(c) An appeal may be taken from the judgment of the superior court by the superintendent or by the licensee in the manner provided by law for appeals from the judgment of a superior court. CHAPTER 1170

An act to amend Sections 56271 and 56331 of, and to add Sections 56280, 56281, 56282, and 56332 to, the Food and Agricultural Code, relating to marketing of agricultural products.

[Approved by Governor September 30, 1977. Filed with Secretary of State September 30, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 56271 of the Food and Agricultural Code is amended to read:

56271. Every commission merchant, that receives any farm product for sale as a commission merchant, shall promptly make and keep a correct record which shows in detail all of the following with reference to the handling, sale, or storage of such farm product:

(a) The name and address of the consignor.

(b) The date it was received.

(c) The condition and quantity upon arrival.

(d) Date of such sale for the account of the consignor.

(e) The price for which it was sold.

(f) An itemized statement of the charges to be paid by the consignor in connection with the sale. Any services rendered for which charges are made, if not filed with the director, shall be charged at cost if not covered by a written contract. Cost-supporting data shall be available for verification.

(g) The names and addresses of all purchasers if the commission merchant has any financial interest in the business of the purchasers, or if the purchasers have any financial interest in the business of the commission merchant, directly or indirectly, as holder of the other's corporate stock, as copartner, as lender or borrower of money to or from the other, or otherwise. Such interest shall be noted in such records following the name of any such purchaser.

(h) A lot number or other identifying mark for each consignment, which number or mark shall appear on each individual farm product container, every sales tag, and other essential record which is needed

to identify each consignment from receipt through final sale.

(i) Any claim which has been or may be filed by the commission merchant against any person for overcharges or for damages which result from the injury or deterioration of such farm product by the act, neglect, or failure of such person. Such records shall be open to the inspection of the director and the consignor of the farm product for whom such claim is made

SEC 2 Section 56280 is added to the Food and Agricultural Code, to read:

56280. No charge shall be made against a consignor's account for a downward price adjustment or a reduction in quantity of farm products delivered due to a breach of contract, unless the commission merchant has, in his files, a federal-state inspection certificate, issued pursuant to the United States Agricultural Marketing Act of 1946, (7 U.S.C. 1621, et seq.), indicating the type and the extent of the substandard condition of the lot involved in such breach of contract, thereby supporting the amount charged against the consignor's account.

This section does not preclude a consignor from agreeing to a downward price adjustment or a reduction in the quantity of farm products delivered and waiving the right to inspection when such agreement was made prior to the particular shipping season of the farm product and was in writing

Such federal-state inspection certificate may be substituted by a private third-party inspection, based on the standards prescribed under the United States Agricultural Marketing Act of 1946, if the director determines, to his satisfaction, that a federal-state inspection certificate could not reasonably be obtained. In the event that the director determines, to his satisfaction, that neither a federal-state inspection certificate nor private, third-party inspection, can be reasonably obtained, a signed statement of two or more disinterested, or otherwise independent parties, who have sufficient knowledge, acquired through education or experience, to evaluate the farm product involved, may be used as substitute for such a federal-state certificate or third-party inspection, in order to make a statement as to the type and extent of the determination of the lot of farm product

As used in this section, "lot" means the farm product identified by the procedure set forth in subdivision (h) of Section 56271.

This section shall remain in effect only until January 1, 1981, and as of such date is repealed, unless a later enacted statute which is chaptered before January 1, 1981, deletes or extends such date.

SEC 3 Section 56281 is added to the Food and Agricultural Code, to read:

56281 A licensee operating as a commission merchant shall notify the consignor of any adjustment on a transaction, and provide reasons for such an adjustment, within 24 hours after the adjustment has been made In the event the commission merchant is unable to contact the consignor by telephone or in person within such 24-hour

period, such notification shall be immediately provided by certified mail

SEC 4. Section 56282 is added to the Food and Agricultural Code, to read:

56282 Notwithstanding any other provisions of this chapter, the director may disallow, to a commission merchant, all or part of, any adjustment charged back to a consignor, if the director determines that there is insufficient justification of the condition or circumstances requiring such adjustment

In determining whether there is insufficient justification for such an adjustment, the director shall consider, among other things, the following:

(a) The inspection required by Section 56280 does not support breach of contract.

(b) In view of the perishability of the farm product involved, the inspection was not timely.

(c) Market reports or other market evidence does not support a downward price adjustment

SEC 5 Section 56331 of the Food and Agricultural Code is amended to read:

56331. (a) Every licensee operating as a broker, upon negotiating the sale of farm products, shall issue to both buyer and seller a written memorandum of sale, before the close of the next business day, showing price, date of delivery, quality, and all other details concerned in the transaction

(b) The memorandum required by subdivision (a) shall have an individual identifying number printed upon it The numbers shall be organized and printed on the memoranda so that each memorandum can be identified and accounted for sequentially. Unused or damaged memoranda shall be retained by the broker for accounting purposes

SEC 6. Section 56332 is added to the Food and Agricultural Code, to read·

56332. A licensee operating as a broker shall not alter the terms of the transaction as specified on his original memorandum of sale without the consent of both parties to the transaction. Upon making such change, the broker is required to issue a clearly marked corrected memorandum of sale, which shall clearly indicate the date and time when such adjustment or change was made, and shall transmit such corrected memorandum to both buyer and seller before the close of the next business day.

SEC 7. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes

For purposes of this subdivision "adequate security" includes, but need not be limited to, a first lien on any property purchased with loan fund moneys, a promissory note, or an assignment of a land option, except that in the case of Indian trust land a mortgage on a leasehold interest in the property shall be acceptable

(2) The department may reduce or eliminate interest on the loans, if, in the exercise of sound discretion, the department determines such action is necessary for the provision of decent housing to very low-income households. (d) In complying with the provisions of Section 41109, the department shall also report annually to the Legislature and the Governor on the administration of the loan fund. If the secretary submits such written findings on or before January 31, 1980, and determines that the loan fund is not being used for the purposes intended or is ineffective in promoting the development of assisted housing for persons of low income, then he may terminate the department's authority to loan moneys from the loan fund effective January 31, 1980, in which case the loan fund shall be dissolved on January 1, 1981, and all moneys therein, or payable thereto under this chapter, shall be paid into the General Fund in the State Treasury.

Such findings shall also contain an evaluation of whether or not the amount of moneys in the loan fund is appropriate to accomplish the purposes of this chapter. Such written findings shall be submitted to the Speaker of the Assembly and the President pro Tempore of the Senate and the chairman of the committee in each house which considers appropriations on or before January 31, 1980.

If the secretary submits such written findings on or before January 31, 1980, and determines that the loan fund is not being used for the purposes intended or is ineffective in promoting the development of assisted housing for persons of low income, then he may terminate the department's authority to loan moneys from the loan fund effective January 31, 1980, in which case the loan fund shall be dissolved on January 1, 1981, and all moneys therein, or payable thereto under this chapter, shall be paid into the General Fund in the State Treasury.

An act to amend Sections 51070, 51075, 51080, 51083, 51084, 51085, 51086, 51087, 51090, 51091, 51092, 51093, 51094, and 51095 of, and to add Section 51083.5 to, the Government Code, and to amend Sections 421 and 426 of the Revenue and Taxation Code, relating to open-space easements.

[Approved by Governor September 30, 1977. Filed with Secretary of State September 30, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 51070 of the Government Code is amended to read:

51070. It is the intent of the Legislature in enacting this chapter to provide a means whereby any county or city may acquire or approve an open-space easement in perpetuity or for a term of years for the purpose of preserving and maintaining open space.

SEC. 2. Section 51075 of the Government Code is amended to read:

51075. As used in this chapter, unless otherwise apparent from the context:

(a) "Open-space land" means any parcel or area of land or water which is essentially unimproved and devoted to an open-space use as defined in Section 65560 of the Government Code.

(b) "City" means any city or city and county.

(c) "Landowner" includes a lessee or trustee, if the expiration of the lease or trust occurs at a time later than the expiration of the open-space restriction or any extension thereof.

(d) "Open-space easement" means any right or interest in perpetuity or for a term of years in open-space land acquired by a county, city, or nonprofit organization pursuant to this chapter where the deed or other instrument granting such right or interest imposes restrictions which, through limitation of future use, will effectively preserve for public use or enjoyment the natural or scenic character of such open-space land. An open-space easement shall contain a covenant with the county, city, or nonprofit organization running with the land, either in perpetuity or for a term of years, that the landowner shall not construct or permit the construction of improvements except those for which the right is expressly reserved in the instrument provided that such reservation would not be inconsistent with the purposes of this chapter and which would not be incompatible with maintaining and preserving the natural or scenic character of the land. Any such covenant shall not prohibit the construction of either public service facilities installed for the benefit of the land subject to such covenant or public service facilities installed pursuant to an authorization by the governing body of the county or city or the Public Utilities Commission.

(e) "Open-space plan" means the open-space element of a county

or city general plan adopted by the local governing body pursuant to Section 65560 of the Government Code

(f) "Nonprofit organization" means any organization qualifying under Section 501(c)(3) of the Internal Revenue Code in the preceding tax year, and which includes the preservation of open space as a stated purpose in its articles of incorporation. Such qualification shall be demonstrated by a letter of determination from the Internal Revenue Service.

SEC 3 Section 51080 of the Government Code is amended to read:

51080. Any county or city which has an adopted open-space plan may accept or approve a grant of an open-space easement on privately owned lands lying within the county or city in the manner provided in this chapter.

SEC 4. Section 51083 of the Government Code is amended to read:

51083. No deed or other instrument described in subdivision (d) of Section 51075 shall be effective until it has been accepted or approved by resolution of the governing body of the county or city and its acceptance endorsed thereon.

SEC. 5. Section 51083.5 is added to the Government Code, to read:

51083.5. Notwithstanding any provisions of this chapter, the grant of any easement to a nonprofit organization shall be effective upon its acceptance by such organization. However, for the purposes of this chapter and Sections 421 to 432, inclusive, of the Revenue and Taxation Code, no such easement shall be considered as granted pursuant to this chapter unless the grant of such easement has been approved by the county or city in which the land lies pursuant to the provisions of this article.

SEC. 6. Section 51084 of the Government Code is amended to read:

51084. No grant of an open-space easement shall be accepted or approved by a county or city, unless the governing body, by resolution, finds:

(a) That the preservation of the land as open space is consistent with the general plan of the county or city; and

(b) That the preservation of the land as open space is in the best interest of the county or city and specifically because one or more of the following reasons exist:

(1) That the land is essentially unimproved and if retained in its natural state has either scenic value to the public, or is valuable as a watershed or as a wildlife preserve, and the instrument contains appropriate covenants to that end.

(2) It is in the public interest that the land be retained as open space because such land either will add to the amenities of living in neighboring urbanized areas or will help preserve the rural character of the area in which the land is located.

(3) The public interest will otherwise be served in a manner recited in the resolution and consistent with the purposes of this subdivision and Section 8 of Article XIII of the Constitution of the State of California.

The resolution of the governing body shall establish a conclusive

presumption that the conditions set forth in subdivisions (a) and (b) have been satisfied.

SEC 7. Section 51085 of the Government Code is amended to read

51085. The governing body of the county or city may not accept or approve any grant of an open-space easement until the matter has first been referred to the county or city planning department or planning commission and a report thereon has been received from the planning department or planning commission. Within 30 days after receiving the proposal to accept or approve a grant of an open-space easement, the planning department or planning commission shall submit its report to the governing body. The governing body may extend the time for submitting such a report for an additional period not exceeding 30 days. The report shall specify whether the proposal is consistent with the general plan of the jurisdiction.

SEC 8 Section 51086 of the Government Code is amended to read·

51086. (a) From and after the time when an open-space easement has been accepted or approved by the county or city and its acceptance or approval endorsed thereon, no building permit may be issued for any structure which would violate the easement and the county or city shall seek by appropriate proceedings an injunction against any threatened construction or other development or activity on the land which would violate the easement and shall seek a mandatory injunction requiring the removal of any structure erected in violation of the easement

In the event the county or city fails to seek an injunction against any threatened construction or other development or activity on the land which would violate the easement or to seek a mandatory injunction requiring the removal of any structure erected in violation of the easement, or if the county or city should construct any structure or development or conduct or permit any activity in violation of the easement, the owner of any property within the county or city, or any resident thereof, may, by appropriate proceedings, seek such an injunction.

(b) In the case of an open-space easement granted to a nonprofit organization pursuant to this chapter, such organization shall seek, through its official representatives, an injunction against any threatened construction or other development or activity on the land which would violate the easement and shall seek a mandatory injunction requiring the removal of any structure erected in violation of the easement

(c) The court may award to a plaintiff or defendant who prevails in an action authorized by this section his or her costs of litigation, including reasonable attorney's fees

(d) Nothing in this chapter shall limit the power of the state, or any department or agency thereof, or any county, city, school district, or any other local public district, agency or entity, or any

other person authorized by law, to acquire land subject to an open-space easement by eminent domain.

SEC. 9 Section 51087 of the Government Code is amended to read:

51087 Upon the acceptance or approval of any instrument creating an open-space easement the clerk of the governing body shall record the same in the office of the county recorder and file a copy thereof with the county assessor. From and after the time of such recordation such easement shall impart such notice thereof to all persons as is afforded by the recording laws of this state.

SEC. 10. Section 51090 of the Government Code is amended to read·

Abandonment of an easement granted to the county or city pursuant to this chapter shall be controlled by Section 51093

Abandonment or nonrenewal of an easement granted to a nonprofit organization pursuant to this chapter shall be effective only if approved by appropriate resolution of the governing body of such organization and such abandonment or nonrenewal initiated by a nonprofit organization has been approved by the county or city in which the land lies in the manner provided in Section 51093.

SEC. 11. Section 51091 of the Government Code is amended to read:

51091 If either the landowner or the county, city, or nonprofit organization desires in any year not to renew the open-space easement, that party shall serve written notice of nonrenewal of the easement upon the other party at least 90 days in advance of the annual renewal date of the open-space easement Unless such written notice is served at least 90 days in advance of the renewal date, the open-space easement shall be considered renewed as provided in Section 51081

Upon receipt by the owner of a notice from the county, city, or nonprofit organization of nonrenewal, the owner may make a written protest of the notice of nonrenewal The county, city, or nonprofit organization may, at any time prior to the renewal date, withdraw the notice of nonrenewal

SEC 13 Section 51093 of the Government Code is amended to

read:

51093. (a) The landowner may petition the governing body of the county or city for abandonment of any open-space easement or in the case of an open-space easement granted to a nonprofit organization pursuant to this chapter, for approval of abandonment by such organization, as to all of the subject land. The governing body may approve the abandonment of an open-space easement only if, by resolution, it finds:

(1) That no public purpose described in Section 51084 will be served by keeping the land as open space; and

(2) That the abandonment is not inconsistent with the purposes of this chapter; and

(3) That the abandonment is consistent with the local general plan, and

(4) That the abandonment is necessary to avoid a substantial financial hardship to the landowner due to involuntary factors unique to him.

No resolution abandoning an open-space easement, or approving the abandonment of an open-space easement granted to a nonprofit organization pursuant to this chapter, shall be finally adopted until the matter has been referred to the county or city planning commission, the commission has held a public hearing thereon and furnished a report on the matter to the governing body stating whether the abandonment is consistent with the local general plan and the governing body has held at least one public hearing thereon after giving 30 days' notice thereof by publication in accordance with Section 6061 of the Government Code, and by posting notice on the land

(b) Prior to approval of the resolution abandoning or approving the abandonment of an open-space easement, the county assessor of the county in which the land subject to the open-space easement is located shall determine the full cash value of the land as though it were free of the open-space easement. The assessor shall multiply such value by 25 percent, and shall certify the product to the governing body as the abandonment valuation of the land for the purpose of determining the abandonment fee

(c) Prior to giving approval to the abandonment of any open-space easement, the governing body shall determine and certify to the county auditor the amount of the abandonment fee which the landowner must pay the county treasurer upon abandonment. That fee shall be an amount equal to 50 percent of the abandonment valuation of the property.

(d) Any sum collected pursuant to this section shall be transmitted by the county treasurer to the State Controller and be deposited in the State General Fund.

(e) An abandonment shall not become effective until the abandonment fee has been paid in full.

SEC 14. Section 51094 of the Government Code is amended to read

51094. Upon the recording in the office of the county recorder of a certified copy of a resolution abandoning or approving the abandonment of an open-space easement and reciting compliance with the provisions of Section 51093, the land subject thereto shall be deemed relieved of the easement and the covenants of the owner contained therein shall be deemed terminated; provided, however, that no certified copy of any resolution abandoning or approving the abandonment of an open-space easement shall be recorded until the abandonment fee has been paid in full

SEC. 15. Section 51095 of the Government Code is amended to read.

51095 If any land or a portion thereof as to which any city or county has accepted or approved an open-space easement pursuant to this chapter is thereafter sought to be condemned for public use and the easement was received as a gift without the payment of any compensation therefor, the easement shall terminate as of the time of the filing of the complaint in condemnation as to the land or portion thereof sought to be taken for public use, and the owner shall be entitled to such compensation for the taking as he would have been entitled to had the land not been burdened by the easement.

1755. The Legislature finds and declares all of the following:

(a) That it is the policy of this state:

(4) To provide for aesthetic, educational, and nonappropriative uses of the various wildlife and native plant species.

(b) That the conservation and enhancement of wildlife species which are not the object of hunting and native plant species is in the general public interest and it is appropriate that the cost of programs to achieve such conservation and enhancement, including the biological and botanical research necessary thereto, and the diffusion of the information resulting therefrom to the public, be borne to the extent necessary by general public funds.

SEC. 3. Section 1756 of the Fish and Game Code is amended to read:

SEC. 8. Chapter 10 (commencing with Section 1900) is added to Division 2 of the Fish and Game Code, to read:

CHAPTER 10. NATIVE PLANT PROTECTION

1900. The intent of the Legislature and the purpose of this chapter is to preserve, protect and enhance endangered or rare native plants of this state.

The Legislature finds that many species and subspecies of native plants are endangered because their habitats are threatened with destruction, drastic modification, or severe curtailment, or because of commercial exploitation or by other means, or because of disease or other factors.

1901 The department shall establish criteria for determining if a species, subspecies, or variety of native plant is endangered or rare. As used in this chapter, "native plant" means a plant growing in a wild uncultivated state which is normally found native to the plantlife of this state. A species, subspecies, or variety is endangered when its prospects of survival and reproduction are in immediate jeopardy from one or more causes. A species, subspecies, or variety is rare when, although not presently threatened with extinction, it is in such small numbers throughout its range that it may become endangered if its present environment worsens.

1902 The department, in cooperation with federal, state, and local agencies, educational institutions, civic and public interest organizations, and private organizations and individuals, shall periodically inventory threatened native plants of the state. Such inventory shall include, but is not limited to, an enumeration of the threatened native plants of the state and a determination of the condition of each species with respect to its being endangered or rare, or becoming endangered or rare.

1903. The department shall submit to the Governor and the Legislature biennially, not later than January 1, the first of which shall be submitted no later than January 1, 1980, a full and accurate report of the inventory, including recommendations for: (a) The addition or deletior of endangered and rare species. (b) Preserving, protecting, and enhancing the conditions of endangered and rare species of native plants of the state, including the habitat critical to their continued survival

1904. The commission may. after public hearing, designate endangered and rare native plants. To the extent that the location of such plants is known, the department shall notify the owners of such land of the fact that a rare or endangered native plant is growing thereon and provide such information about the protection of such plants as may be appropriate.

1905 The department may undertake botanical research and field investigations and may collect and diffuse such statistics and information as sha l pertain to the conservation, protection, and perpetuation of native plants

1906. Nothing in this code or any other law shall prohibit the department from taking, for scientific or propagation purposes, any species of native plants. The department may import, propagate, and distribute native plants

1907. (a) The commission may adopt regulations governing the taking, possession, propagation, transportation, exportation, importation, or sale of any endangered or rare native plants. Such regulations may include, but shall not be limited to, requirements for persons who perform any of the foregoing activities to maintain written records and to obtain permits which may be issued by the department.

(b) Persons engaged in the production, storage, sale, delivery, or transportation of nursery stock pursuant to the provisions of Part 3 (commencing with Section 6701) of Division 4 of the Food and Agricultural Code shall not be required to obtain a permit pursuant to this chapter unless such activities involve the collection of rare or endangered plants or parts or products thereof growing in a wild, uncultivated state.

(c) Persons who purchase nursery grown stock shall not be required to obtain a permit pursuant to this chapter.

1908. No person shall import into this state, or take, possess, or sell within this state, except as incident to the possession or sale of the real property on which the plant is growing, any native plant, or any

part or product thereof, that the commission determines to be an endangered native plant or rare native plant, except as otherwise provided in this chapter.

1909 When any power or authority is given by any provision of this chapter to any person, it may be exercised by any deputy, inspector, or agent duly authorized by such person Any person in whom the enforcement of any provision of this chapter is vested has the power of a peace officer as to such enforcement, which shall include state and federal agencies, and the State of Nevada, State of Oregon, or State of Arizona with which cooperative agreements have been made by the department to enforce any provisions of this chapter.

1910. A peace officer or an employee or agent of the department may, in the enforcement of this chapter, make arrests without warrant for a violation of this chapter he may witness, and may confiscate plants or parts thereof when unlawfully taken, transported, possessed, sold, or otherwise, in violation of this chapter The provisions of this chapter are in addition to the provisions of Section 384a of the Penal Code.

1911. All state departments and agencies shall, in consultation with the department, utilize their authority in furtherance of the purposes of this chapter by carrying out programs for the conservation of endangered or rare native plants Such programs include, but are not limited to, the identification, delineation and protection of habitat critical to the continued survival of endangered or rare native plants.

1912. The provisions of this chapter shall not be applicable to emergency work necessary to protect life or property; however, notification by the person or agency performing such emergency work shall be made to the department within 14 days of the commencement of such work.

1913. (a) The provisions of this chapter are not intended and shall not be construed as authorizing any public agency to mandate, prescribe, or otherwise regulate agricultural operations or management practices, including the clearing of land for agricultural practices or fire control measures.

(b) Notwithstanding the provisions of Section 1911, timber operations in accordance with a timber harvesting plan submitted pursuant to the provisions of the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511 of the Public Resources Code), or required mining assessment work pursuant to federal or state mining laws, or the removal of endangered or rare native plants from a canal, lateral ditch, building site, or road, or other right-of-way by the owner of the land or his agent, or the performance by a public agency or a publicly or privately owned public utility of its obligation to provide service to the public, shall not be restricted by this chapter because of the presence of rare or endangered plants, except as provided in subdivision (c) of this section

(c) Notwithstanding the provisions of subdivisions (a) and (b) of

this section, where the owner of land has been notified by the department pursuant to Section 1903.5 that a rare or endangered native plant is growing on such land, the owner shall notify the department at least 10 days in advance of changing the land use to allow for salvage of such plant. The failure by the department to salvage such plant within 10 days of notification shall entitle the owner of the land to proceed without regard to this chapter Submission of a timber harvesting plan pursuant to the Z'berg-Nejedly Forest Practice Act of 1973 (commencing with Section 4511 of the Public Resources Code) shall constitute notice under this section. Converting from one type of agricultural use, as defined in Section 51201 of the Government Code, to another type of agricultural use shall not constitute a change in land use.

SEC. 9. Section 5093.33 of the Public Resources Code is amended to read:

5093.33. (a) There is hereby established a California wilderness preservation system to be composed of state-owned areas designated by the Legislature as "wilderness areas" and units of the state park system classified as "state wildernesses" by the State Park and Recreation Commission pursuant to Section 5001 5, and these shall be administered for the use and enjoyment of the people in such manner as will leave them unimpaired for future use and enjoyment as wilderness, provide for the protection of such areas, preserve their wilderness character, and provide for the gathering and dissemination of information regarding their use and enjoyment as wilderness. No state-owned areas shall be designated as "wilderness areas" except as provided for in this chapter or by subsequent legislative enactment.

(b) Notwithstanding the inclusion of an area within the system, a wilderness area shall continue to be subject to the jurisdiction of the state agency or agencies having jurisdiction thereover immediately prior to its inclusion in the system. The secretary shall adopt guidelines for the management of wilderness areas. Each state agency or agencies having jurisdiction over a wilderness area shall adopt regulations for the management of such areas consistent with the guidelines adopted by the secretary and the objectives of this chapter. Such regulations shall include provisions to protect endangered or rare native plant and animal species.

(c) A wilderness area, in contrast to those areas where man and his own works dominate the landscape, is hereby recognized as an area where the earth and its community of life are untrammeled by man, where man himself is a visitor who does not remain. A wilderness area is further defined to mean an area of relatively undeveloped state-owned land which has retained its primeval character and influence or has been substantially restored to a near natural appearance, without permanent improvements or human habitation, other than semi-improved campgrounds and primitive latrines, and which is protected and managed so as to preserve its natural conditions and which:

(1) Appears generally to have been affected primarily by the forces of nature, with the imprint of mans work substantially unnoticeable.

(2) Has outstanding opportunities for solitude or a primitive and unconfined type of recreation.

(3) Has at least 5,000 acres of land, either by itself or in combination with contiguous areas possessing wilderness characteristics, or is of sufficient size as to make practicable its preservation and use in an unimpaired condition.

(4) May also contain ecological, geological, or other features of scientific, educational, scenic, or historical value.

SEC. 10. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

SEC. 11. The sum of seventy-five thousand dollars ($75,000) is appropriated from the General Fund to the Department of Fish and Game for expenditure during fiscal year 1977–78 for the purposes of this act.

CHAPTER 1182

An act to amend Section 754 of, the Evidence Code, relating to interpreters for the deaf.

[Approved by Governor September 30, 1977 Filed with Secretary of State September 30, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 754 of the Evidence Code is amended to read:

754. (a) As used in this section, "deaf person" means a person with a hearing loss so great as to prevent his understanding language spoken in a normal tone.

(b) In any criminal action, including any juvenile case or proceeding, or any proceeding to determine the mental competency of a person, or any administrative hearing, where a party or witness is a deaf person and such deaf person is required to be present, the proceedings shall be interpreted in a language that the deaf person understands by a qualified interpreter appointed by the court, tribunal, or hearing officer, or as agreed upon by the parties.

(c) For the purposes of this section, "qualified interpreter" shall mean only a person who meets both of the following criteria:

(1) Has been issued a certificate of competency by the National

Registry of Interpreters for the Deaf, or by a state group affiliated with the National Registry of Interpreters for the Deaf, or by any other group determ ned by the Judicial Council to possess a level of competence in training, testing, and certification of interpreters for the deaf equivalent to that of the National Registry of Interpreters for the Deaf, which certificate has been determined by the issuing agency to be appropriate for the purpose of interpreting the proceedings specified in subdivision (b); and

(2) Has been included on a list of recommended court interpreters which shall be established by the superior court in each county

(d) In the event that the only available interpreter is not considered to possess adequate interpreting skills for the particular situation, or the interpreter is not familiar with use of slang, the deaf person may be permitted by the court, tribunal, or hearing officer to nominate another person to act as intermediary between himself and the appointed qualified interpreter during the proceedings

(e) Persons appointed to serve as interpreters under this section shall be paid, in addition to actual travel costs, the prevailing rate paid to persons employed by the court to provide other interpreter services unless such service is considered to be a part of the person's regular duties as an employee of the state, county, or other political subdivision of the state. Payment of the interpreter's fee shall be a charge against the county, or other political subdivision of the state, in which such action is pending. Payment of the interpreter's fee in administrative proceedings shall be a charge against the appointing board, agency, commission or licensing authority.

(f) No statement, written or oral, made by a person who is deaf in reply to a question of a peace officer, or any other person having prosecutorial function in any criminal or quasi-criminal proceeding, may be used against that deaf person unless either the statement was made or elicited through a qualified interpreter and was made knowingly, voluntarily, and intelligently, or the court makes a special finding that any statement made by a deaf person was made knowingly, voluntarily, and intelligently.

(g) In any action or proceeding in which a deaf person is a participant, the court or administrative authority shall not commence proceedings until the appointed interpreter is in full view of and spatially situated to assure proper communication with the deaf person or persons involved as participants.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not place any financial burden on local government.

CHAPTER 1183

An act to amend Section 251 of, and to add Sections 229 and 268 to, the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 30, 1977 Filed with Secretary of State September 30, 1977]

The people of the State of California do enact as follows:

SECTION 1 The Legislature finds and declares.

(a) Existing local, state and federal programs provide low interest loans for people who wish to rehabilitate their residences.

(b) In the absence of these programs, many residential dwellings and the neighborhoods in which they are located will continue to deteriorate unless a method is provided encouraging the use of state and federal rehabilitation programs

(c) Residential property owners tend to avoid private and public residential rehabilitation loan programs because of potential property tax increase due to rehabilitation. Consequently, such programs are not used to the fullest extent and residential areas continue to deteriorate.

(d) Creating a property tax deferral assessment program to be used in neighborhood rehabilitation areas will encourage people to use rehabilitation to improve their property, thereby improving the conditions of the neighborhood in general.

SEC. 2. Section 229 is added to the Revenue and Taxation Code, to read:

229. (a) That portion of the full value of a qualified dwelling which exceeds the full value of such dwelling prior to the rehabilitation of such dwelling, as determined by the assessor pursuant to subdivision (b) of Section 268, shall be exempt from taxation; provided that the amount of such exemption shall not exceed fifteen thousand dollars ($15,000) of the full value of each dwelling unit.

(b) This exemption shall apply to property for five fiscal years commencing with the fiscal year following the completion of rehabilitation of the qualified dwelling; provided that this exemption shall only apply after a claim for such exemption is filed pursuant to subdivision (c) of Section 268.

(c) An exemption for any further rehabilitation shall not be available during the five fiscal years in which a portion of the assessed value of a dwelling is exempt under subdivision (a)

(d) For the purposes of this section.

(1) "Qualified dwelling" means any residential structure of one or more dwelling units, which is within an area designated in subdivision (e).

(2) "Rehabilitation" means any repairs or improvements to a dwelling which will make such dwelling decent, safe and sanitary

and which are necessary in order for such dwelling to meet applicable state and local building and housing standards.

(e) This exemption shall only apply to property contained within an area which is:

(1) Designated by a local agency as part of such agency's community development block grant program under the Federal Housing and Community Development Act of 1974; or

(2) Designated by a local agency as an area of neighborhood revitalization in a program in which such agency is committing its own funds to neighborhood improvement, or

(3) Designated as neighborhood preservation areas by a local agency pursuant to a preservation program administered by the California Housing Finance Agency; or

(4) Designated as a historic preservation area under a local, state, or federal historic preservation program

(f) The exemption provided for in this section shall be known as the "residential rehabilitation exemption."

(g) With respect to properties rehabilitated with assistance from the California Housing Finance Agency, the residential rehabilitation exemption shall be considered in fixing rents as provided in Health and Safety Code Sections 41480 and 41482, so that, to the greatest extent possible, the benefits of the exemption accrue to tenants and prevent displacement of such tenants.

With respect to properties rehabilitated with assistance from a local agency pursuant to the authority established in Health and Safety Code Section 37910 and following, the residential rehabilitation exemption shall be considered in fixing rents as provided in Health and Safety Code Section 37922.5, so that, to the greatest extent possible, the benefits of the exemption accrue to tenants and prevent displacement of such tenants.

With respect to properties rehabilitated with assistance from a local agency utilizing federal funds, the residential rehabilitation exemption shall be considered in fixing rents, in those instances in which the local agency and the property owner have signed an agreement with respect to rental rates, so that, to the greatest extent possible, the benefits of the exemption accrue to tenants and prevent displacement of such tenants.

With respect to the properties rehabilitated with assistance from a local agency pursuant to the authority established under Health and Safety Code Section 37600 and following, the residential rehabilitation exemption shall be considered in fixing rents pursuant to Health and Safety Code Section 37627(6), so that to the greatest extent possible, the benefits of the exemption accrue to tenants and prevent displacement to such tenants.

SEC. 3. Section 251 of the Revenue and Taxation Code is amended to read:

251. The board shall prescribe all procedures and forms required to carry into effect the veterans', veterans' organization, church, cemetery, college, exhibition, immature forest trees, welfare, free

public libraries, free museums, public school, homeowners, residential rehabilitation, and transshipment property tax exemption.

SEC. 4. Section 268 is added to the Revenue and Taxation Code, to read.

268. (a) Any person who intends to claim the residential rehabilitation exemption shall, prior to commencing rehabilitation of the dwelling, file with the assessor an affidavit that such property is within an area which qualifies for such exemption and that rehabilitation of such dwelling will commence not later than six months after the date such affidavit is filed.

(b) The assessor, upon receipt of the affidavit, shall determine the full value of the dwelling prior to rehabilitation of such dwelling. Rehabilitation which is eligible for an exemption pursuant to subdivision (a) of Section 229 shall not commence prior to the determination of full value by the assessor.

(c) Upon completion of such rehabilitation, the owner or assessee of such property may file a claim with the assessor for the exemption under Section 229. Such claim may be filed at any time but not later than March 15 preceding the first fiscal year for which such exemption is claimed.

(d) The assessor, upon receipt of the claim for exemption pursuant to subdivision (c) shall determine the full value of such dwelling and shall determine the increased full value of such dwelling attributable to the rehabilitation of such dwelling for purposes of Section 229.

(e) The owner or assessee of property exempted pursuant to this section may claim an adjustment of any property valuation made under this section in the manner provided in Chapter 1 (commencing with Section 1601) of Part 3.

SEC. 5. Notwithstanding Sections 2229 and 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to such sections nor shall there be an appropriation made by this act because (1) this act will not become operative unless Senate Constitutional Amendment 29 of the 1977–78 Regular Session of the Legislature is approved by the voters, (2) if Senate Constitutional Amendment 29 is approved, any costs which are incurred by local agencies will not be incurred until the 1978–79 fiscal year and (3) the local revenue gains attributable to this act will offset local revenue losses. It is the intent of the Legislature to appropriate the necessary funds in the 1978–79 Budget in order to reimburse such local costs incurred by local governments as required by Section 2231 of the Revenue and Taxation Code.

SEC. 6. This act shall only become operative if Senate Constitutional Amendment 29 of the 1977–78 Regular Session of the Legislature is approved by the voters; in which case the provisions of this act shall be operative on the effective date of such Senate Constitutional Amendment 29.

CHAPTER 1184

The leasing of such property shall be by competitive bid, and the lease shall be awarded for the highest responsible bid. Any lease entered into pursuant to this section shall be subject to Section 15862 of the Government Code. Notwithstanding the provisions of Section 15863 of the Government Code, all rent accruing from any such lease after jurisdiction over the property is transferred to the department pursuant to subdivision (c) shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 38270 of the Vehicle Code.

(c) Upon acquisition of the property, the Director of General

The director may impose such terms and conditions upon such use as the director deems necessary and proper. The dates of such use shall be selected each year prior to January 1 and shall be subject to the approval of the Director of Parks and Recreation

(d) If the Director of General Services determines that it is necessary, in order to purchase the property, to offer to the person from whom it is being purchased an option to lease back all or part of such property, the director may make such an offer if the Director of Parks and Recreation determines at the time of the purchase that the property is not then needed for the purposes of the state park system and will not be needed for the term of the lease thus offered. At any time after the option expires the Director of General Services may offer, under competitive bidding procedures, all or part of such property for lease if the Director of Parks and Recreation determines at that time it is not then needed for the purposes of the state park system and will not be needed for the term of the lease to be offered Any lease entered into pursuant to this section shall be subject to Section 15862 of the Government Code. Notwithstanding the provisions of Section 15863 of the Government Code, all rent accruing from any such lease after jurisdiction over the property is transferred to the Department of Parks and Recreation pursuant to subdivision (c) shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 38270 of the Vehicle Code

(e) Any fees or other returns collected by the department in its administration of such unit shall be paid into the State Treasury to the credit of the Off-Highway Vehicle Fund and shall be available for expenditure only for the purposes specified in subdivision (b) of Section 38270 of the Vehicle Code.

Federal financial participation in providing such services shall not be claimed to the extent that the exemption from financial responsibility provided by this section is inconsistent with federal law.

16561. No county welfare department of a demonstration county shall require a pregnant minor to be adjudged a dependent child of the court under Section 300 or require the parents or guardians of the minor to consent to such action as a condition for agreeing to place such person in a maternity home pursuant to this chapter.

Article 11 Temporary Pricing Authority

61581 The Legislature hereby finds and declares

(a) Since 1937, the director has established minimum wholesale and minimum retail prices for packaged milk under the provisions of Chapter 2 (commencing with Section 61801) of this part.

(b) The provisions of this article are intended to effectuate the purposes stated in Article 3 (commencing with Section 61341) of this chapter; to provide an orderly transition in the dairy industry from a long period of public establishment of minimum wholesale and minimum retail prices for packaged milk to a period where prices for such milk will be determined by open competition, subject to the provisions of this chapter; and to prevent the development of monopoly and destructive trade practices

61582 The director may, after investigation and public hearing, find and determine that within one or more sales areas, as to packaged milk, severe market disruption exists which prevents effectuation of the purposes and policies of this chapter and which tends to foster monopoly and other destructive trade practices In the event of such finding, the director may, for a temporary period of 90 days, declare in effect minimum wholesale or minimum retail prices, or both, for packaged milk, and enforce such minimum prices in the manner provided in Article 10 (commencing with Section 61571) of this chapter The director may extend such 90-day period, after public hearing, by one or more successive 90-day periods.

61583. The director, in establishing any minimum wholesale or minimum retail prices, or both, for packaged market milk under this article shall take into consideration the purposes and policies of this chapter and of Chapter 2 (commencing with Section 61801) of this part, and such evidence of reasonable and necessary costs of handling of packaged milk by distributors, retail stores and wholesale customers as is introduced before the director at public hearings held under this article

61584. For the purposes of this article:

(a) "Minimum wholesale prices" means the prices at which packaged milk shall be sold by distributors to wholesale customers;

(b) "Minimum retail prices" means the prices at which packaged milk shall be sold by distributors and retail stores to consumers.

SEC. 4. Chapter 2 (commencing with Section 61801) of Part 3 of Division 21 of the Food and Agricultural Code is repealed.

SEC. 5. Chapter 2 (commencing with Section 61801) is added to Part 3 of Division 21 of the Food and Agricultural Code, to read

CHAPTER 2. STABILIZATION AND MARKETING OF MARKET MILK

Article 1 Legislative Declarations

61801. The production and distribution of market milk and the dissemination of accurate, scientific information as to the importance of market milk and other dairy products in the maintenance of a high level of public health, is hereby declared to be a business affected with a public interest The provisions of this chapter are enacted in the exercise of police powers of this state for the purpose of protecting the health and welfare of the people of this state.

61802. The Legislature hereby declares all of the following:

(a) Market milk is a necessary article of food for human consumption.

(b) The production and maintenance of an adequate supply of healthful market milk of proper chemical and physical content, free from contamination, is vital to the public health and welfare, and the production, transportation, processing, storage, distribution, or sale of market milk in this state is an industry affecting the public health and welfare.

(c) Unfair, unjust, destructive, and demoralizing trade practices have been carried on, are now being carried on, and because of the perishable quality of milk, the nature of milk production, the varying seasonal production and demand factors and other economic factors affecting the milk industry, the potential exists for the resumption and furtherance of such practices, in the absence of regulation, in the production, marketing, sale, processing, or distribution of market milk which constitute a constant menace to the health and welfare of the inhabitants of this state and tend to undermine sanitary regulations and standards of content and purity, however effectually such sanitary regulations may be enforced

(d) Health regulations alone are insufficient to prevent disturbances in the milk industry which threaten to destroy and seriously impair the future supply of market milk, and to safeguard the consuming public from future inadequacy of a supply of this necessary commodity.

(e) It is the policy of this state to promote, foster, and encourage the intelligent production and orderly marketing of commodities necessary to its citizens, including market milk, and to eliminate speculation, waste, improper marketing, unfair and destructive trade practices, and improper accounting for market milk purchased from producers.

(f) It is recognized by the Legislature that the economic factors concerning the production, marketing, sale, processing and distribution of market milk in California may be affected by the national market for milk for manufacturing purposes.

(g) It is recognized by the Legislature that in recent years the supply of manufacturing milk in California, as defined in Section 32059, has consistently declined and continues to decline, and that market milk has virtually supplanted manufacturing milk for manufacturing purposes in this state, and that it is therefore in the public interest to conform the pricing standards governing minimum producer prices for market milk established under this chapter to current economic conditions

61803 It is recognized by the Legislature that conditions within the milk industry of this state are such that it is necessary to establish marketing areas wherein different prices and regulations are necessary, and for that purpose the director shall have the administrative authority, with such additional duties as are herein prescribed, after investigation and public hearing, to prescribe such marketing areas and modify the same when advisable or necessary.

61804 The foregoing statements in this article of facts, policy, and application of this chapter are hereby declared a matter of legislative determination.

61805. The purposes of this chapter are to do all of the following:

(a) Provide funds for administration and enforcement of this chapter, by assessments to be paid by producers and handlers of market milk in the manner prescribed in this chapter.

(b) Authorize and enable the director to prescribe marketing areas and to determine minimum prices to be paid to producers by handlers for market milk which are necessary due to varying factors of costs of production, health regulations, transportation and other factors in such marketing areas of this state. In determining minimum prices to be paid producers by handlers, the director shall endeavor under like conditions to achieve uniformity of cost to handlers for market milk within any marketing area; provided, however, that no minimum prices established or determined under the provisions of this chapter shall be invalid because uniformity of cost to handlers for market milk in any marketing area is not achieved as a result of the minimum producer prices so established

or determined.

(c) Authorize and enable the director to formulate stabilization and marketing plans subject to the limitations prescribed in this chapter with respect to the contents of such stabilization and marketing plans and to declare such plans in effect for any marketing area

(d) Enable the dairy industry, with the aid of the state, to correct existing evils, develop and maintain satisfactory marketing conditions, and bring about and maintain a reasonable amount of stability and prosperity in the production and marketing of market milk and provide means for carrying on essential educational activities

61806. It is the intent of the Legislature that the powers conferred in this chapter shall be liberally construed.

61807. Nothing in this chapter permits or authorizes the development of conditions of monopoly in the production of market milk. In the establishment of the terms and conditions under which market milk shall be purchased from producers, such terms and conditions shall be those which will, in the several localities and markets of the state, and under the varying conditions of production, insure an adequate and continuous supply of pure, fresh, wholesome market milk to consumers of the market milk at fair and reasonable prices

61808 The Legislature hereby declares that this chapter is intended to formulate a comprehensive scheme for the regulation of marketing milk. If, however, any provision of, or addition or amendment to, this chapter, either as originally enacted in 1935 at the 51st Regular Session of the California Legislature, or as amended, added to, recodified, or reenacted at any subsequent session of the California Legislature, should be held to be unconstitutional, the unconstitutionality of such provision does not affect any other provision of this chapter.

61808 5. (a) On or before March 1, 1978, the director shall report to the Legislature his proposed procedural regulations to assure a fair, open, effective, and expeditious participation of all interested parties in the establishment of prices for milk

(b) On or before April 1, 1978, the director shall adopt procedural regulations for the submission and consideration of petitions and for the conduct of hearings

(c) On or before January 1. 1979, after consultation with interested consumer and industry representatives, the director shall report to the Legislature such evaluation and recommendations to the Legislature as he may develop for further evolution, refinement, clarification, and improvement of the mechanism or procedures for establishing milk prices. The object of his proposals shall be to maximize, to the extent feasible, public comprehension of the pricing process consistent with the other purposes of this chapter.

61809 If any article, section, subdivision, sentence, clause, or phrase of any provision of this chapter is for any reason held to be

unconstitutional, such decision does not affect the validity of the remaining provisions of this chapter. The Legislature hereby declares that it would have enacted each article, section, subdivision, sentence, clause, or phrase of this chapter irrespective of the fact that one or more other articles, sections, subdivisions, sentences, clauses, or phrases is declared unconstitutional.

61810. The provisions of Chapter 1 (commencing with Section 61301) and Chapter 3 (commencing with Section 62700) of this part shall be liberally construed as being complementary of, and supplemental to, the provisions of this chapter. The provisions of this chapter and of Chapter 1 (commencing with Section 61301) and Chapter 3 (commencing with Section 62700) shall be liberally construed as constituting a single comprehensive scheme for the regulation of the production, handling, distribution, and marketing of market milk; provided, however, that each such chapter, and each provision, article, section, subdivision, sentence, clause, and phrase of each such chapter is severable, and if one of such chapters or any provision, article, section, subdivision, sentence, clause or phrase of, or in, any one of such chapters is for any reason held void, invalid or unconstitutional, such decision shall not affect the validity of the other such chapter, or any of its provisions, articles, sections, subdivisions, sentences, clause or phrases.

61811 No provision of this chapter, or of any stabilization and marketing plan formulated by the director pursuant to this chapter, is any limitation upon the right of any handler or producer-handler including any nonprofit cooperative association of producers which association is also a handler, by reason of the form or nature of the legal entity under which such handler conducts business, to sell or handle market milk, or any dairy product at prices or upon terms and conditions according to, and within, the several methods of handling, at or subject to which the market milk or dairy product lawfully may be sold or handled by any other handler.

This section does not make lawful or permit the payment by any such handler to a producer for market milk of prices less than the minimum prices prescribed in the applicable stabilization and marketing plan

61812. Neither the repeal of former Chapter 2 of this part, the reenactment of this chapter nor the amendment of any provision of this chapter shall have the effect of terminating or invalidating any stabilization and marketing plan, including provisions thereunder regarding minimum prices to be paid producers for market milk, established by the director pursuant to this chapter or former Chapter 2 prior to the effective date of such repeal, enactment or amendment. The director shall, however, establish minimum prices pursuant to the provisions of such repeal, enactment or amendment at the earliest practicable date after the effective date of such amendment.

(d) Any transaction in connection with accounting to such producers for the proceeds derived from the sale or marketing of bulk market milk, packaged market milk, or any other product of market milk produced or delivered by such producers.

61872. For the purposes of this chapter, a nonprofit cooperative association organized and existing under Chapter 1 (commencing with Section 54001) of Division 20, that acts for producers, including members and any nonmembers of the association, to whom it accounts on a patronage basis, is a handler in any transaction which involves the receipt by it of market milk from any person other than a producer to whom it accounts on a patronage basis and in any transaction which involves the pasteurization of bulk market milk or the packaging of it in bottles, cartons, dispenser cans, or other consumer packages, or the sale or delivery of packaged market milk.

61873. A nonprofit cooperative association accounts to producers on a patronage basis when it accounts to each producer for his share of the net proceeds derived from the marketing operations of the association, according to quantity and quality of market milk furnished to the association for marketing and according to any marketing pools and quotas established by the association.

Article 4. Administration

61891. The director shall enforce the provisions of this chapter and of any stabilization and marketing plan initiated pursuant to the provisions of this chapter. The director shall adopt those regulations necessary for the proper administration and enforcement of the provisions of this chapter.

61892. The director shall have and may exercise any or all the powers conferred by the Government Code upon the head of a department of the state with respect to hearings and investigations under this chapter.

61893. The director is the instrumentality of this state for the purpose of administering and enforcing the provisions of this chapter and to execute the legislative intent expressed in this chapter, and is hereby vested with the administrative authority described in this chapter. Notwithstanding other laws to the contrary, in the event a milk marketing order under the jurisdiction of the United States Department of Agriculture or other appropriate federal agency, is created by referendum or under the applicable laws and procedures relating thereto, in this state or in any geographical area within this state, the provisions of this chapter or any part thereof which is in conflict with such federal order, or which is unnecessary or is a duplication thereof, shall be suspended in the geographical area covered by and during the existence of such federal order. The director shall take such steps and procedures as are necessary to wind up and conclude the administration and enforcement of the provisions of this chapter, or any part thereof, for the period prior to

the suspension date.

61894. For the purposes of enforcing the provisions of this chapter, the director may investigate any and all transactions, between producers and handlers, between nonprofit cooperative associations and producers, among handlers or between handlers and wholesale customers, between handlers and consumers, or between wholesale customers and consumers. For that purpose, the director shall have access to, and may enter at all reasonable hours, any place where market milk is being stored, bottled, or manufactured, where market milk or any market milk product is being bought, sold, or handled, or where the books, papers, records or documents which relate to such transactions are kept He may inspect and copy such books, papers, records, or documents in any place within the state.

61895 The director may require the registration of producers.

61896 The director may formulate any stabilization and marketing plan as prescribed in this chapter and declare it effective after public hearing and reasonable notice by mail or otherwise to all producers, handlers, and consumer organizations who have filed requests with the director or the Director of Consumer Affairs

61897 A full and accurate record of business or acts performed, or of testimony taken, by the director pursuant to this chapter shall be kept and placed on file in the office of the director.

61898. In addition to the compilation of information which pertains to market milk from the reports required by this chapter, the director shall collect, assemble, compile, and distribute statistical data relative to market milk, other milk and milk products, and such other information as may relate to the dairy industry and the provisions of this chapter

61899. Any order of the director made pursuant to this chapter which substantially affects the rights of any interested party may be reviewed by any court of competent jurisdiction. Any such action shall be commenced within 30 days after the effective date of the order complained of, or within 30 days after the injurious effect complained of becomes reasonably apparent.

61900. The director may confer, enter into agreements, or otherwise arrange with the constituted authorities of this state, other states, or agencies of the United States with respect to plans which relate to the stabilization and distribution of market milk within this state or as between this state and other states or the United States, and may exercise his powers pursuant to this chapter to effectuate and enforce such plans.

61901. All money received by the director pursuant to this chapter shall be paid monthly into the State Treasury to the credit of the Department of Agriculture Fund

61902. If the director determines that it is probable that one or more factors or conditions which affect prices of market milk have changed on a relatively uniform basis throughout two or more marketing areas, he may consolidate the hearings on the matter of price changes for such areas. No price change shall be made as a

result of such a consolidated hearing unless the amount of the change or the resulting prices are uniform throughout the areas which are affected.

61903. Any person who has testified under oath at a public hearing held by the director pursuant to this chapter may, within 10 calendar days following the closing date of the public hearing, file with the director a written posthearing brief in amplification, explanation, or withdrawal of such testimony. One copy of the brief shall be filed with the director at his office in Sacramento. A second copy of the brief shall be filed in the regional milk stabilization office of the director nearest to the location at which the public hearing was held. Any such posthearing brief shall be made available by the director to any interested person for inspection. Except as herein provided, the director, in formulating any stabilization and marketing plan, pursuant to this chapter, following a public hearing, shall not accept or consider any posthearing brief. Nothing in this section shall require the director to prepare, or to make available, any verbatim transcript or other record or summary of the hearing within the 10-calendar-day period referred to in this section; provided, however, that any verbatim transcript or other record or summary of the hearing prepared for or by the director shall be made available to any interested party for inspection at the office of the director in Sacramento and, upon reasonable request, at the regional office of the director nearest the location at which the public hearing was held.

61904. Any provisions of a stabilization and marketing plan formulated, established, or rejected by the director pursuant to this chapter, shall be accompanied by written statements, which shall be made available by the director to any interested person upon request, stating in substance the considerations upon which such plan provisions and minimum prices are based, or upon which such provisions and prices were rejected.

Article 5. Classes of Market Milk

61931. Market milk may be classified for the purposes of this chapter as provided in this article.

61932 Class 1 comprises:

(a) Any market milk, market skim milk, half-and-half, or concentrated milk that is supplied to consumers in the fluid state, with the exception of the following:

(1) Any combination of market milk or market skim milk which is sterilized and packaged in hermetically sealed containers.

(2) Any flavored milk product or market half-and-half which is ultra-pasteurized and packaged in hermetically sealed containers.

(3) Any market half-and-half which is packaged in presterilized containers under aseptic conditions to meet the marketing requirements for such products in states other than this state; provided, however, that nothing in this paragraph shall authorize the

sale within this state of any milk product as a sterilized product unless such product meets the standards and requirements for sterilized products contained in Division 15 (commencing with Section 32501).

(b) Any market milk, market skim milk, or market cream which is used in any other milk product, or products resembling milk products, in which the use of market milk or any components or derivatives of market milk is required by, or pursuant to, the provisions of this code, except any such product defined in Section 61933 as class 2.

(c) Any market milk, market skim milk, market cream, market milk fat, or market milk solids not fat which is used in the standardizing or fortifying of any milk product which is defined in this section as class 1.

(d) Any market milk, market skim milk, or market cream which is used in any product not otherwise classified, which is required by any regulations adopted by the director pursuant to Article 2 (commencing with Section 36631), Chapter 1, Part 3 of Division 15 to be made from market milk or any components or derivatives of market milk.

(e) Any market milk, market skim milk, market cream, market milk fat or market milk solids not fat used in any filled product or imitation milk product, when the product imitated or resembled, is defined in this section as class 1

61933. Class 2 comprises any market milk, market skim milk, or market cream used in the manufacture of market cream, homogenized market cream, sour cream, sour cream dressing, uncreamed, creamed, or partially creamed cottage cheese, and buttermilk. Class 2 also comprises any market milk, market skim milk, or market cream used in the manufacture of any product defined in paragraph (1), (2), or (3) of subdivision (a) of Section 61932 or for which a definition and standard is prescribed in Division 15 (commencing with Section 32501), except any such product which is included in class 1, class 3, or class 4.

61934. Class 3 comprises all market milk, market skim milk, or market cream used in the manufacture of frozen dairy products.

61935. Class 4 comprises all market milk, market skim milk, or market cream, used in the manufacture of butter, cheese other than cottage cheese, dried milk, dried skim milk, nonfat dry milk solids, defatted milk solids, dried buttermilk, and all market milk, market skim milk, or market cream which is supplied to consumers as condensed milk, condensed skim milk, evaporated skim milk, evaporated cream or clotted cream, or evaporated milk, or any product for which no definition and standards are prescribed in Division 15 (commencing with Section 32501), except the products defined in paragraph (2) of subdivision (a) of Section 61932

61936. If the director establishes a temporary definition and standards for any new milk product pursuant to Article 2 (commencing with Section 36631), Chapter 1, Part 3 of Division 15, he shall assign such new product to that class under this article which

includes the most nearly comparable product as determined by the director.

61937. Market milk, market skim milk, or market cream, utilized in bulk by handlers as condensed milk, condensed skim milk, evaporated skim milk, evaporated cream or clotted cream, or evaporated milk, shall be assigned by the director to the classification of ultimate usage of such market milk, market skim milk, or market cream.

Article 6. Marketing Areas

61961. The director shall designate marketing areas which he deems necessary or advisable to effectuate the purposes of this chapter, and in which he finds the conditions affecting the production, handling, and sale of market milk, are reasonably uniform.

61962. The director may establish additional areas, or modify areas previously established, if he deems the establishment or modification of such areas necessary or advisable to effectuate the purposes of this chapter.

61963. If the director finds, after a public hearing in and for each particular marketing area under consideration for consolidation, that conditions of production and handling are reasonably uniform in two or more such marketing areas in which stabilization and marketing plans are in effect, he may consolidate the areas.

Article 7. Formation and Adoption of Stabilization and Marketing Plans

61991. Except as otherwise provided in Section 61992, the director shall, prior to the formulation of a stabilization and marketing plan for market milk for any marketing area, conduct a public hearing in the area for the purpose of determining whether or not the formulation of a stabilization and marketing plan for market milk for such area is desired by producers whose major interest in the market milk business is in the production of market milk for the marketing area and that both:

(a) Represent not less than 65 percent of the total number of producers whose major interest in the market milk business is in the production of market milk for the marketing area.

(b) Produce not less than 65 percent of the total volume of the market milk produced for the marketing area by all such producers.

61992. A hearing need not, however, be held if a petition requesting a stabilization and marketing plan is presented to the director by the producers whose major interest in the market milk business is in the production of market milk for the marketing area, and that both:

(a) Represent not less than 65 percent of the total number of producers whose major interest in the market milk business is in the

production of market milk for the marketing area.

(b) Produce not less than 65 percent of the total volume of the market milk produced for the marketing area by all such producers.

61993. If the director finds that a stabilization and marketing plan is necessary to accomplish the purposes of this chapter, he shall formulate a stabilization and marketing plan for market milk for such area and issue a notice of public hearing upon the plan which is formulated to all producers and handlers of record with the department that may be subject to the provisions of such plan.

61994. The notice of the hearing may be effected by mail, or by publication pursuant to Section 6062 of the Government Code in the area which is designated. It shall specify the time and place of such hearing, which shall not be prior to 15 days from the mailing, or from the final publication of such notice. If no daily newspaper of general circulation is published in the area which is designated, publication pursuant to Section 6066 of the Government Code shall be considered proper publication of notice.

61995. At the hearing, interested parties shall be heard and records kept of the proceedings of such hearing for determination by the director whether the plan proposed will accomplish the purposes of this chapter.

61996. If, after the public hearing, the director determines that the proposed plan will tend to accomplish the purposes of this chapter within the standards which are prescribed in it, he shall issue an order to all producers and handlers of record with the department and subject to the provisions of such plan, declaring such plan in effect within 45 days from the date of such hearing; provided, however, that after a consolidated hearing held pursuant to Section 61902, the director shall declare such plan in effect within 62 days from the date of such hearing. The director shall announce any order under this section at least 10 calendar days prior to the effective date of such plan.

61997. A handler that is subject to the provisions of any stabilization and marketing plan shall not purchase milk from any producer that does not comply with this chapter and such plan.

61998. No stabilization or marketing plan shall contain provisions the purposes of which are to establish limitations upon the production of market milk.

Article 8. Amendment and Termination of Stabilization and Marketing Plans

62031. The director may amend or terminate any stabilization and marketing plan, after notice and public hearing as prescribed in Article 7 (commencing with Section 61991) of this chapter, if he finds that such plan is no longer in conformity with the standards which are prescribed in, or will not tend to effectuate the purposes of, this chapter. Any order under this article amending or terminating any stabilization and marketing plan shall be subject to the provisions of

Section 61996.

62032. A hearing on the amendment or termination of a stabilization and marketing plan may be held upon the motion of the director and shall be held upon receipt of a petition which is signed by producers, or by the board of directors of any nonprofit agricultural cooperative marketing association which is authorized by its members to so petition. Such petition shall represent not less than 55 percent of the total number of all producers and not less than 55 percent of the total production of all producers that are eligible to petition the director for the formulation of such a plan.

Article 9. Establishment of Minimum Prices and Provisions of Stabilization and Marketing Plans

62061. Each stabilization and marketing plan shall contain provisions for prohibiting producers and handlers from engaging in the unlawful trade practices applicable to them that are set forth in Article 10 (commencing with Section 62091) of this chapter.

62062. Each stabilization and marketing plan shall contain provisions whereby the director establishes minimum prices to be paid by handlers to producers for market milk in the various classes. The director shall establish such prices by designating them in the plan, or by adopting methods or formulas in the plan whereby such prices can be determined, or any combination of the foregoing. If the director directly designates prices in the plan, such prices shall be in reasonable and sound economic relationship with the value of milk used for manufacturing purposes If the director adopts methods or formulas in the plan for designation of prices, such methods or formulas shall be reasonably calculated to result in prices which are in a reasonable and sound economic relationship with the value of milk used for manufacturing purposes.

In establishing such prices, the director shall take into consideration any relevant economic factors, including, but not limited to the following:

(a) The reasonableness and economic soundness of market milk prices in relation to the costs of producing and marketing market milk for all purposes, including manufacturing purposes. In determining such costs, the director shall consider the cost of management and a reasonable return on necessary capital investment.

(b) That prices established pursuant to this section shall insure an adequate and continuous supply, in relation to demand, of pure, fresh, wholesome market milk for all purposes including manufacturing purposes, at prices to consumers which, when considered with relevant economic criteria, are fair and reasonable.

(c) That the prices established by the director for the various classes of market milk bear a reasonable and sound economic relationship to each other.

In establishing such prices, the director shall also take into

consideration all the purposes, policies, and standards contained in Sections 61801, 61802, 61805, 61806, 61807, 62077, and 62078

62063 Subject to the provisions of Sections 62075 and 62076, each stabilization and marketing plan shall contain provisions whereby the director shall provide methods for the establishment of minimum prices for market milk received within a marketing area regardless of whether such milk is subsequently sold or distributed within or without such marketing area within the jurisdiction of this state, and may contain such provisions whether or not such market milk is subsequently sold or distributed outside the jurisdiction of this state.

62064. Each stabilization and marketing plan shall provide all of the following:

(a) For the establishment of prices for market milk, whether or not such market milk is subsequently sold or distributed in another marketing area within this state where a stabilization and marketing plan is in effect.

(b) That, if area of usage pricing is in effect, producers shall be paid not less than the minimum prices established for the marketing area wherein such market milk is ultimately sold or distributed.

(c) That, if area of usage pricing is in effect and such market milk is subsequently sold or distributed in any place within the jurisdiction of this state where no stabilization and marketing plan is in effect, such market milk shall be paid by the handler to the producer at not less than the average of prices which are paid by handlers, whose plants are located within such area, to producers for market milk. If, however, no plants are located within such area, the price which shall be paid by the handler to the producer shall not be less than the average of prices which are paid by handlers to producers for market milk, at the plants in the nearest marketing areas adjacent to the area where such market milk is sold or distributed, as established by the stabilization and marketing plans in effect in such adjacent marketing areas

62065 No amendment of this article terminates or invalidates any provision of any stabilization and marketing plan which has been established by the director prior to the effective date of such amendment. Each such plan shall, however, be brought into conformity with such amendment at the earliest practicable date after the effective date of such amendment.

62066. Notwithstanding any other provision of this code to the contrary, the director, in establishing minimum prices to be paid by handlers to producers, for market milk in any marketing area, may establish, as the applicable minimum prices, those prices applicable within the marketing area of ultimate usage of such market milk, those prices applicable within the marketing area where the plant of first receipt of such market milk is located, those prices applicable in the marketing area where the producers place of production is located, or any of the above or any combination of the above.

62067. Each stabilization and marketing plan may contain

provisions which require handlers to report to each producer from whom market milk is secured all of the following:

(a) The volume of market milk received from such producer in pounds of milk.

(b) The milk fat, solids-not-fat, or other component tests of such milk.

(c) The amount of market milk in pounds of milk fat, solids-not-fat or other components paid for in the several classes or pools.

(d) The prices paid for the various classes for each month.

62068. Each stabilization and marketing plan may contain provisions which authorize any handler that purchases market milk under contract from any producer to pool such market milk for producer payment purposes in accordance with such contracts, irrespective of whether such market milk is actually and physically received at the same milk products plant or diverted, in accordance with such plan. Such provisions may do any of the following:

(a) Provide that market milk that is received from producers by milk products plants under the same ownership, may be pooled for purposes of payment to producers.

(b) Provide that if a handler pools market milk, as provided in subdivision (a), the handler shall allocate, among all producers that participate in the class 1 usage, transportation savings which are applicable to market milk, not actually transported between the plant of first receipt and one or more other plants subject to the pool, and used for class 1, and may pay to producers shipping market milk directly to a plant subject to the pool a price for usage of such market milk for class 1, which price represents the average of minimum producer prices payable by that particular plant for such class 1 usage.

62069. The director may establish minimum prices to be paid by handlers to producer-handlers for milk not used by the purchasing handler as class 1 milk. Such provisions may provide that such milk, if used in classes other than class 1 by the purchasing handler may be paid for at the minimum prices established by the director for such other usage but which shall not be less than the prices as found by the director to be paid by manufacturing milk plants in, or adjacent to, the area which use milk for similar purposes. Such prices shall remain in effect only for the period during which, as determined by the director, there is a surplus of producer-handler milk.

62070. Each stabilization and marketing plan may further provide for maximum charges for plant processing and transportation service on the market milk or market milk components which are transported to the area where sold. The stabilization and marketing plan may enumerate the applicable maximum charges, and may establish individual charges for each function enumerated. In establishing any such maximum charges for such transportation services, the director shall base such maximum charges upon the rates which are charged for actual or reasonably similar services by

highway carriers, as the term "highway carriers" is defined in Section 3511 of the Public Utilities Code.

62071. Each stabilization and marketing plan may provide for minimum charges for the various services performed or rendered by a nonprofit cooperative association in respect to class 1 market milk sold or delivered to another handler. Handler services include component testing for payment purposes, quality control, producer payroll, weighing and sampling of bulk market milk. Each stabilization and marketing plan may also include, but not be limited to, minimum charges for the handling of intermittent or irregular deliveries of market milk and plant standby services. The stabilization and marketing plan may enumerate applicable minimum charges and establish individual charges for each service enumerated or, in the alternative, the director may establish one or more minimum charges covering one or more of the separate handler services.

62072. In establishing minimum handler service charges under Section 62071, the director shall take into consideration all relevant factors, including, but not limited to, the following.

(a) The reasonably necessary costs of providing such services, including overhead, as determined by impartial cost surveys, examination of books and records, or both, of such portions of those handlers within the marketing area as are reasonably determined by the director to be sufficiently representative to indicate such costs of all reasonably efficient handlers within such marketing area.

(b) The relationship of the establishment of such minimum charges to the achievement and maintenance of the orderly marketing of market milk and to the effectuation of the purposes of this chapter.

62073. If any contract between a handler and a producer for the purchase of any market milk provides that the charges for the hauling of it shall be paid, in whole or in part, by the producer, and such hauling is done by the handler either directly or through an agent or by any person that contracts with, or is designated by, such handler for such hauling, the director may, and upon the written request of the producer or the written request of any association representing the producer shall, investigate the rates, terms, and conditions which are involved in such hauling in order to determine whether such rates, terms and conditions are in compliance with Section 62070.

If the director determines that such rates, terms, and conditions are not in compliance with Section 62070, he shall determine, within the standards which are prescribed in Section 62070, the maximum charges on account of such hauling that will comply with Section 62070 with respect to such purchase of market milk.

62074. If the director establishes a stabilization and marketing plan for market milk, the director shall establish minimum prices to be paid by handlers for market cream, market skim milk, or milk fat, or market skim milk components of such market milk.

62075. The director shall establish the minimum prices to be paid by handlers to producers for class I usage of market milk upon a milk fat, solids-not-fat or the subcomponents thereof, and fluid carrier basis. In establishing the minimum prices for classes of market milk other than class I, separate prices may be established for any one or more of the following:

(a) The milk fat contained in such milk.

(b) The solids-not-fat or subcomponents thereof contained in such milk.

(c) The fluid contained in such milk.

(d) Any combination of the milk fat, the solids-not-fat or subcomponents thereof, or the fluid contained in such milk.

62076. In establishing prices to be paid by handlers to producers for class 2, class 3 or class 4 market milk, the director may take into consideration any relevant economic factors, including, but not limited to, the following:

(a) The relative market value of the various products yielded from such market milk.

(b) The market price of other milk which may be used for the same purposes that are set forth in such respective classes.

(c) The value of milk used for manufacturing purposes giving consideration to any relevant factors including, but not limited to, product prices, product yields, and manufacturing costs of the lowest class of usage of manufactured products

62077. A handler shall not pay any producer less than the applicable price established for the usage to which the market milk, purchased from him is applied pursuant to accounting procedures established by the director. If the market milk is not applied to any purpose set forth in Article 5 (commencing with Section 61931), then a handler shall not pay any producer less than the price established under the applicable stabilization and marketing plan for class 4 usage.

62078. All handlers who receive market milk within this state shall be obligated to pay minimum producer prices established under this chapter regardless of the area of origin of such milk, whether inside or outside the jurisdiction of the State of California.

Article 10. Unlawful Trade Practices

62091. The unlawful trade practices described in this article apply to every handler whether or not a stabilization and marketing plan is in effect in the area in which the handler is licensed or carries on his business. This article applies to transactions conducted, either directly or indirectly, between producers and handlers.

62092. The payment, allowance, or acceptance of any secret rebate, secret refund, or unearned discount by any person, whether in the form of money or otherwise, is an unlawful trade practice.

62093. The giving of any milk, cream, dairy product, service, or article of any kind, except to a bona fide charity, for the purpose of

securing or retaining the market milk business of any customer is an unlawful trade practice.

62094. The payment, gift, or the offer or promise of any payment or gift, of money or other thing of value, directly or indirectly, or through any agent or other intermediary, to any person with the purpose or design of inducing such person to become or remain the wholesale customer of any handler is an unlawful trade practice.

62095. The payment, gift, or the offer or promise of any payment or gift, of money or other thing of value by any person, directly or indirectly or through any agent or other intermediary, to any handler or producer, or the acceptance by any handler or producer of such payment or gift or thing of value is an unlawful trade practice if it is for any of the following:

(a) For the purpose of inducing a handler or producer to enter into a new contract, or to renew, extend, or modify an existing contract, for the purchase of market milk by a handler from a producer.

(b) As a condition upon which a handler will enter into a new contract, or renew, extend, or modify an existing contract for the purchase of market milk from a producer.

(c) For the purpose of enabling a handler to pay to a producer, or a producer to receive from a handler, less than the minimum class usage prices established by the director to be paid by handlers to producers for market milk.

62095.1. The payment by a handler, either directly or indirectly, of less than the minimum producer price established under the applicable stabilization and marketing plan adopted pursuant to this chapter, is an unlawful trade practice.

62096. Except as otherwise provided in Section 62098, the purchase of any market milk in excess of 200 gallons monthly from any producer unless a written contract, which complies with all of the requirements which are prescribed by this section, has been entered into with such producer is an unlawful trade practice. The contract shall include all of the following:

(a) The amount of market milk which is to be purchased for any period.

(b) Except as otherwise provided in this subdivision, the minimum quantity of such market milk which is to be paid for as class 1, if any is to be purchased for class 1 purposes. The quantity shall be stated in pounds of market milk, pounds of market milk fat, or gallons of market milk, unless the price which is to be paid for such class 1 market milk is established separately for the market milk fat and market skim milk contained in such market milk. If it is, the quantity to be paid for as class 1 shall be stated in pounds of market milk, pounds of market milk fat, or gallons of market milk, or both in pounds of market milk fat and pounds of market skim milk separately.

The minimum quantity of market milk to be paid for as class 1 shall not be less than 70 percent of the total quantity provided in the contract to be purchased at a milk products plant, and not less than

60 percent of the total quantity of market milk fat, or the total quantity of market skim milk components, but not necessarily both, provided in the contract to be purchased at a country plant, as defined by the director in stabilization and market plans

(c) The price to be paid for all market milk received.

(d) The date and method of payment for such market milk, which shall be that payment shall be made for approximately one-half of the market milk delivered in any calendar month not later than the first day of the next following month and the remainder not later than the 15th day of that month.

(e) The charges for transportation if hauled by the handler.

(f) A proviso that no market milk received within the total quantity provided by the contract to be purchased for any period shall be paid for at less than the minimum price for market milk used for class 2

The contract may contain such other provisions as are not in conflict with this chapter. A signed copy of such contract shall be filed by the handler with the director within five days from the date of its execution.

Subdivisions (b), (d), and (f) shall not be applicable if an equalization pool, as provided for under Chapter 3 (commencing with Section 62700) is in effect for the area in which the purchase of the market milk occurs.

62097. The production of market milk in excess of amounts provided to be purchased under contracts executed pursuant to Section 62096 shall be voluntary on the part of the producer and shall not be a condition, oral or written, of execution or renewal of any such contract.

62098. Section 62096 does not apply to the purchase of market milk which is necessary to meet an unanticipated increase in demand or an unanticipated shortage in the supply of a handler if both:

(a) The quantity of market milk so purchased from any one producer does not exceed 1,000 gallons in any one month.

(b) A complete record of all such purchases is kept by the handler and the price paid for such milk by the handler is not less than the price which is established in the applicable stabilization and marketing plan for the usage to which such milk is applied.

62099. The payment by a handler to any producer, including any nonprofit cooperative association acting as a producer, or the receipt by a producer, including any nonprofit cooperative association acting as a producer, from a handler of a lesser price for any market milk, distributed to any person, including any agency of federal, state, or local government, for less than the minimum prices established by the director to be paid by handlers to producers for market milk for the marketing area is an unlawful trade practice.

62100. The failure of any handler to pay for market milk delivered to him at the time and in the manner specified in the contract with the producer is an unlawful trade practice.

62101. The provisions of this article apply regardless of the form in

which market milk is received by the handler, and regardless of the area of origin of such market milk.

