(2) Approval of the shareholders (Section 153), with the shares owned by the person to be indemnified not being entitled to vote thereon; or

(3) The court in which such proceeding is or was pending upon application made by the corporation or the agent or the attorney or other person rendering services in connection with the defense, whether or not such application by the agent, attorney or other

person is opposed by the corporation.

(f) Expenses incurred in defending any proceeding may be advanced by the corporation prior to the final disposition of such proceeding upon receipt of an undertaking by or on behalf of the agent to repay such amount unless it shall be determined ultimately that the agent is entitled to be indemnified as authorized in this section.

(g) No provision made by a corporation to indemnify its or its subsidiary's directors or officers for the defense of any proceeding, whether contained in the articles, bylaws, a resolution of shareholders or directors, an agreement or otherwise, shall be valid unless consistent with this section. Nothing contained in this section shall affect any right to indemnification to which persons other than such directors and officers may be entitled by contract or otherwise.

(h) No indemnification or advance shall be made under this section, except as provided in subdivision (d) or subdivision (e) (3), in any circumstance where it appears:

(1) That it would be inconsistent with a provision of the articles, bylaws, a resolution of the shareholders or an agreement in effect at the time of the accrual of the alleged cause of action asserted in the proceeding in which the expenses were incurred or other amounts were paid, which prohibits or otherwise limits indemnification; or

(2) That it would be inconsistent with any condition expressly imposed by a court in approving a settlement.

(i) A corporation shall have power to purchase and maintain insurance on behalf of any agent of the corporation against any liability asserted against or incurred by the agent in such capacity or arising out of the agent's status as such whether or not the corporation would have the power to indemnify the agent against such liability under the provisions of this section.

CHAPTER 4. SHARES AND SHARE CERTIFICATES

400. A corporation may issue one or more classes or series of shares or both, with full, limited or no voting rights and with such other rights, preferences, privileges and restrictions as are stated or authorized in its articles. No denial or limitation of voting rights shall be effective unless at the time one or more classes of outstanding shares or debt securities, singly or in the aggregate, are entitled to full voting rights; and no denial or limitation of dividend or liquidation rights shall be effective unless at the time one or more classes of outstanding shares, singly or in the aggregate, are entitled to unlimited dividend and liquidation rights.

401. (a) Before any corporation issues any shares of any class or series of which the rights, preferences, privileges and restrictions, or any of them, or the number of shares constituting any series or the designation of such series, are not set forth in its articles but are fixed in a resolution adopted by the board pursuant to authority given by its articles, an officers' certificate setting forth a copy of the

resolution, the number of shares of the class or series and that none of the shares of such class or series has been issued shall be executed and filed.

(b) After any certificate of determination has been filed, but before the corporation issues any shares of the class or series covered thereby, the board may alter or revoke any right, preference, privilege or restriction fixed or determined by the resolution set forth therein by the adoption of another resolution appropriate for that purpose and the execution and filing of an officers' certificate setting forth a copy of the resolution, and stating that none of the shares of the class or the series affected has been issued. No right, preference, privilege or restriction may be altered or revoked after the issue of any shares of the class or series specifically affected other than by amendment to the articles pursuant to Chapter 9.

(c) After any certificate of determination has been filed, the board may, if authorized in the articles pursuant to subdivision (e) of Section 202, increase or decrease the number of shares constituting any series, by the adoption of another resolution appropriate for that purpose and the execution and filing of an officers' certificate setting forth a copy of such resolution, the number of shares of such series then outstanding and the increase or decrease in the number of shares constituting such series. If any such certificate of determination has been incorporated in restated articles filed pursuant to Section 910, the action authorized by this subdivision may, notwithstanding Section 902, be accomplished by an amendment of the articles approved by the board alone.

402. (a) A corporation may provide in its articles for one or more classes or series of shares which are redeemable, in whole or in part, at the option of the corporation only (except as provided in subdivision (b)), at such price or prices, within such time or upon the happening of one or more specified events and upon such terms and conditions as are stated in the articles.

(b) A corporation shall not issue redeemable or other shares which purport by their terms to grant to any holder thereof the right to compel the corporation to redeem such shares, except that an open-end investment company registered under the United States Investment Company Act of 1940 may, if its articles so provide, issue shares which are redeemable at the option of the holder at a price approximately equal to the shares' proportionate interest in the net assets of the corporation and a shareholder may compel redemption of such shares in accordance with their terms.

(c) No redeemable common shares, other than (1) those authorized under subdivision (b), (2) shares of a corporation which has a license or franchise from a governmental agency to conduct its business or is a member corporation of a national securities exchange registered under the United States Securities Exchange Act of 1934, which license, franchise or membership is conditioned upon some or all of the holders of its stock possessing prescribed qualifications, to the extent necessary to prevent the loss of such license, franchise or

membership or to reinstate it, or (3) shares of a professional corporation as defined in Part 4 of Division 3 of this title, shall be issued or redeemed unless the corporation at the time has outstanding a class of common shares that is not subject to redemption.

(d) Nothing in this section shall prevent a corporation from creating a sinking fund or other provision for, or entering into an agreement for, the redemption or purchase of its shares to the extent permitted by Chapter 5.

403. (a) When so provided in the articles, a corporation may issue shares convertible within such time or upon the happening of one or more specified events and upon such terms and conditions as are stated in the articles:

(1) At the option of the holder only or automatically upon the happening of one or more specified events, into shares of any class or series; or

(2) If it is a corporation which has a license or franchise from a governmental agency to conduct its business or a member corporation of a national securities exchange registered under the United States Securities Exchange Act of 1934, the license, franchise or membership of which is conditioned upon some or all of the holders of its stock possessing prescribed qualifications, to the extent necessary to prevent the loss of such license, franchise or membership or to reinstate it, at the option of the corporation, into shares of any class or series or into any other security of the corporation.

(b) Unless otherwise provided in the articles, a corporation may issue its debt securities convertible into other debt securities or into shares of the corporation within such time or upon the happening of one or more specified events and upon such terms and conditions as are fixed by the board.

404. Either in connection with the issue, subscription or sale of any of its shares, bonds, debentures, notes or other securities or independently thereof, a corporation may grant options to purchase or subscribe for shares of any class or series upon such terms and conditions as may be deemed expedient. Option rights may be transferable or nontransferable and separable or inseparable from other securities of the corporation.

405. (a) If at the time of granting option or conversion rights or at any later time the corporation is not authorized by its articles to issue all the shares required for the satisfaction of the rights, if and when exercised, the additional number of shares required to be issued upon the exercise of such option or conversion rights shall be authorized by an amendment to the articles.

(b) If a corporation has obtained approval of the outstanding shares (Section 152) for the issue of options to purchase shares or of securities convertible into shares of the corporation, the board may, without further approval of the outstanding shares (Section 152), amend the articles to increase the authorized shares of any class or

series to such number as will be sufficient from time to time, when added to the previously authorized but unissued shares of such class or series, to satisfy any such option or conversion rights.

406. Unless the articles provide otherwise, the board may issue shares, options or securities having conversion or option rights without first offering them to shareholders of any class.

407. A corporation may, but is not required to, issue fractions of a share originally or upon transfer. If it does not issue fractions of a share, it shall in connection with any original issuance of shares (a) arrange for the disposition of fractional interests by those entitled thereto, (b) pay in cash the fair value of fractions of a share as of the time when those entitled to receive such fractions are determined or (c) issue scrip or warrants in registered or bearer form which shall entitle the holder to receive a certificate for a full share upon the surrender of such scrip or warrants aggregating a full share; provided, however, that a merger or reorganization agreement may provide that fractions of a share will be disregarded or that shares issuable in the merger will be rounded off to the nearest whole share if the fraction of a share which any person would otherwise be entitled to receive in the merger or reorganization is less than one-half of 1 percent of the total shares such person is entitled to receive; and provided, further, that a corporation may not pay cash for fractional shares if such action would result in the cancellation of more than 10 percent of the outstanding shares of any class. A determination by the board of the fair value of fractions of a share shall be conclusive in the absence of fraud. A certificate for a fractional share shall, but scrip or warrants shall not unless otherwise provided therein, entitle the holder to exercise voting rights, to receive dividends thereon and to participate in any of the assets of the corporation in the event of liquidation. The board may cause scrip or warrants to be issued subject to the condition that they shall become void if not exchanged for certificates representing full shares before a specified date or that the shares for which scrip or warrants are exchangeable may be sold by the corporation and the proceeds thereof distributed to the holder of the scrip or warrants or any other condition which the board may impose.

408. (a) A corporation may adopt and carry out a stock purchase plan or agreement or stock option plan or agreement providing for the issue and sale for such consideration as may be fixed of its unissued shares, or of issued shares acquired or to be acquired, to one or more of the employees or directors of the corporation or of a subsidiary or to a trustee on their behalf and for the payment for such shares in installments or at one time, and may provide for aiding any such persons in paying for such shares by compensation for services rendered, promissory notes or otherwise.

(b) A stock purchase plan or agreement or stock option plan or agreement may include, among other features, the fixing of eligibility for participation therein, the class and price of shares to be issued or sold under the plan or agreement, the number of shares

which may be subscribed for, the method of payment therefor, the reservation of title until full payment therefor, the effect of the termination of employment, an option or obligation on the part of the corporation to repurchase the shares upon termination of employment, subject to the provisions of Chapter 5, restrictions upon transfer of the shares and the time limits of and termination of the plan.

409. (a) Shares may be issued:

(1) For such consideration as is determined from time to time by the board, or by the shareholders if the articles so provide, consisting of any or all of the following: money paid; labor done; services actually rendered to the corporation or for its benefit or in its formation or reorganization; debts or securities canceled; and tangible or intangible property actually received either by the issuing corporation or by a wholly owned subsidiary; but neither promissory notes of the purchaser (unless adequately secured by collateral other than the shares acquired or unless permitted by Section 408) nor future services shall constitute payment or part payment for shares of the corporation; or

(2) As a share dividend or upon a stock split, reverse stock split, reclassification of outstanding shares into shares of another class, conversion of outstanding shares into shares of another class, exchange of outstanding shares for shares of another class or other change affecting outstanding shares.

(b) Except as provided in subdivision (d), shares issued as provided in this section or Section 408 shall be declared and taken to be fully paid stock and not liable to any further call nor shall the holder thereof be liable for any further payments under the provisions of this division. In the absence of fraud in the transaction, the judgment of the directors as to the value of the consideration for shares shall be conclusive.

(c) If the articles reserve to the shareholders the right to determine the consideration for the issue of any shares, such determination shall be made by approval of the outstanding shares (Section 152).

(d) A corporation may issue the whole or any part of its shares as partly paid and subject to call for the remainder of the consideration to be paid therefor. On the certificate issued to represent any such partly paid shares the total amount of the consideration to be paid therefor and the amount paid thereon shall be stated. Upon the declaration of any dividend on fully paid shares, the corporation shall declare a dividend upon partly paid shares of the same class, but only upon the basis of the percentage of the consideration actually paid thereon.

(e) The board shall state by resolution its determination of the fair value to the corporation in monetary terms of any consideration other than money for which shares are issued.

410. (a) Every subscriber to shares and every person to whom shares are originally issued is liable to the corporation for the full

consideration agreed to be paid for the shares.

(b) The full agreed consideration for shares shall be paid prior to or concurrently with the issuance thereof, unless the shares are issued as partly paid pursuant to subdivision (d) of Section 409, in which case the consideration shall be paid in accordance with the agreement of subscription or purchase.

411. A transferee of shares for which the full agreed consideration has not been paid to the issuing corporation, who acquired them in good faith, without knowledge that they were not paid in full or to the extent stated on the certificate representing them, is liable only for the amount shown by the certificate to be unpaid on the shares represented thereby, until the transferee transfers the shares to one who becomes liable therefor; provided that the transferor shall remain personally liable if so provided on the certificate or agreed upon in writing. The liability of any holder of such shares who derives title through such a transferee and who is not a party to any fraud affecting the issue of the shares is the same as that of the transferee through whom title is derived.

412. Every transferee of partly paid shares who acquired them under a certificate showing the fact of part payment, and every transferee of such shares (other than a transferee who derives title through a holder in good faith without knowledge and who is not a party to any fraud affecting the issue of such shares) who acquired them with actual knowledge that the full agreed consideration had not been paid to the extent stated on the certificate therefor, is personally liable to the corporation for installments of the amount unpaid becoming due until the shares are transferred to one who becomes liable therefor; provided that the transferor shall remain personally liable if so provided on the certificate or agreed upon in writing.

413. A person holding shares as pledgee, executor, administrator, guardian, trustee, receiver or in any representative or fiduciary capacity is not personally liable for any unpaid balance of the subscription price of the shares because the shares are so held but the estate and funds in the hands of such fiduciary or representative are liable and the shares are subject to sale therefor.

414. (a) No action shall be brought by or on behalf of any creditor to reach and apply the liability, if any, of a shareholder to the corporation to pay the amount due on such shareholder's shares unless final judgment has been rendered in favor of the creditor against the corporation and execution has been returned unsatisfied in whole or in part or unless such proceedings would be useless.

(b) All creditors of the corporation, with or without reducing their claims to judgment, may intervene in any such creditor's action to reach and apply unpaid subscriptions and any or all shareholders who hold partly paid shares may be joined in such action. Several judgments may be rendered for and against the parties to the action or in favor of a receiver for the benefit of the respective parties thereto.

(c) All amounts paid by any shareholder in any such action shall be credited on the unpaid balance due the corporation upon such shareholder's shares.

415. Nothing in this division shall be construed as a derogation of any rights or remedies which any creditor or shareholder may have against any promoter, shareholder, director, officer or the corporation because of participation in any fraud or illegality practiced upon such creditor or shareholder by any such person or by the corporation in connection with the issue or sale of shares or other securities or in derogation of any rights which the corporation may have by rescission, cancellation or otherwise because of any fraud or illegality practiced on it by any such person in connection with the issue or sale of shares or other securities.

416. (a) Every holder of shares in a corporation shall be entitled to have a certificate signed in the name of the corporation by the chairman or vice chairman of the board or the president or a vice president and by the chief financial officer or an assistant treasurer or the secretary or any assistant secretary, certifying the number of shares and the class or series of shares owned by the shareholder. Any or all of the signatures on the certificate may be facsimile. In case any officer, transfer agent or registrar who has signed or whose facsimile signature has been placed upon a certificate shall have ceased to be such officer, transfer agent or registrar before such certificate is issued, it may be issued by the corporation with the same effect as if such person were an officer, transfer agent or registrar at the date of issue.

(b) Notwithstanding subdivision (a), a corporation which is the issuer of securities registered under the United States Securities Exchange Act of 1934 may adopt a system of issuance, recordation and transfer of its shares by electronic or other means not involving any issuance of certificates, including provisions for notice to purchasers in substitution for the required statements on certificates under Sections 417 and 418, which system has been approved by the Commissioner of Corporations or the United States Securities and Exchange Commission or which is authorized in any statute of the United States.

417. If the shares of the corporation are classified or if any class of shares has two or more series, there shall appear on the certificate one of the following:

(a) A statement of the rights, preferences, privileges and restrictions granted to or imposed upon each class or series of shares authorized to be issued and upon the holders thereof.

(b) A summary of such rights, preferences, privileges and restrictions with reference to the provisions of the articles and any certificates of determination establishing the same.

(c) A statement setting forth the office or agency of the corporation from which shareholders may obtain, upon request and without charge, a copy of the statement referred to in subdivision (a).

418. (a) There shall also appear on the certificate (unless stated or summarized under subdivision (a) or (b) of Section 417) the statements required by all of the following clauses to the extent applicable:

(1) The fact that the shares are subject to restrictions upon transfer.

(2) If the shares are assessable or are not fully paid, a statement that they are assessable or the statements required by subdivision (d) of Section 409 if they are not fully paid.

(3) The fact that the shares are subject to a voting agreement under subdivision (a) of Section 706 or an irrevocable proxy under subdivision (e) of Section 705 or restrictions upon voting rights contractually imposed by the corporation.

(4) The fact that the shares are redeemable.

(5) The fact that the shares are convertible and the period for conversion.

(b) Unless stated on the certificate as required by subdivision (a), no restriction upon transfer, no liability to assessment or for the unpaid portion of the subscription price, no right of redemption and no voting agreement under subdivision (a) of Section 706 nor irrevocable proxy under subdivision (e) of Section 705 nor voting restriction imposed by the corporation shall be enforceable against a transferee of the shares without actual knowledge of such restriction, liability, right, agreement or proxy.

(c) All certificates representing shares of a close corporation shall contain, in addition to any other statements required by this section, the following conspicuous legend on the face thereof: "This corporation is a close corporation. The number of holders of record of its shares of all classes cannot exceed ____ [a number not in excess of 10]. Any attempted voluntary inter vivos transfer which would violate this requirement is void. Refer to the articles, bylaws and any agreements on file with the secretary of the corporation for further restrictions."

(d) Any attempted voluntary inter vivos transfer of the shares of a close corporation which would result in the number of holders of record of its shares exceeding the maximum number specified in its articles is void if the certificate contains the legend required by subdivision (c).

419. (a) A domestic or foreign corporation may issue a new share certificate or a new certificate for any other security in the place of any certificate theretofore issued by it, alleged to have been lost, stolen or destroyed, and the corporation may require the owner of the lost, stolen or destroyed certificate or the owner's legal representative to give the corporation a bond (or other adequate security) sufficient to indemnify it against any claim that may be made against it (including any expense or liability) on account of the alleged loss, theft or destruction of any such certificate or the issuance of such new certificate.

(b) If a corporation refuses to issue a new share certificate or other

certificate in place of one theretofore issued by it, or by any corporation of which it is the lawful successor, alleged to have been lost, stolen or destroyed, the owner of the lost, stolen or destroyed certificate or the owner's legal representative may bring an action in the superior court of the proper county for an order requiring the corporation to issue a new certificate in place of the one lost, stolen or destroyed.

(c) If the court is satisfied that the plaintiff is the lawful owner of the number of shares or other securities, or any part thereof, described in the complaint and that the certificate therefor has been lost, stolen or destroyed, and no sufficient cause has been shown why a new certificate should not be issued in place thereof, it shall make an order requiring the corporation to issue and deliver to the plaintiff a new certificate for such shares or other securities. In its order the court shall direct that, prior to the issuance and delivery to the plaintiff of such new certificate, the plaintiff give the corporation a bond (or other adequate security) as to the court appears sufficient to indemnify the corporation against any claim that may be made against it (including any expense or liability) on account of the alleged loss, theft or destruction of any such certificate or the issuance of such new certificate.

420. Neither a domestic nor foreign corporation nor its transfer agent or registrar is liable:

(a) For transferring or causing to be transferred on the books of the corporation to the surviving joint tenant or tenants any share or shares or other securities issued to two or more persons in joint tenancy, whether or not the transfer is made with actual or constructive knowledge of the existence of any understanding, agreement, condition or evidence that the shares or securities were held other than in joint tenancy or of a breach of trust by any joint tenant.

(b) To a minor or incompetent person in whose name shares are of record on its books or to any transferee of or transferor to either for transferring the shares on its books at the instance of or to the minor or incompetent or for the recognition of or dealing with the minor or incompetent as a shareholder, whether or not the corporation, transfer agent or registrar had notice, actual or constructive, of the nonage or incompetency, unless a guardian or conservator of the property of the minor or incompetent has been appointed and the corporation, transfer agent or registrar has received written notice thereof.

(c) To any married person or to any transferee of such person for transferring shares on its books at the instance of the person in whose name they are registered, without the signature of such person's spouse and regardless of whether the registration indicates that the shares are community property, in the same manner as if such person were unmarried.

(d) The provisions of the California Commercial Code shall not affect the limitations of liability set forth in this section. Section 5125

of the Civil Code shall be subject to the provisions of this section and shall not be construed to prevent transfers, or result in liability to the corporation, transfer agent or registrar permitting or effecting transfers, which comply with this section.

421. Each holder of shares of a close corporation, whether original or subsequent, by accepting the certificates for the shares which contain the legend required by subdivision (c) of Section 418 agrees and consents that such holder cannot make any transfer of shares which would violate the provisions of subdivision (d) of Section 418 and waives any right which such holder might otherwise have under any other law to sell such shares to a greater number of purchasers or to demand any registration thereof under the Securities Act of 1933, as now or hereafter amended, or as provided in any statute adopted in substitution therefor, or otherwise, so long as the corporation is a close corporation.

422. (a) When the articles are amended in any way affecting the statements contained in the certificates for outstanding shares, or it becomes desirable for any reason, in the discretion of the board, to cancel any outstanding certificate for shares and issue a new certificate therefor conforming to the rights of the holder, the board may order any holders of outstanding certificates for shares to surrender and exchange them for new certificates within a reasonable time to be fixed by the board.

(b) The order may provide that a holder of any certificates so ordered to be surrendered is not entitled to vote or to receive dividends or exercise any of the other rights of shareholders until the holder has complied with the order, but such order operates to suspend such rights only after notice and until compliance. The duty of surrender of any outstanding certificates may also be enforced by civil action.

423. (a) Shares are not assessable except as provided in this section. If the articles expressly confer such authority upon the corporation or the board, and subject to any limitations therein contained, the board may in its discretion levy and collect assessments upon all shares of any or all classes made subject to assessment by the articles. This authority is in addition to the right of the corporation to recover the unpaid subscription price of shares or the remainder of the consideration to be paid therefor.

(b) Every levy of an assessment shall: specify the amount thereof and to whom and where it is payable; fix a date, not less than 30 nor more than 60 days from the date of the levy of the assessment, on which such assessment becomes delinquent if not paid; and fix a date, not less than 15 nor more than 60 days from the date on which the unpaid assessment becomes delinquent, for the sale of delinquent shares. The levy also shall fix the hour and place of sale, which place shall be in the county where the corporation is required to keep a copy of its bylaws pursuant to Section 213, or if there is no such county, in Sacramento.

(c) Upon the levy of an assessment, the secretary of the

corporation shall give notice thereof in substantially the following form:

(Name of corporation in full. Location of principal executive office.)

Notice is hereby given that the board of directors on (date) has levied an assessment of (amount) per share upon the (name or designation of class or series of shares) of the corporation payable (to whom and where). Any shares upon which this assessment remains unpaid on (date fixed) will be delinquent. Unless payment is made prior to delinquency, the said shares, or as many of them as may be necessary, will be sold at (particular place) on (date) at (hour) of such day, to pay the delinquent assessment, together with a penalty of 5 percent of the amount of the assessment on such shares, or be forfeited to the corporation. (Name of secretary with location of office.)

(d) The notice shall be served personally upon each holder of record of shares assessed; provided, however, that in lieu of personal service the notice may be mailed to each such shareholder addressed to the last address of the shareholder appearing on the books of the corporation or given by the shareholder to the corporation for the purpose of notice, or if no such address appears or is given, at the place where the principal executive office of the corporation is located, and published once in some newspaper of general circulation in the county in which the principal executive office of the corporation is located. If there is no such newspaper in such county, the publication shall be made in some newspaper of general circulation in an adjoining county. Such personal service or service by mail and publication shall be made at least 10 days prior to the date of delinquency.

(e) The assessment is a lien upon the shares assessed from the time of personal service or the publication of the notice of assessment, unless the articles provide for such lien from the time of the levy. A transfer of the shares on the books of the corporation after the lien of an assessment has attached is a waiver of the lien unless a conspicuous legend is placed on the face of any certificate issued upon such transfer setting forth the information contained in the notice required by subdivision (c) of this section. Such legend shall be removed if the assessment on the shares evidenced by the certificate is paid or if the shares are sold to pay the assessment or forfeited for nonpayment.

(f) The date of sale of delinquent shares fixed in any levy of an assessment may be extended from time to time for not more than 30 days at a time by order of the board entered on the records of the corporation, or when the sale is restrained by order of a court. Notice of such extension shall be given by announcement by the secretary, or other person authorized to conduct the sale, made at the time and place of sale last theretofore fixed.

(g) If payment is made after delinquency and before the sale, the shareholder shall pay a penalty of 5 percent of the amount of the assessment on the shares in addition to the assessment.

(h) At the place and time appointed in the notice of levy any officer or an agent of the corporation, shall, unless otherwise ordered by the board, sell or cause to be sold to the highest bidder for cash as many shares of each delinquent holder of the assessed shares as may be necessary to pay the assessment and charges thereon according to the notice.

The person offering at the sale to pay the assessment and penalty for the smallest number of shares is the highest bidder. The shares purchased shall be transferred to the highest bidder on the share register of the corporation on the payment of the assessment and penalty and a new certificate therefor issued to such highest bidder.

A corporation is not required to accept an offer for a fraction of a share.

(i) If no bidder offers to pay the amount due on the shares, together with the penalty of 5 percent thereof, the shares shall be forfeited to the corporation in satisfaction of the assessment and penalty thereon.

(j) After a sale or forfeiture of shares for nonpayment of an assessment or of a call for the unpaid balance of the subscription price or remainder of the consideration to be paid therefor, the holder or owner of delinquent shares shall surrender the certificate for such shares to the corporation for cancellation. This duty may be enforced by order or decree of court and such holder or owner shall be liable for damages to the corporation for failure to surrender the certificate for cancellation upon demand without good cause or excuse.

Any certificate not so surrendered forthwith becomes null and void and ceases to be evidence of the right or title of the holder or any transferee to the shares purporting to be represented thereby, and neither the corporation nor the purchaser of such shares incurs any liability thereon to any such transferee.

The purchaser of any shares, at a sale for delinquent assessments thereon, whenever made, is entitled to the issue of a new certificate representing the shares so purchased.

(k) The certificate of the secretary or assistant secretary of the corporation is prima facie evidence of the time and place of sale and any postponement thereof, of the quantity and particular description of the shares sold, to whom, for what price, and of the fact of payment of the purchase money. The certificate shall be filed in the office of the corporation, and copies of the certificate, certified by the secretary or an assistant secretary of the corporation, are prima facie evidence of the facts therein stated.

(*l*) As assessment is not invalidated by a failure to publish the notice of assessment, nor by the nonperformance of any act required in order to enforce the payment of the assessment; but in case of any substantial error or omission in the course of proceedings for

collection of an assessment on any shares, all previous proceedings, except the levy of the assessment, are void as to such shares, and shall be taken anew.

(m) No action shall be maintained to recover shares sold for delinquent assessments, upon the ground of irregularity in the assessment, irregularity or defect of the notice of sale, or defect or irregularity in the sale, unless the party seeking to maintain the action first pays or tenders to the corporation, or the party holding the shares sold, the sum for which the shares were sold, together with all subsequent assessments which may have been paid thereon and interest on such sums from the time they were paid. No such action shall be maintained unless it is commenced by the filing of a complaint and the issuing of a summons thereon within six months after the sale was made.

(n) The only remedy for the collection of an assessment on fully paid shares is sale or forfeiture of the shares unless (1) remedy by action is expressly authorized in the original articles or by an amendment of the articles adopted before August 21, 1933, or by an amendment adopted on or after August 21, 1933, by unanimous consent of the shareholders, and (2) unless a statement of such remedy appears on the face of any share certificate issued on or after August 21, 1933.

CHAPTER 5. DIVIDENDS AND REACQUISITIONS OF SHARES

500. Neither a corporation nor any of its subsidiaries shall make any distribution to the corporation's shareholders (Section 166) unless:

(a) The amount of the retained earnings of the corporation immediately prior thereto equals or exceeds the amount of the proposed distribution; or

(b) Immediately after giving effect thereto:

(1) The sum of the assets of the corporation (exclusive of goodwill, capitalized research and development expenses and deferred charges) would be at least equal to 1¼ times its liabilities; (not including deferred taxes, deferred income and other deferred credits); and

(2) The current assets of the corporation would be at least equal to its current liabilities or, if the average of the earnings of the corporation before taxes on income and before interest expense for the two preceding fiscal years was less than the average of the interest expense of the corporation for such fiscal years, at least equal to 1¼ times its current liabilities;

provided, however, that in determining the amount of the assets of the corporation no appreciation in value not yet realized shall in any event be included, except with respect to readily marketable securities, and profits derived from an exchange of assets shall not be included unless the assets received are currently realizable in cash; and provided, further, that for the purpose of this subdivision

"current assets" may include net amounts which the board has determined in good faith may reasonably be expected to be received from customers during the 12-month period used in calculating current liabilities pursuant to existing contractual relationships obligating such customers to make fixed or periodic payments during the term of the contract or, in the case of public utilities, pursuant to service connections with customers, after in each case giving effect to future costs not then included in current liabilities but reasonably expected to be incurred by the corporation in performing such contracts or providing service to utility customers. The amount of any distribution payable in property shall, for the purpose of this chapter, be determined on the basis of the value at which such property is carried on the corporation's financial statements in accordance with generally accepted accounting principles. Clause (2) of subdivision (b) is not applicable to a corporation which does not classify its assets into current and fixed under generally accepted accounting principles.

501. Neither a corporation nor any of its subsidiaries shall make any distribution to the corporation's shareholders (Section 166) if the corporation or the subsidiary making the distribution is, or as a result thereof would be, likely to be unable to meet its liabilities (except those whose payment is otherwise adequately provided for) as they mature.

502. Neither a corporation nor any of its subsidiaries shall make any distribution to the corporation's shareholders (Section 166) on any shares of its stock of any class or series which are junior to outstanding shares of any other class or series with respect to distribution of assets on liquidation if, after giving effect thereto, the excess of its assets (exclusive of goodwill, capitalized research and development expenses and deferred charges) over its liabilities, (not including deferred taxes, deferred income and other deferred credits) would be less than the liquidation preference of all shares having a preference on liquidation over the class or series to which the distribution is made.

503. Neither a corporation nor any of its subsidiaries shall make any distribution to the corporation's shareholders (Section 166) on any shares of its stock of any class or series which are junior to outstanding shares of any other class or series with respect to payment of dividends unless the amount of the retained earnings of the corporation immediately prior thereto equals or exceeds the amount of the proposed distribution plus the aggregate amount of the cumulative dividends in arrears on all shares having a preference with respect to payment of dividends over the class or series to which the distribution is made.

504. The provisions of Section 500 do not apply to any dividend declared by a regulated investment company, as defined in the United States Internal Revenue Code, to the extent that the dividend is necessary to maintain the status of the corporation as a regulated investment company under the provisions of that code. The

provisions of this chapter do not apply to any purchase or redemption of shares by a registered open-end investment company under the United States Investment Company Act of 1940 pursuant to a right of redemption at the option of the holder of the shares, so long as such right remains unsuspended under the provisions of that statute and the articles and bylaws of the corporation.

505. Nothing in this chapter prohibits additional restrictions upon the declaration of dividends or the purchase or redemption of a corporation's own shares by provision in the articles or bylaws or in any indenture or other agreement entered into by the corporation.

506. (a) Any shareholder who receives any distribution prohibited by this chapter with knowledge of facts indicating the impropriety thereof is liable to the corporation for the benefit of all of the creditors or shareholders entitled to institute an action under subdivision (b) for the amount so received by such shareholder with interest thereon at the legal rate on judgments until paid, but not exceeding the liabilities of the corporation owed to nonconsenting creditors at the time of the violation and the injury suffered by nonconsenting shareholders, as the case may be.

(b) Suit may be brought in the name of the corporation to enforce the liability under subdivision (a) against any or all shareholders liable by any one or more creditors of the corporation whose debts or claims arose prior to the time of the distribution to shareholders and who have not consented thereto, whether or not they have reduced their claims to judgment, or any one or more holders of shares outstanding at the time of the distribution to shareholders who have not consented thereto, without regard to the provisions of Section 800.

(c) Any shareholder sued under this section may implead all other shareholders liable under this section and may compel contribution, either in that action or in an independent action against shareholders not joined in that action.

(d) Nothing contained in this section affects any liability which any shareholder may have under Sections 3439 to 3439.13, inclusive, of the Civil Code.

507. Each distribution to shareholders other than one chargeable to retained earnings shall be identified in a notice to shareholders as being made from a source other than retained earnings, stating the accounting treatment thereof. The notice shall accompany the distribution or shall be given within three months after the end of the fiscal year in which the distribution is made.

508. This chapter does not apply in connection with any proceeding for winding up and dissolution under Chapter 18 or 19.

509. (a) A corporation may redeem any or all shares which are redeemable at its option by (1) giving notice of redemption, and (2) payment or deposit of the redemption price of the shares as provided in its articles or deposit of the redemption price pursuant to subdivision (d).

(b) Subject to any provisions in the articles with respect to the

notice required for redemption of shares, the corporation may give notice of the redemption of any or all shares subject to redemption by causing a notice of redemption to be published in a newspaper of general circulation in the county in which the principal executive office of the corporation is located at least once a week for two successive weeks, in each instance on any day of the week, commencing not earlier than 60 nor later than 20 days before the date fixed for redemption. The notice of redemption shall set forth all of the following:

(1) The class or series of shares or part of any class or series of shares to be redeemed.

(2) The date fixed for redemption.

(3) The redemption price.

(4) The place at which the shareholders may obtain payment of the redemption price upon surrender of their share certificates.

(c) If the corporation gives notice of redemption pursuant to subdivision (b), it shall also mail a copy of the notice of redemption to each holder of record of shares to be redeemed as of the date of mailing or record date fixed in accordance with Section 701, addressed to the holder at the address of such holder appearing on the books of the corporation or given by the holder to the corporation for the purpose of notice, or if no such address appears or is given at the place where the principal executive office of the corporation is located, not earlier than 60 nor later than 20 days before the date fixed for redemption. Failure to comply with this subdivision does not invalidate the redemption of the shares.

(d) If, on or prior to any date fixed for redemption of redeemable shares, the corporation deposits with any bank or trust company in this state as a trust fund a sum sufficient to redeem, on the date fixed for redemption thereof, the shares called for redemption, with irrevocable instructions and authority to the bank or trust company to publish the notice of redemption thereof (or to complete such publication if theretofore commenced) and to pay, on and after the date fixed for redemption or prior thereto, the redemption price of the shares to their respective holders upon the surrender of their share certificates, then from and after the date of the deposit (although prior to the date fixed for redemption) the shares so called shall be redeemed and dividends on those shares shall cease to accrue after the date fixed for redemption. The deposit shall constitute full payment of the shares to their holders and from and after the date of the deposit the shares shall no longer be outstanding and the holders thereof shall cease to be shareholders with respect to such shares and shall have no rights with respect thereto except the right to receive from the bank or trust company payment of the redemption price of the shares without interest, upon surrender of their certificates therefor, and any right to convert the shares which may exist and then continue for any period fixed by its terms.

510. (a) When a corporation purchases or redeems or otherwise acquires its own shares, such shares are restored to the status of

authorized but unissued shares, unless the articles prohibit the reissuance thereof.

(b) If the articles prohibit the reissue of shares upon acquisition thereof by the corporation, then upon such acquisition the authorized number of shares of the class and series, if any, to which such shares belonged is reduced by the number of shares so acquired. Thereupon the articles shall be amended to reflect such reduction in authorized shares and, if all of the authorized shares of any class or series are acquired and their reissue is prohibited by the articles, then the articles shall also be amended to eliminate therefrom any statement of rights, preferences, privileges and restrictions relating solely to such class or series. A certificate of amendment shall be filed in accordance with the requirements of Chapter 9, except that approval by the outstanding shares (Section 152) shall not be required to adopt any such amendment.

CHAPTER 6. SHAREHOLDERS' MEETINGS AND CONSENTS

600. (a) Meetings of shareholders may be held at such place within or without this state as may be stated in or fixed in accordance with the bylaws. If no other place is stated or so fixed, shareholder meetings shall be held at the principal executive office of the corporation.

(b) An annual meeting of shareholders shall be held for the election of directors on a date and at a time stated in or fixed in accordance with the bylaws. Any other proper business may be transacted at the annual meeting.

(c) If there is a failure to hold the annual meeting for a period of 60 days after the date designated therefor or, if no date has been designated, for a period of 15 months after the organization of the corporation or after its last annual meeting, the superior court of the proper county may summarily order a meeting to be held upon the application of any shareholder after notice to the corporation giving it an opportunity to be heard. The shares represented at such meeting, either in person or by proxy, and entitled to vote thereat shall constitute a quorum for the purpose of such meeting, notwithstanding any provision of the articles or bylaws or in this division to the contrary. The court may issue such orders as may be appropriate, including, without limitation, orders designating the time and place of such meeting, the record date for determination of shareholders entitled to vote and the form of notice of such meeting.

(d) Special meetings of the shareholders may be called by the board, the chairman of the board, the president or the holders of shares entitled to cast not less than 10 percent of the votes at the meeting or such other persons as may be provided in the articles or bylaws.

601. (a) Whenever shareholders are required or permitted to take any action at a meeting, a written notice of the meeting shall

be given not less than 10 nor more than 60 days before the date of the meeting to each shareholder entitled to vote thereat. Such notice shall state the place, date and hour of the meeting and (1) in the case of a special meeting, the general nature of the business to be transacted, and no other business may be transacted, or (2) in the case of the annual meeting, those matters which the board, at the time of the mailing of the notice, intends to present for action by the shareholders, but subject to the provisions of subdivision (f) any proper matter may be presented at the meeting for such action. The notice of any meeting at which directors are to be elected shall include the names of nominees intended at the time of the notice to be presented by management for election.

(b) Notice of a shareholders' meeting or any report shall be given either personally or by mail or other means of written communication, addressed to the shareholder at the address of such shareholder appearing on the books of the corporation or given by the shareholder to the corporation for the purpose of notice; or if no such address appears or is given, at the place where the principal executive office of the corporation is located or by publication at least once in a newspaper of general circulation in the county in which the principal executive office is located. The notice or report shall be deemed to have been given at the time when delivered personally or deposited in the mail or sent by other means of written communication. An affidavit of mailing of any notice or report in accordance with the provisions of this division, executed by the secretary, assistant secretary or any transfer agent, shall be prima facie evidence of the giving of the notice or report.

If any notice or report addressed to the shareholder at the address of such shareholder appearing on the books of the corporation is returned to the corporation by the United States Postal Service marked to indicate that the United States Postal Service is unable to deliver the notice or report to the shareholder at such address, all future notices or reports shall be deemed to have been duly given without further mailing if the same shall be available for the shareholder upon written demand of the shareholder at the principal executive office of the corporation for a period of one year from the date of the giving of the notice or report to all other shareholders.

(c) Upon request in writing to the chairman of the board, president, vice president or secretary by any person (other than the board) entitled to call a special meeting of shareholders, the officer forthwith shall cause notice to be given to the shareholders entitled to vote that a meeting will be held at a time requested by the person or persons calling the meeting, not less than 35 nor more than 60 days after the receipt of the request. If the notice is not given within 20 days after receipt of the request, the persons entitled to call the meeting may give the notice or the superior court of the proper county shall summarily order the giving of the notice, after notice to the corporation giving it an opportunity to be heard. The procedure provided in subdivision (c) of Section 305 shall apply to such

application. The court may issue such orders as may be appropriate, including, without limitation, orders designating the time and place of the meeting, the record date for determination of shareholders entitled to vote and the form of notice.

(d) When a shareholders' meeting is adjourned to another time or place, unless the bylaws otherwise require and except as provided in this subdivision, notice need not be given of the adjourned meeting if the time and place thereof are announced at the meeting at which the adjournment is taken. At the adjourned meeting the corporation may transact any business which might have been transacted at the original meeting. If the adjournment is for more than 45 days or if after the adjournment a new record date is fixed for the adjourned meeting, a notice of the adjourned meeting shall be given to each shareholder of record entitled to vote at the meeting.

(e) The transactions of any meeting of shareholders, however called and noticed, and wherever held, are as valid as though had at a meeting duly held after regular call and notice, if a quorum is present either in person or by proxy, and if, either before or after the meeting, each of the persons entitled to vote, not present in person or by proxy, signs a written waiver of notice or a consent to the holding of the meeting or an approval of the minutes thereof. All such waivers, consents and approvals shall be filed with the corporate records or made a part of the minutes of the meeting. Attendance of a person at a meeting shall constitute a waiver of notice of such meeting, except when the person objects, at the beginning of the meeting, to the transaction of any business because the meeting is not lawfully called or convened and except that attendance at a meeting is not a waiver of any right to object to the consideration of matters not included in the notice if such objection is expressly made at the meeting. Neither the business to be transacted at nor the purpose of any regular or special meeting of shareholders need be specified in any written waiver of notice, unless otherwise provided in the articles or bylaws, except as provided in subdivision (f).

(f) Any shareholder approval at a meeting, other than unanimous approval by those entitled to vote, pursuant to Sections 310, 902, 1201, 1900 or 2007 shall be valid only if the general nature of the proposal so approved was stated in the notice of meeting or in any written waiver of notice.

602. (a) Unless otherwise provided in the articles, a majority of the shares entitled to vote, represented in person or by proxy, shall constitute a quorum at a meeting of shareholders, but in no event shall a quorum consist of less than one-third (or, in the case of a mutual water company, 20 percent) of the shares entitled to vote at the meeting or, except in the case of a close corporation, of more than a majority of the shares entitled to vote at the meeting. If a quorum is present, the affirmative vote of the majority of the shares represented at the meeting and entitled to vote on any matter shall be the act of the shareholders, unless the vote of a greater number or voting by classes is required by this division or the articles and

except as provided in subdivision (b).

(b) The shareholders present at a duly called or held meeting at which a quorum is present may continue to transact business until adjournment notwithstanding the withdrawal of enough shareholders to leave less than a quorum, if any action taken (other than adjournment) is approved by at least a majority of the shares required to constitute a quorum.

(c) In the absence of a quorum, any meeting of shareholders may be adjourned from time to time by the vote of a majority of the shares represented either in person or by proxy, but no other business may be transacted, except as provided in subdivision (b).

603. (a) Unless otherwise provided in the articles, any action which may be taken at any annual or special meeting of shareholders may be taken without a meeting and without prior notice, if a consent in writing, setting forth the action so taken, shall be signed by the holders of outstanding shares having not less than the minimum number of votes that would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted.

(b) Unless the consents of all shareholders entitled to vote have been solicited in writing,

(1) Notice of any shareholder approval pursuant to Section 310, 317, 1201 or 2007 without a meeting by less than unanimous written consent shall be given at least 10 days before the consummation of the action authorized by such approval, and

(2) Prompt notice shall be given of the taking of any other corporate action approved by shareholders without a meeting by less than unanimous written consent,

to those shareholders entitled to vote who have not consented in writing. Subdivision (b) of Section 601 applies to such notice.

(c) Any shareholder giving a written consent, or the shareholder's proxyholders, or a transferee of the shares or a personal representative of the shareholder or their respective proxyholders, may revoke the consent by a writing received by the corporation prior to the time that written consents of the number of shares required to authorize the proposed action have been filed with the secretary of the corporation, but may not do so thereafter. Such revocation is effective upon its receipt by the secretary of the corporation.

(d) Notwithstanding subdivision (a), directors may not be elected by written consent except by unanimous written consent of all shares entitled to vote for the election of directors.

604. (a) Any form of proxy or written consent distributed to 10 or more shareholders of a corporation with outstanding shares held of record by 100 or more persons shall afford an opportunity on the proxy or form of written consent to specify a choice between approval and disapproval of each matter or group of related matters intended to be acted upon at the meeting for which the proxy is solicited or by such written consent, other than elections to office,

and shall provide, subject to reasonable specified conditions, that where the person solicited specifies a choice with respect to any such matter the shares will be voted in accordance therewith.

(b) Every form of proxy or written consent, which provides an opportunity to specify approval or disapproval with respect to any proposal, shall also contain an appropriate space marked "abstain," whereby a shareholder may indicate a desire to abstain from voting his or her shares on the proposal. A proxy marked "abstain" by the shareholder with respect to a particular proposal shall not be voted either for or against such proposal.

(c) In any election of directors, any form of proxy in which the directors to be voted upon are named therein as candidates and which is marked by a shareholder "withhold" or otherwise marked in a manner indicating that the authority to vote for the election of directors is withheld shall not be voted either for or against the election of a director.

(d) This section does not apply to any corporation with an outstanding class of securities registered under Section 12 of the Securities Exchange Act of 1934 or whose securities are exempted from such registration by Section 12(g)(2) of that act.

(e) Failure to comply with this section shall not invalidate any corporate action taken, but may be the basis for challenging any proxy at a meeting and the superior court may compel compliance therewith at the suit of any shareholder.

605. (a) For the purpose of determining whether a corporation has outstanding shares held of record by 100 or more persons, shares shall be deemed to be "held of record" by each person who is identified as the owner of such shares on the record of shareholders maintained by or on behalf of the corporation, subject to the following:

(1) In any case where the record of shareholders has not been maintained in accordance with accepted practice, any additional person who would be identified as such an owner on such record if it had been maintained in accordance with accepted practice shall be included as a holder of record.

(2) Shares identified as held of record by a corporation, a partnership, a trust, whether or not the trustees are named, or other organization shall be included as so held by one person.

(3) Shares identified as held of record by one or more persons as trustees, executors, guardians, custodians or in other fiduciary capacities with respect to a single trust, estate or account shall be included as held of record by one person.

(4) Shares held by two or more persons as co-owners shall be included as held by one person.

(5) Shares registered in substantially similar names, where the corporation (or other person soliciting proxies) has reason to believe because of the address or other indications that such names represent the same person, may be included as held of record by one person.

(b) Notwithstanding subdivision (a):

(1) Shares held, to the knowledge of the corporation (or other person soliciting proxies), subject to a voting trust, deposit agreement or similar arrangement shall be included as held of record by the recordholders of the voting trust certificates, certificates of deposit, receipts or similar evidences of interest in such securities; provided, however, that the corporation (or other person soliciting proxies) may rely in good faith on such information as is received in response to its request from a nonaffiliated issuer of the certificates or evidences of interest.

(2) If the corporation (or other person soliciting proxies) knows or has reason to know that the form of holding shares of record is used primarily to circumvent the provisions of this section, the beneficial owners of such shares shall be deemed to be the record owners thereof.

CHAPTER 7. VOTING OF SHARES

700. (a) Except as provided in Section 708 and except as may be otherwise provided in the articles, each outstanding share, regardless of class, shall be entitled to one vote on each matter submitted to a vote of shareholders.

(b) Any holder of shares entitled to vote on any matter may vote part of the shares in favor of the proposal and refrain from voting the remaining shares or vote them against the proposal, other than elections to office, but, if the shareholder fails to specify the number of shares such shareholder is voting affirmatively, it will be conclusively presumed that the shareholder's approving vote is with respect to all shares such shareholder is entitled to vote.

701. (a) In order that the corporation may determine the shareholders entitled to notice of any meeting or to vote or entitled to receive payment of any dividend or other distribution or allotment of any rights or entitled to exercise any rights in respect of any other lawful action, the board may fix, in advance, a record date, which shall not be more than 60 nor less than 10 days prior to the date of such meeting nor more than 60 days prior to any other action.

(b) If no record date is fixed:

(1) The record date for determining shareholders entitled to notice of or to vote at a meeting of shareholders shall be at the close of business on the business day next preceding the day on which notice is given or, if notice is waived, at the close of business on the business day next preceding the day on which the meeting is held.

(2) The record date for determining shareholders entitled to give consent to corporate action in writing without a meeting, when no prior action by the board is necessary, shall be the day on which the first written consent is given.

(3) The record date for determining shareholders for any other purpose shall be at the close of business on the day on which the board adopts the resolution relating thereto, or the 60th day prior to

the date of such other action, whichever is later.

(c) A determination of shareholders of record entitled to notice of or to vote at a meeting of shareholders shall apply to any adjournment of the meeting unless the board fixes a new record date for the adjourned meeting, but the board shall fix a new record date if the meeting is adjourned for more than 45 days.

(d) Shareholders on the record date are entitled to notice and to vote or to receive the dividend, distribution or allotment of rights or to exercise the rights, as the case may be, notwithstanding any transfer of any shares on the books of the corporation after the record date, except as otherwise provided in the articles or by agreement or in this division.

702. (a) Subject to subdivision (c) of Section 703, shares held by an administrator, executor, guardian, conservator or custodian may be voted by such holder either in person or by proxy, without a transfer of such shares into the holder's name. Shares standing in the name of a trustee may be voted by the trustee, either in person or by proxy, but no trustee shall be entitled to vote shares held by such trustee without a transfer of such shares into the trustee's name.

(b) Shares standing in the name of a receiver may be voted by such receiver; and shares held by or under the control of a receiver may be voted by such receiver without the transfer thereof into the receiver's name if authority to do so is contained in the order of the court by which such receiver was appointed.

(c) Subject to the provisions of Section 705 and except where otherwise agreed in writing between the parties, a shareholder whose shares are pledged shall be entitled to vote such shares until the shares have been transferred into the name of the pledgee, and thereafter the pledgee shall be entitled to vote the shares so transferred.

(d) Shares standing in the name of a minor may be voted and the corporation may treat all rights incident thereto as exercisable by the minor, in person or by proxy, whether or not the corporation has notice, actual or constructive, of the nonage, unless a guardian of the minor's property has been appointed and written notice of such appointment given to the corporation.

703. (a) Shares standing in the name of another corporation, domestic or foreign, may be voted by such officer, agent or proxyholder as the bylaws of such other corporation may prescribe or, in the absence of such provision, as the board of such other corporation may determine or, in the absence of such determination, by the chairman of the board, president or any vice president of such other corporation, or by any other person authorized to do so by the chairman of the board, president or any vice president of such other corporation. Shares which are purported to be voted or any proxy purported to be executed in the name of a corporation (whether or not any title of the person signing is indicated) shall be presumed to be voted or the proxy executed in accordance with the provisions of this subdivision, unless the contrary is shown.

(b) Shares of a parent owned by a subsidiary shall not be entitled to vote on any matter.

(c) Shares held by the issuing corporation in a fiduciary capacity, and shares of an issuing corporation held in a fiduciary capacity by its subsidiary, shall not be entitled to vote on any matter, except to the extent that the settlor or beneficial owner possesses and exercises a right to vote or to give the corporation binding instructions as to how to vote such shares.

704. If shares stand of record in the names of two or more persons, whether fiduciaries, members of a partnership, joint tenants, tenants in common, husband and wife as community property, tenants by the entirety, voting trustees, persons entitled to vote under a shareholder voting agreement or otherwise, or if two or more persons (including proxyholders) have the same fiduciary relationship respecting the same shares, unless the secretary of the corporation is given written notice to the contrary and is furnished with a copy of the instrument or order appointing them or creating the relationship wherein it is so provided, their acts with respect to voting shall have the following effect:

(1) If only one votes, such act binds all;

(2) If more than one vote, the act of the majority so voting binds all;

(3) If more than one vote, but the vote is evenly split on any particular matter, each faction may vote the securities in question proportionately.

If the instrument so filed or the registration of the shares shows that any such tenancy is held in unequal interests, a majority or even split for the purpose of this section shall be a majority or even split in interest.

705. (a) Every person entitled to vote shares may authorize another person or persons to act by proxy with respect to such shares. Any proxy purporting to be executed in accordance with the provisions of this division shall be presumptively valid.

(b) No proxy shall be valid after the expiration of 11 months from the date thereof unless otherwise provided in the proxy. Every proxy continues in full force and effect until revoked by the person executing it prior to the vote pursuant thereto, except as otherwise provided in this section. Such revocation may be effected by a writing delivered to the corporation stating that the proxy is revoked or by a subsequent proxy executed by, or by attendance at the meeting and voting in person by, the person executing the proxy. The dates contained on the forms of proxy presumptively determine the order of execution, regardless of the postmark dates on the envelopes in which they are mailed.

(c) A proxy is not revoked by the death or incapacity of the maker unless, before the vote is counted, written notice of such death or incapacity is received by the corporation.

(d) Except when other provision shall have been made by written agreement between the parties, the recordholder of shares which

such person holds as pledgee or otherwise as security or which belong to another shall issue to the pledgor or to the owner of such shares, upon demand therefor and payment of necessary expenses thereof, a proxy to vote or take other action thereon.

(e) A proxy which states that it is irrevocable is irrevocable for the period specified therein (notwithstanding subdivision (c)) when it is held by any of the following or a nominee of any of the following:

(1) A pledgee;

(2) A person who has purchased or agreed to purchase or holds an option to purchase the shares or a person who has sold a portion of such person's shares in the corporation to the maker of the proxy;

(3) A creditor or creditors of the corporation or the shareholder who extended or continued credit to the corporation or the shareholder in consideration of the proxy if the proxy states that it was given in consideration of such extension or continuation of credit and the name of the person extending or continuing credit;

(4) A person who has contracted to perform services as an employee of the corporation, if a proxy is required by the contract of employment and if the proxy states that it was given in consideration of such contract of employment, the name of the employee and the period of employment contracted for; or

(5) A person designated by or under an agreement under Section 706.

Notwithstanding the period of irrevocability specified, the proxy becomes revocable when the pledge is redeemed, the option or agreement to purchase is terminated or the seller no longer owns any shares of the corporation or dies, the debt of the corporation or the shareholder is paid, the period of employment provided for in the contract of employment has terminated or the agreement under Section 706 has terminated. In addition to the foregoing clauses (1) through (5), a proxy may be made irrevocable (notwithstanding subdivision (c)) if it is given to secure the performance of a duty or to protect a title, either legal or equitable, until the happening of events which, by its terms, discharge the obligations secured by it.

(f) A proxy may be revoked, notwithstanding a provision making it irrevocable, by a purchaser of shares without knowledge of the existence of the provision unless the existence of the proxy and its irrevocability appears on the certificate representing such shares.

706. (a) Notwithstanding any other provision of this division, an agreement between two or more shareholders of a close corporation, if in writing and signed by the parties thereto, may provide that in exercising any voting rights the shares held by them shall be voted as provided by the agreement, or as the parties may agree or as determined in accordance with a procedure agreed upon by them, and the parties may transfer the shares covered by such an agreement to a third party or parties with authority to vote them in accordance with the terms of the agreement. Such an agreement shall not be denied specific performance by a court on the ground that the remedy at law is adequate or on other grounds relating to

the jurisdiction of a court of equity. An agreement made pursuant to this subdivision between shareholders of a close corporation shall terminate when the corporation ceases to be a close corporation.

(b) Shares in any corporation may be transferred by written agreement to trustees in order to confer upon them the right to vote and otherwise represent the shares for such period of time, not exceeding 10 years, as may be specified in the agreement. The validity of a voting trust agreement, otherwise lawful, shall not be affected during a period of 10 years from the date when it was created or last extended as hereinafter provided by the fact that under its terms it will or may last beyond such 10-year period. At any time within two years prior to the time of expiration of any voting trust agreement as originally fixed or as last extended as provided in this subdivision, one or more beneficiaries under the voting trust agreement may, by written agreement and with the written consent of the voting trustee or trustees, extend the duration of the voting trust agreement with respect to their shares for an additional period not exceeding 10 years from the expiration date of the trust as originally fixed or as last extended as provided in this subdivision. A duplicate of the voting trust agreement and any extension thereof shall be filed with the secretary of the corporation and shall be open to inspection by a shareholder, a holder of a voting trust certificate or the agent of either, upon the same terms as the record of shareholders of the corporation is open to inspection.

(c) No agreement made pursuant to subdivision (a) shall be held to be invalid or unenforceable on the ground that it is a voting trust which does not comply with subdivision (b).

(d) This section shall not invalidate any voting or other agreement among shareholders or any irrevocable proxy complying with subdivision (e) of Section 705, which agreement or proxy is not otherwise illegal.

707. (a) In advance of any meeting of shareholders the board may appoint inspectors of election to act at the meeting and any adjournment thereof. If inspectors of election are not so appointed, or if any persons so appointed fail to appear or refuse to act, the chairman of any meeting of shareholders may, and on the request of any shareholder or a shareholder's proxy shall, appoint inspectors of election (or persons to replace those who so fail or refuse) at the meeting. The number of inspectors shall be either one or three. If appointed at a meeting on the request of one or more shareholders or proxies, the majority of shares represented in person or by proxy shall determine whether one or three inspectors are to be appointed.

(b) The inspectors of election shall determine the number of shares outstanding and the voting power of each, the shares represented at the meeting, the existence of a quorum and the authenticity, validity and effect of proxies, receive votes, ballots or consents, hear and determine all challenges and questions in any way arising in connection with the right to vote, count and tabulate all votes or consents, determine when the polls shall close, determine

the result and do such acts as may be proper to conduct the election or vote with fairness to all shareholders.

(c) The inspectors of election shall perform their duties impartially, in good faith, to the best of their ability and as expeditiously as is practical. If there are three inspectors of election, the decision, act or certificate of a majority is effective in all respects as the decision, act or certificate of all. Any report or certificate made by the inspectors of election is prima facie evidence of the facts stated therein.

708. (a) Every shareholder complying with subdivision (b) and entitled to vote at any election of directors may cumulate such shareholder's votes and give one candidate a number of votes equal to the number of directors to be elected multiplied by the number of votes to which the shareholder's shares are entitled, or distribute the shareholder's votes on the same principle among as many candidates as the shareholder thinks fit.

(b) No shareholder shall be entitled to cumulate votes (i.e., cast for any one or more candidates a number of votes greater than the number of the shareholder's shares) unless such candidate or candidates' names have been placed in nomination prior to the voting and the shareholder has given notice at the meeting prior to the voting of the shareholder's intention to cumulate the shareholder's votes. If any one shareholder has given such notice, all shareholders may cumulate their votes for candidates in nomination.

(c) In any election of directors, the candidates receiving the highest number of votes of the shares entitled to be voted for them up to the number of directors to be elected by such shares are elected.

(d) Subdivision (a) applies to the shareholders of any mutual water company organized or existing for the purpose of delivering water to its shareholders at cost on lands located within the boundaries of one or more reclamation districts now or hereafter legally existing in this state and created by or formed under the provisions of any statute of this state, but does not otherwise apply to the shareholders of mutual water companies unless their articles or bylaws so provide.

(e) Elections for directors need not be by ballot unless a shareholder demands election by ballot at the meeting and before the voting begins or unless the bylaws so require.

709. (a) Upon the filing of an action therefor by any shareholder or by any person who claims to have been denied the right to vote, the superior court of the proper county shall try and determine the validity of any election or appointment of any director of any domestic corporation, or of any foreign corporation if the election was held or the appointment was made in this state. In the case of a foreign corporation the action may be brought at the option of the plaintiff in the county in which the corporation has its principal office in this state or in the county in which the election was held or the appointment was made.

(b) Upon the filing of the complaint, and before any further proceedings are had, the court shall enter an order fixing a date for the hearing, which shall be within five days unless for good cause shown a later date is fixed, and requiring notice of the date for the hearing and a copy of the complaint to be served upon the corporation and upon the person whose purported election or appointment is questioned and upon any person (other than the plaintiff) whom the plaintiff alleges to have been elected or appointed, in the manner in which a summons is required to be served, or, if the court so directs, by registered mail; and the court may make such further requirements as to notice as appear to be proper under the circumstances.

(c) The court may determine the person entitled to the office of director or may order a new election to be held or appointment to be made, may determine the validity, effectiveness and construction of voting agreements and voting trusts, the validity of the issuance of shares and the right of persons to vote and may direct such other relief as may be just and proper.

CHAPTER 8. SHAREHOLDER DERIVATIVE ACTIONS

800. (a) As used in this section, "corporation" includes an unincorporated association; "board" includes the managing body of an unincorporated association; "shareholder" includes a member of an unincorporated association; and "shares" includes memberships in an unincorporated association.

(b) No action may be instituted or maintained in right of any domestic or foreign corporation by any holder of shares or of voting trust certificates of such corporation unless both of the following conditions exist:

(1) The plaintiff alleges in the complaint that plaintiff was a shareholder, of record or beneficially, or the holder of voting trust certificates at the time of the transaction or any part thereof of which plaintiff complains or that plaintiff's shares or voting trust certificates thereafter devolved upon plaintiff by operation of law from a holder who was a holder at the time of the transaction or any part thereof complained of; provided, that any shareholder who does not meet such requirements may nevertheless be allowed in the discretion of the court to maintain such action on a preliminary showing to and determination by the court, by motion and after a hearing, at which the court shall consider such evidence, by affidavit or testimony, as it deems material, that (i) there is a strong prima facie case in favor of the claim asserted on behalf of the corporation, (ii) no other similar action has been or is likely to be instituted, (iii) the plaintiff acquired the shares before there was disclosure to the public or to the plaintiff of the wrongdoing of which plaintiff complains, (iv) unless the action can be maintained the defendant may retain a gain derived from defendant's willful breach of a fiduciary duty, and (v) the requested relief will not result in unjust enrichment of the

0376 23 11 455 156

corporation or any shareholder of the corporation; and

(2) The plaintiff alleges in the complaint with particularity plaintiff's efforts to secure from the board such action as plaintiff desires, or the reasons for not making such effort, and alleges further that plaintiff has either informed the corporation or the board in writing of the ultimate facts of each cause of action against each defendant or delivered to the corporation or the board a true copy of the complaint which plaintiff proposes to file.

(c) In any action referred to in subdivision (b), at any time within 30 days after service of summons upon the corporation or upon any defendant who is an officer or director of the corporation, or held such office at the time of the acts complained of, the corporation or such defendant may move the court for an order, upon notice and hearing, requiring the plaintiff to furnish security as hereinafter provided. The motion shall be based upon one or both of the following grounds:

(1) That there is no reasonable possibility that the prosecution of the cause of action alleged in the complaint against the moving party will benefit the corporation or its shareholders.

(2) That the moving party, if other than the corporation, did not participate in the transaction complained of in any capacity.

The court on application of the corporation or any defendant may, for good cause shown, extend the 30-day period for an additional period or periods not exceeding 60 days.

(d) At the hearing upon any motion pursuant to subdivision (c), the court shall consider such evidence, written or oral, by witnesses or affidavit, as may be material (1) to the ground or grounds upon which the motion is based, or (2) to a determination of the probable reasonable expenses, including attorneys' fees, of the corporation and the moving party which will be incurred in the defense of the action. If the court determines, after hearing the evidence adduced by the parties, that the moving party has established a probability in support of any of the grounds upon which the motion is based, the court shall fix the nature and amount of security, not to exceed fifty thousand dollars ($50,000), to be furnished by the plaintiff for reasonable expenses, including attorneys' fees, which may be incurred by the moving party and the corporation in connection with the action, including expenses for which the corporation may become liable pursuant to Section 317. A ruling by the court on the motion shall not be a determination of any issue in the action or of the merits thereof. The amount of the security may thereafter be increased or decreased in the discretion of the court upon a showing that the security provided has or may become inadequate or is excessive, but the court may not in any event increase the total amount of the security beyond fifty thousand dollars ($50,000). If the court, upon any such motion, makes a determination that security shall be furnished by the plaintiff as to any one or more defendants, the action shall be dismissed as to such defendant or defendants, unless the security required by the court shall have been furnished

0376 23 11 475 160

within such reasonable time as may be fixed by the court. The corporation and the moving party shall have recourse to the security in such amount as the court shall determine upon the termination of the action.

(e) If the plaintiff shall, either before or after a motion is made pursuant to subdivision (c), or any order or determination pursuant to such motion, post good and sufficient bond or bonds in the aggregate amount of fifty thousand dollars ($50,000) to secure the reasonable expenses of the parties entitled to make the motion, the plaintiff has complied with the requirements of this section and with any order for security theretofore made pursuant hereto, and any such motion then pending shall be dismissed and no further or additional bond or other security shall be required.

(f) If a motion is filed pursuant to subdivision (c), no pleadings need be filed by the corporation or any other defendant and the prosecution of the action shall be stayed until 10 days after the motion has been disposed of.

CHAPTER 9. AMENDMENT OF ARTICLES

900. (a) By complying with the provisions of this chapter, a corporation may amend its articles from time to time, in any and as many respects as may be desired, so long as its articles as amended contain only such provisions as it would be lawful to insert in original articles filed at the time of the filing of the amendment and, if a change in shares or the rights of shareholders or an exchange, reclassification or cancellation of shares or rights of shareholders is to be made, such provisions as may be necessary to effect such change, exchange, reclassification or cancellation. It is the intent of the Legislature in adopting this section to exercise to the fullest extent the reserve power of the state over corporations and to authorize any amendment of the articles covered by the preceding sentence regardless of whether any provision contained in the amendment was permissible at the time of the original incorporation of the corporation.

(b) A corporation shall not amend its articles to alter any statement which may appear in the original articles of the names and addresses of the first directors, nor the name and address of the initial agent, except to correct an error in the statement or to delete either after the corporation has filed a statement under Section 1502.

901. Before any shares have been issued, any amendment of the articles may be adopted by a writing signed by a majority of the incorporators, if directors were not named in the original articles and have not been elected, or, if directors were named in the original articles or have been elected, by a majority of the directors.

902. (a) After any shares have been issued, amendments may be adopted if approved by the board and approved by the outstanding shares (Section 152), either before or after the approval by the board.

(b) Notwithstanding subdivision (a), an amendment extending

the corporate existence or making the corporate existence perpetual may be adopted by a corporation organized prior to August 14, 1929, with approval by the board alone.

(c) Notwithstanding subdivision (a), unless the corporation has more than one class of shares outstanding, an amendment effecting only a stock split (including any increase in the authorized number of shares required in connection therewith and taking account of shares then reserved for future issuance) may be adopted with approval by the board alone.

(d) Notwithstanding subdivision (a), an amendment deleting the names and addresses of the first directors or the name and address of the initial agent may be adopted with approval by the board alone.

903. (a) A proposed amendment must be approved by the outstanding shares (Section 152) of a class, whether or not such class is entitled to vote thereon by the provisions of the articles, if the amendment would:

(1) Increase or decrease the aggregate number of authorized shares of such class, other than an increase incident to a stock split or as provided in Section 405(b).

(2) Effect an exchange, reclassification or cancellation of all or part of the shares of such class, other than a stock split.

(3) Effect an exchange, or create a right of exchange, of all or part of the shares of another class into the shares of such class.

(4) Change the rights, preferences, privileges or restrictions of the shares of such class.

(5) Create a new class of shares having rights, preferences or privileges prior to the shares of such class, or increase the rights, preferences or privileges or the number of authorized shares of any class having rights, preferences or privileges prior to the shares of such class.

(6) In the case of preferred shares, divide the shares of any class into series having different rights, preferences, privileges or restrictions or authorize the board to do so.

(7) Cancel or otherwise affect dividends on the shares of such class which have accrued but have not been paid.

(b) Different series of the same class shall not constitute different classes for the purpose of voting by classes except when a series is adversely affected by an amendment in a different manner than other shares of the same class.

(c) In addition to approval by a class as provided in subdivision (a), a proposed amendment must also be approved by the outstanding voting shares (Section 152).

904. If any amendment of the articles would make shares assessable or would authorize remedy by action for the collection of an assessment on fully paid shares, it must be approved by all of the outstanding shares regardless of limitations or restrictions on the voting rights thereof.

905. In the case of amendments adopted after the corporation has issued any shares, the corporation shall file a certificate of

amendment, which shall consist of an officers' certificate stating:

(a) The wording of the amendment or amended articles in accordance with Section 907;

(b) That the amendment has been approved by the board;

(c) If the amendment is one for which the approval of the outstanding shares (Section 152) is required, that the amendment was approved by the required vote of shareholders in accordance with Section 902, 903 or 904; the total number of outstanding shares of each class entitled to vote with respect to the amendment; and that the number of shares of each class voting in favor of the amendment equaled or exceeded the vote required, specifying the percentage vote required of each class entitled to vote.

(d) If the amendment is one which may be adopted with approval by the board alone, a statement of the facts entitling the board alone to adopt the amendment.

(e) In the event of an amendment of the articles pursuant to a merger, the filing of the officers' certificate and agreement pursuant to Section 1103 or a certificate of ownership pursuant to Section 1110(b) shall be in lieu of any filing required under this chapter.

906. In the case of amendments adopted by the incorporators or the board under Section 901, the corporation shall file a certificate of amendment signed and verified by a majority of the incorporators or of the board, as the case may be, which shall state that the signers thereof constitute at least a majority of the incorporators or of the board, that the corporation has issued no shares and that they adopt the amendment or amendments therein set forth.

In the case of amendments adopted by the board under Section 901, the corporation may file a certificate of amendment pursuant to Section 905 in lieu of a certificate of amendment pursuant to this section.

907. The certificate of amendment shall establish the wording of the amendment or amended articles by one or more of the following means:

(a) By stating that the articles shall be amended to read as therein set forth in full.

(b) By stating that any provision of the articles, which shall be identified by the numerical or other designation given it in the articles or by stating the wording thereof, shall be stricken from the articles or shall be amended to read as set forth in the certificate.

(c) By stating that the provisions set forth therein shall be added to the articles.

If the purpose of the amendment is to effect a stock split or reverse stock split or to reclassify, cancel, exchange, or otherwise change outstanding shares, the amendment or amended articles shall state the effect thereof on outstanding shares.

908. Upon the filing of the certificate of amendment, the articles shall be amended in accordance with the certificate and any change, reclassification or cancellation of shares shall be effected, and a copy of the certificate, certified by the Secretary of State, is prima facie

evidence of the performance of the conditions necessary to the adoption of the amendment.

909. A corporation formed for a limited period may at any time subsequent to the expiration of the term of its corporate existence, if it has continuously acted as a corporation and done business as such, extend the term of its existence by an amendment to its articles removing any provision limiting the term of its existence and providing for perpetual existence. If the filing of the certificate of amendment providing for perpetual existence would be prohibited if it were original articles by the provisions of Section 201, the Secretary of State shall not file such certificate unless by the same or a concurrently filed certificate of amendment the articles of such corporation are amended to adopt a new available name. For the purpose of the adoption of any such amendment, persons who have been functioning as directors of such corporation shall be considered to have been validly elected even though their election may have occurred after the expiration of the original term of the corporate existence. The certificate of amendment shall set forth that the corporation continuously acted as a corporation and did business as such from the expiration of its term of corporate existence to the date of the amendment.

910. (a) A corporation may restate in a single certificate the entire text of its articles as amended by filing an officers' certificate entitled "Restated Articles of Incorporation of (insert name of corporation)" which shall set forth the articles as amended to the date of the certificate, except that the signatures and acknowledgments of the incorporators and any statements regarding the effect of any prior amendment upon outstanding shares and any provisions of agreements of merger (other than amendments to the articles of the surviving corporation) and the names and addresses of the first directors and of the initial agent for service of process shall be omitted. Such omissions are not alterations or amendments of the articles. The certificate may also itself alter or amend the articles in any respect, in which case the certificate must comply with Section 905 or 906, as the case may be, and Section 907.

(b) If the certificate does not itself alter or amend the articles in any respect, it shall be approved by the board and shall be subject to the provisions of this chapter relating to an amendment of the articles not requiring any approval of the outstanding shares (Section 152). If the certificate does itself alter or amend the articles, it shall be subject to the provisions of this chapter relating to the amendment or amendments so made.

(c) Certificates of determination are a part of the articles within the meaning of this section. The provisions of such a certificate shall be given an article designation in the restated articles.

(d) Restated articles of incorporation filed pursuant to this section shall supersede for all purposes the original articles and all amendments and certificates of determination filed prior thereto.

CHAPTER 10. SALES OF ASSETS

1000. Any mortgage, deed of trust, pledge or other hypothecation of all or any part of the corporation's property, real or personal, for the purpose of securing the payment or performance of any contract or obligation may be approved by the board. Unless the articles otherwise provide, no approval of shareholders (Section 153) or of the outstanding shares (Section 152) shall be necessary for such action.

1001. (a) A corporation may sell, lease, convey, exchange, transfer or otherwise dispose of all or substantially all of its property and assets when the principal terms are

(1) Approved by the board, and

(2) Unless the transaction is in the usual and regular course of its business, approved by the outstanding shares (Section 152), either before or after approval by the board and before or after the transaction.

A transaction constituting a reorganization (Section 181) is subject to the provisions of Chapter 12 and not this section.

(b) Notwithstanding approval of the outstanding shares (Section 152), the board may abandon the proposed transaction without further action by the shareholders, subject to the contractual rights, if any, of third parties.

(c) Such sale, lease, conveyance, exchange, transfer or other disposition may be made upon such terms and conditions and for such consideration as the board may deem in the best interests of the corporation. The consideration may be money, property or securities of any other corporation, domestic or foreign, or any of them.

1002. Any deed or instrument conveying or otherwise transferring any assets of a corporation may have annexed to it the certificate of the secretary or an assistant secretary of the corporation, setting forth that the transaction has been validly approved by the board and (a) stating that the property described in said deed or instrument is less than substantially all of the assets of the corporation or that the transfer is in the usual and regular course of the business of the corporation, if such be the case, or (b) if such property constitutes all or substantially all of the assets of the corporation and the transfer is not in the usual and regular course of the business of the corporation, stating the fact of approval thereof by the outstanding shares (Section 152) pursuant to this chapter or Chapter 12, as the case may be, or that such approval is not required by Chapter 12. Such certificate is prima facie evidence of the existence of the facts authorizing such conveyance or other transfer of the assets and conclusive evidence in favor of any innocent purchaser or encumbrancer for value.

CHAPTER 11. MERGER

1100. Any two or more corporations may be merged into one of such corporations pursuant to this chapter.

1101. The board of each corporation which desires to merge shall approve an agreement of merger. The agreement shall state:

(a) The terms and conditions of the merger;

(b) The mode of carrying the same into effect;

(c) The amendments to the articles of the surviving corporation to be effected by the merger, if any;

(d) The name of the surviving corporation, which may be the same as or similar to the name of a constituent corporation, domestic or foreign, regardless of whether any such foreign corporation is qualified to transact intrastate business, and the name and place of incorporation of each disappearing corporation;

(e) The manner of converting the shares of each of the constituent corporations into shares or other securities of the surviving corporation and, if any shares of any of the constituent corporations are not to be converted solely into shares or other securities of the surviving corporation, the cash, property, rights or securities of any corporation which the holders of such shares are to receive in exchange for such shares, which cash, property, rights or securities of any corporation may be in addition to or in lieu of shares or other securities of the surviving corporation; and

(f) Such other details or provisions as are desired, if any, including, without limitation, a provision for the payment of cash in lieu of fractional shares or for any other arrangement with respect thereto consistent with the provisions of Section 407.

Each share of the same class or series of any constituent corporation (other than shares held by a parent party in a reorganization or short-form merger) must, unless all shareholders of the class consent and except as provided in Section 407, be treated equally with respect to any distribution of cash, property, rights or securities. If the agreement provides for any amendment to the articles of the surviving corporation, the agreement shall meet the requirements of Section 907.

1102. Each corporation shall sign the agreement by its chairman of the board, president or a vice president and secretary or an assistant secretary acting on behalf of their respective corporations.

1103. After approval of a merger by the board and any shareholder vote required by Chapter 12, the surviving corporation shall file a copy of the agreement of merger with an officers' certificate of each constituent corporation attached stating the total number of outstanding shares of each class entitled to vote on the merger, that the agreement in the form attached was approved by that corporation by a vote of a number of shares of each class which equaled or exceeded the vote required, specifying each class entitled to vote and the percentage vote required of each class, or that the merger was entitled to be approved by the board alone under the

provisions of Section 1201. The merger and any amendment of the articles of the surviving corporation contained in the merger agreement shall thereupon be effective (subject to subdivision (c) of Section 110 and subject to the provisions of Section 1108) and the several parties thereto shall be one corporation. The agreement shall not be filed, however, until there has been filed by or on behalf of each corporation taxed under the Bank and Corporation Tax Law, the existence of which is terminated by the merger, the certificate of satisfaction of the Franchise Tax Board that all taxes imposed by said act have been paid or secured. The Secretary of State may certify a copy of the merger agreement separate from the officers' certificates attached thereto.

1104. Any amendment to the agreement may be adopted and the agreement so amended may be approved by the board and by the outstanding shares (Section 152) (if required by Chapter 12) of any constituent corporation in the same manner as the original agreement. If the agreement so amended is approved by the board and the outstanding shares (if required) of each of the corporations, the agreement so amended shall then constitute the agreement of merger.

1105. The board may, in its discretion, abandon a merger, subject to the contractual rights, if any, of third parties, including other constituent corporations, without further approval by the outstanding shares (Section 152), at any time before the merger is effective.

1106. A copy of an agreement of merger certified by an official having custody thereof has the same force in evidence as the original and, except as against the state, is conclusive evidence of the performance of all conditions precedent to the merger, the existence on the effective date of the surviving corporation and the performance of the conditions necessary to the adoption of any amendment to the articles contained in the agreement of merger.

1107. (a) Upon merger pursuant to this chapter the separate existence of the disappearing corporations ceases and the surviving corporation shall succeed, without other transfer, to all the rights and property of each of the disappearing corporations and shall be subject to all the debts and liabilities of each in the same manner as if the surviving corporation had itself incurred them.

(b) All rights of creditors and all liens upon the property of each of the constituent corporations shall be preserved unimpaired, provided that such liens upon property of a disappearing corporation shall be limited to the property affected thereby immediately prior to the time the merger is effective.

(c) Any action or proceeding pending by or against any disappearing corporation may be prosecuted to judgment, which shall bind the surviving corporation, or the surviving corporation may be proceeded against or substituted in its place.

1108. (a) The merger of any number of domestic corporations with any number of foreign corporations may be effected if the

foreign corporations are authorized by the laws under which they are formed to effect such a merger. The surviving corporation may be any one of the constituent corporations and shall continue to exist under the laws of the state or place of its incorporation.

(b) If the surviving corporation is a domestic corporation, the merger proceedings with respect to that corporation and any domestic disappearing corporation shall conform to the provisions of this chapter governing the merger of domestic corporations, or to Section 1110, but if the surviving corporation is a foreign corporation, then, subject to the requirements of subdivision (d) and of Section 407 and Chapters 12 and 13 (with respect to any domestic constituent corporations), the merger proceedings may be in accordance with the laws of the state or place of incorporation of the surviving corporation.

(c) If the surviving corporation is a domestic corporation, the agreement and the officers' certificate of each constituent corporation shall be filed as provided in Section 1103 and thereupon, subject to subdivision (c) of Section 110, the merger shall be effective as to each domestic constituent corporation; and each foreign disappearing corporation which is qualified for the transaction of intrastate business shall by virtue of the filing automatically surrender its right to transact intrastate business.

(d) Subject to Section 1110, if the surviving corporation is a foreign corporation, the merger shall become effective in accordance with the law of the jurisdiction in which it is organized, but shall be effective as to any domestic disappearing corporation as of the time of filing in such foreign jurisdiction upon the filing in this state as required by this subdivision. There shall be filed as to the domestic disappearing corporation or corporations a copy of the agreement, certificate or other document filed by the surviving foreign corporation in the state or place of its incorporation for the purpose of effecting the merger, which copy shall be certified by the public officer having official custody of the original or, in lieu thereof, an executed counterpart of such agreement, certificate or other document; and each foreign disappearing corporation which is qualified for the transaction of intrastate business shall automatically by such filing surrender its right to transact intrastate business.

(e) The provisions of Chapters 12 and 13 apply to the rights of the shareholders of any of the constituent corporations which are domestic corporations.

1109. Whenever a domestic or foreign corporation having any real property in this state merges or consolidates with another corporation pursuant to the laws of this state or of the state or place in which any constituent corporation was incorporated, and the laws of the state or place of incorporation (including this state) of any disappearing corporation provide substantially that the making and filing of the agreement of merger vests in the surviving corporation all the real property of any disappearing corporation, the filing for record in the office of the county recorder of any county in this state

in which any of the real property of such disappearing corporation is located of either (a) a certificate prescribed by the Secretary of State, or (b) a copy of the agreement of merger, certified by the Secretary of State or an authorized public official of the state or place pursuant to the laws of which the merger is effected, shall evidence record ownership in the surviving corporation of all interest of such disappearing corporation in and to the real property located in that county.

1110. (a) If a domestic corporation owns all the outstanding shares of a corporation or corporations, domestic or foreign, the merger of the subsidiary corporation or corporations into the parent corporation may be effected by a resolution adopted by the board of the parent corporation and the filing of a certificate of ownership as provided in subdivision (d). The resolution shall provide for the merger and shall provide that the parent corporation assumes all the liabilities of each subsidiary corporation.

(b) If a domestic corporation owns less than all the outstanding shares but at least 90 percent of the outstanding shares of each class of a corporation or corporations, domestic or foreign, the merger of the subsidiary corporation or corporations into the parent corporation may be effected by resolutions adopted by the boards of the parent and each subsidiary corporation and the filing of a certificate of ownership as provided in subdivision (d). The resolution of the board of the parent corporation shall provide for the merger, shall provide that the parent corporation assumes all the liabilities of each subsidiary corporation and shall set forth the securities, cash, property or rights to be issued, paid, delivered or granted by the parent corporation upon surrender of each share of each subsidiary corporation not owned by the parent corporation. The resolution of the board of each subsidiary corporation shall approve the fairness of the consideration to be received for each share of the subsidiary corporation not owned by the parent corporation.

(c) In any merger pursuant to this section, the parent corporation may change its name, subject to Section 201, regardless of whether the name so adopted is the same as or similar to that of one of the disappearing corporations. In such case the resolution shall provide for the amendment of articles to change the name and shall establish the wording of the amendment as provided in Section 907.

(d) After adoption of the resolution or resolutions of merger, a certificate of ownership consisting of an officers' certificate of the parent corporation shall be filed, and a copy thereof for each domestic and qualified foreign disappearing corporation. The certificate of ownership shall:

(1) Identify the parent and subsidiary corporation or corporations.

(2) Set forth the share ownership by the parent corporation of each subsidiary corporation as 100% of the outstanding shares or as at least 90% of the outstanding shares of each class, as the case may be.

(3) Set forth the resolution adopted by the board of the parent corporation, including the resolution for change of name if applicable.

(4) Set forth the resolution adopted by the board of each subsidiary corporation, if required.

(e) The certificate of ownership shall not be filed, however, until there has been filed by or on behalf of each subsidiary corporation taxed under the Bank and Corporation Tax Law, the existence of which is terminated by the merger, the certificate of satisfaction of the Franchise Tax Board that all taxes imposed by said law have been paid or secured.

(f) Upon the filing of the certificate of ownership, the merger shall be effective and any amendment of the articles of the surviving corporation set forth in the certificate shall be effective.

(g) A merger pursuant to this section may be effected if the parent corporation is a foreign corporation and if at least one subsidiary corporation is a domestic corporation but in such a case the certificate of ownership prepared as in subdivision (d) shall be filed as to each domestic and qualified foreign subsidiary corporation, but no filing shall be made as to the foreign parent corporation.

(h) A foreign subsidiary corporation may not be merged as in this section provided and a foreign parent corporation may not act as in this section provided unless the laws of the state or place of its incorporation permit such action.

(i) In the event all of the outstanding shares of a subsidiary domestic corporation party to a merger effected under this section are not owned by the parent corporation immediately prior to the merger, the surviving corporation shall, within 10 days after the effective date of the merger, notify each shareholder of such domestic corporation that the merger has become effective, which notice shall contain a copy of the resolutions of the boards of the parent and the subsidiary required by subdivision (b) and the information required by subdivision (a) of Section 1301. The notice shall be sent by registered mail addressed to the shareholder at the address of such shareholder as it appears on the records of the corporation. Any such shareholder shall have the right to demand payment of cash for the shares of such shareholder pursuant to the provisions of Chapter 13.

1111. If any disappearing corporation in a merger is a close corporation and the surviving corporation is not a close corporation, the merger shall be approved by the affirmative vote of at least two-thirds of each class of the outstanding shares of such disappearing corporation; provided, however, that the articles or a shareholders' agreement may provide for a lesser vote, but not less than a majority of the outstanding shares of each class.

CHAPTER 12. REORGANIZATIONS

1200. A reorganization (Section 181) shall be approved by the board of:

(a) Each constituent corporation in a merger reorganization;

(b) The acquiring corporation in an exchange reorganization;

(c) The acquiring corporation and the corporation whose property and assets are acquired in a sale-of-assets reorganization; and

(d) The corporation in control of any constituent or acquiring corporation under subdivision (a), (b) or (c) and whose equity securities are issued or transferred in the reorganization (a "parent party").

1201. (a) The principal terms of a reorganization shall be approved by the outstanding shares (Section 152) of each class, regardless of limitations or restrictions on the voting rights thereof, of each corporation the approval of whose board is required under Section 1200, except as provided in subdivision (b) and except that (unless otherwise provided in the articles) no approval of any class of outstanding preferred shares of the surviving or acquiring corporation or parent party shall be required if the rights, preferences, privileges and restrictions granted to or imposed upon such class of shares remain unchanged (subject to the provisions of subdivision (c)). For the purpose of this subdivision, two classes of common shares differing only as to voting rights shall be considered as a single class of shares.

(b) No approval of the outstanding shares (Section 152) shall be required in the case of any corporation if such corporation, or its shareholders immediately before the reorganization, or both, shall own (immediately after the reorganization) equity securities, other than any warrant or right to subscribe to or purchase such equity securities, of the surviving or acquiring corporation or a parent party (subdivision (d) of Section 1200) possessing more than five-sixths of the total combined voting power of the surviving or acquiring corporation or parent party. In making the determination of ownership by the shareholders of a corporation, immediately after the reorganization, of equity securities pursuant to the preceding sentence, equity securities which they owned immediately before the reorganization as shareholders of another party to the transaction shall be disregarded. For the purpose of this section only, the total combined voting power of a corporation shall be calculated by assuming the conversion of all equity securities convertible (immediately or at some future time) into shares entitled to vote but not assuming the exercise of any warrant or right to subscribe to or purchase such shares. Shares which are only entitled to vote upon the happening of an event or condition which has not yet occurred shall not be considered voting shares.

(c) Notwithstanding the provisions of subdivision (b), a reorganization shall be approved by the outstanding shares (Section

152) of the surviving corporation in a merger reorganization if any amendment is made to its articles which would otherwise require such approval.

(d) Notwithstanding the provisions of subdivision (b), a reorganization shall be approved by the outstanding shares (Section 152) of any class of a disappearing corporation in a merger reorganization if holders of shares of that class receive shares of the surviving corporation having different rights, preferences, privileges or restrictions than those surrendered. Shares in a foreign corporation received in exchange for shares in a domestic corporation have different rights, preferences, privileges and restrictions within the meaning of the preceding sentence.

(e) Notwithstanding the provisions of subdivisions (a) and (b), a reorganization shall be approved by the affirmative vote of at least two-thirds of each class of the outstanding shares of any close corporation if the reorganization would result in their receiving shares of a corporation which is not a close corporation; provided, however, that the articles may provide for a lesser vote, but not less than the vote otherwise required by this section.

(f) Any approval required by this section may be given before or after the approval by the board. Notwithstanding approval required by this section, the board may abandon the proposed reorganization without further action by the shareholders, subject to the contractual rights, if any, of third parties.

(g) If one of the parties to a reorganization is directly or indirectly controlled by, or under common control with, another party to the reorganization and if approval of the outstanding shares is neither required nor obtained, then in any action to attack the validity of the reorganization or to have the reorganization set aside or rescinded, the person asserting the validity of the reorganization shall have the burden of proving that the reorganization is just and reasonable as to the shareholders affected. The court in any such action shall not restrain or enjoin the consummation of the transaction except upon 10 days prior notice to the corporation and upon a determination by the court that clearly no other remedy will adequately protect the complaining shareholder or the class of shareholders of which such shareholder is a member.

CHAPTER 13. DISSENTERS' RIGHTS

1300. (a) If the approval of the outstanding shares (Section 152) of a corporation is required for a reorganization under subdivisions (a) and (b) or subdivision (e) of Section 1201, each shareholder of such corporation and each shareholder of a disappearing corporation in a short-form merger may, by complying with this chapter, require the corporation in which the shareholder holds shares to purchase for cash at their fair market value the shares owned by the shareholder which are dissenting shares as defined in subdivision (b). The fair market value shall be determined as of the day before the first

announcement of the terms of the proposed reorganization or short-form merger, excluding any appreciation or depreciation in consequence of the proposed action, but adjusted for any stock split, reverse stock split or share dividend which becomes effective thereafter.

(b) As used in this chapter, "dissenting shares" means shares which come within all of the following descriptions:

(1) Which were not immediately prior to the reorganization or short-form merger either (i) listed on any national securities exchange certified by the Commissioner of Corporations under Section 25100(o) or (ii) listed on the list of OTC margin stocks issued by the Board of Governors of the Federal Reserve System, and the notice of meeting of shareholders to act upon the reorganization summarizes the provisions of this section and Sections 1301, 1302, 1303 and 1304; provided, however, that this provision does not apply to any shares with respect to which there exists any restriction on transfer imposed by the corporation or by any law or regulation; and provided, further, that this provision does not apply to any class of shares described in clause (i) or (ii) if demands for payment are filed with respect to 5 percent or more of the outstanding shares of that class.

(2) Which were held of record on the date for the determination of shareholders entitled to vote on the reorganization and (i) were not voted in favor of the reorganization or, (ii) if described in clause (1) (without regard to the provisos in that clause), were voted against the reorganization, or which were held of record on the effective date of a short-form merger; provided, however, that clause (i) rather than clause (ii) applies in any case where the approval required by Section 1201 is sought by written consent rather than at a meeting.

(3) Which the holder has demanded that the corporation purchase at their fair market value, in accordance with Section 1301.

(4) Which the holder has submitted for endorsement, in accordance with Section 1302.

(c) As used in this chapter, "dissenting shareholder" means the recordholder of dissenting shares and includes a transferee of record.

1301. (a) If, in the case of a reorganization, any shareholders of a corporation have a right under Section 1300 to require the corporation to purchase their shares for cash, such corporation shall mail to each such shareholder a notice of the approval of the reorganization by its outstanding shares (Section 152) within 10 days after the date of such approval, accompanied by a copy of Sections 1300, 1302, 1303, 1304 and this section, a statement of the price determined by the corporation to represent the fair market value of the dissenting shares, and a brief description of the procedure to be followed if the shareholder desires to exercise the shareholder's right under such sections.

(b) Any shareholder who has a right to require the corporation to purchase the shareholder's shares for cash under Section 1300 and

who desires the corporation to purchase such shares shall make written demand upon the corporation for the purchase of such shares and payment to the shareholder in cash of their fair market value. The demand is not effective for any purpose unless it is received by the corporation or any transfer agent thereof (1) in the case of shares described in clause (1) of subdivision (b) of Section 1300 (without regard to the provisos in that clause), not later than the date of the shareholders' meeting to vote upon the reorganization, or (2) in any other case within 30 days after the date on which the notice of the approval by the outstanding shares pursuant to subdivision (a) or the notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder.

(c) The demand shall state the number and class of the shares held of record by the shareholder which the shareholder demands that the corporation purchase and shall contain a statement of what such shareholder claims to be the fair market value of those shares as of the day before the announcement of the proposed reorganization or short-form merger.

1302. Within 30 days after the date on which notice of the approval by the outstanding shares or the notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder, the shareholder shall submit to the corporation at its principal office or at the office of any transfer agent thereof the shareholder's certificates representing any shares which the shareholder demands that the corporation purchase, to be stamped or endorsed with a statement that the shares are dissenting shares or to be exchanged for certificates of appropriate denomination so stamped or endorsed. Upon subsequent transfers of the dissenting shares on the books of the corporation the new certificates issued therefor shall bear a like statement, together with the name of the original dissenting holder of the shares.

1303. (a) If the corporation and the shareholder agree that the shares are dissenting shares and agree upon the price of the shares, the dissenting shareholder is entitled to the agreed price with interest thereon at the legal rate on judgments from the date of the agreement. Any agreements fixing the fair market value of any dissenting shares as between the corporation and the holders thereof shall be filed with the secretary of the corporation.

(b) Subject to the provisions of Section 1306, payment of the fair market value of dissenting shares shall be made within 30 days after the amount thereof has been agreed, upon surrender of the certificates therefor, unless provided otherwise by agreement.

1304. (a) If the corporation denies that the shares are dissenting shares, or the corporation and the shareholder fail to agree upon the fair market value of the shares, then the shareholder demanding purchase of such shares as dissenting shares or any interested corporation, within six months after the date on which notice of the approval by the outstanding shares (Section 152) or notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder, but

not thereafter, may file a complaint in the superior court of the proper county praying the court to determine whether the shares are dissenting shares or the fair market value of the dissenting shares or both or may intervene in any action pending on such a complaint.

(b) Two or more dissenting shareholders may join as plaintiffs or be joined as defendants in any such action and two or more such actions may be consolidated.

(c) On the trial of the action, the court shall determine the issues. If the status of the shares as dissenting shares is in issue, the court shall first determine that issue. If the fair market value of the dissenting shares is in issue, the court shall determine, or shall appoint one or more impartial appraisers to determine, the fair market value of the shares.

1305. (a) If the court appoints an appraiser or appraisers, they shall proceed forthwith to determine the fair market value per share. Within the time fixed by the court, the appraisers, or a majority of them, shall make and file a report in the office of the clerk of the court. Thereupon, on the motion of any party, the report shall be submitted to the court and considered on such evidence as the court considers relevant. If the court finds the report reasonable, the court may confirm it.

(b) If a majority of the appraisers appointed fail to make and file a report within 10 days from the date of their appointment or within such further time as may be allowed by the court or the report is not confirmed by the court, the court shall determine the fair market value of the dissenting shares.

(c) Subject to the provisions of Section 1306, judgment shall be rendered against the corporation for payment of an amount equal to the fair market value of each dissenting share multiplied by the number of dissenting shares which any dissenting shareholder who is a party, or who has intervened, is entitled to require the corporation to purchase, with interest thereon at the legal rate from the date on which judgment was entered.

(d) Any such judgment shall be payable only upon the endorsement and delivery to the corporation of the certificates for the shares described in the judgment. Any party may appeal from the judgment.

(e) The costs of the action, including reasonable compensation to the appraisers to be fixed by the court, shall be assessed or apportioned as the court considers equitable, but, if the appraisal exceeds the price offered by the corporation, the corporation shall pay the costs (including in the discretion of the court attorneys' fees, fees of expert witnesses and interest at the legal rate on judgments from the date of compliance with Sections 1300, 1301 and 1302 if the value awarded by the court for the shares is more than 125 percent of the price offered by the corporation under subdivision (a) of Section 1303).

1306. To the extent that the provisions of Chapter 5 prevent the payment to any holders of dissenting shares of their fair market

value, they shall become creditors of the corporation for the amount thereof together with interest at the legal rate on judgments until the date of payment, but subordinate to all other creditors in any liquidation proceeding, such debt to be payable when permissible under the provisions of Chapter 5.

1307. Cash dividends declared and paid by the corporation upon the dissenting shares after the date of approval of the reorganization by the outstanding shares (Section 152) and prior to payment for the shares by the corporation shall be credited against the total amount to be paid by the corporation therefor.

1308. Except as expressly limited in this chapter, holders of dissenting shares continue to have all the rights and privileges incident to their shares, until the fair market value of their shares is agreed upon or determined. A dissenting shareholder may not withdraw a demand for payment unless the corporation consents thereto.

