No foreign lending institution solely by reason of engaging in any one or more of the activities set forth in subdivision (d) of Section 191 shall be required to qualify to do business in this state nor be subject to (a) any of the provisions of the Bank and Corporation Tax Law (commencing with Section 23001) of the Revenue and Taxation Code or (b) any of the provisions of this code or the Financial Code or Insurance Code relating to qualifications for doing or transacting business in this state or to requirements pertaining thereto or to the effects or results of failure to qualify to do business in this state.

SEC. 30.3. Section 2106 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2106. (a) Subject to the provisions of subdivision (b), upon payment of the fees required by law the Secretary of State shall file the statement and designation prescribed in Section 2105 and shall issue to the corporation a certificate of qualification stating the date of filing of said statement and designation and that the corporation is qualified to transact intrastate business, subject, however, to any licensing requirements otherwise imposed by the laws of this state.

(b) No foreign corporation having a name which would not be

available pursuant to subdivision (b) of Section 201 to a new corporation organized under this division shall transact intrastate business in this state or qualify to do so under this chapter or file an amended statement and designation containing such name unless either: (1) it obtains and files an order from a court of competent jurisdiction permanently enjoining the other corporation having a conflicting name from doing business in this state under that name; or (2) the Secretary of State finds, upon proof by affidavit or otherwise as the Secretary of State may determine, that the business to be conducted in this state by the foreign corporation is not the same as or similar to the business being conducted by the corporation (or to be conducted by the proposed corporation) with whose name it may conflict and that the public is not likely to be deceived, and the foreign corporation agrees that it will transact business in this state under an assumed name disclosed to the Secretary of State and that it will use such assumed name in all of its dealings with the Secretary of State and in the conduct of its affairs in this state. Such assumed name may be its name with the addition of some distinguishing word or words acceptable to the Secretary of State or a name available for the name of a domestic corporation pursuant to subdivision (b) of Section 201. A corporation which has made such an agreement with the Secretary of State shall not do business in this state except under the name agreed upon, so long as the agreement remains in effect.

SEC. 30.4. Section 2108 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2108. (a) Each foreign corporation (other than a foreign association) qualified to transact intrastate business and each foreign parent corporation subject to Section 2115 shall file annually within three months and 15 days after the close of its income year ending on or after December 31, 1976 or within 30 days after the filing of its franchise tax return with the Franchise Tax Board if an extension of time for filing the return was granted, an officers' certificate setting forth:

(1) The percentage of its outstanding voting securities held of record, as of the last record date for a shareholder's meeting, by persons having addresses in this state, calculated as provided in Section 2115 and either

(2) That all the income of the corporation was taxable for California franchise tax purposes or that such income would have been so taxable if the corporation had had sufficient income to be subject to more than the minimum franchise tax; or

(3) Its property factor, payroll factor and sales factor computed as provided in Section 2115.

This subdivision does not apply to a foreign corporation described in subdivision (e) of Section 2115. If the percentage in response to paragraph (1) is 40 percent or less, the officers' certificate need not include the information required by paragraph (2) or (3).

(b) The Secretary of State shall mail a form for compliance with

this section to each foreign corporation qualified to transact intrastate business in reasonably sufficient time for such compliance. The form shall state the due date thereof and shall be mailed to the last address of the corporation according to the records of the Secretary of State. Neither the failure of the Secretary of State to mail the form nor the failure of the corporation to receive it is an excuse for failure to comply with this section.

(c) The Secretary of State need not mail a form to a foreign corporation exempted from subdivision (a) or a foreign corporation whose right to exercise its corporate powers, rights and privileges in this state were forfeited by the Franchise Tax Board pursuant to Section 23301 or 23301.5 of the Revenue and Taxation Code more than six months prior to the date the Secretary of State would otherwise have mailed the form pursuant to subdivision (b) and which right has not been revived on or prior to such date of mailing.

(d) The Secretary of State shall forfeit the right of any foreign corporation to transact intrastate business if it fails to file the statement required by this section for a period of six months after notice given to it by the Secretary of State that such filing is delinquent and that it will have its right to transact intrastate business forfeited unless it complies with this section.

(e) Neither the report required by this section nor the computation provided by Section 2115 shall have any effect with respect to the basis upon which the corporation reports its income for franchise tax purposes.

SEC. 30.6. Section 2109 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2109. (a) Any foreign corporation which has suffered the forfeiture provided for in subdivision (d) of Section 2108 may be relieved therefrom upon making application therefor in writing to the Secretary of State and upon filing the officers' certificate prescribed in Section 2108 for each taxable year for which such certificate was required to be filed and has not been filed.

(b) The Secretary of State shall not grant the relief if the name of the foreign corporation would not meet the requirements of subdivision (b) of Section 2106. Notwithstanding subdivision (d) of Section 2108, a foreign corporation which has forfeited its right to transact intrastate business may file an amended statement and designation to change its name or to establish an assumed name pursuant to subdivision (b) of Section 2106.

(c) The Secretary of State shall promptly notify the foreign corporation of the relief from forfeiture of the right to transact intrastate business but such relief shall not affect any forfeiture under other provisions of law.

SEC. 31. Section 2111 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2111. (a) If the agent designated for the service of process is a natural person and cannot be found with due diligence at the address stated in the designation or if such agent is a corporation and no

person can be found with due diligence to whom the delivery authorized by Section 2110 may be made for the purpose of delivery to such corporate agent, or if the agent designated is no longer authorized to act, or if no agent has been designated and if no one of the officers or agents of the corporation specified in Section 2110 can be found after diligent search and it is so shown by affidavit to the satisfaction of the court, then the court may make an order that service be made by personal delivery to the Secretary of State or to an assistant or deputy secretary of state of two copies of the process together with two copies of the order, except that if the corporation to be served has not filed the statement required to be filed by Section 2105 then only one copy of the process and order need be delivered but the order shall include and set forth an address to which such process shall be sent by the Secretary of State. Service in this manner is deemed complete on the 10th day after delivery of the process to the Secretary of State.

(b) Upon receipt of the process and order and the fee therefor the Secretary of State forthwith shall give notice to the corporation of the service of the process by forwarding by registered mail, with request for return receipt, a copy of the process and order to the address specified in the order if the corporation has not filed the statement required by Section 2105 or to the two offices of the corporation the addresses of which are set forth in the latest such statement filed.

(c) The Secretary of State shall keep a record of all process served upon the Secretary of State and shall record therein the time of service and the Secretary of State's action with respect thereto. The certificate of the Secretary of State, under the Secretary of State's official seal, certifying to the receipt of process, the giving of notice thereof to the corporation and the forwarding of such process pursuant to this section, shall be competent and prima facie evidence of the matters stated therein.

SEC. 32. Section 2114 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2114. (a) A foreign corporation which has transacted intrastate business and has thereafter withdrawn from business in this state may be served with process in the manner provided in this chapter in any action brought in this state arising out of such business, whether or not it has ever complied with the requirements of this chapter.

(b) A foreign corporation which has surrendered its right to transact intrastate business pursuant to Section 2112 or 2113 may be served with process in any action upon a liability or obligation incurred within this state prior to such surrender by delivery of the process to the Secretary of State, or an assistant or a deputy to the Secretary of State pursuant to this chapter and no court order authorizing such service shall be required. The process shall be mailed in the manner prescribed in this chapter except that it shall be sent to the address to which process is authorized to be sent in the certificate of surrender or to the address of the surviving domestic

corporation in the case of a surrender under Section 2113.

(c) If a foreign corporation which is qualified to transact intrastate business has its right to transact such business forfeited by the Franchise Tax Board pursuant to the Bank and Corporation Tax Law (Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code), or by the Secretary of State pursuant to Section 2108, service of process on such corporation may be effected in the manner set forth in Sections 2110 and 2111, as if the right to transact intrastate business had not been forfeited.

(d) The fact that a corporation ceases to transact intrastate business without filing a certificate of surrender does not revoke the appointment of any agent for the service of process.

SEC. 32.5. Section 2115 of the Corporations Code, as added by Chapter 682 of the Statutes of 1975, is amended to read:

2115. (a) A foreign corporation (other than a foreign association but including a foreign parent corporation even though it does not itself transact intrastate business) is subject to this section if the average of the property factor, the payroll factor and the sales factor (as defined in Sections 25129, 25132 and 25134 of the Revenue and Taxation Code) with respect to it is more than 50 percent during its latest full income year and if more than one-half of its outstanding voting securities are held of record by persons having addresses in this state. The property factor, payroll factor and sales factor shall be those used in computing the portion of its income allocable to this state in its franchise tax return or, with respect to corporations the allocation of whose income is governed by special formulas or which are not required to file separate tax returns, which would have been so used if they were governed by such three-factor formula. The determination of these factors with respect to any parent corporation shall be made on a consolidated basis, including in a unitary computation (after elimination of intercompany transactions) the property, payroll and sales of the parent and all of its subsidiaries in which it owns directly or indirectly more than 50 percent of the outstanding shares entitled to vote for the election of directors, but deducting a percentage of such property, payroll and sales of any subsidiary equal to the percentage minority ownership, if any, in such subsidiary. For the purpose of this subdivision, any securities held to the knowledge of the issuer in the names of broker-dealers or nominees for broker-dealers shall not be considered outstanding.

(b) The following chapters and sections of this division shall apply to a foreign corporation subject to this section (to the exclusion of the law of the jurisdiction in which it is incorporated):

(d) Subdivision (a) shall cease to be applicable at the end of any income year during which a report pursuant to Section 2108 shall have been filed showing that at least one of the tests referred to in subdivision (a) is not met or an order shall have been entered by a court of competent jurisdiction declaring that one of such tests is not met, provided that such filing or order shall be ineffective if a contrary report or order shall be made or entered before the end of such income year.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 5005 of the Unemployment Insurance Code is amended to read:

5005. As used in this division, "work incentive programs" and "WIN" mean those programs established by the department pursuant to Section 5200.

SEC. 2. Section 5007 of the Unemployment Insurance Code is repealed.

SEC. 3. Section 5007 is added to the Unemployment Insurance Code, to read:

5007. A registrant certified by the SAU pursuant to Section 11300 of the Welfare and Institutions Code shall accept assignment to employment or WIN training as determined appropriate by the department or face deregistration action. The following standards shall be met before the department requires any such individual to accept a work or training assignment:

(a) All assignments for those in WIN training shall be within the scope of an individual's employability plan. This plan may be modified to reflect changed employment conditions.

(b) The job or training assignment shall be related to the capability of the individual to perform the task on a regular basis. Any claim of adverse effect on physical or mental health shall be based on an adequate medical testimony from a physician or licensed or certified psychologist indicating that participation would impair the individual's physical or mental health.

(c) The total daily commuting time to and from home to the work or training site to which the individual is assigned shall not normally exceed two hours, not including the transporting of a child to and from a child care facility, unless a longer commuting distance and time is generally accepted in the community, in which case the round trip commuting time shall not exceed the generally accepted community standards.

(d) When child care is required, it shall meet the standards specified in applicable federal law and shall be available during the hours the individual is engaged in a WIN component or manpower activity, plus any additional necessary commuting time.

(e) The work or training site to which the individual is assigned shall not be in violation of applicable federal, state and local health and safety standards.

(f) Assignments shall not be made which are discriminatory in terms of age, sex, race, creed, color, or national origin.

(g) The individual shall not be referred to work or training unless supportive and manpower services necessary for participation are available. The cessation or withdrawal of such necessary services while the individual is in a WIN component shall constitute good cause for refusal to participate.

(h) The quality of the training shall meet local employers' requirements so that the individual will be in a competitive position within the local labor market. The training shall also be likely to lead to employment which will meet the appropriate work criteria.

SEC. 4. Section 5007.5 is added to the Unemployment Insurance Code, to read:

5007.5. In addition to the standards prescribed by Section 5007, in determining "appropriate work" the department shall apply the following criteria:

(a) Appropriate work may be temporary, permanent, full-time, part-time, or seasonal work, if such work meets the other work

standards of this section.

(b) When an income disregard is available, the wage shall meet or exceed the federal or state minimum wage law, whichever is applicable, or if such laws are not applicable, the wage shall not be substantially less favorable than the wage normally paid for similar work in that labor market, but in no event shall it be less than three-fourths of the minimum wage rate set forth in Section 6(a)(1) of the Fair Labor Standards Act.

(c) When, as a result of becoming employed, no income disregard is available to the individual, the wage, less mandatory payroll deductions and a reasonable allowance for necessary employment related expenses, shall provide an income equal to or exceeding the family's AFDC cash benefit. The wage shall in no case be less than that required by any applicable minimum wage law.

(d) The daily hours of work and the weekly hours of work shall not exceed those customary to the occupation.

(e) No individual shall be required to accept employment if any of the following exist:

(1) The position offered is vacant due to a strike, lockout, or other bona fide labor dispute.

(2) The individual would be required to work for an employer contrary to the conditions of his or her existing membership in the union governing that occupation. However, employment not governed by the rules of a union in which he or she has membership may be deemed appropriate.

(3) The job offered would interrupt a program in progress under an approved employability plan leading to self-support or to the resumption of his or her regular job within a short period of time. This does not, however, preclude temporary employment during the interval prior to his or her reemployment in his or her regular job.

(4) The employer does not possess an appropriate state license to engage in his or her business, trade, or profession.

(5) The employer does not withhold or hold in trust the employee contributions required by Part 2 (commencing with Section 2601) of Division 1 for unemployment compensation disability benefits and does not transmit all such employee contributions to the Department of Benefit Payments for the Disability Fund as required by Section 986.

(6) The employer does not carry either workers' compensation insurance or possess a certificate of self-insurance as required by Division 4 (commencing with Section 3201) of the Labor Code.

CHAPTER 4. COMPLAINTS, DETERMINATIONS, HEARINGS, AND APPEALS PROCEDURE

5300. The proceedings provided for under this chapter shall be governed by, and conducted in accordance with, the provisions of this chapter and of Chapter 7 (commencing with Section 10950) of Part 2 of, and Article 3 (commencing with Section 11300) of Chapter 2 of Part 3 of, Division 9 of the Welfare and Institutions Code to the extent such provisions are in accordance with federal law. In case of any conflict between the provisions of this chapter and the provisions of the Welfare and Institutions Code, the provisions of this chapter shall prevail with respect to the proceedings provided for under this chapter.

5301. The Secretary of the Health and Welfare Agency shall designate the appellate body responsible for the appeals provided for under this chapter.

5302. Whenever a registrant fails or refuses to appear for appraisal, or a certified registrant fails or refuses to accept employment or to otherwise participate in a work incentive program, the department shall determine whether the individual had good cause for such failure or refusal.

5303. Any complaint or dispute which concerns issues under WIN arising subsequent to registration and which cannot be resolved informally shall, upon the filing of a formal complaint by a registrant, be processed in the same manner as an appeal from a determination.

5304. (a) If the department determines that a registrant without good cause failed or refused to appear for appraisal, or a certified registrant without good cause fails or refuses to accept employment or to otherwise participate in a work incentive program, it shall mail to the registrant a notice of intended deregistration within 30 days of such failure or refusal.

(b) The notice shall include:

(1) A detailed explanation of the reason for the action and the consequence of refusal or failure to cooperate without good cause.

(2) Notification of the registrant's right to a hearing if the registrant believes the proposed action is incorrect and files a written request for a hearing as prescribed in Section 5305.

(3) Notice that the proposed action shall be implemented if a hearing request is not received within the prescribed time.

(4) Instructions and required forms for requesting a hearing.

(5) An offer to assist with preparation of the hearing request.

(6) Notice that the registrant may be represented at the hearing by counsel or other authorized representative appointed by the registrant, and that the registrant and his or her representative, if any, shall have the opportunity to confront and cross-examine opposing witnesses.

(7) Notice that the registrant shall be permitted to present material evidence and testimony at the hearing that is not already in the record.

(c) The requirements of this section do not apply to an individual who:

(1) Has successfully entered employment and is regularly employed; or

(2) Is deregistered as exempt; or

(3) Is deregistered as a result of becoming ineligible for welfare.

5305. An individual who believes the intended action is incorrect may request a hearing before a hearing officer within 10 days after the mailing of the notice of intended deregistration. The request for a hearing may be made either orally or in writing by the individual or his or her authorized representative to the department. If the request is oral, the department shall prepare the required forms on behalf of the individual and obtain the individual's signature on the forms.

5306. An individual may participate in, and accept the services of, a work incentive program without prejudicing his or her right to protest any actions. Such protest shall be handled in the same manner as if he or she had, in fact, refused to participate in the work incentive program project.

5307. (a) Upon receipt of a written request for a hearing, a notice of scheduled hearing shall be mailed to the individual and other parties within 10 days. The notice shall indicate the date, time, and place of the hearing, the issues to be considered, and the hearing procedures that will be followed. Hearings shall be scheduled no earlier than 10 days, nor later than 30 days, following the mailing of the hearing notice.

(b) The hearing officer may reschedule a hearing upon the request of the individual, his or her representative, or other party.

5308. (a) The testimony at the hearing shall be recorded.

(b) The case record shall be available for inspection and copying by any party at, prior to, or subsequent to the hearing upon request.

(c) The hearing officer shall, if feasible, resolve the dispute by conciliation at any time prior to the conclusion of the hearing.

5309. (a) The hearing officer may rule any of the following:

(1) That the individual has failed to appear for appraisal without good cause or has failed or refused to participate without good cause, and that appropriate deregistration shall be initiated.

(2) That good cause has been shown for failure or refusal to participate, and the individual shall be retained in the program.

(3) That the request for a hearing is dismissed because of any of the following:

(A) It was filed untimely without good cause.

(B) It has been withdrawn in writing.

(C) The individual failed to appear at the hearing without good cause.

(D) Reasonable cause exists to believe that the request has been abandoned or that repeated requests for rescheduling are arbitrary and for the purpose of unduly delaying or avoiding a hearing, in which case the Department of Benefit Payments may initiate necessary action to impose appropriate sanctions.

(4) That the individual was appropriately or inappropriately assigned.

(5) Such other rulings as are appropriate to the issues in question. However, a hearing officer shall not consider the validity or constitutionality of any of the applicable laws.

(b) Based on the entire record, including any evidence and oral testimony provided at the hearing, the hearing officer shall prepare a written decision. Within 10 working days following the hearing, a copy of the decision stating the hearing officer's findings and conclusions of law and the reasons therefor shall be mailed to the individual and his or her authorized representative, if any, the department, the SAU, and the regional coordination committee. Instructions for appealing an adverse decision or recommendation to the appropriate appellate body shall be attached to the individual's copy of the decision.

(c) In cases involving novel questions of law or policy, the hearing officer may, within five days after issuing his or her written decision, certify the case for review and decision to the appeals board.

5310. (a) Any party who disagrees with the hearing officer's decision may request a review of the decision by the appeals board within 10 days following the date on which the hearing officer's decision is mailed. A request for appellate review of the hearing officer's decision shall not stay implementation of the decision.

(b) Within 30 days after receipt of the request for review, the appeals board shall prepare a written decision either affirming of reversing the hearing officer's decision or it may remand the case to a hearing officer for further evidence. The decision shall be based on its review of the entire hearing record and any additional written evidence submitted or obtained in connection with its consideration of the appeal. However, in no case shall new evidence be admitted

if it brings into question the validity or constitutionality of the applicable law. The decision shall state the findings of fact and conclusions of law and the reasons therefor. Copies of the decision shall be mailed to the individual, his or her authorized representative, if any, the department, the SAU, the regional coordination committee, and the National Review Panel. Instructions for appealing a decision to the National Review Panel and the rules under which it considers appeals shall be attached to the individual's copy of the decision.

(c) While reviewing a case, the appeals board may consider novel questions of law or policy or certify the case within five days after rendering its decision to the National Review Panel for review and decision.

(d) If a hearing officer's adverse decision is reversed on appellate review, the individual shall be paid such retroactive WIN and welfare benefits as may be applicable and, where appropriate, shall be reinstated in the program.

5311. (a) Benefits under this division shall cease and a 60-day counseling period by the SAU shall commence to run on the fifth business day after any of the following events:

(1) The expiration of the prescribed time period for filing a request for a hearing on a proposed deregistration from WIN, or the date on which the request for such hearing is dismissed.

(2) The date of the hearing officer's decision that the disputant has refused or failed to appear for appraisal, to accept employment, or otherwise participate in the WIN program without good cause.

(3) A decision rendered by appeals board or the National Review Panel which reverses a decision favorable to a WIN registrant.

(b) The SAU shall provide counseling for a period of up to 60 days, to those certified registrants who have been determined to have refused to participate in the WIN program without good cause, for the purpose of persuading them to participate in WIN. The counseling may be terminated at any time during this period at the discretion of the SAU when it becomes apparent that the counseling efforts are proving unsuccessful. Once a period of counseling and other services has been provided to an individual, and he or she has again been found to have refused training or employment under WIN without good cause, the SAU shall not provide another period of counseling and other services.

(c) The 60-day counseling period shall not be provided to uncertified registrants.

(d) A certified registrant who fails without good cause to appear for two or more scheduled counseling meetings shall be considered to have terminated the counseling.

(e) Certified registrants who complete the 60-day counseling may be reaccepted into WIN only with the concurrence of the SAU.

5312. (a) An individual who was deregistered on the basis of a "without good cause" determination may, upon application, again register for WIN, if 90 days have elapsed since his or her

deregistration and he or she has given evidence to the department of willingness to participate. If he or she is subsequently deregistered following a "without good cause finding," he or she shall not be registered or reaccepted in the WIN program unless satisfactory evidence is given of willingness to participate and six months have elapsed since the effective date of the latest deregistration.

(b) An individual who has been reaccepted into the WIN program after such deregistration shall have the same rights as an individual who registers for the first time.

(c) Reacceptance into the WIN program may be denied where the termination action was the result of the individual's disruptive behavior or of criminal or other activities which presented a hazard to the department staff or others.

5313. A decision of the appeals board under this chapter shall be final and no appeal may be taken therefrom except that the individual shall be entitled to any right of further appeal guaranteed him or her by federal law.

SEC. 17. Section 11250.5 of the Welfare and Institutions Code is repealed.

SEC. 18. Section 11300 of the Welfare and Institutions Code is amended to read:

CHAPTER 644

An act to amend Sections 59082, 59083, 59087, and 59111 of the Food and Agricultural Code, relating to marketing of agricultural products.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 59082 of the Food and Agricultural Code is amended to read:

59082. The director shall terminate any marketing order if he finds that the termination of the marketing order is requested in writing, within a 90-day period, by at least 51 percent of the producers that are directly affected that produce at least 51 percent of the volume of the product, or by at least 51 percent of the handlers that are directly affected that handle at least 51 percent of the volume of the product.

The person or persons originating such a written request shall file a written notice with the director in such a manner that the date such a request is initiated can be readily ascertained. Any such person may withdraw his name from such a written request until the time the request is presented to the director.

A request to terminate a marketing order shall be submitted to the director by a petition signed by not less than the number of producers or handlers which produce or handle the volume of products specified in this section. Before circulating a petition to terminate a marketing order, its proponents shall notify the director of their intent to do so in order to ascertain the beginning date of the 90-day period.

After such notification to the director, the petition may be circulated among the producers or handlers affected. The petition shall bear a copy of the notice of intention. Any person may withdraw his name from a petition to terminate any marketing order until the time the petition is presented to the director.

SEC. 2. Section 59083 of the Food and Agricultural Code is amended to read:

59083. If at least 25 percent of the producers that are directly affected that produce at least 25 percent of the product and at least 25 percent of the handlers that are directly affected that handle at least 25 percent of the product request, within a 90-day period, that such marketing order be submitted to reapproval, the director shall hold a hearing on the question of the reapproval of such marketing order, and whether such reapproval shall be by assent or referendum.

If the director finds after the hearing that a substantial question exists as to whether such marketing order is contrary to, or does not effectuate the declared purposes or provisions of, this chapter within the standards and subject to the limitations and restrictions which are imposed in this chapter, such marketing order shall be submitted for the reapproval of those producers and handlers that are directly affected, as provided in this article, within 120 days of the receipt of the original request.

The person or persons originating such a request shall file a written notice with the director in such a manner that the date such a request is initiated can be readily ascertained. Persons may withdraw their names from such a request until the time the request is presented to the director.

A request to hold a public hearing on a marketing order shall be submitted to the director by a petition signed by not less than the number of producers or handlers which produce or handle the volume of products specified in this section. The signatures to the petition need not all be appended to one sheet of paper. Each person signing the petition shall add to his signature his place of business, giving street and number. If no street and number exist, then a designation of the place of business shall be given which will enable the location to be readily ascertained.

Before circulating a petition to hold a public hearing on a marketing order, its proponents shall notify the director of their intent to do so in order to ascertain the beginning date of the 90-day period.

03164 291485 620

After such notification to the director, the petition may be circulated among the producers or handlers affected. The petition shall bear a copy of the notice of intention. Signatures shall be secured within the time limit specified in this section. Any person may withdraw his name from a petition to hold a public hearing on any marketing order until the time the petition is presented to the director.

SEC. 3. Section 59087 of the Food and Agricultural Code is amended to read:

59087. (a) The director may terminate, without a public hearing, any marketing order or marketing agreement which has been inoperative for three consecutive marketing seasons after giving notice of intent to terminate such marketing order or marketing agreement pursuant to subdivision (b) of this section.

(b) The notice shall be posted on a public bulletin board which the director shall maintain in his office. Termination shall not become effective until five days after the date of such posting. The director shall also issue at the time of such posting, a public notice to newspapers of general and statewide circulation concerning his intention to terminate such marketing order or marketing agreement.

SEC. 4. Section 59111 of the Food and Agricultural Code is amended to read:

59111. Upon the issuance of any order which makes effective a marketing order, or any suspension, amendment, or termination of a marketing order, a notice of the issuance shall be posted on a public bulletin board which the director shall maintain in his office. A marketing order, or any suspension, amendment, or termination of it, shall not become effective until five days after the date of such posting. The director shall also mail a copy of the notice to every person that is directly affected by the terms of such marketing order, suspension, amendment, or termination, whose name and address is on file in the office of the director, and to every person that files in the office of the director a written request for such notice.

This section does not apply to the termination of any marketing agreement under Section 59087.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

Except as provided in subdivision (d), such an accompanying licensed driver at all times shall occupy a position within the driver's compartment that would enable such accompanying licensed driver to assist the driver in controlling the vehicle as may be necessary to avoid a collision and to provide immediate guidance in the safe operation of such vehicle.

SEC. 2. Section 17711 of the Vehicle Code is amended to read:

CHAPTER 646

An act to amend Section 10807 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 10807 of the Welfare and Institutions Code is amended to read:

10807. Each county department shall compile and maintain a list of private and public agencies which provide charitable and social services in the county, showing the name of each agency and the type of service performed by the agency, application procedure; eligibility for service; availability of service including hours, physical location, and waiting lists if any; fees or other expense charged to the client; facilitating services available such as translation or transportation; geographic area served; and source of funds supporting the agency. The list shall conform to a uniform service classification system and terminology to be developed and promulgated by the State Office of Planning and Research and shall

be updated by county departments no less often than annually. If an applicant for public assistance, including an applicant for assistance under Part 5 of this division, is found to be ineligible for such assistance, the county department, if necessary, shall make every effort to refer him to an agency in the county that may be able to assist him with his problem.

The classification system required by this section shall constitute a minimum standard for compiling and maintaining the list.

Nothing in this section shall prohibit county departments from entering into agreements with public or private agencies to develop and maintain the required list.

Notwithstanding any other provision of this section, any county compiling and maintaining its list on electronic data-processing equipment as of July 1, 1977 which finds that it will incur a substantial one-time program conversion cost to conform to the uniform service classification system may report such finding with its estimate of conversion costs to the Director of the Office of Planning and Research. The State Data Processing Management Office in the Department of Finance shall assist the Director of the Office of Planning and Research in determining the reasonableness of county cost estimates, and upon a finding of substantial cost, the Director of the Office of Planning and Research shall transmit such finding to the Legislature, specifying the county affected and the program conversion costs anticipated. Reimbursement of such costs under Section 2231 of the Revenue and Taxation Code shall be provided within the regular budgetary process or through other legislation appropriating funds for such purpose. In the absence of such reimbursement, counties coming under this paragraph shall not be subject to the requirement to conform to the uniform service classification system in compiling and maintaining the list. To be eligible for reimbursement, an affected county shall submit its cost estimate to the Director of the Office of Planning and Research no later than October 1, 1978.

SEC. 2. The State Office of Planning and Research shall develop the uniform service classification system and terminology required under Section 10807 of the Welfare and Institutions Code by July 1, 1978, after consultation with an advisory committee made up of persons appointed by the Director of the Office of Planning and Research from representatives nominated by directors of state agencies providing social services, the League of California Cities, the County Supervisors Association of California, California Committee of Regional Council Directors, the United Way of California, the California Welfare Rights Organization, and the County Welfare Directors' Association of California. Such advisory committee shall cease to function after June 30, 1978.

SEC. 3. It is the intention of the Legislature that the list required under Section 10807 of the Welfare and Institutions Code be used for purposes of assessing the state's most urgent needs for social services and for assisting local government officials in allocating their

resources to areas of greatest need as well as for information and referral of applicants for assistance. It is further the intention of the Legislature, by this act, to standardize the format and content of the referral lists which are currently required by law and administrative regulation.

SEC. 4. Section 1 of this act shall become operative on July 1, 1978.

SEC. 5. This act will not impose any costs on local entities in the 1976–77 fiscal year. Except as provided under Section 10807 of the Welfare and Institutions Code, any costs imposed on local entities by this act in the 1977–78 fiscal year and subsequent years will be indistinguishable from those incurred in the normal course of operations of those entities. Therefore, notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, and responsibilities imposed upon local entities by this act are such that related costs are incurred as a part of their normal operating procedures.

CHAPTER 647

An act to add Sections 71083.1 and 71085.1 to the Government Code, relating to courts.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 71083.1 is added to the Government Code, to read:

71083.1. Notwithstanding any other provision of law, upon the consolidation or annexation by the board of supervisors of the entire territory of two or more existing municipal court districts, the number of judgeships for the consolidated municipal court shall be the combined number of judgeships previously authorized for each of the component courts.

SEC. 2. Section 71085.1 is added to the Government Code, to read:

71085.1. (a) Notwithstanding any other provision of law, upon the consolidation or annexation by the board of supervisors of the entire territory of two or more existing municipal court districts, the number of clerks, marshals, their deputies and attachés, and all other officers and employees for the consolidated municipal court shall be the combined number of clerks, marshals, their deputies and attachés, and all other officers and employees previously authorized for each of the component courts. They shall receive the same compensation previously fixed for their positions before the

consolidation or annexation. Such number and compensation shall be on an interim basis and shall expire January 1 of the second calendar year following the consolidation or annexation unless sooner changed by action of the Legislature.

(b) The clerk or clerk/administrator of the consolidated municipal court shall be selected by the judges of the consolidated municipal court from the incumbent clerks or clerk/administrators of the component courts. The marshal of the consolidated municipal court shall be selected by the judges of the consolidated court from the incumbent marshals of the component courts.

CHAPTER 648

An act to amend Section 1513 of the Code of Civil Procedure, relating to unclaimed property.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 1513 of the Code of Civil Procedure is amended to read:

(1) Increased or decreased the amount of the deposit, or presented the passbook or other similar evidence of the deposit for the crediting of interest; or

(2) Corresponded in writing with the banking organization concerning the deposit; or

(3) Otherwise indicated an interest in the deposit as evidenced by a memorandum or other record on file with the banking organization.

No banking organization may discontinue any interest or dividends on any savings deposit because of the inactivity contemplated by this section.

(b) Any funds paid toward the purchase of shares or other interest in a financial organization or any deposit made therewith, and any interest or dividends thereon, excluding any service charges the amount of which is specifically provided by federal statute or regulation of a federal agency and which do not (where paid or made

in this state) exceed those set forth in schedules filed by the financial organization from time to time with the State Controller, when the owner, for more than seven years, has not:

(1) Increased or decreased the amount of the funds or deposit, or presented an appropriate record for the crediting of interest or dividends; or

(2) Corresponded in writing with the financial organization concerning the funds or deposit; or

(3) Otherwise indicated an interest in the funds or deposit as evidenced by a memorandum or other record on file with the financial organization.

No financial organization may discontinue any interest or dividends on any funds paid toward purchase of shares or other interest, or on any deposit, because of the inactivity contemplated by this section.

(c) Any sum payable on a travelers check issued by a business association that has been outstanding for more than 15 years from the date of its issuance, when the owner, for more than 15 years, has not corresponded in writing with the business association concerning it, or otherwise indicated an interest as evidenced by a memorandum or other record on file with such association.

(d) Any sum payable on any other written instrument on which a banking or financial organization is directly liable, including, by way of illustration but not of limitation, any draft, certified check, or money order, that has been outstanding for more than seven years from the date it was payable, or from the date of its issuance if payable on demand, when the owner, for more than seven years, has not corresponded in writing with the banking or financial organization concerning it, or otherwise indicated an interest as evidenced by a memorandum or other record on file with the banking or financial organization.

(e) Any sum payable on a money order issued by a business association (other than a banking or financial organization) that has been outstanding for more than seven years from the date it was payable, or from the date of its issuance if payable on demand, when the owner, for more than seven years, has not corresponded in writing with the business association concerning it, or otherwise indicated an interest as evidenced by a memorandum or other record on file with the business association.

CHAPTER 649

An act to amend Sections 229 and 296.4 of the Probate Code, relating to succession.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 229 of the Probate Code is amended to read:

229. (a) If the decedent leaves neither spouse nor issue, and the estate or any portion thereof was separate property of a previously deceased spouse, and came to the decedent from such spouse by gift, descent, devise or bequest, or became vested in the decedent on the death of such spouse by right of survivorship in a homestead or in a joint tenancy between such spouse and the decedent, such property goes in equal shares to the children of the deceased spouse and to their descendants by right of representation, and if none, then to the parents of the deceased spouse, in equal shares, or if either is dead to the survivor, or if both are dead, in equal shares to the brothers and sisters of the deceased spouse and to their descendants by right of representation.

(b) If the decedent leaves neither issue nor spouse, that portion of the estate created by gift, descent, devise, or bequest from the separate property of a parent or grandparent shall go to the parent or grandparent who made such gift, devise, or bequest or from whom the property descended, or if such parent or grandparent is dead, such property shall go in equal shares to the heirs of such deceased parent or grandparent.

(c) If any of the property subject to the provisions of this section would otherwise escheat to this state because there is no relative, including next of kin, of one of the spouses to succeed to such portion of the estate, such property shall be distributed in accordance with the provisions of Section 296.4.

SEC. 2. Section 296.4 of the Probate Code is amended to read:

296.4. Where a husband and wife have died, leaving community property and there is no sufficient evidence that they have died otherwise than simultaneously, one-half of all the community property shall be administered upon, distributed, or otherwise dealt with, as if the husband had survived and as if said one-half were his separate property and the other one-half thereof shall be administered upon, distributed, or otherwise dealt with, as if the wife had survived and as if said other one-half were her separate property, except as provided in Section 296.3.

If a portion of the estate which was the community property of the husband and wife would otherwise escheat to the state under this section and Sections 201, 228, and 231, or if a portion of the estate which was separate property of a previously deceased spouse would otherwise escheat to the state under Section 229, because there is no relative, including next of kin, of one of the spouses to succeed to such portion of the estate, such portion of the estate shall be distributed in equal shares to the children of the other spouse and to their descendants by right of representation, or if such other spouse leaves no children, nor descendants of a deceased child, in equal shares to the parents of such other spouse, or if either is dead to the

survivor, or if both are dead, in equal shares to the brothers and sisters of such other spouse and to their descendants by right of representation, or if such other spouse leaves neither parent, brother, sister, nor descendant of a deceased brother or sister, such portion of the estate goes to the next of kin of such other spouse in equal degree, except that when there are two or more collateral kindred in equal degree, but claiming through different ancestors, those who claim through the nearest ancestor must be preferred to those claiming through an ancestor more remote.

CHAPTER 650

An act to add Part 4 (commencing with Section 23000) to Title 3 of, and to repeal Part 4 (commencing with Section 23000) of Title 3 of, the Corporations Code, and to amend Section 24413 of the Revenue and Taxation Code, relating to real estate investment trusts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Part 4 (commencing with Section 23000) of Title 3 of the Corporations Code is repealed.

SEC. 2. Part 4 (commencing with Section 23000) is added to Title 3 of the Corporations Code, to read:

PART 4. REAL ESTATE INVESTMENT TRUSTS

23000. "Real estate investment trust" as used in this part means any unincorporated association or trust formed to engage in business and managed by, or under the direction of, one or more trustees for the benefit of the holders or owners (hereinafter in this part "shareowners") of transferable shares of beneficial interest in the trust estate (hereinafter in this part "shares") and which meets one of the following two tests:

(a) It received, prior to the effective date of this part, an order, permit or qualification from the Commissioner of Corporations pursuant to the provisions of the Corporate Securities Law of 1968 or any predecessor statute finding that it was a real estate investment trust, notwithstanding the subsequent amendment, suspension or revocation of any such finding, order, permit or qualification, and it has for one or more of its three fiscal years immediately prior to the effective date of this part complied with, or in good faith filed a federal income tax return on the basis that it has complied with the requirements for real estate investment trusts set forth in Section 856 of the Federal Internal Revenue Code; or

(b) It is formed for the purpose of engaging in business as a real estate investment trust under Part II of Subchapter M of Chapter 1 of Subtitle A of the Federal Internal Revenue Code of 1954, as amended from time to time; the sale of its shares has been qualified at any time by the Commissioner of Corporations pursuant to the Corporate Securities Law of 1968; and in good faith it has commenced business as a real estate investment trust.

An unincorporated association or trust which otherwise meets the requirements of this section shall not be affected in its status as a real estate investment trust whether or not it is in fact taxable for any year or years under Part II of Subchapter M of Chapter 1 of Subtitle A of the Federal Internal Revenue Code of 1954, as amended from time to time.

23001. No shareowner of a real estate investment trust shall be personally liable as such for any liabilities, debts or obligations of, or claims against, the real estate investment trust, whether arising before or after such shareowner became the owner or holder of the shares thereof.

23002. Section 23001 shall apply to any real estate investment trust organized under the laws of this state with respect to liabilities, debts, obligations and claims wherever arising, and to any real estate investment trust organized under the laws of a foreign jurisdiction with respect to liabilities, debts, obligations and claims arising in this state.

23003. A real estate investment trust shall not issue any security redeemable at the option of the holder of the security.

23004. Section 23001 shall apply with respect to all liabilities, debts, obligations of, and claims against, a real estate investment trust arising after the effective date of this part, and prior law shall continue to govern with respect to liabilities, debts, obligations and claims existing on the effective date of this part. No implication shall be created by the adoption of this part that the holders or owners of shares of beneficial interest in business trusts which do not meet the definition of real estate investment trust in Section 23000 are, or are not, as such, personally liable for the liabilities, debts or obligations of, or claims against, any such trust.

SEC. 3. Section 24413 of the Revenue and Taxation Code is amended to read:

24413. (a) Unincorporated trusts or unincorporated associations which are subject to the provisions of this part for the income year, and which qualify for federal tax purposes as "real estate investment trusts" under Sections 856, 857 and 858 of the Internal Revenue Code of 1954 (as amended by Public Law 93-625), shall be entitled to a deduction for income distributed during the income year.

(b) For the purposes of this section, if a real estate investment trust:

(1) Declares a dividend before the time prescribed by law for the filing of its return for an income year (including the period of any extension of time granted for filing such return); and

(2) Distributes the amount of such dividend to shareholders or holders of beneficial interests in the 12-month period following the close of such income year and not later than the date of the first regular dividend payment made after such declaration, the amount so declared and distributed shall, to the extent the trust elects in its return filed with the Internal Revenue Service pursuant to Section 858 of the Internal Revenue Code of 1954, be considered as having been paid during such income year, except as provided in subdivisions (c) and (d).

(c) Amounts to which subdivision (b) applies shall be treated as received by the shareholder or holder of a beneficial interest in the income year in which the distribution is made.

(d) In the case of amounts to which subdivision (b) applies, any notice to shareholders or holders of beneficial interests required under this section with respect to such amounts shall be made not later than 30 days after the close of the income year in which the distribution is made.

SEC. 4. Section 3 of this act shall be applied in the computation of taxes with respect to tax returns due (without regard to any extension of time for filing) on or after the effective date of this act.

SEC. 5. The repeal of Part 4 (commencing with Section 23000) of Title 3 of the Corporations Code shall not subject to liability any shareholder, as such, of a real estate investment trust who was entitled to the benefits afforded by such part at the effective date of this act.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect.

(a) With regard to Section 2 of this act, the facts constituting such necessity are:

The economic condition of the real estate investment trust industry is such that many real estate investment trusts are in danger of becoming unavoidably disqualified under the provisions of the Federal Internal Revenue Code applicable to real estate investment trusts, or it is necessary or desirable for such trusts to disqualify themselves under those provisions for the benefit of their shareholders; and under the present provisions of the Corporations Code, such disqualification might lead to a revocation of the permits previously granted to them by the Commissioner of Corporations or the revocation of the finding that they are real estate investment trusts as defined in the Corporations Code, thereby possibly imposing personal liability upon the public shareholders of the trusts for the debts and obligations of the trusts.

(b) With regard to Section 4 of this act, the facts constituting such necessity are:

The action of the United States Congress in enacting Sections 856, 857 and 858 of the Internal Revenue Code of 1954, concurred in by the California Legislature in extending conduit tax treatment to real

estate investment trusts in 1968, was to afford an opportunity for the small investor to participate in large real estate investments with expert management on a scale previously available only to a few wealthy individuals; to encourage the growth of such investment trusts to increase the funds available for equity financing of the large real estate developments and redevelopments needed in metropolitan areas; and to avoid the inherent inequity of double taxation, particularly for the small investors.

By reason of the recent recession and unanticipated negative developments in the real estate sector of the economy these expressed legislative purposes are now being largely thwarted. As a result, the United States Congress adopted remedial legislation to deal with these emergency problems on the basis that immediate action was needed.

Immediate action is needed in California to clarify the application of Section 24413 of the Revenue and Taxation Code to foreclosure property of real estate investment trusts in order to continue to stimulate the flow of badly needed capital in the depressed real estate market in California and to prevent the flow of existing capital out of California.

CHAPTER 651

An act to amend Section 6523 of the Health and Safety Code, relating to sanitary district regulations.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 6523 of the Health and Safety Code is amended to read:

6523. A violation of a regulation or ordinance of a district is a misdemeanor punishable by imprisonment in the county jail not to exceed 30 days, or by a fine not to exceed one thousand dollars ($1,000), or by both.

CHAPTER 652

An act to amend Sections 1345, 1351, 1356, 1375, 1376, 1382, 1383, 1384, and 1389, of, and to add Sections 1372 and 1375.1 to, and to repeal Section 1372 of, the Health and Safety Code, and to amend Section 6 of Chapter 941 of the Statutes of 1975, relating to health care service plans, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1345 of the Health and Safety Code is amended to read:

1345. As used in this chapter:

(b) In addition to other fees and reimbursements required to be paid under this chapter, each licensed plan shall pay to the commissioner on or before the 15th day of December of each year, as a reimbursement of its share of all costs and expenses reasonably incurred in the administration of this chapter and not otherwise recovered by the commissioner, including overhead, an amount as estimated by the commissioner for the ensuing year and for any deficit for prior years. The amount paid by each plan shall be five hundred dollars ($500) plus an amount up to but not exceeding eighteen cents ($0.18) for each family unit enrolled in its plan in this state as of the preceding June 30th and shall be fixed by the commissioner by notice to all licensed plans on or before November 15th of each year. In determining the amount assessed, the commissioner shall consider all fees and other reimbursements provided for in this chapter and, insofar as practicable, balance total revenues and reimbursements with total expenditures under this chapter. For the purpose of this section, a family unit is a household composed of one or more individuals.

SEC. 3. Section 1372 of the Health and Safety Code is repealed.

SEC. 3.1. Section 1372 is added to the Health and Safety Code, to read:

Subject to the applicable provisions of this chapter, a plan may offer one or more plan contracts or specialized health care service plan contracts, except that a specialized health care service plan contract shall not offer one or more basic health care services except as may be permitted by rule or order of the commissioner. Advertising, disclosure forms, contract forms, and evidences of coverage for more than one type of plan contract or specialized health care service plan contract, or both, may not be used except as authorized by the commissioner pursuant to this chapter.

SEC. 3.2. Section 1375 of the Health and Safety Code is amended to read:

1375. (a) Except as provided in subdivision (d) or (e), every plan shall maintain an agreement, held unobjectionable by the commissioner, with an unrelated subsequent provider who may be an insurer, a health facility or medical service corporation, another licensed plan, or a governmental organization to provide the payment of the cost of the originally contracted health care service or to provide the originally contracted health care service in the event the plan ceases to do business, because of business failure, suspension of or revocation of its license, or any other reason. For purposes of this section, "unrelated subsequent provider" means a person who is not, directly or indirectly, controlled by, under common control with, or in control of the plan or of any officer, director, employee, or person providing financial support of the plan. Upon a finding by the commissioner that the purposes of this chapter and the public interest are fully served, the commissioner may waive

the requirement that the subsequent provider shall be an unrelated entity.

(b) In the event of failure, suspension or revocation of a plan, the subsequent provider shall, at least 15 days prior to cessation of operation, notify in writing, all subscribers and enrollees as to such cessation and as to the manner in which health care services will be paid for or provided to them after the cessation date by the subsequent provider.

(c) The requirement of a subsequent provider of health care services to subscribers and enrollees in the event of a discontinuance of services may be satisfied by an agreement between two or more plans licensed under this chapter. Such agreement shall be expressly approved by the commissioner, if the commissioner finds that:

(1) Each plan has the financial resources to meet such an obligation.

(2) Each plan has facilities sufficiently close to the service area of the other to minimize inconvenience to subscribers and enrollees of the nonfunctioning plan.

(3) Each plan has the personnel available, or can obtain the personnel, to provide adequate services to the subscribers and enrollees of the nonfunctioning plan.

(d) After five continuous years of active operation, a plan may apply to the commissioner for an exemption from the requirements of subdivision (a). Any plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the Government Code prior to its repeal shall be able to count its years of continuous operation under Article 2.5 toward the exemption requirements of this subdivision. The commissioner shall grant such an exemption if the commissioner finds upon application that:

(1) In the case of a plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the Government Code prior to its repeal, the plan has continuously maintained for the preceding 12-month period a tangible net equity of not less than seven hundred fifty thousand dollars ($750,000). The commissioner may waive the provisions of this paragraph if the commissioner finds such action to be in the public interest.

(2) The plan has not been found to be significantly in violation of the fiscal requirements of this chapter in the preceding two years.

(3) The commissioner specifically finds that the operation of the plan is such that the subscribers and enrollees are protected from the likelihood of the plan's failure.

(e) A plan which meets the requirements of Section 1375.1 may apply to the commissioner for an exemption from the requirement of subdivision (a).

(f) If after having been granted the exemption contained in subdivision (d) or (e), the plan fails to meet the requirements of the exemption, the provisions of subdivision (a) shall be reapplied by the commissioner following a hearing.

(g) Upon denial of the application, the commissioner shall notify

the applicant in writing, stating the reasons for the denial and that the applicant has the right to a hearing if the applicant makes a written request within 30 days after the date of the mailing of the notice of denial.

SEC. 3.3. Section 1375.1 is added to the Health and Safety Code, to read:

1375.1. (a) Every plan shall demonstrate to the commissioner that it has:

(1) A fiscally sound operation and adequate provision against the risk of insolvency; and

(2) Assumed full financial risk on a prospective basis for the provision of covered health care services, except that a plan may obtain insurance or make other arrangements for the cost of providing to any subscriber or enrollee covered health care services, the aggregate value of which exceeds five thousand dollars ($5,000) in any year, for the cost of covered health care services provided to its members other than through the plan because medical necessity required their provision before they could be secured through the plan, and for not more than 90 percent of the amount by which its costs for any of its fiscal years exceed 115 percent of its income for such fiscal year.

(b) In determining whether the conditions of this section have been met, the commissioner shall consider, but not be limited to, the following:

(1) The financial soundness of the plan's arrangements for health care services and the schedule of rates and charges used by the plan.

(2) The adequacy of working capital.

(3) Agreements with providers for the provision of health care services.

(c) For the purposes of this section, "covered health care services" means health care services provided under all plan contracts.

SEC. 4. Section 1376 of the Health and Safety Code is amended to read:

1376. (a) No plan or solicitor firm shall conduct any activity regulated by this chapter in contravention of such rules and regulations as the commissioner may prescribe as necessary or appropriate in the public interest or for the protection of plans, subscribers, and enrollees to provide safeguards with respect to the financial responsibility of plans and solicitor firms. Such rules and regulations may require a minimum capital or net worth, limitations on indebtedness, procedures for the handling of funds or assets, including segregation of funds, assets and net worth, the maintenance of appropriate insurance and a fidelity bond, and the maintenance of a surety bond in an amount not exceeding ten thousand dollars ($10,000).

(b) The surety bond referred to in subdivision (a) shall be conditioned upon compliance by the licensee with the provisions of this chapter and the rules and regulations adopted pursuant to this

chapter and orders issued under this chapter. Such bond, unless previously canceled, shall apply to the entire period that the license is in effect. Every surety bond shall provide that no suit may be maintained to enforce any liability thereon unless brought within two years after the act upon which such suit is based, and shall also provide that the liability of the surety on such bond to all persons aggrieved shall, in no event, exceed in the aggregate the amount thereof. Every such bond shall also contain a provision authorizing the surety thereon to cancel the bond upon 30 days' written notice to the licensee and to the commissioner; except that such cancellation shall not affect any liability incurred or accrued prior to the effective date of such cancellation.

(c) Any appropriate deposits of cash or securities shall be accepted in lieu of the surety bond required pursuant to subdivision (a).

SEC. 5. Section 1382 of the Health and Safety Code is amended to read:

1382. (a) The commissioner shall conduct an examination of the fiscal and administrative affairs of any plan, and each person with whom the plan has made arrangements with for administrative, management, or financial services, as often as deemed necessary to protect the interest of subscribers or enrollees, but not less frequently than once every five years.

(b) The expense of conducting an examination pursuant to this section, and of the medical survey pursuant to Section 1380 shall be charged against the plan being examined or surveyed. The amount shall include the actual salaries or compensation paid to the persons making such examination or survey, the expenses incurred in the course thereof, and overhead costs in connection therewith as fixed by the commissioner. The amount charged shall be remitted by the plan to the commissioner.

SEC. 6. Section 1383 of the Health and Safety Code is amended to read:

1383. Every plan licensed pursuant to this chapter shall file an annual report with the department. Such report shall be filed on or before the 15th day of September of each year and shall be for the preceding fiscal year ending the 30th day of June. Except as otherwise provided herein, the information required in the annual report shall be provided upon request to the plan's enrollees and subscribers, and interested members of the public.

(a) The annual report shall be verified by a person responsible for conduct of the affairs of the licensee within the meaning of Section 1351.

(b) The report shall be made in a form prescribed by the commissioner and shall include the following:

(1) Financial statements as of June 30th of the year in which the report is made. All such financial statements shall be prepared on an accrual basis.

(2) The statistical report required by the commissioner pursuant

0 4098 29 2265 704

to Section 1371.

(3) Such other information relating to the performance or organization of the plan as the commissioner deems necessary to carry out the provisions of this chapter. The commissioner may provide that specified information furnished pursuant to this paragraph be withheld from public inspection for an appropriate period, if the commissioner finds that such action is necessary for the protection of plans and in the public interest; but nothing in this paragraph shall preclude the commissioner from making such information public when in the commissioner's opinion the public interest so requires.

(c) For purposes of this section, a plan may provide the information required in the annual report to its subscribers and enrollees by publication in any annual mailing designed to reach individual subscribers and enrollees at their regular mailing address.

SEC. 7. Section 1384 of the Health and Safety Code is amended to read:

1384. (a) Within 90 days after receipt of a request from the commissioner, a plan or other person subject to this chapter shall submit to the commissioner an audit report containing audited financial statements covering the 12 calendar months next preceding the month of receipt of the request, or such other period as the commissioner may require. Unless the public interest shall otherwise require, the commissioner shall exempt a licensee from the provisions of Section 1383, in whole or in part, if such licensee has complied with a request pursuant to this subdivision for financial statements as of a date within the calendar or fiscal year for which such exemption is granted.

(b) A plan whose license has been surrendered or revoked shall submit to the commissioner on or before 105 days after the effective date of such surrender or revocation, a closing audit report containing audited financial statements as of such effective date for the 12 months ending with such effective date, or for such other period as the commissioner may specify. Such report shall include the information requested by Section 1383 and other relevant information specified by the commissioner. A licensee who has complied with this subdivision is exempted from Section 1383.

(c) Each plan shall submit financial statements prepared as of the close of its fiscal year within 120 days after the close of such fiscal year. The financial statements referred to in this subdivision and in subdivisions (a) and (b) of this section shall be accompanied by a report, certificate, or opinion of an independent certified public accountant or independent public accountant. The audits shall be conducted in accordance with generally accepted auditing standards and the rules and regulations of the commissioner.

(d) A plan or solicitor firm shall make such special reports to the commissioner as the commissioner may from time to time require.

(e) For good cause and upon written request, the commissioner may extend the time for compliance with subdivisions (a), (b) and

(h) of this section and Section 1383.

(f) A plan or solicitor firm shall, when requested by the commissioner, for good cause, submit its unaudited financial statement, prepared in accordance with generally accepted accounting principles and consisting of at least a balance sheet and statement of income as of the date and for the period specified by the commissioner. The commissioner may require the submission of such reports on a monthly or other periodic basis.

(g) If the report, certificate, or opinion of the independent accountant referred to in subdivision (c) is in any way qualified, the commissioner may require the plan to take such action as the commissioner deems appropriate to permit an independent accountant to remove such qualification from the report, certificate, or opinion.

(h) The commissioner may reject any financial statement, report, certificate, or opinion filed pursuant to this section by notifying the plan or solicitor firm required to make such filing of its rejection and the cause thereof. Within 30 days after the receipt of such notice, the licensee shall correct such deficiency, and the failure so to do shall be deemed a violation of this chapter. The commissioner shall retain a copy of all filings so rejected.

(i) The commissioner may make rules and regulations specifying the form and content of the reports and financial statements referred to in this section, and may require that such reports and financial statements be verified by the licensee in such manner as the commissioner may prescribe.

SEC. 8. Section 1389 of the Health and Safety Code is amended to read:

1389. (a) A person whose license has been revoked, or suspended for more than one year, may petition the commissioner to reinstate the license as provided by Section 11522 of the Government Code. No petition may be considered if the petitioner is under criminal sentence for a violation of this chapter, or any offense which would constitute grounds for discipline, or denial of licensure under this chapter, including any period of probation or parole.

(b) The petition for restoration shall be in the form of an application for the appropriate license and the commissioner may condition the granting of such petition upon payment of the fees for the current year prescribed by Section 1356 or 1357, as may be appropriate, and if such fees have not been paid, upon the filing of the report required by Section 1383 if the petitioner is a plan.

(c) If a license issued under this chapter is suspended, the holder thereof shall not be entitled to operate during the term of suspension.

SEC. 9. Section 6 of Chapter 941 of the Statutes of 1975 is amended to read:

Sec. 6. All actions commenced by the Attorney General prior to July 1, 1976, under the provisions of the Knox-Mills Health Plan Act

shall be continued to final judgment by the Attorney General.

SEC. 10. This act shall become operative July 1, 1976.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The amendment to Section 1356 of the Government Code changes the date for payment of the annual assessment by plans licensed under the Knox-Keene Health Care Service Plan Act of 1975 from June 30th to December 15th of each year. This amendment will enable the Commissioner of Corporations to provide for the support of the Knox-Keene Health Care Service Plan Act of 1975 during the 1977 calendar year. It is, therefore, necessary that this act take immediate effect.

CHAPTER 653

An act to amend Section 232 of the Civil Code, relating to parental custody and control.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 232 of the Civil Code is amended to read:

232. (a) An action may be brought for the purpose of having any person under the age of 18 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(1) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another for a period of six months or by one parent in the care and custody of the other parent for a period of one year without any provision for his support, or without communication from such parent or parents, with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents. In those cases in which the child has been left without provision for his identification and the whereabouts of the parents are unknown, a petition may be filed after the 120th day following the discovery of the child and citation by publication may

be commenced. The petition may not be heard until after the 180th day following the discovery of the child.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(2) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(3) Whose parent or parents suffer a disability because of the habitual use of alcohol, or any of the controlled substances specified in Schedules I to V, inclusive, of Division 10 (commencing with Section 11000) of the Health and Safety Code, except when such controlled substances are used as part of a medically prescribed plan, or are morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such disability, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such parent or parents. As used in this subdivision, "disability" means any physical or mental incapacity which renders the parent or parents unable to adequately care for and control the child.

(4) Whose parent or parents are convicted of a felony, if the felony of which such parent or parents were convicted is of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child, or if any term of sentence of such parent or parents is of such length that the child will be deprived of a normal home for a period of years.

(5) Whose parent or parents have been declared by a court of competent jurisdiction wherever situated to be mentally deficient or mentally ill, if, in the state or country in which the parent or parents are hospitalized or resident, the State Director of Health, or his equivalent, if any, and the superintendent of the hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(6) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two physicians and surgeons each of which must have been

certified either by the American Board of Psychiatry and Neurology or under Section 6750 of the Welfare and Institutions Code. If, however, the parent or parents reside in another state or in a foreign country, the testimony herein may be supplied by two physicians and surgeons who are residents of such state or foreign country, if such physicians and surgeons have been certified by a medical organization or society of that state or foreign country to practice psychiatric or neurological medicine and if the court determines that the certification requirements of such organization or society are comparable to those of the American Board of Psychiatry and Neurology.

The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the court shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

(7) Who has been cared for in one or more foster homes under the supervision of the juvenile court, the county welfare department or other public or private licensed child-placing agency for two or more consecutive years, providing that the court finds by clear and convincing evidence that return of the child to his parent or parents would be detrimental to the child and that the parent or parents have failed during such period, and are likely to fail in the future, to

(i) Provide a home for said child;

(ii) Provide care and control for the child;

(iii) Maintain an adequate parental relationship with the child; and

(iv) Maintain continuous contact with the child, unless unable to do so.

Physical custody of the child by the parent or parents for insubstantial periods of time during the required two-year period will not serve to interrupt the running of such period.

(b) A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

CHAPTER 654

An act to amend Section 739 of the Welfare and Institutions Code, relating to children.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

4 2034 29 2 360 723

The people of the State of California do enact as follows:

SECTION 1. Section 739 of the Welfare and Institutions Code is amended to read:

739. (a) Whenever any person is taken into temporary custody under the provisions of Article 6 (commencing with Section 625) of this chapter and is in need of medical, surgical, dental, or other remedial care, the probation officer may, upon the recommendation of the attending physician or, if the person needs dental care and there is an attending dentist, the attending dentist, authorize the performance of such medical, surgical, dental, or other remedial care. The probation officer shall notify the parent, guardian, or person standing in loco parentis of the person, if any, of the care found to be needed before such care is provided, and if the parent, guardian, or person standing in loco parentis objects, such care shall be given only upon order of the court in the exercise of its discretion.

(b) Whenever it appears to the juvenile court that any person concerning whom a petition has been filed with the court is in need of medical, surgical, dental, or other remedial care, and that there is no parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize such remedial care or treatment for such person, the court, upon the written recommendation of a licensed physician or, if the person needs dental care, a licensed dentist, and after due notice to the parent, guardian, or person standing in loco parentis, if any, may make an order authorizing the performance of the necessary medical, surgical, dental, or other remedial care for such person.

(c) Whenever a ward or dependent child of the juvenile court is placed by order of the court within the care and custody or under the supervision of the probation officer of the county in which the ward or dependent child resides and it appears to the court that there is no parent, guardian, or person standing in loco parentis capable of authorizing or willing to authorize medical, surgical, dental, or other remedial care or treatment for the ward or dependent child, the court may, after due notice to the parent, guardian, or person standing in loco parentis, if any, order that the probation officer may authorize such medical, surgical, dental, or other remedial care for the ward or dependent child, by licensed practitioners, as may from time to time appear necessary.

(d) Whenever it appears that a minor otherwise within the provisions of subdivision (a), (b), or (c) requires immediate emergency medical, surgical, dental, or other remedial care, or whenever the probation officer cannot, with reasonable diligence, locate and notify the parent, guardian, or person standing in loco parentis of the need of the minor for such care, the court, upon the written recommendation of a licensed physician or, if the minor needs dental care, a licensed dentist may make an order authorizing, or the probation officer, upon the written recommendation of a licensed physician or, if the minor needs dental care, a licensed

dentist may authorize, the performance of such care as is reasonably necessary under the circumstances, without notice to the parent, guardian, or person standing in loco parentis.

(e) In any case in which the court orders the performance of any medical, surgical, dental, or other remedial care pursuant to this section, the court may also make an order authorizing the release of information concerning such care to probation officers, parole officers, or any other qualified individuals or agencies caring for or acting in the interest and welfare of the minor under order, commitment, or approval of the court.

(f) Nothing in this section shall be construed as limiting the right of a parent, guardian, or person standing in loco parentis, who has not been deprived of the custody or control of the minor by order of the court, in providing any medical, surgical, dental, or other remedial treatment recognized or permitted under the laws of this state.

(g) The parent of any person described in this section may authorize the performance of medical, surgical, dental, or other remedial care provided for in this section notwithstanding his or her age or marital status. In nonemergency situations the parent authorizing the care shall notify the other parent prior to the administration of such care.

(h) Whenever a peace officer takes a minor into temporary custody pursuant to subdivision (a) of Section 625 on the grounds that the minor is a person described in Section 600, the peace officer may, if the probation officer concurs verbally or in writing in the need therefor, authorize a medical examination or dental examination sufficient to certify the minor as having no significant illness or injury which may otherwise threaten his health or life or the health or life of others whom such minor may contact at the place of custody. Such examination shall normally be noninvasive and performed prior to, or in the process of, delivering the custody of such minor to the probation officer.

As used in this subdivision, "noninvasive" means diagnostic procedures which do not involve the insertion of needles, cannulas, or other devices that require penetration of the skin.

CHAPTER 655

An act to add and repeal Section 1643 to the Insurance Code, relating to insurance.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that:

(1) As a result of mergers and the growth of bank holding companies, financial resources are becoming increasingly concentrated;

(2) Under rulings of the Federal Reserve Board, holding companies controlling a major share of such resources have been authorized to engage in several lines of nonbanking business activity;

(3) The question, whether Federal Reserve Board authorization for bank holding companies to enter the insurance agency business is a proper interpretation of the intent of Congress when enacting the 1970 amendments to the Bank Holding Company Act of 1956, is presently before the U.S. Court of Appeals, 5th Circuit;

(4) The Congress has before it legislation which would substantially limit or restrict such activity by bank holding companies; and

(5) The question whether bank holding company entry into the insurance agency business will bring benefits to the public that outweigh possible adverse effects is sufficiently important to California consumers as to require thorough study by the Legislature.

SEC. 2. Section 1643 is added to the Insurance Code, to read:

1643. No bank, or bank holding company, subsidiary, or affiliate thereof, or any officer or employee of a bank, bank holding company, subsidiary, or affiliate, may be licensed as an insurance agent or broker, or act as an agent or broker for insurance, in this state, or control a licensed insurance agent or broker, except that a bank or a bank holding company subsidiary, or affiliate of a bank, may be issued a license to act as a life and disability agent limited to the transaction of credit life and disability insurance, and a commercial bank may be licensed to sell insurance or act as an insurance broker as provided in Section 1208 of the Financial Code. The commissioner shall, after notice and hearing, revoke the license of any insurance agent or broker controlled by a bank, or bank holding company, subsidiary, or affiliate thereof, or any officer or employee of a bank, bank holding company, subsidiary, or affiliate. This section shall not apply to any bank or bank holding company which, under the authorization of the Federal Reserve Board, had prior to January 1, 1976, a subsidiary or affiliate licensed to sell insurance (except that subsequent authorization to expand such activities shall be subject to this section), or to any bank holding company owning a state-chartered bank which had, prior to January 1, 1976, a subsidiary or affiliate licensed to sell insurance. This section shall not apply to any person authorized or licensed to make loans pursuant to either Division 7 (commencing with Section 18000) or Division 9 (commencing with Section 22000) of the Financial Code.

For the purposes of this section, the following definitions shall apply:

(a) "Bank" means any institution in this state defined in Section 102 of the Financial Code except that such term does not include a

title insurance company authorized to transact a trust business under the provisions of Article 4 (commencing with Section 12390) of Chapter 1, Part 6, of Division 2 or a trust company controlled by or under common control with a title insurance company.

(b) "Bank holding company" means the same as the definition of that term set forth in Section 2 of the Federal "Bank Holding Company Act of 1956," as amended, but limited to holding companies which control a bank authorized to accept deposits in this state.

(c) "Subsidiary" means any corporation, association, or partnership, owned in whole or part by a bank or bank holding company.

(d) "Affiliate" means any corporation, association, or partnership connected through the ownership of a 10-percent or greater interest by a common parent.

(e) "Credit life, health, and accident insurance" means insurance on the life and health of a borrower from a bank issued to secure the repayment of the amount borrowed.

(f) "Control" means the possession, by any means, of the power to direct or cause the direction of the management or activities of a licensed insurance agent or broker.

This act shall remain in effect only until December 31, 1979, and as of such date is repealed, unless a later enacted statute, which is chaptered before December 31, 1979, deletes or extends such date.

SEC. 3. It is the intent of the Legislature that, in the event the Federal Reserve Board approves an application of a bank holding company controlling a bank in California to sell property and casualty insurance, the Department of Insurance shall hold a public hearing to determine the effect licensing of such entity would have on California consumers in the areas of availability, cost, and servicing of such insurance; and that the Department of Insurance shall evaluate for the Legislature the testimony of interested parties, including but not limited to, banks, insurance agents, and consumer organizations.

SEC. 4. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

CHAPTER 656

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

01667 292460 743

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any other provisions of Chapter 1 (commencing with Section 29000) of Division 3 of Title 3 of the Government Code, the board of supervisors of a county of over 6,000,000 population may on or before September 15, 1976, amend its 1976–77 budget resolution for the purpose of reducing appropriations contained therein; provided, however, that any such local agency shall comply with the provisions of Section 54956 of the Government Code prior to the reopening of the budget deliberations.

SEC. 2. Notwithstanding the fact that a legal opinion has been rendered by the Los Angeles County Counsel's office to the effect that the Board of Supervisors of the County of Los Angeles does not presently have the authority conferred upon it by this act, this act shall not be construed so as to prejudice the existing authority of other counties to take such actions as are authorized by this act for the County of Los Angeles.

SEC. 3. It is the intent of the Legislature in enacting this statute to allow the board of supervisors of a county with over 6,000,000 population to reopen its 1976–77 budget.

SEC. 4. Notwithstanding the provisions of Sections 29100 and 29100.1 of the Government Code or any other provisions of law, for a county with a population of over 6,000,000, property tax rates for all local agencies, as defined in Section 2211 of the Revenue and Taxation Code, shall be fixed for the 1976–77 fiscal year on or before September 15, 1976.

SEC. 5. This act is an urgency statute necessary for immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that local agency budget expenditures reflect the actual current fiscal position of Los Angeles County, it is necessary that this act take immediate effect.

CHAPTER 657

An act to amend Section 10242 of the Business and Professions Code, relating to real estate loans.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 10242 of the Business and Professions Code is amended to read:

10242. The maximum amount of expenses, charges and interest to be paid by a borrower with respect to any loan subject to the

provisions of this article shall be as follows:

(b) The maximum amount of the charges referred to in subdivision (b) of Section 10241 shall not exceed the following amounts:

(1) In the case of a loan secured directly or collaterally, in whole or in part by a first trust deed, five percent (5%) of the principal amount of the loan where the term of the loan is a period of less than three (3) years and ten percent (10%) where the term is a period of three (3) years or more.

(2) In the case of a loan secured directly or collaterally by a trust deed other than a first trust deed, five percent (5%) of the principal amount of the loan where the term of the loan is a period of less than two (2) years, ten percent (10%) where the term is a period of two (2) years but less than three (3) years, and fifteen percent (15%) where the term is a period of three (3) years or more.

(3) With respect to a further advance on a note, the charges shall not exceed the charges for an original loan in the same amount as the further advance and made for a term equal to the remaining term of the note on which the further advance is being made, including any extension thereof.

(c) No loan secured directly or collaterally by a lien on real property shall be made which provides for payment of interest in excess of ten percent (10%) per year except as provided by the Section 22 of Article XX of the California Constitution adopted November 6, 1934, and as implemented by the Statutes of 1919, page LXXXIII, known as the "Usury Law" (an initiative measure approved by electors on November 5, 1918).

(d) No interest may be charged with respect to any period prior to the date that the proceeds of the loan are made available to the borrower or are deposited in escrow.

SEC. 2. Section 10242 of the Business and Professions Code is amended to read:

10242. The maximum amount of expenses, charges and interest to be paid by a borrower with respect to any loan subject to the provisions of this article shall be as follows:

(a) The maximum amount of all costs and expenses referred to in subdivision (a) of Section 10241 shall not exceed five percent (5%) of the principal amount of the loan or one hundred ninety-five dollars ($195), whichever is greater but in no event to exceed three hundred twenty-five dollars ($325), provided that in no event shall said maximum amount exceed actual costs and expenses paid, incurred or reasonably earned.

02159 292510 753

(b) The maximum amount of the charges referred to in subdivision (b) of Section 10241 shall not exceed the following amounts:

(1) In the case of a loan secured directly or collaterally, in whole or in part by a first trust deed, five percent (5%) of the principal amount of the loan where the term of the loan is a period of less than three (3) years and ten percent (10%)' where the term is a period of three (3) years or more.

(c) No loan secured directly or collaterally by a lien on real property shall be made which provides for payment of interest in excess of that permitted by Section 1 of Article XV of the California Constitution adopted June 8, 1976, as amended, and as implemented by the Statutes of 1919, page LXXXIII, known as the "Usury Law" (an initiative measure approved by electors on November 5, 1918).

(d) No interest may be charged with respect to any period prior to the date that the proceeds of the loan are made available to the borrower or are deposited in escrow.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 4. It is the intent of the Legislature, if this bill and Senate Bill No. 2144 are both chaptered and amend Section 10242 of the Business and Professions Code, and this bill is chaptered after Senate Bill No. 2144, that the amendments to Section 10242 proposed by both bills be given effect and incorporated in Section 10242 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 2144 are both chaptered, both amend Section 10242, and Senate Bill No. 2144 is chaptered before this bill, in which case Section 1 of this act shall not become operative.

CHAPTER 658

An act to amend Sections 16141, 16142, 16146, and 16153 of, to add Section 16142.5 to, and to repeal Section 16152 of, the Government Code, relating to open-space lands, making an appropriation therefor.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 16141 of the Government Code is amended to read:

16141. It is the purpose of this chapter to provide replacement revenues to local government by reason of the reduction of the property tax on open-space lands assessed under Sections 423 and 423.5 of the Revenue and Taxation Code. Notwithstanding any other provisions of this chapter, no subvention payments to a county, city, city and county, or school district shall be made pursuant to this chapter for land enforceably restricted pursuant to the Open-Space Easement Act of 1974 (Chapter 6.6 (commencing with Section 51070) of Part 1 of Division 1 of Title 5).

SEC. 2. Section 16142 of the Government Code is amended to read:

16142. The Secretary of the Resources Agency shall direct the Controller to pay annually out of the funds appropriated by Section 16140, to each eligible county, city, or city and county the following amounts for each acre of land within its regulatory jurisdiction that is assessed pursuant to Section 423 or 423.5 of the Revenue and Taxation Code:

(a) Eight dollars ($8) for prime agricultural land as defined in Section 51201 of this code which is within, or within three miles of the boundaries of, each incorporated city with a population of 25,000 or more as annually determined by the Department of Finance.

(b) Five dollars ($5) for prime agricultural land, as defined in Section 51201 of this code which is:

(1) Within each incorporated city with a population of 15,000 or more and less than 25,000 as annually determined by the Department of Finance; or

(2) Within three miles of the boundaries of an incorporated city with a population of 15,000 or more, as annually determined by the Department of Finance, in any county not qualifying for a payment as provided for in (a) above. If more than one city with a population of 15,000 or more and less than 25,000 lies within a county, the county shall determine the city which is to be used in calculating the payment.

(c) One dollar ($1) for all other prime agricultural land.

(d) Forty cents ($0.40) for all land, other than prime agricultural

land, which is devoted to open-space uses of statewide significance defined in Section 16143.

The amount per acre in subdivision (a) may be increased by the Secretary of the Resources Agency to a figure which would offset any savings due to a more restrictive determination by the secretary as to what land is devoted to open-space use of statewide significance.

SEC. 3. Section 16142.5 is added to the Government Code, to read:

16142.5. (a) For the fiscal year 1977–78, no payment to a city or county shall increase or reduce the amount which would have been paid to the city or county under the provisions of Section 16142 as it existed on March 1, 1976, as applied to land assessed pursuant to Section 423 or 423.5 of the Revenue and Taxation Code for the fiscal year 1977–78, in excess of an amount which is equal to the property tax derived from a levy at the rate of three cents ($0.03) per hundred dollars of assessed value.

(b) For fiscal years subsequent to the fiscal year 1977–78, no payment to a city or county shall increase or reduce the amount which was paid in the prior fiscal year in excess of an amount which is equal to the property tax derived from a levy at the rate of three cents ($0.03) per hundred dollars of assessed value for such fiscal year, except as affected by an increase or a reduction in the acreage assessed under the provisions of Section 423 or 423.5 of the Revenue and Taxation Code.

SEC. 4. Section 16146 of the Government Code is amended to read:

16146. The Secretary of the Resources Agency may determine, after notice and hearing, that a local government is ineligible to receive state payments pursuant to this article by reason of its failure to comply with the provision of Article 10.5 (commencing with Section 65560) of Chapter 3 of Title 7 of this code, or with the provisions of any program which establishes an enforceable restriction upon which the assessment of land within its jurisdiction pursuant to Section 423 or 423.5 of the Revenue and Taxation Code is based. The fact that a local government has not complied with the requirements of Article 10.5 (commencing with Section 65560) of Chapter 3 of Title 7 by the dates set forth in that article shall not be reason to determine that the local government is ineligible to receive state payments if the local government has complied by July 1 of the year in which application is made. This section shall not be construed to require the disqualification of any land from assessment pursuant to Section 423 or 423.5 of the Revenue and Taxation Code as a consequence of any determination of ineligibility by the secretary.

SEC. 5. Section 16152 of the Government Code is repealed.

SEC. 6. Section 16153 of the Government Code is amended to read:

16153. Notwithstanding any other provision of this chapter, state disbursements under this chapter by reason of property assessed pursuant to Sections 423 and 423.5 of the Revenue and Taxation Code

shall not exceed thirteen million dollars ($13,000,000) in the 1972–1973 fiscal year, twenty-two million dollars ($22,000,000) in the 1973–1974 fiscal year, and twenty-four million dollars ($24,000,000) in the 1974–1975 fiscal year. In the 1975–1976 fiscal year, state disbursements shall not exceed 115 percent of the state disbursements in the 1974–1975 fiscal year. The amounts provided for in this section may be exceeded by any amounts deposited in the State General Fund under Sections 51061 and 51283.

If claims by local governmental agencies exceed the limitation of this section, reductions in state disbursements shall be made on a pro rata per-acre basis, first on funds to local governments for nonprime lands described in subdivision (d) of Section 16142 and prime lands described in subdivision (c) of Section 16142, second on funds to local governments for prime lands described in subdivision (a) and subdivision (b) of Section 16142, and third to school district disbursements.

SEC. 7. The intent of the Legislature is to reallocate the open-space subventions to give greater priority to lands which are threatened with development or urbanization. It is also the intent of the Legislature that the provisions of this bill apply only until a revised system is developed by the state to more clearly express its interest in the preservation of certain categories of land.

care services or to establish eligibility.

Upon presentation of the Medi-Cal card or other proof of eligibility, the provider shall submit a Medi-Cal claim for reimbursement, subject to the rules and regulations of the Medi-Cal program. Payment received from the state in accordance with Medi-Cal fee structures shall constitute payment in full. The provider shall return any and all payments made by the beneficiary, or any person on behalf of the beneficiary, for Medi-Cal program covered services upon receipt of Medi-Cal payment.

SEC. 2. Section 14153 of the Welfare and Institutions Code is amended to read:

14153. Funds shall be advanced monthly to the respective counties for costs of administration of the Medi-Cal program in the manner prescribed in Chapter 9 (commencing with Section 15000) of this part.

Funds may be advanced monthly to the respective counties for the costs of care under the provisions of this chapter upon the order of the Director of Finance and the Director of Health utilizing resources made available through the Health Care Deposit Fund.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The department shall determine, in each case, whether or not the veteran was wounded or disabled as a result of service.

The following group shall be given second preference in the benefits conferred by this article:

(a) The unremarried spouse of individuals who were members of the armed forces on active military duty, entered active duty while in the State of California, lived in this state for six months immediately preceding his or her entry into active duty, and were killed in the line of duty while on active duty.

(b) Members of the armed forces who entered active military duty while in the State of California, lived in this state for six months preceding his or her entry into active duty, and were held as prisoners of war.

(c) The unremarried spouse of members of the armed forces who entered active military duty while in the State of California, lived in this state for six months preceding his or her entry into active duty, and have been designated by the armed forces as missing in action.

Veterans discharged or released from active duty within 10 years of their application to the department, shall be given third preference in the benefits conferred by this article.

Nothing in this section regarding preferences shall affect any eligibility requirement for benefits conferred by this article.

SEC. 2. Section 987.61 of the Military and Veterans Code is amended to read:

987.61. The department may purchase property, subject to a participation contract providing for a loan term of not less than 23 years. In no event shall the purchase price plus the participation contract exceed thirty-five thousand dollars ($35,000).

SEC. 3. Section 987.65 of the Military and Veterans Code is amended to read:

987.65. The purchase price of a home to the department shall not exceed the sum of thirty-five thousand dollars ($35,000), except that the purchase price of a mobilehome to the department shall not exceed twelve thousand five hundred dollars ($12,500), and a veteran purchasing the home may advance, subject to the provisions of Section 987.64, the difference between the total price or cost of the home and the sum of the purchase price of the home to the department and any amount the department is required under Section 987.69 of this code to add to the purchase price of the home in fixing the selling price thereof to the veteran. Subject to these limitations, any amount over thirty thousand dollars ($30,000) of the purchase price to the department may be provided by funds from

participation contracts or revenue bonds. The purchase price of a farm to the department shall not exceed eighty thousand dollars ($80,000), and a veteran purchasing the farm may advance the difference between the total price of the farm or cost of the dwelling and improvements to be constructed on a farm under a contract and the sum of such purchase price to the department or contract price to the department and any amount which the department is required under Section 987.69 of this code to add to such purchase or contract price to the department in fixing the selling price of the farm to the veteran.

SEC. 4. Section 987.90 of the Military and Veterans Code is amended to read:

987.90. For the purposes of carrying out the provisions of the Veterans' Farm and Home Purchase Act of 1974, there is hereby appropriated, and the department is hereby authorized to utilize, the proceeds derived from the Veterans Bond Act of 1974 and from all subsequent veterans bond acts. The department is authorized to combine such funds up to a percent to be established by the Veterans Finance Committee and reported to the Legislature annually with funds derived from participation contracts.

SEC. 5. It is the purpose of this act to increase the flexibility of the Department of Veterans' Affairs in utilizing general obligation bond, participation contract, and revenue bond funds for veterans' home loans, and nothing in this act shall be construed as limiting the authority the department would otherwise have in utilizing such funding sources for veterans' home loans.

CHAPTER 663

An act to amend Sections 1003.10, 1003.13, 1006.11, 1006.13 and 1006.16 of the Military and Veterans Code, relating to the Veterans' Revenue Debenture Act of 1970.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 1003.10 of the Military and Veterans Code is amended to read:

1003.10. There is in the State Treasury a revolving fund known as the Veterans' Farm and Home Building Fund of 1970. Proceeds of sale of debentures shall be deposited in this fund. Money may be withdrawn from such fund in accordance with law upon requisition of the department for the purpose of carrying out the Veterans' Farm and Home Purchase Act of 1974.

SEC. 2. Section 1003.13 of the Military and Veterans Code is amended to read:

1003.13. Prior to the issuance of any debentures the department is authorized to deposit in any reserve fund created for the further security of the debentures, as the initial deposit therein, cash or securities equal to the minimum amounts required to be maintained therein by any resolution of issuance. Excess money in the reserve fund or account not required to be maintained therein by the provisions of any resolution of issuance may be withdrawn at the request of the department and transferred to the Veterans' Farm and Home Building Fund of 1970 and used and applied for the purpose of carrying out the Veterans' Farm and Home Purchase Act of 1974.

SEC. 3. Section 1006.11 of the Military and Veterans Code is amended to read:

1006.11. This chapter shall be liberally construed to carry out the objects and purposes and the declared public policy of the State of California as in this chapter set forth. The facts with which the Legislature is fully cognizant are:

The State of California is committed to aid and assist veterans under the Veterans' Farm and Home Purchase Act of 1974. Increasing numbers of servicemen who served in Vietnam are being discharged and need home loans. The Cal-Vet loan program must be updated to provide comparable benefits to those provided veterans of World War II and the Korean Conflict. Conditions in the money market render it impracticable for the State of California in conformity with its other commitments to continue to raise funds for veterans' aid through the issuance and sale of general obligation bonds of the state. There is now in the Department of Veterans Affairs a backlog of applications which cannot be processed because funds are inadequate to meet the demand for loans. This act provides another method whereby the State of California will be able to raise the necessary funds for the aid and assistance of veterans through the issuance of revenue debentures payable exclusively from the proceeds of contracts of sale of properties acquired by the department from veterans' revenue debenture proceeds and resold to veterans without imposing any liability upon the State of California and without creating any debt or liability of the State of California. The urgent requirements of veterans and the necessity of raising funds immediately for their aid and assistance render it essential that this law be adopted.

SEC. 4. Section 1006.13 of the Military and Veterans Code is amended to read:

1006.13. This chapter shall not operate to rescind or repeal any act of the State of California now or hereafter enacted providing for the issuance of general obligation bonds of the State of California for the purpose of financing the Veterans' Farm and Home Purchase Act of 1974 or for purposes similar to those set forth in the Veterans' Farm and Home Purchase Act of 1974 provided such bonds are either payable out of the General Fund of the State of California or the full faith and credit of said state is pledged for the payment of both the

03259 29395 798

principal of and interest thereon.

SEC. 5. Section 1006.16 of the Military and Veterans Code is amended to read:

1006.16. All applications for the benefits contained in this article shall be filed with the department within 25 years from the date of the applicant's discharge from the service.

CHAPTER 664

An act to amend Section 25600 of the Public Resources Code, relating to energy.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 25600 of the Public Resources Code is amended to read:

25600. The commission shall develop and coordinate a program of research and development in energy supply, consumption, and conservation and the technology of siting facilities and shall give priority to those forms of research and development which are of particular importance to the state, including, but not limited to, all of the following:

(a) Methods of energy conservation specified in Chapter 5 (commencing with Section 25400).

(b) Increased energy use efficiencies of existing thermal electric and hydroelectric powerplants and increased energy efficiencies in designs of thermal electric and hydroelectric powerplants.

(c) Expansion and accelerated development of alternative sources of energy, including geothermal and solar resources, including, but not limited to, participation in large-scale demonstrations of alternative energy systems sited in California in cooperation with federal agencies, regional compacts, other state governments, and other participants. For purposes of this subdivision, "participation" shall be defined as any of the following: (1) direct interest in a project, (2) research and development to insure acceptable resolution of environment and other impacts of alternative energy systems, (3) research and development to improve siting and permitting methodology for alternative energy systems, (4) experiments utilizing the alternative energy systems, and (5) research and development of appropriate methods to insure the widespread utilization of economically useful alternative energy systems. Large-scale demonstrations of alternative energy systems are exemplified by the $100KW_e$ to $100MW_e$ range demonstrations of solar, wind, and geothermal systems contemplated by federal agencies, regional compacts, other state governments, and other

participants.

(d) Improved methods of construction, design, and operation of facilities to protect against seismic hazards.

(e) Improved methods of energy demand forecasting.

(f) To accomplish the purposes of subdivision (c), an amount not more than one-half of the total state funds appropriated for the solar energy research and development program as proposed in the budget prepared pursuant to Section 25603 shall be allocated for large-scale demonstration of alternative energy systems.

CHAPTER 665

An act to add Chapter 9 (commencing with Section 5830) to Division 5 of the Public Resources Code, relating to the Bushy Lake preservation.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 5830) is added to Division 5 of the Public Resources Code, to read:

CHAPTER 9. BUSHY LAKE PRESERVATION

5830. This chapter may be cited as the Bushy Lake Preservation Act.

5831. As used in this chapter, unless the context clearly requires a different meaning:

(a) "California Exposition flood plain" means that portion of state-owned California Exposition land in the American River flood plain as it exists on January 1, 1977.

(b) "Bushy Lake area" means that portion of the California Exposition flood plain bounded by the continuous line enclosing Bushy Lake, which line is 100 feet outside the 25-foot elevation contour line as limited on the north side by the waterside toe of the levee and as limited on the west side by a line 100 feet east of State Highway Route 80 as it exists on January 1, 1977.

(c) "Bushy Lake" means a body of water in the Bushy Lake area with approximately 11 acres of water surface in the summer and approximately 80 acres in the winter.

(d) "Lower American River" means that portion of the American River between Nimbus Dam and the confluence of the American River with the Sacramento River.

5832. The Legislature finds and declares that:

(a) The lower American River is in the California Wild and Scenic Rivers System as designated in subdivision (e) of Section 5093.54, and

has thus been determined by the Legislature as possessing extraordinary scenic, recreational, fishery, and wildlife values.

(b) The County of Sacramento and the City of Sacramento have developed the American River Parkway, a 23-mile open-space greenbelt in the lower American River flood plain, and have promulgated land use regulations to prevent urban and other incompatible encroachment into the parkway.

(c) The California Exposition flood plain contains an unprotected block of significant riparian habitat remaining in the lower American River flood plain, and the United States Fish and Wildlife Service has determined that this riparian habitat is of vital importance and an integral part of the American River.

5833. The department shall preserve, for public day use and enjoyment, the California Exposition flood plain in a manner consistent with the definition of a state park in accordance with the provisions of subdivision (c) of Section 5001.5, except that the parking of public and private vehicles may be permitted only during the State Fair and only on the flood plain land abutting the riverside toe of the levee as it exists on January 1, 1977, beginning at least 400 feet east of the Bushy Lake area and extending not more than 1,500 feet along the toe of such levee eastward of the Bushy Lake area and extending not more than a distance of 300 feet riverward from such levee.

5834. The department shall preserve the Bushy Lake area in accordance with the provisions of subdivision (f) of Section 5001.5. The department may allow group picnics and vehicles found essential for such picnics in an area designated by the department on the north side of Bushy Lake, commonly known as "picnic island."

5835. In enacting this chapter, it is not the intent of the Legislature to require removal, or preclude use, repair, or additional construction of, highways, electric transmission lines, sewage lines, or waterlines through the California Exposition flood plain. Further, it is not the intent of the Legislature to preclude the use of emergency vehicles, maintenance vehicles, or vehicles necessary for the construction of parkway facilities.

CHAPTER 666

An act to amend Sections 1785.1, 1785.3, 1785.15, 1785.16, 1785.17, 1785.20, 1786.22, and 1786.26 of, to amend and renumber Sections 1785.31, 1785.32, 1785.33, and 1785.34 of, to add Sections 1785.20.5, 1785.21, 1785.30, and 1785.31 to, and to repeal Section 1785.30 of, the Civil Code, relating to credit reporting.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1785.1 of the Civil Code is amended to read:

1785.1. The Legislature finds and declares as follows:

(a) An elaborate mechanism has been developed for investigating and evaluating the credit worthiness, credit standing, credit capacity, and general reputation of consumers.

(b) Consumer credit reporting agencies have assumed a vital role in assembling and evaluating consumer credit and other information on consumers.

(c) There is a need to insure that consumer credit reporting agencies exercise their grave responsibilities with fairness, impartiality, and a respect for the consumer's right to privacy.

(d) It is the purpose of this title to require that consumer credit reporting agencies adopt reasonable procedures for meeting the needs of commerce for consumer credit, personnel, insurance, and other information in a manner which is fair and equitable to the consumer, with regard to the confidentiality, accuracy, relevancy, and proper utilization of such information in accordance with the requirements of this title.

(e) The Legislature hereby intends to regulate consumer credit reporting agencies pursuant to this title in a manner which will best protect the interests of the people of the State of California.

(f) The extension of credit is a privilege and not a right. Nothing in this title shall preclude a creditor from denying credit to any applicant providing such denial is based on factors not inconsistent with present law.

(g) Any clauses in contracts existing between creditors and credit reporters which prohibit any action by either the reporter or the creditor required by this title are not in the public interest and shall be considered unenforceable. This shall not invalidate the other terms of such a contract.

SEC. 2. Section 1785.3 of the Civil Code is amended to read:

1785.3. The following terms as used in this title have the meaning expressed in this section:

(a) The term "person" means any individual, partnership, corporation, trust, estate, cooperative, association, government or governmental subdivision or agency, or other entity.

(b) The term "consumer" means a natural individual.

(c) The term "consumer credit report" means any written, oral, or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, or credit capacity, which is used or is expected to be used, or collected in whole or in part, for the purpose of serving as a factor in establishing the consumer's eligibility for: (1) credit to be used primarily for personal, family, or household purposes, or (2) employment purposes, or (3) other purposes authorized in Section 1785.11.

The term does not include: (1) any report containing information solely as to transactions or experiences between the consumer and the person making the report, or (2) any authorization or approval

of a specific extension of credit directly or indirectly by the issuer of a credit card or similar device, or (3) any report by a person conveying a decision whether to make a specific extension of credit directly or indirectly to a consumer in response to a request by a third party, if the third party advises the consumer of the name and address of the person to whom the request was made and such person makes the disclosures to the consumer required under Section 1785.20, or (4) any report containing information solely on a consumer's character, general reputation, personal characteristics, or mode of living which is obtained through personal interviews with neighbors, friends, or associates of the consumer reported on, or others with whom he is acquainted or who may have knowledge concerning any such items of information.

(d) The term "consumer credit reporting agency" means any person who, for monetary fees, dues, or on a cooperative nonprofit basis, regularly engages in whole or in part in the practice of assembling or evaluating consumer credit information or other information on consumers for the purpose of furnishing consumer reports to third parties, but does not include any governmental agency whose records are maintained primarily for traffic safety, law enforcement, or licensing purposes.

(e) The term "file" when used in connection with information on any consumer, means all of the information on that consumer recorded and retained by a consumer credit reporting agency regardless of how the information is stored.

(f) The term "employment purposes", when used in connection with a consumer credit report, means a report used for the purpose of evaluating a consumer for employment, promotion, reassignment, or retention as an employee.

(g) "Item of information" means any of one or more informative entries in a credit report which causes a creditor to deny credit to an applicant or increase the cost of credit to an applicant.

SEC. 3. Section 1785.15 of the Civil Code is amended to read:

1785.15. (a) A consumer credit reporting agency shall supply files and information required under Section 1785.10 during normal business hours and on reasonable notice.

(b) Files maintained on a consumer shall be disclosed as follows:

(1) In person, if he or she appears in person and furnishes proper identification. The consumer shall be provided with a decoded version of the file or a copy of the file with an explanation of any code used.

(2) By mail, if the consumer makes a written request with proper identification for a copy of the file or a decoded version of such file to be sent to the consumer at a specified address. Consumer credit reporting agencies complying with requests for mailings under this section shall not be liable for disclosures to third parties caused by mishandling of mail after such mailings leave the consumer reporting agencies.

(3) A summary of all information contained in files on a consumer

and required to be provided by Section 1785.10 shall be provided by telephone, if the consumer has made a written request, with proper identification for telephone disclosure, and the toll charge, if any, for the telephone call is prepaid by or charged directly to the consumer.

(c) The term "proper identification" as used in subdivision (b) shall mean that information generally deemed sufficient to identify a person. Only if the consumer is unable to reasonably identify himself with the information described above, may a consumer credit reporting agency require additional information concerning the consumer's employment and personal or family history in order to verify his identity.

(d) The consumer credit reporting agency shall provide trained personnel to explain to the consumer any information furnished him pursuant to Section 1785.10.

(e) The consumer shall be permitted to be accompanied by one other person of his choosing, who shall furnish reasonable identification. A consumer credit reporting agency may require the consumer to furnish a written statement granting permission to the consumer credit reporting agency to discuss the consumer's file in such person's presence.

SEC. 4. Section 1785.16 of the Civil Code is amended to read:

1785.16. (a) If the completeness or accuracy of any item of information contained in his file is disputed by a consumer, and such dispute is conveyed directly to the consumer credit reporting agency by the consumer or user on behalf of the consumer, the consumer credit reporting agency shall within a reasonable period of time reinvestigate and record the current status of the disputed information unless it has reasonable grounds to believe that the dispute by the consumer is frivolous or irrelevant. If the consumer credit reporting agency determines that the dispute is frivolous or irrelevant, it shall notify the consumer in writing within five days after such determination is made that it will not reinvestigate the item of information. In this notification, the consumer credit reporting agency shall state the specific reasons why it has determined that the consumer's dispute is frivolous or irrelevant. If a reinvestigation is made and, after reinvestigation, the disputed item of information is found to be missing, inaccurate, or can no longer be verified, the consumer credit reporting agency shall promptly add, correct, or delete such information from the consumer's file and shall notify the consumer that such information has been added, corrected, or deleted. The presence of information in the consumer's file that contradicts the contention of the consumer shall not, in and of itself, constitute reasonable grounds for believing the dispute is frivolous or irrelevant.

(b) If the consumer credit reporting agency determines that the dispute is frivolous or irrelevant, or if the reinvestigation does not resolve the dispute, the consumer may file a brief statement setting forth the nature of the dispute. The consumer credit reporting agency may limit such statements to not more than 100 words if it

provides the consumer with assistance in writing a clear summary of the dispute.

(c) Whenever a statement of dispute is filed, the consumer credit reporting agency shall, in any subsequent consumer credit report containing the information in question, clearly note that the information is disputed by the consumer and shall include in the report either the consumer's statement or a clear and accurate summary thereof.

