such earlier date as the board may determine, based upon a finding that an alternative method of disposal has been

developed which is technologically and economically feasible.

(b) The board shall conduct studies of alternative methods of disposing of wood waste from trees, vines, or bushes, other than by open outdoor fires

(c) The Legislature hereby finds and declares that because sanitary landfill sites are very difficult to obtain, these valuable sites should be reserved for high-priority waste such as garbage and low-volume rubbish, and that the disposal, by open outdoor fires, of high-volume wood waste will help prolong the life of such landfill sites. However, it is the intent of the Legislature that the disposal, by open outdoor fires, of such wood waste be reasonably regulated so as to not create a public nuisance nor significantly reduce the quality of the ambient air

25210.9. Any water or sewer service fees which remain unpaid for

a period of 60 or more days after the date upon which they were billed may be collected thereafter by the county as provided herein.

(a) Once a year the board of supervisors shall cause to be prepared a report of delinquent fees. The board shall fix a time, date and place for hearing the report and any objections or protests thereto.

(b) The board shall cause notice of the hearing to be mailed to the landowners listed on the report not less than 10 days prior to the date of the hearing.

(d) The delinquent fees set forth in the report as confirmed shall constitute special assessments against the respective parcels of land and are a lien on the property for the amount of such delinquent fees. A certified copy of the confirmed report shall be filed with the county auditor for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation, in the office of the county recorder of the county in which the property is situated, of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of county ad valorem property taxes shall be applicable to such assessment.

This remedy is in addition to all other means available for collection.

SEC. 1.5. Section 25210.9 is added to the Government Code, to read:

(c) At the hearing the board shall hear any objections or protests of landowners liable to be assessed for delinquent fees. The board may make such revisions or corrections to the report as it deems just, after which, by resolution, the report shall be confirmed.

(d) The delinquent fees set forth in the report as confirmed shall constitute special assessments against the respective parcels of land and are a lien on the property for the amount of such delinquent fees.

A certified copy of the confirmed report shall be filed with the county auditor for the amounts of the respective assessments against the respective parcels of land as they appear on the current assessment roll. The lien created attaches upon recordation, in the office of the county recorder of the county in which the property is situated, of a certified copy of the resolution of confirmation. The assessment may be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection and enforcement of county ad valorem property taxes shall be applicable to such assessment, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquency fees, as confirmed, relating to such property shall be transferred to the unsecured roll for collection.

and sale in case of delinquency as provided for such taxes All laws applicable to the levy, collection and enforcement of county ad valorem property taxes shall be applicable to such assessment

This remedy is in addition to all other means available for collection

If the district is governed by a board of directors, this section shall

only apply to such district if the board of supervisors consents to collect the delinquent fees in the manner prescribed herein.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill 1342 are both chaptered, that the addition of Section 25210.9 to the Government Code proposed by Section 1.5 of this bill, and the addition of Section 55501 1 to the Water Code proposed by Section 3 of this bill, be given effect and incorporated as Section 25210.9 of the Government Code in the form set forth in Section 1 5 of this act, and as Section 55501.1 of the Water Code in the form set forth in Section 3 of this act. 4521.3. "Board" means the State Board of Forestry.

4522. "Committee" means a district technical advisory committee.

4522.5. "Cutover land" means land which has borne a crop of commercial timber from which at least 70 percent of the merchantable original growth timber stand has been removed or destroyed by logging, fire, insects, or tree diseases and which is now supporting, or capable of growing, a crop of commercial timber or other forest products, and which has not been converted to other commercial or agricultural use.

4523. "District" means a forest district.

4524. "Permit" means a permit to engage in timber operations, issued pursuant to Article 6 (commencing with Section 4571) of this chapter.

4525. "Person" includes any private individual, organization, partnership, corporation, city, county, district, or the state or any department or agency thereof.

4525.3. "Resource conservation standards" means the minimum acceptable condition resulting from timber operations.

4525.5. "Rules" means the district forest practice rules adopted by the board.

4525.7. "Slash" means branches or limbs less than four inches in diameter, and bark and split products debris left on the ground as a result of timber operations.

4525.9. "State Forester" means the person holding the office created by Section 646.

4526. "Timberland" means land, other than land owned by the federal government, which is available for, and capable of, growing a crop of trees of any commercial species used to produce lumber and other forest products, including Christmas trees. Commercial species shall be determined by the board on a district basis after consultation with the district committees and others.

4526.5. "Timber operator" means any person who is engaged in timber operations himself or who contracts with others to conduct such operations on his behalf, except a person who is engaged in timber operations as an employee with wages as his sole compensation.

4527. "Timber operations" means the cutting or removal or both of timber or other solid wood forest products, including Christmas trees, from timberlands for commercial purposes, together with all the work incidental thereto, including, but not limited to, construction and maintenance of roads, fuel breaks, firebreaks, stream crossings, landings, skid trails, beds for the falling of trees, and fire hazard abatement, but excluding preparatory work such as treemarking, surveying, or roadflagging. Removal or harvest of incidental vegetation from timberlands, such as berries, ferns, greenery, mistletoe, herbs, and other products, which action cannot normally be expected to result in a threat to forest, air, water, or soil resources, does not constitute timber operations.

4527.5. "Timber owner" means any person who owns commercial timber, timberland, cutover land, or timber rights, including Christmas tree rights, on lands of another except a federal agency.

4528. The following definitions apply to the provisions on stocking or reforestation in this chapter:

(a) "Basal area per acre" means the sum of the cross-sectional areas at breast height of the tree stems of commercial species per acre.

(b) "Countable tree" means a tree that can be used in calculating the degree of stocking under the following criteria:

(1) The tree must be in place at least two growing seasons.

(2) The tree must be live and healthy.

(3) The tree must have at least one-third of its length in live crown.

(4) The tree must be a commercial species from a local seed source or a seed source which the registered professional forester determines will produce commercial trees physiologically suited for the area involved.

(c) "Stocking" means a measure of the degree to which space is occupied by well-distributed countable trees.

(d) "Site classification" means the classification of productive potential of timberland into one of five classes by board regulation, consistent with normally accepted forestry practices. Site I shall denote sites of highest productivity, site II and site III shall denote sites of intermediate productivity potential, and site IV and site V shall denote sites of lowest productivity potential.

4528.1. The following definition applies to the provisions on control of soil erosion in this chapter.

(a) "Fuelbreak" means a strip of modified fuel to provide a line from which to work in the control of fire.

4528.3. The following definition applies to the provision on

protection of streamcourse character and water quality in this chapter.

(a) "Stream" means a natural watercourse as designated by a solid line or dash and three dots symbol shown on the largest scale United States Geological Survey map most recently published.

4528.5. This chapter does not apply to any person who engages in activities herein regulated, as an employee, with wages as his sole compensation.

4529. The penalties and remedies which are prescribed in this chapter are concurrent and alternative to any other civil, criminal, or administrative rights, remedies, or penalties which are provided or allowed by law with respect to such violation.

4529.5. Service of documents where required under this chapter may be made by registered or certified mail addressed to the respondent's latest address registered on file with the State Forester. Where other forms of service are prescribed, personal service is not precluded.

Article 3. Districts and Committees

4531. Within three months of the effective date of this chapter, the board shall divide the state into not less than three districts. In establishing these districts, the board shall take into account differing physical characteristics, including, but not limited to, climate, soil type, and principal forest crops. Insofar as possible, the board shall group together lands that have substantially similar characteristics and that will best be served by substantially similar regulations. Boundaries of such districts may be altered from time to time as the board determines is necessary.

4531.5. Within six months of the effective date of this chapter, the board shall appoint a district technical advisory committee in each of the districts created under Section 4531.

4532. Each committee shall consist of nine members, and all shall represent the general public interest.

4533. All members shall be appointed on the basis of their educational and professional qualifications and their general knowledge of, and interest and experience in, ecology, soil science, watershed hydrology, range management, silviculture and forestry, forest recreation, forest landscape architecture, forest products manufacture, forest industry economics, or fish and wildlife habitat.

4534. Five members of the committee shall be selected from the general public, three members shall be selected from the forest products industry, and one member shall be selected from the range livestock industry. At no time shall a majority of the members, nor any of the members selected from the general public, be persons with a direct personal financial interest, within the meaning of Section 1120 of the Government Code, in timberlands.

4535. The terms of office of the members shall be for four years, except the members of the initial committee. The members of the

initial committee shall classify themselves by lot at the first meeting. Three members shall serve until January 15, 1976, three members shall serve until January 15, 1977, and three members shall serve until January 15, 1978.

4536. The committees shall be continuing bodies, and vacancies shall be filled in the same manner as original appointments are made. An appointment to a vacancy on a committee occurring before the expiration of a term shall be for the remainder of that term, and the person appointed shall be appointed from the appropriate group for the vacant seat.

4537. The committees shall meet at least once each year, in January, and at other times as necessary. All meetings of the committee shall be open to the public, and notice of such meetings shall be provided 10 days in advance to any person who requests such notice in writing; provided, that meetings may be held with 24-hour notice when such meetings are necessary to discuss unforeseen emergency conditions as may be provided by the board in regulations adopted pertaining hereto.

4538. An employee of the division shall be designated by the board to serve as secretary of each district committee and shall meet with and take part in all deliberations of the committee, but shall vote only in the case of a tie.

4539. The appointive members of the committee shall receive no compensation for their services but shall be entitled to their actual and necessary expenses incurred in the performance of their duties.

4540. Each committee shall advise the board in the establishment of district forest practice rules to govern timber operations on timberlands within the district. In advising the board, the committee shall not interfere with any of the powers and duties of the board. The committees shall consult with, and carefully evaluate the recommendations of, concerned federal, state, and local agencies, educational institutions, civic and public interest organizations, and private organizations and individuals. Each committee shall seek an optimum of interagency cooperation in identification of problems and proposing solutions.

Article 4. Rules and Regulations

4551. The board shall adopt district forest practice rules and regulations for each district in accordance with the policies set forth in Article 1 (commencing with Section 4511) of this chapter and pursuant to Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code to assure the continuous growing and harvesting of commercial forest tree species and to protect the soil, air, fish and wildlife, and water resources, including, but not limited to, streams, lakes, and estuaries.

Initial rules shall be developed and adopted by the board within nine months after the effective date of this chapter. The board may, prior to the adoption of initial rules, adopt such interim rules as may

be necessary for the regulation of timber operations in accordance with the policies and standards set forth in this chapter and which are not in conflict therewith.

4551.5. Rules and regulations shall apply to the conduct of timber operations and shall include, but shall not be limited to, measures for fire prevention and control, for soil erosion control, for water quality and watershed control, for flood control, for stocking, for protection against timber operations which unnecessarily destroy young timber growth or timber productivity of the soil, for prevention and control of damage by forest insects, pests, and disease, and for the preparation of timber harvesting plans. In developing these rules, the board shall solicit and consider recommendations from the Department of Fish and Game relating to the protection of fish and wildlife, recommendations from the State Water Resources Control Board and the California regional water quality control boards relating to water quality, and recommendations from the State Air Resources Board and local air pollution control districts relating to air pollution control.

4552. The rules and regulations adopted by the board shall be based upon a study of the factors that significantly affect the present and future condition of timberlands and shall be used as standards by persons preparing timber harvesting plans.

4553. The rules and regulations shall be continuously reviewed and may be revised. During the formulation or revision of such rules and regulations, the board shall consult with, and carefully evaluate the recommendations of, the district technical advisory committees, concerned federal, state, and local agencies, educational institutions, civic and public interest organizations, and private organizations and individuals.

4554. Except for emergency regulations or orders of repeal adopted pursuant to Article 4 (commencing with Section 11420) of Chapter 4.5, Part 1, Division 3, Title 2 of the Government Code, the board shall not adopt or revise rules, regulations, or resource conservation standards unless a public hearing is first held respecting their adoption or revision. At least 30 days prior to such hearing, the board shall give notice of the hearing by publication pursuant to Section 6061 of the Government Code.

Article 5. Resource Conservation Standards

4561. It is the purpose of this section to set forth resource conservation standards for timber operations, and to insure that a cover of trees of commercial species, sufficient to utilize adequately the suitable and available growing space, is maintained or established after timber operations.

To that end, the following resource conservation standards define minimum acceptable stocking, and an area covered by a timber harvesting plan shall be classified as acceptably stocked if either of the following conditions exist within five years after completion of

timber operations:

(a) The area contains an average point count of 300 per acre, to be computed as follows:

(1) Each countable tree which is not more than four inches in diameter at breast height to count as one.

(2) Each countable tree over four inches and not more than 12 inches in diameter at breast height to count as three.

(3) Each countable tree over 12 inches in diameter at breast height to count as six.

(b) The average residual basal area, measured in stems one inch or larger in diameter is at least 85 square feet per acre, except that in areas which the registered professional forester has determined are site II classification or lower, the minimum average residual basal area shall be 50 square feet per acre.

The board, on a finding that it is in furtherance of the purposes of this chapter may encourage selection, shelterwood, or other types of management of timber where consistent with the biological requirements of the tree species and may regulate the size and shape of areas in which even-age management of timber is utilized.

Timberland harvested between the effective date of this chapter and the adoption of stocking standards pursuant to this section shall be classified as adequately stocked if, as a result of stocking which has taken place subsequent to such harvest, the minimum standards specified in this section are met.

Rock outcroppings and other areas not normally bearing timber shall not be considered as requiring stocking and are exempt from such provisions.

4561.1. The resource conservation standards relating to stocking enumerated in Section 4561 shall constitute minimum interim requirements, and these shall be the standards to which all timber harvesting plans shall conform unless the board adopts higher stocking standards for each district. The board shall, by January 1, 1975, adopt standards for each district, after a public hearing, which are equal to or stricter than the standards of this chapter and shall report such standards to the Legislature.

It is not the intent of the Legislature in designating minimum standards that such standards shall be deemed to be preferred as the standards to be adopted by the board. The board may, by a majority vote as provided in Section 636, adopt higher minimum standards of stocking if, in the opinion of the board, growing conditions, tree species, site quality, or other factors justify such stricter standards and if such action is consistent with the purposes of this article.

4561.3. Notwithstanding the provisions of Section 4561, on any commercial timberlands which the State Forester has determined do not meet the minimum acceptable stocking standards prior to any timber harvest activities which may take place on such lands between the effective date of this chapter and the adoption of permanent stocking standards pursuant to Section 4561.5, an area shall be classified as acceptably stocked if, as a result of restocking

which has taken place subsequent to such harvest, it contains at least five countable trees for each tree which has been harvested.

4561.5. Prior to January 1, 1975, the board shall, after a public hearing, adopt, and may from time to time, after a public hearing, amend, permanent stocking standards applicable to commercial timberland where the growing timber does not meet the acceptable stocking standards as enumerated in Section 4561.

4561.6. Notwithstanding the provisions of Sections 4561 to 4561.5, inclusive, the board shall adopt rules prior to January 1, 1976, which specify standards of stocking to be maintained or established after timber operations on timberlands which have been substantially damaged by fire, insects, disease, wind, flood, or other substantial damage caused by an act of God, and may provide for an extended period of time during which stocking must be properly completed on such timberlands. In developing such standards the board shall consider circumstances that affect the feasibility of restoring the productivity of such timberlands.

4562. In order to reduce the incidence and spread of fire on timberlands, the board shall adopt rules in the fire protection zone as such zone is defined by the board, including, but not limited to, land along either side of the rights-of-way along public roads in widths to be determined by rule by the board in various areas, and in such other areas as the board deems necessary, to govern the disposal of solid nonforest wastes and slash created by timber operations.

4562.5. It is the purpose of this section to insure that soil erosion associated with timber operations is adequately controlled to protect soil resources, forest productivity, and water quality. The prevention, retardation, and control of accelerated erosion are the principal goals of this section. The board shall conduct such investigations of soil characteristics and erosion rates and of the instruments, techniques, and procedures available for use in monitoring soil loss as will facilitate the development and application of soil resource conservation standards, and shall, by January 1, 1976, publish reports or otherwise disseminate the information thus obtained, including a determination, if possible, of permissible levels of soil loss. The board shall promulgate regulations for each district to govern timber operations that may cause significant soil disturbance.

4562.7. The purpose of this section is to insure the protection of beneficial uses that are derived from the physical form, water quality, and biological capability of streams. To these ends, in addition to the rules provided for in Section 4562.5, the board shall adopt rules for control of timber operations which will result or threaten to result in unreasonable effects on the beneficial uses of the waters of the state. Such rules shall include rules for:

(a) The disposal of petroleum products, sanitary wastes, refuse, and cleaning agents in proper dumps or waste treatment facilities to prevent them from entering streams.

(b) Construction of logging road and tractor trail stream crossings

to assure substantially unimpaired flow of water and to assure free passage of fish both upstream and downstream.

(c) Minimizing damage to unmerchantable streamside vegetation, particularly hardwood trees.

(d) Minimizing damage to streambeds or banks resulting from skidding or hauling logs through, across, or into streams, by operating tractors or other heavy equipment in or near streambeds, or by construction of log landings or logging roads in or near the channels of streams.

(e) Control of slash, debris, fill, and side cast earth, resulting from timber operations, which may be carried into streams.

Article 6. Permits

4571. No person shall engage in timber operations until he has obtained a permit from the board.

4572. The board shall by regulation prescribe the form and content of the application for a permit and establish the procedures therefor, and shall require a reasonable filing fee.

4573. The board may deny a permit for any of the following reasons:

(a) The applicant is not the real person in interest.

(b) Material misrepresentation or false statement in the application.

(c) Conviction within one year of the application of unlawfully operating without a permit.

(d) The failure or refusal of the applicant to comply with the rules and regulations of the board and the provisions of this chapter within three years prior to the date of application.

4574. Permits shall be good only during the calendar year in which issued. Applications for renewal may be denied by the board until any violations by the applicant as exist on the date of submission of the renewal application, of which the applicant has been notified and given reasonable opportunity to correct, are corrected on such reasonable terms and conditions as the board may require.

4575. A permit is subject to future legislation and is not transferable.

4576. A permit may be suspended or revoked by the director pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code for any of the reasons specified by Section 4573, for refusal to allow inspections, or for violations of any of the rules and regulations of the board.

4577. The board may delegate its authority under this article to the State Forester.

Article 7. Timber Harvesting

4581. No person shall conduct timber operations unless a timber harvesting plan prepared by a registered professional forester has

been submitted for such operations to the State Forester pursuant to this article. Such plan shall be required in addition to the permit required in Section 4571.

4582. The timber harvesting plan shall be filed with the State Forester in writing by a person who owns, leases, or otherwise controls or operates on all or any portion of any timberland and who plans to harvest the timber thereon. The plan shall be a public record and shall include the following information:

(a) The name and address of the timber owner.

(b) The name and address of the timber operator.

(c) A description of the land on which the work is proposed to be done, including a United States Geological Survey quadrangle map or equivalent indicating the location of all streams, the location of all proposed and existing logging truck roads, and indicating boundaries of all site I classification timberlands to be stocked in accordance with the provisions of subdivision (b) of Section 4561 and any other site classifications if the board establishes specific minimum stocking standards for other site classifications.

(d) A description of the silvicultural methods to be applied, including the type of logging equipment to be used.

(e) An outline of the methods to be used to avoid excessive accelerated erosion from timber operations to be conducted within the proximity of a stream.

(f) Special provisions, if any, to protect any unique area within the area of timber operations.

(g) The expected dates of commencement and completion of timber operations.

(h) Any other information the board provides by regulation to meet its rules and the standards of this chapter.

4582.4. Notice of the filing of timber harvesting plans shall be made by the State Forester to any person who requests, in writing, such notification.

4582.5 Timber harvesting plans shall be applicable to a specific piece of property or properties and shall be based upon such characteristics of the property as vegetation type, soil stability, topography, geology, climate, and stream characteristics.

4582.6. Upon receipt of the timber harvesting plan, the State Forester shall place it, or a true copy thereof, in a file available for public inspection, and shall transmit a copy to the Department of Fish and Game, the appropriate California regional water quality control board, county planning agency, and, if the area is within its jurisdiction, to the California Tahoe Regional Planning Agency.

4582.7. The State Forester shall have 15 days from the date the initial inspection is completed or, in the event the State Forester determines that such inspection need not be made, 15 days from the date of filing, as specified in Section 4604, or such longer period as may be mutually agreed upon by the State Forester and the person submitting the timber harvesting plan, to review the plan to determine if it is in conformance with the rules and regulations of the

board and with the provisions of this chapter. If the State Forester determines that such plan is not in conformance with the rules and regulations of the board or with provisions of this chapter, he shall return the plan, stating his reasons and advising the person submitting the plan of his right to a hearing before the board, and timber operations shall not commence. A person to whom a plan is returned may, within 10 days from the receipt of such plan, request of the board a public hearing before the board. The board shall schedule a public hearing to review the plan to determine if it is in conformance with the rules and regulations of the board and the provisions of this chapter. Timber operations shall await board approval of the plan. Board action shall occur within 30 days from the filing of the appeal, or such longer period as may be mutually agreed upon by the board and the person filing the appeal. If the State Forester does not act within 15 days, or such longer period as may be mutually agreed upon by the State Forester and the person submitting the timber harvesting plan, timber operations may commence pursuant to such plan, and all provisions of the plan shall be followed as provided in this chapter.

4583. A timber harvesting plan shall conform to all standards and rules which are in effect at the time the plan becomes effective. Except for stocking standards in effect at the time of commencement of timber operations under a timber harvesting plan, which shall remain in effect for any timberland harvested under such plan, all timber operations shall conform to any changes or modifications of standards and rules made thereafter unless prior to the adoption of such changes or modifications, substantial liabilities for timber operations have been incurred in good faith and in reliance upon the standards in effect at the time the plan became effective and the adherence to such new rules or modifications would cause unreasonable additional expense to the owner or operator.

4583.2. The registered professional forester who prepared the timber harvesting plan and or any other registered professional forester who is employed by the owner or operator, shall report to the owner and operator if there are deviations of any sort from the plan which in his judgment threaten the attainment of the resource conservation standards or other regulations promulgated pursuant to this chapter.

4583.5. If the board finds that the registered professional forester has made any material misstatement in the filing of any timber harvesting plan or report under this chapter, it shall take disciplinary action against him as provided under Section 652.7.

4584. The board may exempt from the provisions of this chapter or portions thereof, any person engaged in forest management whose activities are limited to the planting, growing, nurturing, shaping, shearing, removal, or harvest of immature trees for Christmas trees or other ornamental purposes or of dead, dying, or diseased trees of any size, on determining such exemption is consistent with the purposes of this chapter.

4585. Within one month after completion of the work described in the timber harvesting plan, excluding work for stocking, a report shall be filed by the timber owner or his agent with the State Forester that all work except stocking has been completed.

4586. Within six months of the receipt of the work completion report specified in Section 4585, the State Forester shall determine, by inspection, whether the work described in the timber harvesting plan, excluding stocking, has been properly completed in conformity with the rules and regulations of the board and standards of this chapter. If it has been so completed, the State Forester shall issue a report of satisfactory completion of all items except stocking. If not, the State Forester shall take such corrective action as he deems appropriate in accordance with the provisions of Article 8 (commencing with Section 4601) of this chapter.

4587. Within five years after completion of timber operations on an area covered by a timber harvesting plan, a report of stocking shall be filed by the timber owner or his agent with the State Forester. In measuring such stocking, a standardized sampling procedure approved by the board shall be employed, which shall be designed to measure the number of trees and their dispersion, subject to defined probabilities of error.

4588. Within six months of the receipt of the stocking report, the State Forester shall determine, by inspection, whether the stocking has been properly completed. If so, he shall issue a report of satisfactory completion of stocking. If not, he shall take such corrective action as he deems appropriate in accordance with the provisions of Article 8 (commencing with Section 4601) of this chapter.

4590. Every timber harvesting plan described under this article shall be effective for a period of not more than three years, except that stocking work may continue more than three years, but shall be completed no more than five years after the conclusion of other work.

4591. Amendments to the original timber harvesting plan may be submitted detailing proposed changes from the original plan. Substantial deviations from the original plan shall not be undertaken until such amendment has been filed with, and acted upon, by the State Forester in accordance with the provisions of Sections 4582.7 and 4583. An amendment may not extend the effective period of the plan.

4591.1. The board shall specify by regulation those deviations which may be undertaken by an operator without submission of an amended plan but which must subsequently be reported to the State Forester, and provide for the manner of so reporting.

4592. Notwithstanding any other provisions of this chapter, a registered professional forester may in an emergency, on behalf of a timber owner or operator, file an "emergency notice" with the State Forester that shall allow immediate commencement of timber operations. Such emergency notice shall include a declaration, under

penalty of perjury, that a bona fide emergency exists which requires immediate harvest activities. Such emergencies shall be defined by the board and may include, but need not be limited to, the necessity to harvest in order to remove fire-killed or damaged timber, or insect or disease-infested timber, or to undertake emergency repairs to roads.

Article 8. Penalties and Enforcement

4601. Any person who willfully violates any provision of this chapter or rule or regulation of the board is guilty of a misdemeanor and shall be punishable by a fine of not more than five hundred dollars ($500) or by imprisonment in the county jail for not more than six months, or by both such fine and imprisonment. Such person is guilty of a separate misdemeanor offense under this section for each day in which an order for corrective action issued pursuant to Section 4605 or 4608 is violated.

4603. The Attorney General may, on his own motion or at the request of the board, bring an action to enforce compliance with the rules and regulations of the board and the provisions of this chapter.

4604. The State Forester shall provide for an initial inspection of timber operations within 10 days from the date of filing of the timber harvesting plan, or such longer period as may be mutually agreed upon by the State Forester and the person submitting the plan, except that such inspection need not be made if the State Forester determines that it would not add substantive information he deems necessary to enforce the provisions of this chapter. In any event the State Forester shall provide for inspections as follows:

(a) During the period of commencement of timber operations.

(b) When timber operations are well underway.

(c) Following completion of timber operations.

(d) At such other times as he deems necessary to enforce the provisions of this chapter.

4605. The State Forester may bring an action to enjoin the violation, or threatened violation, of any provision of this chapter or the rules and regulations of the board. Any such proceedings shall be in accordance with the provisions of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure. If in such a proceeding it shall appear from facts shown by affidavit or verified complaint that any such violation has occurred or is threatened, the court may issue a temporary restraining order restraining and ordering the immediate discontinuance of any timber operation in which such violation has occurred or is threatened pending a hearing on the matter.

The court may, upon a finding that immediate and irreparable harm is threatened to soil resources or the water of the state by virtue of erosion, pollution, or contamination, order the defendant to take appropriate emergency corrective action, authorize the State Forester to order the defendant to take such action, or authorize the

State Forester to take emergency action to correct a violation of this chapter. Any expenses incurred by the State Forester in taking action in conformity with such order shall be a lien upon the property upon which such action was taken when notice of the lien is recorded. Such lien shall be subject to the provisions of Section 4608.

4606. If upon a hearing to show cause why a preliminary injunction should not be issued, or upon a hearing of any motion for a preliminary injunction, or if the court should find in any such action that any such defendant is violating, threatens to violate, or has violated, any provision of this chapter or rules and regulations of the board, the court may not only order the discontinuance of any timber operations in which such violation has occurred, is threatening to occur, or is occurring, but may also enjoin any further timber operations by the defendant in this state until the violations complained of have been corrected or until satisfactory provisions have been approved by the court for the violations to be corrected at a specified date. Any defendant in such proceedings may enter into a written agreement with the State Forester assuring that such defendant will resume operations in compliance with the provisions of this chapter or the rules and regulations of the board and correct the violations on such reasonable terms and conditions as the State Forester may require. Upon approval by the court, any temporary restraining order, preliminary injunction, or permanent injunction may include or be amended to include an order that any defendant entering into such an agreement comply with the terms of such agreement as a condition for engaging in any timber operations enjoined by such temporary restraining order, preliminary injunction, or permanent injunction. The court may require a cash deposit or bond payable to the division in such amount as the court deems proper to insure correction of any such violation in accordance with such agreement or any other provisions required by the court. The court may make any other orders reasonable and necessary to carry out the intent of this article.

4607. The State Forester may take appropriate steps as are necessary and incur expenses to correct any violation.

4608. Prior to taking any corrective action, other than under Section 4605, the State Forester shall serve a written notice upon the person responsible for the violation. The notice shall include a statement of the corrective action to be taken, a date not less than 30 days from the date of service of the notice by which such corrective action is to be taken, and a statement that if such corrective action is not taken on or before the date specified the State Forester may take corrective action and charge such person for the costs thereof pursuant to Section 4610. The notice shall also include a statement that if such person disagrees for any reason with the proposed corrective action or with the charging of such person with the costs thereof, he may within 10 days from the service of the notice request of the board a public hearing before the board.

The State Forester may record such notice in each county wherein the land in violation is situated, together with a statement that any and all expenses incurred by the State Forester in taking corrective action pursuant to the provisions of this article shall be a lien against the land. Upon satisfactory proof that corrective action has been completed, the State Forester shall record a notice to that effect.

Any expenses incurred by the State Forester in taking such corrective action shall be a lien upon the property upon which such action was taken when notice of the lien is recorded. Notice of the lien, particularly identifying the property upon which such action was taken and the amount of such lien and naming the owner of such property, shall be recorded, if at all, by the State Forester, in the office of the county recorder of the county in which such property is situated within one year after the first item of expenditures by the State Forester or within 90 days after the completion of such action, whichever first occurs. Upon such recordation, the lien shall have the same force, effect, and priority as a judgment lien, except that it shall attach only to the property described in such notice and shall continue for 10 years from the time of the recording of such notice, unless sooner released or otherwise discharged. The lien may, within 10 years of the time of such recording, or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by recording a new notice in the office of the county recorder where the original notice is recorded, and from the time of such recordation the lien shall be extended as to such property for 10 years, unless sooner released or otherwise discharged. The State Forester may at any time release all or any portion of the property subject to such lien from the lien or subordinate it to other liens and encumbrances, if he determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by the State Forester to the effect that any property has been released from such lien or that such lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in such certificate.

4609. If the corrective action is not taken on or before the date specified in the notice served pursuant to Section 4608, the State Forester may take, or contract for the taking of, such corrective action and recover the expenses of the corrective action as provided in Section 4610. Where the person responsible makes a request for public hearing, the board, after at least 15 days written notice, shall hold a public hearing to hear the objections to the proposed action. The board may, but need not, conduct the hearing in accordance with the applicable provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. At the conclusion of the hearing, the board may make an order specifying the action to be taken by the person responsible to correct the violation, setting the time limits for such action, and authorizing

the taking of such action by the State Forester if the person responsible does not do so within the specified time.

4610. The expenses incurred by the State Forester in taking any corrective action pursuant to this article shall be increased by two hundred fifty dollars ($250) or 10 percent, whichever sum is higher, as administrative costs and shall constitute a debt of the person responsible, and, if not paid within 10 days after written demand therefor, may be recovered by the department in a civil action.

4611. Neither the board, the State Forester, nor any person authorized by the board or the State Forester to enter upon any lands for the purpose of taking any corrective action pursuant to this article is liable to civil action for trespass for any acts which are necessary to carry out the provisions of this article.

4612. The State Forester shall report annually to the board and the Legislature on the enforcement and penalties applied under this article.

Article 9. Conversion

4621. Any person, firm, corporation, company, partnership, or government agency that owns timberlands which are to be devoted to uses other than the growing of timber shall file an application for conversion with the board. The board shall, by regulation, prescribe the procedures for, form, and content of such application.

4622. Approval of an application for conversion shall be conditioned upon the granting of the necessary rezoning or use permit if rezoning or a use permit is required. No timber may be cut pursuant to an approved conversion except under the provisions of Section 4581, excluding requirements for stocking and methods of silviculture, except that the timber harvesting plan required by that section need not be prepared by a registered professional forester, and no timber operations shall commence until the granting of such rezoning or use permit as may be required and until the timberland conversion permit is recorded in the county recorder's office in each county wherein the timberland to be converted is located.

4623. The application shall be accompanied by an affidavit by the applicant that the applicant has a present bona fide intent to convert the land to a use other than timber growing. The board may require such additional proof of intent to convert as it deems necessary.

4624. The board shall deny a timberland conversion permit for any of the following reasons:

(a) The applicant is not the real person in interest.

(b) Material misrepresentation or false statement in the application.

(c) The applicant does not have a bona fide intention to convert the land.

(d) The failure or refusal of the applicant to comply with the rules and regulations of the board and the provisions of this chapter.

4624.5. A person whose application for a timberland conversion

permit has been denied shall be entitled to a hearing before the board pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

4625. If the board finds the applicant does have a bona fide intention to convert the land, it shall approve the application, authorizing the applicant to cut and remove any and all trees, provided that he otherwise complies with this chapter.

4626. If at any time the board finds that the applicant has failed to conform to the intent to convert, as set forth in the application and proof, the board may revoke the permit and require full compliance with this chapter. Any permit revocation shall be recorded in the same manner as the original permit.

4627. The board may, by regulation, delegate its authority and responsibilities under this article to the State Forester if it determines that the State Forester can more efficiently exercise such authority and carry out such responsibilities.

4628. Notwithstanding any provision of this article or of Section 4581, no public agency shall be required to submit a timber harvesting plan or file an application for conversion with the board where the purpose of its timber operations is to construct or maintain a right-of-way on its own or on any other public property.

SEC. 5. (a) All stocking requirements under provisions of law which were in existence on or before January 1, 1974, shall remain in full force and effect for timberland which was harvested prior to January 1, 1974.

(b) All forest practice rules, excluding rules for stocking, which are in existence on December 31, 1973, shall remain in full force and effect until superseded by interim or initial rules adopted by the board pursuant to Section 4551 of the Public Resources Code.

(c) Notwithstanding the provisions of Sections 4572 and 4577 of the Public Resources Code, procedures and fees for permits to engage in timber operations under provisions of law which are in existence on December 31, 1973, shall remain in full force and effect until December 31, 1974.

SEC. 6. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 881

An act to add Section 13330 to the Education Code, relating to instructors at regional occupational centers or programs.

[Approved by Governor September 26 1973 Filed with Secretary of State September 26, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13330 is added to the Education Code, to read:

13330. Service by a person as an instructor in classes conducted at regional occupational centers or programs, as authorized pursuant to Section 7451, shall not be included in computing the service required as a prerequisite to attainment of, or eligibility to, classification as a permanent employee of a school district.

This section shall not be construed to apply to any regularly credentialed teacher who has been employed to teach in the regular educational programs of the school district and subsequently assigned as an instructor in regional occupational centers or programs, nor shall it affect the status of regional occupational center teachers classified as permanent or probationary at the time this section becomes effective.

CHAPTER 882

An act to add Section 317.1 to the Streets and Highways Code, relating to state highways.

[Approved by Governor September 26, 1973. Filed with Secretary of State September 26, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 317.1 is added to the Streets and Highways Code, to read:

317.1. Notwithstanding Section 253.1, the California freeway and expressway system shall not include that portion of Route 17 from Granite Creek Road near Scott's Valley to the south city limits of Los Gatos.

CHAPTER 883

An act to add Section 4333 to the Business and Professions Code, relating to pharmacy, and making an appropriation therefor.

[Approved by Governor September 26, 1973 Filed with Secretary of State September 26, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4333 is added to the Business and Professions Code, to read:

4333. (a) Notwithstanding any other provision of this code, in every pharmacy there shall be posted on the premises in a place

conspicuous to customers a list, provided by the board, of the 100 prescription drugs most frequently sold in this state, and the professional services and nonprofessional convenience services associated with the dispensing of drugs as specified by the board. The list shall be of uniform style and size, no smaller than 17 inches wide by 28 inches high, and shall provide space for the insertion of the retail price charged in the pharmacy for the three quantities most frequently dispensed in this state, as determined by the board, of each of the designated drugs, and provide space for the pharmacy to indicate the professional services and nonprofessional convenience services which are provided or not provided by the pharmacy as part of the retail price charged for the drug. The list shall be completed and posted by every pharmacy in accordance with regulations adopted by the board, and shall be revised annually on dates specified by the board as the board shall direct.

(b) A pharmacist, or his employee, upon request, however communicated to him, shall give the current retail price for any drug sold at the pharmacy, including those posted pursuant to subdivision (a).

(c) This section shall not apply to a pharmacy, located in a licensed hospital, which is accessible only to hospital medical staff and personnel.

SEC. 3. The Legislature determines that it is the policy of this state to permit and encourage, for the benefit of the citizens of this state, the availability of factual information regarding charges by licensed pharmacists or pharmacies for prescription drugs and the professional services and nonprofessional convenience services associated with the dispensing of such drugs. It is the Legislature's intended purpose to permit and encourage the availability of such factual information in a manner which will not encourage unfair or deceptive competitive practices but will assist the public in making informed purchasing decisions based on total value received for prescription drug expenditures and not based on price alone. It is also the policy of this state, recognizing that prescription drugs are designated as such by law because they are potent medications not safe for use except when medically necessary and then only under close professional supervision and control, that information permitted and encouraged by Section 4333 of the Business and Professions Code shall be provided the public only in a manner which will not serve to create artificial demand for prescription drugs.

SEC. 6. There are no state-mandated local costs in this act that require reimbursement under Section 2164.3 of the Revenue and Taxation Code, because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

SEC. 7. There is hereby appropriated the sum of sixty thousand dollars ($60,000) from the Board of Pharmacy Contingent Fund to the State Board of Pharmacy for the 1973–74 fiscal year and for each

fiscal year thereafter for the purpose of carrying out the provisions of this act, including the preparation and distribution of lists pursuant to Section 4333 of the Business and Professions Code. This amount may be expended at the rate of not more than sixty thousand dollars ($60,000) during any one such fiscal year.

CHAPTER 884

An act to add Section 11011.2 to the Government Code, relating to state agencies.

[Approved by Governor September 26, 1973. Filed with Secretary of State September 26, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 11011.2 is added to the Government Code, to read:

11011.2. Any state agency which owns real property requiring annual maintenance costing in excess of fifty thousand dollars ($50,000), and which declares such property to be surplus, shall provide for its maintenance for a period of one year from the date notification is made to the Department of General Services to request the Legislature to declare such property surplus, or until the property is sold. An agency may notify the Department of General Services to request the Legislature to declare property surplus while the property is still in use.

SEC. 2. It is the intent of the Legislature that the Department of General Services expedite its requests to the Legislature for authorization to sell or otherwise dispose of surplus land; and after such authorization is made the department should expedite the sale or disposition of such property.

CHAPTER 885

An act to amend Sections 201, 1611, and 14217 of the Elections Code, relating to elections.

[Approved by Governor September 26, 1973 Filed with Secretary of State September 26, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 201 of the Elections Code is amended to read:

201. (a) It is the intent of the Legislature that the election board of each county, in order to promote and encourage voter

registrations, shall establish a sufficient number of registration places throughout the county, and outside the county courthouse, for the convenience of persons desiring to register, to the end that registration may be maintained at a high level.

(b) It is also the intent of the Legislature that county clerks, in order to promote and encourage voter registrations, shall enlist the support and cooperation of interested citizens and organizations, and shall deputize as registrars qualified citizens in such a way as to reach most effectively every resident of the county. The persons so deputized shall be permitted to register voters anywhere within the county, and the county clerk shall not deny deputy registrars the right to register voters anywhere in the county.

(c) It is also the intent of the Legislature that non-English-speaking citizens, like all other citizens, should be encouraged to vote. Therefore, appropriate efforts should be made to minimize obstacles to registration by citizens who lack sufficient skill in English to register without assistance.

(d) Where the county clerk finds that citizens described in subdivision (c) approximate 3 percent or more of the voting age residents of a precinct, or in the event that interested citizens or organizations provide information which the county clerk believes indicates a need for registration assistance for qualified citizens described in subdivision (c), the county clerk shall make reasonable efforts to recruit deputy registrars who are fluent in a language used by citizens described in subdivision (c) and in English. Such recruitment shall be conducted through the cooperation of interested citizens and organizations and through voluntarily donated public service notices in the media, including newspapers, radio, and television, particularly those media which serve the non-English-speaking citizens described in subdivision (c). Deputy registrars so appointed shall facilitate registration in the particular precincts concerned and shall have the right to register voters anywhere in the county.

(e) In furtherance of the purposes of this section, the governing board of any county, city, city and county, district, or other public agency, may authorize and assign any of its officers or employees to become deputy registrars of voters and to register qualified citizens on any premises and facilities owned or controlled by such public agencies during the regular working hours of such officers or employees; provided, that with the exception of firemen, any compensation to which said officer or employee may be entitled in payment for the services of such officer or employee as a deputy registrar may be paid by the authority which appointed such officer or employee as a deputy registrar to the public agency which regularly employs such officer or employee.

(f) It is the intent of the Legislature that no limitation be imposed on the number of persons appointed to act as deputy registrars of voters.

SEC. 2. Section 1611 of the Elections Code is amended to read:

1611. (a) No persons who cannot read or write the English language is eligible to act as a member of any precinct board.

(b) It is the intent of the Legislature that non-English-speaking citizens, like all other citizens, should be encouraged to vote. Therefore, appropriate efforts should be made to minimize obstacles to voting by citizens who lack sufficient skill in English to vote without assistance.

(c) Where the county clerk finds that citizens described in subdivision (b) approximate 3 percent or more of the voting age residents of a precinct, or in the event that interested citizens or organizations provide information which the county clerk believes indicates a need for voting assistance for qualified citizens described in subdivision (b), the county clerk shall make reasonable efforts to recruit election officials who are fluent in a language used by citizens described in subdivision (b) and in English. Such recruitment shall be conducted through the cooperation of interested citizens and organizations and through voluntarily donated public service notices in the media, including newspapers, radio, and television, particularly those media which serve the non-English-speaking citizens described in subdivision (b).

(d) At least 14 days before an election, the clerk shall prepare and make available to the public a list of the precincts to which officials were appointed pursuant to this section, and the language or languages other than English in which they will provide assistance. At the discretion of the clerk, this information may be included in the notice given pursuant to Section 1622.

SEC. 3. Section 14217 of the Elections Code is amended to read:

14217. An election official when using a language other than English at the polls shall communicate with voters in such language only as he would be lawfully permitted to communicate in English under this code and shall be subject to like penalty for any illegal communication as if it had occurred in English.

SEC. 5. Section 2 of this act shall not apply to any election for which the precinct election officials have been designated on or before the effective date of this act.

SEC. 6. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 886

An act to amend Sections 11011 and 11011.1 of the Government Code, relating to surplus property.

[Approved by Governor September 26, 1973 Filed with Secretary of State September 26, 1973]

0962 37 12590 1252

The people of the State of California do enact as follows:

SECTION 1. Section 11011 of the Government Code is amended to read:

11011. On or before December 31st of each year each state agency shall make a review of all proprietary state lands (other than tax-deeded land and land held for highway purposes and lands under the jurisdiction of the State Lands Commission and land which has escheated to the state or which has been distributed to the state by court decree in estates of deceased persons) over which it has jurisdiction to determine what, if any, land is in excess of its foreseeable needs and report thereon in writing to the Department of General Services.

Jurisdiction of all land reported as excess shall be transferred to the Department of General Services, when requested by the director thereof, for sale or disposition under this section or as may be otherwise authorized by law.

The Department of General Services shall report to the Legislature annually, the land declared excess and request authorization to dispose of the land by sale or otherwise.

Whenever any land is reported as excess pursuant to this section, the Department of General Services shall determine whether or not the use of the land is needed by any other state agency. If the Department of General Services determines that any such land is needed by any other state agency it may transfer the jurisdiction of such land to such other state agency upon such terms and conditions as it may deem to be for the best interests of the state.

When authority is granted for the sale or other disposition of lands declared excess, and the Department of General Services has determined that the use of the land is not needed by any other state agency, the Department of General Services shall sell the land or otherwise dispose of the same pursuant to such authorization, upon such terms and conditions and subject to such reservations and exceptions as the Department of General Services may deem to be for the best interests of the state. The Department of General Services shall report to the Legislature annually, with respect to each parcel of land authorized to be sold under this section, giving the following information:

(a) A description or other identification of the property

(b) The date of authorization

(c) With regard to each parcel sold after the next preceding report, the date of sale and price received, or the value of the land received in exchange, or

(d) The present status of the property, if not sold or otherwise disposed of at the time of the report.

Money received from the sale of any parcel of land pursuant to this section shall be paid into the General Fund unless otherwise specified by law.

Any rentals or other revenues received by the department from

real properties, the jurisdiction of which has been transferred to the Department of General Services under the provisions of this section, shall be deposited in the General Fund in the account established by Section 15863 of this code. Any expenditures required to maintain, repair, care for, and sell such real property shall be paid from the appropriation made by Section 15863.

Nothing contained in this section shall be construed to prohibit the sale, letting or other disposition of any state lands pursuant to any law now or hereafter enacted authorizing such sale, letting or disposition.

SEC. 2. Section 11011.1 of the Government Code is amended to read:

11011.1. Land that has been declared surplus by the Legislature, pursuant to Section 11011, and is not needed by any state agency shall be offered to local governmental agencies at fair market value. Where such land is to be used for park and recreation purposes and operated by local agencies at no expense to the state, the Director of General Services with the approval of the State Public Works Board may, notwithstanding any provision in Section 11011, transfer the land to local governmental agencies at the fair market value of the land or at any lesser value of the land, if such transfer is in the public interest, under the following conditions:

(a) The local public agency has submitted a general development plan for the property which conforms to the agency's general plan pursuant to Article 5 (commencing with Section 65300) of Chapter 3 of Title 7, and which general development plan has been approved by the Director of Parks and Recreation.

(b) The land must be developed according to plan within a time period determined by the state but not to exceed 10 years. The deed or other instrument of transfer shall provide that the land shall revert to the state if the land is not developed within the time period so determined by the state.

(c) The deed or other instrument of transfer shall provide that the land shall revert to the state if the use is changed to a use not consistent with parks and recreation purposes during the period of 25 years following the sale.

Where such land is to be used for public purposes other than park and recreation purposes, operated by the local agency at no expense to the state, and the use and enjoyment of the public purpose contemplated will be of broad public benefit, and not a benefit basically of local interest enjoyed and used primarily by the residents of the area of tax jurisdiction of the local agency, the Director of General Services, with the approval of the State Public Works Board, may transfer the land to local government agencies at a sales price no less than 50 percent of fair market value. Any such transfer shall provide that if the land is not used for the contemplated purpose during the period of 25 years following the sale, the land shall revert to the state. The Director of General Services may provide additional terms and conditions as he determines to be in the best interest of the state.

0962 37 12 615 1257

SEC. 3. Section 11011.1 of the Government Code is amended to read:

11011.1. (a) Land that has been declared surplus by the Legislature, pursuant to Section 11011, and is not needed by any state agency shall be offered to local governmental agencies at fair market value. Where such land is to be used for park and recreation purposes and operated by local agencies at no expense to the state, the Director of General Services with the approval of the State Public Works Board may, notwithstanding any provision in Section 11011, transfer the land to local governmental agencies at the fair market value of the land or at any lesser value of the land, if such transfer is in the public interest, under the following conditions:

(i) The local public agency has submitted a general development plan for the property which conforms to the agency's general plan pursuant to Article 5 (commencing with Section 65300) of Chapter 3 of Title 7, and which general development plan has been approved by the Director of Parks and Recreation.

(ii) The land must be developed according to plan within a time period determined by the state but not to exceed 10 years. The deed or other instrument of transfer shall provide that the land shall revert to the state if the land is not developed within the time period so determined by the state.

(iii) The deed or other instrument of transfer shall provide that the land would revert to the state if the use changed to a use not consistent with parks and recreation purposes during the period of 25 years following the sale.

Where such land is to be used for public purposes other than park and recreation purposes, operated by the local agency at no expense to the state, and the use and enjoyment of the public purpose contemplated will be of broad public benefit, and not a benefit basically of local interest enjoyed and used primarily by the residents of the area of tax jurisdiction of the local agency, the Director of General Services, with the approval of the State Public Works Board, may transfer the land to local government agencies at a sales price no less than 50 percent of fair market value. Any such transfer shall provide that if the land is not used for the contemplated purpose during the period of 25 years following the sale, the land shall revert to the state. The Director of General Services may provide additional terms and conditions as he determines to be in the best interest of the state.

(b) Where such land is to be used for open-space purposes, as defined herein, and operated by local agencies at no expense to the state, the Director of General Services with the approval of the State Public Works Board may transfer the land to local governmental agencies at 50 percent of fair market value under the following conditions:

(i) The local public agency has submitted a general development plan for the property which conforms to the agency's general plan pursuant to Article 5 (commencing with Section 65300) of Chapter

3 of Title 7, and which general development plan has been approved by the Director of Parks and Recreation.

(ii) The land must be developed according to plan within a time period determined by the state but not to exceed 10 years.

(iii) The deed or other instrument of transfer shall provide that the land would revert to the state if the use changed to a use not consistent with open-space purposes during the period of 25 years following the sale.

(iv) For the purpose of this subdivision, "open-space purpose" means the use of land for public recreation, enjoyment of scenic beauty, or conservation or use of natural resources.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 1081 are both chaptered and amend Section 11011.1 of the Government Code, and this bill is chaptered after Assembly Bill No. 1081, that the amendments to Section 11011.1 proposed by both bills be given effect and incorporated in Section 11011.1 in the form set forth in Section 3 of this act. Therefore, Section 3 of this act shall become operative only if this bill and Assembly Bill No. 1081 are both chaptered, both amend Section 11011.1, and Assembly Bill No. 1081 is chaptered before this bill, in which case Section 2 of this act shall not become operative.

On order of the Controller the Treasurer shall deposit in the Motor Vehicle Fund, which is

continued in existence as the Motor Vehicle Account in the Transportation Tax Fund, all such moneys so reported and remitted.

Any reference in any law or regulation to the Motor Vehicle Fund shall be deemed to refer to the Motor Vehicle Account in the Transportation Tax Fund, except that any appropriation from the Motor Vehicle Fund for the support of the Department of Motor Vehicles or for the support of the Department of the California Highway Patrol shall be deemed to refer to the Motor Vehicle Account in the State Transportation Fund, which is created by subdivision (a) of Section 42271.

Such ratio shall be reevaluated periodically and shall be adjusted to reflect any change in the fee structure that may be provided in this code or in Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code.

SEC 60 (a) Sections 7, 10, 34, 40, 51, 52, 53, 54, 55, 56, and 57 of this act shall become operative on December 1, 1974.

SEC. 61. There is hereby appropriated from the Motor Vehicle Account in the State Transportation Fund the sum of two hundred fifty thousand dollars ($250,000) to the Department of Motor Vehicles for expenditures in the 1973–74 fiscal year for the purpose of carrying out the provisions of this act.

SEC. 62. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The annual renewal of registration, due to the continuing increase in registrations, has put an undue strain on the Department of Motor Vehicles' facilities and personnel. The department, after two years of a pilot program with motorcycles, has determined that year-round registration of vehicles will be feasible with a new computer system, the acquisition of which is imminent. To provide the department with sufficient time for the extensive planning and reprogramming that will be necessary to meet the December 1, 1974, deadline for implementation of a year-round registration system, it is necessary that this act go into immediate effect.

CHAPTER 890

An act making an appropriation for the reconstruction of the Benbow Dam, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1973 Filed with Secretary of State September 28, 1973]

The people of the State of California do enact as follows:

SECTION 1. The sum of five hundred fifty thousand dollars ($550,000) is hereby appropriated from the Bagley Conservation Fund, from those moneys in such fund designated for miscellaneous capital outlay construction, to the Department of Parks and Recreation for the removal, repair, and modification of the existing Benbow Dam on the Eel River and the construction of a new seasonal dam for recreational purposes to replace the existing structure, as follows:

(a) The sum of ten thousand dollars ($10,000) for expenditure during the 1973–74 fiscal year for design.

(b) The sum of five hundred forty thousand dollars ($540,000) for expenditure during the 1974–75 fiscal year for removal, repair, modification, and construction.

SEC. 2. The funds appropriated by Section 1 of this act may be expended for the purposes of the removal, repair, modification, and construction of Benbow Dam on the Eel River notwithstanding any provision of Chapter 1.4 (commencing with Section 5093.50) of Division 5 of the Public Resources Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act appropriates funds for the removal, repair, and modification of the existing Benbow Dam on the Eel River and the construction of a new seasonal dam for recreational purposes to replace the existing structure. The preservation of important fishery resources and the enhancement of urgently needed recreational facilities require that such removal, repair, modification, and construction be accomplished at the earliest possible time. It is necessary therefore that this act go into immediate effect.

