130053. The Riverside County Transportation Commission shall consist of seven members appointed as follows:

(a) Three supervisors appointed by the Riverside County Board of Supervisors, one of whom shall represent a supervisorial district in the eastern desert area of the county and two of whom shall represent supervisorial districts in the western urbanized area of the county.

130056. The commissions shall rely to the maximum extent possible on existing state, regional, and local transportation planning and programming data and expertise, rather than on a large duplicative commission staff and set of plans.

The Legislature envisions the development of a small, but very capable, core staff able to provide the commissions with an objective analysis of the various options relative to plans and proposed projects of the regional and local transportation agencies and operators, and then translate those options into a short-range transportation improvement program to be developed and approved pursuant to subdivision (b) of Section 130303 in accordance with decisions made by the commissions.

130057. It is the intent of the Legislature that, after the development and approval of the short-range transportation improvement program pursuant to subdivision (b) of Section 130303, the transportation agencies responsible for the implementation of the program shall be granted discretion on how to best implement the program. Any changes made in the program by such an agency in its implementation shall be consistent with the purposes of the program, and the commission shall be immediately notified of such changes.

130058. It is the intent of the Legislature that, working through the multicounty designated transportation planning agency, the four commissions be encouraged to develop joint powers agreements or other contractual arrangements between themselves in the development of transportation facilities or for the provision of transportation services where the commissions feel such arrangements are in the public interest.

130059. The multicounty designated transportation planning

agency shall convene at least two meetings annually of the four commissions with representatives from the agency and the Department of Transportation for the following purposes:

CHAPTER 3. ADMINISTRATION

130100. The commission at its first meeting, and thereafter annually at the first meeting in January, shall elect a chairman who shall preside at all meetings, and a vice chairman who shall preside in his absence. In the event of their absence or inability to act, the members present, by an order entered in the minutes, shall select one of their members to act as chairman pro tempore, who, while so acting, shall have all of the authority of the chairman.

130101. The commission shall establish rules for its proceedings consistent with the law of the State of California.

130102. A majority of the members of the commission shall constitute a quorum for the transaction of business, and all official acts of the commission, except as otherwise provided in Section 130102.5, shall require the affirmative vote of a majority of the members of the commission.

(a) Adopt an annual budget and fix the compensation of its officers and employees.

(b) Adopt an administrative code, by ordinance, which shall prescribe the powers and duties of commission officers, the method

of appointment of commission employees, and methods, procedures, and systems of operation and management of the commission.

(c) Cause a postaudit of the financial transactions and records of the commission to be made at least annually by a certified public accountant.

(d) Appoint, not later than July 1, 1977, a citizens' advisory committee, which membership shall reflect a broad spectrum of interests and all geographic areas of the county. Members of the staff of the commission, as determined by the commission, shall be available to aid the citizens' advisory committee in its work.

(e) Appoint a technical advisory committee of representatives from all of the transit operators, all of the cities and the county, and the Department of Transportation, and such other advisory committees it deems necessary.

The proposed annual budget shall be available for public inspection at least 15 days prior to the hearing.

130107. The commission shall appoint a full-time executive director who shall act for the commission under its direction.

The commission may appoint such officers as it deems necessary to carry out its duties and functions.

130108. Each member of a commission shall be compensated at the rate of fifty dollars ($50) for any day attending to the business of the commission, but not to exceed one hundred dollars ($100) in any month, and such necessary traveling and personal expenses incurred in the performance of his duties as authorized by the commission.

130109. The commission shall enter into a contract with the Board of Administration of the Public Employees' Retirement System, and the board shall enter into such a contract, to include all of the employees of the commission into that retirement system, and the employees shall be entitled to the same health benefits as are state employees pursuant to Part 5 (commencing with Section 22751) of Division 5 of Title 2 of the Government Code.

CHAPTER 4. POWERS AND FUNCTIONS

Article 1. Corporate Powers

130200. The commission has perpetual succession and may adopt a seal and alter it at its pleasure.

130201. The commission may sue and be sued, except as otherwise provided by law, in all actions and proceedings, in all courts and tribunals of competent jurisdiction.

The commission may make contracts and enter into stipulations of any nature whatsoever either in connection with eminent domain proceedings or otherwise, including, without limiting the generality of the foregoing, contracts and stipulations to indemnify and save harmless, to employ labor, and to do all acts necessary and convenient for the full exercise of the powers granted in this division.

130221. The commission may contract with any department or agency of the United States of America, with any public agency (including, but not limited to, the Department of Transportation, the multicounty designated transportation planning agency, or any transit district, county, or city), or with any person upon such terms and conditions as the commission finds is in its best interest.

130222. Contracts for the purchase of supplies, equipment, and materials in excess of five thousand dollars ($5,000) shall be awarded to the lowest responsible bidder after competitive bidding, except in emergency declared by the vote of two-thirds of the membership of the commission.

130223. If, after rejecting bids received under Section 130222, the commission determines and declares by a two-thirds vote of all of its members that, in its opinion, the supplies, equipment, or materials may be purchased at a lower price in the open market, the commission may proceed to purchase these supplies, equipment, or materials in the open market without further observance of the provisions regarding contracts, bids, or advertisements.

Article 3. Transportation Systems

130250. The commission shall coordinate the operation of all public transportation services within the county so as to achieve efficient operation thereof and shall resolve all jurisdictional disputes between public transit operators.

130251. It is the intent of the Legislature that, if, at the time the commission commences operation, an application to the federal government has been submitted, or substantial progress has been made in preparation of such an application, for funds to start the necessary work toward the construction of a transit guideway project, the commission shall give top priority to supporting such an effort so that the flow of federal funds shall not be impeded.

130252. (a) All plans proposed for the design, construction, and implementation of public mass transit systems or projects, including exclusive public mass transit guideway systems or projects, and federal-aid and state highway projects, shall be submitted to the

01246 28735 636

commission for approval. No such plan shall be approved unless it conforms to the appropriate adopted regional transportation plan pursuant to Chapter 2.5 (commencing with Section 65080) of Title 7 of the Government Code.

(b) The commission shall have no approval authority with respect to projects on state highway routes determined by the State Transportation Board to be of statewide significance. The commission shall also have no approval authority over the projects, plans, and programs determined by the Department of Transportation to be necessary for the safety, operation, and maintenance of the state highway system. Such projects, plans, and programs shall be developed by the department and, to the extent feasible, be coordinated with the planning of the commission. Plans and programs involving significant rebuilding or rehabilitation of the state highway system, as determined by the department and the commission, shall be developed jointly by the department and the commission.

130253. Any plan for a transit system proposed to serve more than one county shall also be submitted for approval by the multicounty designated transportation planning agency. Action regarding such approval shall be taken within 60 working days after such a plan is submitted by the commission to the multicounty designated transportation planning agency.

The Los Angeles County Transportation Commission shall designate the Southern California Rapid Transit District as the transit guideway operator in Los Angeles County.

The Orange County Transportation Commission shall designate the Orange County Transit District as the transit guideway operator in Orange County.

130255. (a) If an exclusive public mass transit guideway system is proposed to serve two or more counties, the commissions in those counties shall form a joint powers entity to conduct plan refinement studies, design, select the technology, determine the cost, locate the routes and access points, and supervise the construction, operation, and management of the system.

(b) The joint powers entity shall designate the operator of the guideway system.

(c) At least one year prior to letting a contract for the operation of the guideway system, the joint powers entity shall submit its plan and contract for such operation to the Legislature.

130256. The commission shall require all planning for guideway and rapid transit systems be coordinated with the Department of Transportation and the multicounty designated transportation planning agency.

130257. The commission may enter into an agreement with the Department of Transportation for the department to provide those services which are within the capabilities of the department to

effectively perform in connection with the development and construction of any approved exclusive public mass transit guideway system or rapid transit system.

The commission shall retain final authority to decide those matters for which it is responsible by law pertaining to the planning, design, construction, and operation of any exclusive public mass transit guideway system or rapid transit system.

The department shall perform such services agreed upon in accordance with the law and regulations that are applicable to the commission and the department.

130258. (a) If the Los Angeles County Transportation Commission is authorized to impose a transactions and use tax within the County of Los Angeles, the commission shall have such authority and power vested in the Southern California Rapid Transit District to plan, design, and construct an exclusive public mass transit guideway system in the county.

(b) In such a case, the commission shall conform to the State Contract Act (Chapter 3 (commencing with Section 14250), Part 5, Division 3, Title 2 of the Government Code) in letting contracts for such construction.

(c) If the Los Angeles County Transportation Commission is authorized to construct a transit guideway system, the commission shall closely coordinate the planning, design, and construction of the system with the Southern California Rapid Transit District, which shall serve as the designated operator of the system pursuant to Section 130254.

130259. (a) Not later than February 1, 1978, the commissions in Riverside County and San Bernardino County shall, and the commissions in Los Angeles County and Orange County may, in cooperation with the Department of Transportation, the multicounty designated transportation planning agency, public transit operators, the county, and the cities involved, establish local transportation zones and adopt guidelines for their establishment and operation.

(b) It is particularly important that the county, cities, and other local public entities be involved in establishing local transportation zones.

(c) In adopting the guidelines, the commission shall take into account, among other things, the geographical shape of proposed local transportation zones, economies of scale of transit systems, and established and projected subregional patterns of travel.

(d) The guidelines shall provide for a method of governing each local transportation zone; shall provide for the establishment of multicounty local transportation zones; and shall authorize each board, under specified conditions, to provide transit services itself, through joint powers agreement or any other cooperative arrangement, or by contract with a public transit operator or a private common carrier.

130260. The Orange County Transportation Commission may

establish local transportation zones only in those areas where the commission determines that the Orange County Transit District cannot otherwise provide adequate and responsive local transportation services in a cost-effective manner.

130261. The Los Angeles County Transportation Commission may establish local transportation zones only in those areas where the commission determines that the Southern California Rapid Transit District or the included municipal operator cannot otherwise provide adequate and responsive local transportation services in a cost-effective manner.

130262. The commission shall require full cooperation and coordination between the regional operator, the municipal operators, and the local transportation zones in such matters as schedules, routes, and exchange of transfers.

The commission shall ensure that regional operators, the municipal operators, and local transportation zones do not compete or unnecessarily duplicate services, but assist each other to provide the maximum level of transit service to the general public at the lowest possible cost.

130263. The Los Angeles County Transportation Commission shall not reduce, by order or by reducing funding, the size of the service areas under the jurisdiction of presently existing included municipal operators (as defined in Section 99207), the level of services they provide, or the scope of their operations, without first consulting with the municipal operators and securing the approval of the municipalities within which they operate.

Article 4. Los Angeles County Transportation Commission Report

130290. The Los Angeles County Transportation Commission shall review the present institutional structure of transit operations within the County of Los Angeles, the present method of allocating local, state, and federal funds for all transportation services, and the present levels of transit service provided within the county.

The commission shall prepare a report for submission to the Legislature containing such recommendations for changes and improvements in institutional arrangements, methods of funding, and methods and criteria for auditing the performance of transit operators to ensure that costs and revenues of each reflect maximum public benefits and levels of service, and on other matters as, in the opinion of the commission, may be necessary.

130291. The report shall address itself to, and contain recommendations for transportation solutions to, the achievement of the following objectives:

(a) The reduction of automobile congestion in and around the Los Angeles central business district and other heavily congested corridors and areas within the County of Los Angeles.

(b) An increase in the person-moving capability of existing

transportation facilities with minimum capital and operating costs to the public.

The commission shall also provide in the final report information on the administration of the commission including, but not limited to, the operating budget, size and salaries of staff, consultant and other contractual expenses, and sources of funds being utilized.

130293. The final report shall specifically consider the full impact of Sections 99280, 99281, 99282, 99284, 99285, and 130263 on the development of a cost-effective, consumer oriented, and coordinated system of public transit services in Los Angeles County. The final report shall include specific recommendations to the Legislature on necessary changes in the state law to correct problems resulting from those statutory sections and shall also include any other action the commission plans to take to resolve the problems identified.

Article 5. Transportation Planning and Programming

130300. The Legislature finds and declares:

(a) That the near-term programming and budgeting requirements of state and federal law is a cooperative intergovernmental planning process intended to determine the foreseeable capital and operational needs of a multimodal transportation system.

(b) That there is an absence of an adequate forum in which local officials may exercise leadership in multimodal transportation planning and programming.

(c) Therefore, it is in the public interest to define the roles of various public entities with respect to long-range system planning and short-range capital and service planning and programming processes.

130301. The multicounty designated transportation planning agency which includes the area of the commission shall be responsible for long-range transportation system planning, including preparation of the regional transportation plan as defined in Chapter 2.5 (commencing with Section 65080) of Title 7 of the Government Code in such area.

Such planning shall be directed to, among other things:

(a) Identification of corridors of travel.

(b) Definition of the transportation problems of each corridor.

(c) Definition of the transportation goals for each corridor.

(d) Definition of land use goals, with the concurrence of affected local jurisdictions, that should be supported by transportation investment decisions in each corridor.

(i) Determination of regional priorities and an annual regional program for the use of federal-aid urban system funds, and funds to be expended pursuant to Section 1604 of Title 49 of the United States Code, based on the priorities of projects appearing in the short-range transportation improvement program adopted by each commission.

(j) Administration of the regional program for the expenditure of funds allocated pursuant to Chapter 4 (commencing with Section 99200) of Part 11 of Division 10 for projects approved by the commission.

(k) Review and comment concerning all near-term transportation improvement programs after the development of, but prior to, adoption of such programs by the commission. The review shall be conducted pursuant to Section 130059 and in such a manner so that it does not unnecessarily slow or impede the transportation planning and programming process.

(*l*) Development of an annual unified work program for all transportation planning activities within the jurisdiction of the multicounty designated transportation planning agency in cooperation and coordination with the Department of Transportation and the commission and in conformance with federal laws and rules and regulations. Such cooperation and coordination shall specifically apply to the determination of appropriate planning methods for projecting and planning transportation use, and its effect on land use, within the jurisdiction of the agency.

130302. The role of the multicounty designated transportation planning agency, in coordinating, reviewing, and resolving intercommission conflicts, approving multicounty transportation plans, in developing plans and programs, shall be a cooperative effort with the commissions and shall be executed so as not to unnecessarily impede or slow the transportation planning and programming process.

130303. With respect to the area under its jurisdiction, the

commission shall be responsible for short-range capital and service planning directed to:

(a) Determination, on an annual basis, of the total amount of funds that could be available to the commission for transportation planning and development.

All projects utilizing federal and state highway and transit funds, and all exclusive public mass transit guideway projects no matter how funded, shall be included in a transportation improvement program adopted by the commission. The program shall also be developed in coordination with the multicounty designated transportation planning agency and the Department of Transportation, shall be consistent with the adopted regional transportation plan, and shall be reviewed and commented on pursuant to subdivision (k) of Section 130301.

(c) Coordination and approval of all public mass transit service within the jurisdiction of the commission and between the jurisdiction of other commissions or transit operators.

(d) Determination or approval of the location and capacity of all capital development projects, including, but not limited to, exclusive public mass transit guideway systems, state highway projects, and federal-aid highway projects, except for highway projects on routes determined by the State Transportation Board to be of statewide significance.

(e) Selection and specific approval of appropriate mass transit hardware and technology to be funded by the transportation improvement program.

(f) Determination and approval of the staging and scheduling of construction and other development relative to all transportation improvement projects to be funded by the transportation improvement program.

130304. The commission shall submit the short-range transportation improvement program prepared pursuant to subdivision (b) of Section 130303 to the multicounty designated transportation planning agency. The program shall be the commission's recommendation to the agency regarding that portion of the regional transportation plan with respect to the schedule of improvements and the financial plan as required pursuant to subdivision (e) of Section 65081 of the Government Code. The recommended program shall be submitted to the agency in a timely fashion, and the agency shall review and adopt this element of the regional transportation plan in a timely fashion, giving full explanation for any necessary modification of the commission's recommended program.

130305. The commission shall take all action necessary to obtain the maximum amount of funding available pursuant to Section 1602 of Title 49 of the United States Code. Public transit operators or other public agencies may only apply for such funds under such terms as prescribed by the commission. The commission may authorize the operator or the agency, as the case may be, to be responsible for the administration of its grant on the condition that the commission receives adequate and timely notice of all formal or other significant communications between the operator or agency and the federal government regarding the grant.

130306. The commission shall determine the projects on the federal-aid urban system to be funded. The commission shall determine the projects to be funded pursuant to Sections 1602 and 1604 of Title 49 of the United States Code. The commission shall also determine the program to be funded by funds allocated pursuant to Chapter 4 (commencing with Section 99200) of Part 11 of Division 10.

Article 6. Transactions and Use Taxes

130350. A retail transactions and use tax ordinance applicable in the incorporated and unincorporated territory of the County of Los Angeles may be adopted by the Los Angeles County Transportation Commission in accordance with Part 1.6 (commencing with Section 7251) of Division 2 of the Revenue and Taxation Code, provided that a majority of the electors voting on the measure vote to authorize its enactment at a special election called for that purpose by the commission.

130351. The County of Los Angeles shall conduct the special election called by the commission pursuant to Section 130350, and the commission shall reimburse the county for its cost in conducting the special election.

The special election shall be called and conducted in the same manner as provided by law for the conduct of special elections by a county.

SEC. 18. Part 17 (commencing with Section 37001) of Division 2 of the Revenue and Taxation Code is repealed.

SEC. 19. Section 199 of the Streets and Highways Code, as amended by Chapter 294 of the Statutes of 1975, is amended to read:

If the project is located within an area under the jurisdiction of a statutorily created regional transportation agency, including a county transportation commission, the project shall be approved by the agency prior to being submitted to the department.

The department shall submit its resource allocation recommendations for that project for the comment and review of the transportation planning agency designated in Section 29532 of the Government Code for the area, except that in the case of a project located within an area under the jurisdiction of a statutorily created regional transportation agency, including a county transportation commission, the project shall be approved by the agency. In addition, all projects shall be submitted by the department to the State Transportation Board for its approval as being in conformance with the regional transportation plan for that area and the California Transportation Plan, before the department presents its budget recommendations to the California Highway Commission for funding the project from the State Highway Account under such terms and conditions as the California Highway Commission and board deem appropriate and subject to the percentage limitation of Section 200.

If, at any time during the resource allocation decision process, the department or California Highway Commission is unable to achieve an agreement with the entity concerning a transit project, the entity, the department, or the California Highway Commission may request the Secretary of the Business and Transportation Agency to convene and chair a committee composed of an equal number of members of the board and California Highway Commission to resolve the disagreement.

SEC. 21. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section, nor shall there be any appropriation made by this act, because self-financing authority is provided in this act to cover such costs.

However, a permit to operate a labor camp consisting only of permanent housing may, when approved by the enforcement agency, be issued for a longer period of time not to exceed five years. A permit to operate shall be valid from the date of issuance through December 31 of the year of issuance, or December 31 of the year designated by the enforcement agency for permanent housing labor camps. SEC. 5. Section 2642 of the Labor Code is amended to read:

2642. The enforcement agency shall annually enter and inspect all registered labor camps; except labor camps consisting only of permanent housing which have been issued multiyear permits to operate pursuant to Section 2630; and all accommodations, equipment, or paraphernalia connected therewith and shall make such reinspection as deemed necessary to assure compliance with the current provisions of this part and the regulations adopted pursuant thereto. The enforcement agency shall make every effort to complete such inspection prior to the occupancy of such labor camps.

SEC. 6. Section 2645 of the Labor Code is amended to read:

2645. (a) Any labor camp which does not conform to this chapter, the regulations adopted pursuant thereto, or conditions of the permit, is a public nuisance and if not made to conform within five days, or within such longer period of time, not to exceed 30 days, which may be allowed by the enforcement agency after written notice, shall be abated by proper action brought in the superior court of the county in which the labor camp or greater portion thereof is situated. Where inspection verifies that the owner or operator of a labor camp is proceeding with reasonable diligence, or where conditions beyond the control of the owner or operator prevent conformance, the enforcement agency may grant time extensions not to exceed 30 days in duration. No more than two such extensions shall be allowed by the enforcement agency prior to initiation of action to abate the public nuisance.

(b) Any violation of this chapter, the regulations adopted pursuant thereto, or the provisions of the permit which constitute an immediate or material hazard to the health or safety of the occupants of a labor camp, shall be remedied within five days after written notice by the enforcement agency, or shorter time in case of

emergency. In the event of failure to comply with this section, the Attorney General, or the attorney for the enforcement agency, shall, by verified complaint setting forth the facts, apply to the superior court for an order granting the relief for which the action or proceeding is brought until the entry of a final judgment or order.

(c) The superior court may make any order for which application is made pursuant to this section.

(d) In any action or proceeding brought pursuant to this chapter, service of summons is sufficient if served in the manner provided in the Code of Civil Procedure.

CHAPTER 1335

An act to add Sections 41175, 41176, and 41177 to the Health and Safety Code, relating to housing, and making an appropriation therefor.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 41175 is added to the Health and Safety Code, to read:

41175. As used in Section 41176 and Section 41177:

(a) "Revolving loan fund" means the Housing Predevelopment Loan Fund which is replenished continuously by repayments of principal on loans made from the fund.

(b) "Predevelopment loan" means a loan for required expenses, other than administrative and construction, which are incurred by local governmental agencies and nonprofit corporations in the process of, and prior to, securing long-term financing for production or rehabilitation of assisted housing, and which are recoverable once long-term financing is obtained. Predevelopment loans may include, but are not limited to, loans covering costs associated with land purchase or options to buy land, with professional services such as architectural, engineering, or legal services, with permit or application fees, and with bonding, site preparation, related water or sewer development, or material expenses. In addition, such loan funds may be deposited in banks as compensating balances to establish lines of credit for participating nonprofit corporations.

(c) "Nonprofit corporation" means an entity incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code or a cooperative housing corporation which is a stock cooperative, as defined by Section 11003.2 of the Business and Professions Code.

(d) "Low-income persons" means a person or family household whose annual income is no more than 80 percent of the median

income for a household of a similar size in the same area.

SEC. 2. Section 41176 is added to the Health and Safety Code, to read:

41176. There is hereby created in the State Treasury the Housing Predevelopment Loan Fund.

All money in the Housing Predevelopment Loan Fund, including any interest on loans made therefrom, is continuously appropriated to the department for carrying out the purposes of this section and Section 41177. The Housing Predevelopment Loan Fund shall be a revolving loan fund which shall be used to make predevelopment loans to local governmental agencies or nonprofit corporations for assisted housing for low-income persons in rural areas.

SEC. 3. Section 41177 is added to the Health and Safety Code, to read:

41177. The Housing Predevelopment Loan Fund shall be administered by the director and such persons within the department as the director may designate.

The revolving loan fund shall be administered in accordance with the following:

(a) The department may not commit more than 20 percent of the total moneys appropriated to the fund to any single borrower at any point in time.

(b) The department shall require adequate security for all loans made from the revolving loan fund. The term "adequate security" includes, but need not be limited to, a first lien on any property purchased with loan fund moneys, a promissory note, or an assignment of a land option except that in the case of Indian Trust Land a mortgage on a leasehold interest in the property shall be acceptable.

(c) The department shall, from time to time, direct the State Treasurer to invest moneys of the revolving loan fund which are not required for its current needs in such eligible securities as the department shall designate from among those specified in Section 16430 of the Government Code. The department may direct the State Treasurer to deposit moneys from the revolving loan fund in interest-bearing accounts in state or national banks or other financial institutions having principal offices in this state. The department may alternatively require the transfer of moneys in the revolving loan fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3, Part 2, Division 4, Title 2 of the Government Code. All interest, dividends, and pecuniary gains from such investments or deposits shall accrue to the Housing Predevelopment Loan Fund.

(d) In complying with the provisions of Section 41109, the department shall also report annually to the Legislature and the Governor on the administration of the revolving loan fund. Such report shall include, but need not be limited to, (1) the number of units assisted, (2) the average income of households assisted and the distribution of annual incomes among assisted households, (3) the

rents in assisted units, (4) the number and amount of loans made to each local governmental agency or nonprofit corporation in the preceding year, (5) data on the number of delinquencies and defaults, and (6) recommendations, as needed, to improve operations of the revolving loan fund.

(e) All loans made from the Housing Predevelopment Loan Fund shall bear interest. The rate of interest for any loan shall be computed annually, and shall be the same as the average rate returned by the investment of state funds through the Pooled Money Investment Board for the five fiscal years immediately preceding the year in which the loan payment is made.

SEC. 4. The sum of five hundred thirty-five thousand dollars ($535,000) is appropriated from the General Fund for deposit in the Housing Predevelopment Loan Fund which shall be allocated for expenditure in accordance with the following schedule:

Schedule:

CHAPTER 1336

An act to amend Sections 33030, 33032, 33320.2, 33321, 33367, 33368, 33401, 33433, and 33445 of, to add Sections 33338.1 and 33399 to, and to repeal Sections 33032.1, 33033, and 33034 of, the Health and Safety Code, relating to redevelopment.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 33030 of the Health and Safety Code is amended to read:

33030. It is found and declared that there exist in many communities blighted areas which constitute either physical, social, or economic liabilities, requiring redevelopment in the interest of the health, safety, and general welfare of the people of such communities and of the state.

A blighted area is one which is characterized by one or more of those conditions set forth in Sections 33031 or 33032, causing a reduction of, or lack of, proper utilization of the area to such an

extent that it constitutes a serious physical, social, or economic burden on the community which cannot reasonably be expected to be reversed or alleviated by private enterprise acting alone.

SEC. 3. Section 33032 of the Health and Safety Code is amended to read:

33032. A blighted area is characterized by properties which suffer from economic dislocation, deterioration, or disuse because of one or more of the following factors:

(a) An economic dislocation, deterioration, or disuse resulting from faulty planning.

(b) The subdividing and sale of lots of irregular form and shape and inadequate size for proper usefulness and development.

(c) The laying out of lots in disregard of the contours and other topography or physical characteristics of the ground and surrounding conditions.

(d) The existence of inadequate public improvements, public facilities, open spaces, and utilities which cannot be remedied by private or governmental action without redevelopment.

(e) A prevalence of depreciated values, impaired investments, and social and economic maladjustment.

(f) The existence of lots or other areas which are subject to being submerged by water; provided that any ecologically valuable existing features in such areas shall, to the maximum extent feasible, be preserved.

SEC. 4. Section 33032.1 of the Health and Safety Code is repealed.

SEC. 5. Section 33033 of the Health and Safety Code is repealed.

SEC. 6. Section 33034 of the Health and Safety Code is repealed.

SEC. 7. Section 33320.2 of the Health and Safety Code is amended to read:

33320.2. The area included within a project and a project area may be either contiguous or noncontiguous. All noncontiguous areas of a project area shall be either blighted or necessary for effective redevelopment. An unblighted, noncontiguous area shall be conclusively deemed necessary for effective redevelopment if such an area is being used predominantly for:

(a) Relocation of owners or tenants from other noncontiguous areas in the same project area or from other project areas in the community.

(b) Low- and moderate-income housing.

An unblighted, noncontiguous area shall be deemed not necessary for effective redevelopment if such an area is included for the purpose of obtaining the allocation of taxes from such area pursuant to Section 33670 without other substantial justification for its inclusion.

The redevelopment agency shall not use the power of eminent domain for acquisition of property, other than vacant land, in noncontiguous, unblighted areas.

SEC. 8. Section 33321 of the Health and Safety Code is amended to read:

33321. A project area need not be restricted to buildings, improvements, or lands which are detrimental or inimical to the public health, safety, or welfare, but may consist of an area in which such conditions predominate and injuriously affect the entire area. A project area may include lands, buildings, or improvements which are not detrimental to the public health, safety or welfare, but whose inclusion is found necessary for the effective redevelopment of the area of which they are a part. Each such area included under this section shall be necessary for effective redevelopment and shall not be included for the purpose of obtaining the allocation of tax increment revenue from such area pursuant to Section 33670 without other substantial justification for its inclusion.

SEC. 8.5. Section 33338.1 is added to the Health and Safety Code, to read:

33338.1. Every redevelopment plan shall contain the provisions of Section 33401 for the purpose of authorizing the agency to alleviate any financial burden or detriment caused to any taxing agency.

SEC. 9. Section 33367 of the Health and Safety Code is amended to read:

33367. The ordinance shall contain:

(a) The purposes and intent of the legislative body with respect to the project area.

(b) The plan incorporated by reference.

(c) A designation of the approved plan as the official redevelopment plan of the project area.

(d) The findings and determinations of the legislative body that:

(1) The project area is a blighted area, the redevelopment of which is necessary to effectuate the public purposes declared in this part.

(2) The redevelopment plan would redevelop the area in conformity with this part and in the interests of the public peace, health, safety, and welfare.

(3) The adoption and carrying out of the redevelopment plan is economically sound and feasible.

(4) The redevelopment plan conforms to the general plan of the community.

(5) The carrying out of the redevelopment plan would promote the public peace, health, safety, and welfare of the community and would effectuate the purposes and policy of this part.

(6) The condemnation of real property, if provided for in the redevelopment plan, is necessary to the execution of the redevelopment plan and adequate provisions have been made for payment for property to be acquired as provided by law.

(7) The agency has a feasible method or plan for the relocation of families and persons displaced from the project area, if the redevelopment plan may result in the temporary or permanent displacement of any occupants of housing facilities in the project area.

(8) There are or are being provided in the project area or in other areas not generally less desirable in regard to public utilities and public and commercial facilities and at rents or prices within the financial means of the families and persons displaced from the project area, decent, safe, and sanitary dwellings equal in number to the number of and available to such displaced families and persons and reasonably accessible to their places of employment.

(9) All noncontiguous areas of a project area are either blighted or necessary for effective redevelopment and are not included for the purpose of obtaining the allocation of taxes from such area pursuant to Section 33670 without other substantial justification for their inclusion.

(10) Inclusion of any lands, buildings, or improvements which are not detrimental to the public health, safety, or welfare is necessary for the effective redevelopment of the area of which they are a part; that any such area included is necessary for effective redevelopment and is not included for the purpose of obtaining the allocation of tax increment revenues from such area pursuant to Section 33670 without other substantial justification for its inclusion.

(11) The elimination of blight and the redevelopment of the project area could not be reasonably expected to be accomplished by private enterprise acting alone without the aid and assistance of the agency.

(e) A statement that the legislative body is satisfied permanent housing facilities will be available within three years from the time occupants of the project area are displaced and that pending the development of such facilities there will be available to such displaced occupants adequate temporary housing facilities at rents comparable to those in the community at the time of their displacement.

(f) When the project is financed in part or in whole from revenues derived from the allocation of taxes pursuant to Section 33670, a statement that the legislative body is convinced that the effect of tax increment financing will not cause a severe financial burden or detriment on any taxing agency deriving revenues from a tax increment project area.

SEC. 10. Section 33368 of the Health and Safety Code is amended to read:

33368. The decision of the legislative body shall be final and conclusive, and it shall thereafter be conclusively presumed that the project area is a blighted area as defined by Sections 33031 or 33032 and that all prior proceedings have been duly and regularly taken.

This section shall not apply in any action questioning the validity of any redevelopment plan, or the adoption or approval of such plan, or any of the findings or determinations of the agency or the legislative body in connection with such plan brought pursuant to Section 33501 within the time limits prescribed by Section 33500.

SEC. 11. Section 33399 is added to the Health and Safety Code, to read:

33399. (a) If a public entity has adopted a redevelopment plan but has not commenced an eminent domain proceeding to acquire any particular parcel of property subject to eminent domain thereunder within three years after the date of adoption of the plan, the owner or owners of the entire fee at any time thereafter may offer in writing to sell the property to the agency for its fair market value. If the agency does not, within 18 months from the date of receipt of the original offer, acquire or institute eminent domain proceedings to acquire the property, the property owner or owners may file an action against the agency in inverse condemnation to recover damages from the agency for any interference with the possession and use of the real property resulting from the plan, provided that this section shall not be construed as establishing or creating a presumption to any right to damages or relief solely by reason of the failure of the agency to acquire the property within the time set forth in this section.

(b) No claim need be presented against a public entity under Part 3 (commencing with Section 900) of Division 3.6 of Title 1 of the Government Code as a prerequisite to commencement or maintenance of an action under subdivision (a), but any such action shall be commenced within one year and six months after the expiration of the 18 months period.

(c) A public entity may commence an eminent domain proceeding or designate the property to be exempt from eminent domain under the plan at any time before the property owner commences an action under this section. If the public entity commences an eminent domain proceeding or designates the property to be exempt from acquisition by eminent domain before the property owner commences an action under this section, the property owner may not thereafter bring an action under this section.

(d) After a property owner has commenced an action under this section, the public entity may declare the property to be exempt from acquisition by eminent domain and abandon the taking of the property only under the same circumstances and subject to the same conditions and consequences as abandonment of an eminent domain proceeding.

(e) Commencement of an action under this section does not affect any authority a public entity may have to commence an eminent domain proceeding, take possession of the property pursuant to Article 3 (commencing with Section 1255.410) of Chapter 6 of Title 7 of the Code of Civil Procedure, or abandon the eminent domain proceeding.

(f) In lieu of bringing an action under subdivision (a) or if the limitations period provided in subdivision (b) has run, the property owner may obtain a writ of mandate to compel the public entity, within such time as the court deems appropriate, to declare the property acquisition exempt or to commence an eminent domain

proceeding to acquire the property.

(g) A declaration that property is exempt from acquisition by eminent domain shall be by resolution and shall be recordable. It shall exempt the property from eminent domain under the redevelopment plan, and the redevelopment agency shall have no power of eminent domain as to the property unless the redevelopment plan is thereafter amended to expressly make the property subject to acquisition by eminent domain.

(h) With respect to redevelopment projects for which a final redevelopment plan has been adopted prior to January 1, 1977, the three-year period provided for in subdivision (a) shall begin as of January 1, 1977.

SEC. 11.5. Section 33401 of the Health and Safety Code is amended to read:

33401. The agency may in any year during which it owns property in a redevelopment project pay directly to any city, county, city and county, district, including, but not limited to, a school district, or other public corporation for whose benefit a tax would have been levied upon such property had it not been exempt, an amount of money in lieu of taxes.

A proportionate share of any amount of money paid by an agency to any city and county pursuant to this section shall be disbursed by the city and county to any school district with territory located within a redevelopment project area in the city and county. "Proportionate share," as used in this section, means the ratio of the school district tax rate, which is included in the total tax rate of the city and county, to the total tax rate of the city and county.

The agency may also pay to any taxing agency with territory located within a project area other than the community which has adopted the project, any amounts of money which in the agency's determination is appropriate to alleviate any financial burden or detriment caused to any taxing agency by a redevelopment project.

SEC. 12. Section 33433 of the Health and Safety Code is amended to read:

33433. Before any property of the agency acquired in whole or in part, directly or indirectly, with tax increment moneys is sold or leased for development pursuant to the redevelopment plan, such sale or lease shall first be approved by the legislative body after public hearing. Notice of the time and place of the hearing shall be published in a newspaper of general circulation in the community for at least two successive weeks prior to the hearing.

The agency shall make available for public inspection and copying at a cost not to exceed the cost of duplication:

(a) A copy of the proposed sale or lease;

(b) A summary which describes and specifies:

(1) The cost of the agreement to the agency, including land acquisition costs, clearance costs, relocation costs, the costs of any improvements to be provided by the agency, plus the expected interest on any loans or bonds to finance the agreements;

(2) The estimated value of the interest to be conveyed or leased, determined at the highest uses permitted under the plan; and

(3) The purchase price or sum of the lease payments which the lessor will be required to make during the term of the lease. If the sale price or total rental amount is less than the fair market value of the interest to be conveyed or leased, determined at the highest and best use consistent with the redevelopment plan, then the agency shall provide as part of the summary an explanation of the reasons for the difference.

Such report shall be made available to the public no later than the time of publication of the first notice of the hearing mandated by this section. The resolution approving such lease or sale shall be adopted by a majority vote unless the legislative body has provided by ordinance for a two-thirds vote for such purpose and shall contain findings that the consideration is not less than fair market value in accordance with covenants and conditions governing such sale or lease or, with respect to any sale or lease at less than estimated value, determined at the highest use permitted under the plan, that such lesser consideration is necessary to effectuate the purposes of the plan.

SEC. 13. Section 33445 of the Health and Safety Code is amended to read:

33445. Notwithstanding the provisions of Section 33440, an agency may, with the consent of the legislative body, pay all or part of the value of the land for and the cost of the installation and construction of any building, facility, structure, or other improvement which is publicly owned either within or without the project area, if the legislative body determines: (1) that such buildings, facilities, structures, or other improvements are of benefit to the project area or the immediate neighborhood in which the project is located, regardless of whether such improvement is within another project area, or in the case of a project area in which substantially all of the land is publicly owned that such improvement is of benefit to an adjacent project area of the agency, and (2) that no other reasonable means of financing such buildings, facilities structures, or other improvements, are available to the community. Such determinations by the agency and the local legislative body shall be final and conclusive. For redevelopment plans, and amendments to such plans which add territory to a project, adopted after October 1, 1976, acquisition of property and installation or construction of each facility shall be provided for in the redevelopment plan.

When the value of such land or the cost of the installation and construction of such building, facility, structure, or other improvement, or both, has been, or will be, paid or provided for initially by the community or other public corporation, the agency may enter into a contract with the community or other public corporation under which it agrees to reimburse the community or other public corporation for all or part of the value of such land or

03672 287365 702

all or part of the cost of such building, facility, structure, or other improvement, or both, by periodic payments over a period of years.

The obligation of the agency under such contract shall constitute an indebtedness of the agency for the purpose of carrying out the redevelopment project for such project area, which indebtedness may be made payable out of taxes levied in such project area and allocated to the agency under subdivision (b) of Section 33670, or out of any other available funds.

In a case where such land has been or will be acquired by, or the cost of the installation and construction of such building, facility, structure or other improvement has been paid by, a parking authority, joint powers entity, or other public corporation to provide a building, facility, structure, or other improvement which has been or will be leased to the community, such contract may be made with, and such reimbursement may be made payable to, the community.

With respect to the financing, acquisition, or construction of a transportation, collection, and distribution system and related peripheral parking facilities, in a county with a population of four million (4,000,000) persons or more, the agency shall, in order to exercise the powers granted by this section, enter into an agreement with the rapid transit district which includes such county, or a portion thereof, in which agreement such rapid transit district shall be given all of the following responsibilities:

(a) To participate with the other parties to the agreement to design, determine the location and extent of the necessary rights-of-way for, and construct, the transportation, collection, and distribution systems and related peripheral parking structures and facilities.

(b) To operate and maintain such transportation, collection, and distribution systems and related peripheral parking structures and facilities in accordance with the rapid transit district's outstanding agreements and the agreement required by this paragraph.

CHAPTER 1337

An act to amend Sections 33327 and 33352 of, and to add Sections 33328, 33328.3, 33328.4, 33333.2, 33334.1, 33334.2, 33334.3, 33353, 33353.1, 33353.2, 33353.4, 33353.5, 33353.6, 33354.4, 33354.5, 33354.6, 33421.1, and 33675 to, and to repeal Section 33333.5 of, the Health and Safety Code, relating to redevelopment.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 33327 of the Health and Safety Code is amended to read:

33327. After receipt of any preliminary redevelopment plan pursuant to Section 33325, the agency shall transmit to the auditor and tax collector of the county in which the proposed project is located, or to the officer or officers performing the functions of the auditor or assessor for any taxing agencies which, in levying or collecting its taxes, do not use the county assessment roll or do not collect its taxes through the county, to the legislative or governing bodies of such taxing agencies, and to the State Board of Equalization:

(1) A description of the boundaries of the project area and the property outside the project area specified in subdivision (g) of Section 33328.

(2) A statement that a plan for the redevelopment of the area is being prepared.

(3) A map indicating the boundaries of the project area and the property outside the project area specified in subdivision (g) of Section 33328.

Thereafter, if the boundaries of the proposed project are changed to increase the land within the project area, the agency shall notify such taxing officials and the State Board of Equalization by transmitting a description and map indicating each such boundary change made. The State Board of Equalization shall prescribe the format of the description of boundaries and statements, and the form, size, contents, and number of copies of the map required to be transmitted pursuant to this section.

SEC. 2. Section 33328 is added to the Health and Safety Code, to read:

33328. When it transmits the map of the project area to the county officials, taxing agencies, and the State Board of Equalization pursuant to Section 33327, the redevelopment agency shall also advise such officials and agencies of the last equalized assessment roll it proposes to use for the allocation of taxes pursuant to Section 33670. That roll shall be known and referred to as the base year assessment roll. The county officials charged with the responsibility of allocating taxes under Section 33670 shall prepare and deliver to the redevelopment agency and each of the taxing agencies, a report which shall include the following:

(a) The total assessed valuation of all taxable property within the project area as shown on the base year assessment roll.

(b) The identifications of each taxing agency levying taxes in the project area.

(c) The amount of tax revenue to be derived by each taxing agency from the base year assessment roll from the project area, including state subventions for homeowners, business inventory, and similar such subventions.

(d) For each taxing agency, its total ad valorem tax revenues from all property within its boundaries, whether inside or outside the project area.

(e) The estimated first year taxes available to the redevelopment agency, if any, based upon information submitted by the redevelopment agency, broken down by taxing agencies.

(f) The assessed valuation of the project area, by block, for the preceding five years, except for state assessed property on the board roll.

(g) The total assessed valuation of all taxable property outside of the project area which is within 300 feet from the boundaries of the project area as shown on the base year assessment roll. For the purposes of this section "property within 300 feet" means and includes all of any parcel of property and any taxable property situated thereon, up to the boundaries of such parcel, when any part of the parcel is within 300 feet of the boundaries of the project area. The report, when received by the redevelopment agency, shall be included in the report required by Section 33352.

For public utilities, the reporting requirements of this section for the area that is within 300 feet of the boundaries of the project area may be met by providing the total assessed value of all land and improvements. The report, when received by the redevelopment agency, shall be included in the report required by Section 33352.

The report shall be prepared and delivered to the redevelopment agency and each of the taxing agencies within 90 days of the date of filing by the redevelopment agency with the State Board of Equalization or as otherwise agreed upon by the agency and the State Board of Equalization. If the proposed base year assessment roll has not yet been equalized at the time of the receipt of such advice, then the report shall be prepared and delivered within 90 days, or other period, otherwise agreed upon, by the agency and the State Board of Equalization, from the date set forth in Section 2050 of the Revenue and Taxation Code.

If the filing does not comply with the requirements of Section 33327, the State Board of Equalization or the official of the taxing agency entitled to receive such documents shall notify the filing agency within 10 days, stating the manner in which the filing of documents does not comply with this section. If no such notice is given it shall be conclusively presumed that the agency has complied with the provisions of this section.

If such report is not received within the time prescribed by this section, the redevelopment agency may proceed with the adoption of the redevelopment plan. The county officials may transmit a partial report, and any final report or additional information, if received by the agency prior to the close of the public hearing on the redevelopment plan shall become part of the record of the public hearing.

The State Board of Equalization and officials of all taxing agencies shall provide the county officials preparing the report with all information necessary for its preparation. All data and information upon which said report is based shall be available to the agency to

the extent permitted by law.

Prior to the publication of notice of the legislative body's public hearing on the plan, the agency shall consult with each taxing agency which levies taxes, or for which taxes are levied, on property in the project area with respect to the plan and to the allocation of taxes pursuant to Section 33670.

SEC. 3. Section 33328.3 is added to the Health and Safety Code, to read:

33328.3. If the boundaries of the project area are changed, the redevelopment agency shall notify the county officials by transmitting to them, the legislative or governing bodies of the taxing agencies, and to the State Board of Equalization, the information required by Section 33327 indicating the areas to be added. Within 90 days from the date of filing or such a period as otherwise agreed to by the agency and the State Board of Equalization, the county officials shall prepare and submit to the redevelopment agency and the taxing agencies a report containing the information required under Section 33328, with respect to such areas to be added to the project area.

If a filing does not comply with the requirements of this section, the State Board of Equalization or the official of the taxing agency entitled to receive such documents shall notify the filing agency within 10 days, stating the manner in which the filing of documents does not comply with this section. If no such notice is given it shall be conclusively presumed that the agency has complied with the provisions of this section.

If the change of boundaries does not exceed the area specified in subdivision (g) of Section 33328, the report under this section shall not be required.

SEC. 3.5. Section 33328.4 is added to the Health and Safety Code, to read:

33328.4. The State Board of Equalization shall establish a schedule of fees for filing and processing the statements and maps which are required to be filed with the State Board of Equalization pursuant to Section 33327 or or 33328.3. Such schedule shall not include any fee which exceeds the reasonably anticipated cost to the State Board of Equalization of performing the work to which the fee relates. The agency forwarding the statement and map pursuant to Section 33327 or 33328.3 shall accompany the statement and map with the necessary fee.

SEC. 4. Section 33333.2 is added to the Health and Safety Code, to read:

33333.2. A redevelopment plan containing the provisions set forth in Section 33670 shall also contain:

(1) A limitation on the number of dollars of taxes which may be divided and allocated to the redevelopment agency pursuant thereto. Taxes shall not be divided and shall not be allocated to the redevelopment agency beyond such limitation, except by amendment of the redevelopment plan.

(2) A time limit on the establishing of loans, advances, and indebtedness to finance in whole or in part the redevelopment project. Such loans, advances, or indebtedness may be repaid over a period of time longer than such time limit. No loans, advances, or indebtedness to be repaid from such allocation of taxes shall be established or incurred by the agency beyond such time limitation. Such time limitation may be extended only by amendment of the redevelopment plan.

(3) A time limit, not to exceed 12 years, for commencement of eminent domain proceedings to acquire property within the project area. Such time limitation may be extended only by amendment of the redevelopment plan.

This section shall apply only to redevelopment projects for which a final redevelopment plan is adopted pursuant to Article 5 (commencing with Section 33360) of this chapter on or after October 1, 1976.

SEC. 5. Section 33333.5 of the Health and Safety Code is repealed.

SEC. 6. Section 33334.1 is added to the Health and Safety Code, to read:

33334.1. If the plan authorizes the issuance of bonds to be repaid in whole or in part from the allocation of taxes pursuant to Section 33670, the plan shall establish a limit on the amount of bonded indebtedness which can be outstanding at one time without an amendment of the plan. This section shall apply only to redevelopment plans adopted on or after October 1, 1976.

SEC. 7. Section 33334.2 is added to the Health and Safety Code, to read:

33334.2. Not less than 20 percent of all taxes which are allocated to the agency pursuant to Section 33670 shall be used by the agency for the purposes of increasing and improving the community's supply of housing for persons and families of low or moderate income, as defined in Section 41056, and very low income households, as defined in Section 41067, unless one of the following findings are made:

(a) That no need exists in the community, the provision of which would benefit the project area to improve or increase the supply of housing for persons and families of low or moderate income or very low income households; or

(b) That some stated percentage less than 20 percent of the taxes which are allocated to the agency pursuant to Section 33670 is sufficient to meet such housing need; or

(c) That a substantial effort to meet low- and moderate-income housing needs in the community is being made, and that this effort, including the obligation of funds currently available for the benefit of the community from state, local, and federal sources for low- and moderate-income housing alone or in combination with the taxes allocated under this section, is equivalent in impact to the funds otherwise required to be set aside pursuant to this section. The

legislative body shall consider the need that can be reasonably foreseen because of displacement of persons and families of low or moderate income or very low income households from within or adjacent to the project area, because of increased employment opportunities, or because of any other direct or indirect result of implementation of the redevelopment plan.

In any litigation to challenge or attack a finding made under subdivision (a), (b), or (c), the burden shall be upon the agency to establish that the finding is supported by substantial evidence in light of the entire record before the agency.

Nothing in this section shall be construed as relieving any other public entity or entity with the power of eminent domain of any legal obligations for replacement or relocation housing arising out of its activities.

In carrying out the purpose of this section, the agency may exercise any or all of its powers, including the following:

(a) Acquire land or building sites.

(b) Improve land or building sites with onsite or offsite improvements.

(c) Donate land to private or public persons or entities.

(d) Construct buildings or structures.

(e) Acquire buildings or structures.

(f) Rehabilitate buildings or structures.

(g) Provide subsidies to or for the benefit of persons or families of very low, low, or moderate income.

(h) Develop plans, pay principal and interest on bonds, loans, advances or other indebtedness, or pay financing or carrying charges.

The agency may use these funds to meet, in whole or in part, the replacement housing provisions in Section 33413. However, nothing in this section shall be construed as limiting in any way the requirements of that section.

The agency may use these funds inside or outside the project area. The agency may only use these funds outside the project area upon a resolution of the agency and the legislative body that such use will be of benefit to the project. Such determination by the agency and the legislative body shall be final and conclusive as to the issue of benefit to the project area. The Legislature finds and declares that the provision of replacement housing pursuant to Section 33413 is always of benefit to a project. Unless the legislative body finds before the redevelopment plan is adopted, that the provision of low- and moderate-income housing outside the project area will be of benefit to the project, the project area shall include property suitable for low- and moderate-income housing.

The Legislature finds and declares that expenditures or obligations incurred by the agency pursuant to this section shall constitute an indebtedness of the project.

The requirements of this section shall only apply to taxes allocated to a redevelopment agency for which a final redevelopment plan is

adopted on or after the effective date of this section, or for any area which is added to a project by an amendment to a redevelopment plan, which amendment is adopted on or after the effective date of this section. An agency may, by resolution, elect to make all or part of the requirements of this section applicable to any redevelopment project for which a redevelopment plan was adopted prior to the effective date of this section, subject to any indebtedness incurred prior to such election.

SEC. 8. Section 33334.3 is added to the Health and Safety Code, to read:

33334.3. The funds which are required by Section 33334.2 to be used for the purposes of increasing the community's supply of housing for persons and families of low or moderate income shall be held in a separate Low and Moderate Income Housing Fund until used.

Any interest earned by the Low and Moderate Income Housing Fund shall accrue to the fund and may only be used in the manner prescribed in Section 33334.2.

SEC. 9. Section 33352 of the Health and Safety Code is amended to read:

33352. Every redevelopment plan submitted by the agency to the legislative body shall be accompanied by a report containing:

(a) The reasons for the selection of the project area.

(b) A description of the physical, social, and economic conditions existing in the area.

(c) The proposed method of financing the redevelopment of the project area in sufficient detail so that the legislative body may determine the economic feasibility of the plan.

(d) A method or plan for the relocation of families and persons to be temporarily or permanently displaced from housing facilities in the project area, which method or plan shall include the provision required by Section 33411.1 that no persons or families of low and moderate income shall be displaced unless and until there is a suitable housing unit available and ready for occupancy by such displaced person or family at rents comparable to those at the time of their displacement.

(e) An analysis of the preliminary plan.

(f) The report and recommendations of the planning commission.

(g) The summary referred to in Section 33387.

(h) The report required by Section 65402 of the Government Code.

(i) The report required by Section 21151 of the Public Resources Code.

(j) The report of the county fiscal officer as required by Section 33328.

(k) The report of the fiscal review committee, if any.

(*l*) If the project area contains low- or moderate-income housing, a neighborhood impact report which describes in detail the impact of the project upon the residents of the project area and the

surrounding areas, in terms of relocation, traffic circulation, environmental quality, availability of community facilities and services, effect on school population and quality of education, property assessments and taxes, and other matters affecting the physical and social quality of the neighborhood.

(m) An analysis by the agency of the report submitted by the county as required by Section 33328, which shall include a summary of the consultation of the agency, or attempts to consult by the agency, with each of the taxing agencies as required by Section 33328.

SEC. 10. Section 33353 is added to the Health and Safety Code, to read:

33353. In connection with the preparation of the report under Section 33328 for a redevelopment plan utilizing tax increment financing, the county or any affected taxing entity may call for the creation of a fiscal review committee, within 15 days after receipt of documents from the agency under Section 33327, to assist in the preparation of the report.

SEC. 11. Section 33353.1 is added to the Health and Safety Code, to read:

33353.1. The fiscal review committee for a redevelopment plan shall be composed of one representative from each of the affected taxing entities. The representative of the county shall chair the committee.

SEC. 12. Section 33353.2 is added to the Health and Safety Code, to read:

33353.2. "Affected taxing entity" means any governmental taxing agency which levied a property tax on all or any portion of the property located in the proposed project area in the fiscal year prior to submission of the plan to the committee.

SEC. 14. Section 33353.4 is added to the Health and Safety Code, to read:

33353.4. In the event a fiscal review committee is created pursuant to Section 33353, the redevelopment agency shall send the redevelopment plan to the representative of the county, designated by the county. If the county has not designated a representative, the agency shall send the plan to the chief administrative officer. The county representative or the chief administrative officer shall convene the fiscal review committee with all due dispatch, and set a hearing date not less than 30 and not more than 54 days from the transmission of the plan by the agency to the county representative or county assessor.

SEC. 15. Section 33353.5 is added to the Health and Safety Code, to read:

33353.5. In the event a fiscal review committee is created pursuant to Section 33353, at the conclusion of the hearing, the fiscal review committee shall report to the agency on the fiscal impact of the redevelopment plan or the amendment to the redevelopment plan on each of the members of the fiscal review committee.

The fiscal review committee may suggest amendments to the plan,

03674 287495 728

the adoption of which would alleviate or eliminate any fiscal effects which may be detrimental to the affected taxing entities.

SEC. 16. Section 33353.6 is added to the Health and Safety Code, to read:

33353.6. A copy of the report of the fiscal review committee referred to in Section 33353.5 shall be forwarded to the Director of Housing and Community Development.

SEC. 18. Section 33354.4 is added to the Health and Safety Code, to read:

33354.4. No plan is required to be submitted to a fiscal review committee where all the affected taxing jurisdictions are governed by the same legislative body as the redevelopment agency.

SEC. 19. Section 33354.5 is added to the Health and Safety Code, to read:

33354.5. Where an agency proposes to amend a redevelopment plan which does not utilize tax increment financing to include a tax allocation provision, the agency shall follow the same procedure and the legislative body is subject to the same restrictions as provided for in this article for the adoption of a plan.

SEC. 20. Section 33354.6 is added to the Health and Safety Code, to read:

33354.6. Where an agency proposes to amend a redevelopment plan which utilizes tax increment financing to add a significant amount of new territory to the project area, the agency must follow the same procedure, and the legislative body is subject to the same restrictions as provided for in this article for the adoption of a plan.

SEC. 21. Section 33421.1 is added to the Health and Safety Code, to read:

33421.1. Without the prior consent of the legislative body, the agency may not use its authority under Section 33421 to develop a site for industrial or commercial use so as to provide streets, sidewalks, utilities, or other improvements which an owner or operator of the site would otherwise be obliged to provide.

In giving consent, the legislative body shall make a finding that the provision of such improvements is necessary to effectuate the purposes of the redevelopment plan.

SEC. 22. Section 33675 is added to the Health and Safety Code, to read:

33675. (a) The portion of taxes required to be allocated pursuant to subdivision (b) of Section 33670 shall be allocated and paid to the agency by the county auditor or officer responsible for the payment of taxes into the funds of the respective taxing agencies pursuant to the procedure contained in this section.

(b) Not later than the first day of October of each year, the agency shall file with the county auditor or officer described in subdivision (a) of this section, a statement of indebtedness certified to by the chief fiscal officer of the agency for each redevelopment project, the redevelopment plan for which provides for the division of taxes pursuant to Section 33670.

(c) The statement of indebtedness shall contain for each such redevelopment project:

(1) The date on which each loan, advance, or indebtedness was incurred or entered into.

(2) The principal amount term, purpose, and interest rate, of each loan, advance, or indebtedness.

(3) The outstanding balance and amount due or to be paid by the agency of each loan, advance, or indebtedness. The State Board of Equalization shall adopt a uniform form of statement of indebtedness.

(d) The county auditor or officer shall at the same time or times as the payment of taxes into the funds of the respective taxing agencies of the county, allocate and pay the portion of taxes provided by subdivision (b) of Section 33670 to each agency in an amount not to exceed the amount as shown on the agency's statement of indebtedness.

(e) The statement of indebtedness shall be prima facie evidence of the indebtedness of the agency. If the county auditor or other officer disputes the amount of indebtedness as shown in the statement of indebtedness, the county auditor or other officer shall, within 30 days after receipt of the statement, give written notice to the agency thereof. The agency shall, within 30 days after receipt of such notice, submit such further information as it deems appropriate to substantiate the amount of any indebtedness which has been disputed. If the county auditor or other officer still disputes the amount of indebtedness, final written notice thereof shall be given to the agency and the amount disputed may be withheld from allocation and payment to the agency as provided in subdivision (c) of this section. In such event, the auditor or other officer shall bring an action in the superior court in declaratory relief to determine the matter not later than 90 days after the date of the final notice. The issue in any such action shall involve only the amount of indebtedness, and not the validity of any contract or debt instrument or any expenditures pursuant thereto. Payments to a trustee under a bond resolution or indenture of any kind or payments to a public agency in connection with payments by such public agency pursuant to a lease or bond issue shall not be disputed in any action under this section. Any such action shall be set for trial at the earliest possible date and shall take precedence of all other cases except older matters of the same character. Unless an action is brought within the time provided for herein, the auditor or other officer shall allocate and pay the amount shown on the statement of indebtedness as provided in subdivision (d) of this section.

(f) Nothing in this section shall be construed to permit a challenge to or attack on matters precluded from challenge or attack by reason of Sections 33500 and 33501; provided that nothing in this section shall be construed to deny a remedy against the agency otherwise provided by law.

SEC. 23. No appropriation is made by this act, nor is any

obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

CHAPTER 1338

An act to add Section 33675 to, and to add Article 13 (commencing with Section 33460) to Chapter 4 of Part 1 of Division 24 of, the Health and Safety Code, relating to community redevelopment and housing.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Article 13 (commencing with Section 33460) is added to Chapter 4 of Part 1 of Division 24 of the Health and Safety Code, to read:

Article 13. Merger of Redevelopment Project Areas

33460. For the purpose of allocating taxes pursuant to Section 33670 and subject to the provisions of this article, redevelopment project areas under the jurisdiction of the redevelopment agency of the City of Sacramento, for which redevelopment plans have been adopted pursuant to Article 5 (commencing with Section 33360) of this chapter, may be merged, irrespective of contiguity, by the amendment of each affected redevelopment plan as provided in Article 12 (commencing with Section 33450) of this chapter. Each constituent project area so merged shall continue under its own redevelopment plan, but, except as otherwise provided in this article, taxes attributable to each project area merged pursuant to this section which are allocated to the redevelopment agency pursuant to Section 33670 may be allocated, as provided in subdivision (b) of such section, to the entire merged project area for the purpose of paying the principal of and interest on loans, moneys advanced to, or indebtedness (whether funded, refunded, assumed, or otherwise) incurred by the redevelopment agency to finance or refinance, in whole or in part, such merged redevelopment project.

33461. If the redevelopment agency has prior to merger of redevelopment project areas pursuant to this article incurred any indebtedness on account of a constituent project area so merged, taxes attributable to such area which are allocated to the agency pursuant to Section 33670 shall be first used to comply with the terms of any bond resolution or other agreement pledging such taxes from

such constituent project area.

33462. Subject to the provisions of Section 33461, where a redevelopment project area merged pursuant to this article contains a constituent project area which is a neighborhood project area, as defined in this section, tax revenues attributable to such neighborhood project area may be expended only in neighborhood project areas within the merged redevelopment project area.

For the purposes of this article, "neighborhood project area" means an individual project area merged with other project areas pursuant to this article, and (1) for which the redevelopment plan designates not less than 20 percent of the land area suitable for development in low- or moderate-income housing, or (2) which was designated as a neighborhood development project area by the United States Department of Housing and Urban Development pursuant to Public Law 90-448, without regard to whether such area continues to receive subvention under Public Law 90-448.

33463. Nothing in Section 33462 shall be construed to limit any authority a redevelopment agency may have to provide housing under Section 33449 anywhere within its jurisdiction.

33464. (a) Subject to the terms of any loans, advances, or other indebtedness secured by a pledge of tax revenues from a constituent project area pursuant to Section 33671 and incurred by the redevelopment agency prior to the merger of project areas pursuant to Section 33460, not less than 50 percent of all taxes allocated to the agency pursuant to Section 33670 for the project areas merged pursuant to this article shall be deposited in a special fund of the agency and be used solely to meet the obligations of the agency under subdivision (b), until such time as sufficient moneys have been deposited in the fund to satisfy such obligations.

(b) The agency shall rehabilitate, develop, construct, or cause to be rehabilitated, developed, or constructed for rental or sale to persons and families of low or moderate income, as defined in Section 41056, residential dwelling units equal in number to those destroyed or removed as part of the redevelopment of all areas within the merged redevelopment project area. The obligation of the agency to replace residential dwelling units removed or destroyed shall apply to all residential dwelling units removed or destroyed by the agency within the merged project areas, whether such removal or destruction occurs prior or subsequent to the merger of project areas. Not less than one-half of all moneys required by this section for such purposes shall be used to acquire land, donate land, or improve sites for housing for, or to construct or rehabilitate structures as housing for, or to provide housing subsidies for, very low income households, as defined in Section 41067. The obligation of the agency under this subdivision shall be in addition to any housing units which the agency may choose to construct or substantially rehabilitate with federal or state financial assistance. However, the agency may use federal or state rental subsidy programs to make the units provided pursuant to this section available to very low income

households, as defined by Section 41067.

33464.5. For the purpose of implementing the provisions of this article, the legislative body may delegate to the redevelopment agency any or all of the powers of a community development commission specified in Part 1.7 (commencing with Section 34100) of this division.

33465. The redevelopment plan for a project area which is merged pursuant to Section 33460 shall be amended in the same manner as other redevelopment plans are amended. Notice of the public hearing shall be mailed to the last known assessee of each parcel of land not owned by the agency within the boundaries of the project area described in the redevelopment plan being amended. Notice of the public hearing need not be mailed to assessees of parcels of land within the boundaries of other project areas combined into a merged project area pursuant to Section 33460 except that notice of the public hearing shall be given to the project area committee for each project area which is part of the merged project area.

33466. This article shall be applicable only to redevelopment projects of the redevelopment agency of the City of Sacramento for which a final redevelopment plan was adopted by ordinance on or before June 30, 1976.

The Legislature finds and declares that conditions unique to the financing of redevelopment in the City of Sacramento require the granting of authority to merge project areas for purposes of tax-increment financing. These conditions result from the need to replace housing for low- and moderate-income persons. This need results from the substantial reduction of the housing stock for low- and moderate-income persons caused by redevelopment activities undertaken in the City of Sacramento, together with activities undertaken by the State of California in implementing the Capitol Area Plan. The Legislature finds that in order to enable the construction and rehabilitation of badly needed housing for persons and families of low or moderate income in the City of Sacramento, it is necessary that project areas within the City of Sacramento be merged with other noncontiguous project areas within the City of Sacramento for purposes of tax-increment financing.

SEC. 2. Section 33675 is added to the Health and Safety Code, to read:

33675. The amount of taxes allocated to the redevelopment agency pursuant to Section 33670 shall be separately computed for each constituent project area merged into a single project area pursuant to Section 33460, and for the original project area and each separate addition of land to the project area made by amendment of the redevelopment plan pursuant to Section 33450. The section is declaratory of existing law with respect to amendments to redevelopment plans.

CHAPTER 1339

An act to amend Section 41056 of, to add Sections 33334.5 and 33413.5 to, and to add Part 6 (commencing with Section 36000) and Part 8 (commencing with Section 37000) to Division 24 of, the Health and Safety Code, relating to redevelopment and housing.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 33334.5 is added to the Health and Safety Code, to read:

33334.5. Every redevelopment plan adopted or amended to expand the project area after the effective date of this section shall contain a provision that whenever dwelling units housing persons and families of low or moderate income are destroyed or removed from the low- and moderate-income housing market as part of a redevelopment project, the agency shall, within four years of such destruction or removal, rehabilitate, develop, or construct, or cause to be rehabilitated, developed, or constructed, for rental or sale to persons and families of low or moderate income an equal number of replacement dwelling units at affordable rents within the project area or within the territorial jurisdiction of the agency, in accordance with all of the provisions of Sections 33413 and 33413.5.

SEC. 2. Section 33413.5 is added to the Health and Safety Code, to read:

33413.5. Prior to the execution of an agreement for acquisition of real property, or the execution of an agreement for the disposition and development of property, or the execution of an owner participation agreement, which agreement would lead to the destruction or removal of dwelling units from the low- and moderate-income housing market, the agency shall adopt by resolution a replacement housing plan. The replacement housing plan shall include (1) the general location of housing to be rehabilitated, developed, or constructed pursuant to Section 33413, (2) an adequate means of financing such rehabilitation, development, or construction, and (3) a finding that the replacement housing does not require the approval of the voters pursuant to Article XXXIV of the California Constitution, or that such approval has been obtained. A dwelling unit whose replacement is required by Section 33413 but for which no replacement housing plan has been prepared, shall not be destroyed or removed from the low- and moderate-income housing market until the agency has by resolution adopted a replacement housing plan.

Nothing in this section shall prevent an agency from destroying or removing from the low- and moderate-income housing market a

04473 287620 753

dwelling unit which the agency owns and which is an immediate danger to health and safety. The agency shall, as soon as practicable, adopt by resolution a replacement housing plan with respect to such dwelling unit.

SEC. 2.5. Part 6 (commencing with Section 36000) is added to Division 24 of the Health and Safety Code, to read:

PART 6. VALIDATION PROCEDURES

36000. The Legislature finds and declares that new forms of cooperation with the private sector, such as leased housing, disposition of real property acquired through redevelopment, rehabilitation assistance, replacement housing, development approvals, property tax exemptions, and relocation assistance may involve close participation with the private sector in meeting housing needs, without amounting to the development, construction, or acquisition of low-rent housing projects as contemplated in Article XXXIV of the State Constitution.

36001. The Legislature further finds that certainty as to the validity of actions previously taken by state public bodies, as well as the actions to be taken in the future, requires the validation of actions previously taken and the establishment of means for determining the validity of those actions to be taken in the future.

36002. When used in this part:

(a) "Local public entity" means any county, city, city and county, the duly constituted governing body of an Indian reservation or rancheria, redevelopment agency organized pursuant to Part 1 (commencing with Section 33000) of this division, or housing authority organized pursuant to Part 2 (commencing with Section 34200) of this division, which is authorized to engage in or assist in the development or operation of housing for persons and families of low or moderate income. "Local public entity" also includes two or more local public entities acting jointly.

(b) "Persons of low income" means persons and families who lack the amount of income which is necessary (as determined by the local public entity) to enable them, without financial assistance, to live in decent, safe and sanitary dwellings without overcrowding.

(c) "State public body" has the same meaning as defined in Article XXXIV of the State Constitution.

36003. An action may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of the action of a local public entity in giving preliminary or final approval to a proposal or application which may result in housing assistance benefiting persons of low income without obtaining prior referendum approval pursuant to Article XXXIV of the State Constitution.

36004. No action attacking or otherwise questioning a contract of financial assistance for, or the acquisition, construction or development of, a low-rent housing project for which final approval

or a legally binding commitment was given by the governing body of a state public body or local public entity prior to August 20, 1976, may be brought on the grounds of failure to obtain referendum approval pursuant to Article XXXIV of the State Constitution, except as to low-rent housing projects owned in fee by local housing authorities pursuant to the Housing Authorities Law, Chapter 1 (commencing with Section 34200) of Part 2, and farm labor centers developed after January 14, 1972, pursuant to the Farm Labor Centers Law, Part 7 (commencing with Section 36050) of this division.

36005. No judicial action attacking or otherwise questioning the validity of the action of a local public entity in giving final approval to a proposal or application which may result in housing assistance benefiting persons of low income without obtaining prior approval pursuant to Article XXXIV of the State Constitution shall be brought prior to the adoption of a resolution or ordinance by the legislative body of the local public entity approving the proposal or application, nor may any such action be brought at any time after 60 days from the date of adoption of the ordinance or resolution approving the proposal.

SEC. 3. Part 8 (commencing with Section 37000) is added to Division 24 of the Health and Safety Code, to read:

PART 8. PUBLIC HOUSING ELECTION IMPLEMENTATION LAW

37000. The Legislature finds and declares that Article XXXIV of the State Constitution was approved by the voters for the purpose of providing a mechanism for expressing community concern regarding the development, acquisition, or construction of federally subsidized conventional public housing projects. Such developments typically were different from and inconsistent with housing developments provided by the private sector. Such differences included architecture, design, and locational standards as well as the level of amenities provided. Such developments were occupied entirely by persons of low income, and usually were not subject to ad valorem property taxes.

The Legislature finds and declares that new forms of housing assistance can provide housing for persons of low income in a manner consistent with and supportive of optimum community improvement. Such forms of housing assistance may allow for mixed income occupancy in developments representative of and competitive with similar market rate developments provided by the private sector. Such mixed income developments are frequently comparable to market rate projects in terms of architecture, design, and locational standards as well as the level of amenities provided, and may be subject to ad valorem property taxes.

Recognizing that new forms of housing assistance provide new approaches for housing persons of low income, it is the intent of the

Legislature in enacting Section 37001 to clarify ambiguities relating to the scope of the applicability of Article XXXIV which now exist. Therefore, and pursuant to Section 2 of Article XXXIV, this part is enacted in order to facilitate the operation of Article XXXIV and is consistent with the provisions of that article.

The terms "state public body" and "persons of low income" as used in this part have the same meaning as in Article XXXIV.

37001. The term "low-rent housing project" as defined in Section 1 of Article XXXIV of the State Constitution, does not apply to any development composed of urban or rural dwellings, apartments, or other living accommodations, which meets either of the following criteria:

(a) (1) The development is privately owned housing, receiving no ad valorem property tax exemption not fully reimbursed to all taxing entities; and (2) not more than 49 percent of the dwellings, apartments, or other living accommodations of such development may be occupied by persons of low income; or

(b) The development is privately owned housing, is not exempt from ad valorem taxation by reason of any public ownership, and is not financed with direct long-term public lending.

37002. If any provision of this part or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the part which can be given effect without the invalid provision or application, and to this end the provisions of this part are severable.

SEC. 4. Section 41056 of the Health and Safety Code is amended to read:

41056. "Persons and families of low or moderate income" means persons and families whose income does not exceed 120 percent of area median income. However, the agency and the department jointly, or either acting with the concurrence of the Secretary of the Business and Transportation Agency, may permit higher income limitations in designated geographic areas of the state, upon a determination that 120 percent of the median income in the particular geographic area is too low to qualify a substantial number of persons and families of low or moderate income who can afford rental or home purchase of housing financed pursuant to Part 3 (commencing with Section 41300) without subsidy.

"Persons and families of low or moderate income" includes very low income households, as defined in Section 41067, and includes persons of low income, persons and families of moderate income, and middle-income families. As used in this division:

(a) "Persons of low income" means persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of housing financed pursuant to this division.

(b) "Persons and families of moderate income" or "middle-income families" means persons and families of low or moderate income whose income exceeds 80 percent of the area

median income.

As used in this section, "area median income" means the median household income of a geographic area of the state, as adjusted for family size, as determined by the agency. Nothing in this section shall prevent the agency from adopting federal estimates of area median income, or federal formulas for adjustment of area median income for family size in determining area median income.

An act to add Section 12403.7 to the Penal Code, relating to tear gas.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 12403.7 is added to the Penal Code, to read:

12403.7. (a) Notwithstanding any other provision of law, any person may purchase, possess or use tear gas and tear gas weapons for the projection or release of tear gas if such tear gas and tear gas weapons are approved by the Department of Justice and are used solely for self-defense purposes, subject to the following requirements:

(2) No person shall sell or furnish any tear gas or tear gas weapon to a minor.

(3) (i) No person shall purchase, possess or use any tear gas weapon which expels a projectile, or which expels the tear gas by any method other than an aerosol spray, or which is of a type, or size of container, other than authorized by regulation of the Department of Justice.

(ii) The department, with the cooperation of the State Department of Health, shall develop standards and promulgate regulations regarding the type of tear gas and tear gas weapons which may lawfully be purchased, possessed, and used pursuant to this section.

(iii) The regulations of the department shall include a requirement that every mace container and tear gas weapon which may be lawfully purchased, possessed, and used pursuant to this section have a label affixed which states: "WARNING: The use of this substance or device for any purpose other than self-defense is a felony under California law. The contents are dangerous—use with care."

(4) (i) No person shall purchase, possess or use any tear gas or any tear gas weapon who has not completed a course certified by the

(ii) The Department of Justice, in cooperation with the Commission on Peace Officer Standards and Training, shall develop standards for a course in the use of tear gas and tear gas weapons.

(5) No person shall purchase, possess or use any tear gas or tear gas weapon if such person has not been issued a permit by the police chief or sheriff having jurisdiction over the person's place of legal residence. The police chief or sheriff shall issue a permit to any person who has completed the course of training specified in paragraph (4), who is not a minor, and who has not been convicted of a felony. (ii) The department, with the cooperation of the State Department of Health, shall develop standards and promulgate regulations regarding the type of tear gas and tear gas weapons which may lawfully be purchased, possessed, and used pursuant to this section.

(iii) The regulations of the department shall include a requirement that every mace container and tear gas weapon which may be lawfully purchased, possessed, and used pursuant to this section have a label which states: "WARNING: The use of this substance or device for any purpose other than self-defense is a felony under California law. SEC. 13. Section 41333 of the Health and Safety Code is amended to read:

41333. No provision of this division shall be construed as a restriction or limitation upon any powers which the agency or any local public entity might otherwise have under any laws of this state, and this part is cumulative with respect to any such powers. This division shall be deemed to provide a complete, additional, and alternative method for doing the things authorized thereby, and shall be regarded as supplemental and additional to powers conferred by other laws. The issuance of bonds and refunding bonds under the provisions of this part need not comply with the requirements of any other law applicable to the issuance of bonds; and in the construction or acquisition of a housing development or a residential structure pursuant to the provisions of this division, the agency need not comply with the requirements of any other law applicable to construction or acquisition of public works, except as specifically provided in this division. The agency shall adopt regulations for review of construction contracts for the construction or rehabilitation of housing financed under this division. The agency shall require that on construction financed by a construction loan from the agency, other than mutual self-help housing developments, all workmen employed in such construction, exclusive of maintenance work, shall be paid not less than the general prevailing rate or per diem wages for work of a similar character in the locality in which the construction is performed, and not less than the prevailing rate of per diem wages for holiday and overtime work. The agency shall determine or require determination of the general prevailing rate of per diem wages in accordance with the standards set forth in Section 1773 of the Labor Code. Apprentices shall be employed in the construction of housing developments in accordance with the regulations of the agency, which shall impose the same requirements as contained in Section 1777.5 of the Labor Code, except as to differences necessitated by the methods of awarding construction contracts for housing developments financed under this division.

SEC. 14. Section 41334 of the Health and Safety Code is amended to read:

41334. The exercise of the powers specified in this division will be in all respects for the benefit of the people of the state, for their well-being and prosperity, and for the improvement of their social and economic conditions, and the agency shall not be required to pay any tax or assessment on any property owned by the agency under the provisions of this division or upon the income therefrom, other than real property taxes or assessments on a housing development

owned by the agency. Any bonds issued by the agency under the provisions of this division, their transfer, and the income therefrom shall at all times be free from taxation by the state or any political subdivision or other instrumentality of the state, excepting inheritance and gift taxes.

SEC. 15. Section 41339 of the Health and Safety Code is amended to read:

41339. This division is intended to benefit purchasers and residents of housing developments who are persons and families of low and moderate income and shall be liberally construed to allow such persons to initiate civil actions and to enforce rights, duties and benefits under this division and regulations adopted pursuant to this division; provided however, this section shall not limit, modify or restrict the standing of other persons to initiate civil actions by reason of the action or inaction of the agency, department or commission; and provided further that this section shall not authorize any action contesting or affecting the validity or enforceability of any bonds or insurance issued under this division or of any of the proceedings of, or actions taken by, the agency relative to such bonds or insurance.

SEC. 16. Section 41360 of the Health and Safety Code is amended to read:

41360. The California Housing Finance Fund is hereby created in the State Treasury.

Construction loan funds may be transferred to the construction lender or to the contractor as necessary to meet draws for progress payments pursuant to rules and regulations of the agency.

All money in the fund is hereby continuously appropriated to the agency for carrying out the purposes of this part, and, notwithstanding the provisions of Chapter 2 (commencing with Section 12850) of Part 2.5 of Division 3 of Title 2 of the Government Code or the provisions of Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of such division, or the provisions of Sections 11032 and 11033 of the Government Code, application of the fund shall not be subject to the supervision or budgetary approval of any other officer or division of state government. However, the agency's budget shall be reviewed by the Secretary of the Business and Transportation Agency. Additionally, the agency's budget with the secretary's comments shall be submitted to the Joint Legislative Budget Committee for review and comment. The agency may pledge any or all of the moneys in the fund as security for payment of the principal of, and interest on, and redemption premiums on, bonds issued pursuant to this part, and, for such purpose or as necessary or convenient to the accomplishment of any other purpose of the agency, may divide the fund into separate accounts. All moneys accruing to the agency pursuant to this part from whatever source shall be deposited in the fund.

SEC. 17. Section 41364 of the Health and Safety Code is amended to read:

41364. The agency is authorized to utilize such moneys as may be appropriated to the fund from time to time by the Legislature for effectuating its purposes, including, but not limited to, the payment of the initial expenses of administration and operation, the establishment of reserves or contingency funds to be available for payments on the principal, interest, redemption premium, and sinking funds of any bonds of the agency and the direct payment of principal, interest, redemption premium, and sinking funds on the bonds of the agency.

SEC. 18. Section 41365.5 of the Health and Safety Code is amended to read:

41365.5. The president of the agency shall immediately certify in writing to the Joint Legislative Audit Committee, the Joint Legislative Budget Committee, the Speaker of the Assembly, the Senate Rules Committee, and the Governor, if the agency is notified by the trustee in writing that moneys of the agency will not be sufficient to meet principal payments, sinking fund payments, and interest payments on bonds authorized under Chapter 7 (commencing with Section 41700) of this part and to restore and maintain the bond reserve funds provided for in Section 41713; provided, however, that no such certification need be made unless such insufficiency will result in an event of default under the respective bond resolution authorizing such bonds.