(d) Following the deletion of information from a consumer's file pursuant to subdivision (a), or following the filing of a dispute pursuant to subdivision (b), the consumer credit reporting agency shall, at the request of the consumer, furnish notification that the item of information has been deleted or that the item of information is disputed. In the case of disputed information, the notification shall include the statement or summary of the dispute filed pursuant to subdivision (b). Such notification shall be furnished to any person, specifically designated by the consumer, who has, within two years prior to the deletion or the filing of the dispute, received a consumer credit report concerning the consumer for employment purposes, or who has, within six months of the deletion or the filing of the dispute, received a consumer credit report concerning the consumer for any other purpose, if such consumer credit reports contained the deleted or disputed information. The consumer credit reporting agency shall clearly and conspicuously disclose to the consumer his rights to make a request for notification. Such disclosure shall be made at or prior to the time the information is deleted or the consumer's statement regarding the disputed information is received.

SEC. 5. Section 1785.17 of the Civil Code is amended to read:

1785.17. A consumer credit reporting agency shall make all disclosures pursuant to Sections 1785.10 and 1785.15 and furnish all consumer reports pursuant to Section 1785.16 as follows:

(1) Without charge, if requested by the consumer within 30 days after receipt by such consumer of a notification of adverse action pursuant to Section 1785.20 or of a notification from a debt collection agency affiliated with such consumer credit reporting agency stating that the consumer's credit rating may be or has been adversely affected. There may be imposed a reasonable charge if the disclosure requires the preparation of special material.

(2) The consumer credit reporting agency may otherwise impose a reasonable charge on the consumer for making disclosures to such consumer pursuant to Section 1785.10 and Section 1785.16 and for any other services rendered to the consumer.

(3) Any charges shall be indicated to the consumer prior to disclosure and may not cover notification of the deletion of information which is found to be inaccurate or which can no longer be verified.

(4) A reasonable charge for disclosure under this section cannot exceed five dollars ($5). A reasonable charge for other services rendered to the consumer shall not exceed those charges made to a

user of the consumer credit reporting agency's services.

SEC. 6. Section 1785.20 of the Civil Code is amended to read:

1785.20. (a) Whenever credit for personal, family, or household purposes involving a consumer is denied or the charge for such credit is increased either wholly or partly because of information contained in a consumer credit report from a consumer credit reporting agency, the user of the consumer credit report shall:

(1) Supply the name and address of the consumer credit reporting agency making the report.

(2) Provide a statement of reasons for the credit denial. A user satisfies this obligation by:

(A) Providing statements of reasons in writing as a matter of course to a consumer denied credit; or

(B) Giving written notification of credit denial which discloses:

(i) The consumer's right to a statement of reasons within 30 days after receipt by the user of a request made within 60 days after such notification, and

(ii) The identity and address of the person or office from which the statement of reasons may be obtained.

(C) The statement of reasons may be given orally if the written notification advises the consumer of the right to have the statement of reasons confirmed in writing on written request.

(3) A statement of reasons meets the requirements of this section only if it contains the specific reasons for the credit denial.

(4) Where a creditor has been requested by a third party to make a specific extension of credit directly or indirectly to an applicant, the notification and statement of reasons required by this section may be made directly by such creditor, or indirectly through the third party, provided in either case that the identity of the creditor is disclosed.

(5) For purposes of this section:

(A) The term "applicant" means a natural person who applies for credit primarily for personal, family, or household purposes.

(B) The term "credit denial" means a denial or revocation of credit, a change in the terms of an existing credit arrangement, or a refusal to grant credit in substantially the amount or on substantially the terms requested. Such term does not include a refusal to extend additional credit under an existing credit arrangement where the applicant is delinquent or otherwise in default, or where such additional credit would exceed a previously established credit limit without a specific written application or written request for an increase in the credit limit.

(C) The term "creditor" refers only to creditors who regularly extend, or arrange for the extension of, credit whether in connection with loans, sales of property or services, or otherwise.

(b) Whenever credit for personal, family, or household purposes involving a consumer is denied or the charge for such credit is increased either wholly or in part because of information obtained from a person other than a consumer credit reporting agency bearing upon the consumer's credit worthiness or credit standing,

the user of such information shall within 30 days after receipt of the consumer's written request for the reasons for such adverse action received within 60 days after learning of such adverse action, disclose the nature and substance of the information to the consumer. The user of such information shall clearly and accurately disclose to the consumer his right to make such written request at the time such adverse action is communicated to the consumer.

(c) No person shall be held liable for any violation of this section if he shows by a preponderance of the evidence that at the time of the alleged violation he maintained reasonable procedures to assure compliance with the provisions of this section.

SEC. 7. It is the intent of the Legislature that if this bill and Senate Bill No. 973 of the 1975–76 Regular Session are both chaptered to become effective at any time in 1977, then Section 6 of this act shall not become operative and Section 1785.20 of the Civil Code shall remain in the form in which it read immediately prior to the effective date of this act.

SEC. 7.5. Section 1785.20.5 is added to the Civil Code, to read:

1785.20.5. Whenever employment involving a consumer is denied either wholly or partly because of information contained in a consumer credit report from a consumer credit reporting agency, the user of the consumer credit report shall so advise the consumer against whom the adverse action has been taken and supply the name and address or addresses of the consumer credit reporting agency making the report. No person shall be held liable for any violation of this section if he shows by a preponderance of the evidence that, at the time of the alleged violation, he maintained reasonable procedures to assure compliance with this section.

SEC. 8. Section 1785.21 is added to the Civil Code, to read:

1785.21. (a) A user in its discretion may notify the consumer that upon request the user may contact the consumer reporting agency and request that the consumer reporting agency investigate the current status of an item or items of information contained in the consumer report if the consumer disputes the completeness or accuracy of an item or items of information as provided to the user.

(b) The consumer credit reporting agency may require identification from the user to insure the validity of the request and, in that regard, may require that the request be put in writing with proper identification.

(c) In the event that any such request is made and identification given in the form or manner demanded by the consumer credit reporting agency, such agency shall review the file of the consumer and report the current status of the disputed information to the user and the consumer by the most expeditious means possible.

(d) No user who furnishes information pursuant to this section shall be liable to any person for furnishing such information.

SEC. 9. Section 1785.30 of the Civil Code is repealed.

SEC. 10. Section 1785.30 is added to the Civil Code, to read:

1785.30. Upon notification of the results of a reporter's

reinvestigation pursuant to Section 1785.16, an applicant may make a written demand on any person furnishing information to the reporter to correct any information which the applicant believes to be inaccurate. The person upon whom such written demand is made shall acknowledge the demand within 30 days. The applicant may require the reporter to indicate on any subsequent reports issued during the dispute that the item or items of information are in dispute. If upon investigation the information is found to be inaccurate or incorrect, the applicant may require the reporter to delete or correct such item or items of information within a reasonable time. If within 90 days the reporter does not receive any information from the person requested to furnish the same or any communication relative to such information from such person, the applicant may require the reporter to delete such information from the report.

SEC. 11. Section 1785.31 of the Civil Code is amended and renumbered to read:

1785.32. Except as provided in Section 1785.31, no consumer may bring any action or proceeding in the nature of defamation, invasion of privacy or negligence with respect to the reporting of information against any consumer reporting agency, any user of information, or any person who furnishes information to a consumer reporting agency, based on information disclosed pursuant to Section 1785.10, 1785.15 or 1785.20 of this title, except as to false information furnished with malice or willful intent to injure such consumer.

SEC. 12. Section 1785.31 is added to the Civil Code, to read:

1785.31. (a) Any applicant who suffers damages as a result of a violation of this title by any person, may bring an action in a court of appropriate jurisdiction against such person to recover the following:

(1) In the case of a negligent violation, actual damages, including court costs, loss of wages, attorney's fees and, when applicable, pain and suffering.

(2) In the case of a willful violation:

(A) Actual damages as set forth in paragraph (1) above:

(B) Punitive damages of not less than one hundred dollars ($100) nor more than five thousand dollars ($5,000) for each violation as the court deems proper;

(C) Any other relief which the court deems proper.

(b) In addition to any other remedy contained in this section, injunctive relief shall be available to any applicant aggrieved by a violation or a threatened violation of this title.

(c) Notwithstanding any other provision of this section, any person who willfully violates any requirement imposed under this title may be liable for punitive damages in the case of a class action, in such amount that the court may allow. In determining the amount of award in any class action, the court shall consider among relevant factors the amount of any actual damages awarded, the frequency of the violations, the resources of the violator and the number of

persons adversely affected.

(d) The prevailing parties in any action commenced under this section shall be entitled to recover court costs and reasonable attorney's fees.

SEC. 13. Section 1785.32 of the Civil Code is amended and renumbered to read:

1785.33. INTERSTATE CORRECTIONS COMPACT

Article I

Purpose and Policy

The party states, desiring by common action to fully utilize and improve their institutional facilities and provide adequate programs for the confinement, treatment and rehabilitation of various types of offenders, declare that it is the policy of each of the party states to provide such facilities and programs on a basis of cooperation with one another, thereby serving the best interests of such offenders and of society and effecting economies in capital expenditures and operational costs. The purpose of this compact is to provide for the mutual development and execution of such programs of cooperation for the confinement, treatment and rehabilitation of offenders with the most economical use of human and material resources.

Article II

Definitions

As used in this compact, unless the context clearly requires otherwise:

(a) "State" means a state of the United States; the United States of America; a territory or possession of the United States; the District of Columbia; the Commonwealth of Puerto Rico.

(b) "Sending state" means a state party to this compact in which conviction or court commitment was had.

(c) "Receiving state" means a state party to this compact to which an inmate is sent for confinement other than a state in which conviction or court commitment was had.

(d) "Inmate" means a male or female offender who is committed, under sentence to or confined in a penal or correctional institution.

(e) "Institution" means any penal or correctional facility, including but not limited to a facility for the mentally ill or mentally defective, in which inmates as defined in (d) above may lawfully be confined.

Article III

Contracts

(a) Each party state may make one or more contracts with any one or more of the other party states for the confinement of inmates on behalf of a sending state in institutions situated within receiving states. Any such contract shall provide for:

1. Its duration.
2. Payments to be made to the receiving state by the sending state

for inmate maintenance, extraordinary medical and dental expenses, and any participation in or receipt by inmates of rehabilitative or correctional services, facilities, programs or treatment not reasonably included as part of normal maintenance.

3. Participation in programs of inmate employment, if any; the disposition or crediting of any payments received by inmates on account thereof; and the crediting of proceeds from or disposal of any products resulting therefrom.

4. Delivery and retaking of inmates.

5. Such other matters as may be necessary and appropriate to fix the obligations, responsibilities and rights of the sending and receiving states.

(b) The terms and provisions of this compact shall be a part of any contract entered into by the authority of or pursuant thereto, and nothing in any such contract shall be inconsistent therewith.

Article IV

Procedures and Rights

(a) Whenever the duly constituted authorities in a state party to this compact, and which has entered into a contract pursuant to Article III, shall decide that confinement in, or transfer of an inmate to, an institution within the territory of another party state is necessary or desirable in order to provide adequate quarters and care or an appropriate program of rehabilitation or treatment, said officials may direct that the confinement be within an institution within the territory of said other party state, the receiving state to act in that regard solely as agent for the sending state.

(b) The appropriate officials of any state party to this compact shall have access, at all reasonable times, to any institution in which it has a contractual right to confine inmates for the purpose of inspecting the facilities thereof and visiting such of its inmates as may be confined in the institution.

(c) Inmates confined in an institution pursuant to the terms of this compact shall at all times be subject to the jurisdiction of the sending state and may at any time be removed therefrom for transfer to a prison or other institution within the sending state, for transfer to another institution in which the sending state may have a contractual or other right to confine inmates, for release on probation or parole, for discharge, or for any other purpose permitted by the laws of the sending state; provided that the sending state shall continue to be obligated to such payments as may be required pursuant to the terms of any contract entered into under the terms of Article III.

(d) Each receiving state shall provide regular reports to each sending state on the inmates of that sending state in institutions pursuant to this compact including a conduct record of each inmate and certify said record to the official designated by the sending state, in order that each inmate may have official review of his or her

record in determining and altering the disposition of said inmate in accordance with the law which may obtain in the sending state and in order that the same may be a source of information for the sending state.

(e) All inmates who may be confined in an institution pursuant to the provisions of this compact shall be treated in a reasonable and humane manner and shall be treated equally with such similar inmates of the receiving state as may be confined in the same institution. The fact of confinement in a receiving state shall not deprive any inmate so confined of any legal rights which said inmate would have had if confined in an appropriate institution of the sending state.

(f) Any hearing or hearings to which an inmate confined pursuant to this compact may be entitled by the laws of the sending state may be had before the appropriate authorities of the sending state, or of the receiving state if authorized by the sending state. The receiving state shall provide adequate facilities for such hearings as may be conducted by the appropriate officials of a sending state. In the event such hearing or hearings are had before officials of the receiving state, the governing law shall be that of the sending state and a record of the hearing or hearings as prescribed by the sending state shall be made. Said record together with any recommendations of the hearing officials shall be transmitted forthwith to the official or officials before whom the hearing would have been had if it had taken place in the sending state. In any and all proceedings had pursuant to the provisions of this subdivision, the officials of the receiving state shall act solely as agents of the sending state and no final determination shall be made in any matter except by the appropriate officials of the sending state.

(g) Any inmate confined pursuant to this compact shall be released within the territory of the sending state unless the inmate, and the sending and receiving states, shall agree upon release in some other place. The sending state shall bear the cost of such return to its territory.

(h) Any inmate confined pursuant to the terms of this compact shall have any and all rights to participate in and derive any benefits or incur or be relieved of any obligations or have such obligations modified or his status changed on account of any action or proceeding in which he could have participated if confined in any appropriate institution of the sending state located within such state.

(i) The parent, guardian, trustee, or other person or persons entitled under the laws of the sending state to act for, advise, or otherwise function with respect to any inmate shall not be deprived of or restricted in his exercise of any power in respect of any inmate confined pursuant to the terms of this compact.

01320 293385 856

Article V

Acts Not Reviewable in Receiving State: Extradition

(a) Any decision of the sending state in respect of any matter over which it retains jurisdiction pursuant to this compact shall be conclusive upon and not reviewable within the receiving state, but if at the time the sending state seeks to remove an inmate from an institution in the receiving state there is pending against the inmate within such state any criminal charge or if the inmate is formally accused of having committed within such state a criminal offense, the inmate shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment or detention for such offense. The duly accredited officers of the sending state shall be permitted to transport inmates pursuant to this compact through any and all states party to this compact without interference.

(b) An inmate who escapes from an institution in which he is confined pursuant to this compact shall be deemed a fugitive from the sending state and from the state in which the institution is situated. In the case of an escape to a jurisdiction other than the sending or receiving state, the responsibility for institution of extradition or rendition proceedings shall be that of the sending state, but nothing contained herein shall be construed to prevent or affect the activities of officers and agencies of any jurisdiction directed toward the apprehension and return of an escapee.

Article VI

Federal Aid

Any state party to this compact may accept federal aid for use in connection with any institution or program, the use of which is or may be affected by this compact or any contract pursuant hereto and any inmate in a receiving state pursuant to this compact may participate in any such federally aided program or activity for which the sending and receiving states have made contractual provision, provided that if such program or activity is not part of the customary correctional regimen, the express consent of the appropriate official of the sending state shall be required therefor.

Article VII

Entry Into Force

This compact shall enter into force and become effective and binding upon the states so acting when it has been enacted into law by any two states. Thereafter, this compact shall enter into force and

become effective and binding as to any other of said states upon similar action by such state.

Article VIII

Withdrawal and Termination

This compact shall continue in force and remain binding upon a party state until it shall have enacted a statute repealing the same and providing for the sending of formal written notice of withdrawal from the compact to the appropriate officials of all other party states. An actual withdrawal shall not take effect until one year after the notices provided in said statute have been sent. Such withdrawal shall not relieve the withdrawing state from its obligations assumed hereunder prior to the effective date of withdrawal. Before the effective date of withdrawal, a withdrawing state shall remove to its territory, at its own expense, such inmates as it may have confined pursuant to the provisions of this compact.

Article IX

Other Arrangements Unaffected

Nothing contained in this compact shall be construed to abrogate or impair any agreement or other arrangement which a party state may have with a nonparty state for the confinement, rehabilitation or treatment of inmates nor to repeal any other laws of a party state authorizing the making of cooperative institutional arrangements.

Article X

Construction and Severability

The provisions of this compact shall be liberally construed and shall be severable. If any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters.

SEC. 3. Section 11191 of the Penal Code is amended to read:

11191. Any court or other agency or officer of this state having power to commit or transfer an inmate (as defined in Article II(d) of the Interstate Corrections Compact or of the Western Interstate Corrections Compact) to any institution for confinement may

01320 293425 864

commit or transfer such inmate to any institution within or without this state if this state has entered into a contract or contracts for the confinement of inmates in said institution pursuant to Article III of the Interstate Corrections Compact or of the Western Interstate Corrections Compact, but no inmate sentenced under California law may be committed or transferred to an institution outside of this state, unless he has executed a written consent to the transfer. The inmate shall have the right to a private consultation with an attorney of his choice, or with a public defender if the inmate cannot afford counsel, concerning his rights and obligations under this section, and shall be informed of such right prior to executing the written consent. At any time more than five years after the transfer, the inmate shall be entitled to revoke his consent and to transfer to an institution in this state. In such cases, the transfer shall occur within the next 30 days.

SEC. 4. Section 11193 of the Penal Code is amended to read:

11193. Any inmate sentenced under California law who is imprisoned in another state, pursuant to a compact, shall be entitled to all hearings, within 120 days of the time and under the same standards, which are normally accorded to persons similarly sentenced who are confined in institutions in this state. If the inmate consents in writing, such hearings may be conducted by the corresponding agencies or officials of such other jurisdiction. The Adult Authority, or the California Women's Board of Terms and Parole, as appropriate, or its duly authorized representative is hereby authorized and directed to hold such hearings as may be requested by such other jurisdiction or the inmate pursuant to this section or to Article IV(f) of the Interstate Corrections Compact or of the Western Interstate Corrections Compact.

SEC. 6. Section 11194 of the Penal Code is amended to read:

11194. The Director of Corrections is hereby empowered to enter into such contracts on behalf of this state as may be appropriate to implement the participation of this state in the Interstate Corrections Compact and the Western Interstate Corrections Compact pursuant to Article III thereof. No such contract shall be of any force or effect until approved by the Director of General Services. Such contracts may authorize confinement of inmates in, or transfer of inmates from, only such institutions in this state as are under the jurisdiction of the Department of Corrections, and no such contract may provide for transfer out of this state of any person committed to the custody of the Director of the Youth Authority. No such contract may authorize the confinement of an inmate, who is in the custody of the Director of Corrections, in an institution of a state other than a state that is a party to the Interstate Corrections Compact or to the Western Interstate Corrections Compact. The Director of Corrections, subject to the approval of the Adult Authority or the California Women's Board of Terms and Parole as appropriate, must first determine, on the basis of an inspection made by his direction, that such institution of another state is a suitable

01320 293445 868

place for confinement of prisoners committed to his custody before entering into a contract permitting such confinement, and shall, at least annually, redetermine the suitability of such confinement. In determining the suitability of such institution of another state, the director shall assure himself that such institution maintains standards of care and discipline not incompatible with those of the State of California and that all inmates therein are treated equitably, regardless of race, religion, color, creed or national origin.

SEC. 7. Section 11195 of the Penal Code is amended to read:

11195. Every prisoner released from a prison without this state to which he has been committed or transferred from this state pursuant to this article shall be entitled to the same benefits, including, but not limited to money and tools, as are allowed to a prisoner released from a prison in this state. Any person who has been sent to another state for confinement pursuant to this article shall be released within the territory of this state unless the person, the Director of Corrections of California, and the corresponding agency or official of the other state shall agree upon release in some other place. This state shall bear the cost of transporting the person to the place of release.

SEC. 8. Section 11197 is added to the Penal Code, to read:

11197. No person sentenced under California law who is committed or transferred to an institution outside of this state shall be competent to testify for the prosecution in any criminal proceeding in this state unless counsel for each defendant in such proceeding is notified that the prosecution may call the person as a witness and is given an opportunity to interview the person no less than 10 days before the commencement of the proceeding or, in the event the prosecution is not at that time considering the possibility of using such testimony, the notice and opportunity for interview shall be given at the earliest possible time. Nothing in this section shall be construed to compel the prisoner to submit to such an interview.

CHAPTER 668

An act to add Chapter 10.8 (commencing with Section 25940) to Division 20 of the Health and Safety Code, and to amend Section 561 of the Public Utilities Code, relating to smoking.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.8 (commencing with Section 25940) is added to Division 20 of the Health and Safety Code, to read:

02291 293465 872

CHAPTER 10.8. SMOKING IN PUBLIC PLACES

25940. This chapter shall be known and may be cited as the California Indoor Clean Air Act of 1976.

25490.5. The Legislature finds and declares that tobacco smoke is a hazard to the health of the general public.

25941. Within indoor rooms, indoor chambers, or indoor places of public assembly in publicly owned buildings in which public business is conducted requiring or providing direct participation or observation by the general public there shall be a contiguous area of not less than 50 percent of the total area of such room, chamber or place designated and posted by signs of sufficient number and posted in such locations as to be readily seen by persons within such area, where the smoking of tobacco is prohibited while a public meeting is in process. A public body, commission, agency, or other entity conducting a public meeting may waive the requirements of this section with respect to its own members, provided that the rights of nonsmoking members are not adversely affected.

25942. Every publicly owned health facility, as defined in Section 1250, and clinic, as defined in Section 1203, shall comply with the following:

(a) Shall make every reasonable effort to assign patients to rooms according to the patient's individual nonsmoking or smoking preference.

(b) Shall designate and post by signs of sufficient number and posted in such locations as to be readily seen by persons within such area, a contiguous area of not less than 20 percent of every cafeteria or other dining area whose occupied capacity is 50 or more persons as a nonsmoking section.

(c) This section shall not prevent any health facility or clinic from banning smoking in any area which it may designate and post by sign or in all areas of the facility or clinic.

25943. Within every publicly owned building open to the general public for the primary purpose of exhibiting any motion picture, stage drama, music recital, or any other performance, with the exception of any indoor sporting event, signs shall be posted in sufficient number and in such locations as to be readily seen by persons within such area, which shall designate that the smoking of tobacco is prohibited in any area other than that commonly known as the lobby. Such prohibition shall not apply except during those times when the building is actually open to the public.

25944. Within every restaurant in a publicly owned building serving food or alcoholic beverages in rooms whose occupied capacity is 50 or more persons there shall be designated and posted by signs of sufficient number and posted in such locations as to be readily seen by persons within such area, a contiguous area of not less than 20 percent of the serving area where the smoking of tobacco is prohibited.

(a) This section shall not apply to banquet rooms in use for private

02291 293475 874

functions.

(b) This section shall not apply to premises under lease as a restaurant for such time as the lessee of record on January 1, 1977, has a lease as the operator of the restaurant.

(c) As used in this section, "restaurant" means any place designated as a restaurant by Section 28522.

25945. Any person may apply for a writ of mandate to compel compliance by any public entity which has not complied with the requirements of this chapter for the designating or posting of nonsmoking areas or areas where the smoking of tobacco is prohibited. If judgment is given for the applicant, he may recover all reasonable costs of suit, including reasonable attorney fees, reasonableness to be determined by the court.

25946. The Legislature declares its intent not to preempt the field of regulation of the smoking of tobacco. A local governing body may ban completely the smoking of tobacco, or may regulate such smoking in any manner not inconsistent with this chapter or any other provision of state law.

SEC. 1.5. Section 561 of the Public Utilities Code is amended to read:

561. (a) Every railroad corporation, passenger stage corporation, passenger air carrier, and street railroad corporation providing departures originating in this state shall provide contiguous designated space of not less than 50 percent of the seats for their nonsmoking passengers.

(b) Every such corporation and carrier shall display in the passenger seating area of every passenger car, passenger stage, aircraft, or other vehicle, notices sufficient in number, posted in such locations as to be readily seen by boarding passengers, advising the location of the space designated for the nonsmoking passengers pursuant to subdivision (a). Words on such notices which state "No Smoking" or an equivalent phrase shall be at least three-quarters of one inch high, and any other explanatory words on the notices shall be at least one-quarter of an inch high.

(c) No person shall smoke any tobacco product in a space known by him to be designated for nonsmoking passengers. A violation of this subdivision is not a crime.

(d) As used in this section, "passenger air carrier" shall have the same meaning as provided in Sections 2741 and 2743.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

02291 293485 876

SEC. 4. This act shall become operative on April 1, 1977.

CHAPTER 669

SECTION 1. Section 1032b of the Code of Civil Procedure is amended to read:

1032b. (a) When any process is served by a person other than a public officer or employee, the court in which the action is pending shall allow as a recoverable cost such sum as it deems proper for such service, but not exceeding the amount allowed to a public officer or employee in this state for such service.

(b) Notwithstanding subdivision (a) upon a showing by such person that, through no fault of his or her own, locating a person to serve or effecting service of process proved unusually difficult, the court may in the interests of justice permit recovery of such reasonable and necessary costs necessarily incurred in effecting service.

(c) For purposes of this section, "unusually difficult" service means a situation where such person was compelled by the circumstances to use a "stakeout" or other extraordinary means of locating a person to serve or effecting service of process. Mere exercise of due diligence shall not by itself be a sufficient showing of "unusually difficult" service.

CHAPTER 670

An act to add Section 17959 to the Health and Safety Code, relating to housing.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976]

Such an ordinance or regulation shall specify a range of permissible roof pitches and alignments which will optimize efficiency for the collection of solar energy and for nocturnal cooling.

CHAPTER 671

An act to amend Section 408 of, and to add Section 408.1 to, and to repeal Section 408.1 of, the Revenue and Taxation Code, relating to property tax information.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 408 of the Revenue and Taxation Code is amended to read:

408. (a) Except as otherwise provided in subdivisions (b) and (c) any information and records in the assessor's office which are not required by law to be kept or prepared by the assessor, and homeowners' exemption claims, are not public documents and shall not be open to public inspection. Property receiving the homeowners' exemption shall be clearly identified on the assessment roll. The assessor shall maintain records which shall be open to public inspection to identify those claimants who have been granted the homeowners' exemption.

(b) The assessor may provide any appraisal data in his possession to the assessor of any county and shall provide any market data in his possession to an assessee of property or his designated representative upon request. The assessor shall permit an assessee of property or his designated representative to inspect at the assessor's office any information and records, whether or not required to be kept or prepared by the assessor, relating to the appraisal and the assessment of his property. Except as provided in Section 408.1, an assessee or his designated representative, however, shall not be provided or permitted to inspect information and records, other than market data, which also relate to the property or business affairs of another person, unless such disclosure is ordered by a competent court in a proceeding initiated by a taxpayer seeking to challenge the legality of his assessment.

(c) The assessor shall disclose information, furnish abstracts or permit access to all records in his office to law enforcement agencies, the county grand jury, the board of supervisors or their duly authorized agents, employees or representatives when conducting an investigation of the assessor's office pursuant to Section 25303 of

02766 293550 889

the Government Code, the State Controller, the State Board of Equalization and other duly authorized legislative or administrative bodies of the state pursuant to their authorization to examine such records.

(d) For purposes of this section, "market data" means any information in the assessor's possession, whether or not required to be prepared or kept by him, relating to the sale of any property comparable to the property of the assessee, if the assessor bases his assessment of the assessee's property, in whole or in part, on such comparable sale or sales. The assessor shall provide the names of the seller and buyer of each property on which the comparison is based, the location of such property, the date of the sale, and the consideration paid for the property, whether paid in money or otherwise, but for purposes of providing such market data, the assessor shall not display any document relating to the business affairs or property of another.

SEC. 2. Section 408.1 is added to the Revenue and Taxation Code, to read:

408.1. (a) The assessor shall maintain a list of transfers of any interest in property, other than undivided interests, within the county, which have occurred within the preceding two-year period.

(b) The list shall be divided into geographical areas and shall be revised on the 30th day of each calendar quarter to include all such transactions which are recorded as of the preceding quarter.

(c) The list shall contain the following information:

(2) Assessor's parcel number;

(3) Address of the sales property;

(4) Date of transfer;

(7) Additional information which the assessor in his discretion may wish to add to carry out the purpose and intent of this section. Other than sales information, the assessor shall not include information on the list which relates to the business or business affairs of the owner of the property, information concerning the business carried on upon the subject property, or the income or income stream generated by the property.

(d) The list shall be open to inspection by any assessee who has filed a timely application for reduction of his assessment before the local board of equalization or assessment appeals board at the assessor's office, upon payment of a nonrefundable fee established below:

(1) For any application for an inspection prior to January 1, 1980, a fee of ten dollars ($10).

(2) For any application for an inspection on or after January 1, 1980, a fee equal to an amount which would reimburse local agencies for their actual administrative costs incurred in such inspections as

determined by the Legislative Analyst pursuant to the study of such administrative costs covering the first 24 months immediately following the effective date of this section.

SEC. 3. The Legislative Analyst shall conduct a study to determine whether the administrative costs of providing lists pursuant to Section 408.1 of the Revenue and Taxation Code exceed the fee charged to persons requesting such lists. The study shall cover the first 24 months immediately following the effective date of this act and the results of such study shall be submitted to the Legislature within 28 months of the effective date of this act.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

SEC. 5. Section 408.1 of the Revenue and Taxation Code shall remain in effect only until May 1, 1980, and as of such date is repealed, unless a later enacted statute, which is chaptered before May 1, 1980, deletes or extends such date.

CHAPTER 672

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 14019.3 is added to the Welfare and Institutions Code, to read:

14019.3. Any provider of health care services who obtains a label or copy from the Medi-Cal card or other proof of eligibility pursuant to this chapter shall not seek reimbursement nor attempt to obtain payment for the cost of such covered health care services from the eligible applicant or recipient, or any person other than the department or third party payor who provides a contractual or legal entitlement to health care services.

SEC. 2. The Department of Health shall develop and adopt by administrative regulation no later than July 1, 1977, a proof of eligibility procedure under the Medi-Cal program which shall provide the following:

(a) The beneficiary with evidence to confirm the giving of a proof of eligibility to a provider of health care services. The Department of Health shall either notify beneficiaries or shall insure that beneficiaries are notified that such evidence constitutes a receipt

03171 293585 896

and should be retained.

(b) The provider of health care services with documentation necessary to bill the department for payment.

(c) The Department of Health with evidence sufficient to verify the eligibility of the beneficiary in order to reimburse the provider of health care services.

CHAPTER 673

An act to amend Section 270 of the Penal Code, relating to health care.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 270 of the Penal Code is amended to read:

270. If a parent of a minor child willfully omits, without lawful excuse, to furnish necessary clothing, food, shelter or medical attendance, or other remedial care for his or her child, he or she is guilty of a misdemeanor punishable by a fine not exceeding one thousand dollars ($1,000), or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment. If a court of competent jurisdiction has made a final adjudication in either a civil or a criminal action that a person is the parent of a minor child and the person has notice of such adjudication and he or she then willfully omits, without lawful excuse, to furnish necessary clothing, food, shelter, medical attendance or other remedial care for his or her child, this conduct is punishable by imprisonment in the county jail not exceeding one year or in a state prison not exceeding one year and one day, or by a fine not exceeding one thousand dollars ($1,000), or by both such fine and imprisonment. This statute shall not be construed so as to relieve such parent from the criminal liability defined herein for such omission merely because the other parent of such child is legally entitled to the custody of such child nor because the other parent of such child or any other person or organization voluntarily or involuntarily furnishes such necessary food, clothing, shelter or medical attendance or other remedial care for such child or undertakes to do so.

Proof of abandonment or desertion of a child by such parent, or the omission by such parent to furnish necessary food, clothing, shelter or medical attendance or other remedial care for his or her child is prima facie evidence that such abandonment or desertion or omission to furnish necessary food, clothing, shelter or medical attendance or other remedial care is willful and without lawful excuse.

The court, in determining the ability of the parent to support his

or her child, shall consider all income, including social insurance benefits and gifts.

The provisions of this section are applicable whether the parents of such child are or were ever married or divorced, and regardless of any decree made in any divorce action relative to alimony or to the support of the child. A child conceived but not yet born is to be deemed an existing person insofar as this section is concerned.

The husband of a woman who bears a child as a result of artificial insemination shall be considered the father of that child for the purpose of this section, if he consented in writing to the artificial insemination.

If a parent provides a minor with treatment by spiritual means through prayer alone in accordance with the tenets and practices of a recognized church or religious denomination, by a duly accredited practitioner thereof, such treatment shall constitute "other remedial care", as used in this section.

CHAPTER 674

An act to amend Section 23.5 of the Food and Agricultural Code, and to add Section 6307 to the Fish and Game Code, relating to commercial fish farms.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 23.5 of the Food and Agricultural Code is amended to read:

23.5. The commercial production of fish propagated and raised under a domesticated fish breeder's license granted pursuant to Article 3 (commencing with Section 6450) of, and marine life cultivated in a closed water system pursuant to Article 4 (commencing with Section 6480) of, Chapter 5 of Part 1 of Division 6 of the Fish and Game Code in the state is a growing industry and provides a healthful and nutritious food product, and, as a commercial operation, utilizes management, land, water, and feed as do other agricultural enterprises. Therefore, the commercial production of such fish and such marine life shall be considered a branch of the agricultural industry of the state for the purpose of any law which provides for the benefit or protection of the agricultural industry of the state.

SEC. 2. Section 6307 is added to the Fish and Game Code, to read:

6307. (a) If the owner of a commercial enterprise which propagates and raises fish under a domesticated breeder's license pursuant to Article 3 (commencing with Section 6450) of, or which

cultivates marine life in a closed water system pursuant to Article 4 (commencing with Section 6480) of, Chapter 5 of Part 1 of Division 6, is required to destroy such fish or such marine life, or otherwise dispose of such fish or marine life at an economic loss, in accordance with the provisions of this chapter, he shall be compensated for such loss, to the extent funds are appropriated therefor, by the State Board of Control on the basis of poundage. Compensation for such losses directly attributable to state fish disease and parasite control statutes shall not exceed the actual cost to the owner in producing such fish or marine life, or the cost to the department in producing comparable fish or marine life, whichever is less. Any claim for compensation made pursuant to this section shall be presented to the State Board of Control pursuant to Part 3 (commencing with Section 900) of Division 3.6 of Title 1 of the Government Code. The board shall not authorize the payment of such claim to any person unless the department certifies that such person has not:

(1) In connection with the economic loss forming the basis of the claim, violated a regulation of the commission, relating to the commercial propagation and raising of such fish or the cultivation of such marine life in a closed water system as to fish disease and parasite control; or

(2) In connection with such loss, been convicted of violating a provision of the Food and Agricultural Code or Fish and Game Code, relating to the commercial propagation and raising of such fish or the cultivation of such marine life in a closed water system, or relating to fish disease and parasite control; or

(3) Made such a claim more than once in the preceding two years before the present claim; or if a prior claim has been made, the department shall certify that the person has followed the procedures prescribed by the department designed to abate the cause of the loss upon which the earlier claim was based.

(b) Compensation payments made pursuant to this section shall be made only from the General Fund.

(c) In enacting this section, it is not the intent of the Legislature to diminish any existing powers of the commission or the department, but rather to provide specifically for the indemnification of the owners of domestically propagated and raised fish and cultivated marine life in a closed water system that must be destroyed to protect the state's fish and wildlife resources from disease and parasites.

CHAPTER 675

An act to amend Section 437c of the Code of Civil Procedure, relating to civil actions.

[Approved by Governor August 27, 1976. Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 437c of the Code of Civil Procedure is amended to read:

437c. Any party may move for summary judgment in any action or proceeding if it is contended that the action has no merit or that there is no defense thereto. The motion may be made at any time after 60 days have elapsed since the general appearance in the action or proceeding of each party against whom the motion is directed or at such earlier time after such general appearance as the court, with or without notice and upon good cause shown, may direct. Notice of the motion and supporting papers shall be served on the other party to the action at least 10 days before the time fixed for the hearing. The filing of such motion shall not extend the time within which a party must otherwise file a responsive pleading.

The motion shall be supported or opposed by affidavits, declarations, admissions, answers to interrogatories, depositions and matters of which judicial notice shall or may be taken.

Such motion shall be granted if all the papers submitted show that there is no triable issue as to any material fact and that the moving party is entitled to a judgment as a matter of law. In determining whether the papers show that there is no triable issue as to any material fact the court shall consider all of the admissible evidence set forth in the papers and all inferences reasonably deducible from such evidence, except summary judgment shall not be granted by the court based on inferences reasonably deducible from such evidence, if contradicted by other inferences or evidence, which raise a triable issue as to any material fact.

Supporting and opposing affidavits or declarations shall be made by any person on personal knowledge, shall set forth admissible evidence, and shall show affirmatively that the affiant is competent to testify to the matters stated therein.

If a party is otherwise entitled to a summary judgment pursuant to the provisions of this section, summary judgment shall not be denied on grounds of credibility or for want of cross-examination of witnesses furnishing affidavits or declarations in support of the summary judgment, except that summary judgment may be denied in the discretion of the court, where the only proof of a material fact offered in support of the summary judgment is an affidavit or declaration made by an individual who was the sole witness to such fact; or where a material fact is an individual's state of mind, or lack thereof, and such fact is sought to be established solely by the individual's affirmation thereof.

If it appears that the proof supports the granting of such motion as to some but not all the issues involved in the action, or that one or more of the issues raised by a claim is admitted, or that one or more of the issues raised by a defense is conceded, the court shall,

by order, specify that such issues are without substantial controversy. At the trial of the action the issue so specified shall be deemed established and the action shall proceed as to the issues remaining.

If it appears from the affidavits submitted in opposition to the motion that facts essential to justify opposition may exist but cannot, for reasons stated, then be presented, the court shall deny the motion, or order a continuance to permit affidavits to be obtained or discovery to be had or may make such other order as may be just.

If the court determines at any time that any of the affidavits are presented in bad faith or solely for purposes of delay, the court shall order the party presenting such affidavits to pay the other party the amount of the reasonable expenses which the filing of the affidavits caused such other party to incur.

Except where a separate judgment may properly be awarded in the action, no final judgment shall be entered on a motion for summary judgment prior to the termination of such action, but the final judgment in such action shall, in addition to any matters determined in such action, award judgment as established by the summary proceeding herein provided for.

A summary judgment entered under this section is an appealable judgment as in other cases.

CHAPTER 676

An act to amend Section 705 of the Streets and Highways Code, relating to state highways.

[Approved by Governor August 27, 1976 Filed with Secretary of State August 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 705 of the Streets and Highways Code is amended to read:

705. In any case in which the department is required under the provisions of this article to pay the cost of removal or relocation of any utility facility, it shall be entitled to credits as follows:

(1) In the amount of any betterment to the utility facility resulting from such removal or relocation, not in excess of the cost of the increased capacity of the facility.

(2) The salvage value of any materials or parts salvaged and retained by the utility.

(3) If a new facility or portion thereof is constructed to accomplish such removal or relocation, an allowance of an amount bearing the same proportion to the original cost of the displaced facility or portion thereof as the age thereof bears to the normal expected life thereof.

A credit shall not be allowed against any portion of the cost which

is otherwise chargeable to the utility.

A credit allowance for age shall not be applied to publicly owned sewers.

CHAPTER 677

An act to amend Sections 15459.1 and 31026 of the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature August 29, 1976.
Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15459.1 of the Education Code is amended to read:

15459.1. As of January 1, 1978, the persons employed as inspectors of record to inspect the construction, reconstruction or alteration of any school building shall be either (a) persons who are registered as construction inspectors in the divisions in which they are to be used, as defined by Section 9101 of the Business and Professions Code or (b) persons who are regularly employed for building code enforcement by the local agency having responsibility for such inspection, and are qualified to perform such inspections under the civil service laws or regulations of such local agency.

Persons employed as assistants to inspectors of record shall be registered construction inspectors or shall be enrolled as inspectors-in-training in the divisions in which they are to be used, as defined by Section 9101.1 of the Business and Professions Code. This section shall not apply to any architect, structural engineer, civil engineer, land surveyor, mechanical engineer, engineering geologist, or electrical engineer, who holds a valid certificate of registration in this state, insofar as he is practicing within the provisions of the law under which he is registered. This section shall not apply to an inspector approved by the Office of Architecture and Construction and employed pursuant to a particular building contract prior to January 1, 1978, during the performance of that building contract.

SEC. 2. Section 31026 of the Education Code is amended to read:

31026. (a) This chapter shall remain operative until December 31, 1979, and after such date shall have no force or effect.

(b) The Legislature shall, at its 1973–74 Regular Session, and each fourth year thereafter, review the matter of California's participation in the Compact for Education to determine whether California should continue to be a party to the compact and thus whether the operation of this chapter should be extended.

SEC. 3. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that essential school construction will not be delayed due to a shortage of building inspectors having qualifications which would otherwise be required on and after January 1, 1977, it is essential that this act go into effect immediately. Also, in order that this bill extend the effective date of the Compact for Education, it is necessary that it take effect prior to December 31, 1976, at which time the effective period of the compact will otherwise have expired.

5604. (a) Each community mental health service shall have an advisory board of 17 members appointed by the governing body except that such boards in counties with a population of less than 100,000 may have a minimum of 11 members. One member of the advisory board shall be the chairman of the local governing body. Not less than 51 percent of the members of the advisory board shall be persons representative of the public interest in mental health; provided, however, that not less than one-half of the members representing the public interest shall be persons or the parents, spouse, or adult children of persons, who have received mental health services. For members not representing the public interest, the governing body shall appoint persons representing different disciplines. The chairman of a governing body may designate a member of that body to serve in his stead as a member of the advisory board.

(b) The term of each member of the board shall be for three years; provided, however, that of the members first appointed to a board with 17 members, six shall be appointed for one year, six for a term of two years, and five for a term of three years. For the members first appointed as a result of the amendment to this section by the 1975–76 Regular Session of the Legislature, one-third shall be for a term of one year, one-third for a term of two years, and one-third for a term of three years. If, however, prior to the expiration of such term a member ceases to retain the status which qualified the person for appointment on the board, the membership on the board shall terminate and there shall be a vacancy on the board.

(c) If two local agencies jointly establish a community health service under Article 1 (commencing with Section 6500) of Chapter

5 of Division 7 of Title 1 of the Government Code, the advisory board for such community mental health service shall consist of an additional two members, one of whom shall be the chairman of the second governing body, such that the chairmen of both local agencies are members, and the second of whom shall be an additional person or a parent, spouse, or adult child of a person who has received mental health services.

(d) No member of the advisory board or his or her spouse shall be a full-time or part-time county employee of the county mental health service, an employee of the State Department of Health, an employee of the Department of Benefit Payments, or an employee of a Short-Doyle contract facility.

(e) If it is not possible to secure membership as specified from among persons who reside in the county, the governing body may substitute representatives of the public interest in mental health who are not full-time or part-time employees of the county mental health service, the State Department of Health, the Department of Benefit Payments, or on the staff of a Short-Doyle contract facility.

CHAPTER 681

An act to amend Sections 205.5, 255 and 256 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 205.5 of the Revenue and Taxation Code, as amended by Chapter 47 of the Statutes of 1976, is amended to read:

205.5. (a) Property which is owned by, and which constitutes is the principal place of residence of a veteran is exempt from taxation on that part of the assessed value of the residence that does not exceed ten thousand dollars ($10,000), if the veteran, because of injury incurred in military service, is blind in both eyes, has lost the use of two or more limbs, or is totally disabled.

(b) For purposes of this section, "veteran" is defined as specified in subdivision (a) of Section 3 of Article XIII of the Constitution

without regard to any limitation contained therein on the value of property owned by the veteran or the veteran's spouse.

(c) No veteran shall be eligible for this exemption unless he or she was a resident of California at the time of his or her entry into military or naval service, or unless he or she was a resident of the state on November 7, 1972, if he or she is blind or has lost the use of two or more limbs, or on January 1, 1975, if he or she is totally disabled; provided however, that no veteran who met a corresponding residency requirement under the law in effect prior to January 1, 1975 shall lose eligibility as the result of changes in residency requirement effective on January 1, 1975 or thereafter.

(d) Property which is owned by and which constitutes the principal place of residence of the unmarried surviving spouse of a veteran is exempt from taxation on that part of the assessed value of the residence that does not exceed ten thousand dollars ($10,000), provided that the deceased veteran during his or her lifetime qualified in all respects for the exemption under laws in effect during his or her lifetime.

(e) As used in this section, "property which is owned by a veteran" or "property which is owned by the veteran's unmarried surviving spouse" includes:

(1) Property owned by the veteran with the veteran's spouse as a joint tenancy, tenancy in common or as community property;

(2) Property owned by the veteran or the veteran's spouse as separate property;

(3) Property owned with one or more other persons to the extent of the interest owned by the veteran, the veteran's spouse, or both the veteran and the veteran's spouse;

(4) Property owned by the veteran's unmarried surviving spouse with one or more other persons to the extent of the interest owned by the veteran's unmarried surviving spouse;

(5) So much of the property of a corporation as constitutes the principal place of residence of a veteran or a veteran's unmarried surviving spouse when the veteran, or the veteran's spouse, or the veteran's unmarried surviving spouse is a shareholder of the corporation and the rights of shareholding entitle one to the possession of property, legal title to which is owned by the corporation. The exemption provided by this subsection shall be shown on the local roll and shall reduce the assessed value of the corporate property. Notwithstanding any provision of law or articles of incorporation or bylaws of a corporation described in this subsection, any reduction of property taxes paid by such corporation shall reflect an equal reduction in any charges by such corporation to the person who, by reason of qualifying for the exemption made possible such reduction for the corporation.

(f) For purposes of this section, being blind in both eyes means having a visual acuity of 5/200 or less; losing the use of a limb means that the limb has been amputated or its use has been lost by reason of ankylosis, progressive muscular dystrophies, or paralysis; and

02848 294400 987

being totally disabled means that the United States Veterans Administration or the military service from which such veteran was discharged has rated the disability at 100 percent or has rated the disability compensation at 100 percent by reason of being unable to secure or follow a substantially gainful occupation.

(g) An exemption granted to a claimant in accordance with the provisions of this section shall be in lieu of the veteran's exemption provided by subdivisions (o), (p), (q), and (r) of Section 3 of Article XIII of the Constitution and any other real property tax exemption to which the claimant may be entitled. No other real property tax exemption may be granted to any other person with respect to the same residence for which an exemption has been granted under the provisions of this section, provided that if two or more veterans qualified pursuant to this section coown a property in which they reside, each is entitled to the exemption to the extent of his or her interest.

SEC. 2. Section 255 of the Revenue and Taxation Code is amended to read:

255. (a) Affidavits required for exemptions named in this article, except the church exemption, the veterans' exemption, and the homeowners' exemption, shall be filed with the assessor between the lien date and 5 o'clock p.m. on March 15. Affidavits for the veterans' exemption shall be filed with the assessor between the lien date and 5 o'clock p.m. on April 15.

(b) Affidavits for the homeowners' exemption except as otherwise provided in Sections 255.1, 255.2, and 275, shall be filed with the assessor any time after the claimant becomes eligible but no later than 5 o'clock p.m. on April 15.

(c) Affidavits required for classification of vessels as documented vessels eligible for assessment under Section 227 shall be filed with the assessor between the lien date and 5 o'clock p.m. on April 1.

(d) Affidavits for the church exemption shall be filed with the assessor between the lien date and 5 o'clock p.m. on March 31.

SEC. 2. Section 256 of the Revenue and Taxation Code is amended to read:

256. (a) The affidavit for church exemption shall show that:

(1) The building and equipment are used solely for religious worship.

(2) The land claimed as exempt is required for the convenient use of the building.

(b) Each year before the lien date, county assessors shall mail a claim form for the church exemption to all recipients of such exemption in the prior year, except where the prior recipient has transferred title to the property since the prior lien date.

SEC. 3. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by

it by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not place a financial burden on local government.

SEC. 4. In conformity with Section 6 of Article XIII of the Constitution of the State of California, this act shall have prospective application only.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Division 9 (commencing with Section 16000) of the Water Code is repealed.

SEC. 2. Upon and after the effective date of Section 1 of this act, the Bay Area Sewage Services Agency shall be dissolved, its existence shall be terminated and all other corporate powers shall cease, except for those powers to be exercised by the successor to such agency for the sole purpose of winding up the affairs of such agency as hereinafter provided by this act.

SEC. 3. For the sole purpose of winding up the affairs of the Bay Area Sewage Services Agency, the successor to such agency shall be the County Auditor of the County of Alameda.

SEC. 4. Upon the effective date of dissolution of the Bay Area Sewage Services Agency, control over all of the moneys or funds (including cash on hand and the moneys due but uncollected) and all property, real or personal, of such dissolved agency shall be vested in the successor for the sole purpose of winding up the affairs of such agency.

SEC. 5. As soon as possible after January 1, 1977, the successor shall conduct an audit of the agency's financial record and shall determine all of such agency's assets and liabilities.

SEC. 6. For the sole and exclusive purpose of winding up the affairs of such dissolved agency, the successor shall have the following powers and duties:

(a) To sell or otherwise dispose of all property, real and personal, of such dissolved agency.

(b) To compromise and settle claims of every kind and nature against such dissolved agency.

Such powers and duties shall commence on January 1, 1977, and shall continue thereafter until such time as the affairs of such dissolved agency shall have been completely wound up.

SEC. 7. Any moneys, funds, and property of such dissolved

agency and any moneys or funds received by the successor from the sale or other distribution of any property, real or personal, of such dissolved agency shall be disposed of as provided in this section and Section 8.

Each county which, in whole or in part, was within the jurisdiction of such agency on January 1, 1977, shall receive a proportionate share of the assets of such agency. The share of the assets to be received by each respective county shall be equal to the percentage which that county's contribution to such agency during the 1975–76 fiscal year bears to the total contribution to such agency from all bay area counties for the 1975–76 fiscal year.

A county, at its option, may elect to accept personal property belonging to such agency as a portion of its share of the assets of such agency. The successor shall determine the value of such personal property for the purpose of apportioning such agency's assets as required by this section.

If a county, during the 1975–76 fiscal year, apportioned all or part of its apportioned share of the costs and expenses of the agency among local agencies within such county pursuant to the provisions of Section 16809 of the Water Code, such county shall divide any moneys received pursuant to this section between such local agencies in the proportions that the individual contribution of each such local agency bears to the total contribution received by such county pursuant to Section 16809 during such fiscal year.

SEC. 8. The successor shall be entitled to, and shall be reimbursed for, actual and necessary expenses incurred in carrying out the responsibilities required by this act. Such expenses shall be paid to the successor from the assets of such agency prior to the distribution of the assets of the agency as required by Section 7.

SEC. 9. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

CHAPTER 683

CHAPTER 684

An act to amend Section 1528 of the Health and Safety Code, relating to community care facilities, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that facilities providing child day care services, both publicly and privately financed, serve a necessary and valuable function in the state's economy by enabling parents to obtain and maintain employment and to avoid dependence on public assistance.

The Legislature further declares that the licensing and regulation of facilities providing these services as established by the California Community Care Facilities Act constitutes the minimum acceptable level of state protection necessary to assure the health, safety, and well-being of children receiving day care services, and that the recent administrative reduction in the State Department of Health's licensing, inspection, and evaluation capability with respect to such facilities is likely to result in a higher incidence of conditions and services in day care facilities for children which adversely affect the health, safety, and well-being of children.

The Legislature further declares that the State Department of Health's failure to conduct its licensing, inspection, and evaluation of child day care centers and services in accordance with established standards is likely to encourage a proliferation of inadequate care marked by higher incidences of inadequate space, inadequate fire safety standards, untrained and unqualified staff, child neglect, and even child abuse, with a greater likelihood that such unlawful practices will remain free from discovery and prosecution.

SEC. 2. Section 1528 of the Health and Safety Code is amended to read:

1528. (a) Evaluations, pursuant to Sections 1534 and 1535, of care and services of a day care facility for children shall be limited to health and safety considerations and shall not include any evaluations of the content of any educational or training program of the facility. Such evaluations shall be conducted not less than once every two years.

(b) The state department shall maintain a program to carry out the licensing, inspection, and evaluation activities for day care facilities for children in order that the health and safety of children receiving such services is protected. The state department shall maintain staff of adequate size and expertise to carry out the licensing, inspection, and evaluation program for day care facilities for children in order that the health and safety of children receiving services is protected. The state department shall license and inspect day care facilities for children in accordance with the provisions of this chapter and shall not maintain a self-certification and inspection program with respect to such facilities. Nothing in this section shall preclude the state department from contracting with other agencies for services pursuant to Section 1511 in lieu of performing services directly.

SEC. 3. There is hereby appropriated from the General Fund the sum of two million four hundred thirty-seven thousand six hundred four dollars ($2,437,604) in accordance with the following schedule:

Schedule:

(a) To the State Department of Health in augmentation of Item 271 of the Budget Act of 1975 for carrying out Section 1528 of the Health and Safety Code $284,084

(b) To the Department of Finance for allocation by the Director of Finance, upon determination of need by the Director of Finance, to the State Department of Health for carrying out Section 1511 of the Health and Safety Code ..... $2,153,520.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act relating to the licensing, inspection, and evaluation of day care facilities for children may become effective at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 685

An act to amend Sections 17800.2 and 17821 of the Business and Professions Code, relating to family counseling services.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 17800.2 of the Business and Professions Code is amended to read:

17800.2. For the purposes of this chapter, the practice of marriage, family and child counseling shall mean that service performed with individuals, couples, or groups wherein interpersonal relationships between spouses or members of a family are examined for the purpose of achieving more adequate, satisfying, and productive marriage and family adjustments. Such practice includes premarriage counseling.

The application of marriage, family and child counseling principles and methods includes, but is not limited to, the use of applied psychotherapeutic techniques, to enable individuals to mature and grow within marriage and the family, and the provision of explanations and interpretations of the psychosexual and

psychosocial aspects of relationships within a marriage and family.

A marriage, family and child counselor may use hypnosis in the course of performing marriage, family and child counseling provided that he can demonstrate experience in the clinical use of hypnosis which satisfies the criteria established by the board. The criteria shall include evidence of (a) coursework in hypnosis from qualified instructors and (b) experience in a clinical setting using hypnosis under the supervision of a physician, dentist, or licensed psychologist.

SEC. 2. Section 17821 of the Business and Professions Code is amended to read:

17821. In addition to the grounds contained in Section 17820 the board shall revoke the license of any person, other than a physician and surgeon who uses or offers to use drugs in the course of performing marriage, family, or child counseling services.

CHAPTER 686

An act to amend Section 126 of the Government Code, relating to cession of concurrent jurisdiction to the United States within land held by the United States and used for federal purposes, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 126 of the Government Code is amended to read:

126. Notwithstanding any other provision of law, general or special, the Legislature of California hereby cedes concurrent criminal jurisdiction to the United States within land held by the United States upon and subject to each and all of the following express limitations, conditions, and reservations, in addition to any other limitations, conditions, or reservations prescribed by law:

(a) The lands must be held by the United States for the erection of forts, magazines, arsenals, dockyards, and other needful buildings, or other public purpose within the purview of clause 17 of Section 8 of Article I of the Constitution of the United States, or for the establishment, consolidation and extension of national forests under the provisions of the act of Congress approved March 1, 1911, (36 Stat. 961) known as the "Weeks Act," or for any other federal purposes.

(b) The cession must be pursuant to and in compliance with the laws of the United States.

(c) The United States must in writing have requested the state to cede concurrent criminal jurisdiction within such land and subject to

each and all of the conditions and reservations in this section and in Section 4 of Article XIV of the Constitution prescribed.

(d) The State Lands Commission is authorized for the state to cede concurrent criminal jurisdiction to the United States, upon having found and declared that the conditions and reservations prescribed in subdivisions (a), (b), (c), and (g) of this section have occurred and exist and that such cession is in the interest of the state. Certified copies of its orders or resolutions making such findings and declarations shall be filed in the office of the Secretary of State and recorded in the office of the county recorder of each county in which any part of the land is situated. The purposes for which such concurrent criminal jurisdiction is ceded shall be specified in and made a part of such orders or resolutions.

(e) Jurisdiction ceded pursuant to this section continues only so long as the land continues to belong to the United States and is held by it for the purpose for which jurisdiction is ceded in accordance and in compliance with each and all of the limitations, conditions, and reservations in this section prescribed, or for five years, whichever period is less.

(f) "Land held by the United States", as used in this section means: (1) lands acquired in fee by purchase or condemnation, (2) lands owned by the United States that are included in the military reservation by presidential proclamation or act of Congress, (3) leaseholds acquired by the United States over private lands or state-owned lands, and (4) any other lands owned by the United States including, but not limited to, public domain lands which are held for a public purpose.

(g) In ceding such concurrent criminal jurisdiction, the Legislature and the state reserve jurisdiction over the land, water and use of water with full power to control and regulate the acquisition, use, control and distribution of water with respect to the land affected by such cession.

(h) In ceding concurrent criminal jurisdiction, the Legislature and the state except and reserve to the state all deposits of minerals, including oil and gas, in the land, and to the state, or persons authorized by the state, the right to prospect for, mine, and remove such deposits from the land.

(i) Concurrent criminal jurisdiction shall vest when certified copies of the State Lands Commission's orders or resolutions, making such finding or declaration, have been filed in the office of the Secretary of State and recorded in the office of the county recorder of each county in which any part of the lands is situated.

The finding and declaration of the State Lands Commission provided for in subdivision (d) of this section shall be made only after a public hearing. Notice of such hearing shall be published pursuant to Section 6061 in each county in which the land or any part thereof is situated and a copy of such notice shall be personally served upon the clerk of the board of supervisors of each such county. The State Lands Commission shall make rules and regulations governing the

conditions and procedure of such hearings, which shall provide that the cost of publication and service of notice and all other expenses incurred by the commission shall be borne by the United States.

The provisions of this section do not apply to any land or water areas heretofore or hereafter acquired by the United States for migratory bird reservations in accordance with the provisions of Sections 10680 to 10685, inclusive, of the Fish and Game Code.

SEC. 2. This act is an urgency measure necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Serious law enforcement problems exist within a number of national monuments of the United States located throughout the state. Local law enforcement personnel in the affected areas are not sufficient to deal with the problems presented. Federal authorities do not have sufficient authority to act without a cession of criminal jurisdiction by the state. Federal law enforcement personnel are available for assignment to the affected monuments upon such a cession of criminal jurisdiction. No statutory authority exists for the transfer of criminal jurisdiction to the federal government in the instant circumstances. The following entities by formal action have urged the prompt granting of concurrent criminal jurisdiction to the federal government to alleviate this serious problem: National Park Service, United States Department of Interior, Shasta County Board of Supervisors, Marin County Board of Supervisors, Modoc County Board of Supervisors, San Benito County Sheriff's office, Siskiyou County Sheriff's office, and Monterey County Sheriff's office.

For the foregoing reasons it is imperative that this bill which provides for cessions of concurrent criminal jurisdiction in such situations as those presented go into effect as early as possible. Thereby, a means to provide for the public peace, health, and safety in such situations will be assured.

CHAPTER 687

An act to amend Section 1229 of the Health and Safety Code, relating to clinics.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1229 of the Health and Safety Code is amended to read:

1229. Each application for a license under this chapter shall be accompanied by a fee determined by the director by regulation based on a percentage of the annual gross operating cost for the clinic

03670 294635 34

and in an amount to cover the costs of administering this chapter, except that:

(a) The initial license fee for a new clinic or upon change of ownership for an existing clinic shall be a flat fee determined by the director.

(b) The license fee for a new, renewal, or change of ownership license of a free clinic shall not be more than twenty-five dollars ($25). A free clinic is a clinic operated by a nonprofit corporation which does not charge or collect any fee directly from patients for services.

Each license issued under this chapter shall expire 12 months from the date of its issuance. Application for renewal of license accompanied by the necessary fee shall be filed with the department not less than 10 days prior to the expiration date each year. Failure to make a timely renewal shall result in expiration of the license.

CHAPTER 688

An act to amend Section 13997 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 13997 of the Education Code is amended to read:

13997. Time during which a member is excused from performance of his duties, such as but not limited to, sick leave, holidays, or vacation, whether or not he is required to perform any portion of such duties during such time, and for which he receives compensation, including disability from any insurance carrier of his employer, under the Labor Code on account of industrial injury or disease, in an amount less than the full compensation earnable by him while performing his duties when not so excused, shall be credited as service in the proportion that the compensation paid to the member bears to the full compensation which would be earnable by him while performing his duties on a full-time basis. For purposes of this article, any certificated employee on a sabbatical leave as provided under Section 13457 receives full-time service credit for time spent on such leave, after July 1, 1956, or any certificated employee who is absent to participate in any program under the Federal Mutual Educational and Cultural Exchange Program (Ch. 33 (commencing with Sec. 2451), Title 22, U.S.C.) shall receive full-time service credit for time spent on such absence, after January 1, 1977, providing the member pays to the system additional contributions based on the compensation, which is the difference between

compensation earned, if any, and the compensation earnable during the period of sabbatical leave or absence, in the amount of:

(a) Eight percent of such compensation as employer and state cost of granting service credit, and

(b) The member's regular contribution rate as applied to such compensation. Regular interest shall be due on all contributions required under this section from the end of the school year during which the sabbatical leave or absence was taken until date of payment of such contributions.

The employing school district may pay the amount required as employer and state costs in subdivision (a).

All deeds, leases, or contracts for the sale, lease, sublease, or other transfer of any land in a redevelopment project shall contain or be subject to the nondiscrimination or nonsegregation clauses hereafter prescribed.

SEC. 3. Section 33436 of the Health and Safety Code is amended to read:

33436. Express provisions shall be included in all deeds, leases and contracts which the agency proposes to enter into with respect to the sale, lease, sublease, transfer, use, occupancy, tenure, or enjoyment of any land in a redevelopment project in substantially the following form:

(a) In deeds the following language shall appear—"The grantee herein convenants by and for himself, his heirs, executors,

administrators, and assigns, and all persons claiming under or through them, that there shall be no discrimination against or segregation of, any person or group of persons on account of race, color, creed, religion, sex, marital status, national origin, or ancestry in the sale, lease, sublease, transfer, use, occupancy, tenure, or enjoyment of the premises herein conveyed, nor shall the grantee himself or any person claiming under or through him, establish or permit any such practice or practices of discrimination or segregation with reference to the selection, location, number, use or occupancy of tenants, lessees, subtenants, sublessees, or vendees in the premises herein conveyed. (c) In contracts entered into by the agency relating to the sale, transfer, or leasing of land or any interest therein acquired by the agency within any survey area or redevelopment project the foregoing provisions in substantially the forms set forth shall be included and such contracts shall further provide that the foregoing provisions shall be binding upon and shall obligate the contracting party or parties and any subcontracting party or parties, or other transferees under the instrument.

SEC. 4. Section 33724 of the Health and Safety Code is amended to read:

33724. CHAPTER 690

An act to amend Section 12851 of the Education Code, relating to schools, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

I am deleting the $50,000 appropriation contained in Section 2 of Assembly Bill No 2945.

I believe the money necessary to complete this study can be obtained from the Department's existing resources.

With the above deletion, I approve Assembly Bill No. 2945.

EDMUND G. BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 12851 of the Education Code is amended to read:

12851. The Superintendent of Public Instruction shall perform an analysis of selected schools to identify educational factors which produce the distinction between unusually high-performing districts and unusually low-performing districts, such performance as measured by standard measures of school achievement.

The schools selected for study shall be comparable in social and demographic characteristics and shall vary only on student attainment.

The study shall last three calendar years so that variables discovered the first year may be verified the second and third years.

The Superintendent of Public Instruction shall report to the Legislature by January 5, 1975, on the identification and description of those socioeconomic, financial, and educational variables affecting school performance which tend to distinguish between unusually high-performing districts and unusually low-performing districts. By January 5, 1976, the Superintendent of Public Instruction shall issue a report to the Legislature including information regarding the verifiability of the relative impact of the variables discovered during the first year of the study.

By July 1, 1976, the Superintendent of Public Instruction shall submit a study plan to the Legislature indicating: (1) the additional data that will be collected and analyzed in order to explain the operation of the educational variables identified in previous reports pursuant to this section; and (2) the Department of Education's plan for disseminating the results of this study to schools throughout the state, and for using the results of this study to improve educational programs.

By January 5, 1978, he shall submit a final report including findings regarding the variables of interest.

SEC. 2. The sum of fifty thousand dollars ($50,000) is hereby

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the Superintendent of Public Instruction to have additional time to study the variables relating to district performance, and so make the final report more complete and more useful, it is necessary that this act take effect immediately.

CHAPTER 691

An act to add and repeal Article 3 (commencing with Section 18030) to Chapter 1 of Part 1 of Division 5 of Title 2 of the Government Code, relating to part-time employment, and making an appropriation therefor.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Article 3 (commencing with Section 18030) is added to Chapter 1 of Part 1 of Division 5 of Title 2 of the Government Code, to read:

Article 3. Part-Time Employment

18030. "Part-time employment," as used in this article, means employment in positions which require not more than 32 hours of work per week, and includes arrangements involving job sharing, four-, five-, or six-hour workdays, jobs which provide eight hours of employment or less for one, two, three, four or five days per week, and such other arrangements which the State Personnel Board and the Department of Motor Vehicles find consistent with maximum employment opportunity to persons unable to work a standard workweek.

18031. It is the policy of the state that a proportion of classes at various salary levels be available on a part-time employment basis to individuals who are unable, or who do not desire, to work standard working hours on a full-time basis. In order to establish the feasibility of such a project, the Department of Motor Vehicles shall conduct a pilot program in the department. The Department of Motor Vehicles and State Personnel Board shall evaluate and report back to the Governor and the Legislature on the progress of the pilot program.

18032. (a) The Department of Motor Vehicles shall adopt and maintain procedures, continuously conduct activities and projects, and undertake such other efforts as may be appropriate to carry out the provisions of this article. The State Personnel Board may provide consultation regarding rules and regulations necessary to carry out the provisions of this article.

(b) The pilot program shall begin January 1, 1977, and shall end on January 1, 1979, unless a later enacted statute, which is chaptered before January 1, 1979, deletes or extends such date. The State Personnel Board and Department of Motor Vehicles shall report on the progress of the project to the Governor and the Legislature on July 1, 1977, January 1, 1978, July 1, 1978, and January 1, 1979. The State Personnel Board report shall include recommendations on the expansion of the program to other state departments.

18033. (a) No full-time class or position which is occupied by an employee shall be abolished or reduced in hours without the voluntary consent of the employee holding that position.

(b) Nothing in this article shall impair the employment or employment rights or benefits of any employee.

18034. In counting the number of employees the Department of Motor Vehicles employs for purposes of any personnel ceiling, an employee employed on a part-time employment basis shall be counted as a fraction which is determined by dividing 40 hours into the average number of hours that employee works each week.

18035. If, on the effective date of this article, a collective-bargaining agreement is in effect with respect to positions occupied by employees which establishes the number of hours of employment in a week, then this article shall not apply to those positions.

18036. This article shall be known and may be cited as the "Part-Time Employment Pilot Program".

18037. This article shall remain in effect only until January 1, 1979, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1979, deletes or extends such date.

SEC. 2. The sum of thirty-seven thousand six hundred dollars ($37,600) is hereby appropriated from the Motor Vehicle Account in the State Transportation Fund to the Department of Motor Vehicles for expenditure during the 1976–77 fiscal year to implement the provisions of Article 3 (commencing with Section 18030) of Chapter 1 of Part 1 of Division 5 of Title 2 of the Government Code.

CHAPTER 692

An act to amend Sections 653o and 653p of the Penal Code, and to add Section 6 to Chapter 1200 of the 1971 Statutes, relating to endangered species.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 653o of the Penal Code is amended to read:

653o. It is unlawful to import into this state for commercial purposes, to possess with intent to sell, or to sell within the state, the dead body, or any part or product thereof, of any alligator, crocodile, polar bear, leopard, ocelot, tiger, cheetah, jaguar, sable antelope, wolf (Canus lupus), zebra, whale, cobra, python, sea turtle, colobus monkey, kangaroo, vicuna, sea otter, free-roaming feral horse, dolphin or porpoise (Delphinidae), Spanish lynx, or elephant.

Any person who violates any provision of this section is guilty of a misdemeanor and shall be subject to a fine of not less than one thousand dollars ($1,000) and not to exceed five thousand dollars ($5,000) or imprisonment in the county jail for not to exceed six months, or both such fine and imprisonment, for each violation.

SEC. 2. Section 653p of the Penal Code is amended to read:

653p. It is unlawful to possess with the intent to sell, or to sell, within the state, the dead body, or any part or product thereof, of any species or subspecies of any fish, bird, mammal, amphibian, reptile, mollusk, invertebrate, or plant, the importation of which is illegal under the Federal Endangered Species Act of 1973 (Title 16, United States Code Sec. 1531 et seq.) and subsequent amendments, or under the Marine Mammal Protection Act of 1972 (Title 16, United States Code Sec. 1361 et seq.), or which is listed in the Federal Register by the Secretary of the Interior pursuant to the above acts. The violation of any federal regulations adopted pursuant to the above acts shall also be deemed a violation of this section and shall be prosecuted by the appropriate state or local officials.

SEC. 3. Section 6 is added to Chapter 1200 of the 1971 Statutes, to read:

Sec. 6. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this act or other state statutes enforcing federal wildlife laws or protecting endangered species, and to this end the provisions of this act are severable and independent from other Fish and Game Code and Penal Code sections.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because

the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 5. Section 1 of this act shall become operative June 1, 1977. No provision of law shall prohibit the possession with intent to sell, or sale of the dead body, or any part or product thereof, of any elephant prior to June 1, 1977, or the possession with intent to sell or the sale of any such item on or after such date which was imported prior to the effective date of this act.

The burden of proof to demonstrate that such item or items were imported prior to the effective date of this act shall be placed upon the defendant.

CHAPTER 693

An act to amend Sections 31913 and 31913.5 of the Education Code, relating to family physician training, and making an appropriation therefor.

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 31913 of the Education Code is amended to read:

31913. There is hereby created a Health Manpower Policy Commission. The commission shall be composed of nine members who shall serve at the pleasure of their appointing authorities:

(a) Seven members appointed by the Governor, as follows: one representative of the University of California medical schools, from a nominee or nominees submitted by the University of California; one representative of the private medical schools accredited in California from individuals nominated by each of such schools; one representative of practicing family physicians; one representative of undergraduate medical students in a family practice program or residence in family practice training; one representative of trainees in a primary care physician's assistant program or a practicing physician's assistant; one representative of trainees in a primary care nurse practitioners program or a practicing nurse practitioner; and one representative of the State Department of Health, from *nominees submitted by the director.*

(b) Two consumer representatives of the public who are not elected or appointed public officials, one appointed by the Speaker of the Assembly and one appointed by the Chairman of the Senate Rules Committee.

(c) The Chief of the Health Manpower Development Section, or his designee, shall serve as executive secretary for the commission.

SEC. 2. Section 31913.5 of the Education Code is amended to read:

31913.5. The duties of the commission shall be:

(a) To determine specific areas of the state where unmet priority needs for primary care family physicians exist.

(b) To establish standards for family practice training programs and family practice residency programs and programs which train primary care physician's assistants and programs which train primary care nurse practitioners, including appropriate provisions to encourage family physicians and primary care physician's assistants and primary care nurse practitioners who receive training in accordance with this article to provide needed services in areas of unmet need within the state. Standards for family practice residency programs shall provide that all such residency programs contracted for pursuant to this article shall (i) meet the American Medical Association's "Essentials" for Residency Training in Family Practice and (ii) be approved by the Residency Review Committee for Family Practice of the American Medical Association. Every program shall include a component of training designed for medically underserved multicultural communities, lower socioeconomic neighborhoods, or rural communities, and shall be organized to prepare family physicians or primary care physician's assistants or primary care nurse practitioners for service in such neighborhoods and communities. Medical schools receiving funds under this article shall have programs or departments that recognize family practice as a major independent specialty. Existence of a written agreement of affiliation or association between a hospital and an accredited medical school shall be regarded by the commission as a favorable factor in considering recommendations to the director for allocation of funds appropriated to the state medical contract program established under this article.

(c) To review and make recommendations to the Director of Health concerning the funding of family practice programs or departments, family practice residencies and programs for the training of primary care physician's assistants and primary care nurse practitioners which are submitted to the Health Manpower Development Section, for participation in the contract program established by this article. Where the commission determines that a program proposal which has been approved for funding or which is the recipient of funds under this article does not meet the standards established by the commission, it shall submit to the Director of Health and the Legislature a report detailing its objections. The commission may request the Department of Health to make advance allocations for program development costs from amounts appropriated for the purposes of this article.

(d) To establish contract criteria and single per-student and per-resident capitation formulas which shall determine the amounts

to be transferred to institutions receiving contracts for the training of family practice students and residents and primary care physician's assistants and primary care nurse practitioners pursuant to this article, except as otherwise provided in subdivision (e). Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for waiver of these single capitation formulas. The director may grant such waiver in exceptional cases upon a clear showing by the institution that a waiver is essential to the institution's ability to provide a program of a quality comparable to those provided by institutions which have not received waivers, taking into account the public interest in program cost-effectiveness. Recipients of funds appropriated by this article shall, as a minimum, maintain the level of expenditure for family practice or primary care physician's assistant or family care nurse practitioner training provided by such recipients during the 1973–74 fiscal year. Funds appropriated by this article shall be used to develop new programs or to expand existing programs and shall not replace funds supporting current family practice training programs. Institutions applying for or in receipt of contracts pursuant to this article may appeal to the director for waiver of this maintenance of effort provision. The director may grant such waiver if he determines that there is reasonable and proper cause to grant such waiver.

(e) To review and make recommendations to the Director of Health concerning the funding of special programs which may be funded on other than a capitation rate basis. Such special programs may include the development and funding of the training of primary health care teams of family practice residents or family physicians and primary care physician's assistants or primary care nurse practitioners; undergraduate medical education programs in family practice; and programs which link training programs and medically underserved communities in California which appear likely to result in the location and retention of training program graduates in such communities. Such special programs may include also the development phase of new family practice residency, primary care physician's assistant or primary care nurse practitioner programs.

The commission shall establish standards and contract criteria for special programs recommended under this paragraph.

(f) To review and evaluate these programs regarding proper compliance with the provisions of this article and to submit annual progress reports to the Legislature on or before September 30 of each year. One standard for evaluation shall be the number of recipients who, after completing the program, actually go on to serve in areas of unmet priority for primary care family physicians in California.

SEC. 3. There is hereby appropriated from the General Fund to the State Department of Health the total sum of one million seven hundred seventy-five thousand dollars ($1,775,000) for expenditure during the 1977–78, 1978–79, 1979–80, and 1980–81 fiscal years, to be expended as follows:

(a) The sum of one million six hundred seventy-five thousand dollars ($1,675,000) shall be allocated for contracts with accredited medical schools, programs which train primary care physician's assistants, programs which train primary care nurse practitioners, and with hospitals or other health care delivery systems located in California which meet the standards of the Health Manpower Policy Commission established pursuant to Article 8 (commencing with Section 31910) of Chapter 5 of Division 22 of the Education Code.

(b) The sum of one hundred thousand dollars ($100,000) is allocated without regard to fiscal years, for the period July 1, 1977, through September 30, 1981, for the purposes of insuring proper administration and evaluation of the training programs contracted for pursuant to Article 8 (commencing with Section 31910) of Chapter 5 of Division 22 of the Education Code. Such funds may also be utilized to conduct research related to policy and funding of other health manpower training and delivery approaches to better meet health care delivery needs in California.

CHAPTER 694

[Approved by Governor August 30, 1976. Filed with Secretary of State August 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2606.4 is added to the Unemployment Insurance Code, to read:

2606.4. Notwithstanding Section 632, "employment" for purposes of this part also means service performed as a clerk-carrier in the employ of the United States Postal Service, to the extent Congress permits this part to be applicable to the postal service, and if Congress permits the states to require the postal service to withhold workers' contributions and to transmit those contributions into a state fund for unemployment compensation disability benefits.

SEC. 2. This bill shall not take effect unless the 94th Congress enacts H.R. 13341.

Prior to requesting such authority, the governing board shall adopt a resolution declaring the board's intention to utilize the building as a school building after June 30, 1975, pending its repair, reconstruction, or replacement. The State Allocation Board shall not authorize any school district to use such a building beyond June 30, 1975, unless it has first determined that the school district has already proceeded with a plan of total repair, reconstruction or replacement in a timely manner and a contract has been let for any phase of, and work commenced on, such project. In no event shall the State Allocation Board authorize the use

of such unsafe facilities for a period extending beyond the completion of the replacement facilities or beyond June 30, 1977, whichever occurs first.

The maximum rate of tax of any school district for the fiscal years 1974–75 to 1976–77, inclusive, is hereby increased by such amount as will produce the amount necessary to have any school buildings examined as required by Section 15503 and to effect the corrective structural repairs, reconstruction or replacement relating to earthquake safety recommended pursuant to Section 15503, as shown by the budget of the district for such school year as finally adopted by the governing board of the district, less any unencumbered balances remaining at the end of the preceding school year derived from revenue from the increase in the rate of tax provided by this section. The funds provided by such increase in the tax rate may be used to provide for the housing of pupils temporarily displaced by the repair, reconstruction, or replacement of school buildings required in order to meet earthquake safety standards.

The increase provided by this section and Section 15517 shall not exceed a total increase of ten cents ($0.10) for each one hundred dollars ($100) of the assessed valuation of property within the district in each fiscal year, unless additional funds are specifically required by the district to match state funds provided pursuant to Article 9 (commencing with Section 19700.51) of Chapter 10, Division 14. If such additional funds are required by the district, the maximum increase in tax rate provided by this section may be increased by not to exceed an additional ten cents ($0.10) for each one hundred dollars ($100) of assessed valuation of property within the district in

each fiscal year such additional funds are required pursuant to Article 9, prior to and including the 1973–74 fiscal year. Such additional tax money may be levied in the 1974–75 fiscal year only if the State Allocation Board has first approved an application of the district pursuant to Article 9. After the 1974–75 fiscal year, any district which has levied the entire twenty-cent ($0.20) amount permitted by this section in the preceding fiscal year and has deposited in the State School Building Fund of the district, the proceeds derived therefrom as matching funds in an application or applications under Article 9 may levy the same twenty-cent ($0.20) tax or so much thereof as is necessary for matching funds for an application or applications under Article 9 in any succeeding fiscal year, including, but not beyond, the 1976–77 fiscal year.

This section shall remain operative only until July 1, 1978, and as of such date is repealed. This section shall remain in effect until such date regardless of the repeal or expiration of Section 15517.

Notwithstanding the provisions of this section, the governing board shall comply with the provisions of Section 15505 whenever such compliance is necessary to continue the program of corrective structural repairs, reconstruction, or replacement required pursuant to the provisions of this article.

SEC. 4. Section 15518.01 is added to the Education Code, to read:

15518.01. Beginning with the 1978–79 fiscal year, the county superintendent of schools, in conjunction with his review of any school district budget pursuant to Section 20607, shall determine any unexpended funds derived from the tax levied pursuant to Section 15518 and require that such funds be utilized by the district in one of the following ways:

(a) If the district was not an applicant district pursuant to Article 9 (commencing with Section 19700.51) of Chapter 10 of Division 14, the unexpended funds shall be budgeted for capital outlay purposes only.

(b) If the district was an applicant pursuant to Article 9, such unexpended funds received prior to July 1, 1980, shall only be applied as a direct reduction of any Article 9 apportionment outstanding against the district. The county superintendent of schools shall in such case notify the duly authorized representative of the State Allocation Board of the amount available as a reduction of outstanding Article 9 apportionments and the authorized representative shall take the action necessary to reduce the outstanding apportionments. After July 1, 1980, any additional amounts shall be available only for the purposes of reducing the tax levy under Section 19619.

This section shall remain in effect only until June 30, 1985, and as of that date is repealed.

SEC. 5. Section 19700.695 is added to the Education Code, to read:

19700.695. Notwithstanding Section 15518 or anything to the contrary in this article, whenever the State Allocation Board

determines that state funds are not available to make an apportionment for an otherwise eligible project in the amount computed pursuant to Section 19700.69, an application may be approved and an apportionment made for one dollar ($1) only. In such instances the project may be financed by the applicant district using funds derived from a twenty cents ($0.20) tax levy provided by Section 15518 together with any other funds available to the district for such purposes.

SEC. 6. During the 1975–76 fiscal year, Indo-Chinese refugees shall be excluded from attendance of the San Juan Unified School District for purposes of computing any increase in the district's revenue limit on account of losses in average daily attendance, as provided for in Section 20905.5 of the Education Code, and for purposes of computing revenue limit adjustments pursuant to Section 20907 of the Education Code.

SEC. 7. Section 4 of Chapter 1009 of the Statutes of 1975 is repealed.

SEC. 8. It is the intent of the Legislature that the State School Building Lease-Purchase Law of 1976, as enacted by Chapter 1009 of the Statutes of 1975, become operative on the effective date of this act and be implemented at such time as funds are made available from any source to finance the program established by that law.

Such loans shall be repayable over a period of not to exceed 10 years and shall be repayable with interest at the rate specified in Section 12885.8.

Such loans may be made only to public agencies having the financial ability to repay and serving an area with a population of 100,000 or less.

The Legislature finds that public agencies serving areas with a population of over 100,000 are able financially to relieve drought situations without assistance from the state. No more than two million dollars ($2,000,000) of the funds available under this chapter may be loaned under this section. Notwithstanding any statutory limitations on its existing powers and except as restricted by the California Constitution, any public agency is authorized, without an election, to borrow and expend funds pursuant to this section to relieve water shortage emergencies within its boundaries.

be adopted by the department unless such decision is in violation of law, would result in physical danger to any persons, would require expenditure of funds not reasonably available for such purpose to the department, or, in the personal judgment of the director, would be detrimental to the public or to the proper and effective accomplishment of the duties of the department;

(i) Provide for the monitoring of the system by the department with an annual report regarding the operation of the system to be filed with the Legislature, with the Attorney General and with the State Public Defender, and further provide, pursuant to contract or other appropriate means, for an annual evaluation of the system by a public or private agency independent of the department to the extent necessary to ascertain whether the requirements of this section are being met. (B) Central telephone service subject to tariffs covering the same filed with the California Public Utilities Commission.

(C) Central dining, maid, mail, room and recreational services.

(D) Occupancy for periods of less than seven days.

(c) "Dwelling unit" means a structure or the part of a structure that is used as a home, residence, or sleeping place by one person who maintains a household or by two or more persons who maintain a common household.

(d) Nothing in this section shall be construed to limit the application of any provision of this chapter to tenancy in a dwelling unit unless such provision is so limited by its specific terms.

SEC. 2. Section 1159 of the Code of Civil Procedure is amended to read:

1159. Every person is guilty of a forcible entry who either:

1. By breaking open doors, windows, or other parts of a house, or by any kind of violence or circumstance of terror enters upon or into any real property; or,

The "party in possession" means any person who hires real property and includes a boarder or lodger, except those persons whose occupancy is described in subdivision (b) of Section 1940 of the Civil Code.

SEC. 3. Section 1161 of the Code of Civil Procedure is amended to read:

1161. A tenant of real property, for a term less than life, or the executor or administrator of his estate heretofore qualified and now acting or hereafter to be qualified and act, is guilty of unlawful detainer:

1. When he continues in possession, in person or by subtenant, of the property, or any part thereof, after the expiration of the term for which it is let to him; provided such expiration is of a nondefault nature however brought about without the permission of his landlord, or the successor in estate of his landlord, if any there be; including the case where the person to be removed became the occupant of the premises as a servant, employee, agent, or licensee and the relation of master and servant or employer and employee or

principal and agent or licensor and licensee has been lawfully terminated or the time fixed for such occupancy by the agreement between the parties has expired; but nothing in this subdivision contained shall be construed as preventing the removal of such occupant in any other lawful manner; but in case of a tenancy at will, it must first be terminated by notice, as prescribed in the Civil Code.

2. When he continues in possession, in person or by subtenant, without the permission of his landlord, or the successor in estate of his landlord, if any there be, after default in the payment of rent, pursuant to the lease or agreement under which the property is held, and three days' notice, in writing, requiring its payment, stating the amount which is due, or possession of the property, shall have been served upon him and if there is a subtenant in actual occupation of the premises, also upon such subtenant.

Such notice may be served at any time within one year after the rent becomes due. In all cases of tenancy upon agricultural lands, where the tenant has held over and retained possession for more than 60 days after the expiration of the term without any demand of possession or notice to quit by the landlord or the successor in estate of his landlord, if any there be, he shall be deemed to be holding by permission of the landlord or successor in estate of his landlord, if any there be, and shall be entitled to hold under the terms of the lease for another full year, and shall not be guilty of an unlawful detainer during said year, and such holding over for the period aforesaid shall be taken and construed as a consent on the part of a tenant to hold for another year.

3. When he continues in possession, in person or by subtenant, after a neglect or failure to perform other conditions or covenants of the lease or agreement under which the property is held, including any covenant not to assign or sublet, than the one for the payment of rent, and three days' notice, in writing, requiring the performance of such conditions or covenants, or the possession of the property, shall have been served upon him, and if there is a subtenant in actual occupation of the premises, also, upon such subtenant. Within three days after the service of the notice, the tenant, or any subtenant in actual occupation of the premises, or any mortgagee of the term, or other person interested in its continuance, may perform the conditions or covenants of the lease or pay the stipulated rent, as the case may be, and thereby save the lease from forfeiture; provided, if the conditions and covenants of the lease, violated by the lessee, cannot afterward be performed, then no notice, as last prescribed herein, need be given to said lessee or his subtenant, demanding the performance of the violated conditions or covenants of the lease.

A tenant may take proceedings, similar to those prescribed in this chapter, to obtain possession of the premises let to a subtenant or held by a servant, employee, agent, or licensee, in case of his unlawful detention of the premises underlet to him or held by him.

4. Any tenant, subtenant, or executor or administrator of his estate heretofore qualified and now acting, or hereafter to be qualified and

act, assigning or subletting or committing waste upon the demised premises, contrary to the conditions or covenants of his lease, or maintaining, committing, or permitting the maintenance or commission of a nuisance upon the demised premises or using such premises for an unlawful purpose, thereby terminates the lease, and the landlord, or his successor in estate, shall upon service of three days' notice to quit upon the person or persons in possession, be entitled to restitution of possession of such demised premises under the provision of this chapter.

5. When he gives written notice as provided in Section 1946 of the Civil Code of his intention to terminate the hiring of the real property, or makes a written offer to surrender which is accepted in writing by the landlord, but fails to deliver up possession at the time specified in said written notice, without the permission of his landlord, or the successor in estate of the landlord, if any there be.

As used in this section, tenant includes any person who hires real property except those persons whose occupancy is described in subdivision (b) of Section 1940 of the Civil Code.

With respect to state officers and employees, the regulations shall provide that every employee or annuitant enrolled in a health benefits plan shall be enrolled in a major medical plan or shall provide for inclusion of major medical benefits in health benefit plans. The regulations may provide for the exclusion of employees on the basis of the nature and type of their employment or conditions pertaining thereto, such as, but not limited to, short term appointments, seasonal or intermittent employment, and employment of a like nature, but no employee or group of employees shall be excluded solely on the basis of the hazardous nature of the employment. Any such enrollment shall authorize the deduction of the contributions required under this part from the employee's or annuitant's salary or retirement allowance.

In the case of the death of an employee after application has been filed for coverage of family members but prior to the effective date of such coverage, such family members shall be deemed to have been covered on the date of the death of the employee, and if one of the family members is an annuitant he shall be enrolled as if the coverage applied for were continued without discrimination as to premium rates or benefit coverage.

The board shall, by rule and regulation, make such provision as it deems necessary to eliminate or minimize the impact of adverse selection which would affect any plans approved or contracted for, because of enrollment of annuitants.

SEC. 2. The amendments to Section 22810 of the Government Code which are made by this act shall also be applicable to all persons who receive allowances with respect to members of the Public Employees' Retirement System whose death was a result of injury in the course of employment on or after November 1, 1975.

SEC. 3. SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At the time of the filing of the application required by this section, the applicant shall pay to the Cemetery Fund the sum fixed by the board at not in excess of four hundred dollars ($400) to defray the expenses of investigation. In the event the sum shall be insufficient to defray all of the expenses, the applicant shall within five days after request therefor deposit an additional sum sufficient to defray such expenses, provided that the total sum shall not exceed the sum of nine hundred dollars ($900).

SEC. 2. Section 9718 is added to the Business and Professions Code, to read:

9718. The board may, in accordance with its rules and regulations, authorize interments in cemeteries for which there is no currently valid certificate of authority outstanding if the board finds

that rights to interment therein will otherwise be impaired. However, nothing in this section authorizes sales of lots, vaults, or niches by cemeteries for which there is no currently valid certificate of authority. Interments permitted under this section shall be conducted by persons authorized by the board in accordance with its regulations, and Section 9768 shall not be applicable to such interments.

The board or its representative shall be entitled to inspect and copy any cemetery records necessary to the performance of interments under this section, and any person having custody of such records shall permit inspection and copying thereof for such purpose. The board may apply to the superior court for the county in which the cemetery is located for an order temporarily transferring custody of cemetery records to it for purposes of this section.

SEC. 3. Section 9768 of the Business and Professions Code is amended to read:

9768. It is a misdemeanor for any cemetery corporation to make any interments or perform any cremations without a valid, subsisting and unsuspended certificate of authority. Each interment or cremation shall be a separate violation.

SEC. 4. Article 6 (commencing with Section 8585) is added to Chapter 3 of Part 3 of Division 8 of the Health and Safety Code, to read:

Article 6. Transfer of Cemetery Ownership

8585. Whenever ownership of any cemetery authority is proposed to be transferred, the cemetery authority shall notify the Cemetery Board in the Department of Consumer Affairs. A change in ownership, for purposes of this section, shall be deemed to occur whenever more than 50 percent of the equitable ownership of a cemetery authority is transferred in a single transaction or in a related series of transactions to one or more persons, associations, or corporations. The notice shall specify the address of the principal offices of the cemetery authority, and whether it will be changed or unchanged, and shall specify the name and address of each new owner and the stockholders thereof.

Notice of such a change of ownership shall be published in a newspaper of general circulation in the county in which the cemetery is located. The notice shall specify the address of the principal offices of the cemetery authority, whether changed or unchanged, and shall specify the name and address of each new owner and each stockholder owning more than 5 percent of the stock of each new owner.

When there is a change of ownership pursuant to this section, the existing certificate of authority shall lapse and a new certificate of authority shall be obtained from the Cemetery Board. No person shall purchase a cemetery, including purchase at a sale for

03021 297155 322

delinquent taxes, or purchase more than 50 percent of the equitable ownership of a cemetery authority without having obtained a certificate of authority from the Cemetery Board prior to the purchase of the cemetery or such an ownership interest in the cemetery authority.

Every cemetery authority shall post and continuously maintain at each public entrance to the cemetery a sign specifying the current name and address of the cemetery authority, a statement that the name and address of each director and officer of the cemetery authority may be obtained by contacting the Cemetery Board of the State of California, and the address of the Cemetery Board. Such signs shall be at least 16 inches high and 24 inches wide and shall be prominently mounted upright and vertical.

The Cemetery Board shall suspend the certificate of authority of any cemetery authority which is in violation of the sign or public notice requirements of this section. Such certificate may be reinstated only upon compliance with such requirements.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

of the preneed interment contract shall return such money or property to the purchaser. The cemetery authority or broker shall promptly notify the trustee if any such money or property has been transmitted thereto prior to receipt of the notice of cancellation. SEC. 7. Section 21207 of the Vehicle Code, as amended by Section 8 of Chapter 1235 of the Statutes of 1975, is amended to read:

21207. This chapter does not prevent local authorities from establishing, by ordinance or resolution, bicycle lanes separated from any vehicular lanes upon highways, other than state highways as defined in Section 24 of the Streets and Highways Code and county highways established pursuant to Article 5 (commencing with Section 1720) of Chapter 9 of Division 2 of the Streets and Highways Code.

SEC. 8. Section 21208 is added to the Vehicle Code, to read:

21208. (a) Whenever a bicycle lane has been established on a roadway pursuant to Section 21207, any person operating a bicycle upon the roadway at a speed less than the normal speed of traffic moving in the same direction shall ride within the bicycle lane, except that such person may move out of the lane under any of the following situations:

(1) When overtaking and passing another bicycle, vehicle, or pedestrian within the lane or about to enter the lane if such overtaking and passing cannot be done safely within the lane.

(b) No person operating a bicycle shall leave a bicycle lane until the movement can be made with reasonable safety and then only after giving an appropriate signal in the manner provided in Chapter 6 (commencing with Section 22100) in the event that any vehicle may be affected by the movement.

SEC. 9. Section 21209 is added to the Vehicle Code, to read:

21209. Whenever a bicycle lane has been established on a roadway pursuant to Section 21207, any person operating a motor vehicle on such roadway shall not drive in the bicycle lane except to

park where parking is permitted, to enter or leave the highway, or to prepare for a turn.

SEC. 10. Section 21210 is added to the Vehicle Code, to read:

21210. No person shall leave a bicycle lying on its side on any sidewalk, or shall park a bicycle on a sidewalk in any other position, so that there is not an adequate path for pedestrian traffic. Local authorities may, by ordinance or resolution, prohibit bicycle parking in designated areas of the public highway, provided that appropriate signs are erected.

SEC. 12. Section 21717 is added to the Vehicle Code, to read:

21717. Whenever it is necessary for the driver of a motor vehicle to cross a bicycle lane that is adjacent to his lane of travel to make a turn, the driver shall drive the motor vehicle into the bicycle lane prior to making the turn and shall make the turn pursuant to Section 22100.

SEC. 16. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section, nor shall there be any appropriation made by this act, because the Legislature recognizes that, during any legislative session, a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

[Approved by Governor September 4, 1976 Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1025.5 is added to the Probate Code, to read:

1025.5. Within one year from the date of issuance of letters in estates not required to file a federal estate tax return and within 18 months from the date of issuance of letters in estates where such return is required, the executor or administrator must either petition for final distribution of the estate or file a verified report of status of administration. If such report is filed, it shall show the condition of the estate and the reasons why the estate cannot be distributed and closed. Notice of the hearing of such report shall be given in the manner provided in Section 1200. Upon the hearing of such report, the court may either order that the administration of the estate continue for such time and upon such terms and conditions as it determines reasonable, provided that it finds that such continuance is in the best interests of the estate or the persons interested therein, or it may order the executor or administrator to file the petition for final distribution.