CHAPTER 891

An act to amend Sections 12506, 12804, 12814, 12816, and 14900 of the Vehicle Code, relating to drivers' licenses, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1973 Filed with Secretary of State September 28, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 12506 of the Vehicle Code is amended to read:

12506. The department may issue a temporary driver's license to any person applying for a driver's license, or to any licensee whose license is required to be changed, added to, or modified. A temporary license shall permit the operation of a motor vehicle upon the highways for a period of 60 days, when the licensee has the license in his immediate possession, and while the department is completing its investigation and determination of all facts relative to the applicant's right to receive a license. The temporary license is invalid when the applicant's license has been issued or refused.

SEC. 2. Section 12804 of the Vehicle Code is amended to read:

12804. (a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, his understanding of traffic signs and signals and the applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive, except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination

appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(2) Class 2. Any bus, any "farm labor truck," any single vehicle with three or more axles, any such vehicles towing another vehicle weighing less than 6,000 pounds gross, and all vehicles covered under class 3.

(3) Class 3. A three-axle housecar, any two-axle vehicle, and any such housecar or vehicle towing another vehicle weighing less than 6,000 pounds gross, except a bus, two-wheel motorcycle, or "farm labor truck."

(4) Class 4. Any two-wheel motorcycle. Authority to operate vehicles included in a class 4 license may be granted by endorsement on a class 1, 2 or 3 license upon completion of appropriate examination.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration of the United States Department of Transportation is in the licensee's possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

SEC. 3. Section 12814 of the Vehicle Code is amended to read:

12814. (a) Application for renewal of a license shall be made at an office of the Department of Motor Vehicles by the person to whom the license was issued. The department may in its discretion require an examination of the applicant as upon an original application, or an examination deemed by the department to be appropriate considering the licensee's record of convictions and accidents, or an examination deemed by the department to be appropriate in relation to evidence of a condition which may affect

the ability of the applicant to safely operate a motor vehicle. The age of a licensee, by itself, shall not constitute evidence of a condition requiring an examination of the driving ability. If the department finds any such evidence, the department shall disclose the evidence to the applicant or licensee. In the event such person is absent from the state at the time the license expires, the Director of Motor Vehicles may extend the license for a period of one year from the expiration date of the license.

(b) Renewal of a driver's license shall be under terms and conditions prescribed by the department and, at the discretion of the director, licenses may be extended for not to exceed one year when the number of renewal applications to be processed in a year will exceed the number of applications in the previous year or the next subsequent year by more than 10 percent.

(c) The department may adopt and administer such regulations as shall be deemed necessary for the public safety in the implementation of a program of selective testing of applicants, and, with reference to this section, the department may waive tests for purposes of evaluation of selective testing procedures.

SEC. 4. Section 12816 of the Vehicle Code is amended to read:

12816. (a) Every original driver's license issued after January 1, 1975, shall expire on the fourth birthday of the applicant following the date of the application for the license.

(b) Renewal of any driver's license shall be made for a term which shall expire on the fourth birthday of the applicant following the expiration of the license renewed.

(c) The department may accept application for a renewal of a driver's license made not more than six months prior to the date of expiration. If renewal is not applied for within 90 days after expiration of the license, the application and fee shall be considered the same as an application for an original license.

SEC. 5. Section 14900 of the Vehicle Code is amended to read:

14900. (a) Upon application for an original driver's license or for the renewal of a driver's license there shall be paid the department a fee of three dollars and twenty-five cents ($3.25). The payment of the fee shall entitle the person paying same to make application for a driver's license and to three examinations within a period of six months or during the period of an instruction permit issued from such application as provided in Section 12509.

The term "driver's license" as used in this section includes all licenses of every kind issued under Division 6 (commencing with Section 12500).

(b) Any person who, by reason of physical disabilities, is unable to move about as a pedestrian shall be exempt from the fee provided in this section, but only in the event the license issued to such a person restricts such person to the operation of a self-propelled wheelchair or invalid tricycle.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The requirements of safety on the highways indicate a critical need for more effective incentive for safer individual driver performance and effective examinations and rehabilitative treatments for those drivers identified by their poor safety records or other means as being in need of improvement. The present program does not allow the application of advances achieved in the art of selective testing of drivers according to individual needs. Changes are also needed to allow the department to adjust and apply its available resources and facilities to accommodate the periodic peaking in the volume of driver's license renewals, and to provide this necessary driver's license service with less inconvenience to the public than is possible under existing law.

It is imperative that this measure, which will provide such needed changes and enable the department to more effectively apply its available resources and facilities, go into effect immediately.

SEC. 7. This act shall become operative on October 1, 1973, except that Section 4 of this act shall not become operative until January 1, 1975.

The state's portion shall not be changed unless there are major project changes made in the plan of improvement, in which case the department, prior to the next appropriation of state funds for the project, shall review the project and make such new determination as it deems justified by the project changes.

The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage.

Those reassessed values resulting from reductions in full cash value of at least one thousand dollars ($1,000), as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the reassessment determined in accordance with this section. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

[Approved by Governor September 28, 1973 Filed with Secretary of State September 28, 1973]

0 1883 38 2 155 1425

The people of the State of California do enact as follows:

SECTION 1. Section 2.5C is added to the Budget Bill for the 1973–74 fiscal year enacted as the Budget Act of 1973 (Chapter 129, Statutes of 1973–74), to read:

STATE BEACH, PARK, RECREATIONAL AND HISTORICAL FACILITIES BOND ACT PROGRAM

SEC. 2.5C. The following sum of money, or so much thereof as may be necessary, is hereby appropriated for the 1973–74 fiscal year beginning July 1, 1973, and ending June 30, 1974. Such appropriation shall be paid out of the State Beach, Park, Recreational, and Historical Facilities Fund in the State Treasury.

LOCAL ASSISTANCE

Resources

365C—For grants to counties, cities, or cities and counties pursuant to Section 5096.15(d) of the Public Resources Code, Department of Parks and Recreation, payable from the State Beach, Park, Recreational, and Historical Facilities Fund 180,000

Schedule:

(a) County of San Bernardino, Mojave Narrows Regional Park, for development..... 180,000

366.1C—As of the effective date of this act, the unexpended balance of the appropriation made by Item 349.1(qq), Budget Act of 1970, shall revert to the unappropriated balance of the State Beach, Park, Recreational, and Historical Facilities Fund.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The present provisions of the Budget Act of 1973 do not make sufficient provision for the greatly needed development of Mojave Narrows Regional Park. If the appropriation made by this act is not available for expenditure at the earliest possible date, the development of this important county park will be delayed. The immediate availability of the appropriation contained in this measure will avert any unnecessary delay. It is therefore necessary that this act go into immediate effect.

"Approval of the trustees", as used in this section, means that the trustees may, in their discretion, allow or deny the request of the contractor to avail itself of the provisions of this section and that the trustees may, in their discretion, allow the request of the contractor upon the satisfaction of conditions which may be specified by the trustees.

The contractor shall be beneficial owner of any securities in an escrow account pursuant to this section and shall receive any interest thereon.

0 1986 382 180 1430

Any escrow agreement entered into pursuant to this section shall contain as a minimum, the following provisions:

(a) The amount of securities to be deposited; such amount shall not be less than the amount which would otherwise be withheld pursuant to Section 25371;

(b) The terms and conditions of conversion to cash in case of the default of the contractor; and

(c) The termination of the escrow upon completion of the contract.

[Approved by Governor September 28, 1973 Filed with Secretary of State September 28, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 1584.5 of the Civil Code is amended to read:

1584.5. No person, firm, partnership, association or corporation, or agent or employee thereof, shall, in any manner, or by any means, offer for sale goods, wares, or merchandise, where the offer includes the voluntary and unsolicited sending of such goods, wares, or merchandise not actually ordered or requested by the recipient, either orally or in writing. The receipt of any such goods, wares, or merchandise shall for all purposes be deemed an unconditional gift to the recipient who may use or dispose of such goods, wares, or merchandise in any manner he sees fit without any obligation on his part to the sender.

If after any such receipt deemed to be an unconditional gift under this section, the sender continues to send bill statements or requests for payment with respect thereto, an action may be brought by the recipient to enjoin such conduct, in which action there may also be awarded reasonable attorneys' fees and costs to the prevailing party.

For the purposes of this section and limited to merchandise offered for sale through the mails, the "voluntary and unsolicited sending of such goods, wares, or merchandise not actually ordered or requested by the recipient, either orally or in writing," includes any merchandise selected by the company and offered to the consumer which will be mailed to him for sale or on approval unless he exercises an option to reject such offer of sale or receipt on approval. Merchandise selected by the seller and offered for sale on a periodic

basis must be affirmatively ordered by a statement or card signed by the consumer as to each periodic offer of merchandise. This paragraph shall not apply to any of the following:

(a) Contractual plans or arrangements complying with this subdivision under which the seller periodically provides the consumer with a form or announcement card which the consumer may use to instruct the seller not to ship the offered merchandise. Any instructions not to ship merchandise included on such form or card shall be printed in type as large as all other instructions and terms stated on such form or card. Such form or card shall specify a date by which it shall be mailed by the consumer (the "mailing date") or received by the seller (the "return date") to prevent shipment of the offered merchandise. The seller shall mail the form or card either at least twenty-five (25) days prior to the return date or at least twenty (20) days prior to the mailing date, or provide a mailing date of at least ten (10) days after receipt by the consumer, except that whichever system the seller chooses for mailing the form or card, such system must be calculated to afford the consumer at least ten (10) days in which to mail his form or card. Such form or card shall be preaddressed to the seller so that it may serve as a postal reply card or, alternatively, the form or card shall be accompanied by a return envelope addressed to seller. Upon the membership contract or application form or on the same page and immediately adjacent to such contract or form, and in clear and conspicuous language, there shall be disclosed the material terms of the plan or arrangement including all of the following:

(1) That aspect of the plan under which the subscriber must notify the seller, in the manner provided for by the seller, if he does not wish to purchase or receive the selection.

(2) Any obligation assumed by the subscriber to purchase a minimum quantity of merchandise.

(3) The right of a contract-complete subscriber to cancel his membership at any time.

(4) Whether billing charges will include an amount for postage and handling.

(b) Other contractual plans or arrangements not covered under subdivision (a), such as continuity plans, subscription arrangements, standing order arrangements, supplements and series arrangements under which the seller periodically ships merchandise to a consumer who has consented in advance to receive such merchandise on a periodic basis.

SEC. 2. This act shall become operative on January 1, 1975.

CHAPTER 917

An act to amend Section 13143 of the Health and Safety Code, relating to fire safety, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1973 Filed with Secretary of State September 28, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13143 of the Health and Safety Code is amended to read:

13143. (a) The State Fire Marshal, with the advice of the State Fire Advisory Board, shall prepare and adopt regulations establishing minimum standards for the prevention of fire and for the protection of life and property against fire and panic in any building or structure used or intended for use as an asylum, jail, mental hospital, hospital, sanitarium, home for aged, children's nursery, children's home or institution not otherwise excluded from the coverage of this subdivision, school, or any similar occupancy of any capacity, and in any theater, dancehall, skating rink, auditorium, assembly hall, meeting hall, nightclub, fair building, or similar place of assemblage where 50 or more persons may gather together in a building, room or structure for the purpose of amusement, entertainment, instruction, deliberation, worship, drinking or dining, awaiting transportation, or education, and in any building or structure which is open to the public and is used or intended to be used for the showing of motion pictures when an admission fee is charged and when such building or structure has a capacity of 10 or more persons. Regulations adopted pursuant to this subdivision shall establish minimum standards relating to the means of egress and the adequacy of exits from, the installation and maintenance of fire extinguishing and fire alarm systems in, the storage and handling of combustible or explosive materials or substances, and the installation and maintenance of appliances, equipment, decorations, and furnishings that present a fire, explosion or panic hazard, and such minimum standards shall be predicated on the height and fire-resistive qualities of the building or structure and the type of occupancy for which it is to be used. The regulations shall apply to auxiliary or accessory buildings used or intended for use with any of the occupancies mentioned in this subdivision. Violation of any regulation shall be deemed to be in violation of this chapter.

In preparing and adopting regulations affecting public schools, the State Fire Marshal shall also secure the advice of the Department of Education. No regulation adopted by the State Fire Marshal shall conflict with any rule, regulation, or standard lawfully adopted by the Department of General Services under Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 of the Education Code.

(b) Notwithstanding the provisions of subdivision (a) of this section and Section 13143.6, facilities licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 which provide nonmedical board, room, and care for six or fewer ambulatory children placed with the licensee for such care shall not be subject to the provisions of Article 1 (commencing with Section 13100) or Article 2 (commencing with Section 13140) of this chapter or regulations adopted pursuant thereto. No city, county, or public district shall adopt or enforce any requirement for the prevention of fire or for the protection of life and property against fire and panic with respect to structures used as facilities specified in this subdivision, unless the requirement would be applicable to such a structure regardless of such special occupancy. Nothing in this subdivision shall restrict the application of state or local housing standards to such facilities, if the standards are applicable to residential occupancies and are not based upon the use of the structure as such a facility.

"Ambulatory children," as used in this subdivision, does not include nonambulatory persons, as defined in Section 13131, and relatives of the licensee or the licensee's spouse.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Regulations of the State Fire Marshal, adopted pursuant to Section 13143 of the Health and Safety Code and relating to fire and panic safety, have been unduly restrictive with respect to private homes providing care to six or less foster children. In many areas the enforcement of such regulations or the imposition of special local requirements has resulted in a reduction of available foster care facilities, which are greatly needed throughout the state. In order to avert these problems before they result in even more serious harm to foster care programs, it is necessary that this act go into immediate effect.

CHAPTER 918

SECTION 1. Section 531 of the Revenue and Taxation Code is amended to read:

531. If any property belonging on the local roll has escaped

assessment, the assessor shall assess the property on discovery at its value on the lien date for the year for which it escaped assessment. It shall be subject to the tax rate in effect in the year of its escape except as provided in Section 2905 of this code.

Property shall be deemed to have escaped assessment when its owner fails to file a property statement pursuant to the provisions of Section 441, to the extent that this failure results in no assessment or an assessment at a valuation lower than would have obtained had the property been properly reported. Escape assessments made as the result of an owner's failure to file a property statement as herein provided shall be subject to the penalty and interest imposed by Sections 463 and 506, respectively. This paragraph shall not constitute a limitation on any other provision of this article.

060 382340 1463

authorized substantially in accordance with the recommendations of the Chief of Engineers in House Document Numbered 222, 89th Congress, as adopted and authorized by the Act of Congress approved October 27, 1965 (Public Law 89-298, the "Flood Control Act of 1965"), as modified by data in the General Design Memorandum transmitted December 8, 1970, by the District Engineer, San Francisco District, Corps of Engineers, to the Director of Water Resources, at an estimated cost to the state of such sum as may be appropriated for state cooperation by the Legislature upon the recommendation and advice of the department. This authorization shall not be deemed to confer preference on this project over the needs of other statewide programs in appropriation of available funds.

The state payments on the Napa River Flood Control Project shall be 75 percent of the costs of lands and rights or interests in lands whereon channel improvements and channel rectifications are located, and of lands, rights, or interests in lands necessary in connection with the construction, operation, or maintenance of such channel improvements or rectifications, including those necessary for flowage purposes, spoil areas, borrow pits, or for access roads, and shall be 90 percent of the costs of the relocation, reconstruction, or replacement of existing improvements, structures, or utilities rendered necessary by the project.

The local agency payments on the Napa River Flood Control Project shall be 25 percent of the costs of lands and rights or interests in lands whereon channel improvements and channel rectifications are located, and of lands, rights, or interests in lands necessary in connection with the construction, operation, or maintenance of such channel improvements or rectifications, including those necessary for flowage purposes, spoil areas, borrow pits or for access roads, and shall be 10 percent of the costs of the relocation, reconstruction, or replacement of existing improvements, structures, or utilities rendered necessary by the project.

The amount of this credit shall be determined by the department by applying the 75 percent representing the state portion of the costs of lands, easements, and rights-of-way to the actual costs of the local agency in the case of acquisition by purchase or condemnation, and to the fair market value at the time of title transfer in the case of acquisition free of charge. The department is authorized to loan the local agency the funds necessary to pay such local portion of the costs of lands, easements, and rights-of-way less any credit for acquired lands granted to the local agency by the department. Such loans may not exceed a period of 10 years and the rate of interest on such loans shall be the current rate for the state's Pooled Money Investment Account. Such loans shall be repaid in annual installments beginning

060 382355 1466

one year after the loan is made. Annual loan payments may be deducted from the state's annual tax subvention to the local agency, if any. In the event that the local agency does not receive tax subventions from the state adequate to make the loan payment and becomes in default on the loan payments, the local agency, notwithstanding any other provisions of any statute limiting its tax ceiling, shall levy sufficient taxes to repay the loan. Notwithstanding any other provisions of law, the local agency is authorized to accept the loans authorized pursuant to this section.

SEC. 2. Section 12748.1 is added to the Water Code, to read:

12748.1. The Napa County Flood Control and Water Conservation District shall give assurances satisfactory to the Secretary of the Army that the local cooperation, required by the Act of Congress approved October 27, 1965 (Public Law 89-298, the "Flood Control Act of 1965"), will be furnished by the district in connection with the plan of improvement for flood control adopted and authorized in Section 12748.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit a city or county under the state strong-motion instrumentation program to secure exemption from the construction permit fee collection requirement of Section 2705 of the Public Resources Code, notwithstanding unforeseen delays in the construction of the structure required by Section 2708 of the Public Resources Code to be instrumented with three accelerographs in order to qualify for such exemption, it is necessary that this act go into immediate effect.

Any violation of this section may be enjoined in a civil action brought in the name of the people of the State of California by the Attorney General, except that the plaintiff shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

The provisions of this section shall not apply to any individual, agency, association or corporation not organized or incorporated for pecuniary profit or financial gain or to any organization or association which is exempt from taxation pursuant to subdivision (c) of Section 501 of Title 26 of the United States Code.

Sec. 3. Nothing in this act or any other provision of law shall prohibit the sale, or the possession with the intent to sell, of any product made from the oil of sea turtles for commercial purposes if such sale or possession occurs prior to April 1, 1974.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Businesses within the state have large inventories of perfume and other cosmetics which have sea turtle oil as a base. In order to

provide these businesses with a limited period within which to clear these inventories without incurring substantial financial loss, it is necessary that this act become effective immediately.

CHAPTER 926

An act to add Section 12005.5 to the Health and Safety Code, relating to explosives.

CHAPTER 927

An act to amend Section 4205 of the Civil Code and Section 94.5 of the Penal Code, relating to marriage.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4205 of the Civil Code is amended to read:

4205. Marriage may be solemnized by any judge or retired judge, commissioner, or assistant commissioner of a court of record or justice court in this state or by any priest, minister, or rabbi of any religious denomination, of the age of 18 years or over.

SEC. 2. Section 94.5 of the Penal Code is amended to read:

94.5. Every judge, justice, retired judge, retired justice, judge who has resigned from office, commissioner, or assistant commissioner of a court of this state, except a judge of a justice court, who accepts any money or other thing of value for performing any marriage, including any money or thing of value voluntarily tendered by the persons about to be married or who have been married by such judge, justice, retired judge, retired justice, commissioner, or assistant commissioner, whether the acceptance occurs before or after performance of the marriage and whether or not performance of the marriage is conditioned on the giving of such money or the thing of value by the persons being married, is guilty of a misdemeanor.

It is not a necessary element of the offense described by this section that the acceptance of the money or other thing of value be committed with intent to commit extortion or with other criminal intent.

This section does not apply to the request for or acceptance of a fee expressly imposed by law for performance of a marriage.

This section does not apply to an acceptance of a fee for performing a marriage on Saturday, Sunday or a legal holiday.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 4. Section 4205 of the Civil Code is amended to read:

4205. Marriage may be solemnized by any judge or retired judge, commissioner, or assistant commissioner of a court of record or justice court in this state or by any priest, minister, or rabbi of any

CHAPTER 928

An act relating to University of California Capital Outlay, and making an appropriation therefor.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law, funds appropriated by Item 357 of the Budget Act of 1973 shall be available for minor improvement projects on any campus or facility of the University of California.

CHAPTER 929

An act to establish procedures for the assessment of open-space lands, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provision of law to the contrary, the assessment procedures specified under Sections 423 and 423.5 of the Revenue and Taxation Code shall be effective with respect to land subject to taxation for the 1973–1974 fiscal year, if such land is subject to an instrument meeting the requirements of Section 422 of the Revenue and Taxation Code and such instrument is signed

4254 382480 1491

and recorded on or before May 25, 1973; provided, that prior to 5 o'clock p.m. on March 1, 1973, either the land which is subject to a contract was included in a proposal to establish an agricultural preserve submitted to the planning commission or planning department or the matter of accepting an open-space easement or scenic restriction had been referred to such commission or department.

SEC. 2. It is the intent of the Legislature that land assessed pursuant to the provisions of Section 1 of this act for the 1973–1974 fiscal year shall be included for purposes of computing subventions to local government pursuant to Chapter 3 (commencing with Section 16140) of Part 1 of Division 4 of Title 2 of the Government Code for losses due to such assessment procedures for the 1973–1974 fiscal year. Such subventions to local government satisfy the requirements of Section 2163 of the Revenue and Taxation Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some counties and cities have inadvertently failed to file the instruments reflecting the true status of property as being eligible for the assessment authorized by the Constitution for open-space lands, and in some cases negotiations to sign such instruments were not completed by the lien date in 1973. As a result, some individuals will be confronted with obligations which, if met, will substantially impair their ability to function effectively. This act will remedy the situation by, in effect, removing the procedural bar to the proper valuation of such property for tax purposes. In so doing, the public policy of the state as expressed in the Constitution will be entirely fulfilled and the state as a whole will benefit.

CHAPTER 930

An act to amend Sections 652, 656, and 657 of, and to repeal Section 653 of, the Harbors and Navigation Code, and to add Section 70210.5 to the Public Utilities Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.

For the purposes of this subdivision, a person water skiing from such vessel shall be considered a person on board.

(g) Every motorboat shall be provided with such number, size, and type of fire extinguishers, capable of promptly and effectually extinguishing burning gasoline, as may be prescribed by the regulations of the department, which fire extinguishers shall be at all times kept in condition for immediate and effective use and shall be so placed as to be readily accessible.

(m) No person shall operate or give permission for the operation of a vessel which is not equipped as required by this section or by regulations adopted by the department.

SEC. 2. Section 653 of the Harbors and Navigation Code is repealed.

SEC. 3. Section 656 of the Harbors and Navigation Code, as amended by Chapter 797 of the Statutes of 1972, is amended to read:

656. (a) It shall be the duty of the operator of a vessel involved in a collision, accident or other casualty, so far as he can do so without serious danger to his own vessel, crew, and passengers, to render to other persons affected by the collision, accident or other casualty such assistance as may be practicable and as may be necessary in order to save them from or minimize any danger caused by the collision, accident or other casualty, and also to give his name, address, and identification of his vessel in writing to any person injured and to the owner of any property damaged in the collision, accident or other casualty

(b) Any person who complies with subdivision (a) or who gratuitously and in good faith renders assistance at the scene of a vessel collision, accident, or other casualty without objection by any person assisted shall not be held liable for any civil damages sought as a result of the rendering of assistance or for any act or omission in providing or arranging salvage, towage, medical treatment, or other assistance, where the assisting person has acted as an ordinary, reasonably prudent man would have acted under the same or similar circumstances.

(c) The owner, operator, or other person on board a vessel involved in a casualty or accident shall report the casualty or accident in accordance with regulations adopted by the department. The department shall adopt regulations to maintain a uniform casualty and accident reporting system for vessels subject to this code in conformity with federal casualty and accident reporting regulations promulgated by the United States Coast Guard or any successor thereto. Consistent with Public Law 92-75 and the federal regulations contained in Part 173 of Title 33 of the Code of Federal Regulations, a peace officer or harbor policeman, upon receiving an initial report of a casualty involving the death or disappearance of a person as a result of a boating accident, shall immediately forward such report, by quickest means available, to the department.

(d) Neither the report required by this section nor any action taken by the department with regard to such report shall be referred to in any way, or be any evidence of negligence or due care of any party, at the trial of any action at law to recover damages.

(e) All required accident reports, and supplemental reports, shall be without prejudice to the individual so reporting and shall be for the confidential use of the department and any peace officer actually

engaged in the enforcement of this chapter, except that the department shall disclose the names and addresses of persons involved in, or witnesses to, an accident, the registration numbers and descriptions of vessels involved, and the date, time, and location of an accident to any person who may have a proper interest therein, including the operator or operators involved, or the legal guardian thereof, the parent of a minor operator, the authorized representative of an operator or to any person injured therein and the owners of vessels or property damaged thereby.

SEC. 4. Section 657 of the Harbors and Navigation Code is amended to read·

657. In accordance with any request duly made by an authorized official or agency of the United States, any information compiled or otherwise available to the department pursuant to Section 656 shall be transmitted to said official or agency of the United States.

SEC. 5. Section 70210 5 is added to the Public Utilities Code, to read:

70210.5. The maximum tax rate set forth in Section 70210 may be increased to an amount approved by a majority of the electors of the district voting at a special election called for such purpose.

SEC. 5.5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section, nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chapter 454 of the Statutes of 1972 requires a vessel operator to stop and lie to when lawfully ordered to do so by a peace officer or harbor policeman and provides that violation of the provision would constitute a misdemeanor However, Chapter 1121 of the Statutes of 1972, which will become effective July 1, 1973, eliminated the misdemeanor provision which was not the intent of that chapter. This act will restore such provision. Furthermore, newly revised federal regulations revise boat accident reporting requirements effective July 1, 1973, and it is essential that the provisions of this act regarding vessel casualty and accident reporting be made effective on or before that date. It is therefore necessary that this act take immediate effect.

CHAPTER 931

An act to amend Sections 19955 and 19955.5 of the Health and Safety Code, relating to buildings, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 19955 of the Health and Safety Code is amended to read:

19955. (a) The purpose of this part is to insure that public accommodations or facilities constructed in this state with private funds adhere to the provisions of Chapter 7 (commencing with Section 4450) of Division 5 of Title 1 of the Government Code. For the purposes of this part "public accommodation or facilities" means a building, structure, facility, complex, or improved area which is used by the general public and shall include auditoriums, hospitals, theaters, restaurants, hotels, motels, stadiums, and convention centers.

As used in this section, "hospitals" includes, but is not limited to, hospitals, nursing homes, and convalescent homes.

When sanitary facilities are made available for the public, clients, or employees in such accommodations or facilities, they shall be made available for the physically handicapped.

Any new requirements imposed by the amendments to this section enacted by the Legislature at its 1973–74 Regular Session shall only apply to public accommodations or facilities constructed on or after the effective date of the amendments.

SEC. 2. Section 19955.5 of the Health and Safety Code is amended to read:

19955.5. All passenger vehicle service stations, shopping centers and office buildings constructed in this state with private funds shall adhere to the provisions of Chapter 7 (commencing with Section 4450) of Division 5 of Title 1 of the Government Code. As used in this section, "office building" means a building or structure of more than 10,000 square feet of gross floor area wherein commercial activity or service is performed or a profession is practiced, or wherein any combination thereof is performed or practiced in all or the majority of such building or structure.

In multistoried buildings, floors or levels above and below the first floor or ground level are exempt from the requirements of this section if a ramp or elevator is not available to provide public access to such floors or levels.

When sanitary facilities are made available for the public, clients, or employees in such stations, centers, or buildings, they shall be made available for the physically handicapped.

Any new requirements imposed by the amendments to this section

enacted by the Legislature at its 1973–74 Regular Session shall only apply to such stations, centers, or buildings constructed on or after the effective date of the amendments.

SEC. 3. Section 19955.5 of the Health and Safety Code, as amended by Section 2 of this act, is amended to read:

19955.5. All passenger vehicle service stations, shopping centers, offices of physicians and surgeons, and office buildings constructed in this state with private funds shall adhere to the provisions of Chapter 7 (commencing with Section 4450) of Division 5 of Title 1 of the Government Code. As used in this section, "office building" means a structure wherein commercial activity or service is performed or a profession is practiced, or wherein any combination thereof is performed or practiced in all or the majority of such building or structure.

In multistoried buildings, floors or levels above and below the first floor or ground level are exempt from the requirements of this section if a ramp or elevator is not available to provide public access to such floors or levels.

When sanitary facilities are made available for the public, clients, or employees in such stations, centers, or buildings, they shall be made available for the physically handicapped.

Any new requirements imposed by the amendments to this section enacted by the Legislature at its 1973–74 Regular Session shall only apply to such stations, centers, offices, and buildings constructed on or after the effective date of the amendments.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 2396 are both chaptered and become effective on or before January 1, 1974, both bills amend Section 19955.5 of the Health and Safety Code, and this bill is chaptered after Assembly Bill No. 2396, that Section 19955.5 of the Health and Safety Code, as amended by Section 2 of this act, shall remain operative until the effective date of Assembly Bill No. 2396, and that on the effective date of Assembly Bill No. 2396, Section 19955.5 of the Health and Safety Code, as amended by Section 2 of this act, be further amended in the form set forth in Section 3 of this act to incorporate the changes in Section 19955.5 proposed by Assembly Bill No. 2396. Therefore, if this bill and Assembly Bill No. 2396 are both chaptered and become effective on or before January 1, 1974, and Assembly Bill No. 2396 is chaptered before this bill and amends Section 19955.5, Section 3 of this act shall become operative on the effective date of Assembly Bill No. 2396.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act, because local agencies have the authority to increase fees to cover any additional costs which may result from this act.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Serious questions have been raised regarding the meaning and application of the provisions of Sections 19955 and 19955.5 of the Health and Safety Code. This has caused a delay in construction projects and raised the threat of litigation. In order that these questions may be resolved without delay, construction of the delayed projects resumed, and litigation avoided, it is imperative that this act, which will clarify the meaning and application of the provisions of Section 19955 and 19955.5, take effect immediately.

CHAPTER 932

An act relating to the state park system, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the unencumbered balance of funds transferred to a special account in the General Fund in the State Treasury under the provisions of Item 257, Budget Act of 1969; Item 214, Budget Act of 1970; Item 208, Budget Act of 1971; and Item 212, Budget Act of 1972, to the Department of Parks and Recreation the sum of thirty thousand dollars ($30,000) to prepare a General Development Plan for Hearst San Simeon State Historical Monument.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to develop as soon as possible the urgently needed general development plan for the staging area at the Hearst San Simeon State Historical Monument to provide the necessary additional visitor services which are needed due to the substantial increase in visitor attendance at that monument, it is necessary that the provisions of this act become effective immediately.

CHAPTER 933

An act to add Section 30101.7 to the Streets and Highways Code, relating to toll bridges.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 30101.7 is added to the Streets and Highways Code, to read:

30101.7. (a) The authority shall grant toll free passage on all toll bridges, tubes, and other toll highway crossings under its jurisdiction to vehicles in a funeral procession of a person who died while on active duty with the armed services of the United States.

(b) The authority shall submit a claim for the loss in revenues resulting from subdivision (a) to the State Controller, who shall reimburse the authority in the amount submitted in the claim from funds appropriated by the Legislature to him for such purposes.

(c) The State Controller, in consultation with the authority, shall adopt such rules and regulations as are necessary to implement this section.

CHAPTER 934

An act to add Section 1780 to, and to amend Sections 1778 and 1779 of, the Government Code, relating to vacancies in office.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 1780 is added to the Government Code, to read:

1780. Notwithstanding any other provision of law, a vacancy in the office of an elected member of the governing board of a special district, other than a school district or a district organized pursuant to Division 6 (commencing with Section 11501) of the Public Utilities Code, shall be filled by the remaining district board members by appointment if they act within a period of 90 days immediately subsequent to the creation of such vacancy and if they post notice of such vacancy in three conspicuous places in the district not later than 20 days subsequent to the effective date of such vacancy. If such vacancy is not so filled within such 90-day period, the city council of the city in which the district is wholly located or, if the district is not wholly located within a city, the board of supervisors of the county in which the larger portion of the district is located may fill the vacancy by appointment, if the city council, or county board of supervisors, acts within 120 days of the effective date of such vacancy. If such vacancy is filled by appointment, either by authority of the district board, the city council or the county board of supervisors, such appointment shall be for the balance of the unexpired term of the vacant office or until the next general district election, whichever occurs first. If such vacancy is not filled by appointment

within 120 days immediately subsequent to its creation, the district board shall forthwith call a special election for the purpose of filling the vacancy. The person elected to fill the vacancy shall serve for the balance of the unexpired term of the vacant office.

Notwithstanding the foregoing, if an election involving the total territory of the district will be conducted not more than four nor less than one month subsequent to the effective date of such vacancy, the vacancy shall be filled at such election.

SEC. 2. Section 1778 of the Government Code, is amended to read:

1778. A vacancy in the office of an appointed member of the governing board of a special district shall be filled by appointment by the board of supervisors of the county in which the larger portion of the district is located unless, by the terms of the act under which the district is formed, another method of appointment is expressly provided.

SEC. 3. Section 1779 of the Government Code, is amended to read:

1779. A vacancy on any appointed governing board of a special district shall be filled by the appointing authority within 90 days immediately subsequent to its occurrence. If no action is taken for a period of 90 days immediately subsequent to a vacancy on such a board, the board of supervisors of the county in which the larger portion of the district is located shall have authority to fill the vacancy by appointment.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 935

An act to amend Section 25955 of the Health and Safety Code, relating to abortions.

[Approved by Governor September 30, 1973. Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 25955 of the Health and Safety Code is amended to read:

25955. (a) No hospital, facility, or clinic that is organized or operated by a church, religious organization, or religious order, if the governing board so determines, shall be required to admit or not to admit a patient for the purpose of performing an abortion. The

refusal of such hospital, facility, or clinic to admit a person for the purpose of an abortion or permit an abortion to be performed on its premises shall not form the basis of any claim for damages nor shall such hospital, facility, or clinic be subject to any penalty whatsoever by reason of such refusal. Any such hospital, facility, or clinic which does not permit the performance of abortions on its premises shall post notice of such proscription in an area of such hospital, facility, or clinic which is open to patients and prospective admittees.

(b) No employer or other person shall require a physician, a registered nurse, a licensed vocational nurse, or any other person employed or with staff privileges at a hospital, facility, or clinic to directly participate in the induction or performance of an abortion, if such employee or other person has filed a written statement with the employer or the hospital, facility, or clinic indicating a moral, ethical, or religious basis for refusal to participate in the abortion.

No such employee or person with staff privileges in a hospital, facility, or clinic shall be subject to any penalty or discipline by reason of his refusal to participate in an abortion. No such employee of a hospital, facility, or clinic which does not permit the performance of abortions, or person with staff privileges therein, shall be subject to any penalty or discipline on account of such person's participation in the performance of an abortion in other than such hospital, facility, or clinic.

No employer shall refuse to employ any person because of such person's refusal for moral, ethical, or religious reasons to participate in an abortion, unless such person would be assigned in the normal course of business of any hospital, facility, or clinic to work in those parts of the hospital, facility, or clinic where abortion patients are cared for. No provision of this chapter prohibits any hospital, facility, or clinic which permits the performance of abortions from inquiring whether an employee or prospective employee would advance a moral, ethical, or religious basis for refusal to participate in an abortion before hiring or assigning such a person to that part of a hospital, facility, or clinic where abortion patients are cared for.

The refusal of a physician, nurse, or any other person to participate or aid in the induction or performance of an abortion pursuant to this subdivision shall not form the basis of any claim for damages.

Any violation of this subdivision by an employer is a misdemeanor.

(c) No medical school or other facility for the education or training of physicians, nurses, or other medical personnel shall refuse admission to a person or penalize such person in any way because of such person's unwillingness to participate in the performance of an abortion for moral, ethical, or religious reasons. No hospital, facility, or clinic shall refuse staff privileges to a physician because of such physician's refusal to participate in the performance of abortion for moral, ethical, or religious reasons.

(d) This section shall not apply to medical emergencies and spontaneous abortions.

SEC. 2. Section 25955 of the Health and Safety Code is amended

to read:

25955. (a) No employer or other person shall require a physician, a registered nurse, a licensed vocational nurse, or any other person employed or with staff privileges at a hospital, facility, or clinic to directly participate in the induction or performance of an abortion, if such employee or other person has filed a written statement with the employer or the hospital, facility, or clinic indicating a moral, ethical, or religious basis for refusal to participate in the abortion.

No such employee or person with staff privileges in a hospital, facility, or clinic shall be subject to any penalty or discipline by reason of his refusal to participate in an abortion. No such employee of a hospital, facility, or clinic which does not permit the performance of abortions, or person with staff privileges therein, shall be subject to any penalty or discipline on account of such person's participation in the performance of an abortion in other than such hospital, facility, or clinic.

No employer shall refuse to employ any person because of such person's refusal for moral, ethical, or religious reasons to participate in an abortion, unless such person would be assigned in the normal course of business of any hospital, facility, or clinic to work in those parts of the hospital, facility, or clinic where abortion patients are cared for. No provision of this chapter prohibits any hospital, facility, or clinic which permits the performance of abortions from inquiring whether an employee or prospective employee would advance a moral, ethical, or religious basis for refusal to participate in an abortion before hiring or assigning such a person to that part of a hospital, facility, or clinic where abortion patients are cared for.

The refusal of a physician, nurse, or any other person to participate or aid in the induction or performance of an abortion pursuant to this subdivision shall not form the basis of any claim for damages.

(b) No medical school or other facility for the education or training of physicians, nurses, or other medical personnel shall refuse admission to a person or penalize such person in any way because of such person's unwillingness to participate in the performance of an abortion for moral, ethical, or religious reasons. No hospital, facility, or clinic shall refuse staff privileges to a physician because of such physician's refusal to participate in the performance of abortion for moral, ethical, or religious reasons.

(c) Nothing in this chapter shall require a nonprofit hospital or other facility or clinic which is organized or operated by a religious corporation or other religious organization and licensed pursuant to Chapter 1 (commencing with Section 1200) or Chapter 2 (commencing with Section 1250) of Division 2, or any administrative officer, employee, agent, or member of the governing board thereof, to perform or to permit the performance of an abortion in such facility or clinic or to provide abortion services. No such nonprofit facility or clinic organized or operated by a religious corporation or other religious organization, nor its administrative officers,

employees, agents, or members of its governing board shall be liable, individually or collectively, for failure or refusal to participate in any such act. The failure or refusal of any such corporation, unincorporated association or individual person to perform or to permit the performance of such medical procedures shall not be the basis for any disciplinary or other recriminatory action against such corporations, unincorporated associations, or individuals. Any such facility or clinic which does not permit the performance of abortions on its premises shall post notice of such proscription in an area of such facility or clinic which is open to patients and prospective admittees.

(d) This section shall not apply to medical emergency situations and spontaneous abortions.

Any violation of this section is a misdemeanor.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill No. 1597 are both chaptered and become effective January 1, 1974, both bills amend Section 25955 of the Health and Safety Code, and this bill is chaptered after Assembly Bill No. 1597, that Section 25955 be amended in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Assembly Bill No. 1597 are both chaptered and become effective January 1, 1974, both amend Section 25955, and this bill is chaptered after Assembly Bill No. 1597, in which case Section 1 of this act shall not become operative.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 936

An act to amend Section 20053 of the Education Code, relating to community colleges.

[Approved by Governor September 30, 1973. Filed with Secretary of State September 30, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 20053 of the Education Code is amended to read:

20053. As used in this chapter, the term "weekly student contact hours" means the product of the number of students and the scheduled class periods in which they are enrolled, in graded and ungraded community college classes convened prior to 10 o'clock

p.m. during a census week. A class period is not less than 50 minutes and not more than 60 minutes.

SEC. 2. It is the intent of the Legislature in amending the definition of weekly student contact hours pursuant to this act to include ungraded, as well as graded, classes and to include classes convened prior to 10:00 p.m. rather than 4:30 p.m., that the Board of Governors of the California Community Colleges increase the space and utilization standards used to evaluate plans and projects for capital construction to produce expanded enrollment capacity in the community colleges.

SEC. 3. Sections 1 and 2 of this act shall become operative on July 1, 1974.

CHAPTER 937

An act to add Section 16554.1 to the Education Code, relating to school facilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 16554.1 is added to the Education Code, to read:

16554.1. Notwithstanding the provisions of Sections 16553 and 16554 or any other provisions of law, when a nonpartisan charitable organization organized under the laws of this state has constructed or will construct, subject to the provisions of Article 4 (commencing with Section 15451) of Chapter 2 of Division 11, a school athletic and youth center facility at no cost to a school district, upon a school-district-owned site to be owned by and for the benefit of the school occupying such site, the governing board of the school district, in accepting the donation and prescribing the conditions and restrictions with respect thereto, may permit the general use of said facility under this article for specified supervised recreational activities which are sponsored by or conducted by the donor organization, and may also permit the donor organization to use the facility for such purpose at such times when the facility is not being used by the school district for the educational program and related school activities of the designated beneficiary school, unless the use and occupancy of the facility by the donor organization would otherwise interfere with the regular conduct of such school. Any such use granted to the donor organization shall, however, immediately and forever terminate if the donor organization denies the use of the facility to any person because of the race, religion, creed, national origin, ancestry, or sex of such person.

This section shall apply only to elementary school districts in San Diego County which had an average daily attendance of 425 or less during the 1970–71 school year, and which, during the 1970–71 school year, had a modified assessed valuation per pupil in average daily attendance of between forty-five thousand dollars ($45,000) and fifty thousand dollars ($50,000).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Construction of a $250,000 athletic and youth center facility is ready to commence in a small community in San Diego County with the facility to be donated to the local school district, but work cannot begin until an agreement is signed with the local district to provide proper guaranteed access to the facility by the prospective donor group. Current law prohibits such a guarantee from being issued, and thus the citizens of the community are being denied a needed, donated recreational facility. It is, therefore, necessary that this act take effect immediately.

CHAPTER 938

An act to amend Sections 17551, 20010, 21054, 21203, 21204, 21282, 21455, 21456, 21531, 21705, 21744, 21745, 21748, 22001, 22008, and 22031 of, to amend and renumber Section 20151 of, to add Sections 16525, 16526, 20016, 20019, 20020, 20151, 20757, 21238, 21703, 21709, 21710, 22003, 22004, 22004.1, 22009, and 22010 to, and to repeal Sections 20002.5, 20008.2, 20008.4, 20757, 21062, 21084, 21085, 21086, 21087, 21454, 21703, 21741, 21742, 22004, and 22085 of, the Food and Agricultural Code, relating to animals.

[Approved by Governor September 30, 1973. Filed with Secretary of State September 30, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 16525 is added to the Food and Agricultural Code, to read:

16525. It is unlawful for any person to remove any animal, hide or carcass, which is seized by an inspector or peace officer pursuant to any provision of this division, Division 10 (commencing with Section 20001), or Division 11 (commencing with Section 23001), from the premises where the inspector or peace officer confined it at the time of seizure, except upon release of such animal, hide or carcass, by the inspector or peace officer who seized the animal, hide, or carcass.

SEC. 2. Section 16526 is added to the Food and Agricultural Code, to read:

SEC. 2. Section 17301 of the Education Code is repealed.

SEC. 3. Section 17301 is added to the Education Code, to read:

17301. (a) The State Controller shall during each fiscal year transfer from the General Fund of the state to that portion of the State School Fund restricted for elementary and high school purposes, hereinafter called Section A of the State School Fund such sums, in addition to the sums accruing from other sources, as shall provide in Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, of one hundred eighty dollars ($180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section A of the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from Section A of the State School Fund for the purposes set forth in Section 17303.5; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, two hundred thirteen dollars and forty-two cents ($213.42) for the fiscal year 1974–75 and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, less the amount, if any, by which seventy-nine cents ($0.79) multiplied by the number of units of average daily attendance credited during the preceding fiscal year to all elementary, high, and unified school districts and to all county superintendents of schools in the state exceeds twenty-one dollars and fifty cents ($21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance.

(c) In addition to the amounts authorized to be transferred to Section A of the State School Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to Section A of the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary

The Superintendent of Public Instruction shall adjust the foundation program levels as follows:

The foundation program for defined adults in high school districts shall be increased by twenty-seven dollars ($27).

For the 1975–76 fiscal year, each elementary and high school foundation program shall be increased by sixty-three dollars ($63) except that if the percentage increase of the statewide ratio of assessed valuation per units of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivison (e) is less than seven, the sixty-three dollars ($63) shall be reduced proportionately, but to no less than fifty-three dollars ($53). The foundation program for defined adults in high school districts shall be increased by thirty-one dollars ($31).

For the 1977–78 fiscal year and fiscal years thereafter, and if the Legislature does not provide otherwise, the increase in elementary and high school foundation programs shall be 6 percent times an amount which is determined as follows: (1) Multiply the unit elementary school foundation program for unified districts which have an elementary average daily attendance of 901 or more by the elementary foundation program units of average daily attendance of unified districts with 901 or more elementary average daily attendance, plus (2) multiply the unit high school foundation program for unified districts which have a high school average daily attendance of 301 or more, by the average daily attendance of unified districts with 301 or more high school average daily attendance, and (3) divide the result by the sum of the average daily attendance in unified districts with 901 or more elementary average daily attendance plus the average daily attendance in unified districts with 301 or more high school average daily attendance.

The above salary schedule is an excerpt of the basic pay plan as adopted by the board of supervisors on August 8, 1972, and includes the same range numbers and rates of pay utilized for all employees of Santa Clara County.

Should the board of supervisors increase or decrease salaries, or adopt a revised pay plan, the new schedule of salaries and ranges shall apply equally and be effected for all employees of municipal courts in the same manner and on the same date as for other county officers and employees, but all such changes or adjustments shall be effective only until January 1, 1976.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because

this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

CHAPTER 945

An act to amend Sections 73682 and 73683 of the Government Code, relating to courts.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, no appropriation is made by this act nor shall any reimbursement be made for any costs that may be incurred by local agencies pursuant to the act, because the affected local agency has requested the Legislature to revise state law in accordance with the provisions of this act in order to carry on any program or service required by the act.

CHAPTER 946

An act to add Chapter 3 (commencing with Section 13210) to Part 2 of Division 12 of the Health and Safety Code, relating to structures.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 13210) is added to Part 2 of Division 12 of the Health and Safety Code, to read:

CHAPTER 3. HIGH RISE STRUCTURES

13210. As used in this chapter:

(a) "Existing high rise structure" means a high rise structure, the construction of which is commenced or completed prior to July 1, 1974.

(b) "High rise structure" means every building of any type of construction or occupancy which exceeds 75 feet in height, except buildings used as hospitals, as defined in Section 1250.

(c) "New high rise structure" means a high rise structure, the construction of which is commenced on or after July 1, 1974.

13211. The State Fire Marshal, with the advice of the State Fire Advisory Board, shall prepare and adopt regulations establishing minimum standards for the prevention of fire and for the protection of life and property against fire and panic in high rise structures. Such regulations shall differentiate between existing high rise structures and new high rise structures.

13212. Regulations applicable to new high rise structures shall be adopted on or before July 1, 1974, and shall become effective July 1, 1974. Such regulations shall include, but not be limited to, requirements with respect to the following elements:

(a) Fully automatic smoke and fire detection systems.

(b) Fully automatic, hydraulically designed fire suppression units.

(c) An intrastructure communication system for those engaged in fire suppression activities.

(d) Provision of maximum safety for occupants of the high rise structure and for those engaged in fire suppression.

13213. Regulations applicable to existing high rise structures shall be adopted on or before January 1, 1975. Such regulations shall provide to the greatest feasible extent for the safety of occupants of the high rise structure and persons involved in fire suppression activities. All existing high rise structures shall be conformed to the requirements contained in such regulations within three years after the adoption of the regulations.

13214. The provisions of this chapter and the regulations of the State Fire Marshal adopted pursuant thereto shall be enforced in the

same manner as provided in Sections 13145 and 13146. The State Fire Marshal, his deputies, or his salaried assistants, the chief of any city or county fire department or fire protection district and their authorized representatives may enter any building, premises, or portion thereof not used for dwelling purposes at any reasonable hour for the purpose of enforcing this chapter. The owner, lessee, manager or operator of any such building or premises shall permit the State Fire Marshal, his deputies, his salaried assistants or the chief of any city or county fire department or fire protection district or their authorized representatives to enter and inspect the building or premises at the time and for the purpose stated in this chapter.

13215. It is unlawful for any person to construct or maintain any high rise structure in violation of the provisions of this chapter or regulations adopted pursuant thereto.

13216. The governing body of any city or county may impose greater restrictions with respect to high rise structures than are imposed by the regulations of the State Fire Marshal adopted pursuant to this chapter.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 947

An act to repeal Sections 5079.1 and 5079.3 of the Public Resources Code, to amend Section 149.2 of, to amend and renumber Sections 100.11, 100.12, 100.13, 105.5, and 105.7 of, and to add Chapter 3.5 (commencing with Section 156) to Chapter 1 of Division 1 of, the Streets and Highways Code, and to amend Section 39005 of the Vehicle Code, relating to nonmotorized transportation.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 5079.1 of the Public Resources Code is repealed.

SEC. 2. Section 5079.3 of the Public Resources Code is repealed.

SEC. 3. Section 100.11 of the Streets and Highways Code is amended and renumbered to read:

157. The department, when operating through the Division of Highways, shall not construct a state highway as a freeway that will

result in the severance or destruction of an existing major route for nonmotorized transportation traffic and light motorcycles, unless it provides a reasonable alternate route or such a route exists.

SEC. 4. Section 100.12 of the Streets and Highways Code is amended and renumbered to read:

157.2. The department shall also incorporate nonmotorized transportation facilities in the design of freeways on the state highway system along corridors where such facilities do not exist, upon a finding, following a public hearing, that such facilities would conform to the master plans of local agencies for the development of such facilities and would not duplicate existing or proposed routes, and that community interests would be enhanced by the construction of such facilities.

If the department finds further as a result of a public hearing that there is no highway purpose, as specified in subdivision (a) of Section 156.10, served by the incorporation of such facilities in the design of a freeway which would justify the use of highway funds and the exercise of the power of eminent domain for their construction, the cost for construction of such facilities, other than design costs, shall be contributed by local agencies or by others.

SEC. 5. Section 100.13 of the Streets and Highways Code is amended and renumbered to read:

157.4. In each annual budget report prepared by the commission and the department under Section 143.1, an amount of not less than three hundred sixty thousand dollars ($360,000) shall be set aside for the construction of nonmotorized transportation facilities to be used in conjunction with the state highway system.

SEC. 6. Section 105.5 of the Streets and Highways Code is amended and renumbered to read:

156.8. Upon the request of a public agency, as defined by Section 6500 of the Government Code, the department may enter into an agreement with such agency for the construction and maintenance of nonmotorized transportation facilities which generally follow a state highway right-of-way where the department has determined that such facility will not constitute a safety hazard or interfere with the normal flow of traffic.

The department's contribution, if any, to the cost of constructing such facilities shall be based upon a finding that the traffic safety or capacity of the highway will be increased. The agreements may provide for the handling and accounting of funds, the acquisition or conveyance of right-of-way, maintenance, and any other phase of the project.

SEC. 7. Section 105.7 of the Streets and Highways Code is amended and renumbered to read:

156.10. (a) The department may construct and maintain nonmotorized transportation facilities approximately paralleling any state highway where the separation of nonmotorized traffic from motor vehicle traffic will increase the traffic capacity or safety of the highway.

(b) Where the separation of nonmotorized traffic from motor vehicle traffic will increase the traffic capacity or safety of the highway, the department shall pay for the construction and maintenance of separate nonmotorized transportation facilities approximately paralleling the highway.

(c) The Legislature finds and declares that the construction and maintenance of such nonmotorized transportation facilities constitute a highway purpose under Article XXVI of the California Constitution, and justify the expenditure of highway funds and the exercise of the power of eminent domain therefor.

SEC. 8. Section 149.2 of the Streets and Highways Code is amended to read:

149.2. Prior to March 1 of each year, the department shall prepare and submit an annual report to the Legislature summarizing programs it has undertaken for the development of exclusive busways. Such report shall also summarize the existing directives received by the department from the Federal Highway Administration concerning the availability of federal funds for such programs, together with an estimate of the fiscal impact of such federal participation in the programs.

SEC. 9. Article 3.5 (commencing with Section 156) is added to Chapter 1 of Division 1 of the Streets and Highways Code, to read:

Article 3.5. Nonmotorized Transportation Facilities

156. As used in this article, "nonmotorized transportation facility" means a facility designed primarily for the use of pedestrians, bicyclists, or equestrians. It may be designed primarily for one or more of such uses.

156.2. The department, in cooperation with local agencies, may publish a statewide map illustrating state highway routes available for the use of bicyclists and where bicyclists are prohibited from using a state highway, illustrating, in such a case, alternate routes available to the bicyclist.