Article 11. Sales to the United States

62121. The director may require that each person that submits a bid for the sale to an agency of the United States government of market milk or any milk product which utilizes class 1 market milk shall file with the director, at the same time such bid is submitted, a complete copy of such bid and the following certification:

"The undersigned certifies that in sales by the undersigned to agencies of the United States Government, pursuant to the attached bid, for market milk or milk products utilizing class 1 market milk, as such class 1 market milk is defined in Chapter 2 (commencing with Section 61801), Part 3, Division 21 of the Food and Agricultural Code, the undersigned is complying with all California statutes and regulations pertaining to the establishment and enforcement by the Director of Food and Agriculture of minimum prices to be paid producers for such class 1 market milk."

All bids and certifications filed pursuant to this section shall be confidential and shall not be divulged except when necessary for the proper determination of any court proceeding or hearing before the director.

Article 12. Handlers' Licenses

62141. The licenses provided for in this article are required for each handler. For the purposes of this article, each subsidiary milk plant or branch milk plant, whether under one ownership or not, shall be considered as an individual handler.

62142. For the purposes of this article, "handler" shall include any person defined as a handler under Section 61826 or any person defined as a distributor under Section 61306 that purchases or handles market milk or market cream for processing, manufacture, or sale.

62143. A handler shall not deal in market milk unless such handler first obtains a license from the director for each milk plant owned or operated by the handler. The license provided for in this article is in addition to any license which is required by Division 15 (commencing with Section 32501), or by any law or ordinance of any county or municipality of this state.

Notwithstanding the provisions of Section 61832, "milk plant" as used in this article, means any place, structure, or building where a handler receives market milk and weighs, tests, standardizes, pasteurizes, homogenizes, separates, bottles or packages such milk. "Milk plant" does not include a place, structure, or building which is used for the purpose of receiving, weighing, or testing milk to be diverted or delivered to a licensed milk plant of the handler.

62144. Applications for the license provided by this article shall

be made on forms prescribed by the director, shall be accompanied by an application fee of three dollars ($3), and shall state the name and address of the applicant and such details as to the nature of the applicant's business as the director may require. Such applicant shall further satisfy the director of his or its character, responsibility, and good faith in seeking to carry on the business stated in the application.

62145 Licenses shall be issued for a period of 12 months from the first day of each year or for the remainder of the calendar year from the date of issuance. Application for renewal of a license for the following year by a licensee, together with the application fee of three dollars ($3), shall be made prior to the expiration date of the license held. If it is not so made, the applicant shall pay an additional sum equal to 100 percent of the application fee before such license shall be issued.

62146. The director may refuse to grant or renew any license if he is satisfied that any applicant, or any person connected with the applicant, either directly, or indirectly has violated any of the following:

(a) This chapter or any stabilization and marketing plan or other regulation adopted under this chapter.

(b) The unlawful trade practices provisions set forth in Article 5 (commencing with Section 61371) of Chapter 1 of this part.

(c) Chapter 3 (commencing with Section 62700) or any pooling plan established thereunder.

62147. The director may also refuse to grant or renew any license to a handler if he is satisfied that the handler has failed to pay for any market milk delivered to him at the time and in the manner specified in the contract with the producer.

62148. The proceedings to determine whether or not the director shall refuse to grant or renew a license shall be conducted in accordance with Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the director shall have all of the powers granted in such chapter.

62149. The decision may include an order refusing to grant or renew the license applied for, or affixing such other conditional and probationary orders as may be proper for the enforcement of any of the following:

(a) This chapter or any stabilization and marketing plan formulated pursuant to this chapter.

(b) The unlawful trade practices provisions set forth in Article 4 (commencing with Section 61371) of Chapter 1 of this part.

(c) Any regulation duly adopted by the director pursuant to Section 61891.

62150. After any decision in favor of the issuance or renewal of a license which includes any conditional or probationary orders, if the person to whom the license is issued does not comply with any such orders, the director may suspend or revoke the license in accordance with the procedure provided in Sections 62151, 62152, 62153, 62154,

and 62155.

62151. The director may revoke or suspend, as the case may require, any license which is issued pursuant to this chapter, if he is satisfied that any licensee or any person who is connected with the licensee has violated any provision of any of the following:

(a) This chapter or any stabilization and marketing plan which is formulated pursuant to the provisions of this chapter.

(b) Any regulation which is adopted by the director pursuant to Section 61891.

(c) The unlawful trade practices provisions set forth in Article 4 (commencing with Section 61371) of Chapter 1.

(d) Chapter 3 (commencing with Section 62700) or any pooling plan adopted thereunder.

The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the director shall have all the powers which are granted in such chapter.

62152. The director may also revoke or suspend any license of a handler if he is satisfied that the handler has not paid for any market milk delivered to him at the time and in the manner specified in the contract with the producer.

62153. The decision may include an order revoking or suspending the license held by the licensee, or affixing such other conditional and probationary orders as may be proper for the enforcement of this chapter or any provision of any stabilization and marketing plan formulated pursuant to the provisions of this chapter or of any regulation adopted by the director pursuant to Section 61891.

62154. After any decision, which includes any conditional or probationary orders, if the respondent does not comply with any such orders, the director may suspend or revoke the license in accordance with the procedure which is provided in this article.

62155. Whenever the director is satisfied, either by investigation or after a hearing, that a handler is unable to pay for any market milk purchased from any producer, and is further satisfied that to permit the handler to continue to purchase and receive any market milk from producers would be likely to cause serious and irreparable loss to producer-creditors and other producers, the director may thereupon and forthwith shorten the time for hearing that is provided for in Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and thereupon may issue an order to show cause why the license of such handler should not be forthwith suspended or revoked. The time of notice of the hearing shall not, however, be less than five days. At such hearing the handler that is proceeded against shall be ordered to show cause why the license should not be suspended or revoked, or continued under such conditions and provisions, if any, as the director may consider just and proper and for the protection of the best interests of the producer-creditors and producers from whom the handler has been and is receiving any market milk. Following such hearing, the

decision of the director shall become effective at his discretion.

The hearing, in the case of such emergency, may be called upon written notice which is served personally or by mail on the handler that is involved. It may be held at the nearest office of the director or at such place as may be most convenient in the discretion of the director for the attendance of all of the parties that are involved.

Article 13. Handlers' Bonds

62181. The bonds provided for in this article are required for each handler. For the purposes of this article, each subsidiary milk plant or branch milk plant, whether under one ownership or not, shall be considered as an individual handler.

62182. Every handler before purchasing any market milk from a producer shall execute and deliver to the director a surety bond, executed by the applicant as principal and by a surety company qualified and authorized to do business in this state as surety. The minimum amount of the bond shall be based upon the average daily quantity of market milk purchased by the handler during any calendar month during a license year.

The minimum amount of the bond shall be as follows:

(a) One thousand dollars ($1,000) for any handler that purchases an average daily quantity of market milk of less than 100 gallons.

(b) Two thousand dollars ($2,000) for any handler that purchases an average daily quantity of at least 100 gallons but less than 200 gallons.

(c) Three thousand dollars ($3,000) for any handler that purchases an average daily quantity of at least 200 gallons but less than 300 gallons.

(d) Five thousand dollars ($5,000) for any handler that purchases an average daily quantity of 300 gallons or more.

62183. If any handler so increases his purchases of market milk during the license year that such purchases exceed the amount for which the handler is bonded, such handler shall forthwith post such additional bond as may be required to comply with this article.

62184. The bonds required by Sections 62182 and 62183 shall be upon a form approved by the director, and shall be conditioned upon the payment in the manner that is required by this chapter, of all amounts due to producers for market milk purchased by such licensee or applicant during the license year. It shall be to the state in favor of every producer of market milk.

62185. If a handler fails to pay any producer or producers for market milk in the manner that is required by this chapter, the director shall proceed forthwith to ascertain the names and addresses of all the producers that the handler has failed to pay, together with the amounts due and owing to them and each of them by such handler, and shall request all such producers to file a verified statement of their respective claims with the director. The producer need only verify that he is owed an amount by the handler. The

actual amount in such case may be ascertained by the director.

62186. After determining the claims of such producers, the director shall bring an action on the bond on behalf of such producers.

Any producer not satisfied with the amount of such producer's claim as determined by the director, or with the ratio such producer's claim bears to all claims against the bond as determined by the director, may intervene in such an action so that the correct amount of his claim and the ratio it bears to all the claims may be adjudicated.

62187. Upon any action being commenced upon the bond, the director may require the filing of a new bond in such amount as determined by the director as will be sufficient to satisfy claims for payment of producers thereafter supplying market milk to such handler, and immediately upon a recovery in any such action upon such bond, the failure of a handler to have filed a new bond within 10 days after notice from the director constitutes grounds for the revocation or suspension of the license of such handler.

62188. If recovery upon the bond is not sufficient to pay all of the claims as finally determined and adjudged by the court, any such amount recovered shall be divided pro rata among the producer-creditors.

62189. The failure of any handler that purchases market milk from producers to execute and deliver the bond as provided and required in this article is a violation of this chapter. The failure of any such handler to post any additional bond as may be required to comply with any provision of this chapter is also a violation of this chapter.

62190. Payments by a handler to a producer, for the purposes of any action on a handler's bond or bonds for any year or years, shall be credited first to interest and then to principal due, owing, and unpaid. Amounts to be applied to principal shall be applied first to the amount due for the most recent deliveries and then successively, in descending order, to the amounts due to the next most recent deliveries.

Article 14. Administrative Fees

62211. Every handler subject to the provisions of any stabilization and marketing plan, including a producer-handler, shall deduct as an assessment from payments made to producers for market milk, including the handler's own production, the sum of one and six-tenths cents ($0.016) per hundredweight of market milk.

The amount of the assessments so deducted shall be paid to the director on or before the 45th day following the last day of the month during which such market milk was received

Every handler subject to the provisions of any stabilization and marketing plan that purchases or handles market milk from producers, including the handler's own production, if any, shall pay a fee of eight-tenths of one cent ($0.008) per hundredweight of market milk.

The amount of such fee shall be paid to the director on or before the 45th day following the last day of the month in which such market milk was received.

62212. The director may fix the rates of assessments or fees required by Section 62211 at lesser amounts, and may adjust such rates of assessments or fees from time to time, whenever he finds that the cost of administering the provisions of this chapter can be defrayed from revenues derived from such lower rates, provided that the rate of assessments deducted from payments to producers for market milk, including the handler's own production, and the rate of fees paid by handlers shall at all times be in the ratio of two to one.

62213. Any assessment or fee or either of them payable pursuant to any provision of this article is a debt of the person by whom such assessment or fee or either of them is payable and shall be due and payable to the director upon the date set forth in Section 62211. If such person does not pay such assessment or fee or either of them upon the required date, the director may file a complaint against such person in a state court of competent jurisdiction for the collection of such assessment or fee or either of them.

If any such person does not pay to the director the assessments or fees or either of them provided for in this article, on or before the date specified in Section 62211, the director may add to such unpaid assessments or fees or either of them an amount not exceeding 10 percent of such unpaid assessment or fees or either of them to defray the cost of enforcing the collection of such unpaid assessments or fees or either of them.

Article 15. Reports and Statistics

62241. All handlers shall make and file with the director at least once each month such reports as the director may require to enable him to enforce the provisions of this chapter.

62242. Every handler that purchases market milk shall make and keep for one year a correct record which shows in detail all of the following with reference to the handling, sale, or storage of such market milk:

(a) The name and address of the seller.
(b) The date the market milk was received.
(c) The amount of market milk received.
(d) The official tests of the market milk purchased.
(e) The usage of the market milk.
(f) Evidence of payment for the market milk purchased.
(g) Such further records as the director may require.

62243. Any record or report made to the director pursuant to the provisions of this article is confidential and shall not be divulged, except if necessary for the proper determination of any court proceedings or hearing before the director.

Article 16. Testing, Weighing, and Sampling

62271. The director shall supervise the milk fat and milk solids not fat testing and the weighing and sampling of market milk delivered to handlers.

62272. The director may allocate from the funds which are derived pursuant to Article 14 (commencing with Section 62211) of this chapter such sum for any fiscal year, not exceeding ninety-five thousand dollars ($95,000) which shall be used exclusively for the supervision and checking the correctness of the milk fat, milk solids not fat, and bacteriological tests and the weighing and sampling of all market milk delivered to handlers in accordance with the stabilization and marketing plans established pursuant to the provisions of this division.

Article 17. Local and Regional Producer Advisory Boards

62301. Except as otherwise provided in Section 62303, the director may, if he deems such board necessary or advisable, appoint.

(a) A local advisory board for any marketing area established as prescribed in this chapter to assist and advise him in matters which pertain to the production and marketing of market milk or to the operation of a stabilization and marketing plan.

(b) A regional advisory board, if he deems such board necessary or advisable to represent several marketing areas adjacent to each other and wherein production conditions and costs are reasonably uniform.

62302. Except as otherwise provided in Section 62303, the director shall appoint:

(a) A local advisory board, if a majority of the producers individually, or through any nonprofit agricultural cooperative marketing association which is authorized by its members to so petition, request the establishment of such board.

(b) A regional advisory board, if in each marketing area which is involved a majority of producers that supply such marketing areas individually, or through any nonprofit agricultural cooperative marketing association which is authorized by its members to so petition, requests that such a board be established.

62303. The director shall not establish any local or regional advisory board pursuant to this article if he finds that the assessments or fees which are collected pursuant to Article 14 (commencing with Section 62211) of this chapter from the marketing area are insufficient to cover the costs of such local or regional advisory board.

No regional advisory board shall be set up to include any marketing area which on September 7, 1955, was operating under a local advisory board, unless by petition as provided for in this article or through public hearing, producers of such marketing area request that they be represented by a regional advisory board.

62304. If the director receives a qualified petition for a local

advisory board, he may investigate the possibility of establishing a regional advisory board covering the marketing area from which the petition was received and the adjacent marketing areas, by holding one or more public hearings for the purpose of establishing whether or not a majority of producers supplying the marketing areas proposed to be included in such region desire such regional advisory board.

62305. A local advisory board established pursuant to this article shall consist of seven members who shall be producers that supply market milk to the particular marketing area. A regional advisory board may consist of any number of members who are producers that supply market milk to any of the marketing areas in the region, but shall consist of not less than one member from each such marketing area in the region.

62306. The term of office of each member of a regional advisory board or a local advisory board shall be two years.

62307. The director may remove any member from a local or a regional advisory board if he finds, after a hearing, that such member is guilty of nonfeasance or malfeasance in office.

62308. The director may appoint a member to fill any vacancy on a local or a regional advisory board.

62309. Each regional advisory board and each local advisory board may meet in regular session each month, and each member shall be allowed twenty dollars ($20) per diem and mileage at the rate of fifteen cents ($0.15) per mile for attending such regular meetings, and any other meeting or conference which is called or authorized by the director within or outside of the boundaries of this state.

62310. Any regional or local advisory board may, with the previous approval of the director, employ such personnel as may be necessary in the performance of its duties and shall adopt regulations for its conduct. Each such board shall submit a budget of its expenses to the director for his approval.

The funds to be used for the maintenance of each such board shall be paid from the proceeds of assessments and licenses which are paid to the director under the plan of any area which is represented upon verified claims that are presented by the board to the director. A regional or local advisory board shall not incur any expenses except those for per diem and mileage, unless the expenses are approved by the director.

62311. Regional and local advisory boards shall review with the director the methods which are to be used in determining producer costs, and aid the director in the selection of the level of production which is necessary to meet the requirements of Section 62062 with respect to producer price minimums.

62312. For purposes of developing uniformity of administration as between marketing areas in which producer advisory boards have been appointed, the director shall call together representatives of regional and local advisory boards from time to time to advise him as to the relationships in producer costs among the marketing areas,

and may designate such representatives as the statewide committee of producer advisory boards.

62313. It is hereby declared, as a matter of legislative determination, that producers of market milk appointed to the regional advisory boards pursuant to this article are intended to represent and further the interest of a particular agricultural industry concerned, and that such representation and furtherance is intended to serve the public interest. Accordingly, the Legislature finds that, with respect to persons who are appointed to such advisory boards, the particular industry concerned is tantamount to, and constitutes, the public generally within the meaning of Section 87103 of the Government Code.

Article 18. Actions and Penalties

62401. The violation of any provision of this chapter, or of any provision of any stabilization and marketing plan, or of any regulation adopted under this chapter, is a misdemeanor which is punishable by a fine of not less than one hundred dollars ($100) and not exceeding one thousand dollars ($1,000), or by imprisonment in a county jail not exceeding six months, or by both such fine and imprisonment. The amount of penalty which is assessed pursuant to this section on each count of violation shall be based upon the nature of the violation and the seriousness of the effect of such violation upon effectuation of the purposes and provisions of this chapter.

62402. Any person that violates any provision of this chapter, any provision of any stabilization and marketing plan, or any regulation adopted under this chapter, is liable civilly in an amount not less than one hundred dollars ($100) and not to exceed one thousand dollars ($1,000) for each and every violation. Such penalty is to be recovered by the director in any court of competent jurisdiction. The amount of penalty which is assessed pursuant to this section on each count of violation shall be based upon the nature of the violation and the seriousness of the effect of such violation upon effectuation of the purposes and provisions of this chapter. Any sum which is recovered under this section shall be deposited in the State Treasury to the credit of the Department of Agriculture Fund.

62403. The director may bring an action to enjoin the violation, or the threatened violation, of any provision of this chapter, any provision of any stabilization and marketing plan, or any regulation adopted under this chapter in the superior court in the county in which such violation occurs or is about to occur. There may be enjoined in one proceeding any number of defendants alleged to be violating the same provisions, orders, or regulations, although their properties, interests, residences, or places of business may be in several counties and the violations separate and distinct. Any proceeding which is brought pursuant to this section shall be governed in all other respects by the provisions of Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil

Procedure.

SEC. 6. Section 62702.1 is added to the Food and Agricultural Code, to read:

62702.1. It is recognized by the Legislature that the provisions for equalization of usages among producers and entry of new producers contained in the Gonsalves Milk Pooling Act, as originally enacted, and the pooling plan adopted thereunder, tended to achieve the purposes of that act; however, the provisions for more rapid equalization and additional new entry would more rapidly and effectively achieve the purposes of this chapter.

It is also recognized that some holders of pool quota and production base initially issued under the Gonsalves Milk Pooling Act have waited for several years for equalization, and that equalized producers have for a number of years not shared in any of the benefits of new quota created by new usage.

It is further recognized that it is necessary to promote and to attempt to assure more rapid equalization of the holders of pool quota issued subsequent to the initial allocation of production bases and pool quota pursuant to this chapter, and to provide for a program for entry and for equalization of new producers.

It is the purpose of the amendments to this chapter to provide a reasonable and equitable mechanism to permit more accelerated equalization, to equalize the holders of pool quota and production base initially issued under the Gonsalves Milk Pooling Act and who are not yet equalized, and to legislatively allocate in a fair and reasonable manner a share of new pool quota created by new usage to existing pool quota holders who are not equalized, to new producers, and to equalized pool quota holders who have not shared in the benefits of the growth of new usage since the original enactment of the Gonsalves Milk Pooling Act and the pooling plan thereunder.

SEC. 7. Section 62705 of the Food and Agricultural Code is amended to read:

62705. After the director, with the advice and assistance of the formulation committee, has formulated the proposed plan, which shall be within 90 days of the effective date of this chapter, he shall hold one or more public hearings in each proposed pooling area to be affected by the proposed plan for the purposes of considering modification of the proposed boundaries and formulating the pooling plan which will best accomplish the purposes of this chapter. Notice of such public hearings shall be given to each producer, including each member of cooperative marketing associations, who ships fluid milk to a distributor and to each distributor who receives fluid milk from producers. The procedures for the giving of notice and the conducting of such hearings shall be the same as those provided in Chapter 2 (commencing with Section 61801) of this part for public hearings on stabilization and marketing plans.

SEC. 8. Section 62707 of the Food and Agriculture Code is amended to read:

62707. The formulation committee shall make recommendations to the director for inclusion in the pooling plan, and the director shall include in the pooling plan, the following:

(a) The establishment of one or more pools throughout the state.

(b) The base period to be used in determining the production and class 1 usage bases of each producer directly affected by the pooling plan. Such base period shall, at the producers option, be his fluid milk production and usage in the pool area during the calendar year 1967 on an average daily basis or his production and usage in the pool area during the last six months of 1966 on an average daily basis.

As to a producer south and east of San Gorgonio Pass, his production base may at his option, be four times his production in the months of December, 1966, and January and February, 1967.

If a producer, during any such base period, had a valid contract with a distributor, or as a member of a cooperative association had an allocation, which provided that the distributor or cooperative association was required to accept a larger amount of fluid milk from such producer than the producer actually produced during such period, on proof satisfactory to the director of such contract or allocation, the producer may, at his option, have the amount specified in the contract or allocation established as his production base.

(c) The establishment of a class 1 usage for each producer, which shall be the amount of his production of fluid milk accounted for as class 1, and any fluid milk sold for use as class 1 to a United States military installation but which was not accounted for as class 1.

(d) The allocation to each producer within any pool of a pool quota, which, initially, shall be 110 percent of that producer's class 1 usage, as determined in subdivision (c) of this section.

(e) The determination of new class 1 usage and the allocation of pool quota based thereon in a manner consistent with effectuating the purposes of this chapter.

All producers who have not reached the equalization point shall share in such allocation of pool quota on the basis of a formula which shall give substantial weight to each producer's production base, but which at the same time shall allocate a larger percentage to hardship cases and low class 1 usage producers.

Such allocations shall be made on the basis of each individual producer, with each cooperative association considered as a single producer. The cooperative associations of producers shall reassign any new quota to their own members subject to the provisions of Section 62710.

Annually, within not more than four months after August 31 of each year, the pool quota shall be adjusted by each component to reflect any such additional pool quota. It is intended that such increase shall generally reflect the increased class 1 usage which developed during the preceding year, adjusted for the director's estimate of class 1 requirements for the succeeding year, allocated in the manner specified in the pool plan. There shall be no downward

adjustment of pool quota below the quota initially established pursuant to this chapter.

(f) The establishment of production bases and pool quotas for new fluid milk producers who wish to enter the pooling plan after the effective date of the plan. The recommendations of the committee shall be reasonably equitable to both such new producers and to participating producers and consistent with effectuating the purposes of this chapter

(g) The transfer of production bases and pool quotas from one fluid milk producer to another under conditions so designed as to prevent abuses in such transfers and to avoid the development of excessive values for such bases and quotas.

(h) Any and all other matters necessary and desirable to effectuate the provisions of this chapter.

The recommendations of the formulation committee and the pooling plan may provide exceptions from the plan's general application for individual cases of hardship.

SEC. 9. Section 62707.1 is added to the Food and Agriculture Code, to read:

62707.1. (a) The director, on July 1, 1978, shall issue new pool quota sufficient to bring all holders of production base and pool quota as of that date (excluding any production base and pool quota issued pursuant to subdivision (f) of Section 62707), to the equalization point both on the fat and the solids-not-fat components.

(b) Subsequent to July 1, 1978, all allocations of new class I usage determined under subdivision (e) of Section 62707, shall be made as follows:

(1) Forty percent to producers whose total production base and pool quota are below the equalization point, to be allocated according to provisions adopted by the director in the applicable pooling plan;

(2) Forty percent to producers whose total production base and pool quota are equal to or above the equalization point, such allocation to each such producer to be in the same ratio to the total allocation under this subdivision as that producer's total holdings of quota bears to the total quota holdings of all equalized producers;

(3) The remaining 20 percent shall be utilized for new producer allocations under subdivision (f) of Section 62707, according to the provisions in the then applicable pooling plan.

The terms "total production and pool quota" and "total quota" shall for the purposes of this subdivision, include allocations of production base and pool quota issued pursuant to subdivision (f) of Section 62707.

SEC. 10. Section 62708 of the Food and Agricultural Code is repealed.

SEC. 11. Section 62708 is added to the Food and Agricultural Code, to read:

62708. "Producer-handler" for purposes of this chapter is any person that is both a producer and a handler of fluid milk or fluid

cream For the purposes of this chapter, a producer-handler is a producer in any transaction which involves the delivery of bulk fluid milk or bulk fluid cream which was produced by him to a handler, or any nonprofit cooperative association of producers and is a handler in any transaction which involves the purchase by him of fluid milk or fluid cream, the pasteurization or packaging of fluid milk or fluid cream, or the sale or delivery of packaged fluid milk or packaged fluid cream to any person.

A producer-handler, including partnerships or corporations with common ownership, where the ownership of the producing entity is substantially proportionate to the ownership of the handling entity, shall have the option, at the time of the adoption of the initial pooling plan under this chapter, to have a production base and pool quota established as a part of the pooling plan provided for in this chapter, or to elect to operate entirely outside of the pool for producer payment purposes This option is available only in such cases where the producer-handler on January 1, 1968, exercised complete and exclusive control over the operation and management of a plant at which he processes milk received from his own milk production facilities, except for purchases in bulk or packaged fluid milk, fluid skim milk or fluid cream which do not exceed an annual average of 50 gallons per day or 5 percent of his total fluid milk sales, whichever is greater, and only in such case as the producer-handler had retail sales for its own account of not less than 66⅔ percent of its total class 1 sales.

Any producer-handler electing to be excluded from the pool may at any later time be admitted to the pool, but with only the production base and pool quota to which he would have originally been entitled or his average daily production and class 1 usage during the 12 months preceding his entry into the pool, whichever is less.

SEC. 12. Section 62708.1 is added to the Food and Agricultural Code, to read:

62708.1. Any producer-handler who qualified and elected an exemption under Section 62708 and continued eligibility for such exemption by complying with the requirements of that section shall be entitled after January 1, 1978, to continue such exemption provided that such producer-handler maintains retail sales for his own account of not less than 50 percent of his total class 1 sales and his purchases do not exceed 25 percent of his total fluid milk sales, except that any purchases exceeding 5 percent of such sales shall be from pool sources.

Any producer-handler qualifying for and electing an exemption under Section 62708, and maintaining such exemption under Section 62708 and this section, may, after January 1, 1978, elect during the 61-day period of August 1 through September 30 of any year to obtain a production base and pool quota under Section 62708 and enter the pool subject to the option provision of Section 62708.5.

SEC. 13. Section 62708.5 of the Food and Agricultural Code is repealed.

SEC. 14. Section 62708.5 is added to the Food and Agricultural Code, to read:

62708.5. A producer-handler for the purposes of this chapter shall also include, as a separate and distinct category of producer-handlers, any producer and any handler who purchases or handles fluid milk or fluid cream produced by such producer if they meet the requirement that all of the ownership of the handler and all of the ownership of the producer is owned by the same person or persons and their ownership in the producer or handler is at least 95 percent identical for each person with their ownership in the handler or producer Such ownership shall not exceed 10 individual persons or owners of equitable interest in a partnership, corporation, or other legally constituted business association.

The ownership required by this section may be through a partnership, corporation or other legally constituted business association so long as the entities are owned by the same person or persons, and there is at least 95-percent identity of ownership for each person with their ownership in the handler or producer. For the purposes of this section a "person" or "persons" includes the spouse, or other persons of lineal consanguinity of the first or second degree or collateral consanguinity to the fourth degree as defined in the Probate Code, and their spouses, and includes an adopted child the same as a natural child and kindred of the half blood equally with those of the whole blood of the owner and ownerships by persons so related shall be considered single ownership by one person. For the purposes of this section, property pledged or hypothecated in any manner to others shall be considered "owned" so long as equitable ownership with management and control remain with the producer-handler.

Ownership as provided in this section shall have existed at the time of the base period selected by the producer under Section 62707 and at all other times thereafter.

Any such producer-distributor shall have the option within 90 days of the enactment of this section at the 1969 Regular Session:

(a) To join and operate wholly within such pool, or

(b) To have its entire original production base and pool quota determined during the base period it selected as a producer pursuant to Section 62707, established as a part of such pooling plan, and, nevertheless elect to operate entirely outside of the pool to the extent of provisions of this section.

Any producer-handler who qualifies under this section and elects to operate outside the pool, to the extent of the authority granted, shall have the right to make deductions as follows from its own class 1 sales, excluding sales to a handler, whether in bulk or packaged, before being required to account to the pool:

(1) If it has not sold production base and pool quota subsequent to February 9, 1977, it may deduct its original quota, and quota purchased prior to January 1, 1978, plus a daily deduction of 150 pounds milk fat and 375 pounds solids not fat.

(2) If it has sold production base and pool quota subsequent to February 9, 1977, it may only deduct its original pool quota, and quota purchased prior to January 1, 1978

(3) The deductions from class 1 sales authorized pursuant to this section may be made irrespective of the fact that the average class 1 usage in the pool for that month may be less than 100 percent of the pool quota in that pool.

Any production subject to this section from the producer-handler selecting this option shall not have the right to participate in the quota pool, irrespective of the fact that the producer-handler did not sell all of the quota as class I, and will participate in either the base pool or the overbase pool depending upon whether the total production base of the producer is sufficient to cover the milk delivered in excess of the class I usage exempted hereunder, otherwise the production in excess of the exempt producer-handler's own class I sales as herein defined shall be accounted for as overbase milk.

The fact that a producer-handler qualifies as to one of its milk production operations under this section does not prevent it from operating on an entirely separate nonqualifying basis (and therefore subject to pooling) at other milk production facilities, and with other nonqualifying persons at such other milk production facilities. A producer-handler can neither buy nor sell pool quota and transfer therewith the option granted under this division but this shall not prevent him from purchasing or selling pool quota or production base as otherwise provided in this chapter.

If at any time ownership as defined in this section ceases, the producer-handler shall no longer be eligible for the options in this section and shall account to the pool as a separate handler and shall be entitled to reentry into producer participation in the pool on the same basis as a producer-handler may under the last paragraph of Section 62708

SEC 15. Section 62712 of the Food and Agricultural Code is amended to read:

62712. (a) The director may require handlers, including cooperative associations acting as handlers, to make reports at such intervals and in such detail as he finds necessary for the operation of the pool. In conjunction with the pools authorized by this chapter, the director may require handlers to make payments into a settlement fund for fluid milk received and the director may provide for the disbursement of moneys from the settlement fund in the course of administering such pools. The director may employ a pool manager to operate each pool and may permit such pool manager to employ such other necessary personnel and incur such expenses incidental to the operation of the pool as the director finds are necessary.

Handlers who have a financial obligation to the pool resulting from the operation of the pooling plan shall pay such obligations to the pool manager each month as requested. All of such moneys shall be

deposited in a bank or banks approved by the director, and shall be paid out by the pool manager to handlers who have pool credits resulting from the operation of the pooling plan. All financial operations of each pool shall be audited by the Department of Agriculture at least once annually. The director may require handlers to make such deductions from amounts due to producers as he finds are necessary to establish a reserve fund to insure prompt payment to producers.

(b) The pool manager shall effectuate the purposes of Section 62711 by designating the percentage of each price class (i.e., classes 1, 2, 3, and class 4) to be paid within each pool settlement classification (i.e., quota pool, production pool, and overproduction pool), and in so doing he shall allocate the highest usage available, first to the quota pool, next to the production pool, and last to the overproduction pool.

(c) All pool quotas initially determined pursuant to Section 62707, except as modified pursuant to Section 62709, shall be recognized and shall not in any way be diminished.

SEC. 16. Section 62717 of the Food and Agricultural Code is amended to read:

62717. If the director finds that producers on a statewide basis have assented in writing to the proposed pooling plan submitted to them for assent, the director shall place the proposed pool plan into effect. The director shall find that producers have assented to the plan if he finds on a statewide basis that:

(a) Not less than 51 percent of the total number of eligible producers in the state shall have voted in the referendum; and

(b) Sixty-five percent or more of the total number of eligible producers who voted in the referendum who produced 51 percent or more of the total amount of fluid milk produced in the state during the calendar month next preceding the month of the commencement of the referendum period by all producers who voted in referendum approve the plan; or

(c) Fifty-one percent or more of the total number of eligible producers who voted in the referendum who produced 65 percent or more of the total amount of fluid milk produced in the state during the calendar month next preceding the month of the commencement of the referendum period by all producers who voted in the refererndum, approve the plan.

If the plan is not approved, the director may resubmit the plan, or submit a new plan, at any time after six months from the date the director announces the pool plan was not approved.

The director may amend the plan, after notice and public hearing has been given in the same manner as is provided in Chapter 2 (commencing with Section 61801) of this part for stabilization and marketing plans, if he finds that the amendment is necessary to effectuate the purposes of this chapter. After the hearing, the director upon his own motion may make nonsubstantive amendments to the plan. The director may make substantive

amendments to the plan only if producers assent to the proposed amendments at a referendum conducted in the same manner and in the same number as provided for the referendum approving the pooling plan.

The director may terminate the plan on a statewide basis after notice and public hearing has been given in the same manner as is provided in Chapter 2 (commencing with Section 61801) of this part for stabilization and marketing plans, if he finds that the plan is no longer in conformity with the standards described in, or will not tend to effectuate the purposes of, this chapter. Such hearing may be held upon the motion of the director, and shall be held upon receipt of a petition signed by producers representing not less than 25 percent of the total number of all producers and not less than 25 percent of the total production of all producers.

The director shall submit the termination of the plan on a statewide basis in a referendum conducted in the same manner as provided for initial approval of such plan if, after notice and public hearing has been given in the same manner as is provided in Chapter 2 (commencing with Section 61801) of this part for stabilization and marketing plans, he finds that a substantial question exists as to whether or not producers desire the plan to continue and shall submit the plan for termination upon receipt of a petition requesting termination signed by producers representing not less than 25 percent of the total number of all producers and not less than 25 percent of the total production of all producers. The plan shall be terminated if termination is favored by the same percentage of producers producing the same amount of fluid milk as required to initiate the plan.

SEC. 17 Section 62719 of the Food and Agricultural Code is amended to read·

62719. The director shall, from nominations submitted by producers, appoint a review board composed of no less than 12 members to advise him in the administration of the pool plan. The director shall appoint three members of the first board for a one-year term, three members for two-year terms, three members for three-year terms, and three members for four-year terms. Thereafter all appointments shall be for a term of four years and no member may be appointed to more than two four-year terms. The board members shall be producers and not more than three may be producer-managers of associations and not more than two shall be producer-handlers. The board members shall give proportionate representation to all areas of the state, with due regard to the relative production and usage of fluid milk in the various areas of the state. Each member of the review board shall be paid not less than twenty-five dollars ($25) or more than thirty-five dollars ($35) per day plus travel expenses, including expenses for lodging and meals, which are incurred in the attendance at board meetings or in conducting the business of the board; all per diem and expenses being subject to approval by the director.

SEC. 18 Section 62722 of the Food and Agricultural Code is repealed.

SEC 19. Section 62722 is added to the Food and Agricultural Code, to read:

62722 Pooling plans shall not apply to the production of goats milk or producer-handlers who produce and sell less than 500 gallons of fluid milk used for class I purposes per day unless they specifically request entry into the pool at the time of the adoption of the initial pooling plan for that area. Producers of certified milk or guaranteed raw milk shall have the option, at the time of the adoption of the initial pooling plan under this chapter, to be subject to such plan, and accordingly to have a production base and pool quota established for such producer, or to be excluded from such plan.

(a) Any such producer of less than 500 gallons of fluid milk per day, or any such producer of certified milk, or any such producer of guaranteed raw milk, electing to be excluded from such plan, may at any later time be admitted to the pool, but with only the production base and pool quota to which he would have originally been entitled or his existing production and average daily class I usage during the 12 months preceding his entry into the pool, whichever is less.

(b) Any producer claiming exemptions from the provision of any pooling plan by reason of the provisions of Section 62708, 62708.1, or this section, who loses his exemption by failure to meet the requirements for exemptions set forth in those sections shall automatically be deemed to have applied for and become a part of a producer pool on September 1st following any year ended August 31st during which the director determines he is no longer entitled to exemption, and his admittance into such a pool shall be on the basis of the production base and pool quota calculations as set forth in those sections.

SEC. 20 Section 62723 of the Food and Agricultural Code is amended to read:

62723. Unless otherwise defined in this chapter, the definitions contained in Chapter 2 (commencing with Section 61801) of this part govern the construction of this chapter.

For the purposes of this chapter, the following definitions shall apply:

(a) The terms "distributor" and "processor" shall have the same definition as the term "handler" contained in Section 61826 of this code.

(b) "Equalization point" shall mean that point at which pool quota held is equal to 95 percent of production base held.

(c) "Fluid cream" shall have the same definition as the term "market cream" contained in Section 61827 of this code.

(d) "Fluid milk" shall have the same definition as the term "market milk" contained in Section 61828 of this code.

(e) "Fluid skim milk" shall have the same definition as the term "market skim milk" contained in Section 61829 of this code.

SEC 21 Section 62727 is added to the Food and Agricultural Code, to read:

62727 It is the intent of the Legislature that the power conferred in this chapter shall be liberally construed. The provisions of this chapter or subsequent amendment are severable If any section, subdivision, paragraph, sentence, clause, or phrase of this chapter should be declared or held unconstitutional or invalid for any reason, such unconstitutionality or invalidity shall not affect the validity of any other provision of this chapter. The Legislature hereby declares that it would have enacted each other such section, subdivision, paragraph, sentence, clause, or phrase of this chapter irrespective of the fact that one or more sections, subdivisions, paragraphs, sentences, clauses, or phrases has been declared unconstitutional or invalid. Provided further that any such finding of invalidity or unconstitutionality shall not invalidate, affect or impair pool quotas and production bases heretofore issued under the Gonsalves Milk Pooling Act or pooling plan promulgated thereunder.

SEC. 22. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes

CHAPTER 1194

An act to add Article 5 (commencing with Section 13280) to Chapter 4 of Division 7 of the Water Code, and to amend Section 11 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962, First Extraordinary Session), relating to water.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1 Article 5 (commencing with Section 13280) is added to Chapter 4 of Division 7 of the Water Code, to read:

Article 5. Individual Disposal Systems

13280. A determination that discharge of waste from existing or new individual disposal systems or from community collection and disposal systems which utilize subsurface disposal should not be permitted shall be supported by substantial evidence in the record that discharge of waste from such disposal systems will result in violation of water quality objectives, will impair present or future beneficial uses of water, will cause pollution, nuisance, or contamination, or will unreasonably degrade the quality of any waters of the state.

13281. In making such determination, the regional board shall consider all relevant evidence related to such discharge, including, but not limited to, those factors set forth in Section 13241, possible adverse impacts if such discharge is permitted, failure rates of any existing individual disposal systems whether due to inadequate design, construction or maintenance or unsuitable hydrogeologic conditions, evidence of any existing, prior, or potential contamination, existing and planned land use, dwelling density, historical population growth, and such other criteria as may be established pursuant to guidelines, regulations, or policies adopted by the state board.

13282. Where it appears that adequate protection of water quality, protection of beneficial uses of water, and prevention of nuisance, pollution, and contamination can be attained by appropriate design,

location, sizing, spacing, construction, and maintenance of individual disposal systems in lieu of elimination of discharges from such systems, and where an authorized public agency provides satisfactory assurance to the regional board that such systems will be appropriately designed, located, sized, spaced, constructed, and maintained, such discharges shall be permitted so long as such systems are adequately designed, located, sized, spaced, constructed, and maintained.

13283. In reviewing any determination that discharge of waste from existing or new individual disposal systems should not be permitted, the state board shall include a preliminary review of possible alternatives necessary to achieve protection of water quality and present and future beneficial uses of water, and prevention of nuisance, pollution, and contamination, including, but not limited to, community collection and waste disposal systems which utilize subsurface disposal, and possible combinations of individual disposal systems, community collection and disposal systems which utilize subsurface disposal, and conventional treatment systems.

13284. The state board may adopt guidelines, regulations, or policies necessary to implement the provisions of this article.

SEC. 2. Section 11 of the Crestline-Lake Arrowhead Water Agency Act (Chapter 40 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 11. The Crestline-Lake Arrowhead Water Agency incorporated as herein provided, shall have all of the following powers:

(1) To have perpetual succession.

(2) To sue and be sued, except as otherwise provided herein or by law, in all actions and proceedings in all courts and tribunals of competent jurisdiction.

(a) It is the policy of this state to encourage and enable disabled persons to participate fully in the social and economic life of the state

and to engage in remunerative employment.

(b) It is the policy of this state that qualified disabled persons shall be employed in the state service, the service of the political subdivisions of the state, in public schools, and in all other employment supported in whole or in part by public funds on the same terms and conditions as the nondisabled, unless it is shown that the particular disability is job related.

19231. As used in this article, "disabled person" means any person who (1) has a physical or mental impairment which substantially limits one or more of such person's major life activities, (2) has a record of such impairment, or (3) is regarded as having such an impairment.

A disabled individual is "substantially limited" if he or she is likely to experience difficulty in securing, retaining, or advancing in employment because of a disability.

19232. Each state agency shall be responsible for establishing an effective affirmative action program to ensure disabled persons, who are capable of remunerative employment, access to positions in state service on an equal and competitive basis with the general population.

Each state agency shall develop and implement an affirmative action employment plan for disabled persons which shall include goals and timetables. Such goals and timetables shall be set annually for disabilities identified pursuant to guidelines established by the State Personnel Board, and shall be submitted to the board no later than June 1 of each year beginning in 1978, for review and approval or modification. (c) Establish guidelines for state agencies and departments to set goals and timetables to improve the representation of the disabled in the state work force. Goals and timetables shall be set by at least job category.

19234. Each state agency shall annually review its hiring activities designed to achieve the employment objectives established pursuant to subdivision (c) of Section 19233 to determine if any category of disabled persons have been disproportionately excluded on a non-job-related basis from employment. If any category has been so excluded, the agency shall correct such underrepresentation.

19235. Each state agency shall establish a committee of disabled employees to advise the head of the agency on matters relating to the

formulation and implementation of the plan to overcome and correct any underrepresentation determined pursuant to Section 19234.

With respect to actions involving public entities, this section applies to allowances against, but not in favor of, public entities, and no claim shall be required to be filed therefor.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to this section nor shall there be any appropriation made by this act because duties, obligations, or responsibilities imposed on local governmental entities by this act are such that related costs are incurred as a part of their normal operating procedures.

(4) Less costly alternatives for the project were evaluated by the applicant and found not to be as desirable as the proposed project.

This section shall remain in effect only until July 1, 1986, and as of such date is repealed, unless a later enacted statute, which is chaptered before July 1, 1986, deletes or extends such date.

(2) Completion of construction work on the project to such a degree as to justify and require a progress payment by the applicant to the general contractor under terms of the construction agreement. If the construction agreement does not require progress payments, then completion of construction shall be at that stage where an initial progress payment would otherwise be required in accordance with the usual and customary practices of the building industry.

(c) The director may extend the time for commencement or completion of a project exempted pursuant to Section 437.13 if the holder of the certificate of exemption satisfies the director that the delay is the result of an unpreventable or unexpected occurrence such as an emergency, strike, disaster, unforeseen shortage of materials, or other unforeseen event.

Article 3. Applications for Development Projects

65940. Not later than June 30, 1978, each state agency shall compile one or more lists which shall specify in detail the information which will be required from any applicant for a development project. Copies of such information shall be made available to all applicants for development projects and to any person who requests such information.

65941. The information compiled pursuant to Section 65940 shall also indicate the criteria which such agency will apply in order to determine the completeness of any application submitted to it for a development project.

65942. The information and the criteria specified in Sections 65940 and 65941 shall be revised as needed so that they shall be current and accurate at all times.

65943. Not later than 30 calendar days after any public agency has received an application for a development project, such agency shall determine in writing whether such application is complete and shall immediately transmit such determination to the applicant for the development project. In the event that the application is determined not to be complete, the agency's determination shall specify those parts of the application which are incomplete and shall indicate the manner in which they can be made complete.

65944. After a public agency accepts an application as complete, such agency shall not subsequently request of an applicant any new or additional information which, with respect to a state agency, was not specified in the list prepared pursuant to Section 65940, or, with respect to a local agency, was not required as part of the application. Such agency may, in the course of processing the application, request the applicant to clarify, amplify, correct, or otherwise supplement the information required for the application.

Article 4. Consolidated Hearings on Development Projects

65945. In the event that a development project requires approval by more than one public agency, the Office of Planning and Research shall, to the maximum extent feasible, consolidate the various hearings which may be required in order to minimize the time required for such hearings. Such consolidation shall be for procedural purposes only and shall not be construed as consolidating the statutory responsibilities of the public agencies conducting the consolidated hearings.

Article 5. Approval of Development Permits

65950. Any public agency which is the lead agency for a development project shall approve or disapprove such project within one year from the date on which an application requesting approval of such project has been received and accepted as complete by such

agency.

65951. In the event that a combined environmental impact report-environmental impact statement is being prepared on a development project pursuant to Section 21083.6 of the Public Resources Code, a lead agency may waive the time limits established in Section 65950. In any event, such lead agency shall approve or disapprove such project within 60 days after the combined environmental impact report-environmental impact statement has been completed and adopted.

(a) Within 180 days from the date on which the lead agency has approved or disapproved such project.

(b) Within 180 days of the date on which completed applications for such projects have been received and accepted as complete by each such responsible agency.

65953. All time limits specified in this article are maximum time limits for approving or disapproving development projects. All public agencies shall, if possible, approve or disapprove development projects in shorter periods of time.

65956. In the event that a lead agency or a responsible agency fails to act to approve or to disapprove a project within the time limits required by this article, such failure to act shall be deemed approval of the development project.

65957. The time limits established by Sections 65950 and 65952 may be extended for a period not to exceed 90 days upon consent of the public agency and the applicant.

(a) The purpose of an environmental impact report is to identify the significant effects of a project on the environment, to identify alternatives to the project, and to indicate the manner in which such significant effects can be mitigated or avoided.

(b) Each public agency shall mitigate or avoid the significant effects on the environment of projects it approves or carries out whenever it is feasible to do so.

(c) In the event that economic, social, or other conditions make

(d) In applying the policies of subdivisions (b) and (c) to individual projects, the responsibility of a public agency which is functioning as a lead agency shall differ from that of a public agency which is functioning as a responsible agency. A public agency functioning as a lead agency shall have responsibility for considering the effects, both individual and collective, of all activities involved in a project. A public agency functioning as a responsible agency shall have responsibility for considering only the effects of those activities involved in a project, which it is required by law to carry out or approve. (4) Specific actions, necessary to prevent or mitigate an emergency.

Upon receipt of such notice, each responsible agency shall specify to the lead agency the scope and content of the environmental information which is germane to such responsible agency's statutory responsibilities in connection with the proposed project and which, pursuant to the requirements of this division, shall be included in the environmental impact report. Such information shall be specified in writing and shall be communicated to the lead agency by certified mail not later than 45 days after receipt of the notice of the lead agency's determination. The lead agency shall request similar guidance from appropriate federal agencies.

(b) In order to expedite the requirements of subdivision (a), the lead agency or any responsible agency may request one or more meetings between representatives of such agencies for the purpose of assisting the lead agency to determine the scope and content of the environmental information such responsible agency may require. Therefore, if this bill and Senate Bill No. 1040 are both chaptered and become effective on or before January 1 1978, both bills amend Section 21080, this bill is chaptered after Senate Bill No. 1040, and Assembly Bill No. 1466 is not chaptered or as chaptered does not amend that section, Section 21 shall be operative and Sections 2, 20, and 22 of this act shall not become operative.

(3) If this bill and Assembly Bill No. 1466 and Senate Bill No. 1040 are all chaptered and become effective on or before January 1, 1978, all three bills amend Section 21080 of the Public Resources Code, and this bill is chaptered after Assembly Bill No. 1466 and Senate Bill No. 1040, Section 21080 of the Public Resources Code, as amended by Section 1 of Senate Bill No. 1040, shall be further amended on the effective date of this act in the form set forth in Section 22 of this act to incorporate the changes proposed by all three bills. Therefore, if this bill and Assembly Bill No. 1466 and Senate Bill No. 1040 are all chaptered and become effective on or before January 1, 1978, all three bills amend Section 21080 of the Public Resources Code, and this bill is chaptered after Assembly Bill No. 1466 and Senate Bill No. 1040, Section 22 of this act shall be operative and Sections 2, 20, and 21 of this act shall not become operative.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 94300) of Part 59 of the Education Code is repealed.

SEC. 2. Chapter 3 (commencing with Section 94300) is added to Part 59 of the Education Code, to read:

CHAPTER 3. PRIVATE POSTSECONDARY INSTITUTIONS

Article 1. General Provisions

94300. This chapter shall be known and may be cited as the "Private Postsecondary Education Act of 1977."

94301. It is the intent of this Legislature to encourage privately supported education and protect the integrity of degrees and diplomas conferred by privately supported as well as publicly supported educational institutions.

It is also the intent of the Legislature to encourage the recognition

by tax-supported institutions of work completed and degrees and diplomas issued by privately supported institutions, to the end that students may have equal opportunities for equal accomplishment and ability.

In the present period, the need for educational services is so great that it cannot be met by tax-supported institutions alone. The contribution of privately supported educational institutions to the preservation of our liberties is essential. These objectives can best be achieved by protecting the integrity of degrees and diplomas issued by such institutions.

93402. As used in this chapter, unless the context requires otherwise:

(a) "Agent" means any person who, at a place away from the principal school premises or site of instruction, whose primary task is to serve as a paid recruiter, while owning an interest in, employed by, or representing for remuneration or other consideration a private postsecondary educational institution located within or without this state, offers or attempts to secure enrollment of any person within this state and accepts application fees or admissions fees for education in an institution. Administrators and faculty who make informational public appearances are exempted from this definition.

(b) "Agent's permit" means a nontransferable written document issued to an agent pursuant to the provisions of this chapter by the Superintendent of Public Instruction.

(c) "Approval to operate" means that the institution so approved has met recognized and accepted standards as determined by the Superintendent of Public Instruction in carrying out the provisions of this chapter to operate a postsecondary educational institution in this state.

(d) "Authorization to operate" means that the institution so authorized has been granted permission by the Superintendent of Public Instruction to operate as a postsecondary educational institution.

(e) "Council" means the Council for Private Postsecondary Educational Institutions established pursuant to Section 94304.

(f) "Degree" means any "academic degree" or "honorary degree" or title of any designation, mark, appellation, series of letters or words such as, but not limited to, associate, bachelor, master, doctor, or fellow which signifies, purports, or is generally taken to signify satisfactory completion of the requirements of an academic, educational, technological, or professional program of study beyond the secondary school level or is an honorary title conferred for recognition of some meritorious achievement.

(g) "Diploma" means any "diploma," "certificate," "transcript," "document," or other writing in any language other than a degree.

(h) "Education" or "education services" includes, but is not limited to, any class, course, or program of training, instruction, or study.

(i) "Superintendent" refers to the Superintendent of Public

Instruction.

(j) "To offer" includes, in addition to its usual meanings, advertising, publicizing, soliciting, or encouraging any person, directly or indirectly, in any form, to perform the act described.

(k) "To operate" an educational institution, or like term, means to establish, keep, or maintain any facility or location in this state where, from, or through which educational services are offered or educational degrees or diplomas are offered or granted.

(*l*) "Postsecondary educational institution" or "institution" includes, but is not limited to, an academic, vocational, technical, business, professional, home study school, college, or university, or other organization (comprised of a person, firm, association, partnership, or corporation) which offers educational degrees or diplomas, or offers instruction or educational services primarily to persons who have completed or terminated their secondary education or who are beyond the age of compulsory high school attendance. Auxiliary organizations of the California State University and Colleges are not included within this division and are not governed by this article.

(m) "Vocational objective" means an objective which is ordinarily attained upon completion of a course which qualifies the person or leads to employment in a recognized occupation listed in the latest "Dictionary of Occupational Titles," issued by the United States Department of Labor, or declared by that department to be eligible for such listing, or leading to an employable objective determined by the council

(n) "Professional objective" means an objective which ordinarily is attained upon the completion of a curriculum or program of studies leading to a recognized profession or semiprofession.

(o) "Educational objective" means an objective which ordinarily is attained upon the completion of a program consisting of any curriculum, or any combination of unit courses or subjects offered by an educational institution which normally leads to earning a college degree.

(p) "Technological objective" means one which is ordinarily attained upon completion of a curriculum or program of studies which emphasizes the application of principles to the solution of practical problems rather than the theoretical development of those principles.

94303. The following education and educational institutions, and these only, are exempted from the provisions of this chapter:

(a) Education solely avocational or recreational in nature, as determined by the superintendent, and institutions offering such education exclusively.

(b) A nonprofit institution owned, controlled, and operated and maintained by a bona fide church or religious denomination if such education is limited to instructions in the principles of that church or denomination, or to courses offered pursuant to Section 2789 of the Business and Professions Code, and the diploma or degree is limited

94304. (a) There is in the Department of Education a Council for Private Postsecondary Educational Institutions consisting of the superintendent, or his designee, and 14 additional members who shall be appointed by the superintendent, subject to the concurrence of the State Board of Education, as follows:

The terms of the members of the council shall be four years. No appointee shall serve on the council for more than eight consecutive years.

Any member of the council who misses two consecutive regular meetings of the council without cause forfeits the office, thereby creating a vacancy

No person shall be deemed to be a member of the council until his appointment has been concurred in by the State Board of Education, which shall take action regarding such appointment at the board meeting next following the appointment.

At the first meeting of the council, and annually thereafter, the members shall select one of their number to serve as chairman and one to serve as vice chairman. The vice chairman shall preside over all meetings of the council in the absence of the chairman.

(c) Any vacancy on the council shall be filled in the same manner as provided for appointment of council members in subdivision (a). The appointee to fill a vacancy shall hold office only for the balance of the unexpired term.

(e) The council shall determine the time and place of council meetings which shall not be fewer than six times in each calendar year.

(f) The council shall:

(1) Advise the superintendent on the establishment of policy for the administration of this chapter.

The special committees shall make such inspections and studies as may be necessary to enable them to advise the council and the superintendent in regard to action to be taken in any particular situation. Members of these special committees

shall not be connected in any way with a school which is the subject of inspection or investigation. The members of the special committees shall serve at no expense to the state.

(g) Publish, annually, for public distribution a directory of all institutions authorized to operate in this state under provisions of this chapter. The directory shall contain as a minimum, the names and addresses of such institutions together with a notation of the statute section or sections under which the institution has been authorized or approved.

(h) Negotiate and enter into interstate reciprocity agreements with similar agencies in other states if, in the judgment of the superintendent, such agreements are, or will be, helpful in effectuating the purposes of this chapter; except that nothing contained in any such reciprocity agreement shall be construed as limiting the superintendent's powers, duties, and responsibilities with respect to investigating or acting upon any application for issuance of or renewal of any agent's permit or with respect to the enforcement of any provision of this chapter or any of the rules or regulations promulgated under this chapter Such agreements shall not include institutions authorized to operate under subdivision (b) of Section 94311 nor be in conflict with agreements arranged by the state licensing boards authorized to negotiate such agreements through provisions of the Business and Professions Code.

(k) Request the Attorney General to bring actions pursuant to paragraph (2) of subdivision (a) of Section 94339 which the superintendent deems are necessary to enforce the provisions of this chapter.

Article 2. Requirements and Standards

94310. No institution may issue, confer, or award an academic or honorary degree unless such institution meets the requirements of at least one of the three subdivisions of this section.

(a) The institution, which at the time of the issuance of a degree, has accreditation of the institution, program or specific course of study upon which the degree is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education, or by the Committee of Bar Examiners for the State of California. The institution must file with the superintendent an annual affidavit by the administrative head of the institution stating that the institution is so accredited. Institutions authorized to operate under this subdivision may issue diplomas and certificates as well as degrees.

(b) The institution has been approved by the superintendent to award or issue specific degrees. The superintendent shall not approve an institution to issue degrees until it is determined, based upon information submitted to him or her, that the institution has the facilities, financial resources, administrative capabilities, faculty, and other necessary educational expertise and resources to afford students and require of students the completion of a program of education which will prepare them for the attainment of a

professional, technological, or educational objective, including, but not limited to, a degree; and the curriculum is consistent in quality with curricula offered by established institutions that issue the appropriate degree upon the satisfactory completion thereof. This shall include the determination that the course for which the degree is granted achieves its professed or claimed objective for higher education. The criteria developed hereunder shall be such as will effectuate the purposes of this chapter, but will not unreasonably hinder legitimate educational innovation.

Upon the receipt of a complete application, the superintendent shall, within 90 days, impanel a special committee for the purpose of evaluating the applicant institution. Within 90 days of the receipt of the special committee's recommendations, the superintendent shall take one of the following actions:

(1) Grant a full approval for a period not to exceed three years.

(2) Grant a conditional approval for a period not to exceed one year plus the remainder of the year in which the application was made.

(3) Disapprove the application. If the application is disapproved or a conditional approval is granted, the institution shall be advised of the specific reasons for such action and the specific corrective measures needed to achieve full approval.

Those institutions approved to issue degrees pursuant to this subdivision may also be authorized by the superintendent to issue diplomas for the completion of courses of study, within their approved degree program, but which do not fully meet the degree requirements. The superintendent may approve an application to issue honorary degrees, provided the applicant institution has full approval to issue academic degrees.

(c) The institution has filed the following affidavits with the superintendent:

(1) An annual affidavit of "full disclosure" describing the institutional objectives and proposed methods of achieving them, the curriculum, instruction, faculty with qualifications, physical facilities, administrative personnel, educational recordkeeping procedures, tuition and fee schedule, tuition refund schedule, scholastic regulations, degrees to be conferred, graduation requirements, and financial stability as evidenced by a certified financial statement for the preceding year.

(2) An affidavit by the president or other head stating that the institution owns, and shall continue to own, net assets in the amount of fifty thousand dollars ($50,000) which is used solely for the purpose of education as stated in paragraph (1) of this subdivision, located within the State of California, and stating that these assets provide sufficient resources to achieve the educational objectives of the institution. Such assets shall include such real property as buildings and facilities, library materials, and instructional materials, but shall not include other personal property not used directly and exclusively by the institution for the purpose of education. The affidavit shall be

accompanied by a statement from a public accountant showing the value of the interest of the institution therein to be at least fifty thousand dollars ($50,000) above the unpaid balance on any note secured by a mortgage, deed of trust, or the unpaid balance on a contract of sale

(3) An annual affidavit by the president or other head setting forth, as a minimum, the following information:

(i) All names, whether real or fictitious, of the person, institution, firm, association, partnership or corporation under which it has done or is doing business

(ii) The address, including city and street, of every place of doing business of the person, firm, association, partnership or corporation, within the State of California.

(iii) The address, including city and street, of the location of the records of the person, firm, association, partnership or corporation, and the name and address, including city and street, of the custodian of such records

(iv) The names and addresses, including city and street, of the directors, if any, and principal officers of the person, firm, association, partnership or corporation.

(v) That the records required by subdivision (k) of Section 94312 are maintained at the address stated, and are true and accurate.

Any change in the items of information required to be included in this affidavit shall be reported to the superintendent within 20 days of such change.

Within 90 days of the receipt of the affidavits described in paragraphs (1), (2), and (3) of this subdivision, and prior to granting the initial authorization to operate, the superintendent shall verify the truthfulness and accuracy of the affidavits by impaneling a three-member team comprised of one representative which he or she shall select, one representative of the California Postsecondary Education Commission, and one representative selected by but not affiliated with the institution to be inspected Within 30 days of the receipt of the report from the three-member team, the superintendent shall grant or deny authorization to operate. Authorization to operate can be denied only if the affidavits are inaccurate. Authorization to operate may be granted for one year initially and for periods of three years upon each subsequent renewal, subject to payment of an annual fee pursuant to Section 94331. For all affidavits beyond the initial application, the superintendent may take such steps as may be necessary to verify the truthfulness and accuracy of the affidavits. Filing pursuant to this subdivision shall not be interpreted to mean, and it shall be unlawful for, any institution to expressly or impliedly represent by any means whatsoever, that the State of California, Superintendent of Public Instruction, the State Board of Education, or the Department of Education has made any evaluation, recognition, accreditation, approval, or endorsement of the course of study or degree.

94311 No postsecondary educational institution may offer courses

of education leading to educational, professional, technological, or vocational objectives unless such institution has been approved by the superintendent as meeting at least one of the following requirements:

(a) A hospital licensed under the provisions of Division 2, Chapter 2 (commencing with Section 1400) of the Health and Safety Code and issues diplomas only in connection with the operation of a hospital.

(b) An institution which is accredited, approved, or licensed by a state board or agency as a school and which issues or confers diplomas in the profession, vocation or occupation controlled by the board or agency accrediting, approving, or licensing it; provided, that this subdivision shall not be construed as authorizing the issuing of a diploma which is not customarily granted for the training given and which is limited to the profession, vocation or occupation controlled by the accrediting, approving, or licensing board or agency.

(c) An institution which at the time of the issuance of a diploma, has accreditation of the institution, program or specific course of study upon which the diploma is based by a national or applicable regional accrediting agency recognized by the United States Department of Health, Education, and Welfare, Office of Education, and the administrative head of the institution has filed with the superintendent an annual affidavit verifying that the institution, program, or each course of study for which a diploma is issued is so accredited.

(d) An institution which has been approved by the superintendent as meeting the following minimum criteria:

(1) That the quality and content of each course or program of instruction, training, or study are such as may reasonably and adequately achieve the stated objective for which the course or program is offered.

(10) Application for such approval shall be made in writing on proper application forms. Pending final approval, the superintendent may issue a provisional approval upon submission of the complete application

Within 30 days following receipt of application, and prior to the issuance of either provisional or final approval, a representative of the superintendent shall personally inspect the school and verify the application. If the visitation does not occur within 30 days following receipt of the application, the institution will automatically receive a provisional approval. Within 30 days following visitation, either final approval, provisional approval, or denial of approval must be given to each application. If the superintendent does not act within 30 days following visitation, the application from the institution will automatically receive approval. If all information is in order, the superintendent may authorize provisional approval. A provisional approval shall not exceed a period of one year, subject to prior termination or conversion to annual approval. A provisional approval may not be extended.

94312. All institutions authorized, or approved, under this chapter shall be maintained and operated, or in the case of a new institution, must demonstrate that it shall be maintained and operated, in compliance with the following minimum standards:

The superintendent shall take into consideration the length and character of the educational program in determining standards for refunds.

(e) That any written contract or agreement signed by a prospective student away from the institution premises will not become operative until the student makes an initial visit to the institution. The provision applies only in those situations when the student begins payment on tuition charges (beyond the registration fee) prior to arriving at the campus. The student is obligated to visit the campus at least six days prior to the start of classes. The school officials are obligated to provide the student with a thorough tour of the campus facilities and to place a written statement, signed by the student, in the student's file to verify that the visitation and campus

tour were provided. Following the visitation to the campus, the student will have a three-day "cooling off" period to void the contract with no money to be retained by the school as provided in subdivision (d) of this section. If the student does not visit the campus after signing the contract, the "cooling off" period will automatically begin six days prior to the start of classes. The student may waive the right to visit the campus at any time after signing the contract. This provision does not apply to correspondence schools or other mail study institutions. The superintendent shall take into consideration the character of the educational program in determining if other types of institutions should also be excluded from this provision.

(f) That any written contract or agreement for a course of study with an institution shall include on the first page of such agreement or contract, in 12-point boldface print or larger, the following statement:

(g) That neither the institution nor its agents engage in sales, collection, credit, or other practices of any type which are false, deceptive, misleading, or unfair.

(h) That the institution makes available to students and other interested persons a catalog or brochure containing information describing the courses offered, program objectives, length of program, faculty and their qualifications, schedule of tuition, fees, and all other charges and expenses necessary for completion of the course of study, cancellation and refund policies, the total cost of tuition over the entire period, and (for vocational training programs for which specific placement claims are made) placement data, as well as such other material facts concerning the institution and the program or course of instruction, as are reasonably likely to affect the decision of the student to enroll therein, as specified by the superintendent and defined in the rules and regulations; and that such information is made available to prospective students prior to enrollment

(i) That upon satisfactory completion of training, the student is given an appropriate degree or diploma by the institution, indicating that said course or courses of instruction or study have been satisfactorily completed by the student.

(j) That adequate records are maintained by the institution to

show attendance, progress, or grades, and that satisfactory standards are enforced relating to attendance, progress, and performance.

(k) That the institution maintains current records for a period of not less than five years at its principal place of business within the State of California, immediately available during normal business hours, for inspection by the superintendent or the Attorney General of California showing the following:

If there is substantial evidence of violation of the standards established by the responsible agency, however, the superintendent may require such further evidence and make such further investigation as may be necessary.

The student shall be awarded, in addition to the foregoing, any damages sustained, and may be awarded treble damages, in the discretion of the court

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature to emphasize the financial crisis that faces the San Francisco Bay Area Rapid Transit District, the San Francisco Municipal Railway, and the

Alameda-Contra Costa Transit District and that all funds resulting from the imposition of the one-half of 1 percent transactions and use tax beyond January 1, 1978, be used in a fiscally responsible manner with the primary objective of achieving financial stability of these public transit operators

It is further the intent of the Legislature that these operators fulfill their primary responsibility and mandate of providing safe, on-time, and reliable service, that fare revenues be stabilized at a constant percentage of total operating costs, and that the operators take appropriate steps to improve the efficiency and effectiveness of the service provided.

It is further the intent of the Legislature that the operators take appropriate steps to control costs and that annual increases in controllable operating costs not exceed the concurrent increases in the cost of living, as reflected in the Consumer Price Index, as published by the United States Bureau of Labor Statistics.

SEC. 2. Section 66517.5 is added to the Government Code, to read.

66517.5. The commission shall develop regional transit service objectives, develop performance measures of efficiency and effectiveness, specify uniform data requirements to assess public transit service benefits and costs, and formulate procedures for establishing regional transportation priorities in the allocation of funds for transportation purposes.

The commission shall also establish and maintain standards relating to:

(a) A standardized reporting and accounting system under which public transit operators shall make quarterly reports to the commission on their revenues and expenditures and submit their annual proposed and adopted budgets for comment and evaluation The system shall be consistent with the uniform system of accounts and records adopted by the State Controller pursuant to Section 99243 of the Public Utilities Code.

(b) Maintenance of established levels of local support for public transit system operations.

SEC. 3.5. Section 29141 of the Public Utilities Code is amended to read:

29141. Any transactions and use taxes ordinance adopted pursuant to this article shall be operative on the first day of the first calendar quarter commencing more than 90 days after the effective date of this article, or January 1, 1970, whichever is later

Prior to the operative date of the ordinance, the district shall

contract with the State Board of Equalization to perform all functions incident to the administration and operation of the ordinance.

If the district shall not have contracted with the State Board of Equalization prior to the operative date of its ordinance, it shall nevertheless so contract and in such case the operative date shall be the first day of the first calendar quarter following the execution of the contract.

The contract entered into by the district with the State Board of Equalization prior to January 1, 1978, for the administration and operation of the transactions and use tax ordinance shall be amended to provide for the allocation of the transactions and use tax revenues pursuant to Section 29142.2.

(c) To finance the operation of its rapid transit system during the 1974–75 fiscal year, the district may issue negotiable bonds in an amount not to exceed sixteen million dollars ($16,000,000) in anticipation of the revenues specified in subdivision (b). However, upon a determination by the board that the issuance of sixteen million dollars ($16,000,000) in negotiable bonds, together with other funds available to the district, provide insufficient funds for the operation of the district during the 1975–76 fiscal year, the district may issue additional negotiable bonds in an amount not exceeding eight million dollars ($8,000,000). The district may also issue additional negotiable bonds in an amount not exceeding one million three hundred thousand dollars ($1,300,000) if the board determines that otherwise insufficient funds are available to the district for its operation during the 1976–77 fiscal year. Interest on such bonds may be funded, and paid from the proceeds of such bonds, for period of not to exceed two years from the date of such bonds. The board, by resolution shall determine the form,

Any surplus of the funds segregated for construction of the rapid transit tube, as provided herein, shall upon completion of the tube and provision for

payment of all costs thereof, subject to the limitation provided in Section 30775, be available for expenditure for the additional highway crossings across San Francisco Bay. In the event the authority shall be authorized to refund any and all bonds issued for the construction of other toll bridges or toll highway crossings of San Francisco Bay and the rivers and streams tributary thereto in the Counties of Alameda, Contra Costa, Marin, Napa, San Mateo, Santa Clara, Solano and Sonoma and the City and County of San Francisco, then and in that event the authority is authorized to issue all of the bonds to be issued for the construction of the rapid transit tube, the additional highway crossings over San Francisco Bay and such refunding bonds in a single authorization, and to pledge to the payment of the principal of and interest on all of such bonds and any provisions for the further security thereof including reserve fund or sinking fund payments or otherwise all of the revenues of all of the bridges of San Francisco Bay and the rivers and streams tributary thereto, including the San Francisco-Oakland Bay Bridge, the San Mateo-Hayward Bridge, the Dumbarton Bridge, the Carquinez Strait Bridges, the Benicia-Martinez Bridge, and the Richmond-San Rafael Bridge, or any thereof as may be determined by the authority, together with revenues of the additional crossings to be constructed across San Francisco Bay.

SEC 48.5 Section 10208 of the Elections Code is amended to read

10208. In the right-hand margin of each column light vertical lines shall be printed in such a way as to create a voting square after the name of each candidate for partisan office, nonpartisan office (except for justice of the Supreme Court or court of appeal), or for chairman of a group of candidates for delegate to a national convention who express no preference for a presidential candidate. In the case of Supreme Court or appellate justices and in the case of measures submitted to the voters, the lines shall be printed so as to create voting squares to the right of the words "Yes" and "No." The voting squares shall be used by the voters to express their choices as provided for in the instruction to voters.

The standard voting square shall be at least three-eighths of an inch square but may be up to one-half inch square. Voting squares for measures may be as tall as is required by the space occupied by the title and summary.

SEC. 49. Section 10217 of the Elections Code is amended to read:

10217. The Secretary of State shall conduct a drawing of the letters of the alphabet, the result of which shall be known as a randomized alphabet. The procedure shall be as follows:

(a) Each letter of the alphabet shall be written on a separate slip of paper each of which shall be folded and inserted into a capsule. Each capsule shall be opaque and of uniform weight, color, size, shape, and texture. The capsules shall be placed in a container which shall be shaken vigorously in order to mix them thoroughly. The container then shall be opened and the capsules removed at random one at a time. As each is removed, it shall be opened and the letter on the slip of paper read aloud and written down. The resulting random order of letters constitutes the randomized alphabet which is to be used in the same manner as the conventional alphabet in determining the order of all candidates in all elections. For example, if two candidates with the surnames Campbell and Carlson are running for the same office, their order on the ballot will depend on the order in which the letters M and R were drawn in the randomized alphabet drawing.

(b) There shall be six such drawings, three in each even-numbered year and three in each odd-numbered year. Each drawing shall be held at 11 a.m. on the date specified in this subdivision. The results of each drawing shall be mailed immediately to each county clerk or other official responsible for conducting an election to which the drawing is applicable who shall use it in determining the order on the ballot of the names of the candidates for office.

The first such drawing shall take place on the Monday following the first day of January in an even-numbered year and shall apply to the March general law city elections and any other elections held at the same time.

The second shall take place on the 82nd day before the direct primary in June of an even-numbered year and shall apply to all candidates on the ballot in that election.

The third shall take place on the 63rd day before the November general election of an even-numbered year and shall apply to all candidates on the ballot in the November general election.

In the case of the June primary election and the November general election, the Secretary of State shall certify and transmit to each county clerk the order in which the names of federal and state candidates, with the exception of candidates for State Senate and Assembly, shall appear on the ballot. The clerk shall determine the order on the ballot of all other candidates using the appropriate randomized alphabet for that purpose.

The fourth drawing shall take place on the Monday following the first day of January in an odd-numbered year and shall apply to all candidates on the ballot in the elections held on the first Tuesday after the first Monday in March of that year.

The fifth drawing shall take place on the first Monday in April of the odd-numbered year and shall apply to all candidates on the ballot in elections held on the last Tuesday in May of that year.

The sixth shall take place on the second Monday in September of the odd-numbered year and shall apply to all candidates on the ballot in the November elections conducted under the Uniform District Election Law and any other elections held at the same time.

In the event there is to be an election of candidates to a special district, school district, charter city, or other local government body at the same time as one of the six major election dates specified above and the last possible day to file nomination papers for the local election would occur after the date of the drawing for the major election date, the procedure set forth in Section 10217.5 shall apply.

(c) Each randomized alphabet drawing shall be open to the public. At least 10 days prior to a drawing, the Secretary of State shall notify the news media and other interested parties of the date, time, and place of it. The president of each statewide association of local officials with responsibilities for conducting elections shall be invited by the Secretary of State to attend each drawing or send a representative. The state chairman of each qualified political party shall be invited to attend or send a representative in the case of drawings held to determine the order of candidates on the June primary election ballot, the November general election ballot, or a special election ballot as provided for in subdivision (d) of this section.