1309. Dissenting shares lose their status as dissenting shares and the holders thereof cease to be dissenting shareholders and cease to be entitled to require the corporation to purchase their shares upon the happening of any of the following:

(a) The corporation abandons the reorganization. Upon abandonment of the reorganization, the corporation shall pay on demand to any dissenting shareholder who has initiated proceedings in good faith under this chapter all necessary expenses incurred in such proceedings and reasonable attorneys' fees.

(b) The shares are transferred prior to their submission for endorsement in accordance with Section 1302 or are surrendered for conversion into shares of another class in accordance with the articles.

(c) The dissenting shareholder and the corporation do not agree upon the status of the shares as dissenting shares or upon the purchase price of the shares, and neither files a complaint or intervenes in a pending action as provided in Section 1304, within six months after the date on which notice of the approval by the outstanding shares or notice pursuant to subdivision (i) of Section 1110 was mailed to the shareholder.

(d) The dissenting shareholder, with the consent of the corporation, withdraws the shareholder's demand for purchase of the dissenting shares.

1310. If litigation is instituted to test the sufficiency or regularity of the votes of the shareholders in authorizing a reorganization, any proceedings under Sections 1304 and 1305 shall be suspended until final determination of such litigation.

1311. This chapter does not apply to classes of shares whose terms and provisions specifically set forth the amount to be paid in respect to such shares in the event of a reorganization or merger.

1312. (a) No shareholder of a corporation who has a right under this chapter to demand payment of cash for the shares held by the shareholder shall have any right at law or in equity to attack the

validity of the reorganization or merger, or to have the reorganization or merger set aside or rescinded, except in an action to test whether the number of shares required to authorize or approve the reorganization have been legally voted in favor thereof; but any holder of shares of a class whose terms and provisions specifically set forth the amount to be paid in respect to them in the event of a reorganization or merger is entitled to payment in accordance with those terms and provisions.

(b) If one of the parties to a reorganization or merger is directly or indirectly controlled by, or under common control with, another party to the reorganization or merger, subdivision (a) shall not apply to any shareholder of such party who has not demanded payment of cash for such shareholder's shares pursuant to this chapter; but if the shareholder institutes any action to attack the validity of the reorganization or merger or to have the reorganization or merger set aside or rescinded, the shareholder shall not thereafter have any right to demand payment of cash for the shareholder's shares pursuant to this chapter. The court in any action attacking the validity of the reorganization or merger or to have the reorganization or merger set aside or rescinded shall not restrain or enjoin the consummation of the transaction except upon 10 days prior notice to the corporation and upon a determination by the court that clearly no other remedy will adequately protect the complaining shareholder or the class of shareholders of which such shareholder is a member.

CHAPTER 14. BANKRUPTCY REORGANIZATIONS AND ARRANGEMENTS

1400. (a) Any domestic corporation with respect to which a proceeding has been initiated under any applicable statute of the United States, as now existing or hereafter enacted, relating to reorganizations or arrangements of corporations, has full power and authority to put into effect and carry out any plan of reorganization or arrangement and the orders of the court or judge entered in such proceeding and may take any proceeding and do any act provided in the plan or directed by such orders, without further action by its board or shareholders. Such power and authority may be exercised and such proceedings and acts may be taken, as may be directed by such orders, by the trustee or trustees of such corporation appointed in the reorganization or arrangement proceeding (or a majority thereof), or if none is appointed and acting, by officers of the corporation designated or a master or other representative appointed by the court or judge, with like effect as if exercised and taken by unanimous action of the board and shareholders of the corporation.

(b) Such corporation may, in the manner provided in subdivision (a), but without limiting the generality or effect of subdivision (a), alter, amend or repeal its bylaws; constitute or reconstitute its board

and name, constitute or appoint directors and officers in place of or in addition to all or some of the directors or officers then in office; amend its articles; make any change in its capital stock; make any other amendment, change, alteration or provision authorized by this division; be dissolved, transfer all or part of its assets or merge as permitted by this division, in which case, however, no shareholder shall have any statutory dissenter's rights; change the location of its principal executive office or remove or appoint an agent to receive service of process; authorize and fix the terms, manner and conditions of the issuance of bonds, debentures or other obligations, whether or not convertible into shares of any class or bearing warrants or rights to purchase or subscribe to shares of any class; or lease its property and franchises to any corporation, if permitted by law.

1401. (a) A certificate of any amendment, change or alteration or of dissolution or any agreement of merger made by such corporation pursuant to Section 1400 and executed as provided in subdivision (b), shall be filed and shall thereupon become effective in accordance with its terms and the provisions of this chapter.

(b) Such certificate, agreement of merger or other instrument shall be signed and verified, as may be directed by such orders of the court or judge, by the trustee or trustees appointed in the reorganization or arrangement proceeding (or a majority thereof) or, if none is appointed and acting, by officers of the corporation designated or by a master or other representative appointed by the court or judge, and shall state that provision for the making of such certificate, agreement or instrument is contained in an order, identifying the same, of a court or judge having jurisdiction of a proceeding under a statute of the United States for the reorganization or arrangement of such corporation.

1402. The provisions of this chapter shall cease to apply to a corporation upon the entry of a final decree in the reorganization or arrangement proceeding closing the case and discharging the trustee or trustees, if any, whether or not jurisdiction may be retained thereafter by the court for limited purposes which do not relate to the consummation of the plan.

1403. For filing any certificate, agreement or other paper pursuant to this chapter there shall be paid to the Secretary of State the same fees as are payable by corporations not in reorganization or arrangement proceedings upon the filing of like certificates, agreements or other papers.

CHAPTER 15. RECORDS AND REPORTS

1500. Each corporation shall keep adequate and correct books and records of account and shall keep minutes of the proceedings of its shareholders, board and committees of the board and shall keep at its principal executive office, or at the office of its transfer agent or registrar, a record of its shareholders, giving the names and

addresses of all shareholders and the number and class of shares held by each. Such minutes shall be kept in written form. Such other books and records shall be kept either in written form or in any other form capable of being converted into written form.

1501. (a) The board shall cause an annual report to be sent to the shareholders not later than 120 days after the close of the fiscal year, unless in the case of a corporation with less than 100 holders of record of its shares (determined as provided in Section 605) this requirement is expressly waived in the bylaws. Such report shall contain a balance sheet as of the end of such fiscal year and an income statement and statement of changes in financial position for such fiscal year, accompanied by any report thereon of independent accountants or, if there is no such report, the certificate of an authorized officer of the corporation that such statements were prepared without audit from the books and records of the corporation.

(b) In addition to the financial statements required by subdivision (a), the annual report of any corporation having 100 or more holders of record of its shares (determined as provided in Section 605) and having no class of securities registered under Section 12 of the Securities Exchange Act of 1934, or exempted from such registration by Section 12(g)(2) of that act, shall also describe briefly:

(1) Any transaction (excluding compensation of officers and directors) during the previous fiscal year involving an amount in excess of forty thousand dollars ($40,000) (other than contracts let at competitive bid or services rendered at prices regulated by law) to which the corporation or its parent or subsidiary was a party and in which any director or officer of the corporation or of a subsidiary or any holder of more than 10 percent of the outstanding voting shares of the corporation had a direct or indirect material interest, naming such person and stating such person's relationship to the corporation, the nature of such person's interest in the transaction and, where practicable, the amount of such interest; provided, that in the case of a transaction with a partnership of which such person is a partner, only the interest of the partnership need be stated; and provided, further that no such report need be made in the case of transactions approved by the shareholders (Section 153) under subdivision (a) of Section 310.

(2) The amount and circumstances of any indemnification or advances aggregating more than ten thousand dollars ($10,000) paid during the fiscal year to any officer or director of the corporation pursuant to Section 317; provided, that no such report need be made in the case of indemnification approved by the shareholders (Section 153) under subdivision (e)(2) of Section 317.

(c) A shareholder or shareholders holding at least five percent of the outstanding shares of any class of a corporation may make a written request to the corporation for an income statement of the corporation for the three-month, six-month or nine-month period of the current fiscal year ended more than 30 days prior to the date of

the request and a balance sheet of the corporation as of the end of such period and, in addition, if no annual report for the last fiscal year has been sent to shareholders, the statements required by subdivision (a) for the last fiscal year. The statement shall be delivered or mailed to the person making the request within 30 days thereafter. A copy of the statements shall be kept on file in the principal office of the corporation for 12 months and they shall be exhibited at all reasonable times to any shareholder demanding an examination of them or a copy shall be mailed to such shareholder.

(d) A corporation shall, upon the written request of any shareholder, mail to the shareholder a copy of the last annual, semiannual or quarterly income statement which it has prepared and a balance sheet as of the end of the period.

(e) The quarterly income statements and balance sheets referred to in this section shall be accompanied by the report thereon, if any, of any independent accountants engaged by the corporation or the certificate of an authorized officer of the corporation that such financial statements were prepared without audit from the books and records of the corporation.

(f) In addition to the penalties provided for in Section 2200, the superior court of the proper county shall enforce the duty of making and mailing or delivering the information and financial statements required by this section and, for good cause shown, may extend the time therefor.

(g) In any action or proceeding under this section, if the court finds the failure of the corporation to comply with the requirements of this section to have been without justification, the court may award an amount sufficient to reimburse the shareholder for the reasonable expenses incurred by the shareholder, including attorneys' fees, in connection with such action or proceeding.

(h) This section applies to any domestic corporation and also to a foreign corporation having its principal executive office in this state or customarily holding meetings of its board in this state.

1502. (a) Every corporation shall, within 90 days after the filing of its original articles and annually thereafter during the applicable filing period in each year, file, on a form prescribed by the Secretary of State, a statement containing: (1) the presently authorized number of its directors; (2) the names and complete business or residence addresses of its incumbent directors; (3) the names and complete business or residence addresses of its chief executive officer, secretary and chief financial officer; (4) the street address of its principal executive office; (5) if the address of its principal executive office is not in this state, the street address of its principal business office in this state, if any; and (6) a statement of the general type of business which constitutes the principal business activity of the corporation (for example, manufacturer of aircraft; wholesale liquor distributor; retail department store).

(b) The statement required by subdivision (a) shall also designate, as the agent of such corporation for the purpose of service

of process, a natural person residing in this state or a corporation which has complied with Section 1505 and whose capacity to act as such agent has not terminated If a natural person is designated, the statement shall set forth such person's complete business or residence address. If a corporate agent is designated, no address for it shall be set forth.

(c) For the purposes of this section, the applicable filing period for a corporation shall be the calendar quarter during which its original articles were filed and the immediately preceding calendar quarter. The Secretary of State shall mail a form for compliance with this section to each corporation approximately three months prior to the close of the applicable filing period. The form shall state the due date thereof and shall be mailed to the last address of the corporation according to the records of the Secretary of State. Neither the failure of the Secretary of State to mail the form nor the failure of the corporation to receive it is an excuse for failure to comply with this section.

(d) Whenever any of the information required by subdivision (a) is changed, the corporation may file a current statement containing all the information required by subdivisions (a) and (b). In order to change its agent for service of process or the address of the agent, the corporation must file a current statement containing all the information required by subdivisions (a) and (b). Whenever any statement is filed pursuant to this section, it supersedes any previously filed statement and the statement in the articles as to the agent for service of process and the address of the agent.

(e) The Secretary of State may destroy or otherwise dispose of any statement filed pursuant to this section after it has been superseded by the filing of a new statement.

(f) This section shall not be construed to place any person dealing with the corporation on notice of, or under any duty to inquire about, the existence or content of a statement filed pursuant to this section.

1503. An agent designated for service of process pursuant to Section 1502 or 2105 or 2107 may file a signed and acknowledged written statement of resignation as such agent. Thereupon the authority of the agent to act in such capacity shall cease and the Secretary of State forthwith shall give written notice of the filing of the statement of resignation by mail to the corporation addressed to its principal executive office.

1504. If a natural person who has been designated agent for service of process pursuant to Section 1502 or 2105 or 2107 dies or resigns or no longer resides in the state or if the corporate agent for such purpose resigns, dissolves, withdraws from the state, forfeits its right to transact intrastate business, has its corporate rights, powers and privileges suspended or ceases to exist, the corporation shall forthwith file a designation of a new agent conforming to the requirements of Section 1502 or 2107.

1505. (a) Any corporation, before it may be designated as the agent for the purpose of service of process of any corporation

pursuant to Section 1502 or 2105 or 2107, shall file a certificate executed in the name of the corporation by an officer thereof stating:

(1) The complete address of its office or offices in this state, wherein any corporation designating it as such agent may be served with process.

(2) The name of each person employed by it at each such office to whom it authorizes the delivery of a copy of any such process.

(3) Its consent that delivery thereof to any such person at the office where such person is employed shall constitute delivery of any such copy to it, as such agent.

(b) Any corporation which has filed the certificate provided for in subdivision (a) may file any number of supplemental certificates containing all the statements provided for in subdivision (a), which, upon the filing thereof, shall supersede the statements contained in the original or in any supplemental certificate previously filed.

(c) No domestic or foreign corporation may file a certificate pursuant to this section unless it is currently authorized to engage in business in this state and is in good standing on the records of the Secretary of State.

1506. Upon request of an assessor, a domestic or foreign corporation owning, claiming, possessing or controlling property in this state subject to local assessment shall make available at the corporation's principal office in California or at a place mutually acceptable to the assessor and the corporation a true copy of business records relevant to the amount, cost and value of all property that it owns, claims, possesses or controls within the county.

1507. Any officers, directors, employees or agents of a corporation who do any of the following are liable jointly and severally for all the damages resulting therefrom to the corporation or any person injured thereby who relied thereon or to both:

(a) Make, issue, deliver or publish any prospectus, report, circular, certificate, financial statement, balance sheet, public notice or document respecting the corporation or its shares, assets, liabilities, capital, dividends, business, earnings or accounts which is false in any material respect, knowing it to be false, or participate in the making, issuance, delivery or publication thereof with knowledge that the same is false in a material respect.

(b) Make or cause to be made in the books, minutes, records or accounts of a corporation any entry which is false in any material particular knowing such entry is false.

(c) Remove, erase, alter or cancel any entry in any books or records of the corporation, with intent to deceive.

1508. The Attorney General, upon complaint that a corporation is failing to comply with the provisions of this chapter or Chapter 6, 7 or 16, may in the name of the people of the State of California send to the principal executive office of such corporation notice of the complaint. If the answer is not satisfactory, the Attorney General may institute, maintain or intervene in such suits, actions or proceedings of any type in any court or tribunal of competent

jurisdiction or before any administrative agency for such relief by way of injunction, the dissolution of entities, the appointment of receivers or any other temporary, preliminary, provisional or final remedies as may be appropriate to protect the rights of shareholders or to undo the consequences of failure to comply with such requirements. In any such action, suit or proceeding there may be joined as parties all persons and entities responsible for or affected by such activity.

CHAPTER 16. RIGHTS OF INSPECTION

1600. (a) A shareholder or shareholders holding at least 5 percent in the aggregate of the outstanding voting shares of a corporation or who hold at least 1 percent of such voting shares and have filed a Schedule 14B with the United States Securities and Exchange Commission relating to the election of directors of the corporation shall have an absolute right to do either or both of the following: (1) inspect and copy the record of shareholders' names and addresses and shareholdings during usual business hours upon five business days' prior written demand upon the corporation, or (2) obtain from the transfer agent for the corporation, upon five business days' prior written demand and upon the tender of its usual charges for such a list (the amount of which charges shall be stated to the shareholder by the transfer agent upon request), a list of the shareholders' names and addresses, who are entitled to vote for the election of directors, and their shareholdings, as of the most recent record date for which it has been compiled or as of a date specified by the shareholder subsequent to the date of demand. A corporation shall have the responsibility to cause its transfer agent to comply with the preceding sentence.

(b) Any delay by the corporation or the transfer agent in complying with a demand under subdivision (a) beyond the time limits specified therein shall give the shareholder or shareholders properly making the demand a right to obtain from the superior court, upon the filing of a verified complaint in the proper county and after a hearing, notice of which shall be given to such persons and in such manner as the court may direct, an order postponing any shareholders' meeting previously noticed for a period equal to the period of such delay. Such right shall be in addition to any other legal or equitable remedies to which the shareholder may be entitled.

(c) The record of shareholders shall also be open to inspection and copying by any shareholder or holder of a voting trust certificate at any time during usual business hours upon written demand on the corporation, for a purpose reasonably related to such holder's interests as a shareholder or holder of a voting trust certificate.

(d) Any inspection and copying under this section may be made in person or by agent or attorney. The rights provided in this section may not be limited by the articles or bylaws. This section applies to any domestic corporation and to any foreign corporation keeping its

record of shareholders or a duplicate thereof in this state or having its principal executive office in this state.

1601. (a) The accounting books and records and minutes of proceedings of the shareholders and the board and committees of the board of any domestic corporation, and of any foreign corporation keeping any such records in this state or having its principal executive office in this state, shall be open to inspection upon the written demand on the corporation of any shareholder or holder of a voting trust certificate at any reasonable time during usual business hours, for a purpose reasonably related to such holder's interests as a shareholder or as the holder of such voting trust certificate. The right of inspection created by this subdivision shall extend to the records of each subsidiary of a corporation subject to this subdivision.

(b) Such inspection by a shareholder or holder of a voting trust certificate may be made in person or by agent or attorney, and the right of inspection includes the right to copy and make extracts. The right of the shareholders to inspect the corporate records may not be limited by the articles or bylaws.

1602. Every director shall have the absolute right at any reasonable time to inspect and copy all books, records and documents of every kind and to inspect the physical properties of the corporation, domestic or foreign, of which such person is a director and also of its subsidiary corporations, domestic or foreign. Such inspection by a director may be made in person or by agent or attorney and the right of inspection includes the right to copy and make extracts. In the case of a foreign corporation this right extends only to such books, records, documents and properties of such corporation as are actually or customarily located in this state.

1603. (a) Upon refusal of a lawful demand for inspection, the superior court of the proper county, or in the case of a foreign corporation the superior court of the county in which the records are located, may enforce the right of inspection with just and proper conditions or may, for good cause shown, appoint one or more competent inspectors or accountants to audit the books and records kept in this state and investigate the property, funds and affairs of any domestic corporation or any foreign corporation keeping records in this state and of any subsidiary corporation thereof, domestic or foreign, keeping records in this state and to report thereon in such manner as the court may direct.

(b) All officers and agents of the corporation shall produce to the inspectors or accountants so appointed all books and documents in their custody or power, under penalty of punishment for contempt of court.

(c) All expenses of the investigation or audit shall be defrayed by the applicant unless the court orders them to be paid or shared by the corporation.

1604. In any action or proceeding under Section 1600 or Section 1601, if the court finds the failure of the corporation to comply with a proper demand thereunder was without justification, the court

may award an amount sufficient to reimburse the shareholder or holder of a voting trust certificate for the reasonable expenses incurred by such holder, including attorneys' fees, in connection with such action or proceeding.

1605. If any record subject to inspection pursuant to this chapter is not maintained in written form, a request for inspection is not complied with unless and until the corporation at its expense makes such record available in written form.

CHAPTER 17. SERVICE OF PROCESS

1700. In addition to the provisions of Chapter 4 (commencing with Section 413.10) of Title 5 of Part 2 of the Code of Civil Procedure, process may be served upon domestic corporations as provided in this chapter.

1701. Delivery by hand of a copy of any process against the corporation (a) to any natural person designated by it as agent or (b), if a corporate agent has been designated, to any person named in the latest certificate of the corporate agent filed pursuant to Section 1505 at the office of such corporate agent shall constitute valid service on the corporation.

1702. (a) If an agent for the purpose of service of process has resigned and has not been replaced or if the agent designated cannot with reasonable diligence be found at the address designated for delivery by hand of the process, and it is shown by affidavit to the satisfaction of the court that process against a domestic corporation cannot be served with reasonable diligence upon the designated agent by hand in the manner provided in Section 415.10, subdivision (a) of Section 415.20 or subdivision (a) of Section 415.30 of the Code of Civil Procedure or upon the corporation in the manner provided in subdivision (a), (b) or (c) of Section 416.10 or subdivision (a) of Section 416.20 of the Code of Civil Procedure, the court may make an order that the service be made upon the corporation by delivering by hand to the Secretary of State, or to any person employed in the Secretary of State's office in the capacity of assistant or deputy, one copy of the process for each defendant to be served, together with a copy of the order authorizing such service. Service in this manner is deemed complete on the 10th day after delivery of the process to the Secretary of State.

(b) Upon the receipt of any such copy of process, the Secretary of State shall give notice of the service of the process to the corporation at its principal executive office, by forwarding to such office, by registered mail with request for return receipt, the copy of the process or, if the records of the Secretary of State do not disclose an address for its principal executive office, by forwarding such copy in the same manner to the last designated agent for service of process who has not resigned. If the agent for service of process has resigned and has not been replaced and the records of the Secretary of State do not disclose an address for its principal executive office, no action

need be taken by the Secretary of State. The defendant shall appear within 30 days after delivery of the process to the Secretary of State.

(c) The Secretary of State shall keep a record of all process served upon the Secretary of State under this chapter and shall record therein the time of service and the Secretary of State's action with reference thereto.

CHAPTER 18. INVOLUNTARY DISSOLUTION

1800. (a) A verified complaint for involuntary dissolution of a corporation on any one or more of the grounds specified in subdivision (b) may be filed in the superior court of the proper county by any of the following persons:

(1) One-half or more of the directors in office.

(2) A shareholder or shareholders who hold shares representing not less than 33⅓ percent of (i) the total number of outstanding shares (assuming conversion of any preferred shares convertible into common shares) or (ii) the outstanding common shares or (iii) the equity of the corporation, exclusive in each case of shares owned by persons who have personally participated in any of the transactions enumerated in clause (4) of subdivision (b), or any shareholder or shareholders of a close corporation.

(3) Any shareholder if the ground for dissolution is that the period for which the corporation was formed has terminated without extension thereof.

(4) Any other person expressly authorized to do so in the articles.

(b) The grounds for involuntary dissolution are that:

(1) The corporation has abandoned its business for more than one year.

(2) The corporation has an even number of directors who are equally divided and cannot agree as to the management of its affairs, so that its business can no longer be conducted to advantage or so that there is danger that its property and business will be impaired or lost, and the holders of the voting shares of the corporation are so divided into factions that they cannot elect a board consisting of an uneven number or the shareholders have failed, for a period which includes at least two consecutive annual meeting dates, to elect successors to directors whose terms have expired or would have expired upon election of their successors.

(3) There is internal dissention and two or more factions of shareholders in the corporation are so deadlocked that its business can no longer be conducted with advantage to its shareholders.

(4) Those in control of the corporation have been guilty of or have knowingly countenanced persistent and pervasive fraud, mismanagement or abuse of authority or persistent unfairness toward any shareholders or its property is being misapplied or wasted by its directors or officers.

(5) In the case of any corporation with 35 or fewer shareholders (determined as provided in Section 605), liquidation is reasonably

necessary for the protection of the rights or interests of the complaining shareholder or shareholders.

(6) The period for which the corporation was formed has terminated without extension of such period.

(c) At any time prior to the trial of the action any shareholder or creditor may intervene therein.

(d) This section does not apply to any corporation subject to the Bank Act, the Public Utilities Act, the Savings and Loan Association Act or Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 of the Insurance Code.

(e) For the purposes of this section, "shareholder" includes a beneficial owner of shares who has entered into an agreement under Section 300 or 706.

1801. (a) The Attorney General may bring an action against any domestic corporation or purported domestic corporation in the name of the people of this state, upon the Attorney General's own information or upon complaint of a private party, to procure a judgment dissolving the corporation and annulling, vacating or forfeiting its corporate existence upon any of the following grounds:

(1) The corporation has seriously offended against any provision of the statutes regulating corporations.

(2) The corporation has fraudulently abused or usurped corporate privileges or powers.

(3) The corporation has violated any provision of law by any act or default which under the law is a ground for forfeiture of corporate existence.

(4) The corporation has failed to pay to the Franchise Tax Board for a period of five years any tax imposed upon it by the Bank and Corporation Tax Law.

(b) If the ground of the action is a matter or act which the corporation has done or omitted to do that can be corrected by amendment of its articles or by other corporate action, such suit shall not be maintained unless (1) the Attorney General, at least 30 days prior to the institution of suit, has given the corporation written notice of the matter or act done or omitted to be done and (2) the corporation has failed to institute proceedings to correct it within the 30-day period or thereafter fails to prosecute such proceedings.

(c) In any such action the court may order dissolution or such other or partial relief as it deems just and expedient. The court also may appoint a receiver for winding up the affairs of the corporation or may order that the corporation be wound up by its board subject to the supervision of the court.

(d) Service of process on the corporation may be made pursuant to Chapter 17 or by written notice to the president or secretary of the corporation at the address indicated in the corporation's last tax return filed pursuant to the Bank and Corporation Tax Law. The Attorney General shall also publish one time in a newspaper of general circulation in the proper county a notice to the shareholders of the corporation.

1802. If the ground for the complaint for involuntary dissolution of the corporation is a deadlock in the board as set forth in subdivision (b) (2) of Section 1800, the court may appoint a provisional director. The provisions of subdivision (b) of Section 308 apply to any such provisional director so appointed.

1803. If, at the time of the filing of a complaint for involuntary dissolution or at any time thereafter, the court has reasonable grounds to believe that unless a receiver of the corporation is appointed the interests of the corporation and its shareholders will suffer pending the hearing and determination of the complaint, upon the application of the plaintiff, and after a hearing upon such notice to the corporation as the court may direct and upon the giving of security pursuant to Sections 566 and 567 of the Code of Civil Procedure, the court may appoint a receiver to take over and manage the business and affairs of the corporation and to preserve its property pending the hearing and determination of the complaint for dissolution.

1804. After hearing the court may decree a winding up and dissolution of the corporation if cause therefor is shown or, with or without winding up and dissolution, may make such orders and decrees and issue such injunctions in the case as justice and equity require.

1805. (a) Involuntary proceedings for winding up a corporation commence when the order for winding up is entered under Section 1804.

(b) When an involuntary proceeding for winding up has commenced, the board shall conduct the winding up of the affairs of the corporation, subject to the supervision of the court, unless other persons are appointed by the court, on good cause shown, to conduct the winding up. The directors or such other persons may, subject to any restrictions imposed by the court, exercise all their powers through the executive officers without any order of court.

(c) When an involuntary proceeding for winding up has commenced, the corporation shall cease to carry on business except to the extent necessary for the beneficial winding up thereof and except during such period as the board may deem necessary to preserve the corporation's goodwill or going-concern value pending a sale of its business or assets, or both, in whole or in part. The directors shall cause written notice of the commencement of the proceeding for involuntary winding up to be given by mail to all shareholders and to all known creditors and claimants whose addresses appear on the records of the corporation, unless the order for winding up has been stayed by appeal therefrom or otherwise or the proceeding or the execution of the order has been enjoined.

1806. When an involuntary proceeding for winding up has been commenced, the jurisdiction of the court includes:

(a) The requirement of the proof of all claims and demands against the corporation, whether due or not yet due, contingent, unliquidated or sounding only in damages, and the barring from

participation of creditors and claimants failing to make and present claims and proof as required by any order.

(b) The determination or compromise of all claims of every nature against the corporation or any of its property, and the determination of the amount of money or assets required to be retained to pay or provide for the payment of claims.

(c) The determination of the rights of shareholders and of all classes of shareholders in and to the assets of the corporation.

(d) The presentation and filing of intermediate and final accounts of the directors or other persons appointed to conduct the winding up and hearing thereon, the allowance, disallowance or settlement thereof and the discharge of the directors or such other persons from their duties and liabilities.

(e) The appointment of a commissioner to hear and determine any or all matters, with such power or authority as the court may deem proper.

(f) The filling of any vacancies on the board which the directors or shareholders are unable to fill.

(g) The removal of any director if it appears that the director has been guilty of dishonesty, misconduct, neglect or abuse of trust in conducting the winding up or if the director is unable to act. The court may order an election to fill the vacancy so caused, and may enjoin, for such time as it considers proper, the reelection of the director so removed; or the court, in lieu of ordering an election, may appoint a director to fill the vacancy caused by such removal. Any director so appointed by the court shall serve until the next annual meeting of shareholders or until a successor is elected or appointed.

(h) Staying the prosecution of any suit, proceeding or action against the corporation and requiring the parties to present and prove their claims in the manner required of other creditors.

(i) The determination of whether adequate provision has been made for payment or satisfaction of all debts and liabilities not actually paid.

(j) The making of orders for the withdrawal or termination of proceedings to wind up and dissolve, subject to conditions for the protection of shareholders and creditors.

(k) The making of an order, upon the allowance or settlement of the final accounts of the directors or such other persons, that the corporation has been duly wound up and is dissolved. Upon the making of such order, the corporate existence shall cease except for purposes of further winding up if needed.

(*l*) The making of orders for the bringing in of new parties as the court deems proper for the determination of all questions and matters.

1807. (a) All creditors and claimants may be barred from participation in any distribution of the general assets if they fail to make and present claims and proofs within such time as the court may direct, which shall not be less than four nor more than six months after the first publication of notice to creditors unless it

appears by affidavit that there are no claims, in which case the time limit may be three months. If it is shown that a claimant did not receive notice because of absence from the state or other cause, the court may allow a claim to be filed or presented at any time before distribution is completed.

(b) Such notice to creditors shall be published not less than once a week for three consecutive weeks in a newspaper of general circulation published in the county in which the proceeding is pending or, if there is no such newspaper published in that county, in such newspaper as may be designated by the court, directing creditors and claimants to make and present claims and proofs to the person, at the place and within the time specified in the notice. A copy of the notice shall be mailed to each person shown as a creditor or claimant on the books of the corporation, at such person's last known address.

(c) Holders of secured claims may prove for the whole debt in order to realize any deficiency. If such creditors fail to present their claims they shall be barred only as to any right to claim against the general assets for any deficiency in the amount realized on their security.

(d) Before any distribution is made the amount of any unmatured, contingent or disputed claim against the corporation which has been presented and has not been disallowed, or such part of any such claim as the holder would be entitled to if the claim were due, established or absolute, shall be paid into court and there remain to be paid over to the party when the party becomes entitled thereto or, if the party fails to establish a claim, to be paid over or distributed with the other assets of the corporation to those entitled thereto; or such other provision for the full payment of such claim, if and when established, shall be made as the court may deem adequate. A creditor whose claim has been allowed but is not yet due shall be entitled to its present value upon distribution.

(e) Suits against the corporation on claims which have been rejected shall be commenced within 30 days after written notice of rejection thereof is given to the claimant.

1808. (a) Upon the final settlement of the accounts of the directors or other persons appointed pursuant to Section 1805 and the determination that the corporation's affairs are in condition for it to be dissolved, the court may make an order declaring the corporation duly wound up and dissolved. The order shall declare:

(1) That the corporation has been duly wound up, that any tax or penalty due under the Bank and Corporation Tax Law has been paid or secured and that its other known debts and liabilities have been paid or adequately provided for, or that such taxes, penalties, debts and liabilities have been paid as far as its assets permitted, as the case may be. If there are known debts or liabilities for payment of which adequate provision has been made, the order shall state what provision has been made, setting forth the name and address of the corporation, person or governmental agency

that has assumed or guaranteed the payment, or the name and address of the depositary with which deposit has been made or such other information as may be necessary to enable the creditor or other person to whom payment is to be made to appear and claim payment of the debt or liability.

(2) That all known assets have been distributed to shareholders or wholly applied on account of the corporation's debts and liabilities.

(3) That the accounts of directors or such other persons have been settled and that they are discharged from their duties and liabilities to creditors and shareholders.

(4) That the corporation is dissolved.

The court may make such additional orders and grant such further relief as it deems proper upon the evidence submitted.

(b) Upon the making of the order declaring the corporation dissolved, corporate existence shall cease except for the purposes of further winding up if needed; and the directors or such other persons shall be discharged from their duties and liabilities, except in respect to completion of the winding up.

1809. Whenever a corporation is dissolved or its existence forfeited by order, decree or judgment of a court, a copy of the order, decree or judgment, certified by the clerk of court, shall forthwith be filed in the office of the Secretary of State. Notwithstanding Section 23334 of the Revenue and Taxation Code, when the order is based on an action for involuntary dissolution brought by the Attorney General pursuant to Section 1801, there need not be filed in the office of the Secretary of State the certificate of satisfaction of the Franchise Tax Board that all taxes have been paid or secured.

CHAPTER 19. VOLUNTARY DISSOLUTION

1900. (a) Any corporation may elect voluntarily to wind up and dissolve by the vote of shareholders holding shares representing 50 percent or more of the votes entitled to be cast in the election of directors.

(b) Any corporation which comes within one of the following descriptions may elect by approval by the board to wind up and dissolve:

(1) A corporation which has not begun business and which has issued no shares.

(2) A corporation which has been adjudicated a bankrupt.

(3) A corporation which has disposed of all of its assets and has not conducted any business for a period of five years immediately preceding the adoption of the resolution electing to dissolve the corporation.

(4) A corporation which has issued no shares and is not obligated to issue any shares.

1901. (a) Whenever a corporation has elected to wind up and dissolve a certificate evidencing such election shall forthwith be filed.

(b) The certificate shall be an officers' certificate or shall be signed and verified by at least a majority of the directors then in office or by one or more shareholders authorized to do so by shareholders holding shares representing 50 percent or more of the votes entitled to be cast in the election of directors and shall set forth:

(1) That the corporation has elected to wind up and dissolve.

(2) If the election was made by the vote of shareholders, the number of shares voting for the election and that the election was made by shareholders representing at least 50 percent of the votes entitled to be cast in the election of directors.

(3) If the certificate is executed by a shareholder or shareholders, that the subscribing shareholder or shareholders were authorized to execute the certificate by shareholders holding shares representing at least 50 percent of the votes entitled to be cast in the election of directors.

(4) If the election was made by the board pursuant to subdivision (b) of Section 1900, the certificate shall also set forth the circumstances showing the corporation to be within one of the categories described in said subdivision.

1902. (a) A voluntary election to wind up and dissolve may be revoked prior to distribution of any assets by the vote of shareholders holding shares representing a majority of the votes entitled to be cast in the election of directors, or by approval by the board if the election was by the board pursuant to subdivision (b) of Section 1900. Thereupon a certificate evidencing the revocation shall be signed, verified and filed in the manner prescribed by Section 1901.

(b) The certificate shall set forth:

(1) That the corporation has revoked its election to wind up and dissolve.

(2) That no assets have been distributed pursuant to the election.

(3) If the revocation was made by the vote of shareholders, the number of shares voting for the revocation and the total number of outstanding shares the holders of which were entitled to vote on the revocation.

(4) If the election and revocation was by the board, that shall be stated.

1903. (a) Voluntary proceedings for winding up the corporation commence upon the adoption of the resolution of shareholders or directors of the corporation electing to wind up and dissolve, or upon the filing with the corporation of a written consent of shareholders thereto.

(b) When a voluntary proceeding for winding up has commenced, the board shall continue to act as a board and shall have full powers to wind up and settle its affairs, both before and after the filing of the certificate of dissolution.

(c) When a voluntary proceeding for winding up has commenced, the corporation shall cease to carry on business except to the extent necessary for the beneficial winding up thereof and except during

0376 23 12 460 285

such period as the board may deem necessary to preserve the corporation's goodwill or going-concern value pending a sale of its business or assets, or both, in whole or in part. The board shall cause written notice of the commencement of the proceeding for voluntary winding up to be given by mail to all shareholders (except no notice need be given to the shareholders who voted in favor of winding up and dissolving the corporation) and to all known creditors and claimants whose addresses appear on the records of the corporation.

1904. If a corporation is in the process of voluntary winding up, the superior court of the proper county, upon the petition of (a) the corporation, or (b) the holders of shares entitled to file an involuntary proceeding under subdivision (a) (2) of Section 1800, or (c) three or more creditors, and upon such notice to the corporation and to other persons interested in the corporation as shareholders and creditors as the court may order, may take jurisdiction over such voluntary winding up proceeding if that appears necessary for the protection of any parties in interest. The court, if it assumes jurisdiction, may make such orders as to any and all matters concerning the winding up of the affairs of the corporation and for the protection of its shareholders and creditors as justice and equity may require. The provisions of Chapter 18 (except Sections 1800 and 1801) shall apply to such court proceedings.

1905. (a) When a corporation has been completely wound up without court proceedings therefor, a majority of the directors then in office shall sign and verify a certificate of dissolution stating:

(1) That the corporation has been completely wound up.

(2) That its known debts and liabilities have been actually paid, or adequately provided for, or paid or adequately provided for as far as its assets permitted, or that it has incurred no known debts or liabilities, as the case may be. If there are known debts or liabilities for payment of which adequate provision has been made, the certificate shall state what provision has been made, setting forth the name and address of the corporation, person or governmental agency that has assumed or guaranteed the payment, or the name and address of the depositary with which deposit has been made or such other information as may be necessary to enable the creditor or other person to whom payment is to be made to appear and claim payment of the debt or liability.

(3) That its known assets have been distributed to shareholders, or wholly applied or deposited on account of its debts and liabilities or that it acquired no known assets, as the case may be.

(4) That the corporation is dissolved.

(b) The certificate of dissolution shall be filed and thereupon the corporate existence shall cease, except for the purpose of further winding up if needed. However, before any corporation taxed under the Bank and Corporation Tax Law may file a certificate of dissolution it shall file or cause to be filed the certificate of satisfaction of the Franchise Tax Board that all taxes imposed under the Bank

and Corporation Tax Law have been paid or secured.

1906. Except as otherwise provided by law, if the term of existence for which any corporation was organized expires without renewal or extension thereof, the board shall terminate its business and wind up its affairs; and when the business and affairs of the corporation have been wound up a majority of the directors shall execute and file a certificate conforming to the requirements of Section 1905.

1907. (a) The board, in lieu of filing the certificate of dissolution, may petition the superior court of the proper county for an order declaring the corporation duly wound up and dissolved. Such petition shall be filed in the name of the corporation.

(b) Upon the filing of the petition, the court shall make an order requiring all persons interested to show cause why an order should not be made declaring the corporation duly wound up and dissolved and shall direct that the order be served by notice to all creditors, claimants and shareholders in the same manner as the notice given under subdivision (b) of Section 1807.

(c) Any person claiming to be interested as shareholder, creditor or otherwise may appear in the proceeding at any time before the expiration of 30 days from the completion of publication of the order to show cause and contest the petition, and upon failure to appear such person's claim shall be barred.

(d) Thereafter an order shall be entered and filed and have the effect as prescribed in Sections 1808 and 1809.

CHAPTER 20. GENERAL PROVISIONS RELATING TO DISSOLUTION

2000. (a) Subject to any contrary provision in the articles, in any suit for involuntary dissolution, or in any proceeding for voluntary dissolution initiated by the vote of shareholders representing only 50 percent of the voting power, the corporation or, if it does not elect to purchase, the holders of 50 percent or more of the outstanding voting shares of the corporation (the "purchasing parties") may avoid the dissolution of the corporation and the appointment of any receiver by purchasing for cash the shares owned by the plaintiffs or by the shareholders so initiating the proceeding (the "moving parties") at their fair value. The fair value shall be determined on the basis of the liquidation value but taking into account the possibility, if any, of sale of the entire business as a going concern in a liquidation. In fixing the value, the amount of any damages resulting if the initiation of the dissolution is a breach by any moving party or parties of an agreement with the purchasing party or parties may be deducted from the amount payable to such moving party or parties, unless the ground for dissolution is that specified in clause (4) of subdivision (b) of Section 1800. The election of the corporation to purchase may be made by the approval of the outstanding shares (Section 152) excluding shares held by the moving parties.

(b) If the purchasing parties (1) elect to purchase the shares

owned by the moving parties, and (2) are unable to agree with the moving parties upon the fair value of such shares, and (3) give bond with sufficient security to pay the expenses (including attorneys' fees) of the moving parties if such expenses are recoverable under subdivision (c), the court upon application of the purchasing parties, either in the pending action or in a proceeding initiated in the superior court of the proper county by the purchasing parties in the case of a voluntary election to wind up and dissolve, shall stay the winding up and dissolution proceeding and shall proceed to ascertain and fix the fair value of the shares owned by the moving parties.

(c) The court shall appoint three disinterested appraisers to appraise the fair value of the shares owned by the moving parties, and shall make an order referring the matter to the appraisers so appointed for the purpose of ascertaining such value. The order shall prescribe the time and manner of producing evidence, if evidence is required. The award of the appraisers or of a majority of them, when confirmed by the court, shall be final and conclusive upon all parties. The court shall enter a decree which shall provide in the alternative for winding up and dissolution of the corporation unless payment is made for the shares within the time specified by the decree. If the purchasing parties do not make payment for the shares within the time specified, judgment shall be entered against them and the surety or sureties on the bond for the amount of the expenses (including attorneys' fees) of the moving parties. Any shareholder aggrieved by the action of the court may appeal therefrom.

(d) If the purchasing parties desire to prevent the winding up and dissolution, they shall pay to the moving parties the value of their shares ascertained and decreed within the time specified pursuant to this section, or, in case of an appeal, as fixed on appeal. On receiving such payment or the tender thereof, the moving parties shall transfer their shares to the purchasing parties.

(e) For the purposes of this section, "shareholder" includes a beneficial owner of shares who has entered into an agreement under Section 300 or 706.

2001. The powers and duties of the directors (or other persons appointed by the court pursuant to Section 1805) and officers after commencement of a dissolution proceeding include, but are not limited to, the following acts in the name and on behalf of the corporation:

(a) To elect officers and to employ agents and attorneys to liquidate or wind up its affairs.

(b) To continue the conduct of the business insofar as necessary for the disposal or winding up thereof.

(c) To carry out contracts and collect, pay, compromise and settle debts and claims for or against the corporation.

(d) To defend suits brought against the corporation.

(e) To sue, in the name of the corporation, for all sums due or owing to the corporation or to recover any of its property.

(f) To collect any amounts remaining unpaid on subscriptions to

shares or to recover unlawful distributions.

(g) To sell at public or private sale, exchange, convey or otherwise dispose of all or any part of the assets of the corporation for cash in an amount deemed reasonable by the board without compliance with the provisions of Section 1001, or (subject to compliance with the provisions of Sections 1001, 1200 and 1201, but Chapter 13 shall not be applicable thereto) upon such other terms and conditions and for such other considerations as the board deems reasonable or expedient; and to execute bills of sale and deeds of conveyance in the name of the corporation.

(h) In general, to make contracts and to do any and all things in the name of the corporation which may be proper or convenient for the purposes of winding up, settling and liquidating the affairs of the corporation.

2002. A vacancy on the board may be filled during a winding up proceeding in the manner provided in Section 305.

2003. When the identity of the directors or their right to hold office is in doubt, or if they are dead or unable to act, or they fail or refuse to act or their whereabouts cannot be ascertained, any interested person may petition the superior court of the proper county to determine the identity of the directors or, if there are no directors, to appoint directors to wind up the affairs of the corporation, after hearing upon such notice to such persons as the court may direct.

2004. After determining that all the known debts and liabilities of a corporation in the process of winding up have been paid or adequately provided for, the board shall distribute all the remaining corporate assets among the shareholders according to their respective rights and preferences. If the winding up is by court proceeding or subject to court supervision, the distribution shall not be made until after the expiration of any period for the presentation of claims which has been prescribed by order of the court.

2005. The payment of a debt or liability, whether the whereabouts of the creditor is known or unknown, has been adequately provided for if the payment has been provided for by either of the following means:

(a) Payment thereof has been assumed or guaranteed in good faith by one or more financially responsible corporations or other persons or by the United States government or any agency thereof, and the provision (including the financial responsibility of such corporations or other persons) was determined in good faith and with reasonable care by the board to be adequate at the time of any distribution of the assets by the board pursuant to this chapter.

(b) The amount of the debt or liability has been deposited as provided in Section 2008.

This section does not prescribe the exclusive means of making adequate provision for debts and liabilities.

2006. Distribution may be made either in money or in property or securities and either in installments from time to time or as a

whole, if this can be done fairly and ratably and in conformity with the provisions of the articles and the rights of the shareholders, and shall be made as soon as reasonably consistent with the beneficial liquidation of the corporate assets.

2007. (a) If the corporation in process of winding up has both preferred and common shares outstanding, a plan of distribution of the shares, obligations or securities of any other corporation, domestic or foreign, or assets other than money which is not in accordance with the liquidation rights of the preferred shares as specified in the articles may nevertheless be adopted if approved by (a) the board and (b) by approval of the outstanding shares (Section 152) of each class regardless of any limitation or restriction upon voting rights. The plan may provide that such distribution is in complete or partial satisfaction of the rights of any of such shareholders upon distribution and liquidation of the assets.

(b) A plan of distribution so approved shall be binding upon all the shareholders except as provided in subdivision (c). The board shall cause notice of the adoption of the plan to be given by mail within 20 days after its adoption to all holders of shares having a liquidation preference.

(c) Shareholders having a liquidation preference who dissent from the plan of distribution are entitled to be paid the amount of their liquidation preference in cash if they file written demand for payment with the corporation within 30 days after the date of mailing of the notice of the adoption of the plan of distribution, unless the plan of distribution is abandoned. The demand shall state the number and class of the shares held of record by the shareholder in respect of which the shareholder claims payment.

(d) If any such demand for cash payment is filed, the board in its discretion may abandon the plan without further approval by the outstanding shares (Section 152), and all shareholders shall then be entitled to distribution according to their rights and liquidation preferences in the process of winding up.

2008. (a) If any shareholders or creditors are unknown or fail or refuse to accept their payment, dividend or distribution in cash or property or their whereabouts cannot be ascertained after diligent inquiry, or the existence or amount of a claim of a creditor or shareholder is contingent, contested or not determined, or if the ownership of any shares of stock is in dispute, the corporation may deposit any such payment, dividend, distribution or the maximum amount of such claim with the State Treasurer or with a bank or trust company in this state in trust for the benefit of those lawfully entitled thereto. Such payment, dividend or distribution shall be paid over by the depositary to the lawful owners, their representatives or assigns, upon satisfactory proof of title.

(b) For the purpose of providing for the transmittal, receipt, accounting for, claiming, management and investment of all money or other property deposited in the State Treasury under the provisions of subdivision (a), such money or other property shall be

deemed to be paid or delivered for deposit in the State Treasury under the provisions of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure, and may be recovered in the manner prescribed therein.

2009. (a) Whenever in the process of winding up a corporation any distribution of assets has been made, otherwise than under an order of court, without prior payment or adequate provision for payment of any of the debts and liabilities of the corporation, any amount so improperly distributed to any shareholder may be recovered by the corporation. Any of such shareholders may be joined as defendants in the same action or brought in on the motion of any other defendant.

(b) Suit may be brought in the name of the corporation to enforce the liability under subdivision (a) against any or all shareholders receiving the distribution by any one or more creditors of the corporation, whether or not they have reduced their claims to judgment.

(c) Shareholders who satisfy any liability under this section shall have the right of ratable contribution from other distributees similarly liable. Any shareholder who has been compelled to return to the corporation more than the shareholder's ratable share of the amount needed to pay the debts and liabilities of the corporation may require that the corporation recover from any or all of the other distributees such proportion of the amounts received by them upon the improper distribution as to give contribution to those held liable under this section and make the distribution of the assets fair and ratable, according to the respective rights and preferences of the shares, after payment or adequate provision for payment of all the debts and liabilities of the corporation.

(d) As used in this section, "process of winding up" includes proceedings under Chapters 18 and 19 and also any other distribution of assets to shareholders made in contemplation of termination or abandonment of the corporate business.

2010. (a) A corporation which is dissolved nevertheless continues to exist for the purpose of winding up its affairs, prosecuting and defending actions by or against it and enabling it to collect and discharge obligations, dispose of and convey its property and collect and divide its assets, but not for the purpose of continuing business except so far as necessary for the winding up thereof.

(b) No action or proceeding to which a corporation is a party abates by the dissolution of the corporation or by reason of proceedings for winding up and dissolution thereof.

(c) Any assets inadvertently or otherwise omitted from the winding up continue in the dissolved corporation for the benefit of the persons entitled thereto upon dissolution of the corporation and on realization shall be distributed accordingly.

2011. (a) In all cases where a corporation has been dissolved, the shareholders may be sued in the corporate name of such corporation upon any cause of action against the corporation arising prior to its

dissolution. This section is procedural in nature and is not intended to determine liability.

(b) Summons or other process against such a corporation may be served by delivering a copy thereof to an officer, director or person having charge of its assets or, if no such person can be found, to any agent upon whom process might be served at the time of dissolution. If none of such persons can be found with due diligence and it is so shown by affidavit to the satisfaction of the court, then the court may make an order that summons or other process be served upon the dissolved corporation by delivering a copy thereof, together with a copy of the order, to the Secretary of State or an assistant or deputy secretary of state.

(c) Every such corporation shall survive and continue to exist indefinitely for the purpose of being sued in any quiet title action. Any judgment rendered in any such action shall bind each and all of its shareholders or other persons having any equity or other interest in such corporation, to the extent of their interest therein, and such action shall have the same force and effect as an action brought under the provisions of Sections 410.50 and 410.60 of the Code of Civil Procedure. Service of summons or other process in any such action may be made as provided in Chapter 4 (commencing with Section 413.10) of Title 5 of Part 2 of the Code of Civil Procedure or as provided in subdivision (b).

(d) Upon receipt of such process and the fee therefor prescribed in the Government Code, the Secretary of State forthwith shall give notice to the corporation as provided in Section 1702. The defendant shall appear within 30 days after delivery of the process to the Secretary of State.

CHAPTER 21. FOREIGN CORPORATIONS

2100. This chapter applies only to foreign corporations transacting intrastate business, except as otherwise expressly provided.

2101. (a) Any foreign corporation (other than a foreign association) not transacting intrastate business may register its corporate name with the Secretary of State, provided its corporate name would be available pursuant to Section 201 to a new corporation organized under this division at the time of such registration.

(b) Such registration may be made by filing (1) an application for registration signed by a corporate officer stating the name of the corporation, the state or place under the laws of which it is incorporated, the date of its incorporation, and that it desires to register its name under this section; and (2) a certificate of an authorized public official of the state or place in which it is organized stating that such corporation is in good standing under those laws. Such registration shall be effective until the close of the calendar year in which the application for registration is filed.

(c) A corporation which has in effect a registration of its corporate name may renew such registration from year to year by annually filing an application for renewal setting forth the facts required to be set forth in an original application for registration and a certificate of good standing as required for the original registration between the first day of October and the 31st day of December in each year. Such renewal application shall extend the registration for the following calendar year.

2102. A foreign corporation which has filed a designation of an agent for the service of process, pursuant to the requirements of any law relating to the qualification of foreign corporations in force at the time of the filing, need not file the statement provided for in Section 2105, but shall file an amended statement and designation when required by Section 2107.

2103. Nothing in this chapter repeals, alters or amends the provisions of Sections 1600 to 1607, inclusive, of the Insurance Code or prevents any foreign insurance company from carrying out contracts made before the surrender of its right to engage in intrastate business or contracts made with citizens of other states who subsequently become citizens of or residents in this state.

2104. Any foreign lending institution which has not qualified to do business in this state and which engages in any of the activities set forth in subdivision (d) of Section 191 shall be considered by such activities to have appointed the Secretary of State as its agent for service of process for any action arising out of any such activities, and, on or before June 30th of each year, shall file a statement showing the address to which any notice or process may be sent in the manner and with the effect provided in Section 2111.

2105. (a) A foreign corporation shall not transact intrastate business without having first obtained from the Secretary of State a certificate of qualification. To obtain such certificate it shall file, on a form prescribed by the Secretary of State, a statement and designation signed by a corporate officer stating:

(1) Its name and the state or place of its incorporation or organization.

(2) The address of its principal executive office.

(3) The address of its principal office within this state.

(4) The name of an agent upon whom process directed to the corporation may be served within this state. Such designation shall comply with the provisions of subdivision (b) of Section 1502.

(5) Its irrevocable consent to service of process directed to it upon the agent designated and to service of process on the Secretary of State if the agent so designated or the agent's successor is no longer authorized to act or cannot be found at the address given.

(b) Annexed to such statement and designation shall be a certificate by an authorized public official of the state or place of incorporation of the corporation to the effect that such corporation is an existing corporation in good standing in that state or place or, in the case of an association, an officers' certificate stating that it is

a validly organized and existing business association under the laws of a specified foreign jurisdiction.

(c) Before it may be designated by any foreign corporation as its agent for service of process, any corporate agent must comply with Section 1505.

2106. (a) Subject to the provisions of subdivision (b), upon payment of the fees required by law the Secretary of State shall file the statement and designation prescribed in Section 2105 and shall issue to the corporation a certificate of qualification stating the date of filing of said statement and designation and that the corporation is qualified to transact intrastate business, subject, however, to any licensing requirements otherwise imposed by the laws of this state.

(b) No foreign corporation having a name which would not be available pursuant to Section 201 to a new corporation organized under this division shall transact intrastate business in this state or qualify to do so under this chapter or file an amended statement and designation containing such name unless either: (i) it obtains and files an order from a court of competent jurisdiction permanently enjoining the other corporation having a conflicting name from doing business in this state under that name; or (ii) the Secretary of State finds, upon proof by affidavit or otherwise as the Secretary of State may determine, that the business to be conducted in this state by the foreign corporation is not the same as or similar to the business being conducted by the corporation (or to be conducted by the proposed corporation) with whose name it may conflict and that the public is not likely to be deceived, and the foreign corporation agrees that it will transact business in this state under an assumed name disclosed to the Secretary of State and that it will use such assumed name in all of its dealings with the Secretary of State and in the conduct of its affairs in this state. Such assumed name may be its name with the addition of some distinguishing word or words acceptable to the Secretary of State or a name available for the name of a domestic corporation pursuant to Section 201. A corporation which has made such an agreement with the Secretary of State shall not do business in this state except under the name agreed upon, so long as the agreement remains in effect.

2107. (a) If any foreign corporation qualified to transact intrastate business shall change its name, the address of its principal office in this state, the address of its principal executive office or its agent for the service of process, or if the stated address of any natural person designated as agent is changed, it shall file, on a form prescribed by the Secretary of State, an amended statement and designation signed by a corporate officer setting forth the change or changes made. In the case of a change of name, the amended statement and designation shall set forth the name relinquished as well as the new name assumed and there shall be annexed to the amended statement and designation a certificate of an authorized public official of its state or place of incorporation that such change of name was made in accordance with the laws of that state or place

or, in the case of an association, an officers' certificate stating that such change of name was made in accordance with its declaration of trust.

(b) If the change includes a change of name, or a change affecting a fictitious name pursuant to Section 2106, upon the filing of the amended statement and designation the Secretary of State shall issue a new certificate of qualification.

2108. (a) Each foreign corporation (other than a foreign association) qualified to transact intrastate business and each foreign parent corporation subject to Section 2115 shall file annually within three months and 15 days after the close of its taxable year or within 30 days after the filing of its franchise tax return with the Franchise Tax Board if an extension of time for filing the return was granted, an officers' certificate setting forth:

(1) The percentage of its outstanding voting securities held of record, as of the last record date for a shareholder's meeting, by persons having addresses in this state, calculated as provided in Section 2115 and either

(2) That all the income of the corporation was taxable for California franchise tax purposes or that such income would have been so taxable if the corporation had had sufficient income to be subject to more than the minimum franchise tax; or

(3) Its property factor, payroll factor and sales factor computed as provided in Section 2115.

(b) The Secretary of State shall mail a form for compliance with this section to each foreign corporation qualified to transact intrastate business in reasonably sufficient time for such compliance. The form shall state the due date thereof and shall be mailed to the last address of the corporation according to the records of the Secretary of State. Neither the failure of the Secretary of State to mail the form nor the failure of the corporation to receive it is an excuse for failure to comply with this section.

(c) The Secretary of State need not mail a form to a foreign corporation whose right to exercise its corporate powers, rights and privileges in this state were forfeited by the Franchise Tax Board pursuant to Sections 23301 or 23301.5 of the Revenue and Taxation Code more than six months prior to the date the Secretary of State would otherwise have mailed the form pursuant to subdivision (b) and which right has not been revived on or prior to such date of mailing.

(d) The Secretary of State shall forfeit the right of any foreign corporation to transact intrastate business if it fails to file the statement required by this section for a period of six months after notice given to it by the Secretary of State that such filing is delinquent and that it will have its right to transact intrastate business forfeited unless it complies with this section.

(e) Neither the report required by this section nor the computation provided by Section 2115 shall have any effect with respect to the basis upon which the corporation reports its income

for franchise tax purposes.

2109. Any foreign corporation may designate a new agent for the service of process by filing an amended statement and designation, pursuant to Section 2107.

2110. Delivery by hand of a copy of any process against a foreign corporation (a) to any officer of the corporation or its general manager in this state, or if the corporation is a bank to a cashier or an assistant cashier, (b) to any natural person designated by it as agent for the service of process, or (c), if the corporation has designated a corporate agent, to any person named in the latest certificate of such corporate agent filed pursuant to Section 1505 shall constitute valid service on the corporation. A copy of the statement and designation, certified by the Secretary of State, is sufficient evidence of the appointment of an agent for the service of process.

2111. (a) If the agent designated for the service of process is a natural person and cannot be found with due diligence at the address stated in the designation or if such agent is a corporation and no person can be found with due diligence to whom the delivery authorized by Section 2110 may be made for the purpose of delivery to such corporate agent, or if the agent designated is no longer authorized to act, or if no agent has been designated and if no one of the officers or agents of the corporation specified in Section 2110 can be found after diligent search and it is so shown by affidavit to the satisfaction of the court, then the court may make an order that service be made by personal delivery to the Secretary of State or to an assistant or deputy secretary of state of two copies of the process together with two copies of the order, except that if the corporation to be served has not filed the statement required to be filed by Section 2105 then only one copy of the process and order need be delivered but the order shall include and set forth an address to which such process shall be sent by the Secretary of State.

(b) Upon receipt of the process and order and the fee therefor the Secretary of State forthwith shall give notice to the corporation of the service of the process by forwarding by registered mail, with request for return receipt, a copy of the process and order to the address specified in the order if the corporation has not filed the statement required by Section 2105 or to the two offices of the corporation the addresses of which are set forth in the latest such statement filed.

(c) The corporation shall appear within 30 days after delivery of the process to the Secretary of State. The Secretary of State shall keep a record of all process served upon the Secretary of State and shall record therein the time of service and the Secretary of State's action with respect thereto. The certificate of the Secretary of State, under the Secretary of State's official seal, certifying to the receipt of process, the giving of notice thereof to the corporation and the forwarding of such process pursuant to this section, shall be competent and prima facie evidence of the matters stated therein.

2112. Subject to Section 2113, a foreign corporation which has qualified to transact intrastate business may surrender its right to

engage in such business within this state by filing a certificate of surrender signed by a corporate officer stating:

(a) The name of the corporation as shown on the records of the Secretary of State, and the state or place of incorporation or organization.

(b) That it revokes its designation of agent for service of process.

(c) That it surrenders its authority to transact intrastate business.

(d) That it consents that process against it in any action upon any liability or obligation incurred within this state prior to the filing of the certificate of withdrawal may be served upon the Secretary of State.

(e) A post office address to which the Secretary of State may mail a copy of any process against the corporation that is served upon the Secretary of State, which address or the name to which the process should be sent may be changed from time to time by filing a statement signed by a corporate officer stating the new address or name or both.

2113. The filing by the Secretary of State of an agreement of merger of a foreign disappearing corporation qualified to transact intrastate business in this state pursuant to Section 1103 or the filing of a certificate of ownership as to a foreign subsidiary corporation qualified to transact intrastate business in this state pursuant to Section 1110 constitutes the surrender by the foreign corporation of its right to engage in such business within this state.

2114. (a) A foreign corporation which has transacted intrastate business and has thereafter withdrawn from business in this state may be served with process in the manner provided in this chapter in any action brought in this state arising out of such business, whether or not it has ever complied with the requirements of this chapter.

(b) A foreign corporation which has surrendered its right to transact intrastate business pursuant to Section 2112 or Section 2113 may be served with process in any action upon a liability or obligation incurred within this state prior to such surrender by delivery of the process to the Secretary of State, or an assistant or a deputy to the Secretary of State pursuant to this chapter and no court order authorizing such service shall be required. The process shall be mailed in the manner prescribed in this chapter except that it shall be sent to the address to which process is authorized to be sent in the certificate of surrender or to the address of the surviving domestic corporation in the case of a surrender under Section 2113.

(c) If a foreign corporation which is qualified to transact intrastate business has its right to transact such business forfeited by the Franchise Tax Board pursuant to the Bank and Corporation Tax Law, Part 11 (commencing with Section 23001) of the Revenue and Taxation Code, or by the Secretary of State pursuant to Section 2108, service of process on such corporation may be effected in the manner set forth in Sections 2110 and 2111, as if the right to transact intrastate business had not been forfeited by the Franchise Tax Board.

(d) The fact that a corporation ceases to transact intrastate business without filing a certificate of surrender does not revoke the appointment of any agent for the service of process.

2115. (a) A foreign corporation (other than a foreign association but including a foreign parent corporation even though it does not itself transact intrastate business) is subject to this section if the average of the property factor, the payroll factor and the sales factor (as defined in Sections 25129, 25132 and 25134 of the Revenue and Taxation Code) with respect to it is more than 50 percent during its latest full taxable year and if more than one-half of its outstanding voting securities are held of record by persons having addresses in this state. The property factor, payroll factor and sales factor shall be those used in computing the portion of its income allocable to this state in its franchise tax return or, with respect to corporations the allocation of whose income is governed by special formulas or which are not required to file separate tax returns, which would have been so used if they were governed by such three-factor formula. The determination of these factors with respect to any parent corporation shall be made on a consolidated basis, including in a unitary computation (after elimination of intercompany transactions) the property, payroll and sales of the parent and all of its subsidiaries in which it owns directly or indirectly more than 50 percent of the outstanding shares entitled to vote for the election of directors, but deducting a percentage of such property, payroll and sales of any subsidiary equal to the percentage minority ownership, if any, in such subsidiary. For the purpose of this subdivision, any securities held to the knowledge of the issuer in the names of broker-dealers or nominees for broker-dealers shall not be considered outstanding.

(b) The following chapters and sections of this division shall apply to a foreign corporation subject to this section (to the exclusion of the law of the jurisdiction in which it is incorporated):

Chapter 1 (general provisions and definitions), to the extent applicable to the following provisions;

Section 301 (annual election of directors);

Section 303 (removal of directors without cause);

Section 304 (removal of directors by court proceedings);

Section 305, subdivision (c) (filling of director vacancies where less than a majority in office elected by shareholders);

Section 309 (directors' standard of care);

Section 316 (excluding subdivisions (a) (3) and (f) (3)) (liability of directors for unlawful distributions);

Section 317 (indemnification of directors, officers and others);

Sections 500 through 505 (limitations on corporate distributions in cash or property);

Section 506 (liability of shareholder who receives unlawful distribution);

Section 600, subdivisions (b) and (c) (requirement for annual shareholders' meeting and remedy if same not timely held);

Section 708, subdivisions (a), (b) and (c) (shareholder's right to

cumulate votes at any election of directors);
Chapter 12 (reorganizations);
Chapter 13 (dissenters' rights);
Sections 1500 and 1501 (records and reports);
Chapter 16 (rights of inspection).

(c) Subdivision (a) shall become applicable to any foreign corporation only upon the first day of the first fiscal year of the corporation commencing on or after the 30th day after the filing by it of the report pursuant to Section 2108 showing that the tests referred to in subdivision (a) have been met or upon the entry of an order by a court of competent jurisdiction declaring that such tests have been met.

(d) Subdivision (a) shall cease to be applicable at the end of any fiscal year during which a report pursuant to Section 2108 shall have been filed showing that at least one of the tests referred to in subdivision (a) is not met or an order shall have been entered by a court of competent jurisdiction declaring that one of such tests is not met, provided that such filing or order shall be ineffective if a contrary report or order shall be made or entered before the end of such fiscal year.

(e) This section does not apply to any corporation with outstanding securities listed on any national securities exchange certified by the Commissioner of Corporations under Section 25100(o).

2116. The directors of a foreign corporation transacting intrastate business are liable to the corporation, its shareholders, creditors, receiver, liquidator or trustee in bankruptcy for the making of unauthorized dividends, purchase of shares or distribution of assets or false certificates, reports or public notices or other violation of official duty according to any applicable laws of the state or place of incorporation or organization, whether committed or done in this state or elsewhere. Such liability may be enforced in the courts of this state.

CHAPTER 22. CRIMES AND PENALTIES

2200. Every corporation which neglects, fails or refuses: (a) to keep or cause to be kept or maintained the record of shareholders or books of account required by this division to be kept or maintained; or (b) to prepare or cause to be prepared or submitted the financial statements required by this division to be prepared or submitted, is subject to penalty as provided in this section.

The penalty shall be twenty-five dollars ($25) for each day that such failure or refusal continues, beginning 30 days after receipt of written request that the duty be performed from one entitled to make the request, up to a maximum of one thousand five hundred dollars ($1,500).

The penalty shall be paid to the shareholder or shareholders jointly making the request for performance of the duty and damaged by the

neglect, failure or refusal, if suit therefor is commenced within 90 days after the written request is made; but the maximum daily penalty because of failure to comply with any number of separate requests made on any one day or for the same act shall be two hundred fifty dollars ($250).

2201. Any officer of a corporation charged with the duty of entering a transfer of shares upon the books of the corporation and issuing a share certificate who unreasonably neglects, fails or refuses to perform such duty after written request by any person entitled thereto is subject to a penalty of one hundred dollars ($100) and the further penalty of ten dollars ($10) for each day that such default continues, beginning five days after receipt of the request, up to a maximum of five hundred dollars ($500). The penalty shall be paid to each person aggrieved. It may be enforced by action and shall be in addition to all other remedies.

Every director or other officer unreasonably causing such neglect, failure or refusal to make such entries upon the books of the corporation or to issue a certificate for shares to a person entitled thereto is subject to a like penalty.

2202. Any penalty prescribed by Section 2200 or Section 2201 shall be in addition to any remedy by injunction or action for damages or by writ of mandate for the nonperformance of acts and duties enjoined by law upon the corporation or its directors or officers.

The court in which an action for any such penalty is brought may reduce, remit or suspend the penalty on such terms and conditions as it may deem reasonable when it is made to appear that the neglect, failure or refusal was inadvertent or excusable.

2203. (a) Any foreign corporation which transacts intrastate business and which does not hold a valid certificate from the Secretary of State may be subject to a penalty of twenty dollars ($20) for each day that such unauthorized intrastate business is transacted; and such foreign corporation, by transacting unauthorized intrastate business, shall be deemed to consent to the jurisdiction of the courts of California in any civil action arising in this state wherein such corporation is named a party defendant and shall be deemed to have designated the Secretary of State as the agent upon whom process directed to the corporation may be served within this state.

(b) The penalty established by subdivision (a) of this section shall be assessed according to the number of days it is found that the corporation has been willfully doing unauthorized intrastate business. Prosecution under this section may be brought, and the money penalty recovered thereby shall be paid, in the manner provided by Section 2258 for a prosecution brought under that section.

(c) A foreign corporation subject to the provisions of Chapter 21 which transacts intrastate business without complying therewith shall not maintain any action or proceeding upon any intrastate business so transacted in any court of this state, commenced prior to

compliance with Chapter 21, until it has complied with the provisions thereof and has paid to the Secretary of State a penalty of two hundred fifty dollars ($250) in additon to the fees due for filing the statement and designation required by Section 2105 and has filed with the clerk of the court in which the action is pending receipts showing the payment of said fees and penalty and all franchise taxes and any other taxes on business or property in this state that should have been paid for the period during which it transacted intrastate business.

2204. (a) Upon the failure of a corporation to file the statement required by Section 1502, the Secretary of State shall mail a notice of such delinquency to the corporation. The notice shall also contain information concerning the application of this section, and advise the corporation of the penalty imposed by Section 25936 of the Revenue and Taxation Code for failure to timely file the required statement after notice of delinquency has been mailed by the Secretary of State. If, within 60 days after the mailing of the notice of delinquency, a statement pursuant to Section 1502 has not been filed by the corporation, the Secretary of State shall certify the name of such corporation to the Franchise Tax Board.

(b) Upon certification pursuant to subdivision (a), the Franchise Tax Board shall assess against the corporation a penalty of two hundred fifty dollars ($250) pursuant to Section 25936 of the Revenue and Taxation Code.

(c) The penalty herein provided shall not apply to a corporation which on or prior to the date of certification pursuant to subdivision (a) has dissolved or has been merged into another corporation.

(d) The penalty herein provided shall not apply to any corporation the corporate powers, rights and privileges of which have been suspended by the Franchise Tax Board pursuant to Sections 23301 or 23301.5 of the Revenue and Taxation Code more than six months prior to the last day of the filing period pursuant to Section 1502 and which corporate powers, rights and privileges have not been revived on or prior to the last day of the filing period. The Secretary of State need not mail a form pursuant to Section 1502 nor a notice of delinquency pursuant to this section to a corporation whose corporate powers, rights and privileges have been suspended more than six months prior to the last day of the filing period and which corporate powers, rights and privileges have not been revived on or prior to such last day of the filing period.

(e) If, after certification pursuant to subdivision (a) the Secretary of State finds the required statement was filed before the expiration of the 60-day period after mailing of the notice of delinquency, the Secretary of State shall promptly decertify the name of the corporation to the Franchise Tax Board. The Franchise Tax Board shall then promptly abate any penalty assessed against the corporation pursuant to Section 25936 of the Revenue and Taxation Code.

2251. Any promoter, director or officer of a corporation who

knowingly and willfully issues or consents to the issuance of shares or certificates for shares in violation of this division with intent to defraud present or future shareholders, subscribers, purchasers of shares or creditors is guilty of a misdemeanor punishable by a fine of not more than one thousand dollars ($1,000) or imprisonment for not more than one year or both.

2252. Every person (a) who signs the name of a fictitious person to any subscription for or agreement to take stock in any domestic or foreign corporation, existing or proposed, or (b) who signs to any subscription or agreement the name of any person, knowing that the person has no means or does not intend in good faith to comply with all the terms thereof or that there is any understanding or agreement that the terms of the subscription or agreement are not to be complied with or enforced, is guilty of a misdemeanor.

2253. Any director of a stock corporation, domestic or foreign, who concurs in any vote or act of the directors of the corporation or any of them, knowingly and with dishonest or fraudulent purpose, to make any dividend or distribution of assets except in the cases and in the manner allowed by law, either with the design of defrauding creditors or shareholders or of giving a false appearance to the value of the stock and thereby defrauding subscribers or purchasers, is guilty of a misdemeanor, punishable by a fine of not more than one thousand dollars ($1,000) or imprisonment for not more than one year or both.

2254. Every director, officer or agent of any corporation, domestic or foreign, is guilty of a felony (a) who knowingly concurs in making, publishing or posting either generally or privately to the shareholders or other persons (1) any written report, exhibit, statement of its affairs or pecuniary condition or notice containing any material statement which is false, or (2) any untrue or willfully or fraudulently exaggerated report, prospectus, account, statement of operations, values, business, profits, expenditures or prospects, or (3) any other paper or document intended to produce or give, or having a tendency to produce or give, the shares of stock in such corporation a greater value or a less apparent or market value than they really possess, or (b) who refuses to make any book entry or post any notice required by law in the manner required by law.

2255. (a) Every director, officer or agent of any corporation, domestic or foreign, who knowingly receives or acquires possession of any property of the corporation, otherwise than in payment of a just demand, and, with intent to defraud, omits to make, or to cause or direct to be made, a full and true entry thereof in the books or accounts of the corporation is guilty of a public offense.

(b) Every director, officer, agent or shareholder of any corporation, domestic or foreign, who, with intent to defraud, destroys, alters, mutilates or falsifies any of the books, papers, writings or securities belonging to the corporation or makes or concurs in omitting to make any material entry in any book of accounts or other record or document kept by the corporation is

guilty of a public offense.

(c) Each public offense specified in this section is punishable by imprisonment in a state prison for not more than 10 years or by imprisonment in a county jail for not exceeding one year or a fine not exceeding five hundred dollars ($500) or by both such fine and imprisonment.

2256. Every officer, agent or clerk of any corporation, domestic or foreign, or any person proposing to organize such a corporation or to increase the capital stock of any such corporation, who knowingly exhibits any false, forged or altered book, paper, voucher, security or other instrument of evidence to any public officer or board authorized by law to examine the organization of such corporation or to investigate its affairs or to allow an increase of its capital, with intent to deceive such officer or board in respect thereto, is punishable by imprisonment in a state prison for not more than 10 years or by imprisonment in a county jail for not exceeding one year.

2257. Every person who, without being authorized so to do, subscribes the name of another to or inserts the name of another in any prospectus, circular or other advertisement or announcement of any corporation, domestic or foreign, whether existing or intended to be formed, with intent to permit the document to be published and thereby to lead persons to believe that the person whose name is so subscribed is an officer, agent, shareholder or promoter of such corporation, when in fact no such relationship exists to the knowledge of such person, is guilty of a misdemeanor.

2258. Any foreign corporation subject to the provisions of Chapter 21 which transacts intrastate business without complying therewith is guilty of a misdemeanor, punishable by fine of not less than five hundred dollars ($500) nor more than one thousand dollars ($1,000), to be recovered in any court of competent jurisdiction.

Prosecution under this section may be brought by the Attorney General or by any district attorney. If brought by the latter, one-half of the fine collected shall be paid to the treasurer of the county in which the conviction was had and one-half to the State Treasurer. If brought by the Attorney General the entire amount of fine collected shall be paid to the State Treasurer to the credit of the General Fund of the state.

2259. Any person who transacts intrastate business on behalf of a foreign corporation which is not authorized to transact such business in this state, knowing that it is not so authorized, is guilty of a misdemeanor punishable by fine of not less than twenty-five dollars ($25) nor more than three hundred dollars ($300).

2260. In a prosecution for a violation of Section 2250, 2252, 2253, 2254, 2255, 2256 or 2257, the fact that the corporation was a foreign corporation is not a defense, if it was carrying on business or keeping an office therefor within this state.

CHAPTER 23. TRANSITION PROVISIONS

2300. As used in this chapter, the term "new law" means this division of the Corporations Code as amended by act of the California Legislature, 1975–76 Regular Session, effective January 1, 1977, and as in effect on that date; the term "prior law" means the applicable law as in effect prior to January 1, 1977; and the term "effective date" means January 1, 1977.

2301. (a) Except as otherwise expressly provided in this chapter, the provisions of the new law apply on and after the effective date to all corporations referred to in Section 162 existing on the effective date and to all actions taken by the directors or shareholders of such corporations on and after the effective date.

(b) Except as otherwise expressly provided in this chapter, all of the sections of the new law governing acts, contracts or other transactions by a corporation or its directors or shareholders apply only to such acts, contracts or transactions occurring on or after the effective date and the prior law governs such acts, contracts or transactions occurring prior thereto.

(c) Except as otherwise expressly provided in this chapter, any vote or consent by the directors or shareholders of a corporation prior to the effective date in accordance with the prior law shall be effective in accordance with the prior law and if any certificate or document is required to be filed in any public office of this state relating to such action, it may be filed after the effective date in accordance with the prior law.

2302. The provisions of Sections 202, 204 and 205 of the new law relating to the contents of articles do not apply to corporations existing on the effective date unless and until an amendment of the articles is filed stating that the corporation elects to be governed by those provisions of the new law not otherwise applicable to it under this chapter. Such amendment may be adopted by approval of the board alone, except that, if any such amendment makes any change in the articles other than conforming the statement of purposes and powers to subdivision (a) of Section 204 and the deletion of any references to par value and location of principal office and conforming any statement regarding the number of directors to Section 212 (subject to Section 2304), it shall also be approved by the outstanding shares (Section 152) if such approval is otherwise required for the changes made.

2303. Sections 206 and 207 of the new law apply to corporations existing on the effective date, but any statement in the articles of such corporation, prior to an amendment thereof pursuant to Section 2302, relating to the purposes or powers of the corporation shall not be construed as a limitation unless it is expressly stated as such.

2304. Subdivision (a) of Section 212 of the new law does not apply to a corporation existing on the effective date, which shall continue to be governed by the prior law, unless and until an amendment of its articles is filed pursuant to Section 2302. If such amendment makes

any change in the number of directors or the maximum or minimum number of directors or makes a change from a fixed to a variable board or vice versa, it shall also be approved by the outstanding shares (Section 152).

2305. Subdivision (a) of Section 312 applies to a corporation existing on the effective date, but the "treasurer" of such corporation shall be deemed to be the "chief financial officer."

2306. Section 317 of the new law governs any proposed indemnification by a corporation after the effective date, whether the events upon which the indemnification is based occurred before or after the effective date. Any statement relating to indemnification contained in the articles or bylaws of a corporation on the effective date shall not be construed as limiting the indemnification permitted by Section 317 unless it is expressly stated as so intended.

2307. Sections 417 and 418 of the new law relating to required statements on certificates representing shares apply to certificates representing shares of corporations existing on the effective date only if the shares are originally issued after the effective date, and the prior law shall continue to govern the certificates representing shares originally issued prior to the effective date, unless and until an amendment of the articles is filed pursuant to Section 2302.

2308. Chapter 5 of the new law applies to any distribution to its shareholders made after the effective date by a corporation existing on the effective date, except that any such distribution effected pursuant to a contract for the purchase or redemption of shares entered into by the corporation prior to the effective date may be made if permissible under Chapter 5 or under the prior law in effect at the time the contract was entered into.

2309. Subdivision (a) of Section 510 of the new law applies only to shares acquired after the effective date.

2310. The provisions of Chapter 6 and Chapter 7 (other than Section 706) of the new law apply to any meeting of shareholders held after the effective date and to any action by shareholders pursuant to written consent which becomes effective after the effective date and to any vote cast at such a meeting or consent given for such action (whether or not a proxy or consent was executed by the shareholder prior to the effective date).

2311. Section 706 of the new law applies to agreements and voting trusts entered into after the effective date and prior law governs such agreements or trusts entered into prior thereto unless the agreement or trust is amended or extended thereafter, in which event the new law applies.

2312. Section 800 of the new law applies to actions commenced after the effective date and prior law governs actions pending on the effective date.

2313. Chapters 10, 11, 12 and 13 of the new law apply to transactions consummated after the effective date, unless a required approval of the outstanding shares (Section 152) has been given prior to the effective date, in which case the transaction shall be governed

by the prior law.

2314. Chapter 18 of the new law applies to actions for involuntary dissolution commenced after the effective date, but the prior law governs any such action pending on the effective date.

2315. Chapter 19 of the new law applies to any voluntary dissolution proceeding initiated by the filing of an election after the effective date, but the prior law governs any such proceeding so initiated prior to the effective date.

2316. A foreign association which has transacted intrastate business in this state prior to the effective date and which is required by Section 2105 of the new law to obtain a certificate of qualification from the Secretary of State shall not be subject to any direct or indirect penalty as a result of failure to obtain such certificate of qualification if the certificate of qualification is obtained no later than four months after the effective date.

2317. When any corporate agent for service of process has been designated by a foreign corporation prior to the effective date and such designation of agent included a name of a city, town or village wherein the corporate agent maintained an office, service on such agent may be effected at any office of the agent set forth in the certificate of the corporate agent filed pursuant to Section 1505 of the new law or filed pursuant to Section 3301.5, 3301.6, 6403.5 or 6403.6 of the prior law, whether or not such office is in said city, town or village.

2318. Any corporation existing on the first day of January, 1873, formed under the laws of this state, and still existing, which has not already elected to continue its existence under the prior law, may, at any time, elect to continue its existence under the provisions of this code applicable thereto by the unanimous vote of all its directors, or such election may be made at any annual meeting of the shareholders, or at any meeting called by the directors especially for considering the subject, if voted by shareholders representing a majority of the voting power, or may be made by the directors upon the written consent of that number of the shareholders.

A certificate of the action of the directors, signed by them and their secretary, when the election is made by their unanimous vote, or upon the written consent of the shareholders, or a certificate of the proceedings of the meeting of the shareholders, when the election is made at any such meeting, signed by the chairman and secretary of the meeting and a majority of the directors, shall be filed in the office of the Secretary of State, and thereafter the corporation continues its existence under the provisions of this code which are applicable thereto, and possesses all the rights, and powers, and is subject to all the obligations, restrictions, and limitations prescribed thereby.

2319. If the corporate rights, privileges and powers of a corporation have been suspended and are still suspended immediately prior to the effective date pursuant to Sections 5700 through 5908 of the old law and provisions of law there referred to,

said sections and provisions continue to apply to such a corporation until restoration by the Controller pursuant to said sections.

(3) Any market half-and-half which is packaged in presterilized containers under aseptic conditions to meet the marketing requirements for such products in states other than this state; provided, however, that nothing in this paragraph shall authorize the sale within this state of any milk product as a sterilized product unless such product meets the standards and requirements for sterilized products contained in Division 15 (commencing with Section 32501).

(b) Any fluid milk, fluid skim milk, or fluid cream which is used in any other milk product, or products resembling milk products, in which the use of market milk or any components or derivatives of market milk is required by, or pursuant to, the provisions of this code, except any such product defined in Section 61843 as class 2.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 686

An act to add Chapter 5.8 (commencing with Section 25480) to Division 15 of the Public Resources Code, to amend Sections 226 and 5353 of the Public Utilities Code, and to amend Section 654.2 of the Penal Code, relating to energy conservation.

[Approved by Governor September 12, 1975. Filed with Secretary of State September 14, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.8 (commencing with Section 25480) is added to Division 15 of the Public Resources Code, to read:

CHAPTER 5.8. ENERGY CONSERVATION IN TRANSPORTATION

25480. As used in this chapter, "department" means the Department of Transportation.

25481. The Legislature hereby finds and declares that:

(a) Due to the projected rapid growth in demand for energy, coupled with the mounting difficulties in providing energy supplies, a continuing energy shortage exists, posing a significant danger to public health and welfare.

(b) The use of the automobile represents the single largest use of energy in this state and, therefore, the growing use of energy by automobiles is a major factor contributing to such shortage.

(c) Heavy automobile traffic in our major cities has resulted in serious problems of air pollution and traffic congestion.

(d) The increased use of carpools by commuters would aid in lowering air pollution levels, conserving energy, and reducing urban traffic congestion.

It is, therefore, the purpose of this chapter to provide incentives for the wider use of carpools by commuters in metropolitan areas.

25482. Not later than March 1, 1976, all state agencies shall provide assistance to their employees living in metropolitan areas in establishing carpools and locating potential carpool participants. The department shall be responsible for coordinating these efforts.

25483. The department is authorized to establish carpool programs in metropolitan areas for public and private employees with funds made available for such purpose from any source. The carpool programs may be established and maintained entirely by the department or by the department in cooperation with public or private employers pursuant to agreement.

25484. The carpool programs established by the department may include, but are not limited to, computer or manual matching systems, promotional efforts to encourage carpooling and flexible work hours, and preferential treatment on highways.

25485. The department shall develop programs and undertake any necessary construction to establish, for the use of carpool vehicles carrying at least three persons, preferential lanes on major freeways in metropolitan areas where the total benefits to the carpool vehicles will bear a reasonable relationship to the total adverse effects on the remaining vehicles, as established on the basis of an engineering study. The department shall also permit such carpool vehicles to have access to preferential bus lanes established on major freeways, unless congestion seriously impeding the travel of buses will result or will present a serious traffic hazard.

25486. The department is encouraged to establish as soon as possible preferential lanes for the use of buses and three-passenger carpool vehicles in both directions on State Highway Route 10, the

Santa Monica Freeway, at least from Centinela Avenue to Vermont Avenue in Los Angeles County. Due to the high-density traffic flow on such a highway, it is necessary that the department establish such preferential lanes as a pilot project so that data can be developed for implementation of similar projects in other areas of the state.

SEC. 2. Section 226 of the Public Utilities Code is amended to read:

226. "Passenger stage corporation" includes every corporation or person engaged as a common carrier, for compensation, in the ownership, control, operation, or management of any passenger stage over any public highway in this state between fixed termini or over a regular route except those, 98 percent or more of whose operations as measured by total route mileage operated, are exclusively within the limits of a single city or city and county, or whose operations consist solely in the transportation of bona fide pupils attending an institution of learning between their homes and such institution.

For the purposes of this section, the percentage of the route mileage within the limits of any city shall be determined by the Public Utilities Commission on the first day of January of each year, and such percentage so determined shall be presumed to continue for the year.

"Passenger stage corporation" does not include that part of the operations of any corporation or person engaged in the ownership, control, operation or management of any passenger stage over any public highway in this state, whether between fixed termini or over a regular route or otherwise, engaged in the transportation of any pupils or students to and from a public or private school, college or university, or to and from activities of a public or private school, college or university, where the rate, charge, or fare for such transportation is not computed, collected, or demanded on an individual fare basis.

"Passenger stage corporation" does not include the transportation of persons in a passenger vehicle having a seating capacity of 15 passengers or less from place of residence to place of employment, if the driver himself is on the way to or from his place of employment.

SEC. 3. Section 5353 of the Public Utilities Code is amended to read:

5353. The provisions of this chapter do not apply to:

(a) Transportation service rendered wholly within the corporate limits of a single city or city and county.

(b) Transportation of school pupils conducted by or under contract with the governing board of any school district entered into pursuant to authority vested by the provisions of the Education Code.

416.95. Prior to the appointment of the Director of Health as guardian or conservator of the person and estate or person or estate of a minor or adult developmentally disabled person, the court shall inform such person of the nature and purpose of the guardianship or conservatorship proceedings, that the appointment of a guardian for his person and estate or person or estate is a legal adjudication of his incompetence, and the effect of such an adjudication on his basic rights. After communicating such information to the alleged developmentally disabled person and prior to the appointment of the Director of Health as guardian or conservator, the court shall consult with such person to determine his opinion concerning the appointment.

Any adult developmentally disabled person for whom guardianship or conservatorship is sought pursuant to this article shall be informed by a member or designee of the regional center and by the court of his right to counsel; and if he does not have an attorney for the proceedings the court shall immediately appoint the public defender or other attorney to represent him. families, neighbors, and whole communities, developmental disabilities present social, medical, economic, and legal problems of extreme importance.

The complexities of providing services to developmentally disabled persons require the coordinated services of state departments and community agencies in order to insure that no gaps occur in communication or provision of services.

Services should be planned and provided as a part of a continuum. A pattern of facilities and eligibility should be established which is so complete as to meet the needs of each developmentally disabled person, regardless of age or degree of handicap, and at each stage of his life's development.

To achieve this purpose, an area plan shall provide for the most appropriate and economical use of all existing public and private developmental disabilities agencies and professional personnel. An area plan must include the fullest possible participation by Short-Doyle agencies, state hospitals and clinics, public and private hospitals, public and private education, health and welfare agencies, and all such other public and private agencies and professional personnel as are required to, or may agree to, participate in the area plan.

SEC. 9. Section 38060 of the Health and Safety Code is amended to read:

The affirmative votes of a majority of the members of the area board shall be necessary for the appointment or removal of an executive secretary.

SEC. 13. Section 38103 of the Health and Safety Code is amended to read:

38103. A regional center shall investigate every appropriate and economically feasible alternative for care of a developmentally disabled person available within the region. If suitable care cannot be found within the region, services may be obtained outside of the region.

Except for those developmentally disabled persons placed in state hospitals pursuant to the Lanterman-Petris-Short Act, no developmentally disabled person shall be admitted to a state hospital except upon the referral of a regional center. Upon discharge from a state hospital, a developmentally disabled person shall be referred to an appropriate regional center. [Approved by Governor September 13, 1975. Filed with Secretary of State September 14, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 200 of the Elections Code is amended to read:

200. No person shall be registered as a voter except by affidavit of registration. The affidavit shall be mailed or delivered in person to the county clerk or his deputy and shall set forth all of the facts required to be shown by this chapter. A properly executed registration shall be deemed effective upon receipt of the affidavit by the county clerk.

Notwithstanding any other provision of law to the contrary, the affidavit of registration required under the provisions of this chapter shall not be taken under sworn oath, but the content of the affidavit shall be certified as to its truthfulness and correctness, under penalty of perjury, by the signature of the affiant.

SEC. 2. Section 201.5 is added to the Elections Code, to read:

201.5. It is the intent of the Legislature that the introduction of registration by mail shall not in any way lead to administrative limitations on the use of deputy registrars of voters for the purpose of assisting in the registration of persons who may continue to require such assistance.

It is the intent of the Legislature that registrars continue to be deputized by the county clerk pursuant to Section 201, but that as the electorate becomes more conversant with mail registration procedures, the number of deputy registrars will naturally diminish due to a decrease in the demand for the services of such deputy registrars of voters.

SEC. 3. Section 202 of the Elections Code is repealed.

SEC. 3.5. Section 202 is added to the Elections Code, to read:

202. It is the intent of the Legislature that voter registration be maintained at the highest possible level. The Secretary of State shall adopt regulations requiring each county to design and implement programs intended to identify qualified electors who are not registered voters, and to register such persons to vote. The Secretary of State shall adopt regulations prescribing minimum requirements for such programs. If the Secretary of State finds that a county has not designed and implemented a program meeting such prescribed minimum requirements, the Secretary of State shall design a program for such county and report the violation to the Attorney General.

The Attorney General is hereby authorized to take such actions as he deems necessary, including the obtaining of injunctive relief, to enforce the provisions of this section.

SEC. 4. Section 203 of the Elections Code is amended to read:

203. The county clerk or his deputy shall accept affidavits of registration at all times except during the 28 days immediately preceding any election, when registration shall cease for that election as to electors residing in the territory within which the election is to be held. Transfers of registration for an election may be made from one precinct to another precinct in the same county at any time when registration is in progress in the precinct to which the elector seeks to transfer.

SEC. 5. Section 203.5 of the Elections Code is amended to read:

[Approved by Governor September 13, 1975 Filed with Secretary of State September 14, 1975]

With this reduction, I approve Senate Bill No. 469.

EDMUND G BROWN JR, Governor

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 6331) is added to Chapter 4 of Part 1 of Division 6 of the Public Resources Code, to read:

Article 2.5. Survey and Mapping of Ungranted Tide and Submerged Lands

6331. As used in this article:

(a) "Ungranted tidelands" means the tide and submerged lands owned by the State of California which have not been granted in trust to any local agency or to the United States or to private parties.

(b) "Local agency" means any county, city, public district, or other public agency.

(c) "Person" means any private person, partnership, association, or corporation.

6331.5. The commission shall make an inventory to ascertain and describe by metes and bounds the location and extent of all ungranted tidelands. The commision shall, in any local agency where the ungranted tideland boundary is described by metes and bounds, acquire and evaluate the existing boundary description to determine whether or not additional surveys should be conducted. When available, such local agency shall provide copies of such descriptions, together with all materials supporting these descriptions, including field notes and other basic data, to the commission at no cost, other than the reproduction cost, to the state.

No appropriation is made by the act adding this section, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs, other than reproduction costs, that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this section. Reimbursements for reproduction expenditures shall be made by the commission from appropriations to the commission for the preparation of the inventory.

The commission shall evaluate each survey and shall adopt boundary descriptions already in common use where these metes and bounds descriptions approximate the existing line of ordinary high water where it is in a state of nature, or where the descriptions approximate the last position occupied in a state of nature by the line of ordinary high water in areas where the existing shoreline has ceased to be in a state of nature, and where sound engineering practices were used to conduct the survey. The inventory and

evaluation shall commence on January 1, 1976, and shall be completed on or before December 31, 1981. If metes and bounds descriptions of tideland boundaries are not available, or if such surveys do not describe the tideland boundary in a state of nature as hereinbefore defined, or if unsound engineering practices were used to describe a tideland boundary, the commission may conduct its own survey. Unless otherwise provided by law, prior to undertaking a survey on any ungranted tidelands, the commission shall prepare an inventory of those ungranted tidelands which will require a commission survey and shall submit a report of its findings to the Legislature on or before December 31, 1981. Such report shall contain a geographic identification of the ungranted tidelands which will require a survey, a plan establishing priorities for the orderly conduct of the needed surveys, and an estimate of the cost needed to complete such surveys

6332. The commission shall:

(a) Adopt and enforce such rules and regulations as may be necessary or convenient to carry out the purposes of this article in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, in accordance with the following requirements:

(1) All data such as survey notes and factual and historical materials which have been obtained by investigation and survey and considered in connection with the establishment of each ungranted tideland parcel boundary shall be perpetuated, filed, indexed, and made available in the office of the commission for public inspection and use upon request.

(2) Surveys of ungranted tideland boundary lines made by the state, or made under contract with the state, or adopted by the state, shall sufficiently tie the surveyed boundary lines to record monuments disclosed by the public records in the office of the county recorder of the county in which the land so surveyed is located to the extent that adjoining property owners and officials of the local agency and others may determine the relation of such surveyed boundary lines to record title boundaries without additional survey.

(3) United States Coast and Geodetic Survey data shall be used in areas where available to establish boundary lines which are required under the title circumstances to be established in accordance with federal law. In areas where tideland boundary lines are required to be established under title circumstances which require the application of California law, such available United States Coast and Geodetic Survey data shall be used but corrected as required. Consideration shall be given in each survey to any seiche condition which may exist in the surveyed area.

(4) Consideration shall be given to the effect of any prior accretion and erosion in each surveyed area. Consideration shall also be given to the confirmation of title boundaries of lands claimed to be in private or public ownership, which lands support

improvements of long standing authorized by governmental action.

(5) Boundary lines so established and surveyed shall take into consideration any statutes of limitations applicable to the validity of patents, and the finality of boundary line agreements and boundary and exchange agreements adopted prior to, or on or after, January 1, 1976, and whether entered into pursuant to the provisions of Section 6307 or 6357, or any other statutes of this state, or otherwise.

(6) When establishing and surveying the line of ordinary high water, the then existing location of that line shall be used unless there is clear and convincing evidence that such location is not the last natural position of the line according to applicable federal or state laws.

(b) Contract with all agencies, public and private, as the commission may deem necessary for the rendition and affording of services and facilities to the commission pursuant to this article and for all other purposes related thereto.

(c) Do all other acts necessary to carry out the requirements and purposes of this article within the limit of its authority conferred by law, including this article.

6333. The commission shall prepare and adopt, on or before March 31, 1989, a "Preliminary Map of Ungranted Tideland Boundaries in California" based on the inventory and survey required by this article and shall on or before that date:

(a) Transmit a copy of such "Preliminary Map of Ungranted Tideland Boundaries in California" to the Secretary of the Senate, the Chief Clerk of the Assembly, the Attorney General, and the State Librarian.

(b) Transmit a copy of the pertinent part of such "Preliminary Map of Ungranted Tideland Boundaries in California" relating to each county wherein ungranted tidelands are located to the county clerk thereof, who shall thereupon post the same in a public place in his office.