156.4. The department, after consultation with the Department of Parks and Recreation and local agencies, shall establish general design criteria that may be used as a guide to assess the advisability of including nonmotorized transportation facilities adjacent to state, county, and city roadways, and as a guide for the configuration of such facilities.

156.6. The department, after consultation with local agencies, shall adopt rules and regulations prescribing uniform specifications for all traffic control devices to be used in conjunction with nonmotorized transportation facilities.

The Department of Motor Vehicles shall include such traffic control devices in the driver's license examination prescribed by Section 12804 of the Vehicle Code.

156.7. Prior to March 1 of each year, the department shall prepare and submit an annual report to the Legislature summarizing

programs it has undertaken for the development of nonmotorized transportation facilities. Such report shall also summarize the existing directives received by the department from the Federal Highway Administration concerning the availability of federal funds for such programs, together with an estimate of the fiscal impact of such federal participation in the programs.

SEC. 10. Section 39005 of the Vehicle Code is amended to read:

39005. After December 31, 1974, no bicycle retailer shall sell any new bicycle in this state unless such bicycle has permanently stamped or cast on its frame a serial number unique to the particular bicycle of each manufacturer pursuant to the regulations adopted under this division.

CHAPTER 948

An act to amend Section 39297.6 of the Health and Safety Code, relating to air pollution.

[Approved by Governor September 30, 1973. Filed with Secretary of State September 30, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 39297.6 of the Health and Safety Code is amended to read:

39297.6. (a) Notwithstanding Section 39296, with respect to wood waste from trees, vines, or bushes on property being developed for commercial or residential purposes, or with respect to the disposal of brush cuttings on the property where the brush was grown when the cuttings resulted from brush clearance done in compliance with local ordinances to reduce fire hazard, the governing body of an air pollution control district may, upon its own motion or the request of any person, authorize the disposal, by open outdoor fires, of such waste, on the property where it was grown, under the following conditions:

(1) That the governing body of the district finds that it is more desirable to dispose of such waste by burning than to dispose of it by other available means, such as, but not limited to, by removing it to sanitary fills.

(2) That the district has developed criteria for such disposal, which shall include provisions to improve the combustibility of such waste to reduce its smoke level.

(3) That the board has approved the criteria developed pursuant to paragraph (2).

(4) That such authorization, if granted, shall be in the form of a permit issued by the district air pollution control officer, and such permit shall allow burning only on permissive burn days as designated by the board pursuant to Section 39298.

(5) The governing body of the district may adopt rules and regulations to authorize any burning authorized under this section, to review each proposed burn prior to authorizing the air pollution control officer to issue a permit for the burn, or to delegate to the air pollution control officer the authority to approve or disapprove each proposed burn after consideration of the amount of waste to be burned, the season of the year, the ambient air quality, the proximity of the waste to developed areas, or such other or additional criteria as the governing body of the district may establish.

(6) No authorization under this subdivision shall be granted after January 1, 1977, or such earlier date as the board may determine, based upon a finding that an alternative method of disposal has been developed which is technologically and economically feasible.

(b) The board shall conduct studies of alternative methods of disposing of wood waste from trees, vines, or bushes, other than by open outdoor fires.

(c) The Legislature hereby finds and declares that because sanitary landfill sites are very difficult to obtain, these valuable sites should be reserved for high-priority waste such as garbage and low-volume rubbish, and that the disposal, by open outdoor fires, of high-volume wood waste will help prolong the life of such landfill sites. However, it is the intent of the Legislature that the disposal, by open outdoor fires, of such waste be reasonably regulated so as to not create a public nuisance nor significantly reduce the quality of the ambient air.

SEC. 2. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because the Legislature recognizes that during any legislative session, a variety of changes to law relating to crimes and infractions may be enacted that serve to cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 949

An act to amend Section 2913 of the Business and Professions Code, relating to psychologists.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 2913 of the Business and Professions Code is amended to read:

2913. A person other than a licensed psychologist may be employed by a licensed psychologist, by a licensed physician and surgeon who is board certified in psychiatry by the board of psychiatry and neurology of the American Medical Association, by a clinic which provides mental health services under contract pursuant to Section 5614 of the Welfare and Institutions Code, or by a psychological corporation registered under Section 2995.2 of the Business and Professions Code, to perform limited psychological functions provided that:

(a) Such person is termed a "psychological assistant."

(b) Such person has completed at least one fully matriculated year of graduate training in psychology from an accredited or approved university or college.

(c) Such person is at all times under the immediate supervision, as defined in regulations published by the board upon the recommendation of the psychology examining committee, of a licensed psychologist, or board certified psychiatrist, who shall be responsible for insuring that the extent, kind, and quality of the psychological services he performs are consistent with his training and experience and be responsible for his obedience to the provisions of this chapter and regulations duly adopted hereunder, including those provisions set forth in Section 2960.

(d) The licensed psychologist, board-certified psychiatrist, contract clinic, or psychological corporation, has registered the psychological assistant with the committee. Such registration shall be renewed annually in accordance with regulations adopted by the committee.

No licensed psychologist may register, employ or supervise more than three such psychological assistants at any given time unless specifically authorized to do so by the committee. No board-certified psychiatrist may register, employ, or supervise more than one such psychological assistant at any given time. No contract clinic or psychological corporation may register, employ, or provide supervision for more than three psychological assistants for each designated full-time staff psychologist who is qualified and supervises such psychological assistants, and in no case shall such contract clinic or psychological corporation employ more than 10 such assistants at any one time. No contract clinic may register, employ or provide supervision for more than one psychological assistant for each designated full-time staff psychiatrist who is qualified and supervises such psychological assistants. No psychological assistant may provide psychological services to the public for a fee, monetary or otherwise except as an employee of a licensed psychologist, licensed physician, contract clinic, or psychological corporation that specializes in psychology.

(e) Such psychological assistant shall comply with regulations that the committee may, from time to time, duly adopt relating to the

fulfillment of requirements in continuing education.

(f) No person shall practice as a psychological assistant who is found by the committee to be in violation of the provisions of Section 2960 and the rules and regulations duly adopted thereunder.

CHAPTER 950

An act to add and repeal Chapter 3 (commencing with Section 2290.1) to Title 8 of Part 4 of Division 3 of the Civil Code, relating to management of institutional funds.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 2290.1) is added to Title 8 of Part 4 of Division 3 of the Civil Code, to read:

CHAPTER 3. UNIFORM MANAGEMENT OF INSTITUTIONAL FUNDS ACT

2290.1. In this chapter:

(1) "Institution" means a private incorporated or unincorporated organization organized and operated exclusively for educational purposes and accredited by the Association of Western Colleges and Universities to the extent that it holds funds exclusively for any of such purposes.

(2) "Institutional fund" means a fund held by an institution for its exclusive use, benefit, or purposes, but does not include (i) a fund held for an institution by a trustee that is not an institution or (ii) a fund in which a beneficiary that is not an institution has an interest, other than possible rights that could arise upon violation or failure of the purposes of the fund.

(3) "Endowment fund" means an institutional fund, or any part thereof, not wholly expendable by the institution on a current basis under the terms of the applicable gift instrument.

(4) "Governing board" means the body responsible for the management of an institution or of an institutional fund.

(5) "Historic dollar value" means the aggregate fair value in dollars of (i) an endowment fund at the time it became an endowment fund, (ii) each subsequent donation to the fund at the time it is made, and (iii) each accumulation made pursuant to a direction in the applicable gift instrument at the time the accumulation is added to the fund. The determination of historic dollar value made in good faith by the institution is conclusive.

(6) "Gift instrument" means a will, deed, grant, conveyance, agreement, memorandum, writing, or other governing document

(including the terms of any institutional solicitations from which an institutional fund resulted) under which property is transferred to or held by an institution as an institutional fund.

2290.2. The governing board may appropriate for expenditure for the uses and purposes for which an endowment fund is established so much of the net appreciation, realized and unrealized, in the fair value of the assets of an endowment fund over the historic dollar value of the fund as is prudent under the standard established by Section 2290.6. Appropriations shall be based upon an average fair value covering a period of up to the five preceding fiscal years of the institution and shall be set at any reasonable date prior to each fiscal year. This section does not limit the authority of the governing board to expend funds as permitted under other law, the terms of the applicable gift instrument, or the charter of the institution.

2290.3. (a) Section 2290.2 does not apply if the applicable gift instrument indicates the donor's intention that net appreciation shall not be expended.

(b) With respect to gift instruments in effect prior to the effective date of this section, a restriction upon the expenditure of net appreciation need not be implied solely from a designation of a gift as an endowment, or from a direction or authorization in the applicable gift instrument to use only "income," "dividends," or "rents, issues or profits," or "to preserve the principal intact," or a direction which contains other words of similar import.

(c) With respect to gift instruments executed or becoming effective after the effective date of this section, a restriction upon the expenditure of net appreciation may not be implied from a designation of a gift as an endowment or from a direction or authorization in the applicable gift instrument to use only "income," "interest," "dividends," or "rents, issues or profits," or "to preserve the principal intact," or a direction which contains other words of similar import.

2290.4. In addition to an investment otherwise authorized by law or by the applicable gift instrument, the governing board, subject to any specific limitations set forth in the applicable gift instrument, may do any or all of the following:

(1) Invest and reinvest an institutional fund in any real or personal property deemed advisable by the governing board, whether or not it produces a current return, including mortgages, stocks, bonds, debentures, and other securities of profit or nonprofit corporations, shares in or obligations of associations, or partnerships, and obligations of any government or subdivision or instrumentality thereof.

(2) Retain property contributed by a donor to an institutional fund for as long as the governing board deems advisable.

(3) Include all or any part of an institutional fund in any pooled or common fund maintained by the institution.

(4) Invest all or any part of an institutional fund in any other pooled or common fund available for investment, including shares or

interests in regulated investment companies, mutual funds, common trust funds, investment partnerships, real estate investment trusts, or similar organizations in which funds are commingled and investment determinations are made by persons other than the governing board.

2290.5. Except as otherwise provided by the applicable gift instrument or by applicable law relating to governmental institutions or funds, the governing board may (1) delegate to its committees, officers or employees of the institution or the fund, or agents, including investment counsel, the authority to act in place of the board in investment and reinvestment of institutional funds, (2) contract with independent investment advisors, investment counsel or managers, banks, or trust companies, so to act, and (3) authorize the payment of compensation for investment advisory or management services.

2290.6. In investing, reinvesting, purchasing, acquiring, exchanging, selling and managing property, appropriating appreciation and delegating investment management for the benefit of an institution, the members of the governing board shall exercise the judgment, care and prudence, under the circumstances then prevailing, which men of discretion and intelligence exercise in the management of their affairs. In exercising judgment under this section, the members of the governing board shall consider the long and short term needs of the institution in carrying out its purposes, its present and anticipated financial requirements, expected total return on its investments, general economic conditions, the appropriateness of a reasonable proportion of higher risk investment with respect to institutional funds as a whole, income, growth, and long term net appreciation, as well as the probable safety of funds.

2290.7. (a) With the written consent of the donor, the governing board may release, in whole or in part, a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund.

(b) If written consent of the donor cannot be obtained by reason of his death, disability, unavailability, or impossibility of identification, the governing board may apply in the name of the institution to the superior court of the county in which the principal activities of the institution are conducted, or other court of competent jurisdiction for release of a restriction imposed by the applicable gift instrument on the use or investment of an institutional fund. The Attorney General shall be notified of the application and shall be given an opportunity to be heard. If the court finds that the restriction is obsolete, or impracticable, it may by order release the restriction in whole or in part. A release under this subdivision may not change an endowment fund to a fund that is not an endowment fund.

(c) A release under this section may not allow a fund to be used for purposes other than the educational, religious, charitable, or other eleemosynary purposes of the institution affected.

(d) This section does not limit the application of the doctrine of cy pres.

2290.8. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, the invalidity shall not affect other provisions or applications of the chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are declared severable.

2290.9. This chapter shall be so applied and construed as to effectuate its general purpose to make uniform the law with respect to the subject of this chapter among those states which enact it.

2290.10. Any institution electing to avail itself of the powers granted under this chapter shall periodically file with the Registrar of Charitable Trusts such report or reports as may reasonably be required by the Attorney General. Such reports shall be confidential and shall be limited to information relating to the assets of the institution covered by this chapter and the results of the use of the powers granted by this chapter with respect to such assets. Any institution electing not to avail itself of the powers conferred by this chapter shall file a written statement to such effect with the registrar.

2290.11. Nothing in this chapter shall be deemed to alter the status of governing boards under other chapters of this title, or other laws of the state.

2290.12. This chapter may be cited as the "Uniform Management of Institutional Funds Act."

SEC. 2. Nothing in this act shall be construed as modifying or repealing Sections 2271 or 2271.2 of the Civil Code, or Section 10251 of the Corporations Code.

SEC. 3. This act shall remain in effect until January 1, 1979 and as of that date is repealed.

SEC. 4. The Legislature finds that many private colleges and universities, faced with increased costs, inflationary pressures and diminished donations, could benefit by an improvement in the investment performance of their endowment funds. Substantial and responsible authority exists for the proposition that prudent investment policies demand a balancing of income and long-term growth needs and that a wise investment program should take long-term appreciation as well as dividends and interest into account in investing for the highest overall return consistent with the safety and preservation of the funds invested. The Legislature further finds that substantial benefits to the public may accrue by permitting trustees' endowment funds to appropriate for current use under certain circumstances realized or unrealized net appreciation of the funds.

The Legislature declares, therefore, that it is in the public interest to authorize a pilot study for a limited period of time of these expanded investment and expenditure policies by a limited class of reputable, substantially endowed educational institutions faced with these problems.

CHAPTER 951

An act to amend Section 23127 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 23127 of the Vehicle Code is amended to read:

23127. No person shall operate an unauthorized motor vehicle on any state, county, city, private, or district hiking or horseback riding trail or bicycle path that is clearly marked by an authorized agent or owner with signs at all entrances and exits and at intervals of not more than one mile indicating no unauthorized motor vehicles are permitted on the hiking or horseback riding trail or bicycle path, except bicycle paths which are contiguous or adjacent to a roadway dedicated solely to motor vehicle use.

For the purpose of this section "unauthorized motor vehicle" means any motor vehicle that is driven upon a hiking or horseback riding trail or bicycle path without the written permission of an agent or the owner of the trail or path.

This section does not apply to the operation of an authorized emergency or maintenance vehicle on a hiking or horseback riding trail or bicycle path whenever necessary in furtherance of the purpose for which the vehicle has been classed as an authorized emergency vehicle. Any person who violates this section is guilty of a misdemeanor.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 952

An act to amend Sections 17054, 17069, and 17069.5 of the Revenue and Taxation Code, relating to taxation, and making an appropriation, to take effect immediately, tax levy.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 17054 of the Revenue and Taxation Code is amended to read:

17054. In the case of individuals computing their tax under Section 17041 or Section 17048, the following credits for personal exemption may be deducted from the tax imposed.

(a) In the case of a single individual, or a married individual making a separate return a credit of twenty-five dollars ($25).

(b) In the case of a head of household, a surviving spouse (as defined in Section 17046), or a husband and wife making a joint return, a credit of fifty dollars ($50). If one spouse was a resident for the entire taxable year and the other spouse was a nonresident for all or any portion of the taxable year, the personal exemption shall be divided equally and the portion deductible by the nonresident shall be determined under Section 17055. The preceding sentence shall not apply to a nonresident active member of the armed forces of the United States or any auxiliary branch thereof and his or her spouse.

(c) Except as provided in subdivision (e) of Section 17057, a credit of eight dollars ($8) for each dependent (as defined in Section 17056)—

(1) Whose gross income for the calendar year in which the taxable year of the taxpayer begins is less than seven hundred fifty dollars ($750), or

(2) Who is a child of the taxpayer and who (A) has not attained the age of 19 at the close of the calendar year in which the taxable year of the taxpayer begins, or (B) is a student.

(3) No exemption shall be allowed under this subdivision for any dependent who has made a joint return with his spouse under Section 18402 for the taxable year beginning in the calendar year in which the taxable year of the taxpayer begins.

(4) For purposes of paragraph (2), the term "child" means an individual who (within the meaning of Section 17056) is a son, stepson, daughter or stepdaughter of the taxpayer.

(5) For purposes of subparagraph (B) of paragraph (2) of this subdivision and Section 17059, the term "student" means an individual who during each of five calendar months during the calendar year in which the taxable year of the taxpayer begins—

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 51900) is added to Part 2 of Division 1 of Title 5 of the Government Code, to read:

CHAPTER 5. LOCAL GOVERNMENT REORGANIZATION

Article 1. Findings and Declarations of Policy

51900. The Legislature finds and declares that the County of Sacramento, due to the small number of incorporated cities within the county, the large unincorporated urban area of the county, the comparative compactness and physical uniformity of the county, and the absence of competing municipal interests, is uniquely suited for a program of local government reorganization to be voted on by the electorate of the county.

01315 384475 232

The Legislature further finds and declares that the County of Sacramento contains over 127 separate governmental entities, including special districts, which often perform duplicatory or specialized functions and which proliferate taxing and spending agencies of government, and diffuse responsibility for programs and actions in response to urban problems of the county.

51901. It is further found and declared that local government must be responsive and its elected officials readily accountable to the needs of the people; it must be visible and representative in order to permit greater participation in governmental affairs by the public; and elected and appointed officials should have more clearly defined areas of responsibility and authority, so that the people may have more success in seeking action and redress from their government.

51902. It is further found and declared that in order to strengthen and make more efficient and responsive the overall administrative process of local government, administrative and executive authority in Sacramento County should be clearly defined and responsibility established under a single general purpose government, subject to approval of the electorate.

51903. The Legislature finds that a general statute cannot be made applicable to this matter because of the facts and circumstances peculiar to the local governmental jurisdictions within the County of Sacramento. Therefore, the provisions of this chapter shall be applicable only to the County of Sacramento and the incorporated cities and special districts within the County of Sacramento, and are intended to implement, for the County of Sacramento and the cities and special districts within the county, the provisions of Article XI of the California Constitution providing for consolidation of a county with cities within the county.

Article 2. Definitions and General Provisions

51910. Unless the context otherwise requires, the definitions and general provisions set forth in this article govern the construction of this chapter.

51911. "Largest city" means the largest city in Sacramento County as determined by the last federal census.

51912. "Other cities" mean the cities in Sacramento County with lesser population than the largest city.

51913. "Cities" mean all of the cities within Sacramento County.

51914. "County" means the County of Sacramento.

01315 384485 234

51917. "Reorganize" and "reorganization" means the consolidation of a county with all of the cities within the county pursuant to Article XI of the California Constitution.

51918. The incorporated cities within the County of Sacramento and the County of Sacramento may be reorganized pursuant to the provisions of this chapter.

51919. When reorganization proceedings are followed pursuant to this chapter, this chapter alone applies.

Article 3. Reorganization Proceedings

51920. Reorganization proceedings pursuant to this chapter shall be deemed to have commenced with the appointment of the charter commissioners by the county and largest city.

51921. The charter commissioners shall propose a charter for the government of the City-County of Sacramento. The charter so prepared shall be signed by a majority of the charter commissioners and shall be filed in the office of the clerk of the largest city and in the office of the county clerk. The legislative body of the county shall, within 15 days after such filing, cause such charter to be published once in a newspaper of general circulation printed and published in the county and in each edition thereof, during the day of publication.

51922. The legislative body of the county shall cause copies of the charter to be printed in convenient pamphlet form and in type of not less than 10-point and shall cause copies to be mailed to each of the qualified electors of the county and cities, and shall, until the day fixed for the election upon reorganization and adoption of the charter, advertise in one or more newspapers of general circulation in the county a notice that copies may be had upon application therefor.

51923. The proposed charter shall be submitted to the electors of the entire county (including all cities) at a date to be fixed by the charter commissioners before filing the proposed charter, either at a special election held not less than 60 days from the completion of the publication of such charter as provided in Section 51921, or at the general election next following the expiration of said 60 days.

51924. In submitting any such charter, the charter commissioners may also submit separate propositions, whether alternative or conflicting, or one included within the other, at the same time to be voted on by the electors separately, and, as between those so related, if more than one receives a majority of the votes, the proposition receiving the largest number of votes shall control as to all matters in conflict.

51925. The charter as adopted at the election by a majority of the electors of the entire county (including all cities) voting thereon and by a majority of the electors of the largest city voting thereon shall be the governing law of the reorganized city-county.

51926. At the election, the questions of reorganization and adoption of a charter shall both be presented as provided in Section

51929. In addition, there shall also be presented to the voters of each of the other cities as a separate proposition, as provided in Section 51929.5, the question of whether the city should retain its existing local governmental structure under the reorganized government as set forth in the charter. This separate question shall follow on the ballot the propositions submitting the charter and separate charter proposals, if any.

51927. The legislative body of the county shall cause notice of the election to be given by publication in a newspaper of general circulation printed and published in the county, at least once a week for the four weeks prior to the election.

51928. The notice shall:

(a) State distinctly the proposition or propositions to be submitted.

(b) State the names of the cities and the county proposed to be consolidated in a reorganized government.

(c) State the date of the election.

(d) Instruct the electors how to vote in the election.

(e) Designate the voting precincts and places at which polls will be open.

51929. Upon the ballots used at the election shall be printed the words: "Shall the cities of (naming them) and the County of Sacramento be reorganized and consolidated and shall the proposed Charter of the City-County of Sacramento be adopted as the governing law of the City-County of Sacramento?"

Opposite and to the right of these words, the words "Yes" and "No" shall be printed on separate lines, with voting squares. Each proposition separately submitted shall also be similarly presented to the electors.

51929.5. Upon the ballots used at the election within each of the other cities shall also be printed the words as a separate question or proposition: "If the proposed Charter of the City-County of Sacramento is adopted as the governing law of the City-County of Sacramento, shall the City of _____ retain its local governmental structure?"

51929.6. The charter of the city-county adopted pursuant to this chapter shall contain provisions which recognize the right of the voters of the other cities to elect to retain their own local governmental structure within the governmental structure of the city-county.

51930. If, voting on a proposition presented pursuant to Section 51929, an elector stamps a cross in the voting square after the word "Yes," his vote shall be counted for reorganization and charter adoption, and if he stamps a cross in the voting square after the word "No," his vote shall be counted against reorganization and charter adoption.

51931. On each proposition separately submitted, including the proposition presented pursuant to Section 51929.5, if an elector stamps a cross in the voting square after the word "Yes," his vote shall

be counted for the adoption of the proposition, and if he stamps a cross in the voting square after the word "No," his vote shall be counted against the adoption of the proposition.

51932. Except as otherwise provided in this article, the election, if a special election, shall be conducted as other special elections in the county; or, if a general election, as other general elections in the county.

51933. After performing their duties, the election officers shall deliver the ballots, tally sheets, and returns to the clerk of the county.

51934. At its next regular meeting following the election, the legislative body of the county shall canvass the returns. The canvass shall be completed at the meeting if practicable, or as soon as possible thereafter, avoiding adjournments.

51935. Immediately upon the completion of the canvass, the legislative body of the county shall declare the results and cause a record to be entered upon its minutes, stating the proposition or propositions submitted, the number of votes cast, and the number of votes cast for and against reorganization and the adoption of the charter and on each separately stated proposition. The votes cast for and against each question in each city shall also be stated.

51936. If a majority of the votes cast in the largest city or if a majority of the votes in the county as a whole (including the largest city and the other cities) is against reorganization and charter adoption, reorganization shall not be accomplished, the charter shall not be adopted, and proceedings for the reorganization of the cities and county shall not be initiated within fifteen (15) days after the result of the election has been declared.

51937. If a majority of the votes cast in both the largest city and in the county as a whole (including the largest city and the other cities) is for consolidation and charter adoption, reorganization shall be deemed approved and the charter adopted, and the clerk of the legislative body of the county shall forthwith prepare under seal, and deliver to the clerk of the legislative body of each of the cities and to the county clerk, a copy in duplicate of the record of the canvass, with a statement of the proposition or propositions submitted, at the election.

51938. A copy of the record of the canvass, with a statement of the proposition or propositions submitted at the election shall be filed with the Secretary of State.

51939. Upon the filing with the Secretary of State of the Charter of the consolidated City-County of Sacramento which has been approved by the Legislature pursuant to Section 3 of Article XI of the California Constitution, the reorganization is complete and the cities and counties are reorganized and consolidated into the City-County of Sacramento as provided in the charter and in accordance with Sections 51939.1 and 51940.

51939.1. The provisions of Sections 51940 through 51947, inclusive, shall not apply to any of the other cities which has voted, pursuant to Section 51929.5, to retain its existing local governmental

structure, or to any districts such as special assessment districts created by and governed by the legislative bodies of such other cities; provided, however, that the Charter of the City-County of Sacramento shall have effect throughout the entire county with respect to county government powers and jurisdiction.

51939.2. The procedures set forth in this article shall have validity and effect and shall be followed only in the event that an amendment to the California Constitution is adopted by the voters of the state as proposed in Assembly Constitutional Amendment No. 91 of the 1973 legislative session.

Article 3.5. Alternative Reorganization Proceedings

51939.50. This article provides alternative reorganization proceedings to those provided in Article 3 to be followed in the event the provisions of Article 3 are not effective.

51939.51. Reorganization proceedings pursuant to this chapter shall be deemed to have commenced with the appointment of the charter commissioners by the county and largest city.

51939.52. The charter commissioners shall propose a charter for the government of the City-County of Sacramento. The charter so prepared shall be signed by a majority of the charter commissioners and shall be filed in the office of the clerk of the largest city and in the office of the county clerk. The legislative body of the county shall, within 15 days after such filing, cause such charter to be published once in a newspaper of general circulation printed and published in the county and in each edition thereof, during the day of publication.

51939.53. The legislative body of the county shall cause copies of the charter to be printed in convenient pamphlet form and in type of not less than 10-point and shall cause copies to be mailed to each of the qualified electors of the county and cities, and shall, until the day fixed for the election upon reorganization and adoption of the charter, advertise in one or more newspapers of general circulation in the county a notice that copies may be had upon application therefor.

51939.54. The proposed charter shall be submitted to the electors of the entire county (including all cities) at a date to be fixed by the charter commissioners before filing the proposed charter, either at a special election held not less than 60 days from the completion of the publication of such charter as provided in Section 51921, or at the general election next following the expiration of said 60 days.

51939.55. In submitting any such charter, the charter commissioners may also submit separate propositions, whether alternative or conflicting, or one included within the other, at the same time to be voted on by the electors separately, and, as between those so related, if more than one receives a majority of the votes, the proposition receiving the largest number of votes shall control as to all matters in conflict.

51939.56. The charter as adopted at the election by a majority of

01315 384545 246

the electors of the entire county (including all cities) voting thereon and by a majority of the electors of the largest city voting thereon shall be the governing law of the reorganized city-county.

51939.57. At the election, the questions of reorganization and adoption of a charter shall both be presented as provided in Section 51939.60. In addition, there may also be presented to the voters of each of the other cities as a separate proposition, as provided in Section 51939.61, the question of whether the city should retain its existing governmental independence under the reorganized government as set forth in the charter. This separate question shall follow on the ballot the propositions submitting the charter and separate charter proposals, if any.

51939 58. The legislative body of the county shall cause notice of the election to be given by publication in a newspaper of general circulation printed and published in the county, at least once a week for the four weeks prior to the election.

51939.59. The notice shall:

(a) State distinctly the proposition or propositions to be submitted.

(b) State the names of the cities and the county proposed to be consolidated in a reorganized government.

(c) State the date of the election

(d) Instruct the electors how to vote in the election.

(e) Designate the voting precincts and places at which polls will be open.

51939.60. Upon the ballots used at the election shall be printed the words: "Shall the cities of (naming them) and the County of Sacramento be reorganized and consolidated and shall the proposed Charter of the City-County of Sacramento be adopted as the governing law of the City-County of Sacramento?"

Opposite and to the right of these words, the words "Yes" and "No" shall be printed on separate lines, with voting squares. Each proposition separately submitted shall also be similarly presented to the electors.

51939.61. If requested by the legislative body of any of the other cities, upon the ballots used at the election within each of the other cities which has so requested shall also be printed the words as a separate question or proposition: "If the proposed Charter of the City-County of Sacramento is adopted as the governing law of the City-County of Sacramento, shall the City of _____ retain its governmental independence as provided in said charter?"

51939.62. The charter of the city-county adopted pursuant to this chapter shall contain provisions which allow the other cities in Sacramento County to retain their governmental independence within the governmental structure of the city-county.

51939.63. If, voting on a proposition presented pursuant to Section 51939.60, an elector stamps a cross in the voting square after the word "Yes," his vote shall be counted for reorganization and charter adoption, and if he stamps a cross in the voting square after

the word "No," his vote shall be counted against reorganization and charter adoption.

51939.64. On each proposition separately submitted, including the proposition presented pursuant to Section 51939.61, if an elector stamps a cross in the voting square after the word "Yes," his vote shall be counted for the adoption of the proposition, and if he stamps a cross in the voting square after the word "No," his vote shall be counted against the adoption of the proposition.

51939.65. Except as otherwise provided in this article, the election, if a special election, shall be conducted as other special elections in the county; or, if a general election, as other general elections in the county.

51939.66. After performing their duties, the election officers shall deliver the ballots, tally sheets, and returns to the clerk of the county.

51939.67. At its next regular meeting following the election, the legislative body of the county shall canvass the returns. The canvass shall be completed at the meeting if practicable, or as soon as possible thereafter, avoiding adjournments.

51939.68. Immediately upon the completion of the canvass, the legislative body of the county shall declare the results and cause a record to be entered upon its minutes, stating the proposition or propositions submitted, the number of votes cast, and the number of votes cast for and against reorganization and the adoption of the charter and on each separately stated proposition. The votes cast for and against each question in each city shall also be stated.

51939.69. If a majority of the votes cast in the largest city or if a majority of the votes in the county as a whole (including the largest city and the other cities) is against reorganization and charter adoption, reorganization shall not be accomplished, the charter shall not be adopted, and proceedings for the reorganization of the cities and county shall not be initiated within fifteen (15) days after the result of the election has been declared.

51939.70. If a majority of the votes cast in both the largest city and in the county as a whole (including the largest city and the other cities) is for consolidation and charter adoption, reorganization shall be deemed approved and the charter adopted, and the clerk of the legislative body of the county shall forthwith prepare under seal, and deliver to the clerk of the legislative body of each of the cities and to the county clerk, a copy in duplicate of the record of the canvass, with a statement of the proposition or propositions submitted, at the election.

51939.71. A copy of the record of the canvass, with a statement of the proposition or propositions submitted at the election shall be filed with the Secretary of State.

51939.72. Upon the filing with the Secretary of State of the Charter of the consolidated City-County of Sacramento which has been approved by the Legislature pursuant to Section 3 of Article XI of the California Constitution, the reorganization is complete and the cities and counties are reorganized and consolidated into the

City-County of Sacramento as set forth in Section 51940 and as provided in the charter.

51939.73. The charter of the city-county shall provide the extent to which the provisions of Sections 51940 through 51947, inclusive, shall not apply to each of the other cities which have voted to retain its existing governmental independence.

51939.74. The procedures set forth in Article 3.5 shall have validity and effect and shall be followed in the event the provisions of Article 3 are not effective.

Article 4. Effects of Reorganization

51940. Upon reorganization, the cities are deemed dissolved and disincorporated and are merged together with the county into the City-County of Sacramento, and the charter of the largest city and the charter of the county shall be deemed repealed. The City-County of Sacramento is a charter city and a charter county. Its charter city powers supersede conflicting charter county powers.

51941. Upon reorganization every special district within the county or exercising all or any part of its jurisdiction or powers within the county except the municipal utility districts, mosquito abatement districts, reclamation districts, school districts, and port districts, is deemed dissolved and its functions shall be assumed by the city-county government, except as may be otherwise provided in the charter. The provisions of Sections 51942, 51943, 51944, and 51945 shall be applicable to the merger of every such special district merged with the city-county pursuant to this chapter.

51942. When cities and a county are reorganized pursuant to this chapter, the reorganized city-county is the successor of each of the cities and the county so consolidated. Upon reorganization, the title to any property owned or held by, or in trust for, each of the cities and the county, or by their officers or boards in trust for public use, shall be vested in the city-county, or its officers or boards, except as may be otherwise provided in the charter.

51943. Immediately upon reorganization, all persons occupying or possessing the offices of each of the cities and the county shall surrender them to the proper officers of the city-county, except as may be otherwise provided in the charter.

51944. Except as otherwise provided in the charter, reorganization does not affect any debts, demands, liabilities, or obligations of any kind existing in favor of or against the cities and the county, at the time of reorganization. Reorganization does not affect any pending action or proceeding involving any such debt, demand, liability, or obligation or any action or proceeding brought by or against any city or the county prior to reorganization. All such proceedings shall be continued and concluded, by final judgment or otherwise, as if reorganization had not been effected. All such rights or liabilities become the rights and liabilities of the city-county; provided, however, that the charter may provide for certain debts,

demands, liabilities or obligations which are payable by assessments or ad valorem taxes on properties within a district or area (such as within a former district or city) to remain payable from such assessments or ad valorem taxes within such a district or area as though reorganization had not occurred.

51945. The legislative body of the city-county shall levy and collect the taxes necessary to pay the indebtedness or liability of each city and the county incurred prior to reorganization within the city or the county which incurred such indebtedness, except as may be otherwise provided in the charter.

51946. Notwithstanding any provision to the contrary in Chapter 1.5 (commencing with Section 2161), Part 4, Division 1, of the Revenue and Taxation Code, the charter shall contain provisions either establishing a limitation on the combined ad valorem property tax rate and increases in such tax rate which may be levied by the city-county and reorganized local jurisdictions under said charter or establishing a method to limit such combined ad valorem property tax rate or increases in such tax rate, to the extent that the California Constitution or state law applicable to the city-county from time to time may require such a limitation on the ad valorem property tax rate and increases in such rate by the city-county.

51947. Immediately upon reorganization, all ordinances of the cities and the county shall be deemed repealed. Such repeal shall not discharge any person from any existing civil or criminal liability, nor affect any pending prosecution for violation of any such ordinances, nor affect vested rights created pursuant to said ordinances. The charter may provide that ordinances of any city, reorganized and consolidated, or the county shall remain in effect and shall be applicable throughout the city-county until repealed by the legislative body of the city-county.

51948. The repeal of ordinances pursuant to Section 51947 shall not apply to:

(a) Ordinances under which vested rights have accrued to the extent legally necessary to protect said vested rights.

(b) Ordinances relating to proceedings for street or other public improvements, to the extent legally necessary to preserve said proceedings completed or pending.

(c) Proceedings for opening, extending, widening, straightening, or changing the grade of streets or other public places.

These proceedings shall be continued and conducted by the city-county, with the same effect as if continued and conducted by the city or county which commenced them.

51949. Upon reorganization, the charter of the city-county shall have full effect throughout the city-county. The charter shall recognize the status of each of the other cities which have voted to retain their local governmental structure pursuant to Article 3 or their governmental independence pursuant to Article 3.5, whichever is applicable. The charter may provide for subgovernments, different tax rates, and other differences in taxation, services, costs

of government and levels of service, and type of government representation and administration in different areas of the city-county.

51950. If reorganization is completed, all proper expenses of reorganization proceedings not otherwise provided for shall be paid by the county. If reorganization is not completed, the county shall pay the expenses of calling and holding any election within it at which the question of consolidation was submitted.

51951. One copy of the charter ratified and approved in accordance with the provisions of this article shall be filed with the Secretary of State and one with the recorder in the city-county; and thereafter the courts shall take judicial notice of the provisions of such charter.

51952. This chapter shall not be construed to prevent any consolidated city-county from framing and adopting a new or revised charter after consolidation in which case the provisions of Chapter 3 (commencing with Section 34450) of Part 1 of Division 2 of Title 4 shall be applicable.

51953. The charter may provide for the manner in which any of the other cities which has elected to retain its local governmental structure pursuant to Article 3 or its governmental independence pursuant to Article 3.5, whichever is applicable may at any time become consolidated and merged into the city-county government following a majority vote of its voters voting thereon.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the cities in Sacramento County and the County of Sacramento may proceed with their reorganization plans this statute must be given immediate effect.

CHAPTER 973

An act relating to public lands, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1973 Filed with Secretary of State September 30, 1973]

The people of the State of California do enact as follows:

SECTION 1. The State Lands Commission is hereby authorized to exchange vacant state school lands under its jurisdiction for lands owned by any state agency, political subdivision, or person, partnership, company, or corporation for the purpose of acquiring lands for the following projects:

(a) Bighorn sheep habitat in Riverside County.

01319 384620 261

(b) Expansion of Millerton Lake State Recreation Area in Madera County

(c) Acquisition of coastal beach and uplands in Santa Cruz County for the state park system.

(d) Acquisition of coastal beach and related Navarro River frontage and uplands in Mendocino County for the state park system.

(e) Acquisition of Westport Beach lands, Mendocino County, of approximately 1,100 acres, three miles of ocean frontage.

(f) Acquisition of Bear Harbor lands, Mendocino County, of approximately 3,800 acres, eight miles of ocean frontage.

(g) Acquisition of lands as an addition to Anza-Borrego Desert State Park, of approximately 12,000 acres.

SEC. 2. Lands acquired pursuant to the provisions of this act shall have equal or greater value than the lands conveyed.

SEC. 3. Lands acquired pursuant to this act shall have the same status as to administration, control, and disposition as the lands conveyed.

SEC. 4. The state may release the mineral rights in the lands conveyed, as provided in Section 6401 of the Public Resources Code, if it receives the mineral rights in the lands acquired.

SEC. 5. The transactions authorized pursuant to Section 1 of this act shall not be completed until reviewed and approved by the Department of General Services and the State Public Works Board. Approval of a transaction by the Department of General Services and the State Public Works Board shall constitute a conclusive finding that the provisions of Section 2 of this act have been complied with with respect to such transaction.

SEC. 6. The Department of Parks and Recreation shall establish priorities for the acquisition of lands for the projects specified in Section 1 of this act.

SEC. 7. Notwithstanding the provisions of Section 6371 of the Public Resources Code, the State Lands Commission may dispose of lands acquired pursuant to this act through sale, lease, or exchange; provided, however, that any lands disposed of shall be surplus to the needs of the state park system.

SEC. 8. The State Lands Commission shall report to the Legislature not later than July 1, 1974, on the status of the land exchanges authorized by this act.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Present law limits the exchange of parcels of vacant state school lands solely for those owned by the United States and its agencies and departments. Parcels of land owned by state agencies, political subdivisions, persons, partnerships, companies, and corporations have unique characteristics of statewide significance which may be irrevocably lost to the state and its citizens if not acquired and brought into state ownership. In order to assure that these parcels are

01319 384635 264

not lost forever to the state and so that proper steps can be taken for their acquisition, it is necessary that this act take immediate effect.

Nothing contained in this section shall preclude establishment of such an account on terms mutually agreeable to the parties to the loan, if, prior to the execution of the loan or sale agreement, the seller or lender has furnished to the purchaser or borrower a statement in writing, which may be set forth in the loan application, to the effect that the establishment of such an account shall not be required as a condition to the execution of the loan or sale agreement, and further, that interest will not be paid on any funds which are impounded.

(b) Every mortgagee of real property, beneficiary under a deed of trust on real property or vendor on a real property sale contract upon the written request of the mortgagor, trustor or vendee shall furnish to the mortgagor, trustor or vendee for each calendar year

within 60 days after the end of such year an itemized accounting of moneys received for interest and principal repayment and received and held in or disbursed from an impound or trust account, if any, for payment of taxes on the property, insurance premiums or other purposes relating to the property subject to the mortgage, deed of trust or real property sale contract. The mortgagor, trustor or vendee shall be entitled to receive one such accounting for each calendar year without charge and shall be entitled to additional similar accountings for one or more months upon written request and on payment in advance of fees as follows:

(2) One dollar ($1) per statement when requested for only one month.

(3) Five dollars ($5) if requested for a single cumulative statement giving all the information described above back to the last statement rendered.

If the mortgagee, beneficiary or vendor transmits to the mortgagor, trustor or vendee a monthly statement or passbook showing moneys received for interest and principal repayment and received and held in and disbursed from an impound or trust account, if any, the mortgagee, beneficiary or vendor shall be deemed to have complied with this section.

No increase in the monthly rate of payment of a mortgagor, trustor or vendee on a real property sale contract for impound or trust accounts shall be effective until after the mortgagee, beneficiary or vendor has furnished the mortgagor, trustor or vendee with an itemized accounting of the moneys presently held by it in the accounts, and a statement of the new monthly rate of payment, and an explanation of the factors necessitating the increase.

The provisions of this section shall be in addition to the obligations of the parties as stated by Section 2943 of this code.

Every person who willfully or repeatedly violates this section shall be subject to punishment by a fine of not less than twenty-five dollars ($25) nor more than one hundred dollars ($100).

(c) As used in this section, "single-family, owner-occupied dwelling" means a dwelling which will be owned and occupied by a signatory to the mortgage or deed of trust secured by such dwelling within 90 days of the execution of such mortgage or deed of trust.

The Savings and Loan Commissioner, the Superintendent of Banks, and the Corporations Commissioner, in conjunction with the Insurance Commissioner, shall issue appropriate regulations defining "reasonable cause."

(b) Any lender from recommending to any borrower or prospective borrower the placing of insurance with a specified insurer or through a specified insurance agent or broker as long as such recommendation, with respect to a sale of real property or a loan upon the security of real property, clearly sets forth both the name and the mailing address of the recommended insurer or insurance agent or broker and does not violate the provisions of Section 770 or of any other section of this code. On and after July 1, 1972, such recommendation clearly setting forth the name and the mailing address of the recommended insurer or insurance agent or broker, shall be in writing.

(c) The free choice of insurance agent or broker by any borrower or purchaser at any time, and he may revoke any designation of insurance agent or broker at any time irrespective of the provisions of any loan or purchase agreement or trust deed.

(d) The exercise of any person engaged in such business of his right to furnish such insurance or to renew such insurance, and to charge the account of the borrower or purchaser with the costs thereof, if the borrower or purchaser fails to deliver to the lender such insurance at least 30 days prior to the expiration of the policy. If an insurance policy procured by the borrower or purchaser is subsequently substituted for that then in force, the lender may impose a reasonable service charge as determined by the Insurance Commissioner for the transaction, the payment of which charge by the agent or broker is not a violation of any other provision of this code. No service charges shall be imposed for normal insurance changes made during the term of the policy.

thousand one hundred fifty dollars ($1,150) shall be the amount computed by entering the column of maximum required monthly contribution appropriate to number of persons dependent upon income as shown in the relatives' contribution scale for a net monthly income of one thousand one hundred twenty-six dollars ($1,126) to one thousand one hundred fifty dollars ($1,150) and then adding to the required monthly contribution thus ascertained an additional sum of five dollars ($5) contribution for each and every bracket of twenty-five dollars ($25) net income over and above one thousand one hundred fifty dollars ($1,150), the same as if the relatives' contribution scale were extended by brackets of twenty-five dollars ($25) net income in column A with corresponding step-by-step increases of five dollars ($5) monthly contribution in each column under B and C.

Notwithstanding any other provision of this code to the contrary, the provisions of this section and the regulations of the department adopted pursuant thereto shall be the basis for determining the extent of liability of an adult child to contribute to the support of, or defray the cost of any medical care or hospital care and other services rendered to a recipient pursuant to any provision of this code if he is a recipient of aid under this chapter at the time such medical care or hospital care or other services are rendered.

SEC. 19. Section 17300 of the Welfare and Institutions Code is amended to read:

17300. All aid rendered by the county under this part shall be a charge against the spouse, parent, and adult child of the recipient thereof, and the county rendering aid shall be entitled to reimbursement therefor.

The board of supervisors of the county rendering aid shall determine if the spouse, parent, or adult child, or any of them, have financial ability to support or contribute to the support of the recipient and were pecuniarily able to support or contribute to the support of the recipient during the time aid was rendered. If in the opinion of the board of supervisors pecuniary ability existed when the aid was given, and exists when the matter comes before the board of supervisors, the board shall request the district attorney or other civil legal officer of the county granting aid to proceed against such responsible relative or relatives.

Upon such request, the district attorney or other civil legal officer shall maintain an action on behalf of the county granting aid against the relative or relatives to recover for the county the aid rendered and to secure an order requiring the payment of any sums which may become due in the future.

The board of supervisors shall, in the case of aid granted by institutional care, fix a reasonable charge therefor, which shall be the measure of reimbursement to the county, and the existence of the order fixing the charge shall constitute prima facie evidence of its reasonableness.

The earnings and separate property of a wife shall be the only

factors which may be considered in any determination of her ability to support or contribute to the support of a recipient, but shall not be considered in any determination of the ability of a husband to support or contribute to the support of a recipient.

SEC. 20. Except as provided in Section 21, the provisions of this act shall be operative January 1, 1975.

SEC. 21. It is the intent of the Legislature, if this bill and Assembly Bill No. 312 are both chaptered, and become effective January 1, 1974, and amend Section 5116 of the Civil Code, and this bill is chaptered after Assembly Bill No. 312, that Section 5116 of the Civil Code, as amended by Section 6.5 of this act, shall become operative on the effective date of this act and remain operative until the operative date of this act and that on the operative date of this act Section 5116 of the Civil Code, as amended by Section 6.5 of this act, be further amended in the form set forth in Section 7 of this act. Therefore, if Assembly Bill No. 312 is chaptered before this bill and amends Section 5116, Section 7 of this act shall become operative on the operative date of this act, and Section 5116 as amended by Section 6.5 of this act shall become inoperative on the operative date of this act.

CHAPTER 988

An act to repeal Chapter 10 (commencing with Section 8800) of Division 1 of Title 2 of the Government Code, relating to marine and coastal resources.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10 (commencing with Section 8800) of Division 1 of Title 2 of the Government Code is repealed.

CHAPTER 989

An act to amend Section 23153 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

012 385475 360

SECTION 1. Section 23153 of the Revenue and Taxation Code is amended to read:

23153. (a) Every corporation not otherwise taxed under this chapter and not expressly exempted by the provisions of this part or the Constitution of this state shall pay annually to the state a tax of one hundred dollars ($100), except that the following corporations shall pay annually to the state a tax of twenty-five dollars ($25):

(1) A credit union not otherwise taxed under this chapter whose gross income is twenty thousand dollars ($20,000) or less.

(2) A corporation formed under the laws of this state whose principal business when formed was gold mining, which is inactive and has not done business within the limits of the state since 1950.

(3) A corporation formed under the laws of this state whose principal business when formed was quicksilver mining, which is inactive and has not done business within the limits of the state since 1971, or has been inactive for a period of 24 consecutive months or more.

Every such domestic corporation taxable under this section shall be subject to the said tax from the date of incorporation until the effective date of dissolution as provided in Section 23331.

For the purpose of paragraphs (2) and (3) a corporation shall not be considered to have done business if it engages in other than mining.

(b) For income years beginning after December 31, 1971, the one hundred dollars ($100) specified in subdivision (a) shall be two hundred dollars ($200) instead of one hundred dollars ($100).

SEC. 2. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall apply in the computation of taxes for income years beginning after December 31, 1972.

CHAPTER 990

An act to amend Section 995 of, and to add Section 995.2 to, the Revenue and Taxation Code, and to repeal Section 3 of Chapter 165 of the Statutes of 1972, relating to property taxation.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 995 of the Revenue and Taxation Code, as added by Chapter 165 of the Statutes of 1972, is amended to read:

995. Storage media for computer programs shall be valued on the 1972 lien date and thereafter as if there were no computer program on such media except basic operational programs. Otherwise, computer programs shall not be valued for purpose of property

taxation.

As used in this section, storage media for computer programs may take the form of, but are not limited to, punched cards, tapes, discs or drums on which computer programs may be embodied or stored.

As used in this section, a computer program may be, but is not limited to a set of written instructions, magnetic imprints, required documentation or other process designed to enable the user to communicate with or operate a computer or other machinery.

SEC. 2. Section 995.2 is added to the Revenue and Taxation Code, to read:

995.2. The term "basic operational program," as used in Section 995 and for purposes of Section 995.1, means a computer program which is fundamental and necessary to the functioning of a computer. A basic operational program is that part of an operating system including supervisors, monitors, executives and control or master programs which consist of the control program elements of that system.

For purposes of this section the terms "control program" and "basic operational program" are interchangeable. A control program, as opposed to a processing program, controls the operation of a computer by managing the allocation of all system resources, including the central processing unit, main storage, input/output devices and processing programs. A processing program is used to develop and implement the specific applications which the computer is to perform. Its operation is possible only through the facilities provided by the control program; however, it is not in itself fundamental and necessary to the functioning of a computer.

Excluded from the term "basic operational program" are processing programs, which consist of language translators, including but not limited to, assemblers and compilers; service programs, including but not limited to, data set utilities, sort/merge utilities, and emulators; data management systems, also known as generalized file-processing software; and application programs including but not limited to payroll, inventory control and production control. Also excluded from the term "basic operational program" are programs or parts of programs developed for or by a user if they were developed solely for the solution of an individual operational problem of the user.

A control program, as used in this section, includes such functions as: selection, assignment and control of input and output devices; loading of programs, including selection of programs from a system resident library; handling the steps necessary to accomplish job-to-job transition; controlling the allocation of memory; controlling concurrent operation of multiple programs or computers; and protecting data from being inadvertently destroyed as a result of operator program error.

SEC. 3. The addition of Section 995.2 to the Revenue and Taxation Code by this act does not constitute a change in, but is declaratory of, existing law.

SEC. 4. Section 3 of Chapter 165 of the Statutes of 1972 is repealed.

SEC. 5. No reimbursement shall be made to any local agency pursuant to Section 2163 or 2229 of the Revenue and Taxation Code as a result of the provisions of this act for the following reasons:

The definition of "basic operational program" in this act is a change from the definition adopted by the Board of Equalization late in 1972. Therefore the 1972 assessment roll could not have been prepared with the use of the Board of Equalization definition of "basic operational program" and therefore no actual tax revenue collected in the 1972–73 fiscal year could have been based on such rule.

Sections 2163 and 2229 only require the Legislature to reimburse local agencies for the actual loss of revenue, which does not include potential revenue from property which was not being assessed and taxed on January 1, 1973.

As the property in question was not being actually assessed or taxed for the 1972–73 fiscal year, even though it may have been legally subject to taxation, there is no requirement for the Legislature to reimburse local government due to the adoption of a definition of "basic operational program" in this act.

CHAPTER 991

An act to add Section 11212 to the Welfare and Institutions Code, relating to public assistance, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 11212 is added to the Welfare and Institutions Code, to read:

11212. The state, through the county welfare department, shall reimburse the foster parent or foster parents for the cost of the burial plot and funeral expenses incurred for any child who, at the time of death, is receiving foster care, as defined in Section 11251, to the extent that the foster parent or foster parents are not otherwise reimbursed for costs incurred for such purposes. The foster parent shall file a claim for reimbursement of costs with the county welfare department at the time and in the manner specified by the department. The county welfare department shall pay an amount not exceeding six hundred fifty dollars ($650) for such claim out of state funds appropriated for such purposes.

SEC. 2. There is hereby appropriated forty-eight thousand seven hundred fifty dollars ($48,750) from the General Fund to the

Department of Social Welfare for disbursement to the counties for costs incurred by them pursuant to this act.

CHAPTER 992

An act to add Chapter 2 (commencing with Section 13100) to Title 3 of Part 4 of the Penal Code, relating to criminal records.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 13100) is added to Title 3 of Part 4 of the Penal Code, to read:

CHAPTER 2. CRIMINAL OFFENDER RECORD INFORMATION

Article 1. Legislative Findings and Definitions

13100. The Legislature finds and declares as follows:

(a) That the criminal justice agencies in this state require, for the performance of their official duties, accurate and reasonably complete criminal offender record information.

(b) That the Legislature and other governmental policymaking or policy-researching bodies, and criminal justice agency management units require greatly improved aggregate information for the performance of their duties.

(c) That policing agencies and courts require speedy access to information concerning all felony and selected misdemeanor arrests and final dispositions of such cases.

(d) That criminal justice agencies may require regular access to detailed criminal histories relating to any felony arrest that is followed by the filing of a complaint.

(e) That, in order to achieve the above improvements, the recording, reporting, storage, analysis, and dissemination of criminal offender record information in this state must be made more uniform and efficient, and better controlled and coordinated.

13101. As used in this chapter, "criminal justice agencies" are those agencies at all levels of government which perform as their principal functions, activities which either:

(a) Relate to the apprehension, prosecution, adjudication, incarceration, or correction of criminal offenders; or

(b) Relate to the collection, storage, dissemination or usage of criminal offender record information.

