(d) Every plan contract which provides that coverage of a dependent child of a subscriber shall terminate upon attainment of the limiting age for dependent children specified in the plan, shall also provide in substance that attainment of such limiting age shall not operate to terminate the coverage of such child while the child is and continues to be both (a) incapable of self-sustaining employment by reason of mental retardation or physical handicap and (b) chiefly dependent upon the subscriber for support and maintenance, provided proof of such incapacity and dependency is furnished to the plan by the member within 31 days of the request for such information by the plan or group plan contract holder and subsequently as may be required by the plan or group plan contract holder, but not more frequently than annually after the two-year period following the child's attainment of the limiting age.

However, the Labor Commissioner may postpone or grant additional time before setting a hearing if the Labor Commissioner finds that such would lead to an equitable and just resolution of the dispute.

It is the intent of the Legislature that hearings held pursuant to this section be conducted in an informal setting preserving the right of the parties.

(b) When a hearing is set, a copy of the complaint, which shall include the amount of compensation requested, together with a notice of time and place of the hearing, shall be served on all parties, personally or by certified mail.

The judgment so entered shall have the same force and effect as, and shall be subject to all of the provisions of law relating to, a judgment in a civil action; and it may be enforced in the same manner as any other judgment of the court in which it is entered.

SEC. 61. Chapter 5 (commencing with Section 6400) is added to Division 5 of the Elections Code, to read:

CHAPTER 5. DIRECT PRIMARY

Article 1. General Provisions

6400. This chapter does not apply to:

(a) Recall elections.

(b) Presidential primary.

(c) Nomination of officers of cities or counties whose charters provide a system for nominating candidates for such offices.

(d) Nomination of officers for any district not formed for municipal purposes.

(e) Nomination of officers for general law cities.

(f) Nomination of school district officers.

6401. No declaration of candidacy for a partisan office or for membership on a county central committee shall be filed, either by the candidate himself or by sponsors on his behalf, (1) unless at the time of presentation of the declaration and continuously for not less than three months immediately prior to that time, or for as long as he has been eligible to register to vote in the state, the candidate is shown by his affidavit of registration to be affiliated with the political party the nomination of which he seeks, and (2) the candidate has not been registered as affiliated with a qualified political party other than that political party the nomination of which he seeks within 12 months immediately prior to the filing of the declaration.

The county clerk shall attach a certificate to the declaration of candidacy showing the date on which the candidate registered as intending to affiliate with the political party the nomination of which he seeks, and indicating that the candidate has not been affiliated with any other qualified political party for the 12-month period immediately preceding the filing of the declaration. The provisions of this section shall not apply to declarations of candidacy filed by a candidate of a political party participating in its first direct primary election subsequent to its qualification as a political party pursuant to the provisions of Section 6430.

6401.5. If a candidate is a candidate for a nonpartisan office, all reference to party affiliation shall be omitted on all forms required to be filed.

6402. This chapter does not prohibit the independent nomination of candidates under the provisions of Chapter 6 (commencing at Section 6800) of this division, subject to the following limitations:

(a) A candidate whose name has been on the ballot as a candidate of a party at the direct primary and who has been defeated for that party nomination is ineligible for nomination as an independent candidate. He is also ineligible as a candidate named by a party central committee to fill a vacancy on the ballot for a general election.

(b) No person may file nomination papers for a party nomination and an independent nomination for the same office, or for more than one office at the same election.

Article 2. Qualified Parties

6430. A party is qualified to participate in any primary election:

(a) If at the last preceding gubernatorial election there was polled for any one of its candidates for any office voted on throughout the state, at least 2 percent of the entire vote of the state; or

(b) If on or before the 135th day before any primary election, it appears to the Secretary of State, as a result of examining and totaling the statement of voters and their political affiliations transmitted to him by the county clerks, that voters equal in number to at least 1 percent of the entire vote of the state at the last preceding

gubernatorial election have declared their intention to affiliate with that party; or

(c) If on or before the 135th day before any primary election, there is filed with the Secretary of State a petition signed by voters, equal in number to at least 10 percent of the entire vote of the state at the last preceding gubernatorial election, declaring that they represent a proposed party, the name of which shall be stated in the petition, which proposed party those voters desire to have participate in that primary election. This petition shall be circulated, signed, verified and the signatures of the voters on it shall be certified to and transmitted to the Secretary of State by the county clerks substantially as provided for initiative petitions. Each page of the petition shall bear a caption in 18-point blackface type, which caption shall be the name of the proposed party followed by the words "Petition to participate in the primary election." No voters or organization of voters shall assume a party name or designation which is so similar to the name of an existing party as to mislead voters.

6430.5. Whenever the registration of any party which qualified in the previous direct primary election falls below one-fifteenth of 1 percent of the total state registration, that party shall not be qualified to participate in the primary election but shall be deemed to have been abandoned by the voters. The Secretary of State shall immediately remove the name of the party from any list, notice, ballot, or other publication containing the names of the parties qualified to participate in the primary election.

6431. No party shall be recognized or qualified to participate in any primary election which either directly or indirectly carries on, advocates, teaches, justifies, aids, or abets the overthrow by any unlawful means of, or which directly or indirectly carries on, advocates, teaches, justifies, aids, or abets a program of sabotage, force and violence, sedition or treason against, the government of the United States or of this state.

6432. Not less than 123 days before a primary election, the Secretary of State shall, with the advice and consent of the Attorney General, determine which parties are disqualified to participate in any primary election under Section 6431. If it is proposed to disqualify a party which was qualified to participate in the next preceding direct primary, notice of intention to disqualify shall be served by registered mail on the chairman of the state central committee of the party, as shown by the records of the Secretary of State. In any event, notice of intention to disqualify shall be given in each county of the state by publication pursuant to Section 6061 of the Government Code. If there is no newspaper of general circulation printed and published in any county, publication shall be made in a newspaper of general circulation printed and published in an adjoining county.

If the party desires a hearing on the notice of intention to disqualify, it shall, within 10 days after service by mail or within 10

days after the last date upon which the notice was published in any county, whichever is later, file an affidavit in the Supreme Court under Section 6403 of this code setting forth facts showing that the political party is not disqualified to participate in any primary election under Section 6431. If the party does not file the affidavit within the time specified, the notice of intention to disqualify shall constitute final disqualification. Before the affidavit is filed, a copy shall be personally served on the Secretary of State. When filed, the matter shall be set for return in not more than 10 days and shall have priority over any other pending cases.

In connection with proceedings in the Supreme Court under this section, the Legislature hereby declares its intent to create a speedy and expeditious method for judicial determination of the vital questions involved, and urges the Supreme Court to accept jurisdiction in any such proceeding. The Legislature further urges that the court instruct any referee before whom the taking of evidence is ordered to report back to the court in sufficient time so that the court's final order may be made effective on or before the 80th day before the primary election.

Article 3. Notices of Registration and Offices to Be Filled

6460. A statement of the number of voters in his county at the close of registration on the 19th day prior to the transmission of such statement shall be transmitted to the Secretary of State by each county clerk at the following times:

The statement shall also show the number of voters, by party affiliations, in each city, Assembly district, senatorial district, supervisorial district, and congressional district located in whole or in part within the county.

The Secretary of State, on the basis of the statements transmitted to him by the county clerks, and within 30 days after receiving such statements, shall compile a statewide list showing the number of voters, by party affiliations, in the state and in each county, city, Assembly district, senatorial district, congressional district, and supervisorial district in the state. 6555. (a) Notwithstanding any other provision of this article, a candidate may submit a petition containing signatures of registered

voters in lieu of a filing fee as follows:

(1) For the office of California State Assembly, 1,500 signatures.

(2) For the office of California State Senate and the United States House of Representatives, 3,000 signatures.

(3) For candidates running for statewide office, 10,000 signatures.

(4) For all other offices for which a filing fee is required, if the number of registered voters in the district in which he seeks nomination is 2,000 or more, a candidate may submit a petition containing four signatures of registered voters for each dollar of the filing fee, or 10 percent of the total of registered voters in the district in which he seeks nomination, whichever is less.

(5) For all other offices for which a filing fee is required, if the number of registered voters in the district in which he seeks nomination is less than 2,000, a candidate may submit a petition containing four signatures of registered voters for each dollar of the filing fee, or 20 percent of the total of registered voters in the district in which he seeks nomination, whichever is less.

(6) Notwithstanding any other provision of this section, a candidate seeking the nomination of a qualified party with whom he is registered, the registered voters of which who were eligible to vote at the last statewide election constituted less than 5 percent of all registered voters eligible to vote at the last statewide election, may submit a petition containing signatures of 10 percent of the registered voters of that party in the district in which he seeks nomination, or 150 signatures, whichever is less.

(b) Each clerk shall furnish to each candidate, upon request, and without charge therefor, forms for securing signatures. Such forms shall be made available commencing 30 days before the first day for circulating nomination papers. No other form except the form furnished by the county clerk shall be used to secure signatures. The substitution of signatures for fees shall be subject to the following provisions:

(1) Any voter registered as affiliated with the same political party as a candidate for whom he is eligible to vote may sign the petition of that candidate, and any registered voter may sign the petition of a candidate, other than a candidate seeking the nomination of his party, for whom he is eligible to vote regardless of political party.

(2) No voter shall at the time of signing a petition in lieu of a filing fee have his name signed to any other petition for any other candidate for the same office, or, in case there is more than one place to be filled in the same office, signed to more petitions for candidates for that office than there are places to be filled.

(3) A candidate may submit the appropriate number of signatures to cover all or any pro rata portion of the filing fee.

(4) Upon receipt of signatures, the clerk shall issue nomination papers provisionally, subject to checking the validity of the signatures against the affidavits of registration on file in his office. In the event that upon checking, the number of valid signatures falls below the number required, the clerk shall notify the candidate of

the fact and shall accept any necessary signatures at any time prior to the close of the period for circulating nomination papers.

(5) If the petition is circulated for an office in more than one county, the candidate shall submit the signatures to the county clerk in the county in which the petition was circulated. The county clerk shall at least two days after verifying the signatures on the petition, notify the Secretary of State of the total number of valid signatures. If the number of signatures is insufficient, the Secretary of State shall notify the candidate and the county clerks of the fact. The candidate may submit the necessary number of valid signatures at any time prior to the close of the period for circulating nomination papers.

(6) Each candidate may submit a greater number of signatures to allow for subsequent losses due to invalidity of some signatures. The clerk shall not be required to determine the validity of a greater number of signatures than that required by this section.

6556. The county clerk shall pay to the county treasurer all fees received from candidates pursuant to Section 6554. Within 10 days after the direct primary, the Secretary of State shall pay to the State Treasurer all fees received from candidates pursuant to Section 6552, which shall be deposited in the General Fund.

It is the intention of the Legislature that the funds deposited in the General Fund pursuant to this section will be used to support the State Commission on Voting Machines and Vote Tabulating Devices to the extent that appropriations are made in the Budget Act from year to year.

Article 6. List of Candidates. Notice of Election

6580. At least 68 days before the direct primary, the Secretary of State shall transmit to each county clerk a certified list of candidates who are eligible to be voted for in his county at the direct primary.

6580.5. Not less than five days before he transmits the certified list of candidates to the county clerks, as provided in Section 6580, the Secretary of State shall notify each candidate for partisan office of the names, addresses, offices, occupations, and party affiliations of all other persons who have filed for the same office.

6581. The Secretary of State shall certify and transmit the list of candidates for nomination to each office according to Assembly districts, in the order of arrangement prescribed in Chapter 2 (commencing with Section 10200) of Division 7. In the case of each county containing more than one Assembly district, the Secretary of State shall transmit separate lists for each Assembly district.

6582. The Secretary of State, at the time he transmits the list of candidates to the county clerk, shall inform the county clerk of the address of each candidate.

6583. The certified list of candidates sent to each county clerk by the Secretary of State shall show:

(a) The name of each candidate.

(b) The office for which each person is a candidate.

(c) The party each person represents, unless the office is nonpartisan.

6584. The certified list of candidates sent to each county clerk by the Secretary of State shall be in substantially the following form:

6588. The county clerk shall publish the list of candidates and notice of election once each week for two successive weeks prior to a direct primary election in not more than two newspapers of general circulation published in the county.

Article 7. Nominated Candidates

6610. The person who receives the highest number of votes at a primary election as the candidate of a political party for the nomination to an office is the nominee of that party at the ensuing general election.

6611. Any candidate for a nonpartisan office who at a primary election receives votes on a majority of all the ballots cast for candidates for that office shall be elected to such office. Where two or more candidates are to be elected to a given office and a greater number of candidates receive a majority than the number to be elected, those candidates shall be elected who secure the highest votes of those receiving such majority, and equal in number to the number to be elected.

Where a candidate has been elected to a nonpartisan office at the primary election, that office shall not appear on the ballot at the ensuing general election, notwithstanding the death, resignation or other disqualification of the candidate at a time subsequent to the primary election.

6612. If no candidate has been elected to a nonpartisan office pursuant to Section 6611 or if the number of candidates elected at the primary election is less than the total number to be elected to that office, then candidates for that office at the ensuing election shall be those candidates not elected at the primary who received the next highest number of votes cast for nomination to that office, equal in number to twice the number remaining to be elected to that office, or less, if the total number of candidates not elected is less.

6613. In the case of a tie vote, nonpartisan candidates receiving the same number of votes shall be candidates at the ensuing general election if they qualify pursuant to Section 6612 whether or not there are more candidates at the general election than prescribed by this article. In no case shall the candidates determine the tie by lot.

6614. If the number of candidates elected at a primary election to any nonpartisan office is less than the number of persons to be elected to that office, there shall be printed on the ballot, in a group, only the names of the other candidates receiving the next highest number of votes for nomination to that office as may equal twice the number of persons remaining to be elected to that office (or a smaller number if the list of candidates be exhausted). This group shall be preceded by the designation of the office and the words "vote for _____," the blank being filled by a number equal to the number of persons remaining to be elected to that office.

6614.5. The candidates for election to membership on the county central committee, equal in number to the number to be elected, receiving the highest number of votes in their supervisorial district or Assembly district, as the case may be, shall be declared elected.

6615. It is the duty of the officers charged with the canvass of the returns of any primary election in any county or city to issue:

(a) Certificates of election to each member elected to a county central committee.

(b) Certificates of nomination to candidates nominated for nonpartisan offices voted for wholly within one county.

6616. Certificates of nomination or election issued by county or municipal officers shall be issued immediately upon the completion of the canvass of the returns at the primary election.

6617. The Secretary of State shall issue certificates of nomination to candidates nominated for Representatives in Congress, Members of the State Senate and Assembly, members of the State Board of Equalization, and for all statewide offices.

6618. Not less than 62 days before the general election, the Secretary of State shall deliver to the county clerk of each county a certificate showing:

(a) The name of every person entitled to receive votes within that county at the general election who has received the nomination as a candidate for public office pursuant to the provisions of this chapter.

(b) For each nominee the name of the party which has nominated him, if any.

(c) The designation of the public office for which he has been nominated.

6619. The Secretary of State shall certify and transmit the list of candidates for each office according to Assembly districts, in the order of arrangement prescribed by Chapter 2 (commencing with Section 10200) of Division 7. In the case of each county containing more than one Assembly district, he shall transmit separate lists for each Assembly district.

6620. The certificate of the Secretary of State showing candidates nominated at a primary election shall be substantially in the following form:

To the County Clerk of _____ County:

Article 8. Withdrawal of Candidates. Vacancies

6650. No candidate whose declaration of candidacy has been filed for any primary election may withdraw as a candidate at that primary election.

6651. No candidate nominated at any primary election may withdraw as a candidate at the ensuing general election except those candidates permitted to withdraw by this article.

6651.5. Any person nominated by a party at the direct primary election for a partisan office may be appointed to fill a vacancy on the general election ballot for any other partisan office, as provided in Section 6655, and in such case his appointment shall constitute a vacancy on the general election ballot for the office for which he was nominated. The vacancy thus arising shall be filled in the manner prescribed in Section 6655.

6652. A person who received the nomination to an office as a write-in candidate at a primary election, may withdraw his or her name as a candidate at the ensuing general election by signing a written statement at least 74 days before the election. The written statement must be filed in the office where the person would have had to file a declaration of candidacy if he or she had been a candidate for nomination. When this section has been complied with, the name of the write-in candidate shall not be printed on the ballot as a candidate for that office.

6653. No vacancy on the ballot for a general election shall be filled except by reason of the death of a candidate occurring at least

59 days before the date of the next ensuing general election.

6654. Whenever a candidate for nomination for a partisan office at a primary election dies on or before the day of the election, and a sufficient number of ballots are marked as being voted for him to entitle him to nomination if he had lived until after the election, a vacancy exists on the general election ballot which shall be filled in the manner provided in Section 6655 for filling a vacancy caused by the death of a candidate.

6655. Vacancies permitted to be filled may, in the case of legislative offices, be filled by the county central committee or committees of the party in which the vacancy occurs, in the county or counties comprising the legislative district of the deceased candidate. In the case of all other district or state offices requiring party nomination, except congressional offices, the vacancies may be filled by the state central committee of the party.

Vacancies permitted to be filled may, in the case of congressional offices, be filled by those members of the state central committee of the party, who reside in the congressional district in which the vacancy occurs, and who were registered to vote in that district at the time the vacancy occurred, acting together with the members of the county central committee or committees of the party residing in that congressional district.

References in this section to state and county central committees shall be construed to refer to the newly elected or selected state and county central committees, unless the organizational meetings of such committees are held in January following the general election.

6656. If the vacancy occurs among candidates chosen at the direct primary to go on the ballot for the succeeding general election for a nonpartisan office, the name of that candidate receiving at the primary election the next highest number of votes shall go upon the ballot to fill the vacancy.

6657. A vacancy authorized to be filled because of the death of a candidate shall be filled, and the name of the person named to fill the vacancy shall be certified to the officer charged with the duty of printing the ballots, 59 days before the day of election.

6658. Whenever a candidate has declared a candidacy for a primary election, the candidate's name shall be printed upon the ballot for the primary election, unless the candidate has died and that fact has been ascertained by the officer charged with the duty of printing the ballot, at least 59 days before the day of the election.

6659. Whenever a candidate has been nominated at any primary election after having a declaration of candidacy filed, the name of the candidate shall be printed upon the ballot for the ensuing general election unless the candidate has died and that fact has been ascertained by the officer charged with the duty of printing the ballots, at least 59 days before the day of election.

6660. Whenever, upon the death of any candidate, the vacancy created is filled by a party committee, a certificate to that effect shall be filed with the officer with whom a declaration of candidacy for

such office may be filed, and, upon payment of the filing fee applicable to the office, shall be accepted and acted upon by that officer as in the case of an original declaration certificate.

6661. No person whose name has been written in upon a ballot for an office at the direct primary may have his name placed upon the ballot as a candidate for that office for the ensuing general election unless one of the following statements is true:

(a) At that direct primary he received for that office votes equal in number to 1 percent of all votes cast for the office at the last preceding general election at which the office was filled.

(b) He is an independent nominee pursuant to Chapter 6 (commencing at Section 6800) of this division.

(c) He has been designated by a party central committee to fill a vacancy on the ballot for the general election.

SEC. 61.3. Section 6491 is added to the Elections Code, to read:

6491. The declaration of candidacy by a candidate shall be substantially as follows:

WARNING: Every person acting on behalf of a candidate is guilty of a misdemeanor who negligently fails to file at the proper time and in the proper place any nomination paper in his possession which is entitled to be filed under the provisions of the Elections Code. (Elections Code Section 29302)

SEC. 61.5. Section 6653.3 is added to the Elections Code, to read:

6653.3. Notwithstanding Section 6653 and 6659, any candidate who has been nominated at any primary election for superior court judge in which election there were at least two other candidates, and who has, after the date prescribed for the filing of declaration of candidacy and declaration of acceptance of nomination pursuant to Article 4 (commencing with Section 6489) of this chapter, been appointed to any federal or state office may request the county clerk to have his or her name removed from the ballot of the next ensuing general election. If such request is received by the county clerk at least 59 days before the next ensuing general election, the county clerk shall remove such candidate's name from the ballot.

If a candidate's name is removed from the ballot pursuant to this section, the two remaining candidates who received the highest number of votes cast on all the ballots of all the voters participating in the primary election for nomination for that office of superior court judge, shall be the candidates for that office at the ensuing general election, and their names as candidates for that office shall be placed on the official ballot at the ensuing election.

SEC. 62. Chapter 6 (commencing with Section 6800) of Division 5 of the Elections Code is repealed.

SEC. 63. Chapter 6 (commencing with Section 6800) is added to Division 5 of the Elections Code, to read:

CHAPTER 6. INDEPENDENT NOMINATIONS

Article 1. General Provisions

6800. A candidate for any public office, including that of presidential elector, for which no nonpartisan candidate has been nominated or elected at any primary election, may be nominated subsequent to or in lieu of a primary election pursuant to this chapter.

6801. A candidate for whom a nomination paper has been filed as a partisan candidate at a primary election, and who is defeated for his party nomination at the primary election, is ineligible for nomination as an independent candidate.

6802. For the purposes of this chapter, the provisions of Chapter 5 (commencing at Section 6400) of this division, so far as consistent with this chapter, shall apply to all offices for which nominations are made at the presidential primary and direct primary elections, as well as to elections for any other office to which Chapter 5 (commencing at Section 6400) of this division would not ordinarily apply.

6803. Whenever a group of candidates for presidential electors, equal in number to the number of presidential electors to which this state is entitled, files a nomination paper with the Secretary of State pursuant to this chapter, the nomination paper may contain the name of the candidate for President of the United States and the name of the candidate for Vice President of the United States for whom all of those candidates for presidential electors pledge themselves to vote.

6804. When a group of candidates for presidential electors designates the presidential and vice presidential candidates for whom all of the group pledge themselves to vote, the names of the presidential candidate and vice presidential candidate designated by that group shall be printed on the ballot pursuant to Chapter 2 (commencing with Section 10200) of Division 7.

Article 2. Nomination Papers

6830. Each candidate or group of candidates shall file a nomination paper which shall contain:

(a) The name and residence address of each candidate, including the name of the county in which he resides.

(b) A designation of the office for which the candidate or group seeks nomination.

(c) A statement that the candidate is not, and was not at any time during the one year preceding the immediately preceding primary election at which a candidate was nominated for the office mentioned in the nomination paper, registered as affiliated with a political party qualified under the provisions of Section 6430. The statement required by this subdivision shall be omitted when no

primary election was held to nominate candidates for the office to which the independent nomination paper is directed.

6831. Nomination papers for a statewide office for which the candidate is to be nominated shall be signed by voters of the state equal to not less in number than 1 percent of the entire number of registered voters of the state at the time of the close of registration prior to the preceding general election. Nomination papers for an office, other than a statewide office, shall be signed by the voters of the area for which the candidate is to be nominated, not less in number than 3 percent of the entire number of registered voters in the area at the time of the close of registration prior to the preceding general election. Nomination papers for Representative in Congress, State Senator or Assemblyman, to be voted for at a special election to fill a vacancy, shall be signed by voters in the district not less in number than 500 or 1 percent of the entire vote cast in the area at the preceding general election, whichever is less, nor more than 1,000.

6831.1. (a) Within 30 days from the date of receiving the nomination paper if, from the examination of such pursuant to Section 6831, more than 500 signatures have been signed on the nomination paper petition, the elections official may use a random sampling technique for verification of signatures. The random sample of signatures to be verified shall be drawn in such a manner that every signature filed with the elections official shall be given an equal opportunity to be included in the sample. Such a random sampling shall include an examination of at least 500 or 5 percent of the signatures, whichever is greater.

(b) If the statistical sampling shows that the number of valid signatures is within 90 to 110 percent of the number of signatures of qualified voters needed to declare the nomination paper sufficient, the elections official shall examine and verify each signature filed.

(c) In determining from the records of registration, what number of valid signatures are signed on the nomination paper, the elections official may use the duplicate file of affidavits maintained, or may check the signatures against facsimiles of voters' signatures, provided that the method of preparing and displaying the facsimiles is permitted by law.

(d) The elections official shall attach to the nomination paper, a certificate showing the result of this examination, and shall notify the candidate of either the sufficiency or insufficiency of the nomination paper.

(e) If the nomination paper is found insufficient, no action shall be taken on the nomination paper. However, the failure to secure sufficient signatures, shall not preclude the filing later of an entirely new nomination paper to the same effect.

(f) If the nomination paper is found to be sufficient, the elections official shall certify the results of the examination.

6832. When a nomination paper or sections of a nomination paper have been received which contain the number of signatures

required in Section 6831, the officer with whom those papers are required to be filed shall not receive or file additional sections of the nomination paper for the candidate named in it.

6833. Nomination papers required to be filed with the Secretary of State or with the county clerk shall be filed not more than 129 nor less than 64 days before the day of the election, but shall be prepared, circulated, signed, verified and left with the county clerk for examination, or for examination and filing, no earlier than 134 days before the election and no later than 5 p.m. 74 days before the election. If the total number of signatures submitted to a county clerk for an office entirely within that county does not equal the number of signatures needed to qualify the candidate, the county clerk shall declare the petition void and is not required to verify the signatures. If the district falls within two or more counties, the county clerk shall within two working days report in writing to the Secretary of State the total number of signatures filed. If the Secretary of State finds that the total number of signatures filed in the district or state is less than the minimum number required to qualify the candidate he shall within one working day notify in writing the counties involved that they need not verify the signatures.

6834. Each signer of a nomination paper shall sign but one paper for the same office, except that in case two or more persons are to be elected to the same office at the same election, an elector may sign the nomination papers of as many persons as there are persons to be elected to the office, and such act on the part of an elector shall not be deemed in conflict with the signer's statement prescribed in this chapter.

The signer shall declare his intention to support the candidate for nomination, and shall add his place of residence, giving his street and number, if any.

18059. No mobilehome, recreational vehicle, or commercial coach which meets the standards prescribed by this chapter and the regulations adopted pursuant thereto shall be required to comply with any local ordinances or regulations prescribing requirements on the same subject matter.

SEC. 9. Section 18063 of the Health and Safety Code is amended to read:

SEC. 10. Section 18080 of the Health and Safety Code is amended to read:

18080. (a) Any person who knowingly violates any of the provisions of this part or any rules or regulations issued pursuant to this part, except for a violation of any federal mobilehome construction and safety standard for which a penalty is provided in Section 18080.5, is guilty of a misdemeanor, punishable by a fine not exceeding two hundred dollars ($200), or by imprisonment not exceeding 30 days, or by both such fine and imprisonment.

It is recognized that the practice of denying employment opportunity and discriminating in the terms of employment for such reasons foments domestic strife and unrest, deprives the state of the fullest utilization of its capacities for development and advance, and substantially and adversely affects the interest of employees, employers, and the public in general.

This part shall be deemed an exercise of the police power of the state for the protection of the public welfare, prosperity, health, and peace of the people of the State of California.

SEC. 2. Section 1412 of the Labor Code is amended to read:

color, national origin, ancestry, physical handicap, medical condition, marital status, or sex, and to foster through community effort or otherwise good will, cooperation, and conciliation among the groups and elements of the population of the state and to make recommendations to the commission for the development of policies and procedures in general. Such advisory agencies and conciliation councils shall be composed of representative citizens, serving without pay.

(i) To issue such publications and such results of investigations and research as in its judgment will tend to promote good will and minimize or eliminate discrimination because of race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex.

(j) To investigate, approve, and certify equal employment opportunity programs proposed by a contractor to be engaged in pursuant to subdivision (b) of Section 1431, and to fix and collect such fees as are necessary for the cost of the investigation, approval or certification. The commission may also provide assistance to communities and persons therein in resolving disputes, disagreements, or difficulties relating to discriminatory practices based on race, religious creed, color, national origin, marital status, or ancestry which impair the rights of persons in such communities under the Constitution or laws of the United States or of this state. The services of the commission may be made available in cases of such disputes, disagreements, or difficulties only when, in its judgment, peaceful relations among the citizens of the community involved are threatened thereby. The commission's services are to be made available only upon the request of an appropriate state or local public body, or upon the request of any person directly affected by any such dispute, disagreement, or difficulty.

The assistance of the commission pursuant to this section shall be limited to endeavors at conference, conciliation, and persuasion.

SEC. 5. Section 1420 of the Labor Code is amended to read:

(3) Nothing in this part relating to discrimination on account of marital status shall either (i) affect the right of an employer to reasonably regulate, for reasons of supervision, safety, security, or morale, the working of spouses in the same department, division, or facility, consistent with the rules and regulations adopted by the commission, or (ii) prohibit bona fide health plans from providing additional or greater benefits to employees with dependents than to those employees without or with fewer dependents.

(b) For a labor organization, because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of any person, to exclude, expel or restrict from its membership such person, or to provide only second-class or segregated membership or to discriminate against any person because of the race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex of such person in the election of officers of the labor organization or in the selection of the labor organization's staff or to discriminate in any way against any of its members or against any employer or against any person employed by an employer.

application form, which expresses, directly or indirectly, any limitation, specification, or discrimination as to race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex, or any intent to make any such limitation, specification or discrimination. Nothing in this subdivision shall prohibit any employer from making, in connection with prospective employment, an inquiry as to, or a request for information regarding, the physical fitness or medical condition of applicants if that inquiry or request for information is directly related and pertinent to the position the applicant is applying for.

(e) For any employer, labor organization or employment agency to discharge, expel or otherwise discriminate against any person because he has opposed any practices forbidden under this act or because he has filed a complaint, testified or assisted in any proceeding under this part.

(f) For any person to aid, abet, incite, compel, or coerce the doing of any of the acts forbidden under this part, or to attempt to do so.

SEC. 6. Section 1432 of the Labor Code is amended to read:

1432. The provisions of this part shall be construed liberally for the accomplishment of the purposes thereof. Nothing contained in this part shall be deemed to repeal any of the provisions of the Civil Rights Law or of any other law of this state relating to discrimination because of race, religious creed, color, national origin, ancestry, physical handicap, medical condition, marital status, or sex.

Nothing contained in this part shall be deemed to repeal or affect the provisions of any ordinance relating to such discrimination in effect in any city, city and county, or county at the time this part becomes effective, insofar as proceedings theretofore commenced under such ordinance or ordinances remain pending and undetermined. CHAPTER 1196

An act to add and repeal Part 4 (commencing with Section 1185) to Division 1 of the Health and Safety Code, relating to health, and making an appropriation therefor.

[Approved by Governor September 21, 1976 Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Part 4 (commencing with Section 1185) is added to Division 1 of the Health and Safety Code, to read:

PART 4. RURAL HEALTH SERVICES DEVELOPMENT

CHAPTER 1. LEGISLATIVE INTENT AND GENERAL PROVISIONS

1185. The Legislature makes the following findings and declarations:

(a) There is a maldistribution of health services in California. Most rural areas of the state do not have adequate health services because there are insufficient health personnel and facilities and inadequate transportation to such services.

(b) The lack of health services in rural areas has a negative impact on the health and safety of the public.

(c) Existing public programs to meet the problem of inadequate health services in rural areas are not sufficient in scope nor properly coordinated to significantly improve the availability of health services.

(d) It is unlikely that the situation will improve without substantial state and local action.

It is, therefore, the intent of the Legislature in enacting this part to establish a program of rural health services in the State Department of Health. The purpose of the program is to improve the coordination of existing rural health services and to increase the amount and availability of the services.

The Legislature intends that the program consist of (1) California Health Services Corps in which health personnel are assigned to health care delivery organizations, (2) health services development projects, in which new health care delivery organizations are established, and (3) an organizational unit within the Department of Health to coordinate rural health programs.

1185.1. The State Department of Health shall implement a program to remedy deficiencies in health services in rural areas. The state department shall have responsibility for the following elements:

(a) California Health Services Corps.

(b) California Rural Health Services Development Projects.

(c) Coordination of Rural Health Programs.

1185.2. The director shall administer this part and shall adopt such rules, regulations, and standards as are necessary to implement this part.

1185.3. No services provided under this part shall substitute for current services and obligations of a county including those required by state law.

1185.4. Funds expended pursuant to this part shall be supplemental to those made available by the federal government for the National Health Services Corps and shall not duplicate, nor replace, but may supplement and complement any commitments made by the federal government to provide health personnel as needed.

All canceled affidavits of registration shall be preserved by the county clerk as required in Section 421.

CHAPTER 1201

An act to amend Section 155.13 of the Revenue and Taxation Code, relating to property taxation.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 155.13 of the Revenue and Taxation Code is amended to read:

155.13. Notwithstanding any provision of law to the contrary, the board of supervisors may, in any year, by ordinance, provide that every person who at 12:01 a.m. on the immediately preceding March 1 was the owner of, or had in his possession, or under his control, any taxable property, or who acquired such property after such date and

is liable for the taxes thereon for the fiscal year commencing the immediately following July 1, which property was thereafter damaged or destroyed, without his fault, by a misfortune or calamity, may, within 60 days of such misfortune or calamity, apply for reassessment of such property by delivering to the assessor a written application showing the condition and value, if any, of the property immediately before and after the damage or destruction, which damage or destruction must be shown therein to be in excess of five thousand dollars ($5,000). The application shall be executed under penalty of perjury, or if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall verify the amounts claimed on the application in the before and after condition. The assessor shall then compute a percentage relationship of loss and reduce the current assessed value by that percentage. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice. If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged or destroyed value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage or destruction.

If the amount of damage or destruction, as verified by the assessor is not at least five thousand dollars ($5,000), no adjustment shall be made to said roll and no taxes shall be canceled or refunded. The reassessments resulting from those reductions, as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessments shall not be subject to review except by a court of competent jurisdiction.

If no such application is made and the assessor determines that a property has suffered damage or destruction caused by misfortune or calamity, which may qualify the property owner for relief under this section, the assessor shall provide the last known owner of the property with an application for reassessment. The property owner shall file the completed application within 30 days of notification by the assessor. Upon receipt of properly completed, timely filed application, the assessor will proceed to reassess property in the same manner as required above.

(a) With respect to property on the secured roll a prorated portion of the tax due on the property as originally assessed at the rate established for property on the secured roll for the current fiscal year, such proration to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for the balance of the fiscal year.

(b) With respect to property on the unsecured roll, he shall be liable for a prorated portion of the tax computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax or by order of the board of supervisors without the necessity of a claim being filed pursuant to Chapter 5.

The assessment of the property, in its damaged condition, as determined by this section, shall be reviewed at the lien date next following the date of the misfortune or calamity and shall be assessed in the same manner as prescribed by law for any other assessable property.

This section applies to all counties, whether operating under a charter or under the general laws of this state.

SECTION 1. Section 2881.1 of the Business and Professions Code is amended to read:

2881.1. The board shall deny the application for accreditation made by, and shall revoke the accreditation given to, any school of vocational nursing which does not give to student applicants credit, in the field of nursing, for previous education and the opportunity to obtain credit for other acquired knowledge by the use of challenge examinations or other methods of evaluation.

The board shall prescribe, by regulation, the education for which credit is to be given and the amount of credit which is to be given for each type of education, including the amount of credit to be given to a certified nurse assistant and to a nurse assistant who has provided direct nursing services in health facilities.

SEC. 2. Section 1439.1 is added to the Health and Safety Code, to read:

1439.1. (a) The Legislature finds that the quality of patient care in long-term health facilities is dependent upon the competence of the personnel who staff its facilities. The Legislature further finds that direct patient care in long-term health care facilities is currently rendered largely by persons without adequate training. To assure the availability of trained personnel in long-term health care facilities, the Legislature intends that all such facilities in this state participate in approved training programs established under this chapter.

(b) For the purpose of this chapter:

(b) A precertification training program consisting of at least 50 classroom hours of training on basic nursing skills, patient safety and rights, and the social and psychological problems of patients, and at least 100 hours supervised and on-the-job training clinical practice. The 100 hours may consist of normal employment as nurse assistants under the supervision of either the director of nurse training or a licensed nurse.

(c) Continuing in-service training to assure continuing competency in existing and new nursing skills.

SEC. 4. Section 1493.3 is added to the Health and Safety Code, to read:

1439.3. A nurse assistant employed by a long-term health care facility shall be certified by the operator of the approved training program which the nurse assistant has completed if the nurse aide:

(a) Completes the precertification training program specified in

subdivision (b) of Section 1439.2 and passes an examination demonstrating competency approved by the state department; or

(b) Has been employed as a nurse assistant by a long-term health care facility for a period of two years or more, has completed at least six hours of training concerning social and psychological problems of patients, and passes an examination demonstrating competency prior to July 1, 1978, approved by the state department; or

(c) Has completed a preemployment training program approved by the state department, and passes an examination demonstrating competency approved by the state department.

SEC. 5. Section 1439.4 is added to the Health and Safety Code, to read:

(b) Standards for approved training programs.

(c) Standards for certification examinations.

The state department shall use such standards in approving programs and examinations.

SEC. 7. Section 1439.6 is added to the Health and Safety Code, to read:

1439.6. Approved training programs shall be conducted during the normal working hours of the nurse assistant unless the nurse assistant receives at least the normal hourly wage for any additional time spent in the training program.

On or after July 1, 1978, no nurse assistant may be employed by a long-term health care facility unless he has been certified pursuant to this part or is enrolled in an approved precertification training program which requires completion not more than six months from the date of employment.

SEC. 8. Section 1439.7 is added to the Health and Safety Code, to read:

1439.7. The state department shall, through the Medi-Cal program, provide rate adjustments to long-term health care facilities for the portion of additional costs attributable to the requirements of Sections 1439.2, 1439.3, and 1439.4 with respect to Medi-Cal patients. The portion of such additional costs attributable to Medi-Cal shall be the same as the ratio of Medi-Cal patients to total patients in the facility. Such rate adjustments shall also include provisions for an increase in wages for nurse assistants who receive certificates pursuant to Section 1439.3. The rate adjustments shall commence no later than July 1, 1977.

CHAPTER 1203

An act to amend Section 14186 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 22, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 14186 of the Education Code is amended to read:

14186. If on the date of death the member has met the following conditions:

(a) Death occurred after June 30, 1972, and

(b) Has one or more years of credited service, and

(c) If there has been a break in service of more than one year, one-half year of credited service has been performed after the end of last break, and

(d) The provisions of Sections 14180 and 14182 have been met, or

(e) Lacking the above, was a disabilitant receiving a disability allowance which began to accrue after June 30, 1972; a family allowance shall be paid subject to the provisions of this article and Section 14284 as follows:

(1) To the surviving spouse, having care of children there shall be paid an amount, in monthly installments, equal to 40 percent of the deceased's highest average monthly salary earned during any 12

consecutive months within the 36 months immediately preceding death, plus 10 percent of such salary for each child, up to a maximum of 90 percent of such salary, or

(2) If there is no surviving spouse or the surviving spouse subsequently dies and there are children who qualify under Section 13830, there shall be paid to the trustee of the estate of surviving children under 18 as designated by the member, or the guardian of such children under age 18 if no trustee is designated, or to the child if over age 18, an amount payable in monthly installments equal to 10 percent of the deceased's highest earned annual salary during any 12 consecutive months within the 36 months immediately preceding death, up to a maximum of 50 percent of such salary. If there are more than five such children, they shall share equally in the maximum of 50 percent, or

(3) If there is no allowance being paid under paragraphs (1) or (2) the unremarried spouse age 60 or over shall receive a monthly payment equal to the amount which would have been payable to such spouse based on projected service and projected earned salary, had the member continued service to age 60 and at that time elected option number 3. The allowance payable under this paragraph shall be increased by application of the benefit improvement factor for time which elapses between the date the member would have reached age 60 and the date the allowances commence to accrue under this paragraph. For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the allowance shall not begin to accrue until the spouse attains age 60.

(4) If there is no surviving spouse or children entitled to allowances under paragraph (2), the dependent parent, age 60, or upon attainment of that age, shall receive an allowance based on projected service and projected earned salary equal to the amount which would have been paid if the member had retired at age 60 and elected option number three. If there are two parents who qualify under this paragraph the total benefit will be computed on the assumption that the youngest parent is the beneficiary, and the total shall be divided equally for so long as there are two such qualifying parents. Otherwise, the total amount shall be payable to the one who qualifies.

Allowances payable under this section are in lieu of the death benefit payable under subsection (1) of subdivision (b) of Section 14180 irrespective of the beneficiary designated to receive that benefit.

SEC. 1.5. Section 14186 of the Education Code is amended to read:

14186. If on the date of death the member had met the following conditions:

(a) Death occurred after June 30, 1972, and

(b) Had one or more years of credited service, and

(c) If there had been a break in service of more than one year, one-half year of credited service had been performed after the end of last break, and

(d) The provisions of Sections 14180 and 14182 have been met, or

(e) Lacking the above, was a disabilitant receiving a disability allowance which began to accrue after June 30, 1972; a family allowance based upon projected salary shall be paid subject to the provisions of this article and Section 14284 as follows:

(1) To the surviving spouse, having financial responsibility for at least one dependent child who qualifies under Section 13830 there shall be paid an amount, in monthly installments, equal to 40 percent of the deceased's final compensation, plus 10 percent of such final compensation for each child, up to a maximum of 90 percent of such final compensation. If there are children who are not in the care of the surviving spouse, the amount of the allowance in excess of 40 percent of the final compensation shall be divided equally among all children and is payable to the trustee of the estate of such children under age 18 or their guardian if no trustee is designated or to the children age 18 or over, or

(2) If there is no surviving spouse or the surviving spouse subsequently dies or remarries and there are children who qualify under Section 13830, there shall be paid to the trustee of the estate of surviving children under 18 as designated by the member, or the guardian of such children under age 18 if no trustee is designated, or to the child if over age 18, an amount payable in monthly installments equal to 10 percent of the deceased's final compensation, up to a maximum of 50 percent of such final compensation. If there are more than five such children, they shall share equally in the maximum of 50 percent, or

(3) If there is no allowance being paid under paragraphs (1) or (2) the unremarried spouse age 60 or over shall receive a monthly payment equal to the amount which would have been payable to such spouse based on projected service and projected salary, had the member continued service to age 60 and at that time elected option number three. The allowance payable under this paragraph shall be increased by application of the benefit improvement factor for time which elapses between the date the member would have reached age 60 and the date the allowances commence to accrue under this paragraph. For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the allowance shall not begin to accrue until the spouse attains age 60.

(4) If there is no surviving spouse or children entitled to allowances under paragraphs (1), (2), or (3) at the time of the member's death, the dependent parent, age 60, or upon attainment of that age, shall receive an allowance based on projected service and projected salary equal to the amount which would have been paid if the member had retired at age 60 and elected option number

three. If there are two parents who qualify under this paragraph the total benefit will be computed on the assumption that the youngest parent is the beneficiary, and the total shall be divided equally for so long as there are two such qualifying parents. Otherwise, the total amount shall be payable to the one who qualifies.

The benefits payable under paragraphs (1) and (2) because of the death of a disabilitant shall be based upon projected salary.

Allowances payable under this section are in lieu of the death benefit payable under subsection (1) of subdivision (b) of Section 14180 irrespective of the beneficiary designated to receive that benefit, except that if there are no children who qualify for an allowance under Section 13830, a spouse or the dependent parent or parents may elect, prior to the receipt of the first payment under paragraph (3) or (4), to receive the accumulated contributions in a lump sum subject to a reduction for any payments made from the account for any prior qualified persons.

SEC. 2. It is the intent of the Legislature, if this bill and Assembly Bill No. 3513 are both chaptered and become effective January 1, 1977, both bills amend Section 14186 of the Education Code, and this bill is chaptered after Assembly Bill No. 3513, that the amendments to Section 14186 proposed by both bills be given effect and incorporated in Section 14186 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Assembly Bill No. 3513 are both chaptered and become effective January 1, 1977, both amend Section 14186, and this bill is chaptered after Assembly Bill No. 3513, in which case Section 1 of this act shall not become operative.

CHAPTER 1204

An act to amend Sections 29140 and 29142 of, to add Sections 28769.5 and 28842 to, and to repeal Sections 29140.5, 29140.6, and 29144 of, the Public Utilities Code, relating to the San Francisco Bay Area Rapid Transit District.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to emphasize the financial crisis that faces the San Francisco Bay Area Rapid Transit District and that all funds resulting from extension of the one-half of 1 percent transactions and use tax to June 30, 1978, be used in a fiscally responsible manner, and that this act requires continuation of the existing levels of service as of May 1, 1976, and that such funds shall not be used for the extension of district services, unless the ratio of the amount of the fare revenues resulting from the extension of

services to the cost of providing such services is at least equal to such ratio of present services within three months of commencing such services. Extension of the existing level of service may commence only on or after July 1, 1977, upon a finding by the district board of directors that revenues provided on this act are sufficient to defray the cost of such extension, and in addition, upon a finding by the district general manager, after seeking advice from the Public Utilities Commission, that the extension of service will not erode the operational reliability of the district's transit system. Thirty days prior to the extension, both the board and the general manager shall submit a report to the Legislature containing an analysis which includes sufficient detail to support their respective findings.

It is further the intent of the Legislature that the district critically examine existing services and make a diligent effort to eliminate marginally cost-effective services.

It is further the intent of the Legislature that the district fulfill its primary responsibility and mandate of providing safe, on-time, reliable service and that the district place a high priority on those actions, including, but not limited to, compliance with general orders of the Public Utilities Commission relating to system safety and reliability, necessary to improve its records to date in this regard.

It is further the intent of the Legislature that annual increases in the controllable operating costs, excluding those increases due to extensions of services that do not exceed the fare revenues from the extensions of services, of the district shall not exceed the concurrent increases in the cost of living as reflected in the Consumer Price Index, as published by the United States Bureau of Labor Statistics.

SEC. 2. Section 28769.5 is added to the Public Utilities Code, to read:

28769.5. The board shall operate an automated management information system to enable it to submit a report monthly to the Metropolitan Transportation Commission and the office of the Legislative Analyst on the district's expenditures as compared to the projected expenditures in its budget, and the board shall submit such report to the commission and that office.

SEC. 3. Section 28842 is added to the Public Utilities Code, to read:

28842. Commencing July 1, 1977, and each quarter thereafter, the Legislative Analyst shall submit a report to the Legislature on the expenditures of the district as compared to the projected expenditures in its budget, together with his comments and recommendations on any variance between the actual and projected expenditures.

SEC. 4. Section 29140 of the Public Utilities Code is amended to read:

29140. The board shall, by ordinance, impose transactions and use taxes in conformity with Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code until June 30, 1978, for the purposes specified in Section 29142.

SEC. 5. Section 29140.5 of the Public Utilities Code is repealed.

SEC. 6. Section 29140.6 of the Public Utilities Code is repealed.

SEC. 7. Section 29142 of the Public Utilities Code is amended to read:

29142. (a) Revenues derived from the transactions and use taxes, not to exceed an aggregate principal amount of one hundred fifty million dollars ($150,000,000), plus the costs payable by the district to the State Board of Equalization for preparatory costs and for its services in connection with such taxes and plus the costs of issuance of, and interest payments on, bonds or notes secured by such revenues, shall be used for the planning, acquiring, and constructing of the district's approximately 75-mile system, including the San Francisco-Oakland Rapid Transit Tube and any and all works, structures, property, rolling stock, or other facilities of any kind which the district is authorized to acquire, construct, or complete.

(b) Revenues in excess of the amount specified in subdivision (a) shall be used for operational purposes, the liquidation of operational deficits, and the payment of principal and interest on negotiable bonds issued pursuant to subdivision (c).

(c) To finance the operation of its rapid transit system during the 1974–75 fiscal year, the district may issue negotiable bonds in an amount not to exceed sixteen million dollars ($16,000,000) in anticipation of the revenues specified in subdivision (b). However, upon a determination by the board that the issuance of sixteen million dollars ($16,000,000) in negotiable bonds, together with other funds available to the district, provide insufficient funds for the operation of the district during the 1975–76 fiscal year, the district may issue additional negotiable bonds in an amount not exceeding eight million dollars ($8,000,000). The district may also issue additional negotiable bonds in an amount not exceeding one million three hundred thousand dollars ($1,300,000) if the board determines that otherwise insufficient funds are available to the district for its operation during the 1976–77 fiscal year. The district shall pay the principal and interest on such bonds only from such revenues. Interest on such bonds may be funded, and paid from the proceeds of such bonds, for period of not to exceed two years from the date of such bonds. The board, by resolution, shall determine the form, denomination, maturities, interest rates, and all other terms and conditions relative to the issuance of such negotiable bonds.

SEC. 8. Section 29144 of the Public Utilities Code is repealed.

SEC. 9. (a) The Metropolitan Transportation Commission, in coordination with the transit operators in the San Francisco Bay area, shall develop and submit a report to the Legislature, not later than January 10, 1977, on the near- and long-term financing requirements of public transit within the area, including recommendations on resource allocation criteria and procedures and on new sources of revenues. The Legislative Analyst shall update his report entitled Financing Public Transportation in the San Francisco Bay Area, dated November 1975, and submit the updated version to the

Legislature by January 10, 1977.

(b) In addition, the Legislative Analyst, in cooperation with the Metropolitan Transportation Commission and the Public Utilities Commission, shall determine the amount of funds available for system modifications and improvements, the total estimated cost, and the time required to achieve the level of reliability and safety necessary for the operations of the San Francisco Bay Area Rapid Transit District, as determined by the Public Utilities Commission. The Legislative Analyst shall submit his findings and recommendations to the Legislature on or before June 30, 1977.

SEC. 10. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section, nor shall there be an appropriation made by this act, because self-financing authority is provided in this act to cover such costs.

CHAPTER 1205

An act to add Section 42007 to the Vehicle Code, relating to courts.

[Approved by the Governor September 22, 1976 Filed with Secretary of State September 22, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 42007 is added to the Vehicle Code, to read:

42007. In addition to the fees authorized or required by other provisions of law, and upon the order of a majority or sole judge of a municipal or justice court, the clerk of the court shall collect a uniform fee from every person ordered to attend a school pursuant to Section 42005 or attending any other court-supervised program of driving instruction, which shall be commensurate with the cost incurred by the court in carrying out the provisions of Section 42005 or in supervising any such other program, but which may not exceed five dollars ($5) per person. Such fee may not include the cost, or any part thereof, of instruction offered at such a school or in such other program.

Revenues derived from such fee shall be deposited by the clerk in accordance with Section 68084 of the Government Code. The county board of supervisors may by resolution authorize disbursement of such funds as the public interest requires.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

No new motor vehicle, new motor vehicle engine, or motor vehicle with a new motor vehicle engine required pursuant to this part to meet the emission standards established pursuant to Section 43101 shall be sold to the ultimate purchaser, offered or delivered for sale to the ultimate purchaser, or registered in this state if the manufacturer has violated emission standards or test procedures and has failed to take corrective action, which may include recall of vehicles or engines, specified by the state board in accordance with regulations of the state board. If a manufacturer contests the necessity for, or the scope of, a recall of vehicles or engines ordered pursuant to this section and so advises the state board, the state board shall not require such recall unless it first affords the manufacturer the opportunity, at a public hearing, to present evidence in support of the manufacturer's objections. If a vehicle or engine is recalled pursuant to this section, the manufacturer shall make all necessary corrections specified by the state board without charge to the registered owner of the vehicle or vehicle with such engine or, at the manufacturer's election, reimburse the registered owner for the cost of making such necessary corrections.

The procedures for determining, and the facts constituting, compliance or failure of compliance shall be established by the state board.

SEC. 12. Section 43106 of the Health and Safety Code is amended to read:

43106. Each new motor vehicle or engine required pursuant to this part to meet the emission standards established pursuant to Section 43101 shall be, in all material respects, substantially the same in construction as the test motor vehicle or engine, as the case may be, which has been certified by the state board in accordance with this article. However, changes with respect to new motor vehicles or engines previously certified may be made if such changes do not increase emissions above the standards under which those motor vehicles or engines, as the case may be, were certified and are made in accordance with procedures specified by the state board.

SEC. 13. Article 1.5 (commencing with Section 43150) is added to Chapter 2 of Part 5 of Division 26 of the Health and Safety Code, to read:

Article 1.5. Prohibited Transactions

43150. The Legislature finds and declares that the people of this state, in order to achieve the purposes of this part, have a special interest in assuring that only those new motor vehicles and new motor vehicle engines which meet this state's stringent emission standards and test procedures, and which have been certified pursuant to this chapter, are used or registered in this state. The Legislature also finds and declares that this special interest must be protected in a manner which will not unduly or unreasonably infringe upon the right of the people of this state and other states to travel and do business interstate.

43151. No person who is a resident of, or doing business in, this state shall import, deliver, purchase, rent, lease, acquire, or receive a new motor vehicle, new motor vehicle engine, or motor vehicle with a new motor vehicle engine for use or registration in this state with the intent of avoiding compliance with the emission standards, test procedures, or certification requirements applicable to new motor vehicles or new motor vehicle engines under this chapter. No person shall attempt or assist in any such action.

43152. No person who is engaged in this state in the business of selling to an ultimate purchaser, or renting or leasing new motor vehicles or new motor vehicle engines, including, but not limited to, manufacturers, distributors, and dealers, shall intentionally or negligently import, deliver, purchase, receive, or otherwise acquire a new motor vehicle, new motor vehicle engine, or vehicle with a new motor vehicle engine which is intended for use primarily in this state, for sale or resale to an ultimate purchaser who is a resident of or doing business in this state, or for registration, leasing or rental in this state, which has not been certified pursuant to this chapter. No person shall attempt or assist in any such act.

43153. No person who is engaged in this state in the business of selling to an ultimate purchaser or renting or leasing new motor vehicles or new motor vehicle engines, including, but not limited to, manufacturers, distributors, and dealers, shall intentionally or negligently sell, or offer to sell, to an ultimate purchaser who is a resident of or doing business in this state, or lease, offer to lease, rent, or offer to rent, in this state any new motor vehicle, new motor vehicle engine, or vehicle with a new motor vehicle engine, which is intended primarily for use or for registration in this state, and which has not been certified pursuant to this chapter. No person shall attempt or assist in any such action.

43154. (a) Any person who violates any provision of this article shall be liable for a civil penalty not to exceed five thousand dollars ($5,000) per vehicle.

(b) Any action to recover a penalty under this section shall be brought in the name of the people of the State of California in the superior court of the county where the violation occurred, or in the county where the defendant's residence or principal place of

business is located, by the Attorney General on behalf of the state board, in which event all penalties adjudged by the court shall be deposited in the Air Pollution Control Fund, or by the district attorney or county attorney of such county, or by the city attorney of a city in that county, in which event all penalties adjudged by the court shall be deposited with the treasurer of the county or city, as the case may be.

43155. An action brought pursuant to Section 43154 to recover such civil penalties shall take special precedence over all other civil matters on the calendar of the court except those matters to which equal precedence on the calendar is granted by law.

SEC. 14. Section 4000 of the Vehicle Code is amended to read:

4000. (a) No person shall drive, move, or leave standing upon a highway any motor vehicle, trailer, semitrailer, pole or pipe dolly, logging dolly, or auxiliary dolly unless it is registered and the appropriate fees have been paid under this code.

(b) No person shall drive, move, or leave standing upon a highway any motor vehicle, as defined in Chapter 2 (commencing with Section 39010), Part 1, Division 26 of the Health and Safety Code, which has been registered in violation of Part 5 (commencing with Section 43000) of that Division 26.

(c) The provisions of this section shall not apply, following payment of fees due for registration, during such time that registration and transfer is being withheld by the Department of Motor Vehicles pending the investigation of any use tax due under the provisions of the Revenue and Taxation Code.

(d) When a vehicle is towed by a tow car on order of a sheriff, marshal, or other official acting pursuant to a court order or on order of a peace officer acting pursuant to the provisions of Chapter 10 (commencing with Section 22650) of Division 11, the provisions of subdivision (a) of this section shall not apply.

SEC. 15. Section 4000.1 of the Vehicle Code is amended to read:

4000.1. (a) The department shall require, pursuant to this section or regulations of the State Air Resources Board adopted pursuant to Section 43655 of the Health and Safety Code, upon initial registration, and upon transfer of ownership and registration, of any motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, a valid certificate of compliance from a licensed motor vehicle pollution control device installation and inspection station indicating that such vehicle is properly equipped with a motor vehicle pollution control device or devices which are in proper operating condition and which are in compliance with the provisions of Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, or a certificate of noncompliance, as appropriate.

For the purposes of determining the validity of a certificate of compliance or noncompliance submitted in compliance with the requirements of this section, the definitions of new and used motor vehicle contained in Chapter 2 (commencing with Section 39010),

Part 1, Division 26 of the Health and Safety Code shall control.

The provisions of this section shall not apply to a transfer of ownership and registration when the transferor is either the parent, grandparent, child, or spouse of the transferee, when a vehicle registered to a sole proprietorship is transferred to such proprietor as owner, or when the transfer is between companies whose principal business is leasing vehicles, if there is no change in the lessee or operator of the vehicle.

(b) The State Air Resources Board, under Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, may exempt designated classifications of motor vehicles from the provisions of subdivision (a) as it deems necessary, and shall notify the department of such action.

SEC. 16. Section 4000.2 of the Vehicle Code is amended to read:

4000.2. The department shall require upon registration of a motor vehicle subject to Part 5 (commencing with Section 43000) of Division 26 of the Health and Safety Code, previously registered outside this state, a valid certificate of compliance from a licensed motor vehicle pollution control device installation and inspection station indicating that such vehicle is properly equipped with a motor vehicle pollution control device or devices which are in proper operating condition and which are in compliance with the provisions of that part, or a certificate of noncompliance, as appropriate.

For the purposes of determining the validity of a certificate of compliance or noncompliance submitted in compliance with the requirements of this section, the definitions of new and used motor vehicle contained in Chapter 2 (commencing with Section 39010), Part 1, Division 26 of the Health and Safety Code shall control.

SEC. 17. Section 24007 of the Vehicle Code is amended to read:

24007. (a) No dealer or person holding a retail seller's permit shall sell a new or used vehicle which is not in compliance with the provisions of this code and department regulations adopted pursuant to this code unless the vehicle is (1) sold to another dealer, (2) sold for the purpose of being wrecked or dismantled, or (3) sold exclusively for off-highway use.

(b) No person shall sell, or offer or deliver for sale, to the ultimate purchaser a new or used motor vehicle, as those terms are defined in Chapter 2 (commencing with Section 39010), Part 1, Division 26 of the Health and Safety Code, subject to Part 5 (commencing with Section 43000) of that Division 26 which is not in compliance with the provisions of Part 5 and the rules and regulations of the State Air Resources Board, unless the vehicle is either (1) sold to a dealer, or (2) sold for the purpose of being wrecked or dismantled. A dealer shall, with each application for initial registration of a new motor vehicle or transfer of registration of a motor vehicle subject to Part 5, transmit to the Department of Motor Vehicles, a valid certificate of compliance from a licensed motor vehicle pollution control device installation and inspection station indicating that such vehicle is

properly equipped with a certified device or devices which are in proper operating condition and which are in compliance with the provisions of Part 5 and the rules and regulations of the board.

SEC. 18. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section, nor shall there be any appropriation made by this act, because the Legislature recognizes that, during any legislative session, a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1207

An act to add Section 1276.5 to the Health and Safety Code and Article 2.5 (commencing with Section 14075) to Chapter 7 of Part 3 of Division 9 of, and to add and repeal Article 2.6 (commencing with Section 14090) to Chapter 7 of Part 3 of Division 9 of, the Welfare and Institutions Code, relating to Medi-Cal, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1276.5 is added to the Health and Safety Code, to read:

1276.5. The department shall adopt regulations setting forth the minimum number of equivalent nursing hours per patient required in skilled nursing and intermediate care facilities.

For the purposes of this section "nursing hours" means the number of hours of work performed per patient day by aides, nursing assistants, or orderlies plus two times the number of hours worked per patient day by licensed nurses (except directors of nursing in facilities of 60 or larger capacity) who perform direct nursing services for patients in skilled nursing and intermediate care facilities.

SEC. 2. Article 2.5 (commencing with Section 14075) is added to Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, to read:

Article 2.5. Physicians Costs

14075. The Legislature intends that Medi-Cal recipients have reasonable access to medical care services and especially to primary and maternity care services. In order to obtain such access, the

Legislature intends that, to the extent feasible and permitted by federal law, physicians be reimbursed equally statewide for comparable services, at a rate sufficient to provide Medi-Cal recipients with such reasonable access, and also intends that higher rates be paid, relatively, for providing primary and maternity care services.

14076. As used in this article:

(a) "Medically underserved area" means a county, standard metropolitan statistical area, or other area within the state in which the director determines that Medi-Cal recipients do not have access to an adequate number of physicians.

(b) "Primary care services" means those general medical services, as determined by the director, which are not performed on an emergency, referral, or consulting basis.

(c) "Maternity care services" are prenatal, postnatal, perinatal, and neonatal services.

14077. Notwithstanding any other provisions of this chapter the director shall establish, within 15 days of the effective date of this act a statewide, uniform schedule for reimbursing physician services to Medi-Cal patients provided on or after July 1, 1976; except that, the director may establish physician reimbursement rates higher than the statewide rates for; (a) areas which the director determines to be medically underserved: and (b) other problems of equity in payment levels which adversely affect the accessibility of physician services to Medi-Cal recipients. Nothing in this section shall be construed to prevent the director from adopting physician reimbursement rates for primary care services and maternity care services which are relatively higher than the rates paid for other types of physician services.

14078. The director shall establish, at the time he or she establishes the statewide rate for physician services required by Section 14077, a level of reimbursement for physician services which represents at least an average increase over the statewide average amounts paid under the Medi-Cal program for the three-month period ending February 29, 1976, of 9.5 percent for all physician services except primary care services and maternity care services; of 20 percent for primary care services; and of 30 percent for maternity care services.

14079. The director annually shall review the reimbursement levels for physician and dental services under Medi-Cal, and shall revise periodically the rates of reimbursement to physicians and dentists to ensure the reasonable access of Medi-Cal beneficiaries to physician and dental services.

Such annual review, as it relates to rates for physician services, shall take into account at least the following factors:

1. Annual cost increases for physicians as reflected by the Consumer Price Index.

2. Physician reimbursement levels of medicare, Blue Shield, and other third-party payors.

3. Prevailing customary physician charges within the state and in various geographical areas.

4. Procedures reflected by the current Relative Value Studies (RVS).

5. Characteristics of the current population of Medi-Cal beneficiaries and the medical services needed.

Such review shall include a hearing by the Health Care Commission regarding the director's findings concerning the adequacy of rates for physicians and dentists and the commission's comments on such findings, if any. The director shall report the result of his or her annual review of reimbursement rates for physicians and dentists and the comments of the commission to the chairmen of the respective fiscal committees of each house of the Legislature and the Chairman of the Joint Legislative Budget Committee by January 1 of each year, commencing with January 1, 1979.

14080. The director shall report to the Legislature by January 1, 1978, on the effectiveness of the statewide uniform physician reimbursement method required by this act with respect to:

(a) The impact on physicians who are practicing in medically underserved areas and the need for additional rate increases in such areas;

(b) The need for additional differential rate increases to primary care physicians;

(c) Other problems of equity in payment levels which adversely affect the accessibility of physician services.

SEC. 2.5. Section 14079 is added to the Welfare and Institutions Code, to read:

14079. The director annually shall review the reimbursement levels for physician and dental services under Medi-Cal, and shall revise periodically the rates of reimbursement to physicians and dentists to ensure the reasonable access of Medi-Cal beneficiaries to physician and dental services.

Such annual review, as it relates to rates for physician services, shall take into account at least the following factors:

1. Annual cost increases for physicians as reflected by the Consumer Price Index.

2. Physician reimbursement levels of medicare, Blue Shield, and other third-party payors.

3. Prevailing customary physician charges within the state and in various geographical areas.

4. Procedures reflected by the current Relative Value Studies (RVS).

5. Characteristics of the current population of Medi-Cal beneficiaries and the medical services needed. The director shall report the result of his or her annual review of reimbursement rates for physicians and dentists to the chairmen of the respective fiscal committees of each house of the Legislature and the Chairman of the Joint Legislative Budget Committee by January 1 of each year,

commencing with January 1, 1979.

SEC. 3. Article 2.6 (commencing with Section 14090) is added to Chapter 7 of Part 3 of Division 9 of the Welfare and Institutions Code, to read:

Article 2.6. Intermediate and Skilled Nursing Facilities Rates

14090. The Legislature hereby finds and declares that a high rate of turnover among direct patient care staff in intermediate and skilled nursing facilities diminishes the quality of care rendered to patients in such facilities. The Legislature further finds that the turnover among employees of such facilities is substantially attributable to the fact that the wages paid such employees are generally lower than the wages paid employees of other health care institutions in similar job classifications. It is the intent of the Legislature that Medi-Cal reimbursement rates for skilled nursing and intermediate care facilities, to the extent feasible, be set at levels sufficient to allow said employees to be paid at wages which are sufficient to reduce turnover among such employees, in order to improve the level and quality of patient care.

14091. Notwithstanding any other provision of law, the director shall establish and implement regulations on or before January 1, 1977 for a reimbursement rate for intermediate and skilled nursing facilities as defined in Section 1250 of the Health and Safety Code, which is sufficient to provide an average wage increase of ten cents ($0.10) per hour for all nonadministrative employees of such facilities. Such rate shall provide funding for the portion of additional costs necessary to implement the wage increase required by this section attributable to Medi-Cal patients. The portion of such additional costs shall be the same as the ratio of Medi-Cal patients to total patients in the facility.

The director shall determine the average hourly rate of pay in effect prior to the implementation of this act from a random sample of skilled facilities payrolls which will yield a 90% confidence factor. The basis of measurement of this wage increase will be a comparison of the average hourly rate of pay to employees or general classifications of employees of an individual facility compared to the average industry hourly rate of pay to employees or general classifications of employees as determined by the director.

Each skilled or intermediate care facility shall certify that their average rate of pay in their facility is equal to or in excess of the statewide average rate of pay as determined plus ten cents ($0.10) per hour provided by this act for wage increases.

The form of certification shall be determined by the director.

14092. The director shall inspect relevant payroll and personnel records of skilled nursing and intermediate care facilities which are reimbursed for Medi-Cal patients under the rate of reimbursement established pursuant to Section 14091 to insure that the wage increases provided for have been implemented. Any facility which

is reimbursed under the rate provided for in Section 14091 which the director finds has not made the wage increases provided for shall be liable to the state for the amount of funds reimbursed to such facility based upon the wage requirements provided for by this article. In addition, such facility shall be disqualified from participation in the program. Such disqualification shall not become effective until an opportunity for a hearing has been granted. Such facility shall also be subject to the provisions of Section 14107.

14093. The director shall report to the Legislature by February 1, 1978, on the implementation of this article. Such report shall specify the number of facilities inspected for compliance with the provisions of this article; the number of facilities disqualified from the program, if any; and recommendations by the director.

14094. This article shall have no force or effect after January 1, 1978, and as of such date is repealed.

SEC. 4. The director shall, to the fullest extent possible, utilize the latest Relative Value Studies published by the California Medical Association as the basis for defining the services for which physicians will be reimbursed under Medi-Cal. The department shall report to the Legislature as follows:

(a) By March 1, 1977, the feasibility for utilizing the 1974 Relative Value Studies published by the California Medical Association as the basis for defining services for which physicians are reimbursed under Medi-Cal;

(b) By January 1, 1977, a comprehensive study of the elements of overhead expense among emergency room physicians serving Medi-Cal patients, and the amount of overhead expense which should be reflected in the reimbursement rate for emergency room physicians under Medi-Cal.

SEC. 5. Notwithstanding any other provisions of this chapter, the director shall establish, within 15 days of the effective date of this act, a statewide, uniform schedule for reimbursing dental services to adult Medi-Cal patients provided on or after July 1, 1976. Such uniform, statewide schedule shall provide rates of reimbursement for dental services at a level equal to the statewide average paid amount for such services rendered to children under the Medi-Cal program during 1974.

This section shall have no force or effect after January 1, 1978.

SEC. 6. The sum of fifty-two million five hundred thousand dollars ($52,500,000) is appropriated from the General Fund for allocation by executive order of the State Department of Health and the Department of Rehabilitation to be expended for the purpose of providing the increased funding necessary to reimburse physicians and dentists for services according to the uniform payment system developed by the Director of Health.

SEC. 6.5. Section 2.5 of this act shall become operative only if Assembly Bill No. 3974 is enacted and in such event Section 14079 of the Welfare and Institutions Code added by Section 2 of this act shall not become operative.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure the continued availability of medical and dental services to Medi-Cal beneficiaries it is essential that this act take immediate effect.

CHAPTER 1208

An act to amend Sections 306, 306.5, 306.7, 307, 307.3, 308, 308.4, 308.5, and 308.6 of, and to add Sections 308.8 and 308.9 to, the Health and Safety Code, relating to child health, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1976 Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 306 of the Health and Safety Code, as added by Chapter 1069 of the Statutes of 1973, is amended to read:

306. The Legislature finds and declares that many physical and mental disabilities can be prevented, or their impact on an individual lessened, when they are identified and treated before they become chronic and irreversible damage occurs. The Legislature finds and declares that a community-based program of early identification and referral for treatment of potential handicapping conditions will be effective in reducing the incidence of such conditions and will benefit the health and welfare of the citizens of this state.

It is the intent of the Legislature in enacting this article to establish child health and disability prevention programs, which shall be financed and have standards established at the state level and which shall be operated at the local level, for the purpose of providing early and periodic assessments of the health status of children. It is further intended that child health and disability prevention programs shall make maximum use of existing health care resources and shall utilize, as the first source of screening, the child's usual source of health care so that health screening programs are fully integrated with existing health services, that health care professionals be appropriately represented and utilized in these programs, that outreach programs be developed to stimulate the use of preventive health services, and that services offered pursuant to this part be efficiently provided and be of the highest quality.

SEC. 1.5. Section 306.5 of the Health and Safety Code is amended to read:

306.5. A State Child Health Board is hereby established within

the department which shall consist of nine voting members.

The Governor shall appoint the following five members of the board: a county health officer selected from a list of three nominees submitted by the California Conference of Local Health Officers, one physician and surgeon, one person representative of a child advocate organization, and two parents of children eligible for services pursuant to this article, who are not health care providers. The Chairman of the Senate Rules Committee shall appoint two members of the board: a pediatrician and a parent of an eligible child who is not a health care provider. The Speaker of the Assembly shall appoint two members of the board: a pediatrician and a nurse whose speciality is child health. The Director of the State Department of Health and the Superintendent of Public Instruction, or their designees, shall serve as ex officio, nonvoting members of the board. Except for existing members of the board, all appointments shall be for three years.

The members of the board shall serve without compensation but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this article.

The board shall select its own chairman from among the nine appointed members by majority vote of the members and shall establish technical advisory committees as it deems necessary and desirable. Physician members of the board shall constitute a technical advisory committee for purposes of review of standards and regulations promulgated pursuant to subdivisions (a), (b), and (c). The board may utilize available department staff and staff of all other public and private agencies which have an interest in child health services.

The board shall meet on call of the board chairman, at least once annually, or as often as necessary to fulfill its duties. All meetings and records of the board shall be open to the public.

The board shall have the following powers, duties, and responsibilities:

(a) Review of standards for health screening, evaluation, and diagnostic procedures for community child health and disability prevention programs.

(b) Review of standards for directors of community child health and disability prevention programs.

(c) Review of standards for public and private health providers, facilities, and agencies which participate in community child health and disability prevention programs.

(d) Advising the director on the development of a five-year state plan for child health and disability prevention services.

(e) Periodic review of all child health and disability prevention services within California and conducting independent investigations and studies as necessary.

SEC. 2. Section 306.7 of the Health and Safety Code is amended to read:

306.7. The department shall administer this article and shall

adopt minimum standards for the approval of community child health and disability prevention programs and rules and regulations as necessary. Such standards shall allow necessary flexibility in the administration of county programs, taking into account the variability of county needs and resources. However, such standards, rules, and regulations may be adopted only with the advice and written recommendations of the board. Standards shall be adopted for:

(a) Education and experience requirements for directors of community child health and disability prevention programs.

(b) Health screening, evaluation, and diagnostic procedures for child health and disability prevention programs.

(c) Public and private facilities and providers which may participate in community child health and disability prevention programs.

The department shall adopt a five-year state plan for child health and disability prevention services by October 1, 1977. The plan shall include a method for allocating child health and disability prevention funds to counties. The plan shall be reviewed and revised as necessary to provide a basis for allocating state child health and disability prevention program funds throughout the state.

SEC. 2.5. Section 307 of the Health and Safety Code is amended to read:

307. The governing body of each county or counties shall establish a community child health and disability prevention program for the purpose of providing early and periodic assessments of the health status of children in the county or counties by July 1, 1974. However, this shall be the responsibility of the department for all counties which contract with the state for health services. Contract counties, at the option of the board of supervisors, may provide services pursuant to this article in the same manner as other county programs, provided such option is exercised prior to the beginning of each fiscal year. Each such plan shall include, but is not limited to, the following requirements:

(a) Outreach and educational services.

(b) Agreements with public and private facilities and practitioners to carry out the programs.

(c) Health screening and evaluation services.

(a) A health and development history.

(b) An assessment of physical growth.

(c) An examination for obvious physical defects.

(d) Ear, nose, mouth, and throat inspection, including inspection of teeth and gums.

(e) Screening tests for vision, hearing, anemia, tuberculosis, diabetes, and urinary tract conditions.

(f) An assessment of nutritional status.

(g) An assessment of immunization status.

(h) Where appropriate, testing for sickle cell trait, lead poisoning, and other tests which may be necessary to the identification of children with potential disabilities requiring diagnosis and possibly treatment.

Standards for procedures to carry out health screening and evaluation services and to establish the age at which particular tests should be carried out shall be established by the director, with review and recommendation by the board. However, a governing body may include additional health screening and evaluation procedures in its program if approved by the director and the board.

Each community child health and disability prevention program shall, pursuant to standards set by the director, establish a record system which contains a health case history for each child so that costly and unnecessary repetition of screening, immunization and referral will not occur and appropriate health treatment will be facilitated as specified in Section 308.5.

SEC. 2.5. Section 307.3 of the Health and Safety Code is amended to read:

307.3. Each county shall appoint a local advisory board to assist in the administration of this article. The local advisory board shall include representatives from health professions concerned with child health, school health personnel, and parents of eligible children and shall, to the extent feasible, not be created separately from other health advisory bodies in the county.

The local advisory board shall:

(a) Review the community's child health needs and the adequacy of health care providers and facilities to meet those needs.

(b) Review the community child health and disability prevention plan.

(c) Advise and report directly to the governing body as to the program for child health and disability prevention.

The local advisory board shall also perform such other duties relating to child health which may be delegated to it by the board of supervisors.

SEC. 3. Section 308 of the Health and Safety Code is amended to read:

308. (a) On or before October 1 of each year, each county program director shall submit a preliminary budget for the subsequent fiscal year which provides the following information:

(3) A projection and cost estimates of the number of children to be screened for the fiscal year for which the budget is being submitted.

(b) On or before March 15 of each year, each governing body shall submit a revised estimate relative to paragraphs (1), (2), and (3) of subdivision (a), at which time the community child health and disability prevention plan shall include the following:

(1) An assessment of the adequacy and availability of the facilities and providers to provide health screening diagnostic and treatment services.

(2) A description of the child health and disability prevention program to be offered, including expected participating providers and outreach mechanisms to be utilized.

(3) A summary description of the current year's activity, including the number of children screened, the number of children referred for diagnosis and treatment, by condition, and the cost of screening services.

(4) A description of how existing school health resources, including school health personnel, are to be utilized for outreach and other services.

(5) A revision of budget estimates, including all sources of revenue, for the proposed budget year if such revisions are necessary to make the estimates compatible with the budget submitted by the Governor to the Legislature.

If previous county plans approved by the department contain acceptable data with respect to the requirements of this subdivision, the county plan for the budget year need contain only revisions to the approved program.

The director shall determine the amount of state funds available for each county for specified services under an approved community child health and disability prevention plan from state funds appropriated for child health and disability prevention services.

If the amount appropriated in the Budget Act for such fiscal year as enacted into law differs from the amount in the budget submitted by the Governor for such fiscal year, each governing board shall submit an additional revised plan in the form and at the time specified by the department.

SEC. 4. Section 308.4 of the Health and Safety Code is amended to read:

308.4. (a) In order to ensure the maximum utilization of the California Medical Assistance Program and other potential reimbursement sources, the state department shall develop a schedule and method of reimbursement at reasonable rates for services rendered pursuant to this article. Such reimbursement schedule shall include provision for well child examinations as well as for administrative expenses incurred by providers pursuant to meeting the provisions of this article. Inquiry shall be made of all recipients of services under this article as to their entitlement for third-party reimbursement for medical services. Where such

A waiver signed by the child's parents or guardian indicating that they do not want or are unable to obtain such health screening and evaluation services for their children shall be accepted by the school in lieu of the certificate. If the waiver indicates that the parent or guardian was unable to obtain such services for the child, then the reasons why should be included in the waiver.

The department, with review and recommendation by the board, shall adopt rules and regulations specifying which age groups shall be given certain types of screening tests and recommendations for referral.

The first source of referral shall be the child's usual source of health care. If referral is required and no regular source of health care can be identified, the facility or provider providing health screening and evaluation services shall provide a list of three qualified sources of care, without prejudice for or against any specific source.

SEC. 7. Section 308.8 is added to the Health and Safety Code, to read:

308.8. In cooperation with the county child health and disability prevention program, the governing body of every school district or private school which has children enrolled in kindergarten shall provide information to the parents or guardians of all children

If his disability is finally determined to have been service-connected, appropriate adjustments shall be made in his retirement allowance retroactive to the effective date of his disability retirement.

If any member dies after electing to receive non-service-connected disability retirement and before the question of his entitlement to service-connected disability retirement is finally resolved, the rights of his beneficiary shall be those selected by the member at the time he elected to receive non-service-connected disability retirement.

CHAPTER 1210

The people of the State of California do enact as follows:

SECTION 1. Section 690.2 of the Code of Civil Procedure is repealed.

SEC. 2. Section 690.2 is added to the Code of Civil Procedure, to read:

690.2. (a) One motor vehicle with a value not exceeding five hundred dollars ($500), over and above all liens and encumbrances on such motor vehicle. The value of such motor vehicle shall be established by reference to used car price guides customarily used by California automobile dealers, or, if not listed in such guides, fair

market value, for a motor vehicle of that year and model.

(b) The levying officer shall consult the Department of Motor Vehicles and, if the department's records show that another vehicle is registered in the name of the debtor, the levying officer shall distribute the proceeds of the sale in the following order of priority:

(1) First, the seller, lienholder or encumbrancer shall recover pursuant to paragraph (1) of Section 689c;

(2) Second, to the satisfaction of the judgment; and

(3) Third, the balance, if any, to the debtor.

The levying officer shall notify the debtor if he intends to distribute under this subdivision and shall notify the debtor that the debtor may file a claim of exemption pursuant to Section 690.50 at any time prior to distribution of the proceeds of the sale. If he does not own another safe and functional motor vehicle which can legally be operated on the public roadway or a motor vehicle which can be made safe, functional, and legally operable on the public roadway, with an expenditure which is reasonable in relation to its fair market value, the claim of exemption shall be sustained.

Any motor vehicle registered to the spouse of the debtor and which is community property shall be deemed to be owned by the debtor when the debtor and the debtors spouse reside together.

If the claim of exemption is sustained the proceeds shall be distributed as provided in subdivision (c).

(c) When the debtor has only one vehicle, the levying officer shall distribute the proceeds of any execution sale or from the undertaking, if necessary, without further order of the court, in the following order of priority:

(1) First, the seller, lienholder or encumbrancer shall recover pursuant to paragraph (1) of Section 689c;

(2) Second, the debtor shall recover five hundred dollars ($500), the amount of the motor vehicle exemption;

(1) The motor vehicle exemption;

(2) The aggregate amount of all liens and encumbrances on the motor vehicle; and

(3) The amount necessary to repay the judgment creditor for the fees and costs advanced to the levying officer.

In the event no bid is accepted the levying officer shall release the motor vehicle to the debtor within five days.

(e) Any amount representing the motor vehicle exemption paid to the debtor shall be entitled, for a period of 90 days thereafter, to the same protection against legal process which the law gives to the motor vehicle exemption.

Article 3. Separation of Employees From Service for Lack of Funds or Lack of Work

24320. (a) It shall be the policy of the California State University and Colleges to provide stability of employment by foreseeing and avoiding unnecessary reductions in staff. However, when this is not possible due to lack of funds or lack of work, the staff shall be reduced in accordance with this article. The classes or teaching service areas to be reduced and the employees therein to be laid off shall be determined, in accordance with the provisions of this article, by the president of the campus after consultation with such employees and others in the same classes, specializations within classes, or teaching service areas and other persons as appropriate, including faculty and administrators. The chancellor shall make all determinations for the office of the chancellor.

(b) The office of Chancellor of the California State University and Colleges shall make a survey of all campuses in order to ascertain the availability of suitable positions where staff to be laid off may seek relocation. To the extent staff resources permit, similar efforts shall be made with respect to colleges and universities outside the California State University and Colleges.

(b) Layoff of academic employees shall be by teaching service area within a campus.

24322. (a) Whenever a determination has been made that there is a lack of funds or lack of work, employees in a class or teaching service area to be reduced shall be laid off in the following order:

(1) The Chancellor of the California State University and Colleges or a president of a state university or college may, at his discretion, without regard to the class or teaching service area to be reduced, separate from service any student assistant, instructor for extension service, person employed on a temporary basis, or, with respect to employment in a summer session, any member of the faculty of a campus summer session. Persons described in this paragraph, if performing the same or comparable work as that performed by a probationary or permanent employee, shall be separated before any probationary or permanent employee desiring to continue in employment is laid off pursuant to the provisions of this article.

(2) Probationary employees not employed on a temporary basis, without regard to length of service.

(3) Permanent employees:

employment at the campuses.

(C) If the area of layoff is in the closely related academic area, permanent employees in the inverse order of their length of employment in the class or in classes of equal or higher level at the campuses.

If the layoff is in a teaching service area, part-time permanent employees shall be credited with service as permanent employees of the campus in the proportion that the actual time served as permanent employees bears to full-time employment.

(c) In case two or more employees in the class or teaching service area are tied for a place in the order of layoff, the president or the chancellor, as appropriate to the place of employment, shall determine which of such employees shall be laid off.

24323. After a determination has been made of the class or teaching service area to be reduced and the number of employees in such class or area to be laid off, the president or chancellor shall notify each employee to be laid off, that the employee is being laid off for lack of funds or lack of work. Such notice shall be in writing and mailed by certified mail, return receipt requested, to the employee's last known address, or the notice may be delivered to the employee in person who shall acknowledge receipt of the notice in writing. The notice shall specify the effective date of layoff and shall be delivered to the employee or mailed to the employee's last known resident address at least 30 days, whenever possible, prior to the effective date of the layoff. When curricular shifts or other program changes, which can be anticipated, are to be made those who will be laid off will normally be notified at least one year in advance.

24324. An employee to be laid off may elect to accept such layoff prior to the date named in the notice of layoff. If an employee elects to accept early layoff, he should give as much notice as possible.

24325. (a) In lieu of being laid off, an administrative or nonacademic employee may elect demotion or transfer to any class in which he has served as a permanent employee or to any vacancy for which he is qualified.

(b) In lieu of being laid off, an academic teaching employee actively employed at a campus during the academic year 1975–76 or prior thereto at such campus may elect transfer to that other teaching service area in which he or she has served longest during the preceding four years at the particular campus if both of the following conditions exist:

thereto may be utilized for purposes of transfer under this section.

(2) If the employee has not previously during that year elected transfer in lieu of layoff.

(c) In the event an employee elects demotion or transfer, his place for layoff purposes in the class or teaching service area to which he elects demotion or transfer shall be determined in accordance with this article.

(d) An employee electing demotion or transfer shall notify the president or chancellor in writing of his election within five calendar days after receipt of the notice of layoff.

