CHAPTER 260

An act to amend Sections 205.1, 6365, 8732, 8782, and 8995 of, and to add Section 6814 to, the Revenue and Taxation Code, relating to taxation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 16, 1979 Filed with Secretary of State July 17, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 205.1 of the Revenue and Taxation Code is amended to read:

205.1. Section 205 of this code fulfills the intent of subdivisions (o), (p), (q), and (r) of Section 3 of Article XIII of the Constitution. To further carry out the intent of subdivisions (o), (p), (q), and (r) of Section 3 of Article XIII of the Constitution, any change in assessment ratio shall not be reason to decrease the amount of the exemption or the amounts used to limit eligibility for such exemption. Whenever assessed value is used as the test of the exemption, the exemption shall be increased accordingly when the assessment ratio is increased to 100 percent. Whenever the valuation of assessable property is used to determine eligibility for such exemption based on the limitations on the value of property owned, such limitations shall be increased accordingly when the assessment ratio is increased to 100 percent to maintain the same proportionate values of such property and such limitations.

SEC. 1.5. Section 6365 of the Revenue and Taxation Code is amended to read:

6365. (a) There are exempted from the taxes imposed by this part the gross receipts from the sale of, and the storage, use or other consumption in this state of, original works of art, which are:

(1) Purchased by this state or any city, county, city and county, or other local governmental entity;

(2) Purchased by any nonprofit organization operating any public museum for, and pursuant to contract with, any such governmental entity;

(3) Purchased by any nonprofit organization which has qualified for exemption pursuant to Section 23701d for one or more museums regularly open to the public not less than 20 hours per week for not less than 35 weeks of the calendar year and operated by the

purchaser of such art or operated by another nonprofit organization which has qualified for exemption pursuant to Section 23701d; or

(4) Purchased for donation and actually donated by delivery by the retailer pursuant to the instructions of the buyer to any such governmental entity, or nonprofit organization, and evidenced by a written transfer of title from the buyer to such governmental entity or nonprofit organization.

(b) The exemption provided by this section shall apply only to works of art purchased to become part of the permanent collection of:

(1) A museum; or

(2) A nonprofit corporation which has qualified for exemption pursuant to Section 23701d; regularly loans not less than 85 percent of the value of its collection of works of art to one or more museums; and is required by its articles of incorporation to loan its works of art and is otherwise prohibited by its articles from making any private use of its works of art; provided, that the work of art for which the exemption is claimed pursuant to this section shall actually be placed on display at one or more museums in California for not less than 24 months during the three-year period commencing from the date of purchase.

(c) For purposes of this section, "work of art" means a work of visual art, including, but not limited to, a drawing, painting, mural, fresco, sculpture, mosaic, film, or photograph, a work of calligraphy, a work of graphic art (including, but not limited to, an etching, lithograph, offset print, silk screen, or a work of graphic art of like nature), crafts (including, but not limited to, crafts in clay, textile, fiber, wood, metal, plastic, glass, and like materials), or mixed media (including, but not limited to, a collage, assemblage, or any combination of the foregoing art media).

(d) For purposes of this section, a "museum" shall only include:

(1) A museum which has a significant portion of its space open to the public without charge; or

(2) A museum open to the public without charge for not less than six hours during any month the museum is open to the public; or

(3) A museum which is open to a segment of the student or adult population without charge.

(e) Any public entity or nonprofit organization claiming an exemption pursuant to this section shall maintain records, in such forms as prescribed by the board, sufficient to substantiate its claim. Such records shall include, but not be limited to, the date of purchase, the purchase price, the date the property was first brought into this state, and the dates and locations the work of art was on display at a museum.

SEC. 2. Section 6814 is added to the Revenue and Taxation Code, to read:

6814. The obligation of the successor shall be enforced by serving a notice of successor liability on the person. The notice shall be served in the manner prescribed for service of a notice of a deficiency determination. The successor may petition for reconsideration in the manner provided in Article 5 (commencing

with Section 6561) of Chapter 5 of this part. The notice shall become final and the amount due and payable in the manner provided in that article except that no additional penalty shall apply if not paid when due and payable. The provisions of this chapter with respect to the collection of any amount required to be paid under this part shall apply when the notice becomes final.

SEC. 2.5. Section 8732 of the Revenue and Taxation Code is amended to read:

8732. A vendor of fuel the use of which is taxable under this part, who sells and delivers such fuel into a fuel tank shall, at the time of sale, collect the tax from the user and give to the user a receipt therefor in the manner and form prescribed by the board.

