CHAPTER 725

An act to amend Section 466 of the Penal Code, relating to crimes.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 466 of the Penal Code is amended to read:

466. Every person having upon him or in his possession a picklock, crow, keybit, or other instrument or tool with intent feloniously to break or enter into any building, railroad car, aircraft, or vessel, trailer coach, or vehicle as defined in the Vehicle Code, or who shall knowingly make or alter, or shall attempt to make or alter, any key or other instrument above named so that the same will fit or open the lock of a building, railroad car, aircraft, or vessel, trailer coach, or vehicle as defined in the Vehicle Code, without being requested so to do by some person having the right to open the same, or who shall make, alter, or repair any instrument or thing, knowing or having reason to believe that it is intended to be used in committing a misdemeanor or felony, is guilty of a misdemeanor.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 726

An act to amend Section 5604 of the Welfare and Institutions Code, relating to mental health.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 5604 of the Welfare and Institutions Code is amended to read:

5604. (a) Each community mental health service shall have an advisory board of 17 members appointed by the governing body

except that such boards in counties with a population of less than 100,000 may have a minimum of 11 members. One member of the advisory board shall be the chairman of the local governing body. Not less than 51 percent of the members of the advisory board shall be persons representative of the public interest in mental health; provided, however, that not less than one-half of the members representing the public interest shall be persons or the parents, spouse, or adult children of persons, who have received mental health services. The advisory board shall contain two physicians, one of whom shall specialize in psychiatry, and the remaining members shall be selected from among the following disciplines: psychology, social work, nursing, education, marriage and family counseling, psychiatric technology, criminal justice, hospital or community mental health facility administration, and fiscal management. For members not representing the public interest, the governing body shall appoint persons representing different disciplines. The governing body may designate a person of its choice who does not qualify as a professional member under this section to serve instead of the chairman as a member of the advisory board.

(b) The term of each member of the board shall be for three years; provided, however, that of the members first appointed to a board with 17 members, six shall be appointed for one year, six for a term of two years, and five for a term of three years. For members appointed to boards of less than 17 members, the governing body shall equitably stagger the appointments so that approximately one-third of the appointments shall be for one year, one-third for two years, and one-third for three years. For the members first appointed as a result of the amendment to this section by the 1975–76 Regular Session of the Legislature, one-third shall be for a term of one year, one-third for a term of two years, and one-third for a term of three years. If, however, prior to the expiration of such term a member ceases to retain the status which qualified the person for appointment on the board, the membership on the board shall terminate and there shall be a vacancy on the board.

(c) If two local agencies jointly establish a community health service under Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code, the advisory board for such community mental health service shall consist of an additional two members, one of whom shall be the chairman of the second governing body or a person who does not qualify as a professional member under this section designated by the second governing body and the second of whom shall be an additional person or a parent, spouse, or adult child of a person who has received mental health services.

(d) No member of the advisory board or his or her spouse shall be

a full-time or part-time county employee of the county mental health service, an employee of the State Department of Health, an employee of the Department of Benefit Payments, or an employee of a Short-Doyle contract facility.

(e) If it is not possible to secure membership as specified from among persons who reside in the county, the governing body may substitute representatives of the public interest in mental health who are not full-time or part-time employees of the county mental health service, the State Department of Health, the Department of Benefit Payments, or on the staff of a Short-Doyle contract facility.

CHAPTER 727

An act to add Sections 41766.5, 41767.5, 84732.5, and 84733.5 to the Education Code, relating to school and community college districts.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 41766.5 is added to the Education Code, to read:

41766.5. A request made pursuant to Section 41766 shall be in effect from year to year until revoked by the governing board.

SEC. 2. Section 41767.5 is added to the Education Code, to read:

41767.5. A request made pursuant to Section 41767 shall be in effect from year to year until revoked by the governing board.

The governing board shall notify the Superintendent of Public Instruction when the redevelopment project is terminated, or when the redevelopment project changes in such a way as to substantially affect the tax revenue it contributes to the district.

SEC. 3. Section 84732.5 is added to the Education Code, to read:

84732.5. A request made pursuant to Section 84732 shall be in effect from year to year until revoked by the governing board.

SEC. 4. Section 84733.5 is added to the Education Code, to read:

84733.5. A request made pursuant to Section 84733 shall be in effect from year to year until revoked by the governing board.

The governing board shall notify the Chancellor of the California Community Colleges when the redevelopment project is terminated, or when the redevelopment project changes in such a way as to substantially affect the tax revenue it contributes to the district.

CHAPTER 728

An act to amend Section 30700.5 of the Water Code, relating to Pleasant Valley County Water District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 30700.5 of the Water Code is amended to read:

30700.5. Notwithstanding Section 30021 or any other provision of the law, in the Pleasant Valley County Water District every owner of land within the district, but no others, may vote at the election for directors or otherwise. Such owners need not be residents of the district in order to qualify as voters. Each voter shall be entitled to cast one vote for each one hundred dollars ($100) of assessed valuation of land, exclusive of improvements, minerals, and mineral rights therein, to which he had title. The last equalized county assessment roll is conclusive evidence of ownership and of the value of the real property so owned. Upon request by the county clerk, the county assessor shall provide within 45 days a certified list of every owner of real property within the district and the assessed value of the land, exclusive of improvements, minerals, and mineral rights therein, owned by the voter in the district. Where the land is owned in joint tenancy, tenancy in common, or any other multiple ownership, the owners of such land shall designate in writing which one of the owners shall be deemed the owner of such land for purposes of qualifying as a voter.

The legal representative of a corporation or estate owning real property may vote on behalf of such corporation or estate. As used in this section, legal representative means an official of a corporation owning real property or a guardian, executor, or administrator of the estate of the holder of title to real property who:

(a) Is appointed under the laws of the state.

(b) Is entitled to possession of the estate in real property.

(c) Is authorized by the appointing court to exercise the particular right, privilege or immunity which he seeks to exercise. Before a legal representative votes at a district election he shall present to the precinct board a certified copy of his authority which shall be kept and filed with the returns of the election.

Every voter, or his legal representative, may vote at any district election either in person or by a person duly appointed as his proxy, but shall be entitled to cast only one vote. The appointment of a proxy shall be as provided in Section 35005.

The provisions of this section shall apply only to a county water district heretofore formed in Pleasant Valley, Ventura County. These

special provisions are necessary for reasons similar to those expressed in Section 30205.

SEC. 2. There are no state-mandated local costs within the meaning of 2231 of the Revenue and Taxation Code imposed on local governmental entities by this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Severe drought conditions are being experienced in the Pleasant Valley County Water District. The district has made an application to the United States Bureau of Reclamation for a loan under the Small Reclamation Projects Act to engage in a project for more efficient management and conservation of ground water within the district. An election approving the contract with the United States is necessary and is planned to be held during the early part of 1977. Section 30700.5 of the Water Code, prior to the enactment of Chapter 1273 of the Statutes of 1976, required that only landowners could vote in an election held within the Pleasant Valley County Water District. Chapter 1273 of the Statutes of 1976 clarified the identification of voters, but still may be subject to a constitutional challenge under the decisions of Salyer Land Co. v. Tulare Lake Basin Water Storage District (410 U.S. 719) and Schindler v. Palo Verde Irrigation District (1 Cal. App. 3d 831) as not weighting the voting as required in landowner voting districts.

In order to hold an immediate election for the purpose of approving a project to conserve the limited ground water supplies within the district, it is necessary that this act take effect immediately.

CHAPTER 729

An act to add Section 20009.7 to the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 20009.7 is added to the Government Code, to read:

20009.7. "Public agency" also includes a public or private nonprofit corporation which operates an independent living center providing services to severely handicapped people and established pursuant to federal P.L. 93-112, which receives the approval of the board, and which provides three of the following services:

(a) Assisting severely handicapped people to obtain personal

attendants who provide in-home supportive services.

(b) Locating and distributing information about housing in the community usable by severely handicapped people.

(c) Providing information about financial resources available through federal, state and local government, and private and public agencies to pay all or part of the cost of the in-home supportive services and other services needed by severely handicapped people.

(d) Counseling by people with similar disabilities to aid the adjustment of severely handicapped people to handicaps.

(e) Operation of vans or buses equipped with wheelchair lifts to provide accessible transportation to otherwise unreachable locations in the community where services are available to severely handicapped people.

"Public agency" for purposes of this part shall constitute only the employees of the independent living center.

Notwithstanding any other provisions of this part, such public or private nonprofit corporation may elect by appropriate provision or amendment of its contract not to provide credit for service prior to the effective date of its contract.

CHAPTER 730

An act to amend Sections 66901, 66904, 67000, and 67002 of the Education Code, and to amend Section 11126 of the Government Code, relating to postsecondary education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 66901 of the Education Code is amended to read:

66901. There is hereby created the California Postsecondary Education Commission, which shall be advisory to the Governor, the Legislature, other appropriate governmental officials, and institutions of postsecondary education. The commission shall be composed of the following members:

(1) Two representatives of the Regents of the University of California designated by the regents, two representatives of the Trustees of the California State University and Colleges designated by the trustees, and two representatives of the Board of Governors of the California Community Colleges designated by the board. Representatives of the regents, the trustees, and the board of governors shall be chosen from among the appointed members of their respective boards, but in no instance shall an ex officio member of a governing board serve on the commission.

(2) Two representatives of the independent California colleges and universities which are accredited by a national or regional association which is recognized by the United States Office of Education. These members shall be appointed by the Governor from a list or lists submitted by an association or associations of such institutions.

(3) The chairmen of the California Advisory Council on Vocational Education and Technical Training and the Council for Private Postsecondary Educational Institutions or their designees from among the other members of their respective councils.

(4) The President of the State Board of Education or his designee from among the other members of the board.

(5) Twelve representatives of the general public appointed as follows: four by the Governor, four by the Senate Rules Committee, and four by the Speaker of the Assembly. It is the intent of the Legislature that the commission be broadly and equitably representative of the general public in the appointment of its public members and that the appointing authorities, therefore, shall confer to assure that their combined appointments include adequate representation on the basis of sex and on the basis of the significant racial, ethnic, and economic groups in the state.

No person who is regularly employed in any administrative, faculty, or professional position by any institution of public or private postsecondary education shall be appointed to the commission.

The commission members designated in subdivisions (1), (3), and (4) shall serve at the pleasure of their respective appointing authorities. The member designated in subdivision (2) shall serve a three-year term. The members designated in subdivision (5) shall each serve a six-year term. When vacancies occur prior to expiration of terms, the respective appointing authority may appoint a member for the remainder of the term.

Any person appointed pursuant to this section may be reappointed to serve additional terms.

No person appointed pursuant to this section shall, with respect to any matter before the commission, vote for or on behalf of, or in any way exercise the vote of, any other member of the commission.

The commission shall meet as often as it deems necessary to carry out its duties and responsibilities.

Any member of the commission who in any calendar year misses more than one-third of the meetings of the full commission forfeits his office, thereby creating a vacancy.

The commission shall select a chairman from among the members representing the general public. The chairman shall hold office for a term of one year and may be selected to successive terms.

There is established an advisory committee to the commission and the director, consisting of the chief executive officers of each of the public segments, or their designees, the Superintendent of Public Instruction or his designee, and an executive officer from each of the groups of institutions designated in subdivisions (2) and (3) of

Section 66901 to be designated by the respective commission representative or representatives from such groups. Commission meeting agenda items and associated documents shall be provided to the committee in a timely manner for its consideration and comments.

The commission may appoint such subcommittees or advisory committees as it deems necessary to advise it on matters of educational policy. Such advisory committees may consist of commission members or nonmembers or both, including students, faculty members, segmental representatives, governmental representatives, and representatives of the public.

The commission shall appoint and may remove a director in the manner hereinafter specified. He shall appoint persons to such staff positions as the commission may authorize.

The commission shall prescribe rules for the transaction of its own affairs, subject, however, to the following requirement and limitations: (1) The votes of all representatives shall be recorded, (2) effective action shall require the affirmative vote of a majority of all the duly appointed members of the commission, not including vacant commission seats, and (3) the affirmative votes of two-thirds of all the duly appointed members of the commission, not including vacant commission seats, shall be necessary to the appointment of the director.

SEC. 2. Section 66904 of the Education Code is amended to read:

66904. It is the intent of the Legislature that sites for new institutions or branches of the University of California and the California State University and Colleges, and such classes of off-campus centers as the commission shall determine, shall not be authorized or acquired unless recommended by the commission.

It is further the intent of the Legislature that California community colleges shall not receive state funds for acquisition of sites or construction of new institutions, branches, or off-campus centers unless recommended by the commission. Acquisition or construction of non-state-funded community college institutions, branches, off-campus centers, and proposals for such acquisition or construction shall be reported to and may be reviewed and commented upon by the commission.

It is further the intent of the Legislature that existing or new institutions of public education, other than those described in subdivisions (2) and (3) of Section 66010 shall not be authorized to offer instruction beyond the 14th grade level.

All proposals for new postsecondary educational programs shall be forwarded to the commission for review together with such supporting materials and documents as the commission may specify. The commission shall review such proposals within a reasonable length of time, which time shall not exceed 60 days following submission of the program and the specified materials and documents. For the purposes of this section, "new postsecondary educational programs" means all proposals for new schools or

colleges, all series of courses arranged in a scope or sequence leading to (1) a graduate or undergraduate degree, or (2) a certificate of a type defined by the commission, which have not appeared in a segment's or district's academic plan within the previous two years, and all proposals for new research institutes or centers which have not appeared in a segment's or district's academic plan within the previous two years.

It is further the intent of the Legislature that the advice of the commission be utilized in reaching decisions on requests for funding new and continuing graduate and professional programs, enrollment levels, and capital outlay for existing and new campuses, colleges, and off-campus centers.

SEC. 3. Section 67000 of the Education Code is amended to read:

67000. The people of the State of California accept the provisions of and each of the funds provided by Title 1 and Title X of the Education Amendments of 1972 (Public Law 92-318), the Education Amendments of 1976 (Public Law 94-482), and subsequent enactments amendatory or supplementary thereto.

SEC. 4. Section 67002 of the Education Code is amended to read:

67002. The California Postsecondary Education Commission is designated as the state educational agency to carry out the purposes and provisions of the Education Amendments of 1972 (Public Law 92-318), the Education Amendments of 1976 (Public Law 94-482), and subsequent enactments amendatory or supplementary thereto, as follows:

(a) The commission is designated as the state commission required to be established pursuant to Section 1202 of Title X of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318);

(b) The commission is designated as the state administrative agency required to be established pursuant to Section 1055 of Title X of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318), unless such designation is determined by the federal government to be in conflict with federal law or regulations;

(c) The commission is designated as the state administrative agency required to be established pursuant to Section 105 of Title 1, Section 122 of Title III, Section 603 of Title VI and Section 704 of Title VII of the Higher Education Act of 1965 (Public Law 89-329) as amended by the Education Amendments of 1972 (Public Law 92-318). The California Postsecondary Education Commission is hereby vested with authority to prepare and submit to the United States Commissioner of Education any state plan required by said act of Congress, to prepare and submit amendments to such state plans, and to administer such state plans or amendments thereto, in accordance with said act of Congress and any rules and regulations adopted thereunder. Any such state plan or amendment thereto prepared by the California Postsecondary Education Commission shall be subject to the approval of the Department of Finance to the

extent required by Section 13326 of the Government Code. The California Postsecondary Education Commission is hereby vested with all necessary power and authority to cooperate with the government of the United States, or any agency or agencies thereof in the administration of the act of Congress and the rules and regulations adopted thereunder.

SEC. 5. Section 11126 of the Government Code is amended to read:

As a condition to holding an executive session on the complaints or charges to consider disciplinary action or to consider dismissal such employee shall be given written notice of his right to have a public hearing rather than an executive session, which notice shall be delivered to him personally or by mail at least 24 hours before the time for holding a regular or special meeting. If notice is not given, any disciplinary or other action taken against any employee at such executive session shall be null and void. The state agency also may exclude from any such public or private meeting, during the examination of a witness, any or all other witnesses in the matter being investigated by the state agency. Nothing in this article shall be construed to prevent any state agency from holding an executive session to consider matters affecting the national security.

Nothing in this article shall be construed to grant a right to enter any correctional institution or the grounds of a correctional

Nothing in this article shall be construed to prevent any executive session to consider the conferring of honorary degrees, or gifts, donations and bequests which the donor or proposed donor has requested in writing to be kept confidential.

Nothing in this article shall be construed to prevent the Alcoholic Beverage Control Appeals Board from holding an executive session for the purpose of holding a deliberative conference as provided in Section 11125 of the Government Code.

Nothing in this article shall be construed to prevent the Franchise Tax Board from holding executive sessions for the purpose of discussion of confidential tax returns or data the public disclosure of which is prohibited by law.

Nothing in this article shall be construed to prevent the Board of Corrections from holding executive sessions when considering reports of crime conditions under the provisions of Section 6027 of the Penal Code.

Nothing in this article shall be construed to prevent the State Air Resources Board from holding executive sessions when considering the proprietary specifications and performance data of manufacturers.

Nothing in this article shall be construed to prevent the Board of Administration of the Public Employees' Retirement System from holding executive sessions when considering investment decisions.

Nothing in this article shall be construed to prevent the Teachers' Retirement Board of the State Teachers' Retirement System from holding executive sessions when considering investment decisions.

Nothing in this article shall be construed to prevent the governing body of a public agency, or such boards, commissions, administrative officers, or other representatives as may properly be designated by law or by such governing body, from holding executive sessions with its representatives at any time in discharging its responsibilities under Chapter 10 (commencing with Section 3500) of Division 4 of Title 1 of this code as such sessions relate to salaries, salary schedules, or compensation paid in the form of fringe benefits.

Notwithstanding any other provision of law, any meeting of the

Public Utilities Commission at which the rates of entities under the commission's jurisdiction are changed shall be open and public.

Nothing in this article shall be construed to prevent the Public Utilities Commission from holding executive sessions to deliberate on the institution of proceedings, disciplinary actions against regulated utilities, or litigation.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to permit the California Postsecondary Education Commission to operate under the new rules provided herein for as much of the 1977–78 fiscal year as possible, and to facilitate and expedite the search to fill the anticipated vacancy in the office of the director, it is essential that this act take effect immediately.

When an elementary, unified, high school, community college district or community college district trustee area, includes within its boundaries the same territory, or territory that is in part the same, as a city whose charter requires a regular city election to be held in each odd-numbered year, the consolidated governing

board member elections of the elementary, unified, high school, community college district or community college district trustee area may be held on a Tuesday in the odd-numbered year and may be further consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 14 of the Elections Code. Such consolidation shall be effected by the officer conducting the election having jurisdiction of the elementary, unified, high school or community college district upon the written request of the governing board of the elementary, unified, high school or community college district, with the written consent of the legislative body of the city and the written consents of all of the governing boards of the districts whose governing board member elections are affected. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

When a high school district, community college district, or community college trustee area election is consolidated with that of a city pursuant to this section, or when a high school district, community college district, or community college trustee area is governed by the charter of a city providing for elections on dates other than those specified in this code, and, in either case, such high school district, community college district, or community college trustee area also has within its boundaries component districts whose elections would otherwise be held on the date specified in this code, then the elections in the component districts may be consolidated with the election in the high school district, community college district, or community college trustee area. Such consolidation shall be effected by the officer conducting the election having jurisdiction of the component districts upon the written request of the governing boards thereof and with the written consent of the governing boards of the districts whose governing board member elections are to be consolidated with those of the component districts.

SEC. 3. Section 5007 of the Education Code is amended to read:

5007. When an elementary, unified, high school, community college district includes within its boundaries the same territory, or territory that is in part the same, as a city which holds a city election on the first Tuesday after the first Monday in March in each even-numbered year, the consolidated governing board member elections of the elementary, unified, high school, or community college district, may, at the discretion of the county superintendent of schools, be held on the first Tuesday after the first Monday in March in the even-numbered year and may be further consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 14 of the Elections Code. Such consolidation shall be effected by the officer conducting the election having jurisdiction of the elementary, unified, high school, or community college district upon the written request of the governing board of the elementary, unified, high school, or community college district, with the written consent of the

legislative body of the city and the written consents of all of the governing boards of the districts whose governing board member elections are affected. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

Successors to incumbents holding office upon adoption of this section, who in the absence of this section would have been elected at a different time, shall be chosen for office at the election nearest the time the terms of office of such incumbents would have otherwise expired. If an incumbent's term of office is extended because of this section, he shall hold office until a successor qualifies therefor, but in no event shall the term of an incumbent be extended to exceed four years.

SEC. 4. Section 5010 of the Education Code is amended to read:

5010. When a community college district or community college district trustee area includes within its boundaries the same territory, or territory that is in part the same, as a chartered city which holds a city election on a date other than one of the regular election dates established by Division 4 (commencing with Section 2500) of the Elections Code for the conduct of city elections in odd-numbered years, the governing board member elections of the community college district or community college district trustee area may be consolidated with the city election pursuant to Chapter 4 (commencing with Section 23300) of Part 2 of Division 14 of the Elections Code. Such consolidation shall be effected by the officer conducting the election having jurisdiction of the community college district upon the written request of the governing board of the community college district, with the written consent of the legislative body of the city. The provisions of this section shall be controlling in the event of any conflict with a prior order of the county superintendent of schools made pursuant to Section 5340.

Successors to incumbents holding office upon adoption of this section, who in the absence of this section would have been elected at a different time, shall be chosen for office at the election nearest the time the terms of office of such incumbents would have otherwise expired. If an incumbent's term of office is extended because of this section, he shall hold office until a successor qualifies therefor, but in no event shall the term of an incumbent be extended to exceed four years.

SEC. 5. Section 5091 of the Education Code is amended to read:

5091. (a) Whenever a vacancy occurs, or whenever a resignation has been filed with the county superintendent of schools containing a deferred effective date, the school district or community college district governing board shall, within 30 days of the vacancy or the filing of the deferred resignation, either call an election or make a provisional appointment to fill the vacancy.

(b) When an election is called, it shall be held on the next established election date provided pursuant to Division 4 (commencing with Section 2500) of the Elections Code not less than

98 days after the occurrence of the vacancy or after the written resignation is filed with the county superintendent of schools.

(c) If a provisional appointment is made within the 30-day period, the registered voters of the district may, within 30 days from the date of the appointment, petition for the conduct of a special election to fill the vacancy. A petition shall be deemed to bear a sufficient number of signatures if signed by at least the appropriate percentage of registered voters of the district who voted in the last regular election for governing board members, as follows:

(1) In districts in which less than 75,000 voters voted 5 percent of the number of such voters.

(2) In districts in which 75,000 or more, but less than 200,000, voters voted 3,750 plus 2½ percent of the number, over 75,000, of such voters.

(3) In districts in which 200,000 or more voted 6,875 plus 1 percent of the number, over 200,000, of such voters.

The petition shall be submitted to the county superintendent of schools having jurisdiction who shall have 30 days to verify the signatures. If the petition is determined to be legally sufficient by the county superintendent of schools, the provisional appointment is terminated, and the county superintendent of schools shall call a special election to be conducted no later than the 120th day after the determination.

(d) A provisional appointment made pursuant to subdivision (a) confers no powers or duties of a governing board member upon the appointee during the 30-day period following his appointment and within which a petition calling for a special election may be filed. If a petition is not filed within the 30-day period, the appointee shall thereafter have all the powers and perform all the duties of a governing board member.

(e) A person appointed to fill a vacancy shall hold office only until the next regularly scheduled election for district governing board members, whereupon an election shall be held to fill the vacancy for the remainder of the unexpired term. A person elected at an election to fill the vacancy shall hold office for the remainder of the term in which the vacancy occurs or will occur.

(f) No person appointed as a successor to serve during the remainder of or a portion of a term in which a vacancy occurs shall be designated as an incumbent, a member of the governing board, a school board member, or other designation indicating incumbency, for purposes of the next general election of governing board members.

(g) Whenever a petition calling for a special election is circulated, the petition shall contain the clerk's estimate of the cost of conducting the special election.

(h) Elections held pursuant to subdivisions (b) and (c) shall be conducted in as nearly the same manner as practicable as other governing board member elections.

SEC. 6. Section 5093 of the Education Code is amended to read:

5093. (a) There shall be no special election or appointment to fill a vacancy on a governing board if the vacancy occurs within four months of the end of the term of that position and the incumbent is not reelected to fill the position.

(b) Section 5091 shall not apply to a vacancy on a governing board if the vacancy occurs during the period between four months and 98 days prior to a regularly scheduled governing board election and the position is not scheduled to be filled at such election. In such a case, the position shall be filled at a special election for that position to be consolidated with the regular election. A person elected to fill a position under this subdivision shall take office at the next regularly scheduled meeting of the governing board following the election and shall serve only until the end of the term of the position which he was elected to fill.

(c) If a special election pursuant to Section 5091 could be consolidated with the next regular election for governing board members, and the vacant position is scheduled to be filled at such regular election, there shall be no special election.

SEC. 7. Section 5302 of the Education Code is amended to read:

5302. The duties of the county superintendent of schools having jurisdiction of a school district election or community college district election shall be:

(a) To call elections when ordered under the provisions of this code.

(b) To prepare recommendations, statements, or arguments for any election in which they are required, as provided in this code.

(c) To receive petitions as authorized by this code.

SEC. 8. Section 5322 of the Education Code is amended to read:

5322. Whenever an election is ordered, the governing board of the district or the board or officer authorized by this code to make such designations shall, concurrently with or after the order of election but not less than 98 days prior to the date set for the election, by resolution delivered to the county superintendent of schools and the officer conducting the election specify the following, or such of the following as he or it may have authority to designate:

(a) The date of the election.

(b) The purpose of the election.

The resolution or resolutions shall be known as "specifications of the election order" and shall set forth the authority for ordering the election, the authority for the specification of the election order and the signature of the officer or the clerk of the board by law authorized to make the designations therein contained.

SEC. 9. Section 5324 of the Education Code is amended to read:

5324. At least 95 days prior to the date specified for the holding of any school election, the county superintendent of schools shall deliver to the county clerk or registrar of voters, if such office has been established in the county where the election is to be held, copies of:

(a) The order of election.

(b) The formal notice of election.

SEC. 10. Section 5325 of the Education Code is amended to read:

5325. Any school district election or community college district election ordered to be held in accordance with the provisions of this code shall be called by the county superintendent of schools having jurisdiction of the election by causing the:

5340. School district governing board or community college district governing board member elections for two or more districts of any type to be held in the same district or area on the same day shall be consolidated so that a person entitled to vote in both or all of such elections may do so at the same time and place and using the same ballot.

When a consolidated election is required by this section to be held, the basic unit for conducting the election shall be the elementary district. The county superintendent of schools having jurisdiction shall notify the governing boards of all school and community college districts in writing at least 120 days prior to the date of the election that a consolidated election is required to be held.

SEC. 12. Section 5342 of the Education Code is amended to read:

5342. Whenever any school district election or community college district election is scheduled to be held on the same day, in the same territory, or in territory that is in part the same, as an election or elections called to be held by any other district, city, county or other political subdivision, the district election may be either completely or partially consolidated with such election or elections pursuant to the provisions of Chapter 4 (commencing with Section 23300) of Part 2 of Division 14 of the Elections Code.

Such consolidation may be effected by the officer conducting the election upon receipt of resolutions from two or more political subdivisions calling elections to be held on the same day whose boundaries are totally or partially the same territory; provided such resolutions are delivered to the officer conducting the election at least 80 days prior to the date of the election.

CHAPTER 748

An act to add Section 202.5 to the Code of Civil Procedure, relating to jury duty.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 202.5 is added to the Code of Civil Procedure, to read:

202.5. A peace officer, as defined in Section 830.1 and subdivision (a) of Section 830.2 of the Penal Code, shall be exempt from jury service.

CHAPTER 749

An act to repeal and add Article 1.1 (commencing with Section 14784.1) of, and to repeal Article 1.5 (commencing with Section 14785) of, Chapter 6 of Part 5.5 of Division 3 of Title 2 of the Government Code, relating to recycling.

[Approved by Governor September 12, 1977 Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Article 1.1 (commencing with Section 14784.1) of Chapter 6 of Part 5.5 of Division 3 of Title 2 of the Government Code is repealed.

SEC. 2. Article 1.1 (commencing with Section 14784.1) is added to Chapter 6 of Part 5.5 of Division 3 of Title 2 of the Government Code, to read:

Article 1.1. Recycling

14784.1. The Legislature finds and declares that it is the policy of the state to conserve and protect its resources. The maintenance of a quality environment for the people of this state now and in the future is a matter of statewide concern.

The Legislature further finds and declares that the volume of solid waste generated within the state coupled with an increased rate in the consumption of paper products and the absence of adequate programs and procedures for the reuse of these materials threaten the quality of the environment and well-being of the people of California.

In making these findings the Legislature declares that the policy and intent of this article is to improve environmental quality by the recycling of paper products.

14784.2. For the purposes of this article, the term "recycled paper" shall mean all paper and woodpulp products containing postconsumer waste and secondary waste materials as specified in this section. "Postconsumer waste," means a finished material which would normally be disposed of as solid waste, having completed its life cycle as a consumer item. "Secondary waste," means fragments of products or finished products of a manufacturing process which has converted a virgin resource into a commodity of real economic

value, and includes postconsumer waste, but does not include mill broke, wood slabs, chips, sawdust or other wood residue from a manufacturing process.

Recycled paper means a paper product with not less than 50 percent of its total weight consisting of secondary and postconsumer waste with not less than 10 percent of its total weight consisting of postconsumer waste.

14784.3. The Department of General Services shall revise its procedures and specifications for state purchases of paper to give preference, wherever feasible, to the purchase of paper products containing recycled paper.

The department shall give preference to the suppliers of recycled paper products if the bids of such suppliers do not exceed by more than 5 percent the lowest bid or price quoted by suppliers offering nonrecycled paper products. Such preference shall expire after five years from the effective date of this section.

To encourage the use of postconsumer waste, the department's specifications shall require recycled paper contracts to be awarded to the bidder whose paper contains the greater percentage of postconsumer waste if the fitness and quality and price are otherwise equal.

The department may adopt rules and regulations to carry out the provisions of this article.

14784.4. The director shall report to the Legislature with respect to the revising of its specifications pursuant to Section 14784.3 on or before January 2, 1979.

14784.5. (a) The director shall review the procurement specifications currently used by the department in order to eliminate, wherever economically feasible, discrimination against the procurement of recovered resources and recycled materials.

(b) The director shall review the recycled paper content specifications at least annually to consider increasing the percentage of recycled paper in paper and woodpulp product purchases.

(c) When contracting with the department for the sale of material subject to this article, the contractor shall certify in writing to the contracting officer or his representative that the material offered contains the minimum percentage of recycled paper required by Section 14784.2 and shall specify the percentage of recycled paper content in the paper or paper products.

Such certification shall be furnished under penalty of perjury.

(d) The department shall establish purchasing practices which, to the maximum extent economically feasible, assure purchase of materials which may be recycled or reused when discarded.

(e) The department shall make every effort to eliminate purchases of paper and paper products deemed potential contaminants to the state's recycling program.

14784.6. The department shall require the persons with whom it contracts to use, to the maximum extent economically feasible in the performance of the contract work, recycled paper.

14784.7. The department, with the advice of the State Solid Waste Management Board, shall establish a paper recycling plan for all paper refuse of all state agencies and all offices in state buildings in Sacramento, Los Angeles, and San Francisco Counties, and in any other area as the director deems feasible. The plan shall provide either for the collection and sale of wastepaper to private paper brokers, recycling plants, or the operation of such plants by the state, or a combination thereof. The plan shall be put into operation, to the extent feasible, as soon as possible.

14784.8. The department is authorized to contract as necessary for the recycling of paper products which have been returned pursuant to Section 14784.7.

14785. Revenues received from sale of wastepaper through paper recycling programs operated by the department shall be used when appropriated by the Legislature, first, to offset recycling program costs, and second, to reduce increased charges for recycled paper furnished to state agencies by the department due to the preference which must be given the suppliers of recycled paper pursuant to Section 14784.3. Any remaining revenues not expended during a fiscal year shall be transferred to the General Fund.

14785.1. Fitness and quality being equal, all local public agencies shall purchase recycled paper and paper products instead of unrecycled paper or paper products whenever available at no more than the total cost of unrecycled paper and paper products. All local public agencies may and state agencies shall give preference to the suppliers of recycled paper or paper products if the bids of such suppliers do not exceed by more than 5 percent the lowest bid or price quoted by suppliers offering unrecycled paper or paper products. Such preference shall expire after five years from the effective date of this section.

14785.2. All local public agencies shall require the bidder to specify the percentage of recycled paper content in the paper or paper products. All contract provisions impeding the consideration of products with reclaimed paper content shall be deleted in favor of performance standards.

All printing contracts made by any local agency shall provide that the paper used shall meet the requirements of these provisions.

Except as otherwise provided for in this article, state agencies shall also be subject to the provisions of this section.

14785.3. This article shall not apply to any contract in existence on the effective date of this article.

SEC. 3. Article 1.5 (commencing with Section 14785) of Chapter 6 of Part 5.5 of Division 3 of Title 2 of the Government Code is repealed.

CHAPTER 750

An act to amend Section 5091 of the Education Code, to amend Section 10211 of, and to add Section 10210.5 to, the Elections Code, and to repeal Section 36512.3 of the Government Code, relating to elections.

[Approved by Governor September 12, 1977 Filed with Secretary of State September 12, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 5091 of the Education Code is amended to read:

5091. (a) Whenever a vacancy occurs, or whenever a resignation has been filed with the county superintendent of schools containing a deferred effective date, the school district or community college district governing board shall, within 30 days of the vacancy or the filing of the deferred resignation, either call an election or make a provisional appointment to fill the vacancy.

(b) When an election is called, it shall be held on the next established election date provided pursuant to Chapter 1 (commencing with Section 2500) of Division 4 of the Elections Code not less than 74 days after the occurrence of the vacancy or after the written resignation is filed with the county superintendent of schools.

(c) If a provisional appointment is made within the 30-day period, the registered voters of the district may, within 30 days from the date of the appointment, petition for the conduct of a special election to fill the vacancy. A petition shall be deemed to bear a sufficient number of signatures if signed by at least the appropriate percentage of registered voters of the district who voted in the last regular election for governing board members, as follows:

(1) In districts in which less than 75,000 voters voted 5 percent of the number of such voters.

(2) In districts in which 75,000 or more, but less than 200,000, voters voted 3,750 plus 2½ percent of the number, over 75,000, of such voters.

(3) In districts in which 200,000 or more voted 6,875 plus 1 percent of the number, over 200,000, of such voters.

The petition shall be submitted to the county superintendent of schools having jurisdiction who shall have 30 days to verify the signatures. If the petition is determined to be legally sufficient by the county superintendent of schools, the provisional appointment is terminated, and the county superintendent of schools shall call a special election to be conducted no later than the 120th day after the determination.

(d) A provisional appointment made pursuant to subdivision (a) confers no powers or duties of a governing board member upon the

appointee during the 30-day period following his appointment and within which a petition calling for a special election may be filed. If a petition is not filed within the 30-day period, the appointee shall thereafter have all the powers and perform all the duties of a governing board member.

(e) A person appointed to fill a vacancy shall hold office only until the next regularly scheduled election for district governing board members, whereupon an election shall be held to fill the vacancy for the remainder of the unexpired term. A person elected at an election to fill the vacancy shall hold office for the remainder of the term in which the vacancy occurs or will occur.

(f) Whenever a petition calling for a special election is circulated, the petition shall contain the clerk's estimate of the cost of conducting the special election.

(g) Elections held pursuant to subdivisions (b) and (c) shall be conducted in as nearly the same manner as practicable as other governing board member elections.

SEC. 2. Section 10210.5 is added to the Elections Code, to read:

10210.5. No title or degree shall appear on the same line on a ballot as a candidate's name, either before or after the candidate's name, in the case of any election to any office.

SEC. 3. Section 10211 of the Elections Code is amended to read:

10211. (a) With the exception of candidates for Justice of the State Supreme Court or court of appeal, immediately under the name of each candidate, and not separated from the name by any line, may appear at the option of the candidate only one of the following designations:

(1) Words designating the elective city, county, district, state, or federal office which the candidate holds at the time of filing the nomination papers to which he or she was elected by vote of the people, or to which he or she was appointed, in the case of a superior, municipal, or justice court judge.

(2) The word "incumbent" if the candidate is a candidate for the same office which he or she holds at the time of filing the nomination papers, and was elected to that office by a vote of the people, or, in the case of a superior, municipal, or justice court judge, was appointed to that office.

(3) No more than three words designating the principal professions, vocations, or occupations of the candidate. For purposes of this section, all California geographical names shall be considered to be one word.

(4) The phrase "appointed incumbent" if the candidate holds an office other than a judicial office by virtue of appointment, and the candidate is a candidate for election to the same office, or, if the candidate is a candidate for election to the same office or to some other office, the word "appointed" and the title of the office. In either instance, the candidate may not use the unmodified word "incumbent" or any words designating the office unmodified by the word "appointed."

(b) Neither the Secretary of State nor any other election official shall accept a designation which:

(1) Would mislead the voter.

(2) Would suggest an evaluation of a candidate, such as outstanding, leading, expert, virtuous, or eminent.

(3) Abbreviates the word "retired" or places it following any word or words which it modifies.

(4) Uses a word or prefix, such as "former" or "ex-," which means a prior status. The only exception is the use of the word "retired."

(5) Uses the name of any political party, whether or not it has qualified for the ballot.

(6) Uses a word or words referring to a racial, religious, or ethnic group.

(7) Refers to any activity, which activity is prohibited by law.

If upon checking the nomination papers the election official finds the designation to be in violation of any of the restrictions set forth in this subdivision, the election official shall notify the candidate by registered mail return receipt requested. The candidate shall, within three days from the date of receipt of the notice, appear before the election officer or, in the case of the Secretary of State, notify the Secretary of State by telephone, and provide an alternate designation. In the event the candidate fails to provide an alternate designation, no designation shall appear after the candidate's name.

(c) The designation shall remain the same for all purposes of both primary and general elections unless the candidate, at least 70 days prior to the general election requests in writing a different designation which the candidate is entitled to use at the time of the request.

(d) In all cases words so used shall be printed in eight-point roman uppercase and lowercase type except that if the designation selected is so long that it would conflict with the space requirements of Sections 10207 and 10221, the election official shall use a type size sufficiently smaller to meet these requirements.

(e) Whenever a foreign language translation of a candidate's designation is required under the Voting Rights Act of 1965, as amended by Public Law 94-73, to appear on the ballot in addition to the English language version, it shall be as short as possible, as consistent as is practicable with the provisions of this section, and shall employ abbreviations and initials wherever possible in order to avoid undue length.

SEC. 4. Section 36512.3 of the Government Code is repealed.

CHAPTER 751

An act relating to the Public Employees' Retirement System and making an appropriation therefor.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Department of Finance with the cooperation of the Public Employees' Retirement System and the State Personnel Board shall conduct a study to evaluate the current membership categories for state employees in the Public Employees' Retirement System, the criteria used and the assumptions involved in assigning classes of employment to those categories, and the similarities and differences in the retirement benefits provided those categories. If deficiencies are found, recommendations for improvement shall be made. The findings shall include postretirement employment statistics relating to early retirement of state members and its effect on the adequacy of state member retirement benefits.

The findings shall also include the anticipated cost of all recommendations and suggested methods for funding such cost and shall be transmitted to the Legislature by January 1, 1979.

SEC. 2. There is hereby appropriated to the Department of Finance from the General Fund the sum of five thousand dollars ($5,000) for allocation to the Public Employees' Retirement System, the State Personnel Board, and the Department of Finance to fund the actuarial and administrative work necessary to accomplish the objective of this act.

CHAPTER 752

An act to amend Section 22464 of the Financial Code, relating to financial institutions.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 22464 of the Financial Code is amended to read:

22464. No licensee shall knowingly induce any borrower to split up or divide any loan with any other licensee. No licensee shall induce or permit any borrower to be or to become obligated directly or indirectly, or both, under more than one contract of loan at the same time with the same licensee for the purpose or with the result of obtaining a higher rate of charge than would otherwise be

permitted by this article.

For the purposes of this section, "borrower" includes any husband and wife whether jointly or severally obligated.

CHAPTER 753

An act to add Sections 23826.8 and 23826.9 to the Business and Professions Code, relating to alcoholic beverages.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 23826.8 is added to the Business and Professions Code, to read:

23826.8. Notwithstanding any other provision of law, the director may in the public interest authorize the conversion of any on-sale general license for seasonal business issued before July 1, 1977, in a county with a population of less than 50,000 to an on-sale general license when the director makes a finding that an increase in transient or seasonal population warrants the issuance of additional on-sale general licenses in any such county. The director shall conduct a drawing to determine the priority for the conversion of any such licenses.

The Legislature by enacting this section, declares and finds that specified counties in California, whose economy is dependent upon the year-round use of those county's recreational facilities, have a need for additional on-sale general licenses and it is in the best interests of such counties to convert existing on-sale general licenses for seasonal business to on-sale general licenses rather than allowing the issuance of additional on-sale general licenses.

SEC. 2. Section 23826.9 is added to the Business and Professions Code, to read:

23826.9. Any on-sale general license issued pursuant to Section 23826.8 shall be accompanied by the fee required by Section 23954. Such license shall not be transferred or sold within seven years of the effective date of its issuance, except the director may authorize such transfer or sale in cases of extreme hardship, such as, but not limited to, death, illness or financial disaster.

CHAPTER 754

An act to add Chapter 17.8 (commencing with Section 7320) to Division 7 of Title 1 of the Government Code, relating to displaced homemakers, and making an appropriation therefor.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977]

The people of the State of California do enact as follows:

SECTION 1. This act is known and may be cited as the "Displaced Homemaker Employment Act."

SEC. 2. Chapter 17.8 (commencing with Section 7320) is added to Division 7 of Title 1 of the Government Code, to read:

CHAPTER 17.8. DISPLACED HOMEMAKERS

7320. The Legislature hereby finds and declares that there is an ever-increasing number of persons in this state who, having fulfilled a role as homemaker, find themselves "displaced" in their middle years through divorce, death of spouse, or other loss of family income. As a consequence, displaced homemakers are very often without any source of income; they are ineligible for categorical welfare assistance; they are subject to the highest unemployment rate of any sector of the work force; they face continuing discrimination in employment because they are older and have no recent paid work experience; they are ineligible for unemployment insurance because they have been engaged in unpaid labor in the home; they are ineligible for social security because they are too young, and for many, they will never qualify for social security because they have been divorced from the family wage earner; they have often lost their rights as beneficiaries under employers' pension and health plans through divorce or death of spouse, despite many years of contribution to the family well-being; and they are most often ineligible for Medi-Cal, and are generally unacceptable to private health insurance plans because of their age.

The Legislature further finds and declares that homemakers are an unrecognized part of the work force who make an invaluable contribution to the welfare of the society as a whole.

It is the intention of the Legislature in enacting this chapter to provide the necessary counseling, training, jobs, services and health care for displaced homemakers so that they may enjoy the independence and economic security vital to a productive life and to improve the health and welfare of this ever-growing group of citizens.

7321. As used in this chapter, "displaced homemaker" is an individual who:

(a) Is over 35 years of age;

(b) Has worked without pay as a homemaker for his or her family;

(c) Is not gainfully employed;

(d) Has had, or would have, difficulty finding employment; and

(e) (1) Has depended on the income of a family member and has lost that income; or

(2) Has depended on government assistance as the parent of dependent children, but who is no longer eligible for such assistance.

7322. The Secretary of Health and Welfare shall establish a multipurpose service center for displaced homemakers in the County of Los Angeles. To the greatest extent possible the secretary shall make grants to nonprofit agencies or organizations to carry out the various programs of the centers, as enumerated in Sections 7324 to 7330, inclusive. The service center shall be designed and staffed as follows:

(a) The multipurpose service center shall be designed to provide displaced homemakers with the necessary counseling, training, skills, services, and education to become gainfully employed, healthy, and independent.

(b) To the greatest extent possible, the staff of the service center, including supervisory, technical, and administrative positions shall be filled by displaced homemakers. Where necessary, potential staff members shall be provided with on-the-job training by independent contractors or volunteer agencies.

7323. The secretary shall explore all possible sources of funding and in-kind contributions from federal, local, and private sources in establishing the service center, including building space, equipment, and qualified personnel for training programs.

7324. The multipurpose service center shall have a job-counseling program for displaced homemakers. Job counseling shall be specifically designed for the person reentering the job market after a number of years as a homemaker. The counseling will take into account, and build upon, the skills and experiences of a homemaker. Peer counseling and job readiness as well as skill updating and development shall be emphasized.

7325. The multipurpose service center shall have a job-training program for displaced homemakers. The staff at the center shall work with local government agencies and private employers to develop training programs for available jobs in the public and private sectors. The job-training programs shall provide a stipend for trainees.

7326. The service center shall include, but not be limited to, the following job-training programs:

(a) Lay advocates. This program shall be directed toward developing skills in counseling and advising on administrative procedures in government programs such as social security, supplemental security income, welfare, and unemployment, in order that such trainees will be trained for employment in social service agencies on a community level, such as senior citizen centers and legal aid offices.

(b) Home health technicians. This program shall be directed toward developing skills in nutrition, basic health care, and nursing for the disabled and elderly, in order that such trainees will be trained for employment by persons who are homebound through illness or disability and unable to care for themselves and their own households.

(c) Health care counselors. This program shall be directed toward developing skills in counseling techniques and in basic health care, especially for middle years individuals, in order that such trainees will be trained for employment in community and hospital outpatient health clinics.

7327. Each of the job-training programs enumerated in Section 7326 shall have as a goal for the first year, training and placing displaced homemakers, some of whom could be employed in the service programs specified in Section 7324. In addition, the service center staff shall develop with the Employment Development Department plans for including more displaced homemakers in existing job-training and placement programs.

7328. Service center staff shall be responsible for assisting the trainee in finding permanent employment. To this end, the secretary and the service center staff shall work with the Employment Development Department and the prime sponsors under the Comprehensive Employment and Training Act of 1974 in the area of the center to secure employment for displaced homemakers.

7329. The multipurpose service center shall include, but not be limited to, the following service programs for displaced homemakers:

(a) A well-woman health clinic. Based on principles of preventative health care and consumer health education, the clinics shall be staffed to the greatest extent possible by displaced homemakers and serve the health needs of older women in particular. The functions of the clinic shall include:

(1) Basic physical and gynecological examinations with emphasis on screening for common health problems of older women. The examinations may be conducted by nurse practitioners. Emphasis of such program shall be on explanation and education about health care and physical well-being.

(2) Information and referral to physicians and clinics.

(3) Discussion and activity groups on menopause, aging, weight, and nutrition.

(4) Alcohol and drug addiction programs designed specifically to deal with the social and physical causes of addiction among displaced homemakers and other middle-aged women.

(b) Money management courses, including information and assistance in dealing with insurance programs (life, health, home, and car), taxes, mortgages, loans, and probate problems.

(c) Outreach and information for government programs, including concrete information and assistance with supplemental security income, social security, Veterans Administration benefits,

welfare, food stamps, unemployment insurance, and Medi-Cal.

(d) Educational programs, including courses offering credit through community colleges or leading toward a high school equivalency degree. These courses shall be designed to supplement the usual academic course offerings with classes geared toward older persons to improve their self-image and abilities.

7330. The secretary, in consultation with the director of the service center, shall establish regulations concerning the eligibility of persons for the job training and other programs of the multipurpose service center, the level of stipends for the job training programs described in Section 7305, a sliding fee scale for the service programs described in Section 7309, and such other matters as the secretary deems necessary. Eligibility for services within the multipurpose service center shall be limited to those persons with severe social or economic circumstances.

7331. (a) The secretary shall require the director and staff of the multipurpose service center to evaluate the effectiveness of the job training, placement and service components of the center. Such evaluation shall include the total number of persons making application for services provided by the centers, the number of persons selected for services by each type of service provided, a description of the social and economic characteristics of persons receiving services by type of service provided, and an assessment of appropriate criteria for defining "persons with severe social or economic circumstances" for purposes of Section 7330 for each type of service provided. The evaluation shall assess the effectiveness of each type of service in removing or reducing barriers handicapping displaced homemakers from achieving independence and self-sufficiency, and shall describe the costs associated with each type of service.

(b) The evaluation shall identify and describe the range and type of services being provided by existing agencies within the area served by the service center which are comparable to services provided by the center. The evaluation shall identify and describe the extent to which comparable services provided by existing agencies can serve as resources to the service centers, and shall also identify which existing agency, if any, would be suitable for locating a displaced homemaker services center program if that program were to be continued.

(c) There shall be a first-year evaluation in accordance with the requirements of this section filed by the director of the center with the secretary and the Legislature no later than February 1 of the first year of operation; and there shall be a second-year evaluation filed by the director with the secretary and the Legislature no later than January 1 of the year after the second year of operation.

7332. The secretary may delegate any or all of the authority granted him by this chapter to whatever department within the Health and Welfare Agency which he deems appropriate.

7333. Two years after this act goes into effect the Secretary of the

Health and Welfare Agency and the Legislative Analyst shall report to the Legislature on the effectiveness of this program.

7334. This chapter shall remain in effect only until January 1, 1980, and after that date shall remain in effect only in the event that the Legislature appropriates through the annual Budget Act sufficient funds to continue the center, or federal-state funds are made available on a 90/10 percent matching basis.

7335. It is the intent of the Legislature to provide for the continued funding of displaced homemaker center projects in accordance with the availability of federal funds through the establishment of a federal program, and the appropriation of state funds on a matching basis.

Displaced homemaker centers shall be eligible to apply for federal funding to continue their projects after the expiration of current state funding.

SEC. 3. The sum of two hundred thousand dollars ($200,000) is hereby appropriated from the General Fund to the Secretary of Health and Welfare for the purpose of carrying out the provisions of this act. Such appropriation shall be available for expenditure until January 1, 1980.

CHAPTER 755

An act to amend Sections 7311 and 7314 of the Government Code, relating to displaced homemakers, and making an appropriation therefor.

[Approved by Governor September 12, 1977 Filed with Secretary of State September 12, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 7311 of the Government Code is amended to read:

7311. (a) The secretary shall require the director and staff of the multipurpose service center to evaluate the effectiveness of the job training, placement and service components of the center. Such evaluation shall include the number of persons trained, the number of persons placed in employment, follow-up data on such persons, the number of persons served by the various service programs, and cost effectiveness of the various components of the center.

(b) There shall be a first-year evaluation in accordance with the requirements of this section filed by the director with the secretary no later than February 1, 1977; there shall be a second-year evaluation filed by the director with the secretary no later than January 1, 1978; and there shall be a third-year evaluation filed no later than April 1, 1979.

SEC. 2. Section 7314 of the Government Code is amended to

read:

7314. (a) Except as provided in subdivison (b), this chapter shall remain in effect only until January 1, 1978, and as of such date is repealed, unless a later enacted statute, which is chaptered on or before January 1, 1978, deletes or extends such date.

(b) The provisions of this chapter applicable to the multipurpose service center for displaced homemakers in the County of Alameda shall remain in effect only until January 1, 1979, and as of such date are repealed, unless a later enacted statute, which is chaptered on or before January 1, 1978, deletes or extends such date.

SEC. 2. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the Secretary of Health and Welfare for the purpose of carrying out the provisions of law relating to the multipurpose service center for displaced homemakers in the County of Alameda. Such appropriation shall be available for expenditure until January 1, 1979.

CHAPTER 756

An act making an appropriation for the state park system, and in this connection amending and supplementing the Budget Act of 1977 by adding Section 2.9C thereto, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977.]

I am reducing the appropriation made by this bill from $5,000,000 to $2,500,000 by eliminating Item 443C(a) which would have appropriated $2,500,000 for the acquisition of the Malibu Pier and adjacent lands for the state park system. Since public access to the pier is presently available and access to the beach and ocean is provided at two nearby state parks, I do not believe it is necessary for the State to acquire this property.

With this reduction, I approve Senate Bill No. 448

EDMUND G BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. Section 2.9C is added to the Budget Act of 1977, to read:

NEJEDLY-HART STATE, URBAN, AND COASTAL PARK BOND ACT PROGRAM

SEC. 2.9C. The following sums of money, or so much thereof as may be necessary, are hereby appropriated for expenditure during the 1977–78, 1978–79, and 1979–80 fiscal years, unless otherwise provided herein, for the programs contemplated by Section 5096.124 of the Public Resources Code, except that appropriations for studies,

planning and working drawings shall be available for expenditure only during the 1977–78 fiscal year. All such appropriations shall be paid out of the State, Urban, and Coastal Park Fund.

CAPITAL OUTLAY

Resources

443C—For capital outlay, Department of Parks and Recreation, for purposes set forth in paragraph (1) of subdivision (b) and subdivision (c) of Section 5096.124 of the Public Resources Code, payable from the State, Urban, and Coastal Park Fund 5,000,000

Schedule:

(a) Malibu Beach and adjoining pier—acquisition and planning (structural safety report) 2,500,000

provided, that none of the funds appropriated for this project may be expended for the appraisal or purchase of real property until the State Public Works Board has approved a report regarding the structural safety, costs of deferred maintenance, and costs of rehabilitation of the pier and, on the basis of that report, also has determined that the pier is suitable for public ownership.

(b) Santa Susana Mountains—acquisition 2,500,000

provided, that none of the funds appropriated for acquisition of parklands by this item may be encumbered for the purchase of real property until the State Public Works Board has determined that the procedures and criteria established by the Attorney General relating to implied dedication and public prescriptive rights or claims have been complied with in the investigations and appraisals of the Department of General Services. All material relating to implied dedication and public prescriptive rights or claims shall be retained in the files of the Department of General Services and shall be available for postaudit on a selective basis by the Attorney General.

Provided, further, that none of the funds appropriated by this item for the projects set forth herein shall be available for expenditure unless and until such projects are recommended by the State Park and Recreation Commission and reviewed by the Secretary of the Resources Agency.

SEC. 2. The acquisitions authorized by this act shall be made pursuant to the Property Acquisition Law (commencing with Section 15850 of the Government Code).

SEC. 3. The Legislature finds and declares as follows:

Malibu Beach is one of the most popular and heavily used beaches anywhere. The owner of approximately 650 feet of beach adjacent to the Malibu Pier has offered to sell to the state this beach property and adjacent pier at what he believes is significantly below fair market value, thereby making a partial gift to the state.

The Malibu Pier is an historical landmark and is the only pier owned by a willing seller between Pt. Hueneme and Santa Monica, a stretch of about 50 miles of beach that adjoins the most heavily populated portion of the state.

Members of the public are currently welcome on this property as customers of the business operation.

This is the last large piece of undeveloped beach property in this portion of Malibu.

The Malibu unincorporated area is comprised of 27 miles of beach coastline; 21 miles of the beach lands are privately owned and only six miles are publicly owned.

SEC. 4. Sections 1 and 2 of this act shall become operative on July 1, 1977.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Inasmuch as this act amends the Budget Act of 1977, which will become operative on July 1, 1977, and this act provides for the acquisition of 650 feet of exceptionally valuable beach frontage and other lands that are greatly needed for the state park system, it is necessary that this act take effect immediately.

CHAPTER 757

An act to amend Section 19627.5 of, and to add Section 19630.3 to, the Business and Professions Code, relating to fairs, and making an appropriation therefor.

[Approved by Governor September 12, 1977. Filed with Secretary of State September 12, 1977]

I am eliminating the 1978–79 appropriation and the 1979–80 appropriation A task force is currently being formed with the participation of the Joint Committee on Fairs Allocation and Classification, the Department of Food and Agriculture, the Department of Finance, the Legislative Analyst's Office, and fairs' representatives to investigate the long-term funding problems of fairs. The work of this group should be accomplished well in advance of 1979–80

With this reduction, I approve Assembly Bill No 700

EDMUND G. BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 19627.5 of the Business and Professions Code is amended to read:

19627.5. Notwithstanding the provisions of Section 19627, any unanticipated revenues, other than any allocation from the state, which are in excess of the approved budget for any fiscal or calendar year of any county, district, combined county and district fair, or citrus fruit fairs, shall be retained by such fair and may be expended for any purpose described in Section 19627.3; provided, however, that the amount so retained each budget year pursuant to this section shall not exceed 20 percent of the budgeted revenue.

Such funds may be expended, without regard to any fiscal year, by any fair to which Section 19627 applies, upon positive action by the board of directors of such fair, which shall be recorded in the official minutes of such fair approving a plan of expenditure for such funds for the purposes described in Section 19627.3.

SEC. 2. Section 19630.3 is added to the Business and Professions Code, to read:

19630.3. There is hereby appropriated from the fund the sum of four million dollars ($4,000,000) each year for the fiscal years 1977–78, 1978–79, and 1979–80, to the Department of Food and Agriculture for allocation, without regard to any fiscal year, to county, district, combined county and district, or citrus fruit fairs for major and deferred maintenance projects.

An act to add Section 52302.7 to the Education Code, relating to regional occupational centers.

[Became law without Governor's signature September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 52302.7 is added to the Education Code, to read:

52302.7. A regional occupational center may provide, on an individual referral basis, academic and personal development instruction for adult students enrolled in a vocational education course conducted by the regional occupational center when it is determined that it is essential for such instruction to be given to ensure the employability of the adult student.

The people of the State of California do enact as follows:

SECTION 1. Section 1043 of the Penal Code is amended to read:

1043. (a) Except as otherwise provided in this section, the defendant in a felony case shall be personally present at the trial.

(b) The absence of the defendant in a felony case after the trial has commenced in his presence shall not prevent continuing the trial to, and including, the return of the verdict in any of the following cases:

(1) Any case in which the defendant, after he has been warned by the judge that he will be removed if he continues his disruptive behavior, nevertheless insists on conducting himself in a manner so disorderly, disruptive, and disrespectful of the court that the trial cannot be carried on with him in the courtroom.

(2) Any prosecution for an offense which is not punishable by death in which the defendant is voluntarily absent.

(c) Any defendant who is absent from a trial pursuant to paragraph (1) of subdivision (b) may reclaim his right to be present at the trial as soon as he is willing to conduct himself consistently with the decorum and respect inherent in the concept of courts and judicial proceedings.

(d) Subdivisions (a) and (b) shall not limit the right of a defendant to waive his right to be present in accordance with Section 977.

(e) If the defendant in a misdemeanor case fails to appear in person at the time set for trial or during the course of trial, the court shall proceed with the trial, unless good cause for a continuance exists, if the defendant has authorized his counsel to proceed in his absence pursuant to subdivision (a) of Section 977.

If the court finds the defendant has absented himself voluntarily with full knowledge that the trial is to be held or is being held, the court, in its discretion, may do one or more of the following, as it deems appropriate:

(1) Continue the matter.

(2) Order bail forfeited or revoke release on the defendant's own recognizance.

(3) Issue a bench warrant.

(4) Proceed with the trial.

Nothing herein shall limit the right of the court to order the defendant to be personally present at the trial for purposes of identification unless counsel stipulate to the issue of identity.

[Became law without Governor's signature September 13, 1977
Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 172.3 is added to the Penal Code, to read:

172.3. The provisions of Section 172a shall not apply to the sale or exposing or offering for sale of any alcoholic beverages on the premises of, and by the holder or agent of a holder of, any off-sale license situated within 1½ miles from the grounds of the University of Redlands.

CHAPTER 761

An act to add Chapter 9 (commencing with Section 25898) to Division 20 of the Health and Safety Code, relating to aerosol propellants.

[Approved by Governor September 13, 1977. Filed with
Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 9 (commencing with Section 25898) is added to Division 20 of the Health and Safety Code, to read:

Chapter 9. Aerosol Propellants

25898. (a) On and after October 15, 1978, no person shall manufacture in this state a saturated chlorofluorocarbon not containing hydrogen for use as an aerosol propellant in a can, canister, or other container.

(b) On and after December 15, 1978, no person shall manufacture in this state any can, canister, or other container which is intended to utilize an aerosol propellant chemically composed, in whole or in part, of a saturated chlorofluorocarbon not containing hydrogen.

(c) On and after April 15, 1979, no person shall sell in this state any can, canister, or other container which utilizes an aerosol propellant chemically composed, in whole or in part, of a saturated chlorofluorocarbon not containing hydrogen.

25898.5. Notwithstanding the foregoing provisions of this chapter, nothing in this chapter shall preclude the manufacture or sale of saturated chlorofluorocarbons not containing hydrogen for any of the uses exempted in currently proposed federal regulations,

to be modified as such federal regulations are modified.

25899. The provisions of subdivisions (a) and (b) of Section 25898 shall be superseded by the enactment or adoption of any federal law or regulation prohibiting the manufacture of any aerosol product utilizing saturated chlorofluorocarbons not containing hydrogen and prohibiting the manufacture of saturated chlorofluorocarbons not containing hydrogen for use as an aerosol propellant in a can, canister, or other container.

SEC. 2. The California Legislature finds: that available scientific information, including the September 1976 study of the National Academy of Sciences Panel on Impacts of Stratospheric Change and the June 1975 report of the Federal Task Force on Inadvertent Modification of the Stratosphere (IMOS), indicates a substantial possibility that chlorofluoromethanes, or fluorocarbon compounds, when discharged into the atmosphere, dissipate or impair the earth's protective layer of ozone; that the dissipation or impairment of even a small portion of the ozone layer is likely to decrease its screening of ultraviolet radiation; that any significant increase in human exposure to ultraviolet radiation is likely to increase the risk of skin cancer and other serious illness; that any significant increase in exposure of the environment to ultraviolet radiation may endanger the environment and adversely affect public health and welfare; that the use of aerosol containers discharges a saturated chlorofluorocarbon not containing hydrogen which is eventually dissociated in the stratosphere by ultraviolet radiation, causing, among other results, the production of chlorine which serves as a catalyst in the dissipation of stratospheric ozone; that the United States Food and Drug Administration has announced that it plans to begin labeling and eventually phase out the use of aerosol fluorocarbons; that an increasing number of individuals, primarily children and young adults, have died because of the inhalation of saturated chlorofluorocarbons not containing hydrogen in aerosol containers used as a propellant for certain products, including, but not limited to, cleaning fluids, air fresheners, food products, lubricants, and other personal products; that according to a national opinion survey conducted by the United States Consumer Product Safety Commission for November 1976, over 61 percent of those surveyed believed that fluorocarbon aerosols should be removed from the market; and that the use of aerosol containers is a danger to public health and welfare.

CHAPTER 762

An act to add Sections 23005, 25101, 25506.1, and 31125 to, to amend Sections 25100, 25102, 25104, 25216, 25504.1, 25504.2, 25506, 25530, 25602, 25606, 25608, 27202, 29560, 31018, 31101, 31400, and 31500 of, and to repeal Section 25101 of, the Corporations Code, to amend

Sections 15814, 22614, and 24608 of the Financial Code, and to amend Section 1392 of the Health and Safety Code, relating to investments.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 23005 is added to the Corporations Code, to read:

23005. The provisions of Sections 1400 and 1402 governing bankruptcy reorganizations and arrangements for corporations also apply to real estate investment trusts. For that purpose where the term "corporation" is used in such sections it shall also include the term "real estate investment trust", the terms "director" or "board of directors" shall include "trustee" or "board of trustees", the term "articles" shall include "declaration of trust" and the term "capital stock" shall include "shares of beneficial interest."

SEC. 1.5. Section 25100 of the Corporations Code, as amended by Chapter 56 of the Statutes of 1977, is amended to read:

25100. The following securities are exempted from the provisions of Sections 25110, 25120, and 25130:

(a) Any security (including a revenue obligation) issued or guaranteed by the United States, any state, any city, county, city and county, public district, public authority, public corporation, public entity, or political subdivision of a state or any agency or corporate or other instrumentality of any one or more of the foregoing; or any certificate of deposit for any of the foregoing.

(b) Any security issued or guaranteed by the Dominion of Canada, any Canadian province, any political subdivision or municipality of any such province, or by any other foreign government with which the United States currently maintains diplomatic relations, if the security is recognized as a valid obligation by the issuer or guarantor; or any certificate of deposit for any of the foregoing.

(c) Any security issued or guaranteed by and representing an interest in or a direct obligation of a national bank or a bank or trust company incorporated under the laws of this state, and any security issued by a bank to one or more other banks and representing an interest in an asset of the issuing bank.

(d) Any security issued or guaranteed by a federal savings and loan association or federal land bank or joint land bank or national farm loan association or by any savings and loan association which is subject to the supervision and regulation of the Savings and Loan Commissioner of this state.

state.

(f) Any security consisting of any interest in all or portions of a parcel or parcels of real property which are subdivided lands or a subdivision or in a real estate development; provided that the exemption in this subdivision shall not be applicable to any investment contract sold or offered for sale with, or as part of, any such interest, or to any corporation engaged in the business of selling, distributing or supplying water for irrigation purposes or domestic use which is not a public utility.

(j) Any security (except evidences of indebtedness, whether interest bearing or not) of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit, if no part of the net earnings of the issuer inures to the benefit of any private shareholder or individual, or (2) organized as a chamber of commerce or trade or professional association. The fact that amounts received from memberships or dues or both will or may be used to construct or otherwise acquire facilities for use by members of the nonprofit organization does not disqualify the organization for this exemption. This exemption does not apply to the securities of any nonprofit organization if any promoter thereof expects or intends to make a profit directly or indirectly from any business or activity associated with the organization or operation of such nonprofit organization or from remuneration received from such nonprofit organization.

(k) Any agreement, commonly known as a "life income contract," of an issuer (1) organized exclusively for educational, benevolent, fraternal, religious, charitable, social, or reformatory purposes and not for pecuniary profit and (2) which the commissioner designates by rule or order, with a donor in consideration of a donation of property to such issuer and providing for the payment to the donor

In addition, the commissioner may, by rule or order, exempt any issuer of any notes, drafts, bills of exchange or banker's acceptances from qualification of such securities when he finds that such qualification is not necessary or appropriate in the public interest or for the protection of investors.

(m) Any security issued by any corporation organized and existing under the provisions of Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code.

(n) Any beneficial interest in an employees' pension, profit sharing, stock bonus or similar benefit plan which meets the requirements for qualification under Section 401 of the Federal Internal Revenue Code or any statute amendatory thereof or supplementary thereto. A determination letter from the Internal Revenue Service stating that an employees' pension, profit sharing, stock bonus or similar benefit plan meets such requirements shall be conclusive evidence that such plan is an employees' pension, profit sharing, stock bonus or similar plan within the meaning of the first sentence of this subdivision until the date such determination letter is revoked in writing by the Internal Revenue Service, regardless of whether or not such revocation is retroactive.

(o) Any security listed or approved for listing upon notice of issuance on a national securities exchange certified by rule or order of the commissioner and any warrant or right to purchase or subscribe to any such security.

Such certification of any exchange shall be made by the commissioner upon the written request of the exchange if he finds that the exchange, in acting on applications for listing of common stock substantially applies each of the minimum standards set forth in subparagraph (1) below, and in considering suspension or removal from listing, substantially applies each of the criteria set forth in subparagraph (2) below.

(1) Listing standards:

(i) Net tangible assets of at least two million dollars ($2,000,000).

(ii) Net income of at least two hundred fifty thousand dollars ($250,000) after all charges including federal income taxes in the fiscal year immediately preceding the filing of a listing application and net income before such taxes of at least five hundred thousand

dollars ($500,000).

(iii) Minimum public distribution of 250,000 shares excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings among not less than 900 holders including not less than 600 holders of lots of 100 shares or more, with a corresponding requirement that such securities not be largely held in blocks by institutional investors.

(iv) Minimum price of four dollars ($4) per share for reasonable period of time prior to the filing of a listing application.

(v) An aggregate market value for publicly held shares of at least one million five hundred thousand dollars ($1,500,000).

(2) Criteria for consideration of suspension or removal from listing:

(i) If a company which (A) has net tangible assets of less than one million dollars ($1,000,000) has sustained net losses in each of its two most recent fiscal years, or (B) has net tangible assets of less than three million dollars ($3,000,000) and has sustained net losses in three of its four most recent fiscal years.

(ii) If the number of shares publicly held (excluding the holdings of officers, directors, controlling shareholders and other concentrated or family holdings) is less than 150,000.

(iii) If the total number of shareholders of record is less than 450 or if the number of shareholders of lots of 100 shares or more is less than 300.

(iv) If the aggregate market value of shares publicly held is less than seven hundred fifty thousand dollars ($750,000).

(v) If shares of common stock sell at a price of less than four dollars ($4) per share for a substantial period of time and the issuer shall fail to effectuate a reverse stock split of such shares within a reasonable period of time after being requested by the exchange to take such action.

The commissioner after appropriate notice and opportunity for hearing in accordance with the provisions of the Administrative Procedure Act, Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, may by rule or order, decertify any exchange previously certified which ceases substantially to apply the standards or criteria as set forth above. A rule or order of certification shall conclusively establish that any security listed or approved for listing upon notice of issuance on any exchange named in a rule or order of certification and any warrant or right to purchase or subscribe to any such security is exempt under this subdivision until the adoption of any rule or order decertifying such exchange.

(p) A promissory note secured by a lien on real property, which is not one of a series of notes secured by interests in the same real property.

(q) Any unincorporated interindemnity or reciprocal or interinsurance contract, which qualifies under the provisions of Section 1280.7 of the Insurance Code, between members of a

cooperative corporation, organized and operating under Part 2 (commencing with Section 12200) of Division 3 of Title 1, and whose members consist only of physicians and surgeons licensed in California, which contracts indemnify solely in respect to medical malpractice claims against such members, and which do not collect in advance of loss any moneys other than contributions by each member to a collective reserve trust fund or for necessary expenses of administration.

(1) Whenever it appears to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of Section 1280.7 of the Insurance Code, he may in his discretion bring an action in the name of the people of the State of California in the superior court to enjoin the acts or practices or to enforce compliance with Section 1280.7 of the Insurance Code. Upon a proper showing a permanent or preliminary injunction, restraining order or writ of mandate shall be granted and a receiver or conservator may be appointed for the defendant or the defendant's assets. The court shall not require the commissioner to post a bond.

(2) The commissioner may, in his discretion, (A) make such public or private investigations within or outside of this state as he deems necessary to determine whether any person has violated or is about to violate any provision of Section 1280.7 of the Insurance Code or to aid in the enforcement of such Section 1280.7, and (B) publish information concerning the violation of such Section 1280.7.

(3) For the purpose of any investigation or proceeding under this section, the commissioner or any officer designated by him may administer oaths and affirmations, subpoena witnesses, compel their attendance, take evidence, and require the production of any books, papers, correspondence, memoranda, agreements, or other documents or records which the commissioner deems relevant or material to the inquiry.

(4) In case of contumacy by, or refusal to obey a subpoena issued to, any person, the superior court, upon application by the commissioner, may issue to the person an order requiring him to appear before the commissioner, or the officer designated by him, there to produce documentary evidence, if so ordered, or to give evidence touching the matter under investigation or in question. Failure to obey the order of the court may be punished by the court as a contempt.

(5) No person is excused from attending or testifying or from producing any document or record before the commissioner or in obedience to the subpoena of the commissioner or any officer designated by him, or in any proceeding instituted by the commissioner, on the ground that the testimony or evidence (documentary or otherwise), required of him may tend to incriminate him or subject him to a penalty or forfeiture, but no individual may be prosecuted or subjected to any penalty or forfeiture for or on account of any transaction, matter, or thing

concerning which he is compelled, after validly claiming his privilege against self-incrimination, to testify or produce evidence (documentary or otherwise), except that the individual testifying is not exempt from prosecution and punishment for perjury or contempt committed in testifying.

SEC. 2. Section 25101 of the Corporations Code is repealed.

SEC. 3. Section 25101 is added to the Corporations Code, to read:

25101. The following securities are exempt from the provisions of Section 25130:

(a) Any security issued by a person which is the issuer of any security listed on a national securities exchange certified by rule or order of the commissioner.

(b) Any security issued by a person which (i) is the issuer of any security listed on a national securities exchange which is not certified by the commissioner pursuant to subdivision (a) hereof, (ii) is the issuer of any security registered under Section 12(g) of the Securities Exchange Act of 1934 or is exempt from registration under such Section 12 by Section 12(g) (2) (G) of that act, or (iii) is registered under the Investment Company Act of 1940, if in any such case, there has been filed with the commissioner a notice in such form as the commissioner shall specify by rule setting forth the following:

(1) The name of the issuer, the date of its organization, and the jurisdiction under whose laws it is organized;

(2) The issuer's taxpayer identification number as assigned by the federal Department of Internal Revenue and, if applicable, the issuer's file number under the Securities Exchange Act of 1934 or the Investment Company Act of 1940 as assigned by the federal Securities and Exchange Commission or other appropriate federal regulatory agency;

(3) A statement that the issuer has a currently effective registration under Section 12 of the Securities Exchange Act of 1934 (specifying the subsection thereof) or the Investment Company Act of 1940, or that it is exempt from registration under such Section 12 by Section 12(g) (2) (G) thereof;

(4) A statement that the issuer has a class of equity securities held by 500 or more persons and has total assets exceeding one million dollars ($1,000,000), determined in such manner as is provided by rule of the commissioner or, in the absence of such rule, in accordance with generally accepted accounting principles;

(5) A description of each security of the issuer which is to be exempted pursuant to this subdivision, and a statement that each class of common stock described in such notice, if any, possesses full voting rights equal per share to the voting rights possessed by any other class of common stock of the issuer;

(6) An undertaking to file a supplemental notice if any of the facts stated in the notice previously filed with the commissioner shall, to the knowledge of the filer of such notice, cease to be true.

(7) The name and address of the person filing the notice, the signature of such person or of the authorized principal officer of such

person (and the name of such principal officer), and a verification to the best knowledge or belief of the person signing the notice of all of the information contained in such notice.

The notice provided for herein may be filed by the issuer, any broker-dealer registered under this law or any holder of record or beneficially of any of the securities covered by such notice. Except in the case of a notice filed by an issuer, the exemption provided by this subdivision shall lapse 13 months after the filing of the notice.

(c) The exemption provided by subdivision (a) or (b) of this section shall not apply to any of the following:

(1) Securities offered pursuant to a registration under the Securities Act of 1933 or pursuant to the exemption afforded by Regulation A under such act if the aggregate offering price of the securities offered pursuant to such exemption exceeds fifty thousand dollars ($50,000);

(2) Securities which the commissioner has found, after notice and, if requested as hereinafter provided, hearing, to be the subject of a notice or supplemental notice filed pursuant to subdivision (b) which contains any statement which is, or which was at the time of filing, materially untrue. Notice hereunder shall be given to the person named pursuant to paragraph (7) of subdivision (b), to the issuer unless the notice or supplemental notice was filed by the issuer, and to licensed broker-dealers. The notice shall state the reasons for the issuance of the notice and that the exemption pursuant to this section for the security identified therein may be terminated unless, within 10 business days, either a notice or supplemental notice is filed in accordance with subdivision (b) or a written request for hearing is received, such hearing to commence within 15 business days of the receipt of such notice unless the commissioner consents to a later date. An order terminating an exemption pursuant to this paragraph shall be effective when issued or at such time thereafter as the commissioner may provide.

(3) Securities which the commissioner has found to have ceased to be registered under Section 12 of the Securities Exchange Act of 1934 or the issuer of which has ceased to have a class of equity securities held by 500 or more persons or total assets exceeding one million dollars ($1,000,000). An order may be issued under this paragraph without notice or hearing if the facts on which it is based are stated in a notice or supplemental notice filed pursuant to subdivision (b) or are stated in a certificate filed with the Securities and Exchange Commission pursuant to Section 12(g)(4) of the Securities Exchange Act of 1934; otherwise, such order shall be issued only as provided in paragraph (2) of this subdivision.

SEC. 4. Section 25102 of the Corporations Code is amended to read:

25102. The following transactions are exempted from the provisions of Section 25110:

(a) Any offer (but not a sale) not involving any public offering and the execution and delivery of any agreement for the sale of securities

pursuant to such offer if (1) the agreement contains substantially the following provision: "The sale of the securities which are the subject of this agreement has not been qualified with the Commissioner of Corporations of the State of California and the issuance of such securities or the payment or receipt of any part of the consideration therefor prior to such qualification is unlawful. The rights of all parties to this agreement are expressly conditioned upon such qualification being obtained."; and (2) no part of the purchase price is paid or received and none of the securities are issued until the sale of such securities is qualified under this law.

(b) Any offer (but not a sale) of a security for which a registration statement has been filed under the Securities Act of 1933 but has not yet become effective, if no stop order or refusal order is in effect and no public proceeding or examination looking toward such an order is pending under Section 8 of such act and no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law.

(c) Any offer (but not a sale) and the execution and delivery of any agreement for the sale of securities pursuant to such offer as may be permitted by the commissioner upon application. Any negotiating permit under this subdivision shall be conditioned to the effect that none of the securities may be issued and none of the consideration therefor may be received or accepted until the sale of such securities is qualified under this law.

(d) Any transaction or agreement between the issuer and an underwriter or among underwriters if the sale of the securities is qualified prior to distribution thereof in this state, if any.

(e) Any offer or sale of any evidence of indebtedness, whether secured or unsecured, and any guarantee thereof, in a transaction not involving any public offering.

(f) Any offer or sale, in a transaction not involving any public offering, of any bona fide general partnership, joint venture or limited partnership interest, or any beneficial interest in a trust which is a "security" within the meaning of Section 25019, if in the case of such beneficial trust interests immediately after the sale and issuance they are owned by no more than five persons.

(g) Any offer or sale of conditional sale agreements, equipment trust certificates, or certificates of interest or participation therein or partial assignments thereof, covering the purchase of railroad rolling stock or equipment or the purchase of motor vehicles, aircraft, or parts thereof, in a transaction not involving any public offering.

(h) Any offer or sale of voting common stock by a corporation incorporated in any state if, immediately after the proposed sale and issuance, there will be only one class of stock of such corporation outstanding which is owned beneficially by no more than 10 persons, provided all of the following requirements have been met:

(1) All such stock shall be evidenced by certificates which shall have stamped or printed prominently on their face a legend in a form to be prescribed by rule of the commissioner restricting transfer of such stock in such manner as the rule provides.

(2) The offer and sale of such stock is not accompanied by the publication of any advertisement, and no selling expenses have been given, paid, or incurred in connection therewith.

(3) The consideration to be received by the issuer for the stock to be issued shall consist of (i) only assets (which may include cash) of an existing business enterprise transferred to the issuer upon its initial organization, of which all of the persons who are to receive the stock to be issued pursuant to this exemption were owners during, and such enterprise was operated for, a period of not less than one year immediately preceding the proposed issuance, and the ownership of such enterprise immediately prior to such proposed issuance was in the same proportions as the shares of stock are to be issued, or (ii) only cash or cancellation of indebtedness for money borrowed or both upon the initial organization of the issuer, provided all such stock is issued for the same price per share, or (iii) only cash, provided the sale is approved in writing by each of the existing shareholders and the purchaser or purchasers are existing shareholders, or (iv), in a case where after the proposed issuance there will be only one owner of the stock of the issuer, any legal consideration.

(4) No promotional consideration has been given, paid, or incurred in connection with such issuance. Promotional consideration means any consideration paid directly or indirectly to a person who, acting alone or in conjunction with one or more other persons, takes the initiative in founding and organizing the business or enterprise of an issuer, for services rendered in connection with such founding or organizing.

(5) A notice in a form prescribed by rule of the commissioner, signed by an active member of the State Bar of California, shall be filed with or mailed for filing to the commissioner not later than 10 business days after receipt of consideration for the securities by the issuer, which notice shall contain an opinion of such member of the State Bar of California that the exemption provided by this subdivision is available for the offer and sale of the securities. Such notice, except when filed on behalf of a California corporation, shall be accompanied by an irrevocable consent, in such form as the commissioner by rule prescribes, appointing the commissioner or his successor in office to be the issuer's attorney to receive service of any lawful process in any noncriminal suit, action, or proceeding against it or its successor which arises under this law or any rule or order hereunder after the consent has been filed, with the same force and validity as if served personally on the issuer. An issuer on whose behalf a consent has been filed in connection with a previous qualification or exemption from qualification under this law (or application for a permit under any prior law if the application or notice under this law states that such consent is still effective) need not file another. Service may be made by leaving a copy of the process in the office of the commissioner but it is not effective unless (1) the plaintiff, who may be the commissioner in a suit, action or

proceeding instituted by him, forthwith sends notice of the service and a copy of the process by registered or certified mail to the defendant or respondent at its last address on file with the commissioner, and (2) the plaintiff's affidavit of compliance with this section is filed in the case on or before the return day of the process, if any, or within such further time as the court allows.

For the purposes of this subdivision, all securities held by a husband and wife, whether or not jointly, shall be considered to be owned by one person, and all securities held by a corporation which has issued stock pursuant to this exemption shall be considered to be held by the shareholders to whom it has issued such stock.

(i) Any offer or sale (1) to a bank, savings and loan association, trust company, insurance company, investment company registered under the Investment Company Act of 1940, pension or profit-sharing trust (other than a pension or profit-sharing trust of the issuer or a self-employed individual retirement plan), or such other institutional investor or governmental agency or instrumentality as the commissioner may designate by rule, whether the purchaser is acting for itself or as trustee, or (2) to any corporation with outstanding securities registered under Section 12 of the Securities Exchange Act of 1934 or any wholly owned subsidiary of such a corporation which after the offer and sale will own directly or indirectly 100 percent of the outstanding capital stock of the issuer; provided the purchaser represents that it is purchasing for its own account (or for such trust account) for investment and not with a view to or for sale in connection with any distribution of the security.

(j) Any offer or sale of any certificate of interest or participation in an oil or gas title or lease (including subsurface gas storage and payments out of production) if (1) all of the purchasers: (i) are and have been during the preceding two years engaged primarily in the business of drilling for, producing, or refining oil or gas (or whose corporate predecessor, in the case of a corporation, has been so engaged), or (ii) are persons described in clause (1) of subdivision (i) of this section, or (iii) have been found by the commissioner upon written application to be substantially engaged in the business of drilling for, producing or refining oil or gas so as not to require the protection provided by this law (which finding shall be effective until rescinded), or (2) such security is concurrently hypothecated to a bank in the ordinary course of business to secure a loan made by such bank; provided each purchaser represents that it is purchasing for its own account for investment and not with a view to or for sale in connection with any distribution of the security.

(k) Any offer or sale of any security under, or pursuant to, a plan of reorganization or arrangement which, pursuant to the provisions of the National Bankruptcy Act, has been confirmed or is subject to confirmation by the decree or order of a court of competent jurisdiction.

(*l*) Any offer or sale of an option, warrant, put, call, or straddle,

and any guarantee of any of these securities, by a person who is not the issuer of the security subject to such right, if the transaction, had it involved an offer or sale of the security subject to such right by such person, would not have violated Section 25130.

SEC. 5. Section 25104 of the Corporations Code is amended to read:

25104. The following transactions are exempted from the provisions of Section 25130:

(a) Any offer or sale of a security by the bona fide owner thereof for his own account if the sale (1) is not accompanied by the publication of any advertisement and (2) is not effected by or through a broker-dealer in a public offering.

(b) Any offer or sale effected by or through a licensed broker-dealer pursuant to an unsolicited order or offer to buy. For the purpose of this subdivision (b) an inquiry regarding a written bid for a security or a written solicitation of an offer to sell a security made by another broker-dealer within the previous 60 days, shall not be considered the solicitation of an order or offer to buy.

(c) Any offer or sale to a bank, savings and loan association, trust company, insurance company, investment company registered under the Investment Company Act of 1940, pension or profit-sharing trust (other than a pension or profit-sharing trust of the issuer or a self-employed individual retirement plan), or such other institutional investor or governmental agency or instrumentality as the commissioner may designate by rule, whether the purchaser is acting for itself or as trustee; provided the purchaser represents that it is purchasing for its own account (or for such trust account) for investment and not with a view to or for sale in connection with any distribution of the security.

(d) Any transaction or agreement between a person on whose behalf an offering is made and an underwriter or among underwriters, if the sale of the securities is qualified prior to distribution thereof in this state, if any.

(e) Any offer or sale of any security by or for the account of a bona fide secured party selling the security in the ordinary course of business to liquidate a bona fide debt.

(f) Any transaction by an executor, administrator, sheriff, marshal, receiver, trustee in bankruptcy, guardian or conservator.

(g) Any offer (but not a sale) of a security for which a registration statement has been filed under the Securities Act of 1933 but has not yet become effective, if no stop order or refusal order is in effect and no public proceeding or examination looking toward such an order is pending under Section 8 of that act and no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law.

(h) Any offer or sale of a security if a qualification under Chapter 2 (commencing with Section 25110) of this part for any securities of the same class has become effective within 18 months prior to such offer or sale or if a qualification under Chapter 3 (commencing with Section 25120) or Chapter 4 (commencing with Section 25130) of this

part for any securities of the same class has become effective within 12 months prior to such offer or sale, provided no order under Section 25140 or subdivision (a) of Section 25143 is in effect under this law with respect to such qualification, and, provided further, that this exemption does not apply to such securities offered pursuant to a registration under the Securities Act of 1933 or pursuant to an exemption under Regulation A under that act if the aggregate offering price of the securities offered under such exemption exceeds fifty thousand dollars ($50,000). The commissioner may, by rule or order, withhold this exemption with respect to securities qualified only pursuant to a limited offering qualification.

SEC. 6. Section 25216 of the Corporations Code is amended to read:

25216. (a) No broker-dealer or agent shall effect any transaction in, or induce or attempt to induce the purchase or sale of, any security in this state by means of any manipulative, deceptive or other fraudulent scheme, device, or contrivance. The commissioner shall, for the purposes of this subdivision, by rule define such schemes, devices or contrivances as are manipulative, deceptive, or otherwise fraudulent.

(b) No broker-dealer or agent shall effect any transaction in, or induce or attempt to induce the purchase or sale of, any security in this state in connection with which such broker-dealer or agent engages in any fraudulent, deceptive or manipulative act or practice or makes any fictitious quotation. The commissioner shall, for the purposes of this subdivision, by rule define and prescribe means reasonably designed to prevent such acts and practices as are fraudulent, deceptive, or manipulative and such quotations as are fictitious.

(c) No broker-dealer or agent shall effect any transaction in, or induce or attempt to induce the purchase or sale of, any security in this state in contravention of such rules as the commissioner may prescribe as necessary or appropriate in the public interest or for the protection of investors to provide safeguards with respect to the financial responsibility of broker-dealers. Such rules may require a minimum capital for broker-dealers or prescribe a ratio between net capital and aggregate indebtedness or both and a fidelity bond.

(d) No broker-dealer or agent shall effect or attempt to effect in this state, in contravention of such rules as the commissioner may prescribe as necessary or appropriate in the public interest or for the protection of investors, (1) any transaction in connection with any security whereby any party to such transaction acquires any put, call, straddle, or other option or privilege of buying or selling the security, or (2) any transaction in connection with any security with relation to which he has, directly or indirectly, any interest in any such put, call, straddle, option, or privilege, or (3) any transaction in any security for the account of any person who he has reason to believe has, and who actually has, directly or indirectly, any interest in any such put, call, straddle, option, or privilege with relation to such

security.

(e) The commissioner may by rule require any licensed broker-dealer and any issuer who employs agents in connection with any security or transaction not exempted by Chapter 1 (commencing with Section 25100) of Part 2 of this division to post a surety bond in an amount not exceeding ten thousand dollars ($10,000), conditioned that the licensee or issuer will comply with the provisions of this law and the rules and orders issued thereunder. Such bond, unless previously canceled, shall cover for the entire period that the license is in effect. Any appropriate deposit of cash or securities shall be accepted in lieu of any such bond. Every bond shall provide that no suit may be maintained to enforce any liability thereon unless brought within two years after the contract of sale or other act upon which such suit is based and shall also provide that the liability of the surety on such bond to all persons aggrieved shall, in no event, exceed in the aggregate the amount thereof. Every such bond shall also contain a provision authorizing the surety thereon to cancel it upon 30 days written notice to the licensee and to the commissioner; provided, however, that such cancellation shall not affect any liability incurred or accrued prior to the effective date of such cancellation.

25504.1. Any person who materially assists in any violation of Section 25110, 25120, 25130, 25133, or 25401, or a condition of qualification under Chapter 2 (commencing with Section 25110) of Part 2 of this division imposed pursuant to Section 25141, or a condition of qualification under Chapter 3 (commencing with Section 25120) of Part 2 of this division imposed pursuant to Section 25141, or an order suspending trading issued pursuant to Section 25219, with intent to deceive or defraud, is jointly and severally liable with any other person liable under this chapter for such violation.

SEC. 6.5. Section 25504.2 of the Corporations Code, as added by Chapter 144 of the Statutes of 1977, is amended to read:

25504.2. (a) Any accountant, engineer, appraiser, or other person whose profession gives authority to a statement made by such person, who has given written consent to be and has been named in any prospectus or offering circular distributed in connection with the offer or sale of securities as having prepared or certified in such capacity either any part of such document or any written report or valuation which is distributed with or referred to in any such document is jointly and severally liable with any other person liable under Section 25501 if:

(1) The part of such document so prepared or certified or the report or valuation so distributed or referred to includes an untrue statement of a material fact or omits to state a material fact necessary in order to make the statements made, in light of the circumstances under which they were made, not misleading; and

(2) The person asserting such liability acquired a security

described in such document in reliance on such untrue statement or in reliance on such part of the document or on such report or valuation without notice of such omission.

(b) Notwithstanding the provisions of subdivision (a), no such accountant, engineer, appraiser, or other person shall be liable as provided therein if such person sustains the burden of proof that:

(1) Such person had, after reasonable investigation, reasonable ground to believe and did believe, at the time such person consented to such use of such person's name, that the statements so included in such part of such document or in such report or valuation were true and that there was no omission to state a material fact necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading; or

(2) Such part of such document did not fairly represent such person's statement as an expert or was not a fair copy of or extract from such person's report or valuation as an expert; or

(3) Prior to the acquisition of the security by the person asserting the liability, such accountant, engineer, appraiser, or other person advised the issuer and the commissioner in writing that such person would not be responsible for such part of the document or the report or valuation.

(c) A person who participates in the preparation of a document described in subdivision (a) of this section shall be deemed to have prepared or certified only those portions thereof which are expressly stated with such person's written consent to have been made on such person's authority.

SEC. 6.6. Section 25506 of the Corporations Code, as amended by Chapter 144 of the Statutes of 1977, is amended to read:

25506. No action shall be maintained to enforce any liability created under Section 25500, 25501, or 25502 (or Section 25504 or Section 25504.1 insofar as they related to those sections) unless brought before the expiration of four years after the act or transaction constituting the violation or the expiration of one year after the discovery by the plaintiff of the facts constituting the violation, whichever shall first expire.

SEC. 6.7. Section 25506.1 is added to the Corporations Code, to read:

25506.1. No action shall be maintained to enforce any liability created under Section 25504.2 unless brought within one year after the discovery of the facts constituting the violation, or after such discovery should have been made by the exercise of reasonable diligence. In no event shall any such action be brought more than three years after the act or transaction constituting the violation.

SEC. 7. Section 25530 of the Corporations Code is amended to read:

25530. (a) Whenever it appears to the commissioner that any person has engaged or is about to engage in any act or practice constituting a violation of any provision of this law or any rule or order hereunder, he may in his discretion bring an action in the name of the people of the State of California in the superior court to

enjoin the acts or practices or to enforce compliance with this law or any rule or order hereunder. Upon a proper showing a permanent or preliminary injunction, restraining order, or writ of mandate shall be granted and a receiver or conservator may be appointed for the defendant or the defendant's assets. The court may not require the commissioner to post a bond.

A receiver or conservator appointed by the superior court pursuant to this section may, with the approval of the court, exercise all of the powers of the defendant's officers, directors, partners, trustees or persons who exercise similar powers and perform similar duties, including the filing of a petition for bankruptcy. No action at law or in equity may be maintained by any party against the commissioner, or a receiver or conservator, by reason of their exercising such powers or performing such duties pursuant to the order of, or with the approval of, the superior court.

(b) If the commissioner determines it is in the public interest, the commissioner may include in any action authorized by subdivision (a) of this section a claim for ancillary relief, including but not limited to, a claim for restitution or damages under Chapter 1 (commencing with Section 25500) of this part on behalf of the persons injured by the act or practice constituting the subject matter of the action, and the court shall have jurisdiction to award such additional relief.

SEC. 7.5. Section 25602 of the Corporations Code is amended to read:

25602. The board may reinstate a person from retirement upon (a) his application to the board for reinstatement; (b) the determination of the board, based upon medical examination, that he is not incapacitated for the duties to be assigned to him; and (c) the determination of the board that his age at the date of application for reinstatement is at least six months less than the age of compulsory retirement for service applicable to members of the class or category in which it is proposed to employ him. The effective date of such reinstatement for purposes of this article shall be the first day of compensated employment following approval of reinstatement.

SEC. 2. Section 21153 of the Government Code is amended to read:

21153. A retired person, other than a dentist or doctor eligible for employment under Section 21156, may serve without reinstatement from retirement or loss or interruption of benefits provided by this system upon appointment by the appointing power of a state agency or any other employer either during an emergency to prevent stoppage of public business or because the retired employee has skills needed in performing specialized work of limited duration. Such appointments shall not exceed a total for all employers of 90 working days in any calendar year, and the rate of pay for such employment shall not be less than the minimum, nor exceed that paid by the employer to other employees performing comparable duties.

SEC. 3. Section 21156 of the Government Code is amended to read:

21156. A state agency and a contracting agency may employ a person receiving a retirement allowance under this system who has not attained age 70 and who possesses the legal requirements for the practice of medicine or dentistry in California as determined by the Board of Medical Examiners or the Board of Dental Examiners to render essential medical or dental services and shall pay for such services at a rate not less than the minimum, nor more than the maximum paid to other employees performing comparable duties.

Any person who renders such services shall not be deemed to be an employee of the agency for the purposes of the Public Employees' Retirement Law, nor shall he acquire any additional retirement rights or benefits thereunder because of such employment.

The monthly amount of such person's pension for any calendar month shall be reduced by the amount of compensation paid to him for any service which exceeds 90 working days for all employers in any calendar year, so rendered during said month, but such compensation shall not reduce the amount of such pension for any

month or for any period other than the calendar month during which the services in excess of 90 working days in that calendar year and for which he was compensated were rendered. If the amount of the compensation paid for the service in excess of 90 working days in any year shall exceed the amount of the monthly pension accrued for such month, no pension for such month shall be payable. The agency employing the person shall furnish to the board all information necessary to carry out the provisions of this section. The board promptly after receiving notification of any payment of compensation by a state agency or a contracting agency shall adjust the pension payments accordingly, and if necessary shall require repayment of any overpayments of pension.

This section shall be effective notwithstanding the provisions of Section 21150 of this code or any other provision of law.

SEC. 4. Section 21222.1 of the Government Code is amended to read:

21222.1. In addition to the increase of allowance authorized by and granted pursuant to the provisions of Section 21222 and notwithstanding the limitation in subdivision (b) of Section 21224, the monthly allowance paid with respect to a person retired or a member who died on or before December 31, 1970, shall be adjusted by a 5-percent increase.

The percentage shall be applied to the allowance payable on the operative date of this section or in the case of a contracting agency on the date this section becomes applicable to the contracting agency, and the increased allowance shall be paid for time on and after that date and until the first day of April immediately following the date of such application. The base allowance shall be adjusted by the same percentage effective with that annual adjustment.

This section shall not apply to any contracting agency or its employees, unless and until the agency elects to be subject to the provisions of this section by amendments to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the date this section takes effect by express provisions in such contract making the contracting agency subject to the provisions of this section. Such amendment shall not be effective unless made on or before December 31, 1978.

SEC. 5. Section 21222.2 of the Government Code is amended to read:

21222.2. In addition to the increase of allowance authorized by and granted pursuant to the provisions of Section 21222 and notwithstanding the limitation in subdivision (b) of Section 21224, the monthly allowance paid with respect to a person retired or a member who died during the period of January 1, 1971, to June 30, 1971, inclusive, shall be adjusted by a 5-percent increase.

The percentage shall be applied to the allowance payable on the operative date of this section or in the case of a contracting agency on the date this section becomes applicable to the contracting

agency, and the increased allowance shall be paid for time on and after that date and until the first day of April immediately following the date of such application. The base allowance shall be adjusted by the same percentage effective with that annual adjustment.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts, except that an election among the employees is not required, or, in the case of contracts made after the time this article takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section. Such amendment shall not be effective unless made on or before December 31, 1978.

SEC. 6. Section 21263.3 of the Government Code is amended to read:

21263.3. The allowance provided by Section 21263 shall be paid with respect to a local miscellaneous or local safety member whose retirement was effective prior to his employer's election to be subject to such section with respect to employees in his employment if at retirement he did not elect optional settlement two or three or an optional settlement involving life contingency under optional settlement four. The retirement allowance payable to such a retired member who elected any such optional settlement shall be increased by 15 percent, for time on and after such operative date and prior to the next annual adjustment under Article 1.5 (commencing with Section 21220) and the base allowance shall be increased by 15 percent for purpose of that and all subsequent annual adjustments. The amount payable to the beneficiary under such optional settlement shall be increased by the same percentage and in the same manner as the increase provided for the payment to the member.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act can be accomplished with no additional cost to local government.

CHAPTER 767

An act to amend Section 2014 of the Fish and Game Code, relating to fish and game.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2014 of the Fish and Game Code is amended to read:

2014. (a) It is the policy of this state to conserve its natural resources and to prevent the willful or negligent destruction of birds, mammals, fish, reptiles, or amphibia.

The state may recover damages in a civil action against any person or local agency which unlawfully or negligently takes or destroys any bird, mammal, fish, reptile, or amphibian protected by the laws of this state.

(b) The measure of damages is the amount which will compensate for all the detriment proximately caused by the destruction of such birds, mammals, fish, reptiles, or amphibia.

(c) An action to recover damages under this section shall be brought in the name of the people of the state, in a court of competent jurisdiction in the county in which the cause of action arose; provided, however, that the State Water Resources Control Board shall be notified of, and may join in any action brought under this section when the activities alleged to have caused the destruction of any bird, mammal, fish, reptile, or amphibian may involve either the unlawful discharge of pollutants into the waters of the state or other violation of Division 7 (commencing with Section 13000) of the Water Code.

(d) This section does not apply to persons or local agencies engaged in agricultural pest control, to the destruction of fish in irrigation canals or works or irrigation drainages, or to the destruction of birds or mammals killed while damaging crops as provided by law.

(e) No damages may be recovered against a local agency pursuant to this section if civil penalties are assessed against the local agency for the same detriment pursuant to Division 7 (commencing with Section 13000) of the Water Code.

(f) For purposes of this section, "local agency" includes any city, county, city and county, district, public authority, or other political subdivision.

CHAPTER 768

An act to amend Section 81844 of the Education Code, relating to community colleges.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 81844 of the Education Code is amended to read:

81844. A community college district may begin work on, or receive or award bids for, any portion of an approved project prior to the appropriation by the Legislature of the state's share of the funding thereof pursuant to Section 81841, if such district has demonstrated both of the following facts to the satisfaction of the Board of Governors of the California Community Colleges and the Department of Finance:

(a) The capital construction program of the district and the construction dates contained therein support the need of the district to begin work on, or award bids for, the project before the appropriation is made.

(b) The district has the financial capability to complete the work begun before the appropriation is made in the event the Legislature fails to appropriate the necessary state funding.

For the purposes of this section, an "approved project" is a project which has been approved by the chancellor pursuant to Section 81838, and approved by the Department of Finance pursuant to Section 81841 after April 1, 1971.

CHAPTER 769

An act to add and repeal Section 25278 of the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 25278 is added to the Vehicle Code, to read:

25278. (a) The City of Los Angeles may require, by ordinance, ice cream trucks, while actually engaged in vending ice cream products on a street in a residence district, to display flashing amber warning lamps to the front and rear and to activate a caution arm only when parked for the purpose of vending such products on a street in a residence district within the city. As used in this section, "parked" means parked in accordance with the requirements of Chapter 9 (commencing with Section 22500) of Division 11. The ordinance shall prohibit the display of such lamps and the activation of such arm in any circumstance not permitted by this section.

(b) If the ordinance authorized by subdivision (a) is adopted, the driver of any vehicle, upon meeting or overtaking from either direction an ice cream truck displaying flashing amber warning lamps and with a caution arm activated within a residence district of the City of Los Angeles, shall immediately slow the vehicle to a speed

of 10 miles per hour, or less, before passing the ice cream truck, and shall yield the right-of-way to any pedestrian in the immediate vicinity of the truck, and may proceed past the truck only with caution.

(c) Any ice cream truck that is subject to the ordinance authorized by subdivision (a) may be operated outside the City of Los Angeles without removing the lamps or caution arm if neither the lamps nor caution arm is used when the truck is so operated.

(d) The City of Los Angeles may include in the ordinance such other provisions as may be necessary to reduce injuries to children in the vicinity of ice cream trucks.

(e) The City of Los Angeles, or any public or private agency or person it designates, shall conduct an evaluation of the implementation of this section and shall report its findings to the Governor and the Legislature regarding the desirability of implementing statewide the requirements imposed pursuant to this section.

This section shall remain in effect only until January 1, 1980, and as of such date is repealed, unless a later enacted statute, which is enacted before January 1, 1980, deletes or extends such date.

SEC. 2. The Legislature hereby finds and declares that the local and special statute added by Section 1 of this act is necessary because no general statute, within the meaning of Section 16 of Article IV of the California Constitution, can be made applicable to the circumstances to which Section 1 of this act pertains for the following reason:

Inasmuch as certain persons and entities in the City of Los Angeles have already collected data regarding hazards to children occasioned by ice cream trucks while stopped on highways, those persons and entities are uniquely prepared to evaluate the ordinance authorized by Section 1 of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this act may achieve its intended results and provide sufficient time for evaluation of the ordinance it authorizes, it is necessary that this act take effect immediately.

CHAPTER 770

An act to amend Sections 12804, 12811, and 21715 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 12804 of the Vehicle Code is amended to read:

12804. (a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, and his understanding of traffic signs and signals, including the bikeway signs, markers, and traffic control devices established by the Department of Transportation. The applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive, except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(2) Class 2. Any bus, any "farm labor truck," any single vehicle with three or more axles, any such vehicles towing another vehicle weighing less than 6,000 pounds gross, and all vehicles covered under class 3.

(3) Class 3. A three-axle housecar, any two-axle vehicle, any such housecar or vehicle towing another vehicle weighing less than 6,000 pounds gross, and any two-axle vehicle weighing 4,000 pounds or more unladen when towing a trailer coach not exceeding 9,000

pounds gross, except a bus, two-wheel motorcycle, motor-driven cycle, or "farm labor truck."

(4) Class 4. Any two-wheel motorcycle, any motor-driven cycle, or any motorized bicycle. Authority to operate vehicles included in a class 4 license may be granted by endorsement on a class 1, 2 or 3 license upon completion of appropriate examination.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation is in the licensee's immediate possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class 3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

(f) Notwithstanding the provisions of subdivision (b), any person holding a valid California driver's license of any class may operate a motorized bicycle without taking any special examination for the operation of a motorized bicycle, and without having a class 4 endorsement on such license.

SEC. 1.5. Section 12804 of the Vehicle Code is amended to read:

12804. (a) The examination shall include a test of the applicant's knowledge and understanding of the provisions of this code governing the operation of vehicles upon the highways, the ability to read and understand simple English used in highway traffic and directional signs, and his understanding of traffic signs and signals, including the bikeway signs, markers, and traffic control devices established by the Department of Transportation. The applicant shall be required to give an actual demonstration of his ability to exercise ordinary and reasonable control in operating a motor vehicle by driving the same under the supervision of an examining officer and submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive,

except that the department may waive the driving test part of the examination of an applicant who holds a valid license issued by another state, territory or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico. The examination shall also include a test of the hearing and eyesight of the applicant and such other matters as may be necessary to determine the applicant's mental and physical fitness to operate a motor vehicle upon the highways and whether any ground exists for refusal of a license under this code. The examination for a class 1 or class 2 license under subdivision (b) of this section shall also include a report of a medical examination of the applicant given not more than two years prior to the date of the application by a physician licensed to practice medicine. The report shall be on a form approved by the department or by the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation. In establishing the requirements consideration may be given to the standards presently required of motor carrier drivers by the Federal Highway Administration of the United States Department of Transportation. Any physical defect of the applicant which in the opinion of the department is compensated to insure safe driving ability shall not prevent the issuance of a license to the applicant.