24326. (a) The president at each campus, and the chancellor at the office of the chancellor, shall establish and maintain reemployment lists of all permanent employees laid off for lack of funds or lack of work during the preceding five-year period. Laid-off permanent employees shall be listed by class or teaching service area corresponding to the class or teaching service area from which they were laid off.

(b) In the event there is a vacancy at a campus or at the office of the chancellor, for which there exists no reemployment list, the position may be offered to the persons in the appropriate class or teaching service area who are on mandatory reemployment lists at another campus or the office of the chancellor.

(c) A person shall deliver or cause to be delivered his acceptance of an offer with the following times:

(1) When the person resides in the city from which the offer is mailed, five days after the date the offer is received.

(2) When the person resides outside such city, seven days after the offer is received.

(3) When the offer is made by telephone or telegram, 48 hours after the offer is received.

While a prudent effort shall be made to contact the person eligible for reemployment, it is his responsibility to keep the office maintaining the reemployment list informed of where he may be reached readily.

(d) Any person on a reemployment list who cannot be reached within five days, or who fails to reply to an offer of reemployment as required by this section, shall be deemed to have declined the offer. Such failure by any person may be excused by the president or chancellor at his discretion. If the failure is excused, the person may be reemployed or his name may be continued on the reemployment list if the vacancy has already been filled.

(e) Any persons on a reemployment list may request inactive status for a prescribed period of not to exceed one year.

(f) Any person on the reemployment list who declines two offers of reemployment shall be removed from the list. Any person removed from a reemployment list may be restored to his relative position on the list at the discretion of the president or chancellor upon a showing of good cause.

(g) Any employee reemployed pursuant to this article shall be

This section shall remain in effect only until January 1, 1979, and as of that date is repealed.

SEC. 2. Section 39011 is added to the Health and Safety Code, to read:

39011. "Agricultural burning" means open outdoor fires used in agricultural operations in the growing of crops or raising of fowl or animals, or open outdoor fires used in forest management, range improvement, or the improvement of land for wildlife and game habitat, or disease or pest prevention.

This section shall become operative on January 1, 1979.

SEC. 3. Section 39706 is added to the Health and Safety Code, to read:

The fees deposited in the Air Pollution Control Fund pursuant to Section 41853.5 are hereby continuously appropriated to the state board for research and development of a cotton gin trash incinerator heat exchanger or other device for the disposal of solid waste which is produced from the ginning of cotton, consistent with emission standards set by a district board or the state board. The state board shall consult with the Solid Waste Management Board prior to awarding a contract for, or conducting, such research and development. (b) Except as provided in subdivision (c), the issuing agency shall deposit monthly the collected fees in the Air Pollution Control Fund.

(c) To pay for administrative costs of issuing the permits, the issuing agency may retain from the fees collected pursuant to this section an amount equal to either the estimated cost of issuing the permits, or 4 percent of the total fees collected, whichever is less. The state board may make an annual audit of the issuing agency to determine the amount of fees retained by an issuing agency.

SEC. 5. It is the intent of the Legislature that the amendments to Section 39011 of the Health and Safety Code which are made by Section 1 of this act shall remain in effect only until January 1, 1979, and on that date Section 2 of this act shall become operative to restore Section 39011 to the form in which it read immediately prior to the effective date of this act.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because

this act authorizes a revenue source, or makes local governments eligible for a revenue source, that may be utilized by local governments to cover the cost of the mandate.

The primary duty of any such peace officer shall be the enforcement of the rules and regulations of the department for the California Exposition and State Fair and to arrest persons for the commission of any public offense within the California Exposition and State Fairgrounds. The authority and powers of any such peace officer shall be limited to those conferred by law on peace officers as specified in Section 830.31 of the Penal Code.

The department may establish rules and regulations not inconsistent with law for the government and administration of the California Exposition and State Fair.

There is created, within the Division of Exposition and State Fair, a deputy or employee who shall be appointed by the Governor, upon recommendation of the Director of Parks and Recreation. The compensation of such deputy or employee shall be fixed by the director pursuant to law. The department shall make its determination of monthly amounts based on the relative need of the county or district agricultural association for the funds during the particular month. The monthly apportionment of funds on a need basis shall not result in an annual apportionment to a particular county or district agricultural association in excess of the amount otherwise payable. The aggregate of the monthly apportionments to each of the several counties and district agricultural associations shall not exceed the maximum apportionment for the year.

"Need", as used in this section, means the combination of the current cash position of the fair and the time of year at which the annual fair is held.

SEC. 11. Section 14256 of the Government Code is amended to read:

14256. Where the nature of the work in the opinion of the department is such that its services in connection therewith are not required, it may authorize the carrying out of the project directly by the state agency concerned therewith if the estimated cost does not exceed one hundred thousand dollars ($100,000), except that the one hundred thousand dollars ($100,000) limitation shall not apply to a project of a district agricultural association.

If the estimated total cost of any construction project or work carried out under this section exceeds fifteen thousand dollars ($15,000), the district or agency shall solicit bids in writing and shall award the work to the lowest responsible bidder or reject all bids; provided, however, that the director may authorize the district or agency to carry out work in excess of fifteen thousand dollars ($15,000) under the provisions of this section by day labor if he deems that the award of a contract, the acceptance of bids, or the acceptance of further bids is not in the best interests of the state; however, in no event shall the amount of work performed by day

SECTION 1. Section 58892 of the Food and Agricultural Code is amended to read:

58892. A marketing order may contain provisions for carrying on research studies in the production, processing, or distribution of any commodity and for the expenditure of moneys for such purposes. Production research for the purpose of determining the production, processing, and distribution qualities of perennial agricultural commodities may be established for the period of time necessary, not to exceed 10 years, to make such determination even though the period of time necessary may extend beyond the term of the marketing order or agreement involved, provided the director finds there is no satisfactory alternative method to accomplish the desired research, and provided further, that the director has determined, after conducting a public hearing as provided for in Article 6 (commencing with Section 58771), and making the necessary findings as required by Section 58813, that such proposed research project shall be submitted for a vote of those persons being regulated, and, provided further, that valid votes have been cast in any such vote that represent not less than 40 percent of the total number of producers of the commodity of record with the department, or not less than 40 percent of the total number of handlers of the commodity of record with the department, or not less than 40 percent of each of such producers and handlers of such commodity when both are affected; and provided still further that, in any such voting, a favorable vote was cast by not less than 65 percent of the total number of such producers, or such handlers, or both, respectively, and that such producers, handlers, or both, respectively, marketed not less than 51 percent of the total quantity

of such commodity that was marketed in the next preceding marketing season by all of the producers, or handlers, or both, respectively, that cast ballots in the vote for the proposed research study. An advisory board may recommend and the director may approve that the funds necessary for such research be expended by an advisory board annually or allocated in a lump sum and placed in a trust account established by the director for the purpose of ensuring the completion of such project. In the event a trust fund is established, the director may also appoint a board of trustees to assist the director in the administration of such research project. In any research in production or processing which is carried on pursuant to this section, the Vice President for Agricultural Sciences of the University of California and the advisory board which is provided for in Article 8 (commencing with Section 58841) of this chapter shall cooperate in selecting the research project which is to be carried on from time to time. Insofar as practicable, the projects shall be carried out by the University of California, but if the vice president and the advisory board determine that the university has no facilities for a particular project, or that some other research agency has better facilities for it, the project may be carried out by any other research agency which is selected by the vice president and the advisory board.

to the dealer.

For purposes of this section, "business day" means any day which is a business day under the provisions of Section 9 of the Civil Code.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

In an emergency situation requiring urgent action, the director may, upon citing the nature of the emergency in the notice, give less than 30 days' notice.

SEC. 2. Section 58775 of the Food and Agricultural Code is amended to read:

58775. The provisions of this section shall not apply to a secured party, as defined in Section 9105 of the Commercial Code, when taking possession of cattle pursuant to a security agreement if one of the following conditions has been met prior to movement of any such cattle:

(a) The secured party has requested and received a brand inspection of the cattle covered by the security agreement pursuant to Sections 21051.5 and 21171 of this code.

(b) The secured party has requested the inspection required by subdivision (a) and due to an insufficient amount of time to inspect the cattle prior to their movement, the brand inspector agrees to allow movement of the cattle, with inspection of such cattle to be made at their first destination prior to their commingling with any other cattle.

The inspection performed pursuant to subdivision (a) or (b) shall be conducted for the sole purpose of assuring that the cattle that are moved are the same cattle subject to the security agreement.

In a proper case, which shall include the killing or slaughter of cattle, exemplary damages may be awarded to the plaintiff as provided in Section 3340 of the Civil Code.

The commencement of any criminal prosecution for grand theft of cattle shall not preclude or prevent the commencement of any civil action for damages, as specified in this section.

CHAPTER 1226

An act to add Section 55601.5 to the Food and Agricultural Code, relating to grapes.

[Approved by Governor September 21, 1976. Filed with Secretary of State September 22, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 55601.5 is added to the Food and Agricultural Code, to read:

55601.5. (a) Notwithstanding Section 55461, on or before January 10 of each year, every processor who crushes grapes in California shall furnish to the director, on forms provided by the director, a report of the total number of tons of grapes purchased by such processor in California during the preceding crush within each grape pricing district. In the report such tonnage shall be broken down by variety, price, including any bonuses or allowances, and sugar calculations. Every such processor shall also furnish the director, on forms provided by the director, a report of the total number of tons of each variety of grapes crushed during the preceding crush and the average sugar content of each variety within each grape pricing district.

(b) On or before February 25 of every year, each processor who crushes grapes in California shall furnish the director information concerning the final prices, including any bonuses or allowances, paid by variety and grape pricing district to all growers holding reference price contracts in effect prior to January 1, 1977, which payments have not been reported on January 10.

(c) "Grape pricing districts," as used in this section, shall be those districts used by the federal-state cooperative news services, as provided in Section 58231.

(d) The director may not release or otherwise make available any information furnished by an individual processor under this section, except in proceedings brought against such processor by the director for the purpose of enforcing the provisions of this section, or in the

case of a producer who holds any reference price grape purchase contract, to whom there may be furnished, upon request and at a reasonable cost, the information needed to verify the reference price, including any bonuses or allowances, set forth in the contract.

(e) The director shall enforce the collection of such information and shall, on or before February 10 of each year, publish a preliminary summary report on the preceding crush. Such report shall include: (1) the weighted average price paid on the basis of the prices, including any bonuses or allowances, reported and average sugar content for each grape variety purchased within each grape pricing district; (2) the total number of tons of grapes crushed and the average sugar content for each grape variety within each grape pricing district; and (3) each price category paid, separated by sugar calculations, if any, and the percentage each represents of the total for each variety within each grape pricing district. On or before March 10 of each year, the director shall publish a final summary report, which report shall contain all of the data furnished by the processors on or before January 10 and on or before February 25 of each year covering purchases under reference price contracts.

(f) The forms provided to processors by the director pursuant to this section shall provide for the separate reporting of grapes used by a processor (1) as distilling material and (2) for both beverage brandy and other than beverage brandy. A processor shall report all grapes used as distilling material by variety. The director, in determining the weighted average price paid for each grape variety purchased within each grape pricing district, shall not include the prices paid for grapes of any variety used as distilling material for other than beverage brandy in determining such weighted average price. The director's report shall include a separate summary regarding grapes used by processors as distilling material.

(g) All grape purchase contracts entered into on or after January 1, 1977, shall provide for a final price, including any bonuses or allowances, to be set on or before the January 10 following delivery of the grapes purchased. Any grape purchase contract entered into in violation of this provision is illegal and unenforceable. For the purpose of this section, a grape purchase contract shall not include any existing supply contract between a nonprofit cooperative association and a commercial processor.

(h) If the director finds that any processor has failed, refused, or neglected to provide the information required herein, the director may proceed in accordance with Sections 55721 and 55722.

(i) The willful failure of any processor to report to the director, as required by this section, shall constitute a violation of this chapter and shall be a separate and distinct violation of this chapter for each day such processor fails to meet such reporting requirements.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a

(3) To a resale after the death of such artist.

CHAPTER 1229

An act relating to state highways, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 27, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The sum of seventeen million seven hundred thousand dollars ($17,700,000) is hereby transferred to the State Highway Account in the State Transportation Fund for allocation by the California Highway Commission as follows:

(a) Seven million seven hundred thousand dollars ($7,700,000) from the Abandoned Vehicle Trust Fund to match federal funds available for construction on the National System of Interstate and Defense Highways.

(b) Nine million nine hundred thousand dollars ($9,900,000) from the Driver Training Penalty Assessment Fund to match federal funds which may become available for highway construction.

(c) One hundred thousand dollars ($100,000) from the Abandoned Vehicle Trust Fund to create an environmental unit within the Department of Transportation.

SEC. 2. The state funds made available pursuant to subdivision (a) of Section 1 of this act, together with the federal funds matched by those funds, shall be allocated by the California Highway Commission for the immediate construction of high-priority gap-closure projects, as determined by the commission, on the National System of Interstate and Defense Highways.

SEC. 3. The state funds made available pursuant to subdivision (b) of Section 1 of this act shall be used to match other federal funds which may be made available to the state for highway construction from (1) federal highway reserves, (2) new release of federal funds, and (3) funds made available through repooling of those funds because other states cannot provide the required matching funds. Both state and federal funds shall be allocated by the California Highway Commission for high-priority gap-closure projects, as determined by the commission, on the state highway system.

SEC. 4. (a) The Legislature finds and declares that the project environmental review process is of the upmost importance in the orderly and equitable development of a public works project. The Legislature further finds that, given fixed highway resources and high rates of inflation, unnecessary delay of high-priority highway projects represents a waste of state funds. The Legislature further finds that many delays in the environmental review of a highway project are not related to substantive environmental issues but rather to institutional delays, particularly at the interface between points of the process.

(b) Therefore, the environmental unit in the Department of Transportation funded by the funds made available pursuant to subdivision (c) of Section 1 of this act shall be used only for the purpose of expediting the environmental clearances of those projects funded by this act. The environmental unit shall emphasize the rapid environment review, in conformance with required statutes and rules and regulations, of the projects funded by this act.

(c) The environmental unit shall submit a one-page weekly report on the progress made during the previous week in expediting the environmental clearances of the projects to the President pro Tempore of the Senate, the Speaker of the Assembly, the Secretary of the Business and Transportation Agency, and the Director of Transportation and, upon securing environmental clearances for all the projects, shall submit to them a report not to exceed 10 pages of its experience in securing the environmental clearances and its recommendation on how the environmental clearance process can be improved.

(d) Upon submission of the final report, the environmental unit shall be abolished.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the maximum amount of funds may be made available for state highway construction, it is necessary that this act take effect immediately.

CHAPTER 1230

An act to amend Sections 14143.5 and 14306 of, and to add Section 14105 to, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 22, 1976. Filed with Secretary of State September 27, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 14105 is added to the Revenue and Taxation Code, to read:

14105. (a) Notwithstanding any other provision of this chapter, any tax imposed on the transfer of property which results in undue hardship as defined in Section 14143.5 may, at the option of the taxpayer and with the written consent of the Controller, where such written consent is incorporated into the decree of distribution, be paid in 10 annual installments. The first installment, together with any interest due, computed on the tax imposed from the delinquency date to the date of payment pursuant to Section 14103, shall be paid on or before the delinquency date or a date specified in a written agreement with the Controller pursuant to Section 14143.5, whichever is later. Each subsequent installment shall be in an amount of not less than 10 percent of the tax imposed and shall be paid, together with interest computed on the unpaid balance, on or before the anniversary date of the first installment payment. The entire unpaid balance and interest shall become due and payable if payment is not made in a timely manner.

(b) Any tax paid under this section shall bear interest, at the rate imposed by Section 14211, from the date it is due and payable and until it is paid.

(c) Except as to any transferred property released from the lien of the tax pursuant to Section 14308, the extension provided by this section shall be authorized only so long as the transferees, or their heirs who would qualify under this section for an extension, shall own the transferred property. Except as to property released from the lien of the tax pursuant to Section 14308, upon transfer of such property to any person, all deferred taxes and interest thereon shall immediately become due and payable.

SEC. 2. Section 14143.5 of the Revenue and Taxation Code is amended to read:

14143.5. If the Controller finds that payment of any tax imposed by this part as a prerequisite to distribution would result in undue hardship to the estate, he may enter into a written agreement for payment of the tax with the executor, administrator, trustee or transferee liable for its payment upon such terms and conditions as the Controller in his discretion may provide, and provided that the Controller finds that payment of the tax plus interest due thereon is adequately secured. Upon filing such agreement with the Controller

and court having jurisdiction, the court shall incorporate the agreement in the final decree of distribution and the estate of the person who made the transfer on which the tax is imposed may be distributed.

Undue hardship shall include, but not be limited to, the hardship resulting from the payment of taxes imposed pursuant to the provisions of this part on Class A beneficiaries on a qualified family property, and shall include the inability to secure a loan against such qualified property at a rate of interest at the rate specified in Section 14211 or less or the necessity for selling an interest in a family business to unrelated persons.

Qualified family property is defined as property which has been used primarily in the operation of a family business or farm.

For purposes of this section, family business is defined as:

(a) An interest as a proprietor in a trade or business carried on as a proprietorship, or

(b) An interest as a partner in a partnership carrying on a trade or business if

(1) 50 percent or more of the total capital interest in such partnership was owned by the transferor and his or her spouse, lineal ancestor, lineal issue or mutually acknowledged child, and

(2) Such partnership had 10 or less partners.

(c) Stock in a corporation carrying on a trade or business if:

(1) 50 percent or more in value of the voting stock of such corporation was owned by the decedent and his or her spouse, lineal ancestor, lineal issue or mutually acknowledged child, and

(2) Such corporation had 10 or less shareholders.

SEC. 3. Section 14306 of the Revenue and Taxation Code is amended to read:

14306. (a) Upon the approval of a bond for the deferment of payment of the tax imposed on a transfer subject to a contingency or condition upon the occurrence of which the right, interest, or estate of the transferee may, in whole or in part, be created, defeated, extended, or abridged, the lien upon the property included in the transfer ceases.

(b) Upon entry of a decree of distribution incorporating the consent of the Controller pursuant to Section 14105 or an agreement entered into pursuant to Section 14143.5, which consent or agreement provides for the deferment of the tax imposed by this part, the lien upon property not subject to such consent or agreement ceases.

CHAPTER 1231

Where the form or manner of notice is prescribed by statute in any particular case, in addition to filing and mailing notice as required herein, the notice shall be published, posted, mailed, filed or otherwise publicized as prescribed by that statute.

The failure to mail notice to any person as provided in this section shall not invalidate any action taken by a state agency pursuant to this article. The provisions of Article 5 of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code shall not apply to the publication of newspaper notices under this section.

SEC. 2. Section 11424 of the Government Code is amended to read:

(c) Prior to the entry of a waiver of constitutional right pursuant to any rules adopted under this section, the court shall inform the defendant in writing of the nature of the proceedings and of his right to confront and cross-examine witnesses, to subpoena witnesses on his behalf, and to hire counsel at his own expense. The court shall ascertain that the defendant knowingly and voluntarily waives his right to be confronted by the witnesses against him, to subpoena witnesses in his behalf, and to hire counsel on his behalf before proceeding.

(d) In any jurisdiction with a non-English-speaking population exceeding 5 percent of the total population of the jurisdiction in any one language, a written explanation of the procedures and rights under this section shall be available in that language.

(e) Except as set forth above, nothing contained herein shall be interpreted to permit the submission of evidence other than in accordance with the law, nor to prevent courts from adopting other rules to provide for trials in accordance with the law.

The agreement shall contain such provisions as the board finds necessary to protect the interests of the system for determination of the amount, time, manner of transfer of cash or the securities or both to be transferred to such city system as representing the value of the interests in the retirement fund of the contracting agency and its employees by reason of contributions and interest credited to such agency and its employees. All liability of this system with respect to members and retired persons under such contract shall cease and shall become the liability of such city system as of the date of termination specified in the agreement. Liability of the city system shall be for payment of benefits to persons retired on the termination date and their beneficiaries and of beneficiaries of deceased members in at least the amount provided under the agency's contract as it was on that date. Such termination shall not affect the contribution rate of any member in any other employment under the system on the date of termination or any retirement allowance or other benefit based on service. Any member who becomes a member of a city system upon such contract termination shall be subject to provisions of this part extending rights to a member or subjecting him to limitations because of membership in another retirement system to the same extent that he would have been had he been a member of the city system during his membership in this system under the terminated contract.

(2) Assist any political subdivision within which temporary housing for disaster victims is proposed to be located to acquire sites necessary for such temporary housing and to do all things required to prepare such sites to receive and utilize temporary housing units by advancing or lending any funds available to the Governor from any appropriation made by the Legislature or from any other source, by transmitting any funds made available by any public or private agency, or by acting in cooperation with the political subdivision for the execution and performance of any project for temporary housing for disaster victims, and for such purposes to pledge the credit of the state on such terms as he declares necessary under the circumstances, having due regard for current financial obligations of the state.

(3) Under such regulations as he shall make, may temporarily suspend or modify for not to exceed 60 days any public health, safety, zoning, or intrastate transportation law, ordinance, or regulation when by proclamation he declares such suspension or modification essential to provide temporary housing for disaster victims.

(1) Upon his determination that financial assistance is essential to meet disaster-related necessary expenses or serious needs of individuals or families adversely affected by a major disaster that cannot be otherwise adequately met from other means of assistance, to accept any grant by the federal government to fund such financial assistance, subject to such terms and conditions as may be imposed upon the grant.

(2) Enter into an agreement with the federal government, or any officer or agency thereof, pledging the state to participate in the

funding of any grant accepted pursuant to paragraph (1) of this subdivision, in an amount not to exceed 25 percent thereof and, if state funds are not otherwise available to the Governor, accept an advance of the state share from the federal government to be repaid when the state is able to do so.

(3) Notwithstanding any other provisions of law, the Governor is authorized to make financial grants to meet disaster-related necessary expenses or serious needs of individuals or families adversely affected by a major disaster which cannot otherwise adequately be met from other means of assistance, which shall not exceed five thousand dollars ($5,000) in the aggregate to an individual or family in any single major disaster declared by the President.

(4) Upon his determination that a local government will suffer a substantial loss of tax and other revenues from a major disaster and has demonstrated a need for financial assistance to perform its governmental functions, the Governor may apply to the federal government, on behalf of the local government, for a loan, and may receive and disburse the proceeds of any such loan to the local government.

(5) The Governor may determine the amount needed by a local government to restore or resume its governmental functions, and may certify such amount to the federal government; provided, that no such amount shall exceed 25 percent of the annual operating budget of the local government for the fiscal year in which the major disaster has occurred.

(6) The Governor may recommend to the federal government, after reviewing the matter, the cancellation of all or any part of a loan made pursuant to paragraph (5) of this subdivision when during the period of three full fiscal years immediately following the major disaster, the revenues of the local government are insufficient to meet its operating expenses, including disaster-related expenses incurred by the local government.

(e) Any person who fraudulently makes any misstatement of fact in connection with an application for financial assistance under this

section shall, upon conviction of each offense, be guilty of a misdemeanor punishable by a fine of not more than five thousand dollars ($5,000), or imprisonment for not more than one year, or both.

(f) The terms "major disaster," "emergency," and "temporary housing," as used in this section, shall have the same meaning as such terms are defined or used in the Disaster Relief Act of 1974 (P.L. 93-288, 88 Stat. 143). It is the intent of the Legislature in enacting this section that it shall be liberally construed to effectuate the purposes of the Federal Disaster Relief Act of 1974.

However, there may be state-mandated local costs resulting from executive orders based on this act in the current and subsequent fiscal years. Such costs can be provided for in accordance with the provisions of Section 2231 of the Revenue and Taxation Code.

SEC. 3. Section 66786 is added to the Government Code, to read:

66786. The Legislature finds and declares that effective solid waste management can aid in the development of alternative sources of energy through the conversion of solid waste material into energy, synthetic fuels, and recovery of materials. It is the policy of the state and the intent of the Legislature that a well-coordinated governmental effort be directed toward achieving an efficient process for the conversion of solid wastes into energy, synthetic fuels, and reusable materials. Such policy is specifically designed to encourage the dual objectives of materials recovery and the development of supplemental energy resources. Not later than July 1, 1977, and after consultation with interested cities and counties, the State Energy Resources Conservation and Development Commission, the State Air Resources Board, and the State Water Resources Control Board, the board shall select one or more sites that are suitable for the establishment of facilities for the conversion of

solid waste into energy, synthetic fuels, or for the recovery of materials. This selection shall be predicated upon information that shows the feasibility of the particular process based upon availability of markets, project economics, impact of any such facility on local employment, local needs for new energy sources, conformance with local land use planning, and a guaranteed volume of waste or feedstock.

The State Energy Resources Conservation and Development Commission and the California Pollution Control Financing Authority shall assist the board in identifying appropriate sources of funding and developing a plan for financing the facilities. The board shall submit the plan and its recommendations to the Legislature not later than December 31, 1977.

The board shall consult with the State Air Resources Board, State Water Resources Control Board, and State Energy Resources Conservation and Development Commission, and shall cause specifications for the construction and operation of the solid waste conversion facilities to be prepared. The board may call upon any other commission, board, department, or agency of the state or upon any agency of local government for assistance in selection of the site or sites, preparation of plans, and development of specifications.

The board shall enter into one or more agreements to facilitate the construction and operation of any solid waste recovery and conversion facilities with selected cities, counties, private entities, or with any other agencies having jurisdiction over the site or sites selected for such facilities. However, the board shall not enter into any agreement for the construction or operation of any facility the financing of which requires further action of the Legislature until the Legislature has so acted.

Any such agreements shall provide that the construction and operation of any such facilities shall be done in accordance with the specifications of the board, and that the facilities shall be operational within a period of time determined by the board, but in no event later than January 1, 1981.

SEC. 4. Section 66786.5 is added to the Government Code, to read:

66786.5. The Legislature of the State of California hereby finds and declares that there exists a significant air pollution problem associated with the current practice of the burning of agricultural wastes as a means of disposal. The conversion of agricultural waste to a synthetic fuel might serve to mitigate the air pollution problem and the solid waste disposal problems as well as provide an additional source of energy.

This section shall serve as an expression of the intent of the State of California to actively explore and develop the alternative of conversion of agricultural wastes to synthetic fuels rather than the current practice of burning.

After consultation with the State Energy Resources Conservation and Development Commission and the State Air Resources Board,

the board shall determine the economic feasibility of developing a research and demonstration project which would further the development of the concept of conversion of agricultural wastes to synthetic fuel. As a part of this feasibility analysis, the board shall:

(a) Determine whether an adequate volume of wastes would be available to serve such a project.

(b) Complete an analysis of the cost of transporting the agricultural wastes from the fields to the conversion unit.

(c) Determine whether a mobile or stationary system should be developed and demonstrated.

(d) Develop a test program that will result in the construction and demonstration of such a system.

(e) Determine the availability of matching federal funds.

Upon a finding by the board that such a demonstration is an economically feasible solution to problems caused by the burning of agricultural wastes, with the assistance and cooperation of the State Energy Resources Conservation and Development Commission and the State Air Resources Board, the board shall undertake the construction and field demonstration of a system for the conversion of agricultural wastes to synthetic fuel. Such field demonstration shall be completed by July 1, 1979. The demonstration program shall study the various parameters of system performance regarding air pollution emissions, other environmental impacts, the utility of the system on various types of agricultural wastes, the evaluation of the reliability of the process, and an overall economic analysis.

As a result of this demonstration project, the board shall provide for public consumption, documentation regarding the evaluation of the system. Assuming the demonstration is a successful one, the documentation shall be in a form that would encourage commercial development of conversion of agricultural wastes to synthetic fuel.

SEC. 5. Notwithstanding any other provision of law, the sum of two hundred fifty thousand dollars ($250,000) of the appropriation made for support of the State Solid Waste Management Board by Section 10.6 of the Budget Act of 1976 (Chapter 320 of the Statutes of 1976) is hereby reappropriated to the State Solid Waste Management Board for expenditure during the 1976–77 and 1977–78 fiscal years for use by the board for the research and demonstration project for conversion of agricultural wastes to synthetic fuel utilizing a mobile converter in accordance with Section 66786.5 of the Government Code. Such sum may be used by the board for any useful purpose of such research and demonstration project utilizing a mobile converter, including, but not limited to, obtaining matching funds for federal or other public or private funds or grants for such research and demonstration project.

SEC. 6. The State Energy Resources Conservation and Development Commission shall consider in its research and development budget funding request for the 1977–78 fiscal year such amounts, not to exceed two hundred fifty thousand dollars ($250,000) and as identified in the feasibility study, to carry out such

4 1395 29 1 385 238

demonstration project.

SEC. 7. The Legislature finds and declares that the deletion of the requirement that the representative of the public appointed by the Speaker of the Assembly to the State Solid Waste Management Board be a registered civil engineer is necessary to effect the intent of the Nejedly-Z'berg-Dills Solid Waste Management and Resource Recovery Act of 1972 as adopted by the Legislature.

CHAPTER 1247

An act to add Sections 16721 and 16721.5 to the Business and Professions Code, relating to discriminatory trusts and restraints of trade.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 27, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 16721 is added to the Business and Professions Code, to read:

16721. Recognizing that the California Constitution prohibits a person from being disqualified from entering or pursuing a business, profession, vocation, or employment because of sex, race, creed, color, or national or ethnic origin, and guarantees the free exercise and enjoyment of religion without discrimination or preference; and recognizing that these and other basic, fundamental constitutional principles are directly affected and denigrated by certain on-going practices in the business and commercial world, it is necessary that provisions protecting and enhancing a person's right to enter or pursue business and to freely exercise and enjoy religion, consistent with law, be established.

(a) No person within the jurisdiction of this state shall be excluded from a business transaction on the basis of a policy expressed in any document or writing and imposed by a third party where such policy requires discrimination against that person on the basis of the person's sex, race, color, religion, ancestry or national origin or on the basis that the person conducts or has conducted business in a particular location.

(b) No person within the jurisdiction of this state shall require another person to be excluded, or be required to exclude another person, from a business transaction on the basis of a policy expressed in any document or writing which requires discrimination against such other person on the basis of that person's sex, race, color, religion, ancestry or national origin or on the basis that the person conducts or has conducted business in a particular location.

(c) Any violation of any provision of this section is a conspiracy against trade.

(d) Nothing in this section shall be construed to prohibit any person, on this basis of his or her individual ideology or preferences, from doing business or refusing to do business with any other person consistent with law.

SEC. 2. Section 16721.5 is added to the Business and Professions Code, to read:

16721.5. It is an unlawful trust and an unlawful restraint of trade for any person to do the following:

(a) Grant or accept any letter of credit, or other document which evidences the transfer of funds or credit, or enter into any contract for the exchange of goods or services, where the letter of credit, contract, or other document contains any provision which requires any person to discriminate against or to certify that he, she, or it has not dealt with any other person on the basis of sex, race, color, religion, ancestry, or national origin, or on the basis of a person's lawful business associations.

(b) To refuse to grant or accept any letter of credit, or other document which evidences the transfer of funds or credit, or to refuse to enter into any contract for the exchange of goods or services, on the ground that it does not contain such a discriminatory provision or certification.

The provisions of this section shall not apply to any letter of credit, contract, or other document which contains any provision pertaining to a labor dispute or an unfair labor practice if the other provisions of such letter of credit, contract, or other document do not otherwise violate the provisions of this section.

For the purposes of this section, the prohibition against discrimination on the basis of a person's business associations shall be deemed not to include the requiring of association with particular employment or a particular group as a prerequisite to obtaining group rates or discounts on insurance, recreational activities, or other similar benefits.

For purposes of this section, "person" shall include, but not be limited to, individuals, firms, partnerships, associations, corporations, and governmental agencies.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1248

An act to amend Section 16053.1 of, and to add Article 2 (commencing with Section 15051) to Chapter 1 of Division 11 of, the Education Code, relating to school sites.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 27, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds that the availability of park and open-space land is diminishing while the need and price of land suitable for park and open-space land is increasing. The Legislature further finds that school districts often own parcels of land which are no longer needed by the district solely for educational purposes and which would be ideal for park or open-space land purposes or for partial use for such purposes. Often, such surplus land would have been developed by the district for school recreational and athletic purposes if the district had sufficient available funds for such purposes.

It is, therefore, the intent of the Legislature to permit the governing board of any school district to sell surplus school property to any park district, city, or county for less than fair market value for use or partial use as park or recreational purposes or open-space purposes if the school district receives what it considers to be valuable consideration in return, such as the retaining of a future interest in the property or the partial use of the property for school recreational or athletic purposes. Such a sale for less than fair market value shall not be considered to be a violation of Section 6 of Article XVI of the California Constitution.

SEC. 2. Article 2 (commencing with Section 15051) is added to Chapter 1 of Division 11 of the Education Code, to read:

Article 2. Disposal of Sites

15051. Notwithstanding the provisions of Article 2 (commencing with Section 16051) of Chapter 2 of Division 12 and in addition to the requirements placed upon school districts pursuant to Section 54222 of the Government Code, the governing board of any school district may sell, for less than fair market value, any school site that is deemed to be surplus property of the district, to any park district, city, or county in which the school district is wholly or partially situated for use or partial use as park or recreational purposes or open-space purposes if the governing board adopts a resolution specifying that it will sell or transfer such property for less than fair market value to such an entity for such a purpose. The offer to sell shall be made in writing, but the terms by which the property may be sold or transferred need not be specifically provided.

01530 291455 252

15053. The sale or transfer may be made for cash and other valuable consideration, or for other valuable consideration, as deemed appropriate by the governing board of the school district. The sale or transfer may be made without first taking a vote of the electors of the district.

15054. A school district's offer to sell or transfer the land shall be made to all park districts, cities, and counties in which the school district is wholly or partially situated pursuant to this article and shall remain open for not less than 60 days. The sale or transfer shall be made to whichever public entity first accepts the offer, or whichever public entity can negotiate satisfactorily for the purchase or transfer of such surplus land.

SEC. 3. Section 16053.1 of the Education Code is amended to read:

16053.1. Except as provided for in Article 2 (commencing with Section 15051) of Chapter 1 of Division 11, the sale or lease with an option to purchase of real property by a school district shall be in accordance with the following priorities and procedures:

(a) First, the property shall be offered for park or recreational purposes pursuant to Article 8 (commencing with Section 54220) of Chapter 5 of Part 1 of Division 2 of Title 5 of the Government Code, in any instance in which such article is applicable.

(b) Second, the property shall be offered for sale or lease with an option to purchase, at fair market value;

(1) In writing, to the state, the Regents of the University of California, the Trustees of the California State University and Colleges, the county and city in which the property is situated, and to any public housing authority in the county in which the property is situated; and

(2) By public notice to any public district, public authority, public agency, public corporation, or any other political subdivision in this state, to the federal government, and to nonprofit charitable corporations organized pursuant to Part 3 (commencing with Section 10200) of Division 2 of Title 1 of the Corporations Code. Public notice shall consist of at least publishing its intention to dispose of the real property in a newspaper of general circulation within the district, or if there is no such newspaper, then in any newspaper of general circulation that is regularly circulated in the district. The notice shall specify that the property is being made available to all public districts, public authorities, public agencies, and other political subdivisions or public corporations in this state, and to other nonprofit charitable corporations.

Publication of notice pursuant to this section shall be once each week for three successive weeks. Three publications in a newspaper regularly published once a week or more often, with at least five days intervening between the respective publication dates not counting such publication dates, are sufficient. The written notice required by paragraph (1) of this subdivision shall be mailed no later than the date of the second published notice.

The entity desiring to purchase or lease the property shall, within 60 days after the third publication of notice, notify the school district of its intent to purchase or lease the property. If the entity desiring to purchase or lease the property and the district are unable to arrive at a mutually satisfactory price or lease payment during the 60-day period, the property may be disposed of as otherwise provided in this section. In the event the district receives offers from more than one entity pursuant to this subdivision, the school district governing board may, in its discretion, determine which of such offers to accept.

(c) Third, the property shall be made available in writing to the former owner, in accordance with Section 16058.3. This subdivision shall not be applicable to community college districts.

(d) Fourth, the property may be disposed of in any other manner authorized by law.

A three-semester-unit variance in any of the required four areas may be allowed. The governing board of the school district by resolution shall provide specific authorization for such assignment. The authorization of the governing board shall remain valid for one year and may be renewed annually.

(g) The provisions of this section shall be applicable only to high school districts with an average daily attendance of 2,000 or less, exclusive of average daily attendance of pupils in the 7th and 8th grades and shall be applicable only if a majority of the electors of such districts voting at an election approve of a proposition providing for the computations required by this section. Opposite such words, in separate lines, the words "Yes" and "No" shall be printed, with a voting square opposite each such word.

Such election shall be consolidated with the general election of 1976.

SEC. 4. CHAPTER 1257

An act to amend Sections 5201, 13656, and 13656.2 of, and to add Section 13656.4 to, the Education Code, relating to school holidays.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 27, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 5201 of the Education Code is amended to read:

5201. Except as otherwise provided the public schools shall continue in session or close on specified holidays as follows:

(a) The public schools shall close on January 1st, February 12th known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4th, the first Monday in September known as "Labor Day," November 11th known as "Veterans Day," that Thursday in November proclaimed by the President as "Thanksgiving Day," and December 25th.

(b) The Governor in appointing any other day for a public fast, thanksgiving, or holiday may provide whether the public schools shall close on the day. If the Governor does not provide whether the public schools shall close, they shall continue in session on all special or limited holidays appointed by the Governor, but shall close on all other days appointed by the Governor for a public fast, thanksgiving, or holiday.

(c) The public schools shall close on every day appointed by the President as a public fast, thanksgiving, or holiday, unless it is a special or limited holiday.

(d) The public schools shall continue in session on all legal holidays other than those designated by or pursuant to this section and shall hold proper exercises commemorating the day.

(e) When any of the holidays on which the schools would be closed fall on Sunday, the public schools shall close on the Monday following.

(f) When any of the holidays on which the schools would be closed fall on Saturday, the public schools shall close on the preceding Friday, and such Friday shall be declared a state holiday.

(g) If any holiday on which the public schools are required to close pursuant to subdivision (a) occurs under federal law on a date different than the date specified in subdivision (a), the governing board of any school district may close the public schools of the district on the date recognized by federal law and maintain classes on the date specified in subdivision (a).

(h) Nothing in this section is to be interpreted as authorizing a school district governing board to maintain schools in its district for a lesser number of days during the school year than the minimum established by law.

SEC. 2. Section 13656 of the Education Code is amended to read:

13656. All employees a part of the classified service shall be entitled to the following paid holidays provided they are in a paid status during any portion of the working day immediately preceding or succeeding the holiday: January 1, February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," July 4, the first Monday in September known as "Labor Day," November 11 known as "Veterans Day," that Thursday in November proclaimed by the

President as "Thanksgiving Day," December 25, every day appointed by the President, or the Governor of this state, as provided for in subdivisions (b) and (c) of Section 5201 for a public fast, thanksgiving or holiday, or any day declared a holiday under Section 877 or 5202 for classified or certificated employees. School recesses during the Christmas and Easter periods shall not be considered holidays for classified employees who are normally required to work during that period; provided, however, that this shall not be construed as affecting vacation rights specified in Section 13656.

Regular employees of the district who are not normally assigned to duty during the school holidays of December 25 and January 1 shall be paid for those two holidays provided that they were in a paid status during any portion of the working day of their normal assignment immediately preceding or succeeding the holiday period.

When a holiday herein listed falls on a Sunday, the following Monday shall be deemed to be the holiday in lieu of the day observed. When a holiday herein listed falls on a Saturday, the preceding Friday shall be deemed to be the holiday in lieu of the day observed. When a classified employee is required to work on any of said holidays, he shall be paid compensation, or given compensating time off, for such work, in addition to the regular pay received for the holiday, at the rate of time and one-half his regular rate of pay.

The provisions of Article 3 (commencing with Section 5201) of Chapter 2 of Division 6 shall not be construed to in any way limit the provisions of this section, nor shall anything in this section be construed to prohibit the governing board from adopting separate work schedules for the certificated and the classified services, or from providing holiday pay for employees who have not been in paid status on the days specified herein. Notwithstanding the adoption of separate work schedules for the certificated and the classified services, on any schoolday during which pupils would otherwise have been in attendance but are not and for which certificated personnel receive regular pay, classified personnel shall also receive regular pay whether or not they are required to report for duty that day.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 3. Section 13656.2 of the Education Code is amended to read:

13656.2. Prior to July 1 of any school year, the governing board of any school district may designate other days during such year as the holidays to which classified employees are entitled in lieu of the holidays on February 12 known as "Lincoln Day," the third Monday in February known as "Washington Day," the last Monday in May known as "Memorial Day," or November 11 known as "Veterans Day" as specified in Section 13656, provided that such designated days will provide for at least a three-day weekend. Classified employees shall be required to work on the regular holiday for which

another day is designated pursuant to this section, and for work of eight hours or less, shall be paid compensation at their regular rate of pay.

If any classified employee would be entitled to the regular paid holiday but would not be in a paid status during any portion of the working day immediately preceding or succeeding the day so designated in lieu of such holiday and therefore would not be entitled to such day in lieu of the holiday, he shall be entitled to the regular holiday; however, if he is required to work on such holiday, he shall be paid compensation at the rate of time and one-half of his regular rate of pay in addition to the regular pay received for the holiday.

This section shall not be construed to authorize the maintenance of schools on holidays other than as provided in Article 3 (commencing with Section 5201) of Chapter 2 of Division 6.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

SEC. 4. Section 13656.4 is added to the Education Code, to read:

13656.4. Notwithstanding any other provision of law, if the governing board of a school district does not designate September 9 known as "Admission Day" as a paid holiday for classified employees pursuant to Section 5202, the school district shall provide a substitute holiday for such employee.

This section shall apply to districts that have adopted the merit system in the same manner and effect as if it were a part of Article 5 (commencing with Section 13701) of this chapter.

CHAPTER 1258

An act to amend Section 454 of the Elections Code, relating to elections.

SECTION 1. Section 454 of the Elections Code is amended to read:

454. Upon demand of any Member of the Legislature or of Congress or any candidate who is to be voted for in the county, or in a city therein, or in a political subdivision of either, or upon written demand of his campaign committee, or of any committee for or against any proposed ballot measure, or of any committee for or against any referendum or initiative measure for which legal publication has been made, the county clerk shall furnish to such Member of the Legislature or of Congress or to either the candidate

or his campaign committee or to the ballot measure committee no more than two copies of the printed indexes of the registration for the primary and general elections in which such Member of the Legislature or of Congress may participate as a candidate, or for the election in which the candidate will participate, or the ballot measure will be voted upon, at a charge of fifty cents ($0.50) per thousand names. All moneys collected shall be deposited in the county treasury to the credit of the general fund.

For purposes of this section, the term "candidate" includes any person who declares in writing, under penalty of perjury, that he or she is a candidate, naming the office.

SEC. 2. It is the intent of the Legislature that if this bill and Assembly Bill No. 2606 of the 1975–76 Regular Session of the Legislature are both chaptered and this bill is chaptered last that, notwithstanding the provisions of Section 28.5 of Assembly Bill No. 2606, Section 1 of this bill, amending Section 454 of the Elections Code shall not become operative, and Section 604.5 as proposed to be added to the Elections Code by Section 12.5 of Assembly Bill No. 2606 shall become operative. If, however, Assembly Bill No. 2606 is not chaptered, Section 1 of this bill amending Section 454 of the Elections Code shall become operative.

CHAPTER 1259

An act to amend Section 53036 of the Government Code, relating to local agencies.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 53036 of the Government Code is amended to read:

53036. No local agency as defined in Section 54951 shall sell, lease, or otherwise transfer real property owned by it and lying between the high water line of the Pacific Ocean and the public street or highway nearest the Pacific Ocean without reserving to the public the right of access over such real property, unless such local agency or its grantee shall make available to the public an alternate route which, in the judgment of the local agency, gives equal or greater public access to the Pacific Ocean in the same immediate vicinity.

Any public access right or rights identified or provided pursuant to this section shall be expressly described in any document effecting the sale, lease, or transfer of such real property.

SEC. 2. Enactment of this amendment to Section 53036 of the Government Code is not intended to affect in any way public rights or claims of any sort whether proven or not, nor is this amendment

intended to alter or affect in any way existing law with respect to public rights or claims, including any rights or claims arising from the doctrine of implied dedication and prescriptive rights.

CHAPTER 1260

An act to add Chapter 2.5 (commencing with Section 11800) to Division 8 of the Elections Code, relating to elections.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 11800) is added to Division 8 of the Elections Code, to read:

CHAPTER 2.5. MASS MAILING

11800. No newsletter or other mass mailing shall be sent at public expense by or in behalf of an elected city, county, or district official, including an official of a chartered city or chartered county, to any person residing within the jurisdiction from which he or she was elected or to which he or she seeks election, after the elected official has filed a declaration of candidacy, nomination paper, affidavit of acceptance of sponsor's declaration, acceptance of nomination, or any other paper evidencing an intention to be a candidate for any local, state, or federal office.

11801. "Mass mailing" means identical or nearly identical pieces of mail in an amount which, in any month, exceeds 1 percent of the population of the jurisdiction from which the official was elected, according to the latest federal census, or which, in the 30 days preceding a local election, exceeds 200 pieces, but does not include a form letter or other mail which is sent in response to a letter or inquiry or an official mailing required by law.

11802. The Legislature hereby finds and declares that the provisions of this chapter constitute a matter of statewide concern. Accordingly, it is the intent of the Legislature that this chapter apply to chartered cities.

CHAPTER 1261

An act to amend Sections 18661 and 22458.1 of the Financial Code, and to add Section 779.27 to the Insurance Code, relating to credit life and disability insurance.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 18661 of the Financial Code is amended to read:

18661. (a) An industrial loan company may provide and collect the costs for credit life insurance on the life of one or more of the borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the Insurance Commissioner and in an amount not in excess of the amount of the indebtedness. The amount charged to the borrower for such insurance shall not exceed, in the case of credit life insurance, the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to Section 18661.1, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1), Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

(b) An industrial loan company may collect the costs for insurance of tangible personal or real property offered as security for a loan, reasonably insured against loss for a reasonable term considering the circumstances of the loan, when the policy of insurance is made payable to the borrower or any member of his family, even though the customary mortgagee clause is attached, and if the insurance is sold at standard rates through duly licensed insurance agents except that if title insurance is obtained in connection with a loan, the costs for such insurance may only be collected if: (1) the loan is in an amount of at least one thousand dollars ($1,000) and is secured by the lien of a deed of trust or mortgage on real property which is the subject of such policy of title insurance; (2) the policy of title insurance is made payable to the lender or jointly to such lender and the borrower as their interests may appear; (3) the amount of such insurance does not exceed the amount of the loan; (4) such insurance is placed at standard rates through a title insurance company authorized to do business in the State of California; and (5) the provisions of the loan require payment in not less than 12 months. A policy of title insurance may not be required in connection with the renewal or extension of a loan with an unpaid principal balance of less than one thousand dollars ($1,000). Such costs as herein

authorized are not included in computing the maximum charges which may be made under this division.

(c) If life or disability insurance is provided pursuant to this section, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or limitation, subject, however, to the provisions of Section 18661.2. Any such life or disability insurance as is provided shall be in force as soon as the loan is made. A licensee shall not require credit life or disability insurance as a condition of making a loan.

SEC. 2. Section 22458.1 of the Financial Code is amended to read:

22458.1. Credit life insurance on the life of a borrower and credit disability insurance shall not be deemed to be a collateral sale, purchase, or agreement within the terms of Sections 22004, 22456 or 22457 when such insurance is provided in accordance with the provisions of the Insurance Code and this section.

(a) A licensee may provide insurance on the life of one or more borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the Insurance Commissioner and in an amount not in excess of the amount of the indebtedness and may collect from the borrower an amount not in excess of that permitted by subdivision (d) of this section. If the loan is prepaid in full by cash, a new loan, refinancing or otherwise (except by said insurance) before the final installment date, the borrower shall receive a rebate of said amount computed in accordance with the method established in Section 22480 or in accordance with the formula approved by the Insurance Commissioner pursuant to Section 779.14 of the Insurance Code, whichever would result in a greater rebate to the borrower. When charges for the loan are precomputed in accordance with Section 22480, any required rebate and any permitted deferment charge may be computed on the combined total of the precomputed charge and the life or credit disability insurance charge. Only one such amount may be collected in connection with any loan contract irrespective of the number of borrowers, and only one borrower need be insured. Such amount may be deducted from the principal of the loan. If such life or disability insurance is provided, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or limitation, subject, however, to the provisions of Section 22458.2. Any such life or disability insurance as is provided

shall be in force as soon as the loan is made.

(b) No licensee shall decline new or existing insurance which meets or exceeds the standards set forth in this section, nor prevent any borrower from obtaining such insurance coverage from other sources. A licensee shall not require credit life or disability insurance as a condition of making a loan.

(c) If a borrower procures such insurance by or through a licensee, the statement required by Section 22473 shall disclose the cost thereof to the borrower, and the licensee shall deliver or cause to be delivered to the borrower a copy of the policy, certificate, or other evidence thereof, within a reasonable time. In the event a licensee provides credit disability insurance pursuant to this division, the licensee shall also deliver an understandable written statement to the borrower detailing the conditions when the borrower will be entitled to make a claim under the insurance policy and the procedure to be followed in making such claim. This statement shall be first approved by the commissioner.

(d) The amount charged to the borrower for such insurance shall not exceed in the case of credit life insurance the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to subdivision (e) of this section, in which case the amount charged shall not exceed the amount prescribed by such regulation, the amount provided in (1) following:

(1) The premium rate filed with the Insurance Commissioner for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1) of Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as shall have been fixed by the Insurance Commissioner by a valid and effective regulation adopted on or after December 31, 1961 and applicable to all licensees under the Personal Property Broker Law.

(e) Each two years beginning in 1961, the commissioner shall, not later than 90 days after the date when licensees are required to file annual reports pursuant to Section 22408 compile and send to the Insurance Commissioner the total dollar amount of all death and disability claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges collected by such licensees for such insurance and data as to the actual costs to such licensees for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Insurance Commissioner shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life and disability insurance experience and shall promulgate and establish a

41486 292235 336

general regulation fixing the maximum which may be charged for such insurance by licensees hereunder having due regard to the relation of the total amount of death and disability claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to licensees for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, markup to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 3. Section 779.27 is added to the Insurance Code, to read:

779.27. In accordance with this article and the regulations adopted pursuant to Section 779.21, the commissioner shall, after notice and public hearing, promulgate regulations setting forth standard forms of credit life and disability insurance policies, certificates of insurance, notices of proposed insurance, applications for insurance, endorsements, and riders. The use of such forms shall be mandatory, except that commissioner may approve the use of nonstandard forms which are in accord with this article and the regulations adopted pursuant to Section 779.21.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

"Subdivision" includes a condominium project, as defined in Section 1350 of the Civil Code or a community apartment project, as defined in Section 11004 of the Business and Professions Code. Any conveyance of land to a governmental agency, public entity or public utility shall not be considered a division of land for any purpose. As used in this section, "agricultural purposes" means the cultivation of food or fiber or the grazing or pasturing of livestock.

(b) The size of each sheet shall be 18 x 26 inches. A marginal line shall be drawn completely around each sheet, leaving an entirely blank margin of one inch. The particular number of the sheet and the total number of sheets comprising the map shall be stated on each of the sheets, and its relation to each adjoining sheet shall be clearly shown.

(c) Each parcel shall be numbered or otherwise designated.

(d) The exterior boundary of the land included within the subdivision shall be indicated by distinctive symbols and clearly so designated.

(e) The map shall show the location of each parcel and its relation to surrounding surveys. (f) Subject to the provisions of Section 66436, a certificate, signed and acknowledged by all parties having any record title interest in the real property subdivided, consenting to the preparation and recordation of the parcel map is required, except that less inclusive requirements may be provided by local ordinance.

CHAPTER 1265

An act to amend Sections 2982, 2983.2, and 2983.3 of, and to add Section 2982.8 to, the Civil Code, relating to automobile sales.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2982 of the Civil Code is amended to read:

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing and, if printed, shall be printed in type no smaller than six-point, and shall contain in a single document all of the agreements of the buyer and seller with respect to the total cost and the terms of payment for the motor vehicle, including any promissory notes or any other evidences of indebtedness. The conditional sale contract or a purchase order shall be signed by the buyer or his authorized representative and by the seller or its authorized representative, and an exact copy thereof shall be furnished the buyer by the seller at the time the buyer and the seller have signed the contract or purchase order. No motor vehicle shall be delivered under this chapter until the seller delivers to the buyer a fully executed copy of the conditional sale contract or purchase order and any vehicle purchase proposal and any credit statement which the seller has required or requested the buyer to sign, and which he has signed, during the contract negotiations. The seller shall not obtain the signature of the buyer to a contract when it contains blank spaces to be filled in after it has been signed. Every conditional sale contract shall contain, although not necessarily in the sequence or order set forth below, the following separate items:

1. The cash price of the motor vehicle described in the conditional sale contract.

2. The amount of the buyer's downpayment, and whether made in cash or represented by the net agreed value of described property traded in, or both, together with a statement of the respective amounts credited for cash and for such property.

3. The unpaid balance of cash price, which is the difference between items 1 and 2.

4. The cost to the buyer of any insurance, the premium for which is included in the contract balance. Any such cost for credit life or disability insurance may be included in the finance charge if the amount thereof is separately stated on the face of the contract.

5. The amounts, if any, paid or to be paid to any public officer in connection with the transaction and for license, certificate of title, and registration fees imposed by law.

6. The amount of the unpaid balance, which is the sum of items 3, 4, and 5.

7. The amount of the finance charge.

8. The total of payments, which is the sum of items 6 and 7, payable by the buyer to the seller, the number of installments required, the amount of each installment, and the date for payment of the installments.

9. The names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 of this code is to be sent.

10. A notice, in at least eight-point bold type if the contract is printed, reading as follows: "Notice to the buyer: (1) Do not sign this

agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and disposition of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single document requirement of subdivision (a).

SEC. 2. Section 2982.8 is added to the Civil Code, to read:

2982.8. (a) If a buyer is obligated under the terms of the conditional sale contract to maintain insurance on the vehicle and subsequent to the execution of the contract the buyer either fails to maintain or requests the holder to procure such insurance, any amounts advanced by the holder to procure such insurance may be added to the contract balance and shall be secured by the motor vehicle provided that the holder notifies the buyer in writing of his or her option to repay such amounts in any one of the following ways:

(1) Full payment upon demand.

(2) Full amortization during the term of the insurance.

(3) Full amortization after the term of the conditional sale contract to be payable in installments which do not exceed the average payment allocable to a monthly period under the contract.

(4) If offered by the holder, any other amortization plan.

(b) The written notification described in subdivision (a) shall also set forth the amounts advanced by the holder and, with respect to each amortization plan, the amount of the finance charge, the sum of the amounts advanced and the finance charge, the number of installments required, the amount of each installment and the date for payment of the installments.

(c) The maximum finance charge which may be imposed on amounts advanced by the holder hereunder shall not exceed the rate specified in subdivision (c) of Section 2982.

SEC. 3. Section 2983.2 of the Civil Code is amended to read:

2983.2. (a) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, at least 10 days' written notice of intent to dispose of a repossessed or surrendered motor vehicle must be given to all persons liable on the contract. The notice shall be personally served or shall be sent by certified mail, return receipt requested, or first-class mail, postage prepaid, directed to the last known address of the persons liable on the contract. Except as otherwise provided in Sections 2983.8 and 2983.9, such persons shall be liable for any deficiency after disposition of the repossessed or surrendered motor vehicle only if the notice prescribed by this section is given within 60 days of repossession or surrender and does all of the following:

(1) Sets forth that such persons shall have a right to redeem the motor vehicle by paying in full the indebtedness evidenced by the contract until the expiration of 10 days from the date of giving or mailing the notice and provides an itemization of the contract balance and of any delinquency, collection or repossession costs and fees and sets forth the computation or estimate of the amount of any credit for unearned finance charges or canceled insurance as of the date of the notice.

(2) States either that there is a conditional right to reinstate the contract until the expiration of 10 days from the date of giving or mailing the notice and all the conditions precedent thereto or that there is no right of reinstatement and provides a statement of reasons therefor.

(3) States that, upon written request, the seller or holder shall extend for an additional 10 days the redemption period or, if entitled to the conditional right of reinstatement, both the redemption and reinstatement periods. The seller or holder shall provide the proper form for applying for such extensions with the substance of such form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by first-class mail, return receipt requested, to a person or office and address designated by the seller or holder.

(4) Discloses the place at which the motor vehicle will be returned to such persons upon redemption or reinstatement.

(5) Designates the name and address of the person or office to whom payment shall be made.

(6) States the seller's or holder's intent to dispose of the motor vehicle upon the expiration of 10 days from the date of giving or mailing the notice, or if by mail and either the place of deposit in the mail or the place of address is outside of this state, the period shall be 20 days instead of 10 days, and further, that upon written request to extend the redemption period and any applicable reinstatement period for 10 days, the seller or holder shall without further notice extend the period accordingly.

(7) Informs such persons that upon written request, the seller or holder shall furnish a written accounting regarding the disposition of the motor vehicle as provided for in subdivision (b). The seller or holder shall advise them that such request must be personally served or sent first-class mail, postage prepaid, or certified mail, return receipt requested, to a person or office and address designated by the seller or holder.

(8) Includes notice, in at least 10-point bold type if the notice is printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE CONTRACT BALANCE AND ANY OTHER AMOUNTS DUE."

(b) Unless automatically provided to the buyer within 45 days after the disposition of the motor vehicle, the seller or holder shall provide to any person liable on the contract within 45 days after their written request, if such request is made within one year after the disposition, a written accounting regarding the disposition. Such accounting shall itemize:

(1) The gross proceeds of the disposition.

(2) The reasonable and necessary expenses incurred for retaking, holding, preparing for and conducting the sale and to the extent provided for in the agreement and not prohibited by law, reasonable attorney fees and legal expenses incurred by the seller or holder in retaking the vehicle from any person not a party to the contract.

(3) The satisfaction of indebtedness secured by any subordinate lien or encumbrance on the motor vehicle if written notification of demand therefor is received before distribution of the proceeds is completed. If requested by the seller or holder, the holder of a subordinate lien or encumbrance must seasonably furnish reasonable proof of its interest, and unless it does so, the seller or holder need not comply with its demand.

(c) In all sales which result in a surplus, the seller or holder shall furnish an accounting as provided in subdivision (b) whether or not requested by the buyer. Such surplus shall be returned to the buyer within 45 days after the sale is conducted.

SEC. 4. Section 2983.3 of the Civil Code is amended to read:

2983.3. (a) In the absence of default in the performance of any of the buyer's obligations under the contract, the seller or holder may not accelerate the maturity of any part or all of the amount due thereunder or repossess the motor vehicle.

(b) If after default by the buyer, the seller or holder repossesses or voluntarily accepts surrender of the motor vehicle, any person liable on the contract shall have a right to reinstate the contract and the seller or holder shall not accelerate the maturity of any part or all of the contract prior to expiration of such right to reinstate, unless the seller or holder reasonably and in good faith determines that:

(1) The buyer or any other person liable on the contract by omission or commission intentionally provided false or misleading information of material importance on his or her credit application.

(2) The buyer or any other person liable on the contract in order to avoid repossession has concealed the motor vehicle or removed it from the state; or

(3) The buyer or any other person liable on the contract has committed or threatens to commit acts of destruction, or has failed to take care of the motor vehicle in a reasonable manner, so that the motor vehicle has or may become substantially impaired in value.

(c) Exercise of such right to reinstate the contract shall be limited to once in any 12 months period and twice during the term of the contract.

(d) The provisions of this subdivision shall govern the method by which a contract shall be reinstated with respect to curing events of default which were a ground for repossession or occurred subsequent to repossession.

(1) Where the default is the result of the buyer's failure to make any payment due under the contract, the buyer or any other person liable on the contract shall make the defaulted payments and pay any applicable delinquency charges.

(2) Where the default is the result of the buyer's failure to keep and maintain the motor vehicle free from all encumbrances and liens of every kind, the buyer or any other person liable on the contract shall either satisfy all such encumbrances and liens or, in the event the seller or holder satisfies the encumbrances and liens, the buyer or any other person liable on the contract shall reimburse the seller or holder for all reasonable costs and expenses incurred therefor.

(3) Where the default is the result of the buyer's failure to keep and maintain insurance on the motor vehicle, the buyer or any other person liable on the contract shall either obtain the insurance or, in the event the seller or holder has obtained the insurance, the buyer or any other person liable on the contract shall reimburse the seller or holder for premiums paid and all reasonable costs and expenses incurred therefor.

(4) Where the default is the result of the buyer's failure to perform any other obligation under the contract, unless the seller or holder has made a good faith determination that the default is so substantial as to be incurable, the buyer or any other person liable

on the contract shall reimburse the seller or holder for all reasonable costs and expenses incurred therefor.

(5) Additionally, the buyer or any other person liable on the contract shall, in all cases, reimburse the seller or holder for all reasonable and necessary collection and repossession costs and fees incurred, including attorney's fees and legal expenses expended in retaking and holding the vehicle.

(e) If the seller or holder denies the right to reinstatement under subdivision (b) or paragraph (4) of subdivision (d), the seller or holder shall have the burden of proof that such denial was justified in that it was reasonable and made in good faith. If the seller or holder fails to sustain such burden of proof, the seller or holder shall not be entitled to a deficiency.

SEC. 5. The provisions of Section 2 are intended to abrogate any contrary rule in Winters v. Security Pacific National Bank, 49 Cal. App. 3d 510, regarding the addition of money advanced by the holder of a conditional sale contract for insurance on a motor vehicle to the contract balance.

SEC. 6. The provisions of Sections 1 to 4, inclusive, shall have prospective application only to all contracts entered into on or after January 1, 1977.

CHAPTER 1266

An act to amend Section 12389 of the Insurance Code, relating to underwritten title companies.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 12389 of the Insurance Code is amended to read:

12389. (a) An underwritten title company as defined in Section 12340.5, which shall be a stock corporation, may engage in the business of preparing title searches, title reports, title examinations, certificates or abstracts of title, upon the basis of which a title insurer writes title policies, provided that:

(1) Only domestic corporations may be licensed under this section and no underwritten title company, as defined in Section 12340.5, shall become licensed under this section, or change the name under which it is licensed or operates, unless it has first complied with the provisions of Section 881.

(2) Depending upon the county or counties in which the company is licensed to transact business, it shall maintain required minimum net worth as follows:

4 1915 29 2 480 385

Aggregate number of documents recorded and documents filed in the offices of the county recorders in the preceding calendar year in all counties where the company is licensed to transact business.	Amount of required minimum net worth
Less than 10,000	$20,000
10,000 to 50,000	30,000
50,000 to 100,000	60,000
100,000 to 500,000	100,000
500,000 to 1,000,000	150,000
1,000,000 or more	200,000

"Net worth" is defined as the excess of assets over all liabilities and required reserves. It may carry as an asset the actual cost of its title plant provided the value ascribed to such asset shall not exceed the lesser of: (a) the actual cost thereof, or (b) 50 percent of its stated capital, as defined in Section 1900 of the Corporations Code.

Where the information in the title plant is not being kept current, the asset value of such plant shall not exceed the actual cost less 20 percent of the actual cost for each 12-month period, immediately preceding the date such asset is valued for purposes of this subdivision, that the title plant is not actually maintained.

An underwritten title company at all times shall maintain current assets of at least ten thousand dollars ($10,000) in excess of its current liabilities, as such current assets and liabilities may be defined pursuant to regulations made by the commissioner. In making such regulations, the commissioner shall be guided by generally accepted accounting principles followed by certified public accountants in this state.

(3) Such an underwritten title company shall obtain from the commissioner a license to transact its business. Such license shall not be granted until the applicant conforms to the requirements of this section and all other provisions of this code specifically applicable to applicant. After issuance the holder shall continue to comply with the requirements as to its business set forth in this code, in the applicable rules and regulations of the commissioner and in the laws of this state.

Any underwritten title company who possesses, or is required to possess, a license pursuant to this section shall be subject as if an insurer to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code and shall be deemed to be subject to authorization by the Insurance Commissioner within the meaning of subdivision (e) of Section 25100 of the Corporations Code.

Such license may be obtained by filing an application on a form

prescribed by the commissioner accompanied by a filing fee of one hundred dollars ($100). Such license when issued shall be for an indefinite term and shall expire with the termination of the existence of the holder, subject to the annual renewal fee imposed under Sections 12415 and 12416.

An underwritten title company seeking to extend its license to an additional county shall pay a one-hundred-dollar ($100) fee for each such additional county, and shall furnish to the commissioner evidence, at least sufficient to meet the minimum net worth requirements of paragraph (2), of its financial ability to expand its business operation to include such additional county or counties.

(4) Such an underwritten title company shall furnish an audit to the commissioner on the forms provided by the commissioner annually, either on a calendar year basis on or before March 31st or, if approved in writing by the commissioner in respect to any individual company, on a fiscal year basis on or before 90 days after the end of the fiscal year. The time for furnishing any such audit may be extended, for good cause shown, on written approval of the commissioner for a period, not to exceed 60 days. Failure to submit an audit on time, or within such extended time as the commissioner may grant, shall be grounds for an order by the commissioner to accept no new business pursuant to subdivision (d). Such audits shall be private, except that a synopsis of the balance sheet on a form prescribed by the commissioner may be made available to the public.

The audit shall be made in accordance with generally accepted auditing standards by an independent certified public accountant or independent licensed public accountant approved by the commissioner specifically for the particular company. Approval of an auditor for a particular company shall not be deemed to be a licensing of the auditor nor approval of the auditor for any other company or any other purpose. Any such approval, or the renewal thereof, shall automatically expire on the first day of January in the fifth calendar year following the date of original or renewal approval. The fee for filing an application for such approval or the renewal thereof shall be ten dollars ($10). The fee for filing the audit shall be twenty-five dollars ($25).

The commissioner may deny or revoke approval or renewal of approval of an auditor for any of the following reasons:

(i) Adverse result in any proceeding before the State Board of Accountancy affecting the auditor's license;

(ii) The auditor has an affiliation with the underwritten title company or any of its officers or directors which would prevent his reports on the company from being reasonably objective;

(iii) The auditor has suffered conviction of any misdemeanor or felony based on his activities as an accountant; or

(iv) Judgment adverse to the auditor in any civil action finding him guilty of fraud, deceit or misrepresentation in the practice of his profession.

Any company which fails to file any audit or other report on or

before the date it is due shall pay to the commissioner a penalty fee of one hundred dollars ($100) and on failure to pay such or any other fee or file the audit required by this section shall forfeit the privilege of accepting new business until the delinquency is corrected.

(b) Such an underwritten title company may engage in the escrow business and act as escrow agent provided that:

(1) All funds deposited with the company in connection with any escrow shall be deposited in a bank in a separate trust account, and such funds shall be the property of the person or persons entitled thereto under the provisions of the escrow and segregated escrow by escrow in the records of the company. Such funds shall not be subject to any debts of the company and shall be used only to fulfill the terms of the individual escrow under which the funds were accepted and none of such funds shall be used until all conditions of the escrow have been met.

Bona fide drafts executed by persons fully responsible financially may at the option of the company, be deemed the equivalent of funds already cleared into such bank deposit unless another law of this state prohibits such persons from tendering such drafts to escrow holders for the purpose of closing escrows.

Any interest received on funds deposited with the company in connection with any escrow which are deposited in a bank shall be paid over to the depositing party to the escrow and shall not be transferred to the account of the company.

(2) It shall maintain record of all receipts and disbursements of escrow funds.

(3) It shall deposit seven thousand five hundred dollars ($7,500) for each county in which it transacts business in some form permitted by Section 12351 with the commissioner who shall forthwith make a special deposit thereof in the State Treasury and such deposit shall be subject to the provisions of Sections 12353, 12356, 12357, and 12358 and as long as there are no claims against the deposit all interest and dividends thereon shall be paid to the depositor. The deposit shall be for the security and protection of persons having lawful claims against the depositor growing out of escrow transactions with it. Such deposit shall be maintained until four years after all escrows handled by the depositor have been closed.

(A) The commissioner may release such deposits prior to the passage of such four-year period upon presentation of evidence satisfactory to the commissioner of either a statutory merger of the depositor into a licensee or certificate holder subject to the jurisdiction of the commissioner, or a valid assumption agreement under which all liability of the depositor stemming from escrow transactions handled by it is assumed by a licensee or certificate holder subject to the jurisdiction of the commissioner.

(B) With the foregoing exceptions, the deposit shall be returned to the depositor or lawful successor in interest following the four-year period, upon presentation of evidence satisfactory to the commissioner that there are no claims against the deposit stemming

from escrow transactions handled by the depositor. If the commissioner has evidence of one or more claims against the depositor, and the depositor is not in conservatorship or liquidation, the commissioner may interplead the deposit by special endorsement to a court of competent jurisdiction for distribution on the basis that claims against the depositor stemming from escrow transactions handled by it have priority in such distribution over other claims against the depositor.

(4) It shall obtain and maintain a fidelity bond on file with the commissioner, to cover all officers and employees of the company who participate in any escrow transaction that is handled by the company. Such bond shall be a blanket bond or, with the approval of the commissioner, may be a position or individual bond. The commissioner shall prescribe the amount of the bond which shall not exceed two hundred thousand dollars ($200,000).

(c) The commissioner shall, whenever it appears necessary, examine the business and affairs of a company licensed under this section. All such examinations shall be at the expense of the company.

(d) At any time that the commissioner determines, after notice and hearing, that a company licensed under this section has willfully failed to comply with any of the provisions of this section, the commissioner shall make his order prohibiting the company from conducting its business for a period of not more than one year.

Any company violating such an order is subject to seizure under Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 is guilty of a misdemeanor and may have its license revoked by the commissioner. Any person aiding and abetting any company in a violation of such an order is guilty of a misdemeanor.

The purpose of this section is to maintain the solvency of the companies subject to this section and to protect the public by preventing fraud and requiring fair dealing. In order to carry out such purposes the commissioner may make reasonable rules and regulations to govern the conduct of its business of companies subject to this section.

The name under which each underwritten title company is licensed shall at all times be an approved name. Each such company shall be subject to the provisions of Article 14 (commencing with Section 1010) and Article 14.5 (commencing with Section 1065.1) of Chapter 1 of Part 2 of Division 1.

Such rules and regulations shall be adopted, amended or repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 2. Section 12389 of the Insurance Code is amended to read:

12389. (a) An underwritten title company as defined in Section 12340.5, which shall be a stock corporation, may engage in the business of preparing title searches, title reports, title examinations, certificates or abstracts of title, upon the basis of which a title insurer

writes title policies, provided that:

(1) Only domestic corporations may be licensed under this section and no underwritten title company, as defined in Section 12340.5, shall become licensed under this section, or change the name under which it is licensed or operates, unless it has first complied with the provisions of Section 881.

(2) Depending upon the county or counties in which the company is licensed to transact business, it shall maintain required minimum net worth as follows:

Aggregate number of documents recorded and documents filed in the offices of the county recorders in the preceding calendar year in all counties where the company is licensed to transact business.	Amount of required minimum net worth
Less than 10,000	$20,000
10,000 to 50,000	30,000
50,000 to 100,000	60,000
100,000 to 500,000	100,000
500,000 to 1,000,000	150,000
1,000,000 or more	200,000

"Net worth" is defined as the excess of assets over all liabilities and required reserves. It may carry as an asset the actual cost of its title plant provided the value ascribed to such asset shall not exceed the lesser of: (a) the actual cost thereof, or (b) 50 percent of its stated capital, as defined in Section 1900 of the Corporations Code.

Where the information in the title plant is not being kept current, the asset value of such plant shall not exceed the actual cost less 20 percent of the actual cost for each 12-month period, immediately preceding the date such asset is valued for purposes of this subdivision, that the title plant is not actually maintained.

An underwritten title company at all times shall maintain current assets of at least ten thousand dollars ($10,000) in excess of its current liabilities, as such current assets and liabilities may be defined pursuant to regulations made by the commissioner. In making such regulations, the commissioner shall be guided by generally accepted accounting principles followed by certified public accountants in this state.

(3) Such an underwritten title company shall obtain from the commissioner a license to transact its business. Such license shall not be granted until the applicant conforms to the requirements of this section and all other provisions of this code specifically applicable to applicant. After issuance the holder shall continue to comply with the requirements as to its business set forth in this code, in the

applicable rules and regulations of the commissioner and in the laws of this state.

Any underwritten title company who possesses, or is required to possess, a license pursuant to this section shall be subject as if an insurer to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code and shall be deemed to be subject to authorization by the Insurance Commissioner within the meaning of subdivision (e) of Section 25100 of the Corporations Code.

Such license may be obtained by filing an application on a form prescribed by the commissioner accompanied by a filing fee of three hundred dollars ($300). Such license when issued shall be for an indefinite term and shall expire with the termination of the existence of the holder, subject to the annual renewal fee imposed under Sections 12415 and 12416.

An underwritten title company seeking to extend its license to an additional county shall pay a one-hundred-seventy-five-dollar ($175) fee for each such additional county, and shall furnish to the commissioner evidence, at least sufficient to meet the minimum net worth requirements of paragraph (2), of its financial ability to expand its business operation to include such additional county or counties.

(4) Such an underwritten title company shall furnish an audit to the commissioner on the forms provided by the commissioner annually, either on a calendar year basis on or before March 31st or, if approved in writing by the commissioner in respect to any individual company, on a fiscal year basis on or before 90 days after the end of the fiscal year. The time for furnishing any such audit may be extended, for good cause shown, on written approval of the commissioner for a period, not to exceed 60 days. Failure to submit an audit on time, or within such extended time as the commissioner may grant, shall be grounds for an order by the commissioner to accept no new business pursuant to subdivision (d). Such audits shall be private, except that a synopsis of the balance sheet on a form prescribed by the commissioner may be made available to the public.

The audits shall be made in accordance with generally accepted auditing standards by an independent certified public accountant or independent licensed public accountant approved by the commissioner specifically for the particular company. Approval of an auditor for a particular company shall not be deemed to be a licensing of the auditor nor approval of the auditor for any other company or any other purpose. Any such approval, or the renewal thereof, shall automatically expire on the first day of January in the fifth calendar year following the date of original or renewal approval. The fee for filing an application for such approval or the renewal thereof shall be seventeen dollars and fifty cents ($17.50). The fee for filing the audit shall be thirty-seven dollars and fifty cents ($37.50).

The commissioner may deny or revoke approval or renewal of approval of an auditor for any of the following reasons:

(i) Adverse result in any proceeding before the State Board of Accountancy affecting the auditor's license;

(ii) The auditor has an affiliation with the underwritten title company or any of its officers or directors which would prevent his reports on the company from being reasonably objective;

(iii) The auditor has suffered conviction of any misdemeanor or felony based on his activities as an accountant; or

(iv) Judgment adverse to the auditor in any civil action finding him guilty of fraud, deceit or misrepresentation in the practice of his profession.

Any company which fails to file any audit or other report on or before the date it is due shall pay to the commissioner a penalty fee of one hundred dollars ($100) and on failure to pay such or any other fee or file the audit required by this section shall forfeit the privilege of accepting new business until the delinquency is corrected.

(b) Such an underwritten title company may engage in the escrow business and act as escrow agent provided that:

(1) All funds deposited with the company in connection with any escrow shall be deposited in a bank in a separate trust account, and such funds shall be the property of the person or persons entitled thereto under the provisions of the escrow and segregated escrow by escrow in the records of the company. Such funds shall not be subject to any debts of the company and shall be used only to fulfill the terms of the individual escrow under which the funds were accepted and none of such funds shall be used until all conditions of the escrow have been met.

Bona fide drafts executed by persons fully responsible financially may at the option of the company, be deemed the equivalent of funds already cleared into such bank deposit unless another law of this state prohibits such persons from tendering such drafts to escrow holders for the purpose of closing escrows.

Any interest received on funds deposited with the company in connection with any escrow which are deposited in a bank shall be paid over to the depositing party to the escrow and shall not be transferred to the account of the company.

(2) It shall maintain record of all receipts and disbursements of escrow funds.

(3) It shall deposit seven thousand five hundred dollars ($7,500) for each county in which it transacts business in some form permitted by Section 12351 with the commissioner who shall forthwith make a special deposit thereof in the State Treasury and such deposit shall be subject to the provisions of Sections 12353, 12356, 12357, and 12358 and as long as there are no claims against the deposit all interest and dividends thereon shall be paid to the depositor. The deposit shall be for the security and protection of persons having lawful claims against the depositor growing out of escrow transactions with it. Such deposit shall be maintained until four years after all escrows handled by the depositor have been closed.

(A) The commissioner may release such deposits prior to the

passage of such four-year period upon presentation of evidence satisfactory to the commissioner of either a statutory merger of the depositor into a licensee or certificate holder subject to the jurisdiction of the commissioner, or a valid assumption agreement under which all liability of the depositor stemming from escrow transactions handled by it is assumed by a licensee or certificate holder subject to the jurisdiction of the commissioner.

(B) With the foregoing exceptions, the deposit shall be returned to the depositor or lawful successor in interest following the four-year period, upon presentation of evidence satisfactory to the commissioner that there are no claims against the deposit stemming from escrow transactions handled by the depositor. If the commissioner has evidence of one or more claims against the depositor, and the depositor is not in conservatorship or liquidation, the commissioner may interplead the deposit by special endorsement to a court of competent jurisdiction for distribution on the basis that claims against the depositor stemming from escrow transactions handled by it have priority in such distribution over other claims against the depositor.

(4) It shall obtain and maintain a fidelity bond on file with the commissioner, to cover all officers and employees of the company who participate in any escrow transaction that is handled by the company. Such bond shall be a blanket bond or, with the approval of the commissioner, may be a position or individual bond. The commissioner shall prescribe the amount of the bond which shall not exceed two hundred thousand dollars ($200,000).

(c) The commissioner shall, whenever it appears necessary, examine the business and affairs of a company licensed under this section. All such examinations shall be at the expense of the company.

(d) At any time that the commissioner determines, after notice and hearing, that a company licensed under this section has willfully failed to comply with any of the provisions of this section, the commissioner shall make his order prohibiting the company from conducting its business for a period of not more than one year.

Any company violating such an order is subject to seizure under Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 is guilty of a misdemeanor and may have its license revoked by the commissioner. Any person aiding and abetting any company in a violation of such an order is guilty of a misdemeanor.

The purpose of this section is to maintain the solvency of the companies subject to this section and to protect the public by preventing fraud and requiring fair dealing. In order to carry out such purposes the commissioner may make reasonable rules and regulations to govern the conduct of its business of companies subject to this section.

The name under which each underwritten title company is licensed shall at all times be an approved name. Each such company shall be subject to the provisions of Article 14 (commencing with

Section 1010) and Article 14.5 (commencing with Section 1065.1) of Chapter 1 of Part 2 of Division 1.

Such rules and regulations shall be adopted, amended or repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 1976 are both chaptered and become effective January 1, 1977, both bills amend Section 12389 of the Insurance Code, and this bill is chaptered after Senate Bill No. 1976, that the amendments to Section 12389 proposed by both bills be given effect and incorporated in Section 12389 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 1976 are both chaptered and become effective January 1, 1977, both amend Section 12389, and this bill is chaptered after Senate Bill No. 1976, in which case Section 1 of this act shall not become operative.

CHAPTER 1267

An act to add Section 955.1 to the Government Code, relating to claims against public entities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 955.1 is added to the Government Code, to read:

955.1. (a) The science of earthquake prediction is developing rapidly and, although still largely in a research stage, such predictions are now being initiated and are certain to continue into the future. Administrative procedures exist within the Office of Emergency Services to advise the Governor on the validity of earthquake predictions. Numerous important actions can be taken by state and local governments and special districts to protect life and property in response to predictions and associated warnings. It is the intent of this legislation to insure that appropriate actions are taken in the public interest by government agencies without fear of consequent financial liabilities when acting in a responsible manner under such circumstances to assure public safety. This legislation is not intended to provide immunity for government officials and other government employees acting in a nondiscretionary capacity from liability for injuries arising out of ordinary negligence. It is also the intent of this legislation that actions taken by state and local agencies pursuant to the authorized dissemination of an earthquake prediction may be

taken under conditions other than a declared state of emergency.

(b) The Governor may, at his discretion, warn the public as to the existence of an earthquake prediction determined to have scientific validity. The state and its agencies shall not be liable for any injury resulting from the decision to issue or not to issue a warning pursuant to this subdivision.

(c) In addition, the state, its agencies, and its political subdivisions may, on the basis of a warning issued pursuant to subdivision (b), take, or fail or refuse to take, any action with relation to the warning issued which is otherwise authorized by law. In taking, or failing or refusing to take such action, the state, its agencies, and its political subdivisions shall be subject to the same immunities as apply to such action, or failure or refusal to take such action, when done upon any other valid basis.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that appropriate actions might be taken by government officials to assure the public safety and welfare in dealing with earthquake predictions, it is necessary that this act take effect immediately.

CHAPTER 1268

An act to amend Section 710 of the Code of Civil Procedure, relating to judgments.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 710 of the Code of Civil Procedure is amended to read:

710. (a) Whenever a judgment for the payment of money is rendered by any court of this state against a defendant to whom money is owing and unpaid by this state or by any county, city and county, city or municipality, quasi-municipality, district or public corporation, the judgment creditor may file a duly authenticated abstract or transcript of such judgment together with an affidavit stating the exact amount then due, owing and unpaid thereon and that he desires to avail himself of the provisions of this section in the manner as follows:

1. If such money, wages or salary is owing and unpaid by this state to such judgment debtor, said judgment creditor shall file said abstract or transcript and affidavit with the state department, board, office or commission owing such money, wages or salary to said

judgment debtor prior to the time such state department, board, office or commission presents the claim of such judgment debtor therefor to the State Controller. Said state department, board, office or commission in presenting such claim of such judgment debtor to said State Controller shall note thereunder the fact of the filing of such abstract or transcript and affidavit and state the amount unpaid on said judgment as shown by said affidavit and shall also note any amounts advanced to the judgment debtor by, or which the judgment debtor owes to, the State of California by reason of advances for expenses or for any other purpose. Thereupon the State Controller, to discharge such claim of such judgment debtor, shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due such judgment debtor on such claim, after deducting from such claim an amount sufficient to reimburse the state department, board, office or commission for any amounts advanced to said judgment debtor or by him owed to the State of California, and after deducting therefrom an amount equal to one-half or such greater portion as is allowed by statute of the United States, of the earnings owing to the judgment debtor for his personal services to the state rendered at any time within 30 days next preceding the filing of such abstract or transcript, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof; if any, to the judgment debtor.

2. If such money, wages or salary is owing and unpaid to such judgment debtor by any county, city and county, city or municipality, quasi-municipality, district or public corporation, said judgment creditor shall file said abstract or transcript and affidavit with the auditor of such county, city and county, city or municipality, quasi-municipality, district or public corporation (and in case there be no auditor then with the official whose duty corresponds to that of auditor). Thereupon said auditor (or other official) to discharge such claim of such judgment debtor shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due on such claim of such judgment debtor, less an amount equal to one-half or such greater portion as is allowed by statute of the United States, of the earnings of the debtor owing by the county, city and county, city, municipality, quasi-municipality, district or public corporation to the judgment debtor for his personal services to such public body rendered at any time within 30 days next preceding the filing of such abstract or transcript, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

(b) The judgment creditor upon filing such abstract or transcript and affidavit shall pay a fee of six dollars ($6) to the person or agency with whom the same is filed.

(c) Whenever a court receives any money hereunder, it shall pay as much thereof as is not exempt from execution under this code to

the judgment creditor and the balance thereof, if any, to the judgment debtor. The procedure for determining the claim of exemption shall be governed by the procedure set forth in Section 690.50 of this code, and the court rendering the judgment shall be considered the levying officer for the purpose of that section.