If such petition or report is not filed by the executor or administrator within the times set forth herein or prescribed by the court, then, upon petition of any person interested in the estate or upon its own motion, the court may cite the executor or administrator to appear before the court and show the condition of the estate and the reasons why the estate cannot be distributed and

closed. Upon the hearing of such citation, the court may either order the administration of the estate to continue as above provided or may order the executor or administrator to file the petition for final distribution.

Failure of the executor or administrator to comply with any order made under this section shall be grounds for revocation of letters.

If, upon the hearing for final distribution or for an allowance upon the commissions of the executor or administrator or upon the fees of the attorney, the court finds that the time taken for administration of the estate exceeds the applicable time set forth herein or prescribed by the court, and was caused by factors within the control of the executor or administrator or the attorney and that such time taken was not in best interests of the estate or the persons interested therein, the court may, notwithstanding the provisions of Sections 901 and 910, reduce the fees or commissions of the person or persons having control of such factors by such amount as the court deems appropriate, regardless of whether the fees or commissions otherwise allowable under the provisions of Sections 901 and 910 would be reasonable compensation for the services rendered by such person or persons.

This section shall be applicable only to the estates of persons dying on or after January 1, 1977.

CHAPTER 757

SECTION 1. Chapter 4.5 (commencing with Section 2771) is added to Part 2 of Division 1 of the Public Utilities Code, to read:

CHAPTER 4.5. ELECTRICAL AND GAS CORPORATIONS

2771. The commission shall establish priorities among the types or categories of customers of every electrical corporation and every gas corporation, and among the uses of electricity or gas by such customers. The commission shall determine which of such customers and uses provide the most important public benefits and serve the greatest public need and shall categorize all other customers and uses in order of descending priority based upon these standards. The commission shall establish no such priority after the effective date of

this chapter which would cause any reduction in the transmission of gas to California pursuant to any federal rule, order, or regulation.

2772. In establishing the priorities pursuant to Section 2771, the commission shall include, but not be limited to, a consideration of all of the following:

(a) A determination of the customers and uses of electricity and gas, in descending order of priority, which provide the most important public benefits and serve the greatest public need.

(b) A determination of the customers and uses of electricity and gas which are not included under subdivision (a).

(c) A determination of the economic, social, and other effects of a temporary discontinuance in electrical or gas service to the customers or for the uses determined in accordance with subdivision (a) or (b).

(d) Any curtailment or allocation rules, orders, or regulations issued by any agency of the federal government.

2773. The commission may establish as many priorities of use for a customer as that customer has uses of gas or electricity.

2774. In the event any electrical or gas corporation experiences any shortage of capacity or capability in the generation, production, or transmission of electricity or gas and is unable to obtain electricity or gas from any other source so that the corporation is unable to meet all demands by its customers, the commission shall, to the extent practicable, order that service be temporarily reduced by an amount that reflects the priorities established pursuant to this chapter, for the duration of the shortage. The commission may, to the extent permitted by federal law or regulation, require electrical or gas corporations to mutually assist each other in dealing with shortages resulting from inadequate fuel supplies, and shall determine the terms, including compensation, under which such assistance shall be provided.

2775. No electrical or gas corporation which reduces or discontinues service in accordance with any order of the commission issued pursuant to this chapter shall be liable for any damages to any person or property resulting from such reduction or discontinuance.

SEC. 2. CHAPTER 759

An act to amend Section 20110 of the Education Code, and Section 828 of the Unemployment Insurance Code, relating to schools.

[Approved by Governor September 4, 1976 Filed with Secretary of State September 7, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 20110 of the Education Code is amended to read:

20110. The Superintendent of Public Instruction shall represent, and exercise all rights of appeal under this part on behalf of school employers or arrange with a county superintendent of schools or make designation thereof consistent with this section for the filing of appeals for school employers and for the representation of school employers at hearings held under Part 1 (commencing with Section 100) of Division 1 of the Unemployment Insurance Code. The cost of services provided by the Superintendent of Public Instruction under this section and under Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code shall be paid from the Classified School Employees Fund. The Superintendent of Public Instruction is hereby authorized to obtain pertinent personnel records and data from any school employer and to act as an agent individually or collectively for school employers in matters pertaining to unemployment insurance.

Each county superintendent of schools, unless notified by the administrator or the Superintendent of Public Instruction to the contrary, shall perform such duties and render such services as required to implement such program. Any district, combination of districts, county, combination of counties, or combination of counties and school districts, may be designated by the Superintendent of Public Instruction whereby one agency may administer the program for the purpose of consolidation for economy and employment of specialists. This consolidation may include the services of a regional data center operated by a county superintendent of schools or the

data-processing services of a school district.

Each school employer shall perform pursuant to Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1 of the Unemployment Insurance Code and shall respond to the Superintendent of Public Instruction and the county superintendent of schools or designated agency as soon as possible, in no case later than 48 hours, to inquiries made on behalf of such county superintendent or the Superintendent of Public Instruction in reference to any aspect of eligibility, notice of claim or appeal under the unemployment insurance program. Each county superintendent or agent thereof who is responsible for administering the unemployment insurance program shall be responsible for timely responses to any inquiry by the administrator, Superintendent of Public Instruction, State Treasurer, State Controller, or other officer or person responsible for disbursements on behalf of the joint account, the Classified School Employees Fund in the State Treasury as established by Section 822 of the Unemployment Insurance Code, and the Unemployment Fund in the State Treasury. Any school employer which fails to pay the contributions, interest, charges or levies within the time required shall be liable for interest on moneys due at the rate of 1 percent per month or fraction thereof from and after the date of delinquency until paid. If, except as stated in Section 828 of the Unemployment Insurance Code with reference to Section 826 thereof, the school employer fails, without good cause, to pay any sums required within the time required a penalty of 10 percent of the amount noticed, billed or required shall be made by the administrator. The administrator may for good cause waive all or a portion of interest and penalty.

SEC. 2. Section 828 of the Unemployment Insurance Code is amended to read:

828. Each school employer shall be responsible for a quarterly local experience charge as set forth below, together with such charges or penalties set by the administrator for administrative indiscretions including tardiness, error, as well as all costs for benefits and administration resulting from failure to properly cover an employee. Such reimbursement for charges shall be delinquent 30 days from the date of notice and if not paid within the time required the school employer shall pay a penalty of 10 percent of the unpaid amount plus interest at the rate of 1 percent per month or fraction thereof from and after the date of delinquency until paid. However, if funds are not available to pay local experience charges, when the budget requirements as set forth in Section 826 were adhered to, penalties shall be waived by the administrator for a period of not to exceed nine (9) months. The formula to be used for calculating the local experience charge to be levied against each school employer is as follows:

Local Experience Charge

Step (a) The amount of benefits paid, including benefits paid based on wages paid to employees performing services in specially funded projects, during any quarter shall be divided by the number of employees on the school employer's quarterly contribution return and report of wages to the department for that quarter.

Step (b) The amount derived by step (a) shall be distributed in line 1, then 2 and then 3, in accordance with the following table.

That portion of step (a) which is equal to or exceeds column (a) and is not greater than column (b) shall be multiplied by the rate on the same line.

Value derived in step (a) is to be distributed

Line	Column (a)	Column (b)	Rate
1	$ 0.00 up to	$40.00	10%
2	$40.01 up to	$80.00	5%
3	$80.01 and over		1%

Step (c) The values in step (b) shall be added.

Step (d) The sum derived in step (c) shall be multiplied by the number of employees on the school employer's last quarterly contribution return and report of wages.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not place any financial burden on local government.

53094. Notwithstanding any other provisions of this article, the governing board of a school district, by vote of two-thirds of its members, may render a city or county zoning ordinance inapplicable to a proposed use of property by such school district except when the proposed use of the property by such school district is for

nonclassroom facilities, including, but not limited to, warehouses, administrative buildings, automotive storage and repair buildings. The board shall, within 10 days, notify the city or county concerned of such action. If such governing board has taken such action the city or county may commence an action in the superior court of the county whose zoning ordinance is involved or in which is situated the city whose zoning ordinance is involved, seeking a review of such action of the governing board of the school district to determine whether it was arbitrary and capricious. The city or county shall cause a copy of the complaint to be served on the board. If the court determines that such action was arbitrary and capricious, it shall declare it to be of no force and effect, and the zoning ordinance in question shall be applicable to the use of the property by such school district.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

An act to amend Section 4800 of the Civil Code, relating to community property.

[Approved by Governor September 4, 1976 Filed with Secretary of State September 7, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 4800 of the Civil Code is amended to read:

4800. (a) Except upon the written agreement of the parties, or on oral stipulation of the parties in open court, the court shall, either in its interlocutory judgment of dissolution of the marriage, in its judgment decreeing the legal separation of the parties, or at a later time if it expressly reserves jurisdiction to make such a property division, divide the community property and the quasi-community property of the parties, including any such property from which a homestead has been selected, equally. For purposes of making such division, the court shall value the assets and liabilities as near as practicable to the time of trial, except that, upon 30 days' notice by the moving party to the other party, the court for good cause shown may value all or any portion of the assets and liabilities at a date after separation and prior to trial to accomplish an equal division of the community property and the quasi-community property of the parties in an equitable manner.

(b) Notwithstanding subdivision (a), the court may divide the community property and quasi-community property of the parties as follows:

(1) Where economic circumstances warrant, the court may award any asset to one party on such conditions as it deems proper to effect a substantially equal division of the property.

(2) As an additional award or offset against existing property, the court may award, from a party's share, any sum it determines to have been deliberately misappropriated by such party to the exclusion of the community property or quasi-community property interest of the other party.

(3) If the net value of the community property and quasi-community property is less than five thousand dollars ($5,000) and one party cannot be located through the exercise of reasonable diligence, the court may award all such property to the other party on such conditions as it deems proper in its final judgment decreeing the dissolution of the marriage or in its judgment decreeing the legal separation of the parties.

(c) Notwithstanding the provisions of subdivision (a), community property personal injury damages shall be assigned to the party who suffered the injuries unless the court, after taking into account the economic condition and needs of each party, the time that has elapsed since the recovery of the damages, and all other facts of the case, determines that the interests of justice require another disposition. In such case, the community property personal injury damages shall be assigned to the respective parties in such proportions as the court determines to be just, except that at least one-half of such damages shall be assigned to the party who suffered the injuries. As used in this subdivision, "community property personal injury damages" means all money or other property received by a married person as community property in satisfaction

of a judgment for damages for his or her personal injuries or pursuant to an agreement for the settlement or compromise of a claim for such damages, unless such money or other property has been commingled with other community property.

(d) The court may make such orders as it deems necessary to carry out the purposes of this section.

7466.5. A regional occupational program or center, established pursuant to Section 7451, may contract with a community college district to provide vocational education instruction and services for students enrolled, or seeking to enroll, in a regional occupational

center or program. Such instruction and services shall comply with the requirements and standards for regional occupational programs and centers as set forth in the State Plan for Vocational Education.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Conflicting legal opinions are preventing certain county boards of education from obtaining the services necessary to implement Chapter 961 of the Statutes of 1975, as well as jeopardizing the continuation of needed occupational training programs offered by county boards of education under contract with community college districts. Because implementation of Chapter 961 and the beginning of the new school year occur prior to the effective date of statutes regularly enacted during this session of the Legislature, it is necessary that this act go into immediate effect.

The local agency, at its option, may include in an ordinance reclassifying land either a brief description accompanied by a map of the boundaries of the property, as recited in the notice of hearing, or a complete metes and bounds description accompanied by a map depicting the reclassified property and adjacent properties. A certificate of the clerk or order entered in the minutes of the board that the ordinance has been duly published or posted is prima facie proof of the publication or posting.

SEC. 2. Section 620.5 of the Revenue and Taxation Code is amended to read:

620.5. If real property is acquired after the lien date for the fiscal year and before the first day of such fiscal year and if the new owner

SEC. 3. Section 1603 of the Revenue and Taxation Code is amended to read:

1603. (a) A reduction in an assessment on the local roll shall not be made unless the party affected or his agent makes and files with the county board a verified, written application showing the facts claimed to require the reduction and the applicant's opinion of the full value of the property.

(b) In the case of a county of the first class, the application shall be filed between the third Monday in July and September 15. An application that is mailed and postmarked September 15 or earlier within such period shall be deemed to have been filed between the third Monday in July and September 15.

(c) In the case of a county of the second to ninth class, inclusive, the application shall be filed within the time period beginning July 2 and continuing through and including September 15. An application that is mailed and postmarked September 15 or earlier within such period shall be deemed to have been filed within the time period beginning July 2 and continuing through and including September 15.

(d) In all other counties, the application shall be filed between July 2 and August 26. An application that is mailed and postmarked August 26 or earlier within such period shall be deemed to have been filed between July 2 and August 26.

(e) In the form provided for making application pursuant to this section, there shall be a notice that written findings of facts of the local equalization hearing will be available upon written request at the requester's expense and, if not so requested, the right to such written findings is waived. The form shall provide appropriate space for the applicant to request written finding of facts as provided by Section 1611.5.

SEC. 4. Section 1611 of the Revenue and Taxation Code is amended to read:

1611. The county board shall make a record of the hearing and, upon request, shall furnish the party with a tape recording or a transcript thereof at his expense. Request for a tape recording or a transcript may be made at any time, but not later than 60 days following the final determination by the county board.

CHAPTER 769

An act to add Section 17946 to the Education Code, relating to school apportionments, and declaring the urgency thereof, to take effect immediately.

(c) The educational program offered during intersessions is comparable in scope and quality to the educational program offered during nonintersessions.

(d) Pupils attend school for no more than 180 days per school year.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit this act to be operative for the entire 1976–77 fiscal year, and so facilitate the orderly administration of the system of providing financial support for school districts, it is necessary that this act take effect immediately.

CHAPTER 770

(c) For amounts of insurance based upon some plan which will preclude individual selection.

(d) For the benefit of persons other than the employer.

(e) When the premium is to be paid by the employer and employee jointly and the benefits of the policy are offered to all eligible employees, written under a policy insuring, when issued, not less than 75 percent of such employees.

(f) Terminating if, subsequent to issue, (1) the number of employees insured falls below 10 lives or 75 percent of the number of employees eligible and, (2) the employee contributions, if the premiums for the insurance are on a renewable term insurance basis, exceed one dollar ($1) per month per one thousand dollars ($1,000) of insurance coverage plus an amount equal to any additional premium per one thousand dollars ($1,000) of insurance coverage charged to cover one or more hazardous occupations.

Such insurance may be issued either with or without medical examinations.

SEC. 2. Section 10203.4 of the Insurance Code is amended to read:

10203.4. Insurance under any group life insurance policy issued pursuant to Sections 10202, 10202.7, 10202.8, 10203, 10203.1, and 10203.7 may, if 75 percent of the insured employees elect, be extended to insure the dependents, or any class or classes thereof, of each insured employee who so elects, in amounts in accordance with some plan which precludes individual selection and which shall not be in excess of 50 percent of the insurance on the life of such insured employee or one thousand five hundred dollars ($1,500), whichever is less; provided, however, in the case of a dependent whose age at death is under six months, the amount shall not be in excess of one hundred dollars ($100).

and (b) chiefly dependent upon the employee for support and maintenance, provided proof of such incapacity and dependency is furnished to the insurer by the employee within 31 days of the child's attainment of the limiting age and subsequently as may be required by the insurer, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

The premiums for the insurance on such dependents may be paid by the employer or by the employee or by the employer and the employee jointly.

CHAPTER 771

An act to amend Section 6815 of the Public Resources Code, relating to state lands.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 6815 of the Public Resources Code is amended to read:

6815. (a) Notwithstanding any other provision of law to the contrary, whenever it appears to the commission that wells drilled upon private or public lands are draining or may drain oil or gas from lands owned by the state, the commission may negotiate and enter into agreements with the private or public owners of such lands or with the owners or operators of such wells or with both the private or public owners of such lands and the owners or operators of such wells from which such drainage is or may be occurring for the payment of compensation to the state for such drainage, or may negotiate and enter into leases for the development of the state lands through drilling from adjoining lands only.

(b) Whenever the provisions of Section 6827 are deemed by the commission to be impracticable in the particular case by reason of the small size or irregular configuration of the property, or its inaccessibility from surface drill sites reasonably available or obtainable, except with respect to lands owned by the state that are not available for lease pursuant to Section 6871.1 and that are described in Section 6871.2, the commission, in lieu of following the provisions of Section 6827, may negotiate and enter into agreements with the private or public owners of lands or owners or operators of wells located on such private or public lands or with both the private or public owners of such lands and the owners or operators of such wells located on such lands which are draining or may drain oil and gas from lands owned by the state for the payment of compensation to the state for such drainage, or may negotiate and enter into leases for the development of the state lands through drilling from

adjoining lands only.

CHAPTER 772

An act to add Article 8.5 (commencing with Section 56315) to Chapter 7 of Division 20 of the Food and Agricultural Code, relating to livestock, and making an appropriation therefor.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Article 8.5 (commencing with Section 56315) is added to Chapter 7 of Division 20 of the Food and Agricultural Code, to read:

Article 8.5. Liens on Livestock Sold or Delivered to Meatpackers

56315. As used in this article, the following definitions shall apply:

(a) "Livestock" means any cattle, sheep, swine, goat, or any horse, mule, or other equine, whether living or dead.

(b) "Meatpacker" means an establishment where livestock are either slaughtered, the carcasses thereof are prepared, or meat is processed and where state or federal inspection is maintained.

56316. (a) Except as otherwise provided in this section, any person who sells or furnishes livestock to a meatpacker, shall have a lien, not dependent upon possession, on such livestock and upon the identifiable proceeds and products thereof, for the unpaid part of the purchase price, or for the unpaid value of the livestock at the time of the transfer of possession if no purchase price has been agreed upon. The lien shall commence on the date of the transfer of possession of the livestock to the meatpacker and shall have priority over all other liens upon, and security interests in, the livestock and the identifiable proceeds and products thereof, without regard to the time of attachment or perfection of such other liens or security interests and shall remain a lien upon the livestock and the identifiable proceeds and products thereof notwithstanding sale, exchange, or other disposition thereof.

(b) Notwithstanding the provisions of subdivision (a), a buyer in the ordinary course of business, as that term is defined in paragraph (9) of Section 1201 of the Commercial Code, shall take free of such lien even though such buyer knows of the existence of such lien.

(c) Notwithstanding the provisions of subdivision (a), such lien shall cease to be of any force or effect after the expiration of 21 days from the date of delivery of the livestock unless a notice of lien is filed pursuant to subdivision (e), in which case the lien shall remain effective as long as such notice shall remain effective.

(d) No person shall have a lien pursuant to subdivision (a) to the extent that such person shall have made the livestock available to the meatpacker on credit terms.

(e) Any person selling or delivering livestock who claims a lien under this article shall file a statement with the Secretary of the State and a copy thereof with the director both, within 21 days after delivery of the livestock to the meatpacker. The statement shall be in writing, verified by the oath of the person filing, and shall contain all of the following:

(1) The name and address of the person filing.

(2) A statement of the amount demanded by the person filing the statement after deducting all credits and offsets.

(3) The name and address of the meatpacker who received the livestock.

(4) A description of the livestock delivered to the meatpacker and the date of delivery.

(5) A statement that the amount claimed is a true and bona fide existing debt as of the date of the statement.

(6) A statement that the amount claimed is a true and bona fide existing debt as of the date on which payment was due for the livestock.

(g) Every statement which is filed shall be accompanied by the fees required by Chapter 4 (commencing with Section 9401) of Division 9 of the Commercial Code in the case of a financing statement not on the standard form and shall remain effective for a period of five years from the date of filing.

56317. Except as provided in this section, any lien created under Section 56316 shall continue in force for a period of five years from the date of filing of the notice of lien. The lien shall cease at the expiration of five years unless the claimant thereof, or his assignee, or successor in interest, brings suit to foreclose the lien, in which case the lien continues in force until such lien foreclosure suit is finally determined and closed. If such foreclosure proceeding is not prosecuted to trial within two years after the commencement thereof, the court may in its discretion dismiss the foreclosure suit.

The plaintiff in any such lien foreclosure suit may have the property upon which such lien subsists attached, as provided in the Code of Civil Procedure.

Any number of persons claiming liens under this article may join in the same action and when separate actions are commenced, the court may consolidate them. Whenever the sale of the property subject to any lien or liens provided for in this article, under the judgment or decree of foreclosure of such lien or liens, results in a deficiency of proceeds, the proceeds shall be divided pro rata among the lien claimants whose liens are established, regardless of the order in which the liens were created or the order in which the suits to foreclose same were commenced, and the judgment or decree for the deficiency may be docketed against the party personally liable therefor and his sureties, in the same manner and with the same

03485 299375 622

effect as in actions for the foreclosure of security interests.

Nothing contained in this article shall be construed to impair or affect the right of any person to whom any debt may be due for livestock sold or delivered to maintain a personal action to recover such debt against the person liable therefor, or his sureties, either in connection with a suit to foreclose the lien or in a separate action. Any person bringing such personal action may take out a separate attachment therefor, notwithstanding his lien or the amount of his debt. In the affidavit to procure an attachment pursuant to such personal action, such person shall state that the attachment is made pursuant to this section, and the judgment, if any, obtained by the plaintiff in such personal action shall not be construed to impair or merge any lien held by such person under this article. Any money collected on such personal judgment shall be credited on the amount of such lien in any action brought to enforce the lien.

56318. Any rights or remedies granted to a person who sells livestock pursuant to this article, are in addition to any other rights or remedies provided by law for such seller.

CHAPTER 773

An act to amend Sections 42360 and 42361 of, and to add Section 42359.5 to, the Health and Safety Code, relating to air pollution.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 42359.5 is added to the Health and Safety Code, to read:

42359.5. (a) Notwithstanding any other provision of this article or of Article 2 (commencing with Section 40820) of Chapter 8 of Part 3, the Chairman of the Hearing Board of the San Diego County Air Pollution Control District, or any other member of that hearing board designated thereby, may issue, without notice and hearing, an emergency variance to an applicant. The emergency variance shall be in effect until the hearing to consider an application by the applicant for a variance other than an emergency variance, but not to exceed 30 days.

(b) The San Diego County Air Pollution Control District Board, in consultation with its air pollution control officer and that hearing board, shall adopt rules and regulations specifying the conditions, and to what extent, an emergency variance may be granted.

SEC. 2. Section 42360 of the Health and Safety Code is amended to read:

42360. Within 30 days of any order granting, modifying, or otherwise affecting a variance by the hearing board, or a member

thereof pursuant to Section 42359.5, either the air pollution control officer or the hearing board shall submit a copy of the order to the state board.

SEC. 3. Section 42361 of the Health and Safety Code is amended to read:

42361. Any variance granted by the hearing board of a county district or a unified district, or any member of such a hearing board pursuant to Section 42359.5, applicable in an area which subsequently becomes included within a regional district, including the bay district, shall remain valid for the time specified therein or for one year, whichever is shorter, or, unless prior to the expiration of such time, the hearing board of the regional district modifies or revokes the variance.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desires legislative authority to act to carry out the program specified in this act.

CHAPTER 774

An act to add Section 2954.2 to the Civil Code, relating to encumbrances.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2954.2 is added to the Civil Code, to read:

2954.2. (a) Every mortgagee of record of real property containing only a one- to four-family residence, when the mortgage is given to secure payment of the balance of the purchase price of the property or to refinance such a mortgage, shall furnish to the mortgagor within 60 days after the end of each calendar year a written statement showing the amount of moneys received for interest and principal repayment, late charges, moneys received and held in or disbursed from an impound account, if any, for the payment of taxes on the property, insurance premiums, bond assessments, or other purposes relating to the property, and interest credited to the account, if any. The written statement required to be furnished by this section shall be deemed furnished if the mortgagee of record transmits to the mortgagor of record cumulative statements or receipts which, for each calendar year, provide in one

of the statements or receipts the information required by this section. The mortgagor, trustor or vendee shall be entitled to receive one such statement for each calendar year without charge and without request. Such statement shall include a notification in 10-point type that additional accountings can be requested by the mortgagor, trustor, or vendee, pursuant to Section 2954.

(b) For the purposes of this section:

(1) "Mortgagee" includes a beneficiary under a deed of trust, a vendor under a real property sale contract, and an organization which services a mortgage or deed of trust by receiving and disbursing payments for the mortgagee or beneficiary.

(2) "Mortgage" includes a first or second mortgage, a first or second deed of trust, and a real property sale contract.

(3) "Impound account" includes a trust or other type of account established for the purposes described in subdivision (a).

(c) The requirements of this section shall be in addition to the requirements of Section 2954.

(d) This section shall become operative on December 31, 1978, and apply to moneys received by a mortgagee on and after January 1, 1978.

CHAPTER 775

An act to amend Section 35409 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 35409 of the Vehicle Code is amended to read:

35409. (a) Any motor vehicle used for the purpose of taking photographs, motion pictures, or television pictures or for teaching safe driving may be equipped with a dismountable platform or other device extending forward of either the fenders or cab structure or radiator, whichever extends farthest toward the front of such vehicle, for a distance not exceeding five feet while such vehicle is in use for such purpose.

(b) Any device used for the sole purpose of teaching safe driving, as provided in subdivision (a), shall be approved by the Department of the California Highway Patrol and the Department of Motor Vehicles.

CHAPTER 776

An act to amend Section 202 of, and to add Section 8732.1 to, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 202 of the Revenue and Taxation Code is amended to read:

202. (a) The exemption of the following property is as specified in subdivisions (a), (b), (d) and (h) of Section 3 of Article XIII of the Constitution, except as otherwise provided in subdivision (a) of Section 11 thereof:

(1) Growing crops.

(2) Property used for free public libraries and free museums.

(3) Property used exclusively for public schools.

(4) Property belonging to this state, a county, or a city. Property belonging to the State Compensation Insurance Fund is not property belonging to this state.

(b) The exemption described in paragraph (3) of subdivision (a) shall apply to off-campus facilities owned or leased by an apprenticeship program sponsor, if such facilities are used exclusively by the public schools for classes of related and supplemental instruction for apprentices or trainees which are conducted by the public schools under Chapter 4 (commencing with Section 3070) of Division 3 of the Labor Code.

SEC. 2. Section 8732.1 is added to the Revenue and Taxation Code, to read:

8732.1. Without requiring the issuance of a vendor use fuel tax permit, the board may issue written authorization to a political subdivision of this state which holds a valid user use fuel tax permit to furnish fuel as an accommodation to another political subdivision of this state which holds a valid user use fuel tax permit if the board finds that the political subdivision furnishing the fuel agrees to report and pay all taxes applicable to the fuel it furnishes and each political subdivision agrees to keep such records and file such reports as the board deems necessary to unsure that all applicable taxes shall be paid.

For the purposes of this section "political subdivision of this state" means any governmental organization formed and operating under the authority of the laws of this state and includes counties, cities, cities and counties, school districts, fire protection districts, irrigation districts, and recreation districts.

SEC. 3. The Legislature finds and declares that subdivision (d) of Section 3 of Article XIII of the Constitution provides a self-executing property tax exemption for property used exclusively

03693 28490 27

for the public schools and that the Legislature is without authority to extend such exemption. However, Ross v. City of Long Beach, 24 Cal. 2d 258, has established that property used exclusively for the public schools need not necessarily be owned by such schools in order to be eligible for the exemption, and the Legislature finds that classes for apprentices or trainees are legitimate functions of the public school system.

Therefore, the Legislature finds that the amendments to Section 202 of the Revenue and Taxation Code by Section 1 of this act are declaratory of existing law and that such amendments cause no actual loss of revenue within the meaning of Section 2229 of the Revenue and Taxation Code because property used exclusively for the public schools is of a type which was not assessed and taxed on January 1, 1973.

CHAPTER 777

An act to add Article 2.5 (commencing with Section 27) to Chapter 1 of Division 1 of Part 1 of the Education Code, relating to education.

[Approved by Governor September 6, 1976 Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Article 2.5 (commencing with Section 27) is added to Chapter 1 of Division 1 of Part 1 of the Education Code, to read:

Article 2.5. Purpose

27. Each child is a unique person, with unique needs, and the purpose of the educational system of this state is to enable each child to develop all of his or her own potential.

CHAPTER 778

An act to amend Section 172f of the Penal Code, relating to alcoholic beverages.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 172f of the Penal Code is amended to read:

172f. The provisions of Sections 172, 172a, 172b, 172d, and 172g of this code shall not apply to the sale or the exposing or offering for sale

of any intoxicating liquor in any premises within the areas prescribed by said sections for which a license was issued under the Alcoholic Beverage Control Act (Division 9 (commencing with Section 23000), Business and Professions Code) and is in effect on the effective date of this section or on the effective date of any amendment to Section 172g specifying an additional institution, or in any licensed premises which may become included in such a prescribed area because of the extension of the boundaries of any of the institutions mentioned in said sections or because of the increased enrollment or number of resident students at any of such institutions.

Any such licenses may be transferred from person to person, and may be transferred from premises to premises if the premises to which the license is transferred are not located nearer to the boundaries of the institution, as they exist on the date of the transfer, than the premises from which the license is transferred, except that such license may be transferred once from premises to premises located nearer by not more than 300 feet to the boundaries of the institution as they exist on the date of transfer than the premises from which the license is transferred. If a license is transferred pursuant to this section from premises to premises located nearer by not more than 300 feet to the boundaries of the institution as they exist on the date of the transfer than the premises from which the license is transferred, such license shall not be thereafter transferred to any other premises located nearer to the boundaries of the institution as they exist on the date of the transfer than the premises from which the license is transferred.

SECTION 1. Section 1695.5 is added to the Labor Code, to read:

1695.5. (a) Every farm labor contractor, upon request of any agricultural grower with whom he has a contract to supply farmworkers, shall immediately furnish the grower with a payroll list of all the contractor's employees working for the grower.

(b) Such payroll list shall be on a uniform form approved by the Labor Commissioner, which shall include, but not be limited to, the employee's name, social security number, permanent and temporary address, telephone number, and length of employment with the grower.

(c) The requirements of this section are in addition to any

requirements of federal law, including the Farm Labor Contractor Registration Act (Chapter 52 (commencing with Section 2041), Title 7, U.S.C.).

CHAPTER 780

An act to amend Section 20204 of the Education Code, relating to community colleges.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

CHAPTER 781

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 17203 of the Education Code is amended to read:

17203. The governing board of any school district which, on or after May 28, 1943, has funds in a special reserve fund of the district or any surplus moneys not required for the immediate necessities of the district, is hereby authorized to invest all or any part of such funds in bonds, notes, bills, certificates, debentures or other obligations, issued by the United States of America, bank time certificates, savings and loan deposits, or obligations issued by banks for cooperatives, federal land banks, federal intermediate credit banks, federal home loan banks, the Federal Home Loan Bank Board, the Tennessee Valley Authority, or in obligations,

participations, or other instruments of or issued by, or fully guaranteed as to principal and interest by, the Federal National Mortgage Association; or in participation certificates evidencing beneficial interests in obligations, or in the right to receive interest and principal collections therefrom, which obligations have been subjected by one or more government agencies to a trust or trusts for which any executive department, agency, or instrumentality of the United States (or the head thereof) has been named to act as trustee.

Any bonds, notes, bills or certificates, debentures or other obligations, so purchased may be sold and the proceeds reinvested in similar bonds, notes, bills or certificates, debentures or other obligations, of the United States of America, its agencies, or its instrumentalities, or placed in the county treasury for credit to the fund of the district from which purchased. This section shall not be construed as in any way limiting or modifying the application of any other law providing for or authorizing the investment of any funds of a school district. Notwithstanding any other provision of law, interest earned on funds representing the proceeds of bonds of the district shall be deposited and retained in the interest and sinking fund of the district to meet the principal and interest falling due on such bonds.

CHAPTER 782

(a) Evaluations shall be performed in such a manner as to minimize the resources required of school districts in the collection, analysis, and reporting of evaluation information. In order to achieve this goal, program evaluations shall require only that information which is essential to the Department of Education for carrying out statutorily mandated functions, and shall be conducted only as necessary for the conduct of such functions. In addition, such evaluations shall (1) be fully coordinated with one another, (2) make maximum use of the statewide testing program when appropriate, and (3) make maximum use of appropriate scientific sampling procedures.

(b) Evaluations shall be performed and reported in such a manner as to maximize their utility to decisionmakers in the Legislature.

490.3. The Department of Education shall submit to the State Board of Education a detailed, annual plan of evaluation activities not later than March 15th of each year. The board shall review the plan in accordance with the criteria specified in subdivisions (a) and (b) of Section 490.

490.5. The Department of Education shall submit to the Legislature not later than March 5th of each year a summary of program evaluations. The report shall summarize the findings of program evaluations conducted by the department. It shall provide information concerning (a) the funding history, (b) the number of pupils involved, (c) the program objectives, (d) its effectiveness in

reaching program objectives, and (e) the effectiveness and relative effectiveness in promoting pupil achievement of different programs.

The annual summary shall include a brief description of educational projects, programs, or program components which are maintained by an individual school regardless of state, federal, or local funding sources which are exemplary.

491.3. The Department of Education shall perform evaluations of educational programs in accordance with one of the following levels of evaluation.

(a) A descriptive report of an individual educational program which describes the objectives and components of the subject program, the number of pupils involved, and contains general information regarding the program's cost and the extent of implementation of the program.

The department shall prepare or have prepared descriptive reports for the following programs:

(4) Bilingual education programs, pursuant to Chapter 5.7 (commencing with Section 5761) of Division 6; and

(5) Miller-Unruh reading programs, pursuant to Article 3 (commencing with Section 5779) of Chapter 5.8 of Division 6.

Such evaluation shall contain information obtained by whatever means possible regarding pupil growth in the subject program, information regarding the expected achievement of comparable groups of pupils who do not receive specialized educational services, information regarding program costs, and inferential judgments regarding the effectiveness of the programs. An objective of such evaluation shall be to illustrate the relative effectiveness of different program elements regardless of source of funding. The Department of Education shall identify those programs which are judged to be least effective.

For each of the funding sources identified in the multiple-funded evaluation report, the Department of Education shall include a separate chapter which will present data from schools funded solely by that source. Each of these chapters will provide, to the extent possible, information regarding pupil growth, the expected achievement of comparable groups of pupils, information regarding program costs, and inferential judgments regarding the quality of programs funded by that source.

491.5. It is the understanding of the Legislature that the evaluation needs of the educational programs specified in Section 491.3 change over a period of time and during the progress of the programs and, therefore, the Legislature may require through supplemental language to the Budget Act: (a) That additional types of information or reporting formats be employed; (b) That the level of evaluation specified in subdivision (a), (b), or (c) of Section 491.3 be altered to reflect current needs; and (c) That an evaluation shall be conducted by contracted, independent evaluators.

492. Not later than January 5 of each year, the department shall submit to the Legislature the multiple-funded program evaluation required by this article. The department shall submit in one evaluation report the results of multiple-funded programs. Such report shall detail the test instruments used to assess the impact of the specialized educational program, the statistical techniques employed, the number of pupils and schools participating in the special program, and the number of schools and pupils which provide educational data which are subsequently used to determine the program's effectiveness.

From a study of the results of these tests in districts which conduct a basic reading program pursuant to this chapter, and the test results in districts which do not conduct such a program, the Superintendent of Public Instruction shall evaluate basic reading programs, and he shall report his findings annually to the State Board of Education.

CHAPTER 793

An act to amend Sections 3008 and 3403 of, and to add Section 3403.5 to, the Public Resources Code, relating to oil and gas resources.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3008 of the Public Resources Code is amended to read:

3008. (a) "Well" means any oil or gas well or well for the discovery of oil or gas; any well on lands producing or reasonably presumed to contain oil or gas; any well drilled for the purpose of injecting fluids or gas for stimulating oil or gas recovery, repressuring or pressure maintenance of oil or gas reservoirs, or disposing of waste fluids from an oil or gas field; any well used to inject or withdraw gas from an underground storage facility; or any well drilled within or adjacent to an oil or gas pool for the purpose of obtaining water to be used in production stimulation or repressuring operations.

(b) "Prospect well" means any well drilled to extend a field or explore a new, potentially productive reservoir.

SEC. 2. Section 3403 of the Public Resources Code is amended to read:

3403. There shall annually be imposed upon the person operating each gas well in this state, or owning royalty or other interests with respect to the production from such well, a charge, which shall be payable to the State Treasurer, based upon the amount of gas produced in the preceding calendar year, other than gas which is used for recycling or otherwise in oil-producing operations, and which shall be computed at a uniform rate per thousand cubic feet. The charge shall be apportioned among all of such persons in fractional amounts proportionate to their respective fractional interests with respect to the production of such well, but the whole of such charge shall be payable by the operator, who shall withhold the respective proportionate shares of such charge from the amounts otherwise payable or deliverable to such owners of royalty or other interests.

SEC. 3. Section 3403.5 is added to the Public Resources Code, to read:

3403.5. (a) The Legislature finds that there are underground storage facilities for gas that utilize depleted or partially depleted oil or gas reservoirs. Purchased gas, usually from out of state, is injected for storage and withdrawn during peak load periods. The supervisor is required to maintain surveillance over these facilities to insure that the original reserves are not lost, that drilling of new wells is conducted properly, and that no damage occurs to the environment by reason of injection and withdrawal of gas.

(b) In order to help support the regulatory effort of the supervisor, there shall be imposed an annual charge computed at a uniform rate on the gross gas withdrawn from an underground storage facility during the preceding calendar year. Such charge shall not exceed the actual cost incurred by the state in conducting the activities described in this section.

CHAPTER 794

An act to amend Sections 3204, 3205, 3205.5, 3207, 3208, 3209, 3723.5, 3725, 3726, 3728, 3728.5, and 3729 of, and to repeal Sections 3206 and 3727 of, the Public Resources Code, relating to oil, gas, and geothermal wells.

The bond shall be filed with the supervisor at the time of the filing of the notice of intention to perform work on the well, as provided in Section 3203. The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, conditioned that the principal named in the bond shall faithfully comply with all the provisions of this chapter, in drilling, redrilling, deepening, or permanently altering any well or wells covered by the bond, and shall secure the state against all losses, charges, and expenses incurred by it to obtain such compliance by the principal named in the bond.

The conditions of the bond shall be stated in substantially the following language:

"If said _____, the above bounden principal, shall well and truly comply with all the provisions of Division 3 (commencing with Section 3000) of the Public Resources Code and shall obey all lawful orders of the State Oil and Gas Supervisor or his district deputy or deputies, subject to subsequent appeal as provided in that division, and shall pay all charges, costs, and expenses incurred by the supervisor or his district deputy or deputies in respect of such well or wells or the property or properties of said principal, or assessed against such well or wells or the property or properties of such principal, in pursuance of the provisions of said division, then this obligation shall be void; otherwise, it shall remain in full force and effect."

The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, and shall be in substantially the same language and upon the same conditions as provided in Section 3204, except as to the difference in the amount.

SEC. 3. Section 3205.5 of the Public Resources Code is amended to read:

Should the person who has filed a blanket bond properly abandon a portion of his wells covered by the bond, the bond may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder upon the filing by such person of an individual bond for each well which is still producing or which he is still engaged in drilling, redrilling, deepening, or permanently altering. Liability as to individual wells that have been drilled and abandoned under a blanket bond may also be terminated with the consent of the supervisor.

SEC. 6. Section 3208 of the Public Resources Code is amended to read:

3208. For the purposes of Section 3207, a well is properly abandoned when it has been shown to the satisfaction of the supervisor that all proper steps have been taken to shut off and exclude all water from oil-bearing or gas-bearing strata encountered in the well, and to protect underground or surface water suitable for irrigation or farm or domestic purposes from the infiltration or addition of any detrimental substance and to prevent subsequent damage to life, health, property, and other resources.

The bond shall be filed with the supervisor at the time of the filing of the notice of intention to drill, redrill, deepen, maintain, or abandon, as provided in Section 3724 or 3724.1. The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, conditioned that the principal named in the bond shall faithfully comply with all the provisions of this chapter, in drilling, redrilling, deepening, maintaining, or abandoning any well or wells covered by the bond, and shall secure the state against all losses, charges, and expenses incurred by it to obtain such compliance by the principal named in the bond.

The conditions of the bond shall be stated in substantially the following language:

"If said _____, the above bounden principal, shall well and truly comply with all the provisions of Chapter 4 (commencing with Section 3700) of Division 3 of the Public Resources Code and shall obey all lawful orders of the State Oil and Gas Supervisor, or his district deputy or deputies, if not appealed as provided in that chapter, or upon affirmance thereof by the Geothermal Resources Board, if appealed thereto, and shall pay all charges, costs, and expenses incurred by the supervisor or his district deputy or deputies in respect of such well or wells or the property or properties of said principal, or assessed against such well or wells or the property or properties of such principal, in pursuance of the provisions of said chapter, then this obligation shall be void; otherwise, it shall remain in full force and effect."

SEC. 10. Section 3726 of the Public Resources Code is amended to read:

3726. Any person who engages in the drilling, redrilling, deepening, maintaining, or abandoning of one or more wells at any time, may file with the supervisor one bond for two hundred fifty thousand dollars ($250,000) to cover all his operations in drilling, redrilling, deepening, maintaining, or abandoning of any of his wells in this state in lieu of an individual indemnity bond for each well being drilled, redrilled, deepened, maintained, or abandoned by him. The bond shall be executed by such person, as principal, and by an authorized surety company, as surety, and shall be in substantially

the same language and upon the same conditions as provided in Section 3725, except as to the difference in the amount.

SEC. 11. Section 3727 of the Public Resources Code is repealed.

SEC. 12. Section 3728 of the Public Resources Code is amended to read:

3728. Any individual or blanket indemnity bond issued in compliance with this chapter may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder when the well or wells covered by such bond have been properly abandoned or another valid bond has been substituted therefor. Should the person who has filed a blanket bond properly abandon a portion of his wells covered by the bond, the bond may, with the consent of the supervisor, be terminated and canceled and the surety be relieved of all obligations thereunder upon the filing by such person of an individual bond for each well which he is still engaged in drilling, redrilling, deepening, maintaining, or abandoning. Liability as to individual wells that have been drilled and abandoned under a blanket bond may also be terminated with the consent of the supervisor.

SEC. 13. Section 3728.5 of the Public Resources Code is amended to read:

3728.5. In lieu of the bond required by Sections 3723.5, 3725, and 3726, a person may, with the written approval of the supervisor, file a cash bond in the applicable amount, together with evidence of the deposit of such amount in banks authorized to do business in this state and insured by the Federal Deposit Insurance Corporation, or investment certificates or share accounts in the applicable amount issued by a savings and loan association doing business in this state and insured by the Federal Savings and Loan Insurance Corporation, or bonds issued by the United States or the State of California in the principal amounts of thirty thousand dollars ($30,000) or three hundred thousand dollars ($300,000), whichever is applicable, with the State Treasurer. SEC. 14. Section 3729 of the Public Resources Code is amended to read:

CHAPTER 795

An act to amend Sections 3220, 3222, and 3223 of, and to repeal Section 3221 of, the Public Resources Code, relating to oil and gas well testing.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3220 of the Public Resources Code is amended to read:

3220. The owner or operator of any well on lands producing or reasonably presumed to contain oil or gas shall properly case it with water-tight and adequate casing, in accordance with methods approved by the supervisor or the district deputy, and shall, under his direction, shut off all water overlying and underlying oil-bearing or gas-bearing strata and prevent any water from penetrating such strata. The owner or operator shall also use every effort and endeavor to prevent damage to life, health, property, and natural resources; to shut out detrimental substances from strata containing water suitable for irrigation or domestic purposes and from surface water suitable for such purposes; and to prevent the infiltration of detrimental substances into such strata and into such surface water.

SEC. 2. Section 3221 of the Public Resources Code is repealed.

SEC. 3. Section 3222 of the Public Resources Code is amended to read:

3222. The owner or operator of any well shall, at the request of the supervisor, demonstrate that water from any well is not penetrating oil-bearing or gas-bearing strata or that detrimental substances are not infiltrating into underground or surface water suitable for irrigation or domestic purposes. The owner or operator shall give the district deputy adequate notice of the time at which he will demonstrate the test for shutoff in the well.

SEC. 4. Section 3223 of the Public Resources Code is amended to read:

3223. The district deputy or an inspector designated by the supervisor may be present at the test for shutoff. If the test is personally witnessed by the district deputy or an inspector at the site of the well, such district deputy or inspector shall make a report in writing of the result to the supervisor. A duplicate of the report shall be delivered to the owner.

If any test is unsatisfactory to the supervisor, he shall so notify the owner or operator and shall within five days after the completion of the test, order any additional work and tests necessary to properly shut off the well. In the order the supervisor shall designate a day upon which the owner or operator shall again test for shutoff, which day may, upon the application of the owner or operator, be changed

from time to time at the discretion of the district deputy.

CHAPTER 793

An act to amend Section 2150 of the Fish and Game Code, relating to wild animals.

[Approved by Governor September 6, 1976. Filed with Secretary of State September 7, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2150 of the Fish and Game Code is amended to read:

2150. (a) The department in cooperation with the State Department of Food and Agriculture may, upon application, issue a written permit to import into, possess, or transport within this state any wild animal enumerated in or designated pursuant to Section 2118, upon determination that the animal is not detrimental or that no damage or detriment can be caused to agriculture, to native wildlife, to the public health or safety, or to the welfare of the animal, as a result of such importation, transportation, or possession.

A permit shall be issued only upon application and payment of a nonrefundable application fee in such amount as is determined by the commission to be sufficient to carry out the provisions of this chapter. Fees generated by the applications shall be expended exclusively for the administration and enforcement of this chapter. Application forms shall be provided by the department and shall be designed to ascertain the applicant's ability to properly care for the wild animal or animals he seeks to import, transport, or possess. Such proper care shall include providing adequate food, shelter, and veterinary care, and such other requirements as the commission may designate.

(b) The commission shall revoke or deny a permit if it finds that a permittee or applicant has failed to meet or is unable to meet the requirements for importing, transporting, possessing, or confining any wild animal as established pursuant to Section 2120.

(c) A zoo which maintains its mammals at the minimum welfare standards presently set forth in the provisions of Chapter 1 of Volume 9 of the Code of Federal Regulations, entitled "Animals and Animal Products," shall be exempt from any requirement for the payment of an application fee for a permit issued pursuant to this chapter, and shall be exempt from any permit requirement pursuant to this chapter except for animals whose importation, transportation, or possession is determined by the department, in cooperation with the Department of Food and Agriculture, to be detrimental or cause damage to agriculture, to native wildlife, or to the public health or safety. For the purposes of this section, a zoo shall be considered any

organization which exhibits animals to the general public at regular specified hours, equaling at least 30 hours a week for 36 weeks a year, and whose animals, whether maintained for exhibit purposes or not, are not for sale to private individuals, except that any animal which a zoo may possess without a permit may be sold to an exhibitor licensed by the United States Department of Agriculture or a dealer who is so licensed. The determination of whether a zoo maintains its mammals at such minimum welfare standards shall be by information obtained from federal inspectors that the specific zoo meets such standards, or if such information is not available, concerning a particular zoo, by periodic inspections by wardens of the department. An aquarium which otherwise meets the standards required by this section shall be considered a zoo. A zoo which does not maintain its mammals at such minimum welfare standards shall be deemed deficient in providing for the welfare of the animal and shall be required to meet all the requirements for the issuance of a permit pursuant to this chapter.

(d) An exhibitor licensed by the United States Department of Agriculture or a dealer who is so licensed who buys any animal specified in subdivision (c) from a zoo within the state, may sell or transfer it only to a private individual who has a permit issued pursuant to this section prior to the receipt of the animal or to a public or private organization which has a permit issued pursuant to this section prior to the receipt of the animal.

(e) Any university, college, governmental research agency or other bona fide scientific institution, as determined by the department, engaging in scientific or public health research shall be exempt from any requirement for the payment of an application fee for a permit issued pursuant to this chapter, and shall be exempt from any permit requirement pursuant to this chapter except for animals whose importation, transportation, or possession is determined by the department, in cooperation with the Department of Food and Agriculture, to be detrimental or cause damage to agriculture, to native wildlife, or to the public health or safety.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 2. Section 21702.2 of the Education Code is amended to read:

21702.2. The bond issuance limitation in Section 21702 may, upon a favorable vote of two-thirds of the votes cast thereon in the district, be increased to not to exceed 7 percent of the taxable property of the district as shown by the last equalized assessment of the county or counties in which the district is located, and as modified pursuant to Section 17262.

All statutory references to the limitation in Section 21702 shall be deemed to refer to the limitations in Sections 21702 and 21702.2, whichever may be applicable.

This section shall remain in effect until July 1, 1978, and shall

thereafter be of no force or effect, provided that the termination of the effective period of this section shall in no way be construed as affecting the validity of bonds authorized pursuant to authority afforded thereunder prior to July 1, 1978.

Members of the commission shall be residents of the county. (6) Subject to the limitations prescribed by this section, such ordinance may contain such additional provisions as the board of supervisors may deem expedient for the proper administration of the affairs of the commission.

(i) Any ordinance of any county establishing a hospital or a safety commission enacted prior to the effective date of this section is hereby validated, provided that the provisions of the ordinance substantially comply with the limitations and authorizations set forth in this section; provided expressly, however, that any such hospital or safety commission created by ordinance enacted prior to the effective date of this section shall cease to exist at the close of the 60th day following the effective date of this section, and no hospital or safety commission established by any such ordinance, or established in any other manner whatever, shall continue to exist or function thereafter in any county unless and until such hospital or safety commission is established by ordinance under the provisions of this section.

(2) The licensee has made any misrepresentations or false statements in his application for a license;

(3) The conditions under which the license was issued have changed or no longer exist;

(4) The licensee, or any agent of the licensee, has violated or has willfully aided or abetted any person in the violation of, or failed to comply with, any law of the State of California regulating the employment of employees in agriculture, the payment of wages to farm employees, or the conditions, terms, or places of employment affecting the health and safety of farm employees, which is applicable to the business, activities, or operations of the licensee in his capacity as a farm labor contractor;

(b) Vitamins, minerals, amino acids, and glandular extracts, when prescribed in treatment of illness by a physician in the course of applying treatment methods of orthomolecular medicine, subject to utilization controls.

As used in this section, "orthomolecular medicine" means the preservation of good health, as well as the treatment of disease, by providing the optimum molecular environment in the human body by varying the concentrations in the body of vitamins, minerals, and other nutritional substances normally present in the body and required for health. "Orthomolecular medicine" also includes human ecology medicine, which means the removal, discharge or avoidance of substances that are toxic or allergy inducing to some patients.

The limitations on extent of coverage under subdivision (a) of Section 14132 shall apply to this section.

Nothing contained in this section shall preclude the practice of chiropractic as authorized by the Chiropractic Initiative Act or to limit coverage of chiropractic services otherwise authorized under Section 14132.

The department shall adopt regulations to implement this section and Section 14132.5. Such regulations shall become effective on June 1, 1977.

Any provider in the designated three counties may participate in this program with patients desiring such treatment, so long as the provider adheres to the evaluation committee's plan.

No patient shall participate in the program unless, prior to such participation, the patient or the patient's legal guardian gives written informed consent to such participation and to the disclosure of the patient's medical records to members of the evaluation committee and the staff of such committee.

The director may prohibit the use of any substance or procedure in connection with the program.

If any provision of this section or of Section 14132.5, or any provision of any regulation adopted by the department pursuant to such sections, is not in conformity with federal laws and regulations, such provision shall have no force or effect.

The department shall require each physician provider participating in the demonstration program to make periodic reports in accordance with the evaluation plan provided for in this section.

The evaluation committee shall prepare and submit to the director, by December 30, 1979, a report evaluating the demonstration program, including its conclusions on the efficacy of the program, and a cost comparison of the cost of treating patients in the orthomolecular medicine demonstration program with the cost of treating patients who are not in the program. The director shall transmit such report, together with any comments or recommendation he may make, to the Governor and to the Legislature by January 30, 1980.

(a) The county superintendent of schools shall draw his order for the amount determined pursuant to Section 20212 on the county auditor in favor of the chief fiscal officer of the out-of-state institution. The county superintendent of schools shall identify each of the persons for whom such payment is made, and the payment shall be made only if it is used as part or all of the out-of-state tuition which the student is required to pay in order to attend the out-of-state institution.

(b) In no case may the amount paid to the out-of-state institution exceed the amount which the person for whom payment is made

would have been required to pay to attend the out-of-state institution as a nonresident student.

(c) The amount required to be paid in each fiscal year by either the County Superintendent of Schools of Siskiyou County or Modoc County shall be derived from a county tax levied, collected, and distributed in accordance, as nearly as practicable, with the other provisions of this article, except that the tax shall only be levied in that portion of Siskiyou or Modoc County which is not part of a community college district.

SEC. 4. The Legislature finds and declares that because of an unusual situation which exists in a sparsely populated portion of the state a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 5. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 810

An act to add Section 690.30 to the Code of Civil Procedure, relating to exemptions.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 690.30 is added to the Code of Civil Procedure, to read:

690.30. With respect to any deposit account maintained with a bank or any investment certificate, share account or withdrawable share maintained with a state or federally chartered savings and loan association in which payments authorized by the Social Security Administration are directly deposited by the United States government pursuant to Public Law No. 92-366 (86 Stats. 506 (1972)) and any regulations promulgated thereunder:

(a) The first five hundred dollars ($500) of such account shall not be subject to levy of attachment or execution in any manner where one depositor to the account is the designated payee of the directly deposited payments. The first seven hundred fifty dollars ($750) of such account shall not be subject to levy of attachment or execution in any manner where two or more depositors to the account are the designated payees of the directly deposited payments; provided, however, that where two or more such depositors are joint payees of directly deposited payments which represent a benefit to only one

of the depositors, the exemption shall be the first five hundred dollars ($500) of such account.

(b) Any amounts in excess of those authorized under subdivision (a) are exempt to the extent such amounts consist of payments authorized by the Social Security Administration which are directly deposited by the United States government pursuant to Public Law No. 92-366 (86 Stats. 506 (1972)) and any regulations promulgated thereunder or exempt under any other provisions of law as hereinafter provided:

(1) The financial institution shall either place the amounts in excess of those authorized by subdivision (a) in a suspense account or otherwise prohibit their withdrawal pending notification of the judicial determination of their exempt status, and advise the levying officer in writing of the nature and balance of the account of the debtor within 10 business days after the levy;

(2) No claim of exemption shall be required with respect to payments authorized by the Social Security Administration which are directly deposited by the United States government pursuant to Public Law No. 92-366 (86 Stats. 506 (1972)). If the judgment creditor delivers an affidavit or declaration alleging that the property is not exempt within the meaning of this subdivision to the levying officer within five days after the levying officer has notified the judgment creditor that all or parts of the amounts being held by the financial institution pursuant to paragraph (1) are nonexempt the procedure in Section 690.50 shall be followed. If no affidavit or declaration is timely delivered by the judgment creditor, then subdivision (d) of Section 690.50 shall apply. For purposes of subdivision (i) of Section 690.50, the judgment debtor has the burden of proving that the moneys are exempt;

(3) No finding shall be required in an exemption hearing under this section. At the conclusion of the hearing, the court shall give judgment determining whether or not the excess moneys are exempt, in whole or in part, and may give judgment determining the priority or division of payment between one or more creditors from nonexempt moneys which judgment shall be determinative as to the right of the creditor to have the moneys held by the financial institution pursuant to the writ. In the judgment, the court shall make all appropriate orders for the prompt disposition of such moneys;

(4) If the court determines that all or part of the excess is exempt, a certified copy of the judgment shall be transmitted forthwith by the clerk to the financial institution in order to permit the financial institution to transfer such moneys from the suspense account to the debtor's account or otherwise release any restrictions on its withdrawal by the debtor. The transfer or release shall be effected within three business days of the receipt of the judgment. If the court has determined that all or part of the excess is nonexempt, a certified copy of the judgment shall be transmitted forthwith by the clerk to the levying officer and the levying officer shall serve the copy of the

judgment forthwith upon the financial institution. With respect to any part of the excess which is exempt, the financial institution shall transfer such moneys from the suspense account or otherwise release any restrictions on its withdrawal by the debtor. The transfer or release shall be effected within three business days of the receipt of a certified copy of the judgment by the financial institution.

(c) For purposes of this section, "payments authorized by the Social Security Administration" means regular retirement and survivors benefits, supplemental security income benefits, coal miners health benefits, and disability insurance benefits.

The people of the State of California do enact as follows:

SECTION 1. Section 1681 of the Code of Civil Procedure is amended to read:

Thereupon the clerk of the court shall forward the documents received from the court in the initiating state to a court in the other county or to a court in the other state or to the information agency or other proper official of the other state with a request that the documents be forwarded to the proper court. (d) When the obligee removes his residence from the county from which the original support order issued to a new county within the state, the obligee may initiate a support judgment enforcement action in the court of the new county of residence. The clerk of the court of the new county of residence shall request from the court where the original support order issued, and the court which originally issued the support order shall forward all documents, including a copy of the support order, necessary for the prosecution and enforcement of the support obligation to the clerk of the court in the new county of residence for the purpose of enforcing the

support obligation of the obligor. The court and prosecuting attorney of the new county of residence shall have the same powers and duties as the court and prosecuting official of the county in which the support order issued originally.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

3201. The owner or operator of any well shall notify the supervisor or the district deputy, in writing, in such form as the supervisor or the district deputy may direct, of the sale, assignment, transfer, conveyance, or exchange by the owner or operator of such well, and the land, owned or leased, upon which the well is located, within 30 days after such sale, assignment, transfer, conveyance, or exchange. (a) The amount of oil and gas produced from each well during the period indicated, together with the gravity of the oil, the amount of water produced from each well, estimated in accordance with methods approved by the supervisor, and the number of days during which fluid was produced from each well.

(b) The number of wells drilling, producing, or idle, owned or operated by such person.

(c) What disposition was made of the gas produced from each well, including the names of persons, if any, to whom the gas was delivered, and such other information regarding the gas and the disposition thereof as the supervisor may require.

Upon request and satisfactory showing, a longer interval may be fixed by the supervisor for such reports in the case of any specific owner or operator.

(d) It is the duty of the supervisor to compile from such statements and to publish monthly statistics showing the amount of oil and gas produced in the state by oilfields and pools, together with the number of wells drilling, number of wells producing or idle, all separately stated as to oilfields and pools, with such other information as the supervisor deems proper.

A copy of the order shall be delivered to the complainant, or if more than one, to each complainant, and, if the supervisor orders the damage repaired, a copy of the order shall be delivered to each of

the owners, operators, or agents having in charge the well or wells upon which the work is to be done.

CHAPTER 814

An act to amend Section 8025 of the Business and Professions Code, relating to shorthand reporters.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 8025 of the Business and Professions Code is amended to read:

8025. A certificate issued under this chapter may be suspended or revoked for one or more of the following causes:

(a) Conviction of a felony or a misdemeanor involving moral turpitude, and arising from or in connection with the practice of shorthand reporting. The record of conviction, or a certified copy thereof, shall be conclusive evidence of such conviction.

(b) Fraud or misrepresentation resorted to in obtaining a certificate hereunder.

(c) Fraud, dishonesty, corruption, willful violation of duty, gross incompetency in practice, or unprofessional conduct.

(d) Repeated unexcused failure, whether or not willful, to transcribe notes of cases pending on appeal and to file the transcripts thereof within the time required by law or to transcribe or file notes of other proceedings within the time required by law or agreed by contract.

CHAPTER 815

An act to convey in trust certain tide and submerged lands in the Straits of Carquinez, and in this connection to repeal Chapter 37 of the Statutes of 1851 and Chapter 442 of the Statutes of 1929.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) That the Martinez waterfront and adjacent marsh areas are of the utmost importance to the people of California because of the fish and wildlife which inhabit this region throughout the year.

(b) That the waters of the Straits of Carquinez and Suisun Bay are within the Pacific flyway and are of high importance to the preservation of migratory waterfowl populations.

(c) That nonmigratory waterfowl and shorebirds which inhabit the Straits of Carquinez and Suisun Bay are largely dependent on the

nearby marshlands for food and habitat.

(d) That the shallow water zones of the Martinez waterfront provide areas for shellfish culture.

(e) That the Martinez waterfront presents an opportunity for assuring balance between preservation and restoration of the coastal fish and wildlife resources and environment with nature study, appropriate recreational activities, public navigation, fishing, and selected development in accordance with the Environmental Quality Act of 1970, Division 13, (commencing with Section 21000) of the Public Resources Code.

(f) That certain lands on the Martinez waterfront, including lands referred to above, are encumbered under agreements between the City of Martinez and the State of California dated December 20, 1973, and October 27, 1964, and the lease of October 27, 1964, between the City of Martinez and the State Lands Commission, in which the city has agreed thereunder that revenues derived from the lands shall be paid to the state to meet the obligations of the agreements and lease. In addition, the development and operation of the lands for the protection thereof and for the security of sums due under the October 27, 1964, agreement are under the supervision of a committee made up of representatives from the city and the state, which is known as the "City-State Committee". In carrying out the purposes of this act, it is necessary to release the lands granted hereby to the East Bay Regional Park District from all encumbrances of the agreements and lease, while assuring that the obligations thereunder are otherwise preserved with respect to all lands granted to the city by this act and, in addition, assuring that the lands not granted to the district remain encumbered thereunder as security for the obligations.

(g) That fee title to the beds of all the waterways of the state below the ordinary high water mark (except those previously validly granted to private parties by the Spanish or Mexican governments on the date of statehood) passed from the federal government to the State of California at the time of statehood (September 9, 1850) by virtue of its sovereignty, on an equal footing with the original 13 colonies, to be held by the state in trust for the benefit of the public. Although, under a series of general statutes beginning shortly after statehood, the Legislature authorized the sale of tidelands by patent, sales of submerged lands below mean low tide were not authorized by these statutes. To the extent submerged lands were described in the state tideland patents, there was no valid conveyance; and the state remains the owner, holding title in trust for the public purposes of commerce, navigation, and fisheries and other trust purposes.

(h) That state patents of true tidelands between the mean high and low tide lines did not divest the public of its rights in the tidelands, the buyer of land under these statutes received the title to the soil, the jus privatum, subject to the public right of navigation, and in subordination to the right of the state to take possession, use, and improve them for that purpose; and, as it may deem necessary,

to pay for the taking of possession of improvements made in good faith.

(i) That, while the public tidelands trust easements are traditionally defined in terms of navigation, commerce, and fisheries, the public uses to which tidelands are subject still are sufficiently flexible to encompass changing needs. In administering the trust, the state is not burdened with an outmoded classification favoring one mode of utilization over another.

SEC. 2. (a) Therefore, based on the foregoing findings, the Legislature hereby formally exercises the public trust for the benefit of the public, for the purposes of commerce, navigation, fisheries, recreation, and for other trust purposes on, and upon a portion of lands at, the south shore of the Straits of Carquinez described as follows:

Lands of United Towing Co., a corporation, as recorded in Book 2873, page 171 and Book 2437, page 543, Official Records in the office of the Contra Costa County Recorder.

Lands of Rocco M. Costanza, et al., recorded as Parcels Nos. Two, Three and Four in Deed in Book 1446, page 356, Official Records in the office of the Contra Costa County Recorder.

Lands of Giuseppe Sparacino, et al., recorded as Parcel No. Three in Book 3462, page 286, Official Records in the office of the Contra Costa County Recorder.

Lands of Bartholomew Bisio as recorded in Book 6284, page 471, Official Records in the office of the Contra Costa County Recorder.

Lands of Doyle D. Hester, et al., as recorded in Book 5006, page 149, Official Records in the office of the Contra Costa County Recorder.

(b) Nothing contained in this act shall be deemed to preclude the application of provisions of Section 6312 of the Public Resources Code to the above described lands.

The bearings and distances used in the above descriptions of Parcels "A" and "B" are based on the California Coordinate System Zone 3 as shown on Map of "City of Martinez Waterfront Area" filed March 10, 1955, in Volume 16, Pages 39 to 43, Licensed Surveyor's Maps in the Office of the Contra Costa County Recorder.

(b) Such lands shall be held by the city and its successor in trust for the following uses, in which there is a general, statewide interest, and upon the following express conditions:

Parcel "A" shall be used only for Marina spoils and spoil removal, parking, boat storage, chandlery, recreation, landscaping, and any other use permitted by the Martinez Waterfront Land Use Plan; provided that in no event shall any building or structure be placed on parcel "A" that exceeds 20 feet in height.

of the lease and agreements specified in subdivision (f) of Section 1, and the development and operation of the entire area of such parcels shall be under the supervision of the City-State Committee, in the same manner as is presently provided by such lease and agreements with respect to lands subject to such lease and agreements.

The grant made by this section shall not become effective unless and until the city files quitclaim to all previously granted tidelands that are within the area hereby granted to the district by this act and described in Section 15.

SEC. 4. There is hereby granted to the East Bay Regional Park District, hereinafter referred to as the "district," all right, title, and interest of the state held by virtue of its sovereignty in and to all tide and submerged lands, whether filled or unfilled, situated in the County of Contra Costa and described in Section 15; provided, however, that this grant shall not become effective unless and until the City of Martinez files quitclaim to all previously granted tidelands that are within the area granted to the district by this act and described in Section 15. Such lands shall be held by the district, and its successors, in trust for the following uses and upon the following express conditions:

(a) That the lands shall be used by the district, and its successors, for purposes in which there is a general statewide interest. The use of the lands shall be in conformity with the Martinez Waterfront Land Use Plan as adopted by the district on April 20, 1976, and the City of Martinez on April 14, 1976. Changes or amendments to the Martinez Waterfront Land Use Plan shall be reviewed and approved by the State Lands Commission as provided in Section 6. Implementation of the plan through the improvement, restoration, preservation, or maintenance of the lands shall be determined by the State Lands Commission in accordance with Section 5. Lands shall be used as provided under the plan.

(b) That the acquisition of property and the rendition of services reasonably necessary to carrying out the uses and purposes described in this section, including the amortization or debt service of any capital improvement funding program, shall be consistent with the terms and conditions set forth in this act.

(c) That the district, or its successors, shall not at any time grant, convey, give, or alienate the lands, or any part thereof, to any individual, firm, or corporation for any purposes whatsoever; provided, however, that the district, or its successors, may grant franchises thereon for limited periods, not exceeding 66 years for wharves and other public uses and purposes; may lease the lands, or any part thereof, for limited periods, not exceeding 66 years, for purposes consistent with the trusts upon which the lands are held by the state; and may collect and retain rents and other revenues from such leases, franchises, and privileges under rules and regulations adopted in accordance with the provisions of Section 7.

Nothing contained in this subdivision shall be deemed to affect the validity or term of any franchise granted by the district under

Division 3 (commencing with Section 6001) of the Public Utilities Code, and any such franchise shall be effective with respect to the affected lands when title thereto passes to the district under this act.

(d) Except as provided in Section 2, this act does not affect or impair any rights of private parties within the described lands which exist as a result of lawful transactions and obligations entered into prior to January 1, 1977.

(e) That the lands shall be improved, preserved, restored, or maintained without expense to the state; provided, however, that nothing contained in this act shall preclude expenditures for any statewide public purpose not inconsistent with commerce, navigation, and fisheries or with other statewide public policy under the Environmental Quality Act of 1970 by the state or any board, agency, or commission thereof, when authorized or approved by the district; nor shall anything contained in this act preclude expenditures by the district of any funds received for such purposes from the state or any board, agency, or commission thereof.

(f) That, in the management, conduct, operation, and control of the lands or any improvements, betterments, or structures thereon, the district or its successors shall make no discrimination in rates, tolls, or charges for any use or service in connection therewith.

(g) That the state shall have the right to use without charge any transportation, landing, or storage improvements, betterments, or structures constructed upon the lands for any vessel or other watercraft or railroad owned or operated by the state.

(h) That there is reserved to the people of the State of California the absolute right to fish in the waters over the lands, with the right of convenient access to such waters over the lands for such purpose.

(i) That there is excepted and reserved to the state all deposits of minerals, including, but not limited to, oil and gas; other gases including, but not limited to, nonhydrocarbon and geothermal gases; oil shale, coal, phosphate, alumina, silica, fossils of all geological ages, sodium, gold, silver, metals and their compounds, alkali, alkali earth, sand, clay, gravel, salts and mineral waters, uranium, trona, and geothermal resources.

(j) That the district shall not authorize a capital outlay project, lease, or agreement, for port facilities such as marine terminals, pipelines, or other related energy facilities on state tide and submerged lands which have been granted in trust without first requesting and receiving the approval, in writing, of the State Lands Commission. In its review of such capital outlay projects, leases, or agreements, the commission shall consult with other governmental agencies and determine that such project is in and for the best interests of the people of the state and consistent with provisions of law, and that the allocation between the state and the district of any revenues generated as a result of such project, lease, or agreement shall be in accordance with provisions for allocation of excess revenue contained in Section 10.

(k) That the provisions of Section 6359 of the Public Resources

Code do not apply to this act.

SEC. 5. On or before January 1, 1982, the lands shall be substantially improved, restored, preserved, or maintained by the district without expense to the state, in accordance with the first phase of the Martinez Waterfront Land Use Plan; and, if the State Lands Commission determines that the district has failed to improve, restore, preserve, or maintain the lands, as required by the first phase of the plan, all right, title, and interest of the district in and to all lands granted by this act shall cease, and all right, title, and interest in the lands shall revert to the state. All improvement, restoration, preservation, or maintenance shall be effected in accordance with the Martinez Waterfront Land Use Plan.

SEC. 6. (a) The district shall submit all changes and amendments to the Martinez Waterfront Land Use Plan to the State Lands Commission for its approval. The commission shall review such changes and amendments with reasonable promptness to determine whether the amendment is in accord with the statutory purposes permitted and the statewide public trust required by subdivision (a) of Section 4. On the basis of such review, the commission shall furnish the district with its formal written recommendations. Such formal written recommendations shall take one of the following forms: approval as proposed; approval subject to recommended changes; recommendation of alternative plan; or disapproval stating the reasons therefore.

(b) Any change or amendment of such plan that would authorize commercial, income-producing development on lands granted to the city by subdivision (a) of Section 3 shall also be submitted to the city-state committee for its approval pursuant to the authority granted the committee by subdivision (b) of Section 3, prior to submission of such change or amendment to the commission for its approval pursuant to subdivision (a) of this section.

SEC. 7. (a) The governing body of the district shall, on or before July 1, 1977, develop and submit to the State Lands Commission for its approval, a procedure, rules, and regulations to govern the issuance, renewal, or renegotiation of any lease of state tide and submerged lands, or any development thereon. Such rules and regulations shall specify lease rates, the bases upon which such rates are established, lease terms and conditions, provision for renegotiation of rates and terms and assignments, and such other information as may be required by the commission. The commission shall make its determination within 90 days of its receipt of such information. Approval by the commission of the lease procedure, rules, and regulations shall be required before additional leases can be entered into on the granted lands.

(b) Nothing contained in this act shall preclude the district from leasing granted lands to the City of Martinez in accordance with the Martinez Waterfront Land Use Plan.

(c) This act amends the agreements of December 20, 1973, and October 27, 1964, between the City of Martinez and the State of

California and the lease of October 27, 1964, between the City of Martinez and the State Lands Commission to the extent that the lands granted hereby to the district are excluded therefrom and are released from the encumbrances and obligations thereunder. Nothing contained in this act, however, shall preclude recognition of the obligations under the agreements of December 20, 1973, and October 27, 1964, and the lease of October 27, 1964, or of any other agreement, lease, or requirement of law, and nothing herein shall preclude recognition that the lands referred to in the agreements and lease that are not granted hereunder to the district shall continue to be subject to the provisions of the agreements and lease and any applicable provision of law including, but not limited to, the encumbrances thereunder as security for payments.

(d) The City-State Committee shall consult with the district concerning matters on, and in the vicinity of, the granted lands, which are of mutual concern.

(e) The district shall submit to the State Lands Commission within 30 days a copy of any new or renegotiated lease, upon request of the commission therefor.

SEC. 8. The district shall establish a separate tidelands trust fund or funds in such manner as may be approved by the State Lands Commission and the district shall deposit in the fund or funds all moneys received directly from, or indirectly attributable to, the granted lands in the district. An annual statement of financial condition and operations, to conform with such requirements as the commission may prescribe, shall be submitted to the commission on or before October 1 of each year, for the preceding fiscal year.

SEC. 9. Notwithstanding any other provision of law to the contrary, the district, acting either alone or jointly with another local or state agency, may use revenues accruing from or out of the use of the granted lands for any or all of the authorized purposes on the granted lands; provided, however, that such other agencies shall comply with the terms of the trust, and such revenues shall be expended only for matters of statewide, as distinguished from local or purely private, interest and benefit that are in conformity with the Martinez Waterfront Land Use Plan.

SEC. 10. As to the expenditure of revenues for any single capital improvement on the granted lands involving an amount in excess of two hundred fifty thousand dollars ($250,000) in the aggregate, the district shall file with the State Lands Commission a detailed description of such capital improvement not less than 90 days prior to the time of any disbursement therefor or in connection therewith, except for any expenditure for preliminary planning. The commission may, within 90 days after the time of such filing, determine and notify the district that such capital improvement is not in the statewide interest and benefit and is not authorized by the provisions of the Martinez Waterfront Land Use Plan as it exists or as it may be amended under Section 6.

The commission may request the opinion of the Attorney General

on the matter; and if it does so, a copy of such opinion shall be delivered to the district with the notice of its determination. In the event the commission notifies the district that such capital improvement is not authorized, the district shall not disburse any revenue for, or in connection with, such capital improvement, unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction. The district is authorized to bring suit against the state for the purpose of securing such an order or adjudication, which suit shall have priority over all other civil matters. Service shall be made upon the Executive Officer of the State Lands Commission and the Attorney General, and the Attorney General shall defend the state in such suit. If judgment be given against the state in such suit, no costs shall be recovered.

SEC. 11. On June 30, 1979, and at the end of every third fiscal year thereafter, that portion of the district tideland trust revenues in excess of two hundred fifty thousand dollars ($250,000) remaining after current and accrued operating costs and expenditures directly related to the operation or maintenance of tidelands trust activities have been made, shall be deemed excess revenues; provided, however, that any funds deposited in a reserve fund to retire bond issues for the improvement or operation of the granted lands shall not be deemed excess revenue. Capital improvements of the granted lands made for purposes authorized by this act may be considered as expenditures for the purpose of determining net revenues.

The excess revenue, as determined pursuant to this section, shall be allocated as follows: 85 percent shall be transmitted to the State Treasurer for deposit in the General Fund in the State Treasury; and 15 percent, to the district for deposit in the trust fund created pursuant to Section 8, for use for any purpose authorized by Section 4.

SEC. 12. (a) The State Lands Commission, at the request of the district, shall grant an extension of time, not to exceed 90 calendar days, for filing any report or statement required by this act which was not filed due to mistake or inadvertence.

(b) In the event that the district fails or refuses to file with the State Lands Commission any report, statement, or document required by any provision of this act within the time period specified by this act, or any extension period granted pursuant to this act, or fails or refuses to carry out the terms of this act, the Attorney General shall, upon the request of the commission, bring such judicial proceedings for correction and enforcement as are appropriate, and shall act to protect any improvements to, or assets situated upon, the granted lands or derived therefrom. The commission shall notify the Chief Clerk of the Assembly and the Secretary of the Senate within 30 days of the occurrence of such failure or refusal and of actions taken as a result thereof.

SEC. 13. (a) The State Lands Commission shall, from time to time, recommend to the Legislature such amendments as it may deem necessary in the terms and conditions of this act.

(b) The State Lands Commission shall, from time to time, institute a formal inquiry to determine that the terms and conditions of this act, and amendments thereto, have been complied with, and that all other applicable provisions of law concerning these specific granted lands are being complied with in good faith.

(c) The State Lands Commission shall, on or before December 31st of each year, report to the Chief Clerk of the Assembly and to the Secretary of the Senate the full details of any transaction or conditions reported to the commission pursuant to this act which it deems to be in probable conflict with the requirements of this act or with any other provision of law.

SEC. 14. The Legislature reserves the right to amend or modify, in whole or in part, the tidelands and submerged lands granted and conveyed in trust pursuant to this act; provided, however, that the state shall thereupon assume and be bound by all lawful transactions and obligations related to such lands entered into or created by the district during its holding of such lands.

CHAPTER 817

An act to amend Sections 9322, 9401, 9422, and 9423 of, to add Section 9400 to, and to repeal Section 9400 of, the Education Code, relating to instructional materials.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 9322 of the Education Code is amended to read:

9322. No provision of this division shall be construed as prohibiting any district board, or any public library, from ordering and purchasing from their own funds such instructional materials as they may require, including state-listed materials at a price equal to that computed pursuant to Section 9443.

SEC. 2. Section 9400 of the Education Code is repealed.

SEC. 3. Section 9400 is added to the Education Code, to read:

9400. The state board shall adopt instructional materials for use in kindergarten and grades one through eight for a use period for governing boards of six years, commencing the first year of use in a district, subject to Section 9465 and to the following provisions:

(a) At least biennially, adoptions shall be made for all applicable levels for the following categories: (1) language arts, (2) mathematics, (3) reading, (4) science, (5) social science, (6) bilingual or bicultural subjects, and (7) any other subject, discipline, or interdisciplinary areas for which the state board may determine the need and desirability for instructional materials to promote the maximum efficiency of pupil learning.

(b) While categories may be designated to be adopted in alternate years, the state board shall adopt not less than five but no more than 15 of any of the following for each subject in each grade: (a) instructional materials, (b) instructional materials systems, (c) instructional materials sets, and, (d) a combination of instructional materials, instructional materials systems, and instructional materials

sets, as the state board may select. However, less than five items per subject, per grade may be adopted when the state board establishes that adequate materials are not available for certain grades and subjects. The state board shall not adopt more than two instructional materials sets for each subject in each grade.

(c) In the event that a district board establishes to the satisfaction of the state board that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials' credits to purchase, through the Department of Education, materials as specified by the state board, in accordance with standards and procedures established by the state board.

(d) The state board shall establish procedures to provide the most open and flexible submissions, as to timing and processing, to provide collections of instructional materials which, when taken as a whole, illustrate diverse points of view; represent cultural pluralism and provide a broad spectrum of knowledge, information, and a cross section of opinions; and allow for a combination of approaches and media to best meet the goals of a program and the needs of pupils.

(e) Upon making an adoption, the state board shall make available to listed publishers and manufacturers and all school interests a listing of instructional materials. Items placed upon lists shall remain thereon, and be available for procurement through the state's systems of financing, for a period of not less than four years following the date of initial use as established pursuant to subdivision (i). All previous adoptions shall be integrated on lists and made available by subject and level.

(f) The state board may approve multiple lists of instructional materials, without designating a grade or subject, and the state board may designate more than one grade or subject whenever the state board designates that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on single grade or single subject lists, or multigrade or interdisciplinary lists, or may be placed on separate lists including other materials with similar grade or subject designations; however, all materials so designated shall be adopted subject to the limitations of subdivision (b).

(g) A composite listing in the format of an order form may be used to meet the requirements of this section.

(h) The lists maintained pursuant to this section shall not be deemed to control the use period by any local district.

(i) The state board shall, at the time of initiating the call for bids for instructional materials, establish the date upon which such state-adopted materials shall initially be available for use by the pupils.

SEC. 4. Section 9401 of the Education Code is amended to read:

9401. In approving and maintaining lists of adopted instructional materials at least biennially, the state board shall, pursuant to subdivision (e) of Section 9400, do any one or more of the following,

when applicable:

(a) Retain any instructional materials from a previous list and biennially make any adjustment in prices based on information provided pursuant to Section 9423.

(b) Delete from the lists any instructional material which it determines is obsolete pursuant to Section 9800, or which received no order from any district board during the previous biennial period.

(c) Add instructional materials not previously submitted for adoption, or materials previously submitted which have been revised to comply with any recommendations of the state board.

SEC. 5. Section 9422 of the Education Code is amended to read:

9422. Publishers and manufacturers shall, at a time designated by the state board, submit the following information:

(a) Detailed specifications of the physical characteristics of such material. Such specifications shall be complied with by the publisher or manufacturer if the material is adopted and purchased in completed form by the state board or any district board. If the material is adopted under a lease contract, the Department of General Services shall follow comparable specifications in manufacturing the material. Changes in specifications may be made when approved by the state board and the publisher or manufacturer.

On application of the defendant at any time before judgment the court may, and in case of a defendant who appeared without counsel at the time of the plea the court must, for a good cause shown, permit the plea of guilty to be withdrawn and a plea of not guilty substituted. (c) The argument for the proposed district formation.

(d) The argument against the proposed district formation.

The election officials shall mail a ballot pamphlet to each voter entitled to vote in the district formation election at least 10 days prior to the date of the election. Such a ballot pamphlet is "official matter" within the meaning of Section 10010 of the Elections Code.

SEC. 3. Section 12104 of the Public Utilities Code is amended to read:

12104. Every appointee to a permanent position shall be on probation for six months, except that the general manager may establish a probationary period for up to 12 months for professional, scientific, administrative, management, or executive positions, or for positions requiring certification by the state pursuant to Chapter 9

CHAPTER 821

An act to amend Section 11450.1 of the Welfare and Institutions Code, relating to public social services and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 8, 1976 Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 11450.1 of the Welfare and Institutions Code is amended to read:

11450.1. During such times that federal law ceases to provide for a disregard of a certain portion of child support payments as is presently provided in Section 457(a)(1) of the Social Security Act and to the extent that there is federal financial participation at a level of no less than 50 percent of the cost, 40 percent of the first fifty

dollars ($50) of any amount collected in a month which represents payment on the required support obligation for that month shall be paid to the recipient and deducted from the amounts specified in Section 11452, not to exceed the amount of the difference between such amounts and the amount of the maximum aid payable pursuant to subdivision (a) of Section 11450.

The amount paid under this section shall not be considered income or resources of the recipient and shall not be deducted from the amount of aid to which the recipient would otherwise be entitled.

SEC. 1.5. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Since federal financial participation available under the aid to families with dependent children program to provide for a "disregard" of a certain portion of child support payments to recipients will terminate on September 30, 1976, and state law would continue to provide for a portion of the "disregard" after such date, in order to avoid the possibility of state and counties paying for the entire "disregard" without federal financial participation and the increase in cost, it is essential that this act go into immediate effect.

CHAPTER 822

An act to amend Sections 6257 and 26831 of, and to repeal Section 26832 of, the Government Code, relating to copy reproduction fees.

26831. The county clerk may charge a reasonable fee to cover the cost of preparing copies of any record, proceeding, or paper on file in his office.

SEC. 3. Section 26832 of the Government Code is repealed.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

The people of the State of California do enact as follows:

SECTION 1. SEC. 2. There is hereby appropriated from the Public Facilities Account of the Natural Disaster Assistance Fund in the State Treasury to the Tennant Community Services District in Siskiyou County the sum of thirty-five thousand three hundred ninety-five dollars ($35,395) as reimbursement for the state portion of the cost of repairs resulting from the storms and floods of November, 1973, to be paid during the 1976–1977 fiscal year.

SEC. 3. This act shall not affect the obligation of the Tennant Community Services District to repay to the state the amount of four thousand three hundred forty-five dollars and ninety-four cents ($4,345.94) which was loaned to the district to cover its matching

share of such repair costs.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Inasmuch as the fiscal affairs of the Tennant Community Services District are severely disrupted by the liability to be extinguished by the appropriation made by this act, it is necessary that this act take effect immediately.

CHAPTER 824

An act to amend Section 2144 of the Business and Professions Code, relating to the practice of medicine.

6827. Leases for the extraction and removal of oil and gas deposits may be made by the commission to the highest qualified bidder, or joint bidders, as provided in this chapter. Such a lease shall include all oil and gas deposits in the leased land and be for a term of 20 years and for so long thereafter as gas or oil is produced in paying quantities from the leased land, or lessee shall be diligently conducting production, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land. Any lease heretofore issued under this chapter for a term of 20 years, or any renewal or extension thereof, may at any time or times prior to its expiration be extended upon such terms and conditions and for such period of time as the commission deems for the best interests of the state or as the Legislature may provide; provided further, that upon the lessee's timely application therefor the commission may issue a new lease in exchange for any lease issued for a term of 20 years, or any renewal or extension thereof; such new lease shall be issued at the same royalty and upon the same terms and conditions as the lease for which it is exchanged, unless the commission and the lessee shall otherwise agree, except that the term of such exchange lease shall be for a term of five years and for so long thereafter as oil or gas is produced in paying quantities, or lessee shall be conducting production, drilling, deepening, repairing, redrilling or other necessary lease or well maintenance operations on the leased land.

When state lands, including tide and submerged lands, are offered for lease by the commission, the commission shall specify a sliding scale royalty on oil commencing at not less than 16⅔ percent up to a maximum percentage specified in the invitation to bid to be paid on the average production of oil per well per day under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands. Such royalties shall be paid in kind or as a percentage of the current market price at the well of, and of any premium or bonus paid on, the production removed or sold from the leased land, subject to an annual rental payable in advance of not less than one dollar ($1) for each acre of land subject to the lease at the rental date. Unless the commission decides to reject all bids pursuant to Section 6836, the lease of the parcel or tract which is the subject of the bid shall be awarded to the qualified bidder who undertakes to pay the highest cash bonus in addition to satisfying all other provisions of the lease.

As alternatives to the procedures set forth in the preceding paragraph, the commission, if it so provides in the invitation to bid, may: (1) specify a sliding scale royalty on oil commencing at 16⅔ percent up to a maximum percentage specified in the invitation to bid, to be paid on the average production of oil per well per day

under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands, and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who bids the highest factor to be applied to the scale of oil royalties specified in the offer to bid, in addition to satisfying all other provisions of the lease, unless the commission decides to reject all bids pursuant to Section 6836; or (2) specify that bidding shall be on the basis of a flat rate of royalty and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest flat rate of royalty, but not less than 16⅔ percent, on oil, to be paid on the production of oil under such lease, and a royalty of not less than 16⅔ percent as specified in the invitation to bid on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands, unless the commission decides to reject all bids pursuant to Section 6836; or (3) specify, with respect to a proposed lease for the extraction of gas, that bidding shall be on the basis of a flat rate of royalty, and award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest flat rate of royalty, but not less than 16⅔ percent, on dry gas, natural gasoline, and other products extracted and saved from the gas produced under such lease, except gas used for lease use or reinjection into the leased lands, unless the commission decides to reject all bids pursuant to Section 6836; or (4) as an additional alternative, the commission, if it so provides in the invitation to bid, may award the lease of the parcel or tract which is the subject of the bid to the qualified bidder who undertakes to pay the highest percentage of net profits derived from oil, dry gas, and other products extracted under the lease, in addition to satisfying all other provisions of the lease, unless the commission decides to reject all bids pursuant to Section 6836, and under such alternative, an annual rental of not less than one dollar ($1) for each acre of land subject to the lease shall be payable in advance on the rental date. Under alternatives (1), (2), and (3), the royalties shall be paid in kind or as a percentage of the current market price at the well of the production removed or sold from the leased lands, subject to an annual rental payable in advance of not less than one dollar ($1) for each acre of the land subject to the lease at the rental date.

Except in the case of net profits leases under alternative (4), no allowance may be made for the cost of oil treatment, dehydration, or transportation of royalty oil on leases let subsequent to January 1, 1977.

If, at any time or from time to time, before or after the expiration of the primary term of such lease, the leased lands cease to produce oil or gas, the lease shall; nevertheless, continue in full force and effect if within six months after the cessation of production, or such

longer period of time as the commission may authorize, lessee shall commence and thereafter prosecute with reasonable diligence drilling, deepening, repairing, redrilling or other operations for the purpose of restoring production of oil or gas from the leased lands.

CHAPTER 835

An act to amend Section 454 of the Public Utilities Code, relating to public utilities.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 454 of the Public Utilities Code is amended to read:

454. (a) No public utility shall raise any rate or so alter any classification, contract, practice, or rule as to result in any increase in any rate except upon a showing before the commission and a finding by the commission that such increase is justified; provided, however, that upon a showing by a public utility before the commission after a public hearing and a finding by the commission that it has invested in projects designed to generate or produce energy from renewable resources, including, but not limited to, solar energy, geothermal energy, wind sources, hydroelectric energy at existing dams and hydroelectric energy at new dams subject to Resources Agency review of the environmental impacts of the proposed project and determination that the proposed project is environmentally acceptable, or that it has invested in other systems capable of meeting the then applicable environmental pollution standards, in either case the capital costs of which when added to the operating and maintenance costs shall result in a lower cost per unit of energy generated or produced over the life of the system than existing systems utilizing atomic energy, fossil fuels or natural gas, which projects or systems are capable of or, in fact, are, generating energy for commercial purposes, the commission may allow a return on such investment established by adding an increment of from one-half percent (½%) to one percent (1%) to the rate of return permitted on the utility's other investment. The commission may, in its discretion, also allow such higher rate of return on investment by a public utility in experimental projects which it determines after public hearing to be reasonably designed to improve or perfect technology to generate or produce energy from renewable resources, or to more efficiently utilize other resources for the generation of energy in a manner which will decrease the environmental pollution per unit of energy generated or produced and lower the cost per unit of energy to the utility's consumers.

Whenever any electrical, gas, heat, telephone, water, or sewer system corporation files an application to increase any rate of charge, other than an increase reflecting and passing through to customers only increased costs to the corporation, for the services or commodities furnished by it, the corporation shall furnish to its customers affected by the proposed increase notice of its application to the commission for approval of such increase. The corporation may include such notice with the regular bill for charges transmitted to such customers within 45 days if the corporation operates on a 30-day billing cycle, or within 75 days if the corporation operates on a 60-day billing cycle. The notice shall state the amount of the proposed increase expressed in both dollar and percentage terms, a brief statement of the reasons the increase is required or sought, and the mailing address of the commission to which any customer inquiries relative to the proposed increase, including a request by the customer to receive notice of the date, time, and place of any hearing on the application, may be directed.

(b) The commission may establish such rules as it considers reasonable and proper for each class of public utility providing for the nature of the showing required to be made in support of proposed increases, the form and manner of the presentation of such showing, and the procedure to be followed in the consideration thereof. Rules applicable to common carriers may provide for the publication and filing of any proposed increase together with a written showing in support thereof, giving notice of such filing and showing in support thereof to the public, affording an opportunity for protests thereto, and to the consideration of, and action on, such showing and any protests filed thereto by the commission, with or without hearing; provided that the proposed increase shall not become effective until it has been approved by the commission.

(c) The commission shall permit individual residential public utility customers affected by a proposed rate increase to testify at any hearing on such proposed increase, except that the presiding officer need not allow repetitive or irrelevant testimony and may conduct the hearing in an efficient manner.

SEC. 4. Section 35251 of the Food and Agriculture Code, as amended by Chapter 240 of the Statutes of 1976, is further amended to read:

35251. The director, at least once each month, shall report to the State Controller the total amount of any money which is collected under Section 35221. He shall, at the same time, pay into the State Treasury the entire amount of such receipts which shall be credited to the Department of Agriculture Fund and expended as provided in Section 32704.

CHAPTER 839

An act to amend Sections 3051 and 3097 of the Civil Code, relating to liens.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3051 of the Civil Code is amended to read:

3051. Every person who, while lawfully in possession of an article of personal property, renders any service to the owner thereof, by labor or skill, employed for the protection, improvement, safekeeping, or carriage thereof, has a special lien thereon, dependent on possession, for the compensation, if any, which is due to him from the owner for such service; a person who makes, alters, or repairs any article of personal property, at the request of the owner, or legal possessor of the property, has a lien on the same for his reasonable charges for the balance due for such work done and materials furnished, and may retain possession of the same until the charges are paid; and livery or boarding or feed stable or feed yard proprietors, and persons pasturing horses or stock, have a lien, dependent on possession, for their compensation in caring for, boarding, feeding, or pasturing such horses or stock; and foundry proprietors and persons conducting a foundry business, have a lien, dependent on possession, upon all patterns in their hands belonging to a customer, for the balance due them from such customers for foundry work; and plastic fabricators and persons conducting a plastic fabricating business, have a lien, dependent on possession, upon all patterns and molds in their hands belonging to a customer, for the balance due them from such customer for plastic fabrication work; and laundry proprietors and persons conducting a laundry business, and drycleaning establishment proprietors and persons conducting a drycleaning establishment, have a general lien, dependent on possession, upon all personal property in their hands belonging to a customer, for the balance due them from such customer for laundry work, and for the balance due them from such customers for drycleaning work, but nothing in this section shall be construed to confer a lien in favor of a wholesale drycleaner on materials received from a drycleaning establishment proprietor or a person conducting a drycleaning establishment; and veterinary proprietors and veterinary surgeons shall have a lien dependent on possession, for their compensation in caring for, boarding, feeding, and medical treatment of animals; and keepers of garages for automobiles shall have a lien, dependent on possession for their compensation in caring for and safekeeping, and for making repairs and performing any labor upon or furnishing supplies or materials for such automobiles; and keepers of trailer parks shall have a lien,

04092 287415 476

dependent on possession, for their compensation for rental of parking space for trailers, and for such other services as are furnished to the owners or legal possessors of trailers at their request; provided, however, that where the possession of, or lien upon, any automobile or trailer held under a claim of lien hereunder is lost by reason of fraud, trick or device, the repossession of said automobile or trailer by said garage keeper or trailer park keeper shall revive the lien so lost; provided, further, that any lien thus revived shall be subordinate to any sale, lien, encumbrance, right, title or interest in such automobile or trailer acquired or exercised in good faith and for value by any person between the time of loss of possession and the time of repossession.

This section shall have no application to any vessel as defined in Section 21 of the Harbors and Navigation Code.

SEC. 2. Section 3097 of the Civil Code is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction lender, he shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of such person furnishing such labor,

service, equipment, or materials.

(3) The name of the person who contracted for purchase of such labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) A statement that if bills are not paid in full for labor, service, equipment, or material furnished, or to be furnished, the improved property may be subject to mechanic's liens.

(6) If such notice is given by a subcontractor who is required pursuant to a collective-bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, such notice shall also contain the identity and address of such trust fund or funds.

If an invoice for such materials contains the information required by this section, a copy of such invoice, transmitted in the manner prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), such person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. Such person shall, however, be entitled to claim a lien and a notice to withhold only for such labor, service, equipment, or material furnished within 20 days prior to the service of such notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon him by this section shall be void and of no effect.

(f) The notice required under this section may be served as follows:

(1) If the person to be notified resides in this state, by delivering the notice personally, or by leaving it at his address of residence or place of business with some person in charge, or by first-class registered or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his residence or place of business address or at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j) of this section.

(2) If the person to be notified does not reside in this state, by any method enumerated in paragraph (1) of this subdivision. If such person cannot be served by any of such methods, then notice may be given by first-class certified or registered mail, addressed to the construction lender or to the original contractor.