(c) Publish a notice in accordance with Section 6066 of the Government Code between April 1 and April 30, 1989, in a newspaper of general circulation within each county wherein ungranted tidelands are located, announcing that a copy of such "Preliminary Map of Ungranted Tideland Boundaries in California" is available for public inspection at the office of the county clerk of such county during the business hours of such office, and post a similar notice in three public places in such county.

(d) Make available copies of each such "Preliminary Map of Ungranted Tideland Boundaries in California," or pertinent parts thereof, to the public at the approximate cost of reproduction.

Notwithstanding any other provision of this article, the commission may prepare and adopt such "Preliminary Map of Ungranted Tideland Boundaries in California" in segments of the whole, whether by individual parcels or by areas. Any reference to a particular "Preliminary Map of Ungranted Tideland Boundaries in California" shall be deemed to refer to such parcels or areas. Nothing

4469 282505 734

in this article shall preclude the preparation of such "Preliminary Map of Ungranted Tideland Boundaries in California" in segments or as a whole prior to an inventory being made pursuant to Section 6331.5.

6334. After completing the "Preliminary Map of Ungranted Tideland Boundaries in California," the commission shall adopt and prepare a "Preliminary Description of Ungranted Tideland Boundaries" for each parcel of ungranted tidelands inventoried pursuant to this article, which shall be completed on or before June 30, 1989. The commission thereafter shall:

(a) Transmit a copy of each such "Preliminary Description of Ungranted Tideland Boundaries" for each parcel of ungranted tidelands to the office of the county clerk of the county in which each such parcel is located, who shall thereupon post the same in a public place in his office.

(b) Publish a notice in accordance with Section 6066 of the Government Code, between July 1 and July 31, 1989, in a newspaper of general circulation within each such county, announcing that a copy of the "Preliminary Description of Ungranted Tideland Boundaries" for each parcel of ungranted tidelands located within the county is available for public inspection at the office of the county clerk during the business hours of such office, and post a similar notice in three public places in such county.

(c) Copies of each such "Preliminary Description of Ungranted Tideland Boundaries" shall be made available by the commission to the public at the approximate cost of reproduction.

Notwithstanding any other provisions of this article, the commission may prepare and adopt such "Preliminary Description of Ungranted Tideland Boundaries" in segments of the whole whether by individual parcels or by areas. Any reference to a particular "Preliminary Description of Ungranted Tideland Boundaries" shall be deemed to refer to such parcels or areas. Nothing in this article shall preclude the preparation of such "Preliminary Description of Ungranted Tideland Boundaries" in segments or as a whole prior to an inventory being made pursuant to Section 6331.5.

6335. On or before December 31, 1989, any local agency or other interested person affected by boundaries described by the "Preliminary Description of Ungranted Tideland Boundaries" may file a protest, verified under oath, on a form to be prescribed and provided by the commission, at an office of the commission. Any such protest shall be accompanied by a list or brief summary of all data and pertinent evidence bearing upon the protest upon which the protesting party intends to rely and which is in the possession of the protesting party at the time of the filing of the protest. A protesting party may, at least 10 days prior to the hearing or continued hearing provided for in Section 6337, or at any time as the commission may approve, submit a list or brief summary of any such data and pertinent evidence obtained subsequent to the filing of the protest.

Any such data and pertinent evidence shall, upon request of the commission, be available for inspection and reproduction by the commission.

6336. The commission may negotiation with any person or local agency having or claiming an interest in any land affected by boundaries described by the "Preliminary Description of Ungranted Tideland Boundaries." for the purpose of reaching a boundary agreement. Any such boundary agreement shall be binding on the state and other parties thereto when approved by the commission. Any such boundary agreement shall be recorded in the office of the county recorder of each county in which the land affected thereby, or some portion thereof, is located. The boundary line so established shall be incorporated in, and made a part of, the master map and description to be prepared pursuant to the provisions of Section 6338.

6337. Before adopting the Master Map of Ungranted Tideland Boundaries in California and a Description of Ungranted Tideland Boundaries pursuant to Section 6338, the commission shall consider all evidence submitted pursuant to Section 6335. The commission may, in its discretion, and shall, upon the request of the protestant, hold a hearing as to any protest or protests prior to adopting the master map and description. The commission may authorize its executive officer or other officer or employee of the commission to conduct such hearing or hearings at a convenient location selected by the commission within each county where such protested boundary is located. Not less than 30 days before the date set for each hearing, a notice, setting forth the time, place, and nature of such hearing, shall be sent by such officer or employee by certified mail to each protestant whose protest is to be heard at such hearing.

6338. On or before December 31, 1992, the commission shall prepare, certify, adopt, and publish in final form a "Master Map of Ungranted Tideland Boundaries in California," and a "Description of Ungranted Tideland Boundaries" for each parcel of ungranted tidelands, either in whole, or by segments as completed, and thereafter shall:

(a) File a copy of each of the aforementioned documents with the Chief Clerk of the Assembly, the Secretary of the Senate, the Attorney General, the Director of Finance, the Director of Conservation, the Director of Parks and Recreation, the State Librarian, and such other state departments or agencies as the commission may deem advisable.

(b) Record one copy of the part of each such document pertaining to the county affected in the office of the county recorder of each county in which ungranted tidelands are located.

(c) File the original of each in the official file of the commission as a public record.

6339. (a) Boundaries established by boundary agreements entered into and recorded pursuant to Section 6336, as to all parties thereto, shall be fixed and permanent without change by reason of fluctuation due to the forces of nature, except that any lands that may

thereafter be submerged or become subject to the ebb and flow of the tide, shall, so long as such conditions exist, be subject to the easement in favor of the public for commerce, navigation, and fisheries.

(b) Boundaries mapped and described pursuant to this article, other than boundaries established by parties to a boundary agreement entered into pursuant to Section 6336, shall not be binding upon any upland owner or other party affected thereby, whose rights, if any, shall not be affected by any provision of this article. If any such rights have been previously determined pursuant to law, they shall remain unaffected by the provisions of, and proceedings undertaken pursuant to, this article. If any such rights have not been previously determined, they may be determined pursuant to any law existing as of January 1, 1976, or that may be thereafter enacted. However, any such upland owner or other person affected by the master map and description may consent in writing to bind his land or any claimed title or interest therein to the boundaries so mapped and described. Such consent shall be acknowledged by the party executing it and shall be recorded in the office of the county recorder of the county in which the land affected thereby is located. The consent shall thereafter have the same effect as if a boundary agreement had been entered into pursuant to Section 6336, and the provisions of subdivision (a) of this section shall be applicable thereto.

6340. The inventory required by this article shall not extend to, or have any bearing upon, the determination of the seaward boundary separating lands belonging to the state and lands belonging to the United States.

6341. Any boundary line agreement entered into pursuant to Section 6336 or 6357, or any consent recorded pursuant to subdivision (b) of Section 6339, or any exchange of land made pursuant to Section 6307, shall be conclusively presumed to be valid unless held to be invalid in an appropriate proceeding in a court of competent jurisdiction to determine the validity of such boundary line agreement or consent or exchange commenced prior to January 1, 1977, or within one year after the execution and recording of such boundary line agreement or such consent or exchange, whichever is later.

6342. The commission may enter into boundary line agreements with any person or public entity, describing and defining the boundary line between ungranted tidelands and adjacent uplands owned by such person or public entity. Such boundary line agreements shall be executed on behalf of the commission, and upon recordation shall be binding and conclusive as between the state and all persons and public entities executing such agreements, and the provisions of subdivision (a) of Section 6339 shall be applicable thereto.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not

affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. There is hereby appropriated from the General Fund the amount of one million six hundred thirty-five thousand dollars ($1,635,000) to the State Lands Commission for expenditure, during the 1975–76, 1976–77, 1977–78, 1978–79, 1979–80, and 1980–81 fiscal years and according to the following schedule, for preparation of an inventory of ungranted tidelands pursuant to Article 2.5 (commencing with Section 6331) of Chapter 4 of Part 1 of Division 6 of the Public Resources Code:

CHAPTER 708

An act to amend Section 11125 of the Government Code and Section 306 of the Public Utilities Code, relating to public agencies.

provided in subdivision (c).

(b) The procedure for any such petition shall be in accordance with this article. Except that, notwithstanding other provisions of law, the notice required by this article shall be published in at least one newspaper of general circulation printed in every incorporated city with common bounds with the district and the notice shall be posted at the courthouse in Solano County, in each office of the district, and in the city hall of every incorporated city with common bounds with the district. Such publication costs incurred by the district shall be paid by the petitioner in addition to any other fee provided by this article or by law.

(c) After the conclusion of the hearing as provided in Section 25831, if the board finds that any of the land described in any petition has been irrigated, supplied as alleged or no plan for future service has been adopted, and the lands made subject to the petition are not and will not be benefited by the operations of the district in a manner that would justify their assessment at the regular rate of assessment, then the board shall determine the average annual dollar value of the benefits to the lands made subject to the petition and shall thence determine the rate necessary to raise such sum through assessments, which shall be at a rate lower than the regular rate of assessment, and the board shall enter in the minutes an order declaring the following:

(1) A finding as to the average annual dollar value of the benefits provided by the district to the lands made subject to the petition; and

(2) The assessed value of the lands made subject to the petition according to the most recent district roll; and

(3) The rate of assessment required to collect such amount specified in subdivision (1), including allowance for delinquencies as provided in Section 25801 of the Water Code of the State of California.

(d) Notwithstanding the provisions of Section 25835, the special rate of assessment shall be changed only as necessary to allow for the collection of the average annual dollar value of the benefits provided to the lands made subject to the petition. If, on the petition of owners of the land made subject to a special rate or on the motion of the district itself, it is sought to redetermine the average annual dollar value of the benefits provided by the district, the determination of the board shall not be changed until notice of another hearing shall be advertised and such hearing held as provided in this article. In any action to redetermine the special rate of assessment pursuant to this subdivision initiated by the district, the district shall pay the publication costs as set forth in this section.

SEC. 2. The provisions of this act are necessary because many of the residents of the Solano Irrigation District reside within urban areas and are served by a municipal water supply. Such areas of the district are not and will not be benefited by the operations of the district in a manner that would justify their assessment at the regular rate of assessment. This problem is not common to all districts formed under the Irrigation District Law. It is, therefore, hereby

declared that a general law cannot be made applicable and that the enactment of this act as a special law is necessary for the solution of problems existing in the Solano Irrigation District.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

Such person must hold a seller's permit and remit tax to the board with respect to such sales in the same manner as a dealer licensed or certificated under the Vehicle Code and making sales on his own account. For purposes of this subdivision, "sale" does not include a lease.

CHAPTER 713

An act to add and repeal Section 19700.607 of the Education Code, relating to state school building aid, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1975 Filed with Secretary of State September 15, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 19700.607 is added to the Education Code, to read:

19700.607. Notwithstanding the provisions of Section 19700.60, 19700.65 and 19700.69, whenever a school district has had an application approved on July 16, 1974, for reconstruction of structurally inadequate facilities and the school site is one which is located in the Alquist-Priolo Geologic Hazards Zone of the San Andreas Fault and has been deemed by the Office of Architecture in the Department of General Services to be suitable only for low, compact, well-designed temporary school building structures not exceeding two classrooms in size and if there is more than reasonable doubt that subsurface exploration, including trenching and test borings, could provide conclusive proof that the site would not be damaged by ground rupture in the event of a future major earthquake, then the application of the district and any apportionment made thereon shall be considered as including the acquisition of a new site and construction of new facilities thereon rather than reconstruction of the inadequate facilities on the unsafe site.

In such case the application may be revised and apportionments made to replace all existing permanent facilities which were previously constructed pursuant to Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 on the new site and to move and reestablish all district-owned portable buildings on the new site, provided that in lieu of the construction and equipping of any portion of the permanent facilities for purposes other than classrooms, the board may, upon application of the district, apportion funds to remodel and equip any of such portables for such purposes, and to construct any portion of such permanent facilities as classrooms. The entire cost of replacing the buildings formerly constructed pursuant to Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 and the moving or remodeling and equipping, as the case may be, of the district-owned portable facilities may be met only with apportionments from the unassigned balance from thirty million dollars ($30,000,000) appropriated from the School Building Safety Fund by Chapter 500 of the Statutes of 1972 and conditioned upon the district levying the twenty-cent ($0.20) tax rate permitted under Section 15518 during the 1975–76 fiscal year and applying the proceeds therefrom as matching funds to the application. The net proceeds of the sale of the unsafe site shall be applied as a reduction in the apportionments made.

This section is repealed on July 1, 1976, and shall have no force or effect thereafter.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Investigation indicates the presence of an earthquake fault on or near the site for which the Bolinas-Stinson Elementary School District has applied for state school building aid to rehabilitate certain school buildings. The presence of this fault renders the existing school site unsafe. Funds should not be expended for rehabilitating the existing school buildings but should be used to replace such buildings on a safe site. Existing statutes require that no children be placed in unsafe school buildings after June 30, 1975. It is imperative for the health and welfare of the students that this act take effect immediately so that construction of safe facilities may begin at the earliest possible date.

CHAPTER 714

An act to add Sections 96.6 and 96.7 to the Labor Code, relating to labor, and making an appropriation therefor.

[Approved by Governor September 15, 1975 Filed with Secretary of State September 15, 1975.]

The people of the State of California do enact as follows:

96.6. The Industrial Relations Unpaid Wage Fund is hereby created as a special fund in the State Treasury, which is continuously appropriated for the purposes of subdivision (c) of Section 96.7.

SEC. 2. Section 96.7 is added to the Labor Code, to read:

96.7. The Labor Commissioner, after investigation and upon determination that wages or monetary benefits are due and unpaid to any worker in the State of California, may collect such wages or benefits on behalf of the worker without assignment of such wages or benefits to the commissioner.

(a) The Labor Commissioner shall act as trustee of all such collected unpaid wages or benefits, and shall deposit such collected moneys in the Industrial Relations Unpaid Wage Fund.

(b) The Labor Commissioner shall make a diligent search to locate any worker for whom the Labor Commissioner has collected unpaid wages or benefits.

(c) All wages or benefits collected under this section shall be remitted to the worker, his lawful representative, or to any trust or custodial fund established under a plan to provide health and welfare, pension, vacation, retirement, or similar benefits from the Industrial Relations Unpaid Wage Fund.

(d) Any unpaid wages or benefits collected by the Labor Commissioner pursuant to this section shall be retained in the Industrial Relations Unpaid Wage Fund until remitted pursuant to subdivision (c). If the worker or his lawful representative cannot be identified or located for a period of seven years after the wages

become payable, they shall escheat to the state, and the Labor Commissioner shall transmit such wages or benefits to the State Controller for deposit pursuant to the Unclaimed Property Law (Chapter 7 (commencing with Section 1500) of Part 3 of the Code of Civil Procedure).

CHAPTER 715

An act to amend Section 1258 of, and to add Section 1256.2 to, the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor September 15, 1975. Filed with Secretary of State September 15, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 1256.2 is added to the Unemployment Insurance Code, to read:

1256.2. An individual who terminates his employment shall not be deemed to have left his most recent work without good cause if his employer operated so as to deprive him of equal employment opportunities because of that individual's race, color, religious creed, sex, national origin, ancestry, or physical handicap, except that this section shall not apply:

(a) To a deprivation based upon a bona fide occupational qualification or applicable security regulations established by the United States or this state.

(b) If the individual fails to make reasonable efforts to provide the employer with an opportunity to remove any unintentional deprivation of the individual's equal employment opportunities.

SEC. 2. Section 1258 of the Unemployment Insurance Code is amended to read:

1258. "Suitable employment" means work in the individual's usual occupation or for which he is reasonably fitted, regardless of whether or not it is subject to this division.

In determining whether the work is work for which the individual is reasonably fitted, the director shall consider the degree of risk involved to the individual's health, safety, and morals, his physical fitness and prior training, his experience and prior earnings, his length of unemployment and prospects for securing local work in his customary occupation, and the distance of the available work from his residence, and such other factors as would influence a reasonably prudent person in the individual's circumstances.

CHAPTER 716

An act to add Section 25132 to the Government Code, relating to county ordinances.

SECTION 1. Section 25132 is added to the Government Code, to read:

945.1. Anything in a city, county, or city and county charter to the contrary notwithstanding, the governing board or boards of any school district or community college district and any county superintendent of schools may, in lieu of appointing an administrative adviser pursuant to Section 945, appoint a legal counsel and fix and order paid his compensation. The duties of the legal counsel may include rendering legal advice to the superintendent of schools and to other officers and employees of the school district and such other administrative duties as may be assigned by the superintendent of schools and the governing board of the district, and serving as the legal counsel of the district in the preparation and conduct of school district litigation and administrative proceedings, and rendering advice in relation to school bond and tax increase measures and prepare all legal papers

Application for a permit shall be made in such form as the division may by regulation prescribe. The permit shall be valid only for work performed by the applicant himself in his own home. The division may waive the fee for a homeworker's permit in cases where the applicant requests such waiver, and can establish that payments of the fee would result in financial hardship.

SEC. 13. Section 2660.5 of the Labor Code is amended to read:

SEC. 18. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 736

An act to amend Section 2954.5 of, and to add Section 2954.4 to, the Civil Code, relating to loans.

[Approved by Governor September 15, 1975. Filed with Secretary of State September 15, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2954.4 is added to the Civil Code, to read:

2954.4. (a) A charge which may be imposed for late payment of an installment due on a loan secured by a mortgage or a deed of trust on real property containing only a single-family, owner-occupied dwelling, shall not exceed either (1) the equivalent of 6 percent of the installment due that is applicable to payment of principal and interest on the loan, or (2) five dollars ($5), whichever is greater. No charge may be imposed more than once for the late payment of the same installment; provided, however, that the imposition of a late charge on any late payment does not eliminate or supersede late charges imposed on prior late payments. A payment is not a "late payment" for the purposes of this section until at least 10 days following the due date of the installment.

(b) No late charge may be imposed on any installment which is paid or tendered in full on or before its due date, or within 10 days thereafter, even though an earlier installment or installments, or any late charge thereon, may not have been paid in full when due. For the purposes of determining whether late charges may be imposed, any payment tendered by the borrower shall be applied by the lender to the most recent installment due.

(c) A late payment charge described in subdivision (a) is valid if it satisfies the requirements of this section and Section 2954.5.

(d) Nothing in this section shall be construed to alter in any way the duty of the borrower to pay any installment then due or to alter the rights of the lender to enforce the payment of such installments.

(e) This section is not applicable to loans made by a credit union subject to the provisions of Division 5 (commencing with Section 14000) of the Financial Code, by an industrial loan company subject

0398 284365 962

to the provisions of Division 7 (commencing with Section 18000) of the Financial Code, or by a personal property broker subject to the provisions of Division 9 (commencing with Section 22000) of the Financial Code, and is not applicable to loans made or negotiated by a real estate broker subject to the provisions of Article 7 (commencing with Section 10240) of Chapter 3 of Part 1 of Division 4 of the Business and Professions Code.

(f) As used in this section, "single-family, owner-occupied dwelling" means a dwelling which will be owned and occupied by a signatory to the mortgage or deed of trust secured by such dwelling within 90 days of the execution of the mortgage or deed of trust.

(g) This section shall apply to loans executed on and after January 1, 1976.

SEC. 2. Section 2954.5 of the Civil Code is amended to read:

2954.5. (a) Before the first default, delinquency, or late payment charge may be assessed by any lender on a delinquent payment of a loan, other than a loan made pursuant to Section 22466 of the Financial Code, secured by real property, and before the borrower becomes obligated to pay such a charge, the borrower shall either (1) be notified in writing and given at least 10 days from mailing of such notice in which to cure the delinquency, or (2) be informed, by a billing or notice sent for each payment due on the loan, of the date after which such a charge will be assessed.

The notice provided in either paragraph (1) or (2) shall contain the amount of such charge or the method by which it is calculated.

(b) If a subsequent payment becomes delinquent the borrower shall be notified in writing, before the late charge is to be imposed, that the charge will be imposed if payment is not received, or the borrower shall be notified at least semiannually of the total amount of late charges imposed during the period covered by the notice.

(c) Notice provided by this section shall be sent to the address specified by the borrower, or, if no address is specified, to the borrower's address as shown in the lender's records.

(d) In case of multiple borrowers obligated on the same loan, a notice mailed to one shall be deemed to comply with the provisions of this section.

(e) The failure of the lender to comply with the requirements of this section does not excuse or defer the borrower's performance of any obligation incurred in the loan transaction, other than his obligation to pay a late payment charge, nor does it impair or defer the right of the lender to enforce any other obligation including the costs and expenses incurred in any enforcement authorized by law.

The provisions of this section as added by Chapter 1430 of the Statutes of 1970 shall only affect loans made on and after January 1, 1971.

The amendments to this section made at the 1975–76 Regular Session of the Legislature shall only apply to loans executed on and after January 1, 1976.

An act to amend Section 12841 of the Food and Agricultural Code, relating to pesticides.

[Approved by Governor September 15, 1975 Filed with Secretary of State September 15, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 12841 of the Food and Agricultural Code is amended to read:

12841. Each registrant shall pay to the director an assessment not to exceed eight mills ($0.008) per dollar of sales for all sales of his registered and labeled economic poisons for use in this state. A registrant is not required to pay an assessment on his products registered and labeled only for use in further manufacturing or formulating of economic poisons. The director may reduce the assessment if he determines that a lesser assessment rate, together with other available funds, will provide adequate revenue to administer and enforce the provisions of Division 6 (commencing with Section 11401) and this chapter, Chapter 3 (commencing with Section 14001), and Chapter 3.5 (commencing with Section 14101) of this division.

Upon application of any registrant, the director shall determine whether a fertilizer or paper product is used as a carrier for economic poison, and is sold in combination, and whether the mill assessment under this section shall be on the economic poison value only, when the product is designed, developed, manufactured, and sold primarily for other than an economic poison use. If the director finds that the combination product has such a major component and is designed, developed, manufactured, and sold primarily for other than an economic poison use, the assessment provided for by this section shall be paid on the equivalent percentage of the sales price of the active ingredients of such an economic poison product. The

director shall establish such percentage of the sales price. Such percentage shall be the ratio of that portion of the sales price attributable to the economic poison portion to the total sales price of such combination product.

For purposes of this section, "active ingredient" means any active ingredient which is required to be stated on the label on any registered economic poison under Section 12883.

CHAPTER 740

Such percentage shall be applied to the allowance payable on July 1, 1974, and the allowance as so increased shall be paid for time on and after that date and until the first day of April, 1975. The base allowance shall be increased by the same percentage for annual adjustments beginning with the adjustment effective for time commencing on April 1, 1975.

Notwithstanding Sections 20019.1 and 20493 of this code, this section shall not apply to allowances based on service in employment in which the member was a school member or a local miscellaneous member.

The amendments to this section during the 1975–76 Regular Session shall be applicable to allowances paid on and after January 1, 1976 to retired state members who did not receive an increase under this section prior to such amendments solely because their effective date of retirement was on or after July 1, 1971.

(4) "Petroleum product" includes crude petroleum and all products derived from petroleum in liquid form.

(b) Any person who transports any petroleum product within, or delivers such product upon, the territorial waters of this state, after such product has been transferred at an offshore location to a vessel owned or operated by such person from an oil production facility or another vessel which carries petroleum products as its principal cargo, unless an oilspill plan applicable to such transfer has been prepared by such person and the oilspill plan has been approved by the Secretary of the Resources Agency or his designee, is guilty of a misdemeanor.

SECTION 1. Section 1030 of the Unemployment Insurance Code is amended to read:

1030. (a) Any employer who is entitled under Section 1327 to receive notice of the filing of a new or additional claim may, within 10 days after mailing of such notice, submit to the Employment Development Department any facts within its possession disclosing whether the claimant left such employer's employ voluntarily and without good cause or was discharged from such employment for misconduct connected with his work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his leaving to return to school at the close of, his vacation period. The period during which the employer may submit such facts may be extended by the Director of Employment Development for good cause.

(b) Any base period employer who is not entitled under Section 1327 to receive notice of the filing of a new or additional claim and is entitled under Section 1329 to receive notice of computation may, within 15 days after mailing of such notice of computation, submit to the Employment Development Department any facts within its possession disclosing whether the claimant left such employer's employ voluntarily and without good cause or was discharged from such employment for misconduct connected with his work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his leaving to return to school at the close of, his vacation period. The period during which the employer may submit such facts may be extended by the Director of Employment Development for good cause.

(c) The Employment Development Department shall consider such facts together with any information in its possession and promptly notify the employer of its ruling as to the cause of the termination of the claimant's employment. Any ruling may for good cause be reconsidered by the department within 15 days after mailing or personal service of the notice of ruling, except that any ruling which relates to a determination which is reconsidered pursuant to subdivision (a) of Section 1332 may also be reconsidered by the Employment Development Department within the time provided for reconsideration of such determination. A plea or verdict of guilty irrespective of whether an order granting probation or other order is made suspending the imposition of the sentence or whether sentence is imposed but execution thereof is suspended, or a conviction following a plea of nolo contendere, is deemed to be a conviction within the meaning of this section.

(b) Notwithstanding any other provision of this division, any ruling made prior to a conviction or other final disposition of the criminal complaint or accusation by the court as to whether an individual who is terminated due to his absence from work because of incarceration voluntarily leaves without good cause may, if no appeal has been taken from the ruling, for good cause be reconsidered by the department during the benefit year or extended duration period or extended benefit period to which the ruling relates. Notice of any reconsidered ruling shall be given to the employer which received notice under Section 1030 or 3701 or 4701, and the employer may appeal therefrom in the manner prescribed in Section 1328 or 3655 or 4655.

[Became law without Governor's signature September 16, 1975 Filed with Secretary of State September 16, 1975]

SECTION 1. Section 20084 of the Education Code is amended to read:

20084. A community college district may begin work on, or receive or award bids for, any portion of an approved project prior to the appropriation by the Legislature of the state's share of the funding thereof pursuant to Section 20082, if such district has demonstrated both of the following facts to the satisfaction of the Board of Governors of the California Community Colleges and the Department of Finance:

(a) The capital construction program of the district and the construction dates contained therein support the need of the district to begin work on, or award bids for, the project before the appropriation is made.

(b) The district has the financial capability to complete the work begun before the appropriation is made in the event the Legislature fails to appropriate the necessary state funding.

For the purposes of this section, an "approved project" is a project which has been approved by the chancellor pursuant to Section 20081, and approved by the Department of Finance pursuant to Section 20082 after April 1, 1971.

The Department of Finance shall review preliminary plans for the 1975–76 Capital Outlay Program for a project approved and submitted to it by the chancellor, and the estimated state and district shares in the funding thereof determined by the chancellor. If the Department of Finance approves the preliminary plans, such approval shall not preclude reimbursement of the district by future state funding pursuant to Section 20082, nor shall preferential consideration be granted because of such approval.

[Became law without Governor's signature September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 40303 of the Vehicle Code is amended to read:

40303. Whenever any person is arrested for any of the following offenses and the arresting officer is not required to take the person without unnecessary delay before a magistrate, the arrested person shall, in the judgment of the arresting officer, either be given a 10 days' notice to appear as herein provided or be taken without unnecessary delay before a magistrate within the county in which the offense charged is alleged to have been committed and who has jurisdiction of the offense and is nearest or most accessible with

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant, identifiable cost changes.

CHAPTER 760

An act to amend Section 7504 of, and to add Section 7504.1 to, the Education Code, relating to vocational education.

[Became law without Governor's signature September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

Among community resources of particular significance in providing information on various career opportunities are vocational and occupational exhibits, demonstrations and activities conducted at fairs.

SEC. 2. Section 7504.1 is added to the Education Code, to read:

The salaries specified in subdivisions (a) through (f), inclusive, of this section may be adjusted pursuant to the provisions of Section 73433.5.

(a) (1) Except as otherwise provided by statute where the original principal obligation is one hundred thousand dollars ($100,000) or less, the borrower under any note or evidence of indebtedness secured by a deed of trust or mortgage or any other lien on real property shall be entitled to prepay the whole or any part of the balance due, together with accrued interest, at any time.

(2) Nothing in this subdivision shall prevent a borrower from obligating himself, by an agreement in writing, to pay a prepayment charge.

(3) This subdivision does not apply during any calendar year to a bona fide loan secured by a deed of trust or mortgage given back during such calendar year to the seller by the purchaser on account of the purchase price if such seller does not take back four or more such deeds of trust or mortgages during such calendar year. Nothing in this subdivision shall be construed to prohibit a borrower from making a prepayment by an agreement in writing with the lender.

An act to add Chapter 6 (commencing with Section 41240) to Part 2 of Division 31 of of the Health and Safety Code, relating to housing.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 41240) is added to Part 2 of Division 31 of the Health and Safety Code, to read:

CHAPTER 6. URBAN HOMESTEAD PROGRAM

41240. The Legislature finds and declares that an urban homestead program, as authorized by this chapter, will aid in the rehabilitation of deteriorating areas throughout the state, while concommitantly providing an opportunity for homeownership to many persons who lack the financial resources to purchase a satisfactory home but who have the skills required to rehabilitate a dwelling structure. Urban homesteading can serve as a partial solution to many problems experienced by cities, including urban blight, lack of low-cost housing, housing segregation, desertion of central cities, and unnecessary suburban expansion.

Because such program will be conducted with property acquired from the United States Department of Housing and Urban Development at no cost to the state, the benefit to be derived will not require the expenditure of more than a nominal amount of state moneys for administration of the program.

41241. For the purpose of conducting a program of urban homesteading pursuant to this chapter, the department may accept grants of improved real property from the United States Department of Housing and Urban Development. However, the department shall conduct such programs only in cities and cities and counties the governing bodies of which have, by resolution, consented thereto.

41242. The department shall conditionally convey such properties to eligible purchasers for nominal consideration upon the following conditions:

(a) The purchaser will occupy such property as a principal residence for not less than three years.

(b) The purchaser will make any repairs necessary to make the structure lawful for occupancy prior to occupying the structure.

(c) The purchaser will make all other necessary repairs as may be necessary to fully comply with applicable state or local housing standards within 18 months of the date of initial occupancy.

(d) The purchaser will permit inspection at reasonable intervals by agents or employees of the department or of the city housing or building department for the purpose of determining compliance with the terms and conditions of the conveyance.

41243. (a) Upon any material breach in the terms and conditions of the conditional conveyance, it shall be revoked or otherwise terminated by the department.

(b) Upon compliance with all the terms and conditions of the conditional conveyance, fee simple title will be conveyed by the department to the purchaser without additional consideration.

41244. The department shall adopt eligibility criteria for purchasers and priorities based upon need and ability to comply with the terms and conditions specified in this chapter, and shall adopt and implement equitable selection procedures.

41245. The department may contract with the United States

Department of Housing and Urban Development for the purposes of this chapter, including contracts for technical assistance in the administration of the program.

41246. If required by the United States Department of Housing and Urban Development as a condition to a grant of property under Section 810 of the Housing and Community Development Act of 1974, the department may contract with, or solicit assurances from, any city or city and county with respect to planning in areas designated for an urban homestead program or with respect to upgrading of community services and facilities.

CHAPTER 765

Whenever a judgment is satisfied in fact, otherwise than upon an execution, the party or attorney must give such acknowledgment, or make such endorsement, and, upon motion, the court may compel it, or may order the entry of satisfaction to be made without it.

In the superior court and in municipal courts such entry shall be made in the register of actions; in justice courts, in the docket in the justice court.

(c) Any judgment creditor or assignee who, for a period of 15 days after actual receipt of a demand in writing for acknowledgment of satisfaction of judgment, which demand is made after the judgment has in fact been paid in full, refuses without just cause to execute, acknowledge and deliver such acknowledgment of satisfaction to the judgment debtor, or to the owner of the real property upon which the judgment has become a lien by reason of the recording of an abstract of a judgment in accordance with Section 674, is liable to the judgment debtor or to the owner of the real property, as the case may be, or his grantees or heirs, for all damages which he or they may sustain by reason of such refusal, and shall also forfeit to him or them the sum of one hundred dollars ($100).

(d) Any judgment creditor or assignee who intentionally conditions the delivery of an acknowledgment of satisfaction of judgment upon the performance of any act or the payment of any amount by a judgment debtor in excess of that to which the judgment creditor or assignee is entitled pursuant to the judgment, shall be liable to the judgment debtor or his grantees or heirs, for all damages sustained by reason of such action, but in no event shall this be less than two hundred fifty dollars ($250).

This subdivision shall not apply where a judgment creditor or assignee has agreed to deliver an acknowledgment of satisfaction of judgment to the judgment debtor prior to full satisfaction of the judgment in consideration for the judgment debtor having agreed either to furnish security or to execute a promissory note, or both, the

principal amount of which does not exceed that to which the judgment creditor or assignee is entitled pursuant to the judgment.

(f) In any action maintained pursuant to subdivisions (b), (c), or (d) the court shall award reasonable attorney's fees to the prevailing party.

(g) The damages provided for in this section are not in derogation of any other damages or penalties to which an aggrieved person may be entitled by law.

SEC. 4. Section 1 of this act shall be operative until the operative date of Chapter 1516 of the Statutes of 1974, at which time it is repealed.

The registrar may proceed to take disciplinary action as in this article provided against a person licensed or registered under the provisions of this chapter even though the grounds or cause for such disciplinary action arose upon projects or while the licensee or registrant was acting in a capacity or under circumstances or facts which, under the provisions of Sections 7044, 7045, 7046, and 7048, would otherwise exempt him or his operations from the provisions of this chapter.

In all cases in which the death penalty has been imposed no such order shall be made until the sentence of death has been carried out. If the party entitled to such exhibits is unknown, or fails to apply for the return of such exhibits, the procedure for their disposition shall be as follows:

After the expiration of six months from the time the conviction becomes final, or if the action or proceeding has not resulted in a conviction, at any time after the judgment has become final, the court in which the case was tried shall make an order specifying what

The money received from such sales shall be placed in the general fund of the county.

SEC. 4. Section 1418.5 of the Penal Code is amended to read:

1418.5. The court may, on application of the party entitled thereto, or an agent designated in writing by the owner, order such documentary exhibits as may be released from the custody of the court without prejudice to the state delivered to such party any time after the final determination of the action or proceeding; provided, however, where the action or proceeding has resulted in an order granting probation, such delivery may be made any time after the final determination of an appeal of such order, taken under the provisions of Section 1237, or after the time for such appeal has elapsed.

If the party entitled to such documentary exhibits is unknown, or fails to apply for the return of said exhibits, the procedure for their disposition shall be as follows:

describing briefly the exhibit, and indicating the date after which the exhibit will be destroyed or otherwise disposed of.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 13655 of the Education Code is amended to read:

13655. Any classified employee of any school district or county superintendent of schools who has been employed for a period of one calendar year or more whose employment is terminated for reasons other than action initiated by the employer for cause and who subsequently accepts employment with another school district or county superintendent of schools within one year of such termination of his former employment, shall have transferred with him to the second district or county superintendent of schools the total amount of earned leave of absence for illness or injury to which he is entitled under Section 13651.1. This transfer shall be in the same manner as is provided for certificated employees.

In any case where an employee was terminated as a result of action initiated by the employer for cause, such a transfer may be made if agreed to by the governing board of the district or the county superintendent of schools newly employing the employee.

All or any part of the previous service, not separated by a break in service greater than one year as of the last day of paid service, may,

if agreed to by the employing entity, be construed to have been served in the new district or county superintendent of schools of employment for seniority purposes, except that such previous service may not be counted, for seniority purposes, when position or personnel reduction is ordered, for any reason, by the board.

No governing board shall adopt any policy or rule, written or unwritten, which requires all classified employees, or any individual classification, or group of classifications of employees transferring to its district to waive any part or all benefits which they may be entitled to have transferred in accordance with this section.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

The valuation shall be conducted under the supervision of an actuary and shall cover the mortality, service, and compensation experience of the members and beneficiaries, and shall evaluate the assets and liabilities of the retirement fund. Upon the basis of the investigation, valuation, and recommendation of the actuary, the board shall recommend to the board of supervisors such changes in the rates of interest, in the rates of contributions of members, and in county and district appropriations as are necessary. With respect to the rates of interest to be credited to members and to the county or district, the board may, in its sound discretion, recommend a rate which is higher or lower than the interest assumption rate established by the actuarial survey. No adjustment shall be included in the new rates for time prior to the effective date of the revision.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because there are minor savings as well as minor costs in this act which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 779

An act to amend Section 6827 of the Public Resources Code, relating to state lands.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 6827 of the Public Resources Code is amended to read:

6827. Leases for the extraction and removal of oil and gas deposits may be made by the commission to the highest qualified bidder, or joint bidders, as provided in this chapter. Such a lease shall include

all oil and gas deposits in the leased land and be for a term of 20 years and for so long thereafter as gas or oil is produced in paying quantities from the leased land, or lessee shall be diligently conducting production, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land. Any lease heretofore issued under this chapter for a term of 20 years, or any renewal or extension thereof, may at any time or times prior to its expiration be extended upon such terms and conditions and for such period of time as the commission deems for the best interests of the state or as the Legislature may provide; provided further, that upon the lessee's timely application therefor the commission may issue a new lease in exchange for any lease issued for a term of 20 years, or any renewal or extension thereof; such new lease shall be issued at the same royalty and upon the same terms and conditions as the lease for which it is exchanged, unless the commission and the lessee shall otherwise agree, except that the term of such exchange lease shall be for a term of five years and for so long thereafter as oil or gas is produced in paying quantities, or lessee shall be conducting production, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land.

When state lands, including tide and submerged lands, are offered for lease by the commission, the commission shall specify a sliding scale royalty on oil commencing at not less than 16⅔ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to an allowance for oil treatment and dehydration of not to exceed five cents ($0.05) per barrel for royalty oil, and an annual rental payable in advance of not less than one dollar ($1) for each acre of land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying all other provisions of the lease.

As alternatives to the procedure set forth in the preceding paragraph, the commission, if it so provides in the invitation to bid, may: (1) specify a sliding scale royalty on oil commencing at 16⅔ percent up to a maximum percentage specified in the invitation to bid, to be paid on the average production of oil per well per day under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under

01856 287185 310

such lease, except gas used for lease use or reinjection into the leased lands, and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who bids the highest factor to be applied to the scale of oil royalties specified in the offer to bid, in addition to satisfying all other provisions of the lease, unless the commission decides to reject all bids pursuant to Section 6836; or (2) specify that bidding shall be on the basis of a flat rate of royalty and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest flat rate of royalty, but not less than 16⅔ percent, on oil, to be paid on the production of oil under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands, unless the commission decides to reject all bids pursuant to Section 6836; or (3) specify, with respect to a proposed lease for the extraction of gas, that bidding shall be on the basis of a flat rate of royalty, and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest flat rate of royalty, but not less than 16⅔ percent, on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands, unless the commission decides to reject all bids pursuant to Section 6836; or (4) as an additional alternative, the commission, if it so provides in the invitation to bid, may award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest percentage of net profits derived from oil, dry gas, and other products extracted under the lease, in addition to satisfying all other provisions of the lease, unless the commission decides to reject all bids pursuant to Section 6836, and under such alternative, an annual rental of not less than one dollar ($1) for each acre of land subject to the lease shall be payable in advance on the rental date. Under alternatives (1), (2), and (3), the royalties shall be paid in kind or as a percentage of the current market price at the well of the production removed or sold from the leased lands, subject to an allowance for oil treatment and dehydration of not to exceed five cents ($0.05) per barrel for royalty oil, and an annual rental payable in advance of not less than one dollar ($1) for each acre of the land subject to the lease at the rental date.

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands cease to produce oil or gas, the lease shall; nevertheless, continue in full force and effect if within six months after the cessation of production, or such longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations for the purpose of restoring production of oil or gas from the leased lands.

SEC. 3. Section 6532 of the Fish and Game Code is amended to read:

6532. The privilege tax imposed by Section 6531 shall be paid monthly to the department within 30 days after the close of each month. If not paid within 60 days after the close of the month in which it is due, a ten-percent (10%) penalty shall be paid.

The commission shall revoke a license and declare the allotment abandoned unless the allottee presents to the commission reasonable cause for failure to pay such privilege tax within 90 days after the close of the month in which it is due.

Blanks for the purpose of making privilege tax returns shall be supplied by the department.

SEC. 4. Section 8042 of the Fish and Game Code is amended to read:

Any person qualifying under the provisions of this section may procure a fish broker and importer's license in lieu of a license under Section 8040 and, upon doing so, shall not be required to comply with the provisions of Sections 8045 and 8046.

The annual fee for the license issued pursuant to this section is one hundred dollars ($100). The license year shall be from July 1 to June 30 of the year following, or, if issued after the beginning of such term, for the remainder thereof.

CHAPTER 798

An act to amend Sections 13581.2 and 13581.5 of the Education Code, relating to school district employees.

[Approved by Governor September 16, 1975. Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 13581.2 of the Education Code is amended to read:

13581.2. (a) Positions not requiring certification qualifications created by a governing board of a school district under the Manpower Development and Training Act of 1962, the Economic Opportunity Act of 1964, the Elementary and Secondary Education Act of 1965, or Section 11300 or Section 13650 of the Welfare and Institutions Code, any future federal or state legislative enactment, or any other special funding, and which are not a part of the regular school program shall, nevertheless, be a part of the classified service as established by Section 13581 or Section 13712 of the Education Code.

Persons employed in such positions shall be classified employees and shall enjoy all of the rights, burdens and benefits accorded other classified employees. Their selection and retention shall be made on the same basis as that of persons selected for positions that are a part of the regular school program.

(b) Notwithstanding the provisions of subdivision (a), if specially funded positions are restricted to employment of persons in low-income groups, from designated impoverished areas and other criteria which restricts the privilege of all citizens to compete for employment in such positions, all such positions shall, in addition to the regular class title, be classified as "restricted." Their selection and retention shall be made on the same basis as that of persons selected and retained in positions that are a part of the regular school program, except that persons employed in the following categories of restricted positions shall not be subject to the provisions of Section 13723 or 13723.05:

(a) The position of instructional aide, as defined in Section 13599.3.

(b) Any other position involving personal contacts with pupils or parents that is established to assist school-staff personnel responsible for school-community relations; educational support services for such areas as counseling, library or health; or the correction or

prevention of behavioral problems.

Persons employed in positions properly classified as "restricted" shall be classified employees for all purposes except:

(1) They shall not be accorded employment permanency under Section 13583 or Section 13739 of the Education Code, whichever is applicable.

(2) They shall not acquire seniority credits for the purposes of Sections 13737 and 13746 of the Education Code or, in a district not having the merit (civil service) system, for the purposes of layoff for lack of work or lack of funds as may be established by rule of the governing board.

(3) The provisions of Sections 13727 and 13728 shall not apply to "restricted" employees.

(4) They shall not be eligible for promotion into the regular classified service or, in districts that have adopted the merit system, shall not be subject to the provisions of Section 13703, until they have complied with the provisions of subdivision (c).

(c) At any time, after completion of six months of satisfactory service, a person serving in a "restricted" position shall be given the opportunity to take such qualifying examinations as are required for all other persons serving in the same class in the regular classified service. If such person satisfactorily completes the qualifying examination, regardless of final numerical listing on an eligibility list, he shall be accorded full rights, benefits and burdens of any other classified employee serving in the regular classified service. His service in the regular classified service shall be counted from the original date of employment in the "restricted" position and shall continue even though he continues to serve in a "restricted" position.

(d) This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

(e) It is the intent of the Legislature in enacting this section to clearly set forth that positions normally a part of the classified service are included therein regardless of the source of income to sustain such positions and to effectively implement specially funded programs intended to provide job opportunities for untrained and impoverished persons but to do so in a manner that will not be disruptive nor detrimental to the normal employment procedures relating to classified school service.

SEC. 2. Section 13581.5 of the Education Code is amended to read:

13581.5. If the governing board of any school district establishes positions in the categories described below and restricts initial appointments of new employees to persons in low-income groups or residing in specifically designated areas of the community, then such positions shall, in addition to the regular class title, be classified as "restricted." The positions shall be part of the classified service and persons so employed shall be classified employees for all purposes

except that (1) they shall not be subject to the provisions of Section 13723 or 13723.05, and (2) they shall not acquire permanent status or seniority credit and shall not be eligible for promotion into the regular classified service until they have complied with the provisions of subdivision (c) of Section 13581.2.

The categories of positions for which the governing board may establish restrictions under this section are:

(a) The position of instructional aide, as defined in Section 13599.3.

(b) Any other position involving personal contacts with pupils or parents, that is established to assist school-staff personnel responsible for school-community relations; educational support services for such areas as counseling, library, or health; or the correction or prevention of behavioral problems.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

This section shall remain in effect only until January 31, 1979, and as of that date is repealed.

The magistrate shall immediately deliver to him a copy of the complaint, inform him that he has the right to have the assistance of counsel, ask him if he desires the assistance of counsel, and allow him reasonable time to send for counsel. However, in a capital case, the court shall inform the defendant that he must be represented in court by counsel at all stages of the preliminary and trial proceedings and that such representation will be at his expense if he is able to employ counsel or at public expense if he is unable to employ counsel, inquire of him whether he is able to employ counsel and, if so, whether he desires to employ counsel of his choice or to have counsel assigned for him, and allow him a reasonable time to send for his chosen or assigned

counsel. The magistrate must, upon the request of the defendant, require a peace officer to take a message to any counsel whom the defendant may name, in the judicial district in which the court is situated. The officer shall, without delay and without a fee, perform that duty. If the defendant desires and is unable to employ counsel, the court shall assign counsel to defend him; in a capital case, if the defendant is able to employ counsel and either refuses to employ counsel or appears without counsel after having had a reasonable time to employ counsel, the court shall assign counsel to defend him. If it appears that the defendant may be a minor, the magistrate shall ascertain whether such is the case, and if the magistrate concludes that it is probable that the defendant is a minor, he shall immediately either notify the parent or guardian of the minor, by telephone or messenger, of the arrest, or appoint counsel to represent the minor. Upon the first court appearance of counsel, or upon a determination by a magistrate that the defendant can represent himself, the prosecuting attorney shall, within two calendar days, deliver to, or make accessible for inspection and copying by, the defendant or his counsel, copies of police, arrest and crime reports. Portions of such reports containing privileged information need not be disclosed if the defendant or his counsel has been notified that privileged information has not been disclosed. If the charges against the defendant are dismissed prior to the time the above-mentioned documents are delivered or made accessible, the prosecuting attorney need not deliver or make accessible such documents unless otherwise so compelled by law.

SEC. 2. Section 1430 is added to the Penal Code, to read:

1430. Upon the first court appearance of counsel, or upon a determination by a magistrate that the defendant can represent himself, the prosecuting attorney shall within two calendar days in all criminal cases triable in the municipal and justice courts, deliver to, or make accessible for inspection and copying by, the defendant or his counsel copies of police, arrest, and crime reports. Portions of such reports containing privileged information need not be disclosed if the defendant or his counsel has been notified that privileged information has not been disclosed. If the charges against the defendant are dismissed prior to the time the above-mentioned documents are delivered or made accessible, the prosecuting attorney need not deliver or make accessible such documents unless otherwise so compelled by law.

SEC. 3. It is the intent of the Legislature that nothing in this act shall be construed to limit or impair any rights of discovery in a criminal case.

the interests of the state, the agency or vendor may request a hearing before the Board of Control and the board shall determine which method of procurement will best serve the interests of the state, whereupon the department shall proceed in accordance with the board's determination

The above salary schedule is an excerpt of the basic pay plan as adopted by the board of supervisors on August 27, 1974, and includes the same range numbers and rates of pay utilized for all employees of Santa Clara County.

Should the board of supervisors increase or decrease salaries, or adopt a revised pay plan, the new schedule of salaries and ranges shall apply equally and be effected for all employees of municipal courts in the same manner and on the same date as for other county officers and employees, but all such changes or adjustments shall be effective only until January 1, 1978.

SEC. 9. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

CHAPTER 806

An act to amend Section 13828 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 13828 of the Education Code is amended to read:

13828. "Beneficiary" means any person receiving a survivor's allowance, death benefit, retirement allowance under option, or any other benefit. "Beneficiary" does not include a member, former member or retirant unless specifically named as a beneficiary or by operation of law. A corporation, trust, eleemosynary or parochial institution or public entity may only be designated as a beneficiary to receive death benefits under Sections 14070, 14180, 14185, and 14186.3 except as otherwise provided in this chapter.

CHAPTER 807

An act to amend Sections 8651.5 and 8651.6 of, and to add Sections 8651.7 and 9258 to the Revenue and Taxation Code, relating to taxation, and making an appropriation therefor, to take effect immediately, tax levy.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 8651.5 of the Revenue and Taxation Code is amended to read:

8651.5. Notwithstanding the provisions of Section 8651, on or after January 1, 1966 the excise tax imposed upon liquefied petroleum gas shall be at the rate of six cents ($0.06) for each gallon of fuel used. All references in this code to Section 8651 shall be deemed, with respect to the rate imposed upon liquefied petroleum gas on or after January 1, 1966, to also refer to this section. Neither the tax imposed by this section nor the tax imposed by Section 8651 shall apply to the use of liquefied petroleum gas in a vehicle during any period of time for which the owner or operator of the vehicle has paid the annual flat rate fuel tax as provided in Section 8651.7.

SEC. 2. Section 8651.6 of the Revenue and Taxation Code is amended to read:

8651 6. Notwithstanding the provisions of Sections 8651 and 8651.5, on or after January 1, 1971, the excise tax imposed upon natural gas shall be at the rate of seven cents ($0.07) for each 100 cubic feet of compressed natural gas used, measured at standard pressure and temperature, and at a rate of six cents ($0.06) for each gallon of liquid natural gas used. All references in this code to Section 8651 shall, with respect to the rate imposed upon natural gas on or after January 1, 1971, also refer to this section. Neither the tax imposed by this section nor the tax imposed by Section 8651 shall apply to the use of compressed natural gas or liquid natural gas used in a vehicle during any period of time for which the owner or

operator of the vehicle has paid the annual flat rate fuel tax as provided in Section 8651.7.

SEC. 3. Section 8651.7 is added to the Revenue and Taxation Code, to read:

8651.7 (a) The owner or operator of a vehicle propelled by a system using liquefied petroleum gas, liquid natural gas, or compressed natural gas may pay his fuel tax for the use of such fuels by paying an annual flat rate fuel tax according to the following schedule:

Unladen weight	Fee
All passenger cars and other vehicles 4,000 lbs. or less	$36
More than 4,000 lbs. but less than 8,001 lbs.	72
More than 8,000 lbs. but less than 12,001 lbs.	120
12,001 lbs. or more	168

(b) The annual flat rate fuel tax described in subdivision (a) shall be an annual tax for a calendar year. If the annual flat rate tax is paid after the end of January of any year the amount of the tax under this section shall be reduced by one-twelfth for each month which shall have elapsed since the beginning of such year.

(c) The board shall adopt an identification procedure for vehicles with respect to which the annual flat rate tax described in subdivision (a) of this section has been paid.

SEC. 4. Section 9258 is added to the Revenue and Taxation Code, to read:

9258. On or after January 1, 1976, any person who equips a vehicle with a system using liquefied petroleum gas, compressed natural gas or liquid natural gas to propel the vehicle, or who transfers any vehicle so equipped shall notify the board within 10 days after so equipping or transferring the vehicle.

SEC. 5. There is hereby appropriated from the Motor Vehicle Fuel Account in the Transportation Tax Fund to the State Board of Equalization for the 1975–1976 fiscal year the sum of sixty thousand dollars ($60,000) to prepare to administer and to administer the provisions of this act.

SEC. 6. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect, and shall become operative January 1, 1976.

CHAPTER 808

An act to amend Section 213.6 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 213.6 of the Revenue and Taxation Code is amended to read:

213.6. (a) Personal property owned and operated by an organization incorporated by an act of the United States Congress whose purposes are to provide adequate facilities to assist in meeting local and national emergencies and to promote the public welfare and provide aviation and aerospace education and training which is used exclusively for such purposes shall be exempt from taxation; provided that the organization qualifies for exemption under Section 501(c)(3) of the Internal Revenue Code of 1954.

(b) Pursuant to Section 2229 of this code, this section shall remain in effect to and including the lien date in 1980, after which it shall have no further force or effect unless a later enacted statute chaptered on or before March 1, 1980, deletes or extends such date.

SEC. 2. Section 1 of this act is a clarification of existing law as enacted by Chapter 31 of the Statutes of 1974 in order to implement the intent of the Legislature to exempt from taxation personal property owned by the Civil Air Patrol beginning with the 1975–76 fiscal year.

SEC. 3 This act does not require state reimbursement of local governments under Section 2229 of the Revenue and Taxation Code because there is no actual loss of revenue since the property exempted by this act has never in fact been taxed.

SEC. 4. Any tax or penalty or interest thereon for any fiscal year commencing during the 1975 calendar year on personal property owned by any organization which would have qualified for the exemption provided in Section 213.6 of the Revenue and Taxation Code as amended by this act, had that section been in existence on the lien date in 1975, shall be canceled pursuant to Article 1 (commencing with Section 4986) of Chapter 4 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been levied or charged erroneously; and if paid, a refund thereof shall be made pursuant to Article 1 (commencing with Section 5096) of Chapter 5 of Part 9 of Division 1 of the Revenue and Taxation Code as if it had been erroneously collected. Any cancellation or refund made pursuant to this section shall be made provided an appropriate application for exemption is filed within 60 days of the effective date of this act.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local agencies by this act are minor in nature and will not cause any financial burden to such local agencies.

SEC. 6. This act is an urgency statute necessary for the

immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of a technical oversight in the enactment of Chapter 31 of the Statutes of 1974, the Civil Air Patrol could not avail itself of the property tax exemption for the 1975–76 fiscal year expressly intended by the Legislature in that enactment. But for that technical oversight the organization would qualify for the exemption. If required to meet the tax obligation for the 1975–76 fiscal year, the ability of such organization to function effectively in providing air rescue support at times of local and national emergencies will be seriously impaired to the great detriment of our state. This act will remedy the situation, and in so doing, the public policy of the state will be subserved and the state as a whole will benefit.

CHAPTER 809

An act to amend Section 13832 of the Education Code and to amend Section 20022 of the Government Code, relating to school employee retirement, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1975 Filed with Secretary of State September 16, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 13832 of the Education Code is amended to read:

13832. "Compensation" and "salary" mean remuneration in cash payable by the employer to the member, plus any payments in cash by the employer to one other than the member for the purpose of purchasing an annuity contract for the member under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of the United States, plus any amount deducted from a member's wages for participation in a deferred compensation plan established pursuant to Chapter 8 (commencing with Section 18310) of Part 1 of Division 5 of Title 2 of the Government Code or pursuant to Article 1.1 (commencing with Section 53212) of Chapter 2 of Part 1 of Division 2 of Title 5 of the Government Code.

"Compensation" and "salary" do not mean and shall not include:

(a) Job-related expenses.

(b) Money paid to the employee for overtime service.

(c) Compensatory damages and money paid to the member in excess of regular salary as a compromise settlement of a dispute arising from termination of a member's employment contract.

(d) Lump sum payments for accumulated sick leave or accumulated vacation leave.

(e) Money paid for summer school employment.

(f) Money paid as a bonus.

(g) Money not available for payment of salaries and which is applied by an employer for the purchase of annuity contracts or for other insurance programs including those which meet the requirements of Section 403(b) of the Internal Revenue Code of the United States.

Any such moneys paid under subdivisions (a) through (g) shall not be included as a part of the member's compensation subject to contributions reported to this system.

SEC. 2. Section 20022 of the Government Code is amended to read:

20022. "Compensation" means the remuneration paid in cash out of funds controlled by the employer, plus the monetary value, as determined by the board of living quarters, board, lodging, fuel, laundry and other advantages of any nature furnished a member by his employer in payment for his services or for time during which the member is excused from work because of holidays, sick leave, vacation, compensating time off, or leave of absence, plus any payments in cash by his employer to one other than an employee for the purpose of purchasing an annuity contract for a member under an annuity plan which meets the requirements of Section 403(b) of the Internal Revenue Code of the United States, plus any amount deducted from a member's wages for participation in a deferred compensation plan established pursuant to Chapter 8 (commencing with Section 18310) of Part 1 of Division 5 of Title 2 or pursuant to Article 1.1 (commencing with Section 53212) of Chapter 2 of Part 1 of Division 2 of Title 5; provided, however, that "compensation" shall not include the provision by an employer of any medical or hospital service or care plan or insurance plan (other than the purchase of annuity contracts referred to in this section) for its employees, any contribution by an employer to meet the premium or charge for such plan, or any payment into a private fund to provide health and welfare benefits for its employees, or any payment by an employer of the employee portion of taxes imposed by the Federal Insurance Contribution Act.

"Compensation" shall not include amounts not available for payment of salaries and which is applied by an employer for the purchase of annuity contracts including those which meet the requirements of Section 403(b) of the Internal Revenue Code of the United States.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to prevent unnecessary and undesirable financial burdens to school district employees, this act must take effect immediately.

CHAPTER 810

An act to add Section 21628.5 to the Business and Professions Code, relating to business machines.

[Became law without Governor's signature September 17, 1975. Filed with Secretary of State September 17, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 21628.5 is added to the Business and Professions Code, to read:

21628.5. (a) Every business machine dealer shall report all used business machines which he has purchased, taken in trade, accepted for sale or consignment, or which he has repaired, to the chief of police or to the sheriff in accordance with the provisions of Section 21628 and Section 21630.

No report of repair shall be required from a dealer servicing or repairing a machine in the possession of the owner to whom that dealer sold that machine when it was new.

(b) As used in this section, the term "business machines" includes, but is not limited to, typewriters, adding machines, check writing devices, cash registers, calculators, addressing machines, copying and accounting equipment, letter sorting and folding devices, and recording equipment, but does not include office furniture or fixtures.

CHAPTER 811

An act to amend Sections 1480, 1481.1, 1481.2, and 1482 of the Health and Safety Code, relating to paramedics.

It is the intent of the Legislature to resolve potential conflicts between California law and the provisions of Public Law 93-380 regarding parental access to, and the confidentiality of, pupil records in order to insure the continuance of federal education funds to public educational institutions within the state, and to revise generally and update the law relating to such records.

This chapter shall have no effect regarding public community colleges, other public or private institutions of higher education, other governmental or private agencies which receive federal education funds unless described herein, or, except for Sections 10939 and 10940 and subdivision (b) (5) of Section 10947, private schools.

The provisions of this chapter shall prevail over the provisions of Section 554 of this code and Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code to the extent that they may pertain to access to pupil records.

Article 2. Definitions

10932. As used in this chapter:

(a) "Parent" means a natural parent, an adopted parent, or legal guardian. If parents are divorced or legally separated, only the parent having legal custody of the pupil may consent to release records to others pursuant to Section 10946, provided, however, that either parent may grant consent if both parents have notified, in writing, the school or school district that such an agreement has been made. Whenever a pupil has attained the age of 18 years or is attending an institution of postsecondary education, the permission or consent required of, and the rights accorded to, the parents or guardian of the pupil shall thereafter only be required of, and accorded to, the pupil.

(b) "Pupil record" means any item of information directly related to an identifiable pupil, other than directory information, which is maintained by a school district or required to be maintained by any employee in the performance of his duties whether recorded by handwriting, print, tapes, film, microfilm or other means.

"Pupil record" shall not include informal notes related to a pupil compiled by a school officer or employee which remains in the sole possession of the maker and is not accessible or revealed to any other person.

(c) "Directory information" means one or more of the following items: student's name, address, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous public or private school attended by the student.

(d) "School district" means any school district maintaining any of grades kindergarten through 12, any public school providing instruction in any of grades kindergarten through 12, the office of the county superintendent of schools, or any special school operated by the Department of Education.

(e) "Access" means a personal inspection and review of a record or an accurate copy of a record, or an oral description or communication of a record or an accurate copy of a record, or a request to release a copy of any record.

Article 3. General Provisions

10933. School districts shall establish, maintain, and destroy pupil records according to regulations adopted by the State Board of Education. Such regulations shall establish state policy as to what items of information shall be placed into pupil records and what information is appropriate to be compiled by individual school officers or employees under the exception to pupil records provided in subdivision (b) of Section 10932. No pupil records shall be destroyed except pursuant to such regulations or as provided in

subdivisions (b) and (c) of Section 10941.

10934. School districts shall notify parents of their rights under this chapter upon the date of the pupil's initial enrollment, and thereafter at the same time as notice is issued pursuant to Section 10921. The notice shall be, insofar as is practicable, in the home language of the pupil. The notice shall take a form which reasonably notifies parents of the availability of the following specific information:

(a) The types of pupil records and information contained therein which are directly related to students and maintained by the institution

(b) The name and position of the official responsible for the maintenance of each type of record, the persons who have access to those records, and the purposes for which they have such access.

(c) The policies of the institution for reviewing and expunging those records.

(d) The right of the parent to access to pupil records.

(e) The procedures for challenging the content of pupil records.

(f) The cost if any which will be charged to the parent for reproducing copies of records.

(g) The categories of information which the institution has designated as directory information pursuant to Section 10944 and the parties to whom such information will be released unless the parent objects.

(h) Any other rights and requirements set forth in this chapter.

10935. A log or record shall be maintained for each pupil's record which lists all persons or organizations requesting or receiving information from the record excepting school personnel and the reasons therefor. The log shall be open to inspection only by a parent and the school official or his designee responsible for the maintenance of pupil records.

10936. Any school district may make a reasonable charge in an amount not to exceed the actual cost of furnishing copies of any pupil record; provided, however, that no charge shall be made for furnishing (1) up to two transcripts of former pupils' records or (2) up to two verifications of various records of former pupils.

10937. (a) When grades are given for any course of instruction taught in a school district, the grade given to each pupil shall be the grade determined by the teacher of the course and the determination of the pupil's grade by the teacher, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

(b) No grade of a pupil participating in a physical education class, however, may be adversely affected due to the fact that the pupil does not wear standardized physical education apparel where the failure to wear such apparel arises from circumstances beyond the control of the pupil.

10938. The governing board of each school district shall prescribe regulations requiring the evaluation of each pupil's achievement for each marking period and requiring a conference with, or a written

report to, the parent of each pupil whenever it becomes evident to the teacher that the pupil is in danger of failing a course. The refusal of the parent to attend the conference, or to respond to the written report, shall not preclude failing the pupil at the end of the grading period.

Notwithstanding the provisions of subdivision (a) of Section 10932, the provisions of this section shall apply to the parent of any pupil without regard to the age of the pupil.

10939. Whenever a pupil transfers from one school district to another or to a private school, or transfers from a private school to a school district within the state, the pupil's permanent enrollment and scholarship record or a copy thereof shall be transferred by the former district or private school upon a request from the district or private school where the pupil intends to enroll. Any school district requesting such a transfer of a record shall notify the parent of his right to receive a copy of the record and a right to a hearing to challenge the content of the record. The State Board of Education is hereby authorized to adopt rules and regulations concerning the transfer of records.

Article 4. Rights of Parents

10940. Parents of currently enrolled or former pupils have an absolute right to access to any and all pupil records related to their children which are maintained by school districts or private schools. The editing or withholding of any such records is prohibited.

Each school district shall adopt procedures for the granting of requests by parents to inspect and review records during regular school hours, provided that access shall be granted no later than five days following the date of the request. Procedures shall include the notification to the parent of the location of all official pupil records if not centrally located and the providing of qualified certificated personnel to interpret records where appropriate.

10941. Following an inspection and review of a pupil's records, the parent of a pupil or former pupil of a school district may challenge the content of any pupil record.

(a) The parent of a pupil may file a written request with the superintendent of the district to remove any information recorded in the written records concerning his child which he alleges to be: (1) inaccurate, (2) an unsubstantiated personal conclusion or inference, (3) a conclusion or inference outside of the observer's area of competence, or (4) not based on the personal observation of a named person with the time and place of the observation noted.

(b) Within 30 days of receipt of such request, the superintendent or his designee shall meet with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district. The superintendent shall then sustain or deny the allegations.

If the superintendent sustains the allegations, he shall order the

4182 289405 172

removal and destruction of the information

If the superintendent denies the allegations and refuses to order the removal of the information, the parent may, within 30 days of the refusal, appeal the decision in writing to the governing board of the school district.

(c) Within 30 days of receipt of such an appeal, the governing board shall, in closed session with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district, determine whether or not to sustain or deny the allegations.

If the governing board sustains the allegations, it shall order the superintendent to immediately remove and destroy the information from the written records of the pupil

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the parent initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the parent, or if the parent accepts an unfavorable decision by the district superintendent, the parent shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the pupil's school record until such time as the information objected to is removed.

10942. (a) To assist in making determinations pursuant to Section 10941, a district superintendent or governing board may convene a hearing panel composed of the following persons, provided that the parent has given written consent to release information from the relevant pupil's records to the members of the panel so convened:

(1) The principal of a public school other than the public school at which the record is on file.

(2) A certificated employee appointed by the chairman of the certificated employee council of the district, or, if no such council exists, a certificated employee appointed by the parent.

(3) A parent appointed by the superintendent or by the governing board of the district, depending upon who convenes the panel.

(b) The persons appointed pursuant to paragraphs (2) and (3) of subdivision (a) shall, if possible, not be acquainted with the pupil, his parent or guardian, or the certificated employee who recorded the information, except when the parent or guardian appoints the person pursuant to paragraph (2).

(c) The principal appointed to the hearing panel shall serve as its chairman.

(d) The hearing panel shall, in closed session, hear the objections to the information of the parent and the testimony of the certificated employee who recorded the information in question, if any, and if

such employee is presently employed by the school district.

The hearing panel shall be provided with verbatim copies of the information which is the subject of the controversy.

Written findings shall be made setting forth the facts and decisions of the panel, and such findings shall be forwarded to the superintendent or the governing board, depending upon who convened the panel.

The proceedings of the hearing shall not be disclosed or discussed by panel members except in their official capacities.

10943. Whenever there is included in any pupil record information concerning any disciplinary action taken by school district personnel in connection with the pupil, the school district maintaining such record or records shall allow the pupil's parent to include in such pupil record a written statement or response concerning the disciplinary action.

Article 5. Privacy of Pupil Records

10944. School districts shall adopt a policy identifying those categories of directory information as defined in subdivision (c) of Section 10932 which may be released. The district shall determine which officials or organizations may receive directory information, provided, however, that no information may be released to a private profitmaking entity other than employers, prospective employers and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. The names and addresses of pupils enrolled in grade 12 or who have terminated enrollment prior to graduation may be provided to a private school or college operating under the provisions of Division 21; provided, however, that no such private school or college shall use such information for other than purposes directly related to the academic or professional goals of the institution, and provided further that any violation of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars ($2,500), and, in addition, the privilege of the school or college to receive such information shall be suspended for a period of two years from the time of discovery of the misuse of such information. Any district may, in its discretion, limit or deny the release of specific categories of directory information to any public or private nonprofit organization based upon a determination of the best interests of pupils.

Directory information may be released according to local policy as to any pupil or former pupil, provided that notice is given at least on an annual basis of the categories of information which the school plans to release and of the recipients. No directory information shall be released regarding any pupil when a parent has notified the school district that such information shall not be released.

10945. Nothing in this chapter shall preclude a school district from providing, in its discretion, statistical data from which no pupil may be identified to any public agency or entity or private nonprofit

college, university, or educational research and development organization when such actions would be in the best educational interests of pupils

10946. A school district may permit access to pupil records to any person for whom a parent of the pupil has executed written consent specifying the records to be released and identifying the party to whom the records may be released. The recipient must be notified that the transmission of the information to others is prohibited. The consent notice shall be permanently kept with the record file.

10947. A school district is not authorized to permit access to pupil records to any person without written parental consent or under judicial order except that:

(a) Access shall be permitted to the following:

(1) School officials and employees of the district and members of a school attendance review board appointed pursuant to Section 12501, provided that any such person has a legitimate educational interest to inspect a record.

(2) Officials and employees of other public schools or school systems, including local, county, or state correctional facilities where educational programs leading to high school graduation are provided, where the pupil intends to or is directed to enroll, subject to the rights of parents as provided in Section 10939.

(3) Federal education officials, the United States Office for Civil Rights, the Superintendent of Public Instruction, or the county superintendent of schools, or their respective designees, where such information is necessary to audit or evaluate a state or federally funded program or pursuant to a federal or state law.

(4) Other state and local officials to the extent that information is specifically required to be reported pursuant to state law.

(5) Parents of an 18-year-old pupil who is a dependent as defined in Section 152 of the Internal Revenue Code of 1954.

(6) A pupil 16 years of age or older or having completed the 10th grade who requests such access.

(b) School districts may release information from education records to the following:

(1) Appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

(2) Agencies or organizations in connection with a student's application for, or receipt of, financial aid.

(3) Accrediting associations.

(4) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is

conducted.

(5) Officials and employees of private schools or school systems where the pupil is enrolled or intends to enroll, subject to the rights of parents as provided in Section 10939. Such information shall be in addition to the pupil's permanent enrollment and scholarship record transferred pursuant to Section 10939.

No person, persons, agency, or organization permitted access to pupil records pursuant to this section shall permit access to any information obtained from such records by any other person, persons, agency, or organization without the written consent of the pupil's parent; provided, however, that this paragraph shall not be construed as to require prior parental consent when information obtained pursuant to this section is shared with other persons within the educational institution, agency or organization obtaining access, so long as such persons have an equal legitimate interest in the information.

10948. Information concerning a student shall be furnished in compliance with a court order The parent and the pupil shall be notified in advance of such compliance by the school employee who complies and releases the information if lawfully possible within the requirements of the judicial order.

10949. The service of a subpoena upon a public school employee solely for the purpose of causing him to produce a school record pertaining to any pupil may be complied with by such employee, in lieu of personal appearance as a witness in the proceeding, by submitting to the court, or other agency issuing the subpoena, at the time and place required by the subpoena, a copy of such record, accompanied by an affidavit certifying that such copy is a true copy of the original record on file in the school or school office. The copy of the record shall be in the form of a photostat, microfilm, microcard, or miniature photograph or other photographic copy or reproduction, or an enlargement thereof.

SEC. 5. Section 22504.5 of the Education Code is repealed.

SEC. 6. Section 25422.8 of the Education Code is repealed.

SEC. 7. Chapter 1.5 (commencing with Section 25430) is added to Division 18.5 of the Education Code, to read:

CHAPTER 1.5. STUDENT RECORDS

Article 1. Legislative Intent

25430. It is the intent of the Legislature to resolve potential conflicts between California law and the provisions of Public Law 93-380 regarding the confidentiality of student records in order to insure the continuance of federal education funds to public community colleges within the state, and to revise generally and update the law relating to such records.

Article 2. Definitions

25430.1. As used in this chapter:

(a) "Student record" means any item of information directly related to an identifiable student, other than directory information, which is maintained by a community college or required to be maintained by any employee in the performance of his duties whether recorded by handwriting, print, tapes, film, microfilm or other means.

"Student record" shall not mean information provided by a student's parents relating to applications for financial aid or scholarships, nor shall it mean information related to a student compiled by a community college officer or employee which remains in the sole possession of the maker and is not accessible or revealed to any other person, including information related to a student created or maintained by a physician, psychiatrist, psychologist, or other recognized professional or paraprofessional acting in his professional or paraprofessional capacity, or assisting in that capacity, and which are created, maintained, or used only in connection with the provision of treatment to the student and are not available to anyone other than persons providing such treatment; provided, however, that such records may be personally reviewed by a physician or other appropriate professional of the student's choice.

(b) "Student record" shall not mean information maintained by a law enforcement unit if the personnel of the unit do not have access to student records pursuant to Section 25430.15, if the information maintained by the unit is kept apart from information maintained pursuant to subdivision (a) of this section, if the information is maintained solely for law enforcement purposes, and if the information is not made available to persons other than law enforcement officials of the same jurisdiction.

(c) "Directory information" means one or more of the following items: student's name, address, telephone number, date and place of birth, major field of study, class schedule, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous public or private school attended by the student, and any other information authorized in writing by the student.

(d) "Access" means a personal inspection and review of a record or an accurate copy of a record, or an oral description or communication of a record or an accurate copy of a record, or a request to release a copy of any record.

Article 3. General Provisions

25430.2 Community college districts shall establish, maintain, and destroy student records according to regulations adopted by the Board of Governors of the California Community Colleges. Such

regulations shall establish state policy as to what items of information shall be placed into student records and what information is appropriate to be compiled by individual community college officers or employees under the exception to student records provided in subdivisions (a) and (b) of Section 25430.1. No student records shall be destroyed except pursuant to such regulations or as provided in subdivisions (b) and (c) of Section 25430.10.

25430.3. Community college districts shall notify students of their rights under this chapter upon the date of the student's enrollment next following its effective date, and at least annually thereafter. The notice shall be, insofar as is practicable, in the home language of the student. The notice shall take a form which reasonably notifies students of the availability of the following specific information:

(a) The types of student records and information contained therein which are directly related to students and maintained by the institution.

(b) The official responsible for the maintenance of each type of record, the persons who have access to those records, and the purposes for which they have such access.

(c) The policies of the institution for reviewing and expunging those records.

(d) The right of the student to access to his records.

(e) The procedures for challenging the content of student records.

(f) The cost if any which will be charged for reproducing copies of records

(h) Any other rights and requirements set forth in this chapter.

25430.4. A log or record shall be maintained for each student's record which lists all persons or organizations requesting or receiving information from the record excepting school personnel and the reasons therefor. The log shall be open to inspection only by the student and the community college official or his designee responsible for the maintenance of student records.

25430.5. Any community college may make a reasonable charge in an amount not to exceed the actual cost of furnishing copies of any student record; provided, however, that no charge shall be made for furnishing (1) up to two transcripts of former students' records or (2) up to two verifications of various records of former students.

25430.6. (a) When grades are given for any course of instruction taught in a community college district, the grade given to each student shall be the grade determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final.

(b) No grade of a student participating in a physical education class, however, may be adversely affected due to the fact that the

student does not wear standardized physical education apparel where the failure to wear such apparel arises from circumstances beyond the control of the student.

25430.7. Whenever a student transfers from one community college or public or private institution of postsecondary education to another within the state, appropriate records or a copy thereof shall be transferred by the former community college, college or university, or school or school district upon a request from the community college, college or university, or school or school district where the student intends to enroll; provided, however, that the community college, college or university, or school or school district from which the student is transferring may notify the community college, college or university, or school or school district making such a request that the student's records will be transferred upon payment by the student of all fees and charges due the community college, college or university, or school or school district. Any community college, college or university, or school or school district making such a transfer of such records shall notify the student of his right to receive a copy of the record and his right to a hearing to challenge the content of the record.

The Board of Governors of the California Community Colleges may adopt rules and regulations concerning transfer of such records to, from, or between schools under its jurisdiction.

Article 4. Rights of Students

25430.8. Any currently enrolled or former student has a right to access to any and all student records relating to him maintained by community colleges. The editing or withholding of any such records is prohibited.

Each community college district shall adopt procedures for the granting of requests by students to inspect and review records during regular school hours, provided that access shall be granted no later than five days following the date of the request. Procedures shall include notification of the location of all official student records if not centrally located and the providing of qualified personnel to interpret records where appropriate.

25430.9. A student may be requested to waive his right to access to student records devoted solely to confidential recommendations for career placement or postsecondary admission, provided that the student shall be notified, upon request, of the names of all persons making confidential recommendations. Such waivers may not be required as a condition for admission to, receipt of financial aid from, or receipt of any other services or benefits from a community college.

25430.10. (a) Any student may file a written request with the chief administrative officer of a community college district to remove information recorded in his student records which he alleges to be: (1) inaccurate; (2) an unsubstantiated personal conclusion or

inference; (3) a conclusion or inference outside of the observer's area of competence; or (4) not based on the personal observation of a named person with the time and place of the observation noted.

(b) Within 30 days of receipt of such request, the chief administrative officer or his designee shall meet with the student and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the community college district. The chief administrative officer shall then sustain or deny the allegations.

If the chief administrative officer sustains the allegations, he shall order the removal and destruction of the information.

If the chief administrative officer denies the allegations and refuses to order the removal of the information, the student may, within 30 days of the refusal, appeal the decision in writing to the governing board of the community college district.

(c) Within 30 days of receipt of such an appeal, the governing board shall, in closed session with the student and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the community college district, determine whether to sustain or deny the allegations.

If the governing board sustains the allegations, it shall order the chief administrative officer to immediately remove and destroy the information.

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the student initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the student, or if the student accepts an unfavorable decision by the chief administrative officer, the student shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the student's record until such time as the information objected to is removed.

25430 11 Whenever there is included in any student record information concerning any disciplinary action taken by community college personnel in connection with the student, the student shall be allowed to include in such record a written statement or response concerning the disciplinary action.

Article 5. Privacy of Student Records

25430 12. Community college districts shall adopt a policy identifying those categories of directory information as defined in subdivision (c) of Section 25430.1 which may be released. The district shall determine which officials or organizations may receive directory information, provided, however, that no information may be released to a private profitmaking entity other than prospective

employers and representatives of the news media, including, but not limited to, newspapers, magazines, and radio and television stations. The names and addresses of students may be provided to a private school or college operating under the provisions of Division 21, provided, however, that no such private school or college shall use such information for other than purposes directly related to the academic or professional goals of the institution, and provided further that any violations of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars ($2,500), and, in addition, the privilege of the school or college to receive such information shall be suspended for a period of two years from the time of discovery of the misuse of such information.

Any community college district may, in its discretion, limit or deny the release of specific categories of directory information to any public or private nonprofit organization based upon a determination of the best interests of students.

Directory information may be released according to local policy as to any student currently attending the community college, provided that public notice is given at least annually of the categories of information which the district plans to release and of the recipients. No directory information shall be released regarding any student when the student has notified the school that such information shall not be released.

25430.13. Nothing in this chapter shall preclude a community college from providing, in its discretion, statistical data from which no student may be identified to any public agency or entity or private nonprofit college, university, or educational research and development organization when such actions would be in the best educational interests of students.

25430.14. A community college district may permit access to student records to any person for whom the student has executed written consent specifying the records to be released and identifying the party to whom the records may be released. The recipient must be notified that the transmission of the information to others is prohibited. The consent notice shall be permanently kept with the record file.

25430.15. A community college or community college district is not authorized to permit access to student records to any person without the written consent of the student or under judicial order except that:

(a) Access shall be permitted to the following:

(1) Officials and employees of the college or district, provided that any such person has a legitimate educational interest to inspect a record.

(2) Federal or state education officials or the county superintendent of education, or their respective designees, or the United States Office for Civil Rights, where such information is necessary to audit or evaluate a state or federally funded program or

pursuant to a federal or state law.

(3) Other state and local officials to the extent that information is specifically required to be reported pursuant to state law.

(4) Parents of a student who is a dependent as defined in Section 152 of the Internal Revenue Code of 1954.

(b) Access may be permitted to the following:

(1) Appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

(2) Officials and employees of other public or private schools or school systems, including local, county, or state correctional facilities where educational programs are provided, where the student has been enrolled, intends to enroll, or is directed to enroll, subject to the rights of students as provided in Section 25430.7 of this code.

(3) Agencies or organizations in connection with a student's application for, or receipt of, financial aid.

(4) Accrediting associations carrying out accrediting functions.

(5) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

No person, persons, agency or organization permitted access to student records pursuant to this section shall permit access to any information obtained from such records by any other person, persons, agency, or organization without the written consent of the student; provided, however, that this paragraph shall not be construed as to require prior student consent when information obtained pursuant to this section is shared with other persons within the educational institution, agency or organization obtaining access, so long as such persons have an equal legitimate interest in the information.

25430.16. Information concerning a student shall be furnished in compliance with a court order. The student shall be notified in advance of such compliance by the college employee who complies and releases the information if lawfully possible within the requirements of the judicial order.

25430.17. The service of a subpoena upon a community college employee solely for the purpose of causing him to produce a school record pertaining to any student may be complied with by such employee, in lieu of personal appearance as a witness in the proceeding, by submitting to the court, or other agency issuing the subpoena, at the time and place required by the subpoena, a copy of such record, accompanied by an affidavit certifying that such copy is a true copy of the original record on file in the community college

or community college office. The copy of the record shall be in the form of a photostat, microfilm, microcard, or miniature photograph or other photographic copy or reproduction, or an enlargement thereof.

25430.18. The Board of Governors of the California Community Colleges shall adopt appropriate rules and regulations to insure the orderly implementation of this chapter. A community college district governing board may adopt rules and regulations which are not inconsistent with this chapter or with those adopted by the board of governors in order to ensure the orderly implementation of this chapter.

SEC. 7.5. It is the intent of the Legislature, if this bill and Assembly Bill No. 1770 are both chaptered and become effective January 1, 1976, both bills amend Section 967 of the Education Code, and this bill is chaptered after Assembly Bill No. 1770, that the amendments to Section 967 proposed by both bills be given effect and incorporated in Section 967 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Assembly Bill No. 1770 are both chaptered and become effective January 1, 1976, both amend Section 967, and this bill is chaptered after Assembly Bill No. 1770, in which case Section 1 of this act shall not become operative.

CHAPTER 823

An act to add Section 20450.1 to, and to amend Section 20456 of, the Education Code, relating to county superintendents of schools.

[Approved by Governor September 17 1975 Filed with Secretary of State September 17, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 20450.1 is added to the Education Code, to read·

20450.1. Notwithstanding the provisions of Section 20450, where, on or after July 1, 1975, the powers and duties of a board of supervisors are transferred to a county board of education pursuant to Section 671 of this code:

(a) The maximum tax rate for the juvenile hall program for the first budget year for which such transfer of authority is effective shall be determined in the following manner:

(1) The county superintendent shall determine the expenditure per unit of average daily attendance, excluding capital outlay, for the fiscal year immediately preceding the date upon which the transfer of the powers and duties of the board of supervisors to the county board of education is effective.

(2) He shall increase the amount per average daily attendance determined in paragraph (1) by the inflation adjustment determined by the Superintendent of Public Instruction and the Director of Finance.

(3) He shall multiply the amount determined in paragraph (2) by the estimated number of units of average daily attendance projected for the budget year.

(4) He shall reduce the amount determined in paragraph (3) by the federal aid, all state aid and local income other than secured roll property tax revenue, and by any amount which resulted from overestimating the units of average daily attendance for the prior year.

(5) The remainder from paragraph (4) may be raised by a tax rate over the assessed valuation on the secured roll of the county.

(b) The maximum tax rate for each year subsequent to the first year in which the transfer of authority is effective shall be determined in accordance with the provisions of subdivision (f) of Section 20450.

SEC. 2. Section 20456 of the Education Code is amended to read:

20456. (a) The county superintendent shall have a maximum tax rate available for the operation, maintenance and housing of the county office, including any costs associated with the operation of the county board of education and the county committee on school district organization, and for any ongoing program, except children's center programs maintained by the county superintendent of schools, not included in any previous section of this article.

(b) For fiscally independent county superintendent offices, the maximum allowable tax rate shall be the rate levied for these purposes in 1971–72 or 1972–73, whichever is higher, minus that portion of the rate levied for capital outlay and juvenile hall purposes. This maximum rate may be exceeded in the amount and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(c) For county superintendent offices which become independent on and after July 1, 1974, the maximum allowable tax rate shall be that rate which was levied or could have been levied in the preceding fiscal year pursuant to subdivision (d) of this section. This maximum rate may be exceeded in the amount and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(d) For fiscally nonindependent county superintendent offices, the maximum allowable tax rate shall be computed by determining

the amount of expenditures for the county superintendent of schools' office, exclusive of capital outlay expenditures and expenditures for juvenile hall purposes, in 1971–72 and 1972–73 which were funded from property tax revenues attributable to the county general fund. The amount for each year shall be converted to a tax rate equivalent for that year by dividing each amount by the assessed value of the county in that year and multiplying the quotient by 100; the higher of the two resulting tax rate equivalents shall be the maximum allowable tax rate. This maximum tax rate may be exceeded in the manner and under the terms specified in Section 2266 of the Revenue and Taxation Code.

(e) The maximum allowable tax rate described in this section is not intended to prohibit a county from augmenting the budget of the county superintendent of schools offices from general county funds. If the budget of the county superintendent of schools, as set by the county, does not require the full amount of the maximum allowable rate, the difference between the maximum rate and the actual rate required shall not be levied and shall not be available for any other county purpose.

(f) The maximum allowable tax rates described in this section may be increased by a majority vote of the qualified electors of the county at an election which may be ordered by the county board of education in fiscally independent county superintendent of schools offices or by the county board of supervisors in fiscally nonindependent county superintendent of schools offices. Such a proposition may be voted only in conjunction with a general countywide election.

(g) Notwithstanding any other provision of this section, where a board of supervisors transfers duties and functions to a board of education pursuant to Section 671 on or after July 1, 1975, the maximum allowable tax rate described in this section shall be computed by determining the amount of expenditures for the county board of education, the county committee on school district organization and the county superintendent of schools' office, exclusive of capital outlay expenditures and expenditures for juvenile hall purposes in the year immediately preceding the date on which such transfer becomes effective, which were funded from property tax revenues attributed to the county general fund and from property tax revenues attributed to the tax rate authorized in subdivision (c) of this section. The amount for such budget year shall be converted to a tax rate equivalent for that year by dividing the total of the property tax revenues by the assessed value of the county in that year and multiplying the quotient by 100. This maximum rate may be exceeded in the manner and under the terms specified in Section 2266 of the Revenue and Taxation Code.

CHAPTER 824

Article 2 (commencing with Section 4300) of Chapter 3 of Part 8 of Division 1 of Title 1 of the Corporations Code shall not apply to any such merger.

4091. The plan and agreement by which any such transaction is to be effected shall be submitted to the commissioner, who shall examine the same and require such provisions to be inserted in the agreement and such actions to be taken in connection with the transaction (including but not limited to: (1) the terms and conditions of the transaction, (2) the contents of the notice of the vote on the transaction by the members of each domestic mutual insurer that is a party thereto, and (3) the manner and form of voting thereon by the members of each such domestic mutual insurer) as he may deem necessary in order that the transaction may be fair and equitable to the members of each domestic mutual insurer that is a party to the transaction.

At such meeting the presence in person or by proxy of 10 percent of such members of such insurer shall constitute a quorum. In the absence of a quorum the members present at the meeting in person or by proxy may adjourn the meeting to a later date. No further notice need be given of the date to which the meeting is adjourned.

4093. If the vote is in the affirmative, a certified copy of all proceedings relating to the proposed transaction shall be filed with the commissioner. If one of the insurers that is a party to the transaction is a foreign corporation there shall also be filed with the commissioner evidence of such approval, consent, or authorization as may be required by the laws of the state of incorporation of such foreign insurer. If the commissioner finds that the proceedings have been in accordance with the law and his requirements, he shall issue his certificate approving the plan and agreement and the transaction shall become effective when such certificate, the agreement, and any other documents required by law have been filed with the Secretary of State.

The fee for issuing such certificate approving the transaction shall be two hundred fifty dollars ($250) for the original certificate, payable in advance with the filing with the commissioner of the first papers relating to proposed transaction; five dollars ($5) shall be charged for each signed and sealed or certified copy thereof issued as part of the same transaction in which the original certificate is issued.

4094. Any plan of merger, consolidation, or other unification under this article shall provide that all rights and properties of the parties to the plan of merger, consolidation or other unification shall accrue to and become the rights and properties of the surviving or consolidated or continuing corporation which shall succeed to and assume all the obligations and liabilities of the merged, consolidating, or transferring corporation in the same manner as if incurred or contracted by the surviving, consolidated, or continuing corporation.

(4) May also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

State wildernesses may be established within the boundaries of other state park system units.

(b) State reserves, which consist of areas embracing outstanding natural or scenic characteristics of statewide significance. The purpose of a state reserve is to preserve its native ecological associations, unique faunal or floral characteristics, geological features and scenic qualities in a condition of undisturbed integrity Resource manipulation shall be restricted to the minimum required to negate the deleterious influences of man

Improvements undertaken shall be for the purpose of making the areas available, on a day use basis, for public enjoyment and education in a manner consistent with the preservation of their natural features Living and nonliving resources contained within state reserves shall not be disturbed or removed for other than scientific or management purposes.

State reserves may be established in the terrestrial or underwater environments of the state.

(c) State parks, which consist of relatively spacious areas of outstanding scenic or natural character, oftentimes containing also significant historical, archaeological, ecological, geological, or other such values. The purpose of state parks shall be to preserve outstanding natural, scenic, and cultural values, indigenous aquatic and terrestrial fauna and flora, and the most significant examples of such ecological regions of California as the Sierra Nevada Mountains, northeast volcanic, great valley, coastal strip, Klamath-Siskiyou Mountains, southwest mountains and valleys, redwoods, foothills and low coastal mountains, and desert and desert mountains

Each state park shall be managed as a composite whole in order to restore, protect, and maintain its native environmental complexes to the extent compatible with the primary purpose for which the

park was established.

Improvements undertaken within state parks shall be for the purpose of making the areas available for public enjoyment and education in a manner consistent with the preservation of natural, scenic, cultural, and ecological values for present and future generations. Improvements may be undertaken to provide for such recreational activities as, but not limited to, camping, picnicking, sightseeing, nature study, hiking, and horseback riding, so long as such improvements involve no major modification of lands, forests, or waters. Improvements which do not directly enhance the public's enjoyment of the natural, scenic, cultural, or ecological values of the resource, which are attractions in themselves, or which are otherwise available to the public within a reasonable distance outside the park, shall not be undertaken within state parks.

State parks may be established in either the terrestrial or underwater environments of the state.

(d) State recreation units, which consist of areas selected, developed, and operated to provide outdoor recreational opportunities. Such units shall be designated by the State Park and Recreation Commission by naming, in accordance with the provisions of this article relating to classification

In the planning of improvements to be undertaken within state recreation units, consideration shall be given to compatibility of design with the surrounding scenic and environmental characteristics.

State recreation units may be established in the terrestrial or underwater environments of the state and shall include:

(1) State recreation areas, consisting of areas selected and developed to provide multiple recreational opportunities to meet other than purely local needs. Such areas shall be selected for their having terrain capable of withstanding extensive human impact and for their proximity to large centers of population, major routes of travel, or proven recreational resources such as manmade or natural bodies of water. Areas containing ecological, geological, or scenic resources of significant value shall be preserved within state wildernesses, state reserves, state parks, or natural preserves.

Improvements may be undertaken to provide for such recreational activities as, but not limited to, camping, picnicking, swimming, hiking, bicycling, horseback riding, boating, waterskiing, diving, winter sports, fishing, and hunting.

Improvements to provide for urban or indoor formalized recreational activities shall not be undertaken within state recreation areas.

(2) Underwater recreation areas, consisting of areas in the underwater environment selected and developed to provide surface and subsurface water-oriented recreational opportunities, while preserving basic resource values for present and future generations.

(3) State vehicular recreation areas, consisting of areas where topographic features and associated recreational vehicle

opportunities are the primary values. Such areas shall be chosen to insure that no substantial natural values are lost and that no adjoining properties incur adverse effects from the operation and maintenance of vehicular recreation areas. When important natural or scenic values are found to be present within the boundaries of a state vehicular recreation area they shall be defined within a natural preserve in accordance with the provisions of subdivision (f). The development of facilities shall be aimed at making full public use of the recreational opportunities present, and the natural and cultural elements of the environment may be managed or modified to enhance the recreation experiences. Under all circumstances, conditions of accelerated and unnatural erosion shall be anticipated and prevented to the extent possible. Where the occurrence of such erosion is unanticipated, every measure shall be taken to restore the area.

(4) State beaches, consisting of areas with frontage on the ocean, or bays designed to provide swimming, boating, fishing, and other beach-oriented recreational activities. Coastal areas containing ecological, geological, or scenic resources of significant value shall be preserved within state wildernesses, state reserves, state parks, or natural preserves.

(5) Wayside campgrounds, consisting of relatively small areas suitable for overnight camping and offering convenient access to major highways.

(e) Historical units, to be named appropriately and individually, which consist of areas established primarily to preserve objects of historical, archaeological, and scientific interest, and archaeological sites and places commemorating important persons or historic events. Such areas should be of sufficient size, where possible, to provide a significant proportion of the landscape associated with the historical objects. The only facilities provided are those required for the safety, comfort, and enjoyment of the visitors, such as access, parking, water, sanitation, interpretation, and picnicking. Upon approval by the State Park and Recreation Commission, lands outside the primary historic zone may be selected or acquired, developed, or operated to provide camping facilities within appropriate historical units. Certain agricultural, mercantile, or other commercial activities may be permitted, provided those activities are a part of the history of the individual unit and developments retain or restore historical authenticity. Historical units shall be named to perpetuate the primary historical theme of the individual units.

(f) Natural preserves, which consist of distinct areas of outstanding natural or scientific significance established within the boundaries of other state park system units. The purpose of natural preserves shall be to preserve such features as rare or endangered plant and animal species and their supporting ecosystems, representative examples of plant or animal communities existing in California prior to the impact of civilization, geological features

illustrative of geological processes, significant fossil occurrences or geological features of cultural or economic interest, or topographic features illustrative of representative or unique biogeographical patterns. Areas set aside as natural preserves shall be of sufficient size to allow, where possible, the natural dynamics of ecological interaction to continue without interference, and to provide, in all cases, a practicable management unit. Habitat manipulation shall be permitted only in those areas found by scientific analysis to require manipulation to preserve the species or associations which constitute the basis for the establishment of the natural preserve.

(g) State seashores. State seashores consist of relatively spacious coastline areas with frontage on the ocean, or on bays open to the ocean, including water areas seasonally connected to the ocean, possessing outstanding scenic or natural character and significant recreational, historical, archaeological, or geological values. State seashores may include underwater areas within them, but may not be established solely in the underwater environment.

The purpose of state seashores shall be to preserve outstanding natural, scenic, cultural, ecological, and recreational values of the California coastline as an ecological region and to make possible the enjoyment of coastline and related recreational activities which are consistent with the preservation of the principal values and which contribute to the public enjoyment, appreciation, and understanding of those values.

Improvements undertaken within state seashores shall be for the purpose of making the areas available for public enjoyment, recreation and education in a manner consistent with the perpetuation of their natural, scenic, cultural, ecological, and recreational value. Improvements which do not directly enhance the public enjoyment of the natural, scenic, cultural, ecological, or recreational values of the seashore, or which are attractions in themselves, shall not be undertaken in state seashores.

SEC. 2. Section 5020.5 is added to the Public Resources Code, to read:

5020.5. (a) The commission shall develop criteria and methods for determining the significance of archaeological sites, for selecting the most important archaeological sites, and for determining whether the most significant archaeological sites should be preserved intact or excavated and interpreted.

(b) The commission shall develop guidelines for the reasonable and feasible collection, storage, and display of archaeological specimens.

CHAPTER 861

An act to amend Sections 56157, 56198, 56261, 56367, 56368, and 56470 of the Government Code, relating to the District Reorganization Act.