(b) In accordance with the following classifications any applicant for a driver's license shall be required to submit to an examination appropriate to the type of motor vehicle or combination of vehicles he desires a license to drive:

(1) Class 1. Any combination of vehicles and includes the operation of all vehicles under class 2 and class 3.

(2) Class 2. Any bus, any "farm labor truck," any single vehicle with three or more axles, any such vehicles towing another vehicle weighing less than 6,000 pounds gross, and all vehicles covered under class 3.

(3) Class 3. A three-axle housecar, any two-axle vehicle, any such housecar or vehicle towing another vehicle weighing less than 6,000 pounds gross, and any two-axle vehicle weighing 4,000 pounds or more unladen when towing a trailer coach not exceeding 9,000 pounds gross, except a bus, two-wheel motorcycle, two-wheel motor-driven cycle, or "farm labor truck."

(4) Class 4. Any two-wheel motorcycle, any two-wheel motor-driven cycle, or any motorized bicycle. Authority to operate vehicles included in a class 4 license may be granted by endorsement on a class 1, 2 or 3 license upon completion of appropriate examination.

(c) Class 1 and class 2 drivers' licenses shall be valid for operating class 1 or class 2 vehicles only when a medical certificate approved by the department or the Federal Highway Administration or the Federal Aviation Administration of the United States Department of Transportation is in the licensee's immediate possession which has been issued within two years of the date of the operation of such vehicle, otherwise the license shall be valid only for operating class

3 vehicles and class 4 vehicles if so endorsed. A person holding a valid class 1 or class 2 driver's license on May 3, 1972, may operate class 1 or class 2 vehicles without a medical certificate until such time as the license expires.

(d) The department may accept a certificate of driving experience in lieu of a driving test on class 1 or 2 applications when such certificate is issued by an employer of the applicant provided the applicant has first qualified for a class 3 license and also met the other examination requirements for the license for which he is applying. Such certificate may be submitted as evidence of the applicant's experience or training in the operation of the types of equipment covered by the license for which he is applying.

(e) The department may accept a certificate of competence in lieu of a driving test on class 4 applications when such certificate is issued by a law enforcement agency for its officers who operate class 4 vehicles in their duties provided the applicant has also met the other examination requirements for the license for which he is applying.

(f) Notwithstanding the provisions of subdivision (b), any person holding a valid California driver's license of any class may operate a motorized bicycle without taking any special examination for the operation of a motorized bicycle, and without having a class 4 endorsement on such license.

SEC. 2. Section 12811 of the Vehicle Code is amended to read:

12811. (a) When the department determines that the applicant is lawfully entitled to a license it shall issue to the person a driver's license as applied for. The license shall state the class of license for which the licensee has qualified and shall bear thereon the distinguishing number assigned to the applicant, the date of expiration, the name, age, and residence address of the licensee, a brief description and photograph of the licensee for the purpose of identification and space for the signature of the licensee.

Each license shall also contain a space for the endorsement thereon of a record of each suspension or revocation thereof.

The department shall use such process or processes in the issuance of licenses in color, that prohibit as near as possible, the ability to alter or reproduce the license, or prohibit the ability to superimpose a photograph on such license without ready detection.

(b) With every driver's license issued on and after July 1, 1976, the department shall provide a sticker which may be affixed to the back of the license, by which the licensee may indicate his willingness and intent to make an anatomical gift pursuant to the provisions of subdivision (b) of Section 7154 of the Health and Safety Code. The sticker provided shall contain a statement sufficient in its terms to meet the requirements of the Uniform Anatomical Gift Act, Chapter 3.5 (commencing with Section 7150), Part 1, Division 7, Health and Safety Code. To be effective, the statement shall be signed by the licensee in the presence of two witnesses, who shall sign the statement in his presence. If the licensee cannot sign, the statement

may be signed for him at his direction and in his presence in the presence of two witnesses who shall sign the statement in his presence. The gift shall become effective upon the death of the licensee.

(c) No public entity or employee shall be liable for any loss, detriment, or injury resulting directly or indirectly from false or inaccurate information contained in the sticker provided pursuant to subdivision (b).

SEC. 3. Section 21715 of the Vehicle Code is amended to read:

21715. (a) No passenger vehicle regardless of weight, or any other motor vehicle under 4,000 pounds unladen, shall draw or tow more than one vehicle in combination, except that an auxiliary dolly may be used with the towed vehicle.

(b) No motor vehicle under 4,000 pounds unladen shall tow any vehicle weighing 6,000 pounds or more gross.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 657 are both chaptered and become effective January 1, 1978, both bills amend Section 12804 of the Vehicle Code, and this bill is chaptered after Assembly Bill No. 657, that the amendments to Section 12804 proposed by both bills be given effect and incorporated in Section 12804 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Assembly Bill No. 657 are both chaptered and become effective January 1, 1978, both amend Section 12804, and this bill is chaptered after Assembly Bill No. 657, in which case Section 1 of this act shall not become operative.

SEC. 5. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant, identifiable cost changes.

CHAPTER 771

An act to amend Sections 11470, 11491.7, 11492, and 11493 of, and to add Section 11499 to, the Health and Safety Code, relating to controlled substances.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 11470 of the Health and Safety Code is amended to read:

11470. The following are subject to forfeiture:

(a) All controlled substances which have been manufactured, distributed, dispensed, or acquired in violation of this division.

(b) All raw materials, products and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, delivering, importing, or exporting any controlled substance in violation of this division.

(c) All property which is used, or intended for use, as a container for property described in subdivision (a) or (b).

(d) All books, records, and research products and materials, including formulas, microfilm, tapes, and data which are used, or intended for use, in violation of this division.

(e) The interest of any registered owner of a boat, airplane, or any vehicle other than an implement of husbandry, as defined in Section 36000 of the Vehicle Code, or a vehicle which may be lawfully driven upon the highway with a class 3 or class 4 license, as prescribed in Section 12804 of the Vehicle Code, used, in direct relation to the particular offense for which the owner or defendant is arrested and convicted, to unlawfully transport for sale any controlled substance.

SEC. 2. Section 11491.7 of the Health and Safety Code is amended to read:

11491.7. At the hearing, the state shall have the burden of establishing beyond a reasonable doubt that the owner of the vehicle, boat, or airplane, or the owner of an interest in such vehicle, boat, or airplane, consented to the use of such vehicle, boat, or airplane with the knowledge that it would be used for a violation of this chapter.

SEC. 3. Section 11492 of the Health and Safety Code is amended to read:

11492. No legal or registered title or interest in the vehicle, boat, or airplane shall be affected by the forfeiture decree under this article unless the state has proved that the owner of such interest consented to the use of such vehicle, boat, or airplane with knowledge that it was used for the purpose charged. No forfeiture shall be ordered unless and until a conviction is had for an offense set forth in Section 11490.

SEC. 4. Section 11493 of the Health and Safety Code is amended to read:

11493. The forfeiture hearing may be continued until after a verdict of guilt on the related charges has been decided. The forfeiture hearing shall be conducted in accordance with Sections 600 to 630, inclusive, of the Code of Civil Procedure if a trial by jury, and by Sections 631 to 636, inclusive, of the Code of Civil Procedure if by court. Unless the court or jury finds that the vehicle, boat, or airplane was used in violation of this chapter, the court shall order the vehicle, boat, or airplane released to the person entitled thereto.

If the court or jury finds that the vehicle, boat, or airplane was used

in violation of this chapter, but does not find that a person holding a valid lien, mortgage, security interest, or interest under a conditional sales contract acquired his interest with actual knowledge that the vehicle, boat, or airplane was to be used for a purpose for which forfeiture is permitted, and if the amount due him is equal to, or in excess of, the appraised value of the vehicle, boat, or airplane, the court shall order the vehicle, boat, or airplane released to him. If the amount due him is less than the appraised value of the vehicle, boat, or airplane, he may pay to the Department of General Services the amount of the registered owner's equity, which shall be deemed to be the difference between the appraised value and the amount of the lien, mortgage, security interest, or interest under a conditional sales contract. Upon such payment, the state shall relinquish all claims to the vehicle, boat, or airplane. If the holder of the interest elects not to make such payment to the Department of General Services, the vehicle, boat, or airplane shall be deemed forfeited to the Department of General Services and the ownership certificate shall be forwarded. Appraised value is to be determined as of the date judgment is entered on a wholesale basis either by agreement between the legal owner and the Department of General Services, or if such persons cannot agree, then by the inheritance tax appraiser for the county in which the action is brought.

SEC. 5. Section 11499 is added to the Health and Safety Code, to read:

11499. Nothing in this chapter shall be construed to extend or change decisional law as it relates to the topic of search and seizure.

CHAPTER 772

An act to amend Section 4602 of the Civil Code, relating to minors.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 4602 of the Civil Code is amended to read:

4602. In any proceeding under this part, when so directed by the court, the probation officer or domestic relations investigator shall conduct a custody investigation and file a written confidential report thereon. The report may be considered by the court and shall be made available only to the parties or their attorneys at least 10 days before any hearing regarding the custody of a child. The report may be received in evidence upon stipulation of all interested parties.

When the probation officer or domestic relations investigator is directed by the court to conduct a custody investigation, the court shall make inquiry into the financial condition of the parent, parents,

guardian, or such other person charged with the support and maintenance of such minor, and if the court finds such parent, parents, guardian, or other person able, in whole or in part, to pay the expense of such investigation, report and recommendation, the court shall make an order requiring such person, persons, guardian, or other person to repay to the county such part, or all, of such expense of investigation, report and recommendation as, in the opinion of the court, is proper. Such repayment shall be made to the county officer designated by the board of supervisors, who shall keep suitable accounts of such expenses and repayments and shall deposit such collections in the county treasury.

CHAPTER 773

An act to add Chapter 5.9 (commencing with Section 25487) to Division 15 of the Public Resources Code, relating to energy resources.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.9 (commencing with Section 25487) is added to Division 15 of the Public Resources Code, to read:

CHAPTER 5.9. ENERGY SYSTEMS

25488. "Title 24 Standards" refers to the nonresidential building standards developed by the commission.

25489. "Lifecycle cost" means an estimate of the total cost of acquisition, operation, maintenance, and construction of any energy system within or related to a structure over the design life of the structure. "Life cycle cost" includes, but is not limited to, the cost of fuel, materials, machinery, ancillary devices, labor, service, replacement, and repairs.

25491. "Governmental agency" means any public agency, including any agency of the state, each county, city, district, association of governments, and joint power agency.

25492. "Structure" means any building which has more than 10,000 square feet of floor area and which has a heating, cooling, water heating, or lighting system which is designed to provide lighting and space conditioning more than 1,000 hours per year.

25493. On or after January 1, 1979, no governmental agency shall

commence construction on any new structure unless the new structure complies with Title 24 Standards.

25494. Not later than July 31, 1978, the commission shall prepare a manual outlining a methodology by which governmental agencies and the general public may at their option compare the lifecycle costs of various building design alternatives. This manual will provide the information and procedures necessary to evaluate a building's lifecycle costs in the microclimate and utility service area where it is to be built.

25495. No later than July 31, 1978, the commission shall develop design guidelines for new construction which include energy conserving options, including, but not limited to, the use of daylighting, heating ventilation and air conditioning economizer cycles, natural ventilation, building envelope solar heat gain control mechanisms, and alternative energy systems such as solar energy for space heating and water heating and load management strategies. These guidelines and the cost analysis done pursuant to Section 25494 may be considered by government agencies at their option for ultimate selection of a building design in the competitive bidding process.

25496. No later than July 1, 1978, the commission shall develop and make available to government agencies and the general public to be utilized at their option lighting standards for existing buildings. These standards shall address, but not be limited to, task and general area lighting levels, light switching and control mechanisms, and lighting energy budgets. The commission may provide advice and recommendations to the public or any governmental agency as to the standards.

25498. In addition to any other requirements applicable to such structure, no new state-owned structure shall be constructed which is not equipped with a supplementary solar water heating system, unless such structure is specifically exempted from this requirement by the State Architect for reasons of economic or physical infeasibility.

SEC. 2. The State Energy Resources Conservation and Development Commission shall provide not to exceed forty thousand dollars ($40,000), from the funds appropriated for the support of the commission for the 1977–78 fiscal year, for purpose of conducting the Helio Science Institute Energy Conference and Exhibit, dealing with the use of solar, wind, and geothermal energy, to be held in January 1978, at Palm Springs, California.

SEC. 3. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of Revenue and Taxation Code because the only duty, obligation, and responsibility imposed on local government is the duty to conform to building standards that have been found to reduce the life cycle costs of buildings.

SEC. 4. the Legislature finds and declares that the provisions of Section 25493 of the Public Resources Code, as added by Section 1 of this act, does not constitute a change in but is declaratory of, the

existing law.

[Approved by Governor September 13, 1977. Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 16120 of the Welfare and Institutions Code is amended to read:

16120. (a) The adoption fees may be waived for all adoptive parents as necessary to provide adoptive families for hard-to-place children.

(b) There may be paid for a period not to exceed five years an amount of financial assistance not more than the amount that would be paid for foster care for the child if the placement for adoption had not taken place. Any substantial change in financial circumstances or need shall be reported by a parent to the licensed adoption agency or department in accordance with regulations adopted by the department. The Director of Finance is authorized to transfer funds to a special account for use by the department to provide the in-lieu foster care payments provided by this section. Such transfer of funds shall not exceed in any month 67.5 percent of the product of one hundred twenty dollars ($120) multiplied by the number of children receiving payments provided by this section. The remaining cost of in-lieu foster care payments to adoption parents is the county share and shall be paid from county funds. The county responsible for the care of the child in a foster home is responsible for the payment provided for by this section in adoptive placements arranged by the department or any licensed adoption agency and in cases in which a child receiving aid to families with dependent children in a foster home is adopted by his foster parents and the department or designated adoption agency joins in the petition for adoption.

(c) Prior to the end of the initial period prescribed in subdivision (b), if there is a continuing need, related to a chronic health condition of the child which necessitated the initial financial assistance, a parent may petition the department or the designated licensed adoption agency to continue financial assistance. The amount of financial assistance and the time period for which it may be given, shall be determined by the department or the agency but shall not exceed the age of majority of the child. Prior to the expiration of the extension period, if there is a continuing need, a parent may repetition the department or the designated licensed adoption agency for a new period of termination. The department

or the agency shall make its determination regarding the financial ability of the parents to meet the continuing medical needs of the child, related to the child's physical condition at the time of adoption, taking into consideration community resources.

No person who is a director or an officer of, or who occupies any management position or office whatsoever, on the administrative staff of any such private hospital, shall be eligible for or hold any district office or any management position or office whatsoever in any district hospital. The possession or ownership of such interest, stocks, bonds, or other securities by the spouse or minor children of any person shall be deemed, for the purposes of this section, to be the possession or interest of such person.

The amendments to this section enacted at the 1970 Regular Session of the Legislature do not apply to any person who is a member of the board of directors of a local hospital district on the effective date of such amendments, except in respect to his eligibility for, or his holding of membership on, any such board of directors for any term subsequent to that which he is serving on such date.

Whenever it appears that the sum in the bond interest and sinking fund will be insufficient to pay the interest or principal of bonds next coming due and payable therefrom, a sum sufficient to pay such principal and interest shall be transferred by the board of directors from the maintenance and operation fund to said bond interest and sinking fund.

Except as to principal and interest of bonds, moneys in the treasury of the district shall be paid out by the treasurer, or such other officer or officers of the district, including the administrator, as may be

authorized by the board. The treasurer shall keep such order as his voucher and shall keep accounts of all receipts into the district treasury and all disbursements therefrom.

Where bonds of the district are payable at the office of the district, all receipts from taxes levied to pay the principal and interest of such bonds shall be paid into the treasury of the district, and the treasurer of the district shall pay therefrom the principal and interest of such bonds.

The board of directors of the district are authorized to create a revolving fund which fund shall not exceed the sum of 10 percent of the estimated annual expenditures of the district at any one time and which shall be used for the purpose of paying the interim expenses of the operation of any hospital within the district without the necessity of a written order signed by the president and countersigned by the secretary as provided herein. The treasurer is authorized to deposit said fund in such bank or banks in the county as may be authorized to receive deposits of public funds in the same manner and upon the same security as public moneys of cities and counties are deposited in such banks and with like force and effect, and shall be subject to withdrawal upon the signature of the treasurer, or such other official of the district as may be authorized by the board of directors, for the use and purpose provided for herein.

SEC. 7. Section 32130 of the Health and Safety Code is amended to read:

32130. A district may borrow money and incur indebtedness in an amount not to exceed 50 percent of all estimated income and revenue for the current fiscal year, including, but not limited to, tax revenues, operating income, and any other miscellaneous income received by the district, from whatever source derived. All such certificates of indebtedness or other evidence of indebtedness shall be issued after the adoption by a three-fifths vote of the board of directors of the district of a resolution setting forth the necessity for such borrowing and the amount of the assessed valuation of the district and the amount of funds to be borrowed thereon. All such certificates of indebtedness or other evidence of indebtedness shall be offered at public sale by the board of directors of the district after not less than 10 days advertising in a newspaper of general circulation within the district and if no newspaper of general circulation is printed within the district, then in a newspaper of general circulation within the county in which the district is located. Each such sale shall be made to the bidder offering the lowest rate of interest or whose bid represents the lowest net cost to the district; provided, however, that the rate of interest shall not exceed 8 percent per annum.

Such certificates of indebtedness or other evidences of indebtedness shall be signed on behalf of the district by the presiding officer and attested by the secretary of the board of directors of the district. The board of supervisors of the county in which the district lies shall, at the time of fixing the general tax levy, sometimes called the annual assessment or regular annual assessment for such district, and in the manner for such general tax levy provided, levy and collect annually each year until such certificates of indebtedness or other evidences of indebtedness are paid or until there shall be a sum in the treasury set apart for that purpose sufficient to meet all sums coming due for principal and interest on such certificates of indebtedness or other evidences of indebtedness, tax sufficient to pay the interest on such certificate of indebtedness as the same becomes due and also, to constitute a sinking fund for the payment of the principal thereof at maturity. The tax shall be in addition to all of the taxes levied for district purposes and shall be placed in a certificate of indebtedness, interest and sinking fund of the district and, until all of the principal of the interest and certificates of indebtedness is paid, the money in such fund shall be used for no other purpose than the payment of such certificates of indebtedness and accruing interest thereon.

Notwithstanding any limitation as to the amount, nature or purpose of any indebtedness or other obligations referred to in this section, a district may also incur obligations and indebtedness pursuant to and make all rental, purchase, and other payments provided for in any agreement entered into by it pursuant to Section

32135.

SEC. 9. Section 32150 of the Health and Safety Code is amended to read:

32150. The board of directors shall adopt reasonable rules and regulations, or bylaws, providing for appellate review of any action, decision, or recommendation of the medical staff affecting the professional privileges of any member of, or applicant for membership on, the medical staff. Such appellate review may be conducted by the board or by a hearing officer designated by the board. The board's decision rendered after such appellate review shall be final.

SEC. 10. Section 32152 of the Health and Safety Code is repealed.

SEC. 11. Section 32153 of the Health and Safety Code is amended to read:

32153. Any hearing officer designated by the board shall be an attorney admitted to practice law in this state for at least 10 years prior to the hearing. If a hearing officer is appointed, he shall conduct the hearing and shall make recommended findings, conclusions and a decision which may be adopted, modified, or rejected by the board of directors.

SEC. 12. Section 32155 of the Health and Safety Code is amended to read:

Deliberations of the board of directors in connection with matters pertaining to this section may be held in executive session.

CHAPTER 776

An act to amend Section 48916 of the Education Code, relating to pupils.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 48916 of the Education Code is amended to read:

48916. Students of the public schools shall have the right to exercise freedom of speech and of the press including, but not limited to, the use of bulletin boards, the distribution of printed materials or petitions, the wearing of buttons, badges, and other insignia, and the right of expression in official publications, whether or not such publications or other means of expression are supported financially

by the school or by use of school facilities, except that expression shall be prohibited which is obscene, libelous, or slanderous. Also prohibited shall be material which so incites students as to create a clear and present danger of the commission of unlawful acts on school premises or the violation of lawful school regulations, or the substantial disruption of the orderly operation of the school.

Each governing board of a school district and each county board of education shall adopt rules and regulations in the form of a written publications code, which shall include reasonable provisions for the time, place, and manner of conducting such activities within its respective jurisdiction.

Student editors of official school publications shall be responsible for assigning and editing the news, editorial, and feature content of their publications subject to the limitations of this section. However, it shall be the responsibility of a journalism adviser or advisers of student publications within each school to supervise the production of the student staff, to maintain professional standards of English and journalism, and to maintain the provisions of this section.

There shall be no prior restraint of material prepared for official school publications except insofar as it violates this section. School officials shall have the burden of showing justification without undue delay prior to any limitation of student expression under this section.

"Official school publications" shall refer to material produced by students in the journalism, newspaper, yearbook, or writing classes and distributed to the student body either free or for a fee.

Nothing in this section shall prohibit or prevent any governing board of a school district to adopt otherwise valid rules and regulations relating to oral communication by students upon the premises of each school.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not place any financial burden on local government.

CHAPTER 777

(3) States that, upon written request, the seller or holder shall extend for an additional 10 days the redemption period or, if entitled

to the conditional right of reinstatement, both the redemption and reinstatement periods. The seller or holder shall provide the proper form for applying for such extensions with the substance of such form being limited to the extension request, spaces for the requesting party to sign and date the form, and instructions that it must be personally served or sent by certified or registered mail, return receipt requested, to a person or office and address designated by the seller or holder and received before the expiration of the initial redemption and reinstatement periods.

(4) Discloses the place at which the motor vehicle will be returned to such persons upon redemption or reinstatement.

(5) Designates the name and address of the person or office to whom payment shall be made.

(6) States the seller's or holder's intent to dispose of the motor vehicle upon the expiration of 15 days from the date of giving or mailing the notice, or if by mail and either the place of deposit in the mail or the place of address is outside of this state, the period shall be 20 days instead of 15 days, and further, that upon written request to extend the redemption period and any applicable reinstatement period for 10 days, the seller or holder shall without further notice extend the period accordingly.

(7) Informs such persons that upon written request, the seller or holder shall furnish a written accounting regarding the disposition of the motor vehicle as provided for in subdivision (b). The seller or holder shall advise them that such request must be personally served or sent first-class mail, postage prepaid, or certified mail, return receipt requested, to a person or office and address designated by the seller or holder.

(8) Includes notice, in at least 10-point bold type if the notice is printed, reading as follows: "NOTICE. YOU MAY BE SUBJECT TO SUIT AND LIABILITY IF THE AMOUNT OBTAINED UPON DISPOSITION OF THE VEHICLE IS INSUFFICIENT TO PAY THE CONTRACT BALANCE AND ANY OTHER AMOUNTS DUE."

(b) Unless automatically provided to the buyer within 45 days after the disposition of the motor vehicle, the seller or holder shall provide to any person liable on the contract within 45 days after their written request, if such request is made within one year after the disposition, a written accounting regarding the disposition. Such accounting shall itemize:

(1) The gross proceeds of the disposition.

(2) The reasonable and necessary expenses incurred for retaking, holding, preparing for and conducting the sale and to the extent provided for in the agreement and not prohibited by law, reasonable attorney fees and legal expenses incurred by the seller or holder in retaking the vehicle from any person not a party to the contract.

(3) The satisfaction of indebtedness secured by any subordinate lien or encumbrance on the motor vehicle if written notification of demand therefor is received before distribution of the proceeds is

completed. If requested by the seller or holder, the holder of a subordinate lien or encumbrance must seasonably furnish reasonable proof of its interest, and unless it does so, the seller or holder need not comply with its demand.

(c) In all sales which result in a surplus, the seller or holder shall furnish an accounting as provided in subdivision (b) whether or not requested by the buyer. Such surplus shall be returned to the buyer within 45 days after the sale is conducted.

For this purpose, a bail forfeiture shall be deemed to be a conviction of the offense charged.

(b) A violation of this section shall constitute an infraction when the difference between the value actually computed and the total true value of the commodity offered for sale (pursuant to the advertised, posted or quoted price per unit) is not more than one dollar ($1) greater than the total true value of the commodity offered for sale. Such violation shall be punishable by a fine of not more than fifty dollars ($50) for a first offense within the 24-month period immediately preceding the commission of the offense and a fine of not more than one hundred dollars ($100) for a second offense within the 24-month period immediately preceding the commission of the offense.

The people of the State of California do enact as follows:

SECTION 1. Section 2460.5 is added to the Streets and Highways Code, to read:

2460.5. From funds remaining after allocations for projects higher on the priority list, the commission shall offer to allocate the remaining funds for the next eligible project on the priority list, even though the amount of the remaining funds is less than the amount the local agency is entitled to for that project.

If the amount allocated to the local agency in such a case is less than 90 percent of the amount that would have been allocated to it if sufficient funds had been available, the commission, in the next fiscal year, shall allocate to the local agency an additional amount equal to the difference between that 90 percent of such amount and the amount of the reduced allocation.

The total of the amount of allocations for a single project, including, but not limited to, any allocation pursuant to this section, shall not exceed the amount prescribed by subdivision (g) of Section 2454 without specific legislative authorization.

If such a notice indicates the voter has moved within the county, the clerk shall notify the voter that the voter's affidavit of registration shall be corrected accordingly, unless the clerk is notified by the voter within 30 days after mailing of such notice that the voter's proper domicile for voting purposes is the address contained in the voter's affidavit of registration or is another address located within the county.

If such notice indicates the voter has moved outside the county, the clerk shall notify the voter that the voter's affidavit of registration shall be canceled unless the clerk is notified by the voter within 30 days after mailing of such notice that the voter desires to use the old or another address within the county. Within 15 days after the day of the direct primary or statewide general election, the clerk shall mail the notices required by this section.

The notice sent by the clerk to the voter shall be a double postcard and the return notice to the clerk shall be prepaid. The notice shall be uniform in all counties, according to regulations promulgated by the Secretary of State.

If a voter who has moved within the county wishes his registration affidavit changed to the new address within the county as indicated by the post office he need not return the notice card to the clerk.

SEC. 2. Section 10010.1 is added to the Elections Code, to read:

CHAPTER 781

An act to amend Sections 74010, 74011, and 74014 of the Education Code, relating to community colleges.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 74010 of the Education Code is amended to read:

74010. The Legislature hereby declares as its policy that all of the territory of the state shall be included in community college districts, except that of counties the residents of which account for fewer than 350 units of average daily attendance in community colleges in the state in the preceding fiscal year. However, the territory of such counties may be included in community college districts pursuant to procedures prescribed by law.

For purposes of this section and Section 74011, references to "counties" in the case of Modoc County and Sierra County shall be deemed to refer to all of the community college district territory under the jurisdiction of the county superintendents of schools of those counties, and not to the territory precisely included within the boundaries of the counties, where such community college district territory extends into Siskiyou or Plumas County. The remaining provisions of this article shall be construed and applied in accordance with such meaning, where applicable.

SEC. 2. Section 74011 of the Education Code is amended to read:

74011. On or before September 15, 1973, the county committee on school district organization of each county in which the residents account for 350 or more units of average daily attendance in community colleges in the state in the 1972–73 fiscal year shall submit to the Board of Governors of the California Community Colleges approvable plans and recommendations for the inclusion of all of the territory of the county in one or more community college districts or for the annexation to existing community college districts of territory not a part of any community college district. The county committee on school district organization of any other county may submit such plans and recommendations at any time. A single plan

for annexation may contain alternative proposals respecting the community college district or districts to which annexation is proposed.

When, in any fiscal year after the 1972–73 fiscal year, the residents of a county for the first time account for 350 or more units of average daily attendance in community colleges in the state, the county committee on school district organization shall, in the next succeeding fiscal year, submit such plans and recommendations to the board of governors.

Notwithstanding the provision of Section 74300, if the plan prepared by the county committee proposes the annexation of territory to an existing community college district which maintains not more than two community colleges, an agreement to the annexation by the community college board shall not be required.

Plans and recommendations which are not approved by the board of governors shall be returned to the county committee on school district organization for revision and resubmission to the office of the Chancellor of the California Community Colleges.

SEC. 3. Section 74014 of the Education Code is amended to read:

74014. Elections to carry out the proposals of a plan approved by the board of governors shall be called and conducted by the county superintendent of schools of the county in which all or the greater portion of the area is situated at the time the plan is recommended by the county committee and shall be held pursuant to the provisions of Section 4405, but in any event within one year after date of notification of original approval. Alternative annexation proposals contained in a single approved plan shall be submitted to the electors as separate alternative propositions. When alternative annexation propositions are submitted to the electors, that proposition receiving the approval of the majority of qualified electors voting shall be adopted. In the event that more than one annexation proposition receives the approval of the majority of the qualified electors voting, that proposition which receives the greatest number of favorable votes in excess of the majority shall be adopted.

CHAPTER 782

An act to amend Sections 39649 and 81649 of the Education Code, relating to school and community college districts.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 39649 of the Education Code is amended to read:

39649. In each school district, the governing board may make repairs, alterations, additions, or painting or repainting upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, and erect new buildings by day labor, or by force account, whenever the total cost of labor on the job does not exceed three thousand five hundred dollars ($3,500) or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any school district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, by day labor or by force account whenever the total cost of labor on the job does not exceed three thousand dollars ($3,000) or the total number of hours on the job does not exceed 750 hours whichever is greater.

For purposes of this section, day labor shall include the use of maintenance personnel, whether employed on a permanent or temporary basis.

SEC. 2. Section 81649 of the Education Code is amended to read:

81649. In each community college district, the governing board may make repairs, alterations, additions, or painting or repainting upon school buildings, repair or build apparatus or equipment, make improvements on the school grounds, and erect new buildings by day labor, or by force account, whenever the total cost of labor on the job does not exceed three thousand five hundred dollars ($3,500) or the total number of hours on the job does not exceed 350 hours, whichever is greater, provided that in any district situated wholly or partly within a city containing a population of over 1,900,000 according to the 1950 federal census, the governing board may, in addition, make repairs to school buildings, grounds, apparatus, or equipment, including painting or repainting, by day labor or by force account whenever the total cost of labor on the job does not exceed three thousand dollars ($3,000) or the total number of hours on the job does not exceed 750 hours, whichever is greater.

For purposes of this section, day labor shall include the use of maintenance personnel, whether employed on a permanent or temporary basis.

CHAPTER 783

An act to amend Section 58930 of, and to repeal and add Chapter 2 (commencing with Section 40701) of Division 16 of, the Food and Agricultural Code, relating to marketing of agricultural products, and making an appropriation therefor.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2 (commencing with Section 40701) of Division 16 of the Food and Agricultural Code is repealed.

SEC. 2. Chapter 2 (commencing with Section 40701) is added to Division 16 of the Food and Agricultural Code, to read:

CHAPTER 2. STANDARDS FOR TOMATOES FOR CANNING OR DEHYDRATION

Article 1. Definitions

40701. Unless the context otherwise requires, the definitions in this article govern the construction of this chapter.

40702. "Canning purposes" means the packing of commercially canned tomatoes, the manufacture of tomato paste, tomato puree, tomato pulp, tomato catsup, tomato sauce, tomato juice, and similar manufactured tomato products.

40703. "Committee" means the Canning Tomato Advisory Committee.

Article 2. General Provisions

40731. The standards which are established as authorized by this chapter are the only standards of quality for canning tomatoes that the director shall enforce. Such standards apply, with like force and effect, to tomatoes for dehydration, except as to requirements for comminuted color or as otherwise expressly exempted.

40732. Tomatoes for canning purposes, except hard green tomatoes for use in the manufacture of green tomato products, shall conform to the standards established under this chapter.

Article 3. Regulations

40761. The committee may submit to the director proposed regulations under this chapter. The director may adopt and enforce regulations for the following:

(a) Minimum standards and tolerances, for canning tomatoes which shall be cause for rejection by the director. However, no emergency regulations shall be established which raise or lower such standards and tolerances.

(b) Minimum standards for color of canning tomatoes based on a comminuted raw product sample which shall be cause for rejection by the director. However, no emergency regulations shall be established which tend to raise or lower the comminuted color readings.

(c) Standards for canning tomatoes which shall not be cause for

rejection by the director.

(d) Sampling and inspection procedures for canning tomatoes.

(e) Fees calculated to cover expected costs involved in the department performing the services specified in this chapter and in carrying out the regulations adopted under this chapter.

(f) Sanitation, equipment, inspection stations, and load identification data.

(g) Other such regulations as are reasonably necessary for the administration and enforcement of this chapter.

40762. The minimum standards and tolerances consistent with the provisions of Chapter 2, as repealed by this act and in effect on December 31, 1977, shall be in force until such time as the regulations are established under this chapter.

Article 4. Powers of the Director

40781. The director may, for the purpose of inspection, enter any place where canning tomatoes may be found. The director may take for inspection such samples as may be necessary to determine if any uncertified lot, load, or container of canning tomatoes complies with the standards established pursuant to this chapter. The director may subject such samples to any method of inspection or testing as prescribed by regulation.

40782. The director may cause the prosecution of any person violating any provision of this chapter, and may seize and hold such portion of any lot or load of tomatoes for canning purposes involved in such a violation as may, in his judgment, be necessary as evidence.

Article 5. Inspection and Certification by the Director

40811. The director shall inspect deliveries of tomatoes for canning purposes.

40812. If the director finds that the tomatoes which are being delivered conform with the standards prescribed by regulations, the director shall issue a certificate to that effect.

40813. If the director finds that the tomatoes delivered do not conform with the standards prescribed by regulations, the director shall issue a notice of rejection.

40814. The director is not required to perform inspection at any place where adequate inspection facilities are not provided.

40815. The inspection certificate which is issued pursuant to this chapter is prima facie evidence of the percentage of defects according to the definition of such defects as defined by regulations. The presumption established by this section is a presumption affecting the burden of proof, but it does not apply in a criminal action.

Article 6. Contract Inspection

40871. Loads of tomatoes which are offered for delivery by a grower to a canner in accordance with the terms of a contract between them shall be given such inspection as may be required without undue delay and within a reasonable time after such load arrives at the cannery or other point which is specified for such inspection.

40872. Any load of tomatoes which is so offered for inspection and delivery that is rendered unsuitable for canning purposes as a direct result of unwarranted delay in inspection, willfully or negligently caused or permitted by the canner, shall be paid for by the canner at the full price that is agreed upon for tomatoes suitable for canning purposes and on the basis that such tomatoes were of the grade, quality, and condition which is stipulated in the contract.

If no price is stipulated in the contract, payment shall be made by the canner to the grower on the basis of the then prevailing market price for tomatoes of the grade, quality, and condition which is specified in the contract.

40873. In addition to any other remedy, the grower so offering for inspection and delivery any load of tomatoes that has incurred any added handling costs as a direct result of the unwarranted delay in inspection and delivery, willfully or negligently caused or permitted by a canner, may recover the amount of such added handling costs by an action at law against such canner.

40874. No grower shall have any rights under this article unless he shall register each load of tomatoes with the canner at the time he offers such load for inspection and delivery. Such registration shall be made by obtaining from the canner a certificate, which such canner is, by this provision, required to furnish, that states the time of arrival of the load at the cannery or other specified inspection point.

Article 7. Discrimination by Cannery in Furnishing Raw Product Containers

40901. The failure of a canner willfully and without due cause to furnish raw product containers to a grower as agreed upon, or any willful discrimination against any grower in this regard, shall subject such canner to an action for all damages which are sustained by the grower as a direct result of such failure or discrimination, and judgment against any such canner may be entered in the discretion of the court either for the amount of the damages sustained or for three times such amount. Treble damages may, however, only be awarded if the grower has furnished the canner written notice of the claimed failure or discrimination within 48 hours after the claimed failure or discrimination.

40902. This article does not affect existing remedies for the violation of a contract but is in addition to such existing remedies.

Article 8. Fees

40931. Each canner that receives deliveries of tomatoes for canning purposes is hereby designated as the authorized agent of the director to collect the inspection and certification fees which are chargeable to such canner and to each producer that delivers such tomatoes.

40932. The cost of such inspection and certification shall be borne equally by both the canner and the producer.

40933. Any money which is collected pursuant to the provisions of this article shall be remitted to the director weekly during the tomato canning season for deposit into the Department of Agriculture Fund to be used in carrying out the purposes of this chapter.

40934. Except as otherwise provided in this article, any money which is so collected and not used for the purposes of this chapter shall be returned to the canners from whom it was received for distribution to the canners and producers from whom the money was originally collected, in proportion to their several interests.

40935. If the director determines, as to any such money heretofore or hereafter collected as inspection and certification fees, that the return of the money with respect to any canning season is impracticable because of the smallness of the amounts returnable, or for any other reason, the money so collected shall not be so returned but shall remain in the Department of Agriculture Fund and be available for expenditure for the purposes of this chapter in any subsequent year.

Article 9. Violations

40961. It is unlawful for any person to deliver or to accept tomatoes for canning purposes, or to process any tomatoes, which have not been certified as meeting the requirements of this chapter or the regulations established pursuant to this chapter.

40962. It is unlawful for any person to deliver to a canner or for any canner to accept delivery of any load of tomatoes which has been rejected for failing to comply with the standards established pursuant to this chapter, until such load has been reconditioned to comply with the standards, reinspected, and a certificate issued by the proper enforcing officer.

40963. It is unlawful for any person to remove, deface, or destroy, any warning tag or notice which has been placed by a proper enforcing officer upon a rejected lot or load of tomatoes for canning purposes.

Article 10. Canning Tomato Advisory Committee

41001. There is in the department the Canning Tomato Advisory Committee, which consists of 10 members. The director shall appoint five members who shall be producers of tomatoes for canning and five members who shall be representatives of handlers engaged in the canning of tomatoes.

41002. It is hereby declared, as a matter of legislative determination, that producers of tomatoes for canning and handlers engaged in canning tomatoes appointed to the Canning Tomato Advisory Committee pursuant to this article are intended to represent and further the interest of a particular agricultural industry concerned, and that such representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds that, with respect to persons who are appointed to such committee, the particular agricultural industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

41003. In making selection of the membership of the committee, the director shall take into consideration the recommendations of organizations and associations of producers of tomatoes for canning and of handlers of tomatoes for canning.

41004. The committee member's term of office shall be three years. Any vacancies which occur during an unexpired term shall be filled by appointment for the unexpired term.

41005. The committee shall be advisory to the director on all matters pertaining to standards for tomatoes for canning purposes. The committee may do any of the following:

(a) Recommend to the director administrative regulations which relate to methods and procedures of selecting samples of lots, loads or containers of tomatoes for canning purposes, and to the establishment of color standards and requirements to be established pursuant to this chapter.

(b) Recommend to the director administrative regulations which relate to the administration and enforcement of this chapter.

(c) Recommend to the director the institution and promotion of scientific research.

(d) Recommend to the director the sampling for conditions not currently provided for in this chapter or regulations adopted pursuant to this chapter.

(e) Advise the director on all matters pertaining to this chapter including the annual budget and revenue necessary to accomplish the purpose of this chapter.

41006. The committee shall meet at the call of its chairman or at the request to the director of any three members of the committee. It shall meet at least once each year.

41007. The meetings of the committee shall be held in the office of the department at Sacramento, or elsewhere within the state, if necessary for the proper performance of its duties.

41008. Each member of the committee, any alternate member serving in the absence of a regular member, and any member of an advisory committee appointed by the chairman of the committee, may, with approval of the director, be reimbursed for the actual and necessary expenses incurred in the performance of their official duties, however, they may not receive any other consideration. Any such reimbursements shall be made at the rate permitted under the rules of the State Board of Control.

41009. The director shall appoint an alternate member for each committee member. In making such appointments the director shall appoint a producer as alternate for each producer member and a handler representative as alternate for each handler representative, and shall give consideration to the representative of the member for whom the alternate is designated to serve.

41010. Alternate members shall serve at committee meetings only in the absence of the member for whom they are designated as alternate.

SEC. 2. Section 58930 of the Food and Agricultural Code is amended to read:

58930. If any producer or handler that is duly assessed pursuant to the provisions of this chapter fails to pay to the director the amount so assessed on or before the date which is specified by the director, the director may add to such unpaid assessment an amount not exceeding 10 percent of such unpaid assessment to defray the cost of enforcing the collection of such unpaid assessment. In addition to such payment for the cost of enforcing such collection, any such producer or handler shall pay to the director a penalty of 5 percent for each 30 days of the unpaid balance for each 30 days the assessment is unpaid, prorated over the days unpaid, commencing 30 days after notice has been given to such producer or handler of his failure to pay the assessment on the date required, unless the director determines, to his satisfaction, that such failure to pay is due to reasonable cause beyond the producer's or handler's control. Such penalty shall not exceed 50 percent of the total amount of the assessment due.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 784

An act to add and repeal Section 5011 to the Public Resources Code, relating to the state park system.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 5011 is added to the Public Resources Code, to read:

5011. Any person receiving aid to the aged under the provisions of Chapter 3 (commencing with Section 12000) of Part 3 of Division 9 of the Welfare and Institutions Code or any person over 62 years of age whose total monthly income from all sources, including any old age assistance payments, does not exceed two hundred fifty dollars ($250) for a single person or five hundred dollars ($500) combined income for married persons, upon application therefor and payment of three dollars and fifty cents ($3.50) to the Department of Parks and Recreation, shall be issued a "Golden Bear Pass for Senior Citizens" which shall be valid for the period that this section remains in effect and which shall entitle the bearer and spouse to free use of the day-use facilities in units of the state park system, except Hearst San Simeon State Historical Monument, San Francisco Maritime State Historic Park, and Sutter's Fort State Historic Park, under such limitations as may be determined by departmental regulation regarding peak hours and contractual arrangements with vendors. This section shall remain in effect only until January 1, 1980, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1980, deletes or extends such date.

CHAPTER 785

An act relating to water quality, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares as follows:

(a) That the people of the state and the people of the County of Riverside have a primary interest in the quality of the ground and surface waters of the state and of the County of Riverside, and that the state and the county must be prepared to exercise their full power and jurisdiction to protect the quality of such waters from degradation and pollution in order to protect the public health and safety.

(b) That there exists in the county the Stringfellow Quarry, a Class I Hazardous Waste Disposal Site, which has not operated since December, 1972, but which contains hazardous wastes and the residues of such wastes, including toxic acids and heavy metals, which pose a potential danger to the health and safety of the people of the county and to the quality of water within the county.

(c) That these hazardous wastes are presently leaching through the soil and contaminating areas surrounding the site.

(d) That there is a clear and imminent danger that runoff from the site, caused by a sudden, unexpected, and violent storm or otherwise, could seriously or irreparably contaminate and pollute nearby wells and groundwaters, and thereby endanger the public health and safety.

(e) That, because of the threatened nuisance and pollution, many of the people of the county have requested that state and local officials close this site.

(f) That, on November 13, 1974, the board of supervisors of the county canceled the special use permit for operation of the site, thereby foreclosing the possibility of reopening this site and terminating the generation of revenues from charges imposed for the use of the site.

(g) That the State Water Resources Control Board has expended over fifty-five thousand dollars ($55,000) in emergency funds in dealing with problems caused by the site.

(h) That, in response to requests from the Santa Ana Regional Water Quality Control Board, state officials, and many people of the county, the State Water Resources Control Board caused an engineering study and report of the site to be prepared for the purpose of determining the various methods available for abating this threatened nuisance and pollution.

(i) That the study and report on the site was published in January 1977, and the Santa Ana Regional Water Quality Control Board held a public hearing on January 14, 1977, to receive testimony regarding the technical, economic, environmental, and public concerns regarding the methods discussed in the study and report.

(j) That, after that hearing, the Santa Ana Regional Water Quality Control Board found, by resolution, that the most cost-effective method of abating the threat of pollution and nuisance from the site

can be implemented for the approximate sum of three hundred seventy thousand dollars, ($370,000) in capital costs and three thousand dollars ($3,000) per month in operating costs, and that such board applied to, and requested that, the State Water Resources Control Board take all necessary steps to secure funding to accomplish this abatement program and further requested that matching funds be appropriated by the county for such purposes.

SEC. 2. The sum of two hundred ninety-six thousand dollars ($296,000) is hereby appropriated from the General Fund and, subject to the conditions specified in Section 3, shall be disbursed and expended in the following manner and subject to the following conditions:

(a) The Director of Finance shall disburse the sum of one hundred and forty-eight thousand dollars ($148,000) to the County of Riverside, which sum shall be repaid by the county pursuant to the provisions of the agreement required by Section 3. The Director of Finance shall disburse the sum of one hundred forty-eight thousand dollars ($148,000) to the State Controller for deposit in the State Water Pollution Cleanup and Abatement Account in the State Water Quality Control Fund, as provided in Section 13441 of the Water Code.

(b) All funds appropriated by this act shall be expended solely for the purpose of abating threatened conditions of nuisance and pollution caused by the Stringfellow Quarry Class I Hazardous Waste Disposal Site. However, any sum which has been disbursed pursuant to subdivision (a), but which has not been expended for abatement, shall remain in the State Water Pollution Cleanup and Abatement Account and shall be expended solely for the purpose of maintaining and monitoring the site to prevent future recurrence of any such condition.

SEC. 3. No funds appropriated by Section 2 may be disbursed unless and until the Director of Finance finds that the following conditions have occurred:

(a) That there exists a written agreement between the county and the state regarding abatement of the threatened conditions of pollution and nuisance caused by the site and that such agreement has been signed by the chairman of the board of supervisors of the County of Riverside, after approval of such agreement by the board, the chairman of the State Water Resources Control Board, after approval of such agreement by the state board, and the Director of Finance.

(b) That the agreement contains all of the following provisions:

(1) The state board will order seventy-four thousand dollars ($74,000) to be disbursed from the State Water Pollution Cleanup and Abatement Account in the State Water Quality Control Fund for abatement of the threatened conditions of nuisance and pollution caused by the site.

(2) The state will cause such conditions to be abated within a time specified in the agreement and will maintain and monitor the site to

prevent future recurrence of any such condition.

(3) The county agrees to transfer the sum appropriated to it in Section 2 to the State Water Pollution Cleanup and Abatement Account upon receipt of such sum, and further agrees to repay the General Fund the sum of one hundred forty-eight thousand dollars ($148,000) on or before December 31, 1980; and if such repayment is made in full on or before that date, the county will not be liable for any interest.

(4) Such other terms and conditions as the parties to the agreement determine are necessary to effectuate the purposes of this act.

SEC. 4. The Director of Finance and the State Water Resources Control Board are hereby authorized to perform any act necessary to implement the provisions of this act.

SEC. 5. The Legislature hereby finds and declares that a general statute, within the meaning of Section 16 of Article IV of the Constitution, cannot be made applicable to the unique problems that this act is intended to remedy and that the enactment of this act as a special statute is necessary.

As an alternative to the procedure in paragraph (1) of subdivision (a) of Section 26840.3, the Board of Supervisors of Napa or Shasta County may impose a fee for the filing of a petition for dissolution of a marriage, a petition for legal separation, or a petition for nullity of a marriage, which, when added to the additional fees, if any, collected pursuant to paragraphs (2) and (3) of subdivision (a) of Section 26840.3, is sufficient to cover the costs of operation of the conciliation court. However, no fee adopted pursuant to this subdivision shall exceed the fee charged on January 1, 1978, by more than sixty dollars ($60).

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 788

An act to amend Section 18300 of, and to add Section 18306 to, the Health and Safety Code, relating to mobilehome parks.

[Approved by Governor September 13, 1977 Filed with Secretary of State September 13, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 18300 of the Health and Safety Code is amended to read:

18300. The provisions of this part apply to all parts of the state and supersede any ordinance enacted by any city, county, or city and county, whether general law or chartered, applicable to the provisions of this part. The commission may adopt regulations to interpret and make specific the provisions of this part and when adopted such regulations shall apply to all parts of the state. Upon 30 days written notice from the governing body to the department, any city, county, or city and county may assume the responsibility for the enforcement of this part and the regulations adopted pursuant thereto following approval by the department for such assumption.

The commission shall adopt regulations which set forth the conditions for assumption and may include required qualifications of local enforcement agencies. The conditions set forth and the qualifications required in the regulations shall relate solely to the ability of local agencies to enforce properly the regulations relating to mobilehome parks promulgated pursuant to this part. The regulations shall not set standards for local agencies different than those which the state maintains for its own enforcement program. When assumption is approved, the department shall transfer the responsibility for enforcement to the city, county, or city and county,

together with all records of mobilehome parks within the jurisdiction of the city, county, or city and county.

In the event of nonenforcement of this part or the regulations adopted pursuant thereto, the provisions of this part and the regulations adopted pursuant thereto shall be enforced by the department in any such city, county, or city and county after the department has given written notice to the governing body of such city, county, or city and county setting forth in what respects the city, county, or city and county has failed to discharge its responsibility, and the city, county, or city and county has failed to initiate corrective measures to carry out its responsibility within 30 days of such notice.

Where the department determines that the local enforcement agency is not properly enforcing this part, the local enforcement agency shall have the right to appeal such a decision to the commission.

Any city, city and county, or county, upon written notice from the governing body to the department, may cancel its assumption of responsibility for the enforcement of this part. The department, upon receipt of such notice, shall assume such responsibility within 30 days.

Every city, county, or city and county, within its jurisdiction, shall enforce all of the provisions of this part and the regulations adopted pursuant thereto, as they relate to mobilehomes and to mobilehome accessory buildings or structures located outside of mobilehome parks.

The provisions of this part shall not prevent local authorities of any city, county, or city and county, within the reasonable exercise of their police powers:

(a) From prohibiting mobilehomes or mobilehome parks, travel trailers, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps within all or certain zones within such city, county, or city and county, or from adopting rules and regulations by ordinance or resolution prescribing standards of lot, yards, or park area, landscaping, walls or enclosures, signs, access, and vehicle parking or from prescribing the prohibition of certain uses for mobilehome parks, travel trailer parks, recreational trailer parks, temporary trailer parks, or tent camps; or

(b) From regulating the construction and use of equipment and facilities located outside of a mobilehome or camp car used to supply gas, water, or electricity thereto, except facilities owned, operated, and maintained by a public utility, or to dispose of sewage or other waste therefrom when such facilities are located outside a mobilehome park, travel trailer park, recreational trailer park, or temporary trailer park for which a permit is required by this part, or the regulations adopted pursuant thereto; or

(c) From requiring a permit to use a mobilehome or camp car outside a mobilehome park, travel trailer park, recreational trailer park, or temporary trailer park for which a permit is required by this

part or by regulations adopted pursuant thereto, and require a fee therefor by local ordinance commensurate with the cost of enforcing this part and local ordinance with reference to the use of mobilehomes and camp cars, which permit may be refused or revoked if such use violates any provisions of this part or Part 2 (commencing with Section 18000) of this division, any regulations adopted pursuant thereto, or any local ordinance applicable to such use; or

(d) From requiring a local building permit to construct an accessory structure for a mobilehome when such mobilehome is located outside a mobilehome park, travel trailer park, recreational trailer park or temporary trailer park, under circumstances which the provisions of this part or Part 2 (commencing with Section 18000) of this division and the regulation adopted pursuant thereto do not require the issuance of a permit therefor by the department.

SEC. 2. Section 18306 is added to the Health and Safety Code, to read:

18306. The department shall evaluate the enforcement of this part and regulations adopted pursuant thereto by each city, county, or city and county which has assumed responsibility for enforcement.

Notwithstanding Section 591, 631, or 632 of the Penal Code or Section 7906 of this code, the supervising law enforcement official having jurisdiction in the geographical area where hostages are held who has probable cause to believe that the holder of one or more hostages is committing a crime shall have the authority to order a previously designated telephone company security employee to arrange to cut, reroute, or divert telephone lines in any emergency in which such hostages are being held, for the purpose of preventing telephone communication by the holder of such hostages with any person other than a peace officer or a person authorized by the peace officer.

SEC. 8. Article 5.5 (commencing with Section 33378) is added to Chapter 4 of Part 1 of Division 24 of the Health and Safety Code, to read:

Article 5.5. Referendums

33378. With respect to ordinances subject to referendum pursuant to Sections 33365 and 33450 which provide for tax-increment financing pursuant to Section 33670 or expand a project area subject to such tax-increment financing, the language of the statement of the ballot measure shall be approved by the county clerk and shall set forth with clarity and in language understandable to the average person that a "Yes" vote is a vote in favor of adoption or amendment of the redevelopment plan and a "No" vote is a vote against the adoption or amendment of the redevelopment plan.

33378.5. The provisions of this part establishing a right of referendum shall not be applicable to a charter city in the County of Los Angeles containing a population of 1,000 or less until January 1, 1983.

SEC. 9. Section 33385.5 is added to the Health and Safety Code, to read:

33385.5. The agency shall forward copies of the proposed amendment to the redevelopment plan to the project area committee, if one exists, at least 30 days before the hearing of the legislative body, required in Section 33454.

Where the proposed amendment would enlarge the project area, the redevelopment agency shall call upon the project area committee to expand its membership to include additional members on the project area committee in compliance with Section 33385. Such expansion of membership shall be submitted to the legislative body within 30 days for the body's approval within 60 days to assure that the project area committee is representative. Except as otherwise provided in Section 33378, the ordinance shall be subject to referendum as prescribed by law for the ordinances of the legislative body.

SEC. 12. Section 33457.1 is added to the Health and Safety Code, to read:

33457.1. To the extent warranted by a proposed amendment to a redevelopment plan, (1) the ordinance adopting an amendment to a redevelopment plan shall contain the findings required by Section 33367 and (2) the reports and information required by Section 33352 shall be prepared and made available to the public prior to the hearing on such amendment.

The resolution, trust indenture, or mortgage shall provide that tax-increment funds allocated to an agency pursuant to Section 33670 shall not be payable to a trustee on account of any issued bonds when sufficient funds have been placed with the trustee to redeem all outstanding bonds of the issue.

SEC. 17. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 18. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that

section nor shall there be an appropriation made by this act because the duties, obligations, and responsibilities imposed on local government entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(c) Nothing in this section shall be construed to prevent the recommendation of professional employment where such recommendation is not prohibited by the Rules of Professional Conduct of the State Bar of California.

(d) Nothing in this section shall be construed to mean that a public defender or assigned counsel may not make known his or her services as a criminal defense attorney to persons unable to afford legal counsel whether such persons are in custody or otherwise.

SEC. 2. Section 6153 of the Business and Professions Code is amended to read:

The people of the State of California do enact as follows:

to deposit as required by law, as shown by records of the department.

SEC. 2. Section 4762 of the Vehicle Code is amended to read:

4762. The department shall remit all bail collected, after deducting the administrative fee authorized by Section 4763 for each notice of violation for which bail has been collected pursuant to Section 4760, to each jurisdiction in the amounts due to each jurisdiction according to its unadjudicated notices of violation, and shall inform each jurisdiction of which of its notices have been discharged by deposit of the appropriate amounts of bail.

occurred and fixing a time and place for appearance by the registered owner or the lessee or renter in answer to such notice.

Such notice shall be attached to such vehicle either on the steering post or front door handle thereof or in such other conspicuous place upon the vehicle as to be easily observed by the person in charge of such vehicle upon his return thereto.

(2) Before any notice of noncompliance may be forwarded to the department under Section 41103.5 or any warrant for the arrest of a resident of this state may be issued following the filing of a complaint charging such a violation, a notice of the violation shall be given to the person so charged. Such notice shall contain the information required in paragraph (1) and shall also inform such registered owner or the lessee or renter that unless he appears in the court designated in such notice within 10 days after service of such notice and answers such charge, or completes and files an affidavit of nonownership, the renewal of his registration is contingent upon his compliance with the notice of violation and that, failing such compliance, a warrant or citation to appear may be issued against him.

Such notice shall contain or be accompanied by an affidavit of nonownership. In addition to any other required information, such notice shall also provide information as to what constitutes nonownership, information as to the effect of executing such affidavit, and instructions for mailing or returning the affidavit to the court. Upon receipt of evidence satisfactory to the court that the person charged with violating Section 41102 has made a bona fide sale or transfer of the vehicle and has delivered possession thereof to the purchaser prior to the date of the alleged violation, the court shall obtain verification from the department that the person charged has complied with the requirements of subdivision (a) or (b) of Section 5602, and, if the person has complied with subdivision (a) or (b) of Section 5602, the charges against the person under Section 41102 shall be dismissed.

Such notice shall be given, either by personal delivery thereof to such owner, lessee or renter, or by deposit in the United States mail of an envelope with postage prepaid, which envelope shall contain such notice and shall be addressed to such owner, lessee or renter at his address as shown by the records of the department or the leasing or renting agency. The giving of notice by personal delivery is complete upon delivery of a copy of such notice to such person. The giving of notice by mail is complete upon the expiration of 10 days after the deposit of such notice.

Proof of giving such notice may be made by the certificate of any traffic or police officer or affidavit of any person over 18 years of age naming the person to whom such notice was given and specifying the time, place and manner of the giving thereof.

(3) Before any warrant for the arrest of a nonresident of this state may be issued following the filing of a complaint charging such a violation, a notice of the violation shall be given to the person so

charged. Such notice shall contain the information required in paragraph (1) and shall also inform such registered owner or the lessee or renter that unless he appears in the court to be designated in such notice within 10 days after service of such notice and answers such charge, or completes and files an affidavit of nonownership, a warrant or citation to appear will be issued against him.

SEC. 6. Section 41103.2 is added to the Vehicle Code, to read:

41103.2. No warrant for the arrest of a resident of this state may be issued for an offense for which a notice of noncompliance regarding such person has been forwarded to the department pursuant to Section 41103.5, except that when a notice to the department has been returned to the court under Section 4762 or 4764, or recalled by the court under Section 41103.5, a warrant may then be issued.

SEC. 7. Section 41103.5 of the Vehicle Code is amended to read:

41103.5. (a) Whenever any person has for a period of 15 or more days failed to comply with the provisions of paragraph (2) of Section 41103, the magistrate or clerk of the court shall give notice of such fact to the department if no warrant of arrest is outstanding in connection with the matter. Such notice shall be given not more than 30 days after such failure to appear. Whenever thereafter the case, in which the notice of violation was given pursuant to paragraph (2) of Section 41103, is adjudicated, the magistrate or clerk of the court hearing the case shall immediately sign and file with the department a certificate to that effect.

(b) Whenever a fine or forfeiture is received in connection with a matter for which a notice of noncompliance has been forwarded under this section, the clerk of the court, or judge if there is no clerk, shall determine the amount of the administrative service fee due as established by the department under Section 4763, and shall transmit such amount to the county treasury. The county treasurer shall, at least once each month, transmit the fees collected pursuant to this section to the State Treasury for deposit in the Motor Vehicle Account in the State Transportation Fund. The funds shall be transmitted in the same manner as fines collected for the state by the county.

(c) The procedure for the collection of bail authorized by this section and the provisions of Sections 4760 to 4765, inclusive, shall apply to any registration or equipment infraction charged simultaneously with any parking violation in any notice of violation issued to an unattended vehicle under paragraph (1) of Section 41103.

SEC. 8. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

(c) Any willful violation of subdivision (a) or (b) which results in injury to, or death of, a person shall be punished by imprisonment in the state prison, or imprisonment in a county jail for a period of not more than six months.

SEC. 2. Section 25352 is added to the Vehicle Code, to read:

25352. Any bus operated by a publicly owned transit system on regularly scheduled service may be equipped with a device capable of sending a signal that interrupts or changes the sequence patterns of an official traffic control signal, under the following conditions:

(a) If such a device is a flashing gaseous discharge lamp, such lamp shall not emit a visible light exceeding the amount specified by the California Highway Patrol.

(b) Such device shall not be installed or used unless and until authorized on specific routes by either the Department of Transportation pursuant to Section 21350, or local authorities pursuant to Section 21351.

(c) Any bus or system operating under the conditions specified herein shall allow emergency vehicles operating pursuant to Section 25258 or 21055 to have priority in changing the sequence patterns of an official traffic control signal.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the

Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 806

An act to amend Section 208 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor September 14, 1977. Filed with Secretary of State September 14, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 208 of the Welfare and Institutions Code is amended to read:

208. (a) When any person under 18 years of age is detained in or sentenced to any institution in which adults are confined, it shall be unlawful to permit such person to come or remain in contact with such adults.

(b) No person who is a ward or dependent child of the juvenile court who is detained in or committed to any state hospital or other state facility shall be permitted to come or remain in contact with any adult person who has been committed to any state hospital or other state facility as a mentally disordered sex offender under the provisions of Article 1 (commencing with Section 6300) of Chapter 2 of Part 2 of Division 6, or with any adult person who has been charged in an accusatory pleading with the commission of any sex offense for which registration of the convicted offender is required under Section 290 of the Penal Code and who has been committed to any state hospital or other state facility pursuant to Section 1026 or 1370 of the Penal Code.

(c) As used in this section, "contact" does not include participation in supervised group therapy or other supervised treatment activities, participation in work furlough programs, or participation in hospital recreational activities which are directly supervised by employees of the hospital, so long as living arrangements are strictly segregated and all precautions are taken to prevent unauthorized associations.

CHAPTER 807

An act relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 14, 1977 Filed with Secretary of State September 14, 1977]

The people of the State of California do enact as follows:

SECTION 1. The Ferndale Elementary School District in Humboldt County maintains one elementary school with an enrollment of approximately 420 pupils. The main classroom building has been examined and found not to comply with the structural standards of the so-called Field Act. Although rehabilitation of the building to bring it up to Field Act standards has been underway for some time, various unanticipated problems prevented the estimated completion date from being met. In accordance with statutory authorization, the State Allocation Board granted an extension for continued usage of the building until June 30, 1977.

Because of the imposition of additional building safety requirements, and the necessity of confining major elements of the rehabilitation project to the summer months when favorable weather conditions exist and the building is not, of necessity, being used for school purposes, it will not be possible to meet the June 30, 1977, deadline for discontinuance of the building. Alternative housing for the school is not available in this rural area.

It is estimated that substantial progress on the seismic resistance phase of the project will be done during the summer of 1977, and that rehabilitation will be completed during the summer of 1979. It is necessary that the main school building continue to be utilized until the rehabilitation is complete, and the Legislature finds that it would be highly disruptive and disadvantageous for the affected pupils, as well as creating a burden on the school district, to require closure of the main classroom building prior to its complete rehabilitation. In enacting this act the Legislature intends to alleviate such unnecessary hardship.

SEC. 2. Notwithstanding Section 39227 of the Education Code, the governing board of the Ferndale Elementary School District may continue to use the main classroom building of the Ferndale Elementary School, together with all structures and facilities essential to the operation of that school, after June 30, 1977; provided, that such building shall not be used for school purposes after June 30, 1979, if reconstruction of the building has not been completed by that date.

SEC. 3. Due to the unique circumstances concerning the reconstruction and rehabilitation of the main building of the Ferndale Elementary School in Humboldt County, as partially set

forth in Section 1 of this act, and the limited nature of the exemption provided for in Section 2 of this act, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution.

SEC. 4. The Grizzly Bluff School District maintains an elementary school in a rural area serving 13 pupils. The building housing the school is 107 years old. Various unanticipated problems have prevented the school district from replacing or repairing the building in accordance with the Field Act. Closure of the school and transportation of the pupils to another school would impose such hardships on the school district and the pupils as to make that contingency virtually impossible.

In order to enable the school district to continue to educate pupils attending the elementary school, the governing board of the Grizzly Bluff School District may, notwithstanding Section 39227 of the Education Code, continue to use the elementary school, together with all structures and facilities essential to the operation thereof, until June 30, 1979, or until the replacement or reconstruction of the school, whichever occurs earlier.

Due to the unique circumstances concerning the use of the elementary school herein described, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the two rural elementary schools affected by this act may continue to be used to educate pupils living in the areas served by those schools and not be forced to close by existing statutory deadlines, it is necessary that this act take effect immediately.

SEC. 6. This act shall remain in effect only until July 1, 1979, and on that date is repealed.

CHAPTER 808

An act relating to state-mandated local program reimbursements, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 14, 1977. Filed with Secretary of State September 14, 1977]

The people of the State of California do enact as follows:

SECTION 1. The sum of seven hundred thirty-five thousand one hundred eighty-six dollars ($735,186) is hereby appropriated from the General Fund, in accordance with the following schedule, to provide reimbursement to local agencies for costs mandated by the state as defined in Section 2207 of the Revenue and Taxation Code:

A. To the State Controller for the payment of:

(a) The unreimbursed portion of claims of local agencies which were partially paid by the State Controller for the following legislative mandates:

(1) Chapter 454, Statutes of 1974	$94,550
(2) Chapter 941, Statutes of 1975	330
(3) Chapter 854, Statutes of 1976	34,613

(b) The costs incurred by the County of Los Angeles as a result of the requirement imposed by Chapter 1392, Statutes of 1974 ..... $234,593

B. To the Department of Benefit Payments to reimburse local agencies for the costs which resulted from Chapter 348, Statutes of 1976 ..... $290,100

C. To the Judicial Council to reimburse counties for the costs incurred as a result of their participating in the small claims court pilot project created by the enactment of Chapter 1287 of 1976 ..... $81,000

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In certain cases, the amounts claimed by local agencies as state-mandated costs exceed the amounts appropriated for these purposes. To avoid undue delay in reimbursing local agencies pursuant to Section 2231 of the Revenue and Taxation Code, this act must go into effect immediately.

CHAPTER 809

An act to add Chapter 5.5 (commencing with Section 51880) to Part 28 of the Education Code, relating to health education, and making an appropriation therefor.

[Approved by Governor September 14, 1977. Filed with Secretary of State September 14, 1977.]

I am deleting the appropriation contained in Section 2 of Senate Bill No. 976.

The millions of dollars already available from a multitude of sources make unnecessary the appropriation contained in this bill

With this deletion, I approve Senate Bill No. 976

EDMUND G. BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.5 (commencing with Section 51880) is added to Part 28 of the Education Code, to read:

CHAPTER 5.5. COMPREHENSIVE HEALTH EDUCATION

Article 1. General

51880. This chapter shall be known and may be cited as the Comprehensive Health Education Act of 1977.

51881. The Legislature finds and declares that although many of the communicable diseases and environmental hazards which plagued earlier generations have been controlled, major health problems and hazards are prevalent among today's school-age children and youth including the abuse of alcohol, narcotics, and tobacco; emotional instability; forced marriage; self-medication; dental caries; nutritional disorders; suicide; and accidents.

The Legislature finds and declares that an adequate health education program in the public schools is essential to continued progress and improvement in the quality of public health in this state, and the Legislature further believes that comprehensive health education, taught by properly trained persons, is effective in the prevention of disease and disability.

It is further the intent of the Legislature that, to the maximum extent possible, the present state-funded projects in the school health unit of the Department of Education shall be redirected to carrying out the provisions of this chapter and maximum use shall be made of existing state and federal funds in the implementation of comprehensive health education.

51882. The Legislative Analyst shall report to the Legislature, by April 1, 1979, on the status of the programs provided for by this chapter in terms of the number of participating school districts, materials distributed and developed, the extent of in-service training and participants, trend of the programs, and similar factors.

Article 2. Definitions

51890. For the purposes of this chapter, "comprehensive health education programs" are defined as all educational programs offered in kindergarten and grades 1 through 12, inclusive, in the public school system, including in-class and out-of-class activities designed to ensure that:

(a) Pupils will receive instruction to aid them in making decisions in matters of personal, family, and community health, to include the following subjects:

(1) The use of health care services and products.

(2) Mental and emotional health and development.

(3) Drug use and misuse, including the misuse of tobacco and alcohol.

(4) Family health and child development, including the legal and

financial aspects and responsibilities of marriage and parenthood.

(5) Oral health, vision, and hearing.

(6) Nutrition.

(7) Exercise, rest, and posture.

(8) Diseases and disorders, including sickle cell anemia and related genetic diseases and disorders.

(9) Environmental health and safety.

(10) Community health.

(b) To the maximum extent possible, the instruction in health is structured to provide comprehensive education in health to include all the subjects in subdivision (a).

(c) There is the maximum community participation in the teaching of health including classroom participation by practicing professional health and safety personnel in the community.

(d) Pupils gain appreciation for the importance and value of lifelong health and the need for each individual's personal responsibility for his or her own health.

51891. As used in this chapter, "community participation" means the active participation in the planning, implementation, and evaluation of comprehensive health education by parents, professional practicing health care and public safety personnel, and public and private health care and service agencies.

Article 3. Department of Education

51900. The Department of Education shall prepare and distribute to school districts guidelines for the preparation of comprehensive health education plans no later than March 30, 1978, and in cooperation with those county offices of education which desire to participate, shall assist school districts in developing comprehensive health education plans and programs and for this purpose shall assume the following functions and carry out the following duties:

(a) Assist in the development of model curricula for the public schools for comprehensive health education programs consistent with the provisions and intent of approved district comprehensive health education plans.

(b) Identify innovative teaching methods for the instruction in health in the public schools.

51901. The Department of Education shall be responsible for the preparation and distribution of health education materials and for providing assistance for in-service teaching programs carried out with districts that have plans approved pursuant to Section 51911.

Article 4. Comprehensive Health Education Plans

51910. Each school district that wishes to receive reimbursement for in-service teacher training provided in accordance with Section 51920 shall submit to the Department of Education for review and approval a plan for a comprehensive health education program. The governing board of the school district shall seek direct community, parent, and teacher involvement and participation in the development and implementation of the plan, including the cooperation and assistance of the qualified instructional staffs of state-supported public institutions of higher education.

51911. Approval of district plans shall be made in accordance with rules and regulations adopted by the State Board of Education.

51912. The governing boards of any two or more school districts, with the approval of the Department of Education, may develop and submit for approval a joint plan for a comprehensive health education program.

51913. The plan for a comprehensive health education program shall include a statement setting forth the district's educational program for health education on a district basis. The State Board of Education shall establish standards and criteria to be used in the evaluation of plans submitted by school districts. Such standards and criteria for review and approval of plans by the State Board of Education shall include, but not be limited to, provision for:

(g) Evaluation of the program by the governing board of the school district with the assistance of administrators, teachers, parents, pupils, and participants in the program from the community.

51914. No plan shall be approved by the State Board of Education unless it determines that the plan was developed with the active cooperation of parents, community, and teachers, in all stages of planning, approval, and implementation of the plan.

51915. In the development of a plan for a comprehensive health education program, the governing board of a school district may include in such plan the employment of the following as resource persons, with or without compensation: (a) licensed physicians and surgeons, school or public health nurses, county health officers, optometrists, dentists, and other persons licensed by the state to practice in allied health professions, and other persons recognized by the governing board as being experts in the health sciences.

Article 5. In-Service Training

51920. The Department of Education shall reimburse all school certificated personnel from those school districts in which the governing board has adopted a comprehensive health education plan approved by the Department of Education according to this chapter for necessary travel and expenses resulting from participation in health education in-service training programs sponsored by the department.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education, the sum of one hundred thousand dollars ($100,000) to administer and carry out the provisions of Chapter 5.5 (commencing with Section 51880) of Part 28 of the Education Code as needed and without regard to fiscal years.

CHAPTER 810

An act to add and repeal Section 33447 of the Health and Safety Code, relating to redevelopment.

[Became law without Governor's signature September 15, 1977. Filed with Secretary of State September 15, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 33447 is added to the Health and Safety Code, to read:

33447. In addition to any other authority contained in this division, taxes levied in a project area and allocated to the agency as provided in subdivision (b) of Section 33670 may be used as provided thereby anywhere within the territorial jurisdiction of the agency to finance the construction or acquisition of public improvements meeting the following criteria, as determined by resolution of the agency:

(a) The public improvements will enhance the environment of a residential neighborhood containing housing for persons and families of low or moderate income, as defined in Section 41056, including very low-income households, as defined in Section 41067.

(b) The public improvements will be of benefit to the project area. Such determination shall be final and conclusive as to the issue of benefit to the project area.

(c) Public improvements eligible for financing under this section shall be limited to the following:

(1) Street improvements.

(2) Water, sewer, and storm drainage facilities.

(3) Neighborhood parks and related recreational facilities.

This section shall be applicable to redevelopment projects within the City of Paramount for which the redevelopment plan authorizes tax-increment financing pursuant to Section 33670, whether the redevelopment plan is adopted prior or subsequent to January 1, 1978. Financing of public improvements pursuant to this section shall be authorized by the redevelopment plan or by resolution of the agency. Any ordinance or resolution implementing this section shall be adopted on or before December 31, 1980, and shall specify the public improvements to be financed thereunder.

The Legislature finds and declares that effective redevelopment within the City of Paramount requires the existence of adequate public services and facilities for persons residing in the surrounding community, including persons employed by industry which is located in a redevelopment project, and that public improvements of the types specified in this section are particularly needed in the low- and moderate-income neighborhoods of the City of Paramount in order to encourage stability and prevent decline which could have serious negative impact on redevelopment, as well as necessitate additional redevelopment. Because of the unusually compelling

need in the City of Paramount and because of the impracticability of financing all required improvements by other means, it is the intent of the Legislature in enacting this section to temporarily augment the powers of the redevelopment agency of the City of Paramount to permit the use of tax-increment revenues in the manner, and for the purposes prescribed by this section.

This section shall remain in effect only until January 1, 1981, and on such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1981, deletes or extends such date. However, the repeal of this section on such date shall not affect the validity of any ordinance or resolution adopted prior thereto as provided in this section, and shall not affect the validity of any bonds issued pursuant to such ordinance or resolution, or of any pledge pursuant to Section 33671 of tax revenues to accrue on or after such date.

CHAPTER 811

An act to amend Section 74001.5 of the Government Code, relating to courts.

[Became law without Governor's signature September 15, 1977
Filed with Secretary of State September 15, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 74001.5 of the Government Code is amended to read:

74001.5. The judges of the West Orange County Judicial District and the Orange County Harbor Judicial District may appoint one court commissioner for each district. Such appointment by the judges of the Orange County Harbor Judicial District may only be made in lieu of appointing a traffic referee or traffic trial commissioner pursuant to Sections 72400 and 72450, respectively. The commissioner shall possess the same qualifications as the law requires of a judge of the municipal court. The commissioner shall hold office at the pleasure of the judges and shall receive a monthly salary in the same sum as is paid a commissioner of the Los Angeles Municipal Court District. The commissioner shall be ex officio deputy clerk of the court and shall be a member of any retirement system which includes the attachés of the court and shall receive the same fringe benefits as granted to such attachés. The commissioner shall not engage in the private practice of law.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because this act is in accordance with the request of a local governmental entity or entities which desire legislative authority to act to carry out the

program specified in this act.

CHAPTER 812

An act to add Section 20022.3 to the Government Code, relating to the Public Employees' Retirement System.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 20022.3 is added to the Government Code, to read:

20022.3. Notwithstanding any other provision of this part, compensation includes salary withheld by the employer in accordance with Section 45165 of the Education Code, which provides for continuation of salary payments during a period in which the member renders no service. Such withheld salary shall be reported as earned.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because local agencies may adjust administrative action and thereby preclude any increase in cost.

CHAPTER 813

An act to amend Sections 987.53, 987.65, and 987.71 of the Military and Veterans Code, relating to veterans' farm and home purchase, and declaring the urgency thereof, to take effect immediately.

SEC. 3. Section 987.71 of the Military and Veterans Code is amended to read:

The purchaser on any installment date may pay any or all installments still remaining unpaid. In any individual case the department may for good cause postpone from time to time upon terms as the department deems proper, the payment of the whole or any part of any installment of the purchase price or interest thereon. Each installment shall include an amount sufficient to pay the principal and interest on the participation contract to which the interest of the department is subject, and such amount as may be required by any covenant or provision contained in any resolution of issuance.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The median price of conventional homes within the state has risen to such a degree that many potential beneficiaries of the Cal-Vet loan program have been priced out of the housing market. In order that the benefits of this act shall be available to veterans as soon as possible, this act must take effect immediately.

CHAPTER 814

He or she shall direct only those laboratories whose clinical function is limited to histocompatibility testing, and he or she shall have the same responsibilities for administering such a laboratory under this act as does a laboratory director.

SEC. 2. Section 1260.1 is added to the Business and Professions Code, to read:

1260.1. The board shall issue a histocompatibility laboratory director's license to each person who meets the qualifications

(t) All references in this chapter to financial statements, assets, liabilities, and other accounting items mean such financial statements and accounting items prepared or determined in accordance with generally accepted accounting principles, and fairly presenting the matters which they purport to present, subject to any specific requirement imposed by this chapter or by the commissioner.

SEC. 3. Section 1350 of the Health and Safety Code is amended to read:

1350. (a) Every plan not exempted from this chapter which on June 30, 1976, is registered under the Knox-Mills Health Plan Act as in effect prior to July 1, 1976, shall promptly notify the commissioner of its intention to seek licensing under this chapter and shall file an application for licensing as a plan by September 30, 1976. Each such plan may continue to operate under the provisions of the Knox-Mills Health Plan Act as in effect prior to July 1, 1976, until September 30, 1977. However, such plans shall not be subject to the assessment or reregistration pursuant to the provisions of former Sections 12538 or 12538.4 of the Government Code and shall be subject to the provisions respecting reporting which are contained in Sections 1371 and 1383 and subdivisions (a), (d), (e), and (f) of Section 1384.

On October 1, 1977, the commissioner shall issue to each such plan, other than a plan whose application for a license pursuant to Section 1353 has been previously granted or denied or a plan which has ceased operations as of such date, a transitional license which shall expire on September 30, 1978, unless such expiration date is extended

by the commissioner in order to permit additional time for processing applications. No findings shall be made by the commissioner as a condition precedent to the issuance of a transitional license. On approval by the commissioner of a plan's application for license and the issuance to such plan of a license by the commissioner pursuant to Section 1353, such plan's transitional license shall be summarily revoked.

(b) If an application filed pursuant to subdivision (a) is denied, the commissioner shall give notice thereof as provided in Section 1354 and the plan shall not, after receipt of such notice, solicit or receive further enrollment or subscription pursuant to its transitional license or otherwise unless and until such order of denial is revoked or set aside. Within 30 days after the date of mailing of such notice, the plan shall either cease operations in this state at which time its transitional license shall be summarily revoked by the commissioner or request a hearing pursuant to Section 1354, such hearing to commence within 15 business days after receipt of such request unless the plan and the commissioner consent in writing to a later date. If, after hearing, the denial of the application is affirmed by the commissioner, such plan shall cease operations in this state within 15 days after the date of such order and its transitional license shall be summarily revoked. Thereafter, such plan shall be subject in all respects to the provisions of this chapter and may no longer continue to operate under the provisions of any transitional license previously issued to such plan. If an application filed pursuant to subdivision (a) is abandoned or withdrawn or if a plan otherwise ceases operations, the commissioner shall summarily revoke the transitional license previously issued to such plan.

(c) On and after July 1, 1976, all administrative powers exercised by the Attorney General under the terms and provisions of the Knox-Mills Health Plan Act shall be exercised by the commissioner under the provisions of this section, and the Attorney General shall act as attorney for the commissioner except that the Attorney General may continue all civil or administrative proceedings initiated by the Attorney General prior to such date.

(d) A copy of any contract made, or to be made, between the applicant and any provider of health care services, or persons listed in subdivision (c), or any other person or organization agreeing to perform an administrative function or service for the plan. The commissioner by rule may identify contracts excluded from this requirement and make provision for the submission of form contracts. The payment rendered or to be rendered to such provider of health care services shall be deemed confidential information that shall not be divulged by the commissioner, except that such payment may be disclosed and become a public record in any legislative, administrative, or judicial proceeding or inquiry. The plan shall also submit the name and address of each physician employed by or contracting with the plan, together with his or her license number.

(e) A statement describing the plan, its method of providing for health care services and its physical facilities. If applicable, this statement shall include the health care delivery capabilities of the plan including the number of full-time and part-time primary physicians, the number of full-time and part-time and specialties of all nonprimary physicians; the numbers and types of licensed or state-certified health care support staff, the number of hospital beds contracted for, and the arrangements and the methods by which health care services will be provided. For purposes of this subdivision, primary physicians include general and family practitioners, internists, pediatricians, obstetricians, and gynecologists.

is to be issued to any employers, unions, trustees, or other organizations.

(k) A statement describing the service area or areas to be served, including the service location for each provider rendering professional services on behalf of the plan and the location of any other plan facilities where required by the commissioner.

(*l*) A description of enrollee-subscriber grievance procedures to be utilized as required by this chapter, and a copy of the form specified by subdivision (c) of Section 1368.

(m) A description of the procedures and programs for internal review of the quality of health care pursuant to the requirements set forth in this chapter.

(n) A description of the mechanism by which enrollees and subscribers will be afforded an opportunity to express their views on matters relating to the policy and operation of the plan.

SEC. 6. Section 1351.2 is added to the Health and Safety Code, to read:

1351.2. On written notice to a plan, the commissioner shall summarily revoke a plan's transitional license for failure of such plan to make a bona fide written response to a written request for information by the commissioner within such reasonable time period as has been communicated to the plan by the commissioner. A bona fide written response for the purposes of this section shall be defined as the submission by the plan of information which has been reasonably requested by the commissioner to enable the commissioner to process such plan's application for a license or to make the determination referred to in Section 1353.

SEC. 7. Section 1355 of the Health and Safety Code is amended to read:

1355. Every plan's license issued under this chapter shall remain in effect until revoked or suspended by the commissioner, except that every transitional license shall expire on September 30, 1978, unless such expiration date is extended by the commissioner.

SEC. 8. Section 1367.1 is added to the Health and Safety Code, to read:

1367.1. Subdivision (i) of Section 1367 shall apply to transitionally licensed plans only insofar as it relates to contracts entered into, amended, delivered, or renewed in this state on or after October 1, 1977.

SEC. 9. Section 1368 of the Health and Safety Code is amended to read:

1368. (a) Every plan shall establish and maintain a grievance system approved by the department under which enrollees may submit their grievances to the plan. Each system shall provide reasonable procedures in accordance with department regulations which shall insure adequate consideration of enrollee grievances and rectification when appropriate.

(b) Every plan shall inform its subscribers and enrollees upon enrollment in the plan and annually thereafter of the procedure for processing and resolving grievances. Such information shall include the location and telephone number where grievances may be submitted.

(c) Every plan shall provide forms for complaints to be given to subscribers and enrollees who wish to register written complaints. The forms used by plans licensed pursuant to Section 1353 shall be approved by the commissioner in advance as to format.

(d) The plan shall keep in its files all copies of complaints, and the responses thereto, for a period of five years.

SEC. 10. Section 1369 of the Health and Safety Code is amended to read:

1369. Every plan licensed pursuant to Section 1353 shall establish procedures to permit subscribers and enrollees to participate in establishing the public policy of the plan. For purposes of this section, public policy means acts performed by a plan or its employees and staff to assure the comfort, dignity, and convenience of patients who

rely on the plan's facilities to provide health care services to them, their families, and the public.

Compliance with the requirements of the Health Maintenance Organization Act of 1973 (42 U.S.C. § 300e et seq.) shall be deemed sufficient compliance with this section.

SEC. 11. Section 1375 of the Health and Safety Code is amended to read:

1375. (a) Except as provided in subdivision (d) or (e), on and after one year from the effective date of amendments to this section enacted during the first half of the 1977–78 Regular Session of the Legislature, every plan shall maintain an agreement, held unobjectionable by the commissioner, with an unrelated subsequent provider who may be an insurer, a health facility or medical service corporation, another licensed plan, or a governmental organization to provide the payment of the cost of the originally contracted health care service or to provide the originally contracted health care service in the event the plan ceases to do business, because of business failure, suspension of or revocation of its license, or any other reason. For purposes of this section, "unrelated subsequent provider" means a person who is not, directly or indirectly, controlled by, under common control with, or in control of the plan or of any officer, director, employee, or person providing financial support of the plan. Upon a finding by the commissioner that the purposes of this chapter and the public interest are fully served, the commissioner may waive the requirement that the subsequent provider shall be an unrelated entity.

(b) In the event of failure, suspension or revocation of a plan, the subsequent provider shall, at least 15 days prior to cessation of operation, notify in writing, all subscribers and enrollees as to such cessation and as to the manner in which health care services will be paid for or provided to them after the cessation date by the subsequent provider.

(c) The requirement of a subsequent provider of health care services to subscribers and enrollees in the event of a discontinuance of services may be satisfied by an agreement between two or more plans licensed under this chapter. Such agreement shall be expressly approved by the commissioner, if the commissioner finds that:

(1) Each plan has the financial resources to meet such an obligation.

(2) Each plan has facilities sufficiently close to the service area of the other to minimize inconvenience to subscribers and enrollees of the nonfunctioning plan.

(3) Each plan has the personnel available, or can obtain the personnel, to provide adequate services to the subscribers and enrollees of the nonfunctioning plan.

(d) After five continuous years of active operation, a plan may apply to the commissioner for an exemption from the requirements of subdivision (a). Any plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the

Government Code prior to its repeal shall be able to count its years of continuous operation under Article 2.5 toward the exemption requirements of this subdivision. The commissioner shall grant such an exemption if the commissioner finds upon application that:

(1) In the case of a plan certified under Article 2.5 (commencing with Section 12530) of Chapter 6 of Part 2 of Division 3 of the Government Code prior to its repeal, the plan has continuously maintained for the preceding 12-month period a tangible net equity of not less than seven hundred fifty thousand dollars ($750,000). The commissioner may waive the provisions of this paragraph if the commissioner finds such action to be in the public interest.

(2) The plan has not been found to be significantly in violation of the fiscal requirements of this chapter in the preceding two years.

(3) The commissioner specifically finds that the operation of the plan is such that the subscribers and enrollees are protected from the likelihood of the plan's failure.

(e) A plan which meets the requirements of Section 1375.1 may apply to the commissioner for an exemption from the requirement of subdivision (a)

(f) If after having been granted the exemption contained in subdivision (d) or (e), the plan fails to meet the requirements of the exemption, the provisions of subdivision (a) shall be reapplied by the commissioner following a hearing.

(g) Upon denial of the application, the commissioner shall notify the applicant in writing, stating the reasons for the denial and that the applicant has the right to a hearing if the applicant makes a written request within 30 days after the date of the mailing of the notice of denial.

SEC. 12. Section 1375.1 of the Health and Safety Code is amended to read:

1375.1. (a) Every plan licensed pursuant to Section 1353 shall have and shall demonstrate to the commissioner that it has:

(1) A fiscally sound operation and adequate provision against the risk of insolvency; and

(2) Assumed full financial risk on a prospective basis for the provision of covered health care services, except that a plan may obtain insurance or make other arrangements for the cost of providing to any subscriber or enrollee covered health care services, the aggregate value of which exceeds five thousand dollars ($5,000) in any year, for the cost of covered health care services provided to its members other than through the plan because medical necessity required their provision before they could be secured through the plan, and for not more than 90 percent of the amount by which its costs for any of its fiscal years exceed 115 percent of its income for such fiscal year.

(b) In determining whether the conditions of this section have been met, the commissioner shall consider, but not be limited to, the following:

(1) The financial soundness of the plan's arrangements for health

care services and the schedule of rates and charges used by the plan.

(2) The adequacy of working capital.

(3) Agreements with providers for the provision of health care services.

(c) For the purposes of this section, "covered health care services" means health care services provided under all plan contracts.

SEC. 13. Section 1375.2 is added to the Health and Safety Code, to read:

1375.2. On and after October 1, 1977, every plan operating under a transitional license shall have a fiscally sound operation.

SEC. 14. Section 1376 of the Health and Safety Code is amended to read:

1376. (a) No plan or solicitor firm shall conduct any activity regulated by this chapter in contravention of such rules and regulations as the commissioner may prescribe as necessary or appropriate in the public interest or for the protection of plans, subscribers, and enrollees to provide safeguards with respect to the financial responsibility of plans and solicitor firms. Such rules and regulations may require a minimum capital or net worth, limitations on indebtedness, procedures for the handling of funds or assets, including segregation of funds, assets and net worth, the maintenance of appropriate insurance and a fidelity bond, and the maintenance of a surety bond in an amount not exceeding ten thousand dollars ($10,000).

(b) The surety bond referred to in subdivision (a) shall be conditioned upon compliance by the licensee with the provisions of this chapter and the rules and regulations adopted pursuant to this chapter and orders issued under this chapter. Such bond, unless previously canceled, shall apply to the entire period that the license is in effect. Every surety bond shall provide that no suit may be maintained to enforce any liability thereon unless brought within two years after the act upon which such suit is based, and shall also provide that the liability of the surety on such bond to all persons aggrieved shall, in no event, exceed in the aggregate the amount thereof. Every such bond shall also contain a provision authorizing the surety thereon to cancel the bond upon 30 days' written notice to the licensee and to the commissioner; except that such cancellation shall not affect any liability incurred or accrued prior to the effective date of such cancellation.

(c) Any appropriate deposits of cash or securities shall be accepted in lieu of the surety bond required pursuant to subdivision (a).

(d) For purposes of computing any minimum capital requirement which may be prescribed by the rules and regulations of the commissioner under subdivision (a), any operating cost assistance or direct loan made to a plan by the United States Department of Health, Education and Welfare pursuant to Public Law 93-222, as amended, shall be treated as a subordinated loan,

notwithstanding any express terms thereof to the contrary.

SEC. 15. Section 1386 of the Health and Safety Code is amended to read:

1386. (a) The commissioner may suspend or revoke any license issued under this chapter to a health care service plan or assess civil penalties if the commissioner determines that the licensee has committed any of the acts or omissions constituting grounds for disciplinary action.

(b) The following acts or omissions constitute grounds for disciplinary action by the commissioner.

(1) The plan is operating at variance with the basic organizational documents as filed pursuant to Section 1351 or 1352, or with its published plan, or in any manner contrary to that described in, and reasonably inferred, from the plan as contained in its application for licensure and annual report, or any modification thereof, unless amendments allowing such variation have been submitted to, and approved by, the commissioner.

(2) The plan has issued evidence of coverage or uses a schedule of charges for health care services which do not comply with those published in the latest evidence of coverage found unobjectionable by the commissioner.

(3) The health care service plan does not provide basic health care services to its enrollees and subscribers as set forth in the evidence of coverage. This subdivision shall not apply to specialized health care service plan contracts.

(4) The plan is no longer able to meet the standards set forth in Article 5 (commencing with Section 1369).

(5) The continued operation of the plan will constitute a substantial risk to its subscribers and enrollees.

(6) The plan has violated or attempted to violate, or conspired to violate, directly or indirectly, or assisted in or abetted a violation or conspiracy to violate any provision of this chapter or any rule or regulation adopted by the commissioner pursuant to this chapter.

(7) The plan has engaged in any conduct which constitutes fraud or dishonest dealing or unfair business practice as defined by Section 3369 of the Civil Code.

(8) The plan has permitted, or aided or abetted any violation by an employee or contractor who is a holder of any certificate, license, permit, registration or exemption issued pursuant to the Business and Professions Code, or the Health and Safety Code which would constitute grounds for discipline against such certificate, license, permit, registration, or exemption.

(9) The plan has aided or abetted or permitted the commission of any illegal act

(10) The engagement of a person as an officer, director, associate, or provider of the plan contrary to the provisions of an order issued by the commissioner pursuant to subdivision (c).

(11) The plan, its management company, or any other affiliate of the plan, or any controlling person, officer, director, or other person

occupying a principal management or supervisory position in such plan, management company or affiliate, has been convicted of either a misdemeanor involving moral turpitude or a felony and the commissioner finds that the misdemeanor or felony is reasonably related to the administration of the law. A plea or verdict of guilty or a conviction following a plea of nolo contendere is a conviction within the meaning of this subdivision. The commissioner may revoke or deny a license hereunder irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code.

(c) The commissioner may prohibit any person from serving as an officer, director, associate, or provider of any plan if such person was an officer, director, associate, or provider of a plan whose license has been suspended or revoked pursuant to this section and such person had knowledge of, or participated in, any of the prohibited acts for which such license was suspended or revoked. A proceeding for the issuance of an order under this subdivision may be included with a proceeding against a plan under this section or may constitute a separate proceeding, subject in either case to notice and hearing to the person affected in accordance with the provisions of subdivision (a) of Section 1397.

SEC. 16. Section 1387 of the Health and Safety Code is amended to read:

1387. (a) In addition to suspension or revocation of a license issued under this chapter, the commissioner may levy any civil penalty. The civil penalty may be in lieu of, or in addition to, the penalties of suspension or revocation.

(b) The amount of the civil penalty may not be less than one hundred dollars ($100) nor more than two thousand five hundred dollars ($2,500) for each violation of this chapter.

SEC. 17. Section 1396 of the Health and Safety Code is amended to read:

1396 (a) All entities registered and operating under the Knox-Mills Health Plan Act as of June 30, 1976, shall be licensed under this chapter provided they meet all provisions of this chapter other than Section 1343(a).

(b) Those entities so licensed who are substantially engaged in providing health care services by means of indemnification payments made to noncontracting health providers, shall reduce the gross percentage of said indemnity payments to a level in compliance with the provisions of Section 1343(a) of this chapter, within three years of the latest approved registration.

SEC. 18. Section 1399 of the Health and Safety Code is amended to read:

1399. (a) Surrender of a license as a health plan, solicitor, or solicitor firm, becomes effective 30 days after receipt of an application to surrender such license or within such shorter period of time as the commissioner may determine, unless a revocation or suspension proceeding is pending when the application is filed or a proceeding to revoke or suspend or to impose conditions upon the

surrender is instituted within 30 days after the application is filed. If such a proceeding is pending or instituted, surrender becomes effective at such time and upon such conditions as the commissioner by order determines.

(b) If the commissioner finds that any plan, solicitor, or solicitor firm is no longer in existence, or has ceased to do business as such a licensee or is subject to an adjudication of mental incompetence or to the control of a committee or conservator or guardian, or cannot be located after reasonable search, the commissioner may by order summarily revoke the license of such person.

(c) The commissioner may summarily suspend or revoke the license of a plan, solicitor, or solicitor firm upon (1) failure to pay any fee required by this chapter within 15 days after notice by the commissioner that such fee is due and unpaid, or (2) failure to file any amendment or report required under this chapter within 15 days after notice by the commissioner that such report is due, or (3) failure to maintain any bond or insurance pursuant to Section 1376.

(d) The commissioner may summarily suspend or revoke the transitional license of a plan on (1) the approval of the plan's application for license pursuant to Section 1353 of this chapter, as is provided in subdivision (a) of Section 1350, (2) the denial, abandonment, or withdrawal of the plan's application for license pursuant to Section 1353 or the cessation of the plan's operations as provided in subdivision (b) of Section 1350, or (3) the failure to make a bona fide written response to the commissioner as provided in Section 1351.2.

SEC. 19. Section 1399.1 is added to the Health and Safety Code, to read:

1399.1. (a) All orders and other actions taken by the commissioner pursuant to the authority contained in subdivision (c) of Section 1350 on or before September 30, 1977, and all administrative or judicial decisions or orders relating to the same and all conditions imposed upon the same remain in effect against a plan holding a transitional license.

(b) The Knox-Mills Health Plan Act as in effect prior to its repeal continues to govern all suits, actions, prosecutions or proceedings which are pending or which may be initiated under subdivision (c) of Section 1350 on the basis of facts or circumstances occurring on or before September 30, 1977.

SEC. 20. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

It is necessary that plans which were registered under the Knox-Mills Health Plan Act and which have applied for license under the Knox-Keene Health Care Service Plan Act of 1975 be transitionally licensed without findings as plans under the Knox-Keene Health Care Service Plan Act to subject all such plans to the provisions of that act at the same time to avoid competitive

disadvantages and to provide maximum protection to the public through fiscal examinations, medical surveys and other regulatory review, and to postpone the requirement that plans have subsequent providers, which requires additional time to permit implementation.Additionally, counties require authority as soon as possible to contract to provide the services of a health maintenance organization under Section 1876 of the federal Social Security Act, as well as to provide services in addition to those authorized by subsection (c) of Section 1876.

CHAPTER 819

An act to add Article 9 (commencing with Section 7700) to Chapter 1 of Division 4 of the Public Utilities Code, relating to rail service assistance.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1 Article 9 (commencing with Section 7700) is added to Chapter 1 of Division 4 of the Public Utilities Code, to read:

Article 9. Rail Service Assistance

7700. By Section 803 of the Railroad Revitalization and Regulatory Reform Act of 1976, designated in this chapter as the "act," Congress has established a local rail service continuation assistance program. Such program is designed to cover: the cost of rail service continuation payments; the cost of purchasing a line of railroad or other rail properties to maintain existing or provide for future rail service; the cost of rehabilitating and improving rail properties on a line of railroad to the extent necessary to permit adequate and efficient rail freight service on such line; and the cost of reducing the costs of lost rail service in a manner less expensive than continuing rail service. The Legislature hereby determines that such program should be implemented in California and that such implementation would constitute a public purpose.

7701. The Department of Transportation, in cooperation with the commission and other affected state and local agencies, shall be responsible for the preparation and periodic update of the state rail plan required by the act.

7702. The Department of Transportation, in cooperation with the commission and other affected state and local agencies, shall perform the duties required by the act in developing, promoting, supervising, and supporting safe, adequate, and efficient rail transportation services; maintaining adequate programs of investigation, research,

promotion, and development, with provisions for public participation; and shall take all practicable steps to improve transportation safety and to reduce transportation-related energy utilization and pollution. It is not the intent of this section to diminish in any respect the authority and responsibility of the commission. The department shall work in close cooperation with the commission in carrying out the duties imposed upon it under this chapter.

7703. The Department of Transportation shall administer a program of projects for rail service assistance financed in whole or in part with funds derived pursuant to the act. All necessary matching funds shall be expressly appropriated by the Legislature or donated by public or private entities.

7704. To the maximum extent permitted by federal law, rules, and regulations, the Department of Transportation shall recover the costs of administering this chapter from the federal funds received pursuant to the act.

7705. The Governor, the Secretary of the Business and Transportation Agency, and the Department of Transportation may enter into such agreements, execute such documents, establish and manage such accounts and deposits, act as a recipient, and take any other action that may be appropriate to carry out the rail assistance programs authorized by the act.

CHAPTER 820

An act to amend Sections 2101 and 2102 of the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2101 of the Unemployment Insurance Code is amended to read:

2101. (a) It is a misdemeanor to willfully make a false statement or representation or knowingly fail to disclose a material fact to obtain, increase, reduce, or defeat any benefit or payment, whether for the maker or for any other person, under any of the following statutes administered by the department:

(1) The provisions of this division.

(2) The provisions of any unemployment insurance law of the federal government

(3) The provisions of any training allowance law of the federal government.

(4) The provisions of any trade readjustment allowance law of the federal government.

(5) The provisions of any other allowance law of the federal government.

(b) Nothing in this section shall be construed to preclude the applicability of Section 470 of the Penal Code to any acts or omissions which violate this section.

SEC. 2. Section 2102 of the Unemployment Insurance Code is amended to read:

2102. (a) It is a misdemeanor for any person residing in this state to willfully make a false statement or representation or knowingly fail to disclose a material fact to obtain or increase benefits or payments under the provisions of the unemployment insurance law of any other state.

(b) Nothing in this section shall be construed to preclude the applicability of Section 470 of the Penal Code to any acts or omissions which violate this section.

SEC. 3. The amendments to Sections 2101 and 2102 of the Unemployment Insurance Code made by this act shall be operative with respect to acts or omissions commencing on and after the effective date of this act, and the provisions of Sections 2101 and 2102 of said code in effect prior to such amendments shall continue to be applicable with respect to acts or omissions commencing prior to the effective date of this act.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 821

An act to amend Section 10753.2 of the Revenue and Taxation Code and to amend Sections 5102, 5305.5, and 22705 of the Vehicle Code, relating to vehicles, and making an appropriation therefor.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 10753.2 of the Revenue and Taxation Code is amended to read:

10753.2. (a) After determining the California suggested base price, as defined in this article, of a vehicle or its cost price to the purchaser, as provided in this article, the department shall classify every vehicle in its proper class according to the classification plan set forth in this section.

(b) For the purpose of this part, a classification plan is established

consisting of the following classes: a class from no dollars ($0) to and including forty-nine dollars and ninety-nine cents ($49.99); a class from fifty dollars ($50) to and including one hundred ninety-nine dollars and ninety-nine cents ($199.99); and thereafter a series of classes successively set up in brackets having a spread of two hundred dollars ($200), consisting of such number of classes as will permit classification of all vehicles.

(c) The market value of a vehicle for each registration year, starting with either the year the vehicle was first sold to a consumer as a new vehicle or the year the vehicle was first purchased or assembled by the person applying for original registration in this state, shall be as follows: for the first year, 85 percent of a sum equal to the middle point between the extremes of its class as established in subdivision (b) of this section; for the second year, 70 percent of such sum; for the third year, 55 percent of such sum; for the fourth year, 40 percent of such sum; for the fifth year, 30 percent of such sum; for the sixth year, 25 percent of such sum; for the seventh year, 15 percent of such sum; for the eighth year, 10 percent of such sum; and for the ninth and each succeeding year, 5 percent of such sum; provided, however, that the minimum tax shall be the sum of one dollar ($1). Notwithstanding the provisions of this subdivision, the market value of a trailer coach first sold on and after January 1, 1966, which is required to be moved under permit as authorized in Section 35790 of the Vehicle Code, shall be determined by the schedule in Section 10753.3.

SEC. 2. Section 5102 of the Vehicle Code is amended to read:

5102. The environmental license plates shall be the same color and design as regular passenger vehicle, commercial vehicle, or trailer license plates, and shall consist of numbers or letters, or any combination thereof, not exceeding six positions for plates issued for motorcycles, and not exceeding seven positions for plates issued for other vehicles, and, for all vehicles, shall consist of not less than two positions, provided that there are no conflicts with existing passenger, commercial, trailer, motorcycle, or special license plates series or with the provisions of Section 4851

SEC. 3 Section 5350.5 of the Vehicle Code is amended to read·

5350.5. (a) Application for the original registration of, or for an original certificate of ownership to, a new trailer coach, a new camp trailer, or a new housecar, shall be accompanied by a certificate of origin from the manufacturer or fabricator showing the date of sale to the dealer or person first receiving it from the manufacturer or fabricator, the name of the dealer or person and a description sufficient to identify the trailer coach, camp trailer, or housecar, and a certification that the trailer coach, camp trailer, or housecar was new when sold If the original certificate of origin is not in existence, a duplicate thereof shall be prepared and shall accompany the application. If sold through a dealer, the dealer shall certify that the trailer coach, camp trailer, or housecar was new when sold to the applicant.

(b) As used in this section, "housecar" does not include a motortruck to which a camper has been permanently attached.

SEC. 4. Section 22705 of the Vehicle Code is amended to read:

22705. If the vehicle is appraised at a value not exceeding two hundred dollars ($200), the public agency which removed the vehicle shall:

(a) Within 48 hours after appraisal notify the Department of Justice in Sacramento of the removal of such vehicle.

(b) Prepare a certificate containing a description of the vehicle (including the location of any license plates thereon), stating the appraisal value of the vehicle and that the vehicle will be sold to an automobile dismantler or a scrap metal processor, and indicating one of the following:

(1) A lienholder has submitted a statement under penalty of perjury to the public agency that the registered and legal owners and other persons having an interest in the vehicle did not sign and return within 20 days to the Department of Motor Vehicles a declaration of opposition stating a desire to contest the claim which gives rise to the lien pursuant to Section 3071.3 of the Civil Code.

(2) The registered and legal owners have signed a release under penalty of perjury disclaiming any interest, which release shall be included with the certificate.

(3) The vehicle is in such condition that vehicle identification numbers are not available to determine owners of record with the department, in which event the vehicle may be disposed of.

(c) Upon completion of the certificate, execute and deliver a bill of sale free of any lien for fees and penalties due and payable to the department together with a copy of the certificate either to the lienholder, who shall endorse the bill of sale to a licensed automobile dismantler, or to the licensed automobile dismantler or the public agency for disposal, whichever has the vehicle in possession.

(d) Forward the completed certificate to the Department of Motor Vehicles in Sacramento.

