It is the site of numerous civic, recreational, and educational activities of widespread interest. The facility is made available for important intercollegiate track and field and professional baseball competitions.

For purposes of this section and Section 25457.2, references to "counties" in the case of Modoc County and Sierra County shall be deemed to refer to all of the school district territory under the jurisdiction of the county superintendents of schools of those counties, and not to the territory precisely included within the boundaries of the counties, where such school district territory extends into Siskiyou or Plumas County. The remaining provisions of this article shall be construed and applied in accordance with such meaning, where applicable.

In this connection, the governing body may approve a map if it finds that alternate easements, for access or for use, will be provided, and that these will be substantially equivalent to ones previously acquired by the public. This subsection shall apply only to easements of record or to easements established by judgment of a court of competent jurisdiction and no authority is hereby granted to a legislative body to determine that the public at large has acquired easements for access through or use of property within the proposed subdivision.

(f) The city or county must specify when development of the park or recreational facilities will begin.

(g) Only the payment of fees may be required in subdivisions containing fifty (50) parcels or less.

(h) Subdivisions containing less than five (5) parcels and not used for residential purposes shall be exempted from the requirements of this section; provided however, that a condition may be placed on the approval of such parcel map that if a building permit is requested for construction of a residential structure or structures on one or more of the parcels within four years the fee may be required to be paid by the owner of each such parcel as a condition to the issuance of such permit.

Land or fees required under this section shall be conveyed or paid directly to the local public agency which provides park and recreational services on a communitywide level and to the area within which the proposed development will be located, if such agency elects to accept the land or fee. The local agency accepting such land or funds shall develop the land or use the funds in the manner provided herein.

66478.8. Any public access route or routes provided by the subdivider shall be expressly designated on the tentative or final map, and such map shall expressly designate the governmental entity to which such route or routes are dedicated.

(b) Reasonable public access, as used in subdivision (a), shall be determined by the local agency in which the subdivision lies.

(d) Nothing in this section shall require a local agency to disapprove either a tentative or final map solely on the basis that the reasonable public access otherwise required by this section is not provided through or across the subdivision itself, if the local agency makes a finding that such reasonable public access is otherwise available within a reasonable distance from the subdivision.

Any such finding shall be set forth on the face of the tentative or final map.

(e) The provisions of this section shall not apply to the final map of any subdivision the tentative map of which has been approved by

a local agency prior to the effective date of this section.

(f) The provisions of this section shall not apply to the final or tentative map of any subdivision which is in compliance with the plan of any planned development or any planned community which has been approved by a local agency prior to December 31, 1968. Any public access route or routes provided by the subdivider shall be expressly designated on the tentative or final map, and such map shall expressly designate the governmental entity to which such route or routes are dedicated and its acceptance of such dedication.

(b) Reasonable access, as used in subdivision (a), shall be determined by the local agency in which the subdivision lies.

(c) In making the determination of what shall be reasonable access, the local agency shall consider:

(1) That access may be by highway, foot trail, bike trail, horse trail, or any other means of travel.

(2) The size of the subdivision

(3) The type of shoreline and the various appropriate recreational, educational, and scientific uses, including, but not limited to, swimming, diving, boating, fishing, water skiing, scientific exploration, and teaching.

(4) The likelihood of trespass on private property and reasonable means of avoiding such trespasses.

(d) Nothing in this section shall require a local agency to disapprove either a tentative or final map solely on the basis that the reasonable access otherwise required by this section is not provided through or across the subdivision itself, if the local agency makes a

SEC. 23. Section 66484 of the Government Code is amended to read:

66484. A local ordinance may require the payment of a fee as a condition of approval of a final map or as a condition of issuing a building permit for purposes of defraying the actual or estimated cost of constructing bridges over waterways, railways, freeways, and canyons, or constructing major thoroughfares

Such local ordinance may require payment of fees pursuant to this section if:

(a) The ordinance refers to the circulation element of the general plan and, in the case of bridges, to the transportation or flood control provisions thereof which identify railways, freeways, streams or canyons for which bridge crossings are required on general plan or local roads and in the case of major thoroughfares, to the provisions of such circulation element which identify those major thoroughfares whose primary purpose is to carry through traffic and provide a network connecting to the state highway system; provided, such circulation element, transportation or flood control provisions have been adopted by the local agency 30 days prior to the filing of a map or application for a building permit.

(b) The ordinance provides that there will be a public hearing held by the governing body for each area benefited. Notice shall be given pursuant to Section 65905 of the Government Code. In addition to the requirements of Section 65905 of the Government Code, such notice shall contain preliminary information related to the boundaries of the area of benefit, estimated cost and the method of fee apportionment. The area of benefit may include land or improvements in addition to the land or improvements which are the subject of any map or building permit application considered at such proceedings.

(c) The ordinance provides that at such public hearing, the boundaries of the area of benefit, the costs, whether actual or estimated, and a fair method of allocation of costs to the area of benefit and fee apportionment are established The method of fee

apportionment, in the case of major thoroughfares, shall not provide for higher fees on land which abuts the proposed improvement except where the abutting property is provided direct usable access to the major thoroughfare. A description of the boundaries of the area of benefit, the costs, whether actual or estimated, and the method of fee apportionment established at the hearing shall be incorporated in a resolution of the governing body, a certified copy of which shall be recorded by the governing body conducting the hearing with the recorder of the county in which the area of benefit is located. Such apportioned fees shall be applicable to all property within the area of benefit and shall be payable as a condition of approval of a final map or as a condition of issuing a building permit for such property or portions thereof. Where the area of benefit includes lands not subject to the payment of fees pursuant to this section, the governing agency shall make provision for payment of the share of improvement costs apportioned to such lands from other sources.

(d) The ordinance provides that payment of fees shall not be required unless the major thoroughfares are in addition to, or a reconstruction of, any existing major thoroughfares serving the area at the time of the adoption of the boundaries of the area of benefit.

(e) The ordinance provides that payment of fees shall not be required unless the planned bridge facility is an original bridge serving the area or an addition to any existing bridge facility serving the area at the time of the adoption of the boundaries of the area of benefit. Such fees shall not be expended to reimburse the cost of existing bridge facility construction.

(f) The ordinance provides that if, within the time when protests may be filed under the provisions of such ordinance, there is a written protest, filed with the clerk of the legislative body, by the owners of more than one-half of the area of the property to be benefited by the improvement, and sufficient protests are not withdrawn so as to reduce the area represented to less than one-half of that to be benefited, then the proposed proceedings shall be abandoned, and the legislative body shall not, for one year from the filing of that written protest, commence or carry on any proceedings for the same improvement or acquisition under the provisions of this section.

Nothing in this section shall preclude the processing and recordation of maps in accordance with other provisions of this division if proceedings are abandoned.

Any protests may be withdrawn by the owner making the same, in writing, at any time prior to the conclusion of a public hearing held pursuant to the ordinance

If any majority protest is directed against only a portion of the improvement then all further proceedings under the provisions of this section to construct that portion of the improvement so protested against shall be barred for a period of one year, but the legislative body shall not be barred from commencing new

proceedings not including any part of the improvement or acquisition so protested against. Nothing in this section shall prohibit the legislative body, within such one-year period, from commencing and carrying on new proceedings for the construction of a portion of the improvement so protested against if it finds, by the affirmative vote of four-fifths of its members, that the owners of more than one-half of the area of the property to be benefited are in favor of going forward with such portion of the improvement or acquisition.

Fees paid pursuant to an ordinance adopted pursuant to this section shall be deposited in a planned bridge facility or major thoroughfare fund. A fund shall be established for each planned bridge facility project or each planned major thoroughfare project. If the benefit area is one in which more than one bridge is required to be constructed, a fund may be so established covering all of the bridge projects in the benefit area. Moneys in such fund shall be expended solely for the construction or reimbursement for construction of the improvement serving the area to be benefited and from which the fees comprising the fund were collected, or to reimburse the local agency for the cost of constructing the improvement.

An ordinance adopted pursuant to this section may provide for the acceptance of considerations in lieu of the payment of fees.

A local agency imposing fees pursuant to this section may advance money from its general fund or road fund to pay the cost of constructing the improvements and may reimburse the general fund or road fund for such advances from planned bridge facility or major thoroughfares funds established to finance the construction of such improvements.

A local agency imposing fees pursuant to this section may incur an interest-bearing indebtedness for the construction of bridge facilities or major thoroughfares; provided that the sole security for repayment of such indebtedness shall be moneys in planned bridge facility or major thoroughfares funds.

The term "construction" as used in this section includes design, acquisition of right-of-way, administration of construction contracts and actual construction.

Nothing in this section shall be construed to preclude a county or city from providing funds for the construction of bridge facilities or major thoroughfares to defray costs not allocated to the area of benefit.

SEC. 24. Section 66499.20½ of the Government Code is amended to read:

66499.20½. A city or county may, by ordinance, authorize a parcel map to be recorded under the provisions of this chapter for the purpose of reverting to acreage land previously subdivided and consisting of four or less contiguous parcels under the same ownership. Any map so submitted shall be accompanied by evidence of title and nonuse or lack of necessity of any streets or easements which are to be vacated or abandoned. Any streets or easements to

be left in effect after the reversion shall be adequately delineated on the map. After approval of the reversion by the governing body or advisory agency the map shall be delivered to the county recorder. The recording of the map shall constitute legal reversion to acreage of the land affected thereby, and shall also constitute abandonment of all streets and easements not shown on the map. The recording of the map shall also constitute a merger of the separate parcels into one parcel for purposes of this chapter and shall thereafter be shown as such on the assessment roll subject to the provisions of Section 66445. Except as provided in subdivision (f) of Section 66445, on any parcel map used for reverting acreage, a certificate shall appear signed and acknowledged by all parties having any record title interest in the land being reverted, consenting to the preparation and recordation of the parcel map.

SEC. 25. Section 66499.32 of the Government Code is amended to read:

66499.32. (a) Any deed of conveyance, sale or contract to sell real property which has been divided, or which has resulted from a division, in violation of the provisions of this division, or of the provisions of local ordinances enacted pursuant to this division, is voidable at the sole option of the grantee, buyer or person contracting to purchase, his heirs, personal representative, or trustee in insolvency or bankruptcy within one year after the date of discovery of the violation of the provisions of this division or of local ordinances enacted pursuant to the provisions of this division, but the deed of conveyance, sale or contract to sell is binding upon any successor in interest of the grantee, buyer or person contracting to purchase, other than those above enumerated, and upon the grantor, vendor, or person contracting to sell, or his assignee, heir or devisee.

(b) Any grantee, or his successor in interest, of real property which has been divided, or which has resulted from a division, in violation of the provisions of this division or of local ordinances enacted pursuant thereto, may, within one year of the date of discovery of such violation, bring an action in the superior court to recover any damages he has suffered by reason of such division of property. The action may be brought against the person who divided the property in violation of the provisions of this division or of local ordinances enacted pursuant thereto and against any successors in interest who have actual or constructive knowledge of such division of property.

The provisions of this section shall not apply to the conveyance of any parcel of real property identified in a certificate of compliance filed pursuant to Section 66499.35 or identified in a recorded final map or parcel map, from and after the date of recording.

The provisions of this section shall not limit or affect in any way the rights of a grantee or his successor in interest under any other provision of law.

SEC 26 Section 66499.35 of the Government Code is amended to read:

66499.35. (a) Any person owning real property may request, and a local agency shall determine, whether such real property complies with the provisions of this division and of local ordinances enacted pursuant thereto. Upon making such a determination the city or the county shall cause a certificate of compliance to be filed for record with the recorder of the county in which the real property is located. The certificate of compliance shall identify the real property and shall state that the division thereof complies with applicable provisions of this division and of local ordinances enacted pursuant thereto. The local agency may impose a reasonable fee to cover the cost of issuing and recording the certificate of compliance.

(b) If a local agency determines that such real property does not comply with the provisions of this division or of local ordinances enacted pursuant thereto, it may, as a condition to granting a certificate of compliance, impose any of the conditions permitted under Section 66499.34. Such conditions may be fulfilled and implemented by the property owner who has applied for a certificate of compliance pursuant to this section or by a grantee of such property owner. If such conditions are not fulfilled or implemented by the applicant property owner or the grantee, the certificate of compliance shall have no force or effect upon any subsequent transfer of the property and any subsequent transferee or assignee shall make a new application for a certificate of compliance pursuant to this section, and the city or county may impose such conditions as would have been applicable at the time such assignee or transferee acquired the property.

(c) A certificate of compliance shall be issued for any real property which has been approved for development pursuant to Section 66499.34.

(d) A recorded final map or parcel map shall constitute a certificate of compliance with respect to the parcels of real property described therein.

In no event shall the combined period of the original lease and renewals or extensions exceed 10 years. Any contract for the lease or lease-purchase of equipment or service systems which was in existence prior to the effective date of this act shall remain in effect and such terms are hereby ratified.

SEC. 9. Section 16803 of the Education Code is amended to read:

(c) Notwithstanding any other provisions of law to the contrary, continuing contracts executed under the provisions of this section may be negotiated annually within the contract period when economic factors indicate such negotiation is necessary to maintain an equitable pricing structure. Such renegotiation shall be subject to the approval of both contracting parties.

For the purposes of this chapter, the term "basic bond requirement", wherever used, has the following meaning: 5 percent of the assessed valuation of taxable property of the district for each grade level maintained by a district, as shown by the last equalized assessment of the county or counties in which the district is located, and as modified by Section 17262.

SEC. 11. Section 19590 of the Education Code is amended to read:

19590. No apportionment to a school district shall become final unless: (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the basic bond requirement of the district on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars ($25,000) of the basic bond requirement of the district, as of the date on which the conditional apportionment is made. At the time the board makes a conditional apportionment pursuant to Section 19571, it shall determine the total amount of bonds which shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought; provided, that in the event the school district has previously received apportionments, or has become liable for the repayment of an apportionment, such proceeds shall first be applied toward the reduction, in chronological order beginning with the earliest, of any apportionments previously made to the district, or for the repayment of which the district has become liable in whole or in part, before being applied toward the cost of the project for which an apportionment is sought, provided further that no such proceeds shall be applied toward the reduction of any apportionment for a site made pursuant to Section 19577 prior to the combination of such site apportionment with a construction apportionment pursuant to subsection (d) of Section 19577. The amount so determined by the

board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district. The amount of any apportionment for a construction project made as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of such construction project, shall be excluded in determining the amount chargeable against the apportionments authorized by the electorate of the district to be accepted, expended and repaid. It is hereby declared that this provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law.

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district. Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board. The amount so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 19571 shall be conditioned upon the approval and sale of such bonds by the district.

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 19579.1 be entered into unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend and repay as provided in this chapter an apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated by said agreement, or by any act of its governing board or for which it is responsible, contemplated or permitted thereby. Said election shall be called, held and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words:

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 10 of Division 14 of

031 277590 382

the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 19579.1 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than _____ dollars ($_____), or both. Yes ____ No ____."

SEC. 12. Section 19590.5 of the Education Code is repealed.

SEC. 13. Section 19591 of the Education Code is amended to read:

19591. Notwithstanding any provisions of Section 19590, if an applicant district issues and sells bonds prior to an apportionment in an amount which results in its being on the date of such apportionment within five thousand dollars ($5,000) of the basic bond requirement of the district, and makes the entire proceeds of said bond issue available for the purposes of the apportionment, or as a condition of an apportionment is required by the board to sell bonds to within five thousand dollars ($5,000) of the basic bond requirement of the district, and to make the proceeds available for the purposes of Section 19590, the district shall remain qualified to receive an apportionment or apportionments prior to the next equalized assessment of the county or counties in which said district is located without being required to issue and sell additional bonds, notwithstanding the retirement of any bonds of the district or territorial changes therein subsequent to any apportionment referred to in this section and prior to such next equalized assessment.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts and community college districts may continue to lease relocatable structures necessary to provide the educational program of the district it is necessary that this act go into immediate effect.

Any section of any act enacted by the Legislature at its 1975–76 Regular Session which takes effect on or before January 1, 1976, and which amends, amends and renumbers, or repeals a section amended or repealed by this act, shall prevail over this act, whether such act is enacted prior or subsequent to this act.

CHAPTER 40

An act to repeal and add Section 39177.1 of the Health and Safety Code, relating to air pollution, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 23, 1975 Filed with Secretary of State April 24, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 39177.1 of the Health and Safety Code is repealed.

SEC. 2. Section 39177.1 is added to the Health and Safety Code, to read:

39177.1. (a) Whenever an exhaust emission control device meeting the standards established by the board under Section 39107.6 is accredited pursuant to the provisions of this article and is available for installation as determined by the board, every 1966 through 1970 model year motor vehicle having a manufacturer's gross vehicle weight rating of under 6,001 pounds shall be equipped with such an accredited exhaust emission control device upon initial registration and upon transfer of ownership and registration.

(b) Enforcement of the provisions of subdivision (a) shall be as follows:

(1) Vehicle inspections shall be conducted pursuant to Section 2814 of the Vehicle Code.

(2) Certificates of compliance shall be required upon initial registration, and upon transfer of ownership and registration pursuant to Section 4000.1 of the Vehicle Code.

(3) By such other authorized means as the board, the Department of Motor Vehicles, and the Department of the California Highway Patrol find practicable.

(c) After one or more devices are initially accredited, no device shall be accredited which is less effective than the one or ones initially accredited. Any subsequent accreditation of a more effective device shall not affect the accreditation of a previously accredited device.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State Air Resources Board, on September 11, 1974, adopted a revised schedule of installation for accredited oxides of nitrogen exhaust emission control devices on 1966 through 1970 model year motor vehicles, under which the scope of the original installation program was reduced for all such motor vehicles in the state, except for those registered in counties included, in whole or in part, within the South Coast Air Basin. Such schedule was based upon the

enactment of Chapter 670 of the Statutes of 1974. To continue to apply the full scope of the original program only with respect to motor vehicles within the South Coast Air Basin would cause hardships and create inequities. This act would result in a revision of the schedule adopted by the board and the provisions of Chapter 670 by requiring devices on such vehicles within the South Coast Air Basin only upon initial registration and upon transfer of ownership and registration, thus making motor vehicles registered in the South Coast Air Basin subject to the same requirements as motor vehicles registered elsewhere in the state. In order that this act may achieve its intended results, it is necessary that the act take effect immediately.

CHAPTER 41

An act making an appropriation for in-home supportive services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 26, 1975 Filed with Secretary of State April 26, 1975]

I am reducing the appropriation contained in Assembly Bill No 244 from $3,600,000 to $2,700,000.

The $900,000 reduction reflects additional funds recently reallocated from other social services to the homemaker/chore program That allocation brings the current level of funding for the homemaker/chore program to $78 3 million The present level of funding should be adequate to meet program needs for the rest of the fiscal year.

I am approving the remainder of the appropriation to insure that additional funds will be available for in-home supportive services if the Secretary of the Health and Welfare Agency determines that such a need exists

With this reduction, I approve Assembly Bill No 244

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund in the State Treasury to the Department of Health the sum of three million six hundred thousand dollars ($3,600,000) to be allocated to the counties to pay for in-home supportive services under Article 7 (commencing with Section 12300) of Chapter 3 of Part 3 of Division 9 of the Welfare and Institutions Code for the 1974–75 fiscal year in augmentation of any other appropriation for such purpose. No funds shall be expended under this section if the Secretary of the Health and Welfare Agency decides not to expend these funds and submits a detailed written report to the Legislature within 15 days after the operative date of this section of an alternative solution

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting such necessity are:

In order to have sufficient funds to continue in-home supportive services for the aged, blind, and disabled for the remainder of the 1974–75 fiscal year, it is necessary that this act go into immediate effect.

CHAPTER 43

An act to amend Section 203 of the Labor Code, relating to payment of wages.

[Approved by Governor April 26, 1975. Filed with Secretary of State April 26, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 203 of the Labor Code is amended to read:

203. If an employer willfully fails to pay, without abatement or reduction, in accordance with Sections 201, 201.5, and 202, any wages of an employee who is discharged or who quits, the wages of such employees shall continue as a penalty from the due date thereof at the same rate until paid or until an action therefor is commenced; but such wages shall not continue for more than 30 days. No employee who secretes or absents himself to avoid payment to him, or who refuses to receive the payment when fully tendered to him, including any penalty then accrued under this section, shall be entitled to any benefit under this section for the time during which he so avoids payment.

Suit may be filed for such penalties at any time before the expiration of the statute of limitations on an action for the wages from which the penalties arise.

CHAPTER 44

An act to amend Section 1297 of the Labor Code, relating to employment of minors.

[Approved by Governor April 26, 1975 Filed with Secretary of State April 26, 1975]

The people of the State of California do enact as follows:

No minor under the age of 16 years shall be employed or permitted to work as a messenger for any telegraph, telephone, or messenger company, or for the United States government or any of its departments while operating a telegraph, telephone, or messenger service, in the distribution, transmission, or delivery of goods or messages in cities of more than 15,000 inhabitants; nor shall any minor under the age of 18 years be employed, permitted, or suffered to engage in such work before 6 o'clock in the morning or after 9 o'clock in the evening.

CHAPTER 45

An act to amend Section 23731 of the Government Code, relating to elections, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor April 29, 1975 Filed with Secretary of State April 29, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 23731 of the Government Code is amended to read:

23731. The county clerk shall prepare and mail to each qualified elector in the county a sample ballot. The sample ballot shall be mailed with and at the same time as the complete text of the proposed amendment or amendments. In all other respects, every such election shall be held and conducted, the returns canvassed and the result declared by the governing body in the same manner as provided by law for general elections.

CHAPTER 46

An act to amend Sections 3097 and 3114 of, and to add Section 3097.1 to, the Civil Code, relating to works of improvement.

[Approved by Governor April 29, 1975 Filed with Secretary of State April 29, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 3097 of the Civil Code is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction

lender, he shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of such person furnishing such labor, service, equipment, or materials.

(3) The name of the person who contracted for purchase of such labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) A statement that if bills are not paid in full for labor, service, equipment, or material furnished, or to be furnished, the improved property may be subject to mechanic's liens.

(6) If such notice is given by a subcontractor who is required pursuant to a collective bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, such notice shall also contain the identity and address of such trust fund or funds.

If an invoice for such materials contains the information required by this section, a copy of such invoice, transmitted in the manner prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), such person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. Such person shall, however, be entitled to claim a lien and a notice to withhold only for such labor, service, equipment, or material furnished within 20 days prior to the service of such notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon him by this section shall be void and of no effect.

(f) The notice required under this section may be served as follows:

(1) If the person to be notified resides in this state, by delivering the notice personally, or by leaving it at his address of residence or place of business with some person in charge, or by first-class registered or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his residence or place of business address or at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j) of this section.

(2) If the person to be notified does not reside in this state, by any method enumerated in paragraph (1) of this subdivision. If such

person cannot be served by any of such methods, then notice may be given by first-class certified or registered mail, addressed to the construction lender or to the original contractor.

(3) When service is made by first-class certified or registered mail, service is complete at the time of the deposit of such registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one such notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is furnished under contracts with more than one subcontractor, in which event, the notice requirements must be met with respect to materials, services, labor, or equipment furnished to each such contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after such date, the person giving notice furnishes materials, services, labor, or equipment not within the scope of such general description.

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars ($400), the failure of that contractor, licensed under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where such notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give such notice, including such information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which such obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due such trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in such designated space. Any failure to indicate the name and address of the construction lender on such application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of

constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender, and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property. The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of any such mortgage, deed of trust, or other instrument.

Failure to provide such information on such an instrument when recorded shall not relieve persons required to give preliminary notice under this section from such duty.

The county recorder of the county in which such instrument is recorded shall indicate in the general index of the official records of the county that such instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective bargaining agreement to pay supplementary fringe benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to such fund and to the construction lender, if any, or to the reputed construction lender, if any, not later than five days following the date such payment was due to such fund, a written notice containing:

(1) The name of the owner and the contractor.

(2) A description of the jobsite sufficient for identification.

(3) The identity and address of the express trust fund.

(4) The total number of straight-time and overtime hours on each such job, payment for which the contractor or subcontractor is delinquent to the express trust.

(5) The amount then past due and owing.

Failure to give such notice shall constitute grounds for disciplinary action by the Registrar of Contractors.

(*l*) Every written contract entered into between a property owner and an original contractor shall provide space for the owner to enter his name and address of residence; and place of business if any. The original contractor shall make available a copy of such contract for inspection by any person seeking to serve notice required by this section.

SEC. 2. Section 3097.1 is added to the Civil Code, to read:

3097.1. Proof that the preliminary 20-day notice required by Section 3097 was served in accordance with subdivision (f) of Section 3097 shall be made as follows:

(a) If served by personally delivering the notice to the person to be notified, or by leaving it at his address or place of business with some person in charge, or if served by mail, by an acknowledgment of receipt of the notice in a form substantially as follows:

_____

Signature of sender

ACKNOWLEDGMENT OF RECEIPT OF
PRELIMINARY 20-DAY NOTICE

This acknowledges receipt on (insert date) of a copy of the preliminary 20-day notice at (insert address).
Date: _____

(Date this acknowledgment is executed)

_____

Signature of person acknowledging receipt, with title if acknowledgment is made on behalf of another person

(b) If a person to whom the notice is served pursuant to subdivision (f) of Section 3097 fails to complete the acknowledgment or fails to complete and return the acknowledgment within 30 days from the date of mailing, proof of service may be made by affidavit of the person making such service, showing the time, place and manner of service and facts showing that such service was made in accordance with Section 3097. Such affidavit shall show the name and address of the person to whom a copy of the preliminary 20-day notice was delivered, and, if appropriate, the title or capacity in which he was served. If service was made by mail, the receipt of certification or registration shall be attached to the affidavit.

SEC. 3. Section 3114 of the Civil Code is amended to read:

3114. A claimant shall be entitled to enforce a lien only if he has given the preliminary 20-day notice (private work) in accordance with the provisions of Section 3097, if required by that section, and has made proof of service in accordance with the provisions of Section 3097.1.

CHAPTER 47

[Approved by Governor April 30, 1975 Filed with Secretary of State April 30, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2709 is added to the Public Resources Code, to read:

2709. Any city or county that has been exempted from the provisions of Section 2705 by Section 2708 may participate in the state strong-motion instrumentation program by a written request to the State Geologist by the governing body of such city or county that its exemption be rescinded.

[Approved by Governor April 30, 1975 Filed with Secretary of State April 30, 1975]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8 (commencing with Section 33750) is added to Part 1 of Division 24 of the Health and Safety Code, to read:

CHAPTER 8. REDEVELOPMENT CONSTRUCTION LOANS

Article 1. General Provisions and Definitions

33750. The Legislature finds and declares that it is necessary and essential that redevelopment agencies be authorized to make long-term, low-interest loans through qualified mortgage lenders to finance residential construction in redevelopment project areas in order to encourage investment and upgrade such areas. Unless redevelopment agencies intervene to generate mortgage funds and to provide some form of assistance to finance residential construction, many redevelopment areas will stagnate and deteriorate because owners and investors are not able to obtain loans from private sources.

33751. The Legislature further finds and determines that a program to provide residential construction financing would accomplish the following:

(a) Facilitate increasing the supply of urban housing and ease the housing shortage that exists in many parts of the state.

(b) Encourage Californians of all social and economic positions to reinhabit urban areas, thereby rendering these areas more socially balanced and economically self-sufficient.

(c) Reduce pressures for suburbanization and thereby mitigate many of the problems caused by urban migration, including inefficient use of scarce energy resources and urban sprawl.

(d) Stimulate urban building and construction activity and thereby increase urban employment and improve the urban tax base.

33752. It is the intent of the Legislature, in enacting this chapter, to strengthen the vitality and promote the completion of urban redevelopment for the general public benefit. The construction of federally assisted housing for low- and moderate-income households is not a primary purpose of this chapter. However, nothing in this chapter shall be deemed to prohibit financing of federally assisted housing for low- and moderate-income households when such

housing is consistent with the redevelopment plan and the loan is directly or indirectly insured.

33753. The definitions set forth in Article 1 (commencing with Section 33000) of Chapter 1 of this part shall govern the construction of this chapter. Additionally, as used in this chapter:

(a) "Insured loan" means a construction loan or a mortgage loan insured by any instrumentality of the United States, the State of California, or any person licensed to insure mortgages in this state.

Article 2. Powers and Procedures

33760. An agency may determine the location and character of any residential construction to be financed under the provisions of this chapter and may lend financial assistance, through a qualified mortgage lender, to any participating party for the purpose of such residential construction in any redevelopment project area within its jurisdiction.

33761. An agency may issue revenue bonds for the purpose of financing residential construction authorized by this chapter and for the purpose of funding or refunding previously issued revenue bonds.

33762. An agency may establish limitations respecting fees, charges, and interest rates to be used by qualified mortgage lenders for financing residential construction pursuant to this chapter and may from time to time revise such fees, charges, and interest rates to reflect changes in interest rates on the agency's revenue bonds, losses due to defaults, changes in loan-servicing charges, or other expenses related to administration of the residential construction financing program. Any change in interest rate shall conform to the provisions of Section 1916.5 of the Civil Code, except that paragraph (3) of subdivision (a) of Section 1916.5 shall not apply and that the "prescribed standard" specified in Section 1916.5 shall be periodically determined by the redevelopment agency after hearing preceded by public notice to affected parties, and shall reflect changes in interest rates on the agency's bonds, and bona fide changes in loan servicing charges related to the administration of a program under the provisions of this chapter. An agency may collect interest and principal together with such fees and charges incurred in financing and may contract to pay any person, partnership, association, corporation, or public agency with respect thereto. An agency may hold deeds of trust as security for financing residential construction and may pledge the same as security for repayment of revenue bonds. An agency may establish the terms and conditions of financing, which shall be consistent with the provisions of the applicable federal law under which the financing is to be insured.

33763. No loan shall be made for financing except through a qualified mortgage lender and only to the extent it is an insured loan.

33764. An agency may employ engineering, architectural, accounting, collection, or other services, including services in connection with the servicing of loans made to participating parties, as may be necessary in the judgment of the agency for the successful financing of residential construction pursuant to this chapter. An agency may pay the reasonable costs of consulting engineers, architects, accountants, and other experts, if, in the judgment of the agency, such services are necessary to the successful financing of any residential construction and if the agency is not able to provide such services. An agency may employ and fix the compensation of financing consultants, bond counsel, and other advisers as may be necessary in its judgment to provide for the issuance and sale of any revenue bonds of the agency.

33765. In addition to all other powers specifically granted by this chapter, an agency may do all things necessary or convenient to carry out the purposes of this chapter.

33766. Revenues and insurance shall be the sole source of funds pledged by an agency for repayment of its revenue bonds. Revenue bonds issued under the provisions of this chapter shall not be deemed to constitute a debt or liability of the agency or the state for which is pledged the faith and credit of the agency or the state but shall be payable solely from revenues and insurance.

33767. All residential construction shall be undertaken or completed subject to the rules and regulations of the agency. An agency may acquire by deed, purchase, lease, contract, gift, devise, or otherwise any real or personal property, structures, rights, rights-of-way, franchises, easements, and other interests in lands necessary or convenient for the financing of residential construction, upon such terms and conditions as it deems advisable, and may lease, sell, or dispose of the same in such manner as may be necessary or desirable to carry out the objectives and purposes of this chapter.

33768. The provisions of Chapter 16 (commencing with Section 7260) of Division 7 of Title I of the Government Code shall not apply to owners or tenants of any property acquired by foreclosure, trust deed, sale or other proceeding resulting from default on a loan made by the agency.

33769. An agency shall require that any residence which is constructed with financing obtained under this chapter shall be open, upon sale or rental of any portion thereof, to all regardless of race, color, religion, national origin, or ancestry. The agency shall also require that contractors and subcontractors engaged in residential construction financed under this chapter shall provide equal opportunity for employment, without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry. All contracts and subcontracts for residential construction financed under this chapter shall be let without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry. It shall be the policy of an agency financing residential construction under this chapter to encourage participation by minority contractors, and the

agency shall adopt rules and regulations to implement the provisions of this section.

Article 3. Bonds and Notes

33775. (a) An agency may, from time to time, issue its negotiable revenue bonds for the purpose of making insured loans to finance residential construction. In anticipation of the sale of bonds, the agency may issue negotiable bond anticipation notes and may renew such notes from time to time. Bond anticipation notes may be paid from the proceeds of sale of the bonds of the agency in anticipation of which they were issued. Bond anticipation notes and agreements relating thereto and the resolution or resolutions authorizing such notes and agreements may contain any provisions, conditions, or limitations which a bond, agreement relating thereto, or bond resolution of the agency may contain except that any such note or renewal thereof shall mature at a time not later than two years from the date of the issuance of the original note.

(b) Every issue of its revenue bonds shall be a special obligation of the redevelopment agency payable from all or any part of the revenues specified in this chapter. The revenue bonds shall be negotiable instruments for all purposes, subject only to the provisions of such bonds for registration.

33776. The revenue bonds may be issued as serial bonds or as term bonds, or the redevelopment agency, in its discretion, may issue revenue bonds of both types. The revenue bonds shall be authorized by resolution of the agency and shall bear such date or dates, mature at such time or times, not exceeding 50 years from their respective dates of issuance, bear interest at such fixed or variable rate or rates, be payable at such time or times, be in such denominations, be in such form either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places, and be subject to such terms of redemption as the resolution or resolutions of the redevelopment agency may provide. The bonds may be sold at either a public or private sale and for such prices as the agency shall determine. Pending preparation of the definitive bonds, the agency may issue interim receipts, certificates, or temporary bonds, which shall be exchanged for such definitive bonds. The redevelopment agency may sell any revenue bonds or other evidence of indebtedness at a price below the par value thereof, but the discount on any revenue bond so sold shall not exceed 6 percent of the par value thereof.

33777. Any resolution or resolutions authorizing any revenue bonds or any issue of revenue bonds may contain provisions respecting any of the following terms and conditions, which shall be a part of the contract with the holders of the revenue bonds:

(a) The pledge of all or any part of the revenues, subject to such agreements with bondholders as may then exist.

(b) The interest and principal to be received and other charges to be charged and the amounts to be raised each year thereby, and the use and disposition of the revenues.

(c) The setting aside of reserves or sinking funds and the regulation and disposition thereof.

(d) Limitations on the purposes to which the proceeds of a sale of any issue of revenue bonds, then or thereafter issued, may be applied, and pledging such proceeds to secure the payment of the revenue bonds or any issue of revenue bonds.

(e) Limitations on the issuance of additional revenue bonds, the terms upon which additional revenue bonds may be issued and secured, and the refunding of outstanding revenue bonds.

(f) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of revenue bonds the holders of which must consent thereto, and the manner in which such consent may be given.

(g) Limitation on expenditures for operating, administration, or other expenses of the agency.

(h) Specification of the acts or omissions to act which shall constitute a default in the duties of the redevelopment agency to holders of its revenue bonds, and providing the rights and remedies of such holders in the event of default.

(i) The mortgaging of any residence and the site thereof for the purpose of securing the bondholders.

(j) The mortgaging of land, improvements, or other assets owned by a participating party for the purpose of securing the bondholders.

33778. Neither the members of the agency nor any person executing the revenue bonds shall be liable personally on the revenue bonds or be subject to any personal liability or accountability by reason of the issuance thereof.

33779. The agency shall have the power out of any funds available therefor to purchase its revenue bonds. The agency may hold, pledge, cancel, or resell such revenue bonds, subject to and in accordance with agreements with the bondholders.

33780. In the discretion of the agency, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such a trust agreement or the resolution providing for the issuance of revenue bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence the construction of which is to be financed out of the proceeds of such revenue bonds. Such trust agreement or resolution providing for the issuance of revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the agency authorizing the issuance of the

revenue bonds. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of revenue bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of residential construction.

33781. Any holder of revenue bonds issued under the provisions of this chapter or any of the coupons appertaining thereto, and the trustee or trustees appointed pursuant to any resolution authorizing the issuance of such revenue bonds, except to the extent the rights thereof may be restricted by the resolution authorizing the issuance of the revenue bonds, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect or enforce any and all rights specified in the laws of this state or in such resolution, and may enforce and compel the performance of all duties required by this chapter or by such resolution to be performed by the agency or by any officer, employee, or agent thereof, including the fixing, charging, and collecting of rates, fees, interest, and charges authorized and required by the provisions of such resolution to be fixed, established, and collected.

33782. An agency may provide for the issuance of the revenue bonds of the agency for the purpose of refunding any revenue bonds of the agency then outstanding, including the payment of any redemption premiums thereof and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase, or maturity of such bonds, and, if deemed advisable by the agency, for the additional purpose of paying all or any part of the cost of additional residential construction.

The proceeds of revenue bonds issued pursuant to this section may, in the discretion of the agency, be applied to the purchase or retirement at maturity or redemption of outstanding revenue bonds, either at their earliest or any subsequent redemption date or upon the purchase or retirement at the maturity thereof and, pending such application, that portion of the proceeds allocated for such purpose may be placed in escrow, to be applied to such purchase or retirement at maturity or redemption on such date, as may be determined by the agency. Pending use for purchase, retirement at maturity, or redemption of outstanding revenue bonds, any proceeds held in such an escrow may be invested and reinvested as provided in the resolution authorizing the issuance of the refunding bonds. Any interest or other increment earned or realized on any such investment may also be applied to the payment of the outstanding revenue bonds to be refunded. After the terms of the escrow have

been fully satisfied and carried out, any balance of such proceeds and any interest or increment earned or realized from the investment thereof may be returned to the agency to be used by it for any lawful purpose. That portion of the proceeds of any revenue bonds issued pursuant to this section which is designated for the purpose of paying all or any part of the cost of additional residential construction may be invested and reinvested in obligations of, or guaranteed by, the United States of America or in certificates of deposit or time deposits secured by obligation of, or guaranteed by, the United States of America, maturing not later than the time or times when such proceeds will be needed for the purpose of paying all or any part of such cost.

All revenue bonds issued pursuant to this section shall be subject to the provisions of this chapter in the same manner and to the same extent as other bonds issued pursuant to this chapter.

33783. Notwithstanding any other provision of law, revenue bonds issued pursuant to this chapter shall be legal investments for all trust funds, insurance companies, savings and loan associations, investment companies and banks, both savings and commercial, and shall be legal investments for executors, administrators, trustees, and all other fiduciaries. Such bonds shall be legal investments for state school funds and for any funds which may be invested in county, municipal, or school district bonds, and such bonds shall be deemed to be securities which may properly and legally be deposited with, and received by, any state or municipal officer or by any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state is now, or may hereafter be authorized by law, including deposits to secure public funds.

33784. The exercise of the powers granted by this chapter shall be in all respects for the benefit of the people of this state and for their health and welfare. Any revenue bonds issued under the provisions of this chapter, their transfer and the income therefrom, shall at all times be free from taxation of every kind by the state and by the municipalities and other political subdivisions of the state, except inheritance and gift taxes.

Article 4. Residential Construction

33790. An agency may lend money, through a qualified mortgage lender, to any participating party in a redevelopment project area for the purpose of residential construction, if the loan is an insured loan. All agreements for such loans shall provide that the architectural and engineering design of the residential construction shall be subject to such standards as may be established by the agency and that the work of such residential construction shall be subject to such supervision as the agency deems necessary.

33791. An agency may enter into loan agreements with any participating party relating to residential construction of any kind or character. The terms and conditions of such loan agreements may be

as mutually agreed upon, but such terms and conditions shall not be inconsistent with the provisions of this chapter or regulations adopted pursuant thereto. Any such loan agreement may provide the means or methods by which any mortgage taken by the agency shall be discharged, and it shall contain such other terms and conditions as the agency may require. An agency may fix, revise, charge and collect interest and principal and all other rates, fees, and charges with respect to financing of residential construction. Such rates, fees, charges and interest shall be fixed and adjusted so that the aggregate of such rates, fees, charges, and interest will provide funds sufficient with other revenues and moneys which it is anticipated will be available therefor, if any, to all of the following:

(a) Pay the principal of, and interest on, outstanding revenue bonds of the agency issued to finance such residential construction as the same shall become due and payable.

(b) Create and maintain reserves required or provided for in any resolution authorizing such revenue bonds. A sufficient amount of the revenues derived from residential construction may be set aside at such regular intervals as may be provided by the resolution in a sinking or other similar fund, which is hereby pledged to, and charged with, the payment of the principal of and interest on such revenue bonds as the same shall become due, and the redemption price or the purchase price of revenue bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time the pledge is made. The rates, fees, interest, and other charges, revenues, or moneys so pledged and thereafter received by the agency shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the agency, irrespective of whether such parties have notice thereof. Neither the resolution nor any loan agreement by which a pledge is created need be filed or recorded except in the records of the agency. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the provisions of the resolution authorizing the issuance of such revenue bonds. Except as may otherwise be provided in the resolution, such sinking or other similar fund may be a fund for all revenue bonds of the agency issued to finance the construction of the residence of a particular participating party without distinction or priority. The agency, however, in any such resolution may provide that such sinking or other similar fund shall be the fund for particular project or projects of residential construction and for the bonds issued to finance such project or projects and may, additionally, authorize and provide for the issuance of revenue bonds having a lien with respect to the security authorized by this section which is subordinate to the lien of other revenue bonds of the agency, and in such case, the agency may create separate sinking or other similar funds securing the revenue bonds having the subordinate lien.

499 278595 511

(c) Pay operating and administrative costs of the agency incurred in the administration of the program authorized by this chapter.

33792. All moneys received pursuant to the provisions of this chapter, whether revenues or proceeds from the sale of revenue bonds, shall be deemed to be trust funds to be held and applied solely as provided in this chapter. Any bank or trust company in which such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes specified in this chapter, subject to the terms of the resolution authorizing the revenue bonds.

33795. This chapter being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect its purposes.

33796. If the jurisdiction of the agency to order a proposed act is not affected, an omission of any officer or the agency in proceedings under this chapter or any other defect in the proceedings shall not invalidate the proceedings or revenue bonds issued pursuant to this chapter.

33797. This chapter is full authority for the issuance of bonds by an agency for the purpose of financing residential construction.

33798. This chapter shall be deemed to provide a complete, additional, and alternative method for doing the things authorized thereby, and shall be regarded as supplemental and additional to the powers conferred by other laws. The issuance of revenue bonds and refunding revenue bonds under the provisions of this chapter need not comply with the requirements of any other law applicable to the issuance of bonds.

33799. An action may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of any issuance or proposed issuance of revenue bonds under this chapter and the legality and validity of all proceedings previously taken or proposed in a resolution of an agency to be taken for the authorization, issuance, sale, and delivery of the revenue bonds and for the payment of the principal thereof and interest thereon.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is presently a serious lack of mortgage funds in many California urban areas and such funds, when available, are available only at high interest rates and for preferred types of development. Residential construction planned in urban redevelopment areas cannot compete in this mortgage market. It is, therefore, imperative to facilitate financing of residential construction so that redevelopment programs designed to reverse urban blight are not delayed.

CHAPTER 49

An act to amend Section 1461 of the Education Code, relating to school elections.

[Approved by Governor May 2, 1975 Filed with Secretary of State May 3, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1461 of the Education Code is amended to read:

1461. The governing board of the district or any member or members of the board authorized by the board, or any individual voter or bona fide association of citizens, or any combination of such voters and associations may file a written argument for or against any school measure. No argument shall exceed 300 words in length. No more than five signatures shall appear with any argument submitted under this section. If an argument is signed by more than five persons, the names of only the first five persons signing, determined by the order in which their signatures appear, shall be printed with the argument. The person conducting the election shall cause an argument for and an argument against the measure to be printed, and shall transmit the arguments to the voters with the card giving notice of the election.

CHAPTER 50

An act to amend Section 20862.5 of, and to add Sections 20750.86 and 20868 to, the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 2, 1975 Filed with Secretary of State May 3, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 20750.86 is added to the Government Code, to read:

20750.86. Each employer included in a contract under Chapter 4.5 (commencing with Section 20580) of this part and each school district which is a contracting agency shall make contribution on account of liability for benefits under Section 20862.5 in addition to those otherwise specified in this chapter in a sum equal to 0.23 percent of compensation paid such members by such employer on and after January 1, 1975.

SEC. 2. Section 20862.5 of the Government Code is amended to read:

20862.5. A state or school member, whose effective date of retirement is within four months of separation from employment with the employer subject to this section which granted the sick leave credit, shall be credited at his retirement with 0.004 year of service credit for each unused day of sick leave certified to the board by such employer.

Until receipt of certification from an employer concerning unused sick leave, the board may pay an estimated allowance pursuant to this section. At the time of receipt of such certification, the allowance shall be adjusted to reflect any necessary changes.

Notwithstanding provisions of this part subjecting local miscellaneous members to provisions applicable to state miscellaneous members, this section shall not apply to local miscellaneous members other than local miscellaneous members employed by a school district which is a contracting agency.

The amendments made to this section at the 1973–74 Regular Session of the Legislature shall be applicable to any school member and any local miscellaneous member employed by a school district which is a contracting agency retiring on or after June 1, 1974.

SEC. 3. Section 20868 is added to the Government Code, to read:

20868. All computations, payments, and other acts heretofore made or done by the board or its officers and employees which would be valid if Section 20862.5 as such is amended on the effective date of this section, had been in effect at the time such computations, payments, or other acts were made or done are hereby ratified, confirmed and validated.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this act nor shall there be any appropriation made by this act because there are savings as well as costs in this act which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Subsequent chaptering of Chapter 1399 of the Statutes of 1974 resulted in an unintended repeal of Section 20750.87 amended by Chapter 1398 of the Statutes of 1974 adding an employer contribution for benefits under Section 20862.5 of the Government Code for school members and local miscellaneous members of the Public Employees' Retirement System employed by school district contracting agencies. This act must take effect immediately to avoid this deficiency in funding resulting from enactment of Chapter 1399.

CHAPTER 51

An act to amend Sections 20041 and 21250 of the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor May 2, 1975 Filed with Secretary of State May 3, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 20041 of the Government Code is amended to read:

20041. "Dependent," in reference to any benefit provided, upon the death of a member, for a surviving dependent parent, or parent dependent upon the member for support, shall mean receipt of at least one-half of the parent's support from the member at the time of the member's death determined according to rules of the board.

SEC. 2. Section 21250 of the Government Code is amended to read:

21250. Upon retirement for service, a member is entitled to receive a service retirement allowance which shall consist of:

(a) The member's service retirement annuity, including, with respect to patrol members and solely in respect to the portion of said annuity derived from the normal accumulated contributions of such members, respectively, automatic continuance to surviving spouse, or if there is no spouse at retirement, to surviving children, or if there are no eligible surviving children at retirement, to surviving dependent parents as provided in this article.

(b) The member's current service pension.

(c) The member's prior service pension.

CHAPTER 52

An act to amend Section 25500 of the Elections Code, relating to candidates.

[Approved by Governor May 2, 1975. Filed with Secretary of State May 3, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 25500 of the Elections Code is amended to read:

25500. (a) Each candidate for a party nomination for the office of State Senator or Member of the Assembly at the direct primary election, whether his declaration of candidacy is to be made personally or by sponsors, shall file a written and signed declaration of his intention to become a candidate for his party's nomination for that office. The declaration of intention shall be filed with either the

Secretary of State or the clerk of the county in which the candidate is a resident. The declaration of intention shall be filed, on a form to be supplied by the county clerk or registrar of voters, not more than 15 nor less than 5 days prior to the first day on which his nomination papers may be presented for filing. The declaration of intention provided for in this section shall be in substantially the following form:

I hereby declare my intention to become a candidate for the _____ Party's nomination for the office of _____
(Name of political party) (Name of office and district)
_____, at the direct primary election.

_____
(Signature of candidate)

_____
(Address of candidate)

(b) No person may be a candidate nor have his name printed upon any ballot as a candidate for a party nomination for the office of State Senator or Member of the Assembly at the direct primary election unless he has filed the declaration of intention provided for in this section; provided, however, that if the incumbent of the office, for any reason, fails to qualify for nomination for the office by the last day prescribed for the filing of nomination papers, an additional five days shall be allowed for the filing of nomination papers for the office, and any person, if otherwise qualified, may file nomination papers for the office during the extended period, notwithstanding that he has not filed a written and signed declaration of intention to become a candidate for the office as provided in subdivision (a) of this section.

CHAPTER 53

An act to amend Section 1208 of the Penal Code, relating to work furlough, and, declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 2, 1975 Filed with Secretary of State May 3, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1208 of the Penal Code, as amended by Chapter 1252 of the Statutes of 1972, is amended to read:

1208. (a) The provisions of this section, insofar as they relate to employment, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment

conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to employment, in that county is feasible. The provisions of this section, insofar as they relate to education, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of education conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to education, in that county is feasible. In any such ordinance the board shall prescribe whether the sheriff, the probation officer, or the superintendent of a county industrial farm or industrial road camp in the county shall perform the functions of the work furlough administrator. The board may, in such ordinance, provide for the performance of any or all functions of the work furlough administrator by any one or more of such persons, acting separately or jointly as to any of such functions; and may, by a subsequent ordinance, revise such provisions within the authorization of this section. The board of supervisors may also terminate the operativeness of this section, either with respect to employment or education in the county if it finds by ordinance that, because of changed circumstances, the operation of this section, either with respect to employment or education in that county is no longer feasible.

Notwithstanding any other provision of law, the board of supervisors may by ordinance designate a facility for confinement of prisoners classified for the work furlough program and designate the work furlough administrator as the custodian of the facility. The sheriff may transfer custody of such prisoners to the work furlough administrator to be confined in such facility for the period during which they are in the work furlough program.

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned therein for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, or committed under the terms of Section 6404 or 6406 of the Welfare and Institutions Code as a habit-forming drug addict, the work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure employment for himself, unless the court at the time of sentencing or committing has ordered that such person not be granted work furloughs. The work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular educational program, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure education for himself, unless the court at the time of sentencing has ordered that such person not be granted work furloughs.

(c) If the work furlough administrator so directs that the prisoner be permitted to continue in his regular employment or educational

program, the administrator shall arrange for a continuation of such employment or education, so far as possible without interruption. If the prisoner does not have regular employment or a regular educational program, and the administrator has authorized the prisoner to secure employment or education for himself, the prisoner may do so, and the administrator may assist him in doing so. Any employment or education so secured must be suitable for the prisoner. Such employment or educational program, if such educational program includes earnings by the prisoner, must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment or educational program involving earnings by the prisoner be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed or educated.

(d) Whenever the prisoner is not employed or being educated and between the hours or periods of employment or education, he shall be confined in the facility designated by the board of supervisors for work furlough confinement unless the work furlough administrator directs otherwise. If the prisoner is injured during a period of employment or education, the work furlough administrator shall have the authority to release him from the facility for continued medical treatment by private physicians or at medical facilities at the expense of the employer, workman's compensation insurer, or the prisoner. Such release shall not be construed as assumption of liability by the county or work furlough administrator for medical treatment obtained.