04092 287445 482

(3) When service is made by first-class certified or registered mail, service is complete at the time of the deposit of such registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one such notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is furnished under contracts with more than one subcontractor, in which event, the notice requirements must be met with respect to materials, services, labor, or equipment furnished to each such contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after such date, the person giving notice furnishes materials, services, labor, or equipment not within the scope of such general description.

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars ($400), the failure of that contractor, licensed under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where such notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give such notice, including such information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which such obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due such trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in such designated space. Any failure to indicate the name and address of the construction lender on such application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender,

and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property. The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of any such mortgage, deed of trust, or other instrument.

Failure to provide such information on such an instrument when recorded shall not relieve persons required to give preliminary notice under this section from such duty.

The county recorder of the county in which such instrument is recorded shall indicate in the general index of the official records of the county that such instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective-bargaining agreement to pay supplementary fringe benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to such fund and to the construction lender, if any, or to the reputed construction lender, if any, not later than five days following the date such payment was due to such fund, a written notice containing:

(1) The name of the owner and the contractor.

(2) A description of the jobsite sufficient for identification.

(3) The identity and address of the express trust fund.

(4) The total number of straight time and overtime hours on each such job, payment for which the contractor or subcontractor is delinquent to the express trust.

(5) The amount then past due and owing.

Failure to give such notice shall constitute grounds for disciplinary action by the Registrar of Contractors.

(*l*) Every written contract entered into between a property owner and an original contractor shall provide space for the owner to enter his name and address of residence; and place of business if any. The original contractor shall make available the name and address of residence of the owner to any person seeking to serve notice required by this section.

SEC. 3. Section 3097, as amended by Chapter 396 of the Statutes of 1976, is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed

04092 287470 487

construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction lender, he shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of such person furnishing such labor, service, equipment, or materials.

(3) The name of the person who contracted for purchase of such labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) The following statement in boldface type:

NOTICE TO PROPERTY OWNER

If bills are not paid in full for the labor, services, equipment, or materials furnished or to be furnished, a mechanic's lien leading to the loss, through court foreclosure proceedings, of all or part of your property being so improved may be placed against the property even though you have paid your contractor in full. You may wish to protect yourself against this consequence by (1) requiring your contractor to furnish a signed release by the person or firm giving you this notice before making payment to your contractor or (2) any other method or device which is appropriate under the circumstances.

(6) If such notice is given by a subcontractor who is required pursuant to a collective-bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, such notice shall also contain the identity and address of such trust fund or funds.

If an invoice for such materials contains the information required by this section, a copy of such invoice, transmitted in the manner prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of

04092 287485 490

improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), such person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. Such person shall, however, be entitled to claim a lien and a notice to withhold only for such labor, service, equipment, or material furnished within 20 days prior to the service of such notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon him by this section shall be void and of no effect.

(f) The notice required under this section may be served as follows:

(1) If the person to be notified resides in this state, by delivering the notice personally, or by leaving it at his address of residence or place of business with some person in charge, or by first-class registered or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his residence or place of business address or at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j) of this section.

(2) If the person to be notified does not reside in this state, by any method enumerated in paragraph (1) of this subdivision. If such person cannot be served by any of such methods, then notice may be given by first-class certified or registered mail, addressed to the construction lender or to the original contractor.

(3) When service is made by first-class certified or registered mail, service is complete at the time of the deposit of such registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one such notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is furnished under contracts with more than one subcontractor, in which event, the notice requirements must be met with respect to materials, services, labor, or equipment furnished to each such contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after such date, the

person giving notice furnishes materials, services, labor, or equipment not within the scope of such general description.

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars ($400), the failure of that contractor, licensed under Chapter 9 (commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where such notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give such notice, including such information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which such obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due such trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in such designated space. Any failure to indicate the name and address of the construction lender on such application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender, and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property. The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of any such mortgage, deed of trust, or other instrument.

Failure to provide such information on such an instrument when recorded shall not relieve persons required to give preliminary notice under this section from such duty.

The county recorder of the county in which such instrument is recorded shall indicate in the general index of the official records of the county that such instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective-bargaining agreement to pay supplementary fringe benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to such fund and to the construction lender, if any, or to the reputed construction lender, if

any, not later than five days following the date such payment was due to such fund, a written notice containing:

(1) The name of the owner and the contractor.

(2) A description of the jobsite sufficient for identification.

(3) The identity and address of the express trust fund.

(4) The total number of straight-time and overtime hours on each such job, payment for which the contractor or subcontractor is delinquent to the express trust.

(5) The amount then past due and owing.

Failure to give such notice shall constitute grounds for disciplinary action by the Registrar of Contractors.

(*l*) Every written contract entered into between a property owner and an original contractor shall provide space for the owner to enter his name and address of residence; and place of business if any. The original contractor shall make available the name and address of residence of the owner to any person seeking to serve notice required by this section.

SEC. 4. Section 2 of this act shall remain in effect only until January 1, 1978, and shall have no force or effect on or after such date.

SEC. 5. Section 3 of this act shall become operative on January 1, 1978.

An act to amend Section 11004 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 8, 1976. Filed with Secretary of State September 9, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 11004 of the Welfare and Institutions Code is amended to read:

11004. The provisions of this code relative to public social services for which state grant-in-aid are made to the counties shall be administered fairly to the end that all persons who are eligible and apply for such public social services shall receive the assistance to which they are entitled promptly, with due consideration for the needs of applicants and the safeguarding of public funds.

(a) Any applicant for, or recipient or payee of, such public social services shall be informed as to the provisions of eligibility and his responsibility for reporting facts material to a correct determination of eligibility and grant.

(b) Any applicant for, or recipient or payee of, such public social services shall be responsible for reporting accurately and completely within his competence those facts required of him pursuant to subdivision (a) and to report promptly any changes in those facts.

(c) Any person who makes full and complete disclosure of those facts as explained to him pursuant to subdivision (a) is entitled to rely

04129 287595 512

upon the award of public social services as being accurate, and that the warrant he receives correctly reflects the award made, except that the county providing the social services shall be allowed a period of six months following the month of payment, or six months following the hearing provided in subdivision (e), within which to adjust any errors or changes in amount of grant resulting from changes in income or need which occur too late to be reflected in the grant for the current month. Whenever possible, adjustments or overpayments shall be prorated evenly over the adjustment period.

(d) If any overpayment which results because of the willful failure to report facts in accordance with subdivision (b) or because of any willfully fraudulent device, the county providing the social services shall be allowed a period of one year following the month of the discovery of the overpayment, or one year following the hearing provided in subdivision (e), to adjust current grants to recover the overpayment. Such adjustment shall be permitted concurrently with any suit for restitution, and recovery of overpayment by adjustment shall reduce by the amount of such recovery the extent of liability for restitution.

(e) Current grants may be reduced because of prior overpayments only if the recipient has income or resources available in the amount by which the county proposes to reduce payment; except that where there is evidence which clearly establishes that a recipient willfully withheld information about his income or resources, such income or resources may be considered in the determination of need to reduce the amount of the grant in current or future periods. Prior to effecting any reduction of current grants to recover prior overpayments, the recipient shall be advised of the proposed reduction and of his entitlement to a hearing on the propriety of the reduction. In no event shall the grant to a needy child be reduced unless the parents or other responsible persons have sufficient available resources or income to meet the current needs of the needy child according to the department standard during the period of reduction.

(f) If it is found that a recipient or a family was possessed of property in excess of the amount permitted by law, and it cannot be established that the recipient or family received such public social service in bad faith, without honestly believing eligibility was properly established, the amount collectible shall be limited to an amount equal to the market value of the excess property or the value of the public social service granted during the period the excess property was held, whichever is the lesser.

(g) When an underpayment or denial of public social service occurs because of an administrative error or inadvertence on the part of a county, and as a result the applicant or recipient does not receive the amount to which he is entitled, the county shall provide public social services equal to the full amount of the underpayment which occurred during the period of one year immediately preceding the date the error or inadvertence is discovered.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because duties, obligation, or responsibilities imposed on local governmental entities by this act are such that related costs are incurred as a part of their normal operating procedures.

However, a dealer may collect, from the second purchaser of a vehicle, a prorated fee based upon the number of months remaining in the registration year for that vehicle, if the vehicle had been previously sold by the dealer and the sale was subsequently rescinded and all the fees that were paid, as required by this code and Chapter 2 (commencing with Section 10751) of Division 2 of the Revenue and Taxation Code, were returned to the first purchaser of the vehicle.

SEC. 4. Section 437.7 of the Health and Safety Code is amended to read:

437.7. In order to assure availability of objective and impartial review by planning groups (referred to as area health planning agencies) of proposals for health facility projects as set forth in Section 437.10, the Advisory Health Council shall evaluate and shall designate annually no more than one area health planning agency for any area of the state designated by the council, provided such agency shall be incorporated as a nonprofit corporation and be controlled by a board of directors consisting of a majority representing the public and local government as consumers of health services with the balance being broadly representative of the providers of health services and the health professions, or alternatively be a health systems agency established pursuant to Public Law 93-641. The functions of area health planning agencies shall be the following:

(a) To review information on utilization of hospitals and related health facilities.

(b) To develop area plans to be used for the determination of community need and desirability of projects specified in Section 437.10, consistent with the regulations adopted by the state department pursuant to Section 437.8. Each such plan shall become effective upon a determination by the council that the plan is in conformance with regulations adopted pursuant to Section 437.8. The council shall integrate all such area plans into a single Statewide Health Facilities and Services Plan, which shall become effective upon formal adoption by the council.

(c) To conduct public meetings in which providers of health care and consumers will be encouraged to participate.

(d) To review applications for certificates of need as required by Section 437.10 and make recommendations to the state department as to the need and desirability for the project proposed in the

application, based upon the statewide and area plans adopted pursuant to subdivision (b) or, prior to the adoption of such plans, based upon the existing plans specified in Section 437.9.

(e) To make written findings of fact and recommendations to be delivered to applicant and filed with the State Department of Health as a public record.

Area health planning agencies shall comply with the following requirements:

(1) The governing body of such agency shall, to the extent feasible, be composed of individuals representative of the major social, economic, linguistic, and racial populations, and geographic areas, within the area served by the agency.

(2) The agency shall hold public meetings and hearings only after reasonable public notice. Such notice shall, to the extent feasible, be publicized directly to those who, as determined by the director, are medically underserved and are in other ways denied equal access to good medical care.

(3) The agency shall file with the Advisory Health Council an affirmative action employment plan approved by the state department.

Area health planning agencies may divide their areas into local areas for purposes of more effective health facility planning, with the approval of the Advisory Health Council. Such local areas shall be of a geographic size and contain adequate population to insure a broad base for planning decisions. Each local area shall contain a local health planning agency which shall meet the requirements of this section.

An organization which meets the requirements of this section may make application to its area health planning agency for designation as a local health planning agency for a designated area. Within 45 days after a complete application for designation has been received, the area agency shall reach a decision concerning the application.

Each area health planning agency existing on the operative date of amendments to this section enacted during the 1976 portion of the 1975–76 Regular Session of the Legislature shall continue to function as an area planning agency pursuant to this part, and shall provide review and recommendations on applications for certificates of need until such time as one or more designated health systems agencies are fully operational, as determined by the Advisory Health Council in the area served, or formerly served, by the respective area health planning agency.

If the Advisory Health Council determines that an area health planning agency approved under this section is dissolved or unable to carry out the functions required by this part, the state department shall fulfill the responsibilities of an area health planning agency pursuant to this part in the area until such time as another area health planning agency is designated by the Advisory Health Council for such area and becomes fully operational.

Adoption of regulations setting forth administrative procedures for

area and local area health planning agencies shall be made by the state department pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

In adopting such regulations, the department shall, with the advice of the Advisory Health Council, consider the following factors, and may consider other factors not inconsistent with the following:

(a) The need for health care services in the area and the requirements of the population to be served, including evaluation of current utilization patterns;

(b) The availability and adequacy of health care services in the area's existing facilities which currently conform to federal and state standards;

(c) The availability and adequacy of services in the area such as preadmission, ambulatory or home care services which may serve as alternatives or substitutes for care in health facilities;

(d) The possible economies and improvement in service that may be derived from the following:

(2) Maximum utilization of health facilities consistent with the appropriate levels of care, including but not limited to intensive care, acute general care, and skilled nursing care;

(3) Development of medical group practices, especially those providing services appropriately coordinated or integrated with institutional health service, and development of health maintenance organizations;

(e) The development of comprehensive services for the community to be served. Such services may be either direct or indirect through formal affiliation with other health programs in the area, and include preventive, diagnostic, treatment and rehabilitation services. Preference shall be given to health facilities which will provide the most comprehensive health services and include outpatient and other integrated services useful and convenient to the operation of the facility and the community;

(f) The needs or reasonably anticipated needs of special populations, including members of a comprehensive group practice prepayment health care service plan, members of a religious body or denomination who desire to receive care and treatment in accordance with their religious conviction, or persons otherwise contracted or enrolled under extended health care arrangements, including life-care agreements pursuant to Chapter 4 (commencing with Section 16300) of Part 4 of Division 9 of the Welfare and Institutions Code;

(g) The special needs and circumstances of those entities which

provide a substantial portion of their services or resources, or both, to individuals not residing in the health service areas in which the entities are located. Such entities may include medical and other health professional schools, multidisciplinary clinics, and specialty centers.

SEC. 6. Section 437.9 of the Health and Safety Code is repealed.

SEC. 6.5. Section 437.9 is added to the Health and Safety Code, to read:

437.9. The basis for decisions by the state department on applications for certificates of need filed pursuant to this part shall be:

(a) The Statewide Health Facilities and Services Plan specified in subdivision (b) of Section 437.7. Until the statewide plan is adopted by the council pursuant to subdivision (b) of Section 437.7:

(1) Existing area plans developed pursuant to subdivision (b) of Section 437.7, as it existed prior to its amendment by enactment of this section, shall continue in effect, and shall be the basis for decisions on projects requiring a certificate of need pursuant to subdivision (a) of Section 437.10.

(2) Review and approval of projects requiring a certificate of need pursuant to subdivision (b), (c), (d), or (e) of Section 437.10 shall be governed by regulations which shall be adopted by the state department pursuant to Section 437.6.

SEC. 7. Section 437.10 of the Health and Safety Code is repealed.

SEC. 8. Section 437.10 is added to the Health and Safety Code, to read:

437.10. Except as otherwise exempted by Sections 437.11,, 437.13, or this section, projects requiring a certificate of need issued by the State Department of Health are the following:

(a) Construction of a new health facility, the increase of bed capacity in an existing health facility, the conversion of an existing health facility from one license category to another, or, on or after January 1, 1977, the conversion of a health facility's existing beds in one bed classification to a different bed classification. As used in this section, "license category" means any category of health facility set forth in Section 1250 and "bed classification" means any classification set forth in Section 1250.1. A facility may use beds in one bed classification which, pursuant to the facility's license, have been designated in another bed classification, if all such bed classification changes do not at any point in time exceed 5 percent of the total number of the facility's beds as set forth by the facility's license and if such use meets the requirements of Chapter 2, (commencing with Section 1250) of Division 2.

In addition, a facility may use an additional 5 percent of its beds in such manner if the director finds that seasonal fluctuations justify it.

(b) A new clinic or change in clinic class, as defined in subdivision (e) or (f) of Section 1203.

(c) The establishment of a new special service delineated in subdivision (a), (b), (d), (e), (f), (g), or (h) of Section 1255, or the establishment, pursuant to subdivision (c) of Section 1255, of an emergency center which provides basic or comprehensive emergency medical services, as defined by regulation of the state department.

(d) The initial purchase or lease by a facility of diagnostic or therapeutic equipment with a value in excess of one hundred fifty thousand dollars ($150,000) in a single fiscal year, or for which the cumulative cost exceeds such amount in more than one fiscal year. For purposes of this subdivision, the purchase or lease of one or more articles of functionally related diagnostic or therapeutic equipment, as determined by the state department, shall be considered together.

(e) Any project requiring a capital expenditure for a health facility, or for a clinic licensed pursuant to subdivisions (e) or (f) of Section 1203, or for the services, equipment or modernization of such facility or clinic in excess of one hundred fifty thousand dollars ($150,000) in the current fiscal year or cumulation to an expenditure of one hundred fifty thousand dollars ($150,000) in the same fiscal year or subsequent fiscal years for a single project.

For the purposes of this subdivision, a "capital expenditure" shall mean any of the following:

(1) An expenditure, including an expenditure for a construction project undertaken by the facility as its own contractor, which under generally accepted accounting principles is not properly chargeable as an expense of operation and maintenance and which exceeds one hundred fifty thousand dollars ($150,000). The cost of studies, surveys, legal fees, land, offsite improvements, designs, plans, working drawings, specifications, and other activities essential to the acquisition, improvement, expansion, or replacement of the physical plant and equipment with respect to which such expenditure is made shall be included in determining whether such cost exceeds one hundred fifty thousand dollars ($150,000). Where the estimated cost of a proposed project, including cost escalation factors appropriate to the area in which the project is located, is, within 60 days of the date on which the obligation for such expenditure is incurred, certified by a licensed architect or engineer to be one hundred fifty thousand dollars ($150,000) or less, such expenditure shall be deemed not to exceed one hundred fifty thousand dollars ($150,000) regardless of the actual cost of such project. However, in any such case where the actual cost of the project exceeds one hundred fifty thousand dollars ($150,000) the health facility on whose behalf such expenditure is made shall provide written notification of such cost to the state department not more than 30 days after the date on which such expenditure is incurred. Such notification shall include a copy of the certified estimate.

(2) The acquisition, under lease or comparable arrangement, or through donation, of any facility or part thereof, or equipment for a facility, the expenditure for which would have been considered a

capital expenditure if the person had acquired it by purchase. For the purposes of this paragraph, "donation" shall not include a bequest.

(3) Any change in a proposed capital expenditure which itself meets the criteria set forth in this subdivision.

A "capital expenditure" shall include the total cost of the proposed project as certified by a licensed architect or engineer based on preliminary plans or specifications and concurred in by the state department. For the purposes of this subdivision, "project" shall not include the purchase of real property for future use or the transfer of ownership, in whole or part, of an existing health facility or the acquisition of all or substantially all of the assets or stock thereof.

For the purposes of this subdivision, "modernization" means the alteration, expansion, repair, remodeling, replacement, or renovation of existing buildings, including initial equipment thereof, and the replacement of equipment of existing buildings.

The state department shall annually adjust the capital expenditure thresholds set forth in subdivision (d) and (e) of this section to reflect changes in the cost of living, as determined by the Department of Finance, using 1976 as the base year.

SEC. 9. Section 437.11 is added to the Health and Safety Code, to read:

437.11. (a) The state department shall exempt from the provisions of Sections 438 to 438.13, inclusive, and shall issue a certificate of exemption for those projects which were not previously subject to review under Section 437.7 prior to the effective date of this section where the applicant has shown and the director has found that:

(1) The applicant has, prior to the effective date of this section, committed or incurred a financial obligation, including any obligation payable by force account, which is certified by a licensed architect or engineer to be 10 percent of the cost of the total project, or seventy-five thousand dollars ($75,000), whichever is less; and

(2) The project cannot be terminated without substantial economic loss to the applicant; and

(3) Except with respect to projects set forth in subdivision (d) of Section 437.10, the project was commenced prior to the effective date of this section and is being diligently pursued to completion; and

(4) The applicant has filed a notice of such project with the state department on forms supplied by the state department within 60 days of the effective date of this section.

For the purposes of this subdivision, "project" shall mean any project set forth in Section 437.10, and the term "financial obligation" shall include cost factors set forth in the definition of "capital expenditure" in Section 437.10.

Within 120 days of the effective date of this section, the state department shall determine in public hearing which applications are entitled to an exemption under this subdivision.

(b) In addition, the state department shall exempt from the

provisions of Sections 438 to 438.13, inclusive, and shall issue a certificate of need for those projects where the applicant has shown and the director has found that:

(1) The project is necessary solely to replace health care services that are no longer available at the facility because of a disaster or other emergency; or

(2) The project is solely for the purpose of complying with requirements of law or regulations; or

(3) The project was the subject of an application submitted to an area health planning agency prior to the effective date of this section. Such applications shall be processed and decided in the manner prescribed by this part as it existed immediately prior to the operative date of this section, except that any petition for appeal of a decision or lack of decision of such an area health planning agency rendered after the effective date of this section shall be made directly to the Advisory Health Council.

(c) A certificate of exemption issued pursuant to this section or Section 1268 shall for all purposes have the same effect as a certificate of need issued pursuant to this part.

SEC. 10. Section 437.12 is added to the Health and Safety Code, to read:

437.12. Taking into consideration the basis for decision set forth in Section 437.9:

(a) The state department may in individual cases, grant certificates of need for projects with respect to which it determines that one of the following is applicable:

(1) The applicant has provided evidence that the project will meet the needs or reasonably anticipated needs of a special population including members of a religious body or denomination who desire to receive care and treatment in accordance with their religious convictions.

(2) The applicant has provided evidence that the project is or will be necessary to meet the health needs or reasonably anticipated health needs of adult residents of a nonprofit community care facility, as defined by subdivision (a) of Section 1502, which is owned by the applicant.

(3) The applicant has provided evidence that, as a health facility, it has developed community support for its services as indicated by its current utilization patterns, and has provided health care services for at least five years.

(4) The applicant has provided evidence, when the project is for a new health facility or an increase in bed capacity, that there will be an equal or greater reduction in bed capacity in other health facilities in the area.

Nothing in this subdivision shall require the state department to grant certificates of need as authorized by this section in any of the above categories.

(b) The state department shall grant certificates of need for projects where the applicant has shown and the director has found

that the predominant use of the project is, or will be, by members of a comprehensive group practice prepayment health care service plan, that the project will meet the needs or reasonably anticipated needs of such members, and the beds or services to be provided are not available to the applicant from nonplan providers; provided, that the director shall not issue a certificate of need pursuant to this subdivision if he finds that the project will result in a substantial increase in health care costs in the community.

For the purposes of subdivision (b), health facility beds or services shall not be considered available if they are dispersed in several facilities, not available on a long-term contractual basis, not available under circumstances which would grant full and equal staff privileges to an adequate number of plan physicians in appropriate specialties, or, in general, where the state department determines the beds or services are not available in a manner which is economically and clinically feasible to the plan.

In order to qualify under this section, a project shall be for or be at a health facility which accommodates at least 50 physicians located therein, or immediately adjacent thereto. Such physicians shall be in group practice and provide at least 75 percent of the medical services they deliver to members of the comprehensive group practice prepayment health care service plan. which exceeds a cost of one hundred fifty thousand dollars ($150,000), unless a certificate of need has been obtained for such remodeling or replacement of such special service.

For all purposes, including those specified in Section 14105.5 of the Welfare and Institutions Code and in Section 1268 of this code, it shall be deemed that a certificate of need has been issued for such a proposal.

Health facilities desiring an exemption under this section shall, pursuant to regulations of the state department, submit an application and plans to the state department. The state department shall inform the applicant in writing of its determination as to eligibility of the applicant's proposal for such exemption within 60 calendar days of receipt of the application. otherwise provided in this part, shall be accompanied by a fee. Such fee shall be determined annually by regulation of the director and shall be set forth in a schedule differentiating by type and cost of project, as determined by the director. The director shall establish such fees so that in the aggregate they will defray costs of processing certificate of need applications which are not otherwise defrayed by the special fees charged pursuant to Section 439. A copy of any filed application shall be furnished to any person upon request and payment of a reasonable fee, to be established by the state department in an amount sufficient to defray the costs of reproduction.

A completed application may be amended or withdrawn by the applicant at any time without prejudice, but any amendment to an application, except as the state department and the applicant may otherwise agree, shall cause the amended application to be treated as a new application for purposes of the time limits prescribed by this article and for the determination of the amount of the fee. If the state department determines that the application is incomplete, it shall so notify the applicant and the appropriate area health planning agency within 15 calendar days of the receipt of the application, advising the applicant of the additional information required. After such notice, the application shall not be deemed filed until a complete application is received by the state department. If the notice that the application is incomplete is not given within 15 calendar days, the application shall be deemed complete and the state department shall thereupon proceed with its review. When the application is originally filed, the state department shall promptly publish notice of its filing in a newspaper of general circulation in the geographical area to be served by the project.

The state department may refuse to grant a certificate of need where the applicant has failed to file a notification of intent to apply for a certificate of need pursuant to this section. The petition shall set forth the nature of the pending proceedings, the name and address of the witness whose testimony is desired, a showing of the materiality of the testimony, and shall request an order requiring the witness to appear and testify before an officer named in the petition for that purpose. Where the witness resides outside the state and where the agency has ordered the taking of the testimony by deposition, the agency shall obtain an order of court to that effect by filing a petition therefor in the superior court in Sacramento County. The

proceedings thereon shall be in accordance with the provisions of Section 11189 of the Government Code. The provisions of this subdivision shall have no force or effect on and after two years following the effective date of this section.

(c) The state department shall make a final decision on an application within 15 calendar days after the conclusion of the public hearing at which the application was considered and shall make its findings public. The decision shall either approve the application, approve it with modifications, reject it, or approve it with conditions mutually agreed upon by the applicant and the state department. Failure of the state department to render a decision within such time shall be deemed approval of the application and the state department shall issue a certificate of need for the project described in the application. The failure of any applicant to fulfill the conditions under which the certificate of need was granted shall constitute grounds for revocation of such certificate of need.

(d) Notice of the substance of the state department's decision shall be published in a newspaper of general circulation within the area served by the area health planning agency which reviewed the application, within 10 calendar days following the decision. If the decision differs from the recommendation of the area health planning agency, the state department shall submit to the area health planning agency a detailed, explanatory statement.

In addition, the state department may assess and collect a civil penalty from any person undertaking such a project without a certificate of need. For projects requiring a certificate of need pursuant to subdivision (a) of Section 437.10, the civil penalty shall not be more than five thousand dollars ($5,000). In addition, the council shall send copies of such notice to the applicant, the state department, the area health planning agency, and any person requesting such notice.

The exception provided for in the preceding sentence with respect to applications filed prior to January 1, 1970, except for transfers executed before November 30, 1970 or after July 1, 1971, shall not apply to transferees of the applications of the original applicants.

Voluntary area health planning agencies may extend, until July 1, 1972, the date upon which applicants, qualifying under the exception in this section, shall commence construction, if the voluntary area health planning agencies declare that good cause has been shown why such extension should be granted, provided that an applicant applying for such extension had, prior to January 1, 1970, received approval of a health planning association in the county wherein the applicant is located. Applicants receiving extension of the construction commencement date shall have on file with the State Department of Health a notarized affidavit from the building department having jurisdiction indicating that substantial progress on the approved project was attained by January 1, 1974, and have on file with the county recorder and State Department of Health a valid notice of construction completion indicating January 1, 1975, as

the completion date; except that the State Department of Health shall extend each of the foregoing dates by no more than a total of one year in the case of projects where good cause has been shown why such extension should be granted.

(a) For the purposes of this section, "substantial progress" is defined and evidenced as follows:

(1) For structures of three or fewer stories, completion of the foundations and footings; the structural frame; the mechanical, electrical, and plumbing rough-in; the rough flooring; the exterior walls and windows; and the finished roof.

(2) For structures of more than three stories, a contractor's schedule of work shall be filed with the State Department of Health by January 1, 1973. Every three months thereafter, until completion, evidence shall be submitted to the department that construction is progressing on that schedule.

(b) For the purposes of this section, construction of a project is deemed commenced on the date the applicant was so notified by the State Department of Health, if so notified, or on the date the applicant has completed not less than all of the following:

(1) Submission to the appropriate state agency of a written agreement executed between the applicant and a licensed general contractor to construct and complete the facility within a designated time schedule in accordance with final architectural plans and specifications approved by such agency.

(2) Obtaining such initial permits or approval for commencing work on the project as is customarily issued for projects of the scope of applicant by the governmental agency having jurisdiction over the construction.

(3) Completion of construction work on the project to such a degree as to justify and require a progress payment by the applicant to the general contractor under terms of the construction agreement.

SEC. 41.3. Section 14105.6 is added to the Welfare and Institutions Code, to read:

14105.6. No health facility licensed under the provisions of Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code shall be entitled to receive, or shall receive, any payment whatsoever from the director, or from any prepaid health plan, for any services rendered to any Medi-Cal program beneficiary if the health facility has commenced construction of a project after January 1, 1977, and the health facility has failed to obtain a certificate of need covering such project issued pursuant to Part 1.5 (commencing with Section 437) of Division 1 of the Health and Safety Code. Upon commencement of such a project, or as soon thereafter as possible, the director or the prepaid health plan shall notify the facility in writing of termination of all payments for any services rendered in any portion of the facility after 30 days from the date the notice is mailed.

For the purposes of this section, a "project" shall mean any project

for which a certificate of need is required pursuant to Part 1.5 (commencing with Section 437) of Division 1 of the Health and Safety Code.

SEC. 41.5. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 41.7. The changes in Part 1.5 (commencing with Section 437) of Division 1 of the Health and Safety Code and in Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code made by this act shall become operative on the effective date of this act; except that if regulations are not adopted pursuant to Section 437.6 within 90 days after the effective date of this act, Part 1.5 (commencing with Section 437), except Section 437.5, shall not be operative until the date upon which such regulations are filed with the Secretary of State.

SEC. 41.9. The Legislature finds and declares that the addition of Section 14105.6 of the Welfare and Institutions Code shall not be considered when interpreting Section 14105.5; and, further, that the addition of Section 14105.6 shall not be construed as indicating an intent to either change existing law or to restate such law without change, with respect to the question of whether a health facility which violated the terms of Section 14105.5 is entitled to any Medi-Cal reimbursement at all or whether it may continue to receive some proportionate payment for services rendered to Medi-Cal beneficiaries.

The Legislature further declares, however, that the addition of Section 14105.6 to the Welfare and Institutions Code is for the purpose of denying all Medi-Cal reimbursement to any health facility where such health facility has failed to obtain a certificate of need pursuant to Part 1.5 (commencing with Section 437) of Division 1 of the Health and Safety Code and that such a facility shall be entitled to no Medi-Cal payments of any kind, including payments which are less than or some proportion of the payment which would normally be received.

SEC. 42. The sum of five hundred thousand dollars ($500,000) is hereby appropriated, without regard to fiscal year, from the General Fund to the State Department of Health for allocation to area health planning agencies pursuant to Section 439.5 of the Health and Safety Code, as added by Section 32 of this act.

SEC. 43. The sum of seventy-five thousand dollars ($75,000) is hereby appropriated from the General Fund to the State Controller for allocation and disbursement to local agencies pursuant to Section 2231 of the Revenue and Taxation Code to reimburse such agencies for costs incurred by them pursuant to this act, provided that if federal funds are no longer available to offset all or part of such allocations and disbursements, such local agencies shall not be subject to the fees set forth in Section 438.2 or Section 438.12 of the

Health and Safety Code, or the health facility assessment set forth in Section 439 of the Health and Safety Code.

SEC. 44. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure that certain requirements relating to health facility construction or conversion continue without interruption until such time as P.L. 93-641 is implemented by state enabling legislation, and in order that area health planning agencies may continue to be funded without interruption, it is necessary that this act take effect immediately.

CHAPTER 855

An act to add Section 373 to the Education Code, relating to educational testing.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 373 is added to the Education Code, to read:

373. (a) The Department of Education shall report the test results of all state-mandated testing programs to the individual school districts by not later than September 15th following the testing.

(b) The district superintendent may publicly report the results of a state-mandated testing program as they affect the district at the first regularly scheduled meeting of the governing board of the district after the statewide results have been presented to the State Board of Education.

CHAPTER 856

An act to amend Section 8575 of, to add Sections 8573, 8574, and 8574.5 to, and to repeal Sections 8573 and 8574 of, the Education Code, relating to courses of study, and making an appropriation therefor.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that pupils matriculating through the public school system acquire the knowledge, skills, and confidence required to function effectively in contemporary society.

The Legislature finds that high school graduation requirements are generally related to "seat time" and tied to college entrance requirements. The Legislature further finds that pupils currently graduating from the public schools may lack competence in essential communication and computation skills, and the confidence that they can cope successfully with a complex, contemporary society.

It is the intent and purpose of the Legislature, by the provisions of this act, to ensure the development of clearly defined proficiency standards in communication and computation skills for pupils graduating from public secondary schools. It is the purpose of this act to ensure early identification of pupils lacking competence in basic communication and computation skills, so that such pupils can be provided with repeated opportunities to achieve prescribed standards of proficiency. It is the further purpose of this act to provide students with opportunities to utilize community education resources and to test their abilities in a variety of educational settings.

SEC. 2. Section 8573 of the Education Code is repealed.

SEC. 3. Section 8573 is added to the Education Code, to read:

8573. The governing board of any school district maintaining a high school shall prescribe courses of study designed to provide the skills and knowledge required for adult life for pupils attending the schools within its school district. The governing board shall prescribe separate courses of study, including, but not limited to, a course of study designed to prepare prospective students for admission to state colleges and universities and a course of study for vocational training.

SEC. 4. Section 8574 of the Education Code is repealed.

SEC. 5. Section 8574 is added to the Education Code, to read:

8574. No pupil shall receive a diploma of graduation from high school who has not completed the course of study prescribed by the governing board. Requirements for graduation shall include:

(a) English.

(b) American history.

(c) American government.

(d) Mathematics.

(e) Science.

(f) Physical education, unless the pupil has been exempted pursuant to the provisions of this code.

(g) Such other subjects as may be prescribed.

The governing board, with the active involvement of parents, administrators, teachers, and students, shall adopt alternative means for students to complete the prescribed course of study which may include practical demonstration of skills and competencies, work experience or other outside school experience, interdisciplinary study, independent study, and credit earned at a postsecondary institution. Requirements for graduation and specified alternative

modes for completing the prescribed course of study shall be made available to students, parents, and the public.

SEC. 6. Section 8574.5 is added to the Education Code, to read:

8574.5. The governing board of any school district maintaining a junior or senior high school shall, by June 1, 1978, adopt standards of proficiency in basic skills for students attending schools within its school district. Governing boards maintaining junior high schools located within a high school district shall adopt those standards of proficiency in basic skills adopted by the high school district. Standards of proficiency shall include, but not necessarily be limited to, reading comprehension, writing, and computation skills and shall be such as will enable individual achievement and ability to be ascertained and evaluated. The governing board may use academic standards for graduation distributed by the State Board of Education pursuant to Section 8575 for this purpose. Subsequent to June 1980, no pupil shall receive a diploma of graduation from high school who has not met the standards of proficiency in basic skills prescribed by the governing board. The governing board may adopt differential standards of proficiency in basic skills for pupils with diagnosed learning disabilities.

The governing board shall take appropriate steps to ensure that individual pupil progress towards proficiency in basic skills is assessed during the regular instructional program at least one time during the seventh through ninth grade experience and at least two times during the 10th through 11th grade experience, provided that the progress of any pupil who demonstrates proficiency in basic skills need not be reassessed. The governing board may use performance indicators distributed by the State Board of Education pursuant to Section 8575 for the purpose of conducting such individual pupil assessments.

In the case of a pupil who does not meet district prescribed standards in basic skills, an appropriate school official shall arrange a conference between the pupil, the principal or the principal's designee, the parent or guardian and, whenever practicable, a teacher familiar with the pupil's progress to discuss the results of the individual pupil assessment and the need for instruction in basic skills. The pupil and the parent or guardian shall be requested, in writing, to attend such conference. Within five days of the time such written request is postmarked, the school shall make a reasonable effort to contact the parent or guardian by telephone to communicate directly the information contained in the written request.

Instruction in basic skills shall be provided for any student who does not meet established proficiency standards in basic skills and shall continue until the pupil has been given repeated opportunity to achieve prescribed standards of proficiency.

SEC. 7. Section 8575 of the Education Code is amended to read:

8575. The State Board of Education shall, by February 1, 1978, prepare, and distribute to each school district maintaining a junior

high school or a high school for its consideration, examples of minimum academic standards for graduation, including performance indicators. These examples shall be provided solely to assist each school district in the development of its own minimum academic standards for graduation and standards of proficiency in basic skills as required by Section 8574.5.

The State Board of Education shall, by February 1, 1978, prepare and distribute to each school district maintaining a junior high school or high school for its consideration, a framework for assessing pupil proficiency in reading comprehension, writing and computation skills. Such framework shall include a range of assessment items in each skill area, in order to enable a school district to select items consistent with standards of proficiency in basic skills adopted by the district governing board pursuant to Section 8574.5. The assessment framework shall be provided solely to assist each school district in the development of its own pupil assessments as required pursuant to Section 8474.5.

Nothing in this section shall be construed to authorize or require the State Board of Education to adopt statewide minimum academic standards for graduation from high school.

SEC. 7.5. Section 8575 of the Education Code is amended to read:

8575. (a) The State Board of Education shall, by April 1, 1977, prepare, and distribute to each school district maintaining a junior high school or high school for its consideration, examples of minimum academic standards for graduation including performance indicators. The Department of Education shall include in this distribution the criteria utilized in developing standards of competency in basic skills pursuant to subdivision (b) of Section 12603 and representative examples of items used to test the attainment of such standards. These examples shall be provided solely to assist each school district in the development of its own minimum academic standards for graduation and standards of proficiency in basic skills as required by Section 8574.5.

(b) The State Board of Education shall, by February 1, 1978, prepare and distribute to each school district maintaining a junior high school or high school for its consideration, a framework for assessing pupil proficiency in reading comprehension, writing and computation skills. Such framework shall include a range of assessment items in each skill area, in order to enable a school district to select items consistent with standards of proficiency in basic skills adopted by the district governing board pursuant to Section 8574.5. The assessment framework shall be provided solely to assist each school district in the development of its own pupil assessments as required pursuant to Section 8474.5.

(c) Nothing in this section shall be construed to authorize or require the State Board of Education to adopt statewide minimum academic standards for graduation from high school.

SEC. 8. The sum of one hundred seventy-five thousand dollars

($175,000) is hereby appropriated from the General Fund to the Department of Education for the purpose of preparing and distributing the framework for assessing pupil proficiency required by Section 8575 of the Education Code.

SEC. 9. Commencing with the 1978–79 fiscal year, the sum of two hundred twenty-four thousand dollars ($224,000) is hereby appropriated from the General Fund to the State Controller for allocation and disbursement to local agencies pursuant to Section 2231 of the Revenue and Taxation Code to reimburse such agencies for costs incurred by them in notifying pupils and the parents and guardians thereof pursuant to Section 8574.5 of the Education Code.

SEC. 10. Except as provided in Section 9 of this act, and notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no additional reimbursement pursuant to this act nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities by this act are such that related costs are incurred as a part of their normal operating procedures.

SEC. 11. It is the intent of the Legislature, if this bill and Assembly Bill No. 2725 are both chaptered and become effective January 1, 1977, both bills amend Section 8575 of the Education Code, and this bill is chaptered after Assembly Bill No. 2725, that Section 8575 be amended in the form set forth in Section 7.5 of this act. Therefore, Section 7.5 of this act shall become operative only if this bill and Assembly Bill No. 2725 are both chaptered and become effective January 1, 1977, both amend Section 8575, and this bill is chaptered after Assembly Bill No. 2725, in which case Section 7 of this act shall not become operative.

The secretary shall cause notice of a time and place of hearing thereon to be published, pursuant to Section 6066 of the Government Code, prior to the date set for hearing, in a newspaper of general circulation printed and published within the district if there is one, and if not, then in such paper printed and published in the county, and shall cause a notice in writing to be mailed, prior to the date set for hearing, to each person to whom a parcel of real property described in such charge is assessed on the last equalized assessment role. Such notice shall be mailed to the address shown on the last equalized assessment role or known to the secretary. At that time, stated in the notice, the board shall hear and consider all objections or protests, if any, to the resolution referred to in the notice and may continue the hearing from time to time. Upon the conclusion of the hearing, the board may adopt, revise, change, reduce, or modify a charge or overrule any and all objections. The board shall make a determination upon each assessment or charge as described in the resolution, which determination shall be final.

(e) The ordinance fixing a charge may establish schedules which vary the charges according to the benefit conferred by virtue of the availability of a flood control or drainage system to land.

(f) On or before August 15 of each fiscal year in which a charge is to be collected, the board shall furnish in writing to the board of supervisors and the county auditor a description of each parcel of

(h) All county officers charged with the duty of collecting taxes shall collect district charges with the regular tax payments to the county. Such charges shall be collected in the same form and manner as county taxes are collected and shall be paid to the district.

(i) Charges fixed by the district shall be a lien on all the property benefited thereby. Liens for such charges shall be of the same force and effect as other liens for taxes, and their collection may be enforced by the same means as provided for the enforcement of liens for state and county taxes.

SEC. 2. Section 17.6 is added to the San Diego County Flood Control District Act (Chapter 55 of the Statutes of 1966, First Extraordinary Session), to read:

Sec. 17.6. CHAPTER 859

An act to amend Section 15 of the Los Angeles County Flood Control Act (Chapter 755 of the Statutes of 1915), relating to the Los Angeles County Flood Control District.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15 of the Los Angeles County Flood Control Act (Chapter 755, Statutes of 1915) is amended to read:

Sec. 15. All contracts for any improvement or unit of work, except as hereinafter provided, estimated to cost in excess of twenty-five thousand dollars ($25,000), shall be let to the lowest responsible bidder in the manner hereinafter provided. The said board of supervisors of said district shall advertise by five or more insertions in a daily newspaper of general circulation, or by two or more insertions in a weekly newspaper of general circulation, printed and published in said district, inviting sealed proposals for the construction of the improvement or work. The said board shall require the successful bidder or bidders to file with the board good and sufficient bonds, to be approved by the board, conditioned upon the faithful performance of the contract and upon the payment of all claims for labor and material in connection therewith, such bonds to contain the terms and conditions set forth in Chapter 7 (commencing with Section 3247) of Title 15 of Part 4 of Division 3 of the Civil Code and to be subject to the provisions of that chapter, and shall also have the right to reject any and all bids not suitable to the best interests of the district. In the event all proposals are rejected or no proposals are received pursuant to advertisement therefor, or the estimated cost of such work does not exceed the sum of ten thousand dollars ($10,000), or the work consists of channel protection, dam protection, temporary work, maintenance work, or of emergency work when necessary in order to protect life and property from impending flood damage, the board of supervisors may, without advertising for bids therefor, have said work done by force account. Emergency work, found by the board of supervisors to be necessary in order to protect life and property from impending

03536 289265 702

flood damage, may also be done by negotiated contract without advertising for bids therefor.

It shall be the duty of the purchasing agent of Los Angeles County, and ex officio the purchasing agent of Los Angeles County Flood Control District, unless otherwise ordered by the board of supervisors, to purchase for the district all materials, supplies, equipment and other personal property necessary to carry out the purposes of this act, except emergency purchases, and to engage independent contractors to perform sundry services for the district, where the aggregate cost of such work, exclusive of materials to be furnished by the district, does not exceed twenty-five thousand dollars ($25,000). Said purchasing agent shall make all such purchases and contracts upon proper requisition therefor, signed by the chief engineer of the district.

Any improvement for which bonds are voted under the provisions of this act, shall be made in conformity with the report, plans, specifications and map theretofore adopted, as above specified, unless the doing of any such work described in said report shall be prohibited by law, or be rendered contrary to the best interests of said district by some change of conditions in relation thereto, in which event said board of supervisors may, by vote of four-fifths of all the members thereof, order necessary changes made in such proposed work or improvements, and may cause new plans and specifications to be made and adopted therefor.

Any work or improvement provided for in this act may be located, constructed and maintained in, along or across any public road or highway in the County of Los Angeles, in such manner as to afford security for life and property, but the said board of supervisors of said district shall restore or cause to be restored such road or highway to its former state as near as may be, so as not to impair its usefulness.

The plans and specifications for any work proposed to be done, or improvements to be made, under this act, in any municipality in said district shall first be approved by the legislative body of such municipality before the commencement of such work or improvements, and before any contract shall be let therefor; provided, that in the event such legislative body shall refuse or neglect to approve the said plans and specifications for such work or improvement within 30 days after being requested by said board of supervisors so to do, then said board of supervisors shall omit the doing of such work or making of such improvements within such municipality, and such omission shall not affect the validity of its proceedings under this act, and the funds which were to be expended for such proposed work or improvement in said municipality may be expended elsewhere by said board of supervisors for carrying out the purposes of this act.

SEC. 2. Section 190.9 of the Probate Code is amended to read:

190.9. Any interest created prior to the effective date of this chapter which has not been accepted, may be disclaimed on or after August 16, 1972, in the manner provided herein; provided, however, that no interest which has arisen prior to the effective date of this chapter in any person other than the beneficiary, shall be destroyed or diminished by any action of the disclaimant taken pursuant to this chapter.

SEC. 3. Section 1120 of the Probate Code is amended to read:

1120. (a) Except as otherwise provided in subdivision (c), when a trust created by a will continues after distribution, the superior court shall not lose jurisdiction of the estate by final distribution, but shall retain jurisdiction for the purpose of determining to whom the property shall pass and be delivered upon final or partial termination of the trust, to the extent that such determination is not concluded by the decree of distribution, of settling the accounts and passing upon the acts of the trustee, of authorizing the trustee to accept additions to the trust from sources other than the estate of the decedent, and for the other purposes hereinafter set forth. Any trustee appointed by will, or appointed to execute a trust created by will, may, from time to time pending the execution of his trust, or at the termination thereof, render for settlement his accounts and report his acts as such trustee, before the superior court in which the will was probated. For that purpose, the trustee shall present to the court his verified account and report, setting forth his accounts in detail, reporting his acts as trustee, and showing the condition of the trust estate. If the trustee dies or becomes incompetent, such account and report shall be presented by the trustee's executor, administrator, guardian or conservator. In the event the trustee dies or becomes incompetent, and there is no executor, administrator, guardian, or conservator appointed for the trustee's estate, or in the event the trustee absconds, the court may compel the attorney for such deceased, incompetent, or absconding trustee to present such account and report to the extent that the attorney has information or records available for that purpose. The account and report of the attorney need not be verified. A fee shall be allowed to the attorney by the court for this service.

The trustee may also petition such court, from time to time, for instructions as to the administration of the trust for authority to accept additions to the trust from any source or sources other than the estate of the decedent, and for authority to exercise the powers authorized by Section 1120.2 of this code. The court may hear any such petition and instruct or authorize the trustee by order rendered before or after any distribution to him. When the trustee files any such petition before any distribution of the estate to him, he shall, in addition to any other notice required, cause notice of the hearing to be mailed to the personal representative and shall further cause notice of the hearing to be mailed to all persons, including heirs,

legatees and devisees, at their last known address, to whom the court may order such notice given, and shall, upon filing the petition and before giving notice thereof, secure from the court an order designating the persons in addition to the personal representative and the beneficiaries to whom the court requires that notice be given, or an order that notice to the personal representative and the beneficiaries is the only notice that shall be required.

When it appears from the allegations of the petition that the trustee seeks instructions to exercise a power not conferred upon him or seeks authority to exercise the powers authorized by Section 1120.2, the petition shall set forth the particulars of and the necessity for the action sought to be taken.

The clerk shall set the hearing upon the account and report or petition for settlement or instructions and give notice thereof for the period and in the manner required by Section 1200 of this code. The trustee shall cause notice of the hearing to be mailed to the beneficiaries, including all persons in being who shall or may participate in the corpus or income of the trust, at their last known addresses, as provided in said Section 1200, whether they have requested special notice or given notice of appearance or not. In addition to the above notice, when the petition relates to the exercise of a power not conferred or seeks authority to exercise the powers authorized by Section 1120.2, a copy of the petition shall be attached to and mailed with copies of the notice which are mailed and the court or judge shall, at least 10 days before such return day, appoint a suitable person who shall appear and act as guardian ad litem of any person or persons of a designated class, who are not ascertained, or who are not in being, and who may become beneficiaries or may so participate in the trust. None of the provisions of Section 373 of the Code of Civil Procedure shall apply to such appointment.

(b) In addition to the provisions of subdivision (a), the personal representative of the decedent's estate, prior to final distribution, or the trustee, beneficiary, or remainderman, before or after final distribution, may petition the superior court to amend or conform the trust provisions of the decedent's will in the manner required to qualify the decedent's estate for the charitable estate tax deduction permitted by federal law. Such petition may include a request to add to the trust provisions of the decedent's will the mandatory governing instrument requirements for a charitable remainder trust as required by final regulations and rulings of the United States Internal Revenue Service. Notice of such petition shall be given to the Attorney General. No amendment or conformation may be ordered by the court without having first received written agreement to the proposed changes or disclaimer of interest from all interested parties in the trust. The entry into such agreement shall not be construed to be a contest under any provisions of the will prohibiting the same. The existence of a spendthrift or similar protective provision in the trust shall not make this subdivision inapplicable to such trust.

03799 289340 717

(c) Unless the testator provides otherwise in the will, a trust created by a will executed on or after July 1, 1977, shall not be subject to the continuing jurisdiction of the superior court, however Article 2 (commencing with Section 1138) of this chapter shall be applicable to the trust to the extent that the will or the article does not provide otherwise.

SEC. 4. Section 1138.13 of the Probate Code is amended to read:

1138.13. This article shall apply to all trusts created prior to, or on, or after the operative date of this article. However, this article shall not apply to any trust the terms and provisions of which expressly or by necessary implication make this article inapplicable to such trust.

CHAPTER 861

An act to amend Section 14311.5 of the Government Code and Section 1771 of the Labor Code, relating to public works.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 14311.5 of the Government Code is amended to read:

14311.5. In all state projects where federal funds are involved, no bid submitted or contract thereafter awarded shall be invalidated by the failure of the bidder or contractor to be properly licensed in accordance with the laws of this state, nor shall any such contractor be denied payment under any such contract because of such failure; provided, however, that the first payment for work or material under such contract shall not be made by the State Controller unless and until the Registrar of Contractors certifies to him that the records of the Contractors State License Board indicate that such contractor was or became properly licensed between the time of bid opening and the making of the certification. Any bidder or contractor not so licensed shall be subject to all legal penalties imposed by such laws, including but not limited to any appropriate disciplinary action by the Contractors State License Board. The department shall include a statement to that effect in the standard form of prequalification questionnaire and financial statement.

SEC. 2. Section 1771 of the Labor Code is amended to read:

1771. Except for public works projects of five hundred dollars ($500) or less, not less than the general prevailing rate of per diem wages for work of a similar character in the locality in which the public work is performed, and not less than the general prevailing rate of per diem wages for holiday and overtime work fixed as provided in this chapter, shall be paid to all workmen employed on public works.

This section is applicable only to work performed under contract, and is not applicable to work carried out by a public agency with its own forces. This section is applicable to contracts let for maintenance work.

CHAPTER 862

An act to add Section 75025.1 to the Government Code, relating to the Judges' Retirement Law.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 75025.1 is added to the Government Code, to read:

75025.1. A judge whose service is discontinued by the expiration of his term of office and who is otherwise eligible to retire under this chapter may file the notice of retirement provided for in Section 75025 or an election to retire under Section 75033.5 within 90 days after such termination, which notice or election shall be effective as though filed at the close of his term.

CHAPTER 863

An act to amend Section 11251 of the Education Code, relating to public schools.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 11251 of the Education Code is amended to read:

11251. (a) In computing the average daily attendance of a school district, there shall be included only the attendance of pupils while engaged in educational activities required of such pupils and under the immediate supervision and control of an employee of the district who possessed a valid certification document, registered as required by law, authorizing him to render service in the capacity and during the period in which he served. For the purposes of computing the average daily attendance of students enrolled in kindergarten or any of grades 1 through 12 in a school district, attendance shall also include pupil attendance and participation in an independent study program under the coordination, evaluation, and general, but not

immediate, supervision of an employee of the district who possessed a valid certification document. The nature, manner, and place of conducting any independent study program shall be determined by the school district pursuant to rules and regulations adopted by the State Board of Education and shall be an integral part of any decision pursuant to Section 10605.1 to suspend the expulsion action of the board. The school district shall ensure that the components of each individual study program for each individual pupil shall be set out in writing. A pupil enrolled in an independent study program shall not be credited with more than one day of attendance in any calendar day, and shall be enrolled in a school program for which Section 11005, 11008, or 11052 provides for the minimum schoolday. For purposes of computing the average daily attendance of a community college district, attendance shall also include student attendance and participation in approved coordinated instruction systems programs of instruction using television, computer-assisted instruction, automated audiovisual systems, programmed learning materials, and other similar teaching techniques, under the coordination and evaluation of an employee who possessed an appropriate certification document, but not requiring the immediate supervision of such employee. Approved coordinated instruction systems programs of instruction are those recommended by the governing board of the district maintaining the community college and approved by the Board of Governors of the California Community Colleges. One student contact hour is to be counted for each unit of coordinated instruction systems credit in which a student is enrolled during any census period. The state aid apportionment made by the board of governors shall not be greater than one-half the current costs of conducting approved coordinated instruction systems programs of instruction. Coordinated instruction systems programs of instruction shall be conducted by employees of the district who possess valid credentials or certification documents, who shall determine the need for immediate supervision of the programs of instruction. Such employees shall evaluate individual student progress and assign appropriate grades for students enrolled in classes taught by the coordinated instruction systems programs of instruction.

(b) For the purpose of work experience education programs in the secondary schools meeting the standards of the California State Plan for Vocational Education, "immediate supervision" of off-campus work training stations means pupil participation in on-the-job training as outlined under a training agreement, coordinated by the school district under a state-approved plan, wherein the employer and certificated school personnel share the responsibility for on-the-job supervision. The pupil-teacher ratio in any such work experience program shall not exceed 125 students per full-time equivalent certificated coordinator. A pupil enrolled in such work experience program shall not be credited with more than one day of attendance in any calendar day, and shall be a full-time

student enrolled in regular classes meeting the requirements set forth in Section 11052 or 11055.

(c) For purposes of computing the average daily attendance of a community college district, attendance shall also include student attendance and participation in in-service training courses in the areas of police, fire, corrections, and other criminal justice system occupations that conform to all apportionment attendance and course of study requirements otherwise imposed by law; provided that such courses are fully open to the enrollment and participation of the public pursuant to subdivision (2) of Section 5753; and provided further, that prerequisites for such courses shall not be established or construed so as to prevent academically qualified persons not employed by agencies in the criminal justice system from enrolling in and attending such courses.

(d) In the event that certain in-service training courses are restricted to employees of police, fire, corrections, and other criminal justice agencies, attendance for such restricted courses shall not be reported for purposes either of state apportionments or district revenue limits computed pursuant to Sections 20935 and 20937. Notwithstanding the provisions of Section 5753, a community college district which restricts enrollment in such in-service training courses may contract with any public agency to provide compensation for the cost of conducting such courses.

(e) Positive records of student admissions and daily attendance in all in-service training courses in the areas of police, fire, corrections, and other criminal justice system occupations, as described in subdivision (c), shall be maintained by each district and shall be separately reported annually to the Chancellor's office of the California Community Colleges.

(f) For the purposes of the rehabilitative schools, classes, or programs described in Section 10605.1, "immediate supervision" in such schools, classes or programs means pupil participation in such programs wherein the person to whom the pupil is required to report for training, counseling, tutoring, or other prescribed activity shares the responsibility for the supervision of the pupils in the rehabilitative activities with certificated personnel of the district. Such programs shall be approved by the Department of Education and certified by the county superintendent of schools.

A pupil enrolled in a rehabilitative school, class, or program shall not be credited with more than one day of attendance in any calendar day.

CHAPTER 864

An act to amend Sections 12500 and 12525 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 12500 of the Welfare and Institutions Code is amended to read:

12500. The purpose of this chapter is to provide payment to meet the needs of recipients under Chapter 3 (commencing with Section 12000) of this part under emergency or special circumstances in the event that the federal government makes no provision for such payment or in the event that such payment from the federal government is lost, stolen or likely to be delayed beyond four days.

SEC. 2. Section 12525 of the Welfare and Institutions Code is amended to read:

12525. If the regular monthly check of a recipient under Chapter 3 (commencing with Section 12000) of this part is not received and the recipient does not receive a replacement of such check within four days after the normal delivery date of the check, excluding any days mail is normally not delivered, the county shall immediately loan the recipient the amount of his last monthly payment up to the amount of two hundred dollars ($200) until his check is received. The district attorney or other civil legal officer of the county may maintain an action to enforce repayment of the loan.

The county shall prepare the affidavit for the recipient.

CHAPTER 865

An act to repeal Section 23701r of, and to add Section 23701r to, the Revenue and Taxation Code, relating to taxation, tax levy, to take effect immediately.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 23701r of the Revenue and Taxation Code is repealed.

SEC. 2. Section 23701r is added to the Revenue and Taxation Code, to read:

23701r. (a) A political organization. However, a political organization shall be subject to tax under this part with respect to its "political organization taxable income" and such income shall be

subject to tax as provided by Chapter 3 (commencing with Section 23501) of this part.

(b) For purposes of this section, the political organization taxable income of any organization for any taxable year is an amount equal to the excess over one hundred dollars ($100) (if any) of—

(1) The gross income for the taxable year (excluding any exempt function income), over

(2) The deductions allowed by this part which are directly connected with the production of the gross income (excluding exempt function income).

(c) For purposes of this section, the term "exempt function income" means any amount received as—

(1) A contribution of money or other property,

(2) Membership dues, a membership fee or assessment from a member of the political organization, or

(3) Proceeds from a political fundraising or entertainment event, or proceeds from the sale of political campaign materials, which are not received in the ordinary course of any trade or business,

to the extent such amount is segregated for use only for the exempt function of the political organization.

(d) For purposes of this part, if any political organization—

(1) Contributes any amount to or for the use of any political organization which is treated as exempt from tax under subdivision (a) of this section,

(2) Contributes any amount to or for the use of any organization described in paragraph (1) or (2) of Section 509(a) of the Internal Revenue Code of 1954, which is exempt from tax under Section 23701, or

(3) Deposits any amount in the General Fund of the Treasury of the United States or in the General Fund of any state or local government,

such amount shall be treated as an amount not diverted for the personal use of the candidate or any other person. No deduction shall be allowed under this part for the contribution or deposit of any amount described in the preceding sentence.

(e) For purposes of this section—

(1) The term "political organization" means a party, committee, association, fund, (including the trust of an individual candidate) or other organization (whether or not incorporated) organized and operated primarily for the purpose of directly or indirectly accepting contributions or making expenditures, or both, for an exempt function.

(2) The term "exempt function" means the function of influencing or attempting to influence the selection, nomination, election, or appointment of any individual to any federal, state, or local public office or office in a political organization, or the election of Presidential or Vice Presidential electors, whether or not such individual or electors are selected, nominated, elected, or appointed.

The term "exempt function" also includes influencing or attempting to influence legislation or the qualification or passage of any measure, initiative, referendum or recall procedure in a local, state or federal election process.

(3) The term "contributions" has the meaning given to such term by paragraph (2) of subdivision (b) of Section 24434.

(4) The term "expenditures" has the meaning given to such term by paragraph (3) of subdivision (b) of Section 24434.

(f) (1) If an organization described in Sections 23701a through 23701p (except 23701d), or Section 23701s which is exempt from tax under Section 23701 expends any amount during the taxable year directly (or through another organization) for an exempt function (within the meaning of paragraph (2) of subdivision (e)), then, notwithstanding any other provision of law, there shall be included in the gross income of such organization for the taxable year, and shall be subject to tax under subdivision (a) as if it constituted political organization taxable income, an amount equal to the lesser of—

(A) The net investment income of such organization for the taxable year, or

(B) The aggregate amount so expended during the taxable year for such an exempt function.

(2) For purposes of this subdivision, the term "net investment income" means the excess of—

(A) The gross amount of income from interest, dividends, rents, and royalties, plus the excess (if any) of gains from the sale or exchange of assets over the losses from the sale or exchange of assets, over

(B) The deductions allowed by this part which are directly connected with the production of the income referred to in subparagraph (A).

For purposes of the preceding sentence, there shall not be taken into account items taken into account for purposes of the tax imposed by Section 23731 (relating to tax on unrelated business income).

(3) For purposes of this subdivision and paragraph (1) of subdivision (e), a separate segregated fund (within the meaning of Section 610 of Title 18 of the United States Code or of any similar state statute, or within the meaning of any state statute which permits the segregation of dues money for exempt functions, within the meaning of paragraph (2) of subdivision (e)) which is maintained by an organization described in Sections 23701a through 23701p or Section 23701s which is exempt from tax under Section 23701 shall be treated as a separate organization.

(g) (1) For purposes of this section, a fund established and maintained by an individual who holds, has been elected to, or is a candidate (within the meaning of Section 41(c)(2) of the Internal Revenue Code) for nomination or election to, any federal, state, or local elective public office for use by such individual exclusively for the preparation and circulation of such individual's newsletter shall,

except as provided in paragraph (2), be treated as if such fund constituted a political organization.

(2) In the case of any fund described in paragraph (1) the exempt function shall be only the preparation and circulation of the newsletter.

(h) The requirements set forth in subdivisions (a), (b) and (c) of Section 23701 shall not apply to a political organization or newsletter fund described in this section. However, in the case of a corporation incorporated or organized in this state or qualified to do business in this state, such corporation shall either pay the minimum tax provided in Section 23153 or obtain a certificate of exemption from the Franchise Tax Board before the corporation files with the Secretary of State its articles of incorporation or a duly certified copy thereof.

(i) The requirements set forth in Section 23772 or Section 23774 shall not apply to a political organization or newsletter fund. Further, the requirements set forth in Sections 18405, 18405.1 and 25401 shall not apply to a political organization or newsletter fund described in this section, except that if it has political organization taxable income for any taxable year, the political organization shall be required to file income tax returns or statements as determined by the Franchise Tax Board under Chapter 3 of this part.

SEC. 3. This act is a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect. However, the provisions of this act shall be applied with respect to taxable years beginning on or after January 1, 1976.

CHAPTER 866

An act to amend Section 10953 of the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 10953 of the Education Code is amended to read:

10953. (a) The total days of attendance of a pupil upon the schools and classes maintained by a school district, or schools or classes maintained by the county superintendent of schools during the fiscal year shall be the number of days school was actually taught for not less than the minimum schooldays during the fiscal year less the sum of his absences.

(b) The absence of a pupil from school or class shall not be deemed an absence in computing the attendance of a pupil if such

absence was:

(1) Due to his illness, or

(2) Due to quarantine under the direction of a county or city health officer, or

(3) For the purpose of having medical, dental, optometrical, or chiropractic services rendered, or

(4) For the purpose of attending the funeral services of a member of his immediate family, so long as such absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California, or

(5) For the purpose of jury duty in the manner provided for by law.

"Immediate family," as used in this subdivision, has the same meaning as that set forth in the last sentence of Section 13651.4 except that references therein to "employee" shall be deemed to be references to "pupil."

The provisions of this subdivision shall not apply in the case of pupils attending summer school, adult schools, and classes, or regional occupational centers and programs other than pupils concurrently enrolled in a regular high school program and a regional occupational center or program.

(c) The total days of attendance of a student in a regular full-time day community college during the fiscal year shall be the number of days actually taught for not less than the minimum college days during the fiscal year.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act pertaining to chiropractic care for students may be made applicable to student absences occurring during the 1976–77 school year, it is necessary for this act to go into immediate effect.

CHAPTER 867

An act to amend Section 25505.4 of the Education Code, relating to community colleges.

SECTION 1. Section 25505.4 of the Education Code is amended to read:

25505.4. (a) An interdistrict attendance agreement may be entered into between two districts specifying the terms and

03161 289565 762

(b) Tuition charges shall be not less than the apportionments provided by the state to the district of attendance because of attendance of students under the agreement nor shall such charges be more than would be computed as specified in subdivision (a) of Section 20201.

(c) A charge for use of buildings and equipment in the amount of three hundred dollars ($300) for 1976–77, two hundred dollars ($200) for 1977–78, and one hundred dollars ($100) for 1978–79 may be added to the amount computed pursuant to subdivision (a) of Section 20201. No charge may be made after 1978–79.

(d) If either district is within the first three years of its existence and has not acquired facilities from a preceding district, the charge for use of buildings and equipment specified in subdivision (c) shall not be charged to either district.

Interdistrict agreements calling for the payment of charges for the use of buildings and equipment which were in effect prior to July 1, 1976, may remain in effect, and may be renegotiated.

CHAPTER 868

An act to amend Section 3 of Chapter 1378 of the Statutes of 1965, relating to the Commission on the Status of Women.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

Sec. 3. (a) Public members of the commission shall receive fifty dollars ($50) per day per diem while on official business of the commission, not to exceed 12 days per year. Each member of the commission shall be entitled to receive actual necessary expenses while on official business of the commission.

(b) The commission shall select annually from its membership, a chairperson and vice chairperson.

CHAPTER 869

An act to add Section 55.1 to the Civil Code, Section 4458 to the Government Code, and Section 19958.5 to the Health and Safety Code, relating to the Department of Rehabilitation.

[Approved by Governor September 9, 1976. Filed with Secretary of State September 10, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 55.1 is added to the Civil Code, to read:

SEC. 2. Section 4458 is added to the Government Code, to read:

4458. The district attorney, the city attorney, or the Attorney General may bring an action to enjoin a violation of this chapter.

SEC. 3. Section 19958.5 is added to the Health and Safety Code, to read:

19958.5. The district attorney, the city attorney, the Department of Rehabilitation acting through the Attorney General, or the Attorney General may bring an action to enjoin a violation of this part.

CHAPTER 870

An act to add Sections 4143 and 4144 to the Public Resources Code, relating to fire prevention and control.

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 4143 is added to the Public Resources Code, to read:

4143. The Legislature hereby finds and declares that the maintenance of the economic well-being of the state and the public health and safety require that the state, through the division, obtain full utilization of all equipment, personnel, and buildings under the jurisdiction of the State Forester. In order to obtain these benefits, the State Forester, in accordance with policy determined by the board, may provide personnel for and operate such fire stations, statewide, as he deems necessary to provide the best possible fire protection. Personnel or equipment shall not be assigned to any location or assigned pursuant to Section 4144 if such an assignment would not meet policy and standards established by the board. Such

standards shall be designed to assure that the striking force and efficiency of the division in its primary mission of wildland fire protection will not be reduced or impaired. Such policy and standards shall be designed to assure that the division will not need any additional funds to operate its programs.

The normal assignment of fire resources of the division to southern California during periods of critical fire weather conditions or during major wildland fires shall not be impaired and shall receive priority over agreements made with specified counties pursuant to Section 4144.

SEC. 2. Section 4144 is added to the Public Resources Code, to read:

4144. Notwithstanding the provisions of Section 4142, the State Forester shall enter into a cooperative agreement with any county with a population of 100,000 or less, when any such county so requests, for the purpose of preventing and suppressing forest fires or other fires within the county, upon such terms and under such conditions as are mutually determined by the parties to be necessary or desirable to accomplish such purpose. Such cooperative agreement shall provide, in a reasonable manner, for the efficient utilization of necessary fire prevention and suppression related equipment, personnel, and buildings under the jurisdiction of the State Forester located in the county during that period of the year commonly designated as the "nonfire season". Such equipment, personnel, and buildings shall be limited to those owned or leased by the state, or their replacements, and to such equipment, personnel, and buildings used during the fire season to protect state responsibility areas. Whenever the cooperative agreement provides for the employment of personnel during the "nonfire season" who would be in addition to the personnel required for the necessary operation and maintenance, during the "nonfire season," of equipment and buildings under the jurisdiction of the State Forester, the full salaries and all benefits of such additional personnel shall be apportioned as costs to the county. The cooperative agreement shall also provide for a cost to the county and the state that reasonably reflects the cost apportionment between the county and the state pursuant to a cooperative agreement entered into by and between the State Forester and the county on or before June 30, 1972, pursuant to Section 4142, except that the nonfire mission salary rates for state personnel shall not be included in determining such cost apportionment, or, if the county has not so entered into such prior cooperative agreement, the State Forester shall use the cost apportionment figures available to him from any other county pursuant to this section. Any salary rates above the nonfire mission rate, including the difference between fire mission rate and nonfire mission rate total overtime pay at either regular or premium rate holiday pay, will be apportioned as costs to the county.

The State Forester shall establish a three-year pilot program to implement the provisions of this section. Upon the completion of

such three-year pilot program, the department shall submit a report to the Legislature on the cost and effectiveness of the program.

These provisions are necessary because sparsely populated rural counties lack the sufficient tax base to provide the necessary firefighting resources for year-round fire protection, and it is the intent of the Legislature that, pursuant to this section, fire protection will be provided until such time as a county has an adequate tax base to support its own fire protection.

CHAPTER 871

The Legislature finds and declares that improperly designed and installed electrified fences have caused injuries and in some instances have resulted in the deaths of persons, particularly children, coming into contact with the conductive elements thereof. In order to prevent further such accidents, it is the intent of the Legislature in enacting this chapter to provide for the study and development of safety standards for electrified fences.

Such standards shall at least prescribe

the maximum force or duration, or both the force and duration, of an electrical shock that such fences may be allowed to produce, so as to prevent serious injury to persons of normal health who accidentally come into contact with such a fence.

17153. The provisions of this chapter shall not be construed to preclude regulation of electrified fences by cities and counties, including, but not limited to, requiring the installation or use of electrified fences under permit.

In respect to life or disability insurance, or annuity contracts except as provided in Sections 1431 and 1510 of the Probate Code, heretofore or hereafter issued to or upon the life of any person not of the full age of 18 years for the benefit of such minor or for the benefit of the father, mother, husband, wife, child, brother, or sister, of such minor, or issued to such minor, subject to written consent of a parent or guardian, upon the life of any person in whom such minor has an insurable interest for the benefit of himself or such minor's father, mother, husband, wife, child, brother or sister, such minor shall not, by reason only of such minority, be deemed incompetent to contract for such insurance or annuity, or for the surrender thereof, or to exercise all contractual rights thereunder, or, subject to approval of a parent or guardian, to give a valid discharge for any benefit accruing or for any money payable thereunder; provided, that all such contracts made by a minor under the age of 16 years, as determined by the nearest birthday, shall have the written

consent of a parent or guardian, and that the exercise of all contractual rights under such contracts, or the surrender thereof, or the giving of a valid discharge for any benefit accruing or money payable thereunder, in the case of a minor under the age of 16 years, as determined by the nearest birthday, shall have the written consent of a parent or guardian.

All such contracts made by a minor not of the full age of 18 years which may result in any personal liability for assessment shall have the written assumption of any such liability by a parent or guardian in consideration of the issuance of the contract. Such assumption shall be in a form approved by the commissioner, reasonably designed to inform the parent or guardian of the liability thus assumed.

Such assumption of liability may be made a part of and included with any written consent of such parent or guardian required under other provisions of this section and it may be provided therein that such assumption shall cover only up to the anniversary date of the policy nearest to the member's birthday at which he attains age 18.

The parent having the right to compromise or execute a covenant not to sue, or the guardian of the estate, if any, may execute a full release and satisfaction or execute a covenant not to sue on the disputed claim after the money and other property to be paid or delivered has been paid or delivered as hereinafter prescribed; provided, however, that if the court shall order that all or any part of the money, to be paid under the compromise or covenant, be deposited in a bank or trust company, invested in an account in an insured savings and loan association, or shares of an insured credit union, or in a single-premium deferred annuity issued by an admitted life insurer, such release and satisfaction or covenant shall not be effective for any purpose until such money has been deposited as directed in the order of the court. Any money or other property to be paid or delivered for the benefit of the minor pursuant to said compromise or covenant shall be paid and delivered in the manner and upon the terms and conditions specified in Section 1510 of the Probate Code.

SEC. 3. Section 1510 of the Probate Code is amended to read:

1510. If the court approves a compromise of, or the execution of a covenant not to sue on, a minor's disputed claim for damages, money or other property, or approves a compromise of a pending action or proceeding to which a minor, or insane or incompetent

person is a party, or gives judgment for such a person, and the money or the value of other property to be paid or delivered under such compromise, covenant, order or judgment does not exceed ten thousand dollars ($10,000), and there is no guardian of the estate of the minor, or insane or incompetent person, such court, in its discretion, may require that the remaining balance of any money paid or to be paid under such compromise, covenant, order or judgment, after payment of all expenses, costs and fees as approved and allowed by the court, be deposited in a bank or banks, or a trust company or companies, or be invested in an account or accounts in an insured savings and loan association or associations, or be invested in shares of an insured credit union, or be invested in a single-premium deferred annuity issued by an admitted life insurer, subject to withdrawal only upon the order of the court, or it may require a guardian of the estate to be appointed and the money or the other property to be paid or delivered to such guardian, or prescribe such other conditions as the court in its discretion deems to the best interests of the minor, or insane or incompetent person; provided, however, that if the money or the value of other property to be paid or delivered under such compromise, covenant, order or judgment does not exceed one thousand dollars ($1,000), and such money or property is to be paid or delivered for the benefit of a minor, the court may direct that all or any part of the money or the property be paid or delivered to a parent of the minor, without bond, upon the terms and under the conditions specified in Section 1430 of the Probate Code. If the money or the value of other property to be paid or delivered under such compromise, covenant, order or judgment exceeds ten thousand dollars ($10,000), and there is no guardian of the estate of the minor, or insane or incompetent person, such court shall require a guardian of the estate to be appointed and shall direct that the money or the other property be paid or delivered to the guardian, or in lieu of the appointment of a guardian of the estate, shall require that the remaining balance of any money paid or to be paid under such compromise, covenant, order or judgment, after payment of all expenses, costs and fees as approved and allowed by the court, be deposited in a bank or banks, or a trust company or companies, or be invested in an account or accounts in an insured savings and loan association or associations, or be invested in shares of an insured credit union, or be invested in a single-premium deferred annuity issued by an admitted life insurer, subject to withdrawal only upon order of the court, and as to other property to be paid or delivered, the court shall prescribe such conditions as it may deem to the best interests of the minor, or insane or incompetent person.

or other property, in any case to which this section applies, the court making the order or giving judgment, and as a part thereof, may expressly retain jurisdiction of any part or all of the money paid, delivered, deposited, or invested until the minor reaches the age of 18 years.

Upon approval of a compromise of, or the execution of a covenant not to sue on, a minor's disputed claim, or approval of a compromise of a pending action or proceeding to which a minor, or insane or incompetent person is a party, or giving judgment for such a person, providing for the payment or delivery of money or other property, the court making the order or giving judgment, and as a part thereof, shall make a further order authorizing and directing a parent of the minor or guardian of the minor, or insane or incompetent person, or the payer of any money to be paid for the benefit of such person, to pay, from the money or other property to be paid or delivered, such reasonable expenses (medical or otherwise and including reimbursement to a parent or guardian), costs and attorney's fees as the court shall approve and allow therein. The remaining balance of such money or other property shall be paid, delivered or deposited as hereinabove provided.

(b) Upon receipt of a waiver request from a county, the director shall decide whether to grant the waiver in accordance with the following procedure. If the director finds that the facts presented in the waiver request establish that one or more of the conditions described in paragraph (1) or (2) of subdivision (c) of this section exist in the county and that waiver of the public assistance withholding or direct mail method of food stamp issuance will not substantially impair the ability of eligible households to

obtain food stamps, he may waive the use of that method of food stamp issuance in the county. The director shall notify the county welfare director of this decision within 60 days of the receipt of the request, and shall send a copy of his decision to the county board of supervisors.

(c) The conditions under which a method of food stamp issuance may be waived are as follows:

(1) Direct mail issuance may be waived when reasonable access is afforded recipients by over-the-counter issuance:

(2) At the close of each income year the suspense account shall be—

(A) Reduced by the excess, if any, of the amount in the suspense account at the beginning of the income year over the amount in the account described in paragraph (1) of subdivision (a) at the close of the income year (after making the additions and charges for such income year provided in subdivision (a)), or

(B) Increased (but not to an amount greater than the initial balance of the suspense account) by the excess, if any of the amount in the account described in paragraph (1) of subdivision (a) at the close of the income year (after making the additions and charges for such income year provided in subdivision (a)) over the amount in the suspense account at the beginning of the income year.

CHAPTER 888

An act to amend Sections 15700, 24003, and 24004 of the Corporations Code, relating to unincorporated associations.

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15700 of the Corporations Code is amended to read:

15700. Every partnership, other than a commercial or banking partnership established and transacting business in a place without the United States, which is domiciled without this state and has no regular place of business within this state, shall, within 40 days from the time it commences to do business in this state, file a statement in the office of the Secretary of State in accordance with Section 24003 designating some natural person or corporation as the agent of the partnership upon whom process issued by authority of or under any law of this state directed against the partnership may be served. A copy of such designation, duly certified by the Secretary of State, is sufficient evidence of such appointment.

Such process may be served in the manner provided in subdivision

(e) of Section 24003 on the person so designated, or, in the event that no such person has been designated, or if the agent designated for the service of process is a natural person and cannot be found with due diligence at the address stated in the designation, or if such agent is a corporation and no person can be found with due diligence to whom the delivery authorized by subdivision (e) of Section 24003 may be made for the purpose of delivery to such corporate agent, or if the agent designated is no longer authorized to act, then service may be made by personal delivery to the Secretary of State, Assistant Secretary of State or a Deputy Secretary of State of the process, together with a written statement signed by the party to the action seeking such service, or by his attorney, setting forth the last-known address of the partnership and a service fee of five dollars ($5). The Secretary of State shall forthwith give notice of such service to the partnership by forwarding the process to it by registered mail, return receipt requested, at the address given in the written statement.

Service on the person designated, or personal delivery of the process and statement of address together with a service fee of five dollars ($5) to the Secretary of State, Assistant Secretary of State or a Deputy Secretary of State, pursuant to this section is a valid service on the partnership. The partnership so served shall appear within 30 days after service on the person designated or within 30 days after delivery of the process to the Secretary of State, Assistant Secretary of State or a Deputy Secretary of State.

SEC. 2. Section 24003 of the Corporations Code is amended to read:

24003. (a) An unincorporated association may file with the Secretary of State on a form prescribed by the Secretary of State a statement containing either of the following:

(1) A statement designating the location and complete address of the association's principal office in this state. Only one such place may be designated.

(2) A statement (i) designating the location and complete address of the association's principal office in this state in accordance with paragraph (1) or, if the association does not have an office in this state, designating the complete address of the association to which the Secretary of State shall send any notices required to be sent to the association under Sections 24005 and 24006, and (ii) designating as agent of the association for service of process any natural person residing in this state or any corporation which has complied with Section 1505 and whose capacity to act as such agent has not terminated.

(b) If a natural person is designated as agent for service of process, the statement shall set forth the person's complete business or residence address. If a corporate agent is designated, no address for it shall be set forth.

(c) Presentation for filing of a statement and one copy, tender of the filing fee, and acceptance of the statement by the office of the Secretary of State constitutes filing under this section. The Secretary

of State shall note upon the copy of the statement the file number and the date of filing the original and deliver or send the copy to the unincorporated association filing the statement.

(d) At any time, an unincorporated association that has filed a statement under this section may file a new statement superseding the last previously filed statement. If the new statement does not designate an agent for service of process, the filing of the new statement shall be deemed to revoke the designation of an agent previously designated. A statement filed under this section expires five years from December 31 following the date it was filed in the office of the Secretary of State, unless previously superseded by the filing of a new statement.

(e) Delivery by hand of a copy of any process against the unincorporated association (1) to any natural person designated by it as agent, or (2) if the association has designated a corporate agent, to any person named in the last certificate of the corporate agent filed pursuant to Section 1505 at the office of such corporate agent shall constitute valid service on the association.

(f) For filing a statement as provided in this section, the Secretary of State shall charge and collect the fee prescribed in Government Code Section 12185 for filing a designation of agent.

SEC. 3. Section 24004 of the Corporations Code is amended to read:

24004. (a) The Secretary of State shall mark each statement filed under Section 24003 with a consecutive file number and the date of filing. He may destroy or otherwise dispose of any such statement four years after the statement expires. In lieu of retaining the original statement, the Secretary of State may retain a copy thereof in accordance with Government Code Section 14756.

(b) The Secretary of State shall index each statement filed under Section 24003 according to the name of the unincorporated association as set out in the statement and shall enter in the index the file number and the address of the association as set out in the statement and, if an agent for service of process is designated in the statement, the name of the agent and, if a natural person is designated as the agent, the address of such person.

(c) Upon request of any person, the Secretary of State shall issue his certificate showing whether, according to his records, there is on file in his office, on the date and hour stated therein, any presently effective statement filed under Section 24003 for an unincorporated association using a specific name designated by the person making the request. If such a statement is on file, the certificate shall include the information required by subdivision (b) to be included in the index. The fee for such a certificate is two dollars ($2).

(d) When a statement has expired under subdivision (d) of Section 24003, the Secretary of State shall enter that fact in the index together with the date of such expiration.

(e) Four years after a statement has expired, the Secretary of State may delete the information concerning that statement from

the index.

(a) As used in this section, a reference to "Section 1505 of the new law" means Section 1505 of the Corporations Code as enacted by Chapter 682 of the Statutes of 1975, effective January 1, 1977, and as in effect on that date; a reference to Section 3301.5, 3301.6, 6403.5, or 6403.6 means that section of the Corporations Code in effect prior to January 1, 1977.

(b) When any corporate agent for service of process has been designated by an unincorporated association prior to the effective date of this act and such designation of agent included the name of a city, town, or village wherein the corporate agent maintained an office, service on such agent may be effected at any office of the agent set forth in the certificate of the corporate agent filed pursuant to Section 1505 of the new law or filed pursuant to Section 3301.5, 3301.6, 6403.5, or 6403.6, whether or not such office is in such city, town, or village.

(c) Where an unincorporated association has designated, prior to the effective date of this act, a corporate agent for service of process who has complied with Section 3301.5 or Section 6403.5 and whose capacity to act as such agent has not terminated prior to the effective date of this act, the designation of such corporate agent shall not terminate after the effective date of this act until the agent files with the Secretary of State a written statement of resignation as such agent in compliance with Section 24005 or until the statement filed by the unincorporated association under Section 24003 is superseded or expires, whichever takes place earlier.

73441. Fees for transcription of testimony and proceedings in such court shall be paid by the litigants to official reporters as provided by law. In all cases where by law, the court may direct the payment of transcription fees out of the county treasury, such fees shall, upon order of the court, be paid from the general fund including fees for transcription of testimony and proceedings in

criminal cases pursuant to Sections 69947 to 69953, inclusive, which shall be paid from the county treasury.

(4) Any terms and conditions of the change of organization or reorganization.

(5) The date of adoption of the resolution ordering the change or organization or reorganization without election or the resolution confirming an order for a change or organization or reorganization after confirmation by the voters.

If any such resolution contains all or any part of the information required to be contained in the certificate described in subdivision (c), the executive officer of the commission may attach a certified copy of the resolution to his certificate and refer to the resolution for such information.

(d) The executive officer shall file the certificate of completion, along with a certified copy of the ordinance, resolution or other document approving a proposal by the legislative body of a county or local agency and a map and legal description of the proposal, with the Secretary of State. CHAPTER 898

An act to amend Sections 4730 and 4766 of the Health and Safety Code, relating to county sanitation districts.

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 6730 of the Health and Safety Code is amended to read:

4730. The governing body of a sanitation district is a board of directors of not less than three members. The presiding officer of the governing body of each city, the whole or part of which is included in the sanitation district, is a member of the board. A member of the governing body of each sanitary district, the whole or part of which is included in the sanitation district, is a member of the board.

If the sanitation district includes territory which is unincorporated and not included in a sanitary district, then the presiding officer of the county board of supervisors is a member of the board.

The governing body of each city with a population of under 2,500,000, as found by the latest census, and the board of supervisors shall each select one of its members, other than its presiding officer, as an alternate director to act as a member of the district board in place of the presiding officer during his absence, inability or refusal to act.

The presiding officer of the governing body of a city with a population of 2,500,000 or over shall select one of the other members of the governing body as an alternate director to act as a member of the district board under such circumstances. The governing body of each sanitary district represented on the board of directors of a sanitation district shall select one of its members as an alternate director to act as a member of the district board in place of its regular

director during his absence, inability, or refusal to act.

If the sanitation district includes unincorporated territory and all or part of one city and no sanitary district, or unincorporated territory and one sanitary district and no city, then the presiding officer and one other member of the board of supervisors are members of the board, unless the population included in the city or sanitary district is more than half of the population of the whole sanitation district, in which case the presiding officer of the board of supervisors and the presiding officer and one other member of the governing body of the city or two members of the governing body of the sanitary district, as the case may be, constitute the board of directors.

If the total number of cities and sanitary districts included in the sanitation district in whole or in part is two and if the sanitation district does not include any territory not in cities or sanitary districts, then the district board includes the presiding officer and one other member of the governing body of the city or two members of the governing body of the sanitary district having the greatest population and the presiding officer of the governing body of the city or one member of the governing body of the sanitary district having the least population.

If the total number of cities and of sanitary districts wholly or in part within the sanitation district is two or more, and if, in addition, the district contains unincorporated territory, then the district board includes the presiding officer of the board of supervisors, the presiding officer of the governing board of each city, and a member of the governing board of each sanitary district.

If the district includes no territory which is in cities or sanitary districts, then the county board of supervisors is the board of directors of the district.

If the territory of the district lies wholly within a city, the legislative body of said city is the board of directors of the district.

A city within a sanitation district, the sewered portion of which city lies entirely within a sanitary district, shall have no representation on the board.

Notwithstanding the foregoing provisions of this section, whenever a sanitation district includes unincorporated territory and all or part of one city and no sanitary district, the governing body of such city may designate the board of supervisors of the county as the district board of directors, unless the population of the incorporated portion of the sanitation district is more than half of the population of the whole district. If the population of the incorporated portion of the sanitation district is more than half of the population of the whole district, the board of supervisors of the county may designate the governing body of the city as the district board of directors.

The term "sanitary district" as used in this section shall mean a sanitary district formed prior to the formation of the sanitation district in which it is included in whole or in part. The term "sanitary district" as used in this section shall also include a county water

district which on or before July 1, 1977, assumed the responsibilities, rights, duties, assets, liabilities, and obligations of a sanitary district which at the time of such assumption had representation on the board of directors of the sanitation district by the provisions of this section.

SEC. 2. Section 4766 of the Health and Safety Code is amended to read:

4766. The district board may adopt ordinances to carry out the provisions of Sections 5473 to 5473.11, inclusive, of the Health and Safety Code and this chapter; the procedure for the adoption of said ordinances shall be the same as is provided for in Article 7 (commencing with Section 25120), Chapter 1, Part 2, Division 2, Title 3 of the Government Code for counties. In the absence of county or city regulation, the district board may also adopt ordinances for the purpose of exercise and effect of any of it powers, or for the purposes for which it was formed. Any ordinance adopted by the district board shall impose restrictions equal to or greater than those imposed by the State Housing Law, Part 1.5 (commencing with Section 17910), Division 13 of this code, and the rules and regulations promulgated pursuant thereto by the Commission of Housing and Community Development. A violation of a regulation or ordinance of a district is a misdemeanor, punishable by a fine not to exceed one thousand dollars ($1,000), imprisonment not to exceed 30 days, or both.

CHAPTER 899

SECTION 1. Chapter 1052 of the Statutes of 1972 is repealed.

SEC. 2. (a) It is the intent and purpose of the Legislature that the Indian program provided for by this section shall be directed to improve the educational accomplishments of Indian students in the rural educational systems in California.

Not more than 10 Indian pilot projects in the rural public schools designed to develop and test educational models which increase competence in reading and mathematics shall be undertaken.

It is the intent of the Legislature to establish a one-year pilot project in Indian education. Such instructional projects shall be provided in prekindergarten to grade 4.

The Legislature recognizes the importance of Indian parent-community involvement in the planning, implementing, and evaluation of such Indian programs.

(b) As used in this act:

(1) "Board" means the State Board of Education.

(2) "Superintendent" means the Superintendent of Public Instruction.

(3) "Project" means an organized undertaking in Indian education which includes, but is not limited to, a description of the undertaking, a listing of the goals and objectives to be achieved, a statement of methods to be used, and the methods to be used in evaluating the success of the project.

(c) From the funds appropriated therefor by the Legislature to the Department of Education for the purposes of this section, the superintendent, with the approval of the board shall administer this section and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing Indian education programs.

(d) The governing board of any rural school district receiving equalization aid, having a school in which there is a concentration of 10 percent of more of Indian students, and which maintains prekindergarten through grade 4 or kindergarten through grade 4, may apply to the superintendent for a project in Indian education.

The governing boards of two or more such school districts may jointly apply for a project in Indian education.

The application shall be made on forms provided by the superintendent, and in accordance with the rules and regulations adopted by the board.

The dates for making application shall be established by the superintendent.

(e) Upon approval by the board of an application under subdivision (d) of this section, the superintendent shall certify the amount to be apportioned to the applicant school district.

(f) Each school district receiving funds provided by subdivision (c) of this section shall establish a districtwide Indian advisory committee for Indian education.

At each school participating, an Indian parent advisory group shall be established to increase communication and understanding between members of a community and the school officials. Each committee shall provide advice and suggestions on all parts of the program.

(g) The superintendent shall submit an annual report to the Legislature, and upon completion of the pilot programs, a final report concerning the implementation and evaluation of the Indian education programs. The reports shall include the achievement of the students, costs of each program detailed in terms of design, implementation, and continuing operating expense. They shall also include recommendations concerning improvement, retention, extension, or other aspects of the programs. The final report shall be

submitted to the Legislature no later than December 1, 1976.

(h) It is the intent of the Legislature that scholarships be made available for the education of Indian students at institutions of higher education.

To assist in the attainment of this goal, the Student Aid Commission may appoint an advisory committee composed of not more than five individuals who are experienced in problems of education for Indian students.

SEC. 3. Section 1 of Chapter 277 of the Statutes of 1976 is amended to read:

Section 1. Notwithstanding Section 15710.5 of the Education Code, the governing board of a school district from which territory representing not more than 10 percent of the assessed valuation of the district is taken and annexed to or included in another school district may, by resolution, relieve the acquiring district of the obligation to pay the proportionate share of the remaining payments due under an outstanding lease or agreement.

This section shall be applicable only to a transfer of territory from the Ukiah Unified School District to the proposed Potter Valley Unified School District, which transfer becomes effective for all purposes after June 4, 1975, and shall be applicable whether the election under Sections 15708 and 15709 of the Education Code occurred prior to or after June 4, 1975.

SEC. 4. Section 2 of Chapter 277 of the Statutes of 1976 is amended to read:

Sec. 2. Due to unique circumstances existing in the Ukiah Unified School District, involving geographical factors and the lack of a community of interest, which circumstances have culminated in the efforts of citizens of the district to create the proposed Potter Valley Unified School District out of territory presently included in the Ukiah Unified School District, the Legislature finds and declares that this act should be limited in its effect to the one school district in which such circumstances exist; therefore, this act may not be made the subject of a general statute within the meaning of Section 16 of Article IV of the Constitution.

SEC. 5. Section 2 of this act shall be in effect until June 30, 1977, and at that time is repealed.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to utilize funds appropriated by the Budget Act of 1976 specifically appropriated for a one-year extension of the Indian education pilot projects established pursuant to Chapter 1052 of the Statutes of 1972, and to make necessary clarifications in an urgency statute enacted earlier this year (Chapter 277 of the Statutes of 1976), it is necessary that this act go into immediate effect.

CHAPTER 902

An act to amend Section 11515 of the Vehicle Code, relating to vehicles, and making an appropriation therefor.

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 11515 of the Vehicle Code is amended to read:

11515. (a) Whenever a vehicle subject to registration is a total loss salvage vehicle as a result of being wrecked or destroyed, the owner, or insurance company or its authorized agent when the salvage vehicle is acquired by an insurance company as a result of a total loss insurance settlement, shall, within 10 days from the loss or settlement of the loss, forward the properly endorsed certificate of ownership or other evidence of title and a three-dollar ($3) fee to the department.

(b) The department, upon receipt of the certificate of ownership or other evidence of title and three-dollar ($3) fee, may issue a salvage certificate for the vehicle.

(c) Prior to the sale of the salvage vehicle the owner shall comply with subdivision (a) of this section. Upon sale of the salvage vehicle, the owner shall, if in possession of the salvage certificate, or immediately after receiving the salvage certificate from the Department of Motor Vehicles, make proper endorsement and delivery of the salvage certificate to the purchaser upon receipt of payment in full for the salvage vehicle. The department shall accept such salvage certificate in lieu of the certificate of ownership or other evidence of title for purposes mentioned in Division 3 (commencing with Section 4000) when accompanied by an appropriate application or other documents and fees as therein required.

(d) When the salvage vehicle is rebuilt and to be restored to operation, the vehicle shall not be licensed for operation or the ownership thereof transferred until there is submitted to the department with the prescribed salvage certificate an appropriate application, official brake and light adjustment certificates issued by an inspection station licensed by the Department of Consumer Affairs, and any other documents and fees required.

(e) The provisions of this section shall not apply to a vehicle which has been driven or taken without the consent of the owner thereof until the vehicle has been recovered by the owner and only if such vehicle is a total loss salvage vehicle.

(f) The provisions of this section shall not apply to a total loss salvage vehicle if the owner retains possession and title to the vehicle, and the fair market value of the vehicle immediately prior to its becoming a total loss salvage vehicle was one thousand dollars ($1,000), or less.

(g) As used in this section, a total loss salvage vehicle is a vehicle which has been wrecked, destroyed, or damaged, to such an extent that the owner, or the insurance company which insures the vehicle, considers it uneconomical to repair the vehicle and because of this, the vehicle is not repaired by or for the person who owned the vehicle at the time of the accident.

SEC. 3. The sum of one hundred twenty-six thousand dollars ($126,000) is hereby appropriated to the Department of Motor Vehicles from the Motor Vehicle Account in the State Transportation

Fund for expenditure for the purposes of this act. The Motor Vehicle Account in the State Transportation Fund shall be reimbursed during the 1976–77 fiscal year for the amount appropriated by this act from the revenues first derived from the fees received pursuant to the provisions of Section 11515 of the Vehicle Code.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not place any financial burden on local government.

CHAPTER 903

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

SECTION 1. Under its pilot programs, the Director of Health is required to establish a pilot program to compare patient treatment profiles and prior authorization as controls of overutilization. The Legislature finds that further data on the most cost-effective system is needed and may be secured by continuing such pilot project for an additional period in one or more representative geographical areas of the state, such as the area of Fresno County, that have demonstrated ability and willingness to participate. Such established pilot program may continue in Fresno County and such other areas as determined by the Director of Health in carrying out the purpose of this section. The Director of Health shall report to the Legislature the results of the continuation of this project.