The people of the State of California do enact as follows:

SECTION 1. Section 56157 of the Government Code is amended to read:

56157. If the petition, including any supplemental petition, shall be certified to be sufficient, and contains all the information and data required pursuant to Section 56140 and is in the form prescribed by the commission, the executive officer shall accept the proposal for filing. When the executive officer accepts a proposal for filing he shall issue a "certificate of filing" to the chief petitioners, if any. A certificate of filing shall be in the form prescribed by the executive officer and shall give notice of the sufficiency of the petition and the date the proposal shall be heard by the commission. In such cases the commission may also approve and authorize the board of directors of the conducting district or the

board of supervisors to conduct proceedings for the change of organization or reorganization (i) without notice and hearing by the board of directors, (ii) without an election, or (iii) both.

The executive officer shall give any district or city whose boundaries would be changed by the proposed change of organization or reorganization mailed notice of the filing of any such petition or resolution of application by an affected district, county, or city. The commission shall not, without the written consent of the district or city whose boundaries would be changed by the proposed change of organization or reorganization take any further action on said petition or resolution of application for 10 days following such mailing. Upon written demand by a district or city, filed with the executive officer during said 10-day period, the commission shall make determinations upon said petition or resolution of application only after notice and hearing thereon. If no such demand is filed, the commission may make such determinations without notice and hearing. By written consent, which may be filed with the executive officer at any time, a district or city may (i) waive the requirement of such mailed notice, (ii) consent to the commission making such determinations without notice and hearing, or (iii) both.

(d) If, as a result of any term or condition made pursuant to subdivision (c), the liability of any affected city, county or district for payment of the principal of any bonded indebtedness shall be increased or decreased, said term and condition may specify the amount, if any, of such increase or decrease which shall be included in or excluded from the outstanding bonded indebtedness of any such agency for the purpose of the application of any statute or charter provision imposing a limitation upon the principal amount of outstanding bonded indebtedness of such agency.

CHAPTER 862

An act to amend Section 66499.20½ of the Government Code, relating to subdivisions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 18, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 66499.20½ of the Government Code, as amended by Chapter 201 of the Statutes of 1975, is amended to read:

66499.20½. A city or county may, by ordinance, authorize a parcel map to be filed under the provisions of this chapter for the purpose of reverting to acreage land previously subdivided and consisting of

four or less contiguous parcels under the same ownership. Any map so submitted shall be accompanied by evidence of title and nonuse or lack of necessity of any streets or easements which are to be vacated or abandoned. Any streets or easements to be left in effect after the reversion shall be adequately delineated on the map. After approval of the reversion by the governing body or advisory agency the map shall be delivered to the county recorder. The filing of the map shall constitute legal reversion to acreage of the land affected thereby, and shall also constitute abandonment of all streets and easements not shown on the map. The filing of the map shall also constitute a merger of the separate parcels into one parcel for purposes of this chapter and shall thereafter be shown as such on the assessment roll subject to the provisions of Section 66445. Except as provided in subdivision (f) of Section 66445, on any parcel map used for reverting acreage, a certificate shall appear signed and acknowledged by all parties having any record title interest in the land being reverted, consenting to the preparation and filing of the parcel map.

SEC. 2. The provisions of this act shall become operative on January 1, 1976.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such urgency are:

The inclusion of a city within the language of Section 66499.20½ of the Government Code, pursuant to Chapter 24 of the Statutes of 1975 was a change in the law necessary to conform such section to the other provisions of the Subdivision Map Act, Chapter 1536 of the Statutes of 1974. Chapter 24 of the Statutes of 1975 is presently operative as an urgency statute, but its amendment to Section 66499.20½ would be inadvertently deleted when Chapter 201 of the Statutes of 1975 becomes operative, on January 1, 1976. In order to restore this change in the law, it is necessary that this act take immediate effect.

CHAPTER 863

An act making an appropriation for support of a University of California biomedical education program, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 18, 1975]

The people of the State of California do enact as follows:

SECTION 1. (a) The sum of one hundred eight thousand dollars ($108,000) is hereby appropriated from the General Fund to the Regents of the University of California for support of a University of California biomedical education program at its Riverside campus.

(b) The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the Health Sciences Facilities Construction Program Fund to the Regents of the University of California in augmentation of the amount contained in Schedule (1) of Item 396.2 of the Budget Act of 1975.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act makes funds available for support of a University of California biomedical education program which is urgently needed for necessary health education and the improvement of health delivery systems in this state. First-year students enrolled in the program must know by the first of October if they are going to be able to finish the program. It is necessary therefore that this act go into immediate effect.

It is the intent of the legislature that the biomedical program supported by this act and subsequent appropriations shall prepare students to practice family medicine primary care.

CHAPTER 864

An act to add Section 71612.5 to the Water Code, relating to municipal water districts.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 71612.5 is added to the Water Code, to read:

71612.5. Notwithstanding the provisions of Section 71612, whenever the Marin Municipal Water District shall have declared a water shortage emergency condition pursuant to Section 350 or made a finding of a threatened or existing water shortage pursuant to Section 71642, it may nevertheless sell or otherwise dispose of water for purposes of human consumption, sanitation, or fire protection and, upon such reasonable conditions as it may in its discretion impose, to any persons, public corporations or agencies, or other consumers who were, at the time of such declaration or finding, then receiving water from the district for purposes of human consumption, sanitation, or fire protection but not to exceed 1 percent of the total water supply available to the district. However, no water shall be delivered pursuant to this section to existing users

outside the district tc the prejudice of existing users within the district.

SEC. 2. The Legislature hereby finds and declares that the provisions of Section 1 of this act are necessary because of special circumstances within the Marin Municipal Water District. The water supplies to this district are highly variable and the authority of this act to provide domestic and fire protection water to existing users outside the district during an existing or threatened water shortage is necessary to protect the public health and prevent fire propagation to property within the district. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of Section 71612.5 of the Water Code as a special law as provided by Section 1 of this act is necessary for the solution of problems existing within the Marin Municipal Water District.

CHAPTER 865

An act to add Section 2658 to the Unemployment Insurance Code, relating to unemployment disability compensation for trade disputants.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2658 is added to the Unemployment Insurance Code, to read:

2658. Notwithstanding any inconsistent provisions in this part, except as provided in Section 2611, in determining the disability base period of any person who was involved in a trade dispute during his normal disability base period, as determined pursuant to Section 2610, there shall be excluded from such disability base period those quarters during which such person performed no services in employment for 60 days or more as a result of a trade dispute. For all quarters so excluded there shall be substituted an equal number of quarters immediately preceding the commencement of the trade dispute In the event the disability base period so determined includes wages in calendar quarters for which the records have been destroyed under proper approval, a claimant may establish the amount of wages by affidavit in accordance with authorized regulations. The quarter of commencement of the trade dispute shall be counted as a completed quarter if the director finds that the inclusion thereof would be more equitable to the claimant.

SEC. 2. This act shall be operative with respect to periods of disability commencing on and after January 1, 1976.

CHAPTER 866

An act to add Sections 9205, 9263, and 9264 to the Food and Agricultural Code, relating to biologics.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 9205 is added to the Food and Agricultural Code, to read:

9205. "Serial" means the total quantity of a biological product in final composition which has been mixed in a single container and identified by number.

SEC. 2. Section 9263 is added to the Food and Agricultural Code, to read:

9263. If the director finds that biologics do not conform to the requirements of Section 9242 or 9243 or the use or continued use of such products constitutes an immediate danger to persons or animals, he may, after notice, suspend the registration of such biologics or license of an establishment producing such biologics pending a hearing and final decision.

SEC. 3. Section 9264 is added to the Food and Agricultural Code, to read:

9264. If the director finds a serial or serials of a registered biologic which do not meet the requirements of Section 9242 or 9243, he may order such serial or serials to be held on the premises where found or elsewhere until he has determined that the products may be safely released for the purposes intended.

The director may order the destruction of any products under such a hold order if the products cannot be made to meet the requirements of Section 9242 or 9243.

CHAPTER 867

An act to add Section 626.11 to the Penal Code, relating to searches.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 626.11 is added to the Penal Code, to read:

626.11. (a) Any evidence seized by a teacher, official, employee, or governing board member of any state university, state college, or community college, or by any person acting under his direction or with his consent in violation of standards relating to rights under the Fourth Amendment to the United States Constitution or under

Section 13 of Article 1 of the State Constitution to be free from unreasonable searches and seizures, or in violation of state or federal constitutional rights to privacy, or any of them, are inadmissible in administrative disciplinary proceedings.

(b) Any provision in an agreement between a student and an educational institution specified in subdivision (a) relating to the leasing, renting, or use of a room of any student dormitory owned or operated by the institution by which the student waives a constitutional right under the Fourth Amendment to the United States Constitution or under Section 13 of Article 1 of the State Constitution, or under state or federal constitutional provision guaranteeing a right to privacy, or any of them, is contrary to public policy and void.

(c) Any evidence seized by a person specified in subdivision (a) after a nonconsensual entry not in violation of subdivision (a) into a dormitory room which evidence is not directly related to the purpose for which such entry was initially made is not admissible in administrative disciplinary proceedings.

SEC. 2. The Legislature finds and declares that students in school as well as out of school are "persons" under the Constitution and that they are possessed of fundamental rights which the state must respect, just as they themselves must respect their obligations to the state. The Legislature further finds and declares that the right to privacy and other related rights are fundamental.

SEC. 3. It is the intent of the Legislature in enacting this act to exercise the police power for the purposes of protecting the rights of privacy and related other rights and other constitutional rights of persons renting or leasing rooms in student dormitories owned or operated by any state university, state college, or community college.

CHAPTER 868

An act to add Section 701.5 of the Fish and Game Code, relating to the Director of the Department of Fish and Game, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Section 701.5 is added to the Fish and Game Code, to read:

701.5. The director or one or more of his designees may accept the office of director or alternate director of an entity established by a joint powers agreement providing for the establishment and conduct of an areawide waste management planning process in accordance with the provisions of Section 208 of the Federal Water

Pollution Control Act. Such office of director or alternate director of a joint powers entity is deemed compatible with the office of director and the office or employment of such persons as the director may so designate to serve such an entity established by a joint powers agreement.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State of California, through the delegation and designation by the Governor to the State Water Resources Control Board, has conducted hearings for the designation of areas and entities to establish areawide waste management planning processes to the extent and as contemplated by Section 208 of the Federal Water Pollution Control Act (Public Law 92-500).

The State Water Resources Control Board has designated the Upper Newport Bay-San Diego Creek Watershed Area as an area for which an areawide waste management planning process shall be established as required by Section 208 of the Federal Water Pollution Control Act.

Local public agencies in such area have entered into a joint powers agreement establishing an entity known as the "Newport-Irvine Waste Management Agency (NIWA)" to accept such designation and to perform the duties and responsibilities specified and set forth in Section 208 of the Federal Water Pollution Control Act. The joint powers agreement includes on the governing body of such entity the Director of the Department of Fish and Game or his designee. The Attorney General has recommended clarifying legislation be enacted to insure that such participation by the Director of the Department of Fish and Game or his designee is authorized by statute and that such does not constitute the acceptance of an incompatible public office. This legislation must become effective upon enactment in order that the State of California, acting by and through the Director of the Department of Fish and Game or his designee and the Newport-Irvine Waste Management Planning Agency may comply with the statutory deadlines set forth in Section 208 of the Federal Water Pollution Control Act and the applicable regulations promulgated pursuant thereto by the United States Environmental Protection Agency.

CHAPTER 869

An act to add Section 326.5 to the Penal Code, relating to bingo.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 135.4 is added to the Unemployment Insurance Code, to read:

SEC. 2. Section 633 of the Unemployment Insurance Code is amended to read:

633. Except as provided in Sections 603.5, 605, 605.1, 605.5, 709, 710, 710.2, 710.3, and 710.5, and in Chapters 5.4 (commencing with Section 1441), 5.5 (commencing with Section 1451), and 5.6 (commencing with Section 1461) of this part, "employment" does not include service performed in the employ of a state, a political subdivision thereof, or an instrumentality of one or more states or political subdivisions.

SEC. 3. Chapter 5.4 (commencing with Section 1441) is added to Part 1 of Division 1 of the Unemployment Insurance Code, to read:

CHAPTER 5.4. UNEMPLOYMENT COMPENSATION FOR EMPLOYEES OF THE LEGISLATURE

1441. Except as provided in this chapter, a legislative employee shall be eligible for unemployment compensation benefits on the same terms and conditions as are specified by this part, Part 3 (commencing with Section 3501) of this division, and Part 4

(commencing with Section 4001) of this division, for all other individuals. Except as inconsistent with the provisions of this chapter, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this chapter. A legislative employee shall have no rights, based on state wages, to disability benefits under this division.

1442. A legislative employee may use state wages for benefits under this chapter only with respect to the benefit year established by the first new claim for benefits after his termination from employment with the state. No new claim for benefits under this chapter shall have an effective date beginning earlier than the effective date of this chapter.

1443. As used in this chapter:

(a) "Legislative employee" means an individual who has been employed by the Legislature on a full-time basis for a period of six consecutive months immediately prior to his receipt of a written notice of layoff for lack of work with an effective date on or after March 1, 1975.

(b) "State wages" means all remuneration payable to a legislative employee for personal services performed as a legislative employee prior to the effective date of such notice of layoff.

1444. State wages shall be included as wages for the purposes of this part in the base period of a legislative employee.

1445. If the inclusion of state wages and wages in employment paid during the base period of a legislative employee do not result in a claim for a maximum benefit amount and a maximum weekly benefit amount under this part, the claim shall be recomputed on the basis of state wages paid to or owing but unpaid to the legislative employee during his state base period and wages in employment paid to him during that portion of his base period that is included in his state base period. He shall be entitled to an award for his claim for the higher of the benefit amounts so computed.

1446. (a) In lieu of the contributions required of employers, the State of California shall pay into the Unemployment Fund in the State Treasury at the times and in the manner provided in subdivision (b), an amount equal to the additional cost to the Unemployment Fund of the benefits (including extended duration benefits and federal-state extended benefits) paid based on base period state wages or state base period state wages with respect to employment of legislative employees. Benefits otherwise payable, irrespective of this chapter, shall be charged to employers' reserve accounts in accordance with other sections of this part and shall be the liability of governmental entities or nonprofit organizations

pursuant to Section 803, but the additional cost to the Unemployment Fund of the benefits paid based on base period state wages or state base period state wages pursuant to this chapter shall be borne solely by the State of California.

(b) In making the payments prescribed by subdivision (a), there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from the State of California under this section for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall certify to the Controller the amount determined with respect to the State of California. The Controller shall pay to the Unemployment Fund the contributions due from the State of California.

(c) The director may require from the Legislature employment, wage, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this chapter, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this chapter in statistical form.

(e) The Legislature shall keep such work records as may be prescribed by the director for the proper administration of this chapter.

(f) Notwithstanding any other provision of law, the State of California shall not be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

CHAPTER 871

An act to add Article 2.5 (commencing with Section 12975) to Chapter 1 of Division 10 of the Education Code, relating to bilingual employees in school districts.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 12975) is added to Chapter 1 of Division 10 of the Education Code, to read:

Article 2.5. Bilingual Office Employees

12975. The Legislature hereby finds that when a public school that provides instruction in kindergarten or any of grades 1 through 12 has a substantial number of pupils who, together with their parents or guardians, speak a single primary language other than English, and does not have in its employ one or more bilingual employees fluent in both English and the primary language of such pupils and their parents or guardians, a serious educational disadvantage results for the pupils. Effective communication between the school authorities and both the affected pupils and their parents and guardians is absolutely essential to an effective educational program. It is, therefore, the intent of the Legislature in enacting this article to remove some of the barriers that face pupils who, together with their parents or guardians, speak a single primary language other than English, and to provide them, through more effective communication, with the most beneficial education possible from the public elementary schools, junior high schools, and high schools of this state.

12976. When at least 15 percent of the pupils enrolled in a public school that provides instruction in kindergarten or any of grades 1 through 12 speak a single primary language other than English, the governing board of the school district in which such school is located shall hire a bilingual person for the administrative office of each such school, as soon as a position is available as provided by Section 12978, to serve as a bilingual community liaison person or a paraprofessional, clerical, or other qualified employee of each such school, in accordance with the provisions of Chapter 3 (commencing with Section 13580) of Division 10, who is fluent in both English and in the primary language spoken by such pupils and their parents or guardians.

12977. The bilingual person employed pursuant to this article shall have as a principal function the communication with parents or guardians of such students in the primary language of the parents or guardians.

The governing board of the school district may make additional, reasonable assignments of duties for such bilingual employees.

12978. This article shall not be construed as requiring school districts to replace existing classified personnel or to employ additional classified personnel. However, in any case in which additional classified positions are added to the administrative staff of a school which does not already employ a person as described in Section 12976, or if a vacancy is to be filled in a classified position in the administrative staff of such a school, the provisions of Section 12976 shall be adhered to in filling such position.

SEC. 2. Notwithstanding Section 2231 of the Revenue and

Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 872

Article 2.6. Continuing Education

1645. Effective with the 1974 license renewal period, if the board determines that the public health and safety would be served by requiring all holders of licenses under this chapter to continue their education after receiving such license, it may require, as a condition to the renewal thereof, that they submit assurances satisfactory to the board that they will, during the succeeding two-year period, inform themselves of the developments in the practice of dentistry occurring since the original issuance of their licenses by pursuing one or more courses of study satisfactory to the board or by other means deemed equivalent by the board.

1740. It is the intention of the Legislature by enactment of this article to permit the full utilization of dental auxiliaries in order to meet the dental care needs of all the state's citizens. The Legislature further intends that the classifications of dental auxiliaries established pursuant to this article constitute a career ladder, permitting the continual advancement of persons to successively higher levels of licensure with additional training, and without repeating training for skills already acquired. The Legislature further intends that the Board of Dental Examiners of the State of California and its Committee on Dental Auxiliaries, in implementing this article, give specific consideration to the recommendations of the Advisory Committee on Utilization and Education of Dental Auxiliaries, established pursuant to Chapter 645 of the Statutes of 1972, and contained in its report to the Legislature dated March 20, 1973.

CHAPTER 887

An act to add Section 31000.8 to the Government Code, relating to the power of counties and other public agencies to contract, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 18, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 31000.8 is added to the Government Code, to read as follows:

31000.8. Notwithstanding any other law to the contrary, the board of supervisors of a county which is wholly or partially self-insured under the workers compensation laws, or which is wholly or partially self-insured against public liability, may contract with a qualified firm for the purpose of having such firm render investigative, administrative, and claims adjustment services relating to workers' compensation and public liability claims against the county. The contract may provide that the contracting firm may reject, settle, compromise and approve workers compensation and public liability claims against the county, its officers or employees, within such limits and for such amounts as the board of supervisors may specify, and may provide that the contracting firm may execute and issue checks in payment of such claims, which checks shall be payable only from a trust fund which may be established by the board of supervisors. Funds in the trust fund established by the board pursuant to the provisions of this section shall not exceed the sum of five thousand dollars ($5,000) at any one time. The rejection or settlement and approval of a claim by the contracting firm in accordance with the terms of the contract shall have the same effect as would the rejection or settlement and approval of such a claim by the board of supervisors and the county auditor. The contract may also provide that the contracting firm may employ legal counsel, subject to such terms and limitations as the board may prescribe, to advise such contracting firm concerning the legality and advisability of rejecting, settling, compromising and paying claims referred to said contracting firm by the county for investigation and adjustment, or to represent the county in litigation concerning such claims. The compensation and expenses of such attorney for services rendered to the county shall be county charges.

The contract provided for in this section may contain such other terms and conditions as the board of supervisors may consider necessary or desirable to effectuate the county's self-insured programs.

In lieu of, or in addition to, contracting for the services described in this section, the board of supervisors may authorize the county's auditor or auditor-controller to perform any or all of the services and

functions which the board may contract for under the provisions of this section.

As used in this section:

(a) "Firm" includes a person, corporation, or other legal entity.

(b) "Board of supervisors" includes governing boards of districts and other public agencies for which the board of supervisors acts as the governing board.

(c) "County" includes such districts and other public agencies for which the board of supervisors acts as the governing board.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Certain counties have had their public liability insurance coverage canceled and have either been unable to obtain any liability insurance coverage or have had to obtain insurance coverage with prescribed deductible limits. Because of lack of manpower and facilities required to convert from a fully insured to a self-insured status, several of the counties affected will have to enter into contracts with private firms to provide investigative and claims adjustment services in connection with claims against such counties. However, present laws severely limit the ability of counties to provide or arrange for the prompt and efficient settlement and payment of claims against such counties. This act is necessary to enable counties to provide for the prompt settlement and payment of claims against them and to facilitate the prompt and orderly transition of the counties affected from a fully insured to a self-insured status

(b) The evidence before the state board shall consist of (i) the record before the regional board, and (ii) any other relevant evidence which, in the judgment of the state board, should be considered to effectuate and implement the policies of this division.

(c) The state board may find the regional board action or inaction to be appropriate and proper. In taking any such action, the state board is vested with all the powers of the regional boards under this division.

The people of the State of California do enact as follows:

SECTION 1. Section 1632 of the Civil Code is amended to read:

1632. (a) Any person engaged in a trade or business who negotiates primarily in the Spanish language orally or in writing in the course of entering into:

(1) A contract or agreement subject to the provisions of Title 2 (commencing with Section 1801) of, and Chapter 2b (commencing with Section 2981) and Chapter 2d (commencing with Section 2985.7) of Title 14 of, Part 4 of Division 3;

(4) Notwithstanding paragraph (2), a loan or extension of credit for use primarily for personal, family or household purposes where such loan or extension of credit is subject to the provisions of Article 7 (commencing with Section 10240), Chapter 3, Part 1, Division 4 of the Business and Professions Code, or Division 7 (commencing with Section 18000) or Division 9 (commencing with Section 22000) of the Financial Code; or

(5) A contract or agreement, containing a statement of fees or charges, entered into for the purpose of obtaining legal services, when the person who is engaged in business is currently licensed to practice law pursuant to Chapter 4 (commencing with Section 6000) of Division 3 of the Business and Professions Code;

shall, upon the request of any party to such contract or agreement and prior to the execution thereof, make available an unexecuted Spanish-language translation of the contract or agreement, except that for a loan subject to this part and to the provisions of Article 7 (commencing with Section 12040), Chapter 3, Part 1 of Division 4 of the Business and Professions Code, the making available upon request of a party to such loan or extension of credit, a Spanish-language translation of the statement to borrower required by Section 10240 of the Business and Professions Code, shall be deemed compliance with this subdivision. A form for such translation may be approved by the Department of Consumer Affairs. At the time and place where a contract or agreement described in this paragraph is entered into, a Spanish-language notice shall be provided to the lessee or tenant.

(b) At the time and place where a contract or agreement described in paragraph (1) or (2) of subdivision (a) is entered into, a Spanish-language notice shall be provided and conspicuously displayed to the effect that the person described in subdivision (a) is required to make available upon request an unexecuted Spanish-language contract or agreement. The form for the Spanish-language notice and the Spanish-language contract or agreement may be approved by the Department of Consumer Affairs. If a person described in subdivision (a) does business at more than one location or branch, the requirements of this section shall apply only with respect to the location or branch at which the Spanish language is used.

(c) The term "contract" or "agreement," as used in this section, means the document creating the rights and obligations of the parties and includes any subsequent document making substantial changes in the rights and obligations of the parties. The term "contract" or "agreement" does not include any subsequent documents authorized or contemplated by the original document such as periodic statements, sales slips or invoices representing purchases made pursuant to a credit card agreement, a retail installment contract or account or other revolving sales or loan

account, memoranda of purchases in an add-on sale, or refinancing of a purchase as provided by, or pursuant to, the original document.

The term "contract" or "agreement" does not include a home improvement contract as defined in Sections 7151.2 and 7159 of the Business and Professions Code, nor does it include plans, specifications, description of work to be done and materials to be used, or collateral security taken or to be taken for the retail buyer's obligation contained in a contract for the installation of goods by a contractor licensed pursuant to Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, if such home improvement contract or installation contract is otherwise a part of a contract described in subdivision (a).

Matters ordinarily incorporated by reference in contracts or agreements as described in paragraph (3) of subdivision (a), including but not limited to rules and regulations governing a tenancy and inventories of furnishings to be provided by the person described in subsection (a) are not included in the term "contract" or "agreement."

(d) This section shall not apply to any person engaged in a trade or business who negotiates primarily in the Spanish language as described by subdivision (a) if the party with whom he is negotiating is a buyer of goods or services, or receives a loan or extension of credit, or enters an agreement obligating himself as a tenant, lessee, or sublessee, or similarly obligates himself by contract or lease, and such party negotiates the terms of the contract, lease, or other obligation through his own interpreter.

As used in this subdivision, "his own interpreter" means a person able to speak fluently and read with full understanding the English and Spanish languages, and who is not employed by, or whose service is made available through, the person engaged in the trade or business.

The terms of the contract or agreement which is executed in English shall determine the rights and obligations of the parties. However, the Spanish-language translation of the contract shall be admissible in evidence only to show that no contract was entered into because of a substantial difference in the material terms and conditions of the contract and the translation.

(f) Upon a failure to comply with the provisions of this section, the person aggrieved may rescind the contract or agreement in the manner provided by this chapter. When the contract for a consumer credit sale or consumer lease which has been sold and assigned to a financial institution is rescinded pursuant to this subdivision, the consumer shall make restitution to and have restitution made by the person with whom he made the contract, and shall give notice of rescission to the assignee. Notwithstanding that the contract was assigned without recourse, the assignment shall be deemed rescinded and the assignor shall promptly repurchase the contract from the assignee.

(g) This section shall apply to contracts or agreements entered

into on or after July 1, 1976.

(h) The Department of Consumer Affairs shall approve acceptable language for printed forms of Spanish-language translations of contracts, agreements, and notices by January 1, 1976.

(i) Any error or omission in the translation of a contract or agreement from English to Spanish by the Department of Consumer Affairs is deemed to be a "misrepresentation" as that term is used in Section 822.2 of the Government Code.

Notwithstanding any other provision of law, the liability of the Department of Consumer Affairs and its employees in translation of contracts from English to Spanish is limited to misrepresentations in such translations and the liability of the Department of Consumer Affairs and employees is controlled by Sections 815.2 and 822.2 of the Government Code.

(j) No advertisement, announcement, publication or other representation either oral or written that a contract or agreement translation from English to Spanish has been prepared or approved by the Department of Consumer Affairs may be made by any person, business or employee utilizing such translated contracts or agreements except as provided herein.

A notice printed on the bottom of the first page of such a contract or agreement in a typeface no larger than that predominantly used in the body of the contract may be used to indicate that the contract translation has been prepared or approved by the Department of Consumer Affairs. The notice shall state in both Spanish and English: "Translation only verified by the California Department of Consumer Affairs". The statement will have the word "only" underlined in both Spanish and English notices. No seal or other recognized symbol of the Department of Consumer Affairs may be used thereon. The notice of verification by the Department of Consumer Affairs shall appear on the Spanish translation only.

(k) Immediately upon the enactment of this provision the Department of Consumer Affairs shall prepare a schedule of fees for translation-form approvals as set forth herein.

(*l*) This section shall not apply to any person engaged in a trade or business who negotiates primarily in the Spanish language as described by subdivision (a) if the party with whom he is negotiating is a buyer of goods or services, or receives a loan or extension of credit, or enters an agreement obligating himself as a tenant, lessee, or sublessee, or similarly obligates himself by contract or lease, and that such party negotiates the terms of the contract, lease, or other obligation through his own interpreter.

As used in this subdivision, "his own interpreter" means a person able to speak fluently and read with full understanding the English and Spanish languages, and who is not employed by, or whose service is made available through, the person engaged in the trade or business.

53581. Notwithstanding the provisions of any other law, the provisions of this article shall apply to all refunding bonds of any local agency, regardless of the authority for their issuance.

53582. The proceedings of any local agency authorizing the issuance of bonds shall not require the deposit of more than such federal securities as may be sufficient, taking into account both the principal amount of such securities and the interest to become due thereon, to implement the refunding of such bonds, and federal securities and the interest thereon shall be used to satisfy any requirement of cash, money, specie, lawful money, or other requirement in any such proceeding heretofore taken.

53583 The proceedings of any local agency authorizing the issuance of any refunding bonds shall require that the bonds to be refunded with the proceeds of such refunding bonds be called at the first date on which such bonds may legally be called.

53584 Any federal securities acquired by a local agency with the proceeds of refunding bonds, which federal securities are to be

deposited for the security of or call and redemption of bonds issued by such local agency, shall be acquired directly from the issuer thereof or from any governmental fiscal agent therefor.

53585. Any refunding bond proceeds may be invested or reinvested only in federal securities as defined in this article to the extent that such federal securities are available for acquisition.

SEC. 2. The Legislature finds and declares as follows:

(1) Existing federal law and regulations concerning "arbitrage" profits have created a situation in which securities purchased to secure the refunding of outstanding bonds must be purchased at such price that a substantial "windfall profit" must accrue to the issuer of such securities, or if such securities are brought on the open market, to the seller thereof.

(2) Such federal laws and windfall profits have been significant factors in inducing issuers to refund bonds in situations in which there may exist only a marginal saving to the issuer, and in some cases to issue refunding bonds in a principal amount far exceeding the amount which would under normal circumstances be economically sound.

(3) The issuance of refunding bonds in such situation absorbs an unnecessarily high proportion of funds available for long-term investment in the tax-exempt bond market.

(4) It is in the interest of those local agencies needing to accomplish refundings that the market for their refunding bonds not be overshadowed by bonds issued for such marginal savings, or issues in principal amounts larger than dictated by economic necessity.

The Legislature therefore declares that it is its intent in enacting this act to require that local agencies issue refunding bonds only in principal amounts, in a manner and secured by such investments as are fully consonant with the federal laws and regulations applicable to such refunding bonds and with the continued health of the long-term tax-exempt bond market.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health and safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are as follows:

Over the past few years, local agencies have taken advantage of "loopholes" available in the federal law and regulations concerning "arbitrage" bonds. Following the first successful marketing of bonds which took advantage of any one of those loopholes, it has appeared that a number of other local agencies have followed suit. One such "loophole" recently taken advantage of has required issuers to issue refunding bonds in double the amount of the bonds to be refunded, or in an even higher ratio, resulting in substantial windfall profits to brokers, even though only marginal economies have been effected by local agencies. Often, in the case particularly of redevelopment agencies, an additional result has been a reduction for many years, perhaps as long as two decades, in the amount of tax income distributed to other public agencies overlapping such

redevelopment agencies. There is every reason to believe that such "loophole" issues will proliferate if not barred by statutory restrictions. This act would provide such statutory restrictions. In order for such statutory restrictions to alleviate this problem at the earliest possible time, it is necessary that this act take immediate effect.

The State Lands Commission may, within 90 days after the time of such filing, determine and notify the county that such capital improvement is not in the statewide interest and benefit and is not authorized by the provisions of Section 3 of this act. The State Lands Commission may request the opinion of the Attorney General on the matter, and if it does so, a copy of such opinion shall be delivered to the county with the notice of its determination. In the event the State Lands Commission notifies the county that such capital improvement is not authorized, the county shall not disburse any revenue for, or in connection with, such capital improvement, unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction. The county is authorized to bring suit against the state for the purpose of securing such an order or adjudication, which suit shall have priority over all other civil matters. Capital improvements of the granted lands for purposes authorized by this act may be considered as expenditures for the purpose of determining net revenues; provided, however, that, if made after the effective date of this section, they may be so considered only if made in accordance with Section 5 of this act.

The excess revenue, as determined pursuant to this section, shall be divided as follows: 85 percent to the General Fund in the State Treasury and 15 percent to the county, to be deposited in a trust fund created pursuant to Section 2 of this act for use for any purpose

SEC. 8. Section 8 is added to Chapter 497 of the Statutes of 1959, to read:

Sec. 8. In the event that the county fails or refuses to file with the State Lands Commission any report, statement, or document required by any provision of this act within the time period specified by this act, or any extension period granted pursuant to this act, or fails or refuses to carry out the terms of this act, the Attorney General shall, upon the request of the State Lands Commission, bring such judicial proceedings for correction and enforcement as are appropriate, and shall act to protect any improvements to, or assets situated upon, the granted lands or derived therefrom. The State Lands Commission shall notify the Chief Clerk of the Assembly and the Secretary of the Senate within 30 days of the occurrence of such failure or refusal and of actions taken as a result thereof.

Sec. 9. The State Lands Commission shall, from time to time, recommend to the Legislature such amendments as it may deem necessary in the terms and conditions of this act.

SEC. 10. Section 10 is added to Chapter 497 of the Statutes of 1959, to read:

Sec. 10. The State Lands Commission shall, from time to time, institute a formal inquiry to determine that the terms and conditions of this act, and amendments thereto, have been complied with, and that all other applicable provisions of law concerning these specific granted lands are being complied with in good faith.

SEC. 11. Section 11 is added to Chapter 497 of the Statutes of 1959, to read:

Sec. 11. The State Lands Commission shall, on or before December 31st of each year, report to the Chief Clerk of the Assembly and to the Secretary of the Senate, the full details of any transaction or conditions reported to the commission pursuant to this act which it deems in probable conflict with the requirements of this act, or with any other provision of law.

SEC. 12. Section 12 is added to Chapter 497 of the Statutes of 1959, to read:

Sec. 12. The Legislature reserves the right to amend or modify, in whole or in part, the tidelands and submerged lands granted and conveyed in trust pursuant to this act; provided, that the state shall thereupon assume and be bound by all lawful transactions and obligations related to such lands entered into or created by the county during its holding of such lands.

SEC. 13. Section 13 is added to Chapter 497 of the Statutes of 1959, to read:

Sec. 13. The Attorney General, on request by resolution of either house of the Legislature, or upon formal request of the State Lands Commission made only after a noticed public hearing at which the grantee has been given an opportunity to fully express any disagreement with the commission's findings or to describe any extenuating circumstances causing the violation, shall bring an action in the superior court in the County of Marin to compel compliance with the terms and conditions of the grant and any other provision of law including, but not limited to, this act.

SEC. 14. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of the city for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 899

An act to amend Section 31621.2 of, and to add Sections 31621.6 and 31727.3 to, the Government Code, relating to County Employees' Retirement Law of 1937.

[Approved by Governor September 19, 1975 Filed with Secretary of State September 19, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 31621.2 of the Government Code is amended to read:

31621.2. In counties adopting Section 31676.12, the normal rates of contribution, except for members covered by Article 6.8 (commencing with Section 31639) of this chapter, shall be such as will provide an average annuity at age 60 equal to one one-hundredth of the final compensation of members not covered by Article 6.8 according to tables adopted by the board of supervisors, for each year of service rendered after entering the system.

SEC. 2. Section 31621.6 is added to the Government Code, to read:

31621.6. In counties adopting Section 31676.15, the normal rates of contribution, except for members covered by Article 6.8 (commencing with Section 31639) of this chapter, shall be such as to provide an average annuity at age 55 equal to one one-hundredth of the final compensation of members not covered by Article 6.8, according to the tables adopted by the board of supervisors, for each year of service rendered after entering the system.

SEC. 3. Section 31727.3 is added to the Government Code, to read:

31727.3. In counties adopting Section 31676.15, the non-service-connected disability retirement pension shall be such an amount as with that portion of a member's annuity provided by his accumulated normal contributions will make his disability retirement allowance, exclusive of the annuity provided by his accumulated additional contributions, equal:

(a) Ninety percent of one-fiftieth of his final compensation multiplied by the number of years of service credited to him, if (1) the member must rely upon service in another retirement system in order to be eligible to retire, or (2) such disability retirement allowance exceeds one-third of his final compensation.

(b) If the member is eligible to retire without relying upon service in another retirement system and the disability retirement allowance computed under subdivision (a) does not exceed one-third of his final compensation, 90 percent of one-fiftieth of his final compensation multiplied by the number of years of service which would be creditable to him were his service to continue until attainment by him of age 65, but in such case the retirement allowance shall not exceed one-third of his final compensation.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because there are minor savings as well as minor costs in this act which, in the aggregate, do not result in significant identifiable cost changes.

The people of the State of California do enact as follows:

successfully detect such diseases, particularly in pregnant women who have indications that they are at increased risk.

The Legislature, therefore, finds that in order to make amniocentesis available to women with high-risk pregnancies so that affected fetuses can be discovered, it is necessary to establish the availability of amniocentesis in at least two medical centers in California.

The purpose of this program shall be to phase in a statewide system of prenatal screening using amniocentesis.

(c) Develop an education program designed to educate physicians and the public concerning the uses of amniocentesis and the availability of the program.

(d) Ensure that genetic counseling be given in conjunction with amniocentesis at the participating medical centers.

(e) Seek the maximum federal funds available, including, but not limited to, those available under Section 503 of Title V (Maternal and Child Health Act) of the Social Security Act.

292. The participation by any individual in this program shall be wholly voluntary and shall not be a prerequisite to eligibility for or receipt of any other service or assistance from, or to participation in, any other program.

293. The department shall, upon completion of the pilot program, report to the Legislature regarding the results of the program. The report shall include, but not be limited to, the number of patients tested, designated by the categories specified in subdivision (a) of Section 291, and the number of patients diagnosed as carrying defective fetuses.

SEC. 3. The sum of one hundred twenty thousand dollars ($120,000) is hereby appropriated from the General Fund to the State Department of Health to carry out the purposes of Article 2.8 (commencing with Section 290) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to maintain the fiscal stability of the San Joaquin Foundation for Medical Care, and to provide payment for services rendered on behalf of Medi-Cal beneficiaries, it is necessary that this act take immediate effect.

18951. It is the purpose of this part to provide alternative building regulations for the rehabilitation, preservation, restoration or relocation of buildings or structures designated as historic buildings. Such alternative building regulations are intended to facilitate the restoration or change of occupancy so as to preserve their original or restored architectural elements and features, to encourage energy conservation and a cost-effective approach to preservation, and to provide for the safety of the building occupants.

18952. This part shall apply to all qualified historical structures as defined in Section 18955.

18953. It is the intent of this part to provide means for the preservation of the historical value of designated buildings and, concurrently, to provide reasonable safety from fire, seismic forces or other hazards for occupants of such buildings.

SECTION 1. Section 987.56 of the Military and Veterans Code is amended to read:

987.56. The department shall prescribe and determine the qualifications of all veterans. Any person deeming himself a veteran and desiring to benefit hereunder, shall submit to the department information, in such form as the department prescribes, which will enable the department to determine his eligibility and qualifications. The department may make further inquiries and investigations in order to determine such eligibility and qualifications. Veterans who are otherwise qualified and who were wounded or disabled as a result of their service shall be given first preference in the benefits conferred by this article. The department shall determine, in each case, whether or not the veteran was wounded or disabled as a result of service.

The following group shall be given second preference in the benefits conferred by this article:

(a) The unremarried spouse of individuals who were members of the armed forces on active military duty, entered active duty while

in the State of California, lived in this state for six months immediately preceding his or her entry into active duty, and were killed in the line of duty while on active duty.

(b) Members of the armed forces who entered active military duty while in the State of California, lived in this state for six months preceding his or her entry into active duty, and were held as prisoners of war.

(c) The unremarried spouse of members of the armed forces who entered active military duty while in the State of California, lived in this state for six months preceding his or her entry into active duty, and have been designated by the armed forces as missing in action.

Veterans discharged or released from active duty within 10 years of their application to the department, shall be given third preference in the benefits conferred by this article. The department shall establish a maximum income limit for third-preference veterans, whenever it appears there may be a shortage of loanable funds for third-preference veterans prior to anticipated additional authorizations becoming available. Such maximum income limit shall be established at the highest amount consistent with making funds available to as many third-preference veterans as possible while preventing a shortage of loanable funds prior to availability of anticipated additional authorizations. The department may increase or decrease such limit as necessary to assure that funds for loans to third-preference veterans are not prematurely expended or unnecessarily withheld.

Nothing in this section regarding preferences shall affect any eligibility requirement for benefits conferred by this article.

SEC. 2. Section 987.65 of the Military and Veterans Code is amended to read:

987.65. The purchase price of a home to the department shall not exceed the sum of thirty-five thousand dollars ($35,000), and shall not exceed thirty thousand dollars ($30,000) unless (a) the purchaser does not have assets to purchase the home without borrowing more than thirty thousand dollars ($30,000), and (b) the department has not consented to subordination to a private mortgage loan to allow the purchase to be made at thirty thousand dollars ($30,000) exclusive of any encumbrance, except that the purchase price of a mobilehome to the department shall not exceed twelve thousand five hundred dollars ($12,500), and a veteran purchasing the home may advance, subject to the provisions of Section 987.64, the difference between the total price or cost of the home and the sum of the purchase price of the home to the department and any amount the department is required under Section 987.69 of this code to add to the purchase price of the home in fixing the selling price thereof to the veteran. The purchase price of a farm to the department shall not exceed eighty thousand dollars ($80,000), and a veteran purchasing the farm may advance the difference between the total price of the farm or cost of the dwelling and improvements to be constructed on a farm under a contract and the sum of such purchase

price to the department or contract price to the department and any amount which the department is required under Section 987.69 of this code to add to such purchase or contract price to the department in fixing the selling price of the farm to the veteran.

SEC. 3. Section 987.93 is added to the Military and Veterans Code, to read:

987.93. (a) The Department of Veterans Affairs shall submit to the Legislature on June 30, 1976, a report concerning the utilization of veterans farm and home loan funds by lower income veterans and the feasibility of utilizing federal home mortgage programs and mortgage subsidy programs to make veterans farm and home loan funds available to lower income veterans.

(b) On January 1 of each year commencing with the year 1977, the Department of Veterans Affairs shall submit to the Legislature a report on the utilization of veterans farm and home loan funds by lower income veterans, including an annual summary of the amounts and loan-to-value ratios of loans offered to lower income veterans, the number of lower income veterans who are rejected because of insufficient income, or who declined loan offers because of inability to afford down payments, and of the utilization of longer term financing to make financing available to lower income veterans.

No services shall be performed under the provisions of this act without the approval of the State Public Works Board.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 911

An act to amend Sections 39577, 39578, and 39579 of the Government Code, Sections 16470 and 16658 of the Public Utilities Code, and Sections 25806 and 25925 of the Water Code, relating to liens.

[Approved by Governor September 19, 1975. Filed with Secretary of State September 20, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 39577 of the Government Code is amended to read:

39577. The cost of abatement in front of or upon each parcel of land constitutes a special assessment against that parcel. After the assessment is made and confirmed, a lien attaches on the parcel upon recordation of the order confirming the assessment in the office of the county recorder of the county in which the property is situated, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes as imposed by Section 39578 would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the costs of abatement, as confirmed, relating to such property shall be transferred to the unsecured roll for collection.

SEC. 2. Section 39578 of the Government Code is amended to read:

39578. Except as provided in Section 39577, after confirmation of the report, a copy shall be given to the city assessor and the tax collector, who shall add the amount of the assessment to the next regular tax bill levied against the parcel for municipal purposes.

SEC. 3. Section 39579 of the Government Code is amended to read:

39579. Except as provided in Section 39577, if the county assessor and the tax collector assess property and collect taxes for the city, a certified copy of the report shall be filed with the county auditor on or before August 10th. The descriptions of the parcels reported shall be those used for the same parcels on the county assessor's map books for the current year.

SEC. 4. Section 16470 of the Public Utilities Code is amended to read:

16470. Charges added to an assessment are a lien on the land, except that if any real property to which such lien would attach has

been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date for which the first installment of such charges would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such property and the district shall within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the district of the person liable for the same, and the fact that the district has complied with all provisions of this part in the determination of the amount required to be paid. From the time of recordation of the certificate, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

SEC. 5. Section 16658 of the Public Utilities Code is amended to read:

16658. District taxes are a lien on the property on which they are levied, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the costs of such charges relating to such property shall be transferred to the unsecured roll for collection. The enforcement of the collection of district taxes may be had in the same manner and by the same means as is provided by law for the enforcement of liens for county taxes.

SEC. 6. Section 25806 of the Water Code is amended to read:

25806. In case any charges for water and other services or either remain unpaid at the time specified for the delivery of the assessment book to the collector, the amount of the unpaid charges may be added to and become a part of the annual assessment levied upon the land upon which the water for which the charges are unpaid was used and upon the land subject to the charges for any other district services and shall constitute a lien on that land. However, if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and

attaches thereon prior to the date on which the first installment of such charges would become delinquent, then the lien which would otherwise be imposed by this section shall not be added to and become part of the annual assessment nor shall it attach to such real property and the district shall within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the district of the person liable for the same, and the fact that the district has complied with all provisions of this part in the determination of the amount required to be paid. From the time of recordation of the certificate, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards, and before the lien expires, acquired by him. The lien has the force, priority, and effect of a judgment lien and shall continue for 10 years from the date of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

Where the county assumes the responsibility of assessment and collection pursuant to Chapter 7 (commencing with Section 26500) of this part, the amount of the unpaid charges may be added to and become part of the annual assessment levied upon the land upon which the water for which the charges are unpaid was used and upon the land subject to the charges for any other district services and shall constitute a lien on that land upon recordation of the order confirming the assessment in the office of the county recorder of the county in which the property is situated, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the costs of such water and services or either, as confirmed, relating to such property shall be transferred to the unsecured roll for collection.

SEC. 7. Section 25925 of the Water Code is amended to read:

25925. Except as provided in Section 25806, the annual district assessment upon land is a lien against the property assessed from and after the first day in March of the year in which the assessment is levied.

SEC. 8. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor any appropriation made by this act because the duties,

obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

SEC. 9. The provisions of this act shall apply to the transfer or conveyance of real property made on or after January 1, 1976.

The governing board of each school district shall adopt rules and regulations requiring and prescribing the manner of proof of illness or injury for the purposes of this section. Such rules and regulations shall not discriminate against evidence of treatment and the need therefor by the practice of the religion of any well-recognized church or denomination.

13468. Every certificated employee employed five days a week by a school district shall be entitled to 10 days' leave of absence for illness or injury and such additional days in addition thereto as the governing board may allow for illness or injury, exclusive of all days he is not required to render service to the district, with full pay for a school year of service. year with such additional days as the governing board may allow.

Any employee shall have the right to utilize sick leave provided for in this section and the benefit provided by Section 13467 for absences necessitated by pregnancy, miscarriage, childbirth, and recovery therefrom.

Upon the advice of the county department that a child is being considered for adoption, the district attorney shall delay the investigation and other actions with respect to the case until advised that the adoption is no longer under consideration. The granting of aid to an applicant shall not be delayed or contingent upon investigation by the district attorney.

Where a court order has been obtained, any contractual agreement for support between the district attorney or the county department and the noncustodial parent shall be deemed null and void to the extent that it is not consistent with the court order.

Whenever a family which has been receiving aid to families with dependent children ceases to receive assistance, the district attorney shall:

(1) Continue to enforce support payments from the noncustodial parent, at the request of the custodial parent, for a period not to exceed three months from the month following the month in which such family ceased to receive assistance and pay all amounts so collected to the family; and

(2) At the end of such three-month period, if after written notice to the individual, the district attorney is requested to do so by the individual on whose behalf the enforcement efforts will be made, continue to enforce such support payments from the noncustodial parent.

The district attorney shall, where appropriate, utilize reciprocal arrangements adopted with other states in securing support from an absent parent for any child. In individual cases where utilization of

reciprocal arrangements has proven ineffective, the district attorney may forward to the Attorney General a request to utilize federal courts in order to obtain or enforce orders for child support. In individual cases where there is a court order for support and where reasonable efforts to collect amounts assigned pursuant to Welfare and Institutions Code Section 11477 have failed, the district attorney may forward a certified copy of such court order to the Attorney General with a request that the case be forwarded to the Treasury Department for collection. The Attorney General shall forward such requests to the Secretary of Health, Education, and Welfare, or his designated representative.

SEC. 13.5. Section 11476.1 is added to the Welfare and Institutions Code, to read:

11476.1. In any case where the district attorney has undertaken enforcement of support, the district attorney may enter into an agreement with the noncustodial parent, on behalf of the custodial parent, a minor child, or children, for the entry of a judgment determining paternity, if applicable, and for periodic child support payments based on the noncustodial parent's reasonable ability to pay. Prior to entering into this agreement, the noncustodial parent shall be informed that a judgment will be entered based on the agreement. The clerk shall file the agreement without the payment of any fees or charges. The court shall enter judgment thereon without action. The provisions of Civil Code Section 4702 shall apply to such judgment. The district attorney shall be directed to effect service upon the obligor of a copy of the judgment and notify the obligor in writing of the right to seek modification of the amount of child support order upon a showing of changes of circumstances and upon such showing the court shall immediately modify the order and set the amount of child support payment pursuant to Section 11350, and to promptly file proof of service thereof.

For the purposes of this section, in making a determination of the noncustodial parent's reasonable ability to pay, the following factors shall be considered:

(a) The standard of living and situation of the parties;

(b) The relative wealth and income of the parties;

(c) The ability of the noncustodial parent to earn;

(d) The ability of the custodial parent to earn;

(e) The needs of the custodial parent and any other persons dependent on such person for their support;

(f) The age of the parties;

(g) Any previous court order imposing an obligation of support.

SEC. 14. Section 11477 of the Welfare and Institutions Code is repealed.

SEC. 15. Section 11477 is added to the Welfare and Institutions Code, to read:

11477. As a condition of eligibility for aid paid under this chapter, each applicant or recipient shall:

(a) Assign to the county any rights to support from any other

person such applicant may have in their own behalf or in behalf of any other family member for whom the applicant is applying for or receiving aid, and which have accrued at the time such assignment is made. Receipt of public assistance under this chapter shall operate as an assignment by operation of law.

(b) Cooperate with the county welfare department and district attorney in establishing the paternity of a child born out of wedlock with respect to whom aid is claimed, and in obtaining any support payments due any person for whom aid is requested or obtained. The Department of Benefit Payments shall establish an exclusive list of acts, in accordance with federal law, which shall be the only acts deemed to be a refusal to offer reasonable cooperation and assistance. The county welfare department shall verify that the applicant or recipient refused to offer reasonable cooperation prior to determining that such applicant or recipient is ineligible. The granting of aid shall not be delayed or denied if the applicant is otherwise eligible, if the applicant completes the necessary forms and agrees to cooperate with the district attorney in securing support and determining paternity, where applicable.

A recipient shall be considered to be cooperating with the county welfare department or the district attorney's office and they shall be eligible for aid, if otherwise eligible, if they cooperate to the best of their ability or have good cause for refusal to cooperate. The department, in accordance with federal law, shall establish standards for determining good cause for refusal to cooperate. All required forms to obtain child support or establish paternity shall be made available during the initial interview at the county welfare department. Persons eligible for immediate aid pursuant to Section 11056 or Section 11266 shall receive such aid prior to completing the forms required to obtain child support and establish paternity, provided that they indicate they will cooperate in these matters. Appearances at public agencies required pursuant to this section, subsequent to certification of the applicant shall be scheduled with due regard for his parental duties and employment responsibilities. If an appearance is required at a time other than normal working hours, a statement as to the reason for such appearance shall be inserted in the file of the applicant.

If the relative with whom a child is living is found to be ineligible because of failure to comply with the provisions of this section, any aid for which such child is eligible will, to the extent required by federal law, be provided in the form of protective payments.

The department shall insure that all applicants for or recipients of aid under this chapter are properly notified of the conditions imposed by this section.

SEC. 15.5. Section 11477.1 is added to the Welfare and Institutions Code, to read:

11477.1. No polygraph tests shall be administered to any applicant or recipient of aid under this chapter for the purposes of enforcement of Title IV-D of the Social Security Act, without written

notice to applicant or recipient that such test is not required and without written consent thereto by such applicant or recipient.

SEC. 16. Section 11478.5 of the Welfare and Institutions Code is amended to read:

11478.5. There is in the Department of Justice a parent locator service showing, as far as is known, with respect to any parent who has deserted or abandoned any child:

(a) The full and true name of such parent together with any known aliases;

(b) Date and place of birth;

(c) Physical description;

(d) Social security number;

(e) Occupation;

(f) Military status and Veterans Administration or military service serial number;

(g) Last known address and date thereof;

(h) Driver's license number;

(i) Any police record; and

(j) Any further information that may be of assistance in locating the noncustodial parent.

To effectuate the purposes of this section, the Attorney General shall, to the extent necessary, utilize the parent locator service in the Department of Health, Education, and Welfare, and, may request and shall receive from departments, boards, bureaus, or other agencies of the state, or any of its political subdivisions, and the same are authorized to provide, such assistance and data as will enable the Justice Department and the local public agencies to carry out their powers and duties to locate such parents and to enforce their liability for the support of their children. In addition the district attorneys shall submit to the Attorney General a uniform statistical report each month summarizing case and collection activity in their counties in connection with child support enforcement. The Attorney General shall adopt a uniform report form to be used by the district attorneys in submitting this monthly report. The purpose of this uniform monthly report is to facilitate the analysis of each county's performance in child support activities.

Any records established pursuant to the provisions of this section shall be available only to district attorneys, probation departments, state locator services, the federal parent locator service, and courts having jurisdiction in support or abandonment proceedings or actions.

The Department of Justice, in consultation with the Department of Benefit Payments, shall promulgate rules and regulations to facilitate maximum and efficient use of such locator service.

This section shall be construed in a manner consistent with the other provisions of this article.

SEC. 17. Section 11487 of the Welfare and Institutions Code is amended to read:

11487. Except as provided in Section 11457, whenever any aid

under this chapter is repaid to a county or recovered by a county, the state shall be entitled to a share of the amount received or recovered, proportionate to the amount of state funds paid, and, if funds advanced by the federal government were paid, the federal government shall be entitled to a share of the amount received or recovered, proportionate to the amount of federal funds paid.

SEC. 18. Section 11488 of the Welfare and Institutions Code is repealed.

SEC. 19. Section 15200.1 of the Welfare and Institutions Code is amended to read:

15200.1. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated, to a fund to be known as the Support Enforcement Incentive Fund, from which the Department of Benefit Payments shall make payments to each county to be deposited in the county general fund which shall be a combination of state and federal funds equivalent to: (a) effective October 1, 1975, through June 30, 1976, 33.75 percent of that portion of the amounts received from or collected from noncustodial parents which is used to reduce or repay aid paid pursuant to this chapter, and which qualify for federal incentive funds (b) effective July 1, 1976, 27.75 percent of the amounts received from or collected from noncustodial parents which is used to reduce or repay aid payment pursuant to this chapter and which qualify for federal incentive funds.

Where more than one county has participated in such enforcement or collection, the incentive payment authorized by this section shall be made to the county making the collection.

Where more than one state has participated in such enforcement or collection, the incentive payment, if any, shall be made in accordance with Section 15200.2.

SEC. 20. Section 15200.2 is added to the Welfare and Institutions Code, to read:

15200.2. There is hereby appropriated out of any money in the State Treasury not otherwise appropriated, to a fund to be known as the Interstate Collection Incentive Fund, from which the department shall make payments to California counties and other states which shall be a combination of state and federal funds equivalent to: (a) effective October 1, 1975, through June 30, 1976, 33.75 percent of that portion of the amounts received from or collected from noncustodial parents residing outside California which is used to reduce or repay aid paid pursuant to this chapter and which qualify for federal incentive funds (b) effective July 1, 1976, 27.75 percent of that portion of the amounts received from or collected from noncustodial parents residing outside California which is used to reduce or repay aid paid pursuant to this chapter and which qualify for federal incentive funds. The Department of Benefit Payments shall, by regulation, apportion the incentive payment between the collecting state and the county receiving the noncustodial parent support payment.

Where a county makes a collection for another state, the Department of Benefit Payments shall forward any incentive payment received from such state to the county making the collection from the noncustodial parent.

SEC. 21. Section 15204.2 is added to the Welfare and Institutions Code, to read:

15204.2. The state shall pay 50 percent of the nonfederal administrative costs of administering the payment of aid grants under Part 3 (commencing with Section 11000) of Division 9 of the Welfare and Institutions Code, with the exception of activities related to the collection of support from noncustodial parents and the determination of paternity in the case of a child born out of wedlock.

SEC. 22. Section 42.5 of Chapter 578 of the Statutes of 1971 is repealed.

SEC. 22.5. The Department of Benefit Payments is hereby authorized to establish those administrative support positions necessary to carry out the provisions of this enactment. These positions will be 75 percent federally funded and 25 percent state funded.

SEC. 23. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because appropriations are made in Sections 15200.1 and 15200.2, and this act contains a revenue source which may be utilized by local governments to cover the cost of the mandate.

SEC. 24. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are as follows:

This proposed legislation is based on Public Law 93-647, Part B, which deals with enforcement of child support and which requires all states to adopt child support programs in accordance with federally established standards. The effective date of this public law is July 1, 1975, and in order to bring California law into conformity with the federal requirements, this legislation must be enacted and in effect by that date.

If these conforming amendments are not in effect by July 1, 1975, the following will occur:

1. The provisions of California's incentive program will be out of conformity with federal requirements. The Support Enforcement Incentive Fund presently returns to the counties 21.25 percent of the moneys collected in welfare cases. Public Law 93-647 mandates a payment of 25 percent.

2. Eligibility requirements for the AFDC program will be out of conformity with the requirements of the Social Security Act, since P.L. 93-647 imposes conditions of eligibility not existent in present state law. These conditions are furnishing social security numbers, cooperation by the custodial parent in securing support, and

assigning support rights to the county. Other changes mandated by P.L. 93-647 are single child support organizational units and a prohibition against support payments made directly to the custodial parent.

Failure to remedy this inconsistency will result in applicants who are ineligible under federal law qualifying for aid under state law. This will result in possible fiscal sanctions being imposed because ineligible persons are included in the caseload.

3. States which do not have statutory and regulatory plans in conformity with federal requirements by January 1, 1977, will be subject to fiscal sanctions in the amount of 5 percent per quarter of the federal AFDC funds.

4. Failure to have an approved state plan will result in disallowance of claims for costs of collection after July 1, 1975. This would have a serious impact as most counties presently receive 50 percent reimbursement for such activities from the federal government and 25 percent from the state.

In any county operating under this section any limitation in any provisions of this chapter upon the amount of compensation used for computing rates of contributions shall be disregarded.

Whenever in this chapter reference is made to survivorship and other benefits and rights under Section 31676.1, the same shall apply to this section.

SEC. 8. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because there are no duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 933

An act to add and repeal Section 53707 to the Government Code, relating to cities.

[Became law without Governor's signature September 21, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 53707 is added to the Government Code, to read:

53707. Whenever funds are made available to any city, under the Comprehensive Employment and Training Act of 1973 (Pub.L. 93-203), under such act as amended, or under any similar federal laws relating to employment, job training, or manpower programs, for the employment of any person by such city for the erection,

improvement, repair, remodeling, or alteration of any public building or works, or any street or highway, or sewer, the city may authorize such projects without complying with the provisions of Chapter 6 (commencing with Section 37901) of Division 3 of Title 4 of the Government Code, provided that substantially all of the employees hired by the city to perform such projects are compensated pursuant to, and are otherwise subject to, the provisions of the Comprehensive Employment and Training Act of 1973.

However, all such employees shall be compensated at least at the same prevailing wage rate and with the same benefits determined by the city pursuant to Article 2 (commencing with Section 1770) of Chapter 1 of Part 7 of Division 2 of the Labor Code, and no such project as defined in Section 37901 shall exceed twenty-five thousand dollars ($25,000).

This section shall remain in effect only until January 1, 1977, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1977, deletes or extends such date.

SEC. 2. The Legislature finds that the Comprehensive Employment and Training Act of 1973 was enacted in recognition that transitional public service employment is an integral part of a comprehensive manpower program, provides additional public employment opportunities in areas of substantial unemployment. Under Title 1 of such act a program of financial assistance is made available to states and local governments to enable them to hire and train the economically disadvantaged and unemployed. In many instances cities are in a position to provide such employment and training for the erection, improvement, repair, remodeling or altering of public buildings or works, streets, highways, or sewers, but by reason of the provisions of Chapter 6 (commencing with Section 37901) of Division 3 of Title 4 of the Government Code, such persons cannot be retained or utilized by cities for this purpose, since under such Government Code provisions it is necessary that a city award a contract to private persons for the performance of such public project pursuant to competitive bidding procedures, if the cost of such project exceeds three thousand five hundred dollars ($3,500). It is the intent of the Legislature by the enactment of Section 53707 of the Government Code, pursuant to Section 1 of this act, to authorize cities to enter into such projects with the use of their own forces, including those in which the estimated cost exceeds three thousand five hundred dollars ($3,500), where all of the employees hired and utilized by the city from the commencement to the completion of the project have been so hired by the city by reason of funding under, and subject to the provisions of, the Comprehensive Employment and Training Act of 1973, or any similar federal laws relating to employment, job training, or manpower programs.

CHAPTER 934

An act to add Section 21677 to the Public Utilities Code, relating to airports.

[Became law without Governor's signature September 21, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 21677 is added to the Public Utilities Code, to read:

21677. Notwithstanding the provisions of Section 21676 which require a four-fifths vote of the governing body of a public agency in order to overrule a commission, any public agency in the County of Marin may overrule the Marin County Airport Land Use Commission by a majority vote of its governing body.

SEC. 2. The Legislature finds and declares that this bill is necessary since special facts and circumstances applicable to the County of Marin, and not generally applicable make the accomplishment of this purpose impossible by any general law. Such facts and circumstances include the relatively few airports within the County of Marin and the relatively few public agencies affected by such airports. The Legislature further finds and declares that the County of Marin is the only county involved, that the purpose of this act is impossible to accomplish by any general law, and that special legislation applicable only to the County of Marin is therefore necessary.

CHAPTER 935

An act to add Section 31836.1 to the Government Code, relating to the County Employees Retirement Law of 1937.

[Became law without Governor's signature September 21, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 31836.1 is added to the Government Code, to read:

31836.1. "Service" for the purpose of qualifying members for the discontinuance of contributions pursuant to 31625.2 shall also include service as an employee of the state, a contracting agency under the Public Employees' Retirement System, of another county having a retirement system established under this chapter, or of any other public agency if the compensation for such service constitutes compensation earnable by a member under Section 31835.

SEC. 2. Notwithstanding Section 2231 of the Revenue and

Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 936

An act to amend Sections 69991 and 70045.4 of, and to add Section 68518 to, the Government Code, relating to official reporters.

[Became law without Governor's signature September 21, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 68518 is added to the Government Code, to read:

68518. (a) The Judicial Council shall provide by rule for the maintenance of records as described in subdivision (c), which shall be filed with the council by each official reporter and official reporter pro tempore of any court located in Merced or Stanislaus County. Such records shall be inspected and audited by the Judicial Council.

(b) The Judicial Council shall submit an annual report to the board of supervisors of any such county and to the Legislature summarizing the information contained in the records.

(c) Each such annual report shall include the following information relative to the official court reporters of the county:

(1) The quantity and types of transcripts prepared by the official reporters and official reporters pro tempore during the reporting period;

(2) The fees charged and the fees collected for such transcripts;

(3) Expenses incurred by the reporters in connection with the preparation of such transcripts; and

(4) The amount of time the reporters have spent in attendance upon the courts for the purpose of reporting proceedings, and the compensation received for this purpose.

SEC. 2. Section 69991 of the Government Code is amended to read:

69991. The duties of official reporters appointed pursuant to Section 69990 shall be performed as elsewhere provided by law. As full compensation for taking notes in criminal cases in the superior court each reporter shall receive a monthly salary of one thousand eighty-one dollars ($1,081), and the fee for reporting testimony and proceedings in civil contested cases is seventy-five dollars ($75) a day, or any fractional part thereof, and for the purposes of retirement, the compensation of each reporter shall be deemed to be

the total of all per diem and transcription fees paid by the county to all of the reporters of the superior court for all phonographic reporting services, divided by the number of superior court official reporters, plus his salary. All other fees of such reporters shall be as elsewhere provided by law. In cases where it is necessary to appoint a pro tempore reporter, he shall be allowed the fees elsewhere provided by law.

SEC. 3. Section 70045.4 of the Government Code is amended to read:

70045.4. Notwithstanding the provisions of Section 70045 or any other provision of this article, in Merced County:

(a) The regular full-time official court reporters shall perform the following duties:

(1) Report all criminal proceedings in the superior court.

(2) Report all civil commitment proceedings and all contempt proceedings in the superior court.

(3) Report all juvenile proceedings in the superior court other than those heard by a juvenile court referee or traffic hearing officer.

(4) Report all family law proceedings in the superior court.

(5) Report all civil jury trials in the superior court.

(6) Report all hearings on petitions for extraordinary relief, including but not limited to proceedings for injunctions, mandate, prohibition, certiorari, review, habeas corpus, and corum nobis in the superior court.

(7) Report any other court proceedings in the superior court when a party requests a court reporter in accordance with the rules of court.

(8) Report all criminal proceedings of the grand jury.

(9) Report proceedings for the board of equalization, when requested by the board.

(b) Each regular full-time court reporter shall be paid an annual salary of fifteen thousand one hundred eighty dollars ($15,180), unless the board of supervisors of the county shall provide for compensation in excess of that amount.

The foregoing salary is for compensation for reporting services under subdivision (a) of this section. For all transcriptions incident to reporting services, each reporter shall receive the fees provided for in Article 9 (commencing with Section 69941) of this chapter.

The regular full-time official court reporters shall be entitled to the same privileges with respect to group insurance and retirement as other employees of such county. Retirement contributions shall be based upon the annual salary provided for in subdivision (b) of this section.

(c) When the regular full-time official court reporters are occupied in the performance of their duties and services pursuant to the provisions of subdivision (a), the judge or judges of the superior court may appoint as many additional official court reporters, who shall be known as official reporters pro tempore, as the business of the courts and county may require, in order that the business of the

courts and county may be carried on without delay. They shall be paid in accordance with the per diem, transcription, and other fee provisions of Article 9 (commencing with Section 69941) of this chapter. Such per diem, traveling and other expenses, and the fees chargeable to the county under the terms of these provisions shall be a proper county charge.

(d) In such a county, the fee required by Section 70053 shall be twelve dollars ($12).

SEC. 3.5. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Merced and Stanislaus Counties is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in these counties in view of their submitted requests for adjustments in the compensation provided to court reporters in such counties.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of local government entities which desired legislative authority to act to carry out the program specified in this act.

(a) Assuring the continued role of the professional as the determiner of the patient's health needs which fosters the traditional patient professional relationship of trust and confidence.

(b) Assuring that subscribers and enrollees are educated and informed as to the benefits and services available so as to enable a rational consumer choice in the marketplace.

(c) Protecting the potential subscriber or enrollee from fraudulent solicitations, deceptive methods, misrepresentations, or practices which are inimical to the general purpose of enabling a rational choice for the consumer public.

All other assets shall be invested in a prudent manner.

1347. (a) There is established in the Department of Corporations a Health Care Service Plan Advisory Committee consisting of 14 members. The members shall consist of the commissioner or the commissioner's designee; a physician and surgeon with five years experience in providing services to enrollees of a health care service plan; a person with expertise and five years experience in an administrative capacity of a hospital-based plan; a person with five years experience with a corporation formed under Section 9201 of the Corporations Code; a person with five years experience with a medical foundation; a person with five years experience in an administrative capacity with a non-hospital-based health care service plan; a person with five years experience in an administrative capacity with a specialized health care service plan; a certified public accountant with five years experience in auditing plans; and six public members having no financial interest in the delivery of health care services or in plans except for being enrolled in a health care service plan or specialized health care service plan.

The commissioner shall consult with the advisory committee on regulations and the recommendations of the committee shall be made a part of the record with regard to such regulations.

1348. The commissioner shall submit to the Governor and the Legislature during the month of December, prior to each regular session of the Legislature, a full and accurate report of the activities of the department regarding all actions undertaken pursuant to this chapter. Such report shall include recommendations, when appropriate, for legislation which will protect and promote the interests of subscribers, enrollees, plans and the public. A copy of the report shall be filed with the Secretary of State as a public document.

Article 3. Licensing and Fees

1349. It is unlawful for any person to engage in business as a plan in this state or to receive advance or periodic consideration in connection with a plan from or on behalf of persons in this state unless such person has first secured from the commissioner a license, then in effect, as a plan or unless such person is exempted by the provisions of Section 1343 or a rule adopted thereunder. A person licensed pursuant to this chapter need not be licensed pursuant to the Insurance Code to operate a health care service plan or specialized health care service plan unless the plan is operated by an insurer, in which case the insurer shall also be licensed by the Insurance Commissioner.

1350. (a) Every plan not exempted from this chapter who on June 30, 1976, is registered under the Knox-Mills Health Plan Act as in effect prior to the operative date of this chapter, shall promptly notify the commissioner of its intention to seek licensing under this chapter and shall file an application for licensing as a plan by September 30, 1976. Each such plan may continue to operate under the provisions of the Knox-Mills Health Plan Act as in effect prior to

the operative date of this chapter until the commissioner grants or denies its application.

(b) If an application filed pursuant to subdivision (a) is denied, the commissioner shall give notice thereof as provided in Section 1354 and the plan shall not, after receipt of such notice, solicit or receive further enrollment or subscription unless and until such order of denial is revoked or set aside. Within 30 days after the date of mailing of such notice, the plan shall either cease operations in this state or request a hearing pursuant to Section 1354, such hearing to commence within 15 business days after receipt of such request unless the plan and the commissioner consent in writing to a later date. If, after hearing, the denial of the application is affirmed by the commissioner, such plan shall cease operations in this state within 15 days after the date of such order. Thereafter, such plan shall be subject in all respects to the provisions of this chapter.

(c) On and after July 1, 1976, all administrative powers exercised by the Attorney General under the terms and provisions of the Knox-Mills Health Plan Act shall be exercised by the commissioner under the provisions of this section, and the Attorney General shall act as attorney for the commissioner except that the Attorney General may continue all civil or administrative proceedings initiated by the Attorney General prior to such date.

(d) Upon filing its application as provided in subdivision (a), each plan shall pay the application fee prescribed by subdivision (a) of Section 1356. In addition, each plan shall, on or before September 30, 1976, pay the annual assessment under subdivision (b) of Section 1356 for the fiscal year commencing July 1, 1976, and the commissioner shall, on or before September 1, 1976, give notice to such plans of the amount of such assessment.

1351 Each application for licensure as a health care service plan or specialized health care service plan under this chapter shall be verified by an officer or authorized representative of the applicant, and shall be in a form prescribed by the department. Such application shall be accompanied by the fee prescribed by subdivision (a) of Section 1356 and shall set forth or be accompanied by each and all of the following:

(a) The basic organizational documents of the applicant, such as, the articles of incorporation, articles of association, partnership agreement, trust agreement, or other applicable documents and all amendments thereto.

(b) A copy of the bylaws, rules and regulations, or similar documents regulating the conduct of the internal affairs of the applicant.

(c) A list of the names, addresses, and official positions of the persons who are to be responsible for the conduct of the affairs of the applicant, which shall include among others, all members of the board of directors, board of trustees, executive committee, or other governing board or committee, the principal officers, each shareholder with over 5-percent interest in the case of a corporation,

and all partners or members in the case of a partnership or association, and each person who has loaned funds to the applicant for the operation of its business.

(d) A copy of any contract made, or to be made, between the applicant and any provider of health care services, or persons listed in subdivision (c), or any other person or organization agreeing to perform an administrative function or service for the plan. The commissioner by rule may identify contracts excluded from this requirement and make provision for the submission of form contracts. The payment rendered or to be rendered to such provider of health care services shall be deemed confidential information that shall not be divulged by the commissioner, except that such payment may be disclosed and become a public record in any legislative, administrative, or judicial proceeding or inquiry. The plan shall also submit the name and address of each physician employed by or contracting with the plan, together with his or her license number.

(e) A statement describing the plan, its method of providing for health care services and its physical facilities. If applicable, this statement shall include the health care delivery capabilities of the plan including the number of full-time and part-time primary physicians, the number of full-time and part-time and specialities of all nonprimary physicians; the numbers and types of licensed or state-certified health care support staff, the number of hospital beds contracted for, and the arrangements and the methods by which health care services will be provided. For purposes of this subdivision, primary physicians include general and family practitioners, internists, pediatricians, obstetricians, and gynecologists.

(f) A copy of the forms of evidence of coverage and of the disclosure forms or material which are to be issued to subscribers or enrollees of the plan.

(j) A power of attorney duly executed by any applicant, not domiciled in this state, appointing the commissioner the true and lawful attorney in fact of such applicant in this state for the purposes of service of all lawful process in any legal action or proceeding against the plan on a cause of action arising in this state.

(k) A statement describing the service area or areas to be served, including the service location for each provider rendering professional services on behalf of the plan and the location of any

other plan facilities where required by the commissioner.

(*l*) A description of enrollee-subscriber grievance procedures to be utilized as required by this chapter, and a copy of the form specified by subdivision (c) of Section 1368.

(m) A description of the procedures and programs for internal review of the quality of health care pursuant to the requirements set forth in this chapter.

(n) A description of the mechanism by which enrollees and subscribers will be afforded an opportunity to express their views on matters relating to the policy and operation of the plan.

(o) The agreement with an insurer, a health facility or medical service corporation, or a licensed health care service plan or specialized health care service plan, or a governmental organization to provide the payment of the cost of the originally contracted health care services or to provide the originally contracted health care services in the event of failure, suspension, or revocation of the plan or a showing that the plan meets the requirements of subdivision (d) of Section 1375.

(p) Evidence of adequate insurance coverage or self-insurance to respond to claims for damages arising out of the furnishing of health care services.

(q) Evidence of adequate insurance coverage or self-insurance to protect against losses of facilities where required by the commissioner.

(r) If required by the commissioner by rule pursuant to Section 1376, a fidelity bond or a surety bond in the amount prescribed.

(s) Evidence of adequate workmen's compensation insurance coverage to protect against claims arising out of work-related injuries that might be brought by the employees and staff of a plan against the plan.

(t) Such other information as the commissioner may reasonably require.

1352. (a) A licensed plan shall, within 30 days after any change in the information contained in its application, other than financial or statistical information, file an amendment thereto in such manner as the commissioner may by rule prescribe setting forth such changed information.

(b) Prior to any material modification of its plan or operations, a plan shall give notice thereof to the commissioner, who shall, within 20 business days or such additional time as the plan may specify, by order approve, disapprove, suspend, or postpone the effectiveness of any such change, subject to the provisions of Section 1354.

(c) A plan shall, within five days, give written notice to the commissioner in such form as by rule may be prescribed, of any change in the officers, directors, partners, controlling shareholders, principal creditors, or persons occupying similar positions or performing similar functions, of such plan and of any management company of the plan, and of any parent company of such plan or management company. The commissioner may by rule define the

positions, duties, and relationships which are referred to in this subdivision.

(d) The fee for filing a notice of major modification pursuant to subdivision (b) shall be the actual cost to the commissioner of processing such notice, including overhead, but shall not exceed two hundred fifty dollars ($250).

1353. The commissioner shall issue a license to any person filing an application pursuant to this article, if the commissioner, upon due consideration of the application and of the information obtained in any investigation, including, if necessary, an onsite inspection, determines that the applicant has satisfied the provisions of this chapter and that, in the judgment of the commissioner, a disciplinary action pursuant to Section 1386 would not be warranted against such applicant. Otherwise, the commissioner shall deny the application.

1354. Upon denial of application for licensure, or the issuance of an order pursuant to Section 1352 disapproving, suspending, or postponing a material modification, the commissioner shall notify the applicant in writing, stating the reason for the denial and that the applicant has the right to a hearing if the applicant makes written request within 30 days after the date of mailing of the notice of denial. Service of the notice required by this subdivision may be made by certified mail addressed to the applicant at the latest address filed by the applicant in writing with the department.

1355. Every plan's license issued under this chapter shall remain in effect until revoked or suspended by the commissioner.

1356. (a) Each plan applying for licensure under this chapter shall pay to the commissioner a nonrefundable cash application fee in the amount of two thousand five hundred dollars ($2,500) at the time of submission of his application.

(b) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the commissioner on or before the 30th day of June of each year, as a reimbursement of its share of all costs and expenses reasonably incurred in the administration of this chapter and not otherwise recovered by the commissioner, including overhead, an amount as estimated by the commissioner for the ensuing year and for any deficit for prior years. The amount paid by each plan shall be five hundred dollars ($500) plus an amount up to but not exceeding eighteen cents ($0.18) for each family unit enrolled in its plan in this state as of December 31 of the preceding year and shall be fixed by the commissioner by notice to all licensed plans on or before the first day of June of each year. In determining the amount assessed, the commissioner shall consider all fees and other reimbursements provided for in this chapter and, insofar as practicable, balance total revenues and reimbursements with total expenditures under this chapter. For the purpose of this section, a family unit is a household composed of one or more individuals.

(c) All moneys collected pursuant to this chapter shall be transmitted to the State Treasurer at least weekly, accompanied by

a detailed statement thereof, and shall be credited to the General Fund.

Article 4. Solicitation and Enrollment

1357. (a) It is unlawful for any person to act as a solicitor or solicitor firm in this state unless such person has first secured from the commissioner a license, then in effect, authorizing such person to do so, or unless such person is exempted pursuant to the provisions of Section 1343, except that any person who files an application for as a solicitor or solicitor firm, and who pays the fee prescribed by this section on or before July 15, 1976, may act in the capacity for which such license application is filed until such time as the application is denied by the commissioner.

(b) An applicant for a solicitor or solicitor firm license under this article shall file with the commissioner an application in the form and with such supporting documents as the commissioner prescribes, together with the fee prescribed by subdivision (d). The commissioner shall investigate applicants and licensees in such manner and in respect of such manner as the commissioner deems advisable.

(c) A solicitor's license shall be issued only to an individual. No individual may act as a solicitor except as an employee of a plan or solicitor firm.

(d) The fee for filing an application for a solicitor license is fifty dollars ($50), and payment of this amount shall keep the license, if granted, in effect during the calendar year during which it is granted, and if that year is an even-numbered year, during the following calendar year. Every solicitor who has secured a license from the commissioner shall, in order to keep such license in effect for an additional two-year period, pay a renewal fee of fifty dollars ($50) on or before the 15th day of December preceding the additional period.

(e) The fee for filing an application for a solicitor firm license shall be two hundred dollars ($200), and payment of this amount shall keep the license, if granted, in effect during the calendar year during which it is granted and if that year is an even-numbered year, during the following calendar year. Every solicitor firm which has secured a license from the commissioner shall, in order to keep such license in effect for an additional two-year period, pay a renewal fee of two hundred dollars ($200) on or before the 15th day of December preceding the additional period.

(f) The license of every solicitor and solicitor firm issued under this chapter shall remain in effect until revoked or suspended by the commissioner.

(g) The commissioner may, by regulation, reduce the fees required by subdivisions (d) and (e) for persons licensed pursuant to Chapter 5 (commencing with Section 1621) of Part 2 of Division 1 of the Insurance Code, but such reduced fees shall not be less than

one-half of the fee prescribed in such subdivisions.

1358. The commissioner shall issue a solicitor or solicitor firm license if an applicant satisfies the following and may decline to issue a license, or may suspend or revoke such a license, if the applicant does not satisfy the following:

(a) That the applicant is of good business reputation and of good general reputation.

(b) That the applicant has never been refused a license or had a license revoked by any public authority for reasons which indicated lack of honesty or integrity, or which show improper business practice on the part of the applicant.

(c) That the applicant has an understanding of the operation of a health care service plan, and where applicable, a specialized health care service plan and of the obligations and duties of a solicitor on behalf of a plan, and of the provisions of this chapter and the rules adopted thereunder, as are appropriate to the conduct of activities under the license.

(d) That the applicant has not previously engaged in a fraudulent practice or act and has not conducted any business in a dishonest manner.

(e) That the applicant has not shown untrustworthiness in the conduct of any business, or has not, by commission of a wrongful act or practice in the course of any business, exposed the public or those dealing with the applicant to the danger of loss.

(f) That the applicant has not knowingly misstated any material fact in the application or procured a misstatement in the supporting documents thereof.

(g) That the applicant has not committed an act prohibited by this chapter or knowingly failed to perform a duty enjoined upon the applicant by this chapter.

(h) That the applicant has not been convicted of either a felony or any offense, misdemeanor or felony, involving moral turpitude. A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge of a felony or of any offense involving moral turpitude is deemed to be a conviction within the meaning of this subdivision. The commissioner may inquire into the circumstances surrounding the commission of the crime and the record of conviction shall be conclusive evidence only of the fact the conviction occurred. The commissioner may deny licensure irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(i) In the event an application for a license under this article is denied by the commissioner, the provisions of Section 1354 shall apply.

1359. (a) The commissioner may require that individuals employed in principal management or supervisory positions in solicitor firms and solicitors meet such reasonable and appropriate standards with respect to training, experience, and other qualifications as the commissioner finds necessary and appropriate in

the public interest or for the protection of subscribers, enrollees, and plans. For such purposes, the commissioner may do the following:

(1) Appropriately classify such persons and individuals.

(2) Specify that all or any portion of such standards shall be applicable to any such class.

(3) Require individuals in any such class to pass examinations prescribed in accordance with such rules.

(b) The commissioner may prescribe by rule reasonable fees and charges to defray the costs of carrying out this section, including, but not limited to, fees for any examination administered by the commissioner or under his direction.

1360. (a) No plan, solicitor, solicitor firm, or representative shall use or permit the use of any advertising or solicitation which is untrue or misleading, or any form of evidence of coverage which is deceptive. For purposes of this article:

(1) A written or printed statement or item of information shall be deemed untrue if it does not conform to fact in any respect which is, or may be significant to an enrollee or subscriber, or potential enrollee or subscriber in a plan.

(2) A written or printed statement or item of information shall be deemed misleading whether or not it may be literally true, if, in the total context in which the statement is made or such item of information is communicated, such statement or item of information may be understood by a person not possessing special knowledge regarding health care coverage, as indicating any benefit or advantage, or the absence of any exclusion, limitation, or disadvantage of possible significance to an enrollee, or potential enrollee or subscriber, in a plan, and such is not the case.

(3) An evidence of coverage shall be deemed to be deceptive if the evidence of coverage taken as a whole and with consideration given to typography and format, as well as language, shall be such as to cause a reasonable person, not possessing special knowledge of plans, and evidence of coverage therefor to expect benefits, service charges, or other advantages which the evidence of coverage does not provide or which the plan issuing such coverage or evidence of coverage does not regularly make available to enrollees or subscribers covered under such evidence of coverage.

(b) No plan, or solicitor, or representative shall use or permit the use of any verbal statement which is untrue, misleading, or deceptive or make any representations about coverage offered by the plan or its cost that does not conform to fact. All verbal statements are to be held to the same standards as those for printed matter provided in subdivision (a).

1361. (a) No person licensed or regulated under this chapter shall publish any new or materially revised advertisement unless a true copy thereof has first been filed with the commissioner, at least 30 days prior to such publication, or such shorter period as the commissioner may by rule or order allow. The commissioner may by rule classify advertisements and exempt certain classes, wholly or in

0 138 29 6 150 273

part, from the application of this section.

(b) No person licensed or regulated under this chapter shall publish any advertisement, after receipt by such person of notice that the commissioner finds such advertisement, wholly or in part, to be untrue, misleading, or deceptive. The person filing or using such advertisement may, within 30 days after receipt of such notice, file a written request for a hearing with the commissioner.

1362. As used in Sections 1363 and 1364:

(a) "Benefits and coverage" means the health care services available under a plan contract.

(b) "Exception" means any provision in a plan contract whereby coverage for a specified hazard or condition is entirely eliminated.

(c) "Reduction" means any provision in a plan contract which reduces the amount of a plan benefit to some amount or period less than would be otherwise payable for medically authorized expenses or services had such a reduction not been used.

(d) "Limitation" means any provision other than an exception or a reduction which restricts coverage under the plan.

(e) "Presenting for examination or sale" means either (1) publication and dissemination of any brochure, mailer, advertisement, or form which constitutes a presentation of the provisions of the plan and which provides a plan enrollment or application form, or (2) consultations or discussions between prospective plan members or their contract agents and solicitors or representatives of a plan, when such consultations or discussions include presentation of formal, organized information about the plan which is intended to influence or inform the prospective member or contract holder, such as brochures, summaries, charts, slides, or other modes of information.

(f) "Disclosure form" means the disclosure form, material, or information required pursuant to Section 1363.

(g) For the purposes of Sections 1363 and 1364, where the definition of the term "hospital" in the plan contract omits care in any "health facility" defined pursuant to subdivision (a) or (b) of Section 1250 of this code, the omitted coverage shall constitute a limitation; and where the definition of the term "nursing home" in the plan omits care in any "health facility" defined pursuant to subdivision (c) or (d) of Section 1250 of this code, the omitted coverage shall constitute a limitation.

1363. (a) The commissioner shall require for use by each plan disclosure forms or materials containing such information regarding the benefits, services, and terms of the plan contract as the commissioner may require, so as to afford the public, subscribers, and enrollees with a full and fair disclosure of the provisions of the plan in readily understood language and in a clearly organized manner. The commissioner may require that such materials be presented in a reasonably uniform manner so as to facilitate comparisons between plan contracts of the same or other types of plans. Nothing contained in this chapter shall preclude the commissioner from permitting such

disclosure form to be included with the evidence of coverage or plan contract.

The disclosure form shall provide for at least the following information, in concise and specific terms, relative to the plan, together with such additional information as may be required by the commissioner, in connection with the plan or plan contract:

(1) The principal benefits and coverage of the plan.

(2) The exceptions, reductions, and limitations that apply to such plan.

(3) The full premium cost of such plan.

(4) Any copayment, coinsurance, or deductible requirements that may be incurred by the member or the member's family in obtaining coverage under the plan.

(5) The terms under which the plan may be renewed by the plan member, including any reservation by the plan of any right to change premiums.

(6) A statement that the disclosure form is a summary only, and that the plan contract itself should be consulted to determine governing contractual provisions.

(7) A statement as to when benefits shall cease in the event of nonpayment of the prepaid or periodic charge and the effect of nonpayment upon an enrollee who is hospitalized or undergoing treatment for an ongoing condition.

(8) To the extent that the plan permits a free choice of provider to its subscribers and enrollees, the statement shall disclose the nature and extent of choice permitted and the financial liability which is, or may be, incurred by the subscriber, enrollee, or a third party by reason of the exercise of such choice.

(9) A summary of the provisions required by subdivision (g) of Section 1373, if applicable.

(b) All plans, solicitors, and representatives of a plan shall, when presenting any plan contract for examination or sale to an individual prospective plan member, provide such individual with a properly completed disclosure form, as prescribed by the commissioner pursuant to this section for each plan so examined or sold.

(c) In the case of group contracts, the completed disclosure form shall be presented to the contract holder upon delivery of the completed health care service plan agreement.

(d) Group contract holders shall disseminate copies of the completed disclosure form to all persons eligible under the group contract at the time such persons are offered the plan. Where the individual group members are offered a choice of plans, separate disclosure forms shall be supplied for each plan available.

1364. Where the commissioner finds it necessary in the interest of full and fair disclosure, all advertising and other consumer information disseminated by a plan for the purpose of influencing persons to become members of a plan shall contain such supplemental disclosure information as the commissioner may require.

1365. (a) An enrollment or a subscription may not be canceled or not renewed except for the following:

(1) Failure to pay the charge for such coverage if the subscriber has been duly notified and billed for the charge and at least 15 days has elapsed since the date of notification.

(2) Fraud or deception in the use of the services or facilities of the plan or knowingly permitting such fraud or deception by another.

(3) Such other good cause as is agreed upon in the contract between the plan and a group or the subscriber.

(b) An enrollee or subscriber who alleges that an enrollment or subscription has been canceled or not renewed because of the enrollee's or subscriber's health status or requirements for health care services may request a review by the commissioner. If the commissioner determines that a proper complaint exists under the provisions of this section, the commissioner shall notify the plan. Within 15 days after receipt of such notice, the plan shall either request a hearing or reinstate the enrollee or subscriber. If, after hearing, the commissioner determines that the cancellation or failure to renew is contrary to subdivision (a), the commissioner shall order the plan to reinstate the enrollee or subscriber. A reinstatement pursuant to this subdivision shall be retroactive to the time of cancellation or failure to renew and the plan shall be liable for the expenses incurred by the subscriber or enrollee for covered health care services from the date of cancellation or nonrenewal to and including the date of reinstatement.

(c) This section shall not abrogate any preexisting contracts entered into prior to the effective date of this chapter between a subscriber or enrollee and a health care service plan or a specialized health care service plan including, but not limited to, the financial liability of such plan, except that each plan shall, if directed to do so by the commissioner, exercise its authority, if any, under any such preexisting contracts to conform them to the provisions of subdivision (a).

1366. (a) No plan may use in its name, any of the words "insurance," "casualty," "surety," "mutual," or any other words descriptive of the insurance, casualty, or surety business or use any name similar to the name or description of any insurance or surety corporation doing business in this state unless such plan controls or is controlled by an entity licensed as an insurer pursuant to the provisions of the Insurance Code and the plan employs a name related to that of such controlled or controlling entity.

(b) Section 2393 of the Business and Professions Code, pertaining to fictitious names, shall not apply to plans, except specialized health care service plans.

(c) No plan or solicitor firm may adopt a name style that is deceptive, or one that could cause the public to believe the plan is affiliated with, or recommended by any governmental or private entity unless such affiliation or endorsement exists.

Article 5. Standards

1367. Each health care service plan, and where applicable, each specialized health care service plan, shall meet the following requirements:

(a) All facilities located in this state including, but not limited to, clinics, hospitals, and skilled nursing facilities to be utilized by the plan shall be licensed by the State Department of Health, if such licensure is required by law. Facilities not located in this state shall conform to all licensing and other requirements of the jurisdiction in which they are located.

(b) All personnel employed by or under contract to the plan shall be licensed or certified by their respective board or agency, where such licensure or certification is required by law.

(c) All equipment required to be licensed or registered by law shall be so licensed or registered and the operating personnel for such equipment shall be licensed or certified as required by law.

(d) The plan shall furnish services in a manner providing continuity of care and ready referral of patients to other providers at such times as may be appropriate consistent with good professional practice.

(e) All services shall be readily available at reasonable times to all enrollees. To the extent feasible, the plan shall make all services readily accessible to all enrollees.

(f) The plan shall employ and utilize allied health manpower for the furnishing of services to the extent permitted by law and consistent with good medical practice.

(g) The plan shall have the organizational and administrative capacity to provide services to subscribers and enrollees. The plan shall be able to demonstrate to the department that medical decisions are rendered by qualified medical providers, unhindered by fiscal and administrative management.

(h) All contracts with subscribers and enrollees, including group contracts, and all contracts with providers, subsequent providers, and other persons furnishing services, equipment, or facilities to or in connection with the plan, shall be fair, reasonable, and consistent with the objectives of this chapter.

(i) Each health care service plan contract shall provide to subscribers and enrollees all of the basic health care services included in subdivision (b) of Section 1345, except that the commissioner may, for good cause, by rule or order exempt a plan contract or any class of plan contracts from such requirement. The commissioner shall by rule define the scope of each basic health care service which health care service plans shall be required to provide as a minimum for licensure under this chapter. Nothing in this chapter shall prohibit a health care service plan from charging subscribers or enrollees a copayment or a deductible for a basic health care service or from setting forth, by contract, limitations on maximum coverage of basic health care services, provided that such

copayments, deductibles, or limitations are reported to, and held unobjectionable by, the commissioner and set forth to the subscriber or enrollee pursuant to the disclosure provisions of Section 1363.

Nothing in this section shall be construed to permit the commissioner to establish the rates charged subscribers and enrollees for contractual health care services.

1368. (a) Every plan shall establish and maintain a grievance system approved by the department under which enrollees may submit their grievances to the plan. Each system shall provide reasonable procedures in accordance with department regulations which shall insure adequate consideration of enrollee grievances and rectification when appropriate.

(b) Every plan shall inform its subscribers and enrollees upon enrollment in the plan and annually thereafter of the procedure for processing and resolving grievances. Such information shall include the location and telephone number where grievances may be submitted.

(c) Every plan shall provide forms for complaints to be given to subscribers and enrollees who wish to register written complaints. The form shall be approved by the commissioner in advance as to format.

(d) The plan shall keep in its files all copies of complaints, and the responses thereto, for a period of five years.

1369. Every plan shall establish procedures to permit subscribers and enrollees to participate in establishing the public policy of the plan. For purposes of this section, public policy means acts performed by a plan or its employees and staff to assure the comfort, dignity, and convenience of patients who rely on the plan's facilities to provide health care services to them, their families, and the public.

Compliance with the requirements of the Health Maintenance Organization Act of 1973 (42 U.S.C. § 300e et seq.) shall be deemed sufficient compliance with this section.

1370. Every plan shall establish procedures in accordance with department regulations for continuously reviewing the quality of care, performance of medical personnel, utilization of services and facilities, and costs.

1371. Every plan shall submit to the commissioner in the annual report required in Section 1383 such information as shall be uniformly required of all health care service plans or when applicable, all specialized health care service plans and the commissioner may classify plans for such purposes. In establishing the requirements of the statistical report, the commissioner shall consider the costs of the plans in compiling and reporting the information.

1372. Every plan shall demonstrate to the commissioner that it is financially responsible for and may reasonably be expected to meet its contractual obligations. In determining whether the conditions of this section have been met, the commissioner shall consider, but not be limited to, the following:

(1) The financial soundness of the plan's arrangements for health care services and a schedule of rates and charges adopted by the plan.

(2) The adequacy of working capital.

(3) Agreements with providers and subsequent providers for the provision of health care services.

1373. (a) A plan contract may not provide an exception for other coverage where such other coverage is entitlement to Medi-Cal benefits under Chapter 7 (commencing with Section 14000) or Chapter 8 (commencing with Section 14500) of Part 3 of Division 9 of the Welfare and Institutions Code.

Each plan contract shall be interpreted not to provide an exception for such Medi-Cal benefits.

A plan contract may not provide that the benefits payable thereunder are subject to reduction if the individual insured has entitlement to such Medi-Cal benefits.

(b) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for sterilization operations or procedures shall not impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization.

As used in this section, "sterilization operations or procedures" shall have the same meaning as that specified in Section 10120 of the Insurance Code.

(c) Every plan contract which provides coverage to family members or dependents of the subscriber or enrollee shall grant immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant, and to each minor adopted child from and after the moment the child is placed in the custody of the adoptive parents for adoption, of any subscriber or enrollee covered. No such plan may be entered into or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of a subscriber or enrollee covered from and after the moment of birth or of minor adopted children from and after the moment the child is placed in the custody of the adoptive parents for adoption.

(d) Every plan contract which provides that coverage of a dependent child of a subscriber shall terminate upon attainment of the limiting age for dependent children specified in the plan, shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child is and continues to be both (a) incapable of self-sustaining employment by reason of mental retardation or physical handicap and (b) chiefly dependent upon the subscriber for support and maintenance, provided proof of such incapacity and dependency is furnished to the plan by the member within 31 days of the request for such information by the plan or group plan contract holder and subsequently as may be required by the plan or group plan contract holder, but not more frequently than annually after the two-year

period following the child's attainment of the limiting age.