SEC. 19. Section 41388 of the Health and Safety Code is amended to read:

41388. The agency may make and execute contracts with qualified mortgage lenders for the initiation or servicing of mortgage loans, construction loans, neighborhood improvement loans, or development loans made or acquired by the agency pursuant to this part or for other services rendered to the agency. The agency may pay the reasonable value of services rendered to the agency pursuant to such contracts.

SEC. 20. Section 41402 of the Health and Safety Code is amended to read:

41402. Prior to authorizing a mortgage loan under Chapter 5 (commencing with Section 41450) of this part or a mortgage loan under Chapter 6 (commencing with Section 41550) of this part, if the loan under either such chapter is for the purchase of an owner-occupied housing development, the agency shall:

(a) Require an appraisal of the housing development be done by a competent and experienced appraiser.

(b) Establish a maximum sale price for the housing development pursuant to Section 41398, not in excess of appraised value.

(c) Require that the housing development be either newly constructed, recently rehabilitated, subject to an agreement where the borrower has agreed to conform to rehabilitation standards within a time and in a manner specified by the agency, or certified by the local code enforcement agency or the department to be in good condition.

(d) Require that the purchaser intend to occupy the housing development.

(e) Require that the loan bear below-market interest, except as otherwise provided in Chapter 6 (commencing with Section 41550) of this part.

(f) Require, notwithstanding Section 1916.5 of the Civil Code, that a mortgage payment schedule at market interest be substituted for an original payment schedule at below-market interest, when the borrower or a subsequent purchaser ceases to be a person or family of low or moderate income, and that additional payments of interest resulting therefrom be forwarded to the agency. The agency may waive the requirement of this subdivision when necessary to permit participation in mortgage insurance, guarantee, or purchase programs, or when this provision would interfere with the financial structuring or the administration of any bond financing program.

SEC. 21. Section 41476 of the Health and Safety Code is amended to read:

41476. In rural mortgage areas the agency may make and undertake commitments to make construction loans and mortgage loans to finance owner-occupied housing developments without the participation of a qualified mortgage lender if no qualified mortgage lender will participate in financing such housing developments as provided in Article 2 (commencing with Section 41455) or Article 3 (commencing with Section 41465) of this chapter, or if the board determines that the agency can initiate or service loans directly at less cost than through use of a qualified mortgage lender.

SEC. 22. Section 41480 of the Health and Safety Code is amended to read:

41480. With respect to each class of housing sponsor as defined by the agency, the agency shall do the following:

(a) Prescribe uniform systems of accounts and records for each class of housing sponsors of rental and cooperative housing developments and require them to make reports and give answers to specific questions on such forms and at such times as may be necessary for the purposes of this part.

(b) Establish minimum reserves to be maintained by nonprofit and limited-dividend housing sponsors of rental and cooperative housing developments.

(c) Fix and alter from time to time a schedule of rents such as may be necessary to provide tenants who are persons and families of low or moderate income with affordable rents to the extent consistent with the maintenance of the financial integrity of the housing development and to provide profits to housing sponsors subject to the limitations of Section 41482. Income from commercial facilities constituting a portion of a single housing development financed pursuant to this part shall, to the extent they receive the benefit of below-market-interest financing from the agency, assist in the support of appurtenant residential facilities. No housing sponsor shall increase the rent charged on any assisted rental unit of a housing

development without the prior permission of the agency, which shall be given only if the housing sponsor affirmatively demonstrates that such increase is required to defray necessary operating costs or avoid jeopardizing the fiscal integrity of the housing development or to provide the agreed rate of return with respect to additional equity money contributed by investors pursuant to Section 41482, and additional debt service and necessary operating costs with respect to increases in mortgage loans for improvements to the housing development deemed necessary by the agency.

Applications to the agency for permission to adjust rents shall include a statement of the existing and proposed rent for each unit a detailed statement of the necessity and authority for the increase under this subdivision, and the extent to which rent increases would be paid by tenants in assisted units and not offset by increased subsidy payments. Prior notice of any rent increase shall be given in writing as required by Section 1946 of the Civil Code. Prior to the time any rent increase is effective the housing sponsor shall notify every affected tenant, in writing, of informal meetings with the housing sponsor to review the proposed rent increase and that each tenant, upon request, will be provided the information submitted to the agency under this subdivision.

(d) Determine standards for, and control selection by housing sponsors of, tenants and purchasers.

(e) Regulate the terms of occupancy agreements to be used in housing financed under this chapter.

(f) Provide such bilingual services and publications, or require housing sponsors to provide such bilingual services and publications, as are necessary to ensure informed access to housing financed pursuant to this part for persons and families of low or moderate income who have limited fluency in the English language.

SEC. 23. Section 41496 of the Health and Safety Code is amended to read:

41496. (a) Subject to the availability of adequate subsidies, not less than 30 percent of the combined total units financed by mortgage loans and neighborhood improvement loans pursuant to this part during each fiscal year shall be made available on a priority basis to very low income households. Subject to the availability of adequate subsidies, not less than 20 percent of the units in each housing development shall be made available on a priority basis to very low income households, except that such requirement shall not apply to housing developments of less than 12 units where the agency finds it is not necessary to make units available in the development for very low income households to meet the requirement of making 30 percent of total units available to very low income households. Units required to be made available on a priority basis pursuant to this section, shall be offered exclusively to those within the priority group unless or until the agency permits the unit to be offered to other potential occupant groups.

(b) The agency shall actively and aggressively pursue all available

federal housing programs and utilize fully all available subsidies in order to achieve the purposes of this section.

SEC. 24. Section 41497 of the Health and Safety Code is amended to read:

41497. At the close of each fiscal year the agency shall ascertain that not less than 25 percent of the total units financed during the preceding 12 months pursuant to this part were made available to very low income households. At the close of each fiscal year the agency shall ascertain that not less than 25 percent of all units financed pursuant to this part by mortgage loans or neighborhood improvement loans are occupied or available to very low income households. If the agency finds that said very low income occupancy goals have not been met the agency shall immediately notify the Governor, the Speaker of the Assembly, and the Senate Rules Committee and shall recommend such legislation or other action as may be required to make (a) at least 25 percent of the units so available, and (b) at least 25 percent of the units thereafter financed so available.

SEC. 25. Section 41499 of the Health and Safety Code is amended to read:

41499. Nothing in this part, including Section 41332, shall require the agency to allocate more than 25 percent of the units in any single housing development to very low income households, except housing designed for occupancy by elderly or handicapped households or housing developments of 12 units or less, with respect to which the board finds it necessary for the purposes of this division that such proportion be exceeded.

SEC. 25.3. Section 41554 of the Health and Safety Code is amended to read:

41554. In addition, neighborhood improvement loans may be provided, on the following terms:

(a) Neighborhood improvement loans shall not be subject to the conditions applicable to mortgage loans or construction loans made for housing developments, except as follows:

(1) Residential structures financed shall be deemed to be housing developments, and their owners housing sponsors, for purposes of Chapter 1 (commencing with Section 41300) and Chapter 2 (commencing with Section 41331) of this part, but excluding Sections 41332.5 and 41338.

(2) All powers and duties specified in Chapter 4 (commencing with Section 41385) as to housing developments shall apply to residential structures financed by neighborhood improvement loans, except that the exercise of powers specified in Sections 41398 shall be permissive.

(3) Neighborhood improvement loans shall be subject to such conditions as may be provided by agreement between the agency and a local public entity administering the program and as provided for specifically in this part.

(b) Neighborhood improvement loans shall be made at market

interest, except that loans to persons and families of low or moderate income for residential structures of one to four units which are to be occupied by the owner may be made at lower interest rates based on income.

(c) Neighborhood improvement loans shall be made by the administering agency or local public entity or qualified mortgage lender.

(d) Neighborhood improvement loans shall be made only for residential structures.

(e) Refinancing may be provided, but only as necessary to permit the owner to afford the cost of rehabilitation or to minimize rent increases for occupants of the structure whose rents would otherwise exceed affordable rents due to the expense of rehabilitation, and provided that the cost of rehabilitation is at least 20 percent of the principal amount of the loan.

(f) Neighborhood improvement loans other than for refinancing shall be made for rehabilitation costs. In addition to the actual rehabilitation cost, if any, loans may be made for general repairs and improvements to the structure in amounts not in excess of the greatest of:

(1) Two thousand five hundred dollars ($2,500) per dwelling unit.

(2) Twenty percent of rehabilitation costs in the case of a residential structure other than a residential structure of one to four units to be occupied by the owner.

(3) Forty percent of rehabilitation costs in the case of a residential structure of one to four units to be occupied by the owner.

(g) The agency shall require that borrowers contract during the term of the loan not to raise residential rentals over an amount which the agency by regulation establishes will yield a fair rate of return and will allow for increases reasonably necessary to provide and continue proper maintenance of the property.

"Rehabilitation costs," as used in this section, may include development costs, as defined, which are incurred in the rehabilitation of a housing development or residential structure and such other costs for general renovation of the building as are permitted by agency regulations.

Nothing in this section shall authorize financing for the acquisition of residential structures. The agency may by regulation provide for such additional conditions and agreements, not inconsistent with this section, as are deemed necessary to further the purposes of this part.

SEC. 25.5. Section 41555 of the Health and Safety Code is amended to read:

41555. Relocation payments shall be made to persons and families displaced in making a site or a residential structure available for rehabilitation or construction financed under this chapter, and relocation advisory assistance provided, as set forth in Section 41397. Relocation payments shall also be made to owners involuntarily displaced because of inability to afford costs of compliance required pursuant to this chapter.

SEC. 26. Section 41700 of the Health and Safety Code, as added by Chapter 1 of the Statutes of 1975 (First Extraordinary Session), is amended to read:

41700. (a) The agency may from time to time, after action of the Housing Bond Credit Committee as provided in Section 41707, issue its negotiable bonds in such principal amount as the agency shall determine to be necessary to provide sufficient funds for financing housing developments and other residential structures and for the payment of interest on bonds of the agency, establishment of reserves to secure such bonds, and other expenditures of the agency incident to, and necessary or convenient to, issuance of such bonds.

(b) Sale of the bonds of the agency shall be coordinated by the State Treasurer. To obtain a date for the sale of bonds, the agency shall inform the State Treasurer of the amount of the proposed issue. Upon such notification, the State Treasurer shall provide three 10-day periods, within the 90 days next following, when the bonds can be sold. The agency may choose any date during the suggested periods or any other date to which the agency and the State Treasurer have mutually agreed. The State Treasurer shall sell the bonds on the date chosen according to terms approved by the agency.

The Housing Bond Credit Committee shall exercise its powers with due regard for the right of the holders of bonds of the agency at any time outstanding, and nothing in, or done pursuant to, this section shall in any way limit, restrict, or alter the obligation or powers of the agency or any member, officer, or representative of the agency or the State Treasurer to carry out and perform in every detail each and every covenant, agreement, or contract at any time made or entered into on behalf of the agency with respect to its bonds or its benefits, or the security of the holders thereof.

(c) The aggregate principal amount of nonguaranteed bonds which may be issued pursuant to this part shall not exceed three hundred million dollars ($300,000,000), exclusive of indebtedness incurred to refund or renew previously issued bonds of the agency to the extent of the outstanding principal indebtedness of such previously issued bonds, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. Guaranteed taxable bonds, or in lieu thereof and in the discretion of the agency, nonguaranteed bonds in addition to those authorized by the preceding sentence, to be issued by the agency may be authorized in an amount not exceeding one hundred fifty million dollars ($150,000,000).

SEC. 27. Section 41701 is added to Chapter 7 (commencing with Section 41700) of Part 3 of Division 31 of the Health and Safety Code, to read:

41701. Notwithstanding any other provisions of this part, only the following types of housing developments and other residential structures are eligible for mortgage loans made with the proceeds of bonds:

(a) Housing developments and other residential structures financed with bonds of the agency guaranteed under Section 802 of Title VIII of the Federal Housing and Community Development Act of 1974.

(b) Housing developments and other residential structures financed with bonds of the agency that are guaranteed, or the timely payment of principal and interest of which is insured, by an agency of the state or by a private insuring entity authorized to engage in such business.

(c) Housing developments and other residential structures, the mortgage loans on which presently are or are expected to be insured under a program utilizing federal coinsurance as authorized under Section 244 of Title III of the Federal Housing and Community Development Act of 1974 (P.L. 93-383).

(d) Housing developments and other residential structures, the bonds or mortgage loans on which are presently or are expected to be insured or guaranteed in whole or in part by an agency of the state, including the California Housing Finance Agency, a political subdivision of the state, or by a private insuring entity authorized to engage in such business, or by any combination thereof, in percentages determined by the agency.

(e) Housing developments and other residential structures, the mortgage loans on which are presently or are expected to be insured in whole or in part by the Federal Housing Administration or guaranteed in whole or in part by the United States Veterans Administration or by the Farmers Home Administration of the United States Department of Agriculture in percentages determined by the agency.

(f) Housing developments and other residential structures financed by a loan made by the agency to a qualified mortgage lender, if both of the following conditions are met:

(1) The loan to the qualified mortgage lender is a general obligation of the mortgage lender, and

(2) The qualified mortgage lender is a member of, or a subsidiary of a member of, the Federal Deposit Insurance Corporation or of the Federal Savings and Loan Insurance Corporation.

(g) Housing developments and other residential structures financed by tax-exempt bonds for which a bond reserve fund is created which at least equals either the average annual debt service or the maximum annual interest on the bonds issued.

SEC. 28. Section 41703 of the Health and Safety Code, as added by Chapter 1 of the Statutes of 1975 (First Extraordinary Session), is amended to read:

41703. The bonds shall be authorized by resolution or resolutions of the agency, shall be in such form, shall bear such date or dates, and shall mature at such time or times as such resolution or resolutions may provide, except that no bond shall mature more than 50 years from the date of its issue. The bonds may be issued as serial bonds or as term bonds, or as a combination thereof, and, notwithstanding

any other provision of law, the amount of principal of, or interest on, bonds maturing at each date of maturity need not be equal. The bonds shall bear interest at such rate or rates, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in such medium of payment at such place or places within or without the state, be subject to such terms of redemption and contain such terms and conditions as such resolution or resolutions may provide. The bonds of the agency shall be sold at public or private sale by the State Treasurer at, above, or below the par value, on such terms and conditions and for such consideration in such medium of payment as the agency shall determine by resolution prior to the sale.

SEC. 29. Section 41704 of the Health and Safety Code, as added by Chapter 1 of the Statutes of 1975 (First Extraordinary Session), is amended to read:

41704. Any resolution or resolutions authorizing any bonds or issue therefor may contain provisions, which shall be a part of the contract or contracts with the holders thereof, as to:

(a) Pledging all or any part of the revenues of the agency to secure the payment of the bonds or any issue thereof, subject to such agreements with bondholders as may then exist.

(b) Pledging all or any part of the assets of the agency, including mortgages and obligations securing the same, to secure the payment of the bonds or any issue thereof, subject to such agreements with bondholders as may then exist.

(c) The use and disposition of the gross income from mortgages owned by the agency and payment of principal of mortgages owned by the agency.

(d) The setting aside of reserves or sinking funds and the regulation and disposition thereof.

(e) Limitations on the purposes to which the proceeds of a sale of bonds may be applied and pledging such proceeds to secure the payment of the bonds or of any issue thereof.

(f) Limitations on the issuance of additional bonds, the terms upon which additional notes or bonds may be issued and secured, and the refunding of outstanding bonds.

(g) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given.

(h) Limitations on the amount of moneys to be expended by the agency for operating expenses of the agency.

(i) Vesting in a trustee or trustees such property, rights, powers, and duties in trust as the agency may determine, and providing for or limiting or abrogating the right of the bondholders to appoint a trustee or limiting the rights, powers, and duties of such trustee.

(j) Defining the acts or omissions to act which shall constitute a default in the obligations and duties of the agency to the holders of the bonds and providing for the rights and remedies of the holders

of the bonds in the event of such default. However, such rights and remedies shall not be inconsistent with the general laws of the state and the other provisions of this division.

(k) Any other matters of like or different character, which in any way affect the security, protection, or investment return of the holders of the bonds.

SEC. 30. Section 41708 of the Health and Safety Code is amended to read:

41708. The State Treasurer shall act as trustee for the agency and the holders of its bonds. Any resolution authorizing any bonds or issue thereof shall prescribe the duties of the State Treasurer with respect to the issuance, authentication, sale, and delivery of the bonds, the payment of principal and interest thereof, and the redemption of the bonds. Notwithstanding any other provision of law, the State Treasurer shall not be deemed to have a conflict of interest by reason of acting as trustee pursuant to this division.

The agency may provide by a resolution for the deposit of all revenues pledged for the security of such bonds in one or more separate accounts in the California Housing Finance Fund under the control of the State Treasurer as trustee. The money in such accounts shall be disbursed only as provided in the resolution.

The board may authorize the State Treasurer to act as trustee on behalf of the holders of its bonds, or any stated percentage thereof, for the purpose of exercising and prosecuting on behalf of the holders of the bonds such rights and remedies as may be available to such holders. However, nothing in this section shall preclude the appointment of a trustee, other than the State Treasurer, to represent and enforce rights of holders of bonds of the agency if, and in the manner and under conditions, provided in the resolution authorizing the bonds.

SEC. 31. Section 41713 of the Health and Safety Code is amended to read:

41713. The agency, in its discretion and pursuant to agreements with bondholders, may create and establish one or more special accounts in the California Housing Finance Fund, which shall be known as "bond reserve funds," and shall pay into each such bond reserve fund (1) any moneys appropriated and made available by the Legislature for the purpose of such fund, (2) any proceeds of sale of bonds to the extent provided in the resolution or resolutions of the agency authorizing the issuance thereof, and (3) any other moneys which the agency may make available for the purpose of such bond reserve fund from any other source or sources. All moneys held in any bond reserve fund, except as otherwise provided in this part, shall be used, as required, solely for the payment of the principal of bonds secured in whole or in part by such fund, for the sinking fund payments authorized by this part with respect to such bonds, for the purchase or redemption of such bonds, for the payment of interest on such bonds, or for the payment of any redemption premium required to be paid when such bonds are redeemed prior to

maturity. However, moneys in a bond reserve fund shall not be withdrawn therefrom at any time in such amount as would reduce the amount of the bond reserve fund to less than the minimum bond reserve fund requirement established for such fund, as provided in Section 41714, except for the purpose of making, with respect to bonds secured in whole or in part by such fund, payment when due of principal, interest, redemption premiums, and the sinking fund payments, as provided in this part, for the payment of which other moneys of the agency are not available. Any income or interest earned by, or increment to, any bond reserve fund due to the investment thereof may be transferred by the agency to other funds or accounts of the agency to the extent it does not reduce the amount of the bond reserve fund below the minimum bond reserve fund requirement for such fund.

In computing the amount of bond reserve funds for purposes of this section, securities in which all or a portion of such funds are invested shall be valued at par, if purchased at par, and shall be valued at amortized value, as such term is defined by resolution of the agency, if purchased at other than par.

SEC. 32. Section 41714 of the Health and Safety Code is amended to read:

41714. The agency shall not at any time issue bonds if, upon issuance of the bonds, the amount in any bond reserve fund, established pursuant to Section 41713 to secure such bonds or any previous issuance of bonds so secured by such bond reserve fund, will be less than the minimum bond reserve fund requirement for such fund, unless the agency at the time of issuance of such bonds, shall deposit in such fund from the proceeds of the bonds to be issued, or from other sources, an amount which, together with the amount then in such fund, will not be less than the minimum bond reserve fund requirement for such fund. For the purposes of this chapter, the term "minimum bond reserve fund requirement" shall mean, as of any particular date of computation, the amount, as provided in the resolution or resolutions of the agency authorizing the bonds with respect to which such bond reserve fund is created, that is established as a reserve for current or future obligations to the bondholders.

SEC. 33. Section 41715 of the Health and Safety Code is amended to read:

41715. The Supplementary Bond Security Account is hereby created in the California Housing Finance Fund. Moneys in such account may be transferred into separate, individual accounts in the fund, which shall be known as supplementary reserve accounts, but the amount appropriated to the Supplementary Bond Security Account shall be utilized to secure issuances of bonds under this chapter as deemed necessary by the agency and shall be used for no other purpose. Upon issuance of any bonds pursuant to this chapter, the agency may create a supplementary reserve account to secure payment of the principal of, interest, redemption premium, and

sinking fund payment on, such bonds.

When all obligations secured by all supplementary reserve accounts are retired, the Supplementary Bond Security Account shall be dissolved and all moneys therein shall be used first for repayment to the General Fund in the State Treasury of the amount advanced to the Supplementary Bond Security Account by the act enacting this division, less any amount previously repaid on account of such advance. Remaining funds shall be paid into the general accounts of the housing finance agency unless otherwise obligated.

When the amount in a bond reserve fund falls below the minimum bond reserve fund requirement for such fund and available revenues of the agency pledged to the prescribed minimum bond reserve fund requirement are insufficient to restore such fund, the agency shall transfer to the bond reserve fund, from the supplementary bond reserve account securing such bonds, the amount necessary to restore such fund to the minimum bond reserve fund requirement. Moneys in supplementary reserve accounts may be used to directly pay the interest, principal, and sinking fund payments on the bonds as provided by bond resolution. To secure issuances of bonds, the supplementary reserve accounts may also be used to insure mortgages to protect the value of the housing developments or other residential structures serving as real property security in any manner permitted by bond resolution.

If the issuance of bonds of the state, as provided in Part 4 (commencing with Section 41800) of this division, is approved by the voters, all moneys in the Supplementary Bond Security Account shall, upon replacement by general obligation bond proceeds, be transferred to the general accounts of the housing finance agency. The agency shall then transfer to the General Fund in the State Treasury the remaining amount necessary to repay the Treasury for the appropriation to the Supplementary Bond Security Account.

Notwithstanding other provisions of this part, interest on the ten million dollars ($10,000,000) appropriated for the Supplementary Bond Security Account shall be paid to the General Fund at the end of each fiscal year.

SEC. 34. Section 41716.5 is added to Chapter 7 (commencing with Section 41700) of Part 3 of Division 31 of the Health and Safety Code, to read:

41716.5. In addition to the authority otherwise contained in this division to issue notes in anticipation of the sale of bonds, the agency may issue negotiable bond anticipation notes and negotiable construction loan notes and may renew such notes from time to time. Bond anticipation notes may be paid from the proceeds of sale of the bonds of the agency in anticipation of which they were issued. Construction loan notes may be paid from the proceeds of permanent loans. Bond anticipation notes and construction loan notes and agreements relating thereto and the resolution or resolutions authorizing such notes and agreements may contain any provisions, conditions, or limitations which a bond, agreement

relating thereto, or bond resolution of the agency may contain.

SEC. 35. Section 42064 of the Health and Safety Code is amended to read:

42064. Loans insured pursuant to this part shall meet the following requirements:

(a) The loans shall be made for a period acceptable to the agency, not to exceed 40 years or four-fifths of the remaining economic life of the structure as determined by the agency in accordance with its regulations, whichever is less.

(b) The loans shall be subject to maximum loan amounts for each category of loan authorized to be insured under this part, as established by regulations of the agency.

(c) The loans shall be secured by mortgages.

(d) The agency shall establish loan-to-value limitations for each category of loan and may set forth limitations on the further encumbrance of structures and other real property securing loans, but only to the extent necessary to prevent unreasonable impairment of the agency's security. In no case involving refinancing or purchase shall the loan have a principal obligation in an amount exceeding the sum of the estimated cost of rehabilitation, if any, and either the amount required to refinance existing indebtedness secured by the property or, in the case of a sale, the amount of the purchase price and settlement and closing costs incurred in connection with the purchases.

(e) Loans for the rehabilitation of residential structures shall have a principal obligation not exceeding an amount which, when added to any outstanding indebtedness constituting a lien upon the property securing the loan, creates a total outstanding indebtedness which could be reasonably secured by a first mortgage on the property pursuant to subdivision (d), and as set forth by regulations of the agency.

(f) With respect to any loan for the rehabilitation of a residential structure, the agency shall determine that such repair and improvement is economically feasible. With respect to the rehabilitation of a mixed-use residential and commercial structure or of a commercial structure, the agency shall determine that there will be a demand for commercial occupancy of the residential structure after rehabilitation. In making such determination, the level of rent necessitated by repayment of the loan shall be considered.

(g) For the purpose of increasing the efficiency and minimizing the cost of the loan insurance program, the agency may insure or issue commitments to insure loans, upon the certification of an officer of an approved lending institution that the proposed rehabilitation conforms to requirements specified by regulations of the agency regarding economic feasibility and commercial demand.

(h) With respect to any loan for rehabilitation or rehabilitation in combination with refinancing or purchase, the loan agreement shall provide that all funds loaned for repairs and improvements shall be paid after completion or according to a progress payment schedule

to the owner and contractor or other provider of goods or services jointly at such times as payment becomes due, and provided the work or portion of the work for which payment is tendered is certified, as provided by regulation of the agency, to be in compliance with contract specifications and applicable state or local housing or building standards. The agency shall approve the contractor or contractors, the contract to provide rehabilitation construction, and the contract specifications prior to committing any funds of an insured loan for rehabilitation.

(i) The agency shall require that borrowers contract during the term of the loan not to raise residential rentals over an amount which the agency by regulation establishes will yield a fair rate of return and will allow for increases reasonably necessary to provide and continue proper maintenance of the property; except that residential structures with more than one but less than five dwelling units which are to be occupied by the owner shall be regulated as to rentals in a manner consistent with subdivision (h) of Section 41551.

(j) Relocation payments shall be made to persons and families displaced in making a site or a residential structure available for rehabilitation or construction financed by loans insured under this part, and relocation advisory assistance provided to such persons, as specified by Section 41397. Relocation payments shall also be made to owners involuntarily displaced because of inability to afford costs of compliance required pursuant to this part. Relocation payments may be made from the proceeds of insured loans as authorized by the agency.

(k) The residential structure for which a loan is insured pursuant to this part shall be insured against loss due to fire and other causes, as provided by the regulations of the agency.

(*l*) Such other terms and conditions as the agency, by regulation, determines are necessary to further the purposes of this part.

[Approved by Governor September 29, 1976 Filed with

The people of the State of California do enact as follows:

In addition to the requirements of subdivisions (a) to (c), inclusive, any other means of citizen involvement determined appropriate by the legislative body may be implemented.

In lieu of initiating a new process of citizen participation, local agencies which have conducted or are conducting a citizen-participation process as part of an existing housing and community development program, may substitute such citizen-participation process if the board approves such process as meeting the requirements of this section.

The board shall from time to time determine the total number of authorized employees within the agency. The board shall determine the salaries of those employees of the agency whose salaries are not paid from moneys appropriated to the agency from the General Fund, other than moneys appropriated by the act enacting this division.

SEC. 8.5. Section 41315 is added to Chapter 1 (commencing with Section 41300) of Part 3 of Division 31 of the Health and Safety Code, to read:

41315. All meetings of the board and of all committees of the board shall be open to the public and all persons shall be permitted to attend, except when such meetings are held as executive sessions as authorized by Section 11126 of the Government Code.

SEC. 9. Section 41391 of the Health and Safety Code is amended to read:

41391. Prior to the commitment of moneys under this part for the financing of a housing development as provided in Articles 1 to 4 inclusive, of Chapter 5 (commencing with Section 41450) of this part, the agency shall take adequate measures to assure (a) the economic feasibility of the housing development, (b) the financial eligibility of the housing sponsors and tenants, (c) the consistency of the proposed housing development with the current housing objectives of the agency, (d) the sufficiency of access of the housing development to supporting social services, transportation, schools, employment, and retail merchants, and (e) that the location of the proposed housing development is consistent with the agency's policies of dispersing housing developments throughout communities and of avoiding undue concentration of persons and families of low income. Wherever possible, the agency shall verify such facts before financing is committed.

In providing for dispersal of housing developments, the agency shall consider economic feasibility, which shall be determined in light of all relevant factors, including the assistance programs and funds which could be utilized to reduce costs. Nothing in this section shall prohibit the agency from financing housing developments in neighborhood preservation areas in a manner that would otherwise be in conflict with the agency's policies respecting dispersal of housing developments or concentration of persons and families of low income, where necessary to accomplish the purposes for which financing or loan insurance is made available by the agency in such an area.

SEC. 10. Section 41550 of the Health and Safety Code is amended to read:

41550. This chapter empowers the agency to designate

neighborhood preservation areas, and to enter into agreements with local agencies. It does not limit agency powers to provide construction loans and mortgage loans as provided in Chapter 5 (commencing with Section 41450) of this part.

SEC. 12. Section 41551 of the Health and Safety Code is amended to read:

41551. Upon application by a local agency supplying such supporting information and data as the agency may require, the agency may designate an area within a city or county as a concentrated rehabilitation area if it makes the following findings:

(a) The area was selected by the legislative body after citizen participation.

(b) The area is an area of substantial deterioration of residential structures, as evidenced by a significant number of older and deteriorating residential structures in such area requiring rehabilitation.

(c) Rehabilitation assistance is necessary to enable and encourage residents in such area to cooperate in a local program of concentrated enforcement of rehabilitation standards.

(d) Rehabilitation of residential structures will arrest deterioration in the area.

(e) Rehabilitation of residential structures in the area is economically feasible.

(f) The local agency has offered to contract with the agency to (1) provide necessary supporting neighborhood public improvements and services, such as street improvements, landscaping and acquisition of open space, undergrounding of utility lines, and construction of drainage facilities in the area for which eligibility has been requested, and (2) provide concentrated and continuing enforcement of rehabilitation standards in such area.

(g) The local agency has agreed to make every effort to prevent unnecessary displacement in accomplishing rehabilitation and has an adequate program of relocation advisory assistance for persons unavoidably displaced due to rehabilitation.

(h) The supply of housing available to very low income households at affordable rents and the supply of housing available to other persons and families of low or moderate income at affordable rents will not be reduced within the area because those displaced will receive relocation payments and be able to obtain standard housing in the area. Alternatively, standard housing will be available at affordable rents in equally desirable neighborhoods, expanding the range of housing opportunities for minority and low-income persons.

(i) The local agency has adopted a housing element in compliance with Section 65302 of the Government Code, and with housing element guidelines, which sets forth an effective plan for systematic enforcement of state and local building and housing standards throughout its jurisdiction.

(j) The application is consistent with local housing assistance plans adopted pursuant to the Housing and Community Development Act

of 1974 (Public Law 93-383).

(k) The local agency has satisfied such other pertinent criteria as the agency may by regulation require.

SEC. 13. Section 41551.5 is added to Chapter 6 (commencing with Section 41550) of Part 3 of Division 31 of the Health and Safety Code, to read:

41551.5. Upon the application of a local agency supplying such supporting information and data as the agency may require, the agency may designate all or a portion of the territory subject to the jurisdiction of the local agency as a scattered-site rehabilitation area if it makes the following findings:

(a) The area was selected by the legislative body after citizen participation.

(b) The area is an area which is declining and contains some deterioration of residential structures, but deteriorating residential structures within the proposed area are not suitable for concentrated enforcement of rehabilitation standards because of their dispersed location.

(c) Enforcement of rehabilitation standards is necessary to effect preservation of such residential structures and would have the effect of improving stability and property values in the surrounding community.

(d) The housing element of the general plan adopted by the local agency pursuant to subdivision (c) of Section 65302 of the Government Code, sets forth an effective plan for citywide or countywide systematic enforcement of state or local housing standards.

(e) The legislative body has, by ordinance, adopted adequate procedures for identifying residential structures eligible for rehabilitation with financing or loan insurance assistance and, in connection therewith, priorities which will serve the purposes of this part while providing a program which is economically feasible.

(f) The local agency has offered to contract with the agency to (1) provide necessary supporting neighborhood public improvements and services, such as street improvements, landscaping and acquisition of open space, undergrounding of utility lines, and construction of drainage facilities in the area for which eligibility has been requested, and (2) provide systematic and continuing enforcement of state and local housing and building standards in such area.

(g) The local agency has agreed to make every effort to prevent unnecessary displacement in accomplishing rehabilitation and has an adequate program of relocation advisory assistance for persons unavoidably displaced due to rehabilitation.

(h) The local agency has satisfied such other pertinent criteria as the agency may by regulation require.

SEC. 14. Section 41551.7 is added to Chapter 6 (commencing with Section 41550) of Part 3 of Division 31 of the Health and Safety Code, to read:

41551.7. The agency may designate a mortgage assistance area, after soliciting maximum feasible participation by community organizations, if it makes the following findings:

(a) It is an area (1) where deterioration has not progressed to the stage where there is a substantial number of residential structures which do not conform to rehabilitation standards, or (2) where a program of concentrated code enforcement has been conducted previously.

(b) There is a recent history of mortgage deficiency in the area.

(c) Agency activity in the area is likely to prevent or arrest deterioration in the area.

(d) Agency activity in the area is economically feasible.

(e) Agency activity in the area will inure primarily to the benefit of persons and families of low and moderate income.

(f) The area was selected by the legislative body after citizen participation.

(g) The local agency in which the area is located has given substantial assurances acceptable to the agency that it will provide those supporting neighborhood public improvements and services determined appropriate by the agency.

SEC. 15. Section 41552 of the Health and Safety Code is amended to read:

41552. Upon approval of an application for designation of an area as a concentrated rehabilitation area or a scattered-site rehabilitation area, the agency may, with respect to such area, do any one of the following:

(a) Enter into an agreement with the applicant local agency or another local public entity for purchase by the agency of bonds and notes issued pursuant to Chapter 3 (commencing with Section 37930) of Part 13 of Division 24; or

(b) Enter into an agreement with the applicant local agency or another local public entity for a program of rehabilitation assistance as provided in Section 41553 or 41554, or both, to be administered by the local agency or other local public entity; or

(c) Enter into an agreement with the local agency for a program of rehabilitation assistance as provided in Section 41553 or 41554, or both, to be administered by the agency, except that the agency shall make mortgage loans only under the conditions of Chapter 5 (commencing with Section 41450).

In addition, or instead, the agency may provide loan insurance assistance in such areas, which may include insurance of loans provided pursuant to this chapter or of other loans or bonds as provided in Part 5 (commencing with Section 42000) of this division.

SEC. 16. Section 41553 of the Health and Safety Code is amended to read:

41553. Financing assistance for housing developments in concentrated rehabilitation areas and scattered-site rehabilitation areas may include any or all of the following types of loans:

(a) Development loans to prepare for rehabilitation.

(b) Mortgage loans for purchase of housing developments rehabilitated pursuant to rules and regulations of the agency.

(c) Construction loans for rehabilitation, or for rehabilitation with acquisition or refinancing.

(d) Mortgage loans for rehabilitation, or for rehabilitation with acquisition or refinancing, where the cost of acquisition and rehabilitation or the cost of rehabilitation without refinancing exceeds the financial capability of the owner, or would result in rents which are not competitive for the area, as determined by the agency. For owner-occupied housing developments, the terms and interest rates of such mortgage loans shall be commensurate with ability to pay, as established by regulations of the agency.

SEC. 17. Section 41554.5 is added to the Health and Safety Code, to read:

41554.5. Financing assistance may include mortgage loans for the acquisition of housing developments in any mortgage assistance area, or any other neighborhood preservation area which the agency finds to be mortgage deficient.

SEC. 18. Section 41555 of the Health and Safety Code is amended and renumbered to read:

41557. Relocation payments shall be made to persons and families displaced in making a site or a residential structure available for rehabilitation or construction financed under this chapter, and relocation advisory assistance provided, as set forth in Section 41397. Relocation payments shall also be made to owners involuntarily displaced because of inability to afford costs of compliance required pursuant to this chapter; but any payment pursuant to Section 4623 of Title 42 of the United States Code or Section 7263 of the Government Code shall be limited to the reasonable cost of a replacement dwelling adequate to accommodate the displaced person or family without regard to whether the dwelling is otherwise comparable to the dwelling formerly occupied, less the amount received from sale of the dwelling.

SEC. 19. Section 41556 of the Health and Safety Code is repealed.

SEC. 20. Section 41557 of the Health and Safety Code is amended and renumbered to read:

41555. In a mortgage assistance area, the agency may administer programs of neighborhood improvement loans pursuant to Section 41554 and mortgage and construction loans authorized under Sections 41553 and 41554.5 in a manner consistent with Chapter 5 (commencing with Section 41450) of this part.

In addition, or instead, the agency may provide loan insurance assistance in such areas, which may include insurance of loans provided pursuant to this chapter or of other loans or bonds as provided in Part 5 (commencing with Section 42000) of this division.

41558. Upon application by a local public entity the agency may agree to allocate funds for mortgage loans for rehabilitation of

housing developments as required in a citywide or countywide program of enforcement of state and local building and housing standards. Such assistance may be administered by the local public entity or the agency.

SEC. 21.5. Section 41715 of the Health and Safety Code is amended to read:

41715. The Supplementary Bond Security Account is hereby created in the California Housing Finance Fund. Moneys in such account may be transferred into separate, individual accounts in the fund, which shall be known as supplementary reserve accounts, but the amount appropriated to the Supplementary Bond Security Account shall be utilized to secure issuances of bonds under this chapter as deemed necessary by the agency and shall be used for no other purpose. Upon issuance of any bonds pursuant to this chapter, the agency may create a supplementary reserve account to secure payment of the principal of, and interest and sinking fund payment on, such bonds.

When all obligations secured by all supplementary reserve accounts are retired the Supplementary Bond Security Account shall be dissolved and all moneys therein shall be used first for repayment to the General Fund in the State Treasury of the amount advanced to the Supplementary Bond Security Account by the act enacting this division, less any amount previously repaid on account of such advance. Remaining funds shall be paid into the general accounts of the housing finance agency unless otherwise obligated.

When the amount in a bond reserve fund falls below the minimum bond reserve fund requirement for such fund and available revenues of the agency pledged to the prescribed minimum bond reserve fund requirement are insufficient to restore such fund, the agency shall transfer to the bond reserve fund, from the supplementary bond reserve account securing such bonds, the amount necessary to restore such fund to the minimum bond reserve fund requirement. Moneys in supplementary reserve accounts may be used to directly pay the interest, principal and sinking fund payments on the bonds as provided by bond resolution. To secure issuances of bonds, the supplementary reserve accounts may also be used to insure mortgages to protect the value of the housing developments or other residential structures serving as real property security, except owner-occupied housing developments, in any manner permitted by bond resolution.

If the issuance of bonds of the state, as provided in Part 4 (commencing with Section 41800) of this division, is approved by the voters, all moneys in the Supplementary Bond Security Account shall, upon replacement by general obligation bond proceeds, be transferred to the general accounts of the housing finance agency. The agency shall then transfer to the General Fund in the State Treasury the remaining amount necessary to repay the Treasury for the appropriation to the Supplementary Bond Security Account.

Notwithstanding other provisions of this part, interest on the ten

million dollars ($10,000,000) appropriated for the Supplementary Bond Security Account shall be paid to the General Fund at the end of each fiscal year.

SEC. 22. Section 42001 of the Health and Safety Code is amended to read:

42001. It is the intent of the Legislature in enacting this part to establish a program of bond and loan insurance to encourage and facilitate the preservation of existing housing and improve housing opportunities for persons and families of low or moderate income by reducing the risk factor (1) for loans for housing in older deteriorating areas and (2) for revenue bonds issued by local agencies, redevelopment agencies, and housing authorities pursuant to the Marks-Foran Residential Rehabilitation Act of 1973.

It is further the intent of the Legislature in enacting this part to improve the marketability of revenue bonds sold by the agency by providing for insurance of loans made or assisted by the agency for housing developments located in neighborhood preservation areas.

In the event that the loan insurance reserve account is reduced to less than the insurance reserve requirement, the agency shall cease making commitments for, and contracts of, insurance until such time as the loan insurance reserve account has been restored to such requirement.

SEC. 36. Section 42036 of the Health and Safety Code is amended to read:

42036. (a) The obligation of the agency and of the state to pay any insurance benefit pursuant to contracts of insurance insuring loans or bonds shall not exceed amounts deposited in the insurance fund which are made available therefor under the respective contracts of insurance. Nothing in this part shall require the Legislature to appropriate moneys from the General Fund in the State Treasury to the Housing Rehabilitation Insurance Fund on account of any such obligation. The insurance of loans or bonds under the provisions of this part shall not directly or indirectly or contingently obligate the state or any political subdivision thereof to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment.

(b) All contracts of insurance insuring loans or bonds pursuant to this part shall contain on the face thereof a statement to the following effect: "Neither the faith and credit nor the taxing power of the State of California is pledged to the payment of the principal of or interest on this contract of insurance."

42062. Loans for the rehabilitation, refinancing, or acquisition of residential structures located in neighborhood preservation areas designated pursuant to Chapter 6 (commencing with Section 41550) of Part 3 of this division may be insured by the agency, subject to the following requirements:

(a) Except for loans insured pursuant to subdivision (d), at least 20 percent of the amount of any such loan shall be used for repairs or improvements which are required by rehabilitation standards.

(b) The loan may include an additional amount to be used for

general property improvements, which shall not exceed 20 percent of the amount used for rehabilitation required by rehabilitation standards; or, in the cases of owner-occupied residential structures of not more than four dwelling units, amounts loaned for general property improvements shall not exceed 40 percent of the amount loaned for required rehabilitation.

(c) Subject to the limitation prescribed by subdivision (a), the proceeds of the loan may be used for refinancing of existing indebtedness secured by property to be rehabilitated. Loans for refinancing may be insured only if refinancing is necessary to permit a borrower to afford the cost of rehabilitation or to minimize rent increases for occupants of the residential structure whose rents would otherwise exceed affordable rents due to the expense of rehabilitation.

(d) The proceeds of the loan may be used for financing acquisition and rehabilitation of a residential structure, or acquisition of a rehabilitated structure, or acquisition of a residential structure which the borrower has agreed to conform to rehabilitation standards within a time and in a manner specified by regulations of the agency. No borrower shall be eligible for insurance of a loan or loans for the acquisition or rehabilitation of more than one residential structure with respect to any such area, unless the borrower is a qualified rehabilitator.

(b) Construction and mortgage loans made or assisted pursuant to this division for financing housing developments.

The agency shall develop and adopt regulations that provide for an equitable sharing of the risk of loss among the agency and all other parties to the loan transaction with respect to loans for acquisition of residential structures insured pursuant to subdivision (a).

SEC. 44. Section 42064 of the Health and Safety Code is amended to read:

42064. Loans insured pursuant to this part shall meet the following requirements:

(a) The loans shall be made for a period acceptable to the agency, not to exceed 40 years or four-fifths of the remaining economic life of the structure as determined by the agency in accordance with its regulations, whichever is less.

(b) The loans shall be subject to maximum loan amounts for each

category of loan authorized to be insured under this part, as established by regulations of the agency.

(c) The loan shall be secured by mortgages.

(d) The agency shall establish loan-to-value limitations for each category of loan and may set forth limitations on the further encumbrance of structures and other real property securing loans, but only to the extent necessary to prevent unreasonable impairment of the agency's security. In no case involving refinancing or purchase shall the loan have a principal obligation in an amount exceeding the sum of the estimated cost of rehabilitation, if any, and either the amount required to refinance existing indebtedness secured by the property or, in the case of a sale, the amount of the purchase price and settlement and closing costs incurred in connection with the purchases.

(e) Loans for the rehabilitation of residential structures shall have a principal obligation not exceeding an amount which, when added to any outstanding indebtedness constituting a lien upon the property securing the loan, creates a total outstanding indebtedness which could be reasonably secured by a first mortgage on the property pursuant to subdivision (d), and as set forth by regulations of the agency.

(f) With respect to any loan for the rehabilitation of a residential structure, the agency shall determine that such repair and improvement is economically feasible. With respect to the rehabilitation of a mixed-use residential and commercial structure or of a commercial structure, the agency shall determine that there will be a demand for commercial occupancy of the residential structure after rehabilitation. In making such determination, the level of rent necessitated by repayment of the loan shall be considered.

(g) For the purpose of increasing the efficiency and minimizing the cost of the loan insurance program, the agency may insure or issue commitments to insure loans, upon the certification of an officer of an approved lending institution that the proposed rehabilitation conforms to requirements specified by regulations of the agency regarding economic feasibility and commercial demand.

(h) With respect to any loan for rehabilitation or rehabilitation in combination with refinancing or purchase, the loan agreement shall provide that all funds loaned for repairs and improvements shall be paid after completion or according to a progress payment schedule to the owner and contractor or other provider of goods or services jointly at such times as payment becomes due, and provided the work or portion of the work for which payment is tendered is certified, as provided by regulation of the agency, to be in compliance with contract specifications and applicable state or local housing or building standards. The agency shall approve the contractor or contractors, the contract to provide rehabilitation construction, and the contract specifications prior to committing any funds of an insured loan for rehabilitation.

(i) The agency shall require that borrowers contract during the

term of the loan not to raise residential rentals over an amount which the agency by regulation establishes will yield a fair rate of return and will allow for increases reasonably necessary to provide and continue proper maintenance of the property; except that residential structures with more than one but less than five dwelling units which are to be occupied by the owner shall be regulated as to rentals in a manner consistent with subdivision (h) of Section 41551.

(j) Relocation payments shall be made to persons and families displaced in making a site or a residential structure available for rehabilitation or construction financed by loans insured under this part, and relocation advisory assistance provided to such persons, as specified by Section 41397. Relocation payments shall also be made to owners involuntarily displaced because of inability to afford costs of compliance required pursuant to this part, but any payment pursuant to Section 4623 of Title 42 of the United States Code or Section 7263 of the Government Code shall be limited to the reasonable cost of a replacement dwelling adequate to accommodate the displaced person or family without regard to whether the dwelling is otherwise comparable to the dwelling formerly occupied, less the amount received from sale of the dwelling. Relocation payments may be made from the proceeds of insured loans as authorized by the agency.

(k) The residential structure for which a loan is insured pursuant to this part shall be insured against loss due to fire and other causes, as provided by the regulations of the agency.

(*l*) Such other terms and conditions as the agency, by regulation, determines are necessary to further the purposes of this part.

SEC. 45. Section 42065 of the Health and Safety Code is amended to read:

42065. (a) The agency shall establish, and may from time to time revise, after public hearings, a schedule of insurance premiums to be added to the interest rates of insured loans. Such premiums may vary according to the category of the loan and the degree of risk related to the loan. Premiums shall be calculated in an amount which, when added to the other revenues of the insurance program, will be adequate to defray losses occasioned by defaults and the operating expenses of the program, to repay amounts advanced to the agency for purposes of this part from the General Fund, to make payments to the General Obligation Bond Account to the extent required by Section 41806.5, and gradually to expand the insurance capability of the program. Approved lending institutions shall remit premiums to the agency at intervals specified by the agency.

(b) The agency may by regulation prescribe such other charges as it finds necessary, including service charges and appraisal, inspection, and other fees.

SEC. 46. Section 42068 of the Health and Safety Code is amended to read:

42068. The agency may initiate programs of coinsurance or reinsurance with, and may procure reinsurance from, any local

agency or agency of the United States or private mortgage insurer in order to accomplish more effectively the purposes of this part. The agency may coinsure loans made or originated by approved lending institutions which are otherwise insurable under the provisions of this part.

SEC. 47. The sum of five million dollars ($5,000,000) is hereby appropriated from the General Fund for transfer to the Housing Rehabilitation Insurance Fund for carrying out the purposes of Division 31 (commencing with Section 41000) of the Health and Safety Code. At least 25 percent of the moneys appropriated by this section shall be used for loan insurance of loans financing rehabilitation of residential structures.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 34209 of the Health and Safety Code is amended to read:

34209. "Area of operation," in the case of a county authority includes all of the county except the area within the territorial boundaries of any city for which an authority has been authorized to transact business. Except as authorized by Section 34312.5, a county authority shall not operate in any city located in the county and in which an authority has not been authorized to transact business unless the consent of the city governing body has been obtained. If an authority of a city within a county becomes empowered to transact business and exercise its powers, a county authority empowered to transact business and exercise its powers has no power to initiate any further project or leased housing within the territorial boundaries of the city, except as provided in Section 34312.5.

If a housing commission is created as provided in Section 34291, its function shall be to review and make recommendations on all matters to come before the authority prior to authority action, except emergency matters and matters which the commission, by resolution, excludes from its review. The governing body may provide for procedures for review and recommendation, and for further functions of the commission, by ordinance or resolution, and may delegate any of its functions as commission of the housing authority to the housing commission created pursuant to Section 34291.

SEC. 3. Section 34312.5 is added to the Health and Safety Code, to read:

34312.5. An authority may provide leased housing to persons of low income throughout the county in which it operates, except:

(a) No commitment to provide leased housing outside the area of operation may be made in advance of construction without approval of the local governing body of the city or, if an unincorporated area, the county with jurisdiction of the site of construction; and

(b) Leased housing may not be provided within the area of operation of another authority if the local governing body of the other authority disapproves in advance.

The people of the State of California do enact as follows:

SECTION 1. Section 21628.5 of the Business and Professions Code is amended to read:

21628.5. (a) Every business machine dealer shall report all used business machines which he has purchased, taken in trade, or accepted for sale or consignment, from an individual, to the chief of police or to the sheriff in accordance with the provisions of Section 21628 and Section 21630.

Every business machine dealer shall report all used business machines which he has repaired, if required to do so by the chief of police or the sheriff in accordance with the provisions of Section 21628 and Section 21630.

No report of repair shall be required from a dealer servicing or repairing a machine in the possession of the owner to whom that dealer sold that machine when it was new.

(b) As used in this section, the term "business machines" includes, but is not limited to, typewriters, adding machines, check-writing

devices, cash registers, calculators, addressing machines, copying and accounting equipment, letter-sorting and folding devices, and recording equipment, but does not include office furniture or fixtures.

CHAPTER 1345

An act to add Part 10 (commencing with Section 37600) to Division 24 of the Health and Safety Code, relating to rehabilitation of buildings.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Part 10 (commencing with Section 37600) is added to Division 24 of the Health and Safety Code, to read:

PART 10. HISTORICAL REHABILITATION

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

37600. This part shall be known and may be cited as the Marks Historical Rehabilitation Act of 1976.

37601. The Legislature finds and declares that properties and structures of historical or architectural significance are an essential public resource and that it is necessary and essential that cities, counties, and cities and counties be authorized to make long-term, low-interest loans to finance the rehabilitation of properties of historic or architectural significance. Unless local agencies have the authority to provide loans for the rehabilitation of historic properties, many properties of historic or architectural significance will continue to deteriorate at an accelerated rate because loans from private sources are not sufficiently available for their rehabilitation. It shall be the policy of the state to preserve, protect, and restore the historical and architectural resources of the state.

37602. Unless the context otherwise requires, the following definitions shall govern the construction of this part:

(a) "Bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by a local agency pursuant to this part and which are payable exclusively from the revenues, as defined in subdivision (j), and from any other funds specified in this part upon which the bonds may be made a charge and from which they are payable.

(b) "Financing" means the lending of money for the purpose of rehabilitation of historical properties and includes refinancing of outstanding indebtedness of the participating party with respect to

42128 289100 905

property which is subject to historical rehabilitation or the purchase of historical properties rehabilitated by a redevelopment agency functioning pursuant to Part 1 (commencing with Section 33000) of this division.

(c) "Historical rehabilitation" means the reconstruction, restoration, renovation, or repair of the interiors or exteriors of historical properties or their relocation for the purposes of restoring or preserving their historical or architectural authenticity, preventing their deterioration or destruction, continuing their use, providing for their feasible reuse, or providing for the safety of the occupants or passersby. "Historical rehabilitation" includes, but is not limited to, the repairing of architectural facades or ornamentation; removal of inappropriate additions or materials; replacement of facades, ornamentation, or architectural elements previously removed; repairing of roofs, foundations, and other essential structural elements; or any work done on a historical property in order to comply with rehabilitation standards. "Historical rehabilitation" does not include the purchase, installation, or restoration of furnishings.

(d) "Historical rehabilitation area" is a geographic area, with specific boundaries, which is designated by a local agency as an area in which a historical rehabilitation financing program shall apply. It may encompass the entire jurisdiction of the local agency, or any portions thereof, including single parcels.

(e) "Historical property" means any building or part thereof, object, structure, monument, or collection thereof deemed of importance to the history, architecture, or culture of an area as determined by an appropriate governmental agency. An appropriate governmental agency is a local official historic preservation board or commission, a legislative body of a local agency, or the State Historical Resources Commission. "Historical property" includes objects, buildings, structures, monuments, or collections thereof on existing national, state, or local historical registers or official inventories, such as the National Register of Historic Places and State Historical Landmarks.

(f) "Legislative body" means the city council, board of supervisors, or other legislative body of the local agency.

(g) "Local agency" means a city, county, city and county, or redevelopment agency functioning pursuant to Part 1 (commencing with Section 33000) of this division.

(h) "Participating party" means any person, company, corporation, partnership, firm, local agency, political subdivision of the state, or other entity or group of entities requiring financing for historical rehabilitation pursuant to the provisions of this part. No elective officer of the state or any of its political subdivisions shall be eligible to be a participating party under the provisions of this part.

(i) "Rehabilitation standards" means the applicable local or state standards for the rehabilitation of historical properties, including any higher standards adopted by the local agency as part of its historical

rehabilitation financing program and including standards established pursuant to Part 2.7 (commencing with Section 18950) of Division 13.

(j) "Revenues" means all amounts received as repayment of principal, interest, and all other charges received for, and all other income and receipts derived by, the local agency from the financing of historical rehabilitation, including moneys deposited in a sinking, redemption, or reserve fund or other fund to secure the bonds or to provide for the payment of the principal of, or interest on, the bonds and such other moneys as the legislative body may, in its discretion, make available therefor.

37603. The local agency on request shall submit information regarding its programs to the State Historic Preservation Officer.

CHAPTER 2. POWERS AND PROCEDURES

37620. The local agency may issue bonds and bond anticipation notes of the local agency for the purpose of financing historical rehabilitation authorized by this part and for the purpose of funding or refunding such bonds or notes.

37621. The local agency may fix fees, charges, and interest rates for financing historical rehabilitation and may from time to time revise such fees, charges, and interest rates to reflect changes in interest rates on the local agency's bonds, losses due to defaults, changes in loan servicing charges, or other expenses related to administration of the historical rehabilitation financing program. Any change in the interest rate shall conform to the provisions of Section 1916.5 of the Civil Code, except that paragraph (3) of subdivision (a) of Section 1916.5 shall not apply and that the "prescribed standard" specified in Section 1916.5 shall be periodically determined by the legislative body after hearing preceded by public notice to affected parties, and shall reflect changes in interest rates on the local agency's bonds, losses due to defaults, and bona fide changes in loan servicing charges related to the administration of a program under the provisions of this part. The local agency may collect interest and principal together with such fees and charges incurred in such financing and may contract to pay any person, partnership, association, corporation, or public agency with respect thereto. The local agency may hold deeds of trust as security for financing historical rehabilitation and may pledge the same as security for repayment of bonds issued pursuant to this part. The local agency may establish the terms and conditions for the financing of historical rehabilitation undertaken pursuant to this part.

The local agency may require that the full amount owed on any loan for historical rehabilitation made pursuant to this part shall be due and payable upon sale or other transfer of ownership of the property subject to such rehabilitation.

37622. The local agency may employ or contract for such

engineering, architectural, accounting, collection, economic feasibility, or other services in connection with the servicing of loans made to participating parties, as may be necessary in the judgment of the local agency for the successful financing of such historical rehabilitation. The local agency may pay the reasonable costs of consulting engineers, architects, accountants, construction experts, and economic feasibility experts, if, in the judgment of the local agency, such services are necessary to the successful financing of any historical rehabilitation and if the local agency is not able to provide such services. The local agency may employ, contract for, and fix the compensation of financing consultants, bond counsel, and other advisers as may be necessary in its judgment to provide for the issuance and sale of any bonds or bond anticipation notes of the local agency.

37623. In addition to all other powers specifically granted by this part, the local agency may do all things necessary or convenient to carry out the purposes of this part.

37624. Revenues shall be the sole source of funds pledged by the local agency for repayment of its bonds. Bonds issued under the provisions of this part shall not be deemed to constitute a debt or liability of the local agency or a pledge of the faith and credit of the local agency but shall be payable solely from revenues. The issuance of bonds shall not directly, indirectly, or contingently obligate the legislative body to levy or pledge any form of taxation or to make any appropriation for their payment.

37625. All historical rehabilitation shall be constructed or completed subject to the rules and regulations of the local agency. A local agency may acquire by deed, purchase, lease, contract, gift, devise, or otherwise any real or personal property, structures, rights, rights-of-way, franchises, easements, and other interests in lands necessary or convenient for the financing of historical rehabilitation, upon such terms and conditions as it deems advisable, and may lease, sell, or dispose of the same in such manner as may be necessary or desirable to carry out the objectives and purposes of this part.

37626. Prior to the issuance of any bonds or bond anticipation notes of the local agency for historical rehabilitation, the legislative body shall by ordinance or resolution adopt a historical rehabilitation financing program. The program shall include, but is not limited to, the following items:

(1) Criteria for the selection of historical properties eligible for financing. Such criteria may include, but are not limited to:

(a) Architectural significance:

(i) Structures or areas that embody distinguishing characteristics of an architectural style, period, method of construction, or architectural development in a city or county.

(ii) Notable works of a master builder, designer, or architect whose style influenced the city or county's architectural development, or structures showing the evolution of an architect's style.

(iii) Rare structures displaying a building type, design, or indigenous building form.

(iv) Structures which embody special architectural and design features.

(v) Outstanding examples of structures displaying original architectural integrity, structurally or stylistically, or both.

(vi) Unique structures or places that act as focal or pivotal points important as a key to the character or visual quality of an area.

(b) Historical significance:

(i) Sites and structures connected with events significant in the economic, cultural, political, social, civic, ethnic, or military history of a community, state, or nation.

(ii) Structures or areas identified with the lives of historical personages of a community, state, or nation.

(iii) Sites and groups of structures representing historical development patterns, including, but not limited to, urbanization patterns, railroads, agricultural settlements, and canals.

(2) Criteria for the selection of historical rehabilitation areas. Such criteria may include, but are not limited to:

(a) Areas constituting a distinct section of the city and having special character, historical, architectural, or aesthetic interest and value.

(b) Areas providing significant examples of architectural styles of the past, or landmarks in the history of architecture.

(c) Areas serving as a reminder of past eras, events, and persons important in local, state, or national history, and illustrating past living styles for future generations to observe, study, and inhabit.

(d) Historical and culturally significant grounds, gardens, and objects.

(3) Following the adoption of the criteria as provided for in subdivisions (a) and (b), the designation of one or more historical rehabilitation areas, including a description of the area, a map and other related information.

(4) Procedures for the selection and financing of rehabilitation projects. Such procedures shall be subject to the following limitations:

(a) Outstanding loans on the property to be rehabilitated, including the amount of the loans for rehabilitation, shall not exceed 80 percent of the anticipated after-rehabilitation value of the property.

(b) The maximum repayment period for historical rehabilitation loans shall be 40 years or four-fifths of the economic life of the property, whichever is less.

(c) No less than 90 percent of any loan for historical rehabilitation shall be used for historical rehabilitation, as defined in this part.

37627. The historical rehabilitation financing program may include:

(1) A requirement that rehabilitation financed by the program shall meet standards higher than the applicable state or local

standards for rehabilitation of properties, including, but not limited to, design guidelines, standards of aesthetics, use of materials, integrity of design, or historical authenticity.

(2) A provision for limitation of the degree or kind of historical rehabilitation eligible for financing, including, but not limited to, rehabilitation of parapets or dangerous parts of facades of historic properties.

(3) A requirement that the local agency receive a legally binding assurance that the property rehabilitated with financing from this program shall be preserved, subject to reasonable conditions. The form and conditions of such assurance shall be specified in a historical rehabilitation financing program.

(4) A capital outlay program for the historical rehabilitation area which identifies the public improvements needed to support private rehabilitation efforts. Such improvements may include street improvements, street closures, street fixtures, and landscaping.

(5) If the program is likely to result in anticipated increases in rents or other housing costs which would cause displacement of residents of historic properties, or is likely to result in residents paying a disproportionately large percentage of their incomes for housing, a commitment that the local agency shall make efforts to prevent displacement of residents. Such efforts shall include, but are not limited to, utilization of federal, state, or local funding programs which may be available for rent subsidies.

(6) A provision for control of rents if controls are included in order to prevent precipitous increases in rent which the rehabilitation would engender. Such provision may include a requirement that the borrower agree during the term of the loan not to raise the rental amount over an amount which the local agency establishes as a fair rate of return for similar investments and will allow for increases that are reasonably necessary to provide for proper maintenance of the property.

37628. Prior to the adoption of an historical rehabilitation financing program and the designation of an historical rehabilitation area, the local agency shall provide for maximum citizen participation by persons who will be affected by historical rehabilitation financed under the provisions of this part with opportunities to be involved in planning and carrying out the historical rehabilitation program. "Citizen participation" shall include, but is not limited to:

(a) Holding a public meeting to inform the public of the proposed historical rehabilitation financing program.

(b) Holding a public hearing prior to the adoption of the historical rehabilitation financing program and the designation of an historical rehabilitation area.

(c) Public notice by the local agency, at least seven days in advance of a public meeting or hearing, in a newspaper of general circulation in the area, of the time and place of a meeting or hearing and a general description of the program.

(d) Dissemination by the local agency, at least seven days in advance of a public meeting or hearing, by mailing to those individuals or groups which have requested notification, of information relating to the time and place of a meeting or hearing and a general description of the program.

(e) Establishment of a citizen advisory board for the purpose of providing recommendations to the legislative body on the contents of the historical rehabilitation financing program. Members of the citizens advisory board shall be appointed by the legislative body and shall include one or more representatives of owners of properties affected by the program, one or more representatives of residents or occupants (if any) of properties to be affected by the program, one or more representatives of the local community groups (if any) known by the legislative body to be concerned with historical rehabilitation, and others as the legislative body may deem appropriate.

An existing local official historic preservation board or commission may be appointed as the citizens advisory board, provided that, in addition, representatives as required by this section are also appointed.

37629. No financing shall be provided under this part until criteria required by Section 37626 have been adopted. Properties eligible for financing must be located within a designated historical rehabilitation area. Prior to granting financial assistance, the local agency shall find that the funds loaned shall be used for the purpose of historical rehabilitation and that the financing of such rehabilitation is economically feasible.

37630. The local agency shall require that any property which is rehabilitated with financing obtained under this part shall be open, upon sale or rental of any portion thereof, to all regardless of race, color, religion, national origin, or ancestry. The local agency shall also require that contractors and subcontractors engaged in historical rehabilitation financed under this part provide equal opportunity for employment, without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry. All contracts and subcontracts for historical rehabilitation financed under this part shall be let without discrimination as to race, sex, marital status, color, religion, national origin, or ancestry.

37631. Any action challenging the legality of an historical rehabilitation financing program, or of the selection of historical properties for rehabilitation pursuant to this part, shall be commenced within 60 days of the adoption of such program or within 60 days of such selection.

CHAPTER 3. BONDS AND NOTES

37640. (a) A local agency may issue its negotiable bonds or notes for the purpose of financing historical rehabilitation, including the rehabilitation of (1) single properties for single participating parties,

(2) a series of properties for a single participating party, (3) single properties for several participating parties, or (4) several properties for several participating parties. In anticipation of the sale of such bonds, the local agency may issue negotiable bond anticipation notes and may renew such notes from time to time. Bond anticipation notes may be paid from the proceeds of sale of the bonds of the local agency in anticipation of which they were issued. Bond anticipation notes and agreements relating thereto and the resolution or resolutions authorizing such notes and agreements may contain any provisions, conditions, or limitations which a bond, agreement relating thereto, or bond resolution of the local agency may contain except that any such note or renewal thereof shall mature at a time not later than two years from the date of the issuance of the original note.

(b) Every issue of its bonds shall be a special obligation of the local agency payable from all or any part of the revenues specified in this part. The bonds shall be negotiable instruments for all purposes, subject only to the provisions of such bonds for registration.

37641. The bonds may be issued as serial bonds or as term bonds, or the local agency, in its discretion, may issue bonds of both types. The bonds shall be authorized by resolution of the local agency and shall bear such date or dates, mature at such time or times, not exceeding 50 years from their respective dates of issuance, bear interest at such fixed or variable rate or rates, be payable at such time or times, be in such denominations, be in such form, either coupon or registered, carry such registration privileges, be executed in such manner, be payable in lawful money of the United States of America, at such place or places, and be subject to such terms of redemption as the resolution or resolutions of the local agency may provide. The bonds may be sold at either a public or private sale and for such prices as the local agency shall determine. Pending preparation of the definitive bonds, the local agency may issue interim receipts, certificates, or temporary bonds, which shall be exchanged for such definitive bonds. The local agency may sell any bonds, notes, or other evidence of indebtedness at a price below the par value thereof, but the discount on any bond so sold shall not exceed 6 percent of the par value thereof.

37642. Any resolution or resolutions authorizing any bonds or any issue of bonds may contain provisions respecting any of the following terms and conditions, which shall be a part of the contract with the holders of the bonds:

(a) The pledge of all or any part of the revenues, as defined in this part, subject to such agreements with bondholders as may then exist.

(b) The interest and principal to be received and other charges to be charged and the amounts to be raised each year thereby, and the use and disposition of the revenues.

(c) The setting aside of reserves or sinking funds and the regulation and disposition thereof.

(d) Limitations on the purposes to which the proceeds of a sale of

any issue of bonds, then or thereafter issued, may be applied, and pledging such proceeds to secure the payment of the bonds or any issue of bonds.

(e) Limitations on the issuance of additional bonds, the terms upon which additional bonds may be issued and secured, and the refunding of outstanding bonds.

(f) The procedure, if any, by which the terms of any contract with bondholders may be amended or abrogated, the amount of bonds the holders of which must consent thereto, and the manner in which such consent may be given.

(g) Limitation on expenditures for operating, administration, or other expenses of the local agency.

(h) Specification of the acts or omissions to act which shall constitute a default in the duties of the local agency to holders of its obligations, and providing the rights and remedies of such holders in the event of default.

(i) The mortgaging of any property and the site thereof for the purpose of securing the bondholders.

(j) The mortgaging of land, improvements, or other assets owned by a participating party for the purpose of securing the bondholders.

37643. Neither the members of the legislative body of the local agency nor any person executing the bonds or notes shall be liable personally on the bonds or notes or be subject to any personal liability or accountability by reason of the issuance thereof.

37644. The local agency shall have the power out of any funds available therefor to purchase its bonds or notes. The local agency may hold, pledge, cancel, or resell such bonds, subject to and in accordance with agreements with the bondholders.

37645. In the discretion of the local agency, any bonds issued under the provisions of this part may be secured by a trust agreement by and between the local agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence, the rehabilitation of which is to be financed out of the proceeds of such bonds. Such trust agreement or resolution providing for the issuance of bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the local agency authorizing the issuance of bonds pursuant to Section 37642. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the local agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right

of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the local agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of historical rehabilitation.

37646. Any holder of bonds issued under the provisions of this part or any of the coupons appertaining thereto, and the trustee or trustees appointed pursuant to any resolution authorizing the issuance of such bonds, except to the extent the rights thereof may be restricted by the resolution authorizing the issuance of the bonds, may, either at law or in equity, by suit, action, mandamus, or other proceedings, protect or enforce any and all rights specified in the laws of the state or in such resolution, and may enforce and compel the performance of all duties required by this part or by such resolution to be performed by the local agency or by any officer, employee, or agent thereof, including the fixing, charging, and collecting of rates, fees, interest, and charges authorized and required by the provisions of such resolution to be fixed, established, and collected.

37647. Bonds issued under the provisions of this part shall not be deemed to constitute a debt or liability of the local agency or a pledge of the faith and credit of the local agency, but shall be payable solely from the funds specified in this part. All such bonds shall contain on the face thereof a statement to the following effect:

> Neither the faith and credit nor the taxing power of the [local agency] is pledged to the payment of the principal of or interest on this bond.

The issuance of bonds under the provisions of this part shall not directly, indirectly, or contingently obligate the local agency to levy or to pledge any form of taxation whatever therefor or to make any appropriation for their payment.

37648. (a) The local agency may provide for the issuance of the bonds of the local agency for the purpose of refunding any bonds of the local agency then outstanding, including the payment of any redemption premiums thereof and any interest accrued or to accrue to the earliest or subsequent date of redemption, purchase, or maturity of such bonds, and, if deemed advisable by the local agency, for the additional purpose of paying all or any part of the cost of additional historical rehabilitation.

(b) The proceeds of bonds issued for the purpose of refunding any outstanding bonds may, in the discretion of the local agency, be applied to the purchase or retirement at maturity or redemption of such outstanding bonds, either at their earliest or any subsequent redemption date or upon the purchase or retirement at the maturity thereof and may, pending such application, be placed in escrow, to be applied to such purchase or retirement at maturity or redemption

on such date as may be determined by the local agency.

(c) Pending use for purchase, retirement at maturity, or redemption of outstanding bonds, any proceeds held in escrow pursuant to subdivision (b) may be invested and reinvested as provided in the resolution authorizing the issuance of the bonds. Any interest or other increment earned or realized on any such investment may also be applied to the payment of the outstanding bonds to be refunded. After the terms of the escrow have been fully satisfied and carried out, any balance of such proceeds and any interest or increment earned or realized from the investment thereof may be returned to the local agency to be used by it for any lawful purpose.

(d) That portion of the proceeds of any such bonds designated for the purpose of paying all or any part of the cost of additional historical rehabilitation pursuant to subdivision (a) may be invested and reinvested in obligations of, or guaranteed by, the United States of America or in certificates of deposit or time deposits secured by obligations of, or guaranteed by, the United States of America, maturing not later than the time or times when such proceeds will be needed for the purpose of paying all or any part of such cost.

(e) All bonds issued pursuant to this section shall be subject to the provisions of this part in the same manner and to the same extent as other bonds issued pursuant to this part.

37649. Notwithstanding any other provisions of law, bonds issued pursuant to this part shall be legal investments for all trust funds, the funds of insurance companies, savings and loan associations, investment companies and banks, both savings and commercial, and shall be legal investments for executors, administrators, trustees, and all other fiduciaries. Such bonds shall be legal investments for state school funds and for any funds which may be invested in county, municipal, or school district bonds, and such bonds shall be deemed to be securities which may properly and legally be deposited with, and received by, any state or municipal officer or by any agency or political subdivision of the state for any purpose for which the deposit of bonds or obligations of the state is now, or may hereafter be, authorized by law, including deposits to secure public funds.

37650. The exercise of the powers granted by this part shall be in all respects for the benefit of the people of this state and for their health and welfare. Any bonds or notes issued under the provisions of this chapter, their transfer and the income therefrom, shall at all times be free from taxation of every kind by the state and by the municipalities and other political subdivisions of the state.

CHAPTER 4. REHABILITATION LOANS

37660. The local agency may provide financing to any participating party for the purpose of historical rehabilitation authorized pursuant to an historical rehabilitation financing program. All agreements for such loans shall provide that the

architectural and engineering design of the historical rehabilitation shall be subject to such standards as may be established by the local agency and that the work of such historical rehabilitation shall be subject to such supervision as the local agency deems necessary.

37661. The local agency may enter into loan agreements with any participating party relating to historical rehabilitation of any kind or character. The terms and conditions of such loan agreements may be as mutually agreed upon. Any such loan agreement may provide the means or methods by which any mortgage taken by the local agency shall be discharged, and it shall contain such other terms and conditions as the local agency may require. The local agency is authorized to fix, revise, charge, and collect interest and principal and all other rates, fees, and charges with respect to financing of historical rehabilitation. Such rates, fees, charges, and interest shall be fixed and adjusted so that the aggregate of such rates, fees, charges, and interest will provide funds sufficient with other revenues and moneys which it is anticipated will be available therefor, if any, to do all of the following:

(a) Pay the principal of and interest on outstanding bonds of the local agency issued to finance such historical rehabilitation as the same shall become due and payable.

(b) Create and maintain reserves required or provided for in any resolution authorizing such bonds. A sufficient amount of the revenues derived from historical rehabilitation may be set aside at such regular intervals as may be provided by the resolution in a sinking or other similar fund, which is hereby pledged to, and charged with, the payment of the principal of and interest on such bonds as the same shall become due, and the redemption price or the purchase price of bonds retired by call or purchase as therein provided. Such pledge shall be valid and binding from the time the pledge is made. The rates, fees, interest, and other charges, revenues, or moneys so pledged and thereafter received by the local agency shall immediately be subject to the lien of such pledge without any physical delivery thereof or further act, and the lien of any such pledge shall be valid and binding as against all parties having claims of any kind in tort, contract, or otherwise against the local agency, irrespective of whether such parties have notice thereof. Neither the resolution nor any loan agreement by which a pledge is created need be filed or recorded except in the records of the local agency. The use and disposition of moneys to the credit of such sinking or other similar fund shall be subject to the provisions of the resolution authorizing the issuance of such bonds. Except as may otherwise be provided in such resolution, such sinking or other similar fund may be a fund for all bonds of the local agency issued to finance the rehabilitation of the historical property of a particular participating party without distinction or priority. The local agency, however, in any such resolution may provide that such sinking or other similar fund shall be the fund for a particular historical rehabilitation project or projects and for the bonds issued to finance such historical

rehabilitation project or projects and may, additionally, authorize and provide for the issuance of bonds having a lien with respect to the security authorized by this section which is subordinate to the lien of other bonds of the local agency, and, in such case, the local agency may create separate sinking or other similar funds securing the bonds having the subordinate lien.

(c) Pay operating and administrative costs of the local agency incurred in the administration of the program authorized by this part.

37662. All moneys received pursuant to the provisions of this part, whether proceeds from the sale of bonds or revenues, shall be deemed to be trust funds to be held and applied solely as provided in this part. Any bank or trust company in which such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes specified in this part, subject to the terms of the resolution authorizing the bonds.

CHAPTER 5. CONSTRUCTION AND EFFECT

37680. This part being necessary for the welfare of the state and its inhabitants, shall be liberally construed to effect its purposes.

37681. If the jurisdiction of the legislative body to order the proposed act is not affected, an omission of any officer or the local agency in proceedings under this part or any other defect in the proceedings shall not invalidate the proceedings or bonds issued pursuant to this part.

37682. This part is full authority for the issuance of bonds by a local agency for the purpose of financing historical rehabilitation.

Supplemental and Additional Authority

37683. This part shall be deemed to provide a complete, additional, and alternative method for doing the things authorized thereby, and shall be regarded as supplemental and additional to the powers conferred by other laws. The issuance of bonds and refunding bonds under the provisions of this part need not comply with the requirements of any other law applicable to the issuance of bonds.

37684. An action may be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure to determine the validity of bonds and the legality and validity of all proceedings previously taken and (as provided in the bond resolution) proposed to be taken for the authorization, issuance, sale, and delivery of the bonds and for the payment of the principal thereof and interest thereon.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 1346

An act to amend Sections 10153.6, 10153.7, 10156.2, 10161.5, 10161.7, 10177, and 10463 of, and to add and repeal Article 2.5 (commencing with Section 10170) to Chapter 3 of Part 1 of Division 4 of, and Section 10209.2 to, the Business and Professions Code, relating to real estate licensees.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 10153.6 of the Business and Professions Code is amended to read:

10153.6. All real estate broker licenses issued by the commissioner shall be for a period of four years.

Applicants must qualify in the appropriate examination and satisfy all other requirements prior to issuance of the license.

The four-year license may be renewed upon filing the required application and fee, and complying with the provisions of Article 2.5 (commencing with Section 10170) of this chapter.

SEC. 2. Section 10153.7 of the Business and Professions Code is amended to read:

10153.7. All real estate salesman licenses issued by the commissioner shall be for a period of four years.

Applicants must qualify in the appropriate examination, submit a recommendation of the broker who is to be his employer certifying that the applicant is honest, truthful, and of good reputation, and satisfy all other requirements prior to issuance of the license.

The four-year license may be renewed upon filing the required application and fee, and complying with the provisions of Article 2.5 (commencing with Section 10170) of this chapter.

SEC. 3. Section 10156.2 of the Business and Professions Code is amended to read:

10156.2. An application on the form prescribed by the commissioner for the renewal of a license, filed before midnight of the last day of the period for which a previous renewal license was issued, accompanied by the applicable renewal fee and good faith evidence of compliance with the provisions of Article 2.5 (commencing with Section 10170) of this chapter, entitles the applicant to continue operating under his existing license after its specified expiration date, if not previously suspended or revoked.

4332 289315 948

If the commissioner determines that the applicant has not complied with the continuing education requirements he shall either (1) advise the applicant of the applicability of Section 10171.2 on an extended period for compliance; or (2) advise the applicant that his rights to operate under the prior license will expire five days from the date such notice is mailed, or on the date the license would normally expire, whichever is later; and the commissioner's reason for that determination, and the right of the applicant to request a hearing on the decision.

SEC. 4. Section 10161.5 of the Business and Professions Code is amended to read:

10161.5. When the holder of a real estate broker's or salesman's license is required to relinquish his license to assume an office in local, state, or federal government, he may have it reinstated at any time within six months of termination of his service in office upon payment of the appropriate renewal fee, and compliance with the provisions of Article 2.5 (commencing with Section 10170) of this chapter, if the relinquished license was issued four or more years prior to his application for reinstatement.

SEC. 5. Section 10161.7 of the Business and Professions Code is amended to read:

10161.7. The license of a real estate broker or salesman may be inactivated within the period for which the license was issued by notifying the commissioner in writing of the inactivation and paying the prescribed fee. The change of status from active to inactive shall be made by the licensee on the active license by marking out all but the licensee's name on the face of the license; by typing or writing in ink on the reverse side the words "Inactive License"; and by typing or writing the licensee's residence address, and date and placing his initials thereon.

An inactive license which is not suspended or revoked may be reinstated at any time during the period for which the license was issued, and may be renewed each four-year period upon the making of application therefor and the payment of the appropriate fee. Compliance with Section 10171 is not required for renewal of a license in an inactive status.