(d) In the event the moneys owing to a judgment debtor by any governmental agency mentioned in this section are owing by reason of an award made in a condemnation proceeding brought by the governmental agency, such governmental agency may pay the amount of the award to the clerk of the court in which such condemnation proceeding was tried, and shall file therewith the abstract or transcript of judgment and the affidavit filed with it by the judgment creditor. Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1268.010. Upon such payment into court and the filing with the county clerk of such abstract or transcript of judgment and affidavit, the county clerk shall notify by mail, through their attorneys, if any, all parties interested in said award of the time and place at which the court which tried the condemnation proceeding will determine the conflicting claims to said award. At said time and place the court shall make such determination and order the distribution of the money held by the county clerk in accordance therewith.

(e) The judgment creditor may state in the affidavit any fact or facts tending to establish the identity of the judgment debtor. No public officer or employee shall be liable for failure to perform any duty imposed by this section unless sufficient information is furnished by the abstract or transcript together with the affidavit to enable him in the exercise of reasonable diligence to ascertain such identity therefrom and from the papers and records on file in the office in which he works. The word "office" as used herein does not include any branch or subordinate office located in a different city.

(f) Nothing in this section shall authorize the filing of any abstract or transcript and affidavit against: (1) any wages, or salary owing to the Governor, Lieutenant Governor, Secretary of State, Controller, Treasurer, and Attorney General, or (2) any overpayment of tax, penalty or interest, or interest allowable with respect to such overpayment, under Part 10 (commencing with Section 17001) or Part 11 (commencing with Section 23001) of Division 2 of the Revenue and Taxation Code.

(g) Any fees received by a state agency under this section shall be deposited to the credit of the fund from which payments were, or would be, made on account of a garnishment under this section. For the purpose of this paragraph, payments from the State Pay Roll Revolving Fund shall be deemed payments made from the fund out of which moneys to meet such payments were transferred to said revolving fund.

(h) (1) In the event the moneys owing to a judgment debtor by any governmental agency mentioned in this section are for wages or salary, the judgment creditor shall mail under a separate cover at the

time of filing the affidavit with the governmental agency, in an envelope marked "Personal and Confidential", a copy of the affidavit and a Notice to Judgment Debtor as provided in paragraph (2) of this subdivision, addressed to the judgment debtor at his place of employment.

(2) The Notice to Judgment Debtor shall be in 10-point bold type, and in substantially the following form:

You may be entitled to file a claim exempting your salary or wages from execution. You may seek the advice of any attorney or may, within 10 days from the date your salary or wages were levied upon, deliver an affidavit to the court rendering the judgment to exempt such salary or wages, as provided in Section 690.50 of the Code of Civil Procedure.

In no event shall the payment schedule provide for the contractor to receive payment in excess of 100 percent of the value of the work performed on the project at any time, excluding finance charges, except that the contractor may receive an initial downpayment authorized by this section.

The requirements pertaining to the payment schedule shall not apply when the contract provides for the contractor to furnish performance and payment bond, lien and completion bond, or a bond equivalent approved by the Registrar of Contractors covering 100 percent of the contract and such bonds are furnished by the contractor, or when the parties agree for full payment to be made upon satisfactory completion of the project.

The writing may also contain other matters agreed to by the parties to the contract.

The writing shall be legible and shall be in such form as to clearly describe any other document which is to be incorporated into the contract, and before any work is done, the owner shall be furnished a copy of the written agreement, signed by the contractor.

The provisions of this section are not exclusive and do not relieve the contractor or any contract subject to it from compliance with all other applicable provisions of law.

A violation of this section by a licensee under this chapter, his agent, or salesman is a misdemeanor punishable by a fine of not less than one hundred dollars ($100) nor more than five thousand dollars ($5,000) or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment.

This section shall remain in effect only until January 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1978, deletes or extends such date.

SEC. 2. Section 7159 is added to the Business and Professions Code, to read:

7159. This section shall apply only to home improvement contracts, as defined in Section 7151.2, between a contractor, whether a general contractor or a specialty contractor, who is licensed or subject to be licensed pursuant to this chapter with regard to such transaction and who contracts with an owner or tenant for work upon a building or structure for proposed repairing, remodeling, altering, converting, or modernizing such building or structure and where the aggregate contract price specified in one or more improvement contracts, including all labor, services, and materials to be furnished by the contractor, exceeds five hundred dollars ($500).

Every home improvement contract and any changes in the contract subject to the provisions of this section shall be evidenced by a writing and shall be signed by all the parties to the contract thereto. The writing shall contain the following:

(a) The name, address, and license number of the contractor, and the name and registration number of any salesman who solicited or negotiated the contract.

(b) The approximate dates when the work will begin and be substantially completed.

(c) A description of the work to be done and description of the materials to be used and the agreed consideration for the work.

(d) A schedule of payments showing the amount of each payment as a sum in dollars and cents.

(e) If the payment schedule contained in the contract provides for a downpayment to be paid to the contractor by the owner or the tenant before the commencement of work, such downpayment shall not exceed one hundred dollars ($100) or 1 percent of the contract price, whichever is the greater.

(f) In no event shall the payment schedule provide for the contractor to receive payment in excess of 100 percent of the value of the work performed on the project at any time, except that the contractor may receive an initial downpayment authorized by subdivision (e).

(g) The requirements of subdivisions (d), (e) and (f) pertaining to the payment schedule shall not apply when the contract provides

01655 293175 452

for the contractor to furnish performance and payment bond, lien and completion bond, or a bond equivalent approved by the Registrar of Contractors covering 100 percent of the contract and such bonds are furnished by the contractor, or when the parties agree for full payment to be made upon satisfactory completion of the project.

The writing may also contain other matters agreed to by the parties to the contract.

The writing shall be legible and shall be in such form as to clearly describe any other document which is to be incorporated into the contract; and before any work is done, the owner shall be furnished a copy of the written agreement, signed by the contractor.

The provisions of this section are not exclusive and do not relieve the contractor or any contract subject to it from compliance with all other applicable provisions of law.

A violation of this section by a licensee under this chapter, his agent, or salesman is a misdemeanor punishable by a fine of not less than one hundred dollars ($100) nor more than five thousand dollars ($5,000) or by imprisonment in the county jail not exceeding one year, or by both such fine and imprisonment.

This section shall become operative January 1, 1978.

(c) This section shall not be construed to apply to home improvement contracts, as defined in Section 7151.2 of the Business and Professions Code.

(d) This section shall remain in effect only until January 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1978, deletes or extends such date.

SEC. 4. Section 1805.6 is added to the Civil Code, to read:

1805.6. (a) Notwithstanding the provision of any contract to the contrary, except as provided in subdivision (b), no retail seller shall assess any finance charge against the amount financed for goods purchased under a retail installment contract until the goods are in the buyer's possession.

(c) This section shall become operative on January 1, 1978.

SEC. 5. Section 1810.10 of the Civil Code is amended to read:

1810.10. (a) Notwithstanding the provision of any contract to the contrary, except as provided in subdivision (b), no retail seller shall assess any finance charge against the outstanding balance for goods purchased under a retail installment account until the goods are in the buyer's possession.

(b) A finance charge may be assessed against the outstanding balance for such undelivered goods, as follows:

(1) From the date when such goods are available for pickup by the buyer and the buyer is notified of their availability, or

(2) From the date of purchase, when such goods are delivered or available for pickup by the buyer within 10 days of the date of purchase.

(c) This section shall not be construed to apply to home improvement contracts, as defined in Section 7151.2 of the Business and Professions Code.

(d) This section shall remain in effect only until January 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1978, deletes or extends such date.

SEC. 6. Section 1810.10 is added to the Civil Code, to read:

1810.10. (a) Notwithstanding the provision of any contract to the contrary, except as provided in subdivision (b), no retail seller shall assess any finance charge against the outstanding balance for goods purchased under a retail installment account until the goods are in the buyer's possession.

Such loan shall be repaid upon such terms and conditions as may be prescribed

by the Department of Finance.

SEC. 8. (a) Sections 1, 3, and 5 of this act are declaratory of existing law and are intended to clarify existing law.

(b) However, Sections 2, 4, and 6 of this act shall be interpreted without regard to Sections 1, 3, and 5 of this act and without regard to the declaration in subdivision (a) of this section.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Home improvement contracts frequently involve the furnishing of goods and services over a period of time and frequently involve a deferred payment by the buyer pursuant to a retail installment contract or a retail installment account. In order to clarify the law, pending further study, so that persons may enter such contractual arrangements with certainty as to the construction of Chapters 511 and 1041 of the Statutes of 1975, it is necessary that this act take effect immediately.

CHAPTER 1272

An act to amend Sections 1179 and 1772 of the Welfare and Institutions Code, relating to the Youth Authority.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1179 of the Welfare and Institutions Code is amended to read:

1179. All persons honorably dismissed from any such school and all persons who are retained at any such school for the full period of their respective commitments shall thereafter be released from all penalties or disabilities resulting from the offenses for which they were committed, including, but not limited to, any disqualification for any employment or occupational license, or both, created by any other provision of law. However, such a person shall not be eligible for appointment as a peace officer employed by any public agency, other than the Department of the Youth Authority, if his appointment would otherwise be prohibited by Section 1029 of the Government Code. Upon the final discharge or dismissal of any such person, the Youth Authority shall immediately certify such discharge or dismissal in writing, and shall transmit the certificate to the court by which the person was committed. The court shall thereupon dismiss the accusation and the action pending against such person.

SEC. 2. Section 1772 of the Welfare and Institutions Code is amended to read:

1772. Every person honorably discharged from control by the authority who has not, during the period of control by the authority, been placed by the authority in a state prison shall thereafter be released from all penalties and disabilities resulting from the offense or crime for which he was committed, and every person discharged may petition the court which committed him, and the court may upon such petition set aside the verdict of guilty and dismiss the accusation or information against the petitioner who shall thereafter be released from all penalties and disabilities resulting from the offense or crime for which he was committed, including, but not limited to, any disqualification for any employment or occupational license, or both, created by any other provision of law. However, such a person shall not be eligible for appointment as a peace officer employed by any public agency, other than the Department of the Youth Authority, if his appointment would otherwise be prohibited by Section 1029 of the Government Code.

Every person discharged from control by the authority shall be informed of this privilege in writing at the time of discharge.

"Honorably discharged" as used in this section means and includes every person whose discharge is based upon a good record on parole.

CHAPTER 1273

An act to amend Section 30700.5 of, and to add Section 72020.5 to, the Water Code, relating to water districts.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 30700.5 of the Water Code is amended to read:

30700.5. Notwithstanding Section 30021 or any other provision of the law, in the Pleasant Valley County Water District every owner of land within the district, but no others, may vote at the election for directors or otherwise. Such owners need not be residents of the district in order to qualify as voters. The last equalized county assessment roll is conclusive evidence of ownership of the real property so owned. Upon request by the county clerk, the county assessor shall provide within 45 days a certified list of every owner of real property within the district. Where the land is owned in joint tenancy, tenancy in common, or any other multiple ownership, the owners of such land shall designate in writing which one of the owners shall be deemed the owner of such land for purposes of qualifying as a voter.

The legal representative of a corporation or estate owning real property may vote on behalf of such corporation or estate. As used

01805 293255 468

in this section, legal representative means an official of a corporation owning real property or a guardian, executor, or administrator of the estate of the holder of title to real property who:

(a) Is appointed under the laws of the state.

(b) Is entitled to possession of the estates real property.

(c) Is authorized by the appointing court to exercise the particular right, privilege or immunity which he seeks to exercise. Before a legal representative votes at a district election he shall present to the precinct board a certified copy of his authority which shall be kept and filed with the returns of the election.

Every voter, or his legal representative, may vote at any district election either in person or by a person duly appointed as his proxy, but shall be entitled to cast only one vote. The appointment of a proxy shall be as provided in Section 35005.

The provisions of this section shall apply only to a county water district heretofore formed in Pleasant Valley, Ventura County. These special provisions are necessary for reasons similar to those expressed in Section 30205.

SEC. 2. Section 72020.5 is added to the Water Code, to read:

72020.5. In addition to the provisions of Section 72020, in the Casitas Municipal Water District, the board may by resolution call a special election in the proposed improvement district for the purpose of submitting the question of the formation of the improvement district to the voters of the proposed improvement district. This special provision for Casitas Municipal Water District is necessary because the Legislature recognizes that certain proposed improvement districts in the Casitas Municipal Water District are controversial, that an election should be called, and that to require a petition to be circulated for recognized controversial improvement districts would constitute an unnecessary hardship. This problem is not common to all districts formed under this division. It is therefore hereby declared that a general law cannot be made applicable and that the enactment of this section as a special law is necessary for the solution of problems existing in the Casitas Municipal Water District.

SEC. 3. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 1274

An act to amend Sections 99220, 99241, 99262, 99267, and 99400 of, and to add Section 99206.5 to, of the Public Utilities Code, relating to public transportation.

[Approved by Governor September 20, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 99206.5 is added to the Public Utilities Code, to read:

99206.5. "Handicapped person" means any individual who by reason of illness, injury, age, congenital malfunction, or other permanent or temporary incapacity or disability, including, but not limited to, any individual confined to a wheelchair, is unable, without special facilities or special planning or design, to utilize public transportation facilities and services as effectively as a person who is not so affected.

As used in this section, a temporary incapacity or disability is an incapacity or a disability which lasts more than 90 days.

SEC. 2. Section 99220 of the Public Utilities Code is amended to read:

99220. The Legislature finds and declares as follows:

(a) Public transportation is an essential component of the balanced transportation system which must be maintained and developed so as to permit the efficient and orderly movement of people and goods in the urban areas of the state. Because public transportation systems provide an essential public service, it is desirable that such systems be designed and operated in such a manner as to encourage maximum utilization of the efficiencies of the service for the benefit of the total transportation system of the state and as not to deprive the elderly, the handicapped, the youth, and the citizens of limited means of the ability to freely utilize the systems.

(b) The fostering, continuance, and development of public transportation systems are a matter of state concern. Excessive reliance on the private automobile for transportation has caused air pollution and traffic congestion in California's urban areas, and such pollution and congestion are not confined to single incorporated areas but affect entire regions. Furthermore, public transportation systems which are not designed so as to be usable by handicapped persons foster increased welfare costs and the waste of human resources. Thus, the Legislature has elected to deal with the multiple problems caused by a lack of adequate public transportation on a regional basis through the counties, with coordination of the programs being the responsibility of the state pursuant to contract with county governments.

(c) While providing county assistance to a particular transportation system may not be of primary interest and benefit to each and every taxpayer in a county, providing an integrated and coordinated system to meet the public transportation needs of an entire county will benefit the county as a whole. It is the purpose of this chapter to provide for such systems in those counties where they are needed.

(d) The local transportation funds authorized by Article 11 (commencing with Section 29530) of Chapter 2 of Division 3 of Title 3 of the Government Code are made possible by the imposition of the state's sales and use taxes on motor vehicle fuel, which allows for a reduction in state taxes without a corresponding loss in revenue. By authorizing counties to increase their sales and use taxes, an additional source of revenue has been made available for public transportation within such counties. Applicants for a disbursement from a local transportation fund shall only be eligible for an allocation from the fund of the county in which such transportation is provided.

SEC. 3. Section 99241 of the Public Utilities Code is amended to read:

99241. Except for allocations made for purposes of Section 99234 and subdivision (a) of Section 99400, which shall be subject to the rules and regulations adopted by the transportation planning agency, all matters necessary and convenient to the implementation of this chapter shall be subject to rules and regulations, consistent with statute, adopted by the secretary, with the advice and consent of the State Transportation Board, and those rules and regulations may be revised from time to time.

Such rules and regulations shall specify the procedures by which evaluation and review by the transportation planning agency of public transportation claims shall be accomplished, and shall require submission of corresponding budgets or financial plans, certified financial statements, and other information required in connection therewith. The rules and regulations shall provide for the orderly and periodic distribution of moneys in the fund so that the areas served by the operator will be provided public transportation services on a continuing basis and so that there will be an orderly improvement and maintenance of the system of the operator. The rules and regulations shall provide for the approval of sufficient moneys from the local fund to accomplish the intent of the Legislature as expressed in the findings and declarations in Section 99220.

Such rules and regulations may require that the transportation planning agency, in reviewing claims, give due consideration to the level of the operator's passenger fares and charges, the efficiency of the operator's operations and operating policies and practices, the extent to which the operator is meeting the transportation needs of the area served, the transportation needs of handicapped persons, and the extent to which the operator is making full use of other available revenues and funds, including federal transportation grants.

SEC. 4. Section 99262 of the Public Utilities Code is amended to read:

99262. Claims for public transportation systems may include claims for money for all purposes necessary and convenient to the development and operation of the system, including planning and contributions to the transportation planning process, acquisition of real property, construction of facilities and buildings, purchase and

replacement of vehicles (including those usable by handicapped persons), and system operation, maintenance, and repair, payment for any of which purposes may take the form of direct expenditures or payment of principal and interest on equipment trust certificates, bonded or other indebtedness, or any amounts in accomplishment of a defeasance of any outstanding revenue bond indenture.

SEC. 5. Section 99267 of the Public Utilities Code is amended to read:

99267. (a) At least 15 percent of funds received under this article shall be used by an operator for capital expenditures. If, on January 1, 1975, the operator is a city and county with a population of 700,000 or more, it shall use at least 75 percent of such funds for capital expenditures.

(b) Such capital expenditures shall consist of acquisition of land and other real property, current acquisition or replacement of transportation vehicles or conveyances (including those usable by handicapped persons), and acquisition, construction, enlargement, or repair of property and facilities incidental to or necessary or convenient in connection with the foregoing, depreciation, and payment of principal and interest on its bonded indebtedness, equipment trust certificates, or other indebtedness, including any amounts in the accomplishment of a defeasance under any outstanding revenue bond indenture.

(c) The requirement specified in subdivision (a) shall not apply (1) to an operator in each fiscal year that it receives financial assistance from local sources, exclusive of fares, in an amount equal to or greater than the amount it would have been required to expend pursuant to subdivision (a) or (2) to money allocated to a transit district for a claim filed pursuant to Section 99260.5.

SEC. 6. Section 99400 of the Public Utilities Code, as amended by Chapter 287 of the Statutes of 1975, is amended to read:

99400. Claims may be filed with the transportation planning agency by cities and counties under this article for the following purposes:

(a) Local streets and roads, including facilities provided for the exclusive use by pedestrians and bicycles.

(b) Payments to the National Railroad Passenger Corporation for passenger rail service under Section 403(b) of the Federal Rail Passenger Service Act.

(c) Payments to a common carrier, as defined in Section 211, engaged in the transportation of persons, as defined in Section 208, for public transportation service provided under contract with a county with a population of under 300,000, or a city therein, and conducted pursuant to the jurisdiction and control of the Public Utilities Commission.

(d) Payment to any of the following entities which is under contract with a county which is not located, in whole or in part, within a transit district and which has a population of under 100,000, or a city therein, for transportation services for the elderly, the

handicapped, and any other group, as determined by the transportation planning agency, requiring special transportation assistance:

(1) A common carrier, as defined in Section 211, engaged in the transportation of persons, as defined in Section 208.

(2) A nonprofit corporation organized pursuant to Division 2 (commencing with Section 9000) of Title 1 of the Corporations Code.

(3) An operator.

(e) Payments to a private operator of transportation services operated pursuant to a county or city ordinance, including, but not limited to, taxicab companies operating specialized equipment, for the purpose of providing transportation services for elderly and handicapped persons at fares no higher than those charged the able-bodied population utilizing the same or similar transportation service, pursuant to a contract with a county or a city; provided, that such payments shall not exceed 75 percent of the average cost to the general public of the transportation service provided by the private operator.

(f) Payments to a private nonprofit corporation or association operating specialized equipment for the purpose of providing transportation services for elderly and handicapped persons at fares no higher than those charged the able-bodied population utilizing the same or similar transportation service, pursuant to a contract with a county or a city; provided, that such payments shall not exceed 75 percent of the amount required to meet the total operating, maintenance, and capital requirements of the private nonprofit corporation or association in providing such transportation services, after deduction from its total revenue from such services of approved federal and state grants estimated to be received in connection with providing such services during the fiscal year in which payments are made.

(g) Prior to entering into a contract for services pursuant to subdivisions (e) and (f) of this section within the boundaries of an operator, the city or county shall first enter into a written agreement with the operator specifying the level of service to be mutually supplied and the coordinated operating plan for the services.

Subdivisions (e) and (f) shall not apply to any county or city authorized to make payments under subdivision (d).

This section shall remain in effect only until January 1, 1979, and as of that date is repealed.

SEC. 7. Notwithstanding Section 9605 of the Government Code, Section 99400 of the Public Utilities Code, as amended by Section 6 of this act, shall not become operative if Senate Bill No. 1687 is chaptered and amends Section 99400, regardless of whether that bill is chaptered before or after this act.

CHAPTER 1275

An act to amend Sections 10205 and 10218 of, to add Sections 58, 312, 315, 317, 703, and 10015 to, to repeal Sections 45, 46, 47, 48, 6403, and 10015 of, and to add Section 604.5 to, to add Division 1 (commencing with Section 100) to, to add Division 1.5 (commencing with Section 1000) to, and to add Chapter 5 (commencing with Section 29510) to Division 15 of, and to repeal Division 1 (commencing with Section 100) of, to repeal Chapter 3 (commencing with Section 600) of Division 1 of, to repeal Chapter 4 (commencing with Section 14600) of Division 9 of, and to repeal Chapter 5 (commencing with Section 14800) of Division 9 of, the Elections Code, relating to elections.

[Approved by Governor September 27, 1976 Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 45 of the Elections Code, as added by Chapter 226 of the Statutes of 1976, is repealed.

SEC. 2. Section 46 of the Elections Code, as added by Chapter 226 of the Statutes of 1976, is repealed.

SEC. 3. Section 47 of the Elections Code, as added by Chapter 226 of the Statutes of 1976, is repealed.

SEC. 4. Section 48 of the Elections Code, as added by Chapter 226 of the Statutes of 1976, is repealed.

SEC. 4.5. Section 58 is added to the Elections Code, to read:

58. On written call of the Secretary of State, the county clerks, city clerks, and registrars of voters of this state may meet with the approval of their legislative bodies, at the time and place within this state designated in the call, to discuss matters affecting the administration of the election laws and to promote uniformity of procedure in such matters. Meetings shall not exceed three in any calendar year. Any deputy of a county clerk, city clerk, or registrar of voters, designated for the purpose by his principal, may attend such meetings, alone or with his principal. The actual and necessary expenses of the county clerk, city clerk, or registrar of voters, and of a deputy, incurred in traveling to and from meetings and in attending the same, for each such officer for any one meeting, shall be a charge of the county or city of the clerk or registrar, and payable as other county or city charges.

SEC. 11. Division 1 (commencing with Section 100) of the Elections Code is repealed.

SEC. 12. Division 1 (commencing with Section 100) is added to the Elections Code, to read:

DIVISION 1. VOTERS

CHAPTER 1. QUALIFICATIONS

Article 1. General Provisions

100. Every person who qualifies under the provisions of Section 1 of Article II of the Constitution of this state and who complies with the provisions of this code governing the registration of electors is entitled to vote at any election held within the territory within which he resides and the election is held.

101. The county clerk, upon request, shall determine whether a person who has been convicted of a felony is qualified to vote. If the county clerk determines in the person's favor, the person may lawfully swear that he has not been convicted of a felony which disqualifies him from voting, and the county clerk shall so inform him. If the county clerk does not determine in the person's favor, the county clerk shall inform the person of his right to file in the superior court under Section 407 for a judicial determination of his eligibility to register and vote.

102. The informational portion of the voter registration card shall inform each person who states he is either imprisoned or on parole for the conviction of a felony that his registration will be reviewed by the county clerk who will inform him of its acceptance or rejection.

Article 2. Residence

200. The residence of a person is that place in which his or her habitation is fixed and to which, whenever the person is absent, he or she has the intention of returning.

201. The term of residence is computed by including the day on which the person's residence commenced and by excluding the day of the election.

202. (a) A person who leaves his or her home to go into another state or precinct in this state for temporary purposes merely, with the intention of returning, does not lose his or her residence.

(b) A person does not gain a residence in any precinct into which he or she comes for temporary purposes merely, without the intention of making that precinct his or her home.

203. If a person moves to another state with the intention of making it his or her residence, the voter loses his or her residence in this state.

204. If a person moves to another state as a place of permanent residence, with the intention of remaining there for an indefinite time, he or she loses his or her residence in this state, notwithstanding that he or she intends to return at some future time.

205. The mere intention to acquire a new residence, without the fact of removal avails nothing, neither does the fact of removal

without the intention.

206. A person does not gain or lose residence solely by reason of his or her presence at or absence from a place while employed in the service of the United States or of this state, nor while engaged in navigation, nor while a student of any institution of learning, nor while kept in an almshouse, asylum or prison. This section shall not be construed to prevent a student at an institution of learning from qualifying as an elector in the locality where he or she resides while attending that institution, when in fact the student has abandoned his or her former residence.

207. The place where a person's family resides is his or her residence unless it is a place for temporary establishment for his or her family or for transient objects.

Residence in a trailer or vehicle or at any public camp or camping ground may constitute a residence for voting purposes if the registrant complies with the other requirements of this article.

208. If a person has a family fixed in one place, and he or she does business in another, the former is his or her place of residence, but any person having a family, who has taken up an abode with the intention of remaining and whose family does not so reside with him or her, is a resident where he or she has so taken up the abode.

209. A husband and wife each establishes his or her own residency. The residence of one spouse shall not be presumed to be that of the other, but shall be determined independently in accordance with this article.

210. A resident of this state who marries a person employed temporarily in this state in the service of the United States government, may elect to retain his or her residency for the purpose of qualifying as an elector only, except that such residency in this state shall terminate if such resident qualifies as an elector in any other state or any territory.

211. Whenever the house number or the mailing address of a voter has been changed and the voter's residence is the same, the public agency authorizing the change shall notify the county clerk in writing of the change and the county clerk shall make the change on the voter's affidavit of registration and a new affidavit shall not be required.

212. Except as otherwise provided in this section, a person who resides in a house or apartment lying in more than one precinct shall be registered as residing in that one of those precincts designated by him or her at the time he or she registers. In the absence of such designation the county clerk shall register the person as residing in that one of those precincts that he or she considers appropriate.

If a person resides in a house or apartment lying in more than one city, the person's residence shall be determined on the basis of the house or apartment's street address.

213. A person duly registered as a voter in any precinct in California who removes therefrom within 29 days prior to an election shall, for the purpose of such election, be entitled to vote in the

precinct from which the person so removed until the close of the polls on the day of such election.

CHAPTER 2. REGISTRATION

Article 1. General Provisions

300. No person shall be registered except as provided in this chapter unless upon the production and filing of a certified copy of a judgment of the superior court directing registration to be made.

301. No person shall be registered as a voter except by affidavit of registration. The affidavit shall be mailed or delivered in person to the county clerk or his deputy and shall set forth all of the facts required to be shown by this chapter. A properly executed registration shall be deemed effective upon receipt of the affidavit by the county clerk.

Notwithstanding any other provision of law to the contrary, the affidavit of registration required under the provisions of this chapter shall not be taken under sworn oath, but the content of the affidavit shall be certified as to its truthfulness and correctness, under penalty of perjury, by the signature of the affiant.

302. (a) It is the intent of the Legislature that the election board of each county, in order to promote and encourage voter registrations, shall establish a sufficient number of registration places throughout the county, and outside the county courthouse, for the convenience of persons desiring to register, to the end that registration may be maintained at a high level.

(b) It is also the intent of the Legislature that county clerks, in order to promote and encourage voter registrations, shall enlist the support and cooperation of interested citizens and organizations, and shall deputize as registrars qualified citizens in such a way as to reach most effectively every resident of the county. The persons so deputized shall be permitted to register voters anywhere within the county, including at the places of residence of the persons to be registered, and the county clerk shall not deny deputy registrars the right to register voters anywhere in the county.

(c) It is also the intent of the Legislature that non-English-speaking citizens, like all other citizens, should be encouraged to vote. Therefore, appropriate efforts should be made to minimize obstacles to registration by citizens who lack sufficient skill in English to register without assistance.

(d) Where the county clerk finds that citizens described in subdivision (c) approximate 3 percent or more of the voting age residents of a precinct, or in the event that interested citizens or organizations provide information which the county clerk believes indicates a need for registration assistance for qualified citizens described in subdivision (c), the county clerk shall make reasonable efforts to recruit deputy registrars who are fluent in a language used by citizens described in subdivision (c) and in English. Such

02606 293415 500

recruitment shall be conducted through the cooperation of interested citizens and organizations and through voluntarily donated public service notices in the media, including newspapers, radio, and television, particularly those media which serve the non-English-speaking citizens described in subdivision (c). Deputy registrars so appointed shall facilitate registration in the particular precincts concerned and shall have the right to register voters anywhere in the county.

(e) In furtherance of the purposes of this section, the governing board of any county, city, city and county, district, or other public agency, may authorize and assign any of its officers or employees to become deputy registrars of voters and to register qualified citizens on any premises and facilities owned or controlled by such public agencies during the regular working hours of such officers or employees; provided, that with the exception of firemen, any compensation to which said officer or employee may be entitled in payment for the services of such officer or employee as a deputy registrar may be paid by the authority which appointed such officer or employee as a deputy registrar to the public agency which regularly employs such officer or employee.

(f) It is the intent of the Legislature that no limitation be imposed on the number of persons appointed to act as deputy regi ars of voters.

303. It is the intent of the Legislature that the introduction of registration by mail shall not in any way lead to administrative limitations on the use of deputy registrars of voters for the purpose of assisting in the registration of persons who may continue to require such assistance.

It is the intent of the Legislature that registrars continue to be deputized by the county clerk pursuant to Section 302, but that as the electorate becomes more conversant with mail registration procedures, the number of deputy registrars will naturally diminish due to a decrease in the demand for the services of such deputy registrars of voters.

304. It is the intent of the Legislature that voter registration be maintained at the highest possible level. The Secretary of State shall adopt regulations requiring each county to design and implement programs intended to identify qualified electors who are not registered voters, and to register such persons to vote. The Secretary of State shall adopt regulations prescribing minimum requirements for such programs. If the Secretary of State finds that a county has not designed and implemented a program meeting such prescribed minimum requirements, the Secretary of State shall design a program for such county and report the violation to the Attorney General.

305. The county clerk or his deputy shall accept affidavits of registration at all times except during the 28 days immediately preceding any election, when registration shall cease for that election as to electors residing in the territory within which the

election is to be held. Transfers of registration for an election may be made from one precinct to another precinct in the same county at any time when registration is in progress in the precinct to which the elector seeks to transfer.

306. The county clerk shall keep and maintain a current file listing all persons appointed or deputized by the county clerk to register voters, which file shall be open to public inspection. Such file shall include the party affiliation, if any, of each person listed.

307. Any person who is a registered voter qualifies for appointment as a deputy registrar of voters.

308. No county clerk may refuse to deputize any person to register voters because of race, creed, color, or national origin or ancestry.

309. A person may prove he is a citizen by his certification under penalty of perjury on the affidavit of registration.

310. Any elector absent from the county in which he claims residence may request a voter registration card from the county clerk of the county of residence. The county clerk shall furnish a voter registration card, to each elector requesting such card and showing that he will be temporarily absent from his home county. Upon receipt by the county clerk, the affidavit of registration shall be processed as required by this chapter.

311. The county clerk of any county in this state may receive the affidavit of registration of any elector who resides or claims residence in another county in this state. The affidavit shall be forwarded to the county clerk of the county in which the elector resides. The county clerk of the county in which the elector resides shall use the affidavit of registration from the other county as his permanent record.

Registration by this method shall be effective for all elections occurring 29 or more days after receipt of the affidavit of registration by the county clerk or his deputy to which the affidavit is mailed or delivered by the elector.

311.5. Whenever a voter, between the time of that person's last registration and the time for the closing of registration for any given election in the same county, has lawfully changed his or her surname, the voter may reregister under the new or changed name. The voter shall make an additional statement at the time of reregistration, giving the name under which he or she was last registered in that county.

This additional statement shall be given in the prior registration portion of the affidavit of registration before the affidavit is signed, and shall be deemed a part of such affidavit. Upon reregistration, the last previous registration of the voter shall be canceled.

312. If a voter reregisters or transfers his or her registration from one precinct to another, the former address shall be entered in the prior registration portion of the affidavit, and the former registration shall thereupon be canceled.

313. No person shall register in one county when his registration in another remains uncanceled unless he complies with this section.

Any person who is registered in one county may, if otherwise legally qualified, register in another county in which he then resides, at any time before the closing of registration for any election, if in the prior registration portion of the affidavit of registration he enters his former address.

The county clerk shall at once notify the county clerk of the county in which the old registration is still uncanceled that the voter has reregistered. Upon receipt of such notice of reregistration, the former registration shall be canceled immediately.

315. If the county clerk receives a letter from a voter stating that such voter has moved to a new address within the county, the clerk shall immediately send to such voter a voter registration card, and shall instruct such voter that in order to record a change of address, such voter must reregister on a new affidavit of registration.

The clerk shall cancel the old registration for any election occurring at least 29 days after the receipt of such letter.

316. If the county clerk receives a letter from a voter stating that such voter has moved to a new address in another county in the state, the clerk shall immediately notify the clerk of the county to which the voter has moved. Upon receipt of such notice, the clerk of the county to which the voter has moved shall send to such voter a voter registration card, and shall instruct such voter that in order to record a change of address, such voter must reregister on a new affidavit of registration. The clerk shall cancel the old registration for any election occurring at least 29 days after the receipt of such letter.

317. If a sample ballot or other notice of election sent to voters is returned by the post office to the county clerk or other officer charged with the duty of conducting an election because of the removal of the voter from the address to which it was sent, and the county clerk or other officer determines that the voter has moved to a new address in the county, the county clerk or other officer, following the election for which the sample ballot or other notice was sent out, may send a notice to the voter by means of a double postcard. One of the postcards shall inform the voter of the return of the sample ballot or election notice, and shall state that the records on file in the office of the county clerk indicate that the voter is still registered from his old address and that his affidavit of registration has been placed in a suspension file.

The other postcard, which shall be prepared and preaddressed by the clerk with postage paid by the clerk, shall contain blanks wherein the voter may notify the clerk whether his change of address is temporary or permanent and wherein he may sign the postcard. Upon receipt of the postcard, indicating that the change of address is permanent, if the signature on the postcard is the same as appears on the affidavit of registration the clerk shall write on front or the back of the voter's affidavit the new address. If the postcard is not returned to the clerk within 30 days after the date of mailing, the voter's registration shall be removed from the suspension file and canceled.

318. No fees may be charged for registration or certificates of registration.

319. The county clerk may cause to be written or printed upon the top margin, or in the body of the affidavit, in addition to any matter provided for in this code, any words necessary or convenient to designate the precinct, district or political subdivision for which the affidavit is taken, or to indicate any removal or transfer of registration. Any other reasonable memoranda may be added which is necessary or convenient to enable the county clerk to perform his duties in assorting or classifying or handling affidavits with correctness and dispatch, however, such memoranda shall not include notations, whether coded or not, which indicate that the registrant has signed a particular initiative, referendum, or recall petition unless such notations are made other than on the body of the affidavit of registration. Any memoranda, notations, devices, computer data, or other means or material employed by the clerk indicating which petition or petitions have been signed by any registrant shall be destroyed as soon as practicable after the certification of the results of the election for which such memoranda, notations, devices, computer data, or other means or material was used, or if no election is held, as soon as practicable after the clerk's final certification showing the results of the examination of the petition; but in no event shall such memoranda, notations, devices, computer data, or other means or material be retained for more than 30 days.

Such memoranda, notations, devices, computer data, or other means or material employed by the clerk indicating which petition or petitions have been signed by any registrant shall be available for the use of the clerk and his staff only and then only for the purposes for which they were prepared. Except as previously provided, they shall not be made available to any person or entity, public or private, for any purpose whatsoever.

Memoranda added to the body of the affidavit of registration, which are not applicable to the requirements of Section 500, shall not be deemed a portion of the affidavit.

320. In accordance with Section 11 of the initiative act approved by a majority of the voters at the general election held on November 4, 1930 (Statutes of 1931, p. lxxxiii) and entitled "An act to amend Sections 1083a, 1094, 1095a, 1097, 1103, 1105, 1106, 1115, 1120, and to repeal Sections 1228 and 1229 of the Political Code, relating to registration of electors and conduct of elections," no amendment by the Legislature shall provide for a general biennial or other periodic reregistration of voters.

Article 2. Registration Procedures

400. The county clerk shall provide voter registration cards for use in registration by deputy registrars of voters. Such voter registration cards shall be bound into books or pads. The affidavits

included in such voter registration cards shall be numbered and shall have a stub attached as prescribed by Section 508.

Each affidavit and stub shall bear the same number. The numbering shall begin with one and continue in a sequence until all of the blanks provided are numbered. The numbering shall begin anew with each 1,000,000 affidavits of registration numbered pursuant to this section. Each set of numbers shall be designated alphabetically as a series, beginning with series A, following the first 1,000,000.

401. Each deputy county clerk or registration clerk shall receipt to the county clerk for all books or pads issued to him, specifying the numbers of the affidavits received by him. He shall be charged with them until he returns and files them.

402. When any elector is registered, his name, residence, residence telephone number if furnished, and precinct shall be entered on the stub attached to the original affidavit. If for any cause the affidavit is spoiled in the course of execution or a mistake is made, the affidavit shall not be destroyed, but the name of the elector for whom it was intended, with his residence and precinct, shall be entered on the stub as in other cases, and the stubs and affidavits each marked with the word "spoiled."

403. All deputies and registration clerks shall return all affidavits of registration and all books or pads in their possession containing stubs and spoiled or unused affidavit blanks on the 53rd day before an election, and may apply for new registration materials for use until the close of registration.

404. When the registration for any election is closed, all deputies or registration clerks shall immediately return all affidavits of registration and all books or pads in their possession containing stubs and spoiled or unused affidavit blanks.

405. Within five days after the close of registration, the county clerk shall report to the district attorney of the county, under oath, the names of his deputies or registration clerks, who have not complied with the provisions of this article.

406. If the county clerk deems a duplicate file of voter registration cards to be necessary for administrative purposes, the county clerk may prepare, upon the receipt in his office of each original affidavit of registration, a reproduction thereof in compliance with the following conditions:

(a) The affidavit is photographed, microphotographed or reproduced in a manner approved for permanent records by the National Bureau of Standards;

(b) The device used to reproduce such affidavit is one which accurately reproduces the original thereof in all details;

(c) The photographs, microphotographs, or other reproductions are placed in conveniently accessible files and provision is made for preserving, examining and using the same.

Wherever in this code the term duplicate affidavit is used it shall be deemed to include the reproduced affidavit authorized by this section.

02606 293495 516

Any signature comparison required by this code may be made against these duplicates.

407. If the county clerk refuses to register any qualified elector in the county, the elector may proceed by action in the superior court to compel his registration. In an action under this section, as many persons may join as plaintiffs as have causes of action.

408. Costs shall not be recovered against the county clerk in any action under this chapter, unless it is alleged in the complaint, and established on the trial, that the county clerk knowingly and willfully violated his duty.

Article 3. Forms

500. The affidavit of registration shall show:

(a) The facts necessary to establish the affiant as an elector.

(b) Affiant's name at length, including his given name, and a middle name or initial, or if the initial of his given name is customarily used, then the initial and middle name. The affiant's given name may be preceded, at his option, by the designation of Miss, Ms., Mrs. or Mr. Notwithstanding this section or Section 512, no person shall be denied the right to register because of his failure to mark a prefix to his given name and shall be so advised on the voter registration card.

(c) Affiant's place of residence, and residence telephone number, if furnished. Notwithstanding this section or Section 512, no person shall be denied the right to register because of his failure to furnish his telephone number, and shall be so advised on the voter registration card.

(d) Affiant's mailing address, if different from the place of residence.

(e) Affiant's social security number, if furnished. If his social security number is not immediately available, the affiant may mail the number to the county clerk on an addressed postcard provided for that purpose. Notwithstanding this section or Section 512, no person shall be denied the right to register because of his failure to furnish his social security number, and shall be so advised on the voter registration card.

(f) Affiant's date of birth.

(g) The state or country of affiant's birth.

(h) Affiant's occupation.

(i) Affiant's political party affiliation, if any.

(j) That the affiant is currently not imprisoned or on parole for the conviction of a felony which disqualifies him from voting.

(k) A prior registration portion indicating whether the affiant has been registered at another address, under another name, or as intending to affiliate with another party. If the affiant has been so registered, he shall give such additional statement giving that address, name, or party.

The affiant shall certify the content of the affidavit as to its truth and correctness, under penalty of perjury, with his signature of his name at length, including given name, middle name or initial, or initial and middle name, and if he is unable to write he shall sign with a mark or cross. The affiant shall date the affidavit immediately following his signature.

If any person, including a deputy registrar, assists the affiant in completing the affidavit, that person shall sign and date the affidavit below the signature of the affiant.

501. At the time of registering and of transferring registration, each elector may declare the name of the political party with which he intends to affiliate at the ensuing primary election. The name of that political party shall be stated in the affidavit of registration and the index.

The voter registration card shall inform the affiant that any elector may decline to state his political affiliation, but no person shall be entitled to vote the ballot of any political party at any primary election unless he has stated the name of the party with which he intends to affiliate. The voter registration card shall include a listing of all qualified political parties.

No person shall be permitted to vote the ballot of any party or for any delegates to the convention of any party other than the party designated in his registration, except as provided by Section 502.

502. Whenever any voter has declined to designate or has changed his political affiliation prior to the close of registration for an election, he may either so designate or have a change recorded by executing a new affidavit of registration and completing the prior registration portion of the affidavit.

503. (a) In every case the affidavit of registration shall show all the facts required to be stated.

(b) If the affidavit does not contain all of the information required, but the telephone number of the affiant is legible, the county clerk shall telephone the affiant and attempt to collect the missing information.

(c) If the affidavit does not contain all of the information required, and the county clerk is not able to collect the missing information by telephone, but the mailing address of the affiant is legible, the county clerk shall inform the affiant of the reason for rejection and shall send to the affiant a new voter registration card.

(d) If a properly executed affidavit is received by the county clerk on or before the 29th day prior to an election, the clerk shall send to the affiant a voter notification by nonforwardable first-class mail with address correction requested. Such notification shall inform the voter that he is registered to vote in the forthcoming election, and that his name will appear on the index kept at the polls.

(e) If a properly executed affidavit is received by the county clerk after the 29th day prior to an election the clerk shall send to the affiant a voter notification by nonforwardable first-class mail, with address correction requested. Such notification shall inform the

voter that the registration will not be valid for the forthcoming election but will be valid for any election occurring at least 29 days after the date of receipt of the affidavit by the county clerk.

504. If a voter notification sent to a voter under the provisions of subdivisions (d) and (e) of Section 503 is returned by the postal authorities to the county clerk or other officer charged with the duty of conducting an election, and the postal authorities inform the county clerk or other officer that the voter has removed from the address to which the notification was sent, the county clerk shall cancel the affidavit of registration for any election occurring at least 29 days after the county clerk receives such information from the postal authorities.

505. The Secretary of State shall print, or cause to be printed, the blank forms of the voter notification prescribed by Section 503. The form of such voter notification shall be prescribed by regulations adopted by the Secretary of State. The Secretary of State shall supply such forms to the county clerk in quantities and at times requested by the county clerk.

506. Subject to the provisions of this chapter, the affidavit of registration shall be in a form prescribed by regulations adopted by the Secretary of State. Such affidavit shall:

(a) Contain the information prescribed in Section 500.

(b) Be sufficiently uniform among the separate counties to allow for the processing and use by one county of an affidavit completed in another county.

(c) Allow for the inclusion of informational language to meet the specific needs of that county, including but not limited to, the return address of the clerk in that county, and a phone number at which a voter can obtain elections information in that county.

(d) Be included on one portion of a multipart card, to be known as a voter registration card, the other portions of which shall include information sufficient to facilitate completion and mailing of the affidavit and to inform the voter that he should not consider himself registered until he receives a voter notification by return mail.

(e) Be returnable to the county clerk as a self-enclosed mailer with postage paid by the Secretary of State.

507. In addition to registration conducted by deputy registrars of voters, the county clerk shall, as follows:

(a) Provide voter registration cards for the registration of voters at his office and in sufficient number of locations throughout the county for the convenience of persons desiring to register, to the end that registration may be maintained at a high level.

(b) Provide voter registration cards in sufficient quantities to any citizens or organizations who wish to distribute such cards. Such citizens and organizations shall be permitted to distribute voter registration cards anywhere within the county.

(c) Mail a voter registration card immediately to any person who wishes to register to vote and requests a voter registration card.

508. Each affidavit of registration issued to a deputy county clerk

or registration clerk shall meet the requirements prescribed by Section 506, except that the voter registration card shall be modified, pursuant to regulations adopted by the Secretary of State, to reflect the use of a deputy registrar of voters in lieu of mail delivery. A stub, separated from the body of the voter registration card by a perforated line, shall be attached to each such affidavit. Upon the stub shall be printed the number of the affidavit and blanks for the following:

(a) The name, residence, political affiliation, and signature of the voter.

(b) The signature of the registration clerk or deputy registrar taking the registration.

(c) The date.

At the time of registering the voter, the registration clerk or deputy registrar shall fill in the blanks in the stub, and require the voter to sign the stub in the place provided. He shall then detach the stub and the informational portion of the voter registration card from the affidavit and hand the stub and information to the voter.

509. The Secretary of State shall print, or cause to be printed, the blank forms of the affidavits of registration and voter registration cards prescribed by this code. The Secretary of State shall bind and number, or cause to be bound and numbered, affidavits of registration and voter registration cards as required by this code. The Secretary of State shall supply such forms to the county clerk in quantities and at times as requested by the county clerk.

510. The Secretary of State shall pay all postage for the (a) mailing of the voter notification and the address correction service pursuant to Section 503, (b) return to the county clerk of the affidavits of registration pursuant to Section 506, (c) mailing of blank voter registration cards pursuant to subdivision (c) of Section 507, (d) any mailing of blank voter registration cards pursuant to programs adopted under the provisions of Section 304. All payments made pursuant to this section shall be made directly from funds appropriated to the Secretary of State for this purpose.

511. Affidavits of registration for the whole of each county shall be filed, as fast as the registration progresses, in any orderly arrangement as prescribed by the county clerk. If the affidavits are not filed alphabetically without regard to precinct, the county clerk shall, by electronic, electromechanical or other suitable means, provide, for general use in his office, a comprehensive, printed alphabetical index to the surnames of voters on all uncanceled affidavits for the whole of the county, whereby the affidavit of registration of any voter may be ascertained and produced. In the case of voters having the same surname, the classification of names appearing on the index shall extend to the given and, where necessary, the middle name or initial.

512. Upon the personal or written application of any person, the county clerk shall give him a certified copy of the entries upon the register relating to the applicant.

A certified copy of an uncanceled affidavit of registration is prima facie evidence that the person named in the entry is a voter of the county.

Article 4. The Index

600. At least once, and more often if he deems it necessary, within each two-year period commencing on the first day of January in each odd-numbered year, the county clerk shall have printed a complete index, by precinct, to the affidavits of registration current at the date of printing. The county clerk shall keep a copy of such index on file as a public record for a period of five years. The index shall contain the name, address, residence telephone number if furnished, and political affiliation of each voter, and also a ruled space to the left of each name, within which to write, in figures, the line number designating the position of the name of the voter on the roster of voters. The name shall include the given name and the middle name or initials, if any. At the affiant's option, the given name may be preceded by the designation "Miss," "Ms.," "Mrs." or "Mr." The index shall be printed in a size no smaller than eight-point roman type on eight-point body and shall be arranged in alphabetical order in accordance with the surnames of the voters. A space of not less than one-quarter inch or one line of printing shall be left between the names of voters beginning with one letter of the alphabet and those starting with the next letter of the alphabet. Supplements of the same content and style may be printed as need for them appears.

601. In addition to printing a complete index within and for each two-year period, as provided in Section 600, the county clerk may print and maintain one complete and continuing index, by precinct, to the affidavits of registration and keep the index current by supplements and deletions as provided in Sections 600 and 603, and by reprinting portions of the index by precinct, as the need appears, the reprinted portions to contain the same information concerning each voter and to be in the same style, spacing, and type of print as provided in Section 600.

602. The number of copies of the precinct index printed shall not be less than 40 and as many more as in the judgment of the county clerk may be necessary for the business of the office. In counties where the precinct index is printed by means of a punched card or other high-speed data-processing equipment, the number of copies of precinct indices so prepared shall be the number required to be furnished by law and as many more as in the judgment of the county clerk may be necessary for the business of the office.

603. The county clerk shall supply copies of the index and of supplements to the index, necessary to bring it up to date, for all elections to be held within the county. The county clerk shall also supply as many copies of the index and supplements, not to exceed four in number, as may be requested by the clerk of a city, school district or other body. The name of each voter whose affidavit of

registration has been canceled shall be lined out of the index and supplement. The county clerk may charge such an amount as will reimburse the county for the expense incurred in preparing and furnishing lined out indexes of registrations and supplements other than for those provided for by Sections 600 and 602.

In the case of a municipal election, an index provided pursuant to this section shall be supplied to the city clerk not less than 25 days prior to the day of the election for which it is provided. If the index does not contain the names of all people eligible to vote in the election, the county clerk shall supply a supplement to the index, including all voters who registered after the 54th day before the election, not less than seven days prior to the election for which it is provided.

604. Upon demand of any Member of the Legislature or of Congress or any candidate who is to be voted for in the county, or in a city therein, or in a political subdivision of either, or upon written demand of his campaign committee, or of any committee for or against any proposed ballot measure, or of any committee for or against any referendum or initiative measure for which legal publication has been made, the county clerk shall furnish to such Member of the Legislature or of Congress or to either the candidate or his campaign committee or to the ballot measure committee no more than two copies of the printed indexes of the registration for the primary and general elections in which such Member of the Legislature or of Congress may participate as a candidate, or for the election in which the candidate will participate, or the ballot measure will be voted upon, at a charge of fifty cents ($0.50) per thousand names. All moneys collected shall be deposited in the county treasury to the credit of the general fund.

605. Upon written demand of the chairman or vice chairman of a party state central committee or of the chairman of a party county central committee, the county clerk shall furnish to the committee, without charge therefor, no more than two copies of the printed indexes of registration for the primary and general elections or for any special election at which a partisan office is to be filled. The copies of the printed indexes of registration shall be furnished to the committee demanding the same not less than 25 days prior to the day of the primary, general, or special election for which they are provided. Upon written demand, the county clerk shall also furnish to the committee not less than seven days prior to the above-specified elections, two copies of the printed indexes of registration of voters who registered after the 54th day before the election, which shall be compiled and prepared by Assembly districts. In counties with a population of less than 5,000,000, the county clerk shall furnish to the committee, without charge therefor, no more than four copies of the printed index of registration for the primary and general elections.

606. The county clerk shall have bound together in one or more volumes a general index to the affidavits of registration, arranged

02606 293585 534

alphabetically by precincts, and shall keep at least one copy of the general index in his office for public reference.

607. If the county clerk uses data-processing equipment to store the information set forth in the affidavits of registration, he shall forward to the Secretary of State one copy of the data-processing tape file with the information. A clerk not using data-processing storage shall forward to the Secretary of State one copy of the index setting forth such information. Whether tape file or index they shall be sent at the following times:

(a) Not less than 30 days prior to the primary election.

(b) Not less than seven days prior to the primary election, with respect to voters who registered after the 54th day before the election.

(c) Not less than 30 days prior to the general election.

(d) Not less than seven days prior to the general election, with respect to voters who registered after the 54th day before the election.

(e) On or before May 1 of each odd-numbered year.

(f) On or before October 1 of each odd-numbered year.

(g) On the 135th day before each presidential primary and before each direct primary.

The Secretary of State may adopt regulations prescribing the format of the information contained on data-processing cards or tapes.

The Secretary of State may adopt regulations prescribing additional regular reporting times, except that the total number of reporting times in any one calendar year shall not exceed 12.

The Secretary of State shall make the information on such data-processing tape files available, under conditions prescribed by the Secretary of State, to any candidate for federal, state, or local office, to any committee for or against any proposed ballot measure, to any committee for or against any referendum or initiative measure for which legal publication is made, and to any person for election or governmental purposes as determined by the Secretary of State.

608. If the county clerk maintains tabulating cards containing the information preserved pursuant to Section 710, or electronic data-processing tape containing such information, upon written demand and payment of a fee not exceeding the cost to the clerk for duplicating such information, and beginning the date on which the clerk begins to notify registrants pursuant to Section 706, the county clerk shall furnish to the state or county central committee of a party for all voters allowed to participate in the subsequent direct primary election or general election, a list of registrants notified pursuant to Section 706 for the preceding general election.

609. Before the day of any election held throughout the county, the county clerk shall deliver to the precinct board in each precinct three copies of the index to the affidavits of registration for that precinct, with canceled names lined out and with necessary

supplements to bring the index up to date. The index and supplements shall constitute the register to be used at the election.

610. The county clerk, immediately following the cancellation of affidavits of registration pursuant to Section 705, shall compile a current list showing the number of voters, by party affiliations, in each Assembly, senatorial, and congressional district located in whole or in part within the county and in each supervisorial district and city located within the county. The list shall be made available, upon request, to any elector residing within the county.

A copy of the list shall also be sent, within 10 days after its compilation, to the Secretary of State. The Secretary of State, on the basis of the lists transmitted to him by the county clerks, shall compile a statewide list showing the number of voters, by party affiliations, in the state and in each city, Assembly district, senatorial district, congressional district, and supervisorial district in the state. A copy of this list shall be made available, upon request, to any elector of this state.

611. If the county clerk maintains tabulating cards containing the information set forth in the affidavits of registration of voters, or sets forth that information on electronic data-processing tape, he shall provide, upon request, not less than 30 days prior to each direct primary election and general election, one set of those cards or a copy of the tape to the county central committee of a party for all voters allowed to participate in the subsequent direct primary election or general election. The county clerk shall also furnish to the county central committee, not less than seven days prior to each direct primary election and general election, one set of those cards or a copy of the tape of those voters who registered after the 54th day before the election. The cards or tape shall be provided without charge, except that the county central committee shall provide a replacement for the tape.

In addition to those provided to county central committees, the county clerk shall provide, upon request, a set of cards or a copy of a tape to any candidate or committee specified in Section 604, provided such candidate or committee reimburses the county for whatever actual costs are involved in providing this service.

612. Notwithstanding anything contained in this article, in any county in which tabulating equipment is used to produce the indexes of registration, the indexes shall be furnished to persons, committees, and agencies as provided in this article by street addresses in numerical order, but such indexes may be maintained in alphabetical order. In the event such county contains precincts for which the majority of voters have no street addresses, the indexes for such precincts may be arranged and furnished for all purposes in alphabetical order in accordance with the surnames of voters.

02606 293615 540

Article 5. Cancellation and Preservation

700. The registration of a voter is permanent for all purposes during his life, unless and until the affidavit of registration is canceled by the county clerk for any of the causes specified in this article.

701. The county clerk shall cancel the registration in the following cases:

(a) At the request of the person registered.

(b) When the insanity of the person registered is legally established.

(c) Upon the production of a certified copy of a subsisting judgment of the conviction of the person registered of any infamous crime or of the embezzlement or misappropriation of any public money.

(d) Upon the production of a certified copy of a judgment directing the cancellation to be made.

(e) Upon the death of the person registered.

(f) Pursuant to the provisions of Section 706.

702. The county clerk shall preserve all uncanceled affidavits of registration.

The affidavits of registration shall constitute the register required to be kept by this chapter.

703. Whenever a voter transfers his registration from one precinct to another precinct in the same county, or reregisters in another precinct in the same county as shown by the new affidavit of registration, the county clerk shall immediately cancel the affidavit of registration from the precinct in which the voter was first registered, and shall remove the affidavit from the file of uncanceled affidavits.

Whenever a voter removes from one county to another county and registers in the latter county, the county clerk of the county in which he was first registered, upon being informed of his removal either by the voter personally or by receipt of a notice of reregistration under the provisions of Section 313, shall likewise cancel his registration and remove the affidavit of registration in that county.

Cancellation is made by writing or stamping on the affidavit of registration the word "canceled," the reason the affidavit was canceled, and the date of cancellation.

All canceled affidavits of registration shall be preserved by the county clerk as required in Section 710.

The county clerk in distributing to each precinct the three indexes of registration, as required by this chapter, shall cross out of those indexes the names of all voters whose affidavits of registration from the precinct have been canceled.

704. The local registrar of births and deaths shall notify the county clerk not later than the 15th day of each month of all deceased persons 18 years of age and over, whose deaths were registered with him during the preceding month. This notification shall include at least the name, sex, age, birthplace, place of residence, date and

place of death of each decedent.

705. On completion of the canvass of the returns of the general election the county clerk shall:

(a) Examine the absent voters list and the roster of voters that was kept by the election officers in each precinct in the county at the general election.

(b) Mail the notice required pursuant to Section 706.

(c) Cancel the original and duplicate affidavits of registration and remove the original affidavit of registration for each voter who did not vote at that election, if he receives an address correction requested or any other postal notice which indicates that the voter no longer resides at his registered address, as provided in Section 706.

The effective date of cancellation of registration shall be the 30th day following the date the notice is mailed to the voter.

706. When a person fails to vote at the general election, the county clerk shall no later than the first day of the following January mail a notice, by means of a forwardable double postcard address correction requested, prepaid by the clerk, to that person at the address given on the registration or upon the last application for transfer of registration, stating on one of the postcards the following:

"Our records indicate that you did not vote in the general election on November ____ 19__.

"If you still live at the address noted on this card, your registration will remain permanent and you may disregard this notice.

"If you have moved to a new address within (name of county), write the new address on the attached card and mail it postage free. If this card is not returned by _____, your registration will be canceled and you must reregister before you are again entitled to vote.

"If you have moved to another county, your registration will be canceled and you must reregister at your new address."

If the clerk does not receive an address correction notice for a voter or any other postal notice which indicates that the voter no longer resides at that registered address, he shall maintain the voter's registration.

If the clerk receives within 30 days after mailing the notice signed, written notification that the voter has removed to a different, stated residence within the same county, he shall accept such notification and shall change the address on the voter's affidavit of registration accordingly.

If the clerk receives an address correction notice which indicates that the voter has moved within the county and the clerk does not receive a written change of address notice from the registered voter within 30 days of the mailing of the notice or if the clerk receives an address correction notice which indicates that the voter has moved to another county or if the clerk receives any other postal notice which indicates that the voter no longer resides at that registered address, the clerk shall cancel the voter's registration.

707. The county clerk shall, in the first week of September in

each year, examine the records of the courts having jurisdiction in case of infamous crimes and the embezzlement or misappropriation of public money, and shall cancel the affidavits of registration of all voters who have been finally convicted of an infamous crime or of the embezzlement or misappropriation of public money.

As used in this section, "county clerk" does not include "registrar of voters."

708. The county clerk, on the basis of the records of courts in the county having jurisdiction of such offenses, shall furnish to the chief elections official of the county, before the first day of September of each year, a statement showing the names of all persons convicted of infamous crimes or of the embezzlement or misappropriation of public money during the year prior to that first day of September, whose convictions have become final. The elections official shall, during the first week of September in each year, cancel the affidavits of registration of such persons. The county clerk shall certify the statement under the seal of his office.

As used in this section, "county clerk" does not include "registrar of voters."

709. Any person may proceed by action in the superior court to compel the county clerk to cancel any registration made illegally or which should be canceled by reason of facts that have occurred subsequent to the registration. If the voter whose registration is sought to be canceled is not a party to the action, the court may order him to be made a party defendant.

The county clerk and as many persons against whom there are causes of action may be joined as defendants.

710. The county clerk shall preserve all canceled original affidavits of registration for a period of four years, after which they may be destroyed by that officer.

In lieu of preserving the canceled original affidavit of registration, the county clerk may, by filming or other suitable method, record the canceled affidavit and destroy the affidavit following the first general election after the date of cancellation.

CHAPTER 3. PENAL PROVISIONS

750. Every person who willfully causes, procures, or allows himself or any other person to be registered as a voter, knowing that he or that other person is not entitled to registration, is punishable by imprisonment in the state prison for not less than one nor more than three years.

751. Notwithstanding any other provision of law to the contrary, a violation of the provisions of Section 750 shall be deemed to have been committed upon delivery of the affidavit of registration to the clerk of the county in which the elector resides.

752. Any deputy clerk or registration clerk having charge of affidavits of registration is guilty of a misdemeanor who:

SEC. 13. Section 312 is added to the Elections Code, to read:

312. Except as provided in Section 315, if an elector reregisters or transfers his registration from one precinct to another, the former address shall be entered in the prior registration portion of the affidavit, and the former registration shall thereupon be canceled.

SEC. 14. Section 315 is added to the Elections Code, to read:

315. In lieu of executing a new affidavit of registration for a change of address within the county the county clerk shall accept a notice or letter of the change of address signed by a voter as he is registered. County clerks shall provide a form or postage prepaid postcard notice which shall be substantially in the following form:

I, _____, hereby state, that I have moved
(Name as registered)
within _____ County and request that my affidavit of registration be corrected as follows:

Old address: _____
New address: _____

I understand that this notice is effective only for elections held 29 or more days from date of postmark on this card.

The undersigned hereby certifies under penalty of perjury that the information contained herein is correct to the best of my knowledge.

The county clerk shall accept such notifications postmarked not

less than 29 days before an election and shall change the address on the voter's affidavit of registration accordingly. Any requests for change of address postmarked less than 29 days prior to an election shall not be applicable to that election but shall apply to all subsequent elections.

SEC. 15. Section 317 is added to the Elections Code, to read:

317. If a sample ballot or other notice of election sent to voters is returned by the post office to the county clerk or other officer charged with the duty of conducting an election because of the removal of the voter from the address to which it was sent, and the county clerk or other officer determines that the voter has moved to a new address in the county, the county clerk or other officer, following the election for which the sample ballot or other notice was sent out, may send a notice to the voter by means of a double postcard. One of the postcards shall inform the voter of the return of the sample ballot or election notice, and shall state that the records on file in the office of the county clerk indicate that the voter is still registered from his old address and that his affidavit of registration has been placed in a suspension file.

The other postcard, which shall be prepared and preaddressed by the clerk with postage paid by the clerk, shall contain blanks wherein the voter may notify the clerk whether his change of address is temporary or permanent and wherein he may sign the postcard. Upon receipt of the postcard, indicating that the change of address is permanent, if the signature on the postcard is the same as appears on the affidavit of registration the clerk shall write on the front or the back of the voter's affidavit the new address, and transfer the affidavit to the proper precinct register. If the postcard is not returned to the clerk within 30 days after the date of mailing, the voter's registration shall be removed from the suspension file and canceled.

SEC. 16. Chapter 3 (commencing with Section 600) of Division 1 of the Elections Code, as added by Chapter 220 of the Statutes of 1976, is repealed.

SEC. 17. Section 703 is added to the Elections Code, to read:

703. Cancellation is made by writing or stamping on the affidavit of registration the word "canceled," the reason the affidavit was canceled, and the date of cancellation.

Whenever a voter transfers his registration from one precinct to another precinct in the same county, or reregisters in another precinct in the same county as shown by the new affidavit of registration, the county clerk shall immediately cancel the affidavit of registration from the precinct in which the voter was first registered, and shall remove the affidavit from the file of uncanceled affidavits.

Except as provided in Section 315, whenever a voter removes from one county to another county and registers in the latter county, the county clerk of the county in which he was first registered, upon being informed of his removal either by the voter personally or by

receipt of a notice of reregistration under the provisions of Section 313, shall likewise cancel his registration and remove the affidavit of registration in that county.

All canceled affidavits of registration shall be preserved by the county clerk as required in Section 710.

The county clerk in distributing to each precinct the three indexes of registration, as required by this chapter, shall cross out of those indexes the names of all voters whose affidavits of registration from the precinct have been canceled.

SEC. 18. Division 1.5 (commencing with Section 1000) is added to the Elections Code, to read:

DIVISION 1.5. ABSENTEE VOTING AND NEW RESIDENT VOTING

CHAPTER 1. APPLICATION AND VOTING PROCEDURES

1000. The following definitions shall govern this division:

(a) "Absent voter" means any voter casting a ballot in any way other than at the polling place.

(b) "Election official" means any county clerk, city clerk, registrar of voters, elections supervisor, or governing board having jurisdiction over elections.

(c) "Special absentee voter" means an elector who:

(1) Is a member of the armed forces of the United States or any auxiliary branch thereof;

(2) Is a citizen of the United States temporarily living outside of the territorial limits of the United States or the District of Columbia;

(3) Is serving on a merchant vessel documented under the laws of the United States; or

(4) Is a spouse or dependent of a member of the armed forces or any auxiliary branch thereof.

1001. This division shall be liberally construed in favor of the absent voter.

1002. Application for an absent voter's ballot shall be made in writing to the elections official having jurisdiction over the election between the 29th and the 7th day prior to the election. The application shall be signed by the applicant, shall show his place of residence, and shall make clear to the clerk the applicant's right to a ballot. Any applications received by the elections official prior to the 29th day shall be kept and processed during the application period.

1003. The absentee ballot shall be available to any registered voter who is unable to appear at his polling place for any one of the following reasons:

(a) Illness.

(b) Absence from the precinct on the day of the election.

(c) Physical handicap.

(d) Conflicting religious commitments.

(e) The voter resides more than 10 miles from his polling place.

The absentee ballot shall also be available to any registered voter who resides within a precinct which is wholly on federally owned or controlled land.

1004. The county elections official shall place a notice in any office within the county where applications are taken for federal passports or where military enlistments are received to inform potential special absentee voters of their right to an absent voter's ballot and where registration materials and application forms can be obtained.

1005. Whenever, on the 54th day before the election, there are 30 or less persons registered to vote in any precinct, the elections official may furnish each voter with an absentee ballot along with a statement that there will be no polling place for the election. If the election is to be held entirely by absentee ballot, the voter shall not be required to file an application for the absentee ballot and the ballot shall be sent as soon as the ballots are available.

No precinct shall be divided in order to conform to the provisions of this section.

1006. Any printed application, which is to be distributed to voters for requesting absent voter ballots, shall contain spaces for the following:

(a) The printed name and residence address of the voter as it appears on the affidavit of registration.

(b) The address to which the ballot is to be mailed.

(c) The voter's reason for requesting an absent voter's ballot.

(d) The voter's signature.

(e) The name and date of the election for which the request is to be made.

(f) The date the application must be received by the clerk.

1007. Upon receipt of any absentee ballot application which arrives within the proper time the elections official should determine if the signature and residence address on the ballot application appear to be the same as that on the original affidavit of registration. The official may make this signature check upon receiving the voted ballot, but the signature must be compared before the absent voter ballot is canvassed.

If the official deems the applicant entitled to an absent voter's ballot he shall deliver by mail or in person the appropriate ballot.

1008. The official shall deliver to each qualified applicant:

(a) The ballot for the precinct in which he resides. In primary elections this shall be the ballot for the party with which he is affiliated or, when appropriate, a nonpartisan ballot.

(b) All supplies necessary for the use and return of the ballot.

(c) No officer of this state may make any charge for services rendered to any voter under the provisions of this chapter.

1009. The identification envelope shall contain the following:

(a) A declaration, under penalty of perjury, stating that the voter resides within the precinct in which he is voting.

(b) The signature of the voter as it appears on his affidavit of registration written across the sealed flap of the envelope.

(c) The residence address of the voter as shown on the affidavit of registration.

(d) The date of signing.

(e) A notice that the envelope contains an official ballot and is to be opened only by the canvassing board.

1009.5. Whenever the clerk is required to mail an absent voter's ballot to any elector and the address to which the ballot is to be mailed is a point outside the territorial limits of the United States, he shall mail the absent voter's ballot to the elector by airmail, and, if by any law of the United States official election ballots may be mailed without the payment of postage, he shall do so.

1010. Upon delivering or mailing an absent voter's ballot, the elections official shall enter on the application of the absent voter, or on the affidavit of registration, the type of ballot and the date of delivering or mailing. Before the election the elections official shall send to the inspector of each precinct in his county or city a list of the voters in that precinct applying for and receiving ballots under the provisions of this chapter.

1011. The official shall send a second absent voter ballot to any voter upon receipt of a statement under penalty of perjury that the voter has failed to receive, lost, or destroyed his original ballot.

The envelope in which the second ballot is enclosed shall have plainly stamped or printed on it a warning that voting twice constitutes a felony and that both ballots will be void.

The official shall keep a record of each absent voter ballot sent to and received from a voter and shall verify, prior to counting any duplicate ballot, that the voter has not attempted to vote twice.

1012. Absent voters who return to their home precincts on election day may vote only if they surrender their absent voter ballots to the inspector of the precinct board.

The precinct board shall return the unused absent voter's ballots to the elections official in an envelope designated for this purpose.

1013. After marking the ballot, the absent voter may return it to the official from whom it came by mail or in person, or may return it to any member of a precinct board at any polling place within the jurisdiction. The ballot must, however, be received by either the official or the precinct board before the close of the polls on election day.

The official shall establish procedures to insure the secrecy of any ballot returned to a precinct polling place.

1014. Any voter using an absentee ballot may, prior to the close of the polls on election day, vote the ballot at the office of the elections official. The voter shall vote the ballot in the presence of an officer of the official or in a voting booth, at the discretion of the official, but in no case is his vote to be observed. Where voting machines are used the official may provide one voting machine for each ballot type used within the jurisdiction.

1015. Upon receipt of the absentee ballot the elections official shall compare the signature on the envelope with that appearing on the affidavit of registration and, if they compare, deposit the ballot, still in the identification envelope, in a ballot container in his office. A variation of the signature caused by the substitution of initials for the first or middle name, or both, shall not invalidate the ballot. If the ballot is rejected because the signatures do not compare, the envelope shall not be opened and the ballot shall not be counted. The cause of the rejection shall be written on the face of the identification envelope.

If the elections official has compared the signature of the voter's application with the affidavit pursuant to Section 1007, the application may be used rather than the affidavit to make the signature check required by this section.

No ballot shall be removed from its identification envelope until the time for processing. No ballot shall be rejected for cause after the envelope has been opened.

1016. All absentee ballots cast under the provisions of this division shall be received by the official from whom they were obtained or by the precinct board no later than the close of the polls on election day.

1017. After the close of the period for requesting absent voter ballots by mail any voter unable to go to the polls because of illness or disability resulting in his confinement in a hospital, sanatorium, nursing home, or place of residence, or any voter unable because of a physical handicap to go to his polling place or because of such handicap is unable to vote at his polling place due to existing architectural barriers at his polling place denying him physical access to the polling place, voting booth, or voting apparatus or machinery, or any voter unable to go to his polling place because of conditions resulting in his absence from the precinct on election day may request in a written statement, signed under penalty of perjury that a ballot be delivered to him; provided, however, that the above described conditions shall have occurred after the close of the application for absent voter ballots. This ballot shall be delivered by the elections official to any authorized representative of the voter who presents this written statement to the official.

Before delivering the ballot the official shall compare the signature on the request with the signature on the voter's affidavit of registration.

The voter shall mark the ballot, place it in the identification envelope, fill out and sign the envelope and return the ballot, through the authorized representative, to either the elections official or any polling place within the jurisdiction.

These ballots shall be processed and counted in the same manner as other absentee ballots.

1018. The official shall include with the sample ballot an application for an absent voter ballot.

1019. Each ballot which is delivered pursuant to this chapter shall

be accompanied by a ballot pamphlet of the kind the voter would have received at the address on his affidavit of registration. If a voter receives a ballot pamphlet pursuant to this section, it is not necessary to send another copy of that pamphlet to him.

CHAPTER 2. NEW RESIDENTS

1100. "New resident" means a person who meets all requirements of an elector of the State of California except that his or her residency was established subsequent to the 29th day prior to the election.

The new resident is eligible to vote for President and Vice President and for no other office.

1101. Registration for new residents shall be in progress beginning with the 28th day prior to an election and ending on the seventh day prior to election day.

This registration must be executed in the county elections office and the new resident shall vote a new resident's ballot in that office.

1101.5. The new residents' affidavits of registration shall be kept separate from the files of permanent affidavits of registration of voters, and they shall not be used in connection with the preparation of the index of voters prepared under Sections 600 and 601, until they are either canceled or become permanent pursuant to Section 1106.

1102. The Secretary of State shall have blank affidavits of registration prepared for new residents which shall contain the information required in Section 506. The affidavit shall be the same as the regular affidavit of registration except that it shall have a removable portion with the caption "new resident".

1103. The envelope into which a new resident is to place the ballot shall bear upon its face the name and official title of the county elections official and upon the other side a printed affidavit in substantially the following form:

State of California }

1104. The new resident shall mark the ballot, place it in the

identification envelope, and fill out and sign the declaration printed on the identification envelope.

1105. The ballots of new residents shall be received and canvassed at the same time and under the same procedure as absent voter ballots, insofar as that procedure is not inconsistent with the provisions of this chapter.

1106. After completing the official canvass, but no later than 60 days before the next regular election, the county elections official shall send a forwardable notice to each voter registered as a "new resident." The notice shall be a double postcard in substantially the following form:

1107. Upon receipt of the signed declaration of residency the elections official shall compare the signature shown on the declaration with those shown on the "new resident" affidavit of registration. If it is the same, the elections official shall remove the part identifying the affidavit as that of a new resident, attach the declaration to the affidavit, make any necessary address change and file the affidavit in the manner prescribed by this code.

1108. The county elections official shall preserve the canceled affidavits of registration as required in Section 710.

1109. The county elections official shall keep open to public inspection a list showing the names and addresses of all persons who have voted as new residents. The list shall be preserved for a period of four years from the date of the election.

CHAPTER 3. SPECIAL ABSENTEE VOTERS

1200. When a special absentee voter, as defined in Section 1000 applies for an absent voter's ballot and the elections official determines that he is not registered to vote, the official shall send the affidavit of registration card with the ballot. The affidavit of registration must be completed by the voter and returned with the voted ballot or the ballot shall not be counted.

If the application has been made upon a federal form for absentee ballots the form shall be deemed an affidavit of registration and the applicant shall be considered registered for that election only.

If the applicant is not a resident of the county to which he has applied, the official receiving the application shall forward it immediately to the proper county.

1201. Upon timely receipt of the affidavit of registration and the voted absentee ballot, the elections official shall examine the affidavit to ascertain that it is properly executed in accordance with the provisions of this code and that the applicant is a qualified elector of the county. If the official is satisfied of these facts, the applicant shall be deemed a duly registered voter as of the date appearing on the affidavit to the same extent and with the same effect as though he had registered in proper time prior to the election.

1202. Applications for the ballots of special absentee voters shall be received, and the ballots shall be received and canvassed at the same time and under the same procedure as absent voter ballots, insofar as that procedure is not inconsistent with the provisions of this chapter.

1203. When an affidavit or registration is found to be insufficient both the affidavit and the voted ballot are to be rejected. The word "rejected" and the date shall be written across the face of the affidavit and across the front of the ballot envelope. The words "not registered" shall also be written across the identification envelope.

If it appears the applicant is entitled to register and vote in some other city or county, the elections official shall immediately transmit the affidavit and the ballot to the proper city or county. The affidavit

and ballot shall then be processed in accordance with this chapter.

1204. When the affidavit is received by an elections official, other than a county clerk, the elections official receiving it shall, after the election, transmit it to the county clerk who, if the affidavit is not subject to rejection, shall file the original. If an affidavit or registration is rejected, it shall be returned to the applicant with the reason for rejection endorsed on it, together with a new blank affidavit card.

1205. If any special absentee voter is released from service after the closing date of registration for an election and has returned to the county of his residence and is not a registered voter, he may apply in person to the elections official for permission to register. If the elector furnishes documentary proof of release from service after the closing date of registration for the election, the elections offical shall allow him to be registered and to vote in the election. On or before the day of election the elections official shall deliver to the precinct board a list of special absentee voters registered under the provisions of this section.

1206. If any special absentee voter to whom an absent voter's ballot has been mailed and which ballot has not been voted by him returns to the county in which he is registered on or before election day, he may apply to the elections official for permission to vote. The elections official shall require him to sign an authorization to cancel the absent voter's ballot previously issued when it is returned to the county official. The official shall then issue another absent ballot to the special absentee voter, to be voted in the clerk's office, or the clerk shall certify to the precinct board that the special absentee voter is eligible to vote in the precinct polling place of his residence upon complying with the other requirements of this code.

1206.3. If any special absentee voter returns to the county of his residence after the final day for making application for an absent voter ballot, he may appear before the clerk and make application for registration, absent voter ballot, or both. The clerk shall register the voter, if he is not registered, and deliver to him an absent voter ballot which may be voted in the clerk's office or voted outside the clerk's office on or before the close of the polls on the day of election and returned as are other absent voter ballots.

1206.5. If a registered special absentee voter is unable to appear at his polling place because of being recalled to service after the final day for making application for an absent voter's ballot, but before 5 o'clock p.m. on the day before the day of election, he may appear before the clerk and make application for an absent voter's ballot. The clerk shall deliver to him an absent voter's ballot which may be voted in the clerk's office or voted outside the clerk's office on or before the close of the polls on the day of election and returned as are other absent voter's ballots.

1207. Whenever by any statute of the United States, provision is made for absentee voting, an application for an absent voter's ballot made under the provisions of that law may be given the same effect

as an application for an absent voter's ballot made under this code.

If, by any federal statute, provision is made for the transmission of applications for absent voter's ballots to the Secretary of State, he shall transmit the applications to the county clerk of the county in which the applicant claims residence.

1208. If by any act of Congress which is now or may become effective during the effective period of this section, provision is made for voting by special absent voter, that act shall control and be superior to any conflicting provisions of this code, and all state, county, municipal and district officers, who are charged with the performance of duties with reference to the election laws of this state, shall perform the duties and discharge the obligations placed upon them by that act of Congress. It is the purpose and intent of this section that full effect shall be given to ballots cast by special absentee voter under federal statutes in order that no person shall be deprived of his vote by virtue of having cast his ballot under any federal statute rather than under the laws of this state.

CHAPTER 5. CANVASS

1400. Any county having the necessary computer capability may start to process absent voter ballots on the fifth day prior to the election. This process may be completed to the point of putting the information on computer tape, but under no circumstances, is a vote count to be made until 8 p.m. on the day of the election. All other elections officials shall start to process absent voter ballots at 5 p.m. on the day before the election.

Results of any absent voter tabulation or count are not to be released prior to the close of the polls on the day of the election.

1401. The official shall appoint a special counting board or boards in such numbers as he deems adequate to count the absent voter ballots. The official shall provide for the forms of tally books and the distribution of the duties of the members of the canvassing board.

When the tally is done by hand there shall be no less than four persons for each office or proposition to be counted. One shall read from the ballot, the second shall keep watch for any error or improper vote, and the other two shall keep the tally.

1402. The elections official shall pay a reasonable compensation to each member of the canvassing board of absent voter ballots. This compensation shall be paid out of the treasury of the agency conducting the election as other claims against it are paid.

1403. Except as otherwise provided, the processing and counting of absent voter ballots and the disposition of challenges of absent voter ballots shall be according to the laws now in force pertaining to the election for which they are cast. 1405. The board shall announce audibly the voter's name, whereupon a challenge may be made against the counting or deposit of the absent voter ballot. Challenges may be made for the same reasons as those made against a voter voting at a polling place. In addition a challenge may be entered on the grounds that the ballot was not received within the time provided by this code.

1407. If a challenge is overruled, the board shall then open the identification envelope without defacing the affidavit printed on it or mutilating the enclosed ballot, and, without unfolding the ballot, shall remove the number from the ballot, destroy the number slip and deposit the ballot in the ballot box provided for the purpose.

1408. If a challenge is allowed, the board shall endorse on the face of the identification envelope the cause of the challenge and its action thereon.

1409. Except as otherwise provided in this chapter the counting and canvassing of absentee ballots shall be conducted in the same manner and under the same regulations as used for ballots cast in a precinct polling place.

1409.5. Reports to the Secretary of State of the findings of the canvass of absent voter ballots shall be made by the clerk pursuant to Chapter 7 (commencing with Section 17070) and Chapter 8 (commencing with Section 17080) of Division 10.

1411. When elections are consolidated pursuant to the provisions of Division 12 (commencing with Section 22000), and only one form of ballot is used at the consolidated election, the ballots cast by absent voters shall be counted only in connection with elections to which absent voter privileges have been extended by law.

Whenever the period of time within which absent voters' ballots must be received by the clerk in order to be counted, as for any election by this code or any other law of this state, is different from that period of time provided for another election, and the elections are consolidated and only one form of ballot used for both elections, all absent voters' ballots issued for the consolidated election may be counted for both elections if received by the clerk within whichever period of time that is the longer.

A peremptory writ of mandate shall issue only upon proof that the error, omission or neglect is in violation of this code or the

Constitution and that issuance of the writ will not substantially interfere with the conduct of the election.

Such action or appeal shall have priority over all other civil matters.

A cross (+) stamped in the square opposite the name of a party and its presidential and vice presidential candidates, is a vote for all of the electors of that party, but for no other candidates."

If a group of candidates for electors has been nominated under the provisions of Chapter 3 (commencing at Section 6800) of Division 5, and has under the provisions of Article 1 (commencing at Section 6800) of that chapter designated the names of the candidates for President and Vice President of the United States for whom those candidates have pledged themselves to vote, the instructions to voters shall also contain the following:

SEC. 3. Chapter 12 (commencing with Section 13215) is added to Division 11 of the Public Resources Code, to read:

CHAPTER 12. STANDBY CHARGES

13215. The district may fix by ordinance or resolution, on or before the first day of July in each calendar year, water or sewer standby or immediate availability charges. Each such charge shall not individually exceed twelve dollars ($12) per year for each acre of land, or eight dollars ($8) per year for each parcel of land of less than an acre within the district to which water or sewerage could be made available for any purpose by the district, whether the water or sewerage is actually used or not. The district board may establish schedules varying the charges depending upon factors such as the uses to which the land is put, the cost of supplying such services to

the land, and the amount of services used on the land. The district board may restrict the imposition of such charges to lands lying within one or more improvement districts within the district.

13216. The ordinance or resolution fixing standby or immediate availability charges shall be adopted only after adoption of a resolution setting forth the particular schedule of charges proposed to be established and after notice and hearing in the manner prescribed by Section 54354.5 of the Government Code.

13217. If any water or sewer standby or immediate availability charge remains unpaid on the first day of the month in which the board of supervisors of the county in which the district is located is required by law to levy the amount of taxes required for county purposes, a 6-percent penalty thereon shall accrue. The amount of the unpaid charges plus the penalty shall constitute a special assessment upon the land with respect to which the services, for which charges are unpaid, were available or in existence on a standby basis, and shall constitute a lien on that land. The assessment shall be collected at the same time and in the same manner as ad valorem taxes are collected and shall be subject to the same penalties and the same procedures upon sale in the case of delinquency as provided for such taxes. All laws applicable to the levy, collection, and enforcement of ad valorem taxes shall be applicable to the assessment; except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for the value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the unpaid charges, and any penalty thereon, relating to such property shall be transferred to the unsecured roll for collection.

At least 15 days before the first day of the month in which the board of supervisors is required by law to levy the amount of taxes required for county purposes, the district board shall furnish in writing both to the board of supervisors and to the county auditor, a description of each parcel of land within the district upon which a standby or immediate availability charge or charges remains unpaid, together with a statement setting forth both the amount of the unpaid charge or charges and the amount of the penalty on each parcel of land.

SEC. 4. The inhabitants of the Fallen Leaf Lake watershed face unique problems in connection with installing, maintaining, and controlling use of water supply systems and sewage treatment methods and facilities that will not contaminate the Lake Tahoe region. The people of this region have made investigations and studies of their special problems. This special act is necessary to provide a responsible public entity to provide such services in this unique resort area. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of this act as

a special law is necessary to resolve the special problems existing in the Fallen Leaf Lake watershed.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 1282

An act to amend Sections 9889.50, 9889.51, 9889.52, 9889.54, 9889.55, 9889.56, 9889.57, 9889.58, 9889.59, and 9889.61 of the Business and Professions Code, relating to air pollution, and making an appropriation therefor.