This section shall remain in effect only until January 1, 1979, and as of such date is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At any time, a conservatee or any person on his behalf with the consent of the conservatee or his counsel, may petition the court for a hearing to contest the rights denied under Section 5357 or the powers granted to the conservator under Section 5358. However, after the filing of the first petition for hearing pursuant to this section, no further petition for rehearing shall be submitted for a period of six months.

A request for hearing pursuant to this section shall not affect the right of a conservatee to petition the court for a rehearing as to his status as a conservatee pursuant to Section 5364. A hearing pursuant to this section shall not include trial by jury.

SEC. 5. Section 5364 of the Welfare and Institutions Code is amended to read:

The clerk shall cause a certified copy of such order attested by the clerk under the seal of the board of supervisors to be recorded in the office of the county recorder. Where the county owns the property on which the abandoned highway was located in fee, the board of supervisors may dispose of the property as provided in Section 960.4, subject to any easements reserved in the order of abandonment.

However, no abandonment of the highway or disposal of the highway property shall extinguish the easement of access, regardless of origin, of any parcel of land to the general system of streets and highways or result in any parcel not having any access to a public street or highway.

CHAPTER 909

An act to amend Sections 637, 710, 710.2, 802, 803, and 803.2 of the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor September 12, 1976. Filed with Secretary of State September 13, 1976.]

If the director finds that a majority of the employees to be affected by the election to become an employer have signed the petition, the governmental entity shall, upon the written approval of the director, become an employer subject to this division to the same extent as other employers, and services performed by its employees, including

those with civil service or tenure positions, shall constitute employment subject to this division. Beginning at that time it shall withhold from the wages of employees the contributions required for unemployment compensation disability benefits.

(c) In lieu of the contributions required of employers, each governmental entity that has elected coverage under this section may elect financing coverage permitted under Section 803. Any such election under Section 803 shall be terminated on the effective date of the termination of an election for coverage under this section.

(d) The director may require from each governmental entity, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

SEC. 2. Section 710.2 of the Unemployment Insurance Code is amended to read:

710.2. (a) Any political subdivision of this state for which services are performed in a hospital or institution of higher education, as defined in Section 605.1, located in this state, may elect to become an employer subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division for not less than two calendar years with respect to such services, and to have such services performed by its employees constitute employment subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division for such period. Any election under this section shall include all services of all employees of all hospitals and all institutions of higher education, as defined in Section 605.1, operated in this state by the political subdivision, except as provided by subdivision (b) of this section. If an election is filed, the political subdivision shall become an employer subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division with respect to the services covered to the same extent as other employers, and such services performed by its employees, including those with civil service or tenure positions, shall constitute employment subject to this part and Part 3 (commencing with Section 3501) and Part 4 (commencing with Section 4001) of this division effective on the first day of the calendar quarter following the quarter in which the election is filed. It may also include in any

such election coverage under Part 2 (commencing with Section 2601) of this division, and, if it so elects, beginning at that time it shall withhold from the wages of employees the contributions required for unemployment compensation disability benefits.

(b) The political subdivision may exclude from coverage under an election pursuant to this section any service described in Section 634.5.

(c) In lieu of the contributions required of employers, a political subdivision that has elected coverage under this section shall elect financing that is permitted under Section 803, or shall elect payments in lieu of contributions by the payment of amounts equivalent to the contributions it would make if it were an employer subject to compulsory coverage under this part. Subdivision (b) of Section 802 shall apply to any such election under Section 803, except that any such election under Section 803 shall be terminated on the effective date of the termination of an election for coverage under this section.

(d) The director may require from each political subdivision, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(e) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the political subdivision.

(f) Each political subdivision shall keep such work records as may be prescribed by the director for the proper administration of this division.

(g) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 3. Section 802 of the Unemployment Insurance Code is amended to read:

802. (a) The State of California, or any instrumentality of this state or of this state and one or more other states, for which services are performed that do constitute employment under Section 605, 605.1, or 605.5 may, in lieu of the contributions required of employers, elect to finance its liability for unemployment compensation benefits, extended duration benefits, and federal-state extended benefits with respect to such services by any method of financing coverage that is permitted under Section 803.

(b) Any election under Section 803 for financing coverage under this section shall take effect with respect to services performed from and after the first day of the calendar quarter in which the election is filed with the director, and shall continue in effect for not less than two full calendar years. Thereafter the election under Section 803 may be terminated as of January 1 of any calendar year only if the state or instrumentality, on or before the 31st day of January of that year, has filed with the director a written application for termination. The director may for good cause waive the requirement that a

written application for termination shall be filed on or before the 31st day of January. In no event shall financing coverage by an election under Section 803 be valid that would establish any different method of financing coverage for any calendar quarter where an election for coverage has also been made by the state or any instrumentality under any provision of Article 4 (commencing with Section 701) of this chapter.

(c) The director may require from the state and each instrumentality, including any agent thereof, such employment, financial, statistical, or other information and reports, properly verified, as may be deemed necessary by the director to carry out his duties under this division, which shall be filed with the director at the time and in the manner prescribed by him.

(d) The director may tabulate and publish information obtained pursuant to this section in statistical form and may divulge the name of the state or instrumentality.

(e) The state and each instrumentality, including any agent thereof, shall keep such work records as may be prescribed by the director for the proper administration of this division.

(f) Except as inconsistent with the provisions of this section, the provisions of this division and authorized regulations shall apply to any matter arising pursuant to this section.

SEC. 4. Section 803 of the Unemployment Insurance Code is amended to read:

803. (a) As used in this section "entity" means any employing unit that is authorized or required by any provision of Article 4 (commencing with Section 701) of this chapter or by Section 801 or 802 to elect a method of financing coverage permitted by this section.

(b) In lieu of the contributions required of employers, an entity may elect any one of the following:

(1) To pay into the Unemployment Fund the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on base period wages with respect to employment for the entity and charged to its account in the manner provided by Section 1026, pursuant to authorized regulations which shall prescribe the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions.

(2) Two or more entities that have elected a method of financing under this section may, pursuant to authorized regulations, file an application with the director for the establishment of a joint account for the purpose of determining the rate of contributions they shall pay into the Unemployment Fund to reimburse the fund for benefits paid with respect to employment for such entities. The members of the joint account may share the cost of benefits, including extended duration benefits and federal-state extended benefits, paid based on the base period wages with respect to employment for such members and charged to the joint account in the manner provided by Section 1026. The director shall prescribe authorized regulations

for the establishment, maintenance, and dissolution of joint accounts, and for the rate or amount, time, manner, and method of payment or advance payment or providing a good and sufficient bond to guarantee payment of contributions by the members of joint accounts, on the cost of benefits charged in the manner provided by Section 1026.

(c) Sections 1030, 1030.5, 1031, 1032, and 1032.5, and any provision of this division for the noncharging of benefits to the account of an employer, shall not apply to an election under subdivision (b) of this section.

(d) In making the payments prescribed by subdivision (b) there shall be paid or credited to the Unemployment Fund, either in advance or by way of reimbursement, as may be determined by the director, such sums as he estimates the Unemployment Fund will be entitled to receive from each entity for each calendar quarter, reduced or increased by any sum by which he finds that his estimates for any prior calendar quarter were greater or less than the amounts which should have been paid to the fund. Such estimates may be made upon the basis of such statistical sampling, or other method as may be determined by the director.

Upon making such determination, the director shall give notice of the determination, pursuant to Section 1140, to the entity. The director may cancel any contributions or portion thereof which he finds has been erroneously determined. The director shall charge to any special fund, which is responsible for the salary of any employee of an entity, the amount determined by the director for which the fund is liable pursuant to this section. The contributions due from the entity shall be paid from the liable special fund, the General Fund, or other liable fund to the Unemployment Fund by the Controller or other officer or person responsible for disbursements on behalf of the entity within 30 days of the date of mailing of the director's notice of determination to the entity. The director for good cause may extend for not to exceed 60 days the time for paying without penalty the amount determined and required to be paid. Contributions are due upon the date of mailing of the notice of determination and are delinquent if not paid on or before the 30th day following the date of mailing of such notice. Any entity which fails to pay the contributions required within the time required shall be liable for interest on the contributions at the rate of 1 percent per month or fraction thereof from and after the date of delinquency until paid, and any entity which without good cause fails to pay any contributions required within the time required shall pay a penalty of 10 percent of the amount of such contributions. If the entity fails to pay the contributions required on or before the delinquency date, the director may assess the entity for the amount required by the notice of determination. The provisions of Article 8 (commencing with Section 1126) of Chapter 4 of Part 1 of this division with respect to the assessment of contributions, and the provisions of Chapter 7 (commencing with Section 1701) of Part 1 of this division with

respect to the collection of contributions, shall apply to the assessments provided by this section. The provisions of Sections 1177 to 1184, inclusive, relating to refunds and overpayments, shall apply to amounts paid to the Unemployment Fund pursuant to this section.

(e) To the extent permitted by federal law, no contributions shall be due from any entity other than a nonprofit organization which has elected financing under subdivision (b) and which has previously made contributions required of employers pursuant to an elective coverage agreement or under compulsory coverage until the cost of benefits paid and reimbursable by the entity under this section together with the benefits charged and chargeable to the reserve account of the entity as a result of its prior election or compulsory coverage exceed the contributions made by the entity and credited to its reserve account pursuant to its prior election or compulsory coverage.

(f) Except with respect to a political subdivision electing coverage pursuant to Section 710.2, the director may terminate the election of any entity for financing under this section if the entity is delinquent in the payment of advances or reimbursements required by the director under this section. After any such termination the entity may again make an election pursuant to this section but only if it is not delinquent in the payment of contributions and not delinquent in the payment of advances or reimbursements required by the director under this section.

(g) Notwithstanding any other provision of this section, no entity shall be liable for that portion of any extended duration benefits or federal-state extended benefits which is reimbursed or reimbursable by the federal government to the State of California.

(h) After the termination of any election under this section, the entity shall remain liable for its proportionate share of the cost of benefits paid and charged to its account in the manner provided by Section 1026, which are based on wages paid for services during the period of the election. Any such liability may be charged against any remaining balance of a prior reserve account used by the entity pursuant to Section 712 or used by a public entity pursuant to subdivision (e). Any portion of such remaining balance shall be included in the reserve account of the entity following any termination of an election under this section which occurs prior to the expiration of a period of three consecutive years commencing with the effective date of such election. For purposes of Section 982, the period of an election under Section 803 shall, to the extent permitted by federal law, be included as a period during which a reserve account has been subject to benefit charges.

SEC. 5. Section 803.2 of the Unemployment Insurance Code is amended to read:

803.2. Notwithstanding any other provision of this article, an entity which elected reimbursement financing under Section 803 and which has acquired a previously accumulated favorable reserve account under Section 712 or subdivision (e) of Section 803 shall be

liable for the reimbursement of benefits pursuant to such election for any benefits chargeable to the reserve account and based upon wages paid prior to such election, to the extent that such benefits exceed the previously accumulated favorable reserve account. "Entity" as used in this section means any entity as defined by subdivision (a) of Section 803.

The objectives of this plan will include assurance that each child will have an individualized program to permit the development of his maximum potential and that all pupils who have completed the third grade of the state's educational system will have achieved a level of competence in the basic skills of reading, language, and mathematics, and in intrapersonal (self-understanding, self-awareness, and self-esteem) and interpersonal (understanding, being aware of, and esteeming others) relationships, sufficient to continued success in their educational experiences. The system will be based on the development of local school-by-school master plans for early childhood education developed and submitted by local school districts which shall include a phase-in program based on an increase in the number of schools in the state participating each year until maximum participation is achieved.

Article 1. General Provisions and Definitions

2801. The Legislature hereby finds and declares that in order to promote the more rapid development of new sources of natural gas and electric energy, to maintain the economic vitality of the state through the continuing production of goods and the employment of its people, and to promote the efficient utilization and distribution of energy, it is desirable and necessary to encourage private energy producers to competitively develop independent sources of natural gas and electric energy not otherwise available to California consumers served by public utilities, to require the transmission by public utilities of such energy for private energy producers under certain conditions, and remove unnecessary barriers to energy transactions involving private energy producers.

2802. "Private energy producer" includes every person, corporation, city, county, district, and public agency of the state generating or producing electricity not generated from conventional sources or natural gas for energy either directly or as a byproduct solely for his or its own use or the use of his or its tenants and not for sale to others. A private energy producer shall not be found to be an electrical corporation or a gas corporation as defined in this code solely because the electricity or gas is being transmitted in part through facilities owned by a public utility.

2803. "Interconnection" means the facilities necessary to physically connect the energy source of and the point of use by a private energy producer with the existing transmission facilities of a public utility, and shall include any necessary transformation, compression or other facilities necessary to make such interconnection effective.

2804. "Transmission service" means the intrastate transfer of electricity or natural gas by a public utility for any private energy producer between the points of interconnection for use within this state in the service area of the utility.

2805. "Conventional power source" means hydropower or power derived from nuclear energy or the combustion of fossil fuels.

2806. "Fossil fuel" means a mixture of hydrocarbons including coal, petroleum, or natural gas, occurring in and extracted from underground deposits.

Article 2. Interconnection of Facilities

2811. In order to promote the more efficient use and distribution of natural gas or electric energy and eliminate the necessity for construction of transmission facilities for gas or electricity produced by a private energy producer separate from those which may already exist to serve the same area and are owned and operated by a public utility subject to the jurisdiction and control of the Public Utilities

Commission, the commission shall authorize the construction of an interconnection by a private energy producer upon application of such producer if the commission makes the findings required by Sections 2812 and 2812.5.

2812. Upon application of a private energy producer, and after notice to any affected public utility and hearing thereon, the commission shall authorize such producer to construct an interconnection for the purpose of transporting natural gas, if the commission finds: (1) that such interconnection is in the public interest and for the general public benefit, (2) involves natural gas located within this state in the service area of the public utility, ultimately consumed within this state, and which would otherwise be undeveloped because a public utility is unable or unwilling to purchase it at a price the commission finds to be reasonable, (3) would not cause energy which would likely otherwise be made available to the general public to be diverted to the private energy producer, and (4) that the energy has substantially the equivalent quality and characteristics as the energy in the utility's transmission system with which the interconnection would be made. The commission shall prescribe such reasonable terms, conditions, and requirements as it deems appropriate.

2812.5. Upon application of a private energy producer, and after notice to any affected public utility and hearing thereon, the commission shall authorize such producer to construct an interconnection for the purpose of transmitting electricity, if the commission finds:

(1) That no uncompensated burden will be placed upon the utility or utilities furnishing the transmission service.

(2) That furnishing the transmission service will not result in any added costs or any other adverse consequences for the customers of the electrical corporation.

(3) That the facilities proposed in the application will be used to transmit power from other than a conventional power source for generating electrical power.

The commission shall prescribe such reasonable terms, conditions, and requirements as it deems appropriate.

2813. The private energy producer shall be required to provide and to pay the total cost of the interconnection as well as any costs associated with providing a transmission capacity sufficient to handle that portion of the energy generated by the private energy producer that is over and above the capacity otherwise required by the public utility to service its utility customers and meet other authorized commitments. The public utility shall not be required to construct any additional electric or gas facilities on its system or to acquire any real property by eminent domain or otherwise for such facilities, in order to perform the service contemplated by this chapter unless the cost of such additional facilities or acquisitions are to be borne by the private energy producer.

2814. The commission shall prescribe reasonable compensation

to be paid to the public utility performing the transmission service.

2815. Nothing in this chapter shall require that any private energy producer perform any service or deliver any commodity to the public or any portion thereof, for compensation or otherwise, except as provided in this article.

2816. Every public utility shall keep accurate records of transactions with a private energy producer, and of the use of the public utility's facilities by the private energy producer, pursuant to an interconnection ordered or approved by the commission and shall render such reports thereon to the commission as the commission may from time to time require. The commission may disapprove any such transaction or use if, after hearing, it finds such transaction or use to be inconsistent with this chapter or any rule, regulation, or order of the commission.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the California Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to promote the more rapid development of new sources of energy, including alternate sources, in order to maintain the economic vitality of the state, it is necessary that this act go into immediate effect.

CHAPTER 916

An act to amend Sections 3780 and 5010 of, and to add Section 5360 to, the Elections Code, relating to advisory elections.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3780 of the Elections Code is amended to read:

3780. As used in this article, "county measure" includes any proposed county charter, any proposed amendment to a county charter, any proposition for the issuance of funding or refunding bonds of the county, any other question or proposition submitted to the voters of a county at any election held throughout an entire single county, any advisory question, or any bond proposal or any advisory question submitted to the voters of any public district although the boundaries of the district may be coterminous with those of the county.

SEC. 2. Section 5010 of the Elections Code is amended to read:

5010. As used in this article, "city measure" includes any proposed city charter, any proposed amendment to a city charter, any proposition for the issuance of bonds by the city, any advisory

question, or any other question or proposition submitted to the voters of a city.

SEC. 3. Section 5360 is added to the Elections Code, to read:

5360. (a) Each city, county, city and county, and district may hold, at their discretion, an advisory election in consolidation with scheduled elections of the city, county, city and county, or district for the purpose of allowing voters within the respective jurisdiction to voice their opinion on substantive issues or to indicate to the local legislative body approval or disapproval of the ballot proposal.

(b) An advisory vote will be indicated as such on the ballot as a heading above the ballot proposal and by only the following description: "Advisory Vote Only."

(c) As used in this section, "advisory vote" means an indication of general voter opinion regarding the ballot proposal. The results of the advisory vote will in no manner be controlling on the sponsoring legislative body.

CHAPTER 917

An act to add Article 7 (commencing with Section 1625) to Chapter 4 of Division 2 of the Health and Safety Code, relating to blood transfusions.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that transfusion-associated hepatitis is a serious disease for which, as yet, no effective preventative has been found; that current medical technology can assure the detection of only a small percentage of the hepatitis-infected units of blood being used; that the incidence of transfusion-associated hepatitis occurs in a significantly greater number of cases when blood from a paid donor is used rather than when blood is used from a donor who gives blood without payment therefor; that by prohibiting the use of paid donors, the incidence of transfusion-associated hepatitis can be substantially reduced; and that in order to protect the public health, the Legislature finds that it is necessary to prohibit, with certain exceptions, the transfusion of blood derived from paid donors.

SEC. 2. Article 7 (commencing with Section 1625) is added to Chapter 4 of Division 2 of the Health and Safety Code, to read:

Article 7. Blood Donations

1625. As used in this article:

(a) "Blood" means human whole blood or components of human

blood, including plasma, which are prepared from human whole blood by physical, rather than chemical processes, but does not include blood derivatives manufactured or processed by industrial use.

(b) "Industrial use" means a use of blood in which the blood is modified by physical or chemical means to produce derivatives for therapeutic or pharmaceutic biologics, laboratory reagents, or in vitro diagnostics.

(c) "Paid donor" means a person who donates blood and who receives payment in return for the donation of such blood.

(d) "Payment" means the transfer by a blood bank to any person of money or any other valuable consideration which can be converted to money by the recipient, except that payment shall not include any of the following:

(1) Cancellation or refund of the nonreplacement fees or related blood transfusion charges;

(2) Blood assurance benefits to a person as a result of a blood donation to a donor club or blood assurance program; or

(3) Time away from employment granted by an employer to an employee in order to donate blood.

(e) "Person" means any individual, blood bank, hospital, firm, corporation, or any other entity.

(f) "Transfusion" means a use of blood in which the blood is administered to a human being for treatment of sickness or injury.

1626. (a) Except as provided in subdivision (b), on or after July 1, 1977, it shall be unlawful, in any transfusion of blood, to use any blood which was obtained from a paid donor.

(b) Subdivision (a) shall not be applicable to any transfusion of blood which was obtained from a paid donor if the physician performing the transfusion has determined, taking into consideration the condition of the patient who is the recipient of the transfusion, that other blood of a type compatible with the blood type of the patient cannot reasonably be obtained for the transfusion.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable changes.

CHAPTER 918

An act relating to the Commission of the Californias, and making an appropriation therefor.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The sum of nine thousand six hundred sixty dollars ($9,660) is hereby appropriated from the General Fund to the Commission of the Californias in augmentation of funds appropriated pursuant to Item 35 of the Budget Act of 1976 (Chapter 320 of the Statutes of 1976).

CHAPTER 919

An act to repeal and add Section 6546.1 to the Government Code, relating to joint exercise of powers, and declaring the urgency thereof, to take effect immediately.

Property tax revenues accruing to, levied by, or collected by any local agency which is a party to such a joint powers agreement shall not be used to redeem such revenue bonds unless an ordinance authorizing the use of such property tax revenues for such purposes is approved by a majority vote of the electors of the local agency voting on the issue. In operating the airport, the separate public entity above mentioned shall not permit or authorize any activity in conjunction with the airport which results in an increase of the size

of the noise impact area based on a community noise equivalent level of 70 decibels as established pursuant to Title 4, California Administrative Code, Chapter 9, Subchapter 6, and shall further comply with the future community noise equivalent levels prescribed by such title as it now exists or is hereafter amended.

The separate public entity shall implement the noise monitoring requirements set forth in Title 4, California Administrative Code, Chapter 9, Subchapter 6. In addition, the entity shall diligently pursue all reasonable avenues available to insure that the adverse affects of noise are being mitigated to the greatest extent reasonably possible.

The power to issue revenue bonds under this section shall be of no further force in effect after December 31, 1980, unless the entity is unable to accomplish the purpose of this section by reason of litigation, in which case this section shall continue to be effective until the final determination of such litigation and for one year thereafter.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that meaningful negotiations for the acquisition of the Hollywood-Burbank Airport may be successfully concluded in order to preserve and continue it as an existing public airport facility it is essential that this act take effect immediately.

CHAPTER 920

An act making an appropriation for state building construction and acquisition, and in this connection amending and supplementing the Budget Act of 1976 by adding Item 373.2 thereto, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

(b) Acquisition of the State Compensation Insurance Fund Building in San Francisco 2,200,000

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

An act to add Section 15957.1 to the Education Code, relating to school contracts.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15957.1 is added to the Education Code, to read:

15957.1. It shall be unlawful to split or separate into smaller work orders or projects any project for the purpose of evading the provisions of this article requiring work to be done by contract after competitive bidding.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 922

An act to amend Sections 610, 927, 1551, and 1902 of, and to add Sections 1550.1 and 1901.5 to, the Probate Code, and to amend Section 14506 of the Revenue and Taxation Code, relating to probate.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 610 of the Probate Code is amended to read:

610. If the executor or administrator neglects or refuses to file the inventory within the time prescribed, the court, upon notice, may revoke his letters, and he shall be liable for any injury to the estate or any person interested therein, arising from such failure. Any damages awarded pursuant to this section shall be a charge upon the bond of the personal representative. If the bond is insufficient, or if there is no bond, then the damages shall be a charge against the personal assets of the personal representative.

SEC. 2. Section 927 of the Probate Code is amended to read:

927. Any person interested in the estate may appear and file written exceptions to the account, and contest the same, including objecting to the values of assets shown on the inventories and appraisements filed in the proceedings if a certificate of no tax is filed, but any change in valuations shall not affect an order fixing the state inheritance tax. Upon the hearing, the executor or administrator may be examined on oath touching the account and the property and effects of the decedent, and the disposition thereof. All matters, including allowed claims not passed upon on the settlement of any former account and not reduced to judgment, may be contested for cause shown. The court may appoint one or more referees to examine the accounts, and make report thereon, subject to confirmation; may allow a reasonable compensation to them to be paid out of the estate; and may issue such other orders as the court may deem necessary to effect the provisions of this section.

SEC. 3. Section 1550.1 is added to the Probate Code, to read:

1550.1. Within 15 days after the inventory and appraisement is filed with the court the guardian of the estate, or any person interested in the estate, may file written objections to any or all appraisals which objections shall be set for hearing by the clerk not less than 15 days after the filing of such objections, and the clerk shall give notice thereof in the manner provided in Section 1600. The party objecting shall cause to be served upon the personal representative, if not the objecting party, and upon all relatives within the second degree, and the inheritance tax referee notice of hearing and a copy of the objections at least 10 days before the hearing.

The court at the hearing may fix the true value of any asset to which objection has been filed. In this regard the court may cause an independent appraisal or appraisals to be made by at least one additional appraiser at the expense of the estate or, if the objecting party is not the personal representative and if the objection is rejected by the court, the court may assess the cost of such additional appraisal or appraisals against the objecting party.

SEC. 4. Section 1551 of the Probate Code is amended to read:

1551. If the guardian neglects or refuses to file the inventory within the time prescribed, the court, upon notice, may revoke his letters, and he shall be liable for any injury to the estate or any person interested therein, arising from such failure. Any damages awarded pursuant to this section shall be a charge upon the bond of the guardian. If the bond is insufficient, or if there is no bond, then the damages shall be a charge against the personal assets of the guardian.

SEC. 5. Section 1901.5 is added to the Probate Code, to read:

1901.5. Within 15 days after the inventory and appraisement is filed with the court, the conservator of the estate, or any person interested in the estate, may file written objections to any or all appraisals which objections shall be set for hearing by the clerk not less than 15 days after the filing of such objections, and the clerk shall give notice thereof in the manner provided in Section 1200. The party objecting shall cause to be served upon the personal representative, if not the objecting party, and upon relatives within the second degree, and the inheritance tax referee notice of hearing and a copy of the objections at least 10 days before the hearing.

The court may fix the true value of any asset to which objection has been filed. In this regard the court may cause an independent appraisal or appraisals to be made by at least one additional appraiser at the expense of the estate or if the objecting party is not the personal representative, and if the objection is rejected by the court, the court may assess the cost of such additional appraisal or appraisals against the objecting party.

SEC. 6. Section 1902 of the Probate Code is amended to read:

1902. If a conservator neglects or refuses to file any inventory required by the provisions of this chapter, within the time prescribed, the court, on its own motion or on the petition of any party interested in the estate, upon notice, served upon him as provided or permitted by Section 1755, may revoke his letters, and he shall be liable for any injury to the estate or any person interested therein, arising from such failure. Any damages awarded pursuant to this section shall be a charge upon the bond of the conservator. If the bond is insufficient, or if there is no bond, then the damages shall be a charge against the personal assets of the conservator.

SEC. 7. Section 14506 of the Revenue and Taxation Code is amended to read:

14506. Upon the completion of the appraisement and within 60 days after the receipt of such information and documentation by the referee needed to assess the tax or to issue a certificate of no tax, as

may be evidenced by an affidavit which is filed in the proceedings by the person seeking a determination of tax or no tax and served by mail on the referee, the referee shall file a written inheritance tax report or the certification that no tax is due with the clerk of the court. If the referee does not comply with the provisions of this section, the court may issue any orders which may be necessary to effect compliance. The written report or certification shall set forth the following:

(a) The clear market value of the property included in each transfer subject to this part from the decedent to any person sharing in the estate, whether the property transferred is in the estate or not.

(b) The amount of tax which is due and payable on each transfer.

(c) Such other facts as may advise the court in regard to the tax, or which the court may require.

In addition to filing the report, the referee may file with the court any deposition, exhibit, other evidence, or other information taken before or submitted to him.

In the case of any amount required to be shown on a form prescribed by the Controller for any return, statement, report, or other document, if such amount of such item is other than a whole-dollar amount, the fractional part of a dollar may be disregarded unless it amounts to one-half dollar or more, in which case the amount (determined without regard to the fractional part of a dollar) shall be increased by one dollar ($1). The provisions of this section shall not be applicable to items which must be taken into account in making the computations necessary to determine the amount required to be shown on the form, but shall be applicable only to such final amount.

CHAPTER 923

An act to amend Section 789.7b of the Civil Code, and to add Section 739.5 to the Public Utilities Code, relating to utilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) Increasing numbers of the state's population are residing in mobilehome parks.

(b) It is in the best interests of the state to protect such tenants by taking reasonable steps to remove conditions which would necessitate rent increases by such parks.

(c) Many mobilehome parks own and maintain distribution

facilities for gas and electric service to park tenants.

(d) The California Public Utilities Commission has for many years required that parks charge for submetered gas and electric service to tenants the same rate as would be charged by the utility company if serving the tenants directly.

(e) The existing tariffs of regulated public utilities have enabled the mobilehome parks to recoup a part or all of their expenses in maintaining and operating such submetered distribution systems.

(f) The rates charged by a regulated public utility to a mobilehome park and the rate charged by such park to its tenants should provide a differential sufficient to enable the park to cover its costs of providing submetered gas and electric service.

(g) The maintenance of such differential will benefit tenants of mobilehome parks by enabling them to have the full benefit of "lifeline rates."

SEC. 2. Section 789.7b of the Civil Code is amended to read:

789.7b. If the mobilehome park management provides both master meter and submeter service of utilities to tenants in the mobilehome park, the following standard method of billing shall be used. For each billing period the cost of the charges for the period shall be separately stated along with the opening and closing meter reading for the tenant. The mobilehome park management shall post in a conspicuous place the prevailing residential utility rate schedule as published by the serving utility.

SEC. 3. Section 739.5 is added to the Public Utilities Code, to read:

739.5. The commission shall require that, whenever domestic gas or domestic electric service, or both, is provided by a master meter customer to users through a submeter service system, the master meter customer providing such submeter service, whether such customer is a mobilehome park, an apartment house, or a similar establishment, shall charge each user at the same rate which would be applicable if the user were receiving such gas or electricity or both, directly from the serving utility. The commission shall require the serving utility to establish uniform rates for each service schedule area for master meter service at a level which will provide a sufficient differential to cover the reasonable average costs to master meter customers of providing such submeter service provided, however, that such costs shall not exceed the average cost that the serving utility would have incurred in providing comparable services beyond the master meter to the submeter tenants.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to provide basic utility service to submeter utility users at rates which are commensurate with the rates charged to direct service users and to permit master meter service customers to recover their reasonable costs for providing submeter service

without passing such costs on to submeter utility users, it is necessary that this act shall go into immediate effect.

CHAPTER 924

An act to add Section 778 to the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 778 is added to the Public Utilities Code, to read:

778. The commission shall adopt rules and regulations, which shall become effective on July 1, 1977, relating to safety appliances and procedures for rail transit services operated at grade and in vehicular traffic. The rules and regulations shall include, but not be limited to, provisions on grade crossing protection devices, headways, and maximum operating speeds with respect to the speed and volume of vehicular traffic within which the transit service is operated.

The commission shall submit the proposed rules and regulations to the Legislature not later than April 1, 1977.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 925

An act to add Article 10 (commencing with Section 31145) to Chapter 1 of Part 5 of Division 12 of the Water Code, relating to the Stinson Beach County Water District.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Article 10 (commencing with Section 31145) is added to Chapter 1 of Part 5 of Division 12 of the Water Code, to read:

Article 10. Stinson Beach County Water District

31145. In addition to the other powers provided by law, the Stinson Beach County Water District, Marin County, shall have all of the following powers and shall promptly and effectively exercise such powers as may be appropriate for improving water quality and supply, reducing use of water, and preventing nuisance, pollution, waste, and contamination of water:

(a) To carry on technical and other investigations, examinations, or tests, of all kinds, make measurements, collect data, and make analyses, studies, and inspections pertaining to the water supply, use of water, water quality, nuisance, pollution, waste, and contamination of water, both within and without the district, including, but not limited to, such activities related to use of public, combined, or private septic and septic tank disposal systems.

(b) To regulate, prohibit, or control the discharge of pollutants, waste, or any other materials into the ground or surface waters of the district or the contiguous seashores of the district by requiring dischargers to obtain a permit from the district prior to any such discharge and by prohibiting the discharge of pollutants, sewage, septic drainage, or any other material which does or may cause a nuisance into the ground or surface waters of the district or the contiguous seashores of the district without a permit having first been obtained from the district; to charge fees for the issuance and periodic renewal of such permits in such amount as will defray all or a portion of the costs of exercising the powers provided in this article; to require all permittees to indemnify the district from any and all damages, penalties, or other expenses imposed on or required of the district by federal, state, regional, or local agencies due to any discharge by such permittees into ground or surface waters of the district or the contiguous seashores of the district; to require as a condition of obtaining discharge permits from the district that all such dischargers also obtain state and federal waste discharge permits and any other permits required by federal, state, regional, or local law.

(c) To adopt and enforce regulations within the incorporated and unincorporated areas of the district, after holding a public hearing on reasonable notice thereof, to control and enhance the quality of the ground and surface waters of the district, to eliminate the pollution, waste, and contamination of water flowing into, through, or originating within water courses and impoundments, both natural and artificial, within the district, to prevent contamination, nuisance, pollution, or otherwise rendering unfit for beneficial use the surface or ground water used or useful in the district, and to expend such amounts as are necessary to exercise such powers from the funds of the district.

(d) To increase, to improve the quality of, and to prevent the waste or diminution of the water supply in, or unlawful exportation of water from, the district; to obtain, retain, conserve, treat by

physical, chemical, or biological processes, or otherwise reclaim sanitary, sewage, drainage, storm, flood, and other water for beneficial use within the district or for storage, discharge, or disposal in accordance with legally established water quality specifications; and, whenever the board of directors shall find it to be in the best interests of the district so to do, to sell such water for agricultural, domestic, or other beneficial purposes within or without the district upon such terms and conditions as may be prescribed by the board.

31146. The district shall immediately do all such acts as are reasonably necessary to secure compliance with any federal, state, regional or local law, order, regulation or rule relating to water pollution or the discharge of pollutants, waste or any other material within the area of the district. For such purpose, any authorized representative of the district, upon presentation of his credentials, or, if necessary under the circumstances, after obtaining an inspection warrant pursuant to Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure, shall have the right of entry to any premises on which a water pollution, waste, or contamination source, including, but not limited to, septic tanks, is located for the purpose of inspecting such source, including securing samples of discharges therefrom, or any records required to be maintained in connection therewith by federal, state, or local law, order, regulation, or rule.

31147. (a) Violation of any of the provisions of a district regulation adopted pursuant to Section 31145 may be abated as a public nuisance by the district, and the board may by regulation establish a procedure for the abatement of such a nuisance and to assess the cost of such abatement to the violator. If the violator maintains the nuisance upon real property in which he has a fee title interest, the assessment shall constitute a lien upon such real property.

(b) The amount of any costs incurred by the district in abating such a nuisance upon real property, shall be added to, and become part of, the annual taxes next levied upon the real property subject to abatement and shall constitute a lien upon that real property as of the same time and in the same manner as does the tax lien securing such annual taxes. All laws applicable to the levy, collection, and enforcement of district taxes shall be applicable to such assessment, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attached thereon, prior to the date on which the first installment of such taxes would become delinquent, then a lien which would otherwise be imposed by this section shall not attach to such real property and the delinquent and unpaid charges relating to such property shall be transferred to the unsecured roll for collection. Any amounts of such assessments collected are to be credited to the funds of the district from which the costs of abatement were expended.

31148. (a) The owner of any real property upon which is located

a sanitary sewage, septic, or septic tank disposal system, which system is subject to abatement as a public nuisance by the district, may request the district to replace or repair, as necessary, such system. If replacement or repair is feasible, the board of directors, in its sole discretion, may provide for the necessary replacement or repair work.

(b) The person or persons employed by the board of directors to do the work shall have a lien, subject to the provisions of subdivision (b) of Section 31147, for work done and materials furnished, and the work done and materials furnished shall be deemed to have been done and furnished at the request of the owner. The district, in the discretion of the board of directors, may pay all, or any part, of the cost or price of the work done and materials furnished; and, to the extent that the district pays the cost or price of the work done and materials furnished, the district shall succeed to and have all the rights, including, but not limited to, the lien, of such person or persons employed to do the work against the real property and the owner.

(c) As an alternative power to the enforcement of the lien provided in subdivision (b), the board of directors may, by ordinance adopted by two-thirds vote of the members, fix the costs of replacement or repair; fix the times at which such costs shall become due; provide prior to the replacement or repair for the payment of the costs in installments over a period, not to exceed 15 years; establish a rate of interest, not to exceed 8 percent per annum, to be charged on the unpaid balance of the costs; and provide that the amount of the costs and the interest shall constitute a lien, subject to the provisions of subdivision (b) of Section 31147, against the respective lots or parcels upon which the work is done.

31149. Any violation of a regulation of the district adopted pursuant to Section 31145 is a misdemeanor punishable by a fine not to exceed five hundred dollars ($500), or imprisonment not to exceed 60 days, or by both such fine and imprisonment. Each day of such a violation shall constitute a separate offense. Any violation or threatened violation of a regulation of the district may also be enjoined by civil suit.

SEC. 2. The Legislature hereby finds and declares that a unique situation exists within the Stinson Beach County Water District because of a large transient population, extensive use of private septic systems, land topography and population density that create special problems for sewage treatment and disposal, remoteness to other urbanized areas in the county, an immediate need to meet water quality control laws and the health and safety requirements of the district inhabitants, and the existence of a public agency capable of performing such needed public service without the need for proliferation of new agencies, with their attendant costs, for such public service. The Legislature further finds and declares that a general act cannot be made applicable to this unique situation and that it is, therefore, necessary to enact this special act relating to the

Stinson Beach County Water District.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities which, in the aggregate, do not result in significant, identifiable cost changes.

CHAPTER 928

An act to amend Sections 66411, 66428, 66436, 66445, 66499.34, 66499.35, and 66499.36 of, and to add Sections 66411.1, 66424.1 and 66424.2 to, the Government Code, relating to subdivisions.

02842 292285 346

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 66411 of the Government Code is amended to read:

66411. Regulation and control of the design and improvement of subdivisions are vested in the legislative bodies of local agencies. Each local agency shall by ordinance regulate and control subdivisions for which this division requires a tentative and final or parcel map. Such ordinance shall specifically provide for proper grading and erosion control, including the prevention of sedimentation or damage to offsite property. Each local agency may by ordinance regulate and control other subdivisions, provided that such regulations are not more restrictive than the regulations for those subdivisions for which a tentative and final or parcel map are required by this division, and provided further that such regulations shall not be applied to short-term leases (terminable by either party on not more than 30 days notice in writing) of a portion of the operating right-of-way of a railroad corporation defined as such by Section 230 of the Public Utilities Code unless a showing is made in individual cases, under substantial evidence, that public policy necessitates the application of such regulations to such short-term leases in such individual cases.

SEC. 2. Section 66411.1 is added to the Government Code, to read:

66411.1. Whenever a local ordinance requires improvements for a division of land which is not a subdivision of five or more lots, such regulations shall be limited to the dedication of rights-of-way, easements, and the construction of reasonable offsite and onsite improvements for the parcels being created. Requirements for the construction of such offsite and onsite improvements shall be noticed by certificate on the parcel map, on the instrument evidencing the waiver of such parcel map, or by separate instrument and shall be recorded on, concurrently with, or prior to the parcel map or instrument of waiver of a parcel map being filed for record. The construction of such improvements shall be required prior to subsequent issuance of a permit or other grant of approval for the development of such parcel by the local agency.

Fulfillment of such construction requirements shall not be required until such time as a permit or other grant of approval for development of the parcel is issued by the local agency, except that a local agency may require fulfillment of such construction requirements within a reasonable time following approval of the parcel map and prior to the issuance of a permit or other grant of approval for the development of a parcel upon a finding by the local agency that fulfillment of the construction requirements is necessary for reasons of:

(1) The public health and safety; or

(2) The required construction is a necessary prerequisite to the orderly development of the surrounding area.

SEC. 3. Section 66424.1 is added to the Government Code, to read:

66424.1. Nothing in Section 66424 shall prevent the subdivision of a unit of land created under the provisions of this division or a local ordinance enacted pursuant thereto, even though at the time of the prospective subdivision an equalized county assessment roll has not been prepared reflecting the creation of the unit proposed to be subdivided.

SEC. 4. Section 66424.2 is added to the Government Code, to read:

66424.2. Notwithstanding Section 66424, two or more contiguous parcels or units of land which have been subdivided under the provisions of this division or any prior law regulating the division of land or a local ordinance enacted pursuant thereto shall not merge by virtue of the fact that such contiguous parcels or units are held by the same owner and no further proceeding under the provisions of this division or a local ordinance enacted pursuant thereto shall be required for the purpose of sale, lease or financing of such contiguous parcels or units, or any of them; except that, if any one of such contiguous parcels or units held by the same owner does not conform to standards for minimum parcel size to permit use or development under a zoning, subdivision or other ordinance of the local agency and at least one of such contiguous parcels or units is not developed with a building for which a permit has been issued by the local agency, then such parcels shall be merged for the purposes of this division (unless a local ordinance specifically exempts such parcels from merger in such circumstances).

Whenever a local agency has knowledge that real property has merged pursuant to this section or a local ordinance enacted pursuant to this division, it shall cause to be filed for record with the recorder of the county in which the real property is located, a notice of such merger specifying the names of the record owners and particularly describing the real property, provided that, at least 30 days prior to the recording of the notice the owner of the parcels or units to be affected by the merger, shall be advised in writing of the intention to record the notice and specifying a time, date and place at which the owner may present evidence to the legislative body or advisory agency why such notice should not be recorded.

SEC. 5. Section 66428 of the Government Code is amended to read:

66428. Local ordinances may require a tentative map where a parcel map is required by this chapter. A parcel map shall be required for subdivisions as to which a final or parcel map is not otherwise required by this chapter, unless waived by local ordinance as provided in this section, and provided further that a parcel map shall not be required for subdivisions created by short-term leases (terminable by either party on not more than 30 days' notice in

writing) of a portion of the operating right-of-way of a railroad corporation defined as such by Section 230 of the Public Utilities Code, or for land conveyed to a public agency or public utility, or to a subsidiary of a public utility for conveyance to such public utility for rights-of-way, unless a showing is made in individual cases, upon substantial evidence, that public policy necessitates such a parcel map.

A local agency shall, by ordinance, provide a procedure for waiving the requirement for a parcel map, imposed by this division. The ordinance shall require a finding by the legislative body or advisory agency, that the proposed division of land complies with such requirements as may have been established by this division or local ordinance enacted pursuant thereto as to area, improvement and design, floodwater drainage control, appropriate improved public roads, sanitary disposal facilities, water supply availability, environmental protection, and other requirements of this division or local ordinance enacted pursuant thereto. In any case, where the requirement for a parcel map is waived by local ordinance pursuant to provisions of this section, a tentative map may be required by local ordinance.

SEC. 6. Section 66436 of the Government Code is amended to read:

66436. A certificate, signed and acknowledged by all parties having any record title interest in the real property subdivided, consenting to the preparation and recordation of the final map is required, except as follows:

(a) Neither a lien for state, county, municipal or local taxes, nor for special assessments, nor a trust interest under bond indentures, nor mechanics' liens constitute a record title interest in land for the purpose of this chapter or local ordinance.

(b) The signature of either the holder of beneficial interests under trust deeds or the trustee under such trust deeds, but not both, may be omitted. The signature of either shall constitute a full and complete subordination of the lien of the deed of trust to the map and any interest created by the map.

(c) Signatures of parties owning the following types of interests may be omitted if their names and the nature of their respective interests are stated on the final map:

(1) Rights-of-way, easements or other interests which cannot ripen into a fee, except those owned by a public entity or public utility. If, however, the legislative body determines that division and development of the property in the manner set forth on the final map will not unreasonably interfere with the free and complete exercise of the public entity or public utility right-of-way or easement, the signature of such public entity or public utility may be omitted.

Where such determination is made the subdivider shall send, by certified mail, a sketch of the proposed final map, together with a copy of this section, to any public entity or public utility which has

previously acquired a right-of-way or easement.

If the public entity or utility objects to either (1) recording the final map without its signature; or (2) the determination of the legislative body that the division and development of the property will not unreasonably interfere with the full and complete exercise of right-of-way or easement it shall so notify the subdivision and the legislative body within 30 days after receipt of the materials from the subdivider.

If the public entity or utility objects to recording the final map without its signature, the public entity or utility so objecting may affix its signature to the final map within 30 days of filing its objection with the legislative body.

If the public entity or utility either (1) does not file an objection with the legislative body; or (2) fails to affix its signature within 30 days of filing its objection, to recording the map without its signature, the local agency may record the final map without such signature.

If the public entity or utility files an objection to the determination of the legislative body that the division and development of the property will not unreasonably interfere with the exercise of its right-of-way or easement, the legislative body shall set the matter for public hearing to be held not less than 10 nor more than 30 days of receipt of the objection. At such hearing, the public entity or public utility shall present evidence in support of its position that the division and development of the property will unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement.

If the legislative body finds, following such hearing, that the development and division will in fact unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement, it shall set forth those conditions whereby such unreasonable interference will be eliminated and upon compliance with such conditions by the subdivider, the final map may be recorded with or without the signature of the objector. If the legislative body finds that the development and division will in fact not unreasonably interfere with the free and complete exercise of the objector's right-of-way or easement, the final map may be recorded without the signature of the objector, notwithstanding its objections thereto.

Failure of the public entity or public utility to file on objection pursuant to this section shall in no way affect its rights under a right-of-way or easement.

(2) Rights-of-way, easements or reversions, which by reason of changed conditions, long disuse or laches appear to be no longer of practical use or value and signatures are impossible or impractical to obtain. A statement of the circumstances preventing the procurement of the signatures shall also be stated on the map.

(3) Interests in or rights to minerals, including but not limited to oil, gas or other hydrocarbon substances.

(d) Real property originally patented by the United States or by

the State of California, which original patent reserved interest to either or both of such entities, may be included in the final map without the consent of the United States or the State of California thereto or to dedications made thereon.

SEC. 7. Section 66445 of the Government Code is amended to read:

66445. The parcel map shall be prepared by or under the direction of a registered civil engineer or licensed land surveyor, shall show the location of streets and property lines bounding the property and shall conform to all of the following provisions:

(a) It shall be legibly drawn, printed or reproduced by a process guaranteeing a permanent record in black on tracing cloth or polyester base film. Certificates may be legibly stamped or printed upon the map with opaque ink. If ink is used on polyester base film, the ink surface shall be coated with a suitable substance to assure permanent legibility.

(b) The size of each sheet shall be 18 x 26 inches. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of one inch. The scale of the map shall be large enough to show all details clearly and enough sheets shall be used to accomplish this end. The particular number of the sheet and the total number of sheets comprising the map shall be stated on each of the sheets, and its relation to each adjoining sheet shall be clearly shown.

(c) Each parcel shall be numbered or otherwise designated.

(d) The exterior boundary of the land included within the subdivision shall be indicated by distinctive symbols and clearly so designated.

(e) The map shall show the location of each parcel and its relation to surrounding surveys. The location of any remainder of the original parcel shall be shown, but need not be shown as a matter of survey but only by reference to the existing record boundaries of such remainder if such remainder has a gross area of five acres or more.

(f) Subject to the provisions of Section 66436, a certificate, signed and acknowledged by all parties having any record title interest in the real property subdivided, consenting to the preparation and recordation of the parcel map is required, except as otherwise provided by local ordinance.

However, with respect to a division of land into four or fewer parcels, where dedications or offers of dedications are not required, the certificate shall be signed and acknowledged by the subdivider only.

(g) It shall also satisfy any additional map requirements of local ordinances consistent with this division.

SEC. 7.5. Section 66445 of the Government Code is amended to read:

66445. The parcel map shall be prepared by or under the direction of a registered civil engineer or licensed land surveyor, shall show the location of streets and property lines bounding the property and shall conform to all of the following provisions:

(a) It shall be legibly drawn, printed or reproduced by a process guaranteeing a permanent record in black on tracing cloth or polyester base film. Certificates may be legibly stamped or printed upon the map with opaque ink. If ink is used on polyester base film, the ink surface shall be coated with a suitable substance to assure permanent legibility.

(b) The size of each sheet shall be 18 x 26 inches. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of one inch. The scale of the map shall be large enough to show all details clearly and enough sheets shall be used to accomplish this end. The particular number of the sheet and the total number of sheets comprising the map shall be stated on each of the sheets, and its relation to each adjoining sheet shall be clearly shown.

(c) Each parcel shall be numbered or otherwise designated.

(d) The exterior boundary of the land included within the subdivision shall be indicated by distinctive symbols and clearly so designated.

(e) The map shall show the location of each parcel and its relation to surrounding surveys. The location of any remainder of the original parcel shall be indicated, but need not be indicated as a matter of survey but only by deed reference to the existing record boundaries of such remainder if such remainder has a gross area of five acres or more.

(f) Subject to the provisions of Section 66436, a certificate, signed and acknowledged by all parties having any record title interest in the real property subdivided, consenting to the preparation and recordation of the parcel map is required, except that less inclusive requirements may be provided by local ordinance.

However, with respect to a division of land into four or fewer parcels, where dedications or offers of dedications are not required, the certificate shall be signed and acknowledged by the subdivider only.

(g) It shall also satisfy any additional map requirements of local ordinances consistent with this division.

SEC. 8. Section 66499.34 of the Government Code is amended to read:

66499.34. No local agency shall issue any permit or grant any approval necessary to develop any real property which has been divided, or which has resulted from a division, in violation of the provisions of this division or of the provisions of local ordinances enacted pursuant to this division if it finds that development of such real property is contrary to the public health or the public safety. The authority to deny such a permit or such approval shall apply whether the applicant therefor was the owner of the real property at the time of such violation or whether the applicant therefor is the current owner of the real property with, or without, actual or constructive knowledge of the violation at the time of the acquisition of his interest in such real property.

If a city or a county issues a permit or grants approval for the

development of any such real property, it may impose those conditions that would have been applicable to the division of the property at the time the current owner of record acquired the property, and which had been established at such time by this division or local ordinance enacted pursuant thereto, except that if a conditional certificate of compliance has been filed for record under the provisions of subdivision (b) of Section 66499.35 only such conditions stipulated in that certificate shall be applicable.

SEC. 9. Section 66499.35 of the Government Code is amended to read:

66499.35. (a) Any person owning real property may request, and a local agency shall determine, whether such real property complies with the provisions of this division and of local ordinances enacted pursuant thereto. Upon making such a determination the city or the county shall cause a certificate of compliance to be filed for record with the recorder of the county in which the real property is located. The certificate of compliance shall identify the real property and shall state that the division thereof complies with applicable provisions of this division and of local ordinances enacted pursuant thereto. The local agency may impose a reasonable fee to cover the cost of issuing and recording the certificate of compliance.

(b) If a local agency determines that such real property does not comply with the provisions of this division or of local ordinances enacted pursuant thereto, it may, as a condition to granting a certificate of compliance, impose such conditions as would have been applicable to the division of the property at the time the current owner of record acquired the property, and which had been established at such time by this division or local ordinance enacted pursuant thereto. Upon making such a determination and establishing such conditions the city or county shall cause a conditional certificate of compliance to be filed for record with the recorder of the county in which the real property is located. Such certificate shall serve as notice to the property owner who has applied for the certificate pursuant to this section, a grantee of the property owner, or any subsequent transferee or assignee of the property that the fulfillment and implementation of such conditions shall be required prior to subsequent issuance of a permit or other grant of approval for development of the property.

Compliance with such conditions shall not be required until such time as a permit or other grant of approval for development of such property is issued by the local agency.

(c) A certificate of compliance shall be issued for any real property which has been approved for development pursuant to Section 66499.34.

(d) A recorded final map or parcel map shall constitute a certificate of compliance with respect to the parcels of real property described therein.

SEC. 10. Section 66499.36 of the Government Code is amended to read:

66499.36. Whenever a local agency has knowledge that real property has been divided in violation of the provisions of this division or of local ordinances enacted pursuant to this division, it shall cause to be filed for record with the recorder of the county in which the real property is located, a tentative notice of violation, describing the real property in detail, naming the owners thereof, and describing the violation, and stating that an opportunity will be given to the owner to present evidence. At least 30 days prior to the recording of a final notice the owner of the real property shall be advised in writing of the intention to record a final notice and specifying a time, date and place at which the owner may present evidence to the legislative body or advisory agency why such notice should not be recorded. If, after the owner has presented evidence, it is determined that there has been no violation, the local agency shall file a release of the tentative notice with the county recorder. Such tentative or final notice, when recorded, shall be deemed to be constructive notice of the violation to all successors in interest in such property. The county recorder shall index the names of the fee owners in the general index.

SEC. 10.5. It is the intent of the Legislature, if this bill and Senate Bill No. 1806 are both chaptered and become effective January 1, 1977, both bills amend Section 66445 of the Government Code, and this bill is chaptered after Senate Bill No. 1806, that the amendments to Section 66445 proposed by both bills be given effect and incorporated in Section 66445 in the form set forth in Section 7.5 of this act. Therefore, Section 7.5 of this act shall become operative only if this bill and Senate Bill No. 1806 are both chaptered and become effective January 1, 1977, both amend Section 66445, and this bill is chaptered after Senate Bill No. 1806, in which case Section 7 of this act shall not become operative.

SEC. 11. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 929

An act to amend Section 17262 of the Education Code, to amend Sections 24355.2 and 29100.5 of the Government Code, and to amend Section 5391 of the Revenue and Taxation Code, relating to fiscal procedures.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 17262 of the Education Code is amended to read:

17262. Any state department, board, or agency which allocates funds to any school district on the basis of the assessed valuation of property within the district, or which makes any computation on this basis for school building fund repayment purposes, shall average the factor certified for the current year under Section 17261 for the local roll of the county in which the district is located with the factors so certified for the two immediately preceding years; provided, that, in the event that an assessment ratio announced by a county assessor for the 1970–71 tax year is less than 25 percent, the factor for such county for such year shall be multiplied by a fraction in which the announced ratio is the numerator and 25 percent is the denominator, before averaging the factor of that county for 1970–71 with the 1971–72 and 1972–73 factors. The department, board, or agency shall then modify that part of the valuation of the district shown on the local roll by application of this three-year-average factor carried to three decimal places. If a district is located in more than one county, this modification shall be made by applying the average factor appropriate for the assessed value of the property upon the local roll of each county within which the district is located. If the factor for the current year is not provided to the county superintendent of schools by the fifth working day in August, the preliminary factor may be used in its place for determining the average factor to be used to modify the locally assessed valuation of a school district for allocating equalization aid, and for computing loan repayments to the state.

SEC. 2. Section 24355.2 of the Government Code is amended to read:

24355.2. In counties using a mechanized management reporting system in reporting information for a uniform four-week period, the board of supervisors by ordinance may provide for the totaling of fees as required by Section 24352, for the payment of moneys collected by each officer of a county or judicial district and the filing of a cash statement as required by Section 24353, and for the taking and subscribing of the affidavit required by either Section 24354 or Section 24355 on a corresponding uniform four-week period.

SEC. 3. Section 29100.5 of the Government Code is amended to read:

29100.5. At the time the rate of tax is fixed, counties, cities, school districts and special districts shall not take into account the exemption provided for in Section 219 of the Revenue and Taxation Code, whether such property appears on the secured or unsecured roll. On or before September 15th of each year, the auditor shall compute for each city, district and revenue district wholly or partially within the county which levies taxes on property, the amount of revenue lost by reason of the partial exemption of business inventories based on the assessed value of the exempt property reported by the county assessor pursuant to Section 219 and the tax

rate applicable to such property attributable to the city, district and revenue district for the fiscal year. The auditor shall compute for each city and school district the amount of revenue lost by reason of the partial exemption from the tax imposed on livestock under Section 5523 of the Revenue and Taxation Code.

The auditor shall allocate to each such city, district and revenue district funds received from the Controller for their losses under Section 16115 within 10 days of the receipt of such funds.

SEC. 4. Section 5391 of the Revenue and Taxation Code is amended to read:

5391. On or before the time of levying county property taxes each year, the board of supervisors of each county shall fix the rate of tax for aircraft, and shall levy the tax on aircraft. The rate shall be equal to one and one-half percent (1.5%) of the market value of the aircraft as determined pursuant to this part. If the board of supervisors of any county for any reason fails to fix the rate of tax for aircraft, the rate of tax for aircraft shall be conclusively presumed to be one and one-half percent (1.5%) of the market value of the aircraft as determined pursuant to this part.

CHAPTER 930

An act to amend Sections 2784, 2785, 2786, 2787, and 2788 of the Public Utilities Code, relating to public utilities.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 2784 of the Public Utilities Code is amended to read:

2784. A customer of a participating electrical or gas corporation who is the owner or mortgagor of real property or tenant of such property with a written consent of the owner may apply to the corporation for home insulation assistance and financing. To qualify for financing, such customer must meet the credit criteria as may reasonably be established by the corporation as approved by the commission.

SEC. 2. Section 2785 of the Public Utilities Code is amended to read:

2785. Upon approval of an application, the corporation shall arrange for a licensed contractor to perform the necessary work. Upon approval of an estimate by the customer and the corporation, the corporation shall direct the work to commence. All attic insulation installations shall meet or exceed requirements applicable at the time of installation or as may be established for existing residential structures, except where such compliance is impossible or

impractical in an existing structure and an alternative method or procedure providing satisfactory results is available. The corporation shall arrange for inspection of a representative portion of the work performed pursuant to this chapter. As used in this section, the term "attic" means any air spaces between the ceiling and roof of a residential dwelling which are accessible for the purpose of the installation of insulation.

SEC. 3. Section 2786 of the Public Utilities Code is amended to read:

2786. An electrical or gas corporation shall provide for payment by a customer for whom home insulation has been installed pursuant to this chapter through such periodic billing procedures as may be established by the corporation. The corporation may require an initial payment toward the insulation services of not greater than 20 percent with the balance due payable in equal installments during a period of 36 months following completion of the work, or at such greater rate of repayment as the customer may elect. Finance charges shall not be greater than the maximum allowable finance charges permitted for retail installment contracts. Acceptable credit cards may be utilized in lieu of these financial arrangements.

SEC. 4. Section 2787 of the Public Utilities Code is amended to read:

2787. As an alternative to the provisions of Section 2786, an electrical or gas corporation may conclude financial arrangements with one or more lending institutions in this state engaged in making home improvement loans to provide loans to customers for purposes of home insulation pursuant to this chapter. The corporation may provide for payment of the loan balance by the customer through the corporation's regular bill for public utility services. Any such financial arrangement shall include all of the following provisions:

(a) The amount financed shall be payable in equal installments during a period of 36 months following completion of the work, or at such greater rate of repayment as the customer may elect.

(b) Provision that the corporation shall not be liable to the lending institution in the event of the customer's default.

(c) Provision that approval of the customer's credit shall be at the option of the lending institution.

Notwithstanding any language contained in this section, acceptable credit cards may be utilized in lieu of the above provisions.

SEC. 5. Section 2788 of the Public Utilities Code is amended to read:

2788. The commission shall allow for purposes of setting the rates of any electrical or gas corporation participating in a home insulation assistance and financing program all expenses which the commission finds are reasonably related to the implementation and administration of the program, including commercial advertising. The commission may disapprove any such advertising or promotion which the commission finds is not reasonably designed to promote

the success of the home insulation financial assistance program.

CHAPTER 931

An act to amend Section 2104 of the Streets and Highways Code, relating to county highways.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976]

(a) Each county shall be paid one thousand six hundred sixty-seven dollars ($1,667) during each calendar month, which amount shall be expended exclusively for engineering costs and administrative expenses in respect to county roads.

(b) A sum equal to the total of all reimbursable snow removal costs filed pursuant to subdivision (d) of Section 2152, or one million five hundred thousand dollars ($1,500,000), whichever is less, shall be apportioned in 12 approximately equal monthly apportionments for snow removal on county roads as provided in Section 2110.

(c) A sum equal to five hundred thousand dollars ($500,000) shall be apportioned in 12 approximately equal monthly apportionments, as provided in Section 2110.5.

(d) Seventy-five percent of the funds payable under this section shall be apportioned among the several counties monthly in the respective proportions that the number of fee-paid and exempt vehicles which are registered in each county bears to the total number of fee-paid and exempt vehicles registered in the state.

For purposes of apportionment under this subdivision, the Department of Motor Vehicles shall, as soon as possible after the last Friday of each calendar month, furnish to the State Controller a verified statement showing the number of fee-paid and exempt vehicles which are registered in each county and in the state as of the last Friday of each calendar month as reflected by the records of the Department of Motor Vehicles.

(e) Of the remaining moneys payable, there shall be paid to each eligible county an amount monthly computed, as follows: The number of miles of maintained county road in each county shall be multiplied by forty-two dollars ($42); from the resultant amount there shall be deducted the amount received by each county under subdivision (d) and the remainder, if any, shall be paid to each county.

(f) The remaining moneys payable, after the foregoing apportionments, shall be apportioned among the several counties in the same proportion as the moneys referred to in subdivision (d).

CHAPTER 932

An act to amend Sections 2, 2.2, and 2.6 of, to add Section 3.2 to, to repeal and add Section 2.5 of, and to repeal Section 2.7 of, the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927), relating to the Orange County Flood Control District.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2 of the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927) is amended to read:

Sec. 2. The objects and purposes of this act are to provide for the control of the flood and storm waters of said district, and the flood and storm waters of streams that have their source outside of said district, but which streams and the flood waters thereof, flow into said district, and to conserve such waters for beneficial and useful purposes by spreading, storing, retaining and causing to percolate into the soil within said district, or without such district, such waters, or to save or conserve in any manner all or any of such waters and protect from damage from such flood or storm waters, the harbors, waterways, public highways and property in said district.

Said Orange County Flood Control District is hereby declared to be a body corporate and politic and as such shall have power:

1. To have perpetual succession.

2. To sue and be sued in the name of said district in all actions and proceedings in all courts and tribunals of competent jurisdiction.

3. To adopt a seal and alter it at pleasure.

9. To make contracts, and to employ labor, and to do all acts necessary for the full exercise of all powers vested in said district, or any of the officers thereof, by this act.

10. To grant or otherwise convey to counties, cities and counties, cities or towns, easements for street and highway purposes, over, along, upon, in, through, across or under any real property owned by said Orange County Flood Control District.

11. To remove, carry away and dispose of any rubbish, trash, debris or other inconvenient matter that may be dislodged, transported, conveyed or carried by means of, through, in, or along the works and structures operated or maintained hereunder and deposited upon the property of said district or elsewhere.

12. To lease, sell or dispose of any property (or any interest therein) whenever in the judgment of said board of supervisors said property, or any interest therein or part thereof, is no longer required for the purposes of said district, or may be leased, or included in community leases embracing adjoining lands, for any purpose (including leases for mining or extracting oil, gas, hydrocarbon substances or other minerals) without interfering with the use of the same for the purposes of said district, and whenever it appears that wells drilled upon private lands are draining or may drain oil, gas or other hydrocarbon substances from lands owned by the district and operations for the production of oil, gas or other hydrocarbons on such land owned by the district might interfere with the use of such land for the purposes of said district, to enter into agreements with the owners or operators of such wells for the payment of compensation to the district for such drainage in lieu of drilling offset wells upon such land owned by the district, and to pay any compensation received therefor into the general fund of said district and use the same for the purposes of this act; provided, however, that nothing herein shall authorize the board of supervisors, or other governing body of the district, or any officer thereof, to sell, lease or otherwise dispose of any water, water right, reservoir space or storage capacity, or any interest or space therein, except as hereinafter provided by Section 17 of this act; provided, however, that the district may grant to the United States of America, or any agency thereof authorized to accept and pay for such land, such parcels of land as lie within any channel, dam, or reservoir site, improved or constructed, in whole or in part, with federal funds, upon the payment to the district of the actual cost thereof as determined by the board of supervisors of the district. 13. To monitor, test, or inspect drainage, flood, storm, or other waters within the district for the purpose of recording, determining, and reporting the quality of such waters to appropriate regional water quality control boards.

14. To assist the County of Orange and any city within the county in emergency operations to control or mitigate the effect of tides, waves, and ocean currents on the Orange County shoreline.

15. To carry on technical and other investigations, examinations, or tests of all kinds, make measurements, collect data and make analyses, studies, and inspections pertaining to water supply, control of floods, use of water, water quality, nuisance, pollution, waste, and contamination of water, both within and without the district.

16. To regulate, prohibit, or control the discharge of pollutants, waste, or any other material into the district's facilities by requiring dischargers to obtain a permit from the district prior to any such discharge and by prohibiting the discharge of pollutants or other material which does or may cause a nuisance into the district's facilities without a permit first having been obtained from the district, provided that, if a federal permit has been issued for the discharge, a permit may be issued by the district at no fee to the discharger; except as provided herein, to require a fee to be collected prior to the issuance of the discharge permit, provided that the amount of the fee shall not exceed the cost of issuing the permit; to require all permitholders to indemnify the district from any and all damages, penalties, or other expenses imposed on or required of the district by state or federal agencies due to any discharge by such permitholders into the district facilities.

17. To establish compliance with any federal, state, or local law, order, regulation, or rule relating to water pollution or the discharge of pollutants, waste, or any other material into the district's facilities. For such purpose, any authorized representative of the district, upon presentation of his credentials or, if necessary under the circumstances, after obtaining an inspection warrant pursuant to Title 13 (commencing with Section 1822.50), Part 3 of the Code of Civil Procedure, shall have the right of entry to any premises on which a water pollution, waste, or contamination source is located for the purpose of inspecting such source, including securing samples of discharges therefrom, or any records required to be maintained in connection therewith by federal, state, or local law, order, regulation or rule.

SEC. 2. Section 2.2 of the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927) is amended to read:

Sec. 2.2. In addition to its other powers, the district shall have the power to increase, to improve the quality of, and to prevent the waste or diminution of the water supply in, or unlawful exportation of water from, the district; to obtain, retain, conserve, treat by physical, chemical, or biological processes, or otherwise reclaim drainage, storm, flood and other water, within or outside of the district, for beneficial use within the district or for storage, discharge,

or disposal in accordance with legally established water quality specifications; and to appropriate and acquire water and water rights, and import water into the district; to purchase water within or outside of the district for beneficial use within the district and, whenever the board of supervisors shall find it to be in the best interests of the district so to do, to sell such water for agricultural, domestic or other beneficial purposes within the district upon such terms and conditions as may be prescribed by the board of supervisors.

SEC. 3. Section 2.5 of the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927) is repealed.

SEC. 4. Section 2.5 is added to the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927), to read:

Sec. 2.5. In addition to its other powers, the district shall have the power, after holding a public hearing on reasonable notice thereof, to adopt and enforce regulations within the incorporated and unincorporated areas of the district to control and enhance the quality of waters, to eliminate the pollution, waste, and contamination of waters flowing into, through, from, or originating within watercourses and impoundments, both natural and artificial, within the district, to prevent contamination, nuisance, pollution, or otherwise rendering unfit for beneficial use the surface or subsurface water used or useful in the district, and to expend such amounts as are necessary to exercise such powers from the funds of the district.

Violation of any of the provisions of a district regulation adopted pursuant to this section may be abated as a public nuisance by the district, and the board of supervisors may by regulation establish a procedure for the abatement of such a nuisance and to assess the cost of such abatement to the violator. If the violator maintains the nuisance upon real property in which he has a fee title interest, the assessment shall be a charge upon such real property. The assessment shall be collected at the same time and in the same manner as ordinary district taxes are collected pursuant to Sections 10 and 11 of this act, and shall be subject to the same penalties and the same procedure for sale in case of delinquency as provided for ordinary district taxes. All laws applicable to the levy, collection, and enforcement of county ad valorem taxes shall be applicable to such assessment, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attached thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquent and unpaid charges relating to such property shall be transferred to the unsecured roll for collection. Any amounts of such assessments collected are to be credited to the funds of the district from which the costs of abatement were expended.

SEC. 5. Section 2.6 of the Orange County Flood Control Act

(Chapter 723 of the Statutes of 1927) is amended to read:

Sec. 2.6. (a) Whenever the board of supervisors of the district determines that it is for the best interests of the district to lease any district lands for the production of oil, gas, or other hydrocarbons, the board of supervisors shall prepare a form of lease therefor and may proceed to lease the same as provided in this section.

(b) When the form of lease has been prepared by the board of supervisors of the district the board shall give notice of intention to lease such lands. The notice shall be published once a week for two successive weeks in a daily or weekly newspaper of general circulation in the county in which such lands or the greater portion thereof are situated, and shall state the time (which shall not be less than 14 days after the last date of publication of the notice) and place for receiving and opening bids, a description of the lands, either as a tract or by parcels, and that the form of lease for the purpose of bidding may be procured at the designated office of the district.

(c) At the time and place specified in the notice, the board of supervisors of the district shall publicly open the sealed bids and shall award the lease for each parcel to the highest qualified bidder, unless in the opinion of the board of supervisors of the district, the acceptance of the highest bid for any parcel or parcels is not for the best interests of the district, in which event the board may reject the bids for such parcel or parcels. Thereupon new bids may be called for and the parcel or parcels for which the bids were rejected may be leased as herein provided.

SEC. 6. Section 2.7 of the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927) is repealed.

SEC. 7. Section 3.2 is added to the Orange County Flood Control Act (Chapter 723 of the Statutes of 1927), to read:

Sec. 3.2. Any violation of an ordinance or regulation adopted pursuant to this act is a misdemeanor punishable by a fine not to exceed five hundred dollars ($500), or imprisonment not to exceed 60 days, or by both such fine and imprisonment. Any violation or threatened violation of an ordinance or regulation of the district may also be enjoined by civil suit. Each day of such violation shall be considered a separate offense.

SEC. 8. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

CHAPTER 933

SEC. 2. Section 11703.3 of the Vehicle Code is amended to read:

11703.3. A person whose license has been revoked or whose application for a license has been denied may reapply for a license after a period of not less than one year has elapsed from the effective date of the decision revoking the license or denying the application; except that if the decision was entered under the authority of subdivision (a), (b), (c), or (g) of Section 11703, or 11703.2, or paragraph (6) of subdivision (a) of Section 11705, a reapplication accompanied by evidence satisfactory to the department that such grounds no longer exist may be made earlier than such one-year period.

SEC. 2.5. Section 11704.5 of the Vehicle Code is amended to read:

11704.5. (a) Except as otherwise provided in this section, every applicant for a mobilehome dealer's or salesman's license, and every vehicle salesman who commences working for a mobilehome dealer, shall, commencing July 1, 1976, be required to take, and successfully complete, a written examination, prepared and administered by the department. Such examination shall include, but not be limited to, subjects relating to mobilehomes, laws relating to contracts for the sale of vehicles, laws covering truth in lending, and departmental and warranty requirements.

(b) No person who, on July 1, 1976, held a then valid salesman's license and who has continuously for the same employer been a salesman of mobilehomes shall be required to take the examination specified in subdivision (a).

(c) No person who, on July 1, 1976, held a then valid dealer's license and who has continuously without lapse been a mobilehome dealer shall be required to take the examination specified in subdivision (a), regardless of whether such person subsequently makes an application to do business under a different name or form of business organization, except that a salesman of mobilehomes who makes an application for a mobilehome dealer's license shall be required to take, and successfully complete, the examination specified in subdivision (a).

(d) If the applicant for a mobilehome dealer's license is a corporation, only those persons who will participate in the direction, control, or management, or any combination thereof, of the sales

operations of the business, or who act in the capacity of vehicle salesmen, shall be required to take and successfully complete the examination specified in subdivision (a), except that if no officer or director of the corporation participates in the direction, control, or management, or any combination thereof, of the sales operations of the business, or acts in the capacity of a vehicle salesman, the corporation shall designate and maintain a responsible managing employee who is a licensed vehicle salesman and who shall be required to take, and successfully complete, the examination specified in subdivision (a) for a dealer's license before a dealer's license may be issued.

SEC. 3. Section 11725 of the Vehicle Code is amended to read:

11725. (a) No person shall transport or drive any motor vehicle from this state outside of the United States with the intent to register or sell such vehicle in a foreign jurisdiction, without first removing the license plates and delivering them to the department. Such person may obtain a permit from the department authorizing the operation of the unlicensed motor vehicle on the public highways of this state in order to reach such foreign jurisdiction. Failure to deliver the license plates as required by this subdivision shall be a misdemeanor.

(b) No holder of any license, or any temporary permit for such license issued under this division, shall deliver any vehicle following sale without first removing all license plates from such vehicle when it is known by the licensee that the vehicle is to be exported to a foreign jurisdiction outside of the United States.

SEC. 4. Section 11806 of the Vehicle Code is amended to read:

11806. The department may refuse to issue, or may suspend or revoke, a vehicle salesman's license when it determines that:

(1) The applicant or licensee has outstanding an unsatisfied final court judgment rendered in connection with an activity licensed under the authority of this division.

(2) The applicant or licensee has failed to pay over funds or property received in the course of employment to a dealer entitled thereto.

(3) The applicant or licensee has failed to surrender possession of or failed to return any vehicle to a dealer lawfully entitled thereto upon termination of employment.

(4) A cause for refusal exists under Section 11703.

(5) The applicant or licensee, based on the information contained in the application or by subsequent investigation, is not of good moral character. The conviction of a crime, including a conviction after a plea of nolo contendere, involving moral turpitude shall be prima facie evidence that the applicant or licensee is not of good moral character.

SEC. 5. Section 11810 of the Vehicle Code is amended to read:

11810. (a) The department may, pending a hearing, temporarily suspend the license issued to a vehicle salesman for a period not to exceed 30 days if the director finds that such action is required in the

public interest. In any such case, a hearing shall be held and a decision thereon issued within 30 days after notice of the temporary suspension.

(b) Except where the provisions of this code require the refusal to issue a license, the department may issue a probationary license subject to conditions to be observed by the licensee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

(c) If the department issues or renews a vehicle salesman's license requiring conditions of probation or if the department refuses to issue a vehicle salesman's license, the applicant shall be entitled to demand in writing a hearing before the director or his representative within 60 days after notice of refusal to issue or issuance of the probationary license.

(d) A person whose license has been revoked or whose application for a license has been denied may reapply for such license after a period of not less than one year has elapsed from the effective date of the decision revoking the license or denying the application; provided, however, that if such decision was based upon subdivision (1) of Section 11806, an earlier reapplication may be made accompanied by evidence satisfactory to the department that such grounds no longer exist.

SEC. 6. Section 11903 of the Vehicle Code is amended to read:

11903. (a) If the department suspends or revokes a representative's license, the licensee shall be entitled to an appropriate hearing. Such hearing shall be conducted pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(b) If the department issues or renews a representative's license requiring conditions of probation or if the department refuses to issue such license, the applicant shall be entitled to demand in writing a hearing as hereinabove provided before the director or his representative within 60 days after notice of refusal or issuance of the probationary license.

(c) A person whose representative's license has been revoked or whose application for a license has been denied may reapply for such license after a period of not less than one year has elapsed from the effective date of the decision revoking the license or denying the application; provided, however, that if such decision was based upon paragraph (3) or (4) of subdivision (b) of Section 11902, an earlier reapplication may be made accompanied by evidence satisfactory to the department that such grounds no longer exist.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because

the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 935

An act to amend Section 10858 of the Revenue and Taxation Code, and to amend Sections 5106, 5109, 9562, and 38246 of, and to add Sections 4605 and 38247 to, and to repeal Section 4605 of, the Vehicle Code, relating to vehicles, and making an appropriation therefor.

(b) Other provisions of this code notwithstanding, the Director of Motor Vehicles may, at his discretion, investigate into the circumstances of any application for registration to ascertain if penalties had accrued through no fault or intent of the owner. (d) Upon the transfer of a vehicle for which license fees and any penalties thereon are unpaid and due, such fees and penalties are, notwithstanding the provisions of Article 2 (commencing with Section 10876) of this chapter, the personal debt of the transferor of the vehicle who did not pay such fees and penalties when they

became due or accrued. Such fees and penalties may be collected by the department in an appropriate civil action if the department has waived such fees and penalties pursuant to subdivision (c).

SEC. 2. Section 4605 of the Vehicle Code is repealed.

SEC. 3. Section 4605 is added to the Vehicle Code, to read:

4605. (b) In addition to the regular renewal fee, for the vehicle to which such plates are assigned, the applicant for a renewal of such plates shall be charged an additional fee of ten dollars ($10).

(c) Notwithstanding the provisions of subdivision (b) of this section, when payment of renewal fees is not required as specified in Section 4000, the holder of any environmental license plate may retain the plate for a period not exceeding one year upon payment of a fee of ten dollars ($10). Such fee shall be due at the expiration of the registration year of the vehicle to which the environmental license plate was last assigned.

SEC. 5. Section 5109 of the Vehicle Code is amended to read:

(b) Other provisions of this code notwithstanding, the director may at his discretion investigate into the circumstances of any application for registration to ascertain if penalties had accrued through no fault or intent of the owner. Provided such circumstances prevail, the director may waive any penalties upon payment of the

fees for registration then due.

(c) When a transferee or purchaser of a vehicle applies for transfer of registration of a vehicle, and it is determined by the department that fees for registration of the vehicle for any year are unpaid and due, that such fees became due prior to the purchase of the vehicle by the transferee or purchaser and that the transferee or purchaser was not cognizant of the fact that such fees were unpaid and due, the department may waive such fees and any penalty thereon when the license fees due for the vehicle for the current year are paid.

(d) Upon the transfer of a vehicle for which fees for registration and any penalties thereon are unpaid and due, such fees and penalties are, notwithstanding the provisions of Article 6 (commencing with Section 9800) of this chapter, the personal debt of the transferor of the vehicle who did not pay such fees and penalties when they became due or accrued. Such fees and penalties may be collected by the department in an appropriate civil action if the department has waived such fees and penalties pursuant to subdivision (c).

SEC. 7. Section 38246 of the Vehicle Code is amended to read:

38246. (a) A penalty shall be added upon any application for renewal of identification made on or after the day following the expiration date except as provided in Section 4605, 38122, or 38247.

(b) If the fee specified in subdivision (a) or (c) of Section 38255 is not paid within 10 days after such fee becomes delinquent, a penalty shall be added thereto.

(c) When renewal fee penalties have not accrued and the ownership of the vehicle is transferred, the transferee shall have a period of 20 days from the date of such transfer to pay any identification fees which become due without payment of any penalties that would otherwise be required as provided in subdivision (a).

(d) Except as otherwise provided in this section, if any fee is not paid within 20 days after such fee becomes delinquent a penalty shall be added thereto.

SEC. 8. Section 38247 is added to the Vehicle Code, to read:

38247. (a) When a transferee or purchaser of a vehicle applies for transfer of identification, as provided in Section 38205, and it is determined by the department that penalties accrued prior to the purchase of the vehicle, and that the transferee or purchaser was not cognizant of the nonpayment of the fees for identification for the current or prior identification years, the department may waive the identification penalties upon payment of the fees for identification due.

(b) Other provisions of this code notwithstanding, the director may at his discretion investigate into the circumstances of any application for identification to ascertain if penalties had accrued through no fault or intent of the owner. Provided such circumstances prevail, the director may waive any penalties upon payment of the

fees for identification then due.

(c) When a transferee or purchaser of a vehicle applies for transfer of identification of a vehicle, and it is determined by the department that fees for identification of the vehicle for any year are unpaid and due, that such fees became due prior to the purchase of the vehicle by the transferee or purchaser and that the transferee or purchaser was not cognizant of the fact that such fees were unpaid and due, the department may waive such fees and any penalty thereon when the identification fees due for the vehicle for the current year are paid.

(d) Upon the transfer of a vehicle for which fees for identification and any penalties thereon are unpaid and due, such fees and penalties are, notwithstanding the provisions of Article 6 (commencing with Section 9800) of this chapter, the personal debt of the transferor of the vehicle who did not pay such fees and penalties when they became due or accrued. Such fees and penalties may be collected by the department in an appropriate civil action if the department has waived such fees and penalties pursuant to subdivision (c).

If the defense is applicable, any such slot machine shall be returned pursuant to provisions of law providing for the return of property.

(c) It is the purpose of this section to protect the collection and restoration of antique slot machines not presently utilized for gambling purposes because of their aesthetic interest and

CHAPTER 937

SEC. 2. Section 221 is added to the Vehicle Code, to read:

221. (a) The term "automobile dismantler" does not include:

(1) The owner of any premises on which two or more unregistered and inoperable vehicles are held or stored where such vehicles are used, or intended to be used, for restoration or as replacement parts or otherwise in conjunction with any business of a licensed dealer, manufacturer, or transporter, or in conjunction

The trustees shall require that each applicant for a grant pursuant to this chapter also make prior or concurrent application for a federal basic educational opportunity grant, unless the trustees are satisfied that the applicant is not eligible for such federal grant.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act shall be given maximum implementation and be in effect to provide assistance to students at the beginning of the 1976–77 academic year, it is necessary that it be given effect at the earliest possible time.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The funds appropriated by this act are required to comply with a peremptory writ of mandate issued October 8, 1975, by Judge Lloyd A. Phillips, Jr., (California Association of Highway Patrolmen v. Department of California Highway Patrol, State of California et al.—San Francisco Superior Court #657-145), directing the Department of the California Highway Patrol to "immediately and forthwith" furnish state-owned safety and police protective equipment listed in the writ to all California Highway Patrolmen who were not issued such equipment. CHAPTER 940

An act to amend Section 232 of the Civil Code, relating to parental custody and control.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 232 of the Civil Code is amended to read:

232. (a) An action may be brought for the purpose of having any person under the age of 18 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(1) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another for a period of six months or by one parent in the care and custody of the other parent for a period of one year without any provision for his support, or without communication from such parent or parents, with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents. In those cases in which the child has been left without provision for his identification and the whereabouts of the parents are unknown, a petition may be filed after the 120th day following the discovery of the child and citation by publication may be commenced. The petition may not be heard until after the 180th day following the discovery of the child.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(2) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(3) Whose parent or parents suffer a disability because of the habitual use of alcohol, or any of the controlled substances specified in Schedules I to V, inclusive, of Division 10 (commencing with Section 11000) of the Health and Safety Code, except when such controlled substances are used as part of a medically prescribed plan, or are morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such disability, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such parent or parents. As used in this subdivision, "disability" means any physical or mental incapacity which renders the parent or parents unable to adequately care for and control the child.

(4) Whose parent or parents are convicted of a felony, if the facts of the crime of which such parent or parents were convicted are of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child.

(5) Whose parent or parents have been declared by a court of competent jurisdiction wherever situated to be mentally deficient or mentally ill, if, in the state or country in which the parent or parents are hospitalized or resident, the State Director of Health, or his equivalent, if any, and the superintendent of the hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(6) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two physicians and surgeons each of which must have been certified either by the American Board of Psychiatry and Neurology or under Section 6750 of the Welfare and Institutions Code. If, however, the parent or parents reside in another state or in a foreign country, the testimony herein may be supplied by two physicians and surgeons who are residents of such state or foreign country, if such physicians and surgeons have been certified by a medical organization or society of that state or foreign country to practice psychiatric or neurological medicine and if the court determines that the certification requirements of such organization or society are comparable to those of the American Board of Psychiatry and Neurology.

The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the court shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

(7) Who has been cared for in one or more foster homes under the

supervision of the juvenile court, the county welfare department or other public or private licensed child-placing agency for two or more consecutive years, providing that the court finds beyond reasonable doubt that return of the child to his parent or parents would be detrimental to the child and that the parent or parents have failed during such period, and are likely to fail in the future, to

(i) Provide a home for said child;

(ii) Provide care and control for the child; and

(iii) Maintain an adequate parental relationship with the child.

Physical custody of the child by the parent or parents for insubstantial periods of time during the required two-year period will not serve to interrupt the running of such period.

(b) A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

SEC. 2. Section 232 of the Civil Code is amended to read:

232. (a) An action may be brought for the purpose of having any person under the age of 18 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(1) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another for a period of six months or by one parent in the care and custody of the other parent for a period of one year without any provision for his support, or without communication from such parent or parents, with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents. In those cases in which the child has been left without provision for his identification and the whereabouts of the parents are unknown, a petition may be filed after the 120th day following the discovery of the child and citation by publication may be commenced. The petition may not be heard until after the 180th day following the discovery of the child.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed

county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(2) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(3) Whose parent or parents suffer a disability because of the habitual use of alcohol, or any of the controlled substances specified in Schedules I to V, inclusive, of Division 10 (commencing with Section 11000) of the Health and Safety Code, except when such controlled substances are used as part of a medically prescribed plan, or are morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such disability, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such parent or parents. As used in this subdivision, "disability" means any physical or mental incapacity which renders the parent or parents unable to adequately care for and control the child.

(4) Whose parent or parents are convicted of a felony, if the facts of the crime of which such parent or parents were convicted are of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child.

(5) Whose parent or parents have been declared by a court of competent jurisdiction wherever situated to be mentally deficient or mentally ill, if, in the state or country in which the parent or parents are hospitalized or resident, the State Director of Health, or his equivalent, if any, and the superintendent of the hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(6) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two physicians and surgeons each of which must have been certified either by the American Board of Psychiatry and Neurology or under Section 6750 of the Welfare and Institutions Code. If, however, the parent or parents reside in another state or in a foreign country, the testimony herein may be supplied by two physicians and surgeons who are residents of such state or foreign country, if such physicians and surgeons have been certified by a medical organization or society of that state or foreign country to practice psychiatric or neurological medicine and if the court determines that the certification requirements of such organization or society are comparable to those of the American Board of Psychiatry and

Neurology.

The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the court shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

(7) Who has been cared for in one or more foster homes under the supervision of the juvenile court, the county welfare department or other public or private licensed child-placing agency for two or more consecutive years, providing that the court finds by clear and convincing evidence that return of the child to his parent or parents would be detrimental to the child and that the parent or parents have failed during such period, and are likely to fail in the future, to

(i) Provide a home for said child;

(ii) Provide care and control for the child;

(iii) Maintain an adequate parental relationship with the child; and

(iv) Maintain continuous contact with the child, unless unable to do so.

Physical custody of the child by the parent or parents for insubstantial periods of time during the required two-year period will not serve to interrupt the running of such period.

(b) A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 1385 are both chaptered and become effective January 1, 1977, both bills amend Section 232 of the Civil Code, and this bill is chaptered after Senate Bill No. 1385, that the amendments to Section 232 proposed by both bills be given effect and incorporated in Section 232 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 1385 are both chaptered and become effective January 1, 1977, both amend Section 232, and this bill is chaptered after Senate Bill No. 1385, in which case Section 1 of this act shall not become operative.

CHAPTER 941

An act to add Section 25957 to the Health and Safety Code, relating to fetuses.

04417 293355 488

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 25957 is added to the Health and Safety Code, to read:

25957. (a) Except as provided in subdivision (b), at the conclusion of any scientific or laboratory research or any other kind of experimentation or study upon fetal remains, such fetal remains shall be promptly interred or disposed of by incineration.

Storage of such fetal remains prior to the completion of the research, experimentation, or study shall be in a place not open to the public, and the method of storage shall prevent any deterioration of the fetal remains which would create a health hazard.

(b) The provisions of subdivision (a) shall not apply to public or private educational institutions.

Any violation of this section is a misdemeanor.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 942

An act to amend Sections 6891, 6895, and 6897 of the Public Resources Code, relating to mineral deposits, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1976. Filed with Secretary of State September 14, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 6891 of the Public Resources Code is amended to read:

6891. The commission may issue a prospecting permit, under such rules and regulations as it may prescribe, for lands which are not known mineral lands to any qualified applicant, upon the payment to the commission of one dollar ($1) per acre for each acre in area embraced within the boundaries of the lands described in the permit. No permit shall be issued for any lands which have been classified by the commission prior to such application as containing commercially valuable mineral deposits. Upon receipt of an

application for a permit, the commission shall determine whether the lands described therein are known mineral lands. If it determines that the lands are known mineral lands, it shall thereupon so classify them and shall reject the application for a prospecting permit.

Subject to such terms and conditions as the commission may determine to be in the best interest of the state, a prospecting permit shall give to the permittee the exclusive right for a period not exceeding two years to prospect for minerals other than oil and gas or other hydrocarbon substances upon lands wherein such mineral deposits belong to the state.

The commission may, in its discretion, extend the term of any permit for a period not exceeding one year, but the term of any such permit, including extensions, shall be limited to a total three years.

SEC. 2. Section 6895 of the Public Resources Code is amended to read:

6895. Upon establishing to the satisfaction of the commission that commercially valuable deposits of minerals have been discovered within the limits of any permit, the permittee shall be entitled to a lease for not more than 160 acres of the land embraced in the prospecting permit, if there be that number of acres within the permit. The area selected by the permittee shall be in compact form, and if surveyed shall be described by the legal subdivisions of the public lands surveys; if unsurveyed, the area shall be surveyed by the commission at the expense of the applicant for the lease, in accordance with rules and regulations to be prescribed by the commission, and the lands leased shall be conformed to and taken in accordance with the legal subdivisions of such surveys. The lease shall provide for the payment of an annual rental of not less than one dollar ($1) per acre, as determined by the commission. The lease shall also provide for payment of either a royalty of not less than 10 percent of the gross revenue received from the sale of mineral products, less any charges approved by the commission that were made or incurred with respect to transporting or processing such products, or a percentage, to be determined by the commission, of the net profits derived from mineral extraction operations under the lease. Payment as a royalty or as a percentage of net profits shall be specified in the permit. Notwithstanding the 160-acre limitation of this section, whenever the lands for which a lease is sought are tide and submerged lands, the commission may divide such lands into such size and number of parcels as the commission shall determine will not substantially impair the public rights to navigation and fishing or interfere with the trust upon which such lands are held.

SEC. 3. Section 6897 of the Public Resources Code is amended to read:

6897. All deposits of minerals, other than oil and gas, in lands belonging to the state, which have been classified by the commission as lands containing commercially valuable mineral deposits and all deposits of such minerals within lands embraced within a prospecting permit and not subject to preferential lease to the

permittee, may be leased by the commission to the highest qualified and responsible bidder; and bidding shall be by competitive bid and on the basis of a cash bonus, royalty rate, net profit, or other single biddable factor, and shall be conducted under general regulations and in such form as the commission deems to be to the best interest of the state. In addition to the payment of a royalty or a percentage of the net profits derived from mineral extraction operations provided therein, each bid and each lease shall also provide for an annual payment in advance of rent of not less than one dollar ($1) per acre or such greater sum as the commission may specify.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Inasmuch as this act provides for revenues that are greatly needed by the state and for certain savings to the State Lands Commission in its operations, it is necessary that this act take effect immediately.

CHAPTER 943

An act to repeal Section 413½ of the Penal Code, relating to boxing contests.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 413½ of the Penal Code is repealed.

CHAPTER 944

An act to amend Section 2611.5 of the Revenue and Taxation Code, and to add Sections 26601.1 and 26625.1 to the Water Code, relating to irrigation district assessments.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2611.5 of the Revenue and Taxation Code is amended to read:

2611.5. (a) The following information shall be included either in each county tax bill or in a separate statement accompanying the tax bill:

(1) The full value and the assessed value of locally assessed

property; if in addition thereto a different assessment is required for irrigation district purposes pursuant to Section 26625.1 of the Water Code, the assessed value for such purpose.

(2) The assessment ratio used to determine the assessed value.

(3) The tax rates or the dollar amounts of taxes levied by each revenue district and taxing agency on the property covered by the tax bill.

(4) In lieu of itemizing the information required by paragraph (3) of this subdivision, the tax rates or dollar amounts of taxes levied on the property covered by the bill for county and city purposes. The tax rates or dollar amounts of taxes levied on the property for other purposes shall be itemized. This option is available only if the information is included on the tax bill.

(b) With respect to any property for which the homeowners' property tax exemption is granted, the tax bill or accompanying statement shall include, in addition to the information required by subdivision (a), the following:

(1) The assessed value of the property;

(2) The amount of the homeowners' exemption;

(3) The total tax rate applicable on the property covered by the tax bill;

(4) The gross taxes prior to the application of the homeowners' exemption;

(5) The amount of tax reduction attributable to the homeowners' exemption; and

(6) The total taxes due on the property covered by the tax bill.

(c) The information required by subdivision (b) for single-family homes shall be in the form of the following example:

(1) Assessed value of the property	$5,000
(2) Homeowners' exemption	$1,750
(3) Total tax rate applicable to the property	$10
(4) Gross taxes prior to the application of the homeowners' exemption	$500
(5) Tax reduction attributable to the state-financed homeowners' property tax relief program	$175
(6) Total taxes due	$325

(d) In any year in which all of the assessments on the local secured roll have been raised or lowered as a result of a board order adopted pursuant to Section 18, Article XIII of the California Constitution, the full value may be omitted or, if shown, the tax bill shall include an explanation of the inconsistency of that figure with the equalized assessed value and the announced assessment ratio. The explanation required by this subdivision may be printed on an enclosure accompanying such bill.

SEC. 2. Section 26601.1 is added to the Water Code, to read:

26601.1. (a) At its option, the board of directors of the Madera Irrigation District may adopt a resolution declaring its intention to dispense with either the office of the assessor or the office of the

collector of the district. Such resolution shall specify either or both of the following:

(1) The county assessor is to assess all lands in the district in accordance with Section 401 of the Revenue and Taxation Code as of 12:01 a.m. on the first day of March of that year, and the assessor is to deliver a roll of all such assessments to the clerk of the district.

(2) The county collector is to collect the district's annual assessment levy in the manner prescribed in Article 3 (commencing with Section 26650) of this chapter.

(b) Such resolution shall specify whether, under the proposed procedure, lands subject to sale for unpaid assessments shall be sold to the district or sold to the state.

SEC. 3. Section 26625.1 is added to the Water Code, to read:

26625.1. If in the Madera Irrigation District, the county assessment roll reflects assessed value based on the California Land Conservation Act of 1965 (Williamson Act), (Chapter 7 (commencing with Section 51200) of Part 1 of Division 1 of Title 5 of the Government Code) for any parcel, then, upon the request of the Madera Irrigation District, such parcel shall also be assessed by the county assessor pursuant to Section 401 of the Revenue and Taxation Code. The assessed value for such parcel thus determined shall be entered on a supplemental assessment roll for district assessment purposes only and shall be used by the assessor for district assessments. The Madera Irrigation District shall reimburse the county for any increased cost incurred in making such additional assessment.

SEC. 4. The Legislature hereby finds and declares that use of the county assessment roll in the Madera Irrigation District has resulted in an inequitable apportionment of the costs of providing water for use in the Madera Irrigation District and that this act is therefore necessary to remove such inequity.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

CHAPTER 945

An act to amend Section 16851 of the Education Code, and to amend Section 545 of, and to add Sections 2807.1 and 2807.2 to, the Vehicle Code, relating to schoolbuses, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

(b) A 9-passenger or 10-passenger station wagon when used for the transportation of not more than eight pupils and the driver, other than the regular transportation of pupils to and from a public or private school or the transportation of mentally retarded or physically handicapped pupils.

(d) A motor vehicle operated by a common carrier, or by and under exclusive jurisdiction of a publicly owned transit system, on scheduled runs but not used exclusively for the transportation of school pupils.

The designation shall not be effective until written notification thereof has been filed with the Superintendent of Public Instruction.