The work furlough administrator may release any prisoner classified for the work furlough program for a period not to exceed 72 hours for medical, dental, or psychiatric care, and for family emergencies or pressing business which would result in severe hardship if the release were not granted.

(e) The earnings of the prisoner may be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of attachment or execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. In a case in which the functions of the administrator are performed by a sheriff, and such sheriff receives a writ of attachment or execution for the earnings of a prisoner subject to this section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, he shall first levy on the earnings pursuant to the writ. When an employer or educator transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the prisoner for such earnings. From such earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the

jail, and shall deduct so much of the costs of administration of this section as is allocable to such prisoner, and, in an amount determined by the administrator, shall pay the support of the prisoner's dependents, if any. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the preexisting debts of the prisoner. Any balance shall be retained until the prisoner's discharge and thereupon shall be paid to him.

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018, 4019, and 4019.2.

(g) In the event the prisoner violates the conditions laid down for his conduct, custody, education, or employment, the work furlough administrator may order the balance of the prisoner's sentence to be spent in actual confinement.

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532 of the Penal Code.

(i) As used in this section, "education" includes vocational and educational training and counseling; and psychological, drug abuse, alcoholic and other rehabilitative counseling; "educator" includes a person or institution providing such training or counseling.

(j) This section shall be known and may be cited as the "Cobey Work Furlough Law."

SEC. 2. Section 1208 of the Penal Code, as amended by Chapter 1516 of the Statutes of 1974, is amended to read:

1208. (a) The provisions of this section, insofar as they relate to employment, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of employment conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to employment, in that county is feasible. The provisions of this section, insofar as they relate to education, shall be operative in any county in which the board of supervisors by ordinance finds, on the basis of education conditions, the state of the county jail facilities, and other pertinent circumstances, that the operation of this section, insofar as it relates to education, in that county is feasible. In any such ordinance the board shall prescribe whether the sheriff, the probation officer, or the superintendent of a county industrial farm or industrial road camp in the county shall perform the functions of the work furlough administrator. The board may, in such ordinance, provide for the performance of any or all functions of the work furlough administrator by any one or more of such persons, acting separately or jointly as to any of such functions; and may, by a subsequent ordinance, revise such provisions within the authorization of this section. The board of supervisors may also terminate the operativeness of this section, either with respect to employment or education in the county if it finds by ordinance that

because of changed circumstances, the operation of this section, either with respect to employment or education in that county is no longer feasible.

Notwithstanding any other provision of law, the board of supervisors may by ordinance designate a facility for confinement of prisoners classified for the work furlough program and designate the work furlough administrator as the custodian of the facility. The sheriff may transfer custody of such prisoners to the work furlough administrator to be confined in such facility for the period during which they are in the work furlough program.

(b) When a person is convicted of a misdemeanor and sentenced to the county jail, or is imprisoned therein for nonpayment of a fine, for contempt, or as a condition of probation for any criminal offense, or committed under the terms of Section 6404 or 6406 of the Welfare and Institutions Code as a habit-forming drug addict, the work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular employment, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure employment for himself, unless the court at the time of sentencing or committing has ordered that such person not be granted work furloughs. The work furlough administrator may, if he concludes that such person is a fit subject therefor, direct that such person be permitted to continue in his regular educational program, if that is compatible with the requirements of subdivision (d), or may authorize the person to secure education for himself, unless the court at the time of sentencing has ordered that such person not be granted work furloughs.

(c) If the work furlough administrator so directs that the prisoner be permitted to continue in his regular employment or educational program, the administrator shall arrange for a continuation of such employment or education, so far as possible without interruption. If the prisoner does not have regular employment or a regular educational program, and the administrator has authorized the prisoner to secure employment or education for himself, the prisoner may do so, and the administrator may assist him in doing so. Any employment or education so secured must be suitable for the prisoner. Such employment or educational program, if such educational program includes earnings by the prisoner, must be at a wage at least as high as the prevailing wage for similar work in the area where the work is performed and in accordance with the prevailing working conditions in such area. In no event may any such employment or educational program involving earnings by the prisoner be permitted where there is a labor dispute in the establishment in which the prisoner is, or is to be, employed or educated.

(d) Whenever the prisoner is not employed or being educated and between the hours or periods of employment or education, he shall be confined in the facility designated by the board of

0473 279190 558

supervisors for work furlough confinement unless the work furlough administrator directs otherwise. If the prisoner is injured during a period of employment or education, the work furlough administrator shall have the authority to release him from the facility for continued medical treatment by private physicians or at medical facilities at the expense of the employer, workman's compensation insurer, or the prisoner. Such release shall not be construed as assumption of liability by the county or work furlough administrator for medical treatment obtained.

The work furlough administrator may release any prisoner classified for the work furlough program for a period not to exceed 72 hours for medical, dental, or psychiatric care, and for family emergencies or pressing business which would result in severe hardship if the release were not granted.

(e) The earnings of the prisoner may be collected by the work furlough administrator, and it shall be the duty of the prisoner's employer to transmit such wages to the administrator at the latter's request. Earnings levied upon pursuant to writ of execution or in other lawful manner shall not be transmitted to the administrator. If the administrator has requested transmittal of earnings prior to levy, such request shall have priority. In a case in which the functions of the administrator are performed by a sheriff, and such sheriff receives a writ of execution for the earnings of a prisoner subject to this section but has not yet requested transmittal of the prisoner's earnings pursuant to this section, he shall first levy on the earnings pursuant to the writ. When an employer or educator transmits such earnings to the administrator pursuant to this subdivision he shall have no liability to the prisoner for such earnings. From such earnings the administrator shall pay the prisoner's board and personal expenses, both inside and outside the jail, and shall deduct so much of the costs of administration of this section as is allocable to such prisoner, and, in an amount determined by the administrator, shall pay the support of the prisoner's dependents, if any. If sufficient funds are available after making the foregoing payments, the administrator may, with the consent of the prisoner, pay, in whole or in part, the preexisting debts of the prisoner. Any balance shall be retained until the prisoner's discharge and thereupon shall be paid to him.

(f) The prisoner shall be eligible for time credits pursuant to Sections 4018, 4019, and 4019.2.

(g) In the event the prisoner violates the conditions laid down for his conduct, custody, education, or employment, the work furlough administrator may order the balance of the prisoner's sentence to be spent in actual confinement.

(h) Willful failure of the prisoner to return to the place of confinement not later than the expiration of any period during which he is authorized to be away from the place of confinement pursuant to this section is punishable as provided in Section 4532 of the Penal Code.

(i) As used in this section, "education" includes vocational and educational training and counseling; and psychological, drug abuse, alcoholic and other rehabilitative counseling; "educator" includes a person or institution providing such training or counseling.

(j) This section shall be known and may be cited as the "Cobey Work Furlough Law."

SEC. 2. Because of a court order prohibiting the Stockton Unified School District from undertaking new school construction pending resolution of a controversy involving desegregation of schools of the district, the school district is effectively precluded from proceeding with plans to bring its schools up to Field Act standards within the time periods prescribed by law. Therefore, the Legislature hereby finds and declares that due to a unique situation

2621. This chapter shall be known and may be cited as the Alquist-Priolo Special Studies Zones Act.

SEC. 3. Section 2621.5 of the Public Resources Code is amended to read:

2621.5. It is the purpose of this chapter to provide for the adoption and administration of zoning laws, ordinances, rules, and regulations by cities and counties in implementation of the general plan that is in effect in any city or county. The Legislature declares that the provisions of this chapter are intended to provide policies and criteria to assist cities, counties, and state agencies in the exercise of their responsibility to provide for the public safety in hazardous fault zones.

This chapter is applicable to any project, as defined in Section 2621.6, upon issuance of the official special studies zones maps to affected local jurisdictions, but does not apply to any development

(2) Any new real estate development for which a tentative tract map has not yet been approved.

(3) Any structure for human occupancy, other than a single-family wood frame dwelling not exceeding two stories.

(4) Any single-family wood frame dwelling which is built or located as part of a development of four or more such dwellings constructed by a single person, individual, partnership, corporation, or other organization. No geologic report shall be required with respect to such single-family wood frame dwelling if the dwelling is located within a new real estate development, as described in paragraph (1) or (2) of this subdivision, for which development a geologic report has been either approved or waived pursuant to Section 2623.

(b) For the purposes of this chapter, a mobilehome whose body width exceeds eight feet shall be considered to be a single-family wood frame dwelling not exceeding two stories.

SEC. 5. Section 2621.7 is added to the Public Resources Code, to read:

2621.7. This chapter, except Section 2621.9, shall not apply to the conversion of an existing apartment complex into a condominium. This chapter shall apply to projects which are located within a delineated special studies zone.

SEC. 6. Section 2621.8 is added to the Public Resources Code, to read:

2621.8. This chapter shall not apply to alterations or additions to any structure within a special studies zone the value of which does not exceed 50 percent of the value of the structure.

A person who is acting as an agent for a seller of real property which is located within a delineated special studies zone, or the seller if he is acting without an agent, shall disclose to any prospective purchaser the fact that the property is located within a delineated special studies zone.

SEC. 8. Section 2622 of the Public Resources Code is amended to read:

2622. In order to assist cities and counties in their planning, zoning, and building-regulation functions, the State Geologist shall delineate, by December 31, 1973, appropriately wide special studies

zones to encompass all potentially and recently active traces of the San Andreas, Calaveras, Hayward, and San Jacinto Faults, and such other faults, or segments thereof, as he deems sufficiently active and well-defined as to constitute a potential hazard to structures from surface faulting or fault creep. Such special studies zones shall ordinarily be one-quarter mile or less in width, except in circumstances which may require the State Geologist to designate a wider zone.

Pursuant to this section, the State Geologist shall compile maps delineating the special studies zones and shall submit such maps to all affected cities, counties, and state agencies, not later than December 31, 1973, for review and comment. Concerned jurisdictions and agencies shall submit all such comments to the State Mining and Geology Board for review and consideration within 90 days. Within 90 days of such review, the State Geologist shall provide copies of the official maps to concerned state agencies and to each city or county having jurisdiction over lands lying within any such zone.

The State Geologist shall continually review new geologic and seismic data and shall revise the special studies zones or delineate additional special studies zones when warranted by new information. The State Geologist shall submit all revised maps and additional maps to all affected cities, counties, and state agencies for their review and comment. Concerned jurisdictions and agencies shall submit all such comments to the State Mining and Geology Board for review and consideration within 90 days. Within 90 days of such review, the State Geologist shall provide copies of the revised and additional official maps to concerned state agencies and to each city or county having jurisdiction over lands lying within any such zone.

SEC. 9. Section 2623 of the Public Resources Code is amended to read:

2623. The approval of a project by a city or county shall be in accordance with policies and criteria established by the State Mining and Geology Board and the findings of the State Geologist. In the development of such policies and criteria, the State Mining and Geology Board shall seek the comment and advice of affected cities, counties, and state agencies. Cities and counties shall require, prior to the approval of a project, a geologic report defining and delineating any hazard of surface fault rupture. If the city or county finds that no undue hazard of this kind exists, the geologic report on such hazard may be waived, with approval of the State Geologist.

After a report has been approved or a waiver granted, subsequent geologic reports shall not be required, provided that new geologic data warranting further investigations is not recorded.

SEC. 10. Section 2624 of the Public Resources Code is amended to read:

2624. Nothing in this chapter is intended to prevent cities and counties from establishing policies and criteria which are stricter than those established by this chapter or by the State Mining and

Geology Board, nor from imposing and collecting fees in addition to those required under this chapter.

SEC. 11. Section 2625 of the Public Resources Code is amended to read:

2625. (a) Each applicant for approval of a project may be charged a reasonable fee by the city or county having jurisdiction over the project

(b) Such fees shall be set in an amount sufficient to meet, but not to exceed, the costs to the city or county of administering and complying with the provisions of this chapter.

(c) The geologic report required by Section 2623 shall be in sufficient detail to meet the criteria and policies established by the State Mining and Geology Board for individual parcels of land.

SEC. 12. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because any such costs shall be recovered from fees collected pursuant to this act.

SEC. 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to avoid unwarranted delays in real estate development and to relieve homebuilders and owners seeking home improvement of unnecessary financial burdens at the earliest possible time, it is essential that this act take effect immediately.

[Approved by Governor May 6, 1975 Filed with Secretary of State May 6, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 3.8 is added to the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959), to read:

Sec. 3.8. The agency shall have the power by resolution or ordinance to adopt regulations respecting the exercise of its powers and the carrying out of its purposes, and to fix and collect rates and charges for the providing or the availability of any service it is authorized to provide or make available or for the sale, lease or other disposition of water or other product of its works or operations, including standby charges and connection charges.

SEC. 2. Section 3.9 is added to the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959), to read:

Sec. 3.9. The agency may fix standby charges to be applied on an area, or frontage, or parcel basis, or a combination thereof, to such areas within the agency to which service is made available, whether the service is actually used or not, for the purpose of financing or maintaining and operating projects which the agency is authorized to undertake. The agency may establish schedules varying such charges according to the land uses and the degree of availability or quantity of use of such service to the affected lands, and may restrict such charge to lands lying within one or more improvement districts or areas of benefits established within such agency; provided, however, that the agency may not: (1) fix an annual charge in excess of ten dollars ($10) for each acre or for each parcel of less than one acre; (2) apply standby charges to parcels that are being used for the production of plant crops, including timber, or livestock for market; or (3) apply standby charges to lands situated more than one-quarter of a mile from an available main or service connection. The agency may collect the standby charges as a part of the annual general county tax bill, provided the agency furnishes in writing to the board of supervisors and to the county auditor the description of each parcel for which a charge is to be billed together with the amount of the charge applicable to each parcel in sufficient time to meet the schedule established by the county for inclusion of such items on the county general tax bill. The parcel description may be the parcel number assigned by the county assessor to the parcel. In such cases, the standby charge shall become a lien against the parcel of land to which it is charged in the same manner as the county general taxes. Penalties may be collected for late payment of the standby charge or the amount thereof unpaid in the manner and at the same rates as that applicable for late payment or the amount thereof unpaid of

county general taxes. If the agency collects standby charges through the county general tax bill, the amount of the standby charge and any applicable penalty shall be stated on the tax bill separately from all other taxes, if practicable.

SEC. 36. Section 15 of the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959) is amended to read:

Sec. 15. (a) Whenever the board determines that a bonded indebtedness should be incurred to pay the cost of any work of improvement for the benefit of any member unit, as determined in an agreement between the agency and the member unit, or for the benefit of any improvement district, it may determine and declare by resolution the amount of bonds necessary to be issued in each such member unit or improvement district affected for such work of improvement. The board shall cause a copy of the resolution duly certified by the clerk or secretary to be filed for record in the office of the Recorder of Amador County if the improvement is for the benefit of an improvement district and with the governing board of such member unit if the improvement is for the benefit of any member unit.

(b) After such resolution has been filed, the board shall call a special bond election in each said member unit or improvement district to submit to the qualified electors of each such member unit or improvement district the question of whether or not bonds shall be issued in the amount and for the purposes stated in the resolution.

(c) The special bond election shall be called by ordinance and the board shall submit to the qualified electors of each member unit or improvement district, the proposition of incurring a bonded debt in the member unit or member units or improvement district in the amount and for the purposes stated in the resolution and shall recite therein the purposes for which the indebtedness is proposed to be incurred, except that it shall be sufficient to give a brief, general description of such purposes, and refer to the copy of the resolution on file with the office of the Recorder of Amador County or with the governing body of the member unit. The ordinance may specify that no bonds authorized at the election will be sold until contracts have been executed with member units within the area to be benefited by the improvement which will provide for payments by such member units to the agency sufficient to pay all or a specified portion of the principal and interest on any such bonds issued. If such a provision is included in the ordinance, no bonds authorized at the election shall be issued until such contracts have been executed. The ordinance shall also state the estimated cost of the proposed work and improvements, the amount of the principal of the indebtedness to be incurred therefor, and the maximum rate of interest to be paid on the indebtedness and shall fix the date on which the special election shall be held, and the form and contents of the ballot to be used. The rate of interest to be paid on the indebtedness shall not exceed eight percent (8%) per annum. For the purposes of the election, the board shall establish special election precincts within the boundaries of each member unit or the improvement district and may form election precincts by consolidating the precincts

established for general elections in the agency, not to exceed six general precincts for each such special bond election precinct. In addition, the ordinance shall designate a polling place and appoint one inspector, one judge and one clerk for each special bond election precinct.

The special bond election shall be held as nearly as practicable in conformity with the general election laws of the state except as otherwise provided in this act.

The board shall cause a map or maps to be prepared covering a general description of the work to be done, which map shall show the location of the proposed works and improvements and shall cause the map to be posted in a prominent place in the office of the agency, and in the office of the governing body of the member unit affected if said bonds are for an improvement for the benefit of any member unit, for public inspection at least thirty (30) days before the date of the election.

Said ordinance calling for the special election shall be published prior to the date set for such election in a newspaper of general circulation, circulated in the improvement district or member unit or member units affected for six consecutive times if published in a daily newspaper of general circulation, or two times if published in a weekly newspaper of general circulation. The last publication of the ordinance must be at least fourteen (14) days before the election, and if there be no such newspaper, then the ordinance shall be posted in five public places designated by the board in the improvement district and in each said affected member unit for at least thirty (30) days before the date of the election. No other notice of election need be given nor need polling place cards be issued.

Any defect or irregularity in the proceedings prior to the calling of the special bond election shall not affect the validity of the bonds authorized by said election. If at such election two-thirds (⅔) of the votes cast are in favor of incurring such bonded indebtedness, then bonds for such improvement district or member unit for the amount stated in the proceedings shall be issued and sold as provided in this act.

SEC. 37. Section 15.1 of the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959) is amended to read:

Sec. 15.1. The board shall prescribe by resolution the form of the bonds, which shall include a designation of the improvement district or member units affected, and the form of the interest coupons attached to the bonds. Said bonds shall be payable annually or semiannually, at the discretion of the board, at a day and at a place designated in the bonds, together with the interest on all sums unpaid on such date until the whole of said indebtedness is paid.

The board may divide the principal amount of any issue into two or more series, and fix different dates for the bonds of each series. The bonds of one series may be made payable at different times from those of any other series. The maturity of each series shall comply with this section. The board may fix a date, not more than five years

from the date of issuance, for the earliest maturity of each issue or series of bonds. The final maturity date shall not exceed forty (40) years from the time of incurring the indebtedness evidenced by each issue or series.

The bonds shall be issued in such denominations as the board may determine, and shall be payable on the days and at the place fixed in said bonds, and with interest at the rate specified in such bonds, which rate shall not be in excess of eight percent (8%) per annum, and shall be made payable annually or semiannually, and said bonds shall be numbered consecutively and shall be signed by the president of the board, and countersigned by the secretary of said agency and the seal of said agency shall be affixed thereto by the secretary of the board. Either or both such signatures may be printed, engraved or lithographed. The interest coupons of said bonds shall be numbered consecutively and signed by the said secretary by his printed, engraved, or lithographed signature. In case any such officer whose signatures or countersignatures appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such bonds and coupons, and signatures or countersignatures shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery of the bonds.

SEC. 38. Section 15.8 of the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959) is amended to read:

Sec. 15.8. The board may issue and sell the bonds of such improvement district or member units at not less than par value, and the proceeds of the sale of such bonds shall be placed in the treasury of the agency to the credit of the respective improvement district or member units thereof, for the uses and purposes of the improvement district or member unit or member units voting said bonds; and the proper record of such transactions shall be placed upon the books of the agency, and said respective improvement district or member unit funds shall be applied exclusively to the purposes and objects mentioned in the ordinance calling such special bond election.

SEC. 39. Section 15.9 of the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959) is amended to read:

Sec. 15.9. Any bonds issued pursuant to Section 15 of this act, and the interest thereon, shall be paid by (1) revenue received from member units pursuant to any contracts which may be required with such member units by the ordinance adopted pursuant to subdivision (c) of Section 15 of this act and (2) from revenue derived from any taxes levied pursuant to Section 14.1 of this act to raise the amount of delinquencies, if any, of such member units on such contracts, to the extent that such revenues are available. To the extent that such revenues are or are estimated by the board to be insufficient to pay such bonds and interest, or if no such contracts with member units are required by such ordinance, then any bonds issued pursuant to Section 15 of this act, and the interest thereon, may, in the board's discretion, be paid in whole or part from any other money available

to the board and not specifically prohibited from being used for such purpose. To the extent that additional money is still needed to pay such bonds and interest, the same shall be paid by revenue derived from an annual tax or assessment levied upon all taxable property within each improvement district or member unit for which such bonds were issued. No member unit or improvement district nor the property therein nor other lands within the agency shall be liable for the share of bonded indebtedness of any other member unit or improvement district for which bonds are issued under this act, nor shall any moneys derived from taxation or assessment in any of the several member units or improvement districts be used in payment of principal or interest or otherwise of the share of the bonded indebtedness chargeable to any other improvement district or member unit.

SEC. 40. Section 17 of the Amador County Water Agency Act (Chapter 2137 of the Statutes of 1959) is amended to read:

Sec. 17. If the board by resolution determines that a bonded indebtedness to pay for the acquisition or construction of any works for any purposes of the agency or for refunding any outstanding bonds should be incurred, and can be repaid and liquidated as to both principal and interest from revenues designated by the board, the agency is authorized and shall have the power to define such works as an "enterprise" and to issue revenue bonds all in the manner and as provided in the Revenue Bond Law of 1941, Chapter 6 (commencing at Section 54300) of Part 1 of Division 2 of Title 5 of the Government Code and for such purpose the agency shall be considered a "local agency" as defined by Section 54307 of said code; provided, however, that notwithstanding the provisions of Section 54310 of the Government Code, the board shall have the power, subject to the limitations of Section 4.1 hereof, to borrow money and issue revenue bonds for, and to define "enterprise" to include systems, plants, works or undertakings for the generation, production, transmission, and sale of hydroelectric energy. Any election for the issuance of revenue bonds for an improvement district of the agency shall be limited to the area of such improvement district, and the proceeds from the sale of any such revenue bonds shall be expended only for the benefit of such improvement district.

SEC. 41. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 42. This act is an urgency statute necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is an immediate need for planning, financing, constructing

and acquiring water supply systems within portions of Amador County which have serious water shortages. The Amador County Water Agency is the logical entity to provide such water supply systems, but needs amendment of its powers as set forth in this act in order to do so. Unless this act takes effect immediately, the agency will have to postpone taking the necessary steps to provide such water supply systems that are necessary to protect the health and safety of residents within the agency.

17686 (a) In the case of oil and gas wells the allowance for depletion under Section 17681 shall be 22 percent of the gross income from the property during the taxable year, excluding from such gross

income an amount equal to any rents or royalties paid or incurred by the taxpayer in respect of the property. The allowance shall not exceed 50 percent of the taxable income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance be less than it would be if computed without reference to this section. For purposes of the preceding sentence, the allowable deductions taken into account with respect to expenses of oil and gas wells in computing the taxable income from the property shall be decreased by an amount equal to so much of any gain which (A) is treated under Section 18211 (relating to gain from disposition of certain depreciable property) as gain from the sale or exchange of property which is neither a capital asset nor property described in Sections 18181 and 18182, and (B) is properly allocable to the property.

SEC. 2. Section 17686.5 is added to the Revenue and Taxation Code, to read:

17686.5. Notwithstanding the provisions of any section in this chapter, the total accumulated amount of deduction allowed or allowable for depletion, with respect to oil and gas wells, shall be limited to an amount equal to the adjusted cost of the taxpayer's interest in such property which is subject to recovery through depletion under this part, except as provided in Section 17686.

24832. Such allowance shall not exceed 50 percent of the net income of the taxpayer (computed without allowance for depletion) from the property, except that in no case shall the depletion allowance under Section 24835 be less than it would be if computed without reference to this section.

(c) Where the total depletion allowance for all properties in subdivision (b) exceeds one million five hundred thousand dollars ($1,500,000), the allowance in subdivision (b) shall be reduced by 125 percent of the excess.

(d) When either (1) the income from sources within this state of two or more corporations which are commonly owned or controlled is determined in accordance with Chapter 17 (commencing with Section 25101) of this part or Part 18 (commencing with Section 38001) of this division, or (2) two or more commonly owned or controlled corporations derive income from sources solely within this state, whose business activities are such that if conducted within and without this state, the income derived from sources within this state would be determined in accordance with Chapter 17 (commencing with Section 25101) of this part or Part 18 (commencing with Section 38001) of this division (hereinafter referred to as "wholly intrastate corporations"), then such corporations shall determine the percentage depletion prescribed in subdivision (b) as if such corporations were one corporation. As to "wholly intrastate corporations", if subdivision (c) applies, then the amount of percentage depletion (as adjusted and limited by subdivision (c)) shall be prorated among them in the ratio to which the percentage depletion of each prescribed in subdivision (b) (before the application of subdivision (c)) bears to the total percentage depletion prescribed in subdivision (b) for all corporations (before the application of subdivision (c)).

SEC. 4. Section 24835.5 is added to the Revenue and Taxation Code, to read:

The rate charged shall be the rate established for the fiscal year in which the summer session ends.

A district shall report annually to the Board of Governors of the California Community Colleges the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

An act to amend Sections 8572 and 8702 of the Education Code, relating to physical education courses.

[Approved by Governor May 16, 1975 Filed with Secretary of State May 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that it is in the interest of the state that all Californians be physically fit. It is the continuing intent of the Legislature, therefore, that California's young people learn the pleasure and benefit of a life-long program of regular, self-motivated, physical exercise.

The Legislature also finds that compulsory attendance upon physical education classes may in some instances frustrate that intent. It is therefore the further intent of the Legislature that local governing boards exercise the discretionary authority granted them by this act in a manner which they determine to be most effective under their circumstances in maintaining physical education classes which achieve the goal of having the maximum number of pupils seek and maintain physical fitness throughout their lives.

SEC. 2. Section 8572 of the Education Code is amended to read:

8572. (a) All pupils, except pupils excused or exempted pursuant to Section 8702, shall be required to attend upon the courses of physical education for a total period of time of not less than 400 minutes each 10 schooldays. Any pupil may be excused from physical education classes during one of grades 10, 11, or 12 for not to exceed 24 clock hours in order to participate in automobile driver training. Such pupil who is excused from physical education classes to enroll in driver training shall attend upon a minimum of 7,000 minutes of physical education instruction during such school year.

(b) The governing board of each school district that maintains a high school and that elects to exempt pupils from required attendance in physical education courses pursuant to paragraph (1) or (2) or both of subdivision (b) of Section 8702 shall offer those pupils so exempted a variety of elective physical education courses of not less than 400 minutes each 10 schooldays.

SEC. 3. Section 8702 of the Education Code is amended to read:

8702. (a) The governing board of any school district may grant

temporary exemption to a pupil from courses in physical education, if the pupil is:

(1) Ill or injured and a modified program to meet the needs of the pupil cannot be provided; or

(2) Enrolled for one-half, or less, of the work normally required of full-time pupils.

(b) The governing board of any school district may grant permanent exemption from courses in physical education if the pupil:

(1) Has completed the 10th grade; or

(2) Is 16 years of age or older and has been enrolled in the 10th grade for one academic year or longer; or

(3) Is enrolled as a postgraduate pupil.

(c) No pupil exempted under paragraph (1) or (2) of subdivision (b) shall be permitted to attend fewer total hours of courses and classes if he elects not to enroll in a physical education course than he would have attended if he had elected to enroll in a physical education course.

Existing law prohibits the use, after June 30, 1975, of school buildings not meeting structural standards prescribed pursuant to the so-called Field Act. In order to remove community college districts from such prohibition, it is essential that this act go into effect immediately.

CHAPTER 93

An act to add Chapter 5 (commencing with Section 11890) of Part 3 of Division 2 of the Insurance Code, relating to insurance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor May 23, 1975. Filed with Secretary of State May 23, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Legislative intent. The Legislature recognizes that the voluntary market for medical malpractice insurance is becoming substantially constricted in this state. The immediate cause of this potential constriction of the private insurance market for medical malpractice insurance is that traditional ratemaking methods are unable to predict accurately the ultimate costs of the claims which must be resolved, often in the far distant future. The causes, though complex, are partly attributable to the rapidly expanding concepts of tort liability as applied to medical malpractice litigation.

Despite the shortcomings in the present tort liability insurance reparations system, the unavailability of medical malpractice insurance would seriously affect the practice of medicine and therefore seriously affect the health and welfare of the citizens of this state.

To that end, the Legislature recognizes that significant changes of a procedural nature are necessary in the common law governing actions for professional negligence and declares its intent to enact such changes during the 1975–76 Regular Session. Therefore, the purpose of this statute is to assure the availability of medical practice insurance.

SEC. 2. Chapter 5 (commencing with Section 11890) is added to Part 3 of Division 2 of the Insurance Code, to read:

CHAPTER 5. CALIFORNIA MEDICAL MALPRACTICE JOINT UNDERWRITING ASSOCIATION

Article 1. Definitions

11890. As used in this article:

(1) "Association" means the Joint Underwriting Association established pursuant to the provisions of this chapter.

(2) "Medical malpractice insurance" means insurance coverage against the legal liability of the insured and against loss, damage, or expense incident to a claim arising out of the death or injury of any person as the result of negligence or malpractice in rendering professional service by any licensed physician.

(3) "Net direct premiums" mean gross direct premiums written on liability insurance, including the liability portion of the multiperil policies and of automobile insurance policies, less return premiums and any surplus premium deposits. "Net direct premiums" shall not mean any reinsurance premiums or premiums for ocean marine insurance.

(4) "Commissioner" means the Insurance Commissioner.

(5) "Licensee" means any person licensed under the State Medical Practice Act, Dental Practice Act, Registered Nursing Practice Act as defined in Chapter 6 of the Business and Professions Code, or Chiropractic Initiative Act, and any health care facility as defined in Section 1250 of the Health and Safety Code.

Article 2. Joint Underwriting Association

11895. (a) A temporary Joint Underwriting Association is hereby created consisting of all those insurers authorized to write and engaged in writing within this state on a direct basis, liability insurance including the liability portion of multiperil policies and of automobile insurance policies but not of ocean marine insurance. Every such insurer shall be a member of the association and shall remain a member as a condition of its authority to continue to transact such kind of insurance in this state.

(b) The association shall be the exclusive agency through which medical malpractice insurance may be written on a primary basis for licensees in any county in this state. The association may operate in any such county only upon a finding by the commissioner, after public hearing, that medical malpractice insurance is not substantially available to physicians through private insurers operating therein, and that such county is eligible for insurance through the association, or upon a finding by the commissioner that the premiums being charged for medical malpractice insurance in any such county are so high as to have caused or threatened to cause in the immediate future a significant unavailability of needed health care service to the residents of such county. Thereafter, if the commissioner determines, upon application of any interested party

4491 27 12 100 924

and after public hearing, that medical malpractice insurance is available through private insurers in any such county with respect to which he has previously made such finding, the association shall thereupon cease its underwriting operations. Notwithstanding anything to the contrary contained in this code, any licensed health care facility may, but need not, include physicians as coinsureds on any liability insurance contracts held by the facility.

(c) Nothing contained in this chapter shall prohibit the renewal of any policy of medical malpractice insurance lawfully issued or delivered prior to the effective date of the plan of operation, provided, however, that immediately after said renewal, the insurer will insure and continue to insure an approximately representative sample of rating classifications so that no substantial adverse selection against the association will result.

(d) In order to insure compliance with subdivision (c), the commissioner shall be entitled to inspect at any time a list of each insurer's insureds, grouped according to their rating classifications.

11896. The purpose of the association shall be to provide, for a period not exceeding two years, a market for medical malpractice insurance on a self-supporting basis without subsidy from association members.

11897. The association shall, pursuant to provisions of this article and the plan of operations with respect to medical malpractice insurance, have the power on behalf of its members to do all the following, which powers may be exercised directly or by contractual delegation:

(a) Issue or cause to be issued policies of medical malpractice insurance to applicants, including incidental coverages and subject to limits as specified in the plan of operation, but not to exceed one million dollars ($1,000,000) for each claimant under one policy, and three million dollars ($3,000,000) for all claimants under one policy in any one year.

(b) Underwrite such insurance and adjust and pay losses with respect thereto, or appoint service companies to perform those functions.

(c) Assume reinsurance from its members.

(d) Cede reinsurance.

11898. The association shall be governed by a board of 11 directors elected annually. Seven of such directors shall be elected at a time and place designated by the commissioner from the members of the association, of which four shall be domestic insurers and three shall be foreign insurers. Four of such directors shall be licensed physicians practicing in counties declared eligible for medical malpractice insurance through the association; provided, however, that the initial physician directors shall be appointed by the commissioner after consultation with the medical profession.

11899. Within 30 days after the effective date of this chapter, the directors of the association shall submit to the commissioner for his review a proposed plan of operation consistent with the provisions

of this article. The plan of operation shall provide for economic, fair, and nondiscriminatory administration, and for the prompt and efficient provision, of medical malpractice insurance, and shall contain other provisions including, but not limited to, preliminary assessment of all members for initial expenses necessary to commence operations, establishment of necessary facilities, management of the association, assessment of members to defray losses and expenses, commission arrangements, reasonable and objective underwriting standards, acceptance and cession of reinsurance, appointment of servicing carriers or other servicing arrangements, and procedures for determining amounts of insurance to be provided by the association.

11900. The plan of operation shall be subject to approval by the commissioner after consultation with the members of the association and other affected individuals and organizations. If the commissioner disapproves all or any part of the proposed plan of operation the directors shall, within 15 days, submit for review an appropriate revised plan of operation or a part thereof. If the directors fail to act, the commissioner shall promulgate a plan of operation or a part thereof, as the case may be. The plan of operation approved or promulgated by the commissioner shall become effective and operational upon order of the commissioner, who shall act not later than 60 days from the effective date of this chapter.

Any such plan of operation shall require the association to issue a claims-made policy covering the period from the effective date of this chapter to the date on which the association is in full operation to any person newly licensed under any of the acts specified in Section 11890, subsection (5) or any licensee who qualifies under this chapter. However, such coverage shall be subject to the underwriting standards and cancellation provisions set forth in Sections 11902.1 and 11906. Pending the approval of the operation, the association shall designate a service company or service companies to bind the association for such coverage.

11901. Amendments to the plan of operation may be made by the directors of the association, subject to the approval of the commissioner, or shall be made at the direction of the commissioner.

11902. No medical malpractice insurance policy issued by the association shall be on other than a claims-made basis, the policy form for which shall be filed with the commissioner. The initial premium for any claims-made policy issued by the association shall not exceed in amount the premium paid by an insured physician or other licensee for an occurrence policy issued to him, or on his behalf, on or before January 1, 1975. Claims-made premiums issued to persons licensed after May 1, 1975 shall not exceed those rates charged licensees who were issued malpractice insurance on or before January 1, 1975.

However, each such policy so issued shall include full coverage on an occurrence-policy basis at no additional cost, should the insured die or become totally disabled during the period covered by the

policy. Such policies shall provide for continuous coverage commencing with their respective effective dates and terminating automatically on January 1, 1976. Such policies shall be assessable and shall make provision for payment of dividends.

11902.1. The policy may provide that the association may cancel any of its policies in the event of nonpayment of any premium assessment or other charge by mailing or delivering to the insured at the address shown in the policy written notice stating when, not less than 10 days thereafter, cancellation shall be effective.

11902.2. During the last 20 days of December, 1975, the association shall issue, on the written demand of any licensee to whom it has issued a claims-made policy, a rider to said policy, providing full liability coverage for any acts or omissions by said licensee which occurred during the period the association's claims-made policy was in effect, excluding liability for any claim of injury or loss made to the association during such period.

The premium for such rider shall not exceed the premium offered by any insurance company to a given licensee for the renewal, for a 12-month period, of any occurrence policy which expired on or after April 30, 1975 said premium shall be adjusted, however, to reflect the period during which the claims-made policy was in effect, and shall be reduced by the amount of any premium paid by a licensee for the claims-made policy issued by the association. A private insurer issuing a medical malpractice insurance policy on an occurrence or claims-made basis, which replaces or commences coverage upon the expiration of a policy issued by the association, may provide liability coverage for acts or omissions by the insured which occurred during the period the association's policy was in effect, excluding liability for any claim of injury or loss made to the association during such period. The intent of this section is to permit a qualified licensee to purchase an occurrence rider from either the association, or from a private insurer.

11903. The rates, rating plans, rating rules, rating classifications, and territories applicable to insurance written by the association, and the statistics relating thereto, shall be subject to the provisions of Chapter 9 (commencing with Section 1850) of Part 2 of Division 1, giving due consideration to the past and prospective loss and expense experience of medical malpractice insurers, trends in the frequency and severity of losses, the investment income of the association, and such other information as may be relevant. All rates shall be on an actuarially sound basis, giving due consideration to the group retrospective rating plan, and shall be calculated to be self-supporting. Such rates shall be deemed not inadequate if they are so constituted that the expense and loss costs of the plan of operation are equal to or exceeded by the premium. Competition or lack thereof shall not be considered as a rating standard hereunder.

All policies issued by the association shall be subject to a nonprofit group retrospective rating plan under which the final premium for all policyholders of the association, as a group, shall be equal to

administrative expenses, loss and loss adjustment expenses, and taxes, plus an allowance for contingencies and servicing. Policyholders shall be given full credit for all investment income, net of expenses, and a reasonable management fee, on policyholder supplied funds. The maximum final premium for all policyholders of the association, as a group, shall be limited as provided in this chapter.

The commissioner shall make the examination provided for under Article 6 (commencing with Section 1857) of Chapter 9 of Part 2 of Division 1 as often as he deems appropriate to ensure that the group retrospective rating plan is being operated in a manner consistent with this section. If he finds that it is not being so operated, he shall issue an order to the association, specifying in what respect its operation is deficient and stating what corrective action shall be taken.

11904. The association shall certify to the commissioner the estimated amount of any deficit remaining after the termination of all underwriting activities of the association Within 60 days after such certification the commissioner shall authorize the association to commence recoupment of the deficit by making an equitable assessment against any persons who obtained insurance through the association. Any member of the association assessed by or contributing to it shall, upon termination of the association, recoup all such assessments from the association out of a reserve established by it for such purposes. Such reserve shall be funded by premium or assessment income derived from charges to policyholders of the association.

11905. In the event that sufficient funds are not available for the sound financial operation of the association pending recoupment as provided herein all members shall, on a temporary basis, contribute to the financial requirements of the association in the manner provided for in this chapter. Any such contributions shall not exceed 1 percent of each member's net direct premium attributable to the line of insurance the writing of which requires it to be a member of this association.

11906. Any licensee in or practicing in a county declared eligible by the commissioner under this chapter shall, on or after the effective date of the plan of operations, be entitled to apply to the association for medical malpractice insurance. Such application may be made on behalf of an applicant by a broker or agent authorized by the applicant.

If the association determines that the applicant meets the underwriting standards of the association, as prescribed in the plan of operation, the association upon receipt of the premium or such portion thereof as is prescribed in the plan of operation, shall cause to be issued a policy of medical malpractice insurance.

11907. All members of the association shall participate in its writings, expenses, servicing allowances, management fees, and losses in the proportion that the net direct premium of each member

(excluding that portion of a premium attributable to the operation of the association) written during the preceding calendar year bears to the aggregate net direct premium written in this state by all members of the association. Each member's participation in the association shall be determined annually on the basis of such net direct premium written during the preceding calendar year.

11908. Any applicant to the association, any person insured pursuant to this chapter, or their representatives, or any affected member, may appeal to the commissioner within 30 days after any ruling, action, or decision by or on behalf of the association, with respect to those items the plan of operation defined by the board of directors as appealable matters. All orders of the commissioner made pursuant to this article shall be subject to judicial review.

11909. The association shall file in the office of the commissioner, annually on or before the first day of March, a statement which shall contain information with respect to its transactions, condition, operations and affairs during the preceding year. Such statement shall contain such matters and information as are prescribed and shall be in such form as is approved by the commissioner. The commissioner may, at any time, require the association to furnish additional information with respect to its transactions, condition, or any matter connected therewith considered to be material and of assistance in evaluating the scope, operation and experience of the association.

11910. The commissioner shall make an examination into the affairs of the association at least annually. Such examination shall be conducted and the report thereon filed in the manner prescribed in Article 4 (commencing with Section 730) of Chapter 1 of Part 2 of Division 1.

11911. In addition to the provisions of Section 736, all reasonably necessary costs incurred by the commissioner pursuant to this chapter shall be charged to and promptly reimbursed by the association.

Article 3. Liability

11915. There shall be no liability on the part of, and no cause of action of any nature shall arise against the association or its members, the commissioner or his authorized representatives, or any other person or organization, for any statements made in good faith by them during any proceeding or concerning any matters within the scope of this chapter.

11916. The association shall not be a member of the California Insurance Guaranty Association, nor shall that association be otherwise responsible for losses sustained by the Joint Underwriting Association.

SEC. 3. The sum of ten thousand dollars ($10,000) is hereby appropriated from the General Fund to the Insurance Commissioner as an advance on costs incurred by the Department of Insurance

pursuant to this act. Such sum shall be returned to the General Fund as soon as the department has been reimbursed pursuant to Section 11911 of the Insurance Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is a crisis in health care in California because of the inability of many physicians and surgeons to secure malpractice insurance which may cause many of them to leave the private practice of medicine. To help solve this problem, it is imperative that this act take effect immediately.

CHAPTER 94

An act making an appropriation in augmentation of Item 83 of the Budget Act of 1974, to take effect immediately, usual current expenses.

[Approved by Governor May 30, 1975 Filed with Secretary of State May 30, 1975]

The people of the State of California do enact as follows:

SECTION 1. The sum of twenty-eight million two hundred thousand dollars ($28,200,000) is hereby appropriated from the General Fund to the State Controller for reimbursement to local taxing authorities in augmentation of Item 83 of the Budget Act of 1974.

SEC. 2. This act makes an appropriation for the usual current expenses of the state within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 95

An act to add Section 392.1 to the Streets and Highways Code, relating to state highways.

[Approved by Governor May 30, 1975 Filed with Secretary of State May 30, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 392.1 is added to the Streets and Highways Code, to read:

392.1. Notwithstanding Section 253.1, the California freeway and expressway system shall not include that portion of Route 92 from

Route 238 to Route 580.

CHAPTER 96

An act to add Section 15717.7 to the Education Code, relating to school property, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature June 1, 1975. Filed with Secretary of State June 2, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 15717.7 is added to the Education Code, to read:

15717.7. (a) This section shall apply only to a school district in which the electorate authorizes an increase in the maximum tax rate of the district pursuant to the provisions of this article for the lease of one or more schools, and there exists at the time of such election on a site owned by the district a school facility not owned by the district meeting all of the requirements of Article 4 (commencing with Section 15451) of this chapter, which site and school facility are designated and described in the ballot proposition approved by the voters.

(b) Notwithstanding any other provisions of law, a school district may lease from a California nonprofit corporation such existing school and may pay rentals therefor from funds derived from the increase in the maximum tax rate approved by the voters at such election; provided, further that the purchase price of the school paid by the nonprofit corporation to the owners of the school shall not exceed the actual audited cost of construction thereof including actual interest paid on money borrowed to finance such construction. Prior to the purchase of the school by the nonprofit corporation, an independent certified public accountant shall be retained by the school district to verify the actual cost of construction and any interest paid to finance such construction, and the nonprofit corporation may conclusively rely upon any certificate or opinion setting forth such actual cost of construction and such interest prepared by the independent certified public accountant.

(c) A school district, the electorate of which, prior to the effective date of this section, authorized an increase in the maximum tax rate in the manner, for the purposes, and under the circumstances specified in subdivision (a), may avail itself of the authority afforded by subdivision (b).

SEC. 2. During the 1974–75 fiscal year only, the board of supervisors of each county or city and county may authorize the treasurer of the county or city and county to make a temporary transfer from the funds in his custody not immediately needed to pay

0137 27 12275 959

claims against them to any school district in the county or city and county for the purpose of planning and constructing one or more newly authorized schools as soon as possible; if in such school district:

(1) At least three general obligation bond issues intended to provide schools in growth areas of the school district were presented to the electorate since 1970 but failed to achieve the necessary two-thirds vote; and

(2) The electorate on November 5, 1974, authorized an increase in the maximum tax rate of the district, effective July 1, 1975, pursuant to Article 9 (commencing with Section 15701) of Chapter 2 of Division 11 of the Education Code, for the lease of more than one school.

Such temporary transfer shall be made only upon the adoption of a resolution by a school district declaring the urgent need therefor and shall be subject to the provisions of Section 3 of this act. The county or city and county may establish a charge to pay all costs of any such transfer of funds. The costs may include, but are not limited to, all the costs to the county or city and county of securing the funds to make such temporary transfers.

SEC. 3. The temporary transfer of funds made to eligible school districts, as described in Section 2 of this act, shall not exceed an amount equal to 60 percent of the maximum tax rate authorized to be levied for the 1975–76 fiscal year by the district pursuant to Article 9 (commencing with Section 15701) of Chapter 2 of Division 11 of the Education Code, multiplied by the school district's 1974–75 secured assessed valuation.

SEC. 4. Any school district receiving a temporary transfer of funds as described in Section 2 of this act shall repay such transfer from funds received from the tax levied in accordance with Article 9 (commencing with Section 15701) of Chapter 2 of Division 11 of the Education Code, as soon as such tax funds are received. If such temporary transfer of funds is not repaid by December 31, 1975, the county treasurer shall withhold from the first principal apportionment for the 1975–76 school year to such school district an amount equal to the temporary transfer of funds and charges made to the school district under Section 2 of this act which have not been repaid.

SEC. 5. The provisions of Sections 2 to 4, inclusive, of this act shall be effective until June 30, 1976, and shall have no force or effect thereafter.

SEC. 6. Notwithstanding any other provision of law, any elections conducted pursuant to Section 20803 or 20803.2 of the Education Code for the lease or lease-purchase of sites, buildings, or facilities by the governing board of any school district, as authorized by Section 15708 of the Education Code, that have occurred subsequent to the enactment of Chapter 547 of the Statutes of 1974 and prior to the effective date of this act, are hereby ratified, validated, and confirmed, and declared to be legally effective for all purposes.

0137 27 12 295 963

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

School districts which received authorization from the electorate on November 5, 1974, to lease-purchase school facilities are unable to begin meeting the urgent needs of students for new schools for a considerable period of time due to a lack of funds pending receipt of property tax revenues to be levied in the 1975–76 fiscal year. Also, due to the rapidly increasing cost of school construction, the sooner such schools are constructed, the less they will cost. In order to permit school districts to effectively meet the needs of students for school facilities as quickly as possible and at the lowest cost, it is necessary that this act take immediate effect.

CHAPTER 97

An act to amend Section 15503.5 of the Education Code, relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature June 2, 1975 Filed with Secretary of State June 2, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 15503.5 of the Education Code is amended to read:

15503.5. "School building" as used in this article excludes any building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and buildings utilized by adult schools or community colleges for off-campus, voluntary adult education courses or registered apprentice courses.

If any building so excluded was not constructed in accordance with Article 4 (commencing with Section 15451) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this act may effectively exempt from Field Act structural standards certain off-campus buildings used for registered apprentice courses, thereby avoiding the existing prohibition against using such buildings for school purposes after June 30, 1975, it is

4357 27 12325 969

necessary that this act take effect immediately.

CHAPTER 98

An act to amend Section 9891.35 of the Business and Professions Code, relating to tax preparers.

[Approved by Governor June 2, 1975 Filed with Secretary of State June 2, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 9891.35 of the Business and Professions Code is amended to read:

9891.35. A tax preparer shall deposit with the division, prior to registration or registration renewal, one of the following:

(a) A cash deposit in the penal sum of one thousand dollars ($1,000).

(b) A bond issued by an admitted surety payable to the people of the State of California in the penal sum of one thousand dollars ($1,000).

(c) Certificates of deposit in the penal sum of one thousand dollars ($1,000) assigned to the division on behalf of the people of the State of California issued by banks doing business in this state and insured by the Federal Deposit Insurance Corporation.

(d) Investment certificates or share accounts in the penal sum of one thousand dollars ($1,000) assigned to the division on behalf of the people of the State of California and issued by a savings and loan association doing business in this state and insured by the Federal Savings and Loan Insurance Corporation.

Any of the above forms of security shall be conditioned that the person applying for registration or registration renewal will comply with this chapter and will pay all damages occasioned to any person by reason of misstatement, misrepresentation, fraud, deceit or any unlawful acts or omissions by the tax preparer, or its agents or employees while acting in the scope of their employment or agency. The aggregate liability of the surety shall in no event exceed the penal sum of the bond or deposit.

CHAPTER 99

An act to add Section 20308 to the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 3, 1975 Filed with Secretary of State June 3, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 20308 is added to the Government Code, to read:

20308. Any employee, who was a state member in employment in a function at the time of the assumption of such function by a city and county and became a local member on the date of such assumption and in employment of the city and county in such function under the contract with the city and county, shall continue in membership thereafter so long as he continues, without a break exceeding 30 days, in such employment or any other employment, falling in the same membership category under this system, of the city and county or any other public entity in which he would be a member of the retirement system of the city and county except for this section. Any such employee shall be excluded from membership in the city and county retirement system in such employment. Any employee whose membership in this system was terminated, because of entry prior to January 1, 1976 into other employment in which he became a member of the retirement system of the City and County of San Francisco and whose membership would have continued under this section had such entry occurred on or after January 1, 1976, may elect membership in this system with respect to such employment within 90 days' notice of such right to be given by the system. A member electing such membership shall make the contributions to this system which would have been required had he been a member while in such employment.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the retirement situation of former state employees to be clarified as soon as possible, this act must take effect immediately.

CHAPTER 100

An act to add Section 15710.5 to the Education Code, relating to school property, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature June 4, 1975
Filed with Secretary of State June 4, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 15710.5 is added to the Education Code, to read:

15710.5. Whenever the electors of a school district, at an election held pursuant to Section 15708 or 15709, have approved an increase

in the maximum tax rate of the district for the purpose of enabling the district to enter into a lease or agreement for a site or building, or both, and before such lease or agreement is entered into, or during the term of such lease or agreement, territory is taken from the district and annexed to or included in another district by any means, the acquiring district shall automatically assume and shall pay to the district from which the territory is transferred a proportionate share of any remaining payments due under the lease or agreement, as such payments become due, for so long as such lease or agreement runs.

The acquiring district's proportionate share shall be in the ratio which the total assessed valuation of taxable property in the transferred territory bore to the total assessed valuation of taxable property in the whole district from which the territory is transferred for the year immediately preceding the date on which the transfer became effective for all purposes.

This section shall be applicable only with respect to transfers of school district territory which become effective for all purposes after the effective date of enactment of this section, and shall be applicable whether the election under Section 15708 or 15709 occurred prior to or after the effective date of this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts which have commenced action to acquire needed school facilities by lease or lease-purchase will not have imposed upon them inequitable financial burdens resulting from the unforeseen loss of a substantial portion of taxable property within the district, it is necessary that this act take immediate effect.