13102. As used in this chapter, "criminal offender record information" means records and data compiled by criminal justice

agencies for purposes of identifying criminal offenders and of maintaining as to each such offender a summary of arrests, pretrial proceedings, the nature and disposition of criminal charges, sentencing, incarceration, rehabilitation, and release.

Such information shall be restricted to that which is recorded as the result of an arrest, detention, or other initiation of criminal proceedings or of any consequent proceedings related thereto. It shall be understood to include, where appropriate, such items for each person arrested as the following:

(a) Personal identification.

(b) The fact, date, and arrest charge; whether the individual was subsequently released and, if so, by what authority and upon what terms.

(c) The fact, date, and results of any pretrial proceedings.

(d) The fact, date, and results of any trial or proceeding, including any sentence or penalty.

(e) The fact, date, and results of any direct or collateral review of that trial or proceeding; the period and place of any confinement, including admission, release; and, where appropriate, readmission and rerelease dates.

(f) The fact, date, and results of any release proceedings.

(g) The fact, date, and authority of any act of pardon or clemency.

(h) The fact and date of any formal termination to the criminal justice process as to that charge or conviction.

(i) The fact, date, and results of any proceeding revoking probation or parole.

It shall not include intelligence, analytical, and investigative reports and files, nor statistical records and reports in which individuals are not identified and from which their identities are not ascertainable.

Article 2. Recording Information

Recommendation

13126. The Department of Justice shall, when necessary, modify the list of data elements enumerated in Section 13125, in accord with changes in criminal procedures or the organization of criminal justice agencies that affect criminal record information requirements.

13127. Each recording agency shall insure that each portion of a criminal offender record that it originates shall include, for all felonies and reportable misdemeanors, the state or local unique and permanent fingerprint identification number, within 72 hours of origination of such records, excluding Saturday, Sunday, and holidays.

Article 3. Reporting Information

13150. For each arrest made, the reporting agency shall report to the Department of Justice, concerning each arrest, the applicable identification and arrest data described in Section 13125, including any modification under Section 13126, and fingerprints, except as otherwise provided by law.

13151. The court dispositions of such cases shall be reported by the appropriate agency within 10 days of such disposition. Admissions or releases from detention facilities shall be reported within 10 days of such actions.

13152. Each criminal justice agency filing a complaint subsequent to an arrest where a felony charge is recorded at the time of arrest or booking, and every criminal justice agency taking action towards an offender subsequent to such complaint, shall report, in a

form to be determined by the Department of Justice, such criminal offender record information as the Department of Justice requires. The minimum required shall include, but not be limited to, the appropriate data elements enumerated in Section 13125, including any modification under Section 13126, describing those actions initiated or carried out by the agency.

13153. Criminal justice agencies shall report such additional criminal offender record information as the Department of Justice requires, provided that data relating to arrests for being found in any public place under the influence of intoxicating liquor under subdivision (f) of Section 647 shall not be reported or maintained by the Department of Justice without special individual justification.

Article 4. Information Service

13175. When a criminal justice agency supplies fingerprints, or a fingerprint identification number, or such other personal identifiers as the Department of Justice deems appropriate, to the Department of Justice, such agency shall, upon request, be provided with identification, arrest, and, where applicable, final disposition data relating to such person within 72 hours of receipt by the Department of Justice.

13176. When a criminal justice agency entitled to such information supplies fingerprints, or a fingerprint identification number, or such other personal identifiers as the Department of Justice deems appropriate, to the Department of Justice, such agency shall, upon request, be provided with the criminal history of such person, or the needed portion thereof, within 72 hours of receipt by the Department of Justice.

13177. Nothing in this chapter shall be construed so as to prevent the Department of Justice from requiring criminal justice agencies to report more criminal offender record information, if such information is a public record, than this chapter requires or to record or report it more quickly, or to establish any other regulations authorized by any other provision of law that would improve criminal justice information systems.

Article 5. Access to Information

13200. Nothing in this chapter shall be construed to affect the right of access of any person or public agency to individual criminal offender record information that is authorized by any other provision of law.

13201. Nothing in this chapter shall be construed to authorize access of any person or public agency to individual criminal offender record information unless such access is otherwise authorized by law.

13202. Every public agency or research body immediately concerned with the prevention or control of crime, the quality of criminal justice, or the custody or correction of offenders shall be

0135 385575 380

provided with such aggregated criminal offender record information as is required for the performance of its duties, or the execution of research projects relating to the activities of criminal justice agencies or changes in legislative or executive policies, insofar as the technical or financial resources of statistical agencies permit, provided that all material identifying individuals has been removed, and provided that such agency or body pays the cost of the processing of such data when necessary.

SEC. 2. This act shall become operative July 1, 1978.

SEC. 3. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. This legislation consists of technical changes to statutes enacted prior to January 1, 1973, and therefore does not mandate a local governmental program under Section 2164.3 of the Revenue and Taxation Code.

CHAPTER 993

An act to add Sections 11200.4, 11553.4, 11554.1, and 12804.1 to, the Government Code, to amend Sections 12081 and 13108 of the Health and Safety Code, to amend Sections 53, 55, 57, 140, 141, and 142 of, and to amend the heading of Chapter 6 (commencing with Section 140) of Division 1 of, the heading of Part 1 (commencing with Section 6300) of, and the heading of Chapter 1 (commencing with Section 6300) of Part 1 of, Division 5 of, to add Sections 57.1, 142.1, 142.2, 142.3, 142.4, 142.5, 143, 143.1, 143.2, 144, 144.5, 144.6, 145, 145.1, 146, 147, 147.1, 155, 156, 2626.5, 6300, 6301, 6302, 6303, 6304.1, 6305, 6306, 6307, 6308, 6309, 6310, 6311, 6312, 6313, 6313.5, 6314, 6315, 6315.5, 6316, 6317, 6318, 6319, 6319.5, 6320, 6321, 6322, 6323, 6324, 6325, 6326, 6327, 6327.5, 6328, 6329, and 6330 to, to add Chapter 6.5 (commencing with Section 148) to Division 1 of, and to add Chapter 2 (commencing with Section 6350), Chapter 3 (commencing with Section 6400), Chapter 4 (commencing with Section 6423), Chapter 5 (commencing with Section 6450), Chapter 6 (commencing with Section 6500), Chapter 7 (commencing with Section 6600), Chapter 8 (commencing with Section 6650), and Chapter 9 (commencing with Section 6700), to Part 1 of Division 5 of, to repeal Sections 144, 145, 146, 147, 6300, 6301, 6302, 6303, 6305, 6306, 6307, 6308, 6309, 6310, 6311, 6312, 6313, 6314, 6315, 6316, 6317, 6318, 6319, 6320, and 6321 of, and to repeal Chapter 2 (commencing with Section 6400), Chapter 3 (commencing with Section 6500), and Chapter 4 (commencing with Section 6600), of Part 1 of Division 5 of, the Labor Code,

This responsibility shall be exercised through the Department of Industrial Relations. All enforcement and rulemaking authority shall be in the Department of Industrial Relations.

SEC. 4. Section 12081 of the Health and Safety Code is amended to read:

12081. Except as limited by Chapter 6 (commencing with Section 140), Division 1 of the Labor Code, the State Fire Marshal shall prepare and adopt, in accordance with the provisions of Chapter 4.5 (commencing at Section 11371), Part 1, Division 3, Title 2 of the Government Code, reasonable regulations which are not in conflict with this part, relating to the sale, use, handling, possession, and storage of explosives.

6429. Any employer who willfully or repeatedly violates any occupational safety or health standard, order, or special order may be assessed a civil penalty of not more than ten thousand dollars ($10,000) for each violation.

6430. Any employer who fails to correct a violation of any occupational safety or health standard, order, or special order within the period permitted for its correction may be assessed a civil penalty of not more than one thousand dollars ($1,000) for each day during which such failure or violation continues.

6431. Any employer who violates any of the posting requirements as prescribed pursuant to Section 6408 and authorized regulations, shall be assessed a civil penalty of up to one thousand dollars ($1,000) for each violation.

6432. As used in this chapter, a "serious violation" shall be deemed to exist in a place of employment if there is a substantial probability that death or serious physical harm could result from a condition which exists, or from one or more practices, means,

methods, operations, or processes which have been adopted or are in use, in such place of employment unless the employer did not, and could not with the exercise of reasonable diligence, know of the presence of the violation.

6433. The civil penalties set forth in Sections 6427 to 6431, inclusive, shall not be considered as other penalties specifically provided within the meaning of Section 6423.

6434. The civil penalties provided for in this chapter shall not be assessed against employers that are governmental entities.

6435. Any employer who violates any of the requirements of Chapter 6 (commencing with Section 6500) of this part shall be assessed a civil penalty under the appropriate provisions of Sections 6427 to 6430, inclusive.

SEC. 99. Chapter 5 (commencing with Section 6450) is added to Part 1 of Division 5 of the Labor Code, to read:

CHAPTER 5. TEMPORARY VARIANCES

6450. (a) Any employer may apply to the division for a temporary order granting a variance from an occupational safety or health standard. Such temporary order shall be granted only if the employer files an application which meets the requirements of Section 6451, and establishes that (1) he is unable to comply with a standard by its effective date because of unavailability of professional or technical personnel or of materials and equipment needed to come into compliance with the standard or because necessary construction or alteration of facilities cannot be completed by the effective date, (2) he is taking all available steps to safeguard his employees against the hazards covered by the standard, and (3) he has an effective program for coming into compliance with the standard as quickly as practicable.

(b) Any temporary order issued under this section shall prescribe the practices, means, methods, operations, and processes which the employer must adopt and use while the order is in effect and state in detail his program for coming into compliance with the standard. Such a temporary order may be granted only after notice to employees and an opportunity for a hearing. However, the division may issue one interim order for a temporary variance upon submission of an application showing that the employment or place of employment will be safe for employees pending a hearing on the application for a temporary variance. No temporary order may be in effect for longer than the period needed by the employer to achieve compliance with the standard or one year, whichever is shorter, except that such an order may be renewed not more than twice provided that the requirements of this section are met and an application for renewal is filed prior to the expiration date of the order. No single renewal of an order may remain in effect for longer than 180 days.

6451. An application for a temporary order under Section 6450

shall contain all of the following:

(a) A specification of the standard or portion thereof from which the employer seeks a variance.

(b) A representation by the employer, supported by representations from qualified persons having firsthand knowledge of the facts represented, that he is unable to comply with the standard or portion thereof and a detailed statement of the reasons therefor.

(c) A statement of the steps he has taken and will take, with specific dates, to protect employees against the hazard covered by the standard.

(d) A statement of when he expects to be able to comply with the standard and what steps he has taken and what steps he will take, with dates specified, to come into compliance with the standard.

(e) A certification that he has informed his employees of the application by giving a copy thereof to their authorized representative, posting a statement giving a summary of the application and specifying where a copy may be examined at the place or places where notices to employees are normally posted, and by other appropriate means. A description of how employees have been informed shall be contained in the certification. The information to employees shall also inform them of their right to petition the division for a hearing.

6452. The division is authorized to grant a temporary variance from any standard or portion thereof whenever it determines such variance is necessary to permit an employer to participate in an experiment approved by the director designed to demonstrate or validate new and improved techniques to safeguard the health or safety of workers.

6453. Hearings conducted by the division pursuant to this part shall give any affected employer or other affected person the opportunity to submit facts or arguments but may be conducted informally, orally or in writing.

6454. The division may, in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, make such rules and regulations as are reasonably necessary to carry out the provisions of this chapter and to establish rules and regulations relating to the granting or denial of temporary variances.

6455. Any employer or other person adversely affected by the granting or denial of a temporary variance may appeal to the standards board within 15 working days from receipt of the notice granting or denying the variance. The 15-day period may be extended by the standards board for good cause.

6456. A decision of the standards board on a variance appeal is binding on the director and the division with respect to the parties involved in the particular appeal. The director shall have the right to seek judicial review of a standards board decision irrespective of whether he appeared or participated in the appeal to the standards

board.

6457. The standards board shall conduct hearings and render decisions on appeals of decisions of the division relating to allowance or denial of temporary variances. All board decisions on such variance appeals shall be in writing and shall be final except for any rehearing or judicial review.

SEC. 100. Chapter 6 (commencing with Section 6500) is added to Part 1 of Division 5 of the Labor Code, to read:

CHAPTER 6. PERMIT REQUIREMENTS

6500. For those employments or places of employment which by their nature involve a substantial risk of injury, the division shall require the issuance of a permit prior to the initiation of any practices, work, method, operation or process of employment. Such employment or places of employment shall be limited to:

a. Construction of trenches or excavations which are five feet or deeper and into which a person is required to descend.

b. The construction of any building, structure, falsework, or scaffolding more than three stories high or the equivalent height.

c. The demolition of any building, structure, falsework, or scaffold more than three stories high or the equivalent height.

6501. Any employer subject to Section 6500 shall apply to the division for a permit pursuant to Section 6500. Such application for a permit shall contain such information as the division may deem necessary to evaluate the safety of the proposed employment or place of employment.

An application by an employer shall include a provision that the applicant has knowledge of applicable occupational safety and health standards and will comply with such standards and any other lawful order of the division.

6502. The division may issue a permit based on a determination the employer has demonstrated evidence that the conditions, practices, means, methods, operations or processes used or proposed to be used will provide a safe and healthful place of employment. The division may issue a single permit for two or more projects to be performed by a single employer if similar conditions exist on each project and the chief or his representative is satisfied an adequate safety program has been developed for all the projects. The division may, upon its motion, conduct any investigation or hearing it deems necessary for the purpose of this section, and may require a safety conference prior to the start of actual work.

6503. A safety conference shall include representatives of the owner or contracting agency, the contractor, the employer, employees and employee representatives. The safety conference shall include a discussion of the employer's safety program and such means, methods, devices, processes, practices, conditions or operations as he intends to use in providing safe employment and a safe place of employment.

6504. Any employer issued a permit pursuant to this chapter shall post a copy or copies of the permit pursuant to subdivision (a) of Section 6408.

6505. The division may at any time, upon good cause being shown therefor, and after notice and an opportunity to be heard revoke any permit issued pursuant to this chapter.

6506. Any employer denied a permit upon application may appeal such denial to the director.

6507. The division shall set a fee to be charged for such permits in an amount reasonably necessary to cover the costs involved in investigating and issuing such permits.

6508. No permit shall be required of the State of California, a city, city and county, county, district, or public utility subject to the jurisdiction of the Public Utilities Commission.

SEC. 101. Chapter 7 (commencing with Section 6600) is added to Part 1 of Division 5 of the Labor Code, to read:

CHAPTER 7. APPEAL PROCEEDINGS

6600. Any employer served with a citation or notice pursuant to Section 6317, or a notice of civil penalty under this part, may appeal to the appeals board within 15 working days from the receipt of such citation or such notice with respect to violations alleged by the division, abatement periods, amount of proposed penalties, and the reasonableness of the changes required by the division to abate the condition.

6601. If within 15 working days from receipt of the citation or notice of civil penalty issued by the division, the employer fails to notify the appeals board that he intends to contest the citation or notice of civil penalty, and no notice is filed by any employee or representative of the employee within such time, the citation or notice of civil penalty shall be deemed a final order of the appeals board and not subject to review by any court or agency. The 15-day period may be extended by the appeals board for good cause.

6602. If an employer notifies the appeals board that he intends to contest a citation issued under Section 6317 or notice of civil penalty issued under Section 6319, or if, within 15 working days of the issuance of a citation any employee or representative of employee files a notice with the division or appeals board alleging that the period of time fixed in the citation for the abatement of the violation is unreasonable, the appeals board shall afford an opportunity for a hearing. The appeals board shall thereafter issue a decision, based on findings of fact, affirming, modifying or vacating the division's citation or proposed penalty or directing other appropriate relief and such decision shall become final 20 days after its issuance unless a petition for reconsideration is filed in the time allowed.

6603. The rules of practice and procedure adopted by the appeals board shall be consistent with Sections 11507, 11507.5, 11507.6, 11507.7, 11508, 11510, 11513, 11514, 11515, 11516, and 11525 of the

Government Code, and shall provide affected employees or representatives of affected employees an opportunity to participate as parties to a hearing under Section 6602.

6604. The appeals board may, in accordance with rules of practice and procedure which it shall adopt, direct and order a hearing officer:

(a) To try the issues in any proceeding before it, whether of fact or of law, and make and file a finding, order, or decision based thereon.

(b) To hold hearings and ascertain facts necessary to enable the appeals board to determine any proceeding or to make any order or decision that the appeals board is authorized to make, or necessary for the information of the appeals board.

6605. The appeals board may appoint one or more hearing officers in any proceeding, as it may deem necessary or advisable, and may defer, remove to itself, or transfer to a hearing officer the proceedings on any appeal. Any hearing officer appointed by the appeals board has the powers, jurisdiction, and authority granted by law, by the order of appointment, and by the rules of the appeals board.

6606. Any party to the proceeding may object to the reference of the proceeding to a particular hearing officer upon any one or more of the grounds specified in Section 641 of the Code of Civil Procedure and such objection shall be heard and disposed of by the appeals board. Affidavits may be read and witnesses examined as to such objections.

6607. Before entering upon his duties, the hearing officer shall be sworn, before an officer authorized to administer oaths, faithfully and fairly to hear and determine the matters and issues referred to him, to make just findings and to report according to his understanding. In any proceedings under this chapter, the hearing officer shall have the power to administer oaths and affirmations and to certify official acts.

6608. The appeals board or a hearing officer shall, within 30 days after the case is submitted, make and file findings upon all facts involved in the appeal and file an order or decision. Together with the findings or the decision, there shall be served upon all the parties to the proceedings a summary of the evidence received and relied upon and the reasons or grounds upon which the decision was made.

6609. Within 30 days after the filing of the findings, decision, or order, the appeals board may confirm, adopt, modify or set aside the findings, order, or decision of a hearing officer and may, with or without further proceedings, and with or without notice, enter its order, findings, or decision based upon the record in the case.

6610. Any notice, order, or decision required by this part to be served upon any person either before, during, or after the institution of any proceeding before the appeals board, shall be served in the manner provided by Chapter 5 (commencing with Section 1010) of Title 14 of Part 2 of the Code of Civil Procedure, unless otherwise

directed by the appeals board. In the latter event the document shall be served in accordance with the order or direction of the appeals board. The appeals board may, in the cases mentioned in the Code of Civil Procedure, order service to be made by publication of notice of time and place of hearing. Where service is ordered to be made by publication the date of the hearing shall be fixed at more than 30 days from the date of filing the application.

6611. If the employer fails to appear, the appeals board may take action upon the employer's express admissions or upon other evidence, and affidavits may be used without any notice to the employer. Where the burden of proof is upon the employer to establish the appeals board action sought, the appeals board may act without taking evidence. Nothing in this section shall be construed to deprive the employer of the right to make any showing by way of mitigation.

6612. No informality in any proceeding or in the manner of taking testimony shall invalidate any order, decision, or finding made and filed as specified in this division. No order, decision, or finding shall be invalidated because of the admission into the record, and use as proof of any fact in dispute of any evidence not admissible under the common law or statutory rules of evidence and procedure.

6613. The appeals board, a hearing officer, or any party to the action or proceeding, may, in any investigation or hearing before the appeals board, cause the deposition of witnesses residing within or without the state to be taken in the manner prescribed by law for like depositions in civil actions in the superior courts of this state. To that end the attendance of witnesses and the production of records may be required. Depositions may be taken outside the state before any officer authorized to administer oaths. The appeals board or a hearing officer in any proceeding before the appeals board may cause evidence to be taken in other jurisdictions before the agency authorized.

6614. (a) Any person aggrieved directly or indirectly by any final order or decision, made and filed by the appeals board or a hearing officer under any provision contained in this division, may petition the appeals board for reconsideration in respect to any matters determined or covered by the final order or decision and specified in the petition for reconsideration. Such petition shall be made only within the time and in the manner specified in this chapter.

(b) At any time within 30 days after the filing of an order or decision made by a hearing officer and the accompanying report, the appeals board may, on its own motion, grant reconsideration.

6615. No cause of action arising out of any final order or decision made and filed by the appeals board or a hearing officer shall accrue in any court to any person until and unless the appeals board on its own motion sets aside such final order or decision and removes such proceeding to itself or such person files a petition for reconsideration, and such reconsideration is granted or denied. Nothing herein

contained shall prevent the enforcement of any such final order or decision, in the manner provided in this division.

6616. The petition for reconsideration shall set forth specifically and in full detail the grounds upon which the petitioner considers the final order or decision made and filed by the appeals board or a hearing officer to be unjust or unlawful, and every issue to be considered by the appeals board. The petition shall be verified upon oath in the manner required for verified pleadings in courts of record and shall contain a general statement of any evidence or other matters upon which the applicant relies in support thereof.

6617. At any time within 30 days after the service of any final order or decision made and filed by the appeals board or a hearing officer, any person aggrieved thereby may petition for reconsideration upon one or more of the following grounds and no other:

(a) That by such order or decision made and filed by the appeals board or hearing officer, the appeals board acted without or in excess of its powers.

(b) That the order or decision was procured by fraud.

(c) That the evidence does not justify the findings of fact.

(d) That the petitioner has discovered new evidence material to him, which he could not, with reasonable diligence, have discovered and produced at the hearing.

(e) That the findings of fact do not support the order or decision.

6618. The petitioner for reconsideration shall be deemed to have finally waived all objections, irregularities, and illegalities concerning the matter upon which the reconsideration is sought other than those set forth in the petition for reconsideration.

6619. A copy of the petition for reconsideration shall be served forthwith upon all parties by the person petitioning for reconsideration. Any party may file an answer thereto within 10 days thereafter. Such answer shall likewise be verified. The appeals board may require the petition for reconsideration to be served on other persons designated by it.

6620. Upon the filing of a petition for reconsideration, or having granted reconsideration upon its own motion, the appeals board may, with or without further proceedings and with or without notice affirm, rescind, alter, or amend the order or decision made and filed by the appeals board or hearing officer on the basis of the evidence previously submitted in the case, or may grant reconsideration and direct the taking of additional evidence. Notice of the time and place of any hearing on reconsideration shall be given to the petitioner and adverse parties and to such other persons as the appeals board orders.

6621. If at the time of granting reconsideration, it appears to the satisfaction of the appeals board that no sufficient reason exists for taking further testimony, the appeals board may affirm, rescind, alter or amend the order or decision made and filed by the appeals board or hearing officer and may, without further proceedings, without notice, and without setting a time and place for further hearing,

enter its findings, order or decision based upon the record in the case.

6622. After the taking of additional evidence and a consideration of all of the facts the appeals board may affirm, rescind, alter, or amend the original order or decision. An order or decision made following reconsideration which affirms, rescinds, alters, or amends the original order or decision shall be made by the appeals board but shall not affect any right or the enforcement of any right arising from or by virtue of the original order or decision unless so ordered by the appeals board.

6623. Any decision of the appeals board granting or denying a petition for reconsideration or affirming, rescinding, altering, or amending the original findings, order, or decision following reconsideration shall be made by the appeals board and not by a hearing officer and shall be in writing, signed by a majority of the appeals board members assigned thereto, and shall state the evidence relied upon and specify in detail the reasons for the decision.

6624. A petition for reconsideration is deemed to have been denied by the appeals board unless it is acted upon within 30 days from the date of filing. The appeals board may, upon good cause being shown therefor, extend the time within which it may act upon such petition for not exceeding 30 days.

6625. The filing of a petition for reconsideration shall suspend for a period of 10 days the order or decision affected, insofar as it applies to the parties to the petition, unless otherwise ordered by the appeals board. The appeals board upon the terms and conditions which it by order directs, may stay, suspend, or postpone the order or decision during the pendency of the reconsideration.

6626. Nothing contained in this chapter shall be construed to prevent the appeals board, on petition of an aggrieved party or on its own motion, from granting reconsideration of an original order or decision made and filed by the appeals board within the same time specified for reconsideration of an original order or decision.

6627. Any person affected by an order or decision of the appeals board may, within the time limit specified in this section, apply to the superior court of the county in which he resides, for a writ of mandate, for the purpose of inquiring into and determining the lawfulness of the original order or decision or of the order or decision following reconsideration. The application for writ of mandate must be made within 30 days after a petition for reconsideration is denied, or, if a petition is granted or reconsideration is had on the appeals board's own motion, within 30 days after the filing of the order or decision following reconsideration.

6628. The writ of mandate shall be made returnable at a time and place then or thereafter specified by court order and shall direct the appeals board to certify its record in the case to the court within the time therein specified. No new or additional evidence shall be introduced in such court, but the cause shall be heard on the record

of the appeals board, as certified to by it.

6629. The review by the court shall not be extended further than to determine, based upon the entire record which shall be certified by the appeals board, whether:

(a) The appeals board acted without or in excess of its powers.

(b) The order or decision was procured by fraud.

(c) The order or decision was unreasonable.

(d) The order or decision was not supported by substantial evidence.

(e) If findings of fact are made, such findings of fact support the order or decision under review.

Nothing in this section shall permit the court to hold a trial de novo, to take evidence, or to exercise its independent judgment on the evidence.

6630. The findings and conclusions of the appeals board on questions of fact are conclusive and final and are not subject to review. Such questions of fact shall include ultimate facts and the findings and conclusions of the appeals board. The appeals board and each party to the action or proceeding before the appeals board shall have the right to appear in the review proceeding. Upon the hearing, the court shall enter judgment either affirming or annulling the order or decision, or the court may remand the case for further proceedings before the appeals board.

6631. The provisions of the Code of Civil Procedure relating to writs of mandate shall, so far as applicable, apply to proceedings in the courts under the provisions of this part. A copy of every pleading filed pursuant to the terms of this part shall be served on the appeals board and upon every party who entered an appearance in the action before the appeals board and whose interest therein is adverse to the party filing such pleading.

6632. No court of this state, except the Supreme Court, the courts of appeal, and the superior court to the extent herein specified, has jurisdiction to review, reverse, correct, or annul any order or rule, or decision of the appeals board, or to suspend or delay the operation or execution thereof, or to restrain, enjoin, or interfere with the appeals board in the performance of its duties

6633. The filing of a petition for, or the pendency of, a writ of review shall not of itself stay or suspend the operation of any order, rule or decision of the appeals board, but the court before which the petition is filed may stay or suspend, in whole or in part, the operation of the order or decision of the appeals board subject to review, upon the terms and conditions which it by order directs.

SEC. 102. Chapter 8 (commencing with Section 6650) is added to Part 1 of Division 5 of the Labor Code, to read:

CHAPTER 8. CIVIL JUDGMENTS

6650. The director or any party affected thereby may file a certified copy of a decision of the appeals board or a notice of civil

penalty which has become final with the clerk of the superior court of any county. Judgment shall be entered immediately by the clerk in conformity therewith.

6651. The certified copy of the decision of the appeals board or notice of civil penalty and a copy of the judgment constitute the judgment-roll. The pleadings, all orders of the appeals board, and all other papers and documents filed in the cause shall remain on file in the office of the appeals board.

6652. The appeals board may stay the execution of any judgment entered upon a decision or notice of civil penalty upon good cause appearing therefor and may impose the terms and conditions of the stay of execution. A certified copy of such order shall be filed with the clerk entering judgment. Where it is desirable to stay the enforcement of a decision or notice and a certified copy thereof has not been issued, the appeals board may order the certified copy to be withheld with the same force and under the same conditions as it might issue a stay of execution if the certified copy had been issued and judgment entered thereon.

6653. When a judgment is satisfied in fact, otherwise than upon an execution, the appeals board may, upon motion of either party or of its own motion, order the entry of satisfaction of the judgment. The clerk shall enter satisfaction of judgment only upon the filing of a certified copy of such order.

6654. No fees shall be charged by the clerk of any court for the performance of any official service required by this chapter, except for the docketing of decisions as judgments and for certified copies of transcripts thereof.

SEC. 103. Chapter 9 (commencing with Section 6700) is added to Part 1 of Division 5 of the Labor Code, to read:

CHAPTER 9. MISCELLANEOUS SAFETY PROVISIONS

6700. (a) Any employer who causes or allows the use of any flammable or combustible material for the installation acceptance pressure test of any gas houseline or piping shall be conclusively presumed to be maintaining an unsafe place of employment.

(b) Any employer who causes or allows gas pipelines to be tested with gas at pressures in excess of that permitted by applicable sections of the American Society of Mechanical Engineers Code for Pressure Piping shall be conclusively presumed to be maintaining an unsafe place of employment.

6701. It shall be the duty of the standards board to determine by the maximum allowable standards of emissions of contaminants from portable and from mobile internal combustion engines used inside factories, manufacturing plants, warehouses, buildings and other enclosed structures, which standards are compatible with the safety and health of employees.

6702. All portable and all mobile internal combustion engines that are used inside factories, manufacturing plants, warehouses,

buildings and other enclosed structures shall be equipped with a certified exhaust purifier device after the certification of such a device by the State Air Resources Board.

The Division of Industrial Safety shall be responsible for the enforcement of the provisions of this section.

6703. Sections 6702 and 6703 shall apply to all portable and all mobile internal combustion engines used inside factories, manufacturing plants, warehouses, buildings and other enclosed structures unless the operation of such an engine used inside a particular factory, plant, warehouse, building or enclosed structure does not result in harmful exposure to concentrations of dangerous gases or fumes in excess of maximum acceptable concentrations as determined by the standards board.

6704. All crawler and wheel cranes with cable-controlled booms and with rated lifting capacity of more than 10 tons sold or operated in this state shall be equipped with boomstops that meet standards that shall be established therefor by the standards board.

6705. No contract for public works involving an estimated expenditure in excess of twenty-five thousand dollars ($25,000), for the excavation of any trench or trenches five feet or more in depth, shall be awarded unless it contains a clause requiring submission by the contractor and acceptance by the awarding body or by a registered civil or structural engineer, employed by the awarding body, to whom authority to accept has been delegated, in advance of excavation, of a detailed plan showing the design of shoring, bracing, sloping, or other provisions to be made for worker protection from the hazard of caving ground during the excavation of such trench or trenches. If such plan varies from the shoring system standards, the plan shall be prepared by a registered civil or structural engineer.

Nothing in this section shall be deemed to allow the use of a shoring, sloping, or protective system less effective than that required by the Construction Safety Orders.

Nothing in this section shall be construed to impose tort liability on the awarding body or any of its employees.

The terms "public works" and "awarding body", as used in this section, shall have the same meaning as in Sections 1720 and 1722, respectively, of the Labor Code.

6706. For the purposes of subdivision (a) of Section 6500, only one permit shall be required for a project involving several trenches or excavations. The provisions of Section 6500 shall not apply to the construction of trenches or excavations for the purpose of performing emergency repair work to underground facilities, or the construction of swimming pools, or the construction of "graves" as defined in Section 7014 of the Health and Safety Code or to the construction or final use of excavations or trenches where the construction or final use does not require a person to descend into the excavations or trenches.

6707. Whenever the state, a county, city and county, or city issues

a call for bids for the construction of a pipeline, sewer, sewage disposal system, boring and jacking pits, or similar trenches or open excavations, which are five feet or deeper, such call shall specify that each bid submitted in response thereto shall contain, as a bid item, adequate sheeting, shoring, and bracing, or equivalent method, for the protection of life or limb, which shall conform to applicable safety orders. Nothing in this section shall be construed to impose tort liability on the body awarding the contract or any of its employees. This section shall not apply to contracts awarded pursuant to the provisions of Chapter 3 (commencing with Section 14250) of Part 5 of Division 3 of Title 2 of the Government Code.

6708. Every contractor on a construction project, including but not limited to any public works, shall maintain adequate emergency first aid treatment for his employees. As used in this section, "adequate" shall be construed to mean sufficient to comply with the Federal Occupational Safety and Health Act of 1970 (P.L. 91-596).

SEC. 103.5. The Director of the Department of Industrial Relations shall prepare and submit to the Legislature by January 1, 1975, a study on the feasibility of a statewide publication which would meet the legal requirements for publication of notices, appeals, announcement of hearings and proposed rules or regulations of the department.

SEC. 104. If the Secretary of Labor issues a formal ruling that any provision of this act cannot be given effect without causing the state's plan to be out of conformity with federal requirements, that provision shall become inoperative to the extent it is out of conformity with federal requirements.

In the event that such a ruling is issued the Agriculture and Services Agency shall immediately inform the appropriate policy committees of the Legislature in writing.

SEC. 105. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions of applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 106. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because the cost of implementing this act is minimal on a statewide basis in relation to the effect on local tax rates.

SEC. 107. This act is an urgency statute necessary for the immediate preservation of the public peace, health or property within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The purpose of this act is to allow the State of California to assume responsibility for development and enforcement of occupational safety and health standards under a state plan pursuant to Section 18

of the Federal Occupational Safety and Health Act of 1970 (Public Law 91-596) which was enacted December 29, 1970. Until the provisions of this act become effective, the Division of Industrial Safety will not have the authority and other statutory provisions to conduct an occupational safety and health program as effective as that of the United States Department of Labor. Employers will continue to be subject to inspection by the federal officials and the authority of the California Division of Industrial Safety will be subject to question until California has an occupational safety and health program as effective as the federal program.

CHAPTER 994

An act to add Chapter 14 (commencing with Section 13985) to Division 7 of the Water Code, relating to providing for the preparation, issuance and sale of state bonds to create a fund to provide aid to public agencies in the planning, design and construction of facilities for the control and prevention of water pollution; defining the powers and duties of state officers in respect to the administration of the provisions hereof; providing ways and means for the payment of the interest of such bonds as such interest falls due, and also for the payment and discharge of the principal of such bonds as such principal matures; appropriating money for the purpose of carrying out this chapter; and providing for the submission of the measure to the people at a special election to be consolidated with the 1974 direct primary election.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 14 (commencing with Section 13985) is added to Division 7 of the Water Code, to read:

CHAPTER 14. CLEAN WATER BOND LAW OF 1974

Article 1. Short Title, Legislative Declarations, and General Definitions

13985. This chapter may be cited as the Clean Water Bond Law of 1974.

13986. The Legislature hereby finds and declares that clean water, which fosters the health of the people, the beauty of their environment, the expansion of industry and agriculture, the enhancement of fish and wildlife, the improvement of recreational facilities and the provision of pure drinking water at a reasonable cost, is an essential public need. Although the State of California is

0161 385590 193

endowed with abundant lakes and ponds, streams and rivers, and hundreds of miles of shoreline, as well as large quantities of underground water, these vast water resources are threatened by pollution, which, if not checked, will impede the state's economic, community and social growth. The chief cause of pollution is the discharge of inadequately treated waste into the waters of the state. Many public agencies have not met the demands for adequate waste treatment or the control of water pollution because of inadequate financial resources and other responsibilities. Increasing population accompanied by accelerating urbanization, growing demands for water of high quality, rising costs of construction and technological changes mean that unless the state acts now the needs may soar beyond the means available for public finance. Meeting these needs is a proper purpose of the federal, state and local governments. Local agencies, by reason of their closeness to the problem, should continue to have primary responsibility for construction, operation and maintenance of the facilities necessary to cleanse our waters. Since water pollution knows no political boundaries and since the cost of eliminating the existing backlog of needed facilities and of providing additional facilities for future needs will be beyond the ability of local agencies to pay, the state, to meet its responsibility to protect and promote the health, safety and welfare of the inhabitants of the state, should assist in the financing. The federal government is contributing to the cost of control of water pollution, and just provision should be made to cooperate with the United States of America. It is the intent of this chapter to provide necessary funds to insure the full participation by the state under the provisions of Title 11 of the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) and acts amendatory thereof or supplementary thereto.

13987. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter except that notwithstanding anything in the State General Obligation Bond Law, the bonds authorized hereunder shall bear such rates of interest, or maximum rates, as may from time to time be fixed by the State Treasurer, with the approval of the committee, and the maximum maturity of the bonds shall not exceed 50 years from the date of the bonds, or from the date of each respective series. The maturity of each respective series shall be calculated from the date of such series.

13988. As used in this chapter, and for the purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the Clean Water Finance Committee, created by Section 13989.

(b) "Board" means the State Water Resources Control Board.

(c) "Fund" means the State Clean Water Fund.

(d) "Municipality" shall have the same meaning as in the Federal

Water Pollution Control Act (33 U.S.C. 1251 et seq.) and acts amendatory thereof or supplementary thereto and shall also include the state or any agency or department thereof.

(e) "Treatment works" shall have the same meaning as in the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) and acts amendatory thereof or supplementary thereto.

(f) "Construction" shall have the same meaning as in the Federal Water Pollution Control Act (33 U.S.C. 1251 et seq.) and acts amendatory thereof or supplementary thereto.

(g) "Eligible project" means a project for the construction of treatment works which is all of the following:

(1) Eligible for federal assistance, whether or not federal funds are then available therefor;

(2) Necessary to prevent water pollution;

(3) Certified by the board as entitled to priority over other treatment works, and which complies with applicable water quality standards, policies and plans.

(h) "Federal assistance" means funds available to a municipality either directly or through allocation by the state, from the federal government as grants for construction of treatment works, pursuant to Title II of the Federal Water Pollution Control Act, and acts amendatory thereof.

13989. The Clean Water Finance Committee is hereby created. The committee shall consist of the Governor or his designated representative, the State Controller, the State Treasurer, the Director of Finance, and the chairman of the board. The executive officer of the board shall serve as a member of the committee in the absence of the chairman. Said committee shall be the "committee" as that term is used in the State General Obligation Bond Law.

13990. The committee is hereby authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the aggregate amount of two hundred fifty million dollars ($250,000,000), in the manner provided in this chapter. Such debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the object and work specified in Section 13991.

13991. (a) The moneys in the fund shall be used for the purposes set forth in this section.

(b) The board is authorized to enter into contracts with municipalities having authority to construct, operate and maintain treatment works, for grants to such municipalities to aid in the construction of eligible projects, and for reclamation of water.

Grants may be made pursuant to this section to reimburse municipalities for construction for which contracts were let subsequent to July 1, 1970, and before the first sale of bonds authorized to be issued by this chapter.

Any contract pursuant to this section may include such provisions as may be agreed upon by the parties thereto, and any such contract concerning an eligible project shall include, in substance, the

following provisions:

(1) An estimate of the reasonable cost of the eligible project;

(2) An agreement by the board to pay to the municipality, during the progress of construction or following completion of construction as may be agreed upon by the parties, an amount which equals at least 12½ percent of the eligible project cost determined pursuant to federal and state laws, and regulations;

(3) An agreement by the municipality, (i) to proceed expeditiously with, and complete, the eligible project, (ii) to commence operation of the treatment works on completion thereof, and to properly operate and maintain such works in accordance with applicable provisions of law, (iii) to apply for and make reasonable efforts to secure federal assistance for the eligible project, (iv) to secure the approval of the board before applying for federal assistance in order to maximize the amounts of such assistance received or to be received for all eligible projects in the state, and (v) to provide for payment of the municipality's share of the cost of the eligible project.

(c) The board may make direct grants to any municipality or by contract or otherwise undertake plans, surveys, research, development and studies necessary, convenient or desirable to the effectuation of the purposes and powers of the board pursuant to this division and to prepare recommendations with regard thereto, including the preparation of comprehensive statewide or areawide studies and reports on the collection, treatment and disposal of waste under a comprehensive cooperative plan.

The aggregate amount of moneys which may be advanced or granted to or committed to municipalities for the purpose of planning, research and development, whether by the board or under the direction of the board or in the form of direct grants to municipalities for such purpose, shall not exceed in the aggregate such amount as may be fixed from time to time by the committee.

(d) The board may from time to time with the approval of the committee transfer moneys in the fund to the State Water Quality Control Fund to be available for loans to public agencies pursuant to Chapter 6 (commencing with Section 13400) of this division.

(e) Not more than one-half of one percent of the moneys deposited in the fund may be expended by the board for costs incurred in administering the provisions of this chapter.

(f) As much of the moneys in the fund as is necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

(g) The board may adopt rules and regulations governing the making and enforcing of contracts pursuant to this section.

13992. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

0161 385635 202

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of said revenue, to do and perform each and every act which shall be necessary to collect said additional sum.

All money deposited in the fund which has been derived from premium and accrued interest on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

All money deposited in the fund pursuant to any provision of law requiring repayments to the state for assistance financed by the proceeds of the bonds authorized by this chapter shall be available for transfer to the General Fund. When transferred to the General Fund such money shall be applied as a reimbursement to the General Fund on account of principal and interest on the bonds which has been paid from the General Fund.

13994. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this chapter, as said principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 13995, which sum is appropriated without regard to fiscal years.

Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the board in accordance with this chapter. Any moneys made available under this section to the board shall be returned by the board to the General Fund from moneys received from the sale of bonds sold for the purpose of carrying out this chapter.

13996. Upon request of the board, supported by a statement of the proposed arrangements to be made pursuant to Section 13991 for the purposes therein stated, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such arrangements, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to make such arrangements progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

13997. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times

as may be fixed by the State Treasurer.

13998. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 13991 but shall not be available for transfer to the General Fund to pay principal and interest on bonds. The money in the fund may be expended only as herein provided.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the people of the Clean Water Bond Law of 1974, as set forth in Section 1 of this act. Sections 2 to 9, inclusive, of this act provide for the calling of an election and contain provisions relating to and necessary for the submission of the Clean Water Bond Law of 1974 to the people, and for returning, canvassing, and proclaiming the votes thereon, and shall take effect immediately.

SEC. 3. A special election is hereby called to be held throughout the state on the fourth day of June, 1974. The special election shall be consolidated with the direct primary election to be held on that date. Except as otherwise provided in this act, all of the provisions of law relating to the submission of measures proposed by the Legislature shall apply to the measure submitted pursuant to this act. A ballot pamphlet shall be prepared, compiled and distributed relating to the Clean Water Bond Law of 1974, set forth in Section 1 of this act. The Secretary of State shall distribute the ballot pamphlets to the county clerks not later than 45 days before the election, and the county clerks shall commence to mail those pamphlets to the voters not less than 15 days before the election. The distribution of ballot pamphlets in all respects shall be conducted in accordance with the provisions of Section 3573 of the Elections Code.

SEC. 4. At the special election called by this act there shall be submitted to the electors Section 1 of this act. All provisions of this act shall control the submission of Section 1 of this act to, and the holding of, the special election called by this act.

SEC. 9. Upon the effective date of this section the Secretary of State shall request the Legislative Counsel to prepare an analysis of the measure in accordance with Section 3566 of the Elections Code, and the Legislative Analyst to prepare an analysis in accordance with Section 3566.3 of the Elections Code. CHAPTER 995

An act to add Chapter 5 (commencing with Section 8450) to Part 2 of Division 5 of the Water Code, relating to maintenance of vegetative cover for wildlife, recreational, and scenic purposes on levees, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 8450) is added to Part 2 of Division 5 of the Water Code, to read:

CHAPTER 5. MAINTENANCE COSTS OF VEGETATION ON LEVEES

8450. The Legislature finds and declares as follows:

(a) Although the levees of flood control projects in this state have in the past been considered to be single-purpose, flood control features, many of these projects receive heavy nonlocal usage for recreation, transportation, and other purposes for which the retention and maintenance of vegetative cover is desirable.

(b) Construction and maintenance practices have been developed over the past several decades which were designed to minimize costs while still furnishing the required degree of flood control. These practices in many instances resulted in "bare" levees, devoid of any vegetative cover which might interfere with local maintenance, levee inspection, or flood fighting.

(c) Flood control project levees are increasingly recognized as valuable wildlife, recreational, scenic, and aesthetic resources, and construction and maintenance standards have been developed by the Army Corps of Engineers and the State of California which minimize vegetation removal and which encourage or require, as a condition of the project work, replanting and controlled vegetation maintenance on such levees as part of the responsibility of local flood control districts.

(d) Costs of maintaining vegetation on levees for such non-flood-control purposes as wildlife enhancement, recreation, and scenic beauty are approximately double those of normal flood-control-related maintenance, and nonlocal users are the prime beneficiaries. It is therefore appropriate that the general public participate in meeting such additional maintenance costs.

8451. It is the intent of the Legislature, in providing for state participation in the additional costs attributable to the non-flood-control activities described in this chapter, that the Reclamation Board and the Department of Water Resources, in preparing rules and regulations to implement this chapter, provide that, in processing applications from flood control districts for state participation in such costs, highest priority be given to those districts

in which factors, such as the size of the district, degree of nonlocal benefits, and level of non-flood-control maintenance costs which have been transferred to the district due to circumstances beyond their control, combine to work financial hardship on such districts.

8452. Wherever the words "department or the Reclamation Board" are used together in this chapter, they shall mean the Reclamation Board as to any flood control project levees under its jurisdiction and the Department of Water Resources as to all other flood control project levees.

8453. Notwithstanding any other provision of law to the contrary, it is the intention of the Legislature that the state shall pay 50 percent of the costs associated with the operation and maintenance of project facilities under the State Water Resources Law of 1945 which are directly attributable to the planting or retention of controlled vegetative cover for wildlife, recreational, scenic, and aesthetic purposes on project levees.

8454. Local agencies maintaining project facilities under the State Water Resources Law of 1945 shall be eligible for reimbursement pursuant to the provisions of this chapter if the cost of maintenance is increased by the planting or retention of vegetative cover on such levees, if the local agency agrees to maintain such vegetative cover on project levees as may be determined by the department or Reclamation Board, after consultation with any other affected state agencies, to be necessary for wildlife habitat, recreational, aesthetic, and scenic purposes.

8455. Local agencies entering into agreements with the state shall annually prepare a work program and estimate of cost for conducting any maintenance activities necessary to carry out the project maintenance and the purposes of this chapter and shall submit the proposed program and cost estimates to the department or the Reclamation Board for review. The department or the Reclamation Board shall review the proposed program and, after receiving the comments of any other affected state agencies, the department or the Reclamation Board shall certify for reimbursement 50 percent of those costs which are found to be attributable to the maintenance of vegetative cover for wildlife, recreational, aesthetic, and scenic purposes, and may allocate funds appropriated for these purposes to local agencies which have entered into agreements with the state pursuant to this chapter.

8456. Administrative costs incurred by the department or the Reclamation Board under this chapter in any fiscal year shall not exceed 10 percent of the annual cost of the program established by this chapter.

8457. State expenditures for the purposes of this chapter shall not exceed the amount of two hundred thousand dollars ($200,000) per year.

SEC. 2. For the 1973–74 fiscal year and for each fiscal year thereafter, the sum of two hundred thousand dollars ($200,000) is hereby annually appropriated from revenues derived pursuant to

Section 8679 of the Water Code to the Secretary of the Resources Agency for allocation to the Department of Water Resources and the Reclamation Board for the purposes of Chapter 5 (commencing with Section 8450) of Part 2 of Division 5 of the Water Code.

CHAPTER 996

An act to amend Sections 320, 3000, 3050, 3051, 9262, 9550, 9552, 11700, 11701, 11702, 11703, 11703.1, 11704, 11705, 11706, 11708, 11719, 11723, and 11724 of, to amend and renumber Section 11900 of, to add Sections 232, 296, 297, 331, 331.1, 331.2, 350, 388, 389, 507, 512, 11713.1, 11713.2, 11726, and 11727 to, and to add Article 4 (commencing with Section 3060) to Chapter 6 of Division 2 and Article 3 (commencing with Section 11900) to Chapter 4 of Division 5 of, the Vehicle Code, relating to vehicles, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

(ii) Misrepresentation by the franchisee in applying for the franchise.

(iii) Insolvency of the franchisee, or filing of any petition by or against the franchisee under any bankruptcy or receivership law.

(iv) Any unfair business practice after written warning thereof.

(b) The board finds that there is good cause for termination or refusal to continue, following a hearing called pursuant to Section 3066. The franchisee may file a protest with the board within 30 days after receiving a 60-day notice, or within 10 days after receiving a 15-day notice. When such a protest is filed, the board shall advise the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor may not terminate or refuse to continue until the board makes its findings.

(c) The franchisor has received the written consent of the franchisee, or the appropriate period for filing a protest has elapsed.

The franchisor shall not modify or replace a franchise with a succeeding franchise if such modification or replacement would substantially affect the franchisee's sales or service obligations or investment, unless the franchisor shall have first given the board and each affected dealer notice thereof at least 60 days in advance of such modification or replacement. Within 30 days of receipt of such notice, a dealer may file an appeal with the board and such modification or replacement shall not become effective until there is a finding by the board that there is good cause for such modification or replacement. If, however, a replacement franchise is the successor franchise to an expiring or expired term franchise, such prior franchise shall continue in effect until resolution of the appeal by the board. In the event of multiple appeals, hearings shall be consolidated to expedite the disposition of the issue.

3061. In determining whether good cause has been established for modifying, replacing, terminating, or refusing to continue a franchise, the board shall take into consideration the existing circumstances, including, but not limited to:

(1) Amount of business transacted by the franchisee, as compared to the business available to the franchisee.

(2) Investment necessarily made and obligations incurred by the franchisee to perform its part of the franchise.

(3) Permanency of the investment.

(4) Whether it is injurious or beneficial to the public welfare for the franchise to be modified or replaced or the business of the franchisee disrupted.

(5) Whether the franchisee has adequate motor vehicle sales and service facilities, equipment, vehicle parts, and qualified service personnel to reasonably provide for the needs of the consumers for the motor vehicles handled by the franchisee and has been and is rendering adequate services to the public.

(6) Whether the franchisee fails to fulfill the warranty obligations of the franchisor to be performed by the franchisee.

(7) Extent of franchisee's failure to comply with the terms of the franchise.

3062. In the event that a franchisor seeks to enter into a franchise establishing an additional motor vehicle dealership or relocating an existing motor vehicle dealership in a relevant market area where the same line-make is then represented, the franchisor shall notify in writing each franchisee in such line-make in the relevant market area of intention to establish or relocate an additional dealership in that market area. Within 15 days of receiving such notice or within 15 days after the end of any appeal procedure provided by the franchisor, any dealer receiving such notice may file with the board a protest to the establishing or relocating of the proposed additional dealership. If a notice of protest is filed, the franchisor shall not establish or relocate the proposed dealership until the board has held a hearing as provided for in Section 3066, nor thereafter if the board has determined that there is good cause for not permitting such additional dealership.

3063. In determining whether good cause has been established for not entering into or relocating an additional franchise for the same line-make, the board shall take into consideration the existing circumstances, including, but not limited to:

(1) Permanency of the investment.

(2) Effect on the retail motor vehicle business and the consuming public in the relevant market area.

(3) Whether it is injurious to the public welfare for an additional franchise to be established.

(4) Whether the franchisees of the same line-make in that relevant market area are providing adequate competition and convenient consumer care for the motor vehicles of the line-make in the market area which shall include the adequacy of motor vehicle sales and service facilities, equipment, supply of vehicle parts, and qualified service personnel.

(5) Whether the establishment of an additional franchise would increase competition and therefore be in the public interest.

3064. (a) Every franchisor shall specify to its franchisees the delivery and preparation obligations of such franchisees prior to delivery of new motor vehicles to retail buyers. A copy of the delivery and preparation obligations, which shall constitute the franchisee's only responsibility for product liability between the franchisee and the franchisor but which shall not in any way affect the franchisee's responsibility for product liability between the purchaser and either the franchisee or the franchisor, and a schedule

of compensation to be paid franchisees for the work and services they shall be required to perform in connection with such delivery and preparation obligations shall be filed with the board by franchisors, and shall constitute the compensation as set forth on such schedule. The schedule of compensation shall be reasonable, with the reasonableness thereof being subject to the approval of the board, providing a franchisee files a notice of protest with the board. In determining the reasonableness of the schedules, the board shall consider all relevant circumstances, including, but not limited to, the time required to perform each function that the dealer is obligated to perform and the appropriate labor rate.

(b) Upon delivery of the vehicle, the franchisee shall give a copy of the delivery and preparation obligations to the purchaser and a written certification that he has fulfilled these obligations.

3065. (a) Every franchisor shall properly fulfill every warranty agreement made by it and adequately and fairly compensate each of its franchisees for labor and parts used to fulfill such warranty when the franchisee has fulfilled warranty obligations of repair and servicing and shall file a copy of its warranty reimbursement schedule or formula with the board. The warranty reimbursement schedule or formula shall be reasonable with respect to the time and compensation allowed the franchisee for the warranty work and all other conditions of such obligation. The reasonableness thereof shall be subject to the determination of the board; provided that a franchisee files a notice of protest with the board.

(b) In determining the adequacy and fairness of such compensation, the franchisee's effective labor rate charged to its various retail customers may be considered together with other relevant criteria.

(c) If any franchisor disallows a franchisee's claim for a defective part, alleging that such part, in fact, is not defective, the franchisor shall return such part so alleged not to be defective to the franchisee at the expense of the franchisor, or the franchisee shall be reimbursed for the franchisee's cost of the part, at the franchisor's option.