A vehicle defined as a "schoolbus" or exempt under subdivision (d) or (e) which is occupied, aside from the driver, exclusively by school pupils or exclusively by school pupils and persons accompanying them for supervisory purposes, to which the use by the general public is prohibited by the carrier under a contract or agreement with the school and which is being operated to transport pupils to and from a public or private school activity, shall be driven by a driver who possesses a valid California schoolbus driver's certificate as provided for pursuant to regulations adopted by the State Board of Education. Such regulations, however, shall not require drivers who operate such vehicles to duplicate training or schooling that they have otherwise received which is equivalent to that required pursuant to such regulations, nor shall such regulations require drivers who operate such vehicles to take training in first aid; provided, a valid California schoolbus driver's certificate shall not entitle the bearer to drive any other vehicle than that specified in this subdivision, and such driver's certificate shall distinguish drivers who have received a schoolbus driver's certificate pursuant to such regulations.

(b) No person shall drive any motor vehicle specified in subdivision (a) unless there is displayed therein a certificate issued by the Department of the California Highway Patrol stating that on a certain date, which shall be within 13 months of the date of operation, an authorized employee of the Department of the California Highway Patrol inspected such motor vehicle and found that on the date of inspection such motor vehicle complied with the applicable provisions of the state law. The Commissioner of the California Highway Patrol shall provide by rule or regulation for the issuance and display of distinctive inspection certificates.

SEC. 6. Section 3 of this act shall become operative on January 1, 1977.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A recent tragic schoolbus accident involving the death of many pupils has indicated schoolbus safety standards should be improved. In order to upgrade schoolbus safety standards and make the transportation of pupils in schoolbuses as safe as possible, at the earliest possible time, and to permit the Department of the California Highway Patrol adequate time to implement the provisions of this act, it is essential that this act take immediate effect.

The people of the State of California do enact as follows:

SECTION 1. Section 690.18 of the Code of Civil Procedure is amended to read:

690.18. Such moneys, benefits, and credits shall be exempt without filing a claim of exemption as provided in Section 690.50.

(c) All money held, controlled, or in process of distribution by any private retirement plan, including, but not limited to, union retirement plans, or any profit-sharing plan designed and used for retirement purposes, or the payment of benefits as an annuity, pension, retirement allowance, disability payment or death benefit from such retirement or profit-sharing plans, and all contributions and interest thereon returned to any member of any such retirement or profit-sharing plan, are exempt from execution, attachment, or garnishment in any bankruptcy proceeding. The manner in which, the times at which, and the terms for which the members of the board of education created pursuant to this section shall be elected or appointed, and their qualifications, compensation, and removal, shall be governed by the general provisions of law governing school district governing boards; except that, in order to provide for an orderly transition, the members of the board in office on the effective date of the charter amendment shall each continue in office until the first day of April next succeeding the year in which their respective terms of office would otherwise have terminated.

12362. 12364. Within 180 days after the filing of an application as provided for in Section 12363, or such additional period as may be agreed upon by the department and the applicant, the department shall actually test the vest to see if it conforms to the standards set forth in Section 12361, and shall issue an order certifying such vest as acceptable, or give the applicant notice for any opportunity for a hearing before the department on the question whether such vest is acceptable. If the applicant elects to accept the opportunity for hearing by written request within 30 days after such notice, such hearing shall commence not more than 30 days after receiving such request unless the department and the applicant otherwise agree. Such hearing shall be heard on an expedited basis and the department shall issue an order granting or denying certification within 30 days after the date fixed by the department for filing final briefs.

12365. The department shall issue an order refusing to certify a vest as acceptable if, after due notice to the applicant, the department finds any of the following:

(a) That the vest does not satisfy the requirements prescribed by Section 12361 or by the department pursuant to that section.

(b) That the application contains any misrepresentation of a material fact.

(b) That the application contains any misrepresentation of a material fact.

12367. The department may adopt and promulgate regulations for the fair and efficient enforcement of this chapter.

12368. (a) All purchases of certified bulletproof vests under the provisions of this chapter shall be made by the Department of General Services on behalf of the California Highway Patrol. 12369. The Department of General Services shall, pursuant to departmental regulation, after consultation with the Department of the California Highway Patrol and the California State Police Division, define the term "enforcement activities" for purposes of this chapter, and develop standards regarding what constitutes sufficient wear on such vests to necessitate replacement thereof.

SEC. 2. Chapter 3.5 (commencing with Section 12360) is added to Title 2 of Part 4 of the Penal Code, to read:

CHAPTER 3.5. BULLETPROOF VEST CERTIFICATION

12360. No bulletproof vest shall be acquired by the commissioner pursuant to Section 2259.9 of the Vehicle Code or a local agency pursuant to Section 50081.5 of the Government Code unless, pursuant to Section 12361, the Department of Justice has certified such bulletproof vest.

If the applicant elects to accept the opportunity for hearing by written request within 30 days after such notice, such hearing shall commence not more than 30 days after receiving such request unless the department and the applicant otherwise agree. Such hearing shall be heard on an expedited basis and the department shall issue an order granting or denying certification within 30 days after the date fixed by the department for filing final briefs.

12365. The department shall issue an order refusing to certify a vest as acceptable if, after due notice to the applicant, the department finds any of the following:

(4) Unlawfully using or being under the influence of marijuana, in violation of Section 11550, as it existed prior to January 1, 1976, or a statutory predecessor thereof.

Any person subject to such an arrest or conviction may apply to the Department of Justice for destruction of records pertaining thereto if two years or more have elapsed since the date of the conviction, or since the date of the arrest if not followed by a conviction. The application shall be submitted upon a form supplied by the Department of Justice and shall be accompanied by a fee, which shall be established by the department in such amount as will defray the cost of administering this subdivision and costs incurred by the state under subdivision (e), but which shall not exceed thirty-seven dollars and fifty cents ($37.50). The application form shall be made available at every local police or sheriff's department and from the Department of Justice and may require such information as the department determines is necessary for purposes of identification.

The department may request, but not require, the applicant to include a self-administered fingerprint upon the application. If the department is unable to sufficiently identify the applicant for purposes of this subdivision without such fingerprint or without additional fingerprints, it shall so notify the applicant and shall request the applicant to submit such fingerprints as may be required to effect identification, including a complete set if necessary, or, alternatively, to abandon the application and request a refund of all or a portion of the fee submitted with the application, as provided in this section. If the applicant fails or refuses to submit fingerprints in accordance with the department's request within such reasonable time as shall be established by the department or if the applicant requests a refund of the fee, the department shall promptly mail a refund to the applicant at the address specified in the application or at such other address as may be specified by the applicant. However, if the department has notified the applicant that election to abandon the application will result in forfeiture of a specified amount which is a portion of the fee, the department may retain such portion of the fee as the department may determine will defray the actual costs of processing the application, provided, the amount of such portion retained shall not exceed ten dollars ($10).

Upon receipt of a sufficient application, the Department of Justice shall destroy records of the department, if any, pertaining to such arrest or conviction in the manner prescribed by subdivision (c) and shall notify the Federal Bureau of Investigation, the law enforcement agency which arrested the applicant, and, if the applicant was convicted, the probation department which investigated the applicant and the Department of Motor Vehicles, of the application. Each state or local agency receiving such a notice from the Department of Justice shall destroy records of such agency, if any, pertaining to the arrest or conviction specified in the notice, in the manner prescribed by subdivision (c). The application form and the notices from the department to the agencies specified in this subdivision shall be destroyed by the department or agency, as the case may be, at the time the other records of the arrest or conviction are destroyed.

(c) Destruction of records of arrest or conviction pursuant to subdivision (a) or (b) of this section shall be accomplished by permanent obliteration of all entries or notations upon such records pertaining to the arrest or conviction, and the record shall be prepared again so that it appears that the arrest or conviction never occurred. However, where (1) the only entries upon the record pertain to such arrest or conviction and (2) the record can be destroyed without necessarily effecting the destruction of other records, then the document constituting the record shall be physically destroyed.

(d) Notwithstanding subdivision (a) or (b), written transcriptions of oral testimony in court proceedings and published judicial appellate reports shall not be subject to the provisions of this section. Additionally, no records shall be destroyed pursuant to subdivision (a) if the defendant or a codefendant has filed a civil action against the peace officers or law enforcement jurisdiction which made the arrest or instituted the prosecution and if the agency which is the custodian of such records has received a certified copy of the complaint in such civil action, until the civil action has finally been resolved. Immediately following the final resolution of the civil action, records subject to subdivision (a) of this section shall be destroyed pursuant to subdivision (a) if more than two years has elapsed from the date of the conviction or arrest without conviction.

(e) Costs incurred by local agencies in complying with the provisions of subdivision (b) shall be reimbursed as provided in Section 2231 of the Revenue and Taxation Code.

SEC. 2. Section 11361.7 is added to the Health and Safety Code, to read:

11361.7. (a) Any record subject to destruction or permanent obliteration pursuant to Section 11361.5, or more than two years of age, or a record of a conviction for an offense specified in subdivision (a) or (b) of Section 11361.5 which became final more than two years previously, shall not be considered to be accurate, relevant, timely, or complete for any purposes by any agency or person. The provisions of this subdivision shall be applicable for purposes of the Privacy Act of 1974 (5 U.S.C. Section 552a) to the fullest extent permissible by law, whenever any information or record subject to destruction or permanent obliteration under Section 11361.5 was obtained by any state agency, local public agency, or any public or private agency that provides services upon referral under Section 1000.2 of the Penal Code, and is thereafter shared with or disseminated to any agency of the federal government.

(b) No public agency shall alter, amend, assess, condition, deny, limit, postpone, qualify, revoke, surcharge, or suspend any certificate, franchise, incident, interest, license, opportunity, permit, privilege, right, or title of any person because of an arrest or conviction for an offense specified in subdivision (a) or (b) of Section 11361.5, or because of the facts or events leading to such an arrest or conviction, on or after the date the records of such arrest or

conviction are required to be destroyed by subdivision (a) of Section 11361.5, or two years from the date of such conviction or arrest without conviction with respect to arrests and convictions occurring prior to January 1, 1976. As used in this subdivision, "public agency" includes, but is not limited to, any state, county, city and county, city, public or constitutional corporation or entity, district, local or regional political subdivision, or any department, division, bureau, office, board, commission or other agency thereof.

(c) Any person arrested or convicted for an offense specified in subdivision (a) or (b) of Section 11361.5 may, two years from the date of such a conviction, or from the date of the arrest if there was no conviction, indicate in response to any question concerning his prior criminal record that he was not arrested or convicted for such offense.

(d) The provisions of this section shall be applicable without regard to whether destruction or obliteration of records has actually been implemented pursuant to Section 11361.5.

SEC. 3. Section 432.8 is added to the Labor Code, to read:

432.8. The limitations on employers and the penalties provided for in Section 432.7 shall apply to a conviction for violation of subdivision (b) or (c) of Section 11357 of the Health and Safety Code or a statutory predecessor thereof, or subdivision (c) of Section 11360 of the Health and Safety Code, or Section 11364, 11365, or 11550 of the Health and Safety Code as they related to marijuana prior to January 1, 1976, or a statutory predecessor thereof, two years from the date of such a conviction.

SEC. 4. It is the intent of the Legislature that local governments shall be reimbursed for any costs mandated by the state which are associated with the implementation of subdivision (b) of Section 11361.5 of the Health and Safety Code, as amended by this act, and that such costs shall be reimbursed through the regular budget process. Therefore, notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

SEC. 5. If any provision of subdivision (a) or (b) of Section 11361.5 of the Health and Safety Code, as they existed prior to January 1, 1977, is held invalid by a decision of a court of this state which is not, or is no longer, subject to appeal, then, to the extent logically mandated by such judicial decision, the same or any analogous provision of Section 11361.5 of the Health and Safety Code, as amended by this act, shall be inoperative on and after the date such judicial decision becomes final.

If so, can such interests be identified and can the extent of such ownership interests be determined?

(5) What would the task force recommend, if anything, to encourage the development and harnessing of geothermal resources and specifically to attract capital for the development of such resources? Should the State of California play a role in insuring that such capital is attracted, and if so, in what way?

(6) What are the major current problems in the development of geothermal energy?

(7) Is the State of California, or any of its agencies, aware of any and all methods utilized for the development and harnessing of geothermal energy? If so, what are such methods and, if not, should the state develop methods or enact provisions of law whereby the state can be kept informed?

(13) Would it be in the interest of the State of California to establish rules, regulations and guidelines, and time limits for the development of geothermal resources or certain geothermal fields in

the State of California?

(14) In regard to questions 10 to 13, inclusive, what specific recommendations does the task force have?

(15) Are there environmental considerations in the development of geothermal resources and, if so, what are they and what are the most feasible methods of insuring that geothermal resources are developed with the least possible impact upon the ecosystem, and how might unavoidable impacts be mitigated or compensated?

CHAPTER 960

An act to add Part 3.5 (commencing with Section 1823) to the Code of Civil Procedure, relating to procedure in civil cases.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Part 3.5 (commencing with Section 1823) is added to the Code of Civil Procedure, to read:

PART 3.5. OF ALTERNATIVE PROCEDURES

TITLE 1. PILOT PROJECTS

1823. The Legislature finds and declares that the costs of civil litigation have risen sharply in recent years. This increase in litigation costs makes it more difficult to enforce smaller claims even though the claim is valid or makes it economically disadvantageous to defend against an invalid claim.

The Legislature further finds and declares that the development of simplified procedures to reduce the expense of litigation is inhibited by the absence from present law of methods for experimentation with procedural innovations to reduce expense. Hence, it has not been possible to adopt the usual management technique of a trial pilot program on a small scale of changed methods of operation with the expectation that experience with the pilot program will permit its permanent adoption in its designed form or with modification as experience dictates.

The Legislature further finds and declares that there is a compelling state interest in the development of pleading, pretrial and trial procedures which will reduce the expense of litigation to the litigants and there is likewise a compelling state interest in experimentation on a small scale with new procedures to accomplish that result before those procedures are adopted statewide. Therefore, the provisions of this part are added to this code to provide a means of experimentation with procedural innovations to reduce the cost of civil litigation.

1823.1. The Judicial Council shall conduct in two superior courts, or branches thereof, in any county in which the population exceeds 260,000, as determined by the 1970 federal census, and two municipal courts, or branches thereof, in any county in which the population exceeds 260,000, as determined by the 1970 federal census, selected by the Judicial Council with the approval of a majority of the judges of the selected courts, a pilot project for a period of three years.

1823.2. Within the pilot project municipal courts, all civil actions other than small claims actions shall be filed, heard and determined

as provided in this chapter, except that any action may be withdrawn from the provisions of this chapter by order of the court for good cause, either upon motion by any party or upon the court's own motion.

1823.3. Within the pilot project superior courts, all civil actions in which the amount in controversy does not exceed $25,000, except eminent domain actions, shall be filed, heard and determined as provided in this chapter, except that any action irrespective of the amount in controversy may be withdrawn from the provisions of this chapter by order of the court for good cause, either upon motion of any party or upon the court's own motion. The Judicial Council shall provide by rule for determining the amount in controversy for the purposes of this section.

1823.4. Notwithstanding any other provision of law, including this chapter, the Judicial Council shall provide by rule for the procedures to be followed in the pilot project courts and the rules of procedure for pilot project superior courts shall provide for such methods of pretrial discovery as are consistent with the objectives of this part. Unless otherwise prescribed by Judicial Council rules, Sections 1824 to 1826.14, inclusive, shall not be applicable to pilot project superior courts. Initially the Judicial Council rules in the pilot project municipal courts shall not be inconsistent with the provisions of this chapter. Thereafter, the Judicial Council may adopt rules which change or modify the provisions of this chapter to implement new or modified procedures for the conduct of the pilot project.

1823.5. Except where changed or modified by the provisions of this chapter, including rules adopted by the Judicial Council pursuant to this chapter, all provisions of law applicable to civil actions generally shall apply to the processing of civil actions in the pilot project courts.

1823.6. The Judicial Council shall develop procedures for the collection and evaluation of data to determine the cost effect of simplified procedures conducted pursuant to this chapter.

1823.7. Pursuant to Section 68501 of the Government Code, the Chairman of the Judicial Council may appoint an advisory committee to advise the Judicial Council regarding the conduct of the pilot projects. Staff assistance to the advisory committee shall be provided by the Judicial Council.

1824. (a) The pleadings shall consist of a complaint filed by the plaintiff, an answer filed by the defendant, and a cross-claim filed by the defendant at his election.

(b) Motions shall be in the form generally provided in the this code.

1824.1. (a) No technical forms of a pleading are required. Each allegation of a pleading shall be simple, concise, and direct.

(b) A pleading which sets forth a claim for relief, whether as a complaint or cross-claim, shall contain a short and plain statement of the occurrence or transaction upon which it is based showing that the pleader is entitled to relief and a demand for judgment for the relief

to which he deems himself entitled. Claims may be pleaded alternatively or inconsistently.

(c) An answer shall state in short and plain terms defenses to each claim asserted and shall admit or deny the allegations upon which the adverse party relies. A denial may be for lack of information or belief. Affirmative defenses must be affirmatively pleaded in short and plain terms in an answer.

(d) Allegations in a pleading to which a responsive pleading is required are deemed admitted if not denied.

(e) All pleadings shall be construed to do substantial justice. If fraud or mistake is alleged as the basis of a claim or defense, the circumstances of the fraud or mistake shall be stated with particularity.

1825. No discovery shall be permitted.

1825.1. (a) Each party shall file with the court a statement of witnesses and physical evidence within 45 days after the date the case is at issue.

(b) The statement shall include the names and addresses of witnesses the party intends to call and a description of the physical and documentary evidence the party intends to produce with copies of the documents the party intends to rely upon at trial. A party is not required to identify witnesses, physical evidence, or documents which he will use only for impeachment.

1825.2. The court shall hold statements filed with it under seal until it has received the statements of all parties to the action or the time for filing statements has expired. The court then shall contemporaneously transmit copies of the statements to the adverse parties.

1825.3. At trial a party may call as witnesses only those persons disclosed by him and introduce only physical evidence and documents identified in the statement, except where relief is granted for any of the causes specified in Section 473. If relief from a statement is granted, the adverse party shall be entitled to a continuance to meet the new evidence. Production of evidence for impeachment is not limited.

1825.4. Pretrial conferences are not required; however, counsel shall be encouraged to communicate personally or by telephone in an effort to narrow the issues prior to trial or to resolve the disputes.

1825.5. No demurrer or pretrial motion shall be used or permitted, except as follows:

(a) One motion may be made by the defendant to dismiss the action on the ground of a jurisdictional defect or on the ground that the complaint does not give notice of a claim upon which relief can be granted.

(b) Motions may be made for a continuance of the action for good cause.

(c) A motion may be made to withdraw the action from the controls of the procedure under this title for good cause.

(d) One motion may be made by each party for summary

judgment or partial summary judgment.

(e) Motions for change of venue.

1826. If possible, the date for trial shall be set within 20 days from the date the court distributes the statement of witnesses and physical evidence in accordance with Section 1825.2.

1826.1. Where a jury is demanded, and the case is tried to a jury, the trial shall not be conducted in accordance with this part, but shall be conducted in accordance with the procedures established in this code other than in this part. Where a jury is waived, the trial shall be conducted as set forth in Section 1826.2 to 1826.14, inclusive.

1826.2. An opening statement to the court by counsel for the parties shall be permitted in the manner and for the duration determined in the discretion of the court.

1826.3. Trial briefs shall be permitted, but shall not be required.

1826.4. The counsel for the parties and the trial judge may interrogate the parties and witnesses. Narrative testimony shall be permitted.

1826.5. The trial judge shall have the discretion to determine the order in which the evidence is introduced and the trial is conducted.

1826.6. Written submissions of direct testimony shall be permitted if the court determines that such submissions will result in a saving of time for the court and counsel.

1826.7. Upon agreement of the parties and with consent of the court, proceedings under this title may be recorded by video tape, electronic recording, or court reporters.

1826.8. No privileged information shall be admissible, except as provided in Division 8 (commencing with Section 900) of the Evidence Code. Subject to the provisions of Section 352 of the Evidence Code, all other evidence relevant to the action shall be admissible. The trial judge shall determine the weight to be accorded any admissible evidence.

1826.9. The trial judge, in his discretion, may permit a pleading to be amended to conform to proof.

1826.10. Closing arguments by counsel shall be permitted in the manner and for the duration determined in the discretion of the court.

1826.11. Findings of fact or conclusions of law shall not be required or made. Upon request of any party to the action, the court shall issue a brief explanation of its decision either orally or in writing.

1826.12. Any motion which may be made after trial in the court pursuant to law may be made in any action tried pursuant to this title.

1826.13. The effect of a judgment or final order, in respect to the matter or matters directly adjudged, is conclusive between the parties and their successors in interest but shall not operate as collateral estoppel of a party in other litigation with a person who was not a party to the action in which the judgment or order is rendered.

1826.14. Any party shall have the right to appeal any judgment or final order consistent with the law governing such appeals.

1833. The Judicial Council shall conduct a study of the effects of

the pilot project and shall make an annual report of its findings to the Legislature.

1833.1. The provisions of this title *shall* be implemented by the Judicial Council only when and to the extent that funds are made available to implement the pilot project and the study set forth in Section 1833.

1833.2. The provisions of this part shall become operative no later than January 1, 1978, and shall apply to cases filed on or after the operative date.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 7630 of the Business and Professions Code is amended to read:

7630. A funeral director's license may be assigned upon payment of the fee fixed by this chapter and, if the assignee does not already possess a license as a funeral director, upon his meeting the qualifications for a funeral director as prescribed by this code. Prior to a funeral director's license being assigned, an audit shall be conducted of the firms' preneed trust funds and any shortages in such funds shall be funded.

The assignee has the right to renew the license.

SEC. 2. Section 7686.5 of the Business and Professions Code is amended to read:

7686.5. All accusations against licensees shall be filed with the board within two years after the performance of the act or omission alleged as the ground for disciplinary action; provided, however, that the foregoing provision shall not constitute a defense to an accusation alleging fraud or misrepresentation as a ground for disciplinary action. The cause for disciplinary action in such case shall not be deemed to have accrued until discovery, by the board, of the facts constituting the fraud or misrepresentation, and, in such case, the accusation shall be filed within three years after such discovery.

SEC. 3. Section 7703 of the Business and Professions Code is amended to read:

7703. Violation of any of the provisions of this chapter or of the rules and regulations adopted pursuant to this chapter constitutes a ground for disciplinary action.

SEC. 4. Section 7735 of the Business and Professions Code is amended to read:

7735. No funeral director licensed under the laws of the State of California, his agents or employees, shall enter into or solicit any preneed arrangement, contract or plan, hereinafter referred to as "contract", requiring the payment to said licensee of money or the delivery to him of securities to pay for the final disposition of a dead human body or for funeral services or for the furnishing of personal property or funeral merchandise, wherein the use or delivery of said services, property or merchandise is not immediately required, unless said contract requires that all money paid directly or indirectly and all securities delivered under such agreement or under any agreement collateral thereto, shall be held in trust for the purpose for which it was paid or delivered until the contract is fulfilled according to its terms; provided, however, that any payment made or securities deposited pursuant to this article shall be released upon the death of the person for whose benefit such trust was established as provided in Section 7737. The income from the corpus may be utilized to pay for a reasonable annual fee for administering the trust, including a trustee fee, to be determined by the board, and to establish a reserve of not to exceed 10 percent of the corpus as a revocation fee in the event of cancellation on the part of the beneficiary.

None of the trust corpus shall be used for payment of any commission nor shall any of the trust corpus be used for other expenses of trust administration.

SEC. 5. Section 7736 of the Business and Professions Code is amended to read:

7736. For the purposes of this article the term "trustee" shall mean any banking institution or trust company legally authorized and empowered by the State of California to act as trustee in the handling of trust funds or not less than three persons one of whom may be an employee of the funeral director; the word "trustor" shall mean any person who pays the money or deposits the securities used for such preneed arrangements; the term "beneficiary" shall be the person for whom the funeral services are arranged; the words "corpus of the trust" shall include all moneys paid and securities delivered pursuant to the provisions of the article.

director has furnished the merchandise and services, provided, however, that (1) in the case of a trust agreement between any of the trustees set forth in Section 7736 and a recipient of public assistance, under the provisions of subdivision (a) of Section 11158 of the Welfare and Institutions Code, such trust agreement may further provide that it is irrevocable, and (2) in all other cases such trust agreement shall further provide that at any time before the funeral director has furnished the merchandise and services provided for in such contract the trustor or the legally appointed representative may in writing demand and receive the return of the corpus of the trust, together with any income accrued in the trust, less the revocation fee provided for in Section 7735; provided, however, that if and when the trustor becomes otherwise eligible, or in order to become eligible, for public social services, as provided in Division 9 (commencing with Section 10000) of the Welfare and Institutions Code, he may agree, at his option, that the trust shall be irrevocable in order to avail himself of the provisions of Section 11158 of the Welfare and Institutions Code. The delivery of the corpus of the trust and the accumulated income to the funeral director performing the services, trustor or beneficiary pursuant to the terms of this article and the trust agreement herein referred to, shall relieve the trustee of any further liabilities with regard to such funds or income therefrom.

SEC. 3. Article 3 (commencing with Section 4300) is added to Chapter 2 of Division 4 of the Welfare and Institutions Code, to read:

Article 3. Officers and Employees

4300. As used in this article, "officers" of a state hospital means:

(a) Clinical director.

(b) Hospital administrator.

(c) Hospital director.

4301. The Director of Health shall appoint and define the duties, subject to the laws governing civil service, of the clinical director and the hospital administrator for each state hospital. The director shall appoint either the clinical director or the hospital administrator to be the hospital director.

The director shall appoint a program director for each program at a state hospital. In each hospital for the developmentally disabled, where the clinical director is not a licensed physician, the director shall appoint a medical program director.

4302. The Director of the State Department of Health shall have the final authority for determining all other employee needs after consideration of program requests from the various hospitals.

4303. Salaries of resident and other officers and wages of employees shall be included in the budget estimates of, and paid in the same manner as other expenses of, the state hospitals.

4304. The primary purpose of a state hospital is the medical and nursing care of patients who are mentally disordered or developmentally disabled. The efforts and direction of the officers and employees of each state hospital shall be directed to this end.

4305. Subject to the rules and regulations established by the department, and under the supervision of the hospital director when the hospital director is the hospital administrator, the clinical director of each state hospital shall be responsible for the planning, development, direction, management, supervision, and evaluation of all patient services, and of the supervision of research and clinical training. In each hospital for the developmentally disabled, where the clinical director is not a licensed physician, the medical program director shall, under the general supervision of the clinical director, be responsible for the planning, development, and supervision of all medical services for patients in the hospital.

4306. Subject to the rules and regulations established by the department, under the supervision of the hospital director when the hospital director is the clinical director, the hospital administrator shall be responsible for the planning, development, direction,

management and supervision of all administrative and supportive services in the hospital facility. Such services include, but are not limited to:

If the hospital director is the clinical director, then the hospital administrator is responsible to him; if the hospital director is the hospital administrator, then the clinical director is responsible to him.

The standards for the professional qualifications of a program director shall be established by the Director of Health for each patient program. The director shall not adopt any regulations which prohibit a licensed psychiatrist, psychologist, psychiatric technician, or clinical social worker from employment in a patient program in any professional, administrative, or technical position; provided, however, that the program director of a medical-surgical unit shall be a licensed physician.

04146 29595 692

If the program director is not a physician, a physician shall be available to assume responsibility for all those acts of diagnosis, treatment, or prescribing or ordering of drugs which may only be performed by a licensed physician.

A medical program director for a state hospital for the developmentally disabled shall be a physician who has passed, or shall pass, an examination for a license to practice medicine in California and who shall be a qualified specialist in a branch of medicine which includes diseases affecting the brain and nervous system, and the care, treatment, and habilitation of the developmentally disabled.

4309. The hospital director is responsible for the overall management of the hospital. In his absence one of the other hospital officers or in the absence of both officers a program director shall be designated to perform his duties and assume his responsibilities.

4310. At the request of one or more employees of any institution within the department, the department may, at its option, provide, within the grounds of the institution, meals and subsistence for employees who do not reside within the institution, or living facilities, meals and subsistence for employees who reside within the institution. The department may make a reasonable charge for all facilities taken by or furnished to employees, to be determined by the State Board of Control, and to be deducted from the salary of the employee. No employee shall be compelled to eat his meals at the institution, nor shall he be charged for meals or facilities not furnished to or taken by him. No employee shall be discriminated against in any manner whatsoever because he elects to eat his meals outside the institution grounds.

The provisions of this section apply only to those employees who are not officers and who receive gross salaries as specified by the salary scales of the State Personnel Board, and do not apply to those employees who are officers of an institution or who receive a cash salary plus maintenance for self and family as provided by the salary scales of the State Personnel Board.

4311. The hospital administrator shall be responsible for preserving the peace in the hospital buildings and grounds and may arrest or cause the arrest and appearance before the nearest magistrate for examination, of all persons who attempt to commit or have committed a public offense thereon.

4312. The hospital director may establish rules and regulations not inconsistent with law or departmental regulations, concerning the care and treatment of patients, research, clinical training, and for the government of the hospital buildings and grounds. Any person who knowingly or willfully violates such rules and regulations may, upon the order of either of the hospital officers, be ejected from the buildings and premises of the hospital.

4313. The hospital administrator of each state hospital may designate, in writing, as a police officer, one or more of the bona fide employees of the hospital. The hospital administrator and each such

04146 295105 694

police officer have the powers and authority conferred by law upon peace officers listed in Section 830.4 of the Penal Code. Such police officers shall receive no compensation as such and the additional duties arising therefrom shall become a part of the duties of their regular positions. When and as directed by the hospital administrator, such police officers shall enforce the rules and regulations of the hospital, preserve peace and order on the premises thereof, and protect and preserve the property of the state.

4314. The Director of Health may set aside and designate any space on the grounds of any of the institutions under the jurisdiction of the department that is not needed for other authorized purposes, to enable such institution to establish and maintain therein a store or canteen for the sale to or for the benefit of patients of the institution of candies, cigarettes, sundries and other articles. The stores shall be conducted subject to the rules and regulations of the department and the rental, utility and service charges shall be fixed as will reimburse the institutions for the cost thereof. The stores when conducted under the direction of a hospital administrator shall be operated on a nonprofit basis but any profits derived shall be deposited in the benefit fund of each such institution as set forth in Section 4125.

Before any store is authorized or established, the Director of Health shall first determine that such facilities are not being furnished adequately by private enterprise in the community where it is proposed to locate the store, and may hold public hearings or cause surveys to be made, to determine the same.

The Director of Health may rent such space to private individuals, for the maintenance of a store or canteen at any of the said institutions upon such terms and subject to such regulations as are approved by the Department of General Services, in accordance with the provisions of Section 13109 of the Government Code. The terms imposed shall provide that the rental, utility and service charges to be paid shall be fixed so as to reimburse the institution for the cost thereof and any additional charges required to be paid shall be deposited in the benefit fund of such institution as set forth in Section 4125.

4315. Wherever the term "superintendent", "medical superintendent", or "superintendent or medical director" appears, the term shall be deemed to mean clinical director, except in Sections 4110, 4126, 4127, 4129, 7281, and 7289, where the term shall be deemed to mean hospital administrator.

Wherever the term "medical director" appears, the term shall be deemed to mean clinical director.

4316. Subject to rules and regulations adopted by the department, the hospital director may establish a sheltered workshop at a state hospital to provide patients with remunerative work performed in a setting which simulates that of industry and is performed in such a manner as to meet standards of industrial quality. The workshop shall be so operated as to provide the treatment staff with a realistic atmosphere for assessing patients'

capabilities in work settings, and to provide opportunities to strengthen and expand patient interests and aptitudes.

4317. At each state hospital at which there is established a sheltered workshop, there shall be a sheltered workshop fund administered by the clinical director. The fund shall be used for the purchase of materials, for the purchase or rental of equipment needed in the manufacturing, fabricating, or assembly of products, for the payment of remuneration to patients engaged in work at the workshop, and for the payment of such other costs of the operation of the workshop as may be directed by the medical director. The clinical director may cause the raw materials, goods in process, finished products, and equipment necessary for the production thereof to be insured against any and all risks of loss, subject to the approval of the Department of General Services. The costs of such insurance shall be paid from the sheltered workshop fund.

All money received from the manufacture, fabrication, assembly, or distribution of products at any state hospital sheltered workshop shall be deposited and credited to the hospital's sheltered workshop fund.

4318. Each state hospital shall, prior to the discharge of any patient who was placed in the facility under a county Short-Doyle plan, prepare a written recommended aftercare plan which shall be transmitted to the local director of mental health services in the county of the patient's placement.

Notwithstanding any other provision of law, such aftercare plan shall specify the following:

(4) Vocational services.
(5) Medical treatment other than mental health services.

CHAPTER 963

An act to amend Sections 142.3, 142.5, 144.6, and 6317 of the Labor Code, relating to occupational safety and health.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 142.3 of the Labor Code is amended to read:

142.3. (a) The board, by an affirmative vote of at least four members, may adopt, amend or repeal occupational safety and health standards and orders. The board shall be the only agency in the state authorized to adopt occupational safety and health standards. The board shall adopt standards at least as effective as the federal standards for all issues for which federal standards have been promulgated under Section 6 of the Occupational Safety and Health Act of 1970 (P.L. 91-596) within six months of the effective date of the federal standards and which, when applicable to products which are distributed or used in interstate commerce, are required by compelling local conditions and do not unduly burden interstate commerce.

(b) Any standard or order promulgated under this section shall prescribe the use of labels or other appropriate forms of warning as are necessary to ensure that employees are apprised of all hazards to which they are exposed, relevant symptoms and appropriate emergency treatment, and proper conditions and precautions for safe use or exposure. Where appropriate, such standards or orders shall also prescribe suitable protective equipment and control or technological procedures to be used in connection with such hazards and shall provide for monitoring or measuring employee exposure at such locations and intervals and in such manner as may be necessary for the protection of employees. In addition, where appropriate, any such standard or order shall prescribe the type and frequency of medical examinations or other tests which shall be made available, by the employer or at his cost, to employees exposed to such hazards in order to most effectively determine whether the health of such employee is adversely affected by such exposure.

(c) The results of such examinations or tests shall be furnished only to the Division of Industrial Safety, the State Department of Health, any other authorized state agency, the employer, the employee, and, at the request of the employee, to his physician.

SEC. 2. Section 142.5 of the Labor Code is amended to read:

142.5. Upon the fixing of a time and place for a hearing to consider the adoption, amendment, or repeal of an occupational safety and health standard or order, the board shall publish, at least 30 calendar days prior to each meeting, a notice of such hearing in one or more daily newspapers of general circulation published and circulated in San Francisco and in one or more daily newspapers of general circulation published and circulated in the County of Los Angeles. No defect or inaccuracy in such notice or in the publication thereof invalidates any standard or order issued by the board after a hearing.

SEC. 3. Section 144.6 of the Labor Code is amended to read:

144.6. In promulgating standards dealing with toxic materials or harmful physical agents, the board shall adopt that standard which most adequately assures, to the extent feasible, that no employee will

suffer material impairment of health or functional capacity even if such employee has regular exposure to a hazard regulated by such standard for the period of his working life. Development of standards under this section shall be based upon research, demonstrations, experiments, and such other information as may be appropriate. In addition to the attainment of the highest degree of health and safety protection for the employee, other considerations shall be the latest available scientific data in the field, the reasonableness of the standards, and experience gained under this and other health and safety laws. Whenever practicable, the standard promulgated shall be expressed in terms of objective criteria and of the performance desired.

SEC. 4. Section 6317 of the Labor Code is amended to read:

6317. If, upon inspection or investigation, the division believes that an employer has violated any standard, rule, order, or regulation established pursuant to Chapter 6 (commencing with Section 140) of Division 1, or any standard, rule, order, or regulation established pursuant to this part, it shall with reasonable promptness issue a citation to the employer. The commissioner may under

rules and regulations permit loans to be made or entered into at places other than designated by an industrial loan company in its certificate of authorization if such loans can be so made consistent with the purposes of the Industrial Loan Law.

18166. If an industrial loan company desires to change its place of business to a street address other than that designated in its authorization, it shall give written notice to the commissioner who shall issue his written authorization of such change, provided the commissioner finds such change of place of business would not justify a negative finding with respect to any matters set forth in Section 18117 or 18147.

Notwithstanding any other provision of this division, a loan or other obligation secured primarily by real property shall not have a term or maturity exceeding the term or maturity permitted by Section 18210.

(b) An industrial loan company that has investment certificates outstanding shall not make any loan or purchase or discount any other obligation that has a maturity of more than 60 months and 15 days unless such loan or obligation complies with the collateral requirements and aggregate limitation contained in Section 18265.

18206. An industrial loan company shall not make a consumer loan or acquire a consumer obligation unless such loan or obligation is repayable by equal or substantially equal periodic payments during its term.

18207. An industrial loan company may make a consumer loan that is not secured primarily by real property or other type of loan which is repayable at maturity by a single payment which includes principal and charges. In no event shall such loans have a term in excess of one year or be made for the purpose of evading or avoiding this division.

18208. An industrial loan company may make a consumer loan in which the principal and charges are payable at any time during the loan, provided that the loan is secured at all times at least 100 percent by either investment certificates of an industrial loan company authorized to conduct business in the State of California under this division or traded securities.

18209. An industrial loan company may make loans, purchase or discount notes, mortgages, contracts or other commercial paper insured by the Federal Housing Administrator, Veterans Administration, other federal agency or an agency of the state. Loans so insured may be made for a term up to but not to exceed the

maximum permitted by such agencies.

18210. Except as provided in Section 18209, an industrial loan company shall not make any loan or purchase or discount any note secured primarily by real property unless such loan or other obligation is repayable in substantially equal weekly, semimonthly, monthly, or quarterly installments during its term which shall not exceed two years from the date the loan or other obligation is made or acquired by the company except that loans or other obligations of a face amount of two thousand dollars ($2,000) or more may have a maturity of not to exceed three years from the date of making or acquisition.

18211. No charge shall be collected unless a loan is made.

18212. (a) The charges by an industrial loan company broker, and all other persons on any loan, forbearance of money, credit, goods, or things in action under this division, shall not exceed in the aggregate:

(1) Two percent (2%) per month on that part of the unpaid principal balance of any loan up to, including, but not in excess of, seven hundred dollars ($700).

(2) One percent (1%) per month on any remainder of such unpaid principal balance in excess of seven hundred dollars ($700).

(b) As an alternative to the charges authorized by subdivision (a), a company may contract for and receive charges at a rate not exceeding 1½ percent per month on the unpaid principal balance.

18213. In lieu of computing charges and applying payments as provided in Sections 18212, 18245, or 18246, an industrial loan company may combine the interest rate percentages permitted by subdivision (a) of Section 18212 that are applicable to different portions of unpaid principal balances, and allocate periodic installments between charges and unpaid principal based on the resulting single interest rate percentage; provided, however, that if prepayment in full occurs on or before the third installment date, all charges shall be recomputed as a percentage per month of the unpaid principal balance or portions thereof based on the number of days actually elapsed.

18214. For the purpose of computing the charges set forth in this article, a month is any period of 30 consecutive days.

18215. An industrial loan company may contract for, collect, and receive at the time of making the loan or at any time thereafter, any cost of publication as required by law and the statutory fee paid by it to any public officer for acknowledging, filing, recording, or releasing in any public office any instrument securing the loan or executed in connection with a loan. Such fees are not included in computing the maximum charges which may be made under this division.

18216. An appraisal fee may be charged by an industrial loan company for any loan made of a face amount of two thousand dollars ($2,000) or more which is secured primarily by real property. Such fee shall not exceed the actual cost of the appraisal or 1 percent of

the face amount of the loan, whichever is the lesser. The appraisal must be rendered to the industrial loan company in writing by a qualified appraiser approved in writing by the commissioner. Only one such fee for appraising the same real property may be collected in any 12-month period. Such fee is not included in computing the maximum charges which may be made under this division.

18217. An escrow fee of a reasonable amount may be charged for any loan made which is secured primarily by real property when such services are actually performed. Such fee shall be considered reasonable when paid to a company licensed to do business under the Escrow Law, Division 6 (commencing with Section 17000), or any person exempted by the Escrow Law, provided that such fees are comparable to fees being charged by escrow companies so authorized to do business in this state. Such fee is not included in computing the maximum charges which may be made under this division.

18218. Regardless of any other provisions of this division, an industrial loan company in the collection of a delinquent loan of an unpaid principal balance in excess of three hundred dollars ($300) may:

(a) Collect and receive the court costs and reasonable attorney's fees allowed by a court in a judgment against a defaulting debtor.

(b) Contract for, collect and receive the bona fide expenses actually incurred and paid by the industrial loan company, not exceeding 10 percent of the unpaid principal balance of the loan where no judgment at law is sought.

18219. An industrial loan company shall not induce or permit any borrower to split up or divide any loan and thereby contract for or receive a higher rate of charge than would otherwise be permitted by this division.

18220. An industrial loan company shall not induce any husband and wife jointly or severally, to become obligated, directly or contingently or both, under more than one contract of loan at the same time, with the result of obtaining a higher rate of charge than would otherwise be permitted by this division.

18221. Nothing in this division shall prevent an industrial loan company from transacting loan contracts with different borrowers and from contracting for and receiving, up to and including the highest rate of charge permitted by this division at the time of making said loans; provided, however, that if any person is obligated to and does pay more than one loan contract outstanding at the same time, the entire amount of charges paid by such person and received by the industrial loan company on such loan contracts, shall not exceed the maximum that would be permitted by this division if all such loan contracts so paid were combined into one loan transaction.

18222. An industrial loan company shall permit payment to be made in advance in any amount on any contract of loan at any time. The industrial loan company shall apply such payment first to all charges due up to the date of such payment and the remainder to

the loan balance.

Article 3. Disclosure and Loan Documents

18230. Each industrial loan company shall display prominently in each place of business a full and accurate schedule of the maximum charges to be made and the method of computing the same. The schedule is subject to the approval of the commissioner.

18231. Each industrial loan company shall:

(a) Deliver or cause to be delivered to the borrowers, or any one thereof, at the time the loan is made, a written statement showing in clear and distinct terms the name and address of such company and the broker, if any. The statement shall show the date, amount, and maturity of the loan contract, how and when repayable, the nature of the security, if any, for the loan, and the agreed rate of charge.

(b) Obtain from the borrower a signed statement as to whether any person has performed any act as a broker in connection with the making of the loan. If such statement discloses a broker or other person has participated, the company shall obtain a full statement of all sums paid or payable to the broker or other person.

(c) Keep the statements required by this section for a period of two years from and after the date the loan has been paid in full, or has matured according to its terms, or has been charged off.

18232. When a loan is made under Section 18246, an industrial loan company shall disclose in the statement to be given to the borrower as provided in subdivision (a) of Section 18231 and the loan contract in addition to other required information the principal amount of the loan exclusive of charges. The statement and loan contract shall also disclose the basis for computing the refund of precomputed charges in case of prepayment in full or acceleration of maturity and for computing default and deferment charges.

18233. An industrial loan company shall deliver or cause to be delivered to the person making any payment in person in cash at any office of the company, at the time such payment is made on account of any loan, a plain and complete receipt showing the total amount received and identifying the loan contract upon which such payment is applied, and showing the unpaid balance of the loan.

18234. An industrial loan company shall upon repayment of any loan in full, cancel or plainly mark "paid" and return to the borrower or person making final payment, the note evidencing the loan. If such borrower is not otherwise obligated to such company, the company shall release all security for such loan, endorse and return any certificate of ownership, and return to the borrower any security agreement, assignment, or order signed by the borrower, except such as are a part of the court record in any action, or such as have been delivered to a third person for the purpose of carrying out the terms thereof.

18235. An industrial loan company shall not take any note,

promise to pay, or security agreement that does not accurately disclose the actual amount of the loan, the time for which it is made, and the agreed rate of charge, nor any instrument in which blanks are left to be filled in after execution.

Article 4. Charges on Scheduled Balances

18245. Whenever the interest or charges, or interest and charges deducted in advance exceed the maximum provided by this division, by reason of subsequent repayment of the loan, a new loan, refinancing, or otherwise, or any portion thereof prior to maturity, such excess shall be rebated to the borrower or credited on any balance owing by the borrower to the company. The rebate shall be the difference between the total of the precomputed charge, any charge for extending the first due date, plus any default or deferment charges and the charges at the contract rate computed on unpaid principal balances for the number of days actually elapsed by applying each payment first to charges and the remainder to principal. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the company in full payment of the loan contract.

18246. (a) As an alternative to the provisions of Section 18245, if a loan is repayable in substantially equal and consecutive monthly installments of principal and charges combined, the first of which is due not less than 15 days nor more than one month and 15 days from the date the loan is made, a company may precompute charges and apply payments as provided in this article.

(b) The total charges which would be earned if the loan contract were repaid exactly according to its terms, at the monthly rate stated in the loan contract, may be precomputed when the loan is made and added to the principal of the loan. Every payment may be applied to the combined total of principal and precomputed charges until the loan contract is fully paid.

(c) The portion of the precomputed charge applicable to any particular monthly installment period shall bear the same ratio to the total precomputed charge, excluding any adjustment made for a first period of more or less than one month, as the balance scheduled to be outstanding during that monthly period bears to the sum of all monthly balances scheduled originally by the loan contract.

18247. If a loan contract made under Section 18246 is prepaid in full by cash, a new loan, refinancing or otherwise before the final installment date, the borrower shall receive a rebate of the portion of the precomputed charge applicable to the full installment periods following the installment date nearest the date of such prepayment; provided, however, that if prepayment in full occurs on or before (i) the third installment date if the loan contract provides for charges at a rate not exceeding that set forth in subdivision (a) of Section 18212, or, (ii) the ninth installment date, or such different installment date as shall have been established by rule of the

commissioner, if the loan contract provides for charges at a rate exceeding that rate set forth in subdivision (a) of Section 18212, the rebate shall be the difference between the total precomputed charge and the charges at the contract rate computed on unpaid principal balances by applying each payment first to charges and the remainder to principal. After the installment date in (i) or (ii) above, whichever is applicable, any prepayment made on or before the 15th day following an installment date shall be deemed to have been made on the installment date preceding such prepayment. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the company in full payment of the loan contract.

18248. A special rebate of precomputed charges shall be made if three or more, but not all, installments are prepaid in full at any one time either in one transaction or over a period of time on a loan made under Section 18246. The special rebate shall be equal to the portion of precomputed charge applicable to the last installment period multiplied by the total number of full installment periods such installments and any subsequent installments are prepaid. Such special rebate shall be computed and made at the termination of the loan contract and shall be an addition to any required rebate for prepayment in full.

18249. A default charge may be charged and collected on a loan made under Section 18246 in the event of default of more than 10 days in the payment of one-half or more of any scheduled installment. The default charge shall not exceed an amount equal to the portion of the precomputed charge applicable to the final installment period. Said charge may not be collected more than once for the same default and may be collected at the time of such default or at any time thereafter. If such default charge is deducted from any payment received after default occurs, and such deduction results in the default of a subsequent installment, no charge may be made for the resulting default.

18250. A deferment charge may be charged and collected on a loan made under Section 18246 if the payment date of all wholly unpaid installments on which no default charge has been collected is deferred one or more full months and the loan contract so provides. Such deferment charge shall not exceed the portion of precomputed charge applicable, prior to deferment, to the first deferred monthly installment period multiplied by the number of months the maturity of the contract is deferred. Such number of months shall not exceed the number of full installments which are in default on the date of deferment or which may become due within 15 days of such date. When a deferment charge is made, no portion of the precomputed charge shall apply to the installment periods in which no installment payment is required by reason of the deferment. In computing any default charge or required rebate, the portion of the precomputed charge applicable to each deferred balance and installment period following the deferment period and

prior to the deferred maturity shall remain the same as that applicable to such balances and periods under the original contract of loan. Such charge may be collected at the time of deferment or at any time thereafter. Any payment received at the time of deferment may be applied first to the deferment charge and the remainder, if any, applied to the unpaid balance of the loan contract; provided, however, if such payment is sufficient to pay, in addition to the appropriate deferment charge, any installment which is in default and the applicable default charge, it shall be first so applied and any such installment shall not be deferred nor subject to the deferment charge.

18251. A borrower and the industrial loan company may agree that the first installment due date of a loan made under Section 18246 may be not less than 15 days nor more than one month and 15 days from the date the loan is made. The amount of the first installment may be increased by one-thirtieth of the portion of the precomputed charge applicable to a first installment of one month for each extra day extended. The amount of the first installment shall be decreased by the same method of computation for each day accelerated.

18252. If the maturity of a loan made under Section 18246 is accelerated for any reason, the company shall make the same refund or credit as would be required if the loan contract was paid in full on the date of acceleration and the unpaid balance shall be treated as the unpaid principal balance and thereafter the unpaid balance of the loan contract shall bear charges at the agreed rate of charge if the loan contract so provides.

Article 5. Limitations and Regulations of Loans and Purchased Obligations

18265. An industrial loan company that has investment certificates outstanding shall not make any loan or purchase or discount any other obligation with a maturity of more than 60 months and 15 days unless all of the following conditions are met:

(a) The loan or other obligation is secured.

(b) The property, or collateral securing the loan or other obligation, is of a kind or class that has been declared eligible by regulation of the commissioner.

(c) The aggregate principal balance of such loans and other obligations outstanding at any time shall not exceed a percentage of the aggregate principal balance due on all loans and other obligations owing to the industrial loan company authorized by rule of the commissioner.

18266. Any loan or other obligation made or acquired by an industrial loan company that has investment certificates outstanding which is secured primarily by real property and has an outstanding principal balance of five thousand dollars ($5,000) or more shall be secured by real property or personal property having combined a fair maket value at the time the loan or other obligation is made or

acquired of at least 115 percent of the principal amount owing on the loan or obligation and on prior encumbrances, except nondelinquent tax liens, secured by the same real property. Fair market value of the real property for the purposes of this section shall be determined by an authenticated appraisal made by a qualified real property appraiser, approved in writing by the commissioner. The personal property held as security shall be of a kind or class that has been declared eligible by regulation of the commissioner.

18267. The aggregate principal balance of loans or other obligations which are secured partially by real property, but not secured primarily by real property, shall in no event exceed 25 percent of the industrial loan company's outstanding loans and obligations.

18268. An industrial loan company that has investment certificates outstanding shall not lend in the aggregate more than 5 percent of its capital and surplus not available for dividends as provided in Section 18319 upon the security of the stock of any one corporation and such stock may not exceed 10 percent of the outstanding stock of said corporation, or upon the security of the bonds of any one obligor except bonds of the United States or for the payment of which the credit of the United States is pledged, bonds of the State of California, or for the payment of which the credit of the State of California is pledged, and any security authorized in writing by the commissioner or any security authorized by rule of the commissioner.

18269. An industrial loan company that has investment certificates outstanding shall not make any loan secured primarily by real property in a principal amount in excess of 10 percent of the company's unimpaired capital and surplus not available for dividends as provided in Section 18319.

18270. An industrial loan company may require the borrower to sign a contract of pledge, assignment, mortgage, security agreement, deed of trust, or trust receipt relating to real or personal property given by the borrower as security for the repayment of the loan and interest and charges thereon.

18271. An industrial loan company that has investment certificates outstanding shall not make loans to or hold the obligations of any one person as primary obligor in an aggregate principal amount in excess of 20 percent of the unimpaired capital and surplus of the company not available for dividends as provided in Section 18319. Unsecured loans or obligations of any person as primary obligor made or held by a company may not, in any event, exceed in the aggregate principal amount 5 percent of the unimpaired capital and surplus of the company not available for dividends as provided in Section 18319.

18272. The secured or unsecured loans or obligations which exceed ten thousand dollars ($10,000) in principal amount made or held by an industrial loan company that has investment certificates outstanding shall in no event exceed in the aggregate 40 percent of

the company's outstanding loans and obligations. The unsecured loans and obligations which exceed ten thousand dollars ($10,000) in principal amount shall in no event exceed in the aggregate 20 percent of the company's outstanding loans and obligations.

18273. Secured loans or obligations for purposes of Sections 18265, 18271, and 18272 must be secured by collateral of a market value of at least 115 percent of the principal amount owing on the loans or obligations. The personal property or collateral held as security shall be of a kind or class that has been declared eligible by regulation of the commissioner.

18274. The principal balances of loans secured by unimproved real property of an industrial loan company that has investment certificates outstanding shall not in the aggregate exceed 2 percent of the company's unimpaired capital and surplus not available for dividends as provided in Section 18319 unless the commissioner consents to the taking of collateral to protect an existing jeopardized obligation.

Article 6. Insurance Sold With Loans

18290. An industrial loan company may provide and collect the costs for credit life insurance on the life of one or more of the borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the commissioner, and in an amount not in excess of the amount of the indebtedness. The amount charged to the borrower for such insurance shall not exceed, in the case of credit life insurance, the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to Section 18412, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 799.1), Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

18291. If credit life or disability insurance is provided pursuant to this division, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or

limitation, subject, however, to the provisions of Section 18292. Any such life or disability insurance as provided shall be in force as soon as the loan is made. An industrial loan company shall not require credit life or disability insurance as a condition of making a loan.

18292. If credit disability insurance is provided pursuant to this division, it shall not provide indemnity against the risk of a borrower becoming disabled for a period of less than 14 days. Such insurance may provide indemnity for any single period of continuous disability of 14 days or longer, after which the risk may become compensable. In no event shall any such credit disability insurance provide for retroactive coverage to an earlier date based upon such disability having continued for a period stated in the policy, or for any other reason. Credit disability insurance, if made available by an industrial loan company, shall be available by the month as well as by the year, and the premium by the month shall not exceed a pro rata relationship to the annual premium. No such credit disability insurance shall be written for a period in excess of the term of the loan to which it is applicable.

18293. If credit disability insurance is provided pursuant to this division, the industrial loan company shall also deliver an understandable written statement to the borrower detailing the conditions when the borrower will be entitled to make a claim under the insurance policy and the procedure to be followed in making such claim. This statement shall be first approved by the commissioner.

18294. An industrial loan company may collect the costs for insurance of tangible personal or real property offered as security for a loan, reasonably insured against loss for a reasonable term considering the circumstances of the loan, when the policy of insurance is made payable to the borrower or any member of his family, even though the customary mortgagee clause is attached, and if the insurance is sold at standard rates through duly licensed insurance agents.

18295. An industrial loan company may collect the costs of title insurance for loans secured primarily by real property. The costs for such insurance may be collected if:

(1) The principal amount of the loan is at least one thousand dollars ($1,000);

(2) The loan is secured by a lien of a deed of trust or mortgage on real property which is the subject of such policy of title insurance;

(3) The policy of title insurance is made payable to the lender or jointly to such lender and the borrower as their interests may appear;

(4) The coverage of such insurance may not exceed the lesser of the principal amount of the loan or the fair market value of the real property less prior encumbrances;

(5) The insurance is placed at standard rates through a title insurance company authorized to do business in the State of California;

(6) The provisions of the loan require repayment in not less than

12 months; and

(7) In connection with the renewal or extension of a loan, the additional cash advance is at least one thousand dollars ($1,000).

Such costs as herein authorized are not included in the maximum charges which may be made under this division.

CHAPTER 4. INVESTMENT CERTIFICATES

18315. (a) When authorized to conduct business pursuant to this division, an industrial loan company may sell and issue its investment certificates in the form and upon the terms approved by the commissioner, and subject to the provisions of this division. The commissioner may, by written order directed to a company or by rule or regulation, impose such terms and conditions upon investment certificates and the sale or redemption thereof or the payment of interest thereon, as he deems reasonable and necessary or advisable for the protection of the company or the public, and he may from time to time in his discretion amend, alter or revoke any such order or regulation or any condition or provision thereof.

(b) Any change in the form, terms, or provisions of outstanding investment certificates or in the rights, privileges, or restrictions upon the holder or issuer thereof is deemed a sale and issuance of investment certificates and is subject to the prior approval of the commissioner pursuant to subdivision (a) of this section.

(c) The company named in any order issued pursuant to subdivision (a) of this section may, within 15 days after receipt thereof, file with the commissioner its written request for hearing. The filing of such request shall not operate to postpone or suspend the effectiveness of any order issued by the commissioner unless otherwise directed by the commissioner. The commissioner shall, within 15 days after the receipt of such written request or at such later time as may be mutually agreed with the company, cause such matter to be heard and shall thereafter issue his final decision. Such decision may be amended or set aside by the commissioner at any time.

(d) Every order or decision of the commissioner made pursuant to this section is subject to judicial review in accordance with law.

18316. An industrial loan company may, in addition to the sale of installment investment certificates with loans, sell or negotiate investment certificates either in certificates, or in receipt book form. The certificates may provide for the payment of money at any time, either fixed or uncertain. The company may receive payments therefor in installments or otherwise, with or without an allowance of interest upon such installments.

18317. Except for industrial loan companies formed prior to June 1, 1965, no company may have investment certificates outstanding with a person or related persons in an aggregate amount in excess of 10 percent of the unimpaired capital and surplus of the company not available for dividends as provided in Section 18319.

18318. Investment or thrift certificates may be issued to or in the name of a minor and as such shall be for the exclusive right and benefit of such minor and may be redeemed in whole or part by said minor or his order and payment so made is a valid release and discharge to the company for such payment.

18319. An industrial loan company shall not have outstanding at any time its investment certificates (exclusive of those hypothecated with the company issuing them) in an aggregate sum in excess of the amount authorized by order of the commissioner issued pursuant to Section 18315, which in no event shall exceed 10 times the aggregate amount of its paid-up and unimpaired capital and such of its unimpaired surplus as is declared by a bylaw of the company (not to be amended without the written consent of the commissioner) to be not available for cash dividends.

18320. Notwithstanding the provisions of Section 18319, an industrial loan company shall in no event:

(a) Have outstanding at any time during its first 12 months of operation as an industrial loan company under this division, its investment certificates in an aggregate sum in excess of three (3) times the aggregate amount of its paid-up and unimpaired capital and such of its unimpaired surplus as is declared by a bylaw of the company to be not available for cash dividends (pursuant to Section 18319).

(b) After 12 months of operation as an industrial loan company under this division and during the next 24 months of said operation, said industrial loan company may file an application with the commissioner seeking authority to increase the aggregate sum of its investment sum which in no event shall exceed six times the aggregate amount of its paid-up and unimpaired capital and such of its unimpaired surplus as is declared by a bylaw of the company to be not available for cash dividends (pursuant to Section 18319).

(c) After 36 months of operation as an industrial loan company under this division, said company may file an application with the commissioner seeking authority to increase the aggregate sum of its investment certificates which it may have outstanding up to the maximum sum permitted by Section 18319.

(d) Whenever the commissioner deems it reasonable and necessary or advisable for the protection of the public he may at any time by order authorize said industrial loan company to have its investment certificates outstanding in either a lesser aggregate sum than the maximum aggregate amounts permitted by subdivision (a), (b), or (c), or none at all.

(e) The request for authority filed with the commissioner pursuant to subdivisions (b) and (c) shall be set forth in an application in such form and containing such information as the commissioner may require.

(f) The commissioner shall by rule or regulation set forth the criteria that must be met before an industrial loan company can be granted authority to increase the aggregate sum of its outstanding

41793 295485 770

investment certificates.

(g) If the commissioner does not within 60 days of filing an application grant a request by an industrial loan company operating under this division, for authority to increase the aggregate sum of its outstanding investment certificates to the requested amount, or issues an order pursuant to subdivision (d) such company may file with the commissioner its written request for hearing in accordance with the provisions of subdivisions (c) and (d) of Section 18315.

(h) Subdivisions (a), (b), and (c) shall not be applicable to industrial loan companies that were incorporated and had commenced business on or before January 1, 1975. The commissioner's regulation titled Certificate Ratio for New Industrial Loan Companies, as it existed on July 9, 1975, shall be applicable to all industrial loan companies that were incorporated and had commenced business on or before January 1, 1975.

18321. Nothing in this division authorizes an industrial loan company to receive deposits or issue certificates of deposit. Every investment certificate issued pursuant to this division shall bear the endorsement on the face of the instrument, "this is not a certificate of deposit."

18322. A certificate of investment may be issued with each loan, at the option of the industrial loan company.

18323. The borrower may purchase certificates of investment issued in connection with loans of a face value not exceeding the face amount of the loan simultaneously with each loan transaction and shall pledge the certificate with the corporation as security for the loan.

18324. All payments made by the borrower on the installment investment certificates purchased by the borrower in connection with the making of the loan shall be regarded as payments on the loan and shall be applied, first, to interest and all other charges within the maximum rate provided in this article, and, second, to the reduction of the unpaid principal balance of the loan.

18325. (a) An industrial loan company shall not impose any charge on a periodic investment or thrift certificate, or on an investor in an account evidenced by such certificate, for the failure of an investor to invest, or for the late investment of, any agreed periodic installment investment into such an account. An industrial loan company shall pay interest on periodic investment or thrift certificates at the same rate of interest per annum as is paid on investment or thrift certificates as to which an investor has not agreed to make periodic installment investments.

(b) As used in this section "periodic investment or thrift certificate" means an investment arrangement under which an investor undertakes to make periodic investments of a specified amount into one account, except, however, a periodic investment or thrift certificate shall not mean an impound account established for the purposes of the payment of taxes or other expenses and obligations in connection with a loan secured by real property, or a

certificate of investment issued in connection with a loan pursuant to Section 18322.

CHAPTER 5. ADMINISTRATION AND POWERS OF THE COMMISSIONER

Article 1. General

18340. All fees collected under this division shall be deposited in the State Treasury to the credit of the General Fund.

18341. The administration of this division shall be supported out of the General Fund.

18342. Industrial loan companies have the powers specified in this division. In addition, industrial loan companies have the general powers conferred upon corporations by the General Corporation Law. The powers granted, including those granted by the General Corporation Law, are subject to the supervision and control of the commissioner.

18343. The commissioner may require an industrial loan company to establish and maintain reasonable reserves for loans made, and contracts or other obligations purchased or discounted in accordance with sound business practices. The commissioner may by regulation:

(a) Establish reasonable standards for the classification of loans and contracts or other obligations as to their delinquency or currency.

(b) Prescribe the conditions requiring the writing off of delinquent loans and contracts or other obligations and the conditions under which they may be restored as part of corporate assets.

(c) Establish the basis upon which reasonable and adequate reserves shall be created and maintained.

18344. An industrial loan company shall not conduct the business of making loans under this division, within any office, room, or place of business in which any other business is solicited or engaged in, or in association or conjunction therewith, except as is authorized in writing by the commissioner upon the commissioner's finding that the character of the other business is such that the granting of the authority would not facilitate evasions of this division or of the rules and regulations made pursuant to this division.

18345. An industrial loan company shall notify the commissioner of every change in the officers, directors and management personnel of the company and of each branch of the company within 15 days of such change. Such report shall include a complete identification of each person assuming any such office or duties and such other information as the commissioner shall prescribe. The commissioner may by regulations prescribe the positions or duties which will be deemed to be management personnel within the meaning of this section.

18346. The commissioner may require each industrial loan company to file with the commissioner a fidelity bond indemnifying the industrial loan company against loss of money or property by act of any officer, director or employee of such company, having access to assets owned by or pledged with the company. The fidelity bond shall contain a rider which provides that the coverage of the bond extends to all officers, directors and employees of the insured who are compensated by the insured. The commissioner may require that the fidelity bond contain a rider which provides that coverage of the bond extends to all officers and directors who are not compensated by the insured. The fidelity bond may be either a primary commercial blanket bond, a blanket position bond, or a banker's blanket bond, but shall be written by an insurer who has been licensed by the Department of Insurance of the State of California. The fidelity bond shall remain in force and effect until the surety is released from liability by the commissioner or until cancelled or amended by the surety. The surety may cancel or amend and be relieved of further liability by delivering 30 days written notice to the commissioner. Such cancellation does not affect any liability incurred or accrued on the bond prior to termination of the 30-day period. The commissioner shall by regulation prescribe the amount of fidelity coverage to be required. The sufficiency of the sureties on the bond are at all times subject to the approval of the commissioner.

18347. The commissioner may establish rules and regulations which are reasonable and necessary to carry out the purposes and provisions of this division, including rules and regulations concerning the terms, form, offer, and sale of investment certificates.

18348. Except as provided in Section 18026, nothing in this division shall be construed as affecting in any manner the power or discretion of the commissioner under the Corporate Securities Law of 1968 or any other law of this state.

18349. In addition to the duty of the commissioner to examine the application pursuant to the provisions of the Corporate Securities Law of 1968, he shall conduct such further investigation as he deems necessary. If the commissioner finds that the financial responsibility, experience, character, and general fitness of the applicant, and of the officers and directors thereof, are not such as to command the confidence of the community and to warrant the belief that the business will be operated honestly, fairly, and efficiently within the purposes of this division, he shall deny the qualification of the sale of securities.

18350. Each industrial loan company shall pay to the commissioner in advance its pro rata share of all costs and expenses, reasonably incurred in the administration of this division, as estimated by the commissioner for the ensuing year. The pro rata share shall be the proportion which a company's assets bear to the aggregate assets of all companies as shown by the latest annual reports of such companies to the commissioner. The pro rata share shall not include the costs of any examinations provided for in

Section 18392, unless they cannot be collected from the company examined.

18351. On or before the 30th day of November in each year, the commissioner shall notify each industrial loan company by mail of the amount assessed and levied against it and that amount shall be paid within 20 days thereafter. If payment is not made within 20 days, the commissioner shall assess and collect a penalty in addition to the assessment, of 1 percent of the assessment for each month or part of a month that the payment is delayed or withheld.

18352. In the levying and collection of an assessment pursuant to Section 18350, an industrial loan company shall not be assessed for nor be permitted to pay less than two hundred fifty dollars ($250) per year, or not less than twenty-five dollars ($25) per month or fraction of a month for the unexpired year ending December 31st following its incorporation.

18353. If an industrial loan company fails to pay the assessment provided in Section 18350 on or before the 30th day of December following the day upon which payment is due, the commissioner may by order summarily suspend or revoke the certificate issued to such company. If, after such an order is made, a request for hearing is filed in writing and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its certificate is revoked or suspended, a company shall not issue thrift certificates or make loans or otherwise conduct business pursuant to this division except as may be permitted by order of the commissioner; provided, however, that neither the revocation, suspension or surrender of a certificate shall affect the powers of the commissioner as provided in this division.

This section shall become operative January 1, 1969. For the purpose of making its provisions operative, the commissioner shall issue to all industrial loan companies authorized to conduct business under this division on said date a certificate of authorization to conduct business pursuant to this division in such form as the commissioner may prescribe and as provided in Section 18101 and thereafter all such companies shall be conclusively presumed to be conducting business under this division pursuant to such certificate of authorization.

18354. The commissioner may require the attendance of witnesses and examine under oath all persons whose testimony he requires relative to the affairs of an industrial loan company or to the subject matter of any examination, investigation, or hearing.

18355. Whenever, after an examination, investigation or hearing under this division, the commissioner deems it of public interest or advantage, he may certify a record to the proper prosecuting official of the county or city in which the act complained of, examined, or investigated, occurred.

18356. The commissioner may order any industrial loan company to desist from any conduct which he finds in violation of this division, or of the Corporate Securities Law of 1968, or the rules of the

4 1793 295 530 779

commissioner made pursuant to this division or the Corporate Securities Law of 1968.

18357. (a) If it appears to the commissioner that an industrial loan company has violated or failed to comply with the provisions of its articles of incorporation, or with any law of this state, the commissioner may by written order addressed to such company, direct that company to discontinue such violation and to comply with the law.

(b) Whenever it appears from the report of an industrial loan company or the commissioner has reason to conclude, that the capital stock of an industrial loan company is impaired or reduced below the amount required by this division, the commissioner shall by written order addressed to such company, direct that company to make good the alleged deficiency or impairment of capital. If the company fails to make good the alleged deficiency or impairment of capital, the commissioner may forthwith take possession of the property and business of the industrial loan company pursuant to Section 18368; if the company fails to make good the alleged deficiency or impairment of capital within 60 days of the date of the order, the commissioner shall take possession of the industrial loan company pursuant to Section 18368. The capital of an industrial loan company is impaired when the minimum amount of capital required by Sections 18130, 18131, or 18132 and 18134 is reduced by a net deficit balance in the company's surplus account.

18358. If it appears to the commissioner that an industrial loan company is conducting business in an unsafe or injurious manner, he may, by written order, direct the discontinuance of any such unsafe or injurious practices.

18359. Whenever he is authorized to issue an order pursuant to Section 18357 or Section 18358 of this division, the commissioner may issue an order directing an industrial loan company to discontinue or limit the sale of its investment certificates or to impound the proceeds from the sale of its investment certificates in such manner as the commissioner may specify in such order.

18360. The orders given pursuant to Sections 18357, 18358, and 18359 shall require such industrial loan company to show cause before the commissioner, at a time and place to be fixed by the commissioner, why the order should not be observed. If upon the hearing it appears to the commissioner that the order should be made final he shall do so.

18361. After any order is made final, the industrial loan company shall have 10 days in which suit may be commenced to restrain enforcement of such order and unless such action is commenced and enforcement of the final order is enjoined within 10 days by the court in which such suit is brought, the company shall comply with the final order.

18362. If the commissioner believes that an industrial loan company or its directors, officers, agents, or employees have violated or are about to violate any of the provisions of this division, or any

provision of an order, license, permit, decision, demand, or requirement of the commissioner, the commissioner may bring an action against such persons to enjoin those persons from continuing the violation or the attempt to violate this division, or doing any act in furtherance thereof. The commissioner shall bring such action in the name of the people in the superior court, and the court may enter an order or judgment awarding a preliminary or final injunction as is proper.

18363. The commissioner may order an industrial loan company to suspend the redemption of investment certificates or the payment of the liabilities of the company or limit the payment of the liabilities in such manner as he prescribes, if it appears to the commissioner that such action is necessary for the protection of the company, its investors or creditors, or in the public interest. The order is effective upon receipt of notice by the company and continues in effect until rescinded or modified by the commissioner in a writing delivered to the manager or executive officer of the company. Nothing in this section shall affect the right of any company to pay its current operating expenses and liabilities incurred during the period of suspension or limitation.

18364. After an order of suspending or limiting the payment of liabilities is effective and until that order is rescinded, the industrial loan company shall make no assignment or hypothecation of any indebtedness due to it from an investor without first crediting thereon the investment liability of the company to such investor-borrower.

18365. The authority granted to the commissioner by Section 18363, may be exercised by him in conjunction with all other powers granted by this chapter, or independently from them.

18366. Every order, decision, license, or other official act of the commissioner is subject to review in accordance with law. Upon review, the burden of proof lies upon the appellant, and the court shall receive and consider any pertinent evidence which was introduced in the formal hearing before the commissioner, whether oral or documentary, concerning the action of the commissioner under review. The review is limited to a consideration and determination of the question of whether there has been an abuse of discretion on the part of the commissioner in making such order, decision, finding, requirement, or rule.

18367. (a) If at any time the commissioner is of the opinion that the further sale of investment certificates by an industrial loan company would be unfair, unjust or inequitable to the purchasers of its investment certificates, the commissioner may, notwithstanding any other provision of this division, order the company to desist and refrain from the further sale of its investment certificates.

(b) The company named in any order issued pursuant to subdivision (a) of this section may, within 15 days after receipt thereof, file with the commissioner its written request for hearing. The filing of such request shall not operate to postpone or suspend

the effectiveness of any order issued by the commissioner unless otherwise directed by the commissioner. The commissioner shall, within 15 days after the receipt of such written request or at such later time as may be mutually agreed with the company, cause such matter to be heard and shall thereafter issue his final decision. Such decision may be amended or set aside by the commissioner at any time.

(c) Every order or decision of the commissioner made pursuant to this section is subject to judicial review in accordance with law.

18368. Whenever it appears to the commissioner that:

(a) The capital of an industrial loan company is impaired;

(b) An industrial loan company has violated its articles of incorporation or any law of this state;

(c) An industrial loan company is conducting its business in an unsafe or unauthorized manner;

(d) An industrial loan company refuses to submit its books, papers, and affairs to the inspection of any examiner;

(e) An officer of any industrial loan company refuses to be examined upon oath touching the concerns of such industrial loan company;

(f) An industrial loan company has suspended payment of its obligations;

(g) An industrial loan company is in such condition that it is unsound or unsafe for it to transact business;

(h) An industrial loan company neglects or refuses to observe any order of the commissioner made pursuant to this division, unless the enforcement of such order is restrained in a proceeding brought by the industrial loan company;

(i) An industrial loan company fails to participate as a member of Thrift Guaranty Corporation of California in accordance with Chapter 7 (commencing with Section 18475) of this division or fails to pay any assessment levied pursuant thereto within the time specified;

(j) An industrial loan company has sold or issued investment certificates in violation of the provisions of this division;

(k) An industrial loan company has failed to maintain in effect a bond required under the provisions of this division; or

(*l*) Any fact or condition exists which, if it had existed at the time of the original application for authority to organize and establish a corporation to engage in the industrial loan business reasonably would have warranted the commissioner in disapproving the application;

the commissioner may forthwith take possession of the property and business of such industrial loan company and retain possession until such industrial loan company resumes business or its affairs be finally liquidated as herein provided. Such industrial loan company, with the consent of the commissioner, may resume business upon such conditions as he may prescribe.

18369. Whenever the commissioner has taken possession of the

property and business of an industrial loan company, such industrial loan company, within 10 days after such taking, if it deems itself aggrieved thereby, may apply to the superior court in the county in which the head office of such industrial loan company is located to enjoin further proceedings. The court, after citing the commissioner to show cause why further proceedings should not be enjoined and after a hearing and a determination of the facts upon the merits may dismiss such application or enjoin the commissioner from further proceedings and direct him to surrender the property and business to such industrial loan company, or make such further order as may be just.

18370. An appeal may be taken from the judgment of the court by the commissioner or by the industrial loan company in the manner provided by law for appeals from the judgment of a superior court. An appeal from the judgment of the court does not operate as a stay of the judgment unless the court, on good cause, so orders. No bond need be given if the appeal be taken by the commissioner but if the appeal be taken by the industrial loan company a bond shall be given as required by Section 943 of the Code of Civil Procedure as a condition to any stay.

18371. When the commissioner takes possession of the property and business of an industrial loan company for the purpose of liquidation or conservation, he may liquidate or conserve the company in the manner and pursuant to the procedures provided by Division 1 of this code. In such a liquidation or conservation the commissioner shall have the same authority with reference to industrial loan companies as are vested in the Superintendent of Banks by this code with reference to banks and in addition may deposit moneys coming into his hands in the course of liquidation in one or more state or national banks.

Article 2. Examinations

18390. For the purpose of discovering violations of this division or securing information required by him, the commissioner may at any time investigate the affairs and examine the books, accounts, records, and files used in the business of every corporation engaged in the business of an industrial loan company or broker, whether such corporation acts or claims to act as principal or agent, or under or without the authority of this division. For the purposes of examination and investigation the commissioner and his duly designated representatives shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of all such corporations.

18391. Whenever in the judgment of the commissioner the condition of any industrial loan company renders it necessary or expedient to devote any extraordinary attention to its affairs, the commissioner may make any extra examination or investigation and perform any necessary services in connection with its affairs.

18392. The industrial loan company examined shall pay to the commissioner the actual cost of any examination, investigation or services, including the actual amount of salary or other compensation paid to the persons making such examination or investigation or rendering services, and overhead costs in connection therewith as fixed by the commissioner.

18393. The commissioner shall, upon receipt of written notification by an industrial loan company that it intends to engage in or is engaging in transactions permitted under Section 18209, make an examination of the affairs and records of each such industrial loan company at least once each year. Such examination shall be made or performed unless such company notifies the commissioner of its election to discontinue such activity and gives evidence that it has disposed of all evidences of indebtedness arising from any such transactions.

Article 3. Reports and Financial Statements

18405. (a) On or before the 15th day of March of every year, each industrial loan company shall file with the commissioner an audit report containing audited financial statements together with such other relevant information as the commissioner may require relating to the company and to each place of business of the company. The audited financial statements shall include a balance sheet of the company prepared as of the last day of the preceding calendar year and statements of income and of surplus for such calendar year.

(b) An industrial loan company whose certificate has been surrendered or revoked shall, on or before 105 days after the effective date of such surrender or revocation, submit to the commissioner a closing audit report containing audited financial statements as of such effective date for the 12 months ending with such effective date, or for such other period as the commissioner may specify. Such report shall include the information required by subdivision (a) of this section and other relevant information specified by the commissioner. A company which has complied with this subdivision is exempted from the provisions of subdivision (a).

(c) The reports and financial statements referred to in subdivisions (a) and (b) shall be prepared in accordance with generally accepted accounting principles and shall be accompanied by a report, certificate, or opinion of an independent certified public accountant or independent public accountant, and shall contain such relevant information as the commissioner may require. The audits shall be conducted in accordance with generally accepted auditing standards and the rules and regulations of the commissioner.

(d) For good cause and upon written request, the commissioner may extend the time for compliance with subdivisions (a) and (b).

(e) If the report, certificate or opinion of the independent accountant referred to in subdivision (c) hereof is in any way

qualified, the commissioner may require the company to take such action as he deems appropriate to permit an independent accountant to remove such qualification from the report, certificate or opinion.

(f) The commissioner may reject any financial statement, report, certificate or opinion filed pursuant to this section by notifying the company required to make such filing of its rejection and the cause thereof. Within 30 days after the receipt of such notice, the company shall correct such deficiency, and the failure so to do shall be deemed a violation of this division. The commissioner shall retain a copy of all filings so rejected.

18406. Each industrial loan company which has issued and which has outstanding investment certificates shall:

(a) Post in a conspicuous and prominent place in each business location a condensed statement of its financial condition, and

(b) Furnish to a person prior to such person's investment in an investment certificate a copy of its latest condensed statement of its financial condition. Each year a copy of the condensed statement shall be furnished by mail or hand-delivered to each investment certificate holder.

(c) Maintain and have available for public inspection a copy of its latest audited financial statement required by subdivision (a) of Section 18405 in each of its business locations. Any person shall, upon request, be permitted to inspect the statement during regular business hours.

(d) The statement required by subdivisions (a) and (b) shall set forth such information and be in such form as may be required by the commissioner.

18407. An industrial loan company shall, when requested by the commissioner, submit its unaudited financial statements, prepared in accordance with generally accepted accounting principles and consisting of at least a balance sheet and a statement of income as of the date and for the period specified by the commissioner. The commissioner may require the submission of such reports on a monthly or other periodic basis.

18408. An industrial loan company shall make other special reports to the commissioner as the commissioner may from time to time require.

18409. The commissioner shall make and file annually with the Department of Corporations as a public record a composite of reports filed by industrial loan companies, and any comments thereon that he deems in the public interest.

18410. For the purposes of the composite report provided for by Section 18409, an industrial loan company shall furnish statistical information as is reasonably required by the commissioner, including information for each place of business of the company and as to any parent, subsidiary or affiliated company.

18411. The commissioner may by rule or regulation specify the form and contents of the financial statements, reports, certificates

and opinions required to be filed pursuant to this article, and may require that such reports and financial statements be verified in such manner as he may prescribe.

18412. On or before June 15th of each odd-numbered year, the commissioner shall compile and send to the Commissioner of Insurance the total dollar amount of all death and disability claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges collected by industrial loan companies for such insurance, and data as to the actual costs to such companies for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Commissioner of Insurance shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life and credit disability insurance experience and shall promulgate and establish a general regulation fixing the maximum which may be charged for such insurance by industrial loan companies hereunder having due regard to the relation of the total amount of death and disability claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to industrial loan companies for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, markup to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code.

Article 2. General

18490. When the property and business of a member has been liquidated or is in the process of liquidation by the commissioner and the proceeds of liquidation distributed ratably are insufficient to pay up to ten thousand dollars ($10,000) of each thrift obligation specified in Section 18523, the commissioner shall direct Guaranty Corporation to pay and Guaranty Corporation shall pay each such deficiency at the direction of and in amounts as directed by the commissioner within 120 days from the date the commissioner makes demand for payment. If the total funds available from Guaranty Corporation at such time are insufficient to pay in full the amounts provided by Section 18523, the amount paid to each thriftholder shall be ratably reduced in proportion to the amount by which the fund is deficient, and thereafter further payments shall be made ratably to such thriftholders in accordance with the directions of the commissioner as additional funds are paid into the guarantee fund from assessments or otherwise. When such thrift obligations are paid, each member's account shall be reduced ratably based on the account balance for the total amount paid.

18491. (a) When the property and business of a member is being liquidated the commissioner may direct Guaranty Corporation to

pay and Guaranty Corporation shall pay any deficiency up to ten thousand dollars ($10,000) of each thrift obligation specified in Section 18523 as estimated by the commissioner. The commissioner's estimate shall be based upon an examination and evaluation of the company's loans, receivables, and other assets. Payments by Guaranty Corporation shall be made ratably to such thriftholders in accordance with the directions of the commissioner.

(b) When any thrift obligation of ten thousand dollars ($10,000) or less is paid in full, or that portion of any thrift obligation in excess of ten thousand dollars ($10,000) is paid up to ten thousand dollars ($10,000), pursuant to subdivision (a), Guaranty Corporation shall be assigned all rights, title, and interest to each individual thrift obligation up to the amount paid by Guaranty Corporation to each individual thriftholder. In the event that a thrift obligation is in excess of ten thousand dollars ($10,000), is a thrift obligation specified in Section 18523, and Guaranty Corporation has paid the deficiency in full up to ten thousand dollars ($10,000), Guaranty Corporation shall first receive ratable liquidation proceeds up to the amount of any deficiency paid by Guaranty Corporation to a thriftholder prior to any payment of liquidation proceeds to the thriftholder whose account was in excess of ten thousand dollars ($10,000) so that in these circumstances all liquidation proceeds after payment of the deficiency by Guaranty Corporation will first go to Guaranty Corporation for the amount of its assigned claim before any payment is made to such thriftholder.

(c) For purposes of this section the term "deficiency" is defined as that amount of an individual thriftholder's thrift obligation of ten thousand dollars ($10,000) or less which an industrial loan company cannot honor due to insolvency or any other reason and which Guaranty Corporation is directed to pay by the commissioner pursuant to subdivision (a) of this section.

18492. The commissioner shall not direct Guaranty Corporation in any one calendar year to pay any thrift obligations that exceed in the aggregate the total in the fund after allowance for all amounts to be added to such accounts during such year by assessment as provided in this chapter.

18493. Whenever it appears to the commissioner that Guaranty Corporation has:

(a) Violated its articles of incorporation or any law of this state;

(b) Not paid amounts as directed by the commissioner pursuant to Section 18490;

(c) Invested its funds in violation of Section 18497;

(d) Not levied assessments as required by Sections 18535 and 18536;

(e) Has not brought and diligently prosecuted an action to enforce payment as required by Section 18538;

(f) Violated any section of this chapter; or

(g) Neglected or refused to submit its books, papers, and affairs to the inspection of any examiner;

the commissioner may forthwith take possession of the property and business of Guaranty Corporation and retain possession until Guaranty Corporation satisfies the commissioner that it will operate in conformity with this chapter. During the time the commissioner has such possession he shall perform the duties and carry out the obligations of Guaranty Corporation.

18494. Whenever the commissioner has taken possession of the property and business of Guaranty Corporation, Guaranty Corporation within 10 days after such taking, if it deems itself aggrieved thereby, may apply to the superior court in the county in which the head office of Guaranty Corporation is located to enjoin further proceedings. The court, after citing the commissioner to show cause why further proceedings should not be enjoined, and after a hearing and a determination of the facts upon the merits, may dismiss such application or enjoin the commissioner from further proceedings and direct him to surrender the property and business to Guaranty Corporation, or make such further order as may be just.

18495. An appeal may be taken from the judgment of the court by the commissioner or by Guaranty Corporation in the manner provided by law for appeals from the judgment of a superior court. An appeal from the judgment of the court does not operate as a stay of the judgment unless the court, on good cause, so orders. No bond need be given if the appeal be taken by the commissioner but if the appeal be taken by Guaranty Corporation a bond shall be given as required by Sections 917.2 and 917.5 of the Code of Civil Procedure as condition to any stay.

18496. (a) Guaranty Corporation shall have authority to submit reports and make recommendations to the commissioner regarding the financial condition of any member. Such reports and recommendations shall not be public documents. There shall be no liability on the part of, and no cause of action of any nature shall arise against, Guaranty Corporation or its members, directors, officers, employees or agents, or the commissioner or his authorized representatives, for any statements made by them in any reports or recommendations made hereunder.

(b) In order to permit Guaranty Corporation to fulfill its obligations under subdivision (a), upon the written request of Guaranty Corporation the commissioner may furnish to Guaranty Corporation a copy of unaudited financial statements filed by an industrial loan company pursuant to Section 18407 or 18408 and a copy of the commissioner's analysis of an industrial loan company's receivables. There shall be no liability on the part of, and no cause of action of any nature shall arise against the State of California, the commissioner or members of his staff or his authorized representatives, for the release of any information furnished to Guaranty Corporation pursuant to this subdivision. Such financial statements and analysis furnished pursuant to this subdivision shall not be public documents, and the information contained therein shall be privileged and confidential to Guaranty Corporation for its

sole use in carrying out its statutory functions.

(c) Guaranty Corporation, in order to fulfill its obligations under subdivision (a), may appoint an independent certified public accountant or public accountant to prepare an audit report containing audited financial statements, together with such other information as Guaranty Corporation, in good faith, requires regarding the financial condition of any member, or, upon notification to a member company of a possible impairment of capital of such member company and after notice to the commissioner, Guaranty Corporation may appoint an investigative committee or hire a specialized employee to investigate the operations of the member company. Costs and expenses for said audit report or special investigation report shall be paid by Guaranty Corporation.

(d) Guaranty Corporation, any member of Guaranty Corporation, an agent of Guaranty Corporation or of its members, or any person who uses any information obtained under subdivision (b) or (c) of this section for any purpose not authorized by subdivision (a) is guilty of a misdemeanor.

18497. Guaranty Corporation may invest its funds only as provided by rules of the commissioner adopted with a view to preserving reasonable liquidity.

18498. Income from investments shall be recorded in an income account and be used to defray expenses of administration. Income from investments that exceeds an amount determined by the board of directors to be adequate to provide for current expenses may be credited to members' accounts. Each member's account shall receive credit ratably based on the account balance, for the amount of the excess. Income received by Guaranty Corporation, whether or not credited to members' accounts, shall be subject to a demand of the commissioner made pursuant to Section 18490 except as to that portion reserved by the board of directors for expenses of administration during the calendar year.

18499. Expenses of administration that exceed income from investments at year end shall be charged to members' accounts. Each member's account shall be charged ratably based on the account balance for the amount of the excess.

18500. Guaranty Corporation shall have authority to borrow funds when necessary to effectuate the provisions of this chapter.

18501. The commissioner shall give prompt notice to Guaranty Corporation when the commissioner takes possession of the property and business of a member and shall give further prompt notice when the commissioner determines to liquidate the property and business of a member.

18502. Memberships issued by Guaranty Corporation shall be nontransferable and shall be exempt from the provisions of the Corporate Securities Law of 1968.

18503. The operation of Guaranty Corporation shall at all times be subject to the regulation of the commissioner and his duly

designated representatives. The commissioner and his duly designated representatives may at any time investigate the affairs and examine the books, accounts, records and files used by Guaranty Corporation. The commissioner and his duly designated representatives shall have free access to the offices, books, accounts, papers, records, files, safes, and vaults of Guaranty Corporation.

18504. Any member aggrieved by any action or decision of Guaranty Corporation may appeal to the commissioner within 30 days from the action or decision.

18505. Guaranty Corporation shall not advertise, print, display, publish, distribute, or broadcast, or cause or permit to be advertised, printed, displayed, published, distributed, or broadcast, in any manner any statement or representation with regard to its plan of operation without first obtaining the written nondisapproval of the commissioner.

18506. No person shall advertise, print, display, publish, distribute or broadcast, or cause or permit to be advertised, printed, displayed, published, distributed, or broadcast, in any manner any statement or representation with regard to its membership in Thrift Guaranty Corporation of California or that any of its thrift obligations are in any manner guaranteed unless the amount of the guarantee fund is in excess of one-half of 1 percent of the total outstanding thrift obligations of all members as shown on the most recent independent audit reports required by subdivision (a) of Section 18405 and without first obtaining the written approval of the commissioner. All such advertising shall include the following statement: "Accounts protected up to a maximum of $10,000 by Thrift Guaranty Corporation of California only as provided in the California Financial Code."

18507. In order to permit Guaranty Corporation to fulfill its obligations under this chapter, the commissioner shall furnish to Guaranty Corporation a list of all industrial loan companies which have outstanding thrift obligations and one copy of the independent audit report on each such industrial loan company filed with him as of the preceding December 31 and not later than April 1 of each year.

18508. When any member has redeemed its outstanding thrift obligations and has filed an undertaking with the commissioner not to issue thrift obligations, that member shall be entitled to receive from Guaranty Corporation its account balance in Guaranty Corporation, subject to the following conditions:

(a) No payment will be made to the member if, in the opinion of the commissioner, the amount in the member's account balance may be needed to pay obligations of Guaranty Corporation under Section 18490.

(b) Written approval from the commissioner to Guaranty Corporation authorizing Guaranty Corporation to pay the member.

(c) The amount paid to the member at any one time shall not reduce the total amount in the fund (less any then unpaid demand made by the commissioner pursuant to Section 18492) on the

preceding March 15 below one million dollars ($1,000,000) nor below one-half of 1 percent of the total outstanding thrift obligations of all members as shown on the most recent independent audit reports required by Section 18405.

(d) No payment will be made to the member for a period of one year from the March 15 following the date the member has filed the undertaking with the commissioner.

(e) If more than one member becomes entitled to receive any payment under this section as of March 15 of any year, and the funds available from Guaranty Corporation are not sufficient to pay each member in full, the members shall share the funds on a pro rata basis. However, all amounts due, but not paid, to members previously filing an undertaking, shall be paid in full before newly entitled members are paid.

18509. If Guaranty Corporation is dissolved, subject to the approval of the commissioner, the net assets after settling all liabilities shall be distributed to the members based on their account balances.

Article 3. Purpose and Scope of Guaranty Corporation

18520. It shall be the purpose of Guaranty Corporation to guarantee full payment of thrift obligations of members up to ten thousand dollars ($10,000) for each account, subject to the express limitations provided in this chapter.

18521. Each industrial loan company which has issued and has outstanding thrift obligations shall, as a condition to its authority to conduct business under this division, participate as a member in Guaranty Corporation in accordance with this chapter and rules established by the Board of Directors of Guaranty Corporation.

18522. If the commissioner finds that for any reason Guaranty Corporation fails to adopt suitable amendments to its plan of operation, the commissioner shall adopt and promulgate rules as necessary or advisable to effectuate the provisions of this chapter. Such rules shall continue in force until superseded by a plan of operations adopted by Guaranty Corporation and approved by the commissioner.

18523. The following described thrift obligations will be guaranteed by Guaranty Corporation in the amounts hereinafter set forth below:

(a) Single ownership accounts. Funds owned by an individual and invested in the manner set forth below shall be added together and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(1) Individual accounts (or accounts of the husband-wife community of which the individual is a member) and invested in one or more accounts in his own name shall be guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(2) Funds owned by a principal and invested in one or more

accounts in the name or names of agents or nominees shall be added to any individual accounts of the principal and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(3) Accounts held by guardians, custodians or conservators for the benefit of his ward or for the benefit of a minor under a Uniform Gifts to Minors Act and invested in one or more accounts in the name of the guardian, custodian or conservator shall be added to any individual accounts of the ward or minor and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(b) Testamentary accounts.

(1) Funds owned by an individual and invested in a revocable trust account, tentative or "Totten" trust account, payable-on-death account or similar account evidencing an intention that on his death the funds shall belong to his spouse, child or grandchild, shall be guaranteed up to ten thousand dollars ($10,000) in the aggregate as to each such named beneficiary, separately from any other accounts of the owner.

(2) If the named beneficiary of such an account is other than the owner's spouse, child or grandchild, the funds in such account shall be added to any individual accounts of such owner and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(c) Accounts held by executors or administrators. Funds of a decedent held in the name of the decedent or in the name of the executor or administrator of his estate and invested in one or more accounts shall be guaranteed up to ten thousand dollars ($10,000) in the aggregate, separately from the individual accounts of the beneficiaries of the estate or of the executor or administrator.

(d) Corporation or partnership accounts. Accounts of a corporation or partnership engaged in any independent activity shall be guaranteed up to ten thousand dollars ($10,000) in the aggregate. An account of a corporation or partnership not engaged in an independent activity shall be deemed to be owned by the person or persons owning such corporation or comprising such partnership and, for guarantee purposes, the interest of each person in such account shall be added to any other accounts individually owned by such person and guaranteed up to ten thousand dollars ($10,000) in the aggregate. The term "independent activity" means any activity other than one directed solely at increasing guarantee coverage under this chapter.

(e) Unincorporated associations. Accounts of an unincorporated association engaged in any independent activity shall be guaranteed up to ten thousand dollars ($10,000) in the aggregate. An account of an unincorporated association not engaged in an independent activity shall be deemed to be owned by the persons comprising such association and, for guarantee purposes, the interest of each owner in such account shall be added to any other accounts individually owned by such person and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(f) Joint accounts:

(1) Accounts owned jointly, whether as joint tenants with right of survivorship, as tenants by the entireties, as tenants in common, or by husband and wife as community property, shall be guaranteed separately from accounts individually owned by the coowners.

(2) A joint account shall be deemed to exist, for purposes of guarantee of accounts, only if each coowner has personally executed an account signature card and possesses redemption rights.

(3) An account owned jointly which does not qualify as a joint account for purposes of guarantee of accounts shall be treated as owned by the named persons as individuals and the actual ownership interest of each such person in such account shall be added to any other accounts individually owned by such person and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(4) All joint accounts owned by the same combination of individuals shall first be added together and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(5) The interest of each coowner in all joint accounts owned by different combinations of individuals shall then be added together and guaranteed up to ten thousand dollars ($10,000) in the aggregate.

(g) Trust accounts. All trust interests for the same beneficiary invested in accounts established pursuant to valid trust arrangements created by the same settlor (grantor) shall be added together and guaranteed up to ten thousand dollars ($10,000) in the aggregate, separately from other accounts of the trustee of such trust funds or the settlor or beneficiary of such trust arrangements.

(h) Thrift obligations withdrawn by checks that have not cleared a member's bank account at the time the commissioner has taken possession of the property and business of a member. The owner of the funds represented by such a check will be recognized for all purposes of claim for guaranteed thrift obligations to the same extent as if his name and interest were disclosed on the records of the member.

18524. The guarantees provided in this chapter shall not apply to the thrift obligations of any industrial loan company, the capital of which is impaired on the effective date of this chapter unless the capital impairment is eliminated subsequent to such effective date.