CHAPTER 101

An act to repeal Section 19502 of, and to add Section 19502 to, the Revenue and Taxation Code, relating to senior citizens property tax assistance.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 19502 of the Revenue and Taxation Code is repealed.

SEC. 2. Section 19502 is added to the Revenue and Taxation Code, to read:

19502. "Household" includes the claimant and all other persons, except bona fide renters, minors, or students (as defined in

paragraph (5) of subdivision (c) of Section 17054), whose principal place of residence is the homestead of the claimant.

CHAPTER 102

An act to add Article 2.5 (commencing with Section 1527) to Chapter 3 of Division 2 of the Health and Safety Code, relating to community care facilities, and declaring the urgency thereof, to take effect immediately

[Approved by Governor June 8, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 1527) is added to Chapter 3 of Division 2 of the Health and Safety Code, to read:

Article 2.5. Day Care Facilities for Children

1527. In licensing community care facilities, the state department shall give special consideration to the special nature, history, and purposes of day care facilities for children. Regulations adopted for day care facilities for children pursuant to Sections 1530, 1531, and 1562 shall substantially conform to the scope of regulations governing such day care facilities which were effective prior to the enactment of Chapter 1203 of the Statutes of 1973.

For purposes of this article, "day care facilities for children" means those facilities which provide nonmedical care to infants and preschool and school-age children under 18 years of age during a portion of the day and includes infant centers, preschools, family day homes, and day care centers.

1528. Evaluations, pursuant to Sections 1534 and 1535, of care and services of a day care facility for children shall be limited to health and safety considerations and shall not include any evaluations of the content of any educational or training program of the facility. Such evaluations shall be conducted not less than once every two years.

1529. Notwithstanding Sections 1523 and 1524, a license or special permit for a day care facility for children which is in compliance with this chapter and applicable rules and regulations shall be issued for a period of two years, and no fee shall be required to accompany any application for a license or special permit for any such facility.

SEC 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act specifying procedures

applicable to certain day care centers may become effective at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 103

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 2 (commencing with Section 11700) of Division 8 of the Elections Code is amended to read:

CHAPTER 2. ENDORSEMENTS OF CANDIDATES

SEC. 2. Section 11708 is added to the Elections Code, to read:

Such words shall be set apart from any other printed matter.

As used in this section "paid political advertisement" shall mean and shall be limited to, published statements paid for by advertisers for purposes of supporting or defeating any person who has filed for an elective state or local office.

CHAPTER 104

An act to add Section 12541 to the Health and Safety Code, relating to fireworks, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 12541 is added to the Health and Safety Code, to read:

12541. Nothing in this part shall authorize the use or discharge of fireworks in any city or county in which such use or discharge is otherwise prohibited or regulated by law or ordinance.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The use and discharge of fireworks permitted under state law present a fire hazard in many areas in California and local regulation of fireworks more restrictive than state law is necessary as a fire prevention measure in these areas of the state.

CHAPTER 105

An act to add Section 2233 and 2234 to the Revenue and Taxation Code, relating to subventions.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2233 is added to the Revenue and Taxation Code, to read:

2233. No claim shall be made pursuant to Sections 2229 and 2231 nor shall any payment be made on claims submitted pursuant to Sections 2229 and 2231 unless such claims exceed fifty dollars ($50).

SEC. 2. Section 2234 is added to the Revenue and Taxation Code, to read:

2234. Claims for direct and indirect costs filed pursuant to Sections 2229 and 2231 shall be filed in the manner prescribed by the State Controller.

CHAPTER 106

An act to add Section 155.20 to the Revenue and Taxation Code, relating to taxation.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 155.20 is added to the Revenue and Taxation Code, to read:

155.20. On or before February 14 of each year, a county board of supervisors may exempt from property tax for the next succeeding fiscal year all real property with a full value so low that, if not exempt, the total taxes, special assessments and applicable subventions on the property would amount to less than the cost of assessing and collecting them.

The board shall have no authority to exempt property with a full value of four hundred dollars ($400) or more.

In determining the level of the exemption, the board of supervisors shall determine at what level of exemption the costs of assessing the property and collecting taxes, assessments and subventions on such property exceeds the proceeds to be collected. The board shall establish the exemption level uniformly for classes of property.

SEC. 2. This act implements Section 7 of Article XIII of the California Constitution which was adopted at the November 1974 general election. In implementing this act, a board of supervisors has the discretion to exempt all real property of less than four hundred dollars ($400) of full value.

CHAPTER 107

An act to amend Section 14203 of the Elections Code, relating to elections.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 14203 of the Elections Code is amended to read:

CHAPTER 108

An act to add Section 2271.1 to the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 8, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2271.1 is added to the Revenue and Taxation Code, to read:

2271.1. An additional levy heretofore or hereafter made pursuant to the provisions of Section 2271 shall not be invalidated and may continue to be made to meet recurring costs resulting from any program or activity undertaken or implemented by a local agency in order to comply with a mandate by the federal government or the courts, notwithstanding the reversal, repeal, stay, or invalidation of such mandate, if the reversal, repeal, stay, or invalidation of the mandate occurred or occurs after the local agency has made such additional levy or has incurred continuing obligations in order to undertake or implement the mandated program or activity.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Existing laws authorize counties, cities, and districts to levy taxes over and above their maximum tax rates to meet costs mandated by the courts or the federal government. In reliance on this authority many counties, cities, and districts have levied such additional or override taxes and have established programs and incurred continuing obligations in order to comply with mandates of the federal government and the courts. It is imperative that counties, cities and districts be able to plan and implement mandated programs and incur continuing obligations therefor with assurance that they will be able to continue making the additional tax levies necessary to finance such programs. The reversal, repeal, stay or invalidation of such mandates leaves in doubt the validity of the additional levies and casts doubt on the authority of counties, cities, and districts to continue making such levies to meet recurring obligations and finance programs undertaken or incurred before the mandates were repealed, stayed or invalidated. This act is necessary as an urgency measure to enable counties, cities and districts to continue levying and using moneys derived from override taxes to meet continuing obligations incurred to implement mandated programs whose validity is presently being challenged in court.

CHAPTER 109

An act to amend Section 22655 of the Vehicle Code, relating to vehicles.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 22655 of the Vehicle Code is amended to read:

22655. When any member of the California Highway Patrol, or any regularly employed and salaried officer of a police department in a city, or sheriff's department authorized to enforce the provisions of this code pursuant to Section 26613 of the Government Code, or any regularly employed and salaried officer of the California State Police on or about state grounds or properties, or any regularly employed and salaried officer of the University of California Police Department on or about a campus or in or about other grounds or properties owned, operated, controlled or administered by the Regents of the University of California, or any regularly employed and salaried officer of a California state university and college police department on or about a campus or in or about other grounds or properties owned, operated, controlled or administered by the Trustees of the California State University and Colleges, has reasonable cause to believe that a motor vehicle on a highway has been involved in a hit-and-run accident, and the operator of the vehicle has failed to stop and comply with the provisions of Sections 20002, through 20006, inclusive, the officer may remove the vehicle from the highway for the purpose of inspection. Unless sooner released, the vehicle shall be released upon the expiration of 24 hours after such removal from the highway upon demand of the owner.

CHAPTER 110

An act to amend Section 22656 of the Vehicle Code, relating to vehicles.

[Approved by Governor June 7, 1975 Filed with Secretary of State June 8, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 22656 of the Vehicle Code is amended to read:

22656. Any member of the California Highway Patrol, or any regularly employed and salaried deputy of the sheriff's office of a county in which a vehicle is located, or any regularly employed and

salaried officer of a police department in a city in which a vehicle is located, or any regularly employed and salaried officer of the California State Police on or about state grounds or properties on or in which a vehicle is located, or any regularly employed and salaried officer of the University of California Police Department on or about a campus or in or about other grounds or properties owned, operated, controlled or administered by the Regents of the University of California on or in which a vehicle is located, or any regularly employed and salaried officer of a California state university or college police department on or about a campus or in or about other grounds or properties owned, operated, controlled or administered by the Trustees of the California State University and Colleges on or in which a vehicle is located, or any regularly employed and salaried officer of a transit district security force on or about parking lots owned by the transit district or in or about other grounds or properties owned, operated, controlled or administered by the board of directors of the transit district on or in which a vehicle is located, may remove a vehicle from a railroad right-of-way if the vehicle is parked upon any railroad track or within 7½ feet of the nearest rail.

CHAPTER 111

An act to amend Section 4.5 of Chapter 805 of the Statutes of 1969, relating to bridge and highway districts, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature June 9, 1975
Filed with Secretary of State June 9, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 4.5 of Chapter 805 of the Statutes of 1969 is amended to read:

Sec. 4.5. The district shall submit its plan for transit services, other than for the interim system of buses and ferries between the City and County of San Francisco and the Counties of Marin and Sonoma, to the Legislature by September 1, 1975.

The plan shall include a statement indicating that the plan is approved or disapproved by the Metropolitan Transportation Commission.

The district may not, until 120 days after submission of the plan to the Legislature, expend any of its funds to implement the addition of a second deck to the Golden Gate Bridge of any other proposed plan for transit services, other than for its interim system of buses and ferries. It is the intention of the Legislature that the district's interim system of buses and ferries shall be the system outlined in the district's grant application to the Urban Mass Transportation

Administration, dated May 21, 1971, entitled, "Application of the Golden Gate Bridge, Highway and Transportation District for a Mass Transportation Capital Grant under the Urban Mass Transportation Act of 1964, as amended." The district, however, may expend the necessary funds for planning purposes, and for the acquisition of rights-of-way necessary regardless of what type of transit system may be proposed in the transportation facilities plan submitted to the Legislature pursuant to Sections 4 and 4.5.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this act take effect in time so that the Golden Gate Bridge, Highway and Transportation District may have adequate time to prepare its plan for transit services, other than for the interim system of buses and ferries between the City and County of San Francisco and the Counties of Marin and Sonoma, for submittal to the Legislature, it is necessary that this act take effect immediately.

CHAPTER 112

An act to repeal and add Part 2.5 (commencing with Section 34700) of Division 24 of the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 9, 1975 Filed with Secretary of State June 9, 1975]

I am reducing the appropriation contained in Section 3 of Senate Bill No 49 from $82,700 to $10,000 by reducing subparagraph (a) from $30,000 to $10,000 and deleting the appropriation contained in subparagraph (b)

The worthy objectives of this bill will be met through an intensification of effort.

With this reduction, I approve Senate Bill No 49.

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Part 2.5 (commencing with Section 34700) of Division 24 of the Health and Safety Code is repealed.

SEC. 2. Part 2.5 (commencing with Section 34700) is added to Division 24 of the Health and Safety Code, to read:

PART 2.5. SPECIAL HOUSING PROGRAMS FOR THE DEVELOPMENTALLY DISABLED, MENTALLY DISORDERED, AND PHYSICALLY DISABLED

34700. The Legislature finds and declares that recent deemphasis of programs of institutional care for the developmentally disabled, the mentally disordered, and the physically disabled has resulted in participation by many of such persons in programs of rehabilitation, education, and social services within the community. Because of the outpatient status of persons enrolled in such programs, there is a need to provide housing for them which will aid in accomplishment and maintenance of the objectives of such programs, thereby minimizing the numbers of developmentally disabled, mentally disordered, and physically disabled persons in public institutions and improving the quality of life for such persons. In order to assist in providing the variety of living arrangements required for such purpose, it is necessary that the state cooperate with cities, counties, cities and counties, and nonprofit corporations in obtaining federal housing subsidies therefor.

It is the intent of the Legislature in enacting this part to vest in the Department of Housing and Community Development authority to obtain federal housing subsidies for housing for persons requiring continuing care, as defined in this part. Assessment of needs and priorities shall, however, be performed by the State Department of Health, which has overall responsibility for programs for the developmentally disabled and mentally disordered at the state level.

34701. As used in this part, "department" means the Department of Housing and Community Development.

34702. As used in this part, "developmentally disabled" means affected by a disability specified in subdivision (h) of Section 38003, and also means persons affected by such a disability.

34703. As used in this part, "local agency" means a city, county, or city and county.

34704. As used in this part, "mentally disordered" means affected by a mental disorder rendering the affected person eligible to participate in programs of rehabilitation or social services conducted by or in behalf of a public agency, and also means persons affected by such a mental disorder.

34704.5. As used in this part, "physically disabled" means affected by a physical disability rendering the affected persons eligible to participate in programs of rehabilitation or social services conducted by or on behalf of a public agency, and also means persons affected by such a physical disability.

34705. As used in this part, "persons requiring continuing care" means persons not confined in an institution under the jurisdiction of the State Department of Health who are eligible to receive housing assistance pursuant to federal law because of financial inability to provide adequate housing for themselves or persons dependent upon them and who meet the following criteria:

(a) The person shall have been determined to be developmentally disabled by the State Department of Health, a county health department, or a regional center established pursuant to Section 38101; or

(b) The person shall have been determined to be mentally disordered by a local director of mental health services, or by the designated representative thereof; or

(c) The person shall have been determined to be physically disabled by the State Department of Health.

34706. Notwithstanding any other provision of law, the department shall have all the powers granted to housing authorities pursuant to Part 2 (commencing with Section 34200) of this division for the purpose of obtaining financial subsidies or assistance from any agency of the United States to provide leased housing pursuant to this part for persons requiring continuing care.

34707. Any local agency or nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000), Division 2, Title 1 of the Corporations Code which is providing, or proposes to provide, housing for persons requiring continuing care may apply to the department for assistance in obtaining federal housing subsidies therefor.

34708. Notwithstanding the provisions of Section 37111, for the purposes of this part the department may do any or all of the following:

(a) Enter into contracts with any agency of the United States for the purpose of obtaining funds for dispersal to local agencies, nonprofit corporations, and owners and developers of housing to subsidize housing for persons requiring continuing care.

(b) Enter into contracts with local agencies, nonprofit corporations, and owners and developers of housing for persons requiring continuing care for the purpose of disbursing federal housing subsidies.

34709. The department, after consultation with the State Department of Health, may adopt, amend or repeal regulations for the administration of this part. The State Department of Health shall review all applications submitted pursuant to this part for assistance in obtaining federal housing subsidies and shall recommend priorities on the basis of need and greatest impact. The State Department of Health shall annually, or as often as reasonably required, solicit from local agencies and nonprofit corporations proposals for utilization of federal housing subsidies for persons requiring continuing care.

Based upon the recommendations of the State Department of Health, the Department of Housing and Community Development shall at least annually submit one or more applications for federal housing subsidies for persons requiring continuing care.

34710. The Legislature finds and declares that proper housing serves as a stabilizing factor and is an important facet of any program designed to rehabilitate mentally disordered, developmentally

disabled, and physically disabled persons and that the disruption of continued occupancy in a dwelling could cause a setback in treatment in particular cases. It is, therefore, the intent of the Legislature that persons who have received housing under a program established pursuant to this part shall be allowed to continue to occupy their dwelling after termination of participation in a public program of rehabilitation, education, or social services if the persons meet the criteria established by federal regulations governing low-rent housing programs.

34711. Housing and housing programs developed or assisted pursuant to this part shall be consistent with the housing element, as required by Section 65302 of the Government Code, of the general plan of the jurisdiction in which the housing is proposed.

SEC. 3. The sum of eighty-two thousand seven hundred dollars ($82,700) is hereby appropriated from the General Fund to be allocated in accordance with the following schedule:

(a) To the Department of Housing and Community Development, for performance of the functions delegated to it by Part 2.5 (commencing with Section 34700) of Division 24 of the Health and Safety Code $30,000

(b) To the State Department of Health for performance of the functions delegated to it by Part 2.5 (commencing with Section 34700) of Division 24 of the Health and Safety Code $52,700

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to avoid loss of federal subsidies available during the 1975 calendar year for housing for developmentally disabled, physically disabled, and mentally disordered persons having outpatient status, it is necessary that this act take effect upon enactment.

CHAPTER 113

An act to amend Section 10826 of, and to add Section 10827 to, the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 10826 of the Welfare and Institutions Code is amended to read:

10826. Upon election by a county to utilize the aid payment method provided by this chapter, the county shall submit a plan to the department for approval. The plan shall be approved by the department before it is implemented and shall include provisions for assuring that

(a) Each recipient of aid will be assigned a date or dates within the month as the date or dates on which he will be paid in subsequent months;

(b) Each warrant will be placed in the mail in order to be delivered on the assigned payment date and that in the event there is no mail delivery on the assigned payment date, the warrant will be placed in the mail in time to be delivered to the payee on the last mail delivery date prior to the payment date; and

(c) Upon changing payment dates for any recipient, the recipient will receive a pro rata payment on the old payment date in payment of the aid to which such recipient is entitled prior to the new payment date.

SEC. 2. Section 10827 is added to the Welfare and Institutions Code, to read:

10827. To the extent permitted by federal law and notwithstanding Sections 11006.2, 11056, 11450 and 11455, a county electing to utilize the aid payment method provided by this chapter may establish new eligibility periods and payment periods which may be monthly or semimonthly and which are not limited to a calendar month to correspond with changes of payment dates under this chapter.

Changes in eligibility or payment periods under this chapter shall be approved by the department before implementation.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for counties to elect to establish new eligibility and payment periods to commence with the change in payment dates when spreading the issuance of public assistance warrants evenly over the month, it is necessary that this act take immediate effect.

CHAPTER 114

An act to amend Section 3 of the Orange County Flood District Act (Chapter 723 of the Statutes of 1927), relating to Orange County Flood Control District.

CHAPTER 115

An act to amend Section 1 of Chapter 1065 of the Statutes of 1973, relating to city parks, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 10, 1975 Filed with Secretary of State June 10, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1 of Chapter 1065 of the Statutes of 1973 is amended to read:

Section 1. Notwithstanding any provision in any agreement entered into between the state and the City of Torrance pursuant to an approved state grant acquisition or development project under

subdivision (d) of Section 5096.15 of the Public Resources Code which provides that the authorized project period shall expire on June 30, 1973, the project period for the City of Torrance Columbia Park grant under such agreement shall not expire until June 30, 1976, and any funds appropriated for any such project shall remain available for expenditure under the agreement until June 30, 1976.

SEC. 1.5. The City of Torrance may permit any person from whom lands have been acquired, and the owners of lands to be acquired on or after the effective date of this act and on or before June 30, 1976, for Columbia Park pursuant to a grant under the Cameron-Unruh Beach, Park, Recreational, and Historical Facilities Bond Act of 1964, to continue to occupy such lands after acquisition until June 30, 1978, in exchange for a reduction in the cost of acquisition.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 116

An act to amend Section 9310 of the Welfare and Institutions Code, relating to aging, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 14, 1975. Filed with Secretary of State June 14, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 9310 of the Welfare and Institutions Code is amended to read:

9310. (a) The Department of Health shall provide appropriate flu vaccine to local governmental or private, nonprofit agencies at no charge in order that the agencies may provide the vaccine, at a minimal cost, at accessible locations in the order of priority first, for all persons 60 years of age or older in this state and then to any other high-risk groups identified by the United States Public Health Service. The Department of Health and the Office on Aging shall prepare, publish, and disseminate information regarding the availability of such vaccines and the effectiveness of such vaccines in protecting the health of older persons.

(b) The program shall be designed to utilize voluntary assistance from public or private sectors in administering such vaccines.

However, local governmental or private, nonprofit agencies may charge and retain a fee not exceeding one dollar ($1) per person to offset administrative operating costs.

(c) Except when the Department of Health determines that it is not feasible to utilize federal funds due to excessive administrative costs, the Department of Health shall seek and utilize available federal funds to the maximum extent possible for the cost of the vaccine, the cost of administering the vaccine and the minimal fee charged under this section, including reimbursement under the Medi-Cal program for persons eligible therefor to the extent permitted by federal law.

(d) Administration of the vaccine shall be performed either by a physician, registered nurse or a licensed vocational nurse acting within the scope of their professional practice acts. The physician under whose direction the registered nurse or a licensed vocational nurse is acting shall require such nurse to satisfactorily demonstrate familiarity with (1) contraindication for the administration of such immunizing agents, (2) treatment of possible anaphylactic reactions, and (3) the administration of treatment, and reactions to such immunizing agents.

Nothing in this section shall be construed to require physical presence of a directing or supervising physician, or the examination by a physician of persons to be tested or immunized.

SEC. 2. The sum of four hundred twenty thousand dollars ($420,000) is hereby appropriated from the General Fund to the Department of Health for expenditure for the purchase of flu vaccine. This appropriation shall be available from the General Fund until June 30, 1976. The appropriation made by this section shall not be deemed to be in augmentation of, but, instead, shall be in lieu of any appropriation made in the Budget Act of 1975 to the Office on Aging for the purpose of purchasing flu vaccine.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that older persons in this state receive flu vaccines needed to protect their health and that vaccine manufacturers have sufficient advance notification to produce adequate quantities of the appropriate vaccines for immunizations during the usual winter flu season, it is necessary that this act take effect immediately.

CHAPTER 117

An act to add Chapter 23 (commencing with Section 7800) to Division 7 of Title 1 of the Government Code, relating to letters and correspondence, and declaring the urgency thereof, to take effect immediately.

0173 28 1280 88

[Approved by Governor June 14, 1975 Filed with Secretary of State June 14, 1975]

The people of the State of California do enact as follows:

SECTION 1. Chapter 23 (commencing with Section 7800) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 23. LETTERS AND CORRESPONDENCE

7800. The letterhead or other prominent location on official stationery of each state agency, and county, city, including, but not limited to, a chartered city, and each school district, municipal corporation, district, political subdivision, and board, commission, and agency thereof, and every other local public agency, used in communication with the public, shall include the telephone number of such entity. The telephone number may be typed or handwritten on the letterhead or other prominent location.

SEC. 2. The Legislature hereby finds and declares that the necessity for citizens of this state to avail themselves of contact with local agencies, including, but not limited to chartered cities, by telephone regardless of whether the citizen is a resident of a particular agency's jurisdiction is a matter of statewide concern necessitating statewide legislation requiring that the letterhead or other prominent location on official stationery of local agencies include the telephone number of such entity. The fuel crisis and the increasing unavailability of transportation to many segments of society, plus the interdependence among local agencies for the provision of governmental services to citizens regardless of the place of residence of the citizen, further necessitate such legislation.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made pursuant to this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

In no event shall the disability retirement pension be more than sufficient to make the disability allowance equal the service retirement allowance, exclusive of any annuity purchased by accumulated additional contributions, receivable by the member were he to continue in service and retire at age 60.

The added amount payable under this section shall be a liability solely of employers subject to this section. This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendments to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, or in the case of contracts made after the date this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section shall only apply to members who retire for disability on and after the date the agency elects to be subject to the provisions of this section.

(2) With respect to any other vehicle described in this section, such vehicle, or the load thereon when such load consists of tools, shall not exceed a width of 120 inches.

This section shall have no application to highways which are a part of the national system of interstate and defense highways (as referred to in Section 108 of the Federal-aid Highway Act of 1956) when such application would prevent this state from receiving any

federal funds for highway purposes.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This bill is intended to help facilitate the harvesting of grain. In order that this bill may achieve its maximum intended results, it is necessary that it become effective immediately so that it will apply to the next harvest season.

CHAPTER 121

An act to amend Section 70045.1 of, and to add Section 70045.2 to, the Government Code, relating to court reporters.

[Became law without Governor's signature June 15, 1975 Filed with Secretary of State June 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 70045.1 of the Government Code is amended to read:

70045.1. Notwithstanding the provisions of Section 70045 of this code, in Trinity County, each regular official court reporter shall receive an annual salary of ten thousand dollars ($10,000) unless the board of supervisors shall by ordinance provide for compensation in excess of that amount, payable in monthly installments out of the salary fund of the county, for the reporting and taking notes in criminal cases and juvenile court cases in the superior court, and in preliminary examinations of those accused of crime before magistrates, and of proceedings before the grand jury and at coroner's inquests when requested by the coroner, and for other services such reporters shall receive the fees provided for in Article 9 (commencing at Section 69941), Chapter 5, Title 8 of this code, such fees in civil cases to be paid by the litigants as provided by law.

Reporters pro tempore shall be paid a per diem of fifty-five dollars ($55) as provided in Section 69948 of this code and other fees set forth in Article 9 (commencing at Section 69941), Chapter 5, Title 8 of this code, and shall receive from the county their necessary traveling and other expenses when necessarily called from other counties, but a reporter pro tempore shall be paid a per diem or expenses by the county only when the regular official court reporters are occupied in the superior court, or at preliminary examinations, grand jury hearings or coroner's inquests.

The board of supervisors of such a county may provide the court reporters with equipment for the performance of their duties.

SEC. 2. Section 70045.2 is added to the Government Code, to read:

0317 281430 118

70045.2. (a) The Judicial Council shall provide by rule for the maintenance of records as described in subdivision (c), which shall be filed with the council by each official reporter and official reporter pro tempore of any court located in Trinity County. Such records shall be inspected and audited by the Judicial Council.

(b) The Judicial Council shall submit an annual report to the board of supervisors of any such county and to the Legislature summarizing the information contained in the records.

(c) Each such annual report shall include the following information relative to the official court reporters of the county:

(1) The quantity and types of transcripts prepared by the official reporters and official reporters pro tempore during the reporting period.

(2) The fees charged and the fees collected for such transcripts.

(3) Expenses incurred by the reporters in connection with the preparation of such transcripts.

(4) The amount of time the reporters have spent in attendance upon the courts for the purpose of reporting proceedings, and the compensation received for this purpose.

(5) Such other information as the Judicial Council may require.

SEC. 3. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Trinity County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

CHAPTER 122

An act to amend Section 15516 of, and to add Sections 15452.1, 15452.2, 19700.748, and 19700.749 to, the Education Code, relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature June 15, 1975 Filed with Secretary of State June 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 15452.1 is added to the Education Code, to read:

15452.1. Any school building, as defined in Section 15452, operated by a county official, board, or commission which on the effective date of this section is in violation of this article, where compliance therewith was otherwise required, may be continued in use as a school building after June 30, 1975, provided that no such building shall be operated after that date unless such county official, board, or commission requests and obtains from the State Allocation Board authority for use of such building for a specific period after such date.

Concurrent with such request such county official, board, or commission shall file with the State Allocation Board a statement or resolution declaring an intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement.

The State Allocation Board shall not authorize such county official, board, or commission to use such building after June 30, 1975, unless it has first determined that the affected authority has already proceeded with a plan of total repair, reconstruction, or replacement in a timely manner and the contract has been let for any phase of, and work commenced on, such project.

In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

SEC. 2. Section 15452.2 is added to the Education Code, to read:

15452.2. Where the primary use of either a building or complex within which such building is situated, operated by an official or board of a city, city and county or county, is for purposes other than educational, such as but not limited to correctional, forestry, or hospital purposes, such building shall not be considered to be a "school building" within the meaning of Section 15452 notwithstanding any educational use thereof incidental to such primary purpose.

SEC. 3. Section 15516 of the Education Code is amended to read:

15516. No school building examined and found to be unsafe for

school use pursuant to Section 15503 and not repaired or reconstructed in accordance with the provisions of this article shall be used as a school building for elementary and secondary school or community college purposes after June 30, 1975, unless the governing board of the school district has requested and obtained from the State Allocation Board authority for use of such building for a specific period beyond such date Prior to requesting such authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any school district to use such a building beyond June 30, 1975, unless it has first determined that the school district has already proceeded with a plan of total repair, reconstruction or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, such project. In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

SEC. 4. Section 19700.748 of the Education Code is amended to read:

19700.748. Notwithstanding any provisions of this article or Section 19700.745 thereof to the contrary, any school district which lacks sufficient matching funds for a particular project or projects, as required under this article, may file an application and the board may approve a project or projects conditioned upon the district levying, in the 1974–75 fiscal year, the entire twenty-cent ($0.20) tax rate per one hundred dollars ($100) of assessed valuation permitted under Section 15518 and applying the proceeds of such levy as local matching funds for such project or projects.

Under such circumstances, provided such applicant district was not eligible to receive a grant under the provisions of Section 19700.746, the board may increase the basic computed state matching ratio of assistance in such amount, which, when added to the sum of the entire proceeds of the twenty-cent ($0.20) tax rate and such other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than nineteen million dollars ($19,000,000) of the proceeds of the sale of bonds authorized by Section 19700.51, may be apportioned pursuant to this section and in augmentation of the forty-five million dollars ($45,000,000) made available under Section 19700.745.

SEC. 5. Section 19700.749 is added to the Education Code, to read:

19700.749. Notwithstanding any provisions of this article or Sections 19700.745 and 19700.748 thereof to the contrary, any school district, which has issued at least thirty-seven million dollars ($37,000,000) in bonds for the purpose of replacing structurally

unsafe buildings and which lacks sufficient matching funds for a particular project or projects, as required under this article, may apply and the board may approve, a project or projects conditioned upon the district having levied or being required to levy, in the fiscal years 1974–75, 1975–76, and 1976–77, the entire twenty-cent ($0.20) tax rate per one hundred dollars ($100) of assessed valuation permitted under Section 15518 and applying the entire proceeds therefrom as local matching funds to an eligible project or projects.

Under such circumstances, the board may increase the basic computed state matching ratio of assistance in such amount which, when added to the sum of (1) the entire proceeds which have been collected from the aforementioned twenty-cent ($0.20) tax levies at the time of the application and not yet applied as matching funds to previously approved projects and (2) such other funds which in the opinion of the board are or can be made currently available for the project or projects, would be necessary to construct minimum essential facilities for the project or projects as determined by the board. Not more than six million dollars ($6,000,000) of the proceeds of the sale of bonds authorized by Section 19700.51, may be apportioned pursuant to this section.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that school districts may contract for the orderly and efficient replacement or reconstruction of structurally inadequate school buildings without undue disruption of the education program and dislocation of pupils, it is necessary that this act take effect immediately.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 924.5 of the Education Code is repealed.

SEC. 2. Section 3100 of the Education Code is amended to read:

3100. It is the intent and purpose of the Legislature that the procedures prescribed by the provisions of this chapter and Chapter 9 (commencing with Section 3001) of this division be utilized primarily for the formation of unified school districts, and that this form of organization be ultimately adopted throughout the state. It is the further intent of the Legislature that in exercising the authority to approve master plans and plans and recommendations developed at the local level, the State Board of Education consider the boundaries of existing high school districts as the minimum geographical base for the organization of individual unified school districts, to be deviated from only in exceptional situations. The State

Board of Education may approve proposals for the formation of districts based upon the division of the territory of existing high school districts, provided that the board has determined, with respect to the proposal and the resulting new districts that the following conditions are substantially met:

(a) That the new districts will be adequate in terms of number of pupils enrolled, having a projected average daily attendance of at least 10,000 by the beginning of the seventh fiscal year following the date that any such new district became effective for all purposes; provided that, if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in the proposed new districts is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board may approve of the formation where there will be an average daily attendance of more than 5,000 in the year following the date that the resulting districts would become effective for all purposes, or if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in the proposed new districts is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board may approve of the formation where there will be a projected average daily attendance of more than 7,000 by the beginning of the seventh fiscal year following the date that the resulting districts become effective for all purposes.

(b) That the new districts will be adequate in terms of financial ability. For purposes of determining financial ability, the board shall consider assessed valuations per pupil, revenue limits per pupil, and tax rates required for the revenue limits. For purposes of evaluating proposals pursuant to this section, the board may give such consideration as it deems appropriate to federal funds received by a school district under the act of Congress entitled "An act to provide financial assistance for local educational agencies in areas affected by federal activities, and for other purposes," approved September 30, 1950 (Public Law 874—81st Congress) or under any similar act of Congress. Except as otherwise provided in this section, the board shall not approve of the formation of districts by division of the territory of existing high school districts, where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the proposed new districts varies from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised by more than 10 percent, except that if the assessed valuation per pupil in grades kindergarten to 12, inclusive, in each and every proposed new district is greater than the statewide average assessed valuation per pupil in grades kindergarten to 12, inclusive, the board shall not approve of the formation where the assessed valuation per pupil in grades kindergarten to 12, inclusive, in any of the new districts varies by more than 15 percent from the average assessed valuation per pupil in such grades in all of the territory of which the proposed new districts are comprised.

(c) That the new districts are each organized on the basis of a substantial community identity.

(d) That the proposal will result in an equitable division of property and facilities of the original district.

(e) That the proposal and the formation of the new districts will not promote racial or ethnic discrimination or segregation. The State Board of Education may secure the advice and assistance of any other public agencies concerned with intergroup relationships for purposes of making determinations under this subdivision.

The State Board of Education may approve a proposal for the formation of two or more unified districts from the territory of a high school district if the board determines that it is not practical or possible to apply the criteria of this section literally, and that the circumstances with respect to the proposals provide an exceptional situation sufficient to justify approval of the proposals.

The board may require that proposals combine the area of existing high school districts, with respect to any proposed new or reorganized districts which would not meet the requirements prescribed by Section 17672 or come within the exceptions prescribed by Section 17673.

SEC. 3. Section 3252 of the Education Code is repealed.

SEC. 3.5. Section 13252.5 of the Education Code is repealed.

SEC. 4. Section 15355 of the Education Code is repealed.

SEC. 4.5. Section 17200.5 of the Education Code is amended to read:

17200.5. For purposes of determining allowances pursuant to Article 14 (commencing with Section 6421) of Chapter 6 of Division 6, and Chapters 7.1 (commencing with Section 6750), 8 (commencing with Section 6801), and 9 (commencing with Section 6901), respectively, of Division 6, the Superintendent of Public Instruction shall require the use of a uniform cost accounting procedure, as set forth in the California School Accounting Manual.

SEC. 5. Section 17503 of the Education Code is amended to read:

17503. For purposes of this section:

(a) "Salaries of classroom teachers" and "teacher" shall have the same meanings as prescribed by Section 17200 of this code provided, however, that the cost of all health and welfare benefits provided to the teachers by the school district shall be included within the meaning of salaries of classroom teachers.

(b) "Current expense of education" means expenditures for certificated salaries other than certificated salaries for pupil transportation, food services, and community services; classified salaries other than classified salaries for pupil transportation, food services, and community services; employee benefits other than employee benefits for pupil transportation personnel, food services personnel, and community services personnel; books, supplies, and equipment replacement other than for pupil transportation and food services; and community services, contracted services, and other operating expenses other than for pupil transportation, food services,

and community services. "Current expense of education," for purposes of this section shall not include expenditures classified as sites, buildings, books, and media and new equipment (object of expenditure 6000 of the California School Accounting Manual) or expenditures for facility acquisition and construction.

There shall be expended during each fiscal year for payment of salaries of classroom teachers:

(a) By an elementary school district, sixty percent (60%) of the district's current expense of education.

(b) By a high school district, fifty percent (50%) of the district's current expense of education.

(c) By a community college district, fifty percent (50%) of the district's current expense of education.

(d) By a unified school district, fifty-five percent (55%) of the district's current expense of education.

If the Superintendent of Public Instruction determines that a school district has not expended the applicable percentage of current expense of education for the payment of salaries of classroom teachers during the preceding fiscal year, he shall, in apportionments made to the school district from the State School Fund after April 15 of the current fiscal year, designate an amount of such apportionment or apportionments equal to the apparent deficiency in district expenditures. Any amount so designated by the Superintendent of Public Instruction shall be deposited in the county treasury to the credit of the school district, but shall be unavailable for expenditure by the district pending the determination to be made by the Superintendent of Public Instruction on any application for exemption which may be submitted to the Superintendent of Public Instruction. In the event it appears to the governing board of a school district that the application of the preceding paragraphs of this section during a fiscal year results in serious hardship to the district, or in the payment of salaries of classroom teachers in excess of the salaries of classroom teachers paid by other districts of comparable type and functioning under comparable conditions, the board may, with the written approval of the county superintendent of schools having jurisdiction over the district apply to the Superintendent of Public Instruction in writing not later than September 15th of the succeeding fiscal year for exemption from the requirements of the preceding paragraphs of this section for the fiscal year on account of which the application is made. Upon receipt of such application, duly approved, the Superintendent of Public Instruction shall grant the district exemption for any amount that is less than one thousand dollars ($1,000), and if the amount is one thousand dollars ($1,000), or greater may grant the district exemption, to the extent deemed necessary by him, from such requirements for the fiscal year on account of which the application is made. If such exemption is granted the designated moneys shall be immediately available for expenditure by the school district governing board. If no application for exemption is made or

exemption is denied, the Superintendent of Public Instruction shall order the designated amount or amount not exempted to be added to the amounts to be expended for salaries of classroom teachers during the next fiscal year.

The Superintendent of Public Instruction shall enforce the requirements prescribed by this section, and may adopt necessary rules and regulations to that end. He may require the submission to him, during the school year, by school district governing boards and county superintendents of schools, of such reports and information as may be necessary to carry out the provisions of this section.

SEC. 6. Section 18351 of the Education Code is amended to read:

18351. The county superintendent of schools shall on or before April 1st of each year submit to the Superintendent of Public Instruction a budget for the succeeding fiscal year, in such form as the Superintendent of Public Instruction shall prescribe, setting forth all known and estimated revenues of the county school service fund for such fiscal year from all sources, and the proposed expenditures from the county school service fund for such fiscal year. The budget shall be approved by the Superintendent of Public Instruction. When a budget is submitted to the Superintendent of Public Instruction for his approval, he shall make a review of each program prior to approving the budget. No allowance shall be made under Sections 18351 to 18354, inclusive, whichever are in effect, to a county superintendent of schools for any item of current expenses or capital outlay with respect to which the county superintendent has failed to comply with the regulations of the Superintendent of Public Instruction which he is herewith authorized to adopt applicable to such item. The regulations adopted by the Superintendent of Public Instruction hereunder shall not be limited to, but shall, among other matters:

(a) Prescribe procedures relating to budgeting, purchasing and replacing capital outlay items.

(b) Prescribe procedures relating to the purchase, replacement, operation and maintenance of automotive equipment.

(c) Prescribe the conditions under which the county superintendent of schools may provide services to districts by contract.

(d) Prescribe the conditions under which allowances may be made to the county superintendent of schools to contract for the services of special consultants.

(e) Prescribe the conditions under which allowances may be made to the county superintendent of schools to assume functions authorized by law to be performed either by the county superintendent of schools or another public agency.

(f) Prescribe conditions under which allowances will be made to meet conditions of an emergency nature requiring the establishment and maintenance of emergency schools, the providing of emergency teachers for regular elementary schools, the providing of emergency transportation to regular elementary schools, or emergency

apportionments to school districts.

(g) Define county school service fund publications and prescribe the procedures to be followed relating to budgeting, printing and distributing such publications.

(h) Establish, solely for budget approval purposes, a classification of county school service fund personnel and a salary schedule for each classification.

Upon the approval of the budget by the Superintendent of Public Instruction, he shall note his approval thereon and transmit one copy thereof to the county superintendent of schools and one copy to the county auditor of the county.

SEC. 6.5. Section 18351.1 of the Education Code is amended to read:

18351.1. The amount of any expenditure by a county superintendent of schools in excess of the amount set forth for the particular program of the approved budget of a county school service fund shall be withheld by Superintendent of Public Instruction from the allowances made in the next succeeding fiscal year to that county school service fund.

SEC. 7. Section 20504 of the Education Code is amended to read:

20504. Except in districts where no district tax is levied and in elementary districts employing but one teacher, the publication budget for the ensuing school year to which it is intended to apply, showing program expenditures, cash balances, and all the appropriations from the state as required to be tabulated in Sections 20602 and 20603 of this code for the ensuing and last preceding fiscal year, and the district tax requirement for the school year to which the publication budget is intended to apply and for the last preceding school year, including a summary of the district tax requirements for the ensuing fiscal year to be derived by levies on the secured roll as shown on the budget form prescribed for this purpose by the Superintendent of Public Instruction, shall be published by the county superintendent of schools at least once in a newspaper of general circulation published within the district, or if there is no such newspaper, then in any newspaper of general circulation in the district, prior to its adoption. The cost of the publication shall be a proper and legal charge against the school district or districts for which the publication is made, and shall not exceed the rate fixed by the board of supervisors for official advertising. Publication shall be made during the last week in July of each year, and shall contain a notice that a public hearing will be held before the governing board of the school district, in a schoolhouse in the district, or in some other place conveniently accessible to the residents of the district, during the first week in August at which any taxpayer in the district may appear and object to the proposed budget or any item of the budget. The hearing may be concluded on such publication budget when there are no requests on file for further hearing. The budget shall not be finally adopted by the governing board of the district until after the public hearing has been held. In the case of a school district or

districts in which the average daily attendance of all said districts combined is in excess of 200,000, governed by the same governing board, the public hearing during the first week in August need not be held if there has been at least one public meeting on the publication budget prior to the first week of August, at which public meeting any changes proposed to be made in the publication budget for the final budget shall have been presented.

SEC. 8. Section 20603 of the Education Code is amended to read:

20603. Each budget shall be itemized to set forth the necessary revenues and expenditures, by program, in each fund to operate the public schools of the district as authorized by law and on forms prescribed by the Superintendent of Public Instruction.

SEC. 9. Section 20907 of the Education Code is amended to read:

20907. Whenever the computation required by Section 20904 or 20905 results, because of estimating or other errors, in a total revenue limit in an amount more or less than actual data would have produced, the revenue limit for the succeeding fiscal year shall be reduced by an amount equal to the amount of the error if the total produced was more, and may be increased by an amount up to the amount of the error if the total produced was less.

Whenever the collection and distribution of local taxes from the secured roll results in an amount more or less than the taxes required as computed by Section 20904 or 20905, the local tax requirement for the succeeding fiscal year shall be reduced by an amount equal to the amount of the difference if the total received was more, and may be increased by an amount up to the amount of the difference if the total received was less.

CHAPTER 126

An act to amend Sections 3501, 3502, and 3507 of, and to add and repeal Section 3500.5 of, the Health and Safety Code, relating to treatment of pupils teeth, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 3500.5 is added to the Health and Safety Code, to read:

3500.5. The program of topical application shall not include provision of more than two topical applications to the teeth of each pupil within the school year, except in those programs where additional applications are available on a voluntary basis.

This section shall remain in effect only until January 1, 1978, and as of such date is repealed.

SEC. 2. Section 3501 of the Health and Safety Code is amended to read:

3501. Treatment as specified in this chapter shall be evidenced by a written record made on a form prescribed by the department. A copy of the record shall be given to the parent or guardian of the child, or if the person receiving the treatment is an adult, the copy shall be given to him.

SEC. 3. Section 3502 of the Health and Safety Code is amended to read:

3502. The county health officer of each county shall organize and operate a program so that treatment is made available to all persons specified in Section 3500. He shall also determine how the cost of such a program is to be recovered. To the extent that the cost to the county is in excess of that sum recovered from persons treated, the cost shall be paid by the county in the same manner as other expenses of the county are paid.

SEC. 4. Section 3507 of the Health and Safety Code is amended to read:

3507. In enacting this chapter, it is the intent of the Legislature to provide a means for the eventual achievement of the topical application of fluoride or other decay-inhibiting agent to the teeth of all school pupils in this state. However, it is understood that this treatment is not a substitute for regular professional dental care. This chapter is designed to provide for the keeping of adequate records of treatment so that appropriate public agencies and the persons treated will be able to ascertain that a person has been so treated.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to avoid the costs of making topical application of fluorides or other decay-inhibiting agents to the teeth of pupils more than two times within a school year, it is necessary that this act take effect immediately.

CHAPTER 127

An act to add Section 16479 to the Public Utilities Code, relating to municipal improvements and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 20, 1975. Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 16479 is added to the Public Utilities Code, to read:

16479. If the Board of Directors of the Tahoe City Public Utilities District determines to use all or any portion of a surplus remaining in the improvement fund from any assessment proceeding to improve the sewer system within district's jurisdiction in accordance with the provisions of subdivision (c) of Section 10427 of the Streets and Highways Code, all of the surpluses to be used for the maintenance of the improvements may be transferred by the legislative body to a single fund for the maintenance and operation of the sewer system without regard to the proportion of the funds so created attributable to each proceeding from which the surplus arose.

The board of directors shall transfer to such single fund the same percentage of the surplus from each improvement fund. The fact that in one or more of such improvement funds no surplus exists shall not prevent the board of directors from proceeding pursuant to this section as to all improvement funds in which a surplus does exist if a surplus of no less than 2½ percent of the total cost exists in no less than 75 percent of such funds.

This section, applicable only to the Tahoe City Public Utilities District, is necessary because of unique and special fiscal management problems of improvement districts in the Lake Tahoe Basin.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are as follows:

The improvement funds in several of the assessment districts have been completed for some time, and unless this act takes effect immediately, the Tahoe City Public Utility District would have to wait until January 1, 1976, to pool the surpluses remaining and give the property owners the benefit of reduced maintenance and operation charges.

CHAPTER 128

An act to amend Section 206.1 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 206.1 of the Revenue and Taxation Code is amended to read:

206.1. All real property necessarily and reasonably required for the parking of automobiles of persons while attending religious services, or engaged in religious services or worship, or engaged in any religious activity, whether or not the real property is contiguous to the land on which is erected the church or other structure used for the religious service or as the place of worship or religious activity and which real property is owned by the church or religious denomination or sect using the same for the parking of automobiles as aforesaid, and which real property is not at other times used for commercial purposes is exempt from taxation. As used in this section, "commercial purposes" does not include the parking of vehicles or bicycles, the revenue of which does not exceed the ordinary and necessary costs of operating and maintaining the property for parking purposes.

SEC. 2. Notwithstanding Section 2229 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section because this act will permit the use by the public of property which is already exempt from taxation and will not result in significant identifiable loss of property tax revenues by local agencies.

CHAPTER 129

An act to amend Section 10705 of, and to repeal Section 10703.4 of, the Education Code, relating to student body funds.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 10703.4 of the Education Code is repealed.

SEC. 2. Section 10705 of the Education Code is amended to read:

10705. In schools or classes for adults, regional occupational centers or programs, or in elementary schools in which the student body is not organized, the governing board may appoint an employee or official to act as trustee for student body funds and to receive said funds in accordance with procedures established by the board. These funds shall be deposited in a bank approved by the board and shall be expended subject to the approval of said appointed employee or official and also subject to such procedure as may be established by the board.

Sec. 69. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the agency, the board shall, by resolution, so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed, for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement, together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the agency and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district, the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the agency or in the proposed improvement district, will be heard. Such notice

shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or within the proposed improvement district, may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

After the formation of such improvement district within the Antelope Valley-East Kern Water Agency pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only to

the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations, and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election prior to the date of the proposed election in at least one newspaper printed and published in the Antelope Valley-East Kern Water Agency, if there is a newspaper printed and published in such agency. Such resolution shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records

of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 91. Section 72 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 72. If from such returns it appears that more than two-thirds of the votes cast in such election held pursuant to the provisions of Section 68 or of Section 69 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the agency for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars ($100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of the agency attached.

The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Antelope Valley-East Kern Water Agency for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the

provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 95. Section 31 of the Desert Water Agency Law (Chapter 1069 of the Statutes of 1961) is amended to read:

Sec. 31. If from such returns it appears that more than two-thirds of the votes cast in such election held pursuant to the provisions of Section 28 or of Section 29 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue bonds of the agency for the whole or any part of the amount of the indebtedness so authorized, and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars ($100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed

by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of the agency attached. The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed, or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said agency, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Desert Water Agency for Improvement District No. ___" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

SEC. 96. Section 34 of the Desert Water Agency Law (Chapter 1069 of the Statutes of 1961) is amended to read:

Sec. 34. The board of directors may advance general funds of the agency to accomplish the purposes of an improvement district formed in accordance with Sections 29 or 33. If the improvement district is formed under Section 33, the board may provide that the

district shall be repaid for any advance of funds, with interest at a rate not to exceed 8 percent per annum from the taxes levied exclusively upon the taxable property in the improvement district. If the improvement district is formed under Section 29 the board may repay the agency for any advance of funds from the proceeds of the sale of bonds authorized for the purposes of such improvement district or as provided in Section 25. To the extent that advances made for improvements for which such bonds were authorized are repaid from funds other than the proceeds of the sale of bonds of the improvement district, the authority of the board to issue bonds of the improvement district in a like amount or amounts shall terminate. The treasurer shall maintain proper records and accounts in which there shall be set forth all repayments of advances to the extent that such advances are made for the improvements for which such bonds were authorized and, to the extent that such repayments reduce the amount of bonds which may be issued on behalf of any improvement district, the net principal amount of authorized but unissued bonds of such improvement district.

SEC. 97. Section 18 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 18. Whenever the board of directors deems it necessary for the agency to incur a bonded indebtedness for the acquisition, construction, completion or repair of any or all improvements, works or property mentioned in this act, the board shall, by resolution, so declare and call an election to be held in said agency for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of said agency. Said resolution shall state: (a) the purpose for which the proposed debt is to be incurred, which may include expenses of all proceedings for the authorization, issuance and sale of the bonds; (b) the amount of debt to be incurred; (c) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (d) the maximum rate of interest to be paid, which shall not exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year; (e) the measure to be submitted to the voters; (f) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (g) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct. The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election, the last publication to be made not less than two weeks prior to the date of the proposed election, in at least one newspaper

published in such agency, then such resolution shall be posted in three public places in such agency not less than two weeks prior to the date of the proposed election. No other notice of such election need be given. The returns of such election shall be made, the votes canvassed by said board of directors within seven days following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code, so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding wherein the validity of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto shall be held to be valid and in every respect legal and incontestable.

SEC. 98. Section 19 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962 First Extraordinary Session) is amended to read:

Sec. 19. Whenever the board of directors deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this act and to provide for such bonded indebtedness to be payable from taxes levied upon less than all of the agency, the board shall, by resolution so declare and state: (a) the purpose for which the proposed debt is to be incurred; (b) the amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance and the sale of the bonds; (c) that the board intends to form an improvement district of a portion of the agency which in the opinion of the board will be benefited, the exterior boundaries of which portion are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and to call an election in such proposed improvement district on a date to be fixed for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district; (d) that taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district; (e) that a general description of the proposed improvement together with a map showing the exterior boundaries of said proposed improvement district with relation to the territory immediately contiguous thereto and to the proposed improvement is on file with the secretary of the agency and is available for inspection by any person or persons interested; (f) the time and place for a hearing by the board on the questions of the formation of said proposed improvement district,

the extent thereof, the proposed improvement and the amount of debt to be incurred; and (g) that at the time and place specified in the resolution any person interested, including all persons owning property in the agency or in the proposed improvement district, will be heard. Notice of said hearing shall be given by publishing a copy of the resolution pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper printed and published in the Crestline-Lake Arrowhead Water Agency, if there is a newspaper printed and published in such agency. Such notice shall also be given by posting a copy of said resolution in six public places within the proposed improvement district at least two weeks before the time fixed for said hearing.