[Approved by Governor September 27, 1976 Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 9889.50 of the Business and Professions Code is amended to read:

9889.50. (a) The Legislature finds and declares that air pollution constitutes a significant detriment to public health and welfare; that emissions from motor vehicles are the major source of photochemical air pollution in the principal population centers of California; and that the South Coast Air Basin, as defined by the State Air Resources Board, is subjected to the most severe photochemical air pollution in the state.

(b) The Legislature further finds and declares that an effective system of periodic motor vehicle inspection and maintenance and consumer education will reduce the level of vehicular air pollution and provide motorists with objective maintenance information regarding their vehicles.

(c) The Legislature further finds and declares that the federal government has delegated to the several states the ultimate responsibility for periodic motor vehicle inspection and maintenance, and that federal funds from various sources are available for approved demonstration programs.

(d) It is, therefore, the intent and purpose of the Legislature, in enacting this chapter, to establish a demonstration program in Los Angeles, Orange, Riverside, San Bernardino, Santa Barbara, and Ventura Counties for the periodic inspection of motor vehicles.

SEC. 2. Section 9889.51 of the Business and Professions Code is amended to read:

9889.51. (a) The department shall, with the cooperation of the State Air Resources Board and the Department of the California

Highway Patrol, design and adopt a program for the mandatory periodic emission inspection of all motor vehicles registered in those portions of the Counties of Los Angeles, Orange, Riverside, San Bernardino, Santa Barbara, and Ventura that lie within the South Coast Air Basin, as described by regulation of the State Air Resources Board in Section 60104 of Title 17 of the California Administrative Code, as that section read on January 1, 1976, and of all motor vehicles owned by governmental entities and public utilities and registered elsewhere in the state but garaged in such portions of such counties, except that:

(1) The department shall exempt from the emission inspection portion of the program every motorcycle, as defined in Section 400 of the Vehicle Code, and every motor vehicle weighing over 6,001 pounds, until the department, in conjunction with the State Air Resources Board, determines that the inclusion of such vehicles is technologically and economically feasible.

(2) The department may, by regulation, exempt from the program classes of specialized motor vehicles which the department, in conjunction with the State Air Resources Board, determines would present prohibitive inspection problems.

The emission inspection of each motor vehicle shall include all of the following:

(1) A determination that all emission control equipment and devices required by state and federal law are installed and functioning correctly.

(2) A measurement of the vehicle's exhaust emissions as determined by tests adopted by the department. In adopting a test procedure, the department shall consider, among other things, the cost of performing the test, the time required to conduct the test, the reliability of the test to provide accurate measurements of various air pollutants, and the ability of the automotive industry to interpret the test data accurately.

(3) A determination as to whether the vehicle complies with the emission standards for that vehicle's class and model year as prescribed by the State Air Resources Board pursuant to Section 43010 of the Health and Safety Code.

(4) Where applicable, a written indication to the vehicle's owner of the probable cause of any malfunction or misadjustment responsible for the vehicle's failure to comply with such standards and of any maintenance or repairs recommended to correct such malfunction or misadjustment.

SEC. 3. Section 9889.52 of the Business and Professions Code is amended to read:

9889.52. (a) The department shall administer the inspection program adopted pursuant to Section 9889.51, and shall hire, train, and organize the staff necessary to effect this purpose.

(b) The department shall conduct a series of orientation or training seminars to familiarize automobile mechanics and owners of motor vehicles subject to the provisions of this chapter with

procedures and forms to be utilized in the inspection program and, in particular, with maintenance and repair procedures recommended by the department for performance on vehicles failing to pass inspections. Such seminars shall be conducted at locations in each of the counties subject to this chapter selected on the basis of convenience of participants' access. Any automotive mechanic employed by an automotive repair dealer registered pursuant to Section 9884, or by a motor vehicle pollution control device installation and inspection station licensed pursuant to Section 9888.3, shall be required to attend an orientation or training seminar conducted by the department prior to performing the maintenance or repairs of a motor vehicle which were recommended by the department pursuant to Section 9889.51 to correct the malfunction or maladjustment responsible for the vehicle's failure of an inspection conducted pursuant to this chapter.

(c) The department shall acquire and construct such facilities as are necessary to establish inspection stations, except when the facilities are acquired and constructed by a public or private entity under contract with the state board pursuant to Section 9889.54. However, in the interests of expediency and economy, whenever practicable existing state installations, surplus state property, and leased property shall be utilized. A private entity operating any portion of the inspection program shall not have any financial interest in any automotive repair station located within the geographical area in which the program is being conducted.

(d) The department shall ascertain whether a sufficient number of qualified persons are available to perform the motor vehicle repairs and maintenance which may be recommended by the department pursuant to motor vehicle inspection program established pursuant to this chapter. Notwithstanding the schedule in Section 9889.55, the program shall be implemented until the department determines that there are enough qualified persons available to perform such repairs and maintenance.

(e) Notwithstanding any other provision of this section, the department shall authorize any owner of a fleet of 10 or more motor vehicles subject to this chapter, who so elects, to implement and conduct the inspections of his own vehicles required by this chapter, on his own premises utilizing his own facilities or personnel, or both, subject to the following conditions:

(1) The owner's inspection system shall conform, in the department's determination, with all provisions of Section 9889.51, and with all regulations adopted by the department pursuant thereto.

(2) The authorization shall be suspended or rescinded by the department whenever the department determines, on the basis of random spot checks of the owner's inspection system and fleet vehicles, that the system fails so to conform. Any owner authorized to conduct his own inspections under this subdivision shall be deemed to have consented to provide the department with

whatever access, information and other cooperation the department reasonably determines are necessary to facilitate the random spot checks required by this paragraph.

SEC. 4. Section 9889.54 of the Business and Professions Code is amended to read:

9889.54. Notwithstanding any other provision of this chapter, the department may contract with public or private entities to design, implement, or operate the inspection program adopted by the department pursuant to Section 9889.51.

SEC. 5. Section 9889.55 of the Business and Professions Code is amended to read:

9889.55. The provisions of this chapter shall take effect in accordance with the following schedule:

(a) The inspection program shall be designed by the department during 1974 and 1975 and adopted no later than September 30, 1975.

(b) The inspection program shall be implemented by the department during the period from 1975 to 1978, inclusive, and a series of trial inspections of motor vehicles conducted by the department in order to refine inspection standards and procedures adopted under the program shall be completed by no later than January 1, 1979. Such trial inspections shall be limited to the Counties of Orange, Riverside, and San Bernardino, or any portion of one or more of these counties as the department may specify, and to one or more classes of vehicles subject to the provisions of this chapter, for example, vehicles owned by governmental entities. The trial inspection program may include provision for voluntary maintenance or repair and reinspection of vehicles failing to pass initial inspections, undertaken at the owners' expense, and for mandatory maintenance or repair and reinspection of such vehicles, undertaken at the department's expense. Notwithstanding other provisions of this section and of Section 4602.1 of the Vehicle Code, the trial inspections shall not be enforced through renewal of registration of motor vehicles. The department may issue stickers which shall be affixed to vehicles in accordance with regulations of the department or the department may, in conjunction with other affected state agencies, prescribe by regulation other means of enforcement.

(c) Any motor vehicle subject to the provisions of this chapter shall be inspected by the department upon each transfer of registration subsequent to January 1, 1979.

(d) Upon authorization by statute, the state board, subsequent to January 1, 1981, shall inspect motor vehicles subject to this chapter upon each renewal of registration and, in the case of motor vehicles previously registered in another state, upon initial registration.

(e) Notwithstanding any other provision of this section, whenever transfer of registration, or initial or renewed registration of a motor vehicle subject to the provisions of this chapter occurs within 60 days of an inspection conducted pursuant to subdivision (c) or (d) of this section, the inspection otherwise required upon such transfer or

registration need not be conducted. The department may extend the 60-day period during which a motor vehicle need not be reinspected if the State Air Resources Board determines, from test data, that such a period will not result in a significant increase in vehicular emissions.

(f) Any motor vehicles subject to the provisions of this chapter owned by a governmental entity or public utility and not required by law to have its registration renewed, shall be inspected by the department annually in accordance with a schedule established by the department to correspond with the schedule for inspections upon renewal of registration of all other motor vehicles pursuant to this chapter.

(g) The consumer handbook prepared by the department pursuant to Section 9889.53 shall be distributed by the Department of Motor Vehicles to every owner of a motor vehicle subject to the provisions of this chapter at the same time such owner is notified of his first inspection requirement pursuant to subdivision (c) or (d) of this section.

(h) The orientation or training seminars conducted by the department pursuant to subdivision (b) of Section 9889.52, shall be conducted periodically on an ongoing basis commencing prior to the conducting of the first trial inspections by the department pursuant to subdivision (b) of this section.

SEC. 6. Section 9889.56 of the Business and Professions Code is amended to read:

9889.56. (a) The department shall issue a certificate of compliance for each motor vehicle subject to the provisions of this chapter which passes an inspection conducted by the department pursuant to subdivision (c) or (d) of Section 9889.55.

(b) The department shall also issue a certificate of compliance for each motor vehicle subject to the provisions of this chapter owned by any governmental entity or public utility which passes an inspection conducted by the department pursuant to subdivison (d) of Section 9889.55.

(c) The department shall issue a certificate of compliance for each motor vehicle subject to the provisions of this chapter which passes an inspection conducted by a fleet owner pursuant to subdivision (e) of Section 9889.52. Issuance of such a certificate shall be contingent upon the prior receipt and approval by the department of an affidavit from the fleet owner affirming that the vehicle has passed such an inspection.

(d) Any motor vehicle which fails to pass any required inspection may undergo maintenance or repair and be reinspected at the request of the owner. Such motor vehicle shall, however, be required to pass reinspection prior to its registration, except that the department may waive that requirement if the motor vehicle has been repaired or serviced by a licensed installer.

(e) Notwithstanding any other provision of law, the department shall waive the certificate of compliance requirements and shall issue

04161 295220 717

a certificate of waiver to fulfill the requirements set forth in Section 4602.1 of the Vehicle Code for a motor vehicle which fails reinspection and which has received a low-emission tuneup performed to specifications established by the department pursuant to Section 9889.60, and which is in need of further maintenance and repairs which the department determines, based upon the estimate of a licensed installer, will cost more than fifty dollars ($50). On and after July 1, 1977, the department may increase that amount to seventy-five dollars ($75), taking into consideration, among other things, the increase in the cost of living as reflected in the Consumer Price Index, as published by the United States Bureau of Labor Statistics.

SEC. 7. Section 9889.57 of the Business and Professions Code is amended to read:

9889.57. If a motor vehicle pollution control device installation and inspection station licensed pursuant to Section 9888.3 performs the maintenance or repairs of a motor vehicle which were recommended by the department pursuant to Section 9889.51 to correct the malfunction or misadjustment responsible for the vehicle's having failed an inspection conducted pursuant to this chapter, the station shall furnish to the vehicle's owner, for submission to the department upon reinspection, a written statement indicating in detail what maintenance or repairs were performed and what charges were assessed, and guaranteeing that the maintenance or repairs recommended by the department were performed in accordance with specifications established by the department pursuant to Section 9889.60.

SEC. 8. Section 9889.58 of the Business and Professions Code is amended to read:

9889.58. The department shall compile and maintain records of maintenance and repairs performed pursuant to Section 9889.56 by automotive repair dealers registered pursuant to Section 9884 and by motor vehicle pollution control device installation and inspection stations licensed pursuant to Section 9888.3. Information maintained in such records shall include, for each such dealer and station, all of the following:

(a) The number of maintenance and repair operations performed on motor vehicles which failed to pass an inspection conducted by the department pursuant to the provisions of this chapter.

(b) The correlation between maintenance and repairs recommended by the department pursuant to subdivision (b) of Section 9889.51 and maintenance and repairs performed.

(c) The percentage of maintained and repaired vehicles which passed reinspection.

(d) The charges assessed for such maintenance and repairs.

(e) Any other information deemed essential by the department.

SEC. 9. Section 9889.59 of the Business and Professions Code is amended to read:

9889.59. (a) The department shall conduct ongoing cost-benefit

analyses and other evaluations of the inspection program, including, but not limited to, observed patterns of malfunctions in inspected motor vehicles' emissions control and quantifications of reductions in vehicular emission in the geographical area subject to the provisions of this chapter, and recommendations for legislation to improve the inspection program. The department shall deliver periodic written reports to the Legislature on such analyses and evaluations at least every 12 months commencing not later than July 1, 1978.

(b) The department shall study and submit recommendations to the Legislature no later than July 1, 1982, on whether the inspection program should be extended and, if so, to what extent to other areas of the state.

(c) The Legislature shall create a joint committee to receive and evaluate the reports and recommendations submitted by the department to the Legislature pursuant to this section. On the basis of such evaluation, the committee shall, from time to time, recommend to the Legislature supplementary legislation it deems advisable to facilitate motor vehicle emissions inspections.

SEC. 10. Section 9889.61 of the Business and Professions Code is amended to read:

9889.61. (a) The department shall, by no later than January 1, 1974, apply to the federal government for matching funds to carry out the inspection program established by this chapter.

(b) The department shall charge a fee for the inspection of motor vehicles conducted pursuant to Section 9889.55, except that the department may waive fees for the inspection of motor vehicles conducted pursuant to subdivision (b) of Section 9889.55. The revenues from such fees shall be deposited in the Vehicle Inspection Fund, which is hereby created, and are hereby continuously appropriated to the department to carry out its functions and duties specified in this chapter. The fees charged shall be sufficient to provide the state funds to match any federal grants awarded in response to application under subdivision (a), and to reimburse the Motor Vehicle Account in the Transportation Tax Fund for all appropriations made for the design, adoption, implementation, and operation of the inspection program established by this chapter.

(c) If the department determines that the collection of inspection fees at the time the motor vehicles are inspected is not safe or economical to the state, the the department may request the Department of Motor Vehicles to collect, and in such a case the Department of Motor Vehicles may collect, the fee at the time of registration of the motor vehicle. If the Department of Motor Vehicles collects the fees, it shall establish the necessary procedures for collecting the fees and shall deposit the fees, less its administrative cost in collecting the fees as determined by the Department of Finance, in the Vehicle Inspection Fund.

2986.3. No lease contract shall contain any provision by which:

(a) A power of attorney is given to confess judgment in this state, or an assignment of wages is given; provided that nothing herein contained shall prohibit the giving of an assignment of wages contained in a separate instrument pursuant to Section 300 of the Labor Code.

(b) The lessee waives any right of action against the lessor or holder of the contract or other person acting on his behalf for any illegal act committed in the collection of payments under the contract or in the repossession of the motor vehicle.

(c) The lessee relieves the lessor from liability for any legal remedies which the lessee may have against the lessor under the contract or any separate instruments executed in connection therewith.

(d) The lessor or holder of the contract is given the right to commence action on a contract under the provisions of this chapter in a county other than the county in which the contract was in fact signed by the lessee, the county in which the lessee resides at the commencement of the action, the county in which the lessee resided at the time the contract was entered into or in the county in which the motor vehicle purchased pursuant to such contract is permanently garaged.

2986.4. Any acknowledgment by the lessee of delivery of a copy of a lease contract or purchase order and any vehicle lease proposal and any credit statement which the lessor has required or requested the lessee to sign, and which he has signed, during the contract negotiations, shall be printed or written in size equal to at least 10-point bold type and, if contained in the contract, shall appear directly above the space reserved for the lessee's signature. The lessee's written acknowledgment, conforming to the requirements of this section, of delivery of a completely filled in copy of the contract, and a copy of such other documents shall be a rebuttable presumption of delivery in any action or proceeding by or against a third party without knowledge to the contrary when he acquired his interest in the contract. If such third party furnishes the lessee a copy of such documents, or a notice containing items set forth in subdivisions (a) to (*l*), inclusive, of Section 2985.8, and stating that the lessee shall notify such third party in writing within 30 days if he was not furnished a copy of such documents, and no such notification is given, it shall be conclusively presumed in favor of such a third party that copies of such documents were furnished as required by this chapter.

2986.5. (a) No person shall lease a used motor vehicle for operation on California highways if such vehicle does not meet all of

the equipment requirements of Division 12 (commencing with Section 24000) of the Vehicle Code. This subdivision does not apply to an extension or a subsequent lease of the same motor vehicle to the same lessee.

(b) If a lessee of a vehicle pays to the lessor an amount for the licensing or transfer of title of the vehicle which amount is in excess of the actual fees due for such licensing or transfer, or which amount is in excess of the amount which has been paid, prior to the sale, by the lessor to the state in order to avoid penalties that would have accrued because of late payment of such fees, the lessor shall return such excess amount to the lessee, whether or not such lessee requests the return of the excess amount.

2986.6. No agreement in connection with a lease contract which provides for the inclusion of title to or a lien upon any personal or real property, other than the motor vehicle which is the subject matter of the lease contract, or accessories therefor, or special and auxiliary equipment used in connection therewith, as security for the payment of the contract obligations, shall be enforceable. This section does not apply to a security deposit, advance payment of rent or other cash prepayment.

2986.10. (a) An assignee of the lessor's rights is subject to all equities and defenses of the lessee against the lessor, notwithstanding an agreement to the contrary, but the assignee's liability may not exceed the amount of the obligation owing to the assignee at the time of the assignment.

(b) The assignee shall have recourse against the lessor to the extent of any liability incurred by the assignee pursuant to this section regardless of whether the assignment was with or without recourse.

2986.12. It shall be unlawful for any lessor to induce or attempt to induce any person to enter into a contract subject to this chapter by offering a rebate, discount, commission or other consideration, on the condition that the lessee gives information or assistance for the purpose of enabling a lessor to either lease or sell a motor vehicle to another.

2986.13. Any payment made by a lessee to a lessor pending the execution of a lease contract shall be refunded to the lessee in the event the lease contract is not executed.

The provisions of this section shall not apply when a lessee leaves his motor vehicle with the lessor in lieu of or in addition to a cash payment, and the lessee and lessor, with knowledge and consent, agree that the parties shall enter into the lease contract, and lessee shall take delivery of the motor vehicle described in the lease contract from the lessor, at a date more than five days after the date the lessee leaves the motor vehicle with the lessor.

2988. (a) The Legislature finds that it is necessary to provide some protection for consumers who enter into lease contracts in which the lessee will bear the risk of the motor vehicle's depreciation. This section is intended to provide relief to the

consumer when an ostensibly inexpensive lease contract establishes an excessively low level of periodic payment which results, conversely, in an excessively high liability being imposed on the lessee at the expiration of the lease term because the lessor has failed to act in good faith in either estimating a residual value of the motor vehicle or establishing a level of periodic payment which bears no reasonable relation to the motor vehicle's reasonably expected depreciation during the lease term. Therefore, the lessor will have the obligation to act in good faith and to come forward with competent evidence showing that the estimated residual value was so determined given the circumstances existing at the inception of the lease contract.

(b) Where the lessee is to bear the risk of the motor vehicle's depreciation and the lessee's liability on expiration of a consumer lease is based on the estimated residual value of the motor vehicle such estimated residual value shall be a reasonable approximation of the anticipated actual fair market value of the motor vehicle on lease expiration. There shall be a rebuttable presumption that the estimated residual value is unreasonable to the extent that the estimated residual value exceeds the actual residual value by more than three times the average payment allocable to a monthly period under the lease. The presumption stated in the preceding sentence shall not apply to the extent the excess of estimated over actual residual value is due to physical damage to the motor vehicle beyond reasonable wear and use, or to excessive use, and the lease may set standards for such wear and use if such standards are not unreasonable.

(c) For the purposes of this chapter, "fair market value" means the value the motor vehicle would have when sold in a commercially reasonable manner in the customary market for such motor vehicle.

2988.5. (a) Except as otherwise provided by this section, any lessor who fails to comply with any requirement imposed under Section 2985.8 or 2988 for which no specific relief is provided with respect to any person shall be liable to such person in an amount equal to the sum of:

(1) Any actual damages sustained by such person as a result of the failure.

(2) In the case of an individual action, 25 percent of the total amount of monthly payments under the lease except that liability under this subparagraph shall not be less than one hundred dollars ($100) nor greater than one thousand dollars ($1,000); or in the case of a class action, such amount as the court may allow, except that as to each member of the class no minimum recovery shall be applicable, and the total recovery in such action shall not be more than the lesser of five hundred thousand dollars ($500,000) or 1 percent of the net worth of the lessor.

(3) The costs of the action, together with a reasonable attorney's fee as determined by the court.

(b) In determining the amount of award in any class action, the

court shall consider, among other relevant factors, the amount of any actual damages sustained, the frequency and persistence of failure of compliance by the lessor, the resources of the lessor, the number of persons adversely affected, and the extent to which the lessor's failure of compliance was intentional.

(c) A lessor shall not be liable under this section if within 15 days after discovery of an error, and prior to the institution of an action under this section or the receipt of written notice of the error, the lessor notifies the person concerned of the error and makes whatever adjustments in the appropriate account are necessary to insure that the person will not be required to pay any amount in excess of the amount that should correctly have been disclosed.

(d) A lessor may not be held liable in any action brought under this section for a violation of this chapter if the lessor shows by a preponderance of evidence that the violation was not intentional and resulted from a bona fide error notwithstanding the maintenance of procedures reasonably adopted to avoid any such error.

(e) Except as otherwise specifically provided in this chapter, any civil action for a violation of this chapter which may be brought against the original lessor in any lease transaction may be maintained against any subsequent assignee of the original lessor where the violation from which the alleged liability arose is apparent on the face of the instrument assigned unless the assignment is involuntary.

(f) A person may not take any action to offset any amount for which a lessor is potentially liable to such person under paragraph (2) of subdivision (a) against any amount owing to such lessor by such person, unless the amount of the lessor's liability to such person has been determined by judgment of a court of competent jurisdiction in an action to which such person was a party.

(g) No provision of this section imposing any liability shall apply to any act done or omitted in good faith conformity with any rule, regulation or interpretation of federal law, notwithstanding that after such act or omission has occurred, such rule, regulation or interpretation is amended, rescinded or determined by judicial or other authority to be invalid for any reason.

(h) The multiple failure to disclose any information required under this chapter to be disclosed in connection with a single lease transaction shall entitle the person to a single recovery under this section, but continued failure to disclose after a recovery has been granted shall give rise to rights to additional recoveries.

(i) Actions alleging a failure to disclose or otherwise comply with the requirements of this chapter shall be brought within one year of the termination of the lease contract.

2988.7. If the lessor fails to comply with Section 2985.8, as an alternative to an action under Section 2988.5, the lessee may rescind the contract if the failure to comply was willful, or if correction will increase the amount of the contract balance, unless the lessor waives the collection of the increased amount.

2988.9. Reasonable attorney's fees and costs shall be awarded to

the prevailing party in any action on a lease contract subject to the provisions of this chapter regardless of whether the action is instituted by the lessor, assignee or lessee. Where the defendant alleges in his answer that he tendered to the plaintiff the full amount to which he was entitled, and thereupon deposits in court, for the plaintiff, the amount so tendered, and the allegation is found to be true, then the defendant is deemed to be prevailing party within the meaning of this action.

2989. No civil action shall be filed against a lessor under the authority of this chapter if a federal civil action has previously been filed based on facts that give rise to a similar cause of action under this chapter.

2989.2. (a) At the termination or expiration of a lease, when disposing of a vehicle or obtaining cash bids for the purpose of setting the fair market value of a vehicle, the lessor shall act in a commercially reasonable manner in the customary market for such vehicle.

(b) Any provision in a lease contract to the contrary notwithstanding, at least 10 days written notice of intent to sell such motor vehicle shall be given by the lessor to the lessee, unless the lessor and lessee have agreed in writing to the amount of the lessee's liability under the lease contract after the lessee returns the motor vehicle to the lessor, or the lessee has satisfied the lease contract obligations by payment to the lessor. The notice shall be personally served or shall be sent by certified mail, return receipt requested, directed to the address of the lessee shown on the contract, unless the lessee has notified the holder in writing of a different address. The notice shall set forth separately any charges or sums due and state that the lessee will be liable for the difference between the amount of liability imposed on the lessee at the expiration of the lease term and the actual cash value of the motor vehicle when it is sold. The notice shall also state that the lessee has the right to submit a cash bid for the purchase of the vehicle.

2989.4. (a) A lessor shall not:

(1) Fail to register the leased vehicle pursuant to the lease contract.

(2) Advertise any specific vehicle in the inventory of the lessor for lease without identifying such vehicle by either its vehicle identification number or license number.

(3) Refuse to lease a vehicle to any creditworthy person at the advertised total price, exclusive of sales tax, vehicle registration fees and finance charges.

(b) Notwithstanding Section 2988.5, a lessor shall not suffer civil liability for a violation of this section.

2989.5. (a) Except as provided in subdivision (c), a lessor shall make available to investigators of the Department of Motor Vehicles, upon presentation of an affidavit that the department has a consumer complaint within its jurisdiction, the records relevant to the transaction complained of. If the affidavit states that the

department has reasonable cause to believe there is a pattern of conduct or common scheme in similar transactions, the records relevant to all such similar transactions shall be made available.

(b) Except as provided in subdivision (c), on petition of the department alleging the receipt of a consumer complaint within its jurisdiction and alleging that the lessor refuses to make available his records as required, the court shall order the lessor to make available such records or show cause why such records should not be produced. The department shall be awarded reasonable attorney's fees and costs if it prevails in such action.

(c) (1) In the case of a financial institution, or a subsidiary or affiliated corporation of such institution, the Director of Motor Vehicles shall report in writing an apparent violation, or failure to comply with this chapter, evidenced by a consumer complaint, to the agency or department of the state or federal government responsible for supervising the leasing activities of such institution.

(2) Within 20 days, such agency or department shall advise the director of the action taken with respect to such report.

(3) If such agency or department fails to so advise the director, the director may commence an action to compel the agency or department to cause the production of the records relevant to the consumer complaint.

2989.6. The Director of Motor Vehicles may adopt and enforce rules and regulations as may be necessary to carry out or implement the provisions of this chapter.

Rules and regulations shall be adopted, amended or repealed in accordance with Chapter 4.5 (commencing with Section 11370) of Part 1 of Division 3 of Title 2 of the Government Code.

2989.8. Any person who shall knowingly and willfully violate any provision of this chapter shall be guilty of a misdemeanor.

2990. This chapter shall not apply to any transaction which is regulated by Chapter 2b (commencing with Section 2981) of this title.

SEC. 2.2. Section 6277 is added to the Revenue and Taxation Code, to read:

6277. There shall be a presumption that a transfer of a vehicle to a lessee by a lessor, as defined in Section 372 of the Vehicle Code, was a sale for resale if the lessee transfers title and registration to a third party within 10 days from the date the lessee acquired title from the lessor at the expiration or termination of a lease. The presumption may be rebutted by evidence that the sale was not for resale prior to use.

It is the intent of the Legislature in enacting this section to recognize the delay in processing documents when a lessee wishes to transfer title of a leased vehicle to a third party at the expiration or termination of a lease rather than acquiring a vehicle for his or her own use.

This section does not provide an exemption for any use by a lessee after the expiration or termination of a lease.

SEC. 2.3. Section 6282 of the Revenue and Taxation Code is amended to read:

6282. There are exempted from the computation of the amount of the sales tax the gross receipts from sales of vehicles required to be registered under the Vehicle Code when the retailer is other than a person licensed or certificated pursuant to the Vehicle Code as a manufacturer, dealer, dismantler, or lessor-retailer, subject to the provisions of Section 11615.5 of the Vehicle Code.

This exemption does not extend to the rentals payable under a lease of tangible personal property.

SEC. 2.4. Section 6292 of the Revenue and Taxation Code is amended to read:

6292. (a) Except when the sale is by lease, when a vehicle required to be registered under the Vehicle Code is sold at retail by other than a person licensed or certificated pursuant to the Vehicle Code as a manufacturer, dealer, dismantler, or lessor-retailer, subject to the provisions of Section 11615.5 of the Vehicle Code, the retailer is not required or authorized to collect the use tax from the purchaser, but the purchaser of the vehicle must pay the use tax to the Department of Motor Vehicles acting for and on behalf of the board pursuant to Section 4750.5 of the Vehicle Code.

(b) If the purchaser does not make timely application to that department, but is subject to penalty because of delinquency in effecting registration or transfer of registration of the vehicle, he then becomes liable also for penalty as specified in Section 6591 of this code, but no interest shall accrue.

(c) Application to that department by the purchaser shall relieve the purchaser of the obligation to file a return with the board under Section 6452.

SEC. 2.5. Section 6293 of the Revenue and Taxation Code is amended to read:

6293. (a) Except when the sale is by lease, when a vehicle subject to identification under Division 16.5 (commencing with Section 38000) of the Vehicle Code is sold at retail by other than a person licensed or certificated pursuant to the Vehicle Code as a manufacturer, dealer, dismantler, or lessor-retailer, subject to the provisions of Section 11615.5 of the Vehicle Code, or a person required to hold a seller's permit pursuant to Article 2 (commencing with Section 6066) of Chapter 2 of this part by reason of the number, scope, and character of his sales of such vehicles, the retailer is not required or authorized to collect the use tax from the purchaser, but the purchaser of the vehicle shall pay the use tax to the Department of Motor Vehicles acting for and on behalf of the board pursuant to Section 38211 of the Vehicle Code.

(b) If the purchaser does not make timely application to that department, but is subject to penalty because of delinquency in effecting identification or transfer of ownership of the vehicle, he then becomes liable also for penalty as specified in Section 6591 of this code, but no interest shall accrue.

04248 295460 765

(c) Application to that department by the purchaser shall relieve the purchaser of the obligation to file a return with the board under Section 6452.

SEC. 3. Section 286 of the Vehicle Code is amended to read:

286. The term "dealer" does not include:

(a) Insurance companies, banks, finance companies, public officials, or any other person coming into possession of vehicles in the regular course of business, who shall sell such vehicles under a contractual right or obligation, or in performance of an official duty, or in authority of any court of law; provided, such sale is for the purpose of saving the seller from loss or pursuant to the authority of a court of competent jurisdiction.

(b) Persons who sell or distribute vehicles of a type subject to registration for a manufacturer to vehicle dealers licensed under this code, or who are employed by manufacturers or distributors to promote the sale of vehicles dealt in by such manufacturers or distributors; provided, however, that if any such persons also sell vehicles at retail, they shall be deemed to be vehicle dealers and are subject to this code.

(c) Persons regularly employed as salesmen by vehicle dealers licensed under this code while acting within the scope of such employment.

(d) Persons exclusively engaged in the bona fide business of exporting vehicles or of soliciting orders for the sale and delivery of vehicles outside the territorial limits of the United States; provided, no federal excise tax is legally payable on any of such transactions, or such tax is legally refundable on such transactions. Persons not exclusively engaged in the bona fide business of exporting vehicles but who are engaged in the business of soliciting orders for the sale and delivery of vehicles outside the territorial limits of the United States shall be exempt from licensure as dealers only if their sales of such vehicles produces less than 10 percent of their total gross revenue from all business transacted.

(e) Persons not engaged in the purchase or sale of vehicles as a business, disposing of vehicles acquired for their own use, or for use in their business when the same shall have been so acquired and used in good faith, and not for the purpose of avoiding the provisions of this code.

(f) Persons who are engaged in a business activity which does not involve the purchase, sale or exchange of vehicles except incidentally in connection with the purchase, sale or exchange of vehicles of a type not subject to registration under this code, midget autos or racers advertised as being built exclusively for use by children, minibikes, tote goats, and vehicles of a similar nature which are not intended for use on the highways.

(g) Persons temporarily retained as auctioneers solely for the purpose of disposing of vehicle stock inventories on behalf of the owners thereof by means of public auctions at the location of such owners' place of business, or as otherwise approved by the

04248 295485 770

department, provided intermediate physical possession or control of, or an ownership interest in such inventory is not conveyed to the persons so retained.

(h) Persons who are engaged exclusively in the business of purchasing, selling, servicing, or exchanging racing vehicles, parts for racing vehicles, and trailers designed and intended by the manufacturer exclusively for carrying racing vehicles. For purposes of this subdivision, "racing vehicle" means a motor vehicle of a type used exclusively in a contest of speed or in a competitive trial of speed which is not intended for use on the highways.

(i) Any person who is a "lessor" as defined in Section 372.

(j) Any person who is a "renter" as defined in Section 508.

SEC. 4. Section 371 is added to the Vehicle Code, to read:

371. Lessee includes "bailee" and is a person who leases, offers to lease, or is offered the lease of a motor vehicle for a term exceeding four months.

SEC. 5. Section 372 is added to the Vehicle Code, to read:

"Lessor" includes "bailor" and "lease" includes "bailment."

SEC. 6. Section 373 is added to the Vehicle Code, to read:

373. A "lessor-retailer" is a lessor or renter who, except under the circumstances described in subdivision (a) of Section 286, makes a retail sale or sales of a previously leased or rented vehicle or vehicles to other than any of the following:

(a) The lessee of the vehicle.

(b) A buyer for agricultural, business, or commercial purposes.

(c) A government or governmental agency or instrumentality.

SEC. 7. Section 508 is added to the Vehicle Code, to read:

508. A "renter" is a person who is engaged in the business of renting, leasing or bailing vehicles for a term not exceeding four months and for a fixed rate or price.

SEC. 8. Section 520 is added to the Vehicle Code, to read:

520. A "retail sale" is a sale of goods to a person for the purpose of consumption and use, and not for resale to others, including, but not limited to, an arrangement where a motor vehicle is consigned to a dealer for sale.

SEC. 8.2. Section 4456 of the Vehicle Code is amended to read:

4456. (a) The department may authorize dealers and lessor-retailers licensed by the department to use numbered copies of the report of sale form and corresponding temporary identification devices upon vehicles they sell.

(b) Such copies and identification devices shall be used pursuant to rules and regulations prescribed by the department and upon the terms and conditions set forth in this section.

(c) New and used vehicles not licensed in this state may be

operated without license plates or registration cards and used vehicles licensed in this state may be operated without registration cards not to exceed 20 days from the date sold by a dealer or until the license plates or cards are received from the department when a copy of the report of sale form and the temporary identification device are used and displayed in accordance with the rules and regulations of the department, provided that the dealer meets the following terms and conditions:

(1) The copy of the report of sale and its corresponding temporary identification device shall be affixed to the appropriate vehicle upon delivery to a purchaser.

(2) All fees and any penalties which may be due the department to register or transfer registration of the vehicle are paid over to the department by the selling dealer within 20 days of the sale.

(3) The sale of the vehicle shall be reported to the department as required by Section 5901.

(4) An application in proper form to register the vehicle or to effect transfer of ownership, together with the required supporting documents shall be submitted to the department on behalf of the purchaser. If, however, such documents do not include the regularly required evidence of ownership, the dealer shall also submit a motor vehicle bond or undertaking as provided for in Section 4157, or an affidavit or other information as provided for in Section 5911, or both.

(d) The use by any dealer or lessor-retailer of a report of sale copy as provided herein shall obligate the dealer to pay the fees and penalties determined by the department to be due on the vehicle under Division 3 (commencing with Section 4000) of the Vehicle Code and Part 5 (commencing with Section 10701) of Division 2 of the Revenue and Taxation Code and which have been advanced to the dealer or lessor-retailer by the customer either by cash, trade-in or under the provisions of a contract, and those penalties which have accrued because of failure of the dealer or lessor-retailer to make timely or proper application for his customer.

SEC. 8.3. Section 4750.5 of the Vehicle Code is amended to read:

4750.5. (a) The department shall withhold the registration or the transfer of registration of any vehicle sold at retail to any applicant by any person other than a vehicle manufacturer or dealer holding a license and certificate issued pursuant to Chapter 4 (commencing with Section 11700) of Division 5, or an automobile dismantler holding a license and certificate issued pursuant to Chapter 3 (commencing with Section 11500) of Division 5, or a lessor-retailer holding a license issued pursuant to Chapter 3.5 (commencing with Section 11600) of Division 5, and subject to the provisions of Section 11615.5, until the applicant pays to the department the use tax measured by the sales price of the vehicle as required by the Sales and Use Tax Law (Part 1 (commencing with Section 6001) of Division 2 of the Revenue and Taxation Code), together with penalty, if any, unless the State Board of Equalization finds that no use tax is due. If the applicant so desires, he may pay the use tax and

penalty, if any, to the department so as to secure immediate action upon his application for registration or transfer of registration, and thereafter he may apply through the Department of Motor Vehicles to the State Board of Equalization under the provisions of the Sales and Use Tax Law for a refund of the amount so paid.

(b) The department shall transmit to the State Board of Equalization all collections of use tax and penalty made under this section. This transmittal shall be made at least monthly, accompanied by a schedule in such form as the department and board may prescribe.

(c) The State Board of Equalization shall reimburse the department for its costs incurred in carrying out the provisions of this section. Such reimbursement shall be effected under agreement between the agencies, approved by the Department of Finance.

(d) In computing any use tax or penalty thereon under the provisions of this section, dollar fractions shall be disregarded in the manner specified in Section 9559 of this code. Payment of tax and penalty on this basis shall be deemed full compliance with the requirements of the Sales and Use Tax Law insofar as they are applicable to the use of vehicles to which this section relates.

SEC. 8.4. Section 5901 of the Vehicle Code is amended to read:

5901. (a) Every dealer or lessor-retailer, upon transferring by sale, lease or otherwise any vehicle, whether new or used, of a type subject to registration under this code, shall, not later than the end of the fifth calendar day thereafter, not counting the day of sale, give written notice of the transfer to the department at its headquarters upon an appropriate form provided by it.

(b) Except as otherwise provided in this subdivision or in subdivision (c), in the case of a vehicle under 6,001 pounds, manufacturer's maximum gross vehicle weight rating, the dealer or lessor-retailer shall indicate on the form the actual mileage of the vehicle as indicated by the vehicle's odometer at the time of the transfer. A dealer or lessor-retailer need not give the notice when selling or transferring a new unregistered vehicle to a dealer or lessor-retailer.

(c) When the dealer or lessor-retailer is not in possession of the vehicle that is sold or transferred, the person in physical possession of such vehicle shall give the information required by subdivision (b).

(d) A "sale" shall be deemed completed and consummated when the purchaser of that vehicle has paid the purchase price, or, in lieu thereof, has signed a purchase contract or security agreement, and taken physical possession or delivery of that vehicle.

SEC. 9. Section 5901.1 is added to the Vehicle Code, to read:

5901.1. (a) Except in the case of a lease for agricultural, business, or commercial purposes, or to a government or governmental agency or instrumentality, every lessor, upon the lease or bailment of a vehicle of a type subject to registration under this code, shall within 30 calendar days submit to the department a notice of lease

or bailment upon a form provided by the department.

(b) The department shall charge and the lessor shall pay, in an amount set by the director, a fee for such form provided, to recover the actual costs incurred by the department in the collection of the fee and in regulating lessors. Such fee shall not exceed five dollars ($5) per notice.

SEC. 10. Section 9262.5 is added to the Vehicle Code, to read:

9262.5. The fee for a license issued to a lessor-retailer shall be:

(a) For the original license, an application fee of twenty-five dollars ($25) and for any branch office location license, an application fee of fifteen dollars ($15).

(b) For the annual renewal of a license, a fee of fifteen dollars ($15).

(c) Where an alteration of an existing license is caused by a firm name change or address change, a fee of fifteen dollars ($15).

SEC. 11. Chapter 3.5 (commencing with Section 11600) is added to Division 5 of the Vehicle Code, to read:

CHAPTER 3.5. LESSOR-RETAILERS

11600. It shall be unlawful for any lessor-retailer to make a retail sale of a vehicle of a type subject to registration without having first procured either a vehicle dealer license or a lessor-retailer license or temporary permit issued by the department or when such license or temporary permit issued by the department has been canceled, suspended, revoked, or invalidated or has expired.

11601. (a) Every lessor-retailer who sells at retail a vehicle of a type subject to registration shall make application to the department for a license. The applicant shall submit proof of his status as a bona fide lessor-retailer as may reasonably be required by the department.

(b) An application shall be made for the principal place of business, and a separate branch office application shall be made for each branch office location of the licensee as shall be operated and maintained by the applicant in conjunction with the retail sale or sales of vehicles.

(c) "Principal place of business," for the purposes of this chapter, means the place designated by the lessor-retailer as the main business or office location in California whether or not retail sales are made from such location.

11602. (a) The department shall prescribe and provide forms to be used for application for licenses to be issued under the terms and provisions of this chapter and require of such applicants, where appropriate as a condition precedent to issuance of such license, such information, including but not limited to, fingerprints and personal history statements, touching on and concerning the applicant's character, honesty, integrity and reputation as it may consider necessary; provided, however, that every application for a lessor-retailer license shall contain, in addition to such information that the department may require, a statement of the following facts:

(1) The name and residence address of the applicant and the trade name, if any, under which he intends to conduct his business; and if the applicant be a partnership, the name and residence address of each member thereof, whether a limited or general partner, and the name under which the partnership business is to be conducted; and if the applicant be a corporation, the name of the corporation and the name and address of each of its principal officers and directors.

(2) A complete description, including the city, town or village with the street and number, if any, of its principal place of business in California and such other and additional branch location or locations.

(b) Upon receipt of an application accompanied with the appropriate fee, the department shall make a thorough investigation of the information contained in the application.

11603. (a) The department may issue, or for reasonable cause shown, refuse to issue, a license to any applicant applying for a lessor-retailer license or branch office location.

(b) The license shall contain the applicant's name, location address and the general distinguishing number assigned to the applicant.

11604. The department may refuse to issue a lessor-retailer license when it determines that:

(1) The applicant has outstanding an unsatisfied final court judgment rendered in connection with an activity licensed under the authority of this division.

(2) The applicant was previously the holder of a license issued under this division, which license was revoked for cause and never reissued by the department, or which license was suspended for cause and the terms of suspension have not been fulfilled.

(3) The applicant was previously a limited or general partner, stockholder, director or officer of a partnership or corporation whose license issued under the authority of this division was revoked for cause and never reissued or was suspended for cause and the terms of suspension have not been terminated.

(5) The applicant, or one of the limited or general partners if the applicant be a partnership, or one or more of the officers or directors of the corporation, if the applicant be a corporation, or one or more of the stockholders if the policy of such business will be directed, controlled or managed by such stockholder or stockholders, has ever been convicted of a felony or a crime involving moral turpitude. (b) The hearing shall be conducted pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

11606. Except where the provisions of this code require the refusal to issue a license, the department may issue a probationary license subject to conditions to be observed by the licensee in the exercise of the privilege granted. The conditions to be attached to the exercise of the privilege shall not appear on the face of the license but shall be such as may, in the judgment of the department, be in the public interest and suitable to the qualifications of the applicant as disclosed by the application and investigation by the department of the information contained therein.

11607. Pending the satisfaction of the department that the applicant has met the requirements under this chapter, it may issue a temporary permit to any person applying for a lessor-retailer license or branch office location. The temporary permit shall permit the operation by the lessor-retailer while the department is completing its investigation and determination of all facts relative to the qualifications of the applicant to such license. The department may cancel such temporary permit when it has determined or has reasonable cause to believe that the application is incorrect or incomplete or the temporary permit was issued in error. Such temporary permit shall be invalid when canceled or when the applicant's license has been issued or refused.

11608. The department may issue a certificate of convenience to the executor, executrix, administrator or administratrix of the estate of a deceased holder of a valid license issued under this chapter, or if no executor, executrix, administrator or administratrix has been appointed, and until a certified copy of an order making such

11609. Each office location operated and maintained by a lessor-retailer in conjunction with its retail sale of a vehicle or vehicles shall have posted in a place conspicuous to the public the license issued by the department to the lessor, and shall have erected or posted thereon such signs or devices providing information relating to the lessor-retailer's name, the office location and the office address, to enable any person doing business with such lessor to identify him properly.

11610. (a) Should the lessor change the location of its principal place of business or any branch office location in California, he shall immediately upon making such change so notify the department.

(b) Should a lessor for any reason whatsoever, cease to be in possession of its principal place of business or any branch office location, he shall immediately notify the department, and shall deliver to the department the lessor-retailer license issued for such location, and upon demand all report of sale books in his possession.

11612. (a) Before any lessor-retailer license shall be issued or renewed by the department to any applicant therefor, the applicant shall procure and file with the department a good and sufficient bond meeting the same requirements as specified for a vehicle dealer's license in Sections 11710, 11710.1, and 11710.2.

(b) Any cause of action or claim specified in Section 11711 against a vehicle dealer's bond shall also be a cause of action or claim against a lessor-retailer's bond.

11613. (a) The department, after notice and hearing, may suspend or revoke the license issued to a lessor-retailer upon determining that the person to whom the license was issued is not lawfully entitled thereto, or has committed any of following acts:

(g) To refuse to sell a vehicle to any person at the advertised total price, exclusive of sales tax, vehicle registration fees, and finance charges, while such vehicle remains unsold or unleased unless the advertisement states the advertised total price is good only for a specified time and such time has elapsed.

(h) To engage in the business for which licensee is licensed without having in force and effect a good and sufficient bond with corporate surety as hereinbefore provided.

(i) To engage in the business for which such lessor-retailer is licensed without at all times maintaining a principal place of business and a branch office location or locations as required by this chapter.

(j) To permit the use of his lessor-retailer license, supplies or books by any other person for the purpose of permitting that person to engage in the sale of vehicles required to be registered under this code, or to permit the use of his lessor-retailer license, supplies or books to operate a branch office location to be used by any other person, if, in either situation, the licensee has no financial or equitable interest or investment in the vehicles sold by, or the business of, or branch office location used by, such person, or has no such interest or investment other than commissions, compensations, fees or any other thing of value received for the use of the lessor-retailer license, supplies or books to engage in the sale of vehicles.

(k) To violate any of the provisions of Article 10 (commencing with Section 28050) of Chapter 5 of Division 12.

11615. It shall be unlawful and a violation of this code for a

lessor-retailer licensed under this chapter when selling at retail a vehicle in a transaction for which this license is required:

(a) To deliver, following sale, a vehicle for operation on California highways, if such vehicle does not meet all of the equipment requirements of Division 12 (commencing with Section 24000) of this code.

(b) To fail to deliver to a transferee lawfully entitled thereto a properly endorsed certificate of ownership.

11615.5. It is unlawful and a violation of this code for a person holding a license under this chapter to make a retail sale of a motor vehicle, except to the lessee of such vehicle, required to be registered pursuant to Division 3 (commencing with Section 4000) or subject to identification pursuant to Division 16.5 (commencing with Section 3800) if such person files with the department a report of sale as provided in Section 4456 with respect to such retail sale, without making the return and payment of any sales tax due and required by Section 6451 of the Revenue and Taxation Code.

11616. If a purchaser of a vehicle pays to the lessor-retailer an amount for the licensing or transfer of title of the vehicle, which amount is in excess of the actual fees due for such licensing or transfer, or which amount is in excess of the amount which has been paid, prior to the sale, by the lessor-retailer to the state in order to avoid penalties that would have accrued because of late payment of such fees, the lessor-retailer shall return such excess amount to the purchaser, whether or not such purchaser requests the return of the excess amount.

11617. (a) The license provided for in this chapter shall be automatically canceled upon:

(1) The abandonment of the principal place of business of the lessor-retailer or the change thereof without notice to the department as provided in Section 11610.

(2) The failure of the licensee to maintain an adequate bond or to procure and file another bond as provided in Section 11612 prior to the effective date of the termination by the surety of any existing bond.

(3) The voluntary or involuntary surrender for any cause by the licensee of the license; provided that such surrender, or the cessation of business by the licensee, or the suspension of the corporate charter of the licensee by the State of California, shall not prevent the filing of an accusation for revocation or suspension of the surrendered

license as provided in Section 11613, and the department's decision that such license should be suspended or revoked; and provided further, that such determination may be considered in granting or refusing to grant any subsequent license authorized by this division to such licensee, copartner or any officer, director or controlling stockholder of such prior licensee.

(5) Suspension or cancellation of the corporate charter of the licensee by the State of California.

(b) The branch office location license provided for in this chapter shall be automatically canceled upon the abandonment of the branch office location of the lessor-retailer or the change thereof without notice to the department as provided in Section 11610.

11618. The department may, pending a hearing, temporarily suspend the license issued to a lessor-retailer for a period not to exceed 30 days, if the director finds that such action is required in the public interest. In any such case a hearing shall be held and a decision thereon issued within 30 days after notice of the temporary suspension.

Every hearing as provided for in this section shall be pursuant to the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 12. Section 40000.7 of the Vehicle Code is amended to read:

40000.7. A violation of any of the following provisions shall constitute a misdemeanor, and not an infraction:

Section 2800, relating to failure to obey an officer's lawful order or submit to a lawful inspection.

Section 2801, relating to failure to obey a fireman's lawful order.

Section 2803, relating to unlawful vehicle or load.

Section 2815, relating to failure to obey a crossing guard's traffic signal or direction.

Section 5753, relating to delivery of certificates of ownership and registration when committed by a dealer or any person while a dealer within the preceding 12 months.

Section 5901, relating to dealers and lessor-retailers giving notice.

Section 5901.1, relating to lessors giving notice and failure to pay fee.

Section 8803, relating to return of canceled, suspended or revoked documents and license plates of a dealer, manufacturer, transporter, dismantler, or salesman.

SEC. 13. This act shall not be construed to impose a tax on any person who is subject to taxation pursuant to Section 27 of Article XIII of the California Constitution and is described in Section 23182 of the Revenue and Taxation Code.

SEC. 14. Sections 1 and 2 of this act shall become operative on March 23, 1977.

SEC. 15. The sum of sixty thousand dollars ($60,000) is hereby appropriated from the Motor Vehicle Account in the State

Transportation Fund to the Department of Motor Vehicles for the purposes of carrying out the provisions of this act. The Motor Vehicle Account in the State Transportation Fund shall be reimbursed during the 1976–77 fiscal year for the amount appropriated by this section from the revenues first derived from the fees collected and deposited pursuant to the provisions of Sections 5901.1 and 9262.5 of the Vehicle Code.

SEC. 16. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing and, if printed, shall be printed in type no smaller than six-point, and shall contain in a single document all of the agreements of the buyer and seller with respect to the total cost and the terms of payment for the motor vehicle, including any promissory notes or any other evidences of indebtedness. The conditional sale contract or a purchase order shall be signed by the buyer or his authorized representative and by the seller or its authorized representative, and an exact copy thereof shall be furnished the buyer by the seller at the time the buyer and the seller have signed the contract or purchase order. No motor vehicle shall be delivered under this chapter until the seller delivers to the buyer a fully executed copy of the conditional sale contract or purchase order and any vehicle purchase proposal and any credit statement which the seller has required or requested the buyer to sign, and which he has signed, during the contract negotiations. The seller shall not obtain the signature of the buyer to a contract when it contains blank spaces to be filled in after it has been signed. Every conditional sale contract shall contain, although not necessarily in the sequence or order set forth below, the following separate items:

1. The cash price of the motor vehicle described in the conditional sale contract.

2. The amount of the buyer's downpayment, and whether made in cash or represented by the net agreed value of described property traded in, or both, together with a statement of the respective amounts credited for cash and for such property.

3. The unpaid balance of cash price, which is the difference between items 1 and 2.

4. The cost to the buyer of any insurance, the premium for which is included in the contract balance. Any such cost for credit life or disability insurance may be included in the finance charge if the amount thereof is separately stated on the face of the contract.

5. The amounts, if any, paid or to be paid to any public officer in connection with the transaction and for license, certificate of title, and registration fees imposed by law.

6. The amount of the unpaid balance, which is the sum of items 3, 4, and 5.

7. The amount of the finance charge.

8. The total of payments, which is the sum of items 6 and 7, payable by the buyer to the seller, the number of installments required, the amount of each installment, and the date for payment of the installments.

9. The names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 of this code is to be sent.

10. A notice, in at least eight-point bold type if the contract is printed, reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

11. A notice to the buyer, in writing, and, if printed, in type no smaller than eight-point, that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and resale of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the

sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

SEC. 2.3. Section 2982 of the Civil Code is amended to read:

10. A notice, in at least eight-point bold type if the contract is printed, reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

11. A notice to the buyer, in writing, and, if printed, in type no smaller than eight-point that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and resale of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the

refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single-interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

SEC. 2.5. Section 2982 of the Civil Code is amended to read:

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing and, if printed, shall be printed in type no smaller than six-point, and shall contain in a single document all of the agreements of the buyer and seller with respect to the total cost and the terms of payment for the motor vehicle, including any promissory notes or any other evidences of indebtedness. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

11. A notice to the buyer, in writing, and if printed, in type no smaller than eight-point, that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and disposition of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and

reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single-interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

SEC. 4.5. Section 2982.9 is added to the Civil Code, to read:

2982.9. In the event a buyer obligates himself to purchase, or receive possession of, a motor vehicle pursuant to a contract or purchase order, and the seller knows that the buyer intends to obtain financing from a third party without the assistance of the seller, and the buyer is unable to obtain such financing, the contract or purchase order shall be deemed rescinded and all consideration thereupon shall be returned by the respective parties without demand.

SEC. 5. Section 2983.4 of the Civil Code is amended to read:

2983.4. Reasonable attorney's fees and costs shall be awarded to the prevailing party in any action on a contract or purchase order subject to the provisions of this chapter regardless of whether the action is instituted by the seller, holder or buyer. Where the defendant alleges in his answer that he tendered to the plaintiff the full amount to which he was entitled, and thereupon deposits in court, for the plaintiff, the amount so tendered, and the allegation is found to be true, then the defendant is deemed to be a prevailing party within the meaning of this section.

SEC. 6. Section 2984.4 of the Civil Code, as amended by Chapter 1516 of the Statutes of 1974, is amended to read:

2984.4. An action on a contract or purchase order under the provisions of this chapter shall be tried in the county in which the contract or purchase order was in fact signed by the buyer, in the county in which the buyer resided at the time the contract or purchase order was entered into, in the county in which the buyer resides at the commencement of the action or in the county in which the motor vehicle purchased pursuant to such contract or purchase order is permanently garaged.

In any action involving multiple claims, or causes of action, venue shall lie in such counties so long as there is at least one claim or cause of action arising from a contract subject to the provisions of this chapter.

If within any such county there is a municipal or justice court, having jurisdiction of the subject matter, established in the judicial district in which the contract, conditional sale contract, or purchase order was in fact signed by the buyer, or in which the buyer resided at the time the contract, conditional sale contract, or purchase order was entered into, or in which the buyer resides at the commencement of the action, or in which the motor vehicle purchased pursuant to such contract is permanently garaged, such

court is the proper court for the trial of the action. Otherwise, any municipal or justice court in such county, having jurisdiction of the subject matter, is the proper court for the trial of the action.

In any action subject to the provisions of this section, concurrently with the filing of the complaint, the plaintiff shall file an affidavit stating facts showing that the action has been commenced in a county or judicial district described in this section as a proper place for the trial of the action. Such facts may be stated in a verified complaint and shall not be stated on information or belief. When such affidavit is filed with the complaint, a copy thereof shall be served with the summons. If a plaintiff fails to file the affidavit or state facts in a verified complaint required by this section, no further proceedings shall be had, but the court shall, upon its own motion or upon motion of any party, dismiss any such action without prejudice; however, the court may, on such terms as may be just, permit the affidavit to be filed subsequent to the filing of the complaint and a copy of such affidavit shall be served on the defendant. The time to answer or otherwise plead shall date from such service.

SEC. 7. It is the intent of the Legislature that if this bill and Assembly Bill No. 3689 or Senate Bill No. 1894, or both, are chaptered and amend Section 2982 of the Civil Code, and this bill is chaptered last, that amendments proposed by each of the bills which are chaptered be given effect as follows:

(a) If this bill and Assembly Bill No. 3689 are both chaptered and amend Section 2982 of the Civil Code, but Senate Bill No. 1894 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Assembly Bill No. 3689, the amendments proposed by both bills shall be given effect and incorporated in Section 2982 in the form set forth in Section 2.3 of this act. Therefore, if Assembly Bill No. 3689 is chaptered before this bill and both bills amend Section 2982, and Senate Bill No. 1894 is not chaptered or as chaptered does not amend that section, Section 2.3 of this act shall be operative and Sections 2, 2.5, and 2.7 of this act shall not become operative.

(b) If this bill and Senate Bill No. 1894 are both chaptered and amend Section 2982 of the Civil Code, but Assembly Bill No. 3689 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Senate Bill No. 1894, the amendments proposed by both bills shall be given effect and incorporated in Section 2982 in the form set forth in Section 2.5 of this act. Therefore, if Senate Bill No. 1894 is chaptered before this bill and both bills amend Section 2982, and Assembly Bill No. 3689 is not chaptered or as chaptered does not amend that section, Section 2.5 shall be operative and Sections 2, 2.3, and 2.7 of this act shall not become operative.

(c) If this bill and Assembly Bill No. 3689 and Senate Bill No. 1894 are all chaptered, and all three bills amend Section 2982 of the Civil Code, and this bill is chaptered after Assembly Bill No. 3689 and Senate Bill No. 1894, the amendments proposed by all three bills shall be given effect and incorporated in Section 2982 in the form set forth

in Section 2.7 of this act. Therefore, if Assembly Bill No. 3689 and Senate Bill No. 1894 are both chaptered before this bill and all three bills amend Section 2982 of the Civil Code, Section 2.7 of this act shall be operative and Sections 2, 2.3, and 2.5 of this act shall not become operative.

CHAPTER 1286

An act to amend Section 2982 of the Civil Code and Section 675 of the Vehicle Code, relating to sales of vehicles.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 2982 of the Civil Code is amended to read:

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing and, if printed, shall be printed in type no smaller than six-point, and shall contain in a single document all of the agreements of the buyer and seller with respect to the total cost and the terms of payment for the motor vehicle, including any promissory notes or any other evidences of indebtedness. The conditional sale contract or a purchase order shall be signed by the buyer or his authorized representative and by the seller or its authorized representative, and an exact copy thereof shall be furnished the buyer by the seller at the time the buyer and the seller have signed the contract or purchase order. No motor vehicle shall be delivered under this chapter until the seller delivers to the buyer a fully executed copy of the conditional sale contract or purchase order and any vehicle purchase proposal and any credit statement which the seller has required or requested the buyer to sign, and which he has signed, during the contract negotiations. The seller shall not obtain the signature of the buyer to a contract when it contains blank spaces to be filled in after it has been signed. Every conditional sale contract shall contain, although not necessarily in the sequence or order set forth below, the following separate items:

1. The cash price of the motor vehicle described in the conditional sale contract.

5. The amounts, if any, paid or to be paid to any public officer in connection with the transaction and for license, certificate of title, and registration fees imposed by law.

6. The amount of the unpaid balance, which is the sum of items 3, 4, and 5.

7. The amount of the finance charge, and the annual percentage rate as defined in the Federal Truth-in-Lending Act (15 U.S.C. 1601 et seq.).

8. The total of payments, which is the sum of items 6 and 7, payable by the buyer to the seller, the number of installments required, the amount of each installment, and the date for payment of the installments.

9. The names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 of this code is to be sent.

10. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and resale of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single-interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time

such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

SEC. 2. Section 2982 of the Civil Code is amended to read:

2982. (a) Every conditional sale contract for the sale of a motor vehicle, with or without accessories, shall be in writing and, if printed, shall be printed in type no smaller than six-point, and shall contain in a single document all of the agreements of the buyer and seller with respect to the total cost and the terms of payment for the motor vehicle, including any promissory notes or any other evidences of indebtedness. The conditional sale contract or a purchase order shall be signed by the buyer or his authorized representative and by the seller or its authorized representative, and an exact copy thereof shall be furnished the buyer by the seller at the time the buyer and the seller have signed the contract or purchase order. No motor vehicle shall be delivered under this chapter until the seller delivers to the buyer a fully executed copy of the conditional sale contract or purchase order and any vehicle purchase proposal and any credit statement which the seller has required or requested the buyer to sign, and which he has signed, during the contract negotiations. The seller shall not obtain the signature of the buyer to a contract when it contains blank spaces to be filled in after it has been signed. Every conditional sale contract shall contain, although not necessarily in the sequence or order set forth below, the following separate items:

1. The cash price of the motor vehicle described in the conditional sale contract.

2. The amount of the buyer's downpayment, and whether made in cash or represented by the net agreed value of described property traded in, or both, together with a statement of the respective amounts credited for cash and for such property.

3. The unpaid balance of cash price, which is the difference between items 1 and 2.

4. The cost to the buyer of any insurance, the premium for which is included in the contract balance. Any such cost for credit life or disability insurance may be included in the finance charge if the amount thereof is separately stated on the face of the contract.

5. The amounts, if any, paid or to be paid to any public officer in connection with the transaction and for license, certificate of title, and registration fees imposed by law.

6. The amount of the unpaid balance, which is the sum of items 3, 4, and 5.

7. The amount of the finance charge, and the annual percentage

rate as defined in the Federal Truth-In-Lending Act (15 U.S.C. 1601 et seq.).

8. The total of payments, which is the sum of items 6 and 7, payable by the buyer to the seller, the number of installments required, the amount of each installment, and the date for payment of the installments.

9. The names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 of this code is to be sent.

10. A notice, in at least eight-point bold type if the contract is printed, reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

11. A notice to the buyer, in writing, and, if printed, in type no smaller than eight-point that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to

maturity by prepayment or refinancing, or upon surrender or repossession and resale of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepayment (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single-interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 8, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional

information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

(b) The term "vehicle salesman" does not include:

(1) Representatives of insurance companies, finance companies, or public officials who in the regular course of business, are required to dispose of, or sell vehicles under a contractual right or obligation of the employer, or in the performance of an official duty, or in authority of any court of law; provided, such sale is for the purpose of saving the seller from any loss or pursuant to the authority of a court of competent jurisdiction.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 7. It is the intent of the Legislature that if this bill and Assembly Bill No. 3456 or Senate Bill No. 1894, or both, are chaptered and amend Section 2982 of the Civil Code, and this bill is chaptered last, that amendments proposed by each of the bills which are chaptered be given effect as follows:

(a) If this bill and Assembly Bill No. 3456 are both chaptered and amend Section 2982 of the Civil Code, but Senate Bill No. 1894 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Assembly Bill No. 3456 the amendments proposed by both bills shall be given effect and incorporated in Section 2982 in the form set forth in Section 2 of this act. Therefore, if Assembly Bill No. 3456 is chaptered before this bill and both bills amend Section 2982, and Senate Bill No. 1894 is not chaptered or as chaptered does not amend that section, Section 2 of this act shall be operative and Sections 1, 3, and 4 of this act shall not become operative.

(b) If this bill and Senate Bill No. 1894 are both chaptered and amend Section 2982 of the Civil Code, but Assembly Bill No. 3456 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Senate Bill No. 1894, the amendments proposed by both bills shall be given effect and incorporated in Section 2982 in the form set forth in Section 3 of this act. Therefore, if Senate Bill No. 1894 is chaptered before this bill and both bills amend Section 2982, and Assembly Bill No. 3456 is not chaptered or as chaptered does not amend that section, Section 3 shall be operative and Sections 1, 2, and 4 of this act shall not become operative.

(c) If this bill and Assembly Bill No. 3456 and Senate Bill No. 1894 are all chaptered, and all three bills amend Section 2982 of the Civil Code, and this bill is chaptered after Assembly Bill No. 3456 and Senate Bill No. 1894, the amendments proposed by all three bills shall be given effect and incorporated in Section 2982 in the form set forth in Section 4 of this act. Therefore, if Assembly Bill No. 3456 and

Senate Bill No. 1894 are both chaptered before this bill and all three bills amend Section 2982 of the Civil Code, Section 4 of this act shall be operative and Sections 1, 2, and 3 of this act shall not become operative.

SECTION 1. Chapter 5-B (commencing with Section 118) is added to Title 1 of Part 1 of the Code of Civil Procedure, to read:

CHAPTER 5-B. SMALL CLAIMS COURT EXPERIMENTAL PROJECT

Article 1. Legislative Intent

118. It is the intent of the Legislature in enacting this chapter to:

(a) Establish procedures and programs in the small claims courts of specified districts designed to stimulate use of those courts by, and reduce the number of defaults by, untrained individual litigants unfamiliar with the judicial system who might have previously considered small claims courts an inconvenient or unsatisfactory forum for the resolution of disputes; and

(b) Establish systems for data collection and evaluation and provide the Legislature with a report of the effectiveness of these programs and procedures with recommendations for future action.

Article 2. Advisory Committee

119. Prior to January 31, 1977, there shall be established an advisory committee which shall consist of all of the following:

(a) The Attorney General or his representative;

(b) Two consumer representatives from consumer groups or agencies to be appointed by the Secretary of the Agriculture and Services Agency;

(c) One representative appointed by the Speaker of the Assembly and one representative appointed by the President pro Tempore of the Senate;

(d) Two representatives to be appointed by the Board of Governors of the State Bar;

appointed by the Secretary of the Business and Transportation Agency.

(f) Six judges of the municipal court who have extensive experience presiding in small claims court, to be appointed by the Judicial Council.

119.1. The advisory committee shall first convene within 15 days of its establishment. It shall, among other business, elect its chairperson at that time.

119.2. Staff assistance to the advisory committee shall be provided by the Department of Consumer Affairs as needed.

119.3. The members of the advisory committee shall serve without compensation but shall be reimbursed for expenses actually and necessarily incurred by them in the performance of their duties.

119.4. The advisory committee shall assist the Department of Consumer Affairs in compiling and evaluating data, and preparing a report to the Legislature of the effectiveness of the programs and procedures in the project districts together with recommendations for future action.

Article 3. Administration of Experimental Project Districts

120. The small claims divisions of three municipal court districts in three different counties shall, prior to January 31, 1977, be designated as experimental districts by the Judicial Council, with the advice of the Department of Consumer Affairs and the concurrence of the municipal court which would be involved in the project. The districts selected shall be:

(a) Primarily urban;

(b) Have a current small claims court caseload of 600 to 1,200 cases per month; and

(c) Have a population of not less than 10 percent Spanish-surnamed persons.

Judicial districts which appear to satisfy these qualifications include: in Alameda County, the Oakland-Piedmont Judicial District; in Fresno County, the Fresno Judicial District; in Los Angeles County, the South Bay Judicial District; in Sacramento County, the Sacramento Judicial District; in San Bernardino County, the San Bernardino Judicial District; in San Francisco City and County, the San Francisco Judicial District; in Santa Clara County, the San Jose-Milpitas Judicial District; and in Ventura County, the Ventura Judicial District.

120.1. This chapter shall be implemented in four phases. The first phase shall commence July 1, 1977. The last phase shall terminate June 30, 1979.

The four phases shall be:

(a) From July 1, 1977, to September 30, 1977. During this time the advisory committee shall be appointed and shall convene, and the experimental and other recordkeeping districts shall be designated. Although neither the procedures in experimental districts as set

forth in Article 4 (commencing with Section 121) of this chapter nor the recordkeeping and evaluation procedures as set forth in Article 5 (commencing with Section 122) of this chapter shall be in effect during this time, preliminary preparations for the implementation of the procedures in Article 4 (commencing with Section 121) shall be made and preparation for the full implementation of recordkeeping procedures in Article 5 (commencing with Section 122) on October 1, 1977, shall be made during this time.

(b) From October 1, 1977, to March 31, 1978. During this time data shall be accumulated as provided in Sections 122 and 122.1. The procedures in experimental districts as set forth in Article 4 (commencing with Section 121) will not be in effect, but preparation for their full implementation beginning April 1, 1978, shall be made. This preparation shall include the establishing of administrative guidelines, the printing of all forms and manuals, and the training of personnel.

(c) From April 1, 1978, to March 31, 1979. During this time all programs and procedures mandated in this chapter shall be in effect. The procedures in experimental districts set forth in Article 4 (commencing with Section 121), and the recordkeeping set forth in Article 5 (commencing with Section 122) shall terminate after March 31, 1979.

(d) From April 1, 1979 to June 30, 1979. During this time the advisory committee and the Department of Consumer Affairs shall complete their report to the Legislature.

120.2. Notwithstanding any other provision of law, the Judicial Council shall provide by rule for procedures in the experimental districts which change or modify existing law. To the extent the existing law contained in Chapter 5A (commencing with Section 116) is not modified or changed by rule, it shall apply in the experimental districts. It shall be the policy of the rules promulgated by the Judicial Council that the convenience of natural persons shall, to the extent possible, prevail over the convenience of other litigants.

120.3. The Department of Consumer Affairs shall formulate and distribute to all small claims courts within the project districts a manual on small claims court rules and procedures, explaining how to fill out the necessary forms, how to pursue or defend against a claim, how to appeal a judgment, how to execute after judgment, and how to protect property that is exempt from execution. The manuals shall be distributed at no cost to litigants in small claims actions and to the general public.

Article 4. Procedures in Experimental Project Districts

121. Jurisdiction and venue shall be the same as in other small claims court districts.

121.1. Commencing with the date of implementation of the third phase of this chapter, as set forth in Section 120.1, the Department of Consumer Affairs, in cooperation with the Judicial Council, shall,

through public service announcements donated by the media and other dissemination of information, seek to inform the public in the project districts of the establishment and availability of the new programs and procedures mandated in this article.

121.2. The small claims court in the experimental districts shall make available to litigants night and Saturday sessions. The frequency of such sessions shall be specified in the rules promulgated by the Judicial Council and shall initially be a minimum frequency of one night and one Saturday session each month, but such frequency may be reduced if the litigant demand does not justify such use.

121.3. The Judicial Council shall provide by rule for the utilization of bilingual clerical staff and courtroom interpreters. Interpreters shall be provided and may be provided on an on-call basis.

121.4. Small claims actions in the experimental districts shall be commenced, heard, and determined pursuant to rules and forms adopted by the Judicial Council. All forms, notices, and documents to be used by, or served on, litigants shall be made available in English, Spanish, and when feasible, other languages spoken in the experimental districts by a significant proportion of the population of the district. The forms, notices, documents, and manuals shall be composed in clear and concise language utilizing nontechnical language which persons without legal training can readily understand.

121.5. The Judicial Council shall by rule require the clerk or deputy clerk to inform the claimant of all of the following:

(a) The availability of night and Saturday sessions.

(b) The role and availability of the legal adviser or appropriate mediation agency, where applicable.

(c) The availability of interpreters.

121.6. The Judicial Council shall by rule require the clerk or deputy clerk to advise defendants of all of the following:

(b) The role and availability of the legal adviser or appropriate mediation agency, where applicable.

(c) The availability of interpreters.

(d) The availability of venue change procedures.

(e) The authority of the court to allow payment schedules for judgments where applicable.

121.7. The Judicial Council shall provide by rule for change of venue for substantial hardship upon either parties or witnesses.

121.8. The Judicial Council shall provide by rule for the establishment of three different systems of litigant or court assistance, one in each experimental district. The systems shall involve the following concepts:

(a) A law clerk to provide assistance to the court.

(b) Two small claims legal advisers who shall be members of the State Bar who will operate independently of the courts to directly

assist litigants, but who may not appear in court to act as advocates for any party.

(c) A small claims court postfiling referral service to a court-designated mediation agency.

Article 5. Data Collection and Evaluation

122. In addition to the regular docket or register of actions entries mandated for small claims courts, the entries in project districts shall include the time of day of the trial as stated in the order (whether regular, night, or Saturday) and the date of the revised order, if there be one, and the date and time of trial as stated in the revised order.

122.1. In addition to the recordkeeping set forth in Section 122, recordkeeping systems shall be established in representative districts selected by the Judicial Council with the advice of the Department of Consumer Affairs and the concurrence of the selected municipal court and in the project districts to provide retrieval of information pertaining to:

(a) Total number of complaints filed in small claims court;

(3) The amount of the judgment, in increments of one hundred dollars ($100).

(d) For each case filed, name of persons appearing for the parties;

(h) Number of Spanish-surnamed natural persons named as plaintiffs and number named as defendants in small claims courts;

122.2. At the end of two years, the Department of Consumer Affairs and the advisory committee shall provide the Legislature a report. SECTION 1. Section 77 of the Code of Civil Procedure is amended to read:

77. (a) There is an appellate department of the superior court in every county and city and county which has one or more municipal or justice courts.

(b) The appellate department in a county in which there is only one judge of the superior court shall consist of such judge who shall be the presiding judge and two additional judges who shall be designated by the Chairman of the Judicial Council. Each additional judge shall be a judge of the superior court of another county or a judge retired from the superior court or court of higher jurisdiction in this state.

(c) The appellate department in a county with two judges of the superior court shall consist of such judges, one of whom shall be designated as presiding judge by the Chairman of the Judicial Council, and one additional judge designated by the Chairman of the Judicial Council. Such additional judge shall be a judge of the superior court of another county or a judge retired from the superior court or court of higher jurisdiction in this state.

(d) The appellate department in a county with three or more judges of the superior court shall consist:

(i) Of three judges; or

(ii) When there are 50 or more judges of municipal courts in the county and the Chairman of the Judicial Council finds it necessary, of four judges.

Each of such judges under this subdivision (d) shall be designated from among the judges of the court by the Chairman of the Judicial Council. The Chairman of the Judicial Council shall also designate one of such judges as the presiding judge of such department. No

If the judge is out of his county overnight or longer, by reason of the designation, such judge shall be paid a per diem allowance in lieu of expenses for board and lodging in the same amounts as are payable for such purposes to justices of the Supreme Court under the rules of the State Board of Control. In addition, a retired judge shall receive from the state and the county to which he is designated, for the time so served, amounts equal to that which he would have received from each if he had been assigned to the superior court of the county.

(f) The concurrence of two judges of the appellate department of the superior court shall be necessary to render the decision in every case in, and to transact any other business except such as may be done at chambers by the presiding judge of, such department. The presiding judge shall convene such department at such times as may be necessary. He shall also supervise its business and transact such thereof as may be done at chambers.

(g) Every appellate department under this section shall have jurisdiction on appeal from the municipal and justice courts within the county or city and county in all cases in which an appeal may be taken to the superior court as is now or may hereafter be provided by law, except such appeals as require a retrial in the superior court. The powers of each appellate department shall be the same as are now or may hereafter be provided by law or rule of the Judicial Council relating to appeals to the superior courts.

SEC. 10. Section 117 of the Code of Civil Procedure is amended to read:

117. All judges of the justice court and the municipal court shall exercise the jurisdiction conferred by this chapter, and while sitting in the exercise of said jurisdiction shall be known and referred to as the small claims court; provided, that the jurisdiction of such court, when sitting as a small claims court, shall be confined to cases for the recovery of money only where the amount claimed does not exceed five hundred dollars ($500), except that a justice or municipal court judge sitting as a small claims court shall also have jurisdiction in proceedings in unlawful detainer after default in rent for residential property where the term of tenancy is not greater than month to month, and where the whole amount claimed is five hundred dollars ($500) or less.

SEC. 11. Section 396a of the Code of Civil Procedure is amended to read:

396a. In all actions and proceedings commenced in a justice or municipal court which are subject to the provisions of Sections 1812.10 and 2984.4 of the Civil Code, plaintiff shall state facts in the complaint, verified by his oath, or the oath of his attorney, or in an affidavit of the plaintiff or of his attorney filed with the complaint, showing that the action has been commenced in the proper court for the trial of such action or proceeding, and showing that the action is subject to the provisions of Sections 1812.10 and 2984.4 of the Civil Code. When such affidavit is filed with the complaint, a copy thereof must be served with the summons. Except as herein provided, if such complaint or affidavit be not so filed, no further proceedings shall be had in the action or proceeding, except to dismiss the same without prejudice. However, the court may, on such terms as may be just, permit such affidavit to be filed subsequent to the filing of the complaint, and a copy of such affidavit shall be served on the defendant and the time to answer or otherwise plead shall date from such service. If it appears from such complaint or affidavit, or otherwise, that the court in which such action or proceeding is commenced is not the proper court for the trial thereof, the court in which such action or proceeding is commenced, or a judge thereof, shall, whenever such fact appears, transfer it to such proper court, on its own motion, or on motion of the defendant, unless the defendant consents in writing, or in open court (such consent in open court being entered in the minutes or docket of the court), to the keeping of the action or proceeding in the court where commenced. If such consent be given, the action or proceeding may continue in the court where commenced. Notwithstanding the provisions of Section 1801.1 and subdivision (f) of Section 2983.7 of the Civil Code, such consent may be given by a defendant who is represented by counsel at the time the consent is given. In any such case where the transfer of the action or proceeding is ordered under the provisions of this paragraph, if summons is served prior to the filing of such action or proceeding in the court to which it is transferred, as to any defendant, so served, who has not appeared in the action or proceeding, the time to answer or otherwise plead shall date from service upon such defendant of written notice of such filing.

When it appears from such complaint or affidavit of the plaintiff that the court in which such action or proceeding is commenced is a proper court for the trial thereof, all proper proceedings may be had, and the action or proceeding may be tried therein; provided, however, that in such case a motion for a transfer of the action or proceeding may be made as in other cases, within the time, upon the grounds, and in the manner provided in this title, and if upon such

motion it appears that such action or proceeding is not pending in the proper court, or should for other cause be transferred, the same shall be ordered transferred as provided in this title.

When any such action or proceeding is ordered transferred as herein provided, proceedings shall be had, and the costs and fees shall be paid, as provided in Sections 398 and 399 of this code.

SEC. 14. Section 904.4 of the Code of Civil Procedure is repealed.

SEC. 15. Section 905 of the Code of Civil Procedure is repealed.

SEC. 16. Section 906 of the Code of Civil Procedure is amended to read:

906. Upon an appeal pursuant to Section 904.1 or 904.2, the reviewing court may review the verdict or decision and any intermediate ruling, proceeding, order or decision which involves the merits or necessarily affects the judgment or order appealed from or which substantially affects the rights of a party, including, on any appeal from the judgment, any order on motion for a new trial, and may affirm, reverse or modify any judgment or order appealed from and may direct the proper judgment or order to be entered, and may, if necessary or proper, direct a new trial or further proceedings to be had. The respondent, or party in whose favor the judgment was given, may, without appealing from such judgment, request the reviewing court to and it may review any of the foregoing matters for the purpose of determining whether or not the appellant was prejudiced by the error or errors upon which he relies

for reversal or modification of the judgment from which the appeal is taken. The provisions of this section do not authorize the reviewing court to review any decision or order from which an appeal might have been taken.

CHAPTER 1289

An act to add Chapter 5A (commencing with Section 116) to Title 1 of Part 1 of, and to repeal Chapter 5A (commencing with Section 116) of Title 1 of Part 1 of, the Code of Civil Procedure, relating to small claims courts.

[Approved by Governor September 27, 1976 Filed with Secretary of State September 28, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5A (commencing with Section 116) of Title 1 of Part 1 of the Code of Civil Procedure is repealed.

SEC. 2. Chapter 5A (commencing with Section 116) of Title 1 of Part 1 is added to the Code of Civil Procedure, to read:

CHAPTER 5A. SMALL CLAIMS COURT

116. In each justice and municipal court there shall be a small claims division. The Judicial Council shall provide by rule for the practice and procedure and for the forms and use in proceedings in such division consistent with the provisions of this chapter. Each small claims division may formulate and distribute to litigants and the public a manual on small claims court rules and procedures. The manual shall explain how to fill out the necessary forms, how to determine the proper court to hear the matter, how to take defaults and have them set aside, how to pursue or defend against claims, how to appeal, how to collect after judgment, how to protect property that is exempt from execution, and such other matters as the court deems necessary or desirable.

116.2. The small claims division shall have jurisdiction in actions:

(a) For recovery of money only where the amount of the demand does not exceed seven hundred fifty dollars ($750);

(b) To enforce payment of delinquent unsecured personal property taxes in an amount not to exceed seven hundred fifty dollars ($750), if the legality of the tax is not contested by the defendant;

(c) In unlawful detainer, after default in rent for residential

property, where the term of tenancy is not greater than month to month and the amount claimed does not exceed seven hundred fifty dollars ($750).

116.4. An action shall be commenced by the plaintiff's filing, in person or by mail with the judge or clerk of the small claims division, a claim under oath setting forth: the name and address of the defendant; the amount and the basis of the claim; and that the plaintiff has demanded payment and, in applicable cases, the possession of the property; that the defendant has failed or refused to pay, and where applicable, has refused to surrender the premises; and that the plaintiff understands that the judgment on his claim will be conclusive without right of appeal by him. The judge or clerk shall thereupon (a) sign an order directing a defendant who resides within the county in which the action is filed, to appear on a hearing date not more than 40 days nor less than 10 days from the date of the order or, if the defendant resides outside of the county in which the action is filed, to appear on a hearing date not more than 70 nor less than 30 days from the date of the order, (b) cause a copy of any claim and order to be mailed to him by any form of mail providing for a return receipt, or served upon him in the manner authorized by law for the service of a summons, and (c) inform the plaintiff of a specified hearing date and direct him to appear on that date with witnesses and documents to prove his claim. Service shall be deemed complete on the date of personal service, or on the date that the defendant signs the mail return receipt, or 10 days after the mailing required by Section 415.20, or upon the presentation of other competent evidence to the court, , whichever is applicable. If the service of the claim and order upon the defendant is not completed at least five days prior to the hearing date where the defendant resides within the county in which the action is brought, or at least 15 days prior to the hearing date where the defendant resides outside the county in which the action is brought, the court shall not proceed on the hearing date, unless the defendant personally appears and does not request a continuance. The plaintiff in such case may apply to the judge or the clerk for a new order setting a new date for the hearing, unless the defendant has personally appeared and requested a continuance, in which case no further service of the claim and order upon him shall be required, but the court must, upon the defendant's request, continue the date of the hearing for not less than 10 days.

116.6. Venue in such actions shall be the same as for civil actions filed in justice or municipal court.

116.7. Sessions of the small claims court may be scheduled at any time and on any day, including Saturdays, but excluding holidays. They may also be scheduled at any public building within the judicial district, including places outside the courthouse.

116.8. (a) No formal pleading other than the claim and order are necessary. The defendant may file a claim in the same proceeding in an amount not to exceed seven hundred fifty dollars ($750). In the

event the defendant files such a claim in the court, he shall serve a copy of his claim on the plaintiff at least five days before the hearing date, unless the plaintiff has served him 10 days or less before the hearing date in which case he shall serve a copy of his claim at least one day before the hearing date. Defendant shall file and serve his claim in the manner provided for filing and serving a claim under Section 116.4.

(b) If defendant has a claim against plaintiff in an amount over the jurisdiction of the small claims court as set forth in Section 116.2, but of a nature which would be the subject of a cross-complaint under the rules of pleading and practice governing the superior court, then defendant may commence an action against plaintiff in a court of competent jurisdiction and file with the small claims court wherein plaintiff has commenced his action, at or before the time set for the trial of said small claims action, an affidavit setting forth the facts of the commencement of such action by such defendant. He shall attach to such affidavit a true copy of the complaint so filed by defendant against plaintiff, and pay to the clerk of the small claims court the sum of one dollar ($1) for a transmittal fee, and shall deliver to plaintiff in person a copy of the affidavit and complaint at or before the time above stated. Thereupon the small claims court shall order that the small claims court action shall be transferred to the court set forth in the affidavit, and shall transmit all files and papers in the small claims actions to such other court, and the actions shall then be tried together in such other court.

The plaintiff in the small claims action shall not be required to pay to the clerk of the court to which the action is so transferred any transmittal, appearance, or filing fee in said action, but shall be required to pay the filing and any other fee required of a defendant if he appears in the action filed against him.

117. The hearing and disposition of small claims actions shall be informal, the object being to dispense justice promptly between the parties. The parties shall have the right to offer evidence by witnesses at the hearing or, with the permission of the court, at another time. The judge may consult witnesses informally and otherwise investigate the controversy. If the defendant fails to appear, the judge shall still require plaintiff to present evidence to prove his claim. The judge shall give judgment and make such orders as to time of payment or otherwise as he deems to be just and equitable for disposition of the controversy. The provisions of Section 579 of this code may be applied.