Notwithstanding any other provision of this part:

(a) If the license is inactivated or the right to renew the license has not been exercised for a continuous period of more than six months, the license may be reinstated or renewed after a lapse of 30 days of application for renewal or reinstatement.

(b) On or after July 1, 1980, any license which has been inactive for a continuous period of five years may be reinstated or renewed provided the licensee complies with the provisions of Section 10171.6 and has met the examination requirement of an original applicant.

An inactive broker need not maintain a place of business as required by Section 10162.

An inactive licensee shall not be entitled to act in any capacity for which the license is required until the license has been reinstated.

SEC. 6. Article 2.5 (commencing with Section 10170) is added to Chapter 3 of Part 1 of Division 4 of the Business and Professions Code, to read:

Article 2.5. Continuing Education

10170. The Legislature has determined that it is in the public interest of consumer protection and consumer service that all real estate licensees licensed under the provisions of this part comply with continuing education requirements adopted by the commissioner pursuant to this article as a prerequisite to the renewal of real estate licenses on and after January 1, 1981.

10170.2. The commissioner may appoint a committee comprised of licensees under this part and persons with expertise in real estate education to advise him with respect to his responsibilities under this article.

10170.4. By January 1, 1978, the commissioner shall adopt regulations pursuant to Section 10080, to prescribe:

(a) A definition of basic requirements for continuing education of 45 clock hours of attendance at approved educational courses, seminars, or conferences, or their equivalent, achieved during a four-year period preceding renewal application;

(b) A basis and method of qualifying educational programs, the certification of attendance at which, or challenging the course of which, will satisfy the requirements of this article;

(c) A procedure for evaluation of petitions based on a claim of equivalency with the requirements of subdivision (a), and a reasonable standard by which activity would be judged equivalent, including, but not limited to, instruction in real estate subjects, publication of professional articles or books, or development of real estate educational programs, law or research;

(d) A system of control and reporting qualifying attendance;

(e) A statement of the conditions of exemption from the continuing education requirements established under this article, as well as a method of applying and qualifying for such exemptions, for reasons of health, military service, or other compelling cause, including a showing of hardship in connection with the reinstatement of an inactive license.

In exercising the authority under this article, the commissioner shall establish standards which will assure reasonable currency of knowledge as a basis for a level of real estate practice which will provide a high level of consumer protection and service. The standards shall permit a variety of alternatives of subject material to licensees taking cognizance of specialized areas of practice, and alternatives in sources of programs considering availability in area and time. The standards shall include, where qualified, generally accredited educational institutions, private vocational schools, correspondence institutions, educational programs and seminars of professional societies and organizations, other organized educational

4332 289360 957

programs on technical subjects, or equivalent offerings.

10170.6. The commissioner may amend or repeal any regulation adopted pursuant to this article in the same manner as provided for adoption of such regulations, except that no amendment or repeal shall operate to deprive any licensee of the right to submit qualifying education completed pursuant to such amended or repealed regulation during his current license term, as a basis for license renewal.

10171. On and after January 1, 1981, no active broker or salesman license shall be renewed unless the commissioner finds that the applicant for such renewal license has completed the continuing education required by this chapter. Any denial of license renewal shall be subject to the provisions of Section 10100.

10171.2. If an applicant for a renewal license has submitted, in good faith, evidence of completion of continuing education which he had reason to believe would qualify him for license renewal, but the commissioner finds that the evidence submitted does not qualify under standards adopted pursuant to this article, the commissioner may, nonetheless, extend the license for 90 days in order to allow the applicant to submit additional evidence of compliance, which satisfies the requirements of this article. When the renewal license is issued during or at the end of the grace period provided for in this section it shall expire four years from the date otherwise applicable if no grace period had been granted.

10171.4. Any licensee who applies for renewal of his license under provisions of Section 10461, or for reinstatement of his license under provisions of Section 10161.5 or 10463, shall, if the previous active license issued to him was issued four or more years prior to his application for renewal or reinstatement, present evidence of compliance with Section 10171. If no such qualifying evidence is presented, the commissioner may issue a temporary license for a period of 90 days.

If the applicant presents evidence within such 90 days of compliance with Section 10171 and is otherwise qualified, the commissioner shall issue a regular license without additional fee. It shall expire four years from the date which would otherwise have been applicable if a temporary license under the provisions of this section had not been issued.

10171.6. Any licensee who applies for reinstatement of his license under the provisions of Section 10161.7, shall, if the previous active license issued to him was issued four or more years prior to his application for reinstatement, present evidence of compliance with Section 10171. If no such qualifying evidence is presented, the commissioner may reactivate the license for a period of 90 days upon a showing of hardship.

If the applicant presents evidence within such 90 days of compliance with Section 10171 and is otherwise qualified, the commissioner shall fully reactivate the license without additional fee.

SEC. 7. Section 10177 of the Business and Professions Code is

amended to read:

10177. The commissioner may suspend or revoke the license of any real estate licensee, or may deny the issuance of a license to an applicant, who has done any of the following:

(a) Procured, or attempted to procure, a real estate license or license renewal, for himself or any salesman, by fraud, misrepresentation or deceit, or by making any material misstatement of fact in an application for a real estate license, license renewal or reinstatement.

(b) Entered a plea of guilty or nolo contendere to, or been found guilty of, or been convicted of, a felony or a crime involving moral turpitude, and the time for appeal has elapsed or the judgment of conviction has been affirmed on appeal, irrespective of an order granting probation following such conviction, suspending the imposition of sentence, or of a subsequent order under the provision of Section 1203.4 of the Penal Code allowing such licensee to withdraw his plea of guilty and to enter a plea of not guilty, or dismissing the accusation or information.

(c) Knowingly authorized, directed, connived at or aided in the publication, advertisement, distribution, or circulation of any material false statement or representation concerning his business, or any business opportunity or any land or subdivision (as defined in Chapter 1 (commencing with Section 11000) of Part 2 of this division) offered for sale.

(d) Willfully disregarded or violated any of the provisions of the Real Estate Law (commencing with Section 10000 of this code) or of Chapter 1 (commencing with Section 11000) of Part 2 of this division or of the rules and regulations of the commissioner for the administration and enforcement of the Real Estate Law and Chapter 1 of Part 2 of this division.

(e) Willfully used the term "realtor" or any trade name or insignia of membership in any real estate organization of which the licensee is not a member.

(f) Acted or conducted himself in a manner which would have warranted the denial of his application for a real estate license.

(g) Demonstrated negligence or incompetence in performing any act for which he is required to hold a license.

(h) If, as a broker licensee, failed to exercise reasonable supervision over the activities of his salesmen.

(i) Has used his employment by a governmental agency in a capacity giving access to records, other than public records, in such manner as to violate the confidential nature of such records.

(j) Any other conduct, whether of the same or a different character than specified in this section, which constitutes fraud or dishonest dealing.

(k) Violated any of the terms, conditions, restrictions, and limitations contained in any order granting a restricted license.

(*l*) Solicited or induced the sale, lease or the listing for sale or lease, of residential property on the ground, wholly or in part, of loss

of value, increase in crime, or decline of the quality of the schools, due to the present or prospective entry into the neighborhood of a person or persons of another race, color, religion, ancestry or national origin.

(m) Violated any of the provisions of the Franchise Investment Law (Division 5 (commencing with Section 31000) of Title 4 of the Corporations Code) or any regulations of the Corporations Commissioner pertaining thereto.

SEC. 8. Section 10209.2 is added to the Business and Professions Code, to read:

10209.2. The commissioner shall, by regulation, establish fees for applications for approval of educational courses, seminars or conferences as authorized by Section 10170.4 in an amount sufficient to cover the cost of processing such applications.

SEC. 9. Section 10463 of the Business and Professions Code is amended to read:

10463. Any person who would qualify as a military licensee except for the failure to notify the commissioner of his entry into the military service of the United States may apply to the commissioner for reinstatement of his license upon resuming business or within one year following termination of military service, whichever is earlier. The commissioner shall reinstate such an applicant if he finds that the applicant would be entitled to the privileges of this article except for his failure to give the commissioner notice of his entry into the military service of the United States and that the applicant has complied with Article 2.5 (commencing with Section 10170). In the event the applicant failed to notify the commissioner of his entry into the military service as provided, he shall be required to submit proof of his previous licensure within seven years of the date of entry into the military service to permit reinstatement of his license.

SEC. 10. The commissioner shall before February 15, 1982, and again before February 15, 1983, report to the Governor and to the Legislature, the experience under this program for the prior calendar year indicating the number of licenses renewed and an analysis showing the source of education presented by the applicant for renewal including: (1) educational programs and seminars of professional societies and organizations, (2) private vocational schools, (3) correspondence institutions, (4) the University of California, (5) the California State University and Colleges, (6) California community colleges, (7) other institutions of collegiate grade, (8) other organized educational programs on technical subjects, and (9) programs or work accepted by the commissioner as equivalent.

SEC. 11. Section 6 of this act shall be operative until January 1, 1985, and on such date is repealed.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 3351 of the Labor Code is amended to read:

3351. "Employee" means every person in the service of an employer under any appointment or contract of hire or apprenticeship, express or implied, oral or written, whether lawfully or unlawfully employed, and includes:

(a) Aliens and minors.

(b) All elected and appointed paid public officers.

(c) All officers and members of boards of directors of quasi-public or private corporations while rendering actual service for such corporations for pay; provided that, where the officers and directors of any such private corporation are the sole shareholders thereof, the corporation and such officers and directors shall come under the compensation provisions of this division only by election as provided in subdivision (a) of Section 4151.

(d) Any person employed by the owner of a private dwelling whose duties are incidental to the ownership, maintenance, or use of the dwelling, including the performance of household domestic service. For the purposes of this subdivision, household domestic service shall include, but not be limited to, the care and supervision of children in a private residence.

(e) All persons incarcerated in a state penal or correctional institution while engaged in assigned work.

SEC. 2. Section 3352 of the Labor Code is amended to read:

3352. "Employee" excludes:

(a) Any person defined in subdivision (d) of Section 3351 who is employed by his parent, spouse, or child.

(b) Any person performing services in return for aid or sustenance only, received from any religious, charitable, or relief organization.

(c) Any person holding an appointment as deputy clerk, deputy sheriff, or deputy constable appointed for his own convenience, and who receives no compensation from the county or municipal corporation or from the citizens thereof for his services as such deputy. This exclusion is operative only as to employment by the county or municipal corporation and does not deprive any person so deputized from recourse against a private person employing him for injury occurring in the course of and arising out of such employment.

4627 289435 972

(d) Any person performing voluntary services at or for a recreational camp, hut or lodge operated by a nonprofit organization, exempt from federal income tax under Section 101(6) of the Internal Revenue Code, of which he or a member of his family is a member and who receives no compensation for such services other than meals, lodging or transportation.

(e) Any person performing voluntary service as a ski patrolman who receives no compensation for such services other than meals or lodging or the use of ski tow or ski lift facilities.

(f) Any person employed by a ski lift operator to work at a snow ski area who is relieved of and not performing any prescribed duties, while participating in recreational activities on his own initiative.

(g) Any person, other than a regular employee, participating in sports or athletics who receives no compensation for such participation other than the use of athletic equipment, uniforms, transportation, travel, meals, lodgings, or other expenses incidental thereto.

SEC. 3. Section 3364.55 of the Labor Code is amended to read:

3364.55. A ward of the juvenile court engaged in rehabilitative work without pay, under an assignment by order of the juvenile court to a work project on public property within the jurisdiction of any governmental entity, including the federal government, shall, upon the adoption of a resolution of the board of supervisors declaring that such ward is deemed an employee of the county for purposes of this division, be entitled to the workers' compensation benefits provided by this division for injury sustained while in the performance of such assigned work project, provided:

(a) That such ward shall not be entitled to any temporary disability indemnity benefits.

(b) That in determining permanent disability benefits, average weekly earnings shall be taken at the minimum provided therefor in Section 4453.

SEC. 4. Section 3365 of the Labor Code is amended to read:

3365. For the purposes of this division:

(a) Except as provided in subdivisions (b) and (c), each person engaged in suppressing a fire pursuant to Section 4153 or 4436 of the Public Resources Code, and each person (other than an independent contractor or an employee of an independent contractor) engaged in suppressing a fire at the request of a public officer or employee charged with the duty of preventing or suppressing fires, is deemed, except when the entity is the United States or an agency thereof, to be an employee of the public entity that he is serving or assisting in the suppression of the fire, and is entitled to receive compensation from such public entity in accordance with the provisions of this division. When the entity being served is the United States or an agency thereof, the State Department of Corrections shall be deemed the employer and the cost of workers' compensation may be considered in fixing the reimbursement paid by the United States for the service of prisoners. A person is engaged in suppressing a fire

only during the period he (1) is actually fighting the fire, (2) is being transported to or from the fire, or (3) is engaged in training exercises for fire suppression.

(b) A member of the armed forces of the United States while serving under military command in suppressing a fire is not an employee of a public entity.

(c) Neither a person who contracts to furnish aircraft with pilots to a public entity for fire prevention or suppression service, nor his employees, shall be deemed to be employees of the public entity; but a person who contracts to furnish aircraft to a public entity for fire prevention or suppression service and to pilot the aircraft himself shall be deemed to be an employee of the public entity.

SEC. 5. Section 3370 is added to the Labor Code, to read:

3370. (a) Each inmate of a state penal or correctional institution shall be entitled to the workers' compensation benefits provided by this division for injury arising out of and in the course of assigned employment and for the death of such inmate if the injury proximately causes death, subject to all of the following conditions:

(1) Such inmate was not injured as the result of an assault in which the inmate was the initial aggressor, or as the result of the intentional act of the inmate injuring himself.

(2) Such inmate shall not be entitled to any temporary disability indemnity benefits while incarcerated in a state prison.

(3) No benefits shall be paid to an inmate while he is incarcerated. The period of benefit payment shall instead commence upon release from incarceration. If an inmate who has been released from incarceration, and has been receiving benefits under this section, is reincarcerated in a state penal or correctional institution, such benefits shall cease immediately upon the inmate's reincarceration and shall not be paid for the duration of such reincarceration.

(4) In determining temporary and permanent disability indemnity benefits for such inmate, the average weekly earnings shall be taken at not less than the minimum amount set forth in Section 4453.

(5) Where a dispute exists repecting an inmate's rights to the workers' compensation benefits provided herein, the inmate may file an application with the appeals board to resolve the dispute. Such application may be filed at any time during the inmate's incarceration.

(6) After release or discharge from a correctional institution, the former inmate shall have one year in which to file an original application with the appeals board, unless the time of injury is such that it would allow more time under Section 5804 of the Labor Code.

(7) The percentage of disability to total disability shall be determined as for the occupation of a laborer of like age by applying the schedule for the determination of the percentages of permanent disabilities prepared and adopted by the administrative director.

(8) The provisions of this division shall be the exclusive remedy against the state for injuries occurring while engaged in assigned

work. Nothing in this division shall affect any right or remedy of an injured inmate for injuries not compensated by this division.

(b) The Department of Corrections shall present to each inmate of a state penal or correctional institution, prior to his first assignment to work at such institution, a printed statement of his rights under this division, and a description of procedures to be followed in filing for benefits under this section. Such a statement shall be approved by the administrative director and be posted in a conspicuous place at each place where an inmate works.

(c) Notwithstanding any other provision of this division, the Department of Corrections shall have medical control over treatment provided an injured inmate while incarcerated in a state prison, except, that in serious cases, the inmate is entitled, upon request, to the services of a consulting physician.

SEC. 6. Section 3371 is added to the Labor Code, to read:

3371. The assigned referee of the appeals board may, if the inmate applicant requests, or if the issues are complex, refer the applicant to a panel of qualified workers' compensation attorneys in the geographical area, from which panel the applicant may choose his attorney for the proceedings. The attorney so chosen, and accepting the case, shall be awarded a reasonable fee set by the referee and paid by the Department of Corrections. This section applies only to proceedings held while the applicant is an inmate of a correctional institution. After release or discharge the applicant's obligation respecting attorney fees is the same as that of any other injured employee claimant before the appeals board.

SEC. 7. Section 4458 of the Labor Code is amended to read:

4458. If a member registered as an active firefighting member of any regularly organized volunteer fire department as described in Section 3361 suffers injury or death while in the performance of his duty as fireman, or if a person engaged in fire suppression as described in Section 3365 suffers injury or death while so engaged, then, irrespective of his remuneration from this or other employment or from both, his average weekly earnings for the purposes of determining temporary disability indemnity and permanent disability indemnity shall be taken at the maximum fixed for each, respectively, in Section 4453. Four times his average annual earnings in disability cases and in death cases shall be taken at the maximum limits provided in Sections 4452 and 4702 respectively.

SEC. 8. Section 2601 of the Penal Code is amended to read:

2601. Notwithstanding any other provision of law, each such person shall have the following civil rights:

(a) To inherit, own, sell, or convey real or personal property, including all written and artistic material produced or created by such person during the period of imprisonment; provided that, to the extent authorized in Section 2600, the Department of Corrections may restrict or prohibit sales or conveyances that are made for business purposes.

(b) To correspond, confidentially, with any member of the State

Bar or holder of public office, provided that the prison authorities may open and inspect incoming mail to search for contraband.

(c) To purchase, receive, read, and permit other inmates to read any and all legal materials, newspapers, periodicals, and books accepted for distribution by the United States Post Office, except those which describe the making of any weapon, explosive, poison or destructive device. Nothing in this section shall be construed as limiting the right of prison authorities (1) to open and inspect any and all packages received by an inmate and (2) to establish reasonable restrictions as to the number of newspapers, magazines, and books that the inmate may have in his cell or elsewhere in the prison at one time.

(d) To have personal visits; provided that the department may provide such restrictions as are necessary for the reasonable security of the institution.

(e) To initiate civil actions.

(f) To marry.

(g) To create a power of appointment.

(h) To make a will.

(i) To receive all benefits provided for in Sections 3370 and 3371 of the Labor Code and in Section 5069 of this code.

SEC. 9. Section 2700 of the Penal Code is amended to read:

2700. The Department of Corrections shall require of every able-bodied prisoner imprisoned in any state prison as many hours of faithful labor in each day and every day during his term of imprisonment as shall be prescribed by the rules and regulations of the Director of Corrections.

Each prisoner, who is engaged in productive work in any state prison or institution under the jurisdiction of the Department of Corrections as a part of the prison work program, may receive for his work such compensation as the Director of Corrections with the approval of the Department of Finance shall determine, to be paid out of any funds appropriated therefor. Such compensation, if any, shall be in accordance with a graduated schedule based on quantity and quality of work performed and skill required for its performance, but in no event shall such compensation exceed thirty-five cents ($0.35) per hour, or be less than two cents ($0.02) per hour. Said compensation shall be credited to the account of the prisoner.

Such compensation shall be paid from the Correctional Industries Revolving Fund. Whenever by any statute a price is required to be fixed for any article, material, supply or services to be produced, manufactured, supplied or performed in connection with the work program of the Department of Corrections, the compensation paid to prisoners shall be included as an item of cost in fixing the final statutory price.

Prisoners not engaged on work programs under the jurisdiction of the Correctional Industries Commission and financed out of the Correctional Industries Revolving Fund, but who are engaged in productive labor outside of such programs may be compensated in

like manner. The compensation of such prisoners shall be paid either out of funds appropriated by the Legislature for that purpose or out of such other funds available to the Department of Corrections for expenditure, as the Director of Finance may direct.

When any prisoner escapes, the director shall determine what portion of his earnings shall be forfeited and such forfeiture shall be deposited in the State Treasury in a fund known as the Inmate Welfare Fund of the Department of Corrections.

SEC. 10. Section 2766 of the Penal Code is amended to read:

2766. This article is not intended to restore, in whole or in part, the civil rights of any prisoner used hereunder, and such article shall not be so construed.

SEC. 11. Section 2791 of the Penal Code is amended to read:

2791. This article is not intended to restore, in whole or in part, the civil rights of any convict used hereunder, and such article shall not be so construed.

SEC. 12. Section 5069 is added to the Penal Code, to read:

5069. (a) The administrative director of the Division of Industrial Accidents shall formulate procedures for the selection and orderly referral of injured inmates of state penal or correctional institutions who may be benefited by rehabilitation services and retrained for other positions upon release from incarceration. The State Department of Rehabilitation shall cooperate in both designing and monitoring results of rehabilitation programs for the disabled inmates. The primary purpose of this section is to rehabilitate injured inmates in order that they might engage in suitable and gainful employment upon their release.

(b) The director shall notify the injured inmate of the availability of rehabilitation services in those cases where there is continuing disability of 28 days and beyond. A copy of such notification shall be forwarded to the State Department of Rehabilitation.

(c) The initiation of a rehabilitation plan shall be the responsibility of the director.

(d) Upon establishment of a rehabilitation plan, the injured inmate shall cooperate in carrying it out.

(e) The injured inmate shall receive such medical and vocational rehabilitative services as may be reasonably necessary to restore him to suitable employment.

(f) The injured inmate's rehabilitation benefit is an additional benefit and shall not be converted to or replace any workmen's compensation benefit available to him.

CHAPTER 4.6. INTERCITY CORRIDOR DEMONSTRATION PROGRAM

2170. The Legislature finds as follows:

(a) The Sacramento-Stockton-San Francisco corridor and the Los Angeles-San Diego corridor represent unique locations for multimodal transportation demonstration programs with modern low-capital intensive transportation improvement techniques to encourage greater utilization of ground public transportation facilities.

(b) The conclusions and recommendations contained in the Sacramento-Stockton-San Francisco Bay Area Corridor Study, filed with the Legislature in February of 1975, contained a number of proposals that should be implemented on a demonstration basis.

(c) The conclusions and recommendations contained in the report relating to the Los Angeles-San Diego corridor prepared pursuant to Chapter 1427 of the Statutes of 1974 also contained a number of proposals that should be implemented on a demonstration basis.

2171. The department shall undertake three-year demonstration projects to encourage improved ground public transit services along the Sacramento-Stockton-San Francisco corridor and along the Los Angeles-San Diego corridor. The projects shall consist of the following three elements—project administration and evaluation as described in Section 2172, low-capital intensive improvement programs as described in Sections 2173 and 2176.5, and operating assistance as described in Sections 2174, 2175, and 2176.

2172. The department shall be responsible for the administration, implementation, marketing, and evaluation of the projects. The department shall seek the assistance of an advisory group for each project.

The Secretary of the Business and Transportation Agency shall appoint the advisory groups, which shall include representatives from user groups, consumer groups, the various public and private transit operators serving the area in which the corridor is located, the transportation planning agencies having jurisdiction of the areas within the corridor, the Public Utilities Commission, and other public and private entities affected by the project.

2173. From funds appropriated for such purposes, the Secretary of the Business and Transportation Agency shall enter into an agreement with the National Railroad Passenger Corporation, pursuant to Section 403(b) of the National Railroad Passenger Service Act of 1970 (45 U.S.C. 563(b)), for improvement of railroad track and passenger facilities along the Sacramento-Oakland and Los

Angeles-San Diego corridors.

First priority shall be given to those improvements which the secretary determines make possible time savings, such as those identified in the report prepared pursuant to Chapter 1427 of the Statutes of 1974.

2174. From funds appropriated for such purposes, the Secretary of the Business and Transportation Agency shall enter into an agreement with the National Railroad Passenger Corporation, pursuant to Section 403(b) of the National Railroad Passenger Service Act of 1970 (45 U.S.C. 563(b)), for additional passenger rail service along the Sacramento-San Francisco and Los Angeles-San Diego corridors. Contracts providing for these services shall be executed so that service may begin not later than July 1, 1977.

2174.5. No funds shall be allocated for improvements along the Los Angeles-San Diego corridor until the director determines that an average of four or more passenger trains per day are operating over the facilities to be improved.

2175. From funds appropriated for such purposes, the Secretary of the Business and Transportation Agency may undertake a program to provide feeder bus service between major population or activity centers and the nearest rail terminal served under Section 2174. Such service shall be provided by operators, as defined in Section 99210 of the Public Utilities Code, or by passenger stage corporations, as defined in Section 226 of the Public Utilities Code.

2176. From funds appropriated for such purposes, the Secretary of the Business and Transportation Agency may undertake a program to provide express bus service between Stockton and the San Leandro station of the San Francisco Bay Area Rapid Transit District. Such service shall be provided by operators, as defined in Section 99210 of the Public Utilities Code, or by passenger stage corporations, as defined in Section 226 of the Public Utilities Code.

2176.5. From funds appropriated for such purposes, the Secretary of the Business and Transportation Agency may undertake the construction of intermodal transfer facilities located in conjunction with other rail and bus facilities in communities between Stockton and communities in the San Francisco Bay area.

2177. From funds appropriated by Section 4 of Chapter 1130 of the Statutes of 1975, the Secretary of the Business and Transportation Agency shall make allocations to extend corridor rail services beyond the terminals identified in Section 2171 to population and activity centers which the secretary determines would give the greatest increase in patronage, relative to cost.

2178. The department shall seek federal and local financial assistance in financing the projects.

2179. Prior to the conclusion of the three-year demonstration period, the department shall prepare and submit to the Legislature a report concerning each project. The report shall contain a critical evaluation of the project, together with recommendations for future legislative action. In addition, the department shall submit an annual

progress report to the Legislature during the course of each project.

2180. When considering the feasibility of rail access from the San Francisco Bay area to Sacramento and Stockton, the department shall explore, for future development, the feasibility of providing such access through connection to the San Francisco Bay Area Rapid Transit District transit system in the vicinity of corridors formed by State Highway Routes 4, 24, and 680. The department, in consultation with the district, shall also explore the feasibility of limited extension of the district's rail system to the vicinity of Concord along the Sacramento Northern rights-of-way.

2181. The department, in consultation with the Metropolitan Transportation Commission, shall explore alternate transportation uses of the Southern Pacific Transportation Company rail line proposed to be abandoned between railroad post mile 42.6 in the vicinity of Concord and railroad post mile 63.5 in the vicinity of Dougherty. When exploring alternate uses, the department shall consider use of the line for light rail vehicles, as well as other uses. The department shall report its findings and recommendations to the State Transportation Board and the Public Utilities Commission not later than July 1, 1977.

SEC. 2. Section 1404 of the Probate Code is amended to read:

1404. If the incompetent person is married, such appointment may be made by the spouse.

require either a separate bond from each or a joint and several bond. Where two or more guardians are appointed as coguardians, each shall be governed and liable in all respects as a sole guardian. If the estate does not exceed ten thousand dollars ($10,000), the court may require that the money in the estate be deposited in a bank or trust company or be invested in an account in an insured savings and loan association subject to withdrawal only upon the order of the court in which case no bond be required of the guardian. The court shall also confirm an appointment made by will or by deed, whenever requested, upon the same procedure and notice as in the case of appointment by the court.

SEC. 4. Section 1435.2 of the Probate Code is amended to read:

1435.2. As used in this chapter the word incompetent shall mean a legal, not a medical disability and shall be measured by functional inabilities. It shall be construed to mean or refer to any adult person who, in the case of a guardianship of the person, is unable properly to provide for his own personal needs for physical health, food, clothing or shelter, and, in the case of a guardianship of the estate, is substantially unable to manage his own financial resources. "Substantial inability" shall not be evidenced solely by isolated instances of negligence or improvidence.

SEC. 5. Section 1460 of the Probate Code is amended to read:

1460. Any superior court to which application is made as hereinafter provided may appoint a guardian for the person and estate or person or estate of an incompetent person, who is a resident of this state. As used in this division and Division 5 of this code, the phrase "incompetent person," "incompetent," or "conservatee" shall mean a legal, not a medical disability and shall be measured by functional inabilities. It shall be construed to mean or refer to any adult person who, in the case of a guardianship of the person, is unable properly to provide for his own personal needs for physical health, food, clothing or shelter, and, in the case of a guardianship of the estate, is substantially unable to manage his own financial resources. "Substantial inability" shall not be evidenced solely by isolated incidents of negligence or improvidence.

SEC. 6. Section 1461 of the Probate Code is amended to read:

1461. Any relative or friend may file a verified petition alleging that a person is incompetent, and setting forth the names and residences, so far as they are known to the petitioner, of the relatives of the alleged incompetent person within the second degree residing within or without the state. The clerk shall set the petition for hearing by the court and issue a citation directed to the alleged incompetent person setting forth the time and place of hearing so fixed by him.

The citation shall include a specific delineation of the legal standards by which the need for a guardianship is adjudged as stated in Section 1460, and shall state that the alleged incompetent person may be adjudged incompetent and by reason thereof a guardian may be appointed for his person and estate or person or estate, that such

adjudication may transfer his right to contract, manage and control his property, and to fix his residence to the appointed guardian, that the court or a court investigator will explain the nature, purpose and effect of the proceeding to the alleged incompetent person and answer questions concerning such explanation, that the alleged incompetent person shall have the right to appear at such hearing and oppose such petition, that he shall have the right to legal counsel of his own choosing, including the right to have legal counsel appointed for him by the court if he is unable to retain one, and that he has the right to a jury trial if he so desires.

The citation, and a copy of the petition, shall be served upon the alleged incompetent person in the same manner provided for in Section 415.10 or 415.30 of the Code of Civil Procedure or in such manner as may be authorized by the court, at least 10 days before the time of the hearing.

Notice of the nature of the proceedings and of the time and place of the hearing shall be mailed by the petitioner to each of the relatives of the alleged incompetent person named in the petition at least 15 days before the time of hearing unless the time is shortened by the court for good cause shown. The court may order that similar notice be given to other persons in such manner as the court may direct. Any relative or friend of the alleged incompetent person or the alleged incompetent person himself may appear and oppose the petition.

If the alleged incompetent person is within the state and is able to attend, he shall be produced at the hearing, and if he is not able to attend by reason of medical inability, such inability shall be evidenced by the affidavit or certificate of a duly licensed medical practitioner, unless such alleged incompetent person is a patient at a county or state hospital in this state in which case the affidavit or certificate shall be by the medical director or medical superintendent or acting medical director or medical superintendent of such county or state hospital. If the proposed ward is an adherent of a religion whose tenets and practices call for reliance on prayer alone for healing and is under treatment by an accredited practitioner of such religion, an affidavit as to his or her medical inability to attend by the accredited practitioner shall be acceptable.

If the alleged incompetent person is not within the state and if the court determines that his attendance at the hearing is necessary in the interest of justice, the court may order him to be produced at the hearing upon penalty of dismissing the petition if he is not produced. If such an order is made and it is contended that the alleged incompetent person is not able to attend by reason of medical inability such inability shall be evidenced by the affidavit or certificate of a duly licensed medical practitioner.

Emotional or psychological instability shall not be considered good cause for the absence of the alleged incompetent person within the meaning of this section, unless, by reason of such instability,

attendance at the hearing is likely to cause serious and immediate physiological damage to the alleged incompetent person. The medical affidavit shall be evidence only of the alleged incompetent person's medical inability to attend the hearing and shall not be considered in determining the issue of incompetency.

SEC. 7. Section 1461.1 is added to the Probate Code, to read:

1461.1. Upon receipt of the affidavit or certificate attesting to the proposed ward's inability to attend the hearing, the court shall appoint a court investigator to personally interview the proposed ward and to inform him as to the contents of the citation, the nature, purpose and effect of the proceeding, and of his right to oppose the proceeding, attend the hearing, have the matter tried by jury and be represented by counsel. The investigator shall also determine whether it appears that the proposed ward is unable to attend the hearing, whether the proposed ward wishes to contest the establishment of the guardianship, whether the proposed ward wishes to be represented by counsel, and if so, whether the proposed ward has retained counsel, and if not, the name of an attorney the proposed ward wishes to retain.

If the proposed ward does not wish to contest the establishment of the guardianship, the investigator shall determine if the proposed ward objects to the proposed guardian, or if he prefers another person to act as guardian.

The court investigator shall report his findings, including the proposed ward's express statement concerning representation by counsel, in writing, to the court at least five days before the date set for hearing.

As used in this chapter, a "court investigator" or "investigator" is a person trained in law who is an officer or special appointee of the court with no personal or other beneficial interest in the proceedings.

SEC. 8. Section 1461.3 of the Probate Code is amended to read:

1461.3. If the alleged incompetent person is a patient in or on leave of absence from a state institution under the jurisdiction of the State Department of Health and such fact is known to the petitioner, the petitioner shall name the institution in the petition, and shall give notice of the filing of the petition for appointment of a guardian and of the time and place of the hearing by mailing such notice and a copy of the petition to the Director of the State Department of Health at his office in Sacramento at least 15 days before the hearing unless the time is shortened by the court for good cause shown.

SEC. 9. Section 1461.5 of the Probate Code is amended to read:

1461.5. Prior to the appointment of a guardian for the person and estate or person or estate of an incompetent person, the court shall inform the alleged incompetent person as to the nature and purpose of the guardianship proceeding, that the appointment of a guardian for his person and estate or person or estate is a legal adjudication of his incompetence, the effect of such an adjudication on his basic rights the identity of the person who has been nominated as his

guardian, that he has a right to oppose such proceeding, to have the matter tried by jury, and to be represented by legal counsel if he chooses. After communicating such information to the person and prior to the appointment of his guardian, the court shall consult the person to determine his opinion concerning the appointment. Any adult developmentally disabled person for whom guardianship or conservatorship is sought pursuant to this article shall be informed of his right to counsel by the court; and if he does not have an attorney for the proceedings the court shall immediately appoint the public defender or other attorney to represent him. The person shall pay the cost for such legal service if he is able.

If the alleged incompetent person is unable to attend the hearing and such inability has been medically certified pursuant to Section 1461, the provisions of this section shall not apply.

SEC. 10. Section 1462 of the Probate Code is amended to read:

1462. If, upon the hearing, it appears to the court that the person in question is insane or incompetent, the court must appoint a guardian of his person and estate, or person or estate. In awarding letters of guardianship, the court shall give preference to such person as may have been designated by will or deed, unless good cause to the contrary is shown.

Before letters of guardianship may issue, a copy of the order appointing the guardian shall be served by mail upon the ward. The order shall contain the names, addresses, and telephone numbers of the guardian, the ward's attorney, if any, and the court investigator, if any.

The selection of a guardian of the person and estate or person or estate shall be solely in the discretion of the court. Among persons equally qualified in the opinion of the court to be appointed as guardian, preference is to be given as follows:

(1) To the ward's nominee under Section 1463.

(2) To the spouse of a married ward or the nominee of such spouse, unless an action for dissolution of marriage is pending;

(3) To an adult child of the ward or the nominee of such child;

(4) To a parent of the ward or the nominee of such parent;

(5) To a brother or sister of the ward or the nominee of such brother or sister;

(6) To any qualified person or corporation upon the appropriate petition to the court, or if there is no such person or corporation qualified and willing to act in such capacity, to the public guardian under Section 8006 of the Welfare and Institutions Code.

The preference for any nominee to appointment under subdivisions (3), (4), and (5) shall be subordinate to the preference for any other child, parent, brother or sister in such class.

SEC. 11. Section 1470 of the Probate Code is amended to read:

1470. Any person who has been declared incompetent and for whom a guardian has been appointed as an incompetent person, or the guardian, or any relative or friend, may apply, by petition, to the superior court of the county in which such person was declared

incompetent, or from which letters of guardianship were issued, to have the fact of his restoration to capacity judicially determined. The petition must be verified, and must state that such person is then competent.

SEC. 12. Section 1471 of the Probate Code is amended to read:

1471. The clerk shall set the petition for hearing by the court. At the request of the person so declared incompetent the question of his restoration to capacity must be tried by a jury, which must be summoned and impaneled in the same manner as juries in civil actions. At least five days' notice of the trial or hearing must be given to the person so declared incompetent and to the guardian of such person, and to the person's spouse, if any, and to his or her father and mother, if in the state.

SEC. 13. Section 1472 of the Probate Code is amended to read:

1472. On the trial or hearing, the person so declared incompetent and the guardian of such person, or any relative of such person, and, in the discretion of the court, any other person, may contest the right to the relief demanded. Witnesses may be required to appear and testify, as in civil cases, and may be called and examined by the court on its own motion. If it is found that the person in question is competent and capable of managing and taking care of himself and his property, his restoration to capacity must be adjudged and the guardianship of such person, if not a minor, must cease.

SEC. 14. Section 1500 of the Probate Code is amended to read:

1500. Every guardian has the care and custody of the person of his ward and the management of his estate, or the care and custody of the person of his ward or the management of his estate, according to the order of appointment, until legally discharged, or until his ward is restored to capacity pursuant to Chapter 5 (commencing with Section 1470) of this division, whichever shall occur first, or, in case of the guardianship of the person of a minor, until the minor reaches the age of majority or marries, or, as to the guardianship of his estate, until the ward attains his majority as provided in Section 25 of the Civil Code. The guardian of a minor also has charge of the education of the minor. The guardian of the person of a ward may fix the residence of the ward at any place in the state, but not elsewhere without the permission of the court.

No person for whom a guardian of the person has been appointed shall be placed in a mental health treatment facility against his will. Involuntary civil mental health treatment for a ward shall be obtained only pursuant to the provisions of Article 1 (commencing with Section 5150), Article 1.5 (commencing with Section 5170), Article 2 (commencing with Section 5200), Article 3 (commencing with Section 5225), Article 4 (commencing with Section 5250) Article 4.5 (commencing with Section 5260), Article 5 (commencing with Section 5275), Article 6 (commencing with Section 5300), Article 7 (commencing with Section 5325), Article 8 (commencing with Section 5340), and Chapter 3 (commencing with Article 5350) of Division 5 of the Welfare and Institutions Code.

(a) A person who is not a ward shall not be presumed to be incompetent by virtue of his having been a ward under the provisions of this division.

(c) The guardian shall promptly advise the court issuing the letters of guardianship in writing of all changes in the residence of the ward.

SEC. 15. Section 1500.1 is added to the Probate Code, to read:

1500.1. Each guardianship initiated pursuant to this chapter shall be reviewed by the court one year after the appointment of the guardian and biennially thereafter. The court investigator shall visit the ward and personally inform the ward that he is under a guardianship and the name of his guardian. The investigator shall also determine whether the ward wishes to petition the court for restoration to capacity, whether the ward is still incompetent, and whether the present guardian is acting in the best interests of the ward.

The findings of the court investigator, including the facts upon which such findings are based, shall be certified in writing to the court within 15 days of the date of review.

If the ward wishes to petition the court for restoration to capacity or for removal of the existing guardian, the court shall notify the attorney of record for the ward, if any, or appoint the public defender or other attorney to file the petition and represent the ward at the hearing or trial.

If, based upon information contained in the court investigator's report, the court determines that a hearing for restoration to capacity or removal of the existing guardian is in the best interests of the ward, the court shall notify the attorney of record for the ward, if any, or appoint the public defender or other attorney to file the petition and represent the ward at the hearing or trial.

If the court investigator is unable to locate the ward, the court shall serve notice upon the guardian to produce the ward within 15 days of the receipt of such notice or show cause why the guardianship should not be terminated. If the ward is not produced within the time prescribed and if no good cause is shown for not producing the ward, the court shall terminate the guardianship and order the guardian to file an accounting, if the guardianship is of the estate.

SEC. 16. Section 1500.2 is added to the Probate Code, to read:

SEC. 17. Section 1510 of the Probate Code is amended to read:

1510. If the court approves a compromise of, or the execution of a covenant not to sue on, a minor's disputed claim for damages,

money or other property, or approves a compromise of a pending action or proceeding to which a minor or incompetent person is a party, or gives judgment for such a person, and the money or the value of other property to be paid or delivered under such compromise, covenant, order or judgment does not exceed ten thousand dollars ($10,000), and there is no guardian of the estate of the minor or incompetent person, such court, in its discretion, may require that the remaining balance of any money paid or to be paid under such compromise, covenant, order or judgment, after payment of all expenses, costs and fees as approved and allowed by the court, be deposited in a bank or banks, or a trust company or companies, or be invested in an account or accounts in an insured savings and loan association or associations, or be invested in shares of an insured credit union, subject to withdrawal only upon the order of the court, or it may require a guardian of the estate to be appointed and the money or the other property to be paid or delivered to such guardian, or prescribe such other conditions as the court in its discretion deems to the best interests of the minor or incompetent person; provided, however, that if the money or the value of other property to be paid or delivered under such compromise, covenant, order or judgment does not exceed one thousand dollars ($1,000), and such money or property is to be paid or delivered for the benefit of a minor, the court may direct that all or any part of the money or the property be paid or delivered to a parent of the minor, without bond, upon the terms and under the conditions specified in Section 1430 of the Probate Code. (2) For failure to file an inventory or to render an account within the time allowed by law, or for continued failure to perform his duties;

(3) For incapacity to perform his duties suitably;

(4) For gross immorality or conviction of a felony;

(5) For having an interest adverse to the faithful performance of his trust;

(6) In the case of a guardian of an estate, for insolvency or bankruptcy;

(7) When it is no longer necessary that the ward should be under guardianship; or

(8) In any other case in which the court shall in its discretion deem such removal to be in the best interests of the ward provided, in considering the best interests of the ward, if the guardian was appointed by will or deed, the court shall take that fact into consideration.

(9) In the case of a guardian of the person, failure to comply with the provisions of Section 1500.

SEC. 22. Section 1606 is added to the Probate Code, to read:

1606. In any proceeding for the appointment of a guardian for the person and estate or person or estate of an alleged incompetent person or for restoration of his capacity under this division, the alleged or adjudicated incompetent person shall be represented by legal counsel at the hearing, if he so chooses, irrespective of whether he appears to have capacity to make such choice. If he so chooses, but is unable to retain legal counsel, the court shall, at the time of the

hearing, appoint the public defender or other attorney to represent him.

The court shall hear and determine the matter according to the laws and procedure relating to civil actions, including trial by jury if demanded.

In any case in which the alleged or adjudicated incompetent person is furnished legal counsel, either through the public defender or private counsel appointed by the court, upon conclusion of the hearing, the court shall make a determination of the present ability of the alleged or adjudicated incompetent person to pay all or a portion of the costs of such counsel. If the court determines that the alleged or adjudicated incompetent person has the present ability to pay all or a portion of the costs, it shall order him or the guardian of the estate to pay the sum, in the case of the public defender, to the county, and in the case of private counsel, to such counsel, in any installments and manner which is believed reasonable and compatible with his financial ability. If a guardian is not appointed for the alleged incompetent person, execution may be issued on the order in the same manner as on a judgment in a civil action.

SEC. 23. Section 1631 of the Probate Code is amended to read:

1631. An appeal from an order appointing a guardian for an incompetent person shall stay the power of the guardian, except that, for the purpose of preventing injury or loss to person or property, the court making the appointment may direct the exercise of the powers of the guardian, from time to time, as though no appeal were pending, and all acts of the guardian pursuant to such directions shall be valid, irrespective of the result of the appeal.

SEC. 24. Section 1645 of the Probate Code is amended to read:

1645. (a) The appointment and qualification of a general guardian terminates the powers of the special guardian except for the rendering of his account, unless by reason of an appeal therefrom or other cause the court appointing the general guardian otherwise orders. If so ordered, the court shall fix the time for the termination of the powers of the special guardian.

(b) Except as provided in subdivision (a) the powers of the special guardian shall not extend beyond 30 days unless the court, with or without notice as it may require, for good cause shall extend such powers pending the final determination of the court upon the petition for appointment of a guardian.

SEC. 25. Section 1751 of the Probate Code is amended to read:

1751. Upon petition as provided in this chapter, the superior court, if satisfied by sufficient evidence of the need therefor, shall appoint a conservator of the person and property or person or property of any adult person who, in the case of a conservatorship of the person, is unable properly to provide for his personal needs for physical health, food, clothing or shelter, and, in the case of a conservatorship of the property, is substantially unable to manage his own financial resources, or resist fraud or undue influence, or for whom a guardian could be appointed under Division 4 of this code,

or who voluntarily requests the same and to the satisfaction of the court establishes good cause therefor, or who is an absentee as defined in Section 1751.5. "Substantial inability" shall not be evidenced solely by isolated incidents of negligence or improvidence. The court, in its discretion, may appoint one or more conservators.

SEC. 26. Section 1754 of the Probate Code is amended to read:

1754. Any person or any relative or friend of any person, other than a creditor of the proposed conservatee, may file a verified petition alleging that the appointment of a conservator is required. The petition shall set forth, so far as they are known to the petitioner, the names and residences of the spouse, if any, and of the relatives of the proposed conservatee within the second degree. Upon the filing of the petition, the clerk shall set the petition for hearing by the court. Notice of the nature of the proceedings and of the time and place of the hearing on the petition shall be mailed by the petitioner to the spouse, if any, and to each of such relatives, and if the proposed conservatee is an "absentee" as defined in Section 1751.5, to the secretary concerned or to the head of the United States department or agency concerned, as the case may be, at least 15 days before such hearing date. If the proposed conservatee is an "absentee," as defined in Section 1751.5, such notice shall also be published pursuant to Section 6061 of the Government Code in a newspaper of general circulation in the county in which the proceedings will be held.

If the petition is filed by a person other than the proposed conservatee, the clerk shall issue a citation directed to the proposed conservatee setting forth the time and place of the hearing. The citation shall include a specific delineation of the legal standards by which the need for a conservatorship is adjudged as stated in Section 1751, and shall state that the proposed conservator may be adjudged unable to provide for his personal needs or manage his financial resources, and by reason thereof, a conservator may be appointed for his person and property or person or property, that such adjudication may transfer the proposed conservatees' right to contract, manage and control his property, and to fix his residence to the appointed conservator, that the court or a court investigator will explain the nature, purpose and effect of the proceeding to the proposed conservatee and answer questions concerning such explanation, that the proposed conservatee shall have the right to appear at such hearing and oppose such petition, that he shall have the right to legal counsel of his own choosing, including the right to have legal counsel appointed for him by the court if he is unable to retain one, and that he has the right to a jury trial if he so desires.

The citation, and a copy of the petition, shall be served upon the proposed conservatee in the same manner provided for in Section 415.10 or 415.30 of the Code of Civil Procedure or in such manner as may be authorized by the court, at least 10 days before the time of the hearing. No such citation shall, however, be required if the proposed conservatee is an "absentee" as defined in Section 1751.5.

The proposed conservatee, if he is the petitioner, or if he is in the state at date of service and, if able to attend, shall be produced at the hearing, and, if not able to attend by reason of medical inability, such inability shall be established by the affidavit or certificate of a duly licensed medical practitioner. If the proposed conservatee is an adherent of a religion whose tenets and practices call for reliance on prayer alone for healing and is under treatment by an accredited practitioner of such religion, an affidavit as to his or her medical inability to attend by an accredited practitioner shall be acceptable. Emotional or psychological instability shall not be considered good cause for the absence of the proposed conservatee within the meaning of this section, unless, by reason of such instability, attendance at the hearing is likely to cause serious and immediate physiological damage to the proposed conservatee. The medical affidavit shall be evidence only of the proposed conservatee's medical inability to attend the hearing and shall not be considered in determining the issue of need for appointment of a conservator. If the proposed conservatee is an "absentee" as defined in Section 1751.5 his inability to attend the hearing shall be established by a certificate complying with Section 1283 of the Evidence Code, showing the determination of the Secretary of the Military Department or the head of the department, or agency concerned or his delegate, as the case may be, that the "absentee" is in missing status.

Upon receipt of the affidavit or certificate attesting to the proposed conservatee's inability to attend the hearing, the court shall appoint a court investigator to personally interview the proposed conservatee and to inform him as to the contents of the citation, the nature, purpose and effect of the proceeding, and of his right to oppose the proceeding, attend the hearing, have the matter tried by jury and be represented by counsel. The investigator shall also determine whether it appears that the proposed conservatee is unable to attend the hearing, whether the proposed conservatee wishes to contest the establishment of the conservatorship, whether the proposed conservatee wishes to be represented by counsel, and if so, whether the proposed conservatee has retained counsel, and if not, the name of an attorney the proposed conservatee wishes to retain.

If the proposed conservatee does not wish to contest the establishment of the guardianship, the investigator shall determine if the proposed conservatee objects to the proposed conservator, or if he prefers another person to act as conservator.

The court investigator shall report his findings, including the proposed conservatee's express statement concerning representation by counsel, in writing, to the court at least five days before the date set for hearing.

As used in this chapter, a "court investigator" or "investigator" is a person trained in law who is an officer or special appointee of the court with no personal or other beneficial interest in the proceedings.

Whenever a notice to any officer or agency of this state or of the United States would be required upon a petition for the appointment of a guardian of an alleged incompetent person a like notice shall be given of a petition under this chapter. Any officer or agency of this state or of the United States, or the authorized delegate thereof, or any relative or friend of the proposed conservatee, or the proposed conservatee himself, may appear and oppose the petition.

SEC. 27. Section 1754.1 is added to the Probate Code, to read:

1754.1. If the proposed conservatee is not the petitioner, prior to the appointment of a conservator for the person and estate or person or estate of a proposed conservatee, the court shall inform the proposed conservatee as to the nature and purpose of the proceeding, that the appointment of a conservator for his person and estate or person or estate is a legal adjudication of his inability properly to provide for his personal needs or manage his own financial resources or of his incompetency, the effect of such an adjudication on his basic rights, the identity of the person who has been nominated as his conservator, that he has right to oppose such proceeding, to have the matter tried by jury, and to be represented by legal counsel if he chooses. After communicating such information to the person and prior to the appointment of his conservator, the court shall consult the person to determine his opinion concerning the appointment.

If the proposed conservatee is unable to attend the hearing and such inability has been medically certified pursuant to Section 1754, the provisions of this section shall not apply.

SEC. 28. Section 1801 of the Probate Code is amended to read:

1801. A conservator shall be designated by that title. Before his appointment shall be effective, he must take an oath that he will perform the duties of his office according to law, which oath shall be filed in the proceedings. The appointment as conservator and the taking and filing of such oath shall thereafter be evidenced by the issuance by the clerk of the court of letters of conservatorship in substantially the same form as letters of administration. Before letters of conservatorship may issue, a copy of the order appointing the conservator shall be served by mail upon the conservatee. Such order shall contain the names, addresses, and telephone numbers of the conservator, the conservatee's attorney, if any, and the court investigator, if any.

SEC. 29. Section 1851 of the Probate Code is amended to read:

1851. Every conservator of the person of a conservatee has the care, custody and control of the conservatee and may fix the residence of the conservatee at any place within this state, but not elsewhere without the permission of the court.

No person for whom a conservator of the person has been appointed shall be placed in a mental health treatment facility against his will. Involuntary civil mental health treatment for a conservatee shall be obtained only pursuant to the provisions of

Article 1 (commencing with Section 5150), Article 1.5 (commencing with Section 5170), Article 2 (commencing with Section 5200), Article 3 (commencing with Section 5225), Article 4 (commencing with Section 5250), Article 4.5 (commencing with Section 5260), Article 5 (commencing with Section 5275), Article 6 (commencing with Section 5300), Article 7 (commencing with Section 5325), Article 8 (commencing with Section 5340), and Chapter 3 (commencing with Article 5350) of Division 5 of the Welfare and Institutions Code.

(a) All petitions filed under this chapter shall be set for hearing within 30 days of the filing of such petitions.

(b) The conservator shall promptly advise the court issuing the letters of conservatorship in writing of all changes in the residence of the conservatee.

SEC. 30. Section 1851.1 is added to the Probate Code, to read:

1851.1. Each conservatorship initiated pursuant to this chapter shall be reviewed by the court one year after the appointment of the conservator and biennially thereafter. The court investigator shall visit the conservatee and personally inform the conservatee that he is under a conservatorship and the name of his conservator. The investigator shall also determine whether the conservatee wishes to petition the court for termination of the conservatorship, whether the conservatee is still in need of the conservatorship, and whether the present conservator is acting in the best interests of the ward.

The findings of the court investigator, including the facts upon which such findings are based, shall be certified in writing to the court within 15 days of the date of review.

If the conservatee wishes to petition the court for termination of the proceeding or for removal of the existing conservator, the court shall notify the attorney of record for the conservatee, if any, or appoint the public defender or other attorney to file the petition and represent the conservatee at the hearing or trial.

If, based upon information contained in the court investigator's report, the court determines that a hearing for termination of the proceeding or removal of the existing conservator is in the best interests of the conservatee, the court shall notify the attorney of record for the conservatee, if any, or appoint the public defender or other attorney to file the petition and represent the conservatee at the hearing or trial.

If the court investigator is unable to locate the conservatee, the court shall serve notice upon the conservator to produce the conservatee within 15 days of the receipt of such notice or show cause why the conservatorship should not be terminated. If the conservatee is not produced within the time prescribed and if no good cause is shown for not producing the conservatee, the court shall terminate the conservatorship and order the conservator to file an accounting, if the conservatorship is of the estate.

SEC. 31. Section 1851.2 is added to the Probate Code, to read:

1851.2. For each conservatorship established prior to the

effective date of the amendments to this division adopted at the 1975–76 Regular Session of the Legislature, review pursuant to the terms of Section 1851.1 shall commence at the time of the next financial accounting, but in all cases within three years from the effective date of such amendments.

SEC. 32. Section 1853 of the Probate Code is amended to read:

1853. On the application of the conservator, made at any time, which application may be included in a petition filed pursuant to Section 1754, the court may grant to a conservator of the estate or of the person and estate of a conservatee any or all of the following additional powers, which may be exercised with or without notice, hearings, confirmation, or approval of the court and which may be exercised without regard to whether or not other requirements of this code shall have been complied with, except such requirements as shall have been specifically and expressly provided, whether directly or by reference, in the order granting such additional powers:

To institute and maintain all actions and other proceedings for the benefit of and to defend all actions and other proceedings against the conservatee or the conservatorship estate; to take, collect and hold the property of the conservatee; to contract for the conservatorship and to perform outstanding contracts and thereby bind the conservatorship estate; to operate at the risk of the estate any business, farm or enterprise constituting an asset of the conservatorship, to grant and take options; to sell at public or private sale; to create by grant or otherwise easements and servitudes; to borrow money and give security for the repayment thereof; to purchase real or personal property; to alter, improve and repair or raze, replace and rebuild conservatorship property; to let or lease property for any purpose including exploration for and removal of gas, oil and other minerals and natural resources and for any period, including a term commencing at a future time; to loan money on adequate security; to exchange conservatorship property; to sell on credit provided that any unpaid portion of the selling price shall be adequately secured; to vote in person or by proxy all shares and securities held by the conservator; to exercise stock rights and stock options; to participate in and become subject and to consent to the provisions of any voting trust and of any reorganization, consolidation, merger, dissolution, liquidation or other modification or adjustment affecting conservatorship property; to effect necessary insurance for the proper protection of the estate, to pay, collect, compromise, arbitrate or otherwise adjust any and all claims, debts or demands upon the conservatorship, including those for taxes; to abandon valueless property, and to employ attorneys, accountants, investment counsel, agents, depositaries and employees and to pay the expense therefor from the conservatorship estate.

Such additional powers shall be in addition to the general powers of conservators. The granting of said additional powers shall be discretionary with the court. Notice of the hearing of the application

therefor, except when the application is included in a petition filed pursuant to Section 1754, shall be given in the manner provided in Section 1200, including notice to the conservatee, and whenever any conservatee is or has been during the conservatorship confined in a state hospital in this state, such notice also shall be given by the conservator to the Director of the State Department of Health at his office in Sacramento. When additional powers are granted to a conservator, his letters shall state that he has the powers authorized in this section. If such additional powers are granted by a subsequent order, new letters shall be issued and shall state that he has such power or powers as have been granted. The grant of additional powers to the conservator shall not affect the right of the conservator to petition the court as provided in Section 1860.

SEC. 33. Section 1951 of the Probate Code is amended to read:

1951. A conservator, however appointed, may be removed by the court, after notice and hearing as provided by Section 1755, for any of the following causes:

1. For waste or mismanagement of the estate, or abuse of his trust;

2. For failure to file an inventory or to render an account within the time allowed by law or by court order, or for continued failure to perform his duties;

3. For incapacity to perform his duties suitably;

4. For gross immorality or conviction of a felony;

5. For having an interest adverse to the faithful performance of his trust;

6. In the case of a conservator of an estate, for insolvency or bankruptcy; or

7. When the conservatorship is no longer required.

8. In any other case in which the court shall in its discretion deem such removal to be for the best interests of the conservatee.

9. In the case of a conservator of the person, failure to comply with the provisions of Section 1851.

SEC. 34. Section 2006 is added to the Probate Code, to read:

2006. In any proceeding for the appointment of a conservator for the person and estate or person or estate of a proposed conservatee or for termination of a conservatorship under this division, the proposed conservatee shall be represented by legal counsel at the hearing, if he so chooses, irrespective of whether he appears to have capacity to make such choice. If he so chooses but is unable to retain legal counsel, the court shall, at the time of the hearing, appoint the public defender or other attorney to represent him.

The court shall hear and determine the matter according to the laws and procedure relating to civil actions, including trial by jury if demanded.

In any case in which the proposed conservatee or conservatee is furnished legal counsel, either through the public defender or private counsel appointed by the court, upon the conclusion of the hearing, the court shall make a determination of the present ability of the proposed conservatee or conservatee to pay all or a portion of

the costs of such counsel. If the court determines that the proposed conservatee or conservatee has the present ability to pay all or a portion of the costs, it shall order him or the conservator of the estate to pay the sum, in the case of the public defender, to the county, and in the case of private counsel, to such counsel, in any installments and manner which is believed reasonable and compatible with his financial ability. If a conservator is not appointed for the proposed conservatee, execution may be issued on the order in the same manner as on a judgment in a civil action.

SEC. 35. Section 2206 of the Probate Code is amended to read:

If so ordered the court shall fix the time for the termination of the powers of the temporary conservator.

(b) Except as provided in subdivision (a) the powers of the temporary conservator shall not extend beyond 30 days unless the court, with or without notice as it may require, for good cause shall extend such powers pending the final determination of the court upon the petition for appointment of a conservator.

CHAPTER 1361

An act to amend Section 1812.30 of the Civil Code, relating to credit.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1812.30 of the Civil Code is amended to read:

1812.30. (a) No person, regardless of marital status, shall be denied credit in his or her own name if the earnings and other property over which he or she has management and control are such that a person of the opposite sex managing and controlling the same amount of earnings and other property would receive credit.

(b) No person, regardless of marital status, managing and controlling earnings and other property shall be offered credit on terms less favorable than those offered to a person of the opposite sex seeking the same type of credit and managing and controlling the same amount of earnings and other property.

(c) No unmarried person shall be denied credit if his or her earnings and other property are such that a married person managing and controlling the same amount of earnings and other property would receive credit.

(d) No unmarried person shall be offered credit on terms less favorable than those offered to a married person managing and controlling the same amount of earnings and other property.

(e) For accounts established after January 1, 1977 or for accounts in existence on January 1, 1977 where information on that account is received after January 1, 1977, a credit reporting agency which in its normal course of business receives information on joint credit accounts identifying the persons responsible for such accounts, or receives information which reflects the participation of both spouses, shall: (1) at the time such information is received file such information separately under the names of each person or spouse, or file such information in another manner which would enable either person or spouse to automatically gain access to the credit history without having in any way to list or refer to the name of the other person, and (2) provide access to all information about the account in the name of each person or spouse.

(f) For all accounts established prior to January 1, 1977, a credit reporting agency shall at any time upon the written or personal request of a person who is or has been married, verify the contractual liability, liability by operation of law, or authorized use by such person, of joint credit accounts appearing in the file of the person's spouse or former spouse, and, if applicable, shall file such information separately and thereafter continue to do so under the names of each person responsible for the joint account or in another manner which would enable either person responsible for the joint account to automatically gain access to the credit history without having in any way to list or refer to the name of the other person.

(h) For the purposes of this chapter, earnings shall include, but not be limited to, spousal and child support payments, pensions, social security, disability or survivorship benefits. Spousal and child support payments shall be considered in the same manner as earnings from salary, wages, or other sources where the payments are received pursuant to a written agreement or court decree to the extent that the reliability of such payments is established. The factors which a creditor may consider in evaluating the reliability of such payments are the length of time payments have been received; the regularity of receipt; and whether full or partial payments have been made.

(i) Nothing in this chapter shall be construed to prohibit a person from: (1) utilizing an evaluation of the reliability of earnings provided that such an evaluation is applied to persons without regard to their sex or marital status; or (2) inquiring into and utilizing an evaluation of the obligations for which community property is liable pursuant to the provisions of Title 8 (commencing with Section 5100) of Part 5 of Division 4 for the sole purpose of determining the creditor's rights and remedies with respect to the particular extension of credit, provided that such is done with respect to all applicants without regard to their sex; or (3) utilizing any other relevant factors or methods in determining whether to extend credit to an applicant provided that such factors or methods are applicable

to all applicants without regard to their sex or marital status. For the purpose of this subdivision, the fact that an applicant is of childbearing age is not a relevant factor.

(j) Credit applications for the obtainment of money, goods, labor, or services shall clearly specify that the applicant, if married, may apply for a separate account.

The people of the State of California do enact as follows:

SECTION 1. Section 58762 is added to the Government Code, to read:

58762. Notwithstanding the provisions of Sections 58752 and 58753, the issuance of any proposed bonds of a district whose qualified voters are required to be holders of title to property within the district, exclusive of bonds to be issued pursuant to the Improvement Act of 1911 (Division 7 (commencing with Section 5000) of the Streets and Highways Code) or the Improvement Bond Act of 1915 (Division 10 (commencing with Section 8500) of the Streets and Highways Code), shall be subject to prior investigation, report, and approval, and certification by the State Treasurer. No such district shall incur any of the following kinds of indebtedness or obligations with any public agency, private corporation, or other person, without the prior approval of the State Treasurer:

(a) Warrants payable at a future time or times to obtain funds or property, or notes if, in any year, the sum of the annual principal payment of such indebtedness and the annual principal payment to come due on the aggregate of all outstanding warrants and notes, exceeds the greater of one dollar ($1) per acre of land within the district or subdistrict, or one quarter of 1 percent of the assessed valuation of the land within the district or subdistrict.

(b) Contracts or agreements which obligate the district for periods longer than one year, and the annual principal payment for such obligation to come due in any year is greater than one quarter of 1 percent of the assessed valuation of land within the district or subdistrict.

Such assessed valuation shall be determined from the latest equalized assessment roll or rolls of the counties within which any such district or subdistrict is located. For purposes of this section, the term "bonds" shall include revenue bonds.

SEC. 2. Section 58762.1 is added to the Government Code, to read:

58762.1. (a) Notwithstanding any other provision of law, the members of the governing board of a district may be replaced, upon petition of a holder of outstanding bonds or other instrument of indebtedness as provided in Section 58762 which is in default, by a governing board appointed by the board of supervisors of the county in which the district, or the largest part thereof in area, is located if either one of the following events occurs:

(1) Where the district is in default on the payment of principal or interest on any outstanding bonds or other instruments of indebtedness for a period of 90 days and the holders of such bonds or instruments of indebtedness have not, prior to the date of default, agreed in writing to defer such payment of interest or principal; provided that the provisions of this subdivision shall not apply to contracts which are the subject of litigation between the district and the holder of such instrument to determine the rights and duties of the parties thereunder; or

(2) The district files a petition for reorganization or bankruptcy pursuant to applicable federal bankruptcy laws.

(b) In the event the board of supervisors does not act as provided in subdivision (a) within 90 days of notification by the State Treasurer of such default or of filing of a petition for reorganization or bankruptcy, the State Treasurer may replace the governing board of the district.

(c) Members of the governing board appointed by the board of supervisors or by the State Treasurer, pursuant to this section, shall be residents of the county within which the district or the largest part thereof in area is located, and shall exercise the rights, powers, and duties provided for by law applicable to such district. In selecting members to be appointed, preference shall be given to voters of the district if they are determined to be qualified to adequately perform the duties of a member of the governing board. Members appointed pursuant to this section shall hold office until six months after the State Treasurer determines that the district has corrected the default or the bankruptcy or reorganization proceedings have been completed. In the event a vacancy occurs on such governing board during such period, it shall be filled in the same manner as the original appointment pursuant to this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting such necessity are:

The United States Securities and Exchange Commission has filed a civil fraud action against Quimby Island Reclamation District No. 2090, its trustees, and various other individuals and organizations. Quimby Island Reclamation District No. 2090 has also filed a petition pursuant to the provisions of Chapter IX of the federal bankruptcy laws. In order to protect the high ratings and salability of bonds of

03706 28 11380 217

special districts in California, it is necessary that the provisions of this act go into immediate effect.

CHAPTER 1363

An act to add Section 54957.2 to the Government Code, relating to meetings.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 54957.2 is added to the Government Code, to read:

54957.2. The legislative body of a local agency may, by ordinance or resolution, designate a clerk or other officer or employee of the local agency who shall then attend each executive session of the legislative body and keep and enter in a minute book a record of topics discussed and decisions made at the meeting. The minute book made pursuant to this section is not a public record subject to inspection pursuant to the California Public Records Act (Chapter 3.5 (commencing with Section 6250) of Division 7, Title 1), and shall be kept confidential. The minute book shall be available only to members of the legislative body or, if a violation of this chapter is alleged to have occurred at an executive session, to a court of general jurisdiction wherein the local agency lies. Such minute book may, but need not, consist of a recording of the executive session.

CHAPTER 1364

An act to repeal and add Chapter 1 (commencing with Section 38000) of Division 25 of the Health and Safety Code, relating to developmental disabilities.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1 (commencing with Section 38000) of Division 25 of the Health and Safety Code, as added by Chapter 1594 of the Statutes of 1969, is repealed.

SEC. 2. Chapter 1 (commencing with Section 38000) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 1. GENERAL PROVISIONS

38000. This division shall be known and may be cited as the Lanterman Developmental Disabilities Services Act.

38001. The State of California accepts a responsibility for its developmentally disabled citizens and an obligation to them which it must discharge. Affecting hundreds of thousands of children and adults directly, and having an important impact on the lives of their families, neighbors, and whole communities, developmental disabilities present social, medical, economic, and legal problems of extreme importance.

The complexities of providing services to developmentally disabled persons require the coordinated services of many state departments and community agencies to insure that no gaps occur in communication or provision of services.

Services should be planned and provided as a part of a continuum. A pattern of facilities and services should be established which is sufficiently complete to meet the needs of each person with developmental disabilities, regardless of age or degree of handicap, and at each stage of life. To the maximum extent feasible, services should be available throughout the state to prevent the dislocation of persons with developmental disabilities from their home communities.

Services should be available to enable persons with developmental disabilities to approximate the pattern of everyday living available to nondisabled people of the same age.

The Legislature finds that the mere existence or the delivery of services is, in itself, insufficient evidence of program effectiveness. It is the intent of the Legislature that agencies serving the developmentally disabled shall produce evidence that their services have resulted in more independent, productive, and normal lives for the persons served. The Legislature declares its intent to monitor program results through continued legislative oversight and review of requests for appropriations to support developmental disabilities programs.

38002. Persons with developmental disabilities have the same legal rights and responsibilities guaranteed all other individuals by the Federal Constitution and laws and the Constitution and laws of the State of California. No otherwise qualified person by reason of having a developmental disability shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity, which receives public funds.

It is the intent of the Legislature that persons with developmental disabilities shall have rights including, but not limited to, the following:

(a) A right to treatment and habilitation services. Treatment and habilitation services should foster the developmental potential of the person. Such services shall protect the personal liberty of the

individual and shall be provided with the least restrictive conditions necessary to achieve the purposes of treatment.

(b) A right to dignity, privacy, and humane care.

(c) A right to participate in an appropriate program of publicly supported education, regardless of degree of handicap.

(d) A right to prompt medical care and treatment.

(e) A right to religious freedom and practice.

(f) A right to social interaction and participation in community activities.

(g) A right to physical exercise and recreational opportunities.

(h) A right to be free from harm, including unnecessary physical restraint, or isolation, excessive medication, abuse, or neglect.

(i) A right to be free from hazardous procedures.

38004. Each developmentally disabled person who has been admitted or committed to a state hospital, community care facility as defined in Section 1504, or a health facility as defined in Section 1250 shall have the following rights, a list of which shall be prominently posted in English and Spanish in all facilities providing such services and otherwise brought to his attention by such additional means as the Director of Health may designate by regulation:

(a) To wear his own clothes, to keep and use his own personal possessions including his toilet articles, and to keep and be allowed to spend a reasonable sum of his own money for canteen expenses and small purchases.

(b) To have access to individual storage space for his private use.

(c) To see visitors each day.

(d) To have reasonable access to telephones, both to make and receive confidential calls.

(e) To have ready access to letterwriting materials, including stamps, and to mail and receive unopened correspondence.

(f) To refuse electroconvulsive therapy.

(g) To refuse behavior modification techniques which cause pain or trauma.

(h) To refuse psychosurgery notwithstanding the provisions of Sections 5325, 5326, and 5326.3 of the Welfare and Institutions Code. Psychosurgery means those operations currently referred to as lobotomy, psychiatric surgery, and behavioral surgery and all other forms of brain surgery if the surgery is performed for any of the following purposes:

(1) Modification or control of thoughts, feelings, actions, or behavior rather than the treatment of a known and diagnosed physical disease of the brain.

(2) Modification of normal brain function or normal brain tissue in order to control thoughts, feelings, action, or behavior.

(3) Treatment of abnormal brain function or abnormal brain tissue in order to modify thoughts, feelings, actions, or behavior when the abnormality is not an established cause for those thoughts, feelings, action, or behavior.

(i) Other rights, as specified by regulation.

38005. The professional person in charge of the facility or his designee may, for good cause, deny a person any of the rights specified under subdivisions (a), (b), (c), (d), and (e) of Section 38004. To ensure that these rights are denied only for good cause, the Director of Health shall adopt regulations specifying the conditions under which they may be denied. Denial of a person's rights shall in all cases be entered into the person's treatment record and shall be reported to the Director of Health on a quarterly basis. The content of these records shall enable the Director of Health to identify individual treatment records, if necessary, for future analysis and investigation. These reports shall be available, upon request, to Members of the Legislature. Information pertaining to denial of rights contained in the person's treatment record shall be made available, on request, to the person, his attorney, his parents, his conservator or guardian, the State Department of Health, and Members of the Legislature.

38005.1. For the purposes of subdivisions (f) and (g) of Section 38004, if the patient is a minor age 15 years or over, the right to refuse may be exercised either by the minor or his parent, guardian, conservator, or other person entitled to his custody.

If the patient or his parent, guardian, conservator, or other person responsible for his custody do not refuse the forms of treatment or behavior modification described in subdivisions (f) and (g) of Section 38004, such treatment and behavior modification may be provided only after review and approval by a peer review committee. The Director of Health shall, by March 1, 1977, adopt regulations establishing peer review procedures for this purpose.

38006. It is the intent of the Legislature that the State Department of Health adopt staffing standards in state hospitals serving persons with developmental disabilities which will assure the maximum personal growth and development of those served. By March 1, 1977, the state department shall submit a report to the Legislature on the results of a pilot study of the staffing standards known as Program Review Unit Number 72, and shall include recommendations regarding modifications to such standards or similar standards developed by the state department.

The Legislature shall review and approve or disapprove staffing standards by May 1, 1977.

The state department shall adopt, and to the extent funds are available, begin implementation of the approved standards in the 1977–78 fiscal year.

It is further the intent of the Legislature that the adopted standards be fully implemented by June 30, 1980.

38007. Developmental disabilities alone shall not constitute sufficient justification for judicial commitment. Instead, persons with developmental disabilities shall receive services pursuant to this division. Persons who constitute a danger to themselves or others may be judicially committed if evidence of such danger is proven in court.

38008. Developmentally disabled persons may be released from state hospitals for provisional placement, with parental consent in the case of a minor or with the consent of an adult developmentally disabled person or his guardian or conservator, not to exceed six months, and shall be referred to a regional center for services pursuant to this division. Any person placed pursuant to this section shall have an automatic right of return to the state hospital during the period of provisional placement.

38009. By January 1, 1977, the Director of Health shall compile a roster of all persons who are in the custody of a state hospital, or on leave therefrom, pursuant to an order of judicial commitment as a mentally retarded person made prior to January 1, 1976. The appropriate regional center shall be given a copy of the names and pertinent records of the judicially committed retarded persons within its jurisdiction, and shall investigate the need and propriety of further judicial commitment of such persons under the provisions of Sections 6500 and 6500.1 of the Welfare and Institutions Code.

Each regional center shall complete all investigations required by this section within two years after the roster is submitted. In conducting its investigations, each regional center shall solicit information, advice, and recommendations of state hospital personnel familiar with the person whose needs are being evaluated.

For those persons found by a regional center to no longer require state hospital care, the regional center shall immediately prepare an individual program plan pursuant to Sections 38215 and 38216 for the provision of appropriate alternative services outside the state hospital.

If such alternative is not immediately available, the regional center shall give continuing high priority to the location and development of such services. As part of the program budget submission required in Section 38401, the regional director shall include a report specifying:

(1) The number of state hospital residents for whom a community alternative is deemed more suitable than a state hospital.

(2) The number of residents for whom no placement is made because of a lack of community services.

(3) The number, type, nature, and cost of community services that would be necessary in order for placement to occur.

For those persons found to be in continued need of state hospital care, the regional center shall either admit such person as a voluntary resident of the state hospital, or shall file a petition seeking the commitment of those persons for whom commitment is believed to be appropriate.

38009.1. Any developmentally disabled person residing in a state hospital who has not been judicially committed shall be considered a nonprotesting resident of a state hospital or a voluntary resident if the person has given informed consent to his admission.

Developmentally disabled, nonprotesting or voluntary residents

may leave a state hospital at any time after they, or their parent or legal guardian or conservator, request a discharge and complete state hospital discharge procedures.

The state hospital's discharge procedures for any resident may require an assessment, by an appropriate regional center, of the resident's condition, if in the opinion of the medical director of the state hospital immediate release of the resident may result in serious personal harm to the resident.

Whenever the state hospital discharge procedure for a resident requires assessment by a regional center, the resident shall continue to reside in the state hospital until such assessment is completed. The regional center shall complete its assessment of the condition of such persons within 14 days of receiving a request for assessment. In conducting its assessment, the regional center shall solicit information, advice, and recommendations of state hospital personnel familiar with medical, social and other needs of the person being assessed, and the person's parents or legal guardian or conservator.

For those persons found by a regional center to no longer require state hospital care, the person shall be released, and, if necessary, the regional center shall immediately prepare and administer an individual program plan pursuant to Sections 38215 and 38216 for the provision of appropriate alternative services outside the state hospital.

For those persons found to be in continued need of state hospital care, the regional center shall either readmit such persons as voluntary residents of the state hospital, pursuant to the provisions of Section 38453, or shall file a petition seeking commitment to the State Department of Health of those persons for whom commitment is believed to be more appropriate than voluntary placement.

38009.2. Whenever a regional center files a petition for commitment of a person pursuant to the provisions of Section 38009.1, judicial review shall be in the superior court for the county in which the state hospital is located. The person shall be informed of his right to counsel by a member of the staff of the state hospital, and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for commitment is filed with the court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of an evidentiary hearing in the matter, to the parent, guardian, or conservator of the person and to the director of the appropriate regional center and the state hospital. Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested.

The court shall either release the person or order an evidentiary hearing to be held not sooner than five judicial days nor more than

10 judicial days after the petition and notice have been mailed to the person's parent, guardian, or conservator and to the director of the appropriate regional center and state hospital.

If the court finds (a) that the person requesting release or for whom release is requested is not developmentally disabled, or (b) that the person is developmentally disabled and is able to provide safely for his basic personal needs for food, shelter, and clothing, and is able to protect himself from ordinary threats to life, health or safety, he shall be immediately released.

Notwithstanding the provisions of Section 6500.1 of the Welfare and Institutions Code, if the court finds that the person is developmentally disabled and that he is not capable of providing for his basic personal needs for food, clothing and shelter, and is not able to protect himself from ordinary threats to life, health or safety, and is not willing to accept suitable care and treatment on a voluntary basis, the person may be committed to the State Department of Health for suitable care and treatment.

For the purposes of this section, the legal status of minority does not, in itself, render a person incapable of providing for his basic personal needs for food, clothing, shelter and self-protection from ordinary threats to life, health or safety.

For the purposes of this section, suitable care and treatment is defined as the least restrictive residential placement necessary to achieve the purposes of treatment. Care and treatment of a person committed to the State Department of Health under this section may include placement in any state hospital, any licensed community care facility as defined in Section 1504, or any health facility as defined in Section 1250.

Commitment under this section shall be for a period not to exceed one year. The State Department of Health may petition for renewed commitments under this section if such petition is made to the superior court at least 30 days prior to the termination of existing commitment.

Nothing in this section shall be construed to prevent the voluntary admission of developmentally disabled persons to state hospitals pursuant to Section 38221 or involuntary commitment of dangerous persons under Section 6500.1 of the Welfare and Institutions Code.

If in any proceeding under this section, the court finds that the person is developmentally disabled and has no parent, guardian, or conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the state department to initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator for the developmentally disabled person.

38010. As used in this division:

(a) "Developmental disability" means a disability which originates before an individual attains age 18, continues, or can be expected to continue, indefinitely, and constitutes a substantial handicap for such individual. As defined by the Director of Health,

03800 28 11 495 240

in consultation with the Superintendent of Public Instruction, this term shall include mental retardation, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature.

(b) "Services for persons with developmental disabilities" means specialized services or special adaptations of generic services directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual with such a disability, and includes, but is not limited to, diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, physical, occupational, and speech therapy, training, education, sheltered employment, mental health services, recreation, counseling of the individual with such disability and of his family, protective and other social and sociolegal services, information and referral services, follow-along services, and transportation services necessary to assure delivery of services to persons with developmental disabilities.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3801 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective, and in such event, Sections 1 and 2 of this act shall become operative at the same time as Assembly Bill No. 3801 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective.

CHAPTER 1365

An act to add Chapter 2 (commencing with Section 38050) to Division 25 of, and to repeal Chapter 5 (commencing with Section 38200) of Division 25 of, the Health and Safety Code, relating to developmental disabilities.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 38050) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 2. STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

Article 1. Composition and Appointments

38050. The Legislature finds that services for persons with developmental disabilities constitute a major expenditure of public funds, that such programs are provided by hundreds of public and private state and local agencies, that the legal, civil, and service rights of persons with developmental disabilities are frequently denied, and that there is no effective method for planning and coordinating the state's resources to assure these rights. Therefore, a State Council on Developmental Disabilities with authority independent of any single state service agency is needed and is hereby created.