(e) A plan contract which provides coverage, whether by specific benefit or by the effect of general wording, for both an employee and one or more covered persons dependent upon such employee and provides for an extension of such coverage for any period following a termination of employment of the employee shall also provide that such extension of coverage shall apply to dependents upon the same terms and conditions precedent as applied to the covered employee, for the same period of time, subject to payment of premiums, if any, as required by the terms of the policy and subject to any applicable collective-bargaining agreement.

(f) A group contract shall not discriminate against handicapped persons or against groups containing handicapped persons. Nothing in this subdivision shall preclude reasonable provisions in a plan contract against liability for services or reimbursement of the handicap condition or conditions relating thereto, as may be allowed by rules of the commissioner.

(g) Every group contract shall set forth the terms and conditions under which subscribers and enrollees may remain in the plan in the event the group ceases to exist, the group contract is terminated or an individual subscriber leaves the group, or the enrollees' eligibility status changes.

Article 6. Operation and Renewal Requirements and Procedures

1375. (a) Except as provided in subdivision (d), every plan shall maintain an agreement, held unobjectionable by the commissioner, with an unrelated subsequent provider who may be an insurer, a health facility or medical service corporation, another licensed plan, or a governmental organization to provide the payment of the cost of the originally contracted health care service or to provide the originally contracted health care service in the event the plan ceases to do business, because of business failure, suspension of or revocation of its license, or any other reason. For purposes of this section, "unrelated subsequent provider" means a person who is not, directly or indirectly, controlled by, under common control with, or in control of the plan or of any officer, director, employee, or person providing financial support of the plan. Upon a finding by the commissioner that the purposes of this chapter and the public interest are fully served, the commissioner may waive the requirement that the subsequent provider shall be an unrelated entity.

(b) In the event of failure, suspension or revocation of a plan, the subsequent provider shall, at least 15 days prior to cessation of operation, notify in writing, all subscribers and enrollees as to such cessation and as to the manner in which health care services will be paid for or provided to them after the cessation date by the subsequent provider.

(c) The requirement of a subsequent provider of health care

services to subscribers and enrollees in the event of a discontinuance of services may be satisfied by an agreement between two or more plans licensed under this chapter. Such agreement shall be expressly approved by the commissioner, if the commissioner finds that:

(1) Each plan has the financial resources to meet such an obligation.

(2) Each plan has facilities sufficiently close to the service area of the other to minimize inconvenience to subscribers and enrollees of the nonfunctioning plan.

(3) Each plan has the personnel available, or can obtain the personnel, to provide adequate services to the subscribers and enrollees of the nonfunctioning plan.

(d) After five continuous years of active operation, a plan may apply to the commissioner for an exemption from the requirements of this section. Any plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the Government Code prior to its repeal shall be able to count its years of continuous operation under Article 2.5 towards the exemption requirements of this subdivision. The commissioner shall grant such an exemption if the commissioner finds upon application that:

(1) In the case of a plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the Government Code prior to its repeal, the plan has continuously maintained for the preceding 12-month period a tangible net equity of not less than seven hundred fifty thousand dollars ($750,000). The commissioner may waive the provisions of this paragraph if the commissioner finds such action to be in the public interest.

(2) The plan has not been found to be significantly in violation of the fiscal requirements of this chapter in the preceding two years.

(3) The commissioner specifically finds that the operation of the plan is such that the subscribers and enrollees are protected from the likelihood of the plan's failure.

(e) If after having been granted the exemption contained in subdivision (d), the plan fails to meet the requirements of the exemption, the provisions requiring insurance or a subsequent provider shall be reapplied by the commissioner following a hearing.

(f) Upon denial of the application, the commissioner shall notify the applicant in writing, stating the reasons for the denial and that the applicant has the right to a hearing if the applicant makes a written request within 30 days after the date of the mailing of the notice of denial.

1376. (a) No plan or solicitor firm shall conduct any activity regulated by this chapter in contravention of such rules and regulations as the commissioner may prescribe by adoption as necessary or appropriate in the public interest or for the protection of plans, subscribers, and enrollees to provide safeguards with respect to the financial responsibility of plans and solicitor firms. Such rules and regulations may require a minimum capital or net worth, limitations on indebtedness, procedures for the handling of

funds or assets, including segregation of funds, assets and net worth, the maintenance of appropriate casualty and fire insurance and a fidelity bond, and the maintenance of a surety bond in an amount not exceeding ten thousand dollars ($10,000).

(b) The surety bond referred to in subdivision (a) shall be conditioned upon compliance by the licensee with the provisions of this chapter and the rules and regulations adopted pursuant to this chapter and orders issued under this chapter. Such bond, unless previously canceled, shall apply to the entire period that the license is in effect. Every surety bond shall provide that no suit may be maintained to enforce any liability thereon unless brought within two years after the act upon which such suit is based, and shall also provide that the liability of the surety on such bond to all persons aggrieved shall, in no event, exceed in the aggregate the amount thereof. Every such bond shall also contain a provision authorizing the surety thereon to cancel the bond upon 30 days' written notice to the licensee and to the commissioner; except that such cancellation shall not affect any liability incurred or accrued prior to the effective date of such cancellation.

(c) Any appropriate deposits of cash or securities shall be accepted in lieu of the surety bond required pursuant to subdivision (a).

1377. (a) Every plan which reimburses providers of health care service that do not contract in writing with the plan to provide health care services for a specified consideration, or which reimburses its subscribers or enrollees for expenditures incurred in having received health care service from providers that do not contract with the plan, in an amount which exceeds 10 percent of its total expenditures for health care services for the immediately preceding two calendar quarters, shall either (1) maintain cash or equivalents at least equal to the aggregate sum of the last four months of reimbursable payments which were made and accrued to such providers of service and its subscribers and enrollees, or (2) maintain adequate insurance to compensate for any loss resulting from the insolvency of the plan; provided however, that the commissioner may waive or reduce these requirements to such amount as the commissioner deems sufficient to protect subscribers and enrollees of such plan. Every plan shall promptly report to the commissioner whenever such reimbursables exceed 10 percent of its total expenditures for health care services over the immediately preceding two calendar quarters.

(b) Every plan which reimburses providers of health care service on a fee-for-services basis; or which directly reimburses its subscribers or enrollees, to an extent exceeding 10 percent of its total payments for health care services, shall estimate and record in the books of account a liability for incurred and unreported claims. Upon a determination by the commissioner that the estimate is inadequate, the commissioner may require the plan to increase its estimate of incurred and unreported claims. Every plan shall promptly report to the commissioner whenever such reimbursables

exceed 10 percent of its total expenditures for health care services.

As used herein the term "fee-for-services" refers to the situation where the amount of reimbursement paid by the plan to providers of service is determined by the amount and type of service rendered by the provider of service.

1378. No plan shall expend for administrative costs in any fiscal year an excessive amount of the aggregate dues, fees and other periodic payments received by the plan for providing health care services to its subscribers or enrollees. The term "administrative costs," as used herein, includes costs incurred in connection with the solicitation of subscribers or enrollees for the plan.

This section shall not preclude a plan from expending additional sums of money for administrative costs provided such money is not derived from revenue obtained from subscribers or enrollees of the plan.

1379. (a) Every contract between a plan and a provider of health care services shall be in writing, and shall set forth that in the event the plan fails to pay for health care services as set forth in the subscriber contract, the subscriber or enrollee shall not be liable to the provider for any sums owed by the plan.

(b) In the event that the contract has not been reduced to writing as required by this chapter or that the contract fails to contain the required prohibition, the contracting provider shall not collect or attempt to collect from the subscriber or enrollee sums owed by the plan.

(c) No contracting provider, or agent, trustee or assignee thereof, may maintain any action at law against a subscriber or enrollee to collect sums owed by the plan.

1380. (a) The department shall conduct periodically an onsite medical survey of the health delivery system of each plan. The survey shall include a review of the procedures for obtaining health services, the procedures for regulating utilization, peer review mechanisms, internal procedures for assuring quality of care, and the overall performance of the plan in providing health care benefits and meeting the health needs of the subscribers and enrollees.

(b) The survey shall be conducted by a panel of qualified health professionals experienced in evaluating the delivery of prepaid health care. The department shall be authorized to contract with professional organizations or outside personnel to conduct medical surveys. Such organizations or personnel shall have demonstrated the ability to objectively evaluate the delivery of health care by plans or health maintenance organizations.

(c) Surveys performed by this section shall be conducted as often as deemed necessary by the commissioner to assure the protection of subscribers and enrollees, but not less frequently than once every five years. Nothing in this section shall be construed to require the survey team to visit each clinic, hospital office, or facility of the plan. To avoid duplication the commissioner shall employ, but is not bound by, the following:

(1) In hospital-based health care service plans, to the extent necessary to satisfy the requirements of this section, the findings of inspections conducted pursuant to Section 1279 of this code.

(2) In health care service plans contracting with the State Department of Health pursuant to the Waxman-Duffy Prepaid Health Plan Act, the findings of reviews conducted pursuant to Section 14456 of the Welfare and Institutions Code.

(3) To the extent feasible, reviews of providers conducted by professional standards review organizations.

(d) Nothing in this section shall be construed to require the medical survey team to review medical records. However, the commissioner shall be authorized to require such review where necessary to determine that quality health care is being delivered to subscribers and enrollees. Where medical record review is authorized, the survey team shall insure that the confidentiality of physician-patient relationship is safeguarded in accordance with existing law and neither the survey team nor the commissioner or the commissioner's staff may be compelled to disclose such information except in accordance with the physician-patient relationship.

(e) The procedures and standards utilized by the survey team shall be made available to the plans prior to the conducting of medical surveys.

(f) During the survey the members of the survey team shall offer such advice and assistance to the plan as deemed appropriate.

(g) The commissioner shall notify the plan of deficiencies found by the survey team. The commissioner shall give the plan a reasonable time to correct the deficiencies and failure on the part of the plan to comply to the commissioner's satisfaction shall constitute cause for disciplinary action against the plan.

(h) Reports of all surveys, deficiencies, and correction plans shall be open to public inspection, except that no surveys, deficiencies, or correction plans shall be made public unless the plan has had an opportunity to review the survey and file a statement or response within 30 days, to be attached to the report. Deficiencies shall not be made public if they are corrected within 30 days of the date that the plan was notified.

(i) Nothing in this section shall be construed as affecting the commissioner's authority pursuant to Article 7 (commencing with Section 1386) or Article 8 (commencing with Section 1390) of this chapter.

1381. (a) All records, books, and papers of a plan, management company, and any provider or subcontractor providing health care or other services to a plan, or management company shall be open to inspection during normal business hours by the commissioner.

(b) To the extent feasible, all such records, books, and papers described in subdivision (a) shall be located in this state. In examining such records outside this state, the commissioner shall consider the cost to the plan, consistent with the effectiveness of the

commissioner's examination, and may upon reasonable notice require that such records, books and papers, or a specified portion thereof, be made available for examination in this state, or that a true and accurate copy of such records, books and papers, or a specified portion thereof, be furnished to the commissioner.

1382. (a) The commissioner shall conduct an examination of the fiscal and administrative affairs of any plan, and each person with whom the plan has made arrangements with for administrative, management, or financial services, as often as deemed necessary to protect the interest of subscribers or enrollees, but not less frequently than once every five years.

(b) The expense of conducting an examination pursuant to this section, and of the medical survey pursuant to Section 1379, shall be charged against the plan being examined or surveyed. The amount shall include the actual salaries or compensation paid to the persons making such examination or survey, the expenses incurred in the course thereof, and overhead costs in connection therewith as fixed by the commissioner. The amount charged shall be remitted by the plan to the commissioner.

1383. Every plan licensed pursuant to this chapter shall file an annual report with the department. Such report shall be filed on or before the 15th day of September of each year and shall be for the preceding fiscal year ending the 30th day of June. Except as otherwise provided herein, the information required in the annual report shall be provided upon request to the plan's enrollees and subscribers, and interested members of the public.

(a) The annual report shall be verified by a person responsible for conduct of the affairs of the licensee within the meaning of Section 1351.

(b) The report shall be made in a form prescribed by the commissioner and shall include the following:

(1) A financial statement of the plan including its balance sheet and statement of income and expense for the plan's most recently completed fiscal year together with a balance sheet as of June 30th of the year in which the report is made and a profit and loss statement for the period from the close of the plan's fiscal year to such June 30th. All such financial statements shall be prepared on an accrual basis.

(2) The statistical report required by the commissioner pursuant to Section 1371.

(3) Such other information relating to the performance or organization of the plan as the commissioner deems necessary to carry out the provisions of this chapter. The commissioner may provide that specified information furnished pursuant to this paragraph be withheld from public inspection for an appropriate period, if the commissioner finds that such action is necessary for the protection of plans and in the public interest; but nothing in this paragraph shall preclude the commissioner from making such information public when in the commissioner's opinion the public

interest so requires.

(c) For purposes of this section, a plan may provide the information required in the annual report to its subscribers and enrollees by publication in any annual mailing designed to reach individual subscribers and enrollees at their regular mailing address.

1384. (a) Within 90 days after receipt of a request from the commissioner, a plan or other person subject to this chapter shall submit to the commissioner an audit report containing audited financial statements covering the 12 calendar months next preceding the month of receipt of the request, or such other period as the commissioner may require. Unless the public interest shall otherwise require, the commissioner shall exempt a licensee from the provisions of Section 1383, in whole or in part, if such licensee has complied with a request pursuant to this subdivision for financial statements as of a date within the calendar or fiscal year for which such exemption is granted.

(b) A plan whose license has been surrendered or revoked shall submit to the commissioner on or before 105 days after the effective date of such surrender or revocation, a closing audit report containing audited financial statements as of such effective date for the 12 months ending with such effective date, or for such other period as the commissioner may specify Such report shall include the information requested by Section 1383 and other relevant information specified by the commissioner. A licensee who has complied with this subdivision is exempted from Section 1383.

(c) The reports and financial statements referred to in subdivisions (a) and (b) of this section and in Section 1383 shall include at least a balance sheet and a statement of income for the year ended on the balance sheet date together with such other relevant information as the commissioner may require, and shall be prepared in accordance with generally accepted accounting principles and shall be accompanied by a report, certificate, or opinion of an independent certified public accountant or independent public accountant. The audits shall be conducted in accordance with generally accepted auditing standards and the rules and regulations of the commissioner.

(d) A plan or solicitor firm shall make such special reports to the commissioner as the commissioner may from time to time require.

(e) For good cause and upon written request, the commissioner may extend the time for compliance with subdivisions (a), (b) and (h) of this section and Section 1383.

(f) A plan or solicitor firm shall, when requested by the commissioner, for good cause, submit its unaudited financial statement, prepared in accordance with generally accepted accounting principles and consisting of at least a balance sheet and statement of income as of the date and for the period specified by the commissioner. The commissioner may require the submission of such reports on a monthly or other periodic basis.

(g) If the report, certificate, or opinion of the independent

accountant referred to in subdivision (c) is in any way qualified, the commissioner may require the plan to take such action as the commissioner deems appropriate to permit an independent accountant to remove such qualification from the report, certificate, or opinion.

(h) The commissioner may reject any financial statement, report, certificate, or opinion filed pursuant to this section by notifying the plan or solicitor firm required to make such filing of its rejection and the cause thereof. Within 30 days after the receipt of such notice, the licensee shall correct such deficiency, and the failure so to do shall be deemed a violation of this chapter. The commissioner shall retain a copy of all filings so rejected.

(i) The commissioner may make rules and regulations specifying the form and content of the reports and financial statements referred to in this section, and may require that such reports and financial statements be verified by the licensee in such manner as the commissioner may prescribe.

1385. Each plan, solicitor firm, and solicitor shall keep and maintain current such books of account and other records as the commissioner may by rule require for the purposes of this chapter. Every plan shall require all providers who contract with the plan to report to the plan in writing all surcharge and copayment moneys paid by subscribers and enrollees directly to such providers, unless the commissioner expressly approves otherwise.

Article 7. Discipline

1386. (a) The commissioner may suspend or revoke a license issued under this chapter to a health care service plan or specialized health care service plan or assess civil penalties if the commissioner determines that the licensee has committed any of the acts or omissions constituting grounds for disciplinary action.

(b) The following acts or omissions constitute grounds for disciplinary action by the commissioner.

(1) The plan is operating at variance with the basic organizational documents as filed pursuant to Section 1351 or 1352, or with its published plan, or in any manner contrary to that described in, and reasonably inferred, from the plan as contained in its application for licensure and annual report, or any modification thereof, unless amendments allowing such variation have been submitted to, and approved by, the commissioner.

(2) The plan has issued evidence of coverage or uses a schedule of charges for health care services which do not comply with those published in the latest evidence of coverage found unobjectionable by the commissioner.

(3) The health care service plan does not provide basic health care services to its enrollees and subscribers as set forth in the evidence of coverage This subdivision shall not apply to specialized health care service plans.

(4) The plan is no longer able to meet the standards set forth in Article 5 (commencing with Section 1369).

(5) The continued operation of the plan will constitute a substantial risk to its subscribers and enrollees.

(6) The plan has violated or attempted to violate, or conspired to violate, directly or indirectly, or assisted in or abetted a violation or conspiracy to violate any provision of this chapter or any rule or regulation adopted by the commissioner pursuant to this chapter.

(7) The plan has engaged in any conduct which constitutes fraud or dishonest dealing or unfair business practice as defined by Section 3369 of the Civil Code.

(8) The plan has permitted, or aided or abetted any violation by an employee or contractor who is a holder of any certificate, license, permit, registration or exemption issued pursuant to the Business and Professions Code, or the Health and Safety Code which would constitute grounds for discipline against such certificate, license, permit, registration, or exemption.

(9) The plan has aided or abetted or permitted the commission of any illegal act.

(10) The engagement of a person as an officer, director, associate, or provider of the plan contrary to the provisions of an order issued by the commissioner pursuant to subdivision (c).

(11) The plan, its management company, or any other affiliate of the plan, or any controlling person, officer, director, or other person occupying a principal management or supervisory position in such plan, management company or affiliate, has been convicted of either a misdemeanor involving moral turpitude or a felony and the commissioner finds that the misdemeanor or felony is reasonably related to the administration of the law. A plea or verdict of guilty or a conviction following a plea of nolo contendere is a conviction within the meaning of this subdivision. The commissioner may revoke or deny a license hereunder irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(c) The commissioner may prohibit any person from serving as an officer, director, associate, or provider of any plan if such person was an officer, director, associate, or provider of a plan whose license has been suspended or revoked pursuant to this section and such person had knowledge of, or participated in, any of the prohibited acts for which such license was suspended or revoked. A proceeding for the issuance of an order under this subdivision may be included with a proceeding against a plan under this section or may constitute a separate proceeding, subject in either case to notice and hearing to the person affected in accordance with the provisions of subdivision (a) of Section 1397.

1387. (a) In addition to suspension or revocation of a license issued under this chapter, the commissioner may levy a civil penalty. The civil penalty may be in lieu of, or in addition to, the penalties of suspension or revocation.

(b) The amount of the civil penalty may not be less than one

hundred dollars ($100) nor more than two thousand five hundred dollars ($2,500) for each violation of this chapter.

1388. The commissioner may, after hearing, suspend or revoke the license of any solicitor or solicitor firm licensed under this chapter for any of the reasons set forth in Section 1360.

1389. (a) A person whose license has been revoked, or suspended for more than one year, may petition the commissioner to reinstate the license as provided by Section 11522 of the Government Code. No petition may be considered if the petitioner is under criminal sentence for a violation of this chapter, or any offense which would constitute grounds for discipline, or denial of licensure under this chapter, including any period of probation or parole.

(b) The petition for restoration shall be in the form of an application for the appropriate license and the commissioner may condition the granting of such petition upon payment of the fees for the current year prescribed by Section 1357 or 1359.1, as may be appropriate, and if such fees have not been paid, upon the filing of the report required by Section 1383 if the petitioner is a plan.

(c) If a license issued under this chapter is suspended, the holder thereof shall not be entitled to operate during the term of suspension.

Article 8. Other Enforcement Procedures

1390. Any person who willfully violates any provision of this chapter or of any rule or order thereunder shall upon conviction be fined not more than ten thousand dollars ($10,000) or imprisoned in the state prison for not more than 10 years or in a county jail for not more than one year, or be punished by both such fine and imprisonment, but no person may be imprisoned for the violation of any rule or order if it is proven that such person had no knowledge of the rule or order.

1391. The commissioner, acting in the name of the state, may issue an order directing a plan, solicitor firm, or any representative thereof, or solicitor to cease and desist from engaging in any act or practice in violation of the provisions of this chapter.

Within 15 days after service of the order of cease and desist, the respondent may request a hearing on the question of whether acts or practices in violation of this article have occurred. If a timely request for a hearing is made, such request shall automatically stay the effect of the order only to the extent that such order either requires the cessation of operation of the plan or prohibits acceptance of new members by the plan, unless reports or documents submitted to the commissioner by the plan pursuant to this chapter shall on their face show that the plan is in violation of any fiscal requirement of this chapter. In the event of such automatic stay, only that portion of the order requiring cessation of operation or prohibiting enrollment shall be stayed and all other portions of the

order shall remain effective. If a hearing is held, and a finding is made that the health or safety of the members and potential members of the plan might be adversely affected by its continued operation, the stay shall be terminated. Such a finding shall be made, if at all, not later than 30 days after the date of the hearing.

1392. In the case of any violation of the provisions of this chapter, the commissioner, through the Attorney General, may institute a proceeding to obtain injunctive or other equitable relief, including the appointment of a receiver or conservator for the defendant or the defendant's assets, in the superior court in and for the county in which the violation occurs, or in which the principal place of business of the plan is located. The proceeding under this section shall conform with the requirements of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, except that no undertaking shall be required of the commissioner in any action commenced under this section, nor shall the commissioner be required to allege facts necessary to show lack of adequate remedy at law, or to show irreparable loss or damage.

Upon a proper showing, the court shall grant the relief provided by law and requested by the commissioner.

A receiver or conservator appointed by the superior court pursuant to this section may, with the approval of the court, exercise all of the powers of the officers and directors of the plan, including the filing of a petition for bankruptcy. No action at law or in equity may be maintained by any party against the commissioner, or a receiver or conservator, by reason of their exercising the powers of the officers and directors of a plan pursuant to the order of, or with the approval of, the superior court.

1393. (a) The superior court of the county in which is located the principal office of the plan in this state shall, upon the filing by the commissioner of a verified application showing any of the conditions enumerated in Section 1386 to exist, issue its order vesting title to all of the assets of the plan, wheresoever situated, in the commissioner or the commissioner's successor in office, in his official capacity as such, and direct the commissioner to take possession of all of its books, records, property, real and personal, and assets, and to conduct, as conservator, the business or portion of the business of the person to the commissioner as may seem appropriate, and enjoining the person and its officers, directors, agents, servants, and employees from the transaction of its business or disposition of its property until the further order of the court.

(b) Whenever it appears to the commissioner that irreparable loss and injury to the property and business of the plan has occurred or may occur unless the commissioner acts immediately, the commissioner, without notice and before applying to the court for any order, shall take possession of the property, business, books, records and accounts of such plan, and of the offices and premises occupied by it for the transaction of its business, and retain possession subject to the order of the court. Any person having possession of and

refusing to deliver any of the books, records or assets of a plan against whom a seizure order has been issued by the commissioner, shall be guilty of a misdemeanor and punishable by fine not exceeding one thousand dollars ($1,000) or imprisonment not exceeding one year, or both such fine and imprisonment.

1394. The civil, criminal, and administrative remedies available to the commissioner pursuant to this article are not exclusive, and may be sought and employed in any combination deemed advisable by the commissioner to enforce the provisions of this chapter.

Article 9. Miscellaneous

1395. (a) Notwithstanding Article 6 (commencing with Section 650) of Chapter 1 of Division 2 of the Business and Professions Code, any health care service plan or specialized health care service plan may solicit or advertise with regards to the cost of subscription or enrollment, facilities and services rendered, provided, however, Article 5 (commencing with Section 600) of Chapter 1 of Division 2 of the Business and Professions Code remains in effect.

(b) Plans licensed under this chapter shall not be deemed to be engaged in the practice of a profession, and may employ, or contract with, any professional licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code to deliver professional services. Employment by or a contract with a plan as a provider of professional services shall not constitute a ground for disciplinary action against a health professional licensed pursuant to Division 2 (commencing with Section 500) of the Business and Professions Code by a licensing agency regulating a particular health care profession.

(c) A health care service plan licensed under this chapter may directly own, and may directly operate through its professional employees or contracted licensed professionals, such offices as are necessary to provide health care services to the plan's subscribers and enrollees.

(d) A professional licensed pursuant to the provisions of Division 2 (commencing with Section 500) of the Business and Professions Code who is employed by, or under contract to, a plan may not own or control offices or branch offices beyond those expressly permitted by the provisions of the Business and Professions Code.

(e) Nothing in this chapter shall be construed to repeal, abolish or diminish the effect of Section 431 of the Health and Safety Code.

(f) Except as specifically provided in this chapter, nothing in this chapter shall be construed to limit the effect of the laws governing professional corporations, as they appear in applicable provisions of the Business and Professions Code, upon specialized health care service plans.

1396. (a) All entities registered and operating under the Knox-Mills Health Plan Act as of January 1, 1975, shall be licensed under this chapter provided they meet all provisions of this chapter

If a fixed amount is specified in such plan for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the plan. Where the plan contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery; however, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the plan.

Where a plan which provides or arranges direct health care services for its members contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from

prenatal care and delivery. However, expenses resulting from any delivery in excess of the deductible amount shall be treated as expenses for any other illness under the plan. If the pregnancy is interrupted, the maternity deductible charged for prenatal care and delivery shall be based on the value of the medical services received, providing that it is never more than two-thirds of the plan's maternity deductible.

This section shall apply to all health care service plans except any group health service plan made subject to an applicable collective-bargaining agreement in effect before July 1, 1976.

For purposes of this section, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

All health care service plans subject to this section and issued, amended, delivered, or renewed in this state on or after July 1, 1976, shall be construed to be in compliance with this section, and any provision in any such plan which is in conflict with this section shall be of no force or effect.

SEC. 2. Section 10119.5 is added to the Insurance Code, to read:

10119.5. No policy of disability insurance which provides maternity benefits for a person covered continuously from conception shall be issued, amended, delivered, or renewed in this state on or after July 1, 1976, if it contains any exclusion, reduction, or other limitations as to coverage, deductibles, or coinsurance provisions, as to involuntary complications of pregnancy, unless such provisions apply generally to all benefits paid under the policy. If a fixed amount is specified in such policy for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the policy. Where the policy contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery; however, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the policy. This section shall apply to all disability policies except (1) individual noncancelable or guaranteed renewable policies, as defined in Sections 10273 and 10273.3 of this code, issued or delivered before July 1, 1976, and (2) any group disability policy made subject to an applicable collective-bargaining agreement in effect before July 1, 1976.

With respect to such individual noncancelable or guaranteed renewable policies issued or delivered before July 1, 1976, the insurer shall communicate the availability of coverage of involuntary complications of pregnancy when negotiating any changes in such policies.

For purposes of this section, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

All policies subject to this section and issued, amended, delivered, or renewed in this state on or after July 1, 1976, shall be construed to be in compliance with this section, and any provision in any such policy which is in conflict with this section shall be of no force or effect.

SEC. 3. Section 10121 of the Insurance Code is amended to read:

10121. (a) No self-insured employee welfare benefit plan, issued or renewed on or after the effective date of this section, which contains coverage for sterilization operations or procedures, shall impose any disclaimer, restriction on, or limitation of, coverage relative to the covered individual's reason for sterilization. All such plans entered into or renewed on or after the effective date of this section shall be construed to be in compliance with this section, and any provision in any such plan which is in conflict with this section shall be of no force or effect.

(b) Every self-insured employee welfare benefit plan issued or amended on or after the operative date of the amendments to this section enacted at the 1971 Regular Session of the Legislature which provides benefits to the employee's dependents, shall contain a provision granting immediate accident and sickness coverage, from and after the moment of birth, to each newborn infant of any family covered. No such plan may be issued or amended if it contains any disclaimer, waiver, or other limitation of coverage relative to the coverage or insurability of newborn infants of a family covered from and after the moment of birth.

(c) No self-insured employee welfare benefit plan which provides maternity benefits for a person covered continuously from conception shall be issued, amended, delivered, or renewed in this state on or after July 1, 1976, if it contains any exclusion, reduction, or other limitations as to coverage, deductibles, or coinsurance provisions as to involuntary complications of pregnancy, unless such provisions apply generally to all benefits paid under the plan. If a fixed amount is specified in such plan for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the plan. Where the plan contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery; however, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the plan. This subdivision shall apply to all self-insured employee welfare benefit plans except any such plan made subject

to an applicable collective-bargaining agreement in effect before July 1, 1976.

For purposes of this subdivision, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

All plans subject to this subdivision and issued, amended, delivered, or renewed in this state on or after July 1, 1976, shall be construed to be in compliance with this section, and any provision in any such plan which is in conflict with this section shall be of no force or effect.

(d) As used in this section, "self-insured employee welfare benefit plan" means any plan or program of benefits provided by an employer or an employee organization, or both, for the purpose of providing hospital, medical, surgical, nursing, or dental services, or indemnification for the costs incurred for such services, to such employer's employees or their dependents.

SEC. 4. Section 11512.13 is added to the Insurance Code, to read:

11512.13. No hospital service contract which provides maternity benefits for a person covered continuously from conception shall be issued, amended, delivered, or renewed in this state on or after July 1, 1976, if it contains any exclusion, reduction, or other limitations as to coverage, deductibles, or coinsurance provisions as to involuntary complications of pregnancy, unless such provisions apply generally to all benefits paid under the contract. If a fixed amount is specified in such contract for surgery, the fixed amounts for surgical procedures involving involuntary complications of pregnancy shall be commensurate with other fixed amounts payable for procedures of comparable difficulty and severity. In a case where a fixed amount is payable for maternity benefits, involuntary complications of pregnancy shall be deemed an illness and entitled to benefits otherwise provided by the contract. Where the contract contains a maternity deductible, the maternity deductible shall apply only to expenses resulting from normal delivery and cesarean section delivery; however, expenses for cesarean section delivery in excess of the deductible shall be treated as expenses for any other illness under the contract. This section shall apply to all hospital service contracts except any group hospital service contract made subject to an applicable collective-bargaining agreement in effect before July 1, 1976.

For purposes of this section, involuntary complications of pregnancy shall include, but not be limited to, puerperal infection, eclampsia, cesarean section delivery, ectopic pregnancy, and toxemia.

(3) Routes which provide linkage or access to natural, scenic, historic, or recreational areas of clear statewide significance.

(4) Routes which are, or may be, the subject of agreements providing for participation of other public agencies in state trail acquisition, development, or maintenance.

(b) Where feasible, trail uses may be combined on routes within the system; however, where trail use by motor vehicles is incompatible with other trail uses, separate areas and facilities should be provided.

(c) Trails should be located and managed so as to restrict trail users to established routes and to aid in effective law enforcement.

(d) Trails should be located so as to avoid severance of private property and to minimize impact on adjacent landowners and operations. The location of any trail authorized by this article shall, if the property owner so requests, be placed as nearly as physically practicable to the boundary lines of the property traversed by the trail, as such boundary lines existed as of January 1, 1975.

(f) Trails should be planned as a system and each trail segment should be part of the overall system plan.

(g) Trails should be appropriately signed to provide identification, direction, and information.

(h) Rest areas, shelters, sanitary facilities, or other conveniences should be designed and located to meet the needs of trail users and

to prevent intrusion into surrounding areas.

(i) The department shall erect fences along any trail when requested to do so by the owner of adjacent land, or with the consent of the owner of such land when the department determines it will be in the best interests of the users of the trail and adjoining property owners, and shall place gates in such fences when necessary to afford proper access and at each point of intersection with existing roads, trails, or at used points of access to or across such trail. The department shall maintain such fences and gates in good condition.

(j) A landowner's right to conduct agricultural, timber harvesting, or mining activities on private lands adjacent to, or in the vicinity of, a trail shall not be restricted because of the presence of the trail.

SEC. 2. Section 5075.7 of the Public Resources Code is amended to read:

5075.7. Each study of potential trail routes for inclusion in the system shall include an evaluation of the impact of the proposed trail route on adjacent landowners. In conducting studies of potential trail routes for inclusion in the system, the director shall give priority to the following:

(a) A trail route linking state parks, federal recreation areas, and other areas of statewide or national significance located in coastal areas.

(b) A trail route through the Sacramento-San Joaquin Delta linking scenic and recreation areas of the San Francisco Bay area with state and federal recreation areas in the Lake Tahoe Basin.

(c) East-west trail routes for nonmotorized use linking the state coastal trail route with the existing Pacific Crest Trail.

(d) Trail routes designed principally for boaters along the following waterways:

(1) Eel River in Humboldt, Mendocino, and Trinity Counties.

(2) Smith River in Del Norte County.

(3) Russian River in Sonoma and Mendocino Counties.

(4) Big River in Mendocino County.

(5) Albion River in Mendocino County.

(6) Navarro River in Mendocino County.

(7) Feather River from Thermalito Afterbay to mouth.

(8) Sacramento River from Keswick Dam to mouth.

(9) American River from Folsom Dam to mouth.

(10) South Fork of American River from Coloma to Folsom Lake.

(11) Tuolumne River from O'Shaughnessy Dam to New Don Pedro Reservoir.

(12) Stanislaus River from the Stanislaus Power House to Melones Reservoir.

(13) Colorado River from Needles to the international boundary.

CHAPTER 946

An act to add Section 6815.2 to the Public Resources Code, relating to oil and gas.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 6815.2 is added to the Public Resources Code, to read:

6815.2. (a) Notwithstanding Section 6815.1, and to the extent permitted by federal law and the federal and state constitutions, the commission may take any oil, gas, or other hydrocarbons taken in kind by it, pursuant to any lease or agreement, and exchange it, by competitive bidding, for refined products which shall be allocated to state agencies and to other public agencies, if the State Energy Resources Conservation and Development Commission, established pursuant to Division 15 (commencing with Section 25000), after a public hearing, finds, in its judgment, that such retention and allocation is necessary to alleviate fuel shortage conditions or will effect a substantial cost saving to the state.

(b) The commission may make and enter into contracts or agreements for exchange of such oil, gas, and other hydrocarbons taken in kind for finished products required for use by state and other public agencies. Such contracts or agreements shall be entered into by competitive bids. The commission may reject all bids, if it determines that they are not in the public interest.

(c) The commission shall charge the state or other public agencies allocated refined products the current market price of these products including all applicable taxes. This price shall not be less than the value of the oil, gas, or other hydrocarbons which would have been received by the state if not taken in kind. The revenue, including taxes generated by these sales, shall be subject to the terms and conditions enumerated in Section 6217.

(d) The refined products obtained from such exchange contracts or agreements shall be allocated to state agencies and to other public agencies in accordance with the regulations which shall be adopted, after a public hearing, by the State Energy Resources Conservation and Development Commission.

CHAPTER 947

An act to amend Section 1810.3 of the Civil Code, relating to retail installment accounts, and making an appropriation therefor.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1810.3 of the Civil Code is amended to read:

1810.3. (a) Except in the case of an account which the seller deems to be uncollectible or with respect to which delinquency collection procedures have been instituted, the seller of any retail installment account shall mail or deliver to the buyer for each billing cycle at the end of which there is an outstanding debit balance in excess of one dollar ($1) in that account or with respect to which a finance charge is imposed, a statement or statements which the buyer may retain, setting forth in accordance with subdivision (b) each of the following items to the extent applicable:

(1) The outstanding balance in the account at the beginning of the billing cycle, using the term "previous balance."

(2) The amount and date of each extension of credit or the date such extension of credit is debited to the account during the billing cycle and, unless previously furnished, a brief identification of any goods or services purchased or other extension of credit.

(3) The total amounts credited to the account during the billing cycle for payments, using the term "payment," and for other credits, including returns, rebates of finance charges, and adjustments, using the term "credits," and unless previously furnished, a brief identification of each of the items included in such other credits.

(4) The amount of any finance charge, using the term "finance charge," debited to the account during the billing cycle, itemized and identified to show the amounts, if any, due to the application of periodic rates and the amount of any other charge included in the finance charge, such as a minimum charge, using appropriate descriptive terminology.

(5) Each periodic rate, using the term "periodic rate" (or "rates"), that may be used to compute the finance charge (whether or not applied during the billing cycle), and the range of balances to which it is applicable.

(6) The balance on which the finance charge was computed, and a statement of how that balance was determined. If any balance is determined without first deducting all credits during the billing cycle, that fact and the amount of such credits shall also be disclosed.

(7) The closing date of the billing cycle and the outstanding balance in the account on that date, using the term "new balance," accompanied by the statement of the date by which, or the period, if any, within which, payment must be made to avoid additional finance charges.

(b) The disclosures required by subdivision (a) shall be made on the face of the periodic statement, on its reverse side, or on the periodic statement supplemented by separate statement forms provided they are enclosed together and delivered to the customer at the same time, and further provided that

(1) The disclosures required by paragraph (1) of subdivision (a) shall appear on the face of the periodic statement. If the amounts and dates of the charges and credits required to be disclosed under paragraphs (2) and (3) of subdivision (a) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate statement or separate slips which shall accompany the periodic statement and identify each charge and credit and show the date and amount thereof. Identification of goods or services purchased may be made on an accompanying slip or by symbol relating to an identification list printed on the statement. If the disclosures required under paragraph (4) of subdivision (a) are not itemized on the face or reverse side of the periodic statement, they shall be disclosed on a separate statement which shall accompany the periodic statement.

(2) The disclosures required by paragraph (5) of subdivision (a) and a reference to the amounts required to be disclosed under paragraphs (4) and (6) of subdivision (a), if not disclosed together on the face or the reverse side of the periodic statement, shall appear together on the face of a single supplemental statement which shall accompany the periodic statement.

(3) The face of the periodic statement shall contain one of the following notices, as applicable: "NOTICE: See reverse side for important information" or "NOTICE: See accompanying statement(s) for important information" or "NOTICE: See reverse side and accompanying statement(s) for important information"; and

(4) The disclosures shall not be separated so as to confuse or mislead the customer or obscure or detract attention from the information required to be disclosed.

(c) If any change is to be made in terms of a retail installment account previously disclosed to the buyer, the seller shall mail or deliver to the buyer written disclosure of such proposed change not less than 30 days prior to the effective date of such change or 30 days prior to the beginning of the billing cycle within which such change will become effective, whichever is the earlier date.

(d) If any outstanding credit balance in excess of one dollar ($1) exists in a retail installment account, the seller shall mail or deliver to the buyer at the end of the billing cycle in which the credit balance is created either: (i) a cash refund in the amount of such outstanding credit; or (ii) a statement setting forth the credit balance, and thereafter shall mail or deliver to the buyer a statement setting forth the credit balance no fewer than two additional times during the six-month period following creation of the credit balance. If the credit balance exists for a period of 90 days, the seller shall, at his option, do either of the following:

(1) Notify the buyer of his right to request and receive a cash refund in the amount of such outstanding credit balance in two successive statements covering, respectively, each of the two successive billing cycles immediately following the 90-day period.

Such notice is to be accomplished by a clear and conspicuous disclosure on or enclosed with each of the two successive statements, each of which shall be accompanied by a self-addressed return envelope. Such disclosure shall contain the following information and may be in the following form:

"We owe you _____. Your credit balance will be refunded on request. If you don't request a refund, six months from the first appearance of a 'credit balance' on your bill, your credit balance will be refunded automatically.

"If your credit balance is $1.00 or less, it will not be refunded unless requested, and after 6 months, it will not be credited against future purchases.

"You may obtain a refund of your credit balance by mail by presenting your statement at our store or by returning the top half of your statement in the enclosed envelope."

If between the sending of the first notice and the sending of the second notice required by this paragraph, the outstanding credit balance is refunded to the buyer or otherwise disposed of, the sending of the second notice shall not be required.

(2) Refund to the buyer the outstanding credit balance at any time after such credit balance is created in the buyer's account and prior to the date by which the first notice of the outstanding balance would have been sent had the seller elected to proceed under paragraph (1).

(e) (1) If a retail installment account with an outstanding credit balance in excess of one dollar ($1) which has been determined to be correct by the seller is dormant for a period of 180 days after such credit balance is created in the buyer's account, the seller shall mail or deliver a refund in the amount of the outstanding credit balance to the buyer at the buyer's last known address.

(2) If any refund is returned to the seller with a notification to the effect that the addressee is not located at the address to which it was sent, the seller shall make one remailing of the refund with an address correction request, and shall mail such refund to such corrected address, if it is obtained.

(3) If such refund reflecting an outstanding credit balance in excess of twenty-five dollars ($25) is again returned, the seller shall reinstate the full amount of the outstanding credit balance on the buyer's account to be retained and credited against future purchases for one year from the date on which the remailed refund was returned The seller may continue to attempt to obtain a current mailing address for the buyer by whatever means the seller deems appropriate Except as provided in subdivision (f), the seller shall not be required to take any further action with respect to sending any statement of the credit balance or otherwise with respect to the credit balance, unless the buyer of such an account thereafter requests a refund of such credit balance, in which event the seller

shall either make such refund or provide a written explanation as provided in paragraph (5) of this subdivision.

(4) If a remailed refund reflecting an outstanding credit balance of twenty-five dollars ($25) or less is again returned, the seller, except as provided in subdivision (f), shall not be required to take any further action with respect to sending any statement of the credit balance to the buyer or otherwise with respect to such credit balance, unless the buyer of such an account thereafter requests a refund of such credit balance, in which event the seller shall either make such refund or provide a written explanation as provided in paragraph (5) of this subdivision.

(5) If a buyer requests, in person or by mail, a refund of a credit balance in any amount which has been reflected at any time on such buyer's account, the seller shall, within 30 days of receipt of such request, either refund the amount requested, or furnish the customer with a written explanation, with supporting documentation when available, of the reasons for refusing to refund the amount requested.

(6) If a buyer, in writing, requests a seller to retain an outstanding credit balance on his account, the seller shall not be required to give notification as otherwise required by subdivisions (d) and (e).

(f) If an outstanding credit balance remains unrefundable for seven years from the date it was created in the buyer's account, then the amount of the buyer's outstanding credit balance shall escheat to the state as property included within Section 1520 of the Code of Civil Procedure. Such funds shall be paid or delivered to the State Controller, and may thereafter be claimed, as specified in Chapter 7 (commencing with Section 1500) of Title 10 of Part 4 of the Code of Civil Procedure.

(g) For the purposes of this section, an outstanding credit balance is created at the end of the billing cycle in which the credit balance is first recorded on a buyer's account and is created anew at the end of the billing cycle in which the recorded amount of an existing credit balance is changed because of the buyer's use of his account.

SEC. 2. This act applies only to credit balances created on or after January 1, 1976

CHAPTER 951

An act to add Chapter 8 (commencing with Section 21200) to Division 8 of the Business and Professions Code, relating to petroleum.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Chapter 8 (commencing with Section 21200) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 8. UNFAIR PRACTICES

21200 It is unlawful for any refiner, distributor, manufacturer, or transporter of motor vehicle fuels or oils engaged in business in this

state, either directly or indirectly, to discriminate in price between different purchasers of motor vehicle fuels or oils of like grade and quality, where the effect of such discrimination is to lessen competition, or to injure, destroy, or prevent competition with any person who either grants or knowingly receives the benefit of such discrimination, or with customers of either of them.

Upon proof being made, at any hearing on a complaint under this section, that there has been such discrimination in price, the burden of rebutting the prima facie case thus made by showing justification shall be upon the person charged with a violation of this section. Nothing herein contained shall prevent a seller rebutting the prima facie case thus made by showing that his lower price to any purchaser or purchasers was made in good faith to meet an equally low price of a competitor and was also offered to any other of his purchasers in competition with the purchaser or purchasers receiving such lower price. If such lower price should be incorporated into a term contract, no such contract shall as to such discriminatory price be valid for more than one year.

Nothing in this section shall prevent differentials which make only due allowance for differences in the cost of manufacture, marketing, transportation, sale, or delivery resulting from the differing methods or quantities in which such commodities are to such purchasers sold or delivered.

Nothing in this section shall prevent persons engaged in selling motor vehicle fuels or oils in this state from selecting their own customers in bona fide transactions and not in restraint of trade.

Nothing in this section shall prevent price changes from time to time where in response to changing conditions affecting the market for, or the marketability of, the products concerned, such as, but not limited to, actual or imminent deterioration of products, distress sales under court process, or sales in good faith in discontinuance of business in the products concerned.

Nothing in this section shall apply to the purchase of motor vehicle fuels or oils for their own use by state and local agencies or public utilities.

21201. The provisions of this chapter shall only apply to refiners, distributors, manufacturers, or transporters of petroleum products engaged in business in this state whose total production, gasoline refining capacity or sales volume at the wholesale level is 50,000 barrels a day or more.

21202. Any person injured by any violation of the provisions of this chapter may bring an action for the recovery of damages. Judgment may be entered for three times the amount at which the actual damages are assessed plus reasonable attorney's fees.

21203. The Legislature finds and declares that distribution and sales of motor vehicle fuels and oils in the State of California affect the general economy of the state, the public interest and the public welfare. Competition and freedom from unreasonable discriminatory practices are essential to the fair and efficient

functioning of a free market economy. Competitive conditions are rapidly changing with resulting market dislocation. Therefore, it is further provided that any existing contracts, arrangements, or agreements with provision for prices not in compliance with this chapter shall be void on and after the effective date of this chapter as to such provisions, except for any as may be required to be extended beyond said date to comply with any applicable federal price control laws, regulations or orders.

CHAPTER 952

An act to amend Section 982 of the Civil Code, relating to common law copyright rights

[Approved by Governor September 22, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 982 of the Civil Code is amended to read:

982. (a) The owner of any rights in any composition in letters or art, may transfer his ownership therein.

(b) The owner of any invention or design, or of any representation or expression thereof, may transfer his property in the same.

(c) Notwithstanding any other provision in this section, whenever a work of fine art is transferred, whether by sale or on commission or otherwise, by or on behalf of the artist who created it, or that artist's heir, legatee, or personal representative, the right of reproduction thereof is reserved to such artist or such heir, legatee, or personal representative until it passes into the public domain by act or operation of law, unless that right is expressly transferred by a document in writing in which reference is made to the specific right of reproduction, signed by the owner of the rights conveyed or that person's duly authorized agent. If such transfer is pursuant to an employment relationship, the right of reproduction is transferred to the employer, unless it is expressly reserved in writing. If such transfer is pursuant to a legacy or inheritance, the right of reproduction is transferred to the legatee or heir, unless it is expressly reserved by will or codicil. Nothing contained herein, however, shall be construed to prohibit the fair use of such work of fine art.

(d) As used in subdivision (c):

(1) "Fine art" shall mean any work of visual art, including but not limited to, a drawing, painting, sculpture, mosaic, or photograph, a work of calligraphy, a work of graphic art (including an etching, lithograph, offset print, silk screen, or a work of graphic art of like nature), crafts (including crafts in clay, textile, fiber, wood, metal,

plastic, and like materials), or mixed media (including a collage, assemblage, or any combination of the foregoing art media).

(2) "Artist" shall mean the creator of a work of fine art.

(3) "Right of reproduction", at the present state of commerce and technology shall be interpreted as including, but shall not be limited to, the following: reproduction of works of fine art as prints suitable for framing; facsimile casts of sculpture; reproductions used for greeting cards; reproductions in general books and magazines not devoted primarily to art, and in newspapers in other than art or news sections, when such reproductions in books, magazines, and newspapers are used for purposes similar to those of material for which the publishers customarily pay; art films; television, except from stations operated for educational purposes, or on programs for educational purposes from all stations; and reproductions used in any form of advertising, including magazines, calendars, newspapers, posters, billboards, films or television.

(e) The amendments to this section made at the 1975–76 Regular Session shall only apply to transfers made on or after January 1, 1976.

SEC. 2. The Legislature hereby finds and declares that advances in color printing and other means of graphic reproduction, combined with technological processes for reproducing three-dimensional objects, have created a whole new dimension in the field of the fine arts. The traditional concept of a work of fine art as a unique one-of-a-kind creation has been replaced by important new property rights of substantial monetary value based on the reproduction of works of fine art. The creation of these new property rights has generated confusion and controversy as to who has title thereto and may authorize and realize proceeds from the reproduction of works of fine art. It is therefore declared to be the policy of this state to establish clear guideposts for all parties concerning legal ownership of the right of reproduction of works of fine art.

CHAPTER 953

An act to add Title 1.1 (commencing with Section 1738) to Part 4 of Division 3 of the Civil Code, relating to consignment.

CHAPTER 2. GENERAL PROVISIONS

1738.5. Notwithstanding any custom, practice or usage of the trade to the contrary, whenever an artist delivers or causes to be delivered a work of fine art of the artist's own creation to an art dealer in this state for the purpose of exhibition or sale, or both, on a commission, fee or other basis of compensation, the delivery to and acceptance of such work of fine art by the art dealer shall constitute a consignment, unless the delivery to the art dealer is pursuant to an outright sale for which the artist receives or has received full compensation for the work of fine art upon delivery.

1738.6. A consignment of a work of fine art shall result in all of the following:

(a) The art dealer, after delivery of the work of fine art, shall constitute an agent of the artist for the purpose of sale or exhibition of the consigned work of fine art within the State of California.

(b) The work of fine art shall constitute property held in trust by the consignee for the benefit of the consignor, and shall not be subject to claim by a creditor of the consignee.

If such work is thereafter resold to a bona fide purchaser before the consignor has been paid in full, the proceeds of the resale received by the consignee shall constitute funds held in trust for the benefit of the consignor to the extent necessary to pay any balance still due to the consignor and such trusteeship shall continue until the fiduciary obligation of the consignee with respect to such transaction is discharged in full.

1738.8. Any provision of a contract or agreement whereby the consignor waives any provision of this title is void.

1738.9. This title shall not apply to a written contract executed prior to the effective date of this title, unless either the parties agree by mutual written consent that this title shall apply or such contract is extended or renewed after the effective date of this title.

The provisions of this title shall prevail over any conflicting or inconsistent provisions of the Commercial Code affecting the subject matter of this title.

However, in no case shall a taxpayer's deduction be reduced below the amount allowable as a deduction under Section 17215 without the application of subdivision (a)

DIVISION 26. AIR RESOURCES

PART 1. GENERAL PROVISIONS AND DEFINITIONS

CHAPTER 1. FINDINGS, DECLARATIONS, AND INTENT

39000. The Legislature finds and declares that the people of the State of California have a primary interest in the quality of the physical environment in which they live, and that this physical environment is being degraded by the waste and refuse of civilization polluting the atmosphere, thereby creating a situation which is detrimental to the health, safety, welfare, and sense of well-being of the people of California.

39001. The Legislature, therefore, declares that this public interest shall be safeguarded by an intensive, coordinated state, regional, and local effort to protect and enhance the ambient air quality of the state. Since air pollution knows no political boundaries, the Legislature declares that a regional approach to the problem should be encouraged whenever possible and, to this end, the state is divided into air basins. The state should provide incentives for such regional strategies, respecting, when necessary, existing political boundaries.

39002. Local and regional authorities have the primary responsibility for control of air pollution from all sources other than vehicular sources. The control of vehicular sources, except as otherwise provided in this division, shall be the responsibility of the State Air Resources Board. Except as otherwise provided in this division, including, but not limited to, Sections 41809, 41810, and 41904, local and regional authorities may establish stricter standards than those set by law or by the state board for nonvehicular sources. However, the state board shall, after holding public hearings as required in this division, undertake control activities in any area wherein it determines that the local or regional authority has failed to meet the responsibilities given to it by this division or by any other provision of law.

39003. The State Air Resources Board is the state agency charged with coordinating efforts to attain and maintain ambient air quality standards, to conduct research into the causes of and solution to air pollution, and to systematically attack the serious problem caused by motor vehicles, which is the major source of air pollution in many areas of the state.

39004. The reenactment of this division by the Legislature during the 1975–76 Regular Session of the Legislature shall have no effect on the existence of any district board, or the terms of any members thereof.

39005. The reenactment of this division by the Legislature during the 1975–76 Regular Session of the Legislature shall have no effect on any order, rule, or regulation of any district or of the state board, unless such order, rule, or regulation, as the case may be, is not consistent with the provisions of this division.

When the state board desires the advice, in connection with a particular problem or problems, of any person so appointed, the chairman of the state board may select such person to serve as a member of a working group or committee for the purpose of providing such advice. After the working group or committee has given its advice to the state board, it shall cease to function as a working group or committee. The financial remuneration specified in this subdivision shall only be available to persons during such time they are serving as members of a working group or committee at the request of the state board.

39604. The state board shall submit to the Governor and the Legislature, not later than January 10th each year, a report consisting of a summary of the state board's activities during the previous year and the state board's recommendations concerning such legislation and other action as is necessary for the implementation, financing, and enforcement of this division.

CHAPTER 5. AIR POLLUTION CONTROL SUBVENTION PROGRAM

39800. As used in this chapter, "dollars budgeted" means moneys derived from revenue sources within a district for use in its air pollution control programs.

39801. The state board shall administer, pursuant to this chapter, such funds as may be appropriated to it for the purposes of this chapter.

39802. The state board may subvene up to one dollar ($1) for every dollar budgeted for use by any of the following:

(a) A district whose boundaries include an entire air basin.

(b) Districts whose boundaries together include an entire air basin and who are parties to one joint powers agreement or other enforceable agreement which provides for all of the following:

(1) Uniform rules and regulations among all districts, excluding administrative rules and regulations.

(2) At least four meetings per year of the basinwide air pollution control council formed under Section 40900, or an equivalent procedure for basinwide consideration of policy matters.

(3) Suitable sharing of qualified air pollution personnel and equipment.

Subventions under this section shall not exceed twenty-three cents ($0.23) per capita. A subvention made pursuant to Section 39803 shall preclude subvention under this section.

39803. In air basins where funds are not subvened pursuant to Section 39802, the state board may subvene up to two dollars ($2) for every three dollars ($3) budgeted by a district. Subventions under this section shall not exceed eighteen and four-tenths cents ($0.184) per capita.

39804. In air basins having a population of less than 98,000, the state board may subvene more than the specified amount allowed under Section 39802, if the subvention does not exceed forty-five thousand dollars ($45,000) per air basin and each district affected adopts a budget equal to or exceeding twenty-three cents ($0.23) per capita.

39805. The per capita limits in Sections 39802 and 39803 and the forty-five thousand dollars ($45,000) limit in Section 39804 may be increased by the state board to reflect the effects of inflation on the moneys needed to carry out air pollution control programs. No increase shall be made without the prior written approval of the Director of Finance.

39806. No money shall be subvened pursuant to this chapter unless the district affected is actively and effectively engaged in the reduction of air contaminants pursuant to the basinwide air pollution control plan and related implementation programs established pursuant to Chapter 2 (commencing with Section 41600) of Part 4.

When the state board finds, pursuant to a resolution from the district board, or upon completion of proceedings conducted by the state board pursuant to Sections 41500 and 41501, that the district is not so engaged in the reduction of air contaminants, the subvention, or a portion thereof, which would have been allocated to such district pursuant to Section 39802 or 39803, plus such additional sum as may be necessary, if moneys are available from appropriations for the purposes of this chapter, shall be allocated to the state board itself to carry out the approved plan or program.

If the state board acts under this section pursuant to a resolution of the district board, it may do so without proceeding under Sections 41500 and 41501.

39807. The subvention otherwise due a district may be reduced by the state board up to an amount equal to the funds which are granted to the district by the federal government. In so reducing a subvention, the state board shall take into account all the following factors:

(a) The purpose for which the federal funds were granted.

(b) The needs of the district in relationship to the needs of other districts.

(c) Any special and worthy programs conducted by the district not required by the plan or program approved by the state board pursuant to Sections 41500 and 41603.

(d) The severity of air pollution within the district.

(e) Any other factors which the state board reasonably determines should be considered.

39808. The state board may review, as it deems necessary, the programs and expenditures by each district receiving a subvention under this chapter to ascertain that the funds budgeted from nonstate sources are in fact being expended substantially in accordance with the budget on which the subvention was based. If the state board finds that such funds are not being so expended, the state board may do any of the following:

(a) Cease any further payments under the subvention.

(b) Withhold future subventions.

(c) Bring an action against the district, or the counties or cities supporting the district, to recover the subvention paid that fiscal year.

(d) Assume the powers of the district after it has held a public hearing upon a 30-day written notice given to the basinwide air pollution control council, if there is such a council, and to the affected districts.

39809. The state board may allocate to itself sufficient moneys to administer the subvention program under this chapter and to conduct reviews authorized by Section 39808.

39810. Any moneys not otherwise subvened or allocated by the state board pursuant to this chapter may be used for supplemental subventions, upon application, up to a one-to-one matching basis or, in the state board's discretion, for any other purpose related to the control of nonvehicular sources. Matching supplemental subventions having unusual merit shall be given preference over expenditures for other purposes. In making supplemental subventions, the state board may consider federal grants received by the applicant and by other districts.

39811. Any moneys appropriated to the state board for expenditure under this chapter not allocated during the fiscal year shall revert to the General Fund.

PART 3. AIR POLLUTION CONTROL DISTRICTS

CHAPTER 1. GENERAL PROVISIONS

40000. The Legislature finds and declares that local and regional authorities have the primary responsibility for control of air pollution from all sources, other than emissions from motor vehicles. The control of emissions from motor vehicles, except as otherwise provided in this division, shall be the responsibility of the state board.

40001. Subject to the powers and duties of the state board, the districts shall adopt and enforce rules and regulations which assure that reasonable provision is made to achieve and maintain the state ambient air quality standards for the area under their jurisdiction, and shall enforce all applicable provisions of state law. The districts

shall also endeavor to achieve and maintain the federal ambient air quality standards.

Such rules and regulations may, and at the request of the state board shall, provide for the prevention and abatement of air pollution episodes which, at intervals, cause discomfort or health risks to, or damage to property of, a significant number of persons or class of persons.

40002. There is continued in existence and shall be, in every county, a county district, unless the entire county is included within the bay district, a regional district, or a unified district.

However, if only a part of the county is included within the bay district, a regional district, or a unified district, there is in that part of the county not included within any such district a county district.

40003. A county may be in two or more districts, but not in two or more county districts.

CHAPTER 2. COUNTY AIR POLLUTION CONTROL DISTRICTS

Article 1. Administration

40100. A county board of supervisors shall be ex officio the county district board of the county.

(c) All variances and standards which the district hearing board has prescribed.

40753. The air pollution control officer may observe and enforce all provisions of Division 12 (commencing with Section 24000) of the Vehicle Code relating to the emission or control of air contaminants, except Sections 27157, 27157.5, 27158, and 27158.5.

In observing and enforcing such provisions of the Vehicle Code, the air pollution control officer may stop, detain, and inspect any

vehicle on a public highway. Any person who interferes with such action, or who refuses to stop a vehicle under his control upon the order, of the air pollution control officer is guilty of a misdemeanor.

CHAPTER 8. HEARING BOARDS

Article 1. General Provisions

40800. There is continued in existence and shall be, in each district, one or more hearing boards consisting of five members each, as specified in Section 40801, appointed by the district board.

40801. A hearing board shall consist of:

(a) One member admitted to the practice of law in this state.

(b) One member who is a professional engineer registered as such pursuant to the Professional Engineers Act (Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code).

(c) One member from the medical profession whose specialized skills, training, or interests are in the fields of environmental medicine, community medicine, or occupational/toxicologic medicine.

(d) Two public members.

40802. If the county district board, in the case of a county with a population of less than 500,000, is unable to appoint a person with the qualifications specified in Section 40801 who is willing and able to serve, and for that reason a vacancy exists on the hearing board, the county district board may, in order to fill that vacancy, appoint any person to the hearing board.

40803. No officer or employee of the district, or of the county in the case of a county district, shall be a member of the district hearing board.

40804. The terms of the members of a hearing board shall be three years.

In the case of the initial members of a hearing board appointed subsequent to January 1, 1974, two shall serve for a term of one year, two for a term of two years, and one for a term of three years.

40805. Within 30 days after a regional district begins to function and exercise its powers, the regional district board shall appoint a hearing board.

40806. A hearing board shall select a chairman from its members.

40807. A hearing board may adopt rules for the conduct of its hearings not inconsistent with this division. Such rules shall, so far as practicable, conform to the rules for administrative adjudication by state agencies in Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code.

Where a district has two or more hearing boards, such rules shall be the same for all the hearing boards.

40808. Except as provided for in Section 42359, no abatement order, permit, or variance may be issued, modified, or revoked by a

hearing board, unless a public hearing thereon has been held by the hearing board pursuant to this chapter.

Article 2. Procedure

40820. If three or more members of a hearing board conduct a hearing, the concurrence of three members shall be necessary for a decision.

40821. A hearing board, with not less than four members being present, may, in its discretion, within 30 days, rehear any matter which was decided by three members.

40822. Any hearing conducted by a hearing board shall be held in a location readily accessible to the public.

40823. (a) Except as otherwise provided in Sections 40824, 40825, and 40826, a hearing board shall serve a notice of the time and place of a hearing upon the district air pollution control officer, and upon the applicant or permittee affected, not less than 10 days prior to such hearing.

(b) Except as otherwise provided in Sections 40824, 40825, and 40826, the hearing board shall also send notice of the hearing to every person who requests such notice and obtain publication of such notice in at least one daily newspaper of general circulation within the district. The notice shall state the time and place of the hearing and such other information as may be necessary to reasonably apprise the people within the district of the nature and purpose of the meeting.

40824. In case of a hearing to consider an application for an interim variance, as authorized under Section 42351:

(a) The hearing board shall serve reasonable notice of the time and place of a hearing upon the district air pollution control officer and upon the applicant.

(b) Subdivision (b) of Section 40823 shall not apply.

40825. In case of a hearing to consider an application for a variance, or a series of variances, to be in effect for a period of not more than 90 days:

(a) The hearing board shall serve a notice of the time and place of a hearing to grant such a variance upon the air pollution control officer, all other districts within the air basin, the state board, the Environmental Protection Agency, and upon the applicant or permittee, not less than 10 days prior to such hearing.

(b) Subdivision (b) of Section 40823 shall not apply.

40826. In case of a hearing to consider an application for a variance, other than an interim variance or a 90-day variance, or an application for a modification of a schedule of increments of progress, excluding the final compliance date thereof, or to consider the modification of a final compliance date in a variance previously granted, the notice requirements for such a hearing shall be as follows:

(a) The hearing board shall serve a notice of the time and place

of a hearing to grant a variance upon the air pollution control officer, all other districts within the air basin, the state board, the Environmental Protection Agency, and upon the applicant or permittee, not less than 30 days prior to such hearing.

(b) The hearing board shall also publish a notice of the hearing in at least one daily newspaper of general circulation in the district, and shall send the notice to every person who requests such a notice, at least 30 days prior to the hearing.

(c) The notice shall state the time and place of the hearing; the time when, commencing not less than 30 days prior to the hearing, and place where the application, including any proposed conditions or schedule of increments of progress, is available for public inspection; and such other information as may be necessary to reasonably apprise the people within the district of the nature and purpose of the meeting.

40827. A hearing board shall serve a notice of the time and place of a hearing either by personal service or by first-class mail, postage prepaid. If either the identity or address of any person entitled to notice is unknown, the hearing board shall serve such person by publication of notice in the district pursuant to Section 6061 of the Government Code.

40828. (a) A hearing board shall allow interested members of the public a reasonable opportunity to testify with regards to the matter under consideration, and shall consider such testimony in making its decision.

(b) The hearing board shall prepare a record of the witnesses and the testimony of each witness at the hearing. Such a record may be a tape recording. The record shall be retained by the hearing board while the variance is in effect, or for the period of one year, whichever is longer.

40829. Any member of a hearing board may administer oaths in any hearing in which he participates as a member of the hearing board.

40830. At any hearing, a hearing board shall require any witness to be sworn before testifying.

Article 3. Subpoenas

40840. Whenever the members of a hearing board conducting any hearing deem it necessary to examine any person as a witness at the hearing, the chairman of the hearing board shall issue a subpoena, in proper form, commanding such person to appear before it at a time and place specified to be examined as a witness. The subpoena may require such person to produce all books, papers, and documents in his possession, or under his control, material to the hearing.

40841. A subpoena to appear before a hearing board shall be served in the same manner as a subpoena in a civil action.

40842. Whenever any person duly subpoenaed to appear and

give evidence, or to produce any books and papers, before a hearing board neglects or refuses to appear, or to produce any books and papers, as required by the subpoena, or refuses to testify or to answer any question which the hearing board decides is proper and pertinent, he shall be deemed in contempt, and the hearing board shall report the fact to the superior court of the county in which the hearing is held.

40843. Upon receipt of a report submitted pursuant to Section 40842, the superior court shall proceed as specified in Section 11525 of the Government Code.

40844. On the return of the attachment and the production of the body of the defendant, the superior court has jurisdiction of the matter. The person charged may purge himself of the contempt in the same way, and the same proceeding shall be had, and the same penalties may be imposed, and the same punishment inflicted as in the case of a witness subpoenaed to appear and give evidence on the trial of a civil cause before a superior court.

Article 4. Decisions

40860. A hearing board shall announce its decision in writing. Copies of the decision shall immediately be filed with its clerk and mailed to all of the parties or their attorneys.

40861. A hearing board may rehear a decision if a party petitions for a rehearing within 10 days after a copy of the decision has been mailed to him.

40862. The decision of a hearing board shall include the reasons for the decision.

40863. The decision shall become effective 30 days after it is filed, unless either of the following occurs:

(a) A rehearing is granted by the hearing board.

(b) The hearing board orders that it be made effective sooner.

40864. (a) Judicial review may be had of a decision of a hearing board by filing a petition for a writ of mandate in accordance with the provisions of the Code of Civil Procedure. Except as otherwise provided in this section, any such petition shall be filed within 30 days after the decision has been mailed pursuant to Section 40860. The right to petition shall not be affected by the failure to seek a rehearing before the hearing board.

(b) The complete record of the proceedings, or such parts thereof as are designated by the petitioner, shall be prepared by the hearing board and shall be delivered to the petitioner within 30 days after a request therefor by him, upon payment of the fee specified in Section 69950 of the Government Code for the transcript, the cost of preparation of other portions of the record, and for certification thereof.

(c) The complete record includes the pleadings, all notices and orders issued by the hearing board, any proposed decision by the hearing board, the final decision, a transcript of all proceedings, the

exhibits admitted or rejected, the written evidence and any other papers in the case.

(d) Where the petitioner, within 10 days after the last day on which a rehearing can be ordered, requests the hearing board to prepare all or any part of the record, the time within which a petition may be filed shall be extended until five days after its delivery to him. The hearing board may file with the court the original of any document in the record in lieu of a copy thereof.

40865. In any proceeding pursuant to Section 40864, the court shall receive in evidence any order, rule, or regulation of the district board, any transcript of the proceedings before the hearing board, and such further evidence as the court, in its discretion, deems proper.

CHAPTER 9. BASINWIDE AIR POLLUTION CONTROL COUNCILS

40900. There is continued in existence and shall be, in each air basin which does not have boundaries coterminous with a district, or which consists only of a portion of a district, a basinwide air pollution control council.

The council shall consist of an elected official of, and designated by, the district board of each district which is included, in whole or in part, within the air basin.

PART 4. NONVEHICULAR AIR POLLUTION CONTROL

CHAPTER 1. GENERAL PROVISIONS

41500. To coordinate air pollution control activities throughout the state, and to insure that the entire state is in compliance with the standards adopted pursuant to Section 39606, the state board shall:

(a) Review the basinwide air pollution control plans submitted pursuant to Section 41600, or the revised plans submitted pursuant to Section 41602, to determine whether the plans contain reasonable provision to achieve and maintain the adopted ambient air quality standards.

(b) Review the rules and regulations and plans submitted by the districts pursuant to Sections 40704 and 41603 to determine whether the rules and regulations and plans assure that reasonable provision is made to achieve and maintain such ambient air quality standards.

(c) Review the enforcement practices of the districts to determine whether reasonable action is being taken to enforce such plans, rules, and regulations.

41502. Before taking any action pursuant to Sections 41503 to 41505, inclusive, the state board shall hold a public hearing, upon a 30-day written notice given to the basinwide air pollution control council, if any, and the affected districts. However, upon receipt of evidence that a concentration of air contaminants in any place is presenting an imminent and substantial endangerment to the health

of persons, and that the districts affected are not taking reasonable action to abate the concentration of air contaminants, the state board shall give, orally if necessary, as much notice as possible, but not less than 24 hours. The state board shall, in the action taken, include a statement of the facts which prevented the state board from giving a 30-day written notice.

41503. (a) If, after a public hearing, the state board finds that a basinwide air pollution control plan will not likely achieve and maintain the required ambient air quality standards, the state board shall establish a basinwide air pollution control plan for the air basin that will achieve and maintain the adopted ambient air quality standards for the air basin.

(b) The plan established by the state board shall include emission standards, and rules and regulations, which shall have the same force and effect as those adopted by any district included, in whole or in part, within the air basin and shall be enforced by such district.

41504. (a) If, after a public hearing, the state board finds that the implementation program or the rules and regulations of a district will not likely achieve and maintain the adopted ambient air quality standards, the state board may establish such implementation plan, or portion thereof, or rules and regulations it deems necessary to enable the district to achieve and maintain such ambient air quality standards.

(b) Any implementation plan, or portion thereof, or rule or regulation established by the state board for the district shall have the same force and effect as a plan, rule, or regulation adopted by the district and shall be enforced by the district.

41505. If, after a public hearing, the state board finds that a district is not taking reasonable action to enforce the statutory provisions, rules, and regulations relating to air quality in such a manner that will likely achieve and maintain the adopted ambient air quality standards, the state may exercise any of the powers of that district to achieve and maintain such ambient air quality standards.

41507. The state board may order, pursuant to Section 41602 review of a basinwide air pollution control plan for revision to achieve and maintain federal ambient air quality standards in the air basin, as part of the state implementation plan required under Section 1857c-5 of Title 42 of the United States Code. Such revision shall be filed with the state board within 60 days of the request of the state board, and the districts shall adopt rules and regulations implementing such plans within 60 days after final review pursuant to Section 41500, or final adoption pursuant to Section 41503, by the state board.

41508. Except as otherwise specifically provided in this division, including, but not limited to, Sections 41809, 41810, and 41904, any local or regional authority may establish additional, stricter standards than those set forth by law or by the state board for nonvehicular sources.

41509. No provision of this division, or of any order, rule, or

regulation of the state board or of any district, is a limitation on:

(a) The power of any local or regional authority to declare, prohibit, or abate nuisances.

(b) The power of the Attorney General, at the request of a local or regional authority, the state board, or upon his own motion, to bring an action in the name of the people of the State of California to enjoin any pollution or nuisance.

(c) The power of a state agency in the enforcement or administration of any provision of law which it is specifically permitted or required to enforce or administer.

(d) The right of any person to maintain at any time any appropriate action for relief against any private nuisance.

41510. For the purpose of enforcing or administering any state or local law, order, regulation, or rule relating to air pollution, the executive officer of the state board or any air pollution control officer having jurisdiction, or an authorized representative of such officer, upon presentation of his credentials or, if necessary under the circumstances, after obtaining an inspection warrant pursuant to Title 13 (commencing with Section 1822.50), Part 3 of the Code of Civil Procedure, shall have the right of entry to any premises on which an air pollution emission source is located for the purpose of inspecting such source, including securing samples of emissions therefrom, or any records required to be maintained in connection therewith by the state board or any district.

41511. For the purpose of carrying out the duties imposed upon the state board, or any district, the state board or the district, as the case may be, may adopt rules and regulations to require the owner or the operator of any air pollution emission source to take such action as the state board or the district may determine to be reasonable for the determination of the amount of such emission from such source.

41512. Any violation of any provision of this part, or of any order, rule, or regulation of the state board or of any district, may be enjoined in a civil action brought in the name of the people of the State of California, except that the plaintiff shall not be required to allege facts necessary to show, or tending to show, lack of adequate remedy at law or to show, or tending to show, irreparable damage or loss.

CHAPTER 2. BASINWIDE AIR POLLUTION CONTROL PLANS

41600. Each basinwide district, including the bay district, and each basinwide air pollution control council established pursuant to Section 40900, shall adopt a basinwide air pollution control plan and submit the plan to the state board.

41601. The basinwide air pollution control plan shall include emission limitations, rules and regulations, and enforcement procedures, which will within a reasonable time achieve and maintain the state ambient air quality standards. The plan shall also

endeavor to achieve and maintain the federal ambient air quality standards.

The plan shall provide for the prevention and abatement, within and between each district in the air basin, of air pollution episodes which, at intervals, cause discomfort or health risks to, or damage to property of, a significant number of persons or classes of persons.

41602. The basinwide air pollution control plan may be reviewed continuously or periodically, and shall be reviewed at least once every two years, by the basinwide district, including the bay district, or the basinwide air pollution control council. The plan shall be reviewed by the basinwide district, the bay district, or the basinwide air pollution control council, as the case may be, upon the request of any district which is included, in whole or in part, within the air basin or of the state board. The revised plan shall be submitted to the state board.

41603. Each county district or unified district which is included, in whole or in part, within an air basin shall submit to the state board a program to implement the air pollution control plan of the air basin in which such district is located.

The program shall be revised, if necessary, whenever there is a review of the basinwide air pollution control plan, or upon request of the state board.

CHAPTER 3. EMISSION LIMITATIONS

Article 1. General Limitations

41700. Except as otherwise provided in Section 41705, no person shall discharge from any source whatsoever such quantities of air contaminants or other material which cause injury, detriment, nuisance, or annoyance to any considerable number of persons or to the public, or which endanger the comfort, repose, health, or safety of any such persons or the public, or which cause, or have a natural tendency to cause, injury or damage to business or property.

41701. Except as otherwise provided in Section 41704, 41809, or 41810, or Article 2 (commencing with Section 42350) of Chapter 4, no person shall discharge into the atmosphere from any source whatsoever any air contaminant for a period or periods aggregating more than three minutes in any one hour which is:

(a) As dark or darker in shade as that designated as No. 2 on the Ringelmann Chart, as published by the United States Bureau of Mines, or

(b) Of such opacity as to obscure an observer's view to a degree equal to or greater than does smoke described in subdivision (a).

41702. No person shall operate any article, machine, equipment, or other contrivance which is the subject of a variance if that article, machine, equipment, or other contrivance, as may be the case, is not in compliance with a required schedule of increments of progress, unless such operation is authorized by a hearing board.

41703. If a district board adopts a rule or regulation of emission standards to take effect as of a future date, the rule or regulation shall also require any person who owns or operates a source of air contaminants whose emissions exceed such standards to submit to the hearing board, for a public hearing, after notice pursuant to Section 40826, a schedule of increments of progress by which the source emissions will be brought into compliance by the time such standards take effect.

If the rule or regulation itself includes a schedule of increments of progress, the person shall submit a schedule, or an application for a variance, for the source in the event he cannot comply with the schedule in the rule or regulation.

41704. Section 41701 shall not apply to:

(a) Fires set pursuant to Section 41801.

(b) Agricultural burning for which a permit has been granted pursuant to Article 3 (commencing with Section 41850).

(c) Fires set or permitted by any public officer in the performance of his official duty for the improvement of watershed, range, or pasture.

(d) Use of any aircraft to distribute seed, fertilizer, insecticides, or other agricultural aids over lands devoted to the growing of crops or raising of fowl or animals.

(e) Open outdoor fires used only for cooking of food for human beings or for recreational purposes.

(f) The use of orchard and citrus grove heaters which are in compliance with the requirements set forth in Section 41860.

(g) Agricultural operations necessary for the growing of crops or raising of fowls or animals.

(h) The use of other equipment in agricultural operations necessary for the growing of crops or raising of fowls or animals.

41705. Section 41700 shall not apply to odors emanating from agricultural operations necessary for the growing of crops or the raising of fowl or animals.

41706. (a) The Legislature hereby finds and declares that recent evidence indicates that lead compounds emitted into the air by nonvehicular sources accumulate in and upon vegetation in the vicinity of such sources, pose a grave threat to the health of animals which consume such vegetation, and constitute a potential human health hazard.

(b) Every district shall establish emission standards for lead compounds emitted into the air from nonvehicular sources. Where a district has failed to establish such standards, the state board shall establish such standards for that district.

41707. Notwithstanding the provisions of this chapter restricting burning, the state board, after consultation with the district in which the burning is to take place, may issue permits for experimental burning designed to develop new or improved techniques of burning to reduce emissions, except that no experimental burning may create a nuisance.

Article 2. Nonagricultural Burning

41800. Except as otherwise provided in this chapter, no person shall use open outdoor fires for the purpose of disposal or burning of petroleum wastes, demolition debris, tires, tar, trees, wood waste, or other combustible or flammable solid or liquid waste; or for metal salvage or burning of motor vehicle bodies.

41801. Nothing in this article shall be construed as limiting the authority granted under other provisions of law to any public officer to set or permit a fire when such fire is, in his opinion, necessary for any of the following purposes:

(a) The prevention of a fire hazard which cannot be abated by any other means.

(b) The instruction of public employees in the methods of fighting fire.

(c) The instruction of employees in methods of fighting fire, when such fire is set, pursuant to permit, on property used for industrial purposes.

(d) The setting of backfires necessary to save life or valuable property pursuant to Section 4426 of the Public Resources Code.

(e) The abatement of fire hazards pursuant to Section 13055.

41802. Notwithstanding Section 41800, with respect to wood waste from trees, vines, or bushes on property being developed for commercial or residential purposes, or with respect to the disposal of brush cuttings on the property where the brush was grown when the cuttings resulted from brush clearance done in compliance with local ordinances to reduce fire hazard, a district board may, upon its own motion or the request of any person, authorize the disposal, by open outdoor fires, of such waste, on the property where it was grown, under the conditions specified in Section 41804.

41803. No authorization, however, under Section 41802 shall be granted after January 1, 1977, or such earlier date as the state board may determine, based upon a finding that an alternative method of disposal has been developed which is technologically and economically feasible.

41804. Burning may be authorized under Section 41802 only if:

(a) The district board finds that it is more desirable to dispose of such waste by burning than to dispose of it by other available means, such as, but not limited to, by removing it to sanitary fills.

(b) The district has developed criteria for such disposal, which shall include provisions to improve the combustibility of such waste to reduce its smoke level.

(c) The state board has approved the criteria developed pursuant to subdivision (b).

(d) Such authorization, if granted, shall be in the form of a permit issued by the district air pollution control officer, and such permit shall allow burning only on days during which agricultural burning is not prohibited by the state board pursuant to Section 41855.

(e) The district board may adopt rules and regulations to

authorize any burning authorized under Section 41802, to review each proposed burn prior to authorizing its air pollution control officer to issue a permit for the burn, or to delegate to its air pollution control officer the authority to approve or disapprove each proposed burn after consideration of the amount of waste to be burned, the season of the year, the ambient air quality, the proximity of the waste to developed areas, or such other or additional criteria as the district board may establish.

41805. (a) The Legislature hereby finds and declares that, because sanitary landfill sites are very difficult to obtain, these valuable sites should be reserved for high-priority waste such as garbage and low-volume rubbish, and that the disposal, by open outdoor fires of high-volume wood waste will help prolong the life of such landfill sites. However, it is the intent of the Legislature that the disposal, by open outdoor fires, of such waste be reasonably regulated so as to not create a nuisance or significantly reduce the quality of the ambient air.

(b) Therefore, the state board shall conduct studies of alternative methods of disposing of wood waste from trees, vines, or bushes, other than by open outdoor fires.

41806. Nothing in this article shall be construed as prohibiting burning for the disposal of combustible or flammable solid waste of a single- or two-family dwelling on its premises, or open outdoor fires used only for cooking food for human beings or for recreational purposes.

41807. Nothing in this article shall be construed to prohibit burning for right-of-way clearing by a public entity or utility or for levee, reservoir, and ditch maintenance. No such material may be burned pursuant to this section unless (a) agricultural burning is not prohibited on the day pursuant to Section 41855, and (b) the material has been prepared by stacking, drying, or other methods to promote combustion as specified by the air pollution control officer having jurisdiction.

41808. The state board shall permit a city or county to use open outdoor fires, for a limited time only, in its operation of a solid waste dump, upon the finding that, because of sparse population in the geographical area and economic and technical difficulties, the solid waste dump should be so operated.

41809. Notwithstanding Sections 41508 and 41800, open outdoor fires may be used to dispose of Russian thistle (Salsola kali) when authorized by a chief of a fire department or fire protection agency of a city, county, or fire protection district, the State Forester or his duly authorized representative, or a county agricultural commissioner, or an air pollution control officer.

41810. For islands located 15 or more miles from the mainland coast:

(a) The provisions of Section 41701 shall not apply to smoke from fires set thereon.

(b) No district shall adopt any rule or regulation stricter than

those provided by law with respect to open outdoor fires.

41811. The provisions of this article shall not supersede any rule or regulation of any district, which rule or regulation was in effect for five or more years prior to September 19, 1970.

41812. The air pollution control officer of any district in a county with a population of 6,000,000 or less, upon authorization of the district board, may authorize, by permit, open outdoor fires for the purpose of disposing of agricultural wastes, or wood waste from trees, vines, bushes, or other wood debris free of nonwood materials, in a mechanized burner such that no air contaminant is discharged into the atmosphere for a period or periods aggregating more than 30 minutes in any eight-hour period which is:

(a) As dark or darker in shade as that designated as No. 1 on the Ringelmann Chart, as published by the United States Bureau of Mines, or

(b) Of such opacity as to obscure an observer's view to a degree equal to or greater than does smoke described in subdivision (a).

In authorizing the operation of a mechanized burner, the air pollution control officer may make the permit subject to whatever conditions he determines are reasonably necessary to assure conformance with the standards prescribed in this section.

Article 3. Agricultural Burning

41850. It is the intent of the Legislature, by the enactment of this article, that agricultural burning be reasonably regulated and not be prohibited. The state board and the districts shall take into consideration, in adopting rules and regulations for purposes of this article, various factors, including, but not limited to, the population in an area, the geographical characteristics, the meteorological conditions, the economic and technical impact of such rules and regulations, and the importance of a viable agricultural economy in the state.

41851. Section 41800 shall not apply to burning regulated pursuant to this article.

41852. (a) No person knowingly shall set or permit agricultural burning unless he has a valid permit from the agency designated by the state board to issue such permits in the area where the agricultural burning is to take place.

(b) In addition to the penalties specified in Section 42400, the cost of putting out the fire may be imposed on any person who violates subdivision (a).

41853. The state board shall designate public fire protection agencies or other equivalent agencies to issue permits under subdivision (a) of Section 41852, and shall adopt rules and regulations to provide a procedure for the issuance of the permits. Each agency so designated by the state board shall issue permits subject to the rules and regulations of the state board.

41854. (a) No permit issued pursuant to Section 41853 shall be

01758 219180 676

valid for any day during which agricultural burning is prohibited by the state board pursuant to Section 41855 or by a district board pursuant to Section 41508.

(b) Each permit shall bear a statement of warning containing the following words or words of like or similar import:

"This permit is valid only on those days during which agricultural burning is not prohibited by the State Air Resources Board pursuant to Section 41855 of the Health and Safety Code."

41855. The state board shall determine and designate from meteorological data the days when agricultural burning shall be prohibited within each air basin.

41856. The state board shall promulgate guidelines for the regulation and control of agricultural burning for each of the air basins established by the state board.

41857. The guidelines promulgated by the state board shall be based on meteorological data, the nature and volume of materials to be burned, and the probable effect of such burning on the ambient air quality within the air basins affected.

41858. In adopting such guidelines, the state board shall consider their economic and technical feasibility, including their probable effect on agricultural production in the air basin affected.

41859. The state board shall continuously review the guidelines promulgated under this article, and may modify, repeal, or alter such guidelines if scientific and technological data indicates that such changes are warranted. Before adopting any such changes, the state board shall hold a public hearing and shall consider the criteria set forth in Section 41857.

41860. The state board shall adopt and publish a list of orchard and citrus grove heaters which it finds produce no more than one gram per minute of unconsumed solid carbonaceous material. No new orchard or citrus grove heater produced or manufactured shall be sold for use against frost damage unless it has been approved by the state board.

No person shall use any orchard or citrus grove heater after January 1, 1975, unless it has been approved by the state board or does not produce more than one gram per minute of unconsumed solid carbonaceous material.

In addition to the penalties specified in Section 42400, the cost of putting out the fire caused by a violation of this section may be imposed on any person who violates this section.

41861. No burning shall be conducted for the improvement of land for wildlife or game habitat until the person desiring to conduct such burning obtains from the Department of Fish and Game a written statement certifying that the burning is desirable and proper for the improvement of land for wildlife or game habitat and such statement is filed with the air pollution control officer having jurisdiction in the area in which the burning is to take place. As to burning conducted by the Department of Fish and Game, the department shall, on its own behalf, issue and file such statements.

41862. A district may issue a permit to authorize agricultural burning on days designated by the state board pursuant to Section 41855 as nonburning days when denial of such a permit would threaten imminent and substantial economic loss.

The state board shall require the districts to transmit regular reports of permits issued authorizing agricultural burning on nonburning days. The report shall include the number of such permits issued, the date of issuance of each permit, the person to whom each permit was issued, and any other information requested by the state board.

41863. Each basinwide coordinating council and district shall, as part of the implementation plans and programs prepared pursuant to Chapter 2 (commencing with Section 41600), include a component for the regulation and control of agricultural burning pursuant to guidelines adopted by the state board therefor.

Article 4. Sandblasting

41900. The chairman of the state board shall convene a committee of 11 members to recommend to the state board for adoption, not later than January 1, 1975, air pollution standards for sandblasting operations.

41901. The committee shall include nine members appointed by the chairman of the state board as follows: three contractors licensed pursuant to Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code for sandblasting services, three members from public entities which contract for such services, and three members from district boards. The committee shall also include two public members, one of whom shall be appointed by the Senate Rules Committee and one by the Speaker of the Assembly.

The committee shall select a chairman from its membership, and he shall serve at the pleasure of the committee.

41902. In developing the standards, the committee shall take into consideration the need to reduce air pollution from all sources and the need to also continue sandblasting operations as a means of corrosion control. The committee shall examine present sandblasting procedures and equipment, and determine where improvements can be made so that the standards reflect the strictest standards that can be reasonably achieved.

41903. Thirty days after the adoption of air pollution standards for sandblasting operations, the committee shall adjourn. Thereafter, it may meet at least once annually upon the call of the chairman of the committee to review the standards in light of changes in sandblasting technology.

41904. The standards shall be statewide, and no rule or regulation of any district that is applicable to sandblasting operations shall be stricter or less strict than the standards adopted by the state board pursuant to the recommendations of the committee.

41905. The standards, however, shall not supersede any rule or

regulation of any district governing permanent sandblasting operations or equipment, which rule or regulation was in effect on January 1, 1974.

For purposes of this section, "permanent sandblasting operations or equipment" means sandblasting operations conducted, or sandblasting equipment located, in a building which is used, in whole or in part, for sandblasting operations.

Article 5. Stationary Gasoline Tanks

41950. (a) Except as provided in subdivisions (b) and (e), no person shall install or maintain any stationary gasoline tank with a capacity of 250 gallons or more which is not equipped for loading through a permanent submerged fill pipe, unless such tank is a pressure tank as described in Section 41951, or is equipped with a vapor recovery system as described in Section 41952 or with a floating roof as described in Section 41953, or unless such tank is equipped with other apparatus of equal efficiency which has been approved by the air pollution control officer in whose district the tank is located.

(b) Subdivision (a) shall not apply to any stationary tanks installed prior to December 31, 1970.

(c) For the purpose of this section, "gasoline" means any petroleum distillate having a Reid vapor pressure of four pounds or greater.

(d) For the purpose of this section, "submerged fill pipe" means any fill pipe which has its discharge opening entirely submerged when the liquid level is six inches above the bottom of the tank. "Submerged fill pipe," when applied to a tank which is loaded from the side, means any fill pipe which has its discharge opening entirely submerged when the liquid level is 18 inches above the bottom of the tank.

(e) Subdivision (a) shall not apply to any stationary tank which is used primarily for the fueling of implements of husbandry.

41951. A "pressure tank" is a tank which maintains working pressure sufficient at all times to prevent hydrocarbon vapor or gas loss to the atmosphere.

41952. A "vapor recovery system" consists of a vapor gathering system capable of collecting the hydrocarbon vapors and gases discharged and a vapor disposal system capable of processing such hydrocarbon vapors and gases so as to prevent their emission into the atmosphere, with all tank gauging and sampling devices gastight except when gauging or sampling is taking place.

41953. A "floating roof" consists of a pontoon-type or double-deck-type roof, resting on the surface of the liquid contents and equipped with a closure seal, or seals, to close the space between the roof edge and tank wall. The control equipment required by this section shall not be used if the gasoline or petroleum distillate has a vapor pressure of 11.0 pounds per square inch absolute or greater

01758 219245 689

under actual storage conditions. All tank gauging and sampling devices shall be gastight except when gauging or sampling is taking place.

CHAPTER 4. ENFORCEMENT

Article 1. Permits

42300. Every district board may establish, by regulation, a permit system that requires, except as otherwise provided in Section 42310, that before any person builds, erects, alters, replaces, operates, or uses any article, machine, equipment, or other contrivance which may cause the issuance of air contaminants, such person obtain a permit to do so from the air pollution control officer of the district.

42301. A permit system established pursuant to Section 42300 shall:

(a) Insure that the article, machine, equipment, or contrivance for which the permit was issued shall not prevent or interfere with the attainment or maintenance of any applicable air quality standard.

(b) Prohibit the issuance of a permit unless the air pollution control officer is satisfied, on the basis of criteria adopted by the district board, that the article, machine, equipment, or contrivance will comply with all applicable orders, rules, and regulations of the district and of the state board and with all applicable provisions of this division.

42302. An applicant for a permit which has been denied may request, within 10 days after receipt of the notice of the denial, the hearing board of the district to hold a hearing on whether or not the permit was properly denied.

42303. An air pollution control officer, at any time, may require from an applicant for, or the holder of, any permit provided for by the regulations of the district board, such information, analyses, plans, or specifications which will disclose the nature, extent, quantity, or degree of air contaminants which are, or may be, discharged by the source for which the permit was issued or applied.

42304. If, within a reasonable time, the holder of any permit issued by a district board willfully fails and refuses to furnish the information, analyses, plans, or specifications requested by the district air pollution control officer, such officer may suspend the permit. Such officer shall serve notice in writing of such suspension and the reasons therefor on the permittee.

42305. The air pollution control officer shall reinstate a suspended permit when furnished with all the requested information, analyses, plans, and specifications.

42306. Within 10 days after receipt of the notice of suspension pursuant to Section 42304, the permittee may request the hearing board of the district to hold a hearing on whether or not the permit was properly suspended.

42307. An air pollution control officer may request the hearing board of the district to hold a hearing to determine whether a permit should be revoked, if he finds that the holder of the permit is violating any applicable order, rule, or regulation of the district or any applicable provision of this division.

42308. Within 30 days after a hearing has been requested pursuant to Section 42302, 42306, or 42307, the hearing board shall hold a hearing pursuant to Chapter 8 (commencing with Section 40800) of Part 3.

42309. After a hearing, the hearing board may do any of the following:

(a) Grant a permit denied by the air pollution control officer.

(b) Continue the suspension of a permit suspended by the air pollution control officer.

(c) Remove the suspension of an existing permit invoked by the air pollution control officer pending the furnishing by the permittee of the information, analyses, plans, and specifications required.

(d) Find that no violation exists and reinstate an existing permit.

(e) Revoke an existing permit, if it finds any of the following:

(1) The permittee has failed to correct any conditions required by the air pollution control officer.

(2) A refusal of a permit would be justified.

(3) Fraud or deceit was employed in the obtaining of the permit.

(4) Any violation of this part, or of any order, rule, or regulation of the district.

42310. A permit shall not be required for:

(a) Any vehicle.

(b) Any structure designed for and used exclusively as a dwelling for not more than four families.

(c) An incinerator used exclusively in connection with such a structure.

(d) Barbecue equipment which is not used for commercial purposes.

(e) Any equipment used in agricultural operations in the growing of crops or the raising of fowl or animals.

(f) Repairs or maintenance not involving structural changes to any equipment for which a permit has been granted.

As used in this section, maintenance does not include operation.

42311. (a) A district board may adopt, by regulation, a schedule of fees not exceeding the estimated cost of issuing permits and inspection pertaining to such issuance to be paid for the issuance of permits. Every person applying for a permit shall pay the fee required by the schedule.

(b) Except as provided in Section 42313, all such fees shall be paid to the district treasurer to the credit of the district.

42312. To aid in administering its permit system, a district board may contract with any county or city included, in whole or in part, within the district, and any such county or city may contract with the district, for the performance of such work in the name of, and subject

to the approval of, the district air pollution control officer by the building department or other officer, department, or agency of the county or such city charged with the enforcement of regulations pertaining to the erection, construction, reconstruction, movement, conversion, alteration, or enlargement of buildings or structures.

42313. Except in the case of a contract entered into between a county district and the county, a contract entered into pursuant to Section 42312 may provide that fees for permits shall be paid to the city or county which issues the permit and may be retained by that city or county, in whole or in part, as the consideration, or part thereof, for issuing the permits. Otherwise, all fees paid for the issuance of permits shall be paid into the district treasury.

Article 2. Variances

42350. Any person may apply to the hearing board for a variance from Section 41701 or from the rules and regulations of the district.

42351. (a) Any person who has submitted an application for a variance and who desires to commence or continue operation pending the decision of the hearing board on the application, may submit an application for an interim variance.

(b) An interim variance may be granted for good causes stated in the order granting such a variance. The interim variance shall not be valid beyond the date of decision of the hearing board on the application of the variance or for more than 90 days from date of issuance of the interim variance, whichever occurs first.

(c) The hearing board shall not grant any interim variance (1) after it has given notice of a hearing in compliance with the requirements of Section 40826, or (2) which is being sought to avoid the notice and hearing requirements of Section 40826.

42352. No variance shall be granted unless the hearing board makes all of the following findings:

(a) That the petitioner for a variance is, or will be, in violation of a provision of Article 1 (commencing with Section 41700) of Chapter 3 or of any rule, regulation, or order of the district.

(b) That, due to conditions beyond the reasonable control of the petitioner, requiring compliance would result in either (1) an arbitrary or unreasonable taking of property, or (2) the practical closing and elimination of a lawful business.

(c) That such closing or taking would be without a corresponding benefit in reducing air contaminants.

42353. Upon making the specific findings set forth in Section 42352, the hearing board shall prescribe requirements other than those imposed by statute or by any rule, regulation, or order of the district board, not more onerous, applicable to plants and equipment operated by specified industry or business or for specified activity, or to the operations of individual persons. However, no variance shall be granted if the operation, under the variance, will result in a violation of Section 41700.