(d) In the case of any special election for State Assembly, State Senate, or Representative in Congress, on the first weekday after the close of filing of nomination papers for the office, the Secretary of State shall conduct a public drawing to produce a randomized alphabet in the same manner as provided for in subdivisions (a) and (c) of this section. The resulting randomized alphabet shall be used for determining the order on the ballot of the candidates in both the primary election for the special election and in the special election.

SEC. 50. Section 10220 of the Elections Code is amended to read:

10220. In the case of candidates for delegate to national

convention, there shall be printed in boldface gothic type, not smaller than 10-point, across the column above the names of the persons preferred by the groups of candidates for delegates, the words, "For delegates to national convention." The words "Vote for one group only" shall extend to the extreme right-hand margin of the column and over the voting square.

In the case of candidates for President and Vice President, the words "Vote for One Party" shall appear just below the heading "President and Vice President" and shall be printed so as to appear above the voting squares for that office. The heading "President and Vice President" shall be printed in boldface 12-point gothic type and shall be centered above the names of the candidates.

In the case of candidates for Justice of the Supreme Court and court of appeal, within the rectangle provided for each such candidate and immediately above the name of each such candidate, there shall appear the following: "For (designation of judicial office)." There shall be as many such headings as there are candidates for such judicial offices and such a heading shall not apply to more than one such judicial office.

In the case of all other candidates, each group of candidates to be voted on shall be preceded by the designation of the office for which they are running and the words "vote for one" or "vote for no more than two" or more according to the number to be nominated or elected. The designation of the office shall be printed flush with the left-hand margin in boldfaced gothic type not smaller than eight-point. The words, "vote for _____" shall extend to the extreme right-hand margin of the column and over the voting square. The designation of the office and the directions for voting shall be separated from the candidates by a light line.

SEC. 50.3 Section 10221 of the Elections Code is amended to read:

10221. The names of the candidates shall be printed on the ballot, without indentation, in roman capital, boldface type not smaller than eight-point, between light lines or rules at least three-eighths of an inch apart but no more than one-half inch apart. However, in the case of candidates for President and Vice President, the lines or rules may be as much as five-eighths of an inch apart.

SEC. 50.5. Section 10222 of the Elections Code is amended to read:

10222. Under the designation of each office shall be printed as many blank spaces, defined by light lines or rules at least three-eighths of an inch apart but no more than one-half inch apart, as there are candidates to be nominated or elected to the office.

SEC. 51. Section 10228 of the Elections Code is amended to read:

10228. Except as to the order of names of candidates the ballots shall be printed in substantially the following forms according to the type of election as shown in headings of the sample forms. The first and second examples represent primary election ballots whereas the third and fourth represent general election ballots.

Sec. 12. In the event the board, in its judgment, determines that the creation of an investigation zone is necessary or desirable because of the magnitude, scope, cost, or duration of an engineering, geologic, or other study, the board may create, subject to all of the other provisions of this act, an investigation zone. With respect to an investigation zone, the term "project" as used in this act shall include an engineering, geologic, or other study. At the time of establishing an investigation zone, the board may provide that the zone shall exist only for a specific number of years.

The board may institute projects for single zones and joint projects for two or more zones, for the financing, constructing, maintaining, operating, extending, repairing or otherwise improving any work or improvement of common benefit to such zone or participating zones For the purpose of acquiring authority to proceed with any such project, the board shall adopt a resolution specifying its intention to undertake such project, together with the engineering estimates of the cost of same to be borne by the particular zone and in the case of participating zones the proportionate cost to be borne

by each of the participating zones and fixing a time and place for public hearing of said resolution and which shall refer to a map or maps showing the general location and general construction of said project, or in the case of an investigation zone, the area subject to study. In the case of an investigation zone, the engineering estimate of cost shall be an estimate of the cost of the contemplated study. Notice of such hearing shall be given for a period of not less than twenty (20) days. If there is a newspaper of general circulation published in the territory proposed to be formed into a zone, notice shall be given by publication once a week for two (2) consecutive weeks prior to the hearing, the last publication of which must be at least seven (7) days before said hearing. If there is no such newspaper, notice shall be given by posting notice of the hearing for a period of fourteen (14) days prior to said hearing in five (5) public places as their said territory designated by the board. Said notice shall designate a public place in any such zone where a copy of the map of the project may be seen by any interested person.

At the time and place fixed for the hearing, or at any time to which said hearing may be continued, the board shall consider all written and oral objections to the proposed project and to the inclusion or exclusion of property within the proposed zone or participating zone. Upon the conclusion of the hearing the board may abandon the proposed project or proceed with the same, unless prior to the conclusion of said hearing a written protest against the proposed project signed by a majority in number of the holders of title to real property, or assessable rights therein, or evidence of title thereto, representing one-half or more of the assessed valuation of the real property within such zone or within any of the participating zones for which said project was initiated, be filed with the board, in which event further proceedings relating to such project must be suspended for not less than six months following the date of the conclusion of said hearing, or said proceeding may be abandoned in the discretion of the board, and if the board proceeds with a proposed project it shall exclude from the zone or participating zones all property which will not be benefited by the proposed project.

In all matters in this section referred to, the last equalized assessment roll of the County of San Joaquin next preceding the filing of the protest shall be prima facie evidence as to the ownership of real property, the names and number of the persons who are the holders of title or evidence of title, or assessable rights therein, and as to the assessed valuation of real property within the zone or within any of the participating zones for which the project was initiated.

Executors, administrators, special administrators, and guardians may sign the protest provided for in this act on behalf of the estate represented by them. If the property is assessed in the name of such representatives, that fact shall establish the right of such representatives to sign the protest; if assessed in the name of the decedent, minor or incompetent person, certified copies of the

letters or such other evidence as may be satisfactory to the board must be produced.

Where real property appears to be owned in common or jointly or by a partnership, or where letters of representatives of decedents, minors or guardians are joint, only one of the owners or representatives or partners may sign the protest for all joint owners or representatives or partners; provided, the party claiming the right to protest for all produces the written consent of his co-owners or representatives or partners so to do, duly acknowledged by the consenting co-owners or representatives or partners in the manner that deeds of real property are required to be acknowledged to entitle such deeds to be recorded in the recorder's office of the county.

Where real property is assessed in the name of a trustee or trustees, such trustee or trustees shall be deemed to be the person entitled to sign the protest, and if assessed in the name of more than one trustee the right to sign the protest shall be determined in like manner as above provided with respect to co-owners.

The protest of any public or quasi-public corporation, private corporation or unincorporated association, may be signed by any person authorized by the board of directors or trustees or other managing body thereof, which authorization shall be in writing; and a proxy executed by an officer or officers thereof, attested by its seal and duly acknowledged, shall constitute sufficient evidence of such authority, and shall be filed with the board.

The owner of any real property or interest therein, appearing upon the assessment roll, which has been assessed in the wrong name or to unknown owners, or which has passed from the owner appearing as such on the last equalized assessment roll, since the same was made, shall be entitled to sign the protest represented thereby, either by the production of a proxy from such former owner, or by furnishing evidence of his ownership by a conveyance duly acknowledged showing the title to be vested in the person claiming the right to sign the protest, accompanied by a certificate of a competent searcher of titles, certifying that a search of the official records of the county, since the date of the conveyance, discloses no conveyance or transfer out from the grantee or transferee named in the conveyance.

Where the real property has been contracted to be sold, the vendee shall be entitled to sign the protest, unless such real property is assessed in the name of the vendor, in which event the vendor shall be entitled to so do.

The board shall likewise be entitled to inquire and take evidence for the purpose of identifying any person claiming the right to sign the protest as being the person shown on the assessment roll or otherwise as entitled thereto. And, unless satisfactory evidence is furnished, the right to sign said protest may be denied.

SEC. 3. Section 13 of the San Joaquin County Flood Control and Water Conservation District Act (Chapter 46 of the Statutes of 1956,

01829 305 1218

First Extraordinary Session) is amended to read:

Sec. 13. The board shall have power, in any year:

1 To levy ad valorem taxes or assessments upon all property in the district to pay the general administrative costs and expenses of the district, and to carry out any of the objects or purposes of this act of common benefit to the district; provided, however, that said ad valorem tax or assessment shall not exceed two cents ($0.02) on each one hundred dollars ($100) of assessed valuation, or, if the district contemplates or undertakes water conservation or distribution, the ad valorem tax or assessment shall not exceed four cents ($0.04) on each one hundred dollars ($100) of assessed valuation, and

2. To levy taxes or assessments in each or any of said zones and participating zones to pay the cost and expenses of carrying out, constructing, maintaining, operating, extending, repairing or otherwise improving any or all works or improvements established or to be established within or on behalf of said respective zones, or of undertaking or continuing a study, according to the benefits derived or to be derived by said respective zones, by either of the following methods:

(a) By a levy or assessment upon all property within a zone or participating zone. including land, improvements thereon, and personal property;

(b) By a levy or assessment upon all real property within a zone or participating zones, including both land and improvements thereon. It is declared that for the purposes of any tax or assessment levied under this subdivision, the property so taxed or assessed within a given zone is equally benefited.

3. To levy taxes or assessments by either method authorized by subdivision 2 of this section in each or any of said zones, according to the special benefits derived or to be derived by the specific properties therein, to pay the cost and expenses of carrying out any of the objects or purposes of this act of special benefit to such zone or zones, including the constructing, maintaining, operating, extending, repairing, or otherwise improving any or all works of improvement established or to be established within or on behalf of said respective zone or zones.

4. Alternatively to the methods of levy set forth in subdivisions 2 and 3 of this section, in the case of an investigation zone or zones, to levy taxes on assessments in each or any of said zones and participating zones to pay the cost and expenses of undertaking or continuing a study by levy or assessment upon all land, exclusive of improvements and personal property.

In the event of project co-operation with any of the governmental bodies as authorized in subdivision 7 of Section 5 of this act, including projects for water conservation and distribution, and requiring the making of a contract with any such governmental body for the purposes set forth in said subdivision 7, by the terms of which work is to be performed by any such governmental body in any specified zone or participating zones, for the particular benefit thereof, and by

said proposed contract the district is to pay to such governmental body, a sum of money in consideration or subvention for the performance of said work by such governmental body, the board may, after proceedings in the manner prescribed in Section 11 of this act, levy and collect a special tax or assessment upon the property in such zone or participating zones, whereby to raise funds to enable the district to make such payment, in addition to other taxes or assessments herein otherwise provided for.

Said taxes or assessments shall be levied and collected together with, and not separately from taxes for county purposes, and the revenues derived from said district taxes or assessments shall be paid into the county treasury to the credit of said district, or the respective zones thereof, and the board shall have the power to control and order the expenditure thereof for said purposes; provided, however, that no revenues, or portions thereof, derived in any zone from the taxes or assessments levied under the provisions of subdivision 2 or 3 of this section shall be expended for constructing, maintaining, operating, extending, repairing or otherwise improving any works or improvements located in any other zone, except in the case of joint projects, or for projects authorized or established outside of such zone, or zones, but for the benefit thereof. In cases of projects joint to two or more zones, such zones will become, and shall be referred to as, participating zones.

SEC. 4. Section 13.5 is added to the San Joaquin County Flood Control and Water Conservation District Act (Chapter 46 of the Statutes of 1956, First Extraordinary Session), to read:

Sec. 13.5. With respect to an investigation zone the board may, it its discretion, adopt an alternative method of funding in accordance with this section, and if such election is made it shall be made at the time of determining to proceed with an investigation zone project, following the hearing required by Section 12. The alternative method of funding permitted by this section shall be as follows:

1. At the time of establishing the investigation zone the board shall determine the total number of acres within the zone, and the number of acres which are within any irrigation district or water conservation district and within the zone, and the number of acres not within an irrigation district or a water conservation district but within the investigation zone and shall by resolution declare such acreages and declare that the zone shall be funded in the manner provided in this section. If territory is within more than one irrigation district and water conservation district then for the purpose of this section such territory in two districts shall be deemed to be within the district in which it was last included.

2. Immediately following the adoption of a resolution pursuant to subdivision 1 of this section the district shall send written notice to each irrigation district and water conservation district located in whole or in part within the investigation zone. Within ninety (90) days of the notice mentioned in the preceding sentence the

governing board shall advise the board of its choice among the following methods of levy within the portion of the investigation zone located within the respective irrigation district or water conservation district governed by the governing board:

(a) The method specified in paragraph (a) of subdivision 2 of Section 13.

(b) The method specified in paragraph (b) of subdivision 2 of Section 13.

(c) The alternative method specified in subdivision 4 of Section 13.

(d) By direct semi-annual payment from the funds of the irrigation district or water conservation district rather than by a levy by the district; such semi-annual payments shall be made on each occasion on or before the semi-annual deliquency date for county taxes.

3. During the ninety (90) day period mentioned in subdivision 2 of this section the board shall determine the method of assessment to be used in any portion of the investigation zone not within an irrigation district or water conservation district.

4. In the event that the governing board of an irrigation district or water conservation district does not, during the ninety (90) day period mentioned in subdivision 2 of this section, specify the method of levy or charge to be used within its area, then as to that area the alternative method specified in subdivision 4 of Section 13 shall be applied in such territory.

5. If the board has adopted the method of funding established by this section, then annually the board shall determine the amount to be raised for the entire investigation zone and shall annually allocate the amount to be raised on a per acre basis between each irrigation district, water conservation district and area outside of any such district, but within the investigation zone, and shall then cause such amounts so allocated on an acreage basis to be levied or collected in the manner previously elected by the respective governing boards.

6. No irrigation district or water conservation district shall be permitted to elect the method set forth in paragraph (d) of subdivision 2 of this section unless such district first makes a showing satisfactory to the board that such district has the ability to make the estimated semi-annual payments required during the duration of the project being undertaken by the investigation zone.

SEC. 5. Section 20 of the San Joaquin County Flood Control and Water Conservation District Act (Chapter 46 of the Statutes of 1956, First Extraordinary Session) is amended to read:

Sec. 20. The total amount of taxes and assessments levied on property within any zone or zones shall not exceed twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation for flood control purposes and twenty cents ($0.20) on each one hundred dollars ($100) of assessed valuation for water conservation purposes, exclusive of the amounts necessary for interest and redemption of any bonds voted within such zone or zones Investigation zones shall be funded by taxes and assessments levied for water conservation purposes.

(b) The commission shall, by regulation, establish procedures, including public hearings, for determining claims of exemption and

may require documentation, including declarations under penalty of perjury or affidavits, to support any claim of exemption.

(c) The commission shall take reasonable steps to notify persons of this section, but the failure of any person to receive such notice shall not extend the period within which a claim of exemption is required to be filed under this section.

(d) This section shall not apply either to any person who has received a written determination by or on behalf of the commission prior to January 1, 1974, that a specific project is exempt from the provisions of this act or to any person who is a party to a written agreement with the commission relating to a claim of exemption.

There is hereby granted to the City of Albany, and to its successors, all right, title, and interest of the state held by virtue of its sovereignty in and to those certain tide and submerged lands, whether filled or unfilled, which are situated in the County of Alameda and more particularly described in Section 8. Such lands shall be held by the city, and its successors, in trust for the benefit of all of the people of the state for the statewide tidelands trust purposes of commerce, navigation, and fisheries, and for other public purposes, including, but not limited to, preservation of such lands in their natural state for scientific study, open space, wildlife habitat, and recreational uses, as more particularly provided in this act. This grant is subject to the following express conditions:

(a) That the use of the lands shall be in accordance with the Albany Waterfront Plan as adopted by the city on February 14, 1977, or as amended as provided in this act.

(b) That the lands shall be improved, maintained, preserved, or restored without expense to the state, as more particularly provided in Section 2; provided, however, that nothing contained in this act shall preclude the city from accepting and expending any grant or loan of funds from the state, or any board, agency, department, or commission thereof, for such purposes, in a manner that is consistent with the trust upon which the lands are held.

(c) That the acquisition of property and the rendition of services reasonably necessary for carrying out the uses and purposes described in this section, including the amortization or debt service of any capital improvement funding program, shall be consistent with the terms and conditions set forth in this act.

(d) That the city, or its successors, may not at any time grant, convey, give, or alienate the lands, or any part thereof, to any individual, firm, or corporation for any purposes whatsoever; provided, however, that the city, or its successors, may grant franchises thereon for limited periods, not exceeding 66 years, for wharves and other public uses and purposes, and, subject to the requirements of Section 5, may lease the lands, or any part thereof, for limited periods, not exceeding 66 years, for purposes consistent with the trust upon which the lands are held.

Prior to approving any such project, lease, or agreement, the commission shall consult with other governmental agencies and shall determine whether such project, lease, or agreement is in and for the best interests of the people of the state and conforms to provisions of law and whether the allocation between the state and the city of any revenues generated as a result of such a project, lease, or agreement will be in accordance with the provisions for allocation of excess revenues contained in Section 6.

SEC. 4. Section 2 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 2. (a) The city shall diligently and reasonably pursue the funding and implementation of the Albany Waterfront Plan; and on or before January 1, 1983, or five years after funds necessary to complete the plan are received by the city, whichever is later, but in no event later than January 1, 1988, the lands shall be substantially improved, restored, preserved, or maintained by the city without expense to the state and in accordance with the initial phase of the plan unless the commission determines that the plan cannot be implemented in the manner specified in this section because of unavoidable delay that was out of the control of the city. However, if the commission determines that the city has not improved, restored, preserved, or maintained the lands as required by the initial phase of the plan, all right, title, and interest of the city in and to all lands granted by this act shall cease, and all right, title, and interest in the lands shall revert to the state. All improvement, restoration, preservation, or maintenance shall be effected in accordance with the Albany Waterfront Plan

(b) Nothing contained in this section shall be construed as precluding the city from taking action pursuant to the ultimate phase of the plan for shoreline park development prior to completion of all initial phases of the plan.

SEC. 5. Section 3 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 3. The city shall submit all material changes and amendments to the Albany Waterfront Plan to the commission for its approval. "Material changes and amendments" consists of any change of boundaries of the commercial area, any change of use, or any change of basic configuration of the shoreline. The commission shall review such changes and amendments with reasonable promptness to determine whether the change or amendment is in accord with the public purposes permitted by this act and the trust established by Section 1. The decision of the commission shall take one of the following forms: approval as proposed, approval subject to recommended changes, disapproval with recommendations for an alternative plan, or disapproval with a statement of the reason therefor.

SEC. 6. Section 4 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 4. (a) For the purposes of this act only and to clarify the geographic extent of the jurisdiction of the San Francisco Bay Conservation and Development Commission over the lands, whether filled or unfilled, described in Section 8, the San Francisco Bay Conservation and Development Commission shall use February 14, 1977, as the date with respect to which it shall determine the extent of the area of granted lands that are subject to tidal action as specified in subdivision (a) of Section 66610 of the Government Code and the extent of the area of granted lands that constitute the shoreline band as specified in subdivision (b) of Section 66610 of the Government Code.

(b) On and after January 1, 1978, the agreement between the city and the San Francisco Bay Conservation and Development Commission concerning the exemption from the commission's permit requirements for work that was based on the former waterfront plan for the submerged and reclaimed lands within the city is terminated.

(c) Nothing contained in this act or in the specifications of the Albany Waterfront Plan shall be construed to limit the authority of the San Francisco Bay Conservation and Development Commission, and the city shall be subject to all the provisions of the McAteer-Petris Act (commencing with Section 66600 of the Government Code) and all rules and regulations promulgated thereunder as if it were any other applicant.

(d) In addition to the requirements of Section 3 of this act, any change or amendment to the Albany Waterfront Plan shall be submitted to the San Francisco Bay Conservation and Development Commission for consideration under the same circumstances and in

the same manner as if it were a change or amendment to a special area plan that is subject to approval by that commission.

SEC. 7. Section 5 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 5. (a) On or before July 1, 1979, the city council shall develop and submit to the State Lands Commission, for its approval, procedures, rules, and regulations to govern the issuance, making, renewal, or renegotiation of any lease, agreement, or franchise concerning granted tide and submerged lands or any improvement thereon. Such rules and regulations shall specify the rent or other consideration, the bases upon which the rent is established, terms and conditions, provisions for assignments, and such other matters as may be required by the commission. The commission shall make its decision within 90 days of receipt of the procedures, rules, and regulations. No new lease, franchise, or agreement may be entered into unless and until the commission approves the procedures, rules, and regulations.

(b) Before entering into a lease, franchise, or agreement concerning granted tidelands, the city council shall first adopt a resolution declaring its intention to take such action. The resolution shall describe lands or improvements that are the subject of the lease, franchise, or agreement in such a manner as to identify them accurately, and shall specify the minimum rental or other consideration and the other terms and conditions of the lease, franchise, or agreement.

(c) Upon request, the city shall submit a copy of any lease, franchise, or agreement issued, entered into, renewed, or renegotiated to the commission.

SEC. 8. Section 6 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 6. (a) All revenues derived from the use of the granted lands and also those lands that are subject to the Albany Waterfront Plan but are not granted by this act, shall be expended only for the trust uses and purposes upon which the granted lands are held.

(b) With approval of the commission, the city shall establish accounting procedures whereby an accurate record of all such revenues and all expenditures of such revenues will be maintained. The purpose of this requirement is to provide for the segregation of revenues derived from the use of such lands from other revenues of the city in order to assure that revenues derived from the use of such lands are only expended for the trust uses and purposes upon which the granted lands are held.

(c) On or before October 1 of each year, the city shall cause to be prepared and filed with the commission a detailed statement of all revenues and all expenditures arising from the administration of such lands, including obligations incurred but not yet paid, for the fiscal year ending on the previous June 30. Until such time as the commission completes its determination under Section 2, the city shall, in addition, furnish cumulative totals of expenditures,

obligations, and revenues arising from all phases of the Albany Waterfront Plan in a supplement to this annual financial statement.

(d) As to the expenditure of revenues for every capital improvement on the granted lands that exceeds two hundred fifty thousand dollars ($250,000), the city shall file with the commission a detailed description of such capital improvement not less than 90 days prior to the time proposed for making the first disbursement therefor unless the expenditure for such capital improvement is specifically mentioned or reflected in the total estimates set forth in the Albany Waterfront Plan or a change or amendment thereto that has been approved under Section 3. Within 90 days after the time of such filing, the commission shall determine whether such capital improvement is in the statewide interest and benefit and is authorized by the Albany Waterfront Plan as it exists or as it may be changed or amended under Section 3. The commission may request the opinion of the Attorney General on the matter; and if it does so, a copy of such opinion shall be delivered to the city with the notice of its determination. In the event the commission notifies the city that such capital improvement is not authorized, the city shall not disburse any revenue for, or in connection with, such capital improvement, unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction. The city is authorized to bring suit against the state for the purpose of securing such an order or judgment, which suit shall have priority over all other civil matters. Service shall be made upon the executive officer of the State Lands Commission and the Attorney General, and the Attorney General shall defend the state in such suit. If judgment is given against the state in such suit, no costs may be recovered.

SEC. 9 Section 7 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 7. (a) On June 30, 1980, and on the last day of every third fiscal year thereafter, that portion of the city tideland trust revenues, as described in subdivision (a) of Section 6, in excess of two hundred fifty thousand dollars ($250,000) remaining after current and accrued operating costs and expenditures directly related to the operation or maintenance of tideland trust activities have been made, shall be deemed excess revenues; provided, however, that any funds deposited in a reserve fund to retire bond issues for state loans made for the improvement or operation of the granted lands shall not be deemed excess revenue. Capital improvements of the granted lands made for purposes authorized by this act may be considered as expenditures for the purpose of determining net revenues.

(b) The excess revenue, as determined pursuant to this section, shall be allocated as follows: 85 percent shall be transmitted to the State Treasurer for deposit in the General Fund in the State Treasury; and 15 percent, to the city for deposit in the segregated fund created pursuant to Section 6. The city shall be entitled to reimbursement from excess revenues allocated to the segregated fund for any amount advanced from city tax revenues for

expenditure for any trust use or purpose authorized by this act if the city declared to the commission its intent to such reimbursement at the time that amount was advanced.

SEC. 10. Section 8 is added to Chapter 211 of the Statutes of 1919, to read:

Sec. 8. Lands that are granted pursuant to Section 1 are described as follows:

CHAPTER 1224

An act to amend Sections 52171 and 52178 of, and to add Section 52169.1 to, the Education Code, relating to bilingual education, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 52171 of the Education Code is amended to read:

52171. At the beginning of each school year, the district shall assess each limited-English-speaking pupil. The pupil's achievement in comprehending, reading, and writing English and, to the extent assessment instruments are available, the second language of instruction shall be assessed. Pretesting of basic skills for pupil participants shall be conducted at the beginning of each school year, and posttesting of basic skill for pupil participants shall be conducted at the end of each school year. At least annually there shall be submitted to the Department of Education an evaluation of pupil progress for every program which has been approved pursuant to this article. The evaluation report shall identify variables, including other programs, which may have affected pupil academic achievement

It shall also include, but not be limited to, reading comprehension and speaking skills, in English and, to the extent assessment instruments are available, the primary language.

This section shall take effect on July 1, 1978.

SEC. 2. Section 52169.1 is added to the Education Code, to read:

52169.1. Beginning with fiscal year 1977–78, all programs funded pursuant to Article 1 (commencing with Section 52100) of this chapter, shall be conducted under the programmatic provisions of this article and administrative regulations adopted pursuant thereto.

Nothing in this article shall preclude the participation by an individual school district in a consortium, or a cooperative in order to provide support and contract services to school districts that receive funds for the purposes of this article.

SEC. 3. Section 52178 of the Education Code is amended to read:

52178. All principal teachers providing instruction in programs defined by subdivision (a), (b), or (c) of Section 52163 shall be

bilingual-crosscultural teachers as defined pursuant to subdivision (h) of Section 52163, or shall be bilingual in English and the primary language of the limited-English-speaking pupils in his or her class and hold an internship credential, or an emergency bilingual-crosscultural credential.

In recognition of the shortage of qualified bilingual-crosscultural teachers, a school district may request a renewable one-year waiver from the board for each teacher who is not bilingual-crosscultural but who is participating in a program leading to a certificate of competence for bilingual-crosscultural instruction pursuant to Section 44253.5. Such a teacher, with the assistance of a bilingual-crosscultural aide, may teach in a program of bilingual instruction mandated by Section 52165 for not more than two school years commencing September 1977.

Each school district which requests waivers for the 1977–78 or 1978–79 school year shall file its application for such a waiver with the State Board of Education on or before October 1 of the appropriate year, and shall give assurance that all teachers receiving such a waiver will be participating in an appropriate program leading to a certificate of competence for bilingual-crosscultural instruction pursuant to Section 44253.5 during the school year for which the waiver is granted. If a district hires new teachers, no waiver shall be granted unless the board finds that the district made a good faith effort to recruit and hire bilingual-crosscultural teachers including contacting the bilingual-crosscultural teachers annually listed by the Commission for Teacher Preparation and Licensing and contacting and requesting assistance from the clearinghouse maintained by the commission pursuant to Section 10106.

All waivers granted pursuant to this section shall expire not later than September 1, 1979.

No teacher employed after January 1, 1978, to teach in programs defined by subdivision (a), (b), or (c) of Section 52163 shall be eligible for a waiver

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to provide for a limited exception to the bilingual staffing requirements for programs conducted under the Chacon-Moscone Bilingual-Bicultural Education Act of 1976 during the 1977–78 school year for school districts, which, without such an exception, could not provide the bilingual services required, it is essential that this act take immediate effect.

The credit union shall pay any costs that are in addition to the normal charges required to enter into a contract with the board.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill No. 324 are both chaptered and become effective on or before January 1, 1978, both bills amend Section 20009.1 of the Government Code, and this bill is chaptered after Assembly Bill No. 324, that Section 20009.1 of the Government Code, as amended by Section 1 of Assembly Bill No. 324, be further amended on the effective date of this act in form set forth in Section 2 of this act to incorporate the

CHAPTER 1226

An act to amend Sections 20800 and 20800.6 of the Business and Professions Code, relating to lubricating oil.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 20800 of the Business and Professions Code is amended to read:

20800. Any lubricating oil, regardless of its origin, or any product that is a blend of recycled oil and new oil, shall not be sold, offered for sale, delivered, offered for delivery or stored as an engine lubricant, engine oil, motor oil or lubricating oil for use in an internal combustion engine unless such product conforms to the following specifications:

(a) It shall be free from water and suspended matter when tested by means of centrifuge, in accordance with the standard test therefor.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local governmental entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1227

An act to amend Section 36 of the Humboldt Bay Harbor, Recreation, and Conservation District Act (Chapter 1283 of the Statutes of 1970), and to amend Section 37 of the San Diego Unified Port District Act (Chapter 67 of the Statutes of 1962, First Extraordinary Session) relating to harbors.

[Approved by Governor September 30, 1977. Filed with Secretary of State October 1, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 36 of the Humboldt Bay Harbor, Recreation, and Conservation District Act (Chapter 1283 of the Statutes of 1970) is amended to read:

Sec. 36. The district may itself, without letting contracts therefor, do work and make improvements. The work shall be done under the direction of its officers or employees in accordance with the following paragraph:

In the construction or reconstruction of public buildings, streets, utilities and other public works, and in furnishing supplies, materials, equipment or contractual services for the same, when the expenditure therefor shall exceed the sum of five thousand dollars

($5,000), the same shall be done by written contract, except as otherwise provided in this act, and the board, on the recommendation of the chief executive officer, shall let the same to the lowest responsible and reliable bidder, not less than 10 days after advertising for one day in the official newspaper of the district for sealed proposals for the work contemplated. All maintenance or repair projects where the cost of materials and labor exceeds three thousand five hundred dollars ($3,500) shall be let to the lowest responsible and reliable bidder If the cost of the public contract work exceeds the sum of three thousand five hundred dollars ($3,500), but is not in excess of five thousand dollars ($5,000), the board may let the contract without advertising for bids, but not until the chief executive officer shall have secured competitive prices from contractors interested, which shall be taken under consideration by the board before the contract is let. The board may, however, upon the recommendation of the chief executive officer and by a vote of a majority of its members, order the performance of any such construction and reconstruction or repair work by appropriate district forces when the estimates submitted as part of the chief executive officer's recommendation indicate that the work can be done by the district forces more economically than if let by contract

In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the board may, by resolution passed by a vote of a majority of its members, determine and declare that the public interest or necessity demands the immediate expenditure of district money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of any sum required in such emergency, on hand in the district fund and available for such purpose. All contracts before execution shall be approved as to form and legality by the attorney for the district

Contracts for consulting services shall be let only after submission of proposals and evaluation of the expertise, experience, and proposed price of the vendor. Contracts for consulting services not limited to a specific project shall not exceed one year in length.

The provisions of this section do not apply to any contract for architectural, engineering, legal, or auditing services.

SEC 2. Section 37 of the San Diego Unified Port District Act (Chapter 67 of the Statutes of 1962, First Extraordinary Session) is amended to read:

Sec. 37 The district may itself, without letting contracts therefor, do work and make improvements The work shall be done under the direction of its officers or employees.

In the construction or reconstruction of public buildings, streets, utilities and other public works, and in furnishing supplies, materials, equipment or contractual services for the same, when the expenditure therefor shall exceed the sum of five thousand dollars

($5,000), the same shall be done by written contract, except as otherwise provided in this act, and the board, on the recommendation of the port director, shall let the same to the lowest responsible and reliable bidder, not less than 10 days after advertising for one day in the official newspaper of the district for sealed proposals for the work contemplated. All maintenance or repair projects where the cost of materials and labor exceeds three thousand five hundred dollars ($3,500) shall be let to the lowest responsible and reliable bidder. If the cost of the public contract work exceeds the sum of one thousand dollars ($1,000), but is not in excess of five thousand dollars ($5,000), the board may let the contract without advertising for bids, but not until the port director shall have secured competitive prices from contractors interested, which shall be taken under consideration by the board before the contract is let. The board may, however, upon the recommendation of the port director and by a vote of five of its members, order the performance of any such construction and reconstruction or repair work by appropriate district forces when the estimates submitted as part of the port director's recommendation indicate that the work can be done by the district forces more economically than if let by contract.

In case of a great public calamity, such as extraordinary fire, flood, storm, epidemic or other disaster the board may, by resolution passed by a vote of five of its members, determine and declare that the public interest or necessity demands the immediate expenditure of district money to safeguard life, health or property, and thereupon they may proceed, without advertising for bids or receiving the same, to expend, or enter into a contract involving the expenditure of, any sum required in such emergency, on hand in the district fund and available for such purpose. All contracts before execution shall be approved as to form and legality by the attorney for the district.

Contracts for consulting services shall be let only after submission of proposals and evaluation of the expertise, experience, and proposed price of the vendor. Contracts for consulting services not limited to a specific project shall not exceed one year in length.

The provisions of this section do not apply to any contract for architectural, engineering, legal, or auditing services.

SEC. 3. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be an appropriation made by this act because there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 1228

An act to add Section 2985.51 to the Civil Code, relating to real property sales contracts.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 2985.51 is added to the Civil Code, to read:

2985.51. (a) Every real property sales contract entered into on and after January 1, 1978, where the real property that is the subject of such contract resulted from a division of real property occurring on or after January 1, 1978, shall contain or have attached thereto a statement indicating the fact that the division creating the parcel or parcels to be conveyed:

(1) Was made in compliance with the provisions of the Subdivision Map Act, Division 2 (commencing with Section 66410) of Title 7 of the Government Code and local ordinances adopted pursuant thereto, and in such event the statement shall expressly refer to the location, in the records of the county recorder for the county in which the real property is located, of a previously recorded certificate of compliance or conditional certificate of compliance issued pursuant to Section 66499.35 of the Government Code with respect to the real property being sold, or the statement shall describe the real property to be conveyed as an entire lot or parcel by referencing the recorded final or parcel map creating the parcel or parcels to be conveyed and such description shall constitute a certificate of compliance as set forth in subdivision (d) of Section 66499.35 of the Government Code. Provided, however, where reference is made to a recorded parcel map and the approval of such map was conditioned upon the construction of specified offsite and onsite improvements as a precondition to the issuance of a permit or grant of approval for the development of such parcel and the construction of the improvements has not been completed as of the date of execution of the real property sales contract, then the statement shall expressly set forth all such required offsite and onsite improvements; or

(2) Was exempt from the provisions of the Subdivision Map Act and local ordinances adopted pursuant thereto, and in such event the statement shall expressly set forth the basis for such exemption; or

(3) Was the subject of a waiver of the provisions of the Subdivision Map Act and local ordinances adopted pursuant thereto, and in such event the contract shall have attached thereto a copy of the document issued by the local agency granting the waiver Provided, however, where the granting of the waiver was conditioned upon the construction of specified offsite and onsite improvements as a precondition to the issuance of a permit or grant of approval for the

development of the parcel and the construction of the improvements has not been completed as of the date of execution of the real property sales contract, then such statement shall expressly set forth all such required offsite and onsite improvements; or

(4) Was not subject to the provisions of the Subdivision Map Act and local ordinances adopted pursuant thereto, and in such event the statement shall expressly set forth the basis for the nonapplicability of the Subdivision Map Act to the division.

(b) Every real property sales contract entered into after January 1, 1978, where the real property that is the subject of such contract resulted from a division of real property occurring prior to January 1, 1978, shall:

(1) Contain or have attached thereto a signed statement by the vendor that the parcel or parcels which are the subject of the contract have been created in compliance with, or a waiver has been granted with respect to, the provisions of the Subdivision Map Act, Division 2 (commencing with Section 66410) of Title 7 of the Government Code and local ordinances adopted pursuant thereto, or any prior law regulating the division of land, or, were exempt from or not otherwise subject to any such law at the time of their creation. Provided, however, where the division creating the parcel or parcels being conveyed was by means of a parcel map, or in the event that a waiver of the provisions of the Subdivision Map Act has been granted, and the approval of the parcel map or the granting of the waiver was conditioned upon the construction of specified offsite and onsite improvements as a precondition to the issuance of a permit or grant of approval for the development of such parcel and the construction of the improvements has not been completed as of the date of execution of the real property sales contract, then such contract shall expressly set forth all such required offsite and onsite improvements.

(2) In lieu of the above, the vendor may include in the real property sales contract a description of the real property being conveyed as an entire lot or parcel by referencing the recorded final or parcel map creating the parcel or parcels being conveyed and such description shall constitute a certificate of compliance as set forth in subdivision (d) of Section 66499.35 of the Government Code. Provided, however, where reference is made to a recorded parcel map, or in the event that a waiver of the provisions of the Subdivision Map Act has been granted, and the approval of the parcel map or the granting of the waiver was conditioned upon the construction of specified offsite and onsite improvements as a precondition to the issuance of a permit or grant of approval for the development of such parcel and the construction of the improvements has not been completed as of the date of execution of the real property sales contract, then such contract shall expressly set forth all such required offsite and onsite improvements.

(3) Notwithstanding paragraphs (1) and (2), in the event that the parcel or parcels which are the subject of the real property sales

contract were not created in compliance with the provisions of the Subdivision Map Act, Division 2 (commencing with Section 66410) of Title 7 of the Government Code and local ordinances adopted pursuant thereto, or any other prior law regulating the division of land, and were not exempt from, or were otherwise subject to any such law at the time of their creation, the real property sales contract shall contain a statement signed by the vendor and vendee acknowledging such fact. In addition, the vendor shall attach to the real property sales contract a conditional certificate of compliance issued pursuant to Section 66499.35 of the Government Code.

(c) In the event that the parcel or parcels which are the subject of the real property sales contract are found not to have been created in compliance with, or a waiver has not been granted with respect to, the provisions of the Subdivision Map Act, Division 2 (commencing with Section 66410) of Title 7 of the Government Code, or any other prior law regulating the division of land nor to be exempt from, or otherwise subject to such laws and the vendee has reasonably relied upon the statement of such compliance or exemption made by the vendor, or in the event that the vendor has failed to provide the conditional certificate of compliance as required by paragraph (3) of subdivision (b), and the vendor knew or should have known of the fact of such noncompliance, or lack of exemption, or the failure to provide the conditional certificate of compliance, the vendee, or his successor in interest, shall be entitled to: (1) recover from the vendor or his assigns the amount of all costs incurred by the vendee or his successor in interest in complying with all conditions imposed pursuant to Section 66499.35 of the Government Code; or, (2) the real property sales contract, at the sole option of the vendee, or his successor in interest, shall be voidable and in such event the vendee or his successor in interest shall be entitled to damages from the vendor or his assigns. For purposes of this section, damages shall mean all amounts paid under the real estate sales contract with interest thereon at the rate of 9 percent per annum, and in addition thereto a civil penalty in the amount of five hundred dollars ($500) plus attorney's fees and costs. Any action to enforce the rights of a vendee or his successor in interest shall be commenced within one year of the date of discovery of the failure to comply with the provisions of this section.

(d) Any vendor who willfully violates the provisions of subdivision (a) of this section by knowingly providing a vendee with a false statement of compliance with, exemption from, waiver of, or nonapplicability of, the provisions of the Subdivision Map Act, with respect to the real property that is the subject of the real property sales contract, shall be guilty of a misdemeanor punishable by a fine of not to exceed one thousand dollars ($1,000), or imprisonment for not to exceed six months, or both such fine and imprisonment.

(e) For purposes of this section a real property sales contract is an agreement wherein one party agrees to convey title to unimproved real property to another party upon the satisfaction of specified

conditions set forth in the contract and which does not require conveyance of title within one year from the date of formation of the contract. Unimproved real property means real property upon which no permanent structure intended for human occupancy or commercial use is located

(f) The provisions of this section shall not apply to a real property sales contract which, by its terms, requires either a good faith downpayment and a single payment of the balance of the purchase price or a single payment of the purchase price upon completion of the contract, and the provisions of such contract do not require periodic payment of principal or interest.

SEC. 2. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

Educational services have already been provided to some of such pupils and it is essential that the program be paid the state's share of the cost of such services since the program's expenditures were based upon assurances of the receipt of state funds.

SEC. 17. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are

In order to permit this act to be operative for the entire 1977–78 fiscal year, and so to permit the orderly and efficient operation of the programs to which this act relates, it is necessary that this act take effect immediately

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1 Section 14876 of the Government Code is amended to read:

14876 (a) Pressmen, typographers, linotypers, compositors, bookbinders, lithographers, engravers, apprentices and assistants and all other employees of the Office of State Printing employed in allied work shall be paid on an hourly wage basis The basic wage of such employees shall be the prevailing hourly wage paid to persons identified by the State Personnel Board to be in similar and comparable employment by private printers in the major metropolitan areas in California. The State Personnel Board shall accept and give validity to certified copies of agreed upon contracts submitted by either the employer, the employer group, or the employee organization.

The State Personnel Board shall survey only major employers where there are agreed upon contracts. Where any such contract contains any provision or provisions which do not reflect the actual practice of the employer, the State Personnel Board shall disregard such provision or provisions.

If the State Personnel Board finds that salary relationships between surveyed classes do not accurately reflect relationships in duties and responsibilities of employees of the Office of State Printing, the board shall adjust such wage rates on an equitable basis notwithstanding the survey findings

As used in this section, prevailing wages and prevailing benefits means wages and benefits arrived at through negotiation between an employer or employer organization, and an employee organization which is the bona fide representative of the employer's employees and certified as such by the Director of Industrial Relations. In order to be so certified, the employee organization shall be free from employer influence and domination.

(b) In addition to such wages, and the rights and privileges afforded state employees under the provisions of the State Civil Service Act, and other statutes, there shall be paid to each such employee of the Office of State Printing, either directly or to a health and welfare fund on his or her behalf, an amount equal to the prevailing individual contributions paid to health and welfare plans for employees in similar and comparable employment by private printers in the major metropolitan areas. Where such contracts do

not disclose the dollar value of health and welfare benefits, the state shall provide the same or substantially the same level of benefits as provided for in such agreed upon contracts. Any adjustments made pursuant to subdivisions (a) and (b) of this section shall be effective as of March 1, 1977, and each March 1, thereafter.

(c) As an alternative to subdivision (b), persons employed and retired from employment in the Office of State Printing may elect within 90 days of the effective date of the amendments to this section enacted at the 1977–78 Regular Session of the Legislature to be covered under the State Employees' Medical and Hospital Care Act pursuant to Section 22754.2.

A person first employed to any position described in subdivision (a) after the effective date of the amendments to this section enacted at the 1977–78 Regular Session of the Legislature may elect to become an "employee" as defined in Section 22754.2 within 90 days of commencing such employment.

Any person who is a member of a health and welfare plan described in subdivision (b) who loses eligibility for participation in such plan, or if the plan of which the person is a member ceases to exist, such person may elect to become an "employee" as defined in Section 22754.2 within 90 days of the date such eligibility is lost or the plan ceases to exist.

(d) In no instance shall the wages and the health and welfare contributions paid by the state to the persons covered under this section be less than the dollar amount paid as of the effective date of this section.

SEC. 2. Section 22754.2 is added to the Government Code, to read:

22754.2. As used in this part:

(a) The term "employee" includes all employees in job classes specified in subdivision (a) of Section 14876 who enroll in a health benefits plan within 90 days of the effective date of this section, and all persons first employed in such job classes after the effective date of this section.

(b) The term "annuitant" includes persons retired from a job class specified in subdivision (a) of Section 14876 who enroll in a health benefits plan within 90 days of the effective date of this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that a statewide salary survey process may be developed and implemented, that salaries of Office of State Printing employees may be reassessed, and that these employees may be compensated, it is necessary that this act take effect immediately.

CHAPTER 1234

An act to add Section 55601.6 to the Food and Agricultural Code, relating to grapes, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

The people of the State of California do enact as follows:

SECTION 1. Section 55601.6 is added to the Food and Agriculture Code, to read:

The amount of such fee shall be paid to the director on or before January 10 of each year on all grapes received for crushing through December 15. The amount of such fee on any grapes received for crushing after December 15 shall be paid to the director on or before June 30 of that marketing season.

SEC. 2. Section 1 of this act shall become operative July 1, 1978.

SEC. 3. There is hereby appropriated from the General Fund in the State Treasury the sum of twenty-seven thousand dollars ($27,000) to the Department of Food and Agriculture, for the 1977–78 fiscal year, for the purposes of carrying out the provisions of Section 55601.5 of the Food and Agricultural Code.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are.

The grape industry is reliant upon the grape crush report required by Section 55601.5 of the Food and Agricultural Code in order to accurately and fairly determine grape prices. To be of value for this harvesting season, the report is needed immediately and cannot be prepared within existing funding of the Department of Food and Agriculture. In order to fund such report for this harvesting season, it is necessary for this act to take effect immediately.

CHAPTER 1235

An act to add and repeal Chapter 3 (commencing with Section 20300) of Division 10 of the Water Code, relating to emergencies, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 30, 1977 Filed with Secretary of State October 1, 1977]

I am reducing the appropriation in Section 2 of Senate Bill No 469 from $5,000,000 to $1,000,000 by deleting the $4,000,000 appropriation in Subsection (a)

That money will not help farmers for the 1977 growing season which is ending I have signed three bills providing significant tax relief to drought-stricken farmers, along with other bills designed to assure agriculture's share of dwindling water supplies

If the drought persists into the 1978 growing season, I will work with the legislature and those in agriculture to seek appropriate state and federal assistance

With this reduction, I approve Senate Bill No 469

EDMUND G BROWN JR , Governor

The people of the State of California do enact as follows:

SECTION 1. Chapter 3 (commencing with Section 20300) is added to Division 10 of the Water Code, to read:

CHAPTER 3. CALIFORNIA DROUGHT DISASTER RELIEF ACT OF 1977

Article 1. Policy and Definitions

20300. This chapter shall be known and may be cited as the California Drought Disaster Relief Act of 1977.

20301. The Legislature hereby finds and declares that drought conditions existing in this state since 1975 have created water shortages resulting in direct economic loss to agriculture, urban dwellers, and the state economy.

20302. The Legislature further finds and declares that it is the state policy to provide economic assistance to agriculture in the state suffering economic hardship resulting from existing drought

conditions. It is the intent of the Legislature not to duplicate federal assistance programs nor undertake assistance actions which are available to individual farmers or ranchers through other public programs. It is the purpose of this chapter to provide assistance to individuals and certain groups with an economic capability of recovery and loan repayment following the termination of the current drought.

20303. For the purposes of this chapter:

(a) "Fund" means the California Drought Disaster Relief Fund.

(b) "Program" means the Drought Disaster Relief Assistance Program as provided in this chapter.

Article 2. Loans

20310. There is in the State Treasury the California Drought Disaster Relief Fund, which fund is hereby created. Moneys in such fund are continuously appropriated to the State Treasurer for the purpose of financing water development and water delivery systems to replace losses of water supplies caused by drought as provided in this chapter. The State Treasurer may use the moneys in the fund for defraying the costs of establishing and administering such loan program, in an amount of not to exceed 5 percent of the amount appropriated to the fund. Moneys received by the State Treasurer on account of payments of the principal of, or interest on, such loans shall be deposited in the fund.

20311. The State Treasurer may, pursuant to this chapter, establish a program of loans for the purpose of developing water supplies and providing for delivery of water to replace water losses caused by drought and as limited further in this article The loans made pursuant to this chapter shall be made and the loan program shall be directly administered by the State Treasurer.

20312. The State Treasurer shall implement this program as soon as practicable after the effective date of this chapter, in order that the maximum relief from the effects of the drought may be accomplished.

20313. The State Treasurer shall allocate funds available for loans among the various types of eligible farmers and ranchers and areas impacted by severe drought in the state in the interest of maintaining the highest possible agricultural productivity through the period of drought emergency.

20314. The State Treasurer may consult with, or seek the advice of, the Director of Water Resources, the Director of Food and Agriculture, the State Board of Food and Agriculture, the California Water Commission, and any other private or public agency or person in order to establish drought relief objectives and technical and market criteria for the loan program in order to best serve the purposes of this chapter and provide the greatest impact, and may require limitation of the size of loans on an individual owner or acreage basis.

The State Treasurer shall enter into an interagency agreement with the Director of Food and Agriculture to utilize the staff of the Department of Food and Agriculture for technical assistance in carrying out the provisions of this chapter, so as to best benefit the agricultural community of the state.

20315. An individual, partnership, or corporation may qualify for relief from the drought conditions of 1977 under this chapter, if all of the following are met·

(a) Applicant has an agricultural production history predating June 1, 1975

(b) Applicant receives at least 75 percent of his or her average total gross income, for the immediately preceding three tax years, from agricultural production.

(c) Applicant has an annual average gross sales, for the immediately preceding three tax years, from agricultural production of at least five thousand dollars ($5,000), but not more than five hundred thousand dollars ($500,000).

(d) Applicant is unable to obtain federal financial assistance within a time period determined by the State Treasurer to be necessary for such aid to be effective, within the purposes of this chapter.

(e) If eligible for conventional financing, applicant shall demonstrate that severe hardship will result from following this conventional financing.

(f) Applicant has a reasonable economic capability of recovery and loan repayment following the termination of the current drought.

20316. No applicant may receive more than fifty thousand dollars ($50,000) in assistance provided by this chapter. If applications for loans exceed the amount of funds appropriated under this chapter, the State Treasurer shall establish loan priorities and additional loan amount restrictions which shall attempt to maximize the benefits provided by this chapter.

20317 Loans, under this chapter, may be made as follows·

(a) Loans shall be made only for the purpose of developing ground water facilities, converting existing irrigation systems to more water use effective systems, hauling or storing water for livestock or crops, and temporary water conveyance systems, for the growing of agricultural products and maintaining livestock.

(b) Loan funds may only be provided for those activities necessary to replace water deliveries lost as a result of drought conditions and shall not be greater than the water amounts lost.

(c) Loan funds may be used only to assist in continuing agricultural practices on land in agricultural use prior to January 1, 1976, and may not be used to expand or enhance developments or delivery systems installed after that date.

(d) A system of loan eligibility priorities shall be established to:

(1) Assist in replacing water losses on land which does not receive water from any federal water project.

(2) Any remaining funds may be used to assist in replacing water lost as a result of reduced federal project deliveries.

(e) All loans shall bear an interest rate of 2½ percent over a maximum 10-year term with payments on both principal and interest deferred for the first two years at the discretion of the borrower.

20318. The provisions of this chapter shall only apply with respect to land situated in an area which, either before or after the effective date of this chapter, has been declared by the Governor, the President of the United States, or a federal agency, upon the request of the Governor, to be a disaster area by reason of drought conditions.

20319. The State Treasurer may enter into contracts with private lending institutions in order to best serve the purposes of this chapter and to provide for the screening, processing, awarding, disbursement, servicing, and termination of loans in accordance with criteria established pursuant to the provisions of this article

Article 3. Termination

20320. This chapter shall remain in effect only until January 1, 1979, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1979, deletes or extends such date.

SEC. 2. There is hereby appropriated from the General Fund in the State Treasury the sum of five million dollars ($5,000,000) to the State Treasurer for allocation as follows:

(a) Four million dollars ($4,000,000) to the California Drought Disaster Relief Fund for purposes of carrying out the provisions of Chapter 3 (commencing with Section 20300) of Division 10 of the Water Code.

(b) One million dollars ($1,000,000) to the Department of Finance for allocation pursuant to the provisions of Section 128 of the Water Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Because of the extreme drought conditions existing in many areas of California, and the abnormally deficient condition of water reservoir supplies, agricultural producers in a large portion of the state are unable to continue normal agricultural production. Thus, their incomes will be drastically reduced, jobs will be lost, the state economy will be severely affected and food supplies may be imperiled. In order to provide some remedy for this situation and to help assure a continuing supply of food, jobs, and income, it is necessary for this act to take effect immediately in order for water to be made available during the growing season.

(3) If it is determined by the court that no treatment for the defendant's mental impairment is being conducted, the defendant shall be returned to the committing court.

(4) The superintendent or person in charge of the facility shall deliver the reports made pursuant to paragraph (1) to the committing court and to the county mental health director or his designee, which shall provide a copy thereof to the defendant, his attorney of record, and any other interested person specified by the defendant.

(c) (1) If, at the end of three years from the date of commitment or a period of commitment equal to the maximum term of imprisonment provided by law for the most serious offense charged in the information, indictment, or misdemeanor complaint, whichever is shorter, the defendant has not recovered his mental competence, he shall be returned to the committing court. The court shall notify the county mental health director or his designee of such return and of any resulting court orders

(2) Whenever any defendant is returned to the court pursuant to paragraph (2) of subdivision (b) or paragraph (1) of subdivision (c) and it appears to the court that the defendant is gravely disabled as defined in paragraph (2) of subdivision (h) of Section 5008 of the Welfare and Institutions Code, the court shall order the conservatorship investigator of the county of commitment of the defendant to initiate conservatorship proceedings for such defendant pursuant to Chapter 3 (commencing with Section 5350) of Part 1 of Division 5 of the Welfare and Institutions Code. Any hearings required in the conservatorship proceedings shall be held in the superior court in the county which ordered the commitment. The court shall transmit a copy of the order directing initiation of conservatorship proceedings to the county mental health director or his designee

(d) The criminal action remains subject to dismissal pursuant to Section 1385.

(e) If the criminal charge against the defendant is dismissed, the defendant shall be released from any commitment ordered under this section, but without prejudice to the initiation of any proceedings under the Lanterman-Petris-Short Act, Part 1 (commencing with Section 5000) of Division 5 of the Welfare and Institutions Code, which may be appropriate

SEC. 2. Section 1754 of the Probate Code, as amended by Chapter 453 of the Statutes of 1977, is amended to read

1754 Any person or any relative or friend of any person, other than a creditor of the proposed conservatee, may file a verified petition alleging that the appointment of a conservator is required The petition shall set forth, so far as they are known to the petitioner, the names and residences of the spouse, if any, and of the relatives of the proposed conservatee within the second degree. Upon the filing of the petition, the clerk shall set the petition for hearing by the court Notice of the nature of the proceedings and of the time and place of the hearing on the petition shall be mailed by the petitioner to the spouse, if any, and to each of such relatives, and if the proposed conservatee is an "absentee," as defined in Section 1751.5, to the secretary concerned or to the head of the United States department or agency concerned, as the case may be, at least 15 days before such hearing date. If the proposed conservatee is an "absentee," as defined in Section 1751 5, such notice shall also be published pursuant to Section 6061 of the Government Code in a newspaper of general circulation in the county in which the proceedings will be held.

If the petition is filed by a person other than the proposed conservatee, the clerk shall issue a citation directed to the proposed conservatee setting forth the time and place of the hearing. The citation shall include a specific delineation of the legal standards by which the need for a conservatorship is adjudged as stated in Section 1751, and shall state that the proposed conservatee may be adjudged unable to provide for his personal needs or manage his financial resources, and by reason thereof, a conservator may be appointed for his person and property or person or property, that such adjudication may transfer the proposed conservatee's right to contract, manage and control his property, and to fix his residence to the appointed conservator that the court or a court investigator will explain the nature, purpose and effect of the proceeding to the proposed conservatee and answer questions concerning such explanation, that the proposed conservatee shall have the right to appear at such hearing and oppose such petition, that he shall have the right to legal counsel of his own choosing, including the right to have legal counsel appointed for him by the court if he is unable to retain one, and that he has the right to a jury trial if he so desires.

The citation, and a copy of the petition, shall be served upon the proposed conservatee in the same manner provided for in Section 415.10 or 415.30 of the Code of Civil Procedure or in such manner as may be authorized by the court, at least 10 days before the time of the hearing No such citation shall, however, be required if the proposed conservatee is an "absentee," as defined in Section 1751 5.

The proposed conservatee, if he is the petitioner, or if he is in the state at date of service and, if able to attend, shall be produced at the hearing, and, if not able to attend by reason of medical inability, such inability shall be established by the affidavit or certificate of a duly licensed medical practitioner. If the proposed conservatee is an adherent of a religion whose tenets and practices call for reliance on prayer alone for healing and is under treatment by an accredited practitioner of such religion, an affidavit as to his or her medical inability to attend by an accredited practitioner shall be acceptable. Emotional or psychological instability shall not be considered good cause for the absence of the proposed conservatee within the meaning of this section, unless, by reason of such instability, attendance at the hearing is likely to cause serious and immediate physiological damage to the proposed conservatee. The medical affidavit shall be evidence only of the proposed conservatee's medical inability to attend the hearing and shall not be considered in determining the issue of need for appointment of a conservator. If the proposed conservatee is an "absentee," as defined in Section 1751.5 his inability to attend the hearing shall be established by a certificate complying with Section 1283 of the Evidence Code, showing the determination of the Secretary of the Military Department or the head of the department, or agency concerned or his delegate, as the case may be, that the "absentee" is in missing status.

Upon the receipt of the affidavit or certificate attesting to the proposed conservatee's inability to attend the hearing, the court shall appoint a court investigator to personally interview the proposed conservatee and to inform him as to the contents of the citation, the nature, purpose and effect of the proceeding, and of his right to oppose the proceeding, attend the hearing, have the matter tried by jury and be represented by counsel. The investigator shall also determine whether it appears that the proposed conservatee is unable to attend the hearing, whether the proposed conservatee wishes to contest the establishment of the conservatorship, whether the proposed conservatee objects to the proposed conservator or whether he or she prefers another person to act as conservator, whether the proposed conservatee wishes to be represented by counsel, and if so, whether the proposed conservatee has retained counsel, and if not, the name of an attorney the proposed conservatee wishes to retain

The court investigator shall report his findings, including the proposed conservatee's express statement concerning representation by counsel, in writing, to the court at least five days before the date set for hearing.

As used in this chapter, a "court investigator" or "investigator" is a person trained in law who is an officer or special appointee of the court with no personal or other beneficial interest in proceedings.

Whenever a notice to any officer or agency of this state or of the United States would be required upon a petition for the appointment of a guardian of an alleged incompetent person a like notice shall be given of a petition under this chapter Any officer or agency of this state or of the United States, or the authorized delegate thereof, or any relative or friend of the proposed conservatee, or the proposed conservatee himself, may appear and oppose the petition.

SEC. 3. Section 2201 of the Probate Code is amended to read:

2201 On or after the filing of a petition for the appointment of a conservator, the court, with or without notice as the court or judge may require, upon a verified petition establishing good cause therefor, and filed by any person entitled under Section 1754 to apply for the appointment of a conservator, may appoint a temporary conservator of the person and estate or person or estate of any person (hereinafter called a conservatee) to serve pending the final determination of the court upon the petition for the appointment of a conservator under Chapter 2 of this division.

If a temporary conservator appointed by the court proposes to fix the residence of the conservatee to a place other than that where the conservatee resided prior to the institution of the proceedings, such power shall be requested of the court in writing, unless such change of residence is required of the conservatee by a prior court order The request shall be filed with the petition for conservatorship or, if a temporary conservatorship has already been established, separately The request shall specify in particular the place to which the temporary conservator proposes to move the conservatee, and

the precise reasons why it is believed that the conservatee will suffer irreparable harm if such change of residence is not permitted, and why no means less restrictive of the conservatee's liberty will suffice to prevent such harm.

Within seven days of the date of filing of a temporary conservator's request to remove the conservatee from his or her previous place of residence, the court shall conduct a hearing at which the conservatee shall be present unless such attendance would immediately jeopardize the conservatee's physical survival. The conservatee shall be represented by counsel, as provided in Section 1754, shall be granted the right to confront and cross-examine any witness presented by or on behalf of the temporary conservator and to present evidence on his or her own behalf.

The court may approve the request to remove the conservatee from his or her previous place of residence only if it finds by a preponderance of the evidence that such change of residence is required to prevent irreparable harm to the conservatee, and that no means less restrictive of the conservatee's liberty will suffice to prevent such harm. If an order is made approving the request to remove the conservatee from his or her previous place of residence, the order shall specify the specific place wherein the temporary conservator is authorized to place the conservatee. The temporary conservator shall not be authorized to remove the conservatee from the State of California unless it is additionally shown that such removal is required to permit the performance of specified nonpsychiatric medical treatment, consented to by the conservatee, which is essential to the conservatee's physical survival. A temporary conservator who willfully removes a temporary conservatee from the State of California without authorization of the court is guilty of a felony.

The court shall also order the temporary conservator to take all reasonable steps to preserve the status quo concerning the conservatee's previous place of residence. Under no circumstances shall a temporary conservator be permitted to sell or relinquish on the conservatee's behalf any lease or estate in real or personal property used as or within the conservatee's place of residence; nor shall the temporary conservator be permitted to sell or relinquish on the conservatee's behalf any estate or interest in other real or personal property without specific approval of the court, which may be granted only upon a finding based on a preponderance of the evidence that such action is necessary to avert irreparable harm to the conservatee.

SEC. 4. Section 2201.5 is added to the Probate Code, to read:

2201.5. Notwithstanding Section 2201, a temporary conservator may remove a temporary conservatee from his or her place of residence without prior court approval if an emergency exists. For the purposes of this chapter, an emergency exists if the temporary conservatee's place of residence is unfit for habitation or if the temporary conservatee has a medical condition which presents an

immediate threat to the temporary conservatee's physical survival.

No later than one judicial day after the emergency removal of the temporary conservatee, the temporary conservator shall file a written request pursuant to Section 2201 for permission to fix the residence of the temporary conservatee other than the temporary conservatee's previous place of residence. Nothing in this chapter shall prevent a temporary conservator from removing a temporary conservatee from his place of residence to a health facility for treatment without court approval when the temporary conservatee has given informed consent to the removal.

SEC. 5. Section 5353 of the Welfare and Institutions Code is amended to read:

5353. A temporary conservator under this chapter shall determine what arrangements are necessary to provide the person with food, shelter, and care pending the determination of conservatorship. He shall give preference to arrangements which allow the person to return to his home, family or friends. If necessary, the temporary conservator may require the person to be detained in a facility providing intensive treatment or in a facility specified in Section 5358 pending the determination of conservatorship. Any person so detained shall have the same right to judicial review set forth in Article 5 (commencing with Section 5275) of Chapter 2 of this part.

The powers of the temporary conservator shall be those granted in the decree, but in no event may they be broader than the powers which may be granted a conservator.

The court shall order the temporary conservator to take all reasonable steps to preserve the status quo concerning the conservatee's previous place of residence. Under no circumstances shall a temporary conservator be permitted to sell or relinquish on the conservatee's behalf any lease or estate in real or personal property used as or within the conservatee's place of residence; nor shall the temporary conservator be permitted to sell or relinquish on the conservatee's behalf any estate or interest in other real or personal property without specific approval of the court, which may be granted only upon a finding based on a preponderance of the evidence that such action is necessary to avert irreparable harm to the conservatee.

SEC. 6. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities which, in the aggregate, do not result in significant identifiable cost changes and because there are no new duties, obligations or responsibilities imposed on local government by this act.

CHAPTER 1238

An act to amend Sections 726, 731, and 1766 of the Welfare and Institutions Code, relating to juvenile court law, and declaring the urgency thereof, to take effect immediately

[Approved by Governor October 1, 1977. Filed with Secretary of State October 1, 1977.]

The people of the State of California do enact as follows:

SECTION 1. Section 726 of the Welfare and Institutions Code is amended to read:

726. In all cases wherein a minor is adjudged a ward or dependent child of the court, the court may limit the control to be exercised over such ward or dependent child by any parent or guardian and shall by its order clearly and specifically set forth all such limitations, but no ward or dependent child shall be taken from the physical custody of a parent or guardian unless upon the hearing the court finds one of the following facts:

(a) That the parent or guardian is incapable of providing or has failed or neglected to provide proper maintenance, training, and education for the minor.

(b) That the minor has been tried on probation in such custody and has failed to reform.

(c) That the welfare of the minor requires that his custody be taken from his parent or guardian.

In any case in which the minor is removed from the physical custody of his parent or guardian as the result of an order of wardship made pursuant to Section 602, the order shall specify that the minor may not be held in physical confinement for a period in excess of the maximum term of imprisonment which could be imposed upon an adult convicted of the offense or offenses which brought or continued the minor under the jurisdiction of the juvenile court.

As used in this section and in Section 731, "maximum term of imprisonment" means the longest of the three time periods set forth in paragraph (2) of subdivision (a) of Section 1170 of the Penal Code, but without the need to follow the provisions of subdivision (b) of Section 1170 of the Penal Code or to consider time for good behavior or participation pursuant to Sections 2930, 2931, and 2932 of the Penal Code, plus enhancements which must be proven if pled.

If the court elects to aggregate the period of physical confinement on multiple counts, or multiple petitions, including previously sustained petitions adjudging the minor a ward within Section 602, the "maximum term of imprisonment" shall be specified in accordance with subdivision (a) of Section 1170.1 of the Penal Code.

If the charged offense is a misdemeanor or a felony not included within the scope of Section 1170 of the Penal Code, the "maximum term of imprisonment" is the longest term of imprisonment

prescribed by law.

"Physical confinement" means placement in a juvenile hall, ranch, camp, forestry camp or secure juvenile home pursuant to Section 730, or in any institution operated by the Youth Authority.

Nothing in this section shall be construed to limit the power of the court to retain jurisdiction over a minor and to make appropriate orders pursuant to Section 727 for the period permitted by Section 607.

SEC. 2. Section 731 of the Welfare and Institutions Code is amended to read:

731. When a minor is adjudged a ward of the court on the ground that he is a person described by Section 602, the court may order any of the types of treatment referred to in Sections 727 and 730, and, in addition may order the ward to make restitution or to participate in uncompensated work programs or may commit the ward to a shelter-care facility or may order that the ward and his family or guardian participate in a program of professional counseling as arranged and directed by the probation officer as a condition of continued custody of such minor or may commit the minor to the Youth Authority.

A minor committed to the Youth Authority may not be held in physical confinement for a period of time in excess of the maximum period of imprisonment which could be imposed upon an adult convicted of the offense or offenses which brought or continued the minor under the jurisdiction of the juvenile court. Nothing in this section limits the power of the Youth Authority to retain the minor on parole status for the period permitted by Section 1769.

SEC. 3. Section 1766 of the Welfare and Institutions Code is amended to read:

1766. When a person has been committed to the authority, it may

(a) Permit him his liberty under supervision and upon such conditions as it believes best designed for the protection of the public;

(b) Order his confinement under such conditions as it believes best designed for the protection of the public, except that a person committed to the Youth Authority pursuant to Sections 731 or 1731.5 may not be held in physical confinement for a total period of time in excess of the maximum period of imprisonment which could be imposed upon an adult convicted of the offense or offenses which brought the minor under the jurisdiction of the juvenile court, or which resulted in the commitment of the young adult to the Youth Authority. Nothing in this subdivision limits the power of the authority to retain the minor or the young adult on parole status for the period permitted by Sections 1769, 1770, and 1771;

(c) Order reconfinement or renewed release under supervision as often as conditions indicate to be desirable;

(d) Revoke or modify any order except an order of discharge as often as conditions indicate to be desirable;

(e) Modify an order of discharge if conditions indicate that such

modification is desirable and when such modification is to the benefit of the person committed to the authority;

(f) Discharge him from its control when it is satisfied that such discharge is consistent with the protection of the public.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to clarify changes made in the extensive revision of the juvenile court law enacted at the 1975–1976 Regular Session of the Legislature, it is imperative that this act shall take effect immediately

CHAPTER 1239

An act to add Chapter 11 (commencing with Section 1925) to Division 2 of the Fish and Game Code, to add Division 23 (commencing with Section 66000) to the Food and Agricultural Code, and to amend Section 384a of the Penal Code, relating to native plants

[Approved by Governor October 1, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Chapter 11 (commencing with Section 1925) is added to Division 2 of the Fish and Game Code, to read:

CHAPTER 11 CALIFORNIA NATIVE DESERT PLANTS

1925. The department shall enforce the provisions of the California Desert Native Plants Act (commencing with Section 66000 of the Food and Agricultural Code), except that permits and tags and seals and wood receipts shall be issued pursuant to Chapter 4 (commencing with Section 66250) of Division 23 of the Food and Agricultural Code by the county agricultural commissioner or the sheriff. Nothing in the California Desert Native Plants Act (commencing with Section 66000 of the Food and Agricultural Code), or any other law, shall prohibit the department from taking, for scientific or propagation purposes, any species of native plants. The department may import, propagate, and distribute native plants, and the provisions of the California Desert Native Plants Act (commencing with Section 66000 of the Food and Agricultural Code) shall not apply to such activities.

1926 In carrying out the provisions of this chapter the department shall cooperate fully with the Department of Food and Agriculture.

SEC. 2. Division 23 (commencing with Section 66000) is added to the Food and Agricultural Code, to read:

DIVISION 23. CALIFORNIA DESERT NATIVE PLANTS

CHAPTER 1. GENERAL PROVISIONS

66000. This division shall be known and may be cited as the California Desert Native Plants Act.

66001. It is the intent of the Legislature in enacting the provisions of this division to protect California desert native plants from unlawful harvesting on both public and privately owned lands. It is also the intent of the Legislature to provide the people of this state with the information necessary to legally harvest native plants so as to ultimately transplant such plants with the greatest possible chance of survival. It is the further intent of the Legislature to encourage public participation in implementing the safeguards established by this division and in evaluating the effectiveness and desirability of such safeguards.

66002. The provisions of this division shall on the effective date of this division be applicable only within the exterior boundaries of the Counties of Imperial, Inyo, Kern, Los Angeles, Mono, Riverside, San Bernardino, and San Diego. The director may thereafter revise the boundaries of the areas of the state which shall be subject to the provisions of this division after an annual public hearing required to be held pursuant to Section 66203 and upon receipt of a resolution approving such change of boundaries by the board of supervisors of the affected county.

CHAPTER 3. REGULATED NATIVE PLANTS

66200. The botanical names of the plants referred to in this chapter shall in all cases govern in the interpretation of this division.

66201. The following native plants may not be harvested, except for scientific or educational purposes under a permit issued by the agricultural commissioner of the county in which the native plants are growing: all species of Burseraceae family (elephant tree), Carnegiea gigantea (sahuaro cactus), Castela emoryi (crucifixion thorn), Olneya tesota (desert ironwood), and Washingtonia filifera (fan palm).

66204. Any native plant that is declared to be a rare, endangered or threatened species by federal or state law or regulations, including, but not limited to, the Fish and Game Code, is exempt from the provisions of this division

66250. The county agricultural subject to this commissioner or the sheriff of a county subject to this division shall issue, in accordance with the provisions of this division, permits, wood receipts, tags, and seals for a fee as prescribed by the board of supervisors of the county where the native plants are located. Such fee shall not be less than one dollar ($1) per plant for all native plants, except Yucca brevifolia (Joshua tree), and not less than two dollars ($2) per plant for each Yucca brevifolia (Joshua tree), except that in the case of trees, live or dead, mesquite, palo verde or ironwood species of trees cut or removed for wood, as provided in Section 66252, such fee shall not be less than one dollar ($1) per cord. Such fees shall be based on the approximate cost of issuance. The permit shall specify, among other things, the species of native plants which may be harvested, the area from which plants may be harvested, and the manner in which plants may be harvested. No person, except as provided in this division, shall harvest, transport, offer for sale, or have in his possession any native plant in the State of California unless at the time of harvesting he has a valid permit therefor on his person, a valid wood receipt where required, attaches the tags and seals as may be required to the native plants at the time of harvesting, and exhibits the permit, wood receipt, and tags and seals upon request for inspection by any duly authorized agent of the county agricultural commissioner, or any peace officer as provided for in this division. No wood receipt or tag and seal is valid unless it is issued with a valid permit and such permit bears the tag number or wood receipt number on its face.

66251 With each permit authorizing the harvesting, transporting, or possessing of native plants, except trees cut or removed for wood as provided in Section 66252, the department shall provide such tags and seals as the department may prescribe.

The permittee or his agent shall attach tags and seals to the native plants at the time of harvesting and before transporting in such manner as prescribed by the department or by the agricultural commissioner of the county in which the native plants are located. After any native plant has been legally harvested and tagged as provided by this division, it shall be unlawful to remove such tag or seal until the plant has been transplanted into its ultimate site for

landscaping or beautification purposes. Removal of the tag or seal from the plant shall be only by an agent of the county agricultural commissioner, or the ultimate owner of the plant, who shall retain such tag or seal as proof of ownership. No permit or tag or seal as such is transferable by the permittee or his agent, nor shall it be used by anyone except that person to whom such permit or tag or seal was issued, and no refunds shall be made for the purchase thereof. Any permittee shall be responsible for the acts of any other person or persons acting under any authority expressed or implied of the permittee.

66252. With each permit authorizing the harvesting, transporting, or possessing of live or dead mesquite, palo verde, or ironwood species of trees which are cut or removed for wood, the department shall provide such wood receipts as the department may prescribe. Any required wood receipt must be in the possession of the person harvesting, transporting, or possessing the wood. No permit or wood receipt as such is transferable by the permittee or his agent, nor shall it be used by anyone other than the person to whom such permit or wood receipt was issued or his agent or employee, except that the wood receipt shall be transferred by the permittee or his agent or employee to the purchaser of the wood covered by the receipt as proof of ownership.