(d) All such claims made by franchisees hereinunder shall be either approved or disapproved within 30 days after their receipt by the franchisor. When any such claim is disapproved, the franchisee who submits it shall be notified in writing of its disapproval within such period, and each notice shall state the specific grounds upon which the disapproval is based. All claims made by franchisees under this section and Section 3064 for such labor and parts shall be paid within 30 days following approval. Failure to approve or pay within the above specified time limits, in individual instances for reasons beyond the reasonable control of the franchisor, shall not constitute a violation of this article.

3066. (a) Upon receiving a notice of protest pursuant to Section 3060, 3062, 3064, or 3065, the board shall fix a time, which shall be within 60 days of such order, and place of hearing and send by

registered mail a copy of the order to the franchisor, the protesting franchisee, and all individuals and groups which have requested notification by the board of protests and decisions of the board. The board shall hear and consider the oral and documented evidence introduced by the parties and other interested individuals and groups and shall make its decision solely on the record so made. Government Code Sections 11507.6, 11507 7, except subdivision (c), 11511, 11513, 11514, and 11515 shall be applicable to such proceedings.

(b) In any hearing on a protest filed pursuant to Section 3060 or 3062, the franchisor shall have the burden of proof to establish that there is good cause to modify, replace, terminate, or refuse to continue a franchise. The franchisee shall have the burden of proof to establish there is good cause not to enter into a franchise establishing or relocating an additional motor vehicles dealership.

(c) In any hearing on a protest filed pursuant to Section 3064 or 3065, the franchisee shall have the burden to establish that the schedule of compensation or the warranty reimbursement schedule is not reasonable.

3067. The decision of the board shall be in writing and shall contain findings of fact and a determination of the issues presented. If the board fails to act within 30 days after such hearing, or such longer period as may be mutually agreed upon by the parties, then the proposed action shall be deemed to be approved. Copies of the decision shall be delivered to the parties personally or sent to them by registered mail, as well as to all individuals and groups, which have requested notification by the board of protests and decisions by the board. The decision shall be final upon its delivery or mailing and no reconsideration or rehearing shall be permitted.

3068. Either party may seek judicial review of final decisions of the board. Time for filing for such review shall not be more than 45 days from the date on which the final order of the board is made public and is delivered to the parties personally or is sent them by registered mail, as well as to all individuals and groups which have requested notification by the board of protests and decisions of the board.

3069. The provisions of this article shall be applicable to all franchises existing between dealers and manufacturers, manufacturer branches, distributors and distributor branches at the time of its enactment and to all such future franchises.

(a) To order or accept delivery of any motor vehicle, part or

accessory thereof, appliance, equipment or any other commodity not required by law which shall not have been voluntarily ordered by the dealer.

(b) To order or accept delivery of any motor vehicle with special features, appliances, accessories or equipment not included in the list price of such motor vehicles as publicly advertised by the manufacturer or distributor.

(c) To order for any person any parts, accessories, equipment, machinery, tools, appliances, or any commodity whatsoever.

(d) To participate in an advertising campaign or contest, any promotional campaign, promotional materials, training materials, showroom or other display decorations or materials at the expense of the dealer.

(e) To enter into any agreement with the manufacturer, manufacturer branch, distributor, or distributor branch, or to do any other act prejudicial to the dealer by threatening to cancel a franchise or any contractual agreement existing between the dealer and manufacturer, manufacturer branch, distributor, or distributor branch. Notice in good faith to any dealer of the dealer's violation of any terms or provisions of such franchise or contractual agreement shall not constitute a violation of this article.

SEC. 30. Section 11713.2 is added to the Vehicle Code, to read:

11713.2. It shall be unlawful and a violation of this code for any manufacturer, manufacturer branch, distributor, or distributor branch licensed under this code:

(a) To refuse or fail to deliver in reasonable quantities and within a reasonable time after receipt of an order from a dealer having a franchise for the retail sale of any new vehicle sold or distributed by the manufacturer or distributor, any new vehicle or parts or accessories to new vehicles as are covered by such franchise, if such vehicle, parts or accessories are publicly advertised as being available for delivery or actually being delivered. This subdivision is not violated, however, if such failure is caused by acts or causes beyond the control of the manufacturer, manufacturer branch, distributor, or distributor branch.

(b) To prevent or require or attempt to prevent or require, by contract or otherwise any change in the capital structure of a dealership or the means by or through which the dealer finances the operation of the dealership, provided that the dealer at all times meets any reasonable capital standards agreed to by the dealer and the manufacturer or distributor, and also provided that no change in capital structure shall cause a change in the principal management or have the effect of a sale of the franchise without the consent of the manufacturer or distributor.

(c) To prevent or require, or attempt to prevent or require, a dealer to change the executive management of a dealership, other than the principal dealership operator or operators if the franchise was granted the dealer in reliance upon the personal qualifications of such person or persons.

(d) To prevent or require, or attempt to prevent or require, by contract or otherwise, any dealer, or any officer, partner, or stockholder of any dealership, the sale or transfer of any part of the interest of any of them to any other person or persons. No dealer, officer, partner, or stockholder shall, however, have the right to sell, transfer, or assign the franchise, or any right thereunder, without the consent of the manufacturer or distributor except that such consent shall not be unreasonably withheld.

(e) To prevent, or attempt to prevent a dealer from receiving fair and reasonable compensation for the value of the franchised business. There shall be no transfer or assignment of the dealer's franchise without the consent of the manufacturer or distributor, which consent shall not be unreasonably withheld.

(f) To obtain money, goods, service, or any other benefit from any other person with whom the dealer does business, on account of, or in relation to, the transaction between the dealer and such other person, other than for compensation for services rendered, unless such benefit is promptly accounted for, and transmitted to, the dealer.

(g) To require a dealer to prospectively assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability to be imposed by this article or to require any controversy between a dealer and a manufacturer, distributor, or representative, to be referred to any person other than the board, if such referral would be binding on the dealer. This subdivision shall not, however, prohibit arbitration before an independent arbitrator.

(h) To increase prices of motor vehicles which the dealer had ordered for private retail consumers prior to the dealer's receipt of the written official price increase notification. A sales contract signed by a private retail consumer shall constitute evidence of each such order. In the event of manufacturer price reductions, the amount of any such reduction received by a dealer shall be passed on to the private retail consumer by the dealer if the retail price was negotiated on the basis of the previous higher price to the dealer. Price reductions shall apply to all vehicles in the dealer's inventory which were subject to the price reduction. Price differences applicable to new model or series motor vehicles at the time of the introduction of new models or series shall not be considered a price increase or price decrease. Price changes caused by either (1) the addition to a motor vehicle of required or optional equipment pursuant to state or federal law, or (2) revaluation of the United States dollar in the case of foreign-make vehicles, shall not be subject to the provisions of this subdivision.

(i) To fail to pay to a dealer, within a reasonable time following receipt of a valid claim by a dealer thereof, any payment agreed to be made by the manufacturer or distributor to the dealer by reason of the fact that a new vehicle of a prior year model is in such dealer's inventory at the time of introduction of new model vehicles. A manufacturer or distributor shall not authorize or enable any new

model or series passenger vehicle or station wagon to be delivered by dealers at retail more than 30 days prior to the eligibility date of such model change allowance payment for prior year model vehicles.

(j) To deny the widow or heirs designated by a deceased owner of a dealership, the opportunity to participate in the ownership of such dealership or successor dealership under a valid franchise for a reasonable time after the death of such owner.

(k) To offer any refunds or other types of inducements to any person for the purchase of new motor vehicles of a certain line-make to be sold to the state or any political subdivision thereof without making the same offer to all other dealers in the same line-make within the relevant market area.

(*l*) To modify, replace, enter into, relocate, terminate or refuse to renew a franchise in violation of Article 4 (commencing with Section 3060) of Chapter 6 of Division 2.

(m) To employ a person as a representative who has not been licensed pursuant to Article 3 (commencing with Section 11900) of Chapter 4 of Division 5.

(n) To deny any dealer the right of free association with any other dealer for any lawful purpose.

(o) To compete with a dealer operating under an agreement or franchise from a manufacturer or distributor in the relevant market area. A manufacturer or distributor shall not, however, be deemed to be competing when operating a dealership either temporarily for a reasonable period, or in a bona fide retail operation which is for sale to any qualified independent person at a fair and reasonable price, or in a bona fide relationship in which an independent person has made a significant investment subject to loss in the dealership and can reasonably expect to acquire full ownership of such dealership on reasonable terms and conditions. A distributor shall not be deemed to be competing when a wholly owned subsidiary corporation of such distributor sells motor vehicles at retail, if, for at least three years prior to January 1, 1973, such subsidiary corporation has been a wholly owned subsidiary of such distributor and engaged in the sale of vehicles at retail.

(p) To unfairly discriminate among its franchisees with respect to warranty reimbursement or authority granted its franchisees to make warranty adjustments with retail customers.

(q) To sell vehicles to persons not licensed under this chapter for resale.

The temporary permit shall permit the operation by the manufacturer, manufacturer branch, distributor, distributor branch, transporter or

dealer for a period not to exceed 120 days while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant to such license and special plates. The department may cancel such temporary permit when it has determined or has reasonable cause to believe that the application is incorrect or incomplete or the temporary permit was issued in error. Such temporary permit shall be invalid when canceled or when the applicant's license has been issued or refused.

SEC. 32. Section 11723 of the Vehicle Code is amended to read:

11723. The board may require that fees shall be paid to the department for the issuance or renewal of a license to do business as a new car dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative. This section and Section 11724 shall not apply to manufacturers, distributors, or representatives of motorcycles or vehicles not subject to registration under this code.

SEC. 33. Section 11724 of the Vehicle Code is amended to read:

11724. Any new car dealer, manufacturer, manufacturer branch, distributor, distributor branch, or representative required to be licensed under this chapter who fails to make application for such license when required, shall, in addition to the fees required pursuant to Section 11723, pay a penalty of 50 percent of the license fee.

SEC. 34. Section 11726 is added to the Vehicle Code, to read:

11726. Any licensee suffering pecuniary loss because of any willful failure by any other licensee to comply with any provision of Article 1 (commencing with Section 11700) or 3 (commencing with Section 11900) of Chapter 4 of Division 5 or Article 3 (commencing with Section 3052) of Chapter 6 of Division 2 or with any regulation adopted by the department or any rule adopted or decision rendered by the board under authority vested in them may recover damages and reasonable attorney fees therefor in any court of competent jurisdiction. Any such licensee may also have appropriate injunctive relief in any such court.

SEC. 35. Section 11727 is added to the Vehicle Code, to read:

11727. The revocation or suspension of a license of a manufacturer, manufacturer branch, distributor, distributor branch, or representative may be limited to one or more municipalities or counties or any other defined area, or may be revoked or suspended in a defined area only as to certain aspects of its business, or as to a specified dealer or dealers.

SEC. 36. Article 3 (commencing with Section 11900) is added to Chapter 4 of Division 5 of the Vehicle Code, to read:

Article 3. Representatives

11900. It shall be unlawful for any person to act as a representative on or after January 1, 1975, without having first procured a license or temporary permit issued by the department or when such license or temporary permit has been canceled, suspended, revoked, or invalidated or has expired.

11901. The department shall prescribe and provide forms to be used for application for licenses to be issued under the terms and provisions of this chapter and require of such applicants, as a condition precedent to issuance of such license, such information touching on and concerning the applicant's character, honesty, integrity and reputation as it may consider necessary. Every application for a representative's license shall contain, in addition to such information as the department may require, a statement of the following facts:

(a) Name and address of the applicant.

(b) Whether the applicant has ever had a court judgment rendered for which he has been liable as a result of his activity in connection with an occupation licensed under this chapter and whether such judgment remains unpaid or unsatisfied.

(c) Whether the applicant ever had a license, issued under the authority of this chapter, revoked, suspended, or subjected to other disciplinary action and whether the applicant was ever a partner in a partnership or an officer, director, or stockholder in a corporation licensed under the authority of this chapter, the license of which was revoked, suspended, or subjected to other disciplinary action.

(d) Name, address, and license number of the manufacturer, manufacturer branch, distributor, or distributor branch employing the applicant.

11902. (a) The department shall issue a representative's license when satisfied that the applicant has furnished the required information, and that he intends in good faith to act as a representative and has paid the fees as required in Section 11906.

(b) The department may refuse to issue or may suspend or revoke a license, when satisfied that:

(1) The information contained in the application is incorrect.

(2) The applicant or licensee, based on the information contained in the application or by subsequent investigation, is not of good moral character.

The conviction of a crime, including a conviction after a plea of nolo contendere, involving moral turpitude shall be prima facie evidence that the applicant or licensee is not of good moral character.

(3) The applicant or licensee has outstanding an unpaid final court judgment rendered in connection with an activity licensed under the authority of this chapter.

(4) The applicant or licensee was previously the holder of or was a partner in a partnership or was an officer, director, or stockholder

involved in management of a corporation which was the holder of a license and certificate issued under this chapter, which license and certificate were revoked for cause and never reissued by the department or which license and certificate were suspended for cause and the terms of suspension have not been fulfilled.

(5) The applicant or licensee has committed any of those acts prohibited by Sections 11713.1 and 11713.2.

(c) Pending the satisfaction of the department that the applicant has met the requirements under this chapter, it may issue a temporary permit to any person applying for a representative's license. The temporary permit shall permit the operation by the representative for a period not to exceed 120 days while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant to such a license. Such temporary permit shall be invalid when the applicant's license has been issued or refused.

(d) The department may issue a probationary representative's license upon any ground or grounds contained in subdivision (b) of this section subject to conditions to be observed in the exercise of the privilege granted either upon application for issuance of a license or upon application for renewal of a license. The conditions to be attached to the exercise of the privilege shall not appear on the face of the license but shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

11903. (a) If the department suspends or revokes a representative's license, the licensee shall be entitled to an appropriate hearing. Such hearing shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) If the department issues or renews a representative's license requiring conditions of probation or if the department refuses to issue such license, the applicant shall be entitled to demand in writing a hearing as hereinabove provided before the director or his representative within 60 days after notice of refusal or issuance of the probationary license.

(c) A person whose application for a license has been denied may reapply for such license after a period of not less than one year has elapsed from the date of filing of such denial; provided, however, that if such denial was filed under the authority of paragraph (3) or (4) of subdivision (b) of Section 11902, an earlier reapplication may be made accompanied by evidence satisfactory to the department that such grounds no longer exist.

11904. Every representative's license issued hereunder shall expire at midnight on the 30th day of June of each year.

11905. Every application for the renewal of a representative's license which expires on the 30th day of June shall be made by the

person to whom issued between June 1st and midnight of June 30th preceding such expiration date and shall be made by presenting the application form provided by the department and by payment of the full annual renewal fee for such license.

11906. Fees for the original issuance of a representative's license and for the annual renewal of a representative's license shall be the same as the fees for the original issuance and for the annual renewal, respectively, of a manufacturer's, dealer's, and transporter's license, as provided in Section 9262.

11907. The representative's license, or any permit provided for in this chapter, shall be automatically canceled upon the failure of the licensee to file an application for renewal of the license or permit before July 1st following the expiration date of the current license or permit.

11908. The suspension, expiration, or cancellation of the representative's license provided for in this chapter shall not prevent the filing of an accusation for revocation or suspension of the suspended, expired, or canceled license as provided in Section 11903, and the department's decision that such license should be suspended or revoked. Such determination may be considered in granting or refusing to grant any subsequent license authorized by Division 5 (commencing with Section 11100) to such licensee.

SEC. 37. Section 11900 of the Vehicle Code is amended and renumbered to read:

12000. (a) Any person who sells and installs new parts in passenger cars, in the ordinary course of his business, shall provide the customer with an invoice which identifies by brand name, or other comparable designation, the part or parts installed.

(b) Any person who sells and installs used or factory rebuilt parts in passenger cars, in the ordinary course of his business, shall provide the customer with an invoice which specifically designates the used part or parts installed.

(c) This section shall not apply to any fitting or other device necessary to the installation of any new, used or factory rebuilt part subject to the provisions of this section.

(d) Any willful violation of this section shall be a misdemeanor.

SEC. 38. There are no state-mandated local costs in this act that require reimbursement under Section 2164.3 of the Revenue and Taxation Code.

SEC. 39. This act shall become operative on July 1, 1974.

CHAPTER 997

An act to add Section 1505.5 to the Public Utilities Code, and to amend Sections 31304 and 71810 of the Water Code, relating to water, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973. Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 1505.5 is added to the Public Utilities Code, to read:

1505.5. The provisions of Sections 1503 and 1504 will be applicable to any political subdivision which constructs facilities to provide or extend water service or provides or extends such service to any territory theretofore actually being lawfully served by any other political subdivision with facilities designed and constructed to provide the same type of service. The provisions of this section shall not apply to any territory, or portion thereof, which is the subject of any final judgment or litigation pending on the effective date of this section involving any duplication of water service occurring prior to the effective date of this section.

SEC. 2. Section 31304 of the Water Code is amended to read:

31304. The district may issue negotiable promissory notes bearing interest at a rate not exceeding 6 percent per annum; provided, however, that said notes shall be payable from revenues and general taxes of the district, unless paid from other available funds of the district, in the same manner as bonds of said district; and provided further, that the maturity shall not be later than five years from the date thereof and that the total aggregate amount of such notes outstanding at any one time shall not exceed 2 percent of the assessed valuation of the taxable property in the district or, if said assessed valuation is not obtainable, 2 percent of the county assessor's estimate of the assessed valuation of the taxable property in the district evidenced by his certificate; and provided further, that a district which has been formed for less than 18 months may borrow an amount not exceeding twenty-five thousand dollars ($25,000), or an amount not exceeding 2 percent of the assessed valuation or estimated valuation of the taxable property in the district, whichever is greater, and no district shall borrow for purposes other than flood control in excess of one million dollars ($1,000,000).

SEC. 3. Section 71810 of the Water Code is amended to read:

71810. A district may issue negotiable promissory notes pursuant to Sections 71811 and 71812. Such promissory notes shall bear interest at a rate not exceeding 7 percent per year. They shall be payable from revenues and taxes levied for purposes of the district other than the payment of principal and interest on any bonded debt of the district or of an improvement district therein.

SEC. 4. Section 31304 of the Water Code is amended to read:

31304. The district, or the district on behalf of an improvement district thereof, may issue negotiable promissory notes which shall be payable from general taxes, revenues, and other available funds of the district or the improvement district, as the case may be, in the same manner as general obligation bonds. The notes shall bear interest at a rate not exceeding 7 percent per annum and shall

mature and be payable not later than five years from the date of issue. The balance of such notes unpaid shall not at any one time exceed 2 percent of the assessed valuation of the taxable property in the district or the improvement district, as the case may be, or, if said assessed valuation is not obtainable, 2 percent of the county auditor's estimate of the assessed valuation of the taxable property in the district, or the improvement district, as evidenced by his certificate. No district shall borrow, pursuant to this section, for purposes other than flood control, in excess of one million dollars ($1,000,000); provided, however, that any district with an assessed valuation in excess of one hundred million dollars ($100,000,000) may borrow, pursuant to this section, for purposes other than flood control, an amount not exceeding 1 percent of the assessed valuation of all taxable property within the district. The balance of such notes unpaid at any time shall not result in a proportionate obligation on any parcel of land within the district in excess of 2 percent of the assessed valuation of that parcel.

SEC. 5. The Legislature hereby finds and declares that any new or increased costs incurred by local agencies pursuant to this act are incurred voluntarily by such agencies, and, therefore, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 6. It is the intent of the Legislature, if this bill and Assembly Bill No. 2437 are both chaptered and become effective on or before January 1, 1974, both bills amend Section 31304 of the Water Code, and this bill is chaptered after Assembly Bill No. 2437, that Section 31304 of the Water Code, as amended by Section 1 of Assembly Bill No. 2437, be further amended on the effective date of this act in the form set forth in Section 4 of this act to incorporate the changes in Section 31304 proposed by this bill. Therefore, if this bill and Assembly Bill No. 2437 are both chaptered and become effective on or before January 1, 1974, and Assembly Bill No. 2437 is chaptered before this bill and amends Section 31304, Section 4 of this act shall become operative on the effective date of this act and Section 2 of this act shall not become operative.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act will require any political subdivision that constructs facilities to provide or extend water service, or provides or extends such service, to territory actually being lawfully served by another political subdivision with facilities designed and constructed to provide the same type of service, to compensate such political subdivision to the extent it is injured because the property used in providing the water service is made inoperative, reduced in value or

made useless. It will also clarify the law with respect to the issuance of negotiable promissory notes by certain water districts. In order to insure that the protection afforded to the public health and safety by this act is available at the earliest possible time, it is necessary that this act go into immediate effect.

CHAPTER 998

The people of the State of California do enact as follows:

SECTION 1. Section 22859.7 is added to the Education Code, to read:

22859.7. SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that agricultural workers, their children, and certain wards of agriculture workers, who are unable to reside long enough in one place to establish a community college district residency and whose mobility is necessary to the economy of this state, may be afforded the opportunity to better themselves by attending community college at the earliest possible time, and, more particularly, prior to the commencement of the 1973–74 school term, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 1812.30) is added to Title 2 of Part 4 of the Civil Code, to read:

CHAPTER 2. CREDIT TRANSACTIONS REGARDING WOMEN

1812.30. (a) No married woman shall be denied credit in her own name if her uncommingled earnings or separate property are such that a man possessing the same amount of property or earnings would receive credit.

(b) No unmarried woman shall be denied credit if her property or earnings are such that a man possessing the same amount of property or earnings would receive credit.

(c) A credit reporting agency shall, upon the written request of a married person, identify within the report delivered by the agency both the credit history of each spouse and of their joint accounts, if such information is on file with the credit reporting agency.

(d) For the purposes of this section, "credit" means obtainance of money, property, labor, or services on a deferred-payment basis.

(e) Nothing in subdivisions (a) and (b) or any other provision in this chapter shall be construed to prohibit a person from utilizing any other relevant factors or methods in determining whether to extend credit to a woman.

1812.31. When any person willfully violates any provision of subdivision (a) or (b) of Section 1812.30, a woman who suffers any damage as a result of the willful violation may, on her own behalf and for her own benefit only, do any or both of the following:

(a) Bring an action to recover actual damages and five hundred dollars ($500) in addition thereto, for each and every willful violation.

(b) Petition the court to order the person violating any such subdivisions to extend credit upon such terms, conditions, and standards as he normally utilizes in granting credit to males.

SEC. 2. Section 5116 of the Civil Code is amended to read:

(c) The property of the community is liable for the contracts of either spouse which are made after marriage and on or after January 1, 1975.

SEC. 4. It is the intent of the Legislature, if this bill and Senate Bill No. 569 are both chaptered and amend Section 5116 of the Civil Code, and this bill is chaptered after Senate Bill No. 569, that Section 5116 of the Civil Code, as amended by Section 2 of this act, shall remain operative until the operative date of Senate Bill No. 569, and that on the operative date of Senate Bill No. 569 Section 5116 of the Civil Code, as amended by Section 2 of this act, be further amended in the form set forth in Section 3 of this act to incorporate the changes in Section 5116 proposed by Senate Bill No. 569. 1259. Notwithstanding any other provisions of this division, no work or employment shall be deemed suitable and benefits shall not be denied to any otherwise eligible and qualified individual for refusing new work under any of the following conditions:

(a) If the position offered is vacant due directly to a strike, lockout, or other labor dispute.

(b) If the wages, hours, or other conditions of the work offered are substantially less favorable to the individual than those prevailing for similar work in the locality.

(c) If, as a condition of being employed, the individual would be required to join a company union or to resign from or refrain from joining any bona fide labor organization.

(d) If the offer of employment is from an employer who does not possess an appropriate state license to engage in his business, trade, or profession if required by state law.

(e) If the offer of employment is from an employer who does not carry either workmen's compensation insurance or possess a certificate of self-insurance as required by Division 4 (commencing with Section 3201) of the Labor Code.

(f) If the offer of employment is from an employer who does not withhold or hold in trust the employee contributions required by Part 2 (commencing with Section 2601) of this division for unemployment compensation disability benefits and does not transmit all such employee contributions to the Department of Human Resources Development for the Disability Fund as required by Section 986.

SEC. 2. Section 11308.6 of the Welfare and Institutions Code is amended to read:

11308.6. (a) Good cause for failure to report for enrollment in or refusal to enroll in a work incentive program shall be deemed to exist, when:

(1) Participation would be unreasonable because it would interrupt a program in process for permanent rehabilitation or self-support or conflict with an imminent likelihood of reemployment at the person's regular work, or

CHAPTER 1001

An act to amend and supplement the Budget Bill for the 1973–74 fiscal year (enacted as the Budget Act of 1973) by adding thereto Section 2.7B, relating to an appropriation to the Regents of the University of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that facilities in which the Dental School of the University of California, San Francisco, is presently housed are inadequate and that new facilities are needed. The Legislature further finds that such dental facilities should be developed so as to provide the dental student with a quality dental education in a wide variety of settings; and that such dental facility should have a minimal environmental impact on the communities in and around the Parnassus Avenue-Mt. Sutro Campus of the University of California. In addition, the Legislature finds that the highest priority should be given to the use or renovation of existing off-campus facilities and clinics, including the San Francisco General Hospital, before new construction of off-campus facilities and clinics is proposed, and that where feasible, off-campus dental education facilities should be located in areas of San Francisco which are deficient in dental services.

It is the intention of the Legislature that further construction of facilities on the Dental School of the University of California, San Francisco, campus be limited to avoid overdevelopment of the campus. It is, therefore, the intent of the Legislature that total development at that campus should not exceed 1.7 million assignable square feet. It is the further intent of the Legislature that the planning of additional facilities on the campus take into account the concerns of the surrounding community.

SEC. 2. Section 2.7B is added to the Budget Bill for the 1973–74 fiscal year enacted as the Budget Act of 1973 (Chapter 129, Statutes

of 1973–74), to read:

HEALTH SCIENCE FACILITIES CONSTRUCTION BOND ACT PROGRAM

Sec. 2.7B. The following sum of money, or so much thereof as may be necessary, is hereby appropriated out of the Health Science Facilities Construction Program Fund to the State Treasury.

HIGHER EDUCATION

378B—For capital outlay, University of California, subject to approval of State Public Works Board as hereinafter provided, for expenditures during the 1973–74, 1974–75, and 1975–76 fiscal years for planning and working drawings for a dental education facility for the Dental School of the University of California, San Francisco, payable from the Health Science Facilities Construction Program Fund; provided, that withdrawals shall be required to meet current obligations as certified by the University of California	435,000

The Public Works Board shall not approve the construction of a dental education facility at the Parnassus Avenue-Mt. Sutro site of the University of California, San Francisco, which exceeds 68,000 assignable square feet. In addition, the Public Works Board shall not approve the construction of such facility unless provision is also made in preliminary plans for no less than two additional off-campus sites for the location of clinical teaching facilities.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Dental School of the University of California, San Francisco, is presently housed in inadequate facilities. In order to provide financial support for urgently needed new facilities, it is necessary that this act take immediate effect.

SEC. 5. Section 13555 of the Welfare and Institutions Code is amended to read:

13555. The State Department of Health shall make the determination as to permanent impairment and total disability and may make such determination in the county involved.

The State Department of Health shall take all necessary steps to expedite determinations in time to prevent loss of federal sharing money.

SEC. 6. The unexpended balance of any appropriation or of any other funds available for use in connection with any function vested in the State Department of Health by this act shall be transferred to the State Department of Health and shall be used for the purpose for which such appropriation or other funds were originally made available. If any question arises with respect to whether, under the provisions of this section, particular moneys are required to be transferred to the State Department of Health, the matter shall be referred to the Department of Finance, the decision of which shall be final.

This section shall remain operative only until January 1, 1975, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1975, deletes or extends such date.

SEC. 7. It is the intent of the Legislature, if this bill and Assembly Bill No. 423 are both chaptered and become effective on or before January 1, 1974, and this bill is chaptered after Assembly Bill No. 423, that Section 103 of the Health and Safety Code, be amended on January 1, 1974, in the form set forth in Section 2 of this act, to incorporate the changes in the law proposed by Assembly Bill No. 423. Therefore, Section 2 of this act shall become operative only if Assembly Bill No. 423 and this bill are both chaptered and become effective on or before January 1, 1974, and this bill is chaptered after Assembly Bill No. 423, and in such case Section 1 of this act shall not become operative.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The act revising and consolidating various activities of the

Departments of Mental Hygiene, Public Health, Health Care Services, and Social Welfare became operative July 1, 1973. This act makes further revisions in consolidating provisions relating to disabled purposes and it is essential that this act take immediate effect.

b. Should the findings of the fiscal and management audit required by this item show any variance on the part of individual preschool providers with respect to current state policies, program standards or established law which are amenable to immediate corrective action, the Department of Finance, after conferring with the Department of Education and advising the Chairman of the Joint Legislative Budget Committee and the chairman of the committee in each house of the Legislature to which legislation dealing with appropriations is referred, shall take action to reduce the 1973–74 fiscal year expenditure allotments to reflect these findings.

SEC. 6. The Legislature established the preschool program with a strong education component with the objective to prepare children for success in school, and declared that the program constitutes an essential component of public social services The Legislature believes that the introduction of young children of low-income or disadvantaged families to an atmosphere of learning will improve their performance and increase their motivation and productivity when they enter a regular school The Legislature finds that the preschool program will no longer be eligible to receive Federal, Title IV-A Social Services funds because of proposed changes to the Federal Social Services Regulations. It is the intent of the Legislature to determine whether or not, and to what extent, the present services delivered under the preschool program are meeting the purposes for which the program was established and whether the program should be fully funded with state general funds.

SEC. 7. It is the intent of the Legislature in adding Item 309.6 and Item 309.7 to Section 2 of the Budget Act of 1973 (Chapter 129, Statutes of 1973–74) to fund the preschool program administered by the Department of Education until June 30, 1975. During this period, a critical examination shall be made of the preschool program which shall consist of two components The first component shall be a fiscal and management audit of the operation of the current preschool program. This component will determine the most appropriate levels of cost to accomplish program objectives. The second component shall be an evaluative study of the preschool program's success in achieving the objectives of improved performance, motivation and productivity of children matriculating through the regular school system

This study shall include, but not be limited to, an evaluation of the results achieved by the preschool program through a controlled evaluation of participating children. This evaluation should include, to the extent possible, a retrospective analysis of improved and sustained motivation, performance, and productivity achieved in kindergarten through grade 3. One objective of this evaluation is to assess, in conjunction with the fiscal and management audit findings, whether or not preschool services can be provided in child care programs at no loss in quality, but at less expense, in order to serve more families and children. The first component within this examination shall be undertaken by the Department of Finance, assisted by the Legislative Analyst, the Auditor General, the Department of Education, and the Health and Welfare Agency. The second compo-

nent shall be undertaken by the Legislative Analyst, assisted by the Department of Finance, the Auditor General, the Department of Education, and the Health and Welfare Agency.

The first component of this examination, a fiscal program, and management audit, shall begin immediately. This audit shall review the current costs, management practices, and expenditures related to the preschool program and make recommendations regarding changes which may allow the program to be delivered in a less costly manner. The Department of Finance shall present the above audit findings and budget guidelines for 1974–75 fiscal year's funding in a written report to be delivered to the Joint Legislative Budget Committee no later than February 1, 1974.

The second component of this examination shall consist of an evaluation of the preschool program. The development of the study design shall begin immediately. The proposed plan for the study, along with an evaluation of the design by an outside consultant, shall be presented in written form to the Joint Legislative Budget Committee no later than December 1, 1973. This study shall begin not later than February 1974 with a written report to be delivered to the Joint Legislative Budget Committee no later than November 1, 1974.

SEC. 7.5. If any section, subdivision, sentence, clause, or phrase of this act is for any reason held to be unconstitutional, such decision shall not affect the validity of the remaining portions of this act. The Legislature hereby declares that it would have enacted this act and each section, subdivision, sentence, clause, or phrase thereof, irrespective of the fact that any one or more of the sections, subdivisions, sentences, clauses, or phrases be declared unconstitutional.

SEC. 8. It is the intent of the Legislature that this bill shall not take effect unless Assembly Bill No. 1244 of the 1973–74 Regular Session and this bill are both chaptered and become effective on or before January 1, 1974.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the loss of federal funds does not curtail essential social service and educational programs and that local public and private agencies have sufficient time to formulate plans for continuing such essential programs, it is necessary that this act take immediate effect.

No rules, regulations, or policies of the Industrial Welfare Commission existing on the effective date of the amendments to this section enacted at the 1973–74 Regular Session shall be extended or changed without review and hearings, upon proper notice, on the proposed changes. The commission shall forthwith undertake a full review, with hearings upon proper notice, of all such existing rules, regulations, and policies made under its jurisdiction. Such review shall be directed toward the end of accomplishing the objectives of this chapter, and updating such rules, regulations, and policies to the extent found by the commission to be necessary to provide adequate and reasonable wages, hours, and working conditions appropriate for all employees in the modern society. The commission shall amend, repeal, or otherwise modify its rules, regulations, and policies in such manner as the commission, on the basis of such review, deems necessary to comply with the objectives of this chapter. If after investigation the commission finds that in any occupation, trade, or industry, the wages paid to employees are inadequate to supply the cost of proper living, or that the hours or conditions of labor are prejudicial to the health, morals, or welfare of employees, the commission shall select a wage board to consider any of such matters. Such wage board shall be composed of an equal number of representatives of employers and employees in the occupation, trade, or industry in question; and a representative of the commission to be designated by it, who shall act as chairman of the wage board on request of the commission. The wage board shall report and make recommendations to the commission, including therein:

(a) An estimate of the minimum wage adequate to supply the

necessary cost of proper living to, and maintain the health and welfare of employees engaged in the occupation, trade, or industry in question.

(b) The number of hours of work per day in the occupation, trade, or industry in question, consistent with the health and welfare of employees.

(c) The standard conditions of labor in the occupation, trade, or industry in question, demanded by the health and welfare of employees.

Before promulgating an order relating to wages, hours, or conditions of labor for the occupation, trade, or industry in question, and after receipt of the report from the wage board, the commission shall prepare proposed regulations for the occupation, trade, or industry in question and then shall hold a public hearing. The proceedings shall be recorded and transcribed and shall thereafter be a matter of public record. Whenever the occupation, trade, or industry in question is statewide in scope, a public hearing shall be held in each of two cities in this state; when it is not statewide, a public hearing shall be held in the locality where the occupation, trade, or industry prevails.

SEC. 3. Section 1182 of the Labor Code is amended to read:

1182. After the wage board conference and public hearing, as provided in this chapter, the commission may, upon its own motion or upon petition, fix:

(c) The standard conditions of labor demanded by the health and welfare of the employees engaged in any occupation, trade, or industry in this state.

The commission may thereupon make a mandatory order during the first three calendar months of the year, to be effective on a date fixed by the commission, which date shall not be less than 60 nor more than 90 days from the publication thereof, specifying the minimum wage to be paid all employees, and the maximum hours and the standard conditions of labor for the employees in the occupation, trade, or industry in question. The hours specified shall not be more than the maximum for employees in California. Such order shall be published in at least one newspaper in each of the Cities of Los Angeles, Sacramento, Oakland, San Jose, Fresno, San Diego, and San Francisco.

SEC. 5. Section 1191.5 of the Labor Code is amended to read:

1191.5. Notwithstanding the provisions of Section 1191, the commission may issue a special license to a nonprofit organization such as a sheltered workshop or rehabilitation facility to permit the employment of employees who have been determined by the commission to meet the requirements in Section 1191 without requiring individual licenses of such employees. The commission shall fix a special minimum wage for such employees. The special license for the nonprofit corporation shall be renewed on a yearly basis, or more frequently as determined by the commission.

SEC. 6. Section 1193.5 of the Labor Code is amended to read:

1193.5. The provisions of this chapter shall be administered and enforced by the division. Any authorized representative of the division shall have authority to:

(a) Investigate and ascertain the wages of all employees, and the hours and working conditions of all employees employed in any occupation in the state;

(b) Supervise the payment of unpaid minimum wages or unpaid overtime compensation owing to any employee under the provisions of this chapter or the orders of the commission. Acceptance of payment of sums found to be due on demand of the division shall constitute a waiver on the part of the employee of his or her cause of action under Section 1194.

Unpaid minimum wages or unpaid overtime wages recovered by the division under the provisions of this section which for any reason cannot be delivered within six months from date of collection to the employee for whom such wages were collected shall be deposited into the Special Deposit Fund in the State Treasury.

The department or division may, with the consent of the employee or employees affected, commence and prosecute a civil action to recover unpaid minimum wages or unpaid overtime compensation owing to any employee under the provisions of this chapter or the orders of the commission, and, in addition to such wages and compensation, shall be entitled to recover costs of suit. The consent of any employee to the bringing of any such action shall constitute a waiver on the part of the employee of his or her cause of action under Section 1194 unless such action is dismissed without prejudice by the department or the division.

SEC. 8. Section 1194 of the Labor Code is amended to read:

1194. Any employee receiving less than the legal minimum wage or the legal overtime compensation applicable to such employee is entitled to recover in a civil action the unpaid balance of the full amount of such minimum wage or overtime compensation, together with costs of suit, notwithstanding any agreement to work for a lesser

CHAPTER 1011

An act to amend Section 5762 of, and to add Section 16655.5 to, the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 5762 of the Education Code is amended to read:

5762. All bilingual-bicultural programs which involve special state funding and all bilingual-bicultural programs which are financed by a combination of state funds and federal funds provided under Title VII of the Elementary and Secondary Education Act of 1965, as amended, shall be approved by the State Board of Education and selection shall be made on a priority basis in accordance with policies established by the State Board of Education. The application shall be made on forms provided by the superintendent, in accordance with the rules and regulations adopted by the board. The dates for making application shall be established by the superintendent.

The governing boards of two or more school districts may jointly apply for a project in bilingual-bicultural education.

SEC. 2. Section 16655.5 is added to the Education Code, to read:

16655.5. The governing board of any union high school district located in a county of the third class which had an average daily attendance during the 1971–72 school year of between 17,500 and 18,500, and which, during the 1971–72 school year, had a modified assessed valuation per pupil of between twenty-one thousand dollars ($21,000) and twenty-three thousand dollars ($23,000), may cooperate with community nonprofit associations and corporations to carry out the purposes of this chapter including the acquisition, construction, improvement, maintenance, and operation of recreation centers within the territorial limits of and under the control of the governing board, and may enter into agreements with such nonprofit associations and corporations to share the costs of acquiring, constructing, improving, maintaining, and operating such recreation centers located on the property of the school district, provided that the board does not agree to contribute more than one-half the total cost of any one project.

SEC. 3. This act is an urgency statute necessary for the

immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the orderly and efficient financial administration of bilingual-bicultural education programs as early as possible in the 1973–74 school year, it is necessary that this act take effect immediately.

In addition, a community nonprofit association and corporation in San Diego County has obtained funds from private sources and desires to use them to construct and maintain recreational facilities on property belonging to the Grossmont Union High School District for community and school use. However, there exists no current authority for the governing board of the school district to cooperate with the nonprofit association and corporation or share in the costs of constructing such a facility. In order that the community may obtain the benefits of such public-spirited endeavors of nonprofit associations and corporations at the earliest possible time and thus provide needed public recreational facilities, it is essential that this act take immediate effect.

CHAPTER 1013

An act to amend Section 25514.5 of the Education Code, relating to community colleges.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 25514.5 of the Education Code is amended to read:

25514.5. Any student under 21 years of age, and any student under 25 years of age who has been honorably discharged or is otherwise returning from active or inactive military service with the armed forces of the United States, who resides in this state and more than ninety (90) miles from the nearest public community college attendance center where grades 13 and 14 are maintained, measured by the usual vehicular route between his home and such attendance

center, may at his request attend grades 13 and 14 at any public community college in the state, whether or not his residence is in a district maintaining a community college. The governing board of the district maintaining such community college designated by the student shall admit the student provided he otherwise qualifies for admission.

The provisions of the preceding paragraph of this section shall be inapplicable to any student residing in a district maintaining a community college if the Chancellor, California Community Colleges determines that such district maintains adequate dormitories or housing facilities or provides adequate transportation for such student between his home and the community college attendance center.

If the student resides in a district maintaining a community college, the provisions of Article 7 (commencing with Section 10800) of Chapter 1 of Division 9 shall be inapplicable, and the district of the student's residence shall pay to the district of the student's attendance an amount on account of such attendance computed pursuant to Section 20201. The computation shall be made and other procedures shall be undertaken in accordance with such requirements as may be prescribed by the Superintendent of Public Instruction, by or under authority of the governing board of the school district of attendance, and shall be approved by the county superintendent of schools having jurisdiction of such district with the certification of the amount owing to be transmitted by him to the district of the student's residence. The governing board of the district of residence shall, on or before June 1st, order payment of the amount computed as owing the district of attendance for the fiscal year, and upon failure of the governing board so to do, the county superintendent of schools having jurisdiction of the district shall draw a requisition against the funds of the district in favor of the district of attendance in payment of such amount and transmit the same to the district of attendance. For purposes of all provisions of this code dealing with allowances and apportionments from the State School Fund for support of community colleges, the district of the student's residence and the district of his attendance shall be deemed to have entered into an interdistrict attendance agreement with respect to the student.

If the student resides within territory not included within any community college district the provisions of Article 3 (commencing with Section 20201) of Chapter 1 of Division 15 shall be applicable.

In addition to the payments required under the preceding paragraphs of this section, there shall be paid to the parents or other persons having charge or control of such student at his residence and directly to adult students and married minors, by the district in which the student attends, a maintenance allowance of one dollar and fifty cents ($1.50) per calendar day or not more than two dollars ($2) per calendar day, if the county board of supervisors of the county of residence determines such larger amount to be more

appropriate, for the period in which the student is enrolled full time in regular classes in a community college under this section. Such amount shall be paid on or before the 15th day after the close of the school year in which the student was so enrolled. Such payments made by a district maintaining a community college at which the student attends shall be included in that district's transportation expense as payments made in lieu of providing for transportation of students between their homes and regular full-time day schools, for purposes of Article 10 (commencing with Section 18051) of Chapter 3 of Division 14; and the amount thereof not reimbursed by the state shall be included in the computation of the amount to be paid by the district of the student's residence, or the community college tuition fund, as the case may be.

For the purpose of this section, a person shall be deemed to be honorably discharged from the armed forces (a) if he was honorably discharged from the armed forces of the United States or (b) if he was inducted into the armed forces of the United States under the "Universal Military Training and Service Act," and (1) satisfactorily completes his period of training and service under such act and is issued a certificate to that effect pursuant to such act, or (2) having served honorably on active duty was transferred to a reserve component of the armed forces of the United States pursuant to such act, or (3) was otherwise released pursuant to such act under honorable conditions.

For the purposes of this section, the term "armed forces of the United States" shall include all regular and reserve components of the uniformed services which are subject to the jurisdiction of the Secretary of Defense, the Secretaries of the Army, Navy, and Air Force, and all components of the Coast Guard.

CHAPTER 1014

An act to amend Sections 27104, 27106, 27223, 27226, 27232, 27233, 27405, 27423, and 27424 of the Public Resources Code, relating to the coastal zone resources, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 27104 of the Public Resources Code is amended to read:

27104. "Permit area" means that portion of the coastal zone lying between the seaward limit of the jurisdiction of the state and 1,000 yards landward from the mean high tide line of the sea subject to the following provisions:

(a) The area of jurisdiction of the San Francisco Bay Conservation and Development Commission, together with all contiguous areas 2,900 feet landward thereof, and any river, stream, tributary, creek, or flood control or drainage channel which flows into such area, is excluded.

(b) If any portion of any body of water, which is not subject to tidal action, lies within the permit area, the body of water together with a strip of land 1,000 feet wide surrounding it shall be included; provided, however, that this subdivision does not apply to any river, stream, tributary, creek, or flood control or drainage channel when a portion of it lies within the permit area.

(c) Any urban land area which is (1) a residential area zoned, stabilized and developed to a density of four or more dwelling units per acre on or before January 1, 1972; or (2) a commercial or industrial area zoned, developed, and stabilized for such use on or before January 1, 1972, may, after public hearing, be excluded by the regional commission at the request of a city or county within which such area is located. An urban land area is "stabilized" if 80 percent of the lots are built upon to the maximum density or intensity of use permitted by the applicable zoning regulations existing on January 1, 1972.

Tidal and submerged lands, beaches, and lots immediately adjacent to the inland extent of any beach or of the mean high tide line where there is no beach shall not be excluded.

Orders granting such exclusion shall be subject to conditions which shall assure that no significant change in density, height, or nature of uses occurs.

An order granting exclusion may be revoked at any time by the regional commission, after public hearing.

(d) Each regional commission shall adopt a map delineating the precise boundaries of the permit area within 60 days after its first meeting and file a copy of such map in the office of the county clerk of each county within its region. In delineating any inland boundary of the permit area, the regional commission may adjust such boundary by moving it seaward by not more than 50 yards. Such adjustments may only be made to avoid bisecting any lot or parcel owned by the same person or to conform to identifiable physical natural or manmade features such as streets, highways, or any structures, in order to more efficiently carry out the provisions of Chapter 5 (commencing with Section 27400) of this division.

SEC. 2. Section 27106 of the Public Resources Code is amended to read:

27106. "Sea" means the Pacific Ocean and all the harbors, bays, channels, estuaries, salt marshes, sloughs, and other areas subject to tidal action through a connection with the Pacific Ocean, excluding nonestuarine rivers, streams, tributaries, creeks and flood control and drainage channels.

SEC 2.5. Section 27223 of the Public Resources Code is amended to read:

27223. Except as provided in this section, members shall serve without compensation but shall be reimbursed for the actual and necessary expenses incurred in the performance of their duties to the extent that reimbursement is not otherwise provided by another public agency. All members shall receive fifty dollars ($50) for each full day of attending meetings of the commission or of any regional commission.

SEC. 3. Section 27226 of the Public Resources Code is amended to read:

27226. The headquarters of the commission shall be in a city, county, or city and county which lies, in whole or in part, within the coastal zone

SEC. 4. Section 27232 of the Public Resources Code is amended to read:

27232. In any case within the coverage of Section 27230, or Section 27231 when the commission determines that in any case within the coverage of such section the financial interest involved is not substantial, the prohibitions therein contained shall not apply if the person concerned advises the commission in advance of the nature and circumstances thereof, including full public disclosure of the facts which may potentially give rise to a violation of this article, and obtains from the commission a written determination that the contemplated action will not adversely affect the integrity of the commission or any regional commission. Any determination made pursuant to this section shall require the affirmative vote of two-thirds of the members of the commission.

SEC. 5. Section 27233 of the Public Resources Code is amended to read:

27233. Nothing in this article shall preclude or prevent any member of the commission or any regional commission, or any employee thereof, who is also an employee of another public agency, a county supervisor, city councilman, member of the Association of Bay Area Governments, member of the Association of Monterey Bay Associated Governments, delegate to the Southern California Association of Governments, or member of the San Diego Comprehensive Planning Organization, and who has in such designated capacity voted or acted upon a particular matter, from voting or otherwise acting upon such matter as a member of the commission or any regional commission, or employee thereof, as the case may be. Nothing in this section shall be construed to exempt any such member of the commission or any regional commission, or any employee thereof, from any other provision of this article.

SEC. 6. Section 27405 of the Public Resources Code is amended to read·

27405. Notwithstanding any provision in this chapter to the contrary, no permit shall be required for the following types of development:

(a) Repairs and improvements not in excess of seven thousand five hundred dollars ($7,500) to existing single-family residences;

(b) Maintenance dredging of existing navigation channels or moving dredged material from such channels to a disposal area outside the permit area, pursuant to a permit from the United States Army Corps of Engineers.

(c) Repair or maintenance activities of any sort; provided, that such activities do not result in an addition to, or enlargement or expansion of, the object of such repair or maintenance activities.

SEC. 7. Section 27423 of the Public Resources Code is amended to read:

27423. (a) An applicant, or any person aggrieved by approval of a permit by the regional commission, may appeal to the commission.

(b) The commission may affirm, reverse, or modify the decision of the regional commission. If the commission fails to act within 60 days after notice of appeal has been filed, the regional commission's decision shall become final.

(c) The commission may decline to hear appeals that it determines raise no substantial issues. Appeals it hears shall be scheduled for a de novo public hearing and shall be decided in the same manner and by the same vote as provided for decisions by the regional commissions.

SEC. 8. Section 27424 of the Public Resources Code is amended to read:

27424. Any person, including an applicant for a permit, aggrieved by the decision or action of the commission or regional commission shall have a right to judicial review of such decision or action by filing a petition for a writ of mandate in accordance with the provisions of Chapter 2, (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure, within 60 days after such decision or action has become final.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of this act are designed to better achieve the objectives of the California Coastal Zone Conservation Act of 1972, by preventing possible misinterpretation of the provisions of the act and to provide the California Coastal Zone Conservation Commission and the regional coastal zone conservation commissions with the required flexibility to better carry out the provisions of such an act. In order to apply such provisions as soon as possible, it is necessary that this act become effective immediately.

CHAPTER 1016

An act to amend Section 13443 of, and to add Section 20904.2 to, the Education Code, relating to public school employees.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13443 of the Education Code is amended to read:

13443. (a) No later than March 15 and before an employee is given notice by the governing board that his services will not be required for the ensuing year, the governing board and the employee shall be given written notice by the superintendent of the district or his designee, or in the case of a district which has no superintendent by the clerk or secretary of the governing board, that it has been recommended that such notice be given to the employee, and stating the reasons therefor.

If a probationary employee has been in the employ of the district for less than 45 days on March 15, the giving of such notice may be deferred until the 45th day of employment and all time periods and deadline dates herein prescribed shall be coextensively extended.

Until the employee has requested a hearing as provided in subdivision (b) or has waived his right to a hearing, the notice and the reasons therefor shall be confidential and shall not be divulged by any person, except as may be necessary in the performance of duties; however, the violation of this requirement of confidentiality,

in and of itself, shall not in any manner be construed as affecting the validity of any hearing conducted pursuant to this section.

(b) The employee may request a hearing to determine if there is cause for not reemploying him for the ensuing year. A request for a hearing must be in writing and must be delivered to the person who sent the notice pursuant to subdivision (a), on or before a date specified therein, which shall not be less than seven days after the date on which the notice is served upon the employee. If an employee fails to request a hearing on or before the date specified, his failure to do so shall constitute his waiver of his right to a hearing. The notice provided for in subdivision (a) shall advise the employee of the provisions of this subdivision.

(c) In the event a hearing is requested by the employee, the proceeding shall be conducted and a decision made in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code and the governing board shall have all the power granted to an agency therein, except that: (1) the respondent shall file his notice of defense, if any, within five days after service upon him of the accusation and he shall be notified of such five-day period for filing in the accusation; (2) the discovery authorized by Section 11507.6 of the Government Code shall be available only if request is made therefor within 15 days after service of the accusation, and the notice required by Section 11505 of the Government Code shall so indicate; and (3) the hearing shall be conducted by a hearing officer who shall prepare a proposed decision, containing findings of fact and a determination as to whether the charges sustained by the evidence are related to the welfare of the schools and the pupils thereof. The proposed decision shall be prepared for the governing board and shall contain a determination as to the sufficiency of the cause and a recommendation as to disposition. However, the governing board shall make the final determination as to the sufficiency of the cause and disposition. None of the findings, recommendations, or determinations contained in the proposed decision prepared by the hearing officer shall be binding on the governing board or on any court in future litigation. Copies of the proposed decision shall be submitted to the governing board and to the employee on or before May 7 of the year in which the proceeding is commenced. All expenses of the hearing, including the cost of the hearing officer, shall be paid by the governing board from the district funds. The board may adopt from time to time such rules and procedures not inconsistent with provisions of this section, as may be necessary to effectuate this section.

(d) The governing board's determination not to reemploy a probationary employee for the ensuing school year shall be for cause only. The determination of the governing board as to the sufficiency of the cause pursuant to this section shall be conclusive, but the cause shall relate solely to the welfare of the schools and the pupils thereof and provided that cause shall include termination of services for the

reasons specified in Section 13447. The decision made after the hearing shall be effective on May 15 of the year the proceeding is commenced.

(e) Notice to the probationary employee by the governing board that his service will not be required for the ensuing year, shall be given no later than May 15.

(f) If a governing board notifies a probationary employee that his services will not be required for the ensuing year, the board shall, within 10 days after delivery to it of the employee's written request, provide him with a statement of its reasons for not reemploying him for the ensuing school year.