42354. In prescribing other and different requirements, in accordance with Section 42353, the hearing board, insofar as is consonant with the Legislature's declarations in Sections 39000 and 39001, shall exercise a wide discretion in weighing the equities involved and the advantages to the residents of the district from the reduction of air contaminants and the disadvantages to any otherwise lawful business, occupation, or activity involved, resulting from requiring compliance with such requirements.

42355. The hearing board may require, as a condition of granting a variance, that a cash bond, or a bond executed by two or more good and sufficient sureties or by a corporate surety, be posted by the party to whom the variance was granted to assure performance of any construction, alteration, repair, or other work required by the terms and conditions of the variance. Such bond may provide that, if the party granted the variance fails to perform such work by the agreed date, the cash bond shall be forfeited to the district having jurisdiction, or the corporate surety or sureties shall have the option of promptly remedying the variance default or paying to the district an amount, up to the amount specified in the bond, that is necessary to accomplish the work specified as a condition of the variance.

The provisions of this section shall not apply to vessels so long as such vessels are not operating in violation of any federal law enacted for the purpose of controlling emissions from combustion of vessel fuels.

42356. The hearing board may modify or revoke, by written order, any order permitting a variance.

42357. The hearing board may review and for good cause, such as a change in the availability of materials, equipment, or adequate technology, modify a schedule of increments of progress or a final compliance date in such a schedule.

42358. (a) The hearing board, in making any order permitting a variance, shall specify the time during which such order shall be effective, in no event, except as otherwise provided in subdivision (b), to exceed one year, and shall set a final compliance date.

(b) A variance may be issued for a period exceeding one year if the variance includes a schedule of increments of progress specifying a final compliance date by which the emissions of air contaminants of a source for which the variance is granted will be brought into compliance with applicable emission standards.

42359. Except in the case of an emergency, as determined by the hearing board, the hearing board shall hold a hearing pursuant to Chapter 8 (commencing with Section 40800) of Part 3 to determine under what conditions, and to what extent, a variance shall be granted.

42360. Within 30 days of any order granting, modifying, or otherwise affecting a variance by the hearing board, either the air pollution control officer or the hearing board shall submit a copy of the order to the state board.

42361. Any variance granted by the hearing board of a county

district or a unified district applicable in an area which subsequently becomes included within a regional district, including the bay district, shall remain valid for the time specified therein or for one year, whichever is shorter, or, unless prior to the expiration of such time, the hearing board of the regional district modifies or revokes the variance.

42362. The state board may revoke or modify any variance granted by any district if, in its judgment, the variance does not require compliance with a required schedule of increments of progress or emission standards as expeditiously as practicable, or the variance does not meet the requirements of this article.

42363. Prior to revoking or modifying a variance pursuant to Section 42362, the state board shall conduct a hearing pursuant to Chapter 8 (commencing with Section 40800) of Part 3 on the matter. The person to whom the variance was granted shall be given immediate notice of any such hearing by the hearing board, and shall be afforded an opportunity to appear at the hearing, to call and examine witnesses, and to otherwise partake as if he were a party to the hearing.

42364. (a) The district board may adopt, by regulation, a schedule of fees which will yield a sum not exceeding the estimated cost of the administration of this article and for the filing of applications for variances or to revoke or modify variances. All applicants shall pay the fees required by the schedule.

(b) All such fees shall be paid to the district treasurer to the credit of the district.

Article 3. Penalties

42400. Any person who violates any provision of this part, or any order, rule, or regulation of the state board or of a district adopted pursuant to this part, is guilty of a misdemeanor.

Every day during any portion of which such violation occurs constitutes a separate offense.

42401. Any person who intentionally or negligently violates any order of abatement issued by a district pursuant to Section 42450 or by the state board pursuant to Section 41505, shall be liable for a civil penalty not to exceed six thousand dollars ($6,000) for each day in which such violation occurs.

42402. Any person who intentionally or negligently violates Section 41700 or 41701, or any rule or regulation of a district or of the state board issued pursuant to this part, prohibiting or limiting the discharge of air contaminants into the air, shall be liable for a civil penalty not to exceed five hundred dollars ($500) for each day in which such violation occurs.

42403. The civil penalties prescribed in Sections 42401 and 42402 shall be assessed and recovered in a civil action brought in the name of the people of the State of California by the Attorney General, by any district attorney, or by the attorney for any district in which the

violation occurs in any court of competent jurisdiction.

In determining such amount, the court shall take into consideration all relevant circumstances, including, but not limited to, the extent of harm caused by the violation, the nature and persistence of the violation, the length of time over which the violation occurs, and corrective action, if any, taken by the defendant.

42404. An action brought pursuant to Section 42403 to recover such civil penalties shall take special precedence over all other civil matters on the calendar of the court except those matters to which equal precedence on the calendar is granted by law.

42405. In an action brought pursuant to Section 42403 by the Attorney General on behalf of a district, one-half of the penalty collected shall be paid to the treasurer of the district on whose behalf judgment was entered, and one-half of the penalty collected shall be paid to the State Treasurer for deposit in the Air Pollution Control Fund.

If such an action is brought by the Attorney General on behalf of the state board, the entire penalty collected shall be paid to the State Treasurer for deposit in the Air Pollution Control Fund.

If such an action is brought by a district attorney or by an attorney for a district, the entire amount of the penalty collected shall be paid to the treasurer of the district on whose behalf judgment was entered.

42406. To secure a civil penalty imposed pursuant to this article on the operation of a vessel, the district shall have a lien on the vessel which may be recovered in an action against the vessel in accordance with the provisions of Article 3 (commencing with Section 490), Chapter 2, Division 3 of the Harbors and Navigation Code, except that no undertaking shall be required to be filed by the district board as a condition to the issuance of a writ of attachment.

42407. The provisions of this article shall not be applicable to vehicular sources.

Article 4. Orders for Abatements

42450. The district board may, after notice and a hearing, issue an order for abatement whenever it finds that any person is in violation of Section 41700 or 41701 or of any order, rule, or regulation prohibiting or limiting the discharge of air contaminants into the air.

In holding such a hearing, the district board shall be vested with all the powers and duties of the hearing board. Notice shall be given, and the hearing shall be held, pursuant to Chapter 8 (commencing with Section 40800) of Part 3.

42451. On its own motion, or upon the motion of the district board or the air pollution control officer, the hearing board may, after notice and a hearing, issue an order for abatement whenever it finds that any person is in violation of Section 41700 or 41701 or of any order, rule, or regulation prohibiting or limiting the discharge of

air contaminants into the air.

42452. The order for abatement shall be framed in the manner of a writ of injunction requiring the respondent to refrain from a particular act. The order may be conditional and require a respondent to refrain from a particular act unless certain conditions are met. The order shall not have the effect of permitting a variance unless all the conditions for a variance, including limitation of time, are met.

42453. A proceeding for mandatory or prohibitory injunction shall be brought by the district in the name of the people of the State of California in the superior court of the county in which the violation occurs to enjoin any person to whom an order for abatement pursuant to Section 42452 has been directed and who violates such order.

42454. Proceedings under Section 42453 shall conform to the requirements of Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure, except that it shall not be necessary to show lack of adequate remedy at law or to show irreparable damage or loss.

If, in any such proceeding, it shall be shown that an order for abatement has been made, that it has become final, and that its operation has not been stayed, it shall be sufficient proof to warrant the granting of a preliminary injunction.

If, in addition, it shall be shown that the respondent continues, or threatens to continue, to violate such order for abatement, it shall be sufficient proof to warrant the immediate granting of a temporary restraining order.

CHAPTER 5. MONITORING DEVICES

42700. The Legislature hereby finds and declares that stationary sources of air pollution are known to emit significant amounts of pollutants into the air, but that existing sampling techniques are not sufficiently precise to permit accurate measurement. The Legislature further finds and declares that more accurate data will improve the design of strategies for the control of such pollutants in the most cost-effective manner.

The Legislature further finds and declares that public complaints about excessive emissions from stationary sources are difficult or impossible to evaluate in the absence of adequate means of monitoring such emissions on a continuing basis. The Legislature further finds and declares that, although the state board and the districts are authorized under Sections 41511 and 42303, to require stationary sources of air contaminants to install and operate monitoring devices to measure and record continuously the emissions concentration and amount of any specified pollutant, many districts have failed to exercise such authority.

The Legislature further finds and declares that all districts, especially the bay district, the districts located, in whole or part,

within the South Coast Air Basin, and the San Diego County Air Pollution Control District, should be encouraged to require that monitoring devices be installed in each stationary source of air contaminants which emits into the atmosphere 100 tons or more each year of nonmethane hydrocarbons, oxides of nitrogen, oxides of sulfur, reduced sulfur compounds, or particulate matter or 1,000 tons or more each year of carbon monoxide.

In order to encourage such action by the districts, the state board shall determine the availability, technological feasibility, and economic reasonableness of monitoring devices for such stationary sources as provided by Section 42701.

42701. (a) For the purposes of Sections 41511 and 42303, the state board shall determine the availability, technological feasibility, and economic reasonableness of monitoring devices to measure and record continuously the emissions concentration and amount of nonmethane hydrocarbons, oxides of nitrogen, oxides of sulfur, reduced sulfur compounds, particulate matter, and carbon monoxide emitted by stationary sources. Such determination shall be made for stationary sources which emit such contaminants in the quantities set forth in Section 42700, and may be made for stationary sources which emit lesser amounts. The state board shall complete an initial review of submitted devices by June 1, 1975.

42702. The state board shall specify the types of stationary sources, processes, and the contaminants, or combinations thereof, for which a monitoring device is available, technologically feasible, and economically reasonable. Such specification may be by any technologically based classification, including on an industrywide basis or by individual stationary source, by air basin, by district, or any other reasonable classification.

42703. The state board shall require the manufacturer of any monitoring device submitted for a determination to reimburse the state board for its actual expenses incurred in making the determination, including, where applicable, its contract expenses for testing and review.

42704. After the board has made a determination of availability, the board may, as appropriate, revoke or modify its prior determination of availability if circumstances beyond the control of the state board, or of a stationary source required to install a monitoring device, cause a substantial delay or impairment in the availability of the device or cause the device no longer to be available.

42705. Any stationary source required by the district in which the source is located to install and operate a monitoring device shall retain the records from the device for not less than two years and, upon request, shall make the records available to the state board and the district.

42706. Any violation of any emission standard to which the stationary source is required to conform, as indicated by the records of the monitoring device, shall be reported by the operator of the

source to the district within 96 hours after such occurrence. The district shall, in turn, report the violation to the state board within five working days after receiving the report of the violation from the operator.

42707. The air pollution control officer shall inspect, as he determines necessary, the monitoring devices installed in every stationary source of air contaminants located within his jurisdiction required to have such devices to insure that such devices are functioning properly. The district may require reasonable fees to be paid by the operator of any such source to cover the expense of such inspection and other costs related thereto.

42708. This chapter shall not prevent any local or regional authority from adopting monitoring requirements more stringent than those set forth in this chapter or be construed as requiring the installation of monitoring devices on any stationary source or classes of stationary sources. This section shall not limit the authority of the board to require the installation of monitoring devices pursuant to Chapter 1 (commencing with Section 41500).

PART 5. VEHICULAR AIR POLLUTION CONTROL

CHAPTER 1. GENERAL PROVISIONS

43000. The Legislature finds and declares:

(a) That the emission of air pollutants from motor vehicles is the primary cause of air pollution in many parts of the state.

(b) That the control and elimination of such air pollutants is of prime importance for the protection and preservation of the public health and well-being, and for the prevention of irritation to the senses, interference with visibility, and damage to vegetation and property.

(c) That the state has a responsibility to establish uniform procedures for compliance with standards which control or eliminate such air pollutants.

(d) That the California goal for pure air quality is the achievement, by 1975, of an atmosphere with no significant detectable adverse effect from motor vehicle air pollution on property and on health, welfare, and the quality of life.

(e) That vehicle emission standards applied to new motor vehicles, and to used motor vehicles equipped with motor vehicle pollution control devices, are standards with which all such vehicles shall comply.

43001. The provisions of this part shall not apply to:

(a) Racing vehicles.

(b) Motorcycles, except as otherwise provided in Section 43106.

43002. No motor vehicle of historic interest shall be required to have any motor vehicle pollution control device, except for such devices that were required by this part for such vehicles prior to the time that special identification plates were issued for that vehicle

pursuant to Section 5004 of the Vehicle Code.

43003. No limited-production vehicle shall be required to meet emission standards of the state board that are more stringent than standards adopted by the state board for 1974 model year motor vehicles. Such vehicles shall meet the standards adopted by the state board for 1974 model year motor vehicles or the standards adopted by the Environmental Protection Agency for 1975 model year motor vehicles, whichever are more stringent.

43004. Except as otherwise provided in Section 43001, 43002, or 43005, the standards applicable under this part for exhaust emissions for gasoline-powered motor vehicles shall apply to motor vehicles which have been modified or altered to use a fuel other than gasoline or diesel.

43005. Section 43004 of this code, and Sections 4000.1 and 27156 of the Vehicle Code, shall not apply to a motor vehicle altered or modified to use a fuel other than gasoline or diesel completed prior to August 31, 1969.

43006. The state board may approve the fuel system of any motor vehicle powered by propane, butane, or natural gas which meets the standards specified by Section 43004.

43007. Whenever any motor vehicle is required to be equipped with any motor vehicle pollution control device by rules and regulations adopted by any district pursuant to Section 43658, such motor vehicle shall be equipped with such device.

43008. Except as provided by Sections 43100 and 43101 and Chapter 3 (commencing with Section 43600), all motor vehicles required pursuant to the National Emission Standards Act (42 U.S.C., Secs. 1857f-1 to 1857f-7, inclusive) and the standards and regulations promulgated thereunder, to be equipped with motor vehicle pollution control devices, shall be equipped with such devices required by that act.

43009. Except as otherwise provided in Section 43002, every motor vehicle subject to this part shall meet the standards adopted by the state board pursuant to Sections 27157 and 27157.5 of the Vehicle Code.

43010. With respect to the program designed and adopted by the Department of Consumer Affairs pursuant to Chapter 20.4 (commencing with Section 9889.50) of Division 3 of the Business and Professions Code, the state board shall, in time for the Department of Consumer Affairs to comply with the schedule specified in subdivisions (a) and (b) of Section 9889.55 of that code, after public hearings, prescribe maximum air pollution emission standards to be applied in inspecting motor vehicles.

In prescribing such standards, the state board shall undertake such studies and experiments as are necessary and feasible, evaluate available data, and confer with automotive engineers.

The standards shall be set at a level reasonably achievable for each class and model of motor vehicle when operating in a reasonably sound mechanical condition, allowing for the effects of installed

01758 219425 725

motor vehicle pollution control devices, and the motor vehicle's age and total mileage. The standards shall be designed to secure the operation of all such motor vehicles, as soon as possible, with a substantial reduction in air pollution emissions, and shall be revised from time to time, as experience justifies.

43011. (a) The state board shall establish criteria for the evaluation of the effectiveness of motor vehicle pollution control devices. After the establishment of such criteria, the state board shall evaluate motor vehicle pollution control devices which have been submitted to it for testing.

(b) The criteria established by the state board pursuant to subdivision (a) shall include, but need not be limited to:

(1) Provisions for the testing of vehicles on which a device is installed, when an engineering evaluation of the device indicates such testing is warranted.

(2) A requirement that independent test data be supplied to the state board for each device it is requested to test.

43012. For the purpose of enforcing or administering any federal, state, or local law, order, regulation, or rule relating to vehicular sources of emissions, the executive officer of the state board or an authorized representative of the executive officer, upon presentation of his credentials or, if necessary under the circumstances, after obtaining an inspection warrant pursuant to Title 13 (commencing with Section 1822.50), Part 3 of the Code of Civil Procedure, shall have the right of entry to any premises owned, operated, used, leased, or rented by any new or used car dealer, as defined in Sections 285, 286, and 426 of the Vehicle Code, for the purpose of inspecting any new vehicle, including any vehicle subject to the warranty provisions of Sections 43204 and 43205, for which emission standards have been enacted or adopted or for which emissions equipment is required and which is situated on the premises for the purpose of emission-related maintenance, repair, or service, or for the purpose of sale, lease, or rental, whether or not such vehicle is owned by such dealer. Such inspection may extend to all emission-related parts and operations of any such vehicle, and may require the on-premises operation of an engine or vehicle, the on-premises securing of samples of emissions from any such vehicle, and the inspection of any records which relate to vehicular emissions required by the Environmental Protection Agency or by any state or local law, order, regulation, or rule to be maintained by any such dealer in connection with his business.

This right of entry shall be limited to the hours during which the dealer is open to the public, except when the entry is made pursuant to warrant or whenever the executive officer or his authorized representative has reasonable cause to believe that a violation of any federal, state, or local law, order, regulation, or rule has been committed in his presence. No vehicle shall be inspected pursuant to this section more than one time without an inspection warrant or without reasonable cause unless (a) the vehicle undergoes a change

of ownership or (b) the inspection reveals that the vehicle has failed to comply with required emissions standards or equipment, in which case one additional inspection may be made to verify or correct the violation.

With respect to vehicles not owned by the dealer, the state board may not prosecute, without the owner's knowledge or consent, any violation by the owner of any law pertaining to vehicular emissions unless prior notice of the inspection has been given to the owner.

Notwithstanding the provisions of Section 17150 of the Vehicle Code, the state shall be liable for any injury or damage caused by the negligent or wrongful act or omission of the operator of any vehicle which is operated pursuant to this section.

43013. The board may adopt and implement motor vehicle emission standards for the control of air contaminants and sources of air pollution which the board has found to be necessary and technologically feasible to carry out the purposes of this division.

43014. The Air Pollution Control Fund is continued in existence in the State Treasury. All money in the fund is continuously appropriated to the state board to carry out its duties and functions.

CHAPTER 2. NEW MOTOR VEHICLES

Article 1. General Provisions

43100. The state board may certify new motor vehicles and motor vehicle pollution control devices for new vehicles pursuant to this article.

43101. The state board shall adopt and implement emission standards for new motor vehicles for the control of emissions therefrom, which standards the state board has found to be necessary and technologically feasible to carry out the purposes of this division. Such standards may be applicable to motor vehicle engines, rather than to motor vehicles.

43102. No new motor vehicle shall be certified by the state board for sale and registration in this state, or engine certified by the state board for use in such vehicle, unless such vehicle or engine, as the case may be, fulfills all of the following conditions:

(a) Meets the emission standards adopted by the state board pursuant to Section 43101 under test procedures adopted by the state board pursuant to Section 43104.

(b) Has been approved by the state board.

43103. In the case of an engine required to use unleaded fuel, the engine, in order to be certified, shall be designed to operate satisfactorily on a gasoline having a research octane number not greater than 91.

43104. For the certification of new motor vehicles, the state board shall adopt, by regulation, test procedures to determine whether such vehicles are in compliance with the emission standards established pursuant to Section 43101. The state board shall base its

01758 219475 735

test procedures on federal test procedures or on driving patterns typical in the urban areas of California.

43105. No new motor vehicle required pursuant to this part to meet the emission standards established pursuant to Section 43101 shall be sold and registered in this state if the vehicle manufacturer has violated emission standards or test procedures and has failed to take corrective action, which may include recall of vehicles, specified by the state board in accordance with regulations of the state board. If a manufacturer contests the necessity for, or the scope of, a recall of vehicles ordered pursuant to this section and so advises the state board, the state board shall not require such recall unless it first affords the manufacturer the opportunity, at a public hearing, to present evidence in support of the manufacturer's objections. If a vehicle is recalled pursuant to this section, the manufacturer shall make all necessary corrections specified by the state board without charge to the registered owner of the vehicle or, at the manufacturer's election, reimburse the registered owner for the cost of making such necessary corrections.

The procedures for determining, and the facts constituting, compliance or failure of compliance shall be established by the state board.

43106. Each new motor vehicle or engine required pursuant to this part to meet the emission standards established pursuant to Section 43101 shall be, in all material respects, substantially the same in construction as the test motor vehicle or engine, as the case may be, which has been certified by the state board in accordance with Section 43104. However, changes with respect to new motor vehicles or engines previously certified may be made if such changes do not increase emissions above the standards under which those motor vehicles or engines, as the case may be, were certified and are made in accordance with procedures specified by the state board.

43107. (a) The state board may, by regulation, adopt emission standards for new 1977 and later model year motorcycles registered or identified by the Department of Motor Vehicles which are sold in the state on or after July 1, 1976, or such later date as established by the state board by regulation.

(b) Motorcycles shall be exempt from the provisions of Section 43200.

Article 2. Manufacturers and Dealers

43200. The manufacturer of each motor vehicle certified by the state board shall securely affix on a side window to the rear of the driver or, if it cannot be so placed, to the windshield of the motor vehicle in accordance with paragraph (3) of subdivision (b) of Section 26708 of the Vehicle Code, a decal on which such manufacturer shall endorse clearly, distinctly, and legibly true and correct entries disclosing the following information concerning such motor vehicle:

01758 219495 739

(a) The emission standards adopted by the state board pursuant to Section 43101 which are applicable to that motor vehicle.

(b) For 1975 and 1976 model year motor vehicles, the exhaust emissions, based on quality audit tests of assembly line motor vehicles, and, at the beginning of each model year, based on certification fleet data.

(c) For each 1977 and later model year motor vehicle, the exhaust emissions as determined by the factory assembly line test for that motor vehicle.

Nothing in this division or in any other statute shall be construed as prohibiting a purchaser from removing the decal required by this section, after he has taken possession of the vehicle.

43201. Any dealer or person holding a retail seller's permit who sells a new motor vehicle without the decal required by Section 43200 shall be subject to a civil penalty of not to exceed one thousand dollars ($1,000).

Any penalty recovered pursuant to this section shall be deposited into the General Fund.

43202. No new motor vehicle required to meet the emission standards adopted by the state board pursuant to Section 43101 shall be sold and registered in this state unless the manufacturer thereof permits the state board to conduct surveillance testing of emissions of new motor vehicles at his assembly facilities, or at any other location where the manufacturer's assembly line testing is performed and assembly line testing records are kept.

Authorization for the sale and registration of any new motor vehicle in this state may be rescinded or withheld if, at any time, the state board is prevented by the manufacturer from conducting surveillance of assembly line testing.

43203. In connection with surveillance of emissions from new motor vehicles prior to their retail sale, the state board may, by regulation, impose fees on manufacturers of such vehicles to recover the state board's costs in conducting such surveillance.

Fees authorized by this section shall be imposed only for surveillance of emissions from new motor vehicles actually conducted.

Fees collected in accordance with this section shall be credited as a reimbursement to the support appropriation of the state board in order to finance its costs incurred in its program for the surveillance of emissions from new vehicles.

43204. The manufacturer of each motor vehicle and each motor vehicle engine shall warrant to the ultimate purchaser and each subsequent purchaser that the motor vehicle or motor vehicle engine is:

(a) Designed, built, and equipped so as to conform, at the time of sale, with the applicable emission standards specified in this part.

(b) Free from defects in materials and workmanship which cause such motor vehicle or motor vehicle engine to fail to conform with applicable regulations for its useful life as determined pursuant to Section 43205.

01758 219510 742

43205. As used in Section 43204, "useful life" of a motor vehicle or motor vehicle engine means:

(a) In the case of light duty motor vehicles, and motor vehicle engines used in such motor vehicles, a period of use of five years or 50,000 miles, whichever first occurs.

(b) In the case of any other motor vehicle or motor vehicle engine, the period of use set forth in subdivision (a), unless the state board determines that a period of use of greater duration or mileage is appropriate.

43206. Commencing April 1, 1973, and semiannually thereafter, every person who manufactures new motor vehicles for sale in California shall file with the state board a report as to such person's efforts and progress in meeting federal standards promulgated pursuant to Section 1857f-1(b)(1) of Title 42 of the United States Code.

The reports shall be available to the public. However, the manufacturer may designate that a portion of the report is a trade secret and such portion shall not be released except to such state board employees as are specifically designated by the executive officer, unless the state board, after an investigation, determines such portion is not in fact a trade secret. State board employees having access to the trade secret shall maintain its confidentiality.

The state board shall conduct such investigations with respect to the reports as it deems necessary and shall file a summary of the quarterly reports with the Legislature and the Governor as soon after each quarter as possible.

No report is required from a manufacturer once all models of motor vehicles of the manufacturer which are sold in California and which are subject to the standards promulgated pursuant to Section 1857f-1(b)(1) of Title 42 of the United States Code meet all such standards.

43207. The state board may revoke outstanding certification of new motor vehicles for sale in California if the manufacturer thereof willfully fails to file any semiannual report required by Section 43206 or files a report which is deemed by the state board to inadequately describe the manufacturer's efforts and progress.

The state board may also withhold future certification of such manufacturer's vehicles until such time as the manufacturer offers for sale in California vehicles which meet the standards promulgated pursuant to Section 1857f-1(b)(1) of Title 42 of the United States Code.

43208. Factory assembly line test procedures shall not apply to light duty motor vehicles, if (a) the manufacturer thereof advises the state board in writing that the manufacturer does not intend to sell more than 1,000 motor vehicles in California in a given model year, and (b) the manufacturer does not sell more than 1,000 motor vehicles of its make in such a year. Nothing in this section shall be construed to prohibit the state board from requiring testing by the

applicable certifying test procedure of up to 2 percent of the motor vehicles of such a manufacturer sold in California. This section shall not apply to 1976 and later model year motor vehicles.

43209. No manufacturer or distributor who pays a penalty pursuant to Section 43212 shall add the amount of such penalty to the cost of any motor vehicles sold by such manufacturer, and any provision of any contract of sale including such penalty as part of the cost of a motor vehicle shall be void and unenforceable.

43210. (a) The state board shall provide, by regulation, for the testing of motor vehicles on factory assembly lines or in such manner as the state board determines best suited to carry out the purpose of this part and this section.

(b) If a motor vehicle does not meet the prescribed assembly line standards, the motor vehicle may be retested according to the official test procedures upon which original certification for that make and model vehicle was based. Any motor vehicle meeting the applicable emission standards by either of the testing procedures shall be deemed to meet the emission standards of the State of California and shall be eligible for sale in this state.

43211. No new motor vehicle shall be sold in California that does not meet the emission standards adopted by the state board, and any manufacturer who sells, attempts to sell, or causes to be offered for sale a new motor vehicle that fails to meet the applicable emission standards shall be subject to a civil penalty of five thousand dollars ($5,000) for each such action.

Any penalty recovered pursuant to this section shall be deposited into the General Fund.

43212. Any manufacturer or distributor who does not comply with the emission standards or the test procedures adopted by the state board shall be subject to a civil penalty of fifty dollars ($50) for each vehicle which does not comply with the standards or procedures and which is first sold in this state. The payment of such penalties to the state board shall be a condition to the further sale by such manufacturer or distributor of motor vehicles in this state.

Any penalty recovered pursuant to this section shall be deposited into the Air Pollution Control Fund.

43213. Sections 43211 and 43212 shall be enforced by the state board, and may be enforced by the Department of the California Highway Patrol, the Department of Motor Vehicles, and the Bureau of Automotive Repair in the Department of Consumer Affairs.

CHAPTER 3. USED MOTOR VEHICLES

Article 1. Device Certification

43600. The state board shall adopt and implement emission standards for used motor vehicles for the control of emissions therefrom, which standards the state board has found to be necessary and technologically feasible to carry out the purposes of this division;

01758 219540 748

however, the installation of certified devices on used motor vehicles shall not be mandated except by statute. Such standards may be applicable to motor vehicle engines, rather than to motor vehicles.

43601. The state board shall certify exhaust devices for 1955 through 1965 model year motor vehicles.

43602. An exhaust device certified by the state board pursuant to Section 43601 shall not allow emissions exceeding any of the following:

(a) 350 parts per million hydrocarbons.

(b) 2 percent carbon monoxide.

(c) 800 parts per million nitrogen oxide.

However, if no exhaust device meets all three of the maximums specified in subdivisions (a), (b), and (c), the state board may certify an exhaust device which meets any two of the three maximums specified, if the installation of such a device in a motor vehicle would not increase the other emission in excess of the emission of that pollutant by the vehicle in the absence of such a device.

If two or more exhaust devices are certified that they meet the requirements of this section, the state board may not require the installation of more than one exhaust device on any motor vehicle.

43603. The state board shall adopt, by regulation, criteria for the certification of exhaust devices pursuant to Section 43601. Such criteria shall include, but not be limited to, requirements that:

(a) The device meets the cost and performance requirement specified in Section 43604.

(b) The device shall not allow exhaust emissions exceeding the amount specified in Section 43602.

(c) The manufacturer of the device comply with Section 43635.

43604. An exhaust device certified pursuant to Section 43601:

(a) Shall not cost, including the cost of installation, more than eighty-five dollars ($85).

(b) Shall not require maintenance more than once each 12,000 miles of operation, and such maintenance shall not cost, including the cost of parts and labor, more than fifteen dollars ($15).

(c) Shall equal or exceed the performance criteria established by the state board for such devices for new motor vehicles or, in the alternative, have an expected useful life of at least 30,000 miles of operation.

43610. The state board shall set standards for, and certify, exhaust devices to significantly reduce the emission of oxides of nitrogen from 1966 through 1970 model year motor vehicles, as determined by the state board from a representative sampling of such motor vehicles, which the state board has found to be necessary and technologically feasible to carry out the purposes of this division.

In setting standards under this section, the primary consideration shall be the greatest possible reduction of oxides of nitrogen.

43611. The state board shall adopt, by regulation, criteria for the certification of exhaust devices pursuant to Section 43610. Such criteria shall include, but not be limited to, requirements that:

(a) The device meets the cost and performance requirements specified in Section 43612.

(b) The device shall not allow exhaust emissions of oxides of nitrogen exceeding the standard adopted by the state board pursuant to Section 43610.

(c) The manufacturer of the device comply with Sections 43613 and 43635.

43612. An exhaust device certified pursuant to Section 43610:

(a) Shall not cost, including the cost of installation, more than thirty-five dollars ($35).

(b) Shall not require maintenance more than once each 12,000 miles of operation, and such maintenance shall not cost, including the cost of parts and labor, more than fifteen dollars ($15).

(c) Shall equal or exceed the performance criteria established by the state board for devices for new motor vehicles or, in the alternative, have an expected useful life of at least 50,000 miles of operation.

43613. The manufacturer of an exhaust device certified pursuant to Section 43610 shall include, with the sale of such device, instructions setting forth what steps the purchaser should take to maintain such device in proper working condition.

43614. After one or more devices are initially certified pursuant to Section 43610, no device shall be certified under that section which is less effective than the one or ones initially certified. Any subsequent certification of a more effective device shall not affect the certification of a previously certified device.

43630. (a) In addition to certifying devices which meet the standards set forth in, or established pursuant to, Sections 43602 and 43610, the state board shall adopt standards for certifying exhaust devices which achieve a reduction of the emission of hydrocarbons, carbon monoxide, and oxides of nitrogen from the exhaust of a motor vehicle substantially below the standards for any two pollutants set forth in, or established pursuant to, Section 43602 or 43610.

If, however, an exhaust device is shown to substantially reduce the emission of any two of the three pollutants, the state board may certify such a device, so long as the installation of such device in a motor vehicle does not increase the emission of the other pollutant in excess of the emission of that pollutant by the vehicle in the absence of such a device.

(b) Devices certified pursuant to this section may be certified without regard to the provisions of subdivision (a) of Section 43604 or subdivision (a) of Section 43612.

(c) After one or more such devices are initially certified, no device shall be certified pursuant to this section which is substantially less effective than any device previously certified, unless the state board determines, pursuant to a cost-benefit analysis, that such less effective device is also substantially less costly and therefore merits certification. Any subsequent certification of a more effective device shall not affect the certification of a previously certified device.

(d) The state board may permit the installation of a device certified pursuant to this section in lieu of any certified motor vehicle pollution control device which is required to be installed pursuant to any other provision of state law, if the installation of such device on that particular classification of motor vehicles results in no greater emissions than if the required certified device were operative over the life of the vehicle. The applicant shall be responsible for proving compliance with this subdivision and with other applicable criteria. Certificates of compliance shall be required upon the installation of a device certified pursuant to this section and installed pursuant to this subdivision, as if it were a device required by any other provision of state law.

43635. As a condition to the certification of any motor vehicle pollution control device required under this chapter, except Section 43630, the manufacturer of such a device, in order to protect the public interest, shall agree to either of the following:

(a) That, until two or more such devices are certified for the same subclassification of motor vehicles, he enter into such cross-licensing or other agreements the state board determines, after a public hearing, are necessary to insure adequate competition among manufacturers of such devices.

(b) That, if his device is the only one made available to the public, the retail price of the device, including installation, does not exceed the price established, after a public hearing, by the state board for that device.

43636. (a) In establishing the fair and reasonable retail price for a motor vehicle pollution control device for purposes of subdivision (b) of Section 43635, the state board shall take into consideration the cost of manufacturing the device and the manufacturer's suggested retail price.

(b) The price established by the state board shall, in no case, exceed the amount specified in subdivision (a) of Section 43604 or subdivision (a) of Section 43612, as the case may be.

43640. The state board may revoke, suspend, or restrict a certification of a previously certified device, or an exemption previously granted, upon a determination by the state board that the device no longer operates within the applicable criteria and standards adopted by the state board or no longer should be exempted.

Such a determination may be based on any relevant information, including, but not limited to, a change in the device, significant differences between certified and production models, or new data which bear upon the applicable certification criteria or standards and require the revocation of the device.

43641. Proceedings to review the denial of an application for certification or exemption, or proceedings to revoke, suspend, or restrict a certification previously granted by the state board, shall, upon the timely request of the applicant or affected manufacturer, be conducted by the state board in accordance with the provisions

01758 219610 762

of Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the state board shall have all the powers granted therein to the Office of Administrative Hearings.

43642. Certification for a motor vehicle pollution control device may be revoked by the state board, if the actual cost of the device installed exceeds the cost permitted by law or established pursuant to subdivision (b) of Section 43635.

43643. Any motor vehicle equipped with a certified device shall not be deemed in violation of the provisions of this part, or Section 27156 of the Vehicle Code, because the certification of the device is subsequently revoked, suspended, or restricted.

Replacement parts for the device may continue to be supplied and used for such vehicle, unless the revocation, suspension, or restriction is based upon a finding that the certified device has been found to be unsafe in actual use or is otherwise mechanically defective, in which event the device shall be brought into compliance with the provisions of this part within 30 days after such a finding.

43644. (a) No person shall install, sell, offer for sale, or advertise, or, except in an application to the state board for certification of a device, represent, any device as a motor vehicle pollution control device for use on any used motor vehicle unless that device has been certified by the state board. No person shall sell, offer for sale, advertise, or represent any motor vehicle pollution control device as a certified device which, in fact, is not a certified device. Any violation of this subdivision is a misdemeanor.

(b) Subdivision (a) shall not preclude any person from installing, selling, offering for sale, or advertising a device as a motor vehicle pollution control device for use on a particular classification of used motor vehicles if the state board has found that the installation of the device on that particular classification of used motor vehicle results in such vehicles meeting the state exhaust emissions standards.

43645. Whenever the state board certifies a motor vehicle pollution control device for the control of emissions of pollutants from a particular source of emissions from motor vehicles for which standards have been set by this part or by the state board, it shall so notify the Department of Motor Vehicles, the Department of the California Highway Patrol, and the Bureau of Automotive Repair in the Department of Consumer Affairs.

Article 2. Certified Device Installation

43650. Every 1955 and later model motor vehicle shall be equipped with the certified device as required by the Department of Motor Vehicles Manual of Registration Procedures as of January 1, 1975, or as amended to reflect the adoption of rules and regulations by a district board pursuant to Section 43658.

43651. Every 1968 or later model year motor vehicle, subject to registration in this state, shall be equipped with a certified device to control its crankcase emissions.

01758 219630 766

43652. Except as provided in Section 43657, every 1955 through 1965 model year motor vehicle, subject to registration in this state, upon either transfer of ownership and registration, or upon initial registration of such vehicle not previously registered in this state, shall be equipped with a certified device to control its exhaust emissions in accordance with a schedule of installation adopted by the state board.

43653. Every 1966 or later model year motor vehicle, subject to registration and first sold and registered in this state, shall be equipped with a certified device to control its crankcase emissions and exhaust emissions.

43654. Every 1966 through 1970 light duty motor vehicle, subject to registration in this state, shall be equipped with a certified device to control its exhaust emission of oxides of nitrogen upon initial registration and upon transfer of ownership and registration.

43655. (a) The state board shall adopt, by regulation, schedules of installation for purposes of Section 43652, after consultation with the Department of the California Highway Patrol, the Department of Motor Vehicles, and the Bureau of Automotive Repair in the Department of Consumer Affairs.

(b) In establishing such schedules, the state board shall consider all relevant factors, including, but not limited to, the burden of enforcement on the Department of the California Highway Patrol, the Department of Motor Vehicles, and the Bureau of Automotive Repair in the Department of Consumer Affairs, the need for rapid installation of motor vehicle pollution control devices in order to preserve and protect the public health, and the existing ambient air quality in the air basins.

43656. The state board may exempt from any schedule of installation adopted pursuant to Section 43654 or 43655:

(a) Motor vehicles or classifications or subclassifications of motor vehicles for which certified devices are not available.

(b) Motor vehicles or classifications or subclassifications of motor vehicles whose emissions are found by appropriate tests to meet applicable emission standards without an additional motor vehicle pollution control device.

(c) Implements of husbandry.

(d) Vehicles which qualify for special identification plates pursuant to Section 5004 of the Vehicle Code.

43657. The state board may also exempt, from the schedule of installation adopted pursuant to Section 43655, any motor vehicle registered to an owner whose residence is in a county, or portion thereof, which the state board finds, after a public hearing, that the installation of a certified device pursuant to Section 43652 to control exhaust emissions is not necessary or desirable to preserve and protect the public health and the existing ambient air quality thereof.

43658. (a) If the evidence submitted at a public hearing indicates that, in order to preserve the ambient air quality of a

district, it is necessary that every 1955 through 1965 model year motor vehicle within the district be equipped with device or devices certified by the state board to control emission of pollutants from the crankcase or exhaust. the district board may adopt rules and regulations to require the installation of such devices.

(b) The rules and regulations shall provide for a schedule of installation by which the motor vehicles are to be equipped with certified device, taking into consideration the number of motor vehicles to be equipped, the availability of such devices, and the availability of licensed installers to install such devices.

(c) The district board shall coordinate its activities pursuant to this section with the Department of the California Highway Patrol and the Department of Motor Vehicles in order to insure adoption of procedures which will facilitate enforcement of the rules and regulations adopted pursuant to this section.

CHAPTER 4. MISCELLANEOUS

Article 1. Low-Emission Motor Vehicles

43800. As used in this article, "low-emission motor vehicle" means a motor vehicle which does not have exhaust emissions of more than 0.3 gram per mile of hydrocarbons, 3 grams per mile of carbon monoxide, and 0.5 gram per mile of oxides of nitrogen.

43801. The Legislature finds and declares that emission of air pollutants from motor vehicles is a major contributor to air pollution within the State of California and, therefore, declares its policy to encourage the development and testing of various types of low-emission motor vehicles, which would contribute substantially to achieving a pure and healthy atmosphere for the people of this state.

43802. Low-emission motor vehicles shall be submitted to the state board for testing to determine if such vehicle meets the standard set forth in Section 43800.

43803. After determining that the low-emission motor vehicle meets the standard set forth in Section 43800, the Department of General Services, in consultation with the state board, shall determine if the low-emission motor vehicle meets all of the following requirements:

(a) The vehicle can be manufactured in sufficient numbers for the purpose of proper evaluation.

(b) The vehicle meets the performance needs for state vehicles.

(c) The cost of the vehicle does not exceed by more than 100 percent the average cost of state passenger vehicles purchased in the preceding fiscal year.

(d) If the vehicle is purchased by the state, there would be a sufficient number of servicing and maintenance outlets.

(e) The average servicing and maintenance costs for the vehicle are comparable to the average servicing and maintenance costs for all other state passenger vehicles. In no event, however, shall the

average servicing and maintenance costs for the vehicle exceed the average costs of servicing and maintaining all other state passenger vehicles by more than 50 percent.

43804. If a low-emission motor vehicle meets the requirements of this chapter, and the performance, cost, service, and maintenance requirements adopted by the Department of General Services for such a motor vehicle, and if funds are appropriated for the purpose of purchasing such motor vehicles, the state shall purchase, beginning with the next fiscal year, as many of such low-emission motor vehicles as the Department of General Services determines are reasonable and available to meet state needs.

If a sufficient number of low-emission motor vehicles are available, the percentage of all such motor vehicles to be purchased in that year shall not be less than 25 percent of all motor vehicles purchased by the state in the preceding fiscal year.

43805. The provisions of this chapter shall not apply to the following motor vehicles:

(a) Patrol cars of the Department of the California Highway Patrol.

(b) Any motor vehicle classified as a special-purpose vehicle by the Department of General Services.

Article 2. Fuel System Evaporative Loss Control Devices

43820. The state board shall adopt, by regulation, criteria for the certification of fuel system evaporative loss control devices for installation on motor vehicles not equipped with such a device when first sold. Such criteria shall include, but not be limited to, requirements that the device:

(a) Shall not allow fuel system evaporative loss greater than six grams of hydrocarbons per test.

(b) Shall equal or exceed the performance criteria established by the state board for such new devices required on new motor vehicles or, in the alternative, shall have an expected useful life of at least 50,000 miles of operation.

43821. In adopting criteria for the certification of fuel system evaporative loss control devices, the state board shall take into consideration the cost of the device and its installation, its durability, the ease and facility of determining whether the device, when installed on a motor vehicle, is properly functioning, and any other factors which, in the opinion of the state board, render such a device suitable or unsuitable for the control of motor vehicle air pollution or for the health, safety, and welfare of the public.

43822. Whenever the state board certifies a fuel system evaporative loss control device, pursuant to this article, it shall submit a report of its findings and its recommendations for installation on used vehicles to the Legislature within 10 days, if it is then in session, or if not in session not later than the next January 15.

The report shall include information on the cost of the device,

including the cost of installation, and its potential performance, including required maintenance and the cost of labor and parts to perform such maintenance.

43823. The installation of a certified fuel system evaporative loss control device on used motor vehicles shall not be mandated except by statute.

43824. The state board may adopt, by regulation, standards and test procedures for the certification of fuel system evaporative loss control devices on new motor vehicles in the absence of any such federal regulations.

In such case, no new motor vehicle may be sold and registered in this state unless it conforms to such regulations adopted by the state board.

Article 3. Fuel and Fuel Tanks

43830. The state board shall establish, by regulation, maximum standards for the volatility of gasoline at nine pounds per square inch Reid vapor pressure as determined by the American Society for Testing and Materials test D 323-58, or by an appropriate test determined by the state board, for gasoline sold in this state.

The state board, in adopting such regulations, shall give full consideration to climatic conditions and may provide that the maximum standards imposed thereby shall be applicable only during those periods of time and only in those areas which the state board determines necessary in order to carry out the purposes of this division.

43831. The state board shall establish, by regulation, maximum standards for the degree of unsaturation at a bromine number 30 as established by the American Society for Testing and Materials test D 1159-66, or by an appropriate test determined by the state board, for gasoline sold in the South Coast Air Basin designated by the state board.

The state board, in adopting such regulations, shall give full consideration to climatic conditions and may provide that the maximum standards imposed thereby shall be applicable only during those periods of time which the state board determines necessary in order to carry out the purposes of this division.

43832. The state board may request, from any person who advertises, or causes to be advertised, in any manner or claim that a fuel or fuel additive reduces motor vehicle exhaust emissions, a report detailing the data which supports the advertiser's claims of emission reduction by that fuel or fuel additive.

The state board may conduct, and may request the Department of Consumer Affairs to assist the state board in, such further investigation as may appear warranted under the circumstances.

If the state board, or the state board and the Department of Consumer Affairs if the latter has assisted in the investigation, determines that the fuel or fuel additive is not substantially as

effective as it is claimed to be in the advertisement for it, the state board shall report the findings to the Attorney General for whatever action under the Business and Professions Code or other law the Attorney General finds appropriate.

43833. (a) The state board shall establish criteria for the evaluation of the effectiveness of, and may conduct tests respecting the composition or the chemical or physical properties of, any motor vehicle fuel additive sold, or proposed to be sold, in this state. The tests shall be designed to determine whether the additive will reduce or eliminate from vehicular sources any substance found to affect human health or impair the obtainment of the state board's ambient air quality standards, or whether, in specified fuels, a particular fuel additive would result in a significant and beneficial reduction in vehicular emissions commensurate with the purposes of this division and would not have a deleterious effect upon the operation of any vehicle or any motor vehicle pollution control device which is in general use.

(b) The state board may also engage independent laboratories to conduct such tests under test procedures specified by the state board.

(c) Any manufacturer may apply to the state board to have its additive tested pursuant to subdivision (a). The state board may charge an application fee, not to exceed the cost of such tests, for such applications.

43834. (a) The state board shall establish standards or criteria for the certification of auxiliary gasoline fuel tank evaporative loss control devices or systems on vehicles which are required, pursuant to this part or the National Emission Standards Act (42 U.S.C., Secs. 1857f-1 to 1857f-7, inclusive), to be equipped with a fuel system evaporative loss control device to prevent as much evaporation of gasoline into the air from auxiliary fuel tanks as is technologically feasible.

(b) For the purpose of this section, and Section 27156.1 of the Vehicle Code, an "auxiliary gasoline fuel tank" is a fuel tank which is designed and intended by its manufacturer for installation on, or which is installed on, a vehicle operating on gasoline and which is connected to the original fuel system, as defined in Section 39032 of this code, but is not a gasoline fuel tank which is added to a certified device on a used vehicle if such certification included the capability of handling evaporation from such a tank.

SEC. 13. Division 27 (commencing with Section 39600) of the Health and Safety Code is repealed.

SEC. 14. Division 27 (commencing with Section 44500) is added to the Health and Safety Code, to read:

DIVISION 27. CALIFORNIA POLLUTION CONTROL FINANCING AUTHORITY ACT

CHAPTER 1. CALIFORNIA POLLUTION CONTROL FINANCING AUTHORITY

Article 1. General Provisions and Definitions

44500. This division may be cited as the California Pollution Control Financing Authority Act.

44501. The Legislature hereby finds that it is necessary and essential that the state, in cooperation with the federal government, use all practical means and measures to control and eliminate pollution hazards to the environment. The Legislature further finds and determines that industry within this state utilizes processes and facilities which have significant environmental impact. These processes and facilities shall be modified and supplemented to meet the quality standards established and to be established for the control of environmental pollution. Industry needs and requires new methods to finance the capital outlays required for the devices, equipment and facilities utilized in pollution control if they are to rapidly comply with the quality standards established by the state and federal governments, and the alternate method of financing provided in this division is in the public interest and serves a public purpose and will promote the health, welfare, and safety of the citizens of the State of California.

44502. It is the purpose of this division to carry out and make effective the findings of the Legislature and to that end to provide industry within the state with an alternative method of financing in providing, enlarging, and establishing pollution control facilities which are needed to accomplish the purposes of this division, all to the mutual benefit of the people of the state and to protect their health and welfare.

44503. Unless the context otherwise requires, the definitions in this article govern the construction of this chapter.

44504. "Authority" means the California Pollution Control Financing Authority established pursuant to Section 44520 and any board, commission, department, or officer succeeding to the functions thereof or to whom the powers conferred upon the authority by this division shall be given by law.

44505. "Cost" as applied to a project or portion thereof financed under the provisions of this division embraced all or any part of the cost of construction and acquisition of all lands, structures, real or personal property, rights, rights-of-way, franchises, easements, and interests acquired or used for a project, the cost of demolishing or removing any buildings or structures on land so acquired, including the cost of acquiring any lands to which such buildings or structures may be moved, the cost of all machinery and equipment, financing charges, interest prior to, during and for a period after completion

of such construction as determined by the authority, provisions for working capital, reserves for principal and interest and for extensions, enlargements, additions, replacements, renovations and improvements, the cost of architectural, engineering, financial and legal services, plans, specifications, estimates, administrative expenses and other expenses necessary or incident to determining the feasibility of constructing any project or incident to the construction or acquisition or financing of any project.

44506. "Participating party" means any person, company, corporation, partnership, firm, or other entity or group of entities engaged in operations within this state which requires financing pursuant to the terms of this division to aid and assist in the control or elimination of pollution of the environment of the state.

44507. "Pollution" means an alteration of quality of the environment of the state and shall be determined by the various standards prescribed from time to time by this state or the federal government or any agency, department, or political subdivision of this state or the federal government and may include, but is not limited to, earth, air, or water pollution, pollution caused by solid waste disposal, thermal pollution, radiation contamination, or noise pollution.

44508. "Project" and "pollution control facility," respectively, means any land, building, improvement thereto, work, property or structure, real or personal, providing or designed to provide for the control, reduction, abatement, elimination, or prevention of pollution, including, but not limited to, hydrostatic control facilities, dust collectors, smoke bags, settling ponds, filtration plants, sewage disposal facilities, garbage disposal facilities, recycling facilities, dumps, filling grounds, chlorination ponds, treatment works, and all other structures or facilities now or hereafter developed or useful in the control of pollution of any type or character, including any structure, equipment, or other facilities for the purpose of reducing, treating, neutralizing, or cooling the temperature of any liquid, gaseous, or solid waste substance or discharge resulting from the process of manufacture, industry, or commerce, or from the development, processing, or recovery of any natural resource or the generation of electricity, steam heat, or manufactured gas, together with the recovery, treatment, neutralizing, stabilizing, or cooling equipment, facilities, plants, or structures necessary to reduce, control, or eliminate pollution, and any and all facilities which may hereafter be developed through science, study, and investigation to aid and assist in the control of pollution or the removal or treatment of any substance which might otherwise cause or contribute to such pollution.

44509. "Public agency" means any state agency, board, or commission, any county, city and county, city, regional agency, public district, or other political subdivision.

44510. "Revenues" means all rents, receipts, purchase payments and all other income or receipts derived by the authority from the

sale, lease, or other disposition of pollution control facilities and any income or revenue derived from the investment of any money in any fund or account of the authority.

Article 2. Organization of Authority and General Powers and Duties Thereof

44520. There is in the state government the California Pollution Control Financing Authority. The authority constitutes a public instrumentality and a political subdivision of the State of California, and the exercise by the authority of the powers conferred by this division shall be deemed and held to be the performance of an essential public function. The authority shall consist of five members: the Director of Finance, the Chairman of the State Water Resources Control Board, the Chairman of the State Air Resources Board, the State Treasurer, and the State Controller.

The Director of Finance, the Chairman of the State Water Resources Control Board, and the Chairman of the State Air Resources Board may each designate a deputy or clerk in his agency to act for him and represent him at all meetings of the authority.

The first meeting of the authority shall be convened by the Director of Finance.

44521. All members of the authority shall serve thereon without compensation as members of the authority.

44522. The provisions of this division shall be administered by the authority which shall have and is hereby vested with all powers reasonably necessary to carry out the powers and responsibilities expressly granted or imposed upon it under this division.

44523. The authority shall maintain an office in the City of Sacramento.

44524. The authority may employ an executive secretary and such other persons as are necessary to enable it properly to perform the duties imposed upon it by this division.

44525. The authority shall, in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, adopt all necessary rules and regulations to carry out the provisions of this division. The authority may call upon any board or department of the state government for aid and assistance in the preparation of plans and specifications and in the development of technology necessary to effectively control pollution.

44526. (a) The Attorney General shall be the legal counsel for the authority, but with the approval of the Attorney General, the authority may employ such legal counsel as in its judgment is necessary or advisable to enable it to carry out the duties and functions imposed upon it by this division, including the employment of such bond counsel as may be deemed advisable in connection with the issuance and sale of bonds.

(b) The State Treasurer shall be the treasurer for the authority.

44527. The authority is authorized and empowered:

(a) To adopt an official seal.

(b) To sue and be sued in its own name.

(c) To determine the location and character of any project to be financed under the provisions of this division, subject to the certification under Section 44531, to lend financial assistance to any participating party, to construct, reconstruct, renovate, replace, lease, as lessor or lessee, and regulate the same, and to enter into contracts for the sale of any pollution control facilities, including installment sales or sales under conditional sales contracts.

(d) To issue bonds, notes, bond anticipation notes, and other obligations of the authority for any of its corporate purposes, and to fund or refund the same, all as provided in this division.

(e) To fix fees and charges for pollution control facilities, and to revise from time to time such fees and charges, and to collect rates, rents, fees and charges for the use of and for any facilities or services furnished, or to be furnished, by a project or any part thereof and to contract with any person, partnership, association, corporation, or public agency with respect thereto, and to fix the terms and conditions upon which any pollution control facilities may be sold or disposed of, whether upon installment sales contracts or otherwise.

(f) To employ and fix the compensation of bond counsel, financial consultants and advisers as may be necessary in its judgment in connection with the issuance and sale of any bonds, notes, bond anticipation notes, or other obligations of the authority; to contract for engineering, architectural, accounting, or other services of appropriate state agencies as may be necessary in the judgment of the authority for the successful development of any project; and to pay the reasonable costs of consulting engineers, architects, accountants, and construction experts employed by any participating party if, in the judgment of the authority, such services are necessary to the successful development of any project, and provided such services are not obtainable from any state agency.

(g) To do all things generally necessary or convenient to carry out the purposes of this division.

44528. All expenses incurred in carrying out the provisions of this division shall be payable solely from funds provided under the authority of this division and no liability or obligation shall be imposed upon the State of California and, except as provided in Section 44547, none shall be incurred by the authority beyond the extent to which moneys shall have been provided under the provisions of this division. Under no circumstances shall the authority create any debt, liability, or obligation on the part of the State of California payable from any source whatsoever other than the moneys provided under the provisions of this division.

44529. (a) All projects shall be constructed or completed subject to the rules and regulations of the authority.

(b) The authority is authorized to acquire, by deed, purchase, lease, contract, gift, devise, or otherwise, any real or personal

property, structures, rights, rights-of-way, franchises, easements, and other interests in lands located within this state necessary or convenient for the construction or operation of a project, upon such terms and conditions as it deems advisable, and to lease, sell, or dispose of the same in such manner as may be necessary or desirable to carry out the objects and purposes of this division. Nothing in this division shall authorize the authority to exercise the power of eminent domain.

44530. When the principal of and interest on bonds of the authority issued to finance the cost of a particular project for a participating party, including any refunding bonds issued to refund and refinance such bonds, shall have been fully paid and retired or when adequate provision shall have been made for the payment and retirement of the same, and all other conditions of the resolution, indenture, or agreement authorizing and securing the same shall have been satisfied and the lien of such resolution, indenture, or agreement shall have been released in accordance with the provisions thereof, the authority is authorized, upon such terms and conditions as may be prescribed by the authority, to execute such deeds and conveyances as are necessary or required to convey title to such project to such participating party.

44531. No project, or portion thereof, shall be eligible for financing under this division for which, at the time an application is submitted to the authority, financing has been otherwise obtained.

No project shall be eligible for financing under this division unless the appropriate state control agency certifies that there is reasonable assurance that:

(a) The project is necessary to further compliance with applicable federal, state and local standards and requirements.

(b) The project is consistent with an approved regional, basin, or state plan for environmental protection.

(c) The project, in the event that such project is concerned with water pollution control, cannot reasonably be financed by being included, or otherwise participating, in a water pollution control project directly funded by a public agency.

For purposes of this section the "appropriate state control agency" shall be the State Water Resources Control Board for projects affecting water quality, the State Air Resources Board for projects affecting air quality, or the Resources Agency for a project affecting other than water quality or air quality. The authority shall reimburse the control agencies for their reasonable and necessary expenses in making the certification.

44532. Throughout each calendar quarter the authority shall accept applications for financing proposed projects. Eligible applicants shall be limited to participating parties who own or operate facilities requiring pollution control equipment which may be provided pursuant to this chapter. After the close of each such quarter, the authority shall determine by resolution those projects which it will finance. The financing of projects shall be determined

on the basis of the following priorities:

(a) First priority shall be given to projects which are necessary to meet an established federal, state, or local deadline for correction of existing pollution problems caused by existing facilities.

(b) Second priority shall be given to projects which are necessary to enable existing facilities to comply with federal, state, or local plans for environmental protection but for which no specific compliance date has been established.

(c) Third priority shall be given to other eligible projects.

44533. Projects approved for financing pursuant to Section 44532 shall not exceed fifty million dollars ($50,000,000) in aggregate for each calendar quarter; provided that the authority may at the beginning of any calendar quarter, determine by resolution to finance a lesser aggregate amount of projects during such calendar quarter. In the event that eligible applications exceed, in any quarter, an aggregate of fifty million dollars ($50,000,000), or such lesser amount as may be available for financing during such quarter, projects shall be financed in the following order:

(a) Projects estimated to cost less than one million dollars ($1,000,000).

(b) Projects estimated to cost more than one million dollars ($1,000,000) which provide for pretreatment of wastes discharged into a publicly operated sewerage system.

(c) Projects estimated to cost more than one million dollars ($1,000,000) which provide for conservation and reuse of natural resources.

(d) All other eligible projects estimated to cost more than one million dollars ($1,000,000).

The order of financing specified in this section shall be applied, as appropriate, to applications within the respective priority classifications established pursuant to Section 44532.

44534. Eligible applications not approved for financing by the authority in any calendar quarter shall, unless withdrawn by the applicant, be automatically considered for financing in the next succeeding calendar quarter along with any new applications which may be submitted in such quarter and shall be subject to the same priorities for financing as such new applications.

44535. Prior to the beginning of each calendar quarter, the authority shall obtain from the appropriate state control agencies, designated in Section 44531, a list of the names and addresses of those business associations, corporations, or individuals which have been required, by a specified deadline, to correct pollution problems caused by existing facilities. The authority shall notify such business associations, corporations, or individuals of its programs for financing pollution control facilities.

In addition, the authority shall take all reasonable steps to publicize its programs so that eligible applicants may be aware of them.

44536. The authority shall provide maximum opportunity for use

of its financing by individuals and small businesses or corporations by providing information, assistance, and coordination to facilitate financing for small projects.

44537. The authority, no later than March 1 of each year, shall submit to the Legislature a report of its activities for the preceding calendar year ended December 31. Such report shall include (1) a listing of applications received, (2) a listing of applications accepted for financing, (3) specification of bonds sold, interest rates thereon, and whether bond sales were pursuant to public bid or were negotiated, (4) specification of the amount of bonds authorized but currently unsold, (5) a projection of the authority's needs and requirements for the coming year, and (6) a report of revenues and expenditures for the preceding fiscal year.

44538. An applicant for financing for a project involving a waste water treatment plant shall provide evidence satisfactory to the State Water Resources Control Board that the waste water treatment facilities will be operated and maintained by competent personnel. Such evidence shall include, but not be limited to, a description of operating procedures, organizational structure, minimum personnel requirements and training program.

Article 3. Bonds and Notes

44540. The authority is authorized to incur indebtedness and to issue securities of any kind or class, and to renew the same, provided that all such indebtedness, howsoever evidenced, shall be payable solely from revenues of the authority and the proceeds of its bonds, as hereinafter defined, shall not exceed the sum of two hundred million dollars ($200,000,000) of new debt, except as provided in this article. "New debt" shall not include indebtedness incurred to replenish or refund existing debts except to the extent that such indebtedness exceeds the amount of such debts.

44541. (a) At such times as the authority desires to issue bonds, as defined in Section 44542, in excess of the amount provided in Section 44540, it shall adopt a resolution specifying the total amount of such bonds proposed to be issued. The amount specified in any such resolution shall not exceed two hundred million dollars ($200,000,000) of new debt.

Upon adoption of the resolution, the authority shall immediately cause copies thereof to be transmitted to the Senate Rules Committee and to the Speaker of the Assembly.

(b) Upon receipt of such a resolution, the Senate Rules Committee and the Speaker of the Assembly shall refer the resolution to a standing committee of their respective houses for study and a report. Such a report shall be made no later than the 50th calendar day of continuous session of the Legislature after the date on which the resolution was transmitted to each house of the Legislature.

(c) A resolution of either house of the Legislature, disapproving

of the issuance of the bonds as proposed in the resolution of the authority may be made by floor motion within 10 calendar days following the submission of the report provided for in subdivision (b). Such a resolution shall be voted on without referral to committee.

If either house shall adopt such a resolution of disapproval, the authority shall not issue the bonds as proposed in its resolution. If neither house has adopted a resolution of disapproval within 10 calendar days as provided in this subdivision, the authority shall be authorized to issue the bonds as specified in its resolution.

(d) If the authority, pursuant to this section, submits to the Legislature a resolution proposing the issuance of bonds and the Legislature adjourns sine die before 60 continuous calendar days have elapsed, the authority shall not issue the proposed bonds. The authority may submit the same resolution, or a new resolution, proposing the issuance of bonds to the Legislature when it next convenes.

44542. (a) The authority is authorized from time to time to issue its negotiable bonds, notes, debentures, or other securities (hereinafter collectively called "bonds") for any corporate purpose. Such bonds may be authorized, without limiting the generality of the foregoing, to finance a single project for a single participating party, a series of projects for a single participating party, a single project for several participating parties, or several projects for several participating parties. In anticipation of the sale of such bonds as authorized by Section 44540, or as may be authorized pursuant to Section 44541, the authority may issue negotiable bond anticipation notes and may renew the same from time to time. Such bond anticipation notes may be paid from the proceeds of sale of the bonds of the authority in anticipation of which they were issued. Notes and agreements relating thereto and bond anticipation notes, hereinafter collectively called notes, and the resolution or resolutions authorizing the same may contain any provisions, conditions or limitations which a bond, agreement relating thereto, and bond resolution of the authority may contain; except that such note or renewal thereof shall mature at such time not exceeding two years from the date of issue of the original note.

(b) Except as may otherwise be expressly provided by the authority, every issue of its bonds, notes, or other obligations shall be general obligations of the authority payable from any revenues or moneys of the authority available therefor and not otherwise pledged, subject only to any agreements with the holders of particular bonds, notes, or other obligations pledging any particular revenues or moneys and subject to any agreements with any participating party. Notwithstanding that such bonds, notes, or other obligations may be payable from a special fund, they shall be and be deemed to be for all purposes negotiable instruments, subject only to the provisions of such bonds, notes or other obligations for registration.

(c) Subject to the limitations in Sections 44540 and 44541, the bonds may be issued as serial bonds or as term bonds, or the authority in its discretion, may issue bonds of both types. The bonds shall be authorized by resolution of the authority and shall bear such date or dates, mature at such time or times, not exceeding 50 years from their respective dates, bear interest at such rate or rates, be payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America at such place or places, and be subject to such terms of redemption, as such resolution or resolutions may provide. The bonds or notes shall be sold by the State Treasurer within 60 days of receipt of a certified copy of the authority's resolution authorizing the sale of the bonds; provided, that the authority, at its discretion, may adopt a resolution extending such 60-day period. Such sales may be at public or private sale, and for such price or prices and on such terms and conditions, as the authority shall determine after giving due consideration to the recommendations of any participating party to be assisted from the proceeds of such bonds or notes. Pending preparation of the definitive bonds, the State Treasurer may issue interim receipts, certificates, or temporary bonds which shall be exchanged for such definitive bonds. The State Treasurer may sell any bonds, notes, or other evidence of indebtedness at a price below the par value thereof; provided, however, that the discount on any security so sold shall not exceed 6 percent of the par value thereof.

(d) Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions, which shall be a part of the contract with the holders of the bonds to be authorized, as to:

(1) Pledging the full faith and credit of the authority or pledging all or any part of the revenues of any project or any revenue-producing contract or contracts made by the authority with any individual, partnership, corporation, or association or other body, public or private, or other moneys of the authority, to secure the payment of the bonds or of any particular issue of bonds, subject to such agreements with bondholders as may then exist.

(2) The rentals, fees, purchase payments, and other charges to be charged, and the amounts to be raised in each year thereby, and the use and disposition of the revenues.

(3) The setting aside of reserves or sinking funds, and the regulation and disposition thereof.

(4) Limitations on the right of the authority or its agent to restrict and regulate the use of the project or projects to be financed out of the proceeds of the bonds or any particular issue of bonds.

(5) Limitations on the purpose to which the proceeds of sale of any issue of bonds then or thereafter to be issued may be applied and pledging such proceeds to secure the payment of the bonds or any issue of the bonds.

(6) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured and the

refunding of outstanding bonds.

(7) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given.

(8) Limitations on expenditures for operating, administrative or other expenses of the authority.

(9) Defining the acts or omissions to act which shall constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of such holders in the event of a default.

(10) The mortgaging of any project and the site thereof for the purpose of securing the bondholders.

(11) The mortgaging of land, improvements, or other assets owned by a participating party for the purpose of securing the bondholders.

(e) Neither the members of the authority nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

(f) The authority shall have power out of any funds available therefor to purchase its bonds or notes. The authority may hold, pledge, cancel, or resell such bonds, subject to and in accordance with agreements with bondholders.

44543. In the discretion of the authority, any bonds issued under the provisions of this division may be secured by a trust agreement by and between the authority and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without the state. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged and may convey or mortgage the project or projects, or any portion thereof, to be financed out of the proceeds of such bonds. Such trust agreement or resolution providing for the issuance of such bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including particularly such provisions as have hereinabove been specifically authorized to be included in any resolution or resolutions of the authority authorizing bonds thereof. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of bonds or of revenues or other moneys may furnish such indemnifying bonds or pledge such securities as may be required by the authority. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the authority may deem reasonable and proper for the security of the bondholders. All

expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of the operation of a project.

44544. Bonds issued under the provisions of this division shall not be deemed to constitute a debt or liability of the state or of any political subdivision thereof, other than the authority, or a pledge of the faith and credit of the state or of any such political subdivision, other than the authority, but shall be payable solely from the funds herein provided therefor. All such bonds shall contain on the face thereof a statement to the following effect:

"Neither the faith and credit nor the taxing power of the State of California is pledged to the payment of the principal of or interest on this bond."

The issuance of bonds under the provisions of this division shall not directly or indirectly or contingently obligate the state or any political subdivision thereof to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment. Nothing in this section contained shall prevent nor be construed to prevent the authority from pledging its full faith and credit to the payment of bonds or issue of bonds authorized pursuant to this division.

44545. (a) The authority is hereby authorized to provide for the issuance of bonds of the authority for the purpose of refunding any bonds, notes, or other securities of the authority then outstanding, including the payment of any redemption premium thereon and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase, or maturity of such bonds, and, if deemed advisable by the authority, for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions, or enlargements of a project or any portion thereof.

(b) The proceeds of any such bonds issued for the purpose of refunding outstanding bonds, notes, or other securities may, in the discretion of the authority, be applied to the purchase or retirement at maturity or redemption of such outstanding bonds either on their earliest or any subsequent redemption date or upon the purchase or retirement at the maturity thereof and may, pending such application, be placed in escrow to be applied to such purchase or retirement at maturity or redemption on such date as may be determined by the authority.

(c) Pending such use, any such escrowed proceeds may be invested and reinvested by the State Treasurer in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing at such time or times as shall be appropriate to assure the prompt payment, as to principal, interest and redemption premium, if any, of the outstanding bonds to be so refunded. The interest, income, and profits, if any, earned or realized on any such investment may also be applied to the

payment of the outstanding bonds to be so refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and interest, income, and profits, if any, earned or realized on the investments thereof may be returned to the authority for use by it in any lawful manner.

(d) The portion of the proceeds of any such bonds issued for the additional purpose of paying all or any part of the cost of constructing and acquiring additions, improvements, extensions, or enlargements of a project may be invested and reinvested by the State Treasurer in obligations of, or guaranteed by, the United States of America, or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing not later than the time or times when such proceeds will be needed for the purpose of paying all or any part of such cost. The interest, income and profits, if any, earned or realized on such investment may be applied to the payment of all or any part of such cost or may be used by the authority in any lawful manner.

(e) All such bonds shall be subject to the provisions of this division in the same manner and to the same extent as other bonds issued pursuant to this division.

44546. If, in the opinion of the State Treasurer, any bonds issued by the authority under the provisions of this division are adequately secured and the revenues and other funds applicable to the payments of the bonds are, or upon the acquisition, construction, or improvement of the project for which such bonds were or are to be issued, will be sufficient to pay the principal of and interest on such bonds, then the State Treasurer shall certify that such bonds are legal investments for all trust funds, the funds of all insurance companies, banks, both commercial and savings, trust companies, savings and loan associations, and investment companies, for executors, administrators, trustees, and other fiduciaries, for state school funds, and for any funds which may be invested in county, municipal, or school district bonds, and that such bonds are securities which may properly and legally be deposited with, and received by, any state or municipal officer or any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state is now, or may hereafter be, authorized by law, including deposits to secure public funds.

44547. No liability shall be incurred by the authority beyond the extent to which moneys have been provided under this division; except that for the purposes of meeting the necessary expenses of initial organization and operation until such date as the authority derives revenues or proceeds from bonds or notes as provided under this division, the authority may borrow money as needed for such expenses from the State Water Quality Control Fund, the General Fund in the State Treasury, and the California Environmental Protection Program Fund, or from any of such funds. Such borrowed moneys shall be repaid with interest within a reasonable time after the authority receives revenues or proceeds from bonds or notes as

provided under this division.

Article 4. Construction and Leases of Facilities

44550. The authority may contract with any participating party for the construction of a project by such participating party. All such contracts for the construction of a project by a participating party shall provide that the participating party shall be responsible for the architectural and engineering design and for the construction and completion thereof subject to such standards for architectural and engineering design as may be established by the appropriate control agency specified in Section 44531, and subject to such supervision as the authority deems necessary. The authority may agree to pay the cost of such project constructed by any participating party and to advance such costs from time to time in installments or otherwise as required by the contract for the construction thereof. Title to all such projects shall be vested in the authority subject to the terms of any lease thereof to the participating party or the rights of a participating party under any contract for the purchase of such project including the payment of the purchase price under installment sales contracts.

44551. The authority may, as lessor or lessee, enter into leases and agreements with any participating party relating to the acquisition, construction, and installation of any project, including real property, buildings, equipment, and pollution control facilities of any kind or character. The terms and conditions of such leases may be as mutually agreed upon. Any such lease may provide the means or methods by which title shall vest in a participating party upon the termination of the lease and shall contain such other terms and conditions as the authority may determine. The authority is authorized to fix, revise, charge, and collect rates, rents, fees, and charges for each project. Such rates, rents, fees, and charges shall be fixed and adjusted in respect of the aggregate of rates, rents, fees, and charges from all projects so as to provide funds sufficient with other revenues and moneys available therefor, if any, to do all of the following:

(a) Pay the principal of and the interest on outstanding bonds, notes, or other evidences of indebtedness of the authority issued in respect of such project as the same shall become due and payable.

(b) Create and maintain reserves required or provided for in any resolution authorizing, or trust agreement securing, such bonds, notes, or other evidences of indebtedness. A sufficient amount of the revenues derived from a project may be set aside at such regular intervals as may be provided in such resolution or trust agreement in a sinking or other similar fund which is hereby pledged to, and charged with, the payment of the principal of and interest on such bonds, notes, or other evidences of indebtedness as the same shall become due, and the redemption price or the purchase price of bonds, notes, or other evidences of indebtedness retired by call or purchase as therein provided. Such pledge shall be valid and binding

from the time when the pledge is made; the rates, rents, fees, and charges and other revenues or other moneys so pledged and thereafter received by the authority shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the authority, irrespective of whether such parties have notice thereof. Neither the resolution nor any trust agreement nor any other agreement nor any lease by which a pledge is created need be filed or recorded except in the records of the authority. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds or of such trust agreement. Except as may otherwise be provided in such resolution or such trust agreement, such sinking or other similar fund may be a fund for all bonds, notes, or other evidences of indebtedness of the authority issued to finance projects of a particular participating party without distinction or priority of one over another; provided, that the authority in any such resolution or trust agreement may provide that such sinking or other similar fund shall be the fund for a particular project or projects and for the bonds issued to finance a particular project or projects and may, additionally, permit and provide for the issuance of bonds having a subordinate lien in respect of the security herein authorized to other bonds, notes, or other evidences of indebtedness of the authority, and, in such case, the authority may create separate sinking or other similar funds in respect of such subordinate lien bonds, notes, or other evidences of indebtedness.

(c) Pay operating and administrative costs of the authority.

44552. The authority may enter into contracts of sale with any participating party covering any project financed by the authority. The purchase price pursuant to such contract of sale shall be sufficient to provide funds for all the purposes provided in Section 44551 and may be paid in installments, together with interest on the unpaid balance, or otherwise, as may be mutually agreed and set forth in such contract of sale. All payments received by the authority under any installment sales or conditional sales contract shall be applied by the authority substantially in the same manner as hereinabove provided in Section 44551 in the case of lease payments or rental charges received by the authority.

44553. All moneys received pursuant to the provisions of this division, whether as proceeds from the sale of bonds, notes, or other evidences of indebtedness or as revenues, shall be deemed to be trust funds to be held and applied solely as provided in this division. Any bank or trust company with which such moneys shall be deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes hereof, subject to such regulations as the resolution authorizing the bonds of any issue or the trust agreement securing such bonds may provide.

44554. Any holder of bonds, notes, or other obligations issued

under the provisions of this division or any of the coupons appertaining thereto, and the trustee or trustees under any trust agreement, except to the extent the rights herein given may be restricted by any resolution authorizing the issuance of, or any such trust agreement securing, such bonds, notes, or other obligations, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect and enforce any and all rights under the laws of the state or granted hereunder or under such resolution or trust agreement, and may enforce and compel the performance of all duties required by this division or by such resolution or trust agreement to be performed by the authority or by any officer, employee, or agent thereof, including the fixing, charging, and collecting of the rates, rents, fees, and charges herein authorized and required by the provisions of such resolution or trust agreement to be fixed, established, and collected.

44555. The exercise of the powers granted by this division shall be in all respects for the benefit of the people of this state, for their health and welfare, and protection of the state's environment. Any bonds, notes, or other obligations issued under the provisions of this division, their transfer and the income therefrom, shall at all times be free from taxation of every kind by the state and by municipalities and other political subdivisions of the state. Provided, however, that the preceding sentence shall not apply with respect to any bonds, notes or other obligations, or the income therefrom, for any period during which such bonds, notes or other obligations are held by (a) any participating party, (b) persons, organizations, trades, or businesses (whether or not incorporated, organized in this state, or affiliated with such participating party) owned or controlled, directly or indirectly, by such participating party, or (c) persons, organizations, trades or businesses (whether or not incorporated, organized in this state, or affiliated with such participating party) which own or control, directly or indirectly, such participating party.

44556. The authority shall not be required to pay any property taxes or assessments upon, or in respect to, a project or any property acquired by or for the authority under the provisions of this division or upon the income therefrom, so long as the authority holds title to such project or the property or facilities comprised in the project. The exemption of the authority from taxation of any project herein provided shall cease forthwith when title to such property is transferred from the authority to any participating party. The provisions of this section shall not exempt any participating party from taxation with respect to any project, or the property or facilities comprised in any project, which may otherwise be applicable to such participating party.

44557. Upon dissolution of the authority, the title to all properties owned by it shall vest in and become the property of the State of California.

CHAPTER 2. SUPPLEMENTAL PROVISIONS

44560. This division, being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect the purposes hereof.

44561. This division shall be deemed to provide a complete, additional and alternative method for the doing of the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws; provided, that the issuance of bonds and refunding bonds under the provisions of this division need not comply with the requirements of any other law applicable to the issuance of bonds; and provided, that in the construction and acquisition of a project pursuant hereto the authority need not comply with the requirements of any other law applicable to the construction or acquisition of public works except as specifically provided in this division. Pollution control facilities and projects as defined in Section 44508 may be acquired, constructed, completed, repaired, altered, improved, or extended, and bonds may be issued for any such purposes under this division notwithstanding that any other law may provide for such acquisition, construction, completion, repair, alteration, improvement, or extension of like pollution control facilities or for the issuance of bonds for like purposes and without regard to the requirements, restrictions, limitations or other provisions contained in any other law.

44562. The State of California does hereby pledge to and agree with the holders of any obligations issued under this division, and with those parties who may enter into contracts with the authority pursuant to the provisions of this division, that the state will not limit or alter the rights hereby vested in the authority until such obligations, together with the interest thereon, are fully met and discharged and such contracts are fully performed on the part of the authority, provided nothing herein contained shall preclude such limitation or alteration if and when adequate provision shall be made by law for the protection of the holders of such obligations of the authority or those entering into such contracts with the authority. The authority as agent for the state is authorized to include this pledge and undertaking for the state in such obligations or contracts.

44563. To the extent that the provisions of this division, with respect to the financing of pollution control facilities, are inconsistent with the provisions of any general statute or special act or parts thereof, with respect to the financing of pollution control facilities, the provisions of this division shall be deemed controlling.

SEC. 15. Division 28 (commencing with Section 39800) of the Health and Safety Code is repealed.

SEC. 16. Division 28 (commencing with Section 46000) is added to the Health and Safety Code, to read:

DIVISION 28. NOISE CONTROL ACT

CHAPTER 1. FINDINGS, DECLARATIONS, AND INTENT

46000. The Legislature hereby finds and declares that:

46002. Nothing in this division shall be construed as giving the Office of Noise Control authority or responsibility for adopting or enforcing noise-emission standards for any product for which a regulation has been, or could be, prescribed or promulgated by the Environmental Protection Agency under the Noise Control Act of 1972.

agencies, the director shall compile and publish, from time to time, a report on the status and progress of state activities relating to noise research and noise control. This report shall describe the noise programs of each state agency and assess the contributions of those programs to the state's overall efforts to control noise.

(d) In the event any vehicle is modified or additions are made to the chassis or body at a cost of two hundred dollars ($200) or more, but not including any change of engine of the same type or any cost of repairs to a vehicle, the owner of such vehicle shall report any such modification or additions to the department and the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2, taking into consideration the increase in the market value of the vehicle due to such modifications or additions, and any reclassification resulting in increase in market value shall be based on the cost to the consumer of such modifications or additions. In the event any vehicle is modified or altered resulting in a decrease in the market value thereof of two hundred dollars ($200) or more as reported to and determined by the department, the department shall classify or reclassify the vehicle in its proper class as provided in Section 10753.2.

The foregoing provisions of this subdivision shall not apply in the event the cost of any modification or additions to the chassis or body of a vehicle is less than two hundred dollars ($200) or the cost is for modifications or additions necessary to incorporate a system approved by the State Air Resources Board as meeting the emission standards set forth in subdivisions (a) and (b) of former Section 39102 and former Section 39102.5 of the Health and Safety Code as they read on December 31, 1975.

Each county may designate facilities, which are not hospitals or clinics, as 72-hour evaluation and treatment facilities and as 14-day intensive treatment facilities if such facilities meet such requirements as the Director of Health shall establish by regulation. The Director of Health shall encourage the use by counties of appropriate facilities, which are not hospitals or clinics, for the evaluation and treatment of patients pursuant to this part.

SEC. 12. Section 7325 of the Welfare and Institutions Code is amended to read:

7325. When any patient committed by a court to a state hospital

or other institution on or before June 30, 1969, or when any patient who is judicially committed on or after July 1, 1969, or when any patient who is involuntarily detained pursuant to Part 1 (commencing with Section 5000) of Division 5 escapes from any state hospital, any hospital or facility operated by or under the Veterans' Administration of the United States government, or any facility designated by a county pursuant to said Part 1, or any facility into which the patient has been placed by his conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, or when a judicially committed patient's return from leave of absence has been authorized or ordered by the State Department of Health or the facility of the Veterans' Administration, any peace officer, upon written request of the state hospital, veterans' facility, or the facility designated by a county, or the patient's conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, shall without the necessity of a warrant or court order, or any officer or employee of the State Department of Health designated to perform such duties may, apprehend, take into custody and deliver him to the state hospital or to a facility of the Veterans' Administration, or the facility designated by a county, or to any person or place authorized by the State Department of Health, or by the Veterans' Administration, or the local director of the county mental health program of the county in which is located the facility designated by the county, or the patient's conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, as the case may be, to receive him. Every officer or employee of the State Department of Health designated to apprehend or return such patients shall have the powers and privileges of peace officers so far as necessary to enforce the provisions of this section.

As used in this section "any peace officer" means the persons specified in Section 830.1 of the Penal Code.

The written notification of the escape required by this section shall include the name and physical description of the patient, his home address, the degree of dangerousness of the patient and any additional information which is necessary to apprehend and return the patient. Any officer or employee of a state hospital, hospital or facility operated by or under the Veterans' Administration, or any facility designated by a county pursuant to Part 1 (commencing with Section 5000) of Division 5 shall provide any peace officer with any information concerning any patient who escapes from such hospital or facility in order to assist in the apprehension and return of the patient.

The person in charge of such hospital or facility, or his designee, may provide telephonic notification of the escape to the law enforcement agency of the county or city in which the hospital or facility is located. If such notification is given, the time and date of notification, the person notified, and the person making the notification shall be noted in the written notification required by this section.

SEC. 14. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the additional net costs, if any, imposed on local government by this act are insignificant in nature and will not cause any financial burden on local government.

CHAPTER 961

An act to repeal Article 5 (commencing with Section 13080) of Chapter 1 of Division 10 of the Education Code, and to add Chapter 10.7 (commencing with Section 3540) to Division 4 of Title 1 of the Government Code, relating to public educational employment relations, and making an appropriation therefor.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 22, 1975]

The people of the State of California do enact as follows:

SECTION 1. Article 5 (commencing with Section 13080) of Chapter 1 of Division 10 of the Education Code is repealed.

SEC. 2. Chapter 10.7 (commencing with Section 3540) is added to Division 4 of Title 1 of the Government Code, to read:

CHAPTER 10.7. MEETING AND NEGOTIATING IN PUBLIC EDUCATIONAL EMPLOYMENT

Article 1. General Provisions

3540. It is the purpose of this chapter to promote the improvement of personnel management and employer-employee relations within the public school systems in the State of California by providing a uniform basis for recognizing the right of public school employees to join organizations of their own choice, to be represented by such organizations in their professional and employment relationships with public school employers, to select one employee organization as the exclusive representative of the employees in an appropriate unit, and to afford certificated employees a voice in the formulation of educational policy. Nothing contained herein shall be deemed to supersede other provisions of the Education Code and the rules and regulations of public school employers which establish and regulate tenure or a merit or civil service system or which provide for other methods of administering employer-employee relations, so long as the rules and regulations or other methods of the public school employer do not conflict with lawful collective agreements.

It is the further intention of the Legislature that nothing contained in this chapter shall be construed to restrict, limit, or prohibit the full exercise of the functions of any academic senate or faculty council established by a school district in a community college to represent the faculty in making recommendations to the administration and governing board of such school district with respect to district policies on academic and professional matters, so long as the exercise of such functions do not conflict with lawful collective agreements.

It is the further intention of the Legislature that any legislation enacted by the Legislature governing employer-employee relations of other public employees shall be incorporated into this chapter to the extent possible. The Legislature also finds and declares that it is an advantageous and desirable state policy to expand the jurisdiction of the board created pursuant to this chapter to cover other public employers and their employees, in the event that such legislation is enacted, and if this policy is carried out, the name of the Educational Employment Relations Board shall be changed to the "Public Employment Relations Board."

3540.1. As used in this chapter:

(a) "Board" means the Educational Employment Relations Board created pursuant to Section 3541.

(b) "Certified organization" or "certified employee organization" means an organization which has been certified by the board as the exclusive representative of the public school employees in an appropriate unit after a proceeding under Article 5 (commencing with Section 3544).

(c) "Confidential employee" means any employee who, in the regular course of his duties, has access to, or possesses information relating to, his employer's employer-employee relations.

(d) "Employee organization" means any organization which includes employees of a public school employer and which has as one of its primary purposes representing such employees in their relations with that public school employer. "Employee organization" shall also include any person such an organization authorizes to act on its behalf.

(e) "Exclusive representative" means the employee organization recognized or certified as the exclusive negotiating representative of certificated or classified employees in an appropriate unit of a public school employer.

(f) "Impasse" means that the parties to a dispute over matters within the scope of representation have reached a point in meeting and negotiating at which their differences in positions are so substantial or prolonged that future meetings would be futile.

(g) "Management employee" means any employee in a position having significant responsibilities for formulating district policies or administering district programs. Management positions shall be designated by the public school employer subject to review by the Educational Employment Relations Board.

(h) "Meeting and negotiating" means meeting, conferring,

negotiating, and discussing by the exclusive representative and the public school employer in a good faith effort to reach agreement on matters within the scope of representation and the execution, if requested by either party, of a written document incorporating any agreements reached, which document shall, when accepted by the exclusive representative and the public school employer, become binding upon both parties and, notwithstanding Section 3543.7, shall not be subject to subdivision 2 of Section 1667 of the Civil Code. The agreement may be for a period of not to exceed three years.

(i) "Organizational security" means either:

(1) An arrangement pursuant to which a public school employee may decide whether or not to join an employee organization, but which requires him, as a condition of continued employment, if he does join, to maintain his membership in good standing for the duration of the written agreement. However, no such arrangement shall deprive the employee of the right to terminate his obligation to the employee organization within a period of 30 days following the expiration of a written agreement; or

(2) An arrangement that requires an employee, as a condition of continued employment, either to join the recognized or certified employee organization, or to pay the organization a service fee in an amount not to exceed the standard initiation fee, periodic dues, and general assessments of such organization for the duration of the agreement, or a period of three years from the effective date of such agreement, whichever comes first.

(j) "Public school employee" or "employee" means any person employed by any public school employer except persons elected by popular vote, persons appointed by the Governor of this state, management employees, and confidential employees.

(k) "Public school employer" or "employer" means the governing board of a school district, a school district, a county board of education, or a county superintendent of schools.

(*l*) "Recognized organization" or "recognized employee organization" means an employee organization which has been recognized by an employer as the exclusive representative pursuant to Article 5 (commencing with Section 3544).

(m) "Supervisory employee" means any employee, regardless of job description, having authority in the interest of the employer to hire, transfer, suspend, lay off, recall, promote, discharge, assign, reward, or discipline other employees, or the responsibility to assign work to and direct them, or to adjust their grievances, or effectively recommend such action, if, in connection with the foregoing functions, the exercise of such authority is not of a merely routine or clerical nature, but requires the use of independent judgment.

Article 2. Administration

3541. (a) There is in state government the Educational Employment Relations Board which shall be independent of any

state agency and shall consist of three members. The members of the board shall be appointed by the Governor by and with the advice and consent of the Senate. One of the original members shall be chosen for a term of one year, one for a term of three years, and one for a term of five years. Thereafter terms shall be for a period of five years, except that any person chosen to fill a vacancy shall be appointed only for the unexpired term of the member whom he succeeds. Members of the board shall be eligible for reappointment. The Governor shall select one member to serve as chairperson. A member of the board may be removed by the Governor upon notice and hearing for neglect of duty or malfeasance in office, but for no other cause.

(b) A vacancy in the board shall not impair the right of the remaining members to exercise all the powers of the commission, and two members of the board shall at all times constitute a quorum.

(c) Members of the board shall hold no other public office in the state, and shall not receive any other compensation for services rendered.

(d) Each member of the board shall be paid an annual salary of thirty-six thousand dollars ($36,000). In addition to his salary, each member of the board shall be reimbursed for all actual and necessary expenses incurred by him in the performance of his duties, subject to the rules of the State Board of Control relative to the payment of such expenses to state officers generally.

(e) The board shall appoint an executive director and such other persons as it may from time to time deem necessary for the performance of its functions, prescribe their duties, fix their compensation and provide for reimbursement of their expenses in the amounts made available therefor by appropriation. The executive director shall be a person familiar with employer-employee relations. He shall be subject to removal at the pleasure of the board. The board may employ a general counsel to assist it in the performance of its functions under this chapter. A person so employed may, independently of the Attorney General, represent the board in any litigation or other matter pending in a court of law to which the board is a party or in which it is otherwise interested.

3541.3. The board shall have all of the following powers and duties:

(a) To determine in disputed cases, or otherwise approve, appropriate units.

(b) To determine in disputed cases whether a particular item is within or without the scope of representation.

(c) To arrange for and supervise representation elections which shall be conducted by means of secret ballot elections, and certify the results of the elections.

(d) To establish lists of persons broadly representative of the public and qualified by experience to be available to serve as mediators, arbitrators, or factfinders. In no case shall such lists

include persons who are on the staff of the board.

(e) To establish by regulation appropriate procedures for review of proposals to change unit determinations.

(f) Within its discretion, to conduct studies relating to employee-employer relations, including the collection, analyses, and making available of data relating to wages, benefits, and employment practices in public and private employment, and, when it appears necessary in its judgment to the accomplishment of the purposes of this chapter, recommend legislation. The board shall report to the Legislature by February 15th of each year on its activities during the immediately preceding calendar year. The board may enter into contracts to develop and maintain research and training programs designed to assist public employers and employee organizations in the discharge of their mutual responsibilities under this chapter.

(g) To adopt, pursuant to Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2, rules and regulations to carry out the provisions and effectuate the purposes and policies of this chapter.

(h) To hold hearings, subpoena witnesses, administer oaths, take the testimony or deposition of any person, and, in connection therewith, to issue subpoenas duces tecum to require the production and examination of any employer's or employee organization's records, books, or papers relating to any matter within its jurisdiction.

(i) To investigate unfair practice charges or alleged violations of this chapter, and take such action and make such determinations in respect of such charges or alleged violations as the board deems necessary to effectuate the policies of this chapter.

(j) To bring an action in a court of competent jurisdiction to enforce any of its orders decisions or rulings or to enforce the refusal to obey a subpoena. Upon issuance of a complaint charging that any person has engaged in or is engaging in an unfair practice, the board may petition the court for appropriate temporary relief or restraining order.

(k) To delegate its powers to any member of the board or to any person appointed by the board for the performance of its functions, except that no fewer than two board members may participate in the determination of any ruling or decision on the merits of any dispute coming before it and except that a decision to refuse to issue a complaint shall require the approval of two board members.

(*l*) To decide contested matters involving recognition, certification, or decertification of employee organizations.

(m) To consider and decide issues relating to rights, privileges, and duties of an employee organization in the event of a merger, amalgamation, or transfer of jurisdiction between two or more employee organizations.

(n) To take such other action as the board deems necessary to discharge its powers and duties and otherwise to effectuate the purposes of this chapter.

3541.4. Any person who shall willfully resist, prevent, impede or interfere with any member of the board, or any of its agents, in the performance of duties pursuant to this chapter, shall be guilty of a misdemeanor, and, upon conviction thereof, shall be sentenced to pay a fine of not more than one thousand dollars ($1,000).

3541.5. The initial determination as to whether the charges of unfair practices are justified, and, if so, what remedy is necessary to effectuate the purposes of this chapter, shall be a matter within the exclusive jurisdiction of the board. Procedures for investigating, hearing, and deciding these cases shall be devised and promulgated by the board and shall include all of the following:

(a) Any employee, employee organization, or employer shall have the right to file an unfair practice charge, except that the board shall not do either of the following: (1) issue a complaint in respect of any charge based upon an alleged unfair practice occurring more than six months prior to the filing of the charge; (2) issue a complaint against conduct also prohibited by the provisions of the agreement between the parties until the grievance machinery of the agreement, if it exists and covers the matter at issue, has been exhausted, either by settlement or binding arbitration. However, when the charging party demonstrates that resort to contract grievance procedure would be futile, exhaustion shall not be necessary. The board shall have discretionary jurisdiction to review such settlement or arbitration award reached pursuant to the grievance machinery solely for the purpose of determining whether it is repugnant to the purposes of this chapter. If the board finds that such settlement or arbitration award is repugnant to the purposes of this chapter, it shall issue a complaint on the basis of a timely filed charge, and hear and decide the case on the merits; otherwise, it shall dismiss the charge. The board shall, in determining whether the charge was timely filed, consider the six-month limitation set forth in this subdivision to have been tolled during the time it took the charging party to exhaust the grievance machinery.

(b) The board shall not have authority to enforce agreements between the parties, and shall not issue a complaint on any charge based of alleged violation of such a agreement that would not also constitute an unfair practice under this chapter.

(c) The board shall have the power to issue a decision and order directing an offending party to cease and desist from the unfair practice and to take such affirmative action, including but not limited to the reinstatement of employees with or without back pay, as will effectuate the policies of this chapter.

Article 3. Judicial Review

3542 (a) No employer or employee organization shall have the right to judicial review of a unit determination except: (1) when the board in response to a petition from an employer or employee organization, agrees that the case is one of special importance and

joins in the request for such review; or (2) when the issue is raised as a defense to an unfair practice complaint.

(b) Any charging party, respondent, or intervenor aggrieved by a decision or order of the board in an unfair practice case, except a decision of the board not to issue a complaint in such a case, shall have the right to seek review in a court of competent jurisdiction. Additionally, the board shall have the right to seek enforcement of any decision or order in a court of competent jurisdiction. The findings of the board on questions of fact, if supported by substantial evidence on the record considered as a whole, shall be conclusive. Once the record of the case has been filed with the court of competent jurisdiction, its jurisdiction shall be exclusive and its judgment final, except that it shall be subject to appeal to higher courts in this state.

Article 4. Rights, Obligations, Prohibitions, and Unfair Practices

3543. Public school employees shall have the right to form, join, and participate in the activities of employee organizations of their own choosing for the purpose of representation on all matters of employer-employee relations. Public school employees shall also have the right to refuse to join or participate in the activities of employee organizations and shall have the right to represent themselves individually in their employment relations with the public school employer, except that once the employees in an appropriate unit have selected an exclusive representative and it has been recognized pursuant to Section 3544.1 or certified pursuant to Section 3544.7, no employee in that unit may meet and negotiate with the public school employer.

Any employee may at any time present grievances to his employer, and have such grievances adjusted, without the intervention of the exclusive representative, as long as the adjustment is reached prior to arbitration pursuant to Sections 3548.5, 3548.6, 3548.7, and 3548.8 and the adjustment is not inconsistent with the terms of a written agreement then in effect; provided that the public school employer shall not agree to a resolution of the grievance until the exclusive representative has received a copy of the grievance and the proposed resolution and has been given the opportunity to file a response.

3543.1. (a) Employee organizations shall have the right to represent their members in their employment relations with public school employers, except that once an employee organization is recognized or certified as the exclusive representative of an appropriate unit pursuant to Section 3544.1 or 3544.7, respectively, only that employee organization may represent that unit in their employment relations with the public school employer. Employee organizations may establish reasonable restrictions regarding who may join and may make reasonable provisions for the dismissal of

individuals from membership.

(b) Employee organizations shall have the right of access at reasonable times to areas in which employees work, the right to use institutional bulletin boards, mailboxes, and other means of communication, subject to reasonable regulation, and the right to use institutional facilities at reasonable times for the purpose of meetings concerned with the exercise of the rights guaranteed by this chapter.