117.1. The claim described in Section 116.2 shall be on simple nontechnical forms approved or adopted by the Judicial Council. Such forms shall inform the claimant that he cannot be represented by an attorney and that he has no right of appeal from a judgment of the small claims court.

117.3. When there are two or more defendants and one or more of them resides outside the county in which the action is brought, the date for the appearance of all the defendants shall not be more than

30 days from the date of the order to appear.

117.4. No attorney at law or other person than the plaintiff and the defendant shall take any part in the filing or the prosecution or defense of such litigation in small claims court, unless the attorney is appearing to prosecute or defend an action by or against himself, or by or against a partnership in which he is a general partner and in which all the partners are attorneys, or by or against a professional corporation of which he is an officer or director and of which all other officers and directors are attorneys at law. Nothing herein shall prevent an attorney from rendering advice to a party to such litigation, either before or after the commencement of such an action; nor shall anything herein prevent an attorney from testifying to facts of which he has personal knowledge and about which he is competent to testify. However, if the court determines that a party does not speak or understand the English language sufficiently to comprehend the proceedings or give testimony, or cannot properly present his own case and needs assistance in so doing, the court may permit another person (other than an attorney at law) to assist such party.

117.5. No claim shall be filed by or prosecuted in such small claims court by the assignee of such claim. Nothing in this section shall prevent the filing or prosecution of a claim by a trustee in bankruptcy in the exercise of his duties as trustee, or by the holder of a conditional sales contract who has purchased such contract for his portfolio of investments and who is not an assignee for the purpose of collection.

117.6. The small claims court shall not hear more than six claims by any plaintiff in any single court day.

117.7. No attachment or garnishment shall issue from the small claims division. Execution may issue in the manner prescribed in Title 9 (commencing with Section 681) of Part 2, and judgment may be enforced in the manner provided in Section 1174. However, enforcement of the judgment is automatically stayed, without the filing of a bond by the defendant, until the expiration of time for appeal and, if an appeal is taken, until the appeal is determined.

117.8. (a) The judgment shall be conclusive upon the plaintiff. The defendant may appeal the judgment to the superior court in the county in which the matter was heard, provided that, if the defendant seeks any affirmative relief by way of a claim in the small claims court, he shall not have the right to appeal from the judgment on the claim.

(b) If the defendant did not appear at the hearing in the small claims court he shall have filed, as a prerequisite to appeal, within 20 days after receipt of actual notice of entry of judgment, a motion in the small claims court to vacate the judgment and the motion shall have been denied or not decided within 60 days after it was filed.

117.9. If the judgment or order be against the defendant, or cross-defendant he shall pay the same forthwith or at any time and upon such terms and conditions as the judge shall prescribe.

03885 297170 963

Immediately upon receipt of payment of the judgment, the judgment creditor or his assignee shall file with the court an acknowledgment of satisfaction of judgment. Any judgment creditor or assignee who, after payment in full of the judgment, and after written demand by the judgment debtor fails without just cause for a period of 15 days to execute, and file such acknowledgment of satisfaction with the court is liable to the judgment debtor or his grantees or heirs for all damages which he or they may sustain by reason of such failure and shall also forfeit to him or them the sum of fifty dollars ($50).

117.10. On appeal the action shall be tried anew. The Judicial Council shall prescribe by rule the practice and procedure on appeal and the time and manner in which the record on appeal shall be prepared and filed. Such rules shall be consistent with subdivisions (a) and (b) of Section 117.8. The defendant shall pay the same filing fee as for the appeal of a civil action from a justice court. No fee shall be charged to the plaintiff in the small claims action for the filing of any documents in the superior court.

118.1. The judgment of the superior court shall be final and not appealable. If the judgment is affirmed in whole or in part or the appeal is dismissed, the defendant shall pay to the plaintiff the amount of the judgment as affirmed, together with interest and costs and the sum of fifteen dollars ($15) as an attorney's fee.

118.6. A fee of two dollars ($2) shall be charged and collected for the filing of the claim under oath for the commencement of any action; for each defendant to whom a copy of the claim is mailed by the clerk a fee of two dollars ($2) shall be charged and collected. Fees as provided in Section 72062 and 72065 of the Government Code shall be charged and collected by the clerk for the issuance of a writ of execution or an abstract of judgment. Except as otherwise provided for in this chapter, no other fee or charge shall be collected by any officer for any service rendered under this chapter, or for the taking of affidavits for use in connection with any action commenced under this chapter. All fees collected hereunder shall be deposited with the treasurer of the city and county or county under whose jurisdiction any such court shall exist.

118.7. Each small claims court shall make a reasonable effort to maintain and make available to the parties a list of interpreters, who are willing and able to aid parties in the small claims court for no fee, or for a fee, which is reasonable considering the size of the claims involved in such court. Such list shall include interpreters for all languages that require interpretation before the court, as determined by the court, in its discretion and in view of its experience. Failure to maintain such a list, or failure to have an interpreter for a particular language on such list, shall not invalidate any proceedings before the court.

SEC. 3. Nothing in this act shall be construed to invalidate the ruling in Gardiana v. San Leandro Smalls Claims Court (1976), 130 Cal. Rptr. 675.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act can be accomplished with no additional cost to local government.

CHAPTER 1294

An act to amend Section 710 of the Code of Civil Procedure, relating to salary garnishment.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 710 of the Code of Civil Procedure is amended to read:

710. (a) Whenever a judgment for the payment of money is rendered by any court of this state against a defendant to whom money is owing and unpaid by this state or by any county, city and county, city or municipality, quasi-municipality, district or public corporation, the judgment creditor may file a duly authenticated abstract or transcript of such judgment together with an affidavit stating the exact amount then due, owing and unpaid thereon and that he desires to avail himself of the provisions of this section in the manner as follows:

1. If such money is owing and unpaid by this state to such judgment debtor, said judgment creditor shall file said abstract or transcript and affidavit with the state department, board, office or commission owing such money to said judgment debtor prior to the time such state department, board, office or commission presents the claim of such judgment debtor therefor to the State Controller. Said state department, board, office or commission in presenting such claim of such judgment debtor to said State Controller shall note thereunder the fact of the filing of such abstract or transcript and affidavit and state the amount unpaid on said judgment as shown by said affidavit and shall also note any amounts advanced to the judgment debtor by, or which the judgment debtor owes to, the State of California by reason of advances for expenses or for any other purpose. Thereupon the State Controller, to discharge such claim of such judgment debtor, shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due such judgment debtor on such claim, after deducting from such claim an amount sufficient to reimburse the state department, board, office or commission for any amounts advanced to said judgment debtor or by him owed to the State of California, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

2. If such money is owing and unpaid to such judgment debtor by any county, city and county, city or municipality, quasi-municipality, district or public corporation, said judgment creditor shall file said abstract or transcript and affidavit with the auditor of such county, city and county, city or municipality, quasi-municipality, district or

public corporation (and in case there be no auditor then with the official whose duty corresponds to that of auditor). Thereupon said auditor (or other official) to discharge such claim of such judgment debtor shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due on such claim of such judgment debtor as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

(b) The judgment creditor upon filing such abstract or transcript and affidavit shall pay a fee of two dollars and fifty cents ($2.50) to the person or agency with whom the same is filed.

(c) Whenever a court receives any money hereunder, it shall pay as much thereof as is not exempt from execution under this code to the judgment creditor and the balance thereof, if any, to the judgment debtor. The procedure for determining the claim of exemption shall be governed by the procedure set forth in Section 690.50 of this code, and the court rendering the judgment shall be considered the levying officer for the purpose of that section.

(d) In the event the moneys owing to a judgment debtor by any governmental agency mentioned in this section are owing by reason of an award made in a condemnation proceeding brought by the governmental agency, such governmental agency may pay the amount of the award to the clerk of the court in which such condemnation proceeding was tried, and shall file therewith the abstract or transcript of judgment and the affidavit filed with it by the judgment creditor. Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1268.010. Upon such payment into court and the filing with the county clerk of such abstract or transcript of judgment and affidavit, the county clerk shall notify by mail, through their attorneys, if any, all parties interested in said award of the time and place at which the court which tried the condemnation proceeding will determine the conflicting claims to said award. At said time and place the court shall make such determination and order the distribution of the money held by the county clerk in accordance therewith.

(e) The judgment creditor may state in the affidavit any fact or facts tending to establish the identity of the judgment debtor. No public officer or employee shall be liable for failure to perform any duty imposed by this section unless sufficient information is furnished by the abstract or transcript together with the affidavit to enable him in the exercise of reasonable diligence to ascertain such identity therefrom and from the papers and records on file in the office in which he works. The word "office" as used herein does not include any branch or subordinate office located in a different city.

(f) Nothing in this section shall authorize the filing of any abstract or transcript and affidavit against any overpayment of tax, penalty or interest, or interest allowable with respect to such overpayment, under Part 10 (commencing with Section 17001) or Part 11

(commencing with Section 23001) of Division 2 of the Revenue and Taxation Code.

(g) Any fees received by a state agency under this section shall be deposited to the credit of the fund from which payments were, or would be, made on account of a garnishment under this section.

(h) This section shall not be construed to authorize the withholding of earnings of a public officer or employee. Except as otherwise expressly provided by law, the earnings of a public officer or employee may be withheld for payment of a judgment only pursuant to Section 682.3.

SEC. 2. Section 710 of the Code of Civil Procedure is amended to read:

710. (a) Whenever a judgment for the payment of money is rendered by any court of this state against a defendant to whom money is owing and unpaid by this state or by any county, city and county, city or municipality, quasi-municipality, district or public corporation, the judgment creditor may file a duly authenticated abstract or transcript of such judgment together with an affidavit stating the exact amount then due, owing and unpaid thereon and that he desires to avail himself of the provisions of this section in the manner as follows:

1. If such money is owing and unpaid by this state to such judgment debtor, said judgment creditor shall file said abstract or transcript and affidavit with the state department, board, office or commission owing such money to said judgment debtor prior to the time such state department, board, office or commission presents the claim of such judgment debtor therefor to the State Controller. Said state department, board, office or commission in presenting such claim of such judgment debtor to said State Controller shall note thereunder the fact of the filing of such abstract or transcript and affidavit and state the amount unpaid on said judgment as shown by said affidavit and shall also note any amounts advanced to the judgment debtor by, or which the judgment debtor owes to, the State of California by reason of advances for expenses or for any other purpose. Thereupon the State Controller, to discharge such claim of such judgment debtor, shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due such judgment debtor on such claim, after deducting from such claim an amount sufficient to reimburse the state department, board, office or commission for any amounts advanced to said judgment debtor or by him owed to the State of California, as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

2. If such money is owing and unpaid to such judgment debtor by any county, city and county, city or municipality, quasi-municipality, district or public corporation, said judgment creditor shall file said abstract or transcript and affidavit with the auditor of such county, city and county, city or municipality, quasi-municipality, district or

public corporation (and in case there be no auditor then with the official whose duty corresponds to that of auditor). Thereupon said auditor (or other official) to discharge such claim of such judgment debtor shall pay into the court which issued such abstract or transcript by his warrant or check payable to said court the whole or such portion of the amount due on such claim of such judgment debtor as will satisfy in full or to the greatest extent the amount unpaid on said judgment and the balance thereof, if any, to the judgment debtor.

(b) The judgment creditor upon filing such abstract or transcript and affidavit shall pay a fee of six dollars ($6) to the person or agency with whom the same is filed.

(c) Whenever a court receives any money hereunder, it shall pay as much thereof as is not exempt from execution under this code to the judgment creditor and the balance thereof, if any, to the judgment debtor. The procedure for determining the claim of exemption shall be governed by the procedure set forth in Section 690.50 of this code, and the court rendering the judgment shall be considered the levying officer for the purpose of that section.

(d) In the event the moneys owing to a judgment debtor by any governmental agency mentioned in this section are owing by reason of an award made in a condemnation proceeding brought by the governmental agency, such governmental agency may pay the amount of the award to the clerk of the court in which such condemnation proceeding was tried, and shall file therewith the abstract or transcript of judgment and the affidavit filed with it by the judgment creditor. Such payment into court shall constitute payment of the condemnation award within the meaning of Section 1268.010. Upon such payment into court and the filing with the county clerk of such abstract or transcript of judgment and affidavit, the county clerk shall notify by mail, through their attorneys, if any, all parties interested in said award of the time and place at which the court which tried the condemnation proceeding will determine the conflicting claims to said award. At said time and place the court shall make such determination and order the distribution of the money held by the county clerk in accordance therewith.

(e) The judgment creditor may state in the affidavit any fact or facts tending to establish the identity of the judgment debtor. No public officer or employee shall be liable for failure to perform any duty imposed by this section unless sufficient information is furnished by the abstract or transcript together with the affidavit to enable him in the exercise of reasonable diligence to ascertain such identity therefrom and from the papers and records on file in the office in which he works. The word "office" as used herein does not include any branch or subordinate office located in a different city.

(f) Nothing in this section shall authorize the filing of any abstract or transcript and affidavit against any overpayment of tax, penalty or interest, or interest allowable with respect to such overpayment, under Part 10 (commencing with Section 17001) or Part 11

(commencing with Section 23001) of Division 2 of the Revenue and Taxation Code.

(g) Any fees received by a state agency under this section shall be deposited to the credit of the fund from which payments were, or would be, made on account of a garnishment under this section.

(h) This section shall not be construed to authorize the withholding of earnings of a public officer or employee. Except as otherwise expressly provided by law, the earnings of a public officer or employee may be withheld for payment of a judgment only pursuant to Section 682.3.

SEC. 3. It is the intent of the Legislature, if this bill and Senate Bill No. 1994 are both chaptered and amend Section 710 of the Code of Civil Procedure, and this bill is chaptered after Senate Bill No. 1994, that the amendments to Section 710 proposed by both bills be given effect and incorporated in Section 710 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Senate Bill No. 1994 are both chaptered, both amend Section 710, and Senate Bill No. 1994 is chaptered before this bill, in which case Section 1 of this act shall not become operative.

The people of the State of California do enact as follows:

SECTION 1. Section 10932 of the Education Code is amended to read:

10932. As used in this chapter:

(a) "Parent" means a natural parent, an adoptive parent, or legal guardian. If parents are divorced or legally separated, only the

parent having legal custody of the pupil may challenge the content of a record pursuant to Section 10941, offer a written response to a record pursuant to Section 10943, or consent to release records to others pursuant to Section 10946, provided, however, that either parent may grant consent if both parents have notified, in writing, the school or school district that such an agreement has been made. Whenever a pupil has attained the age of 18 years or is attending an institution of postsecondary education, the permission or consent required of, and the rights accorded to, the parents or guardian of the pupil shall thereafter only be required of, and accorded to, the pupil.

(b) "Pupil record" means any item of information directly related to an identifiable pupil, other than directory information, which is maintained by a school district or required to be maintained by any employee in the performance of his duties whether recorded by handwriting, print, tapes, film, microfilm or other means.

"Pupil record" shall not include informal notes related to a pupil compiled by a school officer or employee which remain in the sole possession of the maker and are not accessible or revealed to any other person except a substitute. For purposes of this subdivision, "substitute" means a person who performs the duties of the individual who made the notes on a temporary basis, and does not refer to a person who permanently succeeds the maker of the notes in his or her position.

(c) "Directory information" means one or more of the following items: student's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous public or private school attended by the student.

(d) "School district" means any school district maintaining any of grades kindergarten through 12, any public school providing instruction in any of grades kindergarten through 12, the office of the county superintendent of schools, or any special school operated by the Department of Education.

(e) "Access" means a personal inspection and review of a record or an accurate copy of a record, an oral description or communication of a record or an accurate copy of a record, and a request to release a copy of any record.

SEC. 2. Section 10934 of the Education Code is amended to read:

10934. School districts shall notify parents in writing of their rights under this chapter upon the date of the pupil's initial enrollment, and thereafter at the same time as notice is issued pursuant to Section 10921. The notice shall be, insofar as is practicable, in the home language of the pupil. The notice shall take a form which reasonably notifies parents of the availability of the following specific information:

(a) The types of pupil records and information contained therein which are directly related to students and maintained by the institution.

(b) The position of the official responsible for the maintenance of each type of record.

(c) The location of the log or record required to be maintained pursuant to Section 10935.

(e) The policies of the institution for reviewing and expunging those records.

(f) The right of the parent to access to pupil records.

(g) The procedures for challenging the content of pupil records.

(h) The cost, if any, which will be charged to the parent for reproducing copies of records.

(i) The categories of information which the institution has designated as directory information pursuant to Section 10944.

(j) Any other rights and requirements set forth in this chapter, and the right of the parent to file a complaint with the United States Department of Health, Education, and Welfare concerning an alleged failure by the district to comply with the provisions of Section 438 of the General Education Provisions Act (20 U.S.C.A. Sec. 1232g).

SEC. 3. Section 10935 of the Education Code is repealed.

SEC. 4. Section 10935 is added to the Education Code, to read:

10935. A log or record shall be maintained for each pupil's record which lists all persons, agencies, or organizations requesting or receiving information from the record and the legitimate interests therefor. Such listing need not include:

(a) Parents or pupils to whom access is granted pursuant to Section 10940 or paragraph (6) of subdivision (a) of Section 10947;

(b) Parties to whom directory information is released pursuant to Section 10944;

(c) Parties for whom written consent has been executed by the parent pursuant to Section 10946; or

(d) School officials or employees having a legitimate educational interest pursuant to paragraph (1) of subdivision (a) of Section 10947.

The log or record shall be open to inspection only by a parent and the school official, or his designee, responsible for the maintenance of pupil records, and to other school officials with legitimate educational interests in the records, and to the Comptroller General of the United States, the Secretary of Health, Education, and Welfare, an administrative head of an education agency as defined in Public Law 93-380, and state educational authorities as a means of auditing the operation of the system.

SEC. 4.5. Section 10936 of the Education Code is amended to read:

10936. Any school district may make a reasonable charge in an amount not to exceed the actual cost of furnishing copies of any pupil

record; provided, however, that no charge shall be made for furnishing (1) up to two transcripts of former pupils' records or (2) up to two verifications of various records of former pupils. No charge may be made to search for or to retrieve any pupil record.

SEC. 5. Section 10939 of the Education Code is amended to read:

10939. Whenever a pupil transfers from one school district to another or to a private school, or transfers from a private school to a school district within the state, the pupil's permanent record or a copy thereof shall be transferred by the former district or private school upon a request from the district or private school where the pupil intends to enroll. Any school district requesting such a transfer of a record shall notify the parent of his right to receive a copy of the record and a right to a hearing to challenge the content of the record. The State Board of Education is hereby authorized to adopt rules and regulations concerning the transfer of records.

SEC. 6. Section 10940 of the Education Code is amended to read:

10940. Parents of currently enrolled or former pupils have an absolute right to access to any and all pupil records related to their children which are maintained by school districts or private schools. The editing or withholding of any such records, except as provided for in this chapter, is prohibited.

Each school district shall adopt procedures for the granting of requests by parents to inspect and review records during regular school hours, provided that access shall be granted no later than five days following the date of the request. Procedures shall include the notification to the parent of the location of all official pupil records if not centrally located and the providing of qualified certificated personnel to interpret records where appropriate.

SEC. 7. Section 10941 of the Education Code is amended to read:

10941. Following an inspection and review of a pupil's records, the parent of a pupil or former pupil of a school district may challenge the content of any pupil record.

(a) The parent of a pupil may file a written request with the superintendent of the district to correct or remove any information recorded in the written records concerning his child which he alleges to be: (1) inaccurate, (2) an unsubstantiated personal conclusion or inference, (3) a conclusion or inference outside of the observer's area of competence, or (4) not based on the personal observation of a named person with the time and place of the observation noted.

(b) Within 30 days of receipt of such request, the superintendent or his designee shall meet with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district. The superintendent shall then sustain or deny the allegations.

If the superintendent sustains any or all of the allegations, he shall order the correction or the removal and destruction of the information.

If the superintendent denies any or all of the allegations and

refuses to order the correction or the removal of the information, the parent may, within 30 days of the refusal, appeal the decision in writing to the governing board of the school district.

(c) Within 30 days of receipt of such an appeal, the governing board shall, in closed session with the parent and the certificated employee who recorded the information in question, if any, and if such employee is presently employed by the school district, determine whether or not to sustain or deny the allegations.

If the governing board sustains any or all of the allegations, it shall order the superintendent to immediately correct or remove and destroy the information from the written records of the pupil.

The decision of the governing board shall be final.

Records of these administrative proceedings shall be maintained in a confidential manner and shall be destroyed one year after the decision of the governing board, unless the parent initiates legal proceedings relative to the disputed information within the prescribed period.

(d) If the final decision of the governing board is unfavorable to the parent, or if the parent accepts an unfavorable decision by the district superintendent, the parent shall have the right to submit a written statement of his objections to the information. This statement shall become a part of the pupil's school record until such time as the information objected to is corrected or removed.

SEC. 8. Section 10946 of the Education Code is amended to read:

10946. A school district may permit access to pupil records to any person for whom a parent of the pupil has executed written consent specifying the records to be released and identifying the party or class of parties to whom the records may be released. The recipient must be notified that the transmission of the information to others without the written consent of the parent is prohibited. The consent notice shall be permanently kept with the record file.

SEC. 9. Section 10947 of the Education Code is amended to read:

10947. A school district is not authorized to permit access to pupil records to any person without written parental consent or under judicial order except that:

(a) Access to those particular records relevant to the legitimate educational interests of the requester shall be permitted to the following:

administrative head of an education agency, state education officials, or their respective designees, or the United States Office for Civil Rights, where such information is necessary to audit or evaluate a state or federally supported education program or pursuant to a federal or state law, provided that except when collection of personally identifiable information is specifically authorized by federal law, any data collected by such officials shall be protected in a manner which will not permit the personal identification of students or their parents by other than those officials, and such personally identifiable data shall be destroyed when no longer needed for such audit, evaluation, and enforcement of federal legal requirements.

(4) Other state and local officials to the extent that information is specifically required to be reported pursuant to state law adopted prior to November 19, 1974.

(1) Appropriate persons in connection with an emergency if the knowledge of such information is necessary to protect the health or safety of a student or other persons.

(2) Agencies or organizations in connection with a student's application for, or receipt of, financial aid; provided, that information permitting the personal identification of students or their parents may be disclosed only as may be necessary for such purposes as to determine the eligibility of the pupil for financial aid, to determine the amount of the financial aid, to determine the conditions which will be imposed regarding the financial aid, or to enforce the terms or conditions of the financial aid.

(3) Accrediting organizations in order to carry out their accrediting functions.

(4) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

(5) Officials and employees of private schools or school systems where the pupil is enrolled or intends to enroll, subject to the rights of parents as provided in Section 10939. Such information shall be in addition to the pupil's permanent record transferred pursuant to Section 10939

No person, persons, agency, or organization permitted access to

pupil records pursuant to this section shall permit access to any information obtained from such records by any other person, persons, agency, or organization without the written consent of the pupil's parent; provided, however, that this paragraph shall not be construed as to require prior parental consent when information obtained pursuant to this section is shared with other persons within the educational institution, agency or organization obtaining access, so long as such persons have a legitimate interest in the information.

SEC. 9.5. Section 10948 of the Education Code is amended to read:

10948. Information concerning a student shall be furnished in compliance with a court order. The school district shall make a reasonable effort to notify the parent and the pupil in advance of such compliance if lawfully possible within the requirements of the judicial order.

Article 4. Rights of Students

22509.7. Any currently enrolled or former student has a right of access to all student records relating to him maintained by any public or private college or university, except those records which include information on more than one identifiable student, in which case only that information relating to the student requesting access shall be revealed.

Each college or university shall adopt procedures for the granting of requests by students to inspect and review records during regular school hours, provided that access shall be granted no later than 15 working days following the receipt of the request. Procedures shall include notification of the location of all official student records if not centrally located and the providing of qualified personnel to interpret records where appropriate.

22509.8. (a) A student may waive his right of access to any student records devoted solely to confidential recommendations for career placement or postsecondary admission; provided, that such recommendations are used solely for the purpose for which they were specifically intended, and provided, that the student shall be

notified, upon request, of the names of all persons making confidential recommendations. Such waivers may not be required as a condition for admission to, receipt of financial aid from, or receipt of any other services or benefits from a college or university.

(b) The fact that a waiver has or has not been executed pursuant to this section shall not be revealed to any person other than the person or persons responsible for maintenance of student records or the person or persons making the confidential recommendation.

(c) No student may be required to sign a form saying that he has not waived access to any confidential recommendation.

22509.10. Whenever there is included in any student record information concerning any disciplinary action taken by college or university personnel in connection with the student, the student shall be allowed to include in such record a written statement or response concerning the disciplinary action.

Article 5. Privacy of Student Records

22509.11. Colleges and universities shall adopt policies identifying those categories of directory information as defined in subdivision (c) of Section 22509.1 which may be released. The names and addresses of students may be provided to a private school or college operating under the provisions of Division 21 (commencing with Section 29001), provided, however, that no such private school or college shall use such information for other than purposes directly related to the academic or professional goals of the institution, and provided further that any violation of this provision is a misdemeanor, punishable by a fine of not to exceed two thousand five hundred dollars ($2,500), and, in addition, the privilege of the school or college to receive such information shall be suspended for a period of two years from the time of discovery of the misuse of such information.

Any college or university may, in its discretion, limit or deny the release of specific categories of directory information to any public

or private nonprofit organization based upon a determination of the best interests of students.

Directory information may be released according to local policy as to any student currently attending the college or university, provided that public notice is given at least annually of the categories of information which the college or university plans to release.

No directory information shall be released regarding any student when the student has notified the institution in writing that such information shall not be released.

22509.12. Nothing in this chapter shall preclude a college or university from providing, in its discretion, statistical data from which no student may be identified to any public agency or entity or private nonprofit college, university, or educational research and development organization when such actions would be in the best educational interests of students.

22509.13. A college or university may permit access to student records to any person for whom the student has executed written consent specifying the records to be released and identifying the party or class of parties to whom such records may be released. The recipient must be notified that the transmission of the information to others without the written consent of the student is prohibited. The consent notice shall be permanently kept with the record file.

22509.14. A college or university is not authorized to permit access to student records to any person without the written consent of the student or under judicial order except that access may be permitted to the following:

(a) Officials and employees of the college or university, provided that any such person has a legitimate educational interest to inspect a record.

(b) Authorized representatives of the Comptroller General of the United States, the Secretary of Health, Education, and Welfare, an administrative head of an education agency, state education officials, or their respective designees, or the United States Office for Civil Rights, where such information is necessary to audit or evaluate a state or federally supported education program or pursuant to a federal or state law, provided that except when collection of personally identifiable information is specifically authorized by federal law, any data collected by such officials shall be protected in a manner which will not permit the personal identification of students or their parents by other than those officials, and such personally identifiable data shall be destroyed when no longer needed for such audit, evaluation, and enforcement of federal legal requirements.

(c) Other state and local officials or authorities to the extent that information is specifically required to be reported pursuant to state law adopted prior to November 19, 1974.

(d) Officials of other public or private schools or school systems, including local, county, or state correctional facilities where educational programs are provided, where the student seeks or

intends to enroll, or is directed to enroll, subject to the rights of students as provided in Section 22509.6.

(e) Agencies or organizations in connection with a student's application for, or receipt of, financial aid; provided, that information permitting the personal identification of students may be disclosed only as may be necessary for such purposes as to determine the eligibility of the student for financial aid, to determine the amount of the financial aid, to determine the conditions which will be imposed regarding the financial aid, or to enforce the terms or conditions of the financial aid.

(f) Accrediting organizations in order to carry out their accrediting functions.

(g) Organizations conducting studies for, or on behalf of, educational agencies or institutions for the purpose of developing, validating, or administering predictive tests, administering student aid programs, and improving instruction, if such studies are conducted in such a manner as will not permit the personal identification of students or their parents by persons other than representatives of such organizations and such information will be destroyed when no longer needed for the purpose for which it is conducted.

The department, in accordance with federal law, shall establish standards for determining good cause for refusal to cooperate. Appearances at public agencies required pursuant to this section, subsequent to certification of the applicant shall be scheduled with due regard for his parental duties and employment responsibilities. If an appearance is required at a time other than normal working hours, a statement as to the reason for such appearance shall be inserted in the file of the applicant.

If the relative with whom a child is living is found to be ineligible because of failure to comply with the provisions of this section, any aid for which such child is eligible will, to the extent required by federal law, be provided in the form of protective payments.

The department shall insure that all applicants for or recipients of aid under this chapter are properly notified of the conditions imposed by this section.

The department succeeds to, and is vested with, all of the powers, duties, purposes, responsibilities, and jurisdiction in matters pertaining to forestry vested in the Department of Conservation or in the Director of Conservation, or in the abolished Division of Forestry of the Department of Conservation. The Division of Forestry is hereby abolished.

Whenever any reference is made to the Department of Conservation or to the Director of Conservation or to the abolished Division of Forestry pertaining to a power, duty, purpose, responsibility, or jurisdiction transferred to the Department of Forestry by this section, it shall be deemed to be a reference to, and to mean, the Department of Forestry or the Director of Forestry, as the case may be.

The State Controller shall draw his warrant for

payment of the refund from any appropriation made for that purpose.

708. For the purpose of disseminating information relating to its activities, powers, duties, or functions, the department, with the approval of the Department of General Services, may issue publications, construct and maintain exhibits, and perform such acts and carry on such functions as in the opinion of the director will best tend to disseminate such information.

Such publications may be distributed free of charge to public libraries and to other state departments and state officers. The department may exchange copies with contemporary publications.

All money received by the department from the sale of publications shall be paid into the State Treasury to the credit of the General Fund.

The appointments of members of the board shall be subject to confirmation by the Senate, and the refusal or failure of the Senate to confirm an appointment shall create a vacancy in the office to which the appointment was made; however, each member shall have, and be able to exercise, all the powers, duties, and responsibilities as are prescribed by this code prior to his confirmation. Such confirmation shall be made not earlier than 30 days and not later than 90 days after such appointment.

735. Each member of the board shall receive fifty dollars ($50) for each day during which he is engaged in the performance of his official duties; provided, that the compensation of each member, except the compensation of the chairman, shall not exceed in any one fiscal year the sum of four thousand dollars ($4,000). Further proceedings shall be in accordance as near as may be with rules governing civil actions. If after trial the court finds that the board member has knowingly violated this section it shall pronounce judgment that the member be removed from office.

738. The Governor shall designate the chairman of the board from among the members of the board. The person designated as the chairman shall hold such office at the pleasure of the Governor. The board shall annually elect a vice chairman from among its members.

General policies for guidance of the department shall be determined by the board.

741. The board shall annually determine state needs for forest management research and recommend the conduct of needed projects to the Governor and the Legislature.

742. The board shall provide for a statewide program of research in the technical phases of forest management which may be delegated to it by law and may accept funds from the United States or from any person to aid in carrying out the provisions of this section. 743. State agencies shall submit to the board plans for, and the results of, all investigations that relate to, or have an effect upon, forest resource utilization for review and comment. The board may, at its expense, contract with any state or local agency to investigate and report on any technical factors involved in forest management; provided, that the burden, including costs, of such reports shall bear a reasonable relationship to the needs for the reports and the benefits to be obtained from such reports.

744. The board may prepare and implement a forest management information storage and retrieval program regarding forest land conditions in the state to assist in the timely and reasoned formulation of programs and policies. Such program may be

coordinated and integrated to the maximum extent practicable with data storage and retrieval programs of other state agencies and institutions. The board may review existing forest management storage, retrieval, and analysis systems in the institutions of higher learning in this state and, insofar as the board deems desirable, may utilize such systems as a model for the state program established pursuant to this section.

745. The board shall implement a public information program on matters involving forest management and shall maintain an information file on forest management research and other pertinent matters.

Article 3. Professional Foresters

750. This article may be known and cited as the Professional Foresters Law.

751. The purpose of this article is to declare the existence of a public interest in the management and treatment of the forest resources and timberlands of this state and to provide for the regulation of persons who practice the profession of forestry and whose activities have an impact upon the ecology of the wildlands and the quality of the wildland environment, and through such regulation to enhance the control of air and water pollution, the preservation of scenic beauty, the protection of watersheds for flood and soil erosion control, and the production and increased yield of natural resources including timber, forage, wildlife, water and outdoor recreation, to meet the needs of the people.

752. "Professional forester," as used in this article, means a person who, by reason of his knowledge of the natural sciences, mathematics, and the principles of forestry, acquired by forestry education and experience, performs services including, but not limited to, consultation, investigation, evaluation, planning, or responsible supervision of forestry activities when such professional services require the application of forestry principles and techniques.

753. "Forestry," as used in this article, refers to that science which treats of wildland resources in general, and of lands bearing associations of trees and other woody plants in particular; investigation of wildland soils, plants, and animals, and the ecology thereof; and the application of scientific knowledge in the fields of wildlands protection, timber growing and utilization, forest resource inventories, watershed management, forest economics and finance, air and water pollution control on wildlands, outdoor recreation, and the preservation of natural scenery.

754. A "qualified" forester is any person who possesses all of the qualifications for registration as set forth in Section 752 but who is not registered.

755. "Person" as used in this article means any natural person.

756. Nothing contained in this article prohibits any person from

757. The provisions of this article do not apply to any landowner who is a natural person and who personally performs services of a professional forester, when such services are personally performed on lands owned by him.

758. This article shall not be construed to authorize a registered professional forester to practice civil engineering as defined in Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code or to practice land surveying as defined in Chapter 15 (commencing with Section 8700) of Division 3 of the Business and Professions Code.

763. The board shall establish an examining committee of at least five members composed either of persons selected from its own membership or of professional foresters in good standing appointed by the board and serving at its pleasure, or any combination of such persons. In addition, each such member shall be reimbursed for the actual and necessary expenses incurred in the performance of his duties, including travel expenses.

Any applicant for a license pursuant to this article who contends that he has been aggrieved by any action taken by the examining committee with respect to his qualifications may appeal to the board in accordance with rules or regulations prescribed by the board. The board on such appeal may administer an oral or written examination to the applicant as an aid in determining whether the applicant is qualified under the terms of this article.

4175. If a property owner requests a hearing, the director shall fix a time and a place for the hearing and notify the property owner. At the time and place of the hearing, the property owner may appear and be heard upon the question of whether or not a public nuisance actually exists upon property which he owns. The hearing shall be conducted in accordance with the provisions of Chapter 2 (commencing with Section 11180), Part 1, Division 3, Title 2 of the Government Code.

SEC. 51. Section 4176 of the Public Resources Code is amended to read:

4176. If the director determines, at the conclusion of the hearing, that a public nuisance actually exists upon property owned by the property owner, he shall order the property owner to abate the public nuisance within a specified time.

SEC. 52. Section 4177 of the Public Resources Code is amended to read:

4177. If the public nuisance is not abated within the time specified in the notice to the property owner pursuant to Section 4172 or, if a hearing is not requested by the property owner, within the time specified in the order made by the director pursuant to Section 4176, the department may abate the public nuisance.

SEC. 53. Section 4178 of the Public Resources Code is amended to read:

4178. Any costs which are incurred by the department in abating any public nuisance pursuant to this article are a lien upon the property upon which the public nuisance existed when notice of the lien is filed and recorded as provided in Section 4179.

SEC. 54. Section 4179 of the Public Resources Code is amended to read:

4179. Notice of the lien, particularly identifying the property on which the nuisance was abated and the amount of such lien, and naming the owner of record of such property, shall be recorded by the department in the office of the county recorder of the county in which the property is situated within one year after the first item of expenditures by the department or within 90 days after the

completion of the work, whichever first occurs. Upon such recordation of the notice of lien, the lien shall have the same force, effect, and priority as a judgment lien, except that it shall attach only to the property described in such notice, and shall continue for 10 years from the time of recording of such notice unless sooner released or otherwise discharged.

SEC. 55. Section 4185 of the Public Resources Code is amended to read:

4185. The State of California hereby accepts the provisions of the Clarke-McNary Act (Ch. 348, 43 Stat. 653), as amended, passed by the Congress of the United States, and entitled "An act to provide for the protection of forest lands, for the reforestation of denuded areas, for the extension of national forests, and for other purposes, in order to promote the continuous production of timber on lands chiefly suitable therefor," and will observe and comply with the requirements of that act of Congress.

The department is the agent of this state for the purposes of the Clarke-McNary Act. The department shall have full power to cooperate with all the authorities of the United States which have powers and duties under the act to do and perform all things necessary to secure to this state the benefits of the act.

4251. As used in this chapter:

"Hazardous fire area" means any area which is designated as a hazardous fire area by the board or the director pursuant to Section 4252 or 4253.

SEC. 57. Section 4253 of the Public Resources Code is amended to read:

4253. Whenever the director determines that a fire hazard exists in any other area due to the presence of flammable material or cover, he may by regulation designate such area to be a hazardous fire area. The regulation shall declare the period of time during which the area shall be so designated.

SEC. 58. Section 4291 of the Public Resources Code is amended to read:

4291. Any person that owns, leases, controls, operates, or maintains any building or structure in, upon, or adjoining any mountainous area or forest-covered lands, brush-covered lands, or grass-covered lands, or any land which is covered with flammable material, shall at all times do all of the following:

(a) Maintain around and adjacent to such building or structure a firebreak made by removing and clearing away, for a distance of not less than 30 feet on each side thereof or to the property line, whichever is nearer, all flammable vegetation or other combustible growth. This subdivision does not apply to single specimens of trees, ornamental shrubbery, or similar plants which are used as ground cover, if they do not form a means of rapidly transmitting fire from the native growth to any building or structure.

478 30 12475 201

(b) Maintain around and adjacent to any such building or structure additional fire protection or firebreak made by removing all brush, flammable vegetation, or combustible growth which is located from 30 feet to 100 feet from such building or structure or to the property line, whichever is nearer, as may be required by the director if he finds that, because of extra hazardous conditions, a firebreak of only 30 feet around such building or structure is not sufficient to provide reasonable fire safety. Grass and other vegetation located more than 30 feet from such building or structure and less than 18 inches in height above the ground may be maintained where necessary to stabilize the soil and prevent erosion.

(c) Remove that portion of any tree which extends within 10 feet of the outlet of any chimney or stovepipe.

(d) Maintain any tree adjacent to or overhanging any building free of dead or dying wood.

(e) Maintain the roof of any structure free of leaves, needles, or other dead vegetative growth.

(f) Provide and maintain at all times a screen over the outlet of every chimney or stovepipe that is attached to any fireplace, stove, or other device that burns any solid or liquid fuel. The screen shall be constructed of nonflammable material with openings of not more than one-half inch in size.

(g) The director may adopt regulations exempting structures with exteriors constructed entirely of nonflammable materials, or conditioned upon the contents and composition of same, he may vary the requirements respecting the removing or clearing away of flammable vegetation or other combustible growth with respect to the area surrounding said structures.

No such exemption or variance shall apply unless and until the occupant thereof, or if there be no occupant, then the owner thereof, files with the department, in such form as the director shall prescribe, a written consent to the inspection of the interior and contents of such structure to ascertain whether the provisions hereof and the regulations adopted hereunder are complied with at all times.

SEC. 59. Section 4292 of the Public Resources Code is amended to read:

4292. Except as otherwise provided in Section 4296, any person that owns, controls, operates, or maintains any electrical transmission or distribution line upon any mountainous land, or forest-covered land, brush-covered land, or grass-covered land shall, during such times and in such areas as are determined to be necessary by the director or the agency which has primary responsibility for fire protection of such areas, maintain around and adjacent to any pole or tower which supports a switch, fuse, transformer, lightning arrester, line junction, or dead end or corner pole, a firebreak which consists of a clearing of not less than 10 feet in each direction from the outer circumference of such pole or tower. This section does not, however, apply to any line which is used exclusively as telephone,

478 30 12 495 205

telegraph, telephone or telegraph messenger call, fire or alarm line, or other line which is classed as a communication circuit by the Public Utilities Commission. The director or the agency which has primary fire protection responsibility for the protection of such areas may permit exceptions from the requirements of this section which are based upon the specific circumstances involved.

SEC. 60. Section 4293 of the Public Resources Code is amended to read:

4293. Except as otherwise provided in Sections 4294 to 4296, inclusive, any person that owns, controls, operates, or maintains any electrical transmission or distribution line upon any mountainous land, or in forest-covered land, brush-covered land, or grass-covered land shall, during such times and in such areas as are determined to be necessary by the director or the agency which has primary responsibility for the fire protection of such areas, maintain a clearance of the respective distances which are specified in this section in all directions between all vegetation and all conductors which are carrying electric current:

(a) For any line which is operating at 2,400 or more volts, but less than 72,000 volts, four feet.

(b) For any line which is operating at 72,000 or more volts, but less than 110,000 volts, six feet.

(c) For any line which is operating at 110,000 or more volts, 10 feet.

In every case, such distance shall be sufficiently great to furnish the required clearance at any position of the wire, or conductor when the adjacent air temperature is 120 degrees Fahrenheit, or less. Dead trees, old decadent or rotten trees, trees weakened by decay or disease and trees or portions thereof that are leaning toward the line which may contact the line from the side or may fall on the line shall be felled, cut, or trimmed so as to remove such hazard. The director or the agency which has primary responsibility for the fire protection of such areas may permit exceptions from the requirements of this section which are based upon the specific circumstances involved.

SEC. 61. Section 4297 of the Public Resources Code is amended to read:

4297. Upon the showing of the director that the unrestricted use of any grass-covered land, grain-covered land, brush-covered land, or forest-covered land is, in the judgment of the director, a menace to life or property due to conditions tending to cause or allow the rapid spread of fires which may occur on such lands or because of the inaccessible character of such lands, the Governor through the director, may, by a proclamation, which declares such condition and designates the area to which, and the period during which the proclamation shall apply, require that such area be closed to hunting and fishing and to entry by any person except a person that is within one of the following classes:

(a) Owners and lessees of land in the area.

(b) Bona fide residents in the area.

478 30125 15 209

(b) "Rubbish dump" means any accumulation for the purpose of disposal of any rubbish, rags, paper, boxes, crates, excelsior, petroleum products or the residue thereof, fallen timber, slash, limb wood, branches, brush, grass, leaves, litter, or other combustible or flammable materials. It does not include slash from timber operations or the temporary piling of flammable materials which have accumulated from clearing while the construction or operation is in progress in conjunction with public works, utility, or other industrial projects where such accumulation is located wholly within the exterior limits of such projects.

SEC. 63. Section 4372 of the Public Resources Code is amended to read:

4372. A person shall not maintain, use, or operate any rubbish dump outside of the exterior boundaries of any city unless he has a permit to do so issued by the department and the rubbish dump is maintained, used, or operated in strict accordance with the terms and conditions prescribed in the permit.

SEC. 64. Section 4373 of the Public Resources Code is amended to read:

4373. The department may include in the terms of the permit provisions for the prevention of uncontrolled fire. These terms may include, but are not limited to, the requirements set forth in Section 4374. The responsibility for obtaining the permit for rubbish dumps is that of the owner or operator or jointly. The permit which is issued by the department pursuant to this chapter does not relieve the owner or operator from the duty of securing any other type of permit which is required by law or any rule or regulation.

SEC. 65. Section 4417 of the Public Resources Code is amended to read:

4417. A reward of five hundred dollars ($500) shall be paid out of any state funds which are made available to the department for fire protection to any person, other than a regularly paid fireman, peace

478 30125 50 216

officer, or agent or employee of the department, whose information leads to the arrest and conviction, or commitment to a public facility, of any person who willfully and maliciously sets fire to, or who attempts to willfully and maliciously set fire to, any property which is included within any state responsibility area as established under the provisions of Article 3 (commencing with Section 4125) of Chapter 1 of this part.

Any such reward may be paid on the initiative of the department or upon application by any person qualifying therefor.

SEC. 66. Section 4423 of the Public Resources Code is amended to read:

4423. A person shall not burn any brush, stumps, logs, fallen timber, fallows, slash, grass-covered land, brush-covered land, forest-covered land, or other flammable material, in any state responsibility area, area receiving fire protection by the department by contract, or upon federal lands administered by the United States Department of Agriculture or Department of the Interior, unless he has a written permit from the department or its duly authorized representative or the authorized federal officer on federal lands administered by the United States Departments of Agriculture or Interior and in strict accordance with the terms of the permit:

(a) At any time in Zone A.

(b) At any time in Zone B between April 1st and December 1st of any year, or at any other time in Zone B during any year when the director has declared, by proclamation, that unusual fire hazard conditions exist in the area.

SEC. 68. Section 4441 of the Public Resources Code is amended to read:

4441. Any accumulation of waste material in violation of the provisions of Sections 4437 to 4440, inclusive is a public nuisance. Every person, copartnership, firm, corporation, or company that permits or allows such public nuisance to exist upon property owned, occupied, or leased by him, or it, after reasonable notice in writing has been served upon him, or it, from the department or the district attorney to remove, discontinue, or abate such nuisance, is guilty of a misdemeanor. The existence of such nuisance for each and every day after the date specified in such notice for removal, discontinuance, or abatement is a separate and distinct offense.

(a) Absolve the state and its employees of liability for damages or costs which occur as a result of the burning of the brush, vegetation, or structure.

(b) Vest in the director the final determination of the time and necessity of the burning of the brush, vegetation, or structure.

(c) Provide that the decision by the director regarding the necessity of the burning of the brush, vegetation, or structure is to be based upon the benefits to be derived by such burning in preventing or suppressing forest fires and the risks and possible damage involved in conducting such burning.

(d) Require that only personnel of the department or personnel in its employ shall be used in conducting the burning of the brush, vegetation, or structure.

(e) Provide that prior to the burning the director will submit an estimate of costs to the person contracting with the state. The person contracting with the state shall, prior to the burning, place on deposit with the department an amount equal to the estimate of costs. Upon completion of the contract, the director will determine the actual costs incurred by the state in performance of the contract and should this amount be less than that on deposit, return the balance to the person. Should the amount of actual costs be more than that amount on deposit, the department shall submit an itemized statement showing the balance due and from which the person contracting with the state shall within 90 days make payment.

(f) Provide that the person contracting with the department shall purchase a third party liability policy of insurance in an amount determined by the director. A certificate of insurance covering this

(c) When the property is sold, enough of the proceeds to satisfy the lien and the costs of the foreclosure shall be paid to the state and the surplus, if any, shall be paid to the owner of the property.

SEC. 73. Section 4478 of the Public Resources Code is amended to read:

4478. Upon receipt of final payment of moneys due in performance of the contracts provided for in this article the department shall deposit such moneys in the General Fund.

4491. The cooperation by the state, as provided in this article, with persons desiring to use controlled burning as a means of converting brush-covered lands into forage lands, which has as its objective fire prevention and protection, watershed protection and conservation, or range and forage improvement, is declared to be for a public purpose.

This article shall be administered by the department.

In furtherance of the provisions of this article, the department shall provide advisory service to applicants for controlled burning permits as to precautions to be taken by the applicant to prevent damage to the property of others by reason of such burning, and shall provide standby fire protection, to such extent as personnel, fire crews, and firefighting equipment are available.

SEC. 76. Section 4493 of the Public Resources Code is amended to read:

4493. Upon receipt of an application the department shall inspect such land in company with the applicant to determine whether a permit shall be granted and shall suggest such precautions to be

The suggested precautions shall, if deemed necessary, include the advance preparation of firebreaks and the firefighting equipment and personnel desirable to conduct the controlled burning.

SEC. 77. Section 4494 of the Public Resources Code is amended to read:

4494. Upon the conclusion of the examination provided for in Section 4493 the department may issue to the applicant a brush-burning permit which shall specify the suggested precautions to be exercised prior to and during the burning. The issuance of a permit by the department does not relieve the holder of the permit from the duty of exercising due diligence to avoid damage to property of others in conducting the burning of brush as authorized by the permit.

4514.5. 4551.5. Rules and regulations shall apply to the conduct of timber operations and shall include, but shall not be limited to, measures for fire prevention and control, for soil erosion control, for water quality and watershed control, for flood control, for stocking, for protection against timber operations which unnecessarily destroy young timber growth or timber productivity of the soil, for prevention and control of damage by forest insects, pests, and disease, and for the preparation of timber harvesting plans. In developing these rules, the board shall solicit and consider recommendations from the department, recommendations from the Department of Fish and Game relating to the protection of fish and wildlife, recommendations from the State Water Resources Control Board and the California regional water quality control boards relating to water quality, and recommendations from the State Air Resources Board and local air pollution control districts relating to air pollution control.

The board shall adopt standards for each district, after a public hearing, which are equal to or stricter than the standards of this chapter and shall report such standards to the Legislature.

It is not the intent of the Legislature in designating minimum standards that such standards shall be deemed to be preferred as the standards to be adopted by the board. The board may, by a majority vote as provided in Section 736, adopt higher minimum standards of stocking if, in the opinion of the board, growing conditions, tree species, site quality, or other factors justify such stricter standards and if such action is consistent with the purposes of this article.

SEC. 83. Section 4561.3 of the Public Resources Code is amended to read:

4561.3. Notwithstanding the provisions of Section 4561, on any commercial timberlands which the department has determined do not meet the minimum acceptable stocking standards prior to any timber harvest activities which may take place on such lands

between the effective date of this chapter and the adoption of permanent stocking standards pursuant to Section 4561.5, an area shall be classified as acceptably stocked if, as a result of restocking which has taken place subsequent to such harvest, it contains at least five countable trees for each tree which has been harvested.

4582. The timber harvesting plan shall be filed with the department in writing by a person who owns, leases, or otherwise controls or operates on all or any portion of any timberland and who plans to harvest the timber thereon. The plan shall be a public record and shall include the following information:

(a) The name and address of the timber owner.

(b) The name and address of the timber operator.

(c) A description of the land on which the work is proposed to be done, including a United States Geological Survey quadrangle map or equivalent indicating the location of all streams, the location of all proposed and existing logging truck roads, and indicating boundaries of all site I classification timberlands to be stocked in accordance with the provisions of subdivision (b) of Section 4561 and any other site classifications if the board establishes specific minimum stocking standards for other site classifications.

(d) A description of the silvicultural methods to be applied, including the type of logging equipment to be used.

(e) An outline of the methods to be used to avoid excessive accelerated erosion from timber operations to be conducted within the proximity of a stream.

SEC. 89. Section 4582.7 of the Public Resources Code is amended to read:

4582.7. The director shall have 15 days from the date the initial inspection is completed or, in the event the director determines that such inspection need not be made, 15 days from the date of filing, as specified in Section 4604, or such longer period as may be mutually agreed upon by the director and the person submitting the timber harvesting plan, to review the plan to determine if it is in conformance with the rules and regulations of the board and with the provisions of this chapter. If the director determines that such plan is not in conformance with the rules and regulations of the board or with provisions of this chapter, he shall return the plan, stating his reasons and advising the person submitting the plan of his right to a hearing before the board, and timber operations shall not commence. A person to whom a plan is returned may, within 10 days from the receipt of such plan, request of the board a public hearing before the board. The board shall schedule a public hearing to review the plan to determine if it is in conformance with the rules and regulations of the board and the provisions of this chapter. Timber operations shall await board approval of the plan. Board action shall occur within 30 days from the filing of the appeal, or such longer period as may be mutually agreed upon by the board and the person filing the appeal. If the director does not act within 15 days, or such longer period as may be mutually agreed upon by the director and the person submitting the timber harvesting plan, timber operations may commence pursuant to such plan, and all provisions of the plan shall be followed as provided in this chapter.

4583.5. If the board finds that the registered professional forester has made any material misstatement in the filing of any timber harvesting plan or report under this chapter, it shall take disciplinary action against him as provided under Section 775.

SEC. 91. Section 4585 of the Public Resources Code is amended to read:

4585. Within one month after completion of the work described in the timber harvesting plan, excluding work for stocking, a report shall be filed by the timber owner or his agent with the department that all work except stocking has been completed.

SEC. 92. Section 4586 of the Public Resources Code is amended to read:

4586. Within six months of the receipt of the work completion report specified in Section 4585, the director shall determine, by inspection, whether the work described in the timber harvesting plan, excluding stocking, has been properly completed in conformity with the rules and regulations of the board and standards of this chapter. If it has been so completed, the director shall issue a report of satisfactory completion of all items except stocking. If not, the department shall take such corrective action as he deems appropriate in accordance with the provisions of Article 8 (commencing with Section 4601) of this chapter.

SEC. 93. Section 4587 of the Public Resources Code is amended to read:

4587. Within five years after completion of timber operations on an area covered by a timber harvesting plan, a report of stocking shall be filed by the timber owner or his agent with the department. In measuring such stocking, a standardized sampling procedure approved by the board shall be employed, which shall be designed to measure the number of trees and their dispersion, subject to defined probabilities of error.

SEC. 94. Section 4588 of the Public Resources Code is amended to read:

4588. Within six months of the receipt of the stocking report, the director shall determine, by inspection, whether the stocking has been properly completed. SEC. 95. Section 4591 of the Public Resources Code is amended to read:

4591. Amendments to the original timber harvesting plan may be submitted detailing proposed changes from the original plan. Substantial deviations from the original plan shall not be undertaken until such amendment has been filed with, and acted upon, by the department in accordance with the provisions of Sections 4582.7 and 4583. An amendment may not extend the effective period of the plan.

SEC. 96. Section 4591.1 of the Public Resources Code is amended to read:

4591.1. The board shall specify by regulation those deviations which may be undertaken by an operator without submission of an amended plan but which must subsequently be reported to the department, and provide for the manner of so reporting.

SEC 97. Section 4592 of the Public Resources Code is amended to read:

4592. Notwithstanding any other provisions of this chapter, a registered professional forester may in an emergency, on behalf of a timber owner or operator, file an "emergency notice" with the department that shall allow immediate commencement of timber operations. Such emergency notice shall include a declaration, under

penalty of perjury, that a bona fide emergency exists which requires immediate harvest activities. Such emergencies shall be defined by the board and may include, but need not be limited to, the necessity to harvest in order to remove fire-killed or damaged timber, or insect or disease-infested timber, or to undertake emergency repairs to roads.

SEC. 98. Section 4604 of the Public Resources Code is amended to read:

4604. The department shall provide for an initial inspection of the area in which timber operations are to be conducted within 10 days from the date of filing of the timber harvesting plan, or such longer period as may be mutually agreed upon by the department and the person submitting the plan, except that such inspection need not be made if the department determines that it would not add substantive information he deems necessary to enforce the provisions of this chapter. In any event, the department shall provide for inspections as follows:

(a) During the period of commencement of timber operations.

(b) When timber operations are well underway.

(c) Following completion of timber operations.

(d) At such other times as he deems necessary to enforce the provisions of this chapter.

SEC. 99. Section 4605 of the Public Resources Code is amended to read:

4605. The department may bring an action to enjoin the violation, or threatened violation, of any provision of this chapter or the rules and regulations of the board. Any such proceedings shall be in accordance with the provisions of Chapter 3 (commencing with Section 525) of Title 7 of Part 2 of the Code of Civil Procedure. If in such a proceeding it shall appear from facts shown by affidavit or verified complaint that any such violation has occurred or is threatened, the court may issue a temporary restraining order restraining and ordering the immediate discontinuance of any timber operation in which such violation has occurred or is threatened pending a hearing on the matter.

The court may, upon a finding that immediate and irreparable harm is threatened to soil resources or the water of the state by virtue of erosion, pollution, or contamination, order the defendant to take appropriate emergency corrective action, authorize the department to order the defendant to take such action, or authorize the department to take emergency action to correct a violation of this chapter. Any expenses incurred by the department in taking action in conformity with such order shall be a lien upon the property upon which such action was taken when notice of the lien is recorded. Such lien shall be subject to the provisions of Section 4608.

SEC. 100. Section 4606 of the Public Resources Code is amended to read:

4606. If upon a hearing to show cause why a preliminary injunction should not be issued, or upon a hearing of any motion for

a preliminary injunction, or if the court should find in any such action that any such defendant is violating, threatens to violate, or has violated, any provision of this chapter or rules and regulations of the board, the court may not only order the discontinuance of any timber operations in which such violation has occurred, is threatening to occur, or is occurring, but may also enjoin any further timber operations by the defendant in this state until the violations complained of have been corrected or until satisfactory provisions have been approved by the court for the violations to be corrected at a specified date. Any defendant in such proceedings may enter into a written agreement with the department assuring that such defendant will resume operations in compliance with the provisions of this chapter or the rules and regulations of the board and correct the violations on such reasonable terms and conditions as the department may require. Upon approval by the court, any temporary restraining order, preliminary injunction, or permanent injunction may include or be amended to include an order that any defendant entering into such an agreement comply with the terms of such agreement as a condition for engaging in any timber operations enjoined by such temporary restraining order, preliminary injunction, or permanent injunction. The court may require a cash deposit or bond payable to the department in such amount as the court deems proper to insure correction of any such violation in accordance with such agreement or any other provisions required by the court. The court may make any other orders reasonable and necessary to carry out the intent of this article.

SEC. 101. Section 4607 of the Public Resources Code is amended to read:

4607. The department may take such appropriate steps as are necessary and incur expenses to correct any violation.

SEC. 102. Section 4608 of the Public Resources Code is amended to read:

4608. Prior to taking any corrective action, other than under Section 4605, the department shall serve a written notice upon the person responsible for the violation. The notice shall include a statement of the corrective action to be taken, a date not less than 30 days from the date of service of the notice by which such corrective action is to be taken, and a statement that if such corrective action is not taken on or before the date specified the department may take corrective action and charge such person for the costs thereof pursuant to Section 4610. The notice shall also include a statement that if such person disagrees for any reason with the proposed corrective action or with the charging of such person with the costs thereof, he may, within 10 days from the service of the notice, request of the board a public hearing before the board.

The department may record such notice in each county wherein the land in violation is situated, together with a statement that any and all expenses incurred by the department in taking corrective action pursuant to the provisions of this article shall be a lien against

the land. Upon satisfactory proof that corrective action has been completed, the department shall record a notice to that effect.

Any expenses incurred by the department in taking such corrective action shall be a lien upon the real property upon which such action was taken when notice of the lien is recorded. Notice of the lien, particularly identifying the real property upon which such action was taken and the amount of such lien and naming the owner of such property, shall be recorded by the department, in the office of the county recorder of each county in which such property is situated within one year after the first item of expenditures by the department or within 90 days after the completion of such action, whichever first occurs. Upon such recordation, the lien shall have the same force, effect, and priority as a judgment lien, except that it shall attach only to the real property described in such notice and shall continue for 10 years from the time of the recording of such notice, unless sooner released or otherwise discharged. The lien may, within 10 years of the time of such recording, or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by recording a new notice in the office of the county recorder where the original notice is recorded, and from the time of such recordation the lien shall be extended as to such real property for 10 years, unless sooner released or otherwise discharged. The department may at any time release all or any portion of the real property subject to such lien from the lien or subordinate it to other liens and encumbrances, if it determines that the amount owed is sufficiently secured by a lien on other property or that the release or subordination of such lien will not jeopardize the collection of such amount owed. A certificate by the department to the effect that any real property has been released from such lien or that such lien has been subordinated to other liens and encumbrances shall be conclusive evidence that the real property has been released or that the lien has been subordinated as provided in such certificate.

SEC. 103. Section 4609 of the Public Resources Code is amended to read:

4609. If the corrective action is not taken on or before the date specified in the notice served pursuant to Section 4608, the department may take, or contract for the taking of, such corrective action and recover the expenses of the corrective action as provided in Section 4610. Where the person responsible makes a request for public hearing, the board, after at least 15 days written notice, shall hold a public hearing to hear the objections to the proposed action. The board may, but need not, conduct the hearing in accordance with the applicable provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code. At the conclusion of the hearing, the board may make an order specifying the action to be taken by the person responsible to correct the violation, setting the time limits for such action, and authorizing the taking of such action by the department if the person responsible does not do so within the specified time.

SEC. 104. Section 4610 of the Public Resources Code is amended to read:

4610. The expenses incurred by the department in taking any corrective action pursuant to this article shall be increased by two hundred fifty dollars ($250) or 10 percent, whichever sum is higher, as administrative costs and shall constitute a debt of the person responsible, and, if not paid within 10 days after written demand therefor, may be recovered by the department in a civil action.

SEC. 105. Section 4611 of the Public Resources Code is amended to read:

4611. Neither the board, the department, nor any person authorized by the board or the department to enter upon any lands for the purpose of taking any corrective action pursuant to this article is liable to civil action for trespass for any acts which are necessary to carry out the provisions of this article.

5824. Jurisdiction and control of the center, consisting of 720 acres, more or less, and all the improvements thereon as described in subdivision (b) of Section 5823 is hereby transferred to the department from the Department of Conservation, and shall be administered as a unit of the state park system; except that access shall be provided through the center to the area, as described in subdivision (c) of Section 5823, for purposes of cutting timber under the authority of the State Forester exercised pursuant to Article 3 (commencing with Section 4645) of Chapter 9 of Part 2 of Division 4, in a manner acceptable to the State Forester.

It is the intent of the Legislature that title in the aforementioned lands and facilities shall continue to vest in the State of California; and if for any reason their use for the purposes of this chapter be deemed by the department no longer to be in the public interest, then they shall be restored through future legislation to the jurisdiction and control of the Department of Conservation.

5825. The department shall prepare a plan for the protection and management of the center and shall submit the plan to the Legislature, for its consideration, no later than January 15, 1977. The plan shall include, but need not be limited to, the following considerations.

(a) Means of ensuring the health, safety and comfort of center users while, at the same time, ensuring that the natural and rustic aspects of the center and its facilities are preserved.

(b) The need for providing additional, all-weather lodging, dining and instructional facilities suitable for use by schoolchildren.

(c) The protection and utilization of those resources of the center useful for outdoor study.

(d) The suitability of the center for public uses, other than outdoor education, appropriate to the state park system.

(e) The suitability of the continued use of the center by cultural, social, and youth organizations similar to those which have used the center prior to the effective date of this chapter.

(f) The relationship of the center to the Jackson State Forest, Jughandle Creek, Pygmy Forest Park project, Big River project, Mendocino Headlands Park project, and other adjacent or nearby recreational, scientific, or scenic resources, so as to assure optimum public access, use, and enjoyment of such sites and resources.

(g) The advisability of transferring or acquiring additional lands so as to ensure the administrative efficiency of the center.

(h) The organizational and funding requirements of programs proposed to be undertaken at the center in accordance with this chapter.

(i) Estimated utilization rates and the nature and level of fees necessary to make the center program essentially self-sustaining.

5826. The department shall consult with the Department of Education, and may cooperate with individuals and agencies having jurisdiction or expertise in matters pertaining to the outdoor education programs contemplated in this chapter.

5827. The department may enter into operating agreements with any qualified, nonprofit entity for the provision of any program or service contemplated in this chapter. Prior to entering into any such agreement, the department shall submit a copy of the proposed agreement to the Legislative Analyst for his review and recommendations, which shall not, however, be binding. Failure of the Legislative Analyst to respond within 30 days after submission of a proposed agreement shall be deemed to constitute approval by the Legislative Analyst of the proposed agreement.

5828. The department is encouraged to establish an advisory committee of persons interested and knowledgeable in the operation and nature of the center, and in the formulation and conduct of outdoor environmental education programs, to assist it in formulating the plan and actions contemplated in this chapter.

5829. Prior to authorizing the sale and cutting of timber from the area described in subdivision (c) of Section 5823, the State Forester shall solicit and consider the recommendations of the Department of Parks and Recreation with respect to the prevention of unnecessary or unreasonable interruption or loss of facilities or resources essential to center operations.

SEC. 2. There is hereby appropriated from the Park and Recreation Revolving Account in the General Fund to the Department of Parks and Recreation the sum of two hundred thousand dollars ($200,000), for expenditure, for the purposes of this act, during the 1976–77, 1977–78, and 1978–79 fiscal years, in accordance with the following schedule:

Schedule:

An act to amend Section 12987 of, and to add Chapter 3 (commencing with Section 12225) to Part 4.5 of Division 6 of, the Water Code, relating to Sacramento-San Joaquin Delta levees, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1976 Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 12225) is added to Part 4.5 of Division 6 of the Water Code, to read:

CHAPTER 3. SACRAMENTO-SAN JOAQUIN DELTA LEVEES

Article 1. Plan for Improvement

12225. The plan for improvement of the Sacramento-San Joaquin Delta levees, as set forth in Bulletin No. 192 of the Department of Water Resources, dated May 1975, is approved as a conceptual plan to guide the formulation of projects to preserve the integrity of the delta levee system.

Article 2. Construction

12226. The department may prepare detailed plans and specifications for the improvement of the levees or levee segments specified in Section 12225.

12226.1. The department shall report on its recommendations to the Legislature concerning the improvement of the levees specified in Section 12225, including, but not limited to, recommendations concerning construction, cost sharing, land use, zoning, flood control, recreation, fish and wildlife habitat, and aesthetic values. The department shall submit interim reports to the Legislature concerning the status of the delta levees program on or before January 15 of each year beginning in 1978, with the final report on its recommendations to be made on or before January 15, 1980.

12226.2. The department may proceed immediately with the improvement of a pilot levee project which the department determines, after a public hearing, is in critical need of improvement and which is highly susceptible to failure in the absence of such immediate improvement. Prior to commencing such improvement, the department shall enter into an agreement with a local agency whereby the local agency will bear at least 20 percent of the cost of the improvement.

Article 3. Short Title

12227. This chapter shall be known and may be cited as the "Nejedly-Mobley Delta Levees Act".

SEC. 2. Section 12987 of the Water Code is amended to read:

12987. Local agencies maintaining nonproject levees shall be eligible for reimbursement pursuant to the provisions of this part upon submission to and approval by the board of plans for the maintenance and improvement of such nonproject levees, including plans for the annual routine maintenance of such levees, in accordance with the criteria adopted by the board. Such plans shall also be compatible with the plan for improvement of the delta levees as set forth in Bulletin No. 192 of the department, dated May, 1975,

and as approved in Section 12225, and shall include such provision for protection of the wildlife habitat as the board deems proper. Such plans shall also take into account the most recently updated Delta Master Recreation Plan prepared by the Resources Agency. Upon approval of such plans by the board, the local agencies shall enter into an agreement with the board to perform the maintenance and improvement work, including the annual routine maintenance work, specified in such plans. In the event that applications for state funding in any year exceed the state funds available, the board shall apportion the funds among those levees or levee segments that are identified by the department as most critical and beneficial, considering the needs of flood control, water quality, recreation, and wildlife.

SEC. 3. The sum of three hundred fifty thousand dollars ($350,000) is hereby appropriated from the General Fund in accordance with the following schedule:

Schedule:

(a) To the Department of Water Resources for expenditure without regard to fiscal years for the purposes of Chapter 3 (commencing with Section 12225) of Part 4.5 of Division 6 of the Water Code $150,000

(b) To the Department of Water Resources for expenditure during the 1976–1977 fiscal year for the purposes of Part 9, (commencing with Section 12980) of Division 6 of the Water Code $200,000

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to make available for expenditure during the 1976–77 fiscal year the funds appropriated by this act for the maintenance and improvement of levees in the Sacramento-San Joaquin Delta and to provide vitally needed flood protection at the earliest possible time, it is necessary that this act take effect immediately.

CHAPTER 1303

An act to amend Section 846 of the Civil Code, and to add Section 623 to the Penal Code, relating to caves.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 846 of the Civil Code is amended to read:

846. An owner of any estate in real property owes no duty of care to keep the premises safe for entry or use by others for fishing, hunting, camping, water sports, hiking, spelunking, riding, including animal and all types of vehicular riding, rock collecting, or sightseeing or to give any warning of hazardous conditions, uses of, structures, or activities on such premises to persons entering for such purposes, except as provided in this section.

An owner of any estate in real property who gives permission to another for entry or use for the above purposes upon the premises does not thereby (a) extend any assurance that the premises are safe for such purposes, or (b) constitute the person to whom permission has been granted the legal status of an invitee or licensee to whom a duty of care is owed, or (c) assume responsibility for or incur liability for any injury to person or property caused by any act of such person to whom permission has been granted except as provided in this section.

This section does not limit the liability which otherwise exists (a) for willful or malicious failure to guard or warn against a dangerous condition, use, structure or activity; or (b) for injury suffered in any case where permission to enter for the above purposes was granted for a consideration other than the consideration, if any, paid to said landowner by the state; or (c) to any persons who are expressly invited rather than merely permitted to come upon the premises by the landowner.

Nothing in this section creates a duty of care or ground of liability for injury to person or property.

SEC. 2. Section 623 is added to the Penal Code, to read:

623. (a) Except as otherwise provided in Section 599c, any person who, without the prior written permission of the owner of a cave, intentionally and knowingly does any of the following acts is guilty of a misdemeanor punishable by imprisonment in the county jail not exceeding one year, or by a fine not exceeding five hundred dollars ($500), or by both such fine and imprisonment:

(1) Breaks, breaks off, cracks, carves upon, paints, writes or otherwise marks upon or in any manner destroys, mutilates, injures, defaces, mars, or harms any natural material found in any cave.

(2) Disturbs or alters any evidence of archaeological prior occupation in any cave.

(3) Kills, harms, or removes any animal or plant life found in any cave.

(4) Burns any material which produces any smoke or gas which is harmful to any plant or animal found in any cave.

(5) Removes any material found in any cave.

(6) Breaks, forces, tampers with, removes or otherwise disturbs any lock, gate, door, or any other structure or obstruction designed to prevent entrance to any cave, whether or not entrance is gained.

(b) For purposes of this section:

(1) "Cave" means any natural geologically formed void or cavity

beneath the surface of the earth, not including any mine, tunnel, aqueduct, or other manmade excavation, which is large enough to permit a person to enter.

(2) "Owner" means the person or private or public agency which has the right of possession to the cave.

(3) "Natural material" means any stalactite, stalagmite, helictite, anthodite, gypsum flower or needle, flowstone, drapery, column, tufa dam, clay or mud formation or concretion, crystalline mineral formation, and any wall, ceiling, or mineral protuberance therefrom, whether attached or broken, found in any cave.

(4) "Material" means all or any part of any archaeological, paleontological, biological, or historical item including, but not limited to, any petroglyph, pictograph, basketry, human remains, tool, beads, pottery, projectile point, remains of historical mining activity or any other occupation found in any cave.

(c) The entering or remaining in a cave by itself shall not constitute a violation of this section.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

In the event of such an extension, the board shall publish substantial reasons for the need for the extension in its calendar prior to the conclusion of the six-month period. The provision relating to the six-month period for a decision may be waived by the employee but if not so waived, a failure to render a timely decision shall be deemed an exhaustion of all available administrative remedies.

An act to amend Sections 13832, 13838, 13846.8, 14023, 14031, 14056, 14070, 14084.1, 14116.5, 14116.10, 14280, and 14284 of, to add Sections 13846.5, 13946, 13969, and 14283 to, and to repeal Sections 13846.5, 14283, and 14371 of, the Education Code, relating to the State Teachers' Retirement System and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 13832 of the Education Code, as amended by Chapter 809 of the Statutes of 1975, is amended to read:

SEC. 2. Section 13838 of the Education Code is amended to read:

13838. "Final compensation" means the highest average annual compensation earnable by a member during any period of three consecutive years during his membership in the system or time during which he was not a member but for which he has received credit under the system, except such time as was so credited pursuant to the provisions of Section 13999. The last three consecutive years of employment shall be used by the system in determining final compensation unless designated to the contrary in writing by the member.

For the purposes of this section, periods of service separated by breaks in service may be aggregated to constitute a period of three consecutive years, if the periods of service are consecutive except for such breaks.

Time during which a member is in state service or in the employment of a local school district or of a county superintendent and is also a member of another retirement system to which the state, a county, or the university contributes shall not be considered to be an absence for the purposes of this section, and the determination of the final compensation of such a member shall take into consideration his compensation earnable while he was a member of such other system, providing retirement under this system is concurrent with the member's retirement under the other system.

The board may specify a different final compensation with respect to benefits based on part-time service performed prior to July 1, 1956, for which credit was given under this system under board rules in effect prior to such date.

SEC. 4. Section 13846.5 is added to the Education Code, to read:

When computing a family allowance under paragraphs (1) and (2) of subdivision (e) of Section 14186, when death occurs while the member was on disability, projected salary will be computed from July 1st of the year of disability to the June 30th prior to death.

SEC. 5. Section 13846.8 of the Education Code is amended to read:

13846.8. "Projected service" means "credited service" plus the service which would have been earned to age 60 had the member continued to earn credited service at the same rate as for the highest of any one of the three school years immediately preceding death or the effective date of disability.

requiring membership in this system is excluded from membership in this system if he elects, by a writing filed in the office of the Board of Administration of the Public Employees' Retirement System, within 90 days after such entry, to continue as a member of the Public Employees' Retirement System in his new position. This section shall also apply to changes in employment effected on or after January 1, 1976, if an election is made on or before April 1, 1977.

SEC. 6. Section 14023 of the Education Code is amended to read:

14023. Any person to whom service performed outside of the state after January 1, 1914, is credited and any person who has claimed exemption from the provisions of the system or its predecessor or who is excluded from the system because of being a member of another retirement system while serving in a position requiring membership in this system or its predecessor, and who later becomes subject to its provisions may pay, in addition to the sum due under Section 14022 as it read on December 31, 1974, for each year of credited service performed prior to July 1, 1944, either outside the state or while exempt or while a member of any other system, regular interest on the amount which would have been contributed had he been a member of the system when the service was performed. The board may assess penalties, based on one-half of the sum of the employer and employee contributions required by the report, for late or unacceptable submission of reports at a rate of interest approximating the average rate yielded on moneys invested by the board during the previous year, but not to exceed 5 percent per annum. The penalties so assessed are deemed interest earned in the year in which received.

SEC. 8.5. Section 14070 of the Education Code is amended to read:

14070. Upon the termination of a member's employment by any cause other than death or retirement there shall be paid to him, or if no other benefits are payable under this chapter upon the death of a member, there shall be paid to the beneficiary nominated by the deceased member:

(a) The accumulated retirement contributions made after June 30, 1935.

(b) The accumulated annuity deposit contributions.

(c) The accumulated tax-sheltered annuity contributions unless the withdrawal is made within five years of initial deposit of tax-sheltered contributions, in which case the refunded amount shall be without interest.

SEC. 10. Section 14084.1 of the Education Code is amended to read:

14084.1. Sections 14085 through 14088 apply to the transfer of assets as of June 30, 1972, as they relate to the Los Angeles Unified School District Retirement System.

14116.5. All persons on the San Francisco system retired rolls on June 30, 1972, shall remain on the local rolls. The State Teachers' Retirement System will continue the subvention in Section 14121 for those persons, will apply the percentage update and annual improvement factor to payments being made by the State Teachers' Retirement System directly to the retirant, and will pay the two-thousand-dollar ($2,000) retired death benefit upon their death. The retired death benefit will be reduced by the retired lump-sum death benefit payable by the San Francisco system.

The allowance that would have been payable had the member retired solely under the State Teachers' Retirement System, including the percentage update calculated under Sections 14332, 14333 and 14334 as those sections read on December 31, 1974, shall be taken into account in computing the amount of increase for the ten-dollar ($10) a month per year of service minimum benefit.

SEC. 12. Section 14116.10 of the Education Code is amended to read:

14116.10. Notwithstanding the provisions in Section 14211, a member of the San Francisco local system may retire concurrently and receive credit for service performed in other states of the United States, its territories and possessions and the Dominion of Canada provided that person is eligible under Sections 13998 and 13999.

SEC. 14. Section 14280 of the Education Code is amended to read:

14280. Any member prior to mailing of his first retirement allowance check and those retirants receiving an estimated allowance under Section 14374 may elect an option which is an actuarially reduced retirement allowance payable throughout the life of the member and his designated beneficiary as follows:

(a) Option 2. Upon the retirant's death, the reduced retirement allowance equal to the reduced amount the retirant was receiving shall be paid to such person as the retirant has nominated by written designation duly executed and filed with the system at the time of his retirement; or

(b) Option 3. Upon the retirant's death, one-half of the reduced

retirement allowance the retirant was receiving shall be paid to such person as the retirant has nominated by written designation duly executed and filed with the system at the time of his retirement.

A member may revoke or change his election of an option at any time prior to the mailing of his first retirement allowance check. Those retirants receiving an estimated allowance under Section 14374 shall not change the election after it has been received in the system's office in Sacramento.

After the election has been signed, then the election of the option shall be in full force and effect. If the election form is not received in the office of the system within 90 days after mailing by the system to the member the election form is void and cannot thereafter be used. The system shall then compute the allowance on the basis that no option had been elected.

SEC. 15. Section 14283 of the Education Code is repealed.

SEC. 16. Section 14283 is added to the Education Code, to read:

14283. If death occurs after the effective date of retirement stated by the member in his application for retirement, and an acceptable application is on file with the system, and an unmodified allowance was not elected, and the member has not filed an election of an option, the member shall be retired as of the effective date shown on the retirement application or such later date as specified under Section 14210 and shall be considered to have formally elected Option 2 naming the beneficiary shown on said application to receive benefits from this system.

SEC. 17. Section 14284 of the Education Code is amended to read:

14284. Any member who has qualified to make application for a retirement allowance under Section 14211 may elect, as provided in Section 14280, and without right of revocation or change after the effective date of his retirement to receive an actuarially reduced retirement allowance as of the date of his retirement, of the retirement allowance payable to him when and if he retires for service in a reduced retirement allowance according to the provisions of either option 2 or option 3 as stated in Section 14280. If the death of such member occurs after the date upon which the election has been signed, then the election shall be in full force and effect. The election shall be void if not received in the system's office in Sacramento within 30 days after the date of signature.

Upon such member's death, prior to the effective date of his retirement, the beneficiary who was nominated under the option elected and who survives shall receive an allowance calculated under such option, upon the assumption that such member retired on the date of death. The payment of such allowance to the beneficiary shall be in lieu of the family allowance provided in Section 14186 and the payment provided in subdivision (a) of Section 14070 and paragraph (1) of subdivision (b) of Section 14180, except that if the beneficiary dies before all accumulated contributions are paid the balance if any shall be paid to the estate of the person last receiving or entitled to

receive the allowance. The accumulated annuity deposit contributions and accumulated tax-sheltered annuity contributions, and the amount provided in paragraph (4) of subdivision (b) of Section 14180, shall be paid the designated beneficiary in a lump sum.

If the member subsequently retires, regardless of whether the beneficiary nominated under the option elected is then living, a reduced retirement allowance computed under Section 14280 and the option elected shall be paid.

The amount of the retirement allowance prior to applying the option factor shall be calculated at the member's age at death before retirement, or age on the last day of the month in which the member requested retirement be effective, as the case may be. The reduction of such retirement allowance under the option elected shall be based on the ages of such member and the beneficiary nominated under such option, at the date the election was signed.

SEC. 15. Chapter 3 (commencing with Section 66796) is added to Title 7.3 of the Government Code, to read:

CHAPTER 3. ENFORCEMENT PROGRAM

Article 1. Establishment of Enforcement Agency: Powers and Duties of Enforcement Agency

66795. This chapter of Title 7.3 shall be known and cited as the Z'berg-Kapiloff Solid Waste Control Act of 1976.

66796. On or before July 1, 1977, there shall be designated within each county an enforcement agency to carry out the provisions of this chapter. If an agency is not designated by July 1, 1977, the board, in addition to its other powers, shall be the enforcement agency within the county failing to make the designation.

(a) The designation of the enforcement agency shall be made by

any of the following procedures:

(1) The board of supervisors of the county may designate the enforcement agency subject to the approval by a majority of the cities within the county which contain a majority of the population of the incorporated area of the county; or

(2) The county and the cities within the county may form a joint exercise of powers agreement pursuant to Section 6500 of the Government Code for the purpose of establishing an enforcement agency.

(3) The county and each city within the county may designate an enforcement agency to carry out the provisions of this chapter. In the case of a city and county, the city and county shall designate the enforcement agency.

(b) If no enforcement agency is designated and the board becomes the enforcement agency, nothing in this chapter shall prevent a designation of an enforcement agency under subdivision (a) of this section at a later date.

(c) A designation made pursuant to this section may be withdrawn in the same manner in which it was made.

(d) No local governmental department or agency which is the operating unit for a solid waste handling or disposal operation shall be the enforcement agency for the type of solid waste handling or disposal operation it conducts. A conditional waiver to this requirement may be granted by the board upon submission of details by the local entity requesting such waiver. The board may review annually effects or impacts of the waiver.

66796.10. The enforcement agency, within its jurisdiction, shall:

(a) Enforce all provisions of this chapter and the regulations adopted thereunder, and under Section 66770 pertaining to the minimum standards for solid waste handling and disposal for the protection of air, water, and land from pollution and nuisance, and for the protection of the public health.

(b) Coordinate action in solid waste handling and disposal with other federal, state and local agencies and private persons.

(c) Request enforcement by appropriate federal, state, and local agencies of their respective laws governing solid waste storage, handling, and disposal.

(d) File with the board, upon its request, information the board deems necessary.

(e) Develop, implement, and maintain inspection, enforcement, and training programs.

(f) Adopt an enforcement program consisting of regulations necessary to implement the provisions of this chapter and the standards adopted pursuant thereto, and to establish specific local standards for solid waste handling and disposal subject to approval by a majority vote of its local governing body; provided, however, that any such regulation shall be consistent with the provisions of this title and all regulations adopted by the board. The enforcement program shall also include a description of the locally adopted procedures for

carrying out the permit and inspection program pursuant to Article 2 (commencing with Section 66796.30).

(g) Keep and maintain records of its inspection, enforcement, training, and regulatory programs and of any other official action in accordance with regulations adopted by the board.

(h) Consult with the appropriate local health agency concerning all actions which involve health standards. Such consultation shall include affording the health agency adequate notice and opportunity to conduct and report such evaluation as it reasonably deems appropriate.

66796.15. If the Solid Waste Management Board becomes the enforcement agency, it may charge reasonable fees to the local governing body to recover operation costs.

66796.20. The enforcement agency may, upon a majority vote of its local governing body, prescribe, revise, and collect fees or other charges from each operator of a solid waste facility or from any person who conducts solid waste handling. Such fee or other charge shall be based upon either the weight, volume, or type of solid waste which is received or handled by any such operator or person or upon any other appropriate parameter or any combination of the foregoing commensurate with the cost of administering the program. The local governing body having rate-setting authority shall afford the private operator adequate compensation for additional costs incurred in this section through necessary rate adjustments if it is determined to be justified by the local governing body.

66796.21. The board shall review the proposed designation and the enforcement program and shall obtain the recommendation of the State Department of Health regarding the proposed designation of the enforcement agency and its enforcement program.

Article 2. Permit and Inspection Program

66796.30. (a) Any person operating a solid waste facility under an approved land use permit or under other equivalent local approval dated prior to August 15, 1977, shall file a notice of operation with the appropriate enforcement agency by August 15, 1977. If the operator was operating the facility prior to August 15, 1977, and is in compliance with the state minimum standards for solid waste handling and disposal and any applicable local ordinances and regulations, a solid waste facilities permit shall be granted.

(b) Any person who proposes to become an operator of a solid waste facility after August 15, 1977, shall file with the enforcement agency having jurisdiction over such facility an application for a solid waste facilities permit at least 120 days in advance of the date on which it is desired to commence operation.

(c) The operation of a solid waste facility by any person except as authorized pursuant to a solid waste facilities permit is prohibited.

(d) When the operator of the disposal site is not the disposal site

owner, the disposal site operator's application for a solid waste facilities permit shall contain any information that the board may require regarding the disposal site owner's interest in the real property utilized as the disposal site.

(e) After August 15, 1977, no operator of a solid waste facility shall make a significant change in the design or operation of any such facility except in conformance with the terms and conditions in a solid waste facilities permit or revised permit issued to such operator. If the operator wishes to modify the operation of a solid waste facility, the operator shall file an application for revision of the existing solid waste facilities permit. The application shall be filed at least 120 days in advance of the date when the proposed modification is to take place. Under circumstances which present an immediate danger to public health, as determined by the governing board of the enforcement agency, the 120-day filing period may be waived by the governing board.