(e) Licensed dismantlers acquiring vehicles which are the subject of certificates prepared and forwarded pursuant to this section shall be excused from any fees and penalties which would otherwise be due to the Department of Motor Vehicles, if a copy of the certificate forwarded to the Department of Motor Vehicles pursuant to this section is retained in the licensed dismantler's business record.

(f) A public agency may authorize by contract or franchise the removal, disposal, or removal and disposal, of such vehicles by other than a licensed automobile dismantler if it has first requested bids for removal, disposal, or removal and disposal, of such vehicles. Such franchise or contract shall be issued to or executed with the lowest responsible bidder. The bill of sale shall then be executed and delivered pursuant to subdivision (c) to the franchisee or contractor.

SEC. 5. The sum of thirty thousand dollars ($30,000) is hereby appropriated from the California Environmental Protection Program Fund to the Department of Motor Vehicles for its costs

incurred in connection with implementing Section 5102 of the Vehicle Code, as amended by this act.

SEC. 6. Section 2 of this act shall become operative on July 1, 1978.

CHAPTER 822

An act to amend Section 24051.1 of the Financial Code, relating to financial institutions.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 24051.1 of the Financial Code is amended to read:

24051.1. This division does not apply to any loan of credit made pursuant to a plan having all of the following characteristics:

(a) Credit cards are issued pursuant to written application therefor and to the plan whereby the organization issuing such cards shall be enabled to acquire those certain obligations which its members in good standing incur with those persons with whom the organization has entered into written agreements setting forth the plan, and where the obligations are incurred pursuant to such agreements; or whereby the organization issuing such cards shall be enabled to extend credit to its members.

(b) The fee for such credit cards is designed to cover the administrative costs of the plan and is imposed upon the issuance of the card and on annual renewal dates thereafter.

(c) Any charges, discounts, or fees resulting from the acquisition of such charges shall be paid to the organization issuing the credit cards by the persons, corporations or associations with whom the organization has entered into such written agreements.

CHAPTER 823

An act to amend Section 3060 of the Government Code, relating to personnel commissions of school districts.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 3060 of the Government Code is amended to read:

3060. An accusation in writing against any officer of a district, county, or city, including any member of the governing board or personnel commission of a school district, for willful or corrupt misconduct in office, may be presented by the grand jury of the county for or in which the officer accused is elected or appointed. An accusation may not be presented without the concurrence of at least 12 grand jurors.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 824

An act to add Section 487.1 to the Streets and Highways Code, relating to highways.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 487.1 is added to the Streets and Highways Code, to read:

487.1. The title to that portion of the right-of-way acquired by the City of Los Angeles, and furnished to the State of California, for Route 187, but not needed for that route upon its construction, is hereby relinquished to the city. However, before any relinquishment occurs, the department shall concur that such portion is not needed for state highway purposes, and the portion being relinquished shall be precisely described and recorded with the County Recorder of Los Angeles County.

SEC. 2. Before the Department of Transportation could construct any portion of State Highway Route 187, the City of Los Angeles was required, under Section 487 of the Streets and Highways Code, to acquire, and to furnish to the State of California, the necessary right-of-way. In so doing, the city furnished to the state more right-of-way than was actually required for the highway upon its construction. There is now a dispute between the Department of Transportation and the city as to which entity has title to the excess right-of-way.

In enacting Section 487, it was the intent of the Legislature that the state would have title only to that portion of the right-of-way necessary for the highway and not to all of the right-of-way that was

actually furnished.

Therefore, it is only equitable that the title to the excess right-of-way be relinquished to the city.

CHAPTER 825

An act to amend Sections 380, 31600, 34003, 34005, 34500, and 34501 of, to amend the heading of Division 14.7 (commencing with Section 34001) of, to add Sections 353 and 2402.7 to, and to repeal Sections 324, 324.5, and 27904 of, the Vehicle Code, relating to vehicles.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 324 of the Vehicle Code is repealed.

SEC. 2. Section 324.5 of the Vehicle Code is repealed.

SEC. 3. Section 353 is added to the Vehicle Code, to read:

353. "Hazardous material" is any material or device posing an unreasonable risk to health, safety, or property during transportation, as defined by regulations adopted pursuant to Section 2402.7.

SEC. 4. Section 380 of the Vehicle Code is amended to read:

380. "Liquefied petroleum gas" means normal butane, isobutane, propane, or butylene (including isomers) or mixtures composed predominantly thereof in liquid or gaseous state having a vapor pressure in excess of 40 pounds per square inch absolute at a temperature of 100 degrees Fahrenheit.

SEC. 5. Section 2402.7 is added to the Vehicle Code, to read:

2402.7. The commissioner shall adopt the definitions adopted by the United States Department of Transportation relating to hazardous materials, including, but not limited to, definitions relating to any explosive, flammable liquid, flammable solid, flammable gas, combustible liquid, oxidizing material, poison, corrosive material, compressed gas, radioactive material, or etiologic agent.

SEC. 6. Section 27904 of the Vehicle Code is repealed.

SEC. 7. Section 31600 of the Vehicle Code is amended to read:

31600. For the purposes of this division, "explosive" or "explosives" means any substance, or combination of substances, the primary or common purpose of which is detonation or rapid combustion and which is capable of a relatively instantaneous or rapid release of gas and heat. "Explosive" or "explosives" includes, but is not necessarily limited to, any of the following:

(a) Dynamite, nitroglycerine, picric acid, lead azide, fulminate of mercury, black powder, smokeless powder, propellant explosives, detonating primers, blasting caps, commercial boosters, or

nitrocarbonitrates (oxidizing materials) when transported in a combined load with any explosive, as defined in this section.

(b) Substances determined to be class A or class B explosives.

(c) "Explosive" or "explosives" does not include small arms ammunition or any other class C explosive.

(d) This division shall not apply to special fireworks classified by the United States Department of Transportation as class B explosives when such special fireworks are regulated by and in conformance with Part 2 (commencing with Section 12500) of Division 11 of the Health and Safety Code.

SEC. 8. The heading of Division 14.7 (commencing with Section 34001) of the Vehicle Code is amended to read:

DIVISION 14.7. FLAMMABLE AND COMBUSTIBLE LIQUIDS

SEC. 9. Section 34003 of the Vehicle Code is amended to read:

34003. As used in this division:

(a) "Cargo tank" means any container having a volumetric capacity in excess of 120 gallons that is used for the transportation of flammable liquids or combustible liquids. This term includes pumps, meters, valves, fittings, piping, and other appurtenances attached to a tank vehicle and used in connection with the flammable liquids or combustible liquids being transported in the cargo tank.

"Cargo tank" does not, however, include any tank used to carry fuel necessary for the operation of the vehicle or any equipment of the vehicle.

(b) "Tank vehicle" means any truck, trailer, or semitrailer equipped with a cargo tank which is used for the transportation of flammable liquids or combustible liquids within this state.

SEC. 10. Section 34005 of the Vehicle Code is amended to read:

34005. The provisions of this division shall not apply to a trap wagon or spray rig when empty or when transporting not more than 1,000 gallons of flammable liquids or combustible liquids to accomplish the basic function of such vehicle. For the purpose of this section, "trap wagon" and "spray rig" have the same meaning of those terms as defined in Section 36005.

SEC. 11. Section 34500 of the Vehicle Code is amended to read:

34500. The Department of the California Highway Patrol shall regulate the safe operation of the following vehicles:

(a) Motortrucks of three or more axles.

(b) Truck tractors.

(c) Buses and schoolbuses.

(d) Trailers, semitrailers, pole or pipe dollies, auxiliary dollies, and logging dollies used in combination with motortrucks of three or more axles, truck tractors, buses, or schoolbuses.

(e) Any combination of a two-axle truck and any vehicle or vehicles set forth in subdivision (d) that exceeds 40 feet in length when coupled together.

(f) Any truck, or any combination of a truck and any other vehicle, transporting hazardous materials.

(g) Trailer coaches which, when moved upon the highway, are required to be moved under a permit as specified in Section 35780 or 35790.

SEC. 11.5. Section 34501 of the Vehicle Code is amended to read:

34501. (a) The Department of the California Highway Patrol shall adopt reasonable rules and regulations which in the judgment of the department are designed to promote the safe operation of vehicles described in Section 34500, regarding, but not limited to, hours of service of drivers, equipment, fuel containers, fueling operations, inspection, maintenance, recordkeeping, accident reports, and drawbridges. The Commissioner of the Department of the California Highway Patrol shall appoint a committee of 15 members, consisting of representatives of industry subject to regulations to be adopted pursuant to this section, to act in an advisory capacity to the department, and the department is directed to cooperate and confer with the advisory committee so appointed.

The department may inspect any vehicles in maintenance facilities or terminals, as well as any records relating to the dispatch of vehicles or drivers, and the pay of drivers, to assure compliance with the provisions of this code and regulations adopted pursuant to this section.

The department may adopt regulations restricting or prohibiting the movement of vehicles from maintenance facilities or terminals found in violation of the provisions of this code and regulations adopted pursuant to this section.

(b) The department, using the definitions adopted pursuant to Section 2402.7, shall adopt such regulations for the transportation of hazardous materials in this state, except for materials the transportation of which is subject to other provisions of this code, as the department determines reasonably necessary to ensure the safety of persons and property using the highways. Such regulations may include provisions governing the filling, marking, packing, labeling, and assembly of, and containers that may be used for, hazardous materials shipments, and the manner by which the shipper attests that such shipments are correctly identified and in proper conditions for transport.

SEC. 12. Section 34501 of the Vehicle Code is amended to read:

34501. (a) The Department of the California Highway Patrol shall adopt reasonable rules and regulations which in the judgment of the department are designed to promote the safe operation of vehicles described in Section 34500, regarding, but not limited to, hours of service of drivers, equipment, fuel containers, fueling operations, inspection, maintenance, recordkeeping, accident reports, and drawbridges. Such rules and regulations shall not,

however, be applicable to schoolbuses which shall be subject to rules and regulations adopted pursuant to Section 34501.5. The Commissioner of the Department of the California Highway Patrol shall appoint a committee of 15 members, consisting of representatives of industry subject to regulations to be adopted pursuant to this section, to act in an advisory capacity to the department, and the department is directed to cooperate and confer with the advisory committee so appointed.

The department may inspect any vehicles in maintenance facilities or terminals, as well as any records relating to the dispatch of vehicles or drivers, and the pay of drivers, to assure compliance with the provisions of this code and regulations adopted pursuant to this section.

The department may adopt regulations restricting or prohibiting the movement of vehicles from maintenance facilities or terminals found in violation of the provisions of this code and regulations adopted pursuant to this section.

(b) The department, using the definitions adopted pursuant to Section 2402.7, shall adopt such regulations for the transportation of hazardous materials in this state, except for materials the transportation of which is subject to other provisions of this code, as the department determines reasonably necessary to ensure the safety of persons and property using the highways. Such regulations may include provisions governing the filling, marking, packing, labeling, and assembly of, and containers that may be used for, hazardous materials shipments, and the manner by which the shipper attests that such shipments are correctly identified and in proper conditions for transport.

SEC. 13. Section 12 of this act shall become operative only if Assembly Bill No. 510 is chaptered and becomes effective and in such case shall become operative January 1, 1978. If Assembly Bill No. 510 is chaptered and becomes effective, the provisions of Section 11.5 of this act shall not become operative.

SEC. 14. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant, identifiable cost changes.

CHAPTER 826

An act to add Section 10084 to the Business and Professions Code, relating to real estate sales.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977.]

SEC. 4. Section 28775 of the Health and Safety Code is amended to read:

28755. The term "misbranded hazardous substance" means a hazardous substance (including a toy or other article intended for use by children, which is a hazardous substance, or which bears or contains a hazardous substance in such manner as to be susceptible of access by a child to whom such toy or other article is entrusted) intended, or packaged in a form suitable for use in the household or by children if the packaging or labeling of such substance is in violation of an applicable regulation issued pursuant to Section 30002 or 30005, or if such substance, except as otherwise provided by, or pursuant to, Section 28775, 28778 or 28779, fails to bear a label which

states conspicuously, as prescribed in Chapter 10 (commencing with Section 25900) of Division 20: (1) the name and place of business of the manufacturer, packer, distributor, or seller; (2) the common or usual name or the chemical name, if there be no common or usual name, of the hazardous substance or of each component which contributes substantially to its hazard, unless the department by regulation permits or requires the use of a recognized generic name; (3) the signal word "DANGER" on substances which are extremely flammable, corrosive, or highly toxic; (4) the signal word "WARNING" or "CAUTION" on all other hazardous substances; (5) an affirmative statement of the principal hazard or hazards, such as "Flammable," "Combustible," "Vapor harmful," "Causes burns," "Absorbed through skin," or similar wording descriptive of the hazard; (6) precautionary measures describing the action to be followed or avoided, except when modified by the department pursuant to Section 28775, 28775.1, 28775.2, 28778, or 28779; (7) instructions, when necessary or appropriate, for first aid treatment; (8) the word "Poison" for any hazardous substance which is defined as "highly toxic" by Section 28746; (9) instructions for handling and storage of packages which require special care in handling or storage; and (10) the statement "Keep out of the reach of children," or its practical equivalent, or if the article is intended for use by children and is not a banned hazardous substance, adequate direction for the protection of children from the hazard. The term "misbranded hazardous substance" also includes a household substance as defined in subdivision (b) of Section 30001 if it is a substance described in Section 28743 and its packaging or labeling is in violation of an applicable regulation issued pursuant to Section 30002 or 30005.

SEC. 5. Chapter 15 (commencing with Section 30000) is added to Division 21 of the Health and Safety Code, to read:

CHAPTER 15. POISON PREVENTION PACKAGING ACT

Article 1. Definitions and General Provisions

30000. This chapter shall be known and may be cited as the "California Poison Prevention Packaging Act."

30001. Unless the provisions or the context otherwise requires, these definitions, rules of construction, and general provisions shall govern the construction of this chapter. As used in this chapter:

(a) The term "department" means the State Department of Health.

(b) The term "household substance" means any substance which is customarily produced or distributed for sale for consumption or use, or customarily stored by individuals in or about the household and is one of the following:

(1) A hazardous substance as that term is defined in Section 28743.

(2) A food, drug, or cosmetic, as those terms are defined in Sections 26012, 26010, and 26005, which (1) is toxic, (2) is corrosive,

(3) is an irritant, (4) is a strong sensitizer, (5) is flammable or combustible, or (6) generates pressure through decomposition, heat, or other means; if it may cause substantial personal injury or substantial illness during or as a proximate result of any customary or reasonably foreseeable handling or use, including reasonably foreseeable ingestion by children.

(3) A substance intended for use as fuel when stored in a portable container and used in the heating, cooking, or refrigeration system of a residential dwelling.

(c) The term "package" means the immediate container or wrapping in which any household substance is contained for consumption, use, or storage by individuals in or about the household, and, for purposes of household substances, also means any outer container or wrapping used in the retail display of any such substance to consumers.

"Package" does not include the following:

(1) Any shipping container or wrapping used solely for the transportation of any household substance in bulk or in quantity to manufacturers, packers, or processors, or to wholesale or retail distributors thereof.

(2) Any shipping container or outer wrapping used by retailers to ship or deliver any household substance to consumers unless it is the only container or wrapping.

(d) The term "special packaging" means packaging that is designed or constructed to be significantly difficult for children under five years of age to open or obtain a toxic or harmful amount of the substance contained therein within a reasonable time and not difficult for normal adults to use properly, but does not mean packaging which all such children cannot open or obtain a toxic or harmful amount of within a reasonable time.

(e) The term "labeling" means all labels and other written, printed, or graphic matter upon any household substance or its package, or accompanying such substance.

(f) The term "federal act" means the "Poison Prevention Packaging Act of 1970" (15 U.S.C. § 1471 et seq.).

Article 2. Regulations

30002. The department shall, pursuant to Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, adopt regulations establishing standards for the special packaging of any household substance in accordance with the provisions of this chapter if the regulations do not differ in substance or proscribe or require conduct which differs from the provisions of the federal act or regulations issued pursuant to the federal act and if the department finds as follows:

(a) The degree or nature of the hazard to children in the availability of such substance, by reason of its packaging, is such that special packaging is required to protect children from serious

personal injury or serious illness resulting from handling, using, or ingesting such substance.

(b) The special packaging to be required by such standard is technically feasible, practicable, and appropriate for such substance.

30003. In establishing a standard under Section 30002, the department shall consider all of the following:

(a) The reasonableness of such standard.

(b) Available scientific, medical, and engineering data concerning special packaging and concerning childhood accidental ingestions, illness, and injury caused by household substances.

(c) The manufacturing practices of industries affected by the standard.

(d) The nature and use of the household substance.

30004. To the extent that the requirements of this chapter are identical with the federal act, all regulations and any amendments to such regulations adopted pursuant to the federal act, which are in effect on the effective date of this section or which are adopted on or after such date, shall be the poison prevention packaging regulations of this state.

30005. Any federal regulation adopted by the department pursuant to this chapter shall take effect in this state 30 days after it becomes effective as a federal regulation. Any person who would be adversely affected by adoption of such federal regulation in this state may, within the 30 days prior to its becoming effective in this state, file with the state department, in writing, objections and a request for a hearing. The timely filing of substantial objections to a regulation which has become effective under the federal act, shall stay the adoption of the regulation in this state as a state regulation.

30006. If substantial objections are made to a federal regulation within 30 days prior to its becoming effective in this state or to a proposed regulation within 30 days after it is published, the department, after notice, shall conduct a public hearing to receive evidence on issues raised by the objections. Any interested person or his representative shall be heard at the hearing. The department shall act upon objections by order and shall mail the order to objectors by certified mail within a reasonable period of time after the hearing. The order shall be based on evidence contained in the record of the hearing. If the order concerns a proposed regulation of the department, the department may withdraw it or set an effective date for the regulation as published or as modified by the order. The effective date shall be at least 60 days after publication of the order.

30007. Nothing in this chapter shall authorize the department to prescribe specific packaging designs, product content, or package quantity, except as provided in subdivision (b) of Section 30008. In the case of a household substance for which special packaging is required pursuant to a regulation under this chapter, the department may prohibit the packaging of such substance in packages which it determines are unnecessarily attractive to children.

Article 3. Marketing of Conventional Packages

30008. For the purposes of making any household substance which is subject to a standard established under Section 30002 readily available to elderly or handicapped persons unable to use such substance when packaged in compliance with such standard, the manufacturer or packer, may package any household substance, subject to such standard in packaging of a single size which does not comply with such standard if both of the following are present:

(a) The manufacturer or packer also supplies such substance in packages which comply with such standards.

(b) The packages of such substance, which do not meet such standard, shall bear conspicuous labeling stating: "This package for household without young children." The department regulation may prescribe a substitute statement to the same effect for packaging too small to accommodate such labeling.

30009. If a household substance subject to such a standard is dispensed pursuant to an order of a physician, dentist, or other licensed medical practitioner authorized to prescribe the substance, then it may be dispensed in noncomplying packages only when directed in the order or when requested by the purchaser.

30010. If a household substance subject to such a standard is packaged pursuant to subdivision (b) of Section 30008 in a noncomplying package, and the department determines that the substance is not also being supplied by a manufacturer or packer in popular size packages which comply with such standard, the department may, after giving the manufacturer or packer an opportunity to comply with the purposes of this chapter, require by order that such substance be packaged by the manufacturer or packer exclusively in special packaging complying with such standard if it finds, after opportunity for hearing, that such exclusive use of a special packaging is necessary to accomplish the purposes of this chapter.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 832

An act to amend Section 9984.5 of, and to add Sections 9950.1 and 9953.1 to, the Business and Professions Code, relating to employment agencies.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 9950.1 is added to the Business and Professions Code, to read:

9950.1. When a licensee functioning as a single proprietorship incorporates for purposes of legal liability, the license shall be transferred to corporate status upon proper application to the bureau and upon payment of the filing fee as prescribed in Article 7 (commencing with Section 9995). No written examination shall be required as a condition to such transfer.

SEC. 2. Section 9953.1 is added to the Business and Professions Code, to read:

9953.1. A license which has expired may be renewed at any time within five years of its expiration upon proper application to the bureau and upon payment of the renewal fee in effect at the time of such renewal and upon payment of the reinstatement fee prescribed in Article 7 (commencing with Section 9995). No written examination shall be required as a condition to such renewal.

SEC. 3. Section 9984.5 of the Business and Professions Code is amended to read:

9984.5. (1) Notwithstanding the provisions of Sections 9975, 9977, and 9984, relating to fees, any employment agency which as its sole means of procuring or attempting to procure employment or engagements for others, uses a computer system to correlate and match information furnished by prospective employees and requirements from prospective employers, may as its sole compensation for services charge either a prospective employee or a prospective employer, but not both, a nonrefundable fee not to exceed twenty dollars ($20). In order to qualify under this section an agency shall satisfy all of the following requirements:

(a) Contact prospective employees not less than once every three months to ascertain whether they are presently seeking employment indicated in the agency's records. If the prospective employee has obtained employment or indicates he is no longer interested in employment, data with respect to such person may be removed from the computer system. If such person indicates he is seeking a position registered with the agency, data as to such person shall remain in the computer system for not less than one year from the date the fee was paid.

(b) The agency shall, not less than once per week, process all data through the computer system to obtain matches of prospective employees and prospective employers and notify the prospective employer of the name, qualifications and means of contacting such persons matching with such prospective employer, not more than 48 hours after such process.

(c) Comply with all rules and regulations adopted by the bureau. The bureau shall adopt and enforce such rules and regulations as

it determines are reasonably necessary to carry out the purposes of this section and to protect and safeguard persons seeking employment from fraud.

(2) Notwithstanding the provisions of Sections 9975, 9977, and 9984, relating to fees, any employment agency which as its sole means of procuring or attempting to procure employment or engagements for others, places the qualifications of applicants before prospective employers in areas exclusively outside the United States shall not be required to include the word "agency" in its title, or in any other identifying materials used in the conduct of its business.

CHAPTER 833

An act to add Section 8689 to the Streets and Highways Code, relating to Bass Lake Improvement District, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 8689 is added to the Streets and Highways Code, to read:

8689. Within the Bass Lake Improvement District in Madera County, a person who has an interest in any land in the improvement district less than a fee interest, such as a leaseholder or subleaseholder, may pay, and the tax collector may accept payment for the entire assessment or any installment thereon, including the assessment on the fee interest. When the tax collector accepts such payment on a portion or part of a parcel, the tax collector shall record such information as required to identify such payment, and the tax collector may add to such assessment a fee as required to pay any additional costs incurred for accepting such payment on a portion of the parcel assessed. The tax collector shall deposit all such fees in the general fund of the treasury.

SEC. 2. The Legislature hereby finds and declares that a special problem exists within the Bass Lake Improvement District the solution for which a general law cannot be made applicable. Within the Bass Lake Improvement District there are long-term leaseholds and improvements to real property made by the leaseholders which necessitated the creation of this improvement district to provide sewage services. The lessors of such parcels are required to collect assessments for the county, a task which the county can more equitably and efficiently accomplish directly from the occupiers and lessees as sewer use charges and other county taxes are collected. For these reasons a special act is necessary within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The occupiers and owners of improvements to property in the Bass Lake Improvement District are not able to discern from conflicting instructions regarding to whom and in what amounts the sewer assessments are to be paid. In order to have the payments by the property occupiers and owners promptly credited and accounted to the sewer assessments, it is necessary that the provisions of this act go into immediate effect.

CHAPTER 834

An act to add Section 165.3 to the Vehicle Code, relating to vehicles.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 165.3 is added to the Vehicle Code, to read:

165.3. An authorized emergency vehicle also is any vehicle of the Department of Airports of the City of Los Angeles while operated by peace officer personnel of the department within the boundaries of any airport that is subject to the jurisdiction of the department or in pursuit of any person suspected of committing any crime within such boundaries, or when responding to an airport emergency and necessarily operating the vehicle on a highway in order to reach property under the jurisdiction of the Department of Airports of the City of Los Angeles.

CHAPTER 835

An act making an appropriation for the state park system.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding Section 5098.2 of the Public Resources Code, the sum of four hundred sixty thousand dollars ($460,000) is hereby appropriated from the Park and Recreation Revolving Account in the General Fund to the Department of Parks and Recreation for expenditure during 1978, 1979, and 1980 for the

development of real property at Colonel Allensworth State Historic Park.

CHAPTER 836

An act to add Chapter 5.6 (commencing with Section 2570) to Division 2 of the Business and Professions Code, and to add Section 1321 to the Health and Safety Code, relating to health.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.6 (commencing with Section 2570) is added to Division 2 of the Business and Professions Code, to read:

CHAPTER 5.6. OCCUPATIONAL THERAPY

2570. (a) Any person representing himself or herself as an occupational therapist shall meet the qualifications prescribed by regulations of the state department governing reimbursement of such services under the provisions of Chapter 7 (commencing with Section 14000) of Part 3 of Division 9 of the Welfare and Institutions Code.

(b) Any person representing himself or herself as an occupational therapy assistant shall meet the qualifications for occupational therapy assistants prescribed by regulations of the state department governing licensure of skilled nursing facilities licensed pursuant to Chapter 2 (commencing with Section 1250) of Division 2 of the Health and Safety Code.

(c) It is unlawful and constitutes a misdemeanor for any person not meeting the criteria of subdivision (a) or (b) to use, in connection with his or her name or place of business, the words "occupational therapist," "occupational therapy assistant," "certified occupational therapist," "certified occupational therapy assistant," "occupational therapist registered," or the letters "OT," "OTA," "COT," "COTA," or "OTR," or any other words, letters, abbreviations, or insignia indicating or implying that such person is an occupational therapist or to represent, in any way, orally, in writing, in print or by sign, directly or by implication, that he or she is an occupational therapist or occupational therapy assistant.

SEC. 2. Section 1321 is added to the Health and Safety Code, to read:

1321. No health facility shall advertise or represent in any way that it provides occupational therapy services unless such services are provided under the administrative control of the health facility by an occupational therapist or occupational therapy assistant within

the meaning of Section 2570 of the Business and Professions Code.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act, because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 837

An act to amend Section 2525.9 of the Business and Professions Code, relating to podiatry.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2525.9 of the Business and Professions Code is amended to read:

2525.9. The examining committee shall have full authority, subject to rules and regulations adopted by the board, to investigate and to evaluate each and every applicant applying for a certificate to practice podiatry and to recommend to the board for final determination the admission of the applicant to the examination, or for the issuance of a certificate, in conformance with the provisions and qualifications required by this chapter.

In order to insure the continuing competence of persons holding certificates to practice podiatric medicine pursuant to this chapter, the Podiatry Examining Committee shall by January 1, 1980, adopt and administer regulations requiring continuing education of such certificate holders. The committee shall require certificate holders to demonstrate satisfaction of the continuing education requirements for each license renewal.

CHAPTER 838

An act to repeal and add Section 1735 of the Unemployment Insurance Code, relating to unemployment insurance and personal income tax withholdings.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 1735 of the Unemployment Insurance Code is repealed.

SEC. 2. Section 1735 is added to the Unemployment Insurance Code, to read:

1735. Any officer, major stockholder, or other person, having charge of the affairs of a corporate or association employing unit, who willfully fails to pay contributions required by this division or withholdings required by the Personal Income Tax Law on the date on which they become delinquent, shall be personally liable for the amount of the contributions, withholdings, penalties, and interest due and unpaid by such employing unit. The director may assess such officer, stockholder, or other person for the amount of such contributions, withholdings, penalties, and interest. The provisions of Article 8 (commencing with Section 1126) and Article 9 (commencing with Section 1176) of Chapter 4 of Part 1 of this division apply to assessments made pursuant to this section. With respect to such officer, stockholder, or other person, the director shall have all the collection remedies set forth in this chapter.

CHAPTER 839

SEC. 2. Section 325 of the Fish and Game Code is amended to read:

325. Whenever after due investigation the commission finds that game mammals, other than deer, and fur-bearing mammals and resident game birds have increased in numbers in any areas, districts, or portions thereof other than a refuge or preserve established by statute, to such an extent that a surplus exists, or to such an extent that the mammals or birds are damaging public or private property, or are overgrazing their range, the commission may provide by regulation, for a special hunting season for the mammals and birds, additional to, or concurrent with any other open season specified by law; or provide for increased bag limits; or remove sex restrictions specified by law.

SEC. 5. Chapter 5 (commencing with Section 450) of Division 1 of the Fish and Game Code is repealed.

SEC. 6. Chapter 5 (commencing with Section 450) is added to Division 1 of the Fish and Game Code, to read:

CHAPTER 5. MANAGEMENT OF DEER

450. It is hereby declared to be the policy of the Legislature to encourage the conservation, restoration, maintenance, and utilization of California's wild deer populations. Such conservation shall be in accordance with the principles of conservation of wildlife resources set forth in Section 1801 and in accordance with the objectives and elements stated in "A Plan for California Deer, 1976."

451. As used in this chapter "general deer hunting season" means the annual season for the area in question as is set by the commission under its general regulatory powers, or set by statute, for the taking of male deer.

452. The department shall designate deer herd management units and designate the manager for the units. Such units may encompass a single deer herd or a group of deer herds having similar management and habitat requirements and characteristics. Boundaries of such units, unless appropriate, need not follow county boundary lines.

453. The department shall develop plans for such deer herd management units. The objectives of such plans shall be the

restoration and maintenance of healthy deer herds in the wild state and to provide for high quality and diversified use of deer in California.

454. Such management plans shall contain the following program elements:

(a) Document existing information on deer herd management units and programs to obtain information that may be needed.

(b) Develop programs to maintain and increase the quality of deer habitat statewide. Such programs will emphasize cooperative action between the department and the appropriate land management entities, both public and private. Emphasis shall be directed towards identifying critical deer habitat areas and the maintenance and management of such areas.

(c) Develop programs to reduce natural mortalities where such reduction may be critical to meeting deer herd plan objectives.

(d) Develop programs to decrease the illegal taking of deer through modern law enforcement methods supported by public and private cooperative efforts.

(e) Develop diversified recreational use programs, including both hunting and nonhunting uses, consistent with the basic individual deer herd management unit capabilities.

455. Deer herd management unit plans shall be reviewed annually and shall be the basis for department recommendations to the commission pursuant to this chapter.

456. The department shall biennially report to the Legislature on the progress that is being made toward the restoration and maintenance of California's deer herds. Such report shall emphasize the program element that deals with deer habitat, particularly those problems dealing with identification and preservation of critical deer habitat areas.

457. The department shall determine prior to February 15 of each year its proposed recommendations to the commission, including its recommendations as to whether any antlerless deer hunts should be ordered. The recommendations of the department shall include the number, if any, of antlerless deer that should be taken in units, whether the permits should be either-sex permits, the proposed dates for each such taking, and the number of permits proposed for each unit.

458. The department not later than February 15 shall notify, by certified mail, the board of supervisors of each county affected of the details of its recommendations affecting such county.

The board of supervisors of any affected county may elect to hold a public hearing on the proposed recommendations of the department. Any such hearing shall be held prior to April 1. The director or his representative shall attend the hearing.

The board of supervisors of any county to which this section is applicable may, by resolution adopted, elect not to exercise the rights conferred by this section. Upon receipt of any such resolution, the department shall not thereafter be required pursuant to this section

to notify the board of supervisors of such county of its recommendations affecting such county.

This section applies only to the boards of supervisors of, and to those districts or parts of districts in, Siskiyou, Modoc, Trinity, Shasta, Lassen, Plumas, Sierra, Alpine, Amador, Butte, Calaveras, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Imperial, Inyo, Lake, Madera, Mariposa, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Riverside, San Luis Obispo, Santa Barbara, Santa Clara, Tehama, Tuolumne, Yolo, and Yuba Counties.

459. The board of supervisors of any county which has held a public hearing pursuant to Section 458 may, not later than April 1, by resolution adopted, object to the proposed recommendations of the department or may by resolution adopted, determine that the proposed recommendation should be modified, setting forth the necessary modifications.

A resolution objecting to, or setting forth modifications of, the proposed recommendations shall be based upon the testimony and information presented at the hearing, or presented to the board of supervisors at its meeting to consider such resolution.

The department shall not recommend to the commission, and the commission shall not authorize, the taking of antlerless deer in a county if it has received from the board of supervisors of that county a resolution objecting to such taking. In the event a board of supervisors of a county has submitted a resolution determining that the department's proposed recommendations on the taking of antlerless deer should be modified for that county, the department shall either so modify its recommendations and the commission shall so modify its orders, or the department shall not recommend and the commission shall not authorize the taking of antlerless deer in such county.

This section applies only to the board of supervisors of, and to those districts or parts of districts in, Siskiyou, Modoc, Trinity, Shasta, Lassen, Plumas, Sierra, Alpine, Amador, Butte, Calaveras, Colusa, Del Norte, El Dorado, Glenn, Humboldt, Imperial, Inyo, Lake, Madera, Mariposa, Mendocino, Merced, Mono, Monterey, Napa, Nevada, Orange, Placer, Riverside, San Luis Obispo, Santa Barbara, Santa Clara, Tehama, Tuolumne, Yolo, and Yuba Counties.

460. Prior to the April meeting of the commission as required in Section 207, the department shall recommend to the commission those deer herd units to be placed under a general deer hunting season. At the same time the department shall recommend to the commission subject to the provisions of Sections 458 and 459 whether any antlerless deer should be taken and in what deer herd units these are to be taken. If in the judgment of the department there are deer herd units in which hunting pressure would adversely affect the deer herd, or impair the hunting experience, or endanger the public safety, the department shall also recommend to the commission those deer herd units where hunter numbers should be restricted and which should be removed from the general deer hunting season

designation. The department shall inform the commission of the condition of each deer herd unit. Upon receipt of the recommendations and information required in this section, the commission shall make such material known to the public and its determinations regarding proposed regulations. The recommendations of the department shall, in accordance with the provisions of Sections 458 and 459, include the number, if any, of antlerless deer that should be taken in units, whether the permits should be either-sex permits, the proposed dates for each such taking, and the number of permits proposed for each unit. At the same time the department shall recommend the establishment of any hunter-restricted quota units, if needed, and the number of the quota and manner in which such quota permits should be issued.

SEC. 7. Section 4188 of the Fish and Game Code is amended to read:

4188. When a landowner or tenant applies for a permit under Section 4181.5, the commission, in lieu of such a permit may, with the consent of or upon the request of the landowner or tenant, under appropriate regulations, issue permits to persons holding valid hunting licenses to take deer in sufficient numbers to stop the damage or threatened damage. The commission, prior to issuing permits to licensed hunters, shall investigate and determine the number of permits necessary and the territory involved and the dates of the proposed hunt, and the manner of issuing the permits and the fee.

SEC. 8. Section 4331 of the Fish and Game Code is amended to read:

4331. The commission may determine the design and makeup of the deer license tag and prescribe the procedures for issuance and use.

Any nonresident of this state, 12 years of age or over, who possesses a valid hunting license, may, upon payment of twenty-five dollars ($25), procure one license tag for the taking of one deer by one person during the current license year.

The commission upon determination that a surplus of unharvested deer exists in a designated deer herd management unit or group of units may make available an additional tag (option tag). Any resident of this state, 12 years of age or over who possesses a deer tag may purchase for five dollars ($5) an additional tag for the taking of one legal deer by one person during the current license season for such designated deer herd management unit or group of units for which a surplus of deer has been declared. Any nonresident of this state, 12 years of age or over who possesses a deer tag may purchase for

thirty-five dollars ($35) one additional tag for the taking of one legal deer by one person during the current license season for such designated deer herd management unit or group of units for which a surplus of deer has been declared.

SEC. 10. Section 4370 of the Fish and Game Code is amended to read:

4370. In every area in which deer may lawfully be taken during the general open season there is an archery season for the taking of deer with bow and arrow. The season for each area shall be as the commission may prescribe, with a minimum interposing interval of three days immediately preceding the regular open season on deer in that area. No person taking or attempting to take deer during such archery season shall carry, or have under his immediate control, any firearm of any kind.

Requests for renewals shall be processed in the manner provided by this chapter except that the permittee shall not be required to file duplicate maps, drawings or other data if they were furnished with the original application. Each such renewal shall be valid for a period not to exceed 180 days from the date of renewal.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many areas of the state are obtaining emergency water supplies pursuant to temporary permits to supplement sources which are not available because of drought conditions. Many of these temporary permits will expire without possibility of renewal during the late summer when these emergency supplies are needed the most. This act provides for further permit renewals for limited periods. It is necessary, therefore, that the provisions of this act go into immediate effect.

CHAPTER 845

An act to amend Sections 18304, 18401, 18500, 18550, 18601, 18610, and 18612 of, to add Chapter 1.5 (commencing with Section 18250) to Part 2.1 of Division 13 of, to repeal and add Article 5 (commencing with Section 18640) of Chapter 5 of Part 2.1 of Division 13 of, to repeal Article 7 (commencing with Section 18680) of Chapter 5 of Part 2.1 of Division 13 of, and to repeal Sections 18302, 18600, and 18611 of, the Health and Safety Code, relating to mobilehome parks.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 1.5 (commencing with Section 18250) is added to Part 2.1 of Division 13 of the Health and Safety Code, to read:

CHAPTER 1.5. FINDINGS AND PURPOSES

18250. The Legislature finds and declares that increasing numbers of Californians live in mobilehomes and that most of those living in such mobilehomes reside in mobilehome parks. Because of the high cost of moving mobilehomes, most owners of mobilehomes reside within mobilehome parks for substantial periods of time. Because of the relatively permanent nature of residence in such parks and the substantial investment which a mobilehome represents, residents of mobilehome parks are entitled to live in conditions which assure their health, safety, general welfare, and a decent living environment, and which protect the investment of their mobilehomes.

18251. The Legislature finds and declares that the standards and requirements established for construction, maintenance, occupancy, use, and design of mobilehome parks should guarantee mobilehome park residents maximum protection of their investment and a decent living environment. At the same time, the standards and requirements should be flexible enough to accommodate new technologies and to allow designs that reduce costs and enhance the living environment of mobilehome park residents.

18252. The Legislature finds and declares that inclusion of specific standards within a statute often precludes the rapid and flexible action needed to correct substandard conditions, and that it is desirable to delete outdated requirements, and to add new and useful requirements designed to protect the health, safety, and general welfare of mobilehome park residents or to encourage use

of new technologies in the development of mobilehome parks.

18253. The Legislature finds and declares that the specific standards relating to construction, maintenance, occupancy, use, and design of mobilehome parks are best prescribed by the Commission of Housing and Community Development in accordance with the criteria established by the provisions of this part. Placing such authority with the commission will allow for modifications of specific standards in a rapid fashion and in a manner responsive to the needs of mobilehome park residents and owners.

18254. It shall be the purpose of the provisions of this part to (1) assure protection of the health, safety, and general welfare of mobilehome park residents and (2) allow modifications in regulations adopted pursuant to the provisions of this part in a manner consistent with the criteria established in this part. The regulations adopted by the commission pursuant to the authority granted in this part shall provide equivalent or greater protection to residents of mobilehome parks than the statutes and regulations in effect prior to the effective date of this section.

SEC. 2. Section 18302 of the Health and Safety Code is repealed.

SEC. 3. Section 18304 of the Health and Safety Code is amended to read:

18304. (a) This part does not apply to any apartment house, hotel, or dwelling which is subject to the provisions of Part 1.5 (commencing with Section 17910) of this division, or to any mobilehome accommodation structure which is subject to the provisions of Part 2.2 (commencing with Section 18800) of this division.

(b) This part does not apply to electric, gas, or water facilities owned, operated, and maintained by a public utility.

SEC. 4. Section 18401 of the Health and Safety Code is amended to read:

18401. The enforcement agency shall notify the mobilehome owner or occupant of any violations of the provisions of this part or of any rules or regulations issued pursuant to this part applicable to a mobilehome, accessory structure, or other appurtenance owned, occupied, or under such person's control. The notification shall include a statement that any willful violation of such provisions is a misdemeanor under Section 18700 of the Health and Safety Code.

SEC. 5. Section 18500 of the Health and Safety Code is amended to read:

18500. It is unlawful for any person to do any of the following unless he has a valid permit issued by the enforcement agency:

(a) Construct a mobilehome park.

(b) Construct additional buildings or lots, alter buildings, lots or other installations, in an existing mobilehome park.

(c) Operate, occupy, rent, lease, sublease, let out or hire out for occupancy any lot in a mobilehome park that has been constructed, reconstructed or altered without having obtained a permit as required herein.

(d) Operate a mobilehome park or any portion thereof.

This section shall not apply to any labor camp having a valid annual permit to operate.

SEC. 7. Section 18550 of the Health and Safety Code is amended to read:

18550. It shall be unlawful for any person to use or cause, or permit to be used for occupancy, any of the following mobilehomes, wherever such mobilehomes are located:

(a) Any mobilehome from which any axle or wheel hub has been removed therefrom except for the purpose of making temporary repairs or placing it in dead storage.

(b) Any mobilehome supplied with fuel, gas, water, electricity, or sewage connections, unless such connections and installations conform to regulations of the commission.

(c) Any mobilehome which is permanently attached with underpinning or foundation to the ground.

(d) Any mobilehome which does not conform to the registration requirements of the Vehicle Code. A mobilehome which may be moved under permit as provided for in Sections 35780 and 35790 of the Vehicle Code shall be deemed to conform to the requirements of such code within the meaning of this section.

(e) Any mobilehome in an unsanitary condition.

(f) Any mobilehome which is structurally unsound and does not protect its occupants against the elements.

(g) Any mobilehome which does not have a current annual vehicle license.

SEC. 8. Section 18600 of the Health and Safety Code is repealed.

SEC. 9. Section 18601 of the Health and Safety Code is amended to read:

18601. The commission shall adopt regulations to insure adequate animal control within mobilehome parks.

SEC. 10. Section 18610 of the Health and Safety Code is amended to read:

18610. The commisson shall adopt regulations to govern the construction, use, occupancy, and maintenance of mobilehome parks and lots within such parks. Such regulations shall establish standards and requirements which protect the health, safety, and general welfare of the residents of mobilehome parks. Such regulations shall be adopted by July 1, 1978, and shall provide equivalent or greater protection to the residents of mobilehome parks than the statutes and regulations in effect on December 31, 1977.

SEC. 11. Section 18611 of the Health and Safety Code is repealed.

SEC. 12. Section 18612 of the Health and Safety Code is amended to read:

18612. The commission shall adopt regulations to govern mobilehome lot access and driveways within mobilehome parks. Such regulations shall establish standards and requirements which protect the health, safety, and general welfare of the residents of mobilehome parks and shall require proper maintenance of lot

access and driveways. Such regulations shall be adopted by July 1, 1978, and shall provide equivalent or greater protection to the residents of mobilehome parks than the statutes and regulations in effect on December 31, 1977.

SEC. 13. Article 5 (commencing with Section 18640) of Chapter 5 of Part 2.1 of Division 13 of the Health and Safety Code is repealed.

SEC. 14. Article 5 (commencing with Section 18640) is added to Chapter 5 of Part 2.1 of Division 13 of the Health and Safety Code, to read:

Article 5. Regulations

18640. The commission shall adopt regulations for public toilets, shower, and laundry facilities in mobilehome parks. Such regulations shall establish standards and requirements which protect the health, safety, and general welfare of the residents of mobilehome parks, and shall require proper maintenance of such facilities. Such regulations shall be adopted by July 1, 1978, and shall provide equivalent or greater protection to the residents of mobilehome parks than the statutes and regulations in effect on December 31, 1977.

SEC. 15. Article 7 (commencing with Section 18680) of Chapter 5 of Part 2.1 of Division 13 of the Health and Safety Code is repealed.

SEC. 16. The administrative regulations adopted under the provisions of this act shall go into effect on July 1, 1978. The provisions of existing law which are being repealed or amended by this act shall remain in effect and continue to be enforced until the administrative regulations adopted pursuant to the authority conferred by this act actually take effect.

CHAPTER 846

An act to repeal Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code, to add Sections 25130, 25131, 25402, and 25402.1 to, and to repeal Section 25402 of, the Public Resources Code, relating to energy, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code is repealed.

SEC. 2. Section 25130 is added to the Public Resources Code, to read:

25130. "Nonresidential" building means any building which is heated or cooled in its interior, and is of an occupancy type other

than Type H, I, or J, as defined in the Uniform Building Code, 1973 edition, as adopted by the International Conference of Building Officials.

SEC. 3. Section 25131 is added to the Public Resources Code, to read:

25131. "Residential building" means any hotel, motel, apartment house, lodginghouse, single- and dwelling, or other residential building which is heated or mechanically cooled.

SEC. 4. Section 25402 of the Public Resources Code is repealed.

SEC. 5. Section 25402 is added to the Public Resource Code, to read:

25402. The commission shall, after one or more public hearings, do all of the following, in order to reduce the wasteful, uneconomic, inefficient, or unnecessary consumption of energy:

(a) Prescribe, by regulation, lighting, insulation climate control system, and other building design and construction standards which increase the efficiency in the use of energy for new residential and new nonresidential buildings. Such standards shall be cost effective, when taken in their entirety, and when amortized over the economic life of the structure when compared with historic practice. The commission shall periodically update the standards and adopt such revisions as in its judgment it deems necessary. In prescribing standards for insulation, the commission shall take into consideration the standards developed pursuant to Chapter 11 (commencing with Section 19870) of Part 3 of Division 13 of the Health and Safety Code, which standards shall only be operative until the date one year after the date that the commission adopts regulations for energy insulation for residential buildings pursuant to this subdivision. Six months after the commission adopts regulations pursuant to this subdivision, no city, county, city and county, or state agency shall issue a permit for any building unless the building satisfies the standards prescribed by the commission pursuant to this subdivision or subdivision (b) of this section.

(b) Prescribe by regulation, energy conservation design standards for new residential and new nonresidential buildings. Such standards shall be performance standards and shall be promulgated in terms of energy consumption per gross square foot of floor space, but may also include devices, systems, and techniques required to conserve energy. The standards shall be cost effective when taken in their entirety, and when amortized over the economic life of the structure when compared with historic practices. The commission shall periodically review the standards and adopt such revisions as in its judgment it deems necessary. A building that satisfies the standards prescribed pursuant to this subdivision need not comply with the standards prescribed pursuant to subdivision (a) of this section.

(c) By regulation, prescribe standards for minimum levels of operating efficiency, based on a reasonable use pattern, for all appliances whose use, as determined by the commission, requires a significant amount of energy on a statewide basis. Such minimum

levels of operating efficiency shall be based on feasible and attainable efficiencies or feasible improved efficiencies which will reduce the electrical energy consumption growth rate. Such standards shall become effective no sooner than one year after the date of adoption or revision. No new appliance manufactured on or after the effective date of such standards may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. One year after the effective date of such standards, no new appliance, regardless of the date of manufacture, may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. Such standards shall be drawn so that they do not result in any added total costs to the consumer over the designed life of the appliances concerned.

(d) Recommend minimum standards of efficiency for the operation of any new facility at a particular site which are technically and economically feasible. No site and related facility shall be certified pursuant to Chapter 6 (commencing with Section 25500) of this division, unless the applicant certifies that standards recommended by the commission have been considered, which certification shall include a statement specifying the extent to which conformance with the recommended standards will be achieved.

Whenever the provisions of this section and the provisions of Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code are in conflict, the commission shall be governed by the provisions of such chapter of the Health and Safety Code to the extent of such conflict.

SEC. 6. Section 25402.1 is added to the Public Resources Code, to read:

25402.1. In order to implement the requirements of subdivisions (a) and (b) of Section 25402, the commission shall do all of the following:

(a) Develop a public domain computer program which will enable contractors, builders, architects, engineers, and government officials to estimate the energy consumed by various classes of buildings with various types of occupancies. The commission may charge a fee for the use of the program, which fee shall be based upon the actual cost of the program, including any computer costs.

(b) Include a prescriptive method of complying with the standards including design aids such as a manual, sample calculations and model structural designs. The prescriptive program shall be based on the standards developed pursuant to Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code as it existed prior to the effective date of this section.

(c) Produce, no later than 180 days after adoption of the standards, an energy conservation manual for use by designers, builders, and contractors of nonresidential buildings. The manual shall be furnished upon request at a price sufficient to cover the costs

of production and shall be distributed at no cost to all affected local agencies. The manual shall contain, but not be limited to, the following:

(1) The standards for energy conservation established by the commission.

(2) Forms, charts, tables, and other data to assist designers and builders in meeting the standards.

(3) Design suggestions for meeting or exceeding the standards.

(4) Any other information which the commission finds will assist persons in conforming to the standards.

(5) Instructions for use of the computer program for calculating energy consumption in residential and nonresidential buildings.

(6) The prescriptive method for use as an alternative to the computer program.

(d) The commission shall establish a continuing program of technical assistance to local building departments in the enforcement of subdivisions (a) and (b) of Section 25402 and this section. The program shall include the training of local officials in building technology and enforcement procedures related to energy conservation, and the development of complementary training programs conducted by local governments, educational institutions, and other public or private entities. The technical assistance program shall include the preparation and publication of forms and procedures for local building departments in performing the review of building plans and specifications. The commission shall provide, on a contract basis, a review of building plans and specifications submitted by a local building department, and shall adopt a schedule of fees sufficient to repay the cost of such services.

(e) The provisions of subdivisions (a) and (b) of Section 25402 and this section, and the rules and regulations of the commission adopted pursuant thereto, shall be enforced by the building department of every city, county, or city and county.

(1) No building permit for any residential or nonresidential building shall be issued by a local building department unless a review by the building department of the plans for the proposed residential or nonresidential building contains detailed energy system specifications and confirms that the building satisfies the minimum standards established pursuant to subdivisions (a) and (b) of Section 25402 and this section applicable to such building.

(2) Where there is no such local building department the commission shall enforce the provisions of subdivisions (a) and (b) of Section 25402 and this section.

(3) If a local building department fails to enforce subdivisions (a) and (b) of Section 25402 and this section or any other provision of this chapter or standard adopted pursuant thereto the commission may provide such enforcement after furnishing 10 days' written notice to the local building department.

(4) A city, county, or city and county may by ordinance or resolution prescribe a schedule of fees sufficient to pay the costs

incurred in the enforcement of subdivisions (a) and (b) of Section 25402 and this section. The commission) may establish a schedule of fees sufficient to pay the costs incurred by such enforcement.

(f) The provisions of subdivisions (a) and (b) of Section 25402 and this section shall apply only to new residential and nonresidential buildings on which actual site preparation and construction have not commenced prior to the effective date of rules and regulations adopted pursuant to those sections that are applicable to such buildings. Nothing in those sections shall prohibit either of the following:

(1) The enforcement of state or local energy conservation or energy insulation standards, adopted prior to the effective date of rules and regulations adopted pursuant to subdivisions (a) and (b) of Section 25402 and this section with regard to residential and nonresidential buildings on which actual site preparation and construction have commenced prior to that date.

(2) The enforcement of local energy conservation or energy insulation standards, whenever adopted, with regard to residential and nonresidential buildings on which actual site preparation and construction have not commenced prior to the effective date of rules and regulations adopted pursuant to subdivisions (a) and (b) of Section 25402 and this section provided that the commission finds that such standards will require the diminution of energy consumption levels permitted by the rules and regulations adopted pursuant to those sections.

(g) The commission may exempt from the requirements of this section and of any regulations adopted pursuant thereto any proposed building for which compliance would be impossible without substantial delays and increases in cost of construction, if the commission finds that substantial funds have been expended in good faith on planning, designing, architecture or engineering prior to the date of adoption of such regulations.

(h) Should a dispute arise between an applicant for a building permit and the building department regarding interpretation of Section 25402 or the regulations adopted pursuant thereto, either party may submit the dispute to the commission for resolution. The commission's determination of the matter shall be binding on the parties.

(i) Nothing in Section 25130, 25131, or 25402, or in this section shall be construed to prevent enforcement of any regulation adopted pursuant to this chapter, or Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code as they existed prior to the effective date of this section.

SEC. 8. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act, because the legislative body of each local governmental

entity has the authority to regulate fees charged for the inspections required to be conducted by this act.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Regulations adopted on November 3, 1976, would, under existing law, prohibit the sale of any refrigerator, freezer, or air conditioner not complying with the regulations after November 3, 1977. In order to allow such sales for an additional year it is necessary for this act to take effect immediately.

CHAPTER 847

An act to amend Sections 17920, 17922, and 17958.7 of, and to add Sections 17920.6, 17958.9, 17959.4, and 17959.5 to, the Health and Safety Code, relating to housing.

[Approved by Governor September 15, 1977. Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 17920 of the Health and Safety Code is amended to read:

17920. As used in this part:

(a) "Building" means a structure subject to this part.

(b) "Commission" means the commission of Housing and Community Development.

(c) "Department" means the Department of Housing and Community Development.

(d) "Noise insulation" means the protection of persons within buildings from excessive noise, however generated, originating within or without such buildings.

(e) "Public entity" has the same meaning as defined in Section 811.2 of the Government Code.

(f) "Substandard building" means any building or any portion of a building including, but not limited to, any dwelling unit, guest room, or suite of rooms, or the premises on which the same is located, in which there exist any of the conditions listed in Chapter 10 of the Uniform Housing Code, latest edition, including inadequate structural resistance to horizontal forces, to an extent that endangers the life, limb, health, property, safety, or welfare of the public or the occupants thereof.

However, a condition which would require displacement of sound walls or ceilings to meet height, length, or width requirements for ceilings, rooms, and dwelling units shall not by itself be considered sufficient existence of dangerous conditions making a building a

substandard building, unless the building was constructed, altered, or converted in violation of such requirements in effect at the time of construction, alteration, or conversion.

Any wiring, plumbing, or mechanical equipment, including vents, shall be deemed to have conformed to applicable law in effect at the time of installation and to have been maintained in good condition if currently in good and safe condition and working properly.

SEC. 2. Section 17920.6 is added to the Health and Safety Code, to read:

17920.6. As used in this part, "housing appeals board" means the board or agency of a city or county which is authorized by the governing body of the city or county to hear appeals regarding the requirements of the city or county relating to the use, maintenance, and change of occupancy of hotels, motels, lodginghouses, apartment houses, and dwellings, or portions thereof, and buildings and structures accessory thereto, including requirements governing alteration, additions, repair, demolition, and moving of such buildings if also authorized to hear such appeals. In any area in which there is not such a board or agency, "housing appeals board" means the local appeals board having jurisdiction over such area.

SEC. 3. Section 17922 of the Health and Safety Code is amended to read:

17922. (a) Except as otherwise specifically provided by law, the rules and regulations adopted, amended, or repealed from time to time pursuant to this chapter shall impose substantially the same requirements as are contained in the most recent editions of the following uniform industry codes as adopted by the organizations specified:

(1) The Uniform Housing Code of the International Conference of Building Officials.

(2) The Uniform Building Code of the International Conference of Building Officials.

(3) The Uniform Plumbing Code of the International Association of Plumbing and Mechanical Officials.

(4) The Uniform Mechanical Code of the International Conference of Building Officials and the International Association of Plumbing and Mechanical Officials.

(5) The National Electrical Code of the National Fire Protection Association.

In promulgating regulations the commission shall consider local conditions and any amendments to the uniform codes referred to in this section. In the absence of adoption by regulation, the most recent editions of the uniform codes referred to in this section shall be considered to be adopted and in effect one year after the date of publication.

(b) Except as provided in Section 17959.5, local use zone requirements, local fire zones, building setback, side and rear yard requirements, and property line requirements are hereby specifically and entirely reserved to the local jurisdictions

notwithstanding any requirements found or set forth in this part.

(c) Regulations governing alteration and repair of existing buildings and moving of apartment houses and dwellings shall permit the replacement, retention, and extension of original materials and the continued use of original methods of construction as long as the hotel, lodginghouse, motel, apartment house, or dwelling, or portions thereof, or building and structure accessory thereto, complies with the rules and regulations of the commission or alternative local standards adopted pursuant to Section 17920.7 and does not become or continue to be a substandard building. Building additions or alterations which increase the area, volume, or size of an existing building, and foundations for apartment houses and dwellings moved, shall comply with the requirements specified in this part, or in rules and regulations adopted pursuant to this part, for new buildings or structures. However, such additions and alterations shall not cause the building to exceed area or height limitations applicable to new construction.

SEC. 3.4. Section 17958.7 of the Health and Safety Code is amended to read:

17958.7. (a) The governing body of a city or county before making any modifications or changes pursuant to Section 17958.5 shall make an express finding that such modifications or changes are needed. Such a finding shall be available as a public record and a copy, together with the modification or change, filed with the department. No such modification or change shall become effective or operative for any purpose until the finding and the modification or change have been filed with the department. Except as provided in Sections 17958.8 and 17958.9, nothing contained in this part shall be construed to require the governing body of any city or county to alter in any way building regulations enacted on or before November 23, 1970.

(b) If, prior to the effective date of this subdivision, the governing body of a city or county has filed the modification or change but has failed to file the express finding, the governing body shall file the express finding with the department within 90 days after the effective date of this subdivision. If the express finding is not so filed within such 90 days, the modification or change shall have no force or effect on and after such date.

SEC. 3.6. Section 17958.9 is added to the Health and Safety Code, to read:

17958.9. Local ordinances or regulations governing the moving of apartment houses and dwellings shall, after July 1, 1978, permit the retention of existing materials and methods of construction so long as the apartment house or dwelling complies with the rules and regulations of the commission or alternative local standards adopted pursuant to Section 17920.7, complies with the standards for foundation applicable to new construction, and does not become or continue to be a substandard building.

SEC. 4. Section 17959.4 is added to the Health and Safety Code, to read:

17959.4. The housing appeals board may, in cases of extreme hardship to owner-occupants of dwellings, provide for deferral of the effective date of orders of abatement. Any deferral of the effective date of an order of abatement under this section shall terminate upon any sale or transfer of the dwelling by the owner-occupant.

SEC. 5. Section 17959.5 is added to the Health and Safety Code, to read:

17959.5. The housing appeals board may, upon appeal or upon application by the owner, grant variances from local use zone requirements in order to permit an owner-occupant of a dwelling to construct an addition to a dwelling to meet occupancy standards relating the number of persons in a household to the number of rooms or bedrooms. This power of the housing appeals board shall be in addition to, and shall not otherwise affect, the powers of other governmental boards and agencies to allow local use zone variances.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because revenue is provided in Section 17921 of the Health and Safety Code to cover such costs.

CHAPTER 848

An act relating to school transportation apportionments, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding the provisions of Section 41860 of the Education Code, a special apportionment for the cost of schoolbuses shall be made according to the following schedule for the North Monterey County Unified School District:

(a) June 30, 1977	$100,000.00
(b) July 31, 1977	$192,578.25
(c) July 31, 1978	$192,578.25
(d) July 31, 1979	$192,578.25
(e) July 31, 1980	$192,578.25

The scheduled apportionments may be proportionately reduced if such action is necessary in order to preclude exceeding the amounts available for apportionment by Section 41860 of the Education Code.

SEC. 2. The Legislature finds and declares that because of a unique situation which exists in a recently created unified school

district, the component districts of which did not have appropriate district owned transportation equipment, a general law within the meaning of Section 16 of Article IV of the California Constitution cannot be made applicable.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the North Monterey County Unified School District to receive the apportionments authorized by this act at the earliest possible time to provide pupil essential transportation services, it is necessary that it go into effect at the earliest possible date.

CHAPTER 849

An act to add Section 2705.1 to the Unemployment Insurance Code, relating to unemployment compensation disability insurance.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2705.1 is added to the Unemployment Insurance Code, to read:

2705.1. Where an individual who would be eligible to receive disability benefits is mentally unable to make a claim therefor, the director shall, in accordance with authorized regulations, allow the filing of a claim for such benefits by the spouse of such individual, in the absence of any other legally authorized representative of the individual. Such payment shall be made upon affidavit executed by the spouse or person or persons claiming to be entitled to the benefits and the receipt of the affidavit or affidavits shall fully discharge the Director of Employment Development from any further liability with reference to the payments, without the necessity of inquiring into the truth of any of the facts stated in the affidavit.

For the purposes of this section "mentally unable to make a claim" shall be limited to those cases in which the individual is certified by a healing arts practitioner specified in Sections 2708 and 2709 to be mentally unable to make a claim pursuant to this part.

CHAPTER 850

An act to add Sections 15901 and 15901.5 to, and to repeal Section 15901 of, the Government Code, relating to state economic policy.

[Approved by Governor September 15, 1977 Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 15901 of the Government Code is repealed.

CHAPTER 851

An act to amend Section 1420.1 of, and add Section 1420.15 to, the Labor Code, relating to voluntary retirement.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 16, 1977]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California finds and declares that the use of chronological age as an indicator of ability to perform on the job and the practice of mandatory retirement from employment are obsolete and cruel practices. The downward trend toward involuntary retirement at ages from 55 years represents a highly undesirable development in the utilization of California's worker resources. In addition, this practice is now imposing serious stresses on our economy and in particular on pension systems and other income maintenance systems.

SEC. 2 Section 1420.1 of the Labor Code is amended to read:

1420.1. (a) It is an unlawful employment practice for an employer to refuse to hire or employ, or to discharge, dismiss, reduce, suspend, or demote, any individual over the age of 40 on the ground of age, except in cases where the law compels or provides for such action. This section shall not be construed to make unlawful the rejection or termination of employment where the individual applicant or employee failed to meet bona fide requirements for the job or position sought or held, or to require any changes in any bona fide retirement or pension programs or existing collective-bargaining agreements during the life of the contract, or for two years after the effective date of this section, whichever occurs first, nor shall this section preclude such physical and medical examinations of applicants and employees as an employer may make or have made to determine fitness for the job or position sought or held.

Promotions within the existing staff, hiring or promotion on the basis of experience and training, rehiring on the basis of seniority and prior service with the employer, or hiring under an established recruiting program from high schools, colleges, universities, and trade schools shall not, in and of themselves, constitute a violation of this section.

(b) This section shall not limit the right of an employer,

employment agency, or labor union to select or refer the better qualified person from among all applicants for a job. The burden of proving a violation of this section shall be upon the person or persons claiming that the violation occurred.

(c) The age limitations of the apprenticeship programs in which the state participates shall not be deemed to violate this section.

SEC. 3. Section 1420.15 is added to the Labor Code, to read:

1420.15. Every employer in this state, except a public agency, shall permit any employee who indicates in writing a desire in a reasonable time and can demonstrate the ability to do so, to continue his employment beyond the normal retirement date contained in any private pension or retirement plan.

Such employment shall continue so long as the employee demonstrates his ability to perform the functions of the job adequately and the employer is satisfied with the quality of work performed.

This section shall not be construed to require any change in funding, benefit levels, or formulas of any existing retirement plan, or to require any employer to increase such employer's payments for the provision of insurance benefits contained in any existing employee benefit or insurance plan, by reason of such employee's continuation of employment beyond the normal retirement date, or to require any changes in any bona fide retirement or pension programs or existing collective-bargaining agreements during the life of the contract, or for two years after the effective date of this section, whichever occurs first.

Any employee indicating such desire and continuing such employment shall give the employer written notice in reasonable time, of intent to retire or terminate when such retirement or termination occurs after the employee's normal retirement date.

CHAPTER 852

An act to add Section 23922 to the Education Code, to amend Section 21258.1 of, and to add Sections 20983.5, 20983.6, 31671.03 and 45346 to the Government Code, relating to voluntary retirement, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 16, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature of the State of California finds and declares that the use of chronological age as an indicator of ability to perform on the job and the practice of mandatory retirement from employment are obsolete and cruel practices. The downward trend toward involuntary retirement at ages from 55 years represents a

highly undesirable development in the utilization of California's worker resources. In addition, this practice is now imposing serious stresses on our economy and in particular on pension systems and other income maintenance systems.

SEC. 2. Section 23922 is added to the Education Code, to read:

23922. Notwithstanding any other provision of law, any member who has attained age 65 and desires to continue in employment beyond the age of normal retirement shall have the right to do so upon the certification by his employer pursuant to rules and regulations adopted by each respective retirement board or governing body that he is competent to do so and the filing of a notice from the member and his employer that the member is continuing in employment. Employer and member contributions shall continue until retirement.

SEC. 3. Section 20983.5 is added to the Government Code, to read:

20983.5. Notwithstanding any provision of law, every state member who has attained age 67, other than a patrol or state safety member, shall have the right to continue in employment upon certification of the member's competence in his position by the department or agency head or other appropriate supervisor pursuant to rules and regulations adopted by the State Personnel Board, the Regents of the University of California, or Trustees of the California State University and Colleges with respect to employees under their respective jurisdictions. In such case, the effective date of retirement shall be delayed until the day following the last day for which salary is payable. The member shall be subject to the same rights and liabilities as all other members and employer and members contributions shall continue until retirement or until death before retirement.

SEC. 4. Section 20983.6 is added to the Government Code, to read:

20983.6. Notwithstanding any other provisions of law, every local member who has attained age 67, other than a local safety member, shall have the right to continue in employment upon certification of the member's competence in the member's position by the department or agency head or other appropriate supervisor pursuant to rules and regulations adopted by each respective governing body. In such case, the effective date of retirement shall be delayed until the day following the last day for which salary is payable. The member shall be subject to the same rights and liabilities as all other members and employer and member contributions shall continue until retirement or until death before retirement.

This section shall not apply to any contracting agency, unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or, in the case of contracts made after the effective date of this section, by express provision in such contract

making the contracting agency subject to the provisions of this section.

SEC. 4.5. Section 21258.1 of the Government Code is amended to read:

21258.1. (a) The retirement allowance referred to in this section excludes that portion of a member's service retirement annuity that was purchased by his accumulated additional contributions.

(b) If a member entitled to credit for prior service retires on or after July 1, 1971, and after attaining the compulsory age for service retirement applicable to him, or if there is no compulsory age for service retirement applicable to the member and the member attains age 67, or if a member is entitled to be credited with 20 years of continuous state service and retires after attaining age 60, and his retirement allowance is less than one thousand two hundred dollars ($1,200) per year and less than his final compensation, his prior or current service pension, as the case may be, shall be increased so as to cause his total retirement allowance from this system, and from the retiring annuities system of the university, if any, to amount to one thousand two hundred dollars ($1,200) per year, or his final compensation, whichever is less.

If a member to whom this section applies is employed by more than one employer, his aggregate retirement allowances shall be taken into account irrespective of the employer.

SEC. 5. Section 31671.03 is added to the Government Code, to read:

31671.03. Notwithstanding any provision of law, every member other than a safety member may have the right to continue in employment upon certification of the member's competence in his position by the department or agency head or other appropriate supervisor pursuant to rules and regulations adopted by each respective governing body. In such case, the receipt of all retirement benefits shall be delayed until the actual termination of employment. The member shall be subject to the same rights and liabilities as all other members and employer and member contributions, if any, shall continue until retirement.

SEC. 6. Section 45346 is added to the Government Code, to read:

45346. Notwithstanding any provision of law, every member of a city retirement system, other than one whose duties fall within the scope of active law enforcement or active firefighting and prevention service, may have the right to continue in employment upon certification of the member's competence in his position by the department or agency head or other appropriate supervisor pursuant to rules and regulations adopted by each respective governing body. In such case, the receipt of all retirement benefits shall be delayed until the actual termination of employment. The member shall be subject to the same rights and liabilities as all other members and employer and members contributions shall continue until retirement.

SEC. 7. Notwithstanding Section 2231 of the Revenue and

Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that as many persons as possible may take advantage of the provisions of this bill, the bill must take effect immediately.

CHAPTER 853

An act to amend Sections 41840 and 42238 of the Education Code, to amend Sections 27423, 51100, 51110.1, 51113, 51113.5, 51119, 51119.5, 51121, 51133, 51134, 51230, and 51246 of, to add Section 51110.3 to, to add Article 6 (commencing with Section 51150) to Chapter 6.7 of Part 1 of Division 1 of Title 5 of, to repeal Section 51132 of, the Government Code, to amend Sections 434.5, 435, 437, 17299.1, 18052.2, 24441, 24916.2, 38115, 38202, 38204, 38205, 38303, 38351, 38902, 38904, 38905, 38906, and 38907 of the Revenue and Taxation Code, and to add Section 17.5 to Chapter 176 of the Statutes of 1976, relating to timber taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 41840 of the Education Code, as amended by Chapter 36 of the Statutes of 1977, is amended to read:

41840. The allowance for each unit of average daily attendance during the 1976–77 fiscal year for adults, as adults are defined in Section 52610, for high school districts shall be the adult foundation program of eight hundred sixty-two dollars ($862) less the product of one dollar ($1) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, pursuant to Section 41760.5, as modified pursuant to Section 41201, per unit of total regular high school average daily attendance plus adult average daily attendance. The total of state aid shall not be less than one hundred twenty-five dollars ($125) per unit of average daily attendance.

For each subsequent fiscal year, the foundation program for adults in high schools for the previous fiscal year shall be increased by the same percentage increase by which the high school foundation program is increased.

SEC. 2. Section 42238 of the Education Code, as amended by Chapter 36 of the Statutes of 1977, is amended to read:

42238. For the 1974–75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of 301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation program units of average daily attendance of unified districts in the second principal apportionment divided by the sum of the elementary and high school units of average daily attendance of unified districts in the second principal apportionment.

(d) The inflation adjustment shall be based on the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 1 (commencing with Section 41700) of Chapter 5 of this part, excluding Section 41716, Article 2 (commencing with Section 41730) of Chapter 5 of this part, and subdivision (a) of Section 41840 as adjusted pursuant to subdivision (e) of Section 14002 may increase its revenue limit

computed pursuant to subdivision (f) to the lesser of the foundation program level of the district or the prior year revenue limit increased by fifteen percent (15%).

For the 1974–75 and 1975–76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System as required by Section 23400. Such adjustment, together with any rate levied in any prior year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and (2) the income from the prior year's taxes.

(k) From the amount computed pursuant to subdivision (j) there shall be subtracted the amount of money collected or to be collected as timber yield tax receipts pursuant to Part 18.5 (commencing with Section 38101) of the Revenue and Taxation Code.

(*l*) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners

exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (k) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district, exclusive of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

SEC. 3. Section 27423 of the Government Code is amended to read:

27423. (a) On or before May 1, 1977, the assessor of each county for the local roll and the State Board of Equalization for the board roll shall determine the annual assessed value attributable to timber, as defined in subdivision (a) of Section 431 of the Revenue and Taxation Code, of each tax rate area for the 1972–73 to 1974–75 fiscal years, inclusive. Such values shall be from the corrected, equalized assessment roll for each such year, including escape assessments subsequently added to the roll. Escape assessments determined subsequent to June 30, 1975, for any of the three fiscal years specified shall be reported to the county auditor who shall certify to the Controller a revision in the amounts of average annual property tax revenue attributable to timber for each affected taxing jurisdiction on or before July 15, 1977, and July 15 of each year thereafter.

(b) Using the assessed values determined pursuant to subdivision (a), on or before June 1, 1977, the auditor of each county shall determine the average annual property tax revenues attributable to timber of each taxing agency for the 1972–73 to 1974–75 fiscal years, inclusive; provided, that if a taxing agency was in existence for less than the entire period, the average for such agency shall be determined by dividing the appropriate amount of property tax revenues by either one year or two years, whichever figure corresponds most nearly to the duration of existence of the agency within said period. If 20 percent or more of the value of the secured roll of a community college district is attributable to timber in each

of fiscal years 1972–73 to 1974–75, inclusive, then the auditor shall use a rate which when multiplied by that district's average annual assessed value attributable to timber will produce an amount equivalent to the total amount of property taxes raised by that district in the 1976–77 fiscal year.

Each county auditor shall certify to the State Controller a list of this amount for each taxing agency in the county and the total of all such amounts for the county. The auditor shall keep such records for each tax rate area as necessary to make distribution of funds pursuant to Section 38906 of the Revenue and Taxation Code.

(c) The State Controller may require that all information pertinent to subdivisions (a) and (b) be retained and may inspect all calculations of the county assessor and county auditor. The Controller or the board may adjust and correct any calculation deemed to be inaccurate. The sum of each county's calculations as adopted by the Controller shall be known as that county's "annual yield tax revenue guarantee", and shall be certified to the county auditor on or before August 15, 1977.

(d) On or before July 15, 1977, and July 15 of each year thereafter, the auditor shall certify to the Controller the new or revised amount of property tax revenue attributable to timber for each taxing agency which in the preceding fiscal year (1) underwent "governmental reorganization," as described in Section 2295 of the Revenue and Taxation Code, or (2) underwent "functional consolidation," as described in Section 2305 of the Revenue and Taxation Code, or (3) gained approval from its voters to levy an additional property tax rate, effective with the next succeeding fiscal year.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency formed subsequent to June 30, 1975, shall be calculated as follows:

(1) The average annual assessed value attributable to timber shall be the sum of the values of the tax rate areas, as determined by the assessor or the board pursuant to subdivision (a), which correspond to the new agency's boundaries, as if that agency had actually existed during fiscal years 1972–73 to 1974–75, inclusive, and this sum shall be multiplied by

(2) A tax rate represented by 80 percent of the maximum tax rate the new taxing agency was authorized by the voters to levy in its first full year of operation.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency formed prior to June 30, 1975, which annexes territory subsequent to that date, shall have added to it the sum of the values of the tax rate areas, as determined by the assessor or the board pursuant to subdivision (a) which correspond to the territory which was annexed, multiplied by the average total tax rate levied during fiscal years 1972–73 to 1974–75, inclusive, by the taxing agency which annexed the territory.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency which subsequent

to June 30, 1975, has transferred to it by functional consolidation the responsibility of levying a property tax rate to pay the cost of a new service or program shall have added to it the sum of the average annual assessed value attributable to timber for that agency multiplied by the additional property tax rate to be incurred in the first year pursuant to the functional consolidation. For a taxing agency which subsequent to June 30, 1975, has transferred from it the responsibility of levying a property tax rate for a service or program, the average annual property tax revenue attributable to timber shall be reduced by the sum of the annual assessed value attributable to timber for that agency multiplied by the average tax rate levied by the taxing agency during fiscal years 1972–73 to 1974–75, inclusive, for the support of such service or program.

For purposes of this subdivision, when an additional property tax rate is approved by the voters of a taxing agency in the preceding fiscal year, such agency shall have its average annual property tax revenue attributable to timber revised in the same manner as for a functional consolidation in which responsibility for the funding of a new service or program is added; provided, that such revision will extend only for the same period of time as that authorized by the voters for the existence of the additional voted property tax rate.

(e) On or before August 15, 1977, and August 15 of each year thereafter, the Controller shall certify to each county auditor the revisions certified by the auditor pursuant to subdivision (a) or (d) in the average annual property tax revenue attributable to timber for one or more taxing agencies, to take effect in the current fiscal year. The Controller shall adjust and correct any calculation deemed to be inaccurate, prior to such certification. The amount added to or deducted from a county's previous annual yield tax revenue guarantee will be the property tax revenue attributable to timber, as certified to the Controller by the county auditor pursuant to subdivision (d). The revised annual yield tax revenue guarantee shall take effect for payments made to the county pursuant to subdivision (a) of Section 38905 and subdivision (a) of Section 38906 of the Revenue and Taxation Code in the current fiscal year, and shall remain in effect until subsequent revision under this subdivision.

(f) Upon receipt of the amount certified by the Controller pursuant to subdivision (c) or (e), the county auditor shall within 10 days certify to each taxing agency its share of this amount, and shall deliver to the county treasurer a schedule of these amounts for all taxing agencies in the county, to govern distribution of moneys pursuant to subdivision (a) of Section 38905 and subdivision (a) of Section 38906 of the Revenue and Taxation Code.

(g) For the purposes of this section, in the case of a change in the boundaries of a tax rate area, the assessor or the board shall determine the base year timber value by parcel in each tax rate area affected by the boundary change and the auditor shall apportion the property tax revenue attributable to timber according to this determination.

(h) For the purposes of this section "tax rate area" means a geographical area in which there is a unique combination of tax levies.

(i) For purposes of this section, a taxing agency is deemed to be in existence in any year in which the agency levies a property tax rate. Any taxing agency which was operational prior to June 30, 1975, but levied no property tax rate, may subsequent to that date establish an average annual property tax revenue attributable to timber pursuant to subdivision (d), as a governmental reorganization, in the year next succeeding the year in which it first levies a property tax rate.

SEC. 4. Section 51100 of the Government Code is amended to read:

51100. As used in this chapter, unless otherwise apparent from the context:

(a) "Board" means the board of supervisors of a county or city and county, whether general law or chartered, which establishes or proposes to establish a timberland preserve zone pursuant to this chapter.

(b) "Contiguous" means two or more parcels of land that are adjoining or neighboring or are sufficiently near to each other, as determined by the board or council, that they are manageable as a single forest unit.

(c) "Council" means the city council of a city, whether general law or chartered, which establishes or proposes to establish a timberland preserve zone pursuant to this chapter.

(d) "County" or "city" means the county or city having jurisdiction over the land.

(e) "Timber" means trees of any species maintained for eventual harvest for forest products purposes, whether planted or of natural growth, standing or down, on privately or publicly owned land, including Christmas trees, but does not mean nursery stock.

(f) "Timberland" means privately owned land, or land acquired for state forest purposes, which is devoted to and used for growing and harvesting timber, or for growing and harvesting timber and compatible uses, and which is capable of growing an average annual volume of wood fiber of at least 15 cubic feet per acre.

(g) "Timberland preserve zone" means an area which has been zoned pursuant to Section 51112 or 51113 and is devoted to and used for growing and harvesting timber, or for growing and harvestng timber and compatible uses, as defined in subdivision (h).

(h) "Compatible use" is any use which does not significantly detract from the use of the property for, or inhibit, growing and harvesting timber, and shall include, but not be limited to, the following, unless in a specific instance such a use would be contrary to the preceding definition of compatible use:

(1) Management for watershed;

(2) Management for fish and wildlife habitat or hunting and fishing;

(3) A use integrally related to the growing, harvesting and

processing of forest products, including but not limited to roads, log landings, and log storage areas;

(k) "Tax rate area" means a geographical area in which there is a unique combination of tax levies.

SEC. 5. Section 51110.1 of the Government Code is amended to read:

51110.1. (a) On or before September 1, 1977, the assessor shall assemble a list of all parcels, which, as of the lien date in 1976, appeared in the judgment of the assessor to constitute timberland, but which were not assessed for growing and harvesting timber as the highest and best use of the land.

(b) On or before September 1, 1977, the assessor shall notify by mail, which is certified and with return receipt requested, owners of parcels listed under subdivision (a) that their land has been included in such a list. This notice shall be substantially in the following form:

To: (name of taxpayer)

Pursuant to the Z'berg-Warren-Keene-Collier Forest Taxation Reform Act of 1976, _____ County must provide for the zoning of land used for growing and harvesting timber as timberland preserve zone (TPZ).

A TPZ is a 10-year restriction on the use of land, and will replace the use of agricultural preserves (Williamson Act contracts) on timberland. Land use under a TPZ will be restricted to growing and harvesting timber, and to compatible uses approved by the county (or city). In return, taxation of timberland under a TPZ will be based only on such restrictions in use.

As part of this zoning procedure, the assessor has assembled a list (list "B") of all those parcels which appear to be land used for growing and harvesting timber, but which are not assessed for property tax purposes as this being the highest and best use of the land. The following parcels of your land have been included in this list "B":

(Legal description or assessor's parcel no.)

A public hearing will be held prior to March 1, 1978, for the consideration of zoning your parcel(s) as TPZ. You will be given at least 20 days' notice of such hearing.

Under the Z'berg-Warren-Keene-Collier Forest Taxation Reform Act, all parcels included in this list "B" will be zoned as TPZ unless

the owner can demonstrate to the satisfaction of a majority of the full board (or council) that it would not be in the public interest for such parcel(s) to be zoned as TPZ. Parcels on list "B" not zoned as TPZ will receive an alternate zone, if no appropriate zone currently exists.

Detailed information on the TPZ zoning process and the Z'berg-Warren-Keene-Collier Forest Taxation Reform Act in general may be obtained from your county assessors office.

(c) On or before October 15, 1977, the assessor shall submit to the board or council a list of all parcels, which as of the lien date in 1976, appear to constitute timberland, but which are not assessed for growing and harvesting timber as the highest and best use of the land. This list shall be known as "list B".

(d) On or before August 19, 1977, the State Board of Equalization shall submit to the county assessor, for inclusion in list B, those parcels on the board roll which are located in the county and which as of the lien date in 1976, appear to constitute timberland, but which were not assessed by the State Board of Equalization for growing and harvesting timber as the highest and best use of the land.

SEC. 5.5. Section 51110.3 is added to the Government Code, to read:

51110.3. In the event that a landowner does not receive notice pursuant to subdivision (b) of Section 51110.1, such owner may prior to January 1, 1978, petition directly to the board or council to have a parcel owned by such person included on list "B." Such owner must be able to demonstrate that on each such parcel a plan for forest management has been prepared, or approved as to content, by a registered professional forester prior to October 15, 1977. Such plan shall provide for the harvest of timber within a reasonable period of time, as determined by the preparer of the plan.

In the event that the board or council finds that the parcel does in fact have plans for forest management signed by a registered professional forester prior to October 15, 1977, the board or council shall include the parcel listed in the petition on list "B" without respect to acreage or size and shall consider these parcels under subdivision (c) of Section 51112.

SEC. 6. Section 51113 of the Government Code is amended to read:

51113. (a) (1) After November 1, 1977, an owner may petition the board or council to zone his land as timberland preserve. The board or council by ordinance, after the advice of the planning commission pursuant to Section 51110.2, and after public hearing, shall zone as timberland preserve all parcels submitted to it by petition pursuant to this section, which meet all of the criteria adopted pursuant to subdivision (c). Any owner who has so petitioned and whose land is not zoned as timberland preserve may petition the board or council for a rehearing on the zoning.

(2) This section shall not be construed as limiting the ability of the board or council to zone as timberland preserve any parcel submitted upon petition, which is timberland, defined pursuant to

subdivision (f) of Section 51100, and which is in compliance with the compatible use ordinance adopted by the board or council pursuant to Section 51111.

(b) The board or council, on or before March 1, 1977, by resolution, shall adopt procedures for initiating, filing and processing petitions for timberland preserve zoning and for rezoning. Such rules shall be applied uniformly throughout the county or city.

(c) On or before March 1, 1977, the board or council by ordinance shall adopt a list of criteria required to be met by parcels being considered for zoning as timberland preserve under this section. Such criteria shall not impose any requirements in addition to those listed in this subdivision and in subdivision (d) below. The following shall be included in such criteria:

(1) A map shall be prepared showing the legal description or the assessor's parcel number of the property desired to be zoned;

(2) A plan for forest management must be prepared or approved as to content, for the property by a registered professional forester. Such plan shall provide for the eventual harvest of timber within a reasonable period of time, as determined by the preparer of the plan;

(3) The parcel shall currently meet the timber stocking standards as set forth in Section 4561 of the Public Resources Code and the forest practice rules adopted by the State Board of Forestry for the district in which the parcel is located, or the owner must sign an agreement with the board or council to meet such stocking standards and forest practice rules by the fifth anniversary of the signing of such agreement. If the parcel is subsequently zoned as timberland preserve under subdivision (a), then failure to meet such stocking standards and forest practice rules within this time period provides the board or council with a ground for rezoning of the parcel pursuant to Section 51121.

Upon the fifth anniversary of the signing of such an agreement, the board shall determine whether the parcel meets the timber stocking standards in effect on the date the agreement was signed. Notwithstanding the provisions of Article 4 of this chapter, if the parcel fails to meet the timber stocking standards, the board or council shall immediately rezone the parcel and specify a new zone for such parcel which is in conformance with the county general plan and whose primary use is other than timberland;

(4) The parcel shall be timberland, as defined in subdivision (f) of Section 51100; and

(5) The parcel shall be in compliance with the compatible use ordinance adopted by the board or council pursuant to Section 51111.

(d) The criteria required by subdivision (c) may also include any or all of the following:

(1) The land area concerned shall be in the ownership of one person, as defined in Section 38106 of the Revenue and Taxation Code, and shall be comprised of single or contiguous parcels of a certain number of acres, provided, that such number required may not exceed 160 acres or one-quarter section;

(2) The land shall be a certain site quality class or higher under Section 434 of the Revenue and Taxation Code; provided, that the parcel shall not be required to be of the two highest site quality classes.

SEC. 7. Section 51113.5 of the Government Code is amended to read:

51113.5. (a) After March 1, 1977, an owner with timberlands in a timberland preserve zone pursuant to Section 51112 or 51113 may petition the board or council to add to his timberland preserve lands that meet the criteria of subdivisions (f) and (g) of Section 51100 and that are contiguous to the timberland already zoned as timberland preserve. Section 51113 shall not apply to these lands.

(b) In the event of land exchanges with, or acquisitions from, a public agency in which the size of an owner's parcel or parcels zoned as timberland preserve pursuant to Section 51112 or 51113 is reduced, the timberland preserve shall not be removed from the parcel except pursuant to Section 51121 and except for a cause other than the smaller parcel size.

SEC. 8. Section 51119 of the Government Code is amended to read:

51119. Any action of the board or council undertaken to zone a parcel as timberland preserve pursuant to Section 51112 or 51113 of the Government Code shall be exempt from the requirements of Section 21151 of the Public Resources Code.

SEC. 9. Section 51119.5 of the Government Code is amended to read:

51119.5. Parcels zoned as timberland preserve under this chapter may not be divided into parcels containing less than 160 acres unless the original owner prepares a joint timber management plan prepared or approved as to content by a registered professional forester for the parcels to be created. The joint timber management plan shall provide for the management and harvesting of timber by the original and any subsequent owners, and shall be recorded with the county recorder as a deed restriction on all newly created parcels. Such deed restriction shall run with the land rather than with the owners, and shall remain in force for a period of not less than 10 years from the date division is approved by the board or council. Such division shall be approved only by a four-fifths vote of the full board or council, and only after recording of the deed restriction.

SEC. 10. Section 51121 of the Revenue and Taxation Code is amended to read:

51121. (a) If the board or council after public hearing and by a majority vote of the full body desires in any year not to extend the term of zoning, the county or city shall give written notice of its intent to rezone following procedures established pursuant to subdivision (b) of Section 51113. A proposed new zone shall be specified. Unless the written notice is given at least 90 days prior to the anniversary date of the initial zoning, the zoning term shall be deemed extended.

(b) Upon receipt by the owner of a notice of intent to rezone from

the county or city, the owner may make written protest of the notice and may appeal to the board or council within 30 days of notice from the county or city. The board or council may at any time prior to the anniversary date withdraw the notice of intent to rezone.

(c) The board or council shall hold a public hearing on the proposed change and by a majority vote of the full body may reaffirm its intent to change the zoning and specify a new zone.

(d) A new zone of a parcel shall be effective 10 years from the date of the reaffirmation vote pursuant to subdivision (c). Upon rezoning the parcel shall be valued pursuant to Section 426 of the Revenue and Taxation Code.

(e) The owner may petition to be reheard.

SEC. 11. Section 51132 of the Government Code is repealed.

SEC. 12. Section 51133 of the Government Code is amended to read:

51133. (a) If application for conversion is required pursuant to Section 4621 of the Public Resources Code, the board or council may tentatively approve the immediate rezoning after notice and hearing and only if by a four-fifths vote of the full body, and:

(1) A public hearing is held with notice of the hearing being given to all owners of lands situated within one mile of the exterior boundary of the land upon which immediate rezoning is proposed.

(2) The board or council makes written findings that immediate rezoning is not inconsistent with the purposes of subdivision (j) of Section 3 of Article XIII of the Constitution and of this chapter.

(3) The board or council makes written findings that immediate rezoning is in the public interest.

(b) The board or council shall forward its tentative approval to the State Board of Forestry, together with the application for immediate rezoning, a summary of the public hearing and any other information required by the Board of Forestry. The Board of Forestry shall consider the tentative approval pursuant to Section 4621.2 of the Public Resources Code. Final approval to an immediate rezoning is given only if the Board of Forestry has approved conversion pursuant to Section 4621.2 of the Public Resources Code. Upon such final approval of conversion, the Board of Forestry shall notify the board or council of such approval, and the board or council shall remove the parcel from the timberland preserve zone and shall specify a new zone for such parcel.

SEC. 13. Section 51134 of the Government Code is amended to read:

51134. (a) If an application for conversion is not required pursuant to Section 4621 of the Public Resources Code, the board or council may approve the immediate rezoning request only if by a four-fifths vote of the full board or council it makes written findings that:

(1) The immediate rezoning would be in the public interest; and

(2) The immediate rezoning does not have a substantial and unmitigated adverse effect upon the continued timber-growing use or open-space use of other land zoned as timberland preserve and

situated within one mile of the exterior boundary of the land upon which immediate rezoning is proposed;

(3) The soils, slopes, and watershed conditions will be suitable for the uses proposed by the applicant if the immediate rezoning is approved;

(4) The immediate rezoning is not inconsistent with the purposes of subdivision (j) of Section 3 of Article XIII of the Constitution and of this chapter.

(b) The existence of an opportunity for an alternative use of the land shall not alone be sufficient reason for granting a request for immediate rezoning pursuant to this section. Immediate rezoning shall be considered only if there is no proximate and suitable land which is not zoned timberland preserve for the alternate use not permitted within a timberland preserve zone.

(c) The uneconomic character of the existing use shall not be sufficient reason for the approval of immediate rezoning pursuant to this section. The uneconomic character of the existing use may be considered only if there is no other reasonable or comparable timber-growing use to which the land may be put.

(d) Immediate rezoning action shall comply with all the applicable provisions of state law and local ordinances.

(e) The county or city may require the payment of a fee by the landowner for the cost of processing the application and recording the necessary documentation.

SEC. 14. Article 6 (commencing with Section 51150) is added to Chapter 6.7 of Part 1 of Division 1 of Title 5 of the Government Code, to read:

Article 6. Eminent Domain or Other Acquisition

51150. It is the policy of the state to avoid, whenever practicable, the location of any state or local public improvements and any improvements of public utilities, and the acquisition of land therefor, in timberland preserve zones.

51151. (a) As used in this section, Section 51152, and Section 51155, "public agency" means the state, or any department or agency thereof, and any county, city, school district, or other local public district, agency, or entity; and "person" means any person authorized to acquire property by eminent domain.

(b) Whenever it appears that land within a timberland preserve zone (TPZ) may be required by a public agency or person for a public use, the public agency or person shall advise the Secretary of Resources and the local governing body responsible for the administration of the preserve of the intention to consider the location of a public improvement within the TPZ.

Within 30 days thereafter the Secretary of Resources and the local governing body shall forward to the public agency or person concerned their comments with respect to the effect of the location of the public improvement on the land within the TPZ and such

comments shall be considered by the public agency or person. Failure of any public agency or person to comply with the requirements of this section shall invalidate any action by such agency or person to locate a public improvement within a TPZ. This subdivision does not apply to the erection, construction, alteration or maintenance of gas, electric, water, or communication transmission facilities within a TPZ if that TPZ was established after submission of the location of such facilities to the city or county for review or approval.

51152. (a) No public agency or person shall locate a public improvement within a timberland preserve zone (TPZ) based primarily on a consideration of the lower cost of acquiring a land in a TPZ.

(b) No public agency or person shall acquire timberland zoned as timberland preserve pursuant to this chapter for any public improvement if there is other land within or outside the TPZ on which it is reasonably feasible to locate the public improvement.

51153. Section 51152 shall not apply to:

(a) The location or construction of improvements where the board or council administering the TPZ approves or agrees to the location thereof.

(b) The acquisition of easements within a TPZ by the board or council administering the TPZ.

(c) The location or construction of any public utility improvement which has been approved by the Public Utilities Commission.

(d) Public works required for fish and wildlife enhancement and preservation.

(e) Improvements for which the site or route has been specified by the Legislature in such a manner as to make it impossible to avoid the acquisition of land under contract.

(f) All state highways on routes as described in Sections 301 to 622, inclusive, of the Streets and Highways Code, as those sections read on October 1, 1965.

(g) All facilities which are part of the State Water Facilities as described in subdivision (d) of Section 12934 of the Water Code, except facilities under paragraph (6) of said subdivision (d).

(h) Land upon which condemnation proceedings have been commenced prior to July 1, 1977.

51154. Section 51152 shall be enforceable only by mandamus proceedings by the local governing body administering the timberland preserve zone or the Secretary of Resources. However, as applied to condemnors whose determination of necessity is not conclusive by statute, evidence as to the compliance of the condemnor with Section 51152 shall be admissible on motion of any of the parties in any action otherwise authorized to be brought by the landowner or in any action against him.

51155. When any action in eminent domain for the condemnation of the fee title of an entire parcel of land zoned as timberland preserve is filed or when such land is acquired in lieu of eminent

domain for a public agency or person or whenever there is any such action or acquisition by the federal government or any person, instrumentality or agency acting under authority or power of the federal government, such parcel shall be deemed immediately rezoned (pursuant to 51130) as to the land actually being condemned or so acquired as of the date the action is filed and for the purposes of establishing the value of such land, the timberland preserve zone (TPZ) shall be deemed never to have existed.

Upon the termination of such a proceeding, the parcel shall be immediately rezoned for all land actually taken or acquired.

When such an action to condemn or acquire less than all of a parcel of land subject to a TPZ is commenced, the parcel shall be deemed immediately rezoned as to the land actually condemned or acquired and shall be disregarded in the valuation process only as to the land actually being taken, unless the remaining land subject to the TPZ will be adversely affected by the condemnation, in which case the value of that damage shall be computed without regard to the TPZ.

When such an action to condemn or acquire an interest which is less than the fee title of an entire parcel or any portion thereof, of land subject to a TPZ is commenced, the parcel shall be deemed immediately rezoned as to such interest and for the purpose of establishing the value of such interest only shall be deemed never to have existed, unless the remaining interests in any of the land subject to the TPZ will be adversely affected, in which case the value of that damage shall be computed without regard to the TPZ.

The land actually taken shall be removed from the TPZ. Under no circumstances shall land be removed that is not actually taken, except that when only a portion of the land or less than a fee interest in the land is taken or acquired, the parcel may be immediately rezoned with respect to the remaining portion or interest upon petition of either party, and pursuant to the provisions of Article 4 (commencing with Section 51130) of this chapter.

For the purposes of this section, a finding by the board or council that no authorized use may be made of the land if the TPZ is continued on the remaining portion or interest in the land may satisfy the requirements of subdivision (a) of Section 51132, subdivisions (a), (b) and (c) of Section 51134 and subdivisions (a), (b) and (c) of Section 4621.2 of the Public Resources Code.

SEC. 15. Section 51230 of the Government Code is amended to read:

51230. Beginning January 1, 1971, any county or city having a general plan, and until December 31, 1970, any county or city, by resolution, and after a public hearing may establish an agricultural preserve. Notice of the hearing shall be published pursuant to Section 6061 of this code, and shall include a legal description, or the assessors parcel number, of the land which is proposed to be included within the preserve. Such preserves shall be established for the purpose of defining the boundaries of those areas within which the city or county will be willing to enter into contracts pursuant to this

act. An agricultural preserve shall consist of no less than 100 acres; provided, that in order to meet this requirement two or more parcels may be combined if they are contiguous or if they are in common ownership; and further provided, that in order to meet this requirement land zoned as timberland preserve pursuant to Chapter 6.7 (commencing with Section 51100) may be taken into account.

A county or city may establish agricultural perserves of less than 100 acres if it finds that smaller preserves are necessary due to the unique characteristics of the agricultural enterprises in the area and that the establishment of preserves of less than 100 acres is consistent with the general plan of the county or city.

An agricultural preserve may contain land other than agricultural land, but the use of any land within the preserve and not under contract shall within two years of the effective date of any contract on land within the preserve be restricted by zoning or other suitable means in such a way as not to be incompatible with the agricultural use of the land, the use of which is limited by contract in accordance with this chapter.

Failure on the part of the board or council to restrict the use of land within a preserve but not subject to contract shall not be sufficient reason to cancel or otherwise invalidate a contract.

SEC. 16. Section 51246 of the Government Code is amended to read:

51246. (a) If the county or city or the landowner serves notice of intent in any year not to renew the contract, the existing contract shall remain in effect for the balance of the period remaining since the original execution or the last renewal of the contract, as the case may be.

(b) No city or county shall enter into a new contract or shall renew an existing contract on or after February 28, 1977, with respect to timberland zoned as timberland preserve. The city or county shall serve notice of its intent not to renew the contract as provided in this section.

(c) In order to meet the minimum acreage requirement of an agricultural preserve pursuant to Section 51230, land formerly within the agricultural preserve which is zoned as timberland preserve pursuant to Chapter 6.7 (commencing with Section 51100) may be taken into account.

(d) Notwithstanding any other provision of law, commencing with the lien date for the 1977–78 fiscal year all timberland within an existing contract which has been nonrenewed as mandated by this section shall be valued according to Section 423.5 of the Revenue and Taxation Code, succeeding to and including the lien date for the 1981–82 fiscal year. Commencing with the lien date for the 1982–83 fiscal year and succeeding until the end of the contract, such timberland shall be valued according to Section 426 of the Revenue and Taxation Code. Commencing with the lien date next succeeding the termination date of the contract, and on each lien date thereafter, such timberland shall be valued according to Section

434.5 of the Revenue and Taxation Code.

SEC. 17. Section 434.5 of the Revenue and Taxation Code is amended to read:

434.5. (a) On March 1, 1977,and March 1 of each year thereafter, up to and including March 1, 1979, timberland shall be valued per acre according to the following schedule:

Redwood Region		Pine-Mixed Conifer Region	
Site I	$80	Site I	$60
Site II	$60	Site II	$50
Site III	$50	Site III	$40
Site IV	$30	Site IV	$30
Site V (and inoperable)	$20	Site V (and inoperable)	$20

When the assessor, pursuant to Section 434, designates a timberland parcel or portion thereof as inoperable, such timberland parcel or portion thereof shall be valued as if it is site V.

The Legislature finds and declares that the foregoing values are consistent with the taxation of timberland used primarily for growing timber and that these values are consistent with the intent of subdivision (j) of Section 3 Article 13 of the Constitution.

(b) On or before January 1, 1980, and every third year thereafter, the board after consultation with the timber advisory committee and in compliance with procedures set forth for adoption of rules under the Administration Procedure Act, shall adopt schedules reestablishing the value of each grade of timberland graded pursuant to Section 434 as if it were bare of forest growth, and recognizing that the restricted use of the land is for growing and harvesting timber and compatible uses. The board shall certify such values to county assessors by January 10 of each year. Such schedule shall remain in effect until subsequent revision pursuant to the provisions of this subdivision.

(c) Commencing January 1, 1977, the board shall collect such data as may be necessary to accurately value timberland pursuant to subdivision (b).

(d) In promulgating regulations pursuant to subdivision (b) the board shall determine the value of such timberland subject to the following:

(1) The board shall base the value of such land upon the existence of a 10-year enforceable restriction using commonly accepted systems of valuation;

(2) When the board is valuing timberland property within a timberland preserve zone by comparison with sales of other timberland properties in order to be considered comparable, the properties sold shall be at least 160 acres in size and shall be similarly restricted under a timberland preserve zone. Size and any discount for size and amenities shall not be factors in determining the value of land zoned as timberland preserve which is valued by a method

employing the use of comparable sales.

(e) For purposes of this section the value of each acre of timberland within each site class, within a timberland preserve zone, shall be presumed no greater than the value derived pursuant to subdivision (f).

(f) The board shall:

(1) Prepare, or cause to be prepared, timberland site capability tables which shall prescribe by site classification the potential annual yield of wood by species or mixture of species per acre.

(2) Multiply the potential annual yield by 10 percent.

(3) Multiply the result of paragraph (2) by an immediate harvest value, averaged for the previous 20 quarters, that is appropriate for the geographical area wherein such timberland values shall be applied.

(4) Divide the result of paragraph (3) by a capitalization rate of 10 percent expressed as a decimal.

Pursuant to (2) of this subsection, the Legislature declares that 10 percent is the average percent of income from potential annual yield of wood that can be attributed to timberland as a productive component contributing to such income and the Legislature finds that it is in the public interest that values derived from analysis of sales of timberland restricted under timberland preserve zones shall not exceed this percentage.

(g) For the purposes of this section, the value of each acre of timberland within a timberland preserve zone shall be presumed to be no less than twenty dollars ($20) per acre.

(h) For the purposes of this section, the term "value" (and its derivatives) means "full value," as defined in Section 110.5.

SEC. 18. Section 435 of the Revenue and Taxation Code is amended to read:

435. (a) In preparing the assessment roll for the 1977–78 fiscal year and each fiscal year thereafter, the assessor shall use as the value of each parcel of timberland the appropriate grade value certified to him by the board, pursuant to Section 434.5 plus the value, if any, attributable to existing, compatible, nonexclusive uses of the land. Assessments of values attributable to compatible uses determined in accordance with this part are subject to the appeals procedure established by law for other assessments.

(b) Nothing in this article shall prevent the assessor in valuing timberland from taking into consideration the existence of any mines, minerals and quarries in or upon the land being valued, including but not limited to geothermal resources and oil, gas, and other hydrocarbon substances.

(c) The provisions of this article shall not apply to any structure on the land being valued or to an area of reasonable size used as a site for approved compatible uses.

(d) The assessor shall apply the ratio prescribed by Section 401 to the sum of the values derived for each parcel pursuant to this section, to obtain the assessed value of each parcel.

SEC. 18.5. Section 437 of the Revenue and Taxation Code is amended to read:

437. Whenever the debt limit of a taxing agency is based wholly or in part on the assessed value of the agency, there shall be added to such assessed value the assessed valuation equivalents of revenue amounts certified pursuant to Section 27423 of the Government Code and distributed pursuant to Section 38905 of the Revenue and Taxation Code.

The assessed valuation equivalents for revenue amounts certified pursuant to Section 27423 of the Government Code and distributed pursuant to Section 38905 of the Revenue and Taxation Code shall be derived by multiplying such amounts by a factor of 100 and dividing the product by the secured tax rate for the prior year.

SEC. 19. Section 17299.1 of the Revenue and Taxation Code is amended to read:

17299.1. In computing taxable income no deduction shall be allowed for (a) abandonment fees paid under Section 51061 or 51093 of the Government Code or (b) tax recoupment fees paid under Section 51142 of the Government Code.

SEC. 20. Section 18052.2 of the Revenue and Taxation Code is amended to read:

18052.2. Notwithstanding the provisions of Section 18052, no adjustment shall be made for (a) abandonment fees paid in respect of property on which the open-space easement is terminated under Section 51061 or 51093 of the Government Code or (b) tax recoupment fees paid under Section 51142 of the Government Code.

SEC. 21. Section 24441 of the Revenue and Taxation Code is amended to read:

24441. In computing net income no deduction shall be allowed for (a) abandonment fees paid in respect of property on which the open-space easement is terminated under Section 51061 or 51093 of the Government Code or (b) tax recoupment fees paid under Section 51142 of the Government Code.

SEC. 22. Section 24916.2 of the Revenue and Taxation Code is amended to read:

24916.2. Notwithstanding the provisions of Section 24916 no adjustment shall be made for (a) abandonment fees paid in respect of property on which the open-space easement is terminated under Section 51061 or 51093 of the Government Code or (b) tax recoupment fees paid under Section 51142 of the Government Code.

SEC. 23. Section 38115 of the Revenue and Taxation Code is amended to read:

38115. A timber yield tax is hereby imposed on every timber owner who harvests his timber or causes it to be harvested on or after April 1, 1977, and on every timber owner of felled or downed timber who acquires title to such felled or downed timber in this state from an exempt person or agency described in Section 38104 on or after that date, at the rate of 6 percent of the total immediate harvest value of that timber or at such other rate as may be fixed pursuant to Chapter

3 (commencing with Section 38202) of this part. The immediate harvest value shall be determined as of the scaling date.

SEC. 23.2. Section 38202 of the Revenue and Taxation Code is amended to read:

38202. On or before December 31, 1978, and December 31 of each subsequent year, after public hearings, the board shall adjust the yield tax rate to the nearest one-tenth of 1 percent in the same proportion that the average rate of general property taxation in the rate adjustment counties in the current tax year differs from the average rate of general property taxation in the rate adjustment counties in the preceding tax year. The board shall compute the average rate of general property taxation in the rate adjustment counties by (a) adding the county, city, school district, and other general taxes, but not the special taxes on intangibles, aircraft, baled cotton or any other property, which is subject to a uniform statewide tax rate, nor special assessments, and (b) dividing the amount obtained by the total assessed valuation in the rate adjustment counties, exclusive of the homeowners' and business inventory exemptions, as shown by the county tax rolls for the same year.