At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or within the proposed improvement district may appear and present any matters material to the questions set forth in the resolution declaring the necessity for incurring the bonded indebtedness. The board shall have power to change the purpose for which the proposed debt is to be incurred, or the amount of bonded debt to be incurred, or the boundaries of said proposed improvement district, or one or all of said matters; provided, however, that said board shall not change such boundaries so as to include any territory which will not, in its judgment, be benefited by said improvement.

The purpose, amount of bonded debt or boundaries shall not be changed by said board except after notices of its intention to do so, given by publication pursuant to Section 6061 of the Government Code in a newspaper printed and published in said Crestline-Lake Arrowhead Water Agency, if there is a newspaper printed and published in such agency, and by posting in six public places within said proposed improvement district. Said notice shall state the changed purpose and debt proposed and that the exterior boundaries as proposed to be changed are set forth on a map on file with the secretary of the agency, which map shall govern for all details as to the extent of the proposed improvement district, and specify the time and place for hearing on such change, which time shall be at least 10 days after publication or posting of said notice. At the time and place so fixed, or at any time and place to which the hearing is adjourned, the board shall proceed with the hearing. At the hearing any person interested, including any person owning property within the agency or the proposed improvement district, may appear and present any matters material to the changes stated in the notice. At the conclusion of the hearing the board shall by resolution determine whether it is deemed necessary to incur the bonded indebtedness, and, if so, the resolution shall also state the purpose for which said proposed debt is to be incurred, the amount of the proposed debt, that the exterior boundaries of the portion of the agency which will be benefited are set forth on a map on file with

the secretary of the agency, which map shall govern for all details as to the extent of the improvement district, and that said portion of the agency set forth on said map shall thereupon constitute and be known as "Improvement District No. _____ of Crestline-Lake Arrowhead Water Agency," and the determinations made in said resolution shall be final and conclusive. After the formation of such improvement district within the Crestline-Lake Arrowhead Water Agency pursuant to this section, all proceedings for the purpose of a bond election shall be limited, and shall apply only to the improvement district, and taxes for the payment of said bonds and the interest thereon shall be levied exclusively upon the taxable property in the improvement district.

After the board has made its determination of the matters required to be determined by said last mentioned resolution, and if the board deems it necessary to incur the bonded indebtedness, the board shall by a further resolution call a special election in said improvement district for the purpose of submitting to the qualified voters thereof the proposition of incurring indebtedness by the issuance of bonds of the agency for said improvement district. Said resolution shall state: (a) that the board deems it necessary to incur the bonded indebtedness; (b) the purpose for which the bonded indebtedness will be incurred; (c) the amount of debt to be incurred; (d) the improvement district to be benefited by said indebtedness, as set forth in the resolution making determinations and that a map showing the exterior boundaries of said improvement district is on file with the secretary of the agency, which map shall govern for all details as to the extent of the improvement district; (e) that taxes for the payment of such bonds and the interest thereon shall be levied exclusively upon the taxable property in said improvement district; (f) the maximum term the bonds proposed to be issued shall run before maturity, which shall not exceed 40 years; (g) the maximum rate of interest to be paid, which shall not exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of the said year; (h) the measure to be submitted to the voters; (i) the date upon which an election shall be held for the purpose of authorizing said bonded indebtedness to be incurred; and (j) the designation of precincts, the location of polling places, and the names of the officers selected to conduct the election, who shall consist of one judge, one inspector and two clerks in each precinct.

The board of directors shall provide for holding such special election on the day so fixed and in accordance with the provisions of the Elections Code so far as the same shall be applicable, except as herein otherwise provided. Notice of the holding of such election shall be given by publishing pursuant to Section 6066 of the Government Code the resolution calling the election prior to the date of the proposed election in at least one newspaper printed and published in the Crestline-Lake Arrowhead Water Agency, if there is a newspaper printed and published in such agency. Such resolution

shall also be posted in three public places in such improvement district not less than two weeks prior to the date of the proposed election. No other notice of such election need be given.

The returns of such election shall be made, the votes canvassed by said board of directors within seven days, following said election, and the results thereof ascertained and declared in accordance with the provisions of the Elections Code so far as they may be applicable, except as in this act otherwise provided. The secretary of the board of directors, as soon as the result is declared, shall enter in the records of such board a statement of such results. No irregularities or informalities in conducting such election shall invalidate the same, if the election shall have otherwise been fairly conducted.

Any action or proceeding, wherein the validity of the formation of the improvement district or of any such bonds or of the proceedings in relation thereto is contested, questioned or denied, shall be commenced within three months from the date of such election; otherwise, said bonds and all proceedings in relation thereto, including the formation of the improvement district, shall be held to be valid and in every respect legal and incontestable.

SEC. 99. Section 19.5 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 19.5. The board may, without a vote of the electors, provide for the issuance of, and issue, general obligation bonds of the agency or for an improvement district thereof if:

(a) The principal amount of such bonds do not exceed the then unissued balance of the principle amount of bonds authorized at an election held in the agency, or in such improvement district, prior to June 16, 1965;

(b) The bonds are issued for the same purpose as that for which said unissued bonds were authorized; and

(c) The bonds are issued in accordance with the provisions of this act, except for the requirement of a bond election.

Bonds issued pursuant to this section may bear interest at a rate or rates not to exceed 8 percent per year, payable semiannually, except that interest for the first year may be payable at the end of that year. When bonds are issued pursuant to this section, unissued bonds as referred to in subdivisions (a) and (b) above in a principal amount at least equal to the principal amount of bonds issued pursuant to this section, shall be canceled by order of the board and shall not be issued.

SEC. 100. Section 22 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 22. If from the returns it appears that more than two-thirds of the votes cast in an election held pursuant to the provisions of Section 18 or of Section 19 of this act, were in favor of and assented to the incurring of such indebtedness, then the board of directors may, by resolution, at such time or times as it deems proper, issue

bonds of the agency for the whole or any part of the amount of the indebtedness so authorized and may from time to time provide for the issuance of such amounts as the necessity thereof may appear, until the full amount of such bonds authorized shall have been issued. Said full amount of bonds may be divided into two or more series and different dates fixed for the payment of each of the series. The maximum term which the bonds of any series shall run before maturity shall not exceed 40 years from the date of each series respectively.

The board of directors shall, by resolution, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment of principal may be deferred for a period of not more than five years from the date of the bonds or the date of the bonds of each series respectively. The bonds shall bear interest at a rate or rates not to exceed 8 percent per annum, payable semiannually, except that interest for the first year may be payable at the end of said year. The board of directors may also provide for call and redemption of bonds prior to maturity at such times and prices and upon such other terms as it may specify. A bond shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect or unless a statement to that effect is printed thereon.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred dollars ($100). The principal and interest shall be payable in lawful money of the United States at the office of the treasurer of the district or such other place or places as may be designated, or at either place or places at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president and treasurer of the agency, countersigned by the secretary of the agency, and the official seal of the agency attached. The interest coupons of such bonds shall be signed by the treasurer of said agency. All such signatures and countersignatures may be printed, lithographed or mechanically reproduced, except that one of said signatures or countersignatures to said bonds shall be manually affixed.

If the bond election proceedings have been limited to and have applied only to an improvement district within said district, said bonds are bonds of the agency and shall be issued in the name of the agency and shall be designated "Bonds of the Crestline-Lake Arrowhead Water Agency for Improvement District No. _____" and each bond and all interest coupons thereof shall state that taxes levied for the payment thereof shall be levied exclusively upon the taxable property in said improvement district.

Before selling the bonds, or any part thereof, the board of directors shall give notice inviting sealed bids in such manner as it may prescribe. If satisfactory bids are received, the bonds offered for sale shall be awarded to the highest responsible bidder. If no bids are

received, or if said board determines that the bids received are not satisfactory as to price or responsibility of the bidders, it may reject all bids received, if any, and either readvertise or sell the bonds at private sale.

The proceeds arising from the sale of bonds shall be paid into the treasury of the agency and placed to the credit of a special improvement fund and expended only for the purpose for which the indebtedness was created; provided, however, that when said purpose has been accomplished any moneys remaining in said special improvement fund may be transferred to the fund to be used for the payment of principal of and interest on the bonds. Said remaining moneys remaining from the sale of bonds of the agency may also be used for some other agency purpose. Such moneys remaining from the sale of bonds of the agency for an improvement district therein may also be used for any purpose which will benefit the property in the improvement district. Said moneys may not be used for said other agency purpose or improvement district purpose until two-thirds of the qualified voters of said agency or improvement district have consented thereto at a special election called in said agency or improvement district by the board of directors. Notice of said election shall be given in the manner provided for bond elections in said agency or improvement district, as the case may be, and in other respects the election shall be conducted as are other agency elections.

SEC. 101. It is the intent of the Legislature that the amendments made by this act are intended solely to conform various statutes with the provisions of Chapter 721 of the Statutes of 1974, and are declaratory of existing law. The Legislature does not intend by this act to render inapplicable Chapter 721 of the Statutes of 1974 to any entity subject to the provisions of such act and operating pursuant to statutory authority which has not as yet been amended to reflect the changes made by Chapter 721.

CHAPTER 131

An act to amend Sections 12 and 13 of the San Diego County Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session), relating to San Diego County Flood Control District.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 12 of the San Diego Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session) is amended to read:

Sec. 12. In each of the zones the board shall appoint a commission as follows: one representative of all the resource conservation districts situated entirely or partially within the zone; one representative of all the water agencies situated entirely or partially within the zone; three or more representatives of the unincorporated territory of the zone, the precise number to be determined as hereinafter specified, and one additional representative appointed by the board if such appointment is necessary to make the total number of representatives an uneven number.

As used in this section the term "water agencies" means any person operating a dam having an impounding capacity of 2,500 acre-feet or more, and any public agency representing the owners of, or controlling, water rights that in the determination of the board would or could be affected by zone or district projects.

The board shall appoint the representative of the resource conservation districts from a list of one or more nominees proposed by all of such districts acting in concert.

The board shall appoint the representative of the water agencies from a list of one or more nominees proposed by all of such agencies acting in concert.

Representatives of the unincorporated area shall be not less than three in number and shall be nominated and appointed by the board. The number of representatives authorized for the unincorporated territory shall be determined according to the following table, provided, however, where the application of such table results in the appointment of less than three representatives for the unincorporated territory the board shall appoint additional representatives so that the number of representatives for the unincorporated territory shall be at least three:

Zone	One representative for *	One additional representative for *	
1	30, or less	each additional full	30
2	100, or less	each additional full	100
3	40, or less	each additional full	40
4	20, or less	each additional full	20
5	10, or less	each additional full	10

* The numbers in the center and right columns represent millions of dollars of assessed valuation

Upon annexation to the district, any corporate area of any city which is within or partially within any zone shall have the right to representation on the zone commission for said zone and the number of representatives shall be determined and they shall be appointed and serve in like manner as representatives of the unincorporated

territory, except that they shall be nominated by the city council.

If the position of representative of the resource conservation districts or of the water agencies is or becomes vacant for any reason, the clerk of the board shall give to each of said districts or agencies, as the case may be, 30 days' notice of the date and place for submitting nominations of its own choosing. In the event no list is submitted proposing nominees for the position of representative of the resource conservation districts or of the water agencies within the said 30-day period specified in the notice, the board of directors may appoint a representative of its own choosing. If the position of representative of any city or of the unincorporated territory is or becomes vacant for any reason the board shall appoint the representative nominated by the city council or by the board of supervisors, as the case may be, only, and such position shall remain vacant unless and until such nomination and appointment is made.

In all zones representatives shall serve four-year terms, except that the initial appointment of one-half the representatives, as determined by lot, shall be for a two-year term, only, so that the terms of the representatives will be staggered. Any representative appointed by the board for the purpose of making the total number of representatives an uneven number shall be appointed only for a two-year term. Zone representatives may be reappointed by the board to serve additional terms.

Each zone representative shall receive such sum as may be fixed by the board for each meeting of the zone commission attended by him, not exceeding two meetings in any calendar month. The board by resolution may provide for the reimbursement from funds of the district of actual and necessary expenses incurred by such representatives in the performance of official duties under this act.

Notwithstanding any other provision of this section, in no event shall the total number of commissioners for any zone exceed the following nine persons: one resource conservation district representative; one water agency representative; and seven representatives of the unincorporated territory of the zone and the corporate area of any city within the zone which may have been annexed to the district. Where the corporate area of a city is included in the zone, the representation shall be apportioned between the unincorporated territory and the corporate area on the basis of assessed valuation of the taxable property in such zone. Where the corporate area of more than one city is included in the zone and the proportionate representation between the unincorporated territory and the corporate area is such that each city will not have the right to representation by at least one representative, the representation of the corporate area shall be by representatives nominated jointly by the councils of such cities.

SEC. 2. Section 13 of the San Diego Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session) is amended to read:

Sec. 13. Concurrently with the institution of a project or work of

improvement, the board may establish a subzone or participating subzones for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving such project or work of improvement. Whenever it is proposed to establish a subzone or participating subzones the resolution of intention required by this act shall contain, in addition to other required matters, a statement of the board's intention to establish a subzone or participating subzones, as the case may be, a description of the proposed boundaries thereof, and, where participating subzones are proposed, the proportionate amount of the costs to be borne by each subzone. The board may establish a continuously operating subzone or subzones for the financing, construction, maintaining, operating, extending, repairing, or otherwise improving projects or works of improvement. Whenever it is proposed to establish a continuously operating subzone or subzones, the resolution of intention required by this act shall contain, in addition to the other required matters, a statement of the board's intention to establish a continuously operating subzone or subzones and a description of the boundaries thereof.

At the hearing held pursuant to this act in addition to other matters then required to be determined, the board shall determine the extent of any subzone or participating subzones it may establish. The board shall have the power to exclude such territory from any proposed subzone or participating subzones as the board finds will not be benefited by inclusion therein.

No revenues from the taxes or assessments levied in one subzone under this section shall be expended for constructing, maintaining, operating, extending, repairing, or otherwise improving any project or work of improvement located in any other subzone, except in the case of joint projects or projects which are authorized or established outside of the subzone from which the revenues are derived but which are for the benefit of such subzone.

All of the provisions of this act relating to bonds and relating to projects and works of improvement are applicable to subzones and participating subzones, and all of the powers and duties conferred or imposed by this act with respect to zones or participating zones, including the powers and duties to levy and collect taxes or assessments and to incur indebtedness and to issue and sell bonds, shall apply with respect to subzones and participating subzones.

It is hereby declared that for the purposes of any tax or assessment levied pursuant to this act in any subzone or participating subzone, the property so taxed or assessed is equally benefited.

Whenever a special bond election is called and held under Section 18 of this act, or as authorized by Section 27 of this act, with respect to any subzone or participating subzone, it shall be called and held only within such subzone or participating subzone for which the bonded indebtedness is proposed to be incurred and need not be called or held in any of the remaining territory of the zone or participating zones of which such subzone or participating subzone

may be a part. Any defect or irregularity in the proceedings prior to the calling of such special bond election shall not affect the validity of the bonds authorized by said election. When a project or work of improvement affects a single subzone only, then bonds for such subzone for the amount stated in such proceedings shall be issued and sold as in this act provided only if at the election called for that purpose a majority of the votes cast in said subzone on the proposition of incurring a bonded indebtedness are in favor thereof. When the incurring of bonded indebtedness by a participating subzone is to be determined at any election, no bonds for any of such participating subzones shall be issued or sold unless a majority of the votes cast on the proposition submitted at such election in each such participating subzone are in favor of incurring the bonded indebtedness to be undertaken by such participating subzone. Bonds of the district issued for any subzone or participating subzone pursuant to this act shall be legal investments and may be used as security, and money or funds may be invested in said bonds, as provided in Section 25 of this act with respect to bonds of the district issued for zones.

CHAPTER 132

An act to amend Section 35550 of the Vehicle Code, relating to buses: axle weight limits.

[Approved by Governor June 20, 1975. Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 35550 of the Vehicle Code is amended to read:

35550. (a) The gross weight imposed upon the highway by the wheels on any one axle of a vehicle shall not exceed 18,000 pounds and the gross weight upon any one wheel, or wheels, supporting one end of an axle, and resting upon the roadway, shall not exceed 9,500 pounds.

(b) The gross weight limit provided for weight bearing upon any one wheel, or wheels, supporting one end of an axle shall not apply to vehicles the loads of which consist of livestock.

(c) The gross weight on any one axle of a bus shall not exceed 20,500 pounds.

(d) Vehicles having not more than two axles, designed by the manufacturer for the collection and transportation of garbage, rubbish, or refuse and which are used regularly for such collection and transportation by any person or any governmental entity engaged in the business of, or in providing the service of, collecting, transporting, and disposing of garbage, rubbish, or refuse may

exceed the weight limitation imposed by this section when the excess weight is not more than 2,000 pounds and is on the rear axle only. The exemption granted by this subdivision shall only apply to such vehicles when engaged in the collection and transportation of garbage, rubbish, or refuse. If the weight on the rear axle is in excess of the provisions of this subdivision, the allowed load in pounds on the rear axle shall be 18,000 pounds maximum for the purpose of determining the amount of fine for such violation as specified in the table in Section 42030.

Subdivision (c) or (d) shall not be applicable to any highway when it would operate to prevent the state from receiving federal funds for highway purposes.

CHAPTER 133

CHAPTER 134

An act relating to Ventura County Community College District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor June 20, 1975 Filed with Secretary of State June 21, 1975]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that a unique situation exists with respect to the data processing services being provided the Ventura County Community College District, and that, therefore, a general law within the meaning of subdivision (b) of Section 16 of Article IV of the California Constitution cannot be made applicable

with respect to the modification of the statutory authority governing those services. The district entered into a contract pursuant to authority afforded by statute operative for the period August 11, 1971, to July 1, 1976, with a private supplier for data processing and related management services pursuant to a pilot program authorized by the Chancellor of the California Community Colleges which was provided for by Section 2 of Chapter 540 of the Statutes of 1971. Beginning with the summer session of 1975, an additional campus of the district will be opening and unless the district is able to renegotiate its contract for the remainder of the term of the contract in order to extend the services to the new college, without putting such additional services out to bid, the district will incur additional expenses and may be placed in a position of having to coordinate two data processing services, which would make the services provided less effective and thereby possibly impair the educational offering.

SEC. 2. Notwithstanding Section 15963 of the Education Code, any contract entered into for electromechanical or electronic data processing services and for the management of such services that was entered into by a community college district with a private commercial entity pursuant to Section 2 of Chapter 540 of the Statutes of 1971 for not to exceed five years, may be renegotiated with the private commercial entity without putting the contract out to public bid in order that additional data processing and related management services may be provided for thereunder for the duration of the pilot program.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that additional data processing and related management services may be provided for commencing with the summer of 1975, and to insure that the educational offering will not be detrimentally affected at the campuses of the Ventura County Community College District, it is essential that this act take immediate effect.

CHAPTER 135

This prohibition shall become operative 24 months after an intermittent ignition device has been demonstrated and certified by the commission as an alternate means. The commission may determine, after demonstration, that there is no feasible alternative means to the use of a pilot light or that the use of a pilot light is necessary for public health and safety.

SEC. 2. Section 25962 of the Public Resources Code is amended to read:

25962. Within 90 days after an intermittent ignition device has been certified by the commission, the commission shall notify all gas appliance manufacturers doing business in the state, as to the prohibition of affected pilot lights and shall inform the manufacturers of the devices available to comply with this article.

SEC. 3. Section 25964 of the Public Resources Code is amended to read:

25964. After 24 months after an intermittent ignition device has been certified by the commission, no person shall cause to be distributed, sold, or installed in this state any new gas appliances, as defined in Section 25950, without obtaining the proper seal of certification from the commission, unless the commission otherwise permits such action.

SEC. 4. Section 25965 of the Public Resources Code is amended to read:

25965. After 24 months after an intermittent ignition device has been certified by the commission, the commission shall make periodic inspections of manufacturers and distributors of gas appliances and may inspect retail outlets, including gas appliances that have been or are to be installed by contractors or builders at building sites in order to determine their compliance with this article.

SEC. 5. There is hereby appropriated from the State Energy Resources Conservation and Development Special Account in the General Fund the sum of one million thirty-six thousand three hundred thirty-one dollars ($1,036,331) to the State Energy Resources Conservation and Development Commission for purposes of carrying out the provisions of Division 15 (commencing with Section 25000) of the Public Resources Code.

effect for a public agency until a Conflict of Interest Code adopted pursuant to Government Code Section 87300 is effective for such agency. This division shall remain inoperative unless Chapter 7 (commencing with Section 87100) of Title 9 of the Government Code is repealed, held invalid by a court of appeal, or otherwise made inoperative. Statements required to be filed in April 1975, by constitutional officers, county supervisors and chief administrative officers of counties, mayors, city council members, and managers and chief administrative officers of general law or charter cities shall include all information reportable under Section 3700 since the date of the last statement filed under this division through January 6, 1975. If no previous statement has been filed, the statement shall contain all reportable information for the period April 1, 1974, through January 6, 1975.

3801. Members of planning commissions and planning officers of cities and counties required to file financial disclosure statements pursuant to Section 3700 shall continue to file the statements required by Section 3700 until such time as a conflict of interest code prepared pursuant to Section 87300 is effective for their agency.

SEC. 3. Nothing in this act shall be construed to reflect a legislative determination or judgment regarding the validity or invalidity of any provision contained in the Political Reform Act of 1974 (Title 9 (commencing with Sec. 81000), Gov.C.).

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the additional net costs, if any, imposed on local government by this act are insignificant in nature and will not cause any financial burden on local government.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

On January 7, 1975, the campaign disclosure and conflict-of-interests provisions of the Political Reform Act of 1974 (Ch. 4 (commencing with Sec. 84100), and Ch. 7 (commencing with Sec. 87100), Title 9, Gov.C.) will become operative. In order to avoid confusion at the local governmental level over what law applies in the areas of campaign disclosure and conflict of interests on and after January 7, 1975, and to avoid the duplication of reporting requirements, it is necessary that this act go into immediate effect at the earliest possible time.

The people of the State of California do enact as follows:

SECTION 1. Section 789.4 is added to the Civil Code, to read:

789.4. The Legislature finds and declares that, because of the high cost of moving mobilehomes, the potential for damage resulting therefrom, the requirements relating to the installation of mobilehomes, and the cost of landscaping or lot preparation, it is necessary that the owners of mobilehomes required to be moved under permit upon the highways occupied within mobilehome parks be provided with the unique protection from actual or constructive eviction afforded by Sections 789.5 to 789.11, inclusive.

SEC. 2. Section 789.9 of the Civil Code is amended to read:

789.9. The management of a mobilehome park shall provide tenants with the park rules and regulations and the language of Sections 789.5 to 789.11, inclusive, in written form either included within the rules and regulations of the park or in the rental agreement.

SEC. 3. Section 789.10 of the Civil Code is amended to read:

789.10. The ownership or management of a park, subdivision, cooperative, or condominium for mobilehomes shall not make as a condition or precondition of residency or tenancy that the mobilehome be prohibited from remaining in the mobilehome park in the event of a sale to a third party during the term of the tenant's lease or any renewal or extension thereof; provided, however, that the owner may, in the event of a sale to a third party, in order to upgrade the quality of his mobilehome park, require that any mobilehome less than 10 feet wide or more than 15 years old or 25 years old if manufactured after September 15, 1971, or both, or any mobilehome in a rundown condition or in disrepair be removed from the park. The ownership or management shall use reasonable discretion in determining the condition of the mobilehome and its accessory structures.

Nothing in this section shall be construed to deny the ownership or management the right to require prior approval of a purchaser if the mobilehome will remain located in the mobilehome park or other facility; provided, however, that the approval of a purchaser cannot be withheld if the purchaser as a prospective tenant has the financial ability to pay the rent and charges of the park unless the ownership or management reasonably determines that the prospective tenant will not, based upon prior tenancies, comply with the requirements of the rules and regulations of the mobilehome

park. The ownership or management may require that the purchaser as a prospective tenant comply with any rule and regulation of the mobilehome park limiting residence within the park to adults only.

No rental, lease, or sale agreement shall contain any provision by which the purchaser or tenant waives his rights under this section, and any such waiver shall be deemed contrary to public policy and shall be void and unenforceable.

SEC. 2. The Legislature finds and declares that the territory within Mariposa County Service Area #1 has severe public health problems because it lacks adequate sewage collection, treatment, and disposal facilities; that such territory has unusually low assessed value and per capita income, thus making impracticable traditional methods of funding such facilities; that the only practicable method for funding such facilities is through a long-term, low-interest loan from Mariposa County to Mariposa County Service Area #1; that the unique combination of circumstances which exists within Mariposa County Service Area #1 makes a general statute inapplicable to this situation; and that therefore this statute is enacted in order to provide Mariposa County Service Area #1 with the ability to fund needed facilities for sewage collection, treatment, and disposal.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The return of such sign or device to its owner may be conditioned upon payment of an amount sufficient to reimburse the road commissioner for the expense of removal.

The people of the State of California do enact as follows:

SECTION 1. Section 12804 of the Vehicle Code is amended to read:

12804. (a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, his understanding of traffic signs and signals and the applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive, except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to

determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(2) Class 2. Any bus, any "farm labor truck," any single vehicle with three or more axles, any such vehicles towing another vehicle weighing less than 6,000 pounds gross, and all vehicles covered under class 3.

(3) Class 3. A three-axle housecar, any two-axle vehicle, and any such housecar or vehicle towing another vehicle weighing less than 6,000 pounds gross, except a bus, two-wheel motorcycle, or "farm labor truck."

(4) Class 4. Any two-wheel motorcycle. Authority to operate vehicles included in a class 4 license may be granted by endorsement on a class 1, 2 or 3 license upon completion of appropriate examination.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation is in the licensee's immediate possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the

other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation is in the licensee's immediate possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the apportionment authorized by this act to be made available to the Escondido Union School District during the remainder of the 1974–75 fiscal year, and so permit such district to meet its payroll and other expenses of its year-round school program for the remainder of the 1974–75 fiscal year, it is necessary that this act go into effect immediately.

Production assessments are authorized to be levied upon the production of ground water from the Chino Basin for the benefit of all members of the public who rely directly or indirectly upon such ground water supplies.

Article 2. Assessment

72141. To accomplish the purposes of this chapter, the primary district shall cause a production assessment or assessments to be levied each year at a uniform annual rate of two dollars ($2) per acre-foot of production from the Chino Basin, or in such lesser amount as may be determined pursuant to Section 72142. The authorized purposes for such production assessments are as follows:

(a) To purchase supplemental water to be used in the aid of studies and investigations authorized under subdivision (b), provided that the total expenditures for such purpose from all production assessments levied pursuant to this chapter shall not exceed the sum of four hundred thousand dollars ($400,000).

(d) To pay costs and expenses incurred during or after the 1974–75 fiscal year for the administration of this chapter, including advisory committee expenses, and to pay or reimburse costs and expenses of the Chino Basin districts incurred for the administration of this chapter.

Article 3. Levy of Assessment

72142. On or before 60 days after the effective date of this chapter, and on or before the third Wednesday in April of each year after 1975, the board shall adopt a budget and by resolution levy such two-dollar ($2)-per-acre-foot assessment, unless the board determines that the purposes of this chapter can be accomplished with a lesser assessment, in which case the board may, by resolution, levy such lesser assessment. Such assessment shall be applicable to all production within the Chino Basin during the fiscal year in which such assessment is levied.

72142.1. Immediately after adopting its resolution levying the assessment, which levy shall thereupon be effective as to all production from the Chino Basin within the primary district, the board shall notify and direct the other Chino Basin districts to levy similar assessments on production from the Chino Basin within each Chino Basin district at an identical rate. The boards of directors of each Chino Basin district other than the primary district shall on or before 30 days after receipt of such notice levy such assessment against all production from the Chino Basin within its boundaries within 30 days after the final date for receipt of annual reports and the payments of assessments, all net assessment proceeds collected by any Chino Basin district, less all costs of administration and collection, shall be delivered to the primary district.

72142.2. After the levy of a production assessment pursuant to this chapter the Chino Basin districts shall give notice thereof to all affected producers within the Chino Basin, within each of their respective boundaries, which notice shall state the rate of each assessment and shall require filing of the annual report of each affected producer, together with payment of the assessment, by the deadline specified in Section 72143. The notice may be sent by postal card or by other first-class mail with postage prepaid by the assessing district.

72142.3. Payment of the assessment shall accompany the filing of the annual report.

72142.4. If any producer after having been given notice as

required by Section 72142.2 fails to pay a production assessment when due, such producer shall become liable to the assessing district for interest at the rate of 1 percent per month on the delinquent amount of the assessment.

Article 4. Reports

72143. On or before 120 days after the effective date of this chapter, and on or before the last day of July of each year after 1975, each producer within the Chino Basin shall furnish the assessing district with an annual report of production for the preceding fiscal year, on a form to be prescribed by the board. On or before 150 days after the effective date of this chapter, and on or before the last day of August of each year after 1975, each Chino Basin district shall deliver a copy of such annual reports to the primary district.

72143.1. If any producer subject to production assessments, after having been given notice as required by Section 72142.2, fails to file an annual report on production, such producer shall, in addition to the liability for interest provided in Section 72142.4, become liable to the assessing district for a penalty of two dollars ($2) per acre-foot produced during the fiscal year subject to such report.

If the board of the assessing district has probable cause to believe that the production by any producer is unreported or, if reported, is substantially in excess of that disclosed by the annual report of such producer, such board shall cause an investigation and report to be made concerning such production. Such board shall determine and fix the correct amount of production for any such producer, not to exceed the maximum production capacity of such producer's water producing facilities; provided, however, where a water measuring device is permanently attached thereto, the record of production as disclosed by such water measuring device shall be presumed to be accurate, and the burden shall be upon such board to establish to the contrary.

After such determination has been made by such board, a written notice thereof shall be mailed to the producer by such assessing district at his address as shown by the primary district's records. Any such determination made by such board shall be conclusive on the producer, and production assessments based thereon, together with interest and penalties, shall be payable immediately, unless such producer shall file with such board within 10 days after the mailing of such notice a written protest setting forth the ground or grounds for protesting the amount of production so determined or the production assessment, interest, and penalties so levied thereon. Upon the filing of such protest, such board shall hold a hearing at which time the total amount of production and the production assessment thereon shall be determined, and the interest and penalties fixed, which action shall be conclusive if based upon substantial evidence. A notice of such hearing shall be mailed to the protestant at least 10 days before the date fixed for the hearing.

Notice of the determination by such board shall be mailed to each protestant. Such producer shall have 20 days from the date of mailing of such notice to pay the production assessment, interest, and penalties so fixed by such board. Within 30 days after the conclusion of the proceedings under this section, such assessing district shall deliver a copy of the notice of the determination to the primary district.

Article 5. Advisory Committee

72144. The board shall appoint an advisory committee representative of the various categories of water use and institutional concern, including each city which is a producer, each water district whose boundaries include lands within the Chino Basin, and representatives of water companies and industrial and agricultural interests.

72144.1. The advisory committee shall organize, elect officers, and adopt reasonable rules for conduct of its affairs; provided, that all meetings of the committee shall be conducted in compliance with Chapter 9 (commencing with Section 54950) of Part 1, Division 2, Title 5 of the Government Code.

72144.2 The advisory committee shall review all proposed studies, programs, and expenditures of proceeds of production assessments under this chapter and shall advise and consult with the board in the administration of this chapter.

Article 6. Remedies

72145. Any assessing district may bring a suit in the court having jurisdiction against any producer for the collection of any delinquent production assessments, interest, or penalties. The court having jurisdiction of the suit may, in addition award interest, costs, and attorney's fees on any judgment.

Article 7. Termination

72146. The assessment authority conferred pursuant to this chapter shall not extend beyond fiscal year 1976–77 production, and the power to collect production assessments shall cease and terminate after exhaustion of all remedies of the assessing districts as to such 1976–77 production. Nothing in this section shall preclude the commitment or expenditure of assessment proceeds remaining after the termination of such assessment authority.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there by any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Chino Basin is the largest single ground water basin in the South Coastal Basin of Southern California. Its water supply, including water in storage and annual safe yield, constitute a resource of great value to the people of the State of California. The development of a water supply and waste water disposal plan is urgently needed in order to facilitate programs of conjunctive utilization of such resources to accommodate waters available from the State Water Resources Development System. Funds are critically needed to undertake studies and to speed implementation of institutional solutions to such basin management problems. It is urgent that a water production assessment be authorized and made applicable to the production of water from the Chino Basin during the 1974–75 fiscal year. It is necessary, therefore, that the provisions of this act go into immediate effect.

In order to remedy this situation as quickly as possible this act must take immediate effect.

(b) The inspection program shall be implemented by the department during 1975 and 1976, and a series of trial inspections of motor vehicles conducted by the department in order to refine inspection standards and procedures adopted under the program shall be completed by no later than July 1, 1976. Such trial inspections shall be limited to the Counties of Orange, Riverside, and San Bernardino, or any portion of one or more of these counties as the department may specify, and to one or more classes of vehicles subject to the provisions of this chapter, for example, vehicles owned by governmental entities. The trial inspection program may include provision for voluntary maintenance or repair and reinspection of vehicles failing to pass initial inspections, undertaken at the owners' expense, and for mandatory maintenance or repair and reinspection of such vehicles, undertaken at the department's expense. Notwithstanding other provisions of this section and of Section 4602.1 of the Vehicle Code, the trial inspections shall not be enforced through renewal of registration of motor vehicles. The department may issue stickers which shall be affixed to vehicles in accordance with regulations of the department or the department may, in conjunction with other affected state agencies, prescribe by regulation other means of enforcement.

(c) Any motor vehicle subject to the provisions of this chapter shall be inspected by the department upon each transfer of registration subsequent to July 1, 1976. During 1976, upon a finding by the department, with the cooperation of the Department of Motor Vehicles, that sufficient inspection stations are in operating condition to commence inspections upon transfer, the department shall establish a 1976 date after which any motor vehicle subject to the provisions of this chapter shall be inspected upon transfer of registration.

(d) Any motor vehicle subject to the provisions of this chapter shall be inspected by the department upon initial registration, and upon each renewal of registration, subsequent to July 1, 1977. During

(e) Notwithstanding any other provision of this section, whenever transfer of registration, or initial or renewed registration of a motor vehicle subject to the provisions of this chapter occurs within 60 days of an inspection conducted pursuant to subdivision (c) or (d) of this section, the inspection otherwise required upon such transfer or registration need not be conducted.

(f) Any motor vehicles subject to the provisions of this chapter owned by a governmental entity or public utility and not required by law to have its registration renewed, shall be inspected by the department annually in accordance with a schedule established by the department to correspond with the schedule for inspections upon renewal of registration of all other motor vehicles pursuant to this chapter.

(g) The consumer handbook prepared by the department pursuant to Section 9889.53 shall be distributed by the Department of Motor Vehicles to every owner of a motor vehicle subject to the provisions of this chapter at the same time such owner is notified of his first inspection requirement pursuant to subdivision (c) or (d) of this section.

(h) The orientation seminars conducted by the department pursuant to subdivision (b) of Section 9889.52, shall be conducted periodically on an ongoing basis commencing prior to the conducting of the first trial inspections by the department pursuant to subdivision (b) of this section.

9889.59. (a) The department shall conduct ongoing cost-benefit analyses and other evaluations of the inspection program, including, but not limited to, observed patterns of malfunctions in inspected motor vehicles' exhaust emissions control and quantifications of reductions in air pollution in the geographical area subject to the provisions of this chapter, and recommendations for legislation to improve the inspection program, and the department shall deliver periodic written reports to the Legislature on such analyses and evaluations at least every 12 months commencing no later than July 1, 1975.

(b) The department shall study and submit recommendations to the Legislature no later than December 31, 1976, on whether the inspection program should be extended, in whole or in part, to other geographical areas within the state, and if so, how, when, and where.

(c) The Legislature shall create a joint committee to receive and evaluate the reports and recommendations submitted by the

department to the Legislature pursuant to this section. On the basis of such evaluation, the committee shall, from time to time, recommend to the Legislature supplementary legislation it deems advisable to facilitate motor vehicle emissions inspections.

SEC. 3. Section 9889.61 of the Business and Professions Code is amended to read:

9889.61. (a) The department shall, by no later than January 1, 1974, apply to the federal government for matching funds to carry out the inspection program established by this chapter.

(b) The department shall charge a fee for the inspection of motor vehicles conducted pursuant to Section 9889.55, except that the department may waive fees for the inspection of motor vehicles conducted pursuant to subdivision (b) of Section 9889.55. The revenues from such fees shall be sufficient to provide the state funds to match any federal grants awarded in response to application under subdivision (a), and to reimburse the Motor Vehicle Account in the Transportation Tax Fund for all appropriations made for the design, adoption, implementation, and operation of the inspection program established by this chapter.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The implementation of the mandatory motor vehicle exhaust emission inspection program contemplated by Chapter 20.4 (commencing with Section 9889.50) of Division 3 of the Business and Professions Code, as added by Chapter 1154 of the Statutes of 1973, has taken longer than originally anticipated. 10950. If any applicant for or recipient of public social services is dissatisfied with any action of the county department relating to his application for or receipt of aid, or if his application is not acted upon with reasonable promptness, or if any person who desires to apply for such aid is refused the opportunity to submit a signed application therefor, and is dissatisfied with such refusal, he shall, in person or through an authorized representative, without the necessity of filing a claim with the board of supervisors, upon filing a request with the department, be accorded an opportunity for a fair hearing.

SEC. 7. Article 3 (commencing with Section 650) is added to Chapter 10 of Division 3 of the Probate Code, to read:

Article 3. Determination or Confirmation of Community Property

650. A surviving spouse or the personal representative, guardian of the estate, or conservator of the property of the surviving spouse may file a petition in the superior court in the county in which the estate of the deceased spouse may be administered alleging that administration of all or a part of the estate is not necessary for the reason that all or a part of the estate is community property passing or belonging to the surviving spouse. The petition shall be verified and shall set forth the following information:

(1) The facts necessary to determine the county in which the estate of the deceased spouse may be administered if proceedings for the administration of the estate are not pending.

(2) The names, ages, and addresses of the heirs, devisees, and legatees of the deceased spouse, the names and addresses of all persons named as executors of the will of the deceased spouse, and the names and addresses of all persons appointed as executors of the will or administrators of the estate of the deceased spouse, which are known to the petitioner.

(3) A description of the property of the deceased spouse which the petitioner alleges is community property passing to the surviving spouse, including the trade or business name of any community property business which the deceased spouse was operating or managing at the time of death.

(4) The facts upon which the petitioner bases the allegation that all or a part of the estate of the deceased spouse is community property passing to the surviving spouse.

(5) A description of any interest in the community property which the petitioner requests the court to confirm to the surviving spouse as belonging to the surviving spouse pursuant to Section 201.

If the petitioner bases the allegation that all or part of the estate of the deceased spouse is community property passing to the surviving spouse upon the will of the deceased spouse, a copy of the

will shall be attached to the petition.

To the extent of the election, this section shall not apply if the petitioner has elected to have the interest of the deceased spouse in the community property or both the interest of the deceased spouse and the surviving spouse in the community property administered under this division pursuant to subdivision (b) of Section 202.

651. If proceedings for the administration of the estate of a deceased spouse are pending, a petition described in Section 650 shall be filed in the proceedings without the payment of an additional fee. If the proceedings are not pending, the petition may be joined with a verified petition for probate of the will or administration of the estate.

652. The filing of a petition under Section 650 shall not preclude the court from admitting the will of the deceased spouse to probate or issuing letters testamentary or of administration upon the petition of any person legally entitled, including any petition for probate of the will or administration of the estate which is joined with a petition filed under Section 650.

653. If proceedings for the administration of the estate of a deceased spouse are pending at the time a petition described in Section 650 is filed or, if the proceedings are not pending and if the petition is not joined with a petition for probate of the will or administration of the estate of the deceased spouse, the clerk shall set the petition for hearing and post notice of the hearing for the period and in the manner prescribed by Section 1200. At least 20 days prior to the date of the hearing on the petition, a notice of the hearing and a copy of the petition shall be personally served upon the following persons by the petitioner or mailed, postage prepaid, by the petitioner to the following persons, addressed to the addresses given in their request for special notice or notice of appearance, the addresses of their offices or places of residence, or, if neither of these addresses are known to the petitioner, the county seat of the county in which the proceedings are pending:

(1) Any personal representative who is not the petitioner.

(2) All legatees, devisees, and known heirs of the deceased spouse.

(3) All persons or their attorneys who have requested special notice pursuant to Section 1202.

(4) All persons or their attorneys who have given notice of appearance.

(5) The Attorney General, addressed to the office of the Attorney General at Sacramento, California, if the petitioner bases the allegation that all or part of the estate of the deceased spouse is community property passing to the surviving spouse upon the will of the deceased spouse and the will involves or may involve (i) a testamentary trust of property for charitable purposes other than a charitable trust with a designated trustee, resident in this state, or (ii) a bequest or devise for a charitable purpose without an identified legatee, devisee, or beneficiary.

(6) All other persons who are named in the will of the deceased

spouse, if the petitioner bases the allegation that all or part of the estate of the deceased spouse is community property passing to the surviving spouse upon the will.

654. If a petition described in Section 650 is joined with a petition for probate of the will, notice of the hearing on the petition shall be given in the manner prescribed by Sections 327 and 328 and shall be included in the notice required by the sections. If the petition is joined with a petition for administration of the estate, notice of the hearing on the petition shall be given in the manner prescribed by Section 441 and shall be included in the notice required by the section. Notice of the hearing on the petition for probate of the will or administration of the estate shall be given at least 20 days prior to the date of the hearing on the petition. A copy of the petition described in Section 650 shall be personally served upon, or mailed, postage prepaid, to, all persons entitled to notice of the hearing under Section 328 or 441.

655. (a) If the court finds that all of the property is community property passing to the surviving spouse, it shall issue an order describing the property, determining that the property is community property passing to the surviving spouse, and determining that no administration is necessary. If the petition filed under Section 650 includes a description of the interest of the surviving spouse in the community property which belongs to the surviving spouse pursuant to Section 201 and the court finds that the interest belongs to the surviving spouse, it shall issue an order describing the property and confirming the ownership of the surviving spouse.

(b) If the court finds that all or a part of the property is not community property passing to the surviving spouse, it shall do all of the following:

(1) Issue an order describing any property which is community property passing to the surviving spouse, determining that the property passes to the surviving spouse, and determining that no administration of the property is necessary; and issue any further orders which may be necessary to cause delivery of the property or its proceeds to the surviving spouse.

(2) If the petition filed under Section 650 includes a description of the interest of the surviving spouse in the community property which belongs to the surviving spouse pursuant to Section 201 and the court finds that the interest belongs to the surviving spouse, issue an order describing the property and confirming the ownership of the surviving spouse and any further orders which may be necessary to cause ownership of the property to be confirmed in the surviving spouse.

(3) Issue an order that the property which is not community property passing to the surviving spouse is subject to administration under this division.

(c) Upon becoming final, an order (1) determining that property is community property passing to the surviving spouse or (2)

confirming the ownership of the surviving spouse of property belonging to the surviving spouse under Section 201 shall be conclusive on all persons, whether or not they are in being.

656. In any case in which the court finds that all or a part of the community property passing to the surviving spouse consists of a business or an interest in a business which the deceased spouse was operating or managing at the time of death, it shall require the surviving spouse to file a list of all of the known creditors of the business and the amount owing to each of them. The court may issue any order necessary to protect the interests of the creditors of the business, including the filing of an undertaking.

657. (a) Upon the filing of a petition pursuant to Section 650, the court shall immediately appoint one inheritance tax referee who shall appraise the property described in the petition in the same manner provided in Section 605 and file an inheritance tax report or certification that no tax is due with the clerk of the court. Upon the filing of the inheritance tax report, the court shall enter an order fixing the inheritance tax in the same manner and subject to all other provisions of law relating to the administration of the estate of a decedent which is not subject to the provisions of this article. The filing of an inheritance tax report and the entry of an order fixing the inheritance tax under this article shall not limit the filing of additional reports and the entry of additional orders fixing the inheritance tax as to any other property of the deceased spouse giving rise to additional inheritance tax liability.

(b) No order shall be issued pursuant to this article until (1) all inheritance taxes due by reason of the transfer of property described in a petition filed pursuant to Section 650 have been paid, (2) the referee has filed a certification that no tax is due, or (3) the State Controller has, in writing, consented to the granting of the order without the prior fixing or payment of any tax.

(c) The petitioner shall furnish the referee with a copy of the petition and all other necessary information and documentation as may be required by law for the referee to prepare the inheritance tax report or issue the certification that no tax is due with reference to the property described in the petition. Within 60 days after the receipt of the petition and information and documentation by the referee, as may be evidenced by an affidavit which is filed in the proceedings by the petitioner and served by mail on the referee, the referee shall make the appraisal and file the inheritance tax report or the certification that no tax is due with the clerk of the court. If the referee does not comply with the provisions of this subdivision, the court may issue any orders which may be necessary to effect compliance.

prior to the filing of a petition for final distribution. It shall set forth the reason why the debts are not barred by subdivision (b) of Section 205 and a statement whether the debts remain unpaid or have been paid by the surviving spouse. If the surviving spouse is personally liable for the debts, the claim shall also include an inventory of the separate property of the surviving spouse and any community property not administered in the estate and a statement of the value of the property less the amount of the liens and encumbrances upon the property as of the date of death of the deceased spouse. The statement may identify any property which is exempt from execution.

SEC. 9. Section 704.4 is added to the Probate Code, to read:

704.4. If any community property is administered in the estate, the surviving spouse or the personal representative, guardian of the estate, or conservator of the property of the surviving spouse may file a claim against the estate for the payment of the debts of the surviving spouse for which the community property is liable. The claim must be filed prior to the filing of a petition for final distribution. It shall include a statement whether the debts remain unpaid or have been paid by the surviving spouse. It shall also include an inventory of the separate property of the surviving spouse and any community property not administered in the estate and a statement of the value of the property less the amount of the liens and encumbrances upon the property as of the date of death of the deceased spouse. The statement may identify any property which is exempt from execution.

SEC. 10. Section 713.5 is added to the Probate Code, to read:

713.5. SEC. 11. Section 910 of the Probate Code is amended to read:

910. (a) Attorneys for executors and administrators shall be allowed out of the estate, as fees for conducting the ordinary probate proceedings, the same amounts as are allowed by the previous article as commissions to executors and administrators; and such further amount as the court may deem just and reasonable for extraordinary services.

(b) Attorneys may charge a reasonable fee in representing the person filing a petition under Section 650, subject to approval by the court.

SEC. 12. Article 5 (commencing with Section 980) is added to Chapter 15 of Division 3 of the Probate Code, to read:

4341 286355 743

Article 5. Apportionment of Debts

980. (a) Whenever it appears that debts payable by the estate are also payable, in whole or in part, by the surviving spouse, the personal representative or any person interested in the estate may file a petition for an order to allocate the responsibility for the debts at any time prior to the filing of a petition for final distribution. If any interest in the community property is administered in the estate of a deceased spouse which, under the laws of this state, was liable for a debt of the surviving spouse which was not also the debt of the deceased spouse, the owner of the debt shall be deemed to be a person interested in the estate.

(b) The petition shall (1) identify all of the debts known to the petitioner that are asserted to be subject to allocation, (2) state the reason why the debts should be allocated, and (3) set forth the allocation and the basis for allocation asserted by the petitioner.

(c) If it appears from the petition that (1) allocation would be affected by the value of the separate property of the surviving spouse and any community property not administered in the estate and (2) an inventory of the property and the value of the property has not been furnished by the surviving spouse, the court shall issue an order to show cause why the information should not be furnished.

(d) Notice of the hearing of the petition and the order to show cause shall be given for the period and in the manner prescribed by Section 1200 and a copy of the petition and the order shall be served not less than 10 days prior to the time set for the hearing upon the surviving spouse and, if the petitioner is not the personal representative of the estate, the personal representative.

(e) The personal representative of the estate and the surviving spouse may provide for allocation by agreement, and, upon a determination by the court that the agreement substantially protects the rights of persons interested in the estate, the allocation provided for in the agreement shall be ordered by the court. In the absence of an agreement, each debt shall be apportioned to all of the property of the spouses liable for the debt, as determined by the laws of this state, in the proportion determined by the value of the property less any liens and encumbrances at the date of death, and the responsibility to pay the debt shall be allocated accordingly.

(f) Upon making a determination as provided in this section, the court shall make an order (1) directing the personal representative to charge the amounts allocated to the surviving spouse against any property or interests of the surviving spouse which are in the possession of the representative, (2) summarily directing the surviving spouse to make payment of the allocation to the personal representative to the extent that property or interests of the surviving spouse which are in the possession of the personal representative are insufficient to satisfy the allocation, and (3) directing the personal representative to make payment of the amounts allocated to the estate.

21382.2. If the death benefit provided by Section 21361 is payable on account of a state member's death which occurs under circumstances other than those described in subdivision (a) (5) of Section 21360, or if an allowance under Section 21365.5 is payable, (a) the surviving wife or surviving husband of the member, who has the care of unmarried children, including stepchildren, of the member who are under 18 years of age, or are incapacitated because of disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then (b) the guardian of surviving unmarried children, including stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or (c) the surviving wife or surviving husband of the member, who does not qualify under (a) of this subdivision, if any, or if no such children under (b) or such spouse under (c), then (d) each surviving parent of the member, shall be paid regardless of the benefit provided by Section 21361, and of the beneficiary designated by the member under that section, or regardless of the allowance provided under Section 21365.5, the following applicable survivor allowance, under the conditions stated and from contributions of the state:

(1) A widow or a widower who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has the care of unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid four hundred fifty dollars ($450) if there is one such child, or five hundred thirty-eight dollars ($538) per month if there are two or more such children. If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this paragraph, assuming that these children were in the care of the surviving spouse, which is in excess of two hundred twenty-five dollars ($225) per month, shall be divided equally among all such children and payments made to the spouse and other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries, and if there are unmarried children, including stepchildren, of the deceased member under 18 years of age, or if there are such children not in the care of such spouse, such children shall be paid an allowance as follows:

(a) If there is only one such child, such child shall be paid two

hundred twenty-five dollars ($225) per month;

(b) If there are two such children, such children shall be paid four hundred fifty dollars ($450) per month divided equally between them; and

(c) If there are three or more such children, such children shall be paid five hundred thirty-eight dollars ($538) per month divided equally among them.

(3) A widow who has attained or attains the age of 62 years, or a widower who has attained or attains the age of 65 years, and, with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has not remarried subsequent to the member's death, shall be paid two hundred twenty-five dollars ($225) per month. No allowance shall be paid under this subdivision, while the surviving spouse is receiving an allowance under subdivision (1) of this section, or while an allowance is being paid under subdivision (2) (c) of this section. The allowance paid under this subdivision shall be eighty-eight dollars ($88) per month while an allowance is being paid under subdivision (2) (b) of this section.

(4) If there is no surviving spouse, or surviving children who qualify for a survivor allowance, or if such surviving spouse dies or remarries, or if such children reach age 18 or die or marry prior thereto, each of the member's dependent mother and father who has attained or attains the age of 62 or 65 years respectively, and who received at least one-half of his support from the member at the time of the member's death, shall be paid two hundred twenty-five dollars ($225) per month.