(c) A reasonable number of representatives of an exclusive representative shall have the right to receive reasonable periods of released time without loss of compensation when meeting and negotiating and for the processing of grievances.

(d) All employee organizations shall have the right to have membership dues deducted pursuant to Sections 13532 and 13604.2 of the Education Code, until such time as an employee organization is recognized as the exclusive representative for any of the employees in an appropriate unit, and then such deduction as to any employee in the negotiating unit shall not be permissible except to the exclusive representative.

3543.2. The scope of representation shall be limited to matters relating to wages, hours of employment, and other terms and conditions of employment. "Terms and conditions of employment" mean health and welfare benefits as defined by Section 53200, leave and transfer policies, safety conditions of employment, class size, procedures to be used for the evaluation of employees, organizational security pursuant to Section 3546, and procedures for processing grievances pursuant to Sections 3548.5, 3548.6, 3548.7, and 3548.8. In addition, the exclusive representative of certificated personnel has the right to consult on the definition of educational objectives, the determination of the content of courses and curriculum, and the selection of textbooks to the extent such matters are within the discretion of the public school employer under the law. All matters not specifically enumerated are reserved to the public school employer and may not be a subject of meeting and negotiating, provided that nothing herein may be construed to limit the right of the public school employer to consult with any employees or employee organization on any matter outside the scope of representation.

3543.3. A public school employer or such representatives as it may designate who may, but need not be, subject to either certification requirements or requirements for classified employees set forth in the Education Code, shall meet and negotiate with and only with representatives of employee organizations selected as exclusive representatives of appropriate units upon request with regard to matters within the scope of representation.

3543.4. No person serving in a management position or a confidential position shall be represented by an exclusive representative. Any person serving in such a position shall have the right to represent himself individually or by an employee organization whose membership is composed entirely of employees

designated as holding such positions, in his employment relationship with the public school employee, but, in no case, shall such an organization meet and negotiate with the public school employer. No representative shall be permitted by a public school employer to meet and negotiate on any benefit or compensation paid to persons serving in a management position or a confidential position.

3543.5. It shall be unlawful for a public school employer to:

(a) Impose or threaten to impose reprisals on employees, to discriminate or threaten to discriminate against employees, or otherwise to interfere with, restrain, or coerce employees because of their exercise of rights guaranteed by this chapter.

(b) Deny to employee organizations rights guaranteed to them by this chapter.

(c) Refuse or fail to meet and negotiate in good faith with an exclusive representative.

(d) Dominate or interfere with the formation or administration of any employee organization, or contribute financial or other support to it, or in any way encourage employees to join any organization in preference to another.

(e) Refuse to participate in good faith in the impasse procedure set forth in Article 9 (commencing with Section 3548).

3543.6. It shall be unlawful for an employee organization to:

(a) Cause or attempt to cause a public school employer to violate Section 3543.5.

(b) Impose or threaten to impose reprisals on employees, to discriminate or threaten to discriminate against employees, or otherwise to interfere with, restrain, or coerce employees because of their exercise of rights guaranteed by this chapter.

(c) Refuse or fail to meet and negotiate in good faith with a public school employer of any of the employees of which it is the exclusive representative.

(d) Refuse to participate in good faith in the impasse procedure set forth in Article 9 (commencing with Section 3548).

3543.7. The duty to meet and negotiate in good faith requires the parties to begin negotiations prior to the adoption of the final budget for the ensuing year sufficiently in advance of such adoption date so that there is adequate time for agreement to be reached, or for the resolution of an impasse.

Article 5. Employee Organizations: Representation, Recognition, Certification, and Decertification

3544. An employee organization may become the exclusive representative for the employees of an appropriate unit for purposes of meeting and negotiating by filing a request with a public school employer alleging that a majority of the employees in an appropriate unit wish to be represented by such organization and asking the public school employer to recognize it as the exclusive representative. The request shall describe the grouping of jobs or

positions which constitute the unit claimed to be appropriate and shall include proof of majority support on the basis of current dues deduction authorizations or other evidence such as notarized membership lists, or membership cards, or petitions designating the organization as the exclusive representative of the employees. Notice of any such request shall immediately be posted conspicuously on all employee bulletin boards in each facility of the public school employer in which members of the unit claimed to be appropriate are employed.

3544.1. The public school employer shall grant a request for recognition filed pursuant to Section 3544 unless:

(a) The public school employer desires that representation election be conducted or doubts the appropriateness of a unit. If the public school employer desires a representation election, the question of representation shall be deemed to exist and the public school employer shall notify the board, which shall conduct a representation election pursuant to Section 3544.7, unless subdivision (c) or (d) apply; or

(b) Another employee organization either files with the public school employer a challenge to the appropriateness of the unit or submits a competing claim of representation within 15 workdays of the posting of notice of the written request. The claim shall be evidenced by current dues deductions authorizations or other evidence such as notarized membership lists, or membership cards, or petitions signed by employees in the unit indicating their desire to be represented by the organization. If the claim is evidenced by the support of at least 30 percent of the members of an appropriate unit, a question of representation shall be deemed to exist and the public school employer shall notify the board which shall conduct a representation election pursuant to Section 3544.7, unless subdivisions (c) or (d) of this section apply; or

(c) There is currently in effect a lawful written agreement negotiated by the public school employer and another employee organization covering any employees included in the unit described in the request for recognition, unless the request for recognition is filed less than 120 days, but more than 90 days, prior to the expiration date of the agreement; or

(d) The public school employer has, within the previous 12 months, lawfully recognized another employee organization as the exclusive representative of any employees included in the unit described in the request for recognition.

3544.3. If, by January 1 of any school year, no employee organization has made a claim of majority support in an appropriate unit pursuant to Section 3544, a majority of employees of an appropriate unit may submit to a public school employer a petition signed by at least a majority of the employees in the appropriate unit requesting a representation election. An employee may sign such a petition though not a member of any employee organization.

Upon the filing of such a petition, the public school employer shall

immediately post a notice of such request upon all employee bulletin boards at each school or other facility in which members of the unit claimed to be appropriate are employed.

Any employee organization shall have the right to appear on the ballot if, within 15 workdays after the posting of such notice, it makes the showing of interest required by subdivision (b) of Section 3544.1.

Immediately upon expiration of the 15-workday period following the posting of the notice, the public school employer shall transmit to the board the petition and the names of all employee organizations that have the right to appear on the ballot.

3544.5. A petition may be filed with the board, in accordance with its rules and regulations, requesting it to investigate and decide the question of whether employees have selected or wish to select an exclusive representative or to determine the appropriateness of a unit, by:

(a) A public school employer alleging that it doubts the appropriateness of the claimed unit; or

(b) An employee organization alleging that it has filed a request for recognition as an exclusive representative with a public school employer and that the request has been denied or has not been acted upon within 30 days after the filing of the request; or

(c) An employee organization alleging that it has filed a competing claim of representation pursuant to subdivision (b) of Section 3544.1; or

(d) An employee organization alleging that the employees in an appropriate unit no longer desire a particular employee organization as their exclusive representative, provided that such petition is supported by current dues deduction authorizations or other evidence such as notarized membership lists, cards, or petitions from 30 percent of the employees in the negotiating unit indicating support for another organization or lack of support for the incumbent exclusive representative.

3544.7. (a) Upon receipt of a petition filed pursuant to Section 3544.3 or 3544.5, the board shall conduct such inquiries and investigations or hold such hearings as it shall deem necessary in order to decide the questions raised by the petition. The determination of that board may be based upon the evidence adduced in the inquiries, investigations, or hearing; provided that, if the board finds on the basis of the evidence that a question of representation exists, or a question of representation is deemed to exist pursuant to subdivision (a) or (b) of Section 3544.1, it shall order that an election shall be conducted by secret ballot and it shall certify the results of the election on the basis of which ballot choice received a majority of the valid votes cast. There shall be printed on each ballot the statement: "no representation." No voter shall record more than one choice on his ballot. Any ballot upon which there is recorded more than one choice shall be void and shall not be counted for any purpose. If at any election no choice on the ballot receives a majority of the votes cast, a runoff election shall be conducted. The

ballot for the runoff election shall provide for a selection between the two choices receiving the largest and second largest number of valid votes cast in the election.

(b) No election shall be held and the petition shall be dismissed whenever:

(1) There is currently in effect a lawful written agreement negotiated by the public school employer and another employee organization covering any employees included in the unit described in the request for recognition, or unless the request for recognition is filed less than 120 days, but more than 90 days, prior to the expiration date of the agreement; or

(2) The public school employer has, within the previous 12 months, lawfully recognized an employee organization other than the petitioner as the exclusive representative of any employees included in the unit described in the petition.

3544.9. The employee organization recognized or certified as the exclusive representative for the purpose of meeting and negotiating shall fairly represent each and every employee in the appropriate unit.

Article 6. Unit Determinations

3545. (a) In each case where the appropriateness of the unit is an issue, the board shall decide the question on the basis of the community of interest between and among the employees and their established practices including, among other things, the extent to which such employees belong to the same employee organization, and the effect of the size of the unit on the efficient operation of the school district.

(b) In all cases:

(1) A negotiating unit that includes classroom teachers shall not be appropriate unless it at least includes all of the classroom teachers employed by the public school employer, except management employees, supervisory employees, and confidential employees.

(2) A negotiating unit of supervisory employees shall not be appropriate unless it includes all supervisory employees employed by the district and shall not be represented by the same employee organization as employees whom the supervisory employees supervise.

(3) Classified employees and certificated employees shall not be included in the same negotiating unit.

Article 7. Organizational Security

3546. Subject to the limitations set forth in this section, organizational security, as defined, shall be within the scope of representation.

(a) An organizational security arrangement, in order to be effective, must be agreed upon by both parties to the agreement. At

the time the issue is being negotiated, the public school employer may require that the organizational security provision be severed from the remainder of the proposed agreement and cause the organizational security provision to be voted upon separately by all members in the appropriate negotiating unit, in accordance with rules and regulations promulgated by the board. Upon such a vote, the organizational security provision will become effective only if a majority of those members of the negotiating unit voting approve the agreement. Such vote shall not be deemed to either ratify or defeat the remaining provisions of the proposed agreement.

(b) An organizational security arrangement which is in effect may be rescinded by majority vote of the employees in the negotiating unit covered by such arrangement in accordance with rules and regulations promulgated by the board.

3546.5. Every recognized or certified employee organization shall keep an adequate itemized record of its financial transactions and shall make available annually, to the board and to the employees who are members of the organization, within 60 days after the end of its fiscal year, a detailed written financial report thereof in the form of a balance sheet and an operating statement, certified as to accuracy by a certified public accountant. In the event of failure of compliance with this section, any employee within the organization may petition the board for an order compelling such compliance, or the board may issue such compliance order on its motion. An employee organization required to file financial reports under the Labor-Management Disclosure Act of 1959 covering employees governed by this chapter shall be exempt from the requirements of this section.

Article 8. Public Notice

3547. (a) All initial proposals of exclusive representatives and of public school employers, which relate to matters within the scope of representation, shall be presented at a public meeting of the public school employer and thereafter shall be public records.

(b) Meeting and negotiating shall not take place on any proposal until a reasonable time has elapsed after the submission of the proposal to enable the public to become informed and the public has the opportunity to express itself regarding the proposal at a meeting of the public school employer.

(c) After the public has had the opportunity to express itself, the public school employer shall, at a meeting which is open to the public, adopt its initial proposal.

(d) New subjects of meeting and negotiating arising after the presentation of initial proposals shall be made public within 24 hours. If a vote is taken on such subject by the public school employer, the vote thereon by each member voting shall also be made public within 24 hours.

(e) The board may adopt regulations for the purpose of

Article 9. Impasse Procedures

3548. Either a public school employer or the exclusive representative may declare that an impasse has been reached between the parties in negotiations over matters within the scope of representation and may request the board to appoint a mediator for the purpose of assisting them in reconciling their differences and resolving the controversy on terms which are mutually acceptable. If the board determines that an impasse exists, it shall, in no event later than five working days after the receipt of a request, appoint a mediator in accordance with such rules as it shall prescribe. The mediator shall meet forthwith with the parties or their representatives, either jointly or separately, and shall take such other steps as he may deem appropriate in order to persuade the parties to resolve their differences and effect a mutually acceptable agreement. The services of the mediator, including any per diem fees, and actual and necessary travel and subsistence expenses, shall be provided by the board without cost to the parties. Nothing in this section shall be construed to prevent the parties from mutually agreeing upon their own mediation procedure and in the event of such agreement, the board shall not appoint its own mediator, unless failure to do so would be inconsistent with the policies of this chapter. If the parties agree upon their own mediation procedure, the cost of the services of any appointed mediator, unless appointed by the board, including any per diem fees, and actual and necessary travel and subsistence expenses, shall be borne equally by the parties.

3548.1. If the mediator is unable to effect settlement of the controversy within 15 days after his appointment and the mediator declares that factfinding is appropriate to the resolution of the impasse, either party may, by written notification to the other, request that their differences be submitted to a factfinding panel. Within five days after receipt of the written request, each party shall select a person to serve as its member of the factfinding panel. The board shall, within five days after such selection, select a chairman of the factfinding panel. The chairman designated by the board shall not, without the consent of both parties, be the same person who served as mediator pursuant to Section 3548.

3548.2. The panel shall, within 10 days after its appointment, meet with the parties or their representatives, either jointly or separately, and may make inquiries and investigations, hold hearings, and take such other steps as it may deem appropriate. For the purpose of such hearings, investigations, and inquiries, the panel shall have the power to issue subpoenas requiring the attendance

and testimony of witnesses and the production of evidence. The several departments, commissions, divisions, authorities, boards, bureaus, agencies, and officers of the state, or any political subdivision or agency thereof, including any board of education, shall furnish the panel, upon its request, with all records, papers and information in their possession relating to any matter under investigation by or in issue before the panel.

In arriving at their findings and recommendations, the factfinders shall consider, weigh, and be guided by all the following criteria:

(1) State and federal laws that are applicable to the employer.

(2) Stipulations of the parties.

(3) The interests and welfare of the public and the financial ability of the public school employee-employer.

(4) Comparison of the wages, hours, and conditions of employment of the employees involved in the factfinding proceeding with the wages, hours, and conditions of employment of other employees performing similar services and with other employees generally in public school employment in comparable communities.

(5) The consumer price index for goods and services, commonly known as the cost of living.

(6) The overall compensation presently received by the employees, including direct wage compensation, vacations, holidays, and other excused time, insurance and pensions, medical and hospitalization benefits; the continuity and stability of employment; and all other benefits received.

(7) Such other facts, not confined to those specified in paragraphs (1) to (6), inclusive, which are normally or traditionally taken into consideration in making such findings and recommendations.

3548.3. If the dispute is not settled within 30 days after the appointment of the panel, or, upon agreement by both parties, within a longer period, the panel shall make findings of fact and recommend terms of settlement, which recommendations shall be advisory only. Any findings of fact and recommended terms of settlement shall be submitted in writing to the parties privately before they are made public. The public school employer shall make such findings and recommendations public within 10 days after their receipt. The costs for the services of the panel chairman, including per diem fees, if any, and actual and necessary travel and subsistence expenses shall be borne by the board. Any other mutually incurred costs shall be borne equally by the public school employer and the exclusive representative. Any separately incurred costs for the panel member selected by each party, shall be borne by such party.

3548.4. Nothing in this article shall be construed to prohibit the mediator appointed pursuant to Section 3548 from continuing mediation efforts on the basis of the findings of fact and recommended terms of settlement made pursuant to Section 3548.3.

3548.5. A public school employer and an exclusive representative who enter into a written agreement covering matters within the

scope of representation may include in the agreement procedures for final and binding arbitration of such disputes as may arise involving the interpretation, application, or violation of the agreement.

3548.6. If the written agreement does not include procedures authorized by Section 3548.5, both parties to the agreement may agree to submit any disputes involving the interpretation, application, or violation of the agreement to final and binding arbitration pursuant to the rules of the board.

3548.7. Where a party to a written agreement is aggrieved by the failure, neglect, or refusal of the other party to proceed to arbitration pursuant to the procedures provided therefor in the agreement or pursuant to an agreement made pursuant to Section 3548.6, the aggrieved party may bring proceedings pursuant to Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure for a court order directing that the arbitration proceed pursuant to the procedures provided therefor in such agreement or pursuant to Section 3548.6.

3548.8. An arbitration award made pursuant to Section 3548.5, 3848.6, or 3848.7 shall be final and binding upon the parties and may be enforced by a court pursuant to Title 9 (commencing with Section 1280) of Part 3 of the Code of Civil Procedure.

Article 10. Miscellaneous

3549. The enactment of this chapter shall not be construed as making the provisions of Section 923 of the Labor Code applicable to public school employees and shall not be construed as prohibiting a public school employer from making the final decision with regard to all matters specified in Section 3543.2.

Nothing in this section shall cause any court or the board to hold invalid any negotiated agreement between public school employers and the exclusive representative entered into in accordance with the provisions of this chapter.

3549.1. All the proceedings set forth in subdivisions (a) to (d), inclusive, shall be exempt from the provisions of Sections 965 and 966 of the Education Code, the Bagley Act (Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3) and the Ralph M. Brown Act (Chapter 9 commencing with Section 54950) of Part 1 of Division 2 of Title 5, unless the parties mutually agree otherwise:

(a) Any meeting and negotiating discussion between a public school employer and a recognized or certified employee organization.

(b) Any meeting of a mediator with either party or both parties to the meeting and conferring process.

(c) Any hearing, meeting, or investigation conducted by a factfinder or arbitrator.

(d) Any executive session of the public school employer or between the public school employer and its designated

representative for the purpose of discussing its position regarding any matter within the scope of representation and instructing its designated representatives.

3549.3. If any provisions of this chapter or the application of such provision to any person or circumstances, shall be held invalid, the remainder of this chapter or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby.

SEC. 3. There is hereby appropriated from the General Fund to the Educational Employment Relations Board the sum of three hundred thousand dollars ($300,000) for the support of the board.

Section 1 of this act and all other provisions of Section 2 of this act shall become operative on July 1, 1976.

CHAPTER 967

An act to add Chapter 17 (commencing with Section 22370) to Division 8 of the Business and Professions Code, relating to invention development services contracts.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 23, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 17 (commencing with Section 22370) is added to Division 8 of the Business and Professions Code, to read:

CHAPTER 17. INVENTION DEVELOPMENT SERVICES CONTRACTS

Article 1. General Provisions

22370. (a) The Legislature finds that there are in the State of California members of the general public who have ideas or inventions that they believe have substantial commercial value but which members of the general public do not have the resources or expertise necessary to develop, manufacture or market these ideas or inventions; that these members of the general public are commonly referred to as "inventors"; that these inventors are generally not people who earn their livelihood from developing, manufacturing, promoting or marketing ideas or inventions, from manufacturing or marketing products, from publishing literary works or from owning, operating or controlling commercial enterprises; that there is a significant number of persons who have realized that inventors are willing to expend substantial sums for services represented to result in the development, manufacture, promotion, sale or general exploitation of the commercial value of their ideas or inventions; that these persons are frequently known as invention developers; that the invention developers' services are generally offered for sums ranging from $500 to $5,000 plus either a percentage of the income that may be derived from the sale or marketing of the idea or invention or a partial ownership interest in

the idea or invention; that the inventors generally have a very passive role in the development, promotion, manufacture or sale of their ideas or inventions after the contract with the invention developer is executed, usually doing little more than receiving periodic reports from the invention developer; that an extremely small number of inventors to whom these invention developers offer their services ever have their products sold or marketed; that there exists in connection with invention development services, sales practices and business methods which have worked a fraud, deceit, imposition, and financial hardship upon many people of this state; that existing legal protection to consumers is inadequate to prevent these abuses; that the invention development industry has a significant impact upon the economy and well-being of this state and its local communities; and that the provisions of this chapter relating to such services are necessary for the public welfare.

(b) The Legislature declares that the purpose of this chapter is to safeguard the public against fraud, deceit, imposition, and financial hardship, and to foster and encourage competition, fair dealing, and prosperity in the field of invention development services by prohibiting or restricting false and misleading advertising, onerous contract terms, harmful financial practices, and other unfair, dishonest, deceptive, destructive, unscrupulous, fraudulent, and discriminatory practices by which the public has been injured in connection with invention development services but not to interfere with, or further regulate by this chapter, those persons who provide researching, marketing, surveying, or other kinds of consulting services to professional manufacturers, marketers, publishers or others purchasing such services as an adjunct to the traditional commercial enterprises in which they engage as a livelihood.

22371. As used in this chapter, the following words have the following meanings:

(a) "Contract for invention development services" shall include a contract by which an invention developer undertakes to develop or promote an invention for a customer.

(b) "Customer" shall include any person, firm, corporation, or other entity that is solicited by, inquires about or seeks the services of, or enters into a contract for invention development services with an invention developer, except (1) any department or agency of the federal, state, or local government, (2) any charitable, scientific, educational, religious. or other organization qualified under Section 501(c)(3) or described in Section 170(b)(1)(a) of the Internal Revenue Code of 1954, as amended, and (3) any person, firm, corporation, or other entity regularly engaged in a trade, business, or profession which has either a net worth of one hundred thousand dollars ($100,000) or more or gross receipts from any source of fifty thousand dollars ($50,000) or more during the calendar year in which any contract for invention development services is signed.

(c) "Invention" shall mean (1) an invention, (2) an idea, (3) a concept, or (4) any combination thereof.

(d) "Invention developer" shall mean any person, firm, corporation, or association, and the agents, employees, or representatives of such person, firm, corporation, or association that develops or promotes or offers to develop or promote an invention, except (1) any department or agency of the federal, state, or local government, (2) any charitable, scientific, educational, religious, or other organization qualified under Section 501(c)(3) or described in Section 170(b)(1)(a) of the Internal Revenue Code of 1954, as amended, (3) any person, firm, corporation, association, or other entity whose gross receipts from contracts for invention development services, as defined in subdivision (a) of Section 22371, do not exceed 10 percent of its gross receipts from all sources during the fiscal year preceding the year in which any contract for invention development services is signed, or (4) any person, firm, corporation, association or other entity that does not charge a fee for invention development services. For the purposes of this paragraph, "fee" shall include any payment made by the customer to such entity including reimbursements for expenditures made or costs incurred by such entity but shall not include any payment made from a portion of the income received by a customer by virtue of invention development services performed by such entity.

(e) "Invention development services" shall include acts required or promised to be performed, or actually performed, or both, by an invention developer for a customer.

Article 2. General Regulatory Provisions

22372. (a) Every contract for invention development services shall be in writing and shall be subject to the provisions of this chapter. A copy of the written contract shall be given to the customer at the time he signs the contract.

(b) If one or more subsequent contracts are contemplated by the invention developer in connection with an invention, or if the invention developer contemplates performance of services in connection with an invention in more than one phase with the performance of each phase covered in one or more subsequent contracts, the invention developer shall so state in a writing and shall supply to the customer such writing together with a copy of such contract or a written summary of the general terms of each and every such subsequent contract, including the amount of any fees or other consideration required from the customer, at the time the customer signs the first contract.

22373. (a) Notwithstanding any contractual provision to the contrary, the invention developer and the customer shall each have the right to cancel a contract for invention development services for any reason at any time within seven days of the date the invention developer and the customer sign the contract. Cancellation shall be effected by written notice mailed or delivered to the invention developer or the customer. If said notice is mailed, it must be

postmarked by midnight of the last day of the cancellation period. If the notice is delivered, it must be delivered by the end of the invention developer's normal business day. Within five business days after receipt of such notice of cancellation by the customer, the invention developer shall return to the customer, by mail, all moneys paid and all materials provided by the customer.

(b) The provisions of subdivision (a) shall apply to every contract executed between an invention developer and a customer. Each such contract shall contain the following statement in 10-point boldface type immediately above the place at which the customer signs the contract: "The seven-day period during which you may cancel this contract for any reason by mailing or delivering written notice to the invention developer will expire on

_____

(Last date to mail or deliver notice)

If you choose to mail your notice, it must be placed in the United States mail properly addressed first-class postage prepaid and postmarked before midnight of this date. If you choose to deliver your notice to the invention developer directly, it must be delivered to him by the end of his normal business day on this date. The invention developer also has the right to cancel this contract by notice similarly mailed or delivered."

22374. Each and every contract for invention development services shall carry a distinctive and conspicuous cover sheet with the following notice (and no other) imprinted thereon in boldface type of not less than 10-point size:

"The following disclosures are required by law:

You have the right to cancel this contract for any reason at any time within seven days from the date you and the invention developer sign the contract and you receive a fully executed copy of it. To exercise this option you need only mail or deliver to this invention developer written notice of your cancellation. The method and time for notification is set forth in this contract immediately above the place for your signature. Upon cancellation, the invention developer must return by mail, within five business days, all money paid and all materials provided by you.

This contract between you and the invention developer is regulated by law. The invention developer is not qualified or permitted to advise you whether protection of your idea or invention is available under the patent, copyright or trademark laws of the United States or any other law. This contract does not provide any patent, copyright or trademark protection for your idea or invention. If your idea or invention is patentable, copyrightable or subject to trademark protection, or infringes an existing valid patent, copyright or trademark or a patent, copyright or trademark for which application has been made, your failure to inquire into these matters may affect your rights to your idea or invention."

22375. No invention developer shall acquire any interest, partial or whole, in the title to the customer's invention, unless the invention

developer contracts to manufacture the invention and acquires such interest for such purpose at or about the time the contract for manufacture is executed. Nothing in this section shall be construed to prohibit an invention developer from contracting with a customer to receive a portion of any proceeds accruing to the customer as a result of performance of invention development services by the invention developer.

22376. No contract for invention development services shall require or entail the execution of any note or series of notes by the customer which, when separately negotiated, will cut off as to third parties any right of action or defense which the customer may have against the invention developer.

22377. Any assignee of the invention developer's rights is subject to all equities and defenses of the customer against the invention developer existing in favor of the customer at the time of the assignment.

22378. With respect to each and every contract for invention development services, the invention developer shall deliver to the customer, at the address specified in the contract at quarterly intervals throughout the term of the contract, a written statement of the services performed to date; provided, however, the first such statement need not be delivered until 180 days after the contract is executed.

Article 3. Mandatory Contract Terms

22379. Every contract for invention development services shall set forth in at least 10-point boldface type, or equivalent size if handwritten, all of the following:

(a) The terms and conditions of payment required by Section 22373.

(b) A full and detailed description of the acts or services that the invention developer undertakes to perform for the customer. To the extent that the description of acts or services affords the invention developer discretion to decide what acts or services are to be performed by the invention developer, the invention developer shall exercise that discretion to promote the best interests of the customer.

(c) A statement whether the invention developer undertakes to construct one or more prototypes, models, or devices embodying the customer's invention.

(d) A statement whether the invention developer undertakes to sell or distribute one or more prototypes, models, or devices embodying the customer's invention.

(f) The invention developer's principal business address and the

name and address of its agent in the State of California authorized to receive service of process.

(g) The business form of the invention developer, whether corporate, partnership, or otherwise.

(h) A statement of the fee charged, a statement that a portion of the fee charged will be paid as a commission or other similar payment, if in fact it is intended to be so paid, to a person inducing, directly or indirectly, a customer to contract for the services of the invention developer, which statement shall specify the names of the person or persons receiving said payment; and a statement of the approximate portion of the fee charged, if any, that will be expended for services relating to patent matters.

(i) A statement that the invention developer does not intend to expend more for the invention development services than the fee charged the customer, if, in fact, it does not, and if it does, a statement of the estimated expenditures of the invention developer in excess of the fee received from the customer.

(j) If any oral or written representation of estimated or projected customer earnings is made, a statement of such estimation or projection and the data upon which it is based.

(*l*) A statement that the invention developer is required to maintain all records and correspondence relating to performance of the invention development services for that customer for a period not less than three years after expiration of the term of the contract for invention development services.

If your idea or invention is patentable, copyrightable or subject to trademark protection, or infringes an existing valid patent, copyright or trademark or a patent, copyright or trademark for which application has been made, your failure to inquire into these matters may affect your rights to your idea or invention."

Article 4. Disclosures Made Prior to Contract

22380. Every invention developer who charges a fee or requires any consideration for his invention development services must clearly and conspicuously disclose such fact in every advertisement of such services.

22381. In the first oral communication with a customer or in the first written response to an inquiry by a customer other than an oral communication or written response, the primary purpose of which is to arrange an appointment with the invention developer for presentation of his invention development services, the invention developer shall cause the following disclosures to be made to each customer:

(b) A statement that the invention developer does not intend to expend more for the invention development services than the fee charged the customer, if, in fact, it does not, and if it does, a statement of the estimated expenditures of the invention developer in excess of the fee received from the customer.

(c) A single statement setting forth both (1) the total number of customers who have contracted with the invention developer; provided, however, that the number need not reflect those customers who have contracted within the last 30 days and (2) the number of customers that have received by virtue of the invention developer's performance of invention development services an amount of money in excess of the amount of money paid by such customers to the invention developer.

(d) A statement as follows:

"Any contract for invention development services between you and our firm will be regulated by law. Our firm is not qualified or permitted to advise you whether protection of your idea or invention is available under the patent, copyright or trademark laws of the United States or any other law. The contract does not provide any

patent, copyright or trademark protection for your idea or invention. If your idea or invention is patentable, copyrightable or subject to trademark protection, or infringes an existing valid patent, copyright or trademark or a patent, copyright or trademark for which application has been made, your failure to inquire into these matters may affect your rights to your idea or invention."

Article 4.5. Remedies and Enforcement

22382. The provisions of this chapter are not exclusive and do not relieve the parties or the contract subject thereto from compliance with all other applicable provisions of law.

22383. Any contract for invention development services which does not comply with the applicable provisions of this chapter shall be void and unenforceable as contrary to public policy, provided that no contract shall be void and unenforceable if the invention developer proves that noncompliance was unintentional and resulted from a bona fide error notwithstanding the use of reasonable procedures adopted to avoid any such errors and makes an appropriate correction.

22384. Any contract for invention development services entered into in reliance upon any willful and false, fraudulent, or misleading representation by the invention developer shall be void and unenforceable.

22385. Any waiver by the customer of the provisions of this chapter shall be deemed contrary to public policy and shall be void and unenforceable.

22386. Any person who has been injured by a violation of this chapter by an invention developer, or by any false or fraudulent statement, representation, or omission of material fact by an invention developer, or by failure of an invention developer to make all the disclosures required by Section 22379, may bring a civil action against the invention developer for the greater of the following amounts:

(1) Three thousand dollars ($3,000).

(2) Three times the amount of the actual damages, if any, sustained by the plaintiff.

In addition to the greater of the preceding amounts, the court may award reasonable attorney's fees to the plaintiff.

22387. Any invention developer who willfully violates any provision of this chapter, or willfully enters an invention development contract which omits any duty or disclosure required by this chapter, is guilty of a misdemeanor Any superior court of this state shall have jurisdiction in equity to restrain and enjoin the violation of any of the provisions of this chapter relating to invention development services and contracts therefor.

The duty to institute actions for violation of such provisions of this chapter, including equity proceedings to restrain and enjoin such violations, is hereby vested in the Attorney General, district

attorneys, county counsels, and city attorneys. The Attorney General, any district attorney, or city attorney may prosecute misdemeanor actions or institute equity proceedings or both.

This section shall not be deemed to prohibit the enforcement by any person of any right provided by this or any other law.

Article 5. Financial Requirements

22389. Every invention developer rendering or offering to render invention development services in this state shall maintain a bond issued by a surety company admitted to do business in this state. The principal sum of the bond shall be 5 percent of the invention developer's gross income from the invention development business in this state during the invention developer's last fiscal year, except that the principal sum of the bond shall not be less than twenty-five thousand dollars ($25,000) in the first or any subsequent year of operations. A copy of such bond shall be filed with the Secretary of State prior to the time the invention developer first commences business in this state. The invention developer shall have 90 days after the end of each fiscal year within which to change the bond as may be necessary to conform to the requirements of this section.

22390. The bond required by Section 22389 shall be in favor of the State of California for the benefit of any person who, after entering into a contract for invention development services with an invention developer is damaged by fraud or dishonesty or failure to provide the services of the invention developer in performance of the contract. Any person claiming against the bond may maintain an action at law against the invention developer and the surety.

The aggregate liability of the surety to all persons for all breaches of conditions of the bond provided herein shall in no event exceed the amount of the bond.

22391. In lieu of furnishing the bond required by Section 22389, the invention developer may deposit with the Secretary of State a cash deposit in the like amount. This cash deposit may be satisfied by any of the following:

(a) Certificates of deposit payable to the Secretary of State issued by banks doing business in this state and insured by the Federal Deposit Insurance Corporation.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 3. This act shall not apply to any contract entered into prior to the effective date of the act.

The resolution shall also contain the name and telephone number of a local department or agency designated by the

legislative body to answer inquiries regarding the hearing proceedings. Such notice shall be omitted if the hearing of objections is not required as provided hereunder. The resolution may describe the changes by referring to maps, plats, plans, profiles, detailed drawings, or specifications on file in the office of the clerk or engineer, which shall indicate the changes proposed to be made and which shall govern for all details thereof. The resolution shall be published pursuant to Section 6061 of the Government Code, at least 10 days prior to the date of the hearing.

CHAPTER 969

An act to amend Section 216 of, and to add Section 216.1 to, the Streets and Highways Code, relating to state highways.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 216 of the Streets and Highways Code is amended to read:

216. The noise level produced by the traffic on, or by the construction of, a state freeway shall be measured in the classrooms, libraries, multipurpose rooms, and spaces used for pupil personnel services of a public or private elementary or secondary school if the classrooms, libraries, multipurpose rooms, or spaces used for pupil personnel services were constructed prior to the award of the initial construction contract for the freeway route and prior to January 1, 1974, or were constructed after December 31, 1973, and were constructed prior to the issuance of a statement of present and projected noise levels of the freeway route by the department pursuant to subdivision (g) of Section 65302 of the Government Code, and are being used for the purpose for which they were constructed.

Such measurements shall be made at appropriate times during regular school hours and shall not include noise from sources that exceed the maximum permitted by law.

If the noise level produced from the freeway traffic, or the construction of the freeway, exceeds 50 decibels on the "A" scale, the department shall undertake a noise abatement program in any such classroom, library, multipurpose room, or space used for pupil personnel services to reduce the freeway traffic noise level therein to 50 or fewer decibels on the "A" scale by, but not limited to, installing acoustical materials, eliminating windows, installing air conditioning, or constructing sound baffle structures.

If the department determines that the construction of the freeway will result in a noise level exceeding 50 decibels on the "A" scale, the department shall complete the temporary or permanent noise abatement program prior to commencing such construction, or as soon as practicable thereafter.

If it becomes necessary to convert such classrooms, libraries, multipurpose rooms, or spaces used for pupil personnel services to other school-related purposes because the freeway traffic noise level therein exceeds 50 decibels on the "A" scale, the department shall pay the cost of such conversions.

If the noise level generated from sources within and without the classrooms, libraries, multipurpose rooms, or spaces used for pupil personnel services exceeds 50 decibels on the "A" scale prior to construction of the freeway and the noise from the freeway, or the construction thereof, also exceeds 50 decibels on the "A" scale, the department shall be required to undertake such a noise abatement program that will reduce the noise to its preconstruction level.

Priority for noise abatement programs shall be given to those public and private elementary and secondary classrooms, libraries, multipurpose rooms, and spaces used for pupil personnel services constructed in conformance with Article 4 (commencing with Section 15451), Chapter 2, Division 11 of the Education Code.

As used in this section, the "A" scale means the "A" weighting

described in Section 3.1 of the American National Standard specification for sound level meters, S1.4-1971, approved April 27, 1971, and published by the American National Standards Institute.

The department shall submit to the Legislature, on or before February 1 of each year, an annual report on its program for the implementation of this section.

SEC. 2. Section 216.1 is added to the Streets and Highways Code, to read:

216.1. As used in Section 216, "spaces used for pupil personnel services" means rooms that are used primarily for counseling, testing, or similar type services involving the presence of pupils.

[Approved by Governor September 22, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 33411.2 is added to the Health and Safety Code, to read:

33411.2. As used in this article:

(a) "Affordable rent" has the same meaning as specified in Section 41023.

(b) "Persons and families of low or moderate income" has the same meaning as specified in Section 41056.

(c) "Replacement dwelling unit" means a dwelling unit developed or constructed pursuant to Section 33413 in replacement of a dwelling unit destroyed or removed from the low- and moderate-income housing market by an agency and which is decent, safe, and sanitary and contains at least the same number of bedrooms and other living areas as the dwelling unit destroyed or removed by the agency.

(d) "Very low income households" has the same meaning as specified in Section 41067.

SEC. 2. Section 33411.3 of the Health and Safety Code is amended to read:

33411.3. Whenever all or any portion of a redevelopment project is developed with low- or moderate-income housing units the agency shall require by contract or other appropriate means that such housing be made available for rent or purchase to the persons and families of low or moderate income displaced by the redevelopment project. Such persons and families shall be given priority in renting or buying such housing; provided, however, failure to give such

priority shall not affect the validity of title to real property.

SEC. 3. Section 33413 is added to the Health and Safety Code, to read:

33413. (a) Whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall, within four years of such destruction or removal, rehabilitate, develop or construct, or cause to be rehabilitated, developed or constructed, for rental or sale to persons and families of low or moderate income an equal number of replacement dwelling units at affordable rents within the project area or within the territorial jurisdiction of the agency.

(b) (1) At least 30 percent of all new or rehabilitated dwelling units developed within the project area by an agency shall be for persons and families of low or moderate income. Of such 30 percent, not less than 50 percent thereof shall be for very low income households.

(2) At least 15 percent of all new or rehabilitated dwelling units developed within the project area by public or private entities or persons other than the agency shall be for persons and families of low or moderate income. Of such 15 percent, not less than 40 percent thereof shall be for very low income households.

(3) The requirements of this subdivision shall apply in the aggregate to housing in the project area and not to each individual case of rehabilitation, development, or construction of dwelling units.

(c) The agency shall require that the aggregate number of dwelling units rehabilitated, developed or constructed pursuant to subdivision (a) or (b) remain for persons and families of low or moderate income and very low income households, respectively, for not less than the period of the land use controls established in the redevelopment plan.

(d) This section shall apply only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) of this chapter on or after January 1, 1976, and to areas which are added to a project area by amendment to a final redevelopment plan adopted on or after January 1, 1976. However, any agency may, by resolution, elect to make the requirements of this section applicable to any redevelopment project of the agency for which the final redevelopment plan was adopted prior to January 1, 1976.

(e) Except as otherwise authorized by law, nothing in this section shall empower an agency to operate a rental housing development beyond such period as is reasonably necessary to sell or lease the housing development.

SEC. 4. Section 33449 is added to the Health and Safety Code, to read:

33449. Notwithstanding Section 33440, or any other provision of law, an agency may, inside or outside any project area, acquire land,

donate land, improve sites, or construct or rehabilitate structures in order to provide housing for persons and families of low or moderate income, as defined in Section 41056, and very low income households, as defined in Section 41067, and may provide subsidies to, or for the benefit of, such persons and families or households to assist them in obtaining housing within the community.

Except as otherwise authorized by law, nothing in this section shall empower an agency to operate a rental housing development beyond such period as is reasonably necessary to sell or lease the housing development.

This section shall apply to all redevelopment project areas for which a redevelopment plan has been adopted, whether the redevelopment plan is adopted before or after January 1, 1976.

CHAPTER 971

An act to add Section 32912.7 to the Food and Agricultural Code, and to add Section 26561.5 to the Health and Safety Code, relating to food.

If a food purports to be or is represented for special dietary use by humans by reason of its use as a means of regulating the intake of protein, fat, carbohydrate, or calories, for the purpose of controlling body weight, or for the purpose of dietary management with respect to disease, the label shall bear a statement of:

(a) The percent by weight per specified serving of protein, fat, and available carbohydrates in such food; and

(b) The number of available calories supplied by a specified quantity of such food.

A food shall be considered to be represented for special dietary use if it bears a label, brand name, or nutritional statement suggesting that it is "low calorie," "low fat," "skim," "nonfat," "sugar free," "diet," or words of similar import.

Any food is misbranded if it does not comply with the requirements of this section.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 15. FISCAL YEAR

14270. A corporation organized under this act shall adopt June 30th as the end of its fiscal year.

CHAPTER 16. SEVERABILITY

14271. If any provision of this act or its application to any person or circumstance is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the energy crisis and the recent downturn in the nation's economy, there is a high probability of a recession in the state this year. A proven way to stimulate the economy and create more jobs is to assist small and medium-size businesses. Corporations organized under this act would render this assistance by loans, guarantee of loans, investment of equity capital and managerial assistance. Since this act will ameliorate such situation, it is necessary for this act to take effect immediately.

CHAPTER 986

in appropriate cases.

(a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, his understanding of traffic signs and signals and the applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive, except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued

by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

(f) Notwithstanding the provisions of subdivision (b), any person holding a valid California driver's license of any class may operate a motorized bicycle without taking any special examination for the operation of a motorized bicycle, and without having a class 4 endorsement on such license.

The applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive, except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the

standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. (b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(4) Class 4. Any two-wheel motorcycle or motorized bicycle. Authority to operate vehicles included in a class 4 license may be granted by endorsement on a class 1, 2 or 3 license upon completion of appropriate examination.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation is in the licensee's immediate possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Any such prohibition or restriction pertaining to either bicycles or motor-driven cycles, or to both, shall be deemed to include motorized bicycles; and no person may operate a motorized bicycle wherever such prohibition or restriction is in force. (b) Such prohibitory regulation shall be effective when appropriate signs giving notice thereof are erected upon any freeway and the approaches thereto.

(c) No ordinance or resolution of local authorities shall apply to any state highway until the proposed ordinance or resolution has been presented to, and approved in writing by, the Department of Transportation.

SEC. 8. Section 23330 of the Vehicle Code is amended to read:

SEC. 10. Section 39012 is added to the Vehicle Code, to read:

Therefore, Section 5.5 of this act shall become operative only if this bill and Senate Bill No. 244 are both chaptered and become effective January 1, 1976, both amend Section 12804, and this bill is chaptered after Senate Bill No. 244, in which case Section 5 of this act shall not become operative.

(a) Except as provided in subdivision (b), when a public administrator takes possession of the estate of a decedent as provided in this chapter, and it appears that the total value of the estate of the decedent does not exceed five thousand dollars ($5,000) excluding any motor vehicle owned by the decedent, the public administrator may apply to the superior court of his county or a judge thereof for an order permitting him summarily to sell any personal property belonging to the decedent, and to withdraw any money of the decedent on deposit with any bank, and to collect any indebtedness or claim that may be owing to the decedent. The money received from any such sale or collection shall be used to pay commissions to the public administrator, and to defray the expenses of the burial of the decedent and the expenses of his last illness; the balance, if any, shall be used to pay other claims approved by the court; and there shall be no administration upon the estate unless additional property is discovered. (b) When a public administrator takes possession of the estate of a decedent as provided in this chapter, and it appears that the total value of the estate of the decedent does not exceed five hundred dollars ($500), the public administrator may, instead of applying to the superior court or judge thereof for an order provided in subdivision (a), apply such money or proceeds from the sale of any personal property towards the expense of the burial of the decedent or may deposit such money with the county treasurer for use in the general fund without regard for any claims, other than preferred claims, against the decedent's estate.

SEC. 2. The amendments to Section 1143 of the Probate Code made by this act shall apply to all decedents' estates which are subject to its provisions, regardless of the date of death or the date on which this act becomes operative.

The Department of the California Highway Patrol may provide for measuring at distances other than 50 feet from the center of the lane of travel. In such a case, the measurement shall be corrected so as to provide for measurements equivalent to the noise limit established by this section measured at 50 feet.

An act to amend Sections 31910, 31911, 31912, 31913, 31913.5, 31914, and 31915 of, and to add Section 31913.2 to, the Education Code, relating to family physician training, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975.]

I am deleting the appropriation contained in Section 9(a) of Senate Bill No 490 The $896,875 appropriation remaining in the bill is adequate to fund the Song-Brown Family Physician Training Program

Sincerely,

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 31910 of the Education Code is amended to read:

31910. The Legislature hereby finds and declares that physicians engaged in family practice are in very short supply in California. The current emphasis placed on specialization in medical education has resulted in a shortage of physicians trained to provide comprehensive primary health care to families. The Legislature hereby declares that it regards the furtherance of a greater supply of competent family physicians to be a public purpose of great importance and further declares the establishment of the program pursuant to this chapter to be a desirable, necessary and economical method of increasing the number of family physicians to provide needed medical services to the people of California. The Legislature further declares that it is to the benefit of the state to assist in increasing the number of competent family physicians graduated by colleges and universities of this state to provide primary health care services to families within the state.

The Legislature finds that the shortage of family physicians can be improved by the placing of a higher priority by public and private medical schools, hospitals, and other health care delivery systems in this state, on the recruitment and improved training of medical students and residents to meet the need for family physicians. To help accomplish this goal, each medical school in California is encouraged to organize a strong family practice program or department. It is the intent of the Legislature that such programs or departments be headed by a physician who possesses specialty certification in the field of family practice, and has broad clinical experience in the field of family practice.

The Legislature further finds that encouraging the training of primary care physician's assistants and primary care nurse practitioners will assist in making primary health care services more accessible to the citizenry, and will, in conjunction with the training of family physicians, lead to an improved health care delivery system in California.

Community hospitals in general and rural community hospitals in particular, as well as other health care delivery systems, are encouraged to develop family practice residencies in affiliation or association with accredited medical schools, to help meet the need for family physicians in geographical areas of the state with recognized family primary health care needs. Utilization of expanded resources beyond university-based teaching hospitals should be emphasized, including facilities in rural areas wherever

possible.

It is the intent of the Legislature to provide for a program designed primarily to increase the number of students and residents receiving quality education and training in the specialty of family practice and as primary care physician's assistants and primary care nurse practitioners and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need. This program is intended to be implemented through contracts with accredited medical schools, programs which train primary care physician's assistants and programs which train primary care nurse practitioners, hospitals, and other health care delivery systems based on per-student or per-resident capitation formulas. It is further intended by the Legislature that the programs will be professionally and administratively accountable so that the maximum cost effectiveness will be achieved in meeting the professional training standards and criteria set forth in this article.

This article may be cited as the "Song-Brown Family Physician Training Act."

SEC. 2. Section 31911 of the Education Code is amended to read:

31911. The term "family physician" as used in this article means a primary care physician who is prepared to and renders continued comprehensive and preventative health care services to families and who has received specialized training in an approved family practice residency for three years after graduation from an accredited medical school.

The terms "associated" and "affiliated," as used in this article, mean that relationship that exists by virtue of a formal written agreement between a hospital or other health care delivery system and an approved medical school which pertains to the family practice training program for which state contract funds are sought. This definition shall include such agreements which may be entered into subsequent to the effective date of this article as well as those relevant agreements which are in existence prior to the effective date of this article.

The term "commission," as used in this article, shall mean the Health Manpower Policy Commission.

The term "programs which train primary care physician's assistants" as used in this article shall mean a program which has been approved for the training of primary care physician's assistants pursuant to Section 2515 of the Business and Professions Code.

The term "programs which train primary care nurse practitioners" as used in this article shall mean a program for the training of primary care nurse practitioners which is operated by an approved medical school or which is affiliated with a school of nursing approved by the Board of Registered Nursing pursuant to Section 2786 of the Business and Professions Code.

SEC. 3. Section 31912 of the Education Code is amended to read:

31912. There is hereby created a state medical contract program

with accredited medical schools, programs which train primary care physician's assistants, programs which train primary care nurse practitioners, hospitals, and other health care delivery systems to increase the number of students and residents receiving quality education and training in the specialty of family practice and to maximize the delivery of primary care family physician services to specific areas of California where there is a recognized unmet priority need for such services.

SEC. 4. Section 31913 of the Education Code is amended to read:

31913. There is hereby created a Health Manpower Policy Commission. The commission shall be composed of nine members who shall serve at the pleasure of their appointing authorities:

(a) Six members appointed by the Governor, as follows: one representative of the University of California medical schools, from a nominee or nominees submitted by the University of California; one representative of the private medical schools accredited in California from individuals nominated by each of such schools; one representative of practicing family physicians; one representative of undergraduate medical students in a family practice program or residence in family practice training; one representative of trainees in a primary care physician's assistant program or a practicing physician's assistant; one representative of trainees in a primary care nurse practitioners program or a practicing nurse practitioner; and one representative of the State Department of Health, from nominees submitted by the director.

(b) Two consumer representatives of the public who are not elected or appointed public officials, one appointed by the Speaker of the Assembly and one appointed by the Chairman of the Senate Rules Committee.

(c) The Chief of the Health Manpower Development Section, or his designee, shall serve as executive secretary for the commission.

SEC. 5. Section 31913.2 is added to the Education Code, to read:

31913.2. The members of the commission, other than state employees, shall receive compensation of twenty-five dollars ($25) for each day's attendance at a commission meeting, in addition to actual and necessary travel expenses incurred in the course of attendance at a commission meeting.

SEC. 6. Section 31913.5 of the Education Code is amended to read:

31913.5. (a) The duties of the commission shall be:

(1) To determine specific areas of the state where unmet priority needs for primary care family physicians exist.

(2) To establish standards for family practice training programs and family practice residency programs and programs which train primary care physician's assistants and programs which train primary care nurse practitioners, including appropriate provisions to encourage family physicians and primary care physician's assistants and primary care nurse practitioners who receive training in accordance with this article to provide needed services in areas of

unmet need within the state. Standards for family practice residency programs shall provide that all such residency programs contracted for pursuant to this article shall (i) meet the American Medical Association's "Essentials" for Residency Training in Family Practice, (ii) be approved by the Residency Review Committee for Family Practice of the American Medical Association, and (iii) be affiliated or associated with accredited medical schools in California. Every program shall include a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and shall be organized to prepare family physicians or primary care physician's assistants or primary care nurse practitioners for service in such neighborhoods and communities. Medical schools receiving funds under this article shall have programs or departments that recognize family practice as a major independent specialty.

(3) To review and make recommendations to the Director of Health concerning the funding of family practice programs or departments, family practice residencies and programs for the training of primary care physician's assistants and primary care nurse practitioners which are submitted to the Health Manpower Development Section, for participation in the contract program established by this article. Where the commission determines that a program proposal which has been approved for funding or which is the recipient of funds under this article does not meet the standards established by the commission, it shall submit to the Director of Health and the Legislature a report detailing its objections. The commission may request the Department of Health to make advance allocations for program development costs from amounts appropriated for the purposes of this article.

(4) To establish contract criteria and single per-student and per-resident capitation formulas which shall determine the amounts to be transferred to institutions receiving contracts for the training of family practice students and residents and primary care physician's assistants and primary care nurse practitioner pursuant to this article. Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for waiver of these single capitation formulas. The director may grant such waiver in exceptional cases upon a clear showing by the institution that a waiver is essential to the institution's ability to provide a program of a quality comparable to those provided by institutions which have not received waivers, taking into account the public interest in program cost-effectiveness. Recipients of funds appropriated by this article shall, as a minimum, maintain the level of expenditure for family practice or physician's assistant training provided by such recipients during the 1973–74 fiscal year. Funds appropriated by this article shall be used to develop new programs or to expand existing programs and shall not replace funds supporting current family practice training programs. Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for

waiver of this maintenance of effort provision. The director may grant such waiver if he determines that there is reasonable and proper cause to grant such waiver.

(5) To review and evaluate these programs regarding proper compliance with the provisions of this article and to submit annual progress reports to the Legislature on or before September 30 of each year, commencing September 30, 1974. One standard for evaluation shall be the number of recipients who, after completing the program, actually go on to serve in areas of unmet priority needs in California.

SEC. 7. Section 31914 of the Education Code is amended to read:

31914. Pursuant to the provisions of this article, the Director of Health shall:

(a) Determine whether family practice, primary care physician's assistant training programs proposals, and primary care nurse practitioner training program proposals submitted to the Health Manpower Policy Commission for participation in the state medical contract program established by this article meet the standards established by the commission.

(b) Select and contract on behalf of the state with accredited medical schools, programs which train primary care physician's assistants, programs which train primary care nurse practitioners, hospitals, and other health care delivery systems for the purpose of training undergraduate medical students and residents in the specialty of family practice. Contracts shall be awarded to those institutions which best demonstrate the ability to provide quality education and training and to retain students and residents in specific areas of California where there is a recognized unmet priority need for primary care family physicians. Contracts shall be based upon the recommendations of the commission and in conformity with the contract criteria and program standards established by said commission.

(c) Be empowered to terminate, upon 30 days' written notice, the contract of any institution whose program does not meet the standards established by the commission or which otherwise does not maintain proper compliance with the provisions of this article, except as otherwise provided in contracts entered into by the director pursuant to this article.

SEC. 8. Section 31915 of the Education Code is amended to read:

31915. The Director of Health shall adopt, amend, or repeal such regulations as are necessary to enforce the provisions of this article, which shall include criteria which training programs must meet in order to qualify for waivers of single capitation formulas or maintenance of effort requirements authorized by Section 31913.5. Regulations for the administration of this article shall be adopted, amended, or repealed as provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 9. (a) There is hereby appropriated from the General Fund to the Health and Welfare Agency for the purposes of Article

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 1203 of the Penal Code is amended to read:

1203. (a) In every case in which a person is convicted of a felony and is eligible for probation, before judgment is pronounced, the court shall immediately refer the matter to the probation officer to investigate and report to the court, at a specified time, upon the circumstances surrounding the crime and the prior history and

record of the person, which may be considered either in aggravation or mitigation of the punishment. The probation officer shall immediately investigate and make a written report to the court of his findings and recommendations, including his recommendations as to the granting or denying of probation and the conditions of probation, if granted. The report shall be made available to the court and the prosecuting and defense attorneys at least two days or, upon the request of the person, five days prior to the time fixed by the court for the hearing and determination of the report, and shall be filed with the clerk of the court as a record in the case at the time of the hearing. The time within which the report shall be made available and filed may be waived by written stipulation of the prosecuting and defense attorney which is filed with the court or an oral stipulation in open court which is made and entered upon the minutes of the court. At a time fixed by the court, the court shall hear and determine the application, if one has been made, or, in any case, the suitability of probation in the particular case. At the hearing, the court shall consider any report of the probation officer and shall make a statement that it has considered such report which shall be filed with the clerk of the court as a record in the case. If the court determines that there are circumstances in mitigation of the punishment prescribed by law or that the ends of justice would be subserved by granting probation to the person, it may place him on probation. If probation is denied, the clerk of the court shall immediately send a copy of the report to the Department of Corrections at the prison or other institution to which the person is delivered.

(b) If a defendant is not represented by an attorney, the court shall order the probation officer who makes the probation report to discuss its contents with the defendant.

(c) In every case in which a person is convicted of a misdemeanor, the court may either refer the matter to the probation officer for an investigation and a report or summarily grant or deny probation. If such a case is not referred to the probation officer, in sentencing the person, the court may consider any information concerning him which could have been included in a probation report. The court shall inform the person of the information to be considered and permit him to answer or controvert it. For this purpose, upon the request of the person, the court shall grant a continuance before the judgment is pronounced.

(d) Except in unusual cases where the interests of justice would best be served if the person is granted probation, probation shall not be granted to any of the following persons:

(1) Unless he had a lawful right to carry a deadly weapon, other than a firearm, at the time of the perpetration of the crime or his arrest, any person who has been convicted of arson, robbery, burglary, burglary with explosives, rape with force or violence, murder, assault with intent to commit murder, attempt to commit murder, trainwrecking, kidnapping, escape from the state prison, or

(7) Any public official or peace officer of this state or any city, county, or other political subdivision who, in the discharge of the duties of his public office or employment, accepted or gave or offered to accept or give any bribe, embezzled public money, or was guilty of extortion.

(e) When probation is granted in a case which comes within the provisions of subdivision (d), the court shall specify the circumstances indicating that the interests of justice would best be served by such a disposition.

(f) If a person is not eligible for probation, the judge may, in his discretion, refer the matter to the probation officer for an investigation of the facts relevant to the sentencing of the person. Upon such referral, the probation officer shall immediately investigate the circumstances surrounding the crime and the prior record and history of the person and make a written report to the court of his findings.

(g) No probationer shall be released to enter another state unless his case has been referred to the Administrator, Interstate Probation

and Parole Compacts, pursuant to the Uniform Act for Out-of-State Probationer or Parolee Supervision (Article 3 (commencing with Section 11175) of Chapter 2 of Title 1 of Part 4).

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

New Medi-Cal beneficiaries have had difficulty in obtaining initial office visits which is the primary entry point into the health delivery system. This act reduces the paperwork required of providers, and increases the willingness of providers to accept Medi-Cal patients. This act also allows pharmacists and optometrists to render necessary services as soon as needed without having to obtain prior authorization and thus increases the timeliness of service to Medi-Cal beneficiaries. In addition, this act clarifies the Legislature's intent to include mental health services, as described in Welfare and Institutions Code Section 14021, in the benefits provided under the Medi-Cal Benefits Program. Thus it is necessary that this act take immediate effect.

19309. Upon request of the board, supported by a statement of the apportionments made and to be made under Sections 19350 to 19397, inclusive, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such apportionments, and, if so, the amount of bonds then to be issued and sold. Fifty million dollars ($50,000,000) shall be available for apportionment on July 1, 1976, and seven million dollars ($7,000,000) shall become available for apportionment on the fifth day of each month thereafter until a total of two hundred million dollars ($200,000,000) has become available for apportionment. Successive issues of bonds may be authorized and sold to make such apportionments progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

19310. In computing the net interest cost under Section 16754 of the Government Code, interest shall be computed from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, such computation to be made on a 360-day-year basis.

19311. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer.

19312. All proceeds from the sale of the bonds herein authorized deposited in the fund, as provided in Section 16757 of the Government Code, except those derived from premium and accrued interest, shall be available for the purpose herein provided, but shall not be available for transfer to the General Fund pursuant to Section 19305 to pay principal and interest on bonds.

19313. With respect to the proceeds of bonds authorized by this chapter, all the provisions of Sections 19350 to 19397, inclusive, shall apply.

19314. Out of the first money realized from the sale of bonds under this act, there shall be repaid any moneys advanced or loaned to the State School Building Lease-Purchase Fund under any act of the Legislature, together with interest provided for in that act.

SEC. 2. Section 1 of this act shall take effect upon the adoption by the people of the State School Building Lease-Purchase Bond Law of 1976, as set forth in Section 1 of this act. Sections 2 to 4 of this act contain provisions relating to and necessary for the submission of the State School Building Lease-Purchase Bond Law of 1976 to the people, and for returning, canvassing, and proclaiming the votes thereon, and shall take effect immediately.

SEC. 3. The State School Building Lease-Purchase Bond Law of 1976, as set forth in Section 1 of this act, shall be submitted to the people of the State of California for their ratification at the next

direct primary election, to be held in the month of June 1976, and shall appear as the first proposition on the ballot.

SEC. 4. All ballots at said election shall have printed thereon in boldface type and in a square thereof, the words: "The State School Building Lease-Purchase Bond Law of 1976," and in the same square under said words the following in eight-point type: "Provides for a bond issue of two hundred million dollars ($200,000,000) to provide capital outlay for construction or improvement of public schools." Opposite the words "The State School Building Lease-Purchase Bond Law of 1976. Provides for a bond issue of two hundred million dollars ($200,000,000) to provide capital outlay for construction or improvement of public schools," there shall be left spaces marked "Yes" and "No" in which the voters may place an "X" in the manner required by law to indicate whether they vote for or against said act. Provided, that where the voting of said election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, such use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The Governor shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said election.

SEC. 5. The votes cast for or against the State School Building Aid Lease-Purchase Bond Law of 1976 shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appears that said act shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

direct primary election.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.5 (commencing with Section 13850) is added to Division 7 of the Water Code, to read:

CHAPTER 10.5. CALIFORNIA SAFE DRINKING WATER BOND LAW OF 1976

13850. This chapter shall be known and may be cited as the California Safe Drinking Water Bond Law of 1976.

13851. The Legislature hereby finds and declares that it is necessary for the preservation of the health, safety, and welfare of the people of California that water supplied for domestic purposes be pure, wholesome, and potable and does not endanger the health or lives of human beings and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

13854. The Legislature further finds and declares that a number of domestic water supply systems are inadequate and do not meet minimum bacteriological, chemical, or other basic health standards for domestic water supplies, and that it is in the interest of the people that the State of California provide technical and financial assistance to the end that the people of California are assured a safe, dependable, and potable supply of water for domestic purposes and that water is available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes.

13855. The Legislature further finds and declares that it is the intent of the Legislature to provide for the upgrading of domestic water supply systems to assure that all domestic water supplies at least meet minimum domestic water supply standards established under Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

13856. The State General Obligation Bond Law is adopted for the purpose of the issuance, sale, and repayment of, and otherwise providing with respect to, the bonds authorized to be issued by this chapter, and the provisions of that law are included in this chapter as though set out in full in this chapter, except that notwithstanding anything in the State General Obligation Bond Law, the bonds authorized hereunder shall bear such rates of interest, or maximum rates, as may from time to time be fixed by the State Treasurer, with the approval of the committee, and the maximum maturity of bonds shall not exceed 50 years from the date of the bonds, or from the date of each respective series. The maturity of each respective series shall be calculated from the date of such series.

13857. As used in this chapter, and for purposes of this chapter as used in the State General Obligation Bond Law, the following words shall have the following meanings:

(a) "Committee" means the Safe Drinking Water Finance Committee, created by Section 13858.

(b) "Department" means the Department of Water Resources.

(c) "Domestic water system" means a system for the provision to the public of piped water for human consumption, if such system has at least 15 service connections or regularly supplies water to at least 25 individuals. Such term includes any water supply, treatment, storage, and distribution facilities under the control of the operator of such system.

(d) "Fund" means the California Safe Drinking Water Fund.

(e) "Supplier" or "supplier of water" means any person, partnership, corporation, association or other entity or political subdivision of the state which owns or operates a domestic water system.

(f) "Federal assistance" means funds available or which may become available to a supplier either directly or through allocation by the state, from the federal government as grants or loans for the improvement of domestic water systems.

(g) "Treatment works" means any devices or systems used in the treatment of water supplies, including necessary lands, which render such supplies pure, wholesome, and potable for domestic purpose.

(h) "Project" means proposed facilities for the construction, improvement, or rehabilitation of the domestic water system, and may include water supply, treatment works, and all or part of a water distribution system, if such inclusions are necessary to carry out the purpose of this chapter.

13858. The Safe Drinking Water Finance Committee is hereby created. The committee shall consist of the Governor, the State Treasurer, the Director of Finance, the Director of Water Resources, and the Director of Health or their designated representatives. A majority of the committee may act for the committee.

13859. There is in the State Treasury the California Safe Drinking Water Fund which fund is hereby created.

13860. The committee is hereby empowered to create a debt or debts, liability or liabilities, of the State of California, in an aggregate amount of one hundred seventy-five million dollars ($175,000,000) in the manner provided in this chapter. Such debt or debts, liability or liabilities, shall be created for the purpose of providing the fund to be used for the objects and works specified in Section 13861.

13861. (a) The moneys in the fund are hereby continuously appropriated and shall be used for the purposes set forth in this section.

(b) The department is authorized to enter into contracts with suppliers having authority to construct, operate, and maintain domestic water systems, for loans to such suppliers to aid in the construction of projects which will enable the supplier to meet, at a

0121 2825 138

minimum, safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code.

(c) Any contract pursuant to this section may include such provisions as may be agreed upon by the parties thereto, and any such contract shall include, in substance, the following provisions:

(1) An estimate of the reasonable cost of the project.

(2) An agreement by the department to loan to the supplier, during the progress of construction or following completion of construction as may be agreed upon by the parties, an amount which equals the portion of construction costs found by the department to be eligible for a state loan.

(3) An agreement by the supplier to repay the state, (i) over a period not to exceed 50 years, (ii) the amount of the loan, (iii) the administrative fee as described in Section 13862, and (iv) interest on the principal, which is the amount of the loan plus the administrative fee.

(4) An agreement by the supplier, (i) to proceed expeditiously with, and complete, the project, (ii) to commence operation of the project upon completion thereof, and to properly operate and maintain the project in accordance with the applicable provisions of law, (iii) to apply for and make reasonable efforts to secure federal assistance for the project, (iv) to secure approval of the department and of the State Department of Health before applying for federal assistance in order to maximize and best utilize the amounts of such assistance available, and (v) to provide for payment of the supplier's share of the cost of the project, if any.

(d) By statute, the Legislature may authorize bond proceeds to be used for a grant program, with grants provided to suppliers that are political subdivisions of the state, if it is determined that such suppliers are otherwise unable to meet minimum safe drinking water standards established pursuant to Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code. The total amount of grants shall not exceed fifteen million dollars ($15,000,000), and no one supplier may receive more than four hundred thousand dollars ($400,000) in total.

13862. For the purpose of administering the provisions of this chapter, the total expenditures of the department and the State Department of Health may not exceed 3 percent of the bond proceeds deposited in the fund. The department shall establish a reasonable schedule of administrative fees, which fees shall be paid by the supplier pursuant to Section 13861, to reimburse the state for the costs of state administration of this chapter.

13863. As much of the moneys in the fund as may be necessary shall be used to reimburse the General Obligation Bond Expense Revolving Fund pursuant to Section 16724.5 of the Government Code.

13864. Loans may be made only for projects for domestic water systems. The department may make reasonable allowance for future

0121 28235 144

water-supply needs and may provide for additional capacity when excessive costs would be incurred by later enlargement. Such loans may be made for all or any part of the cost of constructing, improving, or rehabilitating any such system when, in the judgment of the State Department of Health, such improvement or rehabilitation is necessary to provide pure, wholesome, and potable water available in adequate quantity at sufficient pressure for health, cleanliness, and other domestic purposes. No loan to an individual supplier shall be more than one million five hundred thousand dollars ($1,500,000), unless the Legislature by an act raises the limit specified in this section.

13865. First priority for loans shall be given to suppliers with the most critical public health problems. Priority for loans shall also be given to suppliers which have a lesser capability to reasonably finance system improvements.

13866. Repayment of all or part of the principal, which is the loan plus the administrative fee, may be deferred during a development period not exceeding 10 years within the maximum 50-year repayment period, when in the department's judgment such development period is justified under the circumstances. Interest on the principal shall not be deferred. Repayment of principal which is deferred during a development period may, at the option of the supplier, be paid in annual installments during the remainder of the loan repayment period.

13867. The department shall require the payment of interest on each loan that is made pursuant to the provisions of this chapter at a rate equal to the average, as determined by the State Treasurer, of the net interest cost to the state on the sales of general obligation bonds pursuant to the provisions of this chapter. However, when the applicable average of the net interest costs to the state is not a multiple of one-tenth of 1 percent the interest rate shall be at the multiple of one-tenth of 1 percent next above the applicable average of the net interest costs.

13868. The department, after public notice and hearing and with the advice of the State Department of Health, shall adopt rules and regulations necessary to carry out the purposes of this chapter. Such regulations shall include, but not be limited to, criteria and procedures for establishing the eligibility of a supplier and a project for assistance commensurate with the need for the project and the ability of the supplier to reasonably finance the project from other sources. It shall be the duty of the department to adopt such rules and regulations as in its judgment will most effectively carry out the provisions of this chapter in the public interest, to the end that the people of California are most efficiently and most economically provided supplies of pure, wholesome, and potable domestic water. Such rules and regulations may provide for the denial of funds when the purposes of this chapter may most economically and efficiently be attained by means other than the construction of the proposed project.

13868.1 The State Department of Health shall notify suppliers that may be eligible for loans pursuant to this chapter of (a) the purposes of this chapter, and (b) the rules and regulations adopted by the department.

13868.3. The State Department of Health, after public notice and hearing and with the advice of the department, shall from time to time establish a priority list of suppliers to be considered for financing.

13868.5. Upon approval by the State Department of Health of project plans submitted by a supplier on the priority list and upon issuance to the supplier of a permit or amended permit as specified in Chapter 7 (commencing with Section 4010) of Part 1 of Division 5 of the Health and Safety Code, the department may enter into a contract with the supplier.

13868.7. No more than twenty million dollars ($20,000,000) of state loans for projects shall be authorized by the department in a single calendar quarter. No contract shall be approved by the department unless the department finds that the supplier has the capacity to repay the loan amounts specified in the contract.

The Public Utilities Commission shall furnish comments at the request of the department concerning the ability of suppliers subject to their jurisdiction to finance the project from other sources and the ability to repay the loan.

13869. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereon.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the state, as shall be required to pay the principal and interest on such bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collection of such revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

All money deposited in the fund which has been derived from premium on bonds sold shall be available for transfer to the General Fund as a credit to expenditures for bond interest.

13870. All money repaid to the state pursuant to any contract executed under the provisions of Section 13861 shall be deposited in the General Fund and when so deposited shall be applied as a reimbursement to the General Fund on account of principal and interest on bonds issued pursuant to this chapter which has been paid from the General Fund.

13871. There is hereby appropriated from the General Fund in the State Treasury for the purpose of this chapter such an amount as will equal the following:

(a) Such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the

provisions of this chapter, as such principal and interest become due and payable.

(b) Such sum as is necessary to carry out the provisions of Section 13872, which sum is appropriated without regard to fiscal years.

13872 For the purpose of carrying out the provisions of this chapter, the Director of Finance may by executive order authorize the withdrawal from the General Fund of an amount or amounts not to exceed the amount of the unsold bonds which the committee has by resolution authorized to be sold for the purpose of carrying out this chapter. Any amounts withdrawn shall be deposited in the fund and shall be disbursed by the department in accordance with this chapter. Any moneys made available under this section to the department shall be returned by the department to the General Fund from moneys received from the first sale of bonds sold for the purpose of carrying out this chapter subsequent to such withdrawal.

13873. Upon request of the department, supported by a statement of the proposed arrangements to be made pursuant to Section 13861 for the purposes therein stated, the committee shall determine whether or not it is necessary or desirable to issue any bonds authorized under this chapter in order to make such arrangements, and, if so, the amount of bonds then to be issued and sold Successive issues of bonds may be authorized and sold to make such arrangements progressively, and it shall not be necessary that all of the bonds herein authorized to be issued shall be sold at any one time.

13874. The committee may authorize the State Treasurer to sell all or any part of the bonds herein authorized at such time or times as may be fixed by the State Treasurer

13875. All proceeds from the sale of bonds, except those derived from premiums and accrued interest, shall be available for the purpose provided in Section 13861, but shall not be available for transfer to the General Fund to pay principal and interest on bonds. The money in the fund may be expended only as herein provided.

19351. The Legislature hereby declares that it is in the interest of

the state and the people thereof for the state to issue general obligation bonds and use the proceeds thereof to reconstruct, remodel or replace existing school buildings which are educationally inadequate or which do not meet present-day structural safety requirements, and to acquire new school sites and buildings for the purpose of making them available to local school districts for the pupils of the public school system, such system being a matter of general concern inasmuch as the education of the children of the state is an obligation and function of the state.

19352. The following terms wherever used or referred to in this chapter, shall have the following meanings, respectively, unless a different meaning appears from the context:

(a) "Board" means the State Allocation Board.

(b) "Cost of project" includes, but is not limited to, the cost of all real estate property rights, and easements acquired, and the cost of developing the site and streets and utilities immediately adjacent thereto, the cost of construction of buildings and the furnishing and equipping of them, all financing charges, interest prior to, during, and for a period of six months prior to construction, engineering, architectural and legal expenses, the cost of plans, specifications, surveys, estimate of costs and revenues, administrative expenses or such other expenses that are necessary or incident to the financing of the project.

19355. In addition to such other powers and duties as are granted the board by this chapter, other statute, or the Constitution, the board shall have power to:

this chapter, for determining the eligibility of school districts to lease projects under this chapter.

(b) Establish such procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt such rules and regulations for the administration of this chapter, requiring such procedure, forms, and information, as it may deem necessary.

19356. The board shall not enter into any leases with respect to an application for replacing inadequate school facilities unless it has first investigated and made a finding that it would not be economical or good practice to rehabilitate said facilities.

19357. The State School Building Finance Committee, created by Section 19510 and composed of the Governor, State Controller, State Treasurer, Director of Finance, and Director of Education, all of whom shall serve thereon without compensation and a majority of whom shall constitute a quorum, is continued in existence for the purpose of this chapter. Two Members of the Senate appointed by the Senate Committee on Rules, and two Members of the Assembly appointed by the Speaker, shall meet with and advise the committee to the extent that such advisory participation is not incompatible with their respective positions as Members of the Legislature.

For purposes of this chapter said Members of the Legislature shall constitute an interim investigation committee on the subject of this chapter and as such shall have the powers and duties imposed upon such committees by the Joint Rules of the Senate and the Assembly. The Director of General Services shall provide such assistance to the committee as it may require. The Attorney General shall be the legal adviser of the committee.

Article 2. Projects

19359. The board may construct any project, and may acquire all property necessary therefor, on such terms and conditions as it may deem advisable. When any part of the work is to be done or performed by any public body or the United States jointly or in conjunction with the board, the portion of the cost thereof to be

borne by the board may be turned over to the government of the United States or to any other public body, to be expended by it in the acquisition, construction or completion of the project.

19360 The board may use for the payment of the costs of acquisition, construction or completion of any project any funds made available to the board by the State of California or any other funds provided by the board from any source, to be expended for accomplishing the purposes set forth in this chapter, together with the proceeds of bonds issued and sold pursuant to Chapter 7 (commencing with Section 19301).

19361. The board has full charge of the acquisition, construction, completion, and control of all projects authorized by them and may proceed with such work forthwith.

19362. Title to all property acquired, constructed, or improved by the board and the revenues and income therefrom, is in the State of California. All such property, and the income therefrom are exempt from all taxation by the State of California or by any county, city and county, city, district, political subdivision or public corporation thereof

19363. The board shall require the school district to make all necessary repairs, renewals and replacements to insure that a project is at all times kept in good repair, working order and condition. All costs incurred for this purpose will be borne by the school district.

19364 The board shall require the school district to insure against public liability or property damage in connection with any project.

19365. The board, by the adoption of rules, may establish priorities for the construction and leasing of projects to those school districts the pupils of which will benefit most. The board may make exceptions from established priorities when it determines that to do so will benefit the pupils affected.

19366. Each school district which desires to lease a project for a grade level maintained by it, shall submit through its governing board an application therefor to the board in such form and number of copies as the board may prescribe. Immediately upon receipt of an application in the prescribed form accompanied by the required estimate of cost, a copy thereof shall be transmitted by the board to the Director of General Services.

Each copy of the application shall be accompanied by a statement of the estimated cost of the project certified by an architect or structural engineer, and by layout plans showing the entire construction project.

Before the board approves an application for a construction project, it shall establish cost standards for all new construction included therein. Such cost standards shall not exceed typical comparable new construction by school districts in the same area, or if there has been no new construction by school districts in the area, the cost standards shall not exceed the reasonable current cost of similar construction in the area. The board shall determine such typical current costs or such reasonable current costs. In applying

cost standards the board shall take into account the size and type of the construction proposed and may make such deviations as in its judgment are justified. When a standard has been set by the board to cover any individual apportionment, no project shall be approved by the board in excess of such standard, unless the board shall find that in view of a subsequent increase in building costs an adjustment is warranted. No contract shall be let for a construction project which has been approved by the board if the cost exceeds the construction cost standards fixed by the board under this section for such new construction.

19366.1. In approving applications pursuant to this chapter, the board shall encourage the design and construction of facilities which will conserve unreplenishable energy resources by consideration of alternate design and insulation concepts as well as unconventional energy sources. In so doing, the board may increase cost allowances to reflect the difference between conventional and unconventional concepts when the board is satisfied that the life cycle cost of the project is not expected to exceed the life cycle cost of a conventionally designated project.

19367. Before the board approves any project which includes the acquisition of furniture or equipment, it shall establish current cost and quality standards for furniture and equipment. Such standards shall not exceed the cost and quality of furniture and equipment for comparable facilities purchased by school districts in the same area. Such standards shall consist of furniture and equipment costs for each type of classroom or pupil station having different cost criteria. Such standards shall be reviewed quarterly by the board and adjustments made in accordance with actual current costs. When cost and quality standards have been adopted by the board, such standards shall not be exceeded unless a subsequent increase in actual current costs warrants an adjustment

Before the board approves a project for the replacement, reconstruction, or alteration of, or addition to, a school building, full consideration shall be given to all usable furniture and equipment existing in the applicant district. The board may approve all or a portion of the amount applied for.

19368. Notwithstanding other provisions of this chapter, in order to expedite a total school facility a school district may first apply for a project which includes only the advance purchase of the land and preparation of plans and specifications. The acquisition of the site and the plans preparation shall be based on the justification documents for the total school facility. The school district may apply for a subsequent project or projects to complete the total school facility.

19369. No project shall be approved for the reconstruction, modernization or replacement of any school building which was constructed or reconstructed less than 30 years prior to the date of approval of the project applied for under this chapter.

19370 No project shall be acquired or constructed unless the

applicant district has first held an election at which more than 50 percent of the qualified electors of the district voting thereat have approved the ballot proposition hereinafter referred to in this section. At such election, the electors may authorize an increase in the maximum tax rate by an amount which will produce revenues equal to the annual lease payments.

Before entering into a lease or agreement pursuant to this article, the governing board of the school district shall call, hold, and conduct an election in the manner provided in Section 20803.2, except that the ballot used in the election shall contain substantially the words:

"Shall the governing board of the district be authorized to enter into lease-purchase agreements with the State of California under and subject to the provisions of Chapter 7.5 (commencing with Section 19350) of Division 14 of the Education Code for the construction, reconstruction, alteration, or replacement of school facilities, which amount is subject to lease payments as provided in said chapter, the project costs of which shall not exceed _____ dollars ($_____) Yes _____ No _____."

19371. Nothing contained in this chapter shall be construed as changing the powers and duties of the Department of Education or the Department of General Services in respect to school sites and the construction of school buildings as contained in Chapters 1 and 2 of Division 11 of the Education Code (beginning with Section 15001).

19372 The board shall not authorize a contract for the erection of any new school building, or for any addition to, or alteration of, any existing building, for lease-purchase to any school district subject to the provisions of Section 15409, unless the applicant district has submitted plans therefor to the State Department of Education, and obtained the written approval of the plans by that department.

19372.5. The board shall not authorize a contract for the erection of any new school, or for the addition to, or alteration of, any existing building, for lease purchase to any school district unless the applicant district has submitted plans therefor to the Department of General Services and obtained the written approval of such department pursuant to the provisions of Article 4 (commencing with Section 15451) of Chapter 2 of Division 11.

19373. Annual lease payments shall be established by the board in such amount as necessary to amortize the cost of the project over a period of not more than 30 years, including interest. The Director of General Services shall notify the State Controller, the governing board of the district, and the county auditor and county superintendent of schools of the county affected of the amounts due annually from each district under a lease entered into pursuant to this chapter. The State Controller shall, during the next fiscal year following notification by the Director of General Services, deduct the total amount of the annual payment due from each district in equal amounts from each of the February, March, April, and May installments of the apportionments made to such district from the State School Fund under Sections 11256, 11257, and 17251, Sections

17401 to 17417, inclusive, and Sections 17601 to 18460, inclusive, whichever are in effect; and, on order of the State Controller, the amount so deducted shall be transferred to the State School Building Lease-Purchase Fund. All money so transferred under the provisions of this section shall be available only for purposes of making annual payments of interest and principal on the bonds issued by the state for the purpose of constructing facilities under this chapter.

The board of supervisors of the county, the county superintendent of which has jurisdiction over any district which under this section will have moneys withheld by the State Controller from the apportionments to be made to it from the State School Fund during any fiscal year, shall annually at the time the board of supervisors makes the levy of taxes for county purposes, levy a tax upon the property in the district at a rate sufficient to raise for the district the amount of money to be withheld by the State Controller during the fiscal year in which the tax is levied. Such tax, when collected, shall be paid into the county treasury of the county, the county superintendent of schools of which has jurisdiction over the district for which the tax was levied, to the credit of the general fund of the district.

19374. Whenever, subsequent to the date on which a project has been approved under the provisions of this chapter, the boundaries of the applicant district are changed by any action, the territory comprising the boundaries of the applicant district at the time the project was approved shall remain obligated for payments required under a lease entered into in connection with the approved project.

19375. For the purposes of Sections 21702 and 21703, 50 percent of any remaining payments which would become due from a school district under any lease entered into by the district pursuant to this chapter, if such lease was to run its full term, shall be considered outstanding bonded indebtedness.

No district shall enter into any lease pursuant to this chapter if at the time 50 percent of any remaining rental payments thereunder, which would become due from the district pursuant to this chapter, or pursuant to Article 6 (commencing with Section 15551) of Chapter 2 of Division 11, including the lease to be entered into, if such leases were to run their full term, plus the total amount of district bonded indebtedness outstanding at the time, shall exceed 7 5 percent in the case of an elementary school district or high school district, or 12.5 percent in the case of a unified school district, of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located. For the purpose of this section, the taxable property of the district shall be determined upon the basis that the district's assessed value has not been reduced by the exemption of the assessed value of business inventories in the district or reduced by the homeowners' property tax exemption.

19376. The board shall authorize the applicant school district to act as its agent in the performance of acts specifically approved by

the board and all acts required pursuant to Article 4 (commencing with Section 15451) of Chapter 2 of Division 11. Such authorizations shall include, but are not limited to, the selection of school sites, the securing of appraisals, the contracting for architectural services, the advertisement for construction bids and the entering into of contracts therefor and the purchase of furniture and equipment.

19377. In expending funds for any project under this chapter, a school district acts as an agent of the state and all sites purchased and improved, all equipment purchased, and all buildings constructed, altered or added to through the expenditure of funds apportioned under this chapter, are declared to be, and are, the property of the state.

The Director of General Services shall file with the county recorder of the county in which any site purchased or improved through the expenditure of funds under this chapter is located a certificate, properly acknowledged, indicating the state's interest in real property of the district by virtue of this section, without the necessity of particularizing such real property. The recorder shall record and index the certificate in the same manner as abstracts of judgments and the certificate shall constitute constructive notice of the state's interest in the particular real property affected. Such certificate shall, as to any party thereafter acquiring real property or any interest therein in the county from said school district, have the same force, effect and priority as if it had been a judgment lien imposed upon real property which was not exempt from execution. Such effect shall commence upon recordation and shall continue until the certificate is discharged or released as provided herein

Upon request, the Director of General Services shall (1) issue a release of the state's interest in any real property or a portion thereof that the district has been authorized by the board to dispose of under Section 19385, provided that delivery of such release may be subject to such conditions as may be prescribed by the board to protect the state's interest; (2) issue a disclaimer of the state's interest in any real property or a portion thereof of the district, the disposition of which the board is not required to consent to under the terms of Section 19385, provided that the delivery of such disclaimer may be subject to such conditions as the board deems appropriate to protect the interest of the state, including conditions relating to the amount of consideration to be received from such disposition where the board asserts an interest in the proceeds of such disposition under other provisions of this chapter. Such release or disclaimer shall conclusively protect any third party relying upon the same and shall be acknowledged to permit recordation by the county recorder.

Upon payment by the district of all amounts required to be paid by it or on its behalf to the state under this chapter, (1) the Director of General Services shall file with the county recorder a release of any such certificate, which release shall be recorded and indexed in the same index as the aforesaid certificate; and (2) the title to personal property purchased by such school district with funds

apportioned under this chapter shall revert thereto without further action by the state.

19377.7. The applicant district, acting as agent for the state, shall comply with all laws pertaining to the construction, reconstruction, or alteration of, or addition to school buildings.

19378. The board shall fix rents, charges, and fees for all projects acquired, constructed or completed under the terms of this chapter for the use thereof by any school district utilizing the facilities thereof. The board is authorized to change such rents, charges, and fees from time to time as may be needed to discharge any obligations or costs incurred or incurable pursuant to this chapter. To the extent and in the manner provided in any indenture, all rents, charges, and fees shall at all times be fixed to yield annual revenue equal to all redemption payments and interest charges and reserve fund requirements on revenue bonds at any time issued and outstanding hereunder, as the same become due.

19379. Rent, charges, and fees collected in error may be refunded by the board in accordance with regulations prescribed by the board.

19380. A county school lease-purchase fund is hereby created in the county treasury within each county for each school district project in such county.

19381. The board may from time to time authorize the State Controller to transfer such funds as the board may deem necessary from the State School Building Lease-Purchase Fund established for a given project to the corresponding county school lease-purchase fund in the county treasury.

19382. Funds may only be expended from the county school lease-purchase fund by the applicant school district upon specific authorization from the board.

19383. Interest earned on funds in the county school lease-purchase fund shall not be deposited in such fund but shall be retained by the district and used only for the purpose of reducing the amount required from district taxes necessary to offset the annual lease payments withheld by the State Controller pursuant to Section 19373

19384. The board shall require school districts to insure at their own expense for the benefit of the state, all sites, equipment and buildings which are, under Section 19377, the property of the state, against such risks and in such amounts as the board may deem necessary to protect the interests of the state. No project funds shall be used to pay the premiums on such insurance. All payments resulting from claims made against said insurance shall be made payable to and retained by the board. Funds so received shall be utilized by the board for repair or replacement of the facilities for which claim was made. In no event may the amounts expended from such funds for such repair or replacement exceed the payments received.

19385. Any property, real or personal replaced by a project approved pursuant to this chapter shall be disposed of in a manner

satisfactory to the board. The net proceeds received from any such disposition shall be expended, subject to approval by the board, either (1) for capital outlay purposes which would be eligible for a future project pursuant to this chapter; or (2) for the demolition of any facilities replaced by a project approved pursuant to this chapter, or pursuant to Chapter 10 (commencing with Section 19551), Division 14 of this code; or (3) for any other purpose approved by the board.

Article 3. Allowances

19391. No project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of estimated average daily attendance in excess of that computed in accordance with Sections 19394, 19395, 19396, and 19397.

As used in Sections 19394, 19395, 19396, and 19397, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 19396 and 19397, "attendance center" means a school maintained or to be maintained at a given location within a district

No estimate of average daily attendance made by an applicant district for the purpose of justifying an application for an elementary school project shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, or in the case of an application for a junior high school or high school project, for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter, pupils attending grades 7 and 8 in an elementary district, but residing in a high school district which maintains one or more junior high schools, shall not be considered in determining or estimating the average daily attendance of the elementary district, unless the elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1975. When such pupils are so considered in determining or estimating the average daily attendance of the elementary district, such pupils shall not be considered in determining or estimating average daily attendance of the high school district for junior high school purposes.

19392. Notwithstanding Section 19391, whenever the area of adequate school construction existing in any attendance area is such

as to prevent another attendance area from receiving the maximum area of school construction for each unit of attendance as specified for the district as a whole, the allowable building area may be computed separately for each attendance area. For the purposes of this section an "attendance area" is defined as the geographical area serving an existing or proposed high school and those junior high schools and elementary schools included therein.

19393. The board, by the adoption of rules, shall provide for the manner of determining the area of adequate school construction existing in an applicant school district at the time of application. Such rules shall define and provide for the method of determining building areas that are to be included in whole or in part, or to be excluded from the area of existing adequate school construction. Any building to which Article 4 (commencing with Section 15451) of Chapter 2 of Division 11 would apply shall not be considered adequate school construction for the purpose of determining the maximum total building area per attendance unit

The board may make exceptions to the provisions of this section, or to the rules adopted pursuant thereto, if it determines that such will be for the benefit of pupils affected.

19394 (a) There shall be allowed to each district with attendance units of 300 or more in kindergarten and grades 1 to 6, inclusive, a maximum area of 55 square feet for each attendance unit of the district in kindergarten and grades 1 to 6, inclusive.

(b) The maximum total building area per attendance unit allowed to applicant districts with attendance units of less than 300 in kindergarten and grades 1 to 6, inclusive, for such attendance units shall be determined by the board, and shall be building area to provide comparable facilities to those provided by subdivision (a) of this section, and shall be the least building area required to house adequately the estimated average daily attendance and the normal instructional and other services.

19395. There shall be allowed to each district a maximum area of 75 square feet for each attendance unit of the district in grades 7 and 8.

19396. The maximum area allowed to a district for attendance units in junior high schools composed of grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, shall be determined pursuant to this section, rather than Sections 19395 and 19397. This section shall not apply to junior high schools composed of grades 7 and 8 only.

The maximum area allowed for attendance units in junior high schools shall be determined by computing, in accordance with this section, the number of square feet for the attendance units at each junior high school attendance center of the district, and totaling the number of square feet so determined for all attendance units in all such junior high school attendance centers of the district. There shall be allowed a maximum area of 75 square feet for each attendance unit of the junior high school attendance center in grades 7 and 8. For each attendance unit in grade 9, or grades 9 and 10, as the case

may be, at each junior high school attendance center, there shall be allowed a maximum area equal to the number of square feet which would be allowed under Section 19397 for each attendance unit of an attendance center having a total number of attendance units equal to the total number of attendance units in grades 7 to 9, inclusive, or 7 to 10, inclusive, as the case may be, at such junior high school attendance center. The number of square feet which would be allowed under Section 19397 for each attendance unit of an attendance center shall be computed by determining in accordance with that section the total number of square feet which would be allowed at an attendance center and dividing such total number of square feet by the total number of attendance units at such attendance center.

19397. There shall be allowed to each district a maximum area for the attendance units of the district in grades 9 to 12, inclusive, determined by computing, for the attendance units in grades 9 to 12, inclusive, at each attendance center of the district, a number of square feet for the number of attendance units in such grades at each attendance center, in accordance with the following table, and totaling the number of square feet so determined for all attendance units in such grades of all attendance centers of the district:

Attendance units of attendance center	Maximum number of square feet of building area
1– 50	18,000
51– 100	18,000 plus 162 for each attendance unit over 50
101– 200	26,100 plus 99 for each attendance unit over 100
201– 300	36,000 plus 60 for each attendance unit over 200
301– 600	42,000 plus 54 for each attendance unit over 300
601–1,800	58,200 plus 80 for each attendance unit over 600
Over 1,800	154,200 plus 85 for each attendance unit over 1,800

19397.5. The allowable new building area for the purpose of providing facilities for mentally retarded and physically handicapped pupils shall be computed in accordance with regulations adopted by the board.

19398. Whenever an existing building is to be reconstructed, rather than replaced, under an application pursuant to this chapter, there shall be allowed, for those attendance units to be housed in such reconstructed building, an additional five square feet of building area beyond the amounts set forth in Section 19394, 19395, 19396, or 19397.

19399. Whenever at least 10 percent of the allowable new

building construction contained in an application is to be utilized for relocatable structures, an additional three square feet of building area shall be allowed, for those attendance units to be housed in new buildings under such application, beyond the amounts set forth in Section 19394, 19395, 19396, or 19397.

SEC. 2. Section 19615.6 is added to the Education Code, to read:

19615.6. In any instance where a school district is subject to annual lease payments pursuant to Chapter 7.5 (commencing with Section 19350) and is also subject to an annual repayment pursuant to Chapter 8 (commencing with Section 19401), or Chapter 10 (commencing with Section 19551) of this division, the annual repayment under said Chapter 8 or said Chapter 10 is subject to deferment as provided for in Section 19615.7.

SEC. 3. Section 19615.7 is added to the Education Code, to read:

19615.7. In an instance in which a school district is subject to annual lease payments pursuant to Chapter 7.5 (commencing with Section 19350) of this division, the basic tax amount referred to in Sections 19615 and 19615.5 shall be increased by the amount of such annual lease payments. In such cases the "45-cent tax amount" or the "40-cent tax amount" referred to in such sections shall be a "60-cent tax amount" for each grade level operated by the applicant district.

SEC. 4. This act shall become operative only if a bond act to finance the program established by this act is approved by the voters of the state at the primary election held in June, 1976, or the general election held in November, 1976, in which case it shall become operative at the same time as such bond act.

CHAPTER 1010

An act to add Section 739 to the Public Utilities Code, relating to public utilities.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) Light and heat are basic human rights, and must be made available to all the people at low cost for basic minimum quantities.

(b) Present rate structures for gas and electricity serve to penalize the individual user of relatively small quantities, and at the same time encourage wastefulness by large users.

(c) In order to encourage conservation of scarce energy resources and to provide a basic necessary amount of gas and electricity for residential heating and lighting at a cost which is fair to small users, the Legislature has enacted this act.

SEC. 2. This act may be cited as the Miller-Warren Energy Lifeline Act.

SEC. 3. Section 739 is added to the Public Utilities Code, to read:

739. (a) The commission shall designate a lifeline volume of gas and a lifeline quantity of electricity which is necessary to supply the minimum energy needs of the average residential user for the following end uses: space and water heating, lighting, cooking and food refrigerating, provided that in estimating such volumes and quantities the commission shall take into account differentials in energy needs between utility customers whose residential energy needs are supplied by electricity and gas. The commission shall also take into account differentials in energy needs caused by geographic differences by differences in severity of climate, and by season.

(b) The commission shall require that every electrical and gas corporation file a schedule of rates and charges providing a lifeline rate. The lifeline rate shall be not greater than the rates in effect on January 1, 1976. The commission shall authorize no increase in the lifeline rate until the average system rate in cents per kilowatt-hour or cents per therm increased 25% or more over the January 1, 1976, level

(c) Nothing shall preclude the commission from reducing any rate established pursuant to subdivision (a) either specifically or pursuant to any general restructuring of all electrical or gas rates, charges, and classifications.

(d) As used in this section, the term "residential" means domestic human needs end use and excludes industrial, commercial, and every other category of end use other than wholesale.

(e) Wholesale electrical or gas purchases and the rates charged therefor shall be exempted from the provisions of this section.

SEC. 4. The Public Utilities Commission shall report to the Legislature, in January, 1977, on the effect of this act upon rates, and the cost to users and utilities.

CHAPTER 1011

An act to amend Section 21230 of the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 21230 of the Government Code is amended to read:

21230. Notwithstanding Section 21224, the adjustments in allowances for local members provided by this article for time

commencing on and after the annual adjustment date next following January 1, 1975 shall be subject to the following limitations:

(a) No adjustment shall be made for any year for which the adjustment is less than 1 percent of the base allowance.

(b) No monthly allowance in any year may exceed an amount equal to the base allowance increased by 5 percent per year compounded for the number of years intervening between the end of the base year and the beginning of the calendar year in which the adjustment is made.

(c) No monthly allowance in any year shall be less than the base allowance.

(d) No adjustment shall be made in any year in which the actuarial interest rate is less than 5.25 percent.

Provided, however, that adjusted allowances in years following the year in which the contract of an agency subject to this section is terminated may not exceed the adjusted allowance in the year of contract termination or the amount determined in accordance with subdivision (b) of Section 21224, whichever is the greater.