"Total assessed valuation," as used in this section, does not include the assessment of property which is subject to a uniform statewide tax rate.

"Special assessment" as used in this section, means any amount levied solely against land or land and improvements.

SEC. 23.4. Section 38204 of the Revenue and Taxation Code is amended to read:

38204. (a) On or before December 31, 1976, the board after consultation with the Timber Advisory Committee and after public hearings held pursuant to the Administrative Procedure Act, shall designate areas containing timber having similar growing, harvesting, and marketing conditions to be used as timber value areas for the preparation and application of immediate harvest values. The board may designate areas for timber standing on lands owned by local agencies and on timberland as defined in Section 51100 of the Government Code and designate separate areas for timber standing on national forest lands owned by the United States government. On or before March 1, 1977, for timber harvested between April 1 and December 31, 1977 and on or before December 31, 1977, and on June 30 and December 31 of each year thereafter for timber harvested during the succeeding two calendar quarters, the board, after consultation with the Timber Advisory Committee, shall estimate the immediate harvest values of each species or subclassification of timber within such areas as of the initial date of the period. Such values shall be determined under rules adopted pursuant to the Administrative Procedure Act from the best evidence available, including (1) gross proceeds from sales on the stump of similar timber of like quality and character at similar locations, or (2) gross proceeds from sales of logs, or of finished products, adjusted to reflect only the portion of such proceeds

attributable to value on the stump immediately prior to harvest, or a combination of (1) and (2), and shall be determined in a manner which makes reasonable allowance for differences in age, size, quality, cost of removal, accessibility to point of conversion, market conditions and other relevant factors.

(b) The board, either on its own motion or in response to application from a timber owner, may modify the immediate harvest values to reflect material changes in timber values that result from fire, blowdown, ice storm, flood, disease, insect damage or other cause, for any area or part thereof in which damaged timber is located. The board shall specify any additional accounting or other requirements to be complied with in reporting and paying the tax on such timber.

SEC. 24. Section 38205 of the Revenue and Taxation Code is amended to read:

38205. The Legislative Analyst shall prepare a report prior to March 1, 1980, which reviews the yield tax rate and revenue distribution mechanisms, and land valuation procedures, for submission to the Legislature and to the Revenue and Taxation Committees in each house. After 1980, an updated report shall be submitted every four years on or before March 1.

The Legislative Analyst shall recommend necessary modifications in the yield tax rate, revenue distribution mechanisms and timberland valuation system, so that timber bears an equitable and proportionate tax share in conformance with the provisions of this chapter, and so that local agencies may be assured of a continual and stable flow of their equitable share of yield tax proceeds. The Legislative Analyst may request from the various counties and agencies of the state whatever information is necessary to facilitate completion of these reports.

SEC. 25. Section 38303 of the Revenue and Taxation Code is amended to read:

38303. On or before December 31, 1978, and each December 31 thereafter to and including December 31, 1981, the board, after public hearings, shall establish a timber reserve fund tax rate for the 12-month period beginning on the next following January 1. In establishing this rate the board shall estimate the amount of timber which will be harvested during the year for which the rate is to be established and the immediate harvest value of that timber and shall establish a rate which it estimates will produce an amount equal to the amount certified by the Controller pursuant to Section 38907. The board shall certify the rate established under this section to the Director of Finance and the Legislature.

SEC. 26. Section 38351 of the Revenue and Taxation Code is amended to read:

38351. Every person who owns timber subject to a timber harvest plan, every person who is required to file a notice of timber operations with the State Forester, and every person who is the first person who acquires either legal title or beneficial title to downed

timber or timber after it has been felled from land owned by a federal agency or any other person or agency entity exempt from state taxation under the Constitution or laws of the United States or under the Constitution or laws of the State of California shall register with the board giving such information as the board may require.

SEC. 27. Section 38902 of the Revenue and Taxation Code is amended to read:

38902. All taxes paid or collected pursuant to Section 38301 shall be deposited in the Timber Tax Reserve Fund, which is hereby created. The money in the fund is hereby appropriated to pay refunds authorized by this part of taxes imposed pursuant to Section 38301 and to the Controller to allocate as provided in this chapter.

SEC. 28. Section 38904 of the Revenue and Taxation Code is amended to read:

38904. The money in the Timber Tax Fund is appropriated as follows:

(a) To reimburse the General Fund for funds advanced for costs incurred by the board in administration of this part as follows:

(1) Five hundred twenty-nine thousand eight hundred fourteen dollars ($529,814) for fiscal years 1975–76 and 1976–77.

(2) Amounts identified and approved in subsequent fiscal years as approved in the normal budget process.

(b) To reimburse the General Fund for funds advanced for costs incurred by the State Forester in administration of Section 4582.8 of the Public Resources Code as follows:

(1) Thirteen thousand five hundred dollars ($13,500) for fiscal year 1975–76 and 1976–77.

(2) Amounts identified and approved if subsequent fiscal years as approved in the normal budget process.

(c) To the Controller to allocate pursuant to Section 38905.

(d) To pay refunds authorized by this part of taxes imposed pursuant to Section 38115 and interest, penalties, and other amounts paid or collected pursuant to this part and deposited in the Timber Tax Fund.

SEC. 28.5. Section 38905 of the Revenue and Taxation Code is amended to read:

38905. (a) The Controller shall transmit to the county treasurer 100 percent of the annual yield tax revenue guarantee certified pursuant to either subdivision (c) or (e) of Section 27423 of the Government Code for the 1977–78 fiscal year and each fiscal year thereafter, less the county's proportional share of the annual costs incurred under subdivisions (a) and (b) of Section 38904. Such proportional share shall be the ratio of each county's share, determined pursuant to subdivision (c) or (e) of Section 27423 of the Government Code, to the total of such shares in the state. These amounts shall be distributed on the following dates of the fiscal year for which they are made: 50 percent on November 30, and 50 percent on May 31. The county auditor shall allocate moneys received under this subdivision among taxing agencies in the proportions accorded

the respective agencies in the county's annual yield tax revenue guarantee as certified pursuant to either subdivision (c) or (e) of Section 27423 of the Government Code.

(b) The Controller shall transmit to the Timber Tax Reserve Fund the balance of any money in excess of two hundred fifty thousand dollars ($250,000) in the Timber Tax Fund on June 1, 1978, and on June 1 of each year thereafter following allocation pursuant to subdivision (a); provided, that if the balance in the Timber Tax Reserve Fund is eight million dollars ($8,000,000) or more, the amount above seven million dollars ($7,000,000) shall be distributed by the Controller as provided in subdivision (a) of Section 38906, and county auditors shall then distribute receipts as provided in subdivision (b) of Section 38906.

(c) In the event that the balance in the Timber Tax Fund is insufficient to make an allocation provided for in this section, the Controller shall transfer sufficient money to the fund from the Timber Tax Reserve Fund to make the allocation. In the event that there are insufficient funds in the Timber Tax Reserve Fund required to make the allocations provided in this section, each county's share shall be reduced pro rata, but any such reduction shall be restored in subsequent allocations.

SEC. 29. Section 38906 of the Revenue and Taxation Code is amended to read:

38906. (a) On June 1, 1978, and on June 1 of each year thereafter, the Controller shall transmit the balance of any money in the Timber Tax Reserve Fund in accordance with subdivision (b) of Section 38905 to the treasurer of each county in the proportion that the total taxes collected under this part in all previous quarters in that county bears to the total taxes collected in the state for the same period; provided that for all quarters beginning on or after October 1, 1982, such computation shall be made with respect to the previous 20 quarters. The transmittal to a county shall be accompanied by a tabulation showing the tax collections arising in each of the county's tax code areas, to govern distribution of moneys.

(b) Upon receipt of funds pursuant to subdivision (a), the county auditor shall within 10 days distribute the funds among the agencies levying taxes or ad valorem special assessments in each tax code area, in the proportion that each taxing agency's harvest factor calculated pursuant to subdivision (c) bears to the sum of the harvest factors for all taxing agencies in the county.

(c) On or before June 1, 1978, and each June 1, thereafter, the county auditor shall compute, and shall provide such to the State Controller, a schedule setting forth for each taxing agency or portion thereof lying within such county:

(1) The average of the aggregate value of all timber harvested within such district in each of the immediately preceding four quarters for 1978, eight quarters for 1979, and 12 quarters for 1980, and to a maximum of 20 quarters thereafter, as determined from the yield tax returns filed with the board;

(2) The aggregate dollar rate calculated pursuant to Section 2151 and actually utilized the immediately preceding October in extending real property taxes upon the tax rolls;

(3) A "harvest factor" which is the product of such quarterly average and such dollar rate; and

(4) The proportion that each taxing agency's harvest factor bears to the sum of the harvest factors for all taxing agencies in the county.

(d) In determining the harvest factor in subdivision (c), the auditor shall adjust for boundary changes as of the last lien date, and may require from the county information on boundary changes necessary to make such alterations. In establishing the harvest factor for a new district, an auditor shall assume that yield taxes have been collected within boundaries of the new district for the previous 12 quarters.

SEC. 30. Section 38907 of the Revenue and Taxation Code is amended to read:

38907. On or before December 2, 1978, and each December 1 each year thereafter to and including December 1, 1981, the Controller shall certify to the State Board of Equalization the amount necessary to restore any deficient allocations as provided for in subdivision (c) of Section 38905, plus the amount needed to bring the current balance of the Timber Tax Reserve Fund up to five million dollars ($5,000,000).

SEC. 31. Section 17.5 is added to Chapter 176 of the Statutes of 1976, to read:

Sec. 17.5. This act shall be known and may be cited as the "Z'berg-Warren-Keene-Collier Forest Taxation Reform Act of 1976."

SEC. 32. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

SEC. 33. The provisions of this act shall apply to all activities undertaken pursuant to Chapter 176 of Statutes of 1976.

SEC. 34. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

At its 1975–76 Regular Session, the Legislature enacted Assembly Bill No. 1258 as Chapter 176 of the Statutes of 1976 to provide for an entirely new system for the taxation of timber and timberlands. This bill would correct erroneous cross-reference and other technical discrepancies in that law in order to enable the new tax system to operate efficiently. Since Chapter 176 became operative on April 1, 1977, and various duties of local government officials commence in September, 1977, it is necessary that this act take effect immediately.

CHAPTER 854

An act to amend Section 21080 of the Public Resources Code, relating to environmental quality, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 21080 of the Public Resources Code is amended to read:

21080. (a) Except as otherwise provided in this division, this division shall apply to discretionary projects proposed to be carried out or approved by public agencies, including, but not limited to, the enactment and amendment of zoning ordinances, the issuance of zoning variances, the issuance of conditional use permits and the approval of tentative subdivision maps (except where such a project is exempt from the preparation of an environmental impact report pursuant to Section 21166).

(b) This division shall not apply to the following:

(1) Ministerial projects proposed to be carried out or approved by public agencies.

(2) Emergency repairs to public service facilities necessary to maintain service.

(3) Projects undertaken, carried out, or approved by a public agency to maintain, repair, restore, demolish, or replace property or facilities damaged or destroyed as a result of a disaster in a disaster-stricken area in which a state of emergency has been proclaimed by the Governor pursuant to Chapter 7 (commencing with Section 8550) of Division 1 of Title 2 of the Government Code.

(4) Specific actions, necessary to prevent or mitigate an emergency.

(5) Activities or approvals necessary to the bidding for, hosting or staging of, and funding or carrying out of, an Olympic Games under the authority of the International Olympic Committee, except for the construction of facilities necessary for such Olympic Games.

(c) In the event that a public agency determines that a proposed project, not otherwise exempt from the provisions of this division, does not have a significant effect on the environment, such public agency shall adopt a negative declaration to that effect.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the City of Los Angeles to submit a timely bid for hosting the 1984 Olympic Games, it is necessary that this act go into immediate effect.

CHAPTER 855

An act to amend Section 30261 of the Public Resources Code, and to add Chapter 10 (commencing with Section 5550) to Division 2 of the Public Utilities Code, relating to a liquefied natural gas terminal, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 30261 of the Public Resources Code is amended to read:

30261. (a) Multicompany use of existing and new tanker facilities shall be encouraged to the maximum extent feasible and legally permissible, except where to do so would result in increased tanker operations and associated onshore development incompatible with the land use and environmental goals for the area. New tanker terminals outside of existing terminal areas shall be situated as to avoid risk to environmentally sensitive areas and shall use a monobuoy system, unless an alternative type of system can be shown to be environmentally preferable for a specific site. Tanker facilities shall be designed to (1) minimize the total volume of oil spilled, (2) minimize the risk of collision from movement of other vessels, (3) have ready access to the most effective feasible containment and recovery equipment for oilspills, and (4) have onshore deballasting facilities to receive any fouled ballast water from tankers where operationally or legally required.

(b) Because of the unique problems involved in the importation, transportation, and handling of liquefied natural gas, the location of terminal facilities therefor shall be determined solely and exclusively as provided in Chapter 10 (commencing with Section 5550) of Division 2 of the Public Utilities Code and the provisions of this division shall not apply unless expressly provided in such Chapter 10.

SEC. 2. Chapter 10 (commencing with Section 5550) is added to Division 2 of the Public Utilities Code, to read:

CHAPTER 10. LOCATING, CONSTRUCTING, AND OPERATING A LIQUEFIED NATURAL GAS TERMINAL

Article 1. Findings and Short Title

5550. This chapter shall be known and may be cited as the Liquefied Natural Gas Terminal Act of 1977.

5551. The Legislature finds as follows:

(a) That an adequate supply of natural gas is essential to the economy of California and to the health and welfare of its residents.

(b) That the importation of liquefied natural gas from south Alaska and Indonesia into California may be a significant means of assuring that adequate and reliable supplies of natural gas are obtained in sufficient quantities to meet the state's needs and to prevent natural gas shortages which would disrupt the state's economy, increase air pollution, and impose personal and financial hardships on all of the state's residents.

(c) That an initial liquefied natural gas terminal may currently be needed in order to permit the importation of sufficient natural gas to prevent shortages which have been predicted to occur in the early 1980's.

(d) That, in order to expedite the siting, construction, and operation of such liquefied natural gas terminal so that serious shortages of natural gas do not occur, it is necessary to vest exclusively in one state agency the authority to issue a single permit authorizing the location, construction, and operation of such terminal, and to establish specific time limits for a decision on applications for such permit.

5552. The Legislature further finds and declares that current uncertainties about the safety of liquefied natural gas require that the single terminal authorized by this chapter be located at a site remote from human population in order to provide the maximum possible protection to the public against the possibility of accident. The Legislature declares that the finding stated in this section applies only to the terminal authorized by this chapter. Such finding is not intended to be, and shall not be construed as, applicable to any additional terminals which may be authorized at a future date.

Article 2. Definitions

5555. Unless the contrary is stated or clearly appears from the context, the definitions set forth in this article shall govern the construction of this chapter.

5556. "Coastal commission" means the California Coastal Commission, as specified and defined in subdivision (a) of Section 30105 of the Public Resources Code.

"District" includes, but is not limited to, a county service area, a maintenance district or area, an improvement district or improvement zone, or any other zone or area.

Article 3. General Provisions

5580. In order to implement the policy stated in subdivision (c) of Section 5551, on or before July 31, 1978, the commission shall issue a decision on an application for a permit to construct and operate an LNG terminal. After the effective date of this chapter, no person shall construct and operate an LNG terminal without obtaining a permit pursuant to the provisions of this chapter.

5581. In order to implement the policy stated in subdivision (d)

of Section 5551, the issuance of a permit by the commission shall be in lieu of any other permit, license, certificate, or other entitlement for use required by any agency of state or local government for the construction or operation of an LNG terminal, to the extent permitted by federal statute or regulation or any federal-state agreement relating to water discharge permits. Also, to the extent permitted by federal statute or regulation, the permit shall also be in lieu of any other permit, license, certificate, or other entitlement for use issued by any agency, department, or instrumentality of the federal government.

5582. (a) In order to implement the policy stated in Section 5552, the following criteria shall apply to the terminal to be authorized by this chapter:

(1) Population density shall be not greater than an average of 10 persons per square mile for a distance of one mile outside the perimeter of the site on which the offloading, regasification, and storage facilities for LNG will be located.

(2) Population density shall be not greater than an average of 60 persons per square mile for a distance of four miles outside the perimeter of the site on which the offloading, regasification, and storage facilities for LNG will be located.

(3) The terminal shall be located so that no marine vessel transporting LNG would be required or permitted in the normal course of marine operations, according to the plan of operations filed by the applicant pursuant to subdivision (b) of Section 5601, to pass closer to areas of population density than the distances specified in paragraphs (1) and (2).

(b) For the sole purpose of selecting the site for the terminal, "population density" shall be established as of the effective date of this chapter. However, the commission may issue a permit to construct and operate a terminal on any site it determines will meet, through the imposition of reasonable terms and conditions or the exercise of the power of eminent domain, the population density requirements of this section at the time the operation of the terminal is commenced.

5583. (a) After the commission has issued a permit for a terminal pursuant to the provisions of this chapter, neither the state government nor any local government shall undertake any development or grant any permit for development which would not conform to the distance and density requirements of Section 5582 or which would otherwise be incompatible with the development or operation of the terminal. The requirements of this section are hereby found necessary in order to protect the public health, safety, and welfare.

As used in this subdivision "development" shall have the same meaning as in Section 30106 of the Public Resources Code.

(b) In order to implement the provisions of subdivision (a) in an orderly and effective manner and to ensure proper planning for uses compatible with the development and operation of the terminal,

local governments and the coastal commission shall undertake appropriate planning through the appropriate local coastal program required pursuant to Chapter 6 (commencing with Section 30500) of Division 20 of the Public Resources Code.

5584. The storage and regasification facilities of the terminal authorized by this chapter shall be located onshore. The trestle and related facilities of such terminal may be located onshore and offshore as necessary.

5585. The permit authorized by this chapter shall apply only to a terminal to receive, store, and regasify liquefied natural gas derived from gas produced in Indonesia and south Alaska. Such terminal's average daily input capacity shall not exceed the gaseous equivalent of 1.3 billion cubic feet, and its LNG storage capacity shall not exceed 1.65 million barrels.

5586. The commission shall charge each person who applies for a permit pursuant to this chapter a fee which will be sufficient to reimburse the commission for the costs incurred in processing the application and rendering a decision as required by this chapter. Such costs shall include costs incurred by the coastal commission in complying with the requirements of Article 5 (commencing with Section 5610) but not costs incurred in complying with the requirements of Article 7 (commencing with Section 5650). Such costs shall also include costs incurred by the commission and the energy commission in complying with the provisions of Section 5637 but not those costs incurred in complying with Section 5587.

5587. (a) In order to assist the commission in carrying out the provisions of this chapter, it shall, on receipt of an application to construct and operate a terminal, request of the energy commission, and such commission shall provide, a study of natural gas supplies and demand in this state. Such study shall include a forecast of the approximate time when significant curtailment of high priority requirements for natural gas is likely to occur without the importation of liquefied natural gas.

(b) In making the study required by subdivision (a), the energy commission shall take into account all supplemental sources of natural gas and natural gas alternatives which can reasonably be expected to be available to meet the state's demands for natural gas, including, but not limited to, conservation programs, increased production from natural gas wells in this state, and the availability of natural gas from federally owned or federally regulated supplies.

(c) The study required by this section shall be submitted to the commission not later than March 15, 1978.

(d) The study required by this section shall be part of the commission's record regarding gas supply and demand for purposes of any decision on the permit authorized by this chapter.

5588. The provisions of Chapter 9 (commencing with Section 1701) of Part 1 of Division 1, relating to hearings held by the commission and to judicial review of decisions rendered by the commission, shall apply to all hearings by the commission held

pursuant to this chapter and to any decision made by the commission pursuant to this chapter to issue a permit for the construction and operation of a terminal.

5589. In no event shall any person filing any application for, or receiving, a permit pursuant to the provisions of this chapter be deemed a public utility or a gas corporation pursuant to the provisions of this code solely because of the application for, or receipt of, a permit pursuant to this chapter.

5590. The construction and operation of an LNG terminal, related facilities, and access roads and the creation and maintenance of an area of low population density surrounding the terminal are public uses and purposes for which the power of eminent domain may be exercised pursuant to Title 7 (commencing with Section 1230.010) of Part 3 of the Code of Civil Procedure.

A person who has an application for a permit to construct and operate an LNG terminal on file with the commission or a person who holds such a permit shall have the power of eminent domain and the right to acquire property for all of the following public purposes with respect to both its proposed terminal site and, if different, the permitted terminal site:

(a) The construction and operation of the terminal, access roads, lines, and appurtenant or related facilities necessary for the construction, operation, or maintenance of the terminal.

(b) Restricting population density and structures in the area surrounding the terminal site in order to provide and maintain conformance with the population density requirements of Section 5582.

(c) Making reasonable reductions in population density and structures in the area surrounding the terminal site in order to provide and maintain conformance with the population density requirements of Section 5582.

5591. Because of the necessity for an expeditious decision regarding a terminal, and for the purposes specified in Article 7 (commencing with Section 5650) of this chapter, the requirements of Sections 11042, 13070, 14615, 14780, and 14782 of the Government Code shall not apply to the activities of the commission and the coastal commission that are required pursuant to this chapter. Further, the commission and the coastal commission may, for the purposes of this chapter, make temporary appointments of personnel for a maximum period of service of 18 months, without regard for the provisions of Chapter 6 (commencing with Section 19050) of Part 2 of Division 5 of Title 2 of the Government Code.

5592. All state agencies shall cooperate with and, at the request of the commission or the coastal commission, shall execute interagency agreements to assist the commission or the coastal commission in evaluating any site identified pursuant to Article 5 (commencing with Section 5610). Costs incurred by any state agency as the result of such an interagency agreement shall be paid by the commission or the coastal commission and shall be reimbursed from

fees collected pursuant to the provisions of Section 5586.

The reimbursement requirements of this section shall not apply to the study to be performed by the energy commission pursuant to the provisions of Section 5587.

5593. If any provision of this chapter or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or application of this chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are severable.

5594. All dates specified in this chapter for the submission of studies, reports, and decisions are mandatory.

5595. (a) Notwithstanding the provisions of Section 5581, if it is necessary to obtain a lease, easement, or other interest in real property from the State Lands Commission in order to construct and operate a terminal, a lease shall be obtained from the State Lands Commission for such property interest. The Legislature hereby finds and declares that leasing of state lands for the purpose of constructing and operating a terminal is in the public interest; and that if such lease is required to construct and operate a terminal, the State Lands Commission shall issue such lease.

(b) Any lease issued by the State Lands Commission pursuant to subdivision (a) shall be a standard general form lease containing only standard convenants. The State Lands Commission shall establish the annual rent for the leased lands pursuant to the authority of Section 6503 of the Public Resources Code.

(c) Upon receipt of an application for a terminal pursuant to this chapter, the commission shall immediately forward a copy thereof to the State Lands Commission.

(d) In issuing any lease pursuant to this section or taking any action related thereto, the State Lands Commission shall be exempt from the provisions of Division 13 (commencing with Section 21000) of the Public Resources Code.

Article 4. Application for Permit

5600. Any application for the permit authorized by this chapter shall be filed with the commission not later than 30 days after the effective date of this chapter.

5601. The permit application shall contain the following information:

(a) Information, including maps and pictorial and written descriptions of present and proposed development for the site and relevant geological, archeological, aesthetic, ecological, seismic, marine transport, and population data. The maps shall designate the location of the perimeter of the LNG offloading, regasification, and storage site from which the population density criteria specified in Section 5582 shall be measured.

(b) A detailed description of the proposed engineering design features, proposed methods of construction, and proposed operating

procedures for the terminal and a proposed plan for marine operations, including shipping routes and control procedures.

(c) An analysis of accident possibilities, consequences and risks for the terminal.

(d) Information regarding safety and public protection features, including fire protection measures, marine navigational systems, emergency systems for shutting down the terminal, and other contingency plans for accidents.

(e) Information regarding the cost of the terminal, fuel consumption in operating terminal equipment, service life of the terminal, and capacity of the terminal.

(f) Information regarding the source of liquefied natural gas, including the contractual terms for the delivery of such gas supplies.

(g) A description of any proposed or existing natural gas transmission lines related to the proposed terminal, including a map, in suitable scale, of the routing that shows details of the right-of-way in the vicinity of populated or developed areas, parks, and recreational areas; the justification for the route; and a preliminary statement of the effect of any proposed natural gas transmission line on the environment.

(h) A description of contingency plans for equivalent volumes of natural gas in the event of both short- and long-term interruptions of the LNG supply system for the proposed terminal.

(i) A description of the proposed method of financing the terminal and analysis of the rate impact thereof on natural gas consumers in this state.

(j) The applicant's legal opinion regarding the rights this state has, or can assert, under federal law (1) that will assure the allocation of adequate supplies of natural gas to consumers in this state from sources other than the terminal to be permitted pursuant to this chapter and (2) that will assure consumers in this state full and fair compensation for any losses of supplies of natural gas costing less than gas converted from LNG that may result from federal allocation policies.

(k) Any other information which the applicant deems necessary or desirable to support its application and better inform the commission and the public.

5602. At any time after the filing of the application, the commission may require the applicant to furnish such additional, relevant information as may be necessary to carry out the purposes of this chapter.

Article 5. Coastal Commission

5610. On receipt of an application for a permit to construct and operate a terminal, the commission shall immediately transmit a copy thereof to the coastal commission for review and evaluation.

5611. In order that the coastal commission carry out its responsibilities as required by this chapter in the most expeditious

manner, on the effective date of this chapter, such commission shall commence a study to identify and evaluate potential onshore sites for an LNG terminal. The study shall include an evaluation of only the following sites: (1) any site proposed in an application submitted pursuant to this chapter for a permit to construct and operate an LNG terminal and (2) any onshore sites proposed by any person for inclusion as an appropriate alternate site in the environmental impact report prepared by the commission pursuant to the requirements of Division 13 (commencing with Section 21000) of the Public Resources Code. However, the final report required by Section 5612 shall include an evaluation and ranking of the proposed site applied for and, in addition, shall include an evaluation and ranking of only those alternative sites that the coastal commission determines to include in such report as a result of applying the policies of this chapter.

5612. (a) Not later than May 31, 1978, the coastal commission shall complete and transmit to the commission its final report evaluating and ranking the sites pursuant to Section 5611. Such report shall be deemed a recommendation to the commission. Such report shall include a transcript of hearings held by the coastal commission and a copy of all relevant files, including exhibits.

(b) Not later than February 1, 1978, the coastal commission shall submit to the commission a report containing a preliminary ranking and evaluation of the terminal sites being studied pursuant to Section 5611, if a preliminary ranking can be made on such date. Such preliminary report may constitute a staff report and need not be preceded by public hearing. It is the intent of the Legislature in requiring this preliminary report to assure notice to the commission of sites being considered by the coastal commission and that such report not be binding on the coastal commission in any respect for purposes of the final report required by subdivision (a).

5613. (a) In ranking potential LNG terminal sites as required by Sections 5611 and 5612, the coastal commission shall base its ranking on an evaluation of the relative merit of each such site and shall make findings, applying the policies, goals, and objectives of Chapter 3 (commencing with Section 30200) of Division 20 of the Public Resources Code.

(b) For each site it evaluates and ranks in the final report required by subdivision (a) of Section 5612, the coastal commission shall recommend terms and conditions in order to ensure that the construction and operation of a terminal at such site will be in accordance with the policies, goals, and objectives specified in subdivision (a).

5615. Prior to the adoption of the final report required by subdivision (a) of Section 5612, the coastal commission shall hold at least one public hearing in each county in which a potential site for an LNG terminal proposed for inclusion in such report is located.

5616. In order to carry out its responsibilities under this chapter, the coastal commission, its staff, and any persons under contract to

the coastal commission shall have the authority to exercise the powers granted city and county planning agency personnel pursuant to Section 65103 of the Government Code, but such powers may be exercised only in the presence of planning agency personnel from a city or county within whose jurisdiction the potential site is located.

5617. The provisions of Division 13 (commencing with Section 21000) of the Public Resources Code shall not apply to any report of the coastal commission required by this article.

5618. The coastal commission may use a hearing officer to assist it in carrying out any of its responsibilities under this article.

5619. Any activity undertaken by a person which is necessary to evaluate and rank a potential site for an LNG terminal, as required by this chapter, shall not be a "development" for the purposes of Section 30106 of the Public Resources Code.

Article 6. Permit to Construct and Operate the LNG Terminal

5630. Not later than July 31, 1978, the commission shall issue a decision on the application for a permit to construct and operate an LNG terminal pursuant to this article.

5631. (a) The commission shall not issue a permit for construction and operation of a terminal at any site not evaluated and ranked by the coastal commission pursuant to Section 5612.

(b) If the commission issues a permit, the commission shall issue a permit for construction and operation at the site designated as the highest ranked site pursuant to Section 5612. However, the commission may select a lower ranked site if it has determined with respect to each higher ranked site that it is not feasible to complete construction and commence operations of the terminal at such higher ranked site in sufficient time to prevent significant curtailment of high priority requirements for natural gas and that approval of the lower ranked site will significantly reduce such curtailment.

5632. The commission shall not issue a permit for construction and operation at any site unless it finds to do so is consistent with public health, safety, and welfare and may impose such conditions on the issuance of a permit as may be necessary or appropriate to ensure the public health, safety, and welfare.

5633. If the commission issues a permit for construction and operation, it shall impose as a condition of such permit each term and condition recommended by the coastal commission for the selected site pursuant to Article 5 (commencing with Section 5610) unless the commission first finds with respect to each term or condition any of the following:

(a) Imposition of the term or condition will cause delays in commencement of terminal operations that will result in significant curtailment of high priority natural gas requirements and that deletion or modification of the term or condition will avoid or significantly reduce such curtailment.

(b) The report of the coastal commission recommending the term or condition was not based on substantial evidence, considering the record as a whole.

(c) Imposition of the term or condition will adversely affect public health or safety.

5634. In the event that the commission's decision is to issue a permit for the construction and operation of a terminal at a site not specified in an application submitted pursuant to this chapter, the applicant may amend such application to specify such other site. In such an event the commission shall transmit to the coastal commission, for its review, the conceptual design of the terminal at such site, as included in such amended application; and within 60 days the coastal commission shall recommend appropriate terms and conditions for any permit proposed to be issued with respect to such site. Any terms and conditions recommended pursuant to this section shall be subject to the provisions of Section 5633.

5635. (a) For all purposes of this chapter, the commission shall be the lead agency for the purpose of complying with the provisions of Division 13 (commencing with Section 21000) of the Public Resources Code.

(b) In fulfilling its responsibilities pursuant to Division 13 (commencing with Section 21000) of the Public Resources Code, the commission is authorized, upon payment of appropriate consideration, to become the successor in interest to any local government or state agency which may currently have outstanding contracts which are germane to the commission's responsibilities under this section.

5636. (a) Prior to issuance of a permit to construct and operate a terminal, the commission shall hold at least one public hearing in the city or county where the terminal is proposed to be located.

(b) To the greatest extent possible, the commission shall expeditiously provide information to such city or county and cooperate with requests for information to enable the city or county to develop and present recommendations in a timely fashion.

(c) The city or county within whose jurisdiction the terminal is proposed to be located may hold public hearings on the proposed terminal.

(d) Such city or county may make appropriate recommendations to the commission, including, but not limited to, recommendations regarding safety, protection of the environment, and local land use. Such recommendations shall be submitted to the commission not later than May 15, 1978.

5637. The commission shall adopt regulations governing the safety and construction of the terminal. In adopting such regulations the commission shall contract with the energy commission, and shall consult with the Division of Industrial Safety of the Department of Industrial Relations and with any other relevant state or federal agency, for the provision of such information as the commission may require.

The commission shall establish a monitoring system to ensure that any terminal authorized pursuant to this chapter is constructed and operated in compliance with all applicable regulations adopted and terms and conditions established pursuant to this chapter.

5638. The commission shall monitor costs incurred in the construction, or in the preparation for construction, of any terminal subject to this chapter in order to determine if the costs are in the best interests of the ratepayers. Such monitoring may commence prior to the issuance of a permit pursuant to this chapter.

5639. No provision of this article shall be construed to abridge or limit in any manner the jurisdiction of the Division of Industrial Safety of the Department of Industrial Relations conferred pursuant to Division 5 (commencing with Section 6300) of the Labor Code. Notwithstanding the provisions of Section 7624 of the Labor Code, all matters relating to LNG storage tanks shall be within the jurisdiction of the Division of Industrial Safety, except for those provisions pertaining to the issuance of permits.

Article 7. Additional Studies

5650. Not later than 12 months after the effective date of this chapter, the coastal commission shall complete a final study of potential offshore sites and types of terminals for such sites. Such study shall indicate the most appropriate offshore terminal site or sites, in the coastal commission's judgment, together with the most appropriate type or types of terminals for each such site.

The results of such study shall be transmitted to the commission, to the energy commission, to the Governor, and to each house of the Legislature.

SEC. 3. The Legislature declares that this act is not intended and should not be construed as expressing the position of the State of California on any currently pending proposal for delivering natural gas from the north slope of the State of Alaska to the remainder of the continental United States. The State of California proposes to determine state policy for siting of appropriate liquefied natural gas terminals subsequent to such time as the President and the Congress of the United States may decide to transport such natural gas in liquefied form.

SEC. 4. The sum of two million eight hundred eighty thousand dollars ($2,880,000) is hereby appropriated from the General Fund to the following agencies for expenditure, without regard to fiscal years, pursuant to the following schedule:

Schedule:

(a) The sum of one million two hundred twelve thousand dollars ($1,212,000), for expenditure by the California Coastal Commission for the study required by Article 7 (commencing with Section 5650) of Chapter 10 of Division 2 of the Public Utilities Code.

(b) The sum of one million six hundred sixty-eight thousand dollars ($1,668,000), for expenditure by the California Coastal

Commission and the Public Utilities Commission to meet initial operating costs required by such Chapter 10; provided, however, that moneys appropriated for such operating costs shall be repaid to the General Fund out of fees authorized to be imposed by such Chapter 10.

SEC. 5. No appropriation is made by this act, nor is any obligation created thereby under Section 2231 of the Revenue and Taxation Code, for the reimbursement of any local agency for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A comprehensive state regulatory process for liquefied natural gas terminals is urgently needed in view of impending plans by private industry to construct such terminals. Failure to establish such a regulatory process immediately may well result in the construction of terminals which, due to their location and technology, pose an immediate and unalterable threat to the preservation of the public peace, health, or safety. Therefore, it is necessary that this act take effect immediately.

CHAPTER 856

An act to add Section 38224 to the Health and Safety Code, relating to developmental disabilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 38224 is added to the Health and Safety Code, to read:

38224. (a) A qualified physician and surgeon who diagnoses a developmental disability, as defined in subdivision (a) of Section 38010, of a patient who is a minor shall attempt to determine from the patient, the parents or guardian of the patient, or the regional center for the area whether such person has been previously referred to the regional center for the area. If the patient has not been previously referred to the regional center, the physician and surgeon shall inform a parent or the guardian of the patient of the existence of the regional center for the area, its address and telephone number, and shall describe to such person the services available through the regional center, and shall, upon request of the

parent or guardian of the patient, refer in writing the patient through his parent or guardian to the regional center. Upon obtaining the consent of the patient's parent or guardian, the physician and surgeon shall notify the regional center of such referral.

For the purposes of this section, "qualified physician and surgeon" means those physicians and surgeons who have recognized and accredited training and a specialized pediatric practice in childhood disabilities.

(b) Each regional center shall maintain a record of every developmentally disabled person under the age of 18 years known by the regional center to have been referred to it for its services, whether or not services are actually provided.

(c) The state department shall transmit a copy of this section and of subdivision (a) of Section 38010 to every physician and surgeon licensed to practice in this state and every general acute care hospital licensed under Chapter 2 (commencing with Section 1250) of Division 2. A list of the name and address of each regional center and such other pertinent information as the state department deems appropriate shall also be transmitted, both in English and Spanish.

(d) It is not the intent of the Legislature in enacting this section to prevent any physician and surgeon subject to subdivision (a) from providing care or treatment to a developmentally disabled minor or to deprive developmentally disabled minors of adequate care provided through sources other than a regional center.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden on local government.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act establishing a referral procedure may be added at the earliest opportunity to the Lanterman Developmental Disabilities Services Act which was repealed and added by Chapters 1364 to 1373, inclusive, of the Statutes of 1976, it is necessary that this act take effect immediately.

CHAPTER 857

An act to amend Section 12020 of the Penal Code, relating to weapons.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 12020 of the Penal Code is amended to read:

12020. (a) Any person in this state who manufactures or causes to be manufactured, imports into the state, keeps for sale, or offers or exposes for sale, or who gives, lends, or possesses any cane gun or wallet gun, any firearm which is not immediately recognizable as a firearm, any ammunition which contains or consists of any flechette dart, or any instrument or weapon of the kind commonly known as a blackjack, slungshot, billy, nunchaku, sandclub, sandbag, sawed-off shotgun, or metal knuckles, or who carries concealed upon his person any explosive substance, other than fixed ammunition or who carries concealed upon his person any dirk or dagger, is guilty of a felony, and upon conviction shall be punishable by imprisonment in the county jail not exceeding one year or in a state prison.

(b) Subdivision (a) shall not apply to any of the following:

(1) The manufacture, possession, transportation or use, with blank cartridges, of sawed-off shotguns solely as props for motion picture film or television program production when such is authorized by the Department of Justice pursuant to Article 6 (commencing with Section 12095) of this chapter and is not in violation of federal law.

(2) The possession of a nunchaku on the premises of a school which holds a regulatory or business license and teaches the arts of self-defense.

(3) The manufacture of a nunchaku for sale to, or the sale of a nunchaku to, a school which holds a regulatory or business license and teaches the arts of self-defense.

(4) Any antique firearm. For purposes of this section, the term "antique firearm" means any firearm not designed or redesigned for using rim fire or conventional center fire ignition with fixed ammunition and manufactured in or before 1898 (including any matchlock, flintlock, percussion cap, or similar type of ignition system or replica thereof, whether actually manufactured before or after the year 1898) and also any firearm using fixed ammunition manufactured in or before 1898, for which ammunition is no longer manufactured in the United States and is not readily available in the ordinary channels of commercial trade.

(c) Any person in this state who manufactures or causes to be manufactured, imports into the state, keeps for sale or offers or exposes for sale, or who gives, lends, or possesses any instrument, without handles, consisting of a metal plate having three or more radiating points with one or more sharp edges and designed in the shape of a polygon, trefoil, cross, star, diamond, or other geometric shape for use as a weapon for throwing is guilty of a felony, and upon conviction shall be punishable by imprisonment in the county jail not exceeding one year or in a state prison.

(d) (1) As used in this section a "sawed-off shotgun" means any

firearm (including any revolver) manufactured, designed, or converted to fire shotgun ammunition having a barrel or barrels of less than 18 inches in length, or a rifle having a barrel or barrels of less than 16 inches in length, or any weapon made from a rifle or shotgun (whether by manufacture, alteration, modification, or otherwise) if such weapon as modified has an overall length of less than 26 inches.

(2) As used in this section, a "nunchaku" means an instrument consisting of two or more sticks, clubs, bars or rods to be used as handles, connected by a rope, cord, wire or chain, in the design of a weapon used in connection with the practice of a system of self-defense such as karate.

(3) As used in this section a "wallet gun" means any firearm mounted or enclosed in a case, resembling a wallet, designed to be or capable of being carried in a pocket or purse, if such firearm may be fired while mounted or enclosed in such case.

(4) As used in this section a "cane gun" means any firearm mounted or enclosed in a stick, staff, rod, crutch or similar device, designed to be or capable of being used as an aid in walking, if such firearm may be fired while mounted or enclosed therein.

(5) As used in this section, a "flechette dart" means a dart, capable of being fired from a firearm, which measures approximately one inch in length, with tail fins which take up five-sixteenths inch of the body.

CHAPTER 858

An act to add Section 1328.6 to the Penal Code, relating to witnesses.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 1328.6 is added to the Penal Code, to read:

1328.6. Whenever any criminalist, questioned document examiner, latent print analyst, polygraph examiner employed by the Department of Justice, a police department, a sheriff's office, a district attorney's office, or an intelligence specialist or other technical specialist employed by the Department of Justice, or a custodial officer employed in a local detention facility, is a witness before any court or magistrate in any criminal action or proceeding in connection with a matter regarding an event or transaction which he has perceived or investigated in the course of his official duties, where his testimony would become a matter of public record, and where he is required to state the place of his residence, he need not state the place of his residence, but in lieu thereof, he may state his

business address, unless the court finds, after an in camera hearing, that the probative value of the witness's residential address outweighs the creation of substantial danger to the witness.

Nothing in this section shall abridge or limit a defendant's right to discover or investigate such information. This section is not intended to apply to confidential informants.

CHAPTER 859

An act to add Section 16721.6 to the Business and Professions Code, relating to restraints of trade, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 16721.6 is added to the Business and Professions Code, to read:

16721.6. It is the intent of the Legislature that Sections 16721 and 16721.5 be interpreted and applied so as not to conflict with federal law with respect to transactions in the interstate or foreign commerce of the United States to the extent, if any, not preempted by the Export Administration Act of 1969 as amended (50 U.S.C. App. Sec. 2401 and following) and any regulations promulgated thereunder.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Legislation affecting foreign boycotts has been passed by the Congress of the United States which expressly permits certain activities and which preempts any law of the several states which pertains to participation in, compliance with, implementation of, or the furnishing of information regarding restrictive trade practices or boycotts fostered or imposed by foreign countries against other countries.

This act insures that the same activities permissible under federal law are permissible under state law. It thus avoids the necessity of extensive and divisive litigation as the only means of determining the consistency of coverage of federal and state law.

CHAPTER 860

An act to amend Sections 4351 and 4363 of, and to add Sections 4363.1, 4363.2, and 4363.3 to, the Civil Code, relating to dissolution of marriage.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 4351 of the Civil Code is amended to read:

4351. In proceedings under this part, the superior court has jurisdiction to inquire into and render such judgments and make such orders as are appropriate concerning the status of the marriage, the custody and support of minor children of the marriage, the support of either party, the settlement of the property rights of the parties and the award of attorneys' fees and costs; provided, however, no such order or judgment shall be enforceable against an employee pension benefit plan unless the plan has been joined as a party to the proceeding.

SEC. 2. Section 4363 of the Civil Code is amended to read:

4363. The court may order that a person who claims an interest in a proceeding under this part be joined as a party to the proceeding in accordance with rules adopted by the Judicial Council pursuant to Section 4001; however, an employee pension benefit plan shall be joined as a party to a proceeding under this part only in accordance with the provisions of Section 4363.1.

SEC. 3. Section 4363.1 is added to the Civil Code, to read:

4363.1. (a) Upon written application by a party to a proceeding under this part, the clerk shall enter an order joining as a party to the proceeding any employee pension benefit plan in which either party to the proceeding claims an interest which is or may be subject to disposition by the court. A copy of the joinder request together with a copy of a summons and a blank copy of a notice of appearance both in form and content approved by the Judicial Council shall be served upon the employee pension benefit plan in the same manner as service of papers in civil actions generally. Service of the summons upon a trustee or administrator of the employee pension benefit plan in his capacity as such, or upon any agent designated by the plan for service of process in his capacity as such, shall constitute service upon the employee pension benefit plan.

(b) A notice of appearance shall be filed and served by the employee pension benefit plan upon the party requesting joinder within 45 days of the date of the service upon the employee pension benefit plan of a copy of the joinder request and summons. The employee pension benefit plan shall indicate in the notice of appearance whether it consents to be governed by the provisions of Section 4363.2. If it fails to do so, the plan shall be deemed not to have

consented. Notwithstanding any contrary provision of law, the employee pension benefit plan shall not be required to pay any fee to the clerk of the court as a condition to filing such notice of appearance or any subsequent paper in the proceeding.

(c) If the employee pension benefit plan has been served and no notice of appearance, notice of motion to quash service of summons pursuant to Section 418.10 of the Code of Civil Procedure, or notice of the filing of a petition for writ of mandate as provided in such section, has been filed with the clerk of the court within the time specified in the summons or such further time as may be allowed, the clerk, upon written application of the party requesting joinder, shall enter the default of the employee pension benefit plan in accordance with Chapter 2 (commencing with Section 585) of Title 8 of Part 2 of the Code of Civil Procedure.

SEC. 4. Section 4363.2 is added to the Civil Code, to read:

4363.2. (a) An employee pension benefit plan which elects to be governed by the provisions of this section shall not be required to, but may, appear at any hearing in any proceeding under this part to which the plan has been joined as a party. For purposes of the Code of Civil Procedure, such plan shall be considered a party appearing at trial with respect to any hearing at which the interest in the plan of the parties is an issue before the court. Those provisions of any order entered in the proceeding which affect a plan electing to be governed by the provisions of this section, or which affect any interest either the petitioner or respondent may have or claim under such plan, shall not become effective until 30 days after the order has been served upon the employee pension benefit plan; provided, however, that the plan may agree in writing to waive all or any portion of the 30-day period. If within the 30-day period, the plan files in the proceeding a motion to set aside or modify those provisions of the order affecting it, such provisions shall not become effective until the court has resolved the motion.

(b) At any hearing on a motion to set aside or modify an order pursuant to subdivision (a), any party may present further evidence on any issue relating to the rights of the parties under the employee pension benefit plan or the extent of the parties' community or quasi-community property interest in the plan. Any findings of fact or conclusions of law made by the court with respect to the order which is the subject of the motion shall take account of such evidence.

(c) The grounds upon which the provisions of an order affecting an employee pension benefit plan or the interest of the petitioner and respondent therein shall be set aside or modified shall include, but shall not be limited to, the following:

(1) Neither petitioner nor respondent has any interest, whether vested or unvested, in the employee pension benefit plan.

(2) The order grants greater or different rights to the nonemployee spouse, the employee spouse, or the nonemployee spouse and employee spouse combined, than the employee spouse

has under the terms of the employee pension benefit plan.

(3) The order requires payment to the nonemployee spouse of a benefit which under the terms of the plan is only payable on account of or after the death of the employee spouse to a person specified by the terms of the employee pension benefit plan and not selected by the employee spouse.

(4) The order requires the employee pension benefit plan to make payments in discharge of the nonemployee spouse's interest in the plan after the nonemployee spouse's death.

(5) The order awards to the nonemployee spouse any of the separate property portion or more than 50 percent of the community and quasi-community property portion of the employee's interest under the employee pension benefit plan.

SEC. 5. Section 4363.3 is added to the Civil Code, to read:

4363.3. As used in this part, the term "employee pension benefit plan" includes public and private retirement and pension plans.

SEC. 6. The provisions of Sections 1 and 4 of this act shall apply to any order or judgment entered in a proceeding under Part 5 (commencing with Section 4000) of Division 4 of the Civil Code on or after the operative date of this act. Where an employee pension benefit plan has been joined as a party to a proceeding under Part 5 (commencing with Section 4000) of Division 4 of the Civil Code before the operative date of this act, Section 4363.2 of the Civil Code shall apply to any order entered in such proceeding on or after the date the employee pension benefit plan files in the proceeding a written election to be governed by the provisions of such section. A copy of such written election shall be served upon the party who requested the joinder of the employee pension benefit plan in the manner prescribed by law.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 861

remodeling, altering, converting, or modernizing such building or structure and where the aggregate contract price specified in one or more improvement contracts, including all labor, services, and materials to be furnished by the contractor, exceeds five hundred dollars ($500).

Every home improvement contract and any changes in the contract subject to the provisions of this section shall be evidenced by a writing and shall be signed by all the parties to the contract thereto. The writing shall contain the following:

(b) The approximate dates when the work will begin and be substantially completed.

(c) A description of the work to be done and description of the materials to be used and the agreed consideration for the work.

(d) A schedule of payments showing the amount of each payment as a sum in dollars and cents.

If the payment schedule contained in the contract provides for a downpayment to be paid to the contractor by the owner or the tenant before the commencement of work, such downpayment shall not exceed one hundred dollars ($100) or 1 percent of the contract price, whichever is the greater.

In no event shall the payment schedule provide for the contractor to receive payment in excess of 100 percent of the value of the work performed on the project at any time, excluding finance charges, except that the contractor may receive an initial downpayment authorized by this section.

The requirements pertaining to the payment schedule shall not apply when the contract provides for the contractor to furnish performance and payment bond, lien and completion bond, or a bond equivalent approved by the Registrar of Contractors covering 100 percent of the contract and such bonds are furnished by the contractor, or when the parties agree for full payment to be made upon satisfactory completion of the project.

This section shall not be construed to prohibit the parties to a home improvement contract from agreeing to provisions for a deferred payment price pursuant to a contract or account subject to Chapter 1 (commencing with Section 1801) of Title 2 of Part 4 of Division 3 of the Civil Code.

The writing may also contain other matters agreed to by the parties to the contract.

The writing shall be legible and shall be in such form as to clearly describe any other document which is to be incorporated into the contract, and before any work is done, the owner shall be furnished a copy of the written agreement, signed by the contractor.

The provisions of this section are not exclusive and do not relieve the contractor or any contract subject to it from compliance with all other applicable provisions of law.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 10851 of the Welfare and Institutions Code is repealed.

SEC. 2. Section 10851 is added to the Welfare and Institutions Code, to read:

10851. (a) Each county shall establish and maintain a case record for each public assistance case and shall retain such record for a period of four years. The four-year retention period begins on the date of the final aid payment. The records shall be retained beyond the four-year retention period when the county is notified by the department to retain records for a longer period of time. The department shall instruct a county to retain records beyond the four-year period when such retention is necessary to a pending civil or criminal action.

(b) Notwithstanding subdivision (a), the board of supervisors of any county may authorize the destruction of the case narrative portions of the case record that are over four years old in any case file, active or inactive, after audit by the department. However, if a civil or criminal action is commenced before the expiration of the four-year period against a person based on alleged unlawful application for, or receipt of, public assistance, no portion of the case record of such person shall be destroyed until such action is terminated.

(c) Each county shall maintain fiscal, statistical and other such records necessary for maintaining accountability and meeting reporting requirements relating to the administration of public assistance. Such fiscal and reporting records shall be retained for a minimum period of four years from the date of submission of the final expenditure report and shall be retained beyond the four-year period when audit findings have not been resolved.

(d) The retention requirements imposed by subdivisions (a) and (c) of this section are for welfare-related purposes only and are superseded to the extent another statute requires retention of the same records for a longer period for a different purpose.

SEC. 3. Section 10851.5 of the Welfare and Institutions Code is repealed.

SEC. 4. Section 11004 of the Welfare and Institutions Code is amended to read:

11004. The provisions of this code relative to public social services

(a) Any applicant for, or recipient or payee of, such public social services shall be informed as to the provisions of eligibility and his responsibility for reporting facts material to a correct determination of eligibility and grant.

(b) Any applicant for, or recipient or payee of, such public social services shall be responsible for reporting accurately and completely within his competence those facts required of him pursuant to subdivision (a) and to report promptly any changes in those facts.

(c) Any person who makes full and complete disclosure of those facts as explained to him pursuant to subdivision (a) is entitled to rely upon the award of public social services as being accurate, and that the warrant he receives correctly reflects the award made, except that the county providing the social services shall be allowed a period of six months following the month of payment, or six months following the hearing provided in subdivision (e), within which to adjust any errors or changes in amount of grant resulting from changes in income or need which occur too late to be reflected in the grant for the current month. Whenever possible, adjustments or overpayments shall be prorated evenly over the adjustment period.

(d) If any overpayment which results because of the willful failure to report facts in accordance with subdivision (b) or because of any willfully fraudulent device, the county providing the social services shall be allowed a period of one year following the month of the discovery of the overpayment, or one year following the hearing provided in subdivision (e), to adjust current grants to recover the overpayment. Such adjustment shall be permitted concurrently with any suit for restitution, and recovery of overpayment by adjustment shall reduce by the amount of such recovery the extent of liability for restitution.

(e) Current grants may be reduced because of prior overpayments only if the recipient has income or resources available in the amount by which the county proposes to reduce payment; except that where there is evidence which clearly establishes that a recipient willfully withheld information about his income or resources, such income or resources may be considered in the determination of need to reduce the amount of the grant in current or future periods. Prior to effecting any reduction of current grants to recover prior overpayments, the recipient shall be advised of the proposed reduction and of his entitlement to a hearing on the propriety of the reduction. In no event shall the grant to a needy child be reduced unless the parents or other responsible persons have sufficient available resources or income to meet the current needs of the needy child according to the department standard during the period of reduction.

(g) No civil or criminal action may be commenced against any person based on alleged unlawful application for or receipt of public social services, where the case record of such person has been destroyed after the expiration of the four-year retention period pursuant to Section 10851.

(h) When an underpayment or denial of public social service occurs because of an administrative error or inadvertence on the part of a county, and as a result the applicant or recipient does not receive the amount to which he is entitled, the county shall provide public social services equal to the full amount of the underpayment which occurred during the period of one year immediately preceding the date the error or inadvertence is discovered.

(i) This subdivision shall be applicable only to applicants, recipients and payees under Chapter 2 (commencing with Section 11200) of Part 3 of Division 9 of this code. [Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 49110 of the Education Code is amended to read:

49110. It is the intent of the Legislature that school district personnel responsible for issuing work permits to minors have a working knowledge of California labor laws as they relate to minors and further that such personnel be trained to provide the students practical personal guidance in career education. The superintendent of any school district in which any minor resides, a person holding a services credential with a specialization in pupil personnel services authorized by the superintendent in writing, or a certificated work experience education teacher or coordinator authorized by the

superintendent in writing, may issue to certain minors permits to work. Where the minor resides in a portion of a county not under the jurisdiction of the superintendent of any school district, the permit to work shall be issued by the superintendent of schools of the county, by a person holding a services credential with a specialization in pupil personnel services authorized by the superintendent in writing, or a certificated work experience education teacher or coordinator authorized by the superintendent in writing. No permit to work shall be issued until the written request therefor from the parent or guardian has been filed with the issuing authority.

In the event that the certificated person designated by the superintendent to issue work permits is not available, and delay in issuing a permit would jeopardize the ability of a student to secure work, a person authorized by the superintendent may issue the work permit.

In the event that a district does not employ or contract with a person holding a services credential with a specialization in pupil personnel services or with a certificated work experience education teacher or coordinator, the superintendent may authorize, in writing, a person who does not hold such a credential to issue permits to work during periods of time in which the superintendent is absent from the district.

SEC. 2. Section 51767 of the Education Code is amended to read:

51767. The governing board of any school district which maintains one or more high schools may provide for the establishment and supervision of work experience education programs in areas outside the district, either within this state or in a contiguous state.

SEC. 3. Section 51768 of the Education Code is amended to read:

51768. The governing board of any school district providing work experience and work study education may provide for employment under such program of pupils in part-time jobs located in areas outside the district, either within this state or in a contiguous state, and such employment may be by any public or private employer. Such districts may pay wages to persons receiving such training whether assigned within or without the district, except that no payments may be to or for private employers, and may provide workers' compensation insurance as may be necessary.

56711. No creditor's claim shall be paid under this chapter if the claim is based on a transaction with a person who was not subject to the provisions of this chapter at the time of the transaction.

56712. If a payment is made to any creditor from the products fund, the director shall be subrogated to all of the creditor's rights of recovery against any person or organization and the creditor shall execute and deliver to the director such instruments and papers and perform any other acts necessary to carry out the provisions of this section.

The director shall appoint two members of the first review board for a term of one year, two members for a term of two years, and one member for a term of three years. Thereafter, all appointments shall be for a term of three years and no member shall be appointed to more than two three-year terms. Members of the review board shall include two producers, two persons licensed under Chapter 6 (commencing with Section 55401) or Chapter 7 (commencing with Section 56101) of this division, who are not producers, and one public member.

56732. Members of the review board shall not receive any salary, but may receive per diem and be reimbursed for the necessary expenses in attending meetings of the board.

56733. The review board shall be advisory to the director on all matters pertaining to the products fund, including the annual budget and the revenue necessary to accomplish its functions.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The existing procedure requiring the bonding of processors and dealers is ineffective in protecting producers when processors or dealers face financial difficulties. In order to remedy this situation as

soon as possible, it is necessary that the provisions of this act become effective immediately.

CHAPTER 877

An act to amend Section 15606 of the Government Code, and to amend Sections 1610.8 and 1611.5 of, and to add Section 1611.6 to, the Revenue and Taxation Code, relating to county tax equalization hearing procedures.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 15606 of the Government Code is amended to read:

15606. The State Board of Equalization shall:

(a) Prescribe rules for its own government and for the transaction of its business.

(b) Keep a record of all its proceedings.

(c) Prescribe rules and regulations to govern local boards of equalization when equalizing, and assessors when assessing, including uniform procedures for the consideration and adoption of written findings of fact by local boards of equalization as required by Section 1611.5 of the Revenue and Taxation Code.

(d) Prescribe and enforce the use of all forms for the assessment of property for taxation.

(e) Prepare and issue instructions to assessors designed to promote uniformity throughout the state and its local taxing jurisdictions in the assessment of property for the purposes of taxation. It may adapt such instructions to varying local circumstances and to differences in the character and conditions of property subject to taxation as in its judgment is necessary to attain such uniformity.

(f) Subdivisions (c), (d), and (e) in this section shall include, but are not limited to, rules, regulations, instructions and forms relating to classifications of kinds of property and evaluation procedures. All rules and regulations adopted by the board pursuant to subdivision (c) shall be adopted, on and after January 1, 1968, pursuant to the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of this division.

(g) Prescribe rules and regulations to govern local boards of equalization when equalizing and assessors when assessing with respect to the assessment and equalization of possessory interests.

(h) Bring an action in a court of competent jurisdiction to compel an assessor or any city or county tax official to comply with any provision of law, or any rule or regulation of the board adopted in accordance with subdivision (c) of this section, governing the assessment or taxation of property. The Attorney General shall

represent the board in such action. The provisions of this section are mandatory.

SEC. 2. Section 1610.8 of the Revenue and Taxation Code is amended to read:

1610.8. After giving notice as prescribed by its rules, the county board shall equalize the assessment of property on the local roll by determining the full value of an individual property and by reducing or increasing an individual assessment as provided in this section. The full value of an individual property shall be determined without limitation by reason of the applicant's opinion of value stated in the application for reduction in assessment pursuant to subdivision (a) of Section 1603.

For the purpose of equalization, it is conclusively presumed that the average ratio of assessed value to full value in the county is not more than 115 percent of the latest preliminary or final ratio determined by the board pursuant to Article 1 (commencing with Section 1815) of Chapter 2 of this part.

The applicant for a reduction in an assessment on the local roll shall establish the full value of the property by independent evidence. The records of the assessor may be used as part of such evidence.

The county board shall make a determination of the full value of each parcel for which an application for equalization is made. After determining the full value of a parcel of property, the county board shall establish the assessed value of the property at the lower of:

(a) An amount equal to the property's full value, as determined by the county board, multiplied by the ratio established under Section 401.

(b) An amount equal to the property's full value, as determined by the county board, multiplied by 115 percent of the board's preliminary or final ratio for the county.

(c) An amount equal to the property's full value, as determined by the county board, multiplied by the ratio of assessed to full value of all property in the county, established without reference to the board's ratio for the county.

SEC. 3. Section 1611.5 of the Revenue and Taxation Code is amended to read:

1611.5. Written findings of fact of the county board shall be made if requested in writing by a party up to or at the commencement of the hearing. However, the party requesting findings may abandon the request and waive findings at the conclusion of the hearing. If the requesting party abandons his request at this time the other party may orally or in writing renew the request thereby becoming responsible for any costs for the preparation of findings. A reasonable fee may be imposed by the county to cover the expense of preparing findings and conclusions, but shall not exceed ten dollars ($10) per parcel. The written findings of fact shall fairly disclose the board's determination of all material points raised by the party in his petition and at the hearing including a statement of the method or methods of valuation used in appraising the property.

At the hearing the final determinations by the board shall be supported by the weight of the evidence and, with regard to questions of value, such determinations shall be made without limitation by reason of the applicant's opinion of value stated in the application for reduction in assessment pursuant to subdivision (a) of Section 1603.

If written findings of fact have been requested, the board shall transmit such findings to the requesting party accompanied by a notice that any request for a transcript of the proceedings must be made within 60 days following the date of the final determination of the board.

SEC. 4. Section 1611.6 is added to the Revenue and Taxation Code, to read:

1611.6. If the county board fails to make findings upon request, or if findings made are found by a reviewing court to be so deficient that a remand to the county board is ordered to secure reasonable compliance with the elements of findings required by Section 1611.5, the action of the county board shall be deemed to be arbitrary and capricious within the meaning of Section 800 of the Government Code, so as to support an allowance of reasonable attorney's fees against the county for the services necessary to obtain proper findings.

CHAPTER 879

An act to add and repeal Section 13110.7 of the Health and Safety Code, relating to burn and smoke inhalation injuries.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 13110.7 is added to the Health and Safety Code, to read:

13110.7. The State Fire Marshal shall establish and maintain a registry of burn injuries and deaths, and shall annually compile a statistical report of such injuries and deaths.

The director of every burn center which examines, treats, or admits a person with a burn or smoke inhalation injury or a person who suffers a burn related death shall file a report with the State Fire Marshal describing the injury or death at the end of the examination or treatment or at the time the patient is discharged from the burn center or at the time of the patient's death.

As used in this section, the term "burn center" means an intensive care unit in which there are specially trained physicians, nursing and supportive personnel and the necessary monitoring and therapeutic equipment needed to provide specialized medical and nursing care to burned patients.

The State Fire Marshal shall, in cooperation with the burn centers, develop the form to be used in reporting information to the State Fire Marshal under this section.

This section shall remain in effect only until January 1, 1981, and of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1981, deletes or extends this date.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no appropriation nor any obligation created for reimbursement of local agencies for costs incurred by them pursuant to this act.

CHAPTER 880

An act to amend Sections 3062 and 34715 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 3062 of the Vehicle Code is amended to read:

3062. (a) Except as otherwise provided in subdivision (b), in the event that a franchisor seeks to enter into a franchise establishing an additional motor vehicle dealership within a relevant market area where the same line-make is then represented, or relocating an existing motor vehicle dealership, the franchisor shall in writing first notify the board and each franchisee in such line-make in the relevant market area of his intention to establish an additional dealership or to relocate an existing dealership within or into that market area. Within 15 days of receiving such notice or within 15

days after the end of any appeal procedure provided by the franchisor, any such franchisee may file with the board a protest to the establishing or relocating of the dealership. When such a protest is filed, the board shall inform the franchisor that a timely protest has been filed, that a hearing is required pursuant to Section 3066, and that the franchisor shall not establish or relocate the proposed dealership until the board has held a hearing as provided in Section 3066, nor thereafter, if the board has determined that there is good cause for not permitting such dealership. In the event of multiple protests, hearings may be consolidated to expedite the disposition of the issue.

For the purposes of this section, the reopening in a relevant market area of a dealership that has not been in operation for one year or more shall be deemed the establishment of an additional motor vehicle dealership.

(b) With respect to the relocation of an existing dealership, subdivision (a) shall not apply to any relocation which is less than one mile from the existing location of the dealership and which is to a location within the same relevant market area within the same city where the existing dealership is located.

SEC. 2. Section 34715 of the Vehicle Code is amended to read:

34715. No new passenger vehicle, except a passenger vehicle certified by its manufacturer as having been manufactured prior to September 1, 1973, shall be sold or registered on and after September 1, 1973, unless it has a manufacturer's warranty that it is equipped with an appropriate energy-absorption system that meets the requirement for energy absorption systems set by the National Highway Traffic Safety Administration.

CHAPTER 881

An act to amend Section 54.3 of the Civil Code, relating to discrimination, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 54.3 of the Civil Code is amended to read:

54.3. Any person or persons, firm or corporation who denies or interferes with admittance to or enjoyment of the public facilities as specified in Sections 54 and 54.1 or otherwise interferes with the rights of a totally or partially blind person, deaf person, or other physically disabled person under Sections 54, 54.1 and 54.2 is liable for each such offense for the actual damages and, in addition thereto, up to one thousand dollars ($1,000) in punitive damages, suffered by any

person denied any of the rights provided in Sections 54, 54.1, and 54.2.

SEC. 2. The Legislature declares that although the amount of recoverable punitive damages was not limited by Chapter 461 of the Statutes of 1968, some limitation thereon is desirable; however, the five hundred dollar ($500) limitation established by Chapter 972 of the Statutes of 1976 is not commensurate with the extent of the wrong that could be suffered by those intended to be protected. Accordingly, the provisions of this act establish limits more consistent with the scope of such potential wrong.

SEC. 3. The Legislature hereby declares that despite the holding in Marsh v. Edwards Theatres Circuit, Inc. (64 Cal. App. 3d 881) it has never been its intention to bar private causes of actions under Part 2.5 (commencing with Section 54) of Division 1 of the Civil Code. It is the intention of this act to establish reasonable limits of recovery with regard thereto.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Many physically disabled persons are presently being deprived of their civil rights because the enforcement provisions of Sections 54, 54.1, and 54.2 of the Civil Code are not adequate to insure such rights. This act will provide adequate enforcement and insure that the civil rights of physically disabled persons are being enforced and thus it is necessary that this act take effect at the earliest possible date.

CHAPTER 882

An act to amend Section 8371 of the Fish and Game Code, relating to striped bass.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 8371 of the Fish and Game Code is amended to read.

8371. (a) Except as otherwise provided in subdivision (b), it is unlawful to buy or sell striped bass or parts thereof, or to possess striped bass or parts thereof in any place where fish are bought, possessed for sale, or sold, or where food is offered for sale, or in any truck or other conveyance operated by or for a place so selling or possessing fish.

(b) The provisions of subdivision (a) shall not apply to any of the following:

(1) Artificially propagated striped bass.

(2) Striped bass raised for sale for scientific study by either a

domestic fish breeder licensed pursuant to Article 3 (commencing with Section 6450) of Chapter 5 of Part 1 of this division, or a person who is licensed to engage in cultivating marine life.

CHAPTER 883

An act to amend Section 66452.6 of the Government Code, relating to subdivisions.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 66452.6 of the Government Code is amended to read:

66452.6. (a) An approved or conditionally approved tentative map shall expire 12 months after its approval or conditional approval, or after such additional period of time as may be prescribed by local ordinance, not to exceed an additional 18 months. The period of time herein specified shall not include any period of time during which a water or sewer moratorium, imposed after approval of the tentative map, is in existence, provided however, that the length of such moratorium does not exceed five years.

Once such a moratorium is terminated, the map shall be valid for the same period of time as was left to run on the map at the time that the moratorium was imposed; provided, however, that if such remaining time is less than 120 days, the map shall be valid for 120 days following the termination of the moratorium.

The 1977 amendments to this section shall apply to a tentative map approved or conditionally approved prior to January 1, 1978, including any map which has expired during a moratorium which was imposed on or after April 1, 1977.

(b) The expiration of the approved or conditionally approved tentative map shall terminate all proceedings and no final map or parcel map of all or any portion of the real property included within such tentative map shall be filed without first processing a new tentative map.

(c) Upon application of the subdivider filed prior to the expiration of the approved or conditionally approved tentative map, the time at which such map expires may be extended by the legislative body or by an advisory agency authorized to approve or conditionally approve tentative maps for a period or periods not exceeding a total of two years. If the advisory agency denies a subdivider's application for extension, the subdivider may appeal to the legislative body within 15 days after the advisory agency has denied the extension.

CHAPTER 884

An act to amend Section 285 of the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 285 of the Welfare and Institutions Code is amended to read:

285. All probation officers shall make such periodic reports to the Bureau of Criminal Statistics as the bureau may require and upon forms furnished by the bureau, provided that no personally identifying information shall be transmitted regarding any proceeding under Section 300.

CHAPTER 885

An act to amend Sections 33704 and 33704.5 of, and to add Article 5.5 (commencing with Section 36961) to Chapter 2 of Part 3 of Division 15 of, the Food and Agricultural Code, relating to dairy products, and making an appropriation therefor.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 33704 of the Food and Agricultural Code is amended to read:

33704. The provisions of Sections 33701, 33731, 33732, 33733, 33734, 33767, 33768, 33770, 33771, 33776, and 34593 do not apply to the manufacture of a milk drink if such product is manufactured from milk drink mix or sterilized milk drink mix, or to ice cream which is manufactured from ice cream mix, or to ice milk which is manufactured from ice milk mix, or to frozen yogurt dessert, which is manufactured from frozen yogurt mix, or to low-fat frozen yogurt dessert, which is manufactured from low-fat frozen yogurt mix, or to frozen dairy dessert, which is manufactured from frozen dairy dessert mix, if such products are manufactured in a freezing device from which such products are served directly in a semifrozen state, without packaging of any type, for consumption on the premises in or from rooms where food is served to the public.

All such mixes so used shall be secured from a licensed manufacturer of milk products. Frozen yogurt mix, low-fat frozen yogurt mix, and frozen dairy dessert mix shall be manufactured into a semifrozen state without adulteration and freezing device salvage

shall not be reused as a mix.

The director may by agreement with any approved milk inspection service, authorize such service to inspect and enforce requirements of this code applicable to the establishments covered by this section. Any such agreement shall provide that the approved inspection service shall collect the applicable license fee for such establishments as provided in Section 35221. The fees so collected shall be retained by the approved service to cover its cost of enforcement, provided that 25 percent of the fees collected shall be remitted to the director to cover his cost of administration.

Notwithstanding any other provision of law, any entity authorized to issue a license or certificate pursuant to this code may publicly reprove a licentiate or certificate holder thereof, for any act which would constitute grounds to suspend or revoke a license or certificate. Any proceedings for public reproval, public reproval and suspension, or public reproval and revocation shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

The people of the State of California do enact as follows:

The receipt by a school district of any local property tax revenue which was based on attendance prior to July 1, 1975, of pupils at regional occupational centers or programs, where such attendance included absences as described in subdivision (b) of Section 10953 of the Education Code, as amended by Chapter 277 of the Statutes of 1975, including absences of pupils who were not concurrently enrolled in a regular high school program, is hereby validated and confirmed and no action shall be taken, after the effective date of this act to recover or invalidate the receipt of all or part of such local property tax revenue on the ground that the attendance on which the tax rate was based includes absences of pupils not concurrently enrolled in a regular high school program.

This section shall apply only to the North Orange County Regional Occupational Program.

SEC. 2. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that attendance reporting requirements for the North Orange County Regional Occupational Program shall be clarified and that the program will not be required to return property tax revenues, it is necessary that this act take effect at the earliest possible time.

CHAPTER 888

An act to add Section 155.14 to the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 155.14 is added to the Revenue and Taxation Code, to read:

155.14. Notwithstanding any provision of law to the contrary, the board of supervisors may, by ordinance, provide that every person who at 12:01 a.m. on March 1 had a possessory interest in land owned by the state or federal government or who acquired such interest after such date and is liable for the taxes thereon for the fiscal year commencing immediately following July 1 and the permit or other right to enter upon the land has been suspended without his fault, because of a misfortune or calamity; may apply for reassessment of such property by delivering to the assessor a written application showing the condition and value, if any, of the possessory interest immediately before and after the suspension. The damage to the interest must be shown in the application to be in excess of five thousand dollars ($5,000). The application shall be executed under penalty of perjury, or if executed outside the State of California, verified by affidavit.

Upon receiving a proper application, the assessor shall verify the amounts claimed on the application in the before and after condition. The assessor shall then compute a percentage relationship of loss and reduce the current assessed value by that percentage. The assessor shall notify the applicant in writing of the amount of the proposed reassessment. The notice shall state that the applicant may appeal the proposed reassessment to the local board of equalization within 14 days of the date of mailing the notice If an appeal is requested within the 14-day period, the board shall hear and decide the matter as if the proposed reassessment had been entered on the roll as an assessment made outside the regular assessment period. The decision

of the board regarding the value of the suspended permit shall be final, provided that a decision of the local board of equalization regarding any reassessment made pursuant to this section shall create no presumption as regards the value of the affected property subsequent to the date of the suspension.

If the amount of damage, as verified by the assessor, is not at least five thousand dollars ($5,000), no adjustment shall be made to said roll and no taxes shall be canceled or refunded. The reassessments resulting from those reductions, as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, said reassessments shall not be subject to review except by a court of competent jurisdiction.

The reassessments resulting from those reductions, as determined above, shall be forwarded to the auditor by the assessor or the clerk of the board, as the case may be. The auditor shall enter the reassessed values on the roll. After being entered on the roll, such reassessments shall not be subject to review except by a court of competent jurisdiction.

The tax rate fixed for property on the roll on which the property so reassessed appeared at the time of its original assessment shall be applied to the amount of the reassessment determined in accordance with this section. In the event that the resulting figure is less than the tax theretofore computed, the tax shall be determined as follows:

(a) With respect to property on the secured roll a prorated portion of the tax due on the property as originally assessed at the rate established for property on the secured roll for the current fiscal year, such proration to be determined on the basis of the number of months in the year during which the property was in an undamaged condition plus a proration of the tax due on the property as reassessed in its damaged or destroyed condition at the rate established for property on the secured roll for the balance of the fiscal year.

(b) With respect to property on the unsecured roll, he shall be liable for a prorated portion of the tax computed on the original assessment of the property and a prorated portion of the tax computed on the reassessment of the property as determined in the preceding paragraph.

Any tax paid in excess of the total tax due shall be refunded to the taxpayer pursuant to Chapter 5 (commencing with Section 5096) of Part 9 of this division, as an erroneously collected tax or by order of the board of supervisors without the necessity of a claim being filed pursuant to Chapter 5.

The assessment of the property, in its damaged condition, as determined by this section, shall be reviewed at the lien date next following the date of the misfortune or calamity and shall be assessed in the same manner as prescribed by law for any other assessable property.

As used in this section, "damage" means a possessory interest in land owned by the state or federal government wherein the permit

or other right to use the land has been suspended because of a misfortune or calamity such as the drought condition in California.

This section applies to all counties, whether operating under a charter or under the general laws of this state.

This section shall not be operative in any county unless Section 155.13 of this code is operative in such county.

SEC. 2. Notwithstanding Section 2229 of the Revenue and Taxation Code, no appropriation is made by this act and the state shall not reimburse any local agency for any property tax revenues lost by it under this act.

SEC. 3. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the provisions of this act to be effective in the current year, it is necessary that this act take effect immediately.

CHAPTER 889

An act to amend Section 116.4 of, and to add Section 120.4 to, the Code of Civil Procedure, and to amend Section 1306 of the Penal Code, relating to courts.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 116.4 of the Code of Civil Procedure is amended to read:

116.4. (a) An action shall be commenced by the plaintiff's filing, in person or by mail with the judge or clerk of the small claims division, a claim under oath setting forth: the name and address of the defendant; the amount and the basis of the claim; and that the plaintiff has demanded payment and, in applicable cases, the possession of the property; that the defendant has failed or refused to pay, and where applicable, has refused to surrender the premises; and that the plaintiff understands that the judgment on his claim will be conclusive without right of appeal by him.

(b) The judge or clerk shall thereupon do either of the following:

(1) The judge or clerk shall (i) sign an order directing a defendant who resides within the county in which the action is filed, to appear on a hearing date not more than 40 days nor less than 10 days from the date of the order or, if the defendant resides outside of the county

in which the action is filed, to appear on a hearing date not more than 70 days nor less than 30 days from the date of the order, (ii) cause a copy of any claim and order to be mailed to him by any form of mail providing for a return receipt, or served upon him in the manner authorized by law for the service of a summons, and (iii) inform the plaintiff of a specified hearing date and direct him to appear on that date with witnesses and documents to prove his claim.

(2) The judge or clerk shall (i) cause a copy of any claim to be mailed to the defendant by any form of mail providing for a return receipt or served upon him in the manner authorized by law for the service of a summons, (ii) upon proof of service in accordance with subparagraph (i), sign an order setting a hearing date for a defendant who resides within the county in which the action is filed of not more than 40 days nor less than 10 days from the date of receipt of proof of service or, if the defendant resides outside of the county in which the action is filed, a hearing date of not more than 70 days nor less than 30 days from the date of receipt of service, (iii) cause a copy of the order setting the hearing date and directing the defendant to appear on such date to be served upon the defendant as provided in subparagraph (i), and (iv) cause a copy of the order setting the hearing date and directing the plaintiff to appear on such date with witnesses and documents to prove his claim to be served upon the plaintiff as provided in subparagraph (i). Service shall be deemed complete on the date of personal service, or on the date that the defendant signs the mail return receipt, or 10 days after the mailing required by Section 415.20, or upon the presentation of other competent evidence to the court, whichever is applicable. If, in the case of paragraph (1) of this subdivision, the service of the claim and order upon the defendant is not completed at least five days prior to the hearing date where the defendant resides within the county in which the action is brought, or at least 15 days prior to the hearing date where the defendant resides outside the county in which the action is brought, the court shall not proceed on the hearing date, unless the defendant personally appears and does not request a continuance. The plaintiff in such case may apply to the judge or the clerk for a new order setting a new date for the hearing, unless the defendant has personally appeared and requested a continuance, in which case no further service of the claim and order upon him shall be required, but the court must, upon the defendant's request, continue the date of the hearing for not less than 10 days.

SEC. 2. Section 116.4 of the Code of Civil Procedure is amended to read:

116.4. (a) An action shall be commenced by the plaintiff's filing, in person or by mail with the judge or clerk of the small claims division, a claim under oath setting forth: the name and address of the defendant; the amount and the basis of the claim; and that the plaintiff has demanded payment and, in applicable cases, the possession of the property; that the defendant has failed or refused to pay, and where applicable, has refused to surrender the premises;

and that the plaintiff understands that the judgment on his claim will be conclusive without right of appeal by him.

(b) The judge or clerk shall thereupon do either of the following:

(1) The judge or clerk shall (i) sign an order directing a defendant who resides within the county in which the action is filed, to appear on a hearing date not more than 40 days nor less than 10 days from the date of the order or, if the defendant resides outside of the county in which the action is filed, to appear on a hearing date not more than 70 days nor less than 30 days from the date of the order, (ii) cause a copy of the claim and order to be mailed to the defendant by any form of mail providing for a return receipt, or cause a copy to be delivered to defendant in person, and (iii) inform the plaintiff of a specified hearing date and direct him to appear on that date with witnesses and documents to prove his claim.

(2) The judge or clerk shall (i) cause a copy of any claim to be mailed to the defendant by any form of mail providing for a return receipt or cause a copy to be delivered to defendant in person, (ii) upon proof of service in accordance with subparagraph (i), sign an order setting a hearing date for a defendant who resides within the county in which the action is filed of not more than 40 days nor less than 10 days from the date of receipt of proof of service or, if the defendant resides outside of the county in which the action is filed, a hearing date of not more than 70 days nor less than 30 days from the date of receipt of service, (iii) cause a copy of the order setting the hearing date and directing the defendant to appear on such date to be served upon the defendant as provided in subparagraph (i), and (iv) cause a copy of the order setting the hearing date and directing the plaintiff to appear on such date with witnesses and documents to prove his claim to be served upon the plaintiff as provided in subparagraph (i).

Service by such methods shall be deemed complete on the date of personal service, or on the date that the defendant signs the mail return receipt, or upon the presentation of other competent evidence to the court, whichever is applicable. Service of a copy of the claim and order may also be made and shall be complete, as provided in subdivision (a) or (b) of Section 415.20 of this code, without requirement for attempted service by either of the methods above provided, and shall be complete as provided in Section 415.20. Service to be valid must be made within this state. If, in the case of paragraph (1) of this subdivision, the service of the claim and order upon the defendant is not completed at least five days prior to the hearing date where the defendant resides within the county in which the action is brought, or at least 15 days prior to the hearing date where the defendant resides outside the county in which the action is brought, unless the defendant personally appears and does not request a continuance, the court shall continue the date for the hearing for at least 10 days, and shall cause notice thereof by first-class mail to be served on any defendant who has been served but did not personally appear.

SEC. 3. Section 120.4 is added to the Code of Civil Procedure, to read:

120.4. The Judicial Council may provide by rule for such court attachés and employees, in addition to the number provided for by statute or by rule under Sections 121.3 and 121.8, as are necessary to implement the provisions of this chapter.

SEC. 3.5. Section 1306 of the Penal Code is amended to read:

1306. When any bond is forfeited and the period of time specified in Section 1305 has elapsed without the forfeiture having been set aside, the court which has declared the forfeiture, regardless of the amount of the bail, shall enter a summary judgment against each bondsman named in the bond in the amount for which the bondsman has bound himself.

If, because of the failure of any court to promptly perform the duties enjoined upon it pursuant to this section, summary judgment is not entered within 90 days after the date upon which it may first be entered, the right to do so expires and the bail is exonerated.

A dismissal of the complaint, indictment or information after the default of the defendant shall not release or affect the obligation of the bail bond or undertaking.

Within five days after the summary judgment becomes final, the district attorney or civil legal adviser of the board of supervisors shall demand immediate payment of the judgment. If the judgment remains unpaid for a period of 10 days after demand has been made, he shall forthwith cause a writ of execution to issue and be levied upon the property of the judgment debtor, and shall take any other steps necessary to collect the judgment.

The right to enforce a summary judgment entered against a bondsman pursuant to this section shall expire two years after the entry of the judgment.

SEC. 4. It is the intent of the Legislature, if this bill and Assembly Bill No. 317 are both chaptered and become effective on or before January 1, 1978, both bills amend Section 116.4 of the Code of Civil Procedure, and this bill is chaptered after Assembly Bill No. 317, that Section 116.4 of the Code of Civil Procedure, as amended by Section 1 of Assembly Bill No. 317, be further amended on the effective date of this act in the form set forth in Section 2 of this act to incorporate the changes in Section 116.4 proposed by this bill. Therefore, if this bill and Assembly Bill No. 317 are both chaptered and become effective on or before January 1, 1978, both amend Section 116.4, and Assembly Bill No. 317 is chaptered before this bill, Section 2 of this act shall become operative on the effective date of this act and Section 1 of this act shall not become operative.

CHAPTER 890

An act to amend Sections 13201.5 and 13352.5 of, and to add Section 23102.1 to, the Vehicle Code, and to add Article 5 (commencing with Section 19975.01) to Chapter 1 of Division 11 of the Welfare and Institutions Code, relating to public offenses.

[Approved by Governor September 16, 1977. Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 13201.5 of the Vehicle Code is amended to read:

13201.5. A court may suspend the privilege of any person to operate a motor vehicle, for a period not exceeding six months, upon conviction of driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug.

SEC. 2. Section 13352.5 of the Vehicle Code is amended to read:

13352.5. (a) The department may not suspend or revoke, pursuant to subdivision (a), (c), or (e) of Section 13352 or any other provision of law, the privilege of any person to operate a motor vehicle upon a conviction or finding that the person was driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug, if the court has certified to the department that such person has consented to participate for at least one year, and is participating, in a manner satisfactory to the court, in a public or private program for the supervision of such persons and the treatment of their problem drinking or alcoholism pursuant to the provisions of Article 5 (commencing with Section 19975.01) of Chapter 1 of Division 11 of the Welfare and Institutions Code.

(b) All abstracts of record showing such a conviction that are forwarded to the department pursuant to Section 1803 shall indicate whether the person convicted has consented to participate, and is participating, in such a program.

SEC. 3. Section 23102.1 is added to the Vehicle Code, to read:

23102.1. Notwithstanding the requirements of subdivision (e) of Section 23102, the court may suspend execution of the sentence, as to the imprisonment of any person convicted for a second offense under Section 23102 if the person has consented to participate, for at least one year and in a manner satisfactory to the court, in a program approved pursuant to Article 5 (commencing with Section 19975.01) of Chapter 1 of Division 11 of the Welfare and Institutions Code and the court has referred the person to such a program. If at any time the person is found by the court to have failed to comply with the rules and regulations of the program or does not successfully complete the program, the court shall revoke such suspension or shall revoke and terminate probation, or both, and shall proceed in the manner provided in subdivision (c) of Section 1203.2 of the Penal Code.

SEC. 4. Article 5 (commencing with Section 19975.01) is added to Chapter 1 of Division 11 of the Welfare and Institutions Code, to read:

Article 5. Treatment for Drinking Drivers

19975.01. (a) As an alternative to the provisions of law relating to suspension of a person's privilege to operate a motor vehicle upon conviction for driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug, as set forth in Section 13201.5 and subdivisions (a), (c), and (e) of Section 13352 of the Vehicle Code, a court may refrain from suspending such privilege and the Department of Motor Vehicles may not suspend or revoke such privilege because of such a conviction if the person convicted of that offense has consented to participate, for at least one year and in a manner satisfactory to the court, in a program for the supervision of such persons and for treatment of their problem drinking or alcoholism that is approved pursuant to this article.

(b) In determining whether to refer such a person to an approved program, the court may consider any relevant information about the person made available pursuant to a presentence investigation or other screening procedure. No such information may be furnished, however, by any person who also provides services in a privately operated, approved program or who has any direct interest in a privately operated, approved program. In addition, the court shall obtain from the Department of Motor Vehicles a copy of the person's driving record to determine whether the person is eligible to participate in an approved program pursuant to the provisions of this article.

(c) The court may refer persons only to approved programs. If an approved program does not exist in the county on the date of conviction of the person and if the county does not have an agreement pursuant to Section 19975.11 to allow referral of persons to approved programs located in another county, the provisions of Section 13352 of the Vehicle Code shall apply.

(d) The court may refer a person to an approved program, even though the person's privilege to operate a motor vehicle is suspended or revoked, if the period of suspension or revocation will terminate within six months after the person's commencement of participation in the program.

(e) As used in this article, "program" means all the elements of the program described in the amendment to the county alcoholism program budget submitted pursuant to subdivision (c) of Section 19975.07.

19975.02. (a) In utilizing any such program, the court shall require periodic reports concerning the performance of each person referred to and participating in a program and the immediate report

of any failure of any such person to comply with the program's rules and regulations. If, at any time after referral to or while participating in a program, a participant fails to comply with the rules and regulations of the program, the court, upon finding such fact, shall immediately suspend, or order suspension or revocation of, the privilege of such person to operate a motor vehicle for the period prescribed by law.

(b) If, at any time after referral to or while participating in a program, a participant refuses, for any reason, to consent to a chemical test that he or she is required to submit to pursuant to Section 13353 of the Vehicle Code, his or her participation in the program shall be terminated and the Department of Motor Vehicles shall immediately suspend or revoke his or her privilege to operate a motor vehicle for the period prescribed in Section 13352 of the Vehicle Code, according to the offense for which he or she was convicted immediately prior to referral to the program. Such period of suspension or revocation shall be in addition to the period of suspension imposed by the Department of Motor Vehicles pursuant to Section 13353 of the Vehicle Code.

(c) In the event the office withdraws approval of a program, the Department of Motor Vehicles shall suspend or revoke, for the period prescribed by law, the privilege to operate a motor vehicle of every person previously participating in the program who does not commence participation, in a manner satisfactory to the court, in an approved program within 21 days after the date approval was withdrawn from the previous program.

(d) In addition to any other condition of probation, the court shall have the discretion to determine whether any person desiring to participate in a program shall be required to furnish proof of ability to respond in damages, as defined in Section 16430 of the Vehicle Code, as a condition to participation in the program.

19975.03. The court, upon convicting a person of driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug, shall transfer jurisdiction of all postjudgment matters in the case to the court in the county where such person resides for further proceedings pursuant to this article if the court finds that such person has consented to participate in the an approved program in, or closer to, his county of residence in a manner satisfactory to the court. The office shall establish reporting procedures for transfers of jurisdiction pursuant to this section in order to assure effective implementation of this section. Upon receiving notice that a person has not commenced participation, in a manner satisfactory to the court to which jurisdiction has been transferred, in an approved program within 21 days after the date of conviction, excluding any days of imprisonment served by such person pursuant to sentence imposed for conviction for such offense, the Department of Motor Vehicles shall suspend or revoke the person's privilege to operate a motor vehicle for the period prescribed by law.

19975.04. No person may be admitted or readmitted into a program for the supervision and treatment of problem drinking or alcoholism pursuant to this article until four years after such person ceases his or her prior participation in such a program. The four-year period shall commence either on the date the court orders the suspension or revocation of such person's privilege to operate a motor vehicle pursuant to Section 19975.02 or on the date such person successfully completes the program, whichever is later. With respect to any person arrested for the offense of driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug subsequent to the commencement of a four-year period, such person's eligibility to participate in the program again shall be determined on the basis of the date on which such person is alleged to have committed that offense.

19975.05. (a) The office shall have sole authority to approve programs pursuant to this article. No program, regardless of how it is funded, may be approved unless it meets the standards established by the office, which shall include, but need not be limited to, the following:

(1) Each program shall provide for close and regular supervision of the person, including face-to-face interviews at least once every other calendar week, regarding the person's progress in the program. Such interviews shall be conducted individually with each person being supervised and shall occur at times during which any group to which such person is assigned is not participating in any other activities of the program.

(2) The office shall approve all fee schedules for such programs and shall require that each program make provision for persons who cannot afford such fees in order to enable such persons to participate. The office shall ensure that such fees are set at amounts which will enable programs to provide adequately for the services required pursuant to this article. Such fees shall be used only for the purposes set forth in this article. The office may not approve any program if the office finds that any element of the administration of the program does not assure the fiscal integrity of the program.

(3) Each program shall include a variety of treatment services for problem drinkers and alcoholics or shall have the capability of referring such persons to, and regularly and closely supervising such persons while in, appropriate treatment services for their problem drinking or alcoholism. In addition to the requirements of paragraph (1) of this subdivision, the office shall prescribe in its standards what other services the program shall provide its participants, which services may include lectures, classes, group discussions, individual counseling in addition to the interviews required by paragraph (1), or any combination thereof. However, any class or group discussion, other than lectures, shall not exceed 15 persons at any one meeting.

(4) In order to assure effective treatment and supervision in any program, the office shall require, whenever appropriate, that the program provides services to ethnic minorities, women, youth, or

any other group that has particular needs relating to the program.

(5) The goal of each program shall be to enable the person participating in the program to address successfully his or her alcohol abuse or alcoholism problem, to eliminate any dependence on alcoholic beverages, and to protect the public's health and safety upon the highways.

(b) Each program may be an extension of an existing program or a new program. No such program may be approved, however, unless the county complies with the requirements of Section 19946.

(c) The office shall adopt standards, which it may issue in the form of regulations, in addition to any of the standards set forth in this section in order to assure effective implementation of the procedure established by this article.

19975.06. (a) No person may participate in any program that has not been approved or reapproved by the office pursuant to the standards established pursuant to this article. The office shall reapprove existing programs in the demonstration counties that were selected pursuant to Section 13201.5 of the Vehicle Code, as added by Chapter 1133 of the Statutes of 1975, if such programs meet the standards established pursuant to this article; and no person may participate in any such program until it is reapproved pursuant to this article.

(b) The office may charge a reasonable fee for approval or reapproval of a program. The fee shall be set at a level sufficient to cover all administrative costs of the program incurred by the office and the Department of Motor Vehicles. All such fees received by the office shall be deposited in the General Fund for reimbursing the office and the Department of Motor Vehicles their costs incurred in approving or reapproving programs and their administrative costs, when appropriated for that purpose by the Legislature.

19975.07. (a) The Legislature recognizes that were the office to be charged with monitoring closely the programs established pursuant to this article, it would require significantly increased staff. The Legislature also recognizes that such monitoring by state agencies often is ineffective and misleads the Legislature and public into believing that the state can and has adequately fulfilled such responsibilities. The Legislature also recognizes that the governing body and responsible county staff are much closer to, and more informed about, the daily activities of the programs approved pursuant to this article and about the impact that failure of such programs might have for the citizens of their county. The Legislature also recognizes that if a program is deficient, clients may receive inadequate supervision and treatment and may therefore remain a danger to the public health and safety and a burden to themselves, their family, and the community. Therefore, the Legislature places the major responsibility for assuring programmatic and fiscal integrity of each program with the governing body of each county utilizing a program pursuant to this article.

(b) The governing body shall delegate to the alcoholism

administrator, pursuant to the provisions of Article 2 (commencing with Section 19920), the responsibility to assure compliance with the standards of the office by any program designated by the county for operation therein and approved by the office. In any county in which such an administrator has not been appointed, the head of the health-related agency or department designated pursuant to Section 19923 shall assume the duties of the alcoholism administrator and administer the program pursuant to the provisions of this article.

(c) The alcoholism administrator shall submit to the governing body a description of each program to be utilized in the county in the form of a proposed amendment to the county alcoholism program budget required by Article 3 (commencing with Section 19940). Prior to such submission, the advisory board shall review the proposal, and its comments shall be included in the submission to the governing body. If the governing body approves the amendment, it shall submit the amendment to the office for approval. The office shall approve the amendment if it finds that the program meets the requirements of this article. The office may approve a program on a provisional basis.

(d) In addition to the provisions of Section 19927, no person may serve as a member of the advisory board who is an employee, director, or member of any advisory body, or holds any similar position or title on a compensated or noncompensated basis in any program which seeks or possesses approval pursuant to this article.

19975.08. (a) The alcoholism administrator, or the advisory board acting through the alcoholism administrator, shall inform the governing body immediately if it is determined that any program is not meeting the standards established by the office. The governing body shall immediately notify the office, which, if it finds that such program does not meet such standards or cannot meet such standards within 30 days of notice by the office, shall withdraw approval of the program.

(b) If the office modifies any of its standards, the alcoholism administrator shall assure within a time period established by the office that each program within his or her county has met such standards. The office shall withdraw approval of any program that does not at any time meet the standards established by the office.

(c) The alcoholism administrator, chief probation officer, the director, or their authorized representatives may enter, in a nondisruptive manner, any class, lecture, group discussion, or any other program element to observe such activities.

(d) Within its staff and time limitations, the office may require reapproval of all programs on a periodic basis commencing January 1, 1979, and may charge a fee pursuant to Section 19975.06 for such reapproval.

(e) Notwithstanding the provisions of subdivision (a) of Section 19975.07, the office may audit, or contract for the auditing of, any approved program.

19975.09. (a) The office shall authorize each alcoholism

administrator to retain, in an amount to be specified by the office, a portion of the fees charged for participation in the program that is sufficient to reimburse the county for the costs and expenses which the administrator reasonably incurs in discharging his or her duties pursuant to this article.

(b) A county may not use for any purpose set forth in this article any funds allocated to it by the office pursuant to Article 4 (commencing with Section 19960). The governing body may authorize the use of any other funds for any such purpose.

19975.10. As an element of the program, the probation department may provide any of the face-to-face interviews required pursuant to paragraph (1) of subdivision (a) of Section 19975.05 and may supplement any of the other services required to be provided by a program. The participation of the probation department shall be described in the amendment to the county alcoholism program budget.

19975.11. The Legislature encourages all counties to utilize the procedure described in this article, but recognizes that it is not feasible for every county to establish its own programs. Accordingly, two or more counties may jointly establish programs pursuant to subdivision (b) of Section 19920 of this code or Article 1 (commencing with Section 6500) of Chapter 5 of Division 7 of Title 1 of the Government Code or may furnish by contract such program services to residents of another county pursuant to Section 19933 of this code. The governing body of the county in which the program is located shall be responsible for assuring the integrity of the program as required pursuant to subdivision (a) of Section 19975.07.

19975.12. The office, in cooperation with the Department of Motor Vehicles, shall establish uniform statewide reporting procedures and forms for the submission of any appropriate documents or information from governing bodies, alcoholism administrators, administrators of programs, and program participants to assure effective implementation of this article.

19975.13. The Legislature finds and declares that, in order to provide for orderly and effective implementation of this article, to prevent the courts and programs in each county from being overburdened at the commencement of the implementation of this article, and to protect the public health and safety, this article shall apply only on a prospective basis. Therefore, this article shall apply only to persons either (a) who are alleged to have committed the offense of driving while under the influence of intoxicating liquor or under the combined influence of intoxicating liquor and any drug on or after January 1, 1978, and are subsequently convicted, for that offense or (b) who are alleged to have committed that offense on or after the date when a program, to which such a person may be referred by the court upon conviction for that offense, has been approved by the office, and are subsequently convicted for that offense, whichever date is later.

SEC. 5. The Office of Alcoholism and the Department of Motor

Vehicles jointly shall submit a report to the Legislature on December 1, 1978, regarding the implementation of this act. The report shall include, but not be limited to, an evaluation of the four-county demonstration program established pursuant to Chapter 1133 of the Statutes of 1975, the relationship of first offender programs to the program authorized under this act, and any relevant recommendations.

SEC. 6. This act does not involve any costs mandated by the state, as defined in Section 2207 of the Revenue and Taxation Code, because this act does not require any county to establish a program pursuant to this act and because this act authorizes a revenue source that counties may use for reimbursement of costs which they incur in carrying out programs pursuant to this act that they wish to establish.

CHAPTER 891

An act to add Section 11180.5 to the Government Code, relating to criminal investigations.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 11180.5 is added to the Government Code, to read:

11180.5. At the request of a prosecuting attorney or the Attorney General, any state agency, bureau, or department may assist in conducting an investigation of any unlawful activity which involves matters within or reasonably related to the jurisdiction of such agency, bureau, or department. Such an investigation may be made in cooperation with the prosecuting attorney or the Attorney General.

CHAPTER 892

An act to add and repeal Chapter 5 (commencing with Section 18290) of Part 6 of Division 9 of the Welfare and Institutions Code, relating to domestic violence, and making an appropriation therefor.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 18290) is added to Part 6 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 5. DOMESTIC VIOLENCE PILOT PROJECT CENTER

18290. The Legislature hereby finds and declares that there is a present and growing need to develop innovative strategies and services which will ameliorate and reduce the trauma of domestic violence. There are hundreds of thousands of persons in this state who are regularly beaten. In many such cases, the acts of domestic violence lead to the death of one of the involved parties. Victims of domestic violence come from all socioeconomic classes and ethnic groups, though it is the poor who suffer most from marital violence, since they have no immediate access to private counseling and shelter for themselves and their children. Children, even when they are not physically assaulted, very often suffer deep and lasting emotional effects, and it is most often the children of those parents who commit domestic violence that continue the cycle and abuse their spouses.

The Legislature further finds and declares that there is a high incidence of deaths and injuries sustained by law enforcement officers in the handling of domestic disturbances. Police arrests for domestic violence are low, and victims are reluctant to press charges or make citizens arrests. Furthermore, instances of domestic violence are considered to be the single most unreported crime in the state.

It is the intention of the Legislature to begin to explore and determine ways of achieving reductions in serious and fatal injuries to the victims of domestic violence and begin to clarify the problems, causes, and cures of domestic violence. In order to achieve these results, it is the intention of the Legislature that the state shall initiate demonstration projects in several areas throughout the state for the purpose of aiding victims of domestic violence by providing them a place to escape the destructive environment. It is further the intent of the Legislature that the projects receive sufficient state funds to serve as seed money or matching money to assist the centers in obtaining further support from other public or private sources.

18291. This chapter shall be implemented in at least four different areas throughout the state, on a demonstration basis as specified in Section 18292, during the period from January 1, 1978, through June 30, 1980. The State Department of Health shall choose the projects to be funded no later than April 1, 1978, from those which apply and are determined to be eligible for participation.

18292. (a) The Director of Health, in consultation with individuals and groups with experience and knowledge of the problems of domestic violence, shall contract with public or private nonprofit agencies to establish not less than four nor more than six project centers for victims of domestic violence.

(b) At least one center shall be established in northern California, at least one center shall be established in central California, and at least one center shall be established in southern California. If more than one center is established in an area, at least one of the centers shall be located in a rural area and at least one of the centers shall be located in an urban area.

18293. In order to be eligible for funding pursuant to this chapter, the centers shall demonstrate their ability to receive and make use of any funds available from governmental, voluntary, philanthropic, or other sources which may be used to augment any state funds appropriated for the purposes of this chapter. Each center shall make every attempt to qualify the center for any available federal funding.

State funds provided to establish centers shall be utilized to expand the center's program and shall not be expended to reduce the fiscal support from other public or private sources.

18294. Such centers shall be designed to provide the following basic services to victims of domestic violence and their children:

(a) Shelter on a 24 hour-a-day, seven days a week basis;

(b) 24 hours-a-day, seven days a week switchboard for crisis calls;

(c) Temporary housing and food facilities;

(d) Psychological support and peer counseling;

(e) Referrals to existing services in the community and followup on the outcome of the referrals;

(f) A day program or drop-in center to assist victims of domestic violence who have not yet made the decision to leave their homes, or who have found other shelter but who have a need for support services;

(g) Arrangements for school age children to continue their education during their stay at the center; and

(h) Emergency transportation to the shelter, and when appropriate, arrangements with local law enforcement for assistance in providing such transportation.

18295. In addition to the services required in Section 18294, to the extent possible, and in conjunction with already existing community services, the centers shall provide a method of obtaining the following services for the victims of domestic violence:

(a) Medical care;

(b) Legal assistance;

(c) Psychological support and counseling; and

(d) Information regarding reeducation, marriage and family counseling, job counseling and training programs, housing referrals and other available social services.

18296. The staff of the centers shall work with social service agencies, schools, and law enforcement agencies in an advocacy capacity for those served by the centers.

18297. The staff of each center shall attempt to achieve community support and acceptance of the center by advocating the center to community representatives and groups within the community. Volunteers shall be trained and used to maximum

capacity in the delivery of services.

18298. Inasmuch as the centers are to serve a variety of cultural backgrounds, to the extent feasible a portion of the program's personnel shall be bilingual. An effort shall be made to recruit formerly battered spouses as staff members.

18299. The centers shall maintain quarterly and final fiscal reports in a form to be prescribed by the State Department of Health.

18300. (a) The State Department of Health, in consultation with the centers funded under this chapter, shall design a standard intake and followup document to be used by the centers on all persons appearing for services. Such document shall include, but not be limited to, the following information:

(1) Socioeconomic data;

(2) Previous calls for help;

(3) Number of return visits;

(4) A description of the episode of domestic violence and probable causes;

(5) Use of drugs and alcohol;

(6) Source of referral;

(7) Services provided by the center;

(8) Length of stay;

(9) History of domestic violence in family;

(10) Need for followup services; and

(11) Followup services provided by the center.

(b) The information collected on each individual served by the center shall be confidential and shall be released only upon the persons written authorization.

18301. A quarterly report shall be prepared by each center for submission to the State Department of Health. Such report shall include, but not be limited to, the total number of persons requesting services of the centers, the number of persons served in the center by each type of service provided, and a description of the social and economic characteristics of persons receiving services by type of service provided.

18302. On or before October 1, 1979, each center shall prepare and submit to the State Department of Health a final project report, in accordance with criteria established by the Department of Health. The report shall describe the project's effectiveness in carrying out the provisions of Sections 18294 to 18298, inclusive. Such report shall also describe the effectiveness of the center in reducing the incidence of domestic violence to those victims served by the center, and shall describe the costs associated with each type of service provided. The report shall identify and describe the range and type of services required by victims of domestic violence and shall indicate which of these services are being provided by existing agencies within the area and which are not. The report shall identify which existing agency, if any, would be suitable as a domestic violence center if the program were to be continued.

18303. The final project reports submitted by the centers shall

serve as the basis for a report to be filed by the State Department of Health to the Legislature on or before January 1, 1980. This report shall summarize the reports submitted by the centers, after validating the data included in such reports, and shall make recommendations regarding the extent to which the centers assisted the victims in resolving the problems associated with domestic violence, the need for additional legislation, funding, data collection, and any other actions which can be taken by the state to prevent, reduce, or alleviate the effects of domestic violence.

SEC. 2. The sum of two hundred eighty thousand dollars ($280,000) is hereby appropriated from the General Fund to the State Department of Health for use during the period January 1, 1978, through June 30, 1980, to be allocated as follows:

(a) Thirty thousand dollars ($30,000) for professional staff in the State Department of Health in order to effectively implement the provisions of Chapter 5 (commencing with Section 18290) of Part 6 of Division 9 of the Welfare and Institutions Code; and

(b) Two hundred fifty thousand dollars ($250,000) to fund four to six pilot projects, pursuant to such provisions, commencing April 1, 1978.

SEC. 3. This act shall remain in effect only until June 30, 1980, and as of such date is repealed, unless a later enacted statute, which is chaptered before June 30, 1980, deletes or extends such date.