"Stepchildren", for purposes of this section, shall include only stepchildren of the member living with him in a regular parent-child relationship at the time of his death.

This section shall apply to beneficiaries receiving allowances on July 1, 1975, as well as to beneficiaries with respect to the death of a state member occurring on or after July 1, 1975.

Notwithstanding Section 20019.1, this section shall not apply to school members.

SEC. 15. Section 22825.1 of the Government Code is amended to read:

22825.1. Notwithstanding any other provision of this article, the employer's contribution, with respect to each state officer and employee or an annuitant who was in such employment or office including an academic position with a California state university or college or is a survivor of such person, shall be the amount necessary to pay the cost of his enrollment, including the enrollment of his family members, in a health benefits plan or plans or, if less, twenty-two dollars ($22) for basic and related major medical plans with respect to employees or annuitants enrolled for self alone or for an employee or annuitant so enrolled for self and one family member, thirty-seven dollars ($37) or, for an employee or annuitant so enrolled for self and two or more family members, forty-seven

dollars ($47). The annual total compensation report by the State Personnel Board shall recommend adjustments of the dollar amounts herein based on the principle that the employer's contribution for each employee or annuitant shall be an amount equal to 85 percent of the weighted average of the premium charges required for basic and related major medical plans with respect to employees or annuitants enrolled for self alone plus 60 percent of the weighted average of the additional premium charges required for enrollment of family members in basic and major medical plans as applicable for the level of benefits offered by (1) the statewide service plan contracted by the state; (2) the statewide indemnity plan contracted by the state; (3) the two prepaid comprehensive medical-hospital plans with the largest number of enrollments contracted by the state, as determined by the board, whichever is less. There shall be only one such contribution with respect to all annuitants receiving allowances as survivors of the same employee or annuitant.

The employer's contribution under this section for each employee shall commence on the effective date of his enrollment.

The contribution of each employee and annuitant shall be the total cost per month of the benefit coverage afforded him under the plan or plans less the portion thereof to be contributed by the employer.

SEC. 16. This act shall become operative on July 1, 1975.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the benefits of this act may be available to state employees at the commencement of the 1975–76 fiscal year, this act must take effect immediately.

CHAPTER 176

An act making appropriations for the support of the government of the State of California and for several public purposes in accordance with the provisions of Section 12 of Article IV of the Constitution of the State of California, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 1, 1975. Filed with Secretary of State July 1, 1975.]

June 30, 1975

To the Members of the Legislature of California

I wish to commend you for the care you have taken in reviewing this budget. As signed, it sets forth the priorities for the coming year. Together, we have tried to serve human needs within the resources made available by the people.

Government, no less than the individual, must respect realistic limits. What is needed now is not simply more money but a new spirit. Our primary task is to redirect effort without escalating cost.

I object to the following appropriations in Senate Bill No 199

Item 34—For support of the Department of Justice. I reduce this item from $42,210,520 to $41,022,191 by reducing paragraph (a) Personal Services from $47,471,157 to $46,522,200 and paragraph (b) Operating Expenses and Equipment from $16,593,891 to $16,254,519 and paragraph (f) amount payable from Item 35 from −$265,737 to −$165,737

I am reducing this item to the amount of state funding required to obtain the anticipated federal funds

I am reducing this item to the amount of state funding required to obtain the anticipated federal funding

I am eliminating the funds for two additional electronic data processing positions because the existing EDP staff can handle the work

Additionally, since the Division of Archives can perform functions of the Heritage Preservation Commission, I am eliminating the funds for the Commission

Item 65—For support of Commission for Economic Development

I have approved an augmentation of $90,000 for the Commission on Economic Development With the leadership of Lt Governor Dymally and the assistance of the able people whom I intend to appoint to the Commission, it will have an opportunity to show whether it can contribute to sound growth of our economy

Item 69—For support of Public Utilities Commission I reduce this item from

$10,239,750 to $10,131,273 by reducing paragraph (a) Personal Services from $14,911,016 to $14,807,239 and paragraph (b) Operating Expenses and Equipment from $3,471,739 to $3,467,039

I am reducing funds for four financial examiners, one associate utilities engineer and one transportation analyst III. The existing staff, together with the funds added to this item for consultative services, are sufficient to absorb estimated workload increase.

Item 86—For Salary Increase Fund, Civil Service and Related. I reduce this item from $69,765,000 to $59,056,000 by eliminating the proposed salary increases for state officers whose salaries are specified by statute I am further reducing this item in order to preclude expenditure of money appropriated by this item to increase the salary of any state officer or employee in excess of 10 percent, which I consider to be adequate; except that this reduction shall have no effect on the one-time bonus provided for by this item

I am reducing this item by the amount necessary to meet the cost of the retired employees in the Total Equivalent Compensation package In addition, I am reducing the overall salary increase by one percent

Item 87—For Salary Increase Fund, Civil Service and Related. I reduce this item from $43,249,000 to $28,662,000 by eliminating the proposed salary increases for state officers whose salaries are specified by statute I am further reducing this item in order to preclude expenditure of money appropriated by this item to increase the salary of any state officer or employee in excess of 10 percent, which I consider to be adequate; except that this reduction shall have no effect on the one-time bonus provided for by this item In addition, I am reducing this item by the amount necessary to meet the cost of the retired employees in the Total Equivalent Compensation package In addition, I am reducing the overall salary increase by one percent.

Item 88—For Salary Increase Fund, Civil Service and Related. I reduce this item from $40,279,000 to $33,997,000 by eliminating the proposed salary increases for state officers whose salaries are specified by statute I am further reducing this item in order to preclude expenditure of money appropriated by this item to increase the salary of any state officer or employee in excess of 10 percent, which I consider to be adequate; except that this reduction shall have no effect on the one-time bonus provided for by this item.

I am reducing this item by the amount necessary to meet the cost of the retired employees in the Total Equivalent Compensation package. In addition, I am reducing the overall salary increase by one percent

Item 110—For support of Museum of Science and Industry. I reduce this item from $1,731,059 to $1,683,630 by reducing paragraph (a) Personal Services from $1,611,709 to $1,593,280 and paragraph (b) Operating Expenses and Equipment from $320,466 to $317,966 And paragraph (c) minor capital outlay from $136,884 to $110,384

I am reducing this item with one exception to the amount set forth in the budget as proposed I am retaining an augmentation in the amount of $9,000 for utilities to meet increased costs.

Item 151 1—For support of Department of Consumer Affairs, Division of Consumer Services I eliminate this item

I am eliminating this General Fund support item because adequate funds will be made available from special funds under the control of the department.

Item 164—For support of Department of Industrial Relations

It is the policy of this administration to protect to the fullest the civil and economic rights guaranteed by our laws.

This budget incorporates the legislative augmentation for the Fair Employment Practices Commission

Item 169—For support of Board of Administration of the Public Employees' Retirement System I reduce this item from $581,350 to $320,178

I am reducing the legislative augmentation for partial funding of the Social Security Division The cost of these services should be borne by the agencies receiving the service as currently provided through the Board's authority to fund the Division through the collection of fees

Item 178—For support of Department of Alcoholic Beverage Control I reduce this

item from $8,663,849 to $8,413,849 by reducing paragraph (a) Personal Services from $7,223,317 to $7,023,317 and paragraph (b) Operating Expenses and Equipment from $1,571,714 to $1,521,714

A reassessment of departmental needs has shown statutory requirements can be met adequately by the expenditure level permitted by this reduction

Item 191—For support of State Transportation Board I reduce this item from $345,787 to $251,794 by reducing paragraph (a) Personal Services from $239,846 to $156,764 and paragraph (b) Operating Expenses and Equipment from $105,941 to $95,030.

I am reducing this item to the amount set forth in the budget as proposed

Item 194—For support of Department of Transportation I reduce paragraph (a) Transportation Planning from $16,966,740 to $15,966,740, and paragraph (h) Amount payable from the Transportation Planning and Research Account, State Transportation Fund from $15,504,668 to $14,504,668

Item 195—For transfer by the State Controller from the State Highway Account, State Transportation Fund, to the Transportation Planning and Research Account, State Transportation Fund I reduce this item from $(11,617,012) to $(10,617,012) by reducing paragraph (a) State funds from $8,617,012 to $7,617,012

Item 196—For support of Department of Transportation. I reduce this item from $8,604,104 to $8,104,104

Item 197—For local assistance, Department of Transportation I reduce this item from $6,900,564 to $6,400,564 by reducing paragraph (a) Transportation planning and research from $6,570,000 to $6,070,000

I am reducing Transportation planning by $1 million

This is reflected by a series of adjustments to Items 194, 195, 196, and 197

In view of reduced funding in the State's highway program and the uncertain benefits derived from the ongoing transportation planning effort, I think it appropriate to reduce funding for transportation planning by $1 million This reduction is made in transfers from the State Highway Account I also note that there are 1974–75 funds that were recently allocated by the State Transportation Board that will be available to supplement the 1975–76 local planning effort

Item 201—For allocation and expenditure by the Public Utilities Commission I eliminate this item

I am eliminating this item because sufficient resources are available in the 1974–75 appropriation to fund this program

Item 205—For support of Department of Motor Vehicles I reduce this item from $97,187,804 to $94,880,180 by reducing paragraph (a) Personal Services from $87,150,401 to $85,310,777 and paragraph (b) Operating Expenses and Equipment from $32,114,932 to $31,646,932

I am eliminating $2,215,000 in funds added by the Legislature to provide for an experimental brake and tire inspection program

I am also reducing $92,624 added by the Legislature to increase the department's program planning capability Sufficient funds were included in the budget, as proposed, to perform this function

Item 229—For support of Department of Conservation I reduce this item from $65,562,202 to $65,312,202 by changing paragraph (i) Reimbursements from $−19,541,572 to $−19,791,572

I am reducing this item by $250,000 in funding for the Forest Practice Act I believe this is a reasonable amount to expect to recover in timber operator fees during the last half of the 1975–76 fiscal year

Item 229 2—For support of Department of Conservation I eliminate this item

I am eliminating this item because there has been no demonstrated need to add staff or increase expenditures for the State Resource Conservation Commission

Item 242 5—For transfer to the Fish and Game Preservation Fund from the Department of Agriculture Fund I eliminate this item

I am eliminating this item which is for laboratory services performed by the Department of Fish and Game in connection with the investigation of cases involving

suspected criminal slaughter of livestock The Department can be reimbursed for these services through fees or by an interagency agreement.

Item 265.1—For support of Department of Water Resources. I eliminate this item.

I am eliminating this item pending the development of a financing program, including cost sharing with local and Federal participation, which meets the total needs of the Delta

Item 270 1—I am approving this $300,000 augmentation because of the legislative control language which makes the funds available only when a local agency is unable to provide the funds necessary to establish eligibility for federal funds and then only on a first priority basis.

Item 271—I am permitting a $350,000 augmentation for screening for Tay-Sachs disease to remain in the budget in its entirety despite later information which indicates $200,000 would be sufficient I will be requesting legislative authority to direct the expenditure of the remaining $150,000 to the ongoing program of treatment and prevention of sickle cell anemia.

Item 274—For assistance to local agencies in the establishment and operation of mental health services. I reduce this item from $272,498,976 to $264,899,852 by reducing paragraph (a) Local mental health services from $192,938,252 to $185,339,128

The remaining amount provides for a $17,500,000 increase for local mental health services over authorized expenditures for 1974–75 Although I am not permitting the full augmentation included by the Legislature to remain, I am authorizing an increase of $5,000,000 over that proposed in the May revision of expenditures, a level incidentally, determined to be appropriate at that time by the Office of the Legislative Analyst

While accepting this augmented level I am also urging that certain additional steps be taken by administrators of the local mental health programs First, in the area of local revenue collections, recent audits, including one conducted under the auspices of the Legislature, amply demonstrate that there is room for much improvement in local revenue collection efforts As an incentive to local agencies to increase their efforts in this area I am prepared during the coming year to authorize the allocation of such increased revenues to justifiable program expansions.

Secondly, I am asking the Conference of Local Mental Health Directors, working with the State Departments of Health and Finance and other interested organizations, to develop a mechanism whereby the effectiveness of local programs can be assessed. We simply must begin to provide an information base upon which priority choices can be made

Item 282 1—For support of Employment Development Department. I eliminate this item

Existing manpower programs are available through which priority services can be accorded veterans for job placement and training

Item 287 1—For support of Department of Benefit Payments. I reduce this item from $800,000 to $492,000

I am eliminating $308,000 which was added for the purposes of funding Health Care Audit functions in the department There remains sufficient funds in the department's total support budget to carry out these functions

Item 306—For support of The Early Childhood Education Program I reduce this item for $77,950,000 to $63,200,000

Although the first year's evaluation of the ECE program is not conclusive, I have decided to support a $20 million augmentation of this program because it focuses decision-making at the school site, by allowing parents, teachers and local administrators a joint role in the planning and operation of educational programs.

My augmentation of this program by $20 million will allow the program to increase services to approximately 32% of the K–3 population instead of the current 22% level I will continue to review this program in the coming year to determine future funding levels

Item 309—For support of Department of Education—Compensatory Education I reduce this item from $3,695,000 to $2,650,000 by reducing paragraph (a)

Demonstration programs in Reading and Mathematics from $3,045,000 to $2,000,000

I am reducing this item for the following reason

The augmented funding level of $3,045,000 for Demonstration Programs in Reading and Mathematics is based on a continuation of the 1974–75 program level under the requirements of expiring legislation.

Because of the more cost-effective features of proposed enabling legislation which I am supporting, an adequate number of pilot projects can operate at the budgeted level of $2,000,000 in 1975–76 to provide useful findings in order to disseminate information on successful projects for replication throughout the state.

Item 310—For support of Miller-Unruh Reading Program I reduce this item from $15,955,597 to $14,455,597

Because I have provided for expansion of the Early Childhood Education Program by $20 million in Item 306, I am reducing this item to encourage the consolidation of these two programs Although both of these programs provide reading services to K–3 pupils, the Early Childhood Education program is a more comprehensive and flexible program which should continue and enhance the beneficial aspects of the Miller-Unruh program. I am therefore reducing this item by $1,500,000

Item 314—I am approving the augmentation of $3,761,115 because this child care program is directed primarily for low-income families. I am concerned, however, that this type of child care is so elaborate and expensive that it cannot be made available to all those who truly need it

Item 316.1—For support of the Bilingual Teacher Corps Program. I eliminate this item

Reason—Since I have fully supported the legislative augmentation for bilingual education in Item 316, I am opposing the doubling of funds for the Bilingual Teacher Corps Program I do not believe the program as presently defined will significantly increase the number of bilingual teachers This program has no financial need requirements and will provide grants to many students who already have bilingual ability and are pursuing a course of study leading to a credential

I have included $700,000 in the Budget pursuant to Chapter 1496/74 for 1975–76, this program's first year of operation I believe the guidelines should be reworked in 1975–76 to ensure that the $4 million available for this program from 1976–77 through 1978–79 will be used in a manner which will substantially increase the number of bilingual teachers over the number that would be available if this program did not exist. Further, my administration will work closely with the Regents of the University of California and the Trustees of the State University and Colleges to ensure that this important State need is addressed in the most effective manner

Item 322—For support of Department of Education. I reduce this item from $10,711,685 to $10,468,797 by reducing paragraph (a) Personal Services from $26,571,797 to $26,466,919 and paragraph (b) Operating Expenses and Equipment from $19,989,560 to $19,755,664 and paragraph (1) amounts payable from other support appropriations from −$9,319,968 to −$9,224,082

I am reducing this item for the following reasons·

Health Education Consultant . . . . . −$51,786

This is a desirable but not mandatory priority which the Department of Education can meet through internal staffing adjustments

Textbook Selection Process . . . . . −$57,102

Expanded involvement in the adoption process beyond that now undertaken by the State Board of Education, the Curriculum Development and Supplemental Materials Commission and the State Department of Education does not appear appropriate Such action could further extend the time from publication of instructional materials to availability in the classroom.

Mentally Gifted Minors Consultant . . . . . −$41,000

Current staffing for the Mentally Gifted Minors program is adequate The program is not budgeted for expansion in 1975–76, existing staff is comparable to that for other programs of equal size and complexity

Early Childhood Education Administration . . . . . −$93,000

Consistent with my action on Item 306 for this program, I am reducing administrative support to 1% of Local Assistance expenditures; the traditional level for ECE's program management.

Item 327—For support of Division of Libraries, Department of Education and Board of Library Examiners. I reduce this item from $3,140,038 to $3,044,153

I am eliminating the federal fund replacement provisions from this library materials acquisitions augmentation because federal funds will continue to be available to supplement General Fund library materials acquisitions I have retained the $117,302 augmentation which permits the State Library to increase materials acquisitions by 27% and provides additional staff to process the acquisitions

Item 332—For support of University of California I reduce this item from $536,708,522 to $536,458,522.

The budget as submitted contains $250,000 for affirmative action. I believe that this amount is sufficient if those in charge have the desire and commitment to carry out the policy of this state with respect to equal opportunity.

Item 332 5—For support of University of California (Extended University Pilot Program). I eliminate this item

The University has had three years to develop a program for serving part-time students that would be coordinated with similar programs being conducted by the California State University and Colleges and by the private colleges. Sufficient time has elapsed to permit program adjustments to be made to serve these students. I believe that continued separate state funding is no longer warranted and that the University can operate these programs within existing resources

Item 335 1—For support of a University of California Biomedical Education Program at its U.C. Riverside Campus I eliminate this item

I am eliminating this item because, as far as I can determine, the objectives of this program can be accomplished through existing schools and procedures in the U.C system.

Item 338—For support of University of California (Research and development of aquaculture) I reduce this item from $409,000 to $334,000.

I am reducing this item to the level proposed in the 1975–76 Budget The University can perform their mission of organized research within the current level of state support

Item 341—For Salary Increase, University of California. I reduce this item from $41,371,000 to $35,079,000 by reducing paragraph (a) faculty and faculty related from $21,944,000 to $18,597,000 and paragraph (b) nonfaculty from $19,427,000 to $16,482,000

I am reducing this item in order to preclude expenditure of money appropriated by this item to increase the salary of any state officer or employee in excess of 10 percent, which I consider to be adequate; except that this reduction shall have no effect on the one-time bonus provided for by this item

I am reducing this item by the amount necessary to meet the cost of the retired employees in the Total Equivalent Compensation package. In addition, I am reducing the overall salary increase by 1 percent.

Item 345—For support of Trustees of the California State University and Colleges and the California State University and Colleges I reduce this item from $497,977,304 to $496,312,717 by reducing paragraph (a) Personal Services from $487,170,355 to $485,565,767 and paragraph (b) Operating Expenses and Equipment from $105,143,294 to $105,083,295

I am reducing this item for the following reasons

1 Computing Support . . . . . —$99,162

The budget, as submitted, included $13,515,900 to carry out the EDP activities of the CSUC system However, in recognition of the fact that the Central Timesharing System to be moved from California State University, Northridge, to the Chancellor's Office requires an additional 5 positions for proper operation, I have reduced the legislative augmentation of $163,679 by $99,162 thus leaving $64,517 in the budget for the Central Timesharing System

2. External Degree Program ..... —$185,860
This program was initiated as a self-support program and state funds were provided to cope with the start-up problems and curriculum development Since this program is now in its third year of operation, the state support is no longer required and I am not approving that portion of the augmentation. The legislative augmentation also included funds for fee waivers. Since Student Aid funds are not available for this activity and since I wish to encourage that the program be available to any qualified student, I have allowed $120,000 of the legislative augmentation for this purpose.

3 OASDI. ..... —$1,129,565
To increase the budget for California State University and Colleges for this purpose would be inequitable since no other budget was granted similar augmentation The California State University and Colleges has sufficient funds to cover this expenditure within its existing budget.

4 Affirmative Action ..... —$250,000
The budget I presented to the Legislature continued the 1974–75 level of funding which provides an affirmative action program on every campus I feel that affirmative action should be a basic part of all activities carried out on a campus and is fundamentally a matter of will and not dollars

Item 347—For Salary Increase, California State University and Colleges I reduce this item from $38,930,000 to $32,925,000 by reducing paragraph (a) Instructional and Instructional-related from $25,938,000 to $21,936,000 and paragraph (b) Noninstructional from $12,992,000 to $10,989,000

I am reducing this item in order to preclude expenditure of money appropriated by this item to increase the salary of any state officer or employee in excess of 10 percent, which I consider to be adequate, except that this reduction shall have no effect on the one-time bonus provided for by this item.

I am reducing this item by the amount necessary to meet the cost of the retired employees in the Total Equivalent Compensation package In addition, I am reducing the overall salary increase by 1 percent

Item 348—For support of California Maritime Academy I reduce this item from $1,672,217 to $1,663,169 by reducing paragraph (a) Personal Services from $1,557,004 to $1,547,956

I am eliminating the augmentation for 1.1 temporary help positions which was to provide for additional food service personnel during the sea-training trimester. My budget provided for two new temporary help positions which will provide an adequate level of food service

Item 358—For capital outlay, Department of General Services I reduce this item from $886,500 to $532,500 by eliminating paragraph (d) Basic architectural and engineering services, new state office building, Long Beach, $354,000

This appropriation is premature. Basic programming defining building function and occupancy should be accomplished prior to the appropriation of funds for architectural and engineering services

Item 376 2—For capital outlay, University of California I reduce this item from $3,320,000 to $2,224,000 by eliminating paragraph (3) Working drawings, construct and equip Langley Porter Neuropsychiatric Institute alterations, Step 2, $760,000, and by reducing paragraph (1) Working drawings Powell Library Life Safety and Rehabilitation from $384,000 to $48,000

(3) San Francisco Campus, working drawings, construct and equip Langley Porter Neuropsychiatric Institute alterations, Step 2 $760,000

I am eliminating this subitem because sufficient funds have already been appropriated in prior years to rehabilitate the space needed to carry out the programs of the Institute

(1) Los Angeles Campus, working drawings Powell Library life safety and rehabilitation $336,000

I am reducing this subitem to provide funding for only known life safety code

violation requirements.

Item 378 1—For capital outlay, Trustees of the California State University and Colleges I eliminate this item

(a) State University, Chico—land acquisition, 1975. .... $1,200,000
(b) State University, San Diego—land acquisition 1975 500,000
(c) State College, Dominguez Hills—construct physical education facilities $3,894,000

I am eliminating this item because it is for relatively low priority projects as established by the Trustees. Furthermore, undertaking of the projects is contingent upon the sale of unused campus sites and earmarking of such funds for specific projects at this time is premature

Item 378.2—For capital outlay, Trustees of the California State University and Colleges. I reduce this item from $19,124,000 to $18,949,000 by eliminating paragraph (26) Polytechnic State University, San Luis Obispo. Working drawings for faculty office building ($75,000), and by reducing paragraph (3) Preliminary planning—1976-77 projects from $200,000 to $100,000

(26) Polytechnic State University, San Luis Obispo, working drawings for faculty office building ... $75,000

I am eliminating this subitem because it is not considered to be of high priority in view of the greater systemwide need for general classroom and laboratory space.

(3) Preliminary planning—1976-77 projects . $100,000

I am reducing this subitem because sufficient funds already are provided in the budget to accomplish the necessary projects

Item 378.3—For capital outlay. Board of Governors, California Community Colleges I reduce this item from $26,279,400 to $20,407,400 by eliminating paragraphs

(55) Working drawings, construct, equip, and remodel library and science buildings ($183,400)
(56) Working drawings, construct and equip conversion of business to science ($80,500)
(57) Working drawings, construct and equip auto shop and technical laboratory building ($745,800)
(58) Working drawings for classroom building. ($51,300)
(59) Working drawings and construct industrial technology building. (817,000)
(60) Working drawings for educational units No 1 . (71,200)
(61) Working drawings and construct vocational education building ... (632,400)
(62) Working drawings for environmental science building . (73,000)
(63) Working drawings and construct horticulture building ... (606,200)
(64) Working drawings for health science addition No. 1 . (27,100)
(65) Working drawings, construct and equip marine technology building (364,200)
(66) Working drawings, construct and equip welding and metal technology building . (359,700)
(67) Working drawings and construct business education addition (342,300)
(68) Working drawings, construct and equip cosmetology addition.. (156,000)
(69) Working drawings for health occupation, communication, and resource facility ... (85,700)
(70) Working drawings, construct and equip horticulture building ... (164,100)
(71) Construct auto technology laboratory addition. (18,800)
(72) Working drawings for chemistry building . (87,700)
(73) Working drawings for auto technology center . (51,000)
(74) Working drawings for art addition, phase I. (39,200)
(75) Working drawings for music and drama addition, phase I . (51,200)
(76) Working drawings for home economics addition, phase I. (19,200)
(77) Working drawings, construct and equip vocational educational building . (145,800)
(78) Working drawings for library addition . (7,000)

(79) Working drawings for library and instructional materials center (115,500)
(80) Working drawings for library building . . . . . (61,200)
(81) Working drawings for learning resource center ..... (62,900)
(82) Construct library building . . . . . (347,400)
(83) Working drawings, construct and equip classroom remodeling .... (105,200)

The bond fund that traditionally has provided financing for Community College construction is exhausted and until additional financing is authorized by the people the appropriation of state funds can be only the minimum essential to maintenance of the capital program The projects I have eliminated are not of sufficiently high priority in the building program as specified by the Board of Governors of the California Community Colleges

In my budget message I stated that funding was being proposed only for the completion of projects already started or projects necessary to make other facilities operable These reductions reflect my continued adherence to this policy

Item 396 2—For capital outlay, University of California—Health Sciences Program. I reduce this item from $31,797,000 to $31,040,000 by eliminating paragraphs (2.4) Irvine Health Sciences: Planning for on-campus teaching hospital ($200,000), and by reducing paragraph (7) San Francisco Health Sciences. Working drawings and construct clinics and medical sciences building alterations, Step I from $1,957,000 to $1,400,000

Irvine Health Sciences·

(2 4) Planning for on-campus teaching hospital. $200,000

I am eliminating this subitem Planning for the on-campus hospital at Irvine has already been funded and completed Further funds are unnecessary, particularly in light of the reversion of construction funds for this project in Section 11 of this Act

(7) San Francisco Health Sciences· Working drawings and construct clinics and medical services building alterations, Step I. $1,957,000

I am reducing this subitem by $557,000 to provide funds for alterations related to the Dentistry Program at San Francisco but not those alterations related to Medicine or Pharmacy for which adequate programmatic information is not available to justify the appropriation.

With respect to the medical program at San Francisco, the budget I am approving contains funds for replacement facilities for hospital in-patient care areas, and none of these funds will be released by the Public Works Board until the matter of surplus beds and the possible use of affiliation agreements with other hospitals has been thoroughly explored. Further, prior to the release of any of the approved funds for construction at San Francisco, I will expect the University to have a sound long-time development plan for this campus which adequately evaluates the impact of the facilities on the immediate neighborhood.

Section 10 4—For augmentation to Item 277 of this act I eliminate this section

I am approving the $2,000,000 added by the Legislature to Item 277 (c) for operation of Regional Centers for the developmentally disabled However, I am deleting Section 10 4 which would reappropriate $3,000,000 in unexpended funds from the 1974–75 fiscal year budget Adequate funds are contained in Item 277 (c) to provide for necessary rate increases and caseload growth

Section 28 9—For expression of intent that no qualified student shall be denied admission to the California State University and Colleges or to the University of California and for the reappropriation of $1,000,000 of the unexpended funds appropriated in Item 359, Budget Act of 1974, to preclude the reduction of more than two percent of any faculty positions at any campus of the California State University and Colleges in 1975–76 from the level which existed during the 1974–75 fiscal year

I eliminate from this section the reappropriation segment and delete the following language pertaining thereto·

"In the further event that any campus of the California State University and Colleges is projected to have a reduction of instructional faculty positions in the 1975–76 fiscal year of more than two percent of the positions that existed during the 1974–75 fiscal year, a sum not to exceed $1,000,000 shall be reappropriated from the unexpended balance of the appropriation made in Item 359, Budget Act of 1974, in

order to limit the reduction of instructional faculty positions to a maximum of two percent The Director of Finance, or his authorized designee, shall notify the Chairman of the Joint Legislative Budget Committee and the Chairman of the Committee of each house which considers appropriations of any action taken pursuant to this section within 30 days of such action."

I have eliminated this reappropriation based upon the fact that sufficient options are available to minimize the possibility of layoffs within the California State University and Colleges system In this period of fiscal restraint, it would be unwise to dedicate $1 million from the limited surplus of the State to guarantee employment for one year to instructional faculty on campuses where enrollments do not support this level of faculty.

With the above deletions and reductions, I hereby approve Senate Bill No. 199.

EDMUND G. BROWN JR , Governor

The people of the State of California do enact as follows:

Whenever by constitutional or statutory provision the revenues or receipts of any institution, department, board, bureau, commission, officer, employee, or other agency, or any moneys in any special fund created by law therefor, are to be used for salaries, support or any proper purpose, expenditures shall be made therefrom for any such purposes, to the extent only of the amount herein appropriated, unless otherwise stated herein, or authorized pursuant to Section 11006 of the Government Code.

Appropriations for purposes not otherwise provided for herein which have been heretofore made by any existing constitutional or statutory provision shall continue to be governed thereby.

GENERAL SECTIONS

SEC. 4. Notwithstanding any other provisions of this act, no appropriations made in this act, or funds obtained from any other source, over $25,000, may be expended by any state entity for any single expansion, improvement, or addition to electronic data-processing activities, personnel, equipment, facilities, or supplies, as such terms are defined in the Supplementary Report of the Committee on Conference on the Budget Act of 1975, hereinafter referred to in this section as the supplementary report, during fiscal year 1975–76, unless the department director certifies (or in the case of a consolidated data center, the center director), and the Director of Finance determines and states in writing, that the criteria and procedures set forth in the supplementary report have been met and followed.

Notwithstanding any other provisions of this act, no appropriations made in this act, or funds obtained from any other source, may be expended by any state entity pursuant to a contract in excess of $25,000 for expansion, improvement, or addition to electronic data-processing activities, personnel, equipment, facilities, or supplies, as such terms are defined in the supplementary report, during fiscal year 1975–76, unless such contract for personal services or supplies or for the acquisition or rental of equipment is competitively bid, except that competitive bidding shall not be required (a) when the state entity and the Department of Finance agree that an article of a specified brand or trade name is the only article which will properly meet the needs of the entity, or (b) in cases of emergency where immediate acquisition of supplies, equipment, or services without bid is necessary for the protection of the public health, welfare, or safety. When such contract is to be let without the taking of bids, the Department of Finance shall report the intention to let such contract together with a written statement of facts requiring the acquisition of the supplies, equipment, or services, without bid, to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee 30 days prior to the execution of such contract. If such contract is for the lease of electronic data-processing equipment, it shall be in the form of the model contract for lease of electronic data-processing systems and components, as contained in Section 4960.2 of the State Administrative Manual. No portion of the model contract shall be deleted or stricken unless such portion is

clearly inappropriate and not applicable for the specific items of equipment being leased and the Departments of Finance and General Services concur in the deletion.

The Department of Finance, coordinating with the Department of General Services, shall revise the model lease contract by appropriate changes to Section 4960.2 of the State Administrative Manual for the purpose of improving contractual terms and conditions to obtain increased benefits to the state. Any such proposed changes shall, however, result from consultation with computer vendors, which shall, if possible, include manufacturers of small, medium, and large equipment. In addition, any such changes shall be submitted to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee 30 days prior to approval and adoption of any such new model lease contract language.

With respect to any single expansion, improvement, or addition over $25,000 involving the lease, lease-purchase, or purchase of electronic data-processing equipment, the state's specifications shall be stated so as to encourage maximum competition. In any such procurement subject to this section involving the replacement of a computer mainframe (central processing unit), no award shall be made if only one bid is received and that bid is from the vendor whose equipment is being replaced.

No expenditure of funds for any data-processing activities shall be authorized until the director of the department requesting the expenditure and the Director of Finance certify that adequate safeguards have been developed following the criteria contained in the supplementary report to ensure the confidentiality of data.

The provisions of this section shall not apply to the University of California, the State Compensation Insurance Fund, the community college districts, agencies provided for by Article VI of the Constitution, or the Legislature.

SEC. 5. Because it is necessary to insure the availability of adequate equipment for physical facilities constructed for the operation of custodial, mental health, educational, administrative, military, and other agencies of the state government; because uncertainties as to completion dates make precise advance planning of equipment purchases impossible; and since delivery of some kinds of equipment cannot be made for six months or longer from the date of ordering; state agencies are therefore authorized to incur obligations, to be met during the 1976–77 fiscal year, for the purchase of equipment related to capital outlay projects for which the Legislature has appropriated construction funds; provided, that no obligation shall be incurred under the provisions of this section without the approval of the Department of Finance and the State Public Works Board. Purchase orders issued and contracts entered into under the provisions of this section shall not exceed a total of two million dollars ($2,000,000) in estimated cost.

SEC. 7. Any acquisition of land or other real property included

in any appropriation made herein except appropriations from the California Water Fund or the State Highway Account, State Transportation Fund or appropriations to the Board of Governors of the California Community Colleges for allocation to the community college districts shall be subject to the provisions of the Property Acquisition Law.

All property acquisitions, notwithstanding other exemptions of this section, shall be reported to the State Public Works Board.

SEC. 8. No money appropriated herein in any item for capital outlay may be expended by any state agency, including the University of California, the California State University and Colleges and the community colleges, except amounts for acquisition of land or other real property, amounts needed for equipment, minor projects and amounts appropriated specifically for preliminary surveys, studies and planning until the State Public Works Board and the Department of Finance have approved preliminary plans for the project to be financed from such item of appropriation for capital outlay with the exception that community college approvals by the Public Works Board will apply only to the allocation of state capital outlay funds appropriated heretofore and hereafter by the Legislature; including land acquisition and equipment funds; provided further, that unless excepted by the conditions of Section 20084 of the Education Code, the Public Works Board shall not approve for allocation any appropriated amounts for working drawings or construction where said working drawings or construction have been started by a community college prior to approval of the state-appropriated amounts by the Public Works Board, and all such amounts not approved by the board under this criterion shall be reverted to the unappropriated balance of the appropriate fund; provided further, no major project for which appropriation is made hereunder regarding which the Director of Finance or his authorized representative requests review of working plans shall be put out to bid until the working plans therefor have been approved by the Department of Finance; provided further, that no money appropriated herein may be spent for working drawings for any project as to which there has been made substantial change or changes from the preliminary plans as approved by the State Public Works Board and the Department of Finance unless there has first been obtained the approval of the Department of Finance to make such change or changes; provided further, that no more than one thousand dollars ($1,000) of the money appropriated herein may be spent for any single unit of equipment until prior approval for purchase of such equipment shall have been given by the Department of Finance.

Nothing in this section shall be construed to limit or control the Department of Transportation in the expenditure of State Highway Account, State Transportation Fund money appropriated for capital outlay purposes.

The Department of Transportation shall report to the State Public

Works Board the expenditures for capital outlay, except minor projects, from appropriations contained in this act.

SEC. 8.5. In making appropriations to state agencies which are eligible for federal assistance programs, it is the intent and understanding of the Legislature that applications made by such agencies for federal funds under any such programs shall be for the maximum amount allowable under federal law.

SEC. 9. Notwithstanding any other provision of law, the portion of each sum of money heretofore appropriated or allocated, hereby appropriated or hereafter allocated to the Regents of the University of California for capital outlay which remains after the purpose for which each said sum was appropriated or allocated has been accomplished, and which have been or hereafter are withdrawn from the State Treasury by the Regents of the University of California pursuant to the provisions of Section 23201 of the Education Code, together with increments, by way of interest or otherwise, on any such appropriation or allocations, shall be used and expended by the Regents of the University of California in executing and furthering the building and improvement program of the University of California; provided, that no such sums shall be allocated by the Regents of the University of California to projects for the purpose of augmenting those projects without prior approval of the State Public Works Board of the requested augmentation. Such sums shall be available for expenditure in payment of any encumbrances heretofore or hereafter incurred without regard to fiscal years; provided, however, that any unencumbered balances existing as of the date on which each such appropriation or allocation otherwise would lapse, shall then revert.

SEC. 10. Notwithstanding any other provisions of law, the undisbursed balances, on the effective date of this act, of the appropriations provided in the following citations, are reappropriated for the purposes provided for in said appropriations, and shall be available for expenditure until June 30, 1976.

SEC. 19.6. It is necessary that the State Scholarship and Loan Commission announce awards in the spring of each year, often prior to the time the Budget Act containing the appropriation for this purpose is enacted, in order that students receiving the awards and grants may have sufficient time to plan for entering or returning to school the following fall.

(a) Since the State Scholarship and Loan Commission must announce in the spring of 1976 those individuals to whom state scholarship awards will be granted for the following fall semester of 1976 and, since the Budget Act of 1976 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to announce competitive scholarship winners for the maximum number of new awards authorized by Section 31204 of the Education Code in an amount not to exceed $14,841,816 during the 1975–76 fiscal year for awards to be in effect during the 1976–77 fiscal year.

(b) Since the State Scholarship and Loan Commission must announce in the spring of 1976 those individuals to whom graduate fellowship awards will be granted for the following fall semester of 1976 and, since the Budget Act of 1976 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to announce graduate fellowship winners for the awards authorized by Section 31247 of the Education Code in an amount not to exceed $1,000,000 during the 1975–76 fiscal year for awards to be in effect during the 1976–77 fiscal year.

(c) Since the State Scholarship and Loan Commission must announce in the spring of 1976 those individuals to whom college opportunity grants will be granted for the following fall semester of 1976 and, since the Budget Act of 1976 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to announce college opportunity grant winners for the maximum number of new awards authorized by Section 31263 of the Education Code in an amount not to exceed $2,554,400 during the 1975–76 fiscal year for awards to be in effect during the 1976–77 fiscal year.

(d) Since the State Scholarship and Loan Commission must announce in the spring of 1976 those individuals to whom occupational training grants will be granted for the following fall semester of 1976 and, since the Budget Act of 1976 may not be enacted in adequate time, the State Scholarship and Loan Commission is authorized to announce occupational training grant winners for the maximum number of awards authorized by Section 31295.5 of the Education Code in an amount not to exceed $972,000 during the 1975–76 fiscal year for awards to be in effect during the 1976–77 fiscal year.

SEC. 19.7. The Legislature recognizes that child care programs

established and maintained pursuant to Chapter 1177, Statutes of 1972, have made valuable contributions towards insuring that public assistance recipients have been able to accept and maintain employment or related training. It is, therefore, the intent of the Legislature that the Department of Education shall insure that the following provision is met:

(a) That counties shall comply with Section 16784 of the Education Code which requires counties to maintain their 1970–71 level of effort for child care services provided by county funds, and that those county funds shall be used to exceed the $1.14 an hour maximum state and federal reimbursement rate as established by Item 314 of this act, for child care programs.

The Department of Education shall insure that each county complies with Section 16784 of the Education Code in one of the two following manners:

(1) The Legislature has appropriated $1,283,379 to the Department of Education for county child care services. The Department of Education shall not issue funds to a child care contractor within a county until such time as that county certifies in writing to the Department of Education that the county has obligated its 1970–71 child care maintenance of effort funding level, pursuant to Section 16784 of the Education Code, to local county child care contractors. Such sums awarded by a county to a local child care contractor shall not adversely affect an agency's contract reimbursement with the Department of Education pursuant to Section 16780 of the Education Code.

(2) The Legislature has appropriated $1,283,379 to the Department of Education for county child care services. Each county, which had a 1970–71 maintenance of effort funding level for child care, pursuant to Section 16784 of the Education Code, shall transmit such sum to the Department of Education. Funds derived from each county shall be returned to each respective county's child care contractors as a grant award and not within the reimbursement control of Section 16780 of the Education Code.

The Department of Education shall notify all such programs and all such counties which maintained such programs during fiscal year 1973–74 of the Legislature's intent. The Department of Education shall report to the Legislature, no later than August 1, 1975, on the implementation of the Legislature's intent.

SEC. 19.8. The Legislature recognizes that state child care programs can make a valuable contribution assisting adults in low-income families to secure and maintain employment. It is therefore the intent of the Legislature that the Department of Education shall insure that the appropriation schedule in Item 314(a) for child care services be encumbered to the fullest extent possible under the state and federal rules and regulations affecting these programs.

To accomplish the full encumbrance of the state means test allocation, the Department of Education shall compare the actual

rate of expenditures to the budgeted means test allocations for each means test funded child care provider agency during the first six months of the 1975–76 fiscal year, and make such reallocations among these agencies as are necessary for the final six months of the 1975–76 fiscal year to insure the maximum encumbrance of the means test funding level, and, to provide services to the maximum number of children that can be served under this level of funding.

The Department of Education shall also report to the Legislature on or before February 15, 1976, the actual rate of expenditures of all budgeted child care funds from any source for child care services provided in this state during the first six months of the 1975–76 fiscal year and the projected expenditures during the last six months of the 1975–76 fiscal year together with a summary of all actions to be taken by the Department of Education subsequent to the first six months of the 1975–76 fiscal year to ensure the maximum encumbrance of state and federal funds budgeted for child care services.

SEC. 19.9. (a) No funds shall be available to finance contracts in respect to instructional materials adopted by the State Board of Education in which the total price, including sales and use tax, for any instructional materials exceeds by more than 13 percent the average of the three highest total prices for competitive instructional materials.

(b) No funds shall be available to finance contracts for textbooks or separate teachers' manuals adopted by the State Board of Education in which the royalty for any such textbook or separate teacher's manual exceeds by more than 10 percent an amount equal to the net price of that book multiplied by the average of the ratios of royalty to net price of all competitive books of its respective type.

SEC. 20. No money appropriated by this act shall be used to pay the salary of any authorized state position which was abolished effective September 1, 1975 and which position was vacant continuously during the period between October 1, 1974 and July 1, 1975. The State Controller, no later than August 1, 1975, shall notify in writing the Department of Finance of any authorized state position which was vacant continuously during such period. All such positions, except those exempt from civil service or those instructional and instructional-related positions authorized for the California State University and Colleges, are abolished effective September 1, 1975.

The State Controller, not later than December 1, 1975, shall furnish the Joint Legislative Budget Committee a report on all positions as of July 1, 1975, which were unfilled continuously during the period between October 1, 1974, and July 1, 1975.

SEC. 20.1. Notwithstanding any other provisions of law, expenditures under Item 12 of this act or any appropriation in augmentation of such item shall be exempt from the provisions of Sections 11033, 13320 and 13325 of, and Chapter 3 (commencing with Section 14250) of Part 5 of, and Chapter 6 (commencing with Section 14780) of Part 5.5 of, Division 3 of Title 2 of the Government Code,

subdivision (a) of Section 713 of Title 2 of the California Administrative Code and Sections 4, 8, 18, and 25 of this act, and may be expended as set forth in the Governor's Budget, or for such other purposes, including expenditures for such number of positions in various classifications, as may be authorized by the Joint Committee on Rules.

SEC. 21.4. Since it is imperative that the maximum amount of time possible be provided the State Board of Education in the selection of textbooks and for private publishers and the State Printer to print textbooks for the ensuing school year, the Department of Education and the Department of General Services are authorized subject to the provisions of Education Code Sections 9200 through 10001 to incur textbook printing obligations in an amount not to exceed $10 million in the aggregate during the 1975–76 fiscal year for delivery by the State Printer and private publishers to the Department of Education and local educational agencies beginning in the 1976–77 fiscal year.

SEC. 21.6. In addition to those purposes set forth in Section 19627.3 of the Business and Professions Code, money subject to allocation pursuant to such provisions may be allocated by the Director of Food and Agriculture to county, district, or combined county and district fairs, during the 1975–76 fiscal year, for general operational support purposes, in the limitation of $65,000 set forth in Section 19627 of the Business and Professions Code shall not be applicable to such allocation.

SEC. 22. No purchase order for acquisition or replacement of motor vehicles shall be issued against any appropriation made herein until the Department of General Services has investigated and established the necessity therefor.

All passenger-type motor vehicles purchased from any appropriation made by this act for the use of state employees and officers, except constitutional officers, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements, such as use by the California Highway Patrol, which would justify the need for an automobile of a heavier class.

SEC. 23. All passenger-type motor vehicles purchased either from any appropriation made by this act or from any other appropriation available therefor for the use of the Department of Transportation, except for use of officers excepted in Section 22 of this act, shall be of the light class, as defined by the State Board of Control, unless excepted by the Director of General Services on the basis of unusual requirements which would justify the need for an automobile of a heavier class.

SEC. 24. None of the moneys appropriated by this act or for an expenditure which is supplemented from money appropriated by this act shall be used to purchase funishings for any house or apartment of three or more rooms other than a dormitory which is rented to a state employee except for a superintendent of an

institution, warden of a prison, or physicians. This provision shall not apply to the purchase of refrigerators, heaters, air-conditioning equipment, stoves, linoleum, or equipment normally furnished in construction of the house as may be determined by the State Board of Control. Any such funds that are appropriated by this act for this purpose shall be held intact and be reverted to the fund from which they were appropriated. It is the intent of the Legislature that no money shall be appropriated henceforth for the purpose of house furnishings. Such furnishings are not to be provided by the state nor shall any money be paid from this appropriation for their replacement, repair or otherwise except in connection with the disposal of the same.

SEC. 25. No moneys appropriated by this act shall be used, either directly or by supplementing any other appropriation, to purchase rugs or carpets for any state office except for offices used by elective officers, the President of the University of California, a Chancellor of the University of California, the Chancellor of the California State University and Colleges, a president of a state university or college, department heads and for other facilities or areas under the control of the agencies financed by this act in accordance with standards issued by the Director of General Services. The Director of General Services shall furnish a detailed report annually to the Joint Legislative Budget Committee of all rugs or carpets purchased for state facilities under this section.

Approval of the Director of General Services shall be obtained prior to procurement and installation of such materials. The Director of General Services may authorize the use of carpeting in other specialized facilities not meeting the established standards 30 days after notification in writing of the proposal with justification therefor to the Joint Legislative Budget Committee.

SEC. 26. Whenever herein an appropriation is made for support it shall include salaries and all other proper expenses, including repairs and equipment, incurred in connection with the institution, department, board, bureau, commission, officer, employee, or other agency, for which such appropriation is made.

Whenever herein an appropriation is made for capital outlay, it shall include acquisition of land or other real property, major construction, improvements, equipment, designs, working plans, specifications, repairs and equipment necessary in connection with a construction or improvement project.

Whenever herein any item of appropriation contains provisions for acquisition of land or other real property, it shall include all necessary expenses in connection with the acquisition of such property.

Whenever herein an appropriation is made in accordance with a schedule set forth after such appropriation, the expenditures from such item for each category or project included in the schedule shall be limited to the amount specified for such category or project, except as otherwise provided in this act. Each such schedule is a

restriction or limitation upon the expenditure of the respective appropriation made by this act, does not itself appropriate any money, and is not itself an item of appropriation.

As used in this act in reference to such schedules "category" or "project" means a class of expenditures such as, but not limited to:

(a) "Personal services" which shall include all expenditures for payment of officers and employees of the state; including salaries and wages, workmen's compensation, unemployment compensation benefits, insurance premiums for workmen's compensation coverage, industrial disability leave and payments, the state's contributions to the Public Employees' Retirement Fund, the Teachers' Retirement Fund, the University of California Retirement Fund to provide for that portion of retirement costs to be provided for Hastings College of Law in Item 344 of this Budget Act, the Old Age and Survivors' Insurance Revolving Fund, the State Employees' Contingency Reserve Fund, and the state's cost of health benefits plans; but do not include compensation of independent contractors rendering personal services to the state under contract;

(b) "Operating expenses and equipment" which shall include all expenditures for purchase of materials, supplies, equipment, services (other than services of state officers and employees), and all other proper expenses;

(c) "Construct" or "construction" when used in connection with a capital outlay project shall include all such related things as fixtures, installed equipment, and auxiliary facilities;

(d) "Working drawings" are defined as a complete set of plans and specifications showing and describing all phases of a project, architectural, structural, mechanical, electrical, civil engineering, and landscaping systems to the degree necessary for the purposes of accurate bidding by contractors and for the use of artisans in constructing the project. All necessary professional fees and administrative service costs are included in the preparation of such drawings.

(e) "Minor projects" include construction, improvements, repairs and equipment projects not specifically set forth in the schedule.

For the purpose of further interpreting the meaning of the words, terms and phrases used in such schedules, reference is hereby made to those documents entitled, "State of California Governor's Budget for 1975–76," submitted by the Governor to the Legislature at the 1975–76 Regular Session, the uniform accounting system prescribed by the Department of Finance under the provisions of Section 13300 of the Government Code, and the appropriate portions thereof. The State Board of Control shall establish such interpretations as are necessary to carry out the provisions of this section and shall furnish the same to the State Controller and to every state agency to whom appropriations are made under this act.

SEC. 26.5. Whenever herein an appropriation is made for support or other expenses for an institution, department, board, bureau, commission, officer, employee, or other agency, there shall be charged to such appropriation from which salaries and wages are

paid: workmen's compensation, the state's contribution to the Public Employees' Retirement Fund as provided by Sections 20751 and 20752 of the Government Code, the state's contribution to the Teachers' Retirement Fund as provided by Sections 14050 and 14100 of the Education Code, the state's contribution to the Old Age and Survivors' Insurance Revolving Fund as provided by Sections 20782 and 20783 of the Government Code, the state's contribution to the State Employees' Contingency Reserve Fund and the state's contribution for the cost of health benefits plans as provided by Sections 22828 and 22829 of the Government Code.

As of the effective date of this act, the state's contributions as provided by Sections 22828 and 22829 of the Government Code for any month shall be charged to the same appropriations used for payment of salaries and wages from which the employee premium contributions for such month are deducted.

The appropriations made by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, by Sections 14050 and 14100 of the Education Code, shall continue to be available for expenditure, and shall be charged for any expenditure which is not chargeable to an appropriation for support or other expenses as provided in this section. This transfer may be chargeable to such appropriation for a previous fiscal year if there are no funds available from that fiscal year.

The State Controller may transfer to the State Payroll Revolving Fund the contributions required by Sections 20751, 20752, 20782, 20783, 22828, and 22829 of the Government Code, and upon certification by the Board of Administration of the Public Employees' Retirement System in accordance with Sections 20754 and 20784 of the Government Code, may transfer from the State Payroll Revolving Fund to the Public Employees' Retirement Fund and the Old Age and Survivors' Insurance Revolving Fund the amounts of contributions so certified.

SEC. 26.7. Each item appropriating funds for salaries and wages includes the additional funds necessary to continue the payment of the amount of salaries in effect on June 30, 1975, for state officers whose salaries are specified by statute.

SEC. 27. The Department of Finance may, pursuant to a request by the officer, department, division, bureau, board, commission, or other agency to whom an appropriation is made herein, authorize the augmentation of the amount available for expenditure for a category or project designated in any schedule set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule. The Department of Finance shall furnish the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee a report on all authorizations given pursuant to this section during the preceding quarter.