66253. A person in possession of a valid permit for the removal of dead plants or wood issued by the United States Forest Service, the National Park Service, or the Bureau of Land Management shall be exempt from the permit required pursuant to this division.

66254. The director may make necessary rules and regulations not in conflict with this division for the enforcement of its provisions.

66255. The director or any of his duly authorized agents or any peace officer is authorized and directed to enter in or upon any premises or other place, train, vehicle, or other means of transportation within or entering the state, suspected of containing or having present therein or thereon native plants in violation of this division, or to examine permits and wood receipts and observe tags and seals.

66256. When any power or authority is given by any provision of this division to any person, it may be exercised by any deputy, inspector, or agent duly authorized by such person. Any person in whom the enforcement of any provision of this division is vested has the power of a peace officer as to such enforcement, which shall include state or federal agencies with which cooperative agreements have been made by the department to enforce any provisions of this division.

66257. Any county may adopt ordinances not in conflict with the provisions of this division for the preservation of native plants specified in Sections 66201 and 66202.

CHAPTER 5. TAKING OF NATIVE PLANTS

66300. Except as provided in this division, it shall be unlawful for any person to destroy, dig up, mutilate, or harvest any living native plant, or the living or dead parts of any native plants, except fruit, from state land or public land or private land without obtaining written permission from the landowner and a permit and any required wood receipts or tags and seals. It shall be unlawful for any person to falsify any paper or document issued to give permission for any person to harvest native plants or to fail to comply with all conditions or stipulations of the permit.

66301. The agricultural commissioner of the county wherein the plants are located may issue a permit to a scientific or educational institution to harvest a definite number of specified plants as listed in Section 66201 for scientific or educational purposes, provided permission is obtained from the landowner.

66302. Permits issued for the removal of native plants shall be valid only for a stated period of time to allow the permittee to remove the specific amount of plants or wood stated in the permit, or such period of time stated by the landowner as part of such landowner's permission, whichever is shorter, but in no case for more than one year.

It is the intent of the Legislature that each permit or wood receipt shall be valid for the least period of time possible in which to accomplish the authorized purpose.

66303. No person shall knowingly make any false statement on any application for such permit, wood receipt, and tags and seals, and the application shall contain, but is not limited to, the following information:

(a) The name, address, and telephone number of the applicant.

(b) The amount and species of native plants to be transported.

(c) The name of the county from which the native plants are to be removed.

(d) A legal description of the real property from which the native plants are to be removed.

(e) The name or names, addresses, and telephone numbers of the owners of the real property from which the native plants are to be removed.

(f) The applicant's timber operator permit number, if the harvesting of the native plants is subject to the Z'berg-Nejedly Forest Practice Act of 1973 (Chapter 8 (commencing with Section 4511) of Part 2 of Division 4 of the Public Resources Code).

(g) The proposed date or dates of such transportation.

(h) The location of the office of the peace officer who will validate the tag or tags.

(i) The destination of such native plants.

(j) The ultimate use of the native plants, such as for use as landscaping or decorative material, or for use as a raw material in the manufacture or processing of a product.

(k) Make, model, and license number of the transportation vehicle

Every applicant shall, at the time of application, show his proof of ownership of the native plants. owner of the land, signed by such owner or his authorized agent, shall be guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than five hundred dollars ($500) or by imprisonment in a county jail for not more than six months or by both such fine and imprisonment.

The written permit required under this section shall be signed by the landowner, or his authorized agent, and acknowledged before a notary public, or other person authorized by law to take acknowledgments. The permit shall contain the number and species of trees and amount of shrubs or ferns or herbs or bulbs or cacti or flowers, or huckleberry or redwood greens, or portions of any tree or shrub and shall contain the legal description of the real property as usually found in deeds and conveyances of the land on which cutting or removal, or both, shall take place One copy of such permit shall be filed in the office of the sheriff of the county in which the land described in the permit is located. The permit shall be filed prior to commencement of cutting of the trees or shrub or fern or herb or bulb or cactus or flower or huckleberry or redwood green or portions of any tree or shrub authorized by the permit The permit required by this section need not be notarized or filed with the office of the sheriff of the county where trees are to be removed when 5 (five) or less trees or 5 (five) or less pounds of shrubs or boughs are to be cut or removed.

The provisions of this section shall not be construed to apply to any tree or shrub, or fern or herb or bulb or cactus or flower, or greens declared by law to be a public nuisance.

The provisions of this section shall not be deemed to apply to the necessary cutting or trimming of any such trees, shrubs, or ferns or herbs or bulbs or cacti or flowers, or greens if done for the purpose of protecting or maintaining an electric powerline or telephone line or other property of a public utility.

The provisions of this section do not apply to persons engaged in logging operations, or in suppressing fires.

The provisions of this section do not apply to any act regulated by the provisions of Division 23 (commencing with Section 66000) of the Food and Agricultural Code.

SEC. 4. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because

the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local government entities and school districts which, in the aggregate, do not result in significant identifiable cost changes.

CHAPTER 1241

An act to amend Sections 207, 604, 630, 635. 636.2, 654, 655, 776, 777, and 840 of, and to repeal Sections 507 and 653 5 of, the Welfare and Institutions Code, relating to juvenile court law, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1977 Filed with Secretary of State October 1, 1977]

The people of the State of California do enact as follows:

SECTION 1. Section 207 of the Welfare and Institutions Code is amended to read:

207. (a) No court, judge, referee, or peace officer shall knowingly detain in any jail or lockup any person under the age of 18 years, unless a judge of the juvenile court shall determine that there are no other proper and adequate facilities for the care and detention of such person, or unless such person has been transferred by the juvenile court to another court for proceedings not under the Juvenile Court Law and has been charged with or convicted of a felony. If any person under the age of 18 years is transferred by the juvenile court to another court and is charged with or convicted of a felony as herein provided and is not released pending hearing, such person may be committed to the care and custody of a sheriff, constable, or other peace officer who shall keep such person in the juvenile hall or in such other suitable place as such latter court may direct, provided that no such person shall be detained in or committed to any hospital except for medical or other remedial care and treatment or observation.

(b) Notwithstanding the provisions of subdivision (a) or any other provision of law, no minor shall be detained in any jail, lockup, juvenile hall, or other secure facility who is taken into custody solely upon the ground that he is a person described by Section 601 or adjudged to be such or made a ward of the juvenile court solely upon that ground. If any such minor is detained, he shall be detained in a sheltered-care facility or crisis resolution home as provided for in Section 654, or in a nonsecure facility provided for in subdivision (a), (b), (c), or (d) of Section 727.

SEC. 1.5 Section 507 of the Welfare and Institutions Code is repealed.

SEC 1.7. Section 604 of the Welfare and Institutions Code is

amended to read:

604. (a) Whenever a case is before any court upon an accusatory pleading and it is suggested or appears to the judge before whom such person is brought that the person charged was, at the date the offense is alleged to have been committed, under the age of 18 years, such judge shall immediately suspend all proceedings against such person on such charge; he shall examine into the age of such person, and if, from such examination, it appears to his satisfaction that such person was at the date the offense is alleged to have been committed under the age of 18 years, he shall forthwith certify to the juvenile court of his county:

(1) That such person (naming him) is charged with such crime (briefly stating its nature);

(2) That such person appears to have been under the age of 18 years at the date the offense is alleged to have been committed, giving date of birth when known;

(3) That proceedings have been suspended against such person on such charge by reason of his age, with the date of such suspension.

To such certification, the judge shall attach a copy of the accusatory pleading.

(b) When a court certifies a case to the juvenile court pursuant to subdivision (a), it shall be deemed that jeopardy has not attached by reason of the proceedings prior to certification, but the court may not resume proceedings in the case, nor may a new proceeding under the general law be commenced in any court with respect to the same matter unless the juvenile court has found that the minor is not a fit subject for consideration under the Juvenile Court Law and has ordered that proceedings under the general law resume or be commenced.

(c) The certification and accusatory pleading shall be promptly transmitted to the clerk of the juvenile court. Upon receipt thereof, the clerk of the juvenile court shall immediately notify the probation officer who shall immediately proceed in accordance with Article 16 (commencing with Section 650) to cause the filing of a petition pursuant to Section 656, except that such petition need not be verified.

SEC 2. Section 630 of the Welfare and Institutions Code is amended to read.

630. (a) If the probation officer determines that the minor shall be retained in custody, he shall immediately proceed in accordance with Article 16 (commencing with Section 650) to cause the filing of a petition pursuant to Section 656 with the clerk of the juvenile court who shall set the matter for hearing on the detention calendar. Immediately upon filing the petition with the clerk of the juvenile court, if the minor is alleged to be a person described in Section 601 or 602, the probation officer or the prosecuting attorney, as the case may be, shall serve such minor with a copy of the petition and notify him of the time and place of the detention hearing. The probation officer, or the prosecuting attorney, as the case may be, shall

thereupon notify each parent or each guardian of the minor of the time and place of such hearing if the whereabouts of each parent or guardian can be ascertained by due diligence. Such notice may be given orally.

(b) In such hearing the minor has a privilege against self-incrimination and has a right to confrontation by, and cross-examination of, any person examined by the court as provided in Section 635.

SEC. 3. Section 635 of the Welfare and Institutions Code is amended to read:

635. The court will examine such minor, his parent, guardian, or other person having relevant knowledge, hear such relevant evidence as the minor, his parent or guardian or their counsel desires to present, and, unless it appears that such minor has violated an order of the juvenile court or has escaped from the commitment of the juvenile court or that it is a matter of immediate and urgent necessity for the protection of such minor or reasonably necessary for the protection of the person or property of another that he be detained or that such minor is likely to flee to avoid the jurisdiction of the court, the court shall make its order releasing such minor from custody.

The circumstances and gravity of the alleged offense may be considered, in conjunction with other factors, to determine whether it is a matter of immediate and urgent necessity for the protection of the minor or reasonably necessary for the protection of the person or property of another that the minor be detained.

SEC 3.5. Section 636.2 of the Welfare and Institutions Code is amended to read:

636.2. The probation officer may operate and maintain nonsecure detention facilities, or may contract with public or private agencies offering such services, for those minors who are not considered escape risks and are not considered a danger to themselves or to the person or property of another. Criteria to be considered for detention in such facilities shall include, but not be limited to: (a) the nature of the offense, (b) the minor's previous record including escapes from secure detention facilities, (c) lack of criminal sophistication, and (d) the age of the minor. A minor detained in such facilities who leaves the same without permission may be housed in a secure facility following his apprehension, pending a detention hearing pursuant to Section 632.

SEC. 4. Section 653.5 of the Welfare and Institutions Code is repealed.

SEC. 5. Section 654 of the Welfare and Institutions Code is amended to read:

654. In any case in which a probation officer, after investigation of an application for petition or other investigation he is authorized to make concludes that a minor is within the jurisdiction of the juvenile court or will probably soon be within such jurisdiction, he may, in lieu of filing a petition to declare a minor a dependent child

of the court or a minor or a ward of the court under Section 601 or requesting that a petition be filed by the prosecuting attorney to declare a minor a ward of the court under Section 602 or subsequent to dismissal of a petition already filed, and with consent of the minor and the minor's parent or guardian, delineate specific programs of supervision for the minor, for not to exceed six months, and attempt thereby to adjust the situation which brings the minor within the jurisdiction of the court or creates the probability that he will soon be within such jurisdiction. Nothing in this section shall be construed to prevent the probation officer from filing a petition or requesting the prosecuting attorney to file a petition at any time within said six-month period If the probation officer determines that the minor has not involved himself in the specific programs within 60 days, the probation officer shall immediately file a petition or request that a petition be filed by the prosecuting attorney. However, when in the judgment of the probation officer the interest of the minor and the community can be protected, the probation officer shall make a diligent effort to proceed under this section.

The program of supervision of the minor undertaken pursuant to this section may call for the minor to obtain care and treatment for the misuse of restricted dangerous drugs or addiction to narcotics from a county mental health service or other appropriate community agency

Further, this section shall authorize the probation officer with consent of the minor and the minor's parent or guardian to provide the following services in lieu of filing a petition:

(a) Maintain and operate sheltered-care facilities, or contract with private or public agencies to provide such services. Such placement shall be limited to a maximum of 90 days. Counseling services shall be extended to the sheltered minor and his family during this period of diversion services. The minor and his parents may be required to make full or partial reimbursement for the services rendered the minor and his family during the diversion process. Referrals for sheltered-care diversion may be made by the minor, his family, schools, law enforcement or any other private or public social service agency

(b) Maintain and operate crisis resolution homes, or contract with private or public agencies offering such services. Residence at such facilities shall be limited to 20 days during which period individual and family counseling shall be extended the minor and his family. Failure to resolve the crisis within the 20-day period may result in the minor's referral to a shelter-care facility for a period not to exceed 90 days. Referrals shall be accepted from the minor, his family, schools, law enforcement or any other private or public social service agency. The minor, his parents, or both, may be required to reimburse the county for the cost of services rendered at a rate to be determined by the county board of supervisors.

(c) Maintain and operate counseling and educational centers, or contract with private and public agencies, societies or corporations

whose purpose is to provide vocational training or skills. Such centers may be operated separately or in conjunction with crisis resolution homes to be operated by the probation officer. The probation officer shall be authorized to make referrals to the appropriate existing private or public agencies offering similar services when available.

At the conclusion of the program of supervision undertaken pursuant to this section, the probation officer shall prepare and maintain a followup report of the actual program measures taken.

SEC 6 Section 655 of the Welfare and Institutions Code is amended to read:

655. (a) When any person has applied to the probation officer, pursuant to Section 653, to request commencement of juvenile court proceedings to declare a minor a ward of the court under Section 602 and the probation officer does not cause the affidavit to be taken to the prosecuting attorney pursuant to Section 653 within 21 court days after such application, such person may, within 30 court days after making such application, apply to the prosecuting attorney to review the decision of the probation officer, and the prosecuting attorney may either affirm the decision of the probation officer or commence juvenile court proceedings.

(b) When any person has applied to the probation officer, pursuant to Section 653, to commence juvenile court proceedings to declare a minor a dependent child of the court or a ward of the court under Section 601 and the probation officer fails to file a petition within 21 court days after such application, such person may, within 30 court days after making such application, apply to the juvenile court to review the decision of the probation officer, and the court may either affirm the decision of the probation officer or order him to commence juvenile court proceedings.

SEC. 8. Section 776 of the Welfare and Institutions Code is amended to read:

776. No order changing, modifying, or setting aside a previous order of the juvenile court shall be made either in chambers, or otherwise, unless prior notice of the application therefor has been given by the judge or the clerk of the court to the probation officer and prosecuting attorney and to the minor's counsel of record, or, if there is no counsel of record, to the minor and his parent or guardian.

SEC. 9. Section 777 of the Welfare and Institutions Code is amended to read:

777. An order changing or modifying a previous order by removing a minor from the physical custody of a parent, guardian, relative or friend and directing placement in a foster home, or commitment to a private institution or commitment to a county institution, or an order changing or modifying a previous order by directing commitment to the Youth Authority shall be made only after noticed hearing upon a supplemental petition.

(a) The supplemental petition shall be filed by the probation officer, where a minor has been declared a ward of the court under Section 601, and by the prosecuting attorney at the request of the

probation officer where a minor has been declared a ward under Section 602, in the original matter and shall contain a concise statement of facts sufficient to support the conclusion that the previous disposition has not been effective in the rehabilitation or protection of the minor.

(b) Upon the filing of such supplemental petition, the clerk of the juvenile court shall immediately set the same for hearing within 30 days, and the probation officer shall cause notice thereof to be served upon the persons and in the manner prescribed by Sections 658 and 660.

(c) An order for the detention of the minor pending adjudication of the petition may be made only after a hearing is conducted pursuant to Article 15 (commencing with Section 625) of this chapter.

SEC. 9.5. Section 840 of the Welfare and Institutions Code is amended to read:

840. There shall be in each county probation department a program of home supervision to which minors described by Section 628.1 shall be referred. Home supervision is a program in which persons who would otherwise be detained in the juvenile hall are permitted to remain in their homes pending court disposition of their cases, under the supervision of a deputy probation officer, probation aide, or probation volunteer.

SEC. 10. The Legislature recognizes that there are state-mandated local costs incurred by counties as a result of the enactment of Chapter 1071 of the Statutes of 1976, including, but not limited to, costs required to provide alternative programs for minors alleged or found to be wards of the juvenile court pursuant to Section 601 of the Welfare and Institutions Code, but for Chapter 1071 of the Statues of 1976, would have been placed in secure detention, and that such costs may exceed the savings provided to counties by Chapter 1071 of the Statutes of 1976. The Legislature further recognizes that Section 2231 of the Revenue and Taxation Code requires state reimbursement of counties for such costs.

SEC. 11. Notwithstanding Section 2253 of the Revenue and Taxation Code, counties shall submit to the State Board of Control claims for reimbursement for costs imposed by Chapter 1071 of the Statutes of 1976, which costs arise between January 1, 1977, and June 30, 1978, to the extent that costs exceed savings provided for by that act during that period. Any county utilizing programs and facilities of a type now required by Chapter 1071 of the Statutes of 1976 shall be reimbursed only the costs arising with respect to those programs and facilities on and after January 1, 1977, that are directly imposed on the county by Chapter 1071 of the Statutes of 1976. The State Board of Control shall consider the claims based on recommendations or evidence, or both, presented by the Department of the Youth Authority and the Department of Finance, Local Mandate Programs Unit, or other state departments as appropriate.

SEC. 12. As used in Sections 10 and 11 of this act, "county" also includes a city and county.

SEC. 13. The sum of eighteen million dollars ($18,000,000) is hereby appropriated from the General Fund to the State Controller for disbursement to any county for reimbursement for costs incurred pursuant to Chapter 1071 of the Statutes of 1976, upon approval of claims for such reimbursement pursuant to Section 12 of this act and in accordance with the following schedule:

(1) Six million dollars ($6,000,000) for the 1976–77 fiscal year.

(2) Twelve million dollars ($12,000,000) for 1977–78 fiscal year; provided, that if claims received in 1976–77 fiscal year are over six million dollars ($6,000,000) the Department of Finance may allocate funds in this paragraph to paragraph (1). If the total county claims for reimbursement for costs incurred pursuant to Chapter 1071 of the Statutes of 1976 exceed the amount of funds appropriated herein, the Department of Finance shall request additional funds from the Legislature to meet the full amount of such claims.

SEC. 14. Any claim incurred by a county during the period of January 1, 1977, to June 30, 1977, pursuant to Chapter 1071 of the Statutes of 1976, which is filed by a county with the State Controller after the normal filing period shall be accepted and the county shall be reimbursed by funds made available pursuant to this act.

SEC. 15. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the conforming changes in the law necessitated by Chapter 1071 of the Statutes of 1976 be effectuated at the earliest possible date, it is necessary that this bill take effect immediately.

date of such statement and such other information as will reasonably enable such person or entity, or the agent of either, to determine the amount to be paid the Controller in order to obtain a certificate of release or discharge of the lien for postponed taxes.

The Controller shall adopt regulations necessary to implement the provisions of this chapter and shall establish a reasonable fee, not to exceed ten dollars ($10), for the provision of the statement of lien status provided for herein.

16182. All sums paid by the Controller under the provisions of this chapter, together with interest thereon, shall be secured by a lien in favor of the State of California upon the real property for which property taxes have been postponed.

The lien shall be evidenced by a notice of lien for postponed property taxes executed by the Controller, or the authorized delegate of the Controller, and shall secure all sums paid or owing pursuant to this chapter, including amounts paid subsequent to the initial payment of postponed taxes on the real property described in the notice of lien.

The notice of lien may bear the facsimile signature of the Controller. Each such signature shall be that of the person who shall be in the office at the time of execution of the notice of lien; provided, however, that such notice of lien shall be valid and binding notwithstanding any such person having ceased to hold the office of Controller before the date of recordation.

The form and contents of the notice of lien for postponed property taxes shall be prescribed by the Controller and shall include, but not be limited to, the following:

(a) The names of all record owners of the real property for which the Controller has advanced funds for the payment of real property taxes

(b) A description of the real property for which real property taxes have been paid.

(c) The identification number of the notice of lien which has been assigned the lien by the Controller.

The notice of lien shall be recorded in the office of the county recorder for the county in which the real property subject to the lien is located.

The recorded notice of lien shall be indexed in the Grantor Index to the names of all record owners of the real property and in the Grantee Index to the Controller of the State of California.

After the notice of lien has been duly recorded and indexed, it shall be returned by the county recorder to the office of the Controller. The recorder shall provide the county tax collector with a copy of the notice of lien which has been recorded by the Controller.

From the time of recordation of a notice of lien for postponed property taxes, a lien shall attach to the real property described therein and shall have the force, effect, and priority of a judgment lien for all amounts secured thereby, except that the lien shall remain in effect until (1) released by the Controller in the manner

prescribed by Section 16186, or (2) the foreclosure or sale of an obligation secured by a lien which is senior in priority to the lien of the State of California

16183. (a) From the time a payment is made pursuant to Section 16180, the amount of such payment shall bear interest at an annual rate of 7 percent.

(b) The interest provided for in subdivision (a) of this section shall be applied beginning the first day of the month following the month in which such payment is made and continuing on the first day of each month thereafter until such amount is paid. In the event that any payments are applied, in any month, to reduce the amount paid pursuant to Section 16180, the interest provided for herein shall be applied to the balance of such amount beginning on the first day of the following month.

In computing interest in accordance with this section, fractions of a cent shall be disregarded.

16184. The Controller shall reduce the amount of the obligation secured by the lien against the real property by the amount of any payments received for that purpose and by notification of any amounts paid by the Franchise Tax Board pursuant to Section 20564 or by notification by the Franchise Tax Board of amounts authorized pursuant to subdivision (f) of Section 20621 of the Revenue and Taxation Code. The Controller shall also increase the amount of the obligation secured by such lien by the amount of any subsequent payments made pursuant to Section 16180 with respect to the real property and to reflect the accumulation of interest. All such increases and decreases shall be entered in the record described in Section 16181.

16185. Notwithstanding the provisions of Section 16182, provided the interests of the state are adequately protected, the Controller may subordinate the lien for postponed real property taxes where the Controller determines subordination is appropriate in order to permit the maintenance, improvement, alteration, or addition to the real property which is subject to the lien.

A recital in a certificate of subordination, executed by the Controller, recorded in the county wherein the notice of lien for postponed property taxes has been recorded, subordinating such lien to specifically identified liens or encumbrances shall be conclusive in favor of all persons or entities thereafter dealing with the real property.

16186. If at any time the amount of the obligation secured by the lien for postponed property taxes is paid in full or otherwise discharged, the Controller, or the authorized delegate of the Controller, shall:

(a) Execute and cause to be recorded in the office of the county recorder of the county wherein the real property described in the lien is located, a release of the lien conclusively evidencing the satisfaction of all amounts secured by the lien. The cost of recording the release of the lien shall be added to and become part of the

obligation secured by the lien being released.

(b) Direct the tax collector to remove from the secured roll, the information required to be entered thereon by paragraph (1) of subdivision (a) of Section 2514 of the Revenue and Taxation Code with respect to the property described in the lien.

(c) Direct the assessor to remove from the assessment records applicable to the property described in the lien, the information required to be entered on such records by Section 2515 of the Revenue and Taxation Code.

16187. (a) In the event of a judicial foreclosure of any lien senior in priority to the lien provided by Section 16182, notice shall be given the Controller, in such manner as the Controller may prescribe, not less than 60 days prior to the sale upon judicial or nonjudicial foreclosure of any lien senior in priority to the lien provided by Section 16182, unless the Controller is named and served as a defendant in a judicial proceeding for foreclosure.

(b) In the event of a nonjudicial foreclosure of any lien senior in priority to the lien provided by Section 16182, notice shall be given to the Controller, pursuant to Section 2924b of the Civil Code. However, when the notice of lien for postponed property taxes is recorded subsequent to the recordation of a notice of default, the Controller shall be given notice of sale not less than 25 days prior to such sale provided that the lien for postponed property taxes is recorded more than 30 days before such sale

In the event of a failure to give the notice required by this section, the lien established by Section 16182 shall not be affected by the foreclosure or sale of any such senior lien.

Article 3 Claims

20561 Each claimant applying for assistance under Article 2 (commencing with Section 20541) of this chapter shall file a claim under penalty of perjury with the Franchise Tax Board on a form supplied by such board. The claim shall contain:

(a) Evidence acceptable to the Franchise Tax Board that the claimant was a senior citizen claimant as defined in subdivision (b) of Section 20505.

(b) A statement showing the household income for the period set forth in Section 20503.

(c) If the claimant owns a residential dwelling, a copy of the tax bill for such property. If the claimant rents his residence, a statement describing the rented premises and showing the name and address of the landlord, or landlords, the amount of rent paid per month, the total rent paid during the prior calendar year, for which assistance is claimed, and any other information required by the Franchise Tax Board to administer this chapter.

(d) Other information required by the Franchise Tax Board to establish eligibility for assistance

(e) If a claimant submits a statement containing the essential data set forth in this section under penalty of perjury, the Franchise Tax Board shall compute the amount of assistance and authorize payment. The amount of any assistance otherwise payable under this part may be applied by the Franchise Tax Board against any liability due from the claimant (or the claimant's spouse if a joint return is filed) under any law administered by the Franchise Tax Board.

20562 For the purposes of this chapter, the requirement that property taxes be paid before assistance can be granted may be waived if the taxes were not paid for reasonable cause and the claimant declares under penalty of perjury that the assistance granted will be promptly applied to pay delinquent property taxes on the residential dwelling to the extent reasonably feasible under the circumstances.

20563 (a) The claim on which the assistance is based shall be filed after May 15 of the fiscal year for which assistance is claimed but on or before August 31 succeeding the fiscal year for which assistance is claimed.

(b) The state shall assist the claimant after June 30 and before October 31 of the calendar year in which the claim is filed, except that if the claim is defective, assistance shall be made as promptly as is practicable after the claim has been perfected. The Franchise Tax Board, whenever in its judgment good cause exists, may grant a reasonable extension of time for filing a claim or allow the late filing of a claim but except as provided in subdivision (c), no filing shall be later than March 1 succeeding the fiscal year for which assistance is claimed

(c) A claimant who, because of a medically certified incapacity, is prevented from filing a timely claim, shall be permitted to file a claim within six months after the end of his medical incapacity or three (3) years succeeding the end of the fiscal year for which assistance is claimed, whichever date is earlier.

20564. (a) If a lien for the assistance fiscal year has been acquired against the property of the claimant by reason of the claimant's use of a certificate of eligibility which was paid pursuant to Chapter 6 (commencing with Section 16180) of Part 1 of Division 4 of Title 2 of the Government Code, the net payment otherwise due such claimant shall first be applied by the Controller to reduce the obligation secured by such lien.

(b) If a lien has been reduced as provided in subdivision (a) and the Franchise Tax Board subsequently determines that the assistance allowed for such year was erroneous, the Franchise Tax Board shall notify the Controller who will make an appropriate adjustment to the lien.

CHAPTER 2. PROPERTY TAX POSTPONEMENT

Article 1 General Provisions and Definitions

20581. This chapter shall be known and may be cited as the "Senior Citizens Property Tax Postponement Act of 1977."

20582. Unless the context otherwise requires, the definitions given in Chapter 1 (commencing with Section 20501) of this part and in this article shall govern the construction of this chapter.

20583. (a) "Residential dwelling" means a dwelling and so much of the land surrounding it as is reasonably necessary for use of the dwelling as a home, owned and occupied by the claimant, the claimant and his spouse, or by the claimant and another individual eligible for postponement under this chapter and receiving a homeowners' exemption pursuant to Section 218, it shall include condominiums, mobilehomes which are assessed as realty for local property tax purposes and the land on which situated.

(b) "Residential dwelling" does not include any of the following:

(1) Any residential dwelling in which the claimant, the claimant and spouse, or the claimant and another individual eligible for postponement under this chapter do not have an equity of at least 20 percent of the full value of the property as determined for purposes of property taxation at the time of the initial application.

(2) Any residential dwelling in which the claimant's interest is held pursuant to a contract of sale or under a life estate, unless such claimant obtains the written consent of the vendor under the contract of sale, or the holder of the reversionary interest upon termination of the life estate.

(3) Any residential dwelling on which the claimant does not receive a separate tax bill. If the residential dwelling is a part of a larger parcel taxed as a unit, no postponement shall be allowed under

this chapter

(4) (A) Except as provided in subparagraph (B), any residential dwelling on which the property taxes, as defined in Section 20584, are delinquent at the time the application for postponement under this chapter is made or on which any other property tax or special assessment imposed by a special district or other tax code area is delinquent at the time the application for postponement under this chapter is made.

(B) Any taxes or assessments described in subparagraph (A) which are delinquent on July 1, 1978, shall not disqualify an otherwise eligible dwelling for postponement under this chapter. An application for postponement under this chapter to postpone the payment of property taxes for the 1977–78 fiscal year, shall also constitute an application for the postponement of all such delinquent taxes and assessments, together with any penalties, interest, fees, or other charges resulting from such delinquency and such amounts shall, unless otherwise paid by the claimant, be paid out of the amount appropriated by Section 16100 of the Government Code and shall be added to and become part of the obligation secured by the lien provided by Section 16182 of the Government Code, provided, however, that upon payment of delinquent taxes and assessments for fiscal year 1976–77 out of the amount appropriated by Section 16100, any delinquent penalties, interest, fees or other charges resulting from the delinquency of such taxes and assessments for fiscal year 1976–78 shall be canceled.

20584. "Property taxes" means all ad valorem property taxes, special assessments, and other charges or user fees appearing on the county tax bill and the ad valorem property taxes, special assessments, or other charges or user fees appearing on the tax bill of any chartered city which levies and collects its own property taxes.

20585. Postponement shall not be allowed under this chapter if household income exceeds either of the following amounts:

(a) For the 1976 calendar year or for an approved fiscal year commencing within such calendar year, household income shall not exceed twenty thousand dollars ($20,000).

(b) For all subsequent calendar years and approved fiscal years, postponement shall not be allowed under this chapter if household income exceeds an amount determined as follows:

(1) Prior to March 1, 1978 and prior to March 1 of each year thereafter, the California Department of Industrial Relations shall transmit to the Franchise Tax Board the percentage change in the California Consumer Price Index for all items for the period commencing January 1 of the prior calendar year to January 1 of the current calendar year.

(2) The Franchise Tax Board shall compute an inflation adjustment factor by adding 100 percent to the percentage change figure furnished pursuant to paragraph (1).

(3) In 1978, the Franchise Tax Board shall multiply twenty thousand dollars ($20,000) by the inflation adjustment factor to

determine the maximum allowable gross household income for the 1977 calendar year and for approved fiscal years commencing within such years. In 1979 and subsequent calendar years, the Franchise Tax Board shall multiply the maximum allowable household income determined for the preceding calendar year by the inflation adjustment factor to determine the maximum allowable household income for the applicable calendar year and approved fiscal years commencing within such calendar year.

Article 2. Postponement

20601. Subject to the limitations provided in this chapter, a claimant may file with the Franchise Tax Board, pursuant to Article 3 (commencing with Section 20621) of this chapter, a claim for postponement from the State of California of a sum equal to, but not exceeding, the amount of property taxes, as defined in Section 20584, due on the residential dwelling for the fiscal year for which the claim is made. Claims for the 1977–78 fiscal year only shall also constitute a claim for any amounts described in subparagraph (B) of paragraph (4) of subdivision (b) of Section 20583.

20602. (a) Upon approval of a claim described in Section 20601, the Franchise Tax Board shall report to the State Controller the information required by the Controller to produce and issue the certificates of eligibility in accordance with subdivision (b) of this section.

(b) Upon receipt of the information described in subdivision (a) of this section, the State Controller shall issue to the claimant a certificate of eligibility, which shall consist of two parts, both of which shall contain the name of the claimant, the address of the residential dwelling on which the claimant has applied for property tax postponement, and such other information and in such form as the State Controller shall prescribe. In the event that such residential dwelling is located in a chartered city which levies and collects its own taxes, the State Controller shall issue a duplicate certificate of eligibility to pay all or any part of the property taxes appearing on such city's tax bill. Each part of a certificate of eligibility shall be payable in an unspecified amount and shall contain statements to identify the property tax installment to which it may be applied.

(c) The Controller shall prescribe the form of the certificates of eligibility to pay all delinquent taxes and assessments described in subparagraph (B) of paragraph (4) of subdivision (b) of Section 20583.

Upon or accompanying each certificate shall be a brief statement explaining that (1) those taxpayers whose property taxes are paid by a lender via an impound, trust or other similar account should enter the total amount of each installment on their respective certificates and mail both certificates to the tax collector at the same time, and (2) those taxpayers will receive a refund check from the county or city in the amount they entered on each certificate, within 30 days

following the date on which the installment is paid by the lender or the certificate of eligibility is received by the tax collector, whichever is later, and (3) the intent of this procedure is to make sure the taxes on the claimant's dwelling are not paid twice.

(d) When a certificate of eligibility has been signed by the claimant, his spouse, or authorized agent and countersigned by the person authorized to collect property taxes or assessments for the local agency, such certificate shall constitute a written promise on the part of the State of California to pay the sum of money specified therein and such signed and countersigned certificate shall be deemed a negotiable instrument for the sole purpose of the payment of property taxes owing in the name of the claimant or his spouse for purposes of all laws of this state

(e) A certificate of eligibility shall be valid for the purposes of this section only for the duration of the fiscal year in which it is issued.

(f) The Controller shall issue all certificates of eligibility for approved claims for the current fiscal year which were filed on or before September 30 between November 1 and November 15 of the same fiscal year.

(g) The Controller shall issue all certificates of eligibility for approved claims for the current fiscal year which were filed on or before January 31 between March 1 and March 15 of the same fiscal year.

(h) The Controller shall prescribe the manner in which a claimant eligible under this chapter, who has been issued a certificate of eligibility which is lost or destroyed prior to being filed with the local agency pursuant to subdivision (c) may obtain a duplicate copy of said certificate as a replacement.

20603. The Controller shall prescribe the manner in which a claimant eligible under this chapter, who for any reason is incapacitated, may appoint his or her spouse or an authorized agent, or have any such person appointed for such claimant, for all purposes of claiming and using certificates of eligibility for the postponement of property taxes.

20604. On or before May 1 of each year, the Franchise Tax Board shall send a notice to each taxpayer who filed a claim for postponement of taxes pursuant to this chapter for the current fiscal year The notice shall be substantially in the following form.

To: (name of taxpayer)

If you wish to postpone the collection of property taxes on your residence for the assessment year beginning on July 1, _____, you must file a claim for postponement not later than September 30, _____, with the Franchise Tax Board.

If you fail to file your claim for postponement on or before September 30, _____, you will have to pay in full the first installment of the property tax bill on your residence for the coming assessment year.

If you fail to file by the above deadline, you may still be eligible

to postpone the collection of the second installment of the property tax bill on your residence, if you file your claim for postponement on or before January 31, _____. If you miss this second deadline, you will have to pay in full the second installment of the property tax bill on your residence for the coming assessment year

Even if you do not now plan to postpone the collection of your property taxes for the coming assessment year, you may wish to file a claim after May 15. There is no obligation to postpone any or all of your property taxes if you file a claim and receive a certificate of eligibility from the State Controller

20605. The postponement of property taxes pursuant to this chapter shall not affect the obligation of a borrower to continue to make payments to a lender with respect to an impound, trust, or other type of account described in Section 2954 of the Civil Code.

Article 3. Claims

20621. Each claimant applying for postponement under Article 2 (commencing with Section 20601) of this chapter shall file a claim under penalty of perjury with the Franchise Tax Board on a form supplied by such board The claim shall contain:

(a) Evidence acceptable to the Franchise Tax Board that the person was a "senior citizen claimant "

(b) A statement showing the household income for the period set forth in Section 20503.

Actual costs, not in excess of fifty dollars ($50), paid by the claimant to obtain the documentation shall, in the event the Controller issues a certificate of eligibility, reduce the amount of the lien for such year, but not the face amount of the payment prescribed in Section 16180.

(g) Other information required by the Franchise Tax Board to establish eligibility.

20622. The claim for postponement shall be filed after May 15th and on or before September 30 of the calendar year in which the

fiscal year for which postponement is claimed commences, in order for the claimant to be eligible for postponement of taxes on both the first and second installment of taxes in the fiscal year for which postponement is claimed.

Claimants who file for postponement after September 30 and on or before January 31 of the fiscal year for which postponement is claimed will be eligible for postponement of taxes only on the second installment of taxes in such fiscal year.

CHAPTER 3. ADMINISTRATION

20641. Forms filed pursuant to this part shall not be under oath but shall contain, or be verified by, a written declaration that they are made under the penalty of perjury. The Franchise Tax Board shall prepare blank forms for the claimant and shall distribute them throughout the state and furnish them upon application

20642. Except as otherwise provided in this part, the Franchise Tax Board shall prescribe all rules and regulations necessary for the enforcement of this part and may prescribe the extent to which any ruling or regulation shall be applied without retroactive effect

20643. If any claimant fails or refuses to furnish any information requested in writing by the Franchise Tax Board, pursuant to this part, or files a fraudulent claim, the assistance or postponement authorized by this part shall be disallowed.

20644. Any claim for assistance or postponement which is less than that claimed on the form due to a mathematical error is not a fraudulent claim. Postponement or assistance of any amount erroneously claimed on the form is prohibited.

20645. If the Franchise Tax Board determines that assistance has been erroneously granted under this part, or if a claimant is aggrieved by the denial in whole or in part for assistance or postponement, then the provisions in Chapters 17 (commencing with Section 18401), 18 (commencing with Section 18551), 19 (commencing with Section 18801), and 20 (commencing with Section 19051) of Part 10 shall apply, as if the amount in controversy was a tax, unless the context indicates otherwise. For the purposes of Chapter 21 (commencing with Section 19251) of Part 10 (relating to Disclosure of Information), a claim filed pursuant to this part shall be deemed a tax return.

20646. Unless otherwise specifically provided, the provisions of any law effecting changes in this part shall be applied with respect to claims filed for property tax assistance for fiscal years beginning after enactment.

SEC. 15. Section 11008.4 is added to the Welfare and Institutions Code, to read:

This section shall not be construed to limit the provisions of Section 11008 or 11008.1.

SEC. 16. SEC 17. It is the intent of the Legislature to provide in subsequent legislation for an augmentation to Section 16100 of the Government Code, in order to properly fund the amounts the Controller is required to pay pursuant to Section 16180 of the Government Code, in order to properly fund the amounts the Controller is required to pay pursuant to Section 16180 of the Government Code, as added by Section 3 of this act

SEC. 18 There is hereby appropriated from the General Fund for the 1977–78 fiscal year to the State Controller the sum of two hundred twenty thousand dollars ($220,000) for administrative costs incurred under Section 3 of this act, and to the Franchise Tax Board the sum of one hundred twenty-five thousand dollars ($125,000) for administrative costs incurred under the Senior Citizens Property Tax Postponement Act of 1977 as added by Section 11 of this act.

SEC 19. The Controller shall report to the Legislature on the amount of such claims on or before the first day of October next following the operative date of this act, in order that the Legislature may appropriate funds for the subventions required by Section 2231 of the Revenue and Taxation Code.

SEC. 20. The provisions of this act shall apply to claims for the 1977–78 fiscal year and thereafter Notwithstanding Sections 20602 and 20622 of the Revenue and Taxation Code, postponement claims

SEC. 21. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Proposition No. 13 (Res. Ch. 2, Stats. 1976) on the ballot for the primary election held on Tuesday, June 8, 1976, merely authorized the Legislature to provide for the postponement of property taxes by senior citizens on their homes. However, many elderly persons assumed that the measure was self-executing and were dismayed to learn that technical problems caused the defeat of Senate Bill No. 2041 of the 1975–76 Regular Session of the Legislature, and that no postponement of property taxes was authorized. In order to remedy this situation and provide this needed property tax relief for California's senior citizens at the earliest possible time, it is necessary for this act to take effect immediately

The average daily attendance of pupils enrolled for such excess days shall be credited to the school district in the fiscal year in which the last day of such excess days falls.

(b) The Superintendent of Public Instruction shall compute for each applicant school district and county superintendent of schools in providing in such year a program of specialized consultation to teachers, counselors and supervisors for educationally handicapped pupils, an amount equal to the product of ten dollars ($10) and the average daily attendance of pupils enrolled in special day classes, learning disability groups, and home and hospital instruction for educationally handicapped pupils.

SEC. 7. Article 3 (commencing with Section 56030) of Chapter 1 of Part 30 of the Education Code is repealed.

SEC. 8. Article 3 (commencing with Section 56030) is added to Chapter 1 of Part 30 of the Education Code, to read:

Article 3. Education for Exceptional Children in Nonpublic Schools

56030. It is the intent and purpose of the Legislature in enacting this article to provide special educational facilities and services to exceptional children who, because the school district or county superintendent of schools of the county in which they reside has no appropriate special education facilities and services or they cannot meet the requirements of the individualized education program, or because the State of California has no facilities to educate them, are unserved by this state's school system or by state institutions or agencies. It is the further intent and purpose of the Legislature to provide the Department of Education with broad administrative discretion, consistent with the needs of exceptional children and the intent of this article, in carrying out its responsibilities under this article. The Superintendent of Public Instruction may adopt rules and regulations consistent with this article which he deems necessary for the effective administration thereof.

56031. As used in this article:

(a) "Private school" means a private nonsectarian school, institu-

tion, or agency which meets standards prescribed by the State Board of Education. However, "private school" does not include a regularly established nonprofit, tax-exempt licensed children's institution.

(b) "Parent," as used in this article, includes any person having legal custody of the child. "Parent," in addition, includes any adult pupil for whom no guardian has been appointed and the person having custody of a minor if neither the parent or legal guardian can be notified of the educational actions under consideration. "Parent" also includes a parent surrogate.

(c) "Local school district" means the district of residence of the pupil.

(d) "Day" means a calendar day unless otherwise specified.

(e) "Appropriate educational placement" means the school placement that can implement the individualized education program of the pupil.

(f) "The individualized education program" means the pupil's educational plan developed in accordance with standards established by the State Board of Education.

(g) "Special education services and facilities" means those services and facilities specified in the pupil's individualized education program. Such services shall include room and board and transportation services if such services are specified in the individualized education program.

(h) An "individual with exceptional needs" means a handicapped pupil or child who is eligible for one or more of the programs authorized by the following sections:

(1) Educationally handicapped as authorized by Section 56600.

(2) Autistic as authorized by Section 56601.

(3) Educable mentally retarded as authorized by Sections 56500 and 56501.

(4) Severely mentally retarded as authorized by Sections 56500 and 56515.

(5) Physically handicapped as authorized by Section 56701.

(i) "County superintendent" means the county superintendent of schools.

(j) The "contract" means the legal document which is binding upon the school district and the private school. The contract shall be in a standard form made available through the Department of Education.

(k) "Certification" means the procedure whereby the private school is evaluated to determine its ability to provide special education services consistent with the needs of individuals with exceptional needs under a procedure established by the State Board of Education.

56032. A local school district may contract with a private school to provide those special education and related services specified in a pupil's individualized education program, pursuant to the provisions of this article.

56033. Pupils placed under the provisions of this article shall be

provided a publicly supported education at no cost to the parent.

56034. (a) The contract shall specify the administrative and financial agreements between the nonpublic school and the school district to provide the services included in the pupil's individualized educational program. The contract may allow for partial or full-time attendance at the nonpublic school.

(b) The contract shall be negotiated for the length of time for which nonpublic school services are specified in the pupil's individualized educational program.

Changes in the educational services or placement provided under the contract may only be made on the basis of revisions to the pupil's individualized educational program. At any time during the term of the contract, the parent, nonpublic school, or school district may request a review of the pupil's individualized educational program.

Changes in the administrative or financial agreements of the contract which do not alter the educational services or placement may be made at any time during the term of the contract, as mutually agreed by the nonpublic school and the school district.

(c) The contract may be terminated for cause. Such cause shall not be the availability of a public class initiated during the period of the contract unless the parent agrees to the transfer of the pupil to a public school program. To terminate the contract either party shall give 20 days' notice.

56035. If the pupil is enrolled in the private school with the approval of the local school district and the private school prior to agreement to a contract, the local school district shall issue a warrant, upon submission of an attendance report and claim, for an amount equal to the number of creditable days of attendance at the per diem rate agreed upon prior to the enrollment of the pupil. This provision shall be allowed for 90 calendar days during which time the contract shall be consummated. If after 60 calendar days, the contract has not been finalized as prescribed by subdivision (a) of Section 56034, either party may appeal to the county superintendent to negotiate a contract. Within 30 calendar days of receipt of this appeal, the county superintendent shall develop a contract which shall be binding upon both parties. The costs for such a service shall be reimbursed to the county superintendent by the local school district.

56036. (a) Both a parent and a pupil are guaranteed and may initiate procedural due process protections in any decision regarding, and resulting from, the pupil's identification as an individual with exceptional needs; the pupil's assessment and the implementation of the individualized education program; and the denial, placement, transfer, or termination of the pupil in a special education or related services program. Such protections shall include, but are not limited to:

(1) Written notice to the parent of his or her rights, in language understandable to the general public and in the native language or other mode of communication of the parent;

(2) The right of the parent to initiate an assessment of his or her

child within a specified period of time;

(3) The requirement that written parental consent must be obtained before any assessment of the pupil is conducted;

(4) The right of the parent to participate in the development of the individualized education program and to be informed of the availability under state law of free appropriate special education programs, both public and private.

(5) The requirement that written parental consent must be obtained before the pupil is placed in any special education program; and,

(6) Procedural due process by a fair and impartial administrative hearing before a fair hearing panel, including as part of the fair and impartial hearing process, the right of the parent to be fully informed of available, free appropriate alternatives, both public and private, and to have the opportunity to visit and compare the available alternative programs.

(b) Regulations providing such due process protections shall be adopted by the State Board of Education.

56037. In the event that completion of the appeals procedures provided as part of due process protections results in the parent's appeal being denied, the parent may petition the appropriate superior court for a writ of mandate. If a writ of mandate is issued ordering the placement in a private school of the pupil, the school district shall be liable to the parent for reasonable attorney fees and all other court costs.

56038. The local school district having any pupil receiving the benefits of special education facilities and services under the provisions of Section 56032 shall report the attendance of such pupil and submit a claim for the special purpose apportionment through the county superintendent of schools to the Superintendent of Public Instruction. The report and claim shall be submitted at the time and in the manner prescribed by the Superintendent of Public Instruction. The county superintendent of schools shall verify the attendance reported and claim submitted in the manner prescribed by the Superintendent of Public Instruction.

56039. Upon the county superintendent of schools' verification of attendance reported and the claim submitted on behalf of a pupil attending a private school under this article, the Superintendent of Public Instruction shall apportion to the local school district submitting the report and the claim, an amount computed as follows:

(a) The claim shall equal the amount paid by the school district to the private school under a contract pursuant to Section 56032;

(b) The claim shall be reduced by the applicable federal aid and the revenue limit amount of the district that will be earned by the pupil or pupils;

(c) The amount calculated in paragraph (b) shall be reduced by 30 percent.

56040. No claim under this article shall be satisfied by the Superintendent of Public Instruction for the services authorized by Section

56032 unless the private school which the pupil attends meets the educational standards established by the State Board of Education pursuant to Section 56041.

56041. The private school shall be certified as meeting standards adopted by the State Board of Education relating to the required special education services and facilities for individuals with exceptional needs. The certification shall be for a period no longer than five years from the date of such approval. The procedures, methods, and areas of certification shall be established by rules and regulations issued by the State Board of Education. The private school shall be charged a sum to cover part of the cost for this certification. In addition to those standards adopted by the State Board of Education, the private school shall meet all applicable standards relating to fire, health, sanitation, and building safety.

56042. The local school district may petition the Superintendent of Public Instruction to waive one or more of the requirements under Section 56041. The petition shall state the reasons for the request with necessary documentation to demonstrate that the pupil would become unserved or inadequately served if the waiver were not granted.

SEC. 8.5. Section 56039 of the Education Code is amended to read:

56039. A county superintendent of schools or a parent or guardian of a handicapped pupil who is authorized to receive services under this article may submit a written request to the Superintendent of Public Instruction for a waiver of the maximum class size requirements of Sections 56603, 56703, 56512, and 56517, subject to the condition that the only appropriate placement for the pupil is in a class offered by a private nonsectarian school which exceeds the maximum class size requirements. Once the request is received, the Superintendent of Public Instruction, after due consideration, may grant the request if he determines that no other educational placement that is reasonable is appropriate.

The request shall fully explain the justification for such waiver and may be granted only for the current school year in which it is submitted.

In the case of handicapped pupils who were enrolled in private nonsectarian schools during the 1976–77 school year, the Superintendent of Public Instruction may grant a retroactive waiver of the maximum class size requirements commencing with the fall term of that year for the purpose of making tuition payments which otherwise would have been authorized by this article if this section had been in effect.

SEC. 9. Section 56300 of the Education Code is amended to read:

56300. The Legislature finds and declares that the current range of educational programs for individuals with exceptional needs has developed over time in response to the specific needs of identifiable groups. These programs were established without particular regard to gradations in the severity of disabilities among individuals with

exceptional needs and tend to segregate them on the basis of their disabilities. Many individuals with exceptional needs are not served by any existing program with the result that they are either inappropriately placed in a program or they are excluded from receiving any educational program or service. Moreover, some existing programs for individuals with exceptional needs are statutorily permissive so that some who would otherwise be eligible do not have access to such programs.

SEC. 10. Section 56301 of the Education Code is amended to read:

56301. The Legislature finds and declares that all individuals with exceptional needs have a right to participate in appropriate programs of publicly supported education and that special educational programs and services for these persons are needed in order to assure them of this right to an appropriate educational opportunity.

Furthermore, it is the intent of the Legislature that the comprehensive restructuring of current educational programs for individuals with exceptional needs required by this chapter should be systematically phased in.

Therefore, the Legislature hereby authorizes the Superintendent of Public Instruction to implement and administer, under a master plan adopted by the State Board of Education, a program to better meet the educational requirements of individuals with exceptional needs. It is the intent of the Legislature that this program shall provide an educational opportunity for individuals with exceptional needs which is equal to or better than that provided prior to the implementation of programs under this chapter. This program shall provide that:

(a) Each individual with exceptional needs is assured an education appropriate to his or her needs in publicly supported programs through completion of secondary education programs.

(b) Early educational opportunities are available to all children between the ages of three and four years and nine months who require intensive service in special programs.

(c) At the discretion of responsible local agencies, early educational opportunities may be made available to children younger than three years of age who require intensive service in special programs and their parents.

(d) Each individual with exceptional needs shall have his or her educational goals and objectives specified in a written individualized education program.

(e) Education programs are provided under an approved plan for special education which comprehensively sets forth the elements of the programs in accordance with the provisions of this chapter. This comprehensive plan for special education shall be developed cooperatively with input from the community advisory committee and appropriate representation from special and regular teachers and administrators selected by the groups they represent to ensure effective participation and communications.

(f) Individuals with exceptional needs are offered special assist-

ance in a program which promotes maximum interaction with the general school population in a manner which is appropriate to the needs of both.

(g) Pupils be transferred out of special education programs when special education services are no longer needed.

(h) The unnecessary use of labels is avoided in providing programs for individuals with exceptional needs.

(i) Procedures and materials for assessment and placement of individuals with exceptional needs shall be selected and administered so as not to be racially, culturally, or sexually discriminatory. No single assessment instrument shall be the sole criterion for determining placement of a pupil. Such procedures and materials for assessment and placement shall be in the individual's mode of communication. Procedures and materials for use with non-English-speaking and limited-English-speaking pupils as defined in subdivisions (d) and (e) of Section 52163, shall be in the individual's primary language.

(j) Educational programs are coordinated with other public and private agencies, including regional occupation centers and programs and postsecondary and adult programs for individuals with exceptional needs.

(k) Each school site shall have access to psychological and health services for individuals with exceptional needs.

(*l*) Continuous evaluation of the effectiveness of these special education programs by the responsible local agency shall be made to insure the highest quality educational offerings.

SEC. 11. Section 56302 of the Education Code is amended to read:

56302. As used in this chapter, unless the context otherwise requires:

(a) "Board" means the State Board of Education.

(b) "Department" means the Department of Education.

(c) "Individuals with exceptional needs" means all pupils whose special education needs cannot be met by the regular classroom teacher with modification of the regular school program, who require the benefit of special education and services, and who are one of the following:

(1) Younger than three years of age who have been identified by the educational assessment service as defined by subdivision (b) of Section 56336.2 as requiring intensive special education and services as defined by the board.

(2) Between the ages of three years and four years and nine months, inclusive, who have been identified by the educational assessment service as defined by subdivision (b) of Section 56336.2 as requiring intensive special education and services as defined by the board.

(3) Between the ages of four years and nine months and 18 years, inclusive.

(4) Between the ages of 19 and 21, inclusive, who were enrolled in or eligible for a program under this chapter or other special educa-

tion program prior to their 19th birthday and who have not yet completed their prescribed education program. Any such pupil who becomes 22 years of age while participating in a program under this chapter may continue his or her participation in the program for the remainder of the then current school year.

Although non-English-speaking pupils may be appropriately identified as individuals with exceptional needs requiring services under this chapter, this definition does not include persons whose educational needs are due primarily to unfamiliarity with the English language or to cultural differences.

(d) "Local comprehensive plan" means a plan which meets the requirements of Article 3 (commencing with Section 56330) of this chapter and which is submitted by a responsible local agency.

(e) "Parent" as used in this chapter includes any person having legal custody of a child. "Parent" in addition, includes any adult pupil for whom no guardian has been appointed and the person having custody of a minor if neither the parent or legal guardian can be notified of the educational actions under consideration. "Parent" also includes a parent surrogate. "Parent surrogate" shall include regularly established nonprofit tax-exempt, licensed children's institutions when the parents of the child in such an institution are not known or are unavailable, or when the child is a ward of the state.

(f) "Responsible local agency" means the school district or office of the county superintendent of schools designated in the local comprehensive plan as the agency whose duties shall include, but are not to be limited to, receiving and distributing funds pursuant to the local comprehensive plan, providing for administrative support and coordinating the administration of the plan.

(g) "Special education" means programs or services specially designed to meet the educational requirements of individuals with exceptional needs. Programs for the communicatively handicapped serve those pupils with disabilities in one or more of the communication skills such as language, speech, and hearing. Programs for the physically handicapped serve those pupils with physical disabilities such as vision, including disabilities within the function of vision resulting in visual perceptual or visual motor dysfunction, and mobility impairments and orthopedic or other health impairments. Programs for the learning handicapped serve pupils with significant disabilities in learning or behavior such as learning disabilities, including disabilities resulting from visual perceptual disorders and visual motor disorders, behavior disorders, and educational retardation. Programs for the severely handicapped serve pupils with profound disabilities and who require intensive instruction and training such as the developmentally disabled, trainable mentally retarded, autistic, and seriously emotionally disturbed. It is the intent of the Legislature in this definition to provide general classifications of special education programs. The Legislature also recognizes that a pupil may appropriately require services from more than one classification of program and that the examples given for each classification

do not imply that such pupils can be grouped in a class or program without regard to the individual educational needs of the pupils served.

(h) "Superintendent" means the Superintendent of Public Instruction.

SEC. 12. Section 56304 of the Education Code is amended to read:

56304. Every individual with exceptional needs, as defined pursuant to Section 56302, who is eligible to receive such educational services authorized under this chapter is entitled to educational programs or services free of charge to his or her parents.

SEC. 13. Section 56310 of the Education Code is amended to read:

56310. The State Board of Education shall:

(a) Establish and periodically update the California Master Plan for Special Education.

(b) Adopt rules and regulations necessary for the efficient administration of this chapter.

(d) Provide review, upon petition, to any responsible local agency that appeals a decision made by the department which affects the agency's providing services under this chapter.

(e) Review and approve a program evaluation plan for special education programs provided by this chapter in accordance with Article 4 (commencing with Section 56350).

(f) Recommend to the Commission for Teacher Preparation and Licensing standards for the certification of professional personnel for special education programs conducted pursuant to this chapter.

(g) Adopt standards for the use of substitute teachers.

(h) By January 1, 1979, adopt regulations to provide specific criteria and guidelines for the identification of pupils as individuals with exceptional needs.

(i) By July 1, 1979, adopt guidelines of reasonable pupil progress and achievement for individuals with exceptional needs. Such guidelines shall be developed to aid teachers and parents in assessing an individual pupil's education program and the appropriateness of the special education services.

(j) In accordance with the requirements of federal law, adopt standards for all educational programs for individuals with exceptional needs, including programs administered by other state or local agencies.

SEC. 14. Section 56312 of the Education Code is amended to read:

56312. The superintendent shall administer the provisions of this chapter and shall:

(a) Grant approval of the organization of the local comprehensive plans within each county.

(b) Establish guidelines for the development of local comprehensive plans, including a standard format for local comprehensive

plans, and provide assistance in the development of local comprehensive plans. The purposes of such guidelines and assistance shall be to help local agencies benefit from the experience of other local agencies implement programs under this chapter, including, but not limited to, reducing paperwork, increasing parental involvement, and providing effective staff development activities. To the extent possible, all forms, reports, and evaluations shall be designed to satisfy simultaneously state and federal requirements.

(g) Make recommendations in the areas of staff development, curriculum, testing and multicultural assessment, and the development of materials for special education programs.

(h) Prepare for board approval as necessary, any state plan required by federal law in order that this state may qualify for any federal funds available for the education of individuals with exceptional needs.

(i) Maintain the state special schools in accordance with Part 32 (commencing with Section 59000) of this division and Part 43 (commencing with Section 70000) of Division 6 of Title 3 so that the services of such schools are coordinated with the services of responsible local agencies.

(j) Develop in accordance with Sections 33401 and 56351 an annual program evaluation plan and report of special education programs authorized under this chapter for submission to the board.

(k) Apportion funds in accordance with Article 5 (commencing with Section 56360) of this chapter and approved local comprehensive plans.

(*l*) Assist districts and counties in the improvement and evaluation of their programs.

(m) Provide review to any parent, as specified in Section 56341.4.

SEC. 15. Section 56313 of the Education Code is repealed.

SEC. 16. Section 56314 of the Education Code is amended to read:

56314. The county superintendent of schools shall:

(a) Submit to the superintendent, before January 1979, a description of how districts within the county intend to develop local comprehensive plans, together with his or her comments thereon.

(b) Coordinate the development of local comprehensive plans in the county to insure that special education services are provided to all individuals with exceptional needs.

(c) Within 45 calendar days, approve or disapprove any proposed

local comprehensive plan submitted by a district within the county on the basis of insuring that special education services are provided to all individuals with exceptional needs in the county.

If approved, the county superintendent shall submit the plan with his or her comments and recommendations to the superintendent.

If disapproved, the county superintendent shall return the plan with his or her comments and recommendations to the district. This district may immediately appeal to the superintendent to overrule the county superintendent's disapproval. The superintendent shall make a decision on such an appeal within 30 calendar days of receipt of the appeal.

A local comprehensive plan may not be submitted to the superintendent without approval of the plan by the county superintendent or a decision by the Superintendent of Public Instruction to overrule the disapproval of the county superintendent.

(d) Participate in the state onsite review of the district's implementation of an approved local comprehensive plan.

(e) With the approval of the county board of education, join with the districts in the county, except for the districts submitting a district-prepared local comprehensive plan in accordance with subdivisions (a) and (b) of Section 56315, to submit to the superintendent a local comprehensive plan, pursuant to subdivision (c) of Section 56315, for the education of individuals with exceptional needs. Any such plan may include more than one county and districts in more than one county.

(f) Carry out any responsibility assigned to him or her pursuant to a local comprehensive plan.

SEC. 17. Section 56315 of the Education Code is amended to read:

56315. The governing board of a school district shall, to the extent that state and federal funds are available therefor, elect to do one of the following:

(b) In conjunction with one or more other districts, submit to the superintendent, in accordance with Section 56330, a local comprehensive plan for the education of all individuals with exceptional needs residing in such districts. Such plan shall designate one of the participating districts as the responsible local agency whose duties shall include, but not be limited to, to receive and distribute funds pursuant to the local comprehensive plan, provide for administrative support and coordinate the administration of the plan. Any participating district may perform any of the services required by the plan. The superintendent may waive the requirement for one plan to serve all individuals with exceptional needs residing in a district when a secondary or elementary district of sufficient size and scope requests to submit its own plan and the

coterminous elementary or secondary districts agree to submit a plan or plans which include articulation of pupils and services.

(c) Join with the office of a county superintendent of schools to submit to the superintendent, in accordance with subdivision (e) of Section 56314 and Section 56330, a local comprehensive plan for the education of all individuals with exceptional needs residing in the district. Such plan may provide that the county superintendent or the district perform some of the educational services required by the plan.

(d) If funding for statewide implementation of programs under this chapter is not appropriated by the Legislature, school districts and county superintendents of education that are in compliance with Public Law 94-142 may continue to operate special education programs authorized by Part 30 (commencing with Section 56000) excluding programs authorized under Chapter 2 (commencing with Section 56300) of Part 30.

(5) The remainder determined in paragraph (4), if any, may be raised by a tax levied on the assessed valuation of the school districts participating in local comprehensive plans in the county.

(6) The amount calculated in paragraph (5) shall be adjusted for any difference between the amount calculated in paragraph (4) for the prior year and the amount that is authorized in paragraph (4) for the prior year based on actual data.

This section shall not require that any county levy a tax which would result in an expenditure per pupil amount which is less than the expenditure per pupil for special education programs in that county in 1976–77.

On the basis of the approved local comprehensive plans, and pursuant to regulations adopted by the board, the county superintendent shall disburse revenues raised under this section to the responsible local agencies in the county. Such regulations shall be adopted by July 1, 1978, and shall include procedures for the cooperative involvement of the affected responsible local agencies in the proposed plan for disbursement of revenues raised under this section.

County class shall be determined pursuant to Section 1205.

For the 1978–79 and 1979–80 fiscal years, the superintendent shall calculate the statewide average expenditure per pupil for the purposes of paragraph (1) of subdivision (a) of this section on the basis of the most current fiscal year data available at the time of the calculation.

56332, shall be developed in accordance with the following provisions:

(1) The contract shall specify the administrative and financial agreements between the nonpublic school and the responsible local agency to provide the services included in the pupil's individualized educational program. The contract may allow for partial or full-time attendance at the nonpublic school.

(2) The contract shall be negotiated for the length of time for which nonpublic school services are specified in the pupil's individualized educational program.

Changes in educational services or placement provided under contract may only be made on the basis of revisions to the pupil's individualized educational program.

At any time during the term of the contract the parent, nonpublic school, or responsible local agency may request a review of the pupil's individualized educational program by the educational assessment service. Changes in the administrative or financial agreements of the contract which do not alter the educational services or placement may be made at any time during the term of the contract as mutually agreed by the nonpublic school and the responsible local agency.

(3) The contract may be terminated for cause. Such cause shall not be the availability of a public class initiated during the period of the contract unless the parent agrees to the transfer of the pupil to a public school program. To terminate the contract either party shall give 20 days' notice.

(b) If the pupil is enrolled in the nonpublic school with the approval of the responsible local agency prior to agreement to a control, the responsible local agency shall issue a warrant, upon submission of an attendance report and claim, for an amount equal to the number of creditable days of attendance at the per diem rate agreed upon prior to the enrollment of the pupil. This provision shall be allowed for 45 schooldays during which time the contract shall be consummated. If after 45 schooldays the contract has not been finalized as prescribed in paragraph (1) of subdivision (a) of the section, either party may appeal to the county superintendent of schools, if the county superintendent is not participating in the local comprehensive plan involved in the private school contract, or the Superintendent of Public Instruction, if the county superintendent is participating in the local comprehensive plan involved in the contract, to negotiate the contract. Within 30 calendar days of receipt of this appeal, the county superintendent or the Superintendent of Public Instruction, or his or her designee, shall develop a contract which shall be binding upon the both parties.

(c) No contract for nonpublic school services shall be authorized under this chapter unless the private school has been certified as meeting those standards relating to the required special education services and facilities for individuals with exceptional needs. The certification shall result in the private school receiving approval to

educate pupils under this chapter for a period no longer than five years from the date of such approval. The procedures, methods, and areas of certification shall be established by rules and regulations issued by the State Board of Education. The private school shall be charged a reasonable sum for this certification. In addition to those standards adopted by the State Board of Education, the private school shall meet all applicable standards relating to fire, health, sanitation, and building safety.

[Approved by Governor October 1, 1977 Filed with Secretary of State October 1, 1977.]

The people of the State of California do enact as follows:

SECTION 1. The State of California has established numerous programs designed to maintain and improve the physical and mental health and social well-being of its citizens. Many of these are conducted in partnership with federal and local governments. Together, these human service programs represent an ever-increasing proportion of both national and local level public expenditures.

In an attempt to more effectively administer these complex and interrelated programs, the State of California created a consolidated State Department of Health on July 1, 1973. After observing over three years of operations under a single department, the Legislature finds that most if not all of the intended benefits of such a department have not been realized.

Not only has administrative effectiveness not improved, but several programs have been adversely affected by confused leadership and deficient policy direction under the combined department. Most importantly, however, it has become increasingly difficult for both the Legislature and the people to identify those portions of the department responsible for specific functions and to hold them accountable for their performance.

To increase individual program visibility, to improve program policy direction, and to provide needed public accountability, the Legislature finds that it is necessary to separate the major functional areas of the State Department of Health into distinct departments with leadership more directly responsible to the Governor and the Legislature. The Legislature recognizes that a need remains for coordinated planning and policy direction among the array of health programs, but finds that these functions can be better performed through a revised Office of the Secretary of the Health and Welfare Agency.

SEC. 1.1. The effective delivery and administration of human services is dependent upon a cooperative and mutually supportive partnership between state and county government. The Legislature recognizes that in order to meet the varied needs of individuals it may be desirable for counties to integrate more fully their human service programs.

It is the intent of the Legislature that the Secretary of the Health and Welfare Agency avoid allowing possible differences in organizational structure to hinder the state-county partnership, and that the secretary provide all possible assistance to those counties desiring to integrate further their human service programs. It is further the intent of the Legislature that the secretary assign to one of the deputy secretaries of the Health and Welfare Agency the specific responsibility for insuring that this assistance is provided.

SEC. 1.2. The Legislature recognizes the need to coordinate the management of the programs of the departments within the Health and Welfare Agency which serve children and youth. It is the intent of the Legislature that the Secretary of the Health and Welfare Agency assign to one of the agency deputy secretaries the specific responsibility to assist state departments and counties to coordinate programs serving children and youth.

SEC. 3. Section 555 of the Business and Professions Code is amended to read:

555. The State Department of Health Services shall:

(a) Enforce the provisions of this article.

(b) Promulgate rules and regulations necessary to carry out properly the provisions of this article.

(c) Print and publish any further advice and information concerning the dangers of ophthalmia neonatorum and the necessity for prompt and effective treatment thereof, as it deems necessary.

(d) Furnish without cost copies of this article to all physicians, midwives and such other persons as may be lawfully engaged in the practice of obstetrics or assisting at childbirths.

(e) Keep a proper record of any and all cases of ophthalmia neonatorum filed in its office in pursuance of this article, and as may come to its attention in any way, and such records shall constitute a part of the biennial report to the Governor and the Legislature.

(f) Report any and all violations of this article as may come to its attention to the district attorney of the county wherein any violation of any provision of this article has been committed, for the purpose of prosecution.

SEC. 4. Section 650 of the Business and Professions Code is amended to read:

650. Except as provided in Chapter 2.3 (commencing with Section 1400) of Division 2 of the Health and Safety Code the offer, delivery, receipt or acceptance, by any person licensed under this division of any rebate, refund, commission, preference, patronage dividend, discount, or other consideration, whether in the form of money or otherwise, as compensation or inducement for referring

patients, clients, or customers to any person, irrespective of any membership, proprietary interest or coownership in or with any person to whom such patients, clients or customers are referred is unlawful.

Except as provided in Chapter 2.3 (commencing with Section 1400) of Division 2 of the Health and Safety Code and in Section 654.1 it shall not be unlawful for any person licensed under this division to refer a person to any laboratory, pharmacy, clinic, or health care facility solely because such licensee has a proprietary interest or coownership in such laboratory, pharmacy, clinic, or health care facility; but such referral shall be unlawful if the prosecutor proves that there was no valid medical need for such referral.

"Health care facility" means a hospital, nursing home, medical care facility, or private mental institution licensed by the State Department of Health Services.

SEC. 5. Section 1202 of the Business and Professions Code is amended to read:

(b) Any glue or cement containing a substance which the State Department of Health Services has determined by regulations adopted pursuant to the Administrative Procedure Act (Chapter 4 (commencing with Section 11370), Chapter 4.5 (commencing with Section 11371), and Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2, Government Code) has toxic qualities similar to toluene and should, in the interest of public safety, be subject to the provisions of this article.

SEC. 44. Section 4227 of the Business and Professions Code is amended to read:

4227. (a) No person shall furnish any dangerous drug except upon the prescription of a physician, dentist, podiatrist or veterinarian.

(b) The provisions of this section do not apply to the furnishing of any dangerous drug by a manufacturer or wholesaler or pharmacy to each other or to a physician, dentist, podiatrist or veterinarian or to a laboratory under sales and purchase records that correctly give the date, the names and addresses of the supplier and the buyer, the drug and its quantity.

(c) A registered pharmacist, or a person exempted pursuant to Section 4050.7, may distribute dangerous drugs and devices directly to hemodialysis patients pursuant to regulations promulgated by the board. The board shall promulgate such regulations as are necessary to insure the safe distribution of such drugs and devices to hemodialysis patients without interruption of supply including, but not limited to, the following: vendor licensing, records and labeling, patient receipts, patient training, report records, specific product and quantity limitations, verification order forms, reports and supplies, adequate establishment facilities, and reports to the board. A person who violates a regulation promulgated pursuant to this

subdivision shall be liable upon order of the board to surrender his personal license. These penalties shall be in addition to penalties which may be imposed pursuant to Sections 4389 and 4350.5. If the board finds any hemodialysis drugs or devices distributed pursuant to this subdivision to be ineffective or unsafe for the intended use, the board may institute immediate recall of any or all of such drugs or devices distributed to individual patients.

(d) Home hemodialysis patients who receive any drugs or devices pursuant to subdivision (c) shall have completed a full course of home training given by a renal dialysis center accredited by the State Department of Health Services. The physician and surgeon prescribing the hemodialysis products shall submit proof satisfactory to the manufacturer or wholesaler that the patient has completed such program.

SEC. 46. Section 4800 of the Business and Professions Code, as amended by Section 26 of Chapter 1188 of the 1976 Statutes, is amended to read:

4800. There is in the State Department of Health Services a Board of Examiners in Veterinary Medicine in which the administration of this chapter is vested. The board consists of six members appointed by the Governor, two of whom shall be public members.

SEC. 47. Section 7311 of the Business and Professions Code is amended to read:

7311. The board may adopt such rules governing sanitary conditions, and precautions to be employed as are reasonably necessary to prevent the creating or spreading of infectious or contagious diseases in cosmetological establishments, schools of cosmetology, in the practice of a cosmetologist, and in any branch of cosmetology. Such rules shall be adopted in accordance with the provisions of the Administrative Procedure Act, and shall be submitted to the State Department of Health Services, and approved by such department prior to filing with the Secretary of State. A copy of all such rules shall be furnished to each licensee.

SEC. 48. Section 9001 of the Business and Professions Code, as amended by Section 51.5 of Chapter 1188 of the Statutes of 1976, is amended to read:

9001. There is in the State Department of Health Services a Board of Behavioral Science Examiners which consists of 11 members appointed by the Governor with the advice and consent of the Senate.

SEC. 50. Section 23007 of the Business and Professions Code is amended to read:

23007. "Wine" means the product obtained from normal alcoholic fermentation of the juice of sound ripe grapes or other agricultural products containing natural or added sugar or any such alcoholic beverage to which is added grape brandy, fruit brandy, or spirits of wine, which is distilled from the particular agricultural product or products of which the wine is made and other rectified

wine products and by whatever name and which does not contain more than 15 percent added flavoring, coloring, and blending material and which contains not more than 24 percent of alcohol by volume, and includes vermouth and sake, known as Japanese rice wine.