CHAPTER 893

An act to amend Section 27471 of the Government Code, relating to embalming fees.

[Approved by Governor September 16, 1977 Filed with Secretary of State September 17, 1977]

The people of the State of California do enact as follows:

Any family, however, which has not been located within 24 hours of his custody of the body, shall not be charged more than thirty dollars ($30).

The board of supervisors shall by ordinance establish the fee to be charged pursuant to this section.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

[Approved by Governor September 17, 1977. Filed with Secretary of State September 17, 1977]

I am deleting the $30,000,000 appropriation contained in Section 77 of Assembly Bill No. 65 for the proposed new "variable cost" program

The criteria and methodology for determining eligibility and the justification for funding under this concept needs further analysis and testing The Superintendent of Public Instruction has contracted with the Education Commission of the States through available federal funds to conduct a study of "Variable Costs" to be completed by July 1978 I am deleting the appropriation pending the completion of this study

In Section 54058, I am eliminating $7,700,000 from subdivision (a); $7,700,000 from the Program Maintenance portion of subdivision (b); and reducing by $7,700,000 the Program Maintenance portion of subdivision (c). These reductions are being made to avoid a double-funding which resulted when Section 85 of Chapter 323, Statutes of 1976 was not repealed by this bill This corrects that technical error in the drafting of the bill

With these reductions, I approve Assembly Bill No 65

EDMUND G BROWN JR., Governor

The people of the State of California do enact as follows:

SECTION 1. Section 2507.7 is added to the Education Code, to read:

2507.7. (b) If at the end of any fiscal year the actual expenditures specified in subdivision (a) are less than the revenue derived from the increase in maximum tax rate, provided in subdivision (a) for that fiscal year the difference shall be used in the following fiscal year exclusively for expenditures required pursuant to Section 23400.

(4) The resulting local share is the teachers' retirement revenue limit adjustment.

(b) If, in any year, the salary schedule increases provided for employees who are members of the State Teachers' Retirement System exceeds the percentage increase in the foundation program in Section 41718, the revenue limit adjustment for teachers' retirement shall be reduced by the amount that the increased retirement contribution is attributable to the salary schedule increase in excess of the foundation program. Districts whose revenue limit adjustment for teachers' retirement is reduced shall report at the annual budget hearing the amount of the reduction and its impact on the district's revenue limit.

The Superintendent of Public Instruction shall prescribe procedures necessary to carry out the provisions of this section.

The Superintendent of Public Instruction shall on or before June 25th of each year apportion to each elementary school district, high school district, county school service fund, and county school tuition fund the total amounts allowed to them under Sections 14054, 14057, 14058, 41790, 41800, 41810, 41811, 41840, 41841, 41863, 41866, 41882, 41884, 41885, 41886, 41888, 41950, 41970, 41971, 42004, 42005, 42054, 42055, 42056, and 52205, whichever are in effect. This apportionment shall be called the second principal apportionment.

SEC. 14. Section 41716 of the Education Code is repealed.

SEC. 15. Section 41716.5 of the Education Code is repealed.

SEC. 16. Section 41718 of the Education Code is amended to read:

41718. (a) For the 1976–77 fiscal year, each elementary school foundation program shall be increased by one hundred three dollars

($103) and each high school foundation program shall be increased by one hundred four dollars ($104).

(b) For the 1977–78 fiscal year, each elementary school and each high school foundation program shall be increased by seventy-five dollars ($75).

(c) For the 1978–79 fiscal year, each elementary school and each high school foundation program shall be increased by one hundred fifty-four dollars ($154).

(d) For the 1979–80 fiscal year, each elementary school and each high school foundation program shall be increased by one hundred nineteen dollars ($119).

(e) For the 1980–81 fiscal year and fiscal years thereafter, the increase in elementary and high school foundation programs shall be 6 percent times an amount which is determined as follows: (1) Multiply the unit elementary school foundation program for unified districts which have an elementary average daily attendance of 901 or more by the elementary foundation program units of average daily attendance of unified districts with 901 or more elementary average daily attendance, plus (2) multiply the unit high school foundation program for unified districts which have a high school average daily attendance of 301 or more, by the average daily attendance of unified school districts with 301 or more high school daily attendance, and (3) divide the results by the sum of the average daily attendance in unified districts with 901 or more elementary average daily attendance plus the average daily attendance in unified districts with 301 or more high school average daily attendance.

SEC. 16.5. Section 41718.5 is added to the Education Code, to read:

41718.5. For the 1977–78 fiscal year the Superintendent of Public Instruction shall apportion to each school district which during the 1976–77 fiscal year had a base revenue limit equal to or less than 120 percent of the foundation program for the 1976–77 fiscal year and which during the 1977–78 fiscal year receives equalization aid pursuant to Section 41810 or Section 41811, or would have received equalization aid had it not been subject to the areawide foundation program pursuant to the provisions of Section 41750, an amount computed as follows:

(a) Multiply the factor computed pursuant to subdivision (b) of Section 42238 by forty-five dollars ($45).

(b) Multiply the product computed pursuant to subdivision (a) by the estimated foundation program average daily attendance of the budget year.

For districts which have a revenue limit in excess of 120 percent of the 1976–77 foundation program the amount in subdivision (a) shall be three dollars ($3), and such computed amounts shall be apportioned to such districts.

The amount computed pursuant to this section shall be apportioned during the 1977–78 fiscal year as if it were part of the

first and second principal apportionments.

For the 1978–79 fiscal year revenue limits pursuant to Section 42238 shall be computed as if the 1977–78 fiscal year foundation program included an additional forty-five dollars ($45) and 1977–78 fiscal year revenue limits were computed on that basis, and the 1978–79 fiscal year foundation program increase was one hundred nine dollars ($109).

Notwithstanding any other provision of the law to the contrary school district governing boards may budget and expend funds apportioned pursuant to this section during the 1977–78 fiscal year.

SEC. 17. Section 41761.3 is added to the Education Code, to read:

41761.3. Commencing with the 1978–79 fiscal year, on or before July 15 of each fiscal year, the Superintendent of Public Instruction shall estimate the computational tax rates to the nearest one cent ($0.01) per one hundred dollars ($100) of assessed valuation, which if levied statewide, would raise sufficient local revenues to maintain the state share of the estimated total of the elementary foundation program and the state share of the estimated total of the high school foundation program in the 1977–78 fiscal year including funds apportioned pursuant to Section 41841 for equalization aided school districts in the then current fiscal year. These tax rates shall be used as the computational tax rates to determine aid under the foundation program as provided in Section 41761 for purposes of the advance apportionment required under Section 41330.

The Superintendent of Public Instruction shall notify all school districts and county superintendents of schools on or before July 15 of each fiscal year of the estimated computational tax rates and these rates shall be used by school districts in estimating the state aid to be received under the foundation program for that fiscal year in the preparation of their publication budget.

For the 1977–78 fiscal year the funds apportioned pursuant to Section 41718.5 shall be deemed to be part of the 1977–78 foundation program.

SEC. 18. Section 41761.5 is added to the Education Code, to read:

41761.5. On or before February 20 and June 25 of each fiscal year, the Superintendent of Public Instruction shall reestimate the computational tax rates as prescribed in Section 41761.3. These reestimated computational tax rates shall be used in determining the amounts of state aid under the foundation program to be apportioned to school districts for the first principal and second principal apportionments respectively. The computational tax rates as determined by the Superintendent of Public Instruction at the time of the second principal apportionment shall be final and shall be used in any subsequent fiscal year to compute adjustive apportionments for the earlier fiscal year as provided for in Sections 41341, 41342, and 41343.

SEC. 19. Section 41762 of the Education Code is amended to read:

41762. The Superintendent of Public Instruction shall compute

the areawide aid to be utilized in determining state apportionments to be made for the support of elementary school districts and high school districts with respect to which an areawide foundation program is computed under Article 3 (commencing with Section 41750) of this chapter. Areawide aid shall be the amount which a tax levied on each one hundred dollars ($100) of 100 percent of the assessed valuation for the current fiscal year pursuant to Section 41760.5, modified where necessary pursuant to Section 41201, of the area comprising all of such elementary school districts and all of such high school districts would produce, if levied, if such tax were: (a) in the case of the elementary school district area, one dollar ($1); and (b) in the case of the high school district area, eighty cents ($0.80).

If the Superintendent of Public Instruction finds that the difference obtained by subtracting the areawide aid as computed under the above provisions of this section from the areawide foundation program is less than the product obtained by multiplying the average daily attendance used for foundation program purposes by one hundred twenty dollars ($120), he shall reduce the areawide aid to an amount which, when added to such product, will equal the amount of the areawide foundation program.

SEC. 20. Section 41790 of the Education Code is amended to read:

41790. The Superintendent of Public Instruction shall allow one hundred twenty dollars ($120) to each elementary school district for each unit of average daily attendance therein during the fiscal year as computed for the district under Sections 46117 and 46333, but not less than two thousand four hundred dollars ($2,400) shall be allowed to any elementary school district, to be known as basic state aid.

SEC. 21. Section 41800 of the Education Code is amended to read:

41800. The Superintendent of Public Instruction shall allow to each high school district one hundred twenty dollars ($120) for each unit of average daily attendance in the district during the fiscal year as computed under Sections 46332 and 46350, subject to the provisions of Section 41608, but not less than two thousand four hundred dollars ($2,400) shall be allowed to any high school district, to be known as basic state aid.

The Superintendent of Public Instruction shall exclude from the computation of allowances provided by this section the average daily attendance during the fiscal year of adults, as adults are defined in Section 52610, and of inmates of any state penal institution for adults or of any city, county, or city and county jail, road camp or farm for adults.

SEC. 22. Section 41830 of the Education Code is amended to read:

41830. Notwithstanding the provisions of Articles 5, 6, and 7 (commencing with Sections 41790, 41800, and 41810, respectively) of this chapter, or any other provision of law to the contrary, if the computation made under Article 7 (commencing with Section

41810) of this chapter for any grade level maintained by a district, results in no allowance of equalization aid for such district for such grade level, the amount allowable therefor to such district under said Articles 5, 6, and 7 (commencing with Sections 41790, 41800, and 41810, respectively) of this chapter, per unit of the particular categories of average daily attendance used for such computations, shall be one hundred twenty dollars ($120) per unit of such average daily attendance during the preceding fiscal year.

SEC. 23. Section 41840 of the Education Code is amended to read:

41840. The allowance for each unit of average daily attendance during the 1976–77 fiscal year for adults, as adults are defined in Section 52610, for high school districts shall be the adult foundation program of eight hundred sixty-two dollars ($862) less the product of one dollar ($1) multiplied by each one hundred dollars ($100) of the assessed valuation of the district, as modified pursuant to Section 41201, per unit of total regular high school average daily attendance plus adult average daily attendance. The total of state aid shall not be less than one hundred twenty dollars ($120) per unit of average daily attendance.

For subsequent fiscal years, the adult foundation program shall be the adult foundation program for the previous fiscal year increased by 6 percent.

SEC. 24. Section 41841 of the Education Code is amended to read:

41841. The Superintendent of Public Instruction shall determine the amount of state equalization aid to be added to the regular high school foundation program apportionments for each school district with adult average daily attendance in the 1976–77 fiscal year as follows:

He shall determine the adult average daily attendance used in computing state aid under the high school foundation program in the 1975–76 fiscal year and compute the 1976–77 fiscal year equalization aid according to the high school foundation program for the 1976–77 fiscal year using that 1975–76 fiscal year average daily attendance.

He shall recompute the equalization aid to the high school foundation program with the adult average daily attendance excluded and shall determine the loss of equalization aid due to excluding adult average daily attendance. To this amount he shall add the state equalization aid for defined adults in the 1975–76 fiscal year. He shall compute the state equalization aid for adults pursuant to Section 41840 and shall deduct this amount from the sum of the state equalization aid for defined adults in the 1975–76 fiscal year and the loss of equalization aid due to excluding adults from the high school foundation program. The remainder shall be added to the equalization aid for the high school foundation program for that district in the 1976–77 fiscal year.

If the adult average daily attendance of the current year is less than the comparable adult average daily attendance determined for

1975–76, the current year adult average daily attendance shall be used in lieu of the 1975–76 adult average daily attendance in determining the amount of state equalization aid to be added to the regular high school program. If there is no adult average daily attendance for the current year this section shall not apply.

The Superintendent of Public Instruction shall apportion to each school district which received funds pursuant to this section in the 1977–78 fiscal year an amount equal to 75 percent of such amount in the 1978–79 fiscal year, 57 percent of such amount in the 1979–80 fiscal year, 33 percent of such amount in the 1980–81 fiscal year, and 23 percent of such amount in the 1981–82 fiscal year.

This section shall cease to be operative on July 1, 1982, and as of such date is repealed.

SEC. 25. Section 41950 of the Education Code is amended to read:

41950. The Superintendent of Public Instruction shall allow to each county school tuition fund one hundred twenty dollars ($120) for each unit of average daily attendance of pupils residing in the county and attending school in an adjoining state during the fiscal year. Such average daily attendance shall not be included in the computations provided for in Section 41761.

SEC. 26. Chapter 5.5 (commencing with Section 42000) is added to Part 24 of the Education Code, to read:

CHAPTER 5.5. GUARANTEED YIELD PROGRAM

Article 1. Computations for School Districts

42000. Commencing with the 1978–79 fiscal year, the Superintendent of Public Instruction shall compute an amount of supplemental state support for equalization-aided school districts whose revenue limits per unit of average daily attendance exceed the foundation programs per unit of average daily attendance at either or both the elementary and high school level. The amount so computed shall be based on the actual tax rate levied for revenue limit purposes, and shall be known as the state guaranteed yield supplement.

42001. (a) On or before July 15 of each fiscal year the Superintendent of Public Instruction shall determine the computational tax rates used to compute the state guaranteed yield supplement. These guaranteed yield computational rates shall be determined as follows:

(1) For elementary school districts and for the elementary level of unified school districts, he shall divide the foundation program for elementary school districts specified in paragraph (2) of subdivision (b) Section 41703 as adjusted pursuant to law less basic aid by the product of one one-hundredth (0.01) times the elementary school district computational tax rates used to determine state aid under the foundation program pursuant to Section 41761.3. This quotient shall

then be divided into one dollar ($1) and the quotient derived shall constitute the elementary guaranteed yield computational tax rate.

(2) For high school districts and for the high school level of unified school districts, he shall divide the foundation program for high school districts specified in Section 41712 as adjusted pursuant to law less basic aid by the product of one one-hundredth (0.01) times the high school computational tax rates used to determine state aid under the foundation program pursuant to Section 41761.3. This quotient shall then be divided into one dollar ($1) and the quotient derived shall constitute the high school guaranteed yield computational tax rate.

(b) The guaranteed yield computational tax rates determined pursuant to this section shall be computed to three significant figures.

42002. The state guaranteed yield supplement for elementary school districts and for the elementary level of unified school districts shall be determined as follows:

(a) The foundation program per unit of average daily attendance for elementary school districts or the elementary level of unified school districts as determined pursuant to Article 1 (commencing with Section 41700), Article 2 (commencing with Section 41730), and Article 8.5 (commencing with Section 41835), of Chapter 5 of this part, shall be subtracted from the revenue limit per unit of average daily attendance for the elementary school or the unified school district as a whole as determined pursuant to Education Code Sections 42212, 42238, 42239, 42241, 42241.3, 42243.5, and 42244 for overrides in effect on July 1, 1977, less any adjustment to revenue limits pursuant to item (2) of subdivision (i) of Section 42238.

(b) The difference as determined in subdivision (a) shall be multiplied by the appropriate elementary guaranteed yield computational tax rate determined pursuant to paragraph (1) of subdivision (a) of Section 42001 and the resulting product then multiplied by the modified assessed valuation per unit of elementary average daily attendance of the district.

(c) The product determined in subdivision (b), shall be subtracted from the difference determined in subdivision (a) and this amount shall be the state guaranteed yield supplement per unit of elementary average daily attendance.

If the guaranteed yield supplement per elementary unit of average daily attendance as determined above is calculated to be less than zero, it shall be determined to be zero.

42003. The state guaranteed yield supplement for high school districts and for the high school level of unified school districts shall be determined as follows:

(a) The actual foundation program per unit of average daily attendance for high school districts or the high school level of unified school districts as determined pursuant to Article 1 (commencing with Section 41700), Article 2 (commencing with Section 41730), and Article 8.5 (commencing with Section 41835) of Chapter 5 of this part

and Section 52047, shall be subtracted from the total of the revenue limit per unit of average daily attendance for the high school district or the unified school district as a whole as determined pursuant to Education Code Sections 42212, 42238, 42239, 42241, 42241.3, and 42244, less any adjustment to revenue limits pursuant to item (2) of subdivision (i) of Section 42238.

(b) The difference as determined in subdivision (a) shall be multiplied by the appropriate tax rate determined pursuant to paragraph (2) of subdivision (a) of Section 42001 and the resultant product then multiplied by the modified assessed valuation per unit of high school average daily attendance of the district.

(c) The product determined in subdivision (b) shall be subtracted from the difference determined in subdivision (a) and this amount shall be the state guaranteed yield supplement per unit of high school average daily attendance.

If the guaranteed yield supplement per unit of high school average daily attendance is calculated to be less than zero, it shall be determined to be zero.

42004. The Superintendent of Public Instruction shall allow to each elementary school district or to the elementary level of each unified school district the product of the elementary average daily attendance during the fiscal year and the amount of the guaranteed yield supplement per unit of elementary average daily attendance computed for the district under Section 42002.

42005. The Superintendent of Public Instruction shall allow to each high school district or to the high school level of each unified school district the product of the high school average daily attendance during the fiscal year and the amount of the guaranteed yield supplement per unit of average daily attendance computed for the district under Section 42003.

42006. On or before February 20 and June 25 of each fiscal year, the Superintendent of Public Instruction shall recalculate the computational tax rates used to compute the state guaranteed yield supplement using in his recalculation his reestimate of elementary and high school computational tax rates used to determine state aid under the foundation program as determined pursuant to Section 41761.5.

The recalculated guaranteed yield computational tax rates shall then be used to determine the amount of the state guaranteed yield supplement to be apportioned each school district for purposes of the first and second principal apportionments, respectively.

The guaranteed yield computational rates as determined by the Superintendent of Public Instruction at the time of the second principal apportionment shall be final as to that fiscal year and shall be used in any subsequent fiscal years to compute adjustive apportionments for the earlier fiscal year as provided for in Sections 41341, 41342, and 41343.

42007. (a) The amount transferred to Section A of the State School Fund pursuant to Section 14006 shall be expended in support

of the state guaranteed yield supplement to be apportioned on account of average daily attendance as provided in this chapter.

(b) If the total amount provided for in Section 14006 is less than the apportionments required by this chapter, the apportionments shall be reduced proportionately.

SEC. 27. Chapter 5.7 (commencing with Section 42050) is added to Part 24 of the Education Code, to read:

CHAPTER 5.7. STATE GUARANTEED YIELD SUPPLEMENT FOR TEACHERS' RETIREMENT

42050. The Superintendent of Public Instruction shall compute an amount of state aid for teachers' retirement. The amount so computed shall be known as the state guaranteed yield supplement for teachers' retirement.

(a) On or before July 15 of each fiscal year the Superintendent of Public Instruction shall determine the computational tax rate used to compute the state guaranteed yield supplement for teachers' retirement. These guaranteed yield computational rates shall be determined as follows:

(1) For elementary school districts and for the elementary level of unified school districts, he shall divide the unit foundation program for the then current fiscal year for elementary school districts less basic aid by the product of one one-hundredth (0.01) times the elementary school district computational tax rates used to determine state aid under the foundation program pursuant to Section 41761.3. The result shall be multiplied by 1.125. This quotient shall then be divided into one dollar ($1) and the quotient derived shall constitute the elementary guaranteed yield computational tax rate for teachers retirement.

(2) For high school districts and for the high school level of unified school districts, he shall divide the foundation program for high school districts less basic aid by the product of one one-hundredth (0.01) times the high school computational tax rates pursuant to Section 41761.3. The result shall be multiplied by 1.125. This quotient shall then be divided into one dollar ($1) and the quotient derived shall constitute the high school guaranteed yield computational tax rate for teachers' retirement.

(b) The guaranteed yield computational tax rates determined pursuant to this section shall be computed to three significant figures.

42051. The state guaranteed yield supplement for teachers' retirement for elementary school districts and for the elementary level of unified school districts shall be determined as follows:

(a) The county superintendent of schools shall determine the district contribution per unit of average daily attendance pursuant to Section 23400 less any amount deducted pursuant to subdivision (b) of Section 23401.5.

(b) The amount in subdivision (a) shall be multiplied by the

appropriate elementary guaranteed yield tax rate for teachers' retirement determined pursuant to paragraph (1) of subdivision (a) of Section 42050, and the resulting product then multiplied by the modified assessed valuation per unit of elementary average daily attendance of the district.

(c) The product determined in subdivision (b), shall be subtracted from the difference determined in subdivision (a) and this amount shall be the state guaranteed yield supplement for teachers' retirement per unit of elementary average daily attendance.

If the guaranteed yield supplement for teachers' retirement per elementary unit of average daily attendance as determined above is calculated to be less than zero, it shall be determined to be zero.

42052. The state guaranteed yield supplement for teachers' retirement for high school districts and for the high school level of unified school districts shall be determined as follows:

(a) The county superintendent of schools shall determine the district contribution per unit of average daily attendance pursuant to Section 23400 less any amount deducted pursuant to subdivision (b) of Section 23401.5.

(b) The amount in subdivision (a) shall be multiplied by the appropriate tax rate determined pursuant to paragraph (2) of subdivision (a) of Section 42050 and the resultant product then multiplied by the modified assessed valuation per unit of high school average daily attendance of the district.

(c) The product determined in subdivision (b) shall be subtracted from the difference in subdivision (a) and this amount shall be the state guaranteed yield supplement for teacher's retirement per unit of high school average daily attendance.

If the guaranteed yield supplement for teachers' retirement per unit of high school average daily attendance is calculated to be less than zero, it shall be determined to be zero.

42053. The state guaranteed yield supplement for teachers' retirement for adult average daily attendance shall be determined as follows:

(a) For revenue limits authorized by Section 43001, the amount determined in subdivision (a) of Section 23401.5 less any reduction prescribed by subdivision (b) of Section 23401.5 shall be divided by the adult average daily attendance of the district.

(b) For school districts with adult average daily attendance, the amount determined in subdivision (a) shall be multiplied by the secondary guaranteed yield tax rate for teachers' retirement determined pursuant to paragraph (2) subdivision (a) of Section 42050 and the resulting product then multiplied by the modified assessed valuation per unit of secondary plus adult average daily attendance of the district. The resulting amount shall be subtracted from the amount determined in subdivision (a) and this amount shall be the state guaranteed yield supplement for teachers' retirement per unit of adult average daily attendance.

42054. The Superintendent of Public Instruction shall allow to each elementary school district or to the elementary level of each unified school district the product of the elementary average daily attendance during the fiscal year and the amount of the guaranteed yield supplement for teachers' retirement per unit of elementary average daily attendance computed for the district under Section 42051.

42055. The Superintendent of Public Instruction shall allow to each high school district or to the high school level of each unified school district the product of the high school average daily attendance during the fiscal year and the amount of the guaranteed yield supplement per unit of average daily attendance computed for the district under Section 42052.

42056. The Superintendent of Public Instruction shall allow to each school district with adult average daily attendance, the product of the adult average daily attendance during the fiscal year and the amount of the guaranteed yield supplement for teachers' retirement per unit of adult average daily attendance computed for the district under Section 42053.

42057. On or before February 20 and June 25 of each fiscal year, the Superintendent of Public Instruction shall recalculate the computational tax rates used to compute the state guaranteed yield supplement for teachers' retirement using in his recalculation his reestimate of elementary and high school computational tax rates used to determine state aid under the foundation program.

The recalculated guaranteed yield computational tax rates for teachers' retirement shall then be used to determine the amount of the state guaranteed yield supplement for teachers' retirement to be apportioned each school district for purposes of the first and second principal apportionments, respectively.

The guaranteed yield computational rates for teachers' retirement as determined by the Superintendent of Public Instruction at the time of the second principal apportionment shall be final and shall be used in any subsequent fiscal years to compute adjustive apportionments for the earlier fiscal year.

SEC. 28. Section 42238 of the Education Code is amended to read:

42238. For the 1974–75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to

this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of 301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation program units of average daily attendance of unified districts in the second principal apportionment divided by (3) the sum of the elementary and high school units of average daily attendance of unified districts in the second principal apportionment.

(d) (1) Except as provided in paragraph (2), the inflation adjustment shall be based on the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(2) For districts which have a prior year revenue limit per unit of average daily attendance computed pursuant to subdivision (f) which is in excess of 120 percent of the foundation program prescribed in subdivision (c), the inflation adjustment shall be the amount specified in subdivision (a) of Section 41718, but not greater than 7 percent of the foundation programs specified in subdivision (c).

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

The revenue limit per foundation program unit of average daily attendance for districts subject to the provisions of paragraph (2) of subdivision (d) shall be no less than the revenue limit per foundation program unit of average daily attendance computed for a district at 120 percent of the foundation program.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 1 (commencing with Section 41700) of Chapter 5 of this part, excluding Section 41716, Article 2 (commencing with Section 41730) of Chapter 5 of this part, and subdivision (a) of Section 41840 as adjusted pursuant to subdivision (e) of Section 14002 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the foundation

program level of the district or the prior year revenue limit increased by 15 percent (15%).

For the 1974–75 and 1975–76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874 income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for the mandated increases for district contributions for the State Teachers' Retirement System and as required by Section 23400. Such adjustment, together with any rate levied in any prior year pursuant to Section 23401, shall not exceed the revenue derived by the tax rate provided in Section 23401. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and (2) the income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be

divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

This section shall remain in effect only until such time as legislation becomes operative which appropriates funds for the purposes of Sections 6, 7, 8, 9, 10, 14, 15, 27, 28.5, 29, 40, and 41 of the act of the Statutes of 1977 which amends this section, or takes other statutory action to make such sections operative, and as of such time is repealed.

SEC. 28.5. Section 42238 is added to the Education Code, to read:

42238. For the 1974–75 fiscal year and each fiscal year thereafter, (a) the maximum general purpose tax rate for each elementary, high, and unified school district in the county shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the appropriate foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined by the Superintendent of Public Instruction pursuant to this subdivision. For elementary school districts, it shall be the foundation program for districts which have an average daily attendance of 901 or more. For high school districts it shall be the foundation program for districts with an average daily attendance of 301 or more. For unified districts, it shall be the sum of (1) the foundation program of elementary districts which have an average daily attendance of 901 or more multiplied by the elementary foundation program units of average daily attendance of unified districts in the second principal apportionment, plus (2) the foundation program for high school districts with an average daily attendance of 301 or more multiplied by the high school foundation

program units of average daily attendance of unified districts in the second principal apportionment divided by (3) the sum of the elementary and high school units of average daily attendance of unified districts in the second principal apportionment.

(d) (1) Except as provided in paragraph (2), the inflation adjustment shall be based on the increase in the foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(2) For districts which have a prior year revenue limit per unit of average daily attendance computed pursuant to subdivision (f) which is in excess of 120 percent of the foundation program prescribed in subdivision (c), the inflation adjustment shall be the amount specified in subdivision (a) of Section 41718, but not greater than 7 percent of the foundation programs specified in subdivision (c).

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added to the prior year revenue limit per foundation program unit of average daily attendance of the district and the sum multiplied by the estimated foundation program average daily attendance of the budget year. The product shall be the revenue limit of the district for the budget year.

The revenue limit per foundation program unit of average daily attendance for districts subject to the provisions of paragraph (2) of subdivision (d) shall be no less than the revenue limit per foundation program unit of average daily attendance computed for a district at 120 percent of the foundation program.

(g) Any district which has a revenue limit computed pursuant to subdivision (f) which is equal to or less than the foundation program computed for the district pursuant to Article 1 (commencing with Section 41700) of Chapter 5 of this part, excluding Section 41716, Article 2 (commencing with Section 41730) of Chapter 5 of this part, and subdivision (a) of Section 41840 as adjusted pursuant to subdivision (e) of Section 14002 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the foundation program level of the district or the prior year revenue limit increased by 15 percent (15%).

For the 1974–75 and 1975–76 fiscal years only, notwithstanding subdivision (g) if, due to changes in federal legislation or administrative policy, the entitlement under Public Law 81-874 is reduced or discontinued and is not replaced by other federal funding, and if a district experiencing such loss has a revenue limit less than the foundation program, it shall be allowed to increase the revenue limit by an amount equal to the difference between the Public Law 81-874 income per foundation program average daily attendance of the prior year and the estimated Public Law 81-874

income per unit of foundation program average daily attendance of the budget year, if any, multiplied by the estimated foundation program average daily attendance of the budget year. Such increased revenue limit shall not exceed the foundation program of the budget year.

This subdivision shall not apply to reductions of the revenue limit made pursuant to Sections 42238.5 and 43001.5 or cause the revenue limit of a school district to fall below the appropriate foundation program level of the district.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, areawide aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for district contributions for the State Teachers' Retirement System and local retirement systems pursuant to Section 23401.5. The adjusted amount shall be the local revenue limit of the district for the budget year.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes on property on the unsecured roll of the budget year, excluding the amounts collected through the levy of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312, but no greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code, and (2) the income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum general purpose tax rate which may be levied in the district during the 1973–74 fiscal year, exclusive of taxes provided in Section 4147, 8329, 15250, 15742, 16090, 16196, 16204, 16205, 16214, 16302, 39229, 39230, 39308, 39311, 42200, 42402, 49502, or 56811 of the Education Code, Section 52317 of the Education Code for the purposes prescribed in Section 52312 of the Education Code, but no

greater than five cents ($0.05) per one hundred dollars ($100) of assessed valuation, and Section 5302.5 of the Streets and Highways Code. The revenue limit in subdivision (g) notwithstanding, in no case for districts receiving equalization aid, shall the tax rate be reduced below one dollar ($1) on the elementary level or eighty cents ($0.80) on the high school level or one dollar and eighty cents ($1.80) for a unified school district, except that when the district has levied upon it an areawide tax, such areawide tax rate levied shall be considered first as part of the minimum tax rate limit.

This section shall become operative at the same time as legislation becomes operative which appropriates funds for the purposes of Sections 6, 7, 8, 9, 10, 14, 15, 27, 28.5, 29, 40, and 41 of the act of the Statutes of 1977 which adds this section, or takes other statutory action to make such sections operative.

SEC. 29. Section 42238.5 is added to the Education Code, to read:

42238.5. The revenue limit per unit of average daily attendance of a district shall be reduced by the amount, if any, per unit of average daily attendance which the district added to its base revenue limit for the 1972–73 fiscal year for purposes of the State Teachers' Retirement System.

SEC. 30. Section 42239 of the Education Code is amended to read:

42239. A district may add in Sections 42233 and 42238 for purposes of increasing the district's revenue limit for the budget year a portion of its loss in average daily attendance when it is anticipated that the estimated second principal apportionment units of average daily attendance, excluding defined adults and summer school average daily attendance, will be less than those of the preceding year. The number of units of average daily attendance to be added is determined as follows:

(a) When the reduction in average daily attendance is less than 1 percent of the preceding year average daily attendance no adjustment is allowed.

(b) When the reduction in average daily attendance is greater than 1 percent of the preceding year average daily attendance, the estimated average daily attendance of the budget year may be increased by 75 percent of that difference in the first preceding year, and, commencing with the 1978–79 fiscal year, 50 percent of the difference in the second preceding year.

The amount calculated in subdivision (b) times the revenue limit per unit of average daily attendance shall be considered an addition to the district revenue limit, but shall not be used to compute state apportionments.

This amount of adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit in the subsequent year which otherwise would be required pursuant to Section 42245, except that to the extent that actual data differs from the estimated unit of average daily attendance used in this section, Section 42245 shall be applicable.

SEC. 31. Section 42241.3 is added to the Education Code, to read:

42241.3. (a) The revenue limit of any school district with a necessary small high school shall be adjusted annually pursuant to this section.

(b) For the 1977–78 fiscal year, the county superintendent of schools shall determine the difference between the district's total foundation program computed pursuant to subdivision (a) of Section 41711 and the product of the district's revenue limit per unit of average daily attendance and the average daily attendance at the necessary small high school.

(c) For the 1978–79 fiscal year and thereafter, he shall determine the difference between the district's total estimated foundation program computed pursuant to subdivision (a) of Section 41711 and the product of the district's revenue limit per unit of average daily attendance and the estimated average daily attendance at the necessary small high school. From that amount, he shall further subtract the amount determined pursuant to subdivision (b).

(d) If the amount determined in subdivision (c) is greater than zero (0), it shall be added to the district's revenue limit. If the amount determined is less than zero (0), no change in the revenue limit shall be computed pursuant to this section.

(e) To the extent actual data differs from the estimated data used in this section, Section 42245 shall be applicable.

SEC. 32. Article 4 (commencing with Section 42280) is added to Chapter 7 of Part 24 of the Education Code, to read:

Article 4. Equalized Voted Overrides

42280. Commencing July 1, 1977, the revenue limit per unit of average daily attendance prescribed by Section 42233 and 42238 may be increased pursuant to this chapter upon approval of a majority of the electors of the district voting on a proposition to that effect pursuant to Section 42202. Such approval may be granted for any period of time, and the budget year revenue limit of the district shall be increased by such amount in the computing the maximum general purpose tax rate for each year in which the voted revenue limit is effective.

42281. The tax rate levied for any increase authorized pursuant to Section 42280 shall be determined pursuant to Section 42001.

(a) For districts meeting the criteria prescribed in Section 42000, state aid shall be provided pursuant to Section 42002 and 42003.

(b) For districts meeting the criteria prescribed in Section 42500, the excess revenues generated pursuant to Section 42501 shall be deposited in Section A of the State School Fund.

(c) For unified school districts that meet the criteria of Section 42000 on one level only, state aid shall be provided pursuant to Section 42001 for that level, and for the other level the tax rate levied for any increase authorized pursuant to Section 42280 shall be computed based upon the district's actual wealth.

42282. The county auditor, in cooperation with the county superintendent of schools, shall determine the amount of excess from the income from tax rates levied pursuant to Section 42281. A county shall collect the taxes on the basis of the rates required by Section 42281. The county shall allocate the taxes on the basis of the increase in the revenue limit approved by the electors pursuant to Section 42202. If the taxes collected are in excess of the amount to be allocated within the county, the excess shall be paid to Section A of the State School Fund.

42283. Remittances to Section A of the State School Fund pursuant to Section 42282 shall be due to the State Controller not later than 30 days after the delinquency date specified in Sections 2704 and 2705 of the Revenue and Taxation Code.

Payments shall be made by the county auditor pursuant to computations and tax collections made on behalf of school districts within the county required to make such payments. Payments not received by the State Controller within 10 days of the prescribed due date are delinquent, and shall accrue the same penalties as delinquent payments under the provisions of Sections 2704 and 2705 of the Revenue and Taxation Code.

SEC. 33. Section 42244.2 of the Education Code is repealed.

SEC. 34. Section 42244.3 of the Education Code is repealed.

SEC. 35. Section 42244.4 of the Education Code is repealed.

SEC. 36. Section 42244.5 of the Education Code is repealed.

SEC. 37. Section 42244.6 of the Education Code is repealed.

SEC. 38. Chapter 8.5 (commencing with Section 42500) is added to Part 24 of the Education Code, to read:

CHAPTER 8.5. SCHOOL DISTRICT EQUALIZATION TAX

42500. Commencing with the 1978–79 fiscal year, whenever the assessed valuation per unit of average daily attendance of an elementary or high school district is greater than the amount computed by dividing the foundation program, as computed by the Superintendent of Public Instruction for the then current fiscal year less basic aid, by the product of one-one hundredth (0.01) and the computational tax rate specified by Section 41761.3, the tax rate of the district shall be adjusted pursuant to this chapter.

In the case of a unified district, the computation shall be made separately for the high school and elementary levels. Tax rates of unified districts shall be adjusted pursuant to this chapter only if both the elementary and high school computations exceed the level prescribed in this section.

42501. For any district meeting the criteria prescribed in Section 42500, the district shall compute its maximum tax rate pursuant to this section, as follows:

(a) Determine the difference between the district revenue limit computed pursuant to Sections 42238, 42239, and 42244 for the levied portion of voted overrides in effect prior to July 1, 1977, and the

appropriate foundation program per unit of average daily attendance, as determined pursuant to subdivision (c) of Section 42238.

(b) Multiply the amount determined pursuant to subdivision (a) by the following:

Fiscal Year	Amount
1978–79	.10
1979–80	.15
1980–81	.20
1981–82 and thereafter	.20

(c) A tax rate shall be computed that would raise the amount of revenue determined in subdivision (b) per unit of average daily attendance using the elementary computational tax rate computed in paragraph (1) of subdivision (a) of Section 42001 for elementary school districts, the high school computational tax rate of paragraph (2) of subdivision (a) of Section 42001 for high school districts, or both computational tax rates for unified school districts.

(d) The tax rate computed in subdivision (c) shall be multiplied by the modified assessed value of the district and from the resultant product shall be subtracted the amount per unit of average daily attendance determined in subdivision (b) multiplied by the average daily attendance in the district in the current year.

(e) A tax rate sufficient to raise the amount computed in subdivision (d) shall be levied by the school district, and the revenue from this tax levy shall be remitted to Section A of the State School Fund.

42502. Remittances to Section A of the State School Fund pursuant to Section 42501 shall be due to the State Controller not later than 30 days after the delinquency date specified in Sections 2704 and 2705 of the Revenue and Taxation Code.

Payments shall be made by the county auditor pursuant to computations and tax collections made on behalf of school districts within the county required to make such payments. Payments not received by the State Controller within 10 days of the prescribed due date are delinquent, and shall accrue the same penalties as delinquent payments under the provisions of Sections 2704 and 2705 of the Revenue and Taxation Code.

SEC. 39. Chapter 8.7 (commencing with Section 42520) is added to Part 24 of the Education Code, to read:

CHAPTER 8.7. MINIMUM SCHOOL DISTRICT PROPERTY TAX RATES

42520. Commencing with the 1978–79 fiscal year, the minimum general purpose tax rates for school districts are:

Type of district	Tax rate
Elementary school district	$1.00
High school district	.80
Unified school district	1.80

42521. If the tax rate for a school district computed pursuant to Section 42238 42403, 42502, and Section 42244 for overrides in effect prior to July 1, 1977, is less than the amount specified in Section 42520, the rate levied shall be increased to the minimum for that type of district.

42522. The difference in revenue between what would be raised by the rate computed pursuant to Section 42238 42403, 42502, and Section 42244 for overrides in effect prior to July 1, 1977, and the minimum rate specified by Section 42520 shall be transmitted to the state for deposit in Section A of the State School Fund.

The county auditor and the county superintendent of schools shall compute the amount of excess which shall be transmitted to the fund.

42523. Remittances to Section A of the State School Fund pursuant to Section 42522 shall be due to the State Controller not later than 30 days after the delinquency date specified in Sections 2704 and 2705 of the Revenue and Taxation Code.

Payments shall be made by the county auditor pursuant to computations and tax collections made on behalf of school districts within the county required to make such payments. Payments not received by the State Controller within 10 days of the prescribed due date are delinquent, and shall accrue the same penalties as delinquent payments under the provisions of Sections 2704 and 2705 of the Revenue and Taxation Code.

SEC. 40. Section 43001 of the Education Code is amended to read:

43001. For the 1977–78 fiscal year and each fiscal year thereafter:

(a) The maximum tax rate for adult education programs of a school district shall be computed pursuant to this section by the county superintendent of schools.

(b) The revenue limit per adult foundation program unit of average daily attendance for the district for the prior fiscal year shall be divided into the adult foundation program amount per unit of average daily attendance for the prior year. If the quotient is greater than one, it shall be deemed to be one.

(c) The adult foundation program amount per unit of average daily attendance used as the dividend in subdivision (b) shall be determined pursuant to Section 41840.

(d) The inflation adjustment shall be based on the increase or decrease in the adult foundation program amount per unit of average daily attendance for the budget year compared with the preceding year.

(e) The amount determined pursuant to subdivision (d) shall be multiplied by the quotient determined pursuant to subdivision (b). The resultant amount shall constitute the revenue limit inflation

adjustment of the district per unit of average daily attendance.

(f) The revenue limit inflation adjustment shall be added or subtracted, as the case may be, to the prior year revenue limit per adult foundation program unit of average daily attendance of the district and the sum multiplied by the estimated adult foundation program average daily attendance of the budget year. The product shall be the adult revenue limit of the district for the budget year.

(g) Any district which has an adult revenue limit computed pursuant to subdivision (f) which is equal to or less than the adult foundation program computed for the district pursuant to Section 41840 may increase its revenue limit computed pursuant to subdivision (f) to the lesser of the adult foundation program level of the district or the prior year revenue limit increased by 15 percent, beginning in 1977–78.

(h) From the amount computed pursuant to subdivision (f) or (g), there shall be subtracted the basic state aid and state equalization aid to be received for the budget year, and the amount of income to be received from the equalization offset tax pursuant to Section 41203.

(i) The amount determined pursuant to subdivision (h) shall be (1) adjusted as provided in subdivision (d) of Section 46605 and (2) adjusted sufficiently to allow for district contributions for the State Teachers' Retirement System and local retirement systems as required by Section 23401.5.

(j) From the amount computed pursuant to subdivision (i), there shall be subtracted the amount of money collected or to be collected as taxes related to adult education on property on the unsecured roll of the budget year and income from the prior year's taxes.

(k) For the purposes of this subdivision, the assessed valuation used in computing the maximum tax rate is defined as the total actual assessed valuation, including business inventory and homeowners' exemption and exclusive of the assessed valuation increment used to allocate tax receipts to a redevelopment agency pursuant to Article 6 (commencing with Section 33670) of Chapter 6 of Part 1 of Division 24 of the Health and Safety Code.

The amount determined pursuant to subdivision (j) shall be divided by the amount of actual assessed valuation of the district on the secured roll after due allowance for delinquencies, pursuant to Section 14203. The quotient multiplied by 100 shall be the tax rate on each one hundred dollars ($100) of such assessed valuation and shall be the maximum adult education tax rate which may be levied in the district during the 1976–77 fiscal year.

This section shall be subject to the provisions of Sections 42244 and 42245.

SEC. 41. Section 43001.5 of the Education Code is added, to read:

43001.5. The revenue limit per unit of adult average daily attendance for a district shall be reduced by the amount, if any, per unit of average daily attendance which was included in the establishment of the adult base revenue limit and which was for

purposes of the State Teachers' Retirement System.

SEC. 42. It is the intent of the Legislature that pupils attending public schools in California acquire the knowledge, skills and confidence required to function effectively in contemporary society.

The Legislature finds that high school graduation requirements are generally related to "seat time" and tied to college entrance requirements.

The Legislature further finds that some pupils currently graduating from the public schools lack competence in essential communication and computation skills, and the confidence that they can cope successfully with a complex society.

It is the intent and purpose of the Legislature to ensure the development of clearly defined proficiency standards in basic communication and computation skills for pupils attending public schools. It is the purpose of Section 43 of this act to ensure early identification of pupils lacking competence in basic skills, so that such pupils can receive appropriate assistance to achieve mastery of such skills prior to high school graduation.

It is the purpose of Section 43.5 of this act to provide students with opportunities to utilize community education resources and to develop and demonstrate their abilities in a variety of educational settings.

SEC. 43. Article 2.5 (commencing with Section 51215) is added to Chapter 2 of Part 28 of the Education Code, to read:

Article 2.5. Student Progress, Elementary and Secondary Schools

51215. The governing board of each school district maintaining a junior or senior high school shall, by June 1, 1978, adopt standards of proficiency in basic skills for pupils attending school within its school district.

The governing board of each school district maintaining grades 6 or 8, or the equivalent, shall, by June 1, 1979, adopt standards of proficiency in basic skills for pupils attending such grades.

Such standards shall include, but need not be limited to, reading comprehension, writing, and computation skills, in the English language, necessary to success in school and life experiences, and shall be such as will enable individual achievement to be ascertained and evaluated. Differential standards and assessment procedures may be adopted for pupils with diagnosed learning disabilities.

Governing boards maintaining elementary or junior high schools located within a school district maintaining a high school shall adopt standards of proficiency in basic skills which are articulated with those standards adopted by the school district maintaining the high school.

Designated employees of all school districts located within a high school district and one or more designees of the high school district shall meet prior to June 1, 1979, to plan for articulation of elementary and high school proficiency standards, and as necessary thereafter to

review the effectiveness of such articulation procedures.

Standards of proficiency shall be adopted by the governing board with the active involvement of parents broadly reflective of the socioeconomic composition of the district, administrators, teachers, counselors, and, with respect to standards in secondary schools, pupils.

51216. Beginning in the 1978–79 school year, the governing board of each district maintaining a junior or senior high school, and beginning in the 1979–80 school year, the governing board of each district maintaining an elementary school, shall take appropriate steps to ensure that individual pupil progress towards proficiency in basic skills is assessed in the English language during the regular instructional program at least once during the 4th through 6th grade experience, once during the 7th through 9th grade experience and twice during the 10th through 11th grade experience, provided that any pupil who demonstrates proficiency up to prescribed levels for graduation from high school need not be reassessed. Nothing in this section shall preclude any district from conducting an assessment of any pupil in English and in the native language of such pupil.

It is the intent of the Legislature that pupil assessments measure the progress of each pupil in mastering basic skills rather than the pupil's performance relative to his or her classmates.

In the case of any pupil who does not demonstrate sufficient progress toward mastery of basic skills so that he or she will be able to meet prescribed standards upon exit from the 6th, 8th, or 12th grade, whichever is appropriate, the principal shall arrange a conference among the principal or the principal's designee, the parent or guardian of the pupil, and a teacher familiar with the pupil's progress to discuss the results of the individual pupil assessment and recommended actions to further the pupil's progress.

The secondary school pupil shall attend the conference. The elementary school pupil shall attend the conference unless the principal's designee and the parent or guardian agree that such presence would not be in the pupil's best interest.

The pupil and the parent or guardian shall be requested in writing to attend the conference. Such notice shall be written in the primary language of the parent or guardian, whenever practicable.

Absent a response from the parent or guardian the school shall make a reasonable effort to contact him or her by other means to communicate directly the information contained in the written request.

At the conference, the principal or the principal's designee shall describe the instructional program which shall be provided to assist the pupil to master basic skills. If the parent or guardian does not attend the conference the principal or the principal's designee shall communicate such information by other means within 10 days of the date of the conference.

Instruction in basic skills shall be provided for any pupil who does not demonstrate sufficient progress toward mastery of basic skills

and shall continue until the pupil has been given numerous opportunities to achieve mastery.

51217. Subsequent to June 1980, no pupil shall receive a diploma of graduation from high school if he or she has not met the standards of proficiency in basic skills prescribed by the secondary school district governing board.

The State Board of Education shall, by February 1, 1978, prepare and distribute to each school district maintaining a junior or senior high school, and by October 1, 1978, prepare and distribute to each district maintaining an elementary school, a framework for assessing pupil proficiency in reading comprehension, writing, and computation skills. Such framework shall include a range of assessment items in each skill area. The assessment framework shall be provided solely to assist each school district in the development of its own pupil assessments as required by Section 51216.

Nothing in this section shall be construed to authorize or permit the State Board of Education to adopt statewide minimum proficiency standards for high school graduation.

SEC. 43.5. Section 51225 of the Education Code is amended to read:

CHAPTER 6. IMPROVEMENT OF ELEMENTARY AND SECONDARY EDUCATION

Article 1. General

52000. The Legislature declares its intent to encourage improvement of California elementary, intermediate, and secondary schools to ensure that all schools can respond in a timely and effective manner to the educational, personal, and career needs of every pupil. The Legislature is committed to the belief that schools should:

(a) Recognize that each pupil is a unique human being to be encouraged and assisted to learn, grow, and develop in his or her own manner to become a contributing and responsible member of society.

(b) Assure that pupils achieve proficiency in mathematics and in the use of the English language, including reading, writing, speaking, and listening.

(c) Provide pupils opportunities to develop skills, knowledge, awareness, and appreciations in a wide variety of other aspects of the curriculum, such as arts and humanities; physical, natural, and social sciences; physical, emotional, and mental health; consumer economics; and career education.

(d) Assist pupils to develop esteem of self and others, personal and social responsibility, critical thinking, and independent judgment.

(e) Provide a range of alternatives in instructional settings and formats to respond adequately to the different ways individual pupils learn.

(f) Maintain a schoolwide process for the involvement of parents broadly reflective of the socio-economic composition of the school attendance area, principals, teachers, other school personnel, pupils attending secondary schools, and members of the community in the development of school improvement plans.

The Legislature, by the provisions of this chapter, intends to support the efforts of each participating school to improve instruction, auxiliary services, school environment, and school organization to meet the needs of pupils at that school.

52001. As used in this chapter:

(a) "Other school personnel" means persons who work directly and on a regular basis with pupils, including administrative employees, as defined in subdivision (d) of Section 33150, pupil services employees, as defined in subdivision (c) of Section 33150, and classified employees.

(b) "Community member" means a person who is neither in the employment of the school district, nor the parent or guardian of a pupil attending the participating school.

(c) "School improvement plan" means a plan which meets the requirements of Section 52014 developed at an individual school and submitted to a local governing board for approval.

(d) "School improvement program" means a program developed

pursuant to an approved school improvement plan.

(e) "District master plan" means a plan which meets the requirements of subdivision (b) of Section 52034.

(f) "Planning grant" means allowances as described in Section 52049 to develop a school improvement plan.

(g) "Implementation grant" means allowances as described in Section 52049 to implement school improvement plans.

(h) "Participating schools" means schools which participate in the school improvement program pursuant to this chapter.

(i) "Secondary schools" means intermediate and secondary schools maintained by a school district.

Article 2. School Improvement Plans

52010. With the exception of subdivisions (a) and (b) of Section 52011, the provisions of this chapter shall apply only to school districts and schools which participate in school improvement programs authorized by this article.

No school shall receive funds pursuant to this chapter unless a planning application or school improvement plan has been approved for the school pursuant to this chapter.

52011. The governing board of each school district shall:

(a) Ensure that the principal of every school receives information covering the provisions of this chapter, and provides such information to teachers, other school personnel, parents, and, in secondary schools, pupils.

(b) Adopt policies to ensure that prior to scheduled phase-in, a school site council as described in Section 52012 is established at each school site to consider whether or not it wishes the local school to participate in the school improvement program. The board shall ensure that all interested persons, including, but not limited to, the principal, teachers, other school personnel, parents, and, in secondary schools, pupils have an opportunity to meet in public to establish such council.

Upon the vote of a majority of the persons represented pursuant to subdivision (a) of Section 52012 and a majority of the persons represented pursuant to subdivision (b) of Section 52012, the council may request the governing board to exclude the school from participation in the school improvement program authorized by this chapter. If the governing board accepts such request, the schedule developed pursuant to subdivision (c) of this section shall be amended to provide for reconsideration of this action at the school no later than three years from the date of the decision not to participate. Final determination as to whether a local school will participate in the school improvement program shall rest with the local governing board.

(c) Establish a plan for the phase-in of schools. Such plan shall ensure that at least one-half of the schools that are participating in any year are schools with the greatest numbers or concentrations of

educationally disadvantaged youth until all such schools participate.

52012. A school site council shall be established at each school which participates in the school improvement program authorized by this chapter. The council shall be composed of the principal and representatives of: teachers selected by teachers at the school; other school personnel selected by other school personnel at the school; parents of pupils attending the school selected by such parents; and, in secondary schools, pupils selected by pupils attending the school.

At the elementary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel; and (b) parents or other community members selected by parents.

At the secondary level the council shall be constituted to ensure parity between (a) the principal, classroom teachers and other school personnel and (b) equal numbers of parents and pupils.

At both the elementary and secondary levels, classroom teachers shall comprise the majority of persons represented under subdivisions (a) of this section.

Existing schoolwide advisory groups or school support groups may be utilized as the school site council if such groups conform to the provisions of this section.

The term and method of selection and replacement of council members shall be specified in the school improvement plan developed pursuant to Section 52014.

The Superintendent of Public Instruction shall provide several examples of selection and replacement procedures which may be considered by school site councils.

52013. Any school site council may apply to the local governing board for a planning grant to develop a three-year school improvement plan.

School level plans developed pursuant to the Early Childhood Education Act of 1972 shall be deemed to meet the requirements for plans under this chapter.

52014. Each plan shall be based on an assessment of school capability to meet the educational needs of each pupil, specify improvement objectives, and indicate steps necessary to achieve such objectives, including intended outcomes. The three year plan shall include activities to implement the components in Sections 52015, 52016, and 52017 within three years. Each school site plan shall provide for annual activities for subdivisions (a), (b), (c), (f), and (g) of Section 52015 and subdivision (a) of 52016; provided that different aspects within subdivision (a) of 52015 may be emphasized in different years. If the school site council finds that an existing program in any component area is of high quality, such program need only be briefly described in the school improvement plan.

52015. Each plan shall include:

(a) Curricula, instructional strategies, and materials responsive to the individual educational needs and learning styles of each pupil which enable all pupils to:

(1) Make continuous progress and learn at a rate appropriate to their abilities.

(2) Master basic skills in language development and reading, writing, and mathematics pursuant to Sections 51215 and 51216.

(3) Develop knowledge and skills in other aspects of the curriculum, such as arts and humanities; physical, natural, and social sciences; multicultural education; physical, emotional, and mental health; consumer economics; and career education.

(4) Pursue educational interests and develop esteem for self and others, personal and social responsibility, critical thinking, and independent judgment.

Consideration shall be given to the use of community resources, such as museums, libraries, and communications media, to achieve instructional improvement objectives.

(b) Instructional and auxiliary services to meet the special needs of non-English-speaking or limited-English-speaking pupils, including instruction in a language such pupils understand; educationally disadvantaged pupils; and pupils with exceptional abilities or needs.

(c) A staff development program for teachers, other school personnel, paraprofessionals, and volunteers as provided in Section 52019.

(d) Improvement of the classroom and school environments, including improvement of relationships between and among pupils, school personnel, parents, and the community, and reduction of the incidence among pupils of violence and vandalism.

(e) Other objectives as established by the council.

(f) The proposed expenditure of allowances provided pursuant to Article 4 (commencing with Section 52045) of this chapter and other state or local funds available to support the school improvement program.

(g) Ongoing evaluation and modification of the school improvement plan by the council based on information regarding:

(1) The degree to which the school is meeting its improvement objectives as assessed by parents, teachers, other school personnel, and pupils.

(2) Student achievement.

(3) Improved school environment as measured by indicators such as (A) the incidence among pupils of absenteeism, suspension, expulsion, and dropouts and the incidence and costs of school violence, vandalism, and theft of school or private property while participating in school activities, (B) pupil attitudes toward school, self, and others, (C) incidence of absenteeism, resignations and requests for transfers among teachers and other school personnel, and (D) satisfaction of teachers, pupils, parents, administrators, and other school personnel with school services and decisionmaking processes.

(4) The degree to which fiscal expenditures meet the criteria of the school improvement plan.

52015.5. The information required by subdivision (g) of Section 52015 shall be available to any person upon request.

52016. In elementary schools the school improvement plan shall, in addition, include:

(a) The active involvement of parents in classroom activities and in other aspects of the school improvement program. Parents who work under the supervision of certificated personnel in ongoing delivery of educational services shall be encouraged to participate in a staff development program implemented pursuant to Section 52019.

(b) Periodic evaluation of pupils' health needs.

(c) Parent education regarding the growth and development of children.

52017. In secondary schools the school improvement plan shall, in addition, include:

(a) The availability of timely advice regarding learning options, career opportunities, and school-related problems.

(b) A range of alternatives in the size, composition, and location of learning groups, including community-based study.

(c) A process whereby pupils may demonstrate proficiency in any aspect of the curriculum in order to waive course-hour requirements and pursue an elective course of study.

52019. Each school improvement program shall include a local staff development program. Existing school-level staff development programs conducted pursuant to state and federal laws shall be consolidated with local staff development programs to the extent permitted by federal law. Local staff development programs shall:

(a) Provide opportunities for school personnel, paraprofessionals, and volunteers to participate each year in ongoing staff development activities based on a systematic identification of pupil and personnel needs at the school. Such identification shall address, but need not be limited to, the objectives specified in subdivisions (a), (b), (d), and (e) of Section 52015, Section 52016 and subdivisions (a) and (b) of Section 52017; the capacity of school personnel to implement school improvement programs; and the capacity of school site councils to monitor and evaluate programs authorized by this chapter.

(b) Be designed and implemented by classroom teachers and other participating school personnel, including the school principal, with the aid of outside personnel as necessary. Classroom teachers shall comprise the majority of any group designated to design staff development programs for instructional personnel to be established pursuant to this article. Development activities for members of the school site council shall be designed in conjunction with such members.

(c) Allow for diversity in staff development activities, including, but not limited to, small groups, self-directed learning, and systematic observation during visits to other classrooms or schools.

(d) Be conducted during time when is set aside throughout the

school year, including, but not limited to, time on a continuing basis when school personnel are released from their regular duties.

(e) Be evaluated and modified on a continuing basis by participating school personnel, paraprofessionals, and volunteers with the aid of outside personnel as necessary.

(f) Include the school principal and other administrative personnel as active participants in one or more staff development activities.

52020. Following approval of the school improvement plan by the governing board: (a) the school principal shall be responsible for the promotion of full and effective compliance with such plan; (b) certificated personnel shall design and implement instructional techniques consistent with objectives established by the school site council pursuant to subdivisions (a) and (b) of Section 52015.

52021. The school site council, following approval of a school improvement plan by the governing board, shall have ongoing responsibility to review with the principal, teachers, other school personnel and pupils the implementation of the school improvement program and to assess periodically the effectiveness of such program.

The council shall annually review the school improvement plan, establish a new school improvement budget consistent with subdivision (f) of Section 52015, and, if necessary, make other modifications in the plan to reflect changing improvement needs and priorities.

Upon the vote of a majority of the persons represented pursuant to subdivision (a) of Section 52012 and a majority of the persons represented pursuant to subdivision (b) of Section 52012, the council shall request that the school be excluded from participation in the following year in the school improvement program authorized by this article. In such case, the school principal shall so inform the governing board of the school district and certify that the request was made upon such vote. If the governing board accepts the request, the phase-in schedule shall be amended pursuant to subdivision (b) of Section 52011.

52022. Schools may request, as part of their school improvement plan, the provision of time during the regular school year to advise students or conduct staff development programs and receive full average daily attendance reimbursement under the provisions of Section 46300. Such time shall not exceed eight days each year for each participating staff member.

52033. Any district governing board, on behalf of a school site council, may request the State Board of Education to grant a waiver of any provision of this code (except Sections 41000 to 41360, inclusive; Sections 41420 to 41423, inclusive; Sections 41600 to 41866, inclusive; Sections 41920 to 42911, inclusive; Article 3 (commencing with Section 44930) of Chapter 4 of Part 25 of Division 3 of this title, Part 26 (commencing with Section 46000) and Chapter 6 (commencing with Section 48900) and Chapter 6.5 (commencing with Section 49060) of Part 27 of this division); or Title 5 of the

California Administrative Code (except Title 5 regulations adopted pursuant to Article 3 (commencing with Section 44930) of Chapter 4 of Part 25 of Division 3 of this title), if such waiver is necessary or beneficial to the successful implementation of a school improvement plan. The State Board of Education may grant any such request when the facts indicate the failure to do so would hinder the implementation or maintenance of a successful school improvement program. Such action shall be taken not later than the second regular meeting of the State Board of Education following receipt of a waiver request or the request for a waiver shall be deemed approved. In the event the request for a waiver is denied, the reasons for the denial shall be communicated without delay to the applicant district and school. Such waiver shall apply only to the applicant school.

The State Board of Education shall include in its annual report to the Governor and Legislature the nature and disposition of waivers requested pursuant to this section.

52034. Participating school district governing boards shall:

(a) Review and approve or disapprove planning applications and school improvement plans consistent with, but not limited to, rules and regulations adopted by the State Board of Education pursuant to Section 52039.

No plan shall be approved unless it was developed and recommended by a school site council. In the event any plan is not approved by the governing board, specific reasons for such action shall be communicated to the council. Modifications to any school improvement plan shall be developed, recommended, and approved or disapproved in the same manner.

(b) Develop and update annually a district master plan keyed to the school improvement objectives of participating schools and submit it to the State Board of Education for approval. Such master plan shall include:

(1) A description of the district's strategies to assist schools to plan, implement, and evaluate school improvement programs.

(2) A plan for the phase-in of schools pursuant to subdivision (c) of Section 52011.

(3) Copies of all approved school improvement plans.

(4) A schedule of planning grants and implementation grants for participating schools.

(c) Adopt policies regarding the responsibilities of school site councils required by Section 52012 and establish communication procedures to ensure reasonable opportunities for each council or its representatives to meet with the governing board.

(d) In cooperation with participating schools, inventory opportunities for community-based learning and design processes by which secondary students may demonstrate proficiency in any aspect of the curriculum to pursue an elective course of study.

(e) Evaluate the effectiveness of participating schools in meeting their school improvement program objectives.

(f) Terminate implementation grants to schools which are

unsuccessful over a four-year period in substantially meeting the objectives of their approved plans pursuant to rules and regulations adopted by the State Board of Education.

(g) Provide for staff development activities jointly developed with teachers and other school personnel which reflect the goals of this chapter.

(h) Examine the patterns of school organization to determine which patterns best meet the needs of the students in the district.

(i) Ensure that allowances provided pursuant to this chapter shall be used to supplement, not supplant, existing fiscal efforts and that schools which receive such allowances shall have base expenditures comparable to nonparticipating schools.

52035. The Superintendent of Public Instruction shall:

(a) Assist districts and schools, upon request, to design, implement or evaluate school improvement programs authorized by this chapter.

(b) Ensure that procedures utilized by governing boards to approve and evaluate school improvement programs and to terminate allowances are consistent with this chapter and with standards and criteria adopted by the State Board of Education.

(c) Apportion district allowances in accordance with the provisions of Article 4 (commencing with Section 52045) of this chapter.

(d) Identify effective practices regarding, but not limited to, the objectives described in Sections 52015, 52016, and 52017 and disseminate such information to all school districts and county superintendents of schools.

(e) Conduct program and fiscal reviews to:

(1) Ensure that funds allocated pursuant to this chapter are expended for the purposes intended.

(2) Provide information helpful to local schools in meeting their school improvement objectives.

(3) Provide information to the state board regarding program implementation to be used in decisions regarding program expansion to other schools. Information regarding program implementation at a given school shall not be used in decisions regarding program expansion until such school has participated in the school improvement program for at least one and one-half school years. The superintendent shall recognize diversity in school improvement objectives and implementation strategies. In no case shall the review process be used to impose or prohibit a particular instructional program.

The majority of persons participating in such review shall be persons who are not in the employment of the district under review.

(f) Give priority in scheduling such reviews to districts and schools which have been least successful in meeting the objectives of their plans.

(g) By November 1, 1977, improve program and fiscal reviews to ensure adequate training of review teams, continuity of information

to given schools, consistency in ratings among schools and opportunities for assistance to schools in meeting their improvement program objectives.

Two or more school districts may join together to apply, or join together with one or more county superintendents of schools to apply, to provide information to local schools and the state board as described under this section. Such application shall be in a manner and form prescribed by the State Board of Education.

(h) Ensure, insofar as is practicable, that secondary schools participating in the school improvement program represent the geographic and socioeconomic diversity of secondary schools.

(i) Report annually, beginning January 1979, to the State Board of Education, Legislature, and Governor regarding the effectiveness of school improvement programs established pursuant to this chapter and staff development programs and resource centers established pursuant to Chapter 3.1 (commencing with Section 44670) of Part 25.

Such report shall:

(1) Be performed consistent with the provisions of Sections 33400 and 33405;

(2) Contain information from a representative sample of participating districts and schools regarding:

(B) Efforts to improve program and fiscal reviews conducted pursuant to Section 52035.

(C) Fiscal expenditures.

52036. The Superintendent of Public Instruction shall gather from school districts such information as is necessary to carry out responsibilities pursuant to this chapter.

52037. The superintendent shall provide for coordination of the design of school, district, state, and independent evaluations to minimize the data collection burden at the school and district levels and maximize the amount of information that can be used at all four levels.

52038. The Superintendent of Public Instruction shall contract for an independent evaluation of the school improvement programs established pursuant to this chapter and staff development programs and resource centers established pursuant to Chapter 3.1 (commencing with Section 44670) of Part 25 of the Education Code, to be conducted during the 1977–78, 1978–79, 1979–80, 1980–81, and 1981–82 fiscal years and which shall contain, but need not be limited to, information over the five-year period regarding improved pupil achievement; school environment, including the satisfaction of parents, pupils, teachers administrators and other school personnel with school services and decisionmaking processes; school-related student social and personal development skills; adult citizenship and

career skills; improvement in professional skills of teachers, administrators, and other school personnel; and fiscal expenditures as specified in paragraphs (1) and (2) of subdivision (i) of Section 52035. The independent evaluator shall have expertise in evaluation. The evaluator and the scope and design of the independent evaluation shall be approved by the Department of Finance and the Legislative Analyst.

The independent evaluator shall submit annual progress reports to the Legislature and the Governor. The evaluator, by October 1, 1981, shall submit an interim report to include findings regarding program implementation, school environment and the improvement of professional skills of teachers and other school personnel. The evaluator, by October 1, 1982, shall submit a final report to include information regarding program implementation and outcomes, including student achievement.

52039. The State Board of Education shall:

(a) Review and approve or disapprove, in whole or in part, district master plans. Such approval process may include a review of school improvement plans, provided that a decision to approve or disapprove any school improvement plan shall be based solely upon whether such plan complies with this chapter and regulations developed by the State Board of Education pursuant to this chapter. The board shall, to the extent possible, consolidate master plan application procedures with existing application requirements for state and federal categorical aid programs in order to minimize additional paperwork requirements on school districts.

(b) Adopt rules and regulations necessary to implement the provisions of this chapter which shall include standards and criteria for:

(1) The provision of funds to participating districts to cover administrative costs and the documentation of such costs in the district master plan;

(2) The approval by governing boards of planning applications and of school improvement plans and the evaluation by governing boards of school improvement programs. Such rules and regulations shall be limited to:

(A) The extent to which at least one-half of the participating schools represent the schools within the district with the greatest numbers or concentration of educationally disadvantaged pupils.

(B) The degree to which the objectives of local improvement programs conform to objectives specified in Sections 52015, 52016, and 52017.

(C) The adequacy of locally developed evaluation procedures to ensure that school districts and the State Board of Education are able to evaluate the effectiveness of school improvement programs.

(3) The annual statewide evaluation of school improvement programs implemented under this chapter, as described in Section 52035.

(4) The termination of implementation grants for school

improvement programs upon the finding of the local governing board that a school improvement program has failed, over a four-year period, to substantially meet its declared objectives.

(c) Approve expansion of successful district school improvement programs based on:

(1) Program reviews conducted pursuant to subdivision (e) of Section 52035.

(2) Student cognitive and affective growth.

(3) Other indicators as determined by the State Board.

Beginning January, 1978, the State Board may utilize up to 10 percent of new funds appropriated annually for the purposes of this chapter to provide expansion to schools on some other basis than as specified in paragraphs (1) and (2), and shall provide for an evaluation of the use of such expansion formula.

(d) Recommend to public and private institutions of higher education modifications in admission criteria which are consistent with the improvement program authorized by this chapter.

(e) Rule on requests to waive provisions of this code or the California Administrative Code pursuant to Section 52033.

Article 4. Funding

52045. In computing allowances authorized pursuant to Section 52049, the Superintendent of Public Instruction shall reduce such allowances by the amount per pupil apportioned pursuant to Article 4 (commencing with Section 54160) of Chapter 2 of Part 29 of this division.

52049. From funds appropriated pursuant to this article the superintendent shall make allowances to districts as follows:

(a) For schools with approved planning applications, planning grants in the amount of thirty dollars ($30) per unit of average daily attendance;

(b) For schools with approved school improvement plans, implementation grants in the amount of:

(2) Ninety dollars ($90) per unit of average daily attendance in grades 4 to 8, inclusive, or their equivalent, exclusive of the average daily attendance of summer school, regional occupational centers and programs, and adult classes by regular high school pupils.

(3) Sixty-five dollars ($65) per unit of average daily attendance in grades 9 to 12, inclusive or their equivalent, exclusive of the average daily attendance of summer school, regional occupational centers and programs, and adult classes by regular high school pupils.

Implementation grants shall be spent pursuant to the approved

school improvement plan as documented in the plan pursuant to subdivision (f) of Section 52015.

Allowances provided in any fiscal year but not expended in that year may be expended in subsequent fiscal years.

52049.5. Expenditures pursuant to subdivision (b) of Section 52049 shall be considered to be categorical program expenditures within the meaning of Section 52167 and therefore subject to the requirements of the Chacon-Moscone Bilingual-Bicultural Education Act of 1976 (Article 3 (commencing with Section 52160) of Chapter 7 of this part).

SEC. 47. Article 1 (commencing with Section 52100) of Chapter 7 of Part 28 of the Education Code is repealed.

SEC. 48. Section 52168 of the Education Code is amended to read:

52168. (a) The maximum allocation allowable for the 1977–78 and subsequent school years to school districts providing instruction pursuant to Section 52165 shall not exceed the maximum allowances established by the superintendent and the district pursuant to Section 3932 of Title 5 of the California Administrative Code, for each limited-English-speaking pupil who receives instruction in a program pursuant to Section 52165. This amount per pupil shall include all state and local categorical aid funds allocated to districts providing programs under Section 52165 which are wholly or partially allocated on the basis of the educational needs of limited-English-speaking pupils. The superintendent shall ensure that funds appropriated pursuant to this article supplement and do not supplant categorical funds allocated from other local or state sources in meeting the needs of limited-English-speaking pupils.

(b) School districts may claim funds appropriated pursuant to this article for expenditures in the following categories only:

(1) The employment of bilingual-crosscultural teachers and aides; however, funds are available for employment expenditures only to the extent such personnel are employed in providing bilingual services to eligible pupils. School districts applying for these funds shall submit an assurance that personnel hired for this program only supplement and do not supplant district personnel.

(2) The purchase and development of special bilingual-bicultural teaching materials;

(3) The costs of special in-service training to develop bilingual-crosscultural instructional skills with preference given to teachers and teacher aides employed as part of the bilingual-bicultural program; and

(4) Reasonable expenses (which may include transportation-child care, meals, and training) of parent advisory groups on bilingual-bicultural education, at the school and school district level, in the course of their duties as members of the parent advisory groups. The State Board of Education shall adopt rules and regulations defining reasonable expenses.

(5) Health and auxiliary services to the extent that they meet the

direct needs of eligible pupils.

(6) Reasonable district administrative expenses allowed pursuant to regulations of the board.

(c) Nothing contained in this section shall be interpreted to authorize school districts to reduce per pupil expenditures from local, state, or federal sources for the education of limited-English-speaking pupils.

SEC. 49. Section 52169 of the Education Code is repealed.

SEC. 50. Section 52169 is added to the Education Code, to read:

(1) Schools receive funds for such programs pursuant to Article 1 (commencing with Section 52100) of this chapter, Section 52179 or

(2) Schools receive other state and federal categorical funds which are wholly or partially allocated on the basis of the educational needs of limited- or non-English-speaking students and in amounts specified in regulations adopted by the State Board of Education, when applicable.

This subdivision shall cease to be operative on June 30, 1979.

(c) Nothing contained in this section shall be interpreted to authorize school districts to reduce per pupil expenditures from local, state, or federal sources for the education of limited-English-speaking pupils.

SEC. 51. Section 52170 of the Education Code is amended to read:

52170. Each school which receives local, state, and federal categorical aid funds as defined in subdivision (b) of Section 52169 and Section 54004.1 shall:

(a) Prepare and submit to the Superintendent of Public Instruction an assessment of the needs of the limited-English-speaking pupils in attendance in the school. It shall also list all of the local, state, and federal categorical aid funds currently available for programs to meet the needs of limited-English-speaking pupils. The number of limited-English-speaking pupils, in the school, who are not being provided with services pursuant to subdivision (a), (b), (c), or (f) of Section 52163 with such special funds shall be stated.

(b) Based on the needs assessed, the school shall prepare an application on forms provided by the Department of Education. Such application shall meet the applicable criteria of the consolidated application regulations and shall include in addition the following components: (1) teacher and aide preservice training which will identify and improve knowledge levels of each teacher and aide in teaching methodology, and bilingual-crosscultural philosophy and education, (2) an in-service training program for

teachers and aides that is linked with an institution of higher education, to the maximum extent feasible, which shall include the establishment of a liaison with a nearby institution of higher education and the solicitation of help from such institution in order to upgrade continually the bilingual-crosscultural education program, and (3) an assurance that all bilingual-crosscultural aides are provided the opportunity to enroll in a career ladder program leading toward a single- or multiple-subject teaching credential, and a certificate of competence in bilingual-crosscultural education. The district's application to the Department of Education shall include all of the individual school applications.

SEC. 52. Section 52171.5 is added to the Education Code, to read:

52171.5. Beginning in the 1977–78 fiscal year, all programs funded pursuant to Article 1 (commencing with Section 52100) of Chapter 7 of Part 28 shall be conducted under the programmatic provisions of Article 3 (commencing with Section 52160) of Chapter 7 of Part 28, and the administrative regulations adopted pursuant thereto.

Nothing in this article shall preclude the participation by an individual school district in a consortium or a cooperative in order to provide support and contract services to school districts that receive funds for the purposes of Article 3 (commencing with Section 52160) of Chapter 7 of Part 28.

SEC. 53. Section 52171.6 is added to the Education Code, to read:

52171.6. Schools which provide bilingual education programs to limited- and non-English-speaking students pursuant to Section 52165 shall report the following information to the Superintendent of Public Instruction on an annual basis:

(a) The number of limited- and non-English-speaking students served.

(b) The number of teachers who hold bilingual credentials or certificate of competency.

(c) The number of bilingual aides.

(d) The number of teachers who have waivers.

(e) The estimated expenditures for such programs.

The Superintendent of Public Instruction shall summarize such information and report annually to the Legislature during the budget review process.

SEC. 54. Section 52177 of the Education Code is amended to read:

52177. (a) Out of funds appropriated for such purposes, the superintendent shall have the duty to administer the provisions of this article. The responsibilities of the superintendent in administering this article shall include, but are not limited to, ensuring that:

(1) Funds authorized to administer, monitor, review, or evaluate the provisions of this article are separately accounted for.

(2) Sufficient bilingual personnel are available within the Department of Education with familiarity, competency, and proficiency in bilingual-crosscultural instruction to meet the needs of

this article and to administer, review, monitor, and evaluate the use of state or federal categorical aid funds allocated to local districts which have been wholly or partially allocated on the basis of the educational needs of limited-English-speaking pupils.

(3) Department of Education personnel responsible for the administration, review, monitoring, or evaluation of programs operating pursuant to this article have been sufficiently trained to carry out the intent of this article to meet the needs of the limited-English-speaking pupil.

(4) There is within the Department of Education an administrative unit responsible for bilingual-bicultural educational programs and policies through which the superintendent shall carry out his functions pursuant to this article.

(5) Applications for allocations from school districts are made in accordance with this article; to assure that districts are providing each limited-English-speaking pupil with an educational opportunity equal to that available to English-speaking pupils; and to recommend acceptable projects for approval by the board. This paragraph shall cease to be operative on June 30, 1979.

(6) A plan is developed to provide for adequate monitoring of school and school district compliance with the provisions of this article.

(7) Develop an annual evaluation of bilingual needs and programs within the state for submission to the Legislature and to the Governor. The annual evaluation shall include a state assessment of the educational needs of pupils and other persons who are limited English speaking, and of the extent to which such needs are being met from federal, state and local efforts.

SEC. 55. Section 52179 of the Education Code is amended to read:

52179. Funds appropriated pursuant to this article for programs mandated pursuant to Section 52165 shall be allocated to school districts by the Superintendent of Public Instruction in the following manner:

(a) The superintendent shall rank all school districts with limited-English-speaking pupils in kindergarten through grade 6 in order of the ratio of such pupils to all pupils in kindergarten through grade 6 in the district.

(1) Districts in the upper 50 percentile of the ranking and districts with 500 or more limited-English-speaking pupils in kindergarten through grade 6 shall receive funding for all such pupils before other districts with limited-English-speaking pupils in kindergarten through grade 6 receive funding.

(2) As additional funds become available, districts shall become eligible for funds based on their ranking percentage of limited-English-speaking pupils.

(3) Districts with limited-English-speaking pupils in grades 7 through 12 shall be eligible to receive reimbursement out of funds appropriated pursuant to this article to serve such pupils only after

all eligible pupils in kindergarten through grade 6 have been served and only if such pupils are enrolled in a program authorized pursuant to subdivision (a), (b), or (c) of Section 52163.

(b) (1) The superintendent shall allow to each school district eligible for funding pursuant to paragraph (1) of subdivision (a) amounts based upon the ratio of the number of limited-English-speaking pupils in the district in kindergarten and grades 1 through 6 to the total number of all such pupils in kindergarten and grades 1 through 6 in school districts eligible for funding pursuant to paragraph (1) of subdivision (a).

(2) After all such districts have been fully funded, the superintendent shall allow funds to districts eligible for funding pursuant to paragraph (2) of subdivision (a) in the same manner.

(3) After all such districts have been fully funded, the superintendent shall allow to districts with limited-English-speaking pupils in grades 7 through 12 amounts based upon the ratio of the number of limited-English-speaking pupils in the district in grades 7 through 12 to the total number of limited-English-speaking pupils in grades 7 through 12 in the state.

(c) Beginning with the 1977–78 school year and each school year thereafter until all eligible schools are served, priority for eligibility within districts shall be:

(1) Elementary schools with the largest percentage of limited-English-speaking pupils and which receive federal or state categorical resources for primary grades and which have an approved school level plan.

(2) Elementary schools with the largest percentage of limited-English-speaking pupils and which are scheduled to receive federal or state categorical resources for primary grades in the succeeding school year.

(3) Elementary schools with the largest percentage of limited-English-speaking pupils but which are not scheduled to receive federal or state categorical resources for primary grades in the succeeding school year.

(4) First priority for funding in paragraphs (1) through (3) of this subdivision shall be for pupils in kindergarten and grades 1 through 3.

(5) Schools which receive funding for kindergarten and grades 1 through 3 shall have first priority in succeeding school years for funds for pupils in grades 4, 5, and 6, to be phased in at the rate of one grade per school year.

(d) This section shall be operative only until June 30, 1979, and as of such date is repealed.

SEC. 56. Chapter 1 (commencing with Section 54000) of Part 29 of the Education Code is repealed.

SEC. 56.5. Chapter 1 (commencing with Section 54000) is added to Part 29 of the Education Code, to read:

CHAPTER 1. EDUCATIONALLY DISADVANTAGED YOUTH PROGRAMS

Article 1. General Provisions

54000. It is the intent of the Legislature to provide quality educational opportunities for all children in the public schools. The Legislature recognizes that a wide variety of factors such as low family income, pupil transiency rates, and large numbers of homes where a primary language other than English is spoken have a direct impact on a child's success in school and personal development, and require that different levels of financial assistance be provided districts in order to assure a quality level of education for all pupils.

54001. From the funds appropriated by the Legislature for the purposes of this chapter, the Superintendent of Public Instruction, with the approval of the State Board of Education, shall administer this chapter and make apportionments to school districts to meet the total approved expense of the school districts incurred in establishing education programs for pupils who qualify economically and educationally in preschool, kindergarten, or any of grades 1 through 12, inclusive. Nothing in this chapter shall in any way preclude the use of federal funds for educationally disadvantaged youth. Districts which receive funds pursuant to this chapter shall not reduce existing district resources which have been utilized for programs to meet the needs of educationally disadvantaged students.

54002. State educationally disadvantaged youth apportionments allowable to school districts shall be determined by the following terms.

(a) A ratio of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Asian surnames, and Indian pupils, as determined by the 1973–74 ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or high school districts, as appropriate.

(b) A ratio of the district's "index of family poverty," defined as the district's Elementary and Secondary Education Act, Title 1 entitlement of 1975–76, divided by its average daily attendance for 1974–75 in grades 1 through 12, or any thereof maintained, divided in turn by the state average index of family poverty for unified, elementary, or high school districts, as appropriate.

(c) A ratio of the district's "index of pupil transiency," computed as the difference between 1 and the district's average daily attendance divided by its total annual enrollment for 1974–75 divided by the state average index of pupil transiency for unified, elementary, or high school districts, as appropriate.

The district's total maximum apportionment under this chapter shall be determined by computing the product of (1) one-third the sum of the above three terms, except that if the resulting figure is higher than 2, the resulting figure shall be deemed to be 2, and if the

resulting figure is lower than 0.9 no entitlement shall be computed for such a district (2) the number of pupils receiving aid for dependent children support as of January 1975; and (3) a constant amount as the Superintendent of Public Instruction may determine so that the sum of all allocations will not exceed the funds appropriated by the Legislature for the purposes of this section.

This section shall remain operative only until July 1, 1979, and as of that date is repealed.

54003. Under rules and regulations established by the State Board of Education, participating school district governing boards shall evaluate the effectiveness of participating schools and shall terminate entitlements to schools which are unsuccessful over a four-year period in substantially meeting their objectives of the approved school site plan, as defined in Section 54004.1.

It is the intent of the Legislature that to the extent feasible the State Board of Education develop rules and regulations that will assure consistency between subdivision (f) of Section 52034 and this section.

54004. The Superintendent of Public Instruction shall apportion the funds available for programs in accord with procedures specified in this chapter and policies which may be adopted by the State Board of Education. Funds shall be allocated to each district within its entitlement based upon a plan submitted by the district to the Superintendent of Public Instruction, and approved by the State Board of Education. The plan shall include (1) an explicit statement of what the district seeks to accomplish, (2) a description of the program and activities designed to achieve these purposes, and (3) a planned program of annual evaluation, including a statement of the criteria to be used to measure the effectiveness of the program. This section will have no effect after July 1, 1979.

54004.1. For fiscal year 1979–80 and each year thereafter, the Superintendent of Public Instruction shall apportion funds available for programs in accord with procedures specified in this chapter and rules and regulations established by the State Board of Education. Funds shall be allocated to each district within its entitlement based upon the following which shall be submitted to the Superintendent of Public Instruction and approved by the State Board of Education:

(a) A district allocation plan developed pursuant to Sections 54004.3, 54004.5, and 54004.7.

(b) A school plan for each school receiving funds allocated pursuant to Sections 54004.5 and 54004.7 which shall include, but not be limited to:

(1) An explicit statement of what the school seeks to accomplish.

(2) A description of the program and activities designed to achieve these purposes.

(3) A planned program of annual evaluation, including a statement of criteria to be used to measure the effectiveness of the program.

(c) Schools which provide programs pursuant to subdivision (a)

of Section 52165 shall include such programs in the school plan.

54004.3. It is the intent of the Legislature to provide all districts receiving impact aid with sufficient flexibility to design and administer an intra-district allocation system for impact aid which reflects the distribution and the needs of the needy population and assures the provision of services to students traditionally served by the educationally disadvantaged youth programs and bilingual education programs.

54004.5. Under the rules and regulations established by the State Board of Education, school districts receiving entitlements for the 1979–80 year and thereafter under this chapter shall develop and submit to the Department of Education for approval an intra-district allocation plan for distribution of impact aid to schools with high concentrations of pupils in need. Such intra-district allocation plans shall include, but not be limited to:

(a) A method for determining the eligibility of schools to receive impact aid based on the following factors which shall be given equal weight in the allocation of funds:

(1) The number or percentage of limited- and non-English-speaking youth at individual school sites.

(2) The number or percentage of students from low-income families at individual school sites as identified using data sources such as Aid to Families with Dependent Children, Federal Free Lunch, assessed value of single family residences, and census data.

(3) The number or percentage of students with low academic achievement at individual school sites. In the development of its allocation plan, an eligible district may employ, other factors unique to the district which further identify numbers or concentrations of pupils in need of impact aid at individual school sites.

(b) A method for determining the minimum and maximum levels of service expressed as an average amount per pupil, for schools scheduled to receive impact aid.

54004.7. The intradistrict allocation plan shall assure adequate support to any school to provide programs appropriate to the educational needs of limited- and non-English-speaking pupils as required by Section 52165 except that programs funded under Article 1 (commencing with Section 52100) of Chapter 7 of Part 28 in fiscal year 1978–79 in grades 7 to 12, inclusive, shall continue to receive appropriate funding if the governing board determines that the program is of sufficient quality to warrant such funding.

54005. The State Board of Education shall adopt regulations setting forth the standards and criteria to be used in the administration, monitoring, evaluation, and dissemination of programs submitted for consideration.

54006. The Superintendent of Public Instruction shall submit annually to the Governor and to each house of the Legislature a report evaluating the programs established pursuant to this chapter, together with his recommendations concerning whether the same should be continued in operation.

The evaluation submitted to the Legislature pursuant to this section shall contain information concerning: (a) the total number of students at each grade level participating in the programs funded under this chapter, and (b) the effectiveness of the programs funded under this chapter based to the maximum extent possible on objective measurements.

54007. In approving projects pursuant to this chapter, the Superintendent of Public Instruction, with the concurrence of the Director of Finance, may, upon the request of the applicant district, designate a portion of the district's entitlement which may be expended for noninstructional costs, including, but not limited to, costs for vandalism, security, and insurance. In no event, shall the total amount of funds designated for such purposes for all districts in the state exceed two million dollars ($2,000,000).

54008. Expenditures pursuant to this chapter shall be considered to be categorical program expenditures within the meaning of Section 52165 and therefore subject to the requirements of the Chacon-Moscone Bilingual-Bicultural Education Act of 1976 (Article 3 (commencing with Section 52160) of Chapter 7 of Part 28 of Division 4 of this title).

Article 2. Economic Impact Aid

54020. It is the intent of the Legislature that funds authorized pursuant to this chapter replace, as of July 1, 1979, funds previously authorized to support educationally disadvantaged youth programs and bilingual education. To that end, the purpose of this article is to provide a method of impact aid allocation to be utilized by the Superintendent of Public Instruction, which will allow efforts initiated under those programs to continue and expand so long as need exists while previously unserved and underserved populations are provided with adequate aid.

54021. The Legislature finds that in order to allow districts sufficient time to plan for programs authorized pursuant to this chapter, notification of entitlements shall be made to districts several months prior to actual disbursement of funds. The Legislature, therefore, shall announce its intent to appropriate funds for this chapter at least one year in advance of the normal budgetary appropriation process.

The Superintendent of Public Instruction shall calculate district entitlements for any fiscal year in December of the prior fiscal year utilizing the latest information available at that time and assuming the appropriation announced by the Legislature will be available for the fiscal year in question. The Superintendent of Public Instruction shall notify districts of their expected entitlements no later than February 1 of the prior fiscal year.

This section shall become operative for calculation of district entitlements for the 1979–80 fiscal year, and shall be utilized in calculation of entitlements for every fiscal year thereafter.

54022. For entitlements of the 1979–80 fiscal year and each year thereafter, the Superintendent of Public Instruction shall calculate state gross need by multiplying the state index of need by the average excess cost of education for impact aid.

The state index of need shall be: (1) the average of the estimated number of children aged 5–17 in poverty as measured by criteria used to define eligibility for Aid to Families with Dependent Children as applied to state or federal income tax data; (2) the estimated number of children age 5 to 17 in poverty as measured by criteria used to identify families in poverty for purposes of the United States census as applied to state or federal income tax data.

The average excess cost of education for impact aid shall be four hundred forty dollars ($440) in the 1979–80 fiscal year and shall be adjusted for 6 percent inflation each year thereafter. The calculation of state gross need shall be reviewed every two years by the Superintendent of Public Instruction, the Director of Finance, and the Legislative Analyst.

54023. For each eligible school district, the Superintendent of Public Instruction shall compute a share of the state gross need defined in Section 54022. To determine such shares he shall, for each district, compute the product of:

(a) A factor which shall be one-third the sum of the following three terms which shall be computed utilizing data from the three most recently available fiscal years:

(1) A ratio of "potential impact of bilingual-bicultural pupils" determined by dividing the percent of pupils in the district with Spanish and Asian surnames, and Indian pupils, as determined by the most recent ethnic survey conducted by the Department of Education, by the statewide average percentage of such pupils for unified, elementary, or high school districts, as appropriate.

(2) A ratio of the district's "index of family poverty," defined as the average of; the number of school age children in poverty as determined by the United States census and the number of school age children in families receiving aid for dependent children support, divided by its average daily attendance, divided in turn by the state average index of family poverty for unified, elementary, or high school districts, as appropriate.

(3) A ratio of the district's "index of pupil transiency," computed as the difference between 1 and the district's average daily attendance divided by its total annual enrollment, divided by the state average index of pupil transiency for unified, elementary, or high school districts, as appropriate.

(b) The district's average of; the number of school age children in poverty as determined by the United States census and the number of school age children in families receiving aid for dependent children support.

(c) A constant figure as determined by the Superintendent of Public Instruction so that the sum of all district shares will not exceed the state gross need.

54024. The Superintendent of Public Instruction shall calculate available resources for each district by summing funding entitlements allowed each district from the following sources:

(a) Base impact aid computed pursuant to Section 54028.

(b) Part A of Title I of the Elementary and Secondary Education Act of 1965.

(c) Section 54030.

54025. If, in any year, a district's share of gross need, calculated pursuant to Section 54023 exceeds resources available to that district, as calculated in Section 54024, the Superintendent of Public Instruction shall subtract the district's sum of available resources from its share of gross need and the difference shall be considered the district's "unmet need" except that unmet need shall be zero for any district with a factor of less than 0.35 as calculated in subdivision (a) of Section 54023.

The Superintendent of Public Instruction shall then compute what portion of all unmet need is represented by the unmet need of each district.

54026. The Superintendent of Public Instruction shall compare each district's share of state gross need as calculated in Section 54023 to that district's base impact aid for the prior fiscal year. When the district's base impact aid for the prior fiscal year exceeds its share of state gross need, the district's base impact aid shall be reduced to equal its share of state gross need but shall not be reduced more than 15 percent of its base impact aid for the prior fiscal year.

54027. New impact aid in any fiscal year shall be allocated to districts from the funds available after allocation of base impact aid, and inflation adjustments and in direct proportion to the district's portion of total unmet need, as calculated in Section 54025.

54028. For the 1979–80 fiscal year and each fiscal year thereafter, the Superintendent of Public Instruction shall apportion district entitlements for impact aid as follows:

(a) He shall apportion to each district its base impact aid as adjusted pursuant to Section 54026;

(b) He shall then apportion inflation adjustment for districts whose entitlements are not reduced pursuant to Section 54026;

(c) He shall then apportion such sums as are computed pursuant to Section 54027.

The total entitlements so derived shall be considered base impact aid in the following fiscal year.

Such amounts as are received by districts in the 1978–79 fiscal year pursuant to Section 54002 and Article 3 (commencing with Section 52160) of Chapter 7 of Part 28 of this division shall be considered base impact aid for the purposes of making entitlements for the 1979–80 fiscal year.

Article 3. Supplemental Allowances

54030. (a) For the 1977–78 fiscal year and each year thereafter, the Superintendent of Public Instruction shall:

(1) Determine those districts which have a factor of 1.25 or more pursuant to Section 54002 utilizing data used to compute entitlements for the 1976–77 fiscal year under this chapter.

(2) Multiply the district's factor by the aid to families with dependent children count of the district for the 1975–76 year. He shall total the result statewide for districts identified in paragraph (1) and shall divide such sum into the amount appropriated by the Legislature for purposes of this section for the fiscal year in question.

(3) Allocate to all districts identified in paragraph (1) an amount computed by multiplying the per unit amount in paragraph (2) by the district's factor, by the district's aid to families with dependent children count for the 1975–76 fiscal year. Such amounts shall be in addition to other apportionments computed under this chapter.

(b) If the sum appropriated for purposes of this section is not sufficient to make the allowances specified by this section, such allowances shall be reduced proportionately.

Article 4. Special Allocations to a Limited Number of Districts

54040. The Legislature recognizes that because of insufficient data, the formula for allocation of economic impact aid funds will not provide sufficient resources to a limited number of school districts with high concentrations of limited- and non-English-speaking pupils and pupils in poverty to ensure funding for appropriate educational services.

54041. (a) After calculating allocations pursuant to Article 2 (commencing with Section 54020) of this chapter each year, the Superintendent of Public Instruction shall review the estimated allocations for the next three years. He shall make this review to identify a limited number of districts with high concentrations of economic impact aid pupils, especially limited- and non-English-speaking pupils, which under the three-year projection will either not receive any funds or insufficient funds to meet the excess costs of serving impact aid pupils. The Superintendent of Public Instruction shall identify the districts which are eligible for special allocations by reviewing:

(1) District information concerning the number and concentration of pupils in poverty.

(2) District level information concerning the number and concentration of limited- and non-English-speaking pupils.

(3) Other district level information which he determines to be appropriate.

(b) He shall then notify the limited number of districts which meet the criteria specified in paragraphs (1), (2), and (3) that they will receive special allocations to meet the excess costs of serving

impact aid pupils by filing an application for the amount of funds he has determined will be needed.

(c) District application for special allocation funds shall be included in the application procedure adopted by the State Board of Education pursuant to Section 54005.

(d) Each year, the Superintendent of Public Instruction shall notify the Joint Legislative Budget Committee and the Department of Finance of methodology used to determine special allocations and the districts which receive such funding.

Article 5. Funding

54050. There is hereby appropriated from the General Fund to Section A of the State School Fund the sum of one hundred eighteen million one hundred forty-two thousand dollars ($118,142,000) for the purposes of educationally disadvantaged youth program apportionments pursuant to Section 54002 for the 1978–79 fiscal year except for an amount which equals seven million seventy-two thousand five hundred thirty-six dollars ($7,072,536) which shall be allocated pursuant to Section 78 of Chapter 323 of the Statutes of 1976.

SEC. 57. Chapter 1.5 (commencing with Section 54060) is added to Part 29 of the Education Code, to read:

CHAPTER 1.5. GENERAL AID TO DISTRICTS

54060. (a) For the 1977–78 fiscal year and each year thereafter the Superintendent of Public Instruction shall:

(1) Identify the unified school districts which received state allocations during the 1976–77 fiscal year pursuant to Section 54002, and determine those districts which have more than 12,022 students in average daily attendance in fiscal year 1975–76, and either of the following criteria:

(A) The product of the district factor determined pursuant to Section 54002 and the count for the 1975–76 fiscal year of children from families receiving Aid to Families with Dependent Children is equal to or greater than 3,731, or

(b) The district's index of family poverty determined pursuant to subdivision (b) of Section 54002 is greater than 1.5 and the total minority population in the district determined pursuant to the Racial and Ethnic Survey of 1973 is greater than 55 percent.

CHAPTER 904

An act to amend Sections 990 and 990.4 of the Government Code, and to amend Sections 1284 and 1322 of the Insurance Code, relating to malpractice insurance.

[Became law without Governor's signature September 20, 1977 Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 990 of the Government Code is amended to read:

990. Except for a liability which may be insured against pursuant to Division 4 (commencing with Section 3200) of the Labor Code, a local public entity may:

(a) Insure itself against all or any part of any tort or inverse condemnation liability.

(b) Insure any employee of the local public entity against all or any part of his liability for injury resulting from an act or omission in the scope of his employment.

(c) Insure, contract or provide against the expense of defending a claim against the local public entity or its employee, whether or not liability exists on such claim, including a claim for damages under Section 3294 of the Civil Code or otherwise for the sake of example or by way of punishment, where such liability arose from an act or omission in the scope of his employment, and an insurance contract for such purpose is valid and binding notwithstanding Section 1668 of the Civil Code, Section 533 of the Insurance Code, or any other provision of law.

(d) A hospital district may participate in a reciprocal or interinsurance exchange with the members of its medical staff as provided in Section 1284 of the Insurance Code.

Nothing in this section shall be construed to authorize a local public entity to pay for, or to insure, contract, or provide for payment for, such part of a claim or judgment against an employee of the local entity as is for punitive or exemplary damages.

SEC. 2. Section 990.4 of the Government Code is amended to read:

990.4. The insurance authorized by this part may be provided by:

(a) Self-insurance, which may be, but is not required to be, funded by appropriations to establish or maintain reserves for self-insurance purposes.

(b) Insurance in any insurer authorized to transact such insurance in this state.

(c) Insurance secured in accordance with Chapter 6 (commencing with Section 1760) of Part 2 of Division 1 of the Insurance Code.

(d) Participation by a hospital district and its medical staff in a reciprocal or interinsurance exchange as provided in Section 1284 of the Insurance Code.

(e) Any combination of insurance authorized by subdivisions (a), (b), (c), and (d).

SEC. 3. Section 1284 of the Insurance Code is amended to read:

1284. Notwithstanding any other provision of this chapter or of this code, any reciprocal or interinsurance exchange which meets all of the conditions of this section shall be exempted from all reserve requirements of this code to which it would otherwise be subject:

(a) The subscribers are comprised of a local hospital district formed pursuant to Division 23 (commencing with Section 32000) of

the Health and Safety Code and the individual participating members of its attending medical staff, or any hospital (as defined in Section 1250 of the Health and Safety Code) and the individual participating members of its attending medical staff. As used in this section, "attending medical staff" refers to licensed physicians and surgeons, podiatrists, and dentists who have hospital privileges at any hospital and not to interns or residents who are employees of such hospital.

(b) The physicians and surgeons on the attending medical staff are independent contractors, whether individually, through professional corporations, or through partnership or clinic arrangements, and the creation of the reciprocal or interinsurance exchange will not affect the prerogatives of such physicians and surgeons in accepting patients, charging fees, or similar issues in the management of a medical practice. This subdivision shall not be construed to limit the authority of a peer review committee to impose such restrictions on the staff privileges of a participating member of the attending medical staff as deemed warranted by the peer review procedure and medical audit methods provided by subdivision (h).

(c) The initial capitalization for the reciprocal or interinsurance exchange specified in subdivisions (d), (e), and (f) shall be equivalent to the total professional and comprehensive general patient liability losses paid by the hospital and its participating medical staff members during the 10 calendar years immediately preceding the year in which the application for the organizational permit is filed. For the medical staff, "total professional and comprehensive general patient liability losses" shall include all losses paid by the participating medical staff members, whether based on their practice in the hospital or outside the hospital. Such combined total shall be funded or secured by equal contributions from the hospital and, collectively, the individual participating members of its attending medical staff. Such funds shall be used to pay for the losses incurred for awards, settlements, and legal fees relating to alleged acts of medical malpractice committed by the hospital or any or all of its participating medical staff members, whether committed in or out of the hospital, and for the operational costs of the reciprocal or interinsurance exchange. Upon determination of the aggregate paid professional and comprehensive general patient liability claims of the preceding 10 years by a survey, such paid claims shall be categorized as provided by subdivisions (d) and (e). In the case of a hospital which has been in existence for less than 10 years, or which has substantially expanded its facilities over the preceding 10 years, or which has paid for no professional liability losses during the preceding 10 years, the commissioner may establish such capitalization requirements as he deems necessary and proper as compared to the amounts specified in subdivisions (d) and (e).

(d) A primary medical liability risk fund shall be maintained in an amount at least equivalent to the aggregate dollar amount of paid

incident claims of one hundred thousand dollars ($100,000) or less per each incident for both the hospital and the participating members of the attending medical staff as provided by subdivision (c).

(e) A catastrophic medical liability risk fund shall be maintained in an amount at least equivalent to the aggregate dollar amount of paid incident claims in excess of one hundred thousand dollars ($100,000) per incident for both the hospital and the participating members of the attending medical staff as provided in subdivision (c). These funds shall be either (1) deposited as cash or secured by letters of credit, certificates of deposit or promissory notes, or (2) be obtained through an executed and delivered loan commitment with a duration of at least one year by a banking institution qualified to do business in California or other forms of credit or assets readily convertible to cash to meet liabilities of the reciprocal or interinsurance exchange organized pursuant to this section.

(f) All funds or assets collected by a reciprocal or interinsurance exchange established under this section and maintained in a form as set forth in subdivisions (d) and (e) shall be admitted assets valued at face value and be held in accordance with Section 1370 of the Insurance Code, except that a credit commitment shall not be considered an admitted asset for the purpose of regulating investment of assets.

(g) The reciprocal or interinsurance exchange may seek from a licensed insurer, or secure in accordance with Chapter 6 (commencing with Section 1760) of Part 2 of Division 1, excess risk coverage for amounts above the self-retention limit of subdivisions (c), (d), and (e). The hospital and the individual members of the attending medical staff shall have unlimited several liability pursuant to Section 1395 to contribute to any liability not covered by such excess risk coverage insurance. Such liability shall be based upon each subscriber's share of the total liability of the reciprocal or interinsurance exchange as determined by a formula adopted by its board of directors. In the event that a subscriber fails to pay any portion of an assessment, then, without releasing the defaulting subscriber from any obligation to the reciprocal or interinsurance exchange, the remaining subscribers shall be charged with the unpaid assessment in accordance with the adopted formula.

(h) The amounts specified in subdivisions (d), and (e) shall be available in the aggregate to meet the professional and comprehensive general patient liabilities of the hospital and the participating members of the attending medical staff, and shall be replenished annually, or more frequently, if necessary, to an amount equivalent to that specified in subdivision (c) or (q), whichever is greater. Such total shall be maintained by a ratio of contributions annually determined by the governing board of the reciprocal or interinsurance exchange as fair, just and reasonable between the hospital and the participating members of the attending medical staff. Assessments may be required as determined to be necessary by

the governing board and shall be due within 60 days of notice thereof. Failure to pay such assessments when due shall constitute grounds for termination of policy benefits or coverage.

(i) Any member of the attending medical staff participating in the program shall, as a condition of such participation, be subject to an extensive peer review procedure and a medical audit method of documenting the quality of medical care.

(j) Any system of rating or assessing individual participating members of the attending medical staff on the basis of their respective risk exposure shall be fair, just and reasonable.

(k) A promissory note, for the purposes of subdivision (e), shall be secured, and such security shall be perfected, by real or personal property having a market value one and one-half times the face value of the note.

(*l*) "Hospital," as used in this section, shall also include any two or more hospitals when either of the following conditions is met:

(i) They are governed by the same hospital district; or

(ii) Where there is a medical staff subject to a unified medical audit and peer review procedure.

(m) Any reciprocal or interinsurance exchange which meets all of the conditions of this section shall be exempt from the California Insurance Guarantee Association established pursuant to Article 14.2 (commencing with Section 1063) of Chapter 1 of Part 2 of Division 1.

(n) For the purposes of Section 985, minimum capitalization shall be either the initial capitalization as provided in subdivision (c) or the minimum capitalization required by subdivision (q), whichever is greater.

(o) In the event that the reciprocal or interinsurance exchange has reasonable cause to believe that its minimum capitalization may be impaired by current liabilities, including reported claims, it shall issue within 30 days to its subscribers notices of assessments in amounts sufficient to cure the impairment. Within 30 days of such notice the subscribers shall pay the assessment or present forms of indebtedness as provided by subdivision (e), except that with regard to a promissory note issued by a person or entity other than a banking institution qualified to do business in California, such note shall be secured by assets sufficient to assure payment of the debt should a default occur.

(p) Any notice of assessment issued pursuant to this section shall be considered an admitted asset at face value and reported as such for the purpose of determining solvency under Section 985.

(q) Minimum capitalization of a reciprocal or interinsurance exchange organized and conducted pursuant to this section shall be determined annually. For the first year following issuance of a certificate of authority, the minimum capitalization shall be that specified in subdivision (c). Each year thereafter, the reciprocal or interinsurance exchange shall conduct a new survey of its subscribers to reestablish their total professional and comprehensive patient

liability loss history as provided by subdivision (r). If such recalculation of such history discloses total losses exceeding the existing minimum capitalization by 20 percent, the minimum capitalization shall be increased to the amount of such new loss history within six months. Nothing in this subdivision shall be construed to preclude the reciprocal or interinsurance exchange from capitalizing at a level exceeding the minimum capitalization required by this section.