This section shall not apply to any contracting agency, unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or, in the case of contracts made after January 1, 1975, by express provision in such contract making the contracting agency subject to the provisions of this section.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are, as yet, no agencies which have elected to be subject to Chapter 1390 of the Statutes of 1974. Therefore, there are no duties, obligations or responsibilities imposed on local governments by this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Section 21230 was added to the Government Code by Chapter 1390 of the Statutes of 1974, became effective January 1, 1975, and permits contracting agencies of the Public Employees' Retirement System to provide greater cost-of-living adjustments than now permitted. However, another limit on such adjustment will prevent a full realization of this improvement. This bill would remove that limit. Unless the limit is removed before agencies elect to be subject to the provisions of Chapter 1390 its benefits will not be fully effective for their employees. Therefore, this act must take effect immediately.

CHAPTER 1012

An act to amend Sections 16730, 23550, 23551, 23553, 24675, 24676, 24678, 25546.51, and 25546.53 of, and to add Section 16730.1 to, the Education Code, relating to campus child development centers, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. The purpose of this act is to establish the existing campus child development center program as a state-local child development center program to enable low-income parents to further either their educational potential, their employment potential, or both.

This act recognizes that the lack of available campus child development centers often results in denying single parents and low-income parents access to postsecondary education. Providing child care as a supportive educational service to the student parent will aid in the development of an effective and comprehensive affirmative action plan in the State of California, insofar as it relates to postsecondary education.

It is also the intent of this act to insure the continuing availability of campus child development centers to children under two years of age, in recognition of the fact that a substantial number of the children of students are under two.

It is also the intent of this act that low-income part-time student parents be eligible for child care services on a part-time basis, in relation to their academic and employment schedule.

It is the intent of this act that operating agencies currently under contract with the State Department of Education for the operation of campus child development centers be required to maintain their local effort.

It is also the intent of the Legislature that operating agencies of campus child development centers which may subsequently be under contract with the State Department of Education be required to maintain their local effort, exclusive of capital outlay and parent-user fees and that portion of funding from student body organization funds greater than 25 percent of the total annual expenditures of the center; provided, however, that any portion of the current funding of such centers may be used for the 25-percent local effort share required under Section 16730 of the Education Code.

SEC. 2. Section 16730 of the Education Code is amended to read:

16730. Notwithstanding any provision of law to the contrary, the Regents of the University of California, the Trustees of the California

State University and Colleges, the governing boards of community college districts, and the governing bodies of any private nonprofit institution of postsecondary education may establish and maintain child development centers on or near their respective campuses.

The Department of Education may accept funds from the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, any other private nonprofit postsecondary institutions, student fees, parent fees, and any private funds or resources authorized by a public or private nonprofit agency as the 25-percent local share to obtain the 75-percent state matching funds. The governing board of any postsecondary education institution shall establish in its treasury a fund to be known as the "child development fund" into which shall be paid all funds received by the postsecondary institution for, or from the operation of, child development services under this division. The costs incurred in the maintenance and operation of child development services shall be paid as required pursuant to Section 16749.

The Superintendent of Public Instruction shall adopt rules and regulations to facilitate the funding and reimbursement procedures required by this division.

The Superintendent of Public Instruction, with approval by the State Board of Education, shall establish rules and regulations governing programs operated pursuant to this section which shall insure that subsidized day care provided to student families shall relate to the academic load of the child's parents. The definition of full- and part-time student shall be determined as the segment of postsecondary education defines full- and part-time student for academic purposes.

SEC. 3. Section 16730.1 is added to the Education Code, to read:

16730.1. A student family, for the purposes of this division, shall be defined as a family with a parent enrolled in an approved academic or vocational program, including one engaged in an educational work-in-training program, leading to a degree which will either further that person's educational or employment potential, or both.

[Approved by Governor September 23, 1975 Filed with Secretary of State September 23, 1975]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund the sum of one million nine hundred six thousand seven hundred sixty-three dollars ($1,906,763) to be allocated according to the following schedule:

(a) To the Regents of the University of California for education opportunity programs and other outreach and support programs designed to increase the number of disadvantaged students in the university and assist in their retention $1,100,000

provided, that no expenditures shall be made from this appropriation unless an equal contribution from the university is made from funds not appropriated in this act; provided further, that such funds may be expended until June 30, 1977; and provided further, that such contribution made in the 1975–76 fiscal year shall be in addition to its level of expenditure for this program in the 1974–75 fiscal year from funds not appropriated in the Budget Act of 1974. In omitting similar maintenance of effort language for fiscal year 1976–77, it is not the intent of the Legislature that the university discontinue its efforts to maintain these programs at at least the 1974–75 level, but rather represents an acknowledgment that, insofar as future student enrollment and economic circumstances are uncertain, rigid formulas cannot be strictly imposed this far in advance.

(b) To the Board of Governors of the California Community Colleges, for extended opportunity programs conducted pursuant to Article 4 (commencing with Section 25524) of Chapter 3 of Division 18.5 of the Education Code, in augmentation of the appropriation made for that purpose by the Budget Act of 1975 ..... $806,763

provided, that the board of governors shall allocate funds on a priority basis and only to local programs which demonstrate their effectiveness and which have the most pressing need for financial aid for students.

SEC. 2. It is the intent of the Legislature, by passage of this act, to provide funds to better enable the university to increase the number of disadvantaged students in its programs and, in so doing, to eliminate the underrepresentation of such students in university programs as compared with the pool of graduating high school seniors.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the funds appropriated by this act to be available for the entire 1975–76 fiscal year, and so permit the orderly operation of the opportunity programs, it is necessary that this act take effect immediately.

CHAPTER 1018

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act, which is intended to make money available for a specified purpose for the 1975–76 fiscal year, modifies an item contained in the Budget Act of 1975, which went into effect on July 1, 1975. In order that this act may make such money available at the earliest possible time and have the intended effect on the Budget Act of 1975, it is necessary that this act take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 21116 of the Education Code is amended to read:

21116. With the approval of the Superintendent of Public Instruction, the governing board of a unified school district, or district with over 10,000 average daily attendance may cause to be drawn all warrants on the county treasurer against all the funds, except debt service, of the district in the county treasury in the payment of the expenses of the district. The warrants shall be issued by a person designated as the district auditor or district disbursing officer for the school district on the county treasurer in favor of the persons entitled thereto in payment of all claims chargeable against the district which have been legally examined, allowed, and ordered paid by the governing board. The district auditor shall issue warrants on the county treasurer for all debts and demands against the district when the amounts are fixed by law. The form of the warrant shall be as prescribed by the governing board and approved by the county auditor or county treasurer having jurisdiction.

Notwithstanding Section 21102 of the Education Code, the cost of printing the warrants shall be borne by the district.

No county officer shall be responsible for producing reports, statements, and other data relating to or based on these payments of the expenses of the districts. Those districts issuing warrants as provided by this section shall provide the county superintendent of schools, in the form prescribed by him, with the data necessary to make retirement reports and other reports required of him by law. All warrants, vouchers, and supporting documents shall be kept by the school districts that draw their own warrants.

Notwithstanding Section 27005 of the Government Code, or any other section requiring orders for warrants or warrants to be signed by the county superintendent of schools or the county auditor, or both, the county treasurer shall pay the warrant, if money is available.

Notwithstanding Section 17151 of the Education Code, except for assessing and tax collecting, the county auditor and the county treasurer may charge those districts that draw their own warrants for the cost of all fiscal services.

The person authorized by the governing board of the district to issue warrants pursuant to this section shall execute an official bond

in an amount fixed by the governing board conditioned upon the faithful performance of his duties under this section. A county superintendent of schools or a county auditor shall not be liable under the terms of their bonds or otherwise for any warrant issued pursuant to this section. It is not intended that this provision shall be applied so as to impair the obligation of any contract in the bond of such officer in effect on the effective date of this section.

A listing of the warrants issued under this section by each school district shall be forwarded to the county auditor having jurisdiction, upon his request, and to the county superintendent of schools having jurisdiction over the district on the same day warrants are issued. The listing, which may be magnetic tape, punched cards, or in other form, shall report, among other things, the warrant number, date of the warrant, amount of the warrant, the name of the payee, and the fund on which drawn.

The certified public accountant or public accountant shall report his findings and recommendations to the county superintendent, county auditor, and to the applicant district. The county superintendent shall forward the district's application, together with his recommendations and the recommendations of the county auditor and the report of survey, to the Superintendent of Public Instruction who shall approve or disapprove the application. The Superintendent of Public Instruction shall approve the application only if he finds the accounting controls of the district are adequate. If the Superintendent of Public Instruction determines that such controls are inadequate, he shall disapprove the application. The county superintendent of schools shall be reimbursed from the district funds for all costs incident to the accounting controls survey made pursuant to the district's application.

When approved by the Superintendent of Public Instruction, the issuance of warrants pursuant to this section shall be effective at the beginning of the fiscal year, provided that the approval had been made prior to the preceding first day of January. If disapproved, the Superintendent of Public Instruction and the county superintendent of schools shall state the specific steps which must be taken by the school district in order to receive approval. SEC. 3. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Colusa County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters'

salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there by any appropriation made by this act because duties, obligations, or responsibilities imposed on local government entities or school districts by this act are such that related costs are incurred as a part of their normal operating procedures.

[Became law without Governor's signature September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1 Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), based on a period of 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility for such month provided by Section 17208. The 60-month period shall begin, as to any pollution control facility, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the facility is completed or acquired, or with the taxable year succeeding the taxable year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect

to such pollution control facility.

(d) For purposes of this section—

(1) The term "certified pollution control facility" means a new identifiable treatment facility which is used, in connection with a plant or other property in operation before January 1, 1971, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, or storing of pollutants, contaminants, wastes, or heat and which the State Department of Health has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination.

(2) For purposes of paragraph (1), the term "new identifiable treatment facility" includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility, and which—

(A) Is property—

(i) The construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1970, or

(ii) Acquired after December 31, 1970, if the original use of the property commences with the taxpayer and commences after such date, and

(B) Is placed in service by the taxpayer before January 1, 1976.

In applying this section in the case of property described in clause (i) of subparagraph (A), there shall be taken into account only that portion of the basis which is properly attributable to construction, reconstruction, or erection after December 31, 1970.

(e) The State Department of Health shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of a certified pollution control facility which may be amortized under this section.

(2) (A) If a certified pollution control facility has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility.

(B) The amortizable basis of a certified pollution control facility with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(i) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

SEC. 2. Section 24372 of the Revenue and Taxation Code is amended to read:

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), based on a period of 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility for such month provided by Section 24349. The 60-month period shall begin, as to any pollution control facility, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the facility is completed or acquired, or with the income year succeeding the income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term "certified pollution control facility" means a new identifiable treatment facility which is used, in connection with a plant or other property in operation before January 1, 1971, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, or storing of pollutants, contaminants, wastes, or heat and which the State Department of Health has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination.

(2) For purposes of paragraph (1), the term "new identifiable treatment facility" includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 24349 which is identifiable as a treatment facility, and which—

(A) Is property—

(i) The construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1970, or

(ii) Acquired after December 31, 1970, if the original use of the property commences with the taxpayer and commences after such date, and

(B) Is placed in service by the taxpayer before January 1, 1976.

In applying this section in the case of property described in clause (i) of subparagraph (A), there shall be taken into account only that portion of the basis which is properly attributable to construction, reconstruction, or erection after December 31, 1970.

(e) The State Department of Health shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of a certified pollution control facility which may be amortized under this section.

(2) (A) If a certified pollution control facility has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility.

(B) The amortizable basis of a certified pollution control facility with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 24349 shall,

despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the operative effect of the provisions of this act shall be as follows:

(c) If, in any year, there is insufficient money in the fund to make the payments specified in subdivisions (a) and (b), the department shall, subject to the provisions of Section 21684, pay to each such public entity an amount which is equal to the total amount of money in the fund multiplied by a percentage equivalent to the proportion which the airport or airports of the public entity for which payment is required to be made pursuant to subdivisions (a) and (b) bear to the total number of airports for which payment is required to be made pursuant to subdivisions (a) and (b).

(d) No moneys paid under this section shall be expended for operation and maintenance, except that a city, county, airport district, or the University of California may use such moneys for maintenance of any capital improvement which was or could have been constructed, in whole or in part, with moneys paid under this section.

(1) Notwithstanding the provisions of this subdivision inasmuch as they require matching funds, the department shall pay a sum of five thousand dollars ($5,000) annually to a county with a population of under 1,000, as determined by the last federal decennial census, for the purpose of constructing and maintaining an airport.

(2) Notwithstanding the provisions of this subdivision inasmuch as they require matching funds, the department shall pay the sum of five thousand dollars ($5,000) annually to each city, county, airport district, or the University of California owning and operating an airport or airports in accordance with subdivision (a) of Section 21682.

The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

(c) Payments made by the department pursuant to Section 21682 and funds provided by public entities to match these payments may be accrued for a period of not more than three years. Extension of time for accrual of these funds for major projects must be obtained from the department.

(4) A statement that the lienholder has no information or belief that there is a valid defense to the claim which gives rise to the lien.

(c) Upon receipt of an application which is made pursuant to subdivision (a), the department shall send a notice and a copy of the application and a preaddressed return envelope by certified mail to the registered and legal owners at their addresses of record with the department and any other persons whose names and addresses are listed in the application. The notice shall include all of the following:

(1) A statement that an application has been made with the department for the issuance of an authorization to conduct a lien sale.

(2) A statement that (i) the person has a legal right to a hearing in court, (ii) if a hearing in court is desired, the enclosed declaration under penalty of perjury must be signed and returned, and (iii) if the declaration is signed and returned, the lienholder will be allowed to sell the vehicle only if he obtains a judgment in court or obtains a release from the registered and legal owners.

(3) A statement that (i) if the declaration is signed and returned, the lienholder must file an action in court, (ii) the registered and legal owners will be notified of the lawsuit, and (iii) the registered and legal owners may then appear to contest the claim of the lienholder.

(4) A statement that the department will issue the authorization to conduct a lien sale unless the person signs and returns, within 20 days after the date on which the notice was mailed, the enclosed declaration stating that the person desires to contest the claim which gives rise to the lien.

(5) A statement that the person shall be liable for costs if the lienholder brings an action and a judgment is entered in favor of the lienholder on the claim which gives rise to the lien.

(6) A declaration which may be executed by the person under penalty of perjury stating that he desires to contest the claim which gives rise to the lien and an address at which the person may be served in any action in court arising out of the lien.

(d) If the department receives a declaration described in paragraph (3) of subdivision (c) which is mailed within 20 days after the date upon which the notice described in subdivision (c) is mailed, it shall notify the lienholder that he may not conduct a lien sale unless (1) a judgment has been entered in his favor on the claim which gives rise to the lien or (2) the registered and legal owners of the vehicle have signed, after the lien has arisen, a release of any interest in the vehicle in the form prescribed by Section 3071.5 In any other case, the department shall issue an authorization to

conduct a lien sale. Any lien under this chapter or Section 3051 which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished unless the lienholder files an action in court within 20 days after the lienholder receives a notice from the department under this subdivision.

(e) Upon the filing of an application, the department shall charge a fee which shall be established by the department in an amount equal to the actual costs of the department incurred in processing the application. The fee shall be recoverable as a cost by the lienholder if a lien sale is conducted.

(f) Any lien under this chapter or Section 3051 which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished and no lien sale under Section 3072 shall be conducted unless (1) the lienholder applies for an authorization to conduct a lien sale under subdivision (b) within 10 days after the lien has arisen or (2) if no application is made under subdivision (b), an action in court is filed within 30 days after the lien has arisen. For the purposes of this subdivision, a lien shall be deemed to arise at the time a written statement of charges for completed work or services is presented to the registered owner.

The language used in the applications, notices, and declarations should be simple and nontechnical. A lien sale of the mobilehome may be conducted only if a judgment has been entered in favor of the lienholder on the claim which gives rise to the lien or the registered and legal owners have signed, after the lien has arisen, a release of any interest in the mobilehome in the form prescribed by Section 3071.5.

SEC. 2. Section 3071.3 is added to the Civil Code, to read:

3071.3. (a) A person who holds a lien on a vehicle under Section 3051 or 3068 and who declares under penalty of perjury that the value of the vehicle does not exceed two hundred dollars ($200), and who is not paid within 10 days after the amount becomes due, may proceed to sell the property, or so much thereof as may be necessary to satisfy the lien and costs of sale pursuant to Section 3073, if (1) the registered and legal owners, and any other person having an interest in the vehicle do not sign and return to the Department of Motor Vehicles a declaration of opposition stating a desire to contest the claim, or (2) a judgment has been entered in favor of the lienholder on the claim which gives rise to the lien, or (3) the registered and legal owners of the vehicle have signed, after the lien has arisen, a release of any interest in the vehicle in the form prescribed by

Section 3071.5.

(b) A lienholder who intends to conduct a sale under Section 3073 shall send by certified mail, return receipt requested, a certificate of lien as specified in subdivision (c) and a notice that a lien sale may be conducted under Section 3073 to (1) the registered and legal owners at their addresses of record with the Department of Motor Vehicles and (2) any other person identified under paragraph (2) of subdivision (c) of this section. This form shall include all of the following:

(1) A statement that (i) the person has a legal right to a hearing in court, and (ii) if a hearing in court is desired, the enclosed declaration under penalty of perjury must be signed and returned, and (iii) if the declaration is signed and returned, the lienholder will be allowed to sell the vehicle only if he obtains a judgment in court or obtains a release from the registered and legal owners.

(2) A statement that (i) if the declaration is signed and returned to the department, the lienholder must file an action in court, (ii) the person who contests the validity of the lien will be notified of the lawsuit, and (iii) such person may then appear to contest the claim of the lienholder.

(3) A statement that the lienholder will conduct a lien sale, as indicated in the notice of sale under Section 3073, unless the person signs and returns, within 20 days after the date on which the certificate and notice were mailed, the enclosed declaration stating that the person desires to contest the claim which gives rise to the lien.

(4) A statement that the person shall be liable for costs if the lienholder brings an action and a judgment is entered in favor of the lienholder on the claim which gives rise to the lien.

If the lienholder is not notified by the department within 36 days after mailing of the notice under subdivision (b) the lienholder may conduct a lien sale pursuant to Section 3073 and in compliance with the notice sent under subdivision (b). Any lien under this chapter or Section 3051 which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished unless the lienholder files an action in court within 20 days after the lienholder receives a notice from the department under this subdivision.

(f) The form of the notices, certificates, and declarations referred to in this section shall be prescribed by the department. The language used in the notices and declarations should be simple and nontechnical. The certificates, notices of lien sale under Section 3073 and declarations of opposition shall be printed in both English and Spanish.

(g) Any lien under this chapter or Section 3051 which arises because work or services have been performed on a vehicle with the consent of the registered owner shall be extinguished and no lien sale under Section 3072 shall be conducted unless (1) the lienholder sends notice under this section within 10 days after the lien has arisen or (2) if this section is not used, an action in court is filed within 30 days after the lien has arisen. For the purposes of this subdivision, a lien shall be deemed to arise at the time a written statement of charges for completed work or services is presented to the registered owner.

(h) The procedure described in this section shall not be applicable if the vehicle is a mobilehome which is required to be moved under a permit issued pursuant to Section 35790 of the Vehicle Code. A lien sale of the mobilehome may be conducted only if a judgment has been entered in favor of the lienholder on the claim which gives rise to the lien or the registered and legal owners have signed, after the lien has arisen, a release of any interest in the mobilehome in the form prescribed by Section 3071.5.

SEC. 3. Section 3073 of the Civil Code is amended to read:

3073. When the lienholder certifies under penalty of perjury that the value of the vehicle subject to the lien does not exceed two hundred dollars ($200), the lienholder may sell such vehicle at public sale, upon the giving of notice as provided in this section and Section 3071.3. The lienholder shall notify the legal owner and the registered owner by certified mail, return receipt requested, and the

department by certified mail, or United States Post Office certificate of mailing, of the time and place of the sale. At least 10 days before the sale, the lienholder shall also post a notice of the sale in a conspicuous place on the premises where the vehicle is stored, and the business office of the lienholder giving the date of the sale and a description of the vehicle, including the make, model, type, and license number.

SEC. 4. Section 22705 of the Vehicle Code is amended to read:

22705. If the vehicle is appraised at a value not exceeding two hundred dollars ($200), the public agency which removed the vehicle shall:

(a) Within 48 hours after appraisal notify the Department of Justice in Sacramento of the removal of such vehicle.

(b) Prepare a certificate which shall describe the vehicle including the location of any license plates thereon, state the appraised value and that the vehicle will be junked or dismantled, and indicate that:

(1) A lienholder has submitted a statement under penalty of perjury to the public agency that the registered and legal owners and other persons having an interest in the vehicle did not sign and return within 20 days to the Department of Motor Vehicles a declaration of opposition stating a desire to contest the claim which gives rise to the lien pursuant to Section 3071.3 of the Civil Code, or

(2) The registered and legal owners have signed a release under penalty of perjury disclaiming any interest, which release shall be included with the certificate, or

(3) The vehicle is in such condition that vehicle identification numbers are not available to determine owners of record with the department, in which event the vehicle may be disposed of.

(c) Upon completion of the certificate, execute and deliver a bill of sale free of any lien for fees and penalties due and payable to the department together with a copy of the certificate to either the lienholder who shall endorse the bill of sale to a licensed automobile dismantler, or to the licensed automobile dismantler, or to the public agency for disposal, whichever has the vehicle in possession.

(d) Forward the completed certificate to the Department of Motor Vehicles in Sacramento.

(e) A vehicle which is the subject of a certificate prepared and forwarded pursuant to this section shall not be reconstructed or made operable.

(f) Licensed dismantlers acquiring vehicles which are the subject of certificates prepared and forwarded pursuant to this section shall be excused from any fees and penalties which would otherwise be due to the Department of Motor Vehicles, provided that a copy of the certificate forwarded to the Department of Motor Vehicles pursuant to this section is retained in the licensed dismantlers' business record.

(g) A local agency may authorize by contract or franchise the removal, disposal, or removal and disposal, of such vehicles by other

than a licensed automobile dismantler if it has first requested bids for removal, disposal, or removal and disposal, of such vehicles. Such franchise or contract shall be issued to or executed with the lowest responsible bidder. The bill of sale shall then be executed and delivered pursuant to subdivision (c) with the franchisee or contractor.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Chapter 1262 of the Statutes of 1974 was enacted in response to a recent decision to the Supreme Court of California which invalidated the lien sale provisions of prior law with respect to motor vehicles. Chapter 1262 of the Statutes of 1974 was intended to restore the ability to state and local agencies to remove motor vehicles from public and private property. However, the procedure established by Chapter 1262 did not provide for sufficient expedition of this removal. In order to restore this ability to state and local agencies in a manner which does not unnecessarily delay the removal, it is necessary that this act shall go into immediate effect.

CHAPTER 1037

An act to amend Sections 2 and 4 of Chapter 173 of the Statutes of 1974, relating to a regional occupational center or program, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 2 of Chapter 173 of the Statutes of 1974 is amended to read:

Sec. 2. The amounts allocated and expended pursuant to Section 4 of this act shall be fully repaid with interest to the state in such annual amounts and over such period as may be determined by the State Allocation Board, not to exceed 10 years from the date of disbursement. Interest shall be paid at a rate determined by the State Allocation Board.

Such repayment shall be made by the entity from the proceeds of a tax levied by the participating school districts in the manner and at the rate prescribed by Section 7456 of the Education Code for the purposes set forth in Section 7453 of the Education Code.

If at the time of considering the entity's application, the State Allocation Board determines that the revenue to be received from the tax permitted by Section 7456 will be insufficient to pay the

principal and interest of the loan as specified herein, the board shall approve such application and allocate the funds therefor only upon condition that an election be called by the governing board of the entity and that two-thirds of the total number of qualified electors of all of the participating school districts voting on a proposition therefor, authorize the governing board to accept, expend and repay as provided herein such allocation or apportionment. Such election shall be called, held. and conducted in the same manner as are elections to authorize the issuance of school district bonds, except that the ballot shall contain substantially the following words: "Shall the Governing Board of the Salinas-Gonzales-Monterey-Pacific Grove-King City-Carmel Regional Occupational Program, for the purpose of providing permanent facilities for a regional occupational center, be authorized to accept, expend, and repay an apportionment from the State of California under and subject to the provisions of Chapter 173, Statutes of 1974, as amended, in an amount not to exceed _____ dollars ($_____) Yes ____ No ____."

SEC. 2. Section 4 of Chapter 173 of the Statutes of 1974 is amended to read:

Sec. 4. An amount not to exceed one million dollars ($1,000,000) from the proceeds of bonds issued pursuant to the State School Building Aid Bond Law of 1974 shall be allocated and expended for purposes of this act by the joint powers entity in cooperation with and under the administrative direction of the State Allocation Board, for the capital expenditures involved in the construction or purchase, and equipping of facilities for, and the establishment of, a regional occupational center or regional occupational program in Monterey County. Not to exceed fifty thousand dollars ($50,000) of such sum shall be allocated and expended for architectural and engineering services in connection with such center or program.

Sections 19551 to 19555, inclusive, and Sections 19559, 19562, 19565, and 19699.10 of the Education Code shall be applicable to the administration of this act unless the context of this act, as determined by the State Allocation Board, requires otherwise. Except to the extent and for the purposes expressly provided in this act, the provisions of Chapter 10 (commencing with Section 19551) of Division 14 of the Education Code shall not be applicable hereto.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The amount of funds originally appropriated in 1974 for establishment of vocational education facilities in Monterey County have proven to be insufficient. In order that the project may be completed as originally planned, it is essential that the additional funding provided for in this act be made available at the earliest possible time. Therefore, it is necessary that this act take effect immediately.

SEC. 2. Section 25213 of the Corporations Code is amended to read:

25213. The commissioner may, after appropriate notice and opportunity for hearing, by order censure, deny a certificate to, suspend for a period not exceeding 12 months or revoke the certificate of, any agent if he finds that such censure, denial, suspension, or revocation is in the public interest and that such agent has committed or omitted any act or omission enumerated in subdivision (a), (e) or (f) of Section 25212 or has been convicted of, or pled nolo contendere to, any offense or held liable in any civil action specified in subdivision (b) of Section 25212 or is enjoined from any act, conduct or practice specified in subdivision (c) of Section 25212 or is subject to any order specified in subdivision (d) of Section 25212.

The people of the State of California do enact as follows:

(b) The board shall certify any gasoline vapor control system upon its determination that the system, if properly installed and maintained, will meet the requirements enumerated in subdivision (a). The board shall specify the specifications used for issuing such certification. After the board has certified such a system, if circumstances beyond the control of the board cause the system to no longer meet the specified certification specifications, the board may, as appropriate, revoke or modify its prior certification.

(c) The board may test, or contract for the testing of, gasoline vapor control systems in order to certify such systems.

(d) The board may charge a reasonable fee for certification, not to exceed the board's estimated costs therefor. Payment of such fee may be made a condition of certification.

(e) On or after July 1, 1976, no person shall install a gasoline vapor control system unless it has been certified by the board.

(f) To the extent authorized by other provisions of law, any air pollution control district may adopt stricter procedures and performance standards than those adopted by the board pursuant to subdivision (a).

SEC. 2. Section 39068.7 is added to the Health and Safety Code, to read:

39068.7. The board may exempt from such specifications those classifications of motor vehicles for which the board determines the specifications are technologically infeasible.

The board also may waive the provisions of this subdivision for any 1977 model year gasoline-powered motor vehicle, provided that the board makes a finding, based upon evidence presented by the manufacturer of such vehicle, that inadequate lead time exists for any required vehicle redesign. The board may make such waiver applicable only to specified body styles of such a vehicle.

SEC. 3. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 1043

An act to add Section 432.7 to, and to repeal Section 432.7 of, the Labor Code, relating to employment practices.

[Approved by Governor September 24, 1975. Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 432.7 of the Labor Code is repealed.

SEC. 2. Section 432.7 is added to the Labor Code, to read:

432.7. (a) No employer whether a public agency or private individual or corporation shall ask an applicant for employment to disclose, through any written form or verbally, information concerning an arrest which did not result in conviction, nor shall any employer seek from any source whatsoever, or utilize, as a factor in determining any condition of employment including hiring, promotion, termination, or any apprenticeship training program or any other training program leading to employment, any record of arrest which did not result in conviction. As used in this section, a conviction shall include a plea, verdict, or finding of guilt regardless of whether sentence is imposed by the court. Nothing in this section shall prevent an employer from asking an employee or applicant for employment about an arrest for which the employee or applicant is out on bail or on his or her own recognizance pending trial.

(b) In any case where a person violates any provision of this section, or Article 6 (commencing with Section 11140) of Chapter 1 of Title 1 of Part 4 of the Penal Code, the applicant may bring an action to recover from such person actual damages or two hundred dollars ($200), whichever is greater, plus costs, and reasonable attorney's fees. An intentional violation of this section shall entitle the applicant to treble actual damages, or five hundred dollars ($500), whichever is greater, plus costs, and reasonable attorney's fees. An intentional violation of this section is a misdemeanor punishable by a fine not to exceed five hundred dollars ($500).

(c) The remedies under this section shall be in addition to and not in derogation of all other rights and remedies which an applicant may have under any other law.

(d) Persons seeking employment as peace officers or for positions in law enforcement agencies with access to criminal offender record information or for positions with the Division of Law Enforcement of the Department of Justice are not covered by this section.

(e) Nothing in this section shall prohibit an employer at a health facility, as defined in Section 1250 of the Health and Safety Code, from asking an applicant for employment either of the following:

(1) With regard to an applicant for a position with regular access to patients, to disclose an arrest under any section specified in Section 290 of the Penal Code.

(2) With regard to an applicant for a position with access to drugs and medication, to disclose an arrest under any section specified in Section 11590 of the Health and Safety Code.

(f) (1) No peace officer or employee of a law enforcement agency with access to criminal offender record information maintained by a local law enforcement criminal justice agency shall knowingly disclose, with intent to affect a person's employment, any information contained therein pertaining to an arrest or other proceeding which did not result in a conviction to any person not authorized by law to receive such information.

(2) No other person authorized by law to receive criminal offender record information maintained by a local law enforcement criminal justice agency shall knowingly disclose any information received therefrom pertaining to an arrest or other proceeding which did not result in a conviction to any person not authorized by law to receive such information.

(3) No person, except those specifically referred to in Section 1070 of the Evidence Code, who knowing he is not authorized by law to receive or possess criminal justice records information maintained by a local law enforcement criminal justice agency, pertaining to an arrest or other proceeding which did not result in a conviction, shall receive or possess such information.

(g) "A person authorized by law to receive such information", for purposes of this section, means any person or public agency authorized by a court, statute, or decisional law to receive information contained in criminal offender records maintained by a local law enforcement criminal justice agency, and includes, but is not limited to, those persons set forth in Section 11105 of the Penal Code, and any person employed by a law enforcement criminal justice agency who is required by such employment to receive, analyze, or process criminal offender record information.

(h) Nothing in this section shall require the Department of Justice to remove entries relating to an arrest not resulting in conviction from summary criminal history records forwarded to an employer pursuant to law.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1044

An act to amend Section 53112 of the Government Code, relating to telephones.

[Approved by Governor September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 53112 of the Government Code is amended to read:

53112. All systems shall be designed to meet the specific requirements of each community and public agency served by the system. Every system, whether basic or sophisticated, shall be designed to have the capability of utilizing at least three of the methods specified in Sections 53103 to 53106, inclusive, in response to emergency calls. The Legislature finds and declares that the most critical aspect of the design of any system is the procedure established for handling a telephone request for emergency services.

In addition, to maximize efficiency and utilization of the system, all pay telephones within each system shall, by December 31, 1982, enable a caller to dial "911" for emergency services, and to reach an operator by dialing "0", without the necessity of inserting a coin. In those counties where 5 percent or more of the population, in accordance with the latest United States census information, speak a specific primary language other than English, operators who speak each such other language, in addition to English, shall be on duty at all times for "911" emergency services.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no duties, obligations, or responsibilities imposed on local government by this act.

In the event that there is no redemption of the bond during the redemption period, the treasurer shall pay the surplus money to the person who was the owner of record prior to the issuance of the treasurer's deed, if he can be found.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 2170 are both chaptered and become effective January 1, 1976, both bills amend Section 6504 of the Streets and Highways Code, and this bill is chaptered after Assembly Bill No. 2170, that the amendments to Section 6504 proposed by both bills be given effect and incorporated in Section 6504 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Assembly Bill No. 2170 are both chaptered and become effective January 1, 1976, both amend Section 6504, and this bill is chaptered after Assembly Bill No. 2170, in which case Section 1 of this act shall not become operative.

SEC. 5. It is the intent of the Legislature, if this bill and Assembly Bill No. 2170 are both chaptered and become effective January 1, 1976, both bills amend Section 6509 of the Streets and Highways Code, and this bill is chaptered after Assembly Bill No. 2170, that the amendments to Section 6509 proposed by both bills be given effect and incorporated in Section 6509 in the form set forth in Section 2.5 of this act. Therefore, Section 2.5 of this act shall become operative only if this bill and Assembly Bill No. 2170 are both chaptered and become effective January 1, 1976, both amend Section 6509, and this bill is chaptered after Assembly Bill No. 2170, in which case Section 2 of this act shall not become operative.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section, nor shall there be any appropriation made by this act, because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any

financial burden to local government.

CHAPTER 1047

An act to amend Sections 800 and 1473 of the Penal Code, relating to criminal law.

[Approved by Governor September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 800 of the Penal Code is amended to read:

800. An indictment for any felony, except murder, voluntary manslaughter, involuntary manslaughter, the embezzlement of public money, the acceptance of a bribe by a public official or a public employee, grand theft, forgery, the falsification of public records, a violation of Section 72, 118, 118a, 132, 134, or 209 of the Penal Code, or Section 1090 or 27443 of the Government Code, shall be found, an information filed, or case certified to the superior court within three years after its commission. An indictment for the acceptance of a bribe by a public official or a public employee, a felony, shall be found, an information filed, or case certified to the superior court within six years after its commission. An indictment for grand theft, forgery, voluntary manslaughter, or involuntary manslaughter, a violation of Section 72, 118, 118a, 132 or 134, of the Penal Code, or Section 1090 or 27443 of the Government Code, shall be found, an information filed, or case certified to the superior court within three years after its discovery.

SEC. 2. Section 1473 of the Penal Code is amended to read:

1473. (a) Every person unlawfully imprisoned or restrained of his liberty, under any pretense whatever, may prosecute a writ of habeas corpus, to inquire into the cause of such imprisonment or restraint.

(b) A writ of habeas corpus may be prosecuted for, but not limited to, the following reasons:

(1) False evidence that is substantially material or probative on the issue of guilt or punishment was introduced against a person at any hearing or trial relating to his incarceration; or

(2) False physical evidence, believed by a person to be factual, probative, or material on the issue of guilt, which was known by the person at the time of entering a plea of guilty, which was a material factor directly related to the plea of guilty by the person.

(c) Any allegation that the prosecution knew or should have known of the false nature of the evidence referred to in subdivision (b) is immaterial to the prosecution of a writ of habeas corpus brought pursuant to subdivision (b).

(d) Nothing in this section shall be construed as limiting the

grounds for which a writ of habeas corpus may be prosecuted or as precluding the use of any other remedies.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1049

An act to amend Sections 3108, 3109, 3110, 3111, 3226, 3319, 3343, 3417, 3418, 3719, 3724, and 3776 of, to repeal Sections 3338, 3339, 3340, 3340.5, and 3411 of, and to repeal and add Section 3337 of, the Public Resources Code, relating to oil and gas.

[Approved by Governor September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 3108 of the Public Resources Code is amended to read:

3108. On or before the first day of October of each year the supervisor shall make public, for the benefit of all interested persons, a report in writing showing:

(a) The total amounts of oil and gas produced in each county in the state during the previous calendar year.

(b) The total cost of the division for the previous fiscal year.

(c) The total amount delinquent and uncollected from any assessments or charges levied pursuant to this chapter.

The report shall also include such other information as the supervisor deems advisable.

SEC. 2. Section 3109 of the Public Resources Code is amended to read:

3109. The supervisor may publish any publications, reports, maps, or other printed matter relating to oil and gas, for which there may be public demand. If these publications, reports, maps, or other printed matter are sold, they shall be sold at cost, and the proceeds shall be deposited to the credit of the General Fund.

SEC. 3. Section 3110 of the Public Resources Code is amended to read:

3110. All money paid to the State Treasurer pursuant to Article 7 (commencing at Sec. 3400) of this chapter shall be deposited to the credit of the General Fund.

The Petroleum and Gas Fund and the Subsidence Abatement Fund are hereby abolished. Whenever any reference is made in any law to the Petroleum and Gas Fund or to any account in such fund, or to the Subsidence Abatement Fund, it shall be deemed to be a reference to, and to mean, the General Fund. All money presently deposited in the Subsidence Abatement Fund as of June 30, 1976, shall be transferred to the credit of the General Fund.

SEC. 4. Section 3111 of the Public Resources Code is amended to read:

3111. All money received in repayment of repair work done as provided in this chapter, shall be returned and credited to the General Fund.

SEC. 5. Section 3226 of the Public Resources Code is amended to read:

3226. Within 30 days after service of an order, pursuant to Sections 3224 and 3225, or Section 3237, or if there has been an appeal from the order to the director, within 30 days after service of the decision of the director, or if a review has been taken of the order of the director, within 10 days after affirmance of the order, the owner shall commence in good faith the work ordered and continue it until completion. If the work has not been commenced and continued to completion, the supervisor shall appoint necessary agents who shall enter the premises and perform the work. An accurate account of the expenditures shall be kept. Any amount so expended shall constitute a lien against the property upon which the work is done.

Notwithstanding any other provisions of Section 3224, 3225, or 3237, if the supervisor determines that an emergency exists, he may order or undertake such actions as he deems necessary to protect life, health, property, or natural resources.

SEC. 6. Section 3319 of the Public Resources Code is amended to read:

3319. The supervisor upon his own motion may, or shall upon the application of any city, county, city and county, any part of which is in a subsidence area, or any contractor or lessee for the production of oil or gas therefor, or any person having a working interest therein, who has submitted therewith an engineering report and plan for fieldwide repressuring operations in the pool or pools in a field in order to arrest or ameliorate subsidence therein, prepared by a petroleum engineer licensed by the state, hold a public hearing to consider the need for repressuring operations in all of such pool or pools in order to arrest or ameliorate subsidence. Applications relating to the same field may be ordered consolidated by the supervisor for such public hearing thereon.

Before any such application shall be considered, each applicant shall pay to the supervisor for deposit in the General Fund a sum of

money estimated by the supervisor to be equivalent to the amount of costs necessary to publish and mail notices, to employ stenographic reporters, to prepare a daily transcript of such hearing for use by the supervisor, to pay such rental as may be necessary to provide quarters for such hearing and to reimburse the Department of Conservation for any charges imposed upon it for the services of a hearing officer or members of the Attorney General's staff in conjunction with such hearing. If more than one application is filed, such costs shall be equally charged and assessed to and paid by the respective applicants. Such costs, when finally determined, if in excess of the amount theretofore deposited shall be paid equally by the applicant or applicants. Any money remaining on deposit after final determination and payment of costs shall be refunded to the applicant or applicants equally. If, after a public hearing and from the evidence adduced therefrom, and from such engineering studies as he may have ordered made and which have been presented and considered at such hearing, the supervisor finds that repressuring operations of the pool or pools will tend to arrest or ameliorate subsidence, he shall by order adopt a fieldwide repressuring plan and specifications of the work to be done thereunder, if in his judgment such fieldwide plan and specifications are necessary, and will not substantially reduce the maximum economic quantity of oil or gas ultimately recoverable from such pool or pools under prudent and proper operations.

Any such fieldwide repressuring plan and general specifications shall be based upon a competent engineering study of all the pools in the field and shall provide for repressuring operations designed to most effectively arrest or ameliorate subsidence with respect to those land areas overlying or immediately adjacent to a producing pool or pools. Such plan and specifications may provide that they may be carried out by one or more units made up of such pool, groups of pools, or portions thereof, or by individual persons, or by cooperative agreements between two or more persons or by any combinations of the foregoing which in the judgment of the supervisor shall be feasible. Such study may be reviewed from time to time by the supervisor, and if it be determined, from an analysis of the collected data, that consideration should be given to the alteration or modification of such plan and specifications, the supervisor shall order the holding of the requisite hearing for the purpose of determining whether such change should be incorporated into said plan and specifications by an amended order. The supervisor may amend a fieldwide repressuring plan and general specifications of the work to be done in the same manner as herein provided for the initial adoption of said plan and specifications.

SEC. 7. Section 3337 of the Public Resources Code is repealed.

SEC. 8. Section 3337 is added to the Public Resources Code, to read:

3337. The division shall exercise surveillance over all repressuring operations in the state.

The payment of any such penalty shall not operate to relieve a person on whom the penalty is imposed from liability to any other person for damages arising out of such violation. Such penalty, when recovered, shall be paid to the State Treasurer and shall be deposited to the credit of the General Fund.

(c) Any person knowingly aiding or abetting any other person in the violation of any provision of this article, or any rule, regulation or order of the supervisor shall be subject to the same penalty as that prescribed by this section for the violation by such other person.

If such charges and assessments become delinquent as provided in Section 3420 of this code, in addition to the information contained in the "Record of

The owner or operator of any well, before commencing the original drilling of a well or the redrilling of an abandoned well, shall file with the supervisor or the district deputy a written notice of intention to commence drilling, accompanied by the fee prescribed by this section. Drilling shall not commence until approval is given by the supervisor or the district deputy. If the supervisor or the district deputy fails to give the owner or operator written response to the notice within 10 working days, such failure shall be considered as an approval of the notice and the notice shall, for the purposes and intents of this chapter, be deemed a written report of the supervisor. The notice shall contain the following:

(a) The location and elevation of the floor of the proposed derrick.

(b) The number or other designation by which the well shall be known. Such number or designation shall be subject to the approval of the supervisor.

(c) The owner's or operator's estimate of the depths between which production will be attempted.

(d) Such other pertinent data as the supervisor may require on the printed forms to be supplied by the Division of Oil and Gas, or on forms acceptable to the supervisor.

After the completion of any well the provisions of this section, other than the requirement of the payment of the fee, shall also apply, as far as may be, to the deepening or redrilling of the well, or any operation involving the plugging of the well, or any operations permanently altering in any manner the casing of the well. The number or designation by which any well heretofore drilled has been known, and the number or designation specified for any well in a notice filed as required by this section, shall not be changed without first obtaining a written consent of the supervisor.

The fee required to be filed for the drilling of a new well or the redrilling of an abandoned well, shall be twenty-five dollars ($25), two hundred dollars ($200), five hundred dollars ($500), or one thousand dollars ($1,000), to be determined by the supervisor with the concurrence of the Geothermal Resources Board based on the

CHAPTER 1051

An act to amend Sections 3074 and 3078 of the Labor Code, relating to apprenticeship.

[Approved by Governor September 24, 1975 Filed with Secretary of State September 24, 1975]

The people of the State of California do enact as follows:

SECTION 1. Section 3074 of the Labor Code is amended to read:

3074. The preparation of trade analyses and development of curriculum for instruction, and the administration and supervision of related and supplemental instruction for apprentices, coordination of instruction with job experiences, and the selection and training of teachers and coordinators for such instruction shall be the responsibility of, and shall be provided by, state and local boards responsible for vocational education upon agreement with the local joint apprenticeship committee or other program sponsor. Such responsibility shall not preclude the establishment of off-campus related and supplemental instruction when approved, developed, and operated in cooperation with state and local school boards responsible for vocational education, and when such instruction meets all other requirements of this chapter. It is the intent of this chapter that such instruction shall be made available to apprentices through classroom instruction, correspondence courses, self-study or other means of instruction approved by state and local public education agencies authorized to provide vocational education.

Pursuant to this chapter all excess costs incurred by local public education agencies exceeding state apportionments and local revenue earned by the attendance of apprentices shall be payable by the local apprenticeship program sponsor, upon joint agreement between such sponsor and the local education agency. The State Board of Education and the Board of Governors of the California Community Colleges, and the Division of Apprenticeship Standards shall jointly issue regulations regarding calculation and payment provisions of excess costs to be borne by the local apprenticeship program sponsors. All funds accrued by local education agencies from attendance in apprenticeship classes authorized by this section shall be expended or allocated for all such classes offered by the local education agency before excess costs may be claimed.

The Department of Education and the Board of Governors of the California Community Colleges may provide related and supplemental instruction to isolated apprentices as a direct instructional service, on a contractual basis with local school districts, by correspondence, or by a combination of these means. For the purpose of this section, an isolated apprentice is an apprentice registered with the Division of Apprenticeship Standards in the Department of Industrial Relations who cannot be enrolled in a class

of related and supplementary instruction for apprentices because of the small number of apprentices available for an appropriate class or because there is no existing apprenticeship program within a reasonable travel distance.

Interested parties may file a complaint in accordance with Section 201 of Title 8 of the Administrative Code, when a community college or secondary education district is unable to reach agreement with program sponsors in providing related and supplemental instruction. In the process of securing an amicable adjustment, the administrator shall meet with the parties involved, including, but not limited to, the chancellor or his representative, or the Superintendent of Public Instruction, or his representative.

Community colleges, and other public school districts, shall refuse to provide related and supplemental instruction to an apprenticeship program when it is determined by the Administrator of Apprenticeship that the apprenticeship program sponsor has been found to be in noncompliance with the State of California Plan for Equal Opportunity in Apprenticeship.

SEC. 2. Section 3078 of the Labor Code is amended to read:

3078. Every apprentice agreement entered into under this chapter shall contain:

(a) The names of the contracting parties.

(b) The date of birth of the apprentice.

(c) A statement of the trade, craft, or business which the apprentice is to be taught, and the time at which the apprenticeship will begin and end.

(d) A statement showing the number of hours to be spent by the apprentice in work and the number of hours to be spent in related and supplemental instruction, which instruction shall be not less than 144 hours per year, except as otherwise provided by those responsible under Section 3074 for related and supplemental instruction. Such exceptions shall be subject to the appeal procedures established in Sections 3081, 3082, 3083 and 3084. In no case shall the combined weekly hours of work and required related and supplemental instruction of the apprentice exceed the maximum number of hours of work prescribed by law for a person of the age and sex of the apprentice.

(e) A statement setting forth a schedule of the processes in the trade or industry divisions in which the apprentice is to be taught and the approximate time to be spent at each process.

(f) A statement of the graduated scale of wages to be paid the apprentice and whether the required schooltime shall be compensated.

(g) A statement providing for a period of probation of not more than 1,000 hours of employment and not more than 72 hours of related instruction, during which time the apprentice agreement may be terminated by the local joint apprenticeship committee at the request in writing of either party, and providing that after such probationary period the apprentice agreement may be terminated

by the administrator by mutual agreement of all parties thereto, or canceled by the administrator for good and sufficient reason.

(h) A provision that all controversies or differences concerning the apprentice agreement which cannot be adjusted locally, or which are not covered by collective-bargaining agreement, shall be submitted to the administrator for determination as provided for in Section 3081.

(i) A provision that an employer who is unable to fulfill his obligation under the apprentice agreement may with approval of the administrator transfer such contract to any other employer, if the apprentice consents and such other employer agrees to assume the obligation of said apprentice agreement.

SEC. 18. Section 21668.2 is added to the Public Utilities Code, to read:

21668.2. The department shall not order a suspension under this section without prior notice or opportunity for hearing, unless the department determines in writing that public safety considerations require a summary suspension. (4) To make and enforce rules and regulations for the orderly and fair conduct of such hearings which shall conform as nearly as possible to the provisions applicable to hearings conducted by local agency formation commissions.

(5) To achieve by zoning compatible land uses in the vicinity of all new airports and in the vicinity of existing airports to the extent that the land in the vicinity of such airports is not already devoted to incompatible uses, and to this end the commissions shall require that all new construction in such areas shall conform to such standards as the department may from time to time adopt.

The powers of the commission shall in no way be construed to give the commission jurisdiction over the operation of any airport.

was the candidate of that party alone, the vote polled at the last preceding general election by that one of the party's candidates voted on throughout the state who received the greatest number of votes of all the party's candidates who were the candidates of the party in conjunction with one or more other parties.

6021. Nomination papers properly prepared, circulated, signed and verified shall be left, for examination, with the county clerk of the county in which they are circulated, at least 74 days prior to the presidential primary. Upon the filing of nomination papers pursuant to this chapter, the persons named in such papers shall be voted upon as delegates to the respective national conventions of the several political parties, but their names shall not be printed upon the ballots of their respective parties.

His election precinct shall also appear on the paper just preceding his name, and he shall write the date of his signature at the end of the line just after his residence.

6025. Any nomination paper may be presented in sections. Each section shall contain the names of candidates comprising the group and state that they are candidates for delegates, and, if such be the case, that they have expressed a preference for a named person as candidate for presidential nominee of the party. Each section shall bear the name of the county in which it is circulated. Only voters of the county registered as intending to affiliate with the political party by which the nominations are to be made are competent to sign.

6026. Each section shall be prepared with the lines for signatures numbered, and shall have attached the affidavit of the verification deputy who obtained signatures to it, stating that all the signatures to the attached section were made in his presence, and that to the best of his knowledge and belief each signature to the section is the genuine signature of the person whose name it purports to be. No other affidavit is required. The affidavit of any verification deputy shall be verified free of charge by any officer authorized to administer oaths.

6027. A verified nomination paper is prima facie evidence that the signatures are genuine and that the persons signing it are voters, until it is otherwise proved by comparison of the signatures with the affidavits of registration in the office of the county clerk.

Article 7. Peace and Freedom Party Presidential Primary Ballot

6270. Upon the filing of nomination papers, the presidential preference primary candidate or slate of delegate candidates shall be voted upon, but the names of candidates for delegates to the national convention shall not be printed upon the ballot.

6271. For the presidential primary election, the format of the Peace and Freedom Party ballot shall be governed by the provisions of Chapter 2 (commencing with Section 10200) of Division 7 of this code, with the following exceptions:

(a) In place of the heading "Delegates to National Convention,

vote for one group only" shall appear the heading "Presidential Preference, vote for one."

(b) Selected and unselected presidential candidates shall be listed below the heading specified in subdivision (a). The order of their names shall be as follows: The Secretary of State shall arrange the names in alphabetical order for the First Assembly District. Thereafter, for each succeeding Assembly district, the name appearing first in the preceding Assembly district shall be placed last, the order of the other names remaining unchanged. A space shall be provided following the names of these candidates for a write-in candidate.

(c) Below the presidential candidates shall appear in the same column, or in the next column if there is not sufficient space in the first column, the heading "Delegates to National Convention, vote for one group".

(d) Presidential candidates who have qualified for the ballot and to whom delegations are pledged, and the chairpersons of unpledged delegations which have qualified for the ballot, shall be listed below the heading specified in subdivision (c) in the same manner provided for in subdivision (b).

(e) The instructions to voters shall be the same as provided for in Chapter 2 of Division 7 of this code except that they shall begin with the words, "To express your preference for a candidate for nomination for President, stamp a cross (+) in the square opposite the name of the candidate. Your vote in this portion of the ballot is advisory only. Delegates to the national convention will be elected in the delegate selection portion of the ballot.

6272. Any person who believes his or her name may be used as a write-in candidate for President of the United States shall, not later than 21 days before the primary election, file an endorsement of his or her write-in candidacy with the Secretary of State, or no votes shall be counted for that write-in candidate.

Article 8. Certification of National Convention Delegates Elected and Postelection Proceedings

6285. The number of delegates to be certified as elected from each group of delegate candidates shall be the whole number nearest the product obtained by multiplying the total number of delegates to be elected by the ratio which that group's vote bears to the total of votes cast for all such groups of delegates, with the following to apply in order to adjust the total number of delegates certified to the total number to which the state is entitled:

(a) If this procedure would result in a total number of delegates being elected greater than the number to which the state is entitled, the calculation outlined above shall be repeated using a total vote cast for all groups of delegates which is sufficiently larger than the actual total vote so as to give a total number of delegates elected equal to the number to which the state is entitled.

059 287105 798

(b) If this procedure would result in a total number of delegates being elected smaller than the number to which the state is entitled, the calculation outlined above shall be repeated using a total vote cast for all groups of delegates which is sufficiently smaller than the actual total vote so as to give a total number of delegates elected equal to the number to which the state is entitled.

(c) If, due to a tie which renders unworkable the procedure for adjusting to the proper delegate total outlined in subdivisions (a) and (b), those delegate candidates so tied shall be certified as elected with a fractional vote proportional to their group's total vote so that the total number of delegates certified, including the fractional-vote delegates, equals the number to which the state is entitled.

6286. The Secretary of State shall send, not more than three business days after the presidential primary, to the chairperson of each committee qualifying a group of candidates for national convention delegates for the Peace and Freedom Party presidential primary ballot a copy of the semiofficial canvass of the vote for each such group of delegates showing the vote for each group in each county, the total statewide vote for each group, and the tentative number of delegates which each group will be entitled to have declared elected.

6287. Each group of candidates for delegate shall meet or confer after the presidential primary and by majority vote shall determine the order in which members of the group shall be certified as elected by the Secretary of State. The order so determined shall commence with a resident of either the northern or the southern territories, and the names thereafter shall alternate between residents of the northern and southern territories until such alternation is no longer possible. The order so determined shall be certified to the Secretary of State by the chairperson of the committee forming the group not later than the 21st day after the election.

6288. The Secretary of State shall, not later than the 21st day after the election, file in her or his office a statement of the canvassed returns for the Peace and Freedom Party presidential preferential primary and the national convention delegate selection election, compiled from the returns filed with the Secretary of State by the county clerks. The compiled statement shall show, for each candidate or group, the total of the votes received, the votes received in each county, and, in the case of a group, the names of the candidates comprising that group.

6289. The Secretary of State shall, not later than the 24th day after the election, issue a certificate of election to as many persons in each group as are entitled to be declared elected from that group pursuant to Section 6285. The names certified from each group shall be certified in the order in which they were specified by the group pursuant to Section 6287. If no such order was specified, the Secretary of State shall certify as many persons from the group as are entitled to be elected from the order in which the candidates' names appeared on the group's nomination paper, with the additional

requirement that an equal number of names be selected of persons residing in the northern and the southern territories, or, if the number to be selected is odd, that one more person residing in the territory with the greater portion of the state's registered Peace and Freedom Party voters shall be certified than the number of persons certified residing in the other territory. Certification of any delegates to which a write-in candidate is entitled shall be made within three business days of the receipt of the names of such delegates pursuant to Sections 6291 and 6292.

6290. Any person who receives, by write-in vote, a sufficient number of votes in the national convention delegate selection portion of the Peace and Freedom Party presidential primary to be entitled to one or more convention delegates pursuant to Section 6285, shall, within 31 days after the primary election, file a list of as many delegates as the person is entitled to with the Secretary of State. The delegates thus selected shall meet the residence distribution requirement specified in Section 6233 and shall be voters registered as affiliated with the Peace and Freedom Party in California.

6291. If a write-in candidate fails to file the list of delegates pursuant to Section 6290, the state central committee of the party shall, within 10 days of the end of the 31-day period specified in Section 6290, file a list of such delegates with the Secretary of State. Any delegates so certified by the state central committee shall go to the convention unpledged to any candidate.

6292. The elected delegates may, if they desire, meet or confer prior to attending the convention to select a chairperson of the delegation and to fill any vacancies in the office of delegate or alternate.

6293. The alternate of any delegate who is unable to attend the convention shall attend the convention in the delegate's place and shall otherwise discharge the duties of that delegate. An alternate shall not vote in the place of the delegate whom the alternate represents when the delegate is occupying her or his seat at the convention.

6294. The Secretary of State shall, as soon as practicable, certify to the chairperson of the state central committee and to the chairperson of each party county central committee of record, the final list of national convention delegates.

(b) The Secretary of State shall cause the names of the candidates for President and Vice President of the Peace and Freedom Party to be placed upon the ballot for the ensuing general election.

SEC. 10. Part 5 (commencing with Section 9750) is added to Division 6 of the Elections Code, to read:

PART 5. PEACE AND FREEDOM PARTY

CHAPTER 1. GENERAL PROVISIONS

9750. The provisions of this part shall apply to the organization, operation, and functions of that political party known as the Peace and Freedom Party of California.

CHAPTER 2. MEMBERS OF CENTRAL COMMITTEES

Article 1. Members

9760. At each direct primary election, members of central committees shall be elected in each county.

9761. For the purposes of this chapter, the registration figures used shall be those taken from the statement of voters and their political affiliations transmitted by the county clerks to the Secretary of State on the 135th day prior to the next direct primary election.

9762. The number of members of central committees to be elected in a county shall be the greater of:

(a) The number seven; or

(b) The integer nearest the resulting quotient obtained by dividing 400 times the number of Peace and Freedom Party registered voters in the county by the number of Peace and Freedom Party registered voters in the state.

However, the number of members of central committees to be elected in a county shall be five if the number of Peace and Freedom Party registered voters in the county is less than 150.

9763. In each county where the number of members of central committees to be elected is 12 or less, the members shall be elected in a countywide, at large district. In each county where the number to be elected is 13 or greater, the members shall be elected by supervisorial district, except in Los Angeles County and in the City

and County of San Francisco, wherein the members shall be elected by Assembly district.

9764. The number to be elected from each supervisorial or Assembly district shall be the greater of:

(a) The number one; or

(b) The integer nearest the resulting quotient obtained by dividing the number of members to be elected in that county times the number of Peace and Freedom Party registered voters in the district by the number of Peace and Freedom Party registered voters in the county.

If the procedure outlined above would result in less members being elected in a county than the number to which the county is entitled under Section 9762, the calculation in subdivision (b) shall be repeated using a number of Peace and Freedom Party registered voters in the county sufficiently smaller than the actual number in the county so as to give a total number of members of central committees to be elected equal to or the nearest amount which is greater than the number to which the county is entitled.

9765. Each person receiving a Peace and Freedom Party nomination for any partisan public office at the preceding direct primary election or at any special election subsequent thereto shall be declared elected as a member of central committees. Any members elected pursuant to this section shall be in addition to the number a county is entitled to elect pursuant to Section 9762.

Article 2. Election

9770. The Secretary of State, no later than the 125th day before the direct primary election, shall compute the number of members of central committees to be elected in each county and shall mail a certificate to that effect to the county clerk of each county, to the chairperson of the Peace and Freedom Party State Central Committee, and to the chairperson of record of each Peace and Freedom Party County Central Committee.

9771. The county clerk, no later than the 115th day before the direct primary election, shall compute the number of members of central committees to be elected in each supervisorial or Assembly district if the election of said members is to be by supervisorial or Assembly district pursuant to this chapter.

9772. In each county, the name of each candidate for member of central committees shall appear on the ballot only if she or he has:

(a) Filed a nomination paper pursuant to Division 5 (commencing with Section 6000) of this code, signed in the candidate's behalf by the voters of the central committee election district in which she or he is a candidate; or

(b) Has qualified to have her or his name printed on the direct primary ballot as a candidate for the Peace and Freedom Party nomination to a partisan public office.

9773. In counties where members of central committees are to be

elected by supervisorial or Assembly district, a person seeking election as a member of central committees may seek election only in the supervisorial or Assembly district in which he or she resides.

9774. A person qualifying as a candidate for member of central committees by virtue of qualification to have her or his name appear on the primary ballot for a partisan public office shall have her or his name listed on the ballot for member of central committees only in the central committee election district of her or his residence.

9775. Notwithstanding any other provision of this code, a person may obtain and circulate nomination papers both for nomination to a public office and for election as a member of central committees.

9776. Notwithstanding any other provision of this code, the number of sponsors which shall be required of a person to be a candidate for member of central committees shall be the lesser of:

(a) Not less than 20 nor more than 30, or

(b) Not less than 2 percent of the number of voters registered as affiliated with the Peace and Freedom Party in the central committee election district.

9777. Notwithstanding any other provision of this code, up to three candidates for member of central committees in a single central committee election district may have their names listed on a single sponsor's certificate, and the signatures thereon shall be counted toward the sponsor requirement of each and every candidate whose name is listed on the certificate. However, in no case shall the number of candidates having their names on a sponsor's certificate exceed the number of members of central committees to be elected in the district.

9779. The county clerk of each county shall include the office of member of central committees and the candidates therefor in a place and manner similar to the office of county central committee and the candidates therefor on various official lists published pursuant to Sections 6464, 6465, 6585 and 6587.

9780. The order of appearance of the names of the candidates for member of central committees on the ballot shall be determined by a public drawing held at the time, place and manner prescribed for determining the order of names of county central committee members pursuant to Chapter 2 (commencing with Section 10200) of Division 7 of this code.

9781. The office of member of central committees shall be placed on the direct primary ballot under the heading "Party Central Committees" in the place and manner designated for the office of county central committee pursuant to Chapter 2 (commencing with Section 10200) of Division 7 of this code. The subheading printed under party central committees on the direct primary ballot shall be in substantially the following form:

059 287255 828

9783. In each county the number of candidates for member of central committees to be elected in each central committee election district who receive the highest number of votes shall be declared elected. The names and votes of all nominees for partisan public office qualified for central committees membership pursuant to Section 9765 shall be excluded from the list of candidates for member of central committees and disregarded in the determination of the candidates with the highest number of votes.

No write-in candidate for member of central committees shall be declared elected, however, unless that candidate has received a number of votes equal to or greater than 2 percent of the number of party members voting in the central committee election district at the direct primary, or 20 votes, whichever is less.

9784. A certificate of election shall be issued to each elected member of central committees by the officers charged with that duty of issuing certificates of election to members of county central committees under Section 6617.

9785. The votes cast for each candidate for member of central committees shall be included in the canvass and statement of results in a manner similar to the vote for each candidate for county central committee pursuant to Division 10 (commencing with Section 17000) of this code.

9786. The final total of votes cast for each candidate for member of central committees, including the name, address and ballot designation of each such candidate, and a specification as to which candidates were declared elected shall be certified to the Secretary of State forthwith upon completion of the official canvass. The county clerk shall simultaneously send one copy of this final certification to the chairperson of the Peace and Freedom State Central Committee.

9793. No person shall be appointed to membership on the state central committee unless she or he is registered as a voter affiliated with the Peace and Freedom Party or would register as a voter affiliated with this party if not legally prohibited from doing so.

9794. This committee may remove any elected or appointed member who during the term of membership affiliates with or registers as a member of another political party, publicly advocates that the voters should not vote for the nominee of the party for any office, publicly gives support to or avows a preference for a candidate of another party or candidate who is opposed to a candidate nominated by this party, or has violated the bylaws or constitution of the state central committee.

9814. The proceedings at the convention meeting of the state central committee shall be governed by any manual of parliamentary procedure designated by this committee.

9815. This committee may select from its membership an executive committee to which it may grant all or any portion of its powers and duties. (e) The proxy shall be in writing signed by the member under penalty of perjury.

Each delegate shall enclose with each notice one copy of the form of proxy sent to that delegate by the Secretary of State.

9647. A person is not eligible for appointment to this committee if he is not registered as affiliated with this party at the time of his appointment.

9648. This committee may remove any member who during his term of membership affiliates with or registers as a member of another party. This committee may also remove any appointed member who publicly advocates that the voters should not vote for the nominee of the party for any office, or who publicly gives support

to or avows a preference for a candidate of another party who is opposed to a candidate nominated by this party.

9649. In the event of the appointment of an ineligible person, or whenever any member of this committee dies, resigns, or becomes incapacitated to act, or removes from the jurisdiction of the committee, or ceases to be a member of the committee's party, a vacancy exists which shall be filled in the manner prescribed in Section 9650. A vacancy shall also exist on this committee when a member is removed from the committee pursuant to Section 9687, or Section 9648, and such vacancy shall be filled in the manner prescribed in Section 9650, such member to serve the remainder of the unexpired term of the member removed.

9650. Should a member appointed to membership pursuant to Section 9641 or 9642 cease to be a member for any of the reasons specified in Section 9649, the vacancy shall be filled by the person who appointed him, unless that person is himself no longer a member of this committee or indicates that he does not wish to fill the vacancy, in which instances the committee shall do so.

Notice shall be given by the committee to a person entitled to fill a vacancy under this section as soon as possible after the occurrence of the vacancy. The committee shall notify in writing the Secretary of State of all appointments made pursuant to this section.

9651. In the event the appointment of alternate or associate members is authorized by statute or the rules of the committee, this committee shall supply forms to the members for the appointment of such members. The forms shall be in substantially the same language as set forth in Section 8101, and shall contain suitable spaces wherein there can be listed the addresses and the numbers of the congressional, Assembly, and senatorial districts in which the appointees reside.

9652. Each delegate to the state convention may appoint three voters as associate members of this committee. An associate member shall have such privileges and obligations as are given to him by the rules of the committee but shall not be able to vote.

Article 2. Meetings

9660. This committee shall convene at Sacramento at 10 a.m. of the Sunday following the last Saturday in August next following the direct primary election.

Article 3. Proxies

9670. No proxy shall be recognized unless filed in the office of the Secretary of State not later than 12 o'clock noon of the day preceding the state committee meeting.

9671. When a proxy is filed with the Secretary of State he shall immediately forward it to the chairman of the state central committee or his designate.

9672. Revocation or change of proxies shall be recognized by this committee on proxies and credentials only upon a personal request made by the member before the committee.

Article 4. General Business

9680. The chairman of this committee shall call the committee to order at 10 a.m. on the day of first meeting. The next business in order shall be the election of a temporary chairman, which may be by acclamation, unless there is a contest, in which event the roll shall be called.

9681. The temporary chairman, upon election, shall appoint at once a committee on proxies and credentials consisting of one member from each senatorial district, selected from among the members of this committee certified by the Secretary of State.

9682. This committee shall choose its officers by rollcall vote, poll of senatorial district delegations, or such other method as may be prescribed by the committee. Its officers shall have the power usually exercised by the officers of such committees insofar as may be consistent with this chapter.

9683. This committee may select from its membership an executive committee to which it may grant all or any portion of its powers and duties. If this committee grants any portion of its powers to an executive committee, it shall provide for the election to its executive committee of two members, one of each sex, from each senatorial district delegation. A senatorial district delegation shall consist only of those state central committee members who reside within that senatorial district.

9684. The state central committee or its executive committee shall designate by resolution or bylaw the national committee or party organization with which the American Independent Party is affiliated and shall file a copy of such resolution or bylaw with the Secretary of State. In the event of controversy over the national affiliation of the party, the most recent resolution or bylaw filed shall be determinative.

9685. The chairman of this committee shall serve a two-year term but not succeed himself.

9686. The elective officers provided for in the bylaws of this committee shall serve for two-year terms.

9687. This committee may prescribe dues to be paid by those persons specified in Section 9640 in the manner and by the time prescribed by vote of the majority of the members of the committee. The dues charged shall not exceed twenty-four dollars ($24) per year.

Any member of this committee who fails to pay the dues prescribed by the committee may, upon first notifying the delegate to the state convention who appointed such member, be removed from the committee in the manner provided by the committee.

9688. This committee shall conduct party campaigns for this

party and in behalf of the candidates of this party. It shall appoint committees and appoint and employ campaign directors and perfect whatever campaign organizations it deems suitable or desirable and for the best interest of the party.

This committee shall have power to appoint interim county central committees in all counties in which the voters have not elected one or more county central committee members in the direct primary preceding the organization of this committee. Persons appointed to interim county central committees pursuant to this section shall meet the qualifications otherwise required by Chapter 4 (commencing with Section 9700) of this part for appointees to fill vacancies on county central committees. Notice of all appointments pursuant to this section shall be filed by the state central committee with the county clerk of the county for which such interim county central committee is appointed. Interim county central committees appointed pursuant to this section shall have all of the powers and privileges afforded county central committees by the provisions of Chapter 4 of this part, but members of interim county central committees shall not be designated as incumbents on the ballot in the succeeding primary election.

9689. A quorum of this committee is a majority of the entire membership, represented either in person or by proxy.

9690. The proceedings at all meetings of this committee shall be governed by any manual of parliamentary procedures designated by the committee.

CHAPTER 4. COUNTY CENTRAL COMMITTEE

Article 1. Members

9700. In each county containing less than five Assembly districts or portions thereof, except the City and County of San Francisco, a county central committee of at least 25 members shall be elected by supervisor districts, and the number elected from each supervisor district shall be determined as follows:

The number of voters registered as members of the American Independent Party, as reflected in the statement of voters and their political affiliations transmitted to the Secretary of State on before the 135th day before any primary election, shall be divided by 25. The number thus derived shall be divided into the number of American Independent Party voters registered in each supervisor district, and the integer nearest the resulting quotient shall be the number of central committee members to be elected to represent that supervisor district.

9701. In each county containing more than four Assembly districts or portions thereof, and the City and County of San Francisco, a county central committee shall be elected by Assembly districts, and the number elected shall be that number derived by multiplying 7 times the number of Assembly districts in whole or in

part within the county. The number elected from each Assembly district shall be determined as follows:

The number of voters registered as members of the American Independent Party, as reflected in the statement of voters and their political affiliations transmitted to the Secretary of State on or before the 135th day before any primary election, shall be divided by the total number of members to be elected in the county. The number thus derived shall be divided into the number of American Independent Party voters registered in each Assembly district or portion thereof, and the integer nearest the resulting quotient shall be the number of central committee members to be elected to represent that Assembly district or portion thereof.

9702. The incumbent or nominee of each of the following offices shall be an ex officio member of the committee in the county in which he resides:

(a) Governor
(b) Lieutenant Governor
(c) Secretary of State
(d) Controller
(e) Treasurer
(f) Attorney General
(g) Member of the State Board of Equalization
(h) United States Senator from California
(i) Representative in Congress from California
(j) All Members of the State Legislature
(k) Any person nominated to a partisan office at a special election to fill a vacancy in that office.

Ex officio members shall be entitled to all the rights and privileges, including the right to vote, and shall have the same standing in every way as other members of this committee, except they shall not be entitled to a ballot designation of incumbent upon seeking election to this committee in the next direct primary.

9703. A committee may authorize any member of that committee, whether elected or ex officio, to appoint an alternate if a member desires to appoint an alternate. An incumbent of an elected partisan office at the time of the meeting of the committee may appoint an alternate member without authorization from that committee, if the member desires to appoint an alternate.

Such alternate member shall have the right to vote only with the written authorization of the member who appointed him. An alternate member of a county central committee shall be subject to the rules and regulations of the committee.

An alternate member must meet the same qualifications as the regular member and may vote only in the absence of the member who appointed him.

9704. A person shall not be eligible for appointment or election to a committee who is not registered as affiliated with this party at the time of his appointment or election.

9705. Each member of a committee, whether elected to the

committee or appointed to fill a vacancy, before he enters upon the duties of his office, shall take and subscribe the oath or affirmation set forth in Section 3 of Article XX of the Constitution.

The oath or affirmation required by this section may be taken before any officer authorized to administer oaths and no fee shall be charged by any person before whom the oath is taken or subscribed.

9706. In the event that the candidates elected to a committee from a district do not equal the number of party committeemen to which such district is entitled to be represented under provisions of this chapter, a vacancy or vacancies exist to the extent of the difference between the number of elected committeemen and the number of committeemen by which the district is entitled to be represented. When such vacancy or vacancies exist they shall be filled by the committee to which insufficient members were elected, in the manner provided for in Section 9707 of this code.

9707. In the event of the appointment or election to a committee of an ineligible person, or whenever any member of the committee dies, resigns or becomes incapacitated to act, or removes from the jurisdiction of the committee, or ceases to be a member of this party, a vacancy exists which shall be filled by appointment by the committee in which the ineligibility or vacancy occurs. A vacancy shall also exist on a committee when a member is removed from the committee pursuant to Section 9708 or Section 9710.

9708. Any member, other than an ex officio member, of a committee who misses more than three consecutive regularly called meetings may be removed by a vote of the committee concerned, unless his absence is caused by illness or temporary absence from the county on the date of the meeting.

9709. The removal of residence by an elected or appointed member of a committee from the Assembly district or supervisor district from which he has been elected or appointed a member of that committee shall constitute his automatic resignation from the committee.

9710. A committee may remove any member who during his term of membership affiliates with, or registers as a member of another party.

A committee may remove any member, other than an ex officio member, who publicly advocates that the voters should not vote for the nominee of this party for any office, or who gives support or avows a preference for a candidate of another party who is opposed to a candidate nominated by this party.

9711. Whenever any person is appointed to fill a vacancy on a committee, the chairman of the committee shall file notices of the appointment with the county clerk and the chairman of the state central committee within 30 days after it is made. The notices shall contain the name and address of the person appointed and the name of the person replaced, and shall indicate the date of the appointment.

Article 2. Election

9720. At every direct primary election a county central committee shall be elected in each county.

9721. The county clerk, no later than January 31 next preceding the direct primary, shall compute the number of members of the committee allotted to each Assembly district or supervisor district, as the case may be, pursuant to this article.

9722. In each county the name of each candidate for member of a committee shall appear upon the ballot only upon the filing of a nomination paper pursuant to Article 4 (commencing with Section 6490) and Article 5 (commencing with Section 6550) of Chapter 2 of Division 5 of this code, signed in his behalf by the voters of the Assembly or supervisor district in which he is a candidate.

9723. If the county clerk, on the 73rd day prior to the direct primary election, finds that the number of candidates nominated for election to a committee from an Assembly or supervisor district does not exceed the number of candidates to be elected from that Assembly or supervisor district, the designation of the office and the names of the candidates shall not be printed on this party's ballot in the Assembly or supervisor district, unless there is filed with the county clerk, not later than 20 days after the final date for filing nomination papers for the positions, a petition indicating that a write-in campaign will be conducted for the office and signed by 25 registered voters affiliated with the political party involved. In lieu thereof, the board of supervisors shall declare elected the candidates who have been nominated, and those candidates shall be entitled to receive certificates of election in the same manner as other candidates elected to a committee.

9724. In each county the number of candidates for membership in a county central committee in each Assembly or supervisor district who receive the highest number of votes shall be declared elected. However, a candidate for committeeman shall not be declared elected unless he has received votes equal in number to the minimum number of signatures to the nomination paper which would have been required to place his name on the direct primary ballot as a candidate for member of a committee.

9725. Whenever a candidate for election to a committee dies on or before the day of election, and a sufficient number of ballots are marked as being voted for him to entitle him to election if he had lived until after the election, a vacancy exists on the county central committee, which shall be filled by the committee in the same manner as other vacancies are filled.

Article 3. Meetings

9730. Each committee shall meet in the courthouse at its county seat, upon call, which shall be given by the county clerk of the county and in quarters to be arranged or provided for by the county clerk

of the county, on the second Tuesday in July following the direct primary election.

9731. Notwithstanding the provisions of Section 9730, a committee in a county having a population in excess of 4,000,000 shall meet at its county seat in a centrally located public auditorium sufficient to accommodate its membership.

9732. The Department of General Services shall permit any committee which desires to do so to hold meetings in a state building within the county, at least one of which meetings each month shall be without charge.

Article 4. General Business

9740. A committee shall have charge of the party campaign under general direction of the state central committee or of the executive committee selected by the state central committee.

9741. A committee may make rules and regulations providing:

(a) How officers of the committee may be removed.

(b) How meetings may be called.

(c) Whether or not proxies may be used and the conditions under which they may be used.

9742. The committee shall perform other duties and services for this political party as seem to be for the benefit of the party. They shall continue to function and exist until the election at the succeeding direct primary and qualification of the members of the new committees.

9743. If the chairman of a committee refuses to call a meeting, a meeting may be called upon five days' notice by a majority of the members of the committee.

9744. In each county the county clerk, within five days after a committee meets as provided for in Section 9730, shall ascertain who is the newly elected chairman of the committee and shall mail a certificate to that effect to the Secretary of State.

9745. Each committee may establish annual dues not to exceed twenty-four dollars ($24) per year for elected, ex officio and alternate members. The committee may remove members or alternates for nonpayment of dues.

SEC. 11. Sections 1 and 2 of this act shall not become operative if Assembly Bill 427 of the 1975–76 Regular Session becomes operative on or before January 1, 1976.

SEC. 12. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 1063

An act to add and repeal Chapter 17.5 (commencing with Section 7300) to Division 7 of Title 1 of the Government Code, relating to displaced homemakers, and making an appropriation therefor.

[Approved by Governor September 25, 1975 Filed with Secretary of State September 25, 1975]

The people of the State of California do enact as follows:

SECTION 1. Chapter 17.5 (commencing with Section 7300) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 17.5. DISPLACED HOMEMAKERS

7300. The Legislature hereby finds and declares that there is an ever-increasing number of persons in this state who, having fulfilled a role as homemaker, find themselves "displaced" in their middle years through divorce, death of spouse, or other loss of family income. As a consequence, displaced homemakers are very often

without any source of income; they are ineligible for categorical welfare assistance; they are subject to the highest unemployment rate of any sector of the work force; they face continuing discrimination in employment because they are older and have no recent paid work experience; they are ineligible for unemployment insurance because they have been engaged in unpaid labor in the home; they are ineligible for social security because they are too young, and for many, they will never qualify for social security because they have been divorced from the family wage earner; they have often lost their rights as beneficiaries under employers' pension and health plans through divorce or death of spouse, despite many years of contribution to the family well-being; and they are most often ineligible for Medi-Cal, and are generally unacceptable to private health insurance plans because of their age.

The Legislature further finds and declares that homemakers are an unrecognized part of the work force who make an invaluable contribution to the welfare of the society as a whole.

It is the intention of the Legislature in enacting this chapter to provide the necessary counseling, training, jobs, services and health care for displaced homemakers so that they may enjoy the independence and economic security vital to a productive life and to improve the health and welfare of this ever-growing group of citizens.

7301. As used in this chapter, "displaced homemaker" is an individual who:

(a) Is over 35 years of age;

(b) Has worked without pay as a homemaker for his or her family;

(c) Is not gainfully employed;

(d) Has had, or would have, difficulty finding employment; and

(e) (1) Has depended on the income of a family member and has lost that income; or

(2) Has depended on government assistance as the parent of dependent children, but who is no longer eligible for such assistance.

7302. The Secretary of Health and Welfare shall establish a pilot multipurpose service center for displaced homemakers in the County of Alameda. To the greatest extent possible the secretary shall make grants to nonprofit agencies or organizations to carry out the various programs of the centers, as enumerated in Sections 7304 to 7310, inclusive. The service center shall be designed and staffed as follows:

(a) The multipurpose service center shall be designed to provide displaced homemakers with the necessary counseling, training, skills, services, and education to become gainfully employed, healthy, and independent.

(b) To the greatest extent possible, the staff of the service center, including supervisory, technical, and administrative positions shall be filled by displaced homemakers. Where necessary, potential staff members shall be provided with on-the-job training by independent contractors or volunteer agencies.

7303. The secretary shall explore all possible sources of funding and in-kind contributions from federal, local, and private sources in establishing the service center, including building space, equipment, and qualified personnel for training programs.

7304. The multipurpose service center shall have a job-counseling program for displaced homemakers. Job counseling shall be specifically designed for the person reentering the job market after a number of years as a homemaker. The counseling will take into account, and build upon, the skills and experiences of a homemaker. Peer counseling and job readiness as well as skill updating and development shall be emphasized.

7305. The multipurpose service center shall have a job-training program for displaced homemakers. The staff at the center shall work with local government agencies and private employers to develop training programs for available jobs in the public and private sectors. The job-training programs shall provide a stipend for trainees.

7306. The service center shall include, but not be limited to, the following job-training programs:

(a) Lay advocates. This program shall be directed toward developing skills in counseling and advising on administrative procedures in government programs such as social security, supplemental security income, welfare, and unemployment, in order that such trainees will be trained for employment in social service agencies on a community level, such as senior citizen centers and legal aid offices.

(b) Home health technicians. This program shall be directed toward developing skills in nutrition, basic health care, and nursing for the disabled and elderly, in order that such trainees will be trained for employment by persons who are homebound through illness or disability and unable to care for themselves and their own households.

(c) Health care counselors. This program shall be directed toward developing skills in counseling techniques and in basic health care, especially for middle years individuals, in order that such trainees will be trained for employment in community and hospital outpatient health clinics.

7307. Each of the job-training programs enumerated in Section 7306 shall have as a goal for the first year, training and placing displaced homemakers, some of whom could be employed in the service programs specified in Section 7309. In addition, the service center staff shall develop with the Employment Development Department plans for including more displaced homemakers in existing job-training and placement programs.

7308. Service center staff shall be responsible for assisting the trainee in finding permanent employment. To this end, the secretary and the service center staff shall work with the Employment Development Department and the prime sponsors under the Comprehensive Employment and Training Act of 1974 in the area of

the center to secure employment for displaced homemakers.

7309. The multipurpose service center shall include, but not be limited to, the following service programs for displaced homemakers:

(a) A well-woman health clinic. Based on principles of preventative health care and consumer health education, the clinics shall be staffed to the greatest extent possible by displaced homemakers and serve the health needs of older women in particular. The functions of the clinic shall include:

(1) Basic physical and gynecological examinations with emphasis on screening for common health problems of older women. The examinations may be conducted by nurse practitioners. Emphasis of such program shall be on explanation and education about health care and physical well-being.

(2) Information and referral to physicians and clinics.

(3) Discussion and activity groups on menopause, aging, weight, and nutrition.

(4) Alcohol and drug addiction programs designed specifically to deal with the social and physical causes of addiction among displaced homemakers and other middle years women.

(b) Money management courses, including information and assistance in dealing with insurance programs (life, health, home, and car), taxes, mortgages, loans, and probate problems.

(c) Outreach and information for government programs, including concrete information and assistance with supplemental security income, social security, veterans administration benefits, welfare, food stamps, unemployment insurance, and Medi-Cal.

(d) Educational programs, including courses offering credit through community colleges or leading toward a high school equivalency degree. These courses shall be designed to supplement the usual academic course offerings with classes geared toward older persons to improve their self-image and abilities.

7310. The secretary, in consultation with the director of the service center, shall establish regulations concerning the eligibility of persons for the job training and other programs of the multipurpose service center, the level of stipends for the job training programs described in Section 7305, a sliding fee scale for the service programs described in Section 7309, and such other matters as the secretary deems necessary.

7311. (a) The secretary shall require the director and staff of the multipurpose service center to evaluate the effectiveness of the job training, placement and service components of the center. Such evaluation shall include the number of persons trained, the number of persons placed in employment, follow-up data on such persons, the number of persons served by the various service programs, and cost effectiveness of the various components of the center.

(b) There shall be a first-year evaluation in accordance with the requirements of this section filed by the director with the secretary no later than February 1, 1977; and there shall be a second-year

evaluation filed by the director with the secretary no later than January 1, 1978.

7312. The secretary may delegate any or all of the authority granted him by this chapter to whatever department within the Health and Welfare Agency which he deems appropriate.

7313. Two years after this act goes into effect the Secretary of the Health and Welfare Agency and the Legislative Analyst shall report to the Legislature on the effectiveness of this program.

7314. This chapter shall remain in effect only until January 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered on or before January 1, 1978, deletes or extends such date.

SEC. 2. The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the General Fund to the Secretary of Health and Welfare for the purpose of carrying out the provisions of this act. Such appropriation shall be available for expenditure until January 1, 1978.

CHAPTER 1064

An act to add Chapter 4.5 (commencing with Section 41220) to Part 2 of Division 31 of, and to repeal Part 9 (commencing with Section 37500) of Division 24 of, the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 25, 1975. Filed with Secretary of State September 26, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.5 (commencing with Section 41220) is added to Part 2 of Division 31 of the Health and Safety Code, to read:

CHAPTER 4.5. LOW-INCOME HOME MANAGEMENT TRAINING

Article 1. Legislative Findings

41220. The Legislature finds and declares that pilot projects previously authorized to test the effectiveness of a home management training program for low-income families in upgrading their skills as tenants and homeowners have been successful. As a result of such program, families in the pilot projects have been better prepared for occupancy of lease rentals and homeownership, have been better able to identify as equal partners in their neighborhoods and schools, and have improved their self-concept and feeling of personal worth. A program that can provide such long-range benefits warrants greater participation by local public and private agencies.

The Legislature further finds and declares that there is a continuing need to protect existing homeowners, whether owners of homes through governmental subsidy or private financing, from default; there is a continuing need to provide preoccupancy counseling for families entering into first-time homeownership; and there is a continuing need to upgrade homemaking skills for persons in public housing regardless of expectation for future homeownership.

41221. The Legislature further finds and declares that, guidelines for such a program having now been refined and established through the previous pilot projects and consistency being necessary for the success of such a program, a permanent program should be established.

41222. It is, therefore, the policy of the Legislature of the State of California to encourage cities, counties, cities and counties, housing authorities, and appropriate qualifying organizations to provide adequate training to low-income families in home management, home maintenance, consumer finance, and homeownership. Financial assistance will be made available to such public agencies and private organizations for use in training low-income families and providing them with the necessary qualifications and skills to live meaningful lives as renters or owners.

Article 2. California Low-Income Home Management Training Program

41225 There is hereby established the California Low-Income Home Management Training Program, which shall be administered by the Department of Housing and Community Development.

41226. The Director of Housing and Community Development shall adopt such reasonable guidelines or procedures concerning the California Low-Income Home Management Training Program as are necessary to reasonably implement the provisions of this chapter.

41227. The director is authorized to make grants, subject to the availability of funds therefor, to any city, county, city and county, housing authority, or nonprofit organization or developer of housing under the provisions of any federal program intended to increase the supply of housing for families of low income, for families whose income does not exceed 150 percent of the admission level for public housing in the applicant community. Such grants shall be made to assist in the establishment of a home management training program by the city, county, city and county, housing authority, nonprofit organization, or developer. To qualify for such a grant, an applicant shall submit to the director an application showing a comprehensive plan for the training and qualification of low-income families. Subject to the availability of funds, grants may be renewed annually.

41228. The department shall require that a local advisory board be included in the planning, implementation, and evaluation of each local program. Such an advisory board shall include a representative

from the residential building industry, a representative from the real estate industry who is a real estate licensee active in property management, a representative from the savings and loan industry, a representative from the county welfare department, a representative from a community college, university extension service, or public school district who is active in family and consumer education, and shall include representatives who are participants in the home management training program. The department shall require that each local program make full use of supportive community services To the fullest extent possible, projects with predominantly Spanish-American participants shall have staff members who are conversant with the Spanish language and culture or shall utilize the services of a local Spanish-speaking organization.

41229. In making grants pursuant to this chapter, the department may give priority to proposals on any of the following bases:

(a) The city, county, city and county, housing authority, organization, or developer submitting the proposal has demonstrated leadership in the implementation of a home management training program.

(b) The city, county, city and county, housing authority, organization, or developer submitting the proposal has an existing program for housing rehabilitation.

(c) The proposal demonstrates active access to community resources, such as the county welfare department or community educational services.

(d) The community in which the program will be located will provide local matching funds for the program.

(e) The city, county, city and county, housing authority, organization, or developer submitting the proposal intends to provide counseling services, including loan qualification services, to rural families eligible for the interest credit program of the Farmers Home Administration of the United States Department of Agriculture.

SEC. 2. Part 9 (commencing with Section 37500) of Division 24 of the Health and Safety Code is repealed.

SEC. 3. The sum of one hundred seventy-five thousand dollars ($175,000) is hereby appropriated from the General Fund to the Department of Housing and Community Development for the purpose of making grants pursuant to Chapter 4.5 (commencing with Section 41220) of Part 2 of Division 31 of the Health and Safety Code and for defraying the cost of administering such program. However, the amount allocated for administrative expenses from this appropriation shall not exceed 15 percent of the amount expended in grants pursuant to such provisions.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of Part 9 (commencing with Section 37500) of

Division 24 of the Health and Safety Code relating to the California Low-Income Home Management Training Program terminated on June 30, 1974 and the Zenovich-Moscone-Chacon Housing and Home Finance Act will become effective September 26, 1975. In order to prevent an unduly long hiatus in the implementation of low-income home management training programs and to enable coordination of such programs with the state's housing-finance activities, it is necessary that this act go into immediate effect.

No mobile intensive care paramedic rendering care at the scene of an emergency who, in good faith and in a nonnegligent manner, follows the instructions of a physician or nurse shall be liable for any civil damages as a result of following such instructions unless the mobile intensive care paramedic knew or should have reasonably known that following the instructions of the physician or nurse would

be medically inappropriate.

Sections 11 to 16 of this act contain provisions which relate to and are necessary for the submission of the Community College Construction Program Bond Act of 1976 to the people and for returning, canvassing, and proclaiming the votes thereon, and shall take effect immediately.

SEC. 12. A special election is hereby called to be held throughout the state on the eighth day of June, 1976. The special election shall be consolidated with the primary election to be held on that date. The consolidated election shall be held and conducted in all respects as if there were only one election and only one form of ballot shall be used. Except as otherwise provided in this act, all of the provisions of law relating to the submission of measures proposed by the Legislature shall apply to the measure submitted pursuant to this act, and only one form of ballot and ballot pamphlet shall be used. The Governor shall include the submission of the measure to the people, as aforesaid, in his proclamation calling for said election.

SEC. 16. If it appears that the measure shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged; but if a majority of the votes cast as aforesaid are against the measure then the same shall be and become void.

SEC. 17. Sections 11 to 16, inclusive, of this act, inasmuch as they call an election within the meaning of Section 8 of Article IV of the Constitution, shall take effect immediately.

CHAPTER 1067

An act to add Chapter 7 (commencing with Section 1500) to Division 4 of the Education Code, relating to data processing services, and making an appropriation therefor.

[Approved by Governor September 25, 1975. Filed with Secretary of State September 26, 1975.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 1500) is added to Division 4 of the Education Code, to read:

CHAPTER 7. INDEPENDENT DATA PROCESSING CENTERS

1500. This chapter applies to the territory under the jurisdiction of the County Superintendent of Schools of Sacramento County.

For the purpose of this chapter, "participating local educational agency" means:

(a) The Grant Joint Union High School District.

(b) The Los Rios Community College District.

(c) The Sacramento County Superintendent of Schools.

(d) The Sacramento City Unified School District.

(e) The San Juan Unified School District.

1501. The independent data processing center shall be administered by a board composed of one representative of each of the participating local educational agencies and one public member who shall be appointed by a majority of the representatives of the participating local educational agencies.

The public member shall serve for a four-year term and may be reappointed.

1502. The board of the independent data processing center:

(a) Shall adopt rules and regulations for its own government.

(b) Shall determine the location of the center.

(c) Shall establish and administer the operating budget of the center.

(d) May contract with public or private agencies for service.

(e) May contract with participating local educational agencies for services. In such cases, the personnel of the local educational agency shall remain agency employees for all purposes.

(f) May borrow funds from the participating local educational agencies. Participating local educational agencies may lend funds to the center.

(g) May order expenditures from the data processing center account in the county school service fund.

(h) May employ such staff as the board deems necessary, and determine the compensation thereof.

(i) May accept gifts and grants from private persons; firms;

foundations; or federal, state, and local government.

1503. The county superintendent of schools shall create in the county school service fund a data processing center account, expenditures from which may be ordered only by the board of the independent data processing center.

Balances in the account are not balances of the county school service fund and shall not revert to the State Treasury.

1504. There shall be deposited into the data processing center account all amounts allocated to the county superintendent of schools pursuant to Section 1505, any payment pursuant to a contract for services with a public or private entity, and any other funds accruing to the center.

1505. From funds appropriated by Section 4 of this act there shall be allocated to the County Superintendent of Schools of Sacramento County the sum of two hundred seventy-five thousand dollars ($275,000) annually for each of the fiscal years 1975–76 to 1977–78, inclusive. Such funds shall be used exclusively for operation of the independent data processing center. Immediately upon receipt thereof such funds shall be deposited in the data processing center account.

Such allocation shall be made by the Department of Education pursuant to an agreement between the department and the county superintendent of schools, the terms and conditions of the agreement having first been approved by the board of the independent data processing center. The agreement is subject to the approval of the Department of Finance.

The amounts allocated pursuant to this section shall be repaid during the five fiscal years 1978–79 to 1982–83, inclusive, together with interest computed at the same rate as the rate returned by the investment of state funds through the Pooled Money Investment Fund, as determined by the Department of Finance.

Participating local educational agencies shall be obligated for the repayment of funds allocated pursuant to this section. The amount to be repaid by each participating local educational agency shall be determined on the basis of the proportionate usage of the independent data processing center, as measured by criteria established by unanimous consent of the participating agencies.

In the event the participating agencies do not unanimously agree as to the method of computing the amount of repayment or on criteria to measure proportionate usage, the amount of repayment to be made by each of the participating agencies shall be computed in any reasonable manner determined by the board of the independent data processing center and approved by the Department of Finance.

The State Controller shall, commencing with fiscal year 1978–79 and in each of the following four fiscal years, deduct the total amount of the annual repayment due from a participating local educational agency by withholding equal amounts from each of the first and second principal apportionments made to such local agencies in each

of the five fiscal years commencing with 1978–79.

1506. Local educational agencies which do not participate in the operation of the center but which contract with the center for services shall pay a pro rata share of the cost of providing such services.

SEC. 2. It is the intent of the Legislature that no individual employee of a participating local educational agency on the operative date of this act shall lose his position as a result of the enactment of this act.

SEC. 3. The Legislature finds and declares that the study prescribed by Chapter 1167 of the Statutes of 1973 has made it possible to implement a plan for centralized data processing services only for the local educational agencies which were the subject of the study. Thus, a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 4. There is hereby appropriated from the General Fund to the Department of Education the sum of eight hundred twenty-five thousand dollars ($825,000) for allocation and expenditure in accordance with Section 1505 of the Education Code.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section, nor shall there be an appropriation made by this act, because this act produces savings as well as costs which, in the aggregate, do not cause significant cost changes.

CHAPTER 1068

An act relating to the state park system, making an appropriation therefor.

[Approved by Governor September 25, 1975 Filed with Secretary of State September 26, 1975]

The people of the State of California do enact as follows:

SECTION 1. The sum of one hundred sixty-five thousand dollars ($165,000) is hereby reappropriated from the Bagley Conservation Fund, pursuant to the provisions of Item 383.5 of the Budget Act of 1974 (Chapter 375, Statutes of 1974), to the Department of Parks and Recreation for the acquisition of lands adjacent to Annadel State Park, as an addition to Annadel State Park. Such acquisition shall be subject to the provisions of the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 2 of Title 2 of the Government Code).

SEC. 2. Funds reappropriated by Section 1 of this act shall not be expended for the purchase of any real property until the State Public Works Board has determined both of the following:

(a) That the procedures and criteria established by the Attorney

General relating to implied dedication have been complied with in the investigations and appraisals of the Department of General Services. All material relating to implied dedication shall be retained in the files of the Department of General Services and shall be available for postaudit on a selective basis by the Attorney General.

(b) That the Department of General Services, in making its investigations and appraisals, has found no evidence that there is any person or group of persons who assert any prescriptive right or claim in the property to be acquired; or, if such prescriptive right or claim has been asserted or established, that the department has appraised the property at a price that reflects the value of such right or claim.

CHAPTER 1069

An act to amend Section 1387 of the Penal Code, relating to effect of dismissals.