Augmentations of amounts available for expenditure for a category or project designated in any line of any schedule for personal services

or operating expenses and equipment set forth for such appropriation by transfer from any of the other designated categories or projects within the same schedule shall not exceed, during any fiscal year, 20 percent of the amount so scheduled on that line.

SEC. 28. The Director of Finance may authorize the augmentation of the amount available for expenditure for any category in the schedule set forth for any appropriation in this act or any additional category in the amount of any funds which he estimates will be received by an officer, department, division, bureau, or other agency during the 1975–76 fiscal year from any other state agency, from any agency of local government or the federal government, from any appropriation made by the Legislature or from any other source which he determines has not been taken into consideration in said schedule, or is in excess of the amount so taken into consideration, except that the director may authorize expenditures for a new program not identified in the budget as such or for purposes which in his judgment constitute an increase in the level of services above that authorized by the Budget Act or other existing law not sooner than 30 days after notification in writing of the necessity therefor to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine.

The Director of Finance may also reduce any category whenever he determines that funds to be received will be less than the amount taken into consideration in the schedule.

SEC. 28.1. The Regents of the University of California and the Trustees of the California State University and Colleges may not enter into a lease-purchase agreement with another entity, public or private, which involves building space, unless such agreement is reviewed and approved by the Legislature.

SEC. 28.2. The Director of General Services may not execute a lease agreement between the state and another entity, public or private, in which the state is lessee when the agreement is to be for the lease of a building or building space or both which will be for the occupancy of any agency or agencies of the state with a firm lease period of five years or longer and an annual rental in excess of $5,000 or if the agreement contains an option for the purchase of the lease property, unless not less than 30 days prior to its execution he notifies the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee or his designee in writing of his intention to execute such an agreement, or not sooner than such lesser time as the chairman of said committee, or his designee, may in each instance determine, provided that no funds appropriated in this act may be encumbered or expended for any lease entered into on or after July 1, 1975, for office space in the County of Sacramento unless the lease terms contain a provision that such lease may at the option of the state be canceled without penalty in the event the state builds or has built

state office buildings in the City of Sacramento into which the state agency under the lease may be directed by the state to occupy, except that provisions to pay a lessor for the unamortized capital improvements put in at the state's request shall not be considered a penalty for purposes of this section.

SEC. 28.3. The Department of Benefit Payments shall submit, by September 1, November 15, and April 15, to the Department of Finance for its approval, all assumptions underlying all estimates related to the (1) average monthly caseloads for each of the categorical aid programs, (2) average grant for each of the categorical aid programs, (3) total estimated expenditures for each of the categorical aid programs, and (4) savings or costs associated with all regulatory or statutory changes.

The State Department of Health shall submit, by September 1, December 1, and April 15, to the Department of Finance for its approval, all assumptions underlying all estimates related to (1) the average monthly caseload for the medically needy and medical indigent in the Medi-Cal Program, (2) the average cost for each category of service and each category of recipient, (3) total estimated expenditures for each category of service, and (4) savings or costs associated with all regulatory or statutory changes.

The Department of Finance shall approve or modify the assumptions underlying all estimates by September 15, December 1, and May 1. Failure on the part of the Department of Finance to approve or modify the assumptions by such date shall constitute acceptance by the Department of Finance of the assumptions as presented by the submitting department.

The estimates of average monthly caseload, average monthly grant, average cost of medical services, total estimated expenditures (including administrative expenditures and savings or costs associated with all regulatory or statutory changes), and a listing of all of the approved assumptions, as well as all supporting data provided by the Department of Benefit Payments and the State Department of Health or developed independently by the Department of Finance, shall be made available to the Joint Legislative Budget Committee immediately following approval by the Department of Finance. However, such departmental estimates, assumptions, and other supporting data as have been prepared shall be forwarded to the Joint Legislative Budget Committee not later than October 1, January 1, and May 15 by the Department of Benefit Payments in the event this information has not been released earlier.

SEC. 28.4. No funds appropriated by this act shall be encumbered or expended for the purpose of funding any increased local governmental costs arising from the issuance of an executive order subject to the provisions of Section 2231 of the Revenue and Taxation Code, unless notification in writing of the necessity therefor is given at least 30 days before such encumbrance or expenditure is made to the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Commit-

tee or such lesser time as the chairman of said committee, or his designee, may in each instance determine.

SEC. 28.5. Approvals by the Department of Finance to the creation of deficiencies pursuant to Section 11006 of the Government Code and approvals to expend at rates which, in the opinion of the Director of Finance, will require a deficiency appropriation shall be made in writing and filed with the chairman of the committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee. Such notices shall state the reason for and amount of such authorization and shall be filed prior to approval whenever possible and in no case shall they be filed more than 10 days after approval.

SEC. 28.6. The Director of Parks and Recreation may not negotiate or advertise any concession contract or operating lease or nongovernmental agreement which involves a total investment for any private party in excess of $100,000 or involves projected concessionaire gross receipts in excess of $100,000 on an annual basis under the terms of the proposed agreement unless not less than 30 days prior to such advertising date, the Director of Finance notifies the Chairman of the Joint Legislative Budget Committee or his designee in writing of his intention to initiate advertising for such concession contract or agreement, or not sooner than such lesser time as the chairman of such committee or his designee, may in each instance determine; provided, that the notification shall include a finding by the Director of Parks and Recreation and the Director of Finance that the concession contract or agreement cannot reasonably be presented to the Legislature through the annual budgeting process.

In addition, none of the access, picnic, restroom, or camping facilities constructed with funds appropriated by this act shall be operated pursuant to any new or existing concession agreement unless the justification for the appropriation presented to the Legislature has included such concession operation.

SEC. 28.7. The Regents of the University of California shall not undertake any project funded from the Health Sciences Hospital Reserve Fund, which is in excess of $100,000, unless the scope and cost of any such project is approved by the Director of Finance and 30 days written notification is provided to the Chairman of the Joint Legislative Budget Committee or his designee. Any project funded from the Health Sciences Hospital Reserve Fund, of less than $100,000, shall be reported to the Chairman of the Joint Legislative Budget Committee by December 1 of each fiscal year. For purposes of this section the definition of a project does not include equipment projects. Any urgent project concerned with patient life or safety may proceed without prior approval or notification but such project shall be identified in the report provided each December 1.

SEC. 28.8. Notwithstanding any provisions of law to the contrary, including Sections 27 and 28 of this act, no funds allocated by this act or derived from any other source may be used to fund the center for the study and reduction of violence at the

Neuropsychiatric Institute or any similar research program at any state entity, without prior approval of the Legislature.

SEC. 28.9. Since it is the intent of the Legislature in enacting this budget that no qualified student be denied admission to the California State University and Colleges or to the University of California because of a budget deficiency caused by unanticipated additional enrollments, the Director of Finance may, following the adoption of a resolution by the Trustees of the California State University and Colleges or the Regents of the University of California declaring an enrollment emergency, authorize the accelerated expenditure of amounts budgeted for the state colleges or the university, in the form of an agreement to seek a supplementary appropriation from the General Fund to the extent necessary to insure that all qualified students can be admitted when he certifies that the systemwide enrollment of the California State University and Colleges or of the University of California exceeds by 2 percent or more the enrollment upon which the budget for the state university and colleges or the university was based; provided, that no increased expenditure may exceed $5 million in the aggregate or be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairman of committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of such committee, or his designee, may in each instance determine.

In the event that the systemwide enrollment of the California State University and Colleges or University of California is under the budgeted enrollment by more than 2 percent, such excess shall be unallotted by the Director of Finance. Unallocated funds may be reallocated to preclude layoffs only after the Director of Finance has approved such action and should not be authorized sooner than 30 days after notification in writing of the necessity therefor to the chairman of committee in each house which considers appropriations and the Chairman of the Joint Legislative Budget Committee, or not sooner than such lesser time as the chairman of such committee, or his designee, may in each instance determine.

In the further event that any campus of the California State University and Colleges is projected to have a reduction of instructional faculty positions in the 1975–76 fiscal year of more than 2 percent of the positions that existed during the 1974–75 fiscal year, a sum not to exceed $1,000,000 shall be reapportioned from the unexpended balance of the appropriation made in Item 359, Budget Act of 1974, in order to limit the reduction of instructional faculty positions to a maximum of 2 percent. The Director of Finance, or his authorized designee, shall notify the Chairman of the Joint Legislative Budget Committee and the chairman of the committee of each house which considers appropriations, of any action taken pursuant to this section, within 30 days of such action.

SEC. 28.10. All appropriations for the support of the California State University and Colleges shall be subject to the provisions of

Section 13320 of the Government Code and applicable Budget Act restrictions with the following exceptions:

(a) The trustees may transfer excess salary saving funds from the salary savings reserve allotments to expenditure allotments provided such transfers do not exceed 20 percent of salary saving. Excess salary savings funds are those in excess of the amount budgeted.

(b) The trustees may approve transfer of funds between one or more of the programs for which funds are appropriated for the support of the California State University and Colleges.

Any transfer of funds made under the above exceptions shall be reported to the Department of Finance and Joint Legislative Budget Committee within 30 days after the end of each quarter in which such transfer was approved.

SEC 29. Premiums for official bonds may be paid out of appropriations contained in this act, notwithstanding the period covered by such bonds.

SEC. 30. Whenever an expenditure is authorized from the Emergency Fund, from price increase funds, from total equivalent compensation funds, from the salary increase funds, or from a special fund pursuant to Section 11006 of the Government Code, in addition to an appropriation made by this act, such authorized expenditures may, for accounting purposes, be deemed to be an augmentation and increase of the appropriation made by this act.

SEC. 31. The appropriations under this act, unless otherwise provided, shall be subject to the provisions of Section 13320 of the Government Code requiring expenditures to be made in accordance with the allotments and other provisions of fiscal year budgets approved by the Department of Finance.

The fiscal year budget shall authorize in such manner as the Department of Finance shall prescribe all established positions whose continuance for the year is approved and all new positions. No new position shall be established unless authorized by the Department of Finance on the basis of work program and organization.

The Director of Finance, or his authorized designee, shall notify the Chairman of the Joint Legislative Budget Committee within 30 days of authorizing any position not authorized for that fiscal year by the Legislature or any reclassification to a position with a minimum step of $1,000 or more per month. He shall also report all transfers to blanket authorizations and the establishment of any permanent position out of a blanket authorization.

All positions administratively established pursuant to this section during the 1975–76 fiscal year shall terminate on June 30, 1976, except that those positions which have been (a) included in the 1976–77 Governor's Budget as proposed new positions, or (b) approved by the Department of Finance and reported to the Legislature after the 1976–77 Governor's Budget submission to the Legislature, may be reestablished by the Department of Finance during the 1976–77 fiscal year, provided such positions are shown in the 1977–78 proposed Governor's Budget submitted to the Legislature, or in subsequent

Department of Finance letters to the Legislature, and provided, such positions do not result in establishment of positions deleted by the Legislature through the 1976–77 budget process.

Each fiscal year budget shall provide for a salary savings reserve to which shall be transferred on a document initiated by the agency and submitted to the Department of Finance the unencumbered balance remaining in each allotment for salaries and wages at the close of each quarter or other period of time covered by the allotment. The unencumbered balance remaining in each budget allotment for salaries and wages shall be computed by deducting from the amount of the allotment the expenditures and accrued obligations for salaries and wages chargeable to such allotment for the period covered thereby. The amount in the salary savings reserve shall not be available for expenditure except upon transfer to allotments for salaries and wages approved by the Department of Finance. Such transfer shall be approved only after it has been demonstrated to the satisfaction of the Department of Finance that the allotment to be augmented is insufficient to meet necessary expenditures for salaries and wages.

No money in any salary savings reserve may be expended to pay increases in salary ranges established after July 1, 1974, unless the Department of Finance certifies to the State Personnel Board, or other salary-fixing authority, prior to the adoption of such increased salary range that funds will be made available to pay the increased salaries resulting therefrom. Provided, that the provisions of this paragraph shall not apply to salaries fixed by the State Personnel Board based on prevailing rates pursuant to Government Code Section 18853.

A certification on a payroll claim that expenditures therein are in accordance with current budgetary provisions as approved by the Department of Finance shall be sufficient evidence to the State Controller that such expenditures comply with the provisions of this section.

Each agency, department, board, commission, and institution, for whose benefit and support appropriations are made in this act, shall certify to the Director of Finance that its expenditures have been made for the purposes stated in the budget, as implemented by the Budget Act, except as the purposes stated have been revised, in accordance with law, by the Department of Finance subsequent to the enactment of the Budget Act.

SEC. 32. The officers of the various departments, boards, commissions and institutions, for whose benefit and support appropriations are made in this act, are expressly forbidden to make any expenditures in excess of such appropriations, except the consent of the Department of Finance be first obtained, and a certificate, in writing, duly signed by the director of said department, of the unavoidable necessity of such expenditure; and any indebtedness attempted to be created against the state in violation of the provisions of this section shall be absolutely null and void; and shall not be

allowed by the State Controller nor paid out of any state appropriation. The Department of Finance shall submit copies of certificates approved by it under this section to the Chairman of the Joint Legislative Budget Committee, and the chairman of the committee in each house which considers appropriations, quarterly, and shall indicate in the case of each certificate the code section or section of this act under which the department gave its consent to exceed the particular appropriation.

SEC. 32.5. Notwithstanding the provisions of any appropriation of state funds made in the Welfare and Institutions Code for the Aid to Families with Dependent Children Programs or the Aid to the Potentially Self-Supporting Blind Program, expenditures of state funds for those programs for the fiscal year ending June 30, 1976, shall not exceed, in the aggregate, the sum of $504,350,500.

The Department of Benefit Payments shall administer the public assistance programs so that the counties will bear no more than the amount of welfare costs that they would be obligated to bear under the applicable provisions of the Welfare and Institutions Code, without the expenditure limitations set forth herein, and so that the amount authorized to be expended under this section shall fully cover the state's share of aid payments and for services under such programs for the 1975-76 fiscal year.

The limitations on amounts imposed by this section shall apply to any amounts which are determined by the Director of Finance to be necessary to meet increases in cost arising out of approvals made by the Department of Finance pursuant to the provisions contained in Item 287, provided the Legislature is notified pursuant to the provi-

sions of Section 28 of the Budget Act of 1975.

Provided further, that the Director of Finance is authorized to approve expenditures in those amounts made necessary by changes in either caseload or payments, or any change in rule or regulation adopted during the current fiscal year which are in excess of Budget Bill estimates for 1975–76.

Further provided, that any increase related to changes in a rule or regulation shall be limited to the minimum amount needed to reimburse counties for increased costs due to such changes when such regulation changes have been approved in advance by the Department of Finance.

If the Director of Finance determines during the third quarter that the estimate of expenditures will exceed the authorized expenditure in this section, he shall so report to the Legislature prior to the end of the third quarter. At such time as a report is made, the amount of the limitation shall be increased by the amount of such excess unless and until otherwise provided by law.

SEC. 32.9. The department shall provide reasonable demonstration of such consolidated procurement to the Public Works Board and the Office of Procurement of the Department of General Services before the board and office authorize an expenditure or approve procurement.

SEC. 33. If any item of appropriation in this act is vetoed, eliminated, or reduced by the Governor under Section 10 of Article IV of the Constitution, while approving portions of this act, such veto, elimination, or reduction shall not affect the other portions of this act, and these other portions of this act, so approved, shall have the same effect in law as if any vetoed or eliminated items of appropriation had not been present in this act, and as if any reduced item of appropriation had not been reduced.

SEC. 34. If any portion of this act is held unconstitutional, such decision shall not affect the validity of any other portion of this act. The Legislature hereby declares that it would have passed this act, and each portion thereof, irrespective of the fact that any other portion be declared unconstitutional.

SEC. 34.5. This act, inasmuch as it provides for an appropriation for the usual current expenses of the state, shall, under the provisions of Section 8 of Article IV of the Constitution of the State of California, take effect immediately.

Sec. 13. The State Lands Commission shall, on or before December 31st of each year, report to the Chief Clerk of the Assembly and to the Secretary of the Senate, the full details of any transaction or conditions reported to the commission pursuant to this act which it deems in probable conflict with the requirements of this act, or with any other provision of law.

SEC. 13. Section 14 is added to Chapter 78 of the Statutes of 1925, to read:

Sec. 14. The Attorney General, on request by resolution of either house of the Legislature, or upon formal request of the State Lands Commission made only after a noticed public hearing at which the grantee has been given an opportunity to fully express any disagreement with the commission's findings or to describe any extenuating circumstances causing the violation, shall bring an action in the superior court in the County of Santa Barbara to compel compliance with the terms and conditions of the grant and any other

provision of law including, but not limited to, this act.

SEC. 14. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of the city for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 15. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is intended that Stearn's Wharf, a wharf located on certain of the tide and submerged lands granted to the City of Santa Barbara, be rehabilitated and redeveloped so that the general public may be better served. In order to accomplish such rehabilitation and redevelopment, it will be necessary for the city to grant a franchise or to enter into a lease for a term longer than the 25-year limitation presently contained in the tide and submerged lands grant. It is essential that such a franchise or lease be executed as soon as possible so that the rehabilitation and redevelopment of the wharf can proceed and revenue can be generated for the benefit of the city. Thus, it is necessary that this act take immediate effect.

CHAPTER 194

An act to amend Sections 11580.1 and 11580.2 of the Insurance Code, relating to automobile insurance.

[Approved by Governor July 3, 1975 Filed with Secretary of State July 5, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 11580.1 of the Insurance Code is amended to read:

11580.1. (a) No policy of automobile liability insurance described in Section 16054 of the Vehicle Code covering liability arising out of the ownership, maintenance, or use of any motor vehicle shall be issued or delivered in this state on or after the effective date of this section unless it contains the provisions set forth in subdivision (b). However, none of the requirements of subdivision (b) shall apply to the insurance afforded under any such policy (1) to the extent that such insurance exceeds the limits specified in subdivision (a) of Section 16056 of the Vehicle Code, or (2) if such policy contains an underlying insurance requirement, or provides for a retained limit of self-insurance, equal to or greater than the limits specified in subdivision (a) of Section 16056 of the Vehicle Code.

(b) Every policy of automobile liability insurance to which subdivision (a) applies shall contain all of the following provisions:

(1) Coverage limits not less than the limits specified in subdivision (a) of Section 16056 of the Vehicle Code.

(2) Designation by explicit description of, or appropriate reference to, the motor vehicles or class of motor vehicles to which coverage is specifically granted.

(3) Designation by explicit description of the purposes for which coverage for such motor vehicles is specifically excluded.

(4) Provision affording insurance to the named insured with respect to any motor vehicle covered by such policy, and to the same extent that insurance is afforded to the named insured, to any other person using, or legally responsible for the use of, such motor vehicle, provided such use is by the named insured or with his permission, express or implied, and within the scope of such permission, except that: (i) with regard to insurance afforded for the loading or unloading of any such motor vehicle, the insurance may be limited to apply only to the named insured, a relative of the named insured who is a resident of the named insured's household, a lessee or bailee of the motor vehicle, or an employee of any such person; and (ii) the insurance afforded to any person other than the named insured need not apply to: (A) any employee with respect to bodily injury sustained by a fellow employee injured in the scope and course of his employment, or (B) any person, or to any agent or employee thereof, employed or otherwise engaged in the business of selling, repairing, servicing, delivering, testing, road testing, parking, or storing automobiles with respect to any accident arising out of the maintenance or use of a motor vehicle in connection therewith.

(c) In addition to any exclusion as provided in paragraph (3) of subdivision (b), the insurance afforded by any such policy of automobile liability insurance to which subdivision (a) applies may, by appropriate policy provision, be made inapplicable to any or all of the following:

(1) Liability assumed by the insured under contract.

(2) Liability for bodily injury or property damage caused intentionally by or at the direction of the insured.

(3) Liability imposed upon or assumed by the insured under any workers' compensation law.

(4) Liability for bodily injury to any employee of the insured arising out of and in the course of his employment.

(5) Liability for bodily injury to an insured.

(6) Liability for damage to property owned, rented to, transported by, or in charge of, an insured.

(7) Liability for any bodily injury or property damage with respect to which insurance is or can be afforded under a nuclear energy liability policy.

(8) Any motor vehicle or class of motor vehicles, as described or designated in the policy, with respect to which coverage is explicitly excluded, in whole or in part.

The term "the insured" as used in paragraphs (1), (2), (3), and (4) of this subdivision shall mean only that insured under the policy

against whom the particular claim is made or suit brought. The term "an insured" as used in paragraphs (5) and (6) of this subdivision shall mean any insured under the policy.

(d) Notwithstanding the provisions of paragraph (4) of subdivision (b), or the provisions of Article 2 (commencing with Section 16450) of Chapter 3 of Division 7, or Article 2 (commencing with Section 17150) of Chapter 1 of Division 9, of the Vehicle Code, the insurer and any named insured may, by the terms of any policy of automobile liability insurance to which subdivision (a) applies, or by a separate writing relating thereto, agree as to either or both of the following limitations, such agreement to be binding upon every insured to whom such policy applies and upon every third party claimant:

(1) That coverage under such policy shall not apply nor accrue to the benefit of any insured or any third party claimant while any insured motor vehicle is being used or operated by a natural person or persons designated by name. Such agreement shall remain in force as long as the policy remains in force, and shall apply to any continuation, renewal, or replacement of such policy by the named insured, or reinstatement of such policy within 30 days of any lapse thereof.

(2) That with regard to any such policy issued to a named insured engaged in the business of selling, repairing, servicing, delivering, testing, road testing, parking, or storing automobiles, coverage shall not apply to any person other than the named insured or his agent or employee, except to the extent that the limits of liability of any other valid and collectible insurance available to such person are not equal to the limits of liability specified in subdivision (a) of Section 16056 of the Vehicle Code.

(e) Nothing in this section or in Section 16054 or 16450 of the Vehicle Code shall be construed to constitute a homeowner's policy, personal and residence liability policy, personal and farm liability policy, general liability policy, comprehensive personal liability policy, manufacturers' and contractors' policy, premises liability policy, special multiperil policy, or any policy or endorsement where automobile liability coverage is offered as incidental to some other basic coverage as an "automobile liability policy" within the meaning of Section 16054 of the Vehicle Code, or as a "motor vehicle liability policy" within the meaning of Section 16450 of the Vehicle Code, notwithstanding that any such policy may provide automobile or motor vehicle liability coverage on insured premises or the ways immediately adjoining.

(f) On and after January 1, 1976, no policy of automobile liability insurance described in subdivision (a) shall be issued, amended, or renewed in this state if it contains any provision which expressly or impliedly excludes from coverage under such policy the operation or use of an insured motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing transportation to

senior citizens or physically or mentally handicapped persons. This subdivision shall not apply in any case in which the named insured receives any remuneration of any kind other than reimbursement for actual mileage driven in the performance of such services at a rate not to exceed fifteen cents ($0.15) per mile actually driven. As used in this section, "senior citizen" means a person 60 years of age or older.

SEC 2. Section 11580.2 of the Insurance Code is amended to read:

11580.2. (a) (1) No policy of bodily injury liability insurance covering liability arising out of the ownership, maintenance, or use of any motor vehicle, shall be issued or delivered in this state to the owner or operator of a motor vehicle, or shall be issued or delivered by any insurer licensed in this state upon any motor vehicle then principally used or principally garaged in this state, unless the policy contains, or has added to it by endorsement, a provision with coverage limits at least equal to the financial responsibility requirements specified in Section 16056 of the Vehicle Code insuring the insured, his heirs or his legal representative for all sums within such limits which he or they, as the case may be, shall be legally entitled to recover as damages for bodily injury or wrongful death from the owner or operator of an uninsured motor vehicle. The insurer and any named insured, prior to or subsequent to the issuance or renewal of a policy, may, by agreement in writing, in the form specified in paragraph (2), delete the provision covering damage caused by an uninsured motor vehicle (1) completely, or (2) with respect to a natural person or persons designated by name when operating a motor vehicle. Either of such deletions by any named insured shall be binding upon every insured to whom such policy or endorsement provisions apply while such policy is in force, and shall continue to be so binding with respect to any continuation, renewal, or replacement of such policy by the named insured, or with respect to reinstatement of such policy within 30 days of any lapse thereof. A policy shall be excluded from the application of this section if the only coverage with respect to the use of any motor vehicle is limited to the contingent liability arising out of the use of nonowned motor vehicles.

(2) The agreement specified in paragraph (1) shall be in the following form:

"The California Insurance Code requires an insurer to provide uninsured motorists coverage in each bodily injury liability insurance policy it issues covering liability arising out of the ownership, maintenance, or use of a motor vehicle. Such section also permits the insurer and the applicant to delete such coverage completely or with respect to one or more natural persons designated by name when operating a motor vehicle. Uninsured motorists coverage insures the insured, his heirs, or legal representatives for all sums within the financial responsibility limits which such person or persons are legally entitled to recover as damages for bodily injury, including any

resulting sickness, disease, or death, to him from the owner or operator of an uninsured motor vehicle not owned or operated by the insured."

Such agreement may contain additional statements not in derogation of or conflict with the foregoing. The execution of such agreement shall relieve the insurer of liability under this section while such agreement remains in effect.

(b) As used in (a) above, "bodily injury" includes sickness or disease, including death, resulting therefrom; the term "named insured" means only the individual or organization named in the declarations of the policy of motor vehicle bodily injury liability insurance referred to in (a) above; as used in (a) above the term "insured" means the named insured and the spouse of the named insured and relatives of either while residents of the same household while occupants of a motor vehicle or otherwise, heirs and any other person while in or upon or entering into or alighting from an insured motor vehicle and any person with respect to damages he is entitled to recover for care or loss of services because of bodily injury to which the policy provisions or endorsement apply; the term "insured motor vehicle" means the motor vehicle described in the underlying insurance policy of which the uninsured motorist endorsement or coverage is a part, a temporary substitute or a newly acquired automobile for which liability coverage is provided in the policy if the motor vehicle is used by the named insured or with his permission or consent, express or implied, and any other automobile not owned by the named insured or any resident of the same household while being operated by the named insured or his spouse if a resident of the same household, but the term "insured motor vehicle" shall not include any automobile while used as a public or livery conveyance. The term "uninsured motor vehicle" means a motor vehicle with respect to the ownership, maintenance or use of which there is no bodily injury liability insurance or bond applicable at the time of the accident, or there is such applicable insurance or bond but the company writing the same denies coverage thereunder or refuses to admit coverage thereunder except conditionally or with reservation, or a motor vehicle used without the permission of the owner thereof if there is no bodily injury liability insurance or bond applicable at the time of the accident with respect to the owner or operator thereof, or the owner or operator thereof be unknown, provided that, with respect to an "uninsured motor vehicle" whose owner or operator is unknown:

(1) The bodily injury has arisen out of physical contact of such automobile with the insured or with an automobile which the insured is occupying.

(2) The insured or someone on his behalf shall have reported the accident within 24 hours to the police department of the city where the accident occurred or, if the accident occurred in unincorporated territory then either to the sheriff of the county where the accident occurred or the local headquarters of the California Highway Patrol,

and have filed with the insurer within 30 days thereafter a statement under oath that the insured or his legal representative has or the insured's heirs have a cause of action arising out of such accident for damages against a person or persons whose identity is unascertainable and set forth facts in support thereof. The term "uninsured motor vehicle" shall not include an automobile owned by the named insured or any resident of the same household or self-insured within the meaning of the safety responsibility law of the state in which the motor vehicle is registered or which is owned by the United States of America, Canada, a state or political subdivision of any such government or an agency of any of the foregoing, or a land motor vehicle or trailer operated on rails or crawler treads or while located for use as a residence or premises and not as a vehicle, or a farm-type tractor or equipment designed for use principally off public roads, except while actually upon public roads.

The term "uninsured motor vehicle" also means an insured motor vehicle where the liability insurer thereof is unable to make payment with respect to the legal liability of its insured within the limits specified therein because of insolvency. An insurer's solvency protection shall be applicable only to accidents occurring during a policy period in which its insured's motor vehicle coverage is in effect where the liability insurer of the tortfeasor becomes insolvent within one year of such accident. In the event of payment to any person under the coverage required by this section and subject to the terms and conditions of such coverage, the insurer making such payment, shall to the extent thereof, be entitled to any proceeds which may be recoverable from the assets of the insolvent insurer through any settlement or judgment of such person against the insolvent insurer.

(c) The insurance coverage provided for in this section does not apply:

(1) To property damage sustained by the insured.

(2) To bodily injury of the insured while in or upon or while entering into or alighting from an automobile other than the described automobile if the owner thereof has insurance similar to that provided in this section.

(3) To bodily injury of the insured with respect to which the insured or his representative shall, without the written consent of the insurer, make any settlement with or prosecute to judgment any action against any person who may be legally liable therefor.

(4) In any instance where it would inure directly or indirectly to the benefit of any workers' compensation carrier or to any person qualified as a self-insurer under any workers' compensation law, or directly to the benefit of the United States, or any state or any political subdivision thereof.

(5) To establish proof of financial responsibility as provided in subdivisions (a), (b), and (c) of Section 16054 of the Vehicle Code.

(6) To bodily injury of the insured while occupying a motor vehicle owned by an insured, unless the occupied vehicle is an

insured motor vehicle.

(7) To bodily injury of the insured when struck by a vehicle owned by an insured.

(d) Subject to paragraph (c) (2), the policy or endorsement may provide that if the insured has insurance available to him under more than one uninsured motorist coverage provision, any damages shall not be deemed to exceed the higher of the applicable limits of the respective coverages, and such damages shall be prorated between the applicable coverages as the limits of each coverage bears to the total of such limits.

(e) The policy or endorsement added thereto may provide that if the insured has valid and collectible automobile medical payment insurance available to him, the damages which he shall be entitled to recover from the owner or operator of an uninsured motor vehicle shall be reduced for purposes of uninsured motorist coverage by the amounts paid or due to be paid under such automobile medical payment insurance. This subdivision shall become operative on January 1, 1971.

(f) The policy or an endorsement added thereto shall provide that the determination as to whether the insured shall be legally entitled to recover damages, and if so entitled, the amount thereof, shall be made by agreement between the insured and the insurer or, in the event of disagreement, by arbitration. The arbitration shall be conducted by a single neutral arbitrator. An award or a judgment confirming an award shall not be conclusive on any party in any action or proceeding between (i) the insured, his insurer, his legal representative, or his heirs and (ii) the uninsured motorist to recover damages arising out of the accident upon which the award is based. If the insured has or may have rights to benefits, other than nonoccupational disability benefits, under any workmen's compensation law, the arbitrator shall not proceed with the arbitration until the insured's physical condition is stationary and ratable. In those cases in which the insured claims a permanent disability, such claims shall, unless good cause be shown, be adjudicated by award or settled by compromise and release before the arbitration may proceed. Any demand or petition for arbitration shall contain a declaration, under penalty of perjury, stating whether (i) the insured has a workmen's compensation claim; (ii) such claim has proceeded to findings and award or settlement on all issues reasonably contemplated to be determined in that claim; and (iii) if not, what reasons amounting to good cause are grounds for the arbitration to proceed immediately. The provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of Part 4 of the Code of Civil Procedure shall be applicable to such determinations, and all rights, remedies, obligations, liabilities and procedures set forth in such Article 3 shall be available to both the insured and the insurer at any time after the accident, both before and after the commencement of arbitration, if any, with the following limitations:

(1) Whenever in such Article 3, reference is made to the court in which the action is pending, or provision is made for application to the court or obtaining leave of court or approval by the court, the court which shall have jurisdiction for the purposes of this section shall be the superior court of the State of California, in and for any county which is a proper county for the filing of a suit for bodily injury arising out of the accident, against the uninsured motorist, or any county specified in the policy or an endorsement added thereto as a proper county for arbitration or action thereon.

(2) Any such proper court to which application is first made by either the insured or the insurer under the provisions of such Article 3 for any discovery or other relief or remedy, shall thereafter be the only court to which either of the parties shall make any applications under such Article 3 with respect to the same accident, subject, however, to the right of such court to grant a change of venue after a hearing upon notice, upon any of the grounds upon which change of venue might be granted in an action filed in the superior court.

(3) A deposition pursuant to the provisions of Section 2016 of the Code of Civil Procedure may be taken without leave of court, except that leave of court, granted with or without notice and for good cause shown, must be obtained if the notice of the taking of the deposition is served by either party within 20 days after the accident.

(4) The provisions of subparagraph (a) (4) of Section 2019 of the Code of Civil Procedure shall not be applicable to discovery under this section.

(5) For the purposes of discovery under this section, the insured and the insurer shall each be deemed to be "a party to the record of any civil action or proceedings," where that phrase is used in subparagraph (b) (2) of Section 2019 of the Code of Civil Procedure.

(6) Interrogatories under the provisions of Section 2030 of the Code of Civil Procedure and requests for admission under Section 2033 of the Code of Civil Procedure may be served by either the insured or the insurer upon the other at any time more than 20 days after the accident without leave of court.

(7) Nothing in this section shall be construed to limit the rights of any party to discovery in any action pending or which may hereafter be pending in any court.

(g) The insurer paying a claim under an uninsured motorist endorsement or coverage shall be entitled to be subrogated to the rights of the insured to whom such claim was paid against any person causing such injury or death to the extent that payment was made. Such action may be brought within three years from the date that payment was made hereunder.

(h) An insured entitled to recovery under the uninsured motorist endorsement or coverage shall be reimbursed within the conditions stated herein without being required to sign any release or waiver or rights to which he may be entitled under any other insurance coverage applicable; nor shall payment under this section to such insured be delayed or made contingent upon the decisions as to

liability or distribution of loss costs under other bodily injury liability insurance or any bond applicable to the accident. Any loss payable under the terms of the uninsured motorist endorsement or coverage to or for any person may be reduced:

(1) By the amount paid and the present value of all amounts payable to him under any workmen's compensation law, exclusive of nonoccupational disability benefits.

(2) By the amount the insured is entitled to recover from any other person insured under the underlying liability insurance policy of which the uninsured motorist endorsement or coverage is a part.

(i) No cause of action shall accrue to the insured under any policy or endorsement provision issued pursuant to this section unless within one year from the date of the accident:

(1) Suit for bodily injury has been filed against the uninsured motorist, in a court of competent jurisdiction, or

(2) Agreement as to the amount due under the policy has been concluded, or

(3) The insured has formally instituted arbitration proceedings

(j) Notwithstanding the provisions of subdivisions (b) and (i), in the event the accident occurs in any other state or foreign jurisdiction to which coverage is extended under the policy and the insurer of the tortfeasor becomes insolvent, any action authorized pursuant to the provisions of this section may be maintained within three months of the insolvency of the tortfeasor's insurer, but in no event later than the pertinent period of limitation of the jurisdiction in which the accident occurred.

(k) Notwithstanding the provisions of subdivision (i), any insurer whose insured has made a claim under his or her uninsured motorist coverage, and such claim is pending, shall, at least 30 days before the expiration of the applicable statute of limitation, notify its insured in writing of the statute of limitation applicable to such injury or death. Failure of the insurer to provide such written notice shall operate to toll any applicable statute of limitation or other time limitation for a period of 30 days from the date such written notice is actually given.

(*l*) As used in subdivision (b), "public or livery conveyance," or terms of similar import, shall not include the operation or use of a motor vehicle by the named insured in the performance of volunteer services for a nonprofit charitable organization or governmental agency by providing transportation to senior citizens or physically or mentally handicapped persons. This subdivision shall not apply in any case in which the named insured receives any remuneration of any kind other than reimbursement for actual mileage driven in the performance of such services at a rate not to exceed fifteen cents ($0.15) per mile actually driven. As used in this section, "senior citizen" means a person 60 years of age or older. This subdivision shall apply only to policies of insurance issued, amended, or renewed on or after January 1, 1976.

CHAPTER 195

An act to amend Section 1093 of the Penal Code, relating to opening statements.

[Approved by Governor July 3, 1975 Filed with Secretary of State July 5, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1093 of the Penal Code is amended to read:

1093. The jury having been impaneled and sworn, unless waived, the trial must proceed in the following order, unless otherwise directed by the court:

1. If the accusatory pleading be for a felony, the clerk must read it, and state the plea of the defendant to the jury, and in cases where it charges a previous conviction, and the defendant has confessed the same, the clerk in reading it shall omit therefrom all that relates to such previous conviction. In all other cases this formality may be dispensed with.

2. The district attorney, or other counsel for the people, may make an opening statement in support of the charge. Whether or not the district attorney, or other counsel for the people, makes an opening statement, the defendant or his counsel may then make an opening statement, or may reserve the making of an opening statement until after introduction of the evidence in support of the charge.

3. The district attorney, or other counsel for the people shall then offer the evidence in support of the charge. The defendant or his counsel may then offer his evidence in support of the defense.

4. The parties may then respectively offer rebutting testimony only, unless the court, for good reason, in furtherance of justice, permit them to offer evidence upon their original case.

5. When the evidence is concluded, unless the case is submitted on either side, or on both sides, without argument, the district attorney, or other counsel for the people, and counsel for the defendant, may argue the case to the court and jury; the district attorney, or other counsel for the people, opening the argument and having the right to close.

6. The judge may then charge the jury, and must do so on any points of law pertinent to the issue, if requested by either party; and he may state the testimony, and may comment on the failure of the defendant to explain or deny by his testimony any evidence or facts in the case against him, whether the defendant testifies or not, and he may make such comment on the evidence and the testimony and credibility of any witness as in his opinion is necessary for the proper determination of the case and he may declare the law. At the beginning of the trial or from time to time during the trial, and without any request from either party, the trial judge may give the jury such instructions on the law applicable to the case as he may

deem necessary for their guidance on hearing the case. The trial judge may cause copies of instructions so given to be delivered to the jurors at the time they are given.

CHAPTER 196

An act to amend Section 2193.77 of the Business and Professions Code, relating to the healing arts, making an appropriation therefor, and declaring the urgency thereof.

[Approved by Governor July 3, 1975 Filed with Secretary of State July 5, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 2193.77 of the Business and Professions Code is amended to read:

2193.77. (a) It is the intention of the Legislature in enacting this section to provide financial assistance to University of California medical schools operating supervised clinical training programs authorized by Section 2193.71. The Legislature further intends to assist in, through this section, the development and operation of at least 30 places in such supervised clinical training programs on a continuing basis. Funds to support such intent may be appropriated by the Legislature in the future as part of the State Budget.

(b) The State Scholarship and Loan Commission shall, from funds appropriated by the Legislature for such purpose, allocate the sum of no more than ten thousand dollars ($10,000) for each United States citizen enrolled in an approved program of supervised clinical training established pursuant to Section 2193.75 to the medical school operating such program.

(c) The State Scholarship and Loan Commission shall make grants to medical schools pursuant to this section based upon information provided by medical schools detailing actual incremental costs of operating supervised clinical training programs. The amount paid per student shall be decreased by the amount of federal funds received for the support of the student and by the amount of tuition and fees paid by the students participating in the program. The commission may require such information from medical schools as is reasonably necessary to carry out the provisions of this section. The commission shall prescribe a standard application form for grants made pursuant to this section, and shall make such application form available to medical schools no later than 30 days after this section takes effect.

(d) The State Scholarship and Loan Commission may make grants pursuant to this section from funds appropriated by Item 330(f) of Chapter 129 of the Statutes of 1973 for use during 1973–74 and 1974–75 fiscal years and from funds appropriated to it for the

purposes of this section.

(e) The State Scholarship and Loan Commission shall maintain statistical records on the expenditures of funds by medical schools for operating supervised clinical training programs, and the numbers of students enrolled in such programs. The commission shall report to the Legislature no later than January 1, 1976, concerning: the numbers of students who have completed or are enrolled in supervised clinical training programs; the medical schools such students attended; the attrition rate of students enrolled in various programs; and recommendations for changes in funding such programs.

SEC. 2. There is hereby appropriated from the General Fund the amount of three hundred thousand dollars ($300,000) to the State Scholarship and Loan Commission for expenditure during the 1975–76 fiscal year for the purposes of this act.

SEC. 3. The provisions of this act shall become operative on July 1, 1975.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into effect on July 1, 1975. The facts constituting such necessity are:

The director shall enforce this section through the Division of Measurement Standards.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the provision of this act to become operative during the forthcoming tomato harvest, it is necessary that this act take effect immediately.

SEC. 3. [Approved by Governor July 3, 1975. Filed with Secretary of State July 5, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 24001 of the Government Code is amended to read:

24001. Except as otherwise provided in Sections 27550.1 and 27641.1 of this code or in this section, or in Sections 21123 or 34711 of the Water Code, a person is not eligible to a county or district office, unless at the time of his election or appointment he is of the age of 18 years or over, a citizen of the state, and an elector of the county or district in which the duties of the office are to be exercised. However, if a duly qualified health officer is not available within a county or district, then it shall not be necessary that any person appointed to any such position be a citizen of the state or an elector of the county or district at the time of his appointment.

The board of supervisors of any county may, if it finds that the best interests of the county will be served, waive the requirement that the

administrative officer be an elector of the county.

The board of supervisors or any other legally constituted appointing authority in a county that is consolidated with a city may, if it finds that the best interests of the county will be served, waive the requirements of this section for an appointment to the office of chief juvenile probation officer or chief adult probation officer that the appointee be a citizen of the state and an elector of the county.

SEC. 2. Section 20524 of the Water Code is amended to read:

20524. "Elective officers" irrespective of the method of selection in any particular instance are:

(a) A director from each division except as otherwise provided in this division.

(b) An assessor, a collector, and a treasurer, except when one or more of such officers are appointed pursuant to Section 21123.

SEC. 3. Section 21123 is added to the Water Code, to read:

21123. A board may, at least 90 days before a general district election, determine that the offices of assessor, collector, or treasurer or any of them shall be filled by appointment by the board rather than being filled by election. Appointments to the positions of assessor, collector, or treasurer shall be made for terms to coincide with the elective term or terms. A person so appointed need not be a resident or elector of the district.

SEC. 4. Section 21124 is added to the Water Code, to read:

21124. A board may, at least 90 days before a general district election, determine that the offices of assessor, collector, or treasurer or any of them that are currently appointive shall be filled by election at the next succeeding district election.

SEC. 5. Section 34019 of the Water Code is amended to read:

34019. "Elective officers," irrespective of the method of selection in any instance, (1) are the members of the board and (2) may be an assessor and a tax collector.

SEC. 6. Section 34166 of the Water Code is amended to read:

34166. (a) If a consolidation of the offices of assessor and tax collector is deemed advisable in the formation of a district, the petitioners may request the consolidation in their petition. The board calling the election shall in its order therefor announce the consolidation, and at the election only one person shall be elected to fill the offices consolidated.

(b) If it is deemed advisable in the formation of a district that the offices of assessor and tax collector shall be filled by appointment, the petitioners may request the appointment of such officers in their petition. In such event, the assessor shall be appointed pursuant to the provisions of Section 34711.

SEC. 7. Section 34711 is added to the Water Code, to read:

34711. The treasurer shall be appointed by the board and serve at its pleasure. At least 90 days before the date of a general district election wherein the offices of assessor and tax collector will be subject to election, the board may determine that these officers shall henceforth be appointed by the board to serve at its pleasure, or, if

a board has adopted the alternative provisions of Part 7.5 (commencing with Section 37200) of this division, it may by resolution eliminate these district offices. A person appointed pursuant to this section need not be a resident or elector of the district. Any person holding an elective office affected by this section may serve the remainder of the current term of office. The offices of treasurer, assessor and tax collector, or any combination thereof, may be held by the same person.

SEC. 8. Section 34712 is added to the Water Code, to read:

34712. At least 90 days before the date of a general district election, the board may determine that the offices of assessor and tax collector, or either of them, which are currently appointive shall be filled by election at the next succeeding district election.

SEC. 9. Section 34725 of the Water Code is amended to read:

34725. The board may consolidate the offices of assessor and tax collector.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many California water districts and irrigation districts use the county auditor, assessor and tax collector for the levying, collecting and enforcement of district assessments. Therefore, the elected assessor and tax collector of such districts do not perform any function. This legislation will permit such districts to eliminate these unnecessary offices of assessor and tax collector, thus saving such districts the expense of these offices and the cost of holding an election therefor. If this legislation is effective prior to the elections to be held in California water districts and irrigation districts on November 4, 1975, some districts may choose to eliminate these offices this year, resulting in saving the taxpayers of such districts substantial costs.

Therefore, for the foregoing reasons it is necessary that the provisions of this act go into immediate effect.

CHAPTER 207

An act relating to data processing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 3, 1975 Filed with Secretary of State July 5, 1975]

SECTION 1. Notwithstanding the provisions of Section 15955.5 of the Education Code, or any other provision of law to the contrary, the office of the Santa Barbara County Superintendent of Schools may conduct a pilot project whereby the governing boards of school districts contract with the office of the Santa Barbara County Superintendent of Schools for contracting with a public or private firm or agency for a term not to exceed seven years, for the provision, to the district, of electromechanical or electronic data processing services and for the management of such services. Such a contract may be entered into with any other school district, any public or private college or university, any public entity, or any private commercial entity.

SEC. 2. The governing board of the office of the Santa Barbara County Superintendent of Schools shall report annually, commencing on June 30, 1977, to the Superintendent of Public Instruction and the Legislative Analyst with respect to the effectiveness and efficiency of the operation as a result of the contract for data processing services and the management thereof, authorized by this act, if such contract is entered into.

SEC. 3. The Legislative Analyst shall conduct a study of the data processing services provided pursuant to this act, comparing the costs of such services provided by private industry with the costs of comparable services rendered by the regional educational data processing center at Ventura. The study shall include an analysis of services provided with respect to the administration and operation of the county system in order that the costs of those services may be determined separate and apart from services provided with respect to the county and district's instructional program. The Legislative Analyst shall, not later than December 31, 1978, submit a report to the Legislature on the results of the study.

SEC. 4. The Legislature finds and declares that a unique situation exists in Santa Barbara County which provides an excellent opportunity to test an alternate method for supplying data processing services to school districts. For this reason, a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the contracts authorized by this act to be entered into before the 1975–76 fiscal year begins, and so effectuate the orderly administration of such contracts, it is necessary that this act take effect immediately.

[Approved by Governor July 4, 1975. Filed with Secretary of State July 5, 1975.]

The people of the State of California do enact as follows:

Notwithstanding any other provision of law, the maximum tax rate of the Orinda Union Elementary School District for the 1975–76 fiscal year is increased by twenty-seven cents ($0.27) per one hundred dollars ($100) of assessed valuation above the rate which would otherwise have been computed for the district pursuant to applicable provisions of law.

SEC. 2. The Legislature finds and declares that because of a clerical error not the fault of the Orinda Union Elementary School District which resulted in the computation of a tax rate lower than authorized by law and in decreased revenues to the district, it is necessary to permit the district to levy the additional tax specified by Section 1 to recoup tax revenues not realized and thereby preserve the financial integrity of the district. Because of this unique occurrence, a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(f) Records, subject to department inspection, shall be kept of hours of didactic training given the student and the number and kind of clinical procedures performed by the student. If the licentiate does not choose to give both clinical and didactic on-the-job training, as prescribed by the department, that portion not given by the licentiate shall be taken in a school approved by the department pursuant to Section 25668.

The department may establish and collect fees in an amount sufficient to defray the cost incurred by the department in administering the program of on-the-job training authorized by this section.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local

government by this act are minor in nature and will not cause any financial burden to local government.

The amount thus determined shall be available to the Department of Parks and Recreation from the Harbors and Watercraft Revolving Fund provided, however, that all fees and other proceeds from the use of boats or boating facilities in state parks and on waters under the control of the state shall be paid into the State Treasury to the credit of the Harbors and Watercraft Revolving Fund.

(e) Entities or agencies desiring aid under the provisions of this section shall submit applications to the department at least six months prior to the period for which aid is required. Applications shall be in such form and contain such information as the department may require.

(f) Within 90 days after the close of any period for which aid is received, the entity or agency shall submit to the department a statement of the expenditures actually incurred, in such form and containing such information as the department may require.

(g) The department shall be responsible for the administration of the provisions of this section, and may adopt such rules and regulations as may be necessary to carry out its provisions. The department shall make periodic evaluations of the effectiveness of programs receiving aid under this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The people of the State of California do enact as follows:

SECTION 1. Section 17154 of the Revenue and Taxation Code is amended to read:

17154. (a) At the election of the taxpayer, gross income does not include gain from the sale or exchange of property if—

(1) The taxpayer has attained the age of 65 before the date of such sale or exchange, and

(2) During the eight-year period ending on the date of the sale or exchange, such property has been owned and used by the taxpayer as his principal residence for periods aggregating five years or more, and

(b) (1) If the adjusted sales price of the property sold or exchanged exceeds thirty thousand dollars ($30,000), subsection (a) shall apply to that portion of the gain which bears the same ratio to the total amount of such gain as thirty thousand dollars ($30,000) bears to such adjusted sales price. For purposes of the preceding sentence, the term "adjusted sales price" has the meaning assigned to such term by Section 18092(a) (determined without regard to subsection (d) (7) of this section).

(2) Subsection (a) shall not apply to any sale or exchange by the taxpayer if an election by the taxpayer or his spouse under subsection (a) with respect to any other sale or exchange is in effect.

(c) An election under subsection (a) may be made or revoked at any time before the expiration of the period for making a claim for credit or refund of the tax imposed by this part for the taxable year in which the sale or exchange occurred, and shall be made or revoked in such manner as the Franchise Tax Board shall by regulations prescribe. In the case of a taxpayer who is married, an

election under subsection (a) or a revocation thereof may be made only if his spouse joins in such election or revocation.

(d) (1) For purposes of this section, if—

(A) Property is held by a husband and wife as joint tenants, tenants by the entirety, or community property,

(B) Such husband and wife make a joint return under Section 18402(b) for the taxable year of the sale or exchange, and

(C) One spouse satisfies the age, holding, and use requirements of subsection (a) with respect to such property,

then both husband and wife shall be treated as satisfying the age, holding, and use requirements of subsection (a) with respect to such property.

(2) For purposes of this section, in the case of an unmarried individual whose spouse is deceased on the date of the sale or exchange of property, if—

(A) The deceased spouse (during the eight-year period ending on the date of the sale or exchange) satisfied the holding and use requirements of subsection (a)(2) with respect to such property, and

(B) No election by the deceased spouse under subsection (a) is in effect with respect to a prior sale or exchange,

then such individual shall be treated as satisfying the holding and use requirements of subsection (a)(2) with respect to such property.

(3) For purposes of this section, if the taxpayer holds stock as a tenant-stockholder (as defined in Sections 17264 and 17265) in a cooperative housing corporation (as defined in such sections), then—

(A) The holding requirements of subsection (a)(2) shall be applied to the holding of such stock, and

(B) The use requirements of subsection (a)(2) shall be applied to the house or apartment which the taxpayer was entitled to occupy as such stockholder.