(f) Any person who is the owner of a disposal site which is in operation after August 15, 1977, shall file with the enforcement agency having jurisdiction over the disposal site a report specifying the date when he encumbered, sold, transferred, or conveyed, or permitted to be encumbered, sold, transferred or conveyed, by agreement for sale, or in any other manner, his interest or any portion thereof in the real property utilized as the disposal site. Such report shall be filed within 30 days after any such sale, transfer or conveyance.

(g) Each report and application filed under this section shall be submitted under oath or under penalty of perjury.

(h) Each report, notice, and application filed under this section shall be submitted on a form approved by the board.

(i) Each application required to be filed under this section shall be accompanied by a filing fee according to a fee schedule established by the enforcement agency to reflect the cost of processing such applications. Any filing fee established by the enforcement agency shall be subject to approval by a majority vote of its local governing body and may not exceed an amount of five hundred dollars ($500). This fee is in addition to the fee authorized by Section 66796.20.

66796.31. The board may adopt classifications of solid waste facilities which the enforcement agency may exempt for the purposes of requiring permits under the provisions of subdivisions (a), (b), (c) and (d) of Section 66796.30. The enforcement agency may grant exemptions after a public hearing if all of the following findings are made:

(1) The exemption is not against the public interest.

(2) The quantity of solid wastes is insignificant.

(3) The nature of the solid wastes poses no significant threat to health, safety, or the environment.

66796.32. (a) Upon receipt of an application or report required by Section 66796.30, the enforcement agency shall submit a copy of

such application or report to the board within seven days.

(b) The enforcement agency shall not issue, modify, or revise a solid waste facilities permit unless it has at least 45 days in advance, provided the board and the applicant with a copy of the proposed permit which shall contain the terms and conditions the enforcement agency proposes to establish.

(c) A decision to issue or not issue the permit shall be made by the enforcement agency within 120 days of the time application is filed unless waived by the applicant.

(d) The board shall, in writing, concur or object to the issuance, modification, or revision of any solid waste facilities permit within 20 days of the board's receipt of any proposed solid waste facilities permit submitted under subdivision (b) of this section. If the board determines that the permit would not be consistent with the county solid waste management plan or the state standards, it shall object to provisions of the permit, and shall submit such objections to the enforcement agency for its consideration. If the board fails to concur or object in writing within such 20 days it shall be deemed to have concurred in the issuance of the permit as submitted to it.

66796.33. (a) The enforcement agency in issuing, modifying or revising any solid waste facilities permit shall ensure that primary consideration is given to preventing environmental damage and that the long-term protection of the environment is the guiding criteria. To achieve these purposes the enforcement agency may prohibit or condition the handling or disposal of solid waste to protect, rehabilitate or enhance the environmental quality of the state or to mitigate adverse environmental impacts. Where an operator holds a permit issued under subdivision (a) of Section 66796.30, it shall be considered controlling, and no condition imposed under this section shall be more restrictive than the terms of the permit issued under subdivision (a) of Section 66796.30.

(b) The enforcement agency may include in a solid waste facilities permit a reasonable time schedule for existing facilities for compliance with the standards adopted by the board and standards and conditions contained in the approved county solid waste management plan.

(c) Any permit may be suspended, modified, or revoked by the enforcement agency after a hearing for cause including, but not limited to, any of the following:

(1) Intentional or negligent violation of any term or condition contained in the permit.

(2) Obtaining the permit by misrepresentation, or failure to disclose fully all relevant facts.

(d) Any solid waste facilities permit issued, modified, or revised under this chapter shall be reviewed and, if necessary, revised at least every five years.

66796.34. (a) Upon compliance with the provisions of Section 66796.32 and after any necessary hearing, the enforcement agency may issue, modify, or revise a solid waste facilities permit if the board

has concurred in the permit and if the enforcement agency, in the permit, makes both of the following findings based on substantial evidence:

(1) The proposed solid waste facilities permit is consistent with the county solid waste management plan prepared under Section 66780.

(2) The proposed solid waste facilities permit is consistent with the standards adopted by the board.

The permit shall contain all terms and conditions which the enforcement agency determines to be appropriate for the operation of the solid waste facility. The operator shall comply with all terms and conditions of the permit.

(b) Within 15 days of issuing, modifying, or revising a solid waste facilities permit, the enforcement agency shall transmit to the disposal site owner and the person who is or proposes to become an operator of a transfer/processing station or a disposal site, or both, a copy of the solid waste facilities permit.

66796.35. (a) An enforcement agency or the board in issuing or reviewing any solid waste facilities permit or in connection with any action relating thereto or authorized by this title, may investigate the operation by any person of a transfer/processing station, or disposal site, collection or handling equipment, or storage area for solid wastes within its jurisdiction.

(b) In such an investigation, the enforcement agency or the board may require that any person who is or proposes to become an operator of a transfer/processing station, disposal site, collection or handling equipment, or storage area for solid wastes within its jurisdiction, shall furnish, under penalty of perjury, such technical or monitoring program reports or other reports as the enforcement agency may specify.

(c) In such an investigation, the enforcement agency or the board may inspect the facility, equipment, or vehicle used for storage, collection, transportation, processing, or disposal of solid waste, as necessary to ensure compliance with this title and that solid waste facilities permits are being complied with. Such inspection shall be made with the consent of the owner or possessor of such facilities or, if such consent is refused, with a warrant duly issued pursuant to the procedure set forth in Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure; provided, however, that in the event of an emergency affecting the public health or safety such inspection may be made without consent or the issuance of a warrant.

66796.36. Upon the request of any person furnishing any report, notice, application or other document required by this chapter, the board or the enforcement agency shall not make available for inspection by the public those portions of such report, notice, application or other document which contain trade secrets as defined in subdivision (3) of Section 499 of the Penal Code; provided, however, that such portions of a report, notice, application, or other

document shall be made available to government agencies for the use in making reports and to the state, any state agency, or the enforcement agency in judicial review for enforcement proceedings involving the person furnishing the report. Nothing in this section shall prohibit the disclosure of information pursuant to Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code.

Article 3. Environmental Impact Reports

66796.45. Neither the board, any enforcement agency, nor the local governing body of any enforcement agency shall be required to comply with the provisions of Chapter 3 (commencing with Section 21100) of Division 13 of the Public Resources Code prior to the issuance to any person for the operation of any existing solid waste facility of a solid waste facilities permit for which a notice of operation under subdivision (a) of Section 66796.30 is filed during the interim period beginning on July 1, 1977 and ending on August 15, 1977. This section does not apply to any significant change in the design or operation of any existing solid waste facility for which a report is required to be filed under subdivision (c) of Section 66796.30.

66796.46. For purposes of Section 66796.45, an existing solid waste facility is any such facility for which, before August 15, 1977, a notice of determination or notice of exemption had been filed with the state and the applicable period limiting actions has expired pursuant to Section 21167 of the Public Resources Code or which was a project undertaken, carried out, or approved prior to the effective date of the provisions of the California Environmental Quality Act of 1970, Division 13 (commencing with Section 21000) of the Public Resources Code; provided, however, that an existing solid waste facility shall not include any such facility which is the subject of any action or proceeding pursuant to Sections 21168 or 21168.5 of the Public Resources Code.

Article 4. Administrative Enforcement and Remedies Available to an Enforcement Agency

66796.50. (a) Any person who is operating or proposes to operate a transfer/processing station or disposal site, or both, in violation of the solid waste facilities permit, or who is operating or proposes to operate any such facility without a solid waste facilities permit, or who owns a disposal site and causes or permits the operator of such disposal site to violate a solid waste facilities permit or to operate such disposal site without a solid waste facilities permit, shall, upon order of the enforcement agency, cease and desist any improper action, clean up any solid waste, abate the effects thereof, or take any other necessary remedial action.

(b) If any of the circumstances set forth in subdivision (a) pose an

imminent threat to life or health, the enforcement agency may expend any available moneys to perform any cleanup and abatement, or remedial work required.

(c) If the circumstances set forth in subdivision (a) do not pose an imminent threat to life or health but the enforcement agency deems it necessary for the public health to perform cleanup and abatement work or remedial work, the enforcement agency shall petition the hearing panel provided for in Section 66796.58 for authorization to perform such work. Upon receiving such a petition, the hearing panel may do either of the following:

(1) Summarily deny the petition, if it fails to allege sufficient facts to establish that such work is necessary to protect the public health.

(2) Hold a hearing on the matter and thereafter deny, grant, or grant in part the petition.

(d) If the hearing panel grants a petition submitted under subdivision (c), the hearing panel shall in a written decision specify the nature of actions that the enforcement agency may take and the maximum amount of moneys to be expended for such actions.

(e) Any action taken pursuant to subdivision (b), (c), or (d) may be taken in default of, or in addition to, remedial work by the operator or other persons, and regardless of whether injunctive relief is being sought. The enforcement agency may perform the work itself, or by or in cooperation with any other governmental agency or private contractor, and may use rented tools or equipment, either with or without operators furnished.

Notwithstanding any other provisions of law, the enforcement agency may enter into oral or written contracts for such work, and the contracts, whether written or oral, may include provisions for equipment rental and in addition the furnishing of labor and materials necessary to accomplish the work. Any such contract by the board shall be exempt from approval by the Department of General Services pursuant to the provisions of Section 14780 of the Government Code.

(f) If such solid waste is cleaned up, the effects thereof abated, or other necessary remedial action is taken by any governmental agency, the person or persons who committed such action, within the meaning of subdivision (a), shall be liable to that governmental agency to the extent of the reasonable costs actually incurred in cleaning up such operation, abating the effects thereof, or taking other remedial action. The amount of such costs shall be recoverable in a civil action by, and paid to, such governmental agency together with the costs of suit incurred by the agency in recovering such moneys. The agency shall reimburse the board to the extent of the latter's contribution from any available moneys.

66796.51. (a) Any person who operates a solid waste facility except as permitted by a solid waste facilities permit, or who owns a disposal site and intentionally or negligently causes or permits the operator of such disposal site to violate a solid waste facilities permit or to operate such disposal site without a solid waste facilities permit,

or who intentionally or negligently violates any standard adopted by the board for the storage or removal of solid wastes, shall be subject to a civil penalty not to exceed one thousand dollars ($1,000) for each day such violation or operation occurs.

(b) Any attorney authorized to act on behalf of the enforcement agency, at the request of the enforcement agency, shall petition the superior court to impose, assess, and recover the sums provided in subdivision (a). Should the enforcement agency fail to so petition the superior court, the Attorney General shall, at the request of the board, petition the superior court to impose, assess and recover such sums. Funds collected shall be paid one-half to the General Fund and one-half to the county in which such action is brought, if brought by the Attorney General, or entirely to a city if brought by a city attorney, or entirely to a county if brought by a county counsel or district attorney.

(c) Remedies under this section are in addition to and do not supersede or limit, any other remedies, civil or criminal.

66796.52. Whenever an enforcement agency finds that any person is operating a solid waste facility or proposes to operate such a facility which causes or threatens to cause a condition of hazard, pollution or nuisance, constituting an emergency requiring immediate action to protect the public health, welfare, or safety, the enforcement agency may issue a cease and desist or cleanup order under this section. Should the enforcement agency fail to issue such an order, the board may do so.

Article 5. Denial, Suspension, or Revocation of Permits

66796.55. (a) If the enforcement agency denies a permit, or if the applicant deems the terms and conditions of the proposed permit inappropriate, the applicant may request a hearing. The hearing shall be held in accordance with Sections 66796.58, 66796.59, and 66796.60.

(b) A hearing to determine whether a permit should be issued shall be initiated by the filing of a statement of issues by the enforcement agency. The enforcement agency shall file such a statement within 15 days after receiving a written request from an applicant for a hearing. The statement of issues shall be a written statement specifying the statutes and rules with which the applicant shall show compliance by producing proof at the hearing and any particular matters which come to the attention of the enforcement agency which would authorize a denial of the permit.

The statement of issues and a notice of defense shall be served personally on the applicant or by registered mail at least 20 days prior to the hearing. Service by registered mail shall be effective only if a rule of the enforcement agency requires the applicant to file his address with the enforcement agency and to notify the enforcement agency of any change and if a registered letter containing the statement of issues and accompanying materials is mailed, addressed

to the applicant at the latest address on file with the agency. The notice of hearing shall be in a form approved by the board.

66796.56. (a) After a hearing, any permit may be suspended, modified, or revoked by the enforcement agency for cause, including but not limited to, any or all of the following:

(1) A violation of any term or condition contained in the permit.

(2) Having obtained the permit by misrepresentation or failing to disclose fully all relevant facts.

(3) A change in any condition that requires either a temporary or permanent modification, reduction, or elimination of the permitted operation to bring it into compliance with the requirements of this chapter.

(b) A hearing to determine whether a permit should be revoked, suspended, or modified shall be initiated by the enforcement agency filing an accusation. The accusation shall be a written statement of charges which sets forth in ordinary and concise language the acts or omissions with which the permittee is charged. It shall specify the statutes and rules which the permittee is alleged to have violated, but shall not consist merely of charges phrased in the language of such statutes and rules.

(c) The accusation and all accompanying documents shall be served personally on the permittee or by registered mail. Service by registered mail shall be effective only if an enforcement agency rule requires the permittee to file his address with the agency and to notify the agency of any change and if a registered letter containing the accusation and accompanying documents is mailed, addressed to the permittee at the latest address on file with the agency.

(d) The agency shall include with the accusation a form entitled Notice of Defense which, when signed by or on behalf of the permittee and returned to the agency, will acknowledge service of the accusation and constitute a Notice of Defense under Section 66796.57. The accusation shall also be accompanied by a statement that the permittee may request a hearing by filing a Notice of Defense within 20 days after service upon him of the accusation, that failure to do so will constitute a waiver of his right to a hearing, and that he has the right to inspect and copy documents relative to the accusation. This statement shall be in a form approved by the board.

66796.57. (a) Within 20 days after service upon him, the permittee may file with the agency a Notice of Defense in which he may do one or more of the following:

(1) Request a hearing.

(2) Object to the accusation upon the ground that it does not state acts or omissions upon which the agency may proceed.

(3) Object to the form of the accusation on the ground that it is so indefinite or uncertain that he cannot identify the transaction or prepare his defense.

(b) The permittee shall be entitled to a hearing on the merits if he files a Notice of Defense, and any such notice shall be deemed a specific denial of all parts of the accusation not expressly admitted.

02439 299195 421

Failure to file such notice shall constitute a waiver of the right to a hearing, except the agency in its discretion may consent to a hearing.

(c) The Notice of Defense shall be in writing signed by or on behalf of the permittee and shall state his mailing address.

(d) A copy of any accusation or statement of issues filed by an enforcement agency shall be sent when filed to the State Solid Waste Management Board.

66796.58. All hearings required to be conducted under this chapter shall be conducted by a hearing panel of five persons appointed by the local governing body. The hearing panel shall be appointed by the local governing body under either of the following alternatives:

(1) The local governing body may appoint itself as the hearing panel; or

(2) An independent hearing panel may be appointed.

Where an independent hearing panel is appointed no more than one member of the governing body shall serve on the hearing panel. Members of the panel shall be selected for their legal, administrative, or technical abilities in areas relating to solid waste management. At least one member of the panel shall be a technical expert with knowledge of solid waste management methods and technology. At least one member shall be a representative of the public at large. Panel members shall serve for a term of two years, and may serve more than one term, but no more than two consecutive terms. If a member does not complete his or her term, the governing body may appoint a replacement to serve out the remainder of the unexpired term.

66796.59. (a) The panel shall conduct the hearing, determine the facts, and issue a decision which shall be binding on the parties unless appealed as provided in subdivision (c) of Section 66796.61. Members of the hearing panel may receive per diem and necessary expenses while conducting the hearing.

After initiation of a proceeding in which an applicant for a permit or a permittee is entitled to a hearing on the merits, a party, upon written request made to any other party prior to the hearing, is entitled to: (1) obtain the names and addresses of witnesses to the extent known to the other party including, but not limited to, those intended to be called to testify at the hearing, and (2) inspect and make a copy of any relevant documents in the possession or custody or under the control of the other party, including statements made by any person pertaining to the subject matter of the proceeding, all writings pertaining to the subject matter of the proceeding, and investigative reports made by or on behalf of the enforcement agency or other party pertaining to the subject matter of the proceeding.

Nothing in this section shall authorize the inspection or copying of any writing or thing which is privileged from disclosure by law or otherwise made confidential or protected as the attorney's work product.

(b) Any party claiming his or her request for discovery pursuant to subdivision (a) has not been complied with may serve and file a verified petition to compel discovery in the superior court for the county in which the hearing will be held, naming as respondent the party refusing or failing to comply with subdivision (a). The petition shall be served upon the respondent and filed within 15 days after the respondent first failed or refused to comply with subdivision (a).

If from a reading of the petition, the court is satisfied that the petition sets forth good cause for relief, the court shall issue an order to show cause directed to the respondent; otherwise the court shall enter an order denying the petition. The order to show cause shall be served upon the respondent and his or her attorney of record in the administrative proceeding by personal service or registered mail and shall be returnable no later than 10 days from its issuance. The respondent party shall have the right to serve and file a written answer to the petition and order to show cause.

The administrative proceedings shall be stayed during the pendency of the proceeding before the superior court only if the court issues an order to show cause.

The court shall decide the case on the matters examined by the court in camera, the papers filed by the parties, and such oral argument and additional evidence as the court may allow.

The court shall no later than 30 days after the filing of the petition file its order denying or granting the petition. The order of the court shall be in writing setting forth the matters the petitioner is entitled to discover. A copy of the order shall be forthwith mailed by the clerk to the parties.

The order of the superior court shall be final and not subject to review by appeal. A party aggrieved by such order may within 15 days after the service of the superior court's order serve and file in the appropriate court of appeal a petition for a writ of mandamus to compel the superior court to set aside or otherwise modify its order.

(c) Before the hearing has commenced, the hearing panel shall issue subpoenas and subpoenas duces tecum at the request of any party for attendance of witnesses or production of documents at the hearing. Compliance with the provisions of Section 1985 of the Code of Civil Procedure shall be a condition precedent to the issuance of a subpoena duces tecum.

This process shall be extended to all parts of the state and shall be served in accordance with the provisions of Sections 1987 and 1988 of the Code of Civil Procedure. No witness shall be obliged to attend at a place out of the county in which he resides unless the distance be less than 150 miles from his place of residence, except that the hearing panel, upon affidavit of any party showing that the testimony of such witness is material and necessary, may endorse on the subpoena an order requiring the attendance of such witness.

All witnesses appearing pursuant to subpoena, other than the parties or officers or employees of the jurisdiction of which the enforcement agency is part, shall receive fees, and all witnesses

appearing pursuant to subpoena, except the parties, shall receive mileage, in the same amount and under the same circumstances as prescribed by law for witnesses in civil actions in a superior court. Fees and mileage shall be paid by the party at whose request the witness is subpoenaed.

66796.60. (a) Oral evidence shall be taken only on oath or affirmation. Each party shall have the right to call and examine witnesses, to introduce exhibits, to cross-examine opposing witnesses on any matter relevant to the issues even though that matter was not covered in the direct examination, to impeach any witness regardless of which party first called him to testify, and to rebut the evidence against him. If the permittee does not testify in his own behalf he may be called and examined as if under cross-examination.

(b) The hearing need not be conducted according to the technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted if it is the sort of evidence on which responsible persons are accustomed to rely in the conduct of serious affairs, regardless of the existence of any common law or statutory rule which might make improper the admission of such evidence over objection in civil actions. Hearsay evidence may be used solely for the purpose of supplementing or explaining other evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. The rules of privilege shall be affected to the extent that they are otherwise required by statute to be recognized at the hearing, and irrelevant and unduly repetitious evidence shall be excluded.

66796.61. (a) In reaching a decision, official notice may be taken, prior to submission of the case for decision, of any generally accepted technical or scientific matter pertaining to solid waste management, and of any fact which may be judicially noticed by the courts of this state. Parties present at the hearing shall be informed of the matters to be noticed, and those matters shall be noted in the record. Any such party shall be given a reasonable opportunity on request to refute the officially noticed matters by evidence or by written or oral presentation of authority.

(b) Within 30 days after the case is submitted for decision, the hearing panel shall issue its decision. Copies of the decision shall be sent to all parties and to the State Solid Waste Management Board. The hearing panel may conduct a hearing under this article with three members of the panel present. However, cases shall be determined by concurrence of three members. The decision shall be in writing and shall contain findings of fact, a determination of the issues presented and the penalty, if any.

(c) The decision shall become effective 30 days after it is mailed or personally served upon the permittee unless the permittee files an appeal to the State Solid Waste Management Board. If such an appeal is filed, the decision of the hearing panel is stayed pending determination by the State Solid Waste Management Board.

(d) If the permittee fails to file a notice of defense or to appear

at the hearing, the hearing panel may take action based upon information supplied by the permittee to the enforcement agency in writing, including but not limited to the permit application. Where the burden of proof is on the permittee to establish that he is entitled to the action of the enforcement agency sought, the hearing panel may act without taking further evidence.

Nothing herein shall be construed to deprive the permittee of the right to make any showing by way of mitigation.

66796.62. A person whose permit has been revoked or suspended may petition an enforcement agency for reinstatement or reduction of penalty after a period of not less than one year has elapsed from the effective date of the decision or from the date of the denial of a similar petition. If the enforcement agency declines to take the action requested, the petitioner, if he so requests, shall be afforded a hearing pursuant to Sections 66796.58, 66796.59, and 66796.60.

Article 6. Administrative Enforcement and Remedies

66796.64. (a) Within 30 days of issuance of a written decision by a hearing panel at which review was made of any action or failure to act by an enforcement agency under Article 2 (commencing with Section 66796.30) of this chapter, any aggrieved person may appeal to the board to review the written decision of the hearing panel. The board may on its own motion review at any time a written decision of the hearing panel.

(b) Within 30 days after an appeal has been filed with the State Solid Waste Management Board, the board may do any of the following:

(1) Determine not to hear the appeal if the appellant fails to raise substantial issues.

(2) Determine not to hear the appeal if the appellant failed to participate in the administrative hearing before the hearing panel, if a hearing was held, except that the board shall hear the appeal if the appellant shows good and excusable cause for his or her failure to appear.

(3) Determine to accept the appeal and to decide the matter without a hearing on the basis of the record before the hearing panel and on written arguments submitted by the parties.

(4) Determine to accept the appeal and hold a hearing, within 60 days, unless all parties stipulate to extending the hearing date.

(c) If the board declines to hear the appeal, it shall notify all parties, and the decision of the hearing panel shall become effective within 30 days from the date of the board's notification to the parties, unless judicial review is sought.

(d) If the board accepts the appeal, the evidence before the board shall consist of the record before the enforcement agency and the hearing panel, and any other relevant evidence which in the judgment of the board should be considered to effectuate and implement the policies of this title.

66796.65. In reviewing any decision of a hearing panel, the board's review shall be limited to those issues that relate to the enforcement of the state minimum standards for solid waste handling and disposal. The board may find the decision of the hearing panel inconsistent with the purposes of this chapter and the standards adopted by the board. Upon a finding that the decision of the hearing panel was inconsistent, the board may do any of the following:

(1) Direct that the appropriate action be taken by the enforcement agency.

(2) Refer the matter to any other state agency having jurisdiction.

(3) Take the appropriate action itself.

(4) Any combination of the foregoing.

In taking any such action, the board is vested, in addition to its other powers, with all the powers of the enforcement agency under this title.

66796.66. If an operation of a transfer/processing station or disposal site, or both, is carried on within the jurisdiction of more than one enforcement agency and there is disagreement between the enforcement agencies involved as to the conditions in the solid waste facilities permit which should be established or the enforcement thereof, either enforcement agency may submit the disagreement to the board for resolution.

66796.67. Upon the request of the enforcement agency, the board may enforce any of the provisions of this title. In taking any such action, the board is vested in addition to its other powers with all the powers of the enforcement agency under this title.

66796.68. The board, in taking any enforcement action authorized by this article relating to a health standard, shall coordinate such enforcement with the State Department of Health.

66796.691. Any attorney authorized to act on behalf of the enforcement agency, at the agency's request, shall petition the superior court for injunctive relief to enforce any provisions of Sections 66796.30, 66796.50, or 66796.52 of this chapter, any term or condition in any solid waste facilities permit, or any standard adopted by the board for the storage of solid waste or for the operation of collection and transportation equipment.

66796.692. Should the enforcement agency fail to enforce such provision, term, condition, or standard, the Attorney General shall, at the request of the board, petition the superior court for injunctive relief to enforce it.

66796.693. The board shall, by regulation, require the appropriate administrative procedures including notice to the permittee to be followed by the enforcement agency prior to taking action against any person under Sections 66796.51 and 66796.692.

66796.694. Failure to appeal to the board for review as provided in subdivision (a) of Section 66796.64 shall not preclude a person from filing an action in the superior court to contest the action of an enforcement agency brought under this article.

Article 7. Judicial Review

66796.70. Within 30 days after service of a copy of a decision and order issued by the board under Article 6 (commencing with Section 66796.64) of this chapter, any aggrieved party may file with the superior court a petition for a writ of mandate for review thereof.

66796.71. The evidence before the court shall consist of the records before the board, including the enforcement agency's records, and any other relevant evidence which, in the judgment of the court, should be considered to effectuate and implement the policies of this title.

66796.72. Except as otherwise provided in this article, the provisions of subdivisions (e) and (f) of Section 1094.5 of the Code of Civil Procedure shall govern proceedings pursuant to this article.

Article 8. Other Provisions

66796.80. If any provisions of this title or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of this title which can be given effect without the invalid provision or application thereof, and to this end the provisions of this title are severable.

66796.81. Any person who owns real property which is being used as a solid waste disposal site for which a solid waste facilities permit has been issued to the operator of such disposal site, shall cause information to be compiled in a manner and content as determined by the board in regulations, and shall file such information with the county where such disposal site is situated. Such information shall be on a form approved by the board and shall include a map of the real property describing the disposal site.

66796.82. In any civil action brought pursuant to this title in which injunctive relief is sought, it shall not be necessary to allege or prove at any stage of the proceeding that irreparable damage will occur should the injunctive relief not be issued, or that the remedy at law is inadequate, and any form of injunctive relief shall issue without such allegations and without such proof.

SEC. 12. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the duties, obligations, and responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 1310

An act to add Section 18950.1 to the Government Code, relating to state civil service.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 18950.1 is added to the Government Code, to read:

18950.1. Notwithstanding any other provision of the law, employees of the Legislative Analyst and the Office of the Auditor General who are exempt from state civil service pursuant to the provisions of Section 4 of Article XXIV of the California Constitution, shall be eligible to receive three career credits under conditions prescribed by the State Personnel Board.

Such credits shall be granted only for open nonpromotional examinations. In order to be eligible to receive credits, such employees must meet all qualification requirements specified by the board and must have five consecutive years service in an exempt position.

CHAPTER 1311

An act to amend Section 31470.6 of the Government Code, relating to the County Employees Retirement Law of 1937.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 31470.6 of the Government Code is amended to read:

31470.6. A permanent employee of a county having a population in excess of 500,000 whose principal duties consist of active protection, rescue, and rendition of aid or assistance to persons injured or imperiled in water areas at beaches and lakes, streams, dams, reservoirs, or other bodies of open water (not including swimming pools) or in small craft or airplanes at sea near the shoreline and the recovery from such water areas of submerged objects and bodies of persons drowned or believed to have drowned in such areas, or the immediate supervision thereof, including persons employed to perform the duties now performed under the titles of director of beaches, assistant director of beaches, deputy director of beaches, chief lifeguard, assistant chief lifeguard, captain lifeguards, lieutenant rescue boat, lieutenant lifeguards, beach

lifeguard, but who performs additional duties, some of which (including the maintenance of peace and order and the apprehension of law violators) are customarily performed by police or peace officers, and whose other duties (such as resuscitation work involving the use of special equipment in cases having no connection with their principal duties) which in other areas are customarily performed by firemen, and other and further duties (such as the rescue of persons from disabled aircraft and small boats in inshore or inland waters and the removal of dangerous obstructions from such waters) which do not come directly within any of the aforesaid classifications but are essential to the safety and security of the public, excluding those whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise clearly do not fall within the scope of active lifeguarding or lifesaving service, even though such a person is subject to occasional call, or is occasionally called upon, to perform duties within the scope of active lifeguarding or lifesaving service, shall be considered and is hereby classified as an employee whose principal duties consist in "active law enforcement."

Persons employed to perform the duties of director of beaches, assistant director of beaches, or deputy director of beaches shall not be within the classification of "active law enforcement" employee, unless such persons have previously been included within such classification, or have performed duties which would have qualified such person as an "active law enforcement" employee under this section.

SEC. 2. There are no state-mandated local costs in this act which require reimbursement under Section 2231 of the Revenue and Taxation Code because this act makes only technical changes to existing law.

CHAPTER 1312

An act to amend Sections 21050, 21061, 21080, 21082, 21083, 21084, 21085, 21087, 21089, 21100, 21168, and 21168.5 of, and to add Sections 21002, 21002.1, 21003, 21060.3, 21061.1, 21064, 21068, 21069, 21081, 21082.1, 21092, 21100.1, 21151.5, and 21167.1 to, the Public Resources Code, relating to environmental quality.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 21002 is added to the Public Resources Code, to read:

21002. The Legislature finds and declares that it is the policy of the state that public agencies should not approve projects as

proposed if there are feasible alternatives or feasible mitigation measures available which would substantially lessen the significant environmental effects of such projects, and that the procedures required by this division are intended to assist public agencies in systematically identifying both the significant effects of proposed projects and the feasible alternatives or feasible mitigation measures which will avoid or substantially lessen such significant effects. The Legislature further finds and declares that in the event specific economic, social, or other conditions make infeasible such project alternatives or such mitigation measures, individual projects may be approved in spite of one of more significant effects thereof.

SEC. 1.5. Section 21002.1 is added to the Public Resources Code, to read:

21002.1. In order to achieve the objectives set forth in Section 21002 the Legislature finds and delares that the following policy shall apply to the use of environmental impact reports prepared pursuant to the provisions of this division:

(a) The purpose of an environmental impact report is to identify the significant effects of a project on the environment, to identify alternatives to the project, and to indicate the manner in which such significant effects can be mitigated or avoided.

(b) Each public agency shall mitigate or avoid the significant effects on the environment of projects it approves or carries out whenever it is feasible to do so.

(c) In the event that economic, social, or other conditions make it infeasible to mitigate one or more significant effects of a project on the environment, such project may nonetheless be approved or carried out at the discretion of a public agency, provided that the project is otherwise permissible under applicable laws and regulations.

(d) In applying the policies of subdivisions (b) and (c) to individual projects, the responsibility of a local agency which is functioning as a lead agency shall differ from that of a local agency which is functioning as a responsible agency. A local agency functioning as a lead agency shall have responsibility for considering the effects, both individual and collective, of all activities involved in a project. A local agency functioning as a responsible agency shall have responsibility for considering only the effects of those activities involved in a project, which it is required by law to carry out or approve.

SEC. 2. Section 21003 is added to the Public Resources Code, to read:

21003. The Legislature further finds and declares that it is the policy of the state that:

(a) Local agencies integrate the requirements of this division with planning and environmental review procedures otherwise required by law or by local practice so that all such procedures, to the maximum feasible extent, run concurrently, rather than consecutively.

(b) Documents prepared pursuant to this division be organized and written in such a manner that they will be meaningful and useful to decisionmakers and to the public.

(c) Environmental impact reports omit unnecessary descriptions of projects and emphasize feasible mitigation measures and alternatives to projects.

(d) Information developed in individual environmental impact reports be incorporated into a data base which can be used to reduce delay and duplication in preparation of subsequent environmental impact reports.

(e) Information developed in environmental impact reports covering larger geographical areas be used to contribute to information required in specific environmental impact reports.

SEC. 3. Section 21050 of the Public Resources Code is amended to read:

21050. This division shall be known and may be cited as the California Environmental Quality Act.

SEC. 4. Section 21060.3 is added to the Public Resources Code, to read:

21060.3. "Emergency" means a sudden, unexpected occurrence, involving a clear and imminent danger, demanding immediate action to prevent or mitigate loss of, or damage to, life, health, property, or essential public services. "Emergency" includes such occurrences as fire, flood, earthquake, or other soil or geologic movements, as well as such occurrences as riot, accident, or sabotage.

SEC. 5. Section 21061 of the Public Resources Code is amended to read:

21061. "Environmental impact report" means a detailed statement setting forth the matters specified in Sections 21100 and 21100.1; provided that information or data which is relevant to such a statement and is a matter of public record or is generally available to the public need not be repeated in its entirety in such statement, but may be specifically cited as the source for conclusions stated therein; and provided further that such information or data shall be briefly described, that its relationship to the environmental impact report shall be indicated, and that the source thereof shall be reasonably available for inspection at a public place or public building. An environmental impact report also includes any comments which are obtained pursuant to Section 21104 or 21153, or which are required to be obtained pursuant to this division.

An environmental impact report is an informational document which, when its preparation is required by this division, shall be considered by every public agency prior to its approval or disapproval of a project. The purpose of an environmental impact report is to provide public agencies and the public in general with detailed information about the effect which a proposed project is likely to have on the environment; to list ways in which the significant effects of such a project might be minimized; and to indicate alternatives to such a project.

In order to facilitate the use of environmental impact reports, public agencies shall require that such reports contain an index or table of contents and a summary. Failure to include such index, table of contents, or summary shall not constitute a cause of action pursuant to Section 21167.

SEC. 5.1. Section 21061.1 is added to the Public Resources Code, to read:

21061.1. "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

SEC. 6. Section 21064 is added to the Public Resources Code, to read:

21064. "Negative declaration" means a written statement briefly describing the reasons that a proposed project will not have a significant effect on the environment and does not require the preparation of an environmental impact report.

SEC. 7. Section 21068 is added to the Public Resources Code, to read:

21068. "Significant effect on the environment" means a substantial, or potentially substantial, adverse change in the environment.

SEC. 7.1. Section 21069 is added to the Public Resources Code, to read:

21069. "Responsible agency" means a public agency, other than the lead agency, which has responsibility for carrying out or approving a project.

SEC. 8. Section 21080 of the Public Resources Code is amended to read:

21080. (a) Except as otherwise provided in this division, this division shall apply to discretionary projects proposed to be carried out or approved by public agencies, including, but not limited to, the enactment and amendment of zoning ordinances, the issuance of zoning variances, the issuance of conditional use permits and the approval of tentative subdivision maps (except where such a project is exempt from the preparation of an environmental impact report pursuant to Section 21166).

(b) This division shall not apply to the following:

(1) Ministerial projects proposed to be carried out or approved by public agencies.

(2) Emergency repairs to public service facilities necessary to maintain service.

(3) Projects undertaken, carried out, or approved by a public agency to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster-stricken area in which a state of emergency has been proclaimed by the Governor pursuant to Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code.

(4) Specific actions, necessary to prevent or mitigate an emergency.

(c) In the event that a public agency determines that a proposed project, not otherwise exempt from the provisions of this division, does not have a significant effect on the environment, such public agency shall adopt a negative declaration to that effect.

SEC. 9. Section 21081 is added to the Public Resources Code, to read:

21081. Pursuant to the policy stated in Sections 21002 and 21002.1, no public agency shall approve or carry out a project for which an environmental impact report has been completed which identifies one or more significant effects thereof unless such public agency makes one, or more, of the following findings:

(a) Changes or alterations have been required in, or incorporated into, such project which mitigate or avoid the significant environmental effects thereof as identified in the completed environmental impact report.

(b) Such changes or alterations are within the responsibility and jurisdiction of another public agency and such changes have been adopted by such other agency, or can and should be adopted by such other agency.

(c) Specific economic, social, or other considerations make infeasible the mitigation measures or project alternatives identified in the environmental impact report.

SEC. 9.5. Section 21082 of the Public Resources Code is amended to read:

21082. All public agencies shall adopt by ordinance, resolution, rule, or regulation, objectives, criteria, and procedures for the evaluation of projects and the preparation of environmental impact reports and negative declarations pursuant to this division. A school district, or any other district, whose boundaries are coterminous with a city, county, or city and county, may utilize the objectives, criteria, and procedures of the city, county, or city and county, as may be applicable, in which case, the school district or other district need not adopt objectives, criteria, and procedures of its own. The objectives, criteria, and procedures shall be consistent with the provisions of this division and with the guidelines adopted by the Secretary of the Resources Agency pursuant to Section 21083. Such objectives, criteria, and procedures shall be adopted by each public agency no later than 60 days after the Secretary of the Resources Agency has adopted guidelines pursuant to Section 21083.

SEC. 9.6. Section 21082.1 is added to the Public Resources Code, to read:

21082.1. Any environmental impact report or negative declaration prepared pursuant to the requirement of this division shall be prepared directly by, or under contract to, a public agency.

This section is not intended to prohibit, and shall not be construed as prohibiting, any person from submitting information to the public agency responsible for preparing an environmental impact report or negative declaration. Such information may be submitted in any format and may be included in whole or in part in any such report or declaration.

SEC. 10. Section 21083 of the Public Resources Code is amended to read:

21083. The Office of Planning and Research shall prepare and develop proposed guidelines for the implementation of this division by public agencies. Such guidelines shall include objectives and criteria for the orderly evaluation of projects and the preparation of environmental impact reports and negative declarations in a manner consistent with this division.

Such guidelines shall specifically include criteria for public agencies to follow in determining whether or not a proposed project may have a "significant effect on the environment". Such criteria shall require a finding that a project may have a "significant effect on the environment" if any of the following conditions exist:

(a) A proposed project has the potential to degrade the quality of the environment, curtail the range of the environment, or to achieve short-term, to the disadvantage of long-term, environmental goals.

(b) The possible effects of a project are individually limited but cumulatively considerable. As used in this subdivision, "cumulatively considerable" means that the incremental effects of an individual project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.

(c) The environmental effects of a project will cause substantial adverse effects on human beings, either directly or indirectly.

Such guidelines shall also include procedures for determining the lead agency pursuant to the provisions of Section 21165.

Such guidelines shall also include criteria for public agencies to use in determining when a proposed project is of sufficient statewide, regional, or areawide environmental significance that it should be submitted to appropriate state agencies for review and comment prior to completion of an environmental impact report or negative declaration thereon.

The Office of Planning and Research shall develop and prepare such proposed guidelines as soon as possible and shall transmit them immediately to the Secretary of the Resources Agency. No later than 60 days after the effective date of this section the Secretary of the Resources Agency shall certify and adopt such guidelines pursuant to Chapter 4.5 (commencing with Section 11371) of Part 1, Division 3, Title 2 of the Government Code, which shall become effective upon the filing thereof, provided that such guidelines shall not be adopted without compliance with Sections 11423, 11424, and 11425 of the Government Code.

SEC. 10.5. Section 21084 of the Public Resources Code is amended to read:

21084. (a) The guidelines prepared and adopted pursuant to Section 21083 shall include a list of classes of projects which have been determined not to have a significant effect on the environment and which shall be exempt from the provisions of this division. In

02679 284135 36

adopting the guidelines, the Secretary of the Resources Agency shall make a finding that the list or classification of projects referred to in this section do not have a significant effect on the environment.

(b) No project of the Department of Transportation which will result in damage to scenic resources, including, but not limited to, trees, historic buildings, rock outcroppings, or similar resources, within an official state scenic highway, as designated pursuant to Section 262 of the Streets and Highways Code, shall be exempted from this division pursuant to subdivision (a).

SEC. 11. Section 21085 of the Public Resources Code is amended to read:

21085. All classes of projects designated pursuant to Section 21084 shall be exempt from the provisions of this division.

SEC. 12. Section 21087 of the Public Resources Code is amended to read:

21087. SEC. 13. Section 21089 of the Public Resources Code is amended to read:

21089. A public agency may charge and collect a reasonable fee from any person proposing a project subject to the provisions of this division in order to recover the estimated costs incurred by the public agency in preparing a negative declaration or an environmental impact report for such project.

SEC. 15. Section 21092 is added to the Public Resources Code, to read:

21092. Any public agency which is preparing an environmental impact report or a negative declaration shall provide public notice of such fact within a reasonable period of time prior to final adoption by the public agency of such environmental impact report or negative declaration. (b) Posting of notice by the public agency on- and off-site in the area where the project is to be located.

(c) Direct mailing to owners of contiguous property.

The alternatives for providing notice specified in subdivisions (a) to (c), inclusive, shall not preclude a public agency from providing additional notice by other means if such agency so desires, nor shall the requirements of this section preclude a public agency from providing the public notice required herein at the same time and in

the same manner as public notice otherwise required by law for such project.

SEC. 16. Section 21100 of the Public Resources Code is amended to read:

21100. All state agencies, boards, and commissions shall prepare, or cause to be prepared by contract, and certify the completion of an environmental impact report on any project they propose to carry out or approve which may have a significant effect on the environment. Such a report shall include a detailed statement setting forth the following:

(a) The significant environmental effects of the proposed project.

(b) Any significant environmental effects which cannot be avoided if the project is implemented.

(c) Mitigation measures proposed to minimize the significant environmental effects including, but not limited to, measures to reduce wasteful, inefficient, and unnecessary consumption of energy.

(d) Alternatives to the proposed project.

(e) The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.

(f) Any significant irreversible environmental changes which would be involved in the proposed project should it be implemented.

(g) The growth-inducing impact of the proposed project.

The report shall also contain a statement briefly indicating the reasons for determining that various effects of a project are not significant and consequently have not been discussed in detail in the environmental impact report.

SEC. 17. Section 21100.1 is added to the Public Resources Code, to read:

21100.1. The information described in subdivisions (e) and (f) of Section 21100 shall be required only in environmental impact reports prepared in connection with the following:

(b) The adoption by a local agency formation commission of a resolution making determinations.

(c) A project which will be subject to the requirement for preparing an environmental impact statement pursuant to the requirements of the National Environmental Policy Act of 1969.

SEC. 18. Section 21151.5 is added to the Public Resources Code, to read:

21151.5. Local agencies shall establish, by ordinance or resolution, time limits, not to exceed one year, for completing environmental impact reports and negative declarations for projects described in subdivision (c) of Section 21065. Such ordinances or resolutions may establish different time limits for different types or classes of projects, but all such limits shall be measured from the date on which an application requesting approval of such project is received by the

local agency. The ordinances required by this section may provide for a reasonable extension of such time period in the event that unforeseen circumstances justify additional time and that the project applicant consents thereto.

SEC. 19. Section 21167.1 is added to the Public Resources Code, to read:

21167.1. In all actions brought pursuant to Section 21167, including the hearing of any such action on appeal from the decision of a lower court, all courts wherein such actions are or may hereafter be pending, shall give such actions preference over all other civil actions therein, in the matter of setting the same for hearing or trial, and in hearing the same, to the end that all such actions shall be quickly heard and determined.

SEC. 19.1. Section 21168 of the Public Resources Code is amended to read:

21168. Any action or proceeding to attack, review, set aside, void or annul a determination, finding, or decision of a public agency, made as a result of a proceeding in which by law a hearing is required to be given, evidence is required to be taken and discretion in the determination of facts is vested in a public agency, on the grounds of noncompliance with the provisions of this division shall be in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure.

In any such action, the court shall not exercise its independent judgment on the evidence but shall only determine whether the act or decision is supported by substantial evidence in the light of the whole record.

SEC. 19.2. Section 21168.5 of the Public Resources Code is amended to read:

21168.5. In any action or proceeding, other than an action or proceeding under Section 21168, to attack, review, set aside, void or annul a determination, finding, or decision of a public agency on the grounds of noncompliance with this division, the inquiry shall extend only to whether there was a prejudicial abuse of discretion. Abuse of discretion is established if the agency has not proceeded in a manner required by law or if the determination or decision is not supported by substantial evidence.

SEC. 20. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because there are minor savings as well as minor costs in this act which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 21. The Legislature declares that it makes no finding whether Sections 21002, 21002.1, and 21082.1, as added to the Public Resources Code by this act, are, or are not, declaratory of existing law.

In the event a license under this law shall be suspended or terminated the licensee shall immediately deposit in said trust account an amount which with funds therein contained shall be equal to the outstanding checks sold and bills unpaid.

Article 3. Confidentiality of, and Access to, Financial Records

7470. (a) Except as provided in Section 7480, no officer, employee, or agent of a state or local agency or department thereof, in connection with a civil or criminal investigation of a customer, whether or not such investigation is being conducted pursuant to formal judicial or administrative proceedings, may request or receive copies of, or the information contained in, the financial records of any customer from a financial institution unless the financial records are described with particularity and are consistent with the scope and requirements of the investigation giving rise to such request and:

(1) Such customer has authorized disclosure to such officer, employee or agent of such state or local agency or department thereof in accordance with Section 7473; or

(2) Such financial records are disclosed in response to an administrative subpoena or summons which meets the requirements of Section 7474; or

(3) Such financial records are disclosed in response to a search warrant which meets the requirements of Section 7475; or

(4) Such financial records are disclosed in response to a judicial subpoena or subpoena duces tecum which meets the requirements of Section 7476.

(b) Nothing in this section or in Sections 7473, 7474, 7475, and 7476 shall require a financial institution to inquire or determine that those seeking disclosure have duly complied with the requirements set

forth therein, provided only that the customer authorization, administrative subpoena or summons, search warrant, or judicial subpoena or order served on or delivered to a financial institution pursuant to such sections shows compliance on its face.

(c) The financial institution shall maintain for a period of five years a record of all examinations or disclosures of the financial records of a customer pursuant to this chapter, including the identity of the person examining the financial records, the state or local agency or department thereof which he represents, and a copy of the customer authorization, subpoena, summons or search warrant providing for such examination or disclosure or a copy of the certification received pursuant to subdivision (b) of Section 7480. Any record maintained pursuant to this subdivision shall be available, within five days of request, during normal business hours for review by the customer at the office or branch where the customer's account was located when examined or disclosed. A copy of such record shall be furnished to the customer upon request and payment of the reasonable cost thereof.

7471. (a) Except in accordance with requirements of Section 7473, 7474, 7475, or 7476, no financial institution, or any director, officer, employee, or agent of a financial institution, may provide or authorize another to provide to an officer, employee, or agent of a state or local agency or department thereof, any financial records, copies thereof, or the information contained therein, if the director, officer, employee or agent of the financial institution knows or has reasonable cause to believe that such financial records or information are being requested in connection with a civil or criminal investigation of the customer, whether or not such investigation is being conducted pursuant to formal judicial or administrative proceedings.

(b) This section is not intended to prohibit disclosure of the financial records of a customer or the information contained therein incidental to a transaction in the normal course of business of such financial institution if the director, officer, employee or agent thereof making or authorizing the disclosure has no reasonable cause to believe that the financial records or the information contained in the financial records so disclosed will be used by a state or local agency or department thereof in connection with an investigation of the customer, whether or not such investigation is being conducted pursuant to formal judicial or administrative proceedings.

(c) This section shall not preclude a financial institution, in its discretion, from initiating contact with, and thereafter communicating with and disclosing customer financial records to, appropriate state or local agencies concerning suspected violation of any law.

(d) A financial institution which refuses to disclose the financial records of a customer, copies thereof or the information contained therein, in reliance in good faith upon the prohibitions of subdivision (a) shall not be liable to its customer, to a state or local agency, or

to any other person for any loss or damage caused in whole or in part by such refusal.

7473. (a) A customer may authorize disclosure under paragraph (1) of subdivision (a) of Section 7470 if those seeking disclosure furnish to the financial institution a signed and dated statement by which the customer:

(1) Authorizes such disclosure for a period to be set forth in the authorization statement;

(2) Specifies the name of the agency or department to which disclosure is authorized and, if applicable, the statutory purpose for which the information is to be obtained; and

(3) Identifies the financial records which are authorized to be disclosed.

(b) No such authorization shall be required by a financial institution as a condition of doing business with such financial institution.

(c) Any officer, employee or agent of a state or local agency seeking customer authorization for disclosure of customer financial records shall include in the form which the customer signs granting authorization written notification that the customer has the right at any time to revoke such authorization, except where such authorization is required by statute.

(d) An agency or department examining the financial records of a customer pursuant to this section shall notify the customer in writing within 30 days of such examination and inform the customer that he has the right to make a written request as to the reason for such examination. Such notice shall specify the financial records which were examined and, if requested, the reason for such examination.

7474. (a) An officer, employee, or agent of a state or local agency or department thereof, may obtain financial records under paragraph (2) of subdivision (a) of Section 7470 pursuant to an administrative subpoena or summons otherwise authorized by law and served upon the financial institution only if:

(1) The person issuing such administrative summons or subpoena has served a copy of the subpoena or summons on the customer pursuant to Chapter 4 (commencing with Section 413.10) of Title 5 of Part 2 of the Code of Civil Procedure, which copy may be served by an employee of the state or local agency or department thereof; and

(2) The subpoena or summons includes the name of the agency or department in whose name the subpoena or summons is issued and the statutory purpose for which the information is to be obtained; and

(3) The customer has not moved to quash such subpoena or summons within 10 days of service.

(b) (1) In issuing an administrative subpoena or summons pursuant to subdivision (a), the Attorney General or the Commissioner of Corporations pursuant to the enforcement of

statutes within his jurisdiction may petition a court, and the court, upon a showing of a reasonable inference that a law subject to the jurisdiction of the petitioning agency has been or is about to be violated, may order that service upon the customer pursuant to paragraph (1) of subdivision (a) and the 10-day period provided for in paragraph (3) of subdivision (a) be waived or shortened. For the purpose of this subdivision, an "inference" is a deduction that may reasonably be drawn by the Attorney General or the Commissioner of Corporations from facts relevant to the investigation.

(2) Such petition may be presented to the court in person or by telephoned oral statement which shall be recorded and transcribed. In the case of telephonic petition, the recording of the sworn oral statement and the transcribed statement shall be certified by the magistrate receiving it and shall be filed with the clerk of the court.

(3) Where the court grants such petition, the court shall order the petitioning agency to notify the customer in writing within a period to be determined by the court but not to exceed 60 days. The notice shall specify the information otherwise required by paragraph (2) of subdivision (a), and shall also specify the financial records which were examined pursuant to the administrative subpoena or summons. Upon renewed petition, the time of notification may be extended for additional 30-day periods upon good cause shown.

(4) The Attorney General shall not provide financial records obtained pursuant to the procedure authorized in this subdivision to a local law enforcement agency unless that agency has independently obtained authorization to receive such financial records pursuant to the provisions of this chapter.

(c) Except as provided in this subdivision, nothing in this chapter shall preclude a financial institution from notifying a customer of the receipt of an administrative summons or subpoena. A court may order a financial institution to withhold notification to a customer of the receipt of an administrative summons or subpoena when the court issues an order pursuant to subdivision (b) and makes a finding that notice to the customer by the financial institution would impede the investigation.

(d) If a customer files a motion to quash an administrative subpoena or summons issued pursuant to subdivision (a), such proceedings shall be afforded priority on the court calendar and the matter shall be heard within 10 days from the filing of the motion to quash.

7475. An officer, employee, or agent of a state or local agency or department thereof, may obtain financial records under paragraph (3) of subdivision (a) of Section 7470 only if he obtains a search warrant pursuant to Chapter 3 (commencing with Section 1523) of Title 12 of Part 2 of the Penal Code. Examination of financial records may occur as soon as the warrant is served on the financial institution. Nothing in this chapter shall preclude a financial institution from notifying a customer of the receipt of a search warrant, unless a court orders the financial institution to withhold notification to the

customer upon a finding that such notice would impede the investigation.

7476. (a) Except as provided in subdivision (b), an officer, employee, or agent of a state or local agency or department thereof, may obtain financial records under paragraph (4) of subdivision (a) of Section 7470 pursuant to a judicial subpoena or subpoena duces tecum only if:

(1) The subpoena or subpoena duces tecum is issued and served upon the financial institution and the customer in compliance with Chapter 2 (commencing with Section 1985) of Title 3 of Part 4 of the Code of Civil Procedure; and

(2) Ten days after service pass without the customer giving notice to the financial institution that the customer has moved to quash the subpoena. If testimony is to be taken, or financial records produced, before a court, the 10-day period provided for in this subdivision may be shortened by the court issuing the subpoena or subpoena duces tecum upon a showing of reasonable cause. The court shall direct that all reasonable measures be taken to notify the customer within the time so shortened.

(b) (1) A grand jury, upon resolution adopted by a majority of its members, may obtain financial records pursuant to a judicial subpoena or subpoena duces tecum which, upon a showing of probable cause, is personally signed and issued by a judge of the superior court in accordance with Section 939.2 of the Penal Code.

(2) Upon issuing such subpoena or subpoena duces tecum, the judge shall order the grand jury to notify the customer in writing within 60 days of such issuance; provided, however, that the judge may shorten the 60-day period, or upon a showing of good cause, may extend such period for additional 30-day periods. The notice shall specify the financial records which were examined and the reason for such examination.

Article 4. Exceptions

7480. Nothing in this chapter prohibits any of the following:

(a) The dissemination of any financial information which is not identified with, or identifiable as being derived from, the financial records of a particular customer.

(d) The examination by, or disclosure to, any supervisory agency of financial records which relate solely to the exercise of its supervisory function. The scope of an agency's supervisory function shall be determined by reference to statutes which grant authority to examine, audit, or require reports of financial records or financial institutions as follows:

(1) With respect to the Superintendent of Banks by reference to Division 1 (commencing with Section 99) of the Financial Code.

(2) With respect to the Department of Savings and Loans by reference to Division 2 (commencing with Section 5000) of the Financial Code.

(b) The Attorney General shall make rules and regulations as to the time for filing reports, the contents thereof, and the manner of executing and filing them. He may classify trusts and other relationships concerning property held for a charitable purpose as to purpose, nature of assets, duration of the trust or other relationship, amount of assets, amounts to be devoted to charitable purposes, nature of trustee, or otherwise, and may establish different rules for the different classes as to time and nature of the reports required to the ends (1) that he shall receive reasonably current, periodic reports as to all charitable trusts or other relationships of a similar nature, which will enable him to ascertain whether they are being properly administered, and (2) that periodic reports shall not unreasonably add to the expense of the administration of charitable trusts and similar relationships. The Attorney General may suspend the filing of reports as to a particular charitable trust or relationship for a reasonable, specifically designated time upon written application of the trustee filed with the Attorney General and after the Attorney General has filed in the register of charitable trusts a written statement that the interests of the beneficiaries will not be prejudiced thereby and that periodic reports are not required for proper supervision by his office.

(b) Prior to any material modification of its plan or operations, a plan shall give notice thereof to the commissioner, who shall, within 20 business days or such additional time as the plan may specify, by order approve, disapprove, suspend, or postpone the effectiveness of any such change, subject to the provisions of Section 1354.

(c) A solicitor's license shall be issued only to an individual. No individual may act as a solicitor except as an employee of a plan or solicitor firm.

(d) The fee for filing an application for a solicitor license is fifty dollars ($50), and payment of this amount shall keep the license, if granted, in effect during the calendar year during which it is granted, and if that year is an even-numbered year, during the following calendar year. Every solicitor who has secured a license from the commissioner shall, in order to keep such license in effect for an additional two-year period, pay a renewal fee of fifty dollars ($50) on or before the 15th day of December preceding the additional period.

(e) The fee for filing an application for a solicitor firm license shall be two hundred dollars ($200), and payment of this amount shall keep the license, if granted, in effect during the calendar year during which it is granted and if that year is an even-numbered year, during the following calendar year. Every solicitor firm which has secured a license from the commissioner shall, in order to keep such license in effect for an additional two-year period, pay a renewal fee of two hundred dollars ($200) on or before the 15th day of December preceding the additional period.

(f) The license of every solicitor and solicitor firm issued under this chapter shall remain in effect until revoked or suspended by the commissioner.

(g) The commissioner may, by regulation, reduce the fees required by subdivisions (d) and (e) for persons licensed pursuant to Chapter 5 (commencing with Section 1621) of Part 2 of Division

1 of the Insurance Code, but such reduced fees shall not be less than one-half of the fee prescribed in such subdivisions.

(h) Each application shall be accompanied by authorization for disclosure to the commissioner of the financial records of the solicitor or solicitor firm pursuant to Section 7473 of the Government Code.

SEC. 8. Section 904 is added to the Insurance Code, to read:

904. In addition to the annual statement required to be filed pursuant to Section 900, each admitted insurer shall file an authorization for disclosure to the commissioner of financial records pertaining to such funds pursuant to Section 7473 of the Government Code, to be effective until the next such annual filing.

SEC. 9. Section 1703 is added to the Insurance Code, to read:

1703. Every applicant for an original or a renewal license to act as an insurance agent, broker or solicitor, life agent, life analyst, surplus line broker, special lines surplus line broker, motor club agent, or bail agent or solicitor shall, as part of the application, endorse an authorization for disclosure to the commissioner of financial records of any fiduciary funds as defined in Section 1733, pursuant to Section 7473 of the Government Code.

SEC. 10. Section 11703.4 is added to the Vehicle Code, to read:

11703.4. The department may refuse to issue a license to a dealer when it determines that an applicant for a dealer's license has failed to effectively endorse an authorization for disclosure of an account or accounts relating to the operation of the dealership as provided for in Section 7473 of the Government Code.

SEC. 11. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1322

An act to amend Sections 13830, 14186, and 14189 of the Education Code, relating to the State Teachers' Retirement System.

[Approved by Governor September 28, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 13830 of the Education Code is amended to read:

13830. "Child" or "children" means:

(a) The unmarried offspring of a member under 18 years of age, not adopted by a person other than the spouse, and dependent upon the member on the effective date of disability allowance or death, or

(b) The unmarried child, under 18 years of age, adopted by the member, and dependent upon the member on the effective date of disability allowance or death, or

(c) The unmarried stepchild of the member, under 18 years of age, and dependent upon the member on the effective date of disability allowance or death, or

(d) The dependent unmarried child described in subdivision (a), (b) or (c) above who is under the age of 22 and who is registered as a full-time student, as defined in Section 13838.1 on the effective date of disability allowance or death.

A dependent unmarried child who is a full-time student in the month of attaining age 22, shall be deemed not to have attained such age until the first day of the month following the end of the school quarter or semester which was in progress in the month of attainment of age 22.

For those members receiving a disability allowance and who subsequently die, the maximum number of children for family benefits shall be those who were eligible on the effective date of disability allowance.

For purposes of Sections 14152, 14155 and 14156, "child" or

"children" means any offspring or adopted children of the member, retirant or other beneficiary.

SEC. 2. Section 14186 of the Education Code is amended to read:

14186. If on the date of death the member had met the following conditions:

(a) Death occurred after June 30, 1972, and

(b) Had one or more years of credited service, and

(c) If there had been a break in service of more than one year, one-half year of credited service had been performed after the end of last break, and

(d) The provisions of Sections 14180 and 14182 have been met, or

(e) Lacking the above, was a disabilitant receiving a disability allowance which began to accrue after June 30, 1972; a family allowance based upon projected salary shall be paid subject to the provisions of this article and Section 14284 as follows:

(1) To the surviving spouse, having financial responsibility for at least one dependent child who qualifies under Section 13830 there shall be paid an amount, in monthly installments, equal to 40 percent of the deceased's final compensation, plus 10 percent of such final compensation for each child, up to a maximum of 90 percent of such final compensation. If there are children who are not in the care of the surviving spouse, the amount of the allowance in excess of 40 percent of the final compensation shall be divided equally among all children and is payable to the trustee of the estate of such children under age 18 or their guardian if no trustee is designated or to the children age 18 and over, or

(2) If there is no surviving spouse or the surviving spouse subsequently dies or remarries and there are children who qualify under Section 13830, there shall be paid to the guardian of such children under age 18, or to the child if over age 18, an amount payable in monthly installments equal to 10 percent of the deceased's final compensation, up to a maximum of 50 percent of such final compensation. If there are more than five such children, they shall share equally in the maximum of 50 percent, or

(3) If there is no allowance being paid under paragraphs (1) or (2) the unremarried spouse age 60 or over shall receive a monthly payment equal to the amount which would have been payable to such spouse based on projected service and projected salary, had the member continued service to age 60 and at that time elected option number three. The allowance payable under this paragraph shall be increased by application of the benefit improvement factor for time which elapses between the date the member would have reached age 60 and the date the allowances commence to accrue under this paragraph. For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the allowance shall not begin to accrue until the spouse attains age 60.

(4) If there is no surviving spouse or children entitled to

allowances under paragraphs (1), (2), or (3) at the time of the member's death, the dependent parent, age 60, or upon attainment of that age, shall receive an allowance based on projected service and projected salary equal to the amount which would have been paid if the member had retired at age 60 and elected option number three. If there are two parents who qualify under this paragraph the total benefit will be computed on the assumption that the youngest parent is the beneficiary, and the total shall be divided equally for so long as there are two such qualifying parents. Otherwise, the total amount shall be payable to the one who qualifies.

The benefits payable under paragraphs (1) and (2) because of the death of a disabilitant shall be based on projected salary.

Allowances payable under this section are in lieu of the death benefit payable under subsection (1) of subdivision (b) of Section 14180, irrespective of the beneficiary designated to receive that benefit, except that if there are no children who qualify for an allowance under Section 13830, a spouse or the dependent parent or parents may elect, prior to the receipt of the first payment under paragraph (3) or (4), to receive the accumulated contributions in a lump sum subject to a reduction for any payments made from the account for any prior qualified persons.

SEC. 2.5. Section 14186 of the Education Code is amended to read:

14186. If on the date of death the member had met the following conditions:

(a) Death occurred after June 30, 1972, and

(b) Had one or more years of credited service, and

(c) If there had been a break in service of more than one year, one-half year of credited service had been performed after the end of last break, and

(d) The provisions of Sections 14180 and 14182 have been met, or

(e) Lacking the above, was a disabilitant receiving a disability allowance which began to accrue after June 30, 1972; a family allowance based upon projected salary shall be paid subject to the provisions of this article and Section 14284 as follows:

(1) To the surviving spouse, having financial responsibility for at least one dependent child who qualifies under Section 13830 there shall be paid an amount, in monthly installments, equal to 40 percent of the deceased's final compensation, plus 10 percent of such final compensation for each child, up to a maximum of 90 percent of such final compensation. If there are children who are not in the care of the surviving spouse, the amount of the allowance in excess of 40 percent of the final compensation shall be divided equally among all children and is payable to the trustee of the estate of such children under age 18 or their guardian if no trustee is designated or to the children age 18 and over, or

(2) If there is no surviving spouse or the surviving spouse subsequently dies or remarries and there are children who qualify under Section 13830, there shall be paid to the trustee of the estate

of surviving children under 18 as designated by the member, or the guardian of such children under age 18 if no trustee is designated, or to the child if over age 18, an amount payable in monthly installments equal to 10 percent of the deceased's final compensation, up to a maximum of 50 percent of such final compensation. If there are more than five such children, they shall share equally in the maximum of 50 percent, or

(3) If there is no allowance being paid under paragraphs (1) or (2) the unremarried spouse age 60 or over shall receive a monthly payment equal to the amount which would have been payable to such spouse based on projected service and projected salary, had the member continued service to age 60 and at that time elected option number three. The allowance payable under this paragraph shall be increased by application of the benefit improvement factor for time which elapses between the date the member would have reached age 60 and the date the allowances commence to accrue under this paragraph. For the calculation of the benefit, it shall be considered that the member died on the June 30 following the actual date of death and the spouse reached age 60 on the June 30 prior to attainment of that age, but the allowance shall not begin to accrue until the spouse attains age 60.

(4) If there is no surviving spouse or children entitled to allowances under paragraphs (1), (2), or (3) at the time of the member's death, the dependent parent, age 60, or upon attainment of that age, shall receive an allowance based on projected service and projected salary equal to the amount which would have been paid if the member had retired at age 60 and elected option number three. If there are two parents who qualify under this paragraph the total benefit will be computed on the assumption that the youngest parent is the beneficiary, and the total shall be divided equally for so long as there are two such qualifying parents. Otherwise, the total amount shall be payable to the one who qualifies.

The benefits payable under paragraph (1) and (2) because of the death of a disabilitant shall be based on projected salary.

Allowances payable under this section are in lieu of the death benefit payable under subsection (1) of subdivision (b) of Section 14180 irrespective of the beneficiary designated to receive that benefit, except that if there are no children who qualify for an allowance under Section 13830, a spouse or the dependent parent or parents may elect, prior to the receipt of the first payment under paragraph (3) or (4), to receive the accumulated contributions in a lump sum subject to a reduction for any payments made from the account for any prior qualified persons.

SEC. 3. Section 14189 of the Education Code is amended to read:

14189. There shall be deducted from the benefit payable in paragraphs (1) and (2) of Section 14186 any benefits payable to a beneficiary from other public systems, exclusive of benefits payable for reasons other than the same event which caused payment of the family benefit.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 3641 are both chaptered and become effective January 1, 1977, both bills amend Section 14186 of the Education Code, and this bill is chaptered after Assembly Bill No. 3641, that the amendments to Section 14186 proposed by both bills be given effect and incorporated in Section 14186 in the form set forth in Section 2.5 of this act. Therefore, Section 2.5 of this act shall become operative only if this bill and Assembly Bill No. 3641 are both chaptered and become effective January 1, 1977, both amend Section 14186, and this bill is chaptered after Assembly Bill No. 3641, in which case Section 2 of this act shall not become operative.

The people of the State of California do enact as follows:

SECTION 1. Section 18938.5 is added to the Government Code, to read:

18938.5. When the employment list resulting from examination has been established, each competitor shall be notified in writing of the results of the examination. For competitors unsuccessful in an oral examination, the board shall, upon the written request of the competitor, specify the reasons why such person was unsuccessful.

SEC. 2. Section 18938.6 is added to the Government Code, to read:

18938.6. The board shall provide by rule for the inspection of examination papers for all written test competitors.

CHAPTER 1324

An act to add Section 20818 to the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 28, 1976 Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 20818 is added to the Government Code, to read:

20818. Notwithstanding any other provisions of this part, when the governing body of a contracting agency determines that because of an impending curtailment of, or change in the manner of performing service, the best interests of the agency would be served, a local member shall be eligible to receive additional service credit if the following conditions exist:

(a) The member is employed in a job classification, department, or other organizational unit designated by the governing body of the contracting agency and retires within 180 days of the effective date designated by the governing body.

(b) The governing body transmits to the retirement fund an amount determined by the board which is equal to the actuarial equivalent of the difference between the allowance the member receives after the receipt of service credit under this section and the amount he would have received without such service credit. The transfer to the retirement fund shall be made in a manner and time period acceptable to the employer and the board.

(c) The governing body shall certify that it is electing to exercise the provisions of this section, because of impending mandatory transfers, demotions, and layoffs, resulting from the curtailment of its services.

The amount of service credit shall not be more than two years regardless of credited service and shall not exceed the number of years intervening between the date of his retirement and the date he would be required to be retired because of age.

A governing body which elects to make the payment prescribed by subdivision (b) shall make such payment with respect to all eligible employees who retire during the specified period.

This section shall not be applicable to any member otherwise eligible if such member receives any unemployment insurance payments during the specified period.

Any member who qualifies under this section, upon subsequent reentry to the system shall forfeit the service credit acquired under this section.

This section shall not apply to any member who is not employed by the contracting agency during the period designated in subdivision (a).

This section shall not apply to any contracting agency unless and until the agency elects to be subject to the provision of this section by amendment to its contract made in the manner prescribed for approval of contracts, except an election among the employees is not required, or, in the case of contracts made after the effective date of this section, by express provision in such contract making the contracting agency subject to the provisions of this section.

This section shall remain in effect only until January 1, 1979, and as of such date is repealed, unless a latter enacted statute, which is chaptered before January 1, 1979, deletes or extends such date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act must take effect immediately in order that local agencies may, at the earliest possible time, encourage the retirement of senior employees and thereby avoid the expense, delay, and hardship which will be visited upon local employees if mandatory transfer, layoff, or demotion become necessary.

CHAPTER 1325

An act making an appropriation for the state park system, and in this connection amending and supplementing the Budget Act of 1976 by adding Section 2.5A thereto, and declaring the urgency thereof, to take effect immediately.

CAPITAL OUTLAY

Resources

403.1A—For capital outlay, Department of Parks and Recreation, for purposes set forth in subdivisions (a) and (b) of Section 5096.15 of the Public Resources Code, for expenditure during the 1976–77 fiscal year, payable from the State Beach, Park, Recreational, and Historical Facilities Fund of 1964 766,886

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the state to acquire and preserve lands of significant environmental value, it is necessary that this act take immediate effect.

CHAPTER 1326

An act relating to the state park system, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 27, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The sum of two hundred fifty-five thousand dollars ($255,000) is hereby appropriated from the Collier Park Preservation Fund to the Department of Parks and Recreation for acquisition, as a unit of the state park system, of approximately 13.9 acres, and improvements thereon, of property situated in the County of Contra Costa near Danville and known as "Tao House," the former

residence of the playwright Eugene O'Neill. No funds appropriated for this purpose may be expended until the department enters into an agreement with the County of Contra Costa or The Eugene O'Neill Foundation, Tao House, a California nonprofit corporation, or both the county and foundation (hereinafter referred to, singly and jointly, as the "operator"), for the development, improvement, restoration, care, maintenance, and control of the property, in accordance with plans and standards approved by, and under the supervision of, the department, by the operator and at the operator's expense. The agreement shall stipulate that the operator shall restore the property so as to reflect its historical connections with Eugene O'Neill and his plays written during his residence there and that the property shall be used as a cultural center for the benefit of the people of the State of California and may be used for the purpose of encouraging and fostering California playwrights and dramatic performers and pursuant to such terms and conditions as the California Arts Council shall develop, in conjunction with the operator, to achieve that purpose. The agreement shall also stipulate that the operator shall donate to the state all funds, from whatever source, received for the express purpose of acquiring the property.

SEC. 2. The Director of Parks and Recreation shall transmit to the State Treasurer, for deposit in the Collier Park Preservation Fund, any funds donated pursuant to the stipulation in the agreement, as required by Section 1.

SEC. 3. The acquisition authorized by this act shall be subject to the Property Acquisition Law (Part 11 (commencing with Section 15850) of Division 3 of Title 2 of the Government Code).

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Inasmuch as the foundation has already made a downpayment on the property and inasmuch as additional interest costs will be incurred and additional property taxes will become due if an appropriation for the purchase of the property is not made promptly during the 1975–76 Regular Session of the Legislature, it is necessary that this act take effect immediately.

CHAPTER 1327

An act to add and repeal Title 7.75 (commencing with Section 67450) to the Government Code, relating to mountain and coastal resources, and making an appropriation therefor.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Title 7.75 (commencing with Section 67450) is added to the Government Code, to read:

TITLE 7.75. SANTA MONICA MOUNTAINS COMPREHENSIVE PLANNING COMMISSION

CHAPTER 1. GENERAL PROVISIONS

67450. The Legislature hereby finds and declares that the Santa Monica Mountains Zone, as defined in Section 67464, is a unique and valuable economic, environmental, agricultural, scientific, educational, and recreational resource which should be held in trust for present and future generations; that as the last large undeveloped area contiguous to the shoreline within the greater Los Angeles metropolitan region, comprised of Los Angeles and Ventura Counties, it provides essential relief from the urban environment; and that it exists as a single ecosystem in which changes that affect one part may also affect all other parts; and that the preservation and protection of this resource is in the public interest.

67451. The Legislature further finds and declares that planning for the zone is fragmented and there are ineffective means of determining and resolving conflicting interjurisdictional values, or of evaluating individual projects within the zone as to their effect on the entire region; that in the absence of a governmental mechanism to perform such evaluations, piecemeal development projects occurring within the zone may result in the irreplaceable loss of open space and recreational resources, in the physical and biological deterioration of air, land and water systems within the zone, and may adversely affect regional life-support systems, including fish and wildlife, therefore being harmful to the needs of the present and future population of the region.

67452. The Legislature further finds and declares that in order to protect the public interest in the zone, a regional approach may be necessary, to be carried out by the Santa Monica Mountains Comprehensive Planning Commission created by this title and comprised of representatives of the state government, cities and counties in the region, and the general public; that this approach, treating the zone as a unit, should begin with a detailed study of all the characteristics of the zone which are specified in the final report of the Ventura-Los Angeles Mountain and Coastal Study Commission, and should give consideration to the master plans of cities and counties of jurisdiction within the zone; and that the study should lead to the preparation of a comprehensive and specific plan, which is capable of implementation, for the conservation and development of the zone, consistent with the preservation of the resource as set forth in Section 67450.

67453. This title shall be known and may be cited as the Santa Monica Mountains Comprehensive Planning Act.

CHAPTER 2. DEFINITIONS

67460. Unless the context otherwise requires, the definitions set forth in this chapter govern the construction of this title.

67461. "Commission" means the Santa Monica Mountains Comprehensive Planning Commission.

67462. "Region" means the greater Los Angeles metropolitan region, comprised of Los Angeles and Ventura Counties.

67463. (a) "Zone" means the Santa Monica Mountains Zone, which includes that part of the land and water area of the greater Los Angeles metropolitan region, seaward to the outermost limit of the state's jurisdiction, landward by the shortest possible line to the mouth of Calleguas Creek, thence following Calleguas Creek northward to its intersection with the corporate boundary of Camarillo, thence following the southern boundary of the City of Camarillo eastward until it intersects the Ventura Freeway, thence following the Ventura Freeway eastward to a point of intersection with the western boundary of the Malibu Creek Watershed. The northern boundary continues thence along the boundary of the Watershed to its intersection again with the Ventura Freeway on the east; thence eastward along this freeway to its intersection with the corporate boundary of the City of Los Angeles, thence continuing on a line drawn one-quarter of a mile south of the Ventura Freeway to its intersection with Ventura Boulevard and continuing on a line one-quarter mile south from Ventura Boulevard eastward to its intersection with Sepulveda Boulevard; thence continuing eastward along Valley Vista Boulevard to its intersection with Dixie Canyon Avenue and from this point continuing eastward on a line one-quarter mile south of Ventura Boulevard to its intersection with a linear projection of Lankershim Boulevard and there northeasterly on this projection and continuing on Lankershim Boulevard to its intersection with Cahuenga Boulevard, thence east along Cahuenga Boulevard to its intersection with a linear projection of Barham Boulevard, and thence northeasterly along such projection and continuing upon Barham Boulevard to its intersection with the Los Angeles River, and eastward along the south bank of the Los Angeles River to its intersection with the boundary of Griffith Park, thence following the Griffith Park boundary southward and westward to its westernmost southern boundary point, thence following a direct line drawn southwest to the intersection of Sunset Boulevard with the corporate boundary of the City of Los Angeles near the intersection of Sunset Boulevard and Marmount Lane, thence continuing westward following the Los Angeles corporate boundary to its intersection with the boundary of the City of Beverly Hills, thence following the northern boundary of the City of Beverly Hills until it returns to Sunset Boulevard, thence following Sunset Boulevard westward to its point of intersection with the Pacific Coast Highway (Route 1), thence seaward on this line to the outermost limit of the state's jurisdiction and also including the area commonly known as Elysian Park.

(b) "Zone" does not include any area located in the coastal zone as defined in Section 30103 of the Public Resources Code and shall not be subject to the provisions of this division.

This subdivision shall become operative only if Senate Bill No. 1277 of the 1975–76 Regular Session of the Legislature is enacted.

CHAPTER 3. SANTA MONICA MOUNTAINS COMPREHENSIVE PLANNING COMMISSION

67470. The Santa Monica Mountains Comprehensive Planning Commission is hereby created. The commission shall consist of the following 14 members:

The public shall be given reasonable prior notice of the time and place of commission meetings and hearings, and all such meetings and hearings shall be open to the public.

(b) All meetings and hearings of the commission shall be held at a place reasonably convenient to its members and the public in a

meeting room that affords adequate space for its members, its staff, the news media, and the public that may reasonably be expected to attend.

(c) Commission actions are subject to the following conditions:

(1) No action may be taken except at a regularly scheduled meeting.

(2) No action may be taken unless a quorum, consisting of eight members, is present at the meeting.

(3) All actions require the affirmative vote of eight members.

67473. The above considerations shall include an examination of the relationship of the zone to the region. Upon the basis of such studies, the commission shall prepare a comprehensive and specific plan, which is capable of implementation, for the conservation and development of the zone. The regional plan shall include the following correlated elements, and in developing these elements the commission shall consider the cumulative impact of the problems of air pollutants, surface runoff, flooding, erosion, siltation or landsliding, or development of new sanitary facilities that would cause material pollution of streams, aquifers, or ocean waters:

(f) An economic element which reflects the cost-benefit analysis provided for in this section.

67481. (a) In making its study and developing its comprehensive plan, the commission shall cooperate to the fullest extent possible with all affected local and areawide agencies, which agencies shall provide to the commission any available existing data, including plans, which shall assist the commission in carrying out its responsibilities pursuant to this title. In order to avoid duplication of work, the commission shall make use of available data. The commission shall transmit an official transcript of its hearings on any issue it deems to be of major regional importance to the overall federally recognized regional planning agency of jurisdiction.

(b) In preparing its comprehensive plan, the commission shall, to the fullest extent possible, coordinate its planning for the zone with the planning of the coastal zone under the provisions of Division 20 (commencing with Section 30000) of the Public Resources Code.

This subdivision shall become operative only if Senate Bill No. 1277 of the 1975–76 Regular Session of the Legislature is enacted.

(c) Do any and all other things necessary to carry out the purposes of this title.

(d) Sue and be sued.

67483. The executive director shall, subject to approval of the commission, employ such staff as may be necessary to carry out the functions of the commission.

67484. Within six months from the date of the first meeting of the commission, the chairman of the commission, in collaboration with and with the concurrence of the commission, shall appoint a citizens' advisory committee to assist and advise the commission in carrying out its functions.

CHAPTER 5. FINAL REPORT AND TERMINATION OF EXISTENCE OF THE COMMISSION

67485. The commission shall file a final report with the Governor and the Legislature not later than July 1, 1978.

67486. The final report shall contain all of the following:

(a) The results of the detailed study made by the commission.

(b) The comprehensive plan developed by the commission for the conservation and development of the zone.

(c) The commission's recommendation of the appropriate agency or agencies to maintain and carry out the comprehensive plan.

(d) The commission's estimate of the approximate amount of money that will be necessary to maintain and carry out the comprehensive plan, including, but not limited to, the commission's estimate of the approximate amount of money that will be necessary to purchase real property which the commission may recommend to be purchased for public use, and an indication of the possible sources of money for such purposes.

(e) Such other information and recommendations as the commission deems desirable.

67487. Upon adoption of its comprehensive plan, the commission shall transmit the plan to the Governor, the Legislature, the Office of Planning and Research, the City of Los Angeles, the County of Los Angeles, the County of Ventura, the Southern California Association of Governments, the City of Thousand Oaks, the Secretary of the Resources Agency, and to any public agency as the commission shall deem appropriate.

67488. This title shall remain in effect only until January 1, 1979, and as of that date is repealed.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the General Fund to the Santa Monica Mountains Comprehensive Planning Commission, established pursuant to Title 7.75 (commencing with Section 67450) of the Government Code, for expenditure for the support of the commission.

SEC. 4. CHAPTER 1328

An act making an appropriation for state parks, and declaring the urgency thereof, to take effect immediately.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 1329

An act to amend Section 66801 of the Government Code, relating to Tahoe regional planning.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 66801 of the Government Code is amended to read:

66801. The provisions of this interstate compact executed between the States of Nevada and California are as follows:

TAHOE REGIONAL PLANNING COMPACT

Article I. Findings and Declarations of Policy

It is found and declared that:

(a) The waters of Lake Tahoe and other resources of the region

are threatened with deterioration or degeneration, which endangers the natural beauty and economic productivity of the region.

(b) The state and federal interest and investment in the Lake Tahoe region is substantial.

(c) The Tahoe region exhibits unique state and national environmental and ecological values which are irreplaceable.

(d) By virtue of the special conditions and circumstances of the natural ecology, developmental pattern, population distribution and human needs in the Lake Tahoe region, the region is experiencing problems of resource use and deficiencies of environmental control.

(e) Increasing urbanization is threatening the ecological values of the Tahoe region and threatening the public opportunities for use of the public lands.

(f) Maintenance of the social and economic health of the Tahoe region depends on maintaining the significant scenic, recreational, educational, scientific, natural and public health values provided by the Lake Tahoe Basin.

(g) There is a state and national interest in protecting, preserving and enhancing these values for the residents of and visitors to the area.

(h) The primary responsibility for the provision of recreational, educational, and scientific opportunities, the preservation of scenic and natural areas, and the safeguarding of the public who live, work and play in or visit the area rests with the States of California and Nevada and the federal government.

(i) In recognition of the public investment and multistate and national significance of the recreational values, the federal government has an interest in the management of the resources and should assist in the states fulfilling their responsibilities.

(j) There is a need to maintain an equilibrium between the region's natural endowment and its manmade environment, to preserve the scenic beauty and recreational opportunities of the region, to assure the protection of the public health by preserving the airshed of the region; and it is recognized that in order to enhance the efficiency and governmental effectiveness of the region, it is imperative that there be established an areawide planning agency with power to adopt and enforce a regional plan of resource conservation, use and renewal to exercise effective environmental controls and to perform other essential functions as enumerated in this title, in concert with state and federal policy.

(1) The term of office of each lay member of the advisory planning commission shall be two years.

(2) The position of each member of the advisory planning commission shall be considered vacated upon loss of any of the qualifications required for appointment, and in such event the appointing authority shall appoint a successor.

(3) The advisory planning commission shall elect from its own members a chairperson and a vice chairperson, whose terms of office shall be two years and who may be reelected. If a vacancy occurs in either office, the advisory planning commission shall fill such vacancy for the unexpired term.

(4) A majority of the members of the advisory planning commission shall constitute a quorum for the transaction of the business of the commission. A majority vote of the quorum present shall be required to take action with respect to any matter.

(i) The agency shall establish and maintain an office within the region, and for this purpose the agency may rent or own property and equipment. Every plan, ordinance and other record of the agency which is of such nature as to constitute a public record under the law of either the State of California or the State of Nevada shall be open to inspection and copying during regular office hours.

(j) Each authority charged under this compact or by the law of either state with the duty of appointing a member of the governing body of the agency shall by certified copy of its resolution or other action notify the Secretary of State of its own state of the action taken. Upon receipt of certified copies of the resolutions or notifications appointing the members of the governing body, the Secretary of State of each respective state shall notify the Governor of the state who shall, after consultation with the Governor of the

other state, issue a concurrent call for the organization meeting of the governing body at a location determined jointly by the two governors.

(k) Each state may provide by law for the disclosure or elimination of conflicts of interest on the part of members of the governing body appointed from that state. The California members shall be considered state officers for purposes of Chapter 8 (commencing with Section 87100) of Title 9.

Article IV. Personnel

(a) The governing body shall determine the qualification of, and it shall appoint and fix the salary of, the executive officer of the agency, and shall employ such other staff and legal counsel as may be necessary to execute the powers and functions provided for under this act or in accordance with any intergovernmental contracts or agreements the agency may be responsible for administering.

(b) Agency personnel standards and regulations shall conform insofar as possible to the regulations and procedures of the civil service of the State of California or the State of Nevada, as may be determined by the governing body of the agency; and shall be regional and bistate in application and effect; provided that the governing body may, for administrative convenience and at its discretion, assign the administration of designated personnel arrangements to an agency of either state, and provided that administratively convenient adjustments be made in the standards and regulations governing personnel assigned under intergovernmental agreements.

(c) The agency may establish and maintain or participate in such additional programs of employee benefits as may be appropriate to afford employees of the agency terms and conditions of employment similar to those enjoyed by employees of California and Nevada generally.

(d) No member or employee of the agency shall be liable in damages for any act or omission in the course of his official duties, unless such act or omission is malicious.

Article V. Planning

(a) In preparing each of the plans required by this article and each amendment thereto, if any, subsequent to its adoption, the planning commission after due notice shall hold at least one public hearing which may be continued from time to time, and shall review the testimony and any written recommendations presented at such hearing before recommending the plan or amendment. The notice required by this paragraph shall be given at least 20 days prior to the public hearing by publication at least once in a newspaper or combination of newspapers whose circulation is general throughout the region and in each county a portion of whose territory lies within the region.