(g) Any notice or request shall be deemed sufficient when it is delivered in person to the employee to whom it is directed, or when it is deposited in the United States registered mail, postage prepaid and addressed to the last known address of the employee.

(h) In the event that the governing board does not give notice provided for in subdivision (e) of this section on or before May 15, the employee shall be deemed reemployed for the ensuing school year.

(i) If after request for hearing pursuant to subdivision (b) any continuance is granted pursuant to Government Code Section 11524, the dates prescribed in subdivisions (c), (d), (e) and (h) which occur on or after the date of granting the continuance shall be extended for a period of time equal to such continuance.

SEC. 2. Section 20904.2 is added to the Education Code, to read:

20904.2. The amount determined pursuant to subdivision (g) of Section 20904 shall be adjusted to allow for any increased costs to a school district which may be incurred by it in carrying out the requirements imposed by the amendments made to Section 13443 by the act enacting this section.

SEC. 3. There are no state-mandated local costs that require reimbursements under Section 2164.3 of the Revenue and Taxation Code.

CHAPTER 1017

An act to amend Section 19522 of the Revenue and Taxation Code, relating to senior citizens tax assistance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 19522 of the Revenue and Taxation Code is amended to read:

19522. (a) If the amount of assistance exceeds five dollars ($5),

the Franchise Tax Board, pursuant to the provisions of Article 3 (commencing with Section 19531) of this part, shall provide assistance to the claimant based on a percentage of the property tax accrued and paid by the claimant on his homestead as provided in Section 19523. Such assistance shall be equal to the applicable percentage of property taxes paid on the assessed value of the property up to and including seven thousand five hundred dollars ($7,500). No assistance shall be allowed for property taxes paid on that portion of assessed value of a homestead exceeding seven thousand five hundred dollars ($7,500). No assistance shall be provided if the amount of the assistance claim is five dollars ($5) or less.

(b) For purposes of allowing assistance provided for by this section:

(1) Only one claimant from one household each year shall be entitled to assistance under this part. When two or more individuals of a household are able to meet the qualifications for a claimant, they may determine who the claimant shall be. If they are unable to agree, the matter shall be referred to the Franchise Tax Board and its decision shall be final.

(2) The right to file a claim shall be personal to the claimant and shall not survive his death; however, when a claimant dies after having filed a timely claim, the amount thereof may be disbursed to the surviving spouse and if no surviving spouse, to any other member of the household who is a qualified claimant. If there is no surviving spouse or otherwise qualified claimant, the claim shall be disbursed to any other member of the household. In the event two or more individuals qualify for payment as either an otherwise qualified claimant or a member of the household, they may determine which of them will be paid. If they are unable to agree, the matter shall be referred to the Franchise Tax Board and its decision shall be final.

SEC. 2. The provisions in this act shall be applied to property tax assistance payments with respect to claims for assistance for the 1972–73 fiscal year and fiscal years thereafter.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that certain deserving members of a claimant's family household be eligible at the earliest possible time to receive property tax assistance when the claimant files a timely claim but dies before the payment is received, it is necessary that this act take effect immediately.

CHAPTER 1018

An act to amend Sections 2365 and 2366 of, and to add Sections 2366.3 and 2366.5 to, the Education Code, relating to school district reorganization.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 2365 of the Education Code is amended to read:

2365. A petition transmitted to the county committee pursuant to this article shall be considered at the next regular meeting of the committee or at a special meeting called for the purpose.

The county committee shall prepare a report and recommendation. It shall report as to whether or not in the opinion of the committee the proposed transfer would adversely affect the school district organization of the county; whether it is compatible with any master plans approved by the State Board of Education; and how, in the judgment of the committee, the proposed transfer will affect racial or ethnic integration of the schools of the districts affected.

The report may include other pertinent matter which the county committee desires to bring to the attention of the State Board of Education, board of supervisors, or county board of education, as the case may be.

SEC. 2. Section 2366 of the Education Code is amended to read:

2366. If the county committee finds that the proposed transfer is compatible with the master plan of the county and would not adversely affect racial or ethnic integration of the schools of the districts affected, the petition and report shall be transmitted to the county board of supervisors or county board of education, as the case may be, by the county superintendent of schools.

If the county committee finds that the proposed transfer is incompatible with the master plan of the county or will adversely affect racial or ethnic integration of the schools of the districts affected, the report and petition shall be transmitted to the State Board of Education by the county superintendent of schools.

SEC. 3. Section 2366.3 is added to the Education Code, to read:

2366.3. The State Board of Education shall adopt guidelines which may be used by county committees in making their determination of whether a transfer of territory would adversely affect racial or ethnic integration of the schools of the districts affected.

SEC. 4. Section 2366.5 is added to the Education Code, to read:

2366.5. Any person questioning the finding of the county committee pursuant to Section 2366 that the proposed transfer of territory will not adversely affect the racial or ethnic integration of

the schools of the districts affected, may appeal a decision made upon such a finding. The appeal shall be made to the State Board of Education within 30 days. The appeal shall be based upon factual and statistical evidence.

If the State Board of Education denies the appeal, the decision of the county board of supervisors or the county board of education shall stand. If the State Board of Education approves the appeal it shall review the findings of the county board of supervisors or the county board of education at a regular meeting of the board.

The State Board of Education shall notify the county committee, the county board of supervisors, or the county board of education of its decision on the appeal For purposes of this section if the State Board of Education approves the appeal, the county board of supervisors or the county board of education shall transmit a copy of the proceedings to the State Board of Education within 30 days after receipt of notice. The State Board of Education shall review the transcript, considering all factors involved. The State Board of Education may affirm the decision of the county board of supervisors, or the county board of education, or if it appears that inadequate consideration was given to the effect of the transfer on integration of the schools of the districts affected, it shall direct the county board of supervisors or the county board of education to reconsider its decision and for this purpose to hold another hearing. The State Board of Education shall transmit a copy of its findings and recommendations to the county board of supervisors or the county board of education and the county committee on school district organization.

SEC. 5. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because duties, obligations, or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as a part of their normal operating procedures.

SEC. 4. The Legislature finds and declares that the exemption granted by this act is consistent with the intent of Section 2164 of the Revenue and Taxation Code as there will be no loss of revenue to local government as a result of this act and the exemption is therefore not of the type intended for reimbursement.

If the injury causes permanent disability, a disability payment shall be made for one week in advance as wages on the fourth day after the injury becomes permanent or the date of last payment for temporary disability, whichever date first occurs.

SEC. 2. Section 4652 of the Labor Code is amended to read:

SEC. 5. This act shall become operative April 1, 1974.

CHAPTER 1022

An act to amend Section 4702 of the Labor Code, relating to workmen's compensation, and making an appropriation therefor.

[Approved by Governor October 1, 1973. Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4702 of the Labor Code is amended to read:

4702. Except as provided in the next paragraph, the death benefit in cases of total dependency, when added to all accrued disability indemnity, shall be the sum of forty thousand dollars ($40,000) except in the case of a surviving widow and one or more dependent minor children, in which case the death benefit shall be forty-five thousand dollars ($45,000) and except as otherwise provided in Sections 4553 and 4554. In cases of partial dependency the death benefit shall be a sum equal to four times the amount annually devoted to the support of the dependents by the employee, not to exceed the sum of forty thousand dollars ($40,000). The death benefit in all cases shall be paid in installments in the same manner and amounts as temporary disability indemnity, payments to be made at least twice each calendar month, unless the appeals board otherwise orders.

Disability indemnity shall not be deducted from the death benefit and shall be paid in addition to the death benefit when the original

injury resulting in death occurs after the effective date of the amendment to this section adopted at the 1949 Regular Session of the Legislature.

Every computation made pursuant to this section shall be made only with reference to death resulting from an original injury sustained after this section as amended during the 1971 Regular Session of the Legislature becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 2. The sum of one million ninety-six thousand dollars ($1,096,000) is hereby appropriated from the General Fund to the State Controller for payments to local agencies pursuant to Section 2231 of the Revenue and Taxation Code to reimburse them for costs incurred pursuant to this act. This appropriation shall be available until June 30, 1974.

Payments shall be made to local agencies in accordance with the following provisions:

Each local agency to which the mandate is applicable shall submit to the State Controller, within 45 days of the operative date of the mandate, a claim for reimbursement based upon its estimate of the units of work to be performed during the 1973–74 fiscal year.

Computation of amounts claimed for units of work shall be on the basis of a unit cost in the amount of forty-three cents ($0.43) for local governmental entities insured by the State Compensation Fund and twenty-eight cents ($0.28) for local governmental entities who are self-insured per one thousand dollars ($1,000) salary of employee covered by workmen's compensation shall be the unit of work. The State Controller shall pay each claimant as reimbursement for units of work an amount determined by multiplying:

(1) The unit cost of work as specified herein, by

(2) The number of units of work estimated to be performed by the claimant.

Any payment, adjustment, or audit of claims by the State Controller shall be on the basis of units of work, rounded to the nearest whole unit, and the unit costs specified herein rather than actual costs. The State Controller

(1) May reduce any claim which he determines is excessive or unreasonable,

(2) May audit the records of any local agency to verify the actual units of work performed, and

(3) Shall make any adjustments necessary to correct the underpayments or overpayments which occurred in the 1973–74 fiscal year.

Claims for reimbursement shall be prepared in the form, and payments made at the time, specified by the State Controller. No claim or amendment to a claim shall be accepted by the State Controller after the time prescribed herein for filing of claims.

In the event that the amount appropriated for reimbursement purposes pursuant to this act is not sufficient to pay all claims filed

timely, the State Controller shall pay such claims on a pro rata basis and notify the Director of Finance of the deficiency.

CHAPTER 1023

An act to amend Sections 4453, 4460, 4653, 4654, 4658, and 4659 of, and to add Section 4452.5 to, the Labor Code, relating to workmen's compensation, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 4452.5 is added to the Labor Code, to read:

4452.5. As used in this division:

(a) "Permanent total disability" means a permanent disability with a rating of 100 percent permanent disability only.

(b) "Permanent partial disability" means a permanent disability with a rating of less than 100 percent permanent disability.

SEC. 2. Section 4453 of the Labor Code is amended to read:

4453. In computing average annual earnings for the purposes of temporary disability indemnity and permanent total disability indemnity only, the average weekly earnings shall be taken at not less than fifty-three dollars and eighty-four cents ($53.84) nor more than one hundred seventy-eight dollars and fifty cents ($178.50). In computing average annual earnings for purposes of permanent partial disability indemnity, the average weekly earnings shall be taken at not less than thirty dollars and seventy-seven cents ($30.77) nor more than one hundred five dollars ($105). Between these limits the average weekly earnings, except as provided in Sections 4456 to 4459, shall be arrived at as follows:

(a) Where the employment is for 30 or more hours a week and for five or more working days a week, the average weekly earnings shall be 100 percent of the number of working days a week times the daily earnings at the time of the injury.

(b) Where the employee is working for two or more employers at or about the time of the injury, the average weekly earnings shall be taken as 100 percent of the aggregate of such earnings from all employments computed in terms of one week; but the earnings from employments other than the employment in which the injury occurred shall not be taken at a higher rate than the hourly rate paid at the time of the injury.

(c) If the earnings are at an irregular rate, such as piecework, or on a commission basis, or are specified to be by week, month or other period, then the average weekly earnings mentioned in subdivision (a) above shall be taken as 100 percent of the actual weekly earnings averaged for such period of time, not exceeding one year, as may

conveniently be taken to determine an average weekly rate of pay.

(d) Where the employment is for less than 30 hours per week, or where for any reason the foregoing methods of arriving at the average weekly earnings cannot reasonably and fairly be applied, the average weekly earnings shall be taken at 100 percent of the sum which reasonably represents the average weekly earning capacity of the injured employee at the time of his injury, due consideration being given to his actual earnings from all sources and employments.

SEC. 3. Section 4460 of the Labor Code is amended to read:

4460. For the purpose of computing the temporary disability indemnity or permanent total disability indemnity payable to any employee who sustains an original injury causing temporary disability or permanent total disability, the maximum average weekly earnings shall be taken at one hundred seventy-eight dollars and fifty cents ($178.50). For the purpose of computing the permanent partial disability indemnity payable to any employee who sustains an original injury causing permanent partial disability, the maximum average weekly earnings shall be taken at one hundred five dollars ($105).

Every computation made pursuant to this section as last amended shall be made only with reference to temporary disability or such permanent disability resulting from an original injury sustained after the act last amending this section becomes effective; provided, however, that all rights presently existing under this section shall be continued in force.

SEC. 4. Section 4653 of the Labor Code is amended to read:

4653. If the injury causes temporary total disability, the disability payment is two-thirds of the average weekly earnings during the period of such disability, consideration being given to the ability of the injured employee to compete in an open labor market.

SEC. 5. Section 4654 of the Labor Code is amended to read:

4654. If the injury causes temporary partial disability, the disability payment is two-thirds of the weekly loss in wages during the period of such disability. However, such disability payment shall be reduced by the sum of unemployment compensation benefits and extended duration benefits received by the employee during the period of temporary partial disability.

SEC. 6. Section 4658 of the Labor Code is amended to read:

4658. If the injury causes permanent disability, the percentage of disability to total disability shall be determined, and the disability payment computed and allowed, according to subdivision (a). However, in no event shall the disability payment allowed be less than the disability payment computed according to subdivision (b).

4659. (a) If the permanent disability is at least 70 percent but less

than 100 percent, 1 5 percent of the average weekly earnings for each 1 percent of disability in excess of 60 percent is to be paid during the remainder of life, after payment for the maximum number of weeks specified in Section 4658 has been made. For the purposes of this subdivision only, average weekly earnings shall be taken at not more than one hundred seven dollars and sixty-nine cents ($107.69).

(b) If the permanent disability is total, the indemnity based upon the average weekly earnings determined under Section 4453 shall be paid during the remainder of life.

SEC. 8. The sum of one million five hundred eighty-two thousand two hundred twenty-three dollars ($1,582,223) is hereby appropriated from the General Fund to the State Controller for payments to local agencies pursuant to Section 2231 of the Revenue and Taxation Code to reimburse them for costs incurred pursuant to this act. This appropriation shall be available until June 30, 1974.

Payments shall be made to local agencies in accordance with the following provisions:

Each local agency to which the mandate is applicable shall submit to the State Controller, within 45 days of the operative date of the mandate, a claim for reimbursement based upon its estimate of the units of work to be performed during the 1973–74 fiscal year

Computation of amounts claimed for units of work shall be on the basis of a unit cost in the amount of one dollar and twenty-four cents ($1.24) for local governmental entities insured by the State Compensation Fund and eighty-one cents ($0.81) for local governmental entities who are self-insured per one thousand dollars ($1,000) salary of employee covered by workmen's compensation which shall be the unit of work. The State Controller shall pay each claimant as reimbursement for units of work an amount determined by multiplying:

(1) The unit cost of work as specified herein, by

(2) The number of units of work estimated or certified as having been performed by the claimant.

Any payment, adjustment, or audit of claims by the State Controller shall be on the basis of units of work, rounded to the nearest whole unit, and at the unit costs specified herein rather than actual costs. The State Controller

(1) May reduce any claim which he determines is excessive or unreasonable,

(2) May audit the records of any local agency to verify the actual units of work performed, and

(3) Shall make any adjustments necessary to correct for underpayments or overpayments which occurred in the 1973–74 fiscal year.

Claims for reimbursement shall be prepared in the form, and payments made at the time, specified by the State Controller. No claim or amendment to a claim shall be accepted by the State Controller after the time prescribed herein for filing of claims.

In the event that the amount appropriated for reimbursement

purposes pursuant to this act is not sufficient to pay all claims filed timely, the State Controller shall pay such claims on a pro rata basis and notify the Director of Finance of the deficiency.

SEC. 9. This act shall become operative April 1, 1974.

CHAPTER 1024

An act to amend Sections 3208.1, 5411, 5412, and 5500.5 of the Labor Code, relating to workmen's compensation.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 3208.1 of the Labor Code is amended to read:

3208.1. An injury may be either: (a) "specific," occurring as the result of one incident or exposure which causes disability or need for medical treatment; or (b) "cumulative," occurring as repetitive mentally or physically traumatic activities extending over a period of time, the combined effect of which causes any disability or need for medical treatment. The date of a cumulative injury shall be the date determined under Section 5412.

SEC. 2. Section 5411 of the Labor Code is amended to read:

5411. The date of injury, except in cases of occupational disease or cumulative injury, is that date during the employment on which occurred the alleged incident or exposure, for the consequences of which compensation is claimed.

SEC. 3. Section 5412 of the Labor Code is amended to read:

5412. The date of injury in cases of occupational diseases or cumulative injuries is that date upon which the employee first suffered disability therefrom and either knew, or in the exercise of reasonable diligence should have known, that such disability was caused by his present or prior employment.

SEC. 4. Section 5500.5 of the Labor Code is amended to read:

5500.5. (a) Liability for occupational disease or cumulative injury shall be limited to those employers who employed the employee during a period of five years immediately preceding either the date of injury, as determined pursuant to Section 5412, or the last date on which the employee was employed in an occupation exposing him to the hazards of such occupational disease or cumulative injury, whichever occurs first. If, based upon all the evidence presented, the appeals board or referee finds the existence of cumulative injury or occupational disease, liability for such cumulative injury or occupational disease shall not be apportioned to prior years except as provided in subdivision (d); however, in determining such liability, evidence of disability due to specific injury, disability due to nonindustrial causes, or disability previously

compensated for by way of a findings and award or order approving compromise and release, or a voluntary payment of disability, may be admissible for purposes of apportionment.

(b) Where a claim for compensation benefits is made on account of an occupational disease or cumulative injury which may have arisen out of more than one employment, the application shall state the names and addresses of all employers liable under subdivision (a), the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease or cumulative injury. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the appeals board to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the appeals board shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer; provided, such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the appeals board or referee before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the appeals board shall join as a party defendant any additional employer when it appears that such employer is a proper party, but the liability of such employer shall not be determined until supplemental proceedings are instituted.

(c) In any case involving a claim of occupational disease or cumulative injury occurring as a result of more than one employment within the five-year period set forth in subdivision (a), the employee making the claim, or his dependents, may elect to proceed against any one or more of such employers. Where such an election is made, the employee must successfully prove his claim against any one of the employers named, and any award which the appeals board shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the appeals board on the motion of any party in interest, but the liability of such employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the appeal board's final decision, nor to any continuance or further

proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

(d) If the employment exposing the employee to the hazards of the claimed occupational disease or cumulative injury was for more than five years with the same employer, or its predecessors in interest, the limitation of liability to the last five years of employment as set forth in subdivision (a) shall be inapplicable. Liability in such circumstances shall extend to all insurers who insure the workmen's compensation liability of such employer, during the entire period of the employee's exposure with such employer, or its predecessors in interest. The respective contributions of such insurers shall be in proportion to employment during their respective periods of coverage. As used in this subdivision, "insurer" includes an employer who during any period of the employee's exposure was self-insured or legally uninsured.

The provisions of this subdivision shall expire on July 1, 1986, unless otherwise extended by the Legislature prior to that date.

(e) At any time within one year after the appeals board has made an award for compensation benefits in connection with an occupational disease or cumulative injury, any employer held liable under such award may institute proceedings before the appeals board for the purpose of determining an apportionment of liability or right of contribution. Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the appeals board finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required.

(f) In any proceeding before the appeals board for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows:

(1) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his

estate or dependents as the result of disability or death resulting from or aggravated by such exposure.

(2) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the appeals board shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

(g) Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the appeals board, or its referee, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard. Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made. The appeals board may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken.

(h) The amendments to this section adopted at the 1959 Regular Session of the Legislature shall operate retroactively, and shall apply retrospectively to any cases pending before the appeals board or courts. From and after the date this section becomes effective no payment shall be made out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, or out of any other state funds, in satisfaction of any liability heretofore incurred or hereafter incurred, except awards which have become final without regard to the continuing jurisdiction of the appeals board on said effective date, and the state and its funds shall be without liability therefor. This paragraph shall not in any way effect a reduction in any benefit conferred or which may be conferred upon any injured employee or his dependents.

SEC. 5. Section 5500.5 of the Labor Code is amended to read:

5500.5. (a) Liability for occupational disease or cumulative injury shall be limited to those employers who employed the employee during a period of five years immediately preceding either the date of injury, as determined pursuant to Section 5412, or the last date on which the employee was employed in an occupation exposing him to the hazards of such occupational disease or

cumulative injury, whichever occurs first. If, based upon all the evidence presented, the appeals board or workmen's compensation judge finds the existence of cumulative injury or occupational disease, liability for such cumulative injury or occupational disease shall not be apportioned to prior years except as provided in subdivision (d); however, in determining such liability, evidence of disability due to specific injury, disability due to nonindustrial causes, or disability previously compensated for by way of a findings and award or order approving compromise and release, or a voluntary payment of disability, may be admissible for purposes of apportionment.

(b) Where a claim for compensation benefits is made on account of an occupational disease or cumulative injury which may have arisen out of more than one employment, the application shall state the names and addresses of all employers liable under subdivision (a), the places of employment, and the approximate periods of employment where the employee was exposed to the hazards of the occupational disease or cumulative injury. If the application is not so prepared or omits necessary and proper employers, any interested party, at or prior to the first hearing, may request the appeals board to join as defendant any necessary or proper party. If such request is made prior to the first hearing on the application, the appeals board shall forthwith join the employer as a party defendant and cause a copy of the application together with a notice of the time and place of hearing to be served upon such omitted employer; provided, such notice can be given within the time specified in this division. If such notice cannot be timely given or if the motion for joinder is made at the time of the first hearing, then the appeals board or workmen's compensation judge before whom the hearing is held, if it is found that the omitted employer named is a necessary or proper party, may order a joinder of such party and continue the hearing so that proper notice may be given to the party or parties so joined. Only one continuance shall be allowed for the purpose of joining additional parties. Subsequent to the first hearing the appeals board shall join as a party defendant any additional employer when it appears that such employer is a proper party, but the liability of such employer shall not be determined until supplemental proceedings are instituted.

(c) In any case involving a claim of occupational disease or cumulative injury occurring as a result of more than one employment within the five-year period set forth in subdivision (a), the employee making the claim, or his dependents, may elect to proceed against any one or more of such employers. Where such an election is made, the employee must successfully prove his claim against any one of the employers named, and any award which the appeals board shall issue awarding compensation benefits shall be a joint and several award as against any two or more employers who may be held liable for compensation benefits. If, during the pendency of any claim wherein the employee or his dependents has

made an election to proceed against one or more employers, it should appear that there is another proper party not yet joined, such additional party shall be joined as a defendant by the appeals board on the motion of any party in interest, but the liability of such employer shall not be determined until supplemental proceedings are instituted. Any employer joined as a defendant subsequent to the first hearing or subsequent to the election provided herein shall not be entitled to participate in any of the proceedings prior to the appeal board's final decision, nor to any continuance or further proceedings, but may be permitted to ascertain from the employee or his dependents such information as will enable the employer to determine the time, place, and duration of the alleged employment. On supplemental proceedings, however, the right of the employer to full and complete examination or cross-examination shall not be restricted.

(d) If the employment exposing the employee to the hazards of the claimed occupational disease or cumulative injury was for more than five years with the same employer, or its predecessors in interest, the limitation of liability to the last five years of employment as set forth in subdivision (a) shall be inapplicable. Liability in such circumstances shall extend to all insurers who insure the workmen's compensation liability of such employer, during the entire period of the employee's exposure with such employer, or its predecessors in interest. The respective contributions of such insurers shall be in proportion to employment during their respective periods of coverage. As used in this subdivision, "insurer" includes an employer who during any period of the employee's exposure was self-insured or uninsured.

The provisions of this subdivision shall expire on July 1, 1986, unless otherwise extended by the Legislature prior to that date.

(e) At any time within one year after the appeals board has made an award for compensation benefits in connection with an occupational disease or cumulative injury, any employer held liable under such award may institute proceedings before the appeals board for the purpose of determining an apportionment of liability or right of contribution. Such a proceeding shall not diminish, restrict, or alter in any way the recovery previously allowed the employee or his dependents, but shall be limited to a determination of the respective contribution rights, interests or liabilities of all the employers joined in the proceeding, either initially or supplementally; provided, however, if the appeals board finds on supplemental proceedings for the purpose of determining an apportionment of liability or of a right of contribution that an employer previously held liable in fact has no liability, it may dismiss such employer and amend its original award in such manner as may be required.

(f) In any proceeding before the appeals board for the purpose of determining an apportionment of liability or of a right of contribution where any employee incurred a disability or death

resulting from silicosis in underground metal mining operations, the determination of the respective rights and interests of all of the employers joined in the proceedings either initially or supplementally shall be as follows.

(1) All employers whose underground metal mining operations resulted in a silicotic exposure during the period of the employee's employment in such operations shall be jointly and severally liable for the payment of compensation and of medical, surgical, legal and hospital expense which may be awarded to the employee or his estate or dependents as the result of disability or death resulting from or aggravated by such exposure.

(2) In making its determination in the supplemental proceeding for the purpose of determining an apportionment of liability or of a right of contribution of percentage liabilities of the various employers engaged in underground metal mining operations the appeals board shall consider as a rebuttal presumption that employment in underground work in any mine for a continuous period of more than three calendar months will result in a silicotic exposure for the employee so employed during the period of employment if the underground metal mine was driven or sunk in rock having a composition which will result in dissemination of silica or silicotic dust particles when drilled, blasted or transported.

(g) Any employer shall be entitled to rebut such presumption by showing to the satisfaction of the appeals board, or its workmen's compensation judge, that the mining methods used by the employer in the employee's place of employment did not result during his employment in the creation of silica dust in sufficient amount or concentration to constitute a silicotic hazard. Dust counts, competently made, at such intervals and in such locations as meet the requirements of the Division of Industrial Safety for safe working conditions may be received as evidence of the amount and concentration of silica dust in the workings where such counts have been made at the time when they were made. The appeals board may from time to time, as its experience may indicate proper, promulgate orders as to the frequency with which such dust counts shall be taken in different types of workings in order to justify their acceptance as evidence of the existence or nonexistence of a silicotic hazard in the property where they have been taken.

(h) The amendments to this section adopted at the 1959 Regular Session of the Legislature shall operate retroactively, and shall apply retrospectively to any cases pending before the appeals board or courts. From and after the date this section becomes effective no payment shall be made out of the fund used for payment of the additional compensation provided for in Section 4751 of this code, or out of any other state funds, in satisfaction of any liability heretofore incurred or hereafter incurred, except awards which have become final without regard to the continuing jurisdiction of the appeals board on said effective date, and the state and its funds shall be without liability therefor. This paragraph shall not in any way effect

a reduction in any benefit conferred or which may be conferred upon any injured employee or his dependents.

SEC. 6. It is the intent of the Legislature that, if both this bill and Assembly Bill No 804 are chaptered, become effective at the same time, and amend Section 5500.5 of the Labor Code, and this bill is chaptered after Assembly Bill No. 804, the amendments proposed by both bills shall be given effect and incorporated in Section 5500.5 in the form set forth in Section 5 of this act. Therefore, Section 5 of this act shall become operative only if this bill and Assembly Bill No. 804 are both chaptered, both become effective at the same time, both amend Section 5500.5, and Assembly Bill No. 804 is chaptered before this bill, in which case Section 4 of this act shall not become operative.

The people of the State of California do enact as follows:

SECTION 1. Section 14005 4 of the Welfare and Institutions Code is amended to read:

A person under 21 years of age, who would qualify on the basis of financial eligibility but who does not qualify as a dependent child, under the provisions of Chap 2 (commencing with Sec. 11200) of Part 3 of Division 9 of this code, is eligible for health care services under Sec. 14005.

Included under this section are children in foster care for whom public agencies are assuming financial responsibility in whole or in part and persons receiving aid under Chapter 2.1 (commencing with Section 16115) or Part 4 of Division 9 of this code.

(1) He or his family meet the income and resource requirements for aid under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of this code, except that the minimum basic standard of adequate care for a single person living alone shall be 75 percent

of the standard for a two-person family under Section 11452;

(2) He resides within the state;

(3) He is a citizen of the United States, or is legally present in the United States;

(4) He is 21 years of age or older, or has entered into a ceremonial marriage; and

A responsible relative shall be required to pay towards the cost of health care services of a beneficiary under this chapter, the amount for which he would be liable under pertinent sections of the Civil Code.

The duty to support under this section shall be enforced by the county which determined the eligibility of the person to whom support is owed.

The failure of a responsible relative to comply with this section shall in no way affect the eligibility for health care services of the person for whom he is responsible.

SEC. 3. Section 14005.6 of the Welfare and Institutions Code, as amended by Chapter 648 of the Statutes of 1972, is amended to read:

14005.6. (a) When a person is not eligible for aid under any of the chapters set forth in Section 14005.1 or has an application pending for aid under any of said chapters, and meets all of the following conditions, he is eligible for health care benefits or services under Section 14005:

Any such person who fails or refuses to complete such statement, or who furnishes or reports false or misleading financial information, is guilty of a misdemeanor.

A responsible relative shall be required to pay towards the cost of health care services of a beneficiary under this chapter, the amount for which he would be liable under pertinent sections of the Civil Code.

The duty to support under this section shall be enforced by the county which determined the eligibility of the person to whom support is owed.

The failure of a responsible relative to comply with this section shall in no way affect the eligibility for health care services of the person for whom he is responsible.

SEC. 4. It is the intent of the Legislature, if both this bill and Senate Bill No. 174 are chaptered, become effective at the same time, and amend Section 14005.6 of the Welfare and Institutions Code, and this bill is chaptered after Senate Bill No. 174, that the amendments to Section 14005.6 proposed by both bills be given effect and incorporated in Section 14005.6 in the form set forth in Section 3 of this act. Therefore, Section 3 of this act shall become operative only if this bill and Senate Bill No. 174 are both chaptered, both become effective at the same time, and both amend Section 14005.6, and Senate Bill No. 174 is chaptered before this bill, in which case Section 2 of this act shall not become operative.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 985 of the Unemployment Insurance Code is amended to read:

985. Section 984 shall not apply to that part of the remuneration which, after remuneration with respect to employment equal to

eight thousand dollars ($8,000) for calendar year 1972 and eight thousand five hundred dollars ($8,500) for calendar year 1973, and nine thousand dollars ($9,000) for calendar year 1974 and each subsequent calendar year has been paid to an individual by an employer, is paid to such individual by such employer.

SEC. 2. Section 2626 of the Unemployment Insurance Code is amended to read:

2626. (a) "Disability" or "disabled" includes both mental or physical illness, mental or physical injury, and, to the extent specified in Section 2626.2, pregnancy. An individual shall be deemed disabled in any day in which, because of his physical or mental condition, he is unable to perform his regular or customary work.

SEC. 3. Section 2626.2 is added to the Unemployment Insurance Code, to read:

2626.2. Benefits relating to pregnancy shall be paid under this part only in accordance with the following:

(a) Disability benefits shall be paid upon a doctor's certification that the claimant is disabled because of an abnormal and involuntary complication of pregnancy, including but not limited to: puerperal infection, eclampsia, caesarean section delivery, ectopic pregnancy, and toxemia.

(b) Disability benefits shall be paid upon a doctor's certification that a condition possibly arising out of pregnancy would disable the claimant without regard to the pregnancy, including but not limited to: anemia, diabetes, embolism, heart disease, hypertension, phlebitis, phlebothrombosis, pyelonephritis, thrombophlebitis, vaginitis, varicose veins, and venous thrombosis.

SEC. 4. This act shall become operative with respect to periods of disability commencing on or after the effective date of this act.

CHAPTER 1027

An act to add Article 7 (commencing with Section 2775) to Chapter 2 of Part 2 of Division 1 of the Unemployment Insurance Code, relating to unemployment disability insurance.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Article 7 (commencing with Section 2775) is added to Chapter 2 of Part 2 of Division 1 of the Unemployment Insurance Code, to read:

Article 7. Rights of Industrially Disabled Persons

2775. Notwithstanding any inconsistent provisions of this part, the benefit rights of industrially disabled persons shall be determined in accordance with the provisions of this article for the period and with respect to the matters specified in this article. Except as otherwise provided in this article, all of the provisions of this part shall continue to be applicable in connection with such benefits.

2776. As used in this article:

(a) "Industrially disabled person" means an individual who has received or is entitled to receive benefits under Division 4 (commencing with Section 3201) of the Labor Code, and who is unable to perform his regular or customary work for 60 consecutive days or more, but not to exceed two calendar years from the date of commencement of his industrial disability.

(b) "Industrial disability" means a disability compensable under Division 4 (commencing with Section 3201) of the Labor Code.

2777. Except as provided in Section 2611, in determining the benefit rights of any industrially disabled person the disability base period shall exclude those quarters during which such person was industrially disabled for 60 days or more. For all quarters so excluded there shall be substituted an equal number of quarters immediately preceding the commencement of his industrial disability. In the event the base period so determined includes wages in calendar quarters for which the records have been destroyed under proper approval, a claimant may establish the amount of wages by affidavit in accordance with authorized regulations. The quarter of commencement of an industrial disability shall be counted as a completed quarter if the director finds that the inclusion thereof would be more equitable to the industrially disabled person.

2778. No disqualification shall be applied to any industrially disabled person after the termination of his industrial disability, by reason of any act or course of action on his part prior to the date on which his industrial disability commenced.

CHAPTER 1028

An act to amend Section 39261 of the Health and Safety Code, relating to air pollution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 39261 of the Health and Safety Code is amended to read:

39261. Any person who intentionally or negligently violates Section 24242, 24243, 24360, 39077, 39077.1, or 39430, or any rule or regulation of an air pollution control district or the State Air Resources Board issued pursuant to this part, prohibiting or limiting the discharge of air contaminants into the air, shall be liable for a civil penalty not to exceed five hundred dollars ($500) for each day in which such violation occurs.

SEC. 1.5. Section 39261 of the Health and Safety Code, as amended by Section 1 of this act, is amended to read:

39261. Any person who intentionally or negligently violates Section 24242, 24243, 24360, 39077, 39077.1, or 39430, or 39441, or any rule or regulation of an air pollution control district or the State Air Resources Board issued pursuant to this part, prohibiting or limiting the discharge of air contaminants into the air, shall be liable for a civil penalty for each day in which such violation occurs as follows:

(a) For a first offense during a 12-month period, not to exceed five hundred dollars ($500).

(b) For a second offense during a 12-month period, not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000).

(c) For a third offense during a 12-month period, not less than one thousand dollars ($1,000) nor more than two thousand dollars ($2,000).

(d) For a fourth offense during a 12-month period, not less than two thousand dollars ($2,000) nor more than three thousand dollars ($3,000).

(e) For a fifth offense during a 12-month period, not less than three thousand dollars ($3,000) nor more than four thousand dollars ($4,000).

(f) For a sixth offense during a 12-month period, not less than four thousand dollars ($4,000) nor more than five thousand dollars ($5,000).

(g) For a seventh and each subsequent offense during a 12-month period, not less than five thousand dollars ($5,000) nor more than ten thousand dollars ($10,000).

SEC. 2. In enacting this act, the Legislature hereby determines and finds that any duties, obligations, or responsibilities imposed on local government are minor in nature and do not result in a significant new program for local government, or a significant increase in level of service of an existing mandated program, and no significant economic burden or cost is intended to be imposed hereby. Therefore, and solely as a result of this finding and determination, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for reimbursement of any local agency for any costs that may be incurred by it.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly

0831 387560 448

Bill No. 2284 are both chaptered and become effective on or before January 1, 1974, both bills amend Section 39261 of the Health and Safety Code, and this bill is chaptered after Assembly Bill No. 2284, that Section 39261 of the Health and Safety Code, as amended by Section 1 of this act, shall remain operative until the effective date of Assembly Bill No. 2284, and that on the effective date of Assembly Bill No. 2284 Section 39261 of the Health and Safety Code, as amended by Section 1 of this act, be further amended in the form set forth in Section 1.5 of this act to incorporate the changes in Section 39261 proposed by Assembly Bill No. 2284. Therefore, if this bill and Assembly Bill No. 2284 are both chaptered and become effective on or before January 1, 1974, and Assembly Bill No. 2284 is chaptered before this bill and amends Section 39261, Section 1.5 of this act shall become operative on the effective date of Assembly Bill No. 2284.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the Bay Area Air Pollution Control District may have, as early as possible, an effective deterrent against those persons who intentionally or negligently violate rules and regulations of the district adopted to reduce air pollution within the district, it is necessary that this act take effect immediately.

CHAPTER 1029

An act to add Section 13814 to, and to repeal Section 13834.1 of, the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 13814 is added to the Education Code, to read:

13814. Notwithstanding any provision of this chapter to the contrary, the surviving spouse of a deceased member shall not be required to have been dependent upon or to have been receiving one-half of his support from the member at the time of the member's death in order to receive any benefits under this chapter.

SEC. 2. Section 13834.1 of the Education Code is repealed.

SEC. 3. There are no state-mandated local costs in this act that require reimbursement under Section 2164.3 of the Revenue and Taxation Code.

CHAPTER 1030

An act relating to a regional occupational center or program, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to finance the capital expenditures involved in the construction and equipping of facilities for, and the establishment of, a regional occupational center or regional occupational program to be maintained in Tulare County pursuant to Chapter 14 (commencing with Section 7450) of Division 6 of the Education Code, by a joint powers entity created by agreement of two or more school districts in the county, to serve an area in great need of occupational preparation. It is the further intent of the Legislature, by this act, to improve the employment opportunities of persons residing in areas of need for such training by providing education programs of a nature that will serve the social and economic needs of that area. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

It is further the intent of the Legislature that the regional occupational center or regional occupational program to be established in Tulare County shall conform with the requirements of state law in regard to the establishment of regional occupational centers or regional occupational programs pursuant to Chapter 14 (commencing with Section 7450) of Division 6 of the Education Code.

SEC. 2. The amounts allocated and expended pursuant to Section 4 of this act shall be fully repaid with interest to the state in such annual amounts and over such period as may be determined by the State Allocation Board, not to exceed 10 years from the date of disbursement. Interest shall be paid at a rate determined by the State Allocation Board.

Such repayment shall be made from the proceeds of a district tax to be levied in each school district participating in the joint powers agreement. There shall be levied in each school district which is a party to the joint powers agreement, a district tax at a rate sufficient to produce a combined revenue from all such districts not less than the total annual payments required by the State Allocation Board. The tax to be levied in each such district shall be at a rate sufficient to produce an amount of revenue equal to the total annual payment divided by the number of school districts participating in the joint powers agreement. The tax prescribed by this section shall be levied in the manner prescribed by Section 7456 of the Education Code.

SEC. 3. The revenues derived from taxes levied pursuant to Section 2 of this act shall be transferred by the County Auditor of

0860 387585 453

Tulare to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

SEC. 4. An amount not to exceed five hundred thousand dollars ($500,000) from the proceeds of bonds issued pursuant to the State School Building Aid Bond Law of 1966 shall be allocated and expended for purposes of this act by the joint powers entity in cooperation with and under the administrative direction of the State Allocation Board, for the capital expenditures involved in the construction and equipping of facilities for, and the establishment of, a regional occupational center or regional occupational program in Tulare County. Not to exceed fifty thousand dollars ($50,000) of such sum shall be allocated and expended for architectural and engineering services in connection with such center or program.

Sections 19551 to 19555, inclusive, and Sections 19559, 19562, 19565, and 19699.10 of the Education Code shall be applicable to the administration of this act unless the context of this act, as determined by the State Allocation Board, requires otherwise. Except to the extent and for the purposes expressly provided in this act, the provisions of Chapter 10 (commencing with Section 19551) of Division 14 of the Education Code shall not be applicable hereto.

SEC. 5. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because the Legislature hereby finds and declares:

(a) It is the intention of the Legislature to encourage local governmental entities to act to solve local problems and to set their own priorities to meet local needs.

(b) This act is being considered at the request of a local entity which desires legislative authority to act to carry out the program specified in this act which meets a local need.

(c) By its action on this act, the Legislature is mandating a local program to accommodate a local request.

(d) The local entity or entities affected by this act recognize and acknowledge that they shall bear the total costs of carrying out the provisions herein.

academic year proportional to the period of additional attendance resulting from attendance at a summer term, session, or quarter. In the aggregate, the total amount a student would receive in a four-year period may not be increased as a result of accelerating his progress to a degree by attending summer terms, sessions, or quarters. The State Scholarship and Loan Commission may provide by appropriate rules and regulations for such reports, accounting, and statements from the award winner and college or university of attendance pertaining to the use or application of the award as it may deem proper. A competitive scholarship may be renewed annually without an additional competitive examination until the award winner has received four annual awards or until he has been graduated from such an institution in an undergraduate course, whichever is the earlier, provided that at or prior to such renewal the State Scholarship and Loan Commission shall reassess the financial needs of such award winner and establish the amount of the award within the limits prescribed by this section. SECTION 1. Article 2.5 (commencing with Section 6464) is added to Chapter 6.5 of Division 6 of the Education Code, to read:

Article 2.5. Programs for Migrant Children

6464. The Legislature finds and declares that:

(a) A significant number of children between the ages of 3 and 17 of migrant agricultural workers attend schools in California, in approximately 200 school districts in 34 counties for at least a part of each year. These children, from the least affluent segment of American society, tend to move frequently, attend school irregularly, and suffer health defects and language handicaps which significantly inhibit their progress in school. This results in many becoming early school dropouts, poorly prepared for personal growth and fulfillment or economic success or upward social mobility.

(b) The problems of children of migrant agricultural parents are of such magnitude and severity that local school districts have been unable to solve them with the resources normally available. It is, therefore, necessary for the state to aid local school districts through regional coordinating offices.

6464.2. As used in this article, "migrant child," means a child who has moved with his family from one school district to another during the past school year, in order that a parent or other member of his immediate family might secure employment in agriculture or in related food processing activities.

(a) Instructional activities on a regular and extended year basis shall be designed to identify, diagnose, and provide treatment for academic deficiencies of migrant children. Special emphasis will be given to oral and written communications, reading and mathematics. Small group or individual instruction and tutorial services will be provided to assist migrant children attain normal progress rates in all subject areas. All instructional services will be provided as supplements to regular programs of instruction provided by the public schools for all children.

(b) Health and welfare services shall be designed to identify, diagnose, and provide treatment for conditions of a physical, including dental, emotional, or environmental, nature which interfere with the learning processes of migrant children. Insofar as possible, existing community resources will be utilized to provide these services.

(c) Preservice and in-service education of professional and nonprofessional personnel shall be planned to prepare school administrators, teachers, aides and other personnel to meet the special needs of migrant children.

(d) Supportive services including transportation, family liaison, and other services necessary to the success of the programs.

(e) Child development activities for infants and prekindergarten migrant children, too young to participate in regular instructional

services.

(f) The active involvement of parents, teachers, and community representatives in the local implementation of migrant education programs.

6464.4. Services to all migrant children will be provided by the 1976–1977 school year.

(a) Services provided by the state plan will not reduce or replace services provided by local school districts or other governmental or private agencies.

(b) Services shall be coordinated with all existing federal, state, and local resources available to migrant families.

6464.5. In implementing the plan adopted by the State Board of Education, the Superintendent of Public Instruction is authorized to:

(a) Contract with county superintendents of schools or local educational agencies to supply services to migrant children residing within specified geographical regions.

(b) Enter into agreements or otherwise cooperate with other states or agencies of the state or the federal government in coordinating services to migrant children including participation in or utilization of the Interstate Records Transfer System.

6464.6. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article.

Where the conduct constituting a violation is of a continuing nature, each day of such conduct is a separate and distinct violation. In determining the amount of the civil penalty, the court shall consider all relevant circumstances, including, but not limited to, the extent of harm caused by the conduct constituting a violation, the nature and persistence of such conduct, the length of time over which the conduct occurred, and any corrective action taken by the defendant.

(c) If such an action is brought by the Attorney General, one-half of the penalty collected pursuant to this section shall be paid to the treasurer of the county in which the judgement was entered, and one-half to the State Treasurer. If brought by a district attorney or county counsel, the entire amount of the penalty collected shall be paid to the treasurer of the county in which the judgment was entered. (b) Every milk product or product resembling a milk product containing any ingredient other than a milk product, when packaged for intended sale, shall bear a label stating the common or usual name of each ingredient in descending order of predominance by weight. Any spice, flavoring, or coloring may be designated as spice, flavoring, or coloring without naming the ingredient of each one.

(c) The director shall, after public hearing, by regulations, establish requirements for ingredient labeling of milk products and products resembling milk products specified in subdivision (b), and for the form and placement of such ingredient statement on packages.

(b) If a deposit or similar charge is paid by the buyer of the contents with respect to returnable containers assessable in the manner provided by this section, the cash value of such returnable containers after initial use shall be the cost of such containers, less depreciation, but shall not be less than the deposit or similar charge.

(c) As used in this section the term "returnable containers" means containers used to package soft drink beverages and of a kind customarily returned by the buyer of the contents for reuse.

SEC. 2. This act codifies the proper assessment procedures followed in a majority of the counties, and the Legislature finds that it is necessary to correct the improper procedures followed in other counties, in order that returnable soft drink containers will be assessed and taxed fairly and uniformly throughout the state. Since any losses in property tax revenues resulting from this act will be caused by a shift from improper to proper assessment procedures, no payments shall be made to local government as compensation for such losses pursuant to Section 2163 or 2229 of the Revenue and Taxation Code, nor shall any payments be made to compensate for additional costs pursuant to Section 2164.3 or 2231 of such code.

The expenses necessarily incurred by the members of the Judicial Criminal Justice Planning Committee in the performance of their duties under this title shall be paid by the Judicial Council, but it shall be reimbursed by the Office of Criminal Justice Planning to the extent that federal funds can be made available for that purpose. Staff support for the committee's activities shall be provided by the Judicial Council, but the cost of that staff support shall be reimbursed by the Office of Criminal Justice Planning to the extent that federal funds can be made available for that purpose.

13834. The committee shall report annually, on or before December 31 of each year, to the Governor and to the Legislature on items affecting judicial system improvements.

SEC. 2. Title 6.5 (commencing with Section 13900) is added to

Part 4 of the Penal Code, to read:

TITLE 6.5. LOCAL CRIMINAL JUSTICE PLANNING

13900. The Legislature finds and declares:

(a) That crime is a local problem that must be dealt with by state and local governments if it is to be controlled effectively.

(b) That criminal justice needs and problems vary greatly among the different local jurisdictions of this state.

(c) That effective planning and coordination can be accomplished only through the direct, immediate and continuing cooperation of local officials charged with general governmental and criminal justice agency responsibilities.

(d) That planning for the efficient use of criminal justice resources requires a permanent coordinating effort on the part of local governments and local criminal justice agencies.

13901. For the purposes of coordinating local criminal justice activities and planning for the use of state and federal action funds made available through any grant programs, each county in California shall constitute a planning district upon execution of a joint powers agreement or arrangement acceptable to the county and to at least that one-half of the cities in the county which contain at least one-half of the population of the county, except that contiguous counties may combine as a single planning district upon execution of a joint powers agreement or other arrangement acceptable to the participating counties and to at least that one-half of the cities in each county which contain at least one-half of the population of each county.

If no combination of one-half of the cities of a county contains at least one-half of the population of the county, then agreement of any half of the cities in such county is sufficient to enable execution of joint powers agreements or other acceptable arrangements by such county and such cities for constituting planning districts.

13902. Planning district boundaries shall be those established pursuant to federal acts relating to criminal justice planning, except that alterations which change the number of planning districts in the state as of July 1, 1971, shall be permitted by agreement of all units of government directly affected by the alterations and by approval of the California Council on Criminal Justice.

13903. Planning districts may be the recipients of criminal justice planning or coordinating funds made available to units of general local government or combinations of units of general local government by federal or state law. Such planning districts shall establish local criminal justice planning boards, but shall not be obligated to finance their activities in the event that federal or state support of such activities is lacking.

13904. The membership of each local board shall be consistent with federal acts and guidelines, provided that compliance with such requirements shall, insofar as possible, be reconciled with the

composition of the presently established local boards, and provided that elected local legislative officials, elected officials of local executive agencies responsible for the administration of justice, and officials of the judicial branch of government shall be represented on each local board.

13905. Except as otherwise provided in Section 13904, representatives of the public may be appointed to local criminal justice planning boards, of a number not to exceed the number of representatives of government on that board. Such public members may be nominated by community organizations concerned with criminal justice and appointed by the local criminal justice planning boards.

13906. Planning boards may contract with other public or private entities for the performance of services, may appoint an executive officer and other employees, and may receive and expend funds in order to carry out planning and coordinating responsibility.

CHAPTER 1048

An act to amend Section 19530 of the Business and Professions Code, relating to horseracing.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 19530 of the Business and Professions Code is amended to read:

19530. The board shall have the authority to allocate racing weeks to an applicant or applicants pursuant to the provisions of this article and Article 6.5 (commencing with Section 19540) and to specify such racing days and dates for horseracing meetings as will be in the public interest in maximizing revenue to the state and providing uniformity of regulation for each type of horseracing, and will subserve the purposes of this chapter. The decision of the board as to such racing days and dates shall be subject to change, limitation or restriction only by the board and no municipality or county shall adopt or enforce any ordinance or regulation which has or may have the effect of directly or indirectly regulating, limiting or restricting the racing days and dates of horseracing meetings.

SEC. 2. The amendment of Section 19530 of the Business and Professions Code made by this act does not constitute a change in, but is declarative of, existing law.

CHAPTER 1049

An act to amend, add, and repeal Section 15520 of, and to add and repeal Section 15520.5 of, the Corporations Code, relating to partnerships, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 15520 of the Corporations Code is amended to read:

15520. As to a partnership not governed by Section 15520.5 the following provisions shall apply: The retirement, death, insanity, removal or failure of reelection of a general partner dissolves the partnership, unless the business is continued by the remaining general partners and/or the general partner or general partners elected in place thereof

(a) Under a right so to do stated in the certificate, or

(b) With the consent of all members.

This section shall remain in effect only until December 31, 1975, and after that date this section is repealed.

SEC. 1.5. Section 15520 is added to the Corporations Code, to read:

15520. The retirement, death, insanity, removal or failure of reelection of a general partner dissolves the partnership, unless the business is continued by the remaining general partners and/or the general partner or general partners elected in place thereof

(a) Under a right so to do stated in the certificate, or

(b) With the consent of all members.

SEC. 2. Section 15520.5 is added to the Corporations Code, to read:

15520.5. If the partnership is formed on or after November 1, 1973, or if the partnership is formed prior to that date and amends its certificate to specifically elect to be governed by this Section 15520.5 rather than Section 15520, the following provision shall apply: The retirement, death or insanity of a general partner dissolves the partnership, unless the business is continued by the remaining general partners

(a) Under a right so to do stated in the certificate, or

(b) With the consent of all members.

This section shall remain in effect only until December 31, 1975, and after that date this section is repealed.

SEC. 2.5. Section 1.5 of this act shall become operative on January 1, 1976.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting such necessity are:

The Internal Revenue Service will no longer give satisfactory private rulings on the partnership tax status of limited partnerships formed under the Uniform Limited Partnership Act of the State of California because Section 15520 of the Corporations Code does not precisely conform to Section 20 of the Uniform Limited Partnership Act. The Internal Revenue Service takes the position that Section 15520 of the Corporations Code, as amended in 1963, may permit the corporate characteristic of "continuity of life" because it specifically allows the election of new general partners in place of former general partners under a right so to do stated in the certificate. The Legislature is of the opinion that the Internal Revenue Service is incorrect in its interpretation of Section 15220. However, in order to resolve this question at the earliest possible time and therefore promote the orderly and uniform application of the Uniform Limited Partnership Act, it is necessary that this legislation take effect immediately.

CHAPTER 1050

An act to amend Section 13200.53 of, and to add Section 13220.26 to, the Education Code, relating to community colleges.

[Approved by Governor October 1, 1973. Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 13200.53 of the Education Code is amended to read:

13200.53. The authority over credentials and certificates which authorize service both in grades 13 and 14 and in other grades shall be divided between the board of governors and the Board of Education or the Commission for Teacher Preparation and Licensing. The board of governors shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for service in grades 13 and 14. Whenever in this division reference is made to the "State Board of Education" or the "Commission for Teacher Preparation and Licensing" with respect to the administration of community college credentials, such reference shall be deemed to mean the Board of Governors of the California Community Colleges. The Board of Education or the Commission for Teacher Preparation and Licensing shall have the authority to issue, suspend, revoke, or take any other lawful action on such credentials in relation to their authorization for services in grades other than grades 13 and 14.

SEC. 2. Section 13220.26 is added to the Education Code, to read:

13220.26. The Board of Governors of the California Community

Colleges may issue an eminence credential to any person who has achieved eminence in a field of endeavor, authorizing service by such person in a community college district. The Board of Governors of the California Community Colleges shall adopt criteria for determining eminence.