(r) The survey of subscribers which establishes total and comprehensive general patient loss liability history shall be annually recalculated to reflect the following:

(1) All such losses paid by, or on behalf of, the hospital for the immediately preceding 10 years;

(2) All such losses paid by, or on behalf of, participating individual members for the immediately preceding 10-calendar-year period during which they held staff privileges at the subscriber hospital; and

(3) All such losses paid by, or on behalf of, participating individual members of the attending medical staff during any portion of the immediately preceding five-calendar-year period in which they were not members of the subscriber hospital staff.

SEC. 4. Section 1322 of the Insurance Code is amended to read:

1322. The attorney prior to admission shall file with the commissioner a declaration verified by his oath or, where such attorney is a corporation, by the oath of its duly authorized officers. Such declaration shall set forth or have annexed thereto:

(a) The name of the attorney and the name under which contracts are to be made.

(b) The location of the principal office of the exchange.

(c) The classes of insurance to be exchanged.

(d) A copy of each form of policy under or by which insurance is to be exchanged.

(e) A copy of the form of the power of attorney or agreement under and by which such insurance is to be exchanged.

(f) A statement that executed contracts or bona fide applications, to be concurrently effective, have been made for the exchange of indemnities by at least 100 separate subscribers, except that such statement shall not be required for organizations operating pursuant to Section 1284.

(h) A statement that there are in the possession of such attorney subject to the supervision of the advisory board, assets conforming to the requirements of Article 5 of this chapter.

(i) A financial statement under oath in the form prescribed by the commissioner for the annual statement.

(j) The instrument authorizing service of process as provided in

this chapter.

(k) A certificate showing any deposits of funds or securities.

(3) Expenses incurred by the reporters in connection with the preparation of such transcripts.

(4) The amount of time the reporters have spent in attendance upon the courts for the purpose of reporting proceedings, and the compensation received for this purpose.

(5) Such other information as the Judicial Council may require.

Except as provided herein, the initial hiring rate for each position shall be step A, provided further, however, the judges of the superior court may appoint any such court reporter at a higher initial step if in the opinion of the judges of the superior court an individual to be appointed has such experience and qualification as to entitle that individual to such higher initial step. A step advancement from step A to step B may be granted on the first day of the month following the completion of six full months of service in the position. A person may advance to steps C, D, and E upon completion of successive 12-month periods of service. All merit increases as provided herein shall be made at the determination of the judges of the superior court.

In addition to the aforementioned compensation, each official court reporter shall receive twenty-five dollars ($25) per month as reimbursement for the cost of necessary supplies.

In the event a cost-of-living increase is given to the employees of Butte County, the aforementioned salary schedule shall be deemed amended so as to give the court reporters the same cost-of-living increase as is given Butte County employees. Such changes in compensation made pursuant to these provisions shall be on an interim basis and shall expire on January 1 of the second year after the calendar year in which the change occurs, unless ratified by the Legislature.

The foregoing salary is for compensation for reporting services in the superior court under subdivision (a) of this section. For all transcriptions incident to reporting services, each reporter shall receive the fees provided for in Article 9 (commencing with Section 69941) of this chapter.

They shall be paid in accordance with the per diem, transcription, and other fee provisions of Article 9 (commencing with Section 69941) of this chapter. Such per diem, traveling and other expenses, and the fees chargeable to the county under the terms of these provisions shall be a proper

county charge.

SEC. 4. Section 70054.4 of the Government Code is amended to read:

70054.4. Notwithstanding the provisions of Sections 70053 and 70054, in Butte County:

(a) In order to help defray the costs of reporting services, in addition to any fees otherwise required by law, a fee of eighteen dollars ($18) shall be paid to the county clerk by each party, or jointly by parties appearing jointly, in each of the following instances:

(1) Where Section 26821 requires such party or parties to pay the county clerk a fee for the filing of the first paper in a civil action or in a special proceeding, except in an appeal from an inferior court.

(2) Where Sections 26822 to 26825, inclusive, require such party or parties to pay the county clerk a fee for filing papers transmitted from another court on the transfer of a civil action or special proceeding from another court, except in an appeal from an inferior court.

(3) Where Section 26826 requires the party or parties to pay the clerk a fee on the appearance in a civil action or special proceeding of a defendant, intervenor, respondent, corespondent, or adverse party, except in an appeal from an inferior court.

(4) Where Section 26827 requires such party or parties to pay the county clerk a fee for the filing of a petition or other paper in a probate, guardianship, conservatorship, or other proceeding specified in that section.

(b) In addition to any fee otherwise required, in civil cases that last longer than five judicial days, a fee per day equal to the per diem rate for official reporters pro tempore shall be charged to the parties for the services of an official reporter for the sixth and each successive day a reporter is required.

(c) In addition to any fee otherwise required, in a civil case in which the court orders a daily transcript, necessitating the services of two phonographic reporters, the party requesting the daily transcript shall pay a fee per day equal to the per diem rate for official reporters pro tempore for the services of the second reporter for the first and each successive day.

(d) All fees paid under this section shall be taxed as costs.

SEC. 5. The Legislature hereby finds and declares that, in view of its constitutionally delegated responsibility of setting salaries for court reporters, it is necessary to obtain information regarding the total compensation paid to court reporters from all sources so as to allow proper evaluation of legislative proposals relating to court reporters' salaries on an ongoing basis.

Such legislative proposals are not made on a uniform, statewide basis, but on a county-by-county basis. Therefore, it is necessary to monitor the compensation provided court reporters on an individual county basis reflecting the periodic legislative proposals which are made for specific counties. Accordingly, this legislation affecting Butte, Siskiyou, and Yuba Counties is necessary to permit the Legislature to carry out its constitutionally delegated responsibility of set-

ting court reporters' salaries in such counties in view of the submitted request for an adjustment in the compensation provided to court reporters in such counties.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any other appropriation made by this act, because the provisions of this act are in accordance with the request of a local government entity which desired legislative authority to carry out any program and perform any service required by the act.

SEC. 7. If any provision of Section 1, 2, 3, or 4 of this act, or the application thereof, is enjoined, restrained, or otherwise held invalid, then every other provision or application of such provisions shall be void, and to this end the provisions of such sections are inseverable.

CHAPTER 906

An act to amend Section 830.12 of the Penal Code, relating to security officers designated by municipal utility districts, and declaring the urgency thereof, to take effect immediately.

[Became law without Governor's signature September 20, 1977 Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 830.12 of the Penal Code is amended to read:

830.12. (a) Persons designated as security officers by a municipal utility district pursuant to Section 12820 of the Public Utilities Code are peace officers while engaged in the performance of their duties as security officers.

(b) The authority of any such peace officer extends to any place in the state as to a public offense committed or which there is probable cause to believe has been committed with respect to persons or property, the protection of which is the immediate duty of such officer.

(c) The district shall adopt regulations controlling the use of firearms by such security officers. Such regulations shall ensure that such peace officers shall not carry firearms except when there is a public emergency, as defined by such regulations, necessitating the immediate use of firearms, provided that a district which operates facilities for generating, transmitting, and distributing electricity may adopt regulations permitting any such peace officers who are uniformed to carry firearms for the purpose of providing security for such facilities and for the personnel operating such facilities.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting such necessity are:

Regulations recently adopted by the U.S. Nuclear Regulatory Commission require carrying of firearms by peace officers employed by operators of nuclear power plants. In order that municipal utility districts be able to comply with such regulations, it is necessary that this legislation take immediate effect.

CHAPTER 907

An act to amend Sections 6863 and 6947 of the Business and Professions Code, and to add Title 1.6C (commencing with Section 1788) to Part 4 of Division 3 of the Civil Code, relating to debt collection.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Title 1.6C (commencing with Section 1788) is added to Part 4 of Division 3 of the Civil Code, to read:

TITLE 1.6C. FAIR DEBT COLLECTION PRACTICES

Article 1. General Provisions

1788. This title may be cited as the Robbins-Rosenthal Fair Debt Collection Practices Act.

1788.1. (a) The Legislature makes the following findings:

(1) The banking and credit system and grantors of credit to consumers are dependent upon the collection of just and owing debts. Unfair or deceptive collection practices undermine the public confidence which is essential to the continued functioning of the banking and credit system and sound extensions of credit to consumers.

(2) There is need to ensure that debt collectors and debtors exercise their responsibilities to one another with fairness, honesty and due regard for the rights of the other.

(b) It is the purpose of this title to prohibit debt collectors from engaging in unfair or deceptive acts or practices in the collection of consumer debts and to require debtors to act fairly in entering into and honoring such debts, as specified in this title.

1788.2. (a) Definitions and rules of construction set forth in this section are applicable for the purpose of this title.

(b) The term "debt collection" means any act or practice in connection with the collection of consumer debts.

(c) The term "debt collector" means any person who, in the ordinary course of business, regularly, on behalf of himself or others,

engages in debt collection. The term includes any person who composes and sells, or offers to compose and sell, forms, letters, and other collection media used or intended to be used for debt collection, but does not include an attorney or counselor at law.

(d) The term "debt" means money, property or their equivalent which is due or owing or alleged to be due or owing from a natural person to another person.

(e) The term "consumer credit transaction" means a transaction between a natural person and another person in which property, services or money is acquired on credit by that natural person from such other person primarily for personal, family, or household purposes.

(f) The terms "consumer debt" and "consumer credit" mean money, property or their equivalent, due or owing or alleged to be due or owing from a natural person by reason of a consumer credit transaction.

(g) The term "person" means a natural person, partnership, corporation, trust, estate, cooperative, association or other similar entity.

(h) The term "debtor" means a natural person from whom a debt collector seeks to collect a consumer debt which is due and owing or alleged to be due and owing from such person.

(i) The term "creditor" means a person who extends consumer credit to a debtor.

(j) The term "consumer credit report" means any written, oral or other communication of any information by a consumer reporting agency bearing on a consumer's credit worthiness, credit standing, credit capacity, character, general reputation, personal characteristics or mode of living which is used or expected to be used or collected in whole or in part for the purpose of serving as a factor in establishing the consumer's eligibility for (1) credit or insurance to be used primarily for person, family, or household purposes, or (2) employment purposes, or (3) other purposes authorized under any applicable Federal or state law or regulation. The term does not include (a) any report containing information solely as to transactions or experiences between the consumer and the person making the report; (b) any authorization or approval of a specific extension of credit directly or indirectly by the issuer of a credit card or similar device; or (c) any report in which a person who has been requested by a third party to make a specific extension of credit directly or indirectly to a consumer conveys his decision with respect to such request, if the third party advises the consumer of the name and address of the person to whom the request was made and such person makes the disclosures to the consumer required under any applicable federal or state law or regulation.

(k) The term "consumer reporting agency" means any person which, for monetary fees, dues, or on a cooperative nonprofit basis, regularly engages, in whole or in part, in the practice of assembling or evaluating consumer credit information or other information on

consumers for the purpose of furnishing consumer credit reports to third parties, and which uses any means or facility for the purpose of preparing or furnishing consumer credit reports.

1788.3. Nothing contained in this title shall be construed to prohibit a credit union chartered under Division 5 (commencing with Section 14000) of the Financial Code or under the Federal Credit Union Act (Chapter 14 (commencing with Section 1751) of Title 12 of the United States Code) from providing information to an employer when the employer is ordinarily and necessarily entitled to receive such information because he is an employee, officer, committee member, or agent of such credit union.

Article 2. Debt Collector Responsibilities

1788.10. No debt collector shall collect or attempt to collect a consumer debt by means of the following conduct:

(a) The use, or threat of use, of physical force or violence or any criminal means to cause harm to the person, or the reputation, or the property of any person;

(b) The threat that the failure to pay a consumer debt will result in an accusation that the debtor has committed a crime where such accusation, if made, would be false;

(c) The communication of, or threat to communicate to any person the fact that a debtor has engaged in conduct, other than the failure to pay a consumer debt, which the debt collector knows or has reason to believe will defame the debtor;

(d) The threat to the debtor to sell or assign to another person the obligation of the debtor to pay a consumer debt, with an accompanying false representation that the result of such sale or assignment would be that the debtor would lose any defense to the consumer debt;

(e) The threat to any person that nonpayment of the consumer debt may result in the arrest of the debtor or the seizure, garnishment, attachment or sale of any property or the garnishment or attachment of wages of the debtor, unless such action is in fact contemplated by the debt collector and permitted by the law; or

(f) The threat to take any action against the debtor which is prohibited by this title.

1788.11. No debt collector shall collect or attempt to collect a consumer debt by means of the following practices:

(a) Using obscene or profane language;

(b) Placing telephone calls without disclosure of the caller's identity, provided that an employee of a licensed collection agency may identify himself by using his registered alias name as long as he correctly identifies the agency he represents;

(c) Causing expense to any person for long distance telephone calls, telegram fees or charges for other similar communications, by misrepresenting to such person the purpose of such telephone call, telegram or similar communication;

(d) Causing a telephone to ring repeatedly or continuously to annoy the person called; or

(e) Communicating, by telephone or in person, with the debtor with such frequency as to be unreasonable and to constitute an harassment to the debtor under the circumstances.

1788.12. No debt collector shall collect or attempt to collect a consumer debt by means of the following practices:

(a) Communicating with the debtor's employer regarding the debtor's consumer debt unless such a communication is necessary to the collection of the debt, or unless the debtor or his attorney has consented in writing to such communication. A communication is necessary to the collection of the debt only if it is made for the purposes of verifying the debtor's employment, locating the debtor, or effecting garnishment, after judgment, of the debtor's wages, or in the case of a medical debt for the purpose of discovering the existence of medical insurance. Any such communication shall be in writing unless such written communication receives no response within 15 days and shall be made only as many times as is necessary to the collection of the debt. Communications to a debtor's employer regarding a debt shall not contain language that would be improper if the communication were made to the debtor. One communication solely for the purpose of verifying the debtor's employment may be oral without prior written contact.

(b) Communicating information regarding a consumer debt to any member of the debtor's family, other than the debtor's spouse or the parents or guardians of the debtor who is either a minor or who resides in the same household with such parent or guardian, prior to obtaining a judgment against the debtor, except where the purpose of the communication is to locate the debtor, or where the debtor or his attorney has consented in writing to such communication;

(c) Communicating to any person any list of debtors which discloses the nature or existence of a consumer debt, commonly known as "deadbeat lists", or advertising any consumer debt for sale, by naming the debtor; or

(d) Communicating with the debtor by means of a written communication that displays or conveys any information about the consumer debt or the debtor other than the name, address and telephone number of the debtor and the debt collector and which is intended both to be seen by any other person and also to embarrass the debtor.

(e) Notwithstanding the foregoing provisions of this section, the disclosure, publication or communication by a debt collector of information relating to a consumer debt or the debtor to a consumer reporting agency or to any other person reasonably believed to have a legitimate business need for such information shall not be deemed to violate this title.

1788.13. No debt collector shall collect or attempt to collect a consumer debt by means of the following practices:

(a) Any communication with the debtor other than in the name either of the debt collector or the person on whose behalf the debt collector is acting;

(b) Any false representation that any person is an attorney or counselor at law;

(c) Any communication with a debtor in the name of an attorney or counselor at law or upon stationery or like written instruments bearing the name of the attorney or counselor at law, unless such communication is by an attorney or counselor at law or shall have been approved or authorized by such attorney or counselor at law;

(d) The representation that any debt collector is vouched for, bonded by, affiliated with, or is an instrumentality, agent or official of any federal, state or local government or any agency of federal, state or local government, unless the collector is actually employed by the particular governmental agency in question and is acting on behalf of such agency in the debt collection matter;

(e) The use of any written communication which simulates or is falsely represented to be a document authorized, issued or approved by a court or agency of any federal, state or local government;

(f) The false representation that the consumer debt may be increased by the addition of attorney's fees, investigation fees, service fees, finance charges, or other charges if, in fact, such fees or charges may not legally be added to the existing obligation;

(g) The false representation that information concerning a debtor's failure or alleged failure to pay a consumer debt has been or is about to be referred to a consumer reporting agency;

(h) The false representation that a debt collector is a consumer reporting agency;

(i) The false representation that collection letters, notices or other printed forms are being sent by or on behalf of a claim, credit, audit or legal department;

(j) The false representation of the true nature of the business or services being rendered by the debt collector;

(k) The false representation that a legal proceeding has been, is about to be, or will be instituted unless payment of a consumer debt is made;

(*l*) The false representation that a consumer debt has been, is about to be, or will be sold, assigned, or referred to a debt collector for collection; or

(m) Any communication by a licensed collection agency to a debtor demanding money unless the claim is actually assigned to the collection agency.

1788.14. No debt collector shall collect or attempt to collect a consumer debt by means of the following practices:

(a) Obtaining an affirmation from a debtor who has been adjudicated a bankrupt, of a consumer debt which has been discharged in such bankruptcy, without clearly and conspicuously disclosing to the debtor, in writing, at the time such affirmation is sought, the fact that the debtor is not legally obligated to make such

affirmation;

(b) Collecting or attempting to collect from the debtor the whole or any part of the debt collector's fee or charge for services rendered, or other expense incurred by the debt collector in the collection of the consumer debt, except as permitted by law; or

(c) Initiating communications, other than statements of account, with the debtor with regard to the consumer debt, when the debt collector has been previously notified in writing by the debtor's attorney that the debtor is represented by such attorney with respect to the consumer debt and such notice includes the attorney's name and address and a request by such attorney that all communications regarding the consumer debt be addressed to such attorney, unless the attorney fails to answer correspondence, return telephone calls, or discuss the obligation in question. This subdivision shall not apply where prior approval has been obtained from the debtor's attorney, or where the communication is a response in the ordinary course of business to a debtor's inquiry.

1788.15. (a) No debt collector shall collect or attempt to collect a consumer debt by means of judicial proceedings when the debt collector knows that service of process, where essential to jurisdiction over the debtor or his property, has not been legally effected.

(b) No debt collector shall collect or attempt to collect a consumer debt, other than one reduced to judgment, by means of judicial proceedings in a county other than the county in which the debtor has incurred the consumer debt or the county in which the debtor resides at the time such proceedings are instituted, or resided at the time the debt was incurred.

Article 3. Debtor Responsibilities

1788.20. In connection with any request or application for consumer credit, no person shall:

(a) Request or apply for such credit at a time when such person knows there is no reasonable probability of such person's being able, or such person then lacks the intention, to pay the obligation created thereby in accordance with the terms and conditions of the credit extension; or

(b) Knowingly submit false or inaccurate information or willfully conceal adverse information bearing upon such person's credit worthiness, credit standing, or credit capacity.

1788.21. (a) In connection with any consumer credit existing or requested to be extended to a person, such person shall within a reasonable time notify the creditor or prospective creditor of any change in such person's name, address, or employment.

(b) Each responsibility set forth in subdivision (a) shall apply only if and after the creditor clearly and conspicuously in writing discloses such responsibility to such person.

1788.22. (a) In connection with any consumer credit extended to a person under an account:

(1) No such person shall attempt to consummate any consumer credit transaction thereunder knowing that credit privileges under the account have been terminated or suspended.

(2) Each such person shall notify the creditor by telephone, telegraph, letter, or any other reasonable means that an unauthorized use of the account has occurred or may occur as the result of loss or theft of a credit card, or other instrument identifying the account, within a reasonable time after such person's discovery thereof, and shall reasonably assist the creditor in determining the facts and circumstances relating to any unauthorized use of the account.

(b) Each responsibility set forth in subdivision (a) shall apply only if and after the creditor clearly and conspicuously in writing discloses such responsibility to such person.

Article 4. Enforcement

1788.30. (a) Any debt collector who violates this title with respect to any debtor shall be liable to that debtor only in an individual action, and his liability therein to that debtor shall be in an amount equal to the sum of any actual damages sustained by the debtor as a result of the violation.

(b) Any debt collector who willfully and knowingly violates this title with respect to any debtor shall, in addition to actual damages sustained by the debtor as a result of the violation, also be liable to the debtor only in an individual action, and his additional liability therein to that debtor shall be for a penalty in such amount as the court may allow, which shall not be less than one hundred dollars ($100) nor greater than one thousand dollars ($1,000).

(c) In the case of any action to enforce any liability under this title, the prevailing party shall be entitled to costs of the action. Reasonable attorney's fees, which shall be based on time necessarily expended to enforce the liability, shall be awarded to a prevailing debtor; reasonable attorney's fees may be awarded to a prevailing creditor upon a finding by the court that the debtor's prosecution or defense of the action was not in good faith.

(d) A debt collector shall have no civil liability under this title if, within 15 days either after discovering a violation which is able to be cured, or after the receipt of a written notice of such violation, the debt collector notifies the debtor of the violation, and makes whatever adjustments or corrections are necessary to cure the violation with respect to the debtor.

(e) A debt collector shall have no civil liability to which such debt collector might otherwise be subject for a violation of this title, if the debt collector shows by a preponderance of evidence that the violation was not intentional and resulted notwithstanding the maintenance of procedures reasonably adapted to avoid any such violation.

(f) Any action under this section may be brought in any

appropriate court of competent jurisdiction in an individual capacity only, within one year from the date of the occurrence of the violation.

(g) Any intentional violation of the provisions of this title by the debtor may be raised as a defense by the debt collector, if such violation is pertinent or relevant to any claim or action brought against the debt collector by or on behalf of the debtor.

1788.31. If any provision of this title, or the application thereof to any person or circumstances, is held invalid, the remaining provisions of this title, or the application of such provisions to other persons or circumstances, shall not be affected thereby.

1788.32. The remedies provided herein are intended to be cumulative and are in addition to any other procedures, rights, or remedies under any other provision of law. The enactment of this title shall not supersede existing administrative regulations of the Director of Consumer Affairs except to the extent that those regulations are inconsistent with the provisions of this title.

SEC. 2. Section 6863 of the Business and Professions Code is amended to read:

(g) Advertise for sale or threaten to advertise for sale any claim as a means of endeavoring to enforce payment thereof, nor agree to do so for the purpose of solicitation of claims, except where the licensee has acquired claims as an assignee for the benefit of creditors or where the licensee is acting under the order of a court of competent jurisdiction.

The Department of the California Highway Patrol shall adopt regulations relating to the safe operation of schoolbuses which shall include requiring school district governing boards to implement plans to monitor bus routes, schedules, and alerting procedures for notifying law enforcement agencies whenever a schoolbus is unreasonably overdue and to include in their schoolbus driver training programs, the proper actions to be taken in the event that a schoolbus is hijacked.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

SECTION 1. Section 11628 of the Insurance Code is amended to read.

11628. No admitted insurer, licensed to issue motor vehicle liability policies as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for such insurance, to issue such

insurance to an applicant therefor, or issue or cancel such insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every race, language, color, religion, national origin, ancestry, or the same geographic area; nor shall race, language, color, religion, national origin, ancestry, or location within a geographic area of itself constitute a condition or risk for which a higher rate, premium, or charge may be required of the insured for such insurance.

As used in this section "geographic area" means a portion of this state of not less than 20 square miles defined by description in the rating manual of an insurer or in the rating manual of a rating bureau of which the insurer is a member or subscriber. Such statement shall be furnished within 30 days of receipt of such request.

(b) Any insurer or agent willfully violating any provisions of this section is guilty of a misdemeanor and is punishable by a fine not exceeding five hundred dollars ($500) for each violation thereof.

(c) There shall be no liability on the part of, and no cause of action of any nature shall arise against, the Insurance Commissioner or against any insurer, its authorized representative, its agents, its employees, or any firm, person or corporation furnishing to the insurer information as to the reasons for such a refusal, for any statement made by any of them in any written notice of reasons for refusing to accept the application or issue the policy or in any other communication, oral or written, specifying the reasons for such action or the providing of the information pertaining thereto, or for statements made or evidence submitted in any hearings conducted in connection therewith.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that

section nor shall there by an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 915

An act to amend Sections 74101, 74102, 74104, 78200, 78412, 78462, 84764, and 84765 of, and to add Sections 5015.5, 74103, 74105, 74106, 78201.5, and 85133.2 to, and to repeal Sections 74103 and 74105 of, the Education Code, and to amend Section 2228.1 of the Revenue and Taxation Code, relating to community colleges, and making an appropriation therefor.

74102. Except as provided in Section 74104, no community college district shall be formed and the board of governors shall not approve a petition to form a community college district if the assessed valuation of taxable property in the proposed district would be less than one hundred fifty thousand dollars ($150,000) for each unit of estimated resident average daily attendance in the third year of operation for all purposes. SEC. 6. Section 74105 of the Education Code is repealed.

SEC. 7. Section 74105 is added to the Education Code, to read:

74105. For the purposes of Section 74104, "isolation" means that the territory is separated from the closest community college district by a major mountain range and the combining of all contiguous nondistrict territories would result in an average daily attendance of less than 3,000 in the third year of operation for all purposes.

74106. Except for a community college district formed pursuant to Section 74104, any district formed after July 1, 1977, and which does not, after three years from the date of approval by the board of governors of the district's organization or reorganization, have at least 3,000 average daily attendance annually credited to it, shall, by appropriate reorganization procedures, be included within the territory of a contiguous community college district, with consideration given to annexation to the district with the least amount of average daily attendance.

For the purposes of this section, "educational program" is an organized sequence of courses leading to a degree, a certificate, a diploma, a license, or transfer to another institution of higher education.

The provisions of this section apply to credit and noncredit classes of community colleges.

8534.

(b) Subject to Section 84526, the average daily attendance of adults in classes described in subdivision (a) shall be computed as prescribed by Section 84520 or 84524.5.

(c) For each community college district with more than 3,000 units of average daily attendance for the prior fiscal year, the state apportionment in the current year for the growth in its student attendance between the prior year and the current year shall be computed as follows:

(1) Determine the amount of the prior year second principal apportionment to all community college districts for student attendance computed pursuant to Sections 84520 and 84524.5.

(2) Divide the amount determined in (1) by the total units of average daily attendance computed pursuant to Sections 84520 and 84524.5 for all community college districts on the prior year second principal apportionment.

(3) Multiply the result of the computation in (2) by 1.06 times the equalization factor for the district determined pursuant to subdivision (f) and the demographic factor for the district determined pursuant to subdivision (g).

(4) Determine the amount of the difference between the total units of average daily attendance for the district computed pursuant to Sections 84520 and 84524.5 on the prior year second principal apportionment and the total units of average daily attendance for the district computed pursuant to Sections 84520 and 84524.5 for the current year second principal apportionment.

(5) Multiply the result of the computation in (3) by the amount determined in (4). The result of the computation shall be the state apportionment to the district in the current year for the growth in the student attendance between the prior year and the current year. In no case shall this amount be less than one hundred twenty-five dollars ($125) times the increase in the total units of average daily attendance for the district determined in (4).

(d) For each community college district with less than 3,001 units of average daily attendance for the current fiscal year, the state apportionment for its prior fiscal year level of student attendance shall be computed as follows:

(1) Determine the total units of average daily attendance computed pursuant to Sections 84520 and 84524.5 for the second principal apportionment of the prior fiscal year and the current fiscal year.

(2) Determine a small district multiplier equal to 1.0 (a + bx) where

a = .47615

b = .0001746, and

x = the units of average daily attendance determined in paragraph (1) for the current fiscal year.

(3) Multiply the number determined in paragraph (2) by the number determined in paragraph (c) (3).

(4) Multiply the number determined in paragraph (3) by the units of average daily attendance determined in paragraph (1).

(5) The state apportionment to the district for its prior fiscal year level of student attendance is the greater of paragraph (4) or that amount determined by paragraph (b) (4).

(e) If the total units of average daily attendance for the current fiscal year are less than 3,001:

(1) Multiply the number determined in paragraph (c) (4) by the number determined in paragraph (d) (3).

(2) The state apportionment to the district in the 1977–78 fiscal year or fiscal years thereafter for the growth in its student attendance between the prior fiscal year and the current fiscal year shall be the greater of paragraph (1) and that determined by paragraph (c) (5).

(f) The equalization factor for a district shall be computed as follows:

(1) Divide the total modified assessed valuation for all community

college districts on the current year second principal apportionment by the total units of resident average daily attendance for all community college districts computed pursuant to Sections 84520 and 84524.5 for the current year second principal apportionment.

(2) Divide the modified assessed valuation for the district on the current year second principal apportionment by the total units of resident average daily attendance for the district computed pursuant to Sections 84520 and 84524.5 for the current year second principal apportionment.

(3) Divide the result of the computation in (1) by the result of the computation in (2). This amount shall be the equalization factor for the district. The maximum equalization factor for any district shall be 2.

(g) The demographic factor for a district shall be computed as follows:

(1) Divide the total units of resident average daily attendance for all community college districts on the current fiscal year second principal apportionment by the total adult population, excluding the population in state and federal correctional institutions and all persons residing in student housing associated with four-year educational institutions with an enrollment of 3,000 or more persons residing in military barracks, for all community college districts on January 1 of the current fiscal year as estimated by the Department of Finance in cooperation with the chancellor's office.

(2) Divide the units of resident average daily attendance for the district on the current fiscal year second principal apportionment by the total adult population, excluding the population in state and federal correctional institutions and all persons residing in student housing associated with four-year educational institutions with an enrollment of 3,000 or more persons residing in military barracks, of the district on January 1 of the current fiscal year as estimated by the Department of Finance in cooperation with the chancellor's office.

(3) Divide the result of the computation in (1) by the result of the computation in (2). This amount in no case shall be more than 1.5.

(4) The demographic factor shall be 1.0 for those districts whose value calculated in paragraph (3) is below the median of the values calculated in paragraph (3) and for all other districts shall be 1 plus that portion of the value calculated in (3) which results in a total state apportionment of four million dollars ($4,000,000) to those districts with a value as determined in paragraph (3) of this subdivision that exceeds the statewide median value for this calculation for the demographic factor.

SEC. 14. Section 84765 of the Education Code is amended to read:

84765. (a) If the total units of average daily attendance for the community college district computed pursuant to Sections 84520 and 84524.5 for the current year second principal apportionment is less than the total units of average daily attendance computed pursuant to Sections 84520 and 84524.5 for the prior year second principal

apportionment, the chancellor's office of the California Community Colleges shall compute the state apportionment to the district in accordance with subdivision (b) if the total units of average daily attendance for the prior year second principal apportionment is greater than 3,000, and in accordance with subdivision (c) otherwise.

(b) The state apportionment to each district with total units of average daily attendance for the prior year second principal apportionment greater than 3,000 shall be computed as follows:

(1) Determine the amount of the difference between the total units of average daily attendance for the district computed pursuant to Sections 84520 and 84524.5 on the prior year second principal apportionment and the total units of average daily attendance for the district computed pursuant to Sections 84520 and 84524.5 for the current year second principal apportionment.

(2) Determine the amount of the prior year second principal apportionment to the district for student attendance computed pursuant to Sections 84520 and 84524.5.

(3) Divide the amount determined in (2) by the total units of average daily attendance computed pursuant to Sections 84520 and 84524.5 for the district on the prior year second principal apportionment.

(4) Multiply the amount determined in (1) by the result of the computation in (3).

(5) Subtract the result of the computation in (4) from the amount of the prior year second principal apportionment to the district for student attendance computed pursuant to Sections 84520 and 84524.5.

(6) Multiply the result of the computation in (5) by 0.06 times the equalization factor for the district determined pursuant to subdivision (c) of Section 84764.

(7) Add the result of the computation in (6) to the result of the computation in (5).

(8) Multiply the amount determined in paragraph (7), by the demographic factor for the district determined pursuant to subdivision (g) of Section 84764. The result of this computation shall be the second principal apportionment to the district in the current year.

(c) For each community college district with less than 3,001 units of average daily attendance for the current fiscal year, the state apportionment shall be computed as follows:

(1) Determine the total units of average daily attendance computed pursuant to Sections 84520 and 84524.5 for the current fiscal year second principal apportionment.

(2) Determine a small district multiplier equal to $1.0/(a + bx)$ where

$a = .47615$

$b = .0001746$, and

$x =$ the units of average daily attendance determined in paragraph (1).

(3) Multiply the number determined in paragraph (2) by the number determined in paragraph (c) (3) of Section 84764.

(4) Multiply the number determined in paragraph (3) by the units of average daily attendance determined in paragraph (1).

(5) The state apportionment to the district shall be the greater of paragraph (4) or that amount determined by paragraph (b) (8).

SEC. 15. Section 85133.2 is added to the Education Code, to read:

85133.2. The county superintendent of schools shall calculate an increased or decreased maximum tax rate for a community college district computed under Section 85132 or 85133 due to adjustments made in average daily attendance pursuant to Sections 84040, 84330, 84331 and 84332 as shown in the chancellor's "Audit Resolution Report" pertaining to any audit conducted by the Department of Finance prior to the 1976–77 fiscal year.

SEC. 16. Section 2228.1 of the Revenue and Taxation Code is amended to read:

2228.1. (a) Annually, the Department of Finance shall transmit to each community college district an estimate of its annual percentage change in adult population. Such estimates shall indicate the percentage change in the resident population within the geographic boundaries of the district consistent with the geographic boundaries used to determine the assessed valuation for the current and budget fiscal years excluding the population in state and federal correctional institutions and all full-time enrollment associated with four-year educational institutions with an enrollment of 3,000 or more and persons residing in military barracks of each district between January 1 of the prior year and January 1 of the current year if possible, or between the fall school census week of the prior fiscal year and the fall school census week of the current year. Such statements shall be transmitted by May 15.

The Department of Finance may request data from any local agency to be used to prepare the population estimate required by this section. If any local agency fails to supply the requested data, the department is not required to provide an estimate for the school district affected, but may do so using the method deemed most appropriate by the department after first notifying the community college district.

(b) If the total population of a district as currently delineated was within 15 percent of the total population of one or more cities or counties or city and county each of whose population is 50 percent or more within the district as of the most recent federal special or decennial census or local census carried out under the Department of Finance supervision covering the area in question, it may apply to the Department of Finance for a special estimate of the percentage change in total population of the corresponding area for the past year. The department will prepare the estimate in accordance with the data and methods used pursuant to Section 2227 of the Revenue and Taxation Code and the district may use the estimate in lieu of the estimate prepared under subdivision (a) of this section.

SEC. 17. (a) The Legislature finds and declares that inclusion of the territory of Calaveras County in community college districts pursuant to the terms of Article 2 (commencing with Section 74010) of Chapter 1 of Part 46 of the Education Code has been delayed by pending litigation; that further delay is inimical to the purposes of the article; and that it is necessary fully and finally to resolve existing doubts concerning the effective date of inclusion of the territory in community college districts for all purposes, including assessment and taxation.

(b) Notwithstanding any other provision of law, the territory of the Bret Harte Union High School District and the territory of the former Copperopolis and Salt Spring Valley Elementary School Districts of Calaveras County are hereby annexed to and included in the Yosemite Community College District, effective, for all purposes, as of July 1, 1977.

(c) Notwithstanding any other provision of law, the territory of the Calaveras Unified School District, excluding the former Copperopolis and Salt Spring Valley Elementary School Districts of Calaveras County, is hereby annexed to and included in the San Joaquin Delta Community College District, effective, for all purposes, as of July 1, 1977.

(d) Notwithstanding Sections 54902, 54902.1, and 54903 of the Government Code, the statements, resolutions, and maps or plats required by Sections 54900, 54902, and 54903.1 shall be filed on or before December 31, 1977.

CHAPTER 916

An act to add Chapter 7 (commencing with Section 92660) to Part 57 of Division 9 of the Education Code, relating to the University of California.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 7 (commencing with Section 92660) is added to Part 57 of Division 9 of the Education Code, to read:

CHAPTER 7. COMPETITIVE BIDDING

Article 1. Construction

92660. As used in this article, "project" includes the erection, construction, alteration, repair, or improvement of any University of California structure, building, road or other improvement which will exceed in cost a total of fifteen thousand dollars ($15,000).

92661. Except as provided for in this article, the Regents of the University of California shall let any contract for a project to the lowest responsible bidder or else reject all bids. If the regents deem it to be for the best interest of the university, the regents may, on the refusal or failure of the successful bidder for a project to execute a tendered contract, award it to the second lowest responsible bidder. If the second lowest bidder fails or refuses to execute the contract, the regents may likewise award it to the third lowest responsible bidder.

92662. The Regents of the University of California shall give public notice of a project to bidders by publication once a week for at least two consecutive weeks next preceding the day set for the receiving of bids as follows:

(a) In one newspaper of general circulation published in the county in which the major portion of the project is located and in one such trade paper circulated in the county in which the major portion of the work is to be done.

(b) The notices shall state the time and place for the receiving and opening of sealed bids, describe in general terms the work to be done, and describe the bidding mode by which the lowest responsible bidder will be selected.

92663. Before entering into any contract for a project, the Regents of the University of California shall cause to be prepared estimates and either:

(a) Complete plans and specifications setting forth such directions as will enable a competent mechanic or other builder to carry them out.

(b) Documents for the solicitation of bids on a design-and-build basis, including: (1) a program setting forth the scope of the project, the size, type, and desired design character of the buildings and the site, (2) a set of performance specifications covering the quality of materials, equipment, and workmanship, (3) a maximum acceptance cost, and (4) a method and grading system for evaluating contractor proposals on the basis of a preliminary design, outline specifications, a price, and the financial condition and relevant experience of the contractor and the contractor's architect.

(c) Documents for the solicitation of bids for construction manager mode of contracting including prequalification standards, schematic plans, and outline specifications indicating the general scope of the project and the designation of those fees and other fixed commitments upon which prequalified contractors will be invited to submit competitive bids which will serve as the basis for selection.

(d) Documents for the solicitation of bids on a cost-plus fee mode of contracting, including prequalification standards, outline specifications, and schematic drawings generally describing the scope of the work, a definition of reimbursable and nonreimbursable costs, and the designation of fees and other fixed costs upon which prequalified contractors will be invited to submit quotations which will provide the basis for selection.

(e) Documents for the solicitation of bids under such other contracting mode as the regents determine to be in the best interest of the university, provided that such proposals be compared on a uniform basis and that award be made as determined by the published selection standards.

92664. Except as otherwise provided in Section 92666, work on all projects shall be performed under contract awarded in accordance with Section 92661 except that it may be done on a time and materials basis, by contract upon informal bids, by University of California employees, by day labor under the direction of the regents, or by a combination thereof, in case of emergency due to an act of God, earthquake, flood, storm, fire, landslide, public disturbance, vandalism, or failure which causes damage to a university-owned building, university-owned real property or any improvements thereon, when such work or remedial measures are required immediately and are necessary to protect the public health, safety and welfare.

92665. The Regents of the University of California may perform projects with university employees if the regents deem that the award of a contract, the acceptance of bids or the acceptance of further bids is not in the best interests of the university, provided that (1) the estimated value of work to be so performed shall not exceed twenty thousand dollars ($20,000) or (2) the project is for the erection, construction, alteration, repair or improvement of experimental or diagnostic equipment, except that the provisions of this section shall not apply to the painting or repainting of a structure, building, road or improvement of any kind if the estimated value of such painting or repainting work exceeds ten thousand dollars ($10,000).

92666. The requirements of Sections 92661, 92662, and 92663 shall not be applicable to (1) any project of which the Regents of the University of California is only part owner, or (2) any project funded by a federal agency to the extent that requirements of Sections 92661, 92662, and 92663 are in conflict with mandatory requirements of such federal agency, or (3) projects performed pursuant to Section 92665.

Article 2. Materials, Goods and Services

92667. Except as provided for in this article, the Regents of the University of California shall let all contracts involving an expenditure of more than five thousand dollars ($5,000) annually for goods and materials to be sold to the University of California to the lowest responsible bidder meeting specifications, or else reject all bids. Contracts for services to be performed, other than personal or professional services, involving an expenditure of five thousand dollars ($5,000) or more annually shall be made or entered into with the lowest responsible bidder meeting specifications, or else all bids shall be rejected. If the regents deem it to be for the best interest of the university, the regents may, on the refusal or failure of the

successful bidder for materials, goods or services to execute a tendered contract, award it to the second lowest responsible bidder meeting specifications. If the second lowest responsible bidder fails or refuses to execute the contract, the regents may likewise award it to the third lowest responsible bidder meeting specifications.

92668. The requirements of this article shall not be applicable when the regents determine that a brand or trade name article, thing or product or proprietary service is the only one which will properly meet the needs of the University of California because the item or service is unique, available only from a sole source, or is designated to match others, used in or furnished to, a particular installation, facility, on location. Contracts for unique products or services, or personal or professional services, shall not be made unless the regents determine that the proposed price therefor is reasonable.

92669. The Regents of the University of California shall prescribe methods of procurement for goods, materials, and services to be purchased, including:

(a) Requirements for public advertisement where feasible and practicable or for solicitation from at least three sources in other cases.

(b) Bidder prequalification and evaluation standards.

(c) Guidelines for negotiating contracts for unique products or proprietary services.

(d) Procedures for solicitation of vendor and service contractor interest.

(e) Dissemination of award information.

(f) Such other matters as may encourage the receipt of the most favorable price and conditions of purchase by the university.

92670. The requirements of this article shall not be applicable to the procurement of goods, materials, or services funded exclusively by federal agencies to the extent that the requirements of this article are in conflict with mandatory requirements of such federal agency.

Article 3. Real Property

92671. The Regents of the University of California shall give public notice to bidders of the sale of University of California real property situated in California if the estimated value of the real property to be sold exceeds fifty thousand dollars ($50,000) net to the seller. Notice shall be by publication once a week for at least two consecutive weeks next preceding the day set for receiving bids, as follows:

(a) In a newspaper of general circulation published in the county in which the property is situated. If the property is situated in more than one county, then such publication shall be in the newspaper in the county containing the greatest area of the property.

(b) In two newspapers of general circulation, one published in Los Angeles and one in San Francisco.

(c) The published notices shall specify the general description of

the property and the conditions of sale, and the date and place for the receiving of sealed bids.

92672. On the date designated in the public notice, the sealed bids shall be publicly opened. The regents shall accept in public the bid which offers the combination of price and terms which it deems to be in the best interest of the university, or reject all bids.

92673. The publication and award procedures set forth in this article shall not be applicable to:

(a) The sale of an undivided or fractional ownership interest in real property.

(b) A sale of a right of use in real property which is less than fee ownership.

(c) A sale of real property subject to title conditions or restrictions on the university's ownership deriving from the origin of such ownership by gift, devise, or otherwise, if such sale would be inconsistent with such title conditions or restrictions.

(d) The disposition of realty originally acquired as part of an investment transaction pursuant to which the Regents of the University of California is contractually obligated to resell property to a specified party.

(e) A sale of public lands under the direction of the federal land agent.

(f) A sale to a person or entity which will dedicate the real property to public use.

(g) A sale of real property acquired after the effective date of this chapter through eminent domain proceedings initiated by the Regents of the University of California. In such cases, the person from whom the property was acquired shall be notified and be accorded an exclusive opportunity for 90 days to purchase the property at its fair market value. If the person fails to undertake proceedings to purchase the property within 90 days, the procedures specified in Sections 92671 and 92672 shall then be followed in the sale of the property.

CHAPTER 917

An act to add Section 31000.4 to the Government Code, relating to counties, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1977. Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 31000.4 is added to the Government Code, to read:

31000.4. The board of supervisors may contract with temporary help firms for temporary help to assist county agencies, departments, or offices during any peak load, temporary absence, or emergency other than a labor dispute, provided the board determines that it is in the economic interest of the county to provide such temporary help by contract, rather than employing persons for such purpose. Use of temporary help under this section shall be limited to a period of not to exceed 90 days for any single peak load, temporary absence, or emergency situation.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for counties to be able to adequately handle problems relating to the use of temporary help in the event local agency employees are granted the benefits of the unemployment insurance laws, it is necessary that this act take effect immediately.

CHAPTER 918

An act to amend Sections 3700, 3701, 3702, and 3704 of the Fish and Game Code, relating to migratory birds, and making an appropriation therefor.

[Approved by Governor September 20, 1977. Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 3700 of the Fish and Game Code is amended to read:

3700. It is unlawful for any person, except a person licensed pursuant to subdivision (b) of Section 3031, to take any migratory game bird, except jacksnipe, coots, gallinules, western mourning doves, white-winged doves and band-tailed pigeons, without first procuring a state duck stamp and having such stamp in his possession while taking such birds.

State duck stamps shall be sold for a fee of five dollars ($5) by the department, and persons authorized by the department, in the same manner as hunting licenses. The commission shall determine the form of such duck stamps pursuant to Section 1050.

SEC. 2. Section 3701 of the Fish and Game Code is amended to read:

3701. All funds derived from the sale of state duck stamps shall be deposited in the Fish and Game Preservation Fund. The department shall maintain a State Duck Stamp Account to permit separate

accountability for the receipt and expenditure of funds derived from the sale of state duck stamps. An amount not to exceed 5 percent of such funds may be used to reimburse the department for the costs of administering this article. Such amount shall be in addition to compensation allowed persons authorized to issue and sell licenses pursuant to Section 1055.

SEC. 3. Section 3702 of the Fish and Game Code is amended to read:

3702. Funds deposited in the State Duck Stamp Account shall be used for projects approved by the commission for the purpose of protecting, preserving, restoring, enhancing, and developing migratory waterfowl breeding habitat. The commission may enter into contracts with nonprofit organizations for the use of such funds outside the state, or outside the United States, when it finds such contracts are necessary for carrying out the purposes of this article.

SEC. 4. Section 3704 of the Fish and Game Code is amended to read:

3704. At least 45 percent of the funds shall be allocated by the commission for the preservation of waterfowl habitat in those areas of Canada from which come substantial numbers of waterfowl migrating to or through California. The available balance of the funds, if any exist, may be used for protecting, preserving, restoring, enhancing, and developing migratory waterfowl breeding habitat in California, provided that any lands acquired in California with such funds shall be open to waterfowl hunting as a public shooting ground or wildlife management area.

CHAPTER 919

An act to amend Sections 391, 745, 746, 747, 749, 751, 751.1, 752, 754, 755, 756, 757, 759, and 759.3 of, to add Sections 746.1, 746.2, 746.3, and 747.1 to, to repeal and add Sections 748 and 753 of, and to repeal Section 750 of, the Streets and Highways Code, relating to highways, and making an appropriation therefor.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 391 of the Streets and Highways Code is amended to read:

391. Route 91 is from Route 1 near Hermosa Beach to Route 194 via Santa Ana Canyon.

SEC. 2. Section 745 of the Streets and Highways Code is amended to read:

745. The Legislature hereby finds and declares that:

(a) The establishment, use, and maintenance of junkyards in areas

adjacent to any interstate or primary highway should be controlled in order to promote the safety and recreational value of public travel, to protect the public investment in such highways, and to preserve the natural beauty of areas adjacent to such highways. The Legislature finds that motorists are distracted by unscreened junkyards adjacent to such highways and that a junkyard visible from such a highway constitutes a hazard to the safety of the traveling public.

(b) It is the intent of the Legislature, by the enactment of this article, to provide for the state control of junkyards required by Section 136 of Title 23 of the United States Code.

(c) The recycling industry plays an important role in the conservation of our state resources. In support of that role, should removal of junk or scrap from a nonconforming junkyard be necessary because such junk or scrap is visible from any interstate or primary highway, then the department may either purchase such junk or scrap and move it to a recycling center or pay the costs of moving the junk or scrap to a recycling center, whichever is less expensive.

SEC. 3. Section 746 of the Streets and Highways Code is amended to read:

746. As used in this article:

(a) "Junk" means old or scrap copper, brass, rope, rags, batteries, paper, trash, rubber debris, waste, junked, dismantled or wrecked motor vehicles, or parts thereof, iron, steel and other old or scrap ferrous or nonferrous material.

(b) "Automobile graveyard" means any establishment or place of business which is maintained, used, or operated for storing, keeping, buying, or selling wrecked, scrapped, ruined, or dismantled motor vehicles or motor vehicle parts.

(c) "Junkyard" means any establishment or place of business which is maintained, operated, or used for storing, keeping, buying, or selling junk, or for the maintenance or operation of an automobile graveyard. This definition includes scrap metal processors, autowrecking yards, salvage yards, scrap yards, auto recycling yards, used auto parts yards, and temporary storage of automobile bodies and parts awaiting disposal as a normal part of a business operation when the business will continually have like materials located on the premises. The definition also includes garbage dumps and sanitary landfills. The definition does not include litter, trash, and other debris scattered along or upon the highway, or temporary operations and outdoor storage of limited duration.

(d) "Scrap metal processing facility" means any establishment or place of business which is maintained, used, or operated solely for the processing and preparing of scrap metals for remelting by steel mills and foundries.

(e) "Automobile dismantling facility" means any establishment or place of business which is maintained, used, or operated by an "automobile dismantler," as defined in the Vehicle Code, for the

buying, selling, or dealing in vehicles of a type required to be registered under the Vehicle Code for the purpose of dismantling such vehicles and for the buying or selling of the integral parts and component materials of such vehicles.

(f) "Special conditions" are any of the following which have occurred after October 6, 1966: (1) physical changes which occur within a state-owned right-of-way which cause a junkyard to become visible, such as the failure to maintain screening within the right-of-way or the reconstruction of the highway, (2) the classification of a highway as interstate or primary, or (3) redesignation of an industrial zone to some other zoning classification.

(g) "Visible" means capable of being seen without visual aid by a person of normal visual acuity while driving on the main traveled way of an interstate or primary highway.

(h) "Interstate highway" means any highway at any time officially designated as a part of the national system of interstate and defense highways by appropriate authority of the federal government.

(i) "Primary highway" means any highway, other than an interstate highway, at any time officially designated as a part of the federal-aid primary system by appropriate authority of the federal government.

(j) "Recycle" means either:

(1) Purchasing junk and moving it to an automobile wrecker or scrap processor, or putting it to some other useful purpose, or

(2) Paying the costs of moving such junk to an automobile wrecker or scrap processor or to a place where it will be put to some useful purpose.

SEC. 4. Section 746.1 is added to the Streets and Highways Code, to read:

746.1. "Nonconforming junkyard" means either of the following:

(a) A junkyard lawfully in existence on October 6, 1966, but which does not conform to the requirements of this article.

(b) A junkyard which is lawfully in existence at any time but later fails to comply with the requirements of this article due to special conditions as defined in subdivision (f) of Section 746.

SEC. 5. Section 746.2 is added to the Streets and Highways Code, to read·

746.2. Nonconforming junkyards may continue in existence as long as they are not extended, enlarged, or changed in use, and are otherwise lawfully maintained.

If the location of a nonconforming junkyard is changed for any reason, it ceases to be nonconforming and shall be treated as a new junkyard at a new location.

SEC. 6. Section 746.3 is added to the Streets and Highways Code, to read:

746.3. An illegal junkyard is one which is either:

(a) Established or is maintained in violation of this article and does not come within the definition of a "nonconforming junkyard," as

defined in Section 746.1.

(b) A junkyard which becomes visible due to inadequate maintenance of screening located off the highway right-of-way, or the placement of junk so that it may be seen above or beyond the screen, or otherwise becomes visible.

(c) A junkyard which, due to any conditions other than those described in subdivision (f) of Section 746, is established or maintained in violation of this article.

SEC. 3. Section 41455 of the Health and Safety Code is amended to read:

41455. The agency may invest in, purchase, or make commitments to purchase, and take assignments from qualified mortgage lenders of, construction loans, mortgage loans, obligations secured by construction loans or mortgage loans, and participations therein for financing or refinancing of housing developments.

The agency may also invest in, purchase, or make commitments to purchase, and take assignments from qualified mortgage lenders of, loans for rehabilitation or home improvements not secured by a mortgage but wholly or partially insured by an agency or instrumentality of the United States, or participation in such loans.

Such construction loans, mortgage loans, obligations secured by construction loans or mortgage loans, rehabilitation and home improvement loans, or participations therein may be held or sold by the agency, or the agency may create pools of such loans, obligations, and participations held by the agency and may sell securities backed by such pools.

SEC. 4. Section 41457 of the Health and Safety Code is amended to read:

41457. The agency may insure or guarantee any obligation held

by the agency and secured by a mortgage on a single-unit housing development for the purpose of increasing its acceptability or value for sale or as security for other obligations. The agency may also insure or guarantee any loan, or participation in a loan, for rehabilitation or home improvement which is insured by an agency or instrumentality of the United States and which is held by the agency. Nothing in this section shall, however, be construed as authorizing the creation of a debt or liability of the state within the meaning of Section 1 of Article XVI of the State Constitution.

SEC. 5. Section 41500 of the Health and Safety Code, as added by Chapter 1 of the Statutes of 1975 (First Extraordinary Session), is amended to read:

41500. Not less than 30 percent nor more than 40 percent of the units financed by the agency during each fiscal year for very low-income households shall be designed specifically for occupancy by elderly persons. The agency shall in each fiscal year, finance at least that number of rental units designed for occupancy and accessibility by persons with orthopedic disabilities necessary to make such units equal to the same percentage relationship to the total number of rental units as such persons comprise when compared to the total population of the state. The percentage shall only, however, relate to those persons qualified by income and the percentage relationship shall be verified according to submarket areas within the state.

SEC. 6. Section 41700 of the Health and Safety Code, as added by Chapter 1 of the Statutes of 1975 (First Extraordinary Session), is amended to read:

41700. (a) The agency may from time to time, after action of the Housing Bond Credit Committee as provided in Section 41707, issue its negotiable bonds in such principal amount as the agency shall determine to be necessary to provide sufficient funds for financing housing developments and other residential structures and for the payment of interest on bonds of the agency, establishment of reserves to secure such bonds, and other expenditures of the agency incident to, and necessary or convenient to, issuance of such bonds.

(b) Sale of the bonds of the agency shall be coordinated by the State Treasurer. To obtain a date for the sale of bonds, the agency shall inform the State Treasurer of the amount of the proposed issue. Upon such notification, the State Treasurer shall provide three 10-day periods, within the 90 days next following, when the bonds can be sold. The agency may choose any date during the suggested periods or any other date to which the agency and the State Treasurer have mutually agreed. The State Treasurer shall sell the bonds on the date chosen according to terms approved by the agency.

The Housing Bond Credit Committee shall exercise its powers with due regard for the right of the holders of bonds of the agency at any time outstanding, and nothing in, or done pursuant to, this section shall in any way limit, restrict, or alter the obligation or

powers of the agency or any member, officer, or representative of the agency or the State Treasurer to carry out and perform in every detail each and every covenant, agreement, or contract at any time made or entered into on behalf of the agency with respect to its bonds or its benefits, or the security of the holders thereof.

(c) The aggregate principal amount of nonguaranteed bonds which may be issued pursuant to this part shall not exceed three hundred million dollars ($300,000,000), exclusive of indebtedness incurred to refund or renew previously issued bonds of the agency to the extent of the outstanding principal indebtedness of such previously issued bonds, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds. Guaranteed taxable bonds, or in lieu thereof and in the discretion of the agency, nonguaranteed tax-exempt bonds in addition to those authorized by the preceding sentence, to be issued by the agency may be authorized in an amount not exceeding one hundred fifty million dollars ($150,000,000), exclusive of indebtedness incurred to refund or renew previously issued bonds of the agency to the extent of the outstanding principal indebtedness of such previously issued bonds, including the payment of any redemption premium thereon and any interest accrued or to accrue to the date of redemption of such bonds.

SEC. 7. Section 41715 of the Health and Safety Code is amended to read:

41715. The Supplementary Bond Security Account is hereby created in the California Housing Finance Fund. Moneys in such account may be transferred into separate, individual accounts in the fund which shall be known as supplementary reserve accounts, but the amount appropriated to the Supplementary Bond Security Account shall be utilized to secure issuances of bonds under this chapter as deemed necessary by the agency and shall be used for no other purpose. Upon issuance of any bonds pursuant to this chapter, the agency may create a supplementary reserve account to secure payment of the principal of, interest, redemption-premium, and sinking-fund payments on such bonds.

When all obligations secured by all supplementary reserve accounts are retired the Supplementary Bond Security Account shall be dissolved and all moneys therein shall be used first for repayment to the General Fund in the State Treasury of the amount advanced to the Supplementary Bond Security Account by the act enacting this division, less any amount previously repaid on account of such advance. Remaining funds shall be paid into the general accounts of the housing finance agency unless otherwise obligated.

When the amount in a bond reserve fund falls below the minimum bond reserve fund requirement for such fund and available revenues of the agency pledged to the prescribed minimum bond reserve fund requirement are insufficient to restore such fund, the agency shall transfer to the bond reserve fund, from the supplementary bond reserve account securing such bonds, the amount necessary to

restore such fund to the minimum bond reserve fund requirement. Moneys in supplementary reserve accounts may be used to directly pay the interest, principal and sinking-fund payments on the bonds as provided by bond resolution. To secure issuances of bonds, the supplementary reserve accounts may also be used to insure mortgages to protect the value of the housing developments or other residential structures serving as real property security, except owner-occupied housing developments, in any manner permitted by bond resolution.

If the issuance of bonds of the state, as provided in Part 4 (commencing with Section 41800) of this division, is approved by the voters, all moneys in the Supplementary Bond Security Account shall, upon replacement by general obligation bond proceeds, be transferred to the general accounts of the housing finance agency. The agency shall then transfer to the General Fund in the State Treasury the remaining amount necessary to repay the Treasury for the appropriation to the Supplementary Bond Security Account.

Notwithstanding other provisions of this part, interest on the ten million dollars ($10,000,000) appropriated for the Supplementary Bond Security Account shall be paid to the General Fund at the end of each fiscal year.

SEC. 8. Section 42063 of the Health and Safety Code is amended to read:

42063. In addition to insurance of loans authorized by Section 42062, the agency may insure the following types of loans in neighborhood preservation areas:

(a) Loans for acquisition of residential structures, provided such structures are in conformance with state and local housing and building standards; and provided, further, that no borrower shall be eligible for insurance of a loan or loans for more than one residential structure with respect to any such area, unless the borrower is a qualified rehabilitator.

(b) Construction and mortgage loans made or assisted pursuant to this division for financing housing developments.

(c) Loans for rehabilitation or home improvements wholly or partially insured or guaranteed by an agency or instrumentality of the United States or participation in such loans.

The agency shall develop and adopt regulations that provide for an equitable sharing of the risk of loss among the agency and all other parties to the loan transaction with respect to loans for acquisition of residential structures insured pursuant to subdivision (a).

SEC. 9. Section 42064 of the Health and Safety Code is amended to read:

42064. Loans insured pursuant to this part shall meet the following requirements:

(a) The loans shall be made for a period acceptable to the agency, not to exceed 40 years or four-fifths of the remaining economic life of the structure as determined by the agency in accordance with its regulations, whichever is less.

(b) The loans shall be subject to maximum loan amounts for each category of loan authorized to be insured under this part, as established by regulations of the agency.

(c) The loan shall be secured by mortgages, or the loan shall be wholly or partially insured or guaranteed by an agency or instrumentality of the United States.

(d) The agency shall establish loan-to-value limitations for each category of loan and may set forth limitations on the further encumbrance of structures and other real property securing loans, but only to the extent necessary to prevent unreasonable impairment of the agency's security. In no case involving refinancing or purchase shall the loan have a principal obligation in an amount exceeding the sum of the estimated cost of rehabilitation, if any, and either the amount required to refinance existing indebtedness secured by the property or, in the case of a sale, the amount of the purchase price and settlement and closing costs incurred in connection with the purchases.

(e) Loans for the rehabilitation of residential structures shall have a principal obligation not exceeding an amount which, when added to any outstanding indebtedness constituting a lien upon the property securing the loan, creates a total outstanding indebtedness which could be reasonably secured by a first mortgage on the property pursuant to subdivision (d), and as set forth by regulations of the agency.

(f) With respect to any loan for the rehabilitation of a residential structure, the agency shall determine that such repair and improvement is economically feasible. With respect to the rehabilitation of a mixed-use residential and commercial structure or of a commercial structure, the agency shall determine that there will be a demand for commercial occupancy of the residential structure after rehabilitation. In making such determination, the level of rent necessitated by repayment of the loan shall be considered.

(g) For the purpose of increasing the efficiency and minimizing the cost of the loan insurance program, the agency may insure or issue commitments to insure loans, upon the certification of an officer of an approved lending institution that the proposed rehabilitation conforms to requirements specified by regulations of the agency regarding economic feasibility and commercial demand.

(h) With respect to any loan for rehabilitation or rehabilitation in combination with refinancing or purchase, the loan agreement shall provide that all funds loaned for repairs and improvements shall be paid after completion or according to a progress payment schedule to the owner and contractor or other provider of goods or services jointly at such times as payment becomes due, and provided the work or portion of the work for which payment is tendered is certified, as provided by regulation of the agency, to be in compliance with contract specifications and applicable state or local housing or building standards. The agency shall approve the contractor or contractors, the contract to provide rehabilitation

construction, and the contract specifications prior to committing any funds of an insured loan for rehabilitation.

(i) The agency shall require that borrowers contract during the term of the loan not to raise residential rentals over an amount which the agency by regulation establishes will yield a fair rate of return and will allow for increases reasonably necessary to provide and continue proper maintenance of the property; except that residential structures with more than one but less than five dwelling units which are to be occupied by the owner shall be regulated as to rentals in a manner consistent with subdivision (h) of Section 41551.

(j) Relocation payments shall be made to persons and families displaced in making a site or a residential structure available for rehabilitation or construction financed by loans insured under this part, and relocation advisory assistance provided to such persons, as specified by Section 41397. Relocation payments shall also be made to owners involuntarily displaced because of inability to afford costs of compliance required pursuant to this part, but any payment pursuant to Section 4623 of Title 42 of the United States Code or Section 7263 of the Government Code shall be limited to the reasonable cost of a replacement dwelling adequate to accommodate the displaced person or family without regard to whether the dwelling is otherwise comparable to the dwelling formerly occupied, less the amount received from sale of the dwelling. Relocation payments may be made from the proceeds of insured loans as authorized by the agency.

(k) The residential structure for which a loan is insured pursuant to this part shall be insured against loss due to fire and other causes, as provided by the regulations of the agency.

(*l*) Such other terms and conditions as the agency, by regulation, determines are necessary to further the purposes of this part

CHAPTER 927

An act to add Section 41178 to the Health and Safety Code, relating to housing, and making an appropriation therefor.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977]

I am reducing the appropriation contained in Section 2 of Assembly Bill No 920 from $2,625,000 to $1,312,500.

The reduced appropriation is sufficient to fund this program for the remainder of the current fiscal year. Funding at the $2 5 million level will be included in next year's budget

With this reduction, I hereby approve Assembly Bill No 920

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Section 41178 is added to the Health and Safety Code, to read:

41178. (a) The department shall establish a Farmworker Housing Grant Program under which, subject to the availability of funds therefor, grants shall be made to local public entities and nonprofit corporations for the construction or rehabilitation of housing for agricultural employees and their families. Under such program, grants may also be made for the purchase of land in connection with housing assisted pursuant to this section and for the construction and rehabilitation of related support facilities necessary to such housing. No part of a grant made pursuant to this section may be used for project organization or planning.

Such program shall be administered by the Director of Housing and Community Development and such officers and employees of the department as he may designate. It is the intent of the Legislature that, in administering the program, the director shall facilitate, to the greatest extent possible, the construction and rehabilitation of permanent dwellings for year-around occupancy and ownership by agricultural employees, including ownership of the sites upon which such dwellings are located.

(b) The Farmworker Housing Grant Fund is hereby created in the State Treasury. All money in the fund is continuously appropriated to the department for making grants pursuant to this section and for costs incurred by the department in administering such grant program.

(c) Grants made pursuant to this section shall be matched by grantees with at least equal amounts of federal moneys, other cash investments, or in-kind contributions.

(d) With respect to the supervision of grantees, the department shall do the following:

(1) Establish minimum capital reserves to be maintained by grantees.

(2) Fix and alter from time to time a schedule of rents such as may be necessary to provide residents of housing assisted pursuant to this section with affordable rents to the extent consistent with the maintenance of the financial integrity of the housing project. No grantee shall increase the rent on any unit constructed or rehabilitated with the assistance of funds granted pursuant to this section without the prior permission of the department, which shall be given only if the grantee affirmatively demonstrates that such increase is required to defray necessary operating costs or avoid jeopardizing the fiscal integrity of the housing project.

(3) Determine standards for, and control selection by grantees of, tenants and subsequent purchasers of housing constructed or rehabilitated with the assistance of funds granted pursuant to this section.

(4) Require that grantees and subsequent purchasers of housing constructed or rehabilitated with the assistance of funds granted pursuant to this section enter into an agreement with the

department providing for regulation of the disposition of such housing. In order to assure that the housing assisted pursuant to this section remains continuously available to carry out the purposes of this section, such agreement shall, among other things, require prior department approval of any sale or conveyance of housing assisted under this section. In the event that a sale or conveyance of such assisted housing will result in continued use of such housing by agricultural employees, the department may approve such sale or conveyance provided that (i) no profit is realized by the grantee as a result of the sale, or (ii) if a loss cannot be avoided in such a sale, that the net proceeds of the sale be apportioned between the grantee and the department in proportion that the grantee's funds or contributions bears to the state's grant funds in the project at the time of the sale and that the department's share of such excess funds be returned to the department for deposit in the Farmworker Housing Grant Fund.

In the event that the department determines that the assisted housing is no longer suitable for such purposes or that there is no need for such housing, it may approve a sale at a profit, provided (i) that the entire amount of the grant made by the department be returned to it for deposit in the Farmworker Housing Grant Fund, and (ii) that proceeds of such sale in excess of the state's and grantee's funds and contributions be apportioned between the grantee and the department in the proportion that the grantee's funds or contributions bears to the state's grant funds in the project at the time of the sale and that the department's share of such excess funds be returned to the department for deposit in the Farmworker Housing Grant Fund. However, if a loss cannot be avoided in such a sale, the department may approve the sale provided (i) the state has first claim to the net proceeds from the sale up to the amount of its original grant to the project in the event that the sponsor is a nonprofit corporation or (ii) in the event that the sponsor is a local public entity, that the net proceeds of the sale be apportioned between the grantee and the department in the proportion that the grantee's funds or contributions bears to the state's grant funds in the project at the time of the sale and that the department's share of such excess funds be returned to the department for deposit in the Farmworker Housing Grant Fund. For purposes of this paragraph, construction loans or long-term financing made to a grantee by a public or private lender to construct or rehabilitate housing assisted pursuant to this section shall not be considered as part of the grantee's funds or contributions in calculating the grantee's share in the event of the disposition or resale of the assisted housing.

(5) Regulate the terms of occupancy agreements to be used in housing assisted pursuant to this section.

(6) Provide bilingual services and publications, or require grantees to do so, as necessary to implement the purposes of this section.

(e) The department may do any of the following with respect to grantees:

(1) Through its agents or employees enter upon and inspect the lands, buildings, and equipment of a grantee, including books and records, at any time before, during, or after construction or rehabilitation of units assisted pursuant to this section. However, there shall be no entry or inspection of any unit which is occupied, whether or not any occupant is actually present, without the consent of the occupant.

(2) Supervise the operation and maintenance of any housing assisted pursuant to this section and order such repairs as may be necessary to protect the public interest or the health, safety, or welfare of occupants of the housing.

(f) The department shall include in its annual report required by Section 41109, a current report of the Farmworker Housing Grant Program. Such report shall include, but need not be limited to: (1) the number of households assisted, (2) the average income of households assisted and the distribution of annual incomes among assisted households, (3) the rents paid by households assisted, (4) the number and amount of grants made to each nonprofit corporation and local public entity in the preceding year, (5) the dollar value of funding derived from sources other than the state for each project receiving a grant under this section, and an identification of each such source, and (6) recommendations, as needed, to improve operations of the program and respecting the desirability of extending its application to other groups in rural areas identified by the department as having special need for state housing assistance.

(g) As used in this section:

(1) "Nonprofit corporation" means an entity incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code or a stock cooperative as defined in Section 11003.2 of the Business and Professions Code.

(2) "Agricultural employee" has the same meaning as specified in subdivision (b) of Section 1140.4 of the Labor Code.

(3) "Housing" may include, but need not be limited to, conventionally constructed units, factory-built units constructed in accordance with the provisions of Part 6 (commencing with Section 19960) of Division 13 of this code, and mobilehome units constructed in accordance with the provisions of the National Mobile Home Construction and Safety Standards Act of 1974 (42 U.S.C., Sec. 5401 et seq.).

SEC. 2. The sum of two million six hundred twenty-five thousand dollars ($2,625,000) is hereby appropriated from the General Fund for transfer to the Farmworker Housing Grant Fund. Of such moneys, not more than one hundred twenty-five thousand dollars ($125,000) shall be expended to defray the costs incurred by the Department of Housing and Community Development in administering the Farmworker Housing Grant Program.

CHAPTER 928

An act to amend Section 20980.1 of, and to add Sections 7501, 7502, 7503, 7504, and 20019.51 to, and to repeal Section 10505 of, the Government Code, relating to retirement, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 7501 is added to the Government Code, to read:

7501. It is the intent and purpose of the Legislature, in enacting Sections 7502, 7503, and 7504, to safeguard the solvency of all public retirement systems and funds. The Legislature finds and declares that public agencies maintaining retirement systems can benefit from periodic and independent analysis of their financial condition. It is the purpose of those sections to enable the State Controller to perform this service.

SEC. 2. Section 7502 is added to the Government Code, to read:

7502. The State Controller shall review the annual financial report of each state and local public retirement system submitted pursuant to Section 7504 giving particular consideration to the adequacy of funding of each system. The State Controller shall also review the triennial valuation of each public retirement system submitted pursuant to Section 7504 and shall give particular consideration to the assumption concerning the inflation element in salary and wage increases, mortality, service retirement rates, withdrawal rates, disability retirement rates, and rate of return on investments.

The State Controller shall establish an advisory committee which shall include enrolled actuaries, as defined in Section 7504, and state and local public retirement system administrators, to assist in carrying out the duties imposed by this section.

SEC. 3. Section 7503 is added to the Government Code, to read:

7503. All state and local public retirement systems shall prepare an annual report which shall contain the following financial information:

(a) Balance sheet as of the close of the system's fiscal year.

(b) Statement of income and credits to reserves.

(c) Statement of changes in reserves.

(d) Statement of cash receipts and disbursements.

The balance sheet shall show the cost of assets held, distributed among the reserves for employer contributions, employee contributions, and retired members. The balance sheet shall also show the present value of the total existing and future liabilities of the system to be met from future contributions as certified by an

enrolled actuary based on the most recent triennial valuation. The assets of the retirement system shall be stated in accordance with generally accepted accounting principles.

SEC. 4. Section 7504 is added to the Government Code, to read:

7504. (a) All state and local public retirement systems shall, not less than triennially, secure the services of an enrolled actuary. An enrolled actuary means an actuary enrolled under subtitle C of Title III of the Employee Retirement Income Security Act of 1974. The actuary shall perform a valuation of the system utilizing actuarial assumptions and techniques established by the agency which are, in the aggregate, reasonably related to the experience and the actuaries' best estimate of anticipated experience under the system.

(b) All state and local public retirement systems shall secure the services of a qualified public accountant to perform an attest audit of the system's financial statements. A qualified public accountant means:

(1) A person who is licensed to practice as a certified public accountant in this state by the State Board of Accountancy, or

(2) A person who is registered and entitled to practice as a public accountant in this state by the State Board of Accountancy, or

(3) A county auditor in any county subject to the County Employees Retirement Law of 1937.

(c) All state and local public retirement systems shall submit audited financial statements to the State Controller within six months of the close of each fiscal year. The financial statements shall be prepared in accordance with generally accepted accounting principles in the form and manner prescribed by the State Controller. The penalty prescribed in Section 53895 shall be invoked for failure to comply with this section.

(d) The State Controller shall compile and publish a report annually on the financial condition of all state and local public retirement systems containing, but not limited to, the data required in Section 7502.

SEC. 5. Section 10505 of the Government Code is repealed.

SEC. 6. Section 20019.51 is added to the Government Code, to read:

20019.51. Persons employed in positions which are found to come within the definition of local safety member as the result of administrative review by the board or court action and who were previously miscellaneous members may elect to remain local miscellaneous members by filing written notice of their intent with the board no later than 90 days after the date of notice to the member of their right to make such an election. This section shall not apply to persons employed by a county of the fifth class.

SEC. 7. Section 20980.1 of the Government Code is amended to read:

20980.1. Notwithstanding Section 20980, any local safety member in employment on the effective date of an amendment to his employer's contract subjecting the member to Section 21252.01 and

who has attained age 60 and is credited with less than 20 years of service as a local safety member or who will not be credited with 20 years of such service if he continues in employment to age 60 shall, at the option of the contracting agency, not be retired, except on his application, prior to his completion of 20 years of such service after attaining age 60 or his attainment of age 65, whichever first occurs.

This section shall apply to a contracting agency for five years after the date of that agency's adoption of Section 21252.01 and shall thereafter be inapplicable to such agency.

The provisions of this section shall also apply to a county of the fifth class which is a contracting agency, and which has adopted Section 21252.01, for five years after a final court decision including members, who were formerly in the local miscellaneous membership category, within the local safety membership category.

SEC. 8. There is no appropriation from the General Fund pursuant to Section 2231 of the Revenue and Taxation Code because there are no new duties or obligations imposed on local agencies by this act and there are savings to be realized as well as minor costs to be incurred upon its enactment.

SEC. 9. Sections 1, 2, 3, and 4 of this act shall not become operative until January 1, 1978.

SEC. 10. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order for the benefits of Section 5 of this act to be applicable to members who have been reclassified by a court as local safety members, this act must take effect immediately.

CHAPTER 929

An act to add Section 405.2 to the Streets and Highways Code, relating to highways, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 405.2 is added to the Streets and Highways Code, to read:

405.2. (a) The department shall proceed expeditiously to remove or demolish all structures within the right-of-way of Route 105 that are not lawfully occupied and are a threat to public health and safety, as permitted under the terms of the preliminary injunction issued in Keith v. Volpe, 352 Fed. Supp. 1324.

(b) The department also shall proceed expeditiously to remove or

demolish all structures within that right-of-way that are not lawfully occupied and have been declared a nuisance, have been found hazardous or unsafe by a city or county pursuant to its building and safety ordinance, or have been declared by the legislative body of a city or county to be a threat to public health and safety and shall expeditiously make such motions before the court having jurisdiction in the matter as may be necessary to amend the preliminary injunction in order to authorize such removal and demolition.

(c) The requirements imposed on the department by this section are solely for the purpose of abating a serious threat to the health and safety of persons residing within, or in the vicinity of, the right-of-way of Route 105, and no actions undertaken by the department pursuant to such requirement shall be construed as having any bearing on the eventual construction of a freeway on Route 105 or shall be construed as being preparatory activities for such construction.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that a serious threat to public health and safety may be abated as soon as possible, it is necessary that this act take effect immediately.

CHAPTER 930

An act to amend Section 4552 of, and to add Sections 4555 and 4582 75 to, the Public Resources Code, relating to forestry.

[Approved by Governor September 20, 1977 Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 4552 of the Public Resources Code is amended to read:

4552. The rules and regulations adopted by the board shall be based upon a study of the factors that significantly affect the present and future condition of timberlands and shall be used as standards by persons preparing timber harvesting plans. In those instances in which the board intends the director to exercise professional judgment in applying any rule, regulation, or provision of this chapter, the board shall include in its rules standards to guide the actions of the director, and the director shall conform to such standards, consistent with Section 710.

SEC. 2. Section 4555 is added to the Public Resources Code, to read:

4555. In the event that the director determines that a substantial

question concerning the intent of this chapter is not currently provided for by the rules and regulations of the board, and that approval of a timber harvesting plan which has been filed could result in immediate, significant, and long-term harm to the natural resources of the state, the director may withhold decision on a timber harvesting plan, provided that within five days of such action the director shall notify the board of such action. Within 30 days of the receipt of such notice the board shall, after a public hearing, make a determination as to whether or not the intent of this chapter has been provided for in the rules and regulations of the board. Such determination shall be conclusive. If the board finds that the intent of this chapter has not been provided for in such rules and regulations, the board shall act to alter the rules by emergency regulation in accordance with Chapter 4.5 (commencing with Section 11371), Part 1, Division 3, Title 2 of the Government Code. The director shall act upon the plan within five days of the board's action. Emergency regulations adopted pursuant to this section shall be effective for no more than 120 days. Such regulations may be made permanent if the board acts to adopt or revise its rules and regulations pursuant to procedures established in this article for the adoption of other than emergency regulations.

SEC. 3. Section 4582.75 is added to the Public Resources Code, to read:

4582.75. The rules adopted by the board shall be the only criteria employed by the director when reviewing timber harvesting plans pursuant to Section 4582.7.

CHAPTER 931

An act to amend Sections 33753, 33760, 33762, 33766, 33780, 33790, 33792, 37912, 37917, 37920, 37922, 37922.1, 37935, 37952, and 41338 of, and to add Sections 33751.5, 33775.5, and 37930.5 to, the Health and Safety Code, relating to housing.

The people of the State of California do enact as follows:

SECTION 1. Section 33751.5 is added to the Health and Safety Code, to read:

33751.5. The Legislature further finds and declares that the development and construction of residences for occupancy by persons of low income, as defined in Section 41056, is properly included within redevelopment plans whether or not such construction is to occur within a redevelopment area, since redevelopment agencies have specific obligations for development of housing whether or not such development is feasible within

specific redevelopment project areas.

SEC. 2. Section 33753 of the Health and Safety Code is amended to read:

33753. The definitions set forth in Article 1 (commencing with Section 33000) of Chapter 1 of this part shall govern the construction of this chapter. Additionally, as used in this chapter:

(a) "Insured loan" means a construction loan or a mortgage loan insured or guaranteed, in whole or in part, by any instrumentality of the United States or the State of California, or by any person licensed to insure mortgages in this state.

(b) "Financing" means the lending of moneys or any other thing of value for the purpose of facilitating residential construction pursuant to this chapter, including the making of construction loans and mortgage loans to purchasers of newly constructed residences.

(c) "Local codes" means applicable local, state and federal standards for residential construction, including any higher standards adopted by the agency for a redevelopment project area or as part of its redevelopment program.

(d) "Participating party" means any person, corporation, partnership, firm, or other entity or group of entities requiring financing for residential construction pursuant to the provisions of this chapter. No elective officer of the state or any of its political subdivisions or employee of any redevelopment agency shall be eligible to be a participating party under the provisions of this chapter.

(e) "Qualified mortgage lender" means a mortgage lender authorized by a redevelopment agency to do business with the agency and to aid in financing pursuant to this chapter on behalf of the agency, for which service the qualified mortgage lender will be reasonably compensated. Such a mortgage lender shall be a state or national bank, federal or state-chartered savings and loan association, or trust company or mortgage banker which is capable of providing service or otherwise aiding in the financing of mortgages on residential construction within the jurisdiction of the agency. Nothing in any other provision of state law shall prevent such a lender from serving as a qualified mortgage lender pursuant to this chapter.

(f) "Redevelopment project area" means a project area, as defined in Section 33320.1, for which a final redevelopment plan has been adopted pursuant to Section 33365.

(g) "Residential construction" means the construction of new residences meeting requirements of local codes and the redevelopment plan.

(h) "Residence" means real property improved with a residential structure, and within a redevelopment project area also includes real property improved with a commercial structure, or a mixed residential and commercial structure which the redevelopment agency determines to be an integral part of a residential neighborhood. "Residence" includes condominium and cooperative

dwelling units, and includes both real property improved with single-family residential structures and real property improved with multiple-family residential structures.

(i) "Revenue bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by an agency pursuant to this chapter and which are payable exclusively from revenues and from any other funds specified in this chapter upon which the revenue bonds may be made a charge and from which they are payable.

(j) "Revenues" means all amounts received as repayment of principal, interest, and all other charges received for, and all other income and receipts derived by, the redevelopment agency from the financing of residential construction, including moneys deposited in a sinking, redemption, or reserve fund or other fund to secure the revenue bonds or to provide for the payment of the principal of, or interest on, the revenue bonds.

SEC. 3. Section 33760 of the Health and Safety Code is amended to read:

33760. Within its territorial jurisdiction, an agency may determine the location and character of any residential construction to be financed under the provisions of this chapter and may make insured loans to participating parties through qualified mortgage lenders, or purchase insured loans without premium made by qualified mortgage lenders to participating parties, for financing (1) residential construction within a redevelopment project area or (2) residential construction of residences in which the dwelling units are committed, for the period during which the loan is outstanding, for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

SEC. 4. Section 33762 of the Health and Safety Code is amended to read:

33762. An agency may establish limitations respecting fees, charges, and interest rates to be used by qualified mortgage lenders for financing residential construction pursuant to this chapter and may from time to time revise such fees, charges, and interest rates to reflect changes in interest rates on the agency's revenue bonds, losses due to defaults, changes in loan-servicing charges, or other expenses related to administration of the residential construction financing program. Any change in interest rate shall conform to the provisions of Section 1916.5 of the Civil Code, except that paragraph (3) of subdivision (a) of Section 1916.5 shall not apply and that the "prescribed standard" specified in Section 1916.5 shall be periodically determined by the redevelopment agency after hearing preceded by public notice to affected parties, and shall reflect changes in interest rates on the agency's bonds, and bona fide changes in loan servicing charges related to the administration of a program under the provisions of this chapter. An agency may purchase insured loans made by a qualified mortgage lender without

premium or may itself pay such fees and charges incurred in lending money for the purpose of residential construction and may collect and disburse, or may contract to pay any person, partnership, association, corporation, or public agency for, collection and disbursal of payments of principal, interest, taxes, insurance, and mortgage insurance. An agency may hold deeds of trust or mortgages, including mortgages insured under Title II of the National Housing Act, as security for financing residential construction and may pledge or assign the same as security for repayment of revenue bonds. Such deeds of trust or mortgages may be assigned to, and held on behalf of the agency by, any bank or trust company appointed to act as trustee or fiscal agent by the agency in any indenture or resolution providing for issuance of bonds pursuant to this chapter. An agency may establish the terms and conditions of financing, which shall be consistent with the provisions of any applicable federal or state law under which the financing is to be insured.

SEC. 4.5. Section 33766 of the Health and Safety Code is amended to read:

33766. Revenues and the proceeds of mortgage insurance or guarantee claims shall be the sole source of funds pledged by an agency for repayment of its revenue bonds. Revenue bonds issued under the provisions of this chapter shall not be deemed to constitute a debt or liability of the agency or the state for which is pledged the faith and credit of the agency or the state but shall be payable solely from revenues and the proceeds of mortgage insurance or guarantee claims.

SEC. 5. Section 33775.5 is added to the Health and Safety Code, to read:

33775.5. In determining the amount of bonds to be issued, the agency may include all costs of the issuance of such revenue bonds, bond reserve funds, and bond interest estimated to accrue for a period not exceeding 12 months from the date of issuance of the bonds.

SEC. 6. Section 33780 of the Health and Safety Code is amended to read:

33780. In the discretion of the agency, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such a trust agreement or the resolution providing for the issuance of revenue bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence the construction of which is to be financed out of the proceeds of such revenue bonds. Such trust agreement or the resolution providing for the issuance of bonds may provide for the assignment to such corporate trustee or trustees of insured loans, to be held by such trustee or trustees on behalf of the agency for the

benefit of the bondholders. Such trust agreement or resolution providing for the issuance of revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the agency authorizing the issuance of the revenue bonds. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of revenue bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of residential construction.

SEC. 7. Section 33790 of the Health and Safety Code is amended to read:

33790. An agency may not finance insured loans which have not been authorized by prior written agreement between the agency and the participating party. All agreements for such loans shall provide that the architectural and engineering design of the residential construction shall be subject to such standards as may be established by the agency and that the work of such residential construction shall be subject to such supervision as the agency deems necessary.

SEC. 8. Section 33792 of the Health and Safety Code is amended to read:

33792. All moneys received pursuant to the provisions of this chapter, whether revenues or proceeds from the sale of revenue bonds or proceeds of mortgage insurance or guarantee claims, shall be deemed to be trust funds to be held and applied solely as provided in this chapter. Any bank or trust company in which such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes specified in this chapter, subject to the terms of the resolution authorizing the revenue bonds.

SEC. 9. Section 37912 of the Health and Safety Code is amended to read:

37912. Unless the context otherwise requires, the following definitions shall govern the construction of this part:

(a) "Bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by a local agency pursuant to this part and which are payable exclusively from the revenues, as defined in subdivision (i), and from any other funds specified in this part upon which the bonds may be made a charge and from which they are payable.

(b) "Citizen participation" means action by the local agency to

provide persons who will be affected by residential rehabilitation financed under the provisions of this part with opportunities to be involved in planning and carrying out the residential rehabilitation program. "Citizen participation" shall include, but not be limited to, all of the following and in the order provided below:

(1) Holding a public meeting prior to the hearing by the legislative body considering selection of the area for designation.

(2) Consultation with an elected or appointed citizen advisory board, composed of representatives of both owners of property in, and residents of, a proposed residential rehabilitation area, in developing a plan for public improvements and the rules and regulations for implementation of the proposed residential rehabilitation program.

(3) Dissemination, at least seven days prior to the original hearing, by mailing to property owners within the proposed residential rehabilitation area at the address shown on the latest assessment roll and by distribution to residents of such area by a manner determined appropriate by the local agency, of information relating to the time and location of the hearing, boundaries of the proposed residential rehabilitation area, and a general description of the proposed residential rehabilitation program.

"Citizen participation" also includes any other means of citizen involvement determined appropriate by the legislative body.

Public meetings and consultations held to implement the requirements of citizen participation shall be conducted by a planning or rehabilitation official designated by the legislative body. Public meetings shall be held at times and places convenient to residents and property owners.

(c) "Financing" means the lending of moneys or any other thing of value for the purpose of residential rehabilitation and includes refinancing of outstanding indebtedness of the participating party with respect to property which is subject to residential rehabilitation or the purchase of structures rehabilitated by a redevelopment agency functioning pursuant to Part 1 (commencing with Section 33000) of this division.

(d) "Legislative body" means the city council, board of supervisors, or other legislative body of the local agency.

(e) "Local agency" means any of the following:

(1) Any city, county, or city and county.

(2) Any redevelopment agency functioning pursuant to Part 1 (commencing with Section 33000) of this division.

(3) Any housing authority functioning pursuant to Part 2 (commencing with Section 34200) of this division.

(f) "Participating party" means any person, company, corporation, partnership, firm, local agency, political subdivision of the state, or other entity or group of entities requiring financing for residential rehabilitation pursuant to the provisions of this part. No elective officer of the state or any of its political subdivisions shall be eligible to be a participating party under the provision of this part

(g) "Qualified mortgage lender" means a mortgage lender authorized by a local agency to do business with the agency and to aid in financing pursuant to this part on behalf of the agency, for which service the qualified mortgage lender will be reasonably compensated. Such a mortgage lender shall be a state or national bank, federal or state-chartered savings and loan association, or trust company or mortgage banker which is capable of providing service or otherwise aiding in the financing authorized by this part. Nothing in any other provision of state law shall prevent such a lender from serving as a qualified mortgage lender pursuant to this part.

(h) "Residential rehabilitation" means the construction, reconstruction, renovation, replacement, extension, repair, betterment, equipping, developing, embellishing, or otherwise improving residences consistent with standards of strength, effectiveness, fire resistance, durability, and safety, so that such structures are satisfactory and safe to occupy for residential purposes and are not conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime because of any one or more of the following factors:

(1) Defective design and character of physical construction.

(2) Faulty interior arrangement and exterior spacing.

(3) Inadequate provision for ventilation, lighting, and sanitation.

(4) Obsolescence, deterioration, and dilapidation.

(i) "Residence" means real property improved with a residential structure and, in residential rehabilitation areas only, also includes real property improved with a commercial or mixed residential and commercial structure which, in the judgment of the local agency, is an integral part of a residential neighborhood. "Residence" also includes condominium and cooperative dwelling units, and includes both real property improved with single-family residential structures and real property improved with multiple-family residential structures.

(j) "Rehabilitation standards" means the applicable local or state standards for the rehabilitation of residences located in residential rehabilitation areas or rehabilitated pursuant to Section 37922.1, including any higher standards adopted by the local agency as part of its residential rehabilitation financing program.

(k) "Revenues" means all amounts received as repayment of principal, interest, and all other charges received for, and all other income and receipts derived by, the local agency from the financing of residential rehabilitation, including moneys deposited in a sinking, redemption, or reserve fund or other fund to secure the bonds or to provide for the payment of the principal of, or interest on, the bonds and such other moneys as the legislative body may, in its discretion, make available therefor.

(*l*) "Residential rehabilitation area" means the geographical area designated by the local agency as one for inclusion in a comprehensive residential rehabilitation financing program pursuant to the provisions of this part.

SEC. 10. Section 37917 of the Health and Safety Code is amended to read:

37917. The local agency may fix fees, charges, and interest rates for financing residential rehabilitation and may from time to time revise such fees, charges, and interest rates to reflect changes in interest rates on the local agency's bonds, losses due to defaults, changes in loan servicing charges, or other expenses related to administration of the residential rehabilitation financing program. Any change in interest rate shall conform to the provisions of Section 1916.5 of the Civil Code, except that paragraph (3) of subdivision (a) of Section 1916.5 shall not apply and that the "prescribed standard" specified in Section 1916.5 shall be periodically determined by the governing body of the local agency after hearing preceded by public notice to affected parties, and shall reflect changes in interest rates on the local agency's bonds, losses due to defaults, and bona fide changes in loan servicing charges related to the administration of a program under the provisions of this part.

The local agency may purchase loans made to participating parties by qualified mortgage lenders without premium, if the loans are insured or guaranteed, in whole or in part, by an instrumentality of the United States or of the State of California and are of the character and on the terms previously established by the local agency for the residential rehabilitation program. The local agency may fix fees for servicing of such loans by qualified mortgage lenders, or may itself undertake collection, or may contract to pay any person, partnership, association, corporation, or public agency for such collection and disbursal.

The local agency may hold deeds of trust or mortgages, including mortgages insured under Title II of the National Housing Act, as security for financing residential rehabilitation and may pledge or assign the same as security for repayment of bonds issued pursuant to this part. The local agency may establish the terms and conditions for the financing of residential rehabilitation undertaken pursuant to this part.

Such deeds of trust or mortgages may be assigned to, and held on behalf of the local agency by, any bank or trust company appointed to act as trustee or fiscal agent by the local agency in any indenture or resolution providing for issuance of bonds pursuant to this part.

The full amount owed on any loan for residential rehabilitation made pursuant to this part shall be due and payable upon sale or other transfer of ownership of the property subject to such rehabilitation, except that assignment of the loan to the buyer or transferee may be permitted where required by the federal or state insurer or in cases of hardship, which shall be defined, and procedures established for the determination of their existence, in the guidelines established pursuant to subdivision (c) of Section 37922.

SEC. 11. Section 37920 of the Health and Safety Code is amended to read:

37920. Revenues and the proceeds of mortgage insurance or guarantee claims, if any, shall be the sole source of funds pledged by the local agency for repayment of its bonds. Bonds issued under the provisions of this part shall not be deemed to constitute a debt or liability of the local agency or a pledge of the faith and credit of the local agency but shall be payable solely from revenues and the proceeds of mortgage insurance or guarantee claims, if any. The issuance of bonds shall not directly, indirectly, or contingently obligate the legislative body to levy or pledge any form of taxation or to make any appropriation for their payment.

SEC. 12. Section 37922 of the Health and Safety Code is amended to read:

37922. Prior to the issuance of any bonds or bond anticipation notes of the local agency for residential rehabilitation, the local agency shall by ordinance or resolution adopt a comprehensive residential rehabilitation financing program which shall include, but is not limited to, the following items:

(a) Criteria for selection of residential rehabilitation areas by the local agency which shall include findings by the local agency that:

(1) There are a substantial number of deteriorating structures in the area which do not conform to community standards for decent, safe, sanitary housing.

(2) Financial assistance from the local agency for residential rehabilitation is necessary to arrest the deterioration of the area.

(3) Financing of residential rehabilitation in the area is economically feasible.

However, these findings are not required when the residential rehabilitation area is a redevelopment project area that the provisions of the Community Redevelopment Law (Part 1 (commencing with Section 33000)) apply to.

(b) Procedures for selection of residential rehabilitation areas by the local agency which shall include:

(1) Provisions for citizen participation in selection of residential rehabilitation areas.

(2) Provisions for a public hearing by the governing body of the local agency prior to selection of any particular residential rehabilitation area by the local agency.

(c) A commitment that, subject to budgeting and fiscal limitations of the local agency, rehabilitation standards will be enforced in 95 percent of the residences in each residential rehabilitation area.

(d) Guidelines for financing residential rehabilitation which shall be subject to the following limitations:

(1) Outstanding loans on the property to be rehabilitated, including the amount of the loans for rehabilitation, shall not exceed 80 percent of the anticipated after-rehabilitation value of the property to be rehabilitated, except that the local agency may authorize loans of up to 95 percent of the anticipated after-rehabilitation value of the property if such loans are made for the purpose of rehabilitating the property for residential purposes,

there is demonstrated need for such higher limit, and there is a high probability that the value of the property will not be impaired during the term of the loan. A nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code or a cooperative housing corporation, as defined in subdivision (a) of Section 17265 of the Revenue and Taxation Code, may be authorized a loan not exceeding either 98 or 100 percent of the estimated after-rehabilitation value or of its total development cost, according to the standards for nonprofit housing sponsors set forth in Section 41338, if the dwelling units within the residence rehabilitated with financing under this part are committed for the period during which the loan is outstanding for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

(2) The maximum repayment period for residential rehabilitation loans shall be 40 years or four-fifths of the economic life of the property, whichever is less.

(3) The maximum amount loaned for rehabilitation for each dwelling unit and for each commercial unit which is, or is part of, a "residence" within the meaning of that term as defined in this part, shall be thirty-five thousand dollars ($35,000).

(4) No more than 20 percent of any loan for residential rehabilitation shall be used for residential rehabilitation which is not required under the local agency's rehabilitation standards except that in the case of owner-occupied one- to four-dwelling-unit properties, up to 40 percent of the loan for residential rehabilitation may be used for residential rehabilitation not required under the local agency's rehabilitation standards.

(5) Loans shall not be made for the purpose of refinancing the outstanding indebtedness of the participating party with respect to property which is subject to residential rehabilitation, unless the cost, including in such costs any amounts previously expended for residential rehabilitation of that property by a participating party, within a residential rehabilitation area or a redevelopment project area established at the time of such expenditure, of meeting the rehabilitation standards is at least 20 percent of the principal amount of the loan.

(e) A requirement that a plan for public improvements necessary to successful rehabilitation of the residential rehabilitation area be developed, with citizen participation, for each residential rehabilitation area and that the plan for public improvements be adopted by the local agency prior to the financing of residential rehabilitation in any residential rehabilitation area, together with a commitment that, subject to budgetary and fiscal limitations, such plan will be carried out by the local agency.

SEC. 13. Section 37922.1 of the Health and Safety Code is amended to read:

37922.1. (a) A comprehensive residential rehabilitation financing

program may authorize residential rehabilitation outside residential rehabilitation areas of residences which meet the following qualifications:

(1) The residence is located in an area determined by the legislative body to be a stable and viable residential neighborhood.

(2) Rehabilitation of the residence is determined by the legislative body to be economically feasible.

(3) Dwelling units rehabilitated within the residence with financing under this part are committed for the period during which the loan is outstanding for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

(b) Guidelines for financing residential rehabilitation of residences specified in subdivision (a) shall be included in the comprehensive residential rehabilitation financing program if financing of such rehabilitation is authorized pursuant to this section. Such guidelines shall be subject to the limitations prescribed by subdivision (d) of Section 37922. The maximum repayment period for residential rehabilitation loans for residences described in subdivision (a) shall be 40 years or four-fifths of the economic life of the property, whichever is less.

(c) With respect to rehabilitation of residences specified in subdivision (a), the comprehensive residential rehabilitation financing program shall provide for notice to affected owners and tenants of the proposed rehabilitation and for an opportunity for participation by them in the designation of dwelling units to be rehabilitated and in the planning of the proposed rehabilitation.

SEC. 14. Section 37930.5 is added to the Health and Safety Code, to read:

37930.5. In determining the amount of bonds to be issued, the local agency may include all costs of the issuance of such revenue bonds, bond reserve funds, and bond interest estimated to accrue for a period not exceeding 12 months from the date of the bonds.

SEC. 15. Section 37935 of the Health and Safety Code is amended to read:

37935. In the discretion of the local agency, any bonds issued under the provisions of this part may be secured by a trust agreement by and between the local agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such trust agreement or the resolution providing for the issuance of such bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence the rehabilitation of which is to be financed out of the proceeds of such bonds. Such trust agreement or the resolution providing for the issuance of the bonds may provide for the assignment to such corporate trustee or trustees of loans, deeds of trust, or mortgages, to be held by such trustee or trustees on behalf of the local agency for the benefit of the bondholders. Such trust agreement or

resolution providing for the issuance of bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the local agency authorizing the issuance of bonds pursuant to Section 37932. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the local agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the local agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of residential rehabilitation.

SEC. 16. Section 37952 of the Health and Safety Code is amended to read:

37952. All moneys received pursuant to the provisions of this part, whether proceeds from the sale of bonds or revenues or proceeds of mortgage insurance or guarantee claims, if any, shall be deemed to be trust funds to be held and applied solely as provided in this part. Any bank or trust company in which such moneys are deposited shall act as trustee of such moneys and shall hold and apply the same for the purposes specified in this part, subject to the terms of the resolution authorizing the bonds.

SEC. 17. Section 41338 of the Health and Safety Code is amended to read:

41338. Loans made pursuant to this part to housing sponsors, other than nonprofit housing sponsors, of rental housing developments shall not exceed 95 percent of the development costs of the housing development for which the loan is made. Loans made pursuant to this part to local public entities and nonprofit housing sponsors shall in no event exceed 100 percent of development costs and shall not exceed 98 percent of development costs unless (1) the local public entity or nonprofit housing sponsor has or will participate in the housing development with another local public entity or nonprofit housing sponsor which has a significant past record of successful residential development and not more than 30 percent of the units in such housing development will be occupied by very low income family households, or (2) the housing development will be designed for occupancy by elderly or handicapped households. In evaluating the significance of the past record of a nonprofit housing sponsor for purposes of this section, the agency shall take into consideration exclusionary or discriminatory lending policies or practices of the mortgage finance industry or government mortgage programs which have limited the record of past housing production or

development by the nonprofit housing sponsor.

CHAPTER 932

An act to amend Section 14040.6 of the Government Code, relating to transportation.

[Approved by Governor September 20, 1977. Filed with Secretary of State September 20, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 14040.6 of the Government Code is amended to read:

14040.6. The California Transportation Plan shall not be adopted by the board until the Legislature has received, and approved or modified, the recommendations specified in subdivision (a) of Section 14042 by an act containing the approved or modified recommendations, which act shall constitute a legislative declaration of statewide transportation goals, objectives, and policies. The board shall adopt the California Transportation Plan only upon a finding that the plan is compatible with the declaration.

The plan shall not become effective until the Legislature declares by statute that the plan is consistent with the Legislature's declaration of statewide transportation goals, objectives, and policies.

SEC. 2. Section 1 of this act shall not become effective if Assembly Bill No. 402 of the 1977–78 Regular Session of the Legislature is enacted to add Part 5.3 (commencing with Section 14500) to Division 3 of Title 2 of the Government Code to create a California Transportation Commission.

CHAPTER 933

An act to add Sections 20930.5 and 20938 to the Government Code, relating to the Public Employees' Retirement System.

[Became law without Governor's Signature September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 20930.5 is added to the Government Code, to read:

20930.5. "Public service," with respect to a local member electing prior to December 31, 1978, to receive credit therefor, also means any time prior to such election during which such member served as an uncompensated elected public official. Any member electing

to receive credit for such public service shall contribute an amount equal to (1) the contributions that the member would have been required to make had he been a member, which shall be based upon the compensation currently earned by a person in the same position as that in which the member previously served; (2) the contribution that would have been made by his employer in respect to him had he been a member, assuming that the employer rate of contribution in effect at the time of election had been in effect during such time; and (3) the amount of interest that would have accrued to the member and employer contributions if they had been deposited at the beginning date of the member's first subsequent period of service in membership until the date of completion of payments at the interest rate in effect on the date of election.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or in the case of contracts made after this section takes effect, by express provision in such contract making the contracting agency subject to the provisions of this section.

SEC. 2. Section 20938 is added to the Government Code, to read:

20938. "Public service" also means time during which a local member was employed by a public agency prior to the date of that agency's contract with the system if:

(a) The member left his contributions to that agency's local retirement system on deposit when the member terminated service with that agency; and

(b) The member elects, prior to December 31, 1978, to pay all of the contributions for current and prior service which the member and the public agency for which the member performed service prior to the contract with the system would have made to the system had he been in membership for a period equal to such public service and assuming that the contribution rates payable, by the member at the time of his first entry into membership, and the rates payable by his employer at the time of election, and his compensation at the beginning of his first period of service in membership with the system had been in effect for such period of public service, plus an amount equal to the interest which would have accrued to such contributions if they had been on deposit with the system from the beginning of the member's first period of service in membership to date of election, and assuming that the annual interest rate in effect on the date of election had been in effect throughout such period; and

(c) The member's current employer agrees to pay all costs for such service credit, which are not paid by the member, by having all of such service credit charged to its account; and

(d) The local retirement system holding the member's contributions shall transfer such contributions to this system to be credited first against member contributions due under subdivision

(b), and then against the employer's costs under subdivision (c).

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or in the case of contracts made after this section becomes effective, by express provision in such contract making the contracting agency subject to the provisions of this section.

CHAPTER 934

An act to amend Sections 43.7 and 43.8 of the Civil Code, relating to liability.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 43.7 of the Civil Code, as amended by Chapter 241 of the Statutes of 1977, is amended to read:

43.7. There shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any member of a duly appointed committee of a state or local professional society, or duly appointed member of a committee of a medical staff of a licensed hospital (provided the medical staff operates pursuant to written bylaws that have been approved by the governing board of the hospital), for any act or proceeding undertaken or performed within the scope of the functions of any such committee which is formed to maintain the professional standards of the society established by its bylaws, or any member of any peer review committee whose purpose is to review the quality of medical or dental services rendered by physicians and surgeons, or dentists, which committee is composed chiefly of physicians and surgeons, or dentists, for any act or proceeding undertaken or performed in reviewing the quality of medical or dental services rendered by physicians and surgeons, or dentists, if such committee member acts without malice, has made a reasonable effort to obtain the facts of the matter as to which he acts, and acts in reasonable belief that the action taken by him is warranted by the facts known to him after such reasonable effort to obtain facts. "Professional society" includes legal, medical, psychological, dental, accounting, optometric, podiatric, pharmaceutic, chiropractic, and engineering organizations having as members at least a majority of the eligible licentiates in the area served by the particular society. The provisions of this section do not affect the official immunity of an officer or employee of a public corporation.

There shall be no monetary liability on the part of, and no cause

of action for damages shall arise against, any physician and surgeon who is a member of an underwriting committee of an interindemnity or reciprocal or interinsurance exchange or mutual company for any act or proceeding undertaken or performed in evaluating physicians and surgeons for the writing of professional liability insurance, if such evaluating physician or surgeon acts without malice, has made a reasonable effort to obtain the facts of the matter as to which he acts, and acts in reasonable belief that the action taken by him is warranted by the facts known to him after such reasonable effort to obtain such facts.

This section shall not be construed to confer immunity from liability on any professional society or hospital. In any case in which, but for the enactment of the preceding provisions of this section, a cause of action would arise against a hospital or professional society, such cause of action shall exist as if the preceding provisions of this section had not been enacted.

SEC. 2. Section 43.8 of the Civil Code is amended to read:

43.8. In addition to the privilege afforded by Section 47, there shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any person on account of the communication of information in the possession of such person to any hospital, hospital medical staff, professional society, medical or dental school, professional licensing board or division, committee or panel of such licensing board, peer review committee, or underwriting committee described in Section 43.7 when such communication is intended to aid in the evaluation of the qualifications, fitness, character, or insurability of a practitioner of the healing arts and does not represent as true any matter not reasonably believed to be true. The immunities afforded by this section and by Section 43.7 shall not affect the availability of any absolute privilege which may be afforded by Section 47.

This section does not apply to the records of an employee relating to the investigation of a possible criminal offense. It shall not apply to letters of reference.