Nothing contained in this section affects or limits the power, authority, or duty of the State Department of Public Health in the enforcement of the laws directed toward preventing the manufacture, production, sale, or transportation of adulterated, misbranded, or mislabeled alcoholic beverages, and the definition of "wine" contained in this section is limited strictly to the purposes of this division and does not extend to, or repeal by implication, any law preventing the production, manufacture, sale, or transportation of adulterated, misbranded, or mislabeled alcoholic beverages.

SEC. 51. Section 224m of the Civil Code is amended to read:

224m. The father or mother may relinquish a child to a licensed adoption agency for adoption by a written statement signed before two subscribing witnesses and acknowledged before an authorized official of an organization licensed by the State Department of Social Services to find homes for children and place children in homes for adoption. Such relinquishment, when reciting that the person making it is entitled to the sole custody of the minor, shall, when duly acknowledged before such officer, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to relinquish.

A parent who is a minor shall have the right to relinquish his or her child for adoption to a licensed adoption agency and such relinquishment shall not be subject to revocation by reason of such minority.

In cases where a father or mother of a child resides outside the State of California and such child is being cared for and is placed for adoption by an organization licensed by the State Department of Social Services to place children for adoption, such father or mother may relinquish the child to that organization by a written statement signed by such father or mother before a notary on a form prescribed by the organization, and previously signed by an authorized official of the organization, which signifies the willingness of such organization to accept the relinquishment.

The relinquishment authorized by this section shall be of no effect whatsoever until a certified copy is filed with the State Department of Social Services, after which it is final and binding and may be rescinded only by the mutual consent of the adoption agency and the parent or parents relinquishing the child.

SEC. 52. Section 224p of the Civil Code is amended to read:

224p. Any person or organization that, without holding a valid and unrevoked license or permit to place children for adoption issued by the State Department of Social Services, advertises in any periodical or newspaper, by radio, or other public medium, that he or it will place children for adoption, or accept, supply, provide or

obtain children for adoption, or that causes any advertisement to be published in or by any public medium soliciting, requesting, or asking for any child or children for adoption is guilty of a misdemeanor.

SEC. 53. Section 224q of the Civil Code is amended to read:

224q. Any person other than a parent or any organization, association, or corporation that, without holding a valid and unrevoked license or permit to place children for adoption issued by the State Department of Social Services, places any child for adoption is guilty of a misdemeanor.

SEC. 54. Section 225p of the Civil Code is amended to read:

225p. Whenever a petition is filed for the adoption of a child who has been placed for adoption by a licensed county adoption agency or the State Department of Social Services, the county adoption agency or the State Department of Social Services may, at the time of filing a favorable report in the superior court, require the persons petitioning to become the adoptive parents to pay to the county agency, as agent of the state or the State Department of Social Services, a fee of five hundred dollars ($500). The county adoption agency or the State Department of Social Services may defer, waive or reduce the fee when its payment would cause economic hardship to the adoptive parents detrimental to the welfare of the adopted child, or if necessary for the placement of a hard-to-place child. A "hard-to-place" child is a child who because of his age, ethnic background, race, color, language, or physical, mental, emotional or medical handicaps has become difficult to place in an adoptive home.

Nothing in this section shall be construed to require the payment of such fee to a county in the case of an adoption resulting from the independent placement of a child.

SEC. 55. Section 226 of the Civil Code is amended to read:

226. Any person desiring to adopt a child may for that purpose petition the superior court of the county in which the petitioner resides and the clerk of the court shall immediately notify the State Department of Social Services at Sacramento in writing of the pendency of the action and of any subsequent action taken. In all cases in which consent is required, except in the case of an adoption by a stepparent where one natural or adoptive parent retains his or her custody and control of the child, unless an agency licensed by the State Department of Social Services to find homes for children and place children in homes for adoption joins in the petition for adoption, the petition shall contain an allegation that the petitioners will file promptly with the department or the county adoption agency information required by the department in the investigation of the proposed adoption. The omission of such allegation from a petition so filed shall not, however, affect the jurisdiction of the court to proceed, nor shall it have heretofore affected the jurisdiction of any court to have proceeded, upon such petition omitting such allegation, in any manner provided in this chapter or otherwise, nor shall such omission have affected or affect the validity of any decree

of adoption or other order heretofore or hereafter made by any court with respect to such petition omitting such allegation.

The caption of the petition for adoption of a minor shall contain the name or names of the petitioners but shall not contain the name of the minor. The petition shall contain the sex and date of birth of the minor. The name that the minor had prior to adoption shall appear in the petition or, in the case where a licensed adoption agency joins in the petition, the name may appear in the joinder signed by the adoption agency. The decree of adoption shall contain the adopted name of the minor but shall not contain the name that the minor had prior to adoption.

SEC. 56. Section 226a of the Civil Code is amended to read:

226a. Once given, consent of the natural parents to the adoption of the child by the person or persons to whose adoption of the child the consent was given, may not be withdrawn except with court approval. Request for such approval may be made by motion, or a natural parent seeking to withdraw such consent may file with the clerk of the superior court where the petition is pending, a petition for approval of withdrawal thereof, without the necessity of payment of any fee for the filing of such petition. The petition shall be in writing, and shall set forth the reasons for withdrawal of consent, but otherwise may be in any form.

The clerk of the court shall set the matter for hearing, and shall give notice thereof to the State Department of Social Services, to the persons to whose adoption of the child the consent was given, and to the natural parent or parents by certified mail to the address of each as shown in the proceeding, at least 10 days before the time set for hearing.

The State Department of Social Services or the licensed county adoption agency shall, prior to the hearing of the motion or petition for withdrawal, file a full report with the court and shall appear at the hearing to represent the interests of the child.

At the hearing, the parties may appear in person or with counsel. The hearing shall be held in chambers, but the court reporter shall report the proceedings and his fee therefor shall be paid from the county treasury on order of the court. If the court finds that withdrawal of the consent to adoption is reasonable in view of all the circumstances, and that withdrawal of the consent will be for the best interests of the child, the court shall approve the withdrawal of the consent; otherwise the court shall withhold its approval. If the court approves the withdrawal of consent, the adoption proceeding shall be dismissed.

Any order of the court granting or withholding approval of a withdrawal of a consent to an adoption may be appealed from in the same manner as an order of the juvenile court declaring any person to be a ward of the juvenile court.

SEC. 57. Section 226b of the Civil Code is amended to read

226b. Whenever, in any adoption proceeding, the petitioners desire to withdraw the petition for the adoption or to dismiss the

proceeding, the clerk of the court in which the proceeding is pending shall immediately notify the State Department of Social Services of such action. The State Department of Social Services or the licensed county adoption agency shall file a full report with the court recommending a suitable plan for the child in every such case where the petitioners desire to withdraw the petition for the adoption or where the department or county agency recommends that the petition for adoption be denied and shall appear before the court for the purpose of representing the child. Notwithstanding such withdrawal or dismissal by the petitioners, the court may retain jurisdiction over the child for the purpose of making such order or orders for its custody as the court may deem to be in the best interests of the child.

In any adoption proceeding in which the parent has refused to give the required consent or in which the reason or cause for the withdrawal of the petition or dismissal of the proceeding is the withdrawal of the consent of the natural parent or parents, the court shall order at the hearing the child restored to the care and custody of the natural parent.

SEC. 58. Section 226c of the Civil Code is amended to read:

226c. At the hearing, if the court sustains the recommendation that the child be removed from the home of petitioners because the agency has recommended denial or the petitioners desire to withdraw the petition or the court dismisses the petition and does not return him to his parents, the court shall commit the child to the care of the State Department of Social Services or the licensed county adoption agency, whichever agency made the recommendation, for that agency to arrange adoptive placement or to make a suitable plan. In those counties not covered by a licensed county adoption agency, the county welfare department shall act as the agent of the State Department of Social Services and shall provide care for the child in accordance with rules and regulations established by the department.

SEC. 59. Section 226.1 of the Civil Code is amended to read:

226.1. (a) In all cases in which consent is required, the consent of the natural parent or parents to the adoption by the petitioners must be signed in the presence of an agent of the State Department of Social Services or of a licensed county adoption agency on a form prescribed by such department and filed with the clerk of the superior court, in the county of the petitioner's residence.

(b) Such consent, when reciting that the person giving it is entitled to the sole custody of the minor child, shall, when duly acknowledged before such agent, be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

(c) If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts, and in such case the consent of the State Department

of Social Services or of a licensed county adoption agency will also be necessary.

(d) A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority.

SEC. 60. Section 226.2 of the Civil Code is amended to read:

226.2. In all cases of adoption in which no agency licensed to place children for adoption is a party, it shall be the duty of the State Department of Social Services or of the licensed county adoption agency to accept the consent of the natural parents to the adoption of the child by the petitioners and to ascertain whether the child is a proper subject for adoption and whether the proposed home is suitable for the child, prior to filing its report with the court.

SEC. 61. Section 226.3 of the Civil Code is amended to read:

226.3. In all cases in which the consent of the natural parent or parents is not necessary and an agency licensed to place children for adoption is not a party to the petition, the State Department of Social Services or the licensed county adoption agency shall, prior to the hearing of the petition, file its consent to the adoption with the clerk of the superior court of the county in which the petition is filed. Such consent shall not be given by the State Department of Social Services or the licensed county adoption agency unless the child's welfare will be promoted by the adoption.

SEC. 62. Section 226.4 of the Civil Code is amended to read:

226.4. If for a period of 180 days from the date of filing the petition, or upon the expiration of any extension of said period granted by the court, the State Department of Social Services or the licensed county adoption agency fails or refuses to accept the consent of the natural parent or parents to the adoption, or if said department or agency fails or refuses to file or to give its consent to an adoption in those cases where its consent is required by this chapter, either the natural parent or parents or the petitioner may appeal from such failure or refusal to the superior court of the county in which the petition is filed, in which event the clerk shall immediately notify the State Department of Social Services of such appeal and the department or agency shall within 10 days file a report of its findings and the reasons for its failure or refusal or consent to the adoption or to accept the consent of the natural parent. After the filing of said findings, the court may, if it deems that the welfare of the child will be promoted by said adoption, allow the signing of the consent by the natural parent or parents in open court, or if the appeal be from the refusal of said department or agency to consent thereto, grant the petition without such consent.

SEC. 63. Section 226.5 of the Civil Code is amended to read

226.5. The State Department of Social Services or licensed county adoption agency shall interview the parties to the adoption as soon as possible and in any event within 45 days after the filing of the adoption petition.

SEC. 64. Section 226.55 of the Civil Code is amended to read:

226.55. The State Department of Social Services or a local public adoption agency may require persons desiring to adopt a child to be fingerprinted and may secure from the Federal Bureau of Investigation or State Department of Justice the full criminal record, if any, of such persons.

SEC. 65. Section 226.6 of the Civil Code is amended to read:

226.6. It shall be the duty of the State Department of Social Services or of the licensed county adoption agency to investigate the proposed adoption and to submit to the court a full report of the facts disclosed by its inquiry with a recommendation regarding the granting of the petition within 180 days after the filing of the petition. In those cases in which the investigation establishes that there is a serious question concerning the suitability of the petitioners or the care provided the child or the availability of the consent to adoption the report shall be filed immediately. The court may allow such additional time for the filing of said reports as in its discretion it may see fit, after at least five days' notice to the petitioner or petitioners and opportunity for such petitioner or petitioners to be heard with respect to the request for additional time. The report required of the State Department of Social Services or of the licensed county adoption agency may be waived by the department in all cases in which an agency, licensed by the State Department of Social Services to place children in homes for adoption, is a party or joins in the petition for adoption. Such waiver may be issued by the department at any time, either before or after the filing of the petition for adoption.

SEC. 66. Section 226.7 of the Civil Code is amended to read:

226.7. Whenever any report or findings are submitted to the court by the State Department of Social Services or by a licensed county adoption agency under any provision of the preceding section, a copy of such report or findings, whether favorable or unfavorable, shall be given to the attorney for the petitioner in the proceedings, if the petitioner has an attorney of record, or to the petitioner.

SEC. 67. Section 226.8 of the Civil Code is amended to read:

226.8. If the findings of the State Department of Social Services or the county adoption agency are that the home of the petitioners is not suitable for the child or that the required consents are not available and it recommends that the petition be denied, or if the petitioners desire to withdraw the petition, and it recommends that the petition be denied, the county clerk upon receipt of the report of the State Department of Social Services or the county adoption agency shall immediately refer it to the superior court for review.

Upon receipt of such reports the court shall set a date for a hearing of the petition and shall give reasonable notice of such hearing to the agency, the petitioners, and the natural parents by certified mail to the address of each as shown in the proceeding.

The department or county agency shall appear to represent the child.

SEC. 68. Section 226.9 of the Civil Code is amended to read:

226.9. Notwithstanding any other provisions of this chapter, in case of an adoption of a child by a stepparent where one natural or adoptive parent retains his or her custody and control of said child, the consent of either or both parents must be signed in the presence of a county clerk, probation officer or county welfare department staff member of any county of this state on a form prescribed by the State Department of Social Services and the county clerk, probation officer or county welfare department staff member before whom such consent is signed shall immediately file said consent with the clerk of the superior court of the county where the petition is filed and said clerk shall immediately file a certified copy of such consent to adoption with the State Department of Social Services.

If the father or mother of a child to be adopted is outside the State of California at the time of signing consent, his or her consent may be signed before a notary or other person authorized to perform notarial acts.

Such consent, when reciting that the person giving it is entitled to sole custody of the minor child, shall, when duly acknowledged before the county clerk, probation officer, or county welfare department staff member be prima facie evidence of the right of the person making it to the sole custody of the child and such person's sole right to consent.

A parent who is a minor shall have the right to sign a consent for the adoption of his or her child and such consent shall not be subject to revocation by reason of such minority.

SEC. 69. Section 226.10 of the Civil Code is amended to read:

226.10. During the pendency of an adoption proceeding, the child proposed to be adopted shall not be concealed within the county in which the adoption is pending; and shall not be removed from such county, unless the petitioners or other interested persons first obtain permission for such removal from the court after giving advance written notice of intent to obtain such permission to the State Department of Social Services or to the licensed adoption agency responsible for the investigation of the proposed adoption. Upon proof of the giving of the notice, permission may be granted by the court if, within a period of 15 days from and after the date of the giving of the notice, no objections have been filed with the court by the State Department of Social Services or the licensed adoption agency responsible for investigation of the proposed adoption. If objections are filed within such period by the department or the adoption agency, upon the request of the petitioners the court shall immediately set the matter for hearing and give to the objector, the petitioners, and the party or parties requesting permission for such removal reasonable notice of such hearing by certified mail to the address of each as shown in the records of the adoption proceeding. Upon a finding that the objections are without good cause, the court may grant the requested permission for removal of the child, subject to such limitations as appear to be in the best interests of the child.

This section does not apply in any of the following situations:

(a) Where the child is absent for a period of not more than 30 days from the county in which the adoption proceeding is pending, provided that a notice of recommendation of denial of petition has not been personally served on the petitioners or the court has not issued an order prohibiting the removal of the child from the county pending consideration of any of the following:

(1) The suitability of the petitioners.

(2) The care provided the child.

(3) The availability of the legally required consents to the adoption.

(b) In a proceeding for the adoption of a child by his stepparent where one natural or adoptive parent retains his or her custody and control of the child.

(c) Where the child has been returned to and remains in the custody and control of his or her natural parent or parents.

(d) Where the child has been relinquished for adoption pursuant to Section 224m and written consent for the removal of the child is obtained from the State Department of Social Services or the licensed adoption agency responsible for the child.

In no event, nor for any period of time, shall a child who has been relinquished for adoption pursuant to Section 224m be removed from the county in which the child was placed by any person who has not petitioned to adopt the child without first obtaining the written consent of the State Department of Social Services or the licensed adoption agency responsible for the child.

A violation of this section constitutes a violation of Section 280 of the Penal Code.

Neither this section nor Section 280 of the Penal Code shall be construed to render lawful any act which is unawful under any other applicable provision of law.

SEC. 70. Section 226.11 of the Civil Code is amended to read:

226.11. All forms adopted by the State Department of Social Services authorizing the release of an infant from a health facility to the custody of persons other than the person entitled to custody of the child pursuant to Section 197 or Section 200 and authorizing such other persons to obtain medical care for the infant shall contain a statement in boldface type delineating the various types of adoptions available, and the natural parents' rights with regard thereto, including, but not limited to, rights with regard to revocation of consent to adoption.

SEC. 71. Section 227 of the Civil Code is amended to read:

227. The person or persons desiring to adopt a child, and the child proposed to be adopted, must appear before the court; provided, that if said adoptive parent is then commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, so that it is impossible or impracticable, because of such person's absence from the State of California, or otherwise, for said person to make such appearance in

person, and said circumstances are established by satisfactory evidence, said appearance may be made for such person by his or her counsel, commissioned and empowered in writing so to do and which said power of attorney may be incorporated in the petition for adoption. The court must examine all persons appearing before it pursuant to this section. The examination of each such person shall be conducted separately but within the physical presence of each such other person or persons unless the court, in its discretion, shall order otherwise. The party or parties adopting shall execute or acknowledge an agreement in writing that the child shall be treated in all respects as the lawful child of the party or parties. If satisfied that the interest of the child will be promoted by the adoption, the court may thereupon make and enter a decree of adoption of the child by the adopting parent or parents, and the child and the adopting parents shall thereupon and thereafter sustain toward each other the legal relationship of parent and child and have all the rights and be subject to all the duties of that relation. In a case where the adopting parent is permitted to appear by counsel, the agreement may be executed and acknowledged by such counsel for such absent party, or may be executed by such absent party before a notary public, or any other person authorized to take acknowledgments including the persons authorized by Sections 1183 and 1183.5 of this code; provided, that in any case where said adoptive parent is permitted to appear by counsel hereunder, or otherwise, the court may, in its discretion, cause such examination of said adoptive parent, other interested party, or witness to be made upon deposition, as it deems necessary, said deposition to be taken upon commission, as prescribed by the Code of Civil Procedure, and the expense thereof to be borne by the petitioner. The petition, relinquishment, agreement, order, report to the court from any investigating agency, and any power of attorney and deposition must be filed in the office of the county clerk and shall not be open to inspection by any other than the parties to the action and their attorneys and the State Department of Social Services except upon the written authority of the judge of the superior court. A judge of the superior court shall not authorize anyone to inspect the petition relinquishment, agreement, order, report to the court from any investigating agency, or power of attorney or deposition or any portion of any such documents except in exceptional circumstances and for good cause approaching the necessitous. The petitioner may be required to pay the expenses for preparing the copies of the documents to be inspected.

Upon written request of any party to the action and upon the order of any judge of the superior court, the county clerk shall not provide any documents referred to in this section for inspection or copying to any other person, unless the name of the natural parents of the child or any information tending to identify the natural parents of the child is deleted from the documents or copies thereof.

Upon the request of the adoptive parents or the child, a county

clerk may issue a certificate of adoption which states the date and place of adoption, the birthday of the child, the name of the adoptive parents, and the name which the child has taken. Unless the child has been adopted by a stepparent, the certificate shall not state the name of the natural parents of the child.

The provisions of this section permitting an adoptive parent, who is commissioned or enlisted in the military service, or auxiliary thereof, of the United States, or of any of its allies, or in the American Red Cross, to make an appearance through his or her counsel, commissioned and empowered in writing to do so, are equally applicable to the spouse of such adoptive parent who resides with such adoptive parent outside of this state.

Where, pursuant to this section, neither adoptive parent need appear before the court, the child proposed to be adopted need not appear. If the law otherwise requires that the child execute any document during the course of the hearing, the child may do so by and through counsel. Where none of the parties appear, no order of adoption shall be made by the court until after a report has been filed with the court pursuant to Section 226.6.

SEC. 72. Section 227aaa of the Civil Code is amended to read:

227aaa. Notwithstanding any other provision of law, the State Department of Social Services, and any holder of a license or permit to place children for adoption issued by the State Department of Social Services may furnish information relating to any adoption petition to the juvenile court, to any county welfare department, to any public welfare agency, or to any private welfare agency licensed by the State Department of Social Services whenever it is believed the welfare of a child will be promoted thereby.

SEC. 73. Section 227b of the Civil Code is amended to read:

227b. If any child heretofore or hereafter adopted under the foregoing provisions of this code shows evidence of a mental deficiency or mental illness as a result of conditions prior to the adoption to such an extent that the child cannot be relinquished to an adoption agency on the grounds that the child is considered unadoptable, and of which conditions the adopting parents or parent had no knowledge or notice prior to the entry of the decree of adoption, a petition setting forth such facts may be filed by the adopting parents or parent with the court which granted the petition for adoption. If such facts are proved to the satisfaction of the court, it may make an order setting aside the decree of adoption.

The petition must be filed within whichever is the later of the following time limits: (a) within five years after the entering of the decree of adoption, or (b) within one year after the effective date hereof, if such a condition were manifest in the child within five years after the entering of the decree of adoption.

In every action brought under this section it shall be the duty of the clerk of the superior court of the county wherein the action is brought to immediately notify the State Department of Social Services of such action. Within 60 days after such notice the State

Department of Social Services shall file a full report with the court and shall appear before the court for the purpose of representing the adopted child.

SEC. 74. Section 227p of the Civil Code is amended to read:

227p. Any adult person may adopt any other adult person younger than himself, except the spouse of the adopting person, by an agreement of adoption approved by a decree of adoption of the superior court of the county in which either the person adopting or the person adopted resides, as provided in this section. The agreement of adoption shall be in writing and shall be executed by the person adopting and the person to be adopted, and shall set forth that the parties agree to assume toward each other the legal relation of parent and child, and to have all of the rights and be subject to all of the duties and responsibilities of that relation.

A married person not lawfully separated from his spouse cannot adopt an adult person without the consent of the spouse of the adopting person, if such spouse, not consenting, is capable of giving such consent. A married person not lawfully separated from his spouse cannot be adopted without the consent of the spouse of the person to be adopted if such spouse, not consenting, is capable of giving such consent. Neither the consent of the natural parent or parents of the person to be adopted, nor of the State Department of Social Services, nor of any other person shall be required.

The adopting person and the person to be adopted may file in the superior court of the county in which either resides a petition praying for approval of the agreement of adoption by the issuance of a decree of adoption. The court shall fix a time and place for hearing on the petition, and both the person adopting and the person to be adopted must appear at the hearing in person, unless such appearance is impossible, in which event appearance may be made for either or both of such persons by counsel, empowered in writing to make such appearance. The court may require notice of the time and place of the hearing to be served on any other interested persons, and any such interested person may appear and object to the proposed adoption. No investigation or report to the court by any public officer or agency is required, but the court may require the county probation officer or the State Department of Social Services to investigate the circumstances and report thereon, with recommendations, to the court prior to the hearing.

At the hearing the court shall examine the parties, or the counsel of any party not present in person. If the court is satisfied that the adoption will be for the best interests of the parties and in the public interest, and that there is no reason why the petition should not be granted, the court shall approve the agreement of adoption, and make a decree of adoption declaring that the person adopted is the child of the person adopting him; otherwise, the court shall withhold approval of the agreement and deny the petition.

A married minor child may be adopted pursuant to the provisions of this section; provided, that such married minor child has the

SEC. 75. Section 232 of the Civil Code is amended to read:

232. (a) An action may be brought for the purpose of having any person under the age of 18 years declared free from the custody and control of either or both of his parents when such person comes within any of the following descriptions:

(1) Who has been left without provision for his identification by his parent or parents or by others or has been left by both of his parents or his sole parent in the care and custody of another for a period of six months or by one parent in the care and custody of the other parent for a period of one year without any provision for his support, or without communication from such parent or parents, with the intent on the part of such parent or parents to abandon such person. Such failure to provide identification, failure to provide, or failure to communicate shall be presumptive evidence of the intent to abandon. Such person shall be deemed and called a person abandoned by the parent or parents abandoning him. If in the opinion of the court the evidence indicates that such parent or parents have made only token efforts to support or communicate with the child, the court may declare the child abandoned by such parent or parents. In those cases in which the child has been left without provision for his identification and the whereabouts of the parents are unknown, a petition may be filed after the 120th day following the discovery of the child and citation by publication may be commenced. The petition may not be heard until after the 180th day following the discovery of the child.

The fact that a child is in a foster care home, licensed under subdivision (a) of Section 16000 of the Welfare and Institutions Code, shall not prevent a licensed adoption agency which is planning adoption placement for the child, from instituting, under this subdivision, an action to declare such child free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel and if there is no county counsel, the district attorney shall institute such action.

(2) Who has been cruelly treated or neglected by either or both of his parents, if such person has been a dependent child of the juvenile court, and such parent or parents deprived of his custody for the period of one year prior to the filing of a petition praying that he be declared free from the custody and control of such cruel or neglectful parent or parents.

(3) Whose parent or parents suffer a disability because of the habitual use of alcohol, or any of the controlled substances specified in Schedules I to V, inclusive, of Division 10 (commencing with Section 11000) of the Health and Safety Code, except when such controlled substances are used as part of a medically prescribed plan, or are morally depraved, if such person has been a dependent child of the juvenile court, and the parent or parents deprived of his custody because of such disability, or moral depravity, for the period of one year continuously immediately prior to the filing of the

petition praying that he be declared free from the custody and control of such parent or parents. As used in this subdivision, "disability" means any physical or mental incapacity which renders the parent or parents unable to adequately care for and control the child.

(4) Whose parent or parents are convicted of a felony, if the facts of the crime of which such parent or parents were convicted are of such nature as to prove the unfitness of such parent or parents to have the future custody and control of the child.

(5) Whose parent or parents have been declared by a court of competent jurisdiction wherever situated to be mentally deficient or mentally ill, if, in the state or country in which the parent or parents are hospitalized or resident, the Director of Mental Health or the Director of Developmental Services, or his equivalent, if any, and the superintendent of the hospital of which, if any, such parent or parents are inmates or patients certify that such parent or parents so declared to be mentally deficient or mentally ill will not be capable of supporting or controlling the child in a proper manner.

(6) Whose parent or parents are, and will remain incapable of supporting or controlling the child in a proper manner because of mental deficiency or mental illness, if there is testimony to this effect from two physicians and surgeons each of which must have been certified either by the American Board of Psychiatry and Neurology or under Section 6750 of the Welfare and Institutions Code. If, however, the parent or parents reside in another state or in a foreign country, the testimony herein may be supplied by two physicians and surgeons who are residents of such state or foreign country, if such physicians and surgeons have been certified by a medical organization or society of that state or foreign country to practice psychiatric or neurological medicine and if the court determines that the certification requirements of such organization or society are comparable to those of the American Board of Psychiatry and Neurology.

The parent or parents shall be cited to be present at the hearing, and if he or they have no attorney, the court shall appoint an attorney or attorneys to represent the parent or parents and fix the compensation to be paid by the county for such services, if he determines the parent or parents are not financially able to employ counsel.

(7) Who has been cared for in one or more foster homes under the supervision of the juvenile court, the county welfare department or other public or private licensed child-placing agency for two or more consecutive years, providing that the court finds beyond reasonable doubt that return of the child to his parent or parents would be detrimental to the child and that the parent or parents have failed during such period, and are likely to fail in the future, to

(i) Provide a home for said child;

(ii) Provide care and control for the child; and

(iii) Maintain an adequate parental relationship with the child.

Physical custody of the child by the parent or parents for insubstantial periods of time during the required two-year period will not serve to interrupt the running of such period.

(b) A licensed adoption agency may institute under this section, an action to declare a child, as described in this section, free from the custody and control of his parents. When the requesting agency is a licensed county adoption agency, the county counsel, or if there is no county counsel, the district attorney shall in a proper case institute such action.

CHAPTER 10. SUPERVISION OF LIFE CARE CONTRACTS

1770. Any organization or person may receive transfers of property from an aged person, conditioned upon an agreement to furnish life care or care for a period of more than one year, which agreement may include the cash payment of personal and incidental expenses to the transferor or his nominee; provided, such organization or person has received a written license pursuant to Chapter 2 (commencing with Section 1250) or Chapter 3 (commencing with Section 1500) of this division, and such organization or person has been granted a certificate of authority by the state department.

Organizations or persons who furnish care exclusively under agreements, which may be canceled by either party without cause, are required to obtain a certificate of authority from the state department for all agreements issued after October 1, 1957, if payment or transfer of property is made in advance to cover cost of care for one year or more; provided, however, that, if any such organization or person is a nonprofit benevolent organization, which accepts property in an amount less than the cost of care, the amount of reserve required of it under Section 1775 shall be reduced in the same proportion as the estimated cost of care bears to the value of the property transferred.

1771. As used in this chapter "contracts" or "agreements" means

both life care contracts and continuing care agreements.

1772. When necessary to secure the performance of all obligations of the certificate holder to transferors, the state department may record with the recorder of any county a notice of lien on behalf of the transferors. From the time of such recording, there exists a lien on all real property of the certificate holder, not exempt from excecution owned by him at the time or which he may afterward acquire before the release of the lien, and located within the county where such notice is recorded. The state department shall file a release of the lien upon proof of complete performance of all obligations to transferors, or upon the filing of a bond meeting the conditions set forth in Section 1773. The state department may file a release of the lien if the state department deems the lien no longer necessary to secure the performance of all obligations of the certificate holder to the transferors. The certificate holder may appeal to the state department from a refusal of a request for release of the lien. The decision of the board shall be subject to court review pursuant to Section 1094.5 of the Code of Civil Procedure, upon petition of the certificate holder filed within 30 days of service of the decision.

1773. Before issuing the certificate of authority, the state department may, if it deems it necessary to safeguard the interests of the aged in the state, require any applicant for a certificate to file with the state department, and maintain in effect during the period that the certificate of authority is in force, a bond executed by an admitted surety insurer, in an amount satisfactory to the state department, conditioned that the principal will faithfully perform all obligations undertaken by him pursuant to the certificate of authority, to and for the use and benefit of all persons who may be injured or aggrieved by the failure of the principal to perform any such obligation, and any person so injured or aggrieved may bring suit on such bond, in his own name, without an assignment thereof.

1774. Before issuing the certificate of authority, the state department shall require that any agent or employee of the applicant, who, in the course of his agency or employment, has access to any substantial amount of funds furnish, and maintain in effect during the period that the certificate of authority is in force, a surety bond in such form and penal sum as the state department finds necessary to protect all persons from loss of the funds.

1775. Any organization or person receiving a certificate of authority to enter into care agreements shall maintain reserves covering obligations assumed under all agreements entered into and maintained. Such reserves shall be in an amount not less than the sum computed in accordance with the standard of valuation based upon a modern and up-to-date table of mortality selected by the state department in consultation with the Department of Insurance. The table of mortality shall be employed in connection with all care agreements entered into on or after January 1, 1958, while McClintock's table of mortality among annuitants shall be employed

in connection with care agreements entered into prior to January 1, 1958. The interest assumption for such computation shall be determined by the state department in consultation with the Department of Insurance.

Failure to maintain reserves as provided in this section shall be deemed a breach of all agreements to furnish care.

The reserves shall consist of the following:

(a) Deposits in commercial and savings accounts with banks which are members of the Federal Deposit Insurance Corporation and approved by the state department.

(b) Investments in certificates issued by building and loan associations which are members of the Federal Savings and Loan Insurance Corporation and approved by the state department.

(c) Notes receivable secured by first deeds of trust and first mortgages.

(d) Bonds and stocks selected from an approved list, as determined by the state department in consultation with the Department of Insurance and the Department of Corporations. In the event stocks, bonds, and securities that are not on the approved list are part of the reserves, and if they are to be retained as part of the reserves, it shall not be necessary that such unapproved stocks, bonds, and securities be disposed of immediately, but they shall be disposed of in accord with regulations of the state department, which disposal shall be accomplished in a gradual manner so as to avoid loss to certificate holders. Securities which, although not on the approved list, should be retained in the reserve for reasons acceptable to the state department may be retained with the specific approval of the state department.

(e) Real estate used to provide care and housing for holders of life care contracts, continuing care agreements, or equities therein, owned by the organization or person, shall be based on 70 percent of the net equity thereof, which shall be the appraised value less any depreciation and encumbrances. The appraisal shall be made by an appraiser approved by the state department.

(f) Furniture and equipment situated in property used to provide care and housing for holders of life contracts, to the extent of 70 percent of the net equity thereof.

(g) Real estate or equities therein owned by the organization or person as an investment, the rents from which are used to discharge obligations to the holder of life care contracts or to reinvest as a part of the reserves.

(h) Investment certificates or shares in open end investment trusts (1) whose management must have been managing a mutual fund registered under the Investment Company Act of 1940, or the management must have been registered as an investment adviser under the Investment Advisers' Act of 1940, and in either case must currently have at least one hundred million dollars ($100,000,000) under its supervision; (2) which is qualified for sale in California; (3) has at least 40 percent of its directors or trustees not affiliated with

the fund's management company or principal underwriter or any of their affiliates; (4) is registered under the Investment Company Act of 1940; and (5) is a fund listed as qualifying under rules maintained by the Commissioner of Corporations in cooperation with the Department of Insurance.

(i) At least 25 percent of the reserve necessary to maintain all continuing care agreements, or life care contracts, must consist of listed bonds, stocks, commercial and savings accounts and building and loan certificates, except that a 5-percent requirement will apply to those homes and organizations which have at least one-half of their contracts under the monthly fee basis. Any person or organization holding a certificate of authority to enter into life care agreements upon the effective date of this act, that is unable to meet the reserve requirements of this subdivision, may petition the state department for a modification of the percentage in the reserve requirement.

Any person or organization which has entered into care agreements prior to October 1, 1957, but which was not required prior to September 11, 1957, to obtain a certificate of authority under this chapter, is not required to maintain reserves covering obligations assumed under any agreement entered into prior to October 1, 1957.

1776. Notwithstanding any other provisions of this chapter, the amount of reserve required by Section 1775 for any life care contract or continuing care agreement for which the advance fee is less than the maximum annualized amount of aid payable to a recipient of aid under the aid to the aged program shall be based on the amount of the advanced deposit which shall be amortized on a five-year basis.

1777. Life care agreements executed by an organization or person shall be deemed a preferred claim against all assets owned by the organization or person in the event of liquidation.

For purposes of computing the reserve, the liens required under Section 1772 shall not be deducted from the value of real or personal property.

1778. The state department may require the filing with the state department of a copy of any agreement entered into between the certificate holder and transferor, by every person or organization holding a certificate of authority to receive transfers under this chapter. All agreements entered into between the certificate holder and the transferor shall be in writing and shall contain all information required under Section 1779.

The state department shall require that any forms used by the certificate holder in concluding an agreement with any transferor be filed with and approved by the state department prior to their use by the certificate holder. The state department may contract with the Department of Insurance, on such terms as may be mutually agreeable, for any assistance which the state department may require in evaluating any submitted forms.

1779. The agreement must:

(a) Show the value of all property transferred, including, but not

limited to, donations, subscriptions, fees, and any other amounts paid or payable by or on behalf of the aged person.

(b) Show all the services which are to be provided by the person or organization to the transferor, including, in detail, all items which the transferor will receive, such as board, room, medical care, clothing, burial, incidentals, and whether such items will be provided for a designated time period or for life.

If the per capita cost to the institution during the period cannot be established otherwise, the cost during the period shall be deemed to be the cost at the time of the dismissal or discharge.

1781. The state department shall make such rules and regulations as it deems best for the government of any institution or organization specified in Section 1770 in order that the rights of aged persons may be protected. The state department may, by any duly authorized representative, inspect and examine any such institution, home, or place, books and records, or the performance of any service required pursuant to the agreement.

such audit. Funds and property received as advance payments for maintenance of the transferors shall be reported separately from membership fees, donations, or other funds available for capital expansion.

Failure of the organization or person to meet the licensing requirements of Chapter 2 (commencing with Section 1250) or Chapter 3 (commencing with Section 1500) of this division or the reserve requirements of Section 1775 shall constitute cause for suspension or revocation of the certificate of authority.

The person or organization whose certificate of authority is suspended or revoked shall have right of appeal to the state department. The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the state department shall have all of the powers granted therein.

1785. For the failure of any organization or person to establish and maintain reserves as provided in this chapter, the state department shall, after due notice, revoke its certificate of authority. The state department may request the Department of Insurance to aid in the determination as to whether or not sufficient reserves are established and maintained.

1786. No certificate of authority shall be transferred. Neither the terms of the agreement nor the place of performance specified in any agreement shall be changed without the written consent of the state department, except in circumstances where residents are removed for medical treatment.

1787. A holder of a certificate of authority, who has life care residents in the home, and who wishes to sell or transfer ownership of the home to another party, shall first obtain approval from the state department.

1788. Any person, association, or corporation that maintains, enters into, or, as manager or officer or in any other administrative capacity, assists in maintaining or entering into any agreement providing for transfer of property, conditioned upon an agreement to furnish life care to the transferor or his nominee, without first having secured a certificate of authority therefor in writing, or refuses to permit or interferes with the inspection authorized in this chapter, is guilty of a misdemeanor.

The advisory board shall be independent from any other advisory board established pursuant to any provision of state law: provided, that the advisory board shall coordinate its efforts, where appropriate, with other boards and advisory agencies concerned with alcoholism.

This subdivision shall apply only to counties whose population exceeds 200,000.

(b) In counties whose population does not exceed 200,000, the governing body shall appoint an advisory board which shall be composed of not less than seven nor more than 15 members which is independent, under the jurisdiction of another health-related advisory board or agency established pursuant to any provision of state law, or has the same membership as such other advisory board or agency. It is the intent of the Legislature that such boards shall include representatives from various economic, social, and occupational groups, and persons who have received treatment or rehabilitation services for their alcoholism problems.

11796. Five members of the advisory board shall be appointed to serve until July 1, 1977; five members shall be appointed to serve until July 1, 1978; and five members shall be appointed to serve until July 1, 1979. In the event

that prior to the expiration of his term, a member ceases to retain the status which qualified him for appointment to the advisory board, his membership on the advisory board shall terminate and there shall be a vacancy on the advisory board.

11798. If two or more counties whose combined population exceeds 200,000 jointly established an alcoholism program, the advisory board for its alcoholism program shall consist of at least 15 members. If the combined population of such counties does not exceed 200,000, subdivision (b) of Section 11795 shall apply to such counties.

11799. The advisory board shall meet at least bimonthly and may meet at such other times as may be deemed necessary by the chairman or alcoholism administrator. The members of the advisory board shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with their duties under this chapter; provided, that the members may receive compensation out of county funds other than the required county match. All meetings of the advisory board shall be open to the public.

11800. Advisory boards shall be subject to the provisions of Chapter 9 (commencing with Section 54950), Part 1, Division 2, Title 5 of the Government Code, relating to meetings of local agencies.

The advisory board shall submit minutes of its meetings, comments regarding the county program budget, and any related matters to the governing body.

11803. Subject to the approval of the director, any county may by contract furnish alcoholism services to any other county.

11804. Unless otherwise expressly provided for or required by the context, the provisions of this part relating to county alcoholism programs, and the appointment of alcoholism advisory boards and administrators shall apply to alcoholism programs operated jointly by

two or more counties.

11805. Nothing in this part shall prevent any city or combination of cities from financing and operating an alcoholism program by entering into arrangements with the county to provide and be reimbursed for services provided under the county program budget.

11806. It is the intent of the Legislature that the county maintain a unified planning process for all health programs, provided, that such unified planning shall not delay or interfere with any of the procedures or applications for funding under this part.

11807. The state department may require that each county and any public or private provider of alcoholism services or programs which receives any state funds under this part provide such information as may be requested by the department relating to any application for or receipt of federal or other nonstate funds for alcoholism services or programs.

Article 3. The County Alcoholism Program Budget

On or before June 1 of each year, the governing body shall adopt a proposed or final county alcoholism program budget and shall submit the budget to the director in the form and according to the procedures specified by the director. The governing body shall submit its final alcoholism program budget no later than October 1 of each year and shall set forth any differences between its proposed and final budget. In the event the governing body does not adopt and submit its proposed or final program budget on or before June 1, the state may reallocate all or part of that county's allocation to other counties which have adopted and submitted their program budgets. The department shall, by regulation, establish deadlines for preparation of the program budget, review by the advisory board, and submission to the governing body. The county alcoholism program budget shall be the budget for the next fiscal year for the alcoholism program in the county. The purpose of the county program budget shall be to provide the basis for reimbursement pursuant to the provisions of this division and to coordinate services as specified in this division in such a manner as to avoid duplication, fragmentation of services, and unnecessary expenditures.

11811. The county program budget shall provide for the development through the utilization of state, local, public and private resources, of adequate services and facilities for the prevention of alcoholism and for the treatment and rehabilitation of alcoholics and their families.

11812. The county program budget shall include all of the following:

Each county which is allocated funds shall contract directly with the Department of Rehabilitation for vocational rehabilitation services. Commencing with the 1977–78 fiscal year, each county may contract with the department for such services in any amount.

It is the intent of the Legislature that the counties shall make maximum utilization of vocational rehabilitation services pursuant to a contract with the department in order to maximize the receipt of matching federal funds available for such purposes where reasonable and appropriate to do so.

It is the further intent of the Legislature that the office devise procedures for counties to utilize to provide timely notice to the department relating to requests for vocational rehabilitation services for the next fiscal year.

11814. The state department may waive the requirement that the county program include any services described in Section 11813 if the county demonstrates that no substantial need exists for such service or sufficient funds are not available to adequately provide such service.

11815. When the county program budget is submitted to the director, it shall be accompanied by a document which indicates that

the budget has been reviewed by the advisory board.

11816. In development of the county program budget, optimum use shall be made of available assistance from appropriate local public and private agencies, community professional personnel, and state agencies. The state department shall, upon request and with available staff, provide consultation services and technical assistance to the alcoholism administrator, the governing body, and the advisory board. Optimum use shall also be made of federal, state, county, and private funds which may be available for alcoholism program budget planning.

11817. 11818. In conducting evaluation, planning, and research activities to develop and implement the county program budget, counties may contract with appropriate public or private agencies.

(a) Wherever possible, a patient shall be treated on a voluntary rather than an involuntary basis.

(b) A patient shall be initially assigned or transferred to outpatient or intermediate treatment, unless he is found to require inpatient treatment.

(c) A person shall not be denied treatment solely because he has withdrawn from treatment against medical advice on a prior occasion or because he has relapsed after earlier treatment.

(d) An individualized treatment plan shall be prepared and maintained on a current basis for each patient.

(e) Provision shall be made for a continuum of coordinated treatment or rehabilitation services, so that a person who leaves a facility or a form of treatment or rehabilitation will have available and utilize other appropriate treatment or rehabilitation.

11820. (a) Each program or service funded through the county program budget shall contain evaluation and followup procedures, as established by rules or regulations adopted by the state department, in order to ascertain the effectiveness of each program or service, provided that such procedures, where appropriate, shall be coordinated with procedures utilized by other state health-related agencies.

Any person may, in accordance with the provisions of Chapter 3 (commencing with Section 525), Title 7, Part 2 of the Code of Civil Procedure, bring an action to enjoin the release of confidential information or records in violation of the provisions of this chapter, and may in the same action seek damages as provided in this section.

It is not a prerequisite to an action under this section that the plaintiff suffer or be threatened with actual damages.

Article 4. Financial Provisions

11830. Alcoholism program expenditures made by counties pursuant to this part shall be paid by the state pursuant to the provisions of this part.

11831. There shall be a single state appropriation from the Budget Act to the state department to fund programs for the prevention of alcoholism and treatment and rehabilitation for alcoholics and their families as provided for in this part.

11832. Payments or advances of funds to counties or other state agencies, which are properly chargeable to appropriations to the state department may be made by Controller's warrant drawn against state funds appropriated to the state department or federal moneys administered by the state department.

The state department shall have the authority to audit or contract for auditing of any expenditure made pursuant to the state alcoholism program under this part. The state department may deny payments or advances of funds to counties if it finds by audit or otherwise that the county program budget, or any part thereof, is not in compliance with the provisions of this part.

11833. Reports of expenditures shall be presented by each county to the state department and by all providers of services to the county at the time and in the form prescribed by the director, provided that the procedures and form for such reports, where appropriate, shall be coordinated with the procedures and forms utilized by other state health-related agencies. Each county shall be responsible for reviewing its contracts with providers of services and the state department may audit such contracts. Such reports shall be reviewed by the state department and interim adjustments to claims shall be made expeditiously with each county.

11834. Subsequent to review and approval of the county program budget, the director shall determine the amount of state and federal funds available for each county to implement the approved program budget. In making allocations to counties, the state department shall take into account such factors as the relative population of the

county, its financial need, its need for more effective alcoholism prevention, treatment, and rehabilitation programs, the relative ethnic minority population of the county, the number of arrests for public intoxication and driving while intoxicated, and the number of off-sale licensed outlets which sell alcoholic beverages within the county. Not later than 30 days after introduction of the Budget Bill, the state department shall notify each county regarding its preliminary allocation under this division pending enactment of the Budget Act.

11835. On or before October 1 of each year, each county shall submit to the state department a revised county program budget for such fiscal year which includes such revisions as are necessary or desirable to make the budget compatible with the Budget Act for that fiscal year. By November 1 of each year, the state department shall review and approve each revised county program budget. Such approval shall be subject to the amount appropriated to the state department for the purposes of such budget pursuant to the Budget Act for that fiscal year.

11836. The cost of all services specified in the approved county program budget shall be financed on a basis of 90 percent state funds and 10 percent county funds, irrespective of where or by whom the services are provided, except for services to be financed from other public or private sources as provided for in the county program budget. Where the services specified in the approved program budget are provided pursuant to other general health or social programs, only that portion of the service dealing with the prevention of alcoholism, and the treatment and rehabilitation of alcoholics and their families may be financed under this division.

For the purposes of this section, "county program budget" shall mean the total of state funds to be advanced to the county and the required county match.

11837. (a) Upon approval by both parties, the approved county program budget shall be deemed to be a contractual arrangement between the state and county.

(b) During the course of each fiscal year, a county may reallocate funds initially allocated pursuant to the approved county program budget between state-funded and other approved programs with the approval of the director.

The director may reallocate among county program budgets any savings which occur during the fiscal year in services or any allocations not in compliance with the provisions of this division provided for under the program budgets. Reallocations may be made to counties desiring to provide services supplementary to services specified in approved program budgets.

11838. Nothing in this part shall prevent a county from appropriating additional funds for alcoholism services or programs.

11839. In determining the amounts which may be paid for services, fees paid by persons receiving services or fees paid on behalf of such persons by the federal government, by the California

Medical Assistance Program set forth in Chapter 7 (commencing with Section 14000), Part 3, Division 9 of the Welfare and Institutions Code and by other public or private sources, shall be used for providing additional alcoholism services.

11840. Expenditures subject to payment shall include expenditures for the services specified in Section 11813, salaries of personnel, approved facilities and services provided through contract, operation, maintenance and service costs, depreciation of county facilities as established in the state's uniform accounting manual, disregarding depreciation on such a facility to the extent it was financed by state funds under this part, and such other expenditures as may be approved by the director. It shall not include expenditures for initial capital improvements, the purchase or construction of buildings, except for such equipment items and remodeling expenses as may be provided for in regulations, compensation to members of the state or county alcoholism advisory boards, except for actual and necessary expenses incurred in the performance of official duties, or expenditures for a purpose for which state reimbursement is claimed under any other provision of law.

11841. The provisions of subdivision (c) of Section 14000 of the Welfare and Institutions Code shall not be construed to prevent providers of alcoholism services pursuant to this part from also being providers of medical assistance alcoholism treatment services for the purposes of Chapter 7 (commencing with Section 14000), Part 3, Division 9 of the Welfare and Institutions Code.

11842. Fees shall be charged in accordance with the ability to pay for alcoholism treatment or rehabilitation services rendered, but shall not exceed the actual cost of such services; provided, that the director may waive the requirements of this section upon request of the governing body if he finds that the costs of collecting such fees will exceed the amount of fees collected. The state department shall issue regulations relating to the setting of such fees.

11843. To continue county expenditures for legal proceedings involving persons afflicted with alcoholism, the following costs incurred in carrying out this part shall be non-state-reimbursable charges:

(a) The costs involved in bringing a person in for 72-hour treatment and evaluation.

(b) The costs of court proceedings for court-ordered evaluation, including the service of the court order and the apprehension of the person ordered to evaluation when necessary.

court-appointed attorneys in proceedings for those unable to afford such assistance.

11844. From funds made available by the Legislature, the department is authorized to contract with the Regents of the University of California or a private university or universities located within California for purposes of establishing and maintaining research centers on a campus or campuses of the University of California or such private university or universities for the study of the primary biomedical or social causes of alcoholism. Funds appropriated by the Legislature pursuant to this section may be expended for salaries of staff and the acquisition of equipment and related research materials, and may not be expended for capital outlay purposes.

If the state department fails to provide the agency with such written description within 60 days from the date of receipt of the proposed project, the state agency may proceed to conduct the research or service project as described in their proposal.

The state department annually shall submit to the Governor and the Legislature, not later than January 5, a report of the activities it

undertakes pursuant to this section, including specific recommendations with respect to evaluation of programs of research, treatment and education with respect to drug abuse.

11866. The state department shall assist local community organizations in initiating effective programs to prevent and treat narcotics addiction and drug abuse.

11867. The state department shall develop and maintain a centralized narcotic and drug abuse data collection system which shall gather and obtain information on the number and causes of narcotic- or drug-related treatment, the number of admissions to all hospitals on both an emergency room and inpatient basis for narcotic- and drug-related treatment, the number of admissions to state hospitals for narcotics or drug abuse treatment, the number of arrests for narcotics and dangerous drug violations, the number of California Youth Authority commitments for narcotics and drug abuse violations, the number of California Department of Corrections commitments for narcotics and drug abuse violations, the number or percentage of drug abusing persons as determined by survey information, the amounts of narcotics and dangerous drugs confiscated by law enforcement in the state, the statewide narcotics and drug abuse treatment program distribution and the fiscal impact of narcotics and drug abuse upon the state.

The state department shall, annually, issue a report which portrays the drugs abused, populations affected, user characteristics, crime-related costs, socioeconomic costs and other related information deemed necessary in providing a problem profile of narcotics and drug abuse in the State of California.

11868. The state department shall develop and implement a mass media drug education program involving newspapers, radio and television in order to provide community education, develop public awareness and motivate community action in drug prevention, treatment, and rehabilitation.

11869. The state department shall develop an objective program evaluation device or methodology and evaluate state-supported narcotics and drug abuse prevention and treatment programs.

11870. The state department shall, in consultation with the Department of Education, screen and evaluate drug abuse books, pamphlets, literature, movies, and other audiovisual aids and prepare and disseminate lists of such recommended materials to schools, public libraries, drug information centers, and other such public and private agencies.

Article 3. Methadone Programs

11875. The Legislature finds that it is in the best interests of the health and welfare of the people of this state to coordinate

methadone programs and to establish minimum requirements for the operation of all methadone programs in this state.

11876. In addition to the duties authorized by other provisions, the state department shall have all of the following powers:

(a) Exclusive authority to approve the establishment of methadone programs in this state, except that the Research Advisory Panel shall have authority to approve methadone research programs. The state department shall establish the criteria for the eligibility of patients to be included in the programs, program operation guidelines, such as dosage levels, recordkeeping and reporting, urinalysis requirements, take-home doses of methadone, security against redistribution of the drug and any other regulations which, in its discretion, the department finds are necessary to protect the safety and well-being of the patient and the public and to carry out the provisions of this chapter. The arrest and conviction records and the records of pending charges against any person seeking admission to a methadone program shall be furnished to methadone program directors upon written request of the methadone program director provided such request is accompanied by a signed release from the person whose records are being requested.

(b) To monitor methadone programs in this state to insure that the programs are operating within promulgated regulations.

(c) To study and evaluate, on an ongoing basis, methadone programs in this state and annually report to the Legislature on the effectiveness and needs of the programs.

(d) To provide advice, consultation, and technical assistance to methadone programs.

(e) In its discretion, to approve local agencies or bodies to assist it in carrying out the provisions of this chapter.

(f) It is the intent of the Legislature in enacting this section in order to protect the general public, that self-administered dosage shall only be provided when the patient is clearly adhering to the requirements of his program, and where daily attendance at a clinic would be incompatible with gainful employment, education, and responsible homemaking. The director shall define "satisfactory adherence" and shall ensure that patients not satisfactorily adhering to their programs shall not be provided take-home dosage.

11877. In addition to the duties authorized by other provisions, the state department shall be responsible for approving methadone programs established by the county mental health program, pursuant to Division 5 (commencing with Section 5000) of the Welfare and Institutions Code.

No such programs shall be established without the prior approval of the state department. The state department may approve such programs on an inpatient or outpatient basis, or both.

11878. The state department shall not approve the establishment of a methadone program without a written application by the treatment facility which meets evaluative criteria required by the state department.

The state department shall not require disclosure of the identity of patients or former patients or of any records containing identifying information except as provided in Section 4353.5. Other information and records shall be subject to the confidentiality and disclosure provisions contained in Article 7 (commencing with Section 5325), Chapter 2, Part 1, Division 5 of the Welfare and Institutions Code.

11879. The identity of patients or former patients may be disclosed only as follows:

(a) The consent of the patient, or his guardian or conservator shall be obtained before his identity in information or records may be disclosed by any person employed by a treatment program to any person not employed by the treatment program.

(b) In communications between qualified professional persons employed by the treatment program in the provision of services.

(c) To qualified medical persons not employed by the treatment program when the patient is involved in a medical emergency.

(d) With patient approval, to the extent necessary for a recipient to make a claim, or for a claim to be made on behalf of a recipient for public welfare, aid, insurance, or medical assistance to which he may be entitled.

(e) If the recipient of services is a minor, ward, or conservatee, and his parent, guardian, or conservator designates, in writing, persons to whom his identity in records or information may be disclosed, except that nothing in this section shall be construed to compel a physician, psychologist, social worker, nurse, attorney, or other professional person to reveal information which has been given to him in confidence by members of a patient's family.

(f) As ordered by a court, upon a showing of good cause.

(g) To governmental law enforcement agencies as needed for the protection of federal and state elective constitutional officers and their families, provided that specific threats have been made against such persons.

11880. It is the intent of the Legislature in authorizing methadone programs to provide a means whereby the patient may be rehabilitated and will no longer be forced to resort to illegal activities in order to support a dependency on heroin. It is, therefore, the intent of the Legislature that each methadone program shall have a strong rehabilitative element, including, but not limited to, individual and group therapy, counseling, vocational guidance, and job and education counseling. The Legislature declares the ultimate goal of all methadone programs shall be to aid the patient in altering his life style and eventually to eliminate all dependency on drugs.

The state department shall promulgate such regulations as are necessary to insure that every program is making a sustained effort to end the drug dependency of the patients on its program.

11881. The state department shall establish criteria for acceptable performance from those laboratories performing urinalysis or other body fluid analysis and shall not permit utilization

of laboratories unable to meet an acceptable level of performance. The results of any performance evaluation of any laboratory shall immediately be made available to the local programs upon request. Nothing in this section shall prohibit body fluid analysis to be performed by the methadone program upon approval of the state department.

11882. The state department shall establish a statewide identification card to be issued to methadone patients. The state department shall also institute or provide for a system to prevent multiple program registration by methadone patients. The system shall utilize data which protects the personal identity of the patient. The state department may participate in such a system developed and operated at the federal level, if there is one, if in the discretion of the state department it satisfactorily prevents multiple program participation and is budgetarily feasible. The information obtained in the course of instituting the system shall be subject to the confidentiality and disclosure provisions contained in Article 7 (commencing with Section 5325), Chapter 2, Part 1, Division 5 of the Welfare and Institutions Code.

Article 4. Methadone Program Body Fluids Testing

11885. The state department shall adopt and publish such rules and regulations to be used in approving and governing the operation of laboratories engaging in the performance of tests referred to in Section 11886, including, but not limited to the qualifications of the employees of such laboratories who perform such tests, as it determines are reasonably necessary to insure the competence of such laboratories and employees to prepare, analyze, and report the results of such tests.

11886. The testing of urine or other body fluid analysis for the methadone programs operating in the state shall be performed only by a laboratory approved and licensed by the state department for the performance of such tests.

11887. Each laboratory in this state which performs the test referred to in Section 11886 shall be licensed by the director. Each such laboratory, other than a laboratory operated by the state, county, city, or city and county, other public agency, or a clinical laboratory licensed pursuant to subdivision (f) of Section 1300 of the Business and Professions Code, shall, upon application for licensing, pay a fee to the state department in an amount to be determined by the department, which will reimburse the state department for the costs incurred by the state department in the issuance and renewal of such licenses, but not to exceed one hundred dollars ($100). On or before July 1 of each year thereafter, each such laboratory shall pay to the state department a fee so determined by the state department, not to exceed one hundred dollars ($100), for the renewal of its license.

11888. The state department shall enforce the provisions of this

article and such rules and regulations as are adopted by the state department.

11889. The state department shall annually publish a list of approved and licensed laboratories engaging in the performance of tests referred to in Section 11886.

11890. Every laboratory which has been approved and for which a license has been issued shall be periodically inspected by a duly authorized representative of the state department. Reports of each such inspection shall be prepared by the representative conducting it upon forms prepared and furnished by the department and shall be filed with the state department.

11891. Any license issued pursuant to Section 11887 may be suspended or revoked by the director for any of the reasons set forth in Section 11992. The director may refuse to issue a license to any applicant for any of the reasons set forth in Section 11992. Any proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500), Part 1, Division 3, Title 2 of the Government Code, and the director shall have the powers and duties granted therein.

11892. The director may deny a license if any of the following apply to the applicant, or any partner, officer, or director thereof:

(a) Such person fails to meet the qualifications established by the state department pursuant to this chapter for the issuance of the license applied for.

(b) Such person was previously the holder of a license issued under this chapter, which license has been revoked and never reissued or which license was suspended and the terms of the suspension have not been fulfilled.

(c) Such person has committed any act involving dishonesty, fraud, or deceit, whereby another was injured or whereby applicant has benefited.

11893. The director may suspend, revoke, or take other disciplinary action against a licensee as provided in this chapter, if the licensee or any partner, officer, or director thereof does any of the following:

(a) Violates any of the regulations promulgated by the state department pursuant to this article.

(b) Commits any act of dishonesty, fraud or deceit, whereby another is injured or whereby the licensee benefited.

(c) Misrepresents any material fact in obtaining a license.

11894. The director may take disciplinary action against any licensee after a hearing as provided in this article by any of the following:

(a) Imposing probation upon terms and conditions to be set forth by the director.

(b) Suspending the license.

(c) Revoking the license.

11895. All accusations against licensees shall be filed within three years after the act or omission alleged as the ground for disciplinary

action, except that with respect to an accusation alleging a violation of subdivision (c) of Section 11993, the accusation shall be filed within two years after the discovery by the department of the alleged facts constituting the fraud or misrepresentation prohibited by such section.

11896. After suspension of the license upon any of the grounds set forth in this article, the license shall not be reinstated or reissued within a period of one year after the effective date of revocation. After one year after the effective date of the revocation the state department may reinstate the license upon proof of compliance by the applicant with all provisions of the decision as to reinstatement.

CHAPTER 2. COMMUNITY DRUG ABUSE CONTROL

11960. The Legislature recognized that drug abuse should be viewed and treated as a health problem, as well as a law enforcement problem. The drug abuse problem has a significant public impact and must, in addition to law enforcement, be given community, educational, social, and health attention if prevention and amelioration is to be achieved. These approaches should be coordinated into a multiagency and multifaceted program for drug abuse control in the counties of the state.

11961. As used in this chapter:

(a) "Coordinator" means the county drug program coordinator designated pursuant to Section 11962.

(b) "Advisory committee" means the county advisory committee established pursuant to Section 5606.5 of the Welfare and Institutions Code.

11962. The local mental health director shall serve as county drug program coordinator unless the board of supervisors determines otherwise. In such instance, the board of supervisors may designate either the chief administrative officer of the county or the head of the county agency responsible for the overall health services for the county as county drug program coordinator.

11963. The county drug program coordinator shall have the following powers and duties:

(d) He shall submit an annual report to the board of supervisors reporting all activities of the drug program, including a financial accounting of expenditures and a forecast of anticipated needs for the ensuing year.

(f) He shall be responsible for the ongoing coordination of all public and private drug abuse programs and services in the county.

(g) He shall administer all drug program funds allocated to the county under this chapter. No drug program funds allocated to the counties under this chapter shall be expended without the prior approval of the coordinator.

(h) He shall be responsible to the board of supervisors, through administrative channels designated by the board of supervisors, for the drug program of the county.

CHAPTER 3. REGISTRATION OF NARCOTICS AND DRUG ABUSE PROGRAMS

11970. As used in this chapter, "coordinator" means the county drug program coordinator designated pursuant to Section 11962.

11971. As used in this chapter, "narcotic and drug abuse program" means any program which provides any service of care, treatment, rehabilitation, counseling, vocational training, self-improvement classes or courses, methadone maintenance treatment, methadone detoxification treatment, or other medication services for detoxification and treatment, and any other services which are provided either public or private, whether free of charge or for compensation, which are intended in any way to alleviate the problems of narcotic addiction or habituation or drug abuse addiction or habituation or any problems in whole or in part related to the problem of narcotics addiction or drug abuse, or any combination of such problems.

11971. A narcotic and drug abuse program includes, but is not limited to:

(a) Halfway houses, which are those places which provide a residential setting and which provide such services as detoxification, counseling, care, treatment, and rehabilitation in a live-in facility.

(b) Drop-in centers, which are any places which are established for the purpose of providing counseling, advice, or a social setting for one or more persons who are attempting to understand, alleviate or cope with their problems of narcotics addiction or drug abuse.

(e) Detoxification centers, which are those places established for

the purpose of detoxification from narcotics or dangerous drugs, regardless of whether or not narcotics, restricted dangerous drugs, or other medications are administered in said detoxification and regardless of whether detoxification takes place in a live-in facility or on an outpatient basis.

(f) Methadone programs, which are any programs, whether inpatient or outpatient, which offer methadone maintenance, detoxification or other services in conjunction with such methadone maintenance or detoxification, and those programs which provide supportive services to such methadone maintenance or detoxification programs.

The names and addresses of the persons or agencies reponsible for the direction and operation of the narcotic and drug abuse program.

11975. Registration under this part does not constitute the approval or endorsement of the narcotic or drug abuse program by any state or county officer, employee or agency.

11976. For the purpose of this chapter, registration shall not be required for those programs that provide drug abuse education in public or private schools as a matter of and in conjunction with a general education of students. This chapter does not require registration of law enforcement agencies which provide drug abuse education in the course of their normal performance of duties. Nothing in this chapter shall prohibit registration of such programs of education or law enforcement if such law enforcement and

education agencies so desire.

CHAPTER 4. NARCOTICS AND DRUG ABUSE PROGRAMS

11980. The Legislature hereby finds and declares that it is essential to the health and welfare of the people of this state that action be taken by state government to effectively and economically utilize federal and state funds for narcotic and drug abuse prevention, care, treatment and rehabilitation services. To achieve this, it is necessary that:

The State Department of Health Services shall not issue any certificate of approval provided for in this chapter unless and until the applicant therefor shall have established to the satisfaction of said department that the hospitals wherein subscribers to hospital service plans concerned are to be hospitalized possess adequate physical facilities, mechanical equipment, and personnel for the study, diagnosis, treatment and care of patients.

SEC. 361. Section 1370.1 of the Penal Code is amended to read:

1370.1. Notwithstanding the provisions of Section 1370, if the court has reason to believe that the defendant's inability to understand the nature and purpose of the criminal proceedings taken against him so as to be able to conduct, or assist in, his own defense in a rational manner is a result of a developmental disability, the trial or judgment shall be suspended, and the court shall order the regional center for the developmentally disabled, which serves the counties in which (1) the individual resides or resided prior to apprehension, (2) persons found by the regional center to be responsible for or concerned with the welfare of the developmentally disabled person reside, or (3) the court is located, and which is established under the Lanterman Developmental Disabilities Services Act, Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code, to examine the defendant and within 90 days report to the court the results of the examination and its recommendation for the care and treatment of the defendant. As used in this section, "developmental disability" means a disability which continues, or can be expected to continue, indefinitely and constitutes a substantial handicap for such individual. As defined by the Director of Developmental Services, this term shall include mental retardation, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature. The court may make such orders as may be necessary to provide for the examination of such person by the regional center and for the safekeeping, necessary medical treatment, care or restraint of the defendant pending further orders of the court following receipt of the regional center's report, in the county hospital, his own home, in

a state hospital, or in such other place, excluding a jail, as will afford access to personnel of the regional center for the purpose of examination and suitable provisions for the safety, treatment, care, and restraint of the defendant. If the regional center reports that the defendant is not developmentally disabled, the court shall make the appropriate order under Section 1370. If the regional center reports that the defendant is developmentally disabled and is a danger to himself or others and therefore subject to commitment to a state hospital pursuant to Article 5 (commencing with Section 6500), Chapter 2, Part 2, Division 6, of the Welfare and Institutions Code, the regional center shall recommend the initiation of proceedings to commit the defendant to a state hospital pursuant to Article 5. If the regional center reports that the defendant is developmentally disabled but is not subject to commitment to a state hospital pursuant to Article 5, the regional center shall make such recommendations as it deems best for the care and treatment of the defendant. Upon receiving the report and recommendations of the regional center, the court shall order that commitment proceedings pursuant to Article 5 be instituted if such defendant is subject to commitment thereunder, or, if not so subject to commitment, it shall order the defendant placed in a home or facility, or state hospital recommended by the regional center for care and treatment or in some other home, facility, or state hospital approved by the regional center for the care and treatment of the defendant. The regional center shall reexamine each defendant placed in a home or facility or state hospital, or committed to a state hospital, at least once each year to make a report to the court as to its recommendations for the coming year. The regional center shall have the responsibility of reporting to the court the results of its reexamination, including the client's progress for the past year, and its recommendation for the care and treatment of the defendant for the coming year, the facility best able to provide care and treatment for the coming year, and the estimated period of time required for care and treatment. The regional center shall evaluate the defendant's behavior and his progress in the treatment of those behaviors related to the criminal offense or offenses for which criminal proceedings have been currently suspended, to determine if those behaviors have been sufficiently modified to warrant a recommendation that criminal charges be dismissed. If the regional center evaluation indicates that the individual presents the dual disability of mental retardation and mental disorder, and the presenting diagnosis is mental disorder, the regional center shall so indicate to the court, with a recommendation for commitment for the care and treatment of the mental disorder in a state hospital, or any other appropriate public or private mental health treatment facility approved by the regional center until such time as the mental disorder is in remission and the individual can be suitably placed in a treatment program for mentally retarded persons.

After the initial recommendation by the regional center is

received by the court, the court may dismiss the charges or continue suspension of the charges. The regional center shall closely monitor the defendant and the program and closely monitor the defendant's progress. Should the recommended program be inappropriate to the specific needs of the defendant, or should his behaviors require a more restrictive program, the court shall be apprised of such requirements and subsequent recommendation for change of program plan for the defendant. If the regional center ascertains that the condition of the defendant has changed to the extent that the defendant is able to understand the nature and purpose of the criminal proceedings taken against him so as to be able to conduct, or assist in, his own defense in a rational manner, it shall certify the finding to the court wherein the defendant's case is pending, the district attorney and the defense attorney of record. Proceedings may be resumed, or the charges may be dismissed. In no event shall proceedings under this section exceed the maximum sentence prescribed by law for the offense charged, or three years, whichever is less. After such period of time, the criminal case shall be dismissed.

Any time spent in proceedings or programs under this section, whether in a facility or outside a facility, shall be credited against any sentence to which the defendant may be subject. If, at any time prior to the maximum period of time allowed for proceedings under this section, the regional center concludes that the behaviors of the defendant related to the defendant's criminal offense have been sufficiently modified during time spent in court-ordered programs, the court may, upon recommendation of the regional center, dismiss the criminal charges. In the event of dismissal of the criminal charges, the person shall be rereferred to the appropriate regional center for services under the Lanterman Developmental Disabilities Services Act, Division 4.5 (commencing with Section 4500) of the Welfare and Institutions Code.

SEC. 373. Section 17226 of the Revenue and Taxation Code is amended to read:

17226. (a) Every taxpayer at his election, shall be entitled to a deduction with respect to the amortization of the amortizable basis

of any certified pollution control facility (as defined in subdivision (d)), based on a period of 60 months. Such amortization deduction shall be an amount with respect to each month of such period within the taxable year, equal to the amortizable basis of the pollution control facility at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility for such month provided by Section 17208. The 60-month period shall begin, as to any pollution control facility, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding taxable year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the facility is completed or acquired, or with the taxable year succeeding the taxable year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may, at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 17208 shall be allowed, beginning with the first month as to which the amortization deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term "certified pollution control facility" means a new identifiable treatment facility which is used, in connection with a plant or other property in operation before January 1, 1971, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, or storing of pollutants, contaminants, wastes, or heat and which the State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination.

(2) For purposes of paragraph (1), the term "new identifiable treatment facility" includes only tangible property (not including a building and its structural components, other than a building which

is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 17208, which is identifiable as a treatment facility, and which—

(A) Is property—

(i) The construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1970, or

(ii) Acquired after December 31, 1970, if the original use of the property commences with the taxpayer and commences after such date, and

(B) Is placed in service by the taxpayer before January 1, 1976. In applying this section in the case of property described in clause (i) of subparagraph (A), there shall be taken into account only that portion of the basis which is properly attributable to construction, reconstruction, or erection after December 31, 1970.

(e) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of a certified pollution control facility which may be amortized under this section.

(2) (A) If a certified pollution control facility has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility.

(B) The amortizable basis of a certified pollution control facility with respect to which an election under this section is in effect shall not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 17208 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

(i) For special rule with respect to certain gain derived from the disposition of property the adjusted basis of which is determined with regard to this section, see Section 18211.

19502.5. (a) A claimant shall not lose his residence for purposes of this part if he or she is temporarily confined to a hospital or medical institution for medical reasons where the homestead was the principal place of residence of the claimant immediately prior to such confinement.

(b) For purposes of this section, "medical institution" means a facility operated by, or licensed by, the United States, one of the several states, a political subdivision of a state, the State Department of Health Services, or exempt from such licensure pursuant to subdivision (a) of Section 1270 of the Health and Safety Code.

24372. (a) Every taxpayer at its election, shall be entitled to a deduction with respect to the amortization of the amortizable basis of any certified pollution control facility (as defined in subdivision (d)), based on a period of 60 months. Such amortization deduction shall be an amount, with respect to each month of such period within the income year, equal to the amortizable basis of the pollution control facility at the end of such month divided by the number of months (including the month for which the deduction is computed) remaining in the period. Such amortizable basis at the end of the month shall be computed without regard to the amortization deduction for such month. The amortization deduction provided by this section with respect to any month shall be in lieu of the depreciation deduction with respect to such pollution control facility for such month provided by Section 24349. The 60-month period shall begin, as to any pollution control facility, at the election of the taxpayer, with the month following the month in which such facility was completed or acquired, or with the succeeding income year.

(b) The election of the taxpayer to take the amortization deduction and to begin the 60-month period with the month following the month in which the facility is completed or acquired, or with the income year succeeding the income year in which such facility is completed or acquired, shall be made by filing with the Franchise Tax Board in such manner, in such form, and within such time, as the Franchise Tax Board may by regulations prescribe, a statement of such election.

(c) A taxpayer which has elected under subdivision (b) to take the amortization deduction provided in subdivision (a) may at any time after making such election, discontinue the amortization deduction with respect to the remainder of the amortization period, such discontinuance to begin as of the beginning of any month specified by the taxpayer in a notice in writing filed with the Franchise Tax Board before the beginning of such month. The depreciation deduction provided under Section 24349 shall be allowed, beginning with the first month as to which the amortization

deduction does not apply, and the taxpayer shall not be entitled to any further amortization deduction under this section with respect to such pollution control facility.

(d) For purposes of this section—

(1) The term "certified pollution control facility" means a new identifiable treatment facility which is used, in connection with a plant or other property in operation before January 1, 1971, to abate or control water or atmospheric pollution or contamination by removing, altering, disposing, or storing of pollutants, contaminants, wastes, or heat and which the State Department of Health Services has certified as having been constructed, reconstructed, erected, or acquired in conformity with the state program or requirements for abatement or control of water or atmospheric pollution or contamination.