(4) For purposes of this section, the destruction, theft, seizure, requisition, or condemnation of property shall be treated as the sale of such property.

(5) In the case of property only a portion of which, during the eight-year period ending on the date of the sale or exchange, has been owned and used by the taxpayer as his principal residence for periods aggregating five years or more, this section shall apply with respect to so much of the gain from the sale or exchange of such property as is determined, under regulations prescribed by the Franchise Tax Board, to be attributable to the portion of the property so owned and used by the taxpayer.

(6) In the case of any sale or exchange, for purposes of this section—

(A) The determination of whether an individual is married shall be made as of the date of the sale or exchange; and

(B) An individual legally separated from his spouse under a decree of divorce or of separate maintenance shall not be considered

as married.

(7) In applying Sections 18082 to 18090.2, inclusive (relating to involuntary conversions), and 18091 to 18100, inclusive (relating to sale or exchange of residence), the amount realized from the sale or exchange of property shall be treated as being the amount determined without regard to this section, reduced by the amount of gain not included in gross income pursuant to an election under this section.

(e) This section shall apply to dispositions after December 31, 1963, in taxable years ending after such date.

SEC. 2. Section 18091 of the Revenue and Taxation Code is amended to read:

SEC. 3. Section 18093 of the Revenue and Taxation Code is amended to read:

18093. For purposes of this article—

(a) An exchange by the taxpayer of his residence for other property shall be treated as a sale of such residence, and the acquisition of a residence on the exchange of property shall be treated as a purchase of such residence.

(b) A residence any part of which was constructed or reconstructed by the taxpayer shall be treated as purchased by the taxpayer. In determining the taxpayer's cost of purchasing a residence, there shall be included only so much of his cost as is attributable to the acquisition, construction, reconstruction, and improvements made which are properly chargeable to capital account, during the period specified in Section 18091.

(c) If a residence is purchased by the taxpayer before the date of his sale of the old residence, the purchased residence shall not be treated as his new residence if sold or otherwise disposed of by him before the date of the sale of the old residence.

(d) If the taxpayer, during the period described in Section 18091, purchases more than one residence which is used by him as his principal residence at some time within 18 months after the date of the sale of the old residence, only the last of such residences so used by him after the date of such sale shall constitute the new residence.

(e) In the case of a new residence the construction of which was commenced by the taxpayer before the expiration of 18 months after the date of the sale of the old residence, the period specified in Section 18091, and the 18 months referred to in subsection (d) of this

section, shall be treated as including a period of two years beginning with the date of the sale of the old residence.

SEC. 4. Section 18094 of the Revenue and Taxation Code is amended to read:

18094. The provisions of Section 18091 shall not be applicable with respect to the sale of the taxpayer's residence if within 18 months prior to the date of such sale the taxpayer sold at a gain other property used by him as his principal residence, and any part of such gain was not recognized by reason of the provisions of Section 18091 or 17690.1 of the Personal Income Tax Law of 1954.

SEC. 5. Section 18098 of the Revenue and Taxation Code is amended to read:

18098. The running of any period of time specified in Section 18091 or 18093 (other than the 18 months referred to in Section 18093(d)) shall be suspended during any time that the taxpayer (or his spouse if the old residence and the new residence are each used by the taxpayer and his spouse as their principal residence) serves on extended active duty with the armed forces of the United States after the date of the sale of the old residence and during an induction period (as defined in Section 17025), except that any such period as so suspended shall not extend beyond the date four years after the date of the sale of the old residence. For the purpose of this section, the term "extended active duty" means any period of active duty pursuant to a call or order to such duty for a period in excess of 90 days or for an indefinite period.

SEC. 6. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be applied in the computation of taxes for taxable years beginning on or after the first day of the calendar year in which this act becomes effective provided the effective date is more than 90 days prior to the last day of the calendar year. If the effective date is 90 days or less prior to the last day of the calendar year, the provisions of this act shall apply in the computation of taxes for taxable years beginning on or after the first day of the calendar year following the effective date.

(2) In other cases, the judgment or order is, in respect to the matter directly adjudged, conclusive between the parties and their successors in interest by title subsequent to the commencement of the action or special proceeding, litigating for the same thing under the same title and in the same capacity, provided they have notice, actual or constructive, of the pendency of the action or proceeding.

[Approved by Governor July 4, 1975 Filed with Secretary of State July 5, 1975]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 71980) is added to Part 7 of Division 20 of the Water Code, to read:

CHAPTER 7. FORMATION OF IMPROVEMENT DISTRICTS FOR ISSUANCE OF REVENUE BONDS

Article 1. Initiation of Proceedings

71980. Whenever the board deems it necessary to incur a bonded indebtedness for the acquisition, construction, completion, or repair of any or all improvements, works or property mentioned in this division, and to provide for such bonded indebtedness payable exclusively from the revenues of an enterprise acquired, constructed, improved or financed for the benefit of an area less than all of the district, the board shall, by resolution, declare its intention to form a revenue improvement district and to incur such indebtedness.

02264 28 10 455 502

71981. The resolution of intention shall state that the board intends to form a revenue improvement district of a portion of the district which in the opinion of the board will be benefited, and to call an election in such proposed revenue improvement district, on a date to be fixed, for the purpose of submitting to the voters thereof the proposition of incurring indebtedness by the issuance of revenue bonds of the district for such revenue improvement district.

71982. The resolution of intention shall also state:

(a) The purpose for which the proposed debt is to be incurred and a general description of the enterprise.

(b) The estimated amount of debt to be incurred, which may include expenses of all proceedings for the authorization, issuance, and sale of the bonds.

(c) That the bonds are to be revenue bonds, and shall be payable exclusively from the revenues of the enterprise within such revenue improvement district and that the bonds are not to be secured by the taxing power of the district.

71983. The resolution of intention shall also state that a general description of the proposed enterprise, together with a map showing the exterior boundaries of the proposed revenue improvement district with relation to the territory immediately contiguous thereto and to the proposed enterprise is on file with the secretary and is available for inspection by any person or persons interested. This map shall govern for all details as to the extent of the proposed revenue improvement district.

71984. The resolution of intention shall also state:

(a) The time and place for a hearing by the board on the questions of the formation and extent of the proposed revenue improvement district and the proposed enterprise.

(b) That at the time and place specified in the resolution any person interested including all persons owning property in the district or in the proposed revenue improvement district, will be heard.

71985. Notice of the hearing shall be given by publishing a copy of the resolution of intention pursuant to Section 6066 of the Government Code prior to the time fixed for the hearing in a newspaper printed and published in the district, if there is a newspaper printed and published in the district. Such notice shall also be given by posting a copy of the resolution of intention in six public places within the proposed revenue improvement district at least two weeks before the time fixed for the hearing.

Article 2. Hearing and Changes

71986. Except as otherwise provided in this article, the board shall proceed with the hearing, conduct the hearing, make changes to the enterprise or the estimated amount of the proposed debt and hold hearings on the changes pursuant to Sections 71880 to 71883, inclusive.

Article 3. Formation of Revenue Improvement District

71987. At the conclusion of the hearing, the board shall by resolution determine whether it is deemed necessary to form the proposed revenue improvement district and to incur the bonded indebtedness. If so, the resolution shall state:

(a) The purpose for which the proposed debt is to be incurred.

(b) The estimated amount of the proposed debt.

(c) That the exterior boundaries of the portion of the district which will be benefited are set forth on a map on file with the secretary, which map shall govern for all details as to the extent of the revenue improvement district.

(d) That such portion of the district set forth on the map shall thereupon be formed and be known as "Revenue Improvement District No. _____ of _____ Municipal Water District."

71988. The determinations made in the resolution of formation shall be final and conclusive.

71989. After the formation of the revenue improvement district pursuant to this chapter, all proceedings for the purpose of a revenue bond election by the revenue improvement district shall be limited, and shall apply only to the revenue improvement district.

71990. Except as otherwise provided by this chapter, after the formation of the improvement district pursuant to this chapter, the improvement district shall be a local agency for the purposes of the Revenue Bond Law of 1941 and the terms defined in the Revenue Bond Law of 1941 shall have the meaning therein set forth unless the context requires a different meaning.

Article 4. Calling of Revenue Bond Election

71991. After the board has made its determination of the matters required to be determined by the resolution of formation, and if the board deems it necessary to incur the bonded indebtedness, the board shall, by a further resolution, call a special election in the revenue improvement district for the purpose of submitting to the voters thereof the proposition of incurring indebtedness by the issuance of revenue bonds of the district for the revenue improvement district. The election shall be held and the votes canvassed pursuant to law for municipal water district elections.

71992. The resolution calling the revenue bond election shall be adopted, contain the statement, be published and provide for issuance of the revenue bonds in accordance with Article 3 (commencing with Section 54380 of the Government Code) of the Revenue Bond Law of 1941, except as otherwise required by law and this chapter, and, in addition, the resolution shall state:

(a) That the board deems it necessary to incur the bonded indebtedness.

(b) The revenue improvement district to be benefited by the bonded indebtedness, as set forth in the resolution of formation of

the revenue improvement district, and that a map showing the exterior boundaries of the revenue improvement district is on file with the secretary, which map shall govern for all details as to the extent of the revenue improvement district.

(c) That the votes of a majority of all voters voting on the proposition are required to authorize the issuance of the revenue bond.

71993. If the issuance of the revenue bonds is authorized at the election, the board shall provide for their issuance, sale, authentication, form and redemption in the manner provided in the Revenue Bond Law of 1941.

71994. It is the intent of the Legislature that the provisions of this article shall be in addition to, and not exclusive of, the powers and duties of the revenue improvement district as a local agency under the Revenue Bond Law of 1941, except that where this chapter is inconsistent with the Revenue Bond Law of 1941, the Revenue Bond Law of 1941 is controlling. The municipal water district may do any act for or on behalf of the revenue improvement district authorized by law and the Revenue Bond Law of 1941 not inconsistent with the provisions of this chapter or in derogation of the security of the bondholders.

Article 5. Advance of Funds

71995. The board may advance general funds of the district to accomplish the purposes of a revenue improvement district formed pursuant to this chapter.

71996. The board may repay the district for any advance of funds from the proceeds of the sale of revenue bonds authorized for the purposes of the improvement district.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some municipal water districts urgently need the authority to incur revenue bonded indebtedness to acquire, construct, complete or repair facilities in order to meet water quality treatment standards for water suppliers imposed by law on the district and to provide repayment of such revenue bonded indebtedness by the persons or property benefited thereby. It is necessary, therefore, that the provisions of this act go into immediate effect.

If the total of the payments made hereunder is less than the basic death benefit which was otherwise payable on account of the member's death, the amount of the basic death benefit less any payments made pursuant to this section shall be paid in a lump sum as follows:

(a) If the person last entitled to the allowance is the remarried spouse of such member, to such spouse;

The people of the State of California do enact as follows:

SECTION 1. Experience has shown that schools which are located in rural or other remote areas are less susceptible to vandalism occurring after school hours and during vacations if there are occupied residences situated nearby. It is the intent of the Legislature in enacting this measure to afford school districts an economical means of encouraging some degree of citizen surveillance over school property during those times when the school is not actually in use. The Legislature finds and declares that the authority afforded school districts by this act serves a public purpose by encouraging citizen surveillance over school property, thus reducing the likelihood of vandalism.

SEC. 2. Section 15809 is added to the Education Code, to read:

15809. The governing board of a school district may construct a mobilehome site on the grounds of any school or schools maintained by the district, including all necessary appurtenances and fixtures, and may pay the cost of utilities, insurance, and necessary services, for the purpose of enabling a responsible person or persons to install and occupy a mobilehome on such site. Such person or persons, who need not be classified as employees of the district, shall, in return for being permitted to install and occupy a mobilehome on the school site on terms and conditions acceptable to the governing board, agree to maintain any surveillance over the school grounds as the school district governing board requires, and to report to school authorities illegal or suspicious activities that are observed.

SEC. 3. Chapter 977 of the Statutes of 1974 is repealed.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the inadvertent ineffectiveness of Chapter 977 of the Statutes of 1974, arising out of the application of Section 9609 of the Government Code to Chapters 547 and 977 of the Statutes of 1974, may be rectified and that school districts may take the steps authorized by this act to protect school property as soon as possible during the 1974–75 school year, it is necessary that this act take effect immediately.

CHAPTER 237

The people of the State of California do enact as follows:

SECTION 1. Section 70130 of the Government Code is amended to read:

70130. (a) In a county with a population of over 205,000 and not over 225,000 as determined by the 1970 federal decennial census, within which there is located a facility of the Department of Corrections of the State of California, each full-time official reporter shall receive a salary recommended by the superior court and approved by the board of supervisors.

Any appointee to an official reporter position shall be compensated at the first step and advance to each higher step upon completion of each year of service. (d) Until such time as the salaries of full-time official reporters and official reporters pro tempore are approved by the board of supervisors pursuant to subdivision (a), such reporters shall receive the salaries in effect immediately prior to the effective date of the amendments to this section enacted by the Legislature at its 1975–76 Regular Session.

SEC. 2. Section 73781 of the Government Code is amended to read:

73781. (a) Full-time official reporters appointed by the majority of the judges of the municipal court pursuant to the provisions of Section 72194 and so designated, shall be attachés of the court and shall receive a salary recommended by the municipal court and approved by the board of supervisors.

Any appointee shall be compensated at the first step and advance to each higher step upon completion of each year of service. The additional reporters shall be known as official reporters pro tempore, and they shall serve without salary but shall receive, for reporting, fees at a per diem rate as fixed by Sections 69948 and 69949 or as fixed by any special act governing the compensation of official superior court reporters in the County of Marin, whichever is the greater. In criminal cases such fees upon order of the court shall be a charge against the general fund of the county.

(d) Until such time as the salaries of full-time official reporters are approved by the board of supervisors pursuant to subdivision (a), such reporters shall receive the salaries in effect immediately prior to the effective date of the amendments to this section enacted by the Legislature at its 1975–76 Regular Session.

(e) Any change in the salaries in effect immediately prior to the effective date of the amendments to this section enacted by the Legislature at its 1975–76 Regular Session shall be on an interim basis and shall expire on January 1 of the second calendar year after the calendar year in which the change occurs, unless ratified by the Legislature.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for Marin County to employ competent official court reporters and official court reporters pro tempore in the municipal and superior courts on a competitive basis with other counties, it is necessary that this act take effect immediately.

For all such services of administration and supervision, the Department of General Services shall receive consideration not to exceed 2.7 percent of the total cost of restoration or rehabilitation.

(c) Notwithstanding any other provisions of law, all work performed pursuant to this section shall be exempt from the provisions of the State Contract Act (Chapter 3 (commencing with Section 14250), Part 5, Division 3, Title 2, Government Code), provided, however, that all work shall be subject to competitive bidding except where determined to be impractical or unfeasible by joint action of the State Architect, the State Public Works Board and the Joint Rules Committee. All work performed pursuant to this section shall also be exempt from the provisions of the Environmental Quality Act of 1970 (Division 13 (commencing with Section 21000), Public Resources Code). The architect and contractor shall, however, be selected on the basis of their qualifications and experience in the restoration and reconstruction of historic buildings.

SEC. 2. Section 9125 is added to the Government Code, to read:

9125. (a) The Department of General Services shall cause the permanent relocating of the State Treasurer's office in State Office Building No. 1 in Sacramento, and any necessary reconstruction and remodeling in connection therewith.

(b) Notwithstanding any other provisions of law, all work performed pursuant to this section shall be exempt from the provisions of the State Contract Act (Chapter 3 (commencing with Section 14250), Part 5, Division 3, Title 2, Government Code) and from the provisions of the Environmental Quality Act of 1970 (Division 13 (commencing with Section 21000), Public Resources

Code).

SEC. 3. The sum of forty-three million two hundred fifty thousand dollars ($43,250,000) is hereby appropriated for the purposes specified in Sections 9124 and 9125 of the Government Code, to be available without regard to fiscal years, as follows:

(a) Forty-two million dollars ($42,000,000) payable from the Capitol Improvement Fund to the Contingent Funds of the Assembly and Senate, for purposes of restoration or rehabilitation of the west wing of the State Capitol as provided in Section 9124 of the Government Code.

(b) One million dollars ($1,000,000) payable from the General Fund and two hundred fifty thousand dollars ($250,000) payable from Item 98.1, Budget Act of 1974 (Chapter 375, Statutes of 1974), to the Department of General Services for the costs incurred in causing the permanent relocating of the State Treasurer's office in State Office Building No. 1 in Sacramento, and for any necessary reconstruction and remodeling in connection therewith, as provided in Section 9125 of the Government Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

The west wing of the State Capitol has been determined by the State Architect to be structurally unsafe for occupation and use, and is in immediate need of restoration or rehabilitation so that it may safely continue to serve state government and the people of the state. In order to most expeditiously restore or rehabilitate the west wing of the State Capitol so as to insure its future use in a manner befitting its great historical significance, and in order that work on the much needed permanent relocating of the State Treasurer's office may begin at the earliest possible time, this act should go into effect immediately.

SECTION 1. The Director of General Services shall transfer to the 51st District Agricultural Association the following described real property: That certain parcel of land containing approximately 9 acres, which is located in the City of Los Angeles, and lies west of Lindley Avenue and south of Devonshire Street, said parcel being

If the district sells such property, it shall not permanently invest the proceeds from such a sale, except for the purpose of acquiring land for use as a permanent fairgrounds site for the San Fernando Valley Fair; provided, however, the district may invest such proceeds on a short-term basis, including the deposit of such proceeds in a savings and loan or commercial bank.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the 51st District Agricultural Association may properly commence its operations during the 1975 calendar year, it is necessary that the property described in this act be transferred to it as soon as possible. To that end it is essential that the provisions of this act become effective immediately.

(b) Except as authorized by law, every person who possesses not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, is guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars ($100).

Notwithstanding other provisions of law, if such person has been previously convicted three or more times of an offense described in this subdivision during the two-year period immediately preceding the date of commission of the violation to be charged, the previous convictions shall also be charged in the accusatory pleading and, if found to be true by the jury upon a jury trial or by the court upon a court trial or if admitted by the person, the provisions of Sections 1000.1 and 1000.2 of the Penal Code shall be applicable to him, and the court shall divert and refer him for education, treatment, or rehabilitation, without a court hearing or determination or the concurrence of the district attorney, to an appropriate community program which will accept him. If the person is so diverted and referred he shall not be subject to the fine specified in this subdivision. If no community program will accept him, the person shall be subject to the fine specified in this subdivision. In any case in which a person is arrested for a violation of this subdivision and does not demand to be taken before a magistrate, such person shall be released by the arresting officer upon presentation of satisfactory evidence of identity and giving his written promise to appear in court, as provided in Section 853.6 of the Penal Code, and shall not be subjected to booking.

11360. (a) Except as otherwise provided by this section or as authorized by law, every person who transports, imports into this state, sells, furnishes, administers, or gives away, or offers to transport, import into this state, sell, furnish, administer, or give away, or attempts to import into this state or transport any marijuana shall be punished by imprisonment in the state prison for a period of five years to life and shall not be eligible for release upon completion of sentence or on parole or any other basis until he has been imprisoned for a period of not less than three years in the state prison.

If such person has been previously convicted once of any offense described in subdivision (b), the previous conviction shall be charged in the indictment or information and, if found to be true by the jury upon a jury trial or by the court upon a court trial or if admitted by the person, he shall be imprisoned in the state prison for a period of five years to life and shall not be eligible for release upon completion of sentence or on parole or any other basis until he has been imprisoned for a period of not less than five years in the state prison.

If such person has been previously convicted two or more times of any offense described in subdivision (b), the previous convictions

shall be charged in the indictment or information and, if found to be true by the jury upon a jury trial or by the court upon a court trial or if admitted by the person, he shall be imprisoned in the state prison for a period of 10 years to life and shall not be eligible for release upon completion of sentence or on parole or any other basis until he has been imprisoned for a period of not less than 10 years in the state prison.

(b) Any previous conviction of any of the following offenses, or of an offense under the laws of another state or of the United States which, if committed in this state, would have been punishable as such an offense, shall be charged pursuant to subdivision (a) of this section:

(1) Any felony offense described in Section 11378, 11379, or 11380.

(2) Any felony offense described in this division involving a controlled substance specified in subdivision (b) or (c) of Section 11054, specified in paragraph (10), (11), (12), or (17) of subdivision (d) of Section 11054, or specified in subdivision (b) or (c) of Section 11055.

(3) Any felony offense described in this division involving a narcotic drug classified in Schedule III, IV, or V.

(c) Except as authorized by law, every person who gives away, offers to give away, transports, offers to transport, or attempts to transport not more than one avoirdupois ounce of marijuana, other than concentrated cannabis, is guilty of a misdemeanor and shall be punished by a fine of not more than one hundred dollars ($100). In any case in which a person is arrested for a violation of this subdivision and does not demand to be taken before a magistrate, such person shall be released by the arresting officer upon presentation of satisfactory evidence of identity and giving his written promise to appear in court, as provided in Section 853.6 of the Penal Code, and shall not be subjected to booking.

SEC. 4. Section 11361.5 is added to the Health and Safety Code, to read:

11361.5. (a) Records of any court of this state, state agency, or local public agency pertaining to the arrest or conviction of any person for a violation of subdivision (b) or (c) of Section 11357 or subdivision (c) of Section 11360, shall not be kept beyond two years from the date of such a conviction, or from the date of the arrest if there was no conviction. It shall be the duty of each court and public agency having custody of such records to provide for the timely destruction thereof in accordance with the provisions of this subdivision. The requirements of this subdivision shall not apply to records of any conviction occurring prior to January 1, 1976, or records of any arrest not followed by a conviction occurring prior to such date.

(b) Any person convicted of a violation of Section 11357 or a statutory predecessor thereof, or arrested but not convicted for a violation of Section 11357 or a statutory predecessor thereof, may petition the superior court for the county in which the conviction or

495 281255 678

arrest occurred for an order directing the destruction of records pertaining to such arrest or conviction. If the court, after a hearing to determine the facts, finds that such an arrest or conviction occurred, it shall, subject to payment of the costs of destruction by the petitioner, order each court of this state, state agency, and local public agency having records pertaining to the arrest or conviction to destroy all records thereof in the possession of the court or agency within such reasonable time as the court in its order shall determine. However, in no event shall the petitioner be required to pay more than fifty dollars ($50) for the aggregate costs of destruction. Moneys submitted by the petitioner for the costs of destruction of such records shall be remitted by the court to the agencies and courts destroying such records to reimburse the cost thereof. Upon the expiration of such reasonable time as the court in its order shall determine, the order of the court shall be destroyed.

This subdivision shall be applicable only to arrests and convictions occurring prior to January 1, 1976.

(c) Destruction of records required by this section shall be accomplished by actual physical destruction of the document constituting such a record and any copies or photographic records thereof. However, if actual physical destruction of a record would necessarily effect the destruction of other records, the agency charged with the destruction thereof may comply with the requirements of this section by permanently obliterating such record.

(d) No public agency shall alter, amend, assess, condition, deny, limit, postpone, qualify, revoke, surcharge, or suspend any certificate, franchise, incident, interest, license, opportunity, permit, privilege, right, or title of any person because of an arrest or conviction for a violation of Section 11357 or 11360, or because of the facts or events leading to such an arrest or conviction, on or after the date the records of such arrest or conviction are required to be destroyed by subdivision (a) or pursuant to an order of the court authorized by subdivision (b). As used in this subdivision, "public agency" includes, but is not limited to, any state, county, city and county, city, public or constitutional corporation or entity, district, local or regional political subdivision, or any department, division, bureau, office, board, commission or other agency thereof.

SEC. 5. Section 11363 of the Health and Safety Code is amended to read:

11363. (a) Every person who plants, cultivates, harvests, dries, or processes any plant of the genus Lophophora, also known as peyote, or any part thereof shall be punished by imprisonment in the county jail for a period of not more than one year or the state prison for a period of not more than 10 years.

(b) If such person has been previously convicted of any offense described in subdivision (c), the previous conviction shall be charged in the indictment or information and, if found to be true by the jury upon a jury trial or by the court upon a court trial or if

495 281275 682

admitted by the person, he shall be imprisoned in the state prison for a period of not less than two years or more than 20 years.

(c) Any previous conviction of any of the following offenses, or of an offense under the laws of another state or of the United States which, if committed in this state, would have been punishable as such an offense, shall be charged pursuant to subdivision (b) of this section:

(1) Any offense described in Section 11378, 11379, or 11380.

(2) Any offense described in this division involving a controlled substance specified in subdivision (b) or (c) of Section 11054, specified in paragraph (11), (12), or (17) of subdivision (d) of Section 11054, or specified in subdivision (b) or (c) of Section 11055.

(3) Any offense described in this division involving a narcotic drug classified in Schedule III, IV, or V.

(4) Any offense described in this division involving marijuana, except a misdemeanor.

SEC. 6. Section 11364 of the Health and Safety Code is amended to read:

11364. It is unlawful to possess an opium pipe or any device, contrivance, instrument or paraphernalia used for unlawfully injecting or smoking (1) a controlled substance specified in subdivision (b) or (c) of Section 11054, specified in paragraph (11), (12), or (17) of subdivision (d) of Section 11054, or specified in subdivision (b) or (c) of Section 11055 or (2) a controlled substance which is a narcotic drug classified in Schedule III, IV, or V.

SEC. 7. Section 11365 of the Health and Safety Code is amended to read:

11365. It is unlawful to visit or to be in any room or place where any controlled substances which are specified in subdivision (b) or (c) of Section 11054, specified in paragraph (11), (12), or (17) of subdivision (d) of Section 11054, or specified in subdivision (b) or (c) of Section 11055, or which are narcotic drugs classified in Schedule III, IV, or V, are being unlawfully smoked or used with knowledge that such activity is occurring.

SEC. 8. Section 11550 of the Health and Safety Code is amended to read:

11550. No person shall use, or be under the influence of any controlled substance which is (1) specified in subdivision (b) or (c) of Section 11054, specified in paragraph (11), (12), or (17) of subdivision (d) of Section 11054, or specified in subdivision (b) or (c) of Section 11055, or (2) which is a narcotic drug classified in Schedule III, IV, or V, excepting when administered by or under the direction of a person licensed by the state to dispense, prescribe, or administer controlled substances. It shall be the burden of the defense to show that it comes within the exception. Any person convicted of violating any provision of this section is guilty of a misdemeanor and shall be sentenced to serve a term of not less than 90 days nor more than one year in the county jail. The court may place a person convicted hereunder on probation for a period not to exceed five years and

shall in all cases in which probation is granted require as a condition thereof that such person be confined in the county jail for at least 90 days. In no event does the court have the power to absolve a person who violates this section from the obligation of spending at least 90 days in confinement in the county jail.

SEC. 9. Section 11590 of the Health and Safety Code is amended to read:

11590. (a) Any person who, on or after the effective date of this section, is convicted in the State of California of any offense defined in Section 11350, 11351, 11352, 11353, 11354, 11355, 11357, 11358, 11359, 11360, 11361, 11363, 11366, 11368, or 11550, or any person who is, on or after such date, discharged or paroled from a penal institution where he was confined because of the commission of any such offense, or any person who is, on or after such date, convicted in any other state of any offense which, if committed or attempted in this state, would have been punishable as one or more of the above-mentioned offenses, shall within 30 days after the effective date of this section or within 30 days of his coming into any county or city, or city and county in which he resides or is temporarily domiciled for such length of time, register with the chief of police of the city in which he resides or the sheriff of the county if he resides in an unincorporated area.

(b) Any person who, on or after the effective date of this section is convicted in any federal court of any offense which, if committed or attempted in this state would have been punishable as one or more of the offenses enumerated in subdivision (a) shall within 30 days after the effective date of this section or within 30 days of his coming into any county or city, or city and county in which he resides or is temporarily domiciled for such length of time, register with the chief of police of the city in which he resides or the sheriff of the county if he resides in an unincorporated area.

(c) This section does not apply to a conviction of a misdemeanor under Section 11357 or 11360.

SEC. 10. Section 853.6 of the Penal Code is amended to read:

853.6. (a) In any case in which a person is arrested for an offense declared to be a misdemeanor and does not demand to be taken before a magistrate, such person may, instead of being taken before a magistrate, be released according to the procedures set forth by this chapter. If the arresting officer or his superior determines that the person should be released, such officer or superior shall prepare in duplicate a written notice to appear in court, containing the name and address of such person, the offense charged, and the time and place where and when such person shall appear in court. If the person is not released prior to being booked and the officer in charge of the booking or his superior determines that the person should be released, such officer or superior shall prepare such written notice to appear in court.

(b) Unless waived by the person, the time specified in the notice to appear must be at least five (5) days after arrest.

495 28 12 145 696

(c) The place specified in the notice shall be the court of the magistrate before whom the person would be taken if the requirement of taking an arrested person before a magistrate were complied with, or shall be an officer authorized by such court to receive a deposit of bail.

(d) The officer shall deliver one copy of the notice to appear to the arrested person, and the arrested person, in order to secure release, must give his written promise so to appear in court by signing the duplicate notice which shall be retained by the officer. Thereupon the arresting officer shall forthwith release the person arrested from custody.

(e) The officer shall, as soon as practicable, file the duplicate notice with the magistrate specified therein. Thereupon the magistrate may fix the amount of bail which in his judgment, in accordance with the provisions of Section 1275 of the Penal Code, will be reasonable and sufficient for the appearance of the defendant and shall indorse upon the notice a statement signed by him in the form set forth in Section 815a of this code. The defendant may, prior to the date upon which he promised to appear in court, deposit with the magistrate the amount of bail thus set. Thereafter, at the time when the case is called for arraignment before the magistrate, if the defendant shall not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may in his discretion order that no further proceedings shall be had in such case, unless the defendant has been charged with violation of Section 374b or 374e of this code or of Section 11357, 11360, or 13002 of the Health and Safety Code, or a violation punishable under Section 5008.7 of the Public Resources Code, and he has previously been convicted of a violation of such section or punishable under such section, except in cases where the magistrate finds that undue hardship will be imposed upon the defendant by requiring him to appear, the magistrate may declare the bail forfeited and order that no further proceedings shall be had in such case.

Upon the making of such order that no further proceedings be had, all sums deposited as bail shall forthwith be paid into the county treasury for distribution pursuant to Section 1463 of this code.

(f) No warrant shall issue on such charge for the arrest of a person who has given such written promise to appear in court, unless and until he has violated such promise or has failed to deposit bail, to appear for arraignment, trial or judgment, or to comply with the terms and provisions of the judgment, as required by law.

(g) The officer shall indicate on the notice to appear whether he desires the arrested person to be booked as defined in subdivision 21 of Section 7 of this code. In such event, the magistrate shall, before the proceedings are finally concluded, order the defendant to be booked by the arresting agency.

(h) A peace officer may use the written notice to appear procedure set forth in this section for any misdemeanor offense in which the officer has arrested a person pursuant to Section 836 or in

which he has taken custody of a person pursuant to Section 847.

(i) If the arrested person is not released pursuant to the provisions of this chapter prior to being booked by the arresting agency, then at the time of booking the arresting officer, the officer in charge of such booking or his superior officer, or any other person designated by a city or county for this purpose shall make an immediate investigation into the background of the person to determine whether he should be released pursuant to the provisions of this chapter. Such investigation shall include, but need not be limited to, the person's name, address, length of residence at that address, length of residence within this state, marital and family status, employment, length of that employment, prior arrest record, and such other facts relating to the person's arrest which would bear on the question of his release pursuant to the provisions of this chapter.

(j) Whenever any person is arrested by a peace officer for a misdemeanor, other than an offense described in subdivision (b) of Section 11357 or subdivision (c) of Section 11360 of the Health and Safety Code, and is not released with a written notice to appear in court pursuant to this chapter, the arresting officer shall indicate, on a form to be established by his employing law enforcement agency, whether or not each of the following was a reason for such nonrelease:

(1) The person arrested was so intoxicated that he could have been a danger to himself or to others.

(2) The person arrested required medical examination or medical care or was otherwise unable to care for his own safety.

(3) The person was arrested for one or more of the offenses listed in Section 40302 of the Vehicle Code.

(4) There were one or more outstanding arrest warrants for the person.

(5) The person could not provide satisfactory evidence of personal identification.

(6) The prosecution of the offense or offenses for which the person was arrested or the prosecution of any other offense or offenses would be jeopardized by immediate release of the person arrested.

(7) There was a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by release of the person arrested.

(8) The person arrested demanded to be taken before a magistrate or refused to sign the notice to appear.

(9) Any other reason. If the person arrested was not released for one or more of the reasons specified in paragraphs (1) to (8), inclusive, the arresting officer shall specifically state on the form the reason for the nonrelease.

Such form shall be filed with the arresting agency as soon as practicable and shall be made available to any party having custody of the arrested person, subsequent to the arresting officer, and to any person authorized by law to release him from custody before trial.

495 28 12 180 703

SEC. 11. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 12. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act, because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 249

An act to amend Section 65854 of, and to add Section 65854.5 to the Government Code, relating to local planning, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 9, 1975 Filed with Secretary of State July 9, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 65854 of the Government Code is amended to read:

65854. The planning commission shall hold a public hearing on any such ordinance or amendment. Notice of the time and place of said hearing including a general explanation of the matter to be considered and including a general description of the area affected shall be given at least 10 calendar days before the hearing in the following manner:

(a) If the matter is before a county planning commission, the notice shall be published at least once in a newspaper of general circulation, published and circulated in the county, or if there is none, it shall be posted in at least three public places in the county.

(b) If the matter is before a city planning commission the notice shall be published at least once in a newspaper of general circulation, published and circulated in the city, or if there is none, it shall be posted in at least three public places in the city.

(c) In prezoning, if the matter is before a city planning commission the notice shall be published at least once in a newspaper of general circulation, published and circulated in the area to be prezoned, or if there is none, it shall be posted in at least three public places in the area to be prezoned.

In addition to notice by publication, a county or city may give notice of the hearing in such other manner as it may deem necessary

or desirable.

In addition to notice by publication the county or city shall give notice by first class mail to any person who has filed a written request therefor with the planning commission. Such a request may be submitted at any time during the calendar year and shall apply for the balance of such calendar year. The county or city may impose a reasonable fee on persons requesting such notice for the purpose of recovering the cost of such mailing.

Any hearing may be continued from time to time.

SEC. 2. Section 65854.5 is added to the Government Code, to read:

65854.5. (a) In addition to the notice required by Section 65854, a county or city shall give notice of the hearing by mail or delivery to all persons, including businesses, corporations or other public or private entities, shown on the last equalized assessment roll as owning real property within 300 feet of the property which is the subject of the proposed zoning change.

(b) In the event that the number of owners to whom notice would be sent pursuant to subdivision (a) is greater than 1,000, a county or a city may, as an alternative to the notice required by subdivision (a), provide notice pursuant to this subdivision. Such notice shall be given at least 10 days prior to the hearing by either of the following procedures: (i) by placing a display advertisement of at least one-fourth page in the newspaper having the greatest circulation within the area affected by the proposed ordinance or amendment and in at least one additional newspaper having general circulation within such area, if such additional newspaper is available; or (ii) by placing an insert with any generalized mailing sent by the county or city to property owners in the area affected by the proposed ordinance or amendment, such as billings for county or city services.

Such advertisement or mailing insert shall specify the type and magnitude of the changes proposed, the place where copies of the proposed changes may be obtained, the time, date and place of the hearing, and the right to appear and be heard.

Any display advertisement published pursuant to this subdivision satisfies the publication requirements of Section 65854.

(c) Failure to receive the notice required by this section shall not invalidate the ordinance or amendment.

(d) This section shall not apply to a proposed zoning ordinance or to an amendment to an existing zoning ordinance which does not affect the permitted uses of real property within a county or a city.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because there are savings as well as costs in this act which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting such necessity are:

In order to facilitate the application of this act to zoning changes presently being proposed, or to be proposed within a short time, and thereby to prevent the incurring of substantial unnecessary expenditure by local government, it is necessary that this act take immediate effect.

CHAPTER 250

An act to amend Sections 8824 and 8825 of the Elections Code, relating to county central committees.

[Approved by Governor July 9, 1975 Filed with Secretary of State July 9, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 8824 of the Elections Code is amended to read:

8824. In each county the nominee of this party for State Senator or the incumbent State Senator, the nominees of this party for the Assembly, and any person elected to either the Senate or Assembly at a special election to fill a vacancy in that house, and the nominee of this party for Representative in Congress, and any person elected at a special election to fill a vacancy in the House of Representatives, shall be ex officio members of this committee. If the person elected from one party at the special election for an Assembly or Senate seat, or for the House of Representatives, shall be other than the nominee of that party for the same office at the prior election, the ex officio membership of the nominee shall expire immediately upon certification by the Secretary of State of the election. The board may order a certificate be suspended or revoked, or may decline to issue a certificate when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal, or when an order granting probation is made suspending the imposition of sentence irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the acquisition, information or indictment.

2158. The board shall report to the State Controller at the beginning of each month for the month preceding the amount and source of all revenue received by it pursuant to this article, and shall pay the entire amount thereof to the State Treasurer for deposit in the Acupuncturists Fund, which fund is hereby created and is continuously appropriated to carry out the purposes of this chapter.

2158.1. The board shall keep such records as will reasonably insure that funds expended in the administration of the certification program shall bear a reasonable relation to the revenue derived from each category.

2158.2. The amount of the fees prescribed by the provisions of this article is that fixed by the following schedule:

(1) The application fee and renewal fee shall be fixed by the board in an amount which does not exceed one hundred fifty dollars ($150) but is sufficient to support the functions of the board which relate to the functions authorized by this article.

(2) The delinquency fee shall be ten dollars ($10).

(3) The reexamination fee shall be fixed by the board in an amount which does not exceed seventy-five dollars ($75).

2158.3. The board shall employ whatever personnel is necessary for the administration of this article.

2158.4. Certificates issued pursuant to this article shall expire on December 31st of each even-numbered year, if not renewed.

2158.5. To renew an unexpired certificate, the holder, on or before December 31st of each odd-numbered year, shall apply for renewal on a form prescribed by the board, and pay the renewal fee prescribed by this article.

2158.6. Except as provided in Section 2158.7, a certificate which has expired may be renewed at any time within two years after its expiration on filing of application for renewal on a form prescribed

by the board and payment of the renewal fee in effect on the last preceding regular renewal date. If the certificate is not renewed within 30 days after its expiration, the certified individual, as a condition precedent to renewal, shall also pay the prescribed delinquency fee. Renewal under this section shall be effective on the date on which the application is filed, on the date on which the renewal fee is paid or, on the date on which the delinquency fee is paid, whichever occurs last. If so renewed, the certificate shall continue in effect through the expiration date provided in Section 2158.4, after the effective date of the renewal, when it shall expire and become invalid if it is not again renewed.

2158.7. A suspended certificate is subject to expiration and shall be renewed as provided in this article, but such renewal does not entitle the certified individual, while the certificate remains suspended, and until it is reinstated, to engage in the certificated activity, or in any other activity or conduct in violation of the order or judgment by which the certificate was suspended. A certificate revoked on disciplinary grounds is subject to expiration as provided in this article, but it may not be renewed. If it is reinstated after its expiration, the certificated individual, as a condition to reinstatement, shall pay a reinstatement fee in an amount equal to the renewal fee in effect on the last preceding regular renewal date before the date on which it is reinstated, plus the delinquency fee, if any accrued at the time of its revocation.

2158.8. A person who fails to renew his certificate within five years after its expiration may not renew it, and it may not be restored, reissued or reinstated thereafter, but such person may apply for and obtain a new certificate if he meets the requirements of this article.

2159. Nothing in the article shall be construed to prevent the practice of acupuncture by a holder of a physicians' and surgeons' certificate, by a licensed dentist, or by a licensed podiatrist, within the scope of their respective licenses.

SEC. 4. Section 2525.17 is added to the Business and Professions Code, to read:

2525.17. (a) A licensed podiatrist, or group of podiatrists, or podiatric corporation shall not share in any fee charged by a person for performing acupuncture or receive anything of value from or on behalf of such acupuncturist for any referral or diagnosis.

(b) A licensed podiatrist shall not employ more than one person to perform acupuncture services.

(c) A group of podiatrists or a podiatric corporation shall not employ more than one person to perform acupuncture services for every 20 podiatrists in such group or corporation.

SEC. 5. Any prosecution, which is pending against any person who would qualify to practice acupuncture pursuant to this act, for the unlawful practice of medicine involving the use of acupuncture shall be dismissed in the interests of justice. Any conviction of such person for such acts, which is pending on appeal, shall be remanded

486 291335 862

to the trial court, the verdict withdrawn, and a judgment of acquittal entered.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is a growing interest in acupuncture and a substantial amount of practice of acupuncture and yet there is no statute protecting the public from incompetent practitioners. Furthermore, the public is not being protected from other practices which are prescribed in this statute. The promising possibilities of acupuncture make it imperative that it be practiced as extensively as possible, as soon as possible, with adequate protection of the public.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 268

An act to add Section 53224 to the Government Code, relating to pension trusts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 10, 1975. Filed with Secretary of State July 12, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 53224 is added to the Government Code, to read:

53224. The legislative body of a local agency which establishes a pension trust plan pursuant to the provisions of this article may contribute to a plan which is established pursuant to the Federal Employee Retirement Income Security Act of 1974.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that irreparable damage to public employee benefits will not be incurred in jurisdictions which have already agreed to make contributions pursuant to the new Federal Employee Retirement Income Security Act of 1974, this act must take effect immediately.

CHAPTER 269

An act relating to the San Jose Regional Vocational Center, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1975 Filed with Secretary of State July 12, 1975]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that the San Jose Regional Vocational Center is comprised of six school districts in the south bay area, and it provides vocational training in areas of social and economic need. The Legislature further finds that existing facilities of the San Jose Regional Vocational Center have proven to be inadequate and in an effort to raise funds for the construction of additional facilities, the participating school districts have levied a permissive override tax to meet the cost of such construction. The Legislature finds that the school districts are in their second of three years of levying the tax and have already collected over one million five hundred thousand dollars ($1,500,000), and inflation dictates that construction should be begun at the earliest possible time in order to obtain suitable additional facilities. The Legislature intends, therefore, in enacting this act to make available the necessary funds for the immediate expansion of existing school facilities provided by the San Jose Regional Vocational Center. The Legislature intends, however, that such funds shall be paid back in full with interest as provided by this act so that the taxpayers of this state shall not be required to pay for the support of the additional facilities.

SEC. 2. Not to exceed two million dollars ($2,000,000) of the amount of the proceeds of bonds issued under the State School Building Aid and Earthquake Reconstruction and Replacement Bond Law of 1974 shall be expended pursuant to this act. The funds shall be allocated by the State Allocation Board to the San Jose Regional Vocational Center for capital improvements. Said funds shall be available for allocation to the San Jose Regional Vocational Center after the effective date of this act and until not later than June 30, 1976.

SEC. 3. Not later than June 30, 1977, all amounts allocated and disbursed to the San Jose Regional Vocational Center pursuant to this act shall be fully repaid to the state by the San Jose Regional Vocational Center, with interest at a rate determined by the State Allocation Board. The San Jose Unified School District shall be principally liable for the amount allocated to the San Jose Regional Vocational Center pursuant to this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into

0483 291390 873

immediate effect. The facts constituting such necessity are:

In order that the San Jose Regional Vocational Center shall be able to commence construction of additional school facilities at the earliest possible time and minimize the impact of monetary inflation on the overall cost of the construction, it is essential that this act take effect immediately.

CHAPTER 270

An act to add Section 20527.8 to the Water Code, relating to irrigation districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 12, 1975 Filed with Secretary of State July 12, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 20527.8 is added to the Water Code, to read:

20527.8. Notwithstanding Section 20527, or any other provision of law, in the Cordua Irrigation District every owner of land within the district, but no others, may vote at elections for directors or otherwise. Such owners need not be residents of the district in order to qualify as voters. Each voter shall be entitled to cast one vote for each one hundred dollars ($100) of assessed valuation of land to which he has title. The last equalized county assessment role is conclusive evidence of ownership and of the value of the land so owned. Where land is owned in joint tenancy, tenancy in common, or any other multiple ownership, the owners of such land shall designate in writing which one of the owners shall be deemed the owner of such land for purposes of qualifying as a voter.

The legal representative of a corporation or estate owning real property may vote on behalf of such corporation or estate. As used in this section, legal representative means an official of a corporation owning real property or a guardian, executor, or administrator of the estate of the holder of title to real property who:

(a) Is appointed under the laws of this state.

(b) Is entitled to the possession of the estate's real property.

(c) Is authorized by the appointing court to exercise the particular right, privilege, or immunity which he seeks to exercise. Before a legal representative votes at a district election, he shall present to the precinct board a certified copy of his authority which shall be kept and filed with the returns of the election.

Every voter, or his legal representative, may vote at any district election either in person or by a person duly appointed as his proxy. The appointment of a proxy shall be as provided in Section 35005.

Notwithstanding Section 21100 or any other provision of law, any voter as defined in this section is eligible to be a member of the Board

0563 291425 880

of Directors of the Cordua Irrigation District or to serve as an elective officer of the district.

SEC. 2. The provisions of this act are necessary because a substantial portion of the land in the Cordua Irrigation District is owned by persons not resident within the district and the owners, and not the resident nonowners, are primarily concerned with the affairs and support of the district. This problem is not common to all districts formed under the Irrigation District Law. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary for the solution of problems existing in the Cordua Irrigation District.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure that the provisions of this act will be applicable to the next district election within the Cordua Irrigation District and that those persons affected by the activities of the district will be given a voice in the affairs of the district, it is necessary that the provisions of this act go into immediate effect.

CHAPTER 271

An act to add Section 4107.2 to the Government Code, relating to public works contracts.

[Approved by Governor July 10, 1975. Filed with Secretary of State July 12, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 4107.2 is added to the Government Code, to read:

4107.2. No subcontractor listed by a prime contractor under Section 4104 as furnishing and installing carpeting, shall voluntarily sublet his subcontract with respect to any portion of the labor to be performed unless he specified the subcontractor in his bid for such subcontract to the prime contractor.

CHAPTER 272

An act to amend Section 5871 of the Streets and Highways Code, relating to streets and highways.

[Approved by Governor July 12, 1975 Filed with Secretary of State July 12, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 5871 of the Streets and Highways Code is amended to read:

5871. This chapter shall apply to the construction of sidewalks, gutters, pavements, driveways, and curbs and, the installation of storm and sanitary drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities in front of properties in any block where a sidewalk, gutter, pavement, driveway, the installation of storm and sanitary sewer drainage facilities, water mains, pipes, conduits, tunnels, hydrants, and other necessary works and appliances for providing water service, parkway trees, and street lighting facilities, or curb or all of them have been constructed theretofore in front of properties in said block constituting more than fifty percent (50%) of the front footage of said block or where the owners of more than 60 percent of the front footage of the block, as shown by the last equalized assessment roll of the city, file a petition with the city clerk requesting the installation of any such improvements or where a petition signed by the owners of more than sixty percent (60%) of the front footage of any part of an unimproved portion or portions of a block has been filed with the city clerk requesting the installation of such improvements in front of said part.

This chapter shall not apply to driveway construction in front of a vacant lot, or in front of an unimproved property, unless requested by the owner.

As used in this chapter, "sidewalks or curbs" includes "gutters," "driveways," "pavement" to the centerline of the street, "full pavement" in alleys, "storm and sanitary drainage facilities," "water mains," "pipes," "conduits," "tunnels," "hydrants," and "other necessary works and appliances for providing water service," "parkway trees," and "street lighting facilities;" and "superintendent of streets" includes any other person or persons who may be designated by the legislative body to perform any of the duties of the superintendent of streets set forth in this chapter.

"Fronting" and "facing" as used in this chapter means "abutting" in the case of property adjoining an alley improvement.

In the case of street lighting, in determining how much of the front footage of a block has been improved, front footage of property benefiting from existing installations may be included regardless of

the side of the street on which the installation has been constructed.

CHAPTER 273

An act to amend Section 39295.6 of the Health and Safety Code, relating to air pollution.

[Approved by Governor July 12, 1975. Filed with Secretary of State July 12, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 39295.6 of the Health and Safety Code is amended to read:

39295.6. (a) "Agricultural burning," as used in this chapter, means open outdoor fires used in agricultural operations in the growing of crops or raising of fowl or animals, forest management, or range improvement, or used in the improvement of land for wildlife and game habitat.

(b) "Agricultural burning," as used in this chapter, also means open outdoor fires used in the operation or maintenance of a system for the delivery of water for the purposes specified in subdivision (a) of this section. Section 39297.3 shall not apply to such burning.

CHAPTER 274

An act to amend Section 13336.5 of the Education Code, relating to school certificated employees, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature July 13, 1975 Filed with Secretary of State July 14, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 13336.5 of the Education Code is amended to read:

13336.5. Any employee classified as a substitute or temporary employee, who serves during one school year for at least 75 percent of the number of days the regular schools of the district were maintained in such school year and has performed the duties normally required of a certificated employee of the school district, shall be deemed to have served a complete school year as a probationary employee if employed as a probationary employee for the following school year.

Any such employee shall be reemployed for the following school year to fill any vacant positions in the school district for which the employee is certified and qualified to serve.

0555 291535 902

For purposes of this section, "qualified to serve" shall be defined to mean the possession of an appropriate credential plus completion of appropriate academic preparation or experience in the subject matter in which the vacant position occurs.

For purposes of this section, "vacant position" means a position in which the employee is qualified to serve and which is not filled by a permanent or probationary employee. It shall not include a position which would be filled by a permanent or probationary employee except for the fact that such employee is on leave.

Any employee classified as a substitute or temporary employee who has rendered the service required to qualify under this section but who has not been reemployed due to a lack of a vacant position shall be reemployed as a substitute or temporary employee for the following school year.

In any district in which appointments are made from eligible lists established by examination, special eligible lists shall be established at the end of each school year which consist of the names of those employees who met the requirements of this section. Such lists shall be in rank order based on the final scores established by examination. Such lists shall be valid for at least two school years. Offers for appointments to probationary status during the ensuing school year shall be made from such special eligible lists established by examination; provided, however, permanent or probationary employees terminated during the preceding 39 months pursuant to Section 13447, shall be given priority in employment over persons on such special eligible lists.

Those employees classified as substitutes, and who are employed to serve in an on-call status to replace absent regular employees on a day-to-day basis shall not be entitled to the benefits of this section.

Permanent and probationary employees subjected to a reduction in force pursuant to Section 13447 shall, during the period of preferred right to reappointment, have prior rights to any vacant position in which they are qualified to serve superior to those rights hereunder afforded to temporary and substitute personnel who have become probationary employees pursuant to the provisions of this section.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit this act to become operative at the beginning of the 1975–76 school year, and so facilitate its orderly administration, it is necessary that this act take effect immediately.