CHAPTER 939

An act to add Article 6.5 (commencing with Section 18300) to Chapter 3 of Division 7 of the Financial Code, relating to loans.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Article 6.5 (commencing with Section 18300) is added to Chapter 3 of Division 7 of the Financial Code, to read:

Article 6.5. Open-End Loans

18300. (a) As used in this article, "open-end loan" means a loan or loans made by an industrial loan company pursuant to a loan agreement which expressly states that it is made pursuant to this section and pursuant to which:

(1) The industrial loan company may permit the borrower to obtain advances of money from the industrial loan company from time to time or the industrial loan company may advance money on behalf of the borrower from time to time as directed by the borrower.

(2) The amount of each advance and the charges and other permitted costs are debited to an account.

(3) The charges are computed from time to time on the unpaid balances of the borrower's account, excluding from the computation any unpaid charges other than permitted fees, costs and expenses.

(4) The borrower has the privilege of paying the account in full at any time or in monthly installments.

(b) Subject to the written approval of the commissioner of the industrial loan company's plan of business for making open-end loans as not being misleading or deceptive and subject to regulations the commissioner may promulgate with respect to open-end loans under Section 18347, an industrial loan company may make open-end loans pursuant to this section and may contract for and receive thereon charges as set forth in Sections 18212 and 18213. Such charges may be calculated on an amount not exceeding the greater of:

(1) The actual daily unpaid balances of the open-end account in the billing cycle for which the charge is made, in which case one-thirtieth of the monthly rate may be charged for each day the unpaid balance is outstanding.

(2) The average daily unpaid balance of the open-end account in the billing cycle for which the charge is made, which is the sum of the amount unpaid each day during that cycle divided by the number of days in that cycle. The amount unpaid on a day is determined by adding to the balance unpaid as of the beginning of that day all advances and other debits and deducting all payments and other credits made or received as of that day.

The billing cycle shall be monthly. A billing cycle is monthly if the closing date of that cycle is the same date each month or does not vary by more than four days from the regular date.

(c) No industrial loan company shall enter into any agreement for an open-end loan that provides for a minimum payment that would result in the full repayment of principal over more than the maximum periods set forth below opposite the respective size of loans.

Principal amount of loan	Maximum period
Less than $1,500	24 months and 15 days
$1,500 but less than $2,500	36 months and 15 days
$2,500 but less than $4,000	48 months and 15 days
$4,000 but less than $6,000	60 months and 15 days
$6,000 but less than $10,000	84 months and 15 days

The minimum payment shall be determined by the amount of the initial loan advance and shall continue at that amount until a subsequent loan advance is made, at which time the minimum payment shall be determined by the amount of the unpaid balance of the loan after the advance and including the advance. Minimum payments after each advance shall be determined in the same manner.

(d) On open-end loans the industrial loan company may contract for and receive the fees, costs and expenses permitted on other loans, including those permitted by Sections 18215, 18218, 18290, 18294, and 18412, subject to all of the conditions and restrictions set forth in those sections with the following variations:

(1) The charge for credit life insurance shall be on a monthly basis. No credit life insurance written in connection with an open-end loan shall be cancelled by the lender because of delinquency of the borrower in the making of the minimum payments thereon unless one or more of such payments is past due for a period of 90 days or more, and the lender shall advance to the insurer the amounts required to keep the insurance in force during such period, which amounts may be debited to the borrower's account.

(e) An industrial loan company shall not make an open-end loan in excess of ten thousand dollars ($10,000) principal amount.

(f) The loan contract shall provide for payment of minimum payments complying with subdivision (c). All loans made pursuant to this section shall be repayable by equal or substantially equal monthly payments during the term of the loan.

(g) In lieu of applying the provisions of Section 18290, the provisions contained herein shall apply to open-end loans.

An industrial loan company may provide insurance on the life of one or more borrowers with the borrower's consent. The form of the insurance shall be approved by the Commissioner of Insurance and shall be in an amount not in excess of the indebtedness. The amount charged to the borrower for such insurance shall not exceed the amount provided in paragraph (1) or (2) following, whichever is less:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 799.1) of Chapter 1 of Part 2 of Division 1 of the Insurance Code and which has not been disapproved by him.

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

Notwithstanding Section 18291, any such life insurance shall be in force as soon as the loan is made or coverage is agreed upon, whichever is later.

(h) The open-end loan agreement shall contain the name and address of the industrial loan company and shall disclose the nature of the security taken, if any, the method of determining the minimum payments which will be required to repay the initial advance, and any subsequent advances on the loan, and the agreed rate of charge.

(i) At the time the open-end loan agreement is made the

industrial loan company shall obtain from the borrower a signed statement as to whether any person has performed any act as a broker in connection with the making of the loan. If such statement discloses a broker or other person has participated, the company shall obtain a full statement of all sums paid or payable to the broker or other person. The open-end loan agreement and the statement required by this subdivision shall be kept for a period of two years after the date the loan has been paid in full, or has matured according to its terms, or has been charged off.

(j) Except in the case of an account which the industrial loan company deems to be uncollectible, or with respect to which delinquency collection procedures have been instituted, the company shall deliver or cause to be delivered to the borrower, or any one thereof, for each billing cycle at the end of which there is an outstanding balance in the account or with respect to which a finance charge is imposed, a statement setting forth the outstanding balance in the account at the beginning of the billing cycle, the date and amount of any subsequent loan advance during the period, the amounts and dates of crediting to the account during the billing cycle for payments, the amount of any finance charge debited to the account during the billing cycle, the annual percentage rate of finance charge determined under Regulation Z promulgated by the Board of Governors of the Federal Reserve System under the Federal Consumer Credit Protection Act, the balance on which the finance charge was computed, the closing date of the billing cycle, the outstanding balance on that date, and the minimum monthly payment required in the absence of any additional advance. If there has been any change in the nature of the security for the loan since the next preceding advance, the statement shall contain or be accompanied by a statement of the nature of the security for the loan after such change.

(k) An industrial loan company shall not take any instrument in connection with an open-end loan in which blanks are left to be filled in after execution.

(*l*) Subdivision (a) of Section 18205, and Sections 18206, 18214, 18222, 18231, 18232, 18235, 18245, 18246, 18247, 18248, 18249, 18250, 18251, and 18252 shall not apply to open-end loans.

(m) An industrial loan company shall not make an open-end loan secured by real property in whole or in part.

(n) An industrial loan company shall not charge for, offer or provide credit disability insurance in connection with an open-end loan.

(o) This section shall not apply to loans other than open-end loans.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government

entities which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 940

An act to amend Sections 434.5, 17081, 40024, and 40031 of, and to repeal Section 9157 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 434.5 of the Revenue and Taxation Code is amended to read:

434.5. (a) On March 1, 1977, and March 1 of each year thereafter, up to and including March 1, 1979, timberland shall be valued according to the following schedule:

Redwood Region		Pine-Mixed Conifer Region	
Site I	$80	Site I	$60
Site II	$60	Site II	$50
Site III	$50	Site III	$40
Site IV	$30	Site IV	$30
Site V (and inoperable)	$20	Site V (and inoperable)	$20

When the assessor, pursuant to Section 434, designates a timberland parcel or portion thereof as inoperable, such timberland parcel or portion thereof shall be valued as if it is Site V.

The Legislature finds and declares that the foregoing values are consistent with the taxation of timberland used primarily for growing timber and that these values are consistent with the intent of subdivision (j) of Section 3 of Article XIII of the Constitution.

(b) On or before January 1, 1980, and every third year thereafter, the board after consultation with the timber advisory committee and in compliance with procedures set forth for adoption of rules under the Administrative Procedure Act, shall adopt schedules reestablishing the value of each grade of timberland graded pursuant to Section 434 as if it were bare of forest growth, and recognizing that the restricted use of the land is for growing and harvesting timber and compatible uses. The board shall certify such values to county assessors by January 10 of each year. Such schedule shall remain in effect until subsequent revision pursuant to the provisions of this subdivision.

(c) Commencing January 1, 1977, the board shall collect such data as may be necessary to accurately value timberland pursuant to subdivision (b).

(d) In promulgating regulations pursuant to subdivision (b) the board shall determine the value of such timberland subject to the following:

(1) The board shall base the value of such land upon the existence of a 10-year enforceable restriction using commonly accepted systems of valuation.

(2) When the board is valuing timberland property within a timberland preserve zone by comparison with sales of other timberland properties in order to be considered comparable, the properties sold shall be at least 160 acres in size and shall be similarly restricted under a timberland preserve zone. Size and any discount for size and amenities shall not be factors in determining the value of land zoned as timberland preserve which is valued by a method employing the use of comparable sales.

(e) For purposes of this section, the value of each acre of timberland within each site class, within a timberland preserve zone, shall be presumed no greater than the value derived pursuant to subdivision (f).

(f) The board shall:

(1) Prepare, or cause to be prepared, timberland site capability tables which shall prescribe by site classification the potential annual yield of wood by species or mixture of species per acre.

(2) Multiply the potential annual yield by 10 percent.

(3) Multiply the result of paragraph (2) by an immediate harvest value, averaged for the previous 20 quarters, that is appropriate for the geographical area wherein such timberland values shall be applied.

(4) Divide the result of paragraph (3) by a capitalization rate of 10 percent expressed as a decimal.

Pursuant to paragraph (2) of this subdivision, the Legislature declares that 10 percent is the average percent of income from potential annual yield of wood that can be attributed to timberland as a productive component contributing to such income, and the Legislature finds that it is in the public interest that values derived from analysis of sales of timberland restricted under timberland preserve zones shall not exceed this percentage.

(g) For the purposes of this section, the value of each acre of timberland within a timberland preserve zone shall be presumed to be no less than twenty dollars ($20) per acre.

SEC. 2. Section 434.5 of the Revenue and Taxation Code is amended to read:

434.5. (a) On March 1, 1977, and March 1 of each year thereafter, up to and including March 1, 1979, timberland shall be valued according to the following schedule:

Redwood Region		Pine-Mixed Conifer Region	
Site I	$80	Site I	$60
Site II	$60	Site II	$50

Site III	$50	Site III	$40
Site IV	$30	Site IV	$30
Site V (and inoperable)	$20	Site V (and inoperable)	$20

When the assessor, pursuant to Section 434, designates a timberland parcel or portion thereof as inoperable, such timberland parcel or portion thereof shall be valued as if it is Site V.

The Legislature finds and declares that the foregoing values are consistent with the taxation of timberland used primarily for growing timber and that these values are consistent with the intent of Section subdivision (j) of Section 3 of Article 13 of the Constitution.

(b) On or before January 1, 1980, and every third year thereafter, the board after consultation with the timber advisory committee and in compliance with procedures set forth for adoption of rules under the Administrative Procedure Act, shall adopt schedules reestablishing the value of each grade of timberland graded pursuant to Section 434 as if it were bare of forest growth, and recognizing that the restricted use of the land is for growing and harvesting timber and compatible uses. The board shall certify such values to county assessors by January 10 of each year. Such schedule shall remain in effect until subsequent revision pursuant to the provisions of this subdivision.

(c) Commencing January 1, 1977, the board shall collect such data as may be necessary to accurately value timberland pursuant to subdivision (b).

(d) In promulgating regulations pursuant to subdivision (b) the board shall determine the value of such timberland subject to the following:

(1) The board shall base the value of such land upon the existence of a 10-year enforceable restriction using commonly accepted systems of valuation.

(2) When the board is valuing timberland property within a timberland preserve zone by comparison with sales of other timberland properties in order to be considered comparable, the properties sold shall be at least 160 acres in size and shall be similarly restricted under a timberland preserve zone. Size and any discount for size and amenities shall not be factors in determining the value of land zoned as timberland preserve which is valued by a method employing the use of comparable sales.

(e) For purposes of this section, the value of each acre of timberland within each site class, within a timberland preserve zone, shall be presumed no greater than the value derived pursuant to subdivision (f).

(f) The board shall:

(1) Prepare, or cause to be prepared, timberland site capability tables which shall prescribe by site classification the potential annual yield of wood by species of mixture of species per acre.

(2) Multiply the potential annual yield by 10 percent.

(3) Multiply the result of paragraph (2) by an immediate harvest value, averaged for the previous 20 quarters, that is appropriate for the geographical area wherein such timberland values shall be applied.

(4) Divide the result of paragraph (3) by a capitalization rate of 10 percent expressed as a decimal.

Pursuant to paragraph (2) of this subdivision, the Legislature declares that 10 percent is the average percent of income from potential annual yield of wood that can be attributed to timberland as a productive component contributing to such income, and the Legislature finds that it is in the public interest that values derived from analysis of sales of timberland restricted under timberland preserve zones shall not exceed this percentage.

(g) For the purposes of this section, the value of each acre of timberland within a timberland preserve zone shall be presumed to be no less than twenty dollars ($20) per acre.

SEC. 3. Section 9157 of the Revenue and Taxation Code is repealed.

SEC. 4. Section 17081 of the Revenue and Taxation Code is amended to read:

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

CHAPTER 943

An act to add Chapter 12 (commencing with Section 19790) to Part 2 of Division 5 of Title 2 of the Government Code, relating to state civil service.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that:

(a) The State of California remains committed to its policy of nondiscrimination and equal employment opportunity and to continuing and expanding positive programs which will assure the strengthening of this policy. To this end the Legislature accepts

leadership responsibility for insuring that equal employment opportunities are available to all applicants and employees in all agencies and departments in the state civil service system.

(b) It is the policy of the Legislature to encourage the state civil service system to utilize to the maximum all available human resources to provide equal employment opportunity to all persons without regard to race, color, religion, national origin, political affiliation, sex, age, or marital status; and, insofar as possible, to achieve and maintain a work force in which are represented the diverse elements of the population of the State of California.

(c) Beyond assurances of nondiscrimination, it is the policy of the State of California to have each state hiring unit initiate comprehensive written affirmative action programs which will take steps to remedy any disparate staffing and recruitment patterns.

(d) This equal employment opportunity policy is adopted to insure that maximum utilization of human resources occurs, that true equality of opportunity is a reality with the State of California, and that the rights of all employees and applicants are safeguarded.

SEC. 2. Chapter 12 (commencing with Section 19790) is added to Part 2 of Division 5 of Title 2 of the Government Code, to read:

CHAPTER 12. STATE CIVIL SERVICE AFFIRMATIVE ACTION PROGRAM

19790. Each agency and department is responsible for establishing an effective affirmative action program. The State Personnel Board shall be responsible for providing statewide advocacy, coordination, enforcement, and monitoring of these programs.

Each agency and department shall establish goals and timetables designed to overcome any identified underutilization of minorities and women in their respective organizations. Agencies and departments shall determine their annual goals and timetables by June 1 of each year beginning in 1978. These goals and timetables shall be made available to the public upon request. All goals and timetables shall then be submitted to the board for review and approval or modification no later than July 1 of each year.

19791. As used in this chapter:

(a) "Goal" means a projected level of achievement resulting from an analysis by the employer of its deficiencies in utilizing minorities and women and what reasonable remedy is available to correct such underutilization. Goals shall be specific by the smallest reasonable hiring unit, and shall be established separately for minorities and women.

(b) "Timetable" means an estimate of the time required to meet specific goals.

(c) "Underutilization" means having fewer persons of a particular group in an occupation or at a level in a department than would reasonably be expected by their availability.

19792. The State Personnel Board shall:

(a) Provide statewide leadership designed to achieve positive and continuing affirmative action programs in the state civil service.

(b) Develop, implement, and maintain affirmative action and equal employment opportunity guidelines.

(c) Provide technical assistance to state departments in the development and implementation of their affirmative action programs.

(d) Review and evaluate departmental affirmative action programs to insure that they comply with federal statutes and regulations.

(e) Establish requirements for improvement or corrective action to eliminate the underutilization of minorities and women.

(f) Provide statewide training to departmental affirmative action officers who will conduct supervisory training on affirmative action.

(g) Review, examine the validity of, and update qualifications standards, selection devices, including oral appraisal panels and career advancement programs.

(h) Maintain a statistical information system designed to yield the data and the analysis necessary for the evaluation of progress in affirmative action and equal employment opportunity within the state civil service. Such statistical information shall include specific data to determine the underutilization of minorities and women. The statistical information shall be made available during normal working hours to all interested persons. Data generated on a regular basis shall include, but not be limited to, the following:

(1) Current state civil service work force composition by race, sex, age, department, salary level, occupation, and attrition rates by occupation.

(2) Current local and regional work force and population data of women and minorities.

(i) Data analysis shall include, but not be limited to, the following:

(1) Data relating to the utilization by department of minorities and women compared to their availability in the labor force.

(2) Turnover data by department and occupation.

(3) Data relating to salary administration, such as average salaries by race and sex, and comparisons of salaries within state service and comparable state employment.

(4) Data on employee age, and salary level compared among races and sexes.

(5) Data on the number of women and minorities recruited for, participating in and passing state civil service examinations. Such data shall be analyzed pursuant to the provisions of Sections 19704 and 19705.

(6) Data on the job classifications, geographic locations, separations, salaries, and other conditions of employment which provide additional information about the composition of the state civil service work force.

19793. By November 15 of each year beginning in 1978, the State Personnel Board shall report to the Governor, the Legislature, and

the Department of Finance on the accomplishment of each state agency and department in meeting its stated affirmative action goals for the past fiscal year. The report shall include information to the Legislature of laws which discriminate or have the effect of discrimination on the basis of race, color, religion, national origin, political affiliation, sex, age, or marital status. The Legislature shall evaluate the equal employment opportunity efforts and affirmative action progress of state agencies during its evaluation of the Budget Bill.

19794. In cooperation with the State Personnel Board, the director of each department shall have the major responsibility for monitoring the effectiveness of the affirmative action program of the department.

19795. The secretary of each state agency and the director of each state department shall appoint an affirmative action officer, other than the personnel officer, except in a department with less than 500 employees the affirmative action officer may be the personnel officer who shall report directly, and be under the supervision of, the director of the department, to develop, implement, coordinate, and monitor the agency or departmental affirmative action program. The departmental or agency affirmative action officer shall, among other duties, analyze and report on appointments of employees, request appropriate action of the departmental director or agency secretary, submit an evaluation of the effectiveness of the total affirmative action program to the State Personnel Board annually, monitor the composition of oral panels in departmental examinations, and perform other duties necessary for the effective implementation of the departmental and agency affirmative action plans.

The departmental and agency affirmative action officers shall be assisted in these responsibilities by an equal employment opportunity committee as determined by the department whose day-to-day responsibilities are vital to the effective implementation of the affirmative action program.

19796. Bureau or division chiefs within a department or agency shall be accountable to the department director for the effectiveness and results of the program within their division or bureau. Each bureau or division may assign an administrator to assist the departmental affirmative action officer.

All management levels, including firstline supervisors, shall provide program support and take all positive action necessary to ensure and advance equal employment opportunity at their respective levels.

19797. Each state agency and department shall develop, update annually, and implement an affirmative action plan which shall at least identify the areas of underutilization of minorities and women within each department by job category and level, contain an equal employment opportunity analysis of all job categories and levels within the hiring jurisdiction, and include an explanation and

specific actions for improving the representation of minorities and women.

CHAPTER 944

An act to amend Section 41177 of the Health and Safety Code, relating to housing, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 41177 of the Health and Safety Code is amended to read:

41177. The Housing Predevelopment Loan Fund shall be administered by the director and such persons within the department as the director may designate.

The revolving loan fund shall be administered in accordance with the following:

(a) The department may not commit more than 20 percent of the total moneys appropriated to the fund to any single borrower at any point in time.

(b) The department shall require adequate security for all loans made from the revolving loan fund. The term "adequate security" includes, but need not be limited to, a first lien on any property purchased with loan fund moneys, a promissory note, or an assignment of a land option except that in the case of Indian Trust Land a mortgage on a leasehold interest in the property shall be acceptable.

(c) The department shall, from time to time, direct the State Treasurer to invest moneys of the revolving loan fund which are not required for its current needs in such eligible securities as the department shall designate from among those specified in Section 16430 of the Government Code. The department may direct the State Treasurer to deposit moneys from the revolving loan fund in interest-bearing accounts in state or national banks or other financial institutions having principal offices in this state. The department may alternatively require the transfer of moneys in the revolving loan fund to the Surplus Money Investment Fund for investment pursuant to Article 4 (commencing with Section 16470) of Chapter 3, Part 2, Division 4, Title 2 of the Government Code. All interest, dividends, and pecuniary gains from such investments or deposits shall accrue to the Housing Predevelopment Loan Fund.

(d) In complying with the provisions of Section 41109, the department shall also report annually to the Legislature and the Governor on the administration of the revolving loan fund. Such

report shall include, but need not be limited to, (1) the number of units assisted, (2) the average income of households assisted and the distribution of annual incomes among assisted households, (3) the rents in assisted units, (4) the number and amount of loans made to each local governmental agency or nonprofit corporation in the preceding year, (5) data on the number of delinquencies and defaults, (6) recommendations, as needed, to improve operations of the revolving loan fund, and (7) the number of loans made at interest rates lower than the average rate returned by the investment of state funds through the Pooled Money Investment Board for the past five fiscal years and the income of households assisted by such loans.

(e) (1) Except as provided in paragraph (2) of this subdivision, all loans made from the Housing Predevelopment Loan Fund shall bear interest. The rate of interest for any loan shall be computed annually, and shall be the same as the average rate returned by the investment of state funds through the Pooled Money Investment Board for the five fiscal years immediately preceding the year in which the loan payment is made.

(2) The department may reduce or eliminate interest on the loans, if, in the exercise of sound discretion, the department determines such action is necessary for the provision of decent housing to very low income households, as described in Section 41067, provided, however, that if the department eliminates interest on a loan, it shall charge a loan origination fee of not to exceed 2 percent of the loan amount.

SEC. 2. The sum of one million fifty thousand dollars ($1,050,000) is hereby appropriated from the General Fund for deposit in the Housing Predevelopment Loan Fund which shall be allocated for expenditure in accordance with the following schedule:

Schedule:

(a) For making predevelopment loans pursuant to Sections 41175, 41176, and 41177 of the Health and Safety Code $1,000,000

(b) For Department of Housing and Community Development expenses in administering the predevelopment loan program under Sections 41175, 41176, and 41177 of the Health and Safety Code 50,000

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

1. The California Statewide Housing Plan documents a tremendous need in rural areas for housing affordable by low-income persons,

2. The state has declared its commitment to meet the housing needs of low-income Californians,

3. All moneys appropriated to the Predevelopment Loan Fund will

be committed in loans by July 1, 1977, leaving the fund incapable of meeting the continued demand for such loans,

4. More than 60 nonprofit organizations and housing authorities exist which can utilize predevelopment loans to obtain financing, particularly from the federal Farmers' Home Administration, to construct housing for low income persons in rural areas which would not otherwise be built,

5. Production of housing takes several years to complete and delay in availability of predevelopment loans will only mean greater delay in production of those houses, greater cost in their development (which is wasteful of the taxpayers' commitment), and delay in obtaining benefits from the jobs created in construction and related areas and sales and income tax revenues raised by the increased economic activity,

6. Therefore, it is essential that this act take immediate effect.

CHAPTER 945

An act relating to the state park system, and making an appropriation therefor.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding Sections 5075 and 5098.2 of the Public Resources Code, the sum of two million seven hundred thousand dollars ($2,700,000) is hereby appropriated from the Park and Recreation Revolving Account in the General Fund to the Department of Parks and Recreation for expenditure, without regard to fiscal years, for the planning, acquisition, and development of recreational trails to, between, and in units of the state park system pursuant to the California Recreational Trails Act (commencing with Section 5070 of the Public Resources Code) and in accordance with the following schedule:

Schedule:

(c) Monterey Peninsula Corridor:	
Monterey County	$200,000
(d) Pacific Ocean Corridor:	
Los Angeles County	$1,000,000

Provided, however, that none of the

funds appropriated by this section may be encumbered for the purchase of real property until the State Public Works Board has determined that the procedures and criteria established by the Attorney General relating to implied dedication and public prescriptive rights or claims have been complied with in the investigations and appraisals of the Department of General Services. All material relating to implied dedication and public prescriptive rights or claims shall be retained in the files of the Department of General Services and shall be available for postaudit on a selective basis by the Attorney General.

CHAPTER 946

An act to amend Sections 5070.5, 5071, 5071.7, and 5075.3 of the Public Resources Code, relating to recreation, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 5070.5 of the Public Resources Code is amended to read:

(c) Provide for the use of recreational trails by physically handicapped persons.

(d) Increase opportunities for recreational boating on designated waterways.

(e) Increase opportunities for use of recreational vehicles in designated areas.

(f) Provide for the development and maintenance of a statewide system of recreational trails.

(g) Encourage the development by cities, counties, and districts of recreational trails.

SEC. 2. Section 5071 of the Public Resources Code is amended to read:

5071. The plan shall contain, but shall not be limited to, the following elements:

(a) Pedestrian trails.

(b) Bikeways.

(c) Equestrian trails.

(d) Boating trails.

(e) Trails and areas suitable for use by physically handicapped persons.

(f) Trails and areas for off-highway recreational vehicles.

(g) Cross-country skiing trails.

SEC. 3. Section 5071.7 of the Public Resources Code is amended to read:

5071.7. (a) In planning the system, the director shall consult with and seek the assistance of the Department of Transportation so that trail routes designated as part of the system and intended for nonmotorized transportation become part of the nonmotorized element of the California Transportation Plan being prepared pursuant to Section 14040 of the Government Code. The Department of Transportation shall plan and design those trail routes in the system that are contiguous to state highways and serve both a transportation and a recreational need.

(b) In planning boating trails and other segments of the system which are oriented to waterways, the director shall consult and seek the assistance of the Department of Navigation and Ocean Development. Such segments shall be integrated with the California Protected Waterways Plan developed pursuant to Chapter 1273 of the Statutes of 1968, and the California Wild and Scenic Rivers System established pursuant to Chapter 1.4 (commencing with Section 5093.50) of this division.

(c) In planning the system, the director shall consult with and seek the assistance of the Department of Rehabilitation to assure that adequate provision is made for the use of recreational trails by physically handicapped persons.

SEC. 4. Section 5075.3 of the Public Resources Code is amended to read:

5075.3. In specifying criteria and standards for the design and construction of trail routes and complementary facilities as provided in subdivisions (b) and (c) of Section 5071.3, the director shall include the following:

(a) The following routes shall be given priority in the allocation of funds:

(1) Routes which are in proximity or accessible to major urban areas of the state.

(2) Routes which are located on lands in public ownership

(3) Routes which provide linkage or access to natural, scenic,

historic, or recreational areas of clear statewide significance.

(4) Routes which are, or may be, the subject of agreements providing for participation of other public agencies in state trail acquisition, development, or maintenance.

(b) Where feasible, trail uses may be combined on routes within the system; however, where trail use by motor vehicles is incompatible with other trail uses, separate areas and facilities should be provided.

(c) Trails should be located and managed so as to restrict trail users to established routes and to aid in effective law enforcement.

(d) Trails should be located so as to avoid severance of private property and to minimize impact on adjacent landowners and operations. The location of any trail authorized by this article shall, if the property owner so requests, be placed as nearly as physically practicable to the boundary lines of the property traversed by the trail, as such boundary lines existed as of January 1, 1975.

(e) Insofar as possible, trails should be designed and maintained to harmonize with, and complement, established forest, agricultural, and resource management plans. No trail, or property acquisition therefor, shall interfere with a landowner's water rights or his right to access to the place of exercise of such water rights.

(f) Trails should be planned as a system and each trail segment should be part of the overall system plan.

(g) Trails should be appropriately signed to provide identification, direction, and information.

(h) Rest areas, shelters, sanitary facilities, or other conveniences should be designed and located to meet the needs of trail users, including physically handicapped persons, and to prevent intrusion into surrounding areas.

(i) The department shall erect fences along any trail when requested to do so by the owner of adjacent land, or with the consent of the owner of such land when the department determines it will be in the best interests of the users of the trail and adjoining property owners, and shall place gates in such fences when necessary to afford proper access and at each point of intersection with existing roads, trails, or at used points of access to or across such trail. The department shall maintain such fences and gates in good condition.

(j) A landowner's right to conduct agricultural, timber harvesting, or mining activities on private lands adjacent to, or in the vicinity of, a trail shall not be restricted because of the presence of the trail.

SEC. 5. The sum of three hundred fifty thousand dollars ($350,000) is hereby appropriated from the Collier Park Preservation Fund to the Department of Parks and Recreation for expenditure during the 1977–78, 1978–79, and 1979–80 fiscal years for the acquisition of land for the South Yuba River Trail Project, in accordance with the following schedule:

(6) Parcel No. 30-170-01 (along Owl Creek south of lands of the Bureau of Land Management).

(7) The ditch easements east of State Highway Route 49 in the South Halves of Sections 32 and 33, T. 17 N., R. 8 E., D.B. & M.

SEC. 6. The acquisition of land authorized by Section 5 of this act shall be subject to the provisions of the Property Acquisition Law (commencing with Section 15850 of the Government Code), and none of such funds shall be expended on the purchase price of any real property until the State Public Works Board has determined both of the following:

(a) That there exists an agreement between the state and the federal government that there will be federal government development and operation of a trail upon the lands to be acquired by the state.

(b) That the procedures and criteria established by the Attorney

General relating to implied dedication and public prescriptive rights or claims have been complied with in the investigations and appraisals of the Department of General Services. All materials relating to implied dedication and public prescriptive rights or claims shall be retained in the files of the Department of General Services and shall be available for postaudit on a selective basis by the Attorney General.

SEC. 7. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Also, property which would be acquired for the South Yuba River Trail Project with funds appropriated pursuant to this act may be sold for other purposes if not purchased immediately. The people of the State of California do enact as follows:

SECTION 1. Section 26225 of the Water Code is amended to read:

26225. Property sold for delinquent assessments may be redeemed within five years from the date of sale, or thereafter before a collector's deed of the property has been delivered.

Where a collector's deed has been delivered to the district, the period of redemption is extended until the first bid is received for the property or until the board determines the property is not to be sold as provided in Section 26290.

Redemption before a collector's deed of the property has been delivered may be made by payment in lawful money of the United States to the collector of the amount for which the property was sold plus a penalty of three-fourths of 1 percent per month from the date of sale until redemption. Redemption after a collectors deed has been delivered may only be made by payment of the total of the following amounts:

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because duties, obligations, or responsibilities imposed on local governmental entities by this act are such that related costs are incurred as a part of their normal operating procedures.

CHAPTER 952

An act to amend Section 65302.2 of, and to add Sections 65302.6 and 65302.7 to, the Government Code, relating to general plans.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 65302.2 of the Government Code is amended to read:

65302.2. Notwithstanding any other provision of law, every city and county shall prepare and adopt the seismic safety element, the noise element, the safety element, the scenic highway element, and any other element hereafter required to be included in its general plan no later than one year following the adoption of guidelines for the preparation of such elements pursuant to Section 65040.2 or, in the case of counties with a population of 100,000 or less no later than December 31, 1976.

SEC. 2. Section 65302.6 is added to the Government Code, to read:

65302.6. (a) Notwithstanding any other provision of law, upon application by a city, county, or city and county, including any city incorporated after September 30, 1974, the Director of Planning and Research may grant a reasonable extension of time not to exceed one year for the preparation and adoption of one or more general plan elements required by this article.

The director shall not grant an extension of time unless he makes one or more of the following findings:

1. Data required for the element must be provided by another agency and it has not yet been provided;

2. In spite of sufficient budgetary provisions and substantial recruiting efforts, the local agency has been unable to obtain necessary staff or consultant assistance;

3. A disaster has occurred requiring reassignment of staff for an

extended period or requiring a complete reevaluation and revision of the entire general plan, or both;

4. Review procedures in local ordinances require an extended public review process which has resulted in delaying the decision by the local government's legislative body;

5. The city or county is jointly preparing the elements along with one or more other jurisdiction, pursuant to an existing agreement and timetable for completion; or

6. Additional procedural reasons exist which the director deems to justify the granting of an extension, so that the production and adoption of complete and adequate general plans is promoted.

(b) The purpose of this section is to permit cities and counties that have not yet adopted complete and adequate general plans to continue to review and approve development proposals pending adoption of a complete and adequate general plan; provided, however, such approvals are consistent with local policies and the element or elements for which an extension of time is sought.

(c) The application for an extension specified in paragraph (a) of this section shall contain the following elements:

(1) A resolution of the governing body of the city or county adopted after a public hearing setting forth in detail the reasons why the general plan was not previously adopted as required by law and the amount of additional time necessary to complete the preparation and adoption of all required elements.

(2) A copy of the specific budget and schedule for the general plan preparation and adoption including plans for citizen participation and expected interim products. The budget and schedule should be of sufficient detail to allow the director to assess each applicant's progress at regular intervals during the term of the extension.

(3) A set of proposed policies and procedures which would ensure, during the extension of time granted pursuant to this section, that the land use proposed in an application for a subdivision, rezoning, land use permit, variance or building permit will be consistent with the existing general plan elements, and on the basis of available information will be consistent with the new elements or plan proposals being considered or studied.

(d) During the extension of time specified in this section, the city or county is not subject to the requirement that a complete and adequate general plan be adopted or the time within which it must be adopted or the requirement that the land use be compatible or consistent with the general plan as required by Government Code Sections 65302, 65563, 65567, 65860, 65910, 66473.5 or subdivisions (a) or (b) of Section 66474. The provisions of this section shall apply only to those elements for which an extension has been granted. The city or county shall comply with all state laws and shall base all required findings on the existing adopted elements.

(e) The director may impose any conditions on extensions of time granted which he deems are necessary to ensure full compliance with the State Planning and Zoning Law. In establishing such

conditions, the director may adopt or modify and adopt any of the policies and procedures proposed by the city, county, or city and county, pursuant to subsection (3) of subdivision (c).

(f) In the event that a city or county which has been granted a time extension pursuant to this section determines that it will not be able to complete the element or elements for which the extension has been granted, within the prescribed time period, such city or county may request one additional extension. The director may grant such an additional extension of time, not to exceed one year, provided that the city or county is able to demonstrate that both substantial effort and substantial progress has been made toward the completion of such element or elements.

SEC. 3. Section 65302.7 is added to the Government Code, to read:

65302.7. Any city, county or city and county whose application for extension of time under Section 65302.6 has been denied or approved with conditions by the director may appeal such denial or approval with conditions to the Planning Advisory and Assistance Council. The council may fully review the action of the director and act upon the application and approve, conditionally approve or deny the application, and the decision of the council shall be final. If the council acts on an appeal and by doing so grants a one-year extension, such extension of time shall run from the date of the action by the council.

In the event a final redevelopment plan is adopted for all or a portion of the project area concerning which the report is prepared, the agency may charge and account for such reimbursed costs as a cost of the redevelopment project. Otherwise such costs shall be accounted for as general administrative expenses of the agency.

SEC. 2. Section 34118 is added to the Health and Safety Code, to read:

34118. Notwithstanding Section 34140 or any other provision of this part, a commission established prior to January 1, 1978, shall not be vested with the powers, duties, and responsibilities of the commissioners of the housing authority, nor shall the commission operate and govern the housing authority, unless:

(a) The ordinance adopted by the legislative body declaring a need for the commission to function in the community declares, or is subsequently amended to declare, that the commission shall be vested with the rights, powers, duties, and responsibilities of the commissioners of the housing authority; or

(b) Prior to the effective date of this section, the commission has assumed and exercised the rights, powers, duties, and responsibilities of the commissioners of the housing authority.

SEC. 3. Section 34130 of the Health and Safety Code is amended to read:

34130. (a) When the legislative body adopts an ordinance declaring the need for a commission, the mayor or chairman of the board of supervisors or similar official, with the approval of the legislative body, shall appoint the number of resident electors of the community as commissioners as the legislative body prescribe by ordinance. The legislative body by ordinance may increase or decrease the number of commissioners. The legislative body, except as otherwise expressly provided in subdivision (b), shall establish and provide for the terms, compensation, and removal of the commissioners. The legislative body shall provide procedures for appointment or election of the officers of the commission.

(b) Two of the commissioners shall be tenants of the housing authority if the housing authority has tenants. One such tenant commissioner shall be over the age of 62 years if the housing authority has tenants of such age If the housing authority does not have tenants, the legislative body shall, by ordinance, provide for appointment to the commission of two tenants of the housing authority within one year after the housing authority first does have tenants. The term of any tenant commissioner appointed pursuant to this subdivision shall be two years from the date of appointment. If a tenant commissioner ceases to be a tenant of the housing authority, he shall be disqualified from serving as a commissioner and another tenant of the housing authority shall be appointed to serve the remainder of the unexpired term. A tenant commissioner shall have all the powers, duties, privileges, and immunities of any other commissioner.

(c) Upon the appointment and qualification of a majority of the commissioners, the commission shall be vested with all the powers, duties, and responsibilities of the members of the redevelopment agency and, if the legislative body so elects, the commissioners of the housing authority. Members of the redevelopment agency and commissioners of a housing authority which has been placed under

the jurisdiction of the commission shall have no powers, duties, and responsibilities as long as the commission functions.

SEC. 4. Section 1 of this act shall not become operative until January 1, 1978.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act will remove certain ambiguities of interpretation of Sections 34112, 34120, and 34130 of the Health and Safety Code with regard to the status of the commissioners of a housing authority, where a legislative body has declared the need for a community development commission, and will clarify the powers and authority of commissioners of a community development commission and commissioners of a housing authority.

CHAPTER 954

An act to add Section 767.5 to the Public Utilities Code, relating to pole attachments.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 767.5 is added to the Public Utilities Code, to read:

767.5. As used in this section, the term "public utility" includes any person, firm, or corporation except a publicly owned utility which owns or controls poles, ducts, conduits, or rights-of-way used or useful, in whole or in part, for wire communication.

The term "pole attachment" means any attachment for wire communication on or in any surplus space on or in any pole, duct, conduit, or other support structure located in any right-of-way owned, controlled, or used by a public utility.

The Legislature hereby finds that many public utilities have, through a course of conduct covering many years, made available the surplus space on and in their poles, ducts, conduits, and other support structures for use by the cable television industry for pole attachment service, and that the provision of such pole attachment service by such public utilities is and has been a public utility service.

Whenever a public utility and a cable television corporation are unable to agree upon the terms, conditions, or compensation for pole attachments or the terms, conditions, or cost of the production of surplus space needed for pole attachments, then the commission shall establish and regulate the rates, terms, and conditions for pole attachments and the terms, conditions, and costs of providing surplus

space needed for pole attachments so as to assure a public utility the recovery of not less than all the additional costs of providing and maintaining pole attachments, nor more than the actual capital and operating expenses, including just compensation, of the public utility attributable to that portion of the pole, duct, or conduit used for the pole attachment, including a share of the required support and clearance space, in proportion to the space used for the pole attachment, as compared to all other uses made of the subject facilities, and uses which remain available to the owner or owners of the subject facilities.

CHAPTER 955

An act to add Chapter 4.7 (commencing with Section 65970) to Division 1 of Title 7 of the Government Code, relating to land use.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.7 (commencing with Section 65970) is added to Division 1 of Title 7 of the Government Code, to read:

CHAPTER 4.7. SCHOOL FACILITIES

65970. The Legislature finds and declares as follows:

(a) Adequate school facilities should be available for children residing in new residential developments.

(b) Public and private residential developments may require the expansion of existing public schools or the construction of new school facilities.

(c) In many areas of the state, the funds for the construction of new classroom facilities are not available when new development occurs, resulting in the overcrowding of existing schools.

(d) New housing developments frequently cause conditions of overcrowding in existing school facilities which cannot be alleviated under existing law within a reasonable period of time.

(e) That, for these reasons, new and improved methods of financing for interim school facilities necessitated by new development are needed in California.

65971. If the governing body of a school district which operates an elementary or high school makes a finding supported by clear and convincing evidence that: (a) conditions of overcrowding exist in one or more attendance areas within the district which will impair the normal functioning of educational programs including the reason for such conditions existing; and (b) that all reasonable methods of mitigating conditions of overcrowding have been evaluated and no

feasible method for reducing such conditions exist, the governing body of the school district shall notify the city council or board of supervisors of the city or county within which the school district lies. The notice of findings sent to the city or county shall specify the mitigation measures considered by the school district. If the city council or board of supervisors concurs in such findings the provisions of Section 65972 shall be applicable to actions taken on residential development by such council or board.

65972. Within the attendance area where it has been determined pursuant to Section 65971 that conditions of overcrowding exist, the city council or board of supervisors shall not approve an ordinance rezoning property to a residential use, grant a discretionary permit for residential use, or approve a tentative subdivision map for residential purposes, within such area, unless the city council or board of supervisors makes one of the following findings:

(1) That an ordinance pursuant to Section 65974 has been adopted, or

(2) That there are specific overriding fiscal, economic, social, or environmental factors which in the judgment of the city council or board of supervisors would benefit the city or county, thereby justifying the approval of a residential development otherwise subject to Section 65974.

65973. As used in this chapter:

(a) "Conditions of overcrowding" means that the total enrollment of a school, including enrollment from proposed development, exceeds the capacity of such school as determined by the governing body of the district.

(b) "Reasonable methods for mitigating conditions of overcrowding" shall include, but are not limited to, agreements between a subdivider and the affected school district whereby temporary-use buildings will be leased to the school district or temporary-use buildings owned by the school district will be used.

(c) "Residential development" means a project containing residential dwellings, including mobilehomes, of one or more units or a subdivision of land for the purpose of constructing one or more residential dwelling units.

65974. For the purpose of establishing an interim method of providing classroom facilities where overcrowding conditions exist as determined necessary pursuant to Section 65971 and notwithstanding Section 66478, a city, county, or city and county may, by ordinance, require the dedication of land, the payment of fees in lieu thereof, or a combination of both, for classroom and related facilities for elementary or high schools as a condition to the approval of a residential development, provided that all of the following occur:

(a) The general plan provides for the location of public schools.

(b) The ordinance has been in effect for a period of 30 days prior to the implementation of the dedication or fee requirement.

(c) The land or fees, or both, transferred to a school district shall

be used only for the purpose of providing interim elementary or high school classroom and related facilities.

(d) The location and amount of land to be dedicated or the amount of fees to be paid, or both, shall bear a reasonable relationship and will be limited to the needs of the community for interim elementary or high school facilities and shall be reasonably related and limited to the need for schools caused by the development.

(e) A finding is made by the city council or board of supervisors that the facilities to be constructed from such fees or the land to be dedicated, or both, is consistent with the general plan.

The ordinance may specify the methods for mitigating the conditions of overcrowding which the school district shall consider when making the finding required by subdivision (b) of Section 65971.

If the payment of fees is required, such payment shall be made at the time the building permit is issued.

Only the payment of fees may be required in subdivisions containing fifty (50) parcels or less.

65976. Following the decision by the city or county to require the dedication of land or the payment of fees, or both, the governing body of the school district shall submit a schedule specifying how it will use the land or fees, or both, to solve the conditions of overcrowding. The schedule shall include the school sites to be used, the classroom facilities to be made available, and the times when such facilities will be available. In the event the governing body of the school district cannot meet the schedule, it shall submit modifications to the city council or board of supervisors and the reasons for the modifications.

65977. Where two separate school districts operate schools in an attendance area where overcrowding conditions exist for both school districts, the governing body of the city or county shall enter into an agreement with the governing body of each school district for the purpose of determining the distribution of revenues from the fees levied pursuant to this chapter.

65978. Any school district receiving funds pursuant to this chapter shall maintain a separate account for any fees paid and shall file a report with the city council or board of supervisors on the balance in the account at the end of the previous fiscal year and the facilities leased, purchased, or constructed during the previous fiscal year. In addition, the report shall specify which attendance areas will continue to be overcrowded when the fall term begins and where conditions of overcrowding will no longer exist. Such report shall be filed by August 1 of each year and shall be filed more frequently at the request of the board of supervisors or city council.

If overcrowding conditions no longer exist, the city or county shall cease levying any fee or requiring the dedication of any land pursuant to this chapter.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and

Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 956

An act to add Section 7210 to the Revenue and Taxation Code, and to add Chapter 5 (commencing with Section 99500) to Part 11 of Division 10 of the Public Utilities Code, relating to taxation.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 99500) is added to Part 11 of Division 10 of the Public Utilities Code, to read:

CHAPTER 5 MOTOR VEHICLE FUEL TAX

99500. (a) Except as specified in subdivision (b), in addition to taxes imposed pursuant to Part 2 (commencing with Section 7301) and Part 3 (commencing with Section 8601) of Division 2 of the Revenue and Taxation Code, a tax of one cent ($0.01) per gallon (or, in the case of compressed natural gas, per 100 cubic feet thereof as measured at standard pressure and temperature) may be imposed pursuant to Section 99502 by a taxing entity, as defined in Section 99501, in the area which is under its jurisdiction and which is included in a county that has approved a proposition pursuant to Section 4 of Article XIX of the California Constitution.

(b) No tax shall be imposed under this chapter on fuel used in propelling an aircraft or a vessel.

99501. For purposes of this chapter:

(a) "Taxing entity" means a county other than a county with a transit development board or a county under the jurisdiction of a county transportation commission created pursuant to Division 12 (commencing with Section 130000), a city and county, a county transportation commission, a transit development board, a transit district, or a city with a population in excess of 500,000 located within a transit district. The population of a city shall be as determined by the last preceding federal census or by a subsequent census validated by the Population Research Unit of the Department of Finance.

(b) "Transit vehicle" means a vehicle, including, but not limited to, one operated on rails or tracks, which is used for public transportation service and which carries more than 10 persons, including the driver.

99502. (a) The tax may be imposed by the adoption of an ordinance by a taxing entity if (1) it calls a special election for the submission of a proposition to grant it the authority to impose the tax

pursuant to the ordinance and (2) a majority of the voters voting at the special election approves the proposition. The special election may be held only when consolidated with an otherwise scheduled state election or local election for an area which includes the area under the jurisdiction of the taxing entity. In the case of the City of Los Angeles, it may call such a special election only after securing the approval of the Los Angeles County Transportation Commission.

(b) Where two or more taxing entities have jurisdiction over the same area and authorized pursuant to subdivision (a) to impose the tax under this chapter, the tax shall be imposed only by the taxing entity with the largest area under its jurisdiction.

99503. A special election for a transit development board or a transit district shall be conducted pursuant to the Uniform District Election Law (Part 3 (commencing with Section 23500) of Division 14 of the Elections Code).

99504. (a) The taxing entity shall contract with the State Board of Equalization for the administration of the tax imposed pursuant to the adopted ordinance, and the state board shall be reimbursed for its cost in the administration of the tax.

(b) The taxing entity shall also reimburse the board for its cost of preparation to administer the tax.

99505. The ordinance shall include provisions identical to those contained in Part 2 (commencing with Section 7301) and Part 3 (commencing with Section 8601) of Division 2 of the Revenue and Taxation Code, except that the name of the taxing entity as the taxing agency shall be substituted for that of the state.

99506. The State Board of Equalization shall adopt the necessary rules and regulations to administer the tax.

99507. After deducting its cost in administering the tax, the State Board of Equalization shall transmit the net revenues to the taxing entity periodically as promptly as possible. The transmittals shall be made at least twice in each calendar quarter.

99508. The net revenues received by a taxing entity shall be expended only for the following:

(a) The planning, construction, and maintenance of, and the acquisition of rights-of-way for, exclusive public mass transit guideways and exclusive bus lanes and related fixed facilities to such guideways and bus lanes.

(b) The purchase of transit vehicles.

(c) The payment of principal and interest on voter-approved bonds issued for the purposes specified in subdivision (a) or (b).

99509. (a) Notwithstanding Section 99505, any person required to pay a license tax under Section 7351 of the Revenue and Taxation Code shall also collect the tax imposed under this chapter from any person to whom he sells or distributes motor vehicle fuel and shall pay such tax also for all such fuel that he uses.

Any person paying the tax who, in turn, sells or distributes such fuel to another, whether or not for use, shall include the tax as part of the selling price of the fuel. Any person thereafter who pays a

price for the fuel, which includes an increment for the tax, and who subsequently resells the fuel shall include the increment so paid as part of the selling price of the fuel.

(b) Subdivision (a) of this section shall become operative only if a ruling of a federal agency becomes effective which precludes the tax imposed under this chapter on motor vehicle fuel from being included in the price charged by distributors to retailers or other persons, or precludes the increment of any price paid to the distributors that represents the tax imposed from being included in the price charged by retailers or other persons upon resale of the motor vehicle fuel, and, in such case, this subdivision shall become operative at the same time as such ruling becomes effective.

SEC. 2. Section 7210 is added to the Revenue and Taxation Code, to read:

7210. Notwithstanding Section 7203.5, the State Board of Equalization shall continue to administer the sales and use tax ordinance of any city, county, or city and county which adopts an ordinance imposing a tax on the sale, storage, use, or consumption of motor vehicle fuel pursuant to Chapter 5 (commencing with Section 99500), Part 11, Division 10 of the Public Utilities Code.

SEC. 3. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and Taxation Code because there are no duties, obligations, or responsibilities imposed on local government by this act.

CHAPTER 957

An act to add Section 14005.6 to the Elections Code, relating to elections.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 14005.6 is added to the Elections Code, to read:

14005.6. In addition to the provisions contained in Section 14005.5, the roster shall contain in no less than 6-point type at the head of each page the following words: "WARNING: It is a crime punishable by imprisonment in the state prison or in county jail for anyone to fraudulently vote, fraudulently attempt to vote, vote more than once, attempt to vote more than once, impersonate a voter, or attempt to impersonate a voter (Elections Code Sec. 29640)."

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local

governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 958

An act to amend Sections 11161.5 and 11161.7 of the Penal Code, relating to social services.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 11161.5 of the Penal Code is amended to read:

11161.5. (a) In any case in which a minor is brought to a physician and surgeon, dentist, resident, intern, podiatrist, chiropractor, marriage, family or child counselor, psychologist, or religious practitioner for diagnosis, examination or treatment, or is under his charge or care, or in any case in which a minor is observed by any registered nurse when in the employ of a public health agency, school, or school district and when no physician and surgeon, resident, or intern is present, by any superintendent, any supervisor of child welfare and attendance, or any certificated pupil personnel employee of any public or private school system or any principal of any public or private school, by any teacher of any public or private school, by any licensed day care worker, by an administrator of a public or private summer day camp or child care center, or by any social worker, by any peace officer, or by any probation officer, and it appears to the physician and surgeon, dentist, resident, intern, podiatrist, chiropractor, marriage, family or child counselor, psychologist, religious practitioner, registered nurse, school superintendent, supervisor of child welfare and attendance, certificated pupil personnel employee, school principal, teacher, licensed day care worker, administrator of a public or private summer day camp or child care center, social worker, peace officer, or probation officer, from observation of the minor that the minor has physical injury or injuries which appear to have been inflicted upon him by other than accidental means by any person, that the minor has been sexually molested, or that any injury prohibited by the terms of Section 273a has been inflicted upon the minor, he shall report such fact by telephone and in writing, within 36 hours, to both the local police authority having jurisdiction and to the juvenile probation department; or, in the alternative, either to the county welfare department, or to the county health department. The report shall state, if known, the name of the minor, his whereabouts and the character and extent of the injuries or molestation.

Whenever it is brought to the attention of a director of a county

welfare department or health department that a minor has physical injury or injuries which appear to have been inflicted upon him by other than accidental means by any person, that a minor has been sexually molested, or that any injury prohibited by the terms of Section 273a has been inflicted upon a minor, he shall file a report without delay with the local police authority having jurisdiction and with the juvenile probation department as provided in this section.

No person shall incur any civil or criminal liability as a result of making any report authorized by this section unless it can be proven that a false report was made and the person knew or should have known that the report was false.

Copies of all written reports received by the local police authority shall be forwarded to the Department of Justice. If the records of the Department of Justice maintained pursuant to Section 11110 reveal any reports of suspected infliction of physical injury upon, sexual molestation of, or infliction of any injury prohibited by the terms of Section 273a upon, the same minor or any other minor in the same family by other than accidental means, or if the records reveal any arrest or conviction in other localities for a violation of Section 273a inflicted upon the same minor or any other minor in the same family, or if the records reveal any other pertinent information with respect to the same minor or any other minor in the same family, the local reporting agency and the local juvenile probation department shall be immediately notified of the fact.

Reports and other pertinent information received from the department shall be made available to: any licensed physician and surgeon, dentist, resident, intern, podiatrist, chiropractor, marriage, family or child counselor, psychologist, or religious practitioner with regard to his patient or client; any director of a county welfare department, school superintendent, supervisor of child welfare and attendance, certificated pupil personnel employee, or school principal having a direct interest in the welfare of the minor; and any probation department, juvenile probation department, or agency offering child protective services.

(b) If the minor is a person specified in Section 600 of the Welfare and Institutions Code and the duty of the probation officer has been transferred to the county welfare department pursuant to Section 576.5 of the Welfare and Institutions Code and the report is made to the local police authority having jurisdiction, then the report required by subdivision (a) of this section shall be made to the county welfare department.

SEC. 2. Section 11161.7 of the Penal Code is amended to read:

11161.7. (a) The Department of Justice, in cooperation with the State Office of Child Abuse Prevention, shall adopt and cause to be printed, for dissemination through the various county welfare departments, a form which shall be used by reporting professional medical personnel in making reports required to be made pursuant to Section 11161.5.

(b) Failure by professional medical personnel to use such form in

reporting an incident of possible child abuse shall not constitute a violation of Section 11162.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden on local government.

CHAPTER 959

An act making an appropriation for the support of rehabilitation facilities.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The sum of ten thousand dollars ($10,000) for expenditure during the 1977–78 fiscal year and twenty thousand dollars ($20,000) for expenditure during the 1978–79 fiscal year is hereby appropriated from the General Fund in the State Treasury to the Department of Rehabilitation to be matched by available federal vocational rehabilitation funds for the purpose of implementing Article 1 (commencing with Section 19400) of Chapter 5 of Part 2 of Division 10 of the Welfare and Institutions Code. Such funds shall be utilized to establish a program which encourages purchases pursuant to Section 19403 of the Welfare and Institutions Code.

CHAPTER 960

An act to amend Section 1012 of the Military and Veterans Code, relating to veterans' institutions, and making an appropriation therefor.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 1012 of the Military and Veterans Code is amended to read:

1012. The home is for aged and disabled persons who served in the armed forces of the United States during a war period or period of hostility, as defined by law, or in time of peace in a campaign or

expedition for service in which a medal has been authorized by the government of the United States, who were discharged or released from active duty under honorable conditions from such service, who are eligible for hospitalization or domiciliary care in a veterans' facility in accordance with the rules and regulations of the United States Veterans Administration, and who have been bona fide residents of this state for five years immediately preceding the date of application; and for the spouses of such persons if all of the following conditions are satisfied:

(a) Space is available;

(b) Joint residency will be in the best interests of the home member, as determined by the administrator;

(c) The spouse has been a resident of this state for at least five years immediately preceding the date of application for admission to the home, is married to and has resided with the home member for at least one year, and has attained the age of 50 years; and

(d) The home member and spouse agree to pay such fees and charges for joint residency as the administrator may establish.

A resident spouse may continue such residence after the veteran's death.

The property of the home shall be used for this purpose.

SEC. 2. The sum of seventy-nine thousand one hundred twenty-five dollars ($79,125) is hereby appropriated from the General Fund to the Department of Veterans Affairs for expenditure, subject to approval by the State Public Works Board, during the 1977–78, 1978–79, and 1979–80 fiscal years, for modifications of the sewage treatment plant at the Veterans' Home of California.

CHAPTER 961

An act to amend Section 205.5 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 205.5 of the Revenue and Taxation Code is amended to read:

205.5. (a) Property which is owned by, and which constitutes the principal place of residence of, a veteran is exempted from taxation on that part of the assessed value of the residence that does not exceed ten thousand dollars ($10,000), if the veteran, because of injury incurred in military service, is blind in both eyes, has lost the use of two or more limbs, or is totally disabled.

(b) For purposes of this section, "veteran" is defined as specified

in subdivision (o) of Section 3 of Article XIII of the Constitution without regard to any limitation contained therein on the value of property owned by the veteran or the veteran's spouse.

(c) No veteran shall be eligible for this exemption unless he or she was a resident of California at the time of his or her entry into military or naval service, or unless he or she was a resident of the state on November 7, 1972, if he or she is blind or has lost the use of two or more limbs, or on January 1, 1975, if he or she is totally disabled; provided however, that no veteran who met a corresponding residency requirement under the law in effect prior to January 1, 1975, shall lose eligibility as the result of changes in residency requirement effective on January 1, 1975, or thereafter.

(d) Property which is owned by, and which constitutes the principal place of residence of, the unmarried surviving spouse of a veteran is exempt from taxation on that part of the assessed value of the residence that does not exceed ten thousand dollars ($10,000); provided, that the deceased veteran during his or her lifetime qualified in all respects for the exemption or would have qualified for the exemption under the laws effective on January 1, 1977, except that the veteran died prior to January 1, 1977.

(e) As used in this section, "property which is owned by a veteran" or "property which is owned by the veteran's unmarried surviving spouse" includes:

(1) Property owned by the veteran with the veteran's spouse as a joint tenancy, tenancy in common or as community property;

(2) Property owned by the veteran or the veteran's spouse as separate property;

(3) Property owned with one or more other persons to the extent of the interest owned by the veteran, the veteran's spouse, or both the veteran and the veteran's spouse;

(4) Property owned by the veteran's unmarried surviving spouse with one or more other persons to the extent of the interest owned by the veteran's unmarried surviving spouse;

(5) So much of the property of a corporation as constitutes the principal place of residence of a veteran or a veteran's unmarried surviving spouse when the veteran, or the veteran's spouse, or the veteran's unmarried surviving spouse is a shareholder of the corporation and the rights of shareholding entitle one to the possession of property, legal title to which is owned by the corporation. The exemption provided by this paragraph shall be shown on the local roll and shall reduce the assessed value of the corporate property. Notwithstanding any provision of law or articles of incorporation or bylaws of a corporation described in this paragraph, any reduction of property taxes paid by such corporation shall reflect an equal reduction in any charges by such corporation to the person who, by reason of qualifying for the exemption, made possible such reduction for the corporation.

(f) For purposes of this section, being blind in both eyes means having a visual acuity of 5/200 or less; losing the use of a limb means

that the limb has been amputated or its use has been lost by reason of ankylosis, progressive muscular dystrophies, or paralysis; and being totally disabled means that the United States Veterans Administration or the military service from which such veteran was discharged has rated the disability at 100 percent or has rated the disability compensation at 100 percent by reason of being unable to secure or follow a substantially gainful occupation.

(g) An exemption granted to a claimant in accordance with the provisions of this section shall be in lieu of the veteran's exemption provided by subdivisions (o), (p), and (r) of Section 3 of Article XIII of the Constitution and any other real property tax exemption to which the claimant may be entitled. No other real property tax exemption may be granted to any other person with respect to the same residence for which an exemption has been granted under the provisions of this section; provided, that if two or more veterans qualified pursuant to this section co-own a property in which they reside, each is entitled to the exemption to the extent of his or her interest.

SEC. 2. The Controller shall report to the Legislature on the amount of the claims made by county auditors under Section 16113 of the Government Code for compensation for property tax revenues lost by reason of the exemption of property by Section 1 of this act. Such report shall be made on or before the first day of October next following the operative date of this act, in order that the Legislature may appropriate funds for the subventions required by Section 2229 of the Revenue and Taxation Code.

SEC. 3. At the conference the pupil shall be informed of the reason for the disciplinary action and the evidence against him or her and shall be given the opportunity to present his or her version and evidence in his or her defense.

(c) A principal may suspend a pupil without affording the pupil an opportunity for a conference only if the principal determines that an emergency situation exists. (g) No pupil shall be suspended from school for more than 20 schooldays in one school year, provided that, if a pupil for adjustment purposes is transferred to, or enrolled in, another regular school, an opportunity class in his school of residence, an opportunity school or class, or a continuation education school or class, days of suspension following such reassignment are limited to 10.

(h) In a case where expulsion is being processed by the governing board, the school district superintendent or other person designated by him in writing may extend the suspension until such time as the governing board has rendered a decision in the action pursuant to Section 48914; provided, that the superintendent has determined that the presence of the pupil at the school or in an alternative school placement would cause a danger to persons or property or a threat of disrupting the instructional process.

48914. The governing board of each school district shall establish rules and regulations governing procedures for the expulsion of pupils. Such procedures shall include, but are not necessarily limited to the following:

(a) The pupil and the pupil's parent or guardian shall be entitled to a hearing to determine whether the pupil should be expelled. An expulsion hearing shall be held within 20 calendar days of the date expulsion is recommended pursuant to subdivision (a) of Section 48904.5, or within 25 calendar days of the date suspension is ordered for the offense, whichever is sooner, unless the pupil or the pupil's parent or guardian requests in writing that the hearing be postponed. Such request shall be made at least five days prior to the date of the hearing.

(b) Written notice of the hearing shall be forwarded to the pupil and the pupil's parent or guardian at least 10 days prior to the date of the hearing. Such notice shall include: the date and place of the hearing, a statement of the specific facts and charges upon which the proposed expulsion is based, a copy of all the rules of the district which pertain to discipline adopted pursuant to Section 35291, and the opportunity of the pupil or the pupil's parent or guardian to: appear in person or to employ and be represented by counsel, inspect and obtain copies of all documents to be used at the hearing, confront and question all witnesses who testify at the hearing, question all other evidence presented, and present oral and

documentary evidence on the pupil's behalf, including witnesses.

(c) Notwithstanding the provisions of Section 54950 of the Government Code and Section 35145 of this code, the governing board shall conduct a hearing to consider the expulsion of a pupil in a session closed to the public unless the pupil or the pupil's parents or guardian request that the hearing be a public meeting. If such request is made of the governing board, the meeting shall be public.

(d) In lieu of conducting an expulsion hearing itself, the governing board of any school district may contract with the county hearing officer, or with the Office of Administrative Hearings of the State of California pursuant to Chapter 14 (commencing at Section 27720), Part 3, Division 2, Title 3 of the Government Code and Section 35207 of this code, for a hearing officer to conduct such hearing, or the governing board may appoint an impartial administrative panel of three or more certificated employees of the district, none of whom shall be on the staff of the school in which the pupil is enrolled. In lieu of the appointment of district employees exclusively, the district may request the services of one or more certificated persons not employed by the district. Such hearing shall not be conducted in conflict with any procedures established in this section. Such hearing shall be completed within five calendar days of the date on which the hearing was commenced. Within three calendar days following such hearing, the hearing officer or administrative panel shall determine whether to recommend expulsion to the board. If the decision is for a rejection of expulsion, the expulsion proceedings shall be terminated and the pupil shall be immediately reinstated and allowed to return to classroom instruction upon which such pupil had been in attendance prior to the suspension or to any other instructional program by mutual agreement among the principal and parent or guardian and pupil. The hearing officer or administrative panel shall notify the board of the decision and the governing board shall accept the recommendation for a rejection of expulsion. The governing board may, however, require the hearing officer or administrative panel to prepare and submit findings of fact to support rejection of expulsion. If the hearing officer or administrative panel recommends expulsion, findings of fact in support of such recommendation shall be prepared and submitted to the board. All findings of fact and recommendations shall be based solely on the evidence adduced at the hearing. If the governing board accepts the recommendation calling for expulsion, such acceptance shall be based upon either a review of the hearing record or upon results of such supplementary hearing conducted pursuant to this section as the governing board may order.

(e) A record of the hearing shall be made. Such record, may be maintained by any means, including electronic recording, so long as a reasonably accurate written transcription of the proceedings can be made.

(f) Technical rules of evidence shall not apply to such hearing, but

evidence may be admitted and given probative effect only if it is the kind of evidence upon which reasonable persons are accustomed to rely in the conduct of serious affairs. A decision of the governing board to expel must be supported by a preponderance of the evidence.

(g) Whether a pupil expulsion hearing is conducted in closed or public session, by the governing board or before a hearing officer or administrative panel, a final action to expel shall be taken by the governing board at a public meeting. Written notice of any decision to expel shall be sent to the pupil or parent or guardian and shall be accompanied by notice of the right to appeal such expulsion to the county board of education.

A decision of the governing board whether to expel a pupil shall be made within 35 calendar days of the date expulsion is recommended by a principal pursuant to subdivision (a) of Section 48904.5 or within 40 calendar days of the date suspension is ordered for the offense, whichever is sooner, unless the pupil or the pupil's parent or guardian requests in writing that such decision be postponed.

The governing board shall maintain a record of each expulsion, including the cause therefor.

SEC. 25. Section 48915 of the Education Code is amended to read:

48915. If a pupil is expelled from school, the pupil or the parent or guardian of the pupil may appeal, within 30 days following the decision to expel by the governing board, to the county board of education which shall hold a hearing thereon and render its decision. The county board shall hold the hearing within 20 calendar days of the request and shall render a decision within three calendar days of the hearing.

The county board of education shall establish rules and regulations governing procedures for expulsion appeals pursuant to this section and not in conflict with Sections 48917 through 48920, including, but not limited to, notice of filing such appeal, setting the hearing date, certification to the county board of the record of the proceedings at the district level, hearing procedures, and preservation of a record of the hearing.

SEC. 26. There is hereby appropriated from the General Fund to the State Controller the sum of thirty thousand eight hundred forty-five dollars ($30,845) for the fiscal year 1977–78, and sixty-one thousand six hundred ninety dollars ($61,690) for the fiscal year 1978–79 and fiscal years thereafter for allocation and disbursement to school districts to reimburse such districts for costs incurred in notifying parents of suspended and conducting meetings between parents of suspended pupils and the superintendent or the superintendent's designee.

SEC. 27. Except as provided in Section 26 and notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no additional reimbursement pursuant to that section nor shall there be

an additional appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 966

An act to add Chapter 3.1 (commencing with Section 44670) to Part 25 of Division 3 of Title 2 of the Education Code, relating to school staff development.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.1 (commencing with Section 44670) is added to Part 25 of Division 3 of Title 2 of the Education Code, to read:

CHAPTER 3.1. SCHOOL PERSONNEL STAFF DEVELOPMENT AND RESOURCE CENTERS

Article 1. Local Staff Development Programs

44670. The Legislature finds that effective, ongoing staff development is necessary for continued vitality of the public school system. Staff development can lead to improved teacher-student relationships, reduced dropout rates and improved student performance. The Legislature finds that such development activities are most effective when designed by local school staffs to meet their particular needs.

Each community shapes the values, interests and aspirations of its children. Preservice training, particularly in times of limited staff turnover, cannot prepare teachers and other school staff to meet the diverse and changing needs of pupils they serve. Effective staff development must therefore be available to existing school staffs.

The Legislature finds widespread dissatisfaction with the current system of in-service training. Teachers, parents and administrators contend that many staff development programs do not relate training to local needs, utilize the energy and experience of classroom teachers, nor tap the resources available through colleges, industry and professional education associations.

44670.1. The Legislature recognizes the necessity for staff development which results in direct improvement of services to children. The Legislature, by the provisions of this article, intends to give all those who work with pupils ongoing opportunities to improve instructional, counseling and human development skills

through locally designed staff development programs.

44670.2. As used in this article:

(a) "School personnel" means all persons who work directly and on a regular basis with pupils, including teachers, administrators, pupil services employees as defined in subdivision (e) of Section 33150, paraprofessionals and volunteers.

44670.3. Staff development programs authorized by this article shall assist personnel at the local school site to:

(a) Improve instructional, human development and counseling skills based on a systematic assessment of pupil and personnel needs at that school.

(b) Ensure that curricula and instructional materials are keyed to the educational needs of each pupil, with particular emphasis on pupils who have not achieved proficiency in basic reading, writing and computational skills, limited and non-English-speaking pupils, disadvantaged pupils, and pupils with exceptional abilities or needs.

(c) Develop curricula and instructional materials in a wide variety of areas such as arts and humanities, physical, natural, and social sciences, physical and mental health, and career education.

(d) Improve the school and classroom environments, including relationships between and among pupils, school personnel and community members, including parents.

44670.4. Local staff development programs shall be designed by certificated personnel, including the school principal, consistent with rules and regulations adopted by the school district governing board and with school improvement objectives established annually through a process which involves teachers and other school personnel, the principal, parents and other community members; and in secondary school, students. Such improvement objectives shall address, but need not be limited to, the general objectives specified in Section 44670.3.

44670.5. Existing school level staff development programs required by state and federal laws shall be consolidated with local staff development programs established pursuant to this article to the extent permitted by federal law. Local staff development programs shall:

(a) Provide opportunities for all school personnel to participate in ongoing development activities pursuant to a systematic identification of pupil and personnel needs. Such identification shall address, but need not be limited to, the general objectives specified in Section 44670.3.

(b) Be designed and implemented under the direction of classroom teachers and other participating school personnel, including the school principal, in consultation with resource centers established pursuant to Article 2 of this chapter as necessary. Classroom teachers selected by teachers shall comprise the majority of any group designated to design local staff development programs for instructional personnel to be established pursuant to this article.

(c) Allow for diversity in development activities, including but not

limited to, small groups, self-directed learning, and systematic observation during visits to other classrooms or schools.

(d) Be conducted during time which is set aside for such purpose throughout the school year, including, but not limited to, time on a continuing basis when participating school personnel are released from their regular duties.

(e) Be evaluated and modified on a continuing basis by participating school personnel with the aid of outside personnel as necessary.

(f) Include the school principal and other administrative personnel as active participants in one or more staff development activities implemented pursuant to this article.

44670.6. Schools may request, as part of their staff development program application, the provision of time during the regular school year to conduct local staff development programs and shall receive full average daily attendance reimbursement under the provisions of Section 46300. Such time shall not exceed eight days each year for each participating staff member.

44670.7. Any school district governing board, upon petition by the principal and a majority of the certificated personnel designated to design local staff development programs at a school with an approved staff development application, may request the State Board of Education to grant a waiver of any provision of this code (except Article 3 (commencing with Section 44930) of Chapter 4 of Part 25 of Division 3 of this title and Part 26 (commencing with Section 46000) of this division); or Title 5 of the California Administrative Code (except Title 5 regulations adopted pursuant to Article 3 (commencing with Section 44930) of Chapter 4 of Part 25 of Division 3 of this title) if such a waiver is necessary or beneficial to the successful implementation of a local staff development program. The State Board of Education may grant any such request when the facts indicate the failure to do so would hinder the implementation or maintenance of such program. Such action shall be taken not later than the second regular meeting of the State Board of Education following receipt of a waiver request or the request for a waiver shall be deemed approved. In the event the request for a waiver is denied, the reasons for the denial shall be communicated without delay to the applicant school district and school. Such waiver shall apply only to the applicant school or schools.

44670.8. The State Board of Education shall include in its annual report to the Governor and Legislature regarding the nature and disposition of waivers requested pursuant to this article.

44670.9. The certificated personnel of any school or a school site council which meets the requirements of Section 52012 may apply to the school district governing board for a grant to fund a local staff development program. Such application shall consist of a three-year staff development plan to meet school improvement objectives established pursuant to Section 44670.4. Staff development plans shall describe: (a) staff development objectives and steps necesssary to

achieve such objectives including intended outcomes; (b) a proposed budget; and (c) procedures for ongoing evaluation and modification of the staff development program.

Such application shall in addition include evidence, in the form of signatures of a majority of those persons participating pursuant to Section 44670, that proposed local staff development programs are consistent with school improvement objectives established pursuant to Section 44670.4.

Staff development plans required by this section shall be updated annually by school personnel including the school principal pursuant to Section 44670.5, consistent with improvement objectives established annually pursuant to Section 44670.4.

44671. Governing boards of participating school districts shall:

(a) Develop the capacity to assist schools, upon request, to plan, implement and evaluate local staff development programs. School districts may develop the capacity to assist schools in conjunction with other districts, the county superintendent of schools, or a resource center established pursuant to Article 2 (commencing with Section 44680). Such capacity shall be documented in a district master plan keyed to the staff development programs of participating schools, and submitted to the Superintendent of Public Instruction for approval;

(b) Establish a districtwide plan for the phase-in of all schools which choose to establish local staff development programs;

(c) Ensure reasonable opportunities for representatives of each applicant school to meet with the governing board or its designated representatives to discuss the local staff development program application;

(d) Approve or disapprove local staff development program applications consistent with, but not limited to, regulations adopted by the State Board of Education. In the event any application is not approved, specific reasons for such action shall be communicated to the applicant school;

(e) Identify effective practices regarding, but not limited to, the objectives described in Section 44670.3, and disseminate such information to all schools, provided such action does not duplicate the action of a resource center established pursuant to Article 2 of this chapter.

44671.1. The Superintendent of Public Instruction shall:

(a) Assist district and school personnel, upon request, to design, implement, and evaluate staff development programs authorized by this article.

(b) Insure that procedures utilized by governing boards to approve and evaluate local staff development programs are consistent with this chapter and with standards and criteria adopted by the State Board of Education.

(c) Review and approve district master plans developed and submitted in accordance with the provisions of this article and with standards and criteria adopted by the State Board of Education. In

the event any master plan is not approved by the superintendent, specific reasons for such action shall be communicated to the applicant district.

(d) Identify effective practices regarding, but not limited to, the objectives described in Section 44670.3, and disseminate such information to school districts and county superintendents of schools.

(e) Report annually to the State Board of Education, the Legislature and the Governor, as provided in subdivision (i) of Section 52035, regarding the effectiveness of programs established pursuant to this article.

44671.2. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article which shall include standards and criteria for:

(a) The approval of local staff development program applications by school district governing boards. Such rules and regulations shall be limited to:

(1) The degree to which the objectives of local staff development programs conform to objectives specified in Section 44670.3;

(2) The extent to which a substantial percentage of school personnel at the school will participate in proposed staff development activities; and

(3) The adequacy of locally developed procedures to evaluate the effectiveness of staff development programs.

(b) The annual statewide evaluation of staff development programs implemented under this chapter as provided in subdivision (i) of Section 52035.

44671.3. The State Board of Education shall, to the extent possible, consolidate approval and evaluation of local staff development programs and school district master plans with existing application and evaluation requirements for state and federal categorical aid programs, in order to minimize additional paperwork requirements of local districts and schools.

44671.4. Federal and state funds appropriated or apportioned for the purposes of this article shall not be used to supplant funds currently expended by school districts for the purpose of administering or conducting staff development programs.

Priority in funding shall be given to those schools which submit high quality proposals to involve the largest percentage of personnel at the school or within participating departments in ongoing staff development activities. Lowest funding priority shall be given to programs designed for the primary purpose of granting a degree or a credential to participating staff.

No school shall receive funds under this chapter if such school receives funds under Chapter 1147 of the Statutes of 1972 or Chapter 6 (commencing with Section 52000) of Part 28 of Division 4.

Article 2. School Resource Centers

44680. As used in this article:

(a) "School personnel" means all persons who provide services to students, including teachers, administrative employees as defined in subdivision (d) of Section 33150, pupil services employees as defined in subdivision (e) of Section 33150, paraprofessionals and volunteers.

(b) "Center" means a resource center which assists school personnel to participate in staff development activities designed to improve their instructional, human development and counseling skills. Resource centers shall be designated as such by the State Board of Education upon approval of an application of one or more school districts or county superintendents of schools to establish a center.

44680.1. Any school district or county superintendent of schools which has established a resource center policy board as provided in Section 44680.4 may apply to establish one or more resource centers or may enter into an agreement with one or more school districts or county superintendents of schools for the purpose of applying to establish one or more centers.

(1) The capacity of personnel to respond to the educational needs of each pupil, including pupils who have not achieved proficiency in basic reading, writing or computation skills, limited and non-English-speaking pupils, disadvantaged pupils, and pupils with exceptional abilities or needs.

(2) School environment, including staff-pupil-community relations and the incidence among pupils of absenteeism, dropouts, suspension, expulsion, violence and vandalism.

(3) School level leadership, including skills required of school principals to assist school personnel and others to plan, implement and evaluate staff development programs described in Article 1 of this chapter and school improvement efforts described in Sections 52000 to 52049.5, inclusive. School site administrators shall comprise the majority of any group designated to design programs for site administrators pursuant to this section.

(4) District and county leadership, including skills required of central district and county personnel to assist schools to plan, implement and evaluate staff development programs described in Article 1 and school improvement efforts described in Sections 52000 to 52049.5, inclusive.

located in the area served by the center.

(c) Serve as a liaison between school personnel and local agencies, county superintendents of schools, colleges, universities, groups and individuals providing staff development activities based on the assessed needs of the pupils served by such personnel.

44680.3. As indicated by local needs, the center may:

(a) Train teachers and other school personnel as staff development leaders.

(b) Disseminate information regarding staff development methods and models to schools, districts and county superintendents of schools located in the area served by the center.

44680.4. Each center shall be operated by a resource center policy board established pursuant to Public Law 94-482 of 1976. The membership of the board shall include:

(a) Classroom teachers selected by teachers. Teacher representatives shall reflect the makeup of elementary and secondary teachers to be served by such center.

44680.6. The Superintendent of Public Instruction shall:

(a) Review and approve applications to establish resource centers in accordance with standards and criteria adopted by the State Board of Education.

44680.9. The State Board of Education shall adopt rules and regulations necessary to implement the provisions of this article. The board shall ensure that resource centers are distributed throughout the state so that school personnel located in rural, urban and suburban school districts may avail themselves of center services. The board shall rank and approve applications to establish centers using the following criteria:

(a) The extent to which staff development programs proposed by centers are designed to systematically improve the instructional, human development and counseling skills of school personnel pursuant to school level improvement objectives and a systematic assessment of the educational needs of pupils served by such personnel.

(b) The extent to which participating districts, county superintendents of schools, colleges and universities intend to integrate existing preservice and in-service planning and resources with the staff development programs authorized by this article and to increase financial support for staff development programs.

44680.91. Federal and state funds appropriated or apportioned for the purposes of Article 1 or Article 2 of this chapter shall not be used to supplant funds currently expended by school districts, county superintendents of schools, and public institutions of higher education for the purpose of administering or conducting staff development programs.

No more than 4 percent of the funds appropriated for the purposes of Article 1 or Article 2 of this chapter shall be expended by districts or county superintendents to administer local staff development programs established pursuant to Article 1 (commencing with Section 44670) of this chapter.

CHAPTER 967

An act to add Sections 81823 and 81824 to the Education Code, relating to community colleges.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 81823 is added to the Education Code, to read:

81823. (a) If a community college district maintains colleges, or one college and one or more educational centers, it may additionally submit the plan required by Section 81820 on the basis of each college or educational center maintained by the district, if either of the following circumstances is present such that students will be better served by evaluating the capital outlay program for the district on that basis: (1) the isolation of students within a district in terms of the distance of students from the location of an educational program, or inadequacy of transportation, and student financial inability to meet costs of transportation to an educational program, or (2) the inability of existing colleges and educational centers in the district to meet the unique educational and cultural needs of a significant number of ethnic students.

(b) If a district elects to submit such a plan, it shall include therewith justification and documentation for so doing.

(c) When a district so elects, the evaluation of the plan pursuant to Section 81822 shall include an evaluation of:

(1) The justification and documentation for so doing, including

enrollment projections for individual campuses and centers; and

(2) The plan as thus submitted.

(d) The board of governors shall adopt rules and regulations to implement the provisions of subdivision (a) of this section.

SEC. 2. Section 81824 is added to the Education Code, to read:

As used in Section 81823, an "educational center" is an off-campus location established and administered by an existing college or district which: (1) is scheduled to operate for three or more years; (2) is estimated to have enrolled an average daily attendance of 500 or more students by the third year of operation; (3) has on-site administrative personnel; and (4) offers courses in programs leading to certificates or degrees to be conferred by the parent institution.

CHAPTER 968

An act to amend Section 7170 of, to add Section 7153.9 to, and to repeal Section 7153.9 of, the Financial Code, relating to savings and loan associations.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that there exists in the State of California a housing crisis that increasingly threatens to prevent a wide range of low- or middle-income persons from enjoying the benefits of home ownership, thereby adversely affecting the stability of the family and the democratic principle of widespread home ownership for all economic classes.

The Legislature further finds that one of the causes of the housing crisis is alleged to be the form of mortgage instrument presently in use by lenders providing for a fixed-rate and a fixed-term for a long-term maturity, which does not take into consideration the various needs and the financial capabilities of different classes of borrowers. The Legislature further finds that the initiation and development by experimentation of new and different types of mortgage payment instruments is necessary upon an experimental basis to determine which of such forms of mortgage instruments will aid in alleviating the housing crisis and in reducing the problems of borrowers of low- or middle-income in acquiring homes and in adjusting their payment schedules in conformity with their financial condition.

SEC. 2. Section 7153.9 is added to the Financial Code, to read:

7153.9. (a) Notwithstanding anything provided to the contrary in this division, the commissioner is empowered to prescribe such rules and regulations as will permit an association, upon the security

of residential property, to make loans and advance credit thereon, upon the execution by the borrower of mortgage payment instruments not authorized under the existing law, provided such instruments have prior approval of the commissioner, and the aggregate at any one time of the outstanding loans by an association evidenced by such mortgage payment instruments, does not exceed 10 percent of the association's assets.

(b) The rules and regulations of the commissioner shall be designed to permit limited experimentation to furnish valuable experience and information to the commissioner, the savings and loan industry, and to the public relating to the substance of any permanent regulations or laws which may be forthcoming and to permit savings and loan associations to operate selected pilot projects on a limited basis. The pilot projects and effective period of the regulations shall not exceed four years from the date of the issuance of such regulations and shall place a high priority on the protection of the consumer and encouraging integration and home ownership for those persons who have previously been excluded from or failed to avail themselves of home ownership. Such regulations, among other things, shall contain provisions relating to the various types of instruments for experimentation, including, but not limited to, forms of graduated payment mortgages, reverse annuity mortgages, flexible payment and flexible rate mortgages and combinations of such mortgages, with the further provision that such alternative mortgage instruments shall be limited in number, simple and comprehensible, and provide adequate opportunities and protections to those persons and classes of persons who have previously not been able to participate in home ownership. The regulations shall also contain a provision requiring that full disclosure be made to potential applicants, among other things, of, the nature and effect of the alternative mortgage payment instrument, the payment due each month of the payment term, and all costs or savings attributed to the alternative mortgage instrument.

(c) A report shall be submitted by the commissioner to the Legislature annually on the 15th day of February of each year commencing the second year following the effective date of this legislation, and the report shall include the numbers and types of such mortgage instruments, and the impact of such instruments on minorities, women, young families, low- and middle-income families, and elderly persons.

(d) This section shall remain in effect until January 1, 1983, and on such date is repealed.

SEC. 3. Section 7170 of the Financial Code is amended to read:

7170. (a) An association shall not make any loan other than an amortized loan unless at least 90 percent of the unpaid principal of all its loans then in force are amortized loans.

(b) Notwithstanding subdivision (a), an association may make unamortized loans in an amount equal to 20 percent of the unpaid principal of all of its loans then in effect provided that 10 percent of

such loans are made pursuant to Section 7153.9, and during such time as Section 7153.9 is in effect.

CHAPTER 969

An act to add Section 3714 to the Labor Code, relating to workers' compensation.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 3714 is added to the Labor Code, to read:

3714. Every employer subject to the compensation provisions of this code, except employers of employees defined in subdivision (d) of Section 3351, shall, either orally or in writing, notify every new employee, either at the time the employee is hired or by the end of his first pay period, of the employee's right to receive workers' compensation benefits should he be injured on the job at any time while in the employer's employ. The information required by this section shall be in addition to the requirements of Section 3713.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities or school districts by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 970

An act to add Section 2506.7 to the Education Code, relating to county superintendents of schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 2506.7 is added to the Education Code, to read:

2506.7. Upon agreement between the county board of education and the county board of supervisors providing that the county shall be reimbursed for county counsel educational services as evidenced by resolution adopted by each board, the maximum allowable tax

rate available to a fiscally independent county superintendent of schools shall be increased by the rate at which the county levied and collected a tax sufficient to pay for the expenditures of the county counsel's office in providing legal services to the county board of education, the county committee on school district organization, and the county superintendent of schools, and school districts under his jurisdiction, during the fiscal year preceding the effective date of the agreement; and the maximum general purpose tax rate of the county shall be reduced by the same amount in the fiscal year in which such tax rate is increased.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to adjust properly the tax rates of counties and county superintendents of schools in counties in which a county superintendent of schools is fiscally independent and must pay for certain legal service of the county counsel, and to permit such adjustments to be operative for the entire 1977–78 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 971

An act to add Sections 1950.5 and 1950.7 to, and to repeal Section 1950.5 of, the Civil Code, relating to landlord and tenant.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 1950.5 of the Civil Code is repealed.

SEC. 2. Section 1950.5 is added to the Civil Code, to read:

1950.5. (a) The provisions of this section shall apply to security for a rental agreement for residential property, that is, property used as the dwelling of the tenant.

(b) As used in this section, "security" means any payment, fee, deposit or charge, including, but not limited to, an advance payment of rent, used or to be used for any purpose, including, but not limited to, any of the following:

(1) The compensation of a landlord for a tenant's default in the payment of rent.

(2) The repair of damages to the premises caused by the tenant.

(3) The cleaning of the premises upon termination of the tenancy.

(c) A landlord may not demand or receive security, however denominated, in an amount or value in excess of an amount equal to two months' rent, in the case of unfurnished residential property, and an amount equal to three months' rent in the case of furnished

residential property, in addition to any rent for the first month paid on or before initial occupancy. This subdivision shall not be construed to prohibit an advance payment of not less than six months' rent where the term of the lease is six months or longer.

This subdivision shall not be construed to preclude a landlord and a tenant from entering into a mutual agreement for the landlord, at the request of the tenant and for a specified fee or charge, to make structural, decorative, furnishing, or other similar alterations, such alterations being other than that cleaning or repairing for which the landlord may charge the previous tenant as provided by subdivision (e).

(d) Any security shall be held by the landlord for the tenant who is party to such lease or agreement. The claim of a tenant to such security shall be prior to the claim of any creditor of the landlord.

(e) The landlord may claim of the security only such amounts as are reasonably necessary to remedy tenant defaults in the payment of rent, to repair damages to the premises caused by the tenant, exclusive of ordinary wear and tear, or to clean such premises, if necessary, upon termination of the tenancy. No later than two weeks after the tenant has vacated the premises, the landlord shall furnish the tenant with an itemized written statement of the basis for, and the amount of, any security received and the disposition of such security and shall return any remaining portion of such security to the tenant.

(f) Upon termination of the landlord's interest in the dwelling unit in question, whether by sale, assignment, death, appointment of receiver or otherwise, the landlord or his agent shall, within a reasonable time, do one of the following acts, either of which shall relieve him of further liability with respect to such security held:

(1) Transfer the portion of such security remaining after any lawful deductions made under subdivision (e) to the landlord's successor in interest, and thereafter notify the tenant by personal delivery or certified mail of such transfer, of any claims made against the security, and of the transferee's name, address, and telephone number. If the notice to the tenant is made by personal delivery, the tenant shall acknowledge receipt of such notice and sign his name on the landlord's copy of such notice.

(2) Return the portion of such security remaining after any lawful deductions made under subdivision (e) to the tenant, together with an accounting as provided in subdivision (e).

(g) Upon receipt of any portion of such security under paragraph (1) of subdivision (f), the transferee shall have all of the rights and obligations of a landlord holding such security with respect to such security.

(h) The bad faith claim or retention by a landlord or transferee of a security or any portion thereof, in violation of this section, may subject the landlord or his transferee to damages not to exceed two hundred dollars ($200), in addition to any actual damages. In any action under this section, the landlord shall have the burden of proof

as to the reasonableness of the amounts claimed.

(i) No lease or rental agreement shall contain any provision characterizing any security as "nonrefundable."

(j) Any action under this section may be maintained in small claims court if the damages claimed, whether actual or punitive or both, are within the jurisdictional amount allowed by Section 116.2 of the Code of Civil Procedure.

(k) To the extent that this section is a recodification of the provisions of Chapter 1317 of the Statutes of 1970, as amended by Chapter 618 of the Statutes of 1972, this section became operative on January 1, 1971, and shall apply only to payments or deposits made on or after such date.

The amendments made to the law, as effective on January 1, 1977, by the enactment of this section in the 1977–78 Legislative Session, exclusive of subdivision (e), shall be applicable to all tenancies, leases, or rental agreements for residential property created or renewed on or after January 1, 1978.

Subdivision (e) of this section shall be applicable to all tenancies, leases, or rental agreements for residential property terminated on or after January 1, 1978.

SEC. 3. Section 1950.7 is added to the Civil Code, to read:

1950.7. (a) Any payment or deposit of money the primary function of which is to secure the performance of a rental agreement for other than residential property or any part of such an agreement, other than a payment or deposit, including an advance payment of rent, made to secure the execution of a rental agreement, shall be governed by the provisions of this section. With respect to residential property, the provisions of Section 1950.5 shall prevail.

(b) Any such payment or deposit of money shall be held by the landlord for the tenant who is party to such agreement. The claim of a tenant to such payment or deposit shall be prior to the claim of any creditor of the landlord, except a trustee in bankruptcy.

(c) The landlord may claim of such payment or deposit only such amounts as are reasonably necessary to remedy tenant defaults in the payment of rent, to repair damages to the premises caused by the tenant, or to clean such premises upon termination of the tenancy, if the payment or deposit is made for any or all of those specific purposes. Any remaining portion of such payment or deposit shall be returned to the tenant no later than two weeks after termination of his tenancy.

(d) Upon termination of the landlord's interest in the unit in question, whether by sale, assignment, death, appointment of receiver or otherwise, the landlord or his agent shall, within a reasonable time, do one of the following acts, either of which shall relieve him of further liability with respect to such payment or deposit:

(1) Transfer the portion of such payment or deposit remaining after any lawful deductions made under subdivision (c) to the landlord's successor in interest, and thereafter notify the tenant by

personal delivery or certified mail of such transfer, of any claims made against the payment or deposit, and of the transferee's name and address. If the notice to the tenant is made by personal delivery, the tenant shall acknowledge receipt of such notice and sign his name on the landlord's copy of such notice.

(2) Return the portion of such payment or deposit remaining after any lawful deductions made under subdivision (c) to the tenant.

(e) Upon receipt of any portion of such payment or deposit under paragraph (1) of subdivision (d), the transferee shall have all of the rights and obligations of a landlord holding such payment or deposit with respect to such payment or deposit.

(f) The bad faith retention by a landlord or transferee of a payment or deposit or any portion thereof, in violation of this section, may subject the landlord or his transferee to damages not to exceed two hundred dollars ($200), in addition to any actual damages.

(g) This section is declarative of existing law and therefore operative as to all tenancies, leases, or rental agreements for other than residential property created or renewed on or after January 1, 1971.

CHAPTER 972

An act to add Article 9.5 (commencing with Section 11135) to Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, relating to discrimination.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Article 9.5 (commencing with Section 11135) is added to Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, to read:

Article 9.5. Discrimination

11135. No person in the State of California shall, on the basis of ethnic group identification, religion, age, sex, color, or physical or mental disability, be unlawfully denied the benefits of, or be unlawfully subjected to discrimination under, any program or activity that is funded directly by the state or receives any financial assistance from the state.

11136. Whenever a state agency that administers a program or activity that is funded directly by the state or receives any financial assistance from the state, has reasonable cause to believe that a contractor, grantee, or local agency has violated the provisions of

Section 11135, or any regulation adopted to implement such section, the head of the state agency shall notify the contractor, grantee, or local agency of such violation and shall, after considering all relevant evidence, determine whether there is probable cause to believe that a violation of the provisions of Section 11135, or any regulation adopted to implement such section, has occurred. In the event that it is determined that there is probable cause to believe that the provisions of Section 11135, or any regulation adopted to implement such section, have been violated, the head of the state agency shall cause to be instituted a hearing conducted pursuant to the provisions of Chapter 5 (commencing with Section 11500) of this part to determine whether a violation has occurred.

11137. If it is determined that a contractor, grantee, or local agency has violated the provisions of this article, the state agency that administers the program or activity involved shall take action to curtail state funding in whole or in part to such contractor, grantee, or local agency.

11138. Each state agency that administers a program or activity that is funded directly by the state or receives any financial assistance from the state and that enters into contracts for the performance of services to be provided to the public in an aggregate amount in excess of one hundred thousand dollars ($100,000) per year shall, in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of this part, adopt such rules and regulations as are necessary to carry out the purpose and provisions of this article.

11139. The prohibitions and sanctions imposed by this article shall be in addition to any other prohibitions and sanctions imposed by law.

This article shall not be interpreted in such manner so as to frustrate its purpose.

This article shall not be interpreted in such a manner so as to adversely affect lawful programs which benefit the disabled, the aged, minorities and women.

11139.5. The Secretary of the Health and Welfare Agency, with the advice and concurrence of the Fair Employment Practices Commission, shall establish standards for determining which persons are protected by this article and guidelines for determining what practices are discriminatory. The secretary, with the cooperation of the Fair Employment Practices Commission, shall assist state agencies in coordinating their programs and activities and shall consult with such agencies, as necessary, so that consistent policies, practices, and procedures are adopted with respect to the enforcement of the provisions of the article.

CHAPTER 973

An act to amend Section 44896 of the Education Code, relating to school districts, and making an appropriation therefor.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 44896 of the Education Code is amended to read:

44896. Whenever a person employed in an administrative or supervisory position requiring certification qualifications is transferred to a teaching position, the governing board of the school district shall give such employee, when requested by him, a written statement of the reasons for such transfer. If the reasons include incompetency, an evaluation of the person pursuant to Article 11 (commencing with Section 44660) of Chapter 3 of this part shall have been completed not more than 60 days prior to the giving of the notice of the transfer.

SEC. 2. The sum of five hundred dollars ($500) is hereby appropriated from the General Fund to the State Controller for allocation and disbursement to local agencies pursuant to Section 2231 of the Revenue and Taxation Code to reimburse such agencies for costs incurred by them pursuant to this act.

CHAPTER 974

An act to add Section 35928 to the Food and Agricultural Code, relating to certified milk and certified milk products, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 35928 is added to the Food and Agricultural Code, to read:

35928. (a) When the director, any health officer acting as an agent of the director, or a milk inspection officer acting as an agent of the director having jurisdiction, determines that the oral ingestion by a human being of any raw milk or certified raw milk supply has caused disease in a human being, he shall prohibit the use, sale, or disposal of such milk, except by a method approved by the director, until such cause has been corrected or eliminated. Application may be made by the director or any such officer to the superior court of the county where the supply is produced or stored in order to obtain an

injunction prohibiting the use, sale, or disposal of such milk. If the court determines that it is a reasonable medical probability that the ingestion by a human being of such milk supply was the proximate cause of a case of disease in such human being and that the milk supply is unsafe for human consumption, the court shall take such action as is necessary to enforce the order. When the court thereafter determines that it is a reasonable medical probability that the ingestion by a human being of such milk supply will not be the proximate cause of a case of disease in a human being and that the milk supply is safe for human consumption, such order of prohibition shall be dissolved.

(b) When the director, any health officer acting as an agent of the director, or a milk inspection officer acting as an agent of the director having jurisdiction, has good cause to believe, as a result of either a laboratory test by a laboratory certified by the department or a recognized test, on the animal or the milk from the animal or the herd, that a case of typhoid fever, salmonella infection, bacillary dysentery, diphtheria, respiratory streptococcal infection, brucellosis, or tuberculosis, is present in one or more cows or in the milk of one or more cows of any dairy herd, he shall prohibit the use, sale, or disposal of the raw milk or certified raw milk from the herd containing the diseased cow or cows, except by a method approved by the director, until such cause has been corrected or eliminated. Application may be made by the director or any such officer to the superior court of the county where the milk supply is produced or stored in order to obtain an injunction prohibiting the use, sale, or disposal of such milk. If the court determines that it is a reasonable medical probability that such disease is present in the milk of one or more cows of any dairy herd and that the milk supply is unsafe for human consumption, the court shall take such action as is necessary to enforce the order. When the court thereafter determines that it is a reasonable medical probability that such disease is no longer present on the premises of such dairy and that the milk supply is safe for human consumption, such order of prohibition shall be dissolved.

(c) When the director, any health officer acting as an agent of the director, or a milk inspection officer acting as an agent of the director, has good cause to believe, as a result of a laboratory test by a laboratory certified by the department or a recognized test, on the animal or the milk, that a raw milk or certified raw milk supply under the control of the producer of such milk supply is suspected to be the source of an infection for a communicable disease, or that a raw milk or certified raw milk supply may cause an infection of a communicable disease, he shall prohibit the use, sale, or disposal of such milk, except by a method approved by the director, until such cause has been corrected or eliminated. However, in the case of such a milk supply being under the control of either a retailer or distributor to retailers, the director or his agent may only prohibit the use, sale, or disposal of such milk in a manner used for any other market milk or milk product.

(d) Actions taken pursuant to the provisions of subdivision (c) shall in each instance be subject to judicial review under Section 1085 of the Code of Civil Procedure by the superior court of the county with jurisdiction. Such review shall be conducted for the purpose of determining if the action taken shall be sustained or dissolved. At issue in the review shall be the questions of adequate protection of the public health and safety, and the guarantee of due process of law for the persons controlling, or producer of, the raw or certified raw milk supply affected by the action. The department shall have the burden of proof to sustain the actions of the director or his agents at issue in the review.

In the event the court, after such review, finds that the action by the director shall be dissolved, the department shall bear the actual court costs incurred by the persons controlling, or producers of, the raw or certified raw milk supply, and their actual testing costs for any animal or milk tests previously ordered by the department to determine if such milk supply, which is the subject of such court action, is the source of, or may cause, an infection for a communicable disease.

As used in this subdivision, "testing costs" means the actual cost of obtaining samples to be tested, the actual cost of laboratory tests, and the actual cost for extra labor to confine the cattle for the purpose of testing.

(e) In addition to any procedural requirements of Section 32731, any routine inspection conducted for the purpose of taking samples of milk or inspecting any cow pursuant to subdivision (b) or (c) shall be conducted only after the issuance of an inspection warrant as provided in Title 13 (commencing with Section 1822.50) of Part 3 of the Code of Civil Procedure, unless such inspection is conducted with the knowledge of the persons controlling the milk supply or cow. In the taking of a sample of milk pursuant to subdivision (a), (b), or (c), a duplicate of any sample of raw milk or certified raw milk shall be left with the persons in control of, or producers of, such milk.

(f) The Legislature finds and declares that the state does not intend to limit or restrict the availability of certified raw milk and certified raw milk products to those persons desiring to consume such milk and such products, provided such milk and products meet standards of sanitation and wholesomeness at least equal to market milk that is grade A raw milk, as defined in Section 35891.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 3. This act is an urgency statute necessary for the

immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

This act provides for certain authorizations and safeguards governing the production of milk which are necessary for the benefit and protection of the public. To ensure that these benefits and protections have the greatest effect, the act must go into effect immediately.

CHAPTER 975

An act to add Section 31646 to the Government Code, relating to the County Employees Retirement Law of 1937.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 31646 is added to the Government Code, to read:

31646. A member who returns to active service following an uncompensated leave of absence on account of illness may receive service credit for the period of such absence upon the payment of the contributions that the member would have paid during such period, together with the interest that such contributions would have earned had they been on deposit, if the member was not absent. The contributions may be paid in a lump sum or may be paid on a monthly basis for a period of not more than the length of the period for which service credit is claimed. Credit may not be received for any period of such absence in excess of 12 consecutive months.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local governmental entities or a school districts by this act are such that related costs are incurred as part of their normal operating procedures.

CHAPTER 976

An act to add Section 29410 to, and to repeal Sections 29410, 29411, and 29412 of, the Elections Code, relating to elections.

[Approved by Governor September 21, 1977 Filed with Secretary of State September 21, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares:

(a) That a need exists for adequate identification of the source of campaign appeals directed at the voters in order to assist them in making rational decisions at the polls.

(b) That by requiring such identification of campaign literature, the public is better able to evaluate the source of campaign material, may be more adequately informed, and can better distinguish between truth and falsity.

(c) That by requiring identification, anonymous attacks, which cannot adequately be responded to in the heat of a campaign, will be discouraged.

(d) That by requiring identification, a candidate who believes he has been libeled may more readily seek redress in a civil action for damages.

(e) That limiting identification requirements to pejorative campaign material is inadequate because subtle attacks on candidates or measures can be framed which appear to be supportive but, in fact, are pejorative.

(f) That a distinction needs to be made between campaign materials of small size that usually carry little more than a "Vote for _____" message, such as is often the case with buttons, matchbooks, pens, and the like, on the one hand, and campaign materials which carry more complex messages, on the other. In the case of the former, because of their characteristically small size and limited content, it would be an undue burden to require that identification as to source be included.

SEC. 2. Section 29410 of the Elections Code is repealed.

SEC. 3. Section 29410 is added to the Elections Code, to read:

29410. (a) Every person, other than a public officer in the performance of an official duty, is guilty of a misdemeanor who causes to be prepared, reproduced by any means including, but not limited to, printing, photocopying, mimeographing, or silkscreening, posted, or distributed any circular, pamphlet, letter, poster, bill, or other reproduced matter having reference to an election, to any candidate, or to any measure unless there appears on the circular, pamphlet, letter, poster, bill, or other reproduced matter in no less than six-point type not subjected to the halftone process the name and address of the business or residence of a person responsible for it.

If the responsible person is acting on behalf of a campaign committee which has filed a statement of organization with the Secretary of State under the provisions of the Political Reform Act of 1974, as amended, the name and address to appear on the reproduced matter may be the name and address of the campaign committee.

(b) Any circular, pamphlet, letter, poster, bill, or other reproduced matter having reference to an election, candidate, or

measure, which contains no more information than the following items which appear on the ballot: the date of the election, the nature of the election (e.g., primary, general, special, runoff), the name of the jurisdiction (e.g., Alhambra City, Los Angeles Community College District), and, in the case of a candidate, the name of the candidate, the title of the office, including district number, if any, and in the case of a partisan office, the candidate's party designation, or, in the case of a measure, the title of the measure and its number or letter designation, and the use of the words "Yes on," "No on," "Vote for," "Elect," "Reelect," "Retain," "Return," "Recall," "Remove," and "Support" is exempted from the identification requirements of subdivision (a); provided, however, that a mass mailing as defined in Section 82041.5 of the Government Code shall comply with Section 84305 of the Government Code.

(c) Any circular, pamphlet, letter, poster, bill, or other reproduced matter referring only to candidates for federal office and subject to the requirements of Section 441d of Title 2 of the United States Code is exempt from the identification requirements of subdivision (a).

(d) A copy of this Elections Code section and Section 84305 of the Government Code shall be provided by the clerk to each candidate or his agent at the time of filing the declaration of candidacy and to the proponents of a local initiative or referendum at the time of filing the petitions. In the case of a statewide initiative or referendum, the Secretary of State shall provide a copy of this Elections Code section to the proponents of the measure within a reasonable time following receipt of the title and summary from the Attorney General as provided in Section 3503.

SEC. 4. Section 29411 of the Elections Code is repealed.

SEC. 5. Section 29412 of the Elections Code is repealed.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by that act because the duties, obligations or responsibilities imposed on local government by this act are minor in nature and will not place any financial burden on local government.

CHAPTER 977

An act to add Chapter 5 (commencing with Section 58501) to Part 1 of Division 21 of the Food and Agricultural Code, and to add Sections 17202.4 and 24343.7 to the Revenue and Taxation Code, relating to agricultural products.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5 (commencing with Section 58501) is added to Part 1 of Division 21 of the Food and Agricultural Code, to read:

CHAPTER 5. DONATION OF FOOD

58501. For purposes of this chapter:

(a) "Agricultural product" means any fowl, animal, vegetable, or other stuff, product, or article which is customary food, or which is proper for food for human beings.

(b) "Nonprofit charitable organization" means any organization which was organized and is operating for charitable purposes and meets the requirements set forth in Section 214 of the Revenue and Taxation Code.

58502. Any person engaged in the business of processing, distributing, or selling any agricultural product may donate, free of charge, any such product which is in a condition that it may be used as food for human beings, to a nonprofit charitable organization within the state.

58503. To assist in accomplishing the purposes of Section 58502, the board of supervisors of any county may establish, and publicize the availability of, a surplus food collection and distribution system, consisting of an inventory of storage facilities and refrigeration equipment that are available in the county for such purposes and a 24-hour information and food collection center for receiving and transmitting information as to where agricultural products are available or what organization desires or needs donated agricultural products, and for collecting, receiving, handling, storing, and distributing donated agricultural products. Any nonprofit charitable organization regularly needing agricultural products in its operations may be listed with such center for the purpose of being notified whenever such products are available.