Minimum requirements for the issuance of an eminence credential shall be:

(a) Certification by the governing board of a community college district to the Board of Governors of the California Community Colleges that the board, the faculty of the related department or division, and the administration of the college have concurred that a need exists and have concurred in the determination of eminence in accordance with established criteria

If concurrence cannot be reached as in this subdivision, the governing board of employing district may request the credential using the alternate requirement contained in subdivision (b).

(b) A certification from the employing district governing board to the Board of Governors of the California Community Colleges that a need exists. The determination of eminence shall be made, based on established criteria, by a statewide committee representative of the administration, boards, and faculty appointed by the Board of Governors of the California Community Colleges.

Such credential shall authorize the holder to perform the following functions:

(1) Teach only in the community college district that has requested the credential and certified to the need thereof.

(2) Teach either graded courses or classes for adults in the subject matter field for which the credential was issued.

The credential may be issued authorizing service for a two-year period. The credential may be renewed for successive two-year periods, pursuant to the procedure set forth in this section.

Any issuance of an eminence credential shall comply with the provisions of Sections 13169, 13169.1, and 13169.2.

The people of the State of California do enact as follows:

SECTION 1. Section 6060 of the Business and Professions Code is amended to read:

(2) Reached the age of 23 years and have attained in apparent intellectual ability the equivalent of at least two years of the college work hereinabove defined. Such equivalent with respect to a person applying for admission to a law school accredited by the examining committee shall be determined by the dean or faculty thereof and with respect to all other persons shall be determined by the examining committee. The determination by the examining committee may be made after a personal interview with the person or the examining committee may require him to pass a written examination. Such examination may be given by the examining committee, or, if the examining committee so elects, the examination may be given under its supervision by such members of the faculty of a college as the examining committee may select or by the Department of Education of this state; provided, however, that any person who receives an adverse determination by the committee without an examination or fails an examination given directly by the

An applicant who is required to take such first-year examination shall not receive credit for his first year of law study until he has passed such examination; nor shall he receive credit for any law study subsequent to the first year, and before he shall have passed such examination, unless for good cause in a particular case the committee decides that credit should be given for such subsequent study or for some part thereof.

The examination which the students in their first year of law studies are required to take shall be given twice a year at reasonable intervals.

SECTION 1. Section 7451 of the Education Code is amended to read:

7451. The county superintendent of schools of each county, with the consent of the State Board of Education, may establish and maintain, or with one or more counties may establish and maintain, at least one regional occupational center, or regional occupational program, in the county to provide education and training in vocational courses. The governing boards of any school districts maintaining high schools in the county may, with the consent of the State Board of Education and of the county superintendent of schools, cooperate in the establishment and maintenance of a regional occupational center, or regional occupational program, except that if such a school district also maintains five hundred (500) or more schools its governing board may establish and maintain one or more regional occupational centers, or regional occupational programs, without such restrictions. A regional occupation center or regional occupation program may be established by two or more school districts maintaining high schools through the use of the staff and facilities of a community college or community colleges serving the same geographic area as the school districts maintaining the high schools, with the consent of the State Board of Education and the county superintendent of schools. The establishment and maintenance of a regional occupational center, or regional occupational program, by two or more school districts may be undertaken pursuant to Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code. If a school district or school districts establish and maintain such a regional occupational center, or regional occupational program, pursuant to this chapter, the county superintendent of schools may, with the consent of the State Board of Education, establish and maintain a separate regional occupational center or centers, or regional occupational program or programs.

The county superintendent of schools may supervise establishment of the center or program.

SEC. 2. Section 7456.5 is added to the Education Code, to read:

7456.5. If a single school district located in a class 2 county, as defined in Section 756, and having an average daily attendance of 100,000 or more, establishes and maintains a regional occupational center or regional occupational program pursuant to Section 7451, the amount computed pursuant to subdivision (a) of Section 20904 shall be deemed to have been increased by the amount raised within the district by a countywide tax for the support of such a center or program during the 1972–73 fiscal year by the county superintendent of schools. The other computations required by Article 6 (commencing with Section 20902) of Chapter 3 of Division 16 shall be adjusted to appropriately reflect such increase. No work shall be done and no charges shall accrue before authorization to proceed is obtained from the customer. No charge shall be made for work done or parts supplied in excess of the estimated price without the oral or written consent of the customer which shall be obtained at some time after it is determined that the estimated price is insufficient and before the work not estimated is done or the parts not estimated are supplied. Nothing in this section shall be construed as requiring an automotive repair dealer to give a written estimated price if the dealer does not agree to perform the requested repair.

(b) The automotive repair dealer shall include with the written

estimated price a statement of any automotive repair service which, if required to be done, will be done by someone other than the dealer or his employees. No service shall be done by other than the dealer or his employees without the consent of the customer, unless the customer cannot reasonably be notified. The dealer shall be responsible, in any case, for any such service in the same manner as if he or his employees had done the service.

SECTION 1. Chapter 2.4 (commencing with Section 1417) is added to Division 2 of the Health and Safety Code, to read:

CHAPTER 2.4. QUALITY OF LONG-TERM HEALTH FACILITIES

1417. This chapter shall be known and may be cited as the Long-Term Care, Health, Safety, and Security Act of 1973.

1417.1. It is the intent of the Legislature in enacting this chapter to establish (1) a citation system for the imposition of prompt and effective civil sanctions against long-term health care facilities in violation of the laws and regulations of this state relating to patient care; (2) an inspection and reporting system to insure that long-term health care facilities are in compliance with state statutes and regulations pertaining to patient care; and (3) a provisional licensing mechanism to insure that full-term licenses are issued only to those long-term health care facilities that meet state standards relating to patient care.

1418. As used in this chapter:

(a) "Long-term health care facility" means any facility licensed pursuant to Chapter 2 (commencing with Section 1250) which (1) maintains and operates 24-hour skilled nursing services for the care and treatment of chronically ill or convalescent patients, including mental, emotional, or behavioral problems, mental retardation, or alcoholism; or (2) provides supportive, restorative, and preventive health services in conjunction with a socially oriented program to its residents, and which maintains and operates 24-hour services including board, room, personal care, and intermittent nursing care.

"Long-term health care facility" includes nursing homes, skilled nursing facilities, extended care facilities, intermediate care facilities, and shall not include acute care hospital or other licensed facilities except for that distinct part of such hospital or facility which provides nursing home, skilled nursing facility, extended care facility, or intermediate care facility services.

(b) "Licensee" means the holder of a license issued under Chapter 2 (commencing with Section 1250) for a long-term health care facility.

1419. Any person may request an inspection of any long-term health care facility in accordance with the provisions of this chapter by giving notice to the state department of an alleged violation of applicable requirements of state law. Any such notice shall be in writing signed by the complainant and shall set forth with reasonable particularity the matters complained of. The substance of the complaint shall be provided to the licensee no earlier than at the commencement of the inspection. Neither the substance of the complaint provided the licensee nor any copy of the complaint or record published, released, or otherwise made available to the licensee shall disclose the name of any individual complainant or other person mentioned in the complaint, except the name or names of any duly authorized officer, employee, or agent of the state department conducting the investigation or inspection pursuant to this chapter, unless such complainant specifically requests the release of such name or names or the matter results in a judicial proceeding.

1420. Upon receipt of a complaint, the state department shall assign an inspector to make a preliminary review of the complaint and shall notify the complainant of the name of such inspector. Unless the department determines that the complaint is willfully intended to harass a licensee or is without any reasonable basis, it shall make an onsite inspection within 10 working days of the receipt of the complaint. In either event, the complainant shall be promptly informed of the department's proposed course of action. Upon the request of either the complainant or the department, the complainant or his representative, or both, may be allowed to accompany the inspector to the site of the alleged violations during his tour of the facility, unless the inspector determines that the privacy of any patient would be violated thereby.

1421. (a) Any duly authorized officer, employee, or agent of the state department may enter and inspect any long-term health care facility, including, but not limited to, interviewing residents and reviewing records, at any time to enforce any provision of this chapter. Inspections conducted pursuant to complaints filed with the state department shall be conducted in such a manner as to ensure maximum effectiveness. No advance notice shall be given of any inspection conducted pursuant to this chapter unless previously and specifically authorized by the director or required by federal law.

(b) Any public employee giving such advance notice in violation

of this section shall be deemed to be in violation of subdivision (t) of Section 19572 of the Government Code and shall be suspended from all duties without pay for a period determined by the director.

1422. The state department shall, in addition to any inspections conducted pursuant to complaints filed pursuant to Section 1419, conduct at least two general inspections, and as many additional inspections as may be necessary, in every calendar year of all long-term health care facilities in the state without providing notice of such inspections.

1423. If upon inspection or investigation the director determines that a long-term health care facility is in violation of any statutory provision or rule or regulation relating to the operation or maintenance of such facility, except with respect to violations determined to have only a minimal relationship to safety or health pursuant to Section 1427, he shall promptly, but not later than one day after the date of inspection, issue a citation to the licensee. The citation shall be served upon the licensee personally or by registered mail in accordance with subdivision (c) of Section 11505 of the Government Code. A copy of the citation shall also be sent to each complainant. Each citation shall be in writing and shall describe with particularity the nature of the violation, including a reference to the statutory provision, standard, rule or regulation alleged to have been violated. The citation shall fix the earliest feasible time for the elimination of the condition constituting the violation, where appropriate.

1424. Citations issued pursuant to this chapter shall be classified according to the nature of the violation and shall indicate the classification on the face thereof, as follows:

(a) Class "A" violations are violations which the state department determines present an imminent danger to the patients or guests of the long-term health care facility or a substantial probability that death or serious physical harm would result therefrom. A physical condition or one or more practices, means, methods, or operations in use in a long-term health care facility may constitute such a violation. The condition or practice constituting a class "A" violation shall be abated or eliminated immediately, unless a fixed period of time, as determined by the state department, is required for correction. A class "A" violation is subject to a civil penalty in an amount not less than one thousand dollars ($1,000) and not exceeding five thousand dollars ($5,000) for each and every violation.

(b) Class "B" violations are violations which the state department determines have a direct or immediate relationship to the health, safety, or security of long-term health care facility patients, other than class "A" violations. A class "B" violation is subject to a civil penalty in an amount not less than fifty dollars ($50) and not exceeding two hundred fifty dollars ($250) for each and every violation. A citation for a class "B" violation shall specify the time within which the violation is required to be corrected. If a class "B" violation is corrected within the time specified, no civil penalty shall

be imposed.

1425. Where a licensee has failed to correct a violation within the time specified in the citation, the state department shall assess the licensee a civil penalty in the amount of fifty dollars ($50) for each day that such deficiency continues beyond the date specified for correction.

1426. After consultation with industry, professional, and consumer groups affected thereby, but not later than three months after the effective date of this chapter, the director shall publish proposed regulations setting forth the criteria and, where feasible, the specific acts that constitute class "A" and "B" violations under this chapter. Not later than six months after the effective date of this chapter, the director shall adopt regulations setting forth criteria and, where feasible, specific acts constituting class "A" and "B" violations. The regulations shall be adopted as prescribed in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, except that such regulations shall not be adopted as emergency regulations pursuant to subdivision (b) of Section 11421 of the Government Code and shall not mandate a quality of care or new procedures which were not required on January 1, 1974, without providing additional reimbursement if the change in quality of care or the new procedures entail substantial new costs.

For purposes of this section, "new costs" shall not include costs which are the direct or indirect consequence of meeting the requirements of the citation system established under this chapter.

1427. The director shall prescribe procedures for the issuance of a notice of violation with respect to violations having only a minimal relationship to safety or health.

1428. (a) If a licensee desires to contest a citation or the proposed assessment of a civil penalty therefor, he shall within four business days after service of the citation notify the director in writing of his request for an informal conference with the designee of the director for the county in which the cited long-term health care facility is located. The director's designee shall hold, within four business days from the receipt of the request, an informal conference, at the conclusion of which he may affirm, modify, or dismiss the citation or proposed assessment of a civil penalty. If the director's designee modifies or dismisses the citation or proposed assessment of a civil penalty, he shall state with particularity in writing his reasons for such action, and shall immediately transmit a copy thereof to each party to the original complaint. If the licensee desires to contest a decision made after the informal conference, he shall inform the director in writing within four business days after he receives the decision by the director's designee. If the licensee fails to notify the director in writing that he intends to contest the citation or the proposed assessment of a civil penalty therefor or the decision made by a director's designee after an informal conference within the time specified in this subdivision, the citation or the proposed

assessment of a civil penalty or the decision by a director's designee after an informal conference shall be deemed a final order of the state department and shall not be subject to further administrative review.

(b) A licensee may, in lieu of contesting a citation pursuant to this section, transmit to the department the minimum amount specified by law for each violation within four business days after the issuance of the citation.

(c) If a licensee notifies the director that he intends to contest a citation, the director shall immediately notify the Attorney General. Upon such notification, the Attorney General shall promptly take all appropriate action to enforce the citation and recover the civil penalty prescribed thereon, and shall take such other action as he shall deem appropriate, in the superior court of the county in which the long-term health care facility is located.

(d) In assessing the civil penalty for each count of violation, a court shall consider the nature of the violation and the seriousness of the effect of such violation upon the effectuation of the purposes and provisions of this chapter.

(e) The civil penalties authorized by this chapter shall be trebled for a second or subsequent violation occurring within any 12-month period, if a citation was issued for the previous violation occurring within such period and a civil penalty was assessed therefor.

(f) Actions brought under the provisions of this chapter shall be set for trial at the earliest possible date and shall take precedence on the court calendar over all other cases except matters to which equal or superior precedence is specifically granted by law. The times for responsive pleadings and for hearings in any such proceedings shall be set by the judge of the court with the object of securing a decision as to such matters at the earliest possible time.

1429. (a) Each citation for a class "A" violation specified in subdivision (a) of Section 1424 which is issued pursuant to this section and which has become final, or a copy or copies thereof, shall be prominently posted, as prescribed in regulations issued by the director, until the violation is corrected to the satisfaction of the state department up to a maximum of 120 days. The citation or copy shall be posted in a place or places in plain view of the patients in the long-term health care facility, persons visiting those patients, and persons who inquire about placement in the facility.

(b) Each citation for class "A" and class "B" violations specified in subdivisions (a) and (b) of Section 1424 which is issued pursuant to this section and which has become final, or a copy or copies thereof, shall be retained by the licensee at the facility cited until the violation is corrected to the satisfaction of the department. Each such citation shall be made promptly available by the licensee for inspection or examination by any member of the public who so requests. In addition, every licensee shall post in a place or places in plain view of the patient in the long-term health care facility, persons visiting those patients, and persons who inquire about placement in

01600 388610 586

the facility, a prominent notice informing such persons that copies of all final uncorrected violations issued by the department to the facility will be made promptly available by the licensee for inspection by any person who so requests.

1430. Except where the state department has taken action and the violations have been corrected to its satisfaction, any licensee who commits a class "A" or "B" violation may be enjoined from permitting the violation to continue or may be sued for civil damages within a court of competent jurisdiction. Such actions for injunction or civil damages, or both, may be prosecuted by the Attorney General in the name of the people of the State of California upon his own complaint or upon the complaint of any board, officer, person, corporation or association, or by any person acting for the interests of itself, its members or the general public. The amount of civil damages which may be recovered in an action brought pursuant to this section shall not exceed the maximum amount of civil penalties which could be assessed on account of the violation or violations.

The remedies specified in this section shall be in addition to any other remedy provided by law.

1431. It is a misdemeanor for any person to do any of the following:

(a) Willfully prevent, interfere with, or attempt to impede in any way the work of any duly authorized representative of the state department in the lawful enforcement of any provision of this chapter.

(b) Willfully prevent or attempt to prevent any such representative from examining any relevant books or records in the conduct of his official duties under this chapter.

(c) Willfully prevent or interfere with any such representative in the preserving of evidence of any violation of any of the provisions of this chapter or of the rules and regulations promulgated under this chapter.

1432. (a) No licensee shall discriminate or retaliate in any manner against a patient or employee in its long-term health care facility on the basis or for the reason that such patient or employee or any other person has initiated or participated in any proceeding specified in this chapter. A licensee who violates this section is subject to a civil penalty of no more than five hundred dollars ($500), to be assessed by the director and collected in the manner provided in Section 1430.

(b) Any attempt to expel a patient from a long-term health care facility, or any type of discriminatory treatment of a patient by whom, or upon whose behalf, a complaint has been submitted to the state department or any proceeding instituted under or related to this chapter within 120 days of the filing of the complaint or the institution of such action, shall raise a rebuttable presumption that such action was taken by the licensee in retaliation for the filing of the complaint.

(c) No licensee shall be cited for any violation caused by any

person licensed pursuant to the State Medical Practice Act (Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code) if such person is independent of and not connected with the licensee and the licensee shows that he has exercised reasonable care and diligence in notifying such persons of their duty to the patients in the licensee's long-term health care facility.

1433. The remedies provided by this chapter are cumulative, and shall not be construed as restricting any remedy, provisional or otherwise, provided by law for the benefit of any party, and no judgment under this chapter shall preclude any party from obtaining additional relief based upon the same facts.

1434. Commencing in 1974, the state department shall, on or before February 1 of each year, notify all public agencies which refer patients to long-term health care facilities of all of the long-term health care facilities in the area found upon inspection within the previous 12-month period to be without class "A" or "B" violations. Public agencies shall give priority to such long-term health care facilities in referring publicly assisted patients. No public agency shall refer patients to long-term health care facilities with any uncorrected class "A" violations or five or more uncorrected class "B" violations, except those long-term health care facilities which the director may exempt because of a lack of facilities of the same type in the area sufficient to satisfy the demand for services provided by such type of facilities.

1435. The state department shall annually prepare and make available in all offices of the facilities licensing section a report listing all licensees by name and address, indicating (1) the number of citations and the nature of each citation issued to each licensee during the previous 12-month period and the status of any action taken pursuant to each citation, including penalties assessed, and (2) the nature and status of action taken with respect to each uncorrected violation for which a citation is outstanding.

1436. On or before July 1, 1974, the state department shall provide for additional and ongoing training for inspectors charged with implementation of this chapter in investigative techniques and standards relating to the quality of care provided by long-term health care facilities. The investigative-technique element of such training shall be adopted after consultation with the Department of Justice and such investigative training may, but need not, be provided through a contract with the Department of Justice.

1437. If a long-term health care facility has not been previously licensed pursuant to Chapter 2 (commencing with Section 1250), the state department may only provisionally license such facility as provided in this section. A provisional license to operate a long-term health care facility shall terminate six months from the date of issuance. Within 30 days of the termination of a provisional license, the state department shall give such facility a full and complete inspection, and, if the facility meets all applicable requirements for

licensure, a regular license shall be issued. If the long-term health care facility does not meet the requirements for licensure but has made substantial progress towards meeting such requirements, as determined by the state department, the initial provisional license shall be renewed for six months. If the state department determines that there has not been substantial progress towards meeting licensure requirements at the time of the first full inspection provided by this section, or, if the state department determines upon its inspection made within 30 days of the termination of a renewed provisional license that there is lack of full compliance with such requirements, no further license shall be issued.

If an applicant for a provisional license to operate a long-term health care facility has been denied provisional licensing by the state department, he may contest such denial by filing a statement of issues, as provided in Section 11504 of the Government Code, and the proceedings to review such denial shall be conducted pursuant to the provisions of Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code.

1438. On or before January 1, 1977, the state department shall review the effectiveness of the enforcement of the provisions of this chapter in maintaining the quality of care provided by long-term health care facilities and shall submit a report thereon to the Legislature together with any recommendations of the state department for additional legislation which it deems necessary to improve the enforcement of the provisions of this chapter or to enhance the quality of care provided by such facilities.

1439. Any writing received, owned, used, or retained by the state department in connection with the provisions of this chapter is a public record within the meaning of subdivision (d) of Section 6252 of the Government Code, and, as such, is open to public inspection pursuant to the provision of Sections 6253, 6256, 6257, and 6258 of the Government Code. However, the names of any persons contained in such records, except the names of duly authorized officers, employees, or agents of the state department conducting an investigation or inspection in response to a complaint filed pursuant to this chapter, shall not be open to public inspection and copies of such records provided for public inspection shall have such names deleted.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2164.3 of the Revenue and Taxation Code.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

(c) Subject to the provisions of Section 17305.5, there shall also be provided the sum the Superintendent of Public Instruction shall certify as necessary to reimburse school districts, county superintendents of schools, the California Youth Authority and the State Department of Education for the actual cost of replacing vehicles and simulators used exclusively in the laboratory phase of driver education programs, but the amount shall not exceed three-fourths of that part of the actual cost of instructing pupils in the laboratory phase of driver education during the preceding fiscal year which was: (1) in excess of sixty dollars ($60) per pupil instructed, and (2) expended by the district, the county superintendent of schools, the California Youth Authority and the State Department of Education in replacing such vehicles and simulators. Reimbursement for vehicles shall be computed for only that portion of the total mileage used exclusively in the laboratory phase of driver education programs.

(d) For purposes of computing reimbursement, whenever a school district, a county superintendent of schools, the California Youth Authority, or the State Department of Education replaces a driver training vehicle or simulator purchased by the district with a vehicle or simulator that is a gift or loan, the purchase price of such new or acquired equipment shall be deemed to be the market value of the vehicle or simulator acquired through a gift or loan.

When the order to work is made by a referee or a traffic hearing officer, it shall be approved by a judge of the juvenile court.

Upon order of the State Controller, the money shall be deposited in the State Treasury as follows:

[Approved by Governor October 1, 1973. Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 30805 is added to the Public Utilities Code, to read:

30805. Any limitation on taxes under this article shall not apply to the special taxes authorized under Section 30834.

SEC. 2. Section 30806 of the Public Utilities Code, is amended to read:

30806. The taxes authorized by this article and required to be levied for bonds of the district and bonds for improvement districts therein under Sections 30802, 30803, and 30804 shall be levied to the extent revenues or taxes are not available from other sources to meet these obligations or any of them; and no taxes of any kind or nature whatever shall be levied to pay operating expenses of the district or to provide for repairs, maintenance, and depreciation of works owned or operated by the district; and no taxes shall be levied for other district purposes unless the board shall have authorized the same by ordinance adopted by a vote of two-thirds of all members of the board and such ordinance shall be approved by a majority of the votes cast by the qualified electors of the district voting on the ordinance at an election called for that purpose. The board, in such ordinance, shall provide the maximum tax rate or rates for such other district purposes, specified in such ordinance, and may provide for limitations upon the time or times which such additionally authorized taxes shall be in effect. Any maximum tax rate adopted pursuant to this section may be increased when authorized by the board by ordinance adopted in the manner and by the vote stated in this section and approved by a majority of the votes cast by the qualified electors of the district voting on the ordinance at an election called for that purpose.

SEC. 3. Section 30820 of the Public Utilities Code is amended to read:

The limitations of Section 30825 shall apply only in the absence of the approval of the qualified electors required by this part or any other applicable law.

SEC. 4. Section 30821 of the Public Utilities Code is amended to read:

30821. Except as authorized under Article 3 (commencing with Section 30830), no taxes of any kind or nature whatever shall be levied to pay operating expenses of the district or to provide for repairs, maintenance, and depreciation of works owned or operated by the district. No taxes of any kind or nature authorized by this article shall be levied to pay principal and interest on bonds or other obligations of any improvement district formed pursuant to Article 5 (commencing with Section 30960) of Chapter 7.

SEC. 5. Section 30822 of the Public Utilities Code is amended to read:

30822. The board, in such ordinance, shall state the nature of the tax to be imposed, shall provide the tax rate or rates or the maximum tax rate or rates and shall specify the purpose or purposes for which the revenue derived from the tax will be used. The board, in such ordinance, may provide for limitations upon the time when such tax shall be in effect. (b) Notwithstanding the provisions of subsection (a), whenever a bond election is held to authorize a bonded indebtedness pursuant to Article 1 (commencing with Section 30900) of Chapter 7, the ordinance calling the election may include a statement of which, if any, of the special taxes permitted by Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code shall be levied and used to pay principal of and interest on the bonds, including sinking fund payments and to create or maintain any reserve fund provided therefor. A vote in favor of the issuance of the bonds shall authorize the use of the tax or taxes for such purposes and no other or further election need be held to authorize the board to levy and collect or provide for the collection of and to make such use of the tax or taxes. The board, in the ordinance calling the bond election, shall state the nature of such additional tax or taxes and shall state the maximum rate or rates thereof. Such tax or taxes shall continue until the bonds and the interest thereon are paid or until a fund sufficient for the payment thereof or for the redemption thereof prior to maturity, with any premiums required therefor, has been created and set aside for that purpose.

SEC. 6. Article 3 (commencing with Section 30830) is added to Chapter 6 of Part 3 of Division 10 of the Public Utilities Code, to read:

Article 3. Special Taxes for Capital Financing

30830. The power of taxation granted by this article is in addition to and is an alternative to any other provisions of this part and is intended to furnish a separate method of financing the fiscal needs of the district at a period when the district is unable to operate its facilities without a subsidy.

30831. Notwithstanding any other provisions of this part, in addition to the powers of taxation granted by Article 1 (commencing

with Section 30800), Article 2 (commencing with Section 30820), and Article 4 (commencing with Section 30850) and subject to the requirements set forth in Section 30638, the board may impose one or more of the special taxes authorized by Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code in the amount and manner provided in and pursuant to this article.

30832. Taxes may be levied pursuant to this article for capital financing, as defined in Section 30839, in order to provide the district and included municipal operators with sufficient flexibility to respond to their current problems of limited sources of available funds.

30833. Taxes may be levied pursuant to this article for capital financing, which may consist of either pay-as-you-go financing or limited tax bonds in such proportion as determined by the board as the result of a single authorization and approval of a specified tax.

30834. No taxes authorized by this article shall be levied to pay limited tax bonds or for pay-as-you-go financing unless the board shall have authorized the same by ordinance adopted by a vote of two-thirds of all members of the board and such ordinance shall be approved by a majority of the votes cast by the qualified electors of the district voting on the proposition at an election called for that purpose. The board, in such ordinance, shall state the nature of the tax to be imposed, shall provide the tax rate or rates or the maximum tax rate or rates, and shall specify that the revenue derived from the tax will be used for capital financing consisting of pay-as-you-go financing or for limited tax bonds, or both.

The board is authorized to levy a maximum tax rate of ½ percent under this article and the board may state the maximum tax rate in terms of not to exceed ½ percent, or any lesser percentage thereof, notwithstanding Section 37021 of the Revenue and Taxation Code. The district shall not levy the tax at a rate other than ½ or ¼ percent, unless specifically authorized by the Legislature. The board, in such ordinance, may provide for limitations upon the time when the tax shall be in effect, or the board may provide that the tax shall be in effect until repealed. Any tax rate or maximum tax rate adopted pursuant to this article, unless otherwise prohibited, may be increased when authorized by the board by ordinance adopted in the manner and by the vote stated in this section and approved by a majority of the votes cast by the qualified electors of the district voting at an election called for that purpose.

30835. The limited tax bonds permitted to be issued by this article are the bonds specified in Article 1.5 (commencing with Section 30920) of Chapter 7. The board may issue limited tax bonds in its complete discretion without a further election, but payable only from the special taxes authorized at an election pursuant to Section 30834. The provisions of Article 1.5 shall apply to limited tax bonds issued pursuant to the authority of this article, except to the extent they are inconsistent with this article and the pledge of special taxes to the limited tax bonds authorized under this article shall be

01727 389110 614

deemed to have priority over the use of any of the funds for pay-as-you-go financing except to the extent that such priority is expressly restricted.

30836. The board, in its complete discretion, may at any time order pay-as-you-go financing in lieu of the issuance of limited tax bonds. The proceeds of limited tax bonds or any taxes authorized at an election pursuant to Section 30834, may be utilized for any lawful purpose of the district, and it shall be a sufficient identification of such purposes to state in the proposition in the ordinance adopted pursuant to Section 30834 that the special taxes so authorized are for capital financing pursuant to the Southern California Rapid Transit District Law. The actual wording of the proposition on any short form of ballot card, label, or other device, regardless of the system of voting used, shall read as follows:

Rapid Transit	Yes	
	No	

The ballot may include a reference substantially as follows to identify any proposition adopted pursuant to Section 30854 and submitted at the same election:

"This proposition is a companion measure to Proposition No. ____."

The sample ballot to be mailed to the voters, under Section 10012 of the Elections Code, shall be the full proposition as set forth in the ordinance adopted pursuant to Section 30834.

30837. Subject to the limitations of Section 30840, special taxes and capital financing pursuant to this article may be used to pay depreciation of the works owned or operated by the district.

30838. The provisions of Section 30823 regarding surplus funds received from a special tax or taxes in any year shall not be applicable to capital financing under this article.

30839. "Capital financing" shall mean any financing or expenditure of special taxes pursuant to this article.

30840. All of the taxes authorized by this article raised annually shall be expended for capital facilities or other district purposes other than maintenance and operation of any facilities of the district.

30841. The Legislature may, at any time, substitute funds from a tax on motor vehicle fuel in lieu of the funds to be realized from a special tax authorized at an election under Section 30834, and the levy for the succeeding fiscal year shall be reduced by an amount not exceeding the substituted funds.

30843. The provisions of Section 30636 shall not be a condition precedent to calling an election to authorize capital financing under this article, and the failure to comply with any of the provisions of

Section 30636 shall have no effect on the validity of any special taxes for capital financing authorized thereunder. Completion of any report required under the Environmental Quality Act of 1970 (Division 13 (commencing with Section 21000) of the Public Resources Code) shall not be a condition precedent to calling an election to authorize capital financing under this article.

30844. In connection with the construction of any phase of a rapid transit system financed by capital financing, the district shall file the final report, or revision of the existing final report, pertaining to such phase prior to the commencement of construction thereof and shall provide the notice required for a final report to each affected city or county in the manner prescribed in Section 30636. Such final report, or revision of the existing final report, shall be accompanied by an environmental impact report completed in accordance with the provisions of the Environmental Quality Act of 1970 (Division 13 (commencing with Section 21000) of the Public Resources Code). No other report need be filed pursuant to that act. Any other provisions pertaining to the duties and functions of the district, including preparation and notice of preliminary reports prior to the preparation of a final report as contemplated by this section, shall be inapplicable; however, the district shall have the obligation to provide appropriate information to adequately inform the voters of the district's purposes for the authorization of a tax under Section 30834.

30844.5. Notwithstanding any provision of Article 5 (commencing with Section 30630) of Chapter 5, the district shall enter into a joint powers agreement with the Department of Transportation, in which agreement participation by the department, within its expertise, shall be provided, to the extent necessary to protect the interests of the state and mutually agreed upon by the district and the department.

30845. Failure to comply, in whole or in part, with Section 30636, prior to the issuance of limited tax bonds as part of a capital financing, shall not affect the validity of the authorization of the special taxes or of the limited tax bonds; but, as to any portion of the rapid transit system to be acquired or constructed from the proceeds of the limited tax bonds, Section 30636.4 shall be substantially complied with prior to the expenditure of the proceeds of the bonds or special taxes on such phase. No substantial change in any route determined in a revised final report for such phase following the procedure required by Section 30636.4 may be made without holding further hearings pursuant to notice given in such manner as the district may determine, if the proposed change in the system is objected to by any city or county affected thereby.

30846. The district shall prepare an environmental impact report prior to commencing the construction of any phase of the rapid transit system.

30847. At the expiration of 10 years after the imposition of any tax provided for in this article, the district shall submit to the Legislature

a report which shall set forth a procedure by which the taxes imposed pursuant to this article could be reduced. The report shall contain a statement showing the amount by which any bonds which may have been issued pursuant to this article have been retired, and shall set forth the increments by which the sales tax could be reduced as the bonds are further retired. Subject to all contractual or other rights of the bondholders, the Legislature may direct the district to reduce the tax according to the procedure set forth in the report, or to continue the tax in effect in order to (1) reduce the bonded indebtedness at a greater rate or (2) accelerate or expand construction of a rapid transit system.

30848. Annually, the Division of Mass Transportation of the Department of Transportation may review the activities, plans, programs, expenditure, and priorities of the district and included municipal operators. In addition, the Joint Legislative Audit Committee of the Legislature may conduct an annual audit of the receipts and expenditures of the district and included municipal operators. The review and audit shall be conducted at no expense to the district or the included municipal operators.

SEC. 7. Article 4 (commencing with Section 30850) is added to Chapter 6 of Part 3 of Division 10 of the Public Utilities Code, to read:

Article 4. Special Taxes for Fare Reduction and Maintenance and Operation

30850. The power of taxation granted by this article is in addition to, and is an alternative to, any other provisions of this part, and is intended to provide a method of augmenting the revenues of the district and included municipal operators to ensure the lowest possible fares.

30850.5. "Included municipal operator" shall mean a city or county, including any nonprofit corporation or other legal entity wholly owned or controlled by the city or county, which has operated continuously a public transportation system since at least January 1, 1971, and which is included, in whole or in part, within the district.

30851. Notwithstanding any other provisions of this part, in addition to the powers of taxation granted by Article 1 (commencing with Section 30800), Article 2 (commencing with Section 30820), and Article 3 (commencing with Section 30830) and subject to the requirements set forth in Section 30638, the board may impose one or more of the special taxes authorized by Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code in the manner provided and pursuant to this article.

30852. One-half of the special taxes levied pursuant to this article shall be used to reduce fares, and to eliminate transfer and zone charges by and between all included municipal operators and the district and the other half shall be used for maintenance and operation purposes.

30853. Upon the imposition of the taxes under this article:

(a) The district and each included municipal operator shall establish a flat fare of 25 cents through the 1980–81 fiscal year, except where a lesser fare is in effect at the time of the levy of the taxes, in which case, the one-half of the taxes available for fare reduction shall be used to maintain the fare in effect. Commencing with the 1981–82 fiscal year, such one-half of the taxes shall be used to establish fares at the lowest level beneath that which would be possible if such special taxes were not in effect.

(b) The district and each included municipal operator shall eliminate all transfer zone charges, and shall provide for the free interchange of passengers with each other, through the 1980–81 fiscal year.

30854. No taxes authorized by this article shall be levied unless the board shall have authorized the same by ordinance adopted by a vote of two-thirds of all members of the board and such ordinance shall be approved by a majority of the votes cast by the qualified electors of the district voting on the proposition at an election called for that purpose. The board, in such ordinance, shall state the nature of the tax to be imposed, shall provide the tax rate or rates or the maximum tax rate or rates, and shall specify that the revenue derived from the tax will be used for the purposes set forth in Section 30852. The board is authorized to levy a maximum tax rate of ½ percent under this article and the board may state the maximum tax rate in terms of not to exceed ½ percent, or any lesser percentage thereof, notwithstanding Section 32021 of the Revenue and Taxation Code. The district shall not levy the tax at a rate other than ½ or ¼ percent, unless specifically authorized by the Legislature.

30855. Revenues derived from taxes authorized by this article shall be divided by the State Board of Equalization and allocated quarterly among the district and the included municipal operators in the proportion that the total miles traveled within the district by the conveyances of each during the fiscal year immediately preceding such allocation bears to the total miles traveled within the district by the district and all included municipal operators during such period. Funds so allocated to such included municipal operators shall be used for any lawful purpose, including capital, maintenance, and operating requirements, pursuant to Section 30852. However, if the district shall establish a service within the meaning of Section 30637, which will substantially divert or reduce the patronage or revenues of any included municipal operator, or if an included municipal operator shall establish such a service which will substantially divert or reduce the patronage or revenues of the district or any other included municipal operator, the miles of such established service shall not be used in the computation of miles traveled for the purposes of this section.

30856. It shall be sufficient identification of the purposes of this article to state in the proposition in the ordinance adopted pursuant to Section 30854 that the special taxes so authorized are for "fare reduction and maintenance and operation" pursuant to the Southern

California Rapid Transit District Law. The actual wording of the proposition on any short form of ballot card, label, or other device, regardless of the system of voting, shall read as follows:

Fare Reduction and Maintenance or Operation	Yes	
	No	

The ballot may include a reference substantially as follows to identify any proposition adopted pursuant to Section 30834 and submitted at the same election:

"This proposition is a companion measure to Proposition No. ____."

The sample ballot to be mailed to the voters, under Section 10012 of the Elections Code, shall be the full proposition as set forth in the ordinance adopted pursuant to Section 30854.

SEC. 8. No appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

[Approved by Governor October 1, 1973. Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 5650 of the Welfare and Institutions Code is amended to read:

5650. On or before March 15 of each year, the board of supervisors of each county, or boards of supervisors of counties acting jointly, shall adopt, and submit to the Director of Health in the form and according to the procedures specified by the director, an annual county Short-Doyle plan for the next fiscal year for mental health services in the county or counties. The county plan submitted shall be compatible with the budget for the next fiscal year submitted by the Governor to the Legislature. The purpose of a county plan shall

be to provide the basis for reimbursement pursuant to the provisions of this division and to coordinate services as specified in this chapter in such a manner as to avoid duplication, fragmentation of services, and unnecessary expenditures.

To achieve this purpose, a county Short-Doyle plan shall provide for the most appropriate and economical use of all existing public and private agencies, licensed private institutions, and personnel. A county Short-Doyle plan shall include the fullest possible and most appropriate participation by existing city Short-Doyle programs, local public and private general and psychiatric hospitals, state hospitals, city, county, and state health and welfare agencies, public guardians, mental health counselors, alcoholism programs, probation departments, physicians, psychologists, social workers, public health nurses, psychiatric technicians, and all such other public and private agencies and personnel as are required to, or may agree to, participate in the county Short-Doyle plan.

SEC. 2. Section 5651 of the Welfare and Institutions Code, as added by Chapter 1255 of the Statutes of 1972, is amended to read:

5651. The county Short-Doyle plan shall include the following:

(a) A description of the persons to be served. This shall include the number of persons to be served in each of the following target groups: general mental disorder, children and adolescents, alcoholism, drug abuse, and mentally retarded. Each target group shall be further categorized by age groups.

(b) A description of all the comprehensive direct service programs to be provided to each target group. This shall include the state, county, and private resources providing the services, the cost of each comprehensive program, and the cost of each major program element within each comprehensive program.

(c) A description of the indirect and supportive services necessary for the operation of the county's mental health program. This shall include consultation and education services available to community agencies and professional personnel and information services to the general public, training research and evaluation. The plan shall also include the cost of each of these services. The drug abuse component of the plan shall also include but not be limited to, elements relating to prevention, detoxification, treatment and referral services, rehabilitation, and coordination of programs and other community services.

(d) A five-year projection of county needs for each target group commencing with the fiscal year for which the plan is adopted. This projection shall include a priority listing of the resources required to meet the needs of each target group, and the estimated cost of developing and acquiring these resources.

(e) A statement indicating which elements of the five-year projection the county expects to accomplish under its plan.

(f) An estimate of the county's utilization of the state hospital by numbers of admissions and patient-days for the succeeding fiscal year. This requirement shall not apply to patients for whom county

expenditures for services are not reimbursable by the state under this part.

The State Department of Health shall provide the counties, to the extent possible, the information upon which to base this estimate.

No mentally disordered person or person afflicted with alcoholism shall be admitted to a state hospital prior to screening and referral by an agency designated by the county Short-Doyle plan to provide this service.

(g) A detailed presentation of all expected expenditures of county, state, and federal government funds and all anticipated public and private revenues.

(h) A detailed description of the methodology to be used by the county for evaluating the results of the programs and services being provided for each target group. This methodology shall permit program evaluation including the relative cost and effectiveness of alternative forms and patterns of services.

(i) A description of the procedures used to insure citizen and professional involvement in the county's mental health planning process at all stages of its development. Such procedures shall be reviewed and approved by the local mental health advisory board.

This section shall become operative on the same date as Reorganization Plan No. 1 of 1970 becomes operative.

SEC. 4. Section 5661.5 is added to the Welfare and Institutions Code, to read:

5661.5. The county Short-Doyle plan shall include at least the following services to maintain and improve precare and aftercare services:

(a) A system to assure the appropriateness and quality of care provided patients placed in out-of-home care facilities.

(b) A directory or registry which shall be established and maintained to facilitate the placement process and to assure the appropriate use of facilities in which patients receive care.

(c) Consultation, educational training and other special services which may be needed to assure and maintain the quality of care in precare and aftercare facilities in which patients receive care.

SEC. 5. Section 5703.1 of the Welfare and Institutions Code is amended to read:

5703.1. By May 15, 1974, and by May 15 of each year thereafter, the State Department of Health shall review and approve each county plan. Such approval shall be subject to the amount appropriated for the purposes of such plans in the Budget Act for such fiscal year as enacted into law.

If the amount appropriated in the Budget Act for such fiscal year as enacted into law differs from the amount in the budget submitted by the Governor for such fiscal year, each county shall submit an

additional revised plan in the form and at the time required by the State Department of Health.

SEC. 6. Section 5715 of the Welfare and Institutions Code is amended to read:

Expenditures subject to payment shall include expenditures for the items specified in Sections 5401 and 5704; salaries of personnel; approved facilities and services provided through contract; operation, maintenance and service costs; depreciation of county facilities as established in the state's uniform accounting manual, disregarding depreciation on such a facility to the extent it was financed by state funds under this part; expenses incurred under this act by members of the Conference of Local Mental Health Directors for attendance at regular meetings of such conferences; and such other expenditures as may be approved by the Director of Health. It shall not include expenditures for initial capital improvements; the purchase or construction of buildings except for such equipment items and remodeling expense as may be provided for in regulation of the State Department of Health; compensation to members of a local mental health advisory board (except actual and necessary expenses incurred in the performance of official duties); or expenditures for a purpose for which state reimbursement is claimed under any other provision of law; or expenditures for which reimbursement is made pursuant to a federal grant from the National Institute of Mental Health or any other federal agency.

SEC. 7. Section 5715.5 is added to the Welfare and Institutions Code, to read:

5715.5. Whenever a county or city receives funds under a grant program for mental health services from either the federal or state government, or from any other grantor, public or private, and fails to include such grant program in the county plan and mental health budget, the State Director of Health shall not thereafter approve any claims submitted by the county or city for state reimbursement under this part unless and until the county plan and mental health budget has been revised to include such grant program and the revised county plan and budget is approved by the State Director of Health.

SEC. 8. Section 5751 of the Welfare and Institutions Code, as amended by Section 1 of Chapter 1292 of the Statutes of 1972, is repealed.

SEC. 9. Section 5751 of the Welfare and Institutions Code, as added by Section 2 of Chapter 1292 of the Statutes of 1972, is repealed.

SEC. 10. Section 5751 is added to the Welfare and Institutions Code, to read:

5751. The Director of Health, after approval by the California Conference of Local Mental Health Directors, shall by regulation establish standards of education and experience for professional, administrative, and technical personnel employed in mental health

services and for the organization and operation of mental health services. Such standards may include the maintenance of records of services, finances and expenditures, which shall be reported to the State Department of Health in a manner and at such times as it may specify. SEC. 11. Section 5751.1 is added to the Welfare and Institutions Code, to read:

5751.1. Regulations pertaining to the position of director of local mental health services, where the local director is other than the local health officer or medical administrator of the county hospitals, shall require that the director meet the standards of education and experience established by the Director of Health. Regulations pertaining to the qualifications of directors of local mental health services shall be administered in accordance with Section 5607.

Where the director of local mental health services is not a psychiatrist, the program shall have a psychiatrist licensed to practice medicine in this state and who shall provide to patients medical care and services as authorized by Section 2137 of the Business and Professions Code

SEC. 12. Section 5751.2 is added to the Welfare and Institutions Code, to read:

5751.2. In order to make maximum use of the professional skills of any physician, psychiatrist, psychologist, or clinical social worker with clinical program responsibility in any local mental health service which serves a population in excess of 100,000, the local mental health service shall have one or more staff skilled in the management of administrative support functions who shall be responsible for the planning, development, direction, management, and supervision of all administrative and supportive services in such a local mental health service. the California Conference of Local Mental Health Directors and the Citizens Advisory Council in developing the state plan.

The state five-year plan shall contain statewide information for the same items required in a county Short-Doyle plan as described in Section 5651 and, taking into consideration the community mental health needs set forth in the county plans, guidelines relating to program funding priorities for each fiscal year of the five-year plan.

SEC. 15. The sum of three hundred eighty-three thousand dollars ($383,000) is hereby appropriated from the General Fund to the State Controller for allocation and disbursement to local agencies pursuant to Section 2164.3 of the Revenue and Taxation Code to reimburse such agencies for costs incurred by them pursuant to this act.

CHAPTER 1062

An act to amend Section 33401 of the Health and Safety Code, relating to redevelopment agencies.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 33401 of the Health and Safety Code is amended to read:

33401. The agency may in any year during which it owns property in a redevelopment project pay directly to any city, county, city and county, district, including, but not limited to, a school district, or other public corporation for whose benefit a tax would have been levied upon such property had it not been exempt, an amount of money in lieu of taxes.

A proportionate share of any amount of money paid by an agency to any city and county pursuant to this section shall be disbursed by the city and county to any school district with territory located within a redevelopment project area in the city and county. "Proportionate share," as used in this section, means the ratio of the school district tax rate, which is included in the total tax rate of the city and county, to the total tax rate of the city and county.

The agency may also pay to any school district with territory located within a project area any amounts of money which in the agency's determination is appropriate to alleviate any financial burden or detriment caused to any such school district by a redevelopment project.

SEC. 2. In enacting this act, the Legislature hereby determines and finds that any duties, obligations or responsibilities imposed on local government are minor in nature and do not result in a significant new program for local government, or a significant

increase in level of service of an existing mandated program, and no additional economic burden or cost is intended to be imposed hereby. Therefore, and solely as a result of this finding and determination, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code for reimbursement of any local agency for any costs that may be incurred by it.

CHAPTER 1063

An act relating to law enforcement, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. SEC. 2. This act shall be operative only until January 1, 1974, unless A.B. 1306 is enacted into law and operative by January 1, 1974, in which event it shall continue to be operative. If A.B. 1306 is not enacted into law and operative by January 1, 1974, this act shall become inoperative on January 1, 1974.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Money is needed to fund the California Council on Criminal Justice for the 1973–74 fiscal year in order to prevent a disruption of the activities of the council and local agencies funded by the council.

CHAPTER 1064

An act to amend Sections 67041, 67109, and 67120 of, to add Title 7.41 (commencing with Section 66900), Title 7.42 (commencing with Section 66905), and Sections 67061 and 67100.1 to, and to repeal Section 67041.1 of, the Government Code, and to add Section 5096.100 to the Public Resources Code, relating to Tahoe Regional Planning, and making an appropriation therefor.

0 1944 38 9 280 649

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Title 7.41 (commencing with Section 66900) is added to the Government Code, to read:

TITLE 7.41. TAHOE CONSERVANCY AGENCY COMPACT

66900. The Legislature of California hereby ratifies and approves the "Tahoe Conservancy Agency Compact" as set forth below.

66901. The provisions of this interstate compact executed between the States of Nevada and California are as follows:

TAHOE CONSERVANCY AGENCY COMPACT

Article I. Findings and Declarations of Policy

(a) It is found and declared that the waters of Lake Tahoe and other resources of the Lake Tahoe region are threatened with deterioration or degeneration, which may endanger the natural beauty and economic productivity of the region.

(b) It is further declared that by virtue of the special conditions and circumstances of the natural ecology, developmental pattern, population distribution and human needs in the Lake Tahoe region, the region is experiencing problems of resource use and deficiencies of environmental control.

SEC. 10. Section 29007.3 of the Education Code is amended and renumbered to read:

29026. No person, either on his own behalf or as the representative of any privately conducted correspondence school or of any private person, firm, association, partnership, or corporation whatever, shall, by personal contact, in California, solicit the sale of or solicit and sell any correspondence course of study beyond high school, of high school level, or below high school level, for a remuneration or other consideration to be provided for such course, unless he holds a valid permit to engage in such activity issued by the State Board of Education. The State Board of Education may delegate its authority to issue this permit to the State Superintendent of Public Instruction.

The State Board of Education, or the State Superintendent of Public Instruction, if such authority has been delegated by the State Board of Education, shall promptly cause to be prepared, and shall, pursuant to this section, issue appropriate permits authorizing the holder to engage in the solicitation of sales and the selling of such courses of study.

No person shall be issued a permit except upon the submission of satisfactory evidence of good moral character.

A permit shall be valid for the calendar year in which it is issued unless sooner revoked or suspended by the State Board of Education for fraud or misrepresentation in connection with the solicitation for the sale or the sale of any course of study, or for the existence of any condition in respect to the permittee or the school he represents which, if in existence at the time the permit was issued would have been ground for denial of the permit.

The application for a permit shall be made by the person who proposes to engage in the activities of soliciting or selling in those cases where such activities are to be conducted in the person's own behalf. Where the person for whom the issuance of a permit is sought is to engage in the activities as a representative, the application shall be made by the correspondence school or other person, firm, association, partnership, or corporation for and on behalf of the person to serve as its representative. Applications shall be submitted

on forms to be furnished by the Department of Education. The original application shall be accompanied by an application fee of twenty dollars ($20), renewal applications when renewed on a continuous basis and applications for additional sales permits shall be accompanied by an application fee of fifteen dollars ($15). Fees required by this section are hereby appropriated in augmentation of the appropriation for support of the Department of Education current at the date of issuance of the State Controller's receipt thereof as may be designated by the Department of Education prior to their deposit in the State Treasury and shall be nonrefundable irrespective of whether or not a permit is subsequently issued.

The application shall be accompanied by a bond executed by good and sufficient sureties making provision for full indemnification of any person for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study. The term of the bond shall extend over the period of the permit. The bond may be supplied by the correspondence school or other person, firm, association, partnership, or corporation, or by the person for whom issuance of the permit is sought, and may extend to cover either an individual such person or to provide blanket coverage for all persons to be engaged as representatives of a correspondence school or other person, firm, association, partnership or corporation in the solicitation for sale or the sale of correspondence courses of study in California. Any bond shall provide for liability in the penal sum of one thousand dollars ($1,000) for each representative to whom coverage is extended by its terms. Neither the principal nor surety on a bond may terminate the coverage of the bond except upon giving 30 days' prior written notice to the State Board of Education.

The permittee shall carry the permit with him for identification purposes when engaged in the solicitation of sales and the selling of correspondence courses of study.

Any contract for or in connection with a course of study with a correspondence school, or representative thereof, shall be voidable at the option of the purchaser if the representative of any person selling or administering such course of study, or the representative of such firm, association, partnership or corporation was not the holder of a permit as required by this section at the time that such representative negotiated the contract for or sold such course.

The judgment rendered in any action maintained for any material loss suffered as a result of any fraud or misrepresentation used in connection with the solicitation for the sale or the sale of any course of study shall, if the plaintiff is the prevailing party, include court costs including a reasonable attorney's fee fixed by the court.

The provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code shall be applicable to any determination of the State Board of Education made pursuant to this section.

The issuance of a permit pursuant to this section shall not be

interpreted as, and it shall be unlawful for any individual holding any such permit to expressly or impliedly represent by any means whatever that the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education has made, any evaluation, recognition, accreditation or endorsement of any correspondence course of study being offered for sale by the individual.

It shall be unlawful for any individual holding a permit under this section to expressly or impliedly represent by any means whatever that the issuance of the permit constitutes an assurance by the Superintendent of Public Instruction, the State Board of Education, or the State Department of Education that any correspondence course of study being offered for sale by the individual will provide and require of the student a course of education or training necessary to reach a professional, educational, or vocational objective, or will result in employment or personal earnings for the student.

The issuance of a permit under this section, and the possession thereof, by an individual, shall be evidence only that the surety bond prescribed by this section has been issued with respect to the possessor and that he has submitted satisfactory evidence of good moral character.

6413. (a) The Department of Corrections, and every physician or surgeon who attends any injured state prisoner, shall file with the Division of Labor Statistics and Research a complete report of every injury to each state prisoner resulting from any labor performed by the prisoner unless disability resulting from such injury does not last through the day or does not require medical service other than ordinary first aid treatment. The Division of Labor Statistics and Research may, in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, adopt reasonable rules and regulations prescribing the detail and time limits of such report.

(b) Where the injury results in death a report, in addition to the

report required by subdivision (a), shall forthwith be made by the Department of Corrections to the Division of Labor Statistics and Research by telephone or telegraph.

(c) Nothing in this section or in this code shall be deemed to make a prisoner an employee, for any purpose, of the Department of Corrections.

(d) Notwithstanding the provisions of subdivision (a), no physician or surgeon who attends any injured state prisoner outside of a Department of Corrections institution shall be required to file the report required by subdivision (a), but the Department of Corrections shall file such report.