(2) For purposes of paragraph (1), the term "new identifiable treatment facility" includes only tangible property (not including a building and its structural components, other than a building which is exclusively a treatment facility) which is of a character subject to the allowance for depreciation provided in Section 24349 which is identifiable as a treatment facility and which—

(A) Is property—

(i) The construction, reconstruction, or erection of which is completed by the taxpayer after December 31, 1970, or

(ii) Acquired after December 31, 1970, if the original use of the property commences with the taxpayer and commences after such date, and

(B) Is placed in service by the taxpayer before January 1, 1976. In applying this section in the case of property described in clause (i) of subparagraph (A), there shall be taken into account only that portion of the basis which is properly attributable to construction, reconstruction, or erection after December 31, 1970.

(e) The State Department of Health Services shall not certify any property to the extent it appears that by reason of profits derived through the recovery of wastes or otherwise in the operation of such property, its costs will be recovered over its actual useful life.

(f) (1) For purposes of this section, the term "amortizable basis" means that portion of the adjusted basis (for determining gain) of a certified pollution control facility which may be amortized under this section.

(2) (A) If a certified pollution control facility has a useful life (determined as of the first day of the first month for which a deduction is allowable under this section) in excess of 15 years, the amortizable basis of such facility shall be equal to an amount which bears the same ratio to the portion of the adjusted basis of such facility, which would be eligible for amortization but for the application of this subparagraph, as 15 bears to the number of years of useful life of such facility.

(B) The amortizable basis of a certified pollution control facility with respect to which an election under this section is in effect shall

not be increased, for purposes of this section, for additions or improvements after the amortization period has begun.

(g) The depreciation deduction provided by Section 24349 shall, despite the provisions of subdivision (a), be allowed with respect to the portion of the adjusted basis which is not the amortizable basis.

(h) In the case of property held by one person for life with remainder to another person, the deduction under this section shall be computed as if the life tenant were the absolute owner of the property and shall be allowable to the life tenant.

The Director of Mental Health may rent such space to private individuals, for the maintenance of a store or canteen at any of the said institutions upon such terms and subject to such regulations as are approved by the Department of General Services, in accordance with the provisions of Section 13109 of the Government Code. The terms imposed shall provide that the rental, utility and service charges to be paid shall be fixed so as to reimburse the institution for the cost thereof and any additional charges required to be paid shall be deposited in the benefit fund of such institution as set forth in Section 4125.

4418. The State Department of Developmental Services may obtain psychiatric, medical and other necessary aftercare services for judicially committed patients on leave of absence from state hospitals by contracting with any city, county, local health district, or other public officer or agency, or with any private person or agency to furnish such services to patients in or near the home community of the patient. Any city, county, local health district, or other public officer or agency authorized by law to provide mental health and aftercare services is authorized to enter such contracts.

4419. Within the limits of available funds it is the intent of the Legislature that the department shall require all personnel working directly with patients to complete, within a reasonable time after the effective date of this section or after their appointments, whichever is later, or have completed, training with regard to the care and treatment of such patients.

4421. In order to assure an adequate number of qualified psychiatrists and psychologists with forensic skills, the State Department of Developmental Services shall plan with the University of California, private universities, and the California Postsecondary Education Commission, for the development of programs for the training of psychiatrists and psychologists with forensic skills.

4422. The department shall examine all public and private hospitals, boarding homes or other establishments whether or not licensed by the department, receiving or caring for developmentally disabled persons and shall inquire into their methods of government, and the treatment of all patients thereof.

It shall examine the condition of all buildings, grounds, or other property connected with such institutions, and shall inquire into all matters relating to their management. For the purposes specified in this paragraph the department shall have free access to the grounds, buildings, and books and papers of any such institution, and every person connected therewith shall give such information and afford such facilities for examination or inquiry as the department requires.

4423. In every place in which a developmentally disabled person may be involuntarily held, the persons confined therein shall be permitted access to and examination or inspection of copies of this code.

4424. The department shall adopt, for all hospitals, rules and regulations, books of record for all departments, blank forms for clinical records and other purposes, questions for examination of employees, and questions for examination, in all the different branches of medicine and surgery and especially in the subject of diseases affecting the brain and nervous system, of all officers and interns, for the special use of the hospital.

If he was brought from another institution, the record shall show also the name of that institution, by whom he was brought therefrom and his condition.

(d) If discharged, the date of discharge, to whose care he was committed, and whether recovered, improved, unimproved, or not

in need of commitment.

(e) If transferred, for what cause the transfer was made, and to what institution.

(f) If dead, the date and cause of death.

4427. When the department has reason to believe that any person held in custody as developmentally disabled is wrongfully deprived of his liberty, or is cruelly or negligently treated, or that inadequate provision is made for the skillful medical care, proper supervision, and safekeeping of any such person, it may ascertain the facts. It may issue compulsory process for the attendance of witnesses and the production of papers, and may exercise the powers conferred upon a referee in a superior court. It may make such orders for the care and treatment of such person as it deems proper.

Whenever the department undertakes an investigation into the general management and administration of any establishment or place of detention for the developmentally disabled, it may give notice of such investigation to the Attorney General, who shall appear personally or by deputy, to examine witnesses in attendance and to assist the department in the exercise of the powers conferred upon it in this code.

The department may at any time cause the patients of any county or city almshouse to be visited and examined, in order to ascertain if developmentally disabled persons are kept therein.

4428. When complaint is made to the department regarding the officers or management of any hospital or institution for the developmentally disabled, or regarding the management of any person detained therein or regarding any person held in custody, the department may, before making an examination regarding such complaint, require it to be made in writing and sworn to before an officer authorized to administer oaths. On receipt of such a complaint, sworn to if so required, the department shall direct that a copy of the complaint be served on the authorities of the hospital or institution or the person against whom complaint is made, together with notice of the time and place of the investigation, as the department directs.

4430. The department shall report to the Legislature the prospective needs for the care, custody, and treatment of developmentally disabled persons, together with its recommendations therefor. For the purpose of preventing overcrowding, it shall recommend such plans for the development of additional medical facilities as, in its judgment, will best meet the requirements of such persons.

4431. Charges made by the department for the care and treatment of each patient in a facility maintained by the department shall not exceed the actual cost thereof as determined by the director in accordance with standard accounting practices. The director is not prohibited from including the amount of expenditures for capital outlay or the interest thereon, or both, in his determination of actual cost.

As used in this section, the terms "care" and "care and treatment" include care, treatment, support, maintenance, and other services rendered by the department to a patient in the state hospital or other facility maintained by or under the jurisdiction of the department.

PART 2. ADMINISTRATION OF STATE INSTITUTIONS FOR THE DEVELOPMENTALLY DISABLED

CHAPTER 1. JURISDICTION AND GENERAL GOVERNMENT

4440. The department has jurisdiction over the following institutions:

Agnews State Hospital.
Camarillo State Hospital.
Fairview State Hospital.
Napa State Hospital
Pacific State Hospital
Patton State Hospital
Porterville State Hospital.
Sonoma State Hospital.
Stockton State Hospital.

4441. Except as otherwise specifically provided elsewhere in this code, all of the institutions under the jurisdiction of the State Department of Developmental Services shall be governed by uniform rule and regulation of the State Department of Developmental Services and all of the provisions of this chapter shall apply to the conduct and management of such institutions.

4442. Each state hospital is a corporation.

4443. Each such corporation may acquire and hold in its corporate name by gift, grant, devise, or bequest property to be applied to the maintenance of the patients of the hospital and for the general use of the corporation.

4444. All lands necessary for the use of state hospitals except those acquired by gift, devise, or purchase, shall be acquired by condemnation as lands for other public uses are acquired.

The terms of every purchase shall be approved by the State Department of Developmental Services. No public street or road for railway or other purposes, except for hospital use, shall be opened through the lands of any state hospital, unless the Legislature by special enactment consents thereto.

4449. The State Department of Developmental Services has general control and direction of the property and concerns of each

state hospital. The department shall:

(a) Take care of the interests of the hospital, and see that its purpose and its bylaws, rules, and regulations are carried into effect, according to law.

(b) Establish such bylaws, rules, and regulations as it deems necessary and expedient for regulating the duties of officers and employees of the hospital, and for its internal government, discipline, and management.

(c) Maintain an effective inspection of the hospital.

4450. The medical superintendent shall make triplicate estimates, in minute detail, as approved by the State Department of Developmental Services of such supplies, expenses, buildings, and improvements as are required for the best interests of the hospital, and for the improvement thereof and of the grounds and buildings connected therewith. These estimates shall be submitted to the State Department of Developmental Services which may revise them. The department shall certify that it has carefully examined the estimates, and that the supplies, expenses, buildings, and improvements contained in such estimates, as approved by it, are required for the best interests of the hospital. The department shall thereupon proceed to purchase such supplies, make such expenditures, or conduct such improvements or buildings in accordance with law.

4451. The state hospitals may manufacture supplies and materials necessary or required to be used in any of the state hospitals which can be economically manufactured therein. The necessary cost and expense of providing for and conducting the manufacture of such supplies and materials shall be paid in the same manner as other expenses of the hospitals. No hospital shall enter into or engage in manufacturing any supplies or materials unless permission for the same is obtained from the State Department of Developmental Services. If, at any time, it appears to the department that the manufacture of any article is not being or cannot be economically carried on at a state hospital, the department may suspend or stop the manufacture of such article, and on receipt of a certified copy of the order directing the suspension or stopping of such manufacture, by the medical superintendent, the hospital shall cease from manufacturing such article.

4452. All money belonging to the state and received by state hospitals from any source, except appropriations, shall, at the end of each month, be deposited in the State Treasury, to the credit of the General Fund. This section shall not apply to the funds known as the industrial or amusement funds or the "sheltered workshop funds."

4453. The state hospitals and the officers thereof shall make such financial statements to the Controller as the Controller requires.

4454. The authorities for the several hospitals shall furnish to the State Department of Developmental Services the facts mentioned in Section 4425 and such other obtainable facts as the department from time to time requires of them, with the opinion of the superintendent thereon, if requested. The superintendent or other

person in charge of a hospital shall, within 10 days after the admission of any person thereto, cause an abstract of the medical certificate and order on which such person was received and a list of all property, books, and papers of value found in the possession of or belonging to such person to be forwarded to the office of the department, and when a patient is discharged, transferred, or dies, the superintendent or person in charge shall within three days thereafter, send the information to the office of the department, in accordance with the form prescribed by it.

4455. The department may permit, subject to such conditions and regulations as it may impose, any religious or missionary corporation or society to erect a building on the grounds of any state hospital for the holding of religious services. Each such building when erected shall become the property of the state and shall be used exclusively for the benefit of the patients and employees of the state hospital.

4456. The department may establish and supervise under its rules and regulations training schools or coursed for employees of the department or of state institutions under its jurisdiction.

4457. Whenever a trial is had of any person charged with escape or attempt to escape from a state hospital under the provisions of Section 6330, whenever a hearing is had on the return of a writ of habeas corpus prosecuted by or on behalf of any person confined in a state hospital except in a proceeding to which Section 5110 applies, whenever a hearing is had on a petition under Section 1026a of the Penal Code or Section 7361 of this code for the release of a person confined in a state hospital, and whenever a person confined in a state hospital is tried for any crime committed therein, the county clerk of the county in which such trial or hearing is had must make out a statement of all costs incurred by the county for investigation and other preparation for the trial or hearing, and the actual trial or hearing, all costs of maintaining custody of the patient and transporting him to and from the hospital, and costs of appeal, which statement shall be properly certified by a judge of the superior court of such county and sent to the State Department of Developmental Services for its approval. After such approval, the department shall cause the amount of such costs to be paid out of the money appropriated for the support of the state hospital, to the county treasurer of the county where such trial or hearing was had.

4458. The State Department of Developmental Services shall cooperate with the United States Bureau of Immigration in arranging for the deportation of all aliens who are confined in, admitted, or committed to any state hospital.

4459. The State Department of Developmental Services shall investigate and examine all nonresident persons judicially committed to any state hospital and shall cause such persons, when found to be nonresidents as defined in this chapter, to be promptly and humanely returned under proper supervision to the state in which they have legal residence. The department may defer such

action by reason of a patient's medical condition.

For the purpose of facilitating the prompt and humane return of such persons the State Department of Developmental Services may enter into reciprocal agreements with the proper boards, commissions, or officers of other states or political subdivision thereof for the mutual exchange or return of such person judicially committed to any state hospital in one state whose legal residence is in the other, and it may in such reciprocal agreements vary the period of residence as defined in this chapter to meet the requirements or laws of the other states.

The department may give written permission for the return of any resident of this state confined in a public institution in another state, corresponding to any state home for the developmentally disabled of this state. When a resident is returned to this state pursuant to this chapter, he may be admitted as a voluntary patient to any institution of the department as designated by the Director of Developmental Services.

4460. In determining residence for purposes of being entitled to hospitalization in this state and for purposes of returning patients to the states of their residence, an adult person who is a resident of this state and who has not acquired residence in another state by living continuously therein for at least one year subsequent to his residence in this state shall be deemed to be a resident of this state. A minor is entitled to hospitalization in this state if the parent or guardian having custody of the minor is a resident of this state and has not acquired residence in another state by living continuously therein for at least one year subsequent to his residence in this state. Such parent or guardian shall be deemed a resident of this state for the purpose of this section, and such minor shall be eligible for hospitalization in this state as a developmentally disabled person. The eligibility of such minor for hospitalization in this state ceases when such parent or guardian ceases to be a resident of this state and such minor shall be transferred to the state of residence of the parent or guardian in accordance with the applicable provisions of this code. Time spent in a public institution for the care of the developmentally disabled or on leave of absence therefrom shall not be counted in determining the matter of residence in this or another state.

Residence acquired in this or in another state shall not be lost by reason of military service in the armed forces of the United States.

4461. All expenses incurred in returning such persons to other states shall be paid by this state, the person or his relatives, but the expense of returning residents of this state shall be borne by the state making the returns.

The cost and expense incurred in effecting the transportation of such nonresident persons to the states in which they have residence shall be advanced from the funds appropriated for that purpose, or, if necessary, from the money appropriated for the care of delinquent, or mentally disordered, developmentally disabled, or incompetent persons upon vouchers approved by the State Board of Control.

4462. The State Department of Developmental Services, when it deems it necessary, may, under conditions prescribed by the director, transfer any patients of a state institution under its jurisdiction to another such institution. Transfers of patients of state hospitals shall be made in accordance with the provisions of Section 7300.

Transfer of a conservatee shall only be with the consent of the conservator.

The expense of any such transfer shall be paid from the moneys available by law for the support of the department or for the support of the institution from which the patient is transferred. Liability for the care, support, and maintenance of a patient so transferred in the institution to which he has been transferred shall be the same as if he had originally been committed to such institution.

4463. The Director of Developmental Services may authorize the transfer of persons from any institution within the department to any institution authorized by the federal government to receive such person.

4464. The State Department of Developmental Services shall send to the Department of Veterans Affairs whenever requested a list of all persons who have been patients for six months or more in each state institution within the jurisdiction of the State Department of Developmental Services and who are known to have served in the armed forces of the United States.

4465. The Director of Developmental Services may deposit any funds of patients in the possession of each hospital administrator of a state hospital in trust with the treasurer pursuant to Section 16305.3, Government Code, or, subject to the approval of the Department of Finance, may deposit such funds in interest-bearing bank accounts or invest and reinvest such funds in any of the securities which are described in Article 1 (commencing with Section 16430), Chapter 3, Part 2, Division 1, Title 2 of the Government Code and for the purposes of deposit or investment only may mingle the funds of any patient with the funds of other patients. The hospital administrator with the consent of the patient may deposit the interest or increment on the funds of a patient in the state hospital in a special fund for each state hospital, to be designated the "benefit fund," of which he shall be the trustee. He may, with the approval of the Director of Developmental Services, expend the moneys in any such fund for the education or entertainment of the patients of the institution.

On and after December 1, 1970, the funds of a patient in a state hospital or a patient on leave of absence from a state hospital shall not be deposited in interest-bearing bank accounts or invested and reinvested pursuant to this section except when authorized by the patient; any interest or increment accruing on the funds of a patient on leave of absence from a state hospital shall be deposited in his account; any interest or increment accruing on the funds of a patient in a state hospital shall be deposited in his account, unless such patient authorizes their deposit in the state hospital's "benefit fund."

Any state hospital charges for patient care against the funds of a patient in the possession of a hospital administrator or deposited pursuant to this section and which are used to pay for such care, shall be stated in an itemized bill to the patient.

4466. Whenever any patient in any state institution subject to the jurisdiction of the State Department of Developmental Services dies, and any personal funds or property of such patient remains in the hands of the superintendent thereof, and no demand is made upon such superintendent by the owner of the funds or property or his legally appointed representative all money and other personal property of such decedent remaining in the custody or possession of the superintendent thereof shall be held by him for a period of one year from the date of death of the decedent, for the benefit of the heirs, legatees, or successors in interest of such decedent.

Upon the expiration of such one-year period, any money remaining unclaimed in the custody or possession of the superintendent shall be delivered by him to the State Treasurer for deposit in the Unclaimed Property Fund under the provisions of Article 1 (commencing with Section 1440) of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

Upon the expiration of such one-year period, all personal property and documents of the decedent, other than cash, remaining unclaimed in the custody or possession of the superintendent, shall be disposed of as follows:

(a) All deeds, contracts or assignments shall be filed by the superintendent with the public administrator of the county of commitment of the decedent;

(b) All other personal property shall be sold by the superintendent at public auction, or upon a sealed-bid basis, and the proceeds of the sale delivered by him to the State Treasurer in the same manner as is herein provided with respect to unclaimed money of the decedent. If he deems it expedient to do so, the superintendent may accumulate the property of several decedents and sell the property in such lots as he may determine, provided that he makes a determination as to each decedent's share of the proceeds;

(c) If any personal property of the decedent is not salable at public auction, or upon a sealed-bid basis, or if it has no intrinsic value, or if its value is not sufficient to justify the deposit of such property in the State Treasury, the superintendent may order it destroyed;

(d) All other unclaimed personal property of the decedent not disposed of as provided in subdivision (a), (b), or (c) hereof, shall be delivered by the superintendent to the State Controller for deposit in the State Treasury under the provisions of Article 1 (commencing with Section 1440) of Chapter 6 of Title 10 of Part 3 of the Code of Civil Procedure.

4467. Whenever any patient in any state institution subject to the jurisdiction of the State Department of Developmental Services

escapes, or is discharged or is on leave of absence from such institution, and any personal funds or property of such patient remains in the hands of the superintendent thereof, and no demand is made upon said superintendent by the owner of the funds or property or his legally appointed representative, all money and other intangible personal property of such patient, other than deeds, contracts, or assignments, remaining in the custody or possession of the superintendent thereof shall be held by him for a period of seven years from the date of such escape, discharge, or leave of absence, for the benefit of such patient or his successors in interest; provided, however, that unclaimed personal funds or property of minors on leave of absence may be exempted from the provisions of this section during the period of their minority and for a period of one year thereafter, at the discretion of the Director of Developmental Services.

Upon the expiration of said seven-year period, any money and other intangible property, other than deeds, contracts, or assignments, remaining unclaimed in the custody or possession of the superintendent shall be subject to the provisions of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure.

Upon the expiration of one year from the date of such escape, discharge, or parole:

(a) All deeds, contracts or assignments shall be filed by the superintendent with the public administrator of the county of commitment of such patient;

(b) All tangible personal property other than money, remaining unclaimed in his custody or possession, shall be sold by the superintendent at public auction, or upon a sealed-bid basis, and the proceeds of the sale shall be held by him subject to the provisions of Section 4465 of this code, and subject to the provisions of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure. If he deems it expedient to do so, the superintendent may accumulate the property of several patients and may sell the property in such lots as he may determine, provided that he makes a determination as to each patient's share of the proceeds;

If any tangible personal property covered by this section is not salable at public auction or upon a sealed-bid basis, or if it has no intrinsic value, or if its value is not sufficient to justify its retention by the superintendent to be offered for sale at public auction or upon a sealed-bid basis at a later date, the superintendent may order it destroyed.

4468. Before any money or other personal property or documents are delivered to the State Treasurer, State Controller, or public administrator, or sold at auction or upon a sealed-bid basis, or destroyed, under the provisions of Section 4466, and before any personal property or documents are delivered to the public administrator, or sold at auction or upon a sealed-bid basis, or destroyed, under the provisions of Section 4467, notice of such

intended disposition shall be posted at least 30 days prior to the disposition, in a public place at the institution where the disposition is to be made, and a copy of such notice shall be mailed to the last known address of the owner or deceased owner, at least 30 days prior to such disposition. The notice prescribed by this section need not specifically describe each item of property to be disposed of.

4469. At the time of delivering any money or other personal property to the State Treasurer or State Controller under the provisions of Section 4126 or of Chapter 7 (commencing with Section 1500) of Title 10 of Part 3 of the Code of Civil Procedure, the superintendent shall deliver to the State Controller a schedule setting forth a statement and description of all money and other personal property delivered, and the name and last known address of the owner or deceased owner.

4470. When any personal property has been destroyed as provided in Section 4466 or 4467, no suit shall thereafter be maintained by any person against the state or any officer thereof for or on account of such property.

4471. All day hospitals and rehabilitation centers maintained by the State Department of Developmental Services shall be subject to the provisions of this code pertaining to the admission, transfer, and discharge of patients at the state hospitals, except that all admissions to such facilities shall be subject to the approval of the chief officer thereof. Charges for services rendered to patients at such facilities shall be determined pursuant to Section 4431. The liability for such charges shall be governed by the provisions of Article 4 (commencing with Section 6715) of Chapter 3 of Part 2 of Division 6 of this code and Chapter 4 (commencing with Section 7500) of Division 7 of this code.

4472. The state mental hospitals under the jurisdiction of the State Department of Developmental Services shall comply with the provisions contained in the California Food Sanitation Act, Article 1 (commencing with Section 28280) of Chapter 7 of Division 21 of the Health and Safety Code.

The state mental hospitals under the jurisdiction of the State Department of Developmental Services shall also comply with the provisions contained in the California Restaurant Act, Chapter 11 (commencing with Section 28520) of Division 21 of the Health and Safety Code.

Sanitation, health and hygiene standards which have been adopted by a city, county, or city and county which are more strict than those of the California Restaurant Act or the California Food Sanitation Act shall not be applicable to state mental hospitals which are under the jurisdiction of the State Department of Developmental Services.

CHAPTER 2. BOARDS OF TRUSTEES AND OTHER ADVISORY BOARDS

4475. Each state hospital under the jurisdiction of the State

Department of Developmental Services shall have a hospital advisory board of seven members appointed by the Governor from a list of nominations submitted to him by the boards of supervisors of counties within each hospital's designated service area. If a state hospital provides services for both the mentally disordered and the developmentally disabled, there shall be a separate advisory board for the program provided the mentally disordered and a separate board for the program provided the developmentally disabled. To the extent feasible, an advisory board serving a hospital for the developmentally disabled shall consist of two relatives of developmentally disabled persons who are patients in that hospital, three representatives of professional disciplines who are not employees of the state hospital system, but who are serving the developmentally disabled, and two representatives of the general public who have demonstrated an interest in services to the developmentally disabled.

Of the members first appointed after January 1, 1976, one shall be appointed for a term of two years, and one for three years. Thereafter, each appointment shall be for the term of three years, except that an appointment to fill a vacancy shall be for the unexpired term only. No person shall be appointed to serve more than a maximum of two terms as a member of the board.

Notwithstanding any provision of this section, members serving on the hospital advisory board on January 1, 1976, may continue to serve on the board until the expiration of their term. The Legislature intends that changes in the composition of the board required by legislation operative on such date shall apply only to subsequent vacancies on the board.

4476. No person shall be eligible for appointment to a hospital advisory board if he is a Member of the Legislature or an elective state officer, and if he becomes such after his appointment his office shall be vacated and a new appointment made. If any appointee fails to attend three consecutive regular meetings of the board, unless he is ill or absent from the state, his office becomes vacant, and the board, by resolution, shall so declare, and shall forthwith transmit a certified copy of such resolution to the Governor.

4477. The advisory boards of the several state hospitals are advisory to the State Department of Developmental Services and the Legislature with power of visitation and advice with respect to the conduct of the hospitals and coordination with community mental health programs or regional programs for the developmentally disabled. The members of the boards shall serve without compensation other than necessary expenses incurred in the performance of duty. They shall organize and elect a chairman. They shall meet at least once every three months and at such other times as they are called by the chairman, by the medical director, by the head of the department or a majority of the board. No expenses shall be allowed except in connection with meetings so held.

The advisory board or boards of each state hospital shall make a

written report on its activities, findings and recommendations for transmission through the State Department of Developmental Services to each regular session of the Legislature. The department shall transmit the reports along with their suggestions, comments and recommendations concerning the reports to the Legislature.

4478. (a) The chairman of a hospital advisory board advising a hospital for the developmentally disabled shall meet annually with the hospital director, the regional center directors, and the area board chairmen representing areas within the hospital's service area, as defined in Division 4.5 (commencing with Section 4500).

(b) The chairmen shall be allowed necessary expenses incurred in attending such meetings.

(c) It is the intent of the Legislature that the department assist the development of annual regional meetings required by this section.

CHAPTER 3. OFFICERS AND EMPLOYEES

4480. As used in this article, "officers" of a state hospital means:

(a) Clinical director.

(b) Hospital administrator.

(c) Hospital director.

4481. The Director of Developmental Services shall appoint and define the duties, subject to the laws governing civil service, of the clinical director and the hospital administrator for each state hospital. The director shall appoint either the clinical director or the hospital administrator to be the hospital director.

The director shall appoint a program director for each program at a state hospital. In each hospital for the developmentally disabled, where the clinical director is not a licensed physician, the director shall appoint a medical program director.

4482. The Director of the State Department of Developmental Services shall have the final authority for determining all other employee needs after consideration of program requests from the various hospitals.

4483. Salaries of resident and other officers and wages of employees shall be included in the budget estimates of, and paid in the same manner as other expenses of, the state hospitals.

4484. The primary purpose of a state hospital is the medical and nursing care of patients who are developmentally disabled. The efforts and direction of the officers and employees of each state hospital shall be directed to this end.

4485. Subject to the rules and regulations established by the department, and under the supervision of the hospital director when the hospital director is the hospital administrator, the clinical director of each state hospital shall be responsible for the planning, development, direction, management, supervision, and evaluation of all patient services, and of the supervision of research and clinical training. In each hospital for the developmentally disabled, where the clinical director is not a licensed physician, the medical program

director shall, under the general supervision of the clinical director, be responsible for the planning, development, and supervision of all medical services for patients in the hospital.

4486. Subject to the rules and regulations established by the department, under the supervision of the hospital director when the hospital director is the clinical director, the hospital administrator shall be responsible for the planning, development, direction, management and supervision of all administrative and supportive services in the hospital facility. Such services include, but are not limited to:

(a) All administrative functions such as personnel, accounting, budgeting, and patients' accounts.

(b) All life-support functions such as food services, facility maintenance and patient supplies.

(c) All other business and security functions.

It shall be the responsibility of the hospital administrator to provide support services, as specified in this section, within available resources, to all hospital treatment programs.

4487. The hospital director is the chief executive officer of the hospital and is responsible for all hospital operations. If the hospital director is the clinical director, then the hospital administrator is responsible to him; if the hospital director is the hospital administrator, then the clinical director is responsible to him.

4488. As often as a vacancy occurs in a hospital under the jurisdiction of the Director of Developmental Services, he shall appoint, as provided in Section 4481, a clinical director, a hospital administrator, a hospital director, a medical program director, and program directors.

A hospital administrator shall be a college graduate preferably with an advanced degree in hospital, business or public administration and shall have had experience in this area. He shall receive a salary which is competitive with other private and public mental hospital administrators.

A clinical director for a state hospital for the developmentally disabled shall be a person who is a physician, psychologist, registered nurse, clinical social worker, physical therapist or psychiatric technician, and licensed as such pursuant to the Business and Professions Code. The clinical director for any state hospital shall be well qualified by training or experience to have proven skills in mental hospital program administration.

The hospital director shall be either the hospital administrator or the clinical director. He shall be selected based on his overall knowledge of the hospital, its programs, and its relationship to its community, and on his demonstrated abilities to administer a large facility.

The standards for the professional qualifications of a program director shall be established by the Director of Developmental Services for each patient program. The director shall not adopt any regulations which prohibit a licensed psychiatrist, psychologist,

psychiatric technician, or clinical social worker from employment in a patient program in any professional, administrative, or technical position; provided, however, that the program director of a medical-surgical unit shall be a licensed physician.

If the program director is not a physician, a physician shall be available to assume responsibility for all those acts of diagnosis, treatment, or prescribing or ordering of drugs which may only be performed by a licensed physician.

A medical program director for a state hospital for the developmentally disabled shall be a physician who has passed, or shall pass, an examination for a license to practice medicine in California and who shall be a qualified specialist in a branch of medicine which includes diseases affecting the brain and nervous system, and the care, treatment, and habilitation of the developmentally disabled.

4489. The hospital director is responsible for the overall management of the hospital. In his absence one of the other hospital officers or in the absence of both officers a program director shall be designated to perform his duties and assume his responsibilities.

4490. At the request of one or more employees of any institution within the department, the department may, at its option, provide, within the grounds of the institution, meals and subsistence for employees who do not reside within the institution, or living facilities, meals and subsistence for employees who reside within the institution. The department may make a reasonable charge for all facilities taken by or furnished to employees, to be determined by the State Board of Control, and to be deducted from the salary of the employee. No employee shall be compelled to eat his meals at the institution, nor shall he be charged for meals or facilities not furnished to or taken by him. No employee shall be discriminated against in any manner whatsoever because he elects to eat his meals outside the institution grounds.

The provisions of this section apply only to those employees who are not officers and who receive gross salaries as specified by the salary scales of the State Personnel Board, and do not apply to those employees who are officers of an institution or who receive a cash salary plus maintenance for self and family as provided by the salary scales of the State Personnel Board.

4491. The hospital administrator shall be responsible for preserving the peace in the hospital buildings and grounds and may arrest or cause the arrest and appearance before the nearest magistrate for examination, of all persons who attempt to commit or have committed a public offense thereon.

4492. The hospital director may establish rules and regulations not inconsistent with law or departmental regulations, concerning the care and treatment of patients, research, clinical training, and for the government of the hospital buildings and grounds. Any person who knowingly or willfully violates such rules and regulations may, upon the order of either of the hospital officers, be ejected from the

buildings and premises of the hospital.

4493. The hospital administrator of each state hospital may designate, in writing, as a police officer, one or more of the bona fide employees of the hospital. The hospital administrator and each such police officer have the powers and authority conferred by law upon peace officers listed in Section 830.4 of the Penal Code. Such police officers shall receive no compensation as such and the additional duties arising therefrom shall become a part of the duties of their regular positions. When and as directed by the hospital administrator, such police officers shall enforce the rules and regulations of the hospital, preserve peace and order on the premises thereof, and protect and preserve the property of the state.

4494. The Director of Developmental Services may set aside and designate any space on the grounds of any of the institutions under the jurisdiction of the department that is not needed for other authorized purposes, to enable such institution to establish and maintain therein a store or canteen for the sale to or for the benefit of patients of the institution of candies, cigarettes, sundries and other articles. The stores shall be conducted subject to the rules and regulations of the department and the rental, utility and service charges shall be fixed as will reimburse the institutions for the cost thereof. The stores when conducted under the direction of a hospital administrator shall be operated on a nonprofit basis but any profits derived shall be deposited in the benefit fund of each such institution as set forth in Section 4465.

Before any store is authorized or established, the Director of Developmental Services shall first determine that such facilities are not being furnished adequately by private enterprise in the community where it is proposed to locate the store, and may hold public hearings or cause surveys to be made, to determine the same.

The Director of Developmental Services may rent such space to private individuals, for the maintenance of a store or canteen at any of the said institutions upon such terms and subject to such regulations as are approved by the Department of General Services, in accordance with the provisions of Section 13109 of the Government Code. The terms imposed shall provide that the rental, utility and service charges to be paid shall be fixed so as to reimburse the institution for the cost thereof and any additional charges required to be paid shall be deposited in the benefit fund of such institution as set forth in Section 4465.

4495. Wherever the term "superintendent", "medical superintendent", or "superintendent or medical director" appears, the term shall be deemed to mean clinical director, except in Sections 4450, 4466, 4467, 4469, 7281, and 7289, where the term shall be deemed to mean hospital administrator.

Wherever the term "medical director" appears, the term shall be deemed to mean clinical director.

4496. Subject to rules and regulations adopted by the department, the hospital director may establish a sheltered

workshop at a state hospital to provide patients with remunerative work performed in a setting which simulates that of industry and is performed in such a manner as to meet standards of industrial quality. The workshop shall be so operated as to provide the treatment staff with a realistic atmosphere for assessing patients' capabilities in work settings, and to provide opportunities to strengthen and expand patient interests and aptitudes.

4497. At each state hospital at which there is established a sheltered workshop, there shall be a sheltered workshop fund administered by the clinical director. The fund shall be used for the purchase of materials, for the purchase or rental of equipment needed in the manufacturing, fabricating, or assembly of products, for the payment of remuneration to patients engaged in work at the workshop, and for the payment of such other costs of the operation of the workshop as may be directed by the medical director. The clinical director may cause the raw materials, goods in process, finished products, and equipment necessary for the production thereof to be insured against any and all risks of loss, subject to the approval of the Department of General Services. The costs of such insurance shall be paid from the sheltered workshop fund.

All money received from the manufacture, fabrication, assembly, or distribution of products at any state hospital sheltered workshop shall be deposited and credited to the hospital's sheltered workshop fund.

4498. Each state hospital shall, prior to the discharge of any patient who was placed in the facility under a county Short-Doyle plan, prepare a written recommended aftercare plan which shall be transmitted to the local director of mental health services in the county of the patient's placement.

Notwithstanding any other provision of law, such aftercare plan shall specify the following:

(a) Diagnoses;
(b) Treatment initiated;
(c) Medications and their dosage schedules;
(d) Date of discharge;
(e) Location of community placement;
(f) Plan for continuing treatment; and
(g) List of referrals indicated, including, but not limited to:
(1) Public social services.
(2) Legal aid.
(3) Educational services.
(4) Vocational services.
(5) Medical treatment other than mental health services.

SEC. 550. Division 4.5 (commencing with Section 4500) is added to the Welfare and Institutions Code, to read:

DIVISION 4.5. SERVICES FOR THE DEVELOPMENTALLY DISABLED

CHAPTER 1. GENERAL PROVISIONS

4500. This division shall be known and may be cited as the Lanterman Developmental Disabilities Services Act.

4501. The State of California accepts a responsibility for its developmentally disabled citizens and an obligation to them which it must discharge. Affecting hundreds of thousands of children and adults directly, and having an important impact on the lives of their families, neighbors, and whole communities, developmental disabilities present social, medical, economic, and legal problems of extreme importance.

The complexities of providing services to developmentally disabled persons require the coordinated services of many state departments and community agencies to insure that no gaps occur in communication or provision of services.

Services should be planned and provided as a part of a continuum. A pattern of facilities and services should be established which is sufficiently complete to meet the needs of each person with developmental disabilities, regardless of age or degree of handicap, and at each stage of life. To the maximum extent feasible, services should be available throughout the state to prevent the dislocation of persons with developmental disabilities from their home communities.

Services should be available to enable persons with developmental disabilities to approximate the pattern of everyday living available to nondisabled people of the same age.

The Legislature finds that the mere existence or the delivery of services is, in itself, insufficient evidence of program effectiveness. It is the intent of the Legislature that agencies serving the developmentally disabled shall produce evidence that their services have resulted in more independent, productive, and normal lives for the persons served. The Legislature declares its intent to monitor program results through continued legislative oversight and review of request for appropriations to support developmental disabilities programs.

4502. Persons with developmental disabilities have the same legal rights and responsibilities guaranteed all other individuals by the Federal Constitution and laws and the Constitution and laws of the State of California. No otherwise qualified person by reason of having a developmental disability shall be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity, which receives public funds.

It is the intent of the Legislature that persons with developmental disabilities shall have rights including, but not limited to, the following:

(a) A right to treatment and habilitation services. Treatment and habilitation services should foster the developmental potential of the person. Such services shall protect the personal liberty of the individual and shall be provided with the least restrictive conditions necessary to achieve the purposes of treatment.

(b) A right to dignity, privacy, and humane care.

(c) A right to participate in an appropriate program of publicly supported education, regardless of degree of handicap.

(d) A right to prompt medical care and treatment.

(e) A right to religious freedom and practice.

(f) A right to social interaction and participation in community activities.

(g) A right to physical exercise and recreational opportunities.

(h) A right to be free from harm, including unnecessary physical restraint, or isolation, excessive medication, abuse, or neglect.

(i) A right to be free from hazardous procedures.

4503. Each developmentally disabled person who has been admitted or committed to a state hospital, community care facility as defined in Section 1504 of the Health and Safety Code, or a health facility as defined in Section 1250 of the Health and Safety Code shall have the following rights, a list of which shall be prominently posted in English and Spanish in all facilities providing such services and otherwise brought to his attention by such additional means as the Director of Developmental Services may designate by regulation:

(a) To wear his own clothes, to keep and use his own personal possessions including his toilet articles, and to keep and be allowed to spend a reasonable sum of his own money for canteen expenses and small purchases.

(b) To have access to individual storage space for his private use.

(c) To see visitors each day.

(d) To have reasonable access to telephones, both to make and receive confidential calls.

(e) To have ready access to letterwriting materials, including stamps, and to mail and receive unopened correspondence.

(f) To refuse electroconvulsive therapy.

(g) To refuse behavior modification techniques which cause pain or trauma.

(h) To refuse psychosurgery notwithstanding the provisions of Section 5325, 5326, and 5326.3. Psychosurgery means those operations currently referred to as lobotomy, psychiatric surgery, and behavioral surgery and all other forms of brain surgery if the surgery is performed for any of the following purposes:

(1) Modification or control of thoughts, feelings, actions, or behavior rather than the treatment of a known and diagnosed physical disease of the brain.

(2) Modification of normal brain function or normal brain tissue in order to control thoughts, feelings, action, or behavior.

(3) Treatment of abnormal brain function or abnormal brain tissue in order to modify thoughts, feelings, actions, or behavior

when the abnormality is not an established cause for those thoughts, feelings, action, or behavior.

(i) Other rights, as specified by regulation.

4504. The professional person in charge of the facility or his designee may, for good cause, deny a person any of the rights specified under subdivisions (a), (b), (c), (d), and (e) of Section 4503. To ensure that these rights are denied only for good cause, the Director of Developmental Services shall adopt regulations specifying the conditions under which they may be denied. Denial of a person's rights shall in all cases be entered into the person's treatment record and shall be reported to the Director of Developmental Services on a quarterly basis. The content of these records shall enable the Director of Developmental Services to identify individual treatment records, if necessary, for future analysis and investigation. These reports shall be available, upon request, to Members of the Legislature. Information pertaining to denial of rights contained in the person's treatment record shall be made available, on request, to the person, his attorney, his parents, his conservator or guardian, the State Department of Developmental Services, and Members of the Legislature.

4505. For the purposes of subdivisions (f) and (g) of Section 4503, if the patient is a minor age 15 years of over, the right to refuse may be exercised either by the minor or his parent, guardian, conservator, or other person entitled to his custody.

If the patient or his parent, guardian, conservator, or other person responsible for his custody do not refuse the forms of treatment or behavior modification described in subdivisions (f) and (g) of Section 4503, such treatment and behavior modification may be provided only after review and approval by a peer review committee. The Director of Developmental Services shall, by March 1, 1977, adopt regulations establishing peer review procedures for this purpose.

4506. It is the intent of the Legislature that the State Department of Developmental Services adopt staffing standards in state hospitals serving persons with developmental disabilities which will assure the maximum personal growth and development of those served. By March 1, 1977, the department shall submit a report to the Legislature on the results of a pilot study of the staffing standards known as Program Review Unit Number 72, and shall include recommendations regarding modifications to such standards or similar standards developed by the department.

The Legislature shall review and approve or disapprove staffing standards by May 1, 1977.

The department shall adopt, and to the extent funds are available, begin implementation of the approved standards in the 1977–78 fiscal year.

It is further the intent of the Legislature that the adopted standards be fully implemented by June 30, 1980.

4507. Developmental disabilities alone shall not constitute

sufficient justification for judicial commitment. Instead, persons with developmental disabilities shall receive services pursuant to this division. Persons who constitute a danger to themselves or others may be judicially committed if evidence of such danger is proven in court.

4508. Developmentally disabled persons may be released from state hospitals for provisional placement, with parental consent in the case of a minor or with the consent of an adult developmentally disabled person or his guardian or conservator, not to exceed six months, and shall be referred to a regional center for services pursuant to this division. Any person placed pursuant to this section shall have an automatic right of return to the state hospital during the period of provisional placement.

4509. By January 1, 1977, the Director of Developmental Services shall compile a roster of all persons who are in the custody of a state hospital, or on leave therefrom, pursuant to an order of judicial commitment as a mentally retarded person made prior to January 1, 1976. The appropriate regional center shall be given a copy of the names and pertinent records of the judicially committed retarded persons within its jurisdiction, and shall investigate the need and propriety of further judicial commitment of such persons under the provisions of Sections 6500 and 6500.1.

Each regional center shall complete all investigations required by this section within two years after the roster is submitted. In conducting its investigations, each regional center shall solicit information, advice, and recommendations of state hospital personnel familiar with the person whose needs are being evaluated.

For those persons found by a regional center to no longer require state hospital care, the regional center shall immediately prepare an individual program plan pursuant to Sections 4646 and 4648 for the provision of appropriate alternative services outside the state hospital.

If such alternative is not immediately available, the regional center shall give continuing high priority to the location and development of such services. As part of the program budget submission required in Section 4776, the regional director shall include a report specifying:

(a) The number of state hospital residents for whom a community alternative is deemed more suitable than a state hospital.

(b) The number of residents for whom no placement is made because of a lack of community services.

(c) The number, type, nature, and cost of community services that would be necessary in order for placement to occur.

For those persons found to be in continued need of state hospital care, the regional center shall either admit such person as a voluntary resident of the state hospital, or shall file a petition seeking the commitment of those persons for whom commitment is believed to be appropriate.

4510. Any developmentally disabled person residing in a state

hospital who has not been judicially committed shall be considered a nonprotesting resident of a state hospital or a voluntary resident if the person has given informed consent to his admission.

Developmentally disabled, nonprotesting or voluntary residents may leave a state hospital at any time after they, or their parent or legal guardian or conservator, request a discharge and complete state hospital discharge procedures.

The state hospital's discharge procedures for any resident may require an assessment, by an appropriate regional center, of the resident's condition, if in the opinion of the medical director of the state hospital immediate release of the resident may result in serious personal harm to the resident.

Whenever the state hospital discharge procedure for a resident requires assessment by a regional center, the resident shall continue to reside in the state hospital until such assessment is completed. The regional center shall complete its assessment of the condition of such persons within 14 days of receiving a request for assessment. In conducting its assessment, the regional center shall solicit information, advice, and recommendations of state hospital personnel familiar with medical, social and other needs of the person being assessed, and the person's parents or legal guardian or conservator.

For those persons found by a regional center to no longer require state hospital care, the person shall be released, and, if necessary, the regional center shall immediately prepare and administer an individual program plan pursuant to Sections 4646 and 4648 for the provision of appropriate alternative services outside the state hospital.

For those persons found to be in continued need of state hospital care, the regional center shall either readmit such persons as voluntary residents of the state hospital, pursuant to the provisions of Section 4803, or shall file a petition seeking commitment to the State Department of Developmental Services of those persons for whom commitment is believed to be more appropriate than voluntary placement.

4511. Whenever a regional center files a petition for commitment of a person pursuant to the provisions of Section 4510, judicial review shall be in the superior court for the county in which the state hospital is located. The person shall be informed of his right to counsel by a member of the staff of the state hospital, and by the court; and if he does not have an attorney for the proceedings, the court shall immediately appoint the public defender or other attorney to represent him in the proceedings. The person shall pay the costs of such legal service if he is able.

At the time the petition for commitment is filed with the court, the clerk of the court shall transmit a copy of the petition, together with notification as to the time and place of an evidentiary hearing in the matter, to the parent, guardian, or conservator of the person and to the director of the appropriate regional center and the state hospital.

Such notice shall be sent by registered or certified mail with proper postage prepaid addressed to the addressee's last known address and with a return receipt requested.

The court shall either release the person or order an evidentiary hearing to be held not sooner than five judicial days nor more than 10 judicial days after the petition and notice have been mailed to the person's parent, guardian, or conservator and to the director of the appropriate regional center and state hospital.

If the court finds (a) that the person requesting release or for whom release is requested is not developmentally disabled, or (b) that the person is developmentally disabled and is able to provide safely for his basic personal needs for food, shelter, and clothing, and is able to protect himself from ordinary threats to life, health or safety, he shall be immediately released.

Notwithstanding the provisions of Section 6500.1, if the court finds that the person is developmentally disabled and that he is not capable of providing for his basic personal needs for food, clothing and shelter, and is not able to protect himself from ordinary threats to life, health or safety, and is not willing to accept suitable care and treatment on a voluntary basis, the person may be committed to the State Department of Developmental Services for suitable care and treatment.

For the purposes of this section, the legal status of minority does not, in itself, render a person incapable of providing for his basic personal needs for food, clothing, shelter and self-protection from ordinary threats to life, health or safety.

For the purposes of this section, suitable care and treatment is defined as the least restrictive residential placement necessary to achieve the purposes of treatment. Care and treatment of a person committed to the State Department of Developmental Services under this section may include placement in any state hospital, any licensed community care facility as defined in Section 1504 of the Health and Safety Code, or any health facility as defined in Section 1250 of the Health and Safety Code.

Commitment under this section shall be for a period not to exceed one year. The State Department of Developmental Services may petition for renewed commitments under this section if such petition is made to the superior court at least 30 days prior to the termination of existing commitment.

Nothing in this section shall be construed to prevent the voluntary admission of developmentally disabled persons to state hospitals pursuant to Section 4653 or involuntary commitment of dangerous persons under Section 6500.1.

If in any proceeding under this section, the court finds that the person is developmentally disabled and has no parent, guardian, or conservator, and is in need of a guardian or conservator, the court shall order the appropriate regional center or the state department to initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator for the developmentally disabled

person.

4512. As used in this part:

(a) "Developmental disability" means a disability which originates before an individual attains age 18, continues, or can be expected to continue, indefinitely, and constitutes a substantial handicap for such individual. As defined by the Director of Developmental Services, in consultation with the Superintendent of Public Instruction, this term shall include mental retardation, cerebral palsy, epilepsy, and autism. This term shall also include handicapping conditions found to be closely related to mental retardation or to require treatment similar to that required for mentally retarded individuals, but shall not include other handicapping conditions that are solely physical in nature.

(b) "Services for persons with developmental disabilities" means specialized services or special adaptations of generic services directed toward the alleviation of a developmental disability or toward the social, personal, physical, or economic habilitation or rehabilitation of an individual with such a disability, and includes, but is not limited to, diagnosis, evaluation, treatment, personal care, day care, domiciliary care, special living arrangements, physical, occupational, and speech therapy, training, education, sheltered employment, mental health services, recreation, counseling of the individual with such disability and of his family, protective and other social and sociolegal services, information and referral services, follow-along services, and transportation services necessary to assure delivery of services to persons with developmental disabilities.

CHAPTER 2. STATE COUNCIL ON DEVELOPMENTAL DISABILITIES

Article 1. Composition and Appointments

4520. The Legislature finds that services for persons with developmental disabilities constitute a major expenditure of public funds, that such programs are provided by hundreds of public and private state and local agencies, that the legal, civil, and service rights of persons with developmental disabilities are frequently denied, and that there is no effective method for planning and coordinating the state's resources to assure these rights. Therefore, a State Council on Developmental Disabilities with authority independent of any single state service agency is needed and is hereby created.

4521. All references to "state council" in this part shall be references to the State Council on Developmental Disabilities.

(a) The state council shall consist of nine voting members. At least one voting member shall be a person with developmental disabilities. At least two voting members shall be parents or relatives of persons with mental retardation, of whom one such member shall be the parent of a resident of a state hospital and one such member shall be the parent of a person who is a resident of a community care facility.

In addition, one voting member shall represent persons with mental retardation, one voting member shall represent persons with cerebral palsy, one voting member shall represent persons with epilepsy, one voting member shall represent persons with autism, one voting member shall represent persons who are developmentally disabled for reasons attributable to conditions other than mental retardation, cerebral palsy, epilepsy, or autism, and one voting member shall represent the general public. Of the nine voting members, at least one shall be knowledgeable about public education for developmentally disabled persons.

(b) The Governor shall appoint two members who shall be nominated by the Speaker of the Assembly and two members who shall be nominated by the Senate Rules Committee. Prior to appointing the remaining five members, the Governor shall request and consider recommendations from organizations representing or providing services to persons who have developmental disabilities and shall give consideration to the various socioeconomic, ethnic, and geographic parts of the state.

(c) The Director of Developmental Services, the Director of Social Services, the Superintendent of Public Instruction, the Chancellor of the California Community Colleges, and the Director of Rehabilitation, or their designated representatives, shall serve as ex officio, nonvoting members of the state council. The County Supervisor's Association of California shall appoint one member to the state council, who shall serve as an ex officio, nonvoting member of the state council. The Organization of Area Boards shall appoint one member to the state council, who shall serve as an ex officio, nonvoting member of the state council. For the purposes of this chapter, the Organization of Area Boards is defined as a committee consisting of the respective chairpersons of the area boards on developmental disabilities established pursuant to Chapter 4 (commencing with Section 4570) of this part.

(d) Of the members appointed by the Governor, three shall hold office for three years, three shall hold office for two years, and three shall hold office for one year. Subsequent members appointed by the Governor shall hold office for three years. In no event shall any member be appointed for more than two consecutive three-year terms.

4522. Nothing in this chapter shall prevent the reappointment or replacement of any individual presently serving on the existing state council if such reappointment or replacement is in conformity with all of the criteria established in this chapter. Any individual presently serving on the existing state council may continue to serve beyond March 1, 1977, until a replacement is appointed, or 60 days, whichever comes first.

4523. Persons appointed to membership on the state council shall have demonstrated interest and leadership in human service activities.

Article 2. Conflict of Interest

4525. In order to prevent any potential conflicts of interest, voting members of the state council shall not be employed as providers of services to persons with a developmental disability, or be members of the governing board of any entity providing such service, when such service is funded in whole or in part with state funds.

Article 3. Location of State Council

4530. For administrative purposes only, the state council shall be attached to the State Department of Developmental Services. The department shall cooperate fully with the state council by rendering efficient accounting, financial management, personnel, and other reasonable support services when requested by the council in the performance of its mandated responsibilities.

The attachment of the state council to the department shall not limit the council's scope of concern to health programs or limit the council's responsibilities or functions regarding all other pertinent state and local programs, as defined in Article 5 (commencing with Section 4540) of this chapter.

The administrative attachment of the state council to the department shall not be construed to interfere in any way with the provisions of Section 4552 requiring all personnel employed by the council to be solely responsible, organizationally and administratively, to the council.

Article 4. Organization

4535. The state council shall meet at least monthly, and, on call of its chairperson, as often as necessary to fulfill its duties. All meetings and records of the state council shall be open to the public.

The state council shall, by majority vote of the voting members, elect its own chairperson from among the nine appointed members, and shall establish such committees as it deems necessary or desirable. The chairperson shall appoint all members of committees of the state council.

The state council may appoint technical advisory consultants and may establish committees composed of professional persons serving persons with developmental disabilities as necessary for technical assistance. The state council may call upon representatives of all agencies receiving state funds for assistance and information, and may invite persons with developmental disabilities, their parents or guardians, professionals, or members of the general public to participate on state council committees.

On March 1, 1977, the existing State Developmental Disabilities Planning and Advisory Council shall terminate and all of its records and documents shall be transferred to the new State Council on

Developmental Disabilities established by this chapter.

Article 5. State Council Functions

4540. In order to comply with the intent and requirements of this division and Federal Public Law 94-103, the state council, in addition to any other responsibilities established under this division and to the extent that resources are available, shall:

(a) Be the "state planning council" responsible for developing the "California Developmental Disabilities State Plan," monitoring and evaluating the implementation of such plan, reviewing and commenting on other plans and programs in the state affecting persons with developmental disabilities, and submitting such reports as the Secretary of Health, Education and Welfare may reasonably request.

(b) Be the official designated agency for purposes of allocating all federal funds allotted to the state under the provisions of Public Law 94-103, and shall apportion these funds among agencies and area developmental disabilities boards in compliance with Sections 4550 and 4611, and shall apportion no more than 30 percent of the federal funds allotted to the state under the provisions of Public Law 94-103 to the Program Development Fund established pursuant to Section 4677.

(c) Evaluate and issue public reports on the programs identified in the state plan.

(d) Review and comment on pertinent portions of the proposed plans and budgets of all state agencies serving persons with developmental disabilities, including the State Departments of Education, Rehabilitation, Developmental Services, Transportation, Social Services, Employment Development, Youth Authority, Corrections, and Parks and Recreation. Such review may include public hearings prior to the submission of the Governor's Budget to the Legislature, with advice directed to the Governor, and after introduction of the Governor's Budget, with advice directed to the Legislature.

(e) Prepare an annual written report of its activities, its recommendations, and an evaluation of the efficiency of the administration of the provisions of this division of the Welfare and Institutions Code to the Governor and the Legislature.

(f) Review and publicly comment on significant regulations proposed to be promulgated by any state agency in the implementation of the provisions of this division.

(g) Monitor the execution of this division and report directly to the Governor and the Legislature any delay in the rapid execution of this division.

(h) Be responsible for monitoring and evaluating the effectiveness of appeals procedures established in this division.

(i) Provide testimony to legislative committees reviewing fiscal or policy matters pertaining to persons with developmental disabilities.

(j) Conduct, or cause to be conducted, investigations or public hearings to resolve disagreements between state agencies, or between state and regional or local agencies, or between persons with developmental disabilities and agencies receiving state funds. Such investigations or public hearings shall be conducted at the discretion of the state council only after all other appropriate administrative procedures for appeal, as established in state and federal law, have been fully utilized.

Except as otherwise provided in this division, the state council shall not engage in the administration of the day-to-day operation of service programs identified in the state plan, nor in the approval of individual grants, nor in the financial management and accounting of funds. These activities shall be performed by appropriate agencies designated in the state plan.

Article 6. Review of State Council

4545. Every three years the Legislative Analyst's office shall conduct an evaluation of the costs and effectiveness of the activities of the state council and shall report its findings to the Legislature.

Article 7. State Council Costs and Support Services

4550. No more than 25 percent of federal developmental disabilities funds received by the state under the provisions of Public Law 94-103 shall be allotted in any one year for purposes of supporting the state council's operating costs.

The state council's operating costs shall include honoraria and actual and necessary expenses for council members, and administrative, professional, and secretarial support services.

Each member of the state council shall receive fifty dollars ($50) per day for each full day of work performed directly related to council business, not to exceed 50 days in any fiscal year, and shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties under this division.

4551. Within the limit of funds allotted for such purposes, the state council chairperson, with the concurrence of a majority of the state council, shall appoint an executive director, and such other staff to the state council as it may require.

The executive director shall be paid a salary which is comparable to the director of other state boards and commissions with similar responsibilities. The executive director shall be exempt from civil service. All other state council employees shall be appointed by the executive director, with the approval of the state council.

4552. The state council may contract for additional technical assistance with any public or private agency or individual to carry out planning, monitoring, evaluation, and other responsibilities under this division. In order to comply with Federal Public Law 94-103 regulations, all personnel employed by the state council shall be

solely responsible, organizationally and administratively, to the state council. The state council shall have responsibility for the selection, hiring, and supervision of all such personnel.

4553. The state council may request information, records, and documents from any other agency of state government, except for confidential patient records. All such agencies shall comply with the reasonable requests of the state council.

4554. The state council may request area boards on developmental disabilities to assist the state council in carrying out any of the state council's responsibilities in the various regions of the state.

CHAPTER 3. CALIFORNIA DEVELOPMENTAL DISABILITIES STATE PLAN

4560. The Legislature finds that whenever multiple, uncoordinated, and duplicative planning activities are conducted by different state agencies on behalf of persons with developmental disabilities, the result is confusion of responsibilities, a lack of systemwide priorities, and failure to make the most appropriate use of all federal, state, and local funds and programs.

4561. In order to integrate all relevant state planning and budgeting, and in order to comply with federal requirements, a California Developmental Disabilities State Plan shall be prepared by the state council each year. All references in this part to "state plan" shall be references to the California Developmental Disabilities State Plan.

The state plan shall include, but not be limited to, the following parts:

(a) A part describing existing publicly funded services for persons with developmental disabilities within the state, and within each area of the state, including the numbers and types of persons receiving such services, the amount and sources of funding of such services, the agencies responsible for administration, and the effectiveness of such services in helping developmentally disabled persons live more independent, productive, and normal lives.

(b) A part recommending priorities for program and facility development or expansion. Such recommendations shall include statements of justification of need, specific objectives of programs to be developed, amount and sources of funding, timing and agencies responsible for implementation. The priorities for program and facility development or expansion contained in this division shall include specific recommendations with regard to the findings of regional centers resulting from their investigations carried out pursuant to Section 4509.

(c) A part listing the priority recommendations for program termination, modification, or reduction. Such recommendations shall include statements of justification or lack of need, or evidence of program ineffectiveness, or evidence of discrimination against

persons with developmental disabilities, or evidence of unnecessarily high costs in relation to program results. Recommendations for program termination, modification, or reduction shall also include a statement of the amount and sources of funds to be saved or reallocated to other programs and the timing and agencies responsible for implementation.

(d) A part describing the procedures that shall be used for evaluating all programs identified in the state plan, the costs and sources of funds for such evaluation, and the agencies responsible for evaluation.

(e) A part describing the administrative responsibility of state agencies involved in implementing all aspects of the state plan and a description of the amount and sources of funds required for such administration.

(f) A part describing the amount of federal funds, from Public Law 94-103, that shall be allotted to the state council, area boards, and state and nonstate agencies for services, planning, advocacy, construction, and other approved purposes as defined in federal law and regulations

4562. After January 1, 1978, and each year thereafter, all plans prepared by any agency of state government, which include specific program elements relating to services for persons with developmental disabilities, shall separately identify and describe each such program element as to its suitability for inclusion in the state plan. Program elements accepted for inclusion in the state plan shall be given a priority rating.

Any program elements not accepted for inclusion in the state plan shall be appended to the state plan with a written statement explaining the reasons why such program elements were excluded. Before excluding any program element contained in any state agency's plan, the agency shall be informed of the state council's intentions and shall be given an opportunity to confer with the state council.

4563. Within the limit of funds made available, programs and program elements contained in the state plan shall be considered to be endorsed by the state council and acceptable for financial support through state or federal funding sources.

Program elements excluded from the state plan shall be considered to have no state council endorsement for financial support.

4564. The state council shall conduct open hearings on the state plan and related budgetary issues prior to submission of the plan pursuant to Section 4565. Such hearings shall be conducted during the month of September of each year in order to coincide with the preparation of the annual Governor's Budget.

4565. The state plan shall be given to the Governor, the Secretary of the Health and Welfare Agency, the Superintendent of Public Instruction, the Legislature, and to the chairpersons of all area boards for review and comment prior to its submission by the chairperson

of the state council to the Secretary of Health, Education, and Welfare.

Copies of the state plan shall be provided, no later than November 1 of each year, to the Director of Finance and to the Legislature for guidance in the development of the Governor's Budget and legislative review of the budget, and for guidance in other legislation pertaining to programs for persons with developmental disabilities.

4566. The state plan shall, in addition to the requirements established herein, comply in substance and format with requests of the Secretary of Health, Education, and Welfare.

4567. All state agencies shall cooperate with the reasonable requests of the state council by providing information to the state council in the preparation of the state plan. Any expenditures incurred by state agencies in providing such assistance to the state council shall be identified in the state plan and in the state agency's annual budget. Such expenditures may be funded in whole or in part by state funds appropriated as the required state share of the developmental disabilities program, or by federal funds from Public Law 94-103, or both, when the state council allots funds for such purposes in the state plan.

4568. In no event shall the state council allot federal funds from Public Law 94-103 to state agencies to replace state funds currently allocated to such agencies for the purpose of planning programs for persons with developmental disabilities.

CHAPTER 4. AREA BOARDS ON DEVELOPMENTAL DISABILITIES

Article 1. General

4570. Because of the vast size, complexity, and diversity of the State of California, the Legislature finds that the legal, civil, and service rights of persons with developmental disabilities will not be adequately quaranteed throughout the state unless monitoring responsibility is established on a regional basis through area boards on developmental disabilities.

4571. The area boards in existence as of January 1, 1976, shall continue to exist, within the same geographic regions of the state after January 1, 1977, but shall thereafter be constituted and shall operate according to the provisions of this division.

4572. The Director of Developmental Services, in cooperation with the State Council on Developmental Disabilities, shall, by January 1, 1978, and periodically thereafter, conduct a thorough review of the geographic boundaries served by area boards to determine whether additional area boards should be established to more effectively implement the provisions of this division. In conducting such review, the director shall seek the advice of the state council, area boards, and consumers of services.

Article 2. Composition and Appointments

4575. After January 1, 1977, area boards shall be comprised, as follows:

(a) For areas consisting of one to four counties, the area board shall consist of a total of 12 voting members appointed by the governing bodies of the counties, each county appointing an equal number of voting members, and five voting members appointed by the Governor.

(b) For areas consisting of five to seven counties, the area board shall consist of two voting members appointed by the governing body of each county, and five voting members appointed by the Governor.

(c) For areas consisting of eight or more counties, the area board shall consist of one voting member appointed by the governing body of each county, and five members appointed by the Governor.

Of the members first appointed, five shall serve for one year, five shall serve for two years, and the remaining members shall serve for three years. Subsequent members shall serve for three years. In counties with more than 100,000 population, no member shall serve more than two consecutive three-year terms.

4576. The governing bodies of the counties in each area shall select their appointees from among the following groups, and, to the extent feasible, in the following proportions:

(a) Persons with developmental disabilities or the parents or legal guardians of such persons—50 percent;

(b) Representatives of the general public—50 percent.

4577. Prior to making their appointments, the Governor and the governing bodies of counties shall request recommendations from professional organizations, from organizations within the area representing persons with developmental disabilities, and from organizations and agencies within the area that deliver services to such persons.

In making their appointments, the Governor and the governing bodies of counties shall appoint persons who have demonstrated interest and leadership in human service activities.

4578. In order to prevent any potential conflicts of interest, voting members of area boards shall not be employed as providers of service to persons with developmental disabilities, or be members of the governing board of any entity providing such service, when such service is funded in whole or in part with state funds.

4579. The Governor shall give consideration to the relative populations of the counties within the area in selecting his appointees to the area boards.

Nothing in this chapter shall prevent the reappointment or replacement of any individual presently serving on an existing area board, provided any such reappointment is in conformity to all of the criteria established in this chapter. Any individual presently serving on an existing area board may continue to serve beyond January 1,

1977, until a replacement is appointed, or 60 days, whichever comes first.

All members of the area board shall be residents of the area.

Article 3. Organization

4585. The members of an area board shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties as members of the board or of committees established by the board.

Each area board shall meet at least quarterly and on call of the board chairperson, as often as necessary to fulfill its duties. All meetings and records of the area board shall be open to the public.

4586. Each area board shall, by majority vote of the voting members, elect its own chairperson from among the appointed members, and shall establish such committees as it deems necessary or desirable. The board chairperson shall appoint all members of committees of the area board.

An area board shall appoint a professional advisory committee composed of professional persons serving individuals with developmental disabilities. The professional advisory committee shall provide advice, guidance, recommendations, and technical assistance to the area board in order to assist the area board in carrying out its mandated functions enumerated in Article 4 (commencing with Section 4590) of this chapter. Such professional advisory committee shall designate one of its members to serve as an ex officio member of the area board. An area board may call upon representatives of all agencies receiving state funds for assistance and information, and may invite persons with developmental disabilities, their parents or guardians, professionals or members of the general public to participate on area board committees.

Article 4. Area Board Functions

4590. Area boards shall protect and advocate the rights of all persons in the area with developmental disabilities.

The area board shall have the authority to pursue legal, administrative, and other appropriate remedies to insure the protection of the legal, civil, and service rights of persons who require services or who are receiving services in the area.

The area board shall identify any evidence of the denial of such rights; shall inform the appropriate local, state, or federal officials of their findings, and shall assist such officials in eliminating all forms of discrimination against persons with developmental disabilities in housing, recreation, education, health and mental health care, employment, and other service programs available to the general population.

4591. Area boards shall conduct or cause to be conducted public

information programs for professional groups and for the general public, to increase professional and public awareness of prevention and habilitation programs, and to eliminate barriers to social integration, employment, and participation of persons with developmental disabilities in all community activities.

4592. Area boards shall encourage and assist in the establishment of independent citizen advocacy organizations that provide practical personal services to individuals with developmental disabilities. Such citizen advocacy organizations shall be established for the purpose of recruiting, training, and assigning volunteers to work with individuals with developmental disabilities to assist them in using community services and participating in community activities.

Area boards shall recommend to the state council independent citizen advocacy organizations that shall be considered for federal funding under the provisions of Public Law 94-103.

4593. To the extent that resources are available, area boards shall review the policies and practices of publicly funded agencies that serve or may serve persons with developmental disabilities to determine if such programs are meeting their obligations under local, state, and federal statutes. If any noncompliance is determined, the area board shall inform, in writing, the director and the managing board of such noncomplying agency of its findings.

If the agency fails to alter its policies in order to comply with the law within 30 days and after all other informal efforts to assist the agency have been exhausted, the area board may conduct a public hearing to receive testimony on the issue of the agency's noncompliance.

At least 30 days notice of an area board's public hearing on noncompliance shall be given to the general public, to the agency, and to the state, federal, or local authorities responsible for allocating funds to the agency. The public hearing shall be conducted informally for the purpose of finding a solution, and all parties shall have an opportunity to be represented and to testify but shall be recorded.

If the problem has not been resolved within 30 days following the public hearing, the area board may notify the state council and may request authorization to initiate legal action. An area board shall not initiate legal action without prior authorization from the state council.

4594. In carrying out their review functions, area boards shall solicit the advice of knowledgeable professionals, consumers, and consumer representatives about problems within the service delivery system in the region. In enacting this chapter, it is the intent of the Legislature that the area boards not duplicate the functions assigned to other agencies that are routinely responsible for monitoring, regulating, or licensing programs for developmentally disabled persons. Area boards may call upon such agencies for information and assistance in order to carry out their responsibilities more effectively. Unless otherwise prohibited by law, such agencies

shall provide information requested by the area boards and shall cooperate fully in complying with all reasonable requests for assistance.

4595. The executive director of the state council shall review the proceedings of the public hearing under Section 4593 and may conduct additional factfinding investigations. The executive director shall report his findings to the state council within 30 days and shall recommend a course of action to be pursued by the council, the area board, or other state administrative or legislative officials.

The state council shall review the report of the executive director and shall take such action as it deems necessary to resolve the problem. If the council authorizes the area board to initiate legal action, the state council shall make available to the area board legal assistance through the legal services provisions of Public Law 94-103.

The state plan shall include an annual allotment of federal funds from Public Law 94-103 to be utilized for such legal assistance to area boards.

4596. Area boards shall remain informed about the quality of services in the area and shall inform appropriate state and local licensing agencies of alleged fire, safety, health, or other violations of legally established standards, in any facility providing service to persons with developmental disabilities, that may be brought to the attention of the area board.

If an area board receives evidence of criminal misconduct by an individual or agency funded in whole or in part with state funds under this division, the area board shall immediately inform appropriate law enforcement agencies about the alleged misconduct.

4597. Area boards shall assist the state council in the preparation of the state plan by submitting such information concerning the area's services, needs, and priorities as may be requested by the state council. Planning information requested by the state council shall be submitted at such time as requested by the state council. The format for such planning information shall be developed through consultation with the Organization of Area Boards.

4598. The Organization of Area Boards shall consist of the respective chairpersons of the individual boards established under the provisions of this chapter. The purposes of this organization shall include activities to resolve common problems, improve coordination, exchange information between areas, and provide advice and recommendations to state agencies, the Legislature, and the state council.

4599. Area boards shall cooperate with county coordinating councils on developmental disabilities, other regional planning bodies, and consumer organizations in the area. Area boards shall comply with the reasonable requests of such groups and may request the assistance of such groups in carrying out area board responsibilities.

The governing body of any county within the area may request the

area board to study or investigate programs in the county, for persons with developmental disabilities. The area board shall cooperate with county governments to the fullest extent possible within the limitations of the resources of the board.

4600. Each area board may, but shall not be required to, adopt an areawide developmental disabilities plan. The purpose of such area plans shall be to organize in one document information about service needs priorities, program objectives, and the availability and quality of programs for persons with developmental disabilities in the area. If an area plan is deemed necessary, such plan shall be made available to be used by the area board and its committees, other organizations and planning bodies in the area, and the state council. If an area plan is not deemed necessary, the area board shall develop a list and description of local needs and priorities. Such list and description shall be submitted to the state council pursuant to Section 4597 and shall be disseminated to other organizations and planning bodies in the area.

4601. Area boards shall encourage the development of needed services of good quality and shall coordinate such developments to prevent duplication, fragmentation of services, and unnecessary expenditures. Prior to providing additional funds for major expansion of existing programs for persons with developmental disabilities or the establishment of new programs in an area, state agencies shall consult with the area board regarding the appropriateness of such program developments. This provision shall not apply to state funds for public education allocated on an apportionment basis pursuant to state law.

Article 5. Review of Area Boards

4605. On January 1, 1978, and each year thereafter, each area board shall submit to the state council a summary of its activities and accomplishments in such form as shall be required by the state council.

4606. Every three years the Legislative Analyst shall conduct an evaluation of the costs and effectiveness of the activities of area boards and shall report his findings to the Legislature.

Article 6. Area Board Costs and Support Services

4610. The Legislature finds that the advocacy, coordinating, appeals, and other related functions of area boards cannot be effectively provided unless area boards have staff support services from personnel directly responsible and accountable only to the area board.

In order to prevent potential conflicts of interest, personnel employed by area boards shall not be state employees. If any personnel employed by area boards are supported by county funds, such employees shall be solely accountable to the area board for

administrative direction.

4611. Each year each area board shall present for consideration by the state council a proposal for funds to support the activities of the area board. The state council shall review all area board proposals and shall include in the state plan the amount of federal funds under Public Law 94-103 that shall be allotted to each area board.

In allotting funds to area boards, in the state plan, the state council shall allot no more than 45 percent of federal Public Law 94-103 developmental disabilities funds to all area boards in any one year. Nothing in this section shall prevent the appropriation of additional funds to area boards from the General Fund.

Area boards may receive grants of funds in addition to an allocation of state funds or federal funds under Public Law 94-103 as authorized under this division. Such funds shall be used only for purposes of extending the area boards' activities as authorized in this division.

4612. Each area board may appoint an executive secretary who may appoint persons to such staff positions as the area board may authorize. The affirmative votes of a majority of the members of the area board shall be necessary for the appointment or removal of an executive secretary.

Each area board may contract for additional technical assistance to carry out its duties as established by this division.

4613. Notwithstanding any other provision of law, any contract entered into between the State of California and an area board may provide for periodic advanced payments for services to be performed under such contract. No advanced payment made pursuant to this section shall exceed 25 percent of the total annual contract amount.

CHAPTER 5. REGIONAL CENTERS FOR PERSONS WITH DEVELOPMENTAL DISABILITIES

Article 1. Regional Center Contracts

4620. In order for the state to carry out many of its responsibilities as established in this division, the state shall contract with appropriate agencies to provide fixed points of contact in the community for persons with developmental disabilities and their families, to the end that such persons may have access to the facilities and services best suited to them throughout their lifetime. It is the intent of this division that the network of regional centers for persons with developmental disabilities and their families be accessible to every family in need of regional center services.

The Legislature finds that the service provided to individuals and their families by regional centers is of such a special and unique nature that it cannot be satisfactorily provided by state agencies. Therefore, private nonprofit community agencies shall be utilized by the state for the purpose of operating regional centers.

4621. The department, within the limitations of funds

appropriated, shall contract with appropriate private nonprofit corporations for the establishment of regional centers.

Notwithstanding any other provision of law, any contract entered into pursuant to this section may provide for periodic advance payments for services to be performed under such contract. No advance payment made pursuant to this section shall exceed 25 percent of the total annual contract amount.