38051. All references to "state council" in this division shall be references to the State Council on Developmental Disabilities.

(a) The state council shall consist of nine voting members. At least one voting member shall be a person with developmental disabilities. At least two voting members shall be parents or relatives of persons with mental retardation, of whom one such member shall be the parent of a resident of a state hospital and one such member shall be the parent of a person who is a resident of a community care facility.

In addition, one voting member shall represent persons with mental retardation, one voting member shall represent persons with cerebral palsy, one voting member shall represent persons with epilepsy, one voting member shall represent persons with autism, one voting member shall represent persons who are developmentally disabled for reasons attributable to conditions other than mental retardation, cerebral palsy, epilepsy, or autism, and one voting member shall represent the general public. Of the nine voting members, at least one shall be knowledgeable about public education for developmentally disabled persons.

(b) The Governor shall appoint two members who shall be nominated by the Speaker of the Assembly and two members who shall be nominated by the Senate Rules Committee. Prior to appointing the remaining five members, the Governor shall request and consider recommendations from organizations representing or providing services to persons who have developmental disabilities and shall give consideration to the various socioeconomic, ethnic, and geographic parts of the state.

(c) The Director of Health, the Director of Benefit Payments, the Superintendent of Public Instruction, the Chancellor of the California Community Colleges, and the Director of the Department of Rehabilitation, or their designated representatives, shall serve as ex officio, nonvoting members of the state council. The County Supervisor's Association of California shall appoint one member to the state council, who shall serve as an ex officio, nonvoting member of the state council. The Organization of Area Boards shall appoint one member to the state council, who shall serve as an ex officio, nonvoting member of the state council. For the purposes of this

chapter, the Organization of Area Boards is defined as a committee consisting of the respective chairpersons of the area boards on developmental disabilities established pursuant to Chapter 4 (commencing with Section 38150).

(d) Of the members appointed by the Governor, three shall hold office for three years, three shall hold office for two years, and three shall hold office for one year. Subsequent members appointed by the Governor shall hold office for three years. In no event shall any member be appointed for more than two consecutive three-year terms.

38052. Nothing in this chapter shall prevent the reappointment or replacement of any individual presently serving on the existing state council if such reappointment or replacement is in conformity with all of the criteria established in this chapter. Any individual presently serving on the existing state council may continue to serve beyond March 1, 1977, until a replacement is appointed, or 60 days, whichever comes first.

38053. Persons appointed to membership on the state council shall have demonstrated interest and leadership in human service activities.

Article 2. Conflict of Interest

38054. In order to prevent any potential conflicts of interest, voting members of the state council shall not be employed as providers of services to persons with a developmental disability, or be members of the governing board of any entity providing such service, when such service is funded in whole or in part with state funds.

Article 3. Location of State Council

38054.5. For administrative purposes only, the state council shall be attached to the State Department of Health. The State Department of Health shall cooperate fully with the state council by rendering efficient accounting, financial management, personnel, and other reasonable support services when requested by the council in the performance of its mandated responsibilities.

The attachment of the state council to the State Department of Health shall not limit the council's scope of concern to health programs or limit the council's responsibilities or functions regarding all other pertinent state and local programs, as defined in Article 5 (commencing with Section 38056).

The administrative attachment of the state council to the State Department of Health shall not be construed to interfere in any way with the provisions of Section 38060 requiring all personnel employed by the council to be solely responsible, organizationally and administratively, to the council.

Article 4. Organization

38055. The state council shall meet at least monthly, and, on call of its chairperson, as often as necessary to fulfill its duties. All meetings and records of the state council shall be open to the public.

The state council shall, by majority vote of the voting members, elect its own chairperson from among the nine appointed members, and shall establish such committees as it deems necessary or desirable. The chairperson shall appoint all members of committees of the state council.

The state council may appoint technical advisory consultants and may establish committees composed of professional persons serving persons with developmental disabilities as necessary for technical assistance. The state council may call upon representatives of all agencies receiving state funds for assistance and information, and may invite persons with developmental disabilities, their parents or guardians, professionals, or members of the general public to participate on state council committees.

On March 1, 1977, the existing State Developmental Disabilities Planning and Advisory Council shall terminate and all of its records and documents shall be transferred to the new State Council on Developmental Disabilities established by this chapter.

Article 5. State Council Functions

38056. In order to comply with the intent and requirements of this division and Federal Public Law 94-103, the state council, in addition to any other responsibilities established under this division, and to the extent that resources are available, shall:

(a) Be the "state planning council" responsible for developing the "California Developmental Disabilities State Plan," monitoring and evaluating the implementation of such plan, reviewing and commenting on other plans and programs in the state affecting persons with developmental disabilities, and submitting such reports as the Secretary of Health, Education and Welfare may reasonably request.

(b) Be the official designated agency for purposes of allocating all federal funds allotted to the state under the provisions of Public Law 94-103, and shall apportion these funds among agencies and area developmental disabilities boards in compliance with Sections 38058 and 38186, and shall apportion no more than 30 percent of the federal funds allotted to the state under the provisions of Public Law 94-103 to the Program Development Fund established pursuant to Section 38257.

(c) Evaluate and issue public reports on the programs identified in the state plan.

(d) Review and comment on pertinent portions of the proposed plans and budgets of all state agencies serving persons with developmental disabilities, including the Departments of Education,

Rehabilitation, Health, Transportation, Benefit Payments, Employment, Youth Authority, Corrections, and Parks and Recreation. Such review may include public hearings prior to the submission of the Governor's Budget to the Legislature, with advice directed to the Governor, and after introduction of the Governor's Budget, with advice directed to the Legislature.

(e) Prepare an annual written report of its activities, its recommendations, and an evaluation of the efficiency of the administration of the provisions of this division of the Health and Safety Code to the Governor and the Legislature.

(f) Review and publicly comment on significant regulations proposed to be promulgated by any state agency in the implementation of the provisions of this division.

(g) Monitor the execution of this division and report directly to the Governor and the Legislature any delay in the rapid execution of this division.

(h) Be responsible for monitoring and evaluating the effectiveness of appeals procedures established in this division.

(i) Provide testimony to legislative committees reviewing fiscal or policy matters pertaining to persons with developmental disabilities.

(j) Conduct, or cause to be conducted, investigations or public hearings to resolve disagreements between state agencies, or between state and regional or local agencies, or between persons with developmental disabilities and agencies receiving state funds. Such investigations or public hearings shall be conducted at the discretion of the state council only after all other appropriate administrative procedures for appeal, as established in state and federal law, have been fully utilized.

Except as otherwise provided in this division, the state council shall not engage in the administration of the day-to-day operation of service programs identified in the state plan, nor in the approval of individual grants, nor in the financial management and accounting of funds. These activities shall be performed by appropriate agencies designated in the state plan.

Article 6. Review of State Council

38057. Every three years the Legislative Analyst's office shall conduct an evaluation of the costs and effectiveness of the activities of the state council and shall report its findings to the Legislature.

Article 7. State Council Costs and Support Services

38058. No more than 25 percent of federal developmental disabilities funds received by the state under the provisions of Public Law 94-103 shall be allotted in any one year for purposes of supporting the state council's operating costs.

The state council's operating costs shall include honoraria and actual and necessary expenses for council members, and

administrative, professional, and secretarial support services.

Each member of the state council shall receive fifty dollars ($50) per day for each full day of work performed directly related to council business, not to exceed 50 days in any fiscal year, and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this division.

38059. Within the limit of funds allotted for such purposes, the state council chairperson, with the concurrence of a majority of the state council, shall appoint an executive director, and such other staff to the state council as it may require.

The executive director shall be paid a salary which is comparable to the director of other state boards and commissions with similar responsibilities. The executive director shall be exempt from civil service. All other state council employees shall be appointed by the executive director, with the approval of the state council.

38060. The state council may contract for additional technical assistance with any public or private agency or individual to carry out planning, monitoring, evaluation, and other responsibilities under this division. In order to comply with Federal Public Law 94-103 regulations, all personnel employed by the state council shall be solely responsible, organizationally and administratively, to the state council. The state council shall have responsibility for the selection, hiring, and supervision of all such personnel.

38061. The state council may request information, records, and documents from any other agency of state government, except for confidential patient records. All such agencies shall comply with the reasonable requests of the state council.

38062. The state council may request area boards on developmental disabilities to assist the state council in carrying out any of the state council's responsibilities in the various regions of the state.

SEC. 2. Chapter 5 (commencing with Section 38200) of Division 25 of the Health and Safety Code, as added by Chapter 1594 of the Statutes of 1969, is repealed.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3800 and Assembly Bill No. 3802 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective, and in such event, Sections 1 and 2 of this act shall become operative at the same time Assembly Bill No. 3800 and Assembly Bill No. 3802 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective.

CHAPTER 1366

An act to add Chapter 3 (commencing with Section 38100) to Division 25 of the Health and Safety Code, relating to developmental disabilities.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 38100) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 3. CALIFORNIA DEVELOPMENTAL DISABILITIES STATE PLAN

38100. The Legislature finds that whenever multiple, uncoordinated, and duplicative planning activities are conducted by different state agencies on behalf of persons with developmental disabilities, the result is confusion of responsibilities, a lack of systemwide priorities, and failure to make the most appropriate use of all federal, state, and local funds and programs.

38101. In order to integrate all relevant state planning and budgeting, and in order to comply with federal requirements, a California Developmental Disabilities State Plan shall be prepared by the state council each year. All references in this division to "state plan" shall be references to the California Developmental Disabilities State Plan.

The state plan shall include, but not be limited to, the following parts:

(a) A part describing existing publicly funded services for persons with developmental disabilities within the state, and within each area of the state, including the numbers and types of persons receiving such services, the amount and sources of funding of such services, the agencies responsible for administration, and the effectiveness of such services in helping developmentally disabled persons live more independent, productive, and normal lives.

(b) A part recommending priorities for program and facility development or expansion. Such recommendations shall include statements of justification of need, specific objectives of programs to be developed, amount and sources of funding, timing and agencies responsible for implementation. The priorities for program and facility development or expansion contained in this part shall include specific recommendations with regard to the findings of regional centers resulting from their investigations carried out pursuant to Section 38009.

(c) A part listing the priority recommendations for program termination, modification, or reduction. Such recommendations

shall include statements of justification or lack of need, or evidence of program ineffectiveness, or evidence of discrimination against persons with developmental disabilities, or evidence of unnecessarily high costs in relation to program results. Recommendations for program termination, modification, or reduction shall also include a statement of the amount and sources of funds to be saved or reallocated to other programs and the timing and agencies responsible for implementation.

(d) A part describing the procedures that shall be used for evaluating all programs identified in the state plan, the costs and sources of funds for such evaluation, and the agencies responsible for evaluation.

(e) A part describing the administrative responsibility of state agencies involved in implementing all aspects of the state plan and a description of the amount and sources of funds required for such administration.

(f) A part describing the amount of federal funds, from Public Law 94-103, that shall be allotted to the state council, area boards, and state and nonstate agencies for services, planning, advocacy, construction, and other approved purposes as defined in federal law and regulations.

38102. After January 1, 1978, and each year thereafter, all plans prepared by any agency of state government, which include specific program elements relating to services for persons with developmental disabilities, shall separately identify and describe each such program element as to its suitability for inclusion in the state plan. Program elements accepted for inclusion in the state plan shall be given a priority rating.

Any program elements not accepted for inclusion in the state plan shall be appended to the state plan with a written statement explaining the reasons why such program elements were excluded. Before excluding any program element contained in any state agency's plan, the agency shall be informed of the state council's intentions and shall be given an opportunity to confer with the state council.

38103. Within the limit of funds made available, programs and program elements contained in the state plan shall be considered to be endorsed by the state council and acceptable for financial support through state or federal funding sources.

Program elements excluded from the state plan shall be considered to have no state council endorsement for financial support.

38103.5. The state council shall conduct open hearings on the state plan and related budgetary issues prior to submission of the plan pursuant to Section 38104. Such hearings shall be conducted during the month of September of each year in order to coincide with the preparation of the annual Governor's Budget.

38104. The state plan shall be given to the Governor, the Secretary of the Health and Welfare Agency, the Superintendent of

Public Instruction, the Legislature, and to the chairpersons of all area boards for review and comment prior to its submission by the chairperson of the state council to the Secretary of Health, Education, and Welfare.

Copies of the state plan shall be provided, no later than November 1 of each year, to the Director of Finance and to the Legislature for guidance in the development of the Governor's Budget and legislative review of the budget, and for guidance in other legislation pertaining to programs for persons with developmental disabilities.

38105. The state plan shall, in addition to the requirements established herein, comply in substance and format with requests of the Secretary of Health, Education, and Welfare.

38106. All state agencies shall cooperate with the reasonable requests of the state council by providing information to the state council in the preparation of the state plan. Any expenditures incurred by state agencies in providing such assistance to the state council shall be identified in the state plan and in the state agency's annual budget. Such expenditures may be funded in whole or in part by state funds appropriated as the required state share of the developmental disabilities program, or by federal funds from Public Law 94-103, or both, when the state council allots funds for such purposes in the state plan.

38107. In no event shall the state council allot federal funds from Public Law 94-103 to state agencies to replace state funds currently allocated to such agencies for the purpose of planning programs for persons with developmental disabilities.

SEC. 2. Section 1 of this act shall become operative only if Assembly Bill No. 3800, Assembly Bill No. 3801, and Assembly Bill No. 3803 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective, and in such event, Section 1 of this act shall become operative at the same time Assembly Bill No. 3800, Assembly Bill No. 3801, and Assembly Bill No. 3803 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective.

CHAPTER 1367

An act to add Chapter 4 (commencing with Section 38150) to, and to repeal Chapter 2 (commencing with Section 38050) of, Division 25 of the Health and Safety Code, relating to the developmentally disabled.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 38050) of Division 25 of the Health and Safety Code, as added by Chapter 1594 of the Statutes of 1969, is repealed.

SEC. 2. Chapter 4 (commencing with Section 38150) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 4. AREA BOARDS ON DEVELOPMENTAL DISABILITIES

Article 1. General

38150. Because of the vast size, complexity, and diversity of the State of California, the Legislature finds that the legal, civil, and service rights of persons with developmental disabilities will not be adequately guaranteed throughout the state unless monitoring responsibility is established on a regional basis through area boards on developmental disabilities.

38151. The area boards in existence as of January 1, 1976, shall continue to exist, within the same geographic regions of the state after January 1, 1977, but shall thereafter be constituted and shall operate according to the provisions of this division.

38152. The Director of Health, in cooperation with the State Council on Developmental Disabilities, shall, by January 1, 1978, and periodically thereafter, conduct a thorough review of the geographic boundaries served by area boards to determine whether additional area boards should be established to more effectively implement the provisions of this division. In conducting such review, the director shall seek the advice of the state council, area boards, and consumers of services.

Article 2. Composition and Appointments

38155. After January 1, 1977, area boards shall be comprised, as follows:

(a) For areas consisting of one to four counties, the area board shall consist of a total of 12 voting members appointed by the governing bodies of the counties, each county appointing an equal number of voting members, and five voting members appointed by the Governor.

(b) For areas consisting of five to seven counties, the area board shall consist of two voting members appointed by the governing body of each county, and five voting members appointed by the Governor.

(c) For areas consisting of eight or more counties, the area board shall consist of one voting member appointed by the governing body of each county, and five members appointed by the Governor.

Of the members first appointed, five shall serve for one year, five shall serve for two years, and the remaining members shall serve for three years. Subsequent members shall serve for three years. In counties with more than 100,000 population, no member shall serve

more than two consecutive three-year terms.

38156. The governing bodies of the counties in each area shall select their appointees from among the following groups, and, to the extent feasible, in the following proportions:

(a) Persons with developmental disabilities or the parents or legal guardians of such persons—50 percent;

(b) Representatives of the general public—50 percent.

38157. Prior to making their appointments, the Governor and the governing bodies of counties shall request recommendations from professional organizations, from organizations within the area representing persons with developmental disabilities, and from organizations and agencies within the area that deliver services to such persons.

In making their appointments, the Governor and the governing bodies of counties shall appoint persons who have demonstrated interest and leadership in human service activities.

38158. In order to prevent any potential conflicts of interest, voting members of area boards shall not be employed as providers of service to persons with developmental disabilities, or be members of the governing board of any entity providing such service, when such service is funded in whole or in part with state funds.

38159. The Governor shall give consideration to the relative populations of the counties within the area in selecting his appointees to the area boards.

Nothing in this chapter shall prevent the reappointment or replacement of any individual presently serving on an existing area board, provided any such reappointment is in conformity to all of the criteria established in this chapter. Any individual presently serving on an existing area board may continue to serve beyond January 1, 1977, until a replacement is appointed, or 60 days, whichever comes first.

All members of the area board shall be residents of the area.

Article 3. Organization

38165. The members of an area board shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties as members of the board or of committees established by the board.

Each area board shall meet at least quarterly, and on call of the board chairperson, as often as necessary to fulfill its duties. All meetings and records of the area board shall be open to the public.

38166. Each area board shall, by majority vote of the voting members, elect its own chairperson from among the appointed members, and shall establish such committees as it deems necessary or desirable. The board chairperson shall appoint all members of committees of the area board.

An area board shall appoint a professional advisory committee

composed of professional persons serving individuals with developmental disabilities. The professional advisory committee shall provide advice, guidance, recommendations, and technical assistance to the area board in order to assist the area board in carrying out its mandated functions enumerated in Article 4 (commencing with Section 38170) of this chapter. Such professional advisory committee shall designate one of its members to serve as an ex officio member of the area board. An area board may call upon representatives of all agencies receiving state funds for assistance and information, and may invite persons with developmental disabilities, their parents or guardians, professionals or members of the general public to participate on area board committees.

Article 4. Area Board Functions

38170. Area boards shall protect and advocate the rights of all persons in the area with developmental disabilities.

The area board shall have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the legal, civil, and service rights of persons who require services or who are receiving services in the area.

The area board shall identify any evidence of the denial of such rights; shall inform the appropriate local, state, or federal officials of their findings, and shall assist such officials in eliminating all forms of discrimination against persons with developmental disabilities in housing, recreation, education, health and mental health care, employment, and other service programs available to the general population.

38171. Area boards shall conduct or cause to be conducted public information programs for professional groups and for the general public, to increase professional and public awareness of prevention and habilitation programs, and to eliminate barriers to social integration, employment, and participation of persons with developmental disabilities in all community activities.

38171.5. Area boards shall encourage and assist in the establishment of independent citizen advocacy organizations that provide practical personal services to individuals with developmental disabilities. Such citizen advocacy organizations shall be established for the purpose of recruiting, training, and assigning volunteers to work with individuals with developmental disabilities to assist them in using community services and participating in community activities.

Area boards shall recommend to the state council independent citizen advocacy organizations that shall be considered for federal funding under the provisions of Public Law 94-103.

38172. To the extent that resources are available, area boards shall review the policies and practices of publicly funded agencies that serve or may serve persons with developmental disabilities to determine if such programs are meeting their obligations under

local, state, and federal statutes. If any noncompliance is determined, the area board shall inform, in writing, the director and the managing board of such noncomplying agency of its findings.

If the agency fails to alter its policies in order to comply with the law within 30 days and after all other informal efforts to assist the agency have been exhausted, the area board may conduct a public hearing to receive testimony on the issue of the agency's noncompliance.

At least 30 days notice of an area board's public hearing on noncompliance shall be given to the general public, to the agency, and to the state, federal, or local authorities responsible for allocating funds to the agency. The public hearing shall be conducted informally for the purpose of finding a solution, and all parties shall have an opportunity to be represented and to testify but shall be recorded.

If the problem has not been resolved within 30 days following the public hearing, the area board may notify the state council and may request authorization to initiate legal action. An area board shall not initiate legal action without prior authorization from the state council.

38172.5. In carrying out their review functions, area boards shall solicit the advice of knowledgeable professionals, consumers, and consumer representatives about problems within the service delivery system in the region. In enacting this chapter, it is the intent of the Legislature that the area boards not duplicate the functions assigned to other agencies that are routinely responsible for monitoring, regulating, or licensing programs for developmentally disabled persons. Area boards may call upon such agencies for information and assistance in order to carry out their responsibilities more effectively. Unless otherwise prohibited by law, such agencies shall provide information requested by the area boards and shall cooperate fully in complying with all reasonable requests for assistance.

38173. The executive director of the state council shall review the proceedings of the public hearing under Section 38172 and may conduct additional factfinding investigations. The executive director shall report his findings to the state council within 30 days and shall recommend a course of action to be pursued by the council, the area board, or other state administrative or legislative officials.

The state council shall review the report of the executive director and shall take such action as it deems necessary to resolve the problem. If the council authorizes the area board to initiate legal action, the state council shall make available to the area board legal assistance through the legal services provisions of Public Law 94-103.

The state plan shall include an annual allotment of federal funds from Public Law 94-103 to be utilized for such legal assistance to area boards.

38174. Area boards shall remain informed about the quality of services in the area and shall inform appropriate state and local

licensing agencies of alleged fire, safety, health, or other violations of legally established standards, in any facility providing service to persons with developmental disabilities, that may be brought to the attention of the area board.

If an area board receives evidence of criminal misconduct by an individual or agency funded in whole or in part with state funds under this division, the area board shall immediately inform appropriate law enforcement agencies about the alleged misconduct.

38175. Area boards shall assist the state council in the preparation of the state plan by submitting such information concerning the area's services, needs, and priorities as may be requested by the state council. Planning information requested by the state council shall be submitted at such time as requested by the state council. The format for such planning information shall be developed through consultation with the Organization of Area Boards.

38175.5. The Organization of Area Boards shall consist of the respective chairpersons of the individual boards established under the provisions of this chapter. The purposes of this organization shall include activities to resolve common problems, improve coordination, exchange information between areas, and provide advice and recommendations to state agencies, the Legislature, and the state council.

38176. Area boards shall cooperate with county coordinating councils on developmental disabilities, other regional planning bodies, and consumer organizations in the area. Area boards shall comply with the reasonable requests of such groups and may request the assistance of such groups in carrying out area board responsibilities.

The governing body of any county within the area may request the area board to study or investigate programs in the county, for persons with developmental disabilities. The area board shall cooperate with county governments to the fullest extent possible within the limitations of the resources of the board.

38177. Each area board may, but shall not be required to, adopt an areawide developmental disabilities plan. The purpose of such area plans shall be to organize in one document information about service needs, priorities, program objectives, and the availability and quality of programs for persons with developmental disabilities in the area. If an area plan is deemed necessary, such plan shall be made available to be used by the area board and its committees, other organizations and planning bodies in the area, and the state council. If an area plan is not deemed necessary, the area board shall develop a list and description of local needs and priorities. Such list and description shall be submitted to the state council pursuant to Section 38175 and shall be disseminated to other organizations and planning bodies in the area.

38178. Area boards shall encourage the development of needed services of good quality and shall coordinate such developments to

prevent duplication, fragmentation of services, and unnecessary expenditures. Prior to providing additional funds for major expansion of existing programs for persons with developmental disabilities or the establishment of new programs in an area, state agencies shall consult with the area board regarding the appropriateness of such program developments. This provision shall not apply to state funds for public education allocated on an apportionment basis pursuant to state law.

Article 5. Review of Area Boards

38180. On January 1, 1978, and each year thereafter, each area board shall submit to the state council a summary of its activities and accomplishments in such form as shall be required by the state council.

38181. Every three years the Legislative Analyst shall conduct an evaluation of the costs and effectiveness of the activities of area boards and shall report his findings to the Legislature.

Article 6. Area Board Costs and Support Services

38185. The Legislature finds that the advocacy, coordinating, appeals, and other related functions of area boards cannot be effectively provided unless area boards have staff support services from personnel directly responsible and accountable only to the area board.

In order to prevent potential conflicts of interest, personnel employed by area boards shall not be state employees. If any personnel employed by area boards are supported by county funds, such employees shall be solely accountable to the area board for administrative direction.

38186. Each year each area board shall present for consideration by the state council a proposal for funds to support the activities of the area board. The state council shall review all area board proposals and shall include in the state plan the amount of federal funds under Public Law 94-103 that shall be allotted to each area board.

In allotting funds to area boards, in the state plan, the state council shall allot no more than 45 percent of federal Public Law 94-103 developmental disabilities funds to all area boards in any one year. Nothing in this section shall prevent the appropriation of additional funds to area boards from the General Fund.

Area boards may receive grants of funds in addition to an allocation of state funds or federal funds under Public Law 94-103 as authorized under this division. Such funds shall be used only for purposes of extending the area boards' activities as authorized in this division.

38187. Each area board may appoint an executive secretary who may appoint persons to such staff positions as the area board may authorize. The affirmative votes of a majority of the members of the area board shall be necessary for the appointment or removal of an executive secretary.

Each area board may contract for additional technical assistance to carry out its duties as established by this division.

38188. Notwithstanding any other provision of law, any contract entered into between the State of California and an area board may provide for periodic advanced payments for services to be performed under such contract. No advanced payment made pursuant to this section shall exceed 25 percent of the total annual contract amount.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3802, inclusive, and Assembly Bill No. 3804 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809, become effective, and in such event, Sections 1 and 2 of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3802, inclusive, and Assembly Bill No. 3804 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809, become effective.

CHAPTER 1368

An act to repeal Chapter 3 (commencing with Section 38100) of, and to add Chapter 5 (commencing with Section 38200) to, Division 25 of the Health and Safety Code, relating to developmental disabilities.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 38100) of Division 25 of the Health and Safety Code, as added by Chapter 1594 of the Statutes of 1969, is repealed.

SEC. 2. Chapter 5 (commencing with Section 38200) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 5. REGIONAL CENTERS FOR PERSONS WITH DEVELOPMENTAL DISABILITIES

Article 1. Regional Center Contracts

38200. In order for the state to carry out many of its responsibilities as established in this division, the state shall contract with appropriate agencies to provide fixed points of contact in the community for persons with developmental disabilities and their families, to the end that such persons may have access to the facilities and services best suited to them throughout their lifetime. It is the intent of this division that the network of regional centers for persons

with developmental disabilities and their families be accessible to every family in need of regional center services.

The Legislature finds that the service provided to individuals and their families by regional centers is of such a special and unique nature that it cannot be satisfactorily provided by state agencies. Therefore, private nonprofit community agencies shall be utilized by the state for the purpose of operating regional centers.

38201. The State Department of Health (hereinafter, unless otherwise indicated, referred to in this chapter as "the department"), within the limitations of funds appropriated, shall contract with appropriate private nonprofit corporations for the establishment of regional centers.

Notwithstanding any other provision of law, any contract entered into pursuant to this section may provide for periodic advance payments for services to be performed under such contract. No advance payment made pursuant to this section shall exceed 25 percent of the total annual contract amount.

38202. After July 1, 1978, the state shall contract only with agencies, the governing boards or the program policy committees of which conform to the following criteria:

(a) The governing board or the program policy committee shall be composed of individuals with demonstrated interest in, or knowledge of, developmental disabilities.

(b) The membership of the governing board or the program policy committee shall include persons with legal, management, public relations, and developmental disability program skills.

(c) The membership of the governing board or the program policy committee shall include representatives of the various categories of disability to be served by the regional center.

(d) The governing board or the program policy committee shall reflect the geographic and ethnic characteristics of the area to be served by the regional center.

(e) A minimum of one-third of the members of the governing board or the program policy committee shall be persons with developmental disabilities or their parents or legal guardians.

(f) Members of the governing board or the program policy committee shall not be permitted to serve longer than six consecutive years.

Nothing in this section shall prevent the appointment to a regional center governing board or the program policy committee of a person who meets the criteria for more than one of the categories listed above.

38202.1. In the event that the governing board of the regional center is not composed of individuals as specified in subdivisions (a) to (f), inclusive, of Section 38202, such governing board shall establish a program policy committee which is composed of such individuals. The program policy committee shall appoint one of its members to serve as an ex officio member of the governing board.

38202.2. When the governing board of the regional center is not

composed of individuals as specified in subdivisions (a) to (f), inclusive, of Section 38202, the program policy committee to the regional center shall be responsible for establishing the program policies of the regional center. All program policies adopted by a program policy committee shall conform to the provisions of this division and the contract between the State Department of Health and the governing board.

38202.3. After January 1, 1977, the department shall not contract with any new regional center contracting agency unless the governing board of such agency is composed of individuals as specified in subdivisions (a) to (f), inclusive, of Section 38202.

38203. In order to prevent potential conflicts of interest, no member of the governing board, or in those regional centers wherein a program policy committee is responsible for establishing program policies as defined in Section 38202.2, no member of the program policy committee of a regional center, shall be an employee of a state agency, or an employee or member of the state council or an area board, or an employee or a member of the governing board of any entity from which the regional center purchases services.

38203.1. The director of the department shall promulgate and enforce conflict of interest regulations to insure that members of the governing board, program policy committee, and employees of the regional center make decisions with respect to the regional centers that are in the best interests of the center's clients and families.

38204. If, for good reason, a contracting agency is unable to meet all the criteria for a governing board established in this chapter, the Director of Health may waive such criteria for a period of time, not to exceed one year, with the approval of the area board in the area and with the approval of the state council.

38205. After January 1, 1977, contracts between the state and the governing boards of regional centers shall include reasonable specific performance and reporting requirements relative to the responsibilities of regional centers defined in this division, and the timing for compliance with such requirements. The department shall specify procedures to be used by all regional centers which shall:

(a) Define "active" and "inactive" cases.

(b) Account for all funds received or expended by regional centers.

(c) Define a unit of direct service performed by regional center personnel.

(d) Allocate indirect, administrative, and overhead expenditures to a unit of direct service.

(e) Calculate costs per unit of direct service.

(f) Provide such other information as the department may require to analyze expenditures, conduct comparative cost and performance reviews, and implement the evaluation requirements in Chapter 8 (commencing with Section 38350).

Contracting agencies shall agree to use procedures specified by the

department to produce caseload and unit of service cost reports.

38205.1. The contract between the state and contracting agency shall not:

(a) Require information that violates client confidentiality.

(b) Prevent a regional center from employing innovative programs, techniques, or staffing arrangements which may reasonably be expected to enhance program effectiveness.

(c) Contain provisions which impinge upon the legal rights of private corporations chartered under California statutes.

38205.2. The department's contract with a regional center shall require strict accountability and reporting of all expenditures, and strict accountability and reporting as to the effectiveness of the regional center in carrying out its program and fiscal responsibilities as established herein.

38205.3. If the department and a regional center are unable to resolve any contract dispute, either party may request the state council to review and advise with regard to the issues in dispute. The state council shall review and shall provide its advice in writing within 30 days of receiving a request for such review and advice. Copies of the state council's advice shall be transmitted to the Director of Health and the governing board of the regional center. The state council's advice shall not be binding upon either party.

38205.4. If the department or any regional center intends to adopt any material change in policy which will have a direct effect upon the contract between the state and the regional center, the department or the regional center shall give at least 30 days notice of an intent to change policy, and, if necessary, the contract between the state and such regional center shall be amended. The department shall not require regional centers to provide or purchase any services beyond the level of the funding appropriation for such services. If the department should alter the rates of payments to providers, the regional center budget shall be adjusted accordingly.

38206. Contracts between the department and regional center shall be presented for final negotiation to regional center governing boards at least 90 days prior to the effective date of such contracts. A regional center shall not be expected to perform functions not specified in the contract without a revision of such contract.

38207. If any regional center finds that it is unable to comply with the requirements of this division or its contract with the state, the regional center shall be responsible for informing the department immediately that it does not expect to fulfill its contractual obligations. Failure to provide such notification to the department in a timely manner shall constitute grounds for possible revocation of the contract. If any regional center makes a decision to cancel its contract with the department, such regional center shall give a minimum of 90 days written notice of its intention.

If the department finds that any regional center is not fulfilling its contractual obligations, the department shall make reasonable efforts to resolve the problem, including the provision of technical

assistance to the regional center or renegotiation of the contract.

If the department finds that any regional center continues to fail in fulfilling its contractual obligations after reasonable efforts have been made, and finds that other regional centers are able to fulfill similar obligations under similar contracts, and finds that it will be in the best interest of the persons being served by the regional center, the department shall take steps to terminate the contract and to negotiate with another governing board to provide regional center services in the area. Prior to the initiation of termination procedures, the contracting agency or the department may initiate the procedures for resolving disputes contained in Section 38205.3.

When terminating a regional center contract and negotiating with another governing board for a regional center contract, the department shall:

(a) Notify the area board, all personnel employed by the regional center, all vendors of service to the regional center, and all clients of the regional center informing them that the contract with the regional center is to be terminated, and that the state will continue to fulfill its obligations to assure a continuity of services, as required by state law, through a contract with a new governing board.

(b) Request the area board and any other community agencies to assist the state by locating or organizing a new governing board to contract with the department to operate the regional center in the area. Area boards shall cooperate with the department when such assistance is requested.

(c) Provide such assistance as may be required to assure that the transfer of responsibility to a new regional center will be accomplished with minimum disruption to the clients of the service program.

38208. If necessary, to avoid disruption to the service program, the department may directly operate a regional center during the interim period between the termination of its contract with one governing board and the assumption of operating responsibility by a regional center contract with another governing board. In no event shall the department directly operate a regional center program for longer than 120 days before contracting with a new governing board. The department may, if requested by the new governing board, continue to provide additional assistance to avoid disruption of the service program, until such time as the governing board has assumed full responsibility for the operation of the program.

Article 2. Regional Center Responsibilities

38209. Contracts between the department and regional centers shall specify the service area and the categories of persons that regional centers shall be expected to serve and the services to be provided. In order to assure uniformity in the application of the definition of developmental disability contained in this division, the Director of Health shall, by March 1, 1977, issue regulations that

delineate, by diagnostic category and degree of handicap, those persons who are eligible for service by regional centers. In issuing the regulations, the director shall invite and consider the views of regional center contracting agencies, the state council, and persons with a demonstrated and direct interest in developmental disabilities.

38210. All regional centers shall conduct case-finding activities, including notification of availability of service in English and such other languages as may be appropriate to the service area, outreach services in areas with a high incidence of developmental disabilities, and identification of persons who may need service.

38211. Any person believed to have a developmental disability, and any person believed to be a high risk of parenting a disabled infant, shall be eligible for initial intake and assessment services in the regional centers.

Initial intake shall be performed within 15 working days following request for assistance. Initial intake shall include, but need not be limited to, information and advice about the nature and availability of services provided by the regional center and by other agencies in the community, including guardianship, income maintenance, mental health, housing, education, work activity and vocational training, medical, dental, recreational, and other services or programs that may be useful to persons with developmental disabilities or their families. Intake shall also include a decision to provide assessment.

38212. If assessment is needed, it shall be performed within 60 days following initial intake. Assessment may include collection and review of available historical diagnostic data, provision or procurement of necessary tests and evaluations, and summarization of developmental levels and service needs. If unusual circumstances prevent the completion of assessment within 60 days following intake, such assessment period may be extended by one 30-day period with the advance written approval of the department.

38213. In addition to any person eligible for initial intake or assessment services, regional centers may provide or cause to be provided preventive services to any potential parent determined to be at high risk of parenting a disabled infant.

38214. If any person requests regional center services and is found to be ineligible for such services, the reasons for denial shall be presented in writing to the applicant and, if necessary, a referral to other appropriate services shall be arranged. In such cases, the applicant shall also be advised in writing of the appeals procedure established in this division.

38215. On and after January 1, 1977, an individual program plan may be developed for any person who, following intake and assessment, is found to be eligible for, and in need of, such plan. Such plans shall be completed within 60 days of the completion of assessment.

Individual program plans shall be prepared jointly by one or more

representatives of the regional center, the developmentally disabled person, and where appropriate, the person's parents, legal guardian, or conservator.

The program plan shall include the following:

(a) An assessment of the developmentally disabled person's specific capabilities and problems. The regional centers, in cooperation with the department, shall adopt an approved list of tests to be used by all regional centers in making such assessments. The test or tests used shall have been determined to be reliable and valid by acceptable statistical methods.

(b) A statement of specific, time-limited objectives for improving the capabilities and resolving the problems of the person. Such objectives shall be stated in measurable terms which allow measurement of progress.

(c) A schedule of the type and amount of services to achieve program plan objectives, including identification of the provider or providers of service responsible for attaining each objective.

(d) A schedule of regular periodic review and reassessment to ascertain that planned services have been provided and that objectives have been reached within the times specified. The same test or tests used to measure client capabilities and problems shall be used for review and reassessment.

(e) All individual program plans shall be reviewed and modified, if necessary, at least annually by the regional center representative and the person, the person's parents, legal guardian, or conservator.

The state department, with the participation of regional center personnel, shall prepare a standard format for the preparation of individual program plans, which shall be used by all regional centers.

38215.1. By January 1, 1979, all active cases shall have an individual program plan as specified in Section 38215.

38216. In order to achieve the stated objectives of any individual program plan, the regional center shall conduct activities including, but not limited to, the following:

(a) Program coordination which may include securing, through purchase or referral, services specified in the person's plan, coordination of service programs, information collection and dissemination, and measurement of progress toward objectives contained in the person's plan.

The regional center shall assign a program coordinator who will be responsible for implementing, overseeing, and monitoring each individual program plan. The program coordinator may be an employee of the regional center or may be a qualified individual or employee of an agency with whom the regional center has contracted to provide program coordination.

At such times as the individual program plan is reviewed, but at least annually, the performance of the program coordinator shall also be reviewed by the regional center, the person with developmental disabilities, and the person's parents or legal guardian or conservator. No person shall continue to serve as a program coordinator for any

individual program plan unless there is agreement by all parties that the person should continue to serve as program coordinator.

Nothing shall prevent a person with developmental disabilities or such person's parent, legal guardian, or conservator, from being the program coordinator of the person's individual program plan, if the regional center director agrees that such an arrangement is feasible and in the best interest of the person with the developmental disabilities. If any person listed above is designated as the program coordinator, such person shall not deviate from the agreed-upon program plan and shall provide any information and reports as may be required by the regional center director.

(b) Purchase of needed services.

A regional center may purchase services for a client from any individual or agency the regional center determines will best accomplish all or any part of that client's program plan.

In making the initial choice to purchase services from an agency, facility, or individual, the regional center may use a professionally recognized, reliable, and valid instrument of accreditation. Thereafter, the regional center shall renew its contracts or purchases on the basis of a vendor's success in achieving the objectives set forth in the individual program plan.

No purchase of service contract with any agency or individual shall be continued unless the regional center and the person with developmental disabilities, or when appropriate, the person's parents or legal guardian or conservator agree that reasonable progress has been made towards the objectives for which the service provider is responsible.

Regional center funds shall not be used to supplant the budget of any agency which has a legal responsibility to serve all members of the general public and is receiving public funds for providing such services.

A regional center may purchase required out-of-home care for developmentally disabled persons. In considering appropriate placement alternatives for developmentally disabled children, approval by the child's parent, guardian, or conservator shall be obtained before placement is made.

Each developmentally disabled person placed by the regional center in an out-of-home residential facility shall have the rights specified in this division. These rights shall be brought to the person's attention by such means as the Director of Health may designate by regulation.

(c) Advocacy for, and protection of, the civil, legal, and service rights of developmentally disabled persons as established in this division.

Whenever the advocacy efforts of a regional center to secure or protect the legal, civil, or service rights of any of its clients prove ineffective, the regional center or the person with developmental disabilities or their parents, legal guardian, or other representative may request the area board to initiate action under the provisions

defining area board advocacy functions established in this division.

(d) Community organization and program development, including liaison activities with existing service agencies, identification of services needed but unavailable, identification of ineffective services and services of poor quality, identification of programs which may not be in compliance with local, state, and federal statutes and approved regulations.

In order to expand the availability of needed services of good quality, a regional center may take any of the following actions:

(1) Provide information to the area board to assist the area board in determining recommended priorities for program development for inclusion in the state plan.

(2) Request the department to allocate funds from the Developmental Disabilities Program Development Fund to initiate a new program.

(3) Notify the appropriate licensing authority or request the area board to investigate and act upon any agency's possible noncompliance with local, state, or federal laws or regulations.

(4) Provide or secure consultation, training, or technical assistance services for any agency to assist such agency in upgrading the quality of its program. Except in emergency situations, a regional center shall not provide direct treatment and therapeutic services, but shall utilize appropriate public and private community agencies and service providers to obtain such services for its clients.

38217. Regional centers shall cooperate with area boards in joint efforts to inform the public of services available to persons with developmental disabilities and of their unmet needs, provide materials and education programs to community groups and agencies with interest in, or responsibility for, persons with developmental disabilities, and develop resource materials, if necessary, containing information about local agencies, facilities, and service providers offering services to persons with developmental disabilities.

38218. Regional centers shall be responsible for developing an annual plan and program budget to be submitted to the director no later than September 1 of each fiscal year. An information copy shall be submitted to the area board and state council by the same date.

38219. It is the intent of the Legislature to encourage regional centers to find innovative and economical methods of achieving the objectives contained in individual program plans of persons with developmental disabilities.

To the extent feasible, within the limitations of state law and available funds, the State Department of Health shall encourage and assist regional centers to use innovative programs, techniques, and staffing arrangements to carry out their responsibilities.

38220. A regional center shall investigate every appropriate and economically feasible alternative for care of a developmentally disabled person available within the region. If suitable care cannot be found within the region, services may be obtained outside of the region.

38221. Except for those developmentally disabled persons judicially committed to state hospitals, no developmentally disabled person shall be admitted to a state hospital except upon the referral of a regional center. Upon discharge from a state hospital, a developmentally disabled person shall be referred to an appropriate regional center.

38222. Before any person is examined by a regional center pursuant to Section 1370.1 of the Penal Code, the court ordering such medical examination shall transmit to the regional center a copy of the orders made pursuant to proceedings conducted under Sections 1368 and 1369 of the Penal Code. The purpose of the mental examination shall be to determine if developmental disability is the primary diagnosis.

38223. The director of a regional center or his designee may give consent to medical, dental, and surgical treatment of a regional center client and provide for such treatment to be given to the person under the following conditions:

(a) If the developmentally disabled person's parent, guardian, or conservator legally authorized to consent to such treatment does not respond within a reasonable time to the request of the director or his designee for the granting or denying of consent for such treatment, the director of a regional center or his designee may consent on behalf of the developmentally disabled person to such treatment and provide for such treatment to be given to such person.

(b) If the developmentally disabled person has no parent, guardian, or conservator legally authorized to consent to medical, dental, or surgical treatment on behalf of the person, the director of the regional center or his designee may consent to such treatment on behalf of the person and provide for such treatment to be given to the person. The director of a regional center or his designee may thereupon also initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator legally authorized to consent to medical, dental, or surgical services.

(c) If the developmentally disabled person is an adult and has neither a guardian or conservator, consent to treatment may be given by someone other than the person on the person's behalf only if the developmentally disabled person is mentally incapable of giving his own consent.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3803, inclusive, and Assembly Bill No. 3805 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective, and in such event, Sections 1 and 2 of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3803, inclusive, and Assembly Bill No. 3805 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809 become effective.

CHAPTER 1369

An act to add Chapter 6 (commencing with Section 38250) to Division 25 of the Health and Safety Code, relating to the developmentally disabled, and making an appropriation therefor.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 38250) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 6. DEVELOPMENT AND SUPPORT OF COMMUNITY FACILITIES AND PROGRAMS

Article 1. General

38250. The Legislature finds that there is a shortage of programs and facilities to provide a comprehensive network of habilitation services to persons with developmental disabilities throughout the state.

In order to assure the development and necessary support for a comprehensive network of programs of good quality, in every area of the state, in an orderly and economic manner, the following procedures are established.

Article 2. Planning and Developing New and Expanded Programs and Facilities

38255. On and after January 1, 1978, the state plan established in this division shall be the primary method used for determining, in an orderly way, the programs and facilities that shall be developed, expanded, terminated, or reduced. The state plan shall also state the objectives of such programs, amounts and sources of required funding, priorities for development, timing, agencies responsible for implementation, and procedures for evaluation.

38256. Prior to making an appropriation or allocating any state or federal funds for new or major expansions of programs or facilities for persons with developmental disabilities, the state plan shall be reviewed to determine if the proposed expenditure is consistent with the priorities approved in the plan.

If any expenditure of such funds for new or major expansions of programs or facilities is proposed by any agency that does not conform to the priorities approved in the state plan, the state council shall review and publicly comment on such proposed expenditure.

38257. Effective July 1, 1977, all parental fees collected by or for regional centers shall be remitted to the State Treasury to be

deposited in the Developmental Disabilities Program Development Fund, which is hereby created and hereinafter called the Program Development Fund. The purpose of the Program Development Fund shall be to provide resources needed to initiate new programs, consistent with approved priorities for program development in the state plan. In no event shall an allocation from the Program Development Fund be granted for more than 24 months.

Parental fee schedules shall be evaluated pursuant to the provisions of Section 38412 and adjusted annually by the State Department of Health, with the approval of the state council. Fees for out-of-home care shall bear an equitable relationship to the cost of such care and the ability of the family to pay.

In addition to parental contributions and General Fund appropriations, the Program Development Fund may be augmented by federal funds available to the state for program development purposes, when such funds are allotted to the Program Development Fund in the state plan. The Program Development Fund is hereby appropriated to the State Department of Health for a period of three years for the purposes of this section. In no event shall any such funds revert to the General Fund, except at the conclusion of the three-year period. Prior to the end of the three-year period, the Department of Finance shall review the utilization and effectiveness of the Program Development Fund and shall report its findings to the Legislature.

The Legislative Analyst shall review and comment on the utilization and effectiveness of the Program Development Fund in connection with the annual budget hearings.

The State Department of Health may allocate funds from the Program Development Fund for any legal purpose, provided, that such allocations are consistent with the priorities for program development in the state plan and are approved by the state council. Allocations from the Program Development Fund shall take into consideration the future fiscal impact of such allocations on other state-supported programs for developmentally disabled persons. To the extent feasible, allocation decisions shall also take into consideration distribution of funds to geographic areas proportionate to such area's contributions to the Program Development Fund.

Article 3. Rates of Payment for Community Living Facilities

38260. In order to assure the availability of a continuum of community living facilities of good quality for persons with developmental disabilities, the State Department of Health shall establish and maintain an equitable system of payment to providers of such services. The system of payment shall include provision for the special needs of persons with developmental disabilities.

38261. By July 1, 1977, and each year thereafter, the State Department of Health shall establish rates, which shall be reviewed by the state council. Such rates shall annually be presented to the

Legislature and shall be operative on July 1 of each year, subject to the appropriation of sufficient funds for such purpose in the Budget Act. In establishing rates to be paid for out-of-home care, the State Department of Health shall consider and, when appropriate, include each of the cost elements in this section as follows:

(a) Rates established for all facilities shall include an adequate amount to care for "basic living needs" of a person with developmental disabilities. "Basic living needs" are defined to include housing (shelter, utilities, and furnishings), food, clothing, and personal care. The amount required for basic living needs shall be calculated each year as the average cost of an additional normal child, between the age of 12–17, living at home. The amount for basic living needs shall be adjusted depending on the size of the out-of-home facility. These amounts shall be adjusted annually to reflect cost-of-living changes. A redetermination of basic living costs shall be undertaken every three years by the State Department of Health, using the best available estimating methods.

(b) Rates established for all facilities that provide direct supervision for persons with developmental disabilities shall include an amount for "direct supervision." The cost of "direct supervision" shall reflect the ability of the persons in the facility to function with minimal, moderate, or intensive supervision. Minimal supervision means that a developmentally disabled person needs the assistance of other persons with certain daily activities. Moderate supervision means that a developmentally disabled person needs the assistance of other persons with daily activities most of the time. Intensive supervision means that all the personal and physical needs of a developmentally disabled person are provided by other persons. The cost of "direct supervision" is calculated as the wage costs of care-giving staff depending on the needs of the person with developmental disabilities. These amounts shall be adjusted annually to reflect wage changes and shall comply with all federal regulations for hospitals and residential-care establishments under provisions of the Fair Labor Standards Act.

(c) Rates established for all facilities that provide "special services" for persons with developmental disabilities shall include an amount to pay for such "special services" for each person receiving special services. "Special services" include medical and dental care and therapeutic, educational, training, or other services required in the individual program plan of each person. Facilities shall be paid for providing special services for each individual to the extent that such services are specified in the person's individual program plan and the facility is designated provider of such special services. Rates of payment for special services shall be the same as prevailing rates paid for similar services in the area.

(d) To the extent applicable, rates established for facilities shall include a reasonable amount for "unallocated services." Such costs shall be determined using generally accepted accounting principles. "Unallocated services" means the indirect costs of managing a

facility and includes costs of managerial personnel, facility operation, maintenance and repair, employee benefits, and general and administrative support. If a facility serves other persons in addition to developmentally disabled persons, unallocated services expenses shall be reimbursed under the provision of this section, only for the proportion of the costs associated with the care of developmentally disabled persons.

(e) Rates established for facilities shall include an amount to reimburse facilities for the depreciation of "mandated capital improvements and equipment" as established in the state's uniform accounting manual. For purposes of this section, "mandated capital improvements and equipment" are only those remodeling and equipment costs incurred by a facility because an agency of government has required such remodeling or equipment as a condition for the use of the facility as a provider of out-of-home care to persons with developmental disabilities.

(f) When applicable, rates established for proprietary facilities shall include a reasonable "proprietary fee."

38262. Under no circumstances shall the rate of state payment to any provider of out-of-home care exceed the average amount charged to private clients residing in the same facility, nor shall the monthly rate of state payment to any such facility, with the exception of a licensed acute care or emergency hospital, exceed the average monthly cost of services for all persons with developmental disabilities who reside in state hospitals.

38263. It is the intent of the Legislature that rates of payment for out-of-home care shall be established in such ways as to assure the maximum utilization of all federal and other sources of funding, to which persons with developmental disabilities are legally entitled, prior to the commitment of state funds for such purposes.

Article 4. Supportive Services for Persons Living at Home

38275. The Legislature places a high priority on providing opportunities for children with developmental disabilities to live with their families, when living at home is the preferred objective in the child's individual program. In order to provide opportunities for children to live with their families, the following procedures shall be adopted:

(a) The state plan shall give a very high priority to the development and expansion of programs designed to assist families in caring for their children at home. Such assistance may include, but is not limited to: specialized medical and dental care, special training for parents, infant stimulation programs, respite for parents, homemaker services, camping, day care, short-term out-of-home care, babysitting, counseling, mental health services, behavior modification programs, special equipment such as wheelchairs, hospital beds, and other necessary appliances, and advocacy to assist persons in securing income maintenance and other benefits to which

they are entitled.

(b) In developing individual program plans for children, regional centers shall consider every possible way to assist families in maintaining their children at home, when living at home will be in the best interest of the child, before considering out-of-home placement alternatives.

The state department shall conduct an annual review of the percentage of children in out-of-home placements, relative to caseload, in each regional center, and shall investigate any possible excessive out-of-home placements in any regional center. If the State Department of Health determines that a regional center has failed to emphasize assistance to families to care for their children at home, the department shall assist the regional center to develop a more appropriate program and shall establish specific home care objectives for the regional center to meet in its contract with the state.

(c) If the parent of any child receiving services from a regional center believes that the regional center is not offering adequate assistance to enable the family to keep the child at home, such parent may initiate request for fair hearing as established in this division.

(d) Nothing in this section shall be construed to encourage the continued residency of adult children in the home of their parents when such residency is not in the best interests of the person.

Article 5. Regional Center Rates for Nonresidential Services

38276. The Director of Health shall establish rates of state payment for nonresidential services purchased by regional centers. An equitable system of rates shall be developed, maintained, and revised as necessary under this chapter in order to assure that regional centers may secure high-quality services for developmentally disabled persons. In developing such rates, the Director of Health shall take into account the rates paid by other agencies and jurisdictions in order to assure that regional center rates are at competitive levels. In no event shall rates established pursuant to this article be any less than those established for comparable services under the State Medi-Cal Program.

SEC. 2. The sum of one hundred sixty-five thousand dollars ($165,000) is hereby appropriated from the General Fund to the State Department of Health for expenditure for a demonstration project to purchase workshop services for current and potential recipients of aid to needy disabled and for related administrative and evaluation costs. The appropriation provided in this section shall be in addition to any other appropriation for such purposes and shall be used to provide workshop services to a larger number of current and potential recipients of aid to the needy disabled.

The funds appropriated by this section shall be utilized to obtain federal funds under any federal program which requires a state contribution in order to receive federal funds.

Upon enactment of this section, the State Department of Health shall take whatever action is necessary to cause the funds appropriated by Chapter 1440 of the Statutes of 1972, which have been encumbered by the courts, to revert to the General Fund.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3804, inclusive, and Assembly Bill No. 3806, Assembly Bill No. 3807, and Assembly Bill No. 3809 become effective, and in such event, Section 1 of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3804, inclusive, and Assembly Bill No. 3806, Assembly Bill No. 3807, and Assembly Bill No. 3809 become effective.

CHAPTER 1370

An act to add Chapter 7 (commencing with Section 38300) to Division 25 of the Health and Safety Code, relating to the developmentally disabled.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 38300) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 7. APPEALS PROCEDURES

Article 1. Service Agency Fair Hearing Procedure

38300. On and after July 1, 1977, every public or private agency that receives state funds to provide services for persons with developmental disabilities shall, as a condition of continued receipt of such funds, have an agency fair hearing procedure for resolving conflicts between the agency and consumers or potential consumers of service.

Any agency that employs a fair hearing procedure mandated by any other statute shall be considered to have an approved procedure for purposes of this chapter.

The service agency's fair hearing procedure shall be stated in writing, in English and such other language as may be appropriate to the needs of the consumers of the agency's service. All consumers currently receiving services as persons with developmental disabilities or their legally responsible relatives, guardians, or anyone having legal custody of a developmentally disabled person, and all such persons formally applying for service shall be informed verbally of, and shall be notified in writing in a language which they comprehend of, the agency's fair hearing procedure. A copy of the

procedure and a copy of the provisions of this chapter shall be prominently displayed on the premises of the agency.

38301. The service agency's fair hearing procedure shall meet the following minimum requirements:

(a) Any person with developmental disabilities, or who is believed to have a developmental disability, or the parent, legal guardian, anyone having legal custody, or other representative acting on behalf of such person shall have the opportunity to request a fair hearing to contest the decision of any agency which he believes to be illegal, unjust, discriminatory, or not in the best interest of the person with developmental disabilities. The request for a fair hearing shall be stated in writing on an appeal for fair hearing form to be provided by the agency.

If any person makes a verbal request for a fair hearing, the employee of the agency who hears the request shall provide the person with an appeal for fair hearing form and shall assist the person in filling out such form if the person requires or requests assistance. Any employee who willfully fails to comply with this requirement shall be guilty of a misdemeanor.

(b) The agency's procedures for responding to a request for a fair hearing shall be informal and shall result in a written decision by the agency within 30 days from the date of submission of the request for fair hearing form.

(c) Requests for a fair hearing shall be directed to the director of the agency. Upon receipt by the agency director, or his designated representative, of a request for a fair hearing submitted by a person with developmental disabilities, his parent, guardian, conservator, or other representative, the agency director, or his designated representative, shall within 10 days of receipt of such request:

(1) Meet with the person requesting the fair hearing in an attempt to settle the grievance. Such person shall have the right to examine any documents contained in the developmentally disabled person's agency file, provided that the written consent of the person with developmental disabilities must be secured therefor in the case of a developmentally disabled adult who is not under guardianship or conservatorship.

(2) If it is determined that the grievance has merit, the agency director may rule in favor of the person who requested the fair hearing.

(3) If the agency director fails to resolve the grievance to the satisfaction of the person who requested the fair hearing, the agency director shall commence the fair hearing procedure.

(d) The person with developmental disabilities and the parent, guardian, or conservator of such person shall be given written notice in a language which they comprehend of all fair hearing and review proceedings that the agency may conduct; shall be permitted to attend and participate in all such proceedings; and shall be permitted to have with them any representative they may wish to have assist them in presenting their grievance. Fair hearing proceedings shall

03806 28 12 350 339

be conducted at such times and places as to permit the participation of the person who requested the review.

The person who makes the appeal and his representative shall have access to any records in possession of the agency which may have a bearing on the issues being contested.

Article 2. Appeals Board Hearings

38305. Any person who has made a request for a service agency fair hearing may, within 30 days following the date of receipt of the written decision of the service agency, notify in writing the director, or the governing board of the agency, that he does not accept the decision of the service agency and that an appeals board hearing of the decision is requested.

The appeals board hearing shall take place within 30 days following the agency's receipt of such written notification. Both parties shall agree to a convenient time and place for such hearing in the county of residence of the person requesting the hearing.

The appeals board shall be composed of three persons, one selected by the agency's governing board, one selected by the person or persons requesting the hearing, and the third selected by mutual agreement of the two persons selected by the agency's governing board and the person or persons requesting the hearing. If agreement cannot be achieved in selecting the third member of the appeals board at least 15 days prior to the date set for the hearing, the area board shall, within 15 days, select the third member and the appeals board hearing shall commence within 15 days following such selection.

38306. The chairman of the appeals board shall be selected by its members.

38307. The hearing shall be conducted in an informal manner. Each party, and their representatives, shall have the right to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. Irrelevant and unduly repetitious evidence may be excluded.

The hearing shall be conducted in the English language. However, if any of the parties does not comprehend English, then an interpreter shall be provided by the parties who shall be approved by the chairman of the appeals board as being proficient in the English language and the language in which the witness will testify.

A stenographic record shall be kept or a recording made of the proceedings before the appeals board.

Any cost of interpreter and stenographic services shall be paid by the agency.

03806 28 12 360 341

38308. Within 15 days after submission of all evidence and argument before the appeals board, the board shall render a written decision based upon a majority vote of its members. Both parties shall act upon such decision unless either party appeals the board's determination to the responsible state agency.

38309. The appeals board's written decision shall be in ordinary and concise language. If any of the parties cannot comprehend English, then the written decision shall be translated into a language which such party can comprehend. The decision shall contain findings of fact, a determination of the issues presented, and the reason for the decision. The decision shall become effective within 30 days. The notice of the decision shall state that either party has a right of appeal to the responsible state agency.

38310. Appeals board hearings shall be open to the public except when personnel matters are being reviewed.

Article 3. State Agency Review and Hearing

38315. If either party disagrees with the decision of the appeals board, he or she may request, in writing, the director of the state agency or department (hereinafter called the "responsible state agency") primarily responsible for operating, funding, or monitoring the program subject to the appeal, to review the decision within 30 days following notification of such decision.

The director of the responsible state agency or his designee shall review the records of the appeals board hearing and may request additional information from either party.

38316. If the director of the responsible state agency decides not to hear the appeal, the decision of the appeals board shall be final.

If the director of the responsible state agency decides to hear the appeal, the decision of the appeals board shall be held in abeyance until the director renders a final decision. If the director of the responsible state agency decides to hear the appeal, he shall render a decision within 30 days from the time that the request for a state agency hearing was received. If the director of the state agency fails to render a decision within 30 days, such failure shall constitute a waiver of the responsible state agency's right to hear the case and the decision of the appeals board shall be final.

If the responsible state agency conducts a hearing, the hearing shall be conducted according to the same procedures as required for appeals board hearings.

The decision of the responsible state agency shall be the final administrative determination and both parties shall be bound thereby.

38317. Nothing in this division shall presume the incompetence of any person with a developmental disability to participate in any of the appeals procedures established herein.

38318. If in the opinion of any person, the rights or best interests

of any individual with developmental disabilities may not be properly protected or advocated in any appeals procedure, the area board shall be notified and the area board may appoint a personal advocate to represent the individual with the developmental disability in such appeals procedures.

Article 4. Right to Representation

38325. At any stage in the appeals procedure, the person with developmental disabilities or the parents or legal guardian of such person shall have the right to be represented, at their own expense, by the person or persons of their choice including, but not limited to, private legal counsel, legal aid societies, or citizen advocacy organizations.

SEC. 2. Section 1 of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3805, inclusive, Assembly Bill No. 3807, and Assembly Bill No. 3809, Section 1 of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3805, inclusive, Assembly Bill No. 3807, and Assembly Bill No. 3809, become effective.

CHAPTER 1371

An act to add Chapter 8 (commencing with Section 38350) to, and to repeal Chapter 7 (commencing with Section 38300) of, Division 25 of the Health and Safety Code, relating to the developmentally disabled.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976]

SEC. 2. Chapter 8 (commencing with Section 38350) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 8. EVALUATION

38350. The Legislature intends that expenditures on state programs for the developmentally disabled shall have measurable and desirable results. Such results shall reflect the degree to which developmentally disabled persons are leading more independent, productive, and normal lives.

38351. The State Department of Health shall perform all of the following tasks to provide the Legislature with information to

determine the extent to which programs under its jurisdiction are obtaining desirable results:

(a) The State Department of Health shall propose to the Legislature by July 1, 1977, a method for determining that developmentally disabled persons throughout the state are, as a result of services provided pursuant to this division, leading more independent, productive, and normal lives. The proposed method shall measure changes, including, but not limited, to changes in:

(1) The amount of supervision required and the restrictiveness of living situations.

(2) The productivity of adults involved in vocational, prevocational, or work training programs.

(3) The relative normality of training or education experiences, including hours of attendance and participation in activities with nondisabled persons.

(b) The proposed method shall apply to developmentally disabled persons living in state hospitals and in the community.

(c) The proposed method shall have the capability of measuring progress or lack of progress for adults and for children, regardless of the degree of their handicaps.

(d) The proposed method shall be approved by the state council prior to its submission to the Legislature.

(e) The proposed method shall include scales for measuring changes in individual clients as defined in subdivision (a), and examples of the format to be used in reporting evaluation results to the Legislature. The proposed method shall be reviewed and commented upon by the appropriate committees of Legislature within 30 days. After such 30 days the Department of Health shall field test the proposed method and report its findings to the Legislature by February 1, 1978.

38352. The department shall prepare by July 1, 1978, a plan for using the method to obtain and report statewide information on program effectiveness.

The plan shall include:

(a) A description of any sampling procedures to be used.

(b) Methods for obtaining and analyzing information about the type and amount of service provided to obtain program results.

(c) Methods for determining the state expenditures associated with varying levels of measured program effectiveness.

(d) Specification of procedures and format for future reports to the Legislature on program costs and effectiveness.

(e) The projected costs of implementation.

38352.5. By January 1, 1979, the Department of Health shall implement the evaluation system for all programs under its jurisdiction.

38353. Nothing in this chapter shall be construed to prohibit any agency providing services to persons with developmental disabilities from utilizing additional evaluation mechanisms for the agency's own program purposes.

SEC. 3. Sections 1 and 2 of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3806, inclusive, and Assembly Bill No. 3809, become effective, and in such event, Sections 1 and 2 of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3806, inclusive, and Assembly Bill No. 3809 become effective.

CHAPTER 1372

An act to add Chapter 9 (commencing with Section 38400) to, and to repeal Chapter 6 (commencing with Section 38250) of, Division 25 of the Health and Safety Code, relating to the developmentally disabled.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 38250) of Division 25 of the Health and Safety Code, as added by Chapter 1594 of the Statutes of 1969, is repealed.

SEC. 2. Chapter 9 (commencing with Section 38400) is added to Division 25 of the Health and Safety Code, to read:

CHAPTER 9. BUDGETARY PROCESS AND FINANCIAL PROVISIONS

38400. The Legislature finds that the method of appropriating funds for numerous programs for the developmentally disabled affects the availability and distribution of services and must be related to statewide planning. Therefore, the process for determining levels of funding of programs must involve consideration of the state plan established pursuant to Chapter 3 (commencing with Section 38100) and the participation of citizens who may be directly affected by funding decisions.

38401. On or before September 1 of each year, each regional center shall submit to the state department and the state council a program budget plan for the subsequent budget year. The budget plan shall include all of the following:

(a) An estimate of all developmentally disabled persons to be served by the regional center.

(b) An estimate of services to be provided by the regional center.

(c) An estimate of cost, by type of service.

(d) Estimated sources and amounts of all revenue, including funds which are not administered by regional centers.

(e) A detailed report of the resources required to implement Section 38009.

38402. On or before September 1 of each year, the

Superintendent of Public Instruction shall submit to the state council:

(a) An estimate of all developmentally disabled persons to be served throughout the state.

(b) Estimated total cost, by service or educational category.

(c) Estimated sources of revenue.

38403. To the extent feasible, all funds appropriated for developmental disabilities programs under this division shall be allocated to such programs by August 1 of each year. Any funds not allocated by that date shall be reported to the Legislature together with specific reasons for the nonallocation of such funds. Within 30 days after enactment, all departments administering programs providing services to the developmentally disabled shall submit to the Joint Legislative Budget Committee, the fiscal committees of both houses, and the state council a reconciliation of allocated funds with the appropriate budget item.

38404. On or before January 1 of each year, the State Department of Health shall submit a report to the state council, which shall be given with the council's comments and recommendations in a report to the Joint Legislative Budget Committee and the fiscal committees of both houses which provides actual and estimated expenditures for programs for the developmentally disabled during the first six months of the fiscal year and an estimate of total year-end expenditures.

If year-end expenditures are estimated to be less than the amount appropriated, the report shall indicate alternative program uses for the estimated savings that are consistent with the priorities in the state plan.

If year-end expenditures are estimated to be more than the amount appropriated, the report shall indicate anticipated actions that will be taken to secure additional funds or reduce expenditures.

38405. When appropriated by the Legislature, the State Department of Health may receive, and the Department of Benefit Payments may expend, all funds made available by the federal government, the state, its political subdivisions, and other sources, and, within the limitation of the funds made available, shall act as an agent for the transmittal of such funds for services through the regional centers. The Department of Benefit Payments may use any funds received under Article 2 (commencing with Section 248) of Chapter 2 of Part 1 of Division 1 for the purposes of this division.

38406. The Department of Benefit Payments succeeds to, and is vested with, the duties, purposes, responsibilities, and jurisdiction heretofore exercised by the State Department of Health and the Secretary of the Health and Welfare Agency with respect to the processing, audit, and payment of funds made available under this chapter. Moneys, funds, and appropriations available to the State Department of Health for the purposes of this section shall be made available to the Department of Benefit Payments by the Director of Health for the purposes of this section after such moneys, funds, and

appropriations have been appropriated to or received by the Department of Health.

38407. The Department of Benefit Payments shall have the possession and control of all records, papers, equipment, and supplies held for the benefit or use of the Director of Health in the performance of his duties, powers, purposes, responsibilities, and jurisdiction that are succeeded to, and vested in, the Department of Benefit Payments.

38408. The State Department of Health may accept and expend grants, gifts, and legacies of money and, with the consent of the Department of Finance, may accept, manage, and expend grants, gifts and legacies of other property, in furtherance of the purposes of this division.

The secretary may enter into agreements with any person, agency, corporation, foundation, or other legal entity to carry out the purposes of this division.

38409. Parents of children under the age of 18 who are receiving services purchased by the regional center may be required to contribute to the cost of services depending upon their ability to pay, but not to exceed the cost of caring for a normal child at home, as determined by the director. Parental contributions shall be made only to the regional center and the method of determination of the amount of the contribution shall be the same, whether the child is placed in the state hospital or in a public or private community facility. In no event, however, shall parents be charged for diagnosis or counseling services received through the regional centers.

38410. Parents of children under the age of 18 who are patients in a state hospital or on leave from a state hospital, and who were admitted to the state hospital prior to July 1, 1971, may be required to contribute to the cost of services depending upon their ability to pay, but not to exceed the cost of caring for a normal child at home, as determined by the director. Parental contributions shall be made only to the regional center from which the child would have been referred had he been admitted to the state hospital after July 1, 1971, and the method of determination of the amount of the contribution shall be the same as that provided in Section 38409.

38411. The Director of Health shall establish and annually review a schedule for parental fees for services received through the regional centers.

In establishing the amount parents will contribute, the director shall take into account such factors as:

(a) Medical expenses incurred prior to regional center care;

(b) Whether the child is living at home;

(c) Parental contributions for medical expenses, clothing, incidentals, and other items considered necessary to the normal rearing of a child; and

(d) Transportation expenses incurred in visiting a child placed in a facility outside the region.

All parental contributions shall be deposited in the Developmental

Disabilities Program Development Fund established in Chapter 6 (commencing with Section 38250) to provide resources needed to initiate new programs, consistent with approved priorities for program development in the state plan.

38412. The State Department of Health shall conduct a study of the parental fee schedules established pursuant to this division and shall recommend changes to the Legislature by July 1, 1977. Such review shall include:

(a) The basic premises upon which the fee schedule is based.

(b) The equity of fees required in relation to family income.

(c) The relationship of parental fees charged under this division with respect to fees charged under other state and federal programs for developmentally disabled persons.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because there are no new duties, obligations or responsibilities imposed on local government by this act.

SEC. 4. Sections 1 to 3, inclusive, of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809, become effective, and in such event, Sections 1 to 3, inclusive, of this act shall become operative at the same time as Assembly Bill No. 3800 to Assembly Bill No. 3807, inclusive, and Assembly Bill No. 3809, become effective.

or health facility as defined in Section 1250, as a developmentally disabled patient shall have a right to a hearing by writ of habeas corpus for his release from the hospital, community care facility or health facility after he or any person acting on his behalf makes a request for release to any member of the staff of the state hospital, community care facility or health facility or to any employee of a regional center.

The member of the staff or regional center employee to whom a request for release is made shall promptly provide the person making the request for his signature or mark a copy of the form set forth below. The member of the staff, or regional center employee, as the case may be, shall fill in his own name and the date, and, if the person signs by mark, shall fill in the person's name, and shall then deliver the completed copy to the medical director of the state hospital, the administrator or director of the community care facility or the administrator or director of the health facility, as the case may be, or his designee, notifying him of the request. SEC. 3. Section 38121 of the Health and Safety Code is amended and renumbered to read:

38451. Judicial review shall be in the superior court for the county in which the state hospital, community care facility, or health facility is located. The adult requesting to be released shall be informed of his right to counsel by a member of the staff of the state hospital, community care facility, or health facility and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to assist him in preparation of a petition for the writ of habeas corpus and to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for the writ of habeas corpus is filed with the court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of any evidentiary hearing in the matter, to the parent, guardian, or conservator of the person seeking release or for whom release is sought and to the director of the appropriate regional center. Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested.

The court shall either release the adult or order an evidentiary hearing to be held not sooner than five judicial days nor more than 10 judicial days after the petition and notice to the adult's parent, guardian, or conservator and to the director of the appropriate regional center are deposited in the United States mail pursuant to this section. If the court finds (a) that the adult requesting release or for whom release is requested is not developmentally disabled, or (b) that he is developmentally disabled and that he is able to provide safely for his basic personal needs for food, shelter, and clothing, he shall be immediately released. If the court finds that he is developmentally disabled and that he is unable to provide safely for his basic personal needs for food, shelter, or clothing, but that a responsible person or a regional center or other public or private agency is willing and able to provide therefor, the court shall release the developmentally disabled adult to such responsible person or regional center or other public or private agency, as the case may be, subject to any conditions which the court deems proper for the welfare of the developmentally disabled adult and which are consistent with the purposes of this division.

If in any proceeding under this section, the court finds that the adult is developmentally disabled and has no parent, guardian, or conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the state department to initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator for the developmentally disabled adult.

SEC. 4. Section 38122 of the Health and Safety Code is amended and renumbered to read:

38452. This chapter shall not be construed to impair the right of

a guardian or conservator of an adult developmentally disabled patient to remove the patient from the state hospital at any time pursuant to Section 38500.

SEC. 5. Section 38123 of the Health and Safety Code is amended and renumbered to read:

The regional center shall transmit such certificate, or a copy thereof, to the state hospital, community care facility, or health facility.

A state hospital, community care facility, or health facility, shall not admit any adult as a developmentally disabled patient on recommendation of a regional center unless a copy of such certificate has been transmitted pursuant to this section.

Any person who, knowing that objection to state hospital, community care facility, or health facility, admission has been made, certifies that no objection has been made, shall be guilty of a misdemeanor.

SEC. 6. Section 38124 of the Health and Safety Code is amended and renumbered to read:

38454. Whenever a proceeding is held in a superior court under the provisions of this chapter, involving a person who has been placed in a state hospital located outside the county of residence of the person, the provisions of this section shall apply. The county clerk of the county in which the proceeding is held may make out a statement of all of the costs incurred by the county for the investigation, preparation, and conduct of the proceedings, and the costs of appeal, if any. The statement may be certified by a judge of the superior court of such county. The statement may then be sent to the county of residence of the person, which shall reimburse the county providing such services. If it is not possible to determine the actual county of residence of the person, the statement may be sent to the county in which the person was originally detained, which shall reimburse the county providing the services.

SEC. 7. The heading of Chapter 4 (commencing with Section 38150) of Division 25 of the Health and Safety Code is amended and renumbered to read:

CHAPTER 11. GUARDIANSHIP AND CONSERVATORSHIP

SEC. 8. Section 38150 of the Health and Safety Code is amended and renumbered to read:

38500. This chapter shall not be construed to terminate any appointment of the state department as guardian of a developmentally disabled person prior to July 1, 1971.

It is the intent of this section that the Director of Health be appointed as guardian or conservator of a developmentally disabled person as provided, pursuant to the provisions of Article 7.5 (commencing with Section 416) of Chapter 2 of Part 1 of Division 1.

Notwithstanding Section 6000 of the Welfare and Institutions Code, the admission of an adult developmentally disabled person to a state hospital or private institution shall be upon the application of the person's parent or guardian or conservator in accordance with the provisions of Sections 38103 and 38453. Any person so admitted to a state hospital may leave the state hospital at any time, if such parent, guardian, or conservator gives notice of his desire for the departure of the developmentally disabled person to any member of the hospital staff and completes normal hospitalization departure procedures.

Notwithstanding the provisions of Section 38105, any adult developmentally disabled person who is competent to do so may apply for and receive any services provided by a regional center.

SEC. 9. Sections 1 to 8, inclusive, of this act shall become operative only if Assembly Bill No. 3800 to Assembly Bill No. 3808, inclusive, become effective, and in such event, Sections 1 to 8, inclusive, of this act shall become operative at the same time Assembly Bill No. 3800 to Assembly Bill No. 3808, inclusive, become effective.

CHAPTER 1374

An act to amend Section 14412 of the Welfare and Institutions Code, relating to Medi-Cal, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 14412 of the Welfare and Institutions Code is amended to read:

14412. (a) The enrollment of a Medi-Cal beneficiary in the prepaid health plan shall not be terminated except for loss of eligibility or for good cause, as determined by the department.

(b) Enrollment may be terminated at the request of the Medi-Cal

beneficiary subject to approval by the department. Approval shall be mandatory under the following circumstances:

(1) The beneficiary was enrolled in violation of this article or regulations promulgated by the department pursuant to this article.

(2) The end of one-year period of the contract of enrollment.

(3) Request for disenrollment pursuant to subdivision (d) of Section 14460.

(c) Any Medi-Cal beneficiary enrolled in a prepaid health plan who would remain eligible for Medi-Cal Program benefits for four additional months pursuant to Section 14005.8 shall remain enrolled in the prepaid health plan and shall not receive a Medi-Cal card.

(d) It is the intent of the Legislature that the department shall develop such policies and procedures to maximize continuity of care for persons enrolled in prepaid health plans and to insure that the eligibility determination or redetermination process does not unnecessarily interfere with such enrollment or create gaps in the delivery of health services.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Eligibility redetermination procedures and administrative inflexibility have caused many enrollees in prepaid health plans to involuntarily lose their enrollment status but remain eligible without liability for Medi-Cal Program benefits. Such enrollment instability has hindered continuity of care and has caused many prepaid health plans to allocate considerable funds from health care services to maintain enrollment stability. It is essential and urgent that continuity of care be restored and that funds now spent to offset enrollment instability be reallocated to providing health care services.

CHAPTER 1375

An act to add Sections 25132 and 25403.5 to the Public Resources Code, and to amend Section 739 of the Public Utilities Code, relating to energy resources.

[Approved by Governor September 29, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 25132 is added to the Public Resources Code, to read:

25132. "Load management" means any utility program or activity that is intended to reshape deliberately a utility's load duration curve.

SEC. 2. Section 25403.5 is added to the Public Resources Code, to read:

25403.5. The commission shall, by July 1, 1978, adopt standards by regulation for a program of electrical load management for each utility service area. In adopting the standards, the commission shall consider, but need not be limited to, the following load management techniques:

(1) Adjustments in rate structure to encourage use of electrical energy at off-peak hours or to encourage control of daily electrical load. Compliance with such changes in rate structure shall be subject to the approval of the Public Utilities Commission in a proceeding to change rates or service.

(2) End use storage systems which store energy during off-peak periods for use during peak periods.

(3) Mechanical and automatic devices and systems for the control of daily and seasonal peakloads.

The standards shall be cost effective when compared with the costs for new electrical capacity, and the commission shall find them to be technologically feasible. Any expense or any capital investment required of a utility by the standards shall be an allowable expense or an allowable item in the utility rate base and shall be treated by the Public Utilities Commission as such in a rate proceeding.

The commission may determine that one or more of such techniques are infeasible and may delay their adoption. If the commission determines that any techniques are infeasible to implement, it shall make a finding in each instance stating the grounds upon which the determination was made and the actions it intends to take to remove the impediments to implementation. The commission's findings shall be published and forwarded to the Governor and the Legislature.

The commission may also grant, upon application by a utility, an exemption from the standards or a delay in implementation. The grant of an exemption or delay shall be accompanied by a statement of findings by the commission indicating the grounds for the exemption or delay. Exemption or delay shall be granted only upon a showing of extreme hardship, technological infeasibility, lack of cost effectiveness, or reduced system reliability and efficiency.

No site or related facility shall be certified pursuant to Chapter 6 (commencing with Section 25500) of this division, unless the applicant certifies to the satisfaction of the commission that the load management standards adopted by the commission have been complied with; or, with respect to a publicly owned utility, that the governing body thereof has found such standards, or a portion thereof, unsuitable and has reported such finding and the reasons therefor to the Legislature.