SEC. 3 Section 6413.2 is added to the Labor Code, to read:

The Department of Corrections shall not be required to comply with such recommendations.

(c) With regard to any report required by Section 6413, the Division of Industrial Safety may, in any case in which the Department of Corrections has not complied with recommendations made by the division pursuant to subdivision (b), or in any other case in which the division deems the safety of any state prisoner shall require it, conduct such hearings and, after such hearings, adopt such special orders, rules, or regulations or otherwise proceed as authorized in Chapter 1 (commencing with Section 6300) of this part as it deems necessary. CHAPTER 1068

An act to add Article 3 (commencing with Section 51350) to Chapter 1 of Part 2 of Division 1 of Title 5 of the Government Code, relating to counties and cities

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Article 3 (commencing with Section 51350) is added to Chapter 1 of Part 2 of Division 1 of Title 5 of the Government Code, to read:

Article 3. County Contract Services

51350. A county having a population of 6,000,000 or more which provides services through its appropriate departments, boards, commissions, officers or employees, to any city pursuant to contract or as authorized by law, shall charge the city only those additional costs which are incurred in providing the services so contracted or authorized. A county shall not charge a city contracting for a particular service, either as a direct or an indirect overhead charge, any portion of those costs which are attributable to services made available to all portions of the county, as determined by resolution of the board of supervisors, or which are general overhead costs of operation of the county government. General overhead costs, for the purposes of this section, are those costs which a county would incur regardless of whether or not it provided a service under contract to a city.

Any determination of general overhead costs shall be subject to court review as to the reasonableness of such determination.

SEC. 2. It is the intent of the Legislature to encourage intergovernmental contracts which eliminate the need for duplicate facilities, equipment, and personnel, and which thereby reduce the overall cost of government. In furtherance of this intent, a county with a population of more than 6,000,000 persons, which supplies contract services to the cities therein, shall charge such cities only the additional costs for such services incurred by the county, without regard to any allocation of the general overhead costs attributable to the operations of the county government or to the costs of services made available without charge throughout the county.

SEC. 3. The Legislature hereby finds and declares that this act does not provide for new state-mandated programs or for an increased level of existing mandated programs. Therefore, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 1069

An act to add Article 3.1 (commencing with Section 306) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to child health disability prevention program, and making an appropriation therefor.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Article 3.1 (commencing with Section 306) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

Article 3.1. Child Health Disability Prevention Program

306 The Legislature finds and declares that many physical and mental disabilities can be prevented, or their impact on an individual lessened, when they are identified and treated before they become chronic and irreversible damage occurs. The Legislature finds and declares that a community-based program of early identification and referral for treatment of potential handicapping conditions will be effective in reducing the incidence of such conditions and will benefit the health and welfare of the citizens of this state.

It is the intent of the Legislature in enacting this article to establish child health and disability prevention programs, which shall be financed and have standards established at the state level and which shall be operated at the local level, for the purpose of providing early and periodic assessments of the health status of children. It is further intended that child health and disability prevention programs make maximum use of existing health care resources so that health screening programs are fully integrated with existing health services, that health care professionals be appropriately represented and utilized in these programs, that outreach programs be developed to stimulate the use of preventive health services, and that services offered pursuant to this part be efficiently provided and be of the highest quality.

306.3. As used in this article:

(a) "Board" means the State Child Health Board.

(b) "Department" means the State Department of Health.

(c) "Director" means the Director of Health.

(d) "Governing body" means the county board of supervisors or boards of supervisors in the case of counties acting jointly.

306.5. A State Child Health Board is hereby established within the department which shall consist of five voting members.

The Governor shall appoint the following three members of the board: A specialist in maternal and child health employed by the department, one physician and surgeon, and one child psychiatrist.

The Chairman of the Senate Rules Committee shall appoint one member of the board: a pediatrician. The Speaker of the Assembly shall appoint one member of the board: a pediatrician. The term of each member of the board, except the members first appointed, shall be for three years. Of the members first appointed by the Governor, one shall hold office for three years, one shall hold office for two years, and one shall hold office for one year. The member first appointed by the Chairman of the Senate Rules Committee shall hold office for three years. The member first appointed by the Speaker of the Assembly shall hold office for two years.

The members of the board shall serve without compensation but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this article.

The board shall select its own chairman from among the five appointed members by majority vote of the members and shall establish such committees as it deems necessary or desirable. The board may utilize available department staff and staff of all other public and private agencies which have an interest in child health services.

The board shall meet on call of the board chairman, at least once annually, or as often as necessary to fulfill its duties. All meetings and records of the board shall be open to the public.

The board shall have the following powers, duties, and responsibilities:

306.7. The department shall administer this article and shall adopt standards for the approval of community child health and disability prevention programs and rules and regulations as necessary. However, such standards, rules, and regulations may be adopted only with the advice and written recommendation of the board. Standards shall be adopted for:

(a) Education and experience requirements for directors of community child health and disability prevention programs.

(b) Health screening, evaluation, and diagnostic procedures for child health and disability prevention programs.

(c) Public and private facilities and providers which may participate in community child health and disability prevention programs.

The department shall adopt a five-year state plan for child health and disability prevention services by October 1, 1974. The plan shall include a method for allocating child health and disability prevention funds to counties. The plan shall be reviewed and revised as necessary to provide a basis for allocating state child health and disability prevention program funds throughout the state.

307. The governing body of each county or counties shall establish a community child health and disability prevention program for the purpose of providing early and periodic assessments of the health status of children in the county or counties by July 1, 1974. However, this shall be the responsibility of the department for all counties which contract with the state for health services. Each such plan shall include, but is not limited to, the following requirements:

(a) Outreach and educational services.

(b) Agreements with public and private facilities and practitioners to carry out the programs.

(c) Health screening and evaluation services.

(i) Where appropriate, testing for sickle cell trait, lead poisoning, and other tests which may be necessary to the identification of children with potential disabilities requiring diagnosis and possibly treatment.

Standards for procedures to carry out health screening and evaluation services and to establish the age at which particular tests should be carried out shall be established by the director, with review and recommendation by the board. However, a governing body may include additional health screening and evaluation procedures in its program if approved by the director and the board.

Each community child health and disability prevention program shall, pursuant to standards set by the director, establish a record

system which contains a health case history for each child so that costly and unnecessary repetition of screening will not occur and appropriate health treatment will be facilitated as specified in Section 308.5.

307.3. Each county shall appoint a local advisory board to assist in the administration of this article. The local advisory board shall include representatives from health professions concerned with child health and disability prevention and shall, to the extent feasible, not be created separately from other health advisory bodies in the county.

The local advisory board shall:

(a) Review the community's child health needs and the adequacy of health care providers and facilities to meet those needs.

(b) Review the community child health and disability prevention plan.

(c) Advise and report directly to the governing body as to the program for child health and disability prevention.

307.5. Each community child health and disability program shall have a director meeting qualification standards by the department, appointed by the governing body, except for counties contracting with the state for health services.

307.7. Any community child health and disability prevention program may contract to furnish services to any other county if the contract is approved by the director.

308. On or before October 1 of each year, each governing board shall submit to the department, in the form and according to the procedures specified by the director, a community child health and disability prevention plan for the next fiscal year. The plan shall provide for the most appropriate and efficient use of existing public and private institutions and providers for providing health services and evaluation and referral.

Each community child health and disability prevention plan shall include the following:

(a) A summary of the previous year's activity, including the number of children screened, the number of children referred for diagnosis or treatment, by condition, and the cost of screening procedures.

(b) A detailed description of the results of cases in which a treatable disability was identified and referral made.

(c) A projection of the number of children to be screened through the community child health and disability prevention program.

(d) An assessment of the adequacy and availability of the facilities and providers to provide health screening and assessment in the community.

(e) A description of the child health and disability prevention program to be offered, including expected participating facilities and providers, and additional health screening tests to be provided and outreach mechanisms to be utilized.

(f) An assessment of the adequacy of public and private facilities

and providers which are available to provide diagnosis or treatment for disabilities as a result of health screening and evaluation.

On or before March 15, 1974, and on or before March 15 of each year thereafter, each governing board shall submit to the department a revised community child health and disability prevention plan for the next fiscal year which includes such revisions as are necessary or desirable to make the plan compatible with the budget for that fiscal year submitted by the Governor to the Legislature. By May 1, 1974, and by May 1 of each year thereafter, the department shall review and approve or disapprove each community plan, together with such revisions.

If a community child health and disability prevention plan is approved, the director shall determine the amount of state funds available for each county for specified services under an approved community child health and disability prevention plan from state funds appropriated for child health and disability prevention services.

If the amount appropriated in the Budget Act for such fiscal year as enacted into law differs from the amount in the budget submitted by the Governor for such fiscal year, each governing board shall submit an additional revised plan in the form and at the time specified by the department.

308.3. Counties shall be reimbursed for the amount required by the county to carry out its community child health and disability prevention program in accordance with the approved community child health and disability prevention plan. Claims for state reimbursement shall be made in such manner as the director shall provide. Each claim for state reimbursement shall be payable from the appropriation made for the fiscal year in which the expenses upon which the claim is based are incurred.

There shall be no reimbursement for expenditures for the treatment of disabilities identified as a result of the program or for capital improvements or the purchase or construction of buildings, except for such equipment items and remodeling expenses as may be allowed by regulations adopted by the director.

308.4. In order to ensure the maximum utilization of the California Medical Assistance Program and other potential reimbursement sources, the state department shall develop a schedule of reimbursement at reasonable rates for services rendered pursuant to this article. Inquiry shall be made of all recipients of services under this article as to their entitlement for third-party reimbursement for medical services. Where such entitlement exists it shall be billed. Notwithstanding the provisions of subdivision (c) of Section 14000 of the Welfare and Institutions Code and Section 14005 of such code, the California Medical Assistance Program shall be billed for services rendered pursuant to this article for every Medi-Cal eligible beneficiary.

308.5. On and after July 1, 1975, each child eligible for services under this article shall, upon enrollment in the first grade, give

evidence satisfactory to the governing body that he has received within the prior two years the appropriate health screening and evaluation services specified in Section 307, unless the child's parents or guardian has given written notice to the governing body that they do not want their child to receive such health screening and evaluation services.

308.6. Any child between birth and six years of age who has not completed kindergarten and all persons under 21 years of age who are eligible for the California Medical Assistance Program shall be eligible for services from the child health and disabilities prevention program in the county of which they are a resident. The department, with review and recommendation by the board, shall adopt rules and regulations specifying which age groups shall be given certain types of screening tests and recommendations for referral.

The first source of referral shall be the child's usual source of health care. If referral is required and no regular source of health care can be identified, the facility or provider providing health screening and evaluation services shall provide a list of three qualified sources of care, without prejudice for or against any specific source.

308.7. Each community child health and disability prevention program shall provide the child or his parent or guardian with a copy of the results of the health screening and evaluation and shall, where the need indicates, refer the child for further diagnosis and treatment.

SEC. 2. The sum of four hundred thousand dollars ($400,000) is hereby appropriated from the General Fund to the Department of Health for expenditure in the 1973–74 fiscal year to carry out the purposes of Article 3.1 (commencing with Section 306) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to child health disability program, as enacted by Section 1 of this act.

In fiscal years, commencing with the 1974–75 fiscal year, reimbursement for services provided pursuant to this article shall be limited to funds appropriated in the Budget Bill.

CHAPTER 1072

An act to amend Sections 441, 441.8, 441.9, 441.15, 441.16, 441.19, 442.4, 442.5, and 442.10 of, to add Sections 442.11 and 442.12 to, and to repeal Section 441.7 of, the Health and Safety Code, relating to care facilities, and declaring the urgency thereof, to take effect

immediately.

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

The people of the State of California do enact as follows:

SECTION 1. Section 441 of the Health and Safety Code is amended to read:

441. The Legislature hereby finds and declares:

(a) It is the policy of this state, as declared and established in this part, to require all hospitals, as defined by Section 441.2, which operate in this state to file for public disclosure with the California Hospital Commission which is established by this part such uniform reports of hospital cost experience in the provision of hospital services as are provided for under this part in accord with the systems of accounting approved under this part, for all of the following purposes:

(1) Encouraging economy and efficiency in their provision of such services in this state.

(2) Enabling public agencies of this state which purchase hospital services under, or which have administrative responsibility for, publicly financed health care plans or programs to make informed decisions in such purchasing or administration.

(3) Encouraging public and private third-party payors for hospital care services to take the information provided under this part into account in establishing reimbursement rates to assure hospitals of a fair and reasonable payment for such services rendered.

(b) It is the policy of this state that in order to achieve uniform and equitable statewide implementation of the policies of this part and to allow for comparisons of the performance of particular hospitals subject to its provisions, it is necessary to require that every person, political subdivision of the state, or any governmental agency within the state, that establishes, conducts, operates, manages, maintains, or controls in this state any hospital, as defined in Section 441.2, complies with the provisions of this part.

(c) It is the policy of this state to have hospitals make available to the public the highest capabilities of health science in an effective, efficient manner. It is the policy of this state to provide reasonable and appropriate safeguards to insure that the total cost of hospital services is reasonably related to the total services offered by hospitals, that the aggregate rates of hospitals are reasonably related to the aggregate costs of hospitals, and that the rates charged by hospitals are uniform for all purchasers of hospital services, because the state has an obligation to assure access and availability of high quality, efficiently provided, economical hospital services for all persons in this state and because the expenditure of public funds of this state for providing hospital services to many persons has a large financial impact on the public funds of this state. Therefore, it is the

declared policy of this state that hospitals are affected with the public interest, involved in the distribution of essential services, and obliged to furnish services to the general public at fair, equal, and nondiscriminatory rates.

SEC. 2. Section 441.7 of the Health and Safety Code is repealed.

SEC. 3. Section 441.8 of the Health and Safety Code is amended to read:

441.8. The commission shall appoint an executive director who shall perform the duties delegated to him by the commission, and shall be responsible to it for the accomplishment of such duties. The executive director shall, in accordance with such rules or regulations as the commission may adopt, organize, coordinate, supervise, and direct the operations and affairs of the commission in such a manner as to prevent delay and promote the expeditious and efficient disposition of all matters within the commission's jurisdiction. He shall submit a detailed report of his activities to the commission at each of the regularly scheduled commission meetings provided for pursuant to Section 441.13, and shall prepare such other supplemental and special reports as the commission may from time to time request or which he may deem necessary to adequately inform the members of the commission concerning his activities and experience in the implementation of this part.

SEC. 4. Section 441.9 of the Health and Safety Code is amended to read:

441.9. (a) The commission, in its implementation of this part, shall formulate general policies which shall advance the purposes of this part and direct the executive director in his execution of such policies. It may, after consultation with, and receipt of, the recommendations of the advisory council and advisory committees appointed pursuant to this section with respect thereto, adopt, promulgate, repeal, and amend rules and regulations consistent with law to carry out the provisions of this part. In carrying out its duties under this part, the commission shall follow the procedures established by the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code. Notwithstanding Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, regulations adopted under this section, however, need not be published in the California Administrative Code or California Administrative Register if they are included in the publications of the commission.

(b) The commission may do all of the following:

(1) Appoint committees from its membership and appoint

advisory committees which may include as members individuals and representatives of interested public and private groups and organizations.

(2) Contract for any professional and business services and employ staff members including officers, examiners, statisticians, accountants, inspectors, consultants, clerks and employees as it deems necessary to carry out the provisions of this part or to perform the duties and exercise the powers conferred on it by law.

(3) Contract for the use of, or otherwise procure, necessary physical facilities and all necessary books, maps, charts, stationery, instruments, office furniture, apparatus, and appliances.

The authority granted by this section does not limit the contracting authority granted the commission under Section 442.6. All contracts or purchases authorized by this part shall be subject to the provisions of Chapter 3 (commencing with Section 14250) of Part 5, and Chapter 6 (commencing with Section 14780) of Part 5.5 of Division 3 of Title 2 of the Government Code. The commission shall have no administrative or executive functions other than those set forth in this part.

SEC. 5. Section 441.15 of the Health and Safety Code is amended to read:

441.15. The commission, after consultation with the advisory council, receipt of the recommendations of the advisory council, and public hearings with respect thereto, shall, as soon as practicable after the effective date of this part, have prepared, published, and ready for distribution to all the institutions or organizations subject to the provisions of this part approved systems of hospital accounting and uniform reporting which shall be structured so as to enable all such institutions or organizations to fairly, accurately, and efficiently prepare the particular financial reports required by Section 441.18. Existing systems of accounting and reporting used by Section 441.2 hospitals shall be examined and given due consideration by the commission in carrying out its duty of preparing the systems of accounting and uniform reporting required by this section.

The commission shall, as soon as practicable and in no event later than July 1, 1975, develop for submission to the Legislature a proposal for a Hospital Economic Stabilization Program for establishment of a system to retard inflationary increases in hospital costs and prices. The commission shall prepare a proposal for a Hospital Economic Stabilization Program, which is intended to replace the federal wage-price stabilization program if it terminates or federal delegation to the state occurs, in accord with the intent expressed in Section 441.

SEC. 6. Section 441.16 of the Health and Safety Code is amended to read:

441.16. (a) The commission where necessary to correctly reflect differences either (1) in size of; or (2) in scope, type, or method of provision of or payment for services rendered by Section 441.2 hospitals; or where necessary to avoid unduly burdensome costs for

such hospitals in meeting the requirements of this part as a result of such differences; shall allow and provide, in accordance with appropriate regulations, for modifications in the accounting systems approved pursuant to Section 441.15 for use by Section 441.2 hospitals in meeting the requirements of this part if such modifications will not interfere with the purposes established in Section 441 hereof.

(b) The commission shall establish specific reporting provisions for Section 441.2 hospitals that receive a preponderance of their revenue from associated comprehensive group-practice prepayment health care service plans. Such hospitals shall be authorized to utilize established accounting systems, and to report costs and revenues in a manner which is consistent with the operating principles of such plans and with generally accepted accounting principles. When hospitals that receive the preponderance of their revenue from associated comprehensive group-practice prepayment health care service plans are operated as units of a coordinated group of hospitals under common management, they shall be authorized to report as a group rather than as individual institutions, and as a group shall submit a consolidated balance sheet, income and expense statement and statement of source and application of funds for such group of hospitals; except, that cost data shall be reported for each individual institution.

The commission shall adopt comparable modifications to the financial reporting requirements of this part for county hospital systems consistent with the purposes of Section 441.

(c) The commission shall establish approved systems of hospital accounting, uniform reporting, and auditing to create, to the extent feasible, one uniform, comprehensive state system which takes into account the data requirements of all state programs. The commission shall make available information required by other state agencies for programs they administer or in which they have an interest.

This section shall not preclude the state administrative agency responsible for administration of a program from obtaining from health care institutions data not available from the commission which the administrative agency determines is necessary for administration of the program. Administrative agencies shall use the comprehensive system provided for in this section to the maximum extent feasible.

(d) The commission, in consultation with professional organizations shall develop a Hospital Economic Stabilization Program for establishment of a system to retard inflationary hospital costs and price increases and shall consider, among other factors, the following:

(1) Costs of doing business.
(2) Efficiency of operation.
(3) Occupancy levels.
(4) Type of care offered.

(7) Equalization of rates for all patients of a hospital receiving similar services, regardless of source of payment.

(8) Prospective determination of rates to encourage innovative and pluralistic approaches to health care organization. The basis set forth in the American Hospital Association "Statement on Financial Requirements of Health Care Institutions and Services" shall be used in establishing a prospective method of payment for hospital services.

(9) Development of a system which will be designed to protect the public interest and also to provide due process, hearings, and reasonable guarantees protecting the development of a viable health care facilities industry in the state.

(10) Provision for capital, social security requirements for planning and budgets, provision for covering of third party costs which may not be paid by government or other purchasers, provision for education and research cost not directly related to patient care and not otherwise funded, impact of legally imposed cost increases beyond the control of a hospital, provision for efficiency incentives and appropriate utilization, and provision for requirements of hospitals covered by subdivision (b) of this section.

SEC. 7. Section 441.19 of the Health and Safety Code is amended to read:

441.19. Whenever, upon the recommendation of the executive director of the commission, and the approval, certified in writing, of a majority of commission members, a further investigation is deemed necessary or desirable to verify the accuracy of the information in the reports made by hospitals under this part; the executive director shall have the authority to make any necessary further examination of the hospital's records and accounts and to devote such necessary extra attention to the conduct of its affairs as the commission may by regulation provide. Such further examinations under this section may include, but are not limited to, making a full or partial audit of all such records and accounts.

The costs incurred in conducting any examinations or inquiries provided for pursuant to this section shall be borne by the commission. However, when the executive director determines that the original reports were deliberately falsified or that hospital officials were aware of untrue statements contained therein, subject to the approval of a majority of commission members, the hospital shall be responsible for all such costs, and shall, in addition, be liable for a civil penalty of twice the amount of such costs. Such civil penalty shall be assessed and recovered in a civil action brought in the name of the people of the State of California by the commission. A hospital which wishes to contest the determination of the executive director shall have the right to a hearing conducted in accordance with the provisions of Section 442.5.

SEC. 8. Section 442.4 of the Health and Safety Code is amended to read:

442.4. The commission shall, by regulation, establish guidelines

and procedures to enable all institutions subject to the provisions of this part to request reasonable extensions of time in which to file any or all of the reports required by Section 441.18. The regulations shall provide for the grant of such extensions by the executive director in cases where the institution requesting them can show good and sufficient cause for the extension.

Any institution denied an extension under this section may petition the commission for a hearing on appeal to review the action of the executive director in refusing its request for the extension in accord with the provisions of Section 442.5; but the filing of a petition pursuant to that section shall not, unless the appeals committee reverses the executive director, limit the continued accrual of the charges levied under this section against a hospital which fails to meet the deadline for filing reports established by Section 441.18.

SEC. 9. Section 442.5 of the Health and Safety Code is amended to read:

442.5. A petition requesting a hearing to review any action taken by the commission or the executive director pursuant to this part shall be filed with the commission within 15 days of the date on which the institution or person aggrieved was notified of the action with respect to which the review is requested and shall state the grounds on which the petitioner bases his appeal. A hearing on the petition, at which the petitioner may be represented by counsel, shall be held within 45 days of the date on which the petition for appeal was filed, before an appeals committee composed of three members of the commission chosen by the chairman for such purpose. The decision of a majority of the committee, which shall be rendered in the form of a written memorandum of decision filed in the commission's office, shall be final, subject to the right of review by a court of competent jurisdiction in accordance with the provisions of Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure.

SEC. 10. Section 442.10 of the Health and Safety Code is amended to read:

442.10. For the purposes of funding such contracts of the commission as are authorized by the provisions of this part and for meeting the costs of the commission in carrying out its duties in the administration thereof, fees shall be collected by the commission as follows and shall be deposited in the California Hospital Commission Fund which is hereby established:

(a) The commission shall set, and charge to, and collect from all Section 441.2 hospitals a special fee, which shall be due on July 1 and delinquent on July 31 of each year, of not more than 0.02 of 1 percent of the hospital's gross operating cost for the provision of health care services for its last fiscal year which ended on or before December 31 of the preceding calendar year. Each year the commission shall establish the fee to produce revenues equal to the appropriation for these purposes in the Budget Act for the current fiscal year.

(b) Any amounts raised by the collection of the special fees

provided for by subdivision (a) which are not required to meet appropriations in the Budget Act for the current fiscal year shall be available to the commission in succeeding years, when appropriated by the Legislature, for expenditure under the provisions of this part and shall reduce the amount of such special fees which the commission is authorized to set and charge.

(c) No hospital against which the fees required by this section are charged shall be issued a license or have an existing license renewed unless the fees are paid; nor shall any hospital, which is exempt from licensure pursuant to the provisions of Section 1312, but is a Section 441.2 hospital, be permitted to continue to operate without the payment of the fees required by this section. The commission may bring an action to enjoin the violation or threatened violation of this subdivision in the superior court in and for the county in which the violation occurred or is about to occur. Any proceeding under the provisions of this subdivision shall conform to the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except the commission shall not be required to allege facts necessary to show or tending to show lack of adequate remedy at law or to show or tending to show irreparable damage or loss.

SEC. 11. Section 442.11 is added to the Health and Safety Code, to read:

442.11. In addition to the other powers, duties, and functions conferred upon the commission by this part, the commission may take such action and perform such duties as may be conferred upon the states by the Cost of Living Council or by federal law or regulation under the Federal Wage-Price Stabilization Program with respect to rates charged by institutional providers of health services, and the Governor shall designate the commission as the designated state agency to take such action and to perform such duties.

SEC. 12. Section 442.12 is added to the Health and Safety Code, to read:

442.12. The commission may accept and expend grants, gifts, and legacies of money, and, with the consent of the Department of Finance, may accept, manage, and expend grants, gifts, and legacies of other property, in furtherance of the purposes of this part.

SEC 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

New provisions and procedures are being developed by the Federal Cost of Living Council and its advisers under Phase IV of the Federal Wage-Price Stabilization Program which will give more authority to the states under such provisions to conduct rate review with respect to institutional providers of health services. In order that the state may be able to promptly accept such additional authority and the prospective subvention therefor, it is essential that this act go into immediate effect.

A county relocation agency shall have jurisdiction only over those relocation activities which take place within the

unincorporated areas of the county. Every public entity within the local agency's jurisdiction (required to do so) shall file the relocation rules and regulations, which it is required to adopt pursuant to Section 7267.8, with the central relocation agency and shall file annually its relocation plans by June 1st of each year for the subsequent fiscal year. The central relocation agency shall approve or disapprove the public entity's relocation plan by July 1 or the plan will automatically become effective.

If the agency disapproves the plan or finds that the plan conflicts in the use of relocation resources with those plans filed by other public entities or that adequate resources are not available in places and at times necessary to meet the relocation needs as set forth in one or more of the plans it shall call a meeting of the public entities concerned as soon as possible. At such meeting the agency shall try to resolve such conflicts as exist or insure that adequate relocation resources are developed to meet such needs.

The agency may direct modifications of a plan in the case of unresolved conflicts and may extend its approval deadline by 30 days to determine whether such modifications affect such relocation plans. Additional extensions may be granted for periods of 30 days with the consent of all affected parties. Where modification to a relocation plan is directed by the agency, the public entity may appeal to the relocation appeals board established pursuant to Section 33417.5 of the Health and Safety Code. If no such relocation appeals board has been established, the public entity may appeal to the legislative body creating the central relocation agency.

Approval of a relocation plan will constitute a finding by the agency that it has reasonable assurance that adequate relocation resources exist within the requirements of law which will be available at the times required by the plan.

The central relocation agency shall coordinate the execution of each public entity's relocation plans and shall share with each public entity making a request the relocation information of all other public entities. The central relocation agency may contract with adjoining cities or counties to perform relocation and central relocation services.

Public entities with displacement of less than 5 percent of the local agency's total local annual displacement based on all relocation plans filed and state agencies shall be exempt from the requirement of approval of their relocation plan prior to its execution.

A public entity may amend its relocation plan during any fiscal year by filing an amended plan with the central relocation agency and obtaining its approval. All amended plans must have approval before execution may occur and the central relocation agency shall approve or disapprove amended plans within 30 days or approval will be automatic.

Execution of any relocation plan must be in accordance with the approved relocation plan or the public entity may not displace any persons. Failure to file a relocation plan and obtain approval when

required, prior to displacement, may subject the public entity to an order from the central relocation agency to desist from any displacement.

SECTION 1. Division 8.5 (commencing with Section 9000) is added to the Welfare and Institutions Code, to read:

DIVISION 8.5. AGING

CHAPTER 1. LEGISLATIVE FINDINGS AND DECLARATIONS OF POLICY AND PURPOSES

9000. This division shall be known, and may be cited, as the Burton Act for the Aging. The Legislature finds that senior adults are a rapidly growing segment of our population and that large numbers of our state's older residents are prevented from living their lives in good health, dignity and security because of a lack of adequate economic opportunities and health and social services, a lack of an effective advocate voice at the various policy levels of state government, and a lack of the opportunity for participation by senior adults in the decisionmaking processes which affect them.

The Legislature further finds that programs for the elderly are administered by a variety of local and state agencies which are multipurpose in nature and which lack the visibility, authority and capacity to effectively influence programming on aging at the top levels of the state government, in order to meet the needs of our older residents.

9001. In enacting this division, it is the intent of the Legislature to provide the means for advocacy for the elderly, in order that they will be represented in all governmental matters that may affect

them, and for comprehensive and coordinated planning and delivery to our older residents of a full range of essential services including, but not limited to, nutrition, health services, preretirement training, continuing education, low-cost transportation, housing and income maintenance

9002. The Legislature declares that it is the policy of the state to participate fully in programs at the federal, state and community levels whose purposes are to foster and promote community planning and services for the economic, social and personal well-being of older persons.

9003. The purposes of this division are to:

(a) Provide advocacy for the senior adult throughout all levels of state government;

(b) Make available comprehensive programs which include a full range of health, education and social services to those of our older residents who are in need of them;

(c) Give full and special consideration to those of our older residents with special needs in planning such programs, and, pending the availability of such programs, to give priority to the elderly with the greatest economic and social need;

(d) Provide comprehensive programs which will assure the coordinated delivery of a full range of essential services to our older residents, and, where applicable, also furnish meaningful employment opportunities for many individuals, including older persons, young persons, and volunteers from the community; and

(e) Insure that the planning and operation of such programs will be undertaken as a partnership of older residents, deliverers of services, and state and local governments.

CHAPTER 2. DEFINITIONS

SEC. 3.5. The Legislature hereby finds and declares that Fresno County is a uniquely appropriate area for a senior citizens transportation pilot project because of the following facts:

An act to add Section 39079 6 to the Health and Safety Code, relating to air pollution

[Approved by Governor October 1, 1973 Filed with Secretary of State October 1, 1973]

members from public entities which contract for such services, and three members from the governing bodies of air pollution control districts. The committee shall also include two public members, one of whom shall be appointed by the Senate Rules Committee and one by the Speaker of the Assembly. The committee shall select a chairman from its membership, and he shall serve at the pleasure of the committee.

(c) In developing the standards, the committee shall take into consideration the need to reduce air pollution from all sources and the need to also continue sandblasting operations as a means of corrosion control. For purposes of this section, "permanent sandblasting operations or equipment" means sandblasting operations conducted, or sandblasting equipment located, in a building which is used, in whole or in part, for sandblasting operations.

SEC. 2. Notwithstanding the state-mandated local costs contained in this act, there shall be no reimbursement pursuant to Section 2164.3 of the Revenue and Taxation Code, nor shall any appropriation be made by this act, because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may be enacted that serve to cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant identifiable cost changes.

SEC 4 It is the intent of the Legislature, if this bill and Assembly Bill No. 2228 are both chaptered, both bills amend Section 11377 of the Health and Safety Code, and this bill is chaptered after Assembly Bill No. 2228, that the amendments to Section 11377 proposed by both bills be given effect and incorporated in Section 11377 in the form set forth in Section 3 of this act. Therefore, Section 3 of this act shall become operative only if this bill, and Assembly Bill No. 2228 are both chaptered, both amend Section 11377, and this bill is chaptered after Assembly Bill No. 2228, in which case Section 2 of this act shall not become operative.

The successor of the Delta Water Agency, pursuant to Section 56501 of the Government Code, shall hold for the benefit of this agency that portion of the moneys, funds, and other assets of the Delta Water Agency which bears the same ratio to such total moneys, funds, and other assets as the assessed valuation of lands within this agency which were also situated within the Delta Water Agency bears to the total assessed evaluation of lands within the Delta Water Agency, and which remained on hand in the Delta Water Agency after payment of all outstanding obligations of such agency, and shall distribute such portion of the remaining assets to this agency following its initial organization in lieu of the distribution of such assets otherwise provided under Section 56507 of the Government Code.

CHAPTER 1096

An act to add and repeal Chapter 5.77 (commencing with Section 5768) of Division 6 of the Education Code, relating to bilingual-crosscultural teacher preparation, and making an appropriation therefor.

[Approved by Governor October 2, 1973 Filed with Secretary of State October 2, 1973]

I am reducing the appropriation contained in Section 2 of Senate Bill No 1335 from $490,000 to $20,000 by deleting the appropriations contained in schedules (b) $145,000, (c) $155,000 and (d) $170,000

The $20,000 appropriation left in this bill should be adequate to design a career ladder for bilingual aides The ladder should be an incentive for aides to continue on to become fully certificated bilingual teachers

There appears to be sufficient available funds to enable bilingual aides to continue their education without the creation of a new grant award system

With the above reduction, I approve Senate Bill No 1335

RONALD REAGAN, Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.77 (commencing with Section 5768) is added to Division 6 of the Education Code, to read:

CHAPTER 5.77. BILINGUAL-CROSSCULTURAL TEACHER PREPARATION AND TRAINING ACT OF 1973

5768. The Legislature recognizes that there are several hundred thousand California schoolchildren whose primary languages are not English. These children have shown their ability to perform in bilingual-crosscultural classes and large amounts of money are now available to expand the number of bilingual classrooms. The Legislature recognizes, furthermore, that there is an insufficient number of qualified bilingual-bicultural teachers to staff present projects, and that many more such teachers will be needed as the new projects are established. It is, therefore, the intent of this chapter to establish programs designed to rapidly produce teachers who are fully bilingual, who are sensitive to cultural differences and knowledgeable about the origins of such differences, who can serve as models for these children to emulate, and who will qualify for credentials in bilingual-crosscultural education. Bilingual-bicultural teacher aides and the presently underutilized certificated teacher

force shall be primary manpower sources for this program.

5768.2. The Commission for Teacher Preparation and Licensing shall develop, on or before January 15th of each year, a status report on local, state, and federally funded bilingual-crosscultural teacher preparation programs. Such report shall be made to the Legislature not later than February 15th of each year. The Board of Governors of the California Community Colleges, the Trustees of the California State University and Colleges, and the Regents of the University of California shall, by November 15 of each year, report to the Commission for Teacher Preparation and Licensing with reference to their programs in bilingual-crosscultural teacher training. Such report shall include information on special classes or programs leading to a bilingual-crosscultural teaching credential, preservice or in-service programs offered by these institutions to bilingual-bicultural teachers or teacher aides, and the number of persons enrolled in such programs.

5768.4. The Commission for Teacher Preparation and Licensing shall design career ladder programs which will allow bilingual teacher aides to become fully certificated bilingual teachers. This program shall provide grants for tuition and living expenses to needy applicants for part-time or full-time attendance at any public institution of higher education in California. Up to two years of credit toward credential requirements may be allowed for experience within the classroom as a teacher aide. The career ladder programs shall be adopted by regulations promulgated by the Commission for Teacher Preparation and Licensing and subject to Section 13117.2.

5768.6. The Commission for Teacher Preparation and Licensing shall, with the assistance of a representative appointed by the Superintendent of Public Instruction, the Chancellor of the California Community Colleges, the Chancellor of the California State University and Colleges, the President of the University of California, and with five presently practicing teachers appointed by the Superintendent of Public Instruction, design a comprehensive language and culture curriculum for teachers who are already certificated. Such curriculum shall be designed to enable teachers to qualify for the bilingual-crosscultural specialist credential. Initial programs to assist on the development of this shall be offered at not less than five public institutions of higher education in California, beginning not later than September 1, 1974.

5769. There is hereby established a Bilingual Teacher Development Grant Program. The Scholarship and Loan Commission shall administer the Bilingual Teacher Development Grant Program in accordance with general policies established by the Commission for Teacher Preparation and Licensing. Candidates shall be evaluated according to criteria developed by the Commission for Teacher Preparation and Licensing. Not less than 75 percent of the funds available for grants shall be awarded to bilingual aides participating in the career ladder program prescribed in Section 5768.4. Remaining funds shall be available to needy teachers

who are enrolled in the curriculum prescribed in Section 5768.6.

5769.2. The Board of Governors of the California Community Colleges, the Trustees of the California State University and Colleges, and the Regents of the University of California shall, within their respective systems, establish a policy of recruitment and appointment of professors of bilingual-crosscultural education by June 1, 1974.

5769.4. The Department of Education shall serve as a clearinghouse for bilingual-bicultural teaching personnel, and shall, upon request, assist school districts in the recruitment of such personnel.

The Department of Education shall prepare a five-year projection on the needs for bilingual-crosscultural teaching personnel, which shall be submitted to the Legislature by September 1, 1974, and may be updated annually thereafter.

5769.6. This chapter shall be operative until July 1, 1979, and as of that date is repealed.

SEC. 2. There is hereby appropriated from the General Fund the sum of four hundred ninety thousand dollars ($490,000) to the Commission for Teacher Preparation and Licensing for purposes of implementing the Bilingual-Crosscultural Teacher Preparation and Training Act of 1973 pursuant to Chapter 5.77 (commencing with Section 5768) of Division 6 of the Education Code and to the State Scholarship and Loan Commission for grant programs established pursuant to this act, to be apportioned according to the following schedule:

(a) For purposes of implementing the Bilingual-Crosscultural Teacher Preparation Program	$20,000
(b) For the Bilingual Teacher Development Grant Program for the 1974–75 fiscal year	$145,000
(c) For the Bilingual Teacher Development Grant Program for the 1975–76 fiscal year	$155,000
(d) For the Bilingual Teacher Development Grant Program for the 1976–77 fiscal year	$170,000
Total of schedule	$490,000

Funds appropriated to the State Scholarship and Loan Commission for the purposes of this act but not expended shall be carried over to the next fiscal year. Not more than ten thousand dollars ($10,000) may be used by the State Scholarship and Loan Commission for administration of this grant program.

CHAPTER 1097

19700.81. It is the intent of the Legislature in enacting this article to make available the necessary funds for the construction, equipping, and establishment of a regional occupational center facility to be used both by the high schools of Santa Cruz County and the Cabrillo Community College District, but to be maintained by the entity, to serve an area in great need of occupational preparation. It is further the intent of the Legislature by enacting this article, to improve the employment opportunities of persons residing in Santa Cruz County by providing educational programs in areas of social

19700.83. (b) The ballot proposition used in the election shall contain the words "For the repayment of not to exceed $_____ (amount of repayment) for the establishment of the Santa Cruz Regional Occupational Center" followed by the words "Yes" and "No" so placed that the voter may clearly indicate his choice.

19700.86. If at least two-thirds of the electors voting on the ballot proposition, as provided by subdivision (b) of Section 19700.85, vote "yes", then the entity shall be permitted to establish the Santa Cruz Regional Occupational Center.

75033. Notwithstanding any other provision of this chapter, if the service of a judge, who has been elected or appointed as such, is discontinued by any means other than death, resignation, recall, impeachment, or retirement pursuant to this chapter, he shall have the right to elect in writing filed with the State Controller within ninety (90) days thereafter, and without right of revocation, whether to allow his accumulated contributions to remain in the fund. A judge who after the effective date of the 1972 amendments to this section leaves his office to accept any lucrative office under the United States within the purview of Section 28, Article IV, of the Constitution shall not be eligible for deferred retirement under this section. Failure to make such election shall be deemed an irrevocable election to withdraw his accumulated contributions. A judge who so elects to allow his accumulated contributions to remain in the fund shall, upon his application therefor to the State Controller after attaining age 65, be retired, and receive a retirement allowance based upon the judicial service with which he is credited, in the same manner as other judges, except that his retirement allowance is an annual amount equal to 5 percent of the compensation payable, at the time payments of the allowance fall due, to the judge holding the office which the retired judge last held prior to the discontinuance of his service as judge, multiplied by the number of years and fractions of years of service with which the retired judge is entitled to be credited at the time of such discontinuance of his service, not to exceed eight years.

Notwithstanding any other provision of this chapter, any judge with at least five years of service, and prior to attaining age 70, may retire, and upon his application therefor to the State Controller after reaching the age which would have permitted him to retire for age and length of service under Section 75025 had he remained continuously in service as a judge up to such age, receive a retirement allowance based upon the judicial service as a judge of a court of record, with which he is credited, in the same manner as

other judges, except as otherwise provided by this section the retirement allowance is an annual amount equal to 3.75 percent of the compensation payable, at the time payments of the allowance fall due, to the judge holding the office which the retired judge last held prior to his discontinuance of his service as judge, multiplied by the number of years and fractions of years of service with which the retired judge is entitled to be credited at the time of his retirement, not to exceed 20 years.

If a judge has served more than five years but less than 12 years, the above percentage of compensation payable shall be reduced 0.25 percent for each year that the service of the judge is less than 12 years.

No judge shall be eligible to receive an allowance pursuant to this section until the attainment of age 63 unless the judge is credited with 20 years of judicial service and has attained age 60.

The surviving spouse of any judge who has so elected to retire under this section shall receive for life an allowance equal to one-half of the retirement allowance that would be payable to the judge were he living and receiving the benefits accorded by this section, commencing with his death, if the judge dies after commencement of receipt of benefits, or the date the judge would have been able to commence receipt of benefits but for his death, if his death occurs prior to commencement of receipt of benefits.

An election to retire under this section shall be made in writing and filed with the State Controller, and shall be without right of revocation, and upon such filing said judge shall be deemed retired with receipt of benefits deferred until herein provided, and the judicial office from which he has retired shall become vacant. Said notice and election of retirement shall be sufficient if it states in substance that said judge elects to retire under the benefits of this section.

If after retirement and actual commencement of benefits hereunder, said retired judge becomes entitled to any salary or other compensation as the incumbent of any public office, the retirement allowance otherwise payable to him shall, during the time he is entitled to receive such salary or other compensation, be reduced by the amount of such salary or other compensation.

A judge who leaves his office to accept any lucrative office under the United States within the purview of Section 28 of Article IV of the Constitution shall have any benefits receivable hereunder reduced by the amount of any salary or retirement benefits he receives by virtue of his service in such office.

Except as provided in this part, assumption of responsibility for enforcement of this part by a city, county, or city and county does not authorize such city, county, or city and county to impose more restrictive requirements than those imposed by this part and the regulations adopted pursuant thereto or to prescribe fees for permits.

In the event of nonenforcement of this part or the regulations adopted pursuant thereto, the provisions of this part and the regulations adopted pursuant thereto shall be enforced by the department in any such city, county, or city and county after the department has given 30 days' written notice to the governing body of such city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and has failed to initiate corrective measures to carry out its responsibility.

Any city, city and county, or county, upon written notice from the governing body to the department, may cancel its assumption of responsibility for the enforcement of this part. The department, upon receipt of such notice, shall assume such responsibility within 30 days.

Every city, county, or city and county, within its jurisdiction, shall enforce all of the provisions of this part and the regulations adopted pursuant thereto, as they relate to mobilehomes and to mobilehome accessory buildings or structures located outside of mobilehome parks.

The provisions of this part shall not prevent local authorities of any city, county, or city and county, within the reasonable exercise of

their police powers:

(a) From prohibiting mobilehomes or mobilehome parks, travel trailers, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps within all or certain zones within such city, county, or city and county, or from adopting rules and regulations by ordinance or resolution prescribing standards of lot, yards, or park area, landscaping, walls or enclosures, signs, access, and vehicle parking or from prescribing the prohibition of certain uses for mobilehome parks, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps; or

(c) From requiring a permit to use a mobilehome or camp car outside a mobilehome park, travel trailer park, recreational trailer park, or temporary trailer park for which a permit is required by this part or by regulations adopted pursuant thereto, and require a fee therefor by local ordinance commensurate with the cost of enforcing this part and local ordinance with reference to the use of mobilehomes and camp cars, which permit may be refused or revoked if such use violates any provisions of this part or Part 2 (commencing with Section 18000) of this division, any regulations adopted pursuant thereto, or any local ordinance applicable to such use; or

(d) From requiring a local building permit to construct an accessory structure for a mobilehome when such mobilehome is located outside a mobilehome park, travel trailer park, recreational trailer park or temporary trailer park, under circumstances which the provisions of this part or Part 2 (commencing with Section 18000) of this division and the regulation adopted pursuant thereto do not require the issuance of a permit therefor by the department.

This section shall remain in effect only until January 1, 1976, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1976, deletes or extends such date.

Upon 30 days' written notice from the governing body to the department, any city, county, or city and county, may assume the responsibility for the

enforcement of this part and the regulations adopted pursuant thereto.

Except as provided herein, assumption of responsibility for enforcement of this part by a city, county, or city and county does not authorize such city, county, or city and county to impose more restrictive requirements than those imposed by this part and the regulations adopted pursuant thereto or to prescribe fees for permits.

In the event of nonenforcement of this part or the regulations adopted pursuant thereto, the provisions of this part and the regulations adopted pursuant thereto shall be enforced by the department in any such city, county, or city and county after the department has given 30 days' written notice to the governing body of such city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and has failed to initiate corrective measures to carry out its responsibility.

violates any provisions of this part or Part 2 (commencing with Section 18000) of this division, any regulations adopted pursuant thereto, or any local ordinance applicable to such use; or

(d) From requiring a local building permit to construct an accessory structure for a mobilehome when such mobilehome is located outside a mobilehome park, travel trailer park, recreational trailer park or temporary trailer park, under circumstances which the provisions of this part or Part 2 (commencing with Section 18000) of this division and the regulation adopted pursuant thereto do not require the issuance of a permit therefor by the department.

This section shall become operative January 1, 1976, unless a later enacted statute, which is chaptered before January 1, 1976, deletes or extends such date.

It is the further intent of the Legislature, by this act, to improve the employment opportunities of persons residing in areas of need for such training by providing education programs of a nature that will serve the social and economic needs of that area. The program provided will also serve to upgrade the cultural and intellectual life, as well as the economic life, of the area to be served.

It is further the intent of the Legislature that the regional occupational center or regional occupational program to be established in Fresno County shall conform with the requirements of state law in regard to the establishment of regional occupational centers or regional occupational programs pursuant to Chapter 14 (commencing with Section 7450) of Division 6 of the Education Code.

SEC. 2. Section 2 of Chapter 1203 of the Statutes of 1970 is amended to read:

Sec. 2. Amounts expended pursuant to this act by the officer or entity maintaining a regional occupational center or regional occupational program shall be a loan by the state to the officer or entity, as the case may be, and shall be fully repaid with interest to the state in such annual amounts and over such period as may be determined by the State Allocation Board, not to exceed 20 years from the date of disbursement. Interest shall be paid at a rate determined by the State Allocation Board. Such loan shall be repaid by the officer or entity which operates or which participates in the operation of a regional occupational center or regional occupational program, from proceeds of a district or county tax, or both, levied in the manner prescribed in Section 7456 of the Education Code, but at a rate on each one hundred dollars ($100) of assessed valuation sufficient to make the payments required by the State Allocation Board, notwithstanding the limitations contained in Section 7456 of

the Education Code.

The tax revenue referred to in this act shall be transferred by the County Auditor of Fresno to the State Treasury for the credit of the State School Building Aid Fund in accordance with established regulations and procedures.

SEC. 3. Section 3 of Chapter 1203 of the Statutes of 1970 is amended to read:

Sec. 3. An amount not to exceed two million five hundred thousand dollars ($2,500,000) from the proceeds of bonds issued pursuant to the State School Building Aid Bond Law of 1966 shall be expended for purposes of this act. The funds shall be expended under the administrative direction of the State Allocation Board in cooperation with the officer or entity designated pursuant to Chapter 14 (commencing with Section 7450) of Division 6 of the Education Code, for the remodeling, expansion, or construction of vocational facilities for a newly created regional occupational center or regional occupational program to be located in Fresno County. Not to exceed two hundred fifty thousand dollars ($250,000) of such sum shall be allocated and expended for architectural and engineering services in connection with such remodeling, expansion, or construction.

Sections 19551 to 19555, inclusive, and Sections 19559, 19562, 19565, and 19699.10 of the Education Code shall be applicable to the administration of this act unless the context of this act, as determined by the State Allocation Board, requires otherwise. SEC. 4. Section 4 is added to Chapter 1203 of the Statutes of 1970, to read:

CHAPTER 1105

An act to amend Section 454 of the Public Utilities Code, relating to public utilities.

[Approved by Governor October 2, 1973 Filed with Secretary of State October 2, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 454 of the Public Utilities Code is amended to read:

454. (a) No public utility shall raise any rate or so alter any classification, contract, practice, or rule as to result in any increase in any rate except upon a showing before the commission and a finding by the commission that such increase is justified. Whenever any electrical, gas, heat, telephone, water, or sewer system corporation proposes to increase any rate of charge for the services or commodities furnished by it and the commission determines that a hearing on the proposed increase shall be held and sets a date for such hearing, the corporation shall furnish to its customers affected by the proposed increase notice of its application to the commission for approval of such increase. The corporation shall include such notice with the regular bill for charges transmitted to such customers within 45 days if the corporation operates on a 30-day billing cycle, or within 75 days if the corporation operates on a 60-day billing cycle. The notice shall state the date, time, and place of the hearing, the amount of the proposed increase expressed in both dollar and percentage terms, a brief statement of the reasons the increase is required or sought, and the mailing address of the commission to which any customer inquiries relative to the proposed increase may be directed.

(b) The commission may establish such rules as it considers reasonable and proper for each class of public utility providing for the nature of the showing required to be made in support of proposed increases, the form and manner of the presentation of such showing, and the procedure to be followed in the consideration thereof. Rules applicable to common carriers may provide for the publication and filing of any proposed increase together with a written showing in support thereof, giving notice of such filing and showing in support thereof to the public, affording an opportunity for protests thereto, and to the consideration of, and action on, such showing and any protests filed thereto by the commission, with or without hearing; provided that the proposed increase shall not become effective until it has been approved by the commission.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any

financial burden to local government.

CHAPTER 1106

[Approved by Governor October 2, 1973 Filed with Secretary of State October 2, 1973.]

The people of the State of California do enact as follows:

SECTION 1. Section 6958 is added to the Education Code, to read:

The governing board of a school district or a county superintendent of schools which maintains and operates one or more development centers for handicapped pupils may admit to such centers pupils who live in regularly established licensed children institutions or in a family home, pursuant to a commitment or placement under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code, located either within or without the district or county.

In the event that a child lives in a regularly established licensed children institution or in a family home, pursuant to a commitment or placement under Chapter 2 (commencing with Section 500) of Part 1 of Division 2 of the Welfare and Institutions Code in a school district or county which maintains and operates a development center for handicapped pupils, the governing board of such a school district or the county superintendent of schools may admit such a pupil, provided that the county board of education of the county or city and county in which the child resided prior to his admission to the children's institution or family home approves of the admission and agrees to reimburse the school district or county maintaining the development center for the actual local costs of educating each such child.

If the child's prior residence cannot be ascertained or if his residence was outside the state, the district or county shall be reimbursed for the actual local cost of educating such pupil by the county or city and county in which the institution or family home is located, provided that admission has been approved by the county board of education of that county. The pupil residing in an institution or family home under this section does not acquire residence in the district wherein the institution or family home is located during the period of living in the institution or family home.

Claims by a school district or county superintendent of schools for actual local cost of educating pupils admitted to development centers for handicapped pupils shall be processed and paid in the same manner as provided in this chapter for other pupils and the

applicable provisions of this chapter shall govern the process and payment of such claims.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The people of the State of California do enact as follows:

SECTION 1. Section 4029 is added to the Health and Safety Code, to read:

Upon notification by the state department, pursuant to subdivision (c) of Section 4026, that the quality of domestic water fails to comply with the standards established by the state department and, as determined by the state department, represents an imminent danger to the health of the water users, such person shall immediately implement the approved emergency notification plan. The requirements of this section are intended to be in addition to those of Section 4027 which shall continue in full force and effect where applicable.

Any person who fails to comply with the provisions of this section is guilty of a misdemeanor. Each day's violation of this section shall be a separate offense.

SEC. 2. In enacting this act, the Legislature hereby determines

and finds that any duties, obligations or responsibilities imposed on local government are minor in nature and do not result in a significant new state-mandated program for local government, or a significant increase in the level of service of an existing mandated program, and no significant additional economic burden or cost is intended to be imposed hereby. Therefore, and solely as a result of this finding and determination, no appropriation is made by this act, nor is any obligation created thereby under Section 2164.3 of the Revenue and Taxation Code for reimbursement of any local agency for any costs that may be incurred by it.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

In order, therefore, to afford sufficient time for the preparation of such emergency notification plans and to thereby protect the public health, it is necessary that this act go into immediate effect.

Therefore, if this bill and Assembly Bill No. 2284 are both chaptered and become effective on or before January 1, 1974, and Assembly Bill No. 2284 is chaptered

Any violation of this subdivision is a misdemeanor.

(b) Subdivision (a) shall not preclude any person from installing, selling, offering for sale, or advertising a device as a motor vehicle pollution control device for use on a particular classification of used motor vehicles if the board has found that the installation of the device on that particular classification of used motor vehicle results in such vehicles meeting the state exhaust emissions standards.