4622. After July 1, 1978, the state shall contract only with agencies, the governing boards or the program policy committees of which conform to the following criteria:

(a) The governing board or the program policy committee shall be composed of individuals with demonstrated interest in, or knowledge of, developmental disabilities.

(b) The membership of the governing board or the program policy committee shall include persons with legal, management, public relations, and developmental disability program skills.

(c) The membership of the governing board or the program policy committee shall include representatives of the various categories of disability to be served by the regional center.

(d) The governing board or the program policy committee shall reflect the geographic and ethnic characteristics of the area to be served by the regional center.

(e) A minimum of one-third of the members of the governing board or the program policy committee shall be persons with developmental disabilities or their parents or legal guardians.

(f) Members of the governing board or the program policy committee shall not be permitted to serve longer than six consecutive years.

Nothing in this section shall prevent the appointment to a regional center governing board or the program policy committee of a person who meets the criteria for more than one of the categories listed above.

4623. In the event that the governing board of the regional center is not composed of individuals as specified in subdivisions (a) to (f), inclusive, of Section 4622, such governing board shall establish a program policy committee which is composed of such individuals. The program policy committee shall appoint one of its members to serve as an ex officio member of the governing board.

4624. When the governing board of the regional center is not composed of individuals as specified in subdivisions (a) to (f), inclusive, of Section 4622, the program policy committee to the regional center shall be responsible for establishing the program policies of the regional center. All program policies adopted by a program policy committee shall conform to the provisions of this division and the contract between the department and the governing board.

4625. After January 1, 1977, the department shall not contract with any new regional center contracting agency unless the governing board of such agency is composed of individuals as

specified in subdivisions (a) to (f), inclusive, of Section 4622

4626. In order to prevent potential conflicts of interest, no member of the governing board, or in those regional centers wherein a program policy committee is responsible for establishing program policies as defined in Section 4624, no member of the program policy committee of a regional center, shall be an employee of a state agency, or an employee or member of the state council or an area board, or an employee or a member of the governing board of any entity from which the regional center purchases services.

4627. The director of the department shall promulgate and enforce conflict of interest regulations to insure that members of the governing board, program policy committee, and employees of the regional center make decisions with respect to the regional centers that are in the best interests of the center's clients and families.

4628. If, for good reason, a contracting agency is unable to meet all the criteria for a governing board established in this chapter, the director may waive such criteria for a period of time, not to exceed one year, with the approval of the area board in the area and with the approval of the state council.

4629. After January 1, 1977, contracts between the state and the governing boards of regional centers shall include reasonable specific performance and reporting requirements relative to the responsibilities of regional centers defined in this division, and the timing for compliance with such requirements. The department shall specify procedures to be used by all regional centers which shall:

(a) Define "active" and "inactive" cases.

(b) Account for all funds received or expended by regional centers.

(c) Define a unit of direct service performed by regional center personnel.

(d) Allocate indirect, administrative, and overhead expenditures to a unit of direct service.

(e) Calculate costs per unit of direct service.

(f) Provide such other information as the department may require to analyze expenditures, conduct comparative cost and performance reviews, and implement the evaluation requirements in Chapter 8 (commencing with Section 4750) of this division.

Contracting agencies shall agree to use procedures specified by the department to produce caseload and unit of service cost reports.

4630. The contract between the state and the contracting agency shall not:

(a) Require information that violates client confidentiality.

(b) Prevent a regional center from employing innovative programs, techniques, or staffing arrangements which may reasonably be expected to enhance program effectiveness.

(c) Contain provisions which impinge upon the legal rights of private corporations chartered under California statutes.

4631. The department's contract with a regional center shall

require strict accountability and reporting of all expenditures, and strict accountability and reporting as to the effectiveness of the regional center in carrying out its program and fiscal responsibilities as established herein.

4632. If the department and a regional center are unable to resolve any contract dispute, either party may request the state council to review and advise with regard to the issues in dispute. The state council shall review and shall provide its advice in writing within 30 days of receiving a request for such review and advice. Copies of the state council's advice shall be transmitted to the Director of Developmental Services and the governing board of the regional center. The state council's advice shall not be binding upon either party.

4633. If the department or any regional center intends to adopt any material change in policy which will have a direct effect upon the contract between the state and the regional center, the department or the regional center shall give at least 30 days' notice of an intent to change policy, and, if necessary, the contract between the state and such regional center shall be amended. The department shall not require regional centers to provide or purchase any services beyond the level of the funding appropriation for such services. If the department should alter the rates of payments to providers, the regional center budget shall be adjusted accordingly.

4634. Contracts between the department and regional center shall be presented for final negotiation to regional center governing boards at least 90 days' prior to the effective date of such contracts. A regional center shall not be expected to perform functions not specified in the contract without a revision of such contract.

4635. If any regional center finds that it is unable to comply with the requirements of this division or its contract with the state, the regional center shall be responsible for informing the department immediately that it does not expect to fulfill its contractual obligations. Failure to provide such notification to the department in a timely manner shall constitute grounds for possible revocation of the contract. If any regional center makes a decision to cancel its contract with the department, such regional center shall give a minimum of 90 days' written notice of its intention.

If the department finds that any regional center is not fulfilling its contractual obligations, the department shall make reasonable efforts to resolve the problem, including the provision of technical assistance to the regional center or renegotiation of the contract

If the department finds that any regional center continues to fail in fulfilling its contractual obligations after reasonable efforts have been made, and finds that other regional centers are able to fulfill similar obligations under similar contracts, and finds that it will be in the best interest of the persons being served by the regional center, the department shall take steps to terminate the contract and to negotiate with another governing board to provide regional center services in the area. Prior to the initiation of termination

procedures, the contracting agency or the department may initiate the procedures for resolving disputes contained in Section 4632.

When terminating a regional center contract and negotiating with another governing board for a regional center contract, the department shall:

(a) Notify the area board, all personnel employed by the regional center, all vendors of service to the regional center, and all clients of the regional center informing them that the contract with the regional center is to be terminated, and that the state will continue to fulfill its obligations to assure a continuity of services, as required by state law, through a contract with a new governing board.

(b) Request the area board and any other community agencies to assist the state by locating or organizing a new governing board to contract with the department to operate the regional center in the area. Area boards shall cooperate with the department when such assistance is requested.

(c) Provide such assistance as may be required to assure that the transfer of responsibility to a new regional center will be accomplished with minimum disruption to the clients of the service program.

4636. If necessary, to avoid disruption of the service program, the department may directly operate a regional center during the interim period between the termination of its contract with one governing board and the assumption of operating responsibility by a regional center contract with another governing board. In no event shall the department directly operate a regional center program for longer than 120 days before contracting with a new governing board. The department may, if requested by the new governing board, continue to provide additional assistance to avoid disruption of the service program, until such time as the governing board has assumed full responsibility for the operation of the program.

Article 2. Regional Center Responsibilities

4640. Contracts between the department and regional centers shall specify the service area and the categories of persons that regional centers shall be expected to serve and the services to be provided. In order to assure uniformity in the application of the definition of developmental disability contained in this division, the Director of Developmental Services shall, by March 1, 1977, issue regulations that delineate, by diagnostic category and degree of handicap, those persons who are eligible for service by regional centers. In issuing the regulations, the director shall invite and consider the views of regional center contracting agencies, the state council, and persons with a demonstrated and direct interest in developmental disabilities.

4641. All regional centers shall conduct casefinding activities, including notification of availability of service in English and such other languages as may be appropriate to the service area, outreach

services in areas with a high incidence of developmental disabilities, and identification of persons who may need service.

4642. Any person believed to have a developmental disability, and any person believed to be a high risk of parenting a disabled infant, shall be eligible for initial intake and assessement services in the regional centers.

Initial intake shall be performed within 15 working days following request for assistance. Initial intake shall include, but need not be limited to, information and advice about the nature and availability of services provided by the regional center and by other agencies in the community, including guardianship, income maintenance, mental health, housing, education, work activity and vocational training, medical, dental, recreational, and other services or programs that may be useful to persons with developmental disabilities or their families. Intake shall also include a decision to provide assessment.

4643. If assessment is needed, it shall be performed within 60 days following initial intake. Assessment may include collection and review of available historical diagnostic data, provision or procurement of necessary tests and evaluations, and summarization of developmental levels and service needs. If unusual circumstances prevent the completion of assessment within 60 days following intake, such assessment period may be extended by one 30-day period with the advance written approval of the department.

4644. In addition to any person eligible for initial intake or assessment services, regional centers may provide or cause to be provided preventive services to any potential parent determined to be at high risk of parenting a disabled infant.

4645. If any person requests regional center services and is found to be ineligible for such services, the reasons for denial shall be presented in writing to the applicant and, if necessary, a referral to other appropriate services shall be arranged. In such cases, the applicant shall also be advised in writing of the appeals procedure established in this division.

4646. On and after January 1, 1977, an individual program plan may be developed for any person who, following intake and assessment, is found to be eligible for, and in need of, such plan. Such plans shall be completed within 60 days of the completion of assessement.

Individual program plans shall be prepared jointly by one or more representatives of the regional center, the developmentally disabled person, and where appropriate, the person's parents, legal guardian, or conservator.

The program plan shall include the following:

(a) An assessement of the developmentally disabled person's specific capabilities and problems. The regional centers, in cooperation with the department, shall adopt an approved list of tests to be used by all regional centers in making such assessments. The test or tests used shall have been determined to be reliable and

valid by acceptable statistical methods.

(b) A statement of specific, time-limited objectives for improving the capabilities and resolving the problems of the person. Such objectives shall be stated in measurable terms which allow measurement of progress.

(c) A schedule of the type and amount of services to achieve program plan objectives, including identification of the provider or providers of service responsible for attaining each objective.

(d) A schedule of regular periodic review and reassessment to ascertain that planned services have been provided and that objectives have been reached within the times specified. The same test or tests used to measure client capabilities and problems shall be used for review and reassessment.

(e) All individual program plans shall be reviewed and modified, if necessary, at least annually by the regional center representative and the person, the person's parents, legal guardian, or conservator.

The state department, with the participation of regional center personnel, shall prepare a standard format for the preparation of individual program plans, which shall be used by all regional centers.

4647. By January 1, 1979, all active cases shall have an individual program plan as specified in Section 4646.

4648. In order to achieve the stated objectives of any individual program plan, the regional center shall conduct activities including, but not limited to, the following:

(a) Program coordination which may include securing, through purchase or referral, services specified in the person's plan, coordination of service programs, information collection and dissemination, and measurement of progress toward objectives contained in the person's plan.

The regional center shall assign a program coordinator who will be responsible for implementing, overseeing, and monitoring each individual program plan. The program coordinator may be an employee of the regional center or may be a qualified individual or employee of an agency with whom the regional center has contracted to provide program coordination.

At such times as the individual program plan is reviewed, but at least annually, the performance of the program coordinator shall also be reviewed by the regional center, the person with developmental disabilities, and the person's parents or legal guardian or conservator. No person shall continue to serve as a program coordinator for any individual program plan unless there is agreement by all parties that the person should continue to serve as program coordinator.

Nothing shall prevent a person with developmental disabilities or such person's parent, legal guardian, or conservator, from being the program coordinator of the person's individual program plan, if the regional center director agrees that such an arrangement is feasible and in the best interest of the person with the developmental disabilities. If any person listed above is designated as the program coordinator, such person shall not deviate from the agreed-upon

program plan and shall provide any information and reports as may be required by the regional center director.

(b) Purchase of needed services.

A regional center may purchase services for a client from any individual or agency the regional center determines will best accomplish all or any part of that client's program plan.

In making the initial choice to purchase services from an agency, facility, or individual, the regional center may use a professionally recognized, reliable, and valid instrument of accreditation. Thereafter, the regional center shall renew its contracts or purchases on the basis of a vendor's success in achieving the objectives set forth in the individual program plan.

No puchase of service contract with any agency or individual shall be continued unless the regional center and the person with developmental disabilities, or when appropriate, the person's parents or legal guardian or conservator agree that reasonable progress has been made towards the objectives for which the service provider is responsible.

Regional center funds shall not be used to supplant the budget of any agency which has a legal responsibility to serve all members of the general public and is receiving public funds for providing such services.

A regional center may purchase required out-of-home care for developmentally disabled persons. In considering appropriate placement alternatives for developmentally disabled children, approval by the child's parent, guardian, or conservator shall be obtained before placement is made.

Each developmentally disabled person placed by the regional center in an out-of-home residential facility shall have the rights specified in this division. These rights shall be brought to the person's attention by such means as the Director of Developmental Services may designate by regulation.

(c) Advocacy for, and protection of, the civil, legal, and service rights of developmentally disabled persons as established in this division.

Whenever the advocacy efforts of a regional center to secure or protect the legal, civil, or service rights of any of its clients prove ineffective, the regional center or the person with developmental disabilities or their parents, legal guardian, or other representative may request the area board to initiate action under the provisions defining area board advocacy functions established in this division.

(d) Community organization and program development, including liaison activities with existing service agencies, identification of services needed but unavailable, identification of ineffective services and services of poor quality, identification of programs which may not be in compliance with local, state, and federal statutes and approved regulations.

In order to expand the availability of needed services of good quality, a regional center may take any of the following actions:

(1) Provide information to the area board to assist the area board in determining recommended priorities for program development for inclusion in the state plan.

(2) Request the department to allocate funds from the Developmental Disabilities Program Development Fund to initiate a new program.

(3) Notify the appropriate licensing authority or request the area board to investigate and act upon any agency's possible noncompliance with local, state, or federal laws or regulations.

(4) Provide or secure consultation, training, or technical assistance services for any agency to assist such agency in upgrading the quality of its program. Except in emergency situations, a regional center shall not provide direct treatment and therapeutic services, but shall utilize appropriate public and private community agencies and service providers to obtain such services for its clients.

4649. Regional centers shall cooperate with area boards in joint efforts to inform the public of services available to persons with developmental disabilities and of their unmet needs, provide materials and education programs to community groups and agencies with interest in, or responsibility for, persons with developmental disabilities, and develop resource materials, if necessary, containing information about local agencies, facilities, and service providers offering services to persons with developmental disabilities.

4650. Regional centers shall be responsible for developing an annual plan and program budget to be submitted to the director no later than September 1 of each fiscal year. An information copy shall be submitted to the area board and state council by the same date.

4651. It is the intent of the Legislature to encourage regional centers to find innovative and economical methods of achieving the objectives contained in individual program plans of persons with developmental disabilities.

To the extent feasible, within the limitations of state law and available funds, the department shall encourage and assist regional centers to use innovative programs, techniques, and staffing arrangements to carry out their responsibilities.

4652. A regional center shall investigate every appropriate and economically feasible alternative for care of a developmentally disabled person available within the region. If suitable care cannot be found within the region, services may be obtained outside of the region.

4653. Except for those developmentally disabled persons judicially committed to state hospitals, no developmentally disabled person shall be admitted to a state hospital except upon the referral of a regional center. Upon discharge from a state hospital, a developmentally disabled person shall be referred to an appropriate regional center.

4654. Before any person is examined by a regional center pursuant to Section 1370.1 of the Penal Code, the court ordering such

medical examination shall transmit to the regional center a copy of the orders made pursuant to proceedings conducted under Sections 1368 and 1369 of the Penal Code. The purpose of the mental examination shall be to determine if developmental disability is the primary diagnosis.

4655. The director of a regional center or his designee may give consent to medical, dental, and surgical treatment of a regional center client and provide for such treatment to be given to the person under the following conditions:

(a) If the developmentally disabled person's parent, guardian, or conservator legally authorized to consent to such treatment does not respond within a reasonable time to the request of the director or his designee for the granting or denying of consent for such treatment, the director of a regional center or his designee may consent on behalf of the developmentally disabled person to such treatment and provide for such treatment to be given to such person.

(b) If the developmentally disabled person has no parent, guardian, or conservator legally authorized to consent to medical, dental, or surgical treatment on behalf of the person, the director of the regional center or his designee may consent to such treatment on behalf of the person and provide for such treatment to be given to the person. The director of a regional center or his designee may thereupon also initiate, or cause to be initiated, proceedings for the appointment of a guardian or conservator legally authorized to consent to medical, dental, or surgical services.

(c) If the developmentally disabled person is an adult and has neither a guardian or conservator, consent to treatment may be given by someone other than the person on the person's behalf only if the developmentally disabled person is mentally incapable of giving his own consent.

CHAPTER 6. DEVELOPMENT AND SUPPORT OF COMMUNITY FACILITIES AND PROGRAMS

Article 1. General

4670. The Legislature finds that there is a shortage of programs and facilities to provide a comprehensive network of habilitation services to persons with developmental disabilities throughout the state.

In order to assure the development and necessary support for a comprehensive network of programs of good quality, in every area of the state, in an orderly and economic manner, the following procedures are established.

Article 2. Planning and Developing New and Expanded Programs and Facilities

4675. On and after January 1, 1978, the state plan established in

this division shall be the primary method used for determining, in an orderly way, the programs and facilities that shall be developed, expanded, terminated, or reduced. The state plan shall also state the objectives of such programs, amounts and sources of required funding, priorities for development, timing, agencies responsible for implementation, and procedures for evaluation.

4676. Prior to making an appropriation or allocating any state or federal funds for new or major expansions of programs or facilities for persons with developmental disabilities, the state plan shall be reviewed to determine if the proposed expenditure is consistent with the priorities approved in the plan.

If any expenditure of such funds for new or major expansions of programs or facilities is proposed by any agency that does not conform to the priorities approved in the state plan, the state council shall review and publicly comment on such proposed expenditure.

4677. Effective July 1, 1977, all parental fees collected by or for regional centers shall be remitted to the State Treasury to be deposited in the Developmental Disabilities Program Development Fund, which is hereby created and hereinafter called the Program Development Fund. The purpose of the Program Development Fund shall be to provide resources needed to initiate new programs, consistent with approved priorities for program development in the state plan. In no event shall an allocation from the Program Development Fund be granted for more than 24 months.

Parental fee schedules shall be evaluated pursuant to the provisions of Section 4785 and adjusted annually by the department, with the approval of the state council. Fees for out-of-home care shall bear an equitable relationship to the cost of such care and the ability of the family to pay.

In addition to parental contributions and General Fund appropriations, the Program Development Fund may be augmented by federal funds available to the state for program development purposes, when such funds are allotted to the Program Development Fund in the state plan. The Program Development Fund is hereby appropriated to the department for a period of three years for the purposes of this section. In no event shall any such funds revert to the General Fund, except at the conclusion of the three-year period. Prior to the end of the three-year period, the Department of Finance shall review the utilization and effectiveness of the Program Development Fund and shall report its findings to the Legislature.

The Legislative Analyst shall review and comment on the utilization and effectiveness of the Program Development Fund in connection with the annual budget hearings.

The department may allocate funds from the Program Development Fund for any legal purpose, provided, that such allocations are consistent with the priorities for program development in the state plan and are approved by the state council. Allocations from the Program Development Fund shall take into consideration the future fiscal impact of such allocations on other

state-supported programs for developmentally disabled persons. To the extent feasible, allocation decisions shall also take into consideration distribution of funds to geographic areas proportionate to such area's contributions to the Program Development Fund.

Article 3. Rates of Payment for Community Living Facilities

4680. In order to assure the availability of a continuum of community living facilities of good quality for persons with developmental disabilities, the department shall establish and maintain an equitable system of payment to providers of such services. The system of payment shall include provision for the special needs of persons with developmental disabilities.

4681. By July 1, 1977, and each year thereafter, the department shall establish rates, which shall be reviewed by the state council. Such rates shall annually be presented to the Legislature and shall be operative on July 1 of each year, subject to the appropriation of sufficient funds for such purpose in the Budget Act. In establishing rates to be paid for out-of-home care, the department shall consider and, when appropriate, include each of the cost elements in this section as follows:

(a) Rates established for all facilities shall include an adequate amount to care for "basic living needs" of a person with developmental disabilities. "Basic living needs" are defined to include housing (shelter, utilities, and furnishing), food, clothing, and personal care. The amount required for basic living needs shall be calculated each year as the average cost of an additional normal child, between the age of 12–17, living at home. The amount for basic living needs shall be adjusted depending on the size of the out-of-home facility. These amounts shall be adjusted annually to reflect cost-of-living changes. A redetermination of basic living costs shall be undertaken every three years by the department using the best available estimating methods.

(b) Rates established for all facilities that provide direct supervision for persons with developmental disabilities shall include an amount for "direct supervision." The cost of "direct supervision" shall reflect the ability of the persons in the facility to function with minimal, moderate, or intensive supervision. Minimal supervision means that a developmentally disabled person needs the assistance of other persons with certain daily activities. Moderate supervision means that a developmentally disabled person needs the assistance of other persons with daily activities most of the time. Intensive supervision means that all the personal and physical needs of a developmentally disabled person are provided by other persons. The cost of "direct supervision" is calculated as the wage costs of care-giving staff depending on the needs of the person with developmental disabilities. These amounts shall be adjusted annually to reflect wage changes and shall comply with all federal regulations for hospitals and residential-care establishments under provisions of

the Fair Labor Standards Act.

(c) Rates established for all facilities that provide "special services" for persons with developmental disabilities shall include an amount to pay for such "special services" for each person receiving special services. "Special services" include medical and dental care and therapeutic, educational, training, or other services required in the individual program plan of each person. Facilities shall be paid for providing special services for each individual to the extent that such services are specified in the person's individual program plan and the facility is designated provider of such special services. Rates of payment for special services shall be the same as prevailing rates paid for similar services in the area.

(d) To the extent applicable, rates established for facilities shall include a reasonable amount for "unallocated services." Such costs shall be determined using generally accepted accounting principles. "Unallocated services" means the indirect costs of managing a facility and includes costs of managerial personnel, facility operation, maintenance and repair, employee benefits, and general and administrative support. If a facility serves other persons in addition to developmentally disabled persons, unallocated services expenses shall be reimbursed under the provision of this section, only for the proportion of the costs associated with the care of developmentally disabled persons.

(e) Rates established for facilities shall include an amount to reimburse facilities for the depreciation of "mandated capital improvements and equipment" as established in the state's uniform accounting manual. For purposes of this section, "mandated capital improvements and equipment" are only those remodeling and equipment costs incurred by a facility because an agency of government has required such remodeling or equipment as a condition for the use of the facility as a provider of out-of-home care to persons with developmental disabilities.

(f) When applicable, rates established for proprietary facilities shall include a reasonable "proprietary fee."

4682. Under no circumstances shall the rate of state payment to any provider of out-of-home care exceed the average amount charged to private clients residing in the same facility, nor shall the monthly rate of state payment to any such facility, with the exception of a licensed acute care or emergency hospital, exceed the average monthly cost of services for all persons with developmental disabilities who reside in state hospitals.

4683. It is the intent of the Legislature that rates of payment for out-of-home care shall be established in such ways as to assure the maximum utilization of all federal and other sources of funding, to which persons with developmental disabilities are legally entitled, prior to the commitment of state funds for such purposes.

Article 4. Supportive Services for Persons Living at Home

4685. The Legislature places a high priority on providing opportunities for children with developmental disabilities to live with their families, when living at home is the preferred objective in the child's individual program. In order to provide opportunities for children to live with their families, the following procedures shall be adopted:

(a) The state plan shall give a very high priority to the development and expansion of programs designed to assist families in caring for their children at home. Such assistance may include, but is not limited to: specialized medical and dental care, special training for parents, infant stimulation programs, respite for parents, homemaker services, camping, day care, short-term out-of-home care, babysitting, counseling, mental health services, behavior modification programs, special equipment such as wheelchairs, hospital beds, and other necessary appliances, and advocacy to assist persons in securing income maintenance and other benefits to which they are entitled.

(b) In developing individual program plans for children, regional centers shall consider every possible way to assist families in maintaining their children at home, when living at home will be in the best interest of the child, before considering out-of-home placement alternatives.

The department shall conduct an annual review of the percentage of children in out-of-home placement, relative to caseload, in each regional center, and shall investigate any possible excessive out-of-home placements in any regional center. If the department determines that a regional center has failed to emphasize assistance to families to care for their children at home, the department shall assist the regional center to develop a more appropriate program and shall establish specific home-care objectives for the regional center to meet in its contract with the state.

(c) If the parent of any child receiving service from a regional center believes that the regional center is not offering adequate assistance to enable the family to keep the child at home, such parent may initiate request for fair hearing as established in this division.

(d) Nothing in this section shall be construed to encourage the continued residency of adult children in the home of their parents when such residency is not in the best interests of the person.

Article 5. Regional Center Rates for Nonresidential Services

4690. The Director of Developmental Services shall establish rates of state payment for nonresidential services purchased by regional centers. An equitable system of rates shall be developed, maintained, and revised as necessary under this chapter in order to assure that regional centers may secure high-quality services for

developmentally disabled persons. In developing such rates, the director shall take into account the rates paid by other agencies and jurisdictions in order to assure that regional center rates are at competitive levels. In no event shall rates established pursuant to this article be any less than those established for comparable services under the State Medi-Cal Program.

CHAPTER 7. APPEALS PROCEDURES

Article 1. Service Agency Fair Hearing Procedure

4700. On and after July 1, 1977, every public or private agency that receives state funds to provide services for persons with developmental disabilities shall, as a condition of continued receipt of such funds, have an agency fair hearing procedure for resolving conflicts between the agency and consumers or potential consumers of service.

Any agency that employs a fair hearing procedure mandated by any other statute shall be considered to have an approved procedure for purposes of this chapter.

The service agency's fair hearing procedure shall be stated in writing, in English and such other language as may be appropriate to the needs of the consumers of the agency's service. All consumers currently receiving services as persons with developmental disabilities or their legally responsible relatives, guardians, or anyone having legal custody of a developmentally disabled person, and all such persons formally applying for service shall be informed verbally of, and shall be notified in writing in a language which they comprehend of, the agency's fair hearing procedure. A copy of the procedure and a copy of the provisions of this chapter shall be prominently displayed on the premises of the agency.

4701. The service agency's fair hearing procedure shall meet the following minimum requirements:

(a) Any person with developmental disabilities, or who is believed to have a developmental disability, or the parent, legal guardian, anyone having legal custody, or other representative acting on behalf of such person shall have the opportunity to request a fair hearing to contest the decision of any agency which he believes to be illegal, unjust, discriminatory, or not in the best interest of the person with developmental disabilities. The request for a fair hearing shall be stated in writing on an appeal for fair hearing form to be provided by the agency.

If any person makes a verbal request for a fair hearing, the employee of the agency who hears the request shall provide the person with an appeal for fair hearing form and shall assist the person in filling out such form if the person requires or requests assistance. Any employee who willfully fails to comply with this requirement shall be guilty of a misdemeanor.

(b) The agency s procedures for responding to a request for a fair

hearing shall be informal and shall result in a written decision by the agency within 30 days from the date of submission of the request for fair hearing form.

(c) Requests for a fair hearing shall be directed to the director of the agency. Upon receipt by the agency director, or his designated representative, of a request for a fair hearing submitted by a person with developmental disabilities, his parent, guardian, conservator, or other representative, shall within 10 days of receipt of such request:

(1) Meet with the person requesting the fair hearing in an attempt to settle the grievance. Such person shall have the right to examine any documents contained in the developmentally disabled person's agency file, provided that the written consent of the person with developmental disabilities must be secured therefor in the case of a developmentally disabled adult who is not under guardianship or conservatorship.

(2) If it is determined that the grievance has merit, the agency director may rule in favor of the person who requested the fair hearing.

(3) If the agency director fails to resolve the grievance to the satisfaction of the person who requested the fair hearing, the agency director shall commence the fair hearing procedure.

(d) The person with developmental disabilities and the parent, guardian, or conservator of such person shall be given written notice in a language which they comprehend of all fair hearing and review proceedings that the agency may conduct; shall be permitted to have with them any representative they may wish to have assist them in presenting their grievance. Fair hearing proceedings shall be conducted at such times and places as to permit the participation of the person who requested the review.

The person who makes the appeal and his representative shall have access to any records in possession of the agency which may have a bearing on the issues being contested.

Article 2. Appeals Board Hearings

4705. Any person who has made a request for a service agency fair hearing may, within 30 days following the date of receipt of the written decision of the service agency, notify in writing the director, or the governing board of the agency, that he does not accept the decision of the service agency and that an appeals board hearing of the decision is requested.

The appeals board hearing shall take place within 30 days following the agency's receipt of such written notification. Both parties shall agree to a convenient time and place for such hearing in the county of residence of the person requesting the hearing.

The appeals board shall be composed of three persons, one selected by the agency's governing board, one selected by the person or persons requesting the hearing, and the third selected by mutual agreement of the two persons selected by the agency's governing

board and the person or persons requesting the hearing. If agreement cannot be achieved in selecting the third member of the appeals board at least 15 days prior to the date set for the hearing, the area board shall, within 15 days, select the third member and the appeals board hearing shall commence within 15 days following such selection.

4706. The chairman of the appeals board shall be selected by its members.

4707. The hearing shall be conducted in an informal manner. Each party, and their respresentatives, shall have the right to call and examine witnesses; to introduce exhibits; to cross-examine opposing witnesses on any matter relevant to the issues. The hearing need not be conducted according to technical rules relating to evidence and witnesses. Any relevant evidence shall be admitted. Hearsay evidence may be used for the purpose of supplementing or explaining other evidence, but shall not be sufficient in itself to support a finding unless it would be admissible over objection in civil actions. Irrelevant and unduly repetitious evidence may be excluded.

The hearing shall be conducted in the English language. However, if any of the parties does not comprehend English, then an interpreter shall be provided by the parties who shall be approved by the chairman of the appeals board as being proficient in the English language and the language in which the witness will testify.

A stenographic record shall be kept or a recording made of the proceedings before the appeals board.

Any cost of interpreter and stenographic services shall be paid by the agency.

4708. Within 15 days after submission of all evidence and argument before the appeals board, the board shall render a written decision based upon a majority vote of its members. Both parties shall act upon such decision unless either party appeals the board's determination to the responsible state agency.

4709. The appeals board's written decision shall be in ordinary and concise language. If any of the parties cannot comprehend English, then the written decision shall be translated into a language which such party can comprehend. The decision shall contain findings of fact, a determination of the issues presented, and the reason for the decision. The decision shall become effective within 30 days. The notice of the decision shall state that either party has a right of appeal to the responsible state agency.

4710. Appeals board hearings shall be open to the public except when personnel matters are being reviewed.

Article 3. State Agency Review and Hearing

4715. If either party disagrees with the decision of the appeals board, he or she may request, in writing, the director of the state agency or department (hereinafter called the "responsible state

agency") primarily responsible for operating, funding, or monitoring the program subject to the appeal, to review the decision within 30 days following notification of such decision.

The director of the responsible state agency or his designee shall review the records of the appeals board hearing and may request additional information from either party.

4716. If the director of the responsible state agency decides not to hear the appeal, the decision of the appeals board shall be final.

If the director of the responsible state agency decides to hear the appeal, the decision of the appeals board shall be held in abeyance until the director renders a final decision. If the director of the responsible state agency decides to hear the appeal, he shall render a decision within 30 days from the time that the request for a state agency hearing was received. If the director of the state agency fails to render a decision within 30 days, such failure shall constitute a waiver of the responsible state agency's right to hear the case and the decision of the appeals board shall be final.

If the responsible state agency conducts a hearing, the hearing shall be conducted according to the same procedures as required for appeals board hearings.

The decision of the responsible state agency shall be the final administrative determination and both parties shall be bound thereby.

4717. Nothing in this division shall presume the incompetence of any person with a developmental disability to participate in any of the appeals procedures established herein.

4718. If in the opinion of any person, the rights or best interests of any individual with developmental disabilities may not be properly protected or advocated in any appeals procedure, the area board shall be notified and the area board may appoint a personal advocate to represent the individual with the developmental disability in such appeals procedures.

Article 4. Right to Representation

4725. At any stage in the appeals procedure, the person with developmental disabilities or the parents or legal guardian of such person shall have the right to be represented, at their own expense, by the person or persons of their choice including, but not limited to, private legal counsel, legal aid societies, or citizen advocacy organizations.

CHAPTER 8. EVALUATION

4750. The Legislature intends that expenditures on state programs for the developmentally disabled shall have measurable and desirable results. Such results shall reflect the degree to which developmentally disabled persons are leading more independent, productive, and normal lives.

4751. The department shall perform all of the following tasks to provide the Legislature with information to determine the extent to which programs under its jurisdiction are obtaining desirable results:

(a) The department shall propose to the Legislature by July 1, 1977, a method for determining that developmentally disabled persons throughout the state are, as a result of services provided pursuant to this division, leading more independent, productive, and normal lives. The proposed method shall measure changes, including, but not limited, to changes in:

(1) The amount of supervision required and the restrictiveness of living situations.

4753. By January 1, 1979, the department shall implement the evaluation system for all programs under its jurisdiction.

4754. Nothing in this chapter shall be construed to prohibit any agency providing services to persons with developmental disabilities from utilizing additional evaluation mechanisms for the agency's own program purposes.

CHAPTER 9. BUDGETARY PROCESS AND FINANCIAL PROVISIONS

4775. The Legislature finds that the method of appropriating funds for numerous programs for the developmentally disabled affects the availability and distribution of services and must be related to statewide planning. Therefore, the process for determining levels of funding of programs must involve consideration of the state plan established pursuant to Chapter 3 (commencing with Section 4560) of this division and the participation of citizens who may be directly affected by funding decisions.

4776. On or before September 1 of each year, each regional center shall submit to the department and the state council a program budget plan for the subsequent budget year. The budget plan shall include all of the following:

(a) An estimate of all developmentally disabled persons to be served by the regional center.

(b) An estimate of services to be provided by the regional center.

(c) An estimate of cost, by type of service.

(d) Estimated sources and amounts of all revenue, including funds which are not administered by regional centers.

(e) A detailed report of the resources required to implement Section 4509.

4777. On or before September 1 of each year, the Superintendent of Public Instruction shall submit to the state council:

(a) An estimate of all developmentally disabled persons to be served throughout the state.

(b) Estimated total cost, by service or educational category.

(c) Estimated sources of revenue.

4778. To the extent feasible, all funds appropriated for developmental disabilities programs under this part shall be allocated to such programs by August 1 of each year. Any funds not allocated by that date shall be reported to the Legislature together with specific reasons for the nonallocation of such funds. Within 30 days after enactment, all departments administering programs providing services to the developmentally disabled shall submit to the Joint Legislative Budget Committee, the fiscal committees of both houses, and the state council a reconciliation of allocated funds with the appropriate budget item.

4779. On or before January 1 of each year, the department shall submit a report to the state council, which shall be given with the council's comments and recommendations in a report to the Joint Legislative Budget Committee and the fiscal committees of both houses which provides actual and estimated expenditures for programs for the developmentally disabled during the first six months of the fiscal year and an estimate of total year-end expenditures.

If year-end expenditures are estimated to be less than the amount

appropriated, the report shall indicate alternative program uses for the estimated savings that are consistent with the priorities in the state plan.

If year-end expenditures are estimated to be more than the amount appropriated, the report shall indicate anticipated actions that will be taken to secure additional funds or reduce expenditures.

4780. When appropriated by the Legislature, the department may receive and expend all funds made available by the federal government, the state, its political subdivisions, and other sources, and, within the limitation of the funds made available, shall act as an agent for the transmittal of such funds for services through the regional centers. The department may use any funds received under Article 2 (commencing with Section 248), Chapter 2, Part 1, Division 1 of the Health and Safety Code for the purposes of this division.

4781. The department may accept and expend grants, gifts, and legacies of money and, with the consent of the Department of Finance, may accept, manage, and expend grants, gifts and legacies of other property, in furtherance of the purposes of this division.

4782. Parents of children under the age of 18 who are receiving services purchased by the regional center may be required to contribute to the cost of services depending upon their ability to pay, but not to exceed the cost of caring for a normal child at home, as determined by the director. Parental contributions shall be made only to the regional center and the method of determination of the amount of the contribution shall be the same, whether the child is placed in the state hospital or in a public or private community facility. In no event, however, shall parents be charged for diagnosis or counseling services received through the regional centers.

4783. Parents of children under the age of 18 who are patients in a state hospital or on leave from a state hospital, and who were admitted to the state hospital prior to July 1, 1971, may be required to contribute to the cost of services depending upon their ability to pay, but not to exceed the cost of caring for a normal child at home, as determined by the director. Parental contributions shall be made only to the regional center from which the child would have been referred had he been admitted to the state hospital after July 1, 1971, and the method of determination of the amount of the contribution shall be the same as that provided in Section 4782.

4784. The Director of Developmental Services shall establish and annually review a schedule for parental fees for services received through the regional centers.

In establishing the amount parents will contribute, the director shall take into account such factors as:

(c) Parental contributions for medical expenses, clothing,

incidentals, and other items considered necessary to the normal rearing of a child; and

All parental contributions shall be deposited in the Developmental Disabilities Program Development Fund established in Chapter 6 (commencing with Section 4670) of this division to provide resources needed to initiate new programs, consistent with approved priorities for program development in the state plan.

4785. The department shall conduct a study of the parental fee schedules established pursuant to this division and shall recommend changes to the Legislature by July 1, 1977. Such review shall include:

(a) The basic premises upon which the fee schedule is based.

(b) The equity of fees required in relation to family income.

A minor person who is a voluntary patient may leave the hospital or institution after completing normal hospitalization departure procedures after notice is given to the superintendent or person in

SEC. 639. Section 6327 of the Welfare and Institutions Code is amended to read:

6327. After a person has been committed for an indeterminate period to the department for placement in a state hospital or to a county mental health director for placement in an appropriate facility as a mentally disordered sex offender and has been confined for a period of not less than six months from the date of the order of commitment, the committing court may upon its own motion or on motion by or on behalf of the person committed, require the superintendent of the state hosptial or other facility to which the person was committed to forward to the committing court and to the county mental health director or his designee, within 30 days, his opinion under (a) or (b) of Section 6325, including therein a report, diagnosis and recommendation concerning the person's future care, supervision, or treatment. The court shall transmit a copy of its order to the county mental health director or his designee.

SEC. 640. Section 6500 of the Welfare and Institutions Code is amended to read:

6500. As used in this article, "mentally retarded persons" means those persons, not psychotic, who are so mentally retarded from infancy or before reaching maturity that they are incapable of managing themselves and their affairs independently, with ordinary prudence, or of being taught to do so, and who require supervision, control, and care, for their own welfare, or for the welfare of others, or for the welfare of the community.

Wherever in this code or in any provision of statute heretofore or

hearafter enacted the terms "feebleminded" and "feeblemindedness" are used, they shall be construed to refer to and mean "mentally retarded" and "mental retardation," respectively, as defined in this section. All persons heretofore committed or admitted as feebleminded to any state hospital for the developmentally disabled, or committed to the State Department of Developmental Services for placement therein, shall be deemed to have been committed or admitted thereto as mentally retarded persons.

SEC. 641. Section 6500.1 of the Welfare and Institutions Code is amended to read:

6500.1. On and after July 1, 1971, no mentally retarded person may be committed to the State Department of Developmental Services pursuant to this article, unless he is a danger to himself or others.

Any order of commitment made pursuant to this article shall expire automatically one year after the order of commitment is made. This section shall not be construed to prohibit any party enumerated in Section 6502 from filing subsequent petitions for additional periods of commitment. In the event such subsequent petitons are filed, the procedures followed shall be the same as with an initial petition for commitment.

In any proceedings conducted under the authority of this article the alleged mentally retarded person shall be informed of his right to counsel by the court; and if he does not have an attorney for the proceedings the court shall immediately appoint the public defender or other attorney to represent him. The person shall pay the cost for such legal service if he is able.

SEC. 642. Section 6502 of the Welfare and Institutions Code is amended to read:

6502. A petition for the commitment of a mentally retarded person to the State Department of Developmental Services for placement in a state hospital may be filed in the superior court of the county in which such person resides, by any of the following persons:

(a) The parent, guardian, or other person charged with the support of the mentally retarded person.

(b) Any district attorney or probation officer.

(c) The Youth Authority.

(d) Any person designated for that purpose by the judge of the court.

(e) The Director of Corrections.

The petition shall state the petitioner's reasons for supposing the person to be eligible for admission thereto, and shall be verified by the affidavit of the petitioner.

SEC. 643. Section 6509 of the Welfare and Institutions Code is amended to read:

6509. If the court finds that the person is mentally retarded, and that he or his parent or guardian is a resident of this state as determined in accordance with Section 6501, the court may make an

order that the person be committed to the State Department of Developmental Services for hospitalization. The court, however, may commit a mentally retarded person who has been in the state less than one year, or a mentally retarded minor who is not eligible for commitment to the State Department of Developmental Services under Section 6501 for the purpose of transportation of such person to the state of his legal residence pursuant to Section 4119. The State Department of Developmental Services shall receive the person committed to it and shall place the person in a state hospital unless such institutions are already full, or the funds available for their support are exhausted, or, in the opinion of the State Department of Developmental Services, the person is not a suitable subject for admission thereto.

SEC. 644. Section 6551 of the Welfare and Institutions Code is amended to read:

6551. If the court is in doubt as to whether the person is mentally disordered or mentally retarded, the court shall order the person to be taken to a facility designated by the county and approved by the State Department of Mental Health as a facility for 72-hour treatment and evaluation. Thereupon the provisions of Article 1 (commencing with Section 5150) of Chapter 2 of Part 1 of Division 5 apply except that the professional person in charge of the facility shall make a written report to the court concerning the results of the evaluation of the person's mental condition. If the professional person in charge of the facility finds the person is, as a result of mental disorder, in need of intensive treatment, he may be certified for not more than 14 days involuntary intensive treatment if the conditions set forth in subdivision (c) of Section 5250 are complied with. Thereupon, the provisions of Article 4 (commencing with Section 5250) of Chapter 2 of Part 1 of Division 5 shall apply to the person. The person may be detained pursuant to Article 4.5 (commencing with Section 5260) or Article 6 (commencing with Section 5300) of Part 1 of Division 5 if the provisions of such articles apply to him.

If the professional person in charge of the facility finds that the person is mentally retarded, the juvenile court may direct the filing in any other court of a petition for the commitment of a minor as a mentally retarded person to the State Department of Developmental Services for placement in a state hospital. In such case, the juvenile court shall transmit to the court in which the petition is filed a copy of the report of the professional person in charge of the facility in which the minor was placed for observation. The court in which the petition for commitment is filed may accept the report of the professional person in lieu of the appointment, or subpoenaing, and testimony of other expert witnesses appointed by the court, if the laws applicable to such commitment proceedings provide for the appointment by court of medical or other expert witnesses or may consider the report as evidence in addition to the testimony of medical or other expert witnesses.

If the professional person in charge of the facility for 72-hour evaluation and treatment reports to the juvenile court that the minor is not affected with any mental disorder requiring intensive treatment or mental retardation, the professional person in charge of the facility shall return the minor to the juvenile court on or before the expiration of the 72-hour period and the court shall proceed with the case in accordance with the Juvenile Court Law.

Any expenditure for the evaluation or intensive treatment of a minor under this section shall be considered an expenditure made under Part 2 (commencing with Section 5600) of Division 5 and shall be reimbursed by the state as are other local expenditures pursuant to that part.

The jurisdiction of the juvenile court over the minor shall be suspended during such time as the minor is subject to the jurisdiction of the court in which the petition for postcertification treatment of an imminently dangerous person or the petition for commitment of a mentally retarded person is filed or under remand for 90 days for intensive treatment or commitment ordered by such court.

SEC. 645. Section 6718 of the Welfare and Institutions Code is amended to read:

6718. There shall at all times be at least two such medical examiners in each county. The certificate may be revoked by the department for incompetency or neglect, and shall not be again granted without the consent of the department.

The county may contract with public or private hospitals for such facilities and hospital service when they are not suitably available in

any institution or establishment maintained or operated by the county.

The facilities and services for the mentally disordered and allegedly mentally disordered shall be subject to the approval of the State Department of Mental Health, and the facilities and services for the developmentally disabled and allegedly developmentally disabled shall be subject to the approval of the State Department of Developmental Services. Each person having charge and control of any such hospital shall allow the department whose approval is required to make such investigations thereof as it deems necessary at any time.

Nothing in this chapter means that mentally disordered, or mentally retarded persons may not be detained, supervised, cared for, or treated, subject to the right of inquiry or investigation by the department, in their own homes, or the homes of their relatives or friends, or in a licensed establishment.

7254. The provisions of this section apply to any person who has been lawfully committed or admitted to any state hospital for the mentally disordered or mentally retarded and who is afflicted with, or suffers from, any of the following conditions:

(a) Mental disease which may have been inherited and is likely to be transmitted to descendants.

(b) Mental retardation, in any of its various grades.

(c) Marked departures from normal mentality.

The State Department of Mental Health with respect to a patient or resident in a state hospital or home under its jurisdiction, and the State Department of Developmental Services with respect to a patient or resident in a state hospital or home under its jurisdiction, upon compliance with the provisions of this section, may cause any such person to be sterilized by the operation of vasectomy upon the patient if a male and of salpingectomy if a female or any other operation or treatment that will permanently sterilize but not unsex the patient. When the superintendent of the state hospital or state home is of the opinion that a patient who is afflicted with or suffering from any of the conditions specified in this section should be sterilized, he shall certify such opinion to the director of the department having jurisdiction over the hospital or home and shall at the same time give written notice of such certification to the patient and to his known parents, spouse, adult children, or guardian, if any, by registered mail to their last known address. If the patient has no known relatives or guardian, such notice shall be given to the person who petitioned for the patient's commitment. Such notice shall further state that written objection or written consent to the proposed sterilization, should be filed with the director of the department having jurisdiction over the hospital or home at his office in Sacramento within 30 days by the patient, spouse, next of kin or guardian.

When a written consent is filed, or if no objection is filed within the 30 days, the director of the department having jurisdiction over the hospital or home, if satisfied that the sterilization will not unduly endanger the patient's health and that it is a proper case for sterilization, may authorize the superintendent to proceed with the sterilization of the patient. The director may cause such examination of the patient and other inquiry to be made as he deems advisable

before issuing the authorization to the superintendent.

If a written objection is filed within the 30 days by the patient, his spouse, next of kin, or guardian, and in those cases where the patient has no known relatives or guardian, the proposed sterilization shall not be authorized or performed until the director of the department having jurisdiction over the hospital or home has determined the matter. He shall make full inquiry into the case, and may hold a hearing at the institution at which hearing the patient shall be present, and the objecting party and others interested on behalf of the patient may be heard. If the decision of the director is that the patient shall not be sterilized, he shall so order and notify the superintendent, the patient and the objecting party. If the decision of the director is that the patient should be sterilized, he shall send notice of such decision to the patient, his known parents, spouse, adult children, and guardian, if any, and the objecting party, by registered mail to their last known address. Such notice shall further state that any such party has the right within 30 days to petition the superior court of the county in which the institution is situated or of the county of the patient's residence for a review of the decision.

If such petition is filed in court within 30 days, and a true copy thereof is served upon the director of the department having jurisdiction over the hospital or home, the patient shall not be sterilized unless and until the court, after hearing, issues an order authorizing the sterilization of the patient in accordance with the provisions of this section. If such petition is not filed in court within 30 days, the director may authorize the superintendent to proceed with such sterilization. The sterilization of a patient in accordance with the provisions of this section, whether performed with or without the consent of the patient, shall be lawful and shall not render the department, its officers or employees, or any persons participating in the operation liable either civilly or criminally.

SEC. 659. Section 7276 of the Welfare and Institutions Code is amended to read:

7276. The charge for the care and treatment of all mentally disordered persons and alcoholics at state hospitals for the mentally disordered for whom there is liability to pay therefor shall be determined pursuant to Section 4025. The Director of Mental Health may reduce, cancel or remit the amount to be paid by the estate or the relatives, as the case may be, liable for the care and treatment of any mentally disordered person or alcoholic who is a patient at a state hospital for the mentally disordered, on satisfactory proof that the estate or relatives, as the case may be, are unable to pay the cost of such care and treatment or that the amount is uncollectible. In any case where there has been a payment under this section, and such payment or any part thereof is refunded because of the death, leave of absence, or discharge of any patient of such hospital, such amount shall be paid by the hospital or the State Department of Mental Health to the person who made the payment upon demand, and in the statement to the Controller the amounts refunded shall be

itemized and the aggregate deducted from the amount to be paid into the State Treasury, as provided by law. If any person dies at any time while his estate is liable for his care and treatment at a state hospital, the claim for the amount due may be presented to the executor or administrator of his estate, and paid as a preferred claim, with the same rank in order of preference, as claims for expenses of last illness.

SEC. 660. Section 7277 of the Welfare and Institutions Code is amended to read:

7277. The State Department of Mental Health shall collect all the costs and charges mentioned in Section 7275, and shall determine, pursuant to Section 7275, and collect the charges for care and treatment rendered persons in any community mental hygiene clinics maintained by the department and may take such action as is necessary to effect their collection within or without the state. The Director of Mental Health may, however, at his discretion, refuse to accept payment of charges for the care and treatment in a state hospital of any mentally disordered person or inebriate who is eligible for deportation by the federal immigration authorities.

SEC. 661. Section 7281 of the Welfare and Institutions Code is amended to read:

7281. There is at each institution under the jurisdiction of the State Department of Mental Health and at each institution under the jurisdiction of the State Department of Developmental Services, a fund known as the patients' personal deposit fund. Any funds coming into the possession of the superintendent, belonging to any patient in that institution, shall be deposited in the name of that patient in the patients' personal deposit fund, except that if a guardian of the estate is appointed for the patient then he shall have the right to demand and receive such funds. Whenever the sum belonging to any one patient, deposited in the patients' personal deposit fund, exceeds the sum of five hundred dollars ($500), the excess may be applied to the payment of the care, support, maintenance and medical attention of the patient. After the death of the patient any sum remaining in his personal deposit account in excess of burial costs may be applied for payment of care, support, maintenance and medical attention. Any of the funds belonging to a patient deposited in the patients' personal deposit fund may be used for the purchase of personal incidentals for the patient or may be applied in an amount not exceeding five hundred dollars ($500) to the payment of his burial expenses.

SEC. 662. Section 7282 of the Welfare and Institutions Code is amended to read:

7282. The State Department of Mental Health with respect to a state hospital under its jurisdiction, or the State Department of Developmental Services with respect to a state hospital under its jurisdiction, may in its own name bring an action to enforce payment for the cost and charges of transportation of a person to a state hospital against any person, guardian or relative liable for such

transportation. The department also may in its own name bring an action to recover for the use and benefit of any state hospital or for the state the amount due for the care, support, maintenance, and expenses of any patient therein, against any county, or officer thereof, or against any person, guardian, or relative, liable for such care, support, maintenance, or expenses.

SEC. 663. Section 7283 of the Welfare and Institutions Code is amended to read:

7283. All moneys collected by the State Department of Mental Health and the State Department of Developmental Services for the cost and charges of transportation of persons to state hospitals shall be remitted by the department to the State Treasury for credit to, and shall become a part of, the current appropriation from the General Fund of the state for the transportation of the mentally disordered, correctional school, or other state hospital patients and shall be available for expenditure for such purposes. In lieu of exact calculations of moneys collected for transportation charges the department may determine the amount of such collections by the use of such estimates or formula as may be approved by the Department of Finance.

SEC. 664. Section 7284 of the Welfare and Institutions Code is amended to read:

7284. If any incompetent person, who has no guardian and who has been admitted or committed to the State Department of Mental Health for placement in any state hospital for the mentally disordered or the mentally retarded is the owner of any property, the State Department of Mental Health, acting through its designated officer, may apply to a court of competent jurisdiction for its appointment as guardian of the estate of such incompetent person.

For the purposes of this section, the State Department of Mental Health is hereby made a corporation and may act as executor, administrator, guardian of estates, assignee, receiver, depositary or trustee, under appointment of any court or by authority of any law of this state, and may transact business in such capacity in like manner as an individual, and for this purpose may sue and be sued in any of the courts of this state.

If a person admitted or committed to the State Department of Mental Health dies, leaving any estate, and having no relatives at the time residing within this state, the State Department of Mental Health may apply for letters of administration of his estate, and, in the discretion of the court, letters of administration may be issued to the department. When the State Department of Mental Health is appointed as guardian or administrator, the department shall be appointed as guardian or administrator without bond. The officer designated by the department shall be required to give a surety bond in such amount as may be deemed necessary from time to time by the director, but in no event shall the initial bond be less than ten thousand dollars ($10,000), which bond shall be for the joint benefit of the several estates and the State of California. The State

Department of Mental Health shall receive such reasonable fees for its services as such guardian or administrator as the court allows. The fees paid to the State Department of Mental Health for its services as guardian or administrator of the various estates may be used as a trust account from which may be drawn expenses for filing fees, bond premiums, court costs, and other expenses required in the administration of the various estates. Whenever the balance remaining in such trust fund account shall exceed a sum deemed necessary by the department for the payment of such expenses, such excess shall be paid quarterly by the department into the State Treasury to the credit of the General Fund.

SEC. 665. Section 7285 of the Welfare and Institutions Code is amended to read:

7285. The State Department of Mental Health may invest funds held as executor, administrator, guardian of estates, or trustee, in bonds or obligations issued or guaranteed by the United States or the State of California. Such investments may be made and such bonds or obligations may be sold or exchanged for similar bonds or obligations without notice or court authorization.

SEC. 666. Section 7286 of the Welfare and Institutions Code is amended to read:

7286. The State Department of Mental Health may establish one or more common trusts for investment of funds held as executor, administrator, guardian of estates, or trustee and may designate from time to time the amount of participation of each estate in such trusts. The funds in such trusts may be invested only in bonds or obligations issued or guaranteed by the United States or the State of California.

The income and profits of each trust shall be the property of the estates participating and shall be distributed, when received, in proportion to the amount of participation of each estate in such trust. The losses of each trust shall be the losses of the estates participating and shall be apportioned, as the same occur, upon the same basis as income and profits.

SEC. 667. Section 7287 of the Welfare and Institutions Code is amended to read:

7287. Upon the death of an incompetent person over whom the State Department of Mental Health has obtained jurisdiction pursuant to Section 7284, the department may make proper disposition of the remains, and pay for the disposition of the remains together with any indebtedness existing at the time of the death of such person from the assets of the guardianship estate, and thereupon it shall file its final account with the court or otherwise close its administration of the estate of such person.

SEC. 668. Section 7288 of the Welfare and Institutions Code is amended to read:

7288. Whenever it appears that a person who has been admitted to a state institution and remains under the jurisdiction of the State Department of Mental Health does not have a guardian and owns personal property which requires safekeeping for the benefit of the

patient, the State Department of Mental Health may remove or cause to be removed such personal property from wherever located to a place of safekeeping.

Whenever it appears that such patient does not own property of a value which would warrant guardianship proceedings, the expenses of such removal and safekeeping shall be paid from funds appropriated for the support of the institution in which the patient is receiving care and treatment; provided, however, that if the sum on deposit to the credit of such patient in the patients' personal deposit fund exceeds the sum of three hundred dollars ($300), the excess may be applied to the payment of such expenses of removal and safekeeping.

When it is determined by the superintendent at any time after the removal for safekeeping of such personal property, that the patient is incurable or is likely to remain in a state institution indefinitely, then any of those articles of personal property which cannot be used by the patient at the institution may be sold at public auction and the proceeds therefrom shall first be applied in reimbursement of the expenses so incurred and the balance shall be deposited to the patient's credit in the patients' personal deposit fund. All moneys so received as reimbursement shall be deposited in the State Treasury in augmentation of the appropriation from which the expenses were paid.

SEC. 669. Section 7289 of the Welfare and Institutions Code is amended to read:

7289. When a person who is a patient of a state hospital in the State Department of Mental Health or the State Department of Developmental Services has no guardian and has money due or owing to him, the total amount of which does not exceed the sum of three thousand dollars ($3,000), the superintendent of the institution of which the person is a patient may collect any money so due or owing upon furnishing to the person, representative, officer, body or corporation in possession of or owing any such sums, an affidavit executed by the superintendent or acting superintendent. The affidavit shall contain the name of the institution of which the person is a patient, and the statement that the total amount of such sums known to be due to the person does not exceed the sum of three thousand dollars ($3,000). Payments from retirement systems and annuity plans which are due or owing to such patients may also be collected by the superintendent of the institution of which the person is a patient, upon the furnishing of an affidavit executed by the superintendent or acting superintendent, containing the name of the institution of which the person is a patient and the statement that such person is entitled to receive such payments. Such sums shall be delivered to the superintendent and shall be deposited by him in the patients' personal deposit fund as provided in Section 7281 of this code.

The receipt of such superintendent shall constitute sufficient acquittance for any payment of money made pursuant to the

provisions of this section and shall fully discharge such person, representative, officer, body or corporation from any further liability with reference to the amount of money so paid.

The superintendent of each institution shall render such reports and accounts annually or more often as may be required by the department having jurisdiction over the hospital or the Department of Finance of all moneys of patients deposited in the patients' personal deposit accounts of the institution.

SEC. 670. Section 7290 of the Welfare and Institutions Code is amended to read:

7290. The State Department of Mental Health or the State Department of Developmental Services may enter into a special agreement, secured by a properly executed bond, with the relatives, guardian, or friend of any patient therein, for his care, support, maintenance, or other expenses at the institution. Such agreement and bond shall be to the people of the State of California and action to enforce the same may be brought thereon by the department. All charges due under the provisions of this section, including the monthly rate for the patient's care and treatment as established by or pursuant to law, shall be collected monthly. No patient, however, shall be permitted to occupy more than one room in any state institution.

SEC. 671. Section 7292 of the Welfare and Institutions Code is amended to read:

7292. The cost of such care shall be determined and fixed from time to time by the Director of Developmental Services, but in no case shall it exceed the rate of forty dollars ($40) per month.

SEC. 672. Section 7293 of the Welfare and Institutions Code is amended to read:

7293. The State Department of Developmental Services shall present to the county, not more frequently than monthly, a claim for the amount due the state under Section 7291 which the county shall process and pay pursuant to the provisions of Chapter 4 (commencing with Section 29700) of Division 3 of Title 3 of the Government Code.

SEC. 673. Section 7294 of the Welfare and Institutions Code is amended to read:

7294. Any person who has been committed as a defective or psychopathic delinquent may be paroled or granted a leave of absence by the medical superintendent of the institution wherein the person is confined whenever the medical superintendent is of the opinion that the person has improved to such an extent that he is no longer a menace to the health and safety of others or that the person will receive benefit from such parole or leave of absence, and after the medical superintendent and the Director of Mental Health have certified such opinion to the committing court.

If within 30 days after the receipt of such certification the committing court orders the return of such person, the person shall be returned forthwith to await further action of the court. If within

30 days after the receipt of such certification the committing court does not order the return of the person to await the further action of the court, the medical superintendent may thereafter parole the person under such terms and conditions as may be specified by the superintendent. Any such paroled inmate may at any time during the parole period be recalled to the institution. The period of parole shall in no case be less than five years, and shall be on the same general rules and conditions as parole of the mentally disordered.

When any person has been paroled for five consecutive years, if in the opinion of the medical superintendent and the Director of Mental Health the person is no longer a menace to the health, person, or property of himself or of any other person, the medical superintendent, subject to the approval of the Director of Mental Health, may discharge the person. The committing court shall be furnished with a certified copy of such discharge and shall thereupon make such disposition of the court case as it deems necessary and proper.

When, in the opinion of the medical superintendent, a person heretofore committed as a defective or psychopathic delinquent will not benefit by further care and treatment under any facilities of the department and should be returned to the jurisdiction of the court, the superintendent of the institution and the Director of Mental Health shall certify such opinion to the committing court including therein a report, diagnosis and recommendation concerning the person's future care, supervision or treatment. Upon receipt of such certification, the committing court shall forthwith order the return of the person to the court. The person shall be entitled to a court hearing and to present witnesses in his own behalf, to be represented by counsel and to cross-examine any witness who testifies against him. After considering all the evidence before it, the court may make such further order or commitment with reference to such person as may be authorized by law.

SEC. 674. Section 7300 of the Welfare and Institutions Code is amended to read:

7300. It shall be the policy of the department to make available to all persons admitted to a state hospital prior to July 1, 1969, and to all persons judicially committed or remanded to its jurisdiction all of the facilities under the control of the department. Whenever, in the opinion of the Director of Mental Health, it appears that a person admitted prior to July 1, 1969, or that a person judicially committed or remanded to the State Department of Mental Health for placement in an institution would be benefited by a transfer from that institution to another institution in the department, the director may cause the transfer of the patient from that institution to another institution under the jurisdiction of the department. Preference shall be given in any such transfer to an institution in an adjoining rather than a remote district.

However, before any inmate of a correctional school may be transferred to a state hospital for the mentally disordered he shall

first be returned to a court of competent jurisdiction, and, if subject to commitment, after hearing, may be committed to a state hospital for the mentally disordered in accordance with law.

The expense of such transfers is chargeable to the state, and the bills for the same, when approved by the Director of Mental Health, shall be paid by the Treasurer on the warrant of the Controller, out of any moneys provided for the care or support of the patients or out of the moneys provided for the support of the department, in the discretion of the department.

SEC. 675. Section 7301 of the Welfare and Institutions Code is amended to read:

Persons so transferred shall not be subject to the provisions of Section 4500, 4501, 4501.5, 4502, 4530, or 4531 of the Penal Code. However, they shall be subject to the general rules of the Director of Corrections and of the facility where they are confined and any correctional employee dealing with such persons during the course of an escape or attempted escape, a fight or a riot, shall have the same rights, privileges and immunities as if the person transferred had been committed to the Director of Corrections.

Whenever a person is transferred to an institution under the jurisdiction of the Department of Corrections pursuant to this section, any report, opinion, or certificate required or authorized to be filed with the court which committed such person to a state hospital, or ordered such person placed therein, shall be prepared and filed with the court by the head of the institution in which the person is actually confined or by the designee of such head.

SEC. 676. Section 7302 of the Welfare and Institutions Code is amended to read:

7302. Patients admitted to a state hospital prior to July 1, 1969, and all patients judicially committed or remanded, may be transferred to a like institution at the request of relatives or friends, if there is room in the like institution to which transfer is sought and if the department or departments having jurisdiction over such institutions and the medical directors of the institutions from which and to which the transfer is to be made consent thereto. The expense of such transfer shall be paid by such relatives or friends.

SEC. 678. Section 7304 of the Welfare and Institutions Code is amended to read:

7304. Whenever a person, committed to the State Department of Mental Health or the State Department of Developmental Services under one of the commitment laws providing for no reimbursement for care and treatment to the state by the county of commitment, is transferred under Section 6700 to an institution under the jurisdiction of the department where the county is required to reimburse the state for such care and treatment, the State Department of Mental Health or the State Department of Developmental Services may have the original commitment vacated and a new commitment issued, designating the institution to which the person has been transferred, in order to make the county liable for the care and treatment of the committed person to the extent provided by Sections 7511 and 7512 of the Welfare and Institutions Code.

SEC. 679. Section 7305 of the Welfare and Institutions Code is amended to read:

7305. A mentally retarded patient in a state hospital shall not be transferred by the State Department of Developmental Services to a different state hospital without the consent of his parent, or guardian, if any.

SEC. 680. Section 7325 of the Welfare and Institutions Code is amended to read:

7325. When any patient committed by a court to a state hospital or other institution on or before June 30, 1969, or when any patient who is judicially committed on or after July 1, 1969, or when any patient who is involuntarily detained pursuant to Part 1 (commencing with Section 5000) of Division 5 escapes from any state hospital, any hospital or facility operated by or under the Veterans' Administration of the United States government, or any facility designated by a county pursuant to such Part 1, or any facility into which the patient has been placed by his conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, or when a judicially committed patient's

return from leave of absence has been authorized or ordered by the State Department of Mental Health or the facility of the Veterans' Administration, any peace officer, upon written request of the state hospital, veterans' facility, or the facility designated by a county, or the patient's conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, shall without the necessity of a warrant or court order, or any officer or employee of the State Department of Mental Health designated to perform such duties may, apprehend, take into custody and deliver him to the state hospital or to a facility of the Veterans' Administration, or the facility designated by a county, or to any person or place authorized by the State Department of Mental Health, or by the Veterans' Administration, or the local director of the county mental health program of the county in which is located the facility designated by the county, or the patient's conservator appointed pursuant to Chapter 3 (commencing with Section 5350), Part 1, Division 5, of this code, as the case may be, to receive him. Every officer or employee of the State Department of Mental Health designated to apprehend or return such patients shall have the powers and privileges of peace officers so far as necessary to enforce the provisions of this section.

As used in this section "any peace officer" means the persons specified in Section 830.1 of the Penal Code.

The written notification of the escape required by this section shall include the name and physical description of the patient, his home address, the degree of dangerousness of the patient and any additional information which is necessary to apprehend and return the patient. Any officer or employee of a state hospital, hospital or facility operated by or under the Veterans' Administration, or any facility designated by a county pursuant to Part 1 (commencing with Section 5000) of Division 5 shall provide any peace officer with any information concerning any patient who escapes from such hospital or facility in order to assist in the apprehension and return of the patient.

The person in charge of such hospital or facility, or his designee, may provide telephonic notification of the escape to the law enforcement agency of the county or city in which the hospital or facility is located. If such notification is given, the time and date of notification, the person notified, and the person making the notification shall be noted in the written notification required by this section.

SEC. 681. Section 7328 of the Welfare and Institutions Code is amended to read:

7328. Whenever a person, committed to an institution subject to the jurisdiction of the State Department of Mental Health or the State Department of Developmental Services under one of the commitment laws which provides for reimburement for care and treatment to the state by the county of commitment of such person, is accused of committing a crime while confined in such institution

and is committed by the court in which the crime is charged to another institution under the jurisdiction of the State Department of Mental Health or the Department of Corrections, the state rather than the county of commitment shall bear the subsequent cost of supporting and caring for such person.

SEC. 682. Section 7329 of the Welfare and Institutions Code is amended to read:

7329. When any patient, who is subject to judicial commitment, has escaped from any public mental hospital in a state of the United States other than California and is present in this state, any peace officer, health officer, county physician, or assistant county physician may take such person into custody within five years after the escape. Such person may be admitted and detained in the quarters provided in any county hospital or state hospital upon application of the peace officer, health officer, county physician, or assistant county physician. The application shall be in writing and shall state the identity of the person, the name and place of the institution from which he escaped and the approximate date of the escape, and the fact that the person has been apprehended pursuant to this section.

As soon as possible after the person is apprehended, the district attorney of the county in which the person is present shall file a petition in the superior court alleging the facts of the escape, and requesting an immediate hearing on the question of whether the person has escaped from a public mental hospital in another state within five years prior to his apprehension. The hearing shall be held within three days after the day on which the person was taken into custody. If the court finds that the person has not escaped from such a hospital within five years prior to his apprehension, he shall be released immediately.

If the court finds that the person did escape from a public mental hospital in another state within five years prior to his apprehension, the superintendent or physician in charge of the quarters provided in such county hospital or state hospital may care for and treat the person, and the district attorney of the county in which such person is present immediately shall present to a judge of the superior court a petition asking that the person be judicially committed to a state hospital in this state. The hearing on the petition shall be held within seven days after the court's determination in the original hearing that the person did escape from a public mental hospital in another state within five years prior to his apprehension. Proceedings shall thereafter be conducted as on a petition for judicial commitment of the particular type of person subject to judicial commitment. If the court finds that the person is subject to judicial commitment it shall order him judicially committed to a state hospital in this state; otherwise, it shall order him to be released. It shall be the duty of the superintendent of the state hospital to accept custody of such person, if he has been determined to be subject to judicial commitment. The State Department of Mental Health will promptly cause such person to be returned to the institution from which he escaped if the

authorities in charge of such institution agree to accept him. If such authorities refuse to accept such person, the superintendent of the state hospital in which the person is confined shall continue to care for and treat the person in the same manner as any other person judicially committed to the hospital as mentally disordered.

7354. Any mentally disordered person may be granted care in a licensed institution or other suitable licensed or certified facility. The State Department of Mental Health may pay for such care at a rate not exceeding the average cost of care of patients in the state hospitals as determined by the Director of Mental Health. Such payments shall be made from funds available to the State Department of Mental Health for that purpose.

The State Department of Mental Health may make payments for services for mentally disordered patients in private facilities released or discharged from state hospitals on the basis of reimbursement for reasonable cost, using the same standards and rates consistent with those established by the State Department of Health Services for similar types of care. Such payments shall be made within the limitation of funds appropriated to the State Department of Mental Health for that purpose.

No payments for care or services of a mentally disordered patient shall be made by the State Department of Mental Health pursuant to this section unless such care or services are requested by the local director of the mental health services of the county of the patient's residence, unless provision for such care or services is made in the county Short-Doyle plan of the county under which the county shall

reimburse the department for 10 percent of the amount expended by the department, exclusive of such portion of the cost as is provided by the federal government.

The provision for such 10 percent county share shall be inapplicable with respect to any county with a population of under 100,000 which has not elected to participate financially in providing services under Division 5 (commencing with Section 5000) in accordance with Section 5709.5. No payments for care or services of a developmentally disabled person shall be made by the State Department of Developmental Services pursuant to this section, unless requested by the regional center having jurisdiction over the patient and provision for such care or services is made in the areawide mental retardation plan.

Any person, including every public officer and employee, who knowingly secures or possesses, other than in the course of official duty, an official list or a list compiled from official sources, published

If an institution or a county fails to comply promptly with the provisions of this chapter and the rules and regulations of the department cannot be enforced in any other manner, the institution or county failing or refusing to comply with such provisions, rules, and regulations, or to permit the inquiry provided for in this section, shall not thereafter receive aid under the provisions of this chapter until it has complied with all such provisions, rules, and regulations and has permitted the inquiry by the department, if such inquiry is demanded.

11301. The State Department of Social Services shall identify the kinds of information regarding persons registered pursuant to Section 11310 which are required for the efficient administration of work incentive programs, and develop methods and procedures which will assure the prompt and orderly exchange of such information between the State Department of Social Services and the Employment Development Department. It is the intent of the Legislature that income and resources expected to be available to the recipient during the period the employability plan is in effect shall be estimated by the county department at the time the recipient is accepted as a participant under the work incentive program and at six-month intervals thereafter.

SEC. 801. Section 11307 of the Welfare and Institutions Code is amended to read:

11307. The department shall provide special safeguards, to the extent not in conflict with federal law, in the certification of a parent with primary responsibility for the care of preschool age children for participation in work incentive programs to assure that such participation shall be in the best interest of such parent and the parent's family, and that adequate child care will be provided in such parent's absence.

SEC. 802. Section 11403 of the Welfare and Institutions Code is amended to read:

11403. An institution maintaining a needy child may make application to the department for aid for the child. To the extent of funds so allocated, each county department shall provide child care services subject to the regulations of the State Department of Social Services for persons receiving aid under this chapter who are in need of such services because they are engaged in, or, if provided such services, could engage in a work incentive program or approved vocational development program.

Such absent parent support payments, when collected by or paid through any public officer or agency, shall be transmitted to the county

department providing aid under this chapter.

The State Department of Social Services, by regulation, shall establish procedures not in conflict with federal law, for the distribution of such noncustodial parent support payments.

If an amount collected as child support represents payment on the required support obligation for future months, the amount shall be applied to such future months. However, no such amounts shall be applied to future months unless amounts have been collected which fully satisfy the support obligation assigned under subdivision (a) of Section 11477 for the current months and all past months.

SEC. 805. Section 11475 of the Welfare and Institutions Code is amended to read:

11475. The department is hereby designated the single organizational unit whose duty it shall be to administer the state plan for securing child support and determining paternity. State plan functions shall be performed by other agencies as required by law, by delegation of the department, or by cooperative agreements. The director shall, not later than February 1, 1976, and annually thereafter, report to the Legislature on the administration of the state plan for securing support and determining paternity. Such report shall include, but not be limited to, the following:

(a) Information on the administration of the program, including the number of cases and a summary of the amounts collected from noncustodial parents and an analysis of the disbursement of such funds to recipients, counties, and the state.

(b) An analysis of the cost effectiveness of the program.

(c) Any changes in federal statutes or regulations which have occurred on or after July 1, 1975.

The director shall formulate, adopt, amend or repeal, in accordance with provisions of Section 10554, regulations and general policies affecting the purposes, responsibilities, and jurisdiction of the department and which are consistent with law and necessary for the administration of the state plan for securing child support and determining paternity. The department, with the cooperation of the Department of Justice, shall insure that there is an adequate organizational structure and sufficient staff to perform functions delegated to any governmental unit relating to Title IV-D of the Social Security Act.