This section does not apply to proposed sites and related facilities for which a notice of intent or an application requesting certification has been filed with the commission prior to the effective date of the standards.

04195 28 12615 392

SEC. 3. Section 739 of the Public Utilities Code is amended to read:

739. (a) The commission shall designate a lifeline volume of gas and a lifeline quantity of electricity which is necessary to supply the minimum energy needs of the average residential user for the following end uses: space and water heating, lighting, cooking, and food refrigerating. In estimating such volumes and quantities the commission shall take into account differentials in energy needs between utility customers whose residential energy needs are supplied by electricity and gas. The commission shall also take into account differentials in energy needs caused by geographic differences, by differences in severity of climate, and by season.

(b) The commission shall require that every electrical and gas corporation file a schedule of rates and charges providing a lifeline rate. The lifeline rate shall be not greater than the rates in effect on January 1, 1976. The commission shall authorize no increase in the lifeline rate until the average system rate in cents per kilowatt-hour or cents per therm increased 25% or more over the January 1, 1976, level.

(c) Nothing shall preclude the commission from reducing any rate established pursuant to subdivision (a) either specifically or pursuant to any general restructuring of all electrical or gas rates, charges, and classifications.

(d) As used in this section, the term "residential" means domestic human needs end use and excludes industrial, commercial, and every other category of end use other than wholesale.

(e) Wholesale electrical or gas purchases and the rates charged therefor shall be exempt from the provisions of this section.

(f) Nothing contained in this section shall be construed to prohibit experimentation with alternative electrical rate schedules for the purpose of achieving energy conservation.

CHAPTER 1376

An act to amend Section 235 of the Civil Code, and to amend Section 2625 of the Penal Code, relating to termination of parental custody and control.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 235 of the Civil Code is amended to read:

235. (a) The father or mother of such minor person, if his or her place of residence is known to the petitioner, or, if the place of residence of such father or mother is not known to the petitioner, then the grandparents and adult brothers, sisters, uncles, aunts, and

first cousins of such minor person, if there are any and if their residences and relationships to such person are known to the petitioner, shall be notified of the proceedings by service of a citation advising such person or persons that they may appear at the time and place stated in such citation. The notice shall also advise the person or persons of the rights and procedures set forth in Section 237.5. Such citation shall be served in the manner provided by law for the service of a summons in a civil action, other than by publication. If the petition is filed for the purpose of freeing the child for placement for adoption, the citation shall so state. In all cases where one parent has relinquished his child for the purpose of adoption, or has signed a consent for adoption as provided in Sections 224m and 226, no notice as herein provided need be given to the parent who has signed such relinquishment or consent. Service of such citations shall be made at least 10 days before the time stated therein for such appearance.

(b) If the father or mother of such minor person or any person alleged to be or claiming to be the father or mother cannot, with reasonable diligence, be served as provided for in subdivision (a), or if his or her place of residence is not known to the petitioner, the petitioner or his agent or attorney shall make and file an affidavit, and shall state therein the name of the father or mother or alleged father or mother and his or her place of residence, if known to the petitioner, and the name of the father or mother or alleged father or mother whose place of residence is unknown to the petitioner. Thereupon the court shall make an order that the service be made by the publication of a citation requiring such father or mother or alleged father or mother to appear at the time and place stated therein, and that the citation be published in a newspaper to be named and designated as most likely to give notice to the father or mother or alleged father or mother to be served once a week for four successive weeks. In case of publication where the residence of a parent or alleged parent is known, the court shall also direct a copy of the citation to be forthwith served upon such parent or alleged parent by mail by deposit in the post office properly addressed and with the postage thereon fully prepaid, directed to such parent or alleged parent at his or her place of residence. When publication is ordered, service of a copy of the citation in the manner provided for in subdivision (a) is equivalent to publication and deposit in the post office. Service is complete at the expiration of the time prescribed by the order for publication or when service is made as provided for in subdivision (a), whichever event shall first occur.

If one or both of the parents of such minor person be unknown or if the name of either or both of his parents be uncertain, then such fact shall be set forth in the affidavit and the court shall order the citation to be directed to either the father or the mother, or both, of the minor person, naming and otherwise describing the minor person, and to all persons claiming to be the father or mother of the minor person.

SEC. 2. Section 2625 of the Penal Code is amended to read:

In any other action in which a prisoner's parental or marital rights are subject to adjudication, an order for the prisoner's temporary removal from such institution and for the prisoner's production before the court may be made by the superior court of the county in which such action is pending, or by a judge thereof. A copy of the order shall be transmitted to the warden, superintendent, or other person in charge of such institution not less than 48 hours before the order is to be executed. The people of the State of California do enact as follows:

SECTION 1. Section 244 is added to the Public Utilities Code, to read:

244. No transit district, common carrier, or publicly owned transit system shall require any person to waive, limit, or qualify any right to recover damages for injury in exchange for such person being granted a reduction in price or fare for any service offered by the transit district, common carrier, or publicly owned transit system.

"Person," as used in this section, shall not include an employee of the transit district, common carrier, or publicly owned transit system.

SEC. 2. This act is not intended to validate or invalidate the practice whereby an employee of a transit district, common carrier, or publicly owned transit system may agree to waive, limit, or qualify benefits, privileges, or rights in exchange for the employee being granted a reduction in price or fare for services offered by the employing transit district, common carrier, or publicly owned transit system.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Some senior citizens are being denied rights, privileges, and benefits in exchange for being granted a reduction in price or fare for transportation. In order to stop such practices at the earliest opportunity, it is necessary that this act go into effect immediately.

CHAPTER 1378

An act to add Section 53072 to the Government Code, relating to dogs.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 53072 is added to the Government Code, to read:

53072. Notwithstanding any other provisions of law or any local ordinance, an officer or employee of any animal control agency shall not seize or impound a dog for violation of an ordinance requiring a dog to be leashed or issue citations for violation of such ordinance when the dog has not strayed from and is upon private property owned by the dog owner or the person who has a right to control the dog, or upon private property to which the dog owner or person who has a right to control the dog has a right of possession.

A dog that has strayed from but then returned to the private property of his owner or the person who has a right to control the dog shall not be seized or impounded, but in such a case a citation may be issued; provided, however, that if in such a situation the owner or person who has a right to control the dog is not home, the dog may be impounded, but the officer or employee of any animal control agency shall post a notice of such impounding on the front door of the living unit of the owner or person who has a right to control the dog. Such notice shall state the following: that the dog has been impounded, where the dog is being held, the name, address, and telephone number of the agency or person to be contacted regarding release of the dog, and an indication of the ultimate disposition of the dog if no action to regain it is taken within a specified period of time by its owner or by the person who has a right to control the dog.

This section shall not otherwise affect existing authority to seize or impound a dog or issue citations, as a result of a dog's being on property other than that owned by its owner or the person who has a right to control the dog.

This section shall not be construed as prohibiting any person from killing a dog in the situations authorized by Sections 31102, 31104, and 31152 of the Food and Agricultural Code.

CHAPTER 1379

An act to add Section 5006.41 to the Public Resources Code and to amend and supplement the Budget Act of 1976 by augmenting and superseding subitem (i) of Item 386 and by adding Sections 2.5J and 2.8J thereto, relating to parks and recreation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

I am deleting the following appropriations included in Senate Bill 1617:

I am deleting the appropriation contained in Section 6.5 in the amount of $2,500,000 for acquisition and development at El Capitan State Beach. This property is not a high priority project, has not been included in the Santa Barbara County Comprehensive Plan or the Regional Coastal Plan, problems exist with regard to the title to the water source, and its acquisition has been opposed by Santa Barbara County Supervisors and local legislators.

I am deleting the reappropriation made by Section 7 from Chapter 738, Statutes of 1973, and the appropriation made by Section 8. Since other funds are available for such aquisitions, I do not believe the General Fund should be used.

I am deleting the appropriation of $1,258,000 made by Section 9 for acquisition of Willow Creek Ranch. This area is not under threat of development and is not a high priority acquisition.

With these deletions, I approve SB 1617

[Approved by Governor September 29, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 39601 of the Health and Safety Code, as amended by Chapter 1165 of the Statutes of 1975, is repealed.

SEC. 2. Section 39615.5 of the Health and Safety Code is amended and renumbered, to read:

44531.5. Notwithstanding the provisions of Section 44531, the authority may separately approve financing for projects the purpose of which is to prevent or reduce environmental pollution resulting from the disposal of solid waste, to the extent that separate funding for such projects has been authorized pursuant to Section 44541.5. No such project, or portion thereof, shall be eligible for financing under

this division for which, at the time an application is submitted to the authority, financing has been otherwise obtained.

No project shall be eligible for funding pursuant to this section unless the Secretary of the Resources Agency shall certify that there is reasonable assurance of the following:

(a) The project will significantly reduce the types of environmental pollution resulting from currently used methods of disposing of solid waste; and

(b) The project is consistent with any applicable regional, basin, or state plan for environmental protection.

The authority shall reimburse the Resources Agency for the reasonable and necessary costs incurred in making the certification required by this section.

SEC. 3. Section 39616.5 of the Health and Safety Code is amended and renumbered, to read:

44532.5. To the extent that funding has been separately authorized for financing solid waste disposal projects pursuant to Section 44541.5, the authority shall, throughout each calendar quarter, accept separate applications for such projects. Eligible applicants shall be limited to participating parties who propose projects which have been certified as provided in Section 44531.5.

After the close of each calendar quarter, the authority shall determine, by resolution, those projects which it proposes to finance pursuant to this section. The following projects shall be considered for financing:

(a) Projects utilizing recognized resource recovery or energy conversion processes.

(b) Projects utilizing new technologies or processes for resource recovery or energy conversion.

Such projects may include elements which provide for new refuse removal vehicles, transfer stations, resource recovery or energy conversion plants, source separation, or any solid waste disposal facilities involved in resource recovery systems. "Solid waste disposal facilities" means any property, or portion thereof, used for the collection, storage treatment, utilization, processing, or final disposal of solid waste in resource recovery systems.

Projects approved for financing pursuant to this section shall not exceed fifty million dollars ($50,000,000) in aggregate for each calendar quarter. However, the authority may at the beginning of any calendar quarter determine by resolution to finance a lesser aggregate amount of projects pursuant to this section during such calendar quarter.

SEC. 4. Section 39620.7 of the Health and Safety Code is amended and renumbered, to read:

44541.5. At such times as the authority desires to issue bonds separately to finance projects for the disposal of solid waste as provided in Sections 44531.5 and 44532.5, it shall adopt a resolution specifying the total amount of such bonds proposed to be issued. The amount of bonds specified in any such resolution shall not exceed two

hundred million dollars ($200,000,000) of new debt. Such resolution shall be submitted to the Legislature and such bonds shall be authorized as provided in Section 44541. All bonds so authorized shall be used solely to finance solid waste disposal facilities and shall be issued as otherwise provided in this chapter.

SEC. 5. Section 44501 of the Health and Safety Code is amended to read:

44501. (a) The Legislature hereby finds that it is necessary and essential that the state, in cooperation with the federal government, use all practical means and measures to control and eliminate pollution hazards to the environment. The Legislature further finds and determines that industry within this state utilizes processes and facilities which have significant environmental impact. These processes and facilities shall be modified and supplemented to meet the quality standards established and to be established for the control of environmental pollution. Industry needs and requires new methods to finance the capital outlays required for the devices, equipment and facilities utilized in pollution control if they are to rapidly comply with the quality standards established by the state and federal governments.

(b) The Legislature also finds and declares that the disposal of waste products by such current methods as incineration and landfill pollute the environment by degrading air and water quality. The Legislature further finds that in order to reduce the environmental pollution which currently occurs in connection with the disposal of waste products, there is a need to develop new and alternative processes and facilities which provide for the disposal of such waste products in ways which prevent or reduce environmental degradation. The Legislature also finds that such new and alternative processes and facilities include those which recover resources and energy from waste products.

(c) The alternate method of financing provided in this division is in the public interest and serves a public purpose and will promote the health, welfare, and safety of the citizens of the State of California.

SEC. 6. Any bonds of the authority issued pursuant to former Section 39620.7 of the Health and Safety Code, and any actions taken pursuant to such section, shall be deemed to have been issued or taken pursuant to Section 44541.5 of the Health and Safety Code, as amended and renumbered by Section 4 of this act, and valid for all such purposes. For such purposes, Section 44541.5 does not constitute a change in, but is declaratory of, existing law.

CHAPTER 1387

An act relating to health and making an appropriation therefor.

[Approved by Governor September 30, 1976 Filed with Secretary of State September 30, 1976.]

I am deleting the $50,000 appropriation contained in Section 6 of Assembly Bill No 4492

I will instruct the Department of Health to fund the activities called for in this bill with federal funds

With this deletion, I approve Assembly Bill No 4492

EDMUND G. BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that expanding knowledge of healthy living indicates we can enhance the physical and emotional growth of each child by providing an environment responsive to the child's needs. The dissemination of new theories of prenatal care, childbirth practices, and birthing is awakening public awareness to the existence of alternatives to traditional medical modes and practices and the recognition that each person is sensitive to and affected by his or her perception of personal physical and emotional environment prior to, during, and immediately following birth. In authorizing the practice of nurse-midwifery, the Legislature recognized the legitimacy of one such alternative birthing practice.

The Legislature further recognizes another innovative practice of birth without violence by Frederick Leboyer, a French obstetrician focusing attention on the just-born infant. It is a birthing method whereby babies are born sheltered from noise and light in a loving and peaceful atmosphere and allowed to lie with the mother and adjust slowly to their new environment. Early results of research being done with children born in this manner indicate that they are generally above average in their development and are extremely alert and creative.

It is the desire of the Legislature to enhance the creation of a human environment which enriches and expands each person's self-awareness, acceptance, and trust in his or her ability to actualize himself or herself, and to enhance the realization of each person as an authentic and self-directed person from birth onward. The Legislature recognizes that prospective parents should have the opportunity to choose those methods and practices of birthing which best suit their unique wants and needs, and which they feel are best suited for their child.

Therefore, this act provides for the creation of a special committee to study health and health-care procedures surrounding the birth of humans.

SEC. 2. The Director of Health shall appoint a committee to study health and health-care procedures surrounding the birth of humans. The study shall include, but need not be limited to, an examination and evaluation of the following:

(a) Alternatives in health and health-care methods and procedures prior to birth.

(b) Alternatives in health and health-care methods and procedures during birth, including, but not limited to, home birth, birth clinics, and mobile units equipped to provide birth services.

(c) Alternatives in health and health-care methods and procedures immediately following birth.

(d) The advantages and risks of each alternative procedure,

including, but not limited to, a consideration of emergency and crisis intervention, facilities, and procedures.

(e) The availability thereof.

(f) The legal and malpractice implications thereof, for individual and institutional providers.

(g) The insurance implications thereof, including public and private insurers.

(h) Methods used to inform the public of such alternatives, together with evaluations thereof, and of their right to select among such alternatives.

(i) The extent to which such alternatives, together with evaluations thereof, are being presented in health education courses in the public school system.

(j) The extent to which such alternatives, together with evaluations thereof, are being presented in the education of health care professionals.

SEC. 3. The committee shall be comprised of, but need not be limited to, one person from each of the following categories:

(a) Physicians, obstetricians, surgeons, pediatricians, and professional nurses.

(b) Nurse-midwives.

(c) Lay-midwives.

(d) Hospital administrators.

(e) Educators with experience in early childhood education.

(f) Attorneys at law.

(g) Active, concerned citizens.

(h) Teaching staff of medical schools.

SEC. 4. The committee shall submit a report of its findings and recommendations, including recommendations for further study and changes in statutory law and administrative regulations, to the Legislature on or before January 1, 1978, and the commission shall be dissolved six months following the submission of such report to the Legislature.

SEC. 5. Members of the committee shall receive no compensation for their services but shall be reimbursed for their necessary travel expenses incurred in the performance of their official duties.

SEC. 6. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the State Department of Health for expenditure for the purpose of this act; provided, that federal moneys shall be used to fund the study required by this act, if determined by the Director of Finance to be available for such purpose.

CHAPTER 1388

An act to amend Section 43013 of the Government Code, and to amend Section 155.13 of the Revenue and Taxation Code, relating to property taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 43013 of the Government Code is amended to read:

43013. Notwithstanding any other provision of law, the legislative body of a chartered city which assesses and collects its own property taxes may, by ordinance, provide that every person who at 12:01 a.m. on March 1 was the owner of, or had in his possession or under his control, any taxable property, or who acquired such property after such date and is liable for the taxes thereon for the fiscal year commencing the immediately following July 1, which property was thereafter damaged or destroyed, without his fault, by a misfortune or calamity, may, within the time specified in the ordinance, make application for the reassessment of such property and deliver to the assessing official of the city a written statement showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown thereon to be in excess of five thousand dollars ($5,000). The application shall be executed under penalty of perjury or, if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall reassess the property according to its full cash value immediately after the damage or destruction. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice. If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage.

If the damaged full cash value of the property as determined above is not at least five thousand dollars ($5,000) less than the full cash value shown on the assessment roll for the year in question, no adjustment shall be made to said roll and no taxes shall be canceled or refunded. Those reassessed values resulting from reductions in full

cash value of at least five thousand dollars ($5,000), as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessed values shall not be subject to review except by a court of competent jurisdiction.

If no such application is made and the county assessor determines that the full cash value of such property for the assessment year is reduced by more than five thousand dollars ($5,000) from the full cash value of the property for the immediately preceding assessment year due to the damage or destruction caused by the misfortune or calamity, the assessor shall notify the property owner that the property will be reassessed. The assessor shall assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the local board of equalization a description of the property so reassessed, the name of the person making the application in connection with the property, if any, or the name of the property owner notified of the reassessment, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

As used in this section, "damage" includes property which has diminished in value as a result of restricted access to the property where such diminution in value was caused by the misfortune or calamity.

The tax rate fixed for property on the roll on which the property so assessed appears or the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the equalized assessment or reassessment determined in accordance with this section. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

(a) With respect to property on the secured roll, a prorated portion of the tax due on the property as originally assessed at the rate established for the property on the secured roll for the current fiscal year, such proration to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for such fiscal year, such proration to be determined on the basis of the number of months in the year in which the property was in a damaged condition, including the month in which the damage was incurred.

(b) With respect to property on the unsecured roll, a prorated portion of the tax shall be computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the

taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of Division 1 of the Revenue and Taxation Code, as an erroneously collected tax.

SEC. 2. Section 155.13 of the Revenue and Taxation Code is amended to read:

155.13. Notwithstanding any provision of law to the contrary, the board of supervisors may, by ordinance, provide that every person who at 12:01 a.m. on March 1 was the owner of, or had in his possession, or under his control, any taxable property, or who acquired such property after such date and is liable for the taxes thereon for the fiscal year commencing the immediately following July 1, which property was thereafter damaged or destroyed, without his fault, by a misfortune or calamity, may, within the time specified in the ordinance, apply for reassessment of such property by delivering to the assessor a written application showing the condition and value, if any, of the property immediately after the damage or destruction, which damage must be shown therein to be in excess of five thousand dollars ($5,000). The application shall be executed under penalty of perjury, or if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall reassess the property according to its full cash value immediately after the damage or destruction. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice. If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage.

If the damaged full cash value of the property as determined above is not at least five thousand dollars ($5,000) less than the full cash value shown on the assessment roll for the year in question, no adjustment shall be made to said roll and no taxes shall be canceled or refunded. Those reassessed values resulting from reductions in full cash value of at least five thousand dollars ($5,000), as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessed values shall not be subject to review except by a court of competent jurisdiction.

If no such application is made and the county assessor determines that the full cash value of such property for the assessment year is reduced from the full cash value of such property for the immediately preceding assessment year by more than five thousand

dollars ($5,000) due to the damage or destruction caused by the misfortune or calamity, the assessor shall notify the property owner that the property will be reassessed. The assessor shall assess the property, or reassess it if it has already been assessed, according to the condition and value immediately after the damage or destruction, and the assessor, if he reassesses the property, shall transmit to the local board of equalization a description of the property so reassessed, the name of the person making the application in connection with the property, if any, or the name of the property owner notified of the reassessment, and the value of the property as so reassessed. Upon such notice as it may find to be proper, the local board of equalization shall equalize any such assessment or reassessment.

As used in this section, "damage" includes property which has diminished in value as a result of restricted access to the property where such diminution in value was caused by the misfortune or calamity.

The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the reassessment determined in accordance with this section. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

(a) With respect to property on the secured roll a prorated portion of the tax due on the property as originally assessed at the rate established for property on the secured roll for the current fiscal year, such proration to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for such fiscal year, such proration to be determined on the basis of the number of months in the year in which the property was in a damaged condition, including the month in which the damage was incurred.

(b) With respect to property on the unsecured roll, he shall be liable for a prorated portion of the tax computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax or by order of the board of supervisors without the necessity of a claim being filed pursuant to Chapter 5.

This section applies to all counties, whether operating under a charter or under the general laws of this state.

SEC. 2.5. Section 155.13 of the Revenue and Taxation Code is amended to read:

155.13. Notwithstanding any provision of law to the contrary, the board of supervisors may, by ordinance, provide that every person

who at 12:01 a.m. on March 1 was the owner of, or had in his possession, or under his control, any taxable property, or who acquired such property after such date and is liable for the taxes thereon for the fiscal year commencing immediately following July 1, which property was thereafter damaged or destroyed, without his fault, by a misfortune or calamity, may, within 60 days of such misfortune or calamity, apply for reassessment of such property by delivering to the assessor a written application showing the condition and value, if any, of the property immediately before and after the damage or destruction, which damage must be shown therein to be in excess of five thousand dollars ($5,000). The application shall be executed under penalty of perjury, or if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall verify the amounts claimed on the application in the before and after condition. The assessor shall then compute a percentage relationship of loss and reduce the current assessed value by that percentage. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice. If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision of the board regarding the damaged value of the property shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the damage.

If the amount of damage, as verified by the assessor, is not at least five thousand dollars ($5,000), no adjustment shall be made to said roll and no taxes shall be canceled or refunded. The reassessments resulting from those reductions, as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessments shall not be subject to review except by a court of competent jurisdiction.

If no such application is made and the assessor determines that a property has suffered damage caused by misfortune or calamity, which may qualify the property owner for relief under this section, the assessor shall provide the last known owner of the property with an application for reassessment. The property owner shall file the completed application within 30 days of notification by the assessor. Upon receipt of a properly completed, timely filed application, the assessor shall proceed to reassess property in the same manner as required above.

The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the reassessment determined in accordance

with this section. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

(a) With respect to property on the secured roll a prorated portion of the tax due on the property as originally assessed at the rate established for property on the secured roll for the current fiscal year, such proration to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for the balance of the fiscal year.

(b) With respect to property on the unsecured roll, he shall be liable for a prorated portion of the tax computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax or by order of the board of supervisors without the necessity of a claim being filed pursuant to Chapter 5.

The assessment of the property, in its damaged condition, as determined by this section, shall be reviewed at the lien date next following the date of the misfortune or calamity and shall be assessed in the same manner as prescribed by law for any other assessable property.

This section applies to all counties, whether operating under a charter or under the general laws of this state.

SEC. 3. Notwithstanding any other provision of law, the board of supervisors of any county which did not adopt an ordinance pursuant to Section 155.13 of the Revenue and Taxation Code for the 1974–75 assessment year may adopt such an ordinance for that year; provided, however, that the ordinance shall be adopted not more than 90 days after the effective date of this section.

SEC. 3.5. It is the intent of the Legislature, if this bill and Assembly Bill No. 3522 are both chaptered and amend Section 155.13 of the Revenue and Taxation Code, and this bill is chaptered after Assembly Bill No. 3522, that Section 155.13 of the Revenue and Taxation Code, as amended by Section 2 of this act shall remain operative only until the effective date of Assembly Bill No. 3522, and that on the effective date of Assembly Bill No. 3522 Section 155.13 of the Revenue and Taxation Code as amended by Section 2 of this act be further amended in the form set forth in Section 2.5 of this act to incorporate the changes in Section 155.13 proposed by Assembly Bill No. 3522. Therefore, Section 2.5 of this act shall become operative only if Assembly Bill No. 3522 is chaptered before this bill and amends Section 155.13, and in such case Section 2.5 of this act shall become operative on the operative date of Assembly Bill No. 3522.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In November 1974, the people of the state amended the Constitution to permit the reassessment for property taxation of property damaged or destroyed after the lien date to which the assessment related. The law required that a city or county adopt an ordinance to enable eligible persons to apply for relief; and due to the newness of the provision and brief period for the adoption of such an ordinance some counties did not adopt an ordinance for the 1974–75 assessment year, and some persons, otherwise eligible, were unable to apply for relief. This act will remedy the situation, and in so doing the intent of Section 15 of Article XIII of the Constitution will be fulfilled, the public policy of the state will be subserved, and the state as a whole will benefit.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

I am deleting the appropriation contained in Section 3 of Assembly Bill No 3114 Sufficient funds are already available to the Motion Picture Development Council to carry out the provisions of this bill.

With this deletion, I approve Assembly Bill No. 3114.

EDMUND G. BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. Section 14998.6 is added to the Government Code, to read:

14998.6. The council may designate a deputy or employee who shall be exempt from civil service as provided for pursuant to the provisions of subdivision (e) of Section 4 of Article XXIV of the California Constitution.

SEC. 2. Section 14998.7 is added to the Government Code, to read:

14998.7. The council may establish fees to be paid for use of state-owned property for the purpose of making commercial motion pictures. All fees collected pursuant to this section shall be deposited in the Motion Picture Development Council Account which is hereby created in the Special Deposit Fund for disbursement by the council to reimburse the operating departments for their actual additional costs and for the support of the council.

Applications by the Motion Picture Development Council for permission to use state property for making motion pictures shall be made to the Director of General Services who shall, promptly upon receipt of such an application, contact the state agency having jurisdiction over the property specified in the application for the concurrence of such agency in the use of such property. The director shall approve or deny such applications within 30 days. The denial of such an application may be made on the basis of:

(a) State cost in permitting such use would exceed the fee

established by the Motion Picture Development Council,

(b) Such use would unduly interfere with the conduct of state business, or

(c) Failure of the permittee to provide full insurance or bond coverage, if required by the Department of General Services, sufficient to reimburse the state for any user-caused damage to the property and to provide adequate personal liability insurance coverage.

In the event that the Director of General Services takes no action on such application within 30 days, the application shall be deemed approved by the Director of General Services. If the Director of General Services determines that he is unable to make a decision within the 30 days and so notifies the Motion Picture Development Council within 25 days of receipt of the application, the director shall then have a total of 45 days from receipt of the application to approve or deny such application. In the event no action is taken by the Director of General Services within such 45-day period, the application shall be deemed approved by the Director of General Services.

Any state agency having management and control over state property, the use of which is sought by such application, shall permit such property to be used for the purpose of making motion pictures upon approval by the Director of General Services and the payment of the fee established by the Motion Picture Development Council.

SEC. 3. The sum of fifty thousand dollars ($50,000) is hereby appropriated from the General Fund to the Motion Picture Development Council for the purpose of implementing the provisions of this act.

(b) For purposes of this section, the board shall, by regulation, establish standards for continuing education. The standards shall be established in a manner to assure that a variety of alternative forms of continuing education are available to licensees including, but not limited to, academic studies, in-service education, institutes, seminars, lectures, conferences, workshops, extension studies, and home study programs. [Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 14378 of the Government Code is amended to read:

14378. Every contract subject to this chapter or Chapter 14 (commencing with Section 25200) of Division 18 of Part 4 of the Education Code shall provide that monetary claims totaling in the aggregate fifty thousand dollars ($50,000) or less on any contract and filed in accordance with procedures set forth in such contract may, at the option of the contractor or the department, be subject to determination of rights under the contract in accordance with Section 14379.

SEC. 2. Section 14379 is added to the Government Code, to read:

14379. Every contract awarded by any agency of the State of California pursuant to the provisions of this chapter or Chapter 14 (commencing with Section 25200) of Division 18 of Part 4 of the Education Code shall include in the general conditions of such contract at the time of award a clause in the following form:

"(a) Any dispute arising under or relating to the performance of this contract, which is not disposed of by agreement and is a claim subject to Section 14378 of the Government Code, shall be decided by the head of the agency awarding the contract or his duly authorized representative, who shall reduce his decision to writing in regard to the dispute and mail or otherwise furnish a copy thereof to the contractor. The decision of such party shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the contractor elects to file with the head of the agency a written appeal. Promptly upon receiving the appeal from the contractor, the head of the agency shall furnish a copy thereof to the Office of Administrative Hearings of the State of California. Pursuant to the rules and regulations adopted by the Office of Administrative Hearings pursuant to Section 14350 of the Government Code, a hearing shall be held upon the appeal. When such an appeal is taken, the preliminary decision which is the subject of the appeal shall not be pleaded as a defense, and the hearing afforded shall be a hearing de novo upon the merits. In addition, the provisions of Article 3 (commencing with Section 2016) of Chapter 3 of Title 3 of the Code of Civil Procedure shall be applicable to the hearings and the parties to the hearing shall have all the rights for discovery provided for by such provisions. However, such hearing shall be held only in the

county wherein the work was performed under such contract unless the contractor and the state agency by written stipulation filed with the Office of Administrative Hearings agree to such hearing in some other county. Pending final decision of a dispute hereunder, the contractor shall proceed diligently with the performance of the contract and in accordance with the written decision of the head of the agency or its authorized representative which is the subject of the contractor's appeal. Any such decision shall be subject to judicial review.

"(b) This "disputes" clause does not preclude consideration of questions of law in connection with decisions provided for in paragraph (a) above. Nothing in this contract, however, shall be construed as making final the decision of any administrative official or representative on a question of law.

"(c) When the Office of Administrative Hearings conducts a hearing on an appeal pursuant to paragraph (a), the hearing officer may apportion the costs of conducting such hearing between the parties in a manner which, in his discretion, is appropriate.

"(d) Either party to this contract may, subject to the provisions of paragraph (a), seek judicial review of the decision rendered by the Office of Administrative Hearings."

SEC. 3. Section 14379 of the Government Code is repealed.

SECTION 1. Section 198 of the Civil Code is repealed.

SEC. 2. Section 4600.1 is added to the Civil Code, to read:

4600.1. In any proceeding under Title 2 (commencing with Section 4400) or Title 3 (commencing with Section 4500) where there are minor children of the marriage, and in any action for exclusive custody under Section 4603, a petition for a temporary custody order containing the statement required by Section 5158 may be included with the initial filing of the petition or action or may be filed at any time thereafter. If the parties have agreed to or reached an understanding on the custody or temporary custody of their children, a copy of the agreement or an affidavit as to their understanding shall be attached to the petition or action. As promptly as possible after such filing, the court shall, except in exceptional circumstances, enter an order awarding temporary custody in accordance with the agreement or understanding, or in accordance with any stipulation of the parties. In the absence of an agreement, understanding, or stipulation, the court may, if jurisdiction is appropriate, enter an ex parte order, set a hearing date within 20 days and issue an order to show cause on the responding party. If the responding party does not appear or respond within the time set, the temporary order may be extended as necessary, pending the termination of the proceedings.

SEC. 3. Section 4604 is added to the Civil Code, to read:

4604. (a) In any case where a petition to determine custody of a child has been filed in a court of competent jurisdiction, or where a temporary order pending determination of custody has been entered in accordance with Section 4600.1, and the whereabouts of a party in possession of the child are not known, or there is reason to believe that such party may not appear in the proceedings although ordered to appear personally with the child pursuant to Section 5160, the district attorney shall take all actions necessary to locate such party and the child and to procure compliance with the order to appear with the child for purposes of adjudication of custody.

(b) In any case where a custody decree has been entered by a

court of competent jurisdiction and the child is taken or detained by another person in violation of the decree, the district attorney shall take all actions necessary to locate the person who violated the decree and the child and to assist in the enforcement of the custody decree or other order of the court.

(c) In performing the functions described in subdivisions (a) and (b), the district attorney shall act on behalf of the court and shall not represent any party to the custody proceedings.

SEC. 4. Section 4605 is added to the Civil Code, to read:

4605. (a) When the district attorney incurs expenses pursuant to Section 4604, including expenses incurred in a sister state, payment of such expenses may be advanced by the county subject to reimbursement by the state, and shall be audited by the State Controller and paid by the State Treasury according to law.

(b) The court in which the custody proceeding is pending or which has continuing jurisdiction, shall, if appropriate, allocate liability for the reimbursement of actual expenses incurred by the district attorney to either or both parties to the proceedings and such allocation shall constitute a judgment for the state for the funds advanced pursuant to this section. The county shall take reasonable action to enforce such liability and shall transmit all recovered funds to the state.

SEC. 5. Section 5157 of the Civil Code is amended to read:

5157. (1) If the petitioner for an initial decree has wrongfully taken the child from another state or has engaged in similar reprehensible conduct the court may decline to exercise jurisdiction for purposes of adjudication of custody if this is just and proper under the circumstances.

(2) Unless required in the interest of the child, the court shall not exercise its jurisdiction to modify a custody decree of another state if the petitioner, without consent of the person entitled to custody has improperly removed the child from the physical custody of the person entitled to custody or has improperly retained the child after a visit or other temporary relinquishment of physical custody. If the petitioner has violated any other provision of a custody decree of another state the court may decline to exercise its jurisdiction if this is just and proper under the circumstances.

(3) Where the court declines to exercise jurisdiction upon petition for an initial custody decree pursuant to subdivision (1), the court shall notify the parent or other appropriate person and the prosecuting attorney of the appropriate jurisdiction in the other state. If a request to that effect is received from the other state, the court shall order the petitioner to appear with the child in a custody proceeding instituted in the other state in accordance with Section 5169. If no such request is made within a reasonable time after such notification, the court may entertain a petition to determine custody by the petitioner if it has jurisdiction pursuant to Section 5152.

(4) Where the court refuses to assume jurisdiction to modify the custody decree of another state pursuant to subdivision (2) or

pursuant to Section 5163, the court shall notify the person who has legal custody under the decree of the other state and the prosecuting attorney of the appropriate jurisdiction in the other state and may order the petitioner to return the child to the person who has legal custody. If it appears that the order will be ineffective and the legal custodian is ready to receive the child within a period of a few days, the court may place the child in a foster care home for such period, pending return of the child to the legal custodian. At the same time, the court shall advise the petitioner that any petition for modification of custody must be directed to the appropriate court of the other state which has continuing jurisdiction, or, in the event that that court declines jurisdiction, to a court in a state which has jurisdiction pursuant to Section 5152.

(5) In appropriate cases a court dismissing a petition under this section may charge the petitioner with necessary travel and other expenses, including attorney's fees and the cost of returning the child to another state.

SEC. 6. Section 5160 of the Civil Code is amended to read:

5160. (1) The court may order any party to the proceeding who is in this state to appear personally before the court. If that party has physical custody of the child the court may order that he appear personally with the child. If the party who is ordered to appear with the child cannot be served or fails to obey the order, or it appears the order will be ineffective, the court may issue a warrant of arrest against such party to secure his appearance with the child.

(2) If a party to the proceeding whose presence is desired by the court is outside this state with or without the child the court may order that the notice given under Section 5154 include a statement directing that party to appear personally with or without the child and declaring that failure to appear may result in a decision adverse to that party.

(3) If a party to the proceeding who is outside this state is directed to appear under subdivision (2) or desires to appear personally before the court with or without the child, the court may require another party to pay to the clerk of the court travel and other necessary expenses of the party so appearing and of the child if this is just and proper under the circumstances.

SEC. 7. Section 5169 of the Civil Code is amended to read:

5169. (1) Upon request of the court of another state the courts of this state which are competent to hear custody matters may order a person in this state to appear at a hearing to adduce evidence or to produce or give evidence under other procedures available in this state. A certified copy of the transcript of the record of the hearing or the evidence otherwise adduced shall be forwarded by the clerk of the court to the requesting court.

(2) A person within this state may voluntarily give his testimony or statement in this state for use in a custody proceeding outside this state.

(3) Upon request of the court of another state a competent court

02549 292455 616

The court may condition compliance with the request upon assurance by the other state that travel and other necessary expenses will be advanced or reimbursed. If the person who has physical custody of the child cannot be served or fails to obey the order, or it appears the order will be ineffective, the court may issue a warrant of arrest against such person to secure his appearance with the child in the other state.

(b) All raw materials, products and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled substance in violation of this division.

(c) All property which is used, or intended for use, as a container for property described in subdivision (a) or (b).

(d) All books, records, and research products and materials, including formulas, microfilm, tapes, and data which are used, or intended for use, in violation of this division.

vehicle other than an implement of husbandry, as defined in Section 36000 of the Vehicle Code, or a vehicle which may be lawfully driven upon the highway with a class 3 or class 4 license, as prescribed in Section 12804 of the Vehicle Code, used, in direct relation to the particular offense for which the owner is arrested and convicted, to unlawfully transport for sale any controlled substance.

SEC. 2. Section 11474 of the Health and Safety Code, is amended to read:

11474. All seizures under provisions of this chapter, except seizures of vehicles, boats, or airplanes, shall, upon conviction of the owner or defendant, be ordered destroyed by the judge of the court in which conviction was had and the judge shall turn all such evidence over to the Attorney General for destruction or disposition.

SEC. 3. Section 11490 is added to the Health and Safety Code, to read:

11490. Any peace officer of this state, upon making or attempting to make an arrest for a violation of Section 11351, 11352, 11355, 11359, 11360, 11378, or 11379, insofar as the offense involves sale, transportation for sale, or possession for sale, may seize any vehicle, boat, or airplane used to unlawfully transport for sale any controlled substance. If he does not hold the vehicle, boat, or airplane for evidence, he shall immediately deliver such vehicle, boat, or airplane to the State Department of Justice to be held as evidence until a forfeiture has been declared or a release ordered; otherwise he shall return the vehicle, boat, or airplane to the registered owner.

SEC. 4. Section 11491 is added to the Health and Safety Code, to read:

11491. (a) Within 15 days after such seizure, if the Department of Justice determines that the factual circumstances do not warrant that the vehicle, boat, or airplane come within subdivision (e) of Section 11470, or if for any other reason it decides not to seek forfeiture, it shall return the vehicle, boat, or airplane to the arresting officer who shall return it to the registered owner. If the Department of Justice does not return the vehicle, boat, or airplane to the arresting officer, it shall cause an investigation to be made as to any claimant to the vehicle, boat, or airplane whose right, title, interest, or lien is of record in the Department of Motor Vehicles or appropriate federal agency. Except as provided in subdivision (b), if the department finds that any person, other than the registered owner, is the legal owner thereof, and such ownership interest did not arise subsequent to the date and time of arrest or seizure of the vehicle, boat, or airplane, it shall forthwith send a notice of the seizure to such legal owner at his address appearing on the records of the Department of Motor Vehicles or appropriate federal agency. Notice of seizure and intended forfeiture proceedings shall be filed with the county clerk and shall be served on all owners whose interest will be affected thereby.

(b) A bona fide purchaser without notice of the arrest or seizure whose interest was acquired subsequent to the arrest or seizure shall

be entitled to participate in the forfeiture proceedings to establish his claim.

(c) An assignee, purchaser, or holder in due course who had notice of the arrest or seizure at the time he acquired his interest and who sells, assigns, or conveys such interest is guilty of a fraudulent conveyance as provided for in Section 531 of the Penal Code, and civilly liable under Section 3439.07 of the Civil Code.

SEC. 5. Section 11491.1 is added to the Health and Safety Code, to read:

11491.1. Actual notice shall be given to each owner whose right, title, or interest is of record in the Department of Motor Vehicles or appropriate federal agency, by mailing a copy of the notice by registered mail to the address as given upon the records of the Department of Motor Vehicles or appropriate federal agency; and to each owner whose name and address is known, to the last known address of the owner.

All other owners, whose addresses are unknown, but who are believed to have an interest in the vehicle, boat, or airplane, by one publication in a newspaper of general circulation in the county where the seizure was made.

All notices shall set forth the time within which an answer is required to be filed pursuant to Section 11491.2.

SEC. 6. Section 11491.2 is added to the Health and Safety Code, to read:

11491.2. Within 10 days after receipt of actual notice or within 30 days of the publication of the notice, any owner of any right, title, or interest in, or lien upon, a seized vehicle, boat, or airplane may file a verified answer to the fact of the use of the vehicle, boat, or airplane alleged in the notice of seizure and of the intended forfeiture proceeding; and any person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract may file a verified answer to the facts set forth in the notice and setting forth, if such be the fact, that he acquired his interest prior to the date of seizure without actual knowledge that the vehicle, boat, or airplane was to be used in the manner set forth in subdivision (e) of Section 11470.

SEC. 7. Section 11491.3 is added to the Health and Safety Code, to read:

11491.3. No extensions of time shall be granted for the purpose of filing the answer.

SEC. 8. Section 11491.4 is added to the Health and Safety Code, to read:

11491.4. If, at the end of the times set forth in Section 11491.2, there is no verified answer on file, the court, upon motion, shall declare the vehicle, boat, or airplane forfeited to the state upon conviction as provided in Section 11492. Notwithstanding any other provision of law, a certified copy of said declaration of forfeiture, duly filed with the Department of Motor Vehicles or appropriate federal agency, shall constitute authority for the state to convey clear title

to the vehicle, boat, or airplane to any purchaser thereof in the manner provided in Sections 11493.1 and 11494.

SEC. 9. Section 11491.5 is added to the Health and Safety Code, to read:

11491.5. If a verified answer is filed, the forfeiture proceeding shall be set for hearing on a day not less than 30 days therefrom, and the proceeding shall have priority over other civil cases.

SEC. 10. Section 11491.6 is added to the Health and Safety Code, to read:

11491.6. Notice of the hearing shall be given in the same manner as provided in Section 11491.1.

SEC. 11. Section 11491.7 is added to the Health and Safety Code, to read:

11491.7. At the hearing, the state shall have the burden of establishing that the owner of the vehicle, boat, or airplane had knowledge that the vehicle, boat, or airplane would be used for a violation of this chapter. Any person who has a verified answer on file, and any person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract may show that he acquired his title or interest without actual knowledge that the vehicle, boat, or airplane was to be used for the purposes for which forfeiture is permitted.

SEC. 12. Section 11492 is added to the Health and Safety Code, to read:

11492. No legal or registered title or interest in the vehicle, boat, or airplane shall be affected by the forfeiture decree under this article if the owner of the interest proves that he had no knowledge that the vehicle, boat, or airplane was used for the purpose charged. No forfeiture shall be ordered unless and until a conviction is had for an offense set forth in Section 11490.

SEC. 13. Section 11493 is added to the Health and Safety Code, to read:

11493. The forfeiture hearing may be continued until after a verdict of guilt on the related charges has been decided. The forfeiture hearing shall be conducted in accordance with Sections 600 to 630, inclusive, of the Code of Civil Procedure if a trial by jury, and by Sections 631 to 636, inclusive, of the Code of Civil Procedure if by court. If the court or jury finds that the vehicle, boat, or airplane was not used in violation of this chapter, the court shall order the vehicle, boat, or airplane released to the person entitled thereto.

If the court or jury does not so find but does find that a person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract acquired his interest without actual knowledge that the vehicle, boat, or airplane was to be used for a purpose for which forfeiture is permitted, and if the amount due him is equal to, or in excess of, the appraised value of the vehicle, boat, or airplane, the court shall order the vehicle, boat, or airplane released to him. If the amount due him is less than the appraised value of the vehicle, boat, or airplane, he may pay to the Department

of General Services the amount of the registered owner's equity, which shall be deemed to be the difference between the appraised value and the amount of the lien, mortgage, security interest, or interest under a conditional sales contract. Upon such payment, the state shall relinquish all claims to the vehicle, boat, or airplane. If the holder of the interest elects not to make such payment to the Department of General Services, the vehicle, boat, or airplane shall be deemed forfeited to the Department of General Services and the ownership certificate shall be forwarded. Appraised value is to be determined as of the date judgment is entered on a wholesale basis either by agreement between the legal owner and the Department of General Services, or if such persons cannot agree, then by the inheritance tax appraiser for the county in which the action is brought.

SEC. 14. Section 11493.1 is added to the Health and Safety Code, to read:

11493.1. If the amount due to a person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract is less than the value of the vehicle, boat, or airplane, and the person elects not to make payment to the Department of General Services, the vehicle, boat, or airplane shall be sold at public auction by the Department of General Services.

SEC. 15. Section 11494 is added to the Health and Safety Code, to read:

11494. The Department of General Services shall publish a notice of the sale by one publication in a newspaper published and circulated in the city, community, or locality where the sale is to take place.

SEC. 16. Section 11495 is added to the Health and Safety Code, to read:

11495. In all cases where a vehicle, boat, or airplane seized by the Department of Justice is forfeited to the state and turned over to and sold by the Department of General Services, the proceeds of the sale shall be distributed as follows, in the order indicated:

(a) To the bona fide or innocent purchaser, conditional sales vendor, or mortgagee of the vehicle, boat, or airplane, if any, up to the amount of his interest in the vehicle, boat, or airplane, when the court declaring the forfeiture orders a distribution to such person.

(b) The balance, if any, to accumulate, and from time to time, as the proceeds become sufficient, to be distributed:

1. To the Department of General Services for all expenditures made or incurred by it in connection with the sale, including expenditure for any necessary repairs, storage, or transportation, of any vehicle, boat, or airplane seized under this article.

2. To the Attorney General for all expenditures made or incurred by him in connection with the forfeiture proceedings of any vehicle, boat, or airplane seized under this article, including, but not limited to, expenditures for witness fees, reporters' fees, transcripts, printing, traveling, and investigation.

3. To the state for all expenditures for traveling, investigation, storage, and other expenses made or incurred by the Department of Justice after the seizure, and in connection with the forfeiture of any vehicle, boat, or airplane seized under this article.

4. The remainder, if any, to the State Treasury, for credit to the General Fund.

SEC. 17. Section 11498 is added to the Health and Safety Code, to read:

11498. The provisions of this division relative to forfeiture of vehicles, boats, or airplanes shall not apply to a common carrier, or to an employee acting within the scope of his employment in the enforcement of this division.

SEC. 18. Nothing contained in this act shall be interpreted to modify or amend any law or court ruling dealing with a person's rights under Section 1, 13, or 24 of Article I of the California Constitution or the fourth amendment to the United States Constitution.

As used in this part, unless the context otherwise requires, the term "employee" includes any judge of a municipal court, and the terms "employer" and "contracting agency" with respect to any such judge enrolled in a health benefits plan include the county in which the municipal court is located, provided that adoption of a resolution under Section 22850 shall not be required. The state is not obligated to make any contribution to health benefit plans for active and retired municipal court judges. A municipal court judge may elect to come under the provisions of this part only within 90 days of assuming office for the first time as such a judge. If a municipal court judge elects to come under the provisions of this part, the county employing such judge shall contribute to the State Employees' Contingency Reserve Fund such sums as it would have otherwise contributed to a health benefit plan provided for county employees, unless the municipal court judge elects to enroll under the county health benefit plan. Such contribution shall be applied first to the contribution required of it as an employer under Section 22831 and any remainder shall be applied to the contribution

required under Section 22825 and 22825.6. The municipal court judge whether enrolled as an employee or annuitant shall contribute the cost of such enrollment plus the amount required of an employer under Section 22831 less the amount, if any, contributed by his county. A county shall not be required to contribute any portion of the cost of a health benefits plan under this part for a judge after retirement unless the health benefits plan provided for county employees provides such coverage.

SEC. 2. Municipal court judges holding office on the effective date of this act may elect to come under its provisions within 90 days after its operative date.

CHAPTER 1409

An act to amend Sections 1136, 1165, and 1190 of the Harbors and Navigation Code, relating to pilots.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 1136 of the Harbors and Navigation Code is amended to read:

1136. (a) Every pilot licensed pursuant to the terms of this division shall take an oath of office in the manner prescribed by law and shall, once each month, on forms furnished by the board, render a verified account to the board of all moneys received by him as a result of pilotage services, or by any other person for him, or on his account; and he shall pay to the board, exclusive of the amounts received that are attributable to the increase in pilotage rates and the minimum charge for bar pilotage made by the amendments of Section 1190 enacted at the 1975–76 Regular Session of the Legislature, 5 percent of all bar pilotage fees, or such lesser percentage as is established by the board, with the approval of the Department of Finance, in full compensation of the board for its official services, for the services of its secretary and treasurer, and for all its incidental expenses.

(b) It is the intent of the Legislature that moneys received that are attributable to the increase in pilotage rates and the minimum charge for bar pilotage made by the amendments of Section 1190 enacted at the 1975–76 Regular Session of the Legislature be used for increased operating and boatbuilding expenses incurred by pilots. It is further the intent of the Legislature that an accounting of such moneys shall be made by every pilot, at no cost to the state, to the board, or to any interested party, upon request.

SEC. 2. Section 1165 of the Harbors and Navigation Code is amended to read:

1165. (a) In addition to and concurrently with the basic pilotage rate described in Section 1190, a charge shall be levied for pilotage services at a rate necessary to provide the benefits to be paid out pursuant to the pension plan. The additional rate shall be determined as follows:

(1) On December 1, of each year, the number of persons eligible to receive benefits under the plan, their identities, the amount each will be entitled to receive, and the total amount to be paid out to all such persons during each month of the next benefit year, shall be determined by the fiduciary agent.

(2) After the total amount to be paid out monthly under the plan has been determined, the rate necessary to provide that amount each month shall be calculated. The rate shall be based upon the volume of shipping, in gross registered tons, handled by pilots licensed under this division for the calendar year ending the previous September 30. The rate shall be expressed as mills per gross registered ton and shall be calculated to the nearest one-hundredth of a mill.

(3) Based on the foregoing calculations, if the total amount to be paid out yearly will exceed two hundred thousand dollars ($200,000), the rate shall be established so that the pension plan will produce maximum revenues of two hundred thousand dollars ($200,000) per year and the benefits shall be reduced accordingly.

(b) The rate determined pursuant to paragraphs (1), (2), and (3) of subdivision (a) shall become effective the first day of the following calendar year and shall be in effect throughout that year.

(c) Revenues for any month or year are the amounts to be received pursuant to the pension plan for pilotages during that month or year.

(d) Benefits pursuant to the new rate shall be paid commencing in February of each year and shall continue through and include January of the following year. The period during which benefits are paid is the benefit year.

SEC. 3. Section 1190 of the Harbors and Navigation Code is amended to read:

1190. Every vessel spoken inward or outward bound, shall pay the following rate of bar pilotage through the Golden Gate and into or out of the Bays of San Francisco, San Pablo, and Suisun:

(a) Seven dollars and thirty-five cents ($7.35) per draft foot of the vessel's deepest draft and fractions of a foot pro rata, and an additional charge of 13 mills ($0.013) per high gross registered ton.

(b) A minimum charge for bar pilotage shall be three hundred dollars ($300) for each vessel piloted.

(c) The vessel's deepest draft shall be the maximum draft attained, on a still water basis, at any part of the vessel during the course of such transit inward or outward.

Nothing in this code shall be construed as prohibiting any administrative officer of a school district from appearing at any time before a citizens group, which requests his appearance, to discuss the reasons why the governing board of the school district called an election to submit to the voters of the district a proposition for the issuance of bonds or for an increase in the maximum tax rate of the district and to answer questions put to him by any taxpayer concerning the cost of such proposals.

SEC. 2. Article 1.5 (commencing with Section 12930) is added to Chapter 1 of Division 10 of the Education Code, to read:

Article 1.5. Political Activities of School Officers and Employees

"Local agency" means a county superintendent of schools, an elementary, high, or unified school district, or a community college district.

Officers and employees of a given local agency include officers and employees of any other local agency whose principal duties consist of providing services to the given local agency.

12932. Except as otherwise provided in this article, or as necessary to meet requirements of federal law as it pertains to a particular employee or employees, no restriction shall be placed on the political activities of any officer or employee of a local agency.

12933. No one who holds, or who is seeking election or appointment to, any office or employment in a local agency shall, directly or indirectly, use, promise, threaten or attempt to use, any office, authority, or influence, whether then possessed or merely anticipated, to confer upon or secure for any person, or to aid or obstruct any person in securing, or to prevent any person from securing, any position, nomination, confirmation, promotion, change in compensation or position, within the local agency, upon consideration or condition that the vote or political influence or action of such person or another shall be given or used in behalf of, or withheld from, any candidate, officer, or party, or upon any other corrupt condition or consideration. The prohibitions of this section shall apply to either urging or discouraging any political action of an employee.

12933.5. Except as provided in Sections 1073 and 12935, no school district funds, services, supplies, or equipment shall be used for the purpose of urging the passage or defeat of any school measure of the district, including, but not limited to, the candidacy of any person for election to the governing board of the district.

12934. The governing body of each local agency may establish rules and regulations on the following:

(a) Officers and employees engaging in political activity during working hours.

(b) Political activities on the premises of the local agency.

12935. Nothing in this chapter prevents an officer or employee of a local agency from soliciting or receiving political funds or contributions to promote the passage or defeat of a ballot measure which would affect the rate of pay, hours of work, retirement, civil service, or other working conditions of officers or employees of such

local agency, except that a local agency may prohibit or limit such activities by its employees during their working hours and may prohibit or limit entry into buildings and grounds under the control of a local agency for such purposes during working hours.

12936. No person who is in the classified service or who is upon any eligibility list shall be appointed, demoted, or removed, or in any way discriminated against because of his political acts, opinions, or affiliations.

CHAPTER 1424

An act to add Section 27424.5 to the Public Resources Code, relating to the coastal zone, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 27424.5 is added to the Public Resources Code, to read:

27424.5. Any judicial proceeding to which the commission is a party and which involves a claim of exemption under this division may be settled in all respects by the commission upon such terms and conditions as the commission shall determine in accordance with the provisions of this division. Participation by a regional commission as a party to such proceeding shall not prevent the commission upon its own authority from effectuating any such settlement. Such settlement shall be binding upon all parties to the proceeding agreeing thereto and upon the appropriate regional commission. Such settlement may be made a part of the judgment of the court.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of this act are designed to better achieve the objectives of the California Coastal Zone Conservation Act of 1972, by clarifying the existing uncertainties as to the right of the California Coastal Zone Conservation Commission, by itself, to make settlements in connection with judicial action determining exemptions under this act, even though a regional coastal zone conservation commission participates as a party in any such proceeding. In order to have such uncertainties clarified as soon as

possible, it is necessary that the provisions of this act become effective immediately.

SEC. 13. It is the intent of the Legislature that if this bill and Senate Bill No. 1823 or Senate Bill No. 1333, or both, are chaptered and become effective January 1, 1977, each of the bills amend Section 12031 of the Penal Code, and this bill is chaptered last, that amendments proposed by each of the bills which are chaptered be given effect as follows:

(1) If this bill and Senate Bill No. 1823 are both chaptered and become effective January 1, 1977, both bills amend Section 12031 of the Penal Code, but Senate Bill No. 1333 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Senate Bill No. 1823, the amendments proposed by both bills shall be given effect and incorporated in Section 12031 in the form

set forth in Section 10 of this act. Therefore, if this bill and Senate Bill No. 1823 are both chaptered and become effective January 1, 1977, both bills amend Section 12031, this bill is chaptered after Senate Bill No. 1823, and Senate Bill No. 1333 is not chaptered or as chaptered does not amend that section, Section 10 of this act shall be operative and Sections 9, 11, and 12 of this act shall not become operative.

(2) If this bill and Senate Bill No. 1333 are both chaptered and become effective January 1, 1977, both bills amend Section 12031 of the Penal Code, but Senate Bill No. 1823 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Senate Bill No. 1333, the amendments proposed by both bills shall be given effect and incorporated in Section 12031 in the form set forth in Section 11 of this act. Therefore if this bill and Senate Bill No. 1333 are both chaptered and become effective January 1, 1977, both bills amend Section 12031, this bill is chaptered after Senate Bill No. 1333, and Senate Bill No. 1823 is not chaptered or as chaptered does not amend that section, Section 11 shall be operative and Sections 9, 10, and 12 of this act shall not become operative.

(3) If this bill and Senate Bill No. 1823 and Senate Bill No. 1333 are all chaptered and become effective January 1, 1977, all three bills amend Section 12031 of the Penal Code, and this bill is chaptered after Senate Bill No. 1823 and Senate Bill No. 1333, the amendments proposed by all three bills shall be given effect and incorporated in Section 12031 in the form set forth in Section 12 of this act. Therefore, if this bill and Senate Bill No. 1823 and Senate Bill No. 1333 are all chaptered and become effective January 1, 1977, all three bills amend Section 12031 of the Penal Code, and this bill is chaptered after Senate Bill No. 1823 and Senate Bill No. 1333, Section 12 of this act shall be operative and Sections 9, 10, and 11 of this act shall not become operative.

SEC. 14. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1427

An act to add Section 11350.3 to the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1976. Filed with Secretary of State September 30, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 11350.3 is added to the Welfare and Institutions Code, to read:

11350.3. Notwithstanding any other provision of law, the parent or parents of a child under 21 years of age shall not be held financially responsible, nor shall financial contribution be requested or required of such parent or parents, for maternity home care or related services, including social service counseling, to which the child may consent without the need for parental consent.

This section shall remain in effect only until December 31, 1977.

SEC. 2. This act does not constitute a change in, but is declaratory of, the preexisting law.

SEC. 3. It is the intent of the Legislature in enacting this statute that programs already in existence and funded by counties be continued.

SEC. 4. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The State Department of Benefit Payments' Eligibility Assistance Standard No. 43-105.2 provides that financial resources of the parents of minor parents must be considered in order for the minor parent to be eligible for AFDC benefits. This regulation, when applied to full-service maternity hospitals, discourages pregnant minors from seeking high-quality maternity care and may result in substandard care, the absence of all prenatal related services with corresponding health risks to the unborn infant, or an unwanted abortion.

This act would eliminate the counterproductive aspects of the present AFDC eligibility policies by allowing the pregnant minor to qualify for boarding home and institutions support regardless of her parent's or parents' financial resources. In order that these provisions may achieve their intended results, it is necessary that this act take effect immediately.

9359.1. (a) The retirement allowance for a member all of whose credited service was rendered as a Member of the Senate or Assembly except as provided in subdivision (d) is an annual amount equal to five percent (5%) of the compensation payable, at the time payments of the allowance fall due, to incumbent Members of the

Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member who serves more than 15 years shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of 15 years.

(b) The retirement allowance for a member all of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly) the sum of (1) is an annual amount equal to five percent (5%) of the highest compensation received by the officer while serving in such office, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years, plus, if the member is credited with 24 or more years of service, (2) one and two-thirds percent (1⅔%) of the compensation to which the five percent (5%) rate is applicable under subparagraph (1) of this subdivision for his first eight years of credited service, multiplied by the number of years of service in excess of eight years with which the member is entitled to be credited at the time of his retirement, not to exceed 12 years of such credited service in excess of the eight years of service referred to in subparagraph (1) of this subdivision.

(c) The retirement allowance for a member part of whose credited service was rendered as a Member of the Senate or Assembly and part of whose credited service was rendered as an elective officer of the state whose office is provided for by the Constitution, other than a judge (and other than a Member of the Senate or Assembly) is the sum of (1) an annual amount equal to five percent (5%) of all the compensation, at the time payment of the allowance falls due, to the officer holding the highest salaried office which the member held at any time during his service prior to retirement, multiplied by the number of years of service with which the member is entitled to be credited at the time of his retirement, not to exceed eight (8) years, plus, if the member is credited with 24 or more years of service, (2) one and two-thirds percent (1⅔%) of the compensation to which the five percent (5%) rate is applicable under subparagraph (1) of this subdivision for his first eight years of credited service, multiplied by the number of years of service rendered as an elective officer of the state whose office is provided for by the Constitution, other than a judge and other than a Member of the Senate or Assembly, with which the member is entitled to be credited at the time of his retirement, not to exceed 12 years of such credited service in excess of the eight years referred

01891 295370 983

to in subparagraph (1) of this subdivision. If, however, the member would be entitled to receive a greater allowance under subdivision (a), (b), or (d) of this section if all of his credited service had been rendered as a Member of the Senate or Assembly or as an elective officer of the state whose office is provided for by the Constitution other than a judge (and other than a Member of the Senate or Assembly), then all of his credited service shall be deemed to have been rendered as a Member of the Senate or Assembly or as such other elective officer, and he shall receive a retirement allowance computed under subdivision (a), (b), or (d) of this section, whichever is greater.

(d) The retirement allowance for a member, all of whose service was rendered as a Member of the Senate or Assembly, who is the surviving spouse of a deceased Member of the Senate or Assembly and who becomes the immediate successor in office of such deceased Member of the Senate or Assembly is an annual amount equal to five percent (5%) of the compensation payable, at the time the payments of the allowance fall due, to incumbent Members of the Senate or Assembly, multiplied by the number of years of service with which the member is entitled to be credited at the time of retirement plus the number of years of service as a Member of the Senate or Assembly rendered by the member's deceased husband or wife plus any period in the term, for which the deceased member was elected, following his or her death, not to exceed fifteen (15) years. In no event shall any retirement allowance payable under this chapter to any such member exceed the compensation payable to Members of the Legislature at the time the payment of the allowance is made, except that the retirement allowance of any such member, whose total service creditable under this subdivision is in excess of fifteen (15) years, shall be increased by an amount equal to 3 percent of the compensation payable, at the time payment of the allowance falls due, to incumbent Members of the Senate or Assembly for each year or fraction of a year in excess of fifteen (15) years. This same computation of total service creditable shall be used as a basis in determining eligibility for retirement, under Sections 9359 and 9359.16, of a member described in this subdivision. Any member to whom this subdivision applies shall redeposit an amount equal to the contributions which were required to be contributed by his or her deceased spouse while he or she was a member of the system for his or her service, computed on the basis of the salary and rate of contribution in effect at the time such service was rendered, or would have been rendered, in the Legislators' Retirement Fund on account of the service of his or her deceased spouse in order to use such service for the purposes of this section and Sections 9359 and 9359.16.

The amendments to this section enacted at the 1969 Regular Session shall apply with respect to any member who retired or retires, or died or dies while eligible to retire on or after May 1, 1969, and any allowance payable with respect to such a member who

01891 295390 987

retired or died prior to the effective date of such amendment, shall be adjusted effective from the date of retirement or death to the amount it would have been had such amendment been in effect on such date.

The provisions of Sections 9359.11 and 9359.12 of this code shall control over any conflicting provisions of this section.

The amendments to this section during the 1973–74 Second Extraordinary Session shall not be applicable to members who are retired on the effective date of such amendments.

SEC. 4. Section 9374 of the Government Code is amended to read:

9374. Upon the death of a member before retirement (a) the surviving wife or surviving husband of the member, who has the care of unmarried children, including stepchildren, of the member who are under 18 years of age, or are incapacitated because of disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then (b) the guardian of surviving unmarried children, including stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or (c) the surviving wife or surviving husband of the member, who does not qualify under (a) of this subdivision, if any, or if no such children under (b) or such spouse under (c), then (d) each surviving parent of the member, shall be paid the following applicable survivor allowance, under the conditions stated and from contributions of the state:

(1) A widow or a widower who was married to such member prior to the occurrence of the injury or onsent of the illness which resulted in death, and has the care of unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid three hundred sixty dollars ($360) if there is one such child, or four hundred thirty dollars ($430) per month if there are two or more such children. If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this paragraph, assuming that these children were in the care of the surviving spouse, which is in excess of one hundred eighty dollars ($180) per month, shall be divided equally among all such children and payments made to the spouse and other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries, and if there are unmarried children, including stepchildren, of the deceased member under 18 years of age, or if there are such children not in the care of such spouse, such children shall be paid an allowance as follows:

No allowance shall be paid under this subdivision, while the surviving spouse is receiving an allowance under subdivision (1) of this section, or while an allowance is being paid under subdivision (2) (c) of this section. The allowance paid under this subdivision shall be seventy dollars ($70) per month while an allowance is being paid under subdivision (2) (b) of this section.

SEC. 15. Section 21264.6 of the Government Code is amended to read:

21264.6. Any provision of this article (commencing with Section 21250) imposing as a condition for payment of an allowance to a surviving spouse that he or she have been married to the member for at least one year prior to retirement shall be deemed satisfied if the member was required to retire because of attainment of mandatory retirement age within one year following an amendment to the retirement law or the contracting agency's contract lowering the mandatory retirement age for his or her category of membership, and the surviving spouse was married to the member on the date of such amendment.

SEC. 16. Section 21364 of the Government Code is amended to read:

21364. The special death benefit consists of:

(a) An amount equal to and derived from the same source as the basic death benefit exclusive of the contributions from which the annuity provided under subdivision (c) of this section is paid; and

(b) An amount sufficient, when added to the amount provided under subdivision (a) of this section, to provide, when applied according to tables adopted by the board, a monthly death allowance, equal to one-half of his or her final compensation in the membership category applicable to him or her at the time of the injury or the onset of the disease causing death, payable to the surviving spouse to whom he or she was married prior to sustaining the injury or disease resulting in death, as long as such spouse lives or until his or her remarriage; or if there is no surviving spouse or if such spouse dies or remarries before all children of the deceased member attain age 18, to his or her children under 18 collectively until every child shall have died, married, or attained age 18; provided, that no child shall receive any part of the allowance after marrying or attaining age 18. During the lifetime of the surviving spouse or until such spouse remarries, an additional percentage of the death benefit allowed by this section, exclusive of the annuity under subdivision (c), shall be paid to such spouse of a member who is killed in the performance of his or her duty or who dies as a result of an accident or an injury caused by external violence or physical force, incurred in the performance of his or her duty, for each of his or her children during the lifetime of the child, or until the child marries or reaches the age of 18, as follows: for one child, twenty-five percent (25%); for two children, forty percent (40%); and for three or more children, fifty percent (50%); and

(c) An annuity which is the actuarial equivalent, assuming monthly payments for life to the surviving spouse, of the deceased's accumulated additional contributions at the date of his or her death, plus his or her accumulated contributions at that date based on compensation earned in any membership category other than the category applicable to him or her at the time of the injury or the onset of the disease causing death.

In the event the surviving spouse does not have custody of the member's children, the additional amount payable pursuant to this section shall be payable to the person having custody of the children for each child during the lifetime of the child, or until the child marries or reaches the age of 18.

The computation for time prior to entering the membership category applicable to the deceased at the time of the injury or the onset of the disease causing death shall be based on the compensation earnable by him or her in the position first held by him or her in that category.

"Spouse" for purposes of this section means a wife or husband.

(d) On and after October 1, 1965, the provisions of this section shall apply to all contracting agencies and to the employees of all contracting agencies whether or not such agencies have previously elected to be subject to the provisions of this section.

Any child whose eligibility for an allowance pursuant to this section, commenced on or after October 1, 1965, shall lose that eligibility effective on the date of his adoption.

SEC. 17. Section 21365.5 of the Government Code, as amended by Chapter 234 of the Statutes of 1975, is amended to read:

21365.5. Upon the death of a member who has attained the minimum age for voluntary service retirement applicable to him or her in his or her last employment preceding death, and who is credited with five or more years of state service and in circumstances in which the basic death benefit is payable other than solely that of membership in a county retirement system, or a retirement system maintained by the university, a monthly allowance equal to one-half of and derived from the same source as the unmodified retirement allowance which the member would have been entitled to receive if he or she had retired for service on the date of his or her death shall be payable:

(a) To the surviving wife of a male member as long as she lives or until her remarriage; or

(b) To a surviving husband of a female member as long as he lives or until remarriage; or

(c) To the children under age 18 collectively if there is no surviving spouse or if the surviving spouse dies or remarries before all children of the deceased member attain age 18, until every child dies or attains age 18; provided, that no child shall receive any allowance after marrying or attaining the age of 18.

Where a member does not have a surviving spouse nor any children under the age of 18 years at the time of death, no allowance

shall be payable under this section.

No allowance shall be payable under this section if a special death benefit is payable.

The allowance provided by this section shall be paid in lieu of the basic death benefit but a person, or such person's guardian, qualifying for the allowance may elect before the first payment on account of it to receive such basic death benefit in lieu of the allowance.

Any person who is receiving the allowance under this section on October 1, 1959, shall have the right to elect, not later than ninety (90) days after the date upon which notice of such right is mailed to him or her by this system, to receive in lieu of further payments of the allowance, a sum equal to the excess of the basic death benefit which was otherwise payable on account of the member's death over the sum of the monthly payments made prior to such election.

If the total of the payments made hereunder is less than the basic death benefit which was otherwise payable on account of the member's death, the amount of the basic death benefit less any payments made pursuant to this section shall be paid in a lump sum as follows:

(a) If the person last entitled to the allowance is the remarried spouse of such member, to such spouse;

(b) Otherwise, to the surviving children of the member, share and share alike, or if there are no such children, to the estate of the person last entitled to the allowance.

The board shall compute the amount by which benefits paid pursuant to this section exceed the benefits which would otherwise be payable and shall charge any such excess against the contributions of the state so that there shall be no increase in contributions of members by reason of benefits paid pursuant to this section. As used in this section, "a surviving wife" means a wife that was married to the member for at least one year prior to his death, a "surviving husband" means a husband that was married to the member for at least one year prior to the member's death, and "child" includes a posthumously born child of the member.

On and after the operative date of the amendment to this section at the 1971 Regular Session, this section shall apply to all contracting agencies and to the employees of such agencies with respect to deaths occurring after such operative date, whether or not such agencies have previously elected to be subject to this section.

SEC. 18. Section 21366 of the Government Code is amended to read:

21366. If payment of the special death benefit is stopped because of remarriage of the surviving spouse or attainment of the age of 18 years by a child, before the sum of the monthly payment made, exclusive of the annuity derived from the accumulated additional contribution of the deceased, equals the basic death benefit, a lump sum equal to the difference shall be paid the remarried surviving spouse, or if there is no such surviving spouse, to the surviving

children of the deceased member, share and share alike. In such event, or if there is no such surviving spouse, the accumulated additional contributions of the deceased, as they were at his or her death, less the annuity paid as derived from such contributions, and plus interest credited to the accumulated additional contributions, shall be paid in the manner provided in this article for the payments of amounts due in the absence of a designated beneficiary.

SEC. 19. Section 21382 of the Government Code is amended to read:

21382. If the death benefit provided by Section 21361 is payable on account of a member's death which occurs under circumstances other than those described in subdivision (a) (5) of Section 21360, or if an allowance under Section 21365.5 is payable, (a) the surviving wife or surviving husband of the member, who has the care of unmarried children, including stepchildren, of the member who are under 18 years of age, or are incapacitated because of disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then (b) the guardian of surviving unmarried children, including stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or (c) the surviving wife or surviving husband of the member, who does not qualify under (a) of this subdivision, if any, or if no such children under (b) or such spouse under (c), then (d) each surviving parent of the member, shall be paid regardless of the benefit provided by Section 21361, and of the beneficiary designated by the member under that section, or regardless of the allowance provided under Section 21365.5, the following applicable survivor allowance, under the conditions stated and from contributions of the state:

(1) A widow or a widower who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has the care of unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid three hundred sixty dollars ($360) if there is one such child, or four hundred thirty dollars ($430) per month if there are two or more such children. If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this paragraph, assuming that these children were in the care of the surviving spouse, which is in excess of one hundred eighty dollars ($180) per month, shall be divided equally among all such children and payments made to the spouse and other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries, and if there are unmarried children, including stepchildren, of the deceased member under 18 years of age, or if there are such children not in the care of such spouse, such children shall be paid an allowance as follows:

(a) If there is only one such child, such child shall be paid one hundred eighty dollars ($180) per month;

(b) If there are two such children, such children shall be paid

three hundred sixty dollars ($360) per month divided equally between them; and

(c) If there are three or more such children, such children shall be paid four hundred thirty dollars ($430) per month divided equally among them.

(3) A widow or widower who has attained or attains the age of 62 years, and, with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has not remarried subsequent to the member's death, shall be paid one hundred eighty dollars ($180) per month. No allowance shall be paid under this subdivision, while the surviving spouse is receiving an allowance under subdivision (1) of this section, or while an allowance is being paid under subdivision (2) (c) of this section. The allowance paid under this subdivision shall be seventy dollars ($70) per month while an allowance is being paid under subdivision (2) (b) of this section.

(4) If there is no surviving spouse, or surviving children who qualify for a survivor allowance, or if such surviving spouse dies or remarries, or if such children reach age 18 or die or marry prior thereto, each of the member's dependent mother and father who has attained or attains the age of 62, and who received at least one-half of his or her support from the member at the time of the member's death, shall be paid one hundred eighty dollars ($180) per month.

"Stepchildren", for purposes of this section, shall include only stepchildren of the member living with him in a regular parent-child relationship at the time of his death.

The amendments to this section enacted at the 1971 Regular Session shall apply only to survivor allowances payable for time commencing on the operative date of such amendments.

SEC. 19.1. Section 21382 of the Government Code is amended to read:

21382. If the death benefit provided by Section 21361 is payable on account of a member's death which occurs under circumstances other than those described in subdivision (a) (5) of Section 21360, or if an allowance under Section 21365.5 is payable, (a) the surviving wife or surviving husband of the member, who has the care of unmarried children, including stepchildren, of the member who are under 18 years of age, or are incapacitated because of disability which began before and has continued without interruption after attainment of such age, or if there is no such spouse, then (b) the guardian of surviving unmarried children, including stepchildren, of the member who are under 18 years of age or so incapacitated, if any, or (c) the surviving wife or surviving husband of the member, who does not qualify under (a) of this subdivision, if any, or if no such children under (b) or such spouse under (c), then (d) each surviving parent of the member, shall be paid regardless of the benefit provided by Section 21361, and of the beneficiary designated by the member under that section, or regardless of the allowance provided under Section 21365.5, the following applicable survivor allowance,

under the conditions stated and from contributions of the state:

(1) A widow or a widower who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has the care of unmarried children, including stepchildren, of the deceased member under 18 years of age or so incapacitated, shall be paid three hundred sixty dollars ($360) if there is one such child, or four hundred thirty dollars ($430) per month if there are two or more such children. If there also are such children who are not in the care of the surviving spouse, the portion of the allowance payable under this paragraph, assuming that these children were in the care of the surviving spouse, which is in excess of one hundred eighty dollars ($180) per month, shall be divided equally among all such children and payments made to the spouse and other children, as the case may be.

(2) If there is no such surviving spouse, or if such surviving spouse dies or remarries, and if there are unmarried children, including stepchildren, of the deceased member under 18 years of age, or if there are such children not in the care of such spouse, such children shall be paid an allowance as follows:

(a) If there is only one such child, such child shall be paid one hundred eighty dollars ($180) per month;

(b) If there are two such children, such children shall be paid three hundred sixty dollars ($360) per month divided equally between them; and

(c) If there are three or more such children, such children shall be paid four hundred thirty dollars ($430) per month divided equally among them.

(3) A widow or widower who has attained or attains the age of 62 years, and, with respect to both widow and widower, who was married to such member prior to the occurrence of the injury or onset of the illness which resulted in death, and has not remarried subsequent to the member's death, shall be paid one hundred eighty dollars ($180) per month. No allowance shall be paid under this subdivision, while the surviving spouse is receiving an allowance under subdivision (1) of this section, or while an allowance is being paid under subdivision (2) (c) of this section. The allowance paid under this subdivision shall be seventy dollars ($70) per month while an allowance is being paid under subdivision (2) (b) of this section.

(4) If there is no surviving spouse, or surviving children who qualify for a survivor allowance, or if such surviving spouse dies or remarries, or if such children reach age 18 or die or marry prior thereto, each of the member's dependent mother and father who has attained or attains the age of 62, and who received at least one-half of his support from the member at the time of the member's death, shall be paid one hundred eighty dollars ($180) per month.

"Stepchildren", for purposes of this section, shall include only stepchildren of the member living with him in a regular parent-child relationship at the time of his death.

Article 3. The Recall Election

27230. Within 14 days of receiving the certificate of sufficiency, the governing body shall issue an order stating that an election shall be held pursuant to this article to determine whether or not the officer named in the petition shall be recalled.

27231. The election shall be held not less than 80 nor more than 125 days after the issuance of the order, and if a regular election is to be held throughout the electoral jurisdiction of the officer sought to be recalled within such time period, the recall election shall be held on the same days, and consolidated with, the regular election.

Chapter 4. General Procedures: Final Steps in the Recall

Article 1. General Provisions

27300. The clerk or, in the case of the recall of a state officer, the Secretary of State, shall preserve in his office all recall petitions filed for eight months after the certification of the results of the election for which the petition qualified or, if no election is held, eight months after the clerks final examination of the petition. Public access to any such petition shall be restricted in accordance with provisions of Section 6253.5 of the Government Code. At the end of the eight-month period, the petition shall be destroyed as soon as practicable, unless it is in evidence in some action or proceeding then

pending or unless a written request is received from the Attorney General, the Secretary of State, a district attorney, a grand jury, or the governing body of a county, city, or district, including a school district, that the petition be preserved for use in a pending or ongoing investigation into election irregularities

27301. No insufficiency in a petition against any officer shall bar the later filing of a new petition against that officer.

27302. If a petition, including supplemental petitions, is found by the clerk or, in the case of the recall of a state officer, the Secretary of State, to lack sufficient signatures, notwithstanding Section 6253.5 of the Government Code, the proponents whose names are listed on the notice of intention shall be allowed to examine the petition in order to determine which signatures were disqualified and the reasons therefor.

27303. If a vacancy occurs in an office after a recall petition is filed against the vacating officer, the recall election shall nevertheless proceed. Such vacancy shall be filled as provided by law, but any person appointed to fill the vacancy shall hold office only until a successor is selected in accordance with Article 4 (commencing with Section 27330) or Article 5 (commencing with Section 27340) of this chapter, and the successor qualifies for that office.

27304. Any voter who has signed a recall petition may have his signature withdrawn from the petition upon filing, prior to the time the petition is filed, a written request with the clerk signed in the presence of, and witnessed and subscribed by, the clerk or one of his deputies. In the case of the recall of a state officer, such request shall be forwarded to the Secretary of State immediately.