Prior to requesting such authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any school district to use such a building beyond June 30, 1975, unless it has first determined that the school district has already proceeded with a plan of total repair, reconstruction or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, such project. In no event shall the State Allocation Board authorize the use of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 276

An act to add Section 1309 to the Education Code and to add Section 23544 to the Elections Code, relating to elections, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature July 14, 1975

SEC. 2. Section 23544 is added to the Elections Code, to read:

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to authorize local agencies to limit campaign expenditures or contributions in elections to agency offices scheduled in 1975, it is necessary that this act go into immediate effect at the earliest possible time.

CHAPTER 277

An act to amend Sections 10953, 17301, 17951, 20450, 20905, and 20905.5 of, to add Sections 17668.2 and 17669 to, and to add Article 7.5 (commencing with Section 17945) to Chapter 3 of Division 14 of, and to repeal Section 10955 of, the Education Code, relating to school finance, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 14, 1975 Filed with
Secretary of State August 14, 1975]

I am approving SB 220 and reducing the appropriation in Section 11 of the bill from $446 47 to $440 68 per pupil in average daily attendance during the preceding fiscal year in order to increase the Foundation Program for elementary and high schools by $84 per ADA (rather than $91) in 1975–76

I have signed SB 220 because the schools, like many today, are hard pressed by inflation and an uncertain economy The amount is less than many would desire but reflects my commitment to apportion scarce public dollars as fairly as possible The halcyon days of rapid and painless growth in this state are over

Californians have been generous with their schools In the last 25 years there has been a 1300 per cent increase in State spending for public education Per student this

represents an increase twice that of the Consumer Price Index

Education is, and will continue to be, our State's highest priority, but in the months ahead as we look for increased educational spending, we should also look to renewed educational reform Toward that end, I offer the following points for public discussion

1. Basic learning skills

Recent test scores indicate that our students in the higher grades are falling behind in reading and math skills. In view of our limited tax dollars, greater attention must be focused on survival skills that enable people to think clearly and cope with the growing complexity of our society

Testing should serve not merely as a means of sorting out people in accordance with a hypothetical norm, but rather insure that students can actually do things such as fill out an employment form, balance a check book, or read a newspaper editorial.

2 Flexibility and local control

The most obvious need is a reduction in the distance between the decision-maker and the decision If parents and teachers must go to Sacramento or their district office in order to change significant policies and teaching techniques then the result is too often inertia and no change. The role of the state and the school districts should be re-examined so that the authority at the site of instruction is maximized. The state and district offices ought to be supportive forces not inhibitory ones

The voluminous State Education Code with its mandated minutia should be compressed as much as possible State laws should encourage, not stifle, local diversity

3 Revise the Master Plan

Education must be viewed as a totality The colleges are doing many things that could better be done in high school.

The Master Plan for Higher Education served us well during the era of growth But with declining enrollment and scarce dollars, priorities must be set at all levels of education A re-working of the Master Plan is now in order Such a review must encompass an examination of adult education. Life-long learning for all is a lofty ideal but it can't take precedence over the more basic mission of equipping people with essential skills For courses of low priority, self-support should be considered.

4 Fiscal reforms

State aid is distributed in accordance with formulas that in many cases no longer serve today's reality

In addition to over-hauling the system of adult education, serious examination is required of summer school and regional occupational programs Too often these programs are expanded to capture state dollars rather than meet educational needs on a priority basis

We should also review salary incentives that now encourage teachers to leave the classroom or take endless courses of dubious value

5 Equal educational funding

Senate Bill 220 does not bring us any closer to meeting the *Serrano* mandate Yet very soon we will have to minimize the disparities that exist among school districts and adopt a fair system of funding I would like to see this done over a fixed period of time without huge outlays of new money. This can be accomplished only if we begin now and work together

With this reduction, I approve Senate Bill 220

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 10953 of the Education Code is amended to read:

10953. (a) The total days of attendance of a pupil upon the schools and classes maintained by a school district, or schools or

classes maintained by the county superintendent of schools during the fiscal year shall be the number of days school was actually taught for not less than the minimum schooldays during the fiscal year less the sum of his absences.

(b) The absence of a pupil from school or class shall not be deemed an absence in computing the attendance of a pupil if such absence was:

(1) Due to his illness, or

(2) Due to quarantine under the direction of a county or city health officer, or

(3) For the purpose of having medical, dental, or optometrical services rendered, or

(4) For the purpose of attending the funeral services of a member of his immediate family, so long as such absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California, or

(5) For the purpose of jury duty in the manner provided for by law.

"Immediate family," as used in this subdivision, has the same meaning as that set forth in the last sentence of Section 13651.4 except that references therein to "employee" shall be deemed to be references to "pupil."

The provisions of this subdivision shall not apply in the case of pupils attending summer school, adult schools, and classes, or regional occupational centers and programs other than pupils concurrently enrolled in a regular high school program and a regional occupational center or program.

(c) The total days of attendance of a student in a regular full-time day community college during the fiscal year shall be the number of days actually taught for not less than the minimum college days during the fiscal year.

SEC. 2. Section 10955 of the Education Code is repealed.

SEC. 3. Section 17301 of the Education Code is amended to read:

17301. (a) The State Controller shall during each fiscal year transfer from the General Fund of the state to that portion of the State School Fund restricted for elementary and high school purposes, hereinafter called Section A of the State School Fund such sums, in addition to the sums accruing from other sources, as shall provide in Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, of one hundred eighty dollars ($180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section A of the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual

computed apportionments from Section A of the State School Fund for the purposes set forth in Section 17303.5; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, two hundred thirteen dollars and ninety-six cents ($213.96) for the fiscal year 1974–75 and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, less the amount, if any, by which seventy-nine cents ($0.79) multiplied by the number of units of average daily attendance credited during the preceding fiscal year to all elementary, high, and unified school districts and to all county superintendents of schools in the state exceeds twenty-one dollars and fifty cents ($21.50) multiplied by the total average daily attendance credited during the preceding school year to elementary school districts which during the preceding school year had less than 901 units of average daily attendance, to high school districts which during the preceding school year had less than 301 units of average daily attendance, and to unified districts which during the preceding school year had less than 1,501 units of average daily attendance.

(c) In addition to the amounts authorized to be transferred to Section A of the State School Fund under subdivisions (a) and (b) of this section, the Controller shall transfer from the General Fund to Section A of the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Sections 17303 and 17303.5, an amount not to exceed the lesser of: (1) 1 percent of the total apportionment from Section A of the State School Fund in the preceding fiscal year for the purposes set forth in Sections 17303 and 17303.5, or (2) the net amount, if any, by which the total amounts authorized to be transferred from the General Fund to Section A of the State School Fund under subdivisions (a) and (b) of this section in prior fiscal years have exceeded the total amounts actually apportioned in prior fiscal years for the purposes set forth in Sections 17303 and 17303.5.

(d) He shall also transfer to Section A of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Sections 17303 and 17303.5 and such additional amounts shall be allowed and apportioned by the Superintendent of Public Instruction and warrants therefor drawn by the Controller in the manner provided in Articles 1 (commencing with Section 17300), 2 (commencing with Section 17351), and 3 (commencing with Section 17401) of this chapter, in Sections 11256 and 17251, and in Chapter 3 (commencing with Section 17601) of this division.

(e) Commencing with the 1974–75 fiscal year, the unit amounts under subdivisions (a) and (b) of this section shall be considered to be cumulatively increased or decreased, as the case may be, by an

amount equal to the percentage increase or decrease of the statewide ratio of assessed valuation per unit of kindergarten through grade 12 statewide average daily attendance, excluding defined adults, using in such ratios the data for the preceding year compared with the second preceding year.

For the 1974–75 fiscal year, each elementary and high school foundation program shall be increased by sixty dollars ($60) except that if the percentage increase of the statewide ratio of assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) is less than seven, the sixty dollars ($60) shall be reduced proportionately, but to no less than fifty dollars ($50).

The Superintendent of Public Instruction shall prepare a report for the Legislature, to be submitted by December 1, 1976, which shall show the most current trends in costs for school districts, equalization of school district expenditures per average daily attendance, equalizations of property taxation for schools, adequacy levels in expenditures per average daily attendance, school enrollment, assessed valuations, assessed valuation per average daily attendance, and general cost changes in the state for the purpose of giving the Legislature information that the Legislature may use to enact new provisions about increases or decreases in the foundation programs for public school support.

(f) The amounts transferred pursuant to this section shall include the amounts required to be transferred by Section 16130 of the Government Code, exclusive of the amounts required to be transferred pursuant to Section 16130 of the Government Code for the educational need factor and the Early Childhood Educational Program (Chapter 1147, Statutes of 1972).

SEC. 4. Section 17668.2 is added to the Education Code, to read:

17668.2. For the 1975–76 fiscal year and fiscal years thereafter, the Superintendent of Public Instruction shall make adjustments in the small school foundation program amounts specified in Section 17654.5, subdivision (a) of Section 17655.5, and subdivision (a) of Section 17664, proportionate to the corresponding foundation program changes for other schools.

SEC. 5. Section 17669 is added to the Education Code, to read:

17669. (a) For the 1975–76 fiscal year, each elementary and high school foundation program shall be increased by an amount up to ninety-one dollars ($91) but not less than eighty-four dollars ($84) as determined by the Superintendent of Public Instruction except that if the percentage increase of the statewide ratio of assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) of Section 17301 is less than seven, the amount shall be reduced proportionately, but to no less than seventy-four dollars ($74).

(b) For the 1976–77 fiscal year, each elementary and high school foundation program shall be increased by sixty-six dollars ($66) except that if the percentage increase of the statewide ratio of

assessed valuation per unit of average daily attendance in kindergarten and grades 1 to 12, inclusive, determined in subdivision (e) of Section 17301 is less than seven, the sixty-six dollars ($66) shall be reduced proportionately, but to no less than fifty-six dollars ($56).

(c) For the 1977–78 fiscal year and fiscal years thereafter, and if the Legislature does not provide otherwise, the increase in elementary and high school foundation programs shall be 6 percent times an amount which is determined as follows: (1) multiply the unit elementary school foundation program for unified districts which have an elementary average daily attendance of 901 or more by the elementary foundation program units of average daily attendance of unified districts with 901 or more elementary average daily attendance, plus (2) multiply the unit high school foundation program for unified districts which have a high school average daily attendance of 301 or more, by the average daily attendance of unified school districts with 301 or more high school average daily attendance, and (3) divide the result by the sum of the average daily attendance in unified districts with 901 or more elementary average daily attendance plus the average daily attendance in unified districts with 301 or more high school average daily attendance.

SEC. 5.7. Article 7.5 (commencing with Section 17945) is added to Chapter 3 of Division 14 of the Education Code, to read:

Article 7.5. Summer School Adjustment

17945. The foundation program for each unit of average daily attendance during the 1976–77 fiscal year, and years thereafter, for pupils enrolled in summer schools shall be determined as follows:

(a) For elementary school pupils enrolled in summer schools the foundation program shall be 80 percent of the foundation program level provided by Article 2 (commencing with Section 17651), 2.1 (commencing with Section 17671), and Article 2.5 (commencing with Section 17680) of this chapter for elementary school average daily attendance.

(b) For high school pupils enrolled in summer schools, the foundation program shall be 80 percent of the foundation program level provided by Article 2 (commencing with Section 17651), Article 2.1 (commencing with Section 17671), and Article 2.5 (commencing with Section 17680) of this chapter for high school average daily attendance.

SEC. 6. Section 17951 of the Education Code is amended to read:

17951. The allowance for each unit of average daily attendance during the fiscal year for adults, as adults are defined in Section 5756, shall be as follows:

(a) For high school districts the allowance shall be four hundred thirteen dollars ($413) less the product of fifty cents ($0.50) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 17262, per unit of average daily attendance exclusive of adults.

For fiscal year 1975–76, the foundation program for adults, as defined in Section 5756, in high schools shall be increased by twenty-nine dollars ($29). For fiscal year 1976–77, the foundation program for adults, as defined, in high schools shall be increased by thirty-one dollars ($31). For each subsequent fiscal year, the foundation program for adults, as defined, in high schools for the previous fiscal year shall be increased by 6 percent.

(b) For each unit of average daily attendance attached to a community college the allowance shall be five hundred fifty-six dollars ($556) less the product of twenty-four cents ($0.24) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 17262, per unit of average daily attendance exclusive of adults. The allowance for each unit of average daily attendance attached to a community college shall be increased by 7 percent for the 1974–75, 1975–76, and 1976–77 fiscal years and by 6 percent for the 1977–78 fiscal year, and fiscal years thereafter, unless revised by the Legislature prior to July 1, 1977.

The foundation programs provided by this section for each unit of average daily attendance of an adult, as an adult is defined in Section 5756, not residing in the district and not residing in any district maintaining a community college shall be limited to one hundred twenty-five dollars ($125) as basic state aid and no allowance shall be made based on state equalization aid. The total of basic and equalization aid allowed each district shall not be less than one hundred twenty-five dollars ($125) for each unit of average daily attendance during the fiscal year for resident adults, exclusive of average daily attendance in classes for inmates of any state institution for adults and for inmates of any city, county, or city and county jail, road camp or farm for adults; unless the inmate is attending a community college class or program pursuant to Section 2690 of the Penal Code, in which case such attendance shall be included.

SEC. 7. Section 20905 of the Education Code is amended to read:

20905. For the 1974–75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of

301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation program units of average daily attendance of unified districts in the second principal apportionment divided by the sum of the elementary and high school units of average daily attendance of unified districts in the second principal apportionment.

(d) The inflation adjustment shall be based on the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 2 (commencing with Section 17651), excluding Section 17668.5, Article 2.1 (commencing with Section 17651), and subdivision (a) of Section 17951 as adjusted pursuant to subdivision (e) of Section 17301 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the foundation program level of the district or the prior year revenue limit increased by fifteen percent (15%).

For the 1974–75 and 1975–76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state

equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 10805 and (2) adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 14100. Such adjustment, together with any rate levied in any prior year pursuant to Section 14111, shall not exceed the revenue derived by the tax rate provided in Section 14111. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 1905, 6880.16, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code, Section 7456 of the Education Code for the purposes prescribed in Section 7453, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and (2) the income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 1905, 6880.16, 11872, 15517, 15518, 15708, 15709, 16750, 19443, 19619, 19683.5, 19687, 19688, 19695, 19700.3, 20801, 20911, or 22101 of the Education Code, Section 7456 of the Education Code for the purposes prescribed in Section 7453 of the Education Code, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be

considered first as part of the minimum tax rate limit.

SEC. 8. Section 20450 of the Education Code is amended to read:

20450. (a) The property tax rates that the county superintendent of schools is authorized to levy for special schools and classes shall be determined pursuant to this chapter.

(b) The maximum allowable tax rate for educable mentally retarded and the maximum allowable tax rate for trainable mentally retarded shall be determined for each in the following manner:

(1) The county superintendent shall determine the average expenditure per class, exclusive of capital outlay, for the 1972–73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts, pursuant to Section 885.5, and any other local income other than secured roll property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation on the secured roll of the school districts for which the program is available.

(c) The maximum allowable tax rate for special classes of physically handicapped shall be determined as follows:

(1) The county superintendent shall determine the average expenditure per type of class, exclusive of capital outlay, for the 1972–73 fiscal year;

(2) He shall increase this amount by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the number of classes estimated to be established for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, the local foundation program contribution of the districts pursuant to Section 885.5, and any other local income other than secured roll property tax revenue;

(5) The remainder determined in paragraph (4), if any, may be raised by a tax rate levied on the assessed valuation on the secured roll of the districts for which the program is available.

(d) The maximum allowable tax rate for each of the physically handicapped programs of remedial instruction including special blind instruction, remedial physical education, and individual instruction shall be determined in the following manner:

(1) The county superintendent of schools shall determine the expenditure per average daily attendance, excluding capital outlay, for the 1972–73 fiscal year;

(2) He shall increase the amount per average daily attendance by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, local foundation program contribution of districts pursuant to Section 885.5, and any other local income other than secured roll property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the districts for which each program is available.

(e) The maximum tax rate for the juvenile hall program shall be determined in the following manner:

(1) The county superintendent of schools shall determine an expenditure per unit of average daily attendance, excluding capital outlay, for the 1972–73 fiscal year;

(2) He shall increase the amount per average daily attendance by 5 percent;

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of average daily attendance for the 1973–74 fiscal year;

(4) He shall decrease the amount determined in paragraph (3) by the federal aid, all state aid, and local income other than secured roll property tax revenue;

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the county.

(f) The maximum tax rate for any program in subdivisions (b) to (e), inclusive, for each fiscal year subsequent to the 1973–74 fiscal year shall be determined by:

(1) Increasing the allowed average expenditure per class or average daily attendance for the prior year by a percentage equal to the percentage increase of foundation programs for unified school districts for the then current fiscal year;

(2) Multiplying the amount determined in paragraph (1) by the estimated number of classes or units of average daily attendance projected for the budget year;

(3) Adjusting the amount determined in paragraph (2) by the appropriate methods prescribed in subdivision (b) to (e), inclusive, but exclusive of the increases made pursuant to paragraph (2) of each of such subdivisions, and by any amount which resulted from over or underestimating the average expenditure per class or average daily attendance for the prior fiscal year; the number of classes pursuant to subdivisions (b) and (c); the number of average daily attendance pursuant to subdivisions (d) and (e); the revenue determined in subdivision (b) (4), (c) (4), (d) (4), and (e) (4), and determining the tax rate pursuant to the appropriate subdivision.

(g) The maximum allowable average expenditure per class or average daily attendance may be increased by a majority vote of the qualified electors of the county at an election which may be ordered by the county board of education. Such a proposition may be voted on only in conjunction with a general countywide election.

SEC. 9. Section 20905.5 of the Education Code is amended to read:

20905.5. A district may add in Sections 20904 and 20905 for purposes of increasing the district's revenue limit for the budget year a portion of its loss in average daily attendance when it is anticipated that the estimated second principal apportionment units of average daily attendance, excluding defined adults and summer school average daily attendance, will be less than those of the preceding year. The number of units of average daily attendance to be added is determined as follows:

(a) When the reduction in average daily attendance is less than 1 percent of the preceding year average daily attendance no adjustment is allowed.

(b) When the reduction in average daily attendance is greater than 1 percent of the preceding year average daily attendance, divide the difference in average daily attendance by 1.33 and add the quotient to the estimated average daily attendance of the budget year.

The amount calculated in subdivision (b) shall be considered an addition to the estimated average daily attendance for purposes of increasing the revenue limit, but shall not be used to compute state apportionments.

This amount of adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit in the subsequent year which otherwise would be required pursuant to Section 20907, except that to the extent that actual data differs from the estimated unit of average daily attendance used in this section, Section 20907 shall be applicable.

SEC. 10. Notwithstanding any other provision of law to the contrary, for the 1975–76 fiscal year only, school districts receiving equalization aid shall compute their revenue limit inflation adjustment in the following manner:

The quotient determined pursuant to subdivision (b) of Section 20905 shall be multiplied by sixty-three dollars ($63). To that amount shall be added the amount by which the foundation program increase provided under Section 17669 exceeds sixty-three dollars ($63).

The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

SEC. 11. If this act is chaptered after the Budget Act of 1975, in lieu of the amounts specified by subdivisions (a) and (b) of Section 17301 of the Education Code as amended by Section 3 of this act, and in lieu of the amounts appropriated by subdivision (a) of Item 320.1 of the Budget Act of 1975, there is hereby appropriated for transfer by the State Controller during the 1975–76 fiscal year from the General Fund in the State Treasury to Section A of the State School Fund, such sums as needed, in addition to the sums accruing to Section A of the State School Fund from other sources, as shall provide in Section A of State School Fund for apportionment pursuant to Chapter 1 (commencing with Section 17151), Chapter 2

(commencing with Section 17300), and Chapter 3 (commencing with Section 17601), of Division 14 of the Education Code, during the 1975–76 fiscal year, an amount not to exceed four hundred forty-six dollars and forty-seven cents ($446.47) per pupil in average daily attendance during the preceding fiscal year credited to all kindergarten, elementary, high school, and adult schools in the state and to the county school tuition funds, as certified by the Superintendent of Public Instruction.

Except with respect to paragraph (6) of subdivision (b), this section is not intended to supersede subdivisions (b) to (h), inclusive, of Item 320.1 of the Budget Act of 1975.

The amount specified in paragraph (6) of subdivision (b) of Item 320.1 shall be adjusted to the extent necessary to provide for the apportionment of all amounts transferred to Section A of the State School Fund during the 1975–76 fiscal year by this section and otherwise.

It is the intent of the Legislature that first priority for the funds appropriated by this act be for the continuation of existing programs and the maintenance of existing staffing ratios.

SEC. 12. This act shall become operative on July 1, 1975.

SEC. 13. The amendment to Section 10953 of the Education Code made by Section 1 of this act is declaratory of existing law. Any apportionment of state funds heretofore made which was based upon the attendance of pupils, where such attendance was reported in accordance with Section 10953 of the Education Code as amended by Section 1 of this act, is hereby validated and confirmed and no action shall be taken to recover or invalidate all or part of any such apportionment on the ground that the apportionment was based upon pupil attendance reported in accordance with Section 10953 as amended by Section 1 of this act.

SEC. 15. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the urgently needed additional funds for support of the public schools provided by this act may be made available to the school districts during the 1975–76 fiscal year, and in order that this act will take effect prior to the establishment of the districts' 1975–76 revenue limits, it is essential that this act take effect immediately.

[Approved by Governor August 18, 1975 Filed with Secretary of State August 18, 1975]

The people of the State of California do enact as follows:

SECTION 1. The heading of Chapter 2 (commencing with Section 970) of Part 5 of Division 3.6 of Title 1 of the Government Code is amended to read:

CHAPTER 2. PAYMENT OF JUDGMENTS AGAINST LOCAL PUBLIC ENTITIES

SEC. 2. Section 970 of the Government Code is amended to read:

970. As used in this article:

(a) "Fiscal year" means a year beginning on July 1 and ending on June 30 unless the local public entity has adopted a different fiscal year as authorized by law, in which case "fiscal year" means the fiscal year adopted by such local public entity.

(b) "Judgment" means a final judgment against a local public entity which is founded upon tort or inverse condemnation liability.

(c) "Local public entity" includes a county, city, district, public authority, public agency, and any other political subdivision or public corporation in the state, but does not include the Regents of the University of California and does not include the state or any office, officer, department, division, bureau, board, commission or agency of the state claims against which are paid by warrants drawn by the Controller.

SEC. 3. Section 970.2 of the Government Code is amended to read:

970.2. A local public entity shall pay any judgment in the manner provided in this article. A writ of mandate is an appropriate remedy to compel a local public entity to perform any act required by this article.

SEC. 4. Section 970.4 of the Government Code is amended to read:

970.4. The governing body of a local public entity shall pay, to the extent funds are available in the fiscal year in which it becomes final, any judgment, with interest thereon, out of any funds to the credit of the local public entity that are:

(a) Unappropriated for any other purpose unless the use of such funds is restricted by law or contract to other purposes; or

(b) Appropriated for the current fiscal year for the payment of judgments and not previously encumbered.

SEC. 5. Section 970.6 of the Government Code is amended to read:

970.6. (a) Subject to subdivision (b), if a local public entity does not pay a judgment, with interest thereon, during the fiscal year in which it becomes final, the governing body shall pay the judgment, with interest thereon, during the ensuing fiscal year immediately upon the obtaining of sufficient funds for that purpose.

(b) The court which enters the judgment shall order that the governing body pay the judgment, with interest thereon, in not exceeding 10 annual installments if both of the following conditions are satisfied:

(1) The governing body of the local public entity has adopted an ordinance or resolution finding that an unreasonable hardship will result unless the judgment is paid in installments.

(2) The court, after hearing, has found that payment of the

judgment in installments as ordered by the court is necessary to avoid an unreasonable hardship.

(c) Each installment payment shall be of an equal portion of the principal of the judgment. The local public entity, in its discretion, may prepay any one or more installments or any part of an installment.

(d) The authority to pay a judgment in installments as provided in this section is in addition to and not in lieu of any other law permitting local public entities to pay judgments in installments.

SEC. 6. Section 970.8 of the Government Code is amended to read:

970.8. (a) Each local public entity that derives revenue for its maintenance and operation from taxes or assessments or from rates and charges made for services or facilities provided by the local public entity shall in each fiscal year levy taxes or assessments or make rates and charges or both, or otherwise provide funds, in an amount sufficient to pay all judgments in accordance with this article.

(b) If all or any portion of the revenue used for the maintenance and operation of a local public entity (other than an entity created by an agreement described in Section 895) liable for a judgment is derived from appropriations of another local public entity, such other local public entity shall in each fiscal year appropriate funds equal to its pro rata share of an amount sufficient to permit the local public entity liable for the judgment to pay the judgment in accordance with this article. Such amount shall be paid to the local public entity liable for the judgment and shall be used by such entity to satisfy the judgment. The pro rata share of such other local public entity for each judgment is an amount bearing the same proportion to the total amount of the judgment as the revenue derived from such other local public entity for maintenance and operation during the fiscal year in which the cause of action on such judgment accrued bears to the total revenues used for maintenance and operation during such fiscal year of the local public entity liable for the judgment. For this purpose, such other local public entity shall levy taxes or assessments, make rates and charges, or otherwise provide funds, sufficient in amount to raise the amount of the appropriation and payment required by this section.

SEC. 7. Section 971 of the Government Code is amended to read:

971. Any limitation on the amount of taxes, assessments or rates and charges that may be levied or collected by a local public entity, and any limitation on the amount of appropriations and payments that may be made by a local public entity, and any limitation on the amount of liability or indebtedness that may be incurred by a local public entity, contained in any other statute or in any charter or ordinance, is inapplicable to the taxes, assessments, rates and charges or appropriations levied, collected or made pursuant to this article. For the purposes of Section 2271 of the Revenue and Taxation Code, taxes levied pursuant to this article are levied to pay costs mandated

by the courts.

SEC. 8. Section 971.2 of the Government Code is amended to read:

971.2. (a) All judgments for which a local public entity is liable are legal investments for all trust funds, and for the funds of all insurance companies, banks (both commercial and savings) and trust companies, and for every other local public entity within this state, to the same extent as bonds of the local public entity liable for the judgment.

(b) Whenever any money or funds may by law be invested in or loaned upon the security of bonds of a local public entity, such money or funds may be invested in or loaned upon the security of a judgment for which such local public entity is liable; and whenever bonds of a local public entity may be used as security for the faithful performance or execution of any court or private trust or of any other act, a judgment for which such local public entity is liable may be so used.

(c) All judgments for which a local public entity is liable, to the same extent as bonds of such local public entity, are legal for use by any state or national bank or banks in the state as security for the deposit of funds of any local public entity within this state.

Article 5. Powers—Generally

72067. The board may exercise all of its powers and duties in regard to improvement districts established by this chapter in the same manner as to improvement districts otherwise formed under the provisions of this division, in addition to the manner otherwise provided in this chapter.

72068. Any portion of the district, whether contiguous or not to an improvement district established by this chapter, may be annexed to such improvement district in the manner provided in Chapter 1 (commencing with Section 72670) of Part 11 of this division.

72069. Any portion of the district may be excluded from an improvement district established by this chapter in the manner provided in Chapter 5 (commencing with Section 72040) of this part.

72070. The board may advance general funds of the district to accomplish the purposes of an improvement district performed pursuant to this chapter.

72071. The board may repay the district for any advance of funds, together with interest, at a rate not to exceed the interest value of money to the district, from any combination of the following sources:

The authorization of the bonds by the voters shall constitute authorization of the ad valorem property tax herein provided and no election need be held as provided in Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

SEC. 9. Article 6 (commencing with Section 72072) is added to

Chapter 6 of Part 8 of Division 20 of the Water Code, to read:

Article 6. Powers—Utility Tax

72072. In addition to the powers otherwise provided for improvement districts under this division, the board shall have the power to levy a utility tax, as provided by this article, on every person using water within any of the improvement districts established by this chapter or on every person using water within the service area of any retail water purveyor within any such improvement district.

72072.1. Nothing in this article shall be construed as imposing a tax upon any person when the imposition of such tax upon that person would be in violation of the Constitution of the United States or the Constitution of this state.

72072.2. Notwithstanding any other provision of law to the contrary, persons subject to the jurisdiction of the Public Utilities Commission need not obtain an authorization from the commission to comply with the provisions of this article.

72072.3. The board hereby is authorized to impose a tax upon every person using water within any of the improvement districts established by this chapter or on every person using water within the service area of any retail water purveyor within any such improvement district, at the rate and in the manner provided in this article. The tax imposed by this section shall be a percentage of the charges made for such use of water and shall be paid by the person paying for such water.

72072.4. The tax imposed in this article shall be collected from the service user by the service supplier. The amount collected in one month shall be remitted to the board on or before the last day of the following month.

72072.5. The taxes imposed by this article shall be collected, insofar as practicable, at the same time as, and along with, the charges made in accordance with the regular billing practice of the service supplier. If the amount paid by a service user to a service supplier is less than the full amount of the charge and the tax which has accrued for the billing period, a proportionate share of both the charge and the tax shall be deemed to have been paid.

72072.6. Taxes collected from the service user which are not remitted to the board on or before the due dates provided in this article are delinquent.

72072.7. Interest and penalties for delinquency in remittance of any tax collected by a service supplier and not remitted to the board shall be assessed as follows:

(a) Any service supplier who fails to remit any tax imposed by this article within 30 days after receipt of written notice from the board of such failure shall pay a penalty of 10 percent of the amount of the tax.

(b) If the board determines that the nonpayment of any remittance due under this article is due to fraud, a penalty of 25

percent of the amount of the tax shall be added thereto in addition to the penalty stated in subdivision (a).

(c) In addition to the penalties imposed in this section, any service supplier who fails to remit any tax imposed by this part, shall pay interest at the rate of 1 percent per month, or fraction thereof, on the amount of the tax exclusive of penalties, from the date on which the remittance first became delinquent until paid.

72072.8. Failure by a service user to pay any tax imposed by this article shall result in the following interest and penalties on the service user:

(a) Any service user who fails to pay any tax imposed by this article within 90 days of the date of receipt of notice of the amount of tax due from the service supplier shall pay a penalty of 10 percent of the amount of the unpaid tax.

(b) In addition to the penalty imposed in this section, any service user who fails to pay any tax imposed by this article, shall pay interest at the rate of 6 percent per annum, exclusive of penalties, from the date on which the remittance first became delinquent until paid, and a collection charge of five dollars ($5) for each delinquent account.

(c) The penalties, interest, and collection charges imposed by this section shall not be billed or collected by the service supplier, but shall be determined and collected by the board.

72072.9. Any tax required to be paid by a service user under the provisions of this article shall be deemed a debt owed by the service user to the district. Any tax collected from a service user which has not been remitted to the board shall be deemed a debt owed to the district by the person required to collect and remit such tax. Nothing in this article shall impose any obligation upon a service supplier to take any legal action to enforce the collection of the utility users tax imposed by this article. Amounts uncollected by a service supplier shall be referred to the board for collection.

72072.10. The board shall enforce the provisions of this article and may prescribe, adopt and enforce rules and regulations relating to the administration and enforcement of this article. The board shall not prescribe, adopt or enforce any rule or regulation which has the effect, directly or indirectly, of altering the terms and conditions of service of a service supplier serving the general public. Rules and regulations prescribed and adopted by the board shall not be inconsistent with procedures established from time to time by a service supplier serving the general public for the purpose of billing, collecting and accounting for charges in the conduct of its business.

72072.11. Whenever the amount of any tax has been overpaid or paid more than once or had been erroneously or illegally collected or received by the board, it may be refunded, provided that a claim therefor in writing is filed with the board within two years of the date of payment.

72072.12. Notwithstanding the provisions of Section 72072.11, a service supplier may claim a refund or take as credit against taxes collected and remitted the amount overpaid, paid more than once,

or erroneously or illegally collected or received when it is established in a manner prescribed by the board that the service user from whom the tax has been collected did not owe the tax; provided, however, that neither a refund nor a credit shall be allowed unless the amount of the tax so collected has either been refunded to the service user or credited to charges subsequently payable by the service user to the person required to collect and remit.

SEC. 10. Article 7 (commencing with Section 72073) is added to Chapter 6 of Part 8 of Division 20 of the Water Code, to read:

Article 7. Determination of and Alternative Methods of Payment of Debt Service and Costs of Maintenance and Operation

72073. The board annually shall cause to be prepared a written report stating the reasons for and conclusions of the board upon the following, together with any additional information deemed by the board to be relevant to such conclusions:

(a) The amount of the total debt service payable by the district for the following fiscal year on any bonded indebtedness incurred pursuant to this chapter, and the estimated maintenance and operation costs of the improvements for such fiscal year.

(b) The amount of such total debt service and maintenance and operation costs proposed to be raised in each of the improvement districts established under the provisions of this chapter, in accordance with the estimated benefits to be received by the landowners, water users, and inhabitants of each such improvement district during the following fiscal year.

(c) The projected retail water sales within each such improvement district for the following fiscal year, stated by volume and anticipated revenue.

Such report shall be mailed at least 20 days before the hearing provided for in Section 72074 to (1) each retail water purveyor with a service area wholly or partly within the district, and (2) any other interested party having made written request therefor at least 20 days before such hearing.

72074. Annually, prior to approving the annual budget for the district, the board of directors shall hold a public hearing for the purpose of considering the report made pursuant to this article, and to determine the amount of debt service and maintenance and operation costs to be raised in each of the improvement districts established hereby and the method of payment of such amount in each such improvement district.

72075. Notice of the hearing to be held pursuant to Section 72074 shall be given by publishing a copy, pursuant to Section 6066 of the Government Code, at least 15 days prior to the time fixed for the hearing in a newspaper of general circulation within the district, if there is a newspaper of such circulation within the district. Such notice also shall be given by posting a copy in three public places within each of the improvement districts established under this

chapter for at least two weeks before the time fixed for the hearing.

The notice of such hearing shall state the following:

(a) The time and place for the hearing by the board.

(b) The amount of such debt service and maintenance and operation costs proposed to be raised in each improvement district established by this chapter.

(c) That an ad valorem tax will be levied in each improvement district in an amount sufficient to pay the bond debt service and maintenance and operation costs required for the following fiscal year by each improvement district, to the extent that alternative methods of payment are not available for such purpose under the provisions of this chapter.

(d) That at such time and place any person interested will be heard on the questions of such amount of debt service and maintenance and operation costs and the availability of such alternative methods of payment.

72076. At the conclusion of the hearing, the board shall, by resolution, determine the following:

(a) The amount of the total debt service on any bond indebtedness incurred pursuant to this chapter and the amount of the maintenance and operation costs to be paid by each improvement district established hereunder, in accordance with the estimated benefits to be received by the landowners, water users, and inhabitants of each such improvement district.

(b) The method of payment of such debt service and maintenance and operation costs in each such improvement district.

72077. The amount of such debt service and maintenance and operation costs to be raised in each improvement district established under this chapter shall be paid by an ad valorem tax, to the extent that such payment is not paid by one or more of the following alternative methods:

(a) Payment of funds to the district from water revenues or other income of the retail water purveyors within each such improvement district pursuant to a contract therefor, which shall constitute a lien upon such revenues and income. Notwithstanding the foregoing, such payment shall not be used unless and until a declaration of a majority of purveyors, stating their intention to use a specified amount of water service revenues or other income as such an alternative method of payment is filed with the board and there is shown to the satisfaction of the board that the financial condition of such purveyor reasonably will assure such payment. Such payment shall be made to the district on or before the date on which it would have received funds if it levied an ad valorem tax in lieu of such alternative method of payment.

If any such purveyor fails to make any or all of such payment, the amount of such delinquency, plus a penalty of 8 percent per annum, shall be paid by such defaulting purveyor through appropriate proceedings brought by the district.

(b) Collection of the utility tax pursuant to Sections 72072 to

72072.12, inclusive.

(c) Water standby or availability charges in any such improvement district fixed pursuant to Article 2 (commencing with Section 71630) of Chapter 2 of Part 5 of this division.

(d) Water revenues of the district derived from sales of water within each such improvement district pursuant to Article 1 (commencing with Section 71610) of Chapter 2 of Part 5 of this division.

The board shall not use any of such alternative methods of payment if a written protest against such use is filed with the board, prior to the conclusion of the hearing held pursuant to this chapter, by the retail water purveyors within each such improvement district providing the majority of retail water service within such improvement district by volume and number of services.

Notwithstanding the foregoing, if such a written protest is filed, the board may nonetheless use any such alternative means of payment, other than that specified in subdivision (a), upon the affirmative vote of four directors.

SEC. 11. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

SEC. 12. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Facts and circumstances exist in the Pomona Valley Municipal Water District in Los Angeles County, peculiar to that district, which necessitate the special provisions and procedures provided by this act for permitting the creation of a districtwide bond debt for water facilities, while allowing the creation of improvement districts with local options as to the method of servicing such bond debt and paying maintenance and operation costs of such facilities; namely, because of the extreme rapid population growth occurring in some areas of the district without ground water supplies, the general deterioration of quality and quantity of local supplies, the urgent need for increased selective use and protection of local water supplies, the increasing threat to local water supplies through the presence of nitrates, and the extreme diversity of development, water sources, water needs, and types of water purveyors, among other urgent water-related problems. The Pomona Valley Municipal Water District needs to hold an election in 1975 pursuant to this chapter and these amendments must be effective prior thereto. It is necessary, therefore, that this act go into immediate effect.

CHAPTER 292

An act to add Section 21855 to the Food and Agricultural Code, relating to cattle.

[Approved by Governor August 18, 1975 Filed with Secretary of State August 18, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 21855 is added to the Food and Agricultural Code, to read:

21855. Notwithstanding any other provision of law, in any action for the wrongful taking, possessing, harboring, or transporting of cattle, for the driving of cattle off their usual range, or for the killing or slaughter of cattle without the consent of the owner or the person lawfully in possession of such cattle, the detriment caused thereby to the plaintiff shall be four times the value of the cattle at the time of the taking, possessing, harboring, transporting, or driving, or killing or slaughtering thereof, with interest from that time, plus an amount in fair compensation for the time and money properly expended by the plaintiff in pursuit of the cattle.

In a proper case, which shall include the killing or slaughter of cattle, exemplary damages may be awarded to the plaintiff as provided in Section 3340 of the Civil Code.

The commencement of any criminal prosecution for grand theft of cattle shall not preclude or prevent the commencement of any civil action for damages, as specified in this section.

CHAPTER 293

An act to amend Sections 6402, 8708, and 12774 of, and to add Section 11057 to, the Education Code, relating to public schools, and declaring the urgency thereof, to take effect immediately.

SEC. 3. Section 11057 is added to the Education Code, to read:

11057. Notwithstanding Section 11055, the governing board of any school district may permit a 12th grade student in his last semester or quarter, as the case may be, before graduation, who is enrolled in a work experience education program approved under the provisions of Article 5.5 (commencing with Section 5985) of Chapter 6 of Division 6 and who would complete all of the requirements for graduation by attending high school, except courses of physical education, for less than 180 minutes each day, to attend high school for less than a minimum day of 180 minutes, upon the written request of a parent or legal guardian or upon his own request if he is 18 years of age or over. Attendance pursuant to this section shall, for apportionment purposes, be deemed to be attendance for a minimum day of 180 minutes.

SEC. 4. Section 12774 of the Education Code is amended to read:

SEC. 5. Section 12774 of the Education Code is amended to read:

12774. Except in personnel attendance occupations, as defined in the Industrial Welfare Commission Minimum Wage Order No. 1-74, and school approved work experience and cooperative vocational education programs, no employer shall employ a minor for more than four fours in any day in which such minor is required by law to attend school for 240 minutes or more each schoolday. No employer shall employ any minor under the age of 18 years in any agricultural occupation for more than 20 hours in any schoolweek in which such minor is required by law to attend school for 240 minutes or more each schoolday. Minors 16 and 17 years of age shall not work in any agricultural occupation more than six hours a day they are required to attend school for 240 minutes or more each schoolday. Minors 14 and 15 years of age shall not work in any agricultural occupation more than four hours on a schoolday. Holidays and days school is not in session are not covered by this section. If evidence is shown to the satisfaction of the person issuing the permit that the schoolwork or the health of the minor is being impaired by the employment, the

authority issuing the permit may revoke it.

SEC. 6. It is the intent of the Legislature, if this bill and Assembly Bill No. 436 are both chaptered and become effective on or before January 1, 1976, both bills amend Section 12774 of the Education Code, and this bill is chaptered after Assembly Bill No. 436, that Section 12774 of the Education Code, as amended by Section 4 of this act, shall remain operative until the effective date of Assembly Bill No. 436, and that on the effective date of Assembly Bill No. 436 Section 12774 of the Education Code, as amended by Section 4 of this act, be further amended in the form set forth in Section 5 of this act to incorporate the changes in Section 12774 proposed by Assembly Bill No. 436. Therefore, if this bill and Assembly Bill No. 436 are both chaptered and become effective on or before January 1, 1976, and Assembly Bill No. 436 is chaptered before this bill and amends Section 12774, Section 5 of this act shall become operative on the effective date of Assembly Bill No. 436.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Senate Bill No. 1856 of the 1973–74 Regular Session of the Legislature was enacted as Chapter 675 of the Statutes of 1974 and added Sections 8708 and 11056 to the Education Code. Questions have been raised regarding its applications which, unless resolved immediately, may lead to confusion and misinterpretation in the public schools. Therefore, it is necessary that this act go into immediate effect.

CHAPTER 294

The board may commence and maintain such eminent domain proceedings in the Public Utilities Commission or the superior court at its option.

(c) To the extent feasible, transportation rights-of-way of public entities shall be utilized to minimize the cost of construction.

(b) That there is an absence of an adequate forum in which local officials may exercise leadership in multimodal near-term transportation planning and programming.

120351. The board is hereby designated as the designated recipient for purposes of Section 1604 of Title 49 of the United States Code for the area under its jurisdiction. If authorized by federal law and rules and regulations, the Governor may act as a designated recipient with the board.

Secretary of State August 25, 1975]

SECTION 1. Section 6871 of the Education Code is amended to read:

6871. With the approval of the county superintendent of schools, any school district having a physically handicapped pupil, mentally retarded pupil, severely mentally retarded pupil, or multiply handicapped pupil for whom special education facilities and services as prescribed by Section 6870 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, shall, and any school district having an educationally handicapped pupil for whom special education facilities and services as prescribed by Section 6870 are not available or cannot be reasonably provided, and for whom the State of California has no appropriate special education facilities and services, may, in lieu of establishing and maintaining the needed special education facilities and services at an unreasonable cost to the district, pay to the parent or guardian of such pupil toward the

tuition for such pupil, enrolled in a public or private nonsectarian school, institution, or agency within or outside of California offering the special education facilities and services made necessary by the pupil's disabilities, an amount not to exceed the sum per unit of average daily attendance of the regular state apportionment to the district for the fiscal year in question, the amount allowable per unit of average daily attendance for the particular category under Section 18102, 18102.2, 18102.4, or 18102.6, and paragraph (a) of subdivision (2) of Section 18102.9 for educationally handicapped pupils who are diagnosed as being autistic, the amount allowable per unit of average daily attendance for the particular category under Section 18060, and the amount per unit of average daily attendance provided from revenue derived from district taxation for the current expense of education of a normal child in the schools of the district. The amount per unit of average daily attendance provided from revenue derived from district taxation shall be the local share of the revenue limit determined pursuant to Sections 20904, 20905, and 20906. As used in this article "tuition" includes the cost to the parent or guardian of transporting a pupil enrolled in a public or private nonsectarian school, institution, or agency under this section to and from school.

The provisions of this section shall be applicable as well to situations where the special educational facilities and services are available but are an unreasonable distance away from the home of the pupil. The Superintendent of Public Instruction shall adopt rules and regulations to implement the determination of the unreasonableness of such cost and distance, and any other rules and regulations deemed necessary by him for the effective administration of this chapter. The county superintendent of schools shall make a finding as to the unreasonableness of such cost or distance for the school districts within his jurisdiction and shall report such findings to the Superintendent of Public Instruction, who, if he approves such findings, shall authorize payments pursuant to this section and Sections 6872 and 6873.

Priority in providing special education facilities and services shall

be given to public school, or state-operated, programs. State and school district support for an exceptional child's education at a private nonsectarian school, institution, or agency shall be approved pursuant to this chapter only if no publicly operated programs are available to the pupil within a reasonable distance from his residence, or if such programs do not meet the specialized needs of the pupil, as determined under the procedures established by this chapter. Priority in approving private nonsectarian schools, institutions, or agencies shall be given to the nearest such school, institution, or agency from where the parent or guardian of the exceptional child resides and which provides training and education as defined in Section 6870.

In instances where public funds are paid to the parent or guardian of a pupil pursuant to this section, toward the tuition of such pupil enrolled in a private nonsectarian school, institution, or agency, the school, institution, or agency enrolling such pupil shall at the end of each school year submit a written progress report on each such pupil on forms provided by the Superintendent of Public Instruction, and shall forward such forms to the county superintendent of schools of the county authorizing placement. Such reports shall be used by the county superintendents of schools to determine continued eligibility for placement and reimbursement under this chapter.

In no event shall the total of any allowances or apportionments of state funds be made to a school district in behalf of a pupil receiving an allowance pursuant to this section in excess of the total of such amounts which would have been allowed or apportioned to the district if the pupil were in attendance at a school in the district.

terms less favorable than those offered to a person of the opposite sex seeking the same type of credit and managing and controlling the same amount of earnings and other property.

(c) No unmarried person shall be denied credit if his or her earnings and other property are such that a married person managing and controlling the same amount of earnings and other property would receive credit.

Spousal and child support payments shall be considered in the same manner as earnings from salary, wages, or other sources where the payments are received pursuant to a written agreement or court decree to the extent that the reliability of such payments is established. The factors which a creditor may consider in evaluating the reliability of such payments are the length of time payments have been received; the regularity of receipt; and whether full or partial payments have been made.

(h) Nothing in this chapter shall be construed to prohibit a person from: (1) utilizing an evaluation of the reliability of earnings provided that such an evaluation is applied to persons without regard to their sex or marital status; or (2) inquiring into and utilizing an evaluation of the obligations for which community property is liable pursuant to the provisions of Title 8 (commencing with Section 5100) of Part 5 of Division 4 for the sole purpose of determining the creditor's rights and remedies with respect to the particular extension of credit, provided that such is done with respect to all applicants without regard to their sex; or (3) utilizing any other relevant factors or methods in determining whether to extend credit to an applicant provided that such factors or methods are applicable to all applicants without regard to their sex or marital status. For the purpose of this subdivision, the fact that an applicant is of childbearing age is not a relevant factor

SEC 2. Section 1812.31 of the Civil Code is amended to read:

1812.31 (a) Whoever violates Section 1812.30 shall be liable to the aggrieved person in an amount equal to the sum of any actual

damages sustained by such person acting either in an individual capacity or as a representative of a class.

(b) Whoever violates Section 1812.30 shall be liable to the aggrieved person for punitive damages in an amount not greater than ten thousand dollars ($10,000), as determined by the court, in addition to any actual damages provided in subdivision (a); provided, however, that in pursuing the recovery allowed under this subdivision, the aggrieved person may proceed only in an individual capacity and not as a representative of a class.

In determining the amount of the award in any class action, the court shall consider, among other relevant factors, the amount of any actual damages awarded, the frequency and persistence of violations, the resources of the creditor, the number of persons adversely affected, and the extent to which the creditor's violation was intentional.

SEC. 3. Section 1812.32 is added to the Civil Code as follows:

1812.32. Any person, corporation, firm, partnership, joint stock company, or any other association or organization which violates or proposes to violate this chapter may be enjoined by any court of competent jurisdiction. (c) If such an action is brought by the Attorney General, one-half of the penalty collected pursuant to this section shall be paid to the treasurer of the county in which the judgment was entered, and one-half to the State Treasurer. If brought by a district attorney or county counsel, the entire amount of the penalty collected shall be paid to the treasurer of the county in which the judgment was

It is the intent of the Legislature that the amendments to Section 377 of the Code of Civil Procedure made by Section 1 of this act eliminate the additional requirements imposed by law, in the form of specified survivors, for the maintenance of a wrongful death action for the death of a minor and include the putative spouse, children of the putative spouse, stepchildren, and parents within the class of persons who may maintain an action for wrongful death if they were dependent on the decedent. It is the further intent of the Legislature that the amendment to Section 377 of the Code of Civil Procedure made by Section 1 of this act including dependent stepchildren within the class of persons who may maintain an action for wrongful death alter the rule of law enunciated in the decision of the California Supreme Court in Steed v. The transfer, pursuant to Resolution R-74-3460 of the Board of Supervisors of San Joaquin County adopted December 12, 1974, of certain territory from the Lodi Unified School District of San Joaquin County to the Holt Union Elementary School District of San Joaquin County and, by operation of law, to the Tracy Joint Union High School District would, if valid, take effect for all purposes on July 1, 1975, which is long before the effective date of ordinary statutes enacted by the Legislature in 1975. Questions have arisen as to the technical validity of the publication of the related notice, as required by statute The publication in question substantially fulfilled the purpose, if not the letter, of the statute. In order that such substantial compliance may be ratified, validated, confirmed, and declared legally valid for all purposes prior to July 1, 1975, when such transfer would become effective for all purposes, and in order that public funds not be expended in possible litigation over such technicalities, it is necessary that this act take effect immediately.

Also, the transfer, pursuant to Resolution 305.600/309 of the Board of Supervisors of Ventura County adopted June 4, 1974, of certain territory from the Ventura Unified School District of Ventura County to the Ojai Unified School District of Ventura County would if valid, take effect for all purposes on July 1, 1975, which is long before the effective date of ordinary statutes enacted by the Legislature in 1975. In order that such substantial compliance may be

ratified, validated, confirmed, and declared legally valid for all purposes prior to July 1, 1975, when such transfer would become effective for all purposes, it is necessary that this act take effect immediately.

CHAPTER 354

An act to amend the heading of Article 2 (commencing with Section 16370) of Chapter 2 of Division 7 of, and to amend Section 16370 of, the Vehicle Code, relating to driver's license suspensions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 25, 1975 Filed with Secretary of State August 25, 1975]

The people of the State of California do enact as follows:

SECTION 1. The heading of Article 2 (commencing with Section 16370) of Chapter 2 of Division 7 of the Vehicle Code is amended to read·

Article 2 Suspension of Driving Privilege

SEC. 2 Section 16370 of the Vehicle Code is amended to read:

16370 The department shall suspend the privilege of any person to operate a motor vehicle upon receiving a copy of a judgment, and

a certificate of facts relative to the judgment, on a form provided by the department, indicating that the person has failed for a period of 30 days to satisfy a judgment rendered against him.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because statutes enacted at the 1973–74 session of the Legislature deleted provisions of law requiring the Department of Motor Vehicles to restore suspended registration cards and license plates while also reinstating the requirement that the department suspend the registration cards and license plates issued in the name of judgment debtors who for 30 days have failed to satisfy judgment, the department is placed in an untenable position in administering the law, and it is therefore necessary that this act take effect immediately.