SEC. 806. Section 11475.1 of the Welfare and Institutions Code is amended to read:

11475.1. Each county shall maintain a single organizational unit located in the office of the district attorney which shall have responsibility for promptly and effectively enforcing the obligation of parents to support their children and determining paternity in the case of a child born out of wedlock. The district attorney shall take appropriate action, both civil and criminal, to enforce this obligation when the child is receiving public assistance and when requested to do so by the individual on whose behalf the enforcement efforts will be made when the child is not receiving public assistance. There shall

be prominently displayed in every public area of every office of the units established by this section a notice, in clear and simple language prescribed by the Director of Social Services, that child support enforcement services are provided to all individuals whether or not they are recipients of public social services.

Nothing herein shall prohibit the district attorney from entering into cooperative arrangements with other county departments as necessary to carry out the responsibilities imposed by this section pursuant to plans of cooperation with such departments approved by the State Department of Social Services.

SEC. 807. Section 11475.2 of the Welfare and Institutions Code is amended to read:

11475.2. If at any time the Director of Social Services considers any public agency, which is required by law, by delegation of the department, or by cooperative agreement, to perform functions relating to the state plan for securing child support and determining paternity, to be failing in a substantial manner to comply with any provision of the state plan, the director shall put such agency on written notice to that effect.

If the director determines that there is a failure on the part of such public agency to comply with the provisions of the state plan, or if the State Personnel Board certifies to the director that such public agency is not in conformity with applicable merit system standards under Part 2.5 (commencing with Section 19800) of Division 5 of Title 2 of the Government Code, and that sanctions are necessary to secure compliance, the director may invoke either or both of the following sanctions:

(a) Withhold part or all of state and federal funds, including incentive funds, from such public agency until the public agency shall make a showing to the director of full compliance; or

(b) Notify the Attorney General that there has been a failure to comply with the state plan and the Attorney General shall take appropriate action to secure compliance.

Nothing in this section shall be construed as relieving the board of supervisors of the responsibility to provide funds necessary for the continued operation of the state plan as required by law.

SEC. 808. Section 11477 of the Welfare and Institutions Code is amended to read:

11477. As a condition of eligibility for aid paid under this chapter, each applicant or recipient shall:

(a) Assign to the county any rights to support from any other person such applicant may have in their own behalf or in behalf of any other family member for whom the applicant is applying for or receiving aid, and which have accrued at the time such assignment is made. Receipt of public assistance under this chapter shall operate as an assignment by operation of law.

(b) Cooperate with the county welfare department and district attorney in establishing the paternity of a child born out of wedlock with respect to whom aid is claimed, and in obtaining any support

payments due any person for whom aid is requested or obtained. The State Department of Social Services shall establish an exclusive list of acts, in accordance with federal law, which shall be the only acts deemed to be a refusal to offer reasonable cooperation and assistance. The county welfare department shall verify that the applicant or recipient refused to offer reasonable cooperation prior to determining that such applicant or recipient is ineligible. The granting of aid shall not be delayed or denied if the applicant is otherwise eligible, if the applicant completes the necessary forms and agrees to cooperate with the district attorney in securing support and determining paternity, where applicable.

A recipient shall be considered to be cooperating with the county welfare department or the district attorney's office and they shall be eligible for aid, if otherwise eligible, if they cooperate to the best of their ability or have good cause for refusal to cooperate. The department, in accordance with federal law, shall establish standards for determining good cause for refusal to cooperate. With respect to any application or any questionnaire relating to any application, no questions on paternity shall be asked in cases where paternity is not legally an issue. Persons eligible for immediate aid pursuant to Section 11056 or Section 11266 shall receive such aid prior to completing the forms required to obtain child support and establish paternity, provided that they indicate they will cooperate in these matters. Appearances at public agencies required pursuant to this section, subsequent to certification of the applicant shall be scheduled with due regard for his parental duties and employment responsibilities. If an appearance is required at a time other than normal working hours, a statement as to the reason for such appearance shall be inserted in the file of the applicant.

If the relative with whom a child is living is found to be ineligible because of failure to comply with the provisions of this section, any aid for which such child is eligible will, to the extent required by federal law, be provided in the form of protective payments.

The county welfare department shall insure that all applicants for or recipients of aid under this chapter are properly notified of the conditions imposed by this section.

In addition the district attorneys shall submit to the Attorney General a uniform statistical report each month summarizing case and collection activity in their counties in connection with child support enforcement. The Attorney General shall adopt a uniform report form to be used by the district attorneys in submitting this monthly report. The purpose of this uniform monthly report is to facilitate the analysis of each county's performance in child support activities.

Any records established pursuant to the provisions of this section shall be available only to district attorneys, probation departments, state locator services, the federal parent locator service, and courts having jurisdiction in support, custody, abduction, or abandonment proceedings or actions.

The State Department of Rehabilitation may contract with individual counties to provide such services.

Vocational rehabilitation services provided under this section shall be financed, to the extent possible, under Section 1615(b) of Part A of Title XVI of the Social Security Act and shall be limited to the amounts appropriated for such purpose.

SEC. 812. Section 12301.5 of the Welfare and Institutions Code is amended to read:

12301.5. The department may secure to the extent feasible such in-home supportive and other health services for persons eligible under this article to which they are entitled under the Medi-Cal Act (Chapter 7 (commencing with Section 14000) of this part).

12302. Each county welfare department shall develop and submit a plan to the State Department of Social Services that provides for the delivery services to meet the objectives and conditions of this article with regard to in-home supportive services.

In order to implement such a plan, an individual county may hire homemakers and other in-home supportive personnel in accordance with established county civil service requirements or merit system requirements for those counties not having civil service, or may contract with a city, county, or city and county agency, a local health district, a voluntary nonprofit agency, a proprietary agency, or an individual or make direct payment to a recipient for the purchase of services.

The allowance under this section shall be in addition to any amount that the applicant or recipient is entitled to under this chapter. Such allowance shall not have the effect of exceeding the total cost maximum of Sections 12303.5 and 12304. Nothing in this section shall be construed to limit the applicant's or recipient's right to receive the allowance under this section and all other homemaker and chore services.

The State Department of Social Services shall adjust the amount of the allowance under this section to be equivalent to the amount of the special need allowance under subdivision (e) of Section 12200.

Increases in the maximum amount payable under this section shall not be construed to mean automatic increases in the amounts payable under this article.

(b) A severely impaired individual eligible for services under this article who is capable of handling his own financial and legal affairs shall be given the option of hiring and paying his own provider of in-home supportive services. For this purpose such individual shall be entitled to receive a monthly cash payment in advance not to exceed the maximum amount provided in subdivision (a) of this section, which is in addition to his grant, if any. A severely impaired individual who is not capable of handling his own financial and legal affairs shall be entitled to receive such cash payment through his guardian, conservator or protective payee.

(c) In no event shall the maximum total cost for services and advance cash payment for one individual recipient under subdivisions (a) and (b) of this section exceed the maximum of four hundred fifty dollars ($450) per month, as adjusted pursuant to subdivision (a) of this section.

(f) The county welfare department shall review the provisions of services under this section at least every six months.

(g) Funding for the in-home supportive services under this section shall qualify, where possible, for the maximum federal reimbursement. The purpose of such overall plan shall be to maintain an appropriate balance between nonmedical and medical facilities to the end that recipients of public assistance or persons otherwise defined as needy by the provisions of this code are given the care they require at the lowest possible cost.

The plan established by the director pursuant to this section may include the use of an interdisciplinary review process to insure that persons are not placed or retained in medical care facilities when appropriate care can otherwise be provided at lower cost.

Such cards shall be for a term as determined by the department and, unless canceled for cause, shall entitle individuals to care and service as indicated. Such contract shall provide that the carrier:

(1) Will take such action as may be necessary to assure that payment for services to hospitals and other facilities and professional services shall be predicated on the basis of reimbursement for reasonable cost based on standards, determined by the director. The formula for such payments shall be determined in accordance with regulations establishing the methods to be used and the items to be included. In prescribing such regulations, the department shall consider, among other things, the principles generally applied by state organizations representing such hospitals or other facilities or by established prepayment organizations which have developed such principles, in determining the method or methods to be used in arriving at the payment formula.

(2) Will take such action as may be necessary to assure that where payment under this chapter is on a charge basis, such charge will be reasonable and not higher than the charge applicable for a comparable service and under comparable circumstances to the policyholders and subscribers of the carrier.

(3) Bills for service under this chapter shall be reviewed and payment or rejection made within 30 days from receipt of evidence establishing validity of the bill for payment in the office of the paying agency. If it is determined by the paying agency that additional evidence of validity is required, such evidence shall be requested within 30 days from the date the bill is received in the office of the paying agency. In any event, notice shall be given in 60 days from the date the bill is received concerning the status of the bill submitted if such bill is held for peer review in the office of the paying agency beyond 30 days.

Such policies and regulations shall include rates for payment for services not rendered under a contract pursuant to Chapter 8 (commencing with Section 14200) of this part. Standards for costs shall be based on payments of the reasonable cost for such services. Amounts paid for services provided to Medi-Cal beneficiaries shall be audited by the department in the manner and form prescribed by it. The department shall maintain adequate controls to insure responsibility and accountability for the expenditure of federal and state funds. Cost reports and other data submitted by providers to a state agency for the purpose of determining reasonable costs for services or establishing rates of payment shall be considered true and correct unless audited or reviewed by the department within eighteen (18) months after July 1, 1969, the close of the period covered by the report, or after the date of submission of the original or amended report by the provider, whichever is later; provided, however, that cost reports and other data for cost reporting periods beginning on January 1, 1972, and thereafter shall be considered true and correct unless audited or reviewed within three years after the close of the period covered by the report, or after the date of submission of the original or amended report by the provider, whichever is later.

Nothing in this section shall be construed to limit the correction of cost reports or rates of payment when inaccuracies are determined to be the result of intent to defraud, or when a delay in the completion of an audit is the result of willful acts by the provider or inability to reach agreement on the terms of final settlement.

Insofar as practical, consistent with the efficient and economical administration of this part, the department shall afford recipients of public assistance free choice of arrangements under which they shall receive health care benefits.

If, in the judgment of the director, the actions taken by the director under subdivision (c) of Section 14120 will not be sufficient to operate the Medi-Cal program within the limits of appropriated funds, he may limit the scope and kinds of health care services, except for minimum coverage as defined in Section 14056, available to persons who are not eligible under Section 14005.1. When and if necessary, such action shall be taken by the director in ways consistent with the requirements of the Federal Social Security Act.

bed capacity or the conversion of existing bed capacity to a different license category, unless such licensee received a favorable final decision by the voluntary area health planning agency in the area, the consumer members of a voluntary area health planning agency acting as an appeals body or the Advisory Health Council pursuant to Sections 437.7 to 438.5, inclusive, of the Health and Safety Code; or unless the licensee had filed an application for a license prior to January 1, 1970, and the application met all then-existing requirements and regulations of the appropriate state agency at the time of application including, at least, preliminary submission of plans, and if such licensee commences construction of his project prior to July 1, 1971, and if such licensee has on file with the department a notarized affidavit from the building department having jurisdiction indicating that substantial progress on the approved project was attained by January 1, 1973, and such licensee has on file with the county recorder and department a valid notice of construction completion indicating January 1, 1974, as the completion date; except that the department shall extend the foregoing dates by no more than a total of two years in the case of projects where delay has resulted from the death of the original applicant, and shall extend the foregoing dates by no more than a total of one year in the case of projects where other good cause has been shown why such extension should be granted. The exception provided for in the preceding sentence with respect to applications filed prior to January 1, 1970, except for transfers executed before November 30, 1970 or after July 1, 1971, shall not apply to transferees of the applications of the original applicants.

Voluntary area health planning agencies may extend, until July 1, 1972, the date upon which applicants, qualifying under the exception in this section, shall commence construction, if the voluntary area health planning agencies declare that good cause has been shown why such extension should be granted, provided that an applicant applying for such extension had, prior to January 1, 1970, received approval of a health planning association in the county wherein the applicant is located. Applicants receiving extension of the construction commencement date shall have on file with the department a notarized affidavit from the building department having jurisdiction indicating that substantial progress on the approved project was attained by January 1, 1974, and have on file with the county recorder and department a valid notice of construction completion indicating January 1, 1975, as the completion date; except that the department shall extend each of the foregoing dates by no more than a total of one year in the case of projects where good cause has been shown why such extension should be granted.

(1) For structures of three or fewer stories, completion of the foundations and footings; the structural frame; the mechanical,

electrical, and plumbing rough-in; the rough flooring; the exterior walls and windows; and the finished roof

(2) For structures of more than three stories, a contractor's schedule of work shall be filed with the department by January 1, 1973. Every three months thereafter, until completion, evidence shall be submitted to the department that construction is progressing on that schedule.

(b) For the purposes of this section, construction of a project is deemed commenced on the date the applicant was so notified by the department, if so notified, or on the date the applicant has completed not less than all of the following:

(1) Submission to the appropriate state agency of a written agreement executed between the applicant and a licensed general contractor to construct and complete the facility within a designated time schedule in accordance with final architectural plans and specifications approved by such agency.

(2) Obtaining such initial permits or approval for commencing work, on the project as is customarily issued for projects of the scope of applicant by the governmental agency having jurisdiction over the construction.

(3) Completion of construction work on the project to such a degree as to justify and require a progress payment by the applicant to the general contractor under terms of the construction agreement.

If such modification is not sufficient to bring the program within available funds, the director may postpone elective services in the basic schedule of benefits. Such postponement of elective services shall be accomplished by changing the standards for approval of requests for prior authorizations. Such changes shall be designed to insure that those recipients most in need of elective services receive them first within the funds available, but that no particular service is completely eliminated.

(d) At any time during the fiscal year, if the total amounts paid since the beginning of the fiscal year exceed by 10 percent the amounts scheduled, the director shall immediately institute the action set forth in subdivision (c) above.

SEC. 865. Section 14310 of the Welfare and Institutions Code is amended to read:

14310. (a) In providing benefits under this chapter and Chapter 7 the director shall aggressively seek the development of alternative forms of financing and delivering health care services. The director shall, in carrying out the intent of this section, contract with institutional providers, counties, or other organizations to establish

pilot programs which demonstrate the value, or lack thereof, of such a program in delivering or financing health care services in such a manner. Each pilot program shall be for a specified duration not to exceed four years and each pilot program shall be evaluated annually for its efficiency, effectiveness, and quality.

(b) The director shall pursue the feasibility of establishing the following as pilot programs:

(2) A capitated, risk assuming contract with acute care hospitals within a county or region.

(3) A capitated, risk assuming contract with one or more organizations which provide payment to a specified class or classes of providers.

Persons eligible for services under Section 14005 may be assigned by the department to a prepaid health plan which affords any qualified Medi-Cal providers within the service area an opportunity to participate in the plan under reasonable restrictions approved by the department, provided, however, such persons shall be entitled to request and receive a Medi-Cal card if assignment to a plan does not meet with their satisfaction.

For purposes of this section, "risk assuming" means the pilot program contractor agrees to assume the risk of utilization of services or costs of services, or both.

(c) The department shall establish publicly operated health service delivery systems as pilot programs, to determine whether high-quality, comprehensive Medi-Cal benefits can be provided at a reasonable cost on a prepayment basis in a public service system. To the extent possible, the department shall establish programs in both rural and urban areas. The rural and urban areas designated for the programs shall be medically underserved to meet the health needs of the Medi-Cal population as determined by the director. (4) The programs shall provide the full range of Medi-Cal services required of prepaid, health plans and shall meet all statutory requirements and all regulatory and contractual requirements established by the department for the program.

(5) The programs shall emphasize the innovative use of health personnel including midlevel medical, nursing and dental professionals in ambulatory settings.

(6) Medi-Cal recipients enrolling in a pilot program pursuant to

this subdivision shall be offered a choice of qualified primary care physicians employed by the program to be the recipients' designated primary care physicians.

(d) The director shall also consider programs which demonstrate an innovative and economical use of health personnel, including, but not limited to, programs approved pursuant to Article 18 (commencing with Section 429.70) of Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, which emphasize preventive care, which stress new methods for controlling utilization of services or review of provider competency, or which provide an incentive to beneficiaries to seek the most economical level of care. Such programs may provide benefits on the basis of class of recipient, class of benefit, geographical area, or any other reasonable classification, and may provide, to the extent permitted by federal law, benefits or services not included in Section 14132. The director may provide that the extent of benefit coverage may be limited to a fixed number of days, or amount, or duration of services.

(e) Except as provided in subdivisions (b) and (c), payment may be made to a pilot program on a capitated or prepayment basis, on a fee-for-service basis, or on some combination of both systems. For the purposes of this subdivision, "capitated" or "prepayment" means a prospective per capita rate of payment determined in accordance with Section 14301, and the term "Medi-Cal beneficiaries enrolled in a prepaid health plan" in Section 14301 includes all Medi-Cal beneficiaries subject to the terms of a pilot program contract under which individual enrollment is not required.

(f) The director shall call a public hearing pursuant to Section 14300 prior to entering into or renewing a pilot program.

(g) The director shall submit to the Legislature a written report detailing the objectives of all pilot programs, the department's analysis of their effectiveness, efficiency, and quality, and other information regarding such pilot programs not later than January 30 of each year. SEC. 867. Section 14450 of the Welfare and Institutions Code is amended to read:

14450. No contract between the department and a prepaid health plan shall be approved or renewed unless the providers and the facilities of the prepaid health plan meet the Medi-Cal program standards for participation as established by the director. In addition, a prepaid health plan shall meet the following requirements:

(a) Laboratory services shall be provided only in laboratories which are approved by the department, except such laboratories which are exempt from such approval under Section 1241 of the Business and Professions Code, and which participate in a performance testing program approved by the department, or meet the conditions of participation under Title XVIII of the Social Security Act.

Such determination shall be specifically stated in the contract between the prepaid health plan and the department.

(e) The prepaid health plan shall not enroll more than 1,600 persons per full-time equivalent primary care physician and 1,200 persons per full-time equivalent physician. Such ratios may be adjusted by the department as appropriate to the medical needs of the Medi-Cal population proposed to be served by the plan or if appropriate utilization is made of allied health manpower. Such adjustment shall be specifically stated in the contract between the prepaid health plan and the department.

Each contract entered into by the department shall include identification of all primary care physicians, and all other physicians by their speciality designation. The prepaid health plan shall provide to the department the numbers, qualifications, and responsibilities of all personnel providing health care services.

No enrollment shall be permitted on the basis of part-time primary care physicians except for medical care foundations, or hospital or health care service plans which have an enrollment of 25,000 or

more, 50 percent of which are non-Medi-Cal recipients, and who have a board of directors upon which at least one-third of its members are consumers.

(f) The prepaid health plan shall furnish services in such a manner as to provide continuity of care and, when services are furnished by different providers, referral of patients to such services at such times as may be medically appropriate.

(g) A primary care physician shall be made available to each enrollee to supervise and coordinate the delivery of health care to the enrollee. If the enrollee becomes dissatisfied with his chosen primary care physician, the enrollee shall be able to choose another primary care physician.

(h) All services shall be readily available at reasonable times to all enrollees. To the maximum extent feasible, the prepaid health plan shall make all services readily accessible to all enrollees by decentralizing the services to be provided or by providing transportation to the prepaid health plan facilities if adequate public transportation is not available.

(i) The prepaid health plan shall employ allied health personnel for furnishing of services to the extent that it is reasonable and consistent with good medical practice.

(j) A prepaid health plan servicing a substantial patient population of a particular racial or ethnic group, or whose primary language is other than English, shall, to the extent feasible, employ staff of that respective racial, ethnic, or linguistic group in sufficient numbers in the prepaid health plan to service the enrollees at all times.

(k) The prepaid health plan shall have the organizational and administrative capacity to provide services under the provisions of this chapter. The prepaid health plan shall demonstrate to the department that medical decisions are rendered by qualified medical personnel, unhindered by fiscal or administrative management.

(*l*) Each prepaid health plan shall establish a grievance procedure under which enrollees may submit their grievances. Such procedure shall be approved by the department prior to the approval of the contract. The department shall establish standards for such procedures to insure adequate consideration and rectification of enrollee grievances. A prepaid health plan shall make a finding of fact in the case of each grievance processed, a copy of which shall be transmitted to the enrollee. If the enrollee has an unresolved grievance, the fair hearing provided in Chapter 7 (commencing with Section 10950) of Part 2 of this division shall be available to resolve all grievances regarding care and administration by the prepaid health plan. The findings and recommendations of the department, based on the decision of the hearing officer, shall be binding upon the prepaid health plan.

PART 2. MUNICIPAL ORGANIZATION ACT

CHAPTER 1. GENERAL PROVISIONS

Article 1. Introductory Provisions

35000. The Legislature finds and declares that it is the policy of the state to encourage orderly growth and development which are essential to the social, fiscal, and economic well-being of the state. The Legislature recognizes that the logical formation and determination of city boundaries is an important factor in promoting the orderly development of urban areas. Therefore, the Legislature further finds and declares that this policy should be effected by the logical formation and expansion of cities.

The Legislature recognizes that urban population densities and intensive residential, commercial, and industrial development necessitate a broad spectrum and high level of community services and controls. The Legislature also recognizes that when areas become urbanized to the extent that they need the full range of community services, priorities must be established regarding the

type and levels of such services that the residents of an urban community need and desire; that community service priorities be established by weighing the total community service needs against the total financial resources available for securing community services; and that such community service priorities must reflect local circumstances, conditions, and limited financial resources. The Legislature finds and declares that a single governmental agency, rather than several limited purpose agencies, is better able to assess and be accountable for community service needs and financial resources and, therefore, is the best mechanism for establishing community service priorities.

35001. This part shall be known and may be cited as the Municipal Organization Act of 1977.

35002. Except as provided in Division 1 (commencing with Section 56000) of Title 6, this part shall provide the sole and exclusive authority and procedure for the initiation, conduct, and completion of city incorporations, municipal reorganizations, or changes of organization.

35003. Notwithstanding the provisions of Section 35002, this part shall not apply to any proceedings for the incorporation of a city, or for a change of organization of a city, which shall have been accepted for filing by the executive officer pursuant to Section 54791 prior to the effective date of this part. Any such pending proceeding may be continued and completed under and in accordance with the provisions of law existing prior to this part.

35004. If an action or proceeding is brought attacking the regularity or validity of proceedings completed pursuant to this part, such territory shall be deemed to be within the jurisdiction of the local agency which had jurisdiction over the territory prior to the completion of proceedings pursuant to this part, and the ordinances and regulations of such local agency shall remain in effect, and such local agency shall render services to such territory in the same manner it did prior to completion of proceedings pursuant to this part, until the final disposition of such action or proceedings and thereafter if it is determined that the proceedings taken pursuant to this part were invalid.

35005. An action to determine the validity of any city incorporation, municipal reorganization, or any city change of organization completed pursuant to this part shall be brought pursuant to Chapter 9 (commencing with Section 860) of Title 10 of Part 2 of the Code of Civil Procedure.

35006. This part shall be liberally construed to effectuate its purposes. No city incorporation, municipal reorganization or change of organization ordered under this part shall be invalidated by any defect, error, irregularity, or omission in any act, determination or procedure which does not adversely and substantially affect the right of any person, city, county, district, the state or any agency or subdivision of the state. All determinations made by a commission or by any legislative body under and pursuant to the provisions of this

part shall be final and conclusive in the absence of fraud or prejudicial abuse of discretion.

35007. If any provision of this part or the application thereof in any circumstance or to any person, city, county, district, the state, or any agency or subdivision of the state is held invalid, such invalidity shall not affect other provisions or applications of this part which can be given effect without the invalid provision or application thereof, and to this end the provisions of this part are severable.

35008. In this part, provisions governing the time within which an official, a conducting authority, or the commission is to act shall in all instances, except for notice requirements, be deemed directory rather than mandatory.

35009. No tidelands or submerged lands which are owned by the state or by its grantees in trust shall be incorporated into, or annexed to, a city except such lands as may be approved by the State Lands Commission.

If any such tidelands or submerged lands shall be included within the boundaries of any territory proposed to be incorporated into, or annexed to, a city, a description of such boundaries, together with a map showing such boundaries, shall be filed with the State Lands Commission by the proponents of the incorporation or annexation. Such filing shall be made prior to filing an application or taking any action pursuant to Chapter 2 (commencing with Section 35100) of this part.

The State Lands Commission shall approve or disapprove all portions of the boundaries located upon such tidelands or submerged lands. In making such determination it shall, where feasible and appropriate, require such extensions of land boundaries of the city or proposed city to be at right angles to the general direction of the shoreline at each point of intersection of the shoreline with the land boundaries of the city or proposed city; provided, that in the interest of insuring an orderly and equitable pattern of offshore boundaries, it may establish such other angle and such other courses for each such offshore boundary as it may deem necessary considering any irregularity of the shoreline, other geographical features, the effect of incorporation or annexation of such offshore or submerged lands on the uplands of the city, or proposed city, and adjoining territory, and the existing and potential boundaries of other cities and of unincorporated communities.

Within 45 days after the filing of the boundary description and map with the State Lands Commission, it shall make a determination of the proper offshore or submerged lands boundaries. Such determination shall be final and conclusive. Failure to report within this time shall be deemed approval of the proposed offshore or submerged lands boundaries.

The State Lands Commission shall report its determination to the executive officer of the local agency formation commission and to such local agency or person or persons, if any, as shall have filed such boundary description and map. Thereafter, filings and action may be

taken pursuant to Chapter 2 (commencing with Section 35100) of this part.

The local agency formation commission may review and make determinations as to all portions of the boundaries, other than such offshore or submerged lands boundaries.

For purposes of this section, submerged lands include, but are not limited to, lands underlying navigable waters which are in sovereign ownership of the state irrespective of whether or not such waters are subject to tidal influences.

35010. Unless otherwise determined by the commission pursuant to subdivision (e) of Section 35150, territory shall not be incorporated into, or annexed to, a city pursuant to this part if, as a result of such incorporation or annexation, unincorporated territory is completely surrounded by such city or by territory of such city on one or more sides and the Pacific Ocean on the remaining sides.

35011. Unless otherwise provided in this part, territory may not be annexed to a city unless it is located in the same county and is contiguous to the city at the time preliminary proceedings are initiated pursuant to Chapter 2 (commencing with Section 35100) of this part.

35012. Notwithstanding the provisions of Section 35011, upon approval of the commission a city may annex noncontiguous territory not exceeding 100 acres in area, which is located in the same county as that in which the city is situated, and which is owned by the city and is being used for municipal purposes at the time preliminary proceedings are initiated pursuant to Chapter 2 (commencing with Section 35100) of this part. If, after the completion of the annexation, the city sells such territory or any part thereof, all such territory which is no longer owned by the city shall cease to be a part of the city.

If territory is annexed pursuant to this section, the annexing city may not annex any territory not owned by it and not contiguous to it although such territory is contiguous to the territory annexed pursuant to this section.

Notwithstanding any other provision of this section to the contrary, a city which annexes territory pursuant to this section may annex additional territory which is owned by the United States government or the State of California and which is contiguous to such first annexed territory if the total acreage of the first annexed and the subsequently annexed territory together does not exceed 100 acres in area. If after the completion of such subsequent annexation, the city sells all or any part thereof of such first annexed territory, the subsequently annexed territory shall cease to be part of the city if it is no longer contiguous to territory owned by the city.

If territory annexed to a city pursuant to this section becomes contiguous to such city, the limitations imposed by this section shall cease to apply.

35013. If authorized by the commission pursuant to subdivision (f) of Section 35150, the conducting authority may, without an election,

order annexation of territory which:

(a) Does not exceed 100 acres in area and such 100 acres constitutes the entire island.

(b) (1) Is surrounded or substantially surrounded by the city to which annexation is proposed or by such city and a county boundary or the Pacific Ocean; or

(2) Is surrounded by a city and adjacent cities.

(c) The commission finds is substantially developed or developing;

(d) Is not prime agricultural land as defined in Section 35046; and

(e) The commission shall make a finding that such territory to be annexed will benefit from the annexation or is receiving benefits from the annexing city.

35014. The authority to initiate, conduct, and complete any proceeding pursuant to Section 35013 shall not apply to any territory which, after the effective date of this part, became surrounded or substantially surrounded by the city to which annexation is proposed. The authority to initiate, conduct, and complete any proceeding pursuant to Section 35013 shall expire three years after the effective date of this part.

CHAPTER 2. PRELIMINARY PROCEEDINGS

Article 1. General Provisions

35100. Preliminary proceedings for city incorporation, municipal reorganization and change of organization may be initiated as follows:

(a) Proceedings for incorporation may be initiated by proposals made by petition or by resolution of application of the affected county or an affected district.

(b) Proceedings for changes of organization of a city or municipal reorganization may be initiated by proposals made by petition or by resolution of application of the legislative body of any affected city or the affected county.

All such preliminary proceedings shall be initiated in accordance with this chapter.

35101. Preliminary proceedings shall be deemed initiated on the date a petition or resolution of application is accepted for filing by the executive officer of the commission of the county in which the affected territory is located.

35102. Whenever a city submits a resolution of application, for a municipal reorganization or a change of organization pursuant to this part, the city shall submit with the resolution of application a plan for providing services within the affected territory of the municipal reorganization or change of organization. The plan for providing services shall include the following information and any additional information required by the commission or the executive officer: enumeration and description of the services to be extended to the affected territory; the level and range of such services; indication of when such services can feasibly be extended to the affected territory; indication of any improvement or upgrading of structures, roads, sewer or water facilities, or other conditions the city would impose or require within the affected territory should the municipal reorganization or change of organization be completed; and how the services will be financed.

35103. A commission may establish a schedule of filing fees for checking the sufficiency of any petition filed with the executive officer. Such fees shall not exceed fifteen cents ($0.15) for each signature affixed to the petition. A minimum filing fee of not to exceed ten dollars ($10) may be established. Any fees so established shall be paid to the executive officer at the time of filing a petition. No petition shall be deemed filed until such fees have been paid.

35104. The commission also may establish a schedule of processing fees for the estimated expenses of the preliminary proceedings to be taken by the commission. Such fees shall not exceed five hundred dollars ($500) for each proposal. Such processing fee shall be deposited with the executive officer after the filing with the executive officer of any resolution of application by the legislative body of a city or the certification by the executive officer of the sufficiency of a petition. The deposit of the processing fee shall be made within such period as the commission may specify. No further action shall be taken upon any such resolution of application or petition until the processing fee is deposited.

Article 2. Form, Filing and Certification of Petition

35110. A proposal for city incorporation, change of organization or municipal reorganization may be made by petition. Any such petition shall contain substantially the following:

(a) State that the proposal is made pursuant to this part.

(b) State the nature of the proposed city incorporation, change of organization, or municipal reorganization.

(c) Set forth a description of the boundaries of the affected territory accompanied by a map showing such boundaries.

(e) State whether the petition is signed by registered voters or owners of land.

(f) Designate not to exceed three persons as chief petitioners,

setting forth their names and mailing addresses.

(g) Request that proceedings be taken for incorporation, change of organization, or municipal reorganization pursuant to this part.

35111. If a petition is for incorporation or for consolidation, the petition may propose a name for the new or consolidated city.

35112. A petition may consist of a single instrument or separate counterparts.

35113. Each person signing a petition shall, at the time he signs the petition, affix after his signature the date upon which he signs the petition.

35114. If a petition is signed by registered voters, each person signing the petition shall, in addition to his signature and the date upon which he signs the petition, indicate on the petition his place of residence, giving street and number or other designation sufficient to enable the place of residence to be readily ascertained.

35115. If a petition is signed by owners of land, each person signing the petition shall, in addition to his signature and the date on which he signs the petition, include on the petition a written description sufficient to identify the location of the land owned by him.

35116. No petition shall be accepted for filing unless the signatures thereon shall have been secured within six months of the date on which the first signature on the petition was affixed and such petition is submitted to the executive officer for filing within 60 days after the last signature is affixed. If the elapsed time between the date on which the last signature is affixed and the date on which the petition is submitted for filing is more than 60 days, the executive officer shall file such petition in accordance with Section 35119.

35117. All petitions shall be filed with the executive officer of the commission.

35118. Within 30 days after the date of filing a petition, the executive officer of the commission shall cause the petition to be examined and shall issue a certificate of sufficiency indicating whether it is signed by the requisite number of signers.

If the certificate of the executive officer shows the petition to be insufficient, he shall immediately give notice by registered mail of the insufficiency to the chief petitioners, if any. Such mailed notice shall state in what amount the petition is insufficient. Within 15 days after the date of the certificate of insufficiency, a supplemental petition bearing additional signatures may be filed with the executive officer.

Within 10 days after the date of filing a supplemental petition, the executive officer shall examine the supplemental petition and certify in writing the results of his examination.

A certificate of sufficiency shall be signed by the executive officer and dated. Such certificate shall also state the minimum signature requirements for a sufficient petition and show the results of the executive officer's examination.

35119. If the petition, including any supplemental petition, shall be certified to be insufficient, it shall be filed with the executive officer

as a public record, without prejudice to the filing of a new petition. The executive officer shall give mailed notice to the chief petitioners, if any, stating that the petition has been found to be insufficient.

35120. If the petition, including any supplemental petition, shall be certified to be sufficient, the executive officer shall give mailed notice thereof to the chief petitioners, if any.

(a) The number of registered voters in the affected territory.

(b) The number of qualified signers appearing upon the petition.

35122. If a petition is signed by owners of land, the executive officer shall cause the names of the signers on the petition to be compared with the names of the persons shown as owners of land on the last equalized assessment roll of the county and have ascertained to the extent possible therefrom:

(a) The total number of landowners within the territory and the total assessed valuation of all land within the affected territory.

(b) The total number of landowners represented by qualified signers and the total assessed valuation of land owned by qualified signers.

35123. For purposes of evaluating the sufficiency of any petition signed by owners of land:

(a) The assessed value to be given land exempt from taxation or owned by a public agency shall be determined by the county assessor, at the request of the executive officer, in the same amount as he would assess such land, if it were not exempt from taxation or owned by a public agency.

(b) The value given land held in joint tenancy or tenancy in common shall be determined in proportion to the proportionate interest of the petitioner in such land.

(c) When land is subject to a written recorded agreement to buy, the purchaser under the agreement may sign a petition and the seller may not sign, even though the seller is shown as the owner of the land on the last equalized assessment roll.

35124. Any public or federal agency owning land within the territory which is the subject of the proposed incorporation, change of organization, or municipal reorganization shall be deemed a landowner for the purpose of the signing and certification of a petition for an incorporation, a change of organization, or a municipal reorganization. Any such agency may authorize such petition to be signed for and on its behalf by any duly authorized officer or employee.

Article 3. Signature Requirements for Petitions

35135. A petition for municipal reorganization shall be signed so as to comply with the applicable signature requirements of Sections 35131, 35132, 35133, and 35134 of this article with respect to each of the various changes of organization proposed in such petition, and with the signature requirements of Section 35130 if incorporation is proposed as part of the reorganization.

Article 4. Contents and Filing of a Resolution of Application

35140. (a) A proposal for a change of organization or municipal reorganization may be made by the adoption of a resolution of application by the legislative body of an affected city or county.

(b) A proposal for incorporation may be made by the adoption of a resolution of application by the legislative body of the affected county or affected district.

Except for the provisions regarding signers and signatures, a

35141. The clerk of the legislative body adopting a resolution of application shall file a certified copy thereof with the executive officer of the commission.

Article 5. Notice, Hearing and Determination by the Commission.

35150. The commission shall have the powers and duties set forth in Chapter 6.6 (commencing with Section 54773) of Part 1, Division 2, Title 5, and such additional powers and duties as are specified in this part, including the following:

(a) To review and approve or disapprove with or without amendment, wholly, partially, or conditionally proposals for the incorporation of cities, for changes of organization of cities, and municipal reorganizations.

(b) With regard to a proposal for annexation or detachment of territory to, or from, a city, or with regard to a proposal for municipal reorganization which includes annexation or detachment, to determine whether territory proposed for annexation or detachment, as described in its resolution approving the annexation, detachment, or municipal reorganization, is inhabited or uninhabited. Such determination shall be based on the definitions of inhabited contained in Section 35038.

(c) With regard to a proposal for consolidation of two or more cities, to determine which city shall be the consolidated, successor city.

(d) To adopt standards and procedures for the evaluation of plans for providing municipal services submitted pursuant to Section 35102.

(e) To waive the restrictions of Section 35010, if it finds that the application of the restrictions would be detrimental to the orderly development of the community and that the area that would be enclosed as a result of incorporation or annexation is so located that it cannot reasonably be annexed to another city or incorporated as a new city.

(f) To approve the annexation after notice and hearing, and authorize the conducting authority to order annexation of the territory without an election if the commission finds that the territory contained in an annexation proposal (1) does not exceed 100 acres in area;

(2) Does not exceed 100 acres in area and such 100 acres constitutes the entire island.

(3) (a) Is surrounded or substantially surrounded by the city to which annexation is proposed or by such city and a county boundary or the Pacific Ocean; or

(b) Is surrounded by a city and adjacent cities;

(4) Is substantially developed or developing;

(5) Is not prime agricultural land as defined in Section 35046; and

(6) Will benefit from such annexation or is receiving benefits from the annexing city.

The finding required pursuant to (3) of this subdivision shall be based upon factors, including, but not limited to:

(i) The availability of public utility services.

(ii) The presence of public improvements

(iii) Appropriate zoning of the area to authorize the placement of improvements.

(iv) The presence of physical improvements upon the parcel or parcels within such area.

(g) To approve the annexation of unincorporated, noncontiguous territory not exceeding 100 acres in area, located in the same county as that in which the city is located, and which is owned by a city and used for municipal purposes; and to authorize the conducting authority to annex such territory without notice or hearing.

(h) Subject to the provisions of Section 35031, to designate in the resolution making determinations the conducting authority for proceedings.

(i) When a municipal reorganization includes the annexation of inhabited territory to a city and the assessed value of land within such territory equals one-half or more of the assessed value of land within the city, or the number of registered voters residing within such territory equals one-half or more of the number of registered voters residing within the city, to determine as a condition of the reorganization that the reorganization shall also be subject to confirmation by the voters in an election to be called, held, and conducted within the territory of the city to which annexation is proposed.

(j) With respect to the incorporation of a new city, to determine the number of inhabitants or the number of registered voters residing within the proposed city.

Except as otherwise provided in this part, such powers and duties shall be exercised in accordance with the provisions of Chapter 6.6 (commencing with Section 54773) of Part 1 of Division 2 of Title 5. To the extent of any inconsistency between Chapter 6.6 and this part, the provisions of this part shall control.

35151. If a petition for an uninhabited annexation, an uninhabited detachment, or for a municipal reorganization consisting solely of annexations or detachments of uninhabited territory, or both, shall be signed by all of the owners of land within the affected territory of the proposed change of organization or municipal reorganization, or if a resolution of application by a legislative body of an affected city or county making a proposal for an annexation or detachment, or for a municipal reorganization consisting solely of annexations or detachments, or both, shall be accompanied by proof, satisfactory to the commission, that all the owners of land within such territory have given their written consent to such change of organization or

municipal reorganization, the commission may approve such change of organization or municipal reorganization without notice and hearing by the commission. In such cases the commission may also authorize the conducting authority to conduct proceedings for the change of organization or municipal reorganization (i) without notice and hearing by the conducting authority, (ii) without an election, or (iii) both.

The executive officer shall give each affected city mailed notice of the filing of any such petition or resolution of application. The commission shall not, without the written consent of each affected city, take any further action on such petition or resolution of application for 10 days following such mailing. Upon written request by an affected city, filed with the executive officer during such 10-day period, the commission shall make determinations upon said petition or resolution of application only after notice and hearing thereon. If no such request is filed, the commission may make such determinations without notice and hearing. By written consent, which may be filed with the executive officer at any time, an affected city may (i) waive the requirement of such mailed notice, (ii) consent to the commission making such determinations without notice and hearing, or (iii) both.

35152. Upon accepting for filing a sufficient petition or a resolution of application, the executive officer shall issue a "certificate of filing" to the chief petitioners or the legislative body making the proposal. A certificate of filing shall be in the form prescribed by the executive officer. Following issuance of the certificate of filing, the executive officer shall proceed to set the proposal for hearing and give published notice hereof as provided in this part. The date of such hearing shall be not more than 90 days after issuance of the certificate.

35153. The executive officer shall also give mailed notice as provided in this part of any hearing of the commission to:

(a) Any affected city, county, or district;

(b) The chief petitioners, if any;

(c) Each person who shall have filed a written request for special notice with the executive officer; and

(d) Each registered voter and owner of land, within the territory proposed to be annexed, when the executive officer finds that the provisions of subdivision (f) of Section 35150 apply.

35154. If two or more proposals pending before the commission shall conflict or in any way be inconsistent with each other, the commission may determine the relative priority for conducting any further proceedings based on any such proposals. Any such determination shall be included in the terms and conditions imposed by the commission. In the absence of such determination, priority shall be given to that proceeding which shall be based upon the proposal first filed with the executive officer.

35155. The hearing shall be held by the commission upon the date and at the time and place specified. The hearing may be continued

from time to time but not to exceed 70 days from the date specified in the original notice.

35156. At the hearing the commission shall hear and receive any oral or written protests, objections or evidence which shall be made, presented or filed, and consider the report of the executive officer and the plan for providing municipal services to the territory prepared pursuant to Section 35102.

35157. At any time not later than 35 days after the conclusion of the hearing, the commission shall adopt a resolution making determinations approving or disapproving the proposal.

35158. The resolution making determinations shall also:

(a) Make any of the findings or determinations authorized or required pursuant to Section 35150;

(b) If applicable, assign a distinctive short-term designation to the affected territory and a description therefor; and

(c) Direct the appropriate conducting authority to initiate proceedings in compliance with such resolution.

35159. The executive officer shall mail a certified copy of the commission's resolution making determinations to:

(a) The conducting authority;

(b) The chief petitioners, if any; and

(c) Each affected city, county and district.

35160. If the commission wholly disapproves any proposal, no further proceedings shall be taken on such proposal. No new proposal involving the same or substantially the same territory shall be initiated for one year after the date of adoption of the resolution terminating proceedings; provided, however, that the commission may waive the provisions of this section if it finds such provisions are detrimental to the public interest.

35161. If a proposal is approved by the commission, with or without amendment, wholly, partially, or conditionally, it shall be mandatory upon the conducting authority to take such proceedings in accordance with Chapter 3 (commencing with Section 35200) of this part. Such proceedings shall be initiated, conducted, and completed pursuant to those provisions which are applicable to the proposal and the territory contained in the proposal as it is approved by the commission. If the commission approves the proposal with modifications or conditions, proceedings shall be initiated, conducted, and completed in compliance with such modifications or conditions.

35162. The conducting authority or any affected county, city, district, landowner, voter, taxpayer, inhabitant, or other interested person desiring any addition, deletion, amendment, or revision of any commission resolution making determinations or of any term, condition, or other provision therein, including the boundaries of the affected territory determined and established by the commission, shall file written application therefor with the executive officer within 60 days of the adoption of the commission resolution, who shall present the same to the commission at its next regular meeting.

The commission, in its discretion, may either (a) without further notice and hearing, deny or approve such application in whole or in part, or (b) provide for notice and hearing upon said application in the same manner as for the original proposal, prior to denying or approving the same.

The determinations of the commission as specified in its resolution, or in any such amended resolution, including the commission's determinations as to boundaries of the affected territory, shall be final and conclusive, and no further changes shall be made except as provided in this section.

35163. Whenever the executive officer is required pursuant to this part to prepare an impartial analysis of a proposition for approval by the commission, the commission may, by rule, provide a procedure for approval or modification and approval of the executive officer's analysis.

CHAPTER 3. PROCEEDINGS

Article 1. General Provisions

35200. After completion of preliminary proceedings as provided in Chapter 2 (commencing with Section 35100) of this part, proceedings for incorporation, change of organization of a city, or municipal reorganization shall be taken pursuant to this chapter.

35201. No later than 35 days after the date of adoption of the commission's resolution making determinations, the conducting authority shall adopt a resolution initiating proceedings in accordance with the commission's resolution. A certified copy of the resolution initiating proceedings shall, immediately upon adoption, be mailed by the clerk of the conducting authority to the executive officer of the commission.

35202. After the expiration of 35 days from the date of adoption of the commission's resolution making determinations, the commission may by resolution certify to the board of supervisors of the county in which the affected territory is located, that the conducting authority has failed or refused to initiate, conduct or complete proceedings for the change of organization or municipal reorganization in compliance with the commission's resolution making determinations, or has failed to comply with any terms or conditions thereof.

35203. At any time after the adoption of a resolution of certification pursuant to Section 35202, the board of supervisors shall assume jurisdiction to initiate, conduct, and complete any proceedings for the change of organization or municipal reorganization and to enforce compliance with any terms or conditions thereto referred to in such resolution. Upon the assumption of such jurisdiction, the board of supervisors and the clerk and other officers of the county shall have exclusive jurisdiction with respect thereto and may exercise all powers and duties vested in the conducting authority and

the clerk or other officers of such authority. Any jurisdiction assumed and exercised by the board of supervisors and the clerk or other officers of the county pursuant to this section shall be given the same force and effect as if taken by the conducting authority and the clerk or officers thereof.

35204. Upon adoption of a resolution initiating proceedings pursuant to this chapter, jurisdiction over the proceedings is acquired by the legislative body of the conducting authority, and until such proceedings are completed or terminated pursuant to this chapter, no other petition or resolution of application seeking the incorporation, municipal reorganization, or change of organization of all or part of the territory described by the resolution initiating proceedings shall be filed with, or acted on, by the commission.

35205. In proceedings for an annexation, detachment, municipal reorganization, or incorporation, any written protest must show the date that each signature was affixed to such protest. All signatures without a date or bearing a date prior to the date of adoption of the resolution initiating proceedings shall be disregarded for the purpose of ascertaining the existence of a majority protest. Any person who has signed a written protest may withdraw his name from such protest at any time prior to conclusion of the public hearing.

Article 2. Annexation and Detachment

35220. Except as otherwise provided in Sections 35220.5, 35221, 35222, and 35223, the conducting authority shall adopt a resolution initiating proceedings for an annexation or detachment, which resolution shall comply with the commission's resolution making determinations and shall:

(a) Indicate the manner in which, and by whom, preliminary proceedings were commenced (reference to the chief petitioners, if any, shall be sufficient where preliminary proceedings were commenced by a petition).

(b) State the distinctive short form designation assigned by the commission to the territory proposed to be annexed or detached and set forth a description of the exterior boundaries of such territory.

(c) State whether the territory proposed to be annexed or detached is inhabited or uninhabited as determined by the commission in its resolution making determinations.

(d) State the reason or reasons for the proposed annexation or detachment as set forth in the proposal thereof submitted to the commission.

(e) Set forth any terms and conditions of the proposed annexation or detachment contained in the commission's resolution making determinations.

(f) Fix a time, date and place of hearing on the proposed annexation or detachment, which shall be not less than 30 days nor more than 45 days after the date of adoption of the resolution initiating proceedings.

(g) If the territory proposed to be annexed or detached is inhabited, state that any owner of land within the territory, or any registered voter residing within the territory may file a written protest against the annexation with the clerk of the conducting authority at any time prior to conclusion of the conducting authority's hearing on the proposed annexation or detachment.

(h) If the territory proposed to be annexed or detached is uninhabited, state that any owner of land within the territory may file a written protest against the annexation or detachment with the clerk of the conducting authority at any time prior to the conclusion of the conducting authority's hearing on the proposed annexation or detachment.

35220.5. No later than 35 days after receipt of notification by the conducting authority of the commission's resolution making determinations, the conducting authority of a city with a population of 1,000 or less within which 10 percent or less of the land area is zoned for residential uses may adopt a resolution terminating all present proceedings in connection with any proposed annexation or detachment.

35221. If authorized by the commission pursuant to Section 35151, uninhabited territory may be annexed or detached by resolution of the conducting authority without notice and hearing if all of the landowners within such territory have consented in writing to such annexation or detachment.

35222. The clerk of the conducting authority shall cause notice of the hearing on the proposed annexation or detachment to be given as provided in Section 35055. Notice required by this section shall include all the information specified in Section 35220.

35223. The clerk of the conducting authority shall also give mailed notice of the hearing as required by Section 35055 to:

(a) Any person who has filed his name and address with the clerk and has requested such mailed notice;

(b) The chief petitioners, if any, as indicated in the petition initiating proceedings pursuant to this part;

(c) To each affected city, county, and district; and

(d) To the executive officer of the local agency formation commission.

Mailed notice given pursuant to this section shall contain all the information specified in Section 35220.

35224. The hearing on the proposed annexation or detachment shall be held by the conducting authority on the date and at the time specified in the resolution giving notice of the hearing. The hearing may be continued from time to time but not to exceed 60 days from the date specified for the hearing in the resolution adopted pursuant to Section 35220.

35224.5. When approved and authorized by the commission pursuant to the provisions of subdivision (f) of Section 35150, the conducting authority may, upon conclusion of the hearing, adopt a resolution ordering the annexation without an election. If, however,

the conducting authority disapproves the annexation, such authority shall by resolution, terminate proceedings. The provisions of Sections 35225, 35226, 35227, 35228, and 35229 shall not apply to any annexation subject to the provisions of this section.

35225. At any prior time to conclusion of the hearing, any owner of land or any registered voter within inhabited territory proposed to be annexed or detached, or any owner of land within uninhabited territory proposed to be annexed or detached, may file a written protest against the annexation or detachment. Each protest shall state the name and address of the owner of the land affected and the street address or other description sufficient to identify the location of such land; or the name and address of the registered voter as it appears on the affidavit of registration. Protests may be made on behalf of an owner by an agent authorized in writing by the owner to act as agent with respect to such land. Protests may be made on behalf of a private corporation which is an owner of land by any officer or employee of the corporation without written authorization by the corporation to act as agent in making such protest.

35226. At the hearing, the conducting authority shall hear and receive any oral and written protests, objections, or evidence which shall be made, presented, or filed.

35227. Upon conclusion of the hearing the conducting authority shall determine the value of written protests filed and not withdrawn. The value of written protests shall be determined in the same manner prescribed in Sections 35121, 35122, and 35123 of this part for determining the sufficiency of petitions filed with the commission.

35228. When the territory proposed to be annexed or detached is inhabited, the conducting authority, not less than 30 days after conclusion of the hearing, shall adopt a resolution making a finding regarding the value of written protests filed and not withdrawn and taking one of the following actions:

(a) Terminate proceedings if written protests have been filed and not withdrawn by 50 percent or more of the registered voters within the affected territory.

(b) Order the territory annexed or detached subject to the confirmation by the voters on the question, and call a special election and submit to the voters residing within the affected territory the question of whether it shall be annexed to or detached from the city, if written protests have been filed and not withdrawn by either 25 percent or more of the registered voters within the territory, or owners of land, who also own not less than 25 percent of the total assessed value of land within the territory.

(c) Order the territory annexed or detached without an election if written protests have been filed and not withdrawn by less than 25 percent of the registered voters within the territory and less than 25 percent of the owners of land who own less than 25 percent of the total assessed value of land within the territory.

35229. When the territory proposed to be annexed or detached is

uninhabited, the conducting authority, not less than 30 days after conclusion of the hearing on protests, shall adopt a resolution making a finding regarding the value of written protests filed and not withdrawn and taking one of the following actions:

(a) Terminate proceedings if written protests have been filed and not withdrawn by the owners of land and improvements who own not less than 50 percent of the total assessed value of land and improvements within the territory.

(b) Order the territory annexed or detached if written protests have been filed and not withdrawn by owners of land and improvements who own less than 50 percent of the total assessed value of land and improvements within the territory.

The value of improvements represented by such protest shall be determined in the same manner as the value of land is determined.

35229.5. Notwithstanding the provisions of Section 35228 and 35229 the conducting authority, not less than 30 days after conclusion of a hearing to detach inhabited or uninhabited territory, may by resolution, terminate such proceedings to detach territory.

35230. If, pursuant to subdivision (b) of Section 35228, the conducting authority adopts a resolution ordering annexation of detachment of territory subject to the confirmation by the voters, such election shall be called and held at the next regular election held at least 75 days after the date on which the resolution was adopted.

35231. Any resolution adopted pursuant to subdivision (b) of Section 35228 ordering annexation or detachment of territory subject to the confirmation by the voters shall also call an election in the affected city and submit to the registered voters residing therein the same question at the same time as that submitted to the registered voters residing within the affected territory if:

(a) The total assessed value of land within the affected territory equals one-half or more of the total assessed value of land within the affected city as shown on the last equalized assessment roll; or

(b) The number of registered voters residing within the affected territory equals one-half or more of the number of registered voters residing within the affected city as shown on the county register of voters.

35232. The clerk of the conducting authority shall cause notice of the election to be given as prescribed in Section 35050.

35233. The notice of election shall contain all matters specified in Section 35061.

35234. If any resolution contains the information required to be contained in the certificate, the executive officer may attach a certified copy of such resolution to the certificate and refer to such resolution in the certificate.

35352. The executive officer shall record a certified copy of the certification of completion with the recorder of the county in which the affected territory is located, with the county surveyor, and with the clerk of each affected city.

35354. CHAPTER 5. TERMS AND CONDITIONS; EFFECT OF CITY INCORPORATION, CHANGE OF ORGANIZATION, OR MUNICIPAL REORGANIZATION

Article 1. General Provisions

35400. No city incorporation, change of organization, or municipal reorganization or any term or condition thereof, shall impair the rights of any bondholder or other creditor of any county, city, or district. Notwithstanding any other provision of this part, or any incorporation, change of organization, or municipal reorganization completed pursuant to this part, or any term or condition thereof, each and every bondholder or other creditor may enforce all his rights in the same manner and to the same extent as if such incorporation, change of organization, or municipal reorganization, term or condition, had not been made. Any such rights may also be enforced against agencies and their respective officers, as follows:

(a) Annexation or detachment: against the city to or from which territory is annexed or detached.

(b) Incorporation: against the newly incorporated city.

(c) Disincorporation: against the successor county receiving distribution of the remaining assets of the disincorporated city.

(d) Consolidation: against the consolidated successor city.

(e) Municipal reorganization: against the affected city, successor consolidated city, successor county or newly incorporated city, as the case may be, for any of the above enumerated changes of organization or city incorporations which may be included in the particular municipal reorganization.

35401. Any proceeding completed pursuant to this part does not alter or affect the boundaries of any Assembly or senatorial district.

35402. All proper expenses incurred in conducting proceedings for city incorporation, change of organization or municipal reorganization pursuant to Chapter 3 of this part shall be paid, unless

otherwise provided by agreement between the conducting authority and the proponents, as follows:

(a) In the case of annexation or detachment proceedings, by the city to or from which territory is annexed or detached or was proposed to be annexed or detached.

(b) In the case of incorporation proceedings, by the newly incorporated city or by the county within which the proposed city is located if the incorporation proceedings are terminated.

(c) In the case of disincorporation proceedings, from the remaining assets of the disincorporated city or by the city proposed to be disincorporated if disincorporation proceedings are terminated.

(d) In the case of consolidation proceedings, by the successor city or by the cities proposed to be consolidated, to be paid by such cities in proportion to their respective assessed values, if consolidation proceedings are terminated.

(e) In the case of municipal reorganization:

(1) If the municipal reorganization is ordered, by the affected city or cities, successor consolidated city or cities, or newly incorporated city or cities, as the case may be, for any of the above-enumerated changes of organization or city incorporation which may be included in the particular municipal reorganization, to be paid by such cities in proportion to their assessed value.

(2) If the municipal reorganization proceedings are terminated or the proposal is defeated by the county within which such city is located.

35403. If at any time between each decennial federal census, a city annexes or detaches territory or consolidates with another city, the legislative body of the city annexing or detaching the territory or the legislative body of the successor city, shall reexamine the boundaries of its councilmanic districts, if any, after the first census is taken or the first current population estimates are obtained, following such annexation, detachment, or consolidation.

If, upon reexamination, the legislative body finds that the population of any councilmanic district has varied so that the districts no longer meet the criteria specified in Section 34891, the legislative body shall, within 60 days after such census is taken, or current population estimate received, by ordinance or resolution, adjust the boundaries of any or all of the councilmanic districts of the city so that the districts shall be as nearly equal in population as may be.

Article 2. Annexations

35410. Upon and after the effective date of an annexation, the territory annexed to a city, all inhabitants of such territory, and all persons entitled to vote by reason of residing within such territory shall be subject to the jurisdiction of such city and, except as otherwise provided in this article, shall have the same rights and duties as if such territory had been a part of such city upon its original

incorporation.

35411. Unless otherwise provided in the terms and conditions of the annexation, land and improvements within territory annexed shall be liable for the general indebtedness of the city existing at the time of annexation.

35412. As an alternative to any procedure prescribed by law for the division of taxes or assessments collected in a special district lying partially or wholly in territory annexed by an incorporated city, the city and the special district may enter into an agreement providing that the district shall continue to perform services for such annexed territory until the close of the fiscal year for which the special district has levied taxes or assessments.

Article 3. Detachment

35420. Except as otherwise provided in this article, upon and after the effective date of a detachment, the territory detached from a city, all inhabitants within such territory, and all persons formerly entitled to vote by reason of residing within such territory shall cease to be subject to the jurisdiction of such city and shall have none of the rights or duties of the remaining territory, inhabitants, or voters of the city.

35421. Unless othewise provided in the terms and conditions of the detachment, the city from which territory is detached may from time to time levy and collect from the detached territory its just proportion of liability for payment of the interest and principal of debts of the city contracted prior to detachment.

35422. When territory has been detached from a city, 10 taxpayers residing in the city or the territory may submit a verified petition to the superior court of the county in which the city is situated, requesting adjustment of the territory's proportion of the city's debts contracted prior to detachment and stating the facts of detachment and the amount of indebtedness.

35423. Upon receipt of such a petition, the court shall cause notice to be given by publication as provided in Section 35055, stating the substance of the petition and setting forth the time and place for hearing by the court on the petition.

35424. The hearing shall be held at least 30 days, but not more than 45 days, after the filing of the petition, and may be continued to another time by the court.

35425. Any person interested in the city, the detached territory, or the adjustment and settlement of the indebtedness, may demur to, or answer, the petition. The signers of the petition are plaintiffs; and those persons or agencies demurring to, or answering, the petition are defendants in the hearing.

35426. Except as otherwise provided, the rules of pleading and practice of the Code of Civil Procedure are applicable to the hearing.

35427. Upon the hearing, the court shall determine the amount due from the territory as its proportion of the city indebtedness contracted prior to detachment.

35428. In fixing the amount due, the court shall ascertain and find:

(a) The purposes for which the indebtedness was created.

(b) The manner and place in which the proceeds of the indebtedness were expended.

(c) The value of the property belonging to the city at the time of the detachment.

(d) The assessed value of the property situated in the city as shown by the last equalized assessment roll of the city in effect immediately preceding detachment.

(e) The assessed value of the detached territory as shown by such last equalized assessment roll.

35429. The detached territory is charged with a pro rata share of the city indebtedness contracted prior to the detachment and is entitled to the value of a pro rata share of the city's publicly owned property, in the same ratio as the value of the property remaining in the city, as determined by the last equalized assessment roll of the city in effect immediately preceding detachment.

35430. If the value of the city's publicly owned property remaining within the city is greater than its pro rata share, and such excess is greater than the territory's pro rata share of the city's indebtedness, the court shall find and adjudge that there is nothing due from the detached territory. After such finding and judgment, the detached territory is not liable for the payment of any city indebtedness, and all city property remaining within its boundaries belongs exclusively to it.

35431. In all other cases, the court shall find the balance due from the detached territory and render judgment accordingly. The judgment shall be assessed and collected in the manner and at the time that assessments and collections are made upon the property remaining in the city for payment of these debts.

35432. At any time, the detached territory may tender to the city legislative body the amount for which it is liable. If tender is made, the city's authority to levy taxes on the detached territory shall cease.

Article 4. Incorporation

35440. Except as otherwise provided in this article, upon and after the effective date of an incorporation, the territory incorporated, all inhabitants within such territory and all persons entitled to vote within such newly incorporated city by reason of residing there, shall be subject to the jurisdiction of such city and shall have the rights and duties conferred on them as inhabitants and voters of such incorporated city.

35441. If the newly incorporated city comprises territory formerly unincorporated, the city council shall, immediately following its organization and prior to performing any other official act, adopt an ordinance providing that all county ordinances theretofore applicable shall remain in full force and effect as city ordinances for a period of 120 days thereafter, or until the legislative body of the city has enacted ordinances superseding them, whichever shall first in

time occur. The ordinance shall provide that no city ordinance enacted within such 120-day period of time be deemed to supersede any county ordinance unless the city ordinance specifically refers thereto, and states an intention to supersede it. Enforcement of the continuing county ordinances in the incorporated area shall be by the city, except insofar as services of enforcement may be furnished in accordance with Section 35448.

35442. Officers, except members of the city council, shall hold office until the first succeeding general municipal election held in the city and until their successors are elected and qualified. Of the five elected members of the city council, the three receiving the lowest number of votes shall hold office until their successors are elected and qualified, and the two receiving the highest number of votes shall hold office until the second succeeding general municipal election held in the city and until their successors are elected and qualified. If two or more members of the city council are elected by the same number of votes, the terms of each shall be determined by lot. The members of the city council elected to succeed the members elected at the incorporation election shall hold office for four years from the Tuesday succeeding their election, and until their successors are elected and qualified.

35443. If the first general municipal election following an incorporation election will occur less than one year after the incorporation election, all of the city council members elected at the incorporation election shall hold office until the second general municipal election following the incorporation election and until their successors are elected and qualified. Of the five council members elected at such second general municipal election, the three receiving the lowest number of votes shall hold office for two years and until their successors are elected and qualified, and the two receiving the highest number of votes shall hold office for four years and until their successors are elected and qualified. Subsequent council members shall hold office for four years from the Tuesday succeeding their election, and until their successors are elected and qualified.

This section shall apply only to council members elected at an incorporation election held after the effective date of this section. If this section applies, the first general municipal election following the incorporation election shall not be held unless either a proposition is to be voted upon or offices other than council member offices are to be filled.

35444. Courts shall take judicial notice of the organization and existence of cities incorporated pursuant to this part.

35445. Immediately upon qualification of the elected officers, all persons in possession of the offices of the city shall surrender the possession of such offices, though the terms of office for which they were elected or appointed have not expired.

35446. All officers, boards, and persons holding any property in trust for any city use shall convey such property to the city or officer entitled to it.

35447. In any county having a population of more than 2,000,000,

the board of supervisors may, by a two-thirds vote, convey any parking lot owned by the county and situated within the boundaries of an incorporated city to such city for public parking purposes, without consideration other than the agreement by the city to continue to use and maintain the property as a public parking lot.

This section shall apply only to parking lots acquired principally from revenues raised through onstreet or offstreet parking fees for the specific purpose of parking lot development, and shall not apply to lots purchased through expenditures from the general fund or other means to serve as sites for other types of facilities.

The conveyance provided for by this section shall not occur until all liens or financial obligations attached to such lots have been satisfied.

35448. Whenever a city has been incorporated from territory formerly unincorporated, the board of supervisors shall continue to furnish, without additional charge, to the area incorporated all services furnished to the area prior to the incorporation. Such services shall be furnished for the remainder of the fiscal year during which the incorporation became effective or until the legislative body of the city requests discontinuance of the services, whichever first occurs.

Article 5. Disincorporation

35460. Except as otherwise provided in this article, upon and after the effective date of a disincorporation, the territory of the disincorporated city, all inhabitants within such territory, and all persons formerly entitled to vote by reason of residing within such territory shall cease to be subject to the jurisdiction of the disincorporated city and shall have none of the rights or duties of inhabitants or voters of a city.

35461. Upon disincorporation every public officer of the city shall turn over to the board of supervisors the public property in his possession.

35462. After ascertaining that disincorporation has carried, the conducting authority shall determine and certify in a written statement to the board of supervisors the indebtedness of the city, the amount of money in its treasury, and the amount of any tax levy or other obligation due the city which is unpaid or has not been collected.

35463. Within 30 days after the election, the legislative body of the disincorporated city shall turn over to the county treasurer all city money in its possession.

35464. If the conducting authority fails to provide the board of supervisors with the certified statement required by Section 35462, the board shall make the determinations provided for in such section.

35465. If a tax has been levied by the disincorporated city and remains uncollected, the county tax collector shall collect it when due and pay it into the county treasury.

35466. All property upon which any tax has been levied by the

disincorporated city, and become delinquent, and all property sold for any tax levied by the disincorporated city, may be redeemed by any interested party, on payment to the county treasurer of the sum which the auditor estimates would have been necessary to redeem the property if there had been no disincorporation.

35467. All money paid into the county treasury pursuant to this article shall be placed to the credit of a special fund established for the purpose of settling the affairs of the disincorporated city.

35468. Warrants for city indebtedness shall be drawn by the board of supervisors on the special fund.

35469. If there is not sufficient money in the treasury to the credit of the special fund to pay any city indebtedness, the board of supervisors shall cause to be levied, and there shall be collected from the territory formerly included within the city, taxes sufficient to pay the indebtedness as it becomes due.

35470. Such taxes shall be assessed, levied, and collected in the same manner and at the same time as other county taxes, and are additional taxes upon the property included within the territory of the disincorporated city.

35471. Any surplus remaining in the special fund after the payment of any debts shall be, at the discretion of the board of supervisors, transferred to the school district or districts included in the former city or used for the improvements of streets within the territory of the former city.

35472. The board of supervisors shall provide for collection of debts due the city and wind up its affairs. Upon an order by the board of supervisors the appropriate county officer shall perform any act necessary for winding up the city affairs, with the same effect as if it had been performed by the proper city officer.

35473. The county succeeds to all the rights of the city in such debts and may collect or sue for them in the name of the county.

35474. All costs and expenses incurred in winding up city affairs shall be part of the special fund.

35475. By ordinance the board of supervisors may assume control of, and continue to administer, all electric, power, lighting, or gas plants and all systems of waterworks, street lighting, or any other public utility owned by the city at the time of its disincorporation.

35476. If the revenues from any such public utility are not sufficient for its administration, conduct, or improvement, the board of supervisors shall levy a special tax upon all property within the disincorporated city. The special tax shall be levied upon the assessed value of the property as shown by the equalized assessment roll in effect on the first day of March of that year, and collected in the same manner and form of other county taxes.

35477. All sums collected shall be placed in a separate fund in the county treasury for the administration, conduct, and improvement of the public utility for which the tax is levied.

35478. If any city has within its boundaries, at the time of incorporation, at least two-thirds of the assessed value of an assessable property formerly contained within a disincorporated city, it

becomes the owner of all public property formerly belonging to the disincorporated city and such proportion of the debts, liabilities, and credits owned by or due to the disincorporated city as the value of the assessable property of the disincorporated city lying within the boundaries of the new city bears to the value of all assessable property formerly contained within the disincorporated city. The value is that shown by the equalized assessment roll in effect in the fiscal year in which the city was disincorporated.

35479. No tax shall be levied upon any territory not included within the former limits of the disincorporated city for any debt or liability of the disincorporated city.

35480. Upon written request by the legislative body of a newly incorporated city the board of supervisors shall cause the county auditor to prepare, without cost, a statement of the value of the assessable property in the disincorporated city and the value of such property now contained in the incorporated city. If the statement shows that at least two-thirds of the assessed value of all assessable property formerly contained within the disincorporated city is contained within the boundaries of the newly incorporated city, the board of supervisors shall fix the relative proportion by an order entered in the minutes, and the newly incorporated city if liable for that proportion of the debts and liabilities of the disincorporated city.

35481. The board of supervisors shall forward a certified copy of the order to the Secretary of State and the city clerk, and turn over to the city legislative body all public property taken by the board and the proportion of the special fund to which the city is entitled. Thereafter ownership of, and title to, all public property formerly belonging to the disincorporated city is vested in the city as fully as if the property had been originally acquired by it.

35482. Annually, at the time other city taxes are levied and collected, the legislative body shall levy and collect a special tax on the territory of the disincorporated city within the limits of the city sufficient to pay its proportion of the bonded indebtedness as it becomes due.

35483. Annually, at the time other county taxes are levied and collected, the board of supervisors shall levy and collect a special tax on the remainder of the territory sufficient to pay the balance of the debt, and pay this sum to the city treasurer.

35484. With the proceeds of such taxes, the city treasurer shall pay the bonded indebtedness as it becomes due.

35485. If any property within the former limits of the disincorporated city was sold for taxes levied by that city, it may be redeemed or a tax bond issued as if the city had not disincorporated. Such proceedings shall be had and deeds issued in the name of the city in which the land is situated.

Article 6. Consolidation

35490. If the successor city has a freeholder's charter, the successor city shall be governed as a new city under the freeholder's charter

of the successor city. If the successor city is organized under Part 1 (commencing with Section 34400) of this division or its predecessors, the successor city shall be governed in the same manner as a new city. Except as hereinafter provided, the successor city shall be governed in the name of the successor city. If the electors have expressed a preference for the name of the successor city, the successor city shall be deemed to have the name favored by the electors. The predecessor cities are dissolved and disincorporated and if any of them has a freeholder's charter, it is deemed surrendered and annulled and they are merged into the successor city. Immediately upon qualifying, the officers of the successor city who have been elected shall enter upon the duties of their offices and hold office until the next general municipal election and until their successors are elected and qualified. All persons in possession of or occupying the offices in each of the predecessor cities shall surrender them immediately to the proper officers of the successor city.

35491. Upon consolidation, the title to any property owned or held by or in trust for each predecessor city or by its officers or boards in trust for public use shall be vested in the successor city or its officers or boards.

35492. Except as otherwise provided in this part, consolidation does not affect any debts, demands, liabilities, or obligations of any kind existing in favor of or against the cities consolidated at the time of consolidation. Consolidation does not affect any pending action or proceeding involving any such debt, demand, liability, or obligation or any action or proceedings brought by or against any city prior to consolidation. All such proceedings shall be continued and concluded by final judgment or otherwise as if consolidation had not been affected. All such rights or liabilities become the rights and liabilities of the successor city.

35493. Immediately upon consolidation, all ordinances of the predecessor cities shall be deemed repealed. Such repeal shall not discharge any person from any existing civil or criminal liability nor affect any pending prosecution for violation of any such ordinances.

35494. Such repeal shall not apply to:

(a) Ordinances under which vested rights have accrued.

(b) Ordinances relating to proceedings for street or other public improvements.

(c) Ordinances relating to zoning or land use regulation.

(d) Proceedings for opening, extending, widening, straightening or changing the grade of streets or other public places.

These proceedings shall be continued and conducted by the successor city with the same effect as if continued and conducted by the city which commenced them.

35495. Upon consolidation, all ordinances of the successor city shall have full effect throughout the successor city.

35496. Unless otherwise provided in the terms and conditions of the consolidation, the property in cities consolidated pursuant to this article shall not be taxed to pay any indebtedness or liability of any

other city contracted or incurred prior to or existing at the time of consolidation.

35497. The legislative body of the successor city shall separately levy and collect the taxes necessary to pay the indebtedness or liability of each predecessor city within the territory of each such city.

35498. Where the successor city is, or becomes, a chartered city, under a freeholder's charter providing that boroughs may be established in territories or cities annexed to or consolidated with it, this part shall not be construed to prevent a predecessor city, or any part of it, from becoming a borough.

Article 7. Municipal Reorganization

35500. Upon and after the effective date of a municipal reorganization, each change of organization or incorporation ordered for any of the affected cities shall be given the force and effect pertaining to a change of organization of that type or incorporation, as provided in Articles 2 (commencing with Section 35410) to 6 (commencing with Section 35490), inclusive, of this chapter.

SEC. 10. Notwithstanding Section 2231 of the Revenue and Taxation Code, there shall be no reimbursement pursuant to that section nor shall there be any appropriation made by this act because there are savings as well as costs in this act that, in the aggregate, do not result in significant cost changes.

CHAPTER 1254

An act to repeal and add Article 2 (commencing with Section 52340) of Chapter 9 of Part 28 of the Education Code, relating to career guidance centers, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor October 1, 1977. Filed with Secretary of State October 1, 1977.]

I am reducing the appropriation contained in Section 2 of Senate Bill No. 986 from $300,000 to $250,000 by deleting the $50,000 contained in subsection (c).

This program has been pioneered in San Diego. Thus, the $50,000 for State generated regulations should not be necessary.

With this reduction, I approve Senate Bill No 986.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to initiate the two career guidance centers' activities at the start of fiscal year 1977–78, and so facilitate the orderly administration thereof, it is necessary that this act take effect immediately.