Article 2. Ballots

27310. The following shall appear on the ballots at every recall election, except in the case of a landowner voting district, with respect to each officer sought to be recalled:

(a) The question "Shall [name of officer sought to be recalled] be recalled (removed) from the office of [title of office]?"

(b) To the right of the foregoing question, the words "Yes" and "No" on separate lines with an enclosed voting space to the right of each.

27311. In addition to the material contained in Section 27310, the following shall appear on the ballots at a city recall election only:

(a) The question "If the recall prevails shall the (name of legislative body) fill the vacancy or vacancies by appointment or call a special election for that purpose?"

(b) Following the question shall be the words "By appointment" and "By special election" on separate lines with an enclosed voting space to the right of each.

27312. In addition to the material contained in Section 27310, the following shall appear on ballots at all recall elections, except at a city or a landowner voting district recall election:

(a) The names of the candidates nominated to succeed the officer sought to be recalled shall appear under each recall question.

(b) Following each list of candidates, the ballot shall provide one blank line with a voting space to the right of it for the voter to write in a name not printed on the ballot.

27313. A voter shall indicate, by using the stamp or other marking device to place a mark in the voting space opposite either "Yes" or "No", his vote for or against the recall proposal, respectively.

27314. In landowner voting districts the form of the ballot shall be determined by the governing body, but it shall be substantially similar to that prescribed by law for resident voting districts.

27315. The official responsible for preparing the ballot shall, at least 10 days prior to the recall election, mail a sample ballot to each registered voter of the electoral jurisdiction of the officer sought to be recalled.

27316. With the sample ballot there shall be mailed for each officer whose recall is sought, a printed copy of the following:

(a) The statement of reasons for recall which appeared on the notice of intent to recall that was filed by the proponents of the recall with the clerk, or in the case of a state officer, with the Secretary of State.

(b) The answer to the statement of reasons for recall, which was filed by the officer whose recall is sought, with the clerk, or in the case of a state officer, with the Secretary of State, if any answer was filed.

The printed copies of the statement and the answer to that statement shall be mailed with the sample ballot either in a document separate from the sample ballot or in the same document in which the sample ballot appears; provided, however, that both the statement and answer shall be printed on the same page or on facing pages of the document and shall be of equal prominence.

If the recall of more than one officer is sought, the statement and answer for each officer shall be printed together and shall be clearly distinguished from those of any other officer.

Article 3. Elections in General

27320. A recall election shall be conducted, canvassed, and the results declared in substantially the manner provided by law for a regular election for such office.

27321. One election is sufficient for the recall of several officers.

27322. A city or county may provide for the reimbursement of recall election expenses legally and personally incurred by the officer sought to be recalled in the event his recall is not successful.

Article 4. City Recall Elections

27330. This article shall apply only to the recall of city officers.

27331. If one-half or more of the votes at a recall election are

"No", the officer sought to be recalled shall continue in office.

27332. If a majority of the votes on a recall proposal are "Yes" the office shall be deemed vacant.

27333. If the recall prevails and a majority of those voting on the question of filling the vacancy favor a special election for that purpose, the legislative body shall at its next regular meeting call an election to be held to fill the vacancy not less than 74 nor more than 89 days after the date of the order. If a regular municipal election is to occur not more than 104 nor less than 74 days from the date of canvassing the vote the legislative body may provide for filling the vacancy at such regular municipal election instead of at a special election. If a special election is not favored by a majority of the voters, the legislative body shall at once fill the vacancy by appointment. In either case the person elected or appointed shall hold office for the unexpired term of the former incumbent.

27334. If a majority of the legislative body is recalled at the same election, the members recalled shall retain their offices until their successors are elected and qualified. Immediately after the canvass of votes, the clerk shall call a special election to fill the vacancies arising as a result of the recall election, which special election shall be held within 89 days after the canvass of votes of the election at which they were recalled. The duties of the governing body of the city with respect to the holding of such special election shall be performed by the clerk. The vote of the special election shall be canvassed by the clerk, who shall declare the result. If the clerk has also been recalled, then the board of supervisors shall perform his duties.

Article 5. Recall Elections, Other Than City Recall

27340. This article shall apply to the recall of public officers other than city officers.

27341. Nominations of candidates to succeed the recalled officer shall be made in the manner prescribed for nominating a candidate to that office in a regular election insofar as that procedure is consistent with this article. The following exceptions shall be made to that procedure:

(1) The nomination papers and the declaration of candidacy shall, in each case, be filed no less than 59 days prior to the date of the election and not before the day the order of the election is issued.

(2) If the clerk is required to certify to the governing board the names of the candidates to be placed on the ballot, such shall be done by the 54th day prior to the election.

(3) No person whose recall is being sought may be a candidate to succeed himself at a recall election.

27342. No vote cast in the recall election shall be counted for any candidate unless the voter also voted for or against the recall of the officer sought to be recalled.

27343. If one-half or more of the votes at a recall election are

"No", the officer sought to be recalled shall continue in office.

27344. If a majority of the votes on a recall proposal are "Yes" the officer sought to be recalled shall be removed from office upon the qualification of his successor.

27345. If at a recall election an officer is recalled, the candidate receiving the highest number of votes for the office shall be declared elected for the unexpired term of the recalled officer.

27346. If the candidate who received the highest number of votes fails to qualify within 10 days after receiving his certificate of election, the office to which he was elected shall be vacant, and shall be filled according to law.

SEC. 4.5. Chapter 4 (commencing with Section 27300) is added to Division 14 of the Elections Code, to read:

CHAPTER 1439

An act to add Chapter 3.9 (commencing with Section 7185) to Part 1 of Division 7 of the Health and Safety Code, relating to medical care.

[Approved by Governor September 30, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.9 (commencing with Section 7185) is added to Part 1 of Division 7 of the Health and Safety Code, to read:

CHAPTER 3.9. NATURAL DEATH ACT

7185. This act shall be known and may be cited as the Natural Death Act.

7186. The Legislature finds that adult persons have the fundamental right to control the decisions relating to the rendering of their own medical care, including the decision to have life-sustaining procedures withheld or withdrawn in instances of a terminal condition.

The Legislature further finds that modern medical technology has made possible the artificial prolongation of human life beyond natural limits.

The Legislature further finds that, in the interest of protecting individual autonomy, such prolongation of life for persons with a terminal condition may cause loss of patient dignity and unnecessary pain and suffering, while providing nothing medically necessary or beneficial to the patient.

The Legislature further finds that there exists considerable uncertainty in the medical and legal professions as to the legality of terminating the use or application of life-sustaining procedures where the patient has voluntarily and in sound mind evidenced a desire that such procedures be withheld or withdrawn.

In recognition of the dignity and privacy which patients have a right to expect, the Legislature hereby declares that the laws of the State of California shall recognize the right of an adult person to make a written directive instructing his physician to withhold or withdraw life-sustaining procedures in the event of a terminal condition.

7187. The following definitions shall govern the construction of this chapter:

(a) "Attending physician" means the physician selected by, or assigned to, the patient who has primary responsibility for the

treatment and care of the patient.

(b) "Directive" means a written document voluntarily executed by the declarant in accordance with the requirements of Section 7188. The directive, or a copy of the directive, shall be made part of the patient's medical records.

(c) "Life-sustaining procedure" means any medical procedure or intervention which utilizes mechanical or other artificial means to sustain, restore, or supplant a vital function, which, when applied to a qualified patient, would serve only to artificially prolong the moment of death and where, in the judgment of the attending physician, death is imminent whether or not such procedures are utilized. "Life-sustaining procedure" shall not include the administration of medication or the performance of any medical procedure deemed necessary to alleviate pain.

(d) "Physician" means a physician and surgeon licensed by the Board of Medical Quality Assurance or the Board of Osteopathic Examiners.

(e) "Qualified patient" means a patient diagnosed and certified in writing to be afflicted with a terminal condition by two physicians, one of whom shall be the attending physician, who have personally examined the patient.

(f) "Terminal condition" means an incurable condition caused by injury, disease, or illness, which, regardless of the application of life-sustaining procedures, would, within reasonable medical judgment, produce death, and where the application of life-sustaining procedures serve only to postpone the moment of death of the patient.

7188. Any adult person may execute a directive directing the withholding or withdrawal of life-sustaining procedures in a terminal condition. The directive shall be signed by the declarant in the presence of two witnesses not related to the declarant by blood or marriage and who would not be entitled to any portion of the estate of the declarant upon his decease under any will of the declarant or codicil thereto then existing or, at the time of the directive, by operation of law then existing. In addition, a witness to a directive shall not be the attending physician, an employee of the attending physician or a health facility in which the declarant is a patient, or any person who has a claim against any portion of the estate of the declarant upon his decease at the time of the execution of the directive. The directive shall be in the following form:

DIRECTIVE TO PHYSICIANS

Directive made this _____ day of _____ (month, year).

I _____, being of sound mind, willfully, and voluntarily make known my desire that my life shall not be artificially prolonged under the circumstances set forth below, do hereby declare:

1. If at any time I should have an incurable injury, disease, or illness certified to be a terminal condition by two physicians, and

where the application of life-sustaining procedures would serve only to artificially prolong the moment of my death and where my physician determines that my death is imminent whether or not life-sustaining procedures are utilized, I direct that such procedures be withheld or withdrawn, and that I be permitted to die naturally.

2. In the absence of my ability to give directions regarding the use of such life-sustaining procedures, it is my intention that this directive shall be honored by my family and physician(s) as the final expression of my legal right to refuse medical or surgical treatment and accept the consequences from such refusal.

3. If I have been diagnosed as pregnant and that diagnosis is known to my physician, this directive shall have no force or effect during the course of my pregnancy.

4. I have been diagnosed and notified at least 14 days ago as having a terminal condition by _____, M.D., whose address is _____, and whose telephone number is _____. I understand that if I have not filled in the physician's name and address, it shall be presumed that I did not have a terminal condition when I made out this directive.

5. This directive shall have no force or effect five years from the date filled in above.

6. I understand the full import of this directive and I am emotionally and mentally competent to make this directive.

The declarant has been personally known to me and I believe him or her to be of sound mind.

7188.5. A directive shall have no force or effect if the declarant is a patient in a skilled nursing facility as defined in subdivision (c) of Section 1250 at the time the directive is executed unless one of the two witnesses to the directive is a patient advocate or ombudsman as may be designated by the State Department of Aging for this purpose pursuant to any other applicable provision of law. The patient advocate or ombudsman shall have the same qualifications as a witness under Section 7188.

The intent of this section is to recognize that some patients in skilled nursing facilities may be so insulated from a voluntary decisionmaking role, by virtue of the custodial nature of their care, as to require special assurance that they are capable of willfully and voluntarily executing a directive.

7189. (a) A directive may be revoked at any time by the declarant, without regard to his mental state or competency, by any of the following methods:

(1) By being canceled, defaced, obliterated, or burnt, torn, or otherwise destroyed by the declarant or by some person in his

presence and by his direction.

(2) By a written revocation of the declarant expressing his intent to revoke, signed and dated by the declarant. Such revocation shall become effective only upon communication to the attending physician by the declarant or by a person acting on behalf of the declarant. The attending physician shall record in the patient's medical record the time and date when he received notification of the written revocation.

(3) By a verbal expression by the declarant of his intent to revoke the directive. Such revocation shall become effective only upon communication to the attending physician by the declarant or by a person acting on behalf of the declarant. The attending physician shall record in the patient's medical record the time, date, and place of the revocation and the time, date, and place, if different, of when he received notification of the revocation.

(b) There shall be no criminal or civil liability on the part of any person for failure to act upon a revocation made pursuant to this section unless that person has actual knowledge of the revocation.

7189.5. A directive shall be effective for five years from the date of execution thereof unless sooner revoked in a manner prescribed in Section 7189. Nothing in this chapter shall be construed to prevent a declarant from reexecuting a directive at any time in accordance with the formalities of Section 7188, including reexecution subsequent to a diagnosis of a terminal condition. If the declarant has executed more than one directive, such time shall be determined from the date of execution of the last directive known to the attending physician. If the declarant becomes comatose or is rendered incapable of communicating with the attending physician, the directive shall remain in effect for the duration of the comatose condition or until such time as the declarant's condition renders him or her able to communicate with the attending physician.

7190. No physician or health facility which, acting in accordance with the requirements of this chapter, causes the withholding or withdrawal of life-sustaining procedures from a qualified patient, shall be subject to civil liability therefrom. No licensed health professional, acting under the direction of a physician, who participates in the withholding or withdrawal of life-sustaining procedures in accordance with the provisions of this chapter shall be subject to any civil liability. No physician, or licensed health professional acting under the direction of a physician, who participates in the withholding or withdrawal of life-sustaining procedures in accordance with the provisions of this chapter shall be guilty of any criminal act or of unprofessional conduct.

7191. (a) Prior to effecting a withholding or withdrawal of life-sustaining procedures from a qualified patient pursuant to the directive, the attending physician shall determine that the directive complies with Section 7188, and, if the patient is mentally competent, that the directive and all steps proposed by the attending physician to be undertaken are in accord with the desires of the qualified patient.

(b) If the declarant was a qualified patient at least 14 days prior to executing or reexecuting the directive, the directive shall be conclusively presumed, unless revoked, to be the directions of the patient regarding the withholding or withdrawal of life-sustaining procedures. No physician, and no licensed health professional acting under the direction of a physician, shall be criminally or civilly liable for failing to effectuate the directive of the qualified patient pursuant to this subdivision. A failure by a physician to effectuate the directive of a qualified patient pursuant to this division shall constitute unprofessional conduct if the physician refuses to make the necessary arrangements, or fails to take the necessary steps, to effect the transfer of the qualified patient to another physician who will effectuate the directive of the qualified patient.

(c) If the declarant becomes a qualified patient subsequent to executing the directive, and has not subsequently reexecuted the directive, the attending physician may give weight to the directive as evidence of the patient's directions regarding the withholding or withdrawal of life-sustaining procedures and may consider other factors, such as information from the affected family or the nature of the patient's illness, injury, or disease, in determining whether the totality of circumstances known to the attending physician justify effectuating the directive. No physician, and no licensed health professional acting under the direction of a physician, shall be criminally or civilly liable for failing to effectuate the directive of the qualified patient pursuant to this subdivision.

7192. (a) The withholding or withdrawal of life-sustaining procedures from a qualified patient in accordance with the provisions of this chapter shall not, for any purpose, constitute a suicide.

(b) The making of a directive pursuant to Section 7188 shall not restrict, inhibit, or impair in any manner the sale, procurement, or issuance of any policy of life insurance, nor shall it be deemed to modify the terms of an existing policy of life insurance. No policy of life insurance shall be legally impaired or invalidated in any manner by the withholding or withdrawal of life-sustaining procedures from an insured qualified patient, notwithstanding any term of the policy to the contrary.

(c) No physician, health facility, or other health provider, and no health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital service plan, shall require any person to execute a directive as a condition for being insured for, or receiving, health care services.

7193. Nothing in this chapter shall impair or supersede any legal right or legal responsibility which any person may have to effect the withholding or withdrawal of life-sustaining procedures in any lawful manner. In such respect the provisions of this chapter are cumulative.

7194. Any person who willfully conceals, cancels, defaces,

obliterates, or damages the directive of another without such declarant's consent shall be guilty of a misdemeanor. Any person who, except where justified or excused by law, falsifies or forges the directive of another, or willfully conceals or withholds personal knowledge of a revocation as provided in Section 7189, with the intent to cause a withholding or withdrawal of life-sustaining procedures contrary to the wishes of the declarant, and thereby, because of any such act, directly causes life-sustaining procedures to be withheld or withdrawn and death to thereby be hastened, shall be subject to prosecution for unlawful homicide as provided in Chapter 1 (commencing with Section 187) of Title 8 of Part 1 of the Penal Code.

7195. Nothing in this chapter shall be construed to condone, authorize, or approve mercy killing, or to permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying as provided in this chapter.

SEC. 2. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 5051 of the Public Resources Code is amended to read:

5051. The Legislature finds that a substantial number of Californians bicycle and walk for recreational enjoyment and that, given safer routes and more suitable accommodations, would choose such travel means to reach and enjoy scenic areas and recreation facilities throughout the state. The Legislature finds that it is in the public interest to provide means for bicyclists and hikers to reach safely, and utilize conveniently, units of the state park system and local and regional parks and recreation areas. The Legislature specifically finds that the existing mix of motor vehicles and bicycles on the highways of the state creates hazards to motorists and cyclists alike and demands immediate remedial action.

SEC. 2. Section 5052 of the Public Resources Code is amended to read:

5052. As used in this article, unless the context clearly requires a different meaning:

(a) "Hostel facility" means a supervised overnight lodging or sleeping accommodation provided primarily for use by persons, including bicyclists and hikers, arriving at state park system units and local and regional parks and recreation areas. Hostel facilities shall include sleeping areas for individuals or groups, water, washrooms, sanitary facilities, and means by which the users of hostel facilities may prepare their own meals.

(b) "Recreational trail" means a pathway situated and constructed so as to provide safe and convenient means for persons, including bicyclists, hikers, and horsemen, to travel to and between state park system units other than by motor vehicle.

SEC. 3. Section 5053 of the Public Resources Code is amended to read:

5053. (a) The department may provide hostel facilities in any unit of the state park system where consistent with the general development plan for such unit, and may provide for hostel facilities in the general plan for any unit; provided, however, that no hostel facility may be provided in any unit classified as a state wilderness, natural preserve, or state reserve.

(b) The department may also provide hostel facilities at any park or recreation area under the jurisdiction of any local or regional public agency if such agency enters into an agreement with the department for the care, maintenance, and control of such facilities at the agency's expense.

SEC. 3.1. Section 30304.5 of the Public Resources Code, as added by Assembly Bill No. 2948, is amended to read:

30304.5. (a) The regional commission shall be established pursuant to the provisions of this chapter and shall, no later than January 11, 1977, select their representatives to the commission.

(b) A regional commission shall take no action, other than selecting a representative to the commission as provided in subdivision (a), and shall have no powers, duties or responsibilities pursuant to the provisions of this division unless and until the commission, pursuant to subdivision (c), has certified that the regional commission for any region is necessary to expedite the review of local coastal programs and coastal development permit applications pursuant to the provisions of this division.

(c) The commission shall review the projected workload relative to the processing and review of local coastal programs and coastal development permits within each region of the coastal zone. If the commission determines that its workload and the projected workload within any region is of such magnitude that unreasonable delays will result unless the appropriate regional commission is authorized to review and process local coastal programs and coastal development permit applications, the commission shall, by majority vote of its appointed members, certify that such regional commission is necessary to carry out the provisions of this division. Upon certification by the commission pursuant to this subdivision, the appropriate regional commission shall assume all the powers, duties and responsibilities provided in this division.

(d) In the absence of a certification pursuant to subdivision (c), the commission shall, within any region of the coastal zone, assume all the powers, duties, and responsibilities of the regional commission as provided in this division. After certification pursuant to subdivision (c), the powers, duties and responsibilities of the commission and the appropriate regional commission shall be

exercised in the manner provided in this division.

SEC. 3.2. Section 30334 of the Public Resources Code, as added by Senate Bill No. 1277, and as amended by Assembly Bill No. 2948, is further amended to read:

30334. The commission and each regional commission, subject to the approval of the commission, may do the following:

(a) Contract for any private professional or governmental services, if such work or services cannot be satisfactorily performed by its employees.

(b) Sue and be sued. The Attorney General shall represent the commission and any regional commission in any litigation or proceeding before any court, board, or agency of the state or federal government.

SEC. 3.3. Section 30502.5 of the Public Resources Code, as added by Assembly Bill No. 2948, is amended to read:

30502.5. The commission shall recommend to the Legislature for designation by statute those sensitive coastal resource areas designated by the commission pursuant to Section 30502. Recommendation by the commission to the Legislature shall place the described area in the sensitive coastal resource area category for no more than two years, or a shorter period if the Legislature specifically rejects the recommendation. If two years pass and a recommended area has not been designated by statute, it shall no longer be designated as a sensitive coastal resource area. A bill proposing such a statute may not be held in committee, but shall be reported from committee to the floor of each respective house with its recommendation within 60 days of referral to committee.

SEC. 3.4. Section 30808 is added to the Public Resources Code, to read:

30808. In addition to any other remedy provided by this article, any person, including the commission may bring an action to restrain a violation of the terms and conditions of an urban exclusion imposed pursuant to Section 30610.5. In any such action the court may grant whatever relief it deems appropriate to ensure compliance with the terms and conditions of the urban exclusion.

SEC. 4. The sum of thirty-one million two hundred seventy-six thousand five hundred six dollars ($31,276,506) is hereby appropriated from the General Fund to the Bagley Conservation Fund and shall be transferred by the State Controller to the Bagley Conservation Fund on January 1, 1977.

All material relating to implied dedication and public prescriptive rights or claims shall be retained in the files of the Department of General Services and shall be available for postaudit on a selective basis by the Attorney General.

SEC. 7.5. Sections 3.1, 3.2, 3.3, and 3.4 of this act shall become operative January 1, 1977, and only if Senate Bill No. 1277 and Assembly Bill No. 2948 both become operative.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the state may provide financing for urgently needed parks, beaches, and recreation areas at considerable savings to the public and in order that the planning for such acquisitions may commence without costly delay, it is necessary that this act take effect immediately.

CHAPTER 1441

An act to add Division 21 (commencing with Section 31000) to the Public Resources Code, relating to coastal resources.

[Approved by Governor September 30, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Division 21 (commencing with Section 31000) is added to the Public Resources Code, to read:

DIVISION 21. STATE COASTAL CONSERVANCY

CHAPTER 1. GENERAL PROVISIONS AND DEFINITIONS

31000. Unless the context otherwise requires, the definitions in this chapter govern the construction of this division.

31001. "Certified local coastal plan or program" means any plan or program certified by the commission pursuant to Chapter 6 (commencing with Section 30500) of Division 20.

31002. "Conservancy" means the State Coastal Conservancy.

31004. "Commission" means the California Coastal Commission established under Chapter 4 (commencing with Section 30300) of Division 20.

31006. "Coastal zone" means that area of the state as defined in Section 30103.

31007. "Coastal restoration project" means any action taken by a local public agency or the conservancy to correct undesirable development patterns in the coastal zone, including those defined in

Section 33032 or 33032.1 of the Health and Safety Code.

31008. "Coastal resource enhancement project" means actions taken by a local public agency or a state agency necessary to restore, as nearly as possible, degraded natural areas to their original condition or to enhance the resource values of a coastal zone.

31009. "Department" means the Department of Parks and Recreation.

31010. "Local public agency" means a city, county, or city and county.

CHAPTER 2. DECLARATION OF STATE POLICY AND GENERAL PROVISIONS

31050. The Legislature finds and declares that the agricultural lands located within the coastal zone contribute substantially to the state and national food supply and are a vital part of the state's economy.

31051. The Legislature further finds and declares that agricultural lands located within the coastal zone should be protected from intrusion of nonagricultural uses, except where conversion to urban or other uses is in the long-term public interest.

31052. The Legislature further finds and declares that lands within the coastal zone, principally in rural areas, are vacant or improperly utilized because of inadequate circulation patterns, poor lot layout, scattered ownerships, lack of recreation and open space, and other conditions which adversely affect the coastal environment and reduce opportunities for orderly development.

31053. The Legislature further finds and declares that important fish and wildlife habitat, natural areas, and scenic and environmental resources within the coastal zone have been degraded due to indiscriminate dredging, filling, and the intrusion of incompatible land uses.

31054. It is the policy of the state and the intent of the Legislature to provide for the State Coastal Conservancy, which should report to the Governor and to the Legislature, with responsibility for implementing a program of agricultural protection, area restoration, and resource enhancement in the coastal zone within policies and guidelines established pursuant to Division 20 (commencing with Section 30000).

31055. No funds may be expended or granted under this division, unless and until such funds are appropriated by the Legislature.

CHAPTER 3. ESTABLISHMENT AND FUNCTIONS OF THE STATE COASTAL CONSERVANCY

31100. There is in the Resources Agency the State Coastal Conservancy, consisting of the following five members:

(a) The chairman of the commission.

(b) The Secretary of the Resources Agency.

(c) The Director of Finance.

(d) Two members of the public appointed by the Governor.

Except for members appointed pursuant to subdivision (d), the members of the conservancy may designate one of their employees to serve on the conservancy in their absence.

31101. The members appointed under subdivision (d) of Section 31100 shall serve for a term of four years. Such members shall be compensated for attendance at regular meetings of the conservancy at the rate of one hundred dollars ($100) per day, and shall be reimbursed for the actual and necessary expenses, including traveling expenses, incurred in the performance of their duties.

31102. The Secretary of the Resources Agency shall serve as the chairman of the conservancy. A majority of the total authorized membership of the conservancy shall constitute a quorum for the transaction of any business under this division. The conservancy shall adopt its own regulations.

31103. The conservancy shall determine the qualifications of, and it shall appoint and fix the salary of, the executive officer of the conservancy, who shall be exempt from civil service, and shall appoint such other staff as may be necessary to carry out the powers and functions set forth in this division. To the maximum extent possible, the conservancy shall utilize the staff of the commission for purposes of planning and project evaluation, and the staff of the Real Estate Services Division of the Department of General Services in carrying out acquisition, leasing, disposal, and other real property transactions authorized under this division.

31104. The conservancy may apply for and accept federal grants and receive gifts, donations, subventions, rents, royalties, and other financial support from public and private sources.

31105. The conservancy is authorized to acquire, pursuant to the Property Acquisition Law (Part 11 (commencing with Section 15850), Division 3, Title 2 of the Government Code) real property or any interests therein for all of the purposes specified in this division.

31106. The State Public Works Board may, pursuant to Section 31105, use the power of eminent domain for the purposes specified in this division.

31107. The Director of General Services, when so requested by the conservancy, may lease, rent, sell, or exchange any land acquired pursuant to this division; provided, however, that such action shall guarantee continued use of such lands for agricultural purposes, or for other purposes established in this division Leases executed pursuant to the provisions of this division shall not provide for a

period longer than 10 years.

31108. Commencing on January 2, 1980, and every third year thereafter, the conservancy shall prepare and submit to the Governor and to the Legislature a report describing progress in achieving the objectives of this division. The report shall include the following:

(a) An evaluation of the effectiveness of the conservancy's programs in preserving agricultural lands, restoring coastal habitat, providing public access to the coastline, and in undertaking other functions prescribed in this division.

(b) Identification of additional funding, legislation, or other resources required to more effectively carry out the objectives of this division.

CHAPTER 4. PRESERVATION OF AGRICULTURAL LAND

31150. The conservancy may acquire fee title, development rights, easements, or other interests in land located in the coastal zone in order to prevent loss of agricultural land to other uses and to assemble agricultural lands into parcels of adequate size permitting continued agricultural production.

The conservancy shall take all feasible action to return to private use or ownership, with appropriate use restrictions, all lands acquired for agricultural preservation under this division.

31151. In acquiring interest in agricultural lands, as provided in this division, the conservancy shall give the highest priority to urban fringe areas where the impact of urbanization on agricultural lands is greatest.

31152. Notwithstanding any other provisions of this division to the contrary, the conservancy shall not act to acquire any interests in lands in the coastal zone for agricultural purposes until the proposed acquisition has been submitted to the commission and the commission has certified that both of the following conditions apply to the proposed acquisition:

(a) The lands are specifically identified in a certified local coastal plan or program as agricultural lands.

(b) There is no other reasonable means, including the use of police power, of assuring continuous use of such lands for agricultural purposes.

31153. If the conservancy is unable to purchase an interest in agricultural land which meets the provisions of Section 31152, the conservancy shall request the State Public Works Board to acquire such interest under the power of eminent domain pursuant to Section 31105.

31154. The conservancy is authorized to lease lands acquired in accordance with the provisions of Section 31150. When such leases are made to private individuals or groups, the conservancy shall annually, upon appropriation of such amounts by the Legislature, transfer 24 percent of the gross income of such leases to the county

in which such lands are situated.

The county shall distribute any payment received by it pursuant to this section to itself, to each revenue district for which the county assesses and collects real property taxes or assessments, and to every other taxing agency within the county in which the property is situated. The amount distributable to the county and each such revenue district or other taxing agency shall be proportionate to the ratio which the amount of the taxes and assessments of each on similar real property similarly situated within that part of the county embracing the smallest in area of the revenue districts or other taxing agencies other than the county, levied for the fiscal year next preceding, bears to the combined amount of the taxes and assessments of all such districts and agencies, including the county, on such property levied for that year. The county auditor shall determine and certify the amounts distributable to the board of supervisors, which shall thereupon order the making of the distribution.

Any money distributed pursuant to this section to any county, revenue district, or other taxing agency shall be deposited to the credit of the same fund as any taxes or assessments on any taxable similar real property similarly situated.

Where a county receives a payment pursuant to this section in an amount of twenty-five dollars ($25) or less in respect to any parcel of leased property, all of such payment shall be distributed to the county for deposit in the county general fund.

31155. Proceeds from the sale or lease of lands acquired under the provisions of Section 31150 shall be deposited with the conservancy and, after transmission of any payments required by Section 31154, shall be available for expenditure when appropriated by the Legislature for the purpose of funding the programs specified in this division.

CHAPTER 5. COASTAL RESTORATION PROJECTS

31200. The conservancy may award grants to local public agencies for the purpose of restoration of areas of the coastal zone which, because of scattered ownerships, poor lot layout, inadequate park and open space, incompatible land uses, or other conditions, are adversely affecting the coastal environment or are impeding orderly development. Grants under this section shall be utilized for the assembly of parcels of land within designated coastal restoration areas, for the redesign of such areas, and the installation of public improvements required to serve such areas. As provided in this chapter, the cost of acquisition of certain coastal access and open-space lands, other than those acquired through dedication, within restoration areas may be funded through the conservancy. Grants under this section may not be utilized as a method of acquisition of public park, recreation, or wildlife areas, except as such uses may be incidental to a coastal restoration project. After redesign

and installation of public improvements, if any, lands containing coastal restoration projects, with the exception of lands acquired for public purposes as provided in this chapter, shall be conveyed to any person for the purpose of development in accordance with a restoration plan approved under Section 31208.

31201. All areas proposed for restoration by a local public agency or by the conservancy shall be identified in a certified local coastal plan or program as requiring public action to resolve existing or potential development problems.

31203. In reviewing grant applications and restoration plans, the conservancy shall seek to promote excellence of design and shall stimulate projects which exhibit innovation in sensitively integrating man-made features into the natural coastal environment.

31204. The conservancy may provide up to the total cost of any coastal restoration project, including the local share of federally supported projects. The conservancy may also require local funding participation in coastal restoration projects. The amount of funding provided by the conservancy and the degree of local participation shall be determined by the total amount of funding available for coastal restoration projects, the fiscal resources of the applicant, the urgency of the project relative to other eligible coastal restoration projects, the degree to which the project meets the objectives set forth in Section 31203, and the application of other factors prescribed by the conservancy for the purpose of determining project eligibility and priority in order to more effectively carry out the provisions of this division.

31205. The conservancy shall request the commission, local public agencies, and other public and private groups to assist in the development of criteria and guidelines for the submission, evaluation, and determination of priority of coastal restoration projects. After considering comments received from such sources and ensuring that adequate opportunity for public review and comment has been provided, the conservancy shall adopt guidelines and criteria for the administration of the coastal program authorized under this chapter.

31206. In accordance with procedures adopted by the conservancy, local public agencies may submit proposed coastal restoration projects for consideration by the conservancy. After evaluation of the submitted project proposals, the conservancy shall annually prepare a schedule of projects proposed for grants under this chapter. The schedule shall be submitted to the commission for review. The commission shall have 90 days to review and to determine the consistency of the projects with Division 20 (commencing with Section 30000). If no comments are received at the end of such period, the projects shall be deemed to be in accordance with Division 20 (commencing with Section 30000). The conservancy shall not provide a grant for any project under this chapter unless the project has been certified by the commission as being in accord with the policies and objectives of Division 20

(commencing with Section 30000).

31207. Following certification of the annual schedule by the commission, the conservancy shall notify, in writing, local applicants whose projects have been approved for funding and shall request that each applicant prepare a plan for restoration of the area following guidelines established by the conservancy. Local public agencies shall have six months to prepare such plans. The conservancy may provide up to fifty thousand dollars ($50,000) of the cost of preparing local coastal restoration plans.

31208. Following receipt of a restoration plan from a local public agency, the conservancy shall forward such plan to the commission for determination of conformity of such plan with the policies and objectives of Division 20 (commencing with Section 30000). The commission shall have 60 days to review the project and transmit the findings on such plan to the conservancy. If no comments are received within such period, the restoration plan shall be deemed to be in accord with Division 20 (commencing with Section 30000).

31209. Following approval of a restoration plan as provided in Section 31208, the conservancy shall so notify the local public agency and shall authorize the agency to proceed with actions required to implement the plan.

31210. Costs of providing parks, open space, or other public areas and facilities may be included as project costs within coastal restoration areas, if they are designed to serve the residents of the restoration area and do not constitute a disproportionate share of the total project cost. Costs of providing public coastal access sites and scenic easements serving the public may be permitted as project costs where such features are identified in the certified local coastal plan or program.

31211. The conservancy and local public agencies, in undertaking coastal restoration projects as provided in this chapter, shall be subject to the provisions of Division 24 (commencing with Section 33000) of the Health and Safety Code.

31212. Any funds over and above eligible project costs which remain after completion of a coastal restoration project as provided in this chapter shall be transmitted by the local public agency to the state and deposited with the conservancy and shall be available for expenditure when appropriated by the Legislature for the purposes of funding the programs specified in this division.

31213. Where a local public agency is unable or unwilling to undertake restoration of any deteriorating area within the coastal zone identified in a certified local coastal plan or program, including the acquisition of and disposal of lands and improvements, the conservancy may undertake such restoration. Such action, however, shall not be undertaken until the commission has done both of the following:

(a) Certified that the project is of high priority in terms of accomplishment of the policies and objectives of Division 20 (commencing with Section 30000).

(b) Approved a restoration plan for the area as provided in Section 31208.

31214. A restoration plan prepared for a project to be carried out by the conservancy as provided in Section 31213, shall, before any lands are acquired or other implementation actions taken, be submitted to the local public agency which exercises land use regulation over the area of the proposed project. The local public agency shall have 90 days to review and comment on the proposed coastal restoration project. If, during such period, the local public agency agrees to carry out the project within the guidelines established in the restoration plan, the conservancy may authorize the local public agency to carry out such restoration which shall then be subject to all provisions of this division.

31215. Prior to undertaking any restoration project under the provisions of Section 31213, the project shall be included within, and funded under, the Budget Act.

CHAPTER 6. COASTAL RESOURCE ENHANCEMENT PROJECTS

31251. The conservancy may award grants to local public agencies and to state agencies for the purpose of resource enhancement of coastal resources which, because of indiscriminate dredging or filling, improper location of improvements, or incompatible land uses, have suffered loss of natural and scenic values. Grants under this chapter shall be utilized for the assembly of parcels of land within coastal resource enhancement areas to improve resource management, for relocation of improperly located or designed improvements, and for other corrective measures which will enhance the natural and scenic character of the areas. As provided in this chapter, the cost of acquisition of certain lands within coastal resource enhancement areas may be funded through the conservancy. Grants under this section may not be utilized as a method of acquisition of public park, wildlife, or natural areas, except as such uses may be incidental to a coastal resource enhancement project.

31252. All areas proposed for resource enhancement by a local public agency or a state agency shall be identified in a certified local coastal plan or program as requiring public action to resolve existing or potential resource protection problems.

31253. The conservancy may provide up to the total of the cost of any coastal resource enhancement project, including the state or local share of federally supported projects. The amount of funding provided by the conservancy shall be determined by the total amount of funding available for coastal resource enhancement projects, the fiscal resources of the applicant, the urgency of the project relative to other eligible coastal resource enhancement projects, and the application of other factors prescribed by the conservancy for the purpose of determining project eligibility and priority in order to more effectively carry out the provisions of this division.

31254. The conservancy shall request the commission, local public agencies, and other public and private groups to assist in the development of criteria and guidelines for the submission, evaluation, and determination of priority of coastal resource enhancement projects. After considering comments received from such sources and ensuring that adequate opportunity for public review and comment has been provided, the conservancy shall adopt guidelines and criteria for the administration of the coastal program authorized under this chapter.

31255. In accordance with procedures adopted by the conservancy, local public agencies and state agencies may submit proposed coastal resource enhancement projects for consideration by the conservancy. After evaluation of the project proposals submitted, the conservancy shall annually prepare a schedule of projects proposed for grants under this chapter. The schedule shall be submitted to the commission for review. The commission shall have 90 days to review and make a formal finding on each of the projects included in the schedule. If no comments are received at the end of such period, the projects shall be deemed to be in accordance with Division 20 (commencing with Section 30000).

31256. The conservancy shall not provide a grant for any project under this chapter unless the project has been certified by the commission as being in accord with the policies and objectives of Division 20 (commencing with Section 30000).

31257. Following review and approval of the annual schedule by the commission, the conservancy shall notify, in writing, the state or local public agencies whose projects have been approved for funding and shall request that each applicant prepare a plan for resource enhancement for the area following the guidelines established by the conservancy. Such agencies shall have six months to prepare such plans. The conservancy may provide up to fifty thousand dollars ($50,000) of the cost of preparing local coastal resource enhancement plans.

31258. Following receipt of a resource enhancement plan, the conservancy shall forward the plan to the commission for determination of conformity of the plan with the policies and objectives of Division 20 (commencing with Section 30000). The commission shall have 60 days to review the project and transmit findings on such plan to the conservancy. If no comments are received at the end of such period, the plan shall be deemed to be in accord with Division 20 (commencing with Section 30000).

31259. Following review and approval of a resource enhancement plan as provided in Section 31258, the conservancy shall so notify the agency and shall authorize the agency to proceed with actions required to implement the plan.

31260. As part of an approved coastal resource enhancement project, the conservancy may fund up to 40 percent of any costs of land acquisition.

31261. Private development may be permitted within the area of the coastal resource enhancement projects, where such development is compatible with the primary objectives of resource protection and enhancement of the coastal zone.

31262. Any funds over and above eligible project costs which remain after completion of a resource enhancement project as provided in this chapter shall be transmitted to the state and be deposited with the conservancy and shall be available for expenditure when appropriated by the Legislature for the purposes of funding the programs specified in this division.

31263. If a local public agency or state agency is unable or unwilling to undertake improvement of a deteriorating area, the conservancy may undertake such coastal resource enhancement project. Such action, however, shall not be undertaken until the commission has done both of the following:

(a) Certified that the project is of high priority in terms of accomplishment of the policies and objectives of Division 20 (commencing with Section 30000).

(b) Approved a resource enhancement plan for the area as specified in Section 31258.

31264. A resource enhancement plan prepared for a project to be carried out directly by the conservancy as provided in Section 31263, shall, before any lands are acquired or other implementation actions taken, be submitted to the local public agency which exercises land use regulation over the area of the proposed project and to any state agency which exercises resource management responsibility in the project area. The local public agency or state agency shall have 90 days to review and comment on the proposed coastal resource enhancement project. If, during such period the local public agency or state agency agrees to carry out the project within the guidelines established in the resource enhancement plan, the conservancy may authorize the local public agency or state agency to carry out such enhancement which shall then be subject to all provisions of this division.

31265. Prior to undertaking any resource enhancement project under the provisions of Section 31263, the project shall be included within, and funded under, the Budget Act.

CHAPTER 7. RESOURCE PROTECTION ZONES

31300. It is the intent of the Legislature to establish buffer areas, to be known as resource protection zones, surrounding public beaches, parks, natural areas, and fish and wildlife preserves in the coastal zone. The purpose of such zones shall be to ensure that the character and intensity of private development surrounding any such areas and preserves is generally compatible with, and does not adversely impact, sensitive resource values located within such public areas and preserves.

31300.1. The conservancy may award grants to state agencies for

purposes of the acquisition of interests in lands within resource protection zones in accordance with Section 31304. Grants pursuant to this section shall not be utilized as a method of acquisition of lands which are intended to be an integral part of a public park, wildlife, or natural area.

31300.2. The conservancy may provide up to the full amount of the cost of acquisition of any interest in lands within a resource protection zone. The amount of funding provided by the conservancy shall be determined by the total amount of funding available for resource protection projects, the fiscal resources of the applicant, the urgency of the project relative to other eligible projects, and the application of factors prescribed by the conservancy for the purpose of determining project eligibility and priority in order to more effectively carry out the provisions of this division.

31301. The Department of Parks and Recreation, the Department of Fish and Game, and other state agencies which own or operate public resource areas within the coastal zone shall: (1) identify units under their jurisdiction which are particularly susceptible to adverse impacts from surrounding development, and (2) define the general boundaries of impact areas around such units.

Such state agencies shall complete the study of impact areas and shall forward recommendations for establishment of resource protection zones to the commission not later than January 1, 1979. The commission shall refer resource protection zone proposals to local public agencies which have jurisdiction over land use regulation in the proposed zones.

31302. Following receipt of the proposed resource protection zones from the commission, local public agencies shall have 60 days in which to submit comments to the commission regarding establishment of the proposed zones.

31303. After considering the comments of local public agencies, the commission shall adopt the resource protection zones and shall recommend their inclusion as part of the appropriate local coastal plan or program. The commission shall specify guidelines to guide local jurisdictions in bringing local land use plans and ordinances into conformity with the objectives of the resources protection zones.

31304. When private development of lands within an adopted resource protection zone will clearly damage resource values within an adjacent public area, and where exercise of the police power to protect such resource values would be unreasonable, a state agency may, through purchase, dedication, or other means, acquire development rights, scenic easements, or other interests, not including fee title, in private lands in resource protection zones. No state agency shall acquire such interests until the commission has certified that such action is in accord with Division 20 (commencing with Section 30000) and is necessary to assure the protection of the resource values within approved resource protection zones.

31305. When any state agency is unable to secure through

negotiation, development rights, scenic easements, or other interests required to protect public resource values as provided in Section 31304, the conservancy may request the State Public Works Board to exercise the power of eminent domain to acquire such interests pursuant to Section 31105.

31305.5. The conservancy may provide funds to any state agency for the purpose of carrying out the provisions of Section 31301.

31306. The commission shall request that federal, regional, and local agencies which own or operate public resource areas within the coastal zone take appropriate action to establish resource protection zones surrounding such areas in a manner similar to that set forth in this chapter for areas under the jurisdiction of the state.

CHAPTER 8. RESERVATION OF SIGNIFICANT COASTAL RESOURCE AREAS

31350. It is the policy of the Legislature to assure that areas identified in any state, regional, or local plan as significant coastal resource sites shall be reserved for public use and enjoyment. To achieve this objective, it is the intent of the Legislature to vest in the Department of Parks and Recreation authority to acquire and hold key coastal resource lands which otherwise would be lost to public use.

31350.1. The conservancy may make interest-free loans to the department for the purpose of reserving lands specified in Section 31351. Such loans shall be for a period not to exceed 10 years. Upon the disposition of such lands, as provided in Section 31354, the department shall repay all funds advanced by the conservancy. Such funds shall be deposited with the conservancy and shall be available for expenditure when appropriated by the Legislature for the purposes of funding the programs specified in this division.

31351. The department shall cooperate with the commission and with other state and local public agencies in ensuring that sites designated in the certified local coastal plans or programs for park, recreation, fish and wildlife habitat, historical preservation, or scientific study are reserved and ultimately utilized for such public purposes.

31352. In the event that any state or local public agency is unable, due to limited financial resources or other circumstances of a temporary nature, to acquire a site which is designated in a certified local coastal plan or program, the department may acquire and hold the site for subsequent conveyance to the appropriate public agency.

31353. Notwithstanding any other provisions of law, the department may enter into an option to purchase the lands designated in Section 31350 if the total cost of any such option does not exceed one hundred thousand dollars ($100,000), when the Legislature appropriates funds for purposes of carrying out the objectives of this section.

31354. The department shall not hold lands acquired in

accordance with this chapter more than 10 years from the time of acquisition. A local public agency shall have the right to acquire the land at any time during such period for public purposes indicated in a certified local coastal plan or program. The acquisition price to local agencies shall be based upon the cost of acquisition under this division, plus administrative and management costs in reserving the land. The lands acquired under the provisions of this section shall not be disposed of under the provisions of Section 11011.1 of the Government Code.

If, at the expiration of such 10-year period, no public agency is willing or able to acquire the lands, the department shall request the Real Estate Services Division of the Department of General Services to dispose of such lands at fair market value without restriction on subsequent land use under this division.

31355. The department is authorized to lease lands acquired in accordance with this chapter. When such leases are made to private individuals or groups, the department shall annually, upon appropriation of such amounts by the Legislature, transfer 24 percent of the gross income of such leases to the county in which such lands are situated.

The county shall distribute any payment received by it pursuant to this section to itself, to each revenue district for which the county assesses and collects real property taxes or assessments, and to every other taxing agency within the county in which the property is situated. The amount distributable to the county and each such revenue district or other taxing agency shall be proportionate to the ratio which the amount of the taxes and assessments of each on similar real property similarly situated within that part of the county embracing the smallest in area of the revenue districts or other taxing agencies other than the county, levied for the fiscal year next preceding, bears to the combined amount of the taxes and assessments of all such districts and agencies, including the county, on such property levied for that year. The county auditor shall determine and certify the amounts distributable to the board of supervisors, which shall thereupon order the making of the distribution.

Any money distributed pursuant to this section to any county, revenue district, or other taxing agency shall be deposited to the credit of the same fund as any taxes or assessments on any taxable similar real property similarly situated.

Where a county receives a payment pursuant to this section in an amount of twenty-five dollars ($25) or less in respect to any parcel of leased property, all of such payment shall be distributed to the county for deposit in the county general fund.

31355.5. The conservancy may provide funds to the department for the purpose of carrying out the provisions of this chapter.

31356. All remaining revenue derived from leases, after allocation to counties as specified in Section 31355, shall be deposited annually with the conservancy and shall be available for expenditure

03544 29 8150 323

when appropriated by the Legislature for the purposes of funding the programs specified in this division.

CHAPTER 9. SYSTEM OF PUBLIC ACCESSWAYS

31400. The Legislature finds and declares that it is the policy of the state that the right of the public to access and enjoyment of the coastal resources should be effectively guaranteed. To achieve such objective, it is the intent of the Legislature to vest in the Department of Parks and Recreation authority to implement a system of public accessways to and along the state's coastline.

31400.1. The conservancy may award grants to the department for purposes of the acquisition of interests in, and for initial development of, lands required for public accessways to the coast. The conservancy may also award grants to local agencies for the initial development of public accessways to the coast where it is determined that such accessways are required to serve more than local needs.

31400.2. The conservancy may provide up to the total cost of the acquisition of interests in lands and the initial development of public accessways by the department. The conservancy may also provide up to the total cost of the initial development of public accessways by local agencies, as provided in Section 31400.1. The amount of funding provided by the conservancy shall be determined by the total amount of funding available for coastal public accessway projects, the fiscal resources of the applicant, the urgency of the project relative to other eligible projects, and the application of factors prescribed by the conservancy for the purpose of determining project eligibility and priority in order to more effectively carry out the provisions of this division.

31401. The department shall develop and adopt standards to guide state and local public agencies and federal agencies to the extent permitted by federal law or regulations or the United States Constitution in acquiring and developing public access to coastal resources.

31402. In order to assure that an adequate system of public accessways is provided along the entire coastline, the department may acquire fee title or lesser interests, develop, and maintain areas required for public access to significant coastal resources.

31403. The department may not acquire any public access site unless such acquisition is approved by the Legislature as part of its annual approval of the Budget Act.

31404. When another local public agency is unable or unwilling to take title to an area required for public access to and along the coastline, the department may accept title to such an area. The department, however, shall not be required to open any area for public use when, in its estimation, the benefits of public use would be outweighed by the costs of development and maintenance. The department shall make a determined effort to identify local public

agencies which will accept responsibility for maintenance and liability for public accessways which are located outside of the state park system. The department may lease any public access site to a public agency; provided, however, that the conditions of such transfer guarantee public use of the site for access to coastal resources.

31405. The department may accept from any state or local public agency fees collected for purposes of providing public access to coastal resources. Any funds collected from such source shall be expended by the department for the sole purpose of acquisition, development, and maintenance of public accessways to the coastline. To the maximum extent possible, such fees shall be expended in the general area where they are collected or in areas where public access to and along the coastline is clearly deficient. The department may transfer funds, including such fees, to a local public agency for the purposes of acquisition of sites for public access to and along the coastline.

31405.5. The conservancy may provide funds to the department for the purpose of planning and maintaining a system of public accessways to and along the state's coastline.

31406. Commencing on January 2, 1978, the department shall annually prepare and submit to the Governor, the Legislature, and the commission a report describing progress in achieving the objectives of this chapter, including requirements for funding, staffing, and further legislation.

SEC. 2. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 3. This act shall become operative only if Senate Bill No. 1277 of the 1975–76 Regular Session is enacted and shall become operative at the same time as Senate Bill No. 1277.

CHAPTER 1442

An act to amend Section 1453 of the Unemployment Insurance Code, relating to unemployment compensation.

[Approved by Governor September 30, 1976 Filed with Secretary of State September 30, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 1453 of the Unemployment Insurance Code is amended to read:

1453. As used in this chapter:

(a) (1) "State employee" means an individual who has permanent or probationary civil service status in employment by this state, other than intermittent employees, and who meets any one of the following conditions:

(A) He has received a written notice of layoff pursuant to Article 2 (commencing with Section 19530) of Chapter 8 of Part 2 of Division 5 of Title 2 of the Government Code.

(B) He has terminated his employment or his employment has been terminated by his employer.

(C) He was employed as nonteaching staff personnel in special schools under the jurisdiction of the Department of Education.

(2) Nothing in this subdivision shall permit a state employee, as defined, to receive unemployment compensation benefits if he would be ineligible for or disqualified to receive such benefits under Article 1 (commencing with Section 1251) of Chapter 5 of Part 1 of Division 1.

(b) "State wages" means all remuneration payable to a state employee for personal services performed as a state employee prior to (1) the effective date of such notice of layoff or (2) 30 days after such employee terminates his employment or has his employment terminated by his employer, including the reasonable cash value of all remuneration payable in any medium other than cash, and includes all such remuneration paid on and after October 1, 1969.

(c) "State base period" means the period of the last four complete consecutive calendar quarters, and any subsequent complete and partial calendar month or months, immediately preceding the effective date of a new claim for unemployment compensation benefits by a state employee.

(d) "Base period" means the base period defined by Section 1275.

SEC. 2. This act shall apply to individuals whose separation from state civil service occurs on or after January 1, 1977, except that no new claim filed by any individual newly included within the definition of "state employee" by this act shall be a valid claim unless the claim has an effective date commencing on or after January 1, 1978. No right or cause of action founded upon any provision of law amended by this act as the provision existed prior to such amendment shall be abolished or impaired by this act.

CHAPTER 1443

An act to amend Sections 70025, 70046, and 76007 of, and to add Sections 68523 and 70059.9 to, the Government Code, relating to courts.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 68523 is added to the Government Code, to read:

68523. (a) The Judicial Council shall provide by rule for the maintenance of records as described in subdivision (c), which shall be filed with the council by each official reporter and official reporter pro tempore of any court located in San Luis Obispo County. Such records shall be inspected and audited by the Judicial Council.

(b) The Judicial Council shall submit an annual report to the board of supervisors of any such county and to the Legislature summarizing the information contained in the records.

(c) Each such annual report shall include the following information relative to the official court reporters of the county:

(1) The quantity and types of transcripts prepared by the official reporters and official reporters pro tempore during the reporting period.

(2) The fees charged and the fees collected for such transcripts.

(3) Expenses incurred by the reporters in connection with the preparation of such transcripts.

(4) The amount of time the reporters have spent in attendance upon the courts for the purpose of reporting proceedings, and the compensation received for this purpose.

(5) Such other information as the Judicial Council may require.

SEC. 2. Section 70025 of the Government Code is amended to read:

70025. In Riverside County, the board of supervisors shall fix the salary of regular official reporters, which shall not be less than an annual salary of twenty thousand two hundred ten dollars ($20,210) and the compensation of official reporters pro tempore, which shall be at a rate not less than seventy-five dollars and twenty-five cents ($75.25) a day, for reporting in shorthand all proceedings in the superior court as required by law or the order of the superior court.

SEC. 3. Section 70046 of the Government Code is amended to read:

70046. In San Bernardino County, the board of supervisors shall fix the salary of regular official reporters, which shall not be less than an annual salary of twenty thousand two hundred ten dollars ($20,210) and the compensation of official reporters pro tempore, which shall be at a rate not less than seventy-five dollars and twenty-five cents ($75.25) a day.

During the hours which the court is open for the transaction of judicial business, official reporters shall devote full time to the performance of the duties required of them by law and shall not engage in or solicit to engage in any other employment in their professional capacity.

SEC. 4. Section 70059.9 is added to the Government Code, to read:

70059.9. In San Luis Obispo County, each regular official reporter shall be paid a monthly salary which shall be recommended by the superior court and approved by the board of supervisors. This salary shall include payment for services in reporting all proceedings in the superior court, before the grand jury, and before coroner's inquests. The initial hiring rate for each position shall be step 1, provided, however, that the judges of the court may appoint a reporter at a higher step if such person has the experience and qualifications to entitle that individual to appointment at a higher initial step. Step advancement from step 1 to step 2 may be granted following completion of six full months of service in the position. Thereafter, a person may advance to each succeeding step upon completion of a 12-month period of full-time service at the previous step. All step advancements pursuant to this section shall be determined by the judges of the court. In addition to the duties required by the provisions of this section, and notwithstanding the provisions of Section 69956, regular official reporters, when not actually engaged in the performance of other lawfully imposed duties, shall, at no additional compensation, render stenographic or clerical assistance or both, to the superior court as may be directed by the presiding judge.

Reporters pro tem shall be paid at a per diem rate of seventy-six dollars ($76) for the days they are actually on duty under order of the court, and shall receive from the county their necessary travel and other expenses when necessarily called from other counties. Rates of compensation of official reporters pro tem may be adjusted by approval of the board of supervisors upon the recommendation of a majority of the judges of the court.

Each official court reporter shall be an attaché of the superior court and shall serve at the pleasure of the appointing judges, but shall be entitled to the same benefits and privileges respecting retirement, group insurance, social security, vacation, sick leave and other fringe benefits which are provided to county employees.

In San Luis Obispo County, the fee required by Section 70053 shall be fifteen dollars ($15).

In addition to any fee otherwise required, in civil cases that last longer than three (3) judicial days, a fee per day equal to the per diem rate for official reporters pro tem shall be charged to the parties for the services of an official reporter for the fourth and each succeeding day a reporter is required.

SEC. 5. Section 76007 of the Government Code is amended to read:

76007. In San Bernardino County, jurors' fees shall be as follows: for attending as a grand juror for each day's attendance, including each day's attendance at committee meetings and investigations upon the order of the grand jury, five dollars ($5); for attending as a juror in the superior court, for each day's attendance, five dollars

4686 298260 345

($5). For each mile actually traveled in attending court as a juror, ten cents ($0.10) shall be allowed; for attending meetings of the grand jury, committee meetings or investigations, necessary expenses and the same mileage rate as is provided by the county for reimbursement of county employees for official use of private automobiles.

SEC. 6. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting San Luis Obispo County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 7. In the event that Section 68519 of the Government Code as it relates to San Bernardino County or Sections 2 or 5 of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, Sections 2 and 5 of this act shall be void, and to this end, Sections 2 and 5 of this act and Section 68519 of the Government Code as it relates to San Bernardino County are inseverable.

SEC. 8. In the event that Sections 1, 3 or 4 of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, every application of Sections 1, 3, and 4 of this act shall be void, and to this end Sections 1, 3, and 4 of this act are inseverable.

SEC. 9. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 1444

An act to amend Section 20685 of the Government Code, relating to the Public Employees' Retirement System, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature October 1, 1976. Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 20685 of the Government Code is amended to read:

20685. If a basic death benefit has become or becomes payable before the payment of the total amount the member elected to pay under any election with respect to normal contributions permitted under this part, the member's entire compensation, or the service upon which that total amount was based, as the case may be, shall be included in the computation of the portion of the death benefit which is provided in subdivision (b) of Section 21361, and the unpaid balance of the total amount shall not be paid to this system, nor shall it be included in the member's accumulated contributions which constitute a part of the basic death benefit. Any balance of any such total amount remaining unpaid at the death of the member on account of which a special death benefit is payable or at the retirement of a member for industrial disability shall become due and payable forthwith and if not paid, the portion of such unpaid amount representing contributions on compensation earned in the membership applicable to the member at the time of injury resulting in death shall be deducted from the benefit otherwise payable and the system shall be discharged from any liability for any annuity or benefit with respect to any remainder of such unpaid contribution. Any such balance at the time of retirement for service or ordinary disability, or at death, with respect to which a benefit is payable under Section 21365.5 shall become due and payable forthwith, and if it is not paid the service credit included in the election shall be reduced proportionately and any prior service dependent on completion of payments eliminated for purposes of computing the allowance but not for purposes of determining entitlement to an allowance.

Notwithstanding any other provision of this section, a member who retires after January 1, 1976, before payment of the total amount which he elected to pay, may elect to pay the balance due by deductions from his retirement allowance equal to those which he authorized as payroll deductions in accordance with Section 20654. In such case service credit included in the election shall not be reduced, nor shall any prior service dependent on completion of payments be eliminated for purposes of computing the allowance. Any balance of such total amount remaining unpaid upon the death of such member shall be treated in the same manner as unpaid balances are treated if a special death benefit is payable.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the benefits of this act to be available to retired persons as soon as possible, this act must take effect immediately.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

Rates of compensation of regular official reporters and official reporters pro tempore may be adjusted by joint action and approval of the board of supervisors and a majority of the judges of the court, provided, however, that any changes in compensation which are made pursuant to this section shall be on an interim basis and shall remain in effect only until January 1, 1978, unless ratified by statute by the Legislature prior to that date.

In such a county, the fee required by Section 70053 shall be ten dollars ($10).

In addition to any fee otherwise required, in civil cases that last longer than five judicial days, a fee per day equal to the per diem rate for official reporters pro tempore shall be charged to the parties for the services of an official reporter for the sixth and each succeeding day a reporter is required.

74642. There shall be one clerk-administrative officer of the municipal court, one assistant clerk-administrator of the municipal court, one chief deputy of the municipal court, seven municipal court clerks, one clerk, supervising, one account clerk III, two clerks III, six clerks II, six clerk-typists II, one account clerk-typist, six clerk-typists I, one clerk I, and one extra help as needed, each of whom shall receive a salary in accordance with Sections 74644, 74644.1, and 74644.2.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act, because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

SEC. 6. If any provision of Chapter 1278 of the Statutes of 1975 relating to court reporters, or application thereof regarding such

persons, is enjoined, restrained, or otherwise held invalid, every provision or application of this act relating to court reporters shall be void.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Court reporters in adjacent and nearby counties are paid significantly higher salaries than are currently paid in Santa Barbara County and this results in a shortage of qualified court reporters in Santa Barbara County. Unless this situation is promptly remedied, it may well be necessary to close courts within the county. In order to rectify this situation, and to allow the personnel and classification changes made by the provisions of this act in municipal court districts in Santa Barbara County at the earliest feasible time, it is necessary that this act take effect immediately.

CHAPTER 1446

An act to add Section 23428.24 to the Business and Professions Code, relating to alcoholic beverages and making an appropriation therefor.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

It shall be unlawful for any club licensed pursuant to this section to make any discrimination, distinction, or restriction against any person on account of such person's color, race, religion, ancestry, national origin, sex, or age.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental

entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

Step A	$625.60
Step B	660.80
Step C	699.20
Step D	739.20

At the time each reporter is hired, the salary of that reporter shall be fixed in the same manner as provided for classified employees of the county under the authority of the county charter. A step advancement from step A to step B may be granted on the first day of the pay period following the completion of 26 full weeks of service in the position. A person may advance to steps C, D, and E upon completion of successive 52-week periods of service. All merit increases as provided herein shall be made at the determination of the judges of the court.

In addition to new employees, the salaries herein provided for shall be applicable to regular official reporters employed by such county on the effective date of this section and for the purpose of determining the salaries to be paid after this section becomes effective, all years of service rendered by such reporters to such county prior to the effective date of this section shall be counted in determining the salary to which they are entitled under the salary schedule above mentioned.

The per diem compensation for pro tempore reporters shall be one-tenth of step E in the biweekly salary range established for official reporters, provided, however, that that rate of per diem compensation shall be prorated on the basis of one-half day of compensation if the pro tempore reporter renders only one-half day of service.

Such higher rates shall be payable by the county in the same manner and from the same funds as other salary demands against the county. Any change in compensation made pursuant to this subdivision shall be on an interim basis and shall expire on January 1 after the adjournment of the next regular session of the Legislature unless ratified or superseded by a statute enacted at such session.

(c) During the hours which the court is open for the transaction of judicial business, official reporters shall devote full time to the performance of the duties required of them by law and shall not engage in or solicit to engage in any other employment in their professional capacity.

Official phonographic reporters pro tempore shall be compensated at the rate of seventy-seven dollars ($77) a day, or any fractional part thereof.

Rates of compensation of all regular official reporters and official reporters pro tempore may be adjusted by joint action and approval of the board of supervisors and a majority of the judges of the court.

Such changes in compensation made pursuant to this section shall be on an interim basis and shall expire 90 days after the adjournment of the next regular session of the Legislature unless ratified by a statute enacted at such session.

SEC. 4. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting San Diego County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 5. In the event that Section 68519 of the Government Code as it relates to San Mateo County, or any provision of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, every provision of this act shall be void, and to this end, all the provisions of this act and Section 68519 of the Government Code as it relates to San Mateo County are inseverable.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local governmental entity or entities which desired legislative authority to act to carry out the program specified in this act.

CHAPTER 1457

An act to amend Section 8 of, and to add Sections 8.1 and 10.2 to, the County Water Authority Act (Chapter 545 of the Statutes of 1943), relating to county water authorities, and making an appropriation therefor..

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 8 of the County Water Authority Act (Chapter 545 of the Statutes of 1943) is amended to read:

Sec. 8. An authority may incur indebtedness by contract other than by voting bonds or expenditure of bond proceeds up to a total amount equal to one-tenth of 1 percent of the assessed valuation of property taxable for authority purposes by a vote of three-fourths or more of the aggregate number of votes of all members of the board of directors. Any proposal to incur an indebtedness in excess of an amount equal to one-tenth of 1 percent of the assessed valuation of property taxable for authority purposes by contract other than by voting bonds or expenditure of bond proceeds, and any proposal to purchase, lease, or otherwise acquire rights, privileges, or services by contract, the compensation for which shall be payable over a period of time exceeding 20 years, shall be submitted to the qualified electors of the authority for their approval and shall be voted upon at an election wherein proceedings shall be had, insofar as applicable, in the manner provided in this act for the authorization and issuance of the bonds of the authority, except that the vote of a majority of the electors voting upon the proposition shall be sufficient to authorize the incurring of such indebtedness. Notice of the election herein provided for shall contain, in addition to the information required in the case of bond elections, a statement of the maximum amount of money to be paid under said contract, exclusive of penalties and interest, for what purposes the money is to be expended, and the property, improvements, works, rights, privileges or services to be acquired thereby. The ballots at such election shall contain a brief statement of the general purposes of said contract and the amount of the obligation to be assumed as aforesaid, with the words "Contract—Yes" and "Contract—No." The board of directors may submit such contract or proposed contract to the superior court of the county wherein the authority is located to determine the validity thereof and the legal authority of the board to enter into such contract, whereupon the same proceedings shall be held as are herein provided in the case of the judicial determination of the validity of bonds issued pursuant to this act, and with like effect.

SEC. 2. Section 8.1 is added to the County Water Authority Act (Chapter 545 of the Statutes of 1943), to read:

Sec. 8.1. (a) Whenever the board of directors of any authority incorporated under this act by ordinance adopted by a vote of three-fourths or more of the aggregate number of votes of all members of the board of directors finds and determines that any part of the works of the authority has been damaged or demolished by reason of fire, flood, earthquake, sabotage, act of God or the public enemy, that the cost of repairing or replacing such works so damaged or demolished will be too great to be paid out of the ordinary annual income and revenue of the authority, and that the public interest requires the incurring of indebtedness for the purpose of providing

4 1884 299 165 454

moneys for the repair or replacement of such works, the board of directors may authorize the incurring of such indebtedness by the issuance and sale of bonds or other evidence of indebtedness and shall determine the manner in which such indebtedness shall be incurred and evidenced.

(b) The total indebtedness incurred pursuant to this section shall not exceed one-half of 1 percent of the assessed valuation of the property taxable for authority purposes, and the term of any such indebtedness shall not exceed 12 years.

(c) The bonds or other evidence of indebtedness authorized to be issued pursuant to this section shall bear interest at a rate or rates specified therein, which rate or rates shall not be in excess of 8 percent per annum, and shall be in such form, bear such signatures, and be subject to such provisions as may be determined by the board of directors. The board of directors may provide for the call and redemption of bonds or other evidence of indebtedness before maturity at such times and at such prices as it may determine. A bond or other evidence of indebtedness shall not be subject to call or redemption prior to maturity unless it contains a recital to that effect.

(d) The bonds or other evidence of indebtedness shall be sold at not less than par and accrued interest in the manner provided for the issuance of other bonds of the authority in subdivision (g) of Section 7, provided that if no bids are received, or if the board determines the bids received are not satisfactory in the opinion of the board, the board may reject all bids and either readvertise or sell the bonds or other evidence of indebtedness at private sale.

(e) The proceeds of any borrowing pursuant to this section, other than accrued interest, shall be applied solely to the purpose specified in the ordinance authorizing the incurring of such indebtedness or to the retirement of the principal of the obligation issued pursuant to such ordinance. Any accrued interest received shall be applied to payment of interest on such indebtedness.

(f) The provisions of subdivisions (i), (j), and (*l*) of Section 7, which are applicable to other bonds of the authority, shall apply to bonds or evidence of indebtedness incurred pursuant to this section.

SEC. 3. Section 10.2 is added to the County Water Authority Act, (Chapter 545 of the Statutes of 1943), to read:

Sec. 10.2. (a) Notwithstanding any other provisions of this act, territory within a federal military reservation may be annexed to any county water authority organized hereunder as a single member of an authority in the manner provided in this section. As used in this section, "federal military reservation" or "military reservation" means a single federal military reservation or separate but contiguous federal military reservations which are jointly annexed to a county water authority as a single member agency of an authority.

(b) Proceedings for the annexation of a military reservation shall be initiated by the adoption by the board of directors of an authority of a resolution proposing annexation of a military reservation to an authority as a member of an authority.

(c) The resolution proposing the annexation may provide that the annexation shall include one or more separate areas, which may be separately identified for assessing and tax collecting purposes, and that each such area may be subject to one or more of the following terms and conditions:

(1) The fixing and establishment of priorities for the use of, or right to use, water, or capacity rights in any public improvement or facilities, and the determination of, or limitation on, the quantity of, the purposes for which, and the places where, water may be delivered by the authority to the military reservation for military purposes and uses incidental thereto, as well as for nonmilitary purposes.

(2) The levying by the authority of special taxes upon any private leasehold, possessory interest or other taxable property within the territory annexed, and the imposition and collection of special fees or charges prior to such annexation.

(3) Should portions of any area annexed hereunder be subsequently made available for nonmilitary purposes not in existence at the time of the annexation of such area, the board of directors of the authority may impose new terms and conditions for any subsequent service of water, directly or indirectly, by the authority to such area, including the separation of such an area for assessing and tax collecting purposes and the levying by the authority of special taxes on such portions.

(4) The effective date of the annexation.

(5) Any other matters necessary or incidental to any of the foregoing.

(d) A certified copy of the resolution proposing annexation shall be sent to the official in authority over the military reservation. If the military reservation consents in writing to the annexation and to the terms and conditions established by the board of directors, the board may, by resolution, order the annexation to the authority of the territory situated within the military reservation, subject to said terms and conditions.

(e) A certificate of proceedings taken hereunder shall be made by the secretary of the authority and filed with the Secretary of State. Upon the filing in his office of the certificate of proceedings, the Secretary of State shall, within 10 days, issue a certificate reciting the filing of such papers in his office and the annexation of the territory to the authority. The Secretary of State shall transmit the original of said certificate to the secretary of the authority and shall forward a certified copy thereof to the county clerk of each county in which the authority is situated.

(f) Upon the filing of the certificate of proceedings with the Secretary of State, or upon the effective date of the annexation provided for in the terms and conditions, whichever is later, the territory within the military reservation shall become and be an integral part of the authority, and the taxable property therein shall be subject to taxation thereafter for the purposes of said authority,

including the payment of bonds and other obligations of the authority at the time authorized or outstanding, and the board of directors of the authority shall be empowered to do all things necessary to enforce and make effective the terms and conditions of annexation fixed as hereinabove authorized.

(g) On and after the effective date of the annexation, the military reservation shall be a separate unit member of the authority and shall be entitled to one representative on the board of directors of the authority. Such representative shall be designated and appointed by the official in authority over the military reservation, shall hold office for a term of six years or until his successor is appointed and qualified, and may be recalled by such official. As a member of the board of directors, the representative of the military reservation shall be entitled to cast one vote on all questions, orders, resolutions and ordinances coming before the board notwithstanding the assessed valuation of property taxable for authority purposes within the military reservation.

(h) The transfer of ownership of the fee title of a military reservation, or of any portion thereof, to nonmilitary ownership after annexation to the authority pursuant to this section shall result in the automatic exclusion from the authority of the territory transferred to such ownership.

(i) If a county water authority is a member public agency of a metropolitan water district organized under the Metropolitan Water District Act (Chapter 200 of the Statutes of 1969), such metropolitan water district may impose any or all of the terms and conditions that may be imposed by a county water authority pursuant to subdivisions (a) through (h) of this section in any resolution fixing the terms and conditions for the concurrent annexation of territory in a military reservation.

(b) Each regular full-time court reporter shall be paid a monthly salary of one thousand four hundred seventy dollars ($1,470), unless the Board of Supervisors of Shasta County by ordinance provides for

compensation in excess of that amount, in which event the amount set by ordinance shall apply. Such salary is for compensation for reporting services set forth under subdivision (a) of this section. For all transcriptions incident to reporting services, each reporter shall receive the fees provided for in Article 9 (commencing with Section 69941) of this chapter.

In the event the board of supervisors has entered into a contract for supplemental reporter services with a qualified person or persons first approved by the presiding judge of the superior court, such person or persons shall be appointed as reporter pro tempore; provided, that if such person or persons are not reasonably available, the judge may appoint any qualified person. Notwithstanding other provisions of this section, when an assignment of a pro tempore reporter is made to proceedings in the superior court, the assignment shall be deemed to run to the completion of the proceeding.

Reporters pro tempore shall be paid in accordance with the contract with the board of supervisors or, in absence thereof, with the per diem, transcription, and other fee provisions of Article 9 (commencing with Section 69941) of this chapter. All fees paid under this section shall be taxed as costs.

SEC. 5. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide

basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Shasta County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 6. If any provision of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, then every other provision or application of this act shall be void, and to this end the provisions of this act are inseverable.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local governmental entity or entities which desired legislative authority to act to carry out the program specified in this act.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. [Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 25100 of the Corporations Code is amended to read:

25100. The following securities are exempted from the provisions of Sections 25110, 25120, and 25130:

(a) Any security (including a revenue obligation) issued or guaranteed by the United States, any state, any city, county, city and county, public district, public authority, public corporation, public entity, or political subdivision of a state or any agency or corporate or other instrumentality of any one or more of the foregoing; or any certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of any such province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(c) Any security issued or guaranteed by and representing an interest in or a direct obligation of a national bank or a bank or trust company incorporated under the laws of this state, and any security issued by a bank to one or more other banks and representing an interest in an asset of the issuing bank.

(d) Any security issued or guaranteed by a federal savings and loan association or federal land bank or joint land bank or national farm loan association or by any savings and loan association which is subject to the supervision and regulation of the Savings and Loan Commissioner of this state.

(e) Any security (other than an interest in all or portions of a parcel or parcels of real property which are subdivided land or a subdivision or in a real estate development), the issuance of which is subject to authorization by the Insurance Commissioner, the

01898 299385 498

Public Utilities Commission, or the Real Estate Commissioner of this state.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any corporation engaged in the business of selling, distributing or supplying water for irrigation purposes or domestic use which is not a public utility.

(g) Any shares, investment certificates or borrower's membership certificates (as defined in the Savings and Loan Association Law) issued by a savings and loan association holding a license then in force from the Savings and Loan Commissioner of this state.

(h) Any security issued or guaranteed by any federal credit union, or by any credit union organized and supervised under the laws of this state.

(j) Any security (except evidences of indebtedness, whether interest bearing or not) of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit, if no part of the net earnings of the issuer inures to the benefit of any private shareholder or individual, or (2) organized as a chamber of commerce or trade or professional association. The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of such nonprofit organization or from remuneration received from such nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of

(1) Whenever it appears to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of Section 1280.7 of the Insurance Code, he may in his discretion bring an action in the name of the people of the State of California in the superior court to enjoin the acts or practices or to enforce compliance with Section 1280.7 of the Insurance Code. Upon a proper showing a permanent or preliminary injunction, restraining order or writ of mandate shall be granted and a receiver or conservator may be appointed for the defendant or the defendant's assets. The court shall not require the commissioner to post a bond.

(2) The commissioner may, in his discretion, (A) make such public or private investigations within or outside of this state as he deems necessary to determine whether any person has violated or is about to violate any provision of Section 1280.7 of the Insurance Code or to aid in the enforcement of such Section 1280.7, and (B) publish information concerning the violation of such Section 1280.7.

documents or records which the commissioner deems relevant or material to the inquiry.

(4) In case of contumacy by, or refusal to obey a subpoena issued to, any person, the superior court, upon application by the commissioner, may issue to the person an order requiring him to appear before the commissioner, or the officer designated by him, there to produce documentary evidence, if so ordered, or to give evidence touching the matter under investigation or in question. Failure to obey the order of the court may be punished by the court as a contempt.

(5) No person is excused from attending or testifying or from producing any document or record before the commissioner, or in obedience to the subpoena of the commissioner or any officer designated by him, or in any proceeding instituted by the commissioner, on the ground that the testimony or evidence (documentary or otherwise) required of him may tend to incriminate him or subject him to a penalty or forfeiture; but no individual may be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing concerning which he is compelled, after validly claiming his privilege against self-incrimination, to testify or produce evidence (documentary or otherwise), except that the individual testifying is not exempt from prosecution and punishment for perjury or contempt committed in testifying.

(o) Any beneficial interest in a retirement system as defined in subdivision (a) of Section 28002.

(p) Any security listed or approved for listing upon notice of issuance on a national securities exchange certified by rule or order of the commissioner and any warrant or right to purchase or subscribe to any such security.

Such certification of an exchange shall be made by the commissioner upon the written request of the exchange if he finds that the exchange, in acting on applications for listing of common stock substantially applies each of the minimum standards set forth in subparagraph (1) below, and in considering suspension or removal from listing, substantially applies each of the criteria set forth in subparagraph (2) below.

(1) Listing standards:

(i) Net tangible assets of at least two million dollars ($2,000,000).

(ii) Net income of at least two hundred fifty thousand dollars ($250,000) after all charges including federal income taxes in the fiscal year immediately preceding the filing of a listing application and net income before such taxes of at least five hundred thousand dollars ($500,000).

(iii) Minimum public distribution of 250,000 shares excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings among not less than 900 holders including not less than 600 holders of lots of 100 shares or more, with a corresponding requirement that such securities not be largely held

in blocks by institutional investors.

(iv) Minimum price of four dollars ($4) per share for reasonable period of time prior to the filing of a listing application.

(v) An aggregate market value for publicly held shares of at least one million five hundred thousand dollars ($1,500,000).

(2) Criteria for consideration of suspension or removal from listing:

(i) If a company which (A) has net tangible assets of less than one million dollars ($1,000,000) has sustained net losses in each of its two most recent fiscal years, or (B) has net tangible assets of less than three million dollars ($3,000,000) and has sustained net losses in three of its four most recent fiscal years.

(ii) If the number of shares publicly held (excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings) is less than 150,000.

(iv) If the aggregate market value of shares publicly held is less than seven hundred fifty thousand dollars ($750,000).

(v) If shares of common stock sell at a price of less than four dollars ($4) per share for a substantial period of time and the issuer shall fail to effectuate a reverse stock split of such shares within a reasonable period of time after being requested by the exchange to take such action.

The commissioner after appropriate notice and opportunity for hearing in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, may by rule or order, decertify any exchange previously certified which ceases substantially to apply the standards or criteria as set forth above. A rule or order of certification shall conclusively establish that any security listed or approved for listing upon notice of issuance on any exchange named in a rule or order of certification and any warrant or right to purchase or subscribe to any such security is exempt under this subdivision until the adoption of any rule or order decertifying such exchange.

(q) A promissory note secured by a lien on real property, which is not one of a series of notes secured by interests in the same real property.

SEC. 2. Section 25100 of the Corporations Code is amended to read:

25100. The following securities are exempted from the provisions of Sections 25110, 25120, and 25130:

(a) Any security (including a revenue obligation) issued or guaranteed by the United States, any state, any city, county, city and county, public district, public authority, public corporation, public entity, or political subdivision of a state or any agency or corporate or other instrumentality of any one or more of the foregoing; or any

certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of any such province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(c) Any security issued or guaranteed by and representing an interest in or a direct obligation of a national bank or a bank or trust company incorporated under the laws of this state, and any security issued by a bank to one or more other banks and representing an interest in an asset of the issuing bank.

(d) Any security issued or guaranteed by a federal savings and loan association or federal land bank or joint land bank or national farm loan association or by any savings and loan association which is subject to the supervision and regulation of the Savings and Loan Commissioner of this state.