The planning commission shall then recommend such plan or amendment to the governing body for adoption by ordinance. The governing body may adopt, modify or reject the proposed plan or amendment, or may initiate and adopt a plan or amendment without referring it to the planning commission. If the governing body initiates or substantially modifies a plan or amendment, it shall hold at least one public hearing thereon after due notice as required in this paragraph.

If a request is made for the amendment of the regional plan by:

(1) A political subdivision a part of whose territory would be affected by such amendment; or

(2) The owner or lessee of real property which would be affected by such amendment,

the governing body shall complete its action on such amendment within 60 days after such request is delivered to the agency.

Tahoe Regional Plan

(b) Within 15 months after the formation of the agency, the planning commission shall recommend a regional plan. Within 18 months after the formation of the agency, the governing body shall adopt a regional plan. After adoption, the planning commission and governing body shall continuously review and maintain the regional plan. The regional plan shall consist of a diagram, or diagrams, and text, or texts setting forth the projects and proposals for implementation of the regional plan, a description of the needs and goals of the region and a statement of the policies, standards and elements of the regional plan.

The regional plan shall include the following correlated elements:

(1) A land use plan for the integrated arrangement and general location and extent of, and the criteria and standards for, the uses of land, water, air, space and other natural resources within the region, including but not limited to, an indication or allocation of maximum population densities.

(2) A transportation plan for the integrated development of a regional system of transportation, including but not limited to, freeways, parkways, highways, transportation facilities, transit routes, waterways, navigation and aviation aids and facilities, and appurtenant terminals and facilities for the movement of people and goods within the region.

(3) A conservation plan for the preservation, development, utilization, and management of the scenic and other natural resources within the basin, including but not limited to, soils, shoreline and submerged lands, scenic corridors along transportation routes, open spaces, recreational and historical facilities.

(4) A recreation plan for the development, utilization, and management of the recreational resources of the region, including but not limited to, wilderness and forested lands, parks and

parkways, riding and hiking trails, beaches and playgrounds, marinas and other recreational facilities.

(5) A public services and facilities plan for the general location, scale and provision of public services and facilities, which, by the nature of their function, size, extent and other characteristics are necessary or appropriate for inclusion in the regional plan.

In formulating and maintaining the regional plan, the planning commission and governing body shall take account of and shall seek to harmonize the needs of the region as a whole, the plans of the counties and cities within the region, the plans and planning activities of the state, federal and other public agencies and nongovernmental agencies and organizations which affect or are concerned with planning and development within the region. No plan, ordinance, rule, regulation or policy of the agency shall establish a lower standard or allowable use than any county, political subdivision, state, or federal standard in effect on the day prior to the ratification of the amendments to the compact; provided, however, that the standards or allowable uses set by any state, or any county or political subdivision of a state, shall not be given effect in any other state. The minimum standards or allowable uses required to be provided for in any plan, ordinance, rule, regulation, or policy pursuant to this article may be amended by a vote in favor of such amendment, pursuant to the procedure specified in subdivision (g) of Article III, concurred in by not less than two-thirds of all the members of the agency from each state. Where necessary for the realization of the regional plan, the agency may engage in collaborative planning with local governmental jurisdictions located outside the region, but contiguous to its boundaries. In formulating and implementing the regional plan, the agency shall seek the cooperation and consider the recommendations of counties and cities and other agencies of local government, of state and federal agencies, of educational institutions and research organizations, whether public or private, and of civic groups and private individuals.

(c) All provisions of the Tahoe regional general plan shall be enforced by the agency and by the states, counties and cities in the region.

Tahoe Regional Interim Plan

(d) Within 60 days after the formation of the agency, the planning commission shall recommend a regional interim plan. Within 90 days after the formation of the agency, the governing body shall adopt a regional interim plan. The interim plan shall consist of statements of development policies, criteria and standards for planning and development, of plans or portions of plans, and projects and planning decisions, which the agency finds it necessary to adopt and administer on an interim basis in accordance with the substantive powers granted to it in this agreement.

(e) The agency shall maintain the data, maps and other information developed in the course of formulating and administering the regional plan and interim plan, in a form suitable to assure a consistent view of developmental trends and other relevant information for the availability of and use by other agencies of government and by private organizations and individuals concerned.

(f) All provisions of the interim plan shall be enforced by the agency and by the states, the counties, and cities.

Article VI. Agency's Powers

(a) The governing body shall adopt all necessary ordinances, rules, regulations and policies to effectuate the adopted regional and interim plans. Every such ordinance, rule or regulation shall establish a minimum standard applicable throughout the basin, and any political subdivision may adopt and enforce an equal or higher standard applicable to the same subject of regulation in its territory. No plan, ordinance, rule, regulation or policy of the agency shall establish a lower standard or allowable use than any county, political subdivision, state, or federal standard in effect on the day prior to the ratification of the amendments to the compact; provided, however, that the standards or allowable uses set by any state, or any county or political subdivision of a state, shall not be given effect in any other state. The minimum standards or allowable uses required to be provided for in any plan, ordinance, rule, regulation, or policy pursuant to this article may be amended by a vote in favor of such amendment, pursuant to the procedure specified in subdivision (g) of Article III, concurred in by not less than two-thirds of all the members of the agency from each state. The regulations shall contain general, regional standards including but not limited to the following: water purity and clarity; subdivision; zoning; tree removal; solid waste disposal; sewage disposal; land fills, excavations, cuts and grading; piers; harbors, breakwaters; or channels and other shoreline developments; waste disposal in shoreline areas; waste disposal from boats; mobilehome parks; house relocation; outdoor advertising; flood plain protection; soil and sedimentation control; air pollution; and watershed protection. Whenever possible without diminishing the effectiveness of the interim plan or the regional plan, the ordinances, rules, regulations and policies shall be confined to matters which are general and regional in application, leaving to the jurisdiction of the respective states, counties and cities the enactment of specific and local ordinances, rules, regulations and policies which conform to the interim or regional plan.

Every ordinance adopted by the agency shall be published at least once by title in a newspaper or combination of newspapers whose circulation is general throughout the region. Except an ordinance adopting or amending the interim plan or the regional plan, no ordinance shall become effective until 60 days after its adoption.

04160 28635 272

Immediately after its adoption, a copy of each ordinance shall be transmitted to the governing body of each political subdivision having territory within the region.

Interim regulations shall be adopted within 90 days from the formation of the agency and final regulations within 18 months after the formation of the agency.

(b) All ordinances, rules, regulations and policies adopted by the agency shall be enforced by the agency and by the respective states, counties, and cities. The appropriate courts of the respective states, each within its limits of territory and subject matter provided by state law, are vested with jurisdiction over civil actions to which the agency is a party and criminal actions for violations of its ordinances. Each such action shall be brought in a court of the state where the violation is committed or where the property affected by a civil action is situated, unless the action is brought in a federal court. For this purpose, the agency shall be deemed a political subdivision of both the State of California and the State of Nevada.

(c) All plans, programs and proposals of the State of California or Nevada, or of its executive or administrative agencies, which would be undertaken in the region, including but not limited to public works plans, programs and proposals concerning highway routing, design and construction, shall be referred to the agency for its review, as to conformity with the regional plan or interim plan, and for report and recommendations by the agency to the executive head of the state agency concerned and to the Governor.

(d) All public works projects shall be reviewed prior to construction and approved by the agency as to the project's compliance with the regional plan or interim plan.

(e) The agency shall police the region to ensure compliance with the regional plan and adopted ordinances, rules, regulations and policies. If it is found that the regional plan, or ordinances, rules, regulations and policies are not being enforced by a local jurisdiction, the agency may bring action in a court of competent jurisdiction to ensure compliance.

(f) Any person or governmental entity who violates any provision of this compact shall be subject to a civil fine not to exceed ten thousand dollars ($10,000). In addition, any person or governmental entity who performs any development in violation of this compact shall be subject to a civil fine not to exceed five hundred dollars ($500) per day for each day in which such violation persists. The amount of any civil penalty imposed shall be awarded to the Tahoe Regional Planning Agency to be used exclusively for enforcement purposes.

(g) The agency is hereby empowered to initiate, negotiate and participate in contracts and agreements among the local governmental authorities of the region, or any other intergovernmental contracts or agreements authorized by state or federal law.

(h) Each intergovernmental contract or agreement shall provide

for its own funding and staffing, but this shall not preclude financial contributions from the local authorities concerned or from supplementary sources.

(i) Every record of the agency, whether public or not, shall be open for examination to the State Controller of the State of California and the Legislative Auditor of the Nevada Legislative Counsel Bureau.

(j) Whenever under the provisions of this article or any ordinance, rule, regulation or policy adopted pursuant thereto, the agency is required to review or approve any proposal, public or private, the agency shall take final action by vote, whether to approve, to require modification or to reject such proposal, within 60 days after such proposal is delivered to the agency in compliance with the agency's rules and regulations governing such delivery. If the majority vote of the members from one state does not agree with the majority vote of the members from the other state, a final action of rejection of the matter before the governing body shall be deemed to have been taken. If a final action by vote does not take place within 60 days, the applicant may through a court of competent jurisdiction seek action in mandamus to compel a vote. This provision shall not be deemed to limit the rights of any person to obtain judicial review of agency action under paragraph (b) of this article.

(k) All environmental impact reports, statements, or studies required by California, Nevada, or federal law, which pertain to proposals affecting the region shall be delivered to the agency for review and recommendation prior to final action. For purposes of the National Environmental Policy Act (42 U.S.C., Sec. 4321), the agency shall be deemed a federal agency.

Article VII. Finances

(a) Except as provided in subdivision (e), on or before December 30 of each calendar year the agency shall establish the amount of money necessary to support its activities for the next succeeding fiscal year commencing July 1 of the following year. The agency shall apportion seventy-five thousand dollars ($75,000) of this amount among the counties within the region on the same ratio to the total sum required as the full cash valuation of taxable property within the region in each county bears to the total full cash valuation of taxable property within the region. In addition, each county within the region in California shall pay eighteen thousand seven hundred fifty dollars ($18,750) to the agency and each county within the region in Nevada shall pay twelve thousand five hundred dollars ($12,500) to the agency. Each county shall pay the sum allotted to it by the agency from any funds available therefor. The State of California and the State of Nevada shall pay to the agency by July 1 of each year, on the basis of a two-to-one ratio, respectively, an additional sum necessary to support the operations of the agency pursuant to this compact.

(b) The agency may fix and collect reasonable fees for any

services rendered by it.

(c) The agency shall submit an itemized budget to the states for review with any request for state funds, shall be strictly accountable to any county in the region and the states for all funds paid by them to the agency, and shall be strictly accountable to all participating bodies for all receipts and disbursements.

(d) The agency is authorized to receive gifts, donations, subventions, grants, and other financial aids and funds; but the agency may not own land except as provided in paragraph (i) of Article III.

(e) As soon as possible after the ratification of this compact, the agency shall estimate the amount of money necessary to support its activities:

(1) For the remainder of the then current fiscal year; and

(2) If the first estimate is made between January 1 and June 30, for the fiscal year beginning on July 1 of that calendar year.

The agency shall then allot such amount among the several counties, subject to the restriction and in the manner provided in paragraph (a), and each county shall pay such amount. If additional funds are required the agency shall make a request, accompanied by an itemized budget, from the States of California and Nevada, which sum shall be paid on the basis of a two-to-one ratio, respectively.

(f) The agency shall not obligate itself beyond the moneys due under this article for its support from the several counties and the states for the current fiscal year, plus any moneys on hand or irrevocably pledged to its support from other sources. No obligation contracted by the agency shall bind either of the party states or any political subdivision thereof.

Article VIII. Miscellaneous

(a) It is intended that the provisions of this compact shall be reasonably and liberally construed to effectuate the purposes thereof. Except as provided in paragraph (c), the provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the Constitution of any participating state or of the United States or the applicability thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the Constitution of any state participating therein, the compact shall remain in full force and effect as to the remaining state and in full force and effect as to the state affected as to all severable matters.

(b) The agency shall have such additional powers and duties as may hereafter be delegated or imposed upon it from time to time by the action of the Legislature of either state concurred in by the Legislature of the other.

(c) A state party to this compact may withdraw therefrom by enacting a statute repealing the compact. Notice of withdrawal shall be communicated officially and in writing to the Governor of the other state and to the agency administrators. This provision is not severable, and if it is held to be unconstitutional or invalid, no other provision of this compact shall be binding upon the State of Nevada or the State of California.

(d) No provision of this compact shall have any effect upon the allocation or distribution of interstate waters or upon any appropriative water right.

SEC. 2. Section 1 of this act shall become effective only upon the adoption by the State of Nevada of those amendments to the Tahoe Regional Planning Compact as provided for in Section 1, ratification of such amendments by the Congress of the United States and approval by the President of the United States of America.

SEC. 3. Subdivision (d) of Article IV is declaratory of existing law.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act because there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 1330

An act to add Division 20 (commencing with Section 30000) to, and to amend Sections 4551.5, 25103, 25302, 25500, 25507, 25508, 25514, 25519, 25523, and 25526 of, and to add Section 25516.1 to, and to repeal Section 25115 of, the Public Resources Code, to amend Section 402.1 of the Revenue and Taxation Code, and to add Section 13142.5 to the Water Code, relating to coastal resources.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 29, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Division 20 (commencing with Section 30000) is added to the Public Resources Code, to read:

DIVISION 20. CALIFORNIA COASTAL ACT

CHAPTER 1. FINDINGS AND DECLARATIONS AND GENERAL PROVISIONS

30000. This division shall be known and may be cited as the California Coastal Act of 1976.

30001. The Legislature hereby finds and declares:

(a) That the California coastal zone is a distinct and valuable natural resource of vital and enduring interest to all the people and exists as a delicately balanced ecosystem.

(b) That the permanent protection of the state's natural and scenic resources is a paramount concern to present and future residents of the state and nation.

(c) That to promote the public safety, health, and welfare, and to protect public and private property, wildlife, marine fisheries, and other ocean resources, and the natural environment, it is necessary to protect the ecological balance of the coastal zone and prevent its deterioration and destruction.

30001.2. The Legislature further finds and declares that, notwithstanding the fact electrical generating facilities, refineries, and coastal-dependent developments, including ports and commercial fishing facilities, offshore petroleum and gas development, and liquefied natural gas facilities, may have significant adverse effects on coastal resources or coastal access, it may be necessary to locate such developments in the coastal zone in order to ensure that inland as well as coastal resources are preserved and that orderly economic development proceeds within the state.

30001.5. The Legislature further finds and declares that the basic goals of the state for the coastal zone are to:

(a) Protect, maintain, and, where feasible, enhance and restore the overall quality of the coastal zone environment and its natural and manmade resources.

(b) Assure orderly, balanced utilization and conservation of coastal zone resources taking into account the social and economic needs of the people of the state.

(c) Maximize public access to and along the coast and maximize public recreational opportunities in the coastal zone consistent with sound resources conservation principles and constitutionally protected rights of private property owners.

(d) Assure priority for coastal-dependent development over other development on the coast.

(e) Encourage state and local initiatives and cooperation in preparing procedures to implement coordinated planning and development for mutually beneficial uses, including educational uses, in the coastal zone.

30002. The Legislature further finds and declares that:

(a) The California Coastal Zone Conservation Commission, pursuant to the California Coastal Zone Conservation Act of 1972

(commencing with Section 27000), has made a detailed study of the coastal zone; that there has been extensive participation by other governmental agencies, private interests, and the general public in the study; and that, based on the study, the commission has prepared a plan for the orderly, long-range conservation, use, and management of the natural, scenic, cultural, recreational, and manmade resources of the coastal zone.

(b) Such plan contains a series of recommendations which require implementation by the Legislature and that some of those recommendations are appropriate for immediate implementation as provided for in this division while others require additional review.

30003. All public agencies and all federal agencies, to the extent possible under federal law or regulations or the United States Constitution, shall comply with the provisions of this division.

30004. The Legislature further finds and declares that:

(a) To achieve maximum responsiveness to local conditions, accountability, and public accessibility, it is necessary to rely heavily on local government and local land use planning procedures and enforcement.

(b) To ensure conformity with the provisions of this division, and to provide maximum state involvement in federal activities allowable under federal law or regulations or the United States Constitution which affect California's coastal resources, to protect regional, state, and national interests in assuring the maintenance of the long-term productivity and economic vitality of coastal resources necessary for the well-being of the people of the state, and to avoid long-term costs to the public and a diminished quality of life resulting from the misuse of coastal resources, to coordinate and integrate the activities of the many agencies whose activities impact the coastal zone, and to supplement their activities in matters not properly within the jurisdiction of any existing agency, it is necessary to provide for continued state coastal planning and management through a state coastal commission.

30005. No provision of this division is a limitation on any of the following:

(a) Except as otherwise limited by state law, on the power of a city or county or city and county to adopt and enforce additional regulations, not in conflict with this act, imposing further conditions, restrictions, or limitations with respect to any land or water use or other activity which might adversely affect the resources of the coastal zone.

(b) On the power of any city or county or city and county to declare, prohibit, and abate nuisances.

(c) On the power of the Attorney General to bring an action in the name of the people of the state to enjoin any waste or pollution of the resources of the coastal zone or any nuisance.

(d) On the right of any person to maintain an appropriate action for relief against a private nuisance or for any other private relief.

30006. The Legislature further finds and declares that the public

has a right to fully participate in decisions affecting coastal planning, conservation, and development; that achievement of sound coastal conservation and development is dependent upon public understanding and support; and that the continuing planning and implementation of programs for coastal conservation and development should include the widest opportunity for public participation.

30007. Nothing in this division shall exempt local governments from meeting the requirements of state and federal law with respect to providing low- and moderate-income housing, replacement housing, relocation benefits, or any other obligation related to housing imposed by existing law or any law hereafter enacted.

30007.5. The Legislature further finds and recognizes that conflicts may occur between one or more policies of the division. The Legislature therefore declares that in carrying out the provisions of this division such conflicts be resolved in a manner which on balance is the most protective of significant coastal resources. In this context, the Legislature declares that broader policies which, for example, serve to concentrate development in close proximity to urban and employment centers may be more protective, overall, than specific wildlife habitat and other similar resource policies.

30008. This division shall constitute California's coastal zone management program within the coastal zone for purposes of the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.) and any other federal act heretofore or hereafter enacted or amended that relates to the planning or management of coastal zone resources.

30009. This division shall be liberally construed to accomplish its purposes and objectives.

CHAPTER 2. DEFINITIONS

30100. Unless the context otherwise requires, the definitions in this chapter govern the interpretation of this division.

30100.5. "Coastal county" means a county or city and county which lies, in whole or in part, within the coastal zone.

30101. "Coastal-dependent development or use" means any development or use which requires a site on, or adjacent to, the sea to be able to function at all.

30101.5. "Coastal development permit" means a permit for any development within the coastal zone that is required pursuant to subdivision (a) of Section 30600.

30102. "Coastal plan" means the California Coastal Zone Conservation Plan prepared and adopted by the California Coastal Zone Conservation Commission and submitted to the Governor and the Legislature on December 1, 1975, pursuant to the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000).

State of California from the Oregon border to the border of the Republic of Mexico, specified on the maps identified and set forth in Section 17 of that chapter of the Statutes of the 1975–76 Regular Session enacting this division, extending seaward to the state's outer limit of jurisdiction, including all offshore islands, and extending inland generally 1,000 yards from the mean high tide line of the sea. In significant coastal estuarine, habitat, and recreational areas it extends inland to the first major ridgeline paralleling the sea or five miles from the mean high tide line of the sea, whichever is less, and in developed urban areas the zone generally extends inland less than 1,000 yards. The coastal zone does not include the area of jurisdiction of the San Francisco Bay Conservation and Development Commission, established pursuant to Title 7.2 (commencing with Section 66600) of the Government Code, nor any area contiguous thereto, including any river, stream, tributary, creek, or flood control or drainage channel flowing into such area.

(b) The commission shall, within 60 days after its first meeting, prepare and adopt a detailed map, on a scale of one inch equals 24,000 inches for the coastal zone and shall file a copy of such map with the county clerk of each coastal county. The purpose of this provision is to provide greater detail than is provided by the maps identified in Section 17 of that chapter of the Statutes of the 1975–76 Regular Session enacting this division. The commission may adjust the inland boundary of the coastal zone the minimum landward distance necessary, but in no event more than 100 yards, to avoid bisecting any single lot or parcel or to conform it to readily identifiable natural or manmade features.

30105. (a) "Commission" means the California Coastal Commission. Whenever the term California Coastal Zone Conservation Commission appears in any law, it means the California Coastal Commission.

(b) "Regional commission" means any regional coastal commission. Whenever the term regional coastal zone conservation commission appears in any law, it means the regional coastal commission.

30106. "Development" means, on land, in or under water, the placement or erection of any solid material or structure; discharge or disposal of any dredged material or of any gaseous, liquid, solid, or thermal waste; grading, removing, dredging, mining, or extraction of any materials; change in the density or intensity of use of land, including, but not limited to, subdivision pursuant to the Subdivision Map Act (commencing with Section 66410 of the Government Code), and any other division of land, including lot splits, except where the land division is brought about in connection with the purchase of such land by a public agency for public recreational use; change in the intensity of use of water, or of access thereto; construction, reconstruction, demolition, or alteration of the size of any structure, including any facility of any private, public, or municipal utility; and the removal or harvesting of major vegetation

other than for agricultural purposes, kelp harvesting, and timber operations which are in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511).

As used in this section, "structure" includes, but is not limited to, any building, road, pipe, flume, conduit, siphon, aqueduct, telephone line, and electrical power transmission and distribution line.

30108. "Feasible" means capable of being accomplished in a successful manner within a reasonable period of time, taking into account economic, environmental, social, and technological factors.

30108.2. "Fill" means earth or any other substance or material, including pilings placed for the purposes of erecting structures thereon, placed in a submerged area.

30108.4. "Implementing actions" means the ordinances, regulations, or programs which implement either the provisions of the certified local coastal program or the policies of this division and which are submitted pursuant to Section 30502.

30108.5. "Land use plan" means the relevant portions of a local government's general plan, which are sufficiently detailed to indicate the kinds, location, and intensity of land uses, the applicable resource protection and development policies and, where necessary, a listing of implementing actions.

30108.6. "Local coastal program" means a local government's land use plans, zoning ordinances, zoning district maps, and implementing actions which, when taken together, meet the requirements of, and implement the provisions and policies of, this division at the local level.

30109. "Local government" means any chartered or general law city, chartered or general law county, or any city and county.

30109.5. "Major energy facility" means any electric power generating plant and related facility or combination of plants and related facilities planned for a single site or with a combined capacity of 20,000 kilowatts or more, any high voltage transmission line with a capacity of 200 kilovolts or more, any facility or combination of facilities planned for a single site designed for or capable of storing more than 10,000 barrels of crude petroleum or petroleum fuels or derivatives thereof, any pipeline greater than six inches in diameter used for the transportation of crude petroleum or petroleum fuels or derivatives thereof to or from a site used for storage, production, or processing of such materials, any pipeline for transporting natural or synthetic gas at pressures in excess of 200 pounds per square inch to or from a site used for storage, production, or processing of such materials, any facility or combination of facilities designed for or capable of storing on a single site more than 2,400 barrels of liquefied natural gas, liquid petroleum gas, or synthetic gas, any gas storage tank farm with a planned storage volume greater than 250,000 cubic

30118.5. "Special treatment area" means an identifiable and geographically bounded forested area within the coastal zone that constitute a significant habitat area, area of special scenic significance, and any land where logging activities could adversely effect public recreation area or the biological productivity of any wetland, estuary, or stream especially valuable because of its role in a coastal ecosystem.

30119. "State university or college" means the University of California and the California State University and Colleges.

30120. "Treatment works" shall have the same meaning as set forth in the Federal Water Pollution Control Act (33 U.S.C. 1251, et seq.) and any other federal act which amends or supplements the Federal Water Pollution Control Act.

CHAPTER 3. COASTAL RESOURCES PLANNING AND MANAGEMENT POLICIES

Article 1. General

30200. Consistent with the basic goals set forth in Section 30001.5, and except as may be otherwise specifically provided in this division, the policies of this chapter shall constitute the standards by which the adequacy of local coastal programs, as provided in Chapter 6 (commencing with Section 30500), and, the permissibility of proposed developments subject to the provisions of this division are determined. All public agencies carrying out or supporting activities outside the coastal zone that could have a direct impact on resources within the coastal zone shall consider the effect of such actions on

4 1277 30 12 145 312

coastal zone resources in order to assure that these policies are achieved.

Article 2. Public Access

30210. In carrying out the requirement of Section 2 of Article XV of the California Constitution, maximum access, which shall be conspicuously posted, and recreational opportunities shall be provided for all the people consistent with public safety needs and the need to protect public rights, rights of private property owners, and natural resource areas from overuse.

30211. Development shall not interfere with the public's right of access to the sea where acquired through use, custom, or legislative authorization, including, but not limited to, the use of dry sand and rocky coastal beaches to the first line of terrestrial vegetation.

30212. Public access from the nearest public roadway to the shoreline and along the coast shall be provided in new development projects except where (1) it is inconsistent with public safety, military security needs, or the protection of fragile coastal resources, (2) adequate access exists nearby, or (3) agriculture would be adversely affected. Dedicated accessway shall not be required to be opened to public use until a public agency or private association agrees to accept responsibility for maintenance and liability of the accessway.

Nothing in this division shall restrict public access nor shall it excuse the performance of duties and responsibilities of public agencies which are required by Sections 66478.1 to 66478.14, inclusive, of the Government Code and by Section 2 of Article XV of the California Constitution.

30212.5. Wherever appropriate and feasible, public facilities, including parking areas or facilities, shall be distributed throughout an area so as to mitigate against the impacts, social and otherwise, of overcrowding or overuse by the public of any single area.

30213. Lower cost visitor and recreational facilities and housing opportunities for persons of low and moderate income shall be protected, encouraged, and, where feasible, provided. Developments providing public recreational opportunities are preferred. New housing in the coastal zone shall be developed in conformity with the standards, policies, and goals of local housing elements adopted in accordance with the requirements of subdivision (c) of Section 65302 of the Government Code.

Article 3. Recreation

30220. Coastal areas suited for water-oriented recreational activities that cannot readily be provided at inland water areas shall be protected for such uses.

30221. Oceanfront land suitable for recreational use shall be protected for recreational use and development unless present and

forseeable future demand for public or commercial recreational activities that could be accommodated on the property is already adequately provided for in the area.

30222. The use of private lands suitable for visitor-serving commercial recreational facilities designed to enhance public opportunities for coastal recreation shall have priority over private residential, general industrial, or general commercial development, but not over agriculture or coastal-dependent industry.

30223. Upland areas necessary to support coastal recreational uses shall be reserved for such uses, where feasible.

30224. Increased recreational boating use of coastal waters shall be encouraged, in accordance with this division, by developing dry storage areas, increasing public launching facilities, providing additional berthing space in existing harbors, limiting non-water-dependent land uses that congest access corridors and preclude boating support facilities, providing harbors of refuge, and by providing for new boating facilities in natural harbors, new protected water areas, and in areas dredged from dry land.

Article 4. Marine Environment

30230. Marine resources shall be maintained, enhanced, and, where feasible, restored. Special protection shall be given to areas and species of special biological or economic significance. Uses of the marine environment shall be carried out in a manner that will sustain the biological productivity of coastal waters and that will maintain healthy populations of all species of marine organisms adequate for long-term commercial, recreational, scientific, and educational purposes.

30231. The biological productivity and the quality of coastal waters, streams, wetlands, estuaries, and lakes appropriate to maintain optimum populations of marine organisms and for the protection of human health shall be maintained and, where feasible, restored through, among other means, minimizing adverse effects of waste water discharges and entrainment, controlling runoff, preventing depletion of ground water supplies and substantial interference with surface waterflow, encouraging waste water reclamation, maintaining natural vegetation buffer areas that protect riparian habitats, and minimizing alteration of natural streams.

30232. Protection against the spillage of crude oil, gas, petroleum products, or hazardous substances shall be provided in relation to any development or transportation of such materials. Effective containment and cleanup facilities and procedures shall be provided for accidental spills that do occur.

30233. (a) The diking, filling, or dredging of open coastal waters, wetlands, estuaries, and lakes shall be permitted in accordance with other applicable provisions of this division, where there is no feasible less environmentally damaging alternative, and where feasible

mitigation measures have been provided to minimize adverse environmental effects, and shall be limited to the following:

(1) New or expanded port, energy, and coastal-dependent industrial facilities, including commercial fishing facilities.

(2) Maintaining existing, or restoring previously dredged, depths in existing navigational channels, turning basins, vessel berthing and mooring areas, and boat launching ramps.

(3) In wetland areas only, entrance channels for new or expanded boating facilities; and in a degraded wetland, identified by the Department of Fish and Game pursuant to subdivision (b) of Section 30411, for boating facilities if, in conjunction with such boating facilities, a substantial portion of the degraded wetland is restored and maintained as a biologically productive wetland; provided, however, that in no event shall the size of the wetland area used for such boating facility, including berthing space, turning basins, necessary navigation channels, and any necessary support service facilities, be greater than 25 percent of the total wetland area to be restored.

(4) In open coastal waters, other than wetlands, including streams, estuaries, and lakes, new or expanded boating facilities.

(5) Incidental public service purposes, including, but not limited to, burying cables and pipes or inspection of piers and maintenance of existing intake and outfall lines.

(6) Mineral extraction, including sand for restoring beaches, except in environmentally sensitive areas.

(7) Restoration purposes.

(8) Nature study, aquaculture, or similar resource-dependent activities.

(b) Dredging and spoils disposal shall be planned and carried out to avoid significant disruption to marine and wildlife habitats and water circulation. Dredge spoils suitable for beach replenishment should be transported for such purposes to appropriate beaches or into suitable longshore current systems.

(c) In addition to the other provisions of this section, diking, filling, or dredging in existing estuaries and wetlands shall maintain or enhance the functional capacity of the wetland or estuary. Any alteration of coastal wetlands identified by the Department of Fish and Game, including, but not limited to, the 19 coastal wetlands identified in its report entitled, "Acquisition Priorities for the Coastal Wetlands of California", shall be limited to very minor incidental public facilities, restorative measures, nature study, commercial fishing facilities in Bodega Bay, and development in already developed parts of south San Diego Bay, if otherwise in accordance with this division.

30234. Facilities serving the commercial fishing and recreational boating industries shall be protected and, where feasible, upgraded. Existing commercial fishing and recreational boating harbor space shall not be reduced unless the demand for those facilities no longer exists or adequate substitute space has been provided. Proposed

recreational boating facilities shall, where feasible, be designed and located in such a fashion as not to interfere with the needs of the commercial fishing industry.

30235. Revetments, breakwaters, groins, harbor channels, seawalls, cliff retaining walls, and other such construction that alters natural shoreline processes shall be permitted when required to serve coastal-dependent uses or to protect existing structures or public beaches in danger from erosion and when designed to eliminate or mitigate adverse impacts on local shoreline sand supply. Existing marine structures causing water stagnation contributing to pollution problems and fishkills should be phased out or upgraded where feasible.

30236. Channelizations, dams, or other substantial alterations of rivers and streams shall incorporate the best mitigation measures feasible, and be limited to (1) necessary water supply projects, (2) flood control projects where no other method for protecting existing structures in the flood plain is feasible and where such protection is necessary for public safety or to protect existing development, or (3) developments where the primary function is the improvement of fish and wildlife habitat.

Article 5. Land Resources

30240. (a) Environmentally sensitive habitat areas shall be protected against any significant disruption of habitat values, and only uses dependent on such resources shall be allowed within such areas.

(b) Development in areas adjacent to environmentally sensitive habitat areas and parks and recreation areas shall be sited and designed to prevent impacts which would significantly degrade such areas, and shall be compatible with the continuance of such habitat areas.

30241. The maximum amount of prime agricultural land shall be maintained in agricultural production to assure the protection of the areas' agricultural economy, and conflicts shall be minimized between agricultural and urban land uses through all of the following:

(a) By establishing stable boundaries separating urban and rural areas, including, where necessary, clearly defined buffer areas to minimize conflicts between agricultural and urban land uses.

(b) By limiting conversions of agricultural lands around the periphery of urban areas to the lands where the viability of existing agricultural use is already severely limited by conflicts with urban uses and where the conversion of the lands would complete a logical and viable neighborhood and contribute to the establishment of a stable limit to urban development.

(c) By developing available lands not suited for agriculture prior to the conversion of agricultural lands.

(d) By assuring that public service and facility expansions and

nonagricultural development do not impair agricultural viability, either through increased assessment costs or degraded air and water quality.

(e) By assuring that all divisions of prime agricultural lands, except those conversions approved pursuant to subdivision (b) of this section, and all development adjacent to prime agricultural lands shall not diminish the productivity of such prime agricultural lands.

30242. All other lands suitable for agricultural use shall not be converted to nonagricultural uses unless (1) continued or renewed agricultural use is not feasible, or (2) such conversion would preserve prime agricultural land or concentrate development consistent with Section 30250. Any such permitted conversion shall be compatible with continued agricultural use on surrounding lands.

30243. The long-term productivity of soils and timberlands shall be protected, and conversions of coastal commercial timberlands in units of commercial size to other uses or their division into units of noncommercial size shall be limited to providing for necessary timber processing and related facilities.

30244. Where development would adversely impact archaeological or paleontological resources as identified by the State Historic Preservation Officer, reasonable mitigation measures shall be required.

Article 6. Development

30250. (a) New development, except as otherwise provided in this division, shall be located within, contiguous with, or in close proximity to, existing developed areas able to accommodate it or, where such areas are not able to accommodate it, in other areas with adequate public services and where it will not have significant adverse effects, either individually or cumulatively, on coastal resources. In addition, land divisions, other than leases for agricultural uses, outside existing developed areas shall be permitted only where 50 percent of the usable parcels in the area have been developed and the created parcels would be no smaller than the average size of surrounding parcels.

(b) New hazardous industrial development shall be located away from existing developed areas.

(c) Visitor-serving facilities that cannot feasibly be located in existing developed areas shall be located in existing isolated developments or at selected points of attraction for visitors.

30251. The scenic and visual qualities of coastal areas shall be considered and protected as a resource of public importance. Permitted development shall be sited and designed to protect views to and along the ocean and scenic coastal areas, to minimize the alteration of natural land forms, to be visually compatible with the character of surrounding areas, and, where feasible, to restore and enhance visual quality in visually degraded areas. New development in highly scenic areas such as those designated in the California

Coastline Preservation and Recreation Plan prepared by the Department of Parks and Recreation and by local government shall be subordinate to the character of its setting.

30252. The location and amount of new development should maintain and enhance public access to the coast by (1) facilitating the provision or extension of transit service, (2) providing commercial facilities within or adjoining residential development or in other areas that will minimize the use of coastal access roads, (3) providing nonautomobile circulation within the development, (4) providing adequate parking facilities or providing substitute means of serving the development with public transportation, (5) assuring the potential for public transit for high intensity uses such as high-rise office buildings, and by (6) assuring that the recreational needs of new residents will not overload nearby coastal recreation areas by correlating the amount of development with local park acquisition and development plans with the provision of onsite recreational facilities to serve the new development.

30253. New development shall:

(1) Minimize risks to life and property in areas of high geologic, flood, and fire hazard.

(2) Assure stability and structural integrity, and neither create nor contribute significantly to erosion, geologic instability, or destruction of the site or surrounding area or in any way require the construction of protective devices that would substantially alter natural landforms along bluffs and cliffs.

(3) Be consistent with requirements imposed by an air pollution control district or the State Air Resources Control Board as to each particular development.

(4) Minimize energy consumption and vehicle miles traveled.

(5) Where appropriate, protect special communities and neighborhoods which, because of their unique characteristics, are popular visitor destination points for recreational uses.

30254. New or expanded public works facilities shall be designed and limited to accommodate needs generated by development or uses permitted consistent with the provisions of this division; provided, however, that it is the intent of the Legislature that State Highway Route 1 in rural areas of the coastal zone remain a scenic two-lane road. Special districts shall not be formed or expanded except where assessment for, and provision of, the service would not induce new development inconsistent with this division. Where existing or planned public works facilities can accommodate only a limited amount of new development, services to coastal-dependent land use, essential public services and basic industries vital to the economic health of the region, state, or nation, public recreation, commercial recreation, and visitor-serving land uses shall not be precluded by other development.

30255. Coastal-dependent developments shall have priority over other developments on or near the shoreline. Except as provided elsewhere in this division, coastal-dependent developments shall not

be sited in a wetland.

Article 7. Industrial Development

30260. Coastal-dependent industrial facilities shall be encouraged to locate or expand within existing sites and shall be permitted reasonable long-term growth where consistent with this division. However, where new or expanded coastal-dependent industrial facilities cannot feasibly be accommodated consistent with other policies of this division, they may nonetheless be permitted in accordance with this section and Sections 30261 and 30262 if (1) alternative locations are infeasible or more environmentally damaging; (2) to do otherwise would adversely affect the public welfare; and (3) adverse environmental effects are mitigated to the maximum extent feasible.

30261. (a) Multicompany use of existing and new tanker facilities shall be encouraged, except where to do so would result in increased tanker operations and associated onshore development incompatible with the land use and environmental goals for the area. New tanker terminals outside of existing terminal areas shall be sited sufficiently far offshore and so situated as to avoid risk to environmentally sensitive areas and shall use a monobuoy system, unless an alternative type of system can be shown to be environmentally preferable for a specific site. Tanker facilities shall be designed to (1) minimize the total volume of oil spilled, (2) minimize the risk of collision from movement of other vessels, (3) have ready access to the most effective feasible containment and recovery equipment for oilspills, and (4) have onshore deballasting facilities to receive any fouled ballast water from tankers where operationally required.

(b) Only one liquefied natural gas terminal shall be permitted in the coastal zone until engineering and operational practices can eliminate any significant risk to life due to accident or until guaranteed supplies of liquefied natural gas and distribution system dependence on liquefied natural gas are substantial enough that an interruption of service from a single liquefied natural gas facility would cause substantial public harm.

Until the risks inherent in liquefied natural gas terminal operations can be sufficiently identified and overcome and such terminals are found to be consistent with the health and safety of nearby human populations, terminals shall be built only at sites remote from human population concentrations. Other unrelated development in the vicinity of a liquefied natural gas terminal site which is remote from human population concentrations shall be prohibited. At such time as liquefied natural gas marine terminal operations are found consistent with public safety, terminal sites only in developed or industrialized port areas may be approved.

30262. Oil and gas development shall be permitted in accordance with Section 30260, if the following conditions are met:

4 1277 30 12 285 340

(a) The development is performed safely and consistent with the geologic conditions of the well site.

(b) New or expanded facilities related to such development are consolidated, to the maximum extent feasible and legally permissible, unless consolidation will have adverse environmental consequences and will not significantly reduce the number of producing wells, support facilities, or sites required to produce the reservoir economically and with minimal environmental impacts.

(c) Environmentally safe and feasible subsea completions are used when drilling platforms or islands would substantially degrade coastal visual qualities unless use of such structures will result in substantially less environmental risks.

(d) Platforms or islands will not be sited where a substantial hazard to vessel traffic might result from the facility or related operations, determined in consultation with the United States Coast Guard and the Army Corps of Engineers.

(e) Such development will not cause or contribute to subsidence hazards unless it is determined that repressuring operations will prevent damage from such subsidence.

(f) All oilfield brines are reinjected into oil-producing zones unless the Division of Oil and Gas of the Department of Conservation determines to do so would adversely affect production of the reservoirs and unless injection into other subsurface zones will reduce environmental risks and where adequate provision is made for the elimination of petroleum odors and water quality problems.

Monitoring programs to record land surface and near-shore ocean floor movements shall be initiated in locations of new large-scale fluid extraction on land or near shore before operations begin and shall continue until surface conditions have stabilized. Costs of monitoring and mitigation programs shall be borne by liquid and gas extraction operators.

30263. (a) New or expanded refineries or petrochemical facilities not otherwise consistent with the provisions of this division shall be permitted if (1) alternative locations are not feasible or are more environmentally damaging; (2) adverse environmental effects are mitigated to the maximum extent feasible; (3) it is found that not permitting such development would adversely affect the public welfare; (4) the facility is not located in a highly scenic or seismically hazardous area, on any of the Channel Islands, or within or near environmentally sensitive areas; and (5) the facility is sited so as to provide a sufficient buffer area to minimize adverse impacts on surrounding property.

(b) In addition to meeting all applicable air quality standards, new or expanded refineries or petrochemical facilities shall be permitted in areas designated as air quality maintenance areas by the State Air Resources Board and in areas where coastal resources would be adversely affected only if the negative impacts of the project upon air quality are offset by reductions in gaseous emissions in the area by the users of the fuels, or, in the case of an expansion

of an existing site, total site emission levels, and site levels for each emission type for which national or state ambient air quality standards have been established do not increase.

(c) New or expanded refineries or petrochemical facilities shall minimize the need for once-through cooling by using air cooling to the maximum extent feasible and by using treated waste waters from inplant processes where feasible.

30264. Notwithstanding any other provision of this division, except subdivisions (b) and (c) of Section 30413, new or expanded thermal electric generating plants may be constructed in the coastal zone if the proposed coastal site has been determined by the State Energy Resources Conservation and Development Commission to have greater relative merit pursuant to the provisions of Section 25516.1 than available alternative sites and related facilities for an applicant's service area which have been determined to be acceptable pursuant to the provisions of Section 25516.

CHAPTER 4. CREATION, MEMBERSHIP, AND POWERS OF COMMISSION AND REGIONAL COMMISSIONS

Article 1. Creation, Membership of Commission and Regional Commission

30300. There is in the Resources Agency the California Coastal Commission and, until not later than January 1, 1981, six regional coastal commissions.

(e) Six representatives from the regional commissions, selected by each regional commission from among its members. Within 60 days after the termination of any regional commission pursuant to Section 30305, the member on the commission shall be replaced by a county supervisor or city councilperson who shall reside within a coastal county of such region, to be appointed as follows:

(1) Upon the termination of the first regional commission, the Governor shall appoint the first member under this subdivision.

(2) Upon the termination of the second regional commission, the Senate Rules Committee shall appoint the second member under this subdivision.

(3) Upon the termination of the third regional commission, the Speaker of the Assembly shall appoint the third member under this subdivision.

41277 30123 15 346

commissions, the process of appointment of the members of commissions under paragraphs (1), (2), and (3) of this subdivision shall be repeated in that order.

In any event, each regional commission's representative on the commission shall continue to serve until the new member has been appointed pursuant to this subdivision.

30301.2. (a) The appointments of the Governor, the Senate Rules Committee, and the Speaker of the Assembly shall be made in the following manner: Within 30 days after the termination of a regional commission, the boards of supervisors and city of each county within the region shall nominate a supervisor or council member from which the Governor, Senate Rules Committee or Speaker of the Assembly shall appoint a replacement. In regions composed of three counties, the boards of supervisors and the city selection committee in each county within the region shall each nominate one or more supervisors or council members. In regions composed of two counties, the boards of supervisors and the city selection committee in each county within the region shall each nominate no less than two supervisors and two council members. In regions composed of one county, the board of supervisor and city selection committee in the county shall nominate no less than three supervisors and three council members. Immediately upon selecting the nominees, the board of supervisors and city selection committee shall send the names of the nominees to either the Governor, the Senate Rules Committee, or the Speaker of the Assembly whoever will appoint the replacement.

(b) Within 30 days after receiving the names of the nominees pursuant to subdivision (a), the Governor, the Speaker of the Assembly, or the Senate Rules Committee, whoever will appoint the replacement, shall either appoint one of the nominees or notify the boards of supervisors and city selection committees within the region that none of the nominees are acceptable and request the boards of supervisors and city selection committees to make additional nominees. Within 60 days after receipt of a notice rejecting all the nominees, the boards of supervisors and city selection committees within the region shall nominate and send to the appointing authority additional nominees pursuant to subdivision (a). Upon receipt of the names of the nominees, the appointing authority shall appoint one of the nominees.

30301.5. (a) Members of the commission serving under subdivision (a), (b), or (c) of Section 30301 shall be nonvoting members and may appoint a designee to serve at his or her pleasure who shall have all the powers and duties of such member pursuant to this division.

(b) Any county supervisor or city councilperson appointed to the commission pursuant to subdivision (e) of Section 30301, may, subject to the confirmation of his or her appointing power, appoint an alternate member to represent him or her on the commission. The alternate shall serve at the pleasure of the county supervisor or

city councilperson who appointed him or her and shall have all the powers and duties of a member of the commission. Applicable provisions of Section 30314 shall apply to alternates appointed pursuant to this subdivision.

30302. The six regional commissions shall be constituted as follows:

(2) One city councilperson from the City of San Diego, selected

by the city council of such city.

(3) One member of the San Diego Comprehensive Planning Organization.

(4) Six representatives of the public.

30303. The members of the regional commissions shall be selected or appointed as follows:

(a) All supervisors, by the board of supervisors on which they sit.

(c) All delegates of regional agencies, by their respective agency.

(d) All members representing the public at large, equally by the Governor, the Senate Rules Committee, and the Speaker of the Assembly; provided, however, that the extra member under paragraph (4) of subdivision (b) of Section 30302 shall be appointed by the Governor and the extra members under paragraph (4) of subdivision (c) of Section 30302 shall be appointed one by the Senate Rules Committee and one by the Speaker of the Assembly, respectively.

30304. A member of a regional commission who is also a supervisor from a county or city and county with a population greater than 400,000 may, subject to confirmation by his or her appointing power, appoint an alternate member to represent him or her at any regional commission meeting. The alternate shall serve at the pleasure of the member who appointed him or her and shall have all the powers and duties as a member of the regional commission, except that the alternate shall only participate and vote in meetings in the absence of the member who appointed him or her.

An alternate shall not be eligible for appointment to the commission as a regional representative to the commission.

30305. Each regional commission shall terminate within 30 days after the last local coastal program required within its region pursuant to Chapter 6 (commencing with Section 30500) of this division has been certified and all implementing devices have become effective or January 1, 1981, whichever is the earlier date. Upon the termination of any regional commission, the commission shall succeed to any and all of such regional commission's obligations, powers, duties, responsibilities, benefits, or legal interests.

Article 2. Qualifications and Organization

30310. (a) It is the intent of the Legislature to provide, to the maximum extent possible, for a smooth transition and continuity between the coastal program established by the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000) and this division. Except with respect to appointments made pursuant to subdivision (e) of Section 30301, at least one-half of each of the commission and regional commission member appointments by the Governor, the Senate Rules Committee, and the Speaker of

the Assembly shall be persons who on November 30, 1976, were serving as members of the California Coastal Zone Conservation Commission or regional coastal zone conservation commissions established by the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000), unless such persons are not available for such appointment.

(b) In making their appointments pursuant to this division, the Governor, the Senate Rules Committee, and the Speaker of the Assembly shall make good faith efforts to assure that their appointments, as a whole, reflect, to the greatest extent feasible, the economic, social, and geographic diversity of the state.

30311. Notwithstanding any other provision of law, each member of the commission and each regional commission shall be appointed or selected on or before January 2, 1977.

30312. The terms of office of commission and regional commission members shall be as follows:

(a) Any person qualified for membership because he or she holds a specified office as a locally elected official shall serve at the pleasure of his or her selecting or appointing authority; provided, however, that such membership shall cease when his or her term of office as a locally elected official ceases.

(b) Any member appointed by the Governor, the Senate Rules Committee, or the Speaker of the Assembly shall serve for two years at the pleasure of their appointing power. Such members may be reappointed for succeeding two-year periods

(c) Members of the commission who are representatives of a regional commission shall serve on the commission at the pleasure of the regional commission.

30313. Vacancies that occur shall be filled within 30 days after the occurrence of the vacancy, and shall be filled in the same manner in which the vacating member was selected or appointed.

30314. Except as provided in this section, members or alternates of the commission or any regional commission shall serve without compensation but shall be reimbursed for actual and necessary expenses incurred in the performance of their duties to the extent that reimbursement for such expenses is not otherwise provided or payable by another public agency or agencies, and shall receive fifty dollars ($50) for each full day of attending meetings of the commission or of any regional commission. In addition, members or alternates of the commission shall receive twelve dollars and fifty cents ($12.50) for each hour actually spent in preparation for a commission meeting; provided, however, that for each meeting no more than eight hours of preparation time shall be compensated as provided herein.

An alternate shall be entitled to payment and reimbursement for the necessary expenses incurred in participating in regional commission or commission meetings; provided, however, that only the member or his or her alternate shall receive such payment and reimbursement, and if both the member and alternate prepare for,

in the case of alternates to the commission, attend, and participate in any portion of a regional commission or commission meeting, only the alternate shall be entitled to such payment and reimbursement.

30315. The commission and regional commission shall meet at least once a month at a place convenient to the public. All meetings of the commission and each regional commission shall be open to the public.

Unless otherwise specifically provided for in this division, a majority of the total appointed membership of the commission or of the regional commission, as the case may be, shall constitute a quorum and shall be necessary to approve any action required or permitted under this division.

30316. The commission and each regional commission shall elect a chairperson and vice chairperson from among its members.

30317. The headquarters of the commission shall be in a coastal county, but it may meet and may exercise any or all of its powers in any part of the state.

The commission shall designate the location of the headquarters for each regional commission within the region of such regional commission. After the termination of a regional commission pursuant to Section 30305, the commission may maintain regional offices, if it finds that accessibility to, and participation by, the public will be better served or that the provisions of this division can be implemented more efficiently through the maintenance of such offices.

30318. Nothing in this division shall preclude or prevent any member or employee of the commission or any regional commission who is also an employee of another public agency, a county supervisor or city councilperson, member of the Association of Bay Area Governments, member of the Association of Monterey Bay Area Governments, delegate to the Southern California Association of Governments, or member of the San Diego Comprehensive Planning Organization, and who has in such designated capacity voted or acted upon a particular matter, from voting or otherwise acting upon such matter as a member or employee of the commission or any regional commission, as the case may be. Nothing in this section shall exempt any such member or employee of the commission or any regional commission, from any other provision of this article.

Article 3. Powers and Duties

30330. The commission, unless specifically otherwise provided, shall have the primary responsibility for the implementation of the provisions of this division and is designated as the state coastal zone planning and management agency for any and all purposes, and may exercise any and all powers set forth in the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.) or any amendment thereto or any other federal act heretofore or hereafter enacted that

relates to the planning or management of the coastal zone.

In addition to any other authority, the commission may, except for a facility defined in Section 25110, grant or issue any certificate or statement required pursuant to any such federal law that an activity of any person, including any local, state, or federal agency, is in conformity with the provisions of this division.

30331. The commission is designated the successor in interest to all remaining obligations, powers, duties, responsibilities, benefits, and interests of any sort of the California Coastal Zone Conservation Commission and of the six regional coastal zone conservation commissions established by the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000).

30333. The commission may adopt rules and regulations to carry out the purposes and provisions of this division, and to govern procedures of the commission and regional commissions.

Each regional commission may adopt any regulation or take any action it deems reasonable and necessary to carry out the provisions of this division; provided, however, that no regulation adopted by a regional commission shall take effect until the commission has first reviewed such proposed regulation and found it consistent with this division.

Except as provided in Section 30501 and subdivision (a) of Section 30620, such rules and regulations shall be adopted in accordance with the Administrative Procedure Act (commencing with Section 11370 of the Government Code). Such rules and regulations shall be consistent with this division and other applicable law.

30334. The commission and each regional commission, subject to the approval of the commission, may do all of the following:

(a) Apply for and accept grants, appropriations, and contributions in any form.

(b) Contract for any private professional or governmental services, if such work or services cannot be satisfactorily performed by its employees.

(c) Sue and be sued. The Attorney General shall represent the commission and any regional commission in any litigation or proceeding before any court, board, or agency of the state or federal government.

30335. The commission and each regional commission shall appoint an executive director who shall be exempt from civil service and shall serve at the pleasure of his or her appointing power. The commission shall prescribe the duties and salaries of each executive director, and, consistent with applicable civil service laws, shall appoint and discharge any officer, house staff counsel, or employee of the commission or any regional commission as it deems necessary to carry out the provisions of this division.

30336. The commission and each regional commission shall, to the maximum extent feasible, assist local governments in exercising the planning and regulatory powers and responsibilities provided for by this division where the local government elects to exercise such

4 1277 30 12 430 369

powers and responsibilities and requests assistance from the commission or regional commissions, and shall cooperate with and assist other public agencies in carrying out this division. Similarly, every public agency, including regional and state agencies and local governments, shall cooperate with the commission and any regional commission and shall, to the extent their resources permit, provide any advice, assistance, or information the commission or regional commission may require to perform its duties and to more effectively exercise its authority.

30337. The commission shall, where feasible, and in cooperation with the affected agency, establish a joint development permit application system and public hearing procedures with permit issuing agencies.

30338. By May 1, 1977, the commission, after full consultation with the State Water Resources Control Board, shall adopt regulations for the timing of its review of proposed treatment works pursuant to the provisions of subdivision (c) of Section 30412.

30339. The commission and each regional commission shall:

(a) Ensure full and adequate participation by all interested groups and the public at large in the commission's and each regional commission's work program.

(b) Ensure that timely and complete notice of commission and regional commission meetings and public hearings is disseminated to all interested groups and the public at large.

(c) Advise all interested group and the public at large as to effective ways of participating in commission and regional commission proceedings.

(d) Recommend to any local government preparing or implementing a local coastal program and to any state agency that is carrying out duties or responsibilities pursuant to the provisions of this division, and additional measures to assure open consideration and more effective public participation in such programs or activities.

30340. The commission shall be responsible for the management and budgeting of any and all funds that may be appropriated, allocated, granted, or in any other way made available to the commission or any regional commission for expenditure.

30341. The commission or any regional commission, with the commission's approval, may prepare and adopt any additional plans and maps and undertake any studies it deems necessary and appropriate to better accomplish the purposes, goals, and policies of this division; provided, however, that such plans and maps shall only be adopted after public hearing.

30342. The commission shall evaluate progress being made toward implementation of the provisions of this division and shall submit a report to the Governor and Legislature on January 1st of every other year, commencing on January 1, 1979.

CHAPTER 5. STATE AGENCIES

Article 1. General

30400. It is the intent of the Legislature to minimize duplication and conflicts among existing state agencies carrying out their regulatory duties and responsibilities.

30401. Except as otherwise specifically provided in this division, enactment of this division is not intended to change the authority of any existing state agency nor shall any provision of this division be a limitation on the power of any state agency to enforce or administer any provision of law which such agency is specifically authorized or required by statute or the Constitution of California to enforce or administer. This chapter shall not be construed to limit in any way, unless specifically otherwise provided in this chapter, the regulatory controls over development pursuant to Chapters 7 (commencing with Section 30600) and 8 (commencing with Section 30700).

30402. All state agencies shall carry out their duties and responsibilities in conformity with this division.

30403. It is the intent of the Legislature that the policies of this division and all local coastal programs prepared pursuant to Chapter 6 (commencing with Section 30500) should provide the common assumptions upon which state functional plans for the coastal zone are based in accordance with the provisions of Section 65036 of the Government Code.

30404. The commission shall submit to the State Energy Resources Conservation and Development Commission, and may submit to any state agency, recommendations designed to encourage such agency to carry out its statutory obligations in a manner that conforms with and implements this division. Such recommendations may include proposed changes in administrative regulations and proposed legislation. Each such state agency shall review and consider such recommendations and shall, within six months after receipt and in the event the recommendations are not implemented, report to the Governor and the Legislature its action and reasons therefor. Such report shall also include the agency's comment on any legislation which may have been proposed by the commission.

Article 2. State Agencies

30410. (a) The commission and the San Francisco Bay Conservation and Development Commission shall conduct a joint review of this division and Title 7.2 (commencing with Section 66600) of the Government Code to determine how the program administered by the San Francisco Bay Conservation and Development Commission shall be related to this division. Both commissions shall jointly present their recommendations to the Legislature not later than July 1, 1978.

4 1277 30 12 455 374

(b) It is the intent of the Legislature that the ports under the jurisdiction of the San Francisco Bay Conservation and Development Commission, including the Ports of San Francisco, Oakland, Richmond, Redwood City, Encinal Terminals, and Benicia, should be treated no less favorably than the ports under the jurisdiction of the commission covered in Chapter 8 (commencing with Section 30700) under the terms of any legislation which is developed pursuant to such study.

30411. (a) The Department of Fish and Game and the Fish and Game Commission are the principal state agencies responsible for the establishment and control of wildlife and fishery management programs and neither the commission nor any regional commission shall establish or impose any controls with respect thereto that duplicate or exceed regulatory controls established by such agencies pursuant to specific statutory requirements or authorization.

(b) The Department of Fish and Game, in consultation with the commission and the Department of Navigation and Ocean Development, may study degraded wetlands and identify those which can most feasibly be restored in conjunction with development of a boating facility as provided in subdivision (a) of Section 30233. Any such study shall include consideration of all of the following:

(1) Whether the wetland is so severely degraded and its natural processes so substantially impaired that it is not capable of recovering and maintaining a high level of biological productivity without major restoration activities.

(2) Whether a substantial portion of the degraded wetland, but in no event less than 75 percent, can be restored and maintained as a highly productive wetland in conjunction with a boating facilities project.

(3) Whether restoration of the wetland's natural values, including its biological productivity and wildlife habitat features, can most feasibly be achieved and maintained in conjunction with a boating facility or whether there are other feasible ways to achieve such values.

30412. (a) In addition to the provisions set forth in Section 13142.5 of the Water Code, the provisions of this section shall apply to the commission and the State Water Resources Control Board and the California regional water quality control boards.

(b) The State Water Resources Control Board and the California regional water quality control boards are the state agencies with primary responsibility for the coordination and control of water quality. The State Water Resources Control Board has primary responsibility for the administration of water rights pursuant to applicable law. The commission shall assure that proposed development and local coastal programs shall not frustrate the provisions of this section. Neither the commission nor any regional commission shall, except as provided in subdivision (c), modify, adopt conditions, or take any action in conflict with any

determination by the State Water Resources Control Board or any California regional water quality control board in matters relating to water quality or the administration of water rights.

Except as provided in this section, nothing herein shall be interpreted in any way either as prohibiting or limiting the commission, regional commission, local government, or port governing body from exercising the regulatory controls over development pursuant to this division in a manner necessary to carry out the provisions of this division.

(c) Any development within the coastal zone or outside the coastal zone which provides service to any area within the coastal zone that constitutes a treatment work shall be reviewed by the commission and any permit it issues, if any, shall be determinative only with respect to the following aspects of such development:

(1) The siting and visual appearance of treatment works within the coastal zone.

(2) The geographic limits of service areas within the coastal zone which are to be served by particular treatment works and the timing of the use of capacity of treatment works for such service areas to allow for phasing of development and use of facilities consistent with this division.

(3) Development projections which determine the sizing of treatment works for providing service within the coastal zone.

The commission shall determine whether the treatment works complies with the provisions of this division and shall make its final determination on a permit application for a treatment work prior to the final approval by the State Water Resources Control Board for the funding of such treatment works. Except as specifically provided in this subdivision, the decisions of the State Water Resources Control Board relative to the construction of treatment works shall be final and binding upon the commission and any regional commission.

(d) The commission shall provide or require reservations of sites for the construction of treatment works and points of discharge within the coastal zone adequate for the protection of coastal resources consistent with the provisions of this division.

(e) Nothing in this section shall require the State Water Resources Control Board to fund or certify for funding, any specific treatment works within the coastal zone or to prohibit the State Water Resources Control Board or any California regional water quality control board from requiring a higher degree of treatment at any existing treatment works.

30413. (a) In addition to the provisions set forth in subdivision (f) of Section 30241, and in Sections 25302, 25500, 25507, 25508, 25514, 25516.1, 25519, 25523, and 25526, the provisions of this section shall apply to the commission and the State Energy Resources Conservation and Development Commission with respect to matters within the statutory responsibility of the latter.

(b) The commission shall, prior to January 1, 1978, and after one

or more public hearings, designate those specific locations within the coastal zone where the location of a facility as defined in Section 25110 would prevent the achievement of the objectives of this division; provided, however, that specific locations that are presently used for such facilities and reasonable expansion thereof shall not be so designated. Each such designation shall include a description of the boundaries of such locations, the objectives of this division which would be so affected, and detailed findings concerning the significant adverse impacts that would result from development of a facility in the designated area. The commission shall consider the conclusions, if any, reached by the State Energy Resources Conservation and Development Commission in its most recently promulgated comprehensive report issues pursuant to Section 25309. The commission shall transmit a copy of its report prepared pursuant to this subdivision to the State Energy Resources Conservation and Development Commission.

(c) The commission shall every two years revise and update the designations specified in subdivision (b) of this section. The provisions of subdivision (b) of this section shall not apply to any sites and related facilities specified in any notice of intention to file an application for certification filed with the State Energy Resources Conservation and Development Commission pursuant to Section 25502 prior to designation of additional locations made by the commission pursuant to this subdivision.

(d) Whenever the State Energy Resources Conservation and Development Commission exercises its siting authority and undertakes proceedings pursuant to the provisions of Chapter 6 (commencing with Section 25500) of Division 15 with respect to any thermal powerplant or transmission line to be located, in whole or in part, within the coastal zone, the commission shall participate in such proceedings and shall receive from the State Energy Resources Conservation and Development Commission any notice of intention to file an application for certification of a site and related facilities within the coastal zone. The commission shall analyze each notice of intent and shall, prior to completion of the preliminary report required by Section 25510, forward to the State Energy Resources Conservation and Development Commission a written report on the suitability of the proposed site and related facilities specified in such notice of intent. The commission's report shall contain a consideration of, and findings regarding, all of the following:

(1) The compatibility of the proposed site and related facilities with the goal of protecting coastal resources.

(2) The degree to which the proposed site and related facilities would conflict with other existing or planned coastal-dependent land uses at or near the site.

(3) The potential adverse effects that the proposed site and related facilities would have on aesthetic values.

(4) The potential adverse environmental effects on fish and wildlife and their habitats.

(5) The conformance of the proposed site and related facilities with certified local coastal programs in those jurisdictions which would be affected by any such development.

(6) The degree to which the proposed site and related facilities could reasonably be modified so as to mitigate potential adverse effects on coastal resources, minimize conflict with existing or planned coastal-dependent uses at or near the site, and promote the policies of this division.

(7) Such other matters as the commission deems appropriate and necessary to carry out the provisions of this division.

(e) The commission may, at its discretion, participate fully in other proceedings conducted by the State Energy Resources Conservation and Development Commission pursuant to its powerplant siting authority. In the event the commission participates in any public hearings held by the State Energy Resources Conservation and Development Commission, it shall be afforded full opportunity to present evidence and examine and cross-examine witnesses.

(f) The State Energy Resources Conservation and Development Commission shall forward a copy of all reports it distributes pursuant to Sections 25302 and 25306 to the commission and the commission shall, with respect to any report that relates to the coastal zone or coastal zone resources, comment on such reports, and shall in its comments include a discussion of the desirability of particular areas within the coastal zone as designated in such reports for potential powerplant development. The commission may propose alternate areas for powerplant development within the coastal zone and shall provide detailed findings to support the suggested alternatives.

30414. (a) The State Air Resources Board and local air pollution control districts established pursuant to state law and consistent with requirements of federal law are the principal public agencies responsible for the establishment of ambient air quality and emission standards and air pollution control programs. Neither the commission nor any regional commission shall modify any ambient air quality or emission standard established by the State Air Resources Board or any local air pollution control district in establishing ambient air quality or emission standards.

(b) The State Air Resources Board and any local air pollution control district may recommend ways in which actions of the commission or any regional commission can complement or assist in the implementation of established air quality programs.

30415. The Director of the Office of Planning and Research shall, in cooperation with the commission and other appropriate state agencies, review the policies of this division. If the director determines that effective implementation of any policy requires the cooperative and coordinated efforts of several state agencies, he shall recommend to the appropriate agencies actions that should be taken to minimize potential duplication and conflicts and which could, if taken, better achieve effective implementation of such policy. The

director shall, where appropriate and after consultation with the affected agency, recommend to the Governor and the Legislature how the programs, duties, and responsibilities of any state agency should be changed to better achieve the goals and policies of this division.

30416. (a) The State Lands Commission, in carrying out its duties and responsibilities as the state agency responsible for the management of all state lands, including tide and submerged lands,, in accordance with the provisions of Division 6 (commencing with Section 6001), shall, prior to certification by the commission pursuant to Chapters 6 (commencing with Section 30500) and 8 (commencing with Section 30700) review, and may comment on any proposed local coastal program or port master plan that could affect state lands.

(b) No power granted to any local government, port governing body, or special district, under this division, shall change the authority of the State Lands Commission over granted or ungranted lands within its jurisdiction or change the rights and duties of its lessees or permittees.

(c) Boundary settlements between the State Lands Commission and other parties and any exchanges of land in connection therewith shall not be a development within the meaning of this division.

(d) Nothing in this division shall amend or alter the terms and conditions in any legislative grant of lands, in trust, to any local government, port governing body, or special district; provided, however, that any development on such granted lands shall, in addition to the terms and conditions of such grant, be subject to the regulatory controls provided by Chapters 7 (commencing with Section 30600) and 8 (commencing with Section 30700).

30417. (a) In addition to the provisions set forth in Section 4551.5, the provisions of this section shall apply to the State Board of Forestry.

(b) Within 180 days after January 1, 1977, the commission shall identify special treatment areas within the coastal zone in order to assure that natural and scenic resources are adequately protected. The commission shall forward to the State Board of Forestry maps of the designated special treatment areas together with specific reasons for such designations and with recommendations designed to assist the State Board of Forestry in adopting rules and regulations which adequately protect the natural and scenic qualities of such special treatment areas.

30418. (a) Pursuant to Division 3 (commencing with Section 3000), the Division of Oil and Gas of the Department of Conservation is the principal state agency responsible for regulating the drilling, operation, maintenance, and abandonment of all oil, gas, and geothermal wells in the state. Neither the commission, regional commission, local government, port governing body, or special district shall establish or impose such regulatory controls that duplicate or exceed controls established by the Division of Oil and Gas pursuant to specific statutory requirements or authorization.

This section shall not be construed to limit in any way, except as specifically provided, the regulatory controls over oil and gas development pursuant to Chapters 7 (commencing with Section 30600) and 8 (commencing with Section 30700).

(b) The Division of Oil and Gas of the Department of Conservation shall cooperate with the commission by providing necessary data and technical expertise regarding proposed well operations within the coastal zone.

CHAPTER 6. IMPLEMENTATION

Article 1. Local Coastal Program

30500. (a) Each local government lying, in whole or in part, within the coastal zone shall prepare a local coastal program for that portion of the coastal zone within its jurisdiction. However, any such local government may request the commission to prepare a local coastal program, or a portion thereof for the local government; provided, such request is submitted to the commission, in writing, not later than July 1, 1977. Each local coastal program prepared pursuant to this chapter shall contain a specific public access component to assure that maximum public access to the coast and public recreation areas is provided.

(b) Amendments to a local general plan for the purpose of developing a certified local coastal program shall not constitute an amendment of a general plan for purposes of Section 65361 of the Government Code.

(c) The precise content of each local coastal program shall be determined by the local government, consistent with Section 30501, in full consultation with the commission and an appropriate regional commission, and with full public participation.

30501. The commission shall, within 90 days after January 1, 1977, adopt, after public hearing, procedures for the preparation, submission, approval, appeal, certification, and amendment of any local coastal program, including, but not limited to, all of the following:

(a) A common methodology for the preparation of, and the determination of the scope of, the local coastal programs, taking into account the fact that local governments have differing needs and characteristics.

(b) A schedule for the processing of all local coastal programs and specific guidelines to be followed by each regional commission in establishing, within 30 days after the commission has adopted such guidelines, its own schedule for processing local coastal programs within its region; however, in no event shall a local coastal program that is prepared by a local government be required to be submitted to any regional commission prior to July 1, 1978, or later than January 1, 1980.

Local coastal programs or portions thereof, prepared by the

commission shall be completed not later than July 1, 1980, and certified not later than December 1, 1980.

(c) Recommended uses that are of more than local importance that should be considered in the preparation of local coastal programs. Such uses may be listed generally or the commission may, from time to time, recommend specific uses for consideration by any local government.

30502. (a) The commission, in consultation with affected local governments and the appropriate regional commissions, shall, not later than September 1, 1977, after public hearing, designate sensitive coastal resource areas within the coastal zone where the protection of coastal resources and public access requires, in addition to the review and approval of zoning ordinances, and the review and approval by the regional commissions and commission of other implementing actions.

(b) The designation of each sensitive coastal resource area shall be based upon a separate report prepared and adopted by the commission which shall contain all of the following:

(1) A description of the coastal resources to be protected and the reasons why the area has been designated as a sensitive coastal resource area.

(2) A specific determination that the designated area is of regional or statewide significance.

(3) A specific list of significant adverse impacts that could result from development where zoning regulations alone may not adequately protect coastal resources or access.

(4) A map of the area indicating its size and location.

(c) In sensitive coastal resource areas designated pursuant to this section, a local coastal program shall include the implementing actions adequate to protect the coastal resources enumerated in the findings of the sensitive coastal resource area report in conformity with the policies of this division.

30503. During the preparation, approval, certification, and amendment of any local coastal program, the public, as well as all affected governmental agencies, including special districts, shall be provided maximum opportunities to participate. Prior to submission of a local coastal program for approval, local governments shall hold a public hearing or hearings on that portion of the program which has not been subjected to public hearings within four years of such submission.

30504. Special districts, which issue permits or otherwise grant approval for development or which conduct development activities that may affect coastal resources, shall submit their development plans to the affected local government pursuant to Section 65401 of the Government Code. Such plans shall be considered by the affected local government in the preparation of its local coastal program.

Article 2. Procedure for Preparation, Approval, and Certification of Local Coastal Programs

30510. Consistent with the provisions of this chapter, a proposed local coastal program may be submitted to a regional commission, if both of the following are met:

(a) It is submitted pursuant to a resolution adopted by the local government, after public hearing, that certifies the local coastal program is intended to be carried out in a manner fully in conformity with this division.

(b) It contains, in accordance with guidelines established by the commission, materials sufficient for a thorough and complete review.

30511. Local coastal programs shall be submitted in accordance with the schedule established pursuant to subdivision (b) of Section 30501. At the option of the local government, such program may be submitted and processed in any of the following ways:

(a) At one time, in which event the provisions of Section 30512 with respect to time limits, resubmission, approval, and certification shall apply; provided, however, that the zoning ordinances, zoning district maps, and, if required, other implementing actions included in the local coastal program shall be approved and certified pursuant to the standards of subdivisions (a) and (f) of Section 30513.

(b) In two phases, in which event, the land use plans shall be processed first pursuant to the provisions of Section 30512, and the zoning ordinances, zoning district maps, and, if required, other implementing actions, shall be processed thereafter pursuant to the provisions of Section 30513.

(c) In separate geographic units consisting of less than the local government's jurisdiction lying within the coastal zone, each submitted pursuant to subdivision (a) or (b); provided, that the commission finds that the area or areas proposed for separate review can be analyzed for the potential cumulative impacts of development on coastal resources and access independently of the remainder of the affected jurisdiction.

30512. (a) The land use plan of a proposed local coastal program shall be submitted to the regional commission. The regional commission shall, within 90 days after the submittal, after public hearing, either approve or disapprove, in whole or in part, the land use plan. If the proposed land use plan is not acted upon within the 90-day period, it shall be deemed approved by the regional commission.

(b) Where a land use plan is disapproved, in whole or in part, the regional commission shall provide a written explanation and may suggest ways in which to modify the disapproved provisions. A local government may revise a disapproved land use plan and resubmit the revised version to the regional commission or it may appeal either the disapproved portion or revised version thereof to the commission. Where the proposed land use plan is approved, in whole or in part, the land use plan or the approved portion thereof shall,

within 10 working days of such approval, be forwarded by the regional commission to the commission for certification.

(c) The commission shall, not less than 21 days nor more than 45 days after a land use plan has been submitted or appealed to it, determine by majority vote, after a public hearing, whether specific provisions of the land use plan raise a substantial issue as to conformity with the policies of Chapter 3 (commencing with Section 30200). If the commission finds no substantial issue, the decision of the regional commission shall be final, and in the case of regional commission approvals, the land use plan shall be deemed certified. If the commission determines a substantial issue is raised, it shall, following public hearing and within 60 days from receipt of the land use plan, either refuse certification or certify, in whole or in part, the land use plan.

(d) If the commission refuses certification, in whole or in part, it shall send a written explanation for such action to the appropriate local government and regional commission. A revised land use plan may be resubmitted directly to the commission for certification.

(e) A regional commission shall approve and the commission shall certify, or the commission shall approve and certify where there is no regional commission, a land use plan, or any amendments thereto, if such commission finds that a land use plan meets the requirements of, and is in conformity with, the policies of Chapter 3 (commencing with Section 30200) of this division.

30513. The local government shall submit to the regional commission and the commission the zoning ordinances, zoning district maps, and, where necessary, other implementing actions which are required pursuant to this chapter.

(a) If within 60 days after receipt of the zoning ordinances, zoning district maps, and other implementing actions, the regional commission, after public hearing, has not rejected the zoning ordinances, zoning district maps, or other implementing actions, they shall be deemed approved. A regional commission may only reject zoning ordinances, zoning district maps, or other implementing actions on the grounds that they do not conform with, or are inadequate to carry out, the provisions of the certified land use plan. If the regional commission rejects the zoning ordinances, zoning district maps, or other implementing actions, it shall give written notice of the rejection specifying the provisions of land use plan with which the rejected zoning ordinances do not conform or which it finds will not be adequately carried out together with its reasons for the action taken.

(b) The local government may revise and resubmit the rejected zoning ordinances, zoning district maps, or other implementing actions to the regional commission or it may, within 10 days after receipt of a notice of such rejection, appeal to the commission.

(c) Any aggrieved person may appeal to the commission within 10 working days after approval or rejection of the zoning ordinances, zoning district maps, or other implementing actions by a regional

41277 30126 15 406

commission or after the zoning ordinances, zoning district maps, or other implementing actions are deemed approved due to the failure of the regional commission to act.

(d) An appeal pursuant to subdivision (b) or (c) shall specify the action which is being appealed, the specific provision of the certified land use plan with which the zoning ordinances, zoning district maps, or other implementing actions either conform or do not conform or which will or will not be adequately carried out, and the appellant's reasons for such position. The commission, by majority vote of those present, may refuse to hear an appeal which it determines raises no substantial issue. If the commission refuses to hear an appeal, the action of the regional commission shall be final.

(e) In the absence of an appeal pursuant to subdivision (b) or (c), the commission, by a majority of those present, may, within 30 days after a zoning ordinance, zoning district map, or other implementing action has been approved by the regional commission, determine that a substantial issue is presented as to conformity with or adequacy to carry out the certified land use plan.

(f) If within 60 days after receipt of an appeal pursuant to subdivision (b) or (c) or within 30 days after a determination to review pursuant to subdivision (e), the commission, after public hearing, has not rejected the zoning ordinances, zoning district maps, or other implementing actions, such zoning ordinances, zoning district maps, or other implementing actions shall be deemed approved. The commission may only reject a zoning ordinance, zoning district map, or other implementing action on the grounds set forth in subdivision (a) and, if it does so, shall give written notice as provided in subdivision (a). The local government may revise and resubmit a rejected zoning ordinance, zoning district map, or other implementing action to the regional commission or directly to the commission in accordance with the provisions of this section.

30514. (a) A certified local coastal program and all local implementing ordinances, regulations, and other actions may be amended by the appropriate local government but no such amendment shall take effect until it has been certified by the commission.

(b) Any proposed amendment of a certified local coastal program shall be submitted to, and processed by, the appropriate regional commission and the commission, or the commission where there is no regional commission, in accordance with the provisions of Sections 30512 and 30513.

(c) The commission shall, by regulations, establish a procedure whereby proposed amendments to a certified local coastal program may be reviewed and designated by the executive director of the commission as being minor in nature. Proposed amendments that are designated as minor shall not be subject to the provisions of Sections 30512 and 30513 and shall take effect on the 10th working day after such designation. Amendments that allow changes in uses shall not be designated as minor.

4 1277 30 12 625 408

(d) For the purpose of this section, an "amendment of a certified local coastal program" includes, but is not limited to, any action by the local government which authorizes a use of a parcel of land other than that designated in the certified local coastal program as a permitted use of such parcel.

30515. Any person authorized to undertake a public works project or proposing an energy facility development may request any local government to amend its certified local coastal program, if the purpose of the proposed amendment is to meet public needs of an area greater than that included within such certified local coastal program that had not been anticipated by the person making the request at the time the local coastal program was before the commission for certification. If, after review, the local government determines that the amendment requested would be in conformity with the policies of this division, it may amend its certified local coastal program as provided in Section 30514.

If the local government does not amend its local coastal program, such person may file with the commission a request for amendment which shall set forth the reasons why the proposed amendment is necessary and how such amendment is in conformity with the policies of this division. The local government shall be provided an opportunity to set forth the reasons for its action. The commission may, after public hearing, approve and certify the proposed amendment if it finds, after a careful balancing of social, economic, and environmental effects, that to do otherwise would adversely affect the public welfare, that a public need of an area greater than that included within the certified local coastal program would be met, that there is no feasible, less environmentally damaging alternative way to meet such need, and that the proposed amendment is in conformity with the policies of this division.

30516. (a) Approval of a local coastal program shall not be withheld because of the inability of the local government to financially support or implement any policy or policies contained in this division; provided, however, that this shall not require the approval of a local coastal program allowing development not in conformity with the policies in Chapter 3 (commencing with Section 30200).

(b) Where a certified port master plan has been incorporated in a local coastal program in accordance with Section 30711 and the local coastal program is disapproved by the regional commission or the commission, such disapproval shall not apply to the certified port master plan.

30517. The commission or the regional commission may extend, for a period of not to exceed one year, except as provided for in Section 30518, any time limitation established by this chapter for good cause.

30518. If a local coastal program has not been certified and all implementing devices become effective on or before January 1, 1981, the commission may take any of the following actions, if it finds that,

in the absence of a certified local coastal program, any new development in the coastal zone would not be in conformity within the jurisdiction of the affected local government and would be inconsistent with the policies of this division:

(a) Prohibit or otherwise restrict, by regulation, the affected local government from issuing any permit or any type of entitlement for use for any development with the coastal zone, or any portion thereof, of such local government.

(b) By regulation, extend the permit requirements of Chapter 7 (commencing with Section 30600) by requiring a permit from the commission for any development within any area of the coastal zone under the jurisdiction of the affected local government.

30519. Except for appeals to the commission, as provided in Section 30603, after a local coastal program, or any portion thereof, has been certified and all implementing actions within the area affected have become effective, the development review authority provided for in Chapter 7 (commencing with Section 30600) shall no longer be exercised by the regional commission or by the commission where there is no regional commission over any new development proposed within the area to which such certified local coastal program, or any portion thereof, applies and shall at that time be delegated to the local government that is implementing such local coastal program or any portion thereof.

(b) Subdivision (a) shall not apply to any development proposed or undertaken on any tidelands, submerged lands, or on public trust lands, whether filled or unfilled, lying within the coastal zone, nor shall it apply to any development proposed or undertaken within ports covered by Chapter 8 (commencing with Section 30700) or within any state university or college within the coastal zone; however, this section shall apply to any development proposed or undertaken by a port or harbor district or authority on lands or waters granted by the Legislature to a local government whose certified local coastal program includes the specific development plans for such district or authority.

30519.5. (a) The commission shall, from time to time, but at least once every five years after certification, review every certified local coastal program to determine whether such program is being effectively implemented in conformity with the policies of this division. If the commission determines that a certified local coastal program is not being carried out in conformity with any policy of this division it shall submit to the affected local government recommendations of corrective actions that should be taken. Such recommendations may include recommended amendments to the affected local government's local coastal program.

(b) Recommendations submitted pursuant to this section shall be reviewed by the affected local government and, if the recommended action is not taken, the local government shall, within one year of such submission, forward to the commission a report setting forth its reasons for not taking the recommended action. The commission

shall review such report and, where appropriate, report to the Legislature and recommend legislative action necessary to assure effective implementation of the relevant policy or policies of this division.

30520. If the application of any local coastal program or part thereof is prohibited or stayed by any court, the permit authority provided for in Chapter 7 (commencing with Section 30600) shall be reinstated in the regional commission or in the commission where there is no regional commission. The reinstated permit authority shall apply as to any development which would be affected by the prohibition or stay.

30521. The Legislature hereby finds and declares that the early review of a limited number of local coastal programs may provide valuable experience for future review and processing of local coastal programs and that in consideration of the early commitments made by the involved local governments, any local coastal program prepared for that portion of a local jurisdiction designated as a pilot project area by the California Coastal Zone Conservation Commission between August 31, 1976, and October 31, 1976, shall receive priority from the regional commission and the commission by being processed ahead of other local coastal programs pursuant to the provisions of this chapter. Any such pilot project may be reviewed and approved by the appropriate regional commission and the commission without being subject to the procedures required by Section 30501; provided, that the proposed local coastal program, or portion thereof, is in conformity with the policies of Chapter 3 (commencing with Section 30200), serves as a useful model for future review of local coastal programs, and the regional commission has commenced formal review of the land use phase of a local coastal program by June 1, 1977.

30522. Nothing in this chapter shall permit the commission to certify a local coastal program which provides for a lesser degree of environmental protection than that provided by the plans and policies of any state regulatory agency.

CHAPTER 7. DEVELOPMENT CONTROLS

Article 1. General Provisions

30600. (a) In addition to obtaining any other permit required by law from any local government or from any state, regional, or local agency, on or after January 1, 1977, any person wishing to perform or undertake any development in the coastal zone, other than a facility subject to the provisions of Section 25500, shall obtain a coastal development permit.

(b) Prior to certification of its local coastal program, a local government may, with respect to any development within its area of jurisdiction in the coastal zone and consistent with the provisions of Sections 30604, 30620, and 30620.5, establish procedures for the

filing, processing, review, modification, approval, or denial of a coastal development permit. Such procedures may be incorporated and made a part of the procedures relating to any other appropriate land use development permit issued by the local government. A coastal development permit from a local government shall not be required by this subdivision for any development on tidelands, submerged lands, or on public trust lands, whether filled or unfilled, or for any development by a public agency for which a local government permit is not otherwise required.

(c) If prior to certification of its local coastal program, a local government does not exercise the option provided in subdivision (b), or a development is not subject to the requirements of subdivision (b), a coastal development permit shall be obtained from a regional commission, the commission on appeal, or the commission where there is no regional commission.

(d) After certification of its local coastal program, a coastal development permit shall be obtained from the local government as provided for in Section 30519.

30601. Prior to certification of the local coastal program and, where applicable, in addition to a permit from local government pursuant to subdivision (b) of Section 30600, a coastal development permit shall be obtained from the regional commission, or the commission on appeal, or the commission where there is no regional commission, for any of the following:

(1) Developments between the sea and the first public road paralleling the sea or within 300 feet of the inland extent of any beach or of the mean high tide line of the sea where there is no beach, whichever is the greater distance.

(2) Developments not included within paragraph (1) located on tidelands, submerged lands, public trust lands, within 100 feet of any wetland, estuary, stream, or within 300 feet of the top of the seaward face of any coastal bluff.

(3) Any development which constitutes a major public works project or a major energy facility.

30602. (a) Prior to certification of its local coastal program, any action taken by a local government on a coastal development permit application may be appealed by the executive director of the regional commission, any person, including the applicant, or any two members of the regional commission or the commission to the regional commission. Such action shall become final after the 20th working day after receipt of the notice required by subdivision (c) of Section 30620.5, unless an appeal is filed within that time.

(b) Any action taken by a regional commission on a coastal development permit application pursuant to this section or Section 30600, may be appealed to the commission, in accordance with the provisions of subdivision (a) of Section 30625. Such action shall become final after the 10th working day, unless an appeal is filed within that time.