Article 4. Assessments

18535. Guaranty Corporation shall establish and maintain a guarantee fund as follows:

(a) Each new member shall pay fifty thousand dollars ($50,000) to the guarantee fund to become a member.

(b) If the total amount in the fund (less any then unpaid demand made by the commissioner pursuant to Section 18492) on March 15 of any year hereafter is less than 1½ percent of the total outstanding thrift obligations of all members as shown on the most recent independent audit reports required by Section 18405, then on or

before May 1 of that year Guaranty Corporation shall levy an assessment. Each member shall be assessed an amount equal to fifteen-hundredths of 1 percent of its outstanding thrift obligations as shown on its most recent independent audit report required by Section 18405.

(c) Whenever the total amount in the fund (less any then unpaid demand made by the commissioner pursuant to Section 18492) on March 15 of any year hereafter is in excess of 1½ percent of the total outstanding thrift obligations of all members as shown on the most recent independent audit reports required by Section 18405, Guaranty Corporation shall then refund to its members an amount equal to such excesses. Each member that has paid assessments in an amount equal to 1½ percent of its total outstanding thrift obligations shall receive a part of the refund in proportion to the total aggregate assessment contributions the member has made to Guaranty Corporation. Payments currently due and payable pursuant to Section 18508 shall be paid before any refund is made pursuant to this subdivision.

(d) Notwithstanding the provisions of subdivisions (b) and (c), each member that has not paid assessments in an amount equal to 1½ percent of its total outstanding thrift obligations as shown on the most recent independent audit report required by Section 18405 shall continue to be assessed an amount equal to fifteen-hundredths of 1 percent of its outstanding thrift obligations as shown on its most recent independent audit report required by Section 18405.

(e) Notwithstanding the provisions of subdivision (c), Guaranty Corporation shall withhold any refund to members during any period when a member is in the process of liquidation by the commissioner, and it shall further assess members during any calendar year in which the fund has been reduced by a demand of the commissioner provided the aggregate assessments during the year do not exceed the amount provided in subdivision (b).

18536. Guaranty Corporation shall send a written notice of assessment to each member assessed within 10 days after the levy of any assessment. Amounts assessed shall be paid to Guaranty Corporation by each member assessed not later than 90 days following written notice of assessment.

18537. A report of each levy of assessment shall be made to the commissioner within 10 days after the levy.

18538. In the event any member fails to pay an assessment when due, Guaranty Corporation shall report such default in writing to the commissioner within 24 hours of such default, and shall within 30 days after default bring an action in law or in equity to enforce payment. If Guaranty Corporation does not bring such action within the time specified, the commissioner may bring an action in law or in equity to enforce such payment.

CHAPTER 8. INSURANCE PREMIUM FINANCING

Article 1. Definitions

18560. "Premium finance agency" means any industrial loan company incorporated under this division which, by the terms of its authority to engage in the industrial loan business, is not permitted to issue or sell investment certificates and its business is limited to that set forth in this chapter.

18561. Such terms relating to insurance as are used in this chapter shall have the meaning ascribed to them in the Insurance Code and in the practices of the insurance business.

18562. As used in this chapter, "insured" means the person who has purchased or arranged to purchase an insurance contract and who enters into a premium finance agreement with a premium finance agency.

18563. As used in this chapter, "premium financing" means the activities of a company engaging in the business of advancing money directly or indirectly to an insurer or producer at the request of an insured pursuant to the terms of a premium finance agreement, wherein the insured has assigned the unearned premiums, accrued dividends or loss payments as security for such advancement in payment of premiums on insurance contracts only, and does not include the financing of insurance contract premiums purchased in connection with the financing of goods and services. The amount of such advancement in payment of premiums must bear a reasonable relationship to the premium or premiums being financed.

18564. As used in this chapter, "premium finance agreement" means a loan contract, note, agreement or obligation by which an insured agrees to pay to a company in installments the principal amount advanced by the company to an insurer or producer in payment of premium on an insurance contract or contracts, plus charges, with the assignment as security therefor of the unearned premiums, accrued dividends or loss payments, the final installment due date of the agreement not to extend beyond the term of the insurance contract included in the agreement having the latest expiration date.

18565. As used in this chapter, "company" means a premium finance agency.

18566. As used in this chapter, "principal balance" means the difference between the amount of the premium and fees charged by the insurer or producer and the down payment on the premium.

18567. As used in this chapter, "finance charge" means any amount which the insured agrees to pay the company in excess of the premium and fees charged by the insurer or producer, and exclusive of the cost of credit life insurance and attorney fees.

Article 2. General

18580. A premium finance agency desiring the full authority which may be conferred by this division, shall, in respect to any lending operations other than insurance premium financing, be required to amend its articles of incorporation and meet the requirements of this division as if it were making an original application for authority to organize under this division.

18581. The articles of incorporation of any corporation organized under this division as a premium finance agency shall include reference to that fact.

18582. Capital stock of any premium finance agency shall not be less than seventy-five thousand dollars ($75,000) and need not exceed that sum regardless of the number of branch offices or business locations which may be authorized under the provisions of this division.

18583. Before a premium finance agency commences business or opens a branch office or place of business, there must be paid in cash, for the benefit of the agency, 100 percent of the amount of the minimum capital stock required under this chapter.

18584. An insurance premium finance agreement, as defined in Section 18564, may be prepared in the office of an insurance producer licensed by the Department of Insurance, and mailed or otherwise delivered to a premium finance agency for acceptance without the office of the producer thereby being constituted a place of business of the company. A producer at whose office a premium finance agreement is so prepared shall not be considered to be a broker of the company as that term is used in this division.

18585. In the event of any conflict in the provisions of this chapter with the provisions of any other chapter in this division, the provisions of this chapter shall control with regard to a premium finance agency or to insurance premium financing.

18586. The provisions of Sections 18023, 18024, 18120, 18137, 18205, 18268, 18269, 18271, 18272, 18273, 18274, and 18455 shall not apply to a premium finance agency.

18587. The provisions of Sections 18567, 18568, 18607, 18625, 18626, 18628, and 18630 of this division shall not apply to any bona fide loan with a principal amount of ten thousand dollars ($10,000) or more or to a premium finance agency in connection with such loan if the provisions of this section are not used for the purpose of evading this division.

18588. Unless the insured has notice of the assignment of a premium finance agreement, payment thereunder by him to the last known assignee of the agreement shall be binding upon all subsequent assignees.

Assignment of the premium finance agreement shall not cut off any defenses which the insured would have against the company or an assignee of the agreement arising from obligations imposed by this division.

The obligations and rights of a premium finance agency, under this chapter, shall also apply to the assignee of a premium finance agreement.

18589. At any time during the term of the premium finance agreement, but not later than one year after the last payment thereunder, the company shall upon written request of the insured, give or mail to him a written statement of the dates and amounts of payment, and the total amount, if any, unpaid thereunder. Such a statement shall be supplied once each year without charge; if any additional statement is requested, the company shall supply such statement at a charge not exceeding one dollar ($1) for each additional statement so supplied.

18590. Upon payment of a loan in full the company upon request shall return the premium finance agreement marked "Paid" to the insured.

18591. No filing of the premium finance agreement shall be necessary to perfect the validity of such agreement as a secured transaction as against creditors, subsequent purchasers, pledgees, encumbrances, successors or assigns of the insured.

18592. Any downpayment which is made and which is received by the company from the insured, or from the insurance producer on behalf of the insured, shall be held by the company in trust for and in transit to the insurer, and shall be paid to the insurer, together with the balance of the premium payable pursuant to the terms of the premium finance agreement within 30 days from the effective date of the policy, or within 30 days after the receipt of a proper premium finance agreement by the company, or within 15 days after the company has mailed to the insured notice of a revised finance agreement pursuant to Section 18606, whichever is later. In the event that the premium is paid to the insurance agent or broker of record, such agent or broker of record shall not be deemed the agent of the company by reason of such payment.

18593. The downpayments received by the company under the provisions of Section 18592 shall be subject to the provisions of this section.

(a) The downpayments received by the company under the provisions of Section 18592, may be held by the company in trust in a separate bank account or depository, or in lieu thereof, the company may maintain a time deposit with a bank, savings and loan association, or comparable institution, or obtain a certificate or certificates of deposit from a bank, in an amount at least equal to the average amount of such downpayments being held at any given time by the company as ascertained by the commissioner, and which are payable to the insurer pursuant to the terms of the premium finance agreement. Such deposits or certificates shall be held in trust for the benefit of the insureds, as their relative interests in such downpayments may exist at any given time, and in the event of the insolvency of a company, such funds on deposit under the provisions of this section or as represented by a certificate or certificates of

deposit shall be first applied to remitting the amount of the downpayment to the insureds on all premium finance agreements upon which the company has not then forwarded in full the downpayments collected from and then being held for insureds, and, if insufficient to pay all such amounts in full, then such funds shall be applied for such purposes pro rata.

(b) In lieu of the alternatives set forth in subdivision (a), the company may furnish the commissioner with a bond entered into with a corporate surety, qualified to do business in this state, approved by the commissioner in a penal sum which shall be at least equal to the average amount of such downpayments being held at any given time by the company as ascertained by the company semiannually subject to the review and acceptance of the commissioner, and which are payable to the insurer pursuant to the terms of the premium finance agreement, and the bond shall provide that in addition to said penal sum the surety is liable to the commissioner for any and all expenses (including court costs and attorneys' fees) incurred by the commissioner in pursuing any and all claims against the bond, and the surety shall within five days after a claim has been filed with said surety file a complete copy of said claim with the commissioner. Such bond shall be conditioned so as to protect the insureds in the event of the insolvency of the company with respect to all downpayments which the company has not then forwarded to the insurers and, if the penal sum is insufficient to pay all such amounts in full then the proceeds of the bond shall be distributed on a pro rata basis to the insureds. If the claims of the insureds or any of them under the bond are not paid in such manner, and the amounts of such claims are proven to the satisfaction of the commissioner to be due such claimants, or should the commissioner determine to his satisfaction that sums are due such insureds, he may make demand for payment on behalf of all such unpaid claimants or insureds. If payment is not made, the commissioner may take any legal action he may deem necessary to enforce payment under such bond. The aggregate liability of the surety under such bond shall, in no event, exceed the penal sum of such bond plus the expenses (including court costs and attorneys' fees) incurred by the commissioner in pursuing any and all claims against the bond. The surety on the bond shall have the right to terminate such bond in accordance with the provisions of Section 2851 of the Civil Code.

18594. Any corporation organized as an industrial loan company other than a premium finance agency shall conduct any insurance premium financing business under the authority of this chapter and it shall be subject to all of the provisions of this chapter in respect to such business, as if it were organized hereunder except that no cumulative capitalization requirement shall be imposed.

18595. A premium finance agency shall not incorporate the words "industrial loan company" in its corporate name, on its loan forms, or in its advertising.

Article 3. Provisions of Premium Finance Agreements

18605. A premium finance agreement shall be in writing and the printed portion thereof shall be in at least eight-point type. The agreement shall set forth:

1. The names and addresses of the insured and the company, and the date of the agreement.

2. A description of the insurance contracts for which the premiums are advanced including the total amount of the premiums and fees and a specific breakdown thereof by policies and a general description of coverages.

3. The amount of the downpayment.

4. The cost, if any, for credit life insurance.

5. The principal balance.

6. The finance charges.

7. The unpaid balance.

8. The due date of the first installment.

9. The number, amount and frequency of payment of the installments.

10. A statement that the insured may prepay the full amount due and receive a refund credit of the unearned finance charge, in the manner provided by Section 18629.

18606. A premium finance agreement shall not be executed by or on behalf of the insured when it contains any blank space to be filled in thereafter; however, if any insurance contract, premiums for which are advanced or to be advanced under the agreement, has not been issued at the time of execution and the premium finance agreement so provides, the name of the insurer, the policy number and the due date of the first installment may be left blank and inserted later. In connection with the financing of an additional premium or policies, upon the completion of the computations necessary to determine the amount of the revised unpaid balance and the number and amount of future installment payments, the company shall mail notice of the changes to the insured at his address shown in the agreement. The notice of the revised finance agreement shall set forth:

(a) The unpaid balance, as adjusted.

(b) The number and frequency of each installment under the revised finance agreement.

(c) The amount of each installment.

(d) A statement to the insured that he may disaffirm the revised finance agreement by mailing, to the company's office, notice of his intention to do so within 10 days of the company's mailing of the notice of the revised finance agreement.

(e) A statement to the insured that the company may, in the event he disaffirms, cancel his insurance contract or contracts as provided in Section 18608, except that the 10-day period required by that section shall be deemed to commence with the mailing of the notice of the revised finance agreement.

18607. Upon receipt of the loan form the company shall promptly mail to the insured at the address shown in the agreement, or deliver to the insured personally, either a notice to the effect that the application for a loan is rejected or a copy of the agreement, thereby signifying acceptance by the company, or if the agreement contained any blank space when it was executed by or on behalf of the insured and such blank space was subsequently filled in, a copy of the agreement as so filled in and the insured shall in such event have 10 days in which to disaffirm his obligation under the premium finance agreement by giving written notice thereof to the producer and the company. In the event the agreement is not disaffirmed by the insured, the agreement shall be as binding an obligation of the insured as if the agreement were complete on its face when it was executed.

18608. A premium finance agreement may contain a power of attorney or other authority enabling the company to cancel the insurance contract or contracts listed in the agreement in the event of default in the terms thereof. Upon the exercise of such right to cancel, the company shall mail to the insured, to his last known address or to the address shown on the premium finance agreement at least 10 days prior to cancellation, a notice of its intent to cancel the insurance contract or contracts. The liability of a company to any person or corporation upon the exercise of such right or authority of cancellation shall be limited to the amount of the principal balance, except in the event of willful failure by the company to mail the notice required by this section.

18609. All statutory, regulatory and contractual restrictions providing that the insured or the insurer shall not cancel the insurance contract unless the insured or the insurer first satisfies such restrictions by giving a prescribed notice of cancellation to a governmental agency, the insurer, the insured, the holder of a security interest in the subject of the insurance, or other prescribed party, shall not be affected by the provisions of this division. However, any cancellation notice period required by such statutory, regulatory or contractual restriction shall not be cumulative to the period required by Section 18606 or 18608. If cancellation of the insurance contract is initiated by the company under the terms of this division, the insurer shall (in accordance with the requirement for a prescribed notice), on behalf of itself or the insured, give such notice to the governmental agency, the holder of a security interest in the subject of the insurance or other prescribed party; and the insurer shall determine and calculate the effective date of cancellation (in accordance with the terms of that prescribed notice) from the date it receives the notice of request for cancellation from the company. In no instance shall the effective date of cancellation be prior to that established by the company.

18610. The insurer within a reasonable time after the effective date of cancellation shall return whatever gross unearned premiums or accrued dividends are payable under the insurance contract to the

41793 296220 845

company, which financed the insurance contract, for the benefit of the insured. Whenever the return premium is in excess of the amount due to the company, such an excess shall be remitted promptly to the insured or to his order.

18611. At the time of mailing the notice required by Section 18606 or 18608, the employee of the company who is doing the mailing shall prepare and sign an affidavit setting forth the following:

(a) The name and address of the employee doing the mailing.

(b) That the employee is over 18 years of age.

(c) The date and place of deposit in the mail.

(d) The addressee's name and address as shown on the envelope mailed.

(e) That the envelope was sealed and deposited in the mail with the postage thereon fully paid.

An affidavit of mailing, prepared as prescribed in this section, shall raise a rebuttable presumption that the notice was mailed to the addressee stated in the affidavit.

Article 4. Limitation on Finance Charges

18625. A premium finance agency shall not, except as otherwise provided by law, impose, take, receive, reserve or charge a finance charge which in the aggregate is greater than that which is permitted by this article.

18626. A premium finance agency may, in a premium finance agreement, contract for, charge, receive, and collect a finance charge which shall not exceed in the aggregate:

(a) One and three-quarters percent (1¾%) per month on that part of the unpaid principal balance of any loan up to, including, but not in excess of, seven hundred dollars ($700).

(b) Five-sixths of 1 percent (⅚ of 1%) per month on any remainder of such unpaid principal balance in excess of seven hundred dollars ($700).

18627. If the finance charge computed under Section 18626 is less than twelve dollars ($12), a minimum finance charge of twelve dollars ($12) may be imposed, except that:

(a) When the principal balance is not in excess of one hundred dollars ($100) and is to be repaid in less than four (4) months the maximum charge shall be four dollars ($4).

(b) When the principal balance is not in excess of one hundred dollars ($100) and is to be repaid in four monthly installments, the maximum finance charge shall be six dollars ($6).

(c) When the principal balance is not in excess of one hundred dollars ($100) and is to be repaid in five or more monthly installments the maximum finance charge shall be eight dollars ($8).

18628. The finance charge may be computed from the effective date of the insurance coverage, provided that the company shall pay the premium due the insurer, either:

(a) Within 30 days from the effective date of the insurance

coverage; or

(b) Within 30 days after the receipt by the company of a proper premium finance agreement; or

(c) Within 15 days after the company has mailed to the insured, notice of a revised finance agreement pursuant to Section 18606 whichever is later.

If the conditions of subdivision (a), (b), or (c) are not met the finance charge shall be computed from the date the proceeds of the loan are forwarded to the insurer. In the event the company receives a proper premium finance agreement later than 60 days from the effective date of the policy financed, a proportioned adjustment of the finance charge shall be made after such 60-day period.

18629. Notwithstanding the provisions of any premium finance agreement to the contrary, any insured may pay the obligation in full at any time before maturity of the final installment. If he does so, he shall receive a refund credit of the unearned finance charge computed in accordance with Section 18245 or 18247, except where the amount of the refund credit is less than one dollar ($1) no refund need be made, and except that where the earned finance charge amounts to less than the minimum finance charge permitted by Section 18627, the company may retain as an earned finance charge a sum equal to the minimum permitted by Section 18627 or the maximum prescribed by Section 18627, whichever is applicable.

18630. In the event that the insurance policy or policies which are the subject of a premium finance agreement are canceled by the insured or by the insurer, for any cause, the insured shall be entitled to receive a refund credit of the unearned finance charge. This refund credit shall be calculated in the same manner as prescribed in Section 18629, and shall be paid to the insured within a reasonable time.

18631. A premium finance agreement may provide for the payment of a default charge of one dollar ($1) to a maximum of 5 percent of the delinquent installment but not to exceed five dollars ($5), in the event of a default for a period of not less than 10 days in the payment of any scheduled installment under the terms of a premium finance agreement. Such charge may not be collected more than once for the same default and may be collected at the time of such default or at any time thereafter. If such default charge is deducted from any payment received after default occurs, and such deduction results in the default of a subsequent installment, no charge may be made for the resulting default.

CHAPTER 9. RESTRICTED INDUSTRIAL LOAN COMPANIES

18650. A corporation validly formed under the laws of this state which is in good standing may become a restricted industrial loan company under this division if the corporation complies with all pertinent provisions of this division.

18651. The articles of incorporation of a corporation formed

under this division as a restricted industrial loan company shall include reference to that fact.

18652. Notwithstanding anything to the contrary contained in Article 3 of Chapter 2 of this division, such restricted industrial loan company before opening or commencing business, shall have and shall thereafter maintain a paid-in and unimpaired capital of not less than two hundred thousand dollars ($200,000).

18653. A restricted industrial loan company is restricted to making business loans not exceeding ten thousand dollars ($10,000) in principal amounts.

18654. A "business loan" for purposes of this chapter is an unsecured loan of money to a person, firm or corporation conducting a business enterprise for profit to be used solely in connection with the conduct of said business.

18655. A restricted industrial loan company shall not accept or hold any deposits nor issue any thrift obligations or certificates.

CHAPTER 10. MORTGAGE BANKERS

Article 1. Definitions

18680. "Mortgage banker" means any industrial loan company incorporated under this division which, by the terms of its authority to engage in the industrial loan business, is not permitted to issue or sell investment certificates and the business of which is limited to that set forth in this chapter.

18681. As used in this chapter, "mortgage banking" means the activities of a company engaging in the business of making mortgage banking loans.

18682. As used in this chapter, "company" means a mortgage banker.

18683. A mortgage banking loan is a loan made to a corporation or partnership secured directly or collaterally solely by a lien on real property, except furniture and fixtures which have a direct bearing on the economic value of the real property which secures such loan, in the principal amount of one hundred thousand dollars ($100,000) or more, and any extensions, modifications or forbearances thereof or additional advances thereunder. For purposes of Section 18703, the date of the execution of the first note or other agreement shall be deemed to be the date of execution of the loan and any extension, modification, or forbearance thereof or additional advances thereunder.

18684. As used in this chapter, "servicing" is the collection of payment of interest and principal and other sums due on a mortgage banking loan and the performance of bookkeeping and accounting functions incident thereto.

Article 2. General

18700. The articles of incorporation of any corporation formed under this division as a mortgage banker shall include reference to that fact.

18701. The capital stock of any mortgage banker shall be not less than one hundred thousand dollars ($100,000) and need not exceed that sum regardless of the number of branch offices or business locations which may be authorized under the provisions of this division.

18702. The charges by a mortgage banker on a loan made under this chapter shall not exceed 1½ percent per month on the unpaid principal balance.

18703. No mortgage banking loan shall be assigned or otherwise transferred within 90 days after the date of execution. Thereafter, a mortgage banking loan may be assigned to a third party, whether or not licensed under this division, so long as the servicing of the loan is always performed by a mortgage banker, which may or may not be the mortgage banker making the loan. The rights of a mortgage banker, under this chapter, shall also accrue to the assignee or transferee of a mortgage banking loan.

None of the foregoing shall prohibit a mortgage banker from agreeing, prior to making a loan to assign or otherwise transfer the loan subject to the foregoing limitations.

18704. In the event of any conflict in the provisions of this chapter with the provisions of any other chapter in this division, the provisions of this chapter shall control with regard to mortgage banking. The transfer or assignment of a mortgage banking loan shall not affect the regulatory powers of the commissioner over the mortgage banker with respect to the loan.

18705. The provisions of subdivisions (b) and (c) of Section 18116, subdivision (a) of Section 18117, and subdivision (a) of Section 18147, and of Sections 18006, 18008, 18009, 18010, 18022, 18023, 18024, 18040, 18041, 18120, 18130, 18131, 18132, 18134, 18136, 18137, 18139, 18165, 18205, 18206, 18207, 18208, 18210, 18211, 18212, 18214, 18216, 18217, 18219, 18220, 18222, 18230, 18231, 18233, 18234, 18245, 18246, 18266, 18268, 18269, 18270, 18271, 18272, 18273, 18274, 18346, 18357(b), 18436, 18437, 18439, 18441, 18442, and 18455 shall not apply to a mortgage banker or to any loan made by a mortgage banker.

SEC. 3. Any section of any act enacted by the Legislature during the 1976 portion of the 1975–76 Regular Session, which takes effect on or before January 1, 1977, and which amends, amends and renumbers, adds, or repeals a section amended, amended and renumbered, added, or repealed by this act, shall prevail over this act, whether such act is enacted prior or subsequent to this act.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a

variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 965

An act to amend Sections 14014 and 14124.2 of, and to add Section 14107.1 to, the Welfare and Institutions Code, relating to Medi-Cal.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 14014 of the Welfare and Institutions Code is amended to read:

14014. Any person receiving health care for which he was not eligible on the basis of false declarations as to his eligibility or any person making false declarations as to eligibility in behalf of any other person receiving health care for which such other person was not eligible shall be liable for repayment and shall be guilty of a misdemeanor or felony depending on the amount paid in his behalf for which he was not eligible, as specified in Section 487 of the Penal Code.

SEC. 2. Section 14107.1 is added to the Welfare and Institutions Code, to read:

14107.1. Any provider on whose behalf improper claims are submitted for authorization or payment under this chapter may be required to submit all such claims over the provider's own signature for whatever time period the department determines appropriate.

SEC. 3. Section 14124.2 of the Welfare and Institutions Code is amended to read:

14124.2. The department or the Department of Benefit Payments during normal working hours may make any examination of the books and records of any provider pertaining to services rendered to any beneficiary under this chapter, and may visit and inspect the premises or facilities of any provider it may deem necessary to carry out the provisions of this chapter and regulations adopted thereunder. A provider shall furnish such information or copies of such records and documentation upon request by either department. Unannounced visits to request such information shall be reserved for those exceptional situations where arrangement of an appointment beforehand is clearly not possible or is clearly inappropriate to the nature of the intended visit. Only those related books and records of each service rendered, the beneficiary to whom rendered, the date, and such additional information as the department may by regulation require shall be subject to the

requirement of furnishing copies. Such information may include records to support and document the recipient's eligibility for services, and to the extent necessary records to provide proof of the quantity and receipt of such services, and that the services were provided by proper personnel. Providers shall be reimbursed for reasonable photocopying related expenses as determined by the department. Failure to comply with such request shall be grounds for immediate suspension of the provider under subdivision (b) of Section 14123.

Any copies furnished pursuant to this subdivision shall be used only to investigate and pursue criminal or administrative sanctions for Medi-Cal fraud and abuse, and such copies shall be destroyed when that purpose has been satisfied.

CHAPTER 966

An act to amend Section 925a of the Penal Code, relating to grand juries.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 925a of the Penal Code is amended to read:

925a. The grand jury may at any time examine the books and records of any incorporated city or joint powers agency located in the county, which pertain to fiscal matters. In addition to any other investigatory powers granted by this chapter, the grand jury may investigate and report upon the fiscal matters of any such city or joint powers agency and make such recommendations as it may deem proper and fit.

The grand jury may investigate and report upon the needs of all joint powers agencies in the county, including the abolition or creation of agencies and the equipment for, or the method or system of performing the duties of, the several agencies. It shall cause a copy of any such report to be transmitted to the governing body of any affected agency.

As used in this section, "joint powers agency" means an agency described in Section 6506 of the Government Code whose jurisdiction encompasses all or part of a county.

SEC. 2. Section 925a of the Penal Code is amended to read:

925a. (a) The grand jury may at any time examine the books and records of any incorporated city or joint powers agency located in the county, which pertain to fiscal matters. In addition to any other investigatory powers granted by this chapter, the grand jury may investigate and report upon the fiscal matters of any such city or joint powers agency and make such recommendations as it may deem

proper and fit.

The grand jury may investigate and report upon the needs of all joint powers agencies in the county, including the abolition or creation of agencies and the equipment for, or the method or system of performing the duties of, the several agencies. It shall cause a copy of any such report to be transmitted to the governing body of any affected agency.

As used in this section, "joint powers agency" means an agency described in Section 6506 of the Government Code whose jurisdiction encompasses all or part of a county.

(b) With respect to any incorporated city located in the county, the grand jury shall possess those powers and duties established by this article with respect to the county.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 1860 are both chaptered and become effective January 1, 1977, both bills amend Section 925a of the Penal Code, and this bill is chaptered after Senate Bill No. 1860, that the amendments to Section 925a proposed by both bills be given effect and incorporated in Section 925a in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 1860 are both chaptered and become effective January 1, 1977, both amend Section 925a, and this bill is chaptered after Senate Bill No. 1860, in which case Section 1 of this act shall not become operative.

CHAPTER 967

An act to add Section 12303.7 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

SECTION 1. Section 12303.7 is added to the Welfare and Institutions Code, to read:

12303.7. Any aged, or disabled applicant or recipient who is eligible for assistance under this article, whose disabilities prevent the use of cooking facilities at home, shall be given the option to receive an allowance of twenty-five dollars ($25) per month for an individual and fifty dollars ($50) per month for a married couple in lieu of the appropriate in-home food preparation and consumption services. The allowance under this section shall be in addition to any amount that the applicant or recipient is entitled to under this chapter. Such allowance shall not have the effect of exceeding the total cost maximum of Sections 12303.5 and 12304. Nothing in this section shall be construed to limit the applicant's or recipient's right

02604 296345 870

to receive the allowance under this section and all other homemaker and chore services.

The State Department of Health shall adjust the amount of the allowance under this section to be equivalent to the amount of the special need allowance under subdivision (e) of Section 12200.

CHAPTER 968

An act to amend Section 15863 of the Government Code, relating to relocation assistance, and making an appropriation therefor.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15863 of the Government Code is amended to read:

15863. The proceeds of such sale shall be deposited in the General Fund. Rentals received by the department pursuant to Section 15862 shall be deposited in the General Fund and are appropriated to the Department of General Services to maintain, improve, and care for real property acquired pursuant to this part pending the use of such property to further the postwar construction program. Any unneeded balance in the appropriation shall be transferred by the Controller on order of the Director of General Services to the General Fund.

Notwithstanding any other provision of the law, all moneys appropriated pursuant to the provisions of this section shall be available for payments required to be made pursuant to the provisions of Chapter 16 (commencing with Section 7260) of Division 7 of Title 1.

SEC. 2. Moneys appropriated pursuant to Section 15863 of the Government Code shall be available to repay the emergency fund loan previously made to the Department of General Services for relocation assistance claims.

CHAPTER 969

An act to amend Sections 1525, 1530.5, and 1550 of the Health and Safety Code, relating to community care facilities.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

04176 296385 878

SECTION 1. Section 1525 of the Health and Safety Code is amended to read:

1525. Upon the filing of the application for a license or for a special permit and compliance with the provisions of this chapter and the rules, regulations, and standards of the department, the director shall issue to the applicant the license or special permit. If the director finds that the applicant is not in compliance with the laws or regulations of this chapter, he shall deny the applicant a license or a special permit.

However, the director may issue provisional licenses to operate community care facilities for facilities which the director determines are in substantial compliance with the provisions of this chapter and the rules and regulations adopted pursuant to this chapter if no life safety risks are involved. Such a provisional license shall expire six months from the date of issuance, or at such earlier time as the director may determine, and may not be renewed.

SEC. 2. Section 1530.5 of the Health and Safety Code is amended to read:

1530.5. The state department, in establishing regulations, including provisions for periodic inspections, under this chapter for family homes providing 24-hour care for six or fewer foster children, shall consider such homes as private residences, and shall establish regulations for such family homes separate from regulations for all other community care facilities. Such family homes shall not be subject to ratings pursuant to Section 1534 or 1535. The department, in adopting and amending regulations for such family homes, shall consult with foster parent organizations in order to insure compliance with the requirement of this section.

SEC. 3. Section 1550 of the Health and Safety Code is amended to read:

1550. The state department may suspend or revoke any license or special permit issued under the provisions of this chapter upon any of the following grounds and in the manner provided in this chapter:

(a) Violation by the licensee or holder of a special permit of any of the provisions of this chapter or of the rules and regulations promulgated under this chapter.

(b) Aiding, abetting, or permitting the violation of any provision of this chapter or of the rules and regulations promulgated under this chapter.

(c) Conduct in the operation or maintenance, or both the operation and maintenance, of a community care facility which is inimical to the health, morals, welfare, or safety of either an individual in or receiving services from the facility or the people of the State of California.

The director may temporarily suspend any license or special permit prior to any hearing when, in his opinion, such action is necessary to protect residents or clients of the facility from physical or mental abuse, abandonment, or any other substantial threat to health or safety. The director shall notify the licensee or permittee

of the temporary suspension and the effective date thereof and at the same time shall serve such licensee or permittee with an accusation. Upon receipt of a notice of defense to the accusation by the licensee or permittee, the director shall set the matter for hearing within five days after the receipt of the notice of defense. The temporary suspension shall remain in effect until such time as the hearing is completed and the director has made a final determination on the merits except that the temporary suspension shall be deemed vacated if the director fails to make a final determination on the merits within 30 days after the original hearing has been completed.

CHAPTER 970

An act to authorize a levee subsidence program, and to amend Section 12881.4 of the Water Code, relating to water projects.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 12881.4 of the Water Code is amended to read:

12881.4. In the administration of this chapter, the department and the commission shall give preference to projects involving the development of new basic water supplies. If the water supply function of a dam and reservoir facility is operationally limited or eliminated for dam safety purposes, pursuant to Part 1 (commencing with Section 6000) of Division 3, the department and the commission may give consideration to projects which would rehabilitate the dam and reservoir for water supply purposes. The rehabilitation of facilities may include comparable replacement facilities.

SEC. 2. The Legislature finds and declares that:

(a) Peatlands in the Sacramento-San Joaquin Delta are subsiding up to three inches per year due to soil oxidation, compaction, and wind erosion.

(b) Because of continued subsidence, much of the delta lands have fallen below sea level, and larger and larger levees have had to be constructed in order to restrain tidal and flood waters from permanently inundating these valuable delta agricultural lands.

(c) Without major levee works or without preventing subsidence, local levee maintenance districts will have increased economic difficulties in maintaining a viable levee system.

(d) A partial alternative to costly state and federal major levee works would be a subsidence control program undertaken along the landside of levees, if such control is determined to be economically and engineeringly viable.

SEC. 3. The Department of Water Resources is hereby directed

to undertake an investigation of the viability of a subsidence control program in the Sacramento-San Joaquin Delta. The department shall report its findings to the Legislature.

CHAPTER 971

An act to amend Sections 54.1 and 54.3 of the Civil Code, relating to blind persons.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 54.1 of the Civil Code is amended to read:

54.1. (a) Blind persons, visually handicapped persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to accommodations, advantages, facilities, and privileges of all common carriers, airplanes, motor vehicles, railroad trains, motor buses, streetcars, boats or any other public conveyances or modes of transportation, hotels, lodging places, places of public accommodation, amusement or resort, and other places to which the general public is invited, subject only to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(b) (1) Blind persons, visually handicapped persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(2) "Housing accommodations" means any real property, or portion thereof, which is used or occupied, or is intended, arranged, or designed to be used or occupied, as the home, residence, or sleeping place of one or more human beings, but shall not include any accommodations included within subdivision (a) or any single-family residence the occupants of which rent, lease, or furnish for compensation not more than one room therein.

(3) Nothing in this subdivision shall require any person renting, leasing or providing for compensation real property to modify his property in any way or provide a higher degree of care for a blind person, visually handicapped person, or other physically disabled person than for a person who is not physically disabled.

(4) Except as provided in paragraph (5) of this subdivision, nothing in this part shall require any person renting, leasing, or providing for compensation real property, if such person refuses to accept tenants who have dogs, to accept as a tenant a physically disabled person who has a dog.

(5) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person or visually handicapped person on the basis that such person is partially or wholly dependent upon the services of a guide dog, or to refuse to permit such a blind person or visually handicapped person to keep a guide dog on the premises.

Nothing contained in this subdivision shall be construed to prevent the owner of a housing accommodation from establishing such terms in a lease or rental agreement which reasonably regulates the presence of guide dogs on the premises of a housing accommodation, nor shall this subdivision be construed to relieve a tenant from any liability otherwise imposed by law for damages caused by a guide dog.

As used in this subdivision, "guide dog" means any guide dog or seeing-eye dog which was trained by a person licensed under the provisions of Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code.

(6) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person, visually handicapped person, or other physically disabled person on the basis that such physically disabled person is partially or wholly dependent upon the income of his spouse, if the spouse is a party to the lease or rental agreement. Nothing in this subdivision shall, however, prohibit a lessor or landlord from considering the aggregate financial status of a physically disabled person and his spouse.

(c) Persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code, may take dogs, for the purpose of training them as guide dogs, in any of the places specified in paragraphs (a) and (b), above. Such persons shall carry and display, upon request, identification in such form as shall be prescribed by the State Board of Guide Dogs for the Blind.

SEC. 2. Section 54.3 of the Civil Code is amended to read:

54.3. Any person or persons, firm or corporation who denies or interferes with admittance to or enjoyment of the public facilities as specified in Sections 54 and 54.1 or otherwise interferes with the rights of a totally or partially blind person or other disabled person under Sections 54, 54.1 and 54.2 is liable for each such offense for the actual damages and, in addition thereto, up to five hundred dollars ($500) in punitive damages, suffered by any person denied any of the rights provided in Sections 54, 54.1, and 54.2.

CHAPTER 972

An act to amend Sections 54.1 and 54.3 of the Civil Code, relating to discrimination.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 54.1 of the Civil Code is amended to read:

54.1. (a) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to accommodations, advantages, facilities, and privileges of all common carriers, airplanes, motor vehicles, railroad trains, motorbuses, streetcars, boats or any other public conveyances or modes of transportation, hotels, lodging places, places of public accommodation, amusement or resort, and other places to which the general public is invited, subject only to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(b) (1) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(2) "Housing accommodations" means any real property, or portion thereof, which is used or occupied, or is intended, arranged, or designed to be used or occupied, as the home, residence, or sleeping place of one or more human beings, but shall not include any accommodations included within subdivision (a) or any single-family residence the occupants of which rent, lease, or furnish for compensation not more than one room therein.

(3) Nothing in this subdivision shall require any person renting, leasing or providing for compensation real property to modify his property in any way or provide a higher degree of care for a blind person, visually handicapped person, deaf persons, or other physically disabled person than for a person who is not physically disabled.

(4) Except as provided in paragraph (5) of this subdivision, nothing in this part shall require any person renting, leasing, or providing for compensation real property, if such person refuses to accept tenants who have dogs, to accept as a tenant a physically disabled person who has a dog.

(5) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing

accommodations to a blind person or visually handicapped person on the basis that such person uses the services of a dog guide,, or to a deaf person on the basis that such person uses the services of a dog to signal the presence of intruders or unusual noises, or to refuse to permit such a blind person or visually handicapped person to keep a guide dog, or a deaf person to keep a signal dog, on the premises.

Except in the normal performance of duty as a mobility aid, nothing contained in this paragraph shall be construed to prevent the owner of a housing accommodation from establishing such terms in a lease or rental agreement which reasonably regulates the presence of guide dogs on the premises of a housing accommodation, nor shall this paragraph be construed to relieve a tenant from any liability otherwise imposed by law for real and personal property damages caused by a guide dog when proof of same exists.

(6) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person, visually handicapped person, deaf person, or other physically disabled person on the basis that such physically disabled person is partially or wholly dependent upon the income of his spouse, if the spouse is a party to the lease or rental agreement. Nothing in this subdivision shall, however, prohibit a lessor or landlord from considering the aggregate financial status of a physically disabled person and his spouse.

(c) Persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code, may take dogs, for the purpose of training them as guide dogs, in any of the places specified in paragraphs (a) and (b), above. Such persons shall carry and display, upon request, identification in such form as shall be prescribed by the State Board of Guide Dogs for the Blind.

SEC. 1.5. Section 54.1 of the Civil Code is amended to read:

54.1. (a) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to accommodations, advantages, facilities, and privileges of all common carriers, airplanes, motor vehicles, railroad trains, motorbuses, streetcars, boats or any other public conveyances or modes of transportation, hotels, lodging places, places of public accommodation, amusement or resort, and other places to which the general public is invited, subject only to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(b) (1) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(2) "Housing accommodations" means any real property, or portion thereof, which is used or occupied, or is intended, arranged, or designed to be used or occupied, as the home, residence, or sleeping place of one or more human beings, but shall not include any accommodations included within subdivision (a) or any single-family residence the occupants of which rent, lease, or furnish for compensation not more than one room therein.

(3) Nothing in this subdivision shall require any person renting, leasing or providing for compensation real property to modify his property in any way or provide a higher degree of care for a blind person, visually handicapped person, deaf persons, or other physically disabled person than for a person who is not physically disabled.

(4) Except as provided in paragraph (5) of this subdivision, nothing in this part shall require any person renting, leasing, or providing for compensation real property, if such person refuses to accept tenants who have dogs, to accept as a tenant a physically disabled person who has a dog.

(5) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person or visually handicapped person on the basis that such person uses the services of a dog guide,, or to a deaf person on the basis that such person uses the services of a dog to signal the presence of intruders or unusual noises, or to refuse to permit such a blind person or visually handicapped person to keep a guide dog, or a deaf person to keep a signal dog, on the premises.

Except in the normal performance of duty as a mobility aid, nothing contained in this paragraph shall be construed to prevent the owner of a housing accommodation from establishing such terms in a lease or rental agreement which reasonably regulates the presence of guide dogs on the premises of a housing accommodation, nor shall this paragraph be construed to relieve a tenant from any liability otherwise imposed by law for real and personal property damages caused by a guide dog when proof of same exists.

As used in this subdivision, "guide dog" means any guide dog or seeing-eye dog which was trained by a person licensed under the provisions of Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code.

(6) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person, visually handicapped person, deaf person, or other physically disabled person on the basis that such physically disabled person is partially or wholly dependent upon the income of his spouse, if the spouse is a party to the lease or rental agreement. Nothing in this subdivision shall, however, prohibit a lessor or landlord from considering the aggregate financial status of a physically disabled person and his spouse.

(c) Persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code, may take dogs, for the purpose of training them as guide dogs, in any of the places specified in paragraphs (a) and (b), above. Such persons shall carry and display, upon request, identification in such form as shall be prescribed by the State Board of Guide Dogs for the Blind.

SEC. 2. Section 54.3 of the Civil Code is amended to read:

SEC. 2.5. Section 54.3 of the Civil Code is amended to read:

54.3. Any person or persons, firm or corporation who denies or interferes with admittance to or enjoyment of the public facilities as specified in Sections 54 and 54.1 or otherwise interferes with the rights of a totally or partially blind person, deaf person, or other disabled person under Sections 54, 54.1 and 54.2 is liable for each such offense for the actual damages and, in addition thereto, up to five hundred dollars ($500) in punitive damages, suffered by any person denied any of the rights provided in Sections 54, 54.1, and 54.2.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 2062 are both chaptered and become effective January 1, 1977, both bills amend Section 54.1 of the Civil Code, and this bill is chaptered after Senate Bill No. 2062, that the amendments to Section 54.1 proposed by both bills be given effect and incorporated in Section 54.1 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Senate Bill No. 2062 are both chaptered and become effective January 1, 1977, both amend Section 54.1, and this bill is chaptered after Senate Bill No. 2062, in which case Section 1 of this act shall not become operative.

CHAPTER 973

An act to add Sections 18610, 18654.5, 18752.6, 18752.7, 18752.8, and 18752.9 to the Business and Professions Code, relating to boxing and karate, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 15, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 18610 is added to the Business and Professions Code, to read:

18610. (a) Except as otherwise provided by this section, "boxing," as used in this chapter, includes professional and amateur full-contact karate. The provisions of Sections 18685, 18736, 18737, 18738, 18738.5, 18739, 18740, and 18741 shall not apply to professional or amateur full-contact karate.

(b) As used in this chapter, "professional or amateur full-contact karate" means any form of full-contact martial arts, including, but not limited to, full-contact kungfu, full-contact tae kwon-do, or any other form of martial arts or self-defense conducted on a full-contact basis in a contest, match, or exhibition where weapons are not used.

(c) As used in this chapter, "full contact" means the use of full unrestrained physical force in a martial arts contest.

(d) As used in this chapter, "light contact" means the use of controlled martial arts techniques whereby contact to the body is permitted in a restrained manner and no contact to the face is permitted.

(e) As used in this chapter, "noncontact" means that no contact occurs between either contestant.

SEC. 1.5. Section 18654.5 is added to the Business and Professions Code, to read:

18654.5. At all amateur boxing or full-contact karate programs being promoted under Article 3 (commencing with Section 18650) of this chapter, or Section 18752.8, a physician shall be in attendance and all participants on the program shall be given the same prefight physical examination as all other amateur participants are given in this state. Any club promoting an amateur program under these sections without having a physician in attendance shall be guilty of a misdemeanor.

SEC. 2. Section 18752.6 is added to the Business and Professions Code, to read:

18752.6. (a) The commission shall by rule and regulation regulate professional and amateur full-contact karate matches and contests, which shall be fought on the basis of the best effort of the contestants.

(b) Professional and amateur full-contact karate exhibitions shall

be governed by provisions in Article 7.5 (commencing with Section 18755) of this chapter, relating to wrestling exhibitions, except that in such case, regulations therein shall apply to "professional and amateur full-contact karate exhibitions" rather than "wrestling exhibitions."

(c) The commission shall by rule and regulation prescribe the length or duration of professional and amateur full-contact karate matches and contests, the manner in which the contestants or participants shall engage in such matches and contests, and such further safeguards and conditions as shall insure fair, sportsmanlike, and scientific professional and amateur full-contact karate contests and matches.

The commission shall approve all protective gear. No professional or amateur full-contact karate match, contest, or exhibition shall be conducted unless each participant uses approved protective gear on the hands and feet of the participant. Matches shall not exceed nine two-minute rounds with a one-minute rest period between each round; however, the commission may permit an extension of two rounds of the maximum length for the purpose of championship events.

(d) No minor shall participate in any professional or amateur full-contact karate exhibition, match, or contest.

(e) Any professional or amateur full-contact karate contest conforming to the rules, regulations, and requirements of this chapter is deemed a professional or amateur full-contact karate contest and not a prizefight.

(f) The licensed promoter shall be the real party in interest and shall receive at least 25 percent of the net receipts of any contest to qualify as the real party in interest. Upon a finding by the commission that the licensed promoter is not the real party in interest for such an event the commission may revoke the promoters license.

(g) The commission shall not function as a sanctioning body nor shall it grant titles to fighters or to individual events. This function shall be retained by such full-contact karate amateur or professional associations operating on a local, statewide, regional, national or international level who shall, when operating in California, observe such rules and regulations as have been set forth by the commission. The commission may seek counsel from the advisory committee as to the validity of any association wishing to grant state titles in order to protect the public from advertising misrepresentations.

(h) While full-contact karate, wrestling, and boxing are all fighting sports subject to licensing in California, the Legislature recognizes that full-contact karate is an entirely separate sport.

It is the intent of the Legislature that persons or clubs who possess boxing promoters licenses and wrestling promoters licenses should, to the fullest extent possible, subject to their contractual obligations with respect to the conduct of boxing or wrestling matches, contests or other legitimate rentals, for sports or other events, make their premises available for lease or rental by persons or clubs holding

02791 296565 914

professional or amateur full-contact karate promoters licenses for the conduct of professional or amateur full-contact karate programs.

SEC. 3. Section 18752.7 is added to the Business and Professions Code, to read:

18752.7. All noncontact and light-contact karate, martial arts instruction, martial arts schools, intraclub noncontact and light-contact martial arts matches, interclub noncontact and light-contact martial arts matches, AAU and all other amateur martial arts matches or contests shall, notwithstanding any other provision of law, be exempt from the provisions of Sections 18752.6 to 18752.9, inclusive.

SEC. 4. Section 18752.8 is added to the Business and Professions Code, to read:

18752.8. This chapter shall not apply to: (a) any full-contact karate contest or sparring match conducted under the supervision and control of the National Guard or Naval Militia where all of the contestants are members of the active National Guard or Naval Militia; (b) any amateur karate match or contest conducted by or participated in exclusively by, any school, college, or university or by, any association or organization composed exclusively of schools, colleges, or universities when each contestant in such contest or match is a bona fide student regularly enrolled for not less than one-half time in a school, college, or university.

SEC. 5. Section 18752.9 is added to the Business and Professions Code, to read:

18752.9. The commission may appoint an advisory committee to advise the commission upon the administration of Sections 18752.6 to 18752.9, inclusive.

The advisory committee shall be composed entirely of individuals, residing in California who have, prior to their appointment, been a promoter, fighter, trainer, manager, or official in publicly held, full-contact karate events either in California, nationally, or internationally. Proof of qualification to serve shall be required by the commission and may be viewed, upon request, by others serving or appointed to serve on the committee.

If the advisory committee seeks medical or legal advice, such counsel may be sought from doctors or lawyers familiar with the question or with the sport in general; but such doctors or lawyers, while they may be invited by the chairperson to attend a specific meeting, shall not be appointed to serve as advisory committee members.

The advisory committee may elect its own officers.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in

significant identifiable cost changes.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A sport now known as full-contact karate has developed recently which can be violent, and could cause permanent injury or death to participants, particularly youthful participants. In order that the jurisdiction of the State Athletic Commission over professional and amateur full-contact karate matches may be clearly established and that the needed regulation may be implemented at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 974

An act relating to health care service plans, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. There is hereby appropriated from the General Fund to the Commissioner of Corporations the amount of one hundred eighty-nine thousand two hundred sixty-one dollars ($189,261) for expenditure in the 1976–77 fiscal year for the administration of the Knox-Keene Health Care Service Plan Act of 1975 (Chapter 2.2 (commencing with Section 1340) of Division 2 of the Health and Safety Code).

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Additional funds are necessary for the administration of the Knox-Keene Health Care Service Plan Act of 1975, which became effective July 1, 1976, because the initial workload regarding the implementation of the act was underestimated and recent developments require an expansion of the ability of the Commissioner of Corporations to process license applications and other matters relating to the implementation of the Knox-Keene Health Care Service Plan Act of 1975.

CHAPTER 975

[Approved by Governor September 15, 1976. Filed with Secretary of State September 15, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2 of Chapter 1217 of the Statutes of 1975 is amended to read:

(c) Two million dollars ($2,000,000) during the 1977–78 fiscal year.

(d) One million dollars ($1,000,000) during the 1978–79 fiscal year.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to ensure that all funds appropriated by Chapter 1217 of the Statutes of 1975 are available when needed for expenditure for necessary health services for high-risk pregnant women, it is necessary that this act take immediate effect.

CHAPTER 976

An act to amend Sections 5778, 5778.5, and 6445.14 of, and to add Section 6445.22 to, the Education Code, relating to early childhood education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 5778 of the Education Code is amended to read:

5778. Certificated school district employees nominated pursuant to Section 5775, who are determined by the department to have passed the examination prescribed by Section 5777, shall forthwith be

granted certificates entitling them to accept employment as specialist teachers in reading and may provide reading instruction in kindergarten or any of grades 1 through 3, or grades 4 through 6 if a school district provides such instruction in grades 4 through 6 pursuant to Section 6445.22.

SEC. 2. Section 5778.5 of the Education Code is amended to read:

5778.5. Certificated school district employees nominated pursuant to Section 5778.3, shall forthwith be granted certificates entitling them to accept employment as specialist teachers in reading and may provide reading instruction in kindergarten or any of grades 1 through 3, or grades 4 through 6 if a school district provides such instruction in grades 4 through 6 pursuant to Section 6445.22.

SEC. 3. Section 6445.14 of the Education Code is amended to read:

6445.14. In computing allowances authorized pursuant to Section 6445.12 the Superintendent of Public Instruction shall reduce each school district's total of allowances by the amount apportioned pursuant to Article 5 (commencing with Section 5789) of Division 6.

SEC. 4. Section 6445.22 is added to the Education Code, to read:

6445.22. Any school district which receives allowances for programs authorized pursuant to both Section 6445.12 and Article 5 (commencing with Section 5789) of this division, may utilize allowances authorized pursuant to Article 5 (commencing with Section 5789) of this division in grades 4, 5 and 6, or in kindergarten and grades 1, 2, and 3, for the purposes of and in the manner set forth in such article.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that specialist teachers in reading may be utilized for the instruction of pupils in the fourth, fifth, and sixth grades to commence as early as possible in the 1976–77 fiscal year and thereby improve the educational offering of our public elementary schools, at the earliest possible time, it is essential that this act take effect immediately.

CHAPTER 977

An act to add and repeal Sections 576.8, 600.3, 600.5, 634.7, 635.5, 652.5, 654.5, 726.5, 729.5, 16512.5 to, Chapter 5.3 (commencing with Section 16525), and Chapter 5.5 (commencing with Section 16550) to Part 4 of Division 9 of, the Welfare and Institutions Code, relating to minors, and making an appropriation therefor.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

I am reducing the appropriation contained in Section 28 of Senate Bill No. 30 from $3,000,000 to $2,000,000 by reducing subparagraph (a) for professional staff in the Department of Health from $200,000 to $175,000, subparagraph (b) reimbursement of counties from $2,800,000 to $1,825,000, and by reducing the amount referred to in the last paragraph of subparagraph (b) from $3,000,000 to $2,000,000.

I am reducing the appropriation because child protection services and foster care programs are and should continue to be a county responsibility. The remaining funds will be sufficient for demonstrations in two counties, if legislation is enacted to provide financial participation by counties. I have been assured by Senator Gregorio that he will sponsor such legislation. Any decisions concerning expansion of this program with state financial support must wait review of the final results.

With this reduction, I approve Senate Bill No. 30.

EDMUND G. BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. The Legislature recognizes the serious problems that exist in the current foster care system based upon the various studies prepared by the State Auditor General, the State Department of Health, the State Social Welfare Board, and by other organizations and individuals concerned with foster care. The Legislature finds that such problems include the lack of structured and timely decisionmaking by the various agencies that deal with children in foster care, the lack of early intervention to assist by provision of services the natural parents to cope with their problems in caring for their children, the lack of proper legal counsel for parents and children in court and administrative hearings, the lack of objective standards for removal of children from their homes, the lack of stability and permanence and its effect on the lives of such children, and many other major problems. The Legislature further finds that in order to address these serious problems, the state should initiate a demonstration project in several counties which will enable the Legislature to try new approaches to reform the foster care system on a limited basis and for a limited time in order to provide more stable and permanent placements for children who may have been removed from their parents' custody and to reduce taxpayer expenditures for foster care. If these demonstration programs are proven effective, they may be implemented on a statewide basis; if the programs are unsuccessful, they may be abandoned and the state will not have incurred the burden of funding and administering them on a statewide basis.

SEC. 2. (a) Therefore, this act shall be implemented in not less than two counties, one over and one under 500,000 population, nor in more than four counties, on a demonstration basis during the period from January 1, 1977 through June 30, 1981. The State Department of Health shall choose the appropriate counties by April 1, 1977, from among those that apply for participation in the demonstration program.

(b) In any demonstration county, in the event of any conflict between any other statutes and this act, this act shall prevail.

SEC. 2.5. This act shall apply only to children declared dependents of the juvenile court of a demonstration county on or after July 1, 1977, and to those voluntarily placed by their parents pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 of the Welfare and Institutions Code on or after such date. In all other counties, this act shall not be applicable.

SEC. 3. (a) An action may be brought in a demonstration county for the purpose of having any person under the age of 18 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(1) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another for a period of six months or by one parent in the care and custody of the other parent for a period of one year without any provision for his support, or without communication from such parent or parents, with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents. In those cases in which the child has been left without provision for his identification and the whereabouts of the parents are unknown, a petition may be filed after the 120th day following the discovery of the child and citation by publication may be commenced. The petition may not be heard until after the 180th day following the discovery of the child.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(2) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

An action may be brought under this subdivision only if the child was declared a dependent child of the juvenile court prior to July 1,

1977.

(3) Whose parent or parents suffer a disability because of the habitual use of alcohol, or any of the controlled substances specified in Schedules I to V, inclusive, of Division 10 (commencing with Section 11000) of the Health and Safety Code, except when such controlled substances are used as part of a medically prescribed plan, or are morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such disability, or moral depravity, for the period of one year continuously immediately prior to the filing of the petition praying that he be declared free from the custody and control of such parent or parents. As used in this subdivision, "disability" means any physical or mental incapacity which renders the parent or parents unable to adequately care for and control the child.

(4) Whose parent or parents are convicted of a felony, if the felony of which such parent or parents were convicted is of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child, or if any term of sentence of such parent or parents is of such length that the child will be deprived of a normal home for a period of years.

(5) Whose parent or parents have been declared by a court of competent jurisdiction wherever situated to be mentally deficient or mentally ill, if, in the state or country in which the parent or parents are hospitalized or resident, the State Director of Health, or his equivalent, if any, and the superintendent of the hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(6) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two physicians and surgeons each of which must have been certified either by the American Board of Psychiatry and Neurology or under Section 6750 of the Welfare and Institutions Code. If, however, the parent or parents reside in another state or in a foreign country, the testimony herein may be supplied by two physicians and surgeons who are residents of such state or foreign country, if such physicians and surgeons have been certified by a medical organization or society of that state or foreign country to practice psychiatric or neurological medicine and if the court determines that the certification requirements of such organization or society are comparable to those of the American Board of Psychiatry and Neurology.

The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the court shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he

determines the parent or parents are not financially able to employ counsel.

(7) Who has been cared for in one or more foster homes under the supervision of the juvenile court, the county welfare department or other public or private licensed child-placing agency for two or more consecutive years, providing that the court finds beyond reasonable doubt that return of the child to his parent or parents would be detrimental to the child and that the parent or parents have failed during such period, and are likely to fail in the future, to

(i) Provide a home for the child;

(ii) Provide care and control for the child; and

(iii) Maintain an adequate parental relationship with the child.

Physical custody of the child by the parent or parents for insubstantial periods of time during the required two-year period will not serve to interrupt the running of such period.

An action may be brought under this subdivision only if the child was declared a dependent child of the juvenile court prior to July 1, 1977, or was voluntarily placed by his parents with a county welfare department prior to such date.

(8) Who has been found to be a dependent child of the juvenile court, has been removed from the physical custody of his parent or parents pursuant to Section 726.5 or voluntarily placed pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 of the Welfare and Institutions Code, and where an action to terminate parental rights was initiated due to a court order pursuant to Section 729.5 of the Welfare and Institutions Code.

At the termination proceeding, the person bringing the action shall show that on a continuous basis reasonable services have been provided to the parents, or were offered and refused by them, which were designed to aid the parents to overcome the problems which originally led to the deprivation of physical custody, the effectiveness, if any, of such services, and that despite the use of such services, the problems which originally led to the deprivation of physical custody are still present. Social workers or probation officers who provided such services shall appear, if available, at the termination proceedings.

At the termination proceeding, the court may consider the wishes of the child. When the child is 14 years of age or older, the consent of the child shall be obtained in order that there be a termination of parental rights.

If the court sustains the petition and there is an order pursuant to this subdivision, the court shall specify the factual grounds established to support its findings and enter such in the permanent records of the court.

An action may be brought under this subdivision if the child was declared a dependent child of the juvenile court on or after July 1, 1977, or was voluntarily placed by his parents pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 of the Welfare and Institutions Code on or after such date.

This subdivision shall not apply to a parent or parents who have been convicted of a felony and thereby are unable to receive reasonable services designed to aid them to overcome the problems which originally led to the deprivation of physical custody.

(b) A licensed adoption agency of a demonstration county may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

SEC. 3.5. Section 576.8 is added to the Welfare and Institutions Code, to read:

576.8. The probation officer or social worker of a demonstration county shall attempt to keep the minor and his parents or guardians together by providing appropriate services to the family. If the minor is removed from the physical custody of his parents or guardians, the probation officer or social worker shall provide appropriate services to the parents or guardians to facilitate the return of the minor.

SEC. 4. Section 600.3 is added to the Welfare and Institutions Code, to read:

600.3. (a) The juvenile court of a demonstration county shall adjudge a person to be a dependent child of the court if the child has been accepted for out-of-home placement pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 and has remained out of his parents' or guardians' physical custody for six months, or 12 months if the placement has been extended for six additional months pursuant to Section 16557.

(b) It shall be the duty of the county welfare department or probation department of a demonstration county to notify the juvenile court when a child has been in voluntary placement for six months, or 12 months if the placement has been extended pursuant to Section 16557, and to request the court to adjudge the minor a dependent child of the court.

SEC. 5. Section 600.5 is added to the Welfare and Institutions Code, to read:

600.5. (a) Each year the State Department of Health shall prepare and issue a report on foster care in California. The report shall be based on a sample of foster children drawn from counties which collectively include at least 65 percent of all the foster children in this state. The report shall include an analysis, evaluation or estimate, as appropriate, of the following, on a statewide basis:

(1) The number of foster children;

(2) The amount of funds expended by federal, state and local government for maintenance payments to foster parents, group homes and institutions;

(3) The amount of funds expended by federal, state and local government on services to foster children and their natural parents or guardians;

(4) The types of services being offered to parents and their

children in order to keep the family together;

(5) The number of foster children who are of adoptable age, the number of such children adopted, and the number of foster children determined not to be adoptable and the reasons therefor;

(6) The number of foster children placed in permanent foster care or guardianship;

(7) The size of caseloads of probation officers and social workers, the effect such caseloads have on the services offered to parents or their children, and the effectiveness of such services;

(8) The movement of foster children within the program from placement to placement and the shifting responsibility for such children within the county probation department or welfare department;

(9) The foster care-related qualifications, education, and in-service training of social workers and probation officers who handle such cases;

(10) Any other matters relating to foster children which the department deems appropriate to be included in such report. The report shall be submitted to the Governor and Legislature no later than January of each year.

(b) All personal information and records obtained by the department pursuant to this section shall be confidential and may be disclosed only in those instances designated in Section 5328.

(c) Any person may bring an action against an individual who has willingly and knowingly released confidential information or records concerning him in violation of the provisions of this section, for the greater of the following amounts:

(1) Five hundred dollars ($500).

(2) Three times the amount of actual damages, if any, sustained by the plaintiff.

Any person may, in accordance with the provisions of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure, bring an action to enjoin the release of confidential information or records in violation of the provisions of this chapter, and may in the same action seek damages as provided in this section.

It is not a prerequisite to an action under this section that the plaintiff suffer or be threatened with actual damages.

SEC. 5.5. In a demonstration county, in a case in which the minor is alleged to be a person described in Section 601 or 602 of the Welfare and Institutions Code, the court shall appoint counsel for the minor if he appears at the hearing without counsel, whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel by the minor; and, in the absence of such waiver, if the parent or guardian does not furnish counsel and the court determines that the parent or guardian has the ability to pay for counsel, the court shall appoint counsel at the expense of the parent or guardian. In any such cases in which it appears to the court that there is such a conflict of interest between a parent or guardian and child that one attorney could not properly represent both, the

court shall appoint counsel, in addition to counsel already employed by a parent or guardian or appointed by the court to represent the minor or parent or guardian. In a county where there is no public defender the court may fix the compensation to be paid by the county for service of such appointed counsel.

SEC. 5.6. Section 634.5 of the Welfare and Institutions Code shall not apply to any demonstration county.

SEC. 5.7. Section 634.7 is added to the Welfare and Institutions Code, to read:

634.7. The minor and his parents or guardian shall have a right to representation by legal counsel at all stages of any proceedings under this chapter in a demonstration county in any case in which the minor is alleged to be a person described in Section 600 or 600.3, to be provided as follows:

(a) The court shall appoint counsel for the minor if he appears at any hearing without counsel, whether he is able to afford counsel or not. If the parent or guardian does not furnish counsel for the minor and the court determines that the parent or guardian has the ability to pay for counsel, the court shall appoint counsel for the minor at the expense of the parent or guardian.

(b) The court shall appoint counsel, who may be the public defender, for the parents or guardian when it appears to the court that the parents or guardian desire counsel but are unable to afford and cannot for that reason employ counsel.

(c) In a county where there is no public defender, or where there is a conflict of interest between two or more persons entitled to the appointment of the public defender as counsel in a proceeding, the court shall fix the compensation to be paid by the county for service of counsel other than the public defender.

(d) At the beginning of the first hearing in any proceeding under this chapter, in any case in which the minor is alleged to be a person described in Section 600 or 600.3, if either the minor or his parents or guardian appear without counsel, the judge shall advise the unrepresented party of his rights under this section and shall implement such rights before proceeding further, provided, that no waiver by a minor of any rights under this section shall be valid. Any counsel entering an appearance on behalf of any party shall continue to represent that person at all subsequent proceedings before the juvenile court unless relieved by the court either (1) upon the substitution of other counsel, or (2) upon a showing of good cause to relieve counsel without the substitution of other counsel.

SEC. 6. In a demonstration county, in the case of a minor alleged to be a person described in Section 601 or 602 of the Welfare and Institutions Code, the court shall examine such minor, his parent, guardian, or other person having relevant knowledge, hear such relevant evidence as the minor, his parent or guardian or their counsel desires to present, and, unless it appears that such minor has violated an order of the juvenile court or has escaped from the commitment of the juvenile court or that it is a matter of immediate

and urgent necessity for the protection of such minor or the person or property of another that he be detained or that such minor is likely to flee the jurisdiction of the court, the court shall make its order releasing such minor from custody.

SEC. 7. Section 635.5 is added to the Welfare and Institutions Code, to read:

635.5. In a demonstration county, in the case of a minor alleged to be a person described in Section 600, the court shall examine such minor, his parent, guardian, or other persons having relevant knowledge, and hear such relevant evidence as the minor, his parent or guardian or their counsel desires to present. The probation officer or social worker in a county welfare department designated pursuant to Section 576.5 shall report on the availability of services which would facilitate the return of the minor to the custody of his parents or guardians. The court shall make its order releasing such minor from custody unless it finds that: (a) there is a substantial danger to the physical health of the minor or the minor is suffering severe emotional damage, and (b) there are no reasonable means by which the minor's physical or emotional health may be protected without removing the minor from his parents' or guardians' physical custody, in which case the court may order that such minor be placed in a children's shelter or other suitable place designated by the juvenile court for a period not to exceed 15 judicial days. The court shall specify the factual grounds established to support these findings and enter such in the permanent records of the court.

SEC. 8. In a demonstration county, in the case of a minor alleged to be a person described in Section 601 or 602 of the Welfare and Institutions Code, if it appears upon the hearing that such minor has violated an order of the juvenile court or has escaped from a commitment of the juvenile court or that it is a matter of immediate and urgent necessity for the protection of such minor or the person or property of another that he be detained or that such minor is likely to flee the jurisdiction of the court, the court may make its order that such minor be detained in the juvenile hall or other suitable place designated by the juvenile court for a period not to exceed 15 judicial days and shall enter said order together with its findings of fact in support thereof in the records of the court.

SEC. 9. Whenever the probation officer of a demonstration county has cause to believe that there was or is within the county, or residing therein, a person within the provisions of Section 601 or 602 of the Welfare and Institutions Code, the probation officer shall immediately make such investigation as he deems necessary to determine whether proceedings in the juvenile court should be commenced.

SEC. 10. Section 652.5 is added to the Welfare and Institutions Code, to read:

652.5. Whenever the probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 576.5 has cause to believe that there is within the

county or residing therein, a person within the provisions of Section 600, the probation officer or social worker shall immediately make such investigation as he deems necessary to determine what services should be offered to the family and whether proceedings in the juvenile court should be commenced. If such services are deemed appropriate, the probation officer or social worker shall make a referral to state protective services for children pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9.

SEC. 11. In any case in which a probation officer of a demonstration county, after investigation of an application for petition or other investigation he is authorized to make, concludes that a minor is a person coming within Section 601 or 602 of the Welfare and Institutions Code or will probably soon come within such sections, he may, in lieu of filing a petition or subsequent to dismissal of a petition already filed, and with consent of the minor's parent or guardian, undertake a program of supervision of the minor, for not to exceed six months, and attempt thereby to adjust the situation which brings the minor within the jurisdiction of the court or creates the probability that he will soon be within such jurisdiction. Nothing in this section shall be construed to prevent the probation officer from filing a petition at any time within said six-month period.

The program of supervision of the minor undertaken pursuant to this section may call for the minor to obtain care and treatment for the misuse of restricted dangerous drugs or addiction to narcotics from a county mental health service or other appropriate community agency.

SEC. 12. Section 654.5 is added to the Welfare and Institutions Code, to read:

654.5. In any case in which a probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 576.5, after investigation of an application for petition or other investigation he is authorized to make, concludes that a minor is within the jurisdiction of the juvenile court pursuant to Section 600 or probably will soon be within such jurisdiction, he may, in lieu of filing a petition or subsequent to the dismissal of a petition already filed, and with the consent of the minor's parent or guardian, undertake a program of supervision of the minor and his family. If such a program is undertaken, the probation officer or social worker shall attempt to ameliorate the situation which brings the minor within the jurisdiction of Section 600 by providing all appropriate services. Any time after the family has unreasonably refused to cooperate with the services being provided, the probation officer or social worker may file a petition to the court. In any event, if after six months the minor is believed to be within the jurisdiction of Section 600, the probation officer or social worker shall file a petition. Nothing in this section shall be construed to prevent the probation officer or social worker from filing a petition at any time within such six-month period.

SEC. 13. A petition to commence proceedings in the juvenile court of a demonstration county to declare a minor a ward or a dependent child of the court shall be verified and must contain:

(a) The name of the court to which the same is addressed.

(b) The title of the proceeding.

(c) The code section or sections and subdivision or subdivisions under which the proceedings are instituted.

(d) The name, age, and address, if any, of the minor upon whose behalf the petition is brought.

(e) The name or names and residence address, if known to the petitioner, of all parents and guardians of such minor. If there is no parent or guardian residing within the state, or if his place of residence is not known to the petitioner, the petition must also contain the name and residence address, if known, of any adult relative residing within the county, or, if there be none, the adult relative residing nearest to the location of the court.

(f) In the case of a petition alleging that a minor is a person described in Section 601 or 602 of the Welfare and Institutions Code, a concise statement of facts, separately stated, to support the conclusion that the minor upon whose behalf the petition is being brought is a person within the definition of each of the sections and subdivisions under which the proceedings are being instituted.

(g) In the case of a petition alleging that a minor is a person described in Section 600 or 600.3 of the Welfare and Institutions Code, a concise statement of facts, separately stated, to support the conclusion that the minor upon whose behalf the petition is being brought is a person within the definition of Section 600 or 600.3 of the Welfare and Institutions Code.

(h) The fact that the minor upon whose behalf the petition is brought is detained in custody or is not detained in custody, and if he is detained in custody, the date and the precise time the minor was taken into custody.

SEC. 13.5. In a juvenile court hearing in a demonstration county, where the minor who is the subject of the hearing is represented by counsel, the district attorney shall, with the consent or at the request of the juvenile court judge, appear and participate in the hearing to assist in the ascertaining and presenting of the evidence.

SEC. 13.6. In a demonstration county, at the beginning of the hearing on a petition filed pursuant to Article 7 (commencing with Section 650) of Chapter 2 of Part 1 of Division 2 of the Welfare and Institutions Code, the judge or clerk shall first read the petition to those present and upon request of the minor upon whose behalf the petition has been brought or upon the request of any parent, relative or guardian, the judge shall explain any term or allegation contained therein and the nature of the hearing, its procedures, and possible consequences. The judge shall ascertain whether the minor and his parent or guardian or adult relative, as the case may be, has been informed of the right of the minor and parents or guardian to be represented by counsel, and if not, the judge shall advise the minor

and such person, if present, of the right to have counsel present and where applicable, of the right to appointed counsel. Before proceeding further, the court, in a case in which the minor is alleged to be within the provisions of Section 600 or 600.3 of the Welfare and Institutions Code, shall first comply with the provisions of Section 634.7 of the Welfare and Institutions Code. In a case in which the minor is alleged to be a person described in Section 601 or 602 of the Welfare and Institutions Code, the court shall appoint counsel to represent the minor if he appears at the hearing without counsel, whether he is unable to afford counsel or not, unless there is an intelligent waiver of the right of counsel by the minor; and, in the absence of such waiver, if the parent or guardian does not furnish counsel and the court determines that the parent or guardian has the ability to pay for counsel, the court shall appoint counsel at the expense of the parent or guardian. The court shall continue the hearing for not to exceed seven days, as necessary to make an appointment of counsel, or to enable counsel to acquaint himself with the case, or to determine whether the parent or guardian or adult relative is unable to afford counsel at his own expense, and shall continue the hearing as necessary to provide reasonable opportunity for the minor and the parent or guardian or adult relative to prepare for the hearing.

SEC. 14. After receiving and considering the evidence on the proper disposition of the case, the juvenile court of a demonstration county may enter judgment as follows:

(a) If the court has found that the minor is a person described by Section 601 or 602 of the Welfare and Institutions Code, it may, without adjudging such minor a ward of the court, place the minor on probation, under the supervision of the probation officer, for a period not to exceed six months.

(b) If the court has found that the minor is a person described by Section 601 or 602 of the Welfare and Institutions Code, it may order and adjudge the minor to be a ward of the court.

(c) If the court has found that the minor is a person described in Section 600 of the Welfare and Institutions Code, it may, without adjudging such minor a dependent child of the court, order that services be provided to keep the family together and place the minor and his parents or guardians under the supervision of the probation officer or social worker in a county welfare department designated pursuant to Section 576.5 for a period not to exceed six months.

(d) If the court has found that the minor is a person described by Section 600 of the Welfare and Institutions Code, it may order and adjudge the minor to be a dependent child of the court.

SEC. 15. In a demonstration county, in all cases wherein a minor is adjudged a ward of the court pursuant to subdivision (b) of Section 14 of this act, the court may limit the control to be exercised over such ward by any parent or guardian and shall by its order clearly and specifically set forth all such limitations, but no ward shall be taken from the physical custody of a parent or guardian unless upon the

hearing the court finds one of the following facts:

(a) That the parent or guardian is incapable of providing or has failed or neglected to provide proper maintenance, training, and education for the minor.

(b) That the minor has been tried on probation in such custody and has failed to reform.

(c) That the welfare of the minor requires that his custody be taken from his parent or guardian.

SEC. 16. Section 726.5 is added to the Welfare and Institutions Code, to read:

726.5. (a) In a demonstration county, in all cases wherein a minor is adjudged a dependent child of the court, on the ground that he is a person described by Section 600 or 600.3, the court may limit the control to be exercised over such dependent by any parent or guardian and shall by its order clearly and specifically set forth all such limitations, but such limitations shall not exceed those necessary to protect the child.

(b) No dependent child shall be taken from the physical custody of his parents or guardians unless upon the hearing the juvenile court of a demonstration county finds substantial evidence that:

(1) There is a substantial danger to the physical health of the minor and there are no reasonable means acceptable to the minor's parents or guardians by which the minor's physical health may be protected without removing the minor from his parents' or guardians' physical custody; or

(2) The parents or guardians of the minor are unwilling to have physical custody of the minor, there are no reasonable means acceptable to the parents or guardians which would enable the minor to be returned to their physical custody, and the parents or guardians have been notified that if the minor remains out of their physical custody for the period specified in Section 729.5, the minor may be declared permanently free from their custody and control under Section 2.5 of the act which enacted this section; or

(3) The minor is suffering severe emotional damage indicated by extreme anxiety, depression, or untoward aggressive behavior against others and there are no reasonable means acceptable to the minor's parents or guardians by which the minor's emotional health may be protected without removing the minor from his parents' or guardians' physical custody.

The court shall specify the factual grounds established to support these findings and enter such in the permanent records of the court.

(c) If the minor is taken from the physical custody of his parents or guardians and unless the minor is placed with relatives, the minor shall be placed in foster care in the county of residence of his parents or guardians in order to facilitate reunification of the family. If the probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 576.5 cannot find a suitable placement within the county and seeks to place the minor outside the county, the probation officer or social worker shall

serve written notice on the parents or guardians in the same manner as provided in Section 729 at least seven days prior to such placement. Such notice shall state the reasons which require such placement outside the county. The parents or guardians may object to such placement not later than seven days after receipt of such notice and, upon such objection, the court shall hold a hearing not later than five days after such objection and prior to such placement. The court shall order out-of-county placement if it finds that the minor's particular needs require placement outside the county.

(d) The juvenile court of a demonstration county shall order that the probation officer or social worker in a county welfare department designated pursuant to Section 576.5 provide to the minor's parents or guardians services which can reasonably be expected to facilitiate the return of the minor to his family.

SEC. 17. When a minor is adjudged a dependent child of the juvenile court of a demonstration county, on the ground that he is a person described by Section 600 or 600.3 of the Welfare and Institutions Code, the court may make any and all reasonable orders for the care, supervision, custody, conduct, maintenance, and support of such minor, including medical treatment, subject to further order of the court.

The court may order the care, custody, control and conduct of such minor to be under the supervision of the probation officer or social worker in a county welfare department of a demonstration county designated pursuant to Section 576.5 of the Welfare and Institutions Code or, if the minor is removed from the custody of his parents or guardians pursuant to Section 726.5 of the Welfare and Institutions Code, the court may commit such minor to the care, custody and control of:

(a) Some reputable person of good moral character who consents to such commitment.

(b) Some association, society, or corporation embracing within its objects the purpose of caring for such minors, with the consent of such association, society, or corporation.

(c) The probation officer or social worker, to be boarded out or placed in some suitable family home or suitable private institution, subject to the requirements of Chapter 2 (commencing with Section 1250 of Division 2 of the Health and Safety Code; provided, however, that pending action by the State Department of Health, the placement of a minor in a home certified as meeting minimum standards for boarding homes by the probation officer or social worker shall be legal for all purposes.

(d) Any other public agency organized to provide care for needy or neglected children.

When a minor is adjudged a dependent child of the court, on the ground that he is a person described by Section 600 of the Welfare and Institutions Code and the court orders that a parent or guardian shall retain custody of such minor subject to the supervision of the probation officer or social worker, the parent or guardian may be

required, and may be ordered, to participate in a counseling program designated by the court. When a minor is adjudged a dependent child of the court on the ground that he is a person described by subdivision (d) of Section 600 of the Welfare and Institutions Code and the court orders that a parent or guardian shall retain custody of such minor subject to the supervision of the probation officer or social worker, the parent or guardian shall be required to participate in a counseling program designated by the court.

When a minor has been adjudged a ward of the court on the ground that he is a person described in Section 601 or 602 of the Welfare and Institutions Code and the court finds that notice has been given in accordance with Section 661 of the Welfare and Institutions Code, and when the court orders that a parent or guardian shall retain custody of such minor subject to the supervision of the probation officer, the parent or guardian may be required to participate with such minor in a counseling program to be provided by an appropriate agency designated by the court.

SEC. 18. In a demonstration county, every hearing in which an order is made adjudging a minor a dependent child of the juvenile court pursuant to Section 600 or 600.3 of the Welfare and Institutions Code and every subsequent hearing in which such an order is made, except a hearing at which the court orders the termination of its jurisdiction over such minor, shall be continued to a specific future date not more than six months after the date of such order. The continued hearing shall be placed on the appearance calendar. The probation officer or social worker in a county welfare department designated pursuant to Section 576.5 of the Welfare and Institutions Code shall provide appropriate services to the minor and his parents or guardians and, at least 16 days prior to the hearing, file a supplemental report of the services offered to the family, the progress made, and, where relevant, the prognosis for return of the child to the physical custody of his parents or guardians, and make his recommendation for disposition. The court shall advise all persons present of the date of the future hearing and of their right to be present, to be represented by counsel, where relevant, and, at least 14 days prior to the hearing, where relevant, of any facts which justify the continued removal of the minor pursuant to Section 726.5 of the Welfare and Institutions Code and shall include a copy of the supplemental report. At each review hearing no minor shall be retained away from the physical custody of his parents or guardians without a showing of the current existence of facts which justify the removal under the standards of Section 726.5 of the Welfare and Institutions Code. The court shall review the probation officer's or social worker's report, make appropriate findings, and, where relevant, shall order any additional services reasonably believed to facilitate the return of the minor to the custody of his parents or guardians. All such findings shall be entered in the permanent records of the court. Notice of hearing shall be mailed by the

probation officer or social worker to the same persons as in an original proceeding and to counsel of record by certified mail addressed to the last known address of the person to be notified, or shall be personally served on such persons, not earlier than 30 days preceding the date to which the hearing was continued.

The required six-months hearings shall only be applicable for a minor declared a dependent child of the juvenile court on or after January 1, 1977, or voluntarily placed by his parents pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 on or after such date. For all other minors, the hearings shall be continued to a specific future date not more than one year after the date of such order.

SEC. 19. Section 729.5 is added to the Welfare and Institutions Code, to read:

729.5. (a) In order to provide minors described in this section with a stable and permanent environment, the juvenile court of a demonstration county shall follow the procedure set forth in subdivision (d).

(b) The juvenile court of a demonstration county shall commence proceedings under subdivision (d) in the case of a minor who has been taken from the physical custody of his parents or guardians under paragraph (1) or (3) of subdivision (b) of Section 726.5 and has remained out of their physical custody for 12 consecutive months and:

(1) The minor was less than two years of age at the time of removal pursuant to paragraph (1) or (3) of subdivision (b) of Section 726.5; or

(2) The minor is 14 years of age or older at the time of this proceeding and expresses a mature desire not to be returned to the physical custody of his parents or guardians.

Physical custody of the minor by his parents or guardians for insubstantial periods during the 12-month period will not serve to interrupt the running of such period.

(c) The juvenile court of a demonstration county shall commence proceedings under subdivision (d) in the case of any other minor who has been taken from the physical custody of his parents or guardians under paragraph (1), (2), or (3) of subdivision (b) of Section 726.5 and has remained out of their physical custody for 18 consecutive months, including for these purposes the time, if any, that the minor has remained out of their physical custody pursuant to a voluntary placement under Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9.

Physical custody of the minor by the parents or guardians for insubstantial periods of time during the 18-month period will not serve to interrupt the running of such period.

(d) For any minor that the juvenile court of a demonstration county finds to be a person described in either subdivision (b) or (c), the court shall order the appropriate department to investigate how the minor might be provided with a stable and permanent

environment as required by subdivision (e). The department shall report its findings and make a recommendation to the court at a hearing that shall take place no more than 45 days from the date of the court's findings under subdivision (b) or (c), unless when the court makes its findings under subdivision (b) or (c), it finds that there is a substantial probability the minor will be returned to the physical custody of his parents or guardians within six months, in which case the hearing shall take place not more than six months from the date of the court's findings. The department and court shall give due consideration to the foster parents, if any, of the minor in considering adoption, guardianship or stable long-term foster care placement. The court shall notify the minor's parents or guardians and foster parents of its order under this subdivision, and the date of the hearing under subdivision (e). Such notice shall be sent by registered mail no less than 15 days before the date of such hearing and shall include a copy of the findings of the investigating department.

(e) At the hearing ordered under subdivision (d):

(1) If the court finds that the minor is adoptable, the court shall order the county counsel, or if there is no county counsel, the district attorney, to initiate an action to declare the minor permanently free from the custody and control of his parents or guardians pursuant to Section 2.5 of the act which enacted this section unless the court finds that:

(A) The parents or guardians have maintained a close family relationship with the minor through regular visitation and contact and the minor would benefit from a continued relationship with them; or

(B) A minor 14 years of age or older objects to termination of parental rights; or

(C) The minor's foster parents are unable to adopt the minor because of exceptional circumstances, but are willing and capable of providing the minor with a stable and permanent environment and the removal of the minor from the physical custody of the foster parents would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

(2) If the court finds that the minor is not adoptable or the exceptions described in paragraph (1) of subdivision (e) apply, and the court finds that one or more adults are available and eligible to become legal guardians for the minor, the court shall order the department to facilitate the guardianship proceedings. The county counsel or, if there is no county counsel, the district attorney, may render assistance in such proceedings to the department. The court shall not make such an order if it finds that the minor's foster parents are unable to become guardians for the minor because of exceptional circumstances, but are willing and capable of providing the minor with a stable and permanent environment and the removal of the minor from the physical custody of his foster parents would be

seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

The proceeding for the appointment for a guardian for a minor under this section shall be in the juvenile court, notwithstanding Section 1405 of the Probate Code. For such minors, the juvenile court shall have the power to appoint a guardian pursuant to the standards and procedures otherwise specified by the Probate Code.

(3) If the court finds that the minor is not adoptable under paragraph (1) of subdivision (e) and that guardianship proceedings should not be initiated under paragraph (2) of subdivision (e), it shall order the department to facilitate the placement of the minor in an environment that can reasonably be expected to be stable and permanent. When the minor is in a foster home, and the foster parents are willing to provide and capable of providing a stable and permanent environment, the minor shall not be removed from this home if removal of the minor from the physical custody of his foster parents would be seriously detrimental to the emotional well-being of the minor because the minor has substantial psychological ties to them.

(f) When an adoption or guardianship of the minor has been perfected, the court shall terminate its jurisdiction over such minor. If some other long-term placement for the minor has been made, the court shall continue the hearing to a specific future date not more than one year after the date of the order of continued jurisdiction over the minor as a dependent child pursuant to Section 600 or 600.3, notwithstanding the six-month review hearing required pursuant to Section 18 of the act which enacted this section.

SEC. 21. In a demonstration county, services for children not qualifying under Section 16510 of the Welfare and Institutions Code shall be financed, in part, from federal funds allocated to the state for child welfare services pursuant to Title 20 of the Social Security Act. The department may limit allocation of child welfare service funds in the following manner: (1) If Congress does not increase the appropriation for child welfare service funds the department may then limit the allocation specifically for protective services to the same proportion of the federal grant as obtained for the 1967–68 fiscal year. (2) If and during such times as the federal government increases the allocation of child welfare services to the state, all of the increased funds resulting from this action shall be devoted to providing protective services for children who do not qualify for service under Section 16510 of the Welfare and Institutions Code; provided, however, that the department shall be permitted to allocate sufficient funds to the development of other aspects of child welfare services in order that the state remain eligible to receive funds pursuant to Title 20 of the Social Security Act.

SEC. 22. Section 16512.5 is added to the Welfare and Institutions Code, to read:

16512.5. For reimbursement of the sum spent in each demonstration county for child protective services in accordance

with the county plan certified by the department pursuant to Section 16502, each county shall be allocated a sum to reimburse it for the costs of such services. No demonstration county shall expend more than 20 percent of its allocation for the salaries and expenses of child protective service workers.

Funds may be allocated to demonstration counties on a periodic basis determined by the department.

It is the intention of the Legislature that the funds allocated pursuant to this section may be utilized for families who qualify as actual or potential recipients of public assistance under aid to families with dependent children or families who are not linked to or qualified for such aid; provided, that the county shall seek reimbursement from parents who voluntarily request such services on a sliding scale based upon income which shall be determined on a statewide basis by the department.

SEC. 23. Chapter 5.3 (commencing with Section 16525) is added to Part 4 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 5.3. FAMILY REUNIFICATION SERVICES

16525. As used in this chapter:

"Family reunification services" means services whose purpose is to facilitate the return of minors who have been placed in foster care pursuant to Section 726.5 or voluntarily placed pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 of this code to the care and physical custody of their parents or guardians and other services provided for in Section 16527. Family reunification services shall include, but not be limited to, family therapy, psychiatric counseling, employment counseling, homemaker services, housekeeper services, day care services, emergency housing, divorce counseling, home management education, consumer education, health-related services, respite care on a 24-hour basis, emergency 24-hour shelter care, crisis intervention care on a 24-hour basis, information and referral services, counseling and other state protective services for children pursuant to Section 16502.5.

In utilizing funds allocated to the demonstration county pursuant to Section 16536, the county shall provide for adequate services in the following categories prior to utilizing funds to provide for any other services set forth in this section: homemaker services, housekeeper services, day care services, respite care on a 24-hour basis, emergency housing, emergency 24-hour shelter care, and crisis intervention care on a 24-hour basis.

16526. The state, through the department and county departments designated by the board of supervisors of each county, shall establish and support a public demonstration system of family reunification services to be developed commencing January 1, 1977, and to be available in each demonstration county of the state. Every demonstration county, whether by itself or in conjunction with one

or more other demonstration counties, shall establish specialized units of reunification services for families within either the county probation department or county welfare department. In counties where such services presently are established, such services shall be supplemented, as necessary, pursuant to this chapter.

Each demonstration county shall utilize available private services in the county prior to developing new county-operated services when such available private services are at least as favorable in quality and cost as are those operated by the county.

16527. Family reunification services shall be used by the social worker or probation officer to facilitate the return of minors who have been placed in foster care pursuant to Section 726.5 or voluntarily placed pursuant to Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9 to the care and physical custody of their parents or guardians and to stabilize the family after such return of the minor, provided that such services may be utilized by child protective service workers pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 to the extent permitted by each county board of supervisors.

The "family reunification services" authorized by this chapter shall not be construed to supplant or replace services authorized by any other provision of law or any services to minors or families provided by a county on the effective date of this chapter.

16528. The parents or guardians of any minor who receives services pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 or is placed in foster care pursuant to Section 726.5 or Chapter 5.5 (commencing with Section 16550) of Part 4 of Division 9, who are dissatisfied because of any action or inaction relating to receipt or appropriateness of services provided pursuant to this chapter or Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 shall be entitled to a prompt and fair hearing. For the purpose of administering this section, the director shall have the powers and duties provided for in Chapter 7 (commencing with Section 10950) of Part 2 of Division 9.

16529. (a) The family reunification services authorized by this chapter shall be established in any demonstration county or combination of demonstration counties when a plan which includes financing of such services has been certified by the department. The services set forth in Section 16525 shall be provided by the public agency designated by each county board of supervisors or through private contractual arrangement. Such certified plan of family reunification services shall then be operated in accordance with standards and regulations established by the department, subject to all provisions of this code relating to the supervision of public social services by the department.

(b) The county plan shall not be certified unless the county demonstrates that the authorized family reunification services have not replaced or supplanted any existing services to minors or families provided by the county on the effective date of this chapter.

(c) The county shall demonstrate to the department that the state appropriation for family reunification services during the preceding year has been spent in accordance with the certified county plan for such year.

16530. The services offered to families under this program shall be voluntary.

16531. Nothing in this chapter shall be construed to give the department or county welfare departments any law enforcement powers nor to change or interfere with the responsibility of law enforcement, probation officers and departments to take direct action on behalf of minors as provided in Article 6 (commencing with Section 625) of Chapter 2 of Part 1 and Article 7 (commencing with Section 650) of Chapter 2 of Part 1 of Division 2. Nor shall this part in any way relieve persons administering and working in family reunification services programs from the obligation resting on all citizens to report crimes to duly authorized law enforcement agencies. Further it is the purpose of this part to supplement and not supplant existing services for children and families by the addition of state reunification services for families, and nothing herein shall be construed as changing in any way the responsibility of probation officers and departments for initiating juvenile court proceedings as set forth in Article 7 (commencing with Section 650), of Chapter 2 of Part 1 of Division 2, nor other duties and responsibilities assigned to them by law.

16532. Family reunification services shall be extended to every family in need of protection and preservation, regardless of family income.

16533. The department shall report annually to the Legislature on the operation and progress of the family reunification services program.

16534. Notwithstanding any other provision of this chapter, no child who in good faith is under treatment solely by spiritual means through prayer in accordance with the tenets and practices of a recognized church or religious denomination by a duly accredited practitioner thereof shall, for that reason alone, be considered to have been neglected within the purview of this chapter.

16535. Anyone participating in good faith in the making of a report pursuant to this chapter shall have immunity from any liability, civil or criminal, that might otherwise be incurred or imposed. Any such participant shall have the same immunity with respect to participation in any judicial proceeding resulting from such report.

16536. For reimbursement of the sum spent in each demonstration county for family reunification services in accordance with the county plan certified by the department pursuant to Section 16529, each demonstration county shall be allocated a sum to reimburse it for the costs of such services. No demonstration county shall expend more than 20 percent of its allocation for salaries and expenses of additional probation officers or social workers.

Any funds not expended for such salaries and expenses shall be utilized for family reunification services.

Funds may be allocated to demonstration counties on a periodic basis which shall be determined by the department.

It is the intention of the Legislature that funds allocated pursuant to this section may be utilized for families who qualify as actual or potential recipients of public assistance under aid to families with dependent children or families who are not linked to, or qualified for, such aid; provided, that the demonstration county shall seek reimbursement from parents on a sliding scale based upon income which shall be determined on a statewide basis by the department.

SEC. 24. Chapter 5.5 (commencing with Section 16550) is added to Part 4 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 5.5. VOLUNTARY PLACEMENT OF MINORS

16550. The purpose of this chapter is to assure that in demonstration counties appropriate state protective services for children pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9 are offered to parents or guardians so that minors may remain in their homes whenever possible. Where voluntary placement is necessary, appropriate state family reunification services pursuant to Chapter 5.3 (commencing with Section 16525) of Part 4 of Division 9 shall be offered to the minor, the minor's family and the minor's foster family to facilitate the prompt return of the minor to his family.

16551. A "voluntary placement of a minor" is an out-of-home placement of a minor by or with the participation of the county welfare department of a demonstration county after the parents or guardians have requested the assistance of the county welfare department and signed a "voluntary placement agreement."

16552. (a) A "voluntary placement agreement" is a binding written agreement between the county welfare department of a demonstration county and the parents or guardians of a minor which specifies the legal status of the minor and the rights and obligations of the parents or guardians.

(b) Voluntary placement shall not affect a parent or guardian's rights:

(1) To consent to medical care for the minor; or

(2) To reasonable visitation privileges; or

(3) To consultation with regard to the type of out-of-home placement, location of the placement, and any change in placement; or

(4) To consent before the minor is taken out of the state.

(c) The parents or guardians shall have the right to have the minor returned to their physical custody within 14 days after written notice has been given to the county welfare department of a demonstration county. Notwithstanding the foregoing, the parents or guardians shall have the right to have the minor returned to their

physical custody within 24 hours if at any time during the first three days after placement of the minor they notify the department that they wish to have the minor returned to their physical custody within such 24-hour period.

(d) In addition to other reasonable conditions for voluntary placement imposed by the county welfare department of a demonstration county to protect the interests of the minor, the parents or guardians shall agree pursuant to the voluntary placement agreement to do the following:

(1) Except as provided in subdivision (c), to give 14 days written notice for termination of the placement agreement,

(2) To contribute an amount specified pursuant to guidelines established by the State Department of Health for support of the minor, or, if eligible, apply for public assistance or other benefits which will contribute toward the minor's board and maintenance,

(3) To inform the county welfare department of a demonstration county of any change in their address or whereabouts,

(4) To meet with the social worker on a prearranged schedule to carry out agreed-upon casework planning for return of the minor to their physical custody,

(5) To meet with the social worker to discuss what services would be appropriate to help reunify the family.

(e) The voluntary placement agreement shall state that:

(1) Such placement shall not exceed six months, except as provided for in Section 16557; and

(2) The minor may remain out of their physical custody for a longer period only pursuant to Sections 600, 600.3, and 726.5 and if a petition is filed under such sections, the parents or guardians may be entitled to counsel appointed by the court if they are unable to afford counsel; and

(3) The minor may be declared permanently free from their custody and control pursuant to Section 232 of the Civil Code if the minor remains out of their physical custody for 18 consecutive months and if an action is brought under Section 2.5 of the act which enacted this section, the parents or guardians shall have the right to counsel appointed by the court if they are unable to afford counsel.

The State Department of Health, in consultation with county welfare departments, shall develop a form for voluntary placement agreements pursuant to the conditions set forth in this chapter to be used by all counties which accept such placements.

16553. Prior to entering into a voluntary placement agreement with the parents or guardians, the social worker shall make every attempt to keep the family together by offering appropriate state protective services for children pursuant to Chapter 5 (commencing with Section 16500) of Part 4 of Division 9. If it is determined that there are services acceptable to the parents or guardians which will enable the family to remain together, a referral to protective services for children shall be made.

16554. No minor shall be voluntarily placed by his parents or

guardians and accepted for out-of-home placement by the county welfare department of a demonstration county unless:

(a) There are no reasonable means acceptable to his parents or guardians which would enable the minor to remain in their physical custody; and

(b) His parents or guardians sign a voluntary placement agreement prior to placement of the minor.