(e) Any security (other than an interest in all or portions of a parcel or parcels of real property which are subdivided land or a subdivision or in a real estate development), the issuance of which is subject to authorization by the Insurance Commissioner, the Public Utilities Commission, or the Real Estate Commissioner of this state.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any corporation engaged in the business of selling, distributing or supplying water for irrigation purposes or domestic use which is not a public utility.

(g) Any shares, investment certificates or borrower's membership certificates (as defined in the Savings and Loan Association Law) issued by a savings and loan association holding a license then in force from the Savings and Loan Commissioner of this state.

(h) Any security issued or guaranteed by any federal credit union, or by any credit union organized and supervised under the laws of this state.

(i) Any security issued or guaranteed by any railroad, other common carrier, public utility, or public utility holding company which is (1) subject to the jurisdiction of the Interstate Commerce Commission or (2) a holding company registered with the Securities and Exchange Commission under the Public Utility Holding Company Act of 1935 or a subsidiary of such a company within the meaning of that act or (3) regulated in respect of the issuance or guarantee of the security by a governmental authority of the United States, of any state, of Canada or of any Canadian province; and the security is subject to registration with or authorization of issuance by such authority.

(j) Any security (except evidences of indebtedness, whether interest bearing or not) of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit, if no part of the net earnings of the issuer inures to the benefit of any private shareholder or individual, or (2) organized as a chamber of commerce or trade or professional association. The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of such nonprofit organization or from remuneration received from such nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of property to such issuer and providing for the payment to the donor or persons designated by him of income or specified periodic payments from the donated property or other property for the life of the donor or such other persons.

(*l*) Any note, draft, bill of exchange, or banker's acceptance which is freely transferable and of prime quality, arises out of a current transaction or the proceeds of which have been or are to be used for current transactions, and which evidences an obligation to pay cash within nine months of the date of issuance, exclusive of days of grace, or any renewal of such paper which is likewise limited, or any guarantee of such paper or of any such renewal, provided that such paper is not offered to the public in amounts of less than twenty-five thousand dollars ($25,000) in the aggregate to any one purchaser. In addition, the commissioner may, by rule or order, exempt any issuer of any notes, drafts, bills of exchange or banker's acceptances from qualification of such securities when he finds that such qualification is not necessary or appropriate in the public interest or for the protection of investors.

(m) Any security issued by any corporation organized and existing under the provisions of Chapter 1 (commencing with Section 54001) of Division 20 of the Agricultural Code.

(n) Any unincorporated interindemnity or reciprocal or interinsurance contract, which qualifies under the provisions of Section 1280.9 of the Insurance Code, between members of a cooperative corporation, organized and operating under Part 2 (commencing with Section 12200) of Division 3 of Title 1, and whose members consist only of physicians and surgeons licensed in

California, which contracts indemnify solely in respect to medical malpractice claims against such members, and which do not collect in advance of loss any moneys other than contributions by each member to a collective reserve trust fund or for necessary expenses of administration.

(o) Any beneficial interest in a retirement system as defined in subdivision (a) of Section 28002.

(p) Any security listed or approved for listing upon notice of issuance on a national securities exchange certified by rule or order of the commissioner and any warrant or right to purchase or subscribe to any such security.

Such certification of an exchange shall be made by the commissioner upon the written request of the exchange if he finds that the exchange, in acting on applications for listing of common stock substantially applies each of the minimum standards set forth in subparagraph (1) below, and in considering suspension or removal from listing, substantially applies each of the criteria set forth in subparagraph (2) below.

(1) Listing standards:

(i) Net tangible assets of at least two million dollars ($2,000,000).

(ii) Net income of at least two hundred fifty thousand dollars ($250,000) after all charges including federal income taxes in the fiscal year immediately preceding the filing of a listing application and net income before such taxes of at least five hundred thousand dollars ($500,000).

(iii) Minimum public distribution of 250,000 shares excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings among not less than 900 holders including not less than 600 holders of lots of 100 shares or more, with a corresponding requirement that such securities not be largely held in blocks by institutional investors.

(iv) Minimum price of four dollars ($4) per share for reasonable period of time prior to the filing of a listing application.

(v) An aggregate market value for publicly held shares of at least one million five hundred thousand dollars ($1,500,000).

(2) Criteria for consideration of suspension or removal from listing:

(i) If a company which (A) has net tangible assets of less than one million dollars ($1,000,000) has sustained net losses in each of its two most recent fiscal years, or (B) has net tangible assets of less than three million dollars ($3,000,000) and has sustained net losses in three of its four most recent fiscal years.

(ii) If the number of shares publicly held (excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings) is less than 150,000.

(iii) If the total number of shareholders of record is less than 450 or if the number of shareholders of lots of 100 shares or more is less than 300.

(iv) If the aggregate market value of shares publicly held is less

than seven hundred fifty thousand dollars ($750,000).

(v) If shares of common stock sell at a price of less than four dollars ($4) per share for a substantial period of time and the issuer shall fail to effectuate a reverse stock split of such shares within a reasonable period of time after being requested by the exchange to take such action.

The commissioner after appropriate notice and opportunity for hearing in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part I of Division 3 of Title 2 of the Government Code, may by rule or order, decertify any exchange previously certified which ceases substantially to apply the standards or criteria as set forth above. A rule or order of certification shall conclusively establish that any security listed or approved for listing upon notice of issuance on any exchange named in a rule or order of certification and any warrant or right to purchase or subscribe to any such security is exempt under this subdivision until the adoption of any rule or order decertifying such exchange.

(q) A promissory note secured by a lien on real property, which is not one of a series of notes secured by interests in the same real property.

SEC. 3. Section 1280.7 is added to the Insurance Code, to read:

1280.7. This chapter and the other provisions of this code shall not apply to or affect unincorporated interindemnity or reciprocal or interinsurance contracts between members of a cooperative corporation, organized and operating under Part 2 (commencing with Section 12200) of Division 3 of Title 1 of the Corporations Code whose members consist solely of physicians and surgeons licensed in California, which contracts indemnify solely in respect to medical malpractice claims against such members, and which do not collect in advance of loss any moneys other than contributions by each member to a collective reserve trust fund or for necessary expenses of administration, provided that, in connection with such interindemnity, reciprocal, or interinsurance contracts all of the following conditions are met:

(a) Each participating member shall enter into and, concurrently therewith, receive an executed copy of a trust agreement, which shall govern the collection and disposition of all funds of the interindemnity arrangement.

The trust agreement shall, as a minimum, contain provision for all the following matters:

(1) An initial trust corpus of not less than ten million dollars ($10,000,000), which corpus shall be a trust fund to secure enforcement of the interindemnity arrangement. The average initial contribution to such corpus shall be not less than twenty thousand dollars ($20,000) per member participating in the interindemnity arrangement. No such interindemnity arrangement shall become operative until the requisite minimum reserve trust fund has been established by such participating members.

(2) The reserve trust fund created by such trust agreement shall be administered by a board of trustees of three or more members, all of whom shall be physicians and surgeons licensed in California, participating members in the interindemnity arrangement, and elected biennially or more frequently by at least a majority of all members participating in the interindemnity arrangement.

(3) The board of trustees shall be the custodian of all funds of the interindemnity arrangement, and all such funds shall be deposited in such bank or banks and savings and loan associations in California as the board may designate, and each such account shall require two or more signatories for withdrawal of funds. The authorized signatories shall be appointed by the board and shall be physicians and surgeons licensed in California and participating members in the interindemnity arrangement Each signatory on such accounts shall maintain, at all times while empowered to draw on such funds, for the benefit of the interindemnity arrangement, a bond against loss suffered through embezzlement, mysterious disappearance, holdup or burglary or other loss issued by a bonding company licensed to do business in California in a penal sum of not less than one hundred thousand dollars ($100,000).

(4) All funds held in trust which are in excess of current financial needs shall be invested and reinvested from time to time, under the direction of the board of trustees, in eligible securities, as defined in Section 16430 of the Government Code, or in certificates of deposits or time deposits issued by banks and savings and loan associations in California duly insured by instrumentalities of the United States government.

(5) The income earned on the corpus of the trust fund shall be the source for the payment of the claims, costs, judgments, settlements, and costs of administration contemplated by such interindemnity arrangement, and to the extent such income is insufficient for such purposes, the board of trustees shall have the power and authority to assess participating members for all amounts necessary to meet the obligations of such interindemnity arrangement in accordance with the terms thereof and any such assessment levied against a member shall be the personal obligation of such member. Any person who obtains a final judgment of recovery for medical malpractice against a member of such interindemnity arrangement shall have, in addition to any other remedy, the right to assert directly all rights to indemnification which the judgment debtor has under the interindemnity arrangement. Such final judgment shall be a lien on the reserve trust fund to secure payment of such judgment, limited to the extent of the judgment debtor's rights to indemnification.

(6) Each participating member shall be covered by such interindemnity arrangement for not less than one million dollars ($1,000,000) for each occurrence of professional negligence, with the terms and conditions of such coverage to be specified in the trust agreement, except that such interindemnity arrangement may

provide participating members with less than one million dollars ($1,000,000) of such coverage if the interindemnity arrangement obtains for the benefit of such members reinsurance of excess limits coverage in an amount which when added to the coverage provided by such interindemnity arrangement would equal not less than one million dollars ($1,000,000) for each occurrence of professional negligence.

(7) Withdrawal of all, or any portion of, the corpus of the reserve trust fund shall be upon the written authorization signed by at least two-thirds of the members of the board of trustees.

(8) The board of trustees shall cause both of the following to be furnished to each member participating in such interindemnity arrangement, and to be filed with the Commissioner of Corporations:

(A) Within 90 days after the end of each fiscal year a statement of the assets and liabilities of the interindemnity arrangement as of the end of such year, a statement of the revenue and expenditures of the interindemnity arrangement, and a statement of the changes in corpus of the reserve trust for such year, in each case accompanied by a certificate signed by a firm of independent certified public accountants selected by the board of trustees indicating that such firm has conducted an audit of such statements in accordance with generally accepted auditing standards and indicating the results of such audit.

(B) Within 45 days after the end of each of the first three quarterly periods of each fiscal year a statement of the assets and liabilities of the interindemnity arrangement as of the end of such quarterly period, a statement of the revenue and expenditures of the interindemnity arrangement and a statement of the changes in corpus of the reserve trust for such period, in each case accompanied by a certificate signed by a majority of the members of the board of trustees to the effect that such statements were prepared from the official books and records of the interindemnity arrangement.

(C) In addition to the statements required to be filed pursuant to this paragraph, the board of trustees shall annually file with the Commissioner of Corporations an authorization for disclosure to the commissioner of all financial records pertaining to the interindemnity arrangement. For the purpose of this clause, the authorization for disclosure shall also include the financial records of any association, partnership, or corporation that has management or control of the funds or the operation of the interindemnity arrangement.

(9) The trust agreement shall also provide for all the following:

(A) In the event a participating member who is in full compliance with the trust agreement dies, the initial contribution made by the decedent shall be returned to such member's estate or designated beneficiary; the indemnity coverage shall continue for the benefit of the decedent's estate in respect of occurrences during the time the decedent was a participating member; and neither the person receiving the repayment of the initial contribution nor the

decedent's estate shall be responsible for any assessments levied following the death of the member.

(B) A participating member who is then in full compliance with the trust agreement and who has reached the age of 65 and who has retired completely from the practice of medicine may elect to retire from the interindemnity arrangement, in which case such member shall not be responsible for assessments levied following the date notice of retirement is given to the trust. Following such retirement, the indemnity coverage shall continue for the benefit of such member in respect of occurrences prior to the time such member retired from the interindemnity arrangement. Such retired member's initial contribution shall be repaid 10 years from the date the notice of retirement is received by the trust, or such earlier date as specified in the trust agreement.

(C) During any period in which a participating member, who is then in full compliance with the trust agreement, has, in the judgment of the board of trustees, become unable to perform any and every duty of his or her regular professional occupation, the indemnity coverage shall continue for the benefit of such member and such member shall not be responsible for assessments levied during such period.

(D) In the event a participating member fails to pay any assessment when the same is due, the board of trustees may terminate such person's membership status if such failure to pay is not cured within 30 days from the date the assessment was due. Upon such termination the former participating member shall not be entitled to the return of all or any part of his or her initial contribution, and the indemnity coverage shall thereupon terminate as to all claims then pending against such person and in respect to all occurrences prior to the date of such termination of membership. However, in the event the interindemnity arrangement is then providing legal defense services to such person, the interindemnity arrangement shall continue to provide those services for a period of 10 days following such termination.

(E) In the event a participating member fails to comply with any provision of the trust agreement (other than a failure to pay assessments when due), the board of trustees may terminate such person's membership status if such failure to comply is not cured within 60 days from the date such person is notified of the failure; provided that before such membership status may be terminated such person shall be given the right to call for a hearing before the board of trustees (to be held before the expiration of such 60-day period), at which hearing such person shall be given the opportunity to demonstrate to the board of trustees that no failure to comply has occurred or, if it has occurred, that it has been cured. Upon such termination, the former participating member shall not be entitled to the return of all or any part of his or her initial contribution, and the indemnity coverage shall thereupon terminate as to all claims then pending against such person and in respect to all occurrences

prior to the date of such termination of membership. However, in the event the interindemnity arrangement is then providing legal defense services to such person, the interindemnity arrangement shall continue to provide those services for a period of 10 days following such termination.

(F) A participating member who is then in full compliance with the trust agreement may elect voluntarily to terminate his or her membership in the interindemnity arrangement. Upon such voluntary termination, such person may further elect to cease being responsible for future assessments, or to continue to pay such assessments until such time as such person's initial contribution is repaid. In the event such person elects to cease being responsible for future assessments, the indemnity coverage shall thereupon terminate and such person shall either be responsible for his or her own exposure for acts committed while a participating member in the interindemnity arrangement, or he or she may request the interindemnity arrangement to purchase or provide, at the cost of such person, coverage for such exposure. The initial contribution of such person shall be repaid on the 10th anniversary of the date such contribution was made. In the event such person elects to continue to be responsible for assessments, the indemnity coverage shall continue in respect of occurrences prior to the date of such voluntary termination, and the initial contribution of such person shall be repaid at such time as the board of trustees is satisfied that (i) there are no claims pending against such person in respect of occurrences during the time such person was a participating member, and (ii) the statute of limitations has run on all claims which might be asserted against such person in respect of occurrences during such time. In no event shall such repayment be made earlier than the 10th anniversary of the date such contribution was made.

(G) The board of trustees shall have the right to terminate the membership of a participating member where the board of trustees determines that such termination is in the best interests of the interindemnity arrangement even though such person has complied with all of the provisions of the trust agreement. Such a termination may be effected only if at least two-thirds of the members of the board of trustees indicate in writing their decision so to terminate. If the board of trustees proposes so to terminate a member, such member shall have the right to call a special meeting of all participating members for the purpose of voting on whether or not such member shall be so terminated. Such member shall not be so terminated if at least two-thirds of the participating members present indicate that such member should not be so terminated. In the event a member is so terminated, such person may elect either: (i) to request the return of his or her initial contribution, in which case the same shall be repaid and the indemnity coverage shall thereupon terminate as to all claims then pending against such person and in respect to all occurrences prior to the date of such termination of membership. However, in the event the

interindemnity arrangement is then providing legal defense services to such person, the interindemnity arrangement shall continue to provide those services for a period of 30 days to enable such person to assume his or her own defense; or (ii) to release all rights to the return of such initial contribution, in which case the indemnity coverage shall continue for the benefit of such member in respect of occurrences during the time such person was a participating member and such person shall have no responsibility for assessments levied following such termination.

(10) Each member participating in such interindemnity arrangement shall have the right of access to, and the inspection of, the books and records of the interindemnity arrangement, which rights shall be similar to the corporate shareholders pursuant to Section 3003 of the Corporations Code, or, commencing January 1, 1977, Sections 1600 to 1605, inclusive, of the Corporations Code.

(11) There shall be a meeting of all members participating in the interindemnity arrangement, at least annually, after not less than 10 days' written notice has been given, at a location reasonably convenient to such participating members and on a date which is within a reasonable period of time following the distribution of the annual financial statements.

(12) The interindemnity arrangement, and the reserve trust fund incident thereto, shall be subject to termination at any time by the vote or written consent of not less than three-fourths of the participating members.

(b) The board of trustees shall cause to be recorded with the office of the county recorder of the county of the principal place of business of the interindemnity arrangement within 90 days following the end of each fiscal year, a written statement, executed by a majority of the board of trustees under penalty of perjury, reciting that each member participating in such interindemnity arrangement was mailed a copy of the annual financial statement and quarterly audit certificates by first-class mail, postage prepaid, required pursuant to paragraph (8) of subdivision (a).

(c) Each person solicited to become a participating member in such an interindemnity arrangement shall receive in writing, at least 48 hours prior to the execution by the prospective participating member of the trust agreement, and at least 48 hours prior to the payment by such prospective participating member of any consideration in connection with such interindemnity arrangements, the following information:

(1) A copy of the articles of incorporation and bylaws of the cooperative corporation and a copy of the form of trust agreement to be executed by such prospective participating member.

(2) A disclosure statement regarding the interindemnity arrangement. The disclosure statement shall contain on the first or cover page a legend in boldface type reading substantially as follows:

"THE INTERINDEMNITY ARRANGEMENT CONTEMPLATED HEREIN PROVIDES THAT PARTICIPATING MEMBERS HAVE UNLIMITED PER-

SONAL LIABILITY FOR ASSESSMENTS WHICH MAY BE LEVIED TO PAY FOR THE PROFESSIONAL NEGLIGENCE LIABILITIES COVERED BY THIS ARRANGEMENT. NO ASSURANCES CAN BE GIVEN REGARDING THE AMOUNT OR FREQUENCY OF ASSESSMENTS WHICH MAY BE SO LEVIED, OR THAT ALL PARTICIPATING MEMBERS WILL MAKE TIMELY PAYMENT OF THEIR ASSESSMENTS TO COVER THE PROFESSIONAL NEGLIGENCE LIABILITY OF A PARTICIPATING MEMBER."

(3) The disclosure statement shall further contain all of the following information:

(A) The amount, nature and terms and conditions of the professional negligence coverage available under the interindemnity arrangement.

(B) The amount of the initial contribution required of each participating member and a statement of the minimum number of members and aggregate contributions required for the interindemnity arrangement to commence.

(C) The names, addresses and professional experience of each member of the board of trustees.

(D) The requirements for admission as a participating member.

(E) A statement of the services to be provided under the interindemnity arrangement to each participating member.

(F) A statement regarding the obligation of each member to pay assessments and the consequences for failure to do so.

(G) A statement of the rights and obligations of a participating member in the event such member dies, retires, becomes disabled or terminates participation for any reason, or the interindemnity arrangement terminates for any reason.

(H) A statement regarding the claims administration services to be provided, indicating whether these services will be delegated to others pursuant to a contractual arrangement.

(I) A statement of the voting rights of the members and the circumstances under which participation of such a member may be terminated and under which the interindemnity arrangement may be terminated.

(J) If any statement of estimated or projected financial information for the interindemnity arrangement is used, a statement of such estimation or projection and a summary of the data and assumptions upon which it is based.

(4) A list with the names and addresses of all then current participating members of the interindemnity arrangement.

(d) No person shall receive, or be entitled to receive, any payment, bonus, salary, income, compensation or other benefit whatsoever, either from the reserve trust fund or the income therefrom or from any other funds of the interindemnity arrangement or the members thereof based on the number of participating members, or the amount of the reserve trust fund or other funds of the interindemnity arrangement.

(e) A peer review committee or committees shall be established by the trust agreement to review the qualifications of any physician

and surgeon to participate or continue to participate in such interindemnity arrangement, and to review the quality of medical services rendered by any participating member, as well as the validity of medical malpractice claims made against participating members. Any physician and surgeon, prior to becoming a participating member of such interindemnity arrangement, shall be reviewed and approved by a majority of the members of such peer review committee. No peer review committee, or any of its members, shall be liable for any action taken by such committee in reviewing the qualifications of a physician and surgeon to participate or continue to participate, or the quality of medical services rendered, or the validity of a medical malpractice claim, unless it is alleged and proved that such action was taken with actual malice.

(f) The following are hereby defined as unfair methods of competition and deceptive acts or practices with respect to cooperative corporations or interindemnity arrangements provided for in this section.

(1) Making any false or misleading statement as to, or issuing, circulating, or causing to be made, issued or circulated, any estimate, illustration, circular, or statement misrepresenting the terms of any interindemnity arrangement or the benefits or advantages promised thereby, or making any misleading representation or any misrepresentation as to the financial condition of such interindemnity arrangement, or making any misrepresentation to any participating member for the purpose of inducing or tending to induce such member to lapse, forfeit, or surrender his or her rights to indemnification under such interindemnity arrangement. (5) Making any false entry in any book, report, or statement of such a cooperative corporation or interindemnity arrangement with intent to deceive any agent or examiner lawfully appointed to examine into its condition or into any of its affairs, or any public official to whom such a cooperative corporation or interindemnity arrangement is required by law to report, or who has authority by law to examine into its condition or into any of its affairs, or, with like intent, willfully omitting to make a true entry of any material fact pertaining to such a cooperative corporation or interindemnity arrangement in any book, report, or statement of such a cooperative corporation or interindemnity arrangement.

(6) Making or disseminating, or causing to be made or disseminated, before the public in this state, in any newspaper or other publication, or any other advertising device, or by public outcry or proclamation, or in any other manner or means whatever, whether directly or by implication, any statement that such a cooperative corporation or interindemnity arrangement is a member of the California Insurance Guarantee Association, or insured against insolvency as defined in Section 119.5. (G) Attempting to settle a claim by a participating member for less than the amount to which a reasonable person would have believed he or she was entitled by reference to written or printed advertising material accompanying or made part of an application for membership in such an interindemnity arrangement.

(K) Delaying the investigation or payment of claims by requiring a claimant, or his or her physician, to submit a preliminary claim report, and then requiring the subsequent submission of formal proof of loss forms, both of which submissions contain substantially the same information.

(L) Failing to settle claims promptly, where liability has become apparent, under one portion of an interindemnity arrangement in order to influence settlements under other portions of the interindemnity arrangement.

SECTION 1. Section 1005.1 of the Water Code is amended to read:

1005.1. Cessation of or reduction in the extraction of ground water by the owner of a right to extract, as the result of the use of an alternate supply of water from a nontributary source, shall be and is deemed equivalent to, and for purposes of establishing and maintaining any right to extract the ground water shall be construed to constitute, a reasonable beneficial use of the ground water to the extent and in the amount that water from the alternate source is applied to reasonable beneficial use, not exceeding, however, the amount of such reduction. Any such user of water from an alternate nontributary source who seeks the benefit of this Section 1005.1, shall file with the board, on or before December 31st of each calendar year, a statement of the amount of water from said source so applied to reasonable beneficial use pursuant to the provisions of this section during the next preceding water year (November 1st to October 31st), and such user cannot claim the benefit of this section for any water year for which such statement is not so filed.

"Ground water" for the purpose of this section and of Sections

1005.2 and 1005.4 means water beneath the surface of the ground, whether or not flowing through known and definite channels.

The provisions of this section apply only as to the cessation of, or reduction in, the extraction of ground water within that area in this state defined by the exterior boundaries of the Counties of San Luis Obispo, Santa Barbara, Ventura, Los Angeles, Orange, San Diego, Imperial, Riverside, San Bernardino, and Kern.

The term "nontributary source" as used in this section shall be deemed to include water imported from another watershed, or water conserved and saved in the watershed by a water conservation plan or works without which such water of the same watershed would have wasted, or would not have reached the underground source of supply of the owner relying upon this section.

SEC. 2. Section 1005.4 is added to the Water Code, to read:

1005.4. Cessation of or reduction in the extraction of ground water, to permit the replenishment of such ground water by the use of water from an alternate nontributary source, is hereby declared to be a reasonable beneficial use of the ground water to the extent and in the amount that water from such alternate source is applied to beneficial use, not exceeding, however, the amount of such reduction. No lapse, reduction or loss of any right in ground water shall occur under such conditions. Any such user of water from an alternate source who seeks the benefit of this section with respect to the use of such water occurring prior to January 1, 1977, shall file with the board, on or before April 1, 1977, a statement of the amounts of reduction in the extraction of ground water as the result of water from such alternate source having been so applied to reasonable beneficial use prior to January 1, 1977, to permit the replenishment of such ground water and such amounts shall be segregated and shown for each water year (November 1st to October 31st) during which such use occurred prior to January 1, 1977. Any such user of water from an alternate source who seeks the benefit of this section with respect to the use of such water occurring subsequent to January 1, 1977, shall file with the board, on or before December 31st of each calendar year, a statement of the amount of reduction in the extraction of ground water as the result of water from such alternate source having been so applied to reasonable beneficial use during the next preceding water year (November 1st to October 31st) to permit the replenishment of such ground water. Such user cannot claim the benefit of this section for any water year for which such statement is not so filed.

The provisions of this section apply only as to the cessation of, or reduction in, the extraction of ground water within that area in this state defined by the exterior boundaries of the County of Kern.

The term "nontributary source," as used in this section, shall be deemed to include water imported from another watershed or water conserved and saved in the watershed by a water conservation plan or works without which such water of the same watershed would have wasted, or would not have reached the underground source of

supply of the owner relying upon this section.

SEC. 3. Section 58 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 58. The board of directors shall act only by ordinance, resolution, or motion. On all ordinances the roll shall be called and the ayes and noes recorded in the journal of the proceedings of the board of directors. Resolutions and orders may be adopted by voice vote, but on demand of any member the roll shall be called. No ordinance, motion, or resolution shall be passed or become effective without the affirmative vote of a majority of the members of the board. The enacting clause of all ordinances passed by the board shall be: "Be it ordained by the Board of Directors of the Antelope Valley-East Kern Water Agency as follows:". Each director shall receive compensation in an amount not to exceed twenty dollars ($20) per day for each day's attendance at meetings of the board or for each day's service rendered as a director by request of the board, not exceeding a total of six days in any calendar month, together with any expenses incurred in the performance of his duties required or authorized by the board. Any vacancy in the board of directors shall be filled pursuant to the provisions of Section 1780 of the Government Code, provided, however, that the person so chosen shall be a resident of and otherwise qualified to be a director from the division in which the vacancy shall occur and shall hold office pursuant to the provisions of Section 1780 of the Government Code.

Any such contract with the United States of America or any department or agency thereof, or with any private corporation organized under the laws of the United States of America, by which the Antelope Valley-East Kern Water Agency incurs an indebtedness or liability exceeding in any year the income and revenue for such year shall not be executed without the assent of two-thirds of the qualified electors of the agency voting at a special election to be held for that purpose, such election to be called and held, so far as practicable, in the same manner as bond elections for the agency.

The board may, from time to time, fix and establish the manner of calling for bids and letting contracts, but except as such procedure so established by the board otherwise requires, all contracts may be entered into upon such terms and in such manner as the board may authorize.

(8) To fix the rates at which water should be sold, and to establish different rates for different classes or conditions of service; provided, that rates shall be uniform for like classes or conditions of service throughout the agency, but any special water rate fixed in accordance with terms and conditions of annexation fixed by the board under the provisions of Section 82 or 83 hereof, shall be

The board shall have the power, by resolution or ordinance to adopt regulations respecting the exercise of its powers and the carrying out of its purposes, and to fix and collect rates and charges for the providing or the availability of any service it is authorized to provide or make available for the sale, lease or other disposition of water or other product of its works or operations, including standby charges and connection charges. A violation of a regulation of the agency adopted by ordinance is a misdemeanor punishable by fine not to exceed one hundred dollars ($100), imprisonment not to exceed one month, or both.

SEC. 4.5. Section 67 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 67. The president and secretary in addition to the respective duties imposed on them by law shall perform such duties as may be imposed on them by the board of directors. SEC. 5. Section 76 is added to the Antelope Valley-East Kern

Water Agency Law (Chapter 2146 of the Statutes of 1959), to read:

Sec. 76. The agency, by ordinance, may fix, on or before the first day of July in any calendar year, a water standby or availability charge within the agency or in any improvement district thereof to which water is made available by the agency through underground or by surface facilities, whether the water is actually used or not. The standby charge shall not exceed ten dollars ($10) per acre per year for each acre of land within the agency or any improvement district thereof or ten dollars ($10) per year for any parcel of less than one acre. The ordinance fixing a standby charge shall be adopted by the board only after adoption of a resolution setting forth the particular schedule or schedules of charges proposed to be established by ordinance and after notice and hearing in the manner prescribed in the District Reorganization Act of 1965 (commencing with Section 56000 of the Government Code). The ordinance fixing a standby charge may establish schedules varying the charges according to land uses, water uses, and degree of water availability. On or before the third Monday in August, the board shall furnish in writing to the board of supervisors and the county auditor of each affected county a description of each parcel of land within the agency upon which a standby charge is to be levied and collected for the current fiscal year, together with the amount of standby charge fixed by the district on each parcel of land. The board shall direct that, at the time and in the manner required by law for the levying of taxes for county purposes, the board of supervisors shall levy, in addition to any other tax it levies, a standby charge in the amounts for the respective parcels fixed by the board. All county officers charged with the duty of collecting taxes shall collect agency standby charges with the regular tax payments to the county. Such charges shall be collected in the same form and manner as county taxes are collected and shall be paid to the agency. Charges fixed by the agency shall constitute a lien on the property benefited thereby as of the same time and in the same manner as does the tax lien securing such annual taxes. All laws applicable to the levy, collection and enforcement of municipal ad valorem taxes shall be applicable to such assessment, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attached thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the delinquent and unpaid charges relating to such property shall be transferred to the unsecured roll for collection.

SEC. 6. Section 79 of the Antelope Valley-East Kern Water Agency Law (Chapter 2146 of the Statutes of 1959) is amended to read:

Sec. 79. The board of directors shall determine the amounts necessary to be raised by taxation during the fiscal year and shall fix the rate or rates of tax to be levied which will raise the amounts of

money required by the agency, and on or before the third Monday in August, the board of directors shall certify to the board of supervisors and to the county auditor the rate or rates so fixed and shall furnish a statement of any delinquent and unpaid charges for water and other services, or either, requested in writing by the owner of the property that remain delinquent and unpaid for 60 days or more on July 1st. The county auditor shall compute and enter in the county assessment roll the respective sums to be paid as an agency tax on the property in the agency, using the rate or rates of levy as fixed by the board and the assessed value as found on the assessment roll for the property subject to the particular tax. The amount of any charges for water and other services included in the statement of delinquent and unpaid charges shall be added to and become a part of the annual taxes next levied upon the property upon which the water for which the charges are unpaid was used and upon the property subject to the charges for any other agency services. The amount of unpaid charges shall constitute a lien on that property as of the same time and in the same manner as does the tax lien securing such annual taxes. All laws applicable to the levy, collection and enforcement of municipal ad valorem taxes shall be applicable to such charges, except that if any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, then the lien which would otherwise be imposed by this section shall not attach to such real property and the charges relating to such property shall be transferred to the unsecured roll for collection. The county shall deduct from the charges collected an amount sufficient to compensate the county for costs incurred in collecting such delinquent and unpaid charges. The amount of such compensation shall be fixed by agreement between the board of supervisors and the district's board of directors. A district shall notify the holder of title to land whenever delinquent and unpaid charges for water and other services or either which could become a lien on such property pursuant to this section remain delinquent and unpaid for 60 days. This procedure may be used to collect delinquent and unpaid water charges from corporations, including mutual water companies, as well as individuals.

Notwithstanding any other provision of this act taxes for the general administrative purposes of the agency should be levied on all property within the agency or portion thereof subject to the particular tax and the aggregate tax levied for such administrative purposes shall for the fiscal year not exceed ten cents ($0.10) on each one hundred dollars ($100) of assessed valuation on the taxable property in the agency or such portion thereof. This shall be exclusive of any tax levied to meet the payment of interest or principal on any bonded indebtedness of the agency or any indebtedness arising out of any contractual obligations with the

federal, state, county or city governments or political subdivision thereof including this agency. And it shall be the duty of all county officers charged with the duty of collecting taxes to collect such tax in time, form, and manner as county taxes are collected, and when collected to pay the same to the agency. Taxes for the payment of a bonded debt and the interest thereon shall be a lien on all the property benefited thereby as stated in the resolution of the board of directors declaring the necessity to incur the debt. All taxes for other purposes of the agency shall be a lien on all the property in the agency subject to the respective tax. Agency taxes, whether for payment of a bonded indebtedness and the interest thereon or for other purposes, shall be of the same force and effect as other liens for taxes, and their collection may be enforced by the same means as provided for the enforcement of liens for state and county taxes.

SEC. 7. It is the intent of the Legislature, if this bill and Senate Bill No. 1927 are both chaptered and become effective January 1, 1977, both bills amend Section 1005.1 of, and add Section 1005.4 to, the Water Code, and this bill is chaptered after Senate Bill No. 1927, that Section 1005.1 of the Water Code as amended by Section 1 of Senate Bill No. 1927 and Section 1005.4 of the Water Code as added by Section 2 of Senate Bill No. 1927 shall prevail over Section 1005.1 of the Water Code as amended by this act and Section 1005.4 of the Water Code as added by this act. Therefore, Sections 1 and 2 of this act shall not become operative if this bill and Senate Bill No. 1927 are both chaptered and become effective January 1, 1977, both bills amend Section 1005.1 of, and add Section 1005.4 to, the Water Code, and this bill is chaptered after Senate Bill No. 1927.

SEC. 8. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desire legislative authority to act to carry out the program specified in this act.

37871. For the purpose of carrying on the business of the council, the agreement executed pursuant to Section 37860 shall require contributions from each member city or county. The contributions may include funds collected by a surcharge not to exceed one-tenth of 1 percent of the estimated cost of building construction and improvements collected by each member city or county upon issuance of building permits. Any city or county may impose the surcharge upon the building permits it issues, may make equivalent payments from other sources instead of collecting the surcharge, or may make payments from a combination of funds from a surcharge and funds from other sources.

SEC. 6. Section 37872 of the Health and Safety Code is amended to read:

37872. Up to one-half of the revenues of the area housing council collected pursuant to Section 37871 prior to adoption of the area housing plan by two or more member cities and counties may be used in developing the area housing plan. Upon the adoption of the area housing plan as the housing element of the general plan of a city or county, not less than one-half of the cumulative contribution of moneys collected by the council to date from the adopting city or county, pursuant to Section 37871, shall be returned by the council to the city or county, and may be used only for the purpose of implementing the area housing plan and housing element of the general plan of the city or county.

SEC. 7. Section 37873 of the Health and Safety Code is amended to read:

37873. (a) Up to one-half of the revenues of the council collected pursuant to Section 37871 subsequent to adoption of the area housing plan by two or more member cities and counties may be used in preparation of area housing plan amendments for submission to member cities and counties, review of amendments proposed by cities and counties, review of housing development proposals to determine consistency with the area housing plan, and implementation of the area housing plan. The council may employ staff specified in Section 37870 for such purpose.

(b) At the end of each calendar year during which a member city or county, in the opinion of a majority of the council, has made reasonable progress toward implementation of the area housing plan, the council shall return to such city or county not less than

one-half of its yearly contribution of moneys collected from such city or county during the year pursuant to Section 37871. Such money may be used only for the purpose specified in Section 37872. Any revenues collected pursuant to Section 37871 retained by the area housing council either through failure of member cities and counties to adopt the area housing plan within one year of its adoption by two or more member cities and counties, or through withholding of approval of implementation progress, may be used for the purposes specified in subdivision (a) of this section.

SEC. 8. Section 37874 is added to the Health and Safety Code, to read:

37874. In implementation of an area housing plan, a council may also provide homeowner counseling, and may also develop programs for rehabilitation and improvement of residential dwellings, as authorized by the area housing plan; but only after the affected city or county has approved the area housing plan. The council may seek additional private or governmental funds, and may join with member cities and counties or with the state in applying for such funds.

SEC. 9. Section 37875 is added to the Health and Safety Code, to read:

37875. Any member city or county may withdraw from a council at any time, and when there are no longer two member cities or counties the council shall be dissolved. No reimbursements are to be made to withdrawing members, and revenues pursuant to Section 37871 shall continue to be collected and paid to the end of the calendar year of withdrawal, except in case of dissolution. In case of dissolution, collections pursuant to Section 37871 shall immediately cease, and reimbursements shall be made in proportion to former contributions of the member cities and counties participating in the dissolution.

CHAPTER 1465

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

SECTION 1. The cost of medical malpractice insurance threatens to jeopardize the availability of quality health care to the public, and the Legislature finds that it is a valid public purpose in allowing hospital districts to spend public funds for the purposes of this act.

SEC. 2. Section 990 of the Government Code is amended to read:

990. Except for a liability which may be insured against pursuant to Division 4 (commencing with Section 3200) of the Labor Code, a local public entity may:

(a) Insure itself against all or any part of any tort or inverse condemnation liability and a hospital district may coinsure with its medical staff.

(b) Insure any employee of the local public entity against all or any part of his liability for injury resulting from an act or omission in the scope of his employment.

(c) Insure, contract or provide against the expense of defending a claim against the local public entity or its employee, whether or not liability exists on such claim, including a claim for damages under Section 3294 of the Civil Code or otherwise for the sake of example or by way of punishment, where such liability arose from an act or omission in the scope of his employment, and an insurance contract for such purpose is valid and binding notwithstanding Section 1668 of the Civil Code, Section 533 of the Insurance Code, or any other provision of law.

Nothing in this section shall be construed to authorize a local public entity to pay for, or to insure, contract, or provide for payment for, such part of a claim or judgment against an employee of the local entity as is for punitive or exemplary damages.

SEC. 2.5. Section 990 of the Government Code is amended to read:

990. (a) Except for a liability which may be insured against pursuant to Division 4 (commencing with Section 3200) of the Labor Code, a local public entity may:

(1) Insure itself against all or any part of any tort or inverse condemnation liability, and a hospital district may coinsure with its medical staff.

(2) Insure any employee of the local public entity against all or any part of his liability for injury resulting from an act or omission in the scope of his employment.

(b) Except for a liability which may be insured against pursuant to Division 4 (commencing with Section 3200) of the Labor Code, the state and a local public entity shall insure, contract or provide against the expense of defending a claim against the state or local public entity or its employee, whether or not liability exists on such claim, including a claim for damages under Section 3294 of the Civil Code or otherwise for the sake of example or by way of punishment, where such liability arose from an act or omission in the scope of his employment, and an insurance contract for such purpose is valid and binding notwithstanding Section 1668 of the Civil Code, Section 533 of the Insurance Code, or any other provision of law.

(c) Nothing in this section shall be construed to authorize a local public entity to pay for, or to insure, contract, or provide for payment for, such part of a claim or judgment against an employee of the local

entity as is for punitive or exemplary damages, except as provided in Section 990.1.

SEC. 3. Section 990.4 of the Government Code is amended to read:

990.4. The insurance authorized by this part may be provided by:

(a) Self-insurance, which may be, but is not required to be, funded by appropriations to establish or maintain reserves for self-insurance purposes and a hospital district may coinsure with the members of its attending medical staff.

(b) Insurance in any insurer authorized to transact such insurance in this state.

(c) Insurance secured in accordance with Chapter 6 (commencing with Section 1760) of Part 2 of Division 1 of the Insurance Code.

(d) Any combination of insurance authorized by subdivisions (a), (b) and (c).

SEC. 4. Section 32121 of the Health and Safety Code is amended to read:

32121. Each local hospital district shall have and exercise the following powers:

(a) To have and use a corporate seal and alter it at pleasure.

(b) To sue and be sued in all courts and places and in all actions and proceedings whatever.

(c) To purchase, receive, have, take, hold, lease, use and enjoy property of every kind and description within the limits of the district, and to control, dispose of, convey and encumber the same and create a leasehold interest in same for the benefit of the district.

(d) To exercise the right of eminent domain for the purpose of acquiring real or personal property of every kind necessary to the exercise of any of the powers of the district.

(e) To administer any trust declared or created for hospitals of the district, and received by gift, devise, or bequest and hold in trust or otherwise, property situated in this state or elsewhere, and where not otherwise provided, dispose of the same for the benefit of such hospitals.

(f) To employ legal counsel to advise the board of directors in all matters pertaining to the business of the district, and to perform such functions in respect to the legal affairs of the district as the board may direct; and to call upon the district attorney of the county in which the greater part of the land in the district is situated for legal advice and assistance in all matters concerning the district, except that if that county has a county counsel, the directors may call upon the county counsel for such legal advice and assistance.

(g) To employ such officers and employees, including architects and consultants, as the board of directors deems necessary to carry on properly the business of the district.

(h) To prescribe the duties and powers of the hospital administrator, secretary and other officers and employees of any such hospitals; to determine the number of and appoint all such

officers and employees, and to fix their compensation, which officers and employees shall hold their offices or positions at the pleasure of the boards.

(i) To do any and all things which an individual might do which is necessary for and to the advantage of a hospital and a nurses' training school.

(j) To establish, maintain and operate one or more health facilities, situated within the territorial limits of the district.

(k) To do any and all other acts and things necessary to carry out the provisions of this division.

(*l*) To acquire, maintain, and operate ambulances or ambulance services within and without the district.

(m) To establish, maintain, and operate, or provide assistance in the operation of, free clinics, diagnostic and testing centers, health education programs and such other health care provider groups and organizations as are necessary for the maintenance of good physical and mental health in the communities served by the district.

(n) To establish and operate in cooperation with its medical staff a coinsurance plan between the hospital district and the members of its attending medical staff.

SEC. 5. Section 32300 of the Health and Safety Code is amended to read:

32300. Bonds may be issued by a district for the purpose of acquiring, maintaining, constructing, or altering work, or for the purpose of funding the district's portion of the funding of a coinsurance plan between a hospital and the member of its attending medical staff, when, in either case, in the opinion of the directors, a special assessment would be inadvisable, and the expenses of such operations will be in excess of an amount which can reasonably be raised by the regular annual assessment for the running expenses of the district.

SEC. 6. Section 1284 is added to the Insurance Code, to read:

1284. Notwithstanding any other provision of this chapter or of this code, any reciprocal or interinsurance exchange which meets all of the conditions of this section shall be exempted from all reserve requirements of this code to which it would otherwise be subject:

(a) The subscribers are comprised solely of a local hospital district formed pursuant to Division 23 (commencing with Section 32000) of the Health and Safety Code and its attending medical staff, or any hospital (as defined in Section 1250 of the Health and Safety Code) and its attending medical staff. As used in this section, "attending medical staff" refers to licensed physicians and surgeons, podiatrists, and dentists who have hospital privileges at any hospital operated by the district, and not to interns or residents who are employees of such hospital or the district.

(b) The physicians and surgeons on the attending medical staff are independent contractors, whether individually, through professional corporations, or through partnership or clinic arrangements, and the creation of the reciprocal or interinsurance

exchange will not affect the prerogatives of such physicians and surgeons in accepting patients, charging fees, or similar issues in the management of a medical practice. This subdivision shall not be construed to limit the authority of a peer review committee to impose such restrictions on the staff privileges of a participating member of the attending medical staff as deemed warranted by the peer review procedure and medical audit methods provided by subdivision (h).

(c) The initial capitalization for the proposed reciprocal or interinsurance exchange specified in subdivisions (d), (e), and (f) shall be equivalent to the total professional liability losses paid by the hospital and its participating medical staff members during the immediately preceding 10 years. "Total personal liability losses" shall include all losses paid by the participating medical staff members, whether based on their practice in the hospital or outside the hospital. Such combined total shall be funded by equal contributions from the hospital and, collectively, the individual participating members of its attending medical staff. Such funds shall be used to pay for the losses incurred for awards, settlements, and legal fees relating to alleged acts of medical malpractice committed by the hospital or any or all of its participating medical staff members, whether committed in or out of the hospital, and for the operational costs of the reciprocal or interinsurance exchange. In the case of a hospital which has been in existence for less than 10 years, or which has substantially expanded its facilities over the preceding 10 years, or which has paid for no professional liability losses during the preceding 10 years, the commissioner may establish such capitalization requirements as he deems necessary and proper as compared to the amounts specified in subdivisions (d), (e), and (f).

(d) The primary self-retention medical liability risk amount for claims of one hundred thousand dollars ($100,000) or less for both the hospital and attending medical staff would be paid into an interest-bearing bank account.

(e) A catastrophic self-retention amount for claims in excess of one hundred thousand dollars ($100,000) but less than one million dollars ($1,000,000) for the hospital and attending medical staff would be deposited as cash or secured by letters of credit or certificates of deposit from banks or savings and loan associations, or by promissory notes from the hospital and individual or panel attending medical staff members.

(f) Excess catastrophic liability amounts for claims of one million dollars ($1,000,000) or more would either (1) be deposited as cash or secured by letters of credit or certificates of deposit from banks or savings and loan associations, or by promissory notes from the hospital and the individual or panel attending medical staff, or (2) be obtained through bank loans with the hospital and medical staff being fully assessable for the repayment of such loans.

(g) The reciprocal or interinsurance exchange would seek to obtain from a licensed insurer excess risk coverage for amounts

above the self-retention limit of subdivisions (c), (d), (e), and (f). The hospital and the individual members of the attending medical staff would have unlimited liability to contribute to any liability not covered by such excess risk coverage insurance.

(h) The amounts specified in subdivisions (d), (e), and (f) shall be available in the aggregate to meet the malpractice liabilities of the hospital and the participating members of the medical staff, and shall be replenished annually, on each July 1, to an amount equivalent to that specified in subdivision (c) for initial capitalization.

(i) Any member of the attending medical staff participating in the program shall, as a condition of such participation, be subject to an extensive peer review procedure and a medical audit method of documenting the quality of medical care.

SEC. 7. Section 1310.1 is added to the Insurance Code, to read:

1310.1. The board of a reciprocal or interinsurance exchange operating pursuant to Section 1284 shall be composed of members of the governing board of the hospital, the participating members of its attending medical staff, and health care consumers.

SEC. 8. It is the intent of the Legislature, if this bill and Assembly Bill 1059 are both chaptered and become effective January 1, 1977, both bills amend Section 990 of the Government Code, and this bill is chaptered after Assembly Bill No. 1059, that Section 990 of the Government Code, as amended by Section 2 of this act shall remain operative only until the operative date of Assembly Bill No. 1059, and that on the operative date of Assembly Bill No. 1059, Section 990 of the Government Code as amended by Section 2 of this act be further amended in the form set forth in Section 2.5 of this act to incorporate the changes in Section 990 proposed by Assembly Bill No. 1059. Therefore, Section 2.5 of this act shall become operative only if this bill and Assembly Bill No. 1059 are both chaptered and become effective January 1, 1977, both bills amend Section 990, and this bill is chaptered after Assembly Bill No. 1059, in which case Section 2.5 of this act shall become operative on the operative date of Assembly Bill No. 1059.

SEC. 9. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

[Became law without Governor's signature October 1, 1976. Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 16690.2 of the Education Code is amended to read:

16690.2. The Superintendent of Public Instruction shall establish a fee schedule for families utilizing child development services pursuant to this division.

SEC. 1.5. Section 16702 of the Education Code is amended to read:

16702. It is the intent of the Legislature that in providing child development programs the Superintendent of Public Instruction will give priority to children of families who qualify under applicable federal statutes or regulations as recipients of public assistance and other low-income and disadvantaged families. Federal reimbursement shall be claimed for any child receiving services under this division for whom federal funds are available.

It is further the intent of the Legislature to maximize the Department of Education's capacity to stimulate and coordinate resources, provide technical assistance, monitor program implementation, generate maximum federal reimbursement wherever possible for the federally eligible children, and to provide alternative funding from state and local agencies for those children for whom federal reimbursement may not be available.

SEC. 2. Section 16709 of the Education Code is amended to read:

16709. Child development facility means any facility providing child care services or preschool programs pursuant to this division for less than 24 hours a day consistent with Section 16722 pursuant to this division.

(f) Part-day preschool educational programs for prekindergarten age children which include, but are not limited to, comprehensive services such as educational development, health services, social services, nutritional services, parent education and parent participation, and staff development, designated as the State Preschool Program. (j) A nutritionally adequate breakfast or a nutritionally adequate lunch, or both.

For purposes of this article, a nutritionally adequate breakfast or lunch is a breakfast or lunch which meets one-third of the daily dietary allowance as established by the National Research Council. Where both breakfast and lunch are provided, they shall, together, provide one-half to two-thirds of this recommended daily dietary allowance.

(k) Night shift or late-hour supervision and developmental activities for children 14 years of age or younger in a program approved pursuant to this division.

SEC. 4. Section 16711 of the Education Code is amended to read:

the purpose of the cancellation provisions of the Loans to Students in Institutions of Higher Learning.

SEC. 5. Section 16720 of the Education Code is amended to read:

16720. The Department of Education shall develop and promote a full range of services as are essential to the creation of a child development program which will meet a wide variety of child needs. The range of services shall include as a minimum, all of the services listed in Section 16710.

Priority shall be given by the Department of Education to the employment of persons in child development programs with ethnic backgrounds which are similar to those of the child for whom child development services are provided.

SEC. 6. Section 16721 of the Education Code is amended to read:

16721. The Department of Education shall assist the State Departments of Employment Development, Benefit Payments, and Health by offering training and job opportunities in local child development programs to those persons who qualify under applicable federal statutes or regulations as recipients of public assistance or other low-income or disadvantaged persons.

16722.1. Commencing November 1, 1977, and on or before November 1 for each year thereafter, the Superintendent of Public Instruction shall submit to the Joint Budget Committee of the Legislature a report documenting the performance of child development programs operating pursuant to this division during the preceding fiscal year. Each annual report shall include, but is not limited to, the following information:

(a) Statistical data enumerating and describing children and families served by the programs, including distributions of families and children by income levels, by ethnic groupings, by children's ages, by marital status of parents, by reasons for receiving child care service (i.e., employment, training, education, protection), by public assistance status, and by family size.

(b) Statistical data enumerating and describing the characteristics of programs, including the types of programs in terms of size and type of facilities utilized, types of agencies operating programs as defined by Section 16712, and the staff-child ratios and the staff composition for each type of program and for each type of operating agency.

(c) Cost data describing the total costs and the average cost per hour of service for each type of program (as defined for purposes of subdivision (b)) and for each type of operating agency as defined by Section 16712.

(d) Evaluative data describing the quality of child development programs in accordance with measurement criteria as established by the Superintendent of Public Instruction.

Each annual child development report shall be in two parts: one part shall relate to subsidized child care services and one part shall relate to services under the State Preschool Program.

SEC. 10 Section 16728 of the Education Code is amended to read:

16728. The Superintendent of Public Instruction shall adopt rules and regulations which shall include standards for determining eligibility and priority of service.

Priority for service shall be established on the basis of family marital status and income, with higher priority being assigned children of single-parent families and families with the lowest incomes. Exceptions to these priority criteria shall be granted to any eligible child whose unique circumstances create a pressing need for child development services. The information necessary to establish eligibility of a child for federal reimbursement shall be completed as a part of intake procedures used in accepting a child for care or service.

The regulations formulated and promulgated pursuant to this section shall include the recommendations of the Department of Health relative to health care screening and the provision of health care services. The Superintendent of Public Instruction shall seek the advice and assistance of these health authorities in situations where service under this chapter includes or requires care of ill or handicapped children.

This section shall become operative on the same date as Reorganization Plan No. 1 of 1970 becomes operative.

SEC. 11. Section 16729 of the Education Code is amended to read:

16729. The Superintendent of Public Instruction shall establish a fee schedule for families utilizing child development services pursuant to this division. 16730. Notwithstanding any provision of law to the contrary, the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, and the governing bodies of any private nonprofit institution of postsecondary education may establish and maintain child development centers on or near their respective campuses.

The Department of Education may accept funds from the Regents of the University of California, the Trustees of the California State University and Colleges, the governing boards of community college districts, and any other private nonprofit postsecondary institutions, student fees, parent fees, any public funds, not otherwise prohibited by law, and any private funds or resources authorized by a public or private nonprofit agency as the 25-percent local share to obtain the 75-percent state matching funds. The governing board of any postsecondary education institution shall establish in its treasury a fund to be known as the "child development fund" into which shall be paid all funds received by the postsecondary institution for, or from the operation of, child development services under this division. The costs incurred in the maintenance and operation of child development services shall be paid as required pursuant to Section 16749.

The Superintendent of Public Instruction shall adopt rules and regulations to facilitate the funding and reimbursement procedures required by this division.

The Superintendent of Public Instruction, with approval by the State Board of Education, shall establish rules and regulations governing programs operated pursuant to this section which shall insure that subsidized day care provided to student families shall relate to the academic load of the child's parents. The definition of full- and part-time student shall be determined as the segment of postsecondary education defines full- and part-time student for academic purposes.

SEC. 12. Section 16730.1 of the Education Code is amended to read:

16730.1. A student family, for the purposes of this division, shall be defined as a family with a parent enrolled in an approved academic or vocational program, including one engaged in an educational work-in-training program, leading to a degree which will either further that person's educational or employment potential, or both.

A low-income student family, for purposes of this division, shall be defined as a family whose gross monthly income is less than, or falls within, the fee schedule established pursuant to Section 16729.

SEC. 13. Section 16732 of the Education Code is amended to read:

16732. The Superintendent of Public Instruction shall establish reasonable standards and maximum reimbursement rates for the delivery of specific types of child development services pursuant to Section 16710 and consistent with Section 16722. Maximum reimbursement rates shall be the equivalent of one dollar and twenty-one cents ($1.21) per child-hour for participants above the age of 2 and the equivalent of one dollar and forty-four cents ($1.44) per child-hour for participants age 2 or below, or actual program costs, whichever is less. In computing state reimbursements, parent fees shall be deducted from the maximum reimbursement rate or actual cost, whichever is less. For each fiscal year, reimbursement rates shall be prescribed by the Legislature in the Budget Act; however, the State Preschool Program and the Migrant Child Care Program shall not be covered by such reimbursement rates.

If the migrant child care programs operated pursuant to this division utilize reimbursement procedures other than payment per child-hour, which shall be permissible, the cost per child, when converted to child-hours, shall not exceed the applicable contract reimbursement level.

The Superintendent of Public Instruction may establish such regulations as he deems advisable concerning conditions of service and hours of enrollment for children in the programs.

SEC. 14. Section 16733 of the Education Code is amended to read:

16733. No standard, rule or regulation shall require medical examination or immunization for admission to a child development program of a child whose parent or guardian files a letter with the governing board of the child development program stating that such medical examination or immunization is contrary to his or her religious beliefs, or provide for the exclusion of a child from the program because of parent or guardian having filed such a letter; provided, however, that whenever there is good cause to believe that a child is suffering from a recognized contagious or infectious disease, the child may be temporarily excluded from the program until the governing board of the school district is satisfied that any contagious or infectious disease does not exist.

SEC. 15. Section 16738 of the Education Code is amended to read:

16738. The Legislature declares the need for a pilot study to develop and test a coordinated child care delivery system which shall provide the parent a choice in selecting quality child care at costs responsive to the parent's willingness and ability to pay.

The objectives of the pilot study shall include but not be limited to the following objectives:

(a) To measure the effectiveness and efficiency of a delivery system which permits the eligible parent to select and purchase child care services based on a fee schedule requiring the parent to pay a

proportionate share of the child care costs; to determine the existing types of care and range of services; to measure changes in the use of these services and development of alternate types of care as determined by parent choice; to stimulate a variety of alternate child care resources; to describe the demographic characteristics of the population seeking these services and their incidence by type of service selected; to assess the costs of delivering these services.

(b) To determine the applicability of the fee schedule described in Section 16729; to define the income level at which the fee schedule no longer applies as measured by its limited utility in aiding low-income families to obtain or maintain employment; to define appropriate eligibility criteria and priorities for services; and to define appropriate standards for cost and quality of types of care and services.

(c) To develop and evaluate appropriate eligibility and certification procedures and parent fee payment procedures; to identify informational needs and accountability requirements of the child care delivery system; to develop and evaluate appropriate monitoring and accountability mechanisms required by the system.

Each person employed by the governing board of public or private agency as defined within Section 16712 for a position requiring a permit shall, not later than 95 days after the date fixed by the governing board of the agency for the commencement of his service, file with the county superintendent of schools a valid permit issued on or before such date, authorizing him to serve in the position for which he was employed, and must, not later than 95 days after the renewal thereof, file the renewed permit in the same manner.

Such persons employed on the effective date of Chapter 1717 of the Statutes of 1965 and who have been employed for three consecutive years prior to the effective date of this legislation shall be deemed to have met the requirements for a regular permit and shall not be subject to the requirements of a provisional permit.

SEC. 33. Section 16766 of the Education Code is amended to read:

16766. Each person employed by a public or private agency as defined in Section 16712 in a position requiring a child development permit for the supervision and instruction of children, or for service as a physician, dentist, or nurse, or in the supervision of the child development program, shall be deemed to be employed in a position requiring certification qualifications.

Each other person employed by an agency in a child development program under the provisions of this division shall be deemed for all purposes, including retirement, to be a person employed by the agency in a position not requiring certification qualifications.

The provisions of Section 13525 or Section 13526 of the Education Code, as enacted by the Legislature at its 1959 Regular Session, shall not apply to employees in child development programs.

A district may lay off an employee required to have such a permit at any time during the school year for lack of work or lack of funds or may provide for his employment for not to exceed 90 days in any one school year on an intermittent basis which shall not be deemed probationary service. The order of layoff shall be determined by length of service. The employee who has served the shortest time shall be laid off first, except that no permanent employee shall be laid off ahead of a probationary employee. A permanent employee who has been laid off shall hold reinstatement rights for a period of 39 months from the date of layoff.

Service performed prior to the effective date of Chapter 2 of the Statutes of 1959 shall not be included in computing the service required as a prerequisite for attainment of, or eligibility to, classification as a permanent child development employee.

A person who is employed by an agency as a probationary employee in a position requiring a child development permit for the supervision and instruction of children, or for service as a physician, dentist, or nurse, or in the supervision of the children's program and who has served in such a position for three complete consecutive school years as defined in Sections 13328 and 13464 of the Education Code, immediately prior to the effective date of Chapter 2 of the Statutes of 1959 may be dismissed only in accordance with the provisions of Section 13444.

Other persons who are employed as probationary employees in positions requiring such permits on or after the effective date of Chapter 2 of the Statutes of 1959 may be dismissed in accordance with the provisions of Section 13443.

SEC. 34. Section 16767 of the Education Code is amended to read:

16767. Any city, county, or city and county charter provision to the contrary notwithstanding, each person employed by an agency on July 1, 1955, and each person employed by an agency on September 11, 1957, who was theretofore excluded, solely by reason of the provisions of the predecessor of Section 16626 in effect prior

to July 1, 1955, or who was theretofore excluded solely by reason of the provisions of the predecessor of this section prior to September 11, 1957, from membership in any retirement system in which the agency participates or to which it contributes for the purpose of providing retirement rights and benefits for employees of the agency not employed in a status requisite for membership in the State Teachers' Retirement System, shall become a member of the retirement system from which he was excluded, on July 1, 1955, or on September 11, 1957, if theretofore excluded solely by reason of the provisions of the predecessor of this section in effect prior to that date. Every such member shall be entitled to credit for service in child development programs rendered prior to July 1, 1955, or prior to September 11, 1957, if therefore excluded, and before he became a member of the system, in the same manner as if he had not theretofore been excluded from membership in the retirement system, except that he shall not be required to make any contributions to the retirement system in respect to such service rendered prior to his membership, and all contributions necessary to provide benefits on account of such service shall be paid to the retirement system by the agency by which the member is employed. For the purpose of computing benefits for services rendered prior to July 1, 1955, as provided in this section, the average monthly salary earned by such employee in the fiscal year 1954–55 shall be used and for the purpose of computing benefits for service rendered between July 1, 1955, and September 11, 1957, for members receiving credit for service between those dates under the provisions of the predecessor of this section as amended by Chapter 1238 of the Statutes of 1957, the average monthly salary earned by such employees in the fiscal year 1956–57 shall be used.

Notwithstanding any other provisions of this section, for the purpose of computing benefits for any person retired on and after January 1, 1958, for services rendered prior to July 1, 1955, as provided in this section, and for the purpose of computing benefits for service rendered between July 1, 1955, and September 11, 1957, for members receiving credit for service between those dates under the provisions of this section, the "final compensation" of such person shall be computed in the same manner as for other employees who are included in the same retirement system and in the same class of retirement system members and who are not affected by this section. The amendment to this section enacted at the 1963 session shall be applied to increase the allowances, payable subsequent to October 1, 1963, in respect to those members who retired on or after July 1, 1955.

Notwithstanding any other provision of this section no increased allowance shall be paid, as authorized by this section, to any person who has retired between July 1, 1955, and October 1, 1963, unless the person to whom the increase would otherwise be payable mails written application for the increase to the appropriate retirement system prior to April 1, 1964.

16768. Any person who is employed in a child development program on October 1, 1965, and who was brought into membership in a retirement system on October 1, 1963, notwithstanding his prior election pursuant to Section 16767 or the predecessor of such Section 16767 as it read prior to October 1, 1963, not to be a member of such system, shall have the same rights under such system with respect to his service in child development programs as he would have had under Section 16767 or the predecessor of such section had he elected thereunder to be a member of such system.

16769. Every employee of a child development program who before his employment in such program was employed by the agency maintaining such program in a position entitling him to membership in, and who was a member of, the retirement system maintained by such district, and if such employee's contributions to such retirement system were returned to him when he was employed in the child development program, such employee shall have the right to elect, by written document filed with the Board of Administration, Public Employees' Retirement System, at any time within 90 days after the date upon which the notice of the right to make such election is mailed by such system, either to the member's latest address on file in the office of such system, or to the office of the governing board of such agency or agencies, and prior to the date of retirement, to contribute to such system, subject to minimum payments fixed by the Board of Administration, and in one or more sums, or in not to exceed 60 monthly payments, an amount which, when added to his accumulated contributions, including interest, transferred as required in paragraph (1) of subdivision (b) of Section 14696, will make a total amount equal to the accumulated contributions, including interest, which would have been credited to him in such plan, if he had never had his contributions returned to him. Such employee shall pay to the Public Employees' Retirement System interest on the unpaid balance of the amount payable to such system, beginning with the date of transfer, at the rate of interest currently used from time to time under the system. If such employee elects to make, and makes, such contributions and pays such interest, but not otherwise, he shall receive credit under such employees' system, as state service, for all prior service rendered while he was not a member of such plan.

SEC. 37. Section 16780 of the Education Code is repealed.

SEC. 38. Section 16783 of the Education Code is amended to read:

SEC. 39. Section 16794 of the Education Code is amended to read:

16794. To the extent funds are available, federal reimbursement shall be claimed for any child receiving services in the infant care and development program.

SEC. 40. This act is a urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to implement the technical revisions in the Education Code necessary for conformity with federal social service regulations it is necessary that this act take effect at the earliest possible date.

CHAPTER 1467

An act to add Section 216.2 to the Streets and Highways Code, relating to state highways.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 216.2 is added to the Streets and Highways Code, to read:

216.2. The department shall undertake a noise abatement program pursuant to Section 216 at the Santa Teresita Parish School near Route 10 in the City of Los Angeles, notwithstanding the fact that the school was constructed after the initial construction contract for Route 10 was let.

This section shall not be construed to affect the eligibility of any other school for a noise abatement program of the department.

SEC. 2. Under existing law, the Santa Teresita Parish School near State Highway Route 10 in Los Angeles does not qualify for the school noise abatement program of the Department of Transportation. The traffic volume on Route 10 has increased so substantially from the time the school was constructed in 1949 that the freeway noise level in the school now measures above 50 decibels on the "A" scale, thus interfering with the learning process in the school. Because of the unique problem facing the Santa Teresita Parish School with respect to the noise level generated by traffic on Route 10, it is hereby declared that a general law cannot be made applicable and that the

enactment of this act as a special law is necessary for the solution of that problem.

CHAPTER 1468

An act to add Section 216.3 to the Streets and Highways Code, relating to highways.

[Became law without Governor's signature October 1, 1976. Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 216.3 is added to the Streets and Highways Code, to read:

216.3. The department shall undertake a noise abatement program pursuant to Section 216 at the Soto Street School of the Los Angeles City Unified School District, notwithstanding the fact that the traffic noise level in the front portion of the school is produced by traffic on a city street.

SEC. 2. Under existing law, the front portion of the Soto Street School of the Los Angeles City Unified School District does not qualify for the school noise abatement program of the Department of Transportation. The traffic volume on Soto Street has increased so substantially from the time the school was constructed in 1934, primarily due to traffic entering nearby state freeways which were constructed after the school was built, that the noise level in the front portion of the school is nearly 80 decibels on the "A" scale. Because of the unique problem facing the Soto Street School, it is hereby declared that a general law cannot be made applicable and that the enactment of this act as a special law is necessary for the solution of that problem.

CHAPTER 1469

An act to amend Section 15503.5 of the Education Code, relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature October 1, 1976. Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

SECTION 1. Section 15503.5 of the Education Code is amended to read:

15503.5. "School building" as used in this article excludes any

building which is used exclusively for warehouse, storage, garage, or districtwide administrative office purposes, into which pupils are not required to enter, and off-campus buildings utilized by adult schools or community colleges for voluntary adult education courses or registered apprentice courses.

"School building" as used in this article excludes any building owned or occupied by a unified school district, high school district, or a county superintendent of schools which is used exclusively for adult education purposes.

If any building so excluded was not constructed in accordance with Article 4 (commencing with Section 15451) of this chapter and was not repaired, reconstructed, or replaced in accordance with this article, there shall be posted in a conspicuous place on such building a public notice stating that such building does not meet the structural standards imposed by law for earthquake safety.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that those buildings which this act would exempt from certain structural standards may be used during the 1976–77 school year, thus precluding undue disruption of existing adult education programs and financial hardship to school districts offering such programs, it is necessary that this act go into effect immediately.

CHAPTER 1470

An act relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. The governing board of a school district which has leased facilities for a continuation high school for at least five years prior to July 1, 1976, may continue to use such facilities until the completion of replacement facilities or until June 15, 1980, whichever occurs first, and such leased facilities shall not be subject to Article 4 (commencing with Section 15451) or Article 5 (commencing with Section 15501) of of Chapter 1 of Division 11 of the Education Code.

This section shall apply only to a unified school district which had an average daily attendance of less than 7,000 in the 1975–76 fiscal year and in which the electors approved bonds for the purpose of constructing a permanent facility for a continuation high school on November 3, 1970.

This section shall remain in effect only until June 15, 1980, and as

of that date is repealed.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the use of at least some facilities which are above average in safety and highly functional to continue for a continuation high school until new facilities may be acquired under as yet to be completed master plans, and so avoid harm to presently functioning successful programs and their student participants, it is necessary that this act take effect immediately.

CHAPTER 1471

An act to amend Section 20017.9 of, and to add Section 22014.3 to, the Government Code, relating to the Public Employees' Retirement System.

[Became law without Governor's signature October 1, 1976. Filed with Secretary of State October 1, 1976]

The people of the State of California do enact as follows:

SECTION 1. Section 20017.9 of the Government Code is amended to read:

20017.9. "State safety member" shall also include persons employed to perform full-time active firefighting duties performed on the effective date of this section under the titles of "institution fire chief," "institution fireman," and "campus firefighter" by state agencies other than the Division of Forestry of the Department of Conservation. Persons employed under the title "campus firefighter" who were state miscellaneous members immediately prior to the operative date of the amendment adding "campus firefighters" to this section may elect to remain state miscellaneous members by filing written notice of their intent with the board no later than 90 days after the operative date of this section.

SEC. 2. Section 22014.3 is added to the Government Code, to read:

22014.3. "Fireman," as used in this part, also includes persons employed as a "campus firefighter" as set forth in Section 20017.9; provided, such designation is not contrary to any definition, ruling or regulation relating to the term "fireman" issued by the federal agency for the purposes of Section 218(d) (5) (A) of the Social Security Act.

SEC. 3. This act shall not become operative until such time as a ruling or regulation authorizing the inclusion of persons described as "campus firefighters" in Section 20017.9 within the definition of "fireman" is issued by the federal agency for purposes of Section

03373 285425 222

218(d) (5) (A) of the Social Security Act.

CHAPTER 1472

An act to amend Section 70127 of, and to add Sections 70128 and 73668 to, the Government Code, relating to court reporters, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature October 1, 1976 Filed with Secretary of State October 1, 1976.]

The people of the State of California do enact as follows:

(c) The salaries of each regular official reporter and each pro tempore official reporter shall be as provided in Section 70127 of this code, except that such changes in compensation made pursuant to this section shall be on an interim basis and shall expire on January 1 of the second calendar year after the calendar year in which the change occurs, unless ratified by the Legislature.

SEC. 4. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Humboldt County is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of setting court reporters' salaries in this county in view of the submitted request for an adjustment in the compensation provided to court reporters in such county.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any other appropriation made by this act, because the provisions of this act are in accordance with the request of a local government entity which desired legislative authority to carry out any program and perform any service required by the act.

SEC. 6. If any provision of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, then every other provision or application of this act shall be void, and to this end the provisions of this act are inseverable.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A very high rate of turnover has been experienced among court reporters in Humboldt County due to inadequate salaries. In order to alleviate the problem at the earliest possible time, it is necessary for this act to take effect immediately.

(d) When any person is demoted to another office or position he shall receive the fifth step rate of salary for the position to which he is demoted, except that if such demotion is due to disciplinary action, the appointing power may indicate any step rate of the lower position which provides compensation not higher than that last previously received by such person.

SEC. 9. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide, basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Los Angeles County is necessary to permit the Legislature to carry out its constitutional responsibility to provide for superior court reporters' salaries in the county in view of its submitted requests for adjustments in the compensation provided to court reporters in such county.

SEC. 10. In the event that any provision of Section 1, 3, or 9 of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, Sections 1, 3, and 9 of this act shall be void, and to this end, the provisions of Sections 1, 3, and 9 of this act are inseverable.

SEC. 11. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local government entity or entities which desired legislative authority to act to carry out the program specified in this act.

WHEREAS, He displayed an assiduous devotion to the responsible discharge of his duties as Chairman of the Introduction of Bills Committee in the 1937 session, as Chairman of the Banking Committee in the 1941 session, and as Chairman of the Committee on Judiciary in the 1943 and 1945 sessions; and

WHEREAS, Mr. Call retired from the California State Assembly in 1946 to run for the office of Attorney General, but his unsuccessful attempt prompted him to return to private practice of the law, an endeavor which was followed by service as a deputy legislative counsel in Carson City, Nevada, and later, a tenure as deputy attorney general for the State of Nevada; and

RESOLUTION CHAPTER 4

Assembly Joint Resolution No. 54—Relative to crude oil prices.

[Filed with Secretary of State January 29, 1976.]

WHEREAS, Crude oil prices in the State of California, which are controlled by the Federal Energy Administration, are currently below the ceiling price permitted in other oil-producing states of the nation; and,

WHEREAS, This inequity is created by differences in the Gravity Differential Penalty between California-produced oil and other oil-producing states of the nation; and

WHEREAS, This discriminatory regulation of the Federal Energy Administration is causing a loss of income to the State of California of approximately $200 million per year; and

WHEREAS, The majority of this lost income is from state-controlled crude oil production in the California tidelands; and,

WHEREAS, The principle beneficiaries of this tideland production income are: Capital Outlay for Public Higher Education Fund, the California Water Fund, the Central Valley Water Project

Construction Fund, the State Lands Division, and the State Lands Commission; and,

WHEREAS, The state is losing additional dollars to the General Fund from taxes on crude oil production from the private sector; and,

WHEREAS, Portions of the aforementioned private sector, especially some of the smaller independent operators, are in a distressed condition due to these discriminatory regulations; and,

WHEREAS, Necessary abandonment of marginal or uneconomic wells by these distressed operators would further the tax loss to the state and add to our already serious unemployment problems; and,

WHEREAS, Failure to change this discriminatory regulation may cause additional reliance on insecure, expensive, foreign crude oil, impacting the consumer by as much as 3 cents per gallon on automobile fuels; and,

WHEREAS, Failure to change this discriminatory regulation before new Federal Energy Administration rules become effective on February 1, 1976, will cause California crude oil prices to be lower than other producing states of the nation for the next 40 months; now, therefore, be it

Resolved, That the California Legislature does hereby support an adjustment in the Gravity Differential Penalty for California as controlled by the Federal Energy Administration, to bring California crude oil prices to parity with other oil-producing states of the nation; and be it further

Resolved, That this adjustment be made prior to enactment of new Federal Energy Administration regulations to become effective February 1, 1976, so the State of California will be treated equally under the provision of the Energy Pricing and Conservation Act; and be it further

Resolved, That a copy of this resolution be transmitted to Gerald Ford, President of the United States, to Frank Zarb, Administrator of the Federal Energy Administration, to each Senator and Representative from California in the Congress of the United States, to Edmund G. Brown Jr., Governor of the State of California and to the members of the State Lands Commission.

SECTION 1. The right of eminent domain is hereby declared to exist in the State to all frontages on the navigable waters of this State.

SEC. 2. It is hereby declared that because of the conditions prevailing in this State the general welfare requires that the water resources of the State be put to beneficial use to the fullest extent of which they are capable, and that the waste or unreasonable use or unreasonable method of use of water be prevented, and that the conservation of such waters is to be exercised with a view to the reasonable and beneficial use thereof in the interest of the people and for the public welfare. The right to water or to the use or flow of water in or from any natural stream or water course in this State is and shall be limited to such water as shall be reasonably required for the beneficial use to be served, and such right does not and shall not extend to the waste or unreasonable use or unreasonable method of use or unreasonable method of diversion of water. Riparian rights in a stream or water course attach to, but to no more than so much of the flow thereof as may be required or used consistently with this section, for the purposes for which such lands are, or may be made adaptable, in view of such reasonable and beneficial uses; provided, however, that nothing herein contained shall be construed as depriving any riparian owner of the reasonable use of water of the stream to which the owner's land is riparian under reasonable methods of diversion and use, or as depriving any appropriator of water to which the appropriator is lawfully entitled. This section shall be self-executing, and the Legislature may also enact laws in the furtherance of the policy in this section contained.

SEC. 3. All tidelands within two miles of any incorporated city, city and county, or town in this State, and fronting on the water of any harbor, estuary, bay, or inlet used for the purposes of navigation, shall be withheld from grant or sale to private persons, partnerships, or corporations; provided, however, that any such tidelands, reserved to the State solely for street purposes, which the Legislature finds and declares are not used for navigation purposes and are not necessary for such purposes may be sold to any town, city, county, city and county, municipal corporations, private persons, partnerships or corporations subject to such conditions as the Legislature determines are necessary to be imposed in connection with any such sales in order to protect the public interest.

SEC. 4. No individual, partnership, or corporation, claiming or possessing the frontage or tidal lands of a harbor, bay, inlet, estuary, or other navigable water in this State, shall be permitted to exclude the right of way to such water whenever it is required for any public purpose, nor to destroy or obstruct the free navigation of such water;

and the Legislature shall enact such laws as will give the most liberal construction to this provision, so that access to the navigable waters of this State shall be always attainable for the people thereof.

SEC. 5. The use of all water now appropriated, or that may hereafter be appropriated, for sale, rental, or distribution, is hereby declared to be a public use, and subject to the regulation and control of the State, in the manner to be prescribed by law.

SEC. 6. The right to collect rates or compensation for the use of water supplied to any county, city and county, or town, or the inhabitants thereof, is a franchise, and cannot be exercised except by authority of and in the manner prescribed by law.

SEC. 7. Whenever any agency of government, local, state, or federal, hereafter acquires any interest in real property in this State, the acceptance of the interest shall constitute an agreement by the agency to conform to the laws of California as to the acquisition, control, use, and distribution of water with respect to the land so acquired.

Thirtieth—That Section 10 of Article XI is amended to read:

SEC. 10. (a) A local government body may not grant extra compensation or extra allowance to a public officer, public employee, or contractor after service has been rendered or a contract has been entered into and performed in whole or in part, or pay a claim under an agreement made without authority of law.

(b) A city or county, including any chartered city or chartered county, or public district, may not require that its employees be residents of such city, county, or district; except that such employees may be required to reside within a reasonable and specific distance of their place of employment or other designated location.

SEC. 3. Mechanics, persons furnishing materials, artisans, and laborers of every class, shall have a lien upon the property upon which they have bestowed labor or furnished material for the value of such labor done and material furnished; and the Legislature shall provide, by law, for the speedy and efficient enforcement of such liens.

SEC. 4. The Legislature is hereby expressly vested with plenary power, unlimited by any provision of this Constitution, to create, and enforce a complete system of workers' compensation, by appropriate legislation, and in that behalf to create and enforce a liability on the part of any or all persons to compensate any or all of their workers for injury or disability, and their dependents for death incurred or sustained by the said workers in the course of their employment, irrespective of the fault of any party. A complete system of workers' compensation includes adequate provisions for the comfort, health and safety and general welfare of any and all workers and those dependent upon them for support to the extent of relieving from the consequences of any injury or death incurred or sustained by workers in the course of their employment, irrespective of the fault of any party; also full provision for securing safety in places of employment; full provision for such medical, surgical, hospital and other remedial treatment as is requisite to cure and relieve from the effects of such injury; full provision for adequate insurance coverage against liability to pay or furnish compensation; full provision for regulating such insurance coverage in all its aspects, including the establishment and management of a State compensation insurance fund; full provision for otherwise securing the payment of compensation; and full provision for vesting power, authority and jurisdiction in an administrative body with all the requisite governmental functions to determine any dispute or matter arising under such legislation, to the end that the administration of such legislation shall accomplish substantial justice in all cases expeditiously, inexpensively, and without incumbrance of any character; all of which matters are expressly declared to be the social public policy of this State, binding upon all departments of the State government.

The Legislature is vested with plenary powers, to provide for the settlement of any disputes arising under such legislation by arbitration, or by an industrial accident commission, by the courts, or by either, any, or all of these agencies, either separately or in combination, and may fix and control the method and manner of trial of any such dispute, the rules of evidence and the manner of review of decisions rendered by the tribunal or tribunals designated by it; provided, that all decisions of any such tribunal shall be subject to review by the appellate courts of this State. The Legislature may combine in one statute all the provisions for a complete system of workers' compensation, as herein defined.