58504. The board of supervisors may provide for the inspection of such products by the county health officer, upon request of the donee, prior to delivery by the donor to determine whether such products may be used as food for human beings.

58505. Except for any injury resulting from gross negligence or willful act, no county or agency of a county established pursuant to this chapter and no person who donates any agricultural product shall be liable for any injury, including, but not limited to, injury resulting from the ingesting of such agricultural product, as a result of any act, or the omission of any act, in connection with donating any product pursuant to this chapter.

58506. Nothing in this chapter shall relieve any nonprofit charitable organization from any liability for any injury, including, but not limited to, injury resulting from the ingesting of such agricultural product, as a result of receiving, accepting, gathering, or removing any agricultural product donated under this chapter.

58507. (a) Any nonprofit charitable organization, that receives any agricultural product pursuant to this chapter, shall not sell or offer

to sell any such agricultural product nor move or transfer such product out of the state, provided that any product that does not comply with the requirements of Division 17 (commencing with Section 42501) which is received by a charitable organization situated in this state may be shipped out of the state by such organization in accordance with regulations of the director to assure compliance with the purposes of this chapter.

This subdivision does not apply to agricultural products which comply with all maturity, quality, size, standard pack, container and labeling requirements of Division 17 (commencing with Section 42501).

(b) No person and no employee of a public agency shall sell, offer for sale, use, or consume any agricultural product donated or distributed pursuant to this chapter, except the recipient of an agricultural product provided as charitable assistance by a nonprofit charitable organization who shall use or consume the agricultural product provided.

(c) Any violation of this section is punishable by a fine not exceeding one thousand dollars ($1,000).

58508. In operating an information and food collection center pursuant to this chapter, the board of supervisors shall provide for the screening of donees to assure that agricultural products which are distributed at public expense are not donated to organizations that are capable of purchasing them.

58509. This chapter shall remain in effect only until January 1, 1980, and as of that date is repealed, unless prior to that date a later enacted statute deletes or extends such date.

SEC. 2. Section 17202.4 is added to the Revenue and Taxation Code, to read:

17202.4. In addition to the deduction allowed for trade or business expenses and any other deductions allowed by this part, a taxpayer who donates agricultural products under Chapter 5 (commencing with Section 58501), Part 1, Division 21 of the Food and Agricultural Code shall be allowed as a deduction an amount equal to the cost of any such products.

This section shall remain in effect only until January 1, 1980, and as of that date is repealed, unless prior to that date a later enacted statute deletes or extends such date.

SEC. 3. Section 24343.7 is added to the Revenue and Taxation Code, to read:

24343.7. In addition to the deduction allowed for trade or business expenses and any other deductions allowed by this part, a taxpayer who donates agricultural products under Chapter 5 (commencing with Section 58501), Part 1, Division 21 of the Food and Agricultural Code shall be allowed as a deduction an amount equal to the cost of any such products.

This section shall remain in effect only until January 1, 1980, and as of that date is repealed, unless prior to that date a later enacted statute deletes or extends such date.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 978

An act relating to health education, and making an appropriation therefor.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature in enacting this act to generate and encourage the development of programs for the prevention of genetic diseases, disorders, and birth defects, in grades seven through 12, and thereby to reduce the annual incidence of genetic diseases, disorders, and birth defects through preventive educational programs.

SEC. 2. The Department of Education shall prepare and distribute to school districts guidelines and plans for the preparation of programs for the prevention of genetic diseases, disorders, and birth defects, and in cooperation with county offices of education, shall assist school districts in developing plans and programs to provide future parents with practical information concerning, but not limited to, human development, nutrition, genetics, maternal and child health, and the effect of certain aspects of the environment on human development, and for this purpose shall assume the following functions and carry out the following duties out of funds appropriated for these purposes:

(a) Develop during the 1978–79 fiscal year model programs, instructional materials, curriculum and guidelines for junior and senior high schools for dissemination at selected training programs during the year.

(b) Conduct during the 1979–80 fiscal year at least 25 workshops and training programs for approximately 3,000 school districts teams of certificated school personnel and youth in the public high schools.

(c) Develop during the fiscal year 1980–81 additional materials and conduct workshops for training programs for an additional 3,000 certificated school personnel.

SEC. 3. This chapter shall be operative until June 30, 1981.

Funds for operation in the 1979–80 and 1980–81 fiscal years shall be requested in the Budget Bill.

SEC. 4. There is hereby appropriated from the General Fund in the State Treasury to the Department of Education, the sum of one hundred forty thousand dollars ($140,000) to be expended for the purposes of this act in the 1978–79 fiscal year.

CHAPTER 979

An act to add Section 34.10 to the Civil Code, relating to minors.

[Approved by Governor September 21, 1977. Filed with Secretary of State September 21, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 34.10 is added to the Civil Code, to read:

34.10. (a) Notwithstanding any other provision of law, a minor 12 years of age or older may give consent to the furnishing of medical care and counseling relating to the diagnosis and treatment of a drug or alcohol related problem. Such consent shall not be subject to disaffirmance because of minority.

(b) The consent of the parent, parents, or legal guardian of a minor shall not be necessary to authorize hospital care, medical care, or counseling related to a drug or alcohol related problem, and, except as otherwise provided in subdivision (c), the parent, parents, or legal guardian of the minor shall not be liable for payment for any such care rendered to a minor pursuant to this section.

(c) The treatment plan of a minor authorized by this section shall include the involvement of the minor's parent, parents, or legal guardian, if appropriate, as determined by the professional person or treatment facility treating the minor. The professional person rendering medical treatment or counseling to a minor shall state in the minor's treatment record whether and when he or she attempted to contact the parent, parents, or legal guardian of the minor, and whether such attempt to contact the parent, parents, or legal guardian of the minor was successful or unsuccessful; or the reason why, in his or her opinion, it would not be appropriate to contact the parent, parents, or legal guardian of the minor.

Notwithstanding the provisions of subdivision (b), if the minor's parent, parents, or legal guardian participates in a counseling program pursuant to this section, such parent, parents, or legal guardian shall be liable for the cost of such services provided to the minor and the parent, parents, or legal guardian.

(d) As used in this section, "counseling" means the provision of counseling services by a provider under a contract with the state or a county to render alcohol or drug abuse counseling services pursuant to Part 2 (commencing with Section 5600) of Division 5 of, or Division 11 (commencing with Section 19900) of the Welfare and Institutions Code.

(e) As used in this section, "drug or alcohol" shall include, but shall not be limited to, any substance listed in Schedule D of Section 4160 of the Business and Professions Code, Division 10 (commencing with Section 11000) of the Health and Safety Code, or subdivision (f) of Section 647 of the Penal Code.

(f) As used in this section, "professional person" means a physician and surgeon, registered nurse, psychologist, clinical social worker, or marriage, family, and child counselor.

(g) The provisions of this section shall not be construed to authorize a minor to receive methadone treatment without the consent of his or her parent, parents, or legal guardian.

CHAPTER 980

An act to amend Sections 26670, 26678, 26679, and 26680 of, and to add Sections 26605 and 26624 to, the Health and Safety Code, relating to health.

[Became law without Governor's signature September 22, 1977.
Filed with Secretary of State September 22, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 26605 is added to the Health and Safety Code, to read:

26605. The department may establish performance standards for devices, which shall be designed to provide reasonable assurance of safe and effective performance and, where appropriate, requiring the use and prescribing the form and content of labeling for the proper installation, maintenance, operation, or use of the device. However, if a performance standard is established for a device pursuant to Section 514 of the federal act (21 U.S.C., Sec. 360d) or Section 521 of the federal act (21 U.S.C., Sec. 360k), it shall be the performance standard of this state for such device.

SEC. 2. Section 26624 is added to the Health and Safety Code, to read:

26624. Any device is adulterated which fails to meet the applicable performance standard, if any, as provided in Section 26605.

SEC. 3. Section 26670 of the Health and Safety Code is amended to read:

26670. No person shall sell, deliver, or give away any new drug or new device unless it satisfies either of the following:

(a) It is a new drug, and a new drug application has been approved for it and such approval has not been withdrawn, terminated, or suspended under Section 505 of the federal act (21 U.S.C., Sec. 355); or it is a new device for which a premarket approval application has been approved, and such approval has not been withdrawn,

terminated, or suspended under Section 515 of the federal act (21 U.S.C., Sec. 360e).

(b) The department has approved a new drug or device application setting forth all of the following information:

(1) Full reports of investigations which have been made to show whether or not such new drug or device is safe for use or whether such new drug or device is effective in use under the conditions prescribed, recommended, or suggested in the labeling or advertising of the new drug or device.

(2) A full list of the articles used as components of such new drug or device.

(3) A full statement of the composition of such new drug or device.

(4) A full description of the methods used in, and the facilities and controls used for, the manufacture, processing, and packing of such new drug or in the case of a new device, a full statement of its composition, properties, and construction and the principles of its operation.

(5) Such samples of such new drug or device and of the articles used as components of the drug or device as the department may require.

(6) Specimens of the labeling and advertisements proposed to be used for such new drug or device.

SEC. 4. Section 26678 of the Health and Safety Code is amended to read:

26678. Section 26670 does not apply to a drug or device intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs or devices if the investigation is conducted in accordance with the requirements of Section 505(i) of the federal act (21 U.S.C., Sec. 355(i)) or Section 520(g) thereof (21 U.S.C., Secs. 352 and 360) and the regulations adopted pursuant to the federal act.

SEC. 5. Section 26679 of the Health and Safety Code is amended to read:

26679. Section 26670 does not apply to any drug or device intended solely for investigational use by experts qualified by scientific training and experience to investigate the safety and effectiveness of drugs or devices if all the following conditions are complied with:

(a) The submission to the department, before any clinical testing of a drug or device is undertaken, of reports, by the manufacturer or the sponsor of the investigation of such drug or device, of preclinical tests including tests on animals, of such drug or device adequate to justify the proposed clinical testing.

(b) The manufacturer or the sponsor of the investigation of a drug or a device proposed to be distributed to investigators for clinical testing obtaining a signed, notarized agreement from each of such investigators that patients to whom the drug or device is administered will be under his personal supervision, or under the supervision of investigators responsible to him, and that he will not supply such drug or device to any other investigator, or to clinics, for administration to human beings.

(c) The establishment and maintenance of such records, and the making of such reports to the department, by the manufacturer or the sponsor of the investigation of such drug or device, of data, including but not limited to, analytical reports by investigators, obtained as a result of such investigational use of such drug or device, as the department finds will enable it to evaluate the safety and effectiveness of such drug or device in the event of the filing of an application pursuant to Section 26670.

(d) The manufacturer, or the sponsor of the investigation, require experts using such drugs or devices for investigational purposes to certify to such manufacturer or sponsor that they will comply with the requirements of Article 4 (commencing with Section 26668) of this chapter.

(e) Such other conditions as the department shall adopt as regulations necessary for the protection of the public health. The federal regulations adopted pursuant to Section 505(i) of the federal act (21 U.S.C., Sec. 355(i)) or Section 520(g) thereof (21 U.S.C., Secs. 352 and 360) shall be the regulations for exemptions from Section 26670 in this state. However, the department may prescribe, by regulation, any condition for exemption from Section 26670 whether or not such condition is in accordance with regulations adopted under the federal act.

SEC. 6. Section 26680 of the Health and Safety Code is amended to read:

26680. Section 26670 does not apply to any of the following:

(a) A drug or device which is sold in this state, or introduced into interstate commerce, at any time prior to the enactment of the federal act, if its labeling and advertising contained the same representations concerning the conditions of its use.

(b) Any drug which is licensed under the Public Health Service Act of July 1, 1944 (58 Stats. 682, as amended; 42 U.S.C., Sec. 201 et seq.) or under the provisions of the eighth paragraph of the heading of Bureau of Animal Industry of the act of March 4, 1913 (37 Stat. 832–833; 21 U.S.C., Sec. 151 et seq.), commonly known as the "Virus-Serum-Toxin Act."

(c) Any antibiotic drug which is subject to Section 26651.

SEC. 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act, because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 981

An act to amend Section 4850 of the Labor Code, relating to lifeguards.

[Became law without Governor's signature September 22, 1977.
Filed with Secretary of State September 22, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 4850 of the Labor Code is amended to read:

4850. Whenever any city policeman, city fireman, county fireman, fireman of any fire district, sheriff or any officer or employee of a sheriff's office, any inspector, investigator, detective or personnel with comparable title in any district attorney's office, or lifeguard employed year round on a regular, full-time basis by a county of the first class, who is a member of the Public Employees' Retirement System or subject to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450), Part 3, Division 4, Title 3, Government Code) is disabled, whether temporarily or permanently, by injury or illness arising out of and in the course of his duties, he shall become entitled, regardless of his period of service with the city or county, to leave of absence while so disabled without loss of salary in lieu of temporary disability payments, if any, which would be payable under this chapter, for the period of such disability but not exceeding one year, or until such earlier date as he is retired on permanent disability pension. This section shall apply only to city policemen, sheriffs or any officer or employee of a sheriff's office, and any inspector, investigator, detective or personnel with comparable title in any district attorney's office, who are members of the Public Employees' Retirement System or subject to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450), Part 3, Division 4, Title 3, Government Code) and excludes such employees of a police department whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise and whose functions do not clearly fall within the scope of active law enforcement service, and excludes such employees of a county sheriff's office whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or otherwise, and whose functions do not clearly come within the scope of active law enforcement service. It shall also apply to city firemen, county firemen, and firemen of any fire district who are members of the Public Employees' Retirement System or subject to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450), Part 3, Division 4, Title 3, Government Code) and excludes such employees of the city fire department, county fire department and of any fire district whose principal duties are those of a telephone operator, clerk, stenographer, machinist, mechanic, or

otherwise and whose functions do not clearly fall within the scope of active firefighting and prevention service. It shall also apply to deputy sheriffs subject to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450), Part 3, Division 4, Title 3, Government Code). It shall also apply to lifeguards employed year round on a regular, full-time basis by counties of the first class who are subject to the County Employees Retirement Law of 1937 (Chapter 3 (commencing with Section 31450), Part 3, Division 4, Title 3, Government Code). If the employer is insured, the payments which, except for the provisions of this section, the insurer would be obligated to make as disability indemnity to the injured, the insurer may pay to the insured.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government.

CHAPTER 982

An act to amend Sections 11450 and 11452 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 11450 of the Welfare and Institutions Code is amended to read:

11450. (a) For each needy family which includes one or more needy children qualified for aid under this chapter, except as provided in Section 11403, there shall be paid, notwithstanding minimum basic standards of adequate care established by the department under Section 11452, an amount of aid each month which when added to his income, exclusive of any amounts considered exempt as income or paid pursuant to subdivision (d) of this section or Section 11453.1, is equal to the sums specified in the following table, as adjusted for cost-of-living increases or decreases pursuant to Section 11453:

Number of eligible needy persons in the same home	Maximum aid
1	$166
2	273

3	338
4	402
5	459
6	516
7	566
8	616
9	666
10 or more	716

If, when and during such times as the United States government increases or decreases its contributions in assistance of needy children in this state above or below the amount paid on July 1, 1972, the amounts specified in the above table shall be increased or decreased by an amount equal to such increase or decrease by the United States government, provided that no such increase or decrease shall be subject to subsequent adjustment pursuant to Section 11453.

(b) For children receiving foster care who are qualified for aid under the provisions of this chapter, except as provided in Section 11403, there shall be paid the sum necessary for the adequate care of each child, but not to exceed in any month the product of one hundred twenty dollars ($120) multiplied by the number of children in each county receiving foster care. The state shall pay 67.5 percent and the county shall pay 32.5 percent of the aid furnished for the adequate care of such children.

(c) As used in this chapter, "foster care" means care in a boarding home or institution.

(d) (1) In addition to the amounts payable under subdivision (a) of this section and Section 11453.1, a family shall be entitled to receive an allowance for recurring special needs not common to a majority of recipients. The county shall pay the full cost of the additional aid furnished needy families pursuant to this subdivision after first deducting therefrom any funds received from the federal government. Such recurring special needs shall include but not be limited to special diets upon the recommendation of a physician, and unusual costs of transportation, laundry, housekeeping service, telephone, and utilities. The recurring special needs allowance for each family per month shall not exceed that amount resulting from multiplying the sum of ten dollars ($10) by the number of recipients in the family who are eligible for assistance.

(2) A family shall also be entitled to receive an allowance, at county expense after first deducting therefrom any funds received from the federal government, for nonrecurring special needs caused by sudden and unusual circumstances beyond the control of the needy family; provided, however, that such needs shall not be taken into consideration in determining the eligibility of the family for aid.

(3) The department shall establish rules and regulations assuring the uniform application statewide of the provisions of this subdivision.

(e) Except for the purposes of Section 15200, the amounts payable to recipients pursuant to Section 11453.1 shall not constitute part of the payment schedule set forth in subdivision (a) of this section.

The amounts payable to recipients pursuant to Section 11453.1 shall not constitute income to recipients of aid under this section.

SEC. 2. Section 11452 of the Welfare and Institutions Code is amended to read:

11452. Minimum basic standards of adequate care shall be distributed to the counties and shall be binding upon them. Such standards are hereby determined on the basis of the schedule set forth in this section, as adjusted for cost-of-living increases or decreases pursuant to Section 11453, which schedule is designed to insure:

(1) Safe, healthful housing.

(2) Minimum clothing for health and decency.

(3) Low-cost adequate food budget meeting recommended dietary allowances of the National Research Council.

(4) Utilities.

(5) Other items including household operation, education and incidentals, recreation, personal needs, and insurance.

(6) Allowance for essential medical, dental, or other remedial care to the extent not otherwise provided at public expense.

The schedule of minimum basic standards of adequate care is as follows:

Number of needy persons in the same family	Minimum basic standards of adequate care
1	$168
2	282
3	343
4	422
5	487
6	549
7	604
8	667
9	730
10	794

plus seven dollars ($7) for each additional needy person.

The department shall establish rules and regulations assuring the uniform application statewide of the provisions of this section.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 983

An act to amend Section 41954 of, and to add Section 41962 to, the Health and Safety Code, relating to air pollution, and making an appropriation therefor.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 41954 of the Health and Safety Code is amended to read:

41954. (a) The state board shall, by March 1, 1976, adopt procedures for determining the compliance of any system designed for the control of gasoline vapor emissions during gasoline marketing operations, including storage and transfer operations, with performance standards which are reasonable and necessary to achieve or maintain any applicable ambient air quality standard.

(b) The state board shall certify any gasoline vapor control system, upon its determination that the system, if properly installed and maintained, will meet the requirements of subdivision (a). The state board shall enumerate the specifications used for issuing such certification. After a system has been certified, if circumstances beyond control of the state board cause the system to no longer meet the required specifications, the certification may be revoked or modified.

(c) The state board may test, or contract for testing, gasoline vapor control systems in order to certify them.

(d) The state board shall charge a reasonable fee for certification, not to exceed its estimated costs therefor. Payment of the fee shall be a condition of certification.

(e) No person shall install a gasoline vapor control system unless it has been certified by the state board.

(f) To the extent authorized by other provisions of law, any district may adopt stricter procedures and performance standards than those adopted by the state board pursuant to subdivision (a).

SEC. 2. Section 41962 is added to the Health and Safety Code, to read:

41962. (a) Notwithstanding Section 34002 of the Vehicle Code, the state board shall adopt test procedures to determine the compliance of vapor recovery systems of cargo tanks on tank vehicles used to transport gasoline with vapor emission standards which are reasonable and necessary to achieve or maintain any applicable ambient air quality standard. The performance standards and test procedures adopted by the state board shall be consistent with the regulations adopted by the State Fire Marshal pursuant to Division 14.7 (commencing with Section 34001) of the Vehicle Code.

(b) The state board may test, or contract for testing, the vapor

recovery system of any cargo tank of any tank vehicle used to transport gasoline. The state board shall certify the cargo tank vapor recovery system upon its determination that the system, if properly installed and maintained, will meet the requirements of subdivision (a). The state board shall enumerate the specifications used for issuing such certification. After a cargo tank vapor recovery system has been certified, if circumstances beyond control of the state board cause the system to no longer meet the required specifications, the certification may be revoked or modified.

(c) Upon verification of certification pursuant to subdivision (b), which shall be done annually, the state board shall send a verified copy of the certification to the registered owner of the tank vehicle, which copy shall be retained in the tank vehicle as evidence of certification of its vapor recovery system. For each system certified, the state board shall issue a nontransferable and nonremovable decal to be placed on the cargo tank where the decal can be readily seen.

(d) With respect to any tank vehicle operated within a district, the state board, upon request of the district, shall send to the district, free of charge, a certified copy of the certification and test results of any cargo tank vapor recovery system on the tank vehicle.

(e) The state board shall charge a reasonable fee for certification, not to exceed its estimated costs therefor. Payment of the fee shall be a condition of certification. The fees shall be deposited in the Air Pollution Control Fund to reimburse the state board for its costs in issuing certifications.

(f) No person shall operate, or allow the operation of, a tank vehicle transporting gasoline and required to have a vapor recovery system, unless the system thereon has been certified by the state board and is installed and maintained in compliance with the state board's requirements for certification. Tank vehicles used exclusively to service gasoline storage tanks which are not required to have gasoline vapor controls are exempt from the certification requirement.

(g) Performance standards of any district for cargo tank vapor recovery systems on tank vehicles used to transport gasoline shall be identical with those adopted by the state board therefor and no district shall adopt test procedures for, or require certification of, cargo tank vapor recovery systems. No district may impose any fees on, or require any permit of, tank vehicles with vapor recovery systems. However, nothing in this section shall be construed to prohibit a district from inspecting and testing cargo tank vapor recovery systems on tank vehicles for the purposes of enforcing this section or any rule and regulation adopted thereunder that are applicable to such systems and to the loading and unloading of cargo tanks on tank vehicles.

(h) The Legislature hereby declares that the purposes of this section regarding cargo tank vapor recovery systems on tank vehicles are (1) to remove from the districts the authority to certify, except as specified in subdivision (b), such systems and to charge

fees therefor, and (2) to grant such authority to the state board, which shall have the primary responsibility to assure that such systems are operated in compliance with its standards and procedures adopted pursuant to subdivision (a).

CHAPTER 984

An act to repeal Sections 38009.1 and 38009.2 of the Health and Safety Code, and to add and repeal Sections 6513, 6514, 6515, 6516, 6517, 6518, and 6519 to the Welfare and Institutions Code, relating to developmental disabilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 38009.1 of the Health and Safety Code is repealed.

SEC. 2. Section 38009.2 of the Health and Safety Code is repealed.

SEC. 3. Section 6513 is added to the Welfare and Institutions Code, to read:

6513. Any developmentally disabled person residing in a state hospital who has not been judicially committed shall be considered a nonprotesting resident of a state hospital or a voluntary resident if the person has given informed consent to his admission. For the purposes of this article, the State Department of Health shall establish regulations to define informed consent.

Developmentally disabled, nonprotesting or voluntary residents may leave a state hospital at any time after they, or their parent or legal guardian or conservator, request a discharge and complete state hospital discharge procedures.

The state hospital's discharge procedures for any resident may require an assessment, by an appropriate regional center, of the resident's condition, if in the opinion of the chief clinical director of the state hospital immediate release of the resident may result in serious personal harm to the resident.

Whenever the state hospital discharge procedure for a resident requires assessment by a regional center, the resident shall continue to reside in the state hospital until such assessment is completed. The regional center shall complete its assessment of the condition of such persons within 14 days of receiving a request for assessment. In conducting its assessment, the regional center shall solicit information, advice, and recommendations of state hospital personnel familiar with medical, social and other needs of the person being assessed, and the person's parents or legal guardian or conservator.

For those persons found by a regional center to no longer require state hospital care, the person shall be released, and, if necessary, the regional center shall immediately prepare and administer an individual program plan pursuant to Sections 38215 and 38216 of the Health and Safety Code for the provision of appropriate alternative services outside the state hospital.

For those persons found to be in continued need of state hospital care, the regional center shall either readmit such persons as voluntary residents of the state hospital, pursuant to the provisions of Section 38453 of the Health and Safety Code, or request the district attorney or the county counsel, when the board of supervisors has delegated such duty pursuant to Section 6519, to file a petition seeking commitment to the State Department of Health of those persons for whom commitment is believed to be more appropriate than voluntary placement.

The parent, guardian, conservator, or any person designated for that purpose by the judge of the court may also request the district attorney or the county counsel, when the board of supervisors has delegated such duty pursuant to Section 6519, to file a petition for commitment.

SEC. 4. Section 6514 is added to the Welfare and Institutions Code, to read:

6514. Whenever a petition for commitment of a person is filed pursuant to the provisions of Section 6513, judicial review shall be in the superior court for the county in which the state hospital is located. The person shall be informed of his right to counsel by a member of the staff of the state hospital, and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for commitment is filed with the court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of an evidentiary hearing in the matter, to the parent, guardian, or conservator of the person and to the director of the appropriate regional center and the state hospital. Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested

The court shall either release the person or order an evidentiary hearing to be held not sooner than five judicial days nor more than 10 judicial days after the petition and notice have been mailed to the person's parent, guardian, or conservator and to the director of the appropriate regional center and state hospital.

If the court finds (a) that the person requesting release or for whom release is requested is not developmentally disabled, or (b) that the person is developmentally disabled and is able to provide safely for his basic personal needs for food, shelter, and clothing, and

is able to protect himself from ordinary threats to life, health or safety, he shall be immediately released.

Notwithstanding the provisions of Section 6500.1 of the Welfare and Institutions Code, if the court finds that the person is developmentally disabled and that he is not capable of providing for his basic personal needs for food, clothing, and shelter, and is not able to protect himself from ordinary threats to life, health, or safety, and is not willing to accept suitable care and treatment on a voluntary basis, the person may be committed to the State Department of Health for suitable care and treatment.

For the purposes of this section, the legal status of minority does not, in itself, render a person incapable of providing for his basic personal needs for food, clothing, shelter and self-protection from ordinary threats to life, health, or safety.

For the purposes of this section, suitable care and treatment is defined as the least restrictive residential placement necessary to achieve the purposes of treatment. Care and treatment of a person committed to the State Department of Health under this section may include placement in any state hospital, any licensed community care facility as defined in Section 1504, or any health facility as defined in Section 1250.

Commitment under this section shall be for a period not to exceed one year. The State Department of Health may petition for renewed commitments under this section if such petition is made to the superior court at least 30 days prior to the termination of existing commitment.

Nothing in this section shall be construed to prevent the voluntary admission of developmentally disabled persons to state hospitals pursuant to Section 38221 or involuntary commitment of dangerous persons under Section 6500.1 of the Welfare and Institutions Code.

If in any proceeding under this section, the court finds that the person is developmentally disabled and has no parent, guardian, or conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the state department to initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator for the developmentally disabled person.

SEC. 5. Section 6515 is added to the Welfare and Institutions Code, to read:

6515. For a developmentally disabled person to be assessed pursuant to state hospital discharge procedures, a notice of assessment shall be signed by the clinical director of the state hospital or his designee and the director of the program unit where such resident resides. A designee of the state hospital clinical director shall be a physician.

SEC. 6. Section 6516 is added to the Welfare and Institutions Code, to read:

6516. A notice of assessment shall be required for all 14-day assessments conducted pursuant to state hospital discharge

procedures where a resident is required to continue residing at the state hospital, and shall be in substantially the following form:

SEC. 7. Section 6517 is added to the Welfare and Institutions Code, to read:

6517. The person delivering the copy of the notice of assessment to the developmentally disabled person completing state hospital discharge procedures shall, at the time of delivery, inform such resident certified of his legal right to a judicial review by habeas corpus, and shall explain the term to him, and shall inform such resident of his right to counsel, including court-appointed counsel pursuant to Section 38451 of the Health and Safety Code.

SEC. 8. Section 6518 is added to the Welfare and Institutions Code, to read:

6518. A copy of the assessment notice, as set forth in Section 6516, shall be personally delivered to the resident undergoing regional center assessment. A copy of such notice shall be filed with the superior court on the same day as the date the assessment begins or, if the court is not open for business on that day, as soon thereafter

as the court is open for business. A copy shall also be sent to the person's attorney, to the district attorney, to the public defender, if any, to the state hospital, to his parents, guardian or conservator, to the regional center conducting the assessment, and the State Department of Health.

The resident undergoing assessment shall also be asked to designate any person whom he wishes informed regarding his assessment. If he is incapable of making such a designation at the time of assessment, he shall be asked to designate such person as soon as he is capable.

SEC. 9. Section 6519 is added to the Welfare and Institutions Code, to read:

6519. At any judicial proceeding under the provisions of this division, allegations that a person is (a) a danger to others, (b) a danger to himself, or (c) unable to provide safely for his basic personal needs for food, shelter and clothing, and is unable to protect himself from ordinary threats to life, health, or safety as a result of a developmental disability, shall be presented by the district attorney for the county, unless the board of supervisors, by ordinance or resolution, delegates such duty to the county counsel.

SEC. 10. If any provisions of Section 6514 or subdivision (c) of Section 6519 of the Welfare and Institutions Code, as added by this act, or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The provisions of this bill are necessary to ensure, at the earliest possible time, constitutional rights to the developmentally disabled under the provisions of Chapter 1364 to Chapter 1373, inclusive, of the Statutes of 1976, which became effective on January 1, 1977.

SEC. 12. Sections 3 to 9, inclusive, of this act shall become inoperative on January 1, 1979, and on such date such sections are repealed.

CHAPTER 985

An act to add Section 4136 to the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 4136 is added to the Welfare and Institutions Code, to read:

4136. Each patient in a state hospital who has resided in the state hospital for a period of at least 30 days shall be paid an amount of aid for his personal and incidental needs which when added to his income equals twelve dollars and fifty cents ($12.50) per month.

CHAPTER 986

An act to amend Section 5099.12 of the Public Resources Code, relating to recreation.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

The first status report shall be submitted to the Legislature by January 1, 1981.

SEC. 2. There are no state-mandated local costs in this act that require reimbursement under Section 2231 of the Revenue and

Taxation Code because there are no new duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 993

An act to amend Section 27001 of, and to add Section 25251.4 to, and to add Article 13 (commencing with Section 28085) to Chapter 5 of Division 12 of, the Vehicle Code, relating to vehicles.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 25251.4 is added to the Vehicle Code, to read:

25251.4. Any motor vehicle may also be equipped with a theft alarm system which flashes any of the lights required or permitted on the motor vehicle and which operates as specified in Article 13 (commencing with Section 28085) of Chapter 5 of this division.

SEC. 2. Section 27001 of the Vehicle Code is amended to read:

27001. (a) The driver of a motor vehicle when reasonably necessary to insure safe operation shall give audible warning with his horn.

(b) The horn shall not otherwise be used, except as a theft alarm system which operates as specified in Article 13 (commencing with Section 28085) of this chapter.

SEC. 3. Article 13 (commencing with Section 28085) is added to Chapter 5 of Division 12 of the Vehicle Code, to read:

Article 13. Theft Alarm System

28085. Any motor vehicle may be equipped with a theft alarm system which flashes the lights of the vehicle, or sounds an audible signal, or both, and which operates as follows:

(a) The system may flash any of the lights required or permitted on the vehicle.

(b) The system may sound an audible signal.

(c) Such system shall be designed to be activated only when the vehicle is parked.

(d) No vehicle shall be equipped with a theft alarm system which emits the sound of a siren.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental

entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 994

An act to amend Sections 700, 1858.1, 1858.3, and 12389 of, to add Section 1858.2 to, and to repeal Section 1858.2 of, the Insurance Code, relating to insurance.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 700 of the Insurance Code is amended to read:

700. (a) A person shall not transact any class of insurance business in this state without first being admitted for such class. Such admission is secured by procuring a certificate of authority from the commissioner. Such certificate shall not be granted until the applicant conforms to the requirements of this code and of the laws of this state prerequisite to its issue.

(b) The unlawful transaction of insurance business in this state in willful violation of the requirement for a certificate of authority is a public offense punishable by imprisonment in the state prison, or in a county jail not exceeding one year, or by fine not exceeding one hundred thousand dollars ($100,000), or by both, and shall be enjoined by a court of competent jurisdiction on petition of the commissioner.

(c) The holder of a certificate of authority shall comply with all of the requirements as to its business which are set forth in this code and in the other laws of this state. Whenever the commissioner finds, after proper notice and hearing, that an insurer has failed to comply with or has violated any of the provisions of Article 10 (commencing with Section 900) of Chapter 1, Part 2, Division 1 of this code, the commissioner may suspend the certificate of authority of such insurer for a period not exceeding one year or, in the alternative, may permit a monetary penalty in lieu of suspension as provided for in Section 704.7.

(d) Any administrative proceedings brought under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner shall have all the powers granted therein.

SEC. 2. Section 1858.1 of the Insurance Code is amended to read:

1858.1. If after examination of an insurer, rating organization, advisory organization, or group, association or other organization of insurers which engages in joint underwriting or joint reinsurance, or upon the basis of other information, or upon sufficient complaint as provided in Section 1858, the commissioner has good cause to believe

that such insurer, organization, group or association, or any rate, rating plan or rating system made or used by any such insurer or rating organization, does not comply with the requirements and standards of this chapter applicable to it, he shall give notice in writing to such insurer, organization, group or association stating therein in what manner and to what extent such noncompliance is alleged to exist and specifying therein a reasonable time, not less than 10 days thereafter, in which such noncompliance may be corrected.

A person served with such notice of noncompliance may, within the time specified therein, (a) establish to the satisfaction of the commissioner that such noncompliance does not exist, or (b) request a public hearing, notice of which shall be given at least 30 days prior to the date set for hearing, or (c) enter into a consent order with the commissioner to correct the specified noncompliance within a period of time specified in the consent order. Such order shall provide that in the event the noncompliance is not corrected within the time specified therein that a money penalty of not to exceed one thousand dollars ($1,000) shall attach and be collected by the commissioner for each day the violation of the consent order continues. Such money penalty shall not exceed in the aggregate the sum of thirty thousand dollars ($30,000). In addition to or in lieu of the procedure provided herein the commissioner may proceed with a public hearing as provided in Section 1858.2.

SEC. 3. Section 1858.2 of the Insurance Code is repealed.

SEC. 4. Section 1858.2 is added to the Insurance Code, to read:

1858.2. At the election of the commissioner, or if the insurer organization group or association does not make such changes as may be necessary to correct the noncompliance specified in the notice issued under Section 1858.1, or at the request of such person as provided for in Section 1858.1, or at the request of such person as provided for in Section 1858.1, or if such person has failed to establish to the satisfaction of the commissioner that such noncompliance does not exist, then the commissioner may hold a public hearing by mailing a notice to such person not less than 30 days prior to the date set for hearing specifying the matters to be considered at the hearing.

SEC. 5. Section 1858.3 of the Insurance Code is amended to read:

1858.3. If after a hearing pursuant to Section 1858.2 the commissioner finds:

(a) That any rate, rating plan or rating system violates the provisions of this chapter applicable to it, he may issue an order to the insurer or rating organization which has been the subject of the hearing specifying in what respects such violation exists and stating when, within a reasonable period of time, the further use of such rate or rating system by such insurer or rating organization in contracts of insurance made thereafter shall be prohibited. The commissioner may, in addition to such order, direct the insurer or rating organization to take such other corrective action as he may deem necessary and proper.

(b) That an insurer, rating organization, advisory organization, or a group, association or other organization of insurers which engages in joint underwriting or joint reinsurance, is in violation of the provisions of this chapter applicable to it other than the provisions dealing with rates, rating plans or rating systems, he may issue an order to such insurer, organization, group or association which has been the subject of the hearing specifying in what respects such violation exists and requiring compliance within a reasonable time thereafter.

(c) Any order of the commissioner issued pursuant to subdivision (a) or (b) shall provide that a money penalty of not to exceed one thousand dollars ($1,000) shall attach and be collected by the commissioner for each day such person fails to comply within the time specified therein with the provisions of such order in the same manner as that provided in Section 1858.1. Such penalty shall not exceed in the aggregate the sum of thirty thousand dollars ($30,000).

SEC. 6. Section 12389 of the Insurance Code is amended to read:

12389. (a) An underwritten title company as defined in Section 12340.5, which shall be a stock corporation, may engage in the business of preparing title searches, title reports, title examinations, certificates or abstracts of title, upon the basis of which a title insurer writes title policies, provided that:

(1) Only domestic corporations may be licensed under this section and no underwritten title company, as defined in Section 12340.5, shall become licensed under this section, or change the name under which it is licensed or operates, unless it has first complied with the provisions of Section 881.

(2) Depending upon the county or counties in which the company is licensed to transact business, it shall maintain required minimum net worth as follows:

Aggregate number of documents recorded and documents filed in the offices of the county recorders in the preceding calendar year in all counties where the company is licensed to transact business	Amount of required minimum net worth
Less than 10,000	$20,000
10,000 to 50,000	30,000
50,000 to 100,000	60,000
100,000 to 500,000	100,000
500,000 to 1,000,000	150,000
1,000,000 or more	200,000

"Net worth" is defined as the excess of assets over all liabilities and required reserves. It may carry as an asset the actual cost of its title plant provided the value ascribed to such asset shall not exceed the lesser of: (a) the actual cost thereof, or (b) 50 percent of its stated

capital, as defined in Section 1900 of the Corporations Code.

Where the information in the title plant is not being kept current, the asset value of such plant shall not exceed the actual cost less 20 percent of the actual cost for each 12-month period, immediately preceding the date such asset is valued for purposes of this subdivision, that the title plant is not actually maintained.

An underwritten title company at all times shall maintain current assets of at least ten thousand dollars ($10,000) in excess of its current liabilities, as such current assets and liabilities may be defined pursuant to regulations made by the commissioner. In making such regulations, the commissioner shall be guided by generally accepted accounting principles followed by certified public accountants in this state.

(3) Such an underwritten title company shall obtain from the commissioner a license to transact its business. Such license shall not be granted until the applicant conforms to the requirements of this section and all other provisions of this code specifically applicable to applicant. After issuance the holder shall continue to comply with the requirements as to its business set forth in this code, in the applicable rules and regulations of the commissioner and in the laws of this state.

Any underwritten title company who possesses, or is required to possess, a license pursuant to this section shall be subject as if an insurer to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code and shall be deemed to be subject to authorization by the Insurance Commissioner within the meaning of subdivision (e) of Section 25100 of the Corporations Code.

Such license may be obtained by filing an application on a form prescribed by the commissioner accompanied by a filing fee of three hundred dollars ($300). Such license when issued shall be for an indefinite term and shall expire with the termination of the existence of the holder, subject to the annual renewal fee imposed under Sections 12415 and 12416.

An underwritten title company seeking to extend its license to an additional county shall pay a one-hundred-seventy-five-dollar ($175) fee for each such additional county, and shall furnish to the commissioner evidence, at least sufficient to meet the minimum net worth requirements of paragraph (2), of its financial ability to expand its business operation to include such additional county or counties.

(4) Such an underwritten title company shall furnish an audit to the commissioner on the forms provided by the commissioner annually, either on a calendar year basis on or before March 31st or, if approved in writing by the commissioner in respect to any individual company, on a fiscal year basis on or before 90 days after the end of the fiscal year. The time for furnishing any such audit may be extended, for good cause shown, on written approval of the commissioner for a period, not to exceed 60 days. Failure to submit

an audit on time, or within such extended time as the commissioner may grant, shall be grounds for an order by the commissioner to accept no new business pursuant to subdivision (d). Such audits shall be private, except that a synopsis of the balance sheet on a form prescribed by the commissioner may be made available to the public.

The audits shall be made in accordance with generally accepted auditing standards by an independent certified public accountant or independent licensed public accountant approved by the commissioner specifically for the particular company. Approval of an auditor for a particular company shall not be deemed to be a licensing of the auditor nor approval of the auditor for any other company or any other purpose. Any such approval, or the renewal thereof, shall automatically expire on the first day of January in the fifth calendar year following the date of original or renewal approval. The fee for filing an application for such approval or the renewal thereof shall be seventeen dollars and fifty cents ($17.50). The fee for filing the audit shall be thirty-seven dollars and fifty cents ($37.50).

The commissioner may deny or revoke approval or renewal of approval of an auditor for any of the following reasons:

(i) Adverse result in any proceeding before the State Board of Accountancy affecting the auditor's license;

(ii) The auditor has an affiliation with the underwritten title company or any of its officers or directors which would prevent his reports on the company from being reasonably objective;

(iii) The auditor has suffered conviction of any misdemeanor or felony based on his activities as an accountant; or

(iv) Judgment adverse to the auditor in any civil action finding him guilty of fraud, deceit or misrepresentation in the practice of his profession.

Any company which fails to file any audit or other report on or before the date it is due shall pay to the commissioner a penalty fee of one hundred dollars ($100) and on failure to pay such or any other fee or file the audit required by this section shall forfeit the privilege of accepting new business until the delinquency is corrected.

(b) Such an underwritten title company may engage in the escrow business and act as escrow agent provided that:

(1) All funds deposited with the company in connection with any escrow shall be deposited in a bank in a separate trust account, and such funds shall be the property of the person or persons entitled thereto under the provisions of the escrow and segregated escrow by escrow in the records of the company. Such funds shall not be subject to any debts of the company and shall be used only to fulfill the terms of the individual escrow under which the funds were accepted and none of such funds shall be used until all conditions of the escrow have been met.

Bona fide drafts executed by persons fully responsible financially may at the option of the company, be deemed the equivalent of funds already cleared into such bank deposit unless another law of this state prohibits such persons from tendering such drafts to escrow holders for the purpose of closing escrows.

Any interest received on funds deposited with the company in connection with any escrow which are deposited in a bank shall be paid over to the depositing party to the escrow and shall not be transferred to the account of the company.

(2) It shall maintain a record of all receipts and disbursements of escrow funds.

(3) It shall deposit seven thousand five hundred dollars ($7,500) for each county in which it transacts business in some form permitted by Section 12351 with the commissioner who shall forthwith make a special deposit thereof in the State Treasury and such deposit shall be subject to the provisions of Sections 12353, 12356, 12357, and 12358 and as long as there are no claims against the deposit all interest and dividends thereon shall be paid to the depositor. The deposit shall be for the security and protection of persons having lawful claims against the depositor growing out of escrow transactions with it. Such deposit shall be maintained until four years after all escrows handled by the depositor have been closed.

(A) The commissioner may release such deposits prior to the passage of such four-year period upon presentation of evidence satisfactory to the commissioner of either a statutory merger of the depositor into a licensee or certificate holder subject to the jurisdiction of the commissioner, or a valid assumption agreement under which all liability of the depositor stemming from escrow transactions handled by it is assumed by a licensee or certificate holder subject to the jurisdiction of the commissioner.

(B) With the foregoing exceptions, the deposit shall be returned to the depositor or lawful successor in interest following the four-year period, upon presentation of evidence satisfactory to the commissioner that there are no claims against the deposit stemming from escrow transactions handled by the depositor. If the commissioner has evidence of one or more claims against the depositor, and the depositor is not in conservatorship or liquidation, the commissioner may interplead the deposit by special endorsement to a court of competent jurisdiction for distribution on the basis that claims against the depositor stemming from escrow transactions handled by it have priority in such distribution over other claims against the depositor.

(4) It shall obtain and maintain a fidelity bond on file with the commissioner, to cover all officers and employees of the company who participate in any escrow transaction that is handled by the company. Such bond shall be a blanket bond or, with the approval of the commissioner, may be a position or individual bond. The commissioner shall prescribe the amount of the bond which shall not exeed two hundred thousand dollars ($200,000). In the commissioner's sole discretion, he may accept a cash deposit in an amount not to exceed two hundred thousand dollars ($200,000) in lieu of the bond otherwise required by this paragraph. In the event such a deposit is accepted by the commissioner, he shall make a

special deposit thereof in the State Treasury and so long as the depositor continues to be solvent, the depositor shall annually receive the interest accruing on the assets in the deposit.

(c) The commissioner shall, whenever it appears necessary, examine the business and affairs of a company licensed under this section. All such examinations shall be at the expense of the company.

(d) At any time that the commissioner determines, after notice and hearing, that a company licensed under this section has willfully failed to comply with any of the provisions of this section, the commissioner shall make his order prohibiting the company from conducting its business for a period of not more than one year.

Any company violating such an order is subject to seizure under Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 is guilty of a misdemeanor and may have its license revoked by the commissioner. Any person aiding and abetting any company in a violation of such an order is guilty of a misdemeanor.

The purpose of this section is to maintain the solvency of the companies subject to this section and to protect the public by preventing fraud and requiring fair dealing. In order to carry out such purposes the commissioner may make reasonable rules and regulations to govern the conduct of its business of companies subject to this section.

The name under which each underwritten title company is licensed shall at all times be an approved name. Each such company shall be subject to the provisions of Article 14 (commencing with Section 1010) and Article 14.5 (commencing with Section 1065.1) of Chapter 1 of Part 2 of Division 1.

Such rules and regulations shall be adopted, amended or repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

Wherever the term "administrator" is used in this chapter, it shall mean any person who collects charges or premiums from, or who adjusts or settles claims on, residents of this state in connection with life or health insurance coverage or annuities other than (a) an employer on behalf of its employees or the employees of one or more subsidiary or affiliated corporations of such employer, (b) a union on behalf of its members, (c) an insurance company which is either licensed in this state or acting as an insurer with respect to a policy lawfully issued and delivered by it in and pursuant to the laws of a state in which the insurer was authorized to do an insurance business or prepaid hospital or health care service plan (including their sales representatives licensed in this state when engaged in the performance of their duties as such), (d) a life or health agent or broker licensed in this state, whose activities are limited exclusively to the sale of insurance, (e) a creditor on behalf of its debtors with respect to insurance covering a debt between the creditor and its debtors, (f) a trust, its trustees, agents and employees acting thereunder, established in conformity with 29 U.S.C. 186, (g) a trust exempt from taxation under Section 501 (a) of the Internal Revenue Code, its trustees, and employees acting thereunder, or a custodian, its agents and employees acting pursuant to a custodian account which meets the requirements of Section 401 (f) of the Internal Revenue Code, (h) a bank, credit union or other financial institution which is subject to supervision or examination by federal or state regulatory authorities, (i) a company which advances for and collects premiums or charges from its credit card holders who have authorized it to do so, provided such company does not adjust or

1759.1. No administrator shall act as such without a written agreement between the administrator and the insurer, and such written agreement shall be retained as part of the official records of both the insurer and the administrator for the duration of the agreement and five years thereafter. Such written agreement shall contain provisions which include the requirements of Sections 1759.2 to 1759.8, inclusive, except insofar as those requirements do not apply to the functions performed by the administrator.

Where a policy is issued to a trustee or trustees, a copy of the trust agreement and any amendments thereto shall be furnished to the insurer by the administrator and shall be retained as part of the official records of both the insurer and the administrator for the duration of the policy and five years thereafter.

1759.2. Whenever an insurer utilizes the services of an administrator under the terms of a written contract as required in Section 1759.1, the payment to the administrator of any premiums or charges for insurance by or on behalf of the insured shall be deemed to have been received by the insurer, and the payment of return premiums or claims by the insurer to the administrator shall not be deemed payment to the insured or claimant until such payments are received by the insured or claimant. Nothing herein shall limit any right of the insurer against the administrator resulting from its failure to make payments to the insurer, insureds or claimants.

1759.3. Every administrator shall maintain at its principal administrative office for the duration of the written agreement referred to in Section 1759.1 and five years thereafter adequate books and records of all transactions between it, insurers and insured persons. Such books and records shall be maintained in accordance with prudent standards of insurance record keeping. The insurer shall retain the right to continuing access to such books and records of the administrator sufficient to permit the insurer to fulfill all of its contractual obligations to insured persons, subject to any restrictions in the written agreement between the insurer and administrator on the proprietary rights of the parties in such books and records.

The commissioner shall have access to such books and records for the purpose of examination, audit, and inspection. Any information contained therein, including but not limited to the identity and addresses of policyholders and certificateholders, shall be confidential, except the commissioner may use such information in any proceedings instituted against the administrator.

1759.4. An administrator may use only such advertising pertaining to the business underwritten by an insurer as has been

approved by such insurer in advance of its use.

1759.5. The agreement shall make provision with respect to the underwriting or other standards pertaining to the business underwritten by such insurer.

1759.6. Such funds shall be immediately remitted to the person or persons entitled thereto, or shall be deposited promptly in a fiduciary bank account established and maintained by the administrator. If charges or premiums so deposited have been collected on behalf of or for more than one insurer, the administrator shall cause the bank in which such fiduciary account is maintained to keep records clearly recording the deposits in and withdrawals from such account on behalf of or for each insurer. The administrator shall promptly obtain and keep copies of all such records and, upon request of an insurer, shall furnish such insurer with copies of such records pertaining to deposits and withdrawals on behalf of or for such insurer. The administrator shall not pay any claim by withdrawals from such fiduciary account. Withdrawals from such account shall be made, as provided in the written agreement between the administrator and the insurer, for (1) remittance to an insurer entitled thereto; (2) deposit in an account maintained in the name of such insurer; (3) transfer to and deposit in a claims paying account, with claims to be paid as provided in Section 1759.7; (4) payment to a group policyholder for remittance to the insurer entitled thereto; (5) payment to the administrator of its commission, fees or charges; or (6) remittance of return premiums to the person or persons entitled thereto.

1759.7. All claims paid by the administrator from funds collected on behalf of the insurer shall be paid only on checks or drafts of and as authorized by such insurer.

1759.8. With respect to any policies where an administrator adjusts or settles claims, the compensation to the administrator with regard to such policies shall in no way be contingent on claim experience

1759.9. Where the services of an administrator are utilized, the administrator shall provide a written notice approved by the insurer, to insured individuals, advising them of the identity of and relationship among the administrator, the policyholder and the insurer. Where an administrator collects funds, it must identify and state separately in writing to the person paying to the administrator any charge or premium for insurance coverage the amount of any such charge or premium specified by the insurer for such insurance coverage.

1759.10. No person shall act as, or hold himself out to be, an administrator in this state, other than an adjuster licensed in this state for the kinds of business for which he is acting as an administrator,

under regulations prescribed by the Franchise Tax Board) to the cost of life, accident, health, or other insurance.

(b) (1) This subdivision shall apply to any life insurance contract—

(b) In any case to which this section applies, the tax attributable to the amounts to which this section applies for the taxable year in which such amounts are received shall not exceed whichever of the following is the greater:

(1) Five times the increase in tax which would result from the inclusion in gross income of the recipient of 20 percent of so much of the amount so received as is includible in gross income, or

(2) Five times the increase in tax which would result if the taxable income of the recipient for such taxable year equaled 20 percent of the amount of the taxable income of the recipient for such taxable year determined under paragraph (1) of subdivision (c).

(2) In making ratable inclusion computations under paragraph (2) of subdivision (d) of Section 17112.5, the taxable income of the recipient for each taxable year involved in such ratable inclusion shall be treated as being not less than the amount required by such paragraph (2) of subdivision (d) to be treated as includible in gross income for such taxable year.

In any case in which the preceding sentence results in an increase in taxable income for any taxable year, the resulting increase in the taxes imposed by Section 17041 or 17048 for such taxable year shall not be reduced by any credit under this part which, but for this sentence, would be allowable.

(d) In the case of amounts to which this section applies which are distributed or paid with respect to an individual who is an employee without regard to subdivision (a) of Section 17502.2, subdivision (b) shall be applied with the following modifications:

(3) No portion of the total distributions or amounts payable (of which the amounts distributed or paid are a part) to which subdivision (b) of Section 17503 or subdivision (a) of Section 17511 applies shall be taken into account.

Paragraph (2) shall not apply if the employee has not attained the age of 59½ years unless he has died or become disabled (within the meaning of subdivision (f) of Section 17112.5).

SEC. 3. Section 17240 of the Revenue and Taxation Code is amended to read:

(3) For a retirement bond described in Section 17530.1 (but only if the bond is not redeemed within 12 months of the date of its issuance).

For purposes of this title, any amount paid by an employer to such a retirement account or for such a retirement annuity or retirement bond constitutes payment of compensation to the employee (other than a self-employed individual who is an employee within the meaning of Section 17502.2(a)) includible in his gross income, whether or not a deduction for such payment is allowable under this section to the employee after the application of subdivision (b).

(b) Limitations and Restrictions. (1) The amount allowable as a deduction under subdivision (a) to an individual for any taxable year may not exceed an amount equal to 15 percent of the compensation includible in his gross income for such taxable year, or one thousand five hundred dollars ($1,500), whichever is less.

(2) No deduction is allowed under subdivision (a) for an individual for the taxable year if for any part of such year—

(A) He was an active participant in—

(i) A plan described in Section 17501 which includes a trust exempt from tax under Section 17631,

(ii) An annuity plan described in Section 17511,

(iii) A qualified bond purchase plan described in Section 17526(a), or

(iv) A plan established for its employees by the United States, by a state or political division thereof, or by an agency or instrumentality of any of the foregoing, or

(4) No deduction is allowed under this section with respect to a rollover contribution described in Section 17503(e), 17511(e), 17530(d)(3), or 17530.1(b)(3)(C).

(5) In the case of an endowment contract described in Section 17530(b), no deduction is allowed under subdivision (a) for that portion of the amounts paid under the contract for the taxable year properly allocable, under regulations prescribed by the Franchise Tax Board, to the cost of life insurance.

(c) (1) For purposes of this section, the term "compensation" includes earned income as defined in Section 17502.2(b).

(2) In the case of married individuals the maximum deduction under subdivision (b) (1) shall be computed separately for each individual.

SEC. 4. Section 17503 of the Revenue and Taxation Code is amended to read:

17503. (a) Except as provided in subdivision (b), the amount actually distributed or made available to any distributee by any employees' trust described in Section 17501 which is exempt from tax under Section 17631 shall be taxable to him, in the year in which so distributed or made available, under Sections 17101 to 17112.7, inclusive (relating to annuities). The amount actually distributed or made available to any distributee shall not include net unrealized appreciation in securities of the employer corporation attributable to the amount contributed by the employee. Such net unrealized appreciation and the resulting adjustments to basis of such securities shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

(b) In the case of an employees' trust described in Section 17501, which is exempt from tax under Section 17631, if the total distributions payable with respect to any employee are paid to the distributee within one taxable year of the distributee on account of the employee's death or other separation from the service, or on account of the death of the employee after his separation from the service, the amount of such distribution, to the extent exceeding the amount contributed by the employee (determined by applying Section 17106), which employee contributions shall be reduced by any amount theretofore distributed to him which were not includible in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than five years.

Where such total distributions include securities of the employer corporation, there shall be excluded from such excess the net unrealized appreciation attributable to that part of the total

distributions which consists of the securities of the employer corporation so distributed. The amount of such net unrealized appreciation and the resulting adjustments to basis of the securities of the employer corporation so distributed shall be determined in accordance with regulations prescribed by the Franchise Tax Board.

This subdivision shall not apply to distributions paid to any distributee to the extent such distributions are attributable to contributions made on behalf of the employee while he was an employee within the meaning of subdivision (a) of Section 17502.2.

(c) For purposes of this section—

(1) The term "securities" means only shares of stocks and bonds or debentures issued by a corporation with interest coupons or in registered form.

(2) The term "securities of the employer corporation" includes securities of a parent or subsidiary corporation (as defined in subdivisions (e) and (f) of Section 17535) of the employer corporation.

(3) The term "total distributions payable" means the balance to the credit of an employee which becomes payable to a distributee on account of the employee's death or other separation from the service, or on account of his death after separation from the service.

(4) The term "employee contributions," as used in this section, means the amounts contributed by the employee (determined by applying Section 17106), which employee contributions shall be reduced by amounts theretofore distributed to him which were not includible in gross income.

(d) The first sentence of subdivision (b) shall apply to a distribution paid after December 31, 1969, only to the extent that it does not exceed the sum of—

(1) The benefits accrued by the employee on behalf of whom it is paid during plan years beginning before January 1, 1970, and

(2) The portion of the benefits accrued by such employee during plan years beginning after December 31, 1969, which the distributee establishes does not consist of the employee's allocable share of employer contributions to the trust by which such distribution is paid.

The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this subdivision.

(e) In the case of an employees' trust described in Section 17501 which is exempt from tax under Section 17631, if—

(1) The balance to the credit of an employee is paid to him—

(A) Within one taxable year of the employee on account of a termination of the plan of which the trust is a part or a complete discontinuance of contributions under such plan, or

(B) In one or more distributions which constitute a lump-sum distribution within the meaning of Section 402(e)(4)(A) (with reference to subsection (e)(4)(H)) of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406).

(2) (A) The employee transfers all the property he receives in such distribution to an individual retirement account described in Section 17530(a), an individual retirement annuity described in Section 17530(b) (other than an endowment contract), or a retirement bond described in Section 17530.1, on or before the 60th day after the day on which he received such property, to the extent the fair market value of such property exceeds the employee contributions as defined in subparagraph (4) of subdivision (c), or

(B) The employee transfers all the property he receives in such distribution to an employees' trust described in Section 17501 which is exempt from tax under Section 17631, or to an annuity plan described in Section 17511 on or before the 60th day after the day on which he received such property, to the extent the fair market value of such property exceeds the employee contributions as defined in subparagraph (4) of subdivision (c) and

(3) The amount so transferred consists of the property (other than money) distributed, to the extent that the fair market value of such property does not exceed the amount required to be transferred pursuant to paragraph (2),

then such distributions are not includible in gross income for the year in which paid. For purposes of this part, a transfer described in paragraph (2) (A) shall be treated as a rollover contribution as described in Section 17530(d) (3). Paragraph (2) (B) does not apply in the case of a transfer to an employees' trust, or annuity plan if any part of a payment described in paragraph (1) is attributable to a trust forming part of a plan under which the employee was an employee within the meaning of Section 17502.2(a) at the time contributions were made on his behalf under the plan.

For purposes of paragraph (1) (A), a complete discontinuance of contributions under a plan shall be deemed to occur on the day the plan administrator notifies the Secretary of the Treasury (in accordance with regulations prescribed by the secretary) that all contributions to the plan have been completely discontinued.

SEC. 5. Section 17511 of the Revenue and Taxation Code is amended to read:

17511. Except as provided in subdivision (a), if an annuity contract is purchased by an employer for an employee under a plan which meets the requirements of Section 17515 (whether or not the employer deducts the amounts paid for the contract under such section), the employee shall include in his gross income the amounts received under such contract for the year received as provided in Sections 17101 to 17112.7, inclusive (relating to annuities).

(a) If—

(1) An annuity contract is purchased by an employer for an employee under a plan described in the first paragraph,

(2) Such plan requires that refunds of contributions with respect to annuity contracts purchased under such plan be used to reduce subsequent premiums on the contracts under the plan, and

(3) The total amounts payable by reason of an employee's death or other separation from the service, or by reason of the death of an employee after the employee's separation from the service, are paid to the payee within one taxable year of the payee,

then the amount of such payments, to the extent exceeding the amount contributed by the employee, which employee contributions shall be reduced by any amounts theretofore paid to him which were not includible in gross income, shall be considered a gain from the sale or exchange of a capital asset held for more than five years. This subdivision shall not apply to amounts paid to any payee to the extent such amounts are attributable to contributions made on behalf of the employee while he was an employee within the meaning of subdivision (a) of Section 17502.2.

(b) For purposes of subdivision (a), the term "total amounts" means the balance to the credit of an employee which becomes payable to the payee by reason of the employee's death or other separation from the service, or by reason of his death after separation from the service.

(c) Subdivision (a) shall apply to a payment paid after December 31, 1969, only to the extent it does not exceed the sum of—

(1) The benefits accrued by the employee on behalf of whom it is paid during plan years beginning before January 1, 1970, and

(2) The portion of the benefits accrued by such employee during plan years beginning after December 31, 1969, which the payee establishes does not consist of the employee's allocable share of employer contributions under the plan under which the annuity contract is purchased.

The Franchise Tax Board shall prescribe such regulations as may be necessary to carry out the purposes of this subdivision.

(d) For purposes of this section, the term "employee" includes an individual who is an employee within the meaning of subdivision (a) of Section 17502.2, and the employer of such individual is the person treated as his employer under subdivision (d) of Section 17502.2.

(e) In the case of an employee annuity described in this section, if—

(1) The balance to the credit of an employee is paid to him—

(A) Within one taxable year of the employee on account of a termination of the plan of which such trust is a part or a complete discontinuance of contributions under such plan, or

(B) In one or more distributions which constitutes a lump-sum distribution within the meaning of Section 402(e)(4)(A) (with reference to subdivision (e)(4)(H)) of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406).

(2) (A) The employee transfers all the property he receives in such distribution to an individual account described in Section 17530(a), an individual retirement annuity described in Section 17530(b) (other than an endowment contract), or a retirement bond described in Section 17530.1, on or before the 60th day after

the day on which he received such property to the extent the fair market value of such property exceeds the amount referred to in Section 17503(c)(4), or

(B) The employee transfers all the property he receives in such distribution to an employees' trust described in Section 17501 which is exempt from tax under Section 17631, or to an annuity plan described in this section on or before the 60th day after the day on which he received such property to the extent the fair market value of such property exceeds the amount referred to in Section 17503(c)(4), and

(3) The amount so transferred consists of the property distributed to the extent that the fair market value of such property does not exceed the amount required to be transferred pursuant to paragraph (2),

then such distribution is not includible in gross income for the year in which paid. For purposes of this part, a transfer described in paragraph (2)(A) shall be treated as a rollover contribution described in Section 17530(d). Subparagraph (2)(B) does not apply in the case of a transfer to an employees' trust, or annuity plan if any part of a payment described in paragraph (1) is attributable to an annuity plan under which the employee was an employee within the meaning of Section 17502.2(a) at the time contributions were made on his behalf under the plan.

For purposes of paragraph (1)(A), a complete discontinuance of contributions under a plan shall be deemed to occur on the day the plan administrator notifies the Secretary of the Treasury (in accordance with regulations prescribed by the secretary) that all contributions to the plan have been completely discontinued.

SEC. 6. Section 17512 of the Revenue and Taxation Code is amended to read:

17512. (a) (1) If—

(A) An annuity contract is purchased—

(i) For an employee by an employer described in Section 23701d which is exempt from tax under Section 23701, or

(ii) For an employee (other than an employee described in clause (i) of subparagraph (A)), who performs services for an educational institution (as defined in subdivision (c) of Section 17150), by an employer which is a state, a political subdivision of a state, or an agency or instrumentality of any one or more of the foregoing,

(B) Such annuity contract is not subject to Section 17511, and

(C) The employee's rights under the contract are nonforfeitable, except for failure to pay future premiums,

then amounts contributed by such employer for such annuity contract on or after such rights become nonforfeitable shall be excluded from the gross income of the employee for the taxable year to the extent that the aggregate of such amounts does not exceed the exclusion allowance for such taxable year. The employee shall include in his gross income the amounts received under such

contract for the year received as provided in Sections 17101 to 17112.7, inclusive.

(2) For purposes of this section, the exclusion allowance for any employee for the taxable year is an amount equal to the excess, if any, of—

(A) The amount determined by multiplying 20 percent of his includible compensation by the number of years of service, over

(B) The aggregate of the amounts contributed by the employer for annuity contracts and excludible from the gross income of the employee for any prior taxable year.

(3) In the case of an employee who makes an election under Section 415(c)(4)(D) of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406) to have the provisions of Section 415(c)(4)(C) of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406) (relating to special rule for contracts purchased by educational institutions, hospitals, and home health service agencies) apply, the exclusion allowance for any such employee for the taxable year is the amount which could be contributed (under Section 415 of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406)) by his employer under a plan described in Section 17511 if the annuity contract for the benefit of such employee were treated as a defined contribution plan maintained by the employer.

(4) For purposes of this section, the term "includible compensation" means, in the case of any employee, the amount of compensation which is received from the employer described in subparagraph (A) of paragraph (1), and which is includible in gross income (computed without regard to subdivision (d) of Section 17139 and Section 911 of the Internal Revenue Code of 1954 as amended by P.L. 93-406) for the most recent period (ending not later than the close of the taxable year) which under paragraph (4) may be counted as one year of service. Such term does not include any amount contributed by the employer for any annuity contract to which this section applies.

(5) In determining the number of years of service for purposes of this section, there shall be included—

(A) One year for each full year during which the individual was a full-time employee of the organization purchasing the annuity for him, and

(B) A fraction of a year (determined in accordance with regulations prescribed by the Franchise Tax Board) for each full year during which such individual was a part-time employee of such organization and for each part of a year during which such individual was a full-time or part-time employee of such organization.

In no case shall the number of years of service be less than one.

(6) If for any taxable year of the employee this section applies to

two or more annuity contracts purchased by the employer, such contracts shall be treated as one contract.

(7) For purposes of this section and Section 17106 (relating to special rules for computing employees' contributions to annuity contracts), if rights of the employee under an annuity contract described in subparagraphs (A) and (B) of paragraph (1) change from forfeitable to nonforfeitable rights, then the amount (determined without regard to this subdivision) includible in gross income by reason of such change shall be treated as an amount contributed by the employer for such annuity contract as of the time such rights become nonforfeitable.

(8) (A) For purposes of this part, amounts paid by an employer described in paragraph (1) (A) to a custodial account which satisfies the requirements of Section 17502.5(b) shall be treated as amounts contributed by him for an annuity contract for his employee if the amounts are paid to provide a retirement benefit for that employee and are to be invested in regulated investment company stock to be held in that custodial account.

(B) For purposes of this part, a custodial account which satisfies the requirements of Section 17502.5(b) shall be treated as an organization described in Section 17501 solely for purposes of Sections 17631 to 17651, inclusive, with respect to amounts received by it (and income from investment thereof).

(C) For purposes of this paragraph, the term "regulated investment company" means a domestic corporation which is a regulated investment company within the meaning of Section 851(a) of the Internal Revenue Code of 1954, and which issues only redeemable stock.

(b) Premiums paid by an employer for an annuity contract which is not subject to Section 17511 shall be included in the gross income of the employee in accordance with Section 17122.7 (relating to property transferred in connection with performance of services), except that the value of such contract shall be substituted for the fair market value of the property for purposes of applying such section. The preceding sentence shall not apply to that portion of the premiums paid which is excluded from gross income under subdivision (a). The amount actually paid or made available to any beneficiary under such contract shall be taxable to him in the year in which so paid or made available under Sections 17101 to 17112.7, inclusive (relating to annuities).

SEC. 7. Section 17530 of the Revenue and Taxation Code is amended to read:

17530. (a) For purposes of this section, the term "individual retirement account" means a trust created or organized in the United States for the exclusive benefit of an individual or his beneficiaries, but only if the written governing instrument creating the trust meets the following requirements:

(1) Except in the case of a rollover contribution described in subdivision (d)(3), in Section 17503(e), 17511(e), or 17530.1(b)(3),

no contribution will be accepted unless it is in cash, and contributions will not be accepted for the taxable year in excess of one thousand five hundred dollars ($1,500) on behalf of any individual.

(2) The trustee is a bank (as defined in Section 17502.3(a)) or such other person who demonstrates to the satisfaction of the Franchise Tax Board that the manner in which such other person will administer the trust will be consistent with the requirements of this section.

(3) No part of the trust funds will be invested in life insurance contracts.

(4) The interest of an individual in the balance in his account is nonforfeitable.

(5) The assets of the trust will not be commingled with other property except in a common trust fund or common investment fund.

(6) The entire interest of an individual for whose benefit the trust is maintained will be distributed to him not later than the close of his taxable year in which he attains age 70½ years, or will be distributed, commencing before the close of such taxable year, in accordance with regulations prescribed by the Franchise Tax Board, over—

(A) The life of such individual or the lives of such individual and his spouse, or

(B) A period not extending beyond the life expectancy of such individual or the life expectancy of such individual and his spouse.

(7) If an individual for whose benefit the trust is maintained dies before his entire interest has been distributed to him, or if distribution has been commenced as provided in paragraph (6) to his surviving spouse and such surviving spouse dies before the entire interest has been distributed to such spouse, the entire interest (or the remaining part of such interest if distribution thereof has commenced) will, within five years after his death (or the death of the surviving spouse), be distributed, or applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries of his surviving spouse) which will be payable for the life of such beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries) and which annuity will be immediately distributed to such beneficiary or beneficiaries. The preceding sentence does not apply if distributions over a term certain commenced before the death of the individual for whose benefit the trust was maintained and the term certain is for a period permitted under paragraph (6).

(b) For purposes of this section, the term "individual retirement annuity" means an annuity contract, or an endowment contract (as determined under regulations prescribed by the Franchise Tax Board), issued by an insurance company which meets the following requirements:

(1) The contract is not transferable by the owner.

(2) The annual premium under the contract will not exceed one thousand five hundred dollars ($1,500) and any refund of premiums

will be applied before the close of the calendar year following the year of the refund toward the payment of future premiums or the purchase of additional benefits.

(3) The entire interest of the owner will be distributed to him not later than the close of his taxable year in which he attains age 70½ years, or will be distributed, in accordance with regulations prescribed by the Franchise Tax Board over—

(A) The life of such owner or the lives of such owner and his spouse, or

(B) A period not extending beyond the life expectancy of such owner or the life expectancy of such owner and his spouse.

(4) If the owner dies before his entire interest has been distributed to him, or if distribution has been commenced as provided in paragraph (3) to his surviving spouse and such surviving spouse dies before the entire interest has been distributed to such spouse, the entire interest (or the remaining part of such interest if distribution thereof has commenced) will, within five years after his death (or the death of the surviving spouse), be distributed, or applied to the purchase of an immediate annuity for his beneficiary or beneficiaries (or the beneficiary or beneficiaries of his surviving spouse) which will be payable for the life of such beneficiary or beneficiaries (or for a term certain not extending beyond the life expectancy of such beneficiary or beneficiaries) and which annuity will be immediately distributed to such beneficiary or beneficiaries. The preceding sentence shall have no application if distributions over a term certain commenced before the death of the owner and the term certain is for a period permitted under paragraph (3).

(5) The entire interest of the owner is nonforfeitable. Such term does not include such an annuity contract for any taxable year of the owner in which it is disqualified on the application of subdivision (e) or for any subsequent taxable year. For purposes of this subdivision, no contract shall be treated as an endowment contract if it matures later than the taxable year in which the individual in whose name such contract is purchased attains age 70½ years; if it is not for the exclusive benefit of the individual in whose name it is purchased or his beneficiaries; or if the aggregate annual premiums under all such contracts purchased in the name of such individual for any taxable year exceed one thousand five hundred dollars ($1,500).

(c) A trust created or organized in the United States by an employer for the exclusive benefit of his employees or their beneficiaries, or by an association of employees (which may include employees within the meaning of Section 17502.2(a)) for the exclusive benefit of its members or their beneficiaries, shall be treated as an individual retirement account (described in subdivision (a)), but only if the written governing instrument creating the trust meets the following requirements:

(1) The trust satisfies the requirements of paragraphs (1) through (7) of subdivision (a).

(2) There is a separate accounting for the interest of each employee or member.

The assets of the trust may be held in a common fund for the account of all individuals who have an interest in the trust.

(d) (1) Except as otherwise provided in this subdivision, any amount paid or distributed out of an individual retirement account or under an individual retirement annuity shall be included in gross income by the payee or distributee, as the case may be, for the taxable year in which the payment or distribution is received. The basis of any person in such an account or annuity is zero.

(2) Paragraph (1) does not apply to any annuity contract which meets the requirements of paragraphs (1), (3), (4), and (5) of subdivision (b) and which is distributed from an individual retirement account. Sections 17101 to 17112.7, inclusive, apply to any such annuity contract, and for purposes of Sections 17101 to 17112.7, inclusive, the investment in such contract is zero.

(3) An amount is described in this paragraph as a rollover contribution if it meets the requirements of subparagraphs (A) and (B).

(A) Paragraph (1) does not apply to any amount paid or distributed out of an individual retirement account or individual retirement annuity to the individual for whose benefit the account or annuity is maintained if—

(i) The entire amount received (including money and any other property) is paid into an individual retirement account or individual retirement annuity (other than an endowment contract) or retirement bond for the benefit of such individual not later than the 60th day after the day on which he receives the payment or distribution; or

(ii) The entire amount received (including money and other property) represents the entire amount in the account or the entire value of the annuity and no amount in the account and no part of the value of the annuity is attributable to any source other than a rollover contribution from an employees' trust described in Section 17501 which is exempt from tax under Section 17631 (other than a trust forming part of a plan under which the individual was an employee within the meaning of Section 17502.2(a) at the time contributions were made on his behalf under the plan), or an annuity plan described in Section 17511 (other than a plan under which the individual was an employee within the meaning of Section 17502.2(a) at the time contributions were made on his behalf under the plan) and any earnings on such sums and the entire amount thereof is paid into another such trust (for the benefit of such individual) or annuity plan not later than the 60th day on which he receives the payment or distribution.

(B) This paragraph does not apply to any amount described in subparagraph (A)(i) received by an individual from an individual retirement account or individual retirement annuity if at any time during the three-year period ending on the day of such receipt such individual received any other amount described in that

subparagraph from an individual retirement account, individual retirement annuity, or a retirment bond which was not includible in his gross income because of the application of this paragraph.

(4) Paragraph (1) does not apply to the distribution of any contribution paid during a taxable year to an individual retirement account or for an individual retirement annuity to the extent that such contribution exceeds the amount allowable as a deduction under Section 17240 if—

(A) Such distribution is received on or before the day prescribed by law (including extensions of time) for filing such individual's return for such taxable year.

(B) No deduction is allowed under Section 17240 with respect to such excess contribution, and

(C) Such distribution is accompanied by the amount of net income attributable to such excess contribution.

Any net income described in subparagraph (C) shall be included in the gross income of the individual for the taxable year in which received.

(5) The transfer of an individual's interest in an individual retirement account, individual retirement annuity, or retirement bond to his former spouse under a divorce decree or under a written instrument incident to such divorce is not to be considered a taxable transfer made by such individual notwithstanding any other provision of this part, and such interest at the time of the transfer is to be treated as an individual retirement account of such spouse, and not of such individual. Thereafter such account, annuity, or bond for purposes of this part is to be treated as maintained for the benefit of such spouse.

(e) (1) Any individual retirement account is exempt from taxation under this part unless such account has ceased to be an individual retirement account by reason of paragraph (2) or (3). Notwithstanding the preceding sentence, any such account is subject to the taxes imposed by Section 17651 (relating to imposition of tax on unrelated business income of charitable, etc. organizations).

(2) In the case of such a plan in existence in taxable year 1975 where contributions were made pursuant to and in conformance with Section 408 or 409 of the Internal Revenue Code of 1954 as amended by the Employee's Income Security Act of 1974 (P.L. 93-406), any net income attributable to the 1975 contribution shall not be includible in the gross income, for taxable year 1977 or succeeding taxable years, of the individual for whose benefit the plan was established until distributed pursuant to the provisions of the plan or by operation of law.

(3) (A) If, during any taxable year of the individual for whose benefit any individual retirement account is established, that individual or his beneficiary engages in any transaction prohibited by Section 4975 of the Internal Revenue Code of 1954 as amended by the Employee Retirement Income Security Act of 1974 (P.L. 93-406) with respect to such account, such account ceases to be an individual

retirement account as of the first day of such taxable year. For purposes of this paragraph—

(i) The individual for whose benefit any account was established is treated as the creator of such account and

(ii) The separate account for any individual within an individual retirement account maintained by an employer or association of employees is treated as a separate individual retirement account.

(B) In any case in which any account ceases to be an individual retirement account by reason of subparagraph (A) as of the first day of any taxable year, paragraph (1) of subdivision (d) applies as if there were a distribution on such first day in an amount equal to the fair market value (on such first day) of all assets in the account (on such first day).

(4) If during any taxable year the owner of an individual retirement annuity borrows any money under or by use of such contract, the contract ceases to be an individual retirement annuity as of the first day of such taxable year. Such owner shall include in gross income for such year an amount equal to the fair market value of such contract as of such first day.

(5) If, during any taxable year of the individual for whose benefit an individual retirement account is established, that individual uses the account or any portion thereof as security for a loan, the portion so used is treated as distributed to that individual.

(6) If the assets of an individual retirement account or any part of such assets are used to purchase an endowment contract for the benefit of the individual for whose benefit the account is established—

(A) To the extent that the amount of the assets involved in the purchase are not attributable to the purchase of life insurance, the purchase is treated as a rollover contribution described in subdivision (d) (3), and

(B) To the extent that the amount of the assets involved in the purchase are attributable to the purchase of life, health, accident, or other insurance, such amounts are treated as distributed to that individual (but the provisions of subdivision (f) do not apply).

(7) Any common trust fund or common investment fund of individual retirement account assets which is exempt from taxation under this part does not cease to be exempt on account of the participation or inclusion of assets of a trust exempt from taxation under Section 17631 which is described in Section 17501.

(f) (1) If a distribution from an individual retirement account or under an individual retirement annuity to the individual for whose benefit such account or annuity was established is made before such individual attains age 59½ years, his tax under this article for the taxable year in which such distribution is received shall be increased by an amount equal to 2.5 percent of the amount of distribution which is includible in his gross income for such taxable year.

(2) If an amount is includible in gross income for a taxable year

under subdivision (e) and the taxpayer has not attained age 59½ before the beginning of such taxable year, his tax under this article for such taxable year shall be increased by an amount equal to 2.5 percent of such amount so required to be included in his gross income.

(3) Paragraphs (1) and (2) do not apply if the amount paid or distributed, or the disqualification of the account or annuity under subdivision (e), is attributable to the taxpayer becoming disabled within the meaning of Section 17112.5(f).

(g) For purposes of this section, a custodial account shall be treated as a trust if the assets of such account are held by a bank (as defined in Section 17502.3(a)) or another person who demonstrates, to the satisfaction of the Franchise Tax Board, that the manner in which he will administer the account will be consistent with the requirements of this section, and if the custodial account would, except for the fact that it is not a trust, constitute an individual retirement account described in subdivision (a). For purposes of this part, in the case of a custodial account treated as a trust by reason of the preceding sentence, the custodian of such account shall be treated as the trustee thereof.

(h) The trustee of an individual retirement account and the issuer of an endowment contract described in subdivision (b) or an individual retirement annuity shall make such reports regarding such account, contract, or annuity to the Franchise Tax Board and to the individuals for whom the account, contract, or annuity is, or is to be, maintained with respect to contributions, distributions, and such other matters as the Franchise Tax Board may require under regulations. The reports required by this subdivision shall be filed at such time and in such manner and furnished to such individuals at such time and in such manner as may be required by those regulations.

SEC. 8. Section 17530.1 of the Revenue and Taxation Code is amended to read:

17530.1. (a) For purposes of this section and Section 17240(a), the term "retirement bond" means a bond issued under the Second Liberty Bond Act, as amended, which by its terms, or by regulations prescribed by the Secretary of the Treasury of the United States or his delegate under such act—

(1) Provides for payment of interest, or investment yield, only on redemption;

(2) Provides that no interest, or investment yield, is payable if the bond is redeemed within 12 months after the date of its issuance;

(3) Provides that it ceases to bear interest, or provide investment yield on the earlier of—

(A) The date on which the individual in whose name it is purchased (hereinafter in this section referred to as the "registered owner") attains age 70½ years; or

(B) Five years after the date on which the registered owner

dies, but not later than the date on which he would have attained the age 70½ had he lived;

(4) Provides that, except in the case of a rollover contribution described in subdivision (b) (3) (C) or in Section 17503(e), 17511(e), or 17530(d) (3), the registered owner may not contribute for the purchase of such bonds in excess of fifteen hundred dollars ($1,500) in any taxable year; and

(5) Is not transferable.

(b) (1) Except as otherwise provided in this subdivision, on the redemption of a retirement bond the entire proceeds shall be included in the gross income of the taxpayer entitled to the proceeds on redemption. If the registered owner has not tendered it for redemption before the close of the taxable year in which he attains age 70½, such individual shall include in his gross income for such taxable year the amount of proceeds he would have received if the bond had been redeemed at age 70½. The provisions of Sections 17101 to 17112.7, inclusive, and Sections 18183 to 18185, inclusive (relating to bonds and other evidences of indebtedness) shall not apply to a retirement bond.

(2) The basis of a retirement bond is zero.

(3) Exceptions:

(A) If a retirement bond is redeemed within 12 months after the date of its issuance, the proceeds are excluded from gross income if no deduction is allowed under Section 17240 on account of the purchase of such bond.

(B) If a retirement bond is redeemed after the close of the taxable year in which the registered owner attains age 70½ years, the proceeds from the redemption of the bond are excluded from the gross income of the registered owner to the extent that such proceeds were includible in his gross income for such taxable year.

(C) If a retirement bond is redeemed at any time before the close of the taxable year in which the registered owner attains age 70½ years, and the registered owner transfers the entire amount of the proceeds from the redemption of the bond to an individual retirement account described in Section 17530(a) or to an individual retirement annuity described in Section 17530(b) (other than an endowment contract) which is maintained for the benefit of the registered owner of the bond, or to an employees' trust described in Section 17501 which is exempt from tax under Section 17631, or an annuity plan described in Section 17511 for the benefit of the registered owner, on or before the 60th day after the day on which he received the proceeds of such redemption, then the proceeds shall be excluded from gross income and the transfer shall be treated as a rollover contribution described in Section 17511(e). This subparagraph does not apply in the case of a transfer to such an employees' trust or such an annuity plan unless no part of the value of such proceeds is attributable to any source other than a rollover contribution from such an employees' trust or annuity plan (other than an annuity plan or a trust forming part of a plan under which

the individual was an employee within the meaning of Section 17502.2(a) at the time contributions were made on his behalf under the plan).

(c) (1) If a retirement bond is redeemed by the registered owner before he attains age 59½ years, his tax under this article for the taxable year in which the bond is redeemed shall be increased by an amount equal to 2.5 percent of the amount of the proceeds of the redemption includible in his gross income for the taxable year.

(2) Paragraph (1) does not apply for any taxable year during which the retirement bond is redeemed if, for that taxable year, the registered owner is disabled within the meaning of Section 17112.5(f).

(3) Paragraph (1) does not apply if the registered owner tenders the bond for redemption within 12 months after the date of its issuance.

SEC. 8.5. If Assembly Bill No. 302 and this bill are both enacted during the 1977 portion of the 1977–78 Regular Session, any section of Assembly Bill No. 302 which takes effect on or before January 1, 1978, and which amends, amends and renumbers, or repeals a section amended, amended and renumbered, or repealed by this act shall prevail over this act, whether A.B. 302 is enacted prior or subsequent to this act.

SEC. 9. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 1003

An act relating to school food.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that the proper nutrition of children leads to better health and educational attainment and fewer behavior problems. Proper nutritional habits are learned in the home and in the school. It is important that learning be reinforced by good nutritional practices and that the food available to children in the schools offer the best nutritional values.

There are indications that the foods available for sale in many school districts, including the school food program, do not meet adequate nutritional standards and contribute to the development of health problems, such as dental disease, obesity, hyperactivity and other chronically debilitating diseases. These conditions have a lasting impact on both physical and social functioning.

Consequently, there is a need to study the foods offered for sale in

the schools to determine the nutritional quality of these foods and their influence on the current and future health of California's children. The study shall place special emphasis on the need to identify and eliminate low nutritional food, and shall use United States Department of Agriculture guidelines to assess nutrient food values.

SEC. 2. The Department of Education shall conduct a statewide study of foods available to children in the public schools which shall include: (a) foods available for sale on school campuses, including the school food program, and (b) eating habits of students during the schoolday. The study shall include a review of available research regarding the relationship between nutrition and student achievement, behavior, and health conducted within the state and elsewhere. The Department of Education shall recommend to the Legislature appropriate measures to ensure proper nutritional practices in the public schools. The Child Nutrition Advisory Council shall review and comment upon the design and conduct of the study and make recommendations, where appropriate, to the State Board of Education.

SEC. 3. The Department of Education shall submit its report to the Legislature by February 1, 1979. The Department of Education shall submit its report to the State Board of Education for review and approval prior to submission to the Legislature.

SEC. 4. The State Department of Health shall cooperate in this study and furnish such information as requested by the Department of Education.

CHAPTER 1004

An act to amend Section 231 of the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 231 of the Revenue and Taxation Code is amended to read:

231. (a) Property which is owned by a nonprofit corporation and leased to, and used exclusively by, government for its interest and benefit shall be exempt from taxation within the meaning of "charitable purposes" in subdivision (b) of Section 4 and Section 5 of Article XIII of the Constitution of the State of California if:

(1) All of the provisions of Section 214 are complied with, except subdivision (6). For purposes of subdivision (6) of Section 214, irrevocable dedication to charitable purpose shall be deemed to exist

if the lease provides that the property shall be transferred in fee to the entity of government leasing the same upon the sooner of either the liquidation, dissolution, or abandonment of the owner or at the time the last rental payment is made under the provisions of the lease.

(2) All of the provisions of Section 254.5 relating to owners are complied with, commencing during calendar year 1969.

(3) All of the provisions of Section 214.01 are complied with by March 15, 1970.

(b) As used in this section "property" means:

(1) Any building or structure of a kind or nature which is uniquely of a governmental character and includes, but is not limited to, the following:

(A) City halls.

(B) Courthouses.

(C) Administration buildings.

(D) Police stations, jails, or detention facilities.

(E) Fire stations.

(F) Parks or playgrounds.

(G) Hospitals.

(H) Water systems and waste water facilities.

(2) Any other property required for the use and occupation of the buildings and leased to government.

(3) Any possessory interest of the nonprofit corporation in property and in the land upon which the property was constructed and so much of the surrounding land that is required for the use and occupation of the property.

(4) Any building and its equipment in the course of construction on or after the first Monday of March, 1954, together with the land on which it is located as may be required for the use and occupation of the building when such building and equipment is being constructed for the sole purpose of being leased to government to lessen its burden.

"Uniquely of a governmental character" means the property, except hospitals, water systems, and waste water facilities, is not intended to produce income or revenue in the form of rents or admission, user or service fees, or charges.

(c) As used in this section "property" does not include any possessory interest of any person or organization not exempt from taxation.

(d) As used in this section "nonprofit corporation" means a community chest, fund, foundation or corporation, not conducted for profit, and no part of the net earnings of which inures to the benefit of any private shareholder or individual and such nonprofit corporation is organized and operated for the sole purpose of leasing property to government and to lessen the burden of government and, in fact, only leases property to government. Such nonprofit corporation shall qualify as an exempt organization under Section 23701f of this code or Section 501(c)(4) of the Internal Revenue

Code of 1954. This subdivision is not intended to enlarge the "welfare exemption" to apply to organizations qualified under Section 501(c)(4) of the Internal Revenue Code of 1954 but not otherwise qualified for the "welfare exemption" under this section. Nonprofit corporations meeting the tests of this subdivision are deemed to be organized and operated for charitable purposes.

(e) As used in this section "government" means the State of California, a city, city and county, county, public corporation, and a hospital district.

(f) The exemption provided for in this section shall be deemed to be within the "welfare exemption" for purposes of Section 251.

(g) For leases first entered into by and between government and nonprofit corporation on or after January 1, 1969, all requirements of this section shall be met for the property and the nonprofit corporation to qualify for the exemption provided by this section.

(h) For leases first entered into by and between government and nonprofit corporation on or before December 31, 1968, all requirements of this section shall be met except that the last unnumbered paragraph of subdivision (b) shall not apply and for the purposes of subdivision (b)(1) the list of real property qualifying for this exemption includes community recreation buildings or facilities, golf courses, airports, water, sewer and drainage facilities, music centers and their related facilities, and public parking incidental to and in connection with one of the buildings or structures set forth in this section.

(i) Property exempt under this section shall be located within the boundaries of the entity of government leasing the same.

(j) Where the construction has commenced on or after January 1, 1969, improvements shall be advertised and put to competitive bid to qualify for the exemption provided by this section.

SEC. 2. Notwithstanding Section 2229 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because this act is in accordance with the request of a local governmental entity or entities which desire legislative authority to carry out the program specified in this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the provisions of this act be applied with regard to the fiscal year commencing during the 1978 calendar year, this act must go into effect immediately.

CHAPTER 1005

An act to amend Section 39313 of the Education Code, relating to tax rates, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 39313 of the Education Code is amended to read:

39313. (a) Unless the time allowed for the governing board to enter into the lease agreement is extended pursuant to subdivision (b), if the governing board of the district fails to enter into a lease pursuant to this article within three years after an election, held pursuant to Section 39308, at which a majority of the votes cast favors the proposition submitted, the authorization for an increase in the maximum tax rate shall become void.

(b) If litigation is filed challenging in any way the election held pursuant to Section 39308 or the competitive bidding proceedings or contract for the construction of the building to be used by the district; compliance with the California Environmental Quality Act; or the validity of or the proceedings for the issuance of any bonds, notes, warrants, or other evidences of indebtedness of a nonprofit corporation to be sold to finance construction of such building, the authorization for an increase in the maximum tax rate shall not become void because of the failure of the governing board to enter into a lease pursuant to this article until three years after the date upon which this subdivision becomes effective.

This subdivision shall apply only to school districts which had an average daily attendance of 65,000 or more in the 1975–76 fiscal year.

SEC. 2. This act shall operate retroactively to the extent that it shall apply even if the election was held, or the litigation was begun, or both, before the effective date of this act.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In 1974 in at least two school districts in the state, the voters approved an increase in the maximum tax rate in order to permit the governing board to enter into a lease agreement for badly needed property. Litigation has begun and the governing board cannot now complete the agreement. Unless this act becomes operative before the close of 1977, the approval given by the voters will become void, and the district will be forced to incur the expense of another election in order to complete the agreement, once a final determination of the litigation has been made. In order to avoid this

unfortunate result, it is necessary that this act take effect immediately.

CHAPTER 1006

An act to add Chapter 10.5 (commencing with Section 25910) to Division 15 of the Public Resources Code, relating to energy conservation.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 10.5 (commencing with Section 25910) is added to Division 15 of the Public Resources Code, to read:

CHAPTER 10.5. INSULATION STANDARDS

Article 1. Intent

25910. It is the intent of the Legislature that in order to help meet future electrical and gas requirements at the least cost with the greatest reliability to the people of the state, it is necessary to immediately implement insulation programs regulated by the standards set forth in this chapter.

Article 2. Definitions

25915. (a) "Approved testing lab" means any testing facility which is determined by rule and regulation of the commission to have adequate personnel and expertise to carry out the testing of such systems.

(b) "Insulation material" means any material placed within or contiguous to a wall, ceiling, or floor of a room or building, or contiguous to the surface of any appliance or its intake or outtake mechanism, for the purpose of reducing heat transfer and thus the electrical or gas energy requirements for heating or cooling the building or operating the appliance, or reducing adverse temperature fluctuations of the building, room, or appliance.

(c) "R-value" means a measure of thermal resistance of material or composite materials. "R-value" as used here is equal to the reciprocal of the conductance of a given material, or

$$\text{R-value} = \frac{1}{\text{conductance of the material}}$$

where the conductance of the material is: Btu (hour × square foot × Fahrenheit degree average temperature difference between two surfaces).

Article 3. Regulation

25920. The commission shall, by regulation adopted no later than July 1, 1978, establish insulation material standards governing the quality of all insulation material sold or installed within the state, including those properties that affect the safety and thermal performance of insulation material during application and in the use intended. Such standards shall specify the initial performance of the insulation material and the performance expected during the design life of the insulation material.

25921. One year after the date of adoption of such standards and testing criteria and procedures, no insulation material shall be sold or installed in the state which is not certified by the manufacturer to have been tested in accordance with such standards and which does not bear a visible, commission-approved seal certifying that the insulation material meets such standards and has been tested and approved by an approved testing laboratory. Such testing procedures should be designed to determine whether insulation materials have met or exceeded minimum established standards.

25922. The commission shall, by regulation adopted no later than July 1, 1978, establish minimum standards for the amount of additional insulation (expressed in terms of R-value) installed in existing buildings. One year after the adoption of such standards, no insulation shall be installed in any existing building by a contractor unless the contractor certifies to the customer in writing that the amount of insulation (expressed in terms of R-value) meets or exceeds the minimum amount established by the standards. Such minimum standards may vary for different types of buildings or building occupancies and different climate zones in the state. Such minimum standards shall be economically feasible in that the resultant savings in energy procurement costs shall be greater than the cost of the insulation to the customer amortized over the useful life of the insulation.

Article 4. Procedure

25925. Prior to establishing the standards and procedures required by this chapter, the commission shall conduct at least two public hearings, and shall invite the State Fire Marshal, manufacturers, distributors, and licensed installers of insulation materials, and any appropriate members of the public to participate in the hearings. Immediately upon adoption of the standards and procedures, the commission shall provide a copy of the standards to the Contractors' State License Board. Within 30 days after receipt of

the commission's standards, the board shall notify all state licensed contractors who install insulation of the standards.

Article 5. Inspection and Compliance

25926. After one year following the adoption of these standards, the commission may conduct periodic inspections of manufacturers, distributors, and retailers of insulation material sold within the state in order to determine their compliance with this article. The commission may also conduct independent performance tests of insulation materials sold in the state, in order to determine compliance with its adopted standards.

25931. Any person who violates or proposes to violate this article may be enjoined by any court of competent jurisdiction. The court may make such orders or judgments, including the appointment of a receiver, as may be necessary to prevent the use or employment by any person of any practices which violate this chapter, or which may be necessary to restore to any person in interest any money or property, real or personal, which may have been acquired by means of any practice which violates any provision of this chapter.

Actions for injunction under this section may be prosecuted by the Attorney General or any district attorney, county counsel, city attorney, or city prosecutor in this state in the name of the people of the State of California upon his or her own motion or upon the complaint of any board, officer, person, corporation or association or by any person acting for the interests of itself, its members or the general public.

(a) Any person who violates any provision of this chapter shall be liable for a civil penalty not to exceed two thousand five hundred dollars ($2,500) for each violation, which shall be assessed and recovered in a civil action brought in the name of the people of the State of California by the Attorney General or by any district attorney, county counsel, city attorney, or city prosecutor in any court of competent jurisdiction.

(b) If the action is brought by the Attorney General, one-half of the penalty collected shall be paid to the treasurer of the county in which the judgment was entered, and one-half to the State Treasurer. If brought by a district attorney or county counsel, the entire amount of penalty collected shall be paid to the treasurer of the county in which the judgment was entered. If brought by a city attorney or city prosecutor, one-half of the penalty shall be paid to the treasurer of the county and one-half to the city.

(c) If the action is brought at the request of the commission, the court shall determine the reasonable expenses incurred by the commission in the investigation and prosecution of the action.

Before any penalty collected is paid out pursuant to subdivision (b), the amount of such reasonable expenses incurred by the commission shall be paid to the State Treasurer.

CHAPTER 1007

An act to amend Sections 41312, 41360, and 42031 of the Health and Safety Code, relating to housing.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 41312 of the Health and Safety Code is amended to read:

41312. For its activities under this division the president shall prepare a preliminary budget on or before December 1 of each year for the ensuing fiscal year to be reviewed by the Secretary of the Business and Transportation Agency, the Director of Finance, and the Joint Legislative Budget Committee. An analysis of the agency's proposed budget prepared by the Joint Legislative Budget Committee, together with any comments of the committee, shall be transmitted to the chairpersons of the fiscal committee of each house of the Legislature and to the chairperson of the board prior to the board's final adoption of the agency's budget.

SEC. 2. Section 41360 of the Health and Safety Code is amended to read:

41360. The California Housing Finance Fund is hereby created in the State Treasury.

Construction loan funds may be transferred to the construction lender or to the contractor as necessary to meet draws for progress payments pursuant to rules and regulations of the agency.

All money in the fund is hereby continuously appropriated to the agency for carrying out the purposes of this part, and, notwithstanding the provisions of Chapter 2 (commencing with Section 12850) of Part 2.5 of Division 3 of Title 2 of the Government Code or the provisions of Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of such division, or the provisions of Sections 11032 and 11033 of the Government Code, application of the fund shall not be subject to the supervision or budgetary approval of any other officer or division of state government. However, the agency's budget shall be reviewed as provided in Section 41312. The agency may pledge any or all of the moneys in the fund as security for payment of the principal of, and interest on, and redemption premiums on, bonds issued pursuant to this part, and, for such purpose or as necessary or convenient to the accomplishment of any other purpose of the agency, may divide the fund into separate accounts. All moneys accruing to the agency pursuant to this part from whatever source shall be deposited in the fund.

SEC. 3. Section 42031 of the Health and Safety Code is amended to read:

42031. Notwithstanding the provisions of Chapter 2 (commencing

with Section 12850) of Part 2.5 of Division 3 of Title 2 of the Government Code or the provisions of Article 2 (commencing with Section 13320) of Chapter 3 of Part 3 of such division, application of the insurance fund shall not be subject to the supervision or budgetary approval of any other officer or division of state government. However, the agency's budget respecting such fund shall be reviewed as provided in Section 41312.

SEC. 4. Sections 1, 2, and 3 of this act shall not become operative if Senate Bill No. 1123 of the 1977–78 Regular Session of the Legislature is chaptered and becomes effective January 1, 1978, and adds Sections 50913, 51000, and 51654 to the Health and Safety Code incorporating the changes which would be made by this act.

CHAPTER 1008

An act to add and repeal Chapter 5 (commencing with Section 16000) to Division 11 of the Elections Code, relating to elections.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature hereby finds and declares that the full effects of the use of central counting places cannot be realized unless early collection and processing of ballots is permitted. Because of the uncertainty of the benefits which may be realized by permitting early collection and processing of ballots in those counties utilizing central counting places, a pilot program is needed to determine the desirability of adopting a statewide authorization for such a program. Since both the County of Riverside and the County of San Diego have shown their willingness to participate in such a program, and have each passed a resolution in support of early collection and processing of ballots, the County of Riverside and the County of San Diego are hereby authorized to conduct pilot programs pursuant to the provisions of Chapter 5 (commencing with Section 16000) of Division 11 of the Elections Code.

SEC. 2. Chapter 5 (commencing with Section 16000) is added to Division 11 of the Elections Code, to read:

CHAPTER 5. EARLY PICKUP AND PROCESSING OF BALLOTS

16000. In those counties in which ballots are tabulated at a central counting place pursuant to this division and Division 12 (commencing with Section 17050), the election board may authorize the clerk to collect and process, but not to tabulate, the voted ballots of certain designated precincts prior to the close of the polls in the manner set forth in this chapter.

16001. The time for the collection of the voted ballots and the selection of the participating precincts shall be at the discretion of the county clerk.

16002. The commission shall prescribe, by regulation, the procedures to be followed in the early collection and processing of ballots.

16003. All ballot-handling functions performed between the polling place and central counting place shall be performed by teams of at least two persons. Each such person shall meet the qualifications required of a member of a precinct board and shall execute a declaration of intention to faithfully execute the duties of a precinct board member as set forth in Section 1637.

16004. The regulations of the commission shall provide a system by which all persons who handle ballots, and the number of ballots transferred from place to place, may be identified.

16005. The regulations of the commission may authorize the use of more than one ballot box or ballot container.

16006. The regulations of the commission may authorize persons other than precinct boards to process ballots and certify the number of ballots processed, cancelled, spoiled or duplicated.

16007. The regulations of the commission shall provide for the protection of the secrecy of the ballot and the prevention of premature release and tabulation of the results.

SEC. 3. The provisions of Chapter 5 (commencing with Section 16000) of Division 11 of the Elections Code shall only apply to the County of Riverside and the County of San Diego.

SEC. 4. This act shall only be operative until January 1, 1982, and as of such date is repealed.

CHAPTER 1009

An act to amend Sections 8200, 8201, 8202.5, 8203.1, 8203.4, 8204, 8205, 8206, 8207, 8209, 8212, 8213, 8213.5, 8214, 8214.1, and 12197.1 of, to add Sections 8201.1, 8214.3, 8214.4, 8214.5, 8220, 8221, 8222, 8223, 8224, 8224.1, 8225, 8227.1, 8228, and 8230 to, and to repeal Sections 8202, 8202.6, 8210, 8214.2, and 8215 of, the Government Code, relating to notaries public.

[Approved by Governor September 22, 1977. Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 8200 of the Government Code is amended to read:

8200. The Secretary of State may appoint and commission notaries public in such number as the Secretary of State deems necessary for the public convenience. Notaries public may act as such notaries in any part of this state.

SEC. 2. Section 8201 of the Government Code is amended to read:

8201. Every person appointed as notary public shall:

(a) Be at the time of appointment a legal resident of this state, except as otherwise provided in Section 8203.1.

(b) Be not less than 18 years of age.

CHAPTER 1016

An act to amend Section 2950 of, and to add Section 2950.1 to, the Health and Safety Code, and to amend Section 6409 of the Labor Code, relating to pesticide poisoning.

[Approved by Governor September 22, 1977 Filed with Secretary of State September 23, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2950 of the Health and Safety Code is amended to read:

2950. Any physician and surgeon who knows, or has reasonable cause to believe, that a patient is suffering from pesticide poisoning or any disease or condition caused by a pesticide shall promptly report such fact to the local health officer by telephone within 24 hours and by a copy of the report required pursuant to subdivision (a) of Section 6409 of the Labor Code within seven days, except that the information which is available to the physician and surgeon is all that is required to be reported as long as reasonable efforts are made to obtain such information. Each local health officer shall immediately notify the county agricultural commissioner of any such report received and shall report to the Director of Food and Agriculture, and the State Director of Health, on a form prescribed by the State Director of Health, each case reported to him pursuant to this section within seven days after receipt of any such report.

In no case shall the treatment administered for pesticide poisoning or a condition suspected as pesticide poisoning be deemed to be first aid treatment.

Any physician and surgeon who fails to comply with the reporting requirements of this section or any regulations adopted pursuant to this section shall be liable for a civil penalty of two hundred fifty dollars ($250). For the purposes of this section, failure to report a case of pesticide poisoning involving one or more employees in the same incident shall constitute a single violation. The Division of Industrial Safety of the Department of Industrial Relations shall enforce these provisions by issuance of a citation and notice of civil penalty in a manner consistent with Section 6317 of the Labor Code. Any physician and surgeon who receives a citation and notice of civil penalty may appeal to the Occupational Safety and Health Appeals Board in a manner consistent with Section 6319 of the Labor Code.

Each local health officer shall maintain the ability to receive and investigate reports of pesticide poisoning at all times pursuant to Section 12982 of the Food and Agricultural Code.

SEC. 2. Section 2950.1 is added to the Health and Safety Code, to read:

2950.1. The State Department of Health shall develop and implement, in cooperation with local health officers and state and local medical associations, a program of medical education to alert physicians and other health care professionals to the symptoms, diagnosis, treatment, and reporting of pesticide poisoning.

SEC. 3. Section 6409 of the Labor Code is amended to read:

6409. (a) Every employer, insurer and physician or surgeon who attends any injured employee shall file with the Division of Labor Statistics and Research a complete report of every injury or occupational illness to each employee arising out of or in the course of his employment unless disability resulting from such injury does not last through the day or does not require medical service other than ordinary first aid treatment. Each such report of injury or occupational illness shall indicate the social security number of the injured employee. The Division of Labor Statistics and Research may, in accordance with the provisions of Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code, adopt reasonable rules and regulations prescribing the detail and time limits of such report.

(b) In every case involving a serious injury or illness, or death, in addition to the report required in subdivision (a), a report shall be made immediately by the employer to the Division of Industrial Safety by telephone or telegraph.

(c) Serious injury or illness shall be defined as any injury or illness occurring in a place of employment or in connection with any employment which requires inpatient hospitalization for a period in excess of 24 hours for other than medical observation or in which an employee suffers loss of any member of the body or any serious degree of permanent disfigurement. Serious injury or illness or death shall not include any injury, illness or death caused by the commission of a Penal Code violation, except the violation of Penal Code Section 385, or an accident on a public street or highway.

(d) Whenever a state, county, or local fire or police agency is called to an accident involving an employee covered by this part in which a serious injury or illness, or death occurs, the nearest office of the Division of Industrial Safety shall be notified by telephone immediately by the responding agency.

(e) In no case shall the treatment administered for pesticide poisoning or a condition suspected as pesticide poisoning be deemed to be first aid treatment.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act, because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden on local government.