16555. (a) If the minor is voluntarily placed outside his home, the department of a demonstration county shall provide the minor's parents or guardians family reunification services pursuant to Chapter 5.3 (commencing with Section 16525) of Part 4 of Division 9 which can reasonably be expected to facilitate the return of the minor to his family.

(b) Within three business days after a minor is placed under this chapter, the social worker and the parents or guardians shall meet and confer on a preliminary plan to reunify the family. Within 14 days, they shall meet to confer on a comprehensive plan. A written record of the plans shall be made and a copy of each provided to the parents or guardians. Any substantial amendment to the plans which adds or deletes services from the original plans shall also be in writing and copies of each shall be provided to the parents or guardians.

(c) A minor may be placed by his parents or guardians more than once; provided that such placements shall not exceed a total of six months, or 12 months in those counties which hold administrative reviews pursuant to Section 16557 during the four-year period prior to the most recent placement. Any placement of the minor which exceeds such six-month or 12-month periods shall take place only pursuant to a court order under Sections 600, 600.3, and 726.5. For the purposes of this section, only voluntary placements made pursuant to this chapter shall be counted toward the six-month or 12-month limitation.

Physical custody of the minor by the parents or guardians for insubstantial periods of time during the required six-month and 12-month periods will not serve to interrupt the running of such periods.

16556. If a minor has been voluntarily placed with the county welfare department of a demonstration county for out-of-home placement by his parents or guardians pursuant to this chapter and the minor has remained out of their physical custody for six consecutive months, the department shall:

(a) Return the minor to the physical custody of his parents or guardians; or

(b) Refer the minor to a licensed adoption agency for consideration of adoptive planning and receipt of a permanent relinquishment of care and custody rights from the parents or guardians pursuant to subdivision (m) of Section 224 of the Civil Code; or

(c) Apply for a petition pursuant to Section 656 and file such petition with the juvenile court to have the minor declared a

dependent child of the court under Section 600 or 600.3; or

(d) Extend the voluntary placement for an additional six-month period pursuant to Section 16557.

16557. Notwithstanding the six-month time limitation set forth in Section 16556, voluntary placement of the minor may be extended for a period not to exceed six months, provided, that:

(a) The county administrative review board of a demonstration county which meets the requirements of this section shall hold an administrative review within 30 days prior to the expiration of the initial six-month period; and

(b) The board finds that it is probable that the minor will be reunited with his parents or guardians prior to the end of the extension period; and

(c) The parents or guardians sign a voluntary placement agreement for the extension period.

(d) The board makes written findings concerning what services have been offered to the parents or guardians, the effectiveness of such services, the need for further assistance, whether the parents or guardians have been afforded an opportunity and encouraged to have a program of regular visitation with the minor, and the number and duration of such visits.

The county administrative review board shall be comprised of at least three persons, not more than two of whom may be employees of the welfare department.

The minor's parents or guardians shall be given reasonable notice of the time of the review and shall have the right to be present.

The board may order that the department apply for a petition pursuant to Section 656 and file such petition with the juvenile court to have the minor declared a dependent of the juvenile court under Section 600 or 600.3.

The State Department of Health shall establish uniform procedures to be followed by each county for such administrative reviews.

16558. A county welfare department of a demonstration county may, in its discretion, accept for voluntary placement a minor 14 years of age or older at the time of the initial placement without regard to the time limitation imposed by subdivision (c) of Section 16555, if such minor gives his consent to voluntary placement. The department shall not be required to file a petition pursuant to Section 600.3 relating to such minors or hold administrative reviews pursuant to Section 16557.

16559. Any services offered to families under this program shall be voluntary.

16560. This chapter shall not apply to any developmentally disabled minor as defined in Section 38003 of the Health and Safety Code who has been voluntarily placed by his parents or guardians for the purpose of treating such disability pursuant to Division 25 of the Health and Safety Code.

SEC. 25. This act shall be known and may be cited as the Family

Protection Act of 1976.

SEC. 28. The sum of three million dollars ($3,000,000) is hereby appropriated from the General Fund to the State Department of Health for use during the 18-month period from January 1, 1977, through June 30, 1978, to be allocated as follows:

(a) Two hundred thousand dollars ($200,000) for professional staff in the State Department of Health in order to effectively implement this act.

(b) Two million eight hundred thousand dollars ($2,800,000) to be used to reimburse the demonstration counties for all costs incurred in the implementation of this act including, but not limited to, the costs for family reunification services, child protective services, additional court hearings, and social worker and probation officer staff; provided, that not more than 20 percent of any county's allocation for family reunification services and child protective services may be used for the salaries of additional social workers or probation officers.

It is the intent of the Legislature that this four-year demonstration program be funded for approximately three million dollars ($3,000,000) each fiscal year commencing fiscal year 1977–78.

SEC. 29. The State Department of Health shall collect the information concerning foster care described in Section 600.5 of the Welfare and Institutions Code in the demonstration counties and in other similar nondemonstration counties in order to compare such counties and determine the effectiveness of the program compared to the programs in other counties. The State Department of Health shall also determine the savings accrued by the federal, state, and local government due to the implementation of this act.

The department shall make an annual report to the Legislature commencing January 6, 1978, and each year thereafter through January, 1981, concerning implementation of this act.

SEC. 30. This act shall remain in effect only until June 30, 1981, and as of such date is repealed, unless a later enacted statute, which is chaptered before June 30, 1981, deletes or extends such date.

SEC. 31. If this act is found unconstitutional, this act shall be considered null and void and its implementation shall be discontinued in all demonstration counties and this act shall be inoperative.

SEC. 32. The provisions of Sections 1, 2, 5, 21, 22, 23, 28, 29, 30, and 31 shall be operative January 1, 1977.

SEC. 33. Except as provided in Section 32, the provisions of this act shall be operative July 1, 1977.

CHAPTER 978

An act to amend Sections 5768.2, 5768.6. 5769, and 5769.4 of, and to add Chapter 5.76 (commencing with Section 5767) to Division 6 of, the Education Code, relating to bilingual education, and making an appropriation therefor.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.76 (commencing with Section 5767) is added to Division 6 of the Education Code, to read:

CHAPTER 5.76. BILINGUAL-BICULTURAL EDUCATION ACT OF 1976

5767. This chapter shall be known and may be referred to as the Chacon-Moscone Bilingual-Bicultural Education Act of 1976.

5767.05. The Legislature finds that there are more than 225,000 school-age children whose primary language is other than English and who do not have the English language skills necessary to benefit from instruction only in English at a level substantially equivalent to pupils whose primary language is English. Their lack of English language communication skills presents an obstacle to such pupils' right to an equal educational opportunity which can be removed by instruction and training in the pupils' primary languages while such pupils are learning English. The Legislature recognizes that the school dropout rate is excessive among limited-English-speaking pupils. This represents a tremendous loss in human resources and in potential personal income and tax revenues. Furthermore, high rates of joblessness among these dropouts contribute to the unemployment burden of the state.

The Legislature recognizes that a critical need exists for teaching and administrative personnel qualified in the bilingual and crosscultural skills necessary to the instruction of the limited-English-speaking population in the state's school districts. Therefore, the Legislature directs school districts to provide for in-service programs to qualify existing and future personnel in the bilingual and crosscultural skills necessary to serve the limited-English-speaking pupils of this state. Furthermore, the Legislature intends that the public institutions of higher education establish programs to qualify teachers and administrators in the bilingual and crosscultural skills necessary to serve these pupils.

It is the purpose of this chapter to require California school districts to offer bilingual learning opportunities to each limited-English-speaking pupil enrolled in the public schools, and to provide adequate supplemental financial support to achieve such

purpose. Insofar as the individual pupil is concerned, participation in bilingual programs is voluntary on the part of the parent or guardian.

5767.1. The State Board of Education shall adopt such rules and regulations as are necessary for the effective administration of this chapter. Initial regulations shall be adopted within 90 days after the effective date of this chapter.

5767.2. Unless the context otherwise requires, the definitions set forth in this section shall govern the construction of this chapter.

(a) "Partial bilingual instruction" means listening, speaking, reading and writing skills developed in both languages. Material related to culture and history is taught in the language the pupil understands better.

(b) "Full bilingual instruction" means basic language skills developed and maintained in both languages. Instruction in required subject matter or classes is provided in both languages in addition to culture and history.

(c) "Bilingual-bicultural education" is a system of instruction which uses two languages, one of which is English, as a means of instruction. It is a means of instruction which builds upon and expands the existing language skills of each participating pupil, which will enable the pupil to achieve competency in both languages.

This instruction shall include:

(1) Daily instruction in English, language arts, listening, speaking, reading and writing;

(2) Language development in the pupil's primary language;

(3) Reading in the pupil's primary language;

(4) Selected subjects taught in the pupil's primary language; and

(5) Development of an understanding of customs and values of the cultures associated with the languages being taught as well as an understanding of the history and culture of California and the United States.

(d) "Limited-English-speaking pupils" are pupils who do not have the clearly developed English language skills of comprehension, speaking, reading and writing, necessary to receive instruction only in English at a level substantially equivalent to pupils whose primary language is English. The determination of which pupils are limited English speaking shall be made in accordance with the procedures specified in Section 5767.3. The term "limited-English-speaking pupils" includes "non-English-speaking pupils" as described in subdivision (e).

(e) "Non-English-speaking pupils" are pupils who communicate in their primary language only or who communicate in English at a level which does not enable them to participate meaningfully in an educational setting where only English is used.

(f) "Individual learning program" is any program of instruction for a limited-English-speaking pupil in which instruction is offered in a manner consistent with the United States Supreme Court decision in Lau v. Nichols, (414 U.S. 563), the Equal Educational

Opportunities Act of 1974 (20 U.S.C. Sec. 1701 et seq.), and federal regulations promulgated pursuant to such court decisions and federal statutes.

(g) "Primary language" is a language other than English which is the language the pupil first learned or the language which is spoken in the pupil's home.

(h) "Bilingual-crosscultural teacher" means a person who (1) holds a valid, regular California teaching credential and (2) holds either a bilingual-crosscultural certificate of proficiency or other credential in bilingual education authorized by the Commission for Teacher Preparation and Licensing or a bilingual-crosscultural specialist credential. Such a person shall be fluent in the primary language and familiar with the cultural heritage of the limited-English-speaking pupils in the bilingual classes he or she conducts. Such a person shall have a professional working knowledge of the methodologies which must be employed to effectively educate those pupils.

(i) "Bilingual-crosscultural teacher aide" means an aide fluent in both English and the primary language of the limited-English-speaking pupil or pupils in a bilingual-bicultural program. Such an aide shall be familiar with the cultural heritage of the limited-English-speaking pupils in the bilingual classes to which he or she is assigned.

(j) "Board" means the State Board of Education.

(k) "Superintendent" means the Superintendent of Public Instruction.

(*l*) "Self-contained classes" are classes where substantially the same group of pupils receive instruction together throughout the schoolday.

5767.3. (a) Each school district shall ascertain, in the month of October of each year, under regulations prescribed by the State Board of Education, the number of limited-English-speaking pupils within the district, and shall classify them according to their primary language, age, and grade level. The census shall be taken by individual, actual count and not by estimates or samplings. The results of this census shall be reported to the Department of Education by the first day of December of each year.

(b) The superintendent shall prescribe uniform census-taking methods, applicable to all school districts in the state. Such census-taking methods shall require an assessment, on a language dominance survey instrument designated by the superintendent, of all pupils whose primary language is other than English. The assessments shall be conducted by persons who can speak and understand the primary language of the limited-English-speaking pupils on the basis of procedures formulated by the superintendent to determine which pupils are limited-English-speaking pupils, as defined in subdivision (d) of Section 5767.2. The superintendent may waive the requirement that the assessment be conducted by persons who can speak and understand the pupil's primary language where

the primary language is spoken by a small number of pupils and the district certifies that it is unable to comply. Pertinent information from the assessment forms for each pupil whose primary language is other than English shall be retained by the school district as long as the pupil is enrolled in the district. Each school district shall report annually to the Department of Education the total number of pupils whose primary language is other than English, the number of pupils who are non-English-speaking, and the number of such pupils who are limited English speaking. Each school district shall further report the total number of pupils whose primary language is other than English who have benefited from instruction pursuant to this chapter to the extent that they are no longer limited-English-speaking pupils, as defined in subdivision (d) of Section 5767.2.

(c) The Department of Education shall review the results of the census each year. Where the information provided by a school district appears to be inaccurate, the department shall audit the district's census through an onsite visit. Where the census has been incorrectly taken, or the results appear to be inaccurate, the department shall require another census to be taken and the corrected information to be provided.

5767.4. Each limited-English-speaking pupil enrolled in the California public school system in kindergarten through grade 12 shall receive instruction in a language understandable to the pupil which recognizes the pupil's primary language and teaches the pupil English.

(a) In kindergarten through grade six:

(1) Whenever the language census indicates that any school of a school district has 10 or more non-English-speaking pupils or 15 or more limited-English-speaking pupils with the same primary language in the same grade level or 10 or more non-English-speaking pupils or 15 or more limited-English-speaking pupils with the same primary language, in the same age group, in a multigrade or ungraded instructional environment, the school district shall offer instruction pursuant to subdivision (b) or (c) of Section 5767.2 for such pupils at the school.

(2) Whenever the language census indicates that any school of a school district has 10 or more limited-English-speaking pupils with the same primary language in the same grade level or 10 or more limited-English-speaking pupils with the same primary language, in the same age group, in a multigrade or ungraded instructional environment, the school district shall offer instruction pursuant to subdivision (a), (b), or (c) of Section 5767.2 for such pupils at the school.

(b) In kindergarten and grades 1 through 12 limited-English-speaking pupils who are not enrolled in a program described in subdivision (a), (b), or (c) of Section 5767.2, shall be individually evaluated and shall receive educational services defined in subdivision (f) of Section 5767.2. Such services shall be provided

in consultation with the pupil and the parent, parents, or guardian of the pupil.

5767.41. All teachers and aides providing instruction in programs established pursuant to subdivision (a), (b), or (c) of Section 5767.2, shall meet the criteria of subdivision (h) or (i) of Section 5767.2. In the event a school operates an individualized program described in subdivision (f) of Section 5767.2, such a district which receives categorical aid funds to meet the needs of limited-English-speaking pupils shall certify to the board that sufficient teachers and aides meeting the criteria of subdivisions (h) and (i) of Section 5767.2 are available to the school to ensure that all limited-English-speaking pupils have instructional opportunities in both English and their primary language to meet the intent of this chapter. Other instructional personnel who are not bilingual-crosscultural as defined in subdivisions (h) and (i) of Section 5767.2 may provide instructional and educational services to pupils enrolled in programs established pursuant to subdivision (a), (b), or (c) of Section 5767.2; provided, that the principal teachers and aides providing instruction in such programs meet the criteria established in subdivisions (h) and (i) of Section 5767.2.

5767.5. In classes established pursuant to Section 5767.4, not more than two-thirds of the pupils enrolled shall be limited-English-speaking pupils; provided, that where the proportion of limited-English-speaking pupils in the school exceeds two-thirds, the proportion of limited-English-speaking pupils in such classes may exceed the proportion of limited-English-speaking pupils in the school by no more than 10 percent. In no event shall the primary purpose of the program be to teach a foreign language to English-speaking pupils.

5767.6. (a) The maximum reimbursement allowable for the 1977–78 and subsequent school years to school districts providing instruction pursuant to Section 5767.4 shall not exceed the maximum allowances established by the superintendent and the district pursuant to Section 3932 of Title 5 of the California Administrative Code, for each limited-English-speaking pupil who receives instruction in a program pursuant to Section 5767.4. This amount per pupil shall include all state and federal categorical aid funds allocated to schools providing programs under Section 5767.4 which are wholly or partially allocated on the basis of the educational needs of limited-English-speaking pupils and which are allocated by the district to schools or programs to meet the needs of such pupils. The superintendent shall ensure that funds appropriated pursuant to this chapter supplement and do not supplant categorical funds allocated from other local, state, or federal sources in meeting the needs of limited-English-speaking pupils.

(b) School districts may claim reimbursement out of funds appropriated pursuant to this chapter for expenditures in the following categories only:

(1) The employment of bilingual-crosscultural teachers and aides;

however, reimbursement is available for employment expenditures only to the extent such personnel are employed in providing bilingual services to eligible pupils. School districts applying for these funds shall submit an assurance that personnel hired for this program only supplement and do not supplant district personnel.

(2) The purchase and development of special bilingual-bicultural teaching materials;

(3) The costs of special in-service training to develop bilingual-crosscultural instructional skills with preference given to teachers and teacher aides employed as part of the bilingual-bicultural program; and

(4) Reasonable expenses (which may include transportation-child care, meals, and training) of parent advisory groups on bilingual-bicultural education, at the school and school district level, in the course of their duties as members of the parent advisory groups. The State Board of Education shall adopt rules and regulations defining reasonable expenses.

(5) Health and auxiliary services to the extent that they meet the direct needs of eligible pupils.

(6) Reasonable district administrative expenses allowed pursuant to regulations of the board.

(c) Nothing contained in this section shall be interpreted to authorize school districts to reduce per pupil expenditures from local, state, or federal sources for the education of limited-English-speaking pupils.

5767.7. Programs of bilingual instruction instituted and continuing pursuant to the Bilingual Education Act of 1972 shall continue until the school and grade level of instruction funded by the 1972 act are covered by this chapter. As such school and grade level are reached, the programs funded by the 1972 act shall be replaced by or incorporated into programs funded by this chapter and the applicable provisions of this chapter shall supplement provisions of the 1972 act.

5767.8. (a) Each school district which wishes to claim reimbursement shall prepare an assessment of the needs of the limited-English-speaking pupils in attendance in the district. Such assessment shall be prepared on a school-by-school basis. It shall also list, on a school-by-school basis, all of the state and federal categorical aid funds currently available for programs to meet the needs of limited-English-speaking pupils. The number of limited-English-speaking pupils, in each school, who are not being provided with services pursuant to subdivision (a), (b), (c), or (f) of Section 5767.2 with such special funds shall be stated.

(b) Based on the needs assessed, the school district shall submit an application on a school-by-school basis on forms provided by the Department of Education. Such application shall meet the applicable criteria of the consolidated application regulations and shall include in addition the following components: (1) teacher and aide preservice training which will identify and improve knowledge

levels of each teacher and aide in teaching methodology, and bilingual-crosscultural philosophy and education, (2) an in-service training program for teachers and aides that is linked with an institution of higher education, to the maximum extent feasible, which shall include the establishment of a liaison with a nearby institution of higher education and the solicitation of help from such institution in order to upgrade continually the bilingual-crosscultural education program, and (3) an assurance that all bilingual-crosscultural aides are provided the opportunity to enroll in a career ladder program leading toward a single- or multiple-subject teaching credential, and a certificate of competence in bilingual-crosscultural education.

5767.9. At the beginning of each school year, the district shall assess each limited-English-speaking pupil. The pupil's achievement in comprehending, reading, and writing English and, to the extent assessment instruments are available, the second language of instruction shall be assessed. Pretesting of basic skills for pupil participants shall be conducted at the beginning of each school year, and posttesting of basic skill for pupil participants shall be conducted at the end of each school year. At least annually there shall be submitted to the Department of Education an evaluation of pupil progress for every program which has been approved pursuant to this chapter. The evaluation report shall identify variables, including other programs, which may have affected pupil academic achievement.

It shall also include, but not be limited to, reading comprehension and speaking skills, in English and, to the extent assessment instruments are available, the primary language.

5767.10. Teachers and teacher aides who are not bilingual-crosscultural teachers and aides, as defined by subdivisions (h) and (i) of Section 5767.2, shall not be permitted to teach in programs authorized pursuant to subdivision (a), (b), or (c) of Section 5767.2, except as provided in Section 5767.16. Such teachers are not competent, for the purposes of Section 13447, to teach in such programs.

5767.11. Prior to the enrollment of any pupil in any program authorized pursuant to subdivision (a), (b), or (c) of Section 5767.2, the governing board of the school district in which the pupil resides shall notify by mail or in person the parent, parents, or guardian of the pupil of the fact that their child or ward will be enrolled in a program of bilingual education. The notice shall contain a simple, nontechnical description of the purposes, method, and content of the program in which their child or ward will be enrolled and shall inform the parent, parents, or guardian that the parent, parents, or guardian have the right and are encouraged to visit such classes in which their child or ward will be enrolled and to come to the school for a conference to explain the nature and objectives of such education. Such notice shall further inform the parent, parents, or guardian that they have the right, if they so wish, not to have their

child or ward enrolled in such an education program. Such notice shall further inform the parent, parents, or guardian that they have the opportunity to participate in the school or school district advisory committee, or both. The written notice shall be in English and in the primary language of the pupil.

5767.12. Any parent or guardian whose child or ward has been or will be enrolled in programs authorized pursuant to subdivision (a), (b), or (c) of Section 5767.2 shall have the right, either at the time of the original notification of enrollment or at the close of any semester thereafter, to withdraw his or her child or ward from the program provided by written notice to the school authorities of the school in which his or her child or ward is enrolled or to the governing board of the school district in which his or her child or ward resides.

5767.13. A school district governing board may allow a nonresident limited-English-speaking pupil to enroll in or attend its program authorized pursuant to subdivision (a), (b), or (c) of Section 5767.2 subject to Article 7 (commencing with Section 10800) of Chapter 1 of Division 9, provided that the tuition of the child is paid by the school district in which the pupil resides.

5767.14. (a) Each school district with more than 50 limited-English-speaking pupils shall establish a districtwide advisory committee on bilingual education. Parents or guardians, or both, of limited-English-speaking pupils who are not employed by the district shall constitute a majority of the committee, unless the district designates for this purpose an existing districtwide advisory committee on which parents or guardians, or both, of limited-English-speaking pupils have membership in at least the same percentage as their children and wards represent of the total number of pupils in the district, provided that a subcommittee on bilingual-bicultural education on which parents or guardians, or both, of limited-English-speaking pupils constitute a majority is established. The district advisory committee and subcommittee, if applicable, shall be responsible for at least six specific tasks. These tasks shall be to advise the district governing board regarding:

(1) Establishment of a timetable for development of a district master plan for bilingual education.

(2) Districtwide needs assessment on a school-by-school basis.

(3) Establishment of district program goals and objectives in bilingual education.

(4) Recommendations as to which schools to include in each phase of expansion.

(5) A plan to ensure compliance with the provisions of Section 5767.16.

(6) Administration of the annual language census.

(b) Each school with more than 20 limited-English-speaking pupils shall establish a school level advisory committee on which parents or guardians, or both, of limited-English-speaking pupils constitute membership in at least the same percentage as their

01329 29885 74

children and wards represent of the total number of pupils in the school. The school may designate for this purpose an existing school level advisory committee, or subcommittee of such an advisory committee, provided the advisory committee, or subcommittee where appropriate, meets the criteria stated above.

(c) Each school advisory committee maintained pursuant to this section shall be responsible for advising the principal and staff in the development of a detailed master plan for bilingual education for the individual school and submitting the plan to the governing board for consideration for inclusion in the district master plan. It shall also be responsible for assisting in the development of the school needs assessment and language census.

The Department of Education shall develop guidelines for the selection of advisory committees established or maintained pursuant to this section.

5767.15. (a) Out of funds appropriated for such purposes, the superintendent shall have the duty to administer the provisions of this chapter. The responsibilities of the superintendent in administering this chapter shall include, but are not limited to, ensuring that:

(1) Funds authorized to administer, monitor, review, or evaluate the provisions of this chapter are separately accounted for.

(2) Sufficient bilingual personnel are available within the Department of Education with familiarity, competency, and proficiency in bilingual-crosscultural instruction to meet the needs of this chapter and to administer, review, monitor, and evaluate the use of other state or federal categorical aid funds allocated to local districts which have been wholly or partially allocated on the basis of the educational needs of limited-English-speaking pupils.

(3) Department of Education personnel responsible for the administration, review, monitoring, or evaluation of programs operating pursuant to this chapter have been sufficiently trained to carry out the intent of this chapter to meet the needs of the limited-English-speaking pupil.

(4) There is within the Department of Education an administrative unit responsible for bilingual-bicultural educational programs and policies through which the superintendent shall carry out his functions pursuant to this chapter.

(5) Applications for reimbursement from school districts are made in accordance with this chapter; to assure that districts are providing each limited-English-speaking pupil with an educational opportunity equal to that available to English-speaking pupils; and to recommend acceptable projects for approval by the board.

(6) A plan is developed to provide for adequate monitoring of school and school district compliance with the provisions of this chapter.

(7) Develop an annual evaluation of bilingual needs and programs within the state for submission to the Legislature and to the Governor. The annual evaluation shall include a state assessment of

the educational needs of pupils and other persons who are limited English speaking, and of the extent to which such needs are being met from federal, state and local efforts.

5767.16. All principal teachers providing instruction in programs defined by subdivision (a), (b), or (c) of Section 5767.2 shall be bilingual-crosscultural teachers as defined pursuant to subdivision (h) of Section 5767.2, or shall be bilingual in English and the primary language of the limited-English-speaking pupils in his or her class and hold an internship credential, or an emergency bilingual-crosscultural credential.

In recognition of the shortage of qualified bilingual-crosscultural teachers, a school district may request a waiver from the board for a teacher who is not bilingual-crosscultural but who is enrolled in a program leading to a certificate of competence for bilingual-crosscultural instruction, pursuant to Section 13125.4. Such a teacher, with the assistance of a bilingual-crosscultural aide, may teach in a program of bilingual instruction mandated by Section 5767.4 for not more than two school years. No waiver shall be granted unless the board finds that the district made a good faith effort to recruit and hire bilingual-crosscultural teachers through the clearinghouse maintained by the Commission for Teacher Preparation and Licensing, pursuant to Section 5769.4. All waivers granted pursuant to this section shall expire not later than September 1, 1979.

No teacher employed after the effective date of this chapter to teach in programs defined by subdivision (a), (b), or (c) of Section 5767.2 shall be eligible for such a waiver.

5767.18. Funds appropriated pursuant to this chapter for programs mandated pursuant to Section 5767.4 shall be allocated to school districts by the Superintendent of Public Instruction in the following manner:

(a) The superintendent shall rank all school districts with limited-English-speaking pupils in kindergarten through grade 6 in order of the ratio of such pupils to all pupils in kindergarten through grade 6 in the district.

(1) Districts in the upper 50 percentile of the ranking and districts with 500 or more limited-English-speaking pupils in kindergarten through grade 6 shall receive funding for all such pupils before other districts with limited-English-speaking pupils in kindergarten through grade 6 receive funding.

(2) As additional funds become available, districts shall become eligible for funds based on their ranking percentage of limited-English-speaking pupils.

(3) Districts with limited-English-speaking pupils in grades 7 through 12 shall be eligible to receive reimbursement out of funds appropriated pursuant to this chapter to serve such pupils only after all eligible pupils in kindergarten through grade 6 have been served and only if such pupils are enrolled in a program authorized pursuant to subdivision (a), (b), or (c) of Section 5767.2.

(b) (1) The superintendent shall allow to each school district eligible for funding pursuant to paragraph (1) of subdivision (a) amounts based upon the ratio of the number of limited-English-speaking pupils in the district in kindergarten and grades 1 through 6 to the total number of all such pupils in kindergarten and grades 1 through 6 in school districts eligible for funding pursuant to paragraph (1) of subdivision (a).

(2) After all such districts have been fully funded, the superintendent shall allow funds to districts eligible for funding pursuant to paragraph (2) of subdivision (a) in the same manner.

(3) After all such districts have been fully funded, the superintendent shall allow to districts with limited-English-speaking pupils in grades 7 through 12 amounts based upon the ratio of the number of limited-English-speaking pupils in the district in grades 7 through 12 to the total number of limited-English-speaking pupils in grades 7 through 12 in the state.

(c) Beginning with the 1977–78 school year and each school year thereafter until all eligible schools are served, priority for eligibility within districts shall be:

(1) Elementary schools with the largest percentage of limited-English-speaking pupils and which receive federal or state categorical resources for primary grades and which have an approved school level plan.

(2) Elementary schools with the largest percentage of limited-English-speaking pupils and which are scheduled to receive federal or state categorical resources for primary grades in the succeeding school year.

(3) Elementary schools with the largest percentage of limited-English-speaking pupils but which are not scheduled to receive federal or state categorical resources for primary grades in the succeeding school year.

(4) First priority for funding in paragraphs (1) through (3) of this subdivision shall be for pupils in kindergarten and grades 1 through 3.

(5) Schools which receive funding for kindergarten and grades 1 through 3 shall have first priority in succeeding school years for funds for pupils in grades 4, 5, and 6, to be phased in at the rate of one grade per school year.

(d) The requirements for establishing programs mandated pursuant to subdivision (a) of Section 5767.4 shall be in effect as, and to the extent that, schools become eligible to receive funds for such programs as determined pursuant to this section.

(e) The requirements for establishing programs mandated pursuant to subdivision (b) of Section 5767.4 shall be in effect beginning with the 1977–78 school year.

SEC. 2. Section 5768.2 of the Education Code is amended to read:

5768.2. The Commission for Teacher Preparation and Licensing shall develop, on or before January 15th of each year, a status report

on local, state, and federally funded bilingual-crosscultural teacher preparation programs. Such report shall be made to the Legislature not later than February 15th of each year. The Board of Governors of the California Community Colleges, the Trustees of the California State University and Colleges, and the Regents of the University of California shall, by November 15 of each year, report to the Commission for Teacher Preparation and Licensing with reference to their programs in bilingual-crosscultural teacher training. Such report shall include, but not be limited to, information on special classes or programs leading to a certificate of competence for bilingual-crosscultural instruction, preservice or in-service programs offered by these institutions to bilingual-crosscultural teachers or teacher aides, the number of persons enrolled in such programs, and any other relevant data requested by the Commission for Teacher Preparation and Licensing.

SEC. 3. Section 5768.6 of the Education Code is amended to read:

5768.6. The Commission for Teacher Preparation and Licensing shall, with the assistance of a representative appointed by the Superintendent of Public Instruction, the Chancellor of the California Community Colleges, the Chancellor of the California State University and Colleges, the President of the University of California, and with five presently practicing teachers appointed by the Superintendent of Public Instruction, design a comprehensive language and culture curriculum for teachers who are already certificated. Such curriculum shall be designed to enable teachers to qualify for the bilingual-crosscultural certificate of competence authorized pursuant to Section 13125.4. Initial programs to assist on the development of this shall be offered at not less than five public institutions of higher education in California, beginning not later than September 1, 1977.

SEC. 4. Section 5769 of the Education Code is amended to read:

5769. There is hereby established a Bilingual Teacher Development Grant Program. The Student Aid Commission shall administer the Bilingual Teacher Development Grant Program. The Student Aid Commission shall evaluate candidates for grants in consultation with the Commission for Teacher Preparation and Licensing. The Student Aid Commission shall promulgate all regulations necessary for the administration of the Bilingual Teacher Development Grant Program after consultation with the Commission for Teacher Preparation and Licensing. Not less than 75 percent of the funds available for grants shall be made on the basis of need to upper division and graduate students pursuing a course of study leading to a certificate of competence for bilingual-crosscultural instruction established pursuant to Section 13125.4. Remaining funds shall be available to certificated teachers who are enrolled in the curriculum prescribed in Section 5768.6. Grants may be used to cover tuition, fees, and subsistence expenses and shall supplement and not supplant other state and federal student financial aid

programs. Grants may be renewed, provided that no student may receive grants for a period of more than three academic years.

SEC. 5. Section 5769.4 of the Education Code is amended to read:

5769.4. The Commission for Teacher Preparation and Licensing shall serve as a clearinghouse for bilingual-crosscultural teaching personnel. The commission shall compile, continually update, and maintain a directory of bilingual-crosscultural teachers available to teach in bilingual education programs. The directory shall be sent to all school districts annually. The commission shall, upon request, assist school districts in the recruitment of such teachers.

SEC. 6. There is hereby appropriated from the General Fund the sum of three million seven hundred eighty-six thousand dollars ($3,786,000) for programs authorized pursuant to Chapter 5.76 (commencing with Section 5767) of Division 6 of the Education Code to be apportioned in the following manner:

(a) The sum of three million two hundred fifty thousand dollars ($3,250,000) to the Superintendent of Public Instruction for purposes of funding programs and administering programs of bilingual education pursuant to Chapter 5.76 (commencing with Section 5767) of Division 6 of the Education Code as follows:

(2) For administration and evaluation activities for the 1977–78 fiscal year $150,000

(3) For allocation to school districts for purposes of providing educational services pursuant to such chapter for the 1977–78 fiscal year above those amounts provided for such purposes in the Budget Act of 1976..... $3,000,000

(b) For allocation to the Commission for Teacher Preparation and Licensing for duties required pursuant to such chapter and Section 13125.4 of the Education Code, one hundred fifty thousand dollars ($150,000), to be expended according to the following schedule:

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act other than that contained in Section 6 because any duties imposed on local school districts by this act other than those reimbursed pursuant to Section 6, merely clarify existing state law or reaffirm for the state

that which has been declared existing law or regulation through action of the federal government.

An act to add and repeal Sections 22855.5 and 22856.5 of the Education Code, relating to education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 22855.5 is added to the Education Code, to read:

CHAPTER 981

An act to amend Section 1081.5 of the Education Code, relating to field trips and excursions.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1081.5 of the Education Code is amended to read:

1081.5. The governing board of any school district or the county superintendent of schools of any county may:

(a) Conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or school band activities to and from places in the state, any other state, the District of Columbia, or a foreign country for pupils enrolled in elementary or secondary schools. A field trip or excursion to and from a foreign country may be permitted to familiarize students with

the language, history, geography, natural sciences, and other studies relative to the district's course of study for such pupils.

(b) Engage such instructors, supervisors, and other personnel as desire to contribute their services over and above the normal period for which they are employed by the district, if necessary, and provide equipment and supplies for such field trip or excursion.

(c) Transport by use of district equipment, contract to provide transportation, or arrange transportation by the use of other equipment, of pupils, instructors, supervisors or other personnel to and from places in the state, any other state, the District of Columbia, or a foreign country where such excursions and field trips are being conducted; provided that, when district equipment is used, the governing board shall secure liability insurance, and if travel is to and from a foreign country, such liability insurance shall be secured from a carrier licensed to transact insurance business in such foreign country.

(d) Provide supervision of pupils involved in field trips or excursions by certificated employees of the district.

No pupil shall be prevented from making the field trip or excursion because of lack of sufficient funds. To this end, the governing board shall coordinate efforts of community service groups to supply funds for pupils in need of them.

No group shall be authorized to take a field trip or excursion authorized by this section if any pupil who is a member of such an identifiable group will be excluded from participation in the field trip or excursion because of lack of sufficient funds.

No expenses of pupils participating in a field trip or excursion to any other state, the District of Columbia, or a foreign country authorized by this section shall be paid with school district funds. Expenses of instructors, chaperones, and other personnel participating in a field trip or excursion authorized by this section may be paid from school district funds, and the school district may pay from school district funds all incidental expenses for the use of school district equipment during a field trip or excursion authorized by this section.

The attendance or participation of a pupil in a field trip or excursion authorized by this section shall be considered attendance for the purpose of crediting attendance for apportionments from the State School Fund in the fiscal year. Credited attendance resulting from such field trip or excursion shall be limited to the amount of attendance which would have accrued had the students not been engaged in the field trip or excursion.

Credited attendance shall not exceed 10 schooldays except in the case of a community college student or students participating in a field trip or excursion in connection with courses of instruction, or school-related educational activities, and which are not social, cultural, athletic or school band activities. No more contact hours shall be generated by a field trip or excursion than if the class were held on campus.

All persons making the field trip or excursion shall be deemed to have waived all claims against the district or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. All adults taking out-of-state field trips or excursions and all parents or guardians of pupils taking out-of-state field trips or excursions shall sign a statement waiving such claims.

No transportation allowances shall be made by the Superintendent of Public Instruction for expenses incurred with respect to field trips or excursions which have an out-of-state destination. Any school district which transports pupils, teachers or other employees of the district in schoolbuses within the state and to destinations within the state, pursuant to the provisions of this section, shall report to the Superintendent of Public Instruction on forms prescribed by him the total mileage of schoolbuses used in connection with such educational excursions. In computing the allowance to such school district for regular transportation there shall be deducted therefrom an amount equal to the depreciation of schoolbuses used for such transportation in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

SEC. 2. Section 1081.5 of the Education Code is amended to read:

1081.5. The governing board of any school district or the county superintendent of schools of any county may:

(a) Conduct field trips or excursions in connection with courses of instruction or school-related social, educational, cultural, athletic, or school band activities to and from places in the state, any other state, the District of Columbia, or a foreign country for pupils enrolled in elementary or secondary schools. A field trip or excursion to and from a foreign country may be permitted to familiarize students with the language, history, geography, natural sciences, and other studies relative to the district's course of study for such pupils.

(b) Engage such instructors, supervisors, and other personnel as desire to contribute their services over and above the normal period for which they are employed by the district, if necessary, and provide equipment and supplies for such field trip or excursion.

(c) Transport by use of district equipment, contract to provide transportation, or arrange transportation by the use of other equipment, of pupils, instructors, supervisors or other personnel to and from places in the state, any other state, the District of Columbia, or a foreign country where such excursions and field trips are being conducted; provided that, when district equipment is used, the governing board shall secure liability insurance, and if travel is to and from a foreign country, such liability insurance shall be secured from a carrier licensed to transact insurance business in such foreign country.

(d) Provide supervision of pupils involved in field trips or excursions by certificated employees of the district.

No pupil shall be prevented from making the field trip or excursion because of lack of sufficient funds. To this end, the governing board

shall coordinate efforts of community service groups to supply funds for pupils in need of them.

No group shall be authorized to take a field trip or excursion authorized by this section if any pupil who is a member of such an identifiable group will be excluded from participation in the field trip or excursion because of lack of sufficient funds.

No expenses of pupils participating in a field trip or excursion to any other state, the District of Columbia, or a foreign country authorized by this section shall be paid with school district funds. Expenses of instructors, chaperones, and other personnel participating in a field trip or excursion authorized by this section may be paid from school district funds, and the school district may pay from school district funds all incidental expenses for the use of school district equipment during a field trip or excursion authorized by this section.

The attendance or participation of a pupil in a field trip or excursion authorized by this section shall be considered attendance for the purpose of crediting attendance for apportionments from the State School Fund in the fiscal year. Credited attendance resulting from such field trip or excursion shall be limited to the amount of attendance which would have accrued had the students not been engaged in the field trip or excursion.

Credited attendance shall not exceed 10 schooldays except in the case of a community college student or students participating in a field trip or excursion in connection with courses of instruction, or school-related educational activities, and which are not social, cultural, athletic or school band activities. No more contact hours shall be generated by a field trip or excursion than if the class were held on campus.

All persons making the field trip or excursion shall be deemed to have waived all claims against the district or the State of California for injury, accident, illness, or death occurring during or by reason of the field trip or excursion. All adults taking out-of-state field trips or excursions and all parents or guardians of pupils taking out-of-state field trips or excursions shall sign a statement waiving such claims. The provisions of this paragraph are not applicable in cases in which a field trip or excursion is conducted in vehicles which, at the time of the field trip or excursion, are owned by, or leased to, the school district.

No transportation allowances shall be made by the Superintendent of Public Instruction for expenses incurred with respect to field trips or excursions which have an out-of-state destination. Any school district which transports pupils, teachers or other employees of the district in schoolbuses within the state and to destinations within the state, pursuant to the provisions of this section, shall report to the Superintendent of Public Instruction on forms prescribed by him the total mileage of schoolbuses used in connection with such educational excursions. In computing the allowance to such school district for regular transportation there shall be deducted therefrom

an amount equal to the depreciation of schoolbuses used for such transportation in accordance with rules and regulations adopted by the Superintendent of Public Instruction.

SEC. 3. The Chancellor of the California Community Colleges shall monitor the utilization and costs of field trips conducted by community colleges which, in the case of any student, exceed 10 schooldays in any school year, and for which student attendance is credited to the district conducting such trips, and the chancellor shall report the findings to the Legislature on September 1st of 1978, 1979, and 1980.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 2878 are both chaptered and become effective January 1, 1977, both bills amend Section 1081.5 of the Education Code, and this bill is chaptered after Assembly Bill No. 2878, that the amendments to Section 1081.5 proposed by both bills be given effect and incorporated in Section 1081.5 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Assembly Bill No. 2878 are both chaptered and become effective January 1, 1977, both amend Section 1081.5, and this bill is chaptered after Assembly Bill No. 2878, in which case Section 1 of this act shall not become operative.

CHAPTER 982

An act to amend Sections 6880.46, 18258, and 19682.5 of, to add Section 6755.4 to, and to repeal Sections 6758, 6770, 6771, and 6772 of, the Education Code, relating to education.

The State Board of Education shall adopt rules and regulations relating to the conduct of such appeals processes or hearings. The rules and regulations shall ensure that educationally handicapped pupils and their parents are guaranteed procedural safeguards in appeals processes and hearings regarding pupil identification, evaluation, and educational placement.

SEC. 2. Section 6758 of the Education Code is repealed.

SEC. 3. Section 6770 of the Education Code is repealed.

SEC. 4. Section 6771 of the Education Code is repealed.

SEC. 5. Section 6772 of the Education Code is repealed.

The members of the committee shall serve without compensation, except that they may receive their actual and necessary expenses incurred in the performance of their duties and responsibilities, including travel expenses.

SEC. 7. Section 18258 of the Education Code is amended to read:

18258. Any contract entered into and approved in the manner provided pursuant to Section 18256 shall entitle the approved driver training school to payment by the school district of the sum of not more than the amount reimbursable to the school district as "excess cost" provided pursuant to Sections 17305.7, 18251, and 18251.3. In the event that a student who has commenced the driver training for which the district has contracted pursuant to Section 18256 and the student does not complete the driver training for any reason, the approved private driver training school shall be paid the amount in "excess cost," if any, received by the school district for such student.

SEC. 8. Section 19682.5 of the Education Code is amended to read:

19682.5. Allocations under this article for assistance to school districts in providing necessary housing and equipment for the education of pupils enrolled or to be enrolled in development centers for the handicapped may be made only to those school districts which are authorized to operate development centers pursuant to the provisions of Chapter 8.7 (commencing with Section 6880) of Division 6.

CHAPTER 983

An act to amend Sections 40402 and 41403.1 of the Education Code, relating to postsecondary education, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 40402 of the Education Code is amended to read:

40402. There shall be 23,062 new Cal Grant awards for first-time recipients for the 1977–1978 fiscal year and each year thereafter, except that new scholarships in subdivision (a) in excess of 4.25 percent of the number of high school graduates of the previous fiscal year, in subdivision (b) in excess of 5,375, and in subdivision (c) in excess of 1,062 shall not be awarded unless there are federal student financial aid funds available to the State Scholarship and Loan Commission in an amount necessary to fund such awards or unless the Legislature acts in the future to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal. Such grants shall be allocated as follows:

(a) 14,900 awards for the 1977–1978 fiscal year, and each fiscal year thereafter, to be utilized for tuition and student fees pursuant to Section 40405.

(b) 6,825 awards for the 1977–1978 fiscal year and each fiscal year thereafter, to be utilized for tuition, student fees, and subsistence costs pursuant to Section 40406.

(c) 1,337 awards for the 1977–1978 fiscal year and each fiscal year thereafter, to be utilized for occupational or technical training pursuant to Section 40407 through 40411.

SEC. 2. Section 41403.1 of the Education Code is amended to read:

41403.1. There shall be 700 new grants for the 1975–1976 fiscal year and 1,337 new grants for the 1976–1977 fiscal year, except that new grants in excess of 1,062 shall not be awarded unless there are federal student financial aid funds available to the Student Aid Commission in an amount necessary to fund such awards. First priority for federal state student incentive grant funds shall be for students originally funded from state student incentive grant funds who are eligible for renewal.

SEC. 3. The sum of five hundred thousand dollars ($500,000) is hereby appropriated from the General Fund to the Student Aid Commission without regard to fiscal years for the purpose of making occupational education and training grants pursuant to Chapter 6

(commencing with Section 41400) of Division 25 of the Education Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The number of applications for occupational education and training grants has increased about 400 percent over the anticipated rate. The amount currently budgeted for such grants would thus result in a high turndown rate. If the additional funds appropriated by this act are not made available immediately, less than 10 percent of the applicants will receive grants.

In order to permit the effective operation of this valuable program, it is necessary that this act take effect immediately.

CHAPTER 984

An act to add Sections 13125.4 and 13125.5 to the Education Code, relating to bilingual education.

[Approved by Governor September 14, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 13125.4 is added to the Education Code, to read:

13125.4. The Commission for Teacher Preparation and Licensing shall grant certificates of bilingual-crosscultural competence. The purpose of these certificates is to increase the number of persons qualified to provide appropriate bilingual-crosscultural instruction to children whose native language is other than English and who are non- or limited-English-speaking. The Commission for Teacher Preparation and Licensing shall also develop an assessment program which will provide a method by which persons holding valid teaching credentials may demonstrate their competence as bilingual-crosscultural teachers without additional postsecondary education coursework. These certificates shall certify, as a minimum, the following:

(a) That the person is competent in both the oral and written skills of a language other than English;

(b) That the person has both the knowledge and understanding of the cultural and historical heritage of the students whose native language is other than English;

(c) That the person successfully can teach the basic teaching authorization in English and in a language other than English. The holder of this certificate is authorized to teach students whose native language is other than English.

SEC. 2. Section 13125.5 is added to the Education Code, to read:

13125.5. The minimum requirements for obtaining a certificate of bilingual-crosscultural competence are:

(a) A valid teaching credential;

(b) A bilingual certification in English and in a language other than English;

(c) A competency in teaching one's basic teaching authorization both in English and in a language other than English;

(d) An ability to present a sequential program of instruction in a language other than English; and

(e) A competency in the culture and heritage of the student whose native language is other than English.

SEC. 3. The Commission for Teacher Preparation and Licensing shall adopt regulations for the effective implementation of Sections 13125.4 and 13125.5 by March 1, 1977.

CHAPTER 985

An act to amend Section 2193.77 of the Business and Professions Code, relating to medical schools, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 2193.77 of the Business and Professions Code is amended to read:

2193.77. (a) It is the intention of the Legislature in enacting this section to provide financial assistance to University of California medical schools operating supervised clinical training programs authorized by Section 2193.71 and to provide financial assistance to students to cover the costs of supervised clinical training programs at medical schools in this state other than University of California medical schools. The Legislature further intends to assist in, through this section, the development and operation of up to 50 places in such supervised clinical training programs on a continuing basis. Funds to support such intent may be appropriated by the Legislature in the future as part of the state budget.

(b) The Student Aid Commission shall, from funds appropriated by the Legislature for such purpose, (1) allocate the sum of no more than ten thousand dollars ($10,000) for each United States citizen up to a total of 30 students enrolled in an approved program of supervised clinical training established pursuant to Section 2193.75 to the University of California medical school operating such program and (2) allocate the sum of no more than ten thousand dollars ($10,000) to each United States citizen up to a total of 20 students,

in addition to those in paragraph (1) of this subdivision, who are accepted for enrollment by a University of California or other medical school in an approved program of supervised clinical training established pursuant to Section 2193.75 Funds appropriated to students under this section shall only be expended by students to cover the operating costs of the program. The Student Aid Commission shall insure that funds available to the University of California under subdivision (a) and this subdivision are allocated to only cover costs for students enrolled under this subdivision.

(c) The Student Aid Commission shall make grants to University of California medical schools and students enrolled in clinical training programs at a University of California medical school and at medical schools in this state other than University of California medical schools pursuant to this section based upon information provided by medical schools detailing actual incremental costs of operating supervised clinical training programs. The amount paid per student shall be decreased by the amount of federal funds received for the support of the student and by the amount of other tuition and fees paid by the students participating in the program. The commission may require such information from medical schools and students as is reasonably necessary to carry out the provisions of this section. The commission shall prescribe a standard application form for grants made pursuant to this section, and shall make such application form available to medical schools and students no later than 30 days after this section takes effect.

(d) The Student Aid Commission shall maintain statistical records on the expenditures of funds by medical schools for operating supervised clinical training programs, and the numbers of students enrolled in such programs. The commission shall report to the Legislature no later than each January 1, concerning: the numbers of students who have completed or are enrolled in supervised clinical training programs; the medical schools such students attended; the attrition rate of students enrolled in various programs; and recommendations for changes in funding such programs.

SEC. 2. There is hereby appropriated from the General Fund to the Student Aid Commission for expenditure during the 1976–77 fiscal year the amount of one hundred thousand dollars ($100,000) in augmentation of Item 369(d) of the Budget Act of 1976.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act must take immediate effect in order to allow medical schools, other than the University of California, to operate special clinical training programs. These schools stand ready to admit additional students for this program by January 1977, but need assurances they may operate the program so that students can be selected in July 1976.

CHAPTER 986

An act to amend Section 16730 of the Education Code, relating to child development services, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 16730 of the Education Code is amended to read:

16730. Notwithstanding any provision of law to the contrary, the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, and the governing bodies of any private nonprofit institution of postsecondary education may establish and maintain child development centers on or near their respective campuses.

The Department of Education may accept funds from the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, any other private nonprofit postsecondary institutions, student fees, parent fees, any public funds, not otherwise prohibited by law, and any private funds or resources authorized by a public or private nonprofit agency as the 25-percent local share to obtain the 75-percent state matching funds. The governing board of any postsecondary education institution shall establish in its treasury a fund to be known as the "child development fund" into which shall be paid all funds received by the postsecondary institution for, or from the operation of, child development services under this division. The costs incurred in the maintenance and operation of child development services shall be paid as required pursuant to Section 16749.

The Superintendent of Public Instruction shall adopt rules and regulations to facilitate the funding and reimbursement procedures required by this division.

The Superintendent of Public Instruction, with approval by the State Board of Education, shall establish rules and regulations governing programs operated pursuant to this section which shall insure that subsidized day care provided to student families shall relate to the academic load of the child's parents. The definition of full- and part-time student shall be determined as the segment of postsecondary education defines full- and part-time student for academic purposes.

SEC. 2. (a) In addition to any other amount appropriated for such purpose, there is hereby appropriated from the General Fund in the State Treasury the sum of five hundred thousand dollars ($500,000) to the Superintendent of Public Instruction for

apportionment in fiscal year 1976–77 for the purposes of this act among the segments of public and private nonprofit postsecondary education in the proportions that student-parent enrollment in each segment bears to the total student-parent enrollment of all segments, consistent with the intent of this act within Division 12.5 (commencing with Section 16700) of the Education Code; provided, however, that not more than 3½ percent of such amount shall be expended for expenses of the Department of Education in administering such programs. If a segment cannot utilize its entire apportionment, the Superintendent of Public Instruction may expend unused funds at child development centers operated pursuant to this act that require funds beyond their original apportionment.

(b) Upon the effective date of this act, the Department of Education shall immediately survey the campus programs funded for the first time under Chapter 1012 of the Statutes of 1975 to determine what additional state funds are necessary in order to maintain program levels attained in fiscal year 1975–76. Within 15 days after the effective date of this act, the department shall allocate funds to accomplish such purposes; provided, that the total of such allocations shall not exceed two hundred thousand dollars ($200,000), and that such allocations shall be so made that the budget requests for such programs for the year 1977–78 shall not exceed four hundred thousand dollars ($400,000), less requests for cost-of-living increases pursuant to any general request therefor for child care programs.

SEC. 3. Beyond the amount of such allocations, the appropriation made by Section 2 of this act is for a 12-month program year commencing July 1, 1976. Whatever the implementation date, programs funded by this act shall be funded by the state at not more than the pro rata portion of the remaining amount appropriated on an annual basis, that is, the remainder of the amount appropriated by subdivision (a) shall be reduced to an amount which bears the same ratio to such remaining amount as the number of calendar months remaining in the 1976–77 fiscal year bears to 12 months. The amount by which the appropriation is so reduced shall revert to the General Fund.

SEC. 4. Funds appropriated by this act to the Superintendent of Public Instruction for apportionment among the segments of public postsecondary education shall be allocated to the operating agencies specified in Sections 23550, 24675, and 25546.50 of the Education Code for reimbursement of 75 percent of the eligible costs pursuant to Sections 16708 and 16780 of the Education Code.

Eligible costs of an operating agency for the purposes of obtaining 75 percent state matching funds shall include the value of in-kind services, other than capital outlay or contributions to capital, provided by the operating agency for the operation and maintenance of a campus child development center. The Department of Education, in consultation with the campuses, shall determine those services that may be considered in kind, and the

value of such services.

SEC. 5. Nothing in this act shall be construed to prevent campus child development centers from enrolling a mix of non-state-subsidized student families and state-subsidized families, providing the services rendered to all such families are comparable.

SEC. 6. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There are many children who will be inadequately attended, and many persons, especially women, who will be unable to pursue their education—in either case constituting a risk to the public health and safety of Californians; it is therefore necessary that this act take effect immediately.

CHAPTER 987

An act to add and repeal Article 1 (commencing with Section 40100) to Chapter 1 of Division 25 of the Education Code, relating to student financial aid programs.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Article 1 (commencing with Section 40100) is added to Chapter 1 of Division 25 of the Education Code, to read:

Article 1. General Provisions

40100. In enacting this article, the Legislature finds and declares:

(a) The awarding of financial assistance to needy students by state-funded student aid programs appropriately considers family income in determining an applicant's financial need.

(b) Claiming of financial independence by students whose parents are in fact able to provide financial assistance unfairly redirects limited student aid dollars from students with legitimate financial need.

(c) Definitions and procedures by which a student may declare financial independence from the student's parents differ among state-funded student aid programs and among institutions. A statutory definition of when a student's eligibility for need-based,

state-funded grants is to be determined without regard to his or her parents' financial circumstances will reduce confusion and ensure that such grants are allocated to students on the basis of a more equitable evaluation of their financial need.

40101. The provisions of this article apply to all need-based student grants that are funded by the state or a public postsecondary educational institution under this division. Nothing in this article shall be construed as attempting to regulate the selection or awarding of scholarships to applicants by the state or a public postsecondary educational institution where the scholarships are funded and awarded pursuant to the terms of a private endowment, trust, or similar instrument.

40102. Except as provided for in Section 40103, the resources of an applicant's parents, and spouse where applicable, as well as those of the applicant, shall be considered in determining an applicant's financial need.

40103. The Student Aid Commission or any public postsecondary educational institution shall not consider the income of an applicant's parents in the determination of an applicant's financial need if the applicant, notwithstanding Section 211 of the Civil Code, meets one of the following requirements:

(a) Has been determined to be self-supporting prior to June 30, 1977, according to the procedures of the California postsecondary educational institution from which he or she is currently receiving need-based, state-funded financial aid.

(b) Has not lived with either parent or received financial assistance exceeding six hundred dollars ($600) from either parent for three consecutive tax years prior to the academic period for which aid is requested, and has not been claimed as an income tax exemption for the same period of time by anyone other than self or spouse.

(c) Has been a ward of the court, in which case appropriate court documents shall be submitted.

(d) Is an orphan and not claimed as a tax dependent during the current tax year by any person other than self or spouse.

(e) Has been a part of an extremely adverse home situation which is documented and supported by school or responsible community personnel such as a minister or social worker, which situation has led to estrangement from the family under circumstances where the student has not received a contribution in cash or kind from his family for the preceding 12 months. Public postsecondary educational institutions and the Student Aid Commission shall develop a procedure to allow students to appeal decisions on whether the student has been part of an adverse home situation.

40104. In instances where an applicant does not meet the criteria specified in Section 40103, and the parents refuse to provide financial information, the student may not be considered for a grant. In those instances, however, the student may be considered for a loan or employment aid to the extent that such are available on the basis of

the resources of the student and the student's spouse, if any.

40105. The provisions of this article shall apply only to grants to be awarded for the 1978–79 academic year.

This article shall be operative only until June 30, 1978, or until completion of the processing of applications for the 1978–79 academic year, whichever is later, and as of that date is repealed.

CHAPTER 988

An act making an appropriation for health science facilities, and in this connection to amend and supplement the Budget Act of 1975 (Chapter 176, Statutes of 1975) by adding Section 3.2A thereto, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3.2A is added to the Budget Act of 1975 (Chapter 176, Statutes of 1975), to read:

HEALTH SCIENCE FACILITIES CONSTRUCTION BOND ACT PROGRAM

The following sums of money, or so much thereof as may be necessary, are hereby appropriated for expenditure during the 1976–77, 1977–78, and 1978–79 fiscal years for expenditures only for the programs contemplated by the Health Science Facilities Construction Program Bond Act of 1971. All such appropriations shall be paid out of the Health Science Facilities Construction Program Fund.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to provide matching funds for health science facilities so as to avoid losing available federal funds and to minimize cost increases and assure the education of health care professionals at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 989

An act to amend Section 7455.3 of the Education Code, relating to regional occupational centers and programs.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 7455.3 of the Education Code is amended to read:

7455.3. Any visually handicapped, orthopedically handicapped, or deaf person who is not enrolled in a regular high school or community college program may attend a regional occupational center or regional occupational program on the same basis as a high school pupil. Additional special instruction and support services shall

be provided to such persons.

If the Superintendent of Public Instruction determines that there would be a duplication of effort to such handicapped persons if a regional occupational center or regional occupational program provided services to such persons, in that other programs exist that are available to such persons, the superintendent may disapprove of the curriculum to provide programs to such persons pursuant to Section 7451.7 and of any state funding made available pursuant to Section 18105 for such purposes.

CHAPTER 990

An act to amend Section 25505.8 of the Education Code, relating to community colleges.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 25505.8 of the Education Code is amended to read:

25505.8. A community college district may admit and shall charge a tuition fee to nonresident students. The district may exempt from all or parts of the fee:

(a) All nonresidents who enroll for six units or less. Exemptions made pursuant to this subdivision shall not be made on an individual basis; or

(b) Any nonresident who is both a citizen and resident of a foreign country, provided that the nonresident has demonstrated a financial need for the exemption and not more than 10 percent of the nonresident foreign students attending any community college district may be so exempted. Exemptions made pursuant to this subdivision may be made on an individual basis. In the same manner as other nonresident students, pursuant to subdivision (c) of Section 17666.2, community college districts shall be precluded from computing average daily attendance of nonresident foreign students.

A district may, with the approval of the Board of Governors of the California Community Colleges contract with a state, a county contiguous to California, the federal government, a foreign country, or an agency thereof, for payment of all or a part of a nonresident student's tuition fee.

The nonresident tuition fee shall be paid in equal installments at the beginning of each term as determined by the governing board of the district and shall be set by the governing board of each community college district not later than January 1st of each year. The fee shall represent the amount per student enrolled in the district, which is expended by the district for the current costs of

education as defined by the California Accounting Manual for students enrolled in grades 13 and 14.

The district governing board shall establish the nonresident tuition on the basis of one of the following computations: (a) the amount per student enrolled, derived by dividing the current costs expended from funds from all sources during the preceding year by the average daily attendance during the same year in grades 13 and 14, or (b) the statewide average current expenditure per unit of average daily attendance in grades 13 and 14 during the preceding fiscal year. The same fee shall be charged irrespective of the type of class in which the student is enrolled. Any loss in revenue generated by the nonresident tuition fee shall not be offset by additional state funding due to the loss of revenues derived therefrom.

The governing board of each community college district shall also adopt a per-unit tuition fee for nonresidents on less than a full-time basis by dividing the fee for full-time nonresidents by 30 (units) for colleges operating on the semester system, and 45 (units) for colleges operating on the quarter system. The same per-unit rate shall be charged all nonresident students attending any terms or sessions maintained by the community college outside of the instructional year. The rate charged shall be the rate established for the fiscal year in which the term or session ends.

A district shall report annually to the Board of Governors of the California Community Colleges the number of nonresidents enrolled for six units or less, the number of nonresidents enrolled for more than six units, and the total amount of fees collected from each category.

The provisions of this section which require a mandatory fee for nonresidents shall not apply to any district which borders on another state and has fewer than 500 average daily attendance, except that the provisions of this section which require annual reports to be filed with the Board of Governors of the California Community Colleges on the number of such students enrolled shall apply to such districts in the same manner as to any other district.

02790 29920 189

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 5702.5 of the Education Code is amended to read:

5702.5. No revenue derived from the average daily attendance of adult education programs shall be expended for other than adult education purposes. Nor shall revenue derived from other average daily attendance be expended for adult education purposes.

SEC. 2. Section 5753.1 of the Education Code is amended to read:

5753.1. No community college district shall report for attendance or average daily attendance to the board of governors for apportionment any classes: (1) if the district receives full compensation for direct education costs for such class from any public or private agency, individual or group of individuals, or (2) if such classes are not located in facilities clearly identified in such a manner, and established by appropriate procedures, to insure that attendance in such classes is open to the general public, except those authorized pursuant to Section 5746.1 and those in state hospitals.

The Board of Governors of the California Community Colleges may adopt such regulations as may be necessary to enforce this section.

SEC. 3. Section 5756 of the Education Code is amended to read:

5756. "Adult," for purposes of this section, means a person 18 years of age and older or a person who is not concurrently enrolled in a regular high school program. However, persons 18 years of age or older who are concurrently enrolled in a regular high school program are not adults for purposes of this section. Adults enrolled in any classes maintained by high school or unified school districts or county superintendents of schools pursuant to Sections 7450 through 7466, 45040, 45041, 45042, and 45043 shall be reported separately, and the adult foundation program shall be used in computing district apportionments.

SEC. 4. Section 5756.5 of the Education Code is amended to read:

5756.5. For the purpose of crediting attendance for apportionments from the State School Fund during the fiscal year, apprentices enrolled in any classes maintained by high schools pursuant to Section 3074 of the Labor Code shall be classified as regular students.

Units of average daily attendance generated by apprentices enrolled in any classes maintained by community colleges pursuant to Section 3074 of the Labor Code shall be reported separately.

SEC. 4.5. Section 7459 of the Education Code is amended to read:

7459. A regional occupational center or program established and maintained by a county superintendent of schools or pursuant to a

joint powers agreement pursuant to the provisions of Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code shall receive in annual operating funds from each of the participating school districts per unit of average daily attendance an amount no less than:

(a) The unit foundation program if the unit revenue limit of the district is greater than the unit foundation program, or

(b) The unit revenue limit if the unit foundation program is greater than the revenue limit.

In no case shall any revenue derived from average daily attendance in regional occupational centers and programs be returned by the district of residence.

SEC. 5. Section 7460 of the Education Code is amended to read:

7460. Units of average daily attendance in the regional occupational centers or regional occupational programs of a county for a fiscal year are the quotient arising from dividing the total number of days of pupil's attendance in such centers, or programs, during the fiscal year by 175 and the average daily attendance so computed shall be credited to the district of residence or if the center, or program, is maintained by a school district, to the district maintaining the center or program.

Attendance in regional occupational centers, or regional occupational programs, operated under subdivision (a) of Section 7451.5 shall be considered pupil's attendance under this section, but attendance in regional occupational centers, or regional occupational programs, under subdivision (b) of Section 7451.5 shall not be so considered.

As used in this section, "school district" includes each of those districts which are cooperating in the maintenance of the center or program, with the approval of the county superintendent of schools, pursuant to Section 7451; and units of average daily attendance of pupils residing in such school district shall be credited to the school district.

SEC. 6. Section 11475 of the Education Code is amended to read:

11475. The units of average daily attendance for apportionment purposes of regularly enrolled students of a community college district during the academic year, as defined in Section 25511.5, and subject to the provisions of Section 5753.1 shall be computed by multiplying the weekly student contact hours of enrollment as recorded for the census day or days of each semester or quarter by statewide factors heretofore established by the Board of Governors of the California Community Colleges, subject to review by the Department of Finance. The census day shall be Monday of each of two census weeks of five or six consecutive days of regularly scheduled classes in each term or session as approved by the board of governors.

Attendance of such students enrolled in classes conducted in summer sessions, as distinct from summer quarters, of four weeks or more shall be counted in the computation of average daily

attendance for apportionment purposes under the provisions of this section using the following formula: multiply the sum of the weekly student contact hours of enrollment in each class during the census week of each class of the summer session by the number of scheduled weeks for each class, multiply the product so derived by the statewide factors established by the Board of Governors of the California Community Colleges, subject to review by the Department of Finance, and divide by 525. The census day shall be Monday of the second week. For classes of less than four weeks, the units of average daily attendance shall be computed by dividing the total actual class hours of attendance by 525.

SEC. 7. Section 11475.1 of the Education Code is amended to read:

11475.1. For the purposes of this section a short-term class, exclusive of Sections 11251 and 11484, is any class scheduled for less than a full quarter, semester, or other sessions as approved by the Chancellor of the California Community Colleges to meet the requirements of Section 17551.

Notwithstanding Section 11475, units of average daily attendance of students enrolled in credit and noncredit short-term classes qualifying for a state apportionment in the 1974–75, 1975–76, 1976–77, and 1977–78 college years shall be computed by dividing actual class hours of attendance by 525.

This section shall remain in effect only until July 1, 1978, and is repealed as of that date.

SEC. 8. Section 11475.2 is added to the Education Code, to read:

11475.2. Commencing with the 1973–74 fiscal year and thereafter, notwithstanding Section 22855, for the purposes of crediting community college attendance for apportionments from the State School Fund, students lawfully admitted to the United States for permanent residence in accordance with all applicable laws of the United States and enrolled at a community college in a class in English and citizenship for foreigners as provided in Section 5757 shall be counted as resident students to the extent of their enrollment in such classes.

SEC. 9. Section 11475.5 of the Education Code is amended to read:

11475.5. The Board of Governors of the California Community Colleges shall, with the approval of the Department of Finance, determine two census weeks for each term of the regular academic year, and a single census week for summer sessions.

The Board of Governors, after appropriate study, shall develop a drop date for reporting students in active attendance which shall be no later than the day prior to the beginning of the second census week in regular academic terms; and such census weeks shall be used for all apportionment purposes for the fiscal year beginning July 1, 1975, and subsequent fiscal years.

In its study, the Board of Governors shall consider the needs of students, most particularly those who are unable to complete a term

due to illness or other extenuating circumstances, while at the same time making the drop date meaningful to the measurement of average daily attendance.

In implementing the intent of this section, the Board of Governors shall insure that local governing boards maintain sufficient administrative flexibility to provide adequately for the academic needs of students.

Beginning with the fiscal year 1975–76, new census week or weeks factors shall be used for all computations of state apportionment

The chancellor's office shall study and test the validity of such factors, and periodically the board of governors may make such adjustments as are necessary and as are agreed to by the Department of Finance.

SEC. 10. Section 11477 of the Education Code is amended to read:

11477. The attendance of all students not residents of a community college district enrolled in courses during the academic year shall be kept separately from all other attendance and the units of average daily attendance for such students shall be computed on an individual basis in the applicable manner prescribed in Section 11475 or 11476.1.

The units of average daily attendance of students who are not residents of the community college district enrolled in summer schools and classes for adults shall be kept separately from all other attendance and be computed on an individual basis in the applicable manner prescribed in Section 11475 or 11476.1.

SEC. 11. Section 11481 of the Education Code is amended to read:

11481. The total units of average daily attendance in the community colleges of a district shall be the total of units of average daily attendance computed under Sections 11475 and 11476.1.

SEC. 12. Section 14111 of the Education Code is amended to read:

14111. District taxes may be levied and collected annually pursuant to this section by the respective districts at the same time and in the same manner as other district taxes are levied and collected. The tax shall be in addition to any other district tax now or hereafter authorized by law, and shall not be considered in fixing maximum rates of taxes for school or community college district purposes.

Such tax is for the purpose of providing funds to make contributions to the Teachers' Retirement Fund required of school districts under Section 14100 and to local retirement systems, and the rate shall be such as necessary to raise the amount of difference between the estimated amount of contribution needed and the estimated amount of foundation support provided by Sections 17668.5 and 17668.6.

The tax rate provided by this section shall not exceed ten cents ($0.10) per each one hundred dollars ($100) of the assessed value of

property in an elementary school district or five cents ($0.05) per each one hundred dollars ($100) of the assessed value of property within a high school district or community college district.

In a unified school district the tax rate provided by this section shall not exceed fifteen cents ($0.15) per each one hundred dollars ($100) of the assessed value of property within the district.

If at the end of any school year there remains an unencumbered balance derived from the revenue of the increase in tax rate provided by this section, such balance shall be used exclusively in the following school year for the expenditures of the school district during that year required by Section 14100.

SEC. 13. Section 14245 of the Education Code is amended to read:

14245. The first three hundred dollars ($300) of the monthly allowances payable by the system to retirants, disabilitants, and beneficiaries are increased as of July 1, 1976, as follows if the member had 20 or more years of credited service:

(a) For those with effective dates prior to July 1, 1972, 9 percent;

(b) For those with effective dates from July 1, 1972, to June 30, 1973, 6 percent;

(c) For those with effective dates from July 1, 1973, to June 30, 1974, 3 percent.

SEC. 14. Section 17411.1 of the Education Code is amended to read:

17411.1. The Chancellor of the California Community Colleges shall withhold from the apportionment to a community college district, as a part of the first principal apportionment and second principal apportionment, the amount allowed the district for the average daily attendance in grades 13 and 14 by reason of the operation of Sections 17668.6 and 17971 through 17971.7 of students residing in the district who were in attendance at a community college in another district. The amount withheld per unit of average daily attendance shall be determined by dividing the total amount of basic state aid and state equalization aid computed for the district of residence of such students by the total resident average daily attendance of the district.

The Chancellor of the California Community Colleges shall add the amount withheld to the apportionment required to be made to the community college district maintaining the community college at which the students were in attendance.

SEC. 15. Section 17666.3 of the Education Code is repealed.

SEC. 16. Section 17668.6 of the Education Code is amended to read:

17668.6. The chancellor's office of the California Community Colleges each year shall compute an amount of state aid in support of Community College State Teachers' Retirement contributions determined as follows:

(a) Compute an amount to be known as district aid which a tax levied on each one hundred dollars ($100) of 100 percent of the

assessed valuation in such district as shown by the equalized assessment role of the district for the current year as modified pursuant to Section 17262 would produce if levied if such tax was one and six-tenths cents ($0.016) in the 1976–77 fiscal year and an additional two-tenths of one cent ($0.002) in each fiscal year thereafter to a maximum of two cents ($0.02).

(b) Compute an amount to be known as the Foundation Program by multiplying the average daily attendance of residents of such community college district by thirty-two dollars ($32) for the 1976–77 fiscal year and an additional four dollars ($4) in each fiscal year thereafter to a maximum of forty dollars ($40).

(c) Subtract the result of subdivision (a) from the result of subdivision (b) for such district the difference to be known as state aid for the State Teachers' Retirement increase.

Further, the chancellor's office of the California Community Colleges shall identify to each community college district the amount of increased state aid granted under this section which shall be used as a limitation on the taxes that may be levied and collected annually under the provisions of Section 14111 of the Education Code.

SEC. 17. Section 17702 of the Education Code is amended to read:

17702. The Superintendent of Public Instruction shall compute for each district described herein which does not come within the provisions of Section 17702.2 the amount, to be known as district aid, which a tax levied on each one hundred dollars ($100) of 100 percent of the assessed valuation in such district as shown by the equalized assessment roll of the district for the current year pursuant to Section 17701.4, as modified pursuant to Section 17262, would produce if levied, if such tax was:

(a) Two dollars and twenty-three cents ($2.23) in an elementary school district.

(b) One dollar and sixty-four cents ($1.64) in a high school district.

SEC. 18. Section 17951 of the Education Code is amended to read:

17951. The allowance for each unit of average daily attendance during the 1976–77 fiscal year for adults, as adults are defined in Section 5756, for high school districts shall be the adult foundation program of eight hundred sixty-two dollars ($862) less the product of one dollar ($1) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 17262, per unit of total regular high school average daily attendance plus adult average daily attendance. The total of state aid shall not be less than one hundred twenty-five dollars ($125) per unit of average daily attendance.

For each subsequent fiscal year, the foundation program for adults in high schools for the previous fiscal year shall be increased by the same percentage increase by which the high school foundation program is increased.

SEC. 19. Section 17951.1 of the Education Code is amended to

read:

17951.1. The Superintendent of Public Instruction shall determine the amount of state equalization aid to be added to the regular high school foundation program apportionments for each school district with adult average daily attendance in the 1976–77 fiscal year as follows:

He shall determine the adult average daily attendance used in computing state aid under the high school foundation program in the 1975–76 fiscal year and compute the 1976–77 fiscal year equalization aid according to the high school foundation program for the 1976–77 fiscal year using that 1975–76 fiscal year average daily attendance.

He shall recompute the equalization aid to the high school foundation program with the adult average daily attendance excluded and shall determine the loss of equalization aid due to excluding adult average daily attendance. To this amount he shall add the state equalization aid for defined adults in the 1975–76 fiscal year. He shall compute the state equalization aid for adults pursuant to Section 17951 and shall deduct this amount from the sum of the state equalization aid for defined adults in the 1975–76 fiscal year and the loss of equalization aid due to excluding adults from the high school foundation program. The remainder shall be added to the equalization aid for the high school foundation program for that district in the 1976–77 fiscal year. In each subsequent fiscal year the same calculation shall be used, using that year's adult average daily attendance, up to, but not to exceed, the adult average daily attendance used in computing the high school foundation program in the 1975–76 fiscal year.

If the adult average daily attendance of the current year is less than the comparable adult average daily attendance determined for 1975–76 the current year adult average daily attendance shall be used in lieu of the 1975–76 adult average daily attendance in determining the amount of state equalization aid to be added to the regular high school program. If there is no adult average daily attendance for the current year this section shall not apply.

SEC. 20. Section 17971 of the Education Code is amended to read:

17971. (a) If the total units of average daily attendance for a community college district computed pursuant to Sections 11475 and 11476.1, for the 1976–77 fiscal year second principal apportionment is equal to or greater than the total units of average daily attendance computed pursuant to Sections 11475 to 11501, inclusive, for the 1975–76 fiscal year second principal apportionment, the chancellor's office of the California Community Colleges shall apportion state aid to the district for its 1975–76 fiscal year level of student attendance in accordance with subdivision (b) if the total units of average daily attendance are greater than 3,000, and subdivision (d) otherwise, and shall apportion additional state aid to the district for growth in student attendance between the 1975–76 fiscal year and the 1976–77 fiscal year in accordance with subdivision (c) if the total units of

average daily attendance are greater than 3,000, and subdivision (e) otherwise.

(b) For each community college district with more than 3,000 units of average daily attendance, the state apportionment for its 1975–76 fiscal year level of student attendance shall be computed as follows:

(1) Determine the amount of the 1975–76 fiscal year second principal apportionment to the district for student attendance computed pursuant to Sections 11475 to 11501, inclusive.

(2) Multiply the amount determined in (1) by 0.06 times the equalization factor for the district determined pursuant to subdivision (f).

(3) Add the result of the computation in (2) to the amount of the 1975–76 fiscal year state second principal apportionment to the district for student attendance computed pursuant to Sections 11475 to 11501, inclusive.

(4) Multiply the amount determined in paragraph (3) by the demographic factor for the district determined pursuant to subdivision (g). The result of this computation shall be the state apportionment to the district in the 1976–77 fiscal year for its 1975–76 fiscal year level of student attendance.

(c) For each community college district with more than 3,000 units of average daily attendance for the 1975–76 fiscal year, the state apportionment in the 1976–77 fiscal year for the growth in its student attendance between the 1975–76 fiscal year and the 1976–77 fiscal year shall be computed as follows:

(1) Determine the amount of the 1975–76 fiscal year state second principal apportionment to all community college districts for student attendance computed pursuant to Sections 11475 to 11501, inclusive.

(2) Divide the amount determined in (1) by the total units of average daily attendance computed pursuant to Sections 11475 to 11501, inclusive, for all community college districts on the 1975–76 fiscal year state second principal apportionment.

(3) Multiply the result of the computation in (2) by 1.06 times the equalization factor for the district determined pursuant to subdivision (f) and the demographic factor for the district determined pursuant to subdivision (g).

(4) Determine the amount of the difference between the total units of average daily attendance for the district computed pursuant to Sections 11475 to 11501, inclusive, on the 1975–76 fiscal year state second principal apportionment and the total units of average daily attendance for the district computed pursuant to Sections 11475 and 11476.1 for the 1976–77 fiscal year state second principal apportionment.

(5) Multiply the result of the computation in (3) by the amount determined in (4). The result of this computation shall be the state apportionment to the district in the 1976–77 fiscal year for the growth in its student attendance between the 1975–76 fiscal year and the

1976–77 fiscal year. In no case shall this amount be less than one hundred twenty-five dollars ($125) times the increase in the total units of average daily attendance for the district determined in step (4) above.

(d) For each community college district with less than 3,001 units of average daily attendance for the 1975–76 fiscal year, the state apportionment for its 1975–76 fiscal year level of student attendance shall be computed as follows:

(1) Determine the total units of average daily attendance computed pursuant to Sections 11475 to 11501, inclusive, for the 1975–76 fiscal year second principal apportionment.

(2) Determine a small district multiplier equal to $1.0/(a + bx)$ where

$a = .47615$

$b = .0001746$, and

$x =$ the units of average daily attendance determined in (1).

(3) Multiply the number determined in (2) by the amount determined pursuant to paragraph (c) (3).

(4) Multiply the number determined in (3) by the units of average daily attendance determined in (1).

(5) The state apportionment to the district for its 1975–76 fiscal year level of student attendance is the greater of paragraph (4) or that amount determined by paragraph (b) (4).

(e) If the total units of average daily attendance for the 1975–76 fiscal year are less than 3,001.

(1) Multiply the number determined in paragraph (c) (4) by the number determined in paragraph (d) (3).

(2) The state apportionment to the district in the 1976–77 fiscal year for the growth in its student attendance between the 1975–76 fiscal year and the 1976–77 fiscal year shall be the greater of paragraph (1) and that determined by paragraph (c) (5).

(f) The equalization factor for a district shall be computed as follows:

(1) Divide the total modified assessed valuation for all community college districts on the 1976–77 fiscal year second principal apportionment by the total units of resident average daily attendance for all community college districts computed pursuant to Sections 11475 and 11476.1 for the 1976–77 fiscal year second principal apportionment.

(2) Divide the modified assessed valuation for the district on the 1976–77 fiscal year second principal apportionment by the total units of resident average daily attendance for the district computed pursuant to Sections 11475 and 11476.1 for the 1976–77 fiscal year second principal apportionment.

(3) Divide the result of the computation in (1) by the result of the computation in (2). This amount shall be the equalization factor for the district. The maximum equalization factor for any district shall be 2.

(g) The demographic factor for a district shall be computed as

follows:

(1) Divide the total units of resident average daily attendance for all community college districts on the 1976–77 fiscal year second principal apportionment by the total adult population, excluding the population in state and federal correctional institutions and all persons residing in student housing associated with four-year educational institutions with an enrollment of 3,000 or more and persons residing in military barracks, for all community college districts on January 1, 1977, as estimated by the Department of Finance in cooperation with the chancellor's office.

(2) Divide the units of resident average daily attendance for the district on the 1976–77 fiscal year second principal apportionment by the total adult population, excluding the population in state and federal correctional institutions and all persons residing in student housing associated with four-year educational institutions with an enrollment of 3,000 or more and persons residing in military barracks, of the district on January 1, 1977, as estimated by the Department of Finance in cooperation with the chancellor's office.

(3) Divide the result of the computation in (1) by the result of the computation in (2). This amount in no case shall be more than 1.5.

(4) The demographic factor shall be 1.0 for those districts whose value calculated in paragraph (3) is below the median of the values calculated in paragraph (3) and for all other districts shall be one plus that portion of the value calculated in (3) which results in a total state apportionment of four million dollars ($4,000,000) to those districts with a value as determined in paragraph (3) of this subdivision that exceeds the statewide median value for this calculation for the demographic factor.

(h) This section is repealed as of December 31, 1977.

SEC. 21. Section 17971.1 of the Education Code is amended to read:

17971.1. (a) If the total units of average daily attendance for the community college district computed pursuant to Sections 11475 and 11476.1 for the 1976–77 fiscal year second principal apportionment is less than the total units of average daily attendance computed pursuant to Sections 11475 to 11501, inclusive, for the 1975–76 fiscal year second principal apportionment, the chancellor's office of the California Community Colleges shall compute the state apportionment to the district in the 1976–77 fiscal year in acccordance with subdivision (b) if the total units of average daily attendance for the 1975–76 fiscal year second principal apportionment is greater than 3,000, and in accordance with subdivision (c) otherwise.

(b) The state apportionment to each community college district with total units of average daily attendance for the 1975–76 fiscal year second principal apportionment greater than 3,000 shall be computed as follows:

(1) Determine the amount of the difference between the total units of average daily attendance for the district computed pursuant

to Sections 11475 to 11501, inclusive, on the 1975–76 fiscal year second principal apportionment and the total units of average daily attendance for the district computed pursuant to Sections 11475 to and 11476.1 for the 1976–77 fiscal year second principal apportionment.

SEC. 22. Section 17971.2 of the Education Code is amended to read:

17971.2. (a) If the total units of average daily attendance for the community college district computed pursuant to Sections 11475 and 11476.1 for the second principal apportionment in the 1977–78 fiscal year or years thereafter is equal to or greater than the total units of average daily attendance computed pursuant to Sections 11475 and 11476.1 for the prior year second principal apportionment, the chancellor's office shall apportion state aid to the district for its prior level of student attendance in accordance with subdivision (b) if the total units of average daily attendance are greater than 3,000, and subdivision (d) otherwise, and shall apportion additional state aid to the district for growth in student attendance between the prior year and the current year in accordance with subdivision (c) if the total units of average daily attendance are greater than 3,000, and subdivision (e) otherwise.

(b) For each community college district with more than 3,000 units of average daily attendance, the state apportionment for its prior year level of student attendance shall be computed as follows:

(1) Determine the amount of the prior year second principal apportionment to the district for student attendance computed pursuant to Sections 11475 and 11476.1.

(3) Divide the result of the computation in (1) by the result of the computation in (2). This amount in no case shall be more than 1.5.

(4) The demographic factor shall be 1.0 for those districts whose value calculated in paragraph (3) is below the median of the values calculated in paragraph (3) and for all other districts shall be 1 plus that portion of the value calculated in (3) which results in a total state apportionment of four million dollars ($4,000,000) to those districts with a value as determined in paragraph (3) of this subdivision that exceeds the statewide median value for this calculation for the demographic factor.

SEC. 23. Section 17971.3 of the Education Code is amended to read:

17971.3. (a) If the total units of average daily attendance for the community college district computed pursuant to Sections 11475 and 11476.1 for the current year second principal apportionment is less than the total units of average daily attendance computed pursuant to Sections 11475 and 11476.1 for the prior year second principal apportionment, the chancellor's office of the California Community Colleges shall compute the state apportionment to the district in

accordance with subdivision (b) if the total units of average daily attendance for the prior year second principal apportionment is greater than 3,000, and in accordance with subdivision (c) otherwise.

(b) The state apportionment to each district with total units of average daily attendance for the prior year second principal apportionment greater than 3,000 shall be computed as follows:

(6) Multiply the result of the computation in (5) by 0.06 times the equalization factor for the district determined pursuant to subdivision (c) of Section 17971.2.

(7) Add the result of the computation in (6) to the result of the computation in (5).

(8) Multiply the amount determined in paragraph (7) by the demographic factor for the district determined pursuant to subdivision (g) of Section 17971.2. The result of this computation shall be the second principal apportionment to the district in the current year.

(c) For each community college district with less than 3,001 units of average daily attendance for the prior fiscal year, the state apportionment shall be computed as follows:

(1) Determine the total units of average daily attendance computed pursuant to Sections 11475 and 11476.1 for the prior fiscal year second principal apportionment.

The amount so allowed to such a community college district for each unit of average daily attendance in such classes shall in no event exceed the amount of total state aid per unit of average daily attendance which said district would have received, had the average daily attendance in such classes not been excluded.

SEC. 25. Section 17971.35 is added to the Education Code, to read:

17971.35. For purposes of Sections 17971, 17971.1, 17971.2, and 17971.3, unless otherwise specified, "total units of average daily attendance" means units of average daily attendance of students who are residents of the community college district and of students as defined in Section 17971.4 attending in the community college district.

20905.55. Any gain or loss of average daily attendance used in the revenue limit calculation in Section 20905 which is due to reclassifying high school average daily attendance to adult average daily attendance pursuant to Chapter 323 of the Statutes of 1976 shall not be used in determining the amount allowed in Section 20905.5.

Any gain or loss of average daily attendance used in the revenue limit calculation in Section 20905 which is due to attendance in regional occupational centers or programs pursuant to Sections 7459 and 7460 shall not be used in determining the amount allowed in Section 20905.5.

SEC. 27. Section 20935 of the Education Code is amended to read:

20935. (a) For fiscal year 1976–77, the maximum general purpose tax rate shall be computed pursuant to this section by the county superintendent of schools for each community college district in the county. This maximum general purpose tax rate shall be exclusive of

taxes provided in Section 1905, 14111, 15517, 15518, 16750, 20755, 20801, 22101, or 25541.5 of the Education Code and Section 5302.5 of the Streets and Highways Code. The maximum general purpose tax rate which may be levied by, or on behalf of, a community college district in the 1976–77 fiscal year, shall be the general purpose tax rate a community college district was authorized to levy in the 1975–76 fiscal year pursuant to former Section 20935, exclusive of the tax provided pursuant to Section 14111 and adjustments for under- or over-estimating average daily attendance in the 1974–75 fiscal year pursuant to former Section 20936.5 plus or minus adjustments for under- or over-estimating average daily attendance in the 1975–76 fiscal year pursuant to former Section 20936.5, or a tax rate computed in accordance with the following procedure:

(1) Determine the 1975–76 fiscal year general purpose tax rate levied by the district pursuant to former Section 20935 and former Section 20936.5.

(2) Add to (1) the property tax rate on the secured roll which would produce an amount of property tax revenue equal to the following:

(A) The amount of the property tax revenue which would be received by such district in the current fiscal year by levying its 1975–76 fiscal year general purpose tax rate against the district's total assessed value for the current year, subtracted from;

(B) The amount of property tax revenue which would be received by such district in the current fiscal year if its property tax revenue from the prior year were to change by a percentage equal to the following: the percentage change in the adult population of the district (as determined pursuant to Section 2228.1 of the Revenue and Taxation Code) plus the percentage equal to the prior years' percentage change in "Government Purchases of Goods and Services, State and Local" as determined by the Department of Finance.

(b) As used in this section, "property tax revenue from the prior year" means the revenue which would have been received by a district in the prior fiscal year by levying the 1975–76 fiscal year general purpose property tax rate authorized by former Section 20935 against the total assessed value for such year.

(c) As used in this section, "total assessed value" means all assessed value subject to ad valorem property taxation by a district plus assessed value attributable to the homeowners' property tax exemption and to the business inventory property tax exemption.

SEC. 28. Section 20935.1 of the Education Code is amended to read:

20935.1. For fiscal year 1977–78 and each fiscal year thereafter, the maximum general purpose tax rate shall be computed pursuant to this section by the county superintendent of schools for each community college district in the county. This maximum general purpose tax rate shall be exclusive of taxes provided in Section 1905, 14111, 15517, 15518, 16750, 20755, 20801, 22101, or 25541.5 of the

Education Code and Section 5302.5 of the Streets and Highways Code.

The maximum general purpose tax rate which may be levied by or on behalf of a community college district in 1977–78 and each fiscal year thereafter shall be the general purpose tax rate which could have been levied in the prior year pursuant to Section 20935 or 20935.1 of the Education Code or a tax rate computed in accordance with the following alternate procedure:

(1) Determine the prior year general purpose tax rate which could have been levied by the district pursuant to Section 20935 or 20935.1 of the Education Code,

(2) Add to (1) the property tax rate on the secured roll which would produce an amount of property tax revenue equal to the following:

(a) The amount of the property tax revenue which would be received by such district in the current fiscal year by levying the rate identified in subdivision (1) of this section against the district's total assessed value for the current year, subtracted from

(b) The amount of property tax revenue which would be received by such district in the current fiscal year if its property tax revenue from the prior year were to change by a percentage equal to the following: the percentage change in the adult population of the district (as determined pursuant to Section 2228.1 of the Revenue and Taxation Code) plus the percentage equal to the prior years' percentage change in "Government Purchase of Goods and Services, State and Local" as determined by the Department of Finance.

For the 1977–78 fiscal year only, the maximum authorized general purpose tax rate shall be adjusted, plus or minus, for corrections in the factors for adult population change and "Government Purchase of Goods and Services, State and Local," and other estimating errors made in determining the 1976–77 maximum authorized general purpose tax rate.

As used in this section, "property tax revenue from the prior year" means the revenue which would have been received by a district in the prior fiscal year by levying the maximum prior year general purpose property tax rate authorized by Section 20935 or 20935.1 of the Education Code against the total assessed value for such year.

As used in this section, "total assessed value" means all assessed value subject to ad valorem property taxation by a district plus assessed value attributable to the homeowners' property tax exemption and to the business inventory property tax exemption.

SEC. 29. Section 20935.3 of the Education Code is repealed.

SEC. 30. Section 20935.15 of the Education Code is amended to read:

20935.15. The maximum tax rate of a community college district the boundaries of which are coterminous with those of a city and county shall be increased, or decreased, as the case may be, by the amount necessary to reflect or accommodate any change in the property tax revenues allocable to the district for public school

purposes or any change in expenditures required of the district for public school purposes resulting from an election conducted prior to July 1, 1976, affecting such revenues or expenditures conducted pursuant to the charter of the city and county.

SEC. 31. Section 20941 of the Education Code is amended to read:

20941. For the 1977–78 fiscal year and each fiscal year thereafter:

(a) The maximum tax rate for adult education programs of a school district shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per adult foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the adult foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The adult foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined pursuant to Section 17951.

(d) The inflation adjustment shall be based on the increase or decrease in the adult foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added or subtracted, as the case may be, to the prior year revenue limit per adult foundation program unit of average daily attendance of the district and the sum multiplied by the estimated adult foundation program average daily attendance of the budget year. The product shall be the adult revenue limit of the district for the budget year.

(g) Any district which has an adult revenue limit computed pursuant to subdivision (f) which is equal to or less than the adult foundation program computed for the district pursuant to Section 17951 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the adult foundation program level of the district or the prior year revenue limit increased by 15 percent, beginning in 1977–78.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 17263.1.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 10805 and (2) adjusted sufficiently to allow for the mandated increases in 1976–77 and subsequent years for district contributions for the State Teachers' Retirement System as required by Section 14100. Such

adjustment together with any adjustment allowed in Section 20905 for the same purpose shall not exceed the revenue derived by the tax rate provided in Section 14111.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes related to adult education on property on the unsecured roll of the budget year and income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners' exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 20704. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum adult education tax rate which may be levied in the district during the 1976–77 fiscal year.

This section shall be subject to the provisions of Sections 20906 and 20907.

SEC. 32. Section 25502.5 of the Education Code is repealed.

SEC. 33. Section 2228.1 of the Revenue and Taxation Code is amended to read:

2228.1. (a) Annually, the Department of Finance shall transmit to each community college district an estimate of its annual percentage change in adult population. Such estimates shall indicate the percentage change in the resident population excluding the population in state and federal correctional institutions and all persons residing in student housing associated with four-year educational institutions with an enrollment of 3,000 or more and persons residing in military barracks of each district between January 1 of the prior year and January 1 of the current year if possible, or between the fall school census week of the prior fiscal year and the fall school census week of the current year. Such statements shall be transmitted by May 15.

The Department of Finance may request data from any local agency to be used to prepare the population estimate required by this section. If any local agency fails to supply the requested data, the department is not required to provide an estimate for the school district affected, but may do so using the method deemed most appropriate by the department after first notifying the community college district.

(b) If the total population of a district as currently delineated was within 15 percent of the total population of one or more cities or counties or city and county each of whose population is 50 percent or more within the district as of the most recent federal special or

decennial census or local census carried out under the Department of Finance supervision covering the area in question, it may apply to the Department of Finance for a special estimate of the percentage change in total population of the corresponding area for the past year. The department will prepare the estimate in accordance with the data and methods used pursuant to Section 2227 of the Revenue and Taxation Code and the district may use the estimate in lieu of the estimate prepared under subdivision (a) of this section.

(1) He shall, in the 1976–77 fiscal year, apportion an amount to each district sufficient to equal 80 percent of the foundation program, less one hundred twenty-five dollars ($125), for each unit of its average daily attendance credited to a county-operated regional occupational center or program in the 1976–77 fiscal year, up to the number of units of average daily attendance credited to such program in the 1975–76 fiscal year.

(2) He shall, in the 1977–78 fiscal year, apportion an amount to each district sufficient to equal 40 percent of the foundation program, less one hundred twenty-five dollars ($125), for each unit of its average daily attendance credited to a county-operated regional occupational center or program in the 1977–78 fiscal year, up to the number of units of average daily attendance credited to such program in the 1975–76 fiscal year.

SEC. 35. Section 78 of Chapter 323 of the Statutes of 1976 is amended to read:

Sec. 78. There is hereby appropriated the sum of seven million seventy-two thousand five hundred thirty-six dollars ($7,072,536) in augmentation of Item 321 of the 1976 Budget Act provided that the Department of Education utilize the most recently available data in computing entitlements for the program for the 1976–77 fiscal year and shall allocate entitlements accordingly, and provided further, that no district shall receive less than 100 percent of its entitlement for the 1975–76 fiscal year.

CHAPTER 992

An act to amend Sections 7459 and 17206 of the Education Code, relating to public schools.

[Approved by Governor September 15, 1976. Filed with Secretary of State September 16, 1976.]

The people of the State of California do enact as follows:

Any regional occupational center or program is authorized to (a) budget and accumulate an amount necessary to meet the cash flow needs of the regional occupational center or program known as a general reserve, not to exceed 10 percent of the previous year's expenditures for the operation of the regional occupational center or program and (b) budget and accumulate an amount known as an appropriation for contingencies. The appropriation for contingencies is intended to provide for unforeseen requirements and shall be available for appropriation only after approval by a two-thirds vote of the governing body, and limited to 5 percent of the previous fiscal year's expenditures for the operation of the regional occupational center or program.

General reserves or appropriation for contingencies exceeding the 10-percent or 5-percent limits, respectively, shall be deemed to be excessive regardless of the year accumulated. Accumulated general reserves in excess of the 10-percent limit or appropriation for contingencies in excess of the 5-percent limit shall be returned to the districts participating in the regional occupational center or program

in proportion to the district's contribution to the regional occupational center or program during the previous year. The county superintendent of schools shall subtract from the amount of money necessary to be raised by the district's general purpose taxes, the amount of regional occupational center or program excess general reserve or appropriation for contingencies returned to the district.