The Legislature shall have power to provide for the payment of an award to the state in the case of the death, arising out of and in the course of the employment, of an employee without dependents, and such awards may be used for the payment of extra compensation for subsequent injuries beyond the liability of a single employer for awards to employees of the employer.

Nothing contained herein shall be taken or construed to impair or render ineffectual in any measure the creation and existence of the

industrial accident commission of this State or the State compensation insurance fund, the creation and existence of which, with all the functions vested in them, are hereby ratified and confirmed.

SEC. 5. The labor of convicts shall not be let out by contract to any person, copartnership, company or corporation, and the Legislature shall, by law, provide for the working of convicts for the benefit of the state.

[Filed with Secretary of State March 5, 1976.]

WHEREAS, The United States International Trade Commission is holding hearings on the subject of eliminating or reducing the tariffs on tuna products; and

WHEREAS, While the United States tuna industry has prospered in recent years, foreign caught frozen tuna and canned tuna imports have maintained a 60-percent share of the tuna market in the United States, mainly through the import of duty-free frozen raw tuna as canned imports represent only 7 percent of the United States canned tuna sales which totals $750,000,000 annually; and

WHEREAS, California's railroads are vital to the economy of the state and its agriculture and industry, and with sound planning can continue to serve as important and viable common carriers for the public good; and

WHEREAS, Rail transportation provides promising solutions to some very immediate problems, involving the environment, energy conservation, and cost considerations, as well as being a transportation mode that can handle large volumes at low cost and with minimum environmental degradation; and

WHEREAS, The economic difficulties of the railroads in the eastern and midwestern United States are indicative of the underlying problems being experienced by all of the nation's

railroads due to past indifference on the part of government in failing to recognize and encourage railroads pursuant to the same standards as highway, air, and other modes of transportation; and

WHEREAS, Congress has recognized the need for maintaining and improving the railroads by creation of the Federal Railroad Administration, which has initiated rail planning activities to insure the best use of federal funds for maintaining and improving railroad facilities and services and is presently considering a number of bills that will have important impacts on California's railroads, if enacted; and

WHEREAS, Many eastern states have created rail planning agencies for improving their existing railroads and to work with the federal government in federal improvement programs; and

WHEREAS, It is time that California began to recognize the significance and importance of rail transportation, to identify what this state's rail transportation needs are, and to work with the federal government to improve the rail system in California; and

WHEREAS, It is necessary that California establish a state rail transportation policy and undertake its own rail planning effort for the purpose of maintaining the viability of California's railroads and to improve rail service for the transportation of people and goods; and

WHEREAS, Authority to conduct rail planning in California is vested in the State Department of Transportation pursuant to Section 14040 of the Government Code which provides that the department shall prepare the California Transportation Plan directed at the achievement of a coordinated and balanced transportation system for the state, including, but not limited to mass transportation, highway, aviation, maritime, and railroad facilities and services, whether public or private, consistent with the state's social, economic, and environmental needs and goals; and

WHEREAS, No comprehensive rail planning has been undertaken in this state to date, no rail planning personnel classifications exist and but little expertise in this area is available within the Department of Transportation; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature of the State of California does hereby acknowledge the necessity of maintaining the vitality of California's railroads and their contribution to the public and proclaim the timeliness of undertaking state rail transportation planning to assist California's railroads in continued and productive rail service; and be it further

Resolved, That the Department of Transportation is requested to ensure that state rail transportation planning is integrated into the updated California Transportation Plan, and to prepare a proposal for the purpose of soliciting and receiving rail transportation planning funds from the federal government including therein a conceptual description of the intended rail transportation planning program in California; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies to the Department of Transportation and the State Transportation Board.

[Filed with Secretary of State March 15, 1976.]

WHEREAS, Public Law 92-500 amended the Federal Water Pollution Control Act (Chapter 26 (commencing with Section 1251) of Title 33 of the United States Code) in 1972 and thereby established as national goals the elimination of discharge of pollutants into waters of the United States by 1985, the prohibition of discharge of toxic pollutants in toxic amounts, and the development and implementation of areawide waste treatment management to assure adequate control of the source of pollutants in each state; and

WHEREAS, California is authorized to administer its own permit program for discharges into waters of the United States within its jurisdiction, thereby assuming responsibility for achieving national water quality goals within California; and

WHEREAS, Waste discharge requirements prescribed by California's Regional Water Quality Control Boards and State Water Resources Control Board for waste discharges into waters of the United States, including such international streams as New River and Tijuana River, must implement federal interstate water quality standards and the requirement of the Federal Water Pollution Control Act that municipal sewage discharges receive secondary treatment; and

WHEREAS, Cities in Mexico, such as Mexicali and Tijuana, discharge inadequately treated wastes into international streams which adversely affect beneficial uses in California; and

WHEREAS, Wastes discharged in Mexico into such international streams must be adequately treated if beneficial uses are to be preserved and national water quality goals achieved in California for the waters of such streams; and

WHEREAS, Funds expended by California municipalities in meeting the secondary treatment requirement of the Federal Water Pollution Control Act will be wasted as to discharges into such international streams unless discharges from Mexican cities into such streams receive adequate treatment; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Secretary of State of the United States to seek an executive agreement with the United Mexican States to provide assistance in implementing waste treatment programs to the Cities of Mexicali and Tijuana, and any other Mexican cities which may discharge wastes to international streams which affect beneficial uses of waters of the United States in California; and be it further

RESOLUTION CHAPTER 21

Assembly Joint Resolution No. 38—Relative to aircraft noise abatement.

[Filed with Secretary of State March 15, 1976.]

WHEREAS, Aircraft noise is a serious problem which afflicts many communities in the State of California, and the high noise level experienced by citizens living adjacent to airports constitutes a danger to the public health and welfare, and has caused losses in property values in neighborhoods located near airports; and

WHEREAS, Congress has passed legislation authorizing and directing the Federal Aviation Administration to take appropriate action to reduce aircraft noise from new and existing jet aircraft, and the F.A.A. has adopted noise standards for aircraft (Title 14, Code of Federal Regulations, Part 36); and

WHEREAS, Numerous technological advances have been made in the development of new aircraft engines which achieve much lower noise levels than older jets, and other technological developments permit the quieting of older jet engines through retrofitting of sound-absorbing material; and

WHEREAS, Recent studies conducted under the auspices of the Federal Aviation Administration have clearly demonstrated that reduction of aircraft noise can be accomplished without excessive expense and without adversely affecting safety through such methods as aircraft engine retrofit and the two-segment approach procedure; and

WHEREAS, The implementation of aircraft noise reduction devices and procedures will not cause excessive financial burdens to the aviation industry, since the costs can be recovered through such methods as passenger surcharges or the use of surplus funds in the Aviation Trust Fund; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Administrator of the Federal Aviation Administration is respectfully memorialized to require at the earliest possible date the installation of sound-absorbing material retrofit on transport category civil aircraft in order to reduce the noise levels of such aircraft to or below the standards set by the aircraft noise standards of the Federal Aviation Administration as they currently apply to newly manufactured aircraft, and, in addition, to require two-segment and other appropriate noise abatement operating procedures, in order to assure that existing jet aircraft employ the most advanced noise reduction techniques available; and be it further

Resolved, That copies of this resolution be transmitted to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, and to the

Administrator of the Federal Aviation Administration.

WHEREAS, The problem of food for the needy and the aged has become more and more acute; and

WHEREAS, Certain restaurants which serve only "portion trimmed" steaks have many pounds of trimmed meat which they would gladly supply to charitable organizations; and

WHEREAS, This same trimmed meat could legally be cooked and served in such restaurants, but, at the present, may not be donated to charitable organizations as uncooked meat due to the complexity or ambiguity of the present meat inspection regulations; and

WHEREAS, The law specifically authorizes the Secretary of Agriculture to modify the regulations when, in his opinion, there is good and sufficient reason to make such modification; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States and the Secretary of Agriculture to take all the necessary actions to modify the present meat inspection regulations to permit any restaurant to donate any amount of uncooked wholesome, unadulterated meat to any charitable organization; and be it further

WHEREAS, The procedure for transferring this program will include the offering by the United States Department of Agriculture of job opportunities to California state workers but will also result in significant personal financial losses, as follows:

(d) Impairment of long-term retirement benefits due to break in employment and lack of reciprocity between state and federal retirement systems;

WHEREAS, The program has proven generally effective as an assistance to state and local government jurisdictions in the maintenance of essential public services at adequate levels during periods of rising costs; and

WHEREAS, The program has enabled state and local governmental jurisdictions to provide important new public services and facilities which would be otherwise infeasible in the face of rising costs and increased tax burdens on available state and local revenue sources; and

WHEREAS, The pending expiration of the program poses a serious threat to the continuance of many vital public services provided to the people of California through state and local governmental agencies; and

WHEREAS, A proposal was made by the Bureau of Alcohol, Tobacco and Firearms to impose ingredient labeling on wine containers; and

WHEREAS, An extended administrative hearing was held in Washington, D.C. on April 29, 1975, at which time extensive testimony was offered not only by industry members of the United States but by witnesses from foreign governments; and,

WHEREAS, Such testimony found that ingredient labeling was not only unnecessary and not in the best interests of the consumer but would actually tend in many instances to mislead the consumer as well as impose extraordinary and inflationary costs in its implementation, with especially disastrous consequences for small wineries; and

WHEREAS, At said hearing no proponents appeared and offered any testimony; and

WHEREAS, The Bureau of Alcohol, Tobacco and Firearms after due consideration determined that ingredient labeling should not be imposed upon the wine industry; and

WHEREAS, Exemptions from the ingredient labeling requirement of the Federal Food, Drug, and Cosmetic Act are

RESOLUTION CHAPTER 46

Senate Concurrent Resolution No. 79—Relative to alcoholism.

[Filed with Secretary of State June 11, 1976.]

WHEREAS, In subdivision (a) of Section 19901 of the Welfare and Institutions Code, the Legislature has declared that alcoholism is the most serious drug problem in California; and

WHEREAS, California's state-funded alcoholism programs have heretofore concentrated on providing treatment and rehabilitation services to individuals who suffer from alcoholism and to their families; and

WHEREAS, Effective treatment and rehabilitation services reduce the number of existing instances of alcoholism, but may not significantly prevent the increased incidence of alcoholism; and

WHEREAS, The state has a responsibility to continue to help individuals already afflicted with alcoholism, as well as their families, by providing effective treatment and rehabilitation services; and

WHEREAS, The state has not expended any significant amount of funds or initiated any major efforts to achieve the prevention of alcohol abuse or alcoholism, or the minimization of alcohol-related social problems; and

WHEREAS, The state has a continuing responsibility to help not only individuals afflicted with alcoholism and their families, but also to reduce the societal impact of alcohol abuse and alcoholism by preventing its incidence or minimizing alcohol-related social problems; and

WHEREAS, In spite of increased public funding for effective alcoholism services, the economic losses and personal tragedies associated with alcoholism and alcohol abuse such as violent crime, juvenile delinquency, lost productivity, drunk driving accidents and fatalities, divorce, and child abuse apparently have increased dramatically during the past decade particularly among women, youth, and ethnic minorities; and

WHEREAS, The rise in per capita consumption of alcoholic beverages in California of 40 percent over the last decade parallels the increase in the societal impact of alcoholism and alcohol abuse; and

WHEREAS, The consumption of alcoholic beverages in California is encouraged, promoted, sustained, and portrayed as a necessary, sophisticated, and acceptable part of our way of life; and

WHEREAS, It is apparent that in order to affect the increasing rate of per capita consumption of alcoholic beverages in California, there is a need to change the attitudes of most Californians, including those who do not abuse alcohol or suffer from alcoholism; and

WHEREAS, The Office of Alcoholism, in its "1976 Report to the Legislature: Current Status and Future Directions," sets forth several possible five-year societal objectives; and

WHEREAS, The Office of Alcoholism plans to concentrate its efforts and resources during a five-year period commencing in the 1976–77 fiscal year on a limited number of societal objectives; and

WHEREAS, The Legislature recognizes the difficulty of measuring the achievement of such objectives through use of such indicators as the per capita consumption of alcoholic beverages, the cirrhosis death rate, the number of arrests, lost worktime, and other indicators which may be affected by variable factors that remain difficult to isolate and measure; and

WHEREAS, The Legislature has held hearings, polled various groups, and tried to ascertain which societal objectives the people of this state believe are most important; now, therefore be it

No person, association, copartnership or corporation shall by charging any fee, bonus, commission, discount or other compensation receive from a borrower more than the amount of interest per annum allowed by this section upon any loan or forbearance of any money, goods or things in action.

However, none of the above restrictions shall apply to any building and loan association as defined in and which is operated under that certain act known as the "Building and Loan Association Act," approved May 5, 1931, as amended, or to any corporation incorporated in the manner prescribed in and operating under that certain act entitled "An act defining industrial loan companies, providing for their incorporation, powers and supervision," approved May 18, 1917, as amended, or any corporation incorporated in the manner prescribed in and operating under that certain act entitled "An act defining credit unions, providing for their incorporation, powers, management and supervision," approved March 31, 1927, as amended or any duly licensed pawnbroker or personal property broker, or any bank as defined in and operating under that certain act known as the "Bank Act," approved March 1, 1909, as amended, or any bank created and operating under and pursuant to any laws of this State or of the United States of America or any nonprofit cooperative association organized under Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code in loaning or advancing money in connection with any activity mentioned in said title or any corporation, association, syndicate, joint stock company, or partnership engaged exclusively in the business of marketing agricultural, horticultural, viticultural, dairy, live stock, poultry and bee products on a cooperative nonprofit basis in loaning or advancing money to the members thereof or in connection with any such business or any corporation securing money or credit from any Federal intermediate credit bank, organized and existing pursuant to the provisions of an act of Congress entitled "Agricultural Credits Act of 1923," as amended in loaning or advancing credit so secured, nor shall any such charge of any said exempted classes of persons be considered in any action or for any purpose as increasing or affecting or as connected with the rate of interest hereinbefore fixed. RESOLUTION CHAPTER 54

Senate Joint Resolution No. 32—Relative to mining in the Los Padres National Forest.

[Filed with Secretary of State June 24, 1976.]

WHEREAS, A phosphate strip or open-pit mine operation under federal lease is proposed to be located in the Los Padres National Forest in Ventura County about 25 miles north of the City of Ventura, near the City of Ojai, which would cause serious and irreparable harm to the environment; and

WHEREAS, The proposed mining operation would be located adjacent to State Highway Route 33, a proposed state scenic highway which would provide the only access to the mine site, but such highway is a two-lane mountain road not designed for intensive use; and

WHEREAS, It is anticipated that the proposed mining operation would be conducted for at least 50 years, would use a million gallons of water per day, and would emit more sulfur dioxide into the air than all other existing sources in Ventura County combined; and

WHEREAS, The environmental impact statement submitted by United States Gypsum was prepared under the direction of Dr. Beatrice Willard, who was subsequently appointed by President Nixon to the National Council on Environmental Quality, the very council that must ultimately rule on the sufficiency of the environmental impact statement in question; and

WHEREAS, To allow such a strip or open-pit mining operation to be conducted on federal lands in this area would be inconsistent with the National Environmental Policy Act of 1969; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress (1) that the environmental impact statement now under consideration for such project be considered a draft only, and not a final environmental impact statement; (2) that new public hearings be held by the Department of the Interior on a revised environmental impact statement, with testimony requested from the public, elected and appointed legislative representatives, and concerned federal, state, and local agencies; (3) that such public hearing be conducted in the local area to allow all interested parties the opportunity to testify; and (4) that the President and the Congress of the United States take all steps necessary to prevent strip mining or open-pit mining in that

632 289435 353

area of the Los Padres National Forest situated in Ventura County approximately 25 miles north of the City of Ventura, near the City of Ojai; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the President and Vice President of the United States, the Secretary of the Interior, the Speaker of the House of Representatives, and to each Senator and representative from California in the Congress of the United States.

WHEREAS, Requests for such honors have been denied in instances where they originate from the expressed wish of the veteran while living, or at the request of the veteran's family after death; and

WHEREAS, Establishing a specific right of veterans to have military honors at their funerals is a worthy and desirable public policy; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to enact legislation giving veterans of the armed services the right to military honors at their funerals, with the honor detail to be furnished by the nearest military installation; and be it further

WHEREAS, An additional 104 mobilehome residences are about to be installed in the park, and a proportionate increase in the numbers of inhabitants and vehicles is expected in the next 10 months; and

WHEREAS, A high proportion of the residents of the park are retired and elderly, and therefore require all the road safety protection that can be made available to them; and

WHEREAS, The single entrance to the park discharges into State Highway Route 126, a two-lane roadway at the entrance point; and

WHEREAS, The entry into the park by vehicles traveling east on Route 126 subjects them to considerable danger of rear-end collision as they are decelerating to right turn into the park; and

WHEREAS, There is sufficient right-of-way width for a considerable distance east and west of the park entrance along Route 126 to allow for the retention of the existing left-turn pocket for westbound traffic and the construction of a right-turn deceleration lane for eastbound traffic; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the California Highway Commission allocate the necessary funds so that the Department of Transportation may construct a right-turn deceleration lane for eastbound traffic on State Highway Route 126 at the entry point to the El Dorado Mobile Home Estates in the City of Fillmore; and be it further

Resolved, That the existing left-turn pocket at the entry point for westbound traffic be retained; and be it further

WHEREAS, State Highway Route 55 from Route 91, the Riverside Freeway, to its proposed terminus at or near 15th Street at the south boundary of the City of Costa Mesa is designated officially as the Newport Freeway; and

WHEREAS, It is the general practice to name a freeway route for the city where it terminates; and

WHEREAS, Route 55, a freeway, presently terminates at the south boundary of the City of Costa Mesa at or near the intersection of a projection of 15th Street and Superior Avenue; and

WHEREAS, There are no plans to construct Route 55 further in a southerly direction to join with Route 1, the Pacific Coast Highway; and

WHEREAS, The City of Costa Mesa has vigorously and continuously supported the Department of Transportation in its freeway plans and proposals for Route 55; now, therefore, be it

RESOLUTION CHAPTER 87

Assembly Joint Resolution No. 57—Relative to the Voting Rights Act of 1965.

[Filed with Secretary of State August 16, 1976.]

WHEREAS, The Voting Rights Act of 1965 was extended pursuant to the amendments contained in Public Law 94-73; and

WHEREAS, Public Law 94-73 also added a new provision to the Voting Rights Act of 1965, Section 203 (42 USC, Sec. 1973aa et seq.), which requires, among other things, each state and political subdivision to provide voter registration and election materials in other than the English language whenever 5 percent of the citizens of voting age of the state or political subdivision are members of a single-language minority; and

WHEREAS, There are currently 39 counties situated in California, which, because of the federal interpretation of the new provisions of the Voting Rights Act of 1965, require the state to send multilingual elections material to every voter in the affected counties; and

WHEREAS, In order to comply with this federal mandate, it is estimated that the cost of the paper for printing the 1976 June and November statewide ballot materials, coupled with the increased postage costs, will cost California state and local government $15,800,000, which figure does not include certain added local costs, such as the administration of strictly local sample ballot materials; and

WHEREAS, Furthermore, the Secretary of State has indicated, based on the most accurate estimates available of number of proposals, number of pages to print the pertinent information relating to ballot measures, and the number of registered voters for the 1976 elections, that it will take 26,000,000 pounds of already scarce newsprint to print statewide voter pamphlets in three languages; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respecfully memorializes the Congress of the United States to adopt appropriate amendments to the Voting Rights Act of 1965, exempting the State of California and its political subdivisions from the absolute requirement that election materials be provided in other than the English language, so that bilingual election materials may be provided by the Secretary of State or county clerks upon request; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 88

Assembly Joint Resolution No. 66—Relative to public utilities.

[Filed with Secretary of State August 16, 1976.]

WHEREAS, Many private electric utilities during the past two years have forced repeated sharp increases in wholesale rates upon municipal systems, thereby raising doubts in the public mind concerning the credibility of such municipal operations; and

WHEREAS, In many cases the wholesale power rate charged to such municipal systems is considerably higher than the rate charged to industrial customers by such private utilities; and

WHEREAS, The Federal Power Commission has refused to consider such rate discrimination against municipal utilities and is appealing a recent court of appeals decision which would require the commission to consider and correct this price squeeze situation; and

WHEREAS, A continuance of this price squeeze has caused many to question whether these municipal systems should be continued in operation, thereby inhibiting the development of publicly owned

alternative energy resources and endangering the fiscal well-being of such cities; and

WHEREAS, Under existing Federal Power Act procedure these wholesale rate increases are normally made effective within 30 days after filing, or at the latest within a five-month suspension; and

WHEREAS, The final decision of such rate cases before the commission generally takes two years or longer while such rates are in effect; and

WHEREAS, An amendment to the Federal Power Act could provide for appropriate hearings before rate increases are permitted, to reflect the consumer's interest as well as the private utility's interest; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to give urgent consideration to amending the Federal Power Act to provide that no wholesale rate increases become effective until hearings have been completed and a final order issued by the Federal Power Commission upholding the lawfulness of all or a portion of any such increase; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 89

Assembly Joint Resolution No. 76—Relative to federal employee pensions.

[Filed with Secretary of State August 16, 1976.]

WHEREAS, While California law severely limits annual cost-of-living adjustments of the pensions of retired public employees, the pensions of retired federal employees are adjusted by the full cost of living plus an additional 1 percent; and

WHEREAS, It has been estimated that the federal adjustments will cost 400 billion dollars over the retirement life of current and retired federal employees; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and the Congress of the United States to repeal the provisions of federal law which provide for retired federal employees to have their pensions annually adjusted by an additional 1 percent above the increase in cost of living and to rebate the savings to the states as a special revenue-sharing program for state

and local public employee retirement cost-of-living adjustments; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 90

Assembly Concurrent Resolution No. 121—Relative to the Edwin L. Z'berg-Sugar Pine Point State Park.

[Filed with Secretary of State August 17, 1976.]

WHEREAS, The recent tragic death of Assemblyman Edwin L. Z'berg has deeply saddened all Californians; and

WHEREAS, Ed Z'berg dedicated his legislative career largely to the protection of the environment and to the preservation of the natural resources of the state; and

WHEREAS, Ed Z'berg will be remembered as a pioneer and dynamic force in the struggle to protect Lake Tahoe, and it is known that Sugar Pine Point State Park at Lake Tahoe was his favorite place of refuge from the cares of legislative concerns; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Park and Recreation Commission is requested to rename the Sugar Pine Point State Park, the Edwin L. Z'berg-Sugar Pine Point State Park; and be it further

Resolved, That the State Park and Recreation Commission is requested to make provisions for a suitable plaque to be erected at the entrance to the Edwin L. Z'berg-Sugar Pine Point State Park; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the State Park and Recreation Commission.

RESOLUTION CHAPTER 91

Assembly Joint Resolution No. 72—Relative to veterans.

[Filed with Secretary of State August 17, 1976.]

WHEREAS, Educational training for veterans is granted as a readjustment aid in returning to civilian life; and

WHEREAS, Economic conditions mandate retraining unemployed veterans; and

WHEREAS, On June 1, 1976, 3,656,000 veterans now eligible for educational benefits will lose those benefits due to the delimiting date; and

WHEREAS, More than 839,000 of those are Vietnam-era veterans; and

WHEREAS, Many veterans were not properly informed of their benefits and limitations on those benefits when they were discharged; and

WHEREAS, Many veterans faced financial responsibilities or other commitments which precluded their attending a college or were able to attend only on a part-time basis; and

WHEREAS, Thousands of veterans continuing their education without Veterans' Administration assistance will be faced with a difficult financial situation; and

WHEREAS, Those who discontinue their education may be placed on unemployment or welfare rolls; and

WHEREAS, The delimiting date is inconsistent with administration policy to reduce the welfare and unemployment rolls; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorialize the Congress of the United States to enact legislation removing the time limitation and allowing veterans to utilize all of their educational benefits; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Speaker of the House of Representatives and to each Senator and Representative from California in the Congress of the United States.

RESOLUTION CHAPTER 92

Assembly Joint Resolution No. 34—Relative to the Hughes Flying Boat.

[Filed with Secretary of State August 17, 1976]

WHEREAS, Time is diminishing for the opportunity for anyone to view the largest seaplane ever constructed and flown, the "Hughes Flying Boat" (HK 1), before it is dismantled for shipment to various museums across the United States; and

WHEREAS, Many aviation enthusiasts are trying desperately to delay what amounts to the destruction of this classic airplane while they make arrangements to preserve it intact; and

WHEREAS, The HK 1 would be of immense value and a great attraction to the citizens of the State of California, who, having been attracted to numerous newspaper pictures and articles of the HK 1 and the few short television documentaries of its history, would be

elated at the opportunity of viewing this enormous seaplane, which has a wingspan 60 percent larger than that of a Boeing 747, is built almost entirely of wood, and can be appreciated only if seen intact; and

WHEREAS, Few people have had an opportunity to see this airplane and review the technology that made its construction possible, and, with this opportunity now in sight, it does not seem reasonable to cut the plane up and ship its pieces to different locations; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Members, on behalf of the citizens of the State of California who have never seen this plane except for photographs, request the Federal General Services Administration, the Smithsonian Institute, the executor or administrator of the estate of Howard R. Hughes, when such person is appointed, and the Summa Corporation to take whatever actions are needed to permit public viewing of this plane before it is dismantled, so that those who have the desire may also have the opportunity to see this mighty seaplane on exhibition; and be it further

Resolved, That the Members request the Department of Parks and Recreation and the Department of Transportation to negotiate with the Federal General Services Administration, the Smithsonian Institute, the executor or administrator of the estate of Howard R. Hughes, when such person is appointed, and the Summa Corporation, and the City of Long Beach to determine the feasibility for such a public viewing; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Board of Directors of the Summa Corporation, the Director of the Federal General Services Administration, the City Manager of the City of Long Beach, the Director of Parks and Recreation, the Director of Transportation, and to the executor or administrator of the estate of Howard R. Hughes, when such person is appointed.

Senate Concurrent Resolution No. 72—Relative to the San Joaquin Master Drain.

[Filed with Secretary of State August 17, 1976.]

WHEREAS, The State Water Project includes a proposed master drainage facility for removal of drainage water from the San Joaquin Valley; and

WHEREAS, Several hundred thousand acres of presently productive land will become seriously degraded unless corrective measures to remove drainage water from the San Joaquin Valley are provided; and

572 28111 35 549

WHEREAS, Continued and intensified use of the San Joaquin River to remove drainage water may affect the Sacramento-San Joaquin Delta waters; and

WHEREAS, Discharge of undiluted drainage water from the proposed master drainage facility into the Sacramento-San Joaquin Delta may affect the agricultural, domestic, and recreational uses and valuable fish and wildlife resources of the delta; and

WHEREAS, The water supplies in the State Water Project are invaluable for the agriculture industry of the state, as well as for domestic use, recreational use, and fish and wildlife preservation; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources, in cooperation with appropriate federal, state, and local agencies and private organizations and individuals, is requested to review alternatives to the discharge in the Sacramento-San Joaquin Delta of drainage waters from the proposed master drainage facility in the San Joaquin Valley; and be it further

Resolved, That such review shall emphasize maximum use and reuse being made of all waters in the San Joaquin Valley before such waters are discharged from the valley; and be it further

Resolved, That the Department of Water Resources report its findings and recommendations to the Governor and the Legislature on or before September 30, 1978; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Director of Water Resources.

[Filed with Secretary of State August 17, 1976.]

WHEREAS, The original schedule for commencement of construction of facilities in the Sacramento-San Joaquin Delta for the State Water Project has been deferred for two years; and

WHEREAS, Before a decision is made to construct specific facilities in the Sacramento-San Joaquin Delta, there are substantial policy and technical matters which should be resolved; and

WHEREAS, Such matters include (1) federal participation in facilities in the Sacramento-San Joaquin Delta, (2) the authorized purposes of the federal Central Valley Project, (3) federal compliance with water quality standards in the Sacramento-San Joaquin Delta, (4) the coordinated operation of the federal facilities of the Central Valley Project and the State Water Project, (5) a

determination of the amount of water in the Sacramento-San Joaquin Delta which is surplus, (6) measures to protect fishery resources of the Sacramento-San Joaquin Delta, and (7) evaluation of alternatives to the construction of a peripheral canal, including offstream storage in the Sacramento and San Joaquin Valleys, conjunctive use of surface and ground water supplies, water conservation, and waste water reclamation; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Department of Water Resources, in cooperation with affected federal, state, and local agencies, and private interests, and individuals, is requested to review the policy and technical matters which should be resolved prior to proceeding with the construction of facilities in the Sacramento-San Joaquin Delta for the State Water Project; and be it further

Resolved, That the Department of Water Resources report its findings and recommendations to the Governor and the Legislature on or before July 1, 1977, and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Director of Water Resources.

RESOLUTION CHAPTER 95

Senate Concurrent Resolution No. 80—Relative to State Highway Route 105.

[Filed with Secretary of State August 17, 1976.]

WHEREAS, State Highway Route 105, the Century Freeway, is currently proposed as an eight-lane facility with a transitway within the median and thus is the first multimodal freeway proposed in California to include separate transit facilities in the median; and

WHEREAS, The Century Freeway will provide much needed access to the Los Angeles International Airport, which is currently handling 23½ million passengers a year and is projected to handle 40 million by 1990, and, based on current trip demands within the transportation corridor, the freeway will be one of the busiest transportation facilities in the United States; and

WHEREAS, Construction of the Century Freeway has been delayed for nearly four years due to litigation on the required environmental impact statement and, after expenditures of approximately $4 million in legal fees, the litigation is about to be resolved; and

WHEREAS, It would be necessary to redesign the Century Freeway, hold new public hearings, and prepare a new environmental impact statement if the freeway is downscoped as suggested by the Secretary of the Business and Transportation Agency; and

WHEREAS, The freeway, as proposed, is compatible with the wishes of all public agencies involved with the transportation corridor, and major portions of the freeway alignment were adopted by the California Highway Commission in 1965; and

WHEREAS, The areas in and around the adopted freeway alignment have been severely impacted for over 10 years pending construction of the freeway, and further delay for additional study and redesign would be intolerable; and

WHEREAS, To date, approximately $180 million have been spent on the design of, to hold public hearings on, to prepare the environmental impact statement on, and to acquire over 60 percent of the required right-of-way for the Century Freeway; and

WHEREAS, The right-of-way acquisition program for the Century Freeway was the first such program to provide relocation assistance for the relocation of residents and businesses as a result of land acquisition, and the procedures under that innovative program have become a pattern for the federal government for all relocation assistance programs; and

WHEREAS, The Century Freeway is included within the National System of Interstate and Defense Highways and, as such, will be 92-percent federally funded; and

WHEREAS, Under current federal highway program allocation formulas, California receives less than 63 percent of the federal highway revenues it generates and thus is a donor state; and

WHEREAS, If the Century Freeway is not constructed as proposed, the percentage of federal highway revenues generated in California that would be returned to the state would be further reduced; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the California Highway Commission and the Department of Transportation are hereby requested to let contracts for the construction of the eight-lane Century Freeway (State Highway Route 105) with a transitway in the median immediately upon final adjudication of the lawsuit regarding the environmental impact statement prepared for the freeway; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Secretary of the Business and Transportation Agency, the California Highway Commission, and the Director of Transportation.

Senate Concurrent Resolution No. 82—Relative to government contracts.

[Filed with Secretary of State August 17, 1976.]

582 28 11 220 566

WHEREAS, Many legal and political inhibitions prevent government from using private organizations to carry out government programs; and

WHEREAS, These inhibitions include specific prohibitions, procedural requirements, regulations, accounting requirements, and unwritten policies; and

WHEREAS, As a result of these inhibitions, government is unable to take advantage of certain benefits which private contracts might offer, including:

(1) Competition among service providers tends to lower cost;

(2) Overhead cost may be lowered through the use of small specialized organizations;

(3) Private organizations may have greater flexibility than government in the assignment of employees to various jobs; and

(4) Unsuccessful performers may be dropped; and

WHEREAS, The inhibitions against contracting for government services are so pervasive that legislators and executives may overlook contracting as a delivery system; and

WHEREAS, A study should be conducted to:

(2) Consider such areas as social service programs, criminal justice programs, rehabilitation programs, education, transportation, medical care, and building maintenance and custodial services; and

(3) Isolate areas where contracts might prove beneficial and determine what steps would have to be taken to bring about experimental programs; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the members request the Commission on California State Government Organization and Economy to conduct a study with respect to services delivered by the state and local government entities to determine:

(1) What inhibitions exist prohibiting contracts as a means of delivering government services;

(2) What would be the economic consequences of the removal of these barriers;

(3) Specific areas where contracts might be tried as a delivery system; and

(4) The economic and fiscal consequences of using contracts for specific government services; and be it further

Resolved, That the commission is requested to make specific recommendations for legislative and executive action to the Legislature in a preliminary report and to make a final report on or before December 31, 1977; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the Commission on California State Government Organization and Economy.

WHEREAS, Abandoned airplane wreckage creates needless additional hazards to search and rescue units; and

WHEREAS, Abandoned airplane wreckage is frequently spotted and reported as a "down plane" creating needless extra work for law enforcement officials, land agency administrators, and search and rescue coordinators, who must deal with these reports; and

WHEREAS, The common practice of abandoning airplane wreckage on the less accessible terrain of the California countryside has resulted in a buildup of hundreds of abandoned wrecks; and

WHEREAS, In the absence of regulations, airplane wreckage is still being abandoned in California, usually after it is stripped of valuables, although some land agencies are now trying to force the complete removal of new airplane wreckage from their lands on a case-by-case basis; and

WHEREAS, Abandoned wreckage represents a blight on the

countryside that, if not removed, will exist indefinitely; and

WHEREAS, Scavengers will often scatter wreckage or alter the appearance of known wreckage in their search for valuables and souvenirs; and

WHEREAS, Metal from an airplane wreckage that is not recycled represents a loss of an increasingly scarce nonrenewable resource; and

WHEREAS, The nature of air travel indicates a need for a federal approach when dealing with specific reforms; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the Congress of the United States to prohibit the abandonment of airplane wrecks in California and elsewhere in the nation, as it deems appropriate, except in exceptional circumstances where removal would endanger life; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, to each Senator and Representative from California in the Congress of the United States, to the Federal Aviation Administration, and to the National Transportation Safety Board.

RESOLUTION CHAPTER 103

Assembly Joint Resolution No. 51—Relative to packers and stockyards.

[Filed with Secretary of State August 18, 1976]

WHEREAS, The Packers and Stockyards Act of 1921 (7 M.S.C.A., Secs. 201, et seq.) was enacted to insure that the stockyard owners who own or operate livestock scales would be responsible for the accurate weighing of livestock; and

WHEREAS, In general, the act provides for the suspension of stockyard operations for violating some provisions of the act and for either suspension of stockyard operations or a fine for violating other provisions of the act; and

WHEREAS, Such lack of uniformity in available sanctions may result in the unequal treatment of persons who come under the provisions of such act; and

WHEREAS, This lack of uniformity in the law prevents the United States Department of Agriculture from exercising any discretion when a violation of the act comes under the provision of law which only provides for suspension of operations; and

WHEREAS, Such lack of flexibility often causes a great deal of economic hardship on the community where stockyard operations have been suspended for violation of the Packers and Stockyards Act of 1921; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to take all the necessary actions to modify the Packers and Stockyards Act of 1921 to provide for the imposition of fines as an alternative sanction to suspension of any operation for violating any provision of the act; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

[Filed with Secretary of State August 18, 1976.]

WHEREAS, Testimony presented at hearings conducted throughout the state in October, November, and December of 1975 by the Joint Subcommittee on Community Development called attention to the growing support of local government officials for integration of social and physical planning; and

WHEREAS, A major impediment to such plan integration was identified as a lack of consistent data collection on social problems and social programs; and

WHEREAS, The major provider of social services and the major repository of social data in California is the state and its administrative agencies, now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Office of Planning and Research, in cooperation with the Forms Management Center of the Department of General Services, is requested to study the content and format of forms used by state social agencies and by private agencies providing social services under contract to the state to make required reports of their services and programs to the state to determine the feasibility of establishing a common format which would make data usable across programs and agencies, reduce duplication, and facilitate the establishment of a comprehensive pool of social information without violating any individual's constitutional right to privacy for the use of local governments in making

comprehensive plans for the growth and development of their communities; and be it further

Resolved, That such a study, which should include suggested revisions of the existing reporting systems, be submitted to the Legislature by July 1, 1978; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of the State Office of Planning and Research and the Director of the Department of General Services.

Resolved by the Assembly of the State of California, the Senate thereof concurring, That school districts are requested to utilize available resources for the in-service education of their staffs,

174 2811470 616

including resources provided by categorical aid programs in eligible schools, in such a way that the purposes of Article 3.3 (commencing with Section 13344) of Chapter 2 of Division 10 of the Education Code are fulfilled to the extent possible with such resources; and be it further

Resolved, That the State Department of Education is requested to review the implementation of Article 3.3 (commencing with Section 13344) of Chapter 2 of Division 10 of the Education Code; to analyze the problems in obtaining wider participation, in broadening the scope of in-service courses and programs, in increasing the human and material resources for such activities, and in relating in-service preparation to ethnic heritage curriculum and instruction; and to report to the Legislature no later than January of 1977 with recommendations on the progress of school districts in implementing the intent of Article 3.3 (commencing with Section 13344) of Chapter 2 of Division 10 of the Education Code, together with any recommendations for any legislative changes deemed desirable.

RESOLUTION CHAPTER 114

Senate Concurrent Resolution No. 104—Relative to providing owner-building applicants with information and verification forms.

[Filed with Secretary of State August 25, 1976.]

WHEREAS, In order to adequately protect property owners making improvements on their property as owner-builders, it is necessary that they be given the following information:

"OWNER-BUILDER INFORMATION

"Dear Property Owner:

"A building permit has been applied for in your name listing yourself as the builder of the property improvements specified.

"For your protection you should be aware that as 'owner-builder' you are the responsible party of record on such a permit. Building permits are not required to be signed by property owners unless they are personally performing their own work. If your work is being performed by someone other than yourself, you may protect yourself from possible liability if that person applies for the proper permit in his or her name.

"Contractors are required by law to be licensed and bonded by the State of California and to have a business license from the city, county or city and county. They are also required by law to put their license number on all permits for which they apply.

"If you plan to do your own work, with the exception of various trades that you plan to subcontract, you should be aware of the following information for your benefit and protection:

"If you employ or otherwise engage any persons other than your immediate family, and the work (including materials and other

costs) is $100 or more for the entire project, and such persons are not licensed as contractors or subcontractors, then you may be an employer.

"If you are an employer, you must register with the state and federal government as an employer and you are subject to several obligations including state and federal income tax withholding, federal social security taxes, workers' compensation insurance, disability insurance costs, and unemployment compensation contributions.

"There may be financial risks for you if you do not carry out these obligations, and these risks are especially serious with respect to workers' compensation insurance.

"For more specific information about your obligations under federal law, contact the Internal Revenue Service (and, if you wish, the U.S. Small Business Administration). For more specific information about your obligations under state law, contact the Department of Benefit Payments and the Division of Industrial Accidents.

"If the structure is intended for sale, property owners who are not licensed contractors are allowed to perform their work personally or through their own employees, without a licensed contractor or subcontractor, only under limited conditions.

"A frequent practice of unlicensed persons professing to be contractors is to secure an 'owner-builder' building permit, erroneously implying that the property owner is providing his or her own labor and material personally. Building permits are not required to be signed by property owners unless they are performing their own work personally.

"Information about licensed contractors may be obtained by contacting the Contractors' State License Board in your community or at 1020 N Street, Sacramento, California 95814.

"Please complete and return the enclosed owner-builder verification form so that we can confirm that you are aware of these matters.

Very truly yours,

"Dept. of Building and Safety";

and

WHEREAS, An owner-builder information form and an owner-builder verification form should be mailed to all property owner applicants for a building permit to make their own improvements and should not be provided in person to the person applying for the permit; and

WHEREAS, The following is a proposed example, which may be varied by local agencies, of an owner-builder verification form:

"OWNER-BUILDER VERIFICATION

"Attention Property Owner:

"An "owner-builder" building permit has been applied for in your name and bearing your signature.

"Please complete and return this information in the envelope provided at your earliest opportunity to avoid unnecessary delay in processing and issuing your building permit. You are not legally required to do so, but it may be to your protection and benefit to do so.

1. I personally plan to provide the major labor and materials for construction of the proposed property improvement (yes or no) ___.

2. I (have/have not) _____ signed application for a building permit for the proposed work.

3. I have contracted with the following person (firm) to provide the proposed construction:

Name _____

Address _____ City _____

Phone _____ Contractors License No. _____

4. I plan to provide portions of the work, but I have hired the following person to coordinate, supervise and provide the major work:

Name _____

Address _____ City _____

Phone _____ Contractors License No. _____

5. I will provide some of the work but I have contracted (hired) the following persons to provide the work indicated.

Name	Address	Phone	Type of Work

Signed:

Property owner _____

Social security number _____

Date: _____";

now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the building and safety department of each city, county, and city and county is requested to provide by mail to every owner-builder applicant for a building permit for property improvements with the owner-builder information form listed in this resolution and not to provide such information in person to the person applying for the permit and to recommend obtaining a signed owner-builder verification form from each such applicant; and be it further

Resolved, That the Secretary of the Senate transmit a copy of this resolution to the building department of each city, county, and city and county in the state.

WHEREAS, There is no comprehensive body of principles to guide the commitment and development of our federally owned forest resources; and, as a consequence, land classification decisions are being made without adequate policy direction; and

WHEREAS, There is both a great need and an exceptional opportunity for congressional leadership to be exercised in the development of a policy for national forests and for federal-state cooperative programs for forest resource management that will meet long-term needs for all forest products and will protect the soil and other productive elements of the forest resource base; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California respectfully

memorializes the Congress of the United States to undertake all acts necessary to develop a national policy for the management of federally owned forests and related forest resources; and be it further

The chairman or chairwoman of the conference committee of each house shall give notice to the file clerk of both houses of the time and place of such meeting. Notice of each public meeting shall be published in the file of each house one calendar day prior to the meeting, except that such notice shall not be required for a meeting of a conference committee on the Budget Bill. [Filed with Secretary of State August 30, 1976.]

WHEREAS, The Assembly Local Government Committee received in November 1975 a report evaluating the California Environmental Quality Act of 1970 and recommending changes and improvements therein; and

WHEREAS, Two such recommendations concern changes in the Guidelines for Implementation of the California Environmental Quality Act of 1970, as adopted and promulgated by the Secretary of the Resources Agency pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code, as follows:

(b) Such guidelines be amended to provide clear guidance to local governments about the manner in which they should identify, evaluate, and seek to mitigate adverse environmental impacts of specific projects which are areawide in nature, and consequently beyond the statutory jurisdiction of individual local governments (such as incremental increases in indirect sources of air pollution or

incremental increases in nonpoint sources of water pollution); and

WHEREAS, Subsequent committee hearings conducted during the 1975 fall legislative recess indicated strong agreement with and support for such recommendations; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Secretary of the Resources Agency is hereby requested to amend and rewrite the Guidelines for Implementation of the California Environmental Quality Act of 1970 to indicate the manner in which a "master environmental assessment" may be prepared that will inventory and list significant environmental characteristics of an area, (2) the manner in which such master environmental assessment may be certified as adequate, (3) the manner in which the master environmental assessment shall be used to determine public policy with respect to preservation of such environmental characteristics, and (4) the manner in which such public policy is to be carried out and implemented by each local agency having jurisdiction within the area in question; and be it further

Resolved, That the Secretary of the Resources Agency is hereby requested, after consulting appropriate state and local agencies, but in any event no later than January 1, 1977, to amend such guidelines so that they clearly indicate the manner in which local governments should identify, evaluate, and seek to mitigate adverse environmental impacts of specific projects which are areawide in nature and consequently beyond the statutory jurisdiction of such individual local governments, or, if the secretary determines that it is not possible or practicable to amend the guidelines in such a manner, to report such determination, together with the reasons therefor, to the Legislature no later than January 1, 1977; and be it further

RESOLUTION CHAPTER 120

Assembly Joint Resolution No. 53—Relative to the elimination of barriers to the physically handicapped at postsecondary educational institutions.

[Filed with Secretary of State August 30, 1976.]

WHEREAS, Section 504 of the Rehabilitation Act of 1973 guarantees equal rights to the handicapped and provides that ". . . no otherwise qualified handicapped individual in the United States . . . shall solely by reason of the individual's handicap be excluded from the participation in, be denied the benefits of, or be subjected to the discrimination under any program or activity

receiving Federal financial assistance"; and

WHEREAS, That same act reaffirmed the essential responsibility and function of various state agencies of vocational rehabilitation to "increase services to the severely disabled"; and

WHEREAS, The Elementary and Secondary Education Act of 1974 declares "it to be the policy of the United States of America that every citizen is entitled to meet his or her full potential without financial barriers . . ."; and

WHEREAS, It has been determined in a recent survey that in excess of $25,000,000, prorated over a period of three years, will be necessary in order to make California public postsecondary campuses free of architectural barriers that impede the movement of physically handicapped persons; and

WHEREAS, The California Department of Rehabilitation, the primary state agency charged with returning disabled citizens to employment, and the California community colleges, representing 100 campuses throughout California, that offer educational and training programs and services to over 30,000 physically, educationally, and mentally handicapped students, jointly desire to cooperate for the benefit of removing barriers to disabled citizens of California at its postsecondary educational institutions; and

WHEREAS, Presently, many vital educational and training programs are incapable of being attended by severely disabled persons strictly by virtue of the fact that they are unable to reach the classrooms or negotiate the terrain of the campuses; and

WHEREAS, This situation discriminates against otherwise qualified handicapped individuals solely by reason of their handicap by excluding disabled persons from participation in and benefiting from educational and training programs and activities now receiving federal financial assistance; and

WHEREAS, Barriers at postsecondary educational institutions deny the equal rights of the handicapped, now guaranteed by the Vocational Rehabilitation Act; and

WHEREAS, The cost of providing training and education to disabled citizens and thereby increasing their economic independence will be far less than the cost of continued public dependency; now, therefore, be it

Resolved by the Assembly and Senate of the State of California, jointly, That the Legislature of the State of California respectfully memorializes the President and Congress of the United States to take legislative action to appropriate the necessary funds to aid California's public postsecondary campuses to remove the architectural barriers that obstruct the mobility and functioning of disabled persons attempting to utilize existing public postsecondary educational buildings and campuses; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the President and Vice President of the United States, to the Speaker of the House of Representatives, and to each Senator and Representative from California in the Congress of the United States.

WHEREAS, In various areas of the state, an adequate water fire flow cannot be obtained for fire protection; and

WHEREAS, It has been found that there is no requirement or method of financing to upgrade deficient water mains in existing neighborhoods; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Public Utilities Commission conduct a study to review and prescribe methods which public utility water suppliers can use to finance the upgrading of presently deficient water mains in older neighborhoods to provide water flow standards to meet requirements for fire protection and report the results of such study to the Legislature on or before June 1, 1977; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the Public Utilities Commission.

RESOLUTION CHAPTER 123

Senate Joint Resolution No. 53—Relative to the conservation of mineral resources.

[Filed with Secretary of State August 30, 1976.]

WHEREAS, Mineral resources are essential to the economy of the State of California and vitally important to public and private construction in this state; and

WHEREAS, The loss of mineral resources due to urbanization between 1970 and the year 2000 is estimated to total 17 billion dollars, if current practices are continued; and

WHEREAS, The estimated losses are based largely on the added cost to the public due to increasing transportation costs, the cost of relocating mining operations further from markets, and the use of lower-grade deposits that require more processing, and some mineral deposits being threatened by urbanization are unique and cannot be replaced, and

WHEREAS, Senate Concurrent Resolution No. 34 of the 1967 Regular Session urged cities, counties, and regional associations to cooperate with the Division of Mines and Geology of the Department of Conservation in development of the conservation of the mineral rock, sand, and gravel resources of the state; and

WHEREAS, Senate Bill No. 1402 of the 1967 Regular Session, if enacted, would have required the State Geologist to make inventory of the rock, sand, and gravel resources of any region of the state in which he determines that there is a serious threat that an adequate supply of rock, sand, and gravel will not continue to be available at a reasonable cost; and

WHEREAS, Senate Concurrent Resolution No. 89 of the 1971 Regular Session pointed out that the mineral resources of the State of California are essential to the economy of the state and are vitally supportive of every facet of various programs relating to housing, transportation, commerce, and industry; and

WHEREAS, Such resolution further requested the Division of Mines and Geology, in concert with the State Mining and Geology Board, to submit to the Governor and the Legislature proposed legislation regarding a state mined lands reclamation and use plan; and

WHEREAS, Chapter 1225 of the Statutes of 1972 declared state policy with regard to the utilization and conservation of mineral resources and provided that it is the responsibility of the State Geologist to carry out such policy; and

WHEREAS, Chapter 507 of the Statutes of 1973 required the annual report of the State Geologist to include the economic utilization and conservation of the state's mineral resources and problems related thereto; and

WHEREAS, Senate Bill 932 of the 1975–76 Regular Session, as

introduced, would have appropriated funds for the preparation of a full inventory of mineral resources, to be completed by January 1, 1980; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature of the State of California memorializes the United States Geological Survey, the United States Bureau of Mines, and the California Division of Mines and Geology to intensify their efforts to catalog those mineral resources of critical importance to the future economy of California that are within, and adjacent to, urban areas; and be it further

Resolved, That local governments are requested to protect such critical mineral resources, access thereto, and the mining thereof within their jurisdictions by special zoning, including buffer zones around them as necessary, and to require mine operators to conduct operations as compatibly as practicable with their surroundings and to rehabilitate depleted mined lands for subsequent beneficial use, such as parks, open space, or urban development; and be it further

Resolved, That the Division of Mines and Geology is requested to make demand projections for the critical mineral commodities used in California, so that local governments are aware of their future mineral resource requirements and may plan better for the use of the deposits available to them; and be it further

Resolved, That the Secretary of the Senate transmit copies of this resolution to the United States Geological Survey, the United States Bureau of Mines, and the California Division of Mines and Geology.

[Filed with Secretary of State September 3, 1976.]

WHEREAS, In a world preoccupied with a myriad of other problems, the transcendent crises of our time, the threat of nuclear war and the annihilation of most of mankind, continue to worsen almost unnoticed; and

WHEREAS, The nuclear arms race between the United States and the Soviet Union continues, for all practical purposes, virtually unchecked, in as much as in the past seven years, the number of deliverable warheads on strategic missiles on both sides has increased nearly fourfold and the so-called "cap" on nuclear weapons, established through the SALT talks, sets a new and higher ceiling on the number of weapons; and

(b) A comprehensive agreement ending underground nuclear explosions under adequate verification;

(c) A halt to transfer of nuclear fuel, technology, and equipment to any country which has not accepted the International Atomic Energy Safeguards on all its nuclear programs and which has not become a party to the Treaty on the Non-Proliferation of Nuclear Weapons, upon condition that all major nuclear suppliers agree to a similar halt on such transfers;

(d) An agreement providing for the processing of all nuclear fuels, transferred from one country to another, in multinational regional nuclear fuel cycle centers which are protected by the strictest possible safeguards; and

(e) A transfer of weapons grade materials from military to peaceful uses; now, therefore, be it

Resolved by the Senate and Assembly of the State of California, jointly, That the Legislature does hereby request that the President of the United States propose to the President of Mexico the creation of a bilateral commission on the treatment and possible release of American citizens in Mexican jails; and be it further

[Filed with Secretary of State September 7, 1976.]

1 152 291 130 804

WHEREAS, An essential element in providing the children of this state with both excellent and equal educational opportunity is the quality of the preparation of their teachers and administrators; and

WHEREAS, A need exists for school administrators, teachers, and counselors to know and apply the state and federal laws, regulations, and guidelines pertaining to ethnic and sexual stereotyping, including Titles VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, and Chapter 5 (commencing with Section 91) of Division 1 of, and Sections 9001 and 9002 of, the Education Code, in providing an environment which contributes to an excellent and equal educational opportunity of the pupils; and

[Filed with Secretary of State September 7, 1976.]

WHEREAS, The State Department of Health experienced a budget deficit in its State Hospital Division of approximately five million dollars; and

WHEREAS, This budget deficit resulted from an error in calculation of the attrition rate of level-of-care staff due to

retirement, death, and resignations, thereby resulting in an overestimation of the savings of budgeted salary amounts at the state hospitals by approximately five million dollars; and

WHEREAS, This error in accurately computing the salary savings resulted in a deficit and subsequent hiring freeze, causing hardship on the part of both the level-of-care staff and clients and patients; and

WHEREAS, Future budgetary errors resulting in deficits are possible due to the lack of accurate attrition estimates for level-of-care staff in our state hospitals; and

WHEREAS, There is a growing concern over the issue of patients' rights, with a possibility of litigation against the State Department of Health to guarantee adequate staffing standards for patient and client care, treatment, and training; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the State Department of Health, Division of State Hospitals, is requested to develop and report to the Legislature, within 60 days of the adoption of this resolution, the projected staffing levels of each state hospital over the next five years, comparing recruitment and training capacity factors with attrition rates which take into account such factors as the health of the general economy, employee deaths, resignations for various reasons, and retirement; and be it further

Resolved, That, in its report to the Legislature, the State Department of Health, Division of State Hospitals, shall compare the expected level-of-care staffing levels for the next five years at each state hospital with the staffing levels and standards of the Joint Commission on the Accreditation of Hospitals, the PRU-72 staffing recommendations, and those standards implemented in Alabama under the judicial decision in Wyatt vs Stickney; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the Director of Health.

RESOLUTION CHAPTER 141

Assembly Concurrent Resolution No. 198—Relative to school tax revenue bases.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, The current fiscal crisis facing California school districts, the Serrano decision prohibiting "significant disparities in expenditures per pupil among school districts," and the recent extraordinary increases in property tax burdens all indicate that a shift of the tax base for school financing from property taxes to alternative bases should be considered as a reasonable solution to such problems; and

WHEREAS, There is need for a comprehensive study of the feasibility and impact of a tax shift for the purpose of school funding reform, in order that the Legislature will have sufficient information on which to base decisions regarding such a tax shift; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislative Analyst, with the cooperation of the Assembly Office of Research and the Senate Office of Research, is requested to determine the feasibility and fiscal impact upon individuals at various income levels, banks and corporations, and school districts, of shifting the tax base for school

funding revenues from the property tax base to alternative tax bases; and be it further

Resolved, That the Legislative Analyst is requested to report such determination to the Legislature on the date specified by the Joint Rules Committee.

Assembly Concurrent Resolution No. 206—Relative to postsecondary education for handicapped adults.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, Postsecondary education programs which serve the educational needs of handicapped adults have long been established pursuant to Sections 5746 et. seq. of the Education Code; and

WHEREAS, California school districts and community college districts currently offer postsecondary education programs in approximately 150 sheltered workshops and work activity centers statewide; and

WHEREAS, Section 504 of the 1973 Federal Vocational Rehabilitation Act states that "No otherwise qualified handicapped individual . . . shall, solely by reason of his handicap, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance;" and

WHEREAS, Postsecondary education programs in sheltered workshops and work activity centers offer to handicapped adults the same opportunities available to nonhandicapped persons to receive basic education and vocational and prevocational training, and to achieve personal competency skills and independent living skills; and

WHEREAS, Department of Rehabilitation statistics show that the 15,000 handicapped persons who obtain permanent employment each year as a result of rehabilitation and training programs save the state eleven million dollars ($11,000,000) each year in welfare, Medi-Cal, and social security costs, while contributing an additional nine million dollars ($9,000,000) each year in state and federal taxes; and

WHEREAS, A Department of Finance audit report, dated January 29, 1976, has proposed that all state funding for educational offerings in sheltered workshops be terminated as of June 30, 1976; and

WHEREAS, Such termination may result in dire consequences both for handicapped adults as well as increasing costs to the state of providing alternative services, assistance, and care to such persons; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate

thereof concurring, That the Legislature, recognizing legal, fiscal, and humanitarian reasons for ensuring postsecondary educational opportunities to handicapped adults through sheltered workshops and work activity centers, reaffirms its intent to provide adequate educational and vocational training opportunities for such handicapped persons and requests the Department of Finance to maintain state funding of the costs of instruction and instructionally related administrative services for handicapped adults in such workshops and centers pending a thorough review of sheltered workshop and work activity center programs, and of the appropriate levels and methods of support to be provided for such programs; and be it further

Resolved, That the Chief Clerk of the Assembly is directed to transmit a copy of this resolution to the Department of Finance.

RESOLUTION CHAPTER 143

Assembly Concurrent Resolution No. 208—Relative to the valuation of securities held by state retirement systems.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, Present law permits the respective boards of the Public Employees' Retirement System and the State Teachers' Retirement System to adjust the book value of certain securities purchased in replacement of securities sold at a profit, but is silent with respect to adjustment if losses on sales are involved; and

WHEREAS, Senate Bill No. 388 of the 1975–1976 Regular Session would permit the boards to use a deferral and amortization method in accounting for both gains and losses realized on fixed-income investments under conditions provided therein; and

WHEREAS, The concept which would be permitted by SB 388 has been explored in depth over many years by individual public retirement systems; and

WHEREAS, The national organizations to which such systems, including the California systems, belong, have concurred in the concept; and

WHEREAS, The accounting industry has not taken a position, despite years of urging by the public systems; and

WHEREAS, From time to time the California systems request bids from the accounting industry to perform the audit services required by law; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Board of Administration of the Public Employees' Retirement System and the Teachers' Retirement Board thoroughly examine the merits of the procedures which would be permitted by SB 388, as it relates to bond investments, in order to

Resolved, That the respective boards report such determinations to the Legislature on the date specified by the Rules Committee; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the executive officer of the Public Employees' Retirement System and the chief executive officer of the State Teachers' Retirement System.

RESOLUTION CHAPTER 144

Assembly Concurrent Resolution No. 216—Relative to the Commission on Teacher Preparation and Licensing.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, The Commission on Teacher Preparation and Licensing is responsible for licensing individuals who intend to teach in California public schools; and

WHEREAS, Chapter 1020 of the Statutes of 1973 authorized the establishment of two new teaching credentials in the fields of history and government; and

WHEREAS, The Commission on Teacher Preparation and Licensing has included the subject matters of both history and government within the broader category of social sciences, thereby permitting an individual to teach history and government with either a history or government credential or with a social science credential; and

WHEREAS, It is alleged that the proposed scope and content statement for a social science credential requires neither training nor competence in the principles and concepts of either American, European, or Third World history, and that required knowledge of the principles and procedures of American government is minimal; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Commission on Teacher Preparation and Licensing is hereby requested to remove history and government from those subjects included in the social science single-subject credential; or as an alternative, amend the scope and content statement for the social sciences to include identifiable concepts and data drawn from history and American government as to approximate the present balance among history, government, and the other social sciences in the current instructional load of the secondary schools of California; and be it further

Resolved, That the Commission on Teacher Preparation and Licensing submit a report detailing its plans with regard to such credentials not later than the fifth legislative day of the 1977–78 Regular Session of the Legislature.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, Chapter 1236, Statutes of 1971, authorized the Director of the Department of Rehabilitation to declare any real or personal property of the California Industries for the Blind Program as surplus property and authorized the Director of the Department of General Services to transfer any such property in trust to a nonprofit corporation which operates manufacturing centers, salesrooms, and opportunity centers providing employment for blind and other handicapped persons; and

WHEREAS, The Director of the Department of General Services and California Industries for the Blind, Inc. (CIB, Inc.) entered into an "Agreement for Transfer in Trust," under which the state agreed to transfer such property to CIB, Inc. on the express condition that it be utilized to "effect the employment of blind and other handicapped persons"; and

WHEREAS, CIB, Inc., has experienced severe financial difficulties since its inception and, for the nine-month period ending March 31, 1976, had an operating loss in excess of $455,000; and

WHEREAS, CIB, Inc., despite the trust agreement, has failed to employ a significant number of blind individuals; and

WHEREAS, CIB, Inc.'s work force as of May 21, 1976, consisted of only 74 blind employees, which represented only 49 percent of CIB, Inc.'s total work force; and

WHEREAS, The average hourly wage for CIB, Inc.'s blind employees is only $2.64, and 29 out of the 74 blind employees earn below $2.30 per hour; and

WHEREAS, The majority of CIB, Inc.'s blind work force is engaged in the manufacture of goods such as mops, brooms, and seatbelts, which require considerable manual dexterity; and

WHEREAS, It appears that many CIB, Inc. employees are being underemployed and could potentially be trained to do work more compatible with their handicap and at the same time earn a decent living wage; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Department of Rehabilitation undertake a study of alternatives to the employment of blind persons

Resolved, That a copy of this resolution be transmitted to the Director of the Department of Rehabilitation.

RESOLUTION CHAPTER 150

Senate Concurrent Resolution No. 111—Relative to emergency alarm devices for schoolbuses.

[Filed with Secretary of State September 7, 1976.]

WHEREAS, The recent abduction of 26 schoolchildren and their driver in rural Madera County demonstrates the particular vulnerability of schoolbuses transporting students in rural areas to

such crimes; and

WHEREAS, A delay of more than three hours elapsed before this unprecedented mass kidnapping was detected; and

WHEREAS, This delay in detection allowed the perpetrators of the crime to successfully elude law enforcement agencies and move the children and their driver many miles from the scene of the crime; and

WHEREAS, In spite of massive efforts by several law enforcement agencies to locate the missing children, they were unable to determine the direction or the distance in which the children had been taken; and

WHEREAS, The aforementioned facts placed those children in potentially life-threatening jeopardy; and

WHEREAS, There is presently no method by which such a crime in a rural setting can be quickly detected; and

WHEREAS, An emergency alarm device could alert the public and law enforcement personnel to schoolbuses in emergency situations; and

WHEREAS, With such timely notice, crimes of the sort perpetrated in Madera County could be made difficult or impossible due to the shortened response time of law enforcement agencies; now, therefore, be it

Resolved by the Senate of the State of California, the Assembly thereof concurring, That the Legislature direct a task force, coordinated by the California Highway Patrol, consisting of the members of the California Highway Patrol, the California Department of Justice, and the California Department of Education, working cooperatively with public and private agencies, and, in particular, with all concerned school districts and law enforcement agencies, to study the feasibility of installing such emergency signaling devices in appropriate schoolbuses; and be it further

[Filed with Secretary of State September 10, 1976.]

WHEREAS, In the 1967 case of Vogel v. County of Los Angeles, 68 Cal. 2d 18, the California Supreme Court held the Levering oath to be invalid as an unconstitutional violation of the first amendment of the Constitution of the United States, making such discharge or denial of employment unjustifiable and wrong; and

WHEREAS, In the 1971 case of Monroe v. Trustees of the California State Colleges, 6 Cal. 3d 399, the California Supreme Court held that an employee who was discharged by the Trustees of the California State Colleges solely for refusal to sign the Levering oath was entitled to reinstatement; and

WHEREAS, The Santa Rosa-Sebastopol Highway was closely associated with the life of Luther Burbank and served as the pathway which took him to and from his work; and

WHEREAS, Luther Burbank, the great naturalist whose lifework vastly enriched the welfare of mankind, was a resident of the Santa Rosa Valley for more than 50 years; and

WHEREAS, The importance of Luther Burbank to the study of plant genetics and the corresponding benefit to the world in increased food supply cannot be overemphasized; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the members request the Department of Transportation to proceed promptly to install appropriate signs along State Highway Route 12 between Santa Rosa and Sebastopol designating that route as "The Luther Burbank Memorial Highway" in memory of a great man who performed his lifework in the Santa Rosa Valley; and be it further

RESOLUTION CHAPTER 155

Assembly Concurrent Resolution No. 230—Relative to a study on mobilehome park services.

[Filed with Secretary of State September 10, 1976.]

WHEREAS, California's mobilehome parks provide for greater utilization of land in urban areas through greater density of dwelling units; and

WHEREAS, The residents of California's mobilehome parks, like all other citizens, are affected by the increasing costs of governmental services; and

WHEREAS, A study by the City of Sacramento indicates that approximately one-third less effort is involved collecting refuse cans in mobilehome parks than the comparable can collection at family residences; and

WHEREAS, The City of Sacramento has reduced by 33 percent the cost per month per can for collection of refuse in mobilehome parks; and

WHEREAS, A study for the Santa Cruz County Sanitation District showed that water consumption by residents of mobilehome parks is 40 percent to 60 percent of the amount consumed by a similar number of conventional single-family dwelling units; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Legislative Audit Committee direct the Office of the Auditor General to study the costs of providing water, garbage collection, and sewage disposal services to California's mobilehome park residents and the actual charges made or approved therefor by cities or counties or special districts, and that such report be made to the Legislature before March 31, 1977.

RESOLUTION CHAPTER 156

Assembly Concurrent Resolution No. 202—Relative to the State Personnel Board.

[Filed with Secretary of State September 10, 1976.]

WHEREAS, Existing State Personnel Board specifications contain information on "typical tasks," that do not completely reflect the demands placed upon members of the California Highway Patrol; and

WHEREAS, The physical and emotional demands placed upon members of the California Highway Patrol, especially those on road patrol, which is normal full duty for traffic officers, and a large part of a sergeant's full duty, are not evident on the existing specification sheets; and

WHEREAS, As an improved standardized work performance evaluation tool, the California Highway Patrol has developed, and is in the final process of validating, "critical tasks" for the various patrol member classifications; and

WHEREAS, These critical tasks reflect physical and emotional demands that are over and above the "typical tasks" which are presently shown on the State Personnel Board specification sheet; and

WHEREAS, The risk of injury faced by members of the California Highway Patrol is high, from 1960 through 1975, 20.1% of the law enforcement officers in California killed in the line of duty were members of the California Highway Patrol, yet the California Highway Patrol comprised only 13.1% of the total number of officers; and

WHEREAS, The use of the existing State Personnel Board specification sheet minimizes the physical and emotional demands associated with normal full duty, and this results in incomplete medical conclusion on work limitations and in turn, to improper administrative decisions based on that medical information; and

WHEREAS, Medical and administrative decisions should be based upon the criteria utilized in evaluating performance; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Public Employees' Retirement System, the State Personnel Board, and the Department of the California Highway Patrol evaluate methods for establishing criteria to be used in the determination of disability retirement, appeals of medical termination, and requests for reinstatement of a member of the California Highway Patrol; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the State Personnel Board, the Department of the California Highway Patrol, and the Public Employees' Retirement System.

RESOLUTION CHAPTER 157

Assembly Concurrent Resolution No. 175—Relative to the State Personnel Board.

[Filed with Secretary of State September 13, 1976.]

WHEREAS, All California citizens and residents are entitled to equal employment opportunities under law; and

WHEREAS, Substantial numbers of non-English-speaking citizens and residents are subject to contact with state and local agencies whose public contact persons do not speak the language of the citizen; and

WHEREAS, These non-English-speaking citizens and residents frequently experience serious communication problems because of their inability to communicate in English; and

WHEREAS, These communication difficulties frequently jeopardize equal access to information and services which are guaranteed to all citizens and residents alike; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That each state agency having local offices shall annually conduct a survey of each such local office to determine all of the following:

(a) The number of public contact positions, as defined in Section 7297 of the Government Code, in each such office;

(b) The number of bilingual employees in public contact positions and the language other than English spoken by each such employee; and

(c) The number and percentage of the general population of each limited-English-speaking group served by each such local office; and be it further

Resolved, That the results of the survey by each state agency shall be reported to the State Personnel Board in a manner as prescribed by the board; and be it further

Resolved, That the State Personnel Board shall annually report to the Legislature the results of the surveys conducted pursuant to this resolution, which results shall be public records; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the State Personnel Board.

RESOLUTION CHAPTER 158

Assembly Concurrent Resolution No. 201—Relative to public higher education.

[Filed with Secretary of State September 13, 1976.]

WHEREAS, The Legislature recognized in enacting Resolution Chapter 209 of the Statutes of 1974 that certain groups, as characterized by sex, ethnic, or economic background, are underrepresented in our institutions of public higher education; and

WHEREAS, The Legislature recognizes that handicapped persons are also underrepresented in our institutions of public higher education and should be treated in the same manner as other underrepresented groups; and

WHEREAS, It is the intent of the Legislature that such underrepresentation be addressed and overcome by 1980; and

WHEREAS, It is the intent of the Legislature that this underrepresentation be eliminated by providing necessary auxiliary services and procedures to ensure entrance and retention rather than by rejecting any qualified student; and

WHEREAS, It is the intent of the Legislature to commit the resources to implement this policy; and

WHEREAS, As used in this measure, "handicapped students" shall mean persons enrolled in a postsecondary program who cannot benefit from the regular educational program provided without special services or programs, because of a physical, communication, or learning disability. Such disabilities shall be defined as follows:

(a) "Physical disability" means a disability attributable to a vision, mobility, orthopedic, or other health impairment.

(b) "Communication disability" means a disability attributable to a speech or hearing impairment.

(c) "Learning disability" means a disability attributable to a neurological, biochemical, or developmental impairment; the learning impairment shall be of a degree that is measurably responsive to specific educational services or programs; and

WHEREAS, It is the intent of the Legislature that institutions of public higher education shall consider the following methods for fulfilling this policy:

(a) Affirmative efforts to search out and contact qualified handicapped students.

(b) Experimentation to discover alternate means of evaluating the student potential of handicapped students.

(c) Augmented handicapped student financial assistance programs.

(d) Improved counseling for handicapped students; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Regents of the University of California, the Trustees of the California State University and Colleges, and the Board of Governors of the California Community Colleges are hereby requested to prepare a plan that will provide for addressing and overcoming, by 1980, the underrepresentation of handicapped students in the makeup of the student bodies of institutions of public higher education as compared to the general proportion of such students in recent California high school graduation classes, and to

submit such plan to the California Postsecondary Education Commission on or before July 1, 1977. The California Postsecondary Education Commission is requested to integrate and transmit the plans to the Legislature with its comments by the first legislative day of 1978; and be it further

Resolved, That the Chief Clerk of the Assembly transmit copies of this resolution to the Regents of the University of California, the Trustees of the California State University and Colleges, the Board of Governors of the California Community Colleges, and the California Postsecondary Education Commission.

RESOLUTION CHAPTER 159

Assembly Concurrent Resolution No. 221—Relative to state employee salaries.

[Filed with Secretary of State September 13, 1976.]

WHEREAS, Section 18850.3 of the Government Code directs the State Personnel Board to annually file a report with the Governor and the Legislature on matters under its jurisdiction pertaining to and affecting the salaries, wages, and other conditions of work relating to civil service personnel; and

WHEREAS, More than 10 years have passed since the State Personnel Board last reported to the Governor and Legislature concerning adoption of adequate provisions that recognize long-service employees by granting a level of cash compensation above the maximum salary range for each class of position; and

WHEREAS, Recent surveys indicate that many private firms recognize the long service of employees with some form of incentive cash compensation or award; and

WHEREAS, The federal government and several large local government jurisdictions in California, including Los Angeles County, also provide formal compensation systems that give special recognition to long-service employees; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Legislature recommends the establishment of a tangible incentive program available to all state employees who have achieved the maximum of their salary range; and be it further

Resolved, That such incentive premium shall be a form of recognition of long service and effective performance that will in all respects accommodate the recognized system of merit established by the Constitution of the State of California; and be it further

Resolved, That the State Personnel Board report to the Legislature on alternative methods for the implementation of such a program by July 1, 1977; and be it further

Resolved, That the Chief Clerk of the Assembly transmit a copy of this resolution to the State Personnel Board.

RESOLUTION CHAPTER 160

Assembly Concurrent Resolution No. 170—Relative to a study of the law relating to tort liability.

[Filed with Secretary of State September 13, 1976.]

WHEREAS, The Legislature finds all of the following:

(1) That physicians, hospitals, and other health care providers have extreme difficulty in procuring liability insurance covering negligent acts occurring within the scope of their method of operation.

(2) That cities and other entities and organizations of local government are experiencing difficulty in locating markets which provide liability insurance for willful and negligent acts of themselves and their employees in their official capacities, whether governmental or proprietary.

(3) That manufacturers and others within the products distribution system are experiencing massive price increases for liability insurance covering defects in, and uses of, goods manufactured for personal and business consumption.

(4) That lawyers and other professionals are experiencing substantial price increases for liability insurance covering negligent acts occurring within the scope of their authorized operations.

(5) That it is alleged that in other jurisdictions accountants, architects and others dealing with substantial business enterprises are experiencing increasing difficulty in locating markets for such insurance.

(6) That the populace in general is experiencing substantial price increases for liability insurance covering the negligent operation of motor vehicles.

(7) That some of the victims of incapacitating physical injuries are not always compensated by necessary and adequate damages.

(8) That it appears that, in connection with all such liability insurance, a pattern is emerging which commences with steadily increasing insurance prices and culminates in the virtual unavailability of the affected insurance coverages.

(9) That the law of liability had its genesis some 400 years past, has continued to develop upon essentially the same base of individual responsibility, has attempted to adapt itself to the technological progress and the mechanization of society, and has evolved a system of rules likewise as applicable to the individual as the large, complex and legally recognizable but artificial entities utilized by society to minister to the needs and desires of the citizen.

(10) That it is now apparent that it is essential that a comprehensive study and evaluation of the law of liability, whether founded in negligence, strict liability, willfulness, or other similar concepts, be conducted to determine its continued efficacy as a loss-allocating and loss-compensating system, with a view toward the doing of substantial justice to all parties directly affected thereby and the fiscal stability and efficiency thereof; and

WHEREAS, The California Law Revision Commission has not previously been authorized to study the topic of tort liability and related matters; and

WHEREAS, There is a need for a comprehensive study of this topic; now, therefore, be it

Resolved by the Assembly of the State of California, the Senate thereof concurring, That the Joint Legislative Committee on Tort Liability is hereby created with the following composition, powers, and duties:

(1) The joint committee shall consist of five Members of the Senate appointed by the Committee on Rules thereof and five Members of the Assembly appointed by the speaker thereof. Five members of the committee shall be members who are not lawyers. The Joint Committee on Rules shall designate the chairman of the committee. The members shall serve at the pleasure of the appointing power and vacancies shall be filled by the appointing power.

(2) The joint committee shall make a study to determine the need for revision of the law relating to tort liability, including the rules governing liability for, and the amount of compensation or damages to be paid on account of, injury to, or death of, persons or damage to, or destruction of, property, the manner and method of determination and payment thereof, and related matters. The study may include a study of liability arising from defective products, whether the liability is based upon contract or tort, governmental liability, malpractice liability, third party liability arising from the working conditions of industrial employees, and liability for vehicle accidents. It is not intended that such joint committee shall concern itself with such matters as the law of libel, business torts, privacy invasion, or like matters unrelated to the consequences of personal injury-producing activities of society.

(3) The study shall include all of the following:

(a) An evaluation of the viability of individual responsibility as a basis for allocating the risk of, compensating the victims of, and designating the financing of losses of the injured victims of, injury-producing activities of California society.

(b) An evaluation of other alternative bases for allocating such risks, compensating such victims, and designating such financing.

(c) A critical examination of the rules of the law of liability whether procedural, substantive, or evidentiary, in light of their propensity to achieve the following objectives:

(i) Substantial justice to all parties individually involved in the

liability-fixing mechanism.

(ii) Cost-minimizing systems for allocating risk and financing losses.

(iii) Necessary and adequate, but not excessive or speculative, compensation to victims.

(iv) Relative certainty in establishment of liability and consequent compensation.

(v) Critical evaluation of alternative approaches to accomplish the objectives of substantial justice, cost of minimizing risk-allocating and loss-financing systems, adequate compensation and certainty in predicting the fact and amount of loss, including an evaluation of the awarding of punitive damages, exemplary damages, or other penalties in addition to compensation for actual provable loss.

(vi) Recommendations for an appropriate basis for a system of risk allocation, loss financing, and a victim compensation system to relieve and cure the effects of injury-producing activities of society.

(vii) Recommendations for the proper implementation of such appropriate basis, together with language for specific statutory enactment thereof.

(viii) An actuarial and financial analysis of such recommended system, including an analysis of the long- and short-term anticipated performance thereof and the anticipated comparison of and improvement over the existing mechanism.

(ix) An evaluation of whether insurance premium increases have been justified.

(x) Other recommendations, analyses, and conclusions that the joint committee deems relevant to its charge hereunder.

(4) The committee and its members shall have and exercise all of the rights, duties, and powers conferred upon investigating committees and their members by the provisions of the Joint Rules of the Assembly and Senate as they are adopted and amended from time to time at this session, which provisions are incorporated herein and made applicable to the committee and its members.

(5) (a) The joint committee shall publish a comprehensive background study relating to tort liability. The background study shall include an analysis of the major policy issues relevant to revision of the law relating to tort liability, with a discussion of the legal and practical considerations relevant to the resolution of those policy issues. The background study may also contain such economic and statistical data as is considered relevant to the matters discussed in the study.

(b) The Joint Legislative Committee on Tort Liability shall hold hearings on the revision of the law relating to tort liability.

(c) The joint committee shall submit a report to the Governor and the Legislature. The report shall include an analysis of the major policy issues relevant to revision of the law relating to tort liability, with a discussion of the legal and practical considerations relevant to the resolution of those policy issues. The report shall contain the joint committee's recommendations with respect to those issues and

relating to revision of the law relating to tort liability. To the extent the joint committee considers it to be feasible, the report shall include the full text or a summary of comments and recommendations submitted by various interested organizations with respect to the joint committee's recommendations.

(d) Nothing in this foregoing paragraph is intended to preclude the joint committee from submitting recommendations on specific aspects of the subject of tort liability to the Governor and Legislature at any time prior to the completion of the comprehensive study if the joint committee concludes that there is an urgent need for legislative action with respect to the specific recommendation submitted. In preparing such specific recommendations, the joint committee may solicit the views of all interested persons and organizations, including any legislative committees concerned with the subject matter of the recommendation.

(6) The Joint Legislative Committee on Tort Liability may establish one or more advisory committees to provide advice and input to the joint committee on the tort liability study.