30603. (a) After certification of its local coastal program, an

action taken by a local government on a coastal development permit application may be appealed to the commission for any of the following:

(1) Developments approved by the local government between the sea and the first public road paralleling the sea or within 300 feet of the inland extent of any beach or of the mean high tide line of the sea where there is no beach, whichever is the greater distance.

(2) Developments approved by the local government not included within paragraph (1) of this subdivision located on tidelands, submerged lands, public trust lands, within 100 feet of any wetland, estuary, stream, or within 300 feet of the top of the seaward face of any coastal bluff.

(3) Developments approved by the local government not included within paragraph (1) or (2) of this subdivision located in a sensitive coastal resource area if the allegation on appeal is that the development is not in conformity with the implementing actions of the certified local coastal program.

(4) Any development approved by a coastal county that is not designated as the principal permitted use under the zoning ordinance or zoning district map approved pursuant to Chapter 6 (commencing with Section 30500).

(5) Any development which constitutes a major public works project or a major energy facility.

(b) The grounds for an appeal pursuant to paragraph (1) of subdivision (a) shall be limited to the following:

(1) The development fails to provide adequate physical access or public or private commercial use or interferes with such uses.

(2) The development fails to protect public views from any public road or from a recreational area to, and along, the coast.

(3) The development is not compatible with the established physical scale of the area.

(4) The development may significantly alter existing natural landforms.

(5) The development does not comply with shoreline erosion and geologic setback requirements.

(c) The standard of review for any development reviewed pursuant to subdivision (a) or (b) shall be in conformity with the implementing actions of the certified local coastal program.

Such action shall become final after the 10th working day, unless an appeal is filed within that time.

30604. (a) Prior to certification of the local coastal program, a coastal development permit shall be issued if the issuing agency, or the commission on appeal, finds that the proposed development is in conformity with the provisions of Chapter 3 (commencing with Section 30200) of this division and that the permitted development will not prejudice the ability of the local government to prepare a local coastal program that is in conformity with the provisions of Chapter 3 (commencing with Section 30200).

(b) After certification of the local coastal program a coastal

41277 31190 429

development permit shall be issued if the issuing agency or the commission on appeal finds that the proposed development is in conformity with the certified local coastal program.

(c) Every coastal development permit issued for any development between the nearest public road and the sea or the shoreline of any body of water located within the coastal zone shall include a specific finding that such development is in conformity with the public access and public recreation policies of Chapter 3 (commencing with Section 30200).

(d) Nothing in this division shall authorize the denial of a coastal development permit on grounds that a portion of the proposed development not within the coastal zone will have adverse environmental impacts outside the coastal zone; provided, however, that the portion of the proposed development within the coastal zone shall meet the requirements of this chapter.

30605. To promote greater efficiency for the planning of any public works or state university or college development projects and as an alternative to project-by-project review, plans for public works or state university or college long-range land use development plans may be submitted to the regional commission and the commission for review in the same manner prescribed for the review of local coastal programs as set forth in Chapter 6 (commencing with Section 30500). If any such plan for public works or state university or college development project is submitted prior to certification of the local coastal programs for the jurisdictions affected by the proposed public works, the commission shall certify whether such proposed plan is consistent with the provisions of Chapter 3 (commencing with Section 30200). The commission shall, by regulation, provide for the submission and distribution to the public, prior to public hearings on the plan, detailed environmental information sufficient to enable the commission to determine the consistency of the plans with the policies of this division. If any such plan for public works is submitted after the certification of local coastal programs, any such plan shall be approved by the commission only if it finds, after full consultation with the affected local governments, that the proposed plan for public works is in conformity with certified local coastal programs in jurisdictions affected by the proposed public works. Each state university or college shall coordinate and consult with local government in the preparation of long-range development plans so as to be consistent, to the fullest extent feasible, with the appropriate local coastal program. Where a plan for a public works or state university or college development project has been certified by the commission, any subsequent review by the commission of a specific project contained in such certified plan shall be limited to imposing conditions consistent with Sections 30607 and 30607.1. A certified long-range development plan may be amended by the state university or college, but no such amendment shall take effect until it has been certified by the commission. Any proposed amendment shall be submitted to, and processed by, the regional commission or

the commission in the same manner as prescribed for amendment of a local coastal program.

30606. Prior to the commencement of any development pursuant to Section 30605, the public agency proposing the public works project, or state university or college, shall notify the commission and other interested persons, organizations, and governmental agencies of the impending development and provide data to show that it is consistent with the certified public works plan or long-range development plan. No development shall take place within 30 working days after such notice.

30607. Any permit that is issued or any development or action approved on appeal, pursuant to this chapter, shall be subject to reasonable terms and conditions in order to ensure that such development or action will be in accordance with the provisions of this division.

30607.1. Where any dike and fill development is permitted in wetlands in conformity with this division, mitigation measures shall include, at a minimum, either acquisition of equivalent areas of equal or greater biological productivity or opening up equivalent areas to tidal action; provided, however, that if no appropriate restoration site is available, an in-lieu fee sufficient to provide an area of equivalent productive value or surface areas shall be dedicated to an appropriate public agency, or such replacement site shall be purchased before the dike or fill development may proceed. Such mitigation measures shall not be required for temporary or short-term fill or diking; provided, that a bond or other evidence of financial responsiblity is provided to assure that restoration will be accomplished in the shortest feasible time.

30608. (a) No person who has obtained a vested right in a development prior to the date on which this division is chaptered by the Secretary of State or who has obtained a permit from the California Coastal Zone Conservation Commission pursuant to the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000) shall be required to secure approval for the development pursuant to this division; provided, however, that no substantial change may be made in any such development without prior approval having been obtained under this division.

(b) If construction of the exempted development has not in good faith been pursued within three years after a claim of exemption has been requested and approved by the regional commission, the commission on appeal, or the commission where there is no regional commission, the vested right shall be presumed to have been abandoned and the development shall be required to be approved in accordance with the provisions of this division.

30609. Where, prior to January 1, 1977, a permit was issued and expressly made subject to recorded terms and conditions that are not dedications of land or interests in land for the benefit of the public or a public agency pursuant to the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000), the

owner of real property which is the subject of such permit may apply for modification or elimination of the recordation of such terms and conditions pursuant to the provisions of this division. Such application shall be made in the same manner as a permit application. In no event, however, shall such a modification or elimination of recordation result in the imposition of terms or conditions which are more restrictive than those imposed at the time of the initial grant of the permit.Unless modified or deleted pursuant to this section, any condition imposed on a permit issued pursuant to the former California Coastal Zone Conservation Act of 1972 (commencing with Section 27000) shall remain in full force and effect.

30610. Notwithstanding any provision in this division to the contrary, no coastal development permit shall be required pursuant to this chapter for the following types of development and in the following areas:

(a) Improvements to existing single-family residences; provided, however, that the commission shall specify, by regulation, those classes of development which involve a risk of adverse environmental effect and shall require that a coastal development permit be obtained under this chapter.

(b) Maintenance dredging of existing navigation channels or moving dredged material from such channels to a disposal area outside the coastal zone, pursuant to a permit from the United States Army Corps of Engineers.

(c) Repair or maintenance activities that do not result in an addition to, or enlargement or expansion of, the object of such repair or maintenance activities; provided, however, that if the commission determines that certain extraordinary methods of repair and maintenance that involve a risk of substantial adverse environmental impact, it shall, by regulation, require that a permit be obtained under this chapter.

(d) Any category of development, or any category of development within a specifically defined geographic area, that the commission, by regulation, after public hearing, and by two-thirds vote of its total authorized membership, has described or identified and with respect to which the commission has found that there is no potential for any significant adverse effect, either individually or cumulatively, on coastal resources or on public access to, or along, the coast and that such exclusion will not impair the ability of local government to prepare a local coastal program.

(e) The installation, testing, and placement in service or the replacement of any necessary utility connection between an existing service facility and any development approved pursuant to this division; provided, that the commission may, where necessary, require reasonable conditions to mitigate any adverse impacts on coastal resources, including scenic resources.

(f) Any development within an urban land area identified by the commission pursuant to this subdivision. Upon the request of the

local government within whose jurisdiction the urban land area is located, the commission, in consultation with the appropriate regional commission and after public hearing, shall exclude from the permit provisions of this chapter residential areas zoned and developed to a density of four or more dwelling units per acre on or before January 1, 1977, or a commercial or industrial area zoned and developed for such use on or before January 1, 1977, if it finds both of the following:

(1) Locally permitted development will be infilling or replacement and will be in conformity with the scale, size, and character of the surrounding community.

(2) There is no potential for significant adverse effects, either individually or cumulatively, on pubic access to the coast or on coastal resources from any locally permitted development; provided, however, that no area may be excluded unless more than 50 percent of the lots are built upon, to the same general density or intensity of use.

(g) Every exclusion granted under subdivisions (d) and (f) shall be subject to terms and conditions to assure that no significant change in density, height, or nature of uses will occur without further proceedings under this division. An order granting such exclusion may be revoked at any time by the commission, if the conditions of exclusion are violated. Tide and submerged land, beaches, and lots immediately adjacent to the inland extent of any beach, or of the mean high tide line of the sea where there is no beach, and all lands and waters subject to the public trust shall not be excluded.

30611. When immediate action by a person or public agency performing a public service is required to protect life and public property from imminent danger, or to restore, repair, or maintain public works, utilities, or services destroyed, damaged, or interrupted by natural disaster, serious accident, or in other cases of emergency, the requirements of obtaining any permit under this division may be waived upon notification of the executive director of the commission of the type and location of the work within three days of the disaster or discovery of the danger, whichever occurs first. Nothing in this section authorizes permanent erection of structures valued at more than twenty-five thousand dollars ($25,000).

Article 2. Development Control Procedures

30620. (a) By January 30, 1977, the commission shall, consistent with the provisions of this chapter, prepare interim procedures for the submission, review, and appeal of coastal development permit applications and of claims of exemption. Such procedures shall include, but are not limited to, the following:

(1) Application and appeal forms.

(2) Reasonable provisions for notification to the regional commission, the commission, and other interested persons of any action taken by a local government pursuant to this chapter, in

sufficient detail to assure that a preliminary review of such action for conformity with the provisions of this chapter can be made.

(3) Interpretive guidelines designed to assist local governments, the regional commissions, the commission, and persons subject to the provisions of this chapter in determining how the policies of this division shall be applied in the coastal zone prior to certification of local coastal programs; provided however, that such guidelines shall not supersede, enlarge, or diminish the powers or authority of any regional commission, the commission, or any other public agency.

(b) Not later than May 1, 1977, the commission shall, after public hearing, adopt permanent procedures that include the components specified in subdivision (a) and shall transmit a copy of such procedures to each local government within the coastal zone and shall make them readily available to the public. The commission may thereafter, from time to time, and, except in cases of emergency, after public hearing, modify or adopt additional procedures or guidelines as it deems necessary to better carry out the provisions of this division.

(c) The commission may require a reasonable filing fee and the reimbursement of expenses for the processing by the regional commission or the commission of any application for a coastal development permit under this division. The funds received under this subdivision shall be expended by the commission only when appropriated by the Legislature.

30620.5. (a) A local government may exercise the option provided in subdivision (b) of Section 30600; provided it does so for the entire area of its jurisdiction within the coastal zone and after it establishes procedures for the issuance of coastal development permits. Such procedures shall incorporate, where applicable, the interpretive guidelines issued by the commission pursuant to Section 30620.

(b) If a local government elects to exercise the option provided in subdivision (b) of Section 30600, the local government shall, by resolution adopted by the governing body of such local government, notify the appropriate regional commission and the commission and shall take appropriate steps to assure that the public is properly notified of such action. The provisions of subdivision (b) of Section 30600 shall take effect and shall be exercised by the local government on the 10th working day after the date on which the resolution required by this subdivision is adopted.

(c) Every local government exercising the option provided in subdivision (b) of Section 30600, shall within five working days notify the appropriate regional commission and any person who, in writing, has requested such notification, in the manner prescribed by the commission pursuant to Section 30620, of any coastal development permit it issues.

(d) Within five working days of receipt of the notice required by subdivision (c), the executive director of the regional commission shall post, at a conspicuous location in the regional commission's

office, a description of the coastal development permit issued by the local government. Within 15 working days of receipt of such notice, the executive director shall, in the manner prescribed by the commission pursuant to subdivision (a) of Section 30620, provide notice of the locally issued coastal development permit to members of the regional commission, and the commission.

30620.6. The commission shall, not later than August 1, 1978, and after public hearing, adopt public notice and appeal procedures for the review of development projects appealable pursuant to Sections 30603 and 30715. The commission shall send copies of such procedures to every local government within the coastal zone and shall make them readily available to the public.

30621. The regional commission or the commission shall provide for a de novo public hearing on applications for coastal development permits and any appeals brought pursuant to this division and shall give to any affected person a written public notice of the nature of the proceeding and of the time and place of the public hearing. Notice shall also be given to any person who requests, in writing, such notification. A hearing on any coastal development permit application or an appeal shall be set no earlier than 21 days nor later than 42 days after the date on which the application or appeal is filed with the regional commission or the commission.

30622. A regional commission or the commission shall act upon the coastal development permit application or an appeal within 21 days after the conclusion of the hearing pursuant to Section 30621. Any action by a regional commission shall become final after the 10th working day, unless an appeal is filed with the commission within such time.

30623. If an appeal of any action on any development by any regional commission, any local government, or port governing body is filed with the regional commission or the commission, the operation and effect of such action shall be stayed pending a decision on appeal.

30624. The commission shall provide, by regulation, for the issuance of coastal development permits by the executive director of the commission or any regional commission without compliance with the procedures specified in this chapter in cases of emergency, other than an emergency provided for under Section 30611, or for improvements to any existing structure not in excess of twenty-five thousand dollars ($25,000), and any other developments not in excess of twenty thousand dollars ($20,000). Such permit for nonemergency development shall not be effective until after reasonable public notice and adequate time for the review of such issuance has been provided. If any two members of the regional commission or the commission so request, at the first meeting following the issuance of such permit, such issuance shall not be effective, and, instead, the application shall be set for a public hearing pursuant to the provisions of this chapter.

No monetary limitations shall be required for emergencies

covered by the provisions of this section.

30625. (a) Except as otherwise specifically provided in subdivision (a) of Section 30602, any appealable action on a coastal development permit or claim of exemption for any development by a local government or a regional commission or port governing body may be appealed to the commission by an applicant, any aggrieved person except in the case of denials by a regional commission, or any two members of the commission. The regional commission, with respect to appeals pursuant to subdivision (a) of Section 30602, or the commission may approve, modify, or deny such proposed development, and if no action is taken within the time limit specified in Sections 30621 and 30622, the decision of the regional commission, the local government, or port governing body, as the case may be, shall become final, unless the time limit in Section 30621 or 30622 is waived by the applicant.

For purposes of this division, failure by any regional commission to act within any time limit specified in this division shall constitute an "action taken".

(b) The regional commission with respect to appeals pursuant to subdivision (a) of Section 30602, or the commission shall hear an appeal unless it determines that the appeal raises no substantial issue, or it finds the following.

(1) With respect to appeals pursuant to subdivision (a) of Section 30602, that no significant question exists as to conformity with Chapter 3 (commencing with Section 30200).

(2) With respect to appeals to the commission after certification of a local coastal program, that no significant question exists as to conformity with the certified local coastal program.

(3) With respect to appeals to the commission after certification of a port master plan, that no significant question exists as to conformity with the certified port master plan.

(c) Decisions of the commission, where applicable, shall guide the regional commissions, local governments, or port governing bodies in their future actions under the provisions of this division.

30626. The commission may, by regulation, provide for the reconsideration of the terms and conditions of any coastal development permit granted by a regional commission or the commission solely for the purpose of correcting any information contained in such terms and conditions.

CHAPTER 8. PORTS

Article 1. Findings and General Provisions

30700. For purposes of this division, notwithstanding any other provisions of this division except as specifically stated in this chapter, this chapter shall govern those portions of the Ports of Hueneme, Long Beach, Los Angeles, and San Diego Unified Port District, located within the coastal zone excluding any wetland, estuary, or

existing recreation area indicated in Part IV of the coastal plan, are contained within this chapter.

30700.5. The definitions of Chapter 2 (commencing with Section 30100) and the provisions of Chapter 9 (commencing with Section 30800) and Section 30900 shall apply to this chapter.

30701. The Legislature finds and declares that:

(a) The ports of the State of California constitute one of the state's primary economic and coastal resources and are an essential element of the national maritime industry.

(b) The location of the commercial port districts within the State of California are well established, and for many years such areas have been devoted to transportation and commercial, industrial, and manufacturing uses consistent with federal, state, and local regulations. Coastal planning requires no change in the number or location of the established commercial port districts. Existing ports shall be encouraged to modernize and construct necessary facilities within their boundaries in order to minimize or eliminate the necessity for future dredging and filling to create new ports in new areas of the state.

Article 2. Policies

30702. For purposes of this division, the policies of the state with respect to providing for port-related developments consistent with coastal protection in the port areas to which this chapter applies, which require no commission permit after certification of a port master plan and which are not appealable to the commission after certification of a master plan, are set forth in this chapter.

30703. The California commercial fishing industry is important to the State of California; therefore, ports shall not eliminate or reduce existing commercial fishing harbor space, unless the demand for commercial fishing facilities no longer exists or adequate alternative space has been provided. Proposed recreational boating facilities within port areas shall, to the extent it is feasible to do so, be designed and located in such a fashion as not to interfere with the needs of the commercial fishing industry.

30705. (a) Water areas may be diked, filled, or dredged when consistent with a certified port master plan only for the following:

(1) Such construction, deepening, widening, lengthening, or maintenance of ship channel approaches, ship channels, turning basins, berthing areas, and facilities as are required for the safety and the accommodation of commerce and vessels to be served by port facilities.

(2) New or expanded facilities or waterfront land for port-related facilities.

(3) New or expanded commercial fishing facilities or recreational boating facilities.

(4) Incidental public service purposes, including, but not limited to, burying cables or pipes or inspection of piers and maintenance of

existing intake and outfall lines.

(5) Mineral extraction, including sand for restoring beaches, except in biologically sensitive areas.

(6) Restoration purposes or creation of new habitat areas.

(7) Nature study, mariculture, or similar resource-dependent activities.

(8) Minor fill for improving shoreline appearance or public access to the water.

(b) The design and location of new or expanded facilities shall, to the extent practicable, take advantage of existing water depths, water circulation, siltation patterns, and means available to reduce controllable sedimentation so as to diminish the need for future dredging.

(c) Dredging shall be planned, scheduled, and carried out to minimize disruption to fish and bird breeding and migrations, marine habitats, and water circulation. Bottom sediments or sediment elutriate shall be analyzed for toxicants prior to dredging or mining, and where water quality standards are met, dredge spoils may be deposited in open coastal water sites designated to minimize potential adverse impacts on marine organisms, or in confined coastal waters designated as fill sites by the master plan where such spoil can be isolated and contained, or in fill basins on upland sites. Dredge material shall not be transported from coastal waters into estuarine or fresh water areas for disposal.

30706. In addition to the other provisions of this chapter, the policies contained in this section shall govern filling seaward of the mean high tide line within the jurisdiction of ports:

(a) The water area to be filled shall be the minimum necessary to achieve the purpose of the fill.

(b) The nature, location, and extent of any fill, including the disposal of dredge spoils within an area designated for fill, shall minimize harmful effects to coastal resources, such as water quality, fish or wildlife resources, recreational resources, or sand transport systems, and shall minimize reductions of the volume, surface area, or circulation of water.

(c) The fill is constructed in accordance with sound safety standards which will afford reasonable protection to persons and property against the hazards of unstable geologic or soil conditions or of flood or storm waters.

(d) The fill is consistent with navigational safety.

30707. New or expanded tanker terminals shall be designed and constructed to do all of the following:

(a) Minimize the total volume of oil spilled in normal operations and accidents.

(b) Minimize the risk of collision from movement of other vessels.

(c) Have ready access to the best available oilspill containment and recovery equipment.

(d) Have onshore deballasting facilities to receive any fouled ballast water from tankers where operationally required.

30708. All port-related developments shall be located, designed, and constructed so as to:

(a) Minimize substantial adverse environmental impacts.

(b) Minimize potential traffic conflicts between vessels.

(c) Give highest priority to the use of existing land space within harbors for port purposes, including, but not limited to, navigational facilities, shipping industries, and necessary support and access facilities.

(d) Provide for other beneficial uses consistent with the public trust, including, but not limited to, recreation and wildlife habitat uses, to the extent feasible.

(e) Encourage rail service to port areas and multicompany use of facilities.

Article 3. Implementation; Master Plan

30710. Within 90 days after January 1, 1977, the commission shall, after public hearing, adopt, certify, and file with each port governing body a map delineating the present legal geographical boundaries of each port's jurisdiction within the coastal zone. The commission shall, within such 90-day period, adopt and certify after public hearing, a map delineating boundaries of any wetland, estuary, or existing recreation area indicated in Part IV of the coastal plan within the geographical boundaries of each port.

30711. (a) A port master plan that carries out the provisions of this chapter shall be prepared and adopted by each port governing body, and for informational purposes, each city, county, or city and county which has a port within its jurisdiction shall incorporate the certified port master plan in its local coastal program. A port master plan shall include all of the following:

(1) The proposed uses of land and water areas, where known.

(2) The projected design and location of port land areas, water areas, berthing, and navigation ways and systems intended to serve commercial traffic within the area of jurisdiction of the port governing body.

(3) An estimate of the effect of development on habitat areas and the marine environment, a review of existing water quality, habitat areas, and quantitative and qualitative biological inventories, and proposals to minimize and mitigate any substantial adverse impact.

(4) Proposed projects listed as appealable in Section 30715 in sufficient detail to be able to determine their consistency with the policies of Chapter 3 (commencing with Section 30200) of this division.

(5) Provisions for adequate public hearings and public participation in port planning and development decisions.

(b) A port master plan shall contain information in sufficient detail to allow the commission to determine its adequacy and conformity with the applicable policies of this division.

30712. In the consideration and approval of a proposed port

master plan, the public, interested organizations, and governmental agencies shall be encouraged to submit relevant testimony, statements, and evidence which shall be considered by the port governing body. The port governing body shall publish notice of the completion of the draft master plan and submit a copy thereof to the commission and shall, upon request, provide copies to other interested persons, organizations, and governmental agencies. Thereafter, the port governing body shall hold a public hearing on the draft master plan not earlier than 30 days and not later than 90 days following the date the notice of completion was published.

30713. Ports having completed a master plan prior to January 1, 1977, shall submit a copy thereof to the commission and hold a public hearing in accordance with the provisions of Section 30712 for the purpose of reviewing such master plan for conformity with the applicable provisions of this division and, if necessary, adopting such changes as would conform such plan to the applicable provisions of this division. Notice of completion of a master plan shall not be filed prior to January 2, 1977.

30714. After public notice, hearing, and consideration of comments and testimony received pursuant to Sections 30712 and 30713, the port governing body shall adopt its master plan and submit it to the commission for certification in accordance with this chapter, within 90 days after the submittal, the commission, after public hearing, shall certify such plan or portion of a plan and reject any portion of a plan which is not certified. If the commission fails to take action within the 90-day period, the port master plan shall be deemed certified. The commission shall certify such plan or portion of a plan if the commission finds both of the following:

(a) The master plan or certified portions thereof conforms with and carries out the policies of this chapter.

(b) Where a master plan or certified portions thereof provide for any of the developments listed as appealable in Section 30715 of this chapter, such development or developments are in conformity with all of the policies of Chapter 3 (commencing with Section 30200) of this division.

30715. Until such time as a port master plan or any portion thereof has been certified, the commission and regional commissions shall permit developments within ports as provided for in Chapter 7 (commencing with Section 30600). After a port master plan or any portion thereof has been certified, the permit authority of the commission provided in Chapter 7 (commencing with Section 30600) shall no longer be exercised by the regional commission or by the commission over any new development contained in such a certified plan or any portion thereof and shall at that time be delegated to the appropriate port governing body, except that approvals of any of the following categories of development by the port governing body may be appealed to the commission:

(a) Developments for the storage, transmission, and processing of liquefied natural gas and crude oil in such quantities as would have

a significant impact upon the oil and gas supply of the state or nation or both the state and nation. A development which has a significant impact shall be defined in the master plans.

(b) Waste water treatment facilities, except for such facilities which process waste water discharged incidental to normal port activities or by vessels.

(c) Roads or highways which are not principally for internal circulation within the port boundaries.

(d) Office and residential buildings not principally devoted to administration of activities within the port; hotels, motels, and shopping facilities not principally devoted to the sale of commercial goods utilized for water-oriented purposes; commercial fishing facilities; and recreational small craft marina related facilities.

(e) Oil refineries.

(f) Petrochemical production plants.

30715.5. No development within the area covered by the certified port master plan shall be approved by the port governing body unless it finds that the proposed development conforms with such certified plan.

30716. (a) A certified port master plan may be amended by the port governing body, but no such amendment shall take effect until it has been certified by the commission. Any proposed amendment shall be submitted to, and processed by, the commission in the same manner as provided for submission and certification of a port master plan.

(b) The commission shall, by regulation, establish a procedure whereby proposed amendments to a certified port master plan may be reviewed and designated by the executive director of the commission as being minor in nature and need not comply with Section 30714. Such amendments shall take effect on the 10th working day after the executive director designates such amendments as minor.

30717. The governing bodies of ports shall inform and advise the commission in the planning and design of appealable developments authorized under this chapter, and prior to commencement of any appealable development, the governing body of a port shall notify the commission and other interested persons, organizations, and governmental agencies of the approval of a proposed appealable development and indicate how it is consistent with the appropriate port master plan and this division. An approval of the appealable development by the port governing body pursuant to a certified port master plan shall become effective after the 10th working day after notification of its approval, unless an appeal is filed with the commission within that time. Appeals shall be filed and processed by the commission in the same manner as appeals from local government actions as set forth in Chapter 7 (commencing with Section 30600) of this division. No appealable development shall take place until the approval becomes effective.

30718. For developments approved by the commission in a

certified master plan, but not appealable under the provisions of this chapter, the port governing body shall forward all environmental impact reports and negative declarations prepared pursuant to the Environmental Quality Act of 1970 (commencing with Section 21000) or any environmental impact statements prepared pursuant to the National Environmental Policy Act of 1969 (42 U.S.C. 4321, et seq.) to the commission in a timely manner for comment.

30719. Any development project or activity authorized or approved pursuant to the provisions of this chapter shall be deemed certified by the commission as being in conformity with the coastal zone management program insofar as any such certification is requested by any federal agency pursuant to the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.), National Oceanic and Atmospheric Administration, and memoranda of understanding between the state and federal governments relative thereto.

30720. If the application of any port master plan or part thereof is prohibited or stayed by any court, the permit authority provided for in Chapter 7 (commencing with Section 30600) shall be reinstated in the regional commission or in the commission where there is no regional commission. The reinstated permit authority shall apply as to any development which would be affected by the prohibition or stay.

CHAPTER 9. JUDICIAL REVIEW, ENFORCEMENT, AND PENALTIES

Article 1. General Provisions

30800. The provisions of this chapter shall be in addition to any other remedies available at law.

30801. Any aggrieved person shall have a right to judicial review of any decision or action of the commission or a regional commission by filing a petition for a writ of mandate in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure, within 60 days after such decision or action has become final.

For purposes of this section and subdivision (c) of Section 30513 and Section 30625, an "aggrieved person" means any person who, in person or through a representative, appeared at a public hearing of the commission, regional commission, local government, or port governing body in connection with the decision or action appealed, or who, by other appropriate means prior to a hearing, informed the commission, regional commission, local government, or port governing body of the nature of his concerns or who for good cause was unable to do either. "Aggrieved person" includes the applicant for a permit and, in the case of an approval of a local coastal program, the local government involved.

30802. Any person, including an applicant for a permit or the commission, aggrieved by the decision or action of a local government that is implementing a certified local coastal program

or certified port master plan, which decision or action may not be appealed to the commission, shall have a right to judicial review of such decision or action by filing a petition for writ of mandate in accordance with the provisions of Section 1094.5 of the Code of Civil Procedure within 60 days after the decision or action has become final. The commission may intervene in any such proceeding upon a showing that the matter involves a question of the conformity of a proposed development with a certified local coastal program or certified port master plan or the validity of a local government action taken to implement a local coastal program or certified port master plan. Any local government or port governing body may request that the commission intervene. Notice of any such action against a local government or port governing body shall be filed with the commission within five working days of the filing of such action. When an action is brought challenging the validity of a local coastal program or certified port master plan, a preliminary showing shall be made prior to proceeding on the merits as to why such action should not have been brought pursuant to the provisions of Section 30801.

30803. Any person may maintain an action for declaratory and equitable relief to restrain any violation of this division. On a prima facie showing of a violation of this division, preliminary equitable relief shall be issued to restrain any further violation of this division. No bond shall be required for an action under this section.

30804. Any person may maintain an action to enforce the duties specifically imposed upon the commission, any regional commission, any governmental agency, any special district, or any local government by this division. No bond shall be required for an action under this section.

30805. Any person may maintain an action for the recovery of civil penalties provided for in Section 30820 or 30821.

30806. Any civil action under this division by, or against, a city, county, or city and county, the commission, regional commission, special district, or any other public agency shall, upon motion of either party, be transferred to a county or city and county not a party to the action or to a county or city and county other than that in which the city, special district, or any other public agency which is a party to the action is located.

Article 2. Penalties

30820. Any person who violates any provision of this division shall be subject to a civil fine of not to exceed ten thousand dollars ($10,000).

30821. In addition to any other penalties, any person who intentionally and knowingly performs any development in violation of this division shall be subject to a civil fine of not less than fifty dollars ($50) nor more than five thousand dollars ($5,000) per day for each day in which such violation occurs.

30822. Where a person has intentionally and knowingly violated any provision of this division, the commission may maintain an action, in addition to Section 30801, for exemplary damages and may recover an award, the size of which is left to the discretion of the court. In exercising its discretion, the court shall consider the amount of liability necessary to deter further violations.

30823. Any funds derived by the commission or regional commission under this article shall be expended for carrying out the provisions of this division, when appropriated by the Legislature.

CHAPTER 10. SEVERABILITY

30900. If any provision of this division or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the division which can be given effect without the invalid provision or application, and to this end the provisions of this division are severable.

SEC. 2. Section 4551.5 of the Public Resources Code is amended to read:

4551.5. Rules and regulations shall apply to the conduct of timber operations and shall include, but shall not be limited to, measures for fire prevention and control, for soil erosion control, for water quality and watershed control, for flood control, for stocking, for protection against timber operations which unnecessarily destroy young timber growth or timber productivity of the soil, for prevention and control of damage by forest insects, pests, and disease, for the protection of natural and scenic qualities in special treatment areas identified pursuant to subdivision (b) of Section 30417, and for the preparation of timber harvesting plans. In developing these rules, the board shall solicit and consider recommendations from the State Forester, recommendations from the Department of Fish and Game relating to the protection of fish and wildlife, recommendations from the State Water Resources Control Board and the California regional water quality control boards relating to water quality, recommendations from the State Air Resources Board and local air pollution control districts relating to air pollution control, and recommendations of the California Coastal Commission relating to the protection of natural and scenic coastal zone resources in special treatment areas.

SEC. 3. Section 25103 of the Public Resources Code is amended to read:

25103. "Coastal zone" means the "coastal zone" as defined in Section 30103.

SEC. 4. Section 25115 of the Public Resources Code is repealed.

SEC. 5. Section 25302 of the Public Resources Code is amended to read:

25302. Upon receipt of a report required under Section 25300 from an electric utility, the commission shall forward copies thereof to the Legislature, the Public Utilities Commission, the Secretary of

the Resources Agency, the Director of the Office of Planning and Research, the California Coastal Commission, and other concerned state and federal agencies. The report shall also be made available, at cost, to any person upon request. The commission shall also forward copies of the report to each city and county within the service area covered by the report, and shall request that the city and county review and comment on the report in relation to estimates of population growth and economic development, patterns of land use and open space, and conservation and other appropriate elements of the adopted city or county general plan. A copy of the report shall be maintained on file for public inspection in each county.

SEC. 6. Section 25500 of the Public Resources Code is amended to read:

25500. In accordance with the provisions of this division, the commission shall have the exclusive power to certify all sites and related facilities in the state, whether a new site and related facility or a change or addition to an existing facility. The issuance of a certificate by the commission shall be in lieu of any permit, certificate, or similar document required by any state, local or regional agency, or federal agency to the extent permitted by federal law, for such use of the site and related facilities, and shall supersede any applicable statute, ordinance, or regulation of any state, local, or regional agency, or federal agency to the extent permitted by federal law.

After the effective date of this division, no construction of any facility or modification of any existing facility shall be commenced without first obtaining certification for any such site and related facility by the commission, as prescribed in this division.

SEC. 7. Section 25507 of the Public Resources Code is amended to read:

25507. If any alternative site and related facility proposed in the notice is proposed to be located, in whole or in part, within the coastal zone and, the commission shall transmit a copy of the notice to the California Coastal Commission. The California Coastal Commission shall analyze the notice and prepare the report and findings prescribed by subdivision (d) of Section 30413 prior to completion of the preliminary report required by Section 25510.

SEC. 8. Section 25508 of the Public Resources Code is amended to read:

25508. The commission shall cooperate with, and render advice to, the California Coastal Commission in studying applications for any site and related facility proposed to be located, in whole or in part, within the coastal zone, if requested by the California Coastal Commission. The California Coastal Commission may participate in public hearings on the notice and on the application for site and related facility certification as an interested party in such proceedings.

SEC. 9. Section 25514 of the Public Resources Code is amended to read:

25514. No later than 120 days after distribution of the preliminary report, a final report shall be prepared and distributed. The final report shall include, but not be limited to, all of the following:

(a) The findings and conclusions of the commission regarding the conformity of alternative sites and related facilities designated in the notice or presented at the informational hearing or hearings and reviewed by the commission with both of the following:

(1) The 10-year forecast of statewide and service area electric power demands adopted pursuant to subdivision (b) of Section 25309, except as provided in Section 25514.5.

(2) The provisions of any state law or local or regional ordinance or regulation, including any long-range land use plans or guidelines adopted by the state or by any local or regional planning agency, which would be applicable but for the exclusive authority of the commission to certify sites and related facilities; and the standards adopted by the commission pursuant to Section 25216.3.

(b) Any findings and comments submitted by the California Coastal Commission pursuant to Section 25507 and subdivision (d) of Section 30413.

(c) The commission's findings on the acceptability and relative merit of each alternative siting proposal designated in the notice or presented at the hearings and reviewed by the commission. The specific findings of relative merit shall be made pursuant to the provisions of Sections 25502 to 25516, inclusive. In its findings on any alternative siting proposal, the commission may specify modification in the design, construction, location, or other conditions which will meet the standards, policies, and guidelines established by the commission.

(d) Any conditions, modifications, or criteria proposed for any site and related facility proposal resulting from the commission's evaluation pursuant to subdivision (c) of Section 25512.

SEC. 10. Section 25516.1 is added to the Public Resources Code, to read:

25516.1. If a site and related facility found to be acceptable by the commission pursuant to Section 25516 is located in the coastal zone, no application for certification may be filed pursuant to Section 25519, unless the commission has determined pursuant to Section 25514, that such site and related facility have greater relative merit than available alternative sites and related facilities for an applicant's service area which have been determined to be acceptable by the commission pursuant to Section 25516.

SEC. 11. Section 25519 of the Public Resources Code is amended to read:

25519. (a) In order to obtain certification for a site and related facility, an application for certification of such site and related facility shall be filed with the commission. Such application shall be in a form prescribed by the commission and shall be filed with the commission no later than 18 months before any construction is to commence.

Such application shall be for a site and related facility which has been found to be acceptable by the commission pursuant to Section 25516, or for an additional facility at a site which has been designated a potential multiple-facility site pursuant to Section 25514.5 and found to be acceptable pursuant to Sections 25516 and 25516.5. An application for an additional facility at a potential multiple-facility site shall be subject to the conditions and review specified in Section 25520.5. An application may not be filed for a site and related facility, if there is no suitable alternative for the site and related facility which was previously found to be acceptable by the commission, unless the commission has approved the notice based on the one site as specified in Section 25516.

(b) The commission, upon its own motion or in response to the request of any party, may require the applicant to submit any information, document, or data, in addition to the attachments required by subdivision (i), which it determines is reasonably necessary to make any decision on the application.

(c) Upon receipt of the application, the commission shall undertake studies and investigations necessary to comply with the environmental impact reporting procedures established pursuant to Section 21100. For purposes of preparation and approval of the environmental impact report on a proposed site and related facility, the commission shall be the lead agency as provided in Section 21165. Except as otherwise provided in Division 13 (commencing with Section 21000), the environmental impact report shall be completed within one year after receipt of the application.

(d) If the site and related facility specified in the application is proposed to be located in the coastal zone, the commission shall transmit a copy of the application to the California Coastal Commission for its review and comments.

(e) Upon receipt of an application, the commission shall forward the application to local governmental agencies having land use and related jurisdiction in the area of the proposed site and related facility. Such local agencies shall review the application and submit comments on, among other things, the design of the facility, architectural and aesthetic features of the facility, access to highways, landscaping and grading, public use of lands in the area of the facility, and other appropriate aspects of the design, construction, or operation of the proposed site and related facility.

(f) Upon receipt of an application, the commission shall cause a summary of the application to be published in a newspaper of general circulation in the county in which the site and related facilities, or any part thereof, designated in the application, is proposed to be located. The commission shall transmit a copy of the application to each federal and state agency having jurisdiction or special interest in matters pertinent to the proposed site and related facilities, and to the Attorney General.

(g) The adviser shall require that adequate notice is given to the public and that the procedures specified by this division are complied with.

(h) For any proposed site and related facility requiring a certificate of public convenience and necessity, the commission shall transmit a copy of the application to the Public Utilities Commission and request the comments and recommendations of the Public Utilities Commission on the economic, financial, rate, system reliability, and service implications of the proposed site and related facility. In the event the commission requires modification of the proposed facility, the commission shall consult with the Public Utilities Commission regarding the economic, financial, rate, system reliability, and service implications of such modifications.

(i) The commission shall transmit a copy of the application to any governmental agency not specifically mentioned in this act, but which it finds has any information or interest in the proposed site and related facilities, and shall invite the comments and recommendations of each such agency. The commission shall request any relevant laws, ordinances, or regulations which any such agency has promulgated or administered.

(j) An application for certification of any site and related facilities shall contain a listing of every federal agency from which any approval or authorization concerning the proposed site is required, specifying the approvals or authorizations obtained at the time of the application and the schedule for obtaining any approvals or authorizations pending.

SEC. 12. Section 25523 of the Public Resources Code is amended to read:

25523. The commission shall prepare a written decision after a public hearing or hearings on an application, which shall include all of the following:

(a) Specific provisions relating to the manner in which the proposed facility is to be designed, sited, and operated in order to protect environmental quality and assure public health and safety, and in the case of a site to be located in the coastal zone, to meet the objectives of Division 20 (commencing with Section 30000) as may be specified in the report submitted by the California Coastal Commission pursuant to subdivision (d) of Section 30413, unless the commission specifically finds that the adoption of the provisions specified in the report would result in greater adverse effect on the environment or that the provision proposed in the report would not be feasible.

(b) Findings regarding the conformity of the proposed site and related facilities with standards adopted by the commission pursuant to Section 25216.3 and subdivision (d) of Section 25402, with public safety standards and the applicable air and water quality standards, and with other relevant local, regional, state, and federal standards, ordinances, or laws. If the commission finds that there is noncompliance with any state, local, or regional ordinance or regulation in the application, it shall consult and meet with the state, local, or regional governmental agency concerned to attempt to

correct or eliminate the noncompliance. If the noncompliance cannot be corrected or eliminated, the commission shall inform the state, local, or regional governmental agency if it makes the findings required by Section 25525.

(c) Provision for restoring the site as necessary to protect the environment, if the commission denies approval of the application.

(d) Findings regarding the conformity of the proposed facility with the 10-year forecast of statewide and service area electric power demands adopted pursuant to subdivision (b) of Section 25309.

SEC. 13. Section 25526 of the Public Resources Code is amended to read:

25526. The commission shall not approve as a site for a facility any location designated by the California Coastal Commission pursuant to subdivision (b) of Section 30413, unless the California Coastal Commission first finds that such use is not inconsistent with the primary uses of such land and that there will be no substantial adverse environmental effects and the approval of any public agency having ownership or control of such land is obtained.

SEC. 14. Section 402.1 of the Revenue and Taxation Code is amended to read:

402.1. In the assessment of land, the assessor shall consider the effect upon value of any enforceable restrictions to which the use of the land may be subjected. Such restrictions shall include, but are not limited to: (a) zoning; (b) recorded contracts with governmental agencies other than those provided for in Section 422; (c) permit authority of, and permits issued by, governmental agencies exercising land use powers concurrently with local governments, including the California coastal commissions, the San Francisco Bay Conservation and Development Commission, and the Tahoe Regional Planning Agency; (d) development controls of a local government in accordance with any local coastal program certified pursuant to Division 20 (commencing with Section 30000) of the Public Resources Code; (e) environmental constraints applied to the use of land pursuant to provisions of statutes.

There shall be a rebuttable presumption that restrictions will not be removed or substantially modified in the predictable future and that they will substantially equate the value of the land to the value attributable to the legally permissible use or uses.

Grounds for rebutting the presumption may include but are not necessarily limited to the past history of like use restrictions in the jurisdiction in question and the similarity of sales prices for restricted and unrestricted land. The possible expiration of a restriction at a time certain shall not be conclusive evidence of the future removal or modification of the restriction unless there is no opportunity or likelihood of the continuation or renewal of the restriction, or unless a necessary party to the restriction has indicated an intent to permit its expiration at that time.

In assessing land where the presumption is unrebutted, the assessor shall not consider sales of otherwise comparable land not

similarly restricted as to use as indicative of value of land under restriction, unless the restrictions have a demonstrably minimal effect upon value.

In assessing land under an enforceable use restriction wherein the presumption of no predictable removal or substantial modification of the restriction has been rebutted, but where the restriction nevertheless retains some future life and has some effect on present value, the assessor may consider, in addition to all other legally permissible information, representative sales of comparable land not under restriction but upon which natural limitations have substantially the same effect as restrictions.

For the purposes of this section:

(a) "Comparable lands" are lands which are similar to the land being valued in respect to legally permissible uses and physical attributes.

(b) "Representative sales information" is information from sales of a sufficient number of comparable lands to give an accurate indication of the full cash value of the land being valued.

It is hereby declared that the purpose and intent of the Legislature in enacting this section is to provide for a method of determining whether a sufficient amount of representative sales information is available for land under use restriction in order to ensure the accurate assessment of such land. It is also hereby declared that the further purpose and intent of the Legislature in enacting this section and Section 1630 of the Revenue and Taxation Code is to avoid an assessment policy which, in the absence of special circumstances, considers uses for land which legally are not available to the owner and not contemplated by government, and that these sections are necessary to implement the public policy of encouraging and maintaining effective land use planning. Nothing in this statute shall be construed as requiring the assessment of any land at less than as required by Section 401 of this code or as prohibiting the use of representative comparable sales information on land under similar restrictions when such information is available.

SEC. 15. Section 13142.5 is added to the Water Code, to read:

13142.5. In addition to any other policies established pursuant to this division, the policies of the state with respect to water quality as it relates to the coastal marine environment are that:

(a) Waste water discharges shall be treated to protect present and future beneficial uses, and, where feasible, to restore past beneficial uses of the receiving waters. Highest priority shall be given to improving or eliminating discharges that adversely affect any of the following:

(1) Wetlands, estuaries, and other biologically sensitive sites.

(2) Areas important for water contact sports.

(3) Areas that produce shellfish for human consumption.

(4) Ocean areas subject to massive waste discharge.

Ocean chemistry and mixing processes, marine life conditions, other present or proposed outfalls in the vicinity, and relevant

aspects of areawide waste treatment management plans and programs, but not of convenience to the discharger, shall for the purposes of this section, be considered in determining the effects of such discharges. Toxic and hard-to-treat substances should be pretreated at the source if such substances would be incompatible with effective and economical treatment in municipal treatment plants.

(b) For each new or expanded coastal powerplant or other industrial installation using seawater for cooling, heating, or industrial processing, the best available site, design, technology, and mitigation measures feasible shall be used to minimize the intake and mortality of all forms of marine life.

(c) Where otherwise permitted, new warmed or cooled water discharges into coastal wetlands or into areas of special biological importance, including marine reserves and kelp beds, shall not significantly alter the overall ecological balance of the receiving area.

(d) Independent baseline studies of the existing marine system should be conducted in the area that could be affected by a new or expanded industrial facility using seawater in advance of the carrying out of the development.

(g) Adequately treated reclaimed water should, where feasible, be made available to supplement existing surface and underground supplies and to assist in meeting future water requirements of the coastal zone, and that consideration, in statewide programs of financial assistance for water pollution or water quality control, shall be given to providing optimum water reclamation and use of reclaimed water.

SEC. 16. There is no appropriation made by this act for the 1976–77 fiscal year pursuant to Section 2231 of the Revenue and Taxation Code. However, the Legislature acknowledges that there may be direct planning and administrative costs as set forth in Section 2207 of the Revenue and Taxation Code as a result of this act in the 1976–77 fiscal year, but that such costs are indeterminable at this time. It is the intent of the Legislature that such costs to local government shall be reimbursed by the state. If such state-mandated local costs result from the enactment of this act or from executive orders issued pursuant to this act in the 1976–77 fiscal year or subsequent years, reimbursement shall be provided pursuant to Section 2231 of the Revenue and Taxation Code in the annual state budget process, except that claims for such costs which may be incurred in the 1976–77 fiscal year shall be submitted to the State Controller by October 31, 1977.

If the Legislature fails to provide full funds for state-mandated local costs approved by the State Controller as costs qualified for reimbursement under Section 2231 of the Revenue and Taxation Code in the annual state budget process or in special legislation during the 1976–77 fiscal year and each subsequent year in which state-mandated local costs have been so approved, the dates specified for the submission of the local coastal program, the

implementation of a local coastal program, and the performance of any other duty required of local government or an executive order to be performed after January 1, 1977, under the provisions of Division 20 (commencing with Section 30000) of the Public Resources Code, shall be postponed by the number of years elapsing between the date the local coastal program implementing act or duty is to be performed and the year in which such funds are provided. In the event that state-mandated costs are not funded by the Legislature, the provisions of Section 30518 of the Public Resources Code shall not be affected, except that any local government whose costs are not funded may elect that the California Coastal Commission implement either subdivision (a) or (b) of Section 30518 of the Public Resources Code.

It is the policy of the state that a major portion of the funds, but in no event less than 50 percent, received by the state from the federal government for the period following July 1, 1977, pursuant to the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.), shall be used for the development and implementation of local coastal programs.

Funds appropriated by the Legislature for the purpose of, and pursuant to, this section together with any federal funds legally available for such purposes, shall be deposited in a local government coastal planning assistance account in the General Fund. The commission shall review and analyze all claims submitted and shall submit to the State Controller its recommendation. The State Controller shall consider the report of the commission and review claims submitted by any local government pursuant to this section to determine whether such claimed planning and administrative costs are directly attributable to the operation of this act. Any such claimed costs found to be directly attributable to the operation of this act shall, when appropriated by the Legislature, be charged against and paid from the local government coastal planning assistance account.

SEC. 17. The coastal zone, as generally defined in Section 30103 of the Public Resources Code, shall include the land and water areas as shown on the attached map prepared by the California Coastal Zone Conservation Commission titled "California Coastal Zone" dated August 11, 1976, and on file with the Secretary of State.

CHAPTER 1331

An act to amend Sections 30008, 30108.5, 30115, 30211, 30250, 30261, 30262, 30263, 30300, 30301.2, 30305, 30330, 30334, 30401, 30404, 30412, 30415, 30502, 30603, 30608, 30610, 30702, 30707, and 30714, as added by Senate Bill No. 1277, of, to add Sections 30010, 30107.5, 30108.55, 30304.5, 30333.5, 30334.5, 30502.5, 30610.5 and 30807 to, and to repeal Section 30109.5, as added by Senate Bill No. 1277, of, the Public

Resources Code, and to amend Sections 16 and 17 of Senate Bill No. 1277, relating to the California coastal resources.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 30008 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30008. This division shall constitute California's coastal zone management program within the coastal zone for purposes of the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.) and any other federal act heretofore or hereafter enacted or amended that relates to the planning or management of coastal zone resources; provided, however, that pursuant to the Federal Coastal Zone Management Act of 1972, excluded from the coastal zone are lands the use of which is by law subject solely to the discretion of or which is held in trust by the federal government, its officers or agents.

SEC. 2. Section 30010 is added to the Public Resources Code, to read:

30010. The Legislature hereby finds and declares that this division is not intended, and shall not be construed as authorizing the regional commission, the commission, port governing body, or local government acting pursuant to this division to exercise their power to grant or deny a permit in a manner which will take or damage private property for public use, without the payment of just compensation therefor. This section is not intended to increase or decrease the rights of any owner of property under the Constitution of the State of California or the United States.

SEC. 3. Section 30107.5 is added to the Public Resources Code, to read:

30107.5. "Environmentally sensitive area" means any area in which plant or animal life or their habitats are either rare or especially valuable because of their special nature or role in an ecosystem and which could be easily disturbed or degraded by human activities and developments.

SEC. 3.1. Section 30108.5 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30108.5. "Land use plan" means the relevant portions of a local government's general plan, or local coastal element which are sufficiently detailed to indicate the kinds, location, and intensity of land uses, the applicable resource protection and development policies and, where necessary, a listing of implementing actions.

SEC. 3.2. Section 30108.55 is added to the Public Resources Code, to read:

30108.55. "Local coastal element" is that portion of a general plan applicable to the coastal zone which may be prepared by local

government pursuant to this division, or such additional elements of the local government's general plan prepared pursuant to subdivision (k) of Section 65303 of the Government Code, as such local government deems appropriate.

SEC. 4. Section 30109.5 of the Public Resources Code, as added by Senate Bill No. 1277, is repealed.

SEC. 5. Section 30115 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30115. "Sea" means the Pacific Ocean and all harbors, bays, channels, estuaries, salt marshes, sloughs, and other areas subject to tidal action through any connection with the Pacific Ocean, excluding nonestuarine rivers, streams, tributaries, creeks, and flood control and drainage channels. "Sea" does not include the area of jurisdiction of the San Francisco Bay Conservation and Development Commission, established pursuant to Title 7.2 (commencing with Section 66600) of the Government Code, including any river, stream, tributary, creek, or flood control or drainage channel flowing directly or indirectly into such area.

SEC. 6. Section 30211 of the Public Resources Code, as added by Senate Bill No. 1277 is amended to read:

30211. Development shall not interfere with the public's right of access to the sea where acquired through use or legislative authorization, including, but not limited to, the use of dry sand and rocky coastal beaches to the first line of terrestrial vegetation.

SEC. 7. Section 30250 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30250. (a) New development, except as otherwise provided in this division, shall be located within, contiguous with, or in close proximity to, existing developed areas able to accommodate it or, where such areas are not able to accommodate it, in other areas with adequate public services and where it will not have significant adverse effects, either individually or cumulatively, on coastal resources. In addition, land divisions, other than leases for agricultural uses, outside existing developed areas shall be permitted only where 50 percent of the usable parcels in the area have been developed and the created parcels would be no smaller than the average size of surrounding parcels.

(b) Where feasible, new hazardous industrial development shall be located away from existing developed areas.

(c) Visitor-serving facilities that cannot feasibly be located in existing developed areas shall be located in existing isolated developments or at selected points of attraction for visitors.

SEC. 8. Section 30261 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30261. (a) Multicompany use of existing and new tanker facilities shall be encouraged to the maximum extent feasible and legally permissible, except where to do so would result in increased tanker operations and associated onshore development incompatible with the land use and environmental goals for the area. New tanker

terminals outside of existing terminal areas shall be situated as to avoid risk to environmentally sensitive areas and shall use a monobuoy system, unless an alternative type of system can be shown to be environmentally preferable for a specific site. Tanker facilities shall be designed to (1) minimize the total volume of oil spilled, (2) minimize the risk of collision from movement of other vessels, (3) have ready access to the most effective feasible containment and recovery equipment for oilspills, and (4) have onshore deballasting facilities to receive any fouled ballast water from tankers where operationally or legally required.

(b) Only one liquefied natural gas terminal shall be permitted in the coastal zone until engineering and operational practices can eliminate any significant risk to life due to accident or until guaranteed supplies of liquefied natural gas and distribution system dependence on liquefied natural gas are substantial enough that an interruption of service from a single liquefied natural gas facility would cause substantial public harm.

Until the risks inherent in liquefied natural gas terminal operations can be sufficiently identified and overcome and such terminals are found to be consistent with the health and safety of nearby human populations, terminals shall be built only at sites remote from human population concentrations. Other unrelated development in the vicinity of a liquefied natural gas terminal site which is remote from human population concentrations shall be prohibited. At such time as liquefied natural gas marine terminal operations are found consistent with public safety, terminal sites only in developed or industrialized port areas may be approved.

SEC. 9. Section 30262 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30262. Oil and gas development shall be permitted in accordance with Section 30260, if the following conditions are met:

(a) The development is performed safely and consistent with the geologic conditions of the well site.

(b) New or expanded facilities related to such development are consolidated, to the maximum extent feasible and legally permissible, unless consolidation will have adverse environmental consequences and will not significantly reduce the number of producing wells, support facilities, or sites required to produce the reservoir economically and with minimal environmental impacts.

(c) Environmentally safe and feasible subsea completions are used when drilling platforms or islands would substantially degrade coastal visual qualities unless use of such structures will result in substantially less environmental risks.

(d) Platforms or islands will not be sited where a substantial hazard to vessel traffic might result from the facility or related operations, determined in consultation with the United States Coast Guard and the Army Corps of Engineers.

(e) Such development will not cause or contribute to subsidence hazards unless it is determined that adequate measures will be

02948 286185 538

undertaken to prevent damage from such subsidence.

(f) With respect to new facilities, all oilfield brines are reinjected into oil-producing zones unless the Division of Oil and Gas of the Department of Conservation determines to do so would adversely affect production of the reservoirs and unless injection into other subsurface zones will reduce environmental risks. Exceptions to reinjections will be granted consistent with the Ocean Waters Discharge Plan of the State Water Resources Control Board and where adequate provision is made for the elimination of petroleum odors and water quality problems.

Where appropriate, monitoring programs to record land surface and near-shore ocean floor movements shall be initiated in locations of new large-scale fluid extraction on land or near shore before operations begin and shall continue until surface conditions have stabilized. Costs of monitoring and mitigation programs shall be borne by liquid and gas extraction operators.

SEC. 10. Section 30263 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30263. (a) New or expanded refineries or petrochemical facilities not otherwise consistent with the provisions of this division shall be permitted if (1) alternative locations are not feasible or are more environmentally damaging; (2) adverse environmental effects are mitigated to the maximum extent feasible; (3) it is found that not permitting such development would adversely affect the public welfare; (4) the facility is not located in a highly scenic or seismically hazardous area, on any of the Channel Islands, or within or contiguous to environmentally sensitive areas; and (5) the facility is sited so as to provide a sufficient buffer area to minimize adverse impacts on surrounding property.

(b) In addition to meeting all applicable air quality standards, new or expanded refineries or petrochemical facilities shall be permitted in areas designated as air quality maintenance areas by the State Air Resources Board and in areas where coastal resources would be adversely affected only if the negative impacts of the project upon air quality are offset by reductions in gaseous emissions in the area by the users of the fuels, or, in the case of an expansion of an existing site, total site emission levels, and site levels for each emission type for which national or state ambient air quality standards have been established do not increase.

(c) New or expanded refineries or petrochemical facilities shall minimize the need for once-through cooling by using air cooling to the maximum extent feasible and by using treated waste waters from inplant processes where feasible.

SEC. 10.5. Section 30300 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30300. There is in the Resources Agency the California Coastal Commission and, until not later than June 30, 1979, six regional coastal commissions.

SEC. 11. Section 30301.2 of the Public Resources Code, as added

by Senate Bill No. 1277, is amended to read:

30301.2. (b) A regional commission shall take no action, other than selecting a representative to the commission as provided in subdivision (a), and shall have no powers, duties or responsibilities pursuant to the provisions of this division unless and until the commission, pursuant to subdivision (c), has certified that the regional commission for any region is necessary to expedite the review of local coastal programs and coastal development permit applications pursuant to the provisions of this division.

(c) The commission shall review the anticipated workload

relative to the processing and review of local coastal programs and coastal development permits within each region of the coastal zone. If the commission determines that its workload and the anticipated workload within any region is of such magnitude that unreasonable delays will result unless the appropriate regional commission is authorized to review and process local coastal programs and coastal development permit applications, the commission shall, by majority vote of its appointed members, certify that such regional commission is necessary to carry out the provisions of this division. Upon certification by the commission pursuant to this subdivision, the appropriate regional commission shall assume all the powers, duties and responsibilities provided in this division.

In addition to any other authority, the commission may, except for a facility defined in Section 25110, grant or issue any certificate or statement required pursuant to any such federal law that an activity of any person, including any local, state, or federal agency, is in conformity with the provisions of this division. With respect to any project outside the coastal zone that may have a substantial effect on the resources within the jurisdiction of the San Francisco Bay Conservation and Development Commission, established pursuant to Title 7.2 (commencing with Section 66600) of the Government Code, and for which any certification is required pursuant to the

Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.), such certification shall be issued by the Bay Conservation and Development Commission; provided however, the commission may review and submit comments for any such project which affects resources within the coastal zone.

SEC. 15. Section 30333.5 is added to the Public Resources Code, to read:

30333.5. Notwithstanding any other provision of this division, the commission may, by a majority vote of the appointed members, remove any local coastal program or any portion thereof, any coastal development permit application or appeal therefrom, from any regional commission for direct consideration and action by the commission where to do so would expedite the review of such local coastal program or coastal development permit application pursuant to this division. The commission shall make such removal where it finds that the regional commission is not processing the local coastal program or any portion thereof, a coastal development permit application, or appeal therefrom, in a reasonably expeditious and timely manner.

SEC. 15.1. Section 30334 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

SEC. 16. Section 30401 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30401. Except as otherwise specifically provided in this division, enactment of this division does not increase, decrease, duplicate or supersede the authority of any existing state agency.

This chapter shall not be construed to limit in any way the regulatory controls over development pursuant to Chapters 7 (commencing with Section 30600) and 8 (commencing with Section 30700), provided however, neither the commission nor any regional commission shall set standards or adopt regulations that duplicate regulatory controls established by any existing state agency pursuant to specific statutory requirements or authorization.

Neither the commission nor any regional commission shall, except as provided in subdivision (c), modify, adopt conditions, or take any action in conflict with any determination by the State Water Resources Control Board or any California regional water quality control board in matters relating to water quality or the administration of water rights.

Except as provided in this section, nothing herein shall be interpreted in any way either as prohibiting or limiting the commission, regional commission, local government, or port governing body from exercising the regulatory controls over development pursuant to this division in a manner necessary to carry out the provisions of this division.

(c) Any development within the coastal zone or outside the coastal zone which provides service to any area within the coastal zone that constitutes a treatment work shall be reviewed by the commission and any permit it issues, if any, shall be determinative only with respect to the following aspects of such development:

(1) The siting and visual appearance of treatment works within the coastal zone.

(2) The geographic limits of service areas within the coastal zone which are to be served by particular treatment works and the timing of the use of capacity of treatment works for such service areas to allow for phasing of development and use of facilities consistent with this division.

(3) Development projections which determine the sizing of treatment works for providing service within the coastal zone.

The commission shall make these determinations in accordance with the policies of this division and shall make its final determination on a permit application for a treatment work prior to the final approval by the State Water Resources Control Board for the funding of such treatment works. Except as specifically provided in this subdivision, the decisions of the State Water Resources Control Board relative to the construction of treatment works shall be final and binding upon the commission and any regional commission.

(d) The commission shall provide or require reservations of sites for the construction of treatment works and points of discharge within the coastal zone adequate for the protection of coastal resources consistent with the provisions of this division.

(e) Nothing in this section shall require the State Water Resources Control Board to fund or certify for funding, any specific treatment works within the coastal zone or to prohibit the State Water Resources Control Board or any California regional water quality control board from requiring a higher degree of treatment at any existing treatment works.

30415. The Director of the Office of Planning and Research shall, in cooperation with the commission and other appropriate state agencies, review the policies of this division. If the director determines that effective implementation of any policy requires the cooperative and coordinated efforts of several state agencies, he shall, no later than July 1, 1978 and from time to time thereafter, recommend to the appropriate agencies actions that should be taken to minimize potential duplication and conflicts and which could, if taken, better achieve effective implementation of such policy. The director shall, where appropriate and after consultation with the affected agency, recommend to the Governor and the Legislature how the programs, duties, responsibilities, and enabling legislation of any state agency should be changed to better achieve the goals and policies of this division.

sensitive coastal resource areas within the coastal zone where the protection of coastal resources and public access requires, in addition to the review and approval of zoning ordinances, the review and approval by the regional commissions and commission of other implementing actions.

(b) The designation of each sensitive coastal resource area shall be based upon a separate report prepared and adopted by the commission which shall contain all of the following:

(1) A description of the coastal resources to be protected and the reasons why the area has been designated as a sensitive coastal resource area.

(2) A specific determination that the designated area is of regional or statewide significance.

(3) A specific list of significant adverse impacts that could result from development where zoning regulations alone may not adequately protect coastal resources or access.

(4) A map of the area indicating its size and location.

(c) In sensitive coastal resource areas designated pursuant to this section, a local coastal program shall include the implementing actions adequate to protect the coastal resources enumerated in the findings of the sensitive coastal resource area report in conformity with the policies of this division.

30502.5. The commission shall recommend to the Legislature for designation by concurrent resolution those sensitive coastal resource areas designated by the commission pursuant to Section 30502. Recommendation by the commission to the Legislature shall place the described area in the sensitive coastal resource area category for no more than two years, or a shorter period if the Legislature specifically rejects the recommendation. If two years pass and a recommended area has not been designated by concurrent resolution, it shall no longer be designated as a sensitive coastal resource area. Such a concurrent resolution may not be held in committee, but shall be reported from committee to the floor of each respective house with its recommendation within 60 days of referral to committee.

SEC. 21. Section 30603 of the Public Resources Code as added by Senate Bill No. 1277, is amended to read:

(3) Developments approved by the local government not included within paragraph (1) or (2) of this subdivision located in a sensitive coastal resource area if the allegation on appeal is that the development is not in conformity with the implementing actions of the certified local coastal program.

(4) Any development approved by a coastal county that is not designated as the principal permitted use under the zoning ordinance or zoning district map approved pursuant to Chapter 6 (commencing with Section 30500).

(5) Any development which constitutes a major public works project or a major energy facility.

(b) The grounds for an appeal pursuant to paragraph (1) of subdivision (a) shall be limited to the following:

(2) The development fails to protect public views from any public road or from a recreational area to, and along, the coast.

(3) The development is not compatible with the established physical scale of the area.

(4) The development may significantly alter existing natural landforms.

(5) The development does not comply with shoreline erosion and geologic setback requirements.

(c) The standard of review for any development reviewed pursuant to subdivision (a) (3) shall be in conformity with the implementing actions of the certified local coastal program.

Such action shall become final after the 10th working day, unless an appeal is filed within that time.

SEC. 21.5. Section 30608 of the Public Resources Code, is amended to read:

30608. (a) No person who has obtained a vested right in a development prior to the effective date of this division or who has obtained a permit from the California Coastal Zone Conservation Commission pursuant to the California Coastal Zone Conservation Act of 1972 (commencing with Section 27000) shall be required to secure approval for the development pursuant to this division; provided, however, that no substantial change may be made in any such development without prior approval having been obtained under this division.

SEC. 22. Section 30610 the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30610. Notwithstanding any provision in this division to the contrary, no coastal development permit shall be required pursuant to this chapter for the following types of development and in the following areas:

(a) Improvements to existing single-family residences; provided,

however, that the commission shall specify, by regulation, those classes of development which involve a risk of adverse environmental effect and shall require that a coastal development permit be obtained under this chapter.

(b) Maintenance dredging of existing navigation channels or moving dredged material from such channels to a disposal area outside the coastal zone, pursuant to a permit from the United States Army Corps of Engineers.

(c) Repair or maintenance activities that do not result in an addition to, or enlargement or expansion of, the object of such repair or maintenance activities; provided, however, that if the commission determines that certain extraordinary methods of repair and maintenance that involve a risk of substantial adverse environmental impact, it shall, by regulation, require that a permit be obtained under this chapter.

(d) Any category of development, or any category of development within a specifically defined geographic area, that the commission, by regulation, after public hearing, and by two-thirds vote of its appointed members, has described or identified and with respect to which the commission has found that there is no potential for any significant adverse effect, either individually or cumulatively, on coastal resources or on public access to, or along, the coast and that such exclusion will not impair the ability of local government to prepare a local coastal program.

(e) The installation, testing, and placement in service or the replacement of any necessary utility connection between an existing service facility and any development approved pursuant to this division; provided, that the commission may, where necessary, require reasonable conditions to mitigate any adverse impacts on coastal resources, including scenic resources.

SEC. 23. Section 30610.5 is added to the Public Resources Code, to read:

30610.5. Urban land areas shall, pursuant to the provisions of this section, be excluded from the permit provisions of this chapter.

(a) Upon the request of a local government, an urban land area, as specifically identified by such local government, shall, after public hearing, be excluded by the commission from the permit provisions of this chapter where both of the following conditions are met:

(1) The area to be excluded is either a residential area zoned and developed to a density of four or more dwelling units per acre on or before January 1, 1977, or a commercial or industrial area zoned and developed for such use on or before January 1, 1977.

(2) The commission finds both of the following:

(i) Locally permitted development will be infilling or replacement and will be in conformity with the scale, size, and character of the surrounding community.

(ii) There is no potential for significant adverse effects, either individually or cumulatively, on public access to the coast or on coastal resources from any locally permitted development; provided,

however, that no area may be excluded unless more than 50 percent of the lots are built upon, to the same general density or intensity of use.

(b) Every exclusion granted under subdivision (a) of this section and subdivision (d) of Section 30610 shall be subject to terms and conditions to assure that no significant change in density, height, or nature of uses will occur without further proceedings under this division, and an order granting an exclusion under subdivision (d) of Section 30610, but not under subdivision (a) of this section may be revoked at any time by the commission, if the conditions of exclusion are violated. Tide and submerged land, beaches, and lots immediately adjacent to the inland extent of any beach, or of the mean high tide line of the sea where there is no beach, and all lands and waters subject to the public trust shall not be excluded under either subdivision (a) of this section or subdivision (d) of Section 30610.

SEC. 24. Section 30702 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30702. For purposes of this division, the policies of the state with respect to providing for port-related developments consistent with coastal protection in the port areas to which this chapter applies, which require no commission permit after certification of a port master plan and which, except as provided in Section 30715, are not appealable to the commission after certification of a master plan, are set forth in this chapter.

SEC. 25. Section 30707 of the Public Resources Code, as added by Senate Bill No. 1277, is amended to read:

30707. New or expanded tanker terminals shall be designed and constructed to do all of the following:

30714. After public notice, hearing, and consideration of comments and testimony received pursuant to Sections 30712 and 30713, the port governing body shall adopt its master plan and submit it to the commission for certification in accordance with this chapter. Within 90 days after the submittal, the commission, after public hearing, shall certify such plan or portion of a plan and reject any portion of a plan which is not certified. If the commission fails to take action within the 90-day period, the port master plan shall be deemed certified. The commission shall certify such plan or portion of a plan if the commission finds both of the following:

(a) The master plan or certified portions thereof conforms with and carries out the policies of this chapter.

(b) Where a master plan or certified portions thereof provide for any of the developments listed as appealable in Section 30715 of this chapter, such development or developments are in conformity with all of the policies of Chapter 3 (commencing with Section 30200) of this division.

SEC. 27. Section 30807 is added to the Public Resources Code, to read:

30807. Any person may maintain an action seeking an order to remove a local coastal program or any portion thereof, any coastal development permit application, or appeal therefrom, from the appropriate regional commission's consideration and to require that such local coastal program or any portion thereof, coastal development permit application or appeal therefrom, be reviewed and processed by the commission. The court may grant such order where to do so would better carry out the purposes of this division and where the court determines that such order would expedite the review of such local coastal program or any portion thereof, or of such coastal development permit application, or appeal therefrom.

SEC. 28. Section 16 of Senate Bill No. 1277 is amended to read:

SEC. 16. There is no appropriation made by this act for the 1976–77 fiscal year pursuant to Section 2231 of the Revenue and Taxation Code. However, the Legislature acknowledges that there may be direct planning and administrative costs as set forth in Section 2207 of the Revenue and Taxation Code as a result of this act in the 1976–77 fiscal year, but that such costs are indeterminable at this time. It is the intent of the Legislature that such costs to local government shall be reimbursed by the state. If such state-mandated local costs result from the enactment of this act or from executive orders issued pursuant to this act in the 1976–77 fiscal year or subsequent years, reimbursement shall be provided pursuant to Section 2231 of the Revenue and Taxation Code in the annual state budget process, except that claims for such costs which may be incurred in the 1976–77 fiscal year shall be submitted to the State Controller by October 31, 1977.

If the Legislature fails to provide full funds for state-mandated local costs approved by the State Controller as costs qualified for reimbursement under Section 2231 of the Revenue and Taxation Code in the annual state budget process or in special legislation during the 1976–77 fiscal year and each subsequent year in which state-mandated local costs have been so approved, the dates specified for the submission of the local coastal program, the implementation of a local coastal program, and the performance of any other duty required of local government or an executive order to be performed after January 1, 1977, under the provisions of Division 20 (commencing with Section 30000) of the Public Resources Code, shall be postponed by the number of years elapsing between the date the local coastal program implementing act or duty is to be performed and the year in which such funds are provided. In the event that state-mandated costs are not funded by

the Legislature, the provisions of Section 30518 of the Public Resources Code shall not be affected, except that any local government whose costs are not funded may elect that the California Coastal Commission implement either subdivision (a) or (b) of Section 30518 of the Public Resources Code.

It is the policy of the state that a major portion of the funds, but in no event less than 50 percent, received by the state from the federal government for the period following July 1, 1977, pursuant to the Federal Coastal Zone Management Act of 1972 (16 U.S.C. 1451, et seq.), shall be used for the development and implementation of local coastal programs.

Funds appropriated by the Legislature for the purpose of, and pursuant to, this section together with no less than 50 percent of any federal funds legally available for such purposes, shall be deposited in a local government coastal planning assistance account in the General Fund. The commission shall review and analyze all claims submitted and shall submit to the State Controller its recommendation. The State Controller shall consider the report of the commission and review claims submitted by any local government pursuant to this section to determine whether such claimed planning and administrative costs are directly attributable to the operation of this act. Any such claimed costs found to be directly attributable to the operation of this act shall, when appropriated by the Legislature, be charged against and paid from the local government coastal planning assistance account.

SEC. 29. Section 17 of Senate Bill No. 1277 is amended to read:

SEC. 17. The coastal zone, as generally defined in Section 30103 of the Public Resources Code, shall include the land and water areas as shown on the map prepared by the California Coastal Zone Conservation Commission titled "California Coastal Zone" dated August 11, 1976, and on file with the Secretary of State.

SEC. 30. This act shall become effective only if Senate Bill No. 1277 is enacted by the Legislature at its 1975–76 Regular Session, and in such case, at the same time as Senate Bill No. 1277 takes effect.

SEC. 31. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

CHAPTER 1332

An act to repeal and add Chapter 1.75 (commencing with Section 5097.9) of Division 5 of the Public Resources Code, relating to Native Americans, and making an appropriation therefor.

[Approved by Governor September 29, 1976. Filed with

Secretary of State September 29, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.75 (commencing with Section 5097.9) of Division 5 of the Public Resources Code is repealed.

SEC. 2. Chapter 1.75 (commencing with Section 5097.9) is added to Division 5 of the Public Resources Code, to read:

CHAPTER 1.75. NATIVE AMERICAN HISTORICAL, CULTURAL, AND SACRED SITES

5097.9. No public agency, and no private party using or occupying public property, or operating on public property, under a public license, permit, grant, lease, or contract made on or after July 1, 1977, shall in any manner whatsoever interfere with the free expression or exercise of Native American religion as provided in the United States Constitution and the California Constitution; nor shall any such agency or party cause severe or irreparable damage to any Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, except on a clear and convincing showing that the public interest and necessity so require. The provisions of this chapter shall be enforced by the commission, pursuant to Sections 5097.94 and 5097.97.

The provisions of this chapter shall not be construed to limit the requirements of the Environmental Quality Act of 1970, Division 13 (commencing with Section 21000).

The public property of all cities, counties, and city and county located within the limits of the city, county, and city and county, except for all parklands in excess of 100 acres, shall be exempt from the provisions of this chapter. Nothing in this section shall, however, nullify protections for Indian cemeteries under other statutes.

5097.91. There is in state government a Native American Heritage Commission, consisting of nine members appointed by the Governor with the advice and consent of the Senate.

5097.92. At least five of the nine members shall be elders, traditional people, or spiritual leaders of California Native American tribes, nominated by Native American organizations, tribes, or groups within the state. The executive secretary of the commission shall be appointed by the Governor.

5097.93. The members of the commission shall serve without compensation but shall be reimbursed their actual and necessary expenses.

5097.94. The commission shall have the following powers and duties:

(a) To identify and catalog places of special religious or social significance to Native Americans.

(b) To make recommendations relative to Native American sacred places that are located on private lands, are inaccessible to

Native Americans, and have cultural significance to Native Americans for acquisition by the state or other public agencies for the purpose of facilitating or assuring access thereto by Native Americans.

(c) To make recommendations to the Legislature relative to procedures which will voluntarily encourage private property owners to preserve and protect sacred places in a natural state and to allow appropriate access to Native American religionists for ceremonial or spiritual activities.

(d) To appoint necessary clerical staff.

(e) To accept grants or donations, real or in kind, to carry out the purposes of this chapter.

(f) To make recommendations to the Director of Parks and Recreation and the California Arts Council relative to the California State Indian Museum and other Indian matters touched upon by department programs.

(g) To bring an action to prevent severe and irreparable damage to, or assure appropriate access for Native Americans to, a Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, pursuant to Section 5097.97. If the court finds that severe and irreparable damage will occur or that appropriate access will be denied, and appropriate mitigation measures are not available, it shall issue an injunction, unless it finds, on clear and convincing evidence, that the public interest and necessity require otherwise. The Attorney General shall represent the commission and the state in litigation concerning affairs of the commission, unless the Attorney General has determined to represent the agency against whom the commission's action is directed, in which case the commission shall be authorized to employ other counsel. In any action to enforce the provisions of this subdivision the commission shall introduce evidence showing that such cemetery, place, site, or shrine has been historically regarded as a sacred or sanctified place by Native American people and represents a place of unique historical and cultural significance to an Indian tribe or community.

(h) To request and utilize the advice and service of all federal, state, local, and regional agencies.

(i) To assist Native Americans in obtaining appropriate access to sacred places that are located on public lands for ceremonial or spiritual activities.

(j) To assist state agencies in any negotiations with agencies of the federal government for the protection of Native American sacred places that are located on federal lands.

5097.95. Each state and local agency shall cooperate with the commission in carrying out its duties under this chapter. Such cooperation shall include, but is not limited to, transmitting copies, at the commission's expense, of appropriate sections of all environmental impact reports relating to property identified by the commission as of special religious significance to Native Americans

or which is reasonably foreseeable as such property.

5097.96. The commission may prepare an inventory of Native American sacred places that are located on public lands and shall review the current administrative and statutory protections accorded to such places. The commission shall submit a report to the Legislature no later than January 1, 1979, in which the commission shall report its findings as a result of these efforts and shall recommend such actions as the commission deems necessary to preserve these sacred places and to protect the free exercise of the Native American religions.

5097.97. In the event that any Native American organization, tribe, group, or individual advises the commission that a proposed action by a public agency may cause severe or irreparable damage to a Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, or may bar appropriate access thereto by Native Americans, the commission shall conduct an investigation as to the effect of the proposed action. Where the commission finds, after a public hearing, that the proposed action would result in such damage or interference, the commission may recommend mitigation measures for consideration by the public agency proposing to take such action. If the public agency fails to accept the mitigation measures, and if the commission finds that the proposed action would do severe and irreparable damage to a Native American sanctified cemetery, place of worship, religious or ceremonial site, or sacred shrine located on public property, the commission may ask the Attorney General to take appropriate legal action pursuant to subdivision (g) of Section 5097.94.

SEC. 3. The sum of thirty-three thousand dollars ($33,000) is appropriated from the General Fund to the Native American Heritage Commission for support of the commission.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SECTION 1. Section 29532.4 is added to the Government Code, to read:

29532.4. Notwithstanding subdivision (a) of Section 29532, the county transportation commission created in the Counties of Los Angeles, Orange, Riverside, and San Bernardino by Division 12 (commencing with Section 130000) of the Public Utilities Code shall not be designated by the Secretary of the Business and Transportation Agency as the transportation planning agency for the area under its jurisdiction.

A county that is not included within the jurisdiction of a statutorily created regional transportation agency but for which there is a council of governments may, pursuant to this section, elect, with the concurrence of a majority of the cities which include at least 50 percent of the incorporated population within the county, to form a local transportation commission pursuant to Section 29535. Applications for funds may be allocated by the local transportation commission only if the council of governments has not objected to such application. For such counties with a population of 500,000 or more, as determined under Section 28020 of the Government Code, as now or hereafter amended, but excluding counties with more than 4,500 miles of maintained county roads, the members appointed by the mayor's select committee of the county from a city for which a transit service is provided and the members appointed by a transit district and the member representing other transit operators shall have no vote in the approval of the claims filed under Article 8 (commencing with Section 99400), Chapter 4, Part 11, Division 10 of the Public Utilities Code. local transportation fund that the city's population bears to the total of the county population is used to pay approved claims filed under Article 4 (commencing with Section 99260), Chapter 4, Part 11, Division 10 of the Public Utilities Code, and the members appointed by a transit district, and the member representing other transit operators shall have no vote in the approval of the claims filed under Article 8 (commencing with Section 99400), Chapter 4, Part 11, Division 10 of the Public Utilities Code.

Applications for funds shall be submitted to both the local transportation commission and the council of governments, which shall have 60 days after the receipt of applications to notify the local transportation commission and the county auditor of any objection. If neither the local transportation commission nor the county auditor receive notice of objection, the approval of the council of governments shall be presumed. Applications for funds to which the council of governments has objected shall not be paid by the county auditor until the objection has been removed.

If from any cause the revenues of the district are, or are expected to be, inadequate in any year to pay the principal of, interest on, or sinking fund payments for bonds of the district as the same become due, or to establish or maintain any reserve fund therefor, the board shall, at the same time as the board of supervisors are required by law to fix the general tax levy and in the manner provided for such general tax levy, levy for district purposes and collect upon all property in the district taxable for county purposes a tax sufficient, together with revenues already collected and available therefor, to pay the interest on the bonds as the same will become due and such part of the principal thereof, including any sinking fund installments required by any of the district's agreements with its bondholders, as will come due before the proceeds of a tax levied at the next general tax levy will be available for such purpose, and sufficient to provide or to restore such reserve fund to the amount required by any of the district's agreements with its bondholders.

DIVISION 12. COUNTY TRANSPORTATION COMMISSIONS

CHAPTER 1. GENERAL PROVISIONS, FINDINGS, AND DEFINITIONS

130000. This division shall be known and may be cited as the County Transportation Commissions Act.

130001. The Legislature hereby finds and declares that:

(a) Public demand for an efficient public transportation system in the southern California region resulting from population sprawl, the concentration of many transit dependent citizens in the large urban areas, and increasing mobility requirements indicates a need for improved, as well as more innovative, policy and decisionmaking institutions to resolve these problems.

(b) A basic purpose of transportation policy within the region should be to avoid undesirable duplication of transportation services, achieve the operation of a coordinated and integrated transportation system which will reduce automobile usage and dependency, reduce the consumption of scarce and expensive energy fuels, and reduce the levels of automobile-related air pollution.

(c) Recognizing the scarcity of resources available for all transportation development, the commissions shall give priority to low-cost highway and transit improvements, and shall work toward maximizing the effectiveness of existing resources available to the commissions.

(d) Recognizing the importance of the state highway system in the Los Angeles metropolitan area to bus, automobile, and freight transportation, it is necessary to maintain this highway system at least at its present operating standards and to increase the person-moving capability of this system by such methods as carpooling, improved traffic operations, exclusive busways, and fringe parking facilities.

(e) The transportation system should offer adequate public transportation to all citizens, including those immobilized by poverty, age, physical handicaps, or other reasons.

(f) The cities and local communities acting singly or jointly should be given more responsibilities for designing and providing local transit services to improve the responsiveness of public transit to public needs.

(g) The transportation decisionmaking process should be responsive to public values, and provide for the continuing involvement of the public in the preparation, revision, and discussion of transportation plans and services.

(h) Transportation planning should recognize that transportation systems have significant effect on the physical and socioeconomic characteristics of the areas served, and emphasis should be given to the protection and enhancement of the environment and the restoration of blighted neighborhoods near community centers. Los Angeles County, in particular, is a multicentered area with diverse socioeconomic levels and travel patterns, and a majority of the trips

01246 286585 618

in the county are four miles or less.

130002. As used in this division, "commission" means a county transportation commission created pursuant to Chapter 2 (commencing with Section 130050).

130003. As used in this division, "local transportation zones" means cities or unincorporated areas which contain at least one economic center or major trip generator in which there is a large percentage of short- and medium-length transit trips. Local transportation zones shall be coordinated with regional transit operations as appropriate relative to consumer need and efficient operations.

130004. As used in this division, "multicounty designated transportation planning agency" means the Southern California Association of Governments.

130005. The multicounty designated transportation planning agency shall conduct its meetings in the manner prescribed by the Ralph M. Brown Act (Chapter 9 (commencing with Section 54950), Part 1, Division 2, Title 5 of the Government Code).

A majority of the members of the executive committee of the agency shall constitute a quorum for the transaction of business. All official acts of the executive committee shall require the affirmative vote of a majority of the members of the executive committee present, with not less than a quorum present.

CHAPTER 2. CREATION OF COMMISSIONS

130050. There is hereby created a commission in Los Angeles County, in Orange County, in Riverside County, and in San Bernardino County.

130051. The Los Angeles County Transportation Commission shall consist of 11 members appointed as follows:

(a) Five members of the Los Angeles County Board of Supervisors shall serve on the commission or the board may appoint, as an alternate member to a supervisor, a mayor or city councilman of any city, other than the City of Long Beach or Los Angeles, within Los Angeles County or a private individual who is a resident of the county.

(b) The Mayor of the City of Los Angeles or an alternate appointed by the mayor.

(c) Two members appointed by the Mayor, with the consent of the City Council, of the City of Los Angeles. If the mayor appoints a member of the city council, consent of the city council is not necessary.

(d) Two members appointed by the Los Angeles County City Selection Committee, excluding the members representing the Cities of Long Beach and Los Angeles.

(e) One member appointed by the City Council of the City of Long Beach, which member shall be a member of the city council.

130051.5. If the Mayor of the City of Los Angeles, or the Board of

01246 286595 620

Supervisors of the County of Los Angeles, appoint an alternate member to the Los Angeles County Transportation Commission, the alternate member shall act for, and in the interests of, his appointing authority. No alternate member shall serve on both the Board of Directors of the Southern California Rapid Transit District and the Los Angeles County Transportation Commission.

130052. The Orange County Transportation Commission shall consist of five members appointed as follows:

(a) Two members of the Orange County Board of Supervisors appointed by that board, one of whom shall serve on the Board of Directors of the Orange County Transit District.