When fuel is sold through a keylock mechanism or other unattended mechanism it shall be presumed that the vendor delivered the fuel into the fuel tank of a motor vehicle and the vendor must collect the tax from the user. This presumption shall be rebutted and the vendor shall not collect the tax if the user certifies in writing to the vendor that all fuel delivered to him through a specific keylock mechanism or other unattended mechanism will be delivered into bulk containers.

Vendors of fuel required by this section to collect tax from users shall not be required to make such collections on sales and deliveries to users who are authorized by the board, as hereinafter provided, to purchase fuel without payment of tax to a vendor.

The board may issue written authorization to a holder of a valid use fuel permit to purchase fuel from a vendor designated by the user without payment of the tax to the vendor when the board finds (1) that the user consistently is using the fuel in vehicles which are operated partly without this state or off the highways of this state, or the user qualifies for the exemption provided in Section 8655, and (2) that to require collection of the tax from the user by the vendor would cause consistently recurring overpayments of the tax, and (3) that the revenue of the state with respect to the tax liability of such user is adequately secured. Such authorization may be revoked when any such condition no longer obtains.

SEC. 3. Section 8782 of the Revenue and Taxation Code is amended to read:

8782. Except in the case of fraud, intent to evade the tax, or failure to make a return, every notice of a deficiency determination shall be given within three years after the last day of the month following the period for which the return was due or within three years after the return is filed, whichever period expires the later. If the user fails to make a return, the notice of determination shall be mailed within eight years after the last day of the month following the period for which the return was due.

SEC. 4. Section 8995 of the Revenue and Taxation Code is amended to read:

8995. The Department of Motor Vehicles may transfer the registered ownership of any motor vehicle using fuel taxable under this part only after a certificate of excise tax clearance has been issued by the board. The certificate may be issued after the payment

of all amounts due under this part, according to the records of the board as of the date of the certificate, or after the payment of the amounts is secured to the satisfaction of the board.

An excise tax clearance certificate shall not be required to transfer the registered ownership of a passenger vehicle as defined in Section 465 of the Vehicle Code.

SEC. 4.3. Section 1 of this act shall not become operative unless Resolution Chapter 85 of the Statutes of 1978 is approved by the voters.

SEC. 4.5. Notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made by this act and the state shall not reimburse any local agency for any sales and use tax revenues lost by it under this act. It is recognized, however, that such agency may pursue any other remedies available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to correct errors in the Sales and Use Tax Law and in the Use Fuel Tax Law as soon as possible, it is necessary for this bill to take immediate effect.

CHAPTER 261

[Approved by Governor July 16, 1979 Filed with Secretary of State July 17, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 25210.77a of the Government Code is amended to read:

25210.77a. For any county service area or zone thereof located therein, a county may fix and collect charges for a particular extended service authorized pursuant to this article to pay, in whole or in part, for the cost thereof. The revenue obtained thereby may be in lieu of, or supplemental to, revenue obtained by the levy of taxes. The charges may vary by reason of the nature of the use or the

month in which the service is rendered to correspond to the cost and the value of the service. The charges may be determined by apportioning the total cost, not otherwise offset by other available revenue, of the extended service area to each parcel therein in proportion to the estimated benefits from such service to be received by each parcel.

Any county which has fixed charges pursuant to this section may, by ordinance, provide a procedure for, and collect such charges, on the tax roll in the same manner and at the same time as its general ad valorem property taxes are collected as provided herein, except that the board of supervisors shall not impose a charge upon a federal or state governmental agency or another local agency. Any such ordinance shall provide that:

(a) Once a year the board of supervisors shall cause to be prepared a written report which shall contain a description of each parcel of real property receiving the particular extended service and the amount of the charge for each parcel for such year computed in conformity with the procedure set forth in the ordinance authorizing collection of such charges on the tax roll. Such report shall be filed with the clerk of the board of supervisors.

(b) Upon the filing of such report, the clerk shall fix a time, date, and place for hearing thereon and for filing objections or protests thereto. The clerk shall publish notice of such hearing as provided in Section 6066, prior to the date set for hearing, in a newspaper of general circulation printed and published in the county.

(c) At the time, date, and place stated in the notice, the board of supervisors shall hear and consider all objections or protests, if any, to the report and may continue the hearing from time to time. Upon conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any charge and shall make its determination upon each charge as described in the report and thereafter, by resolution, shall confirm the report.

(d) The charges set forth in the report, as confirmed, shall appear as a separate item on the tax bill. The charge shall be collected at the same time and in the same manner as ordinary county ad valorem property taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for such taxes. All laws applicable to the levy, collection, and enforcement of county ad valorem property taxes shall be applicable to such charge; except that, if for the first year such charge is levied the real property to which such charge relates has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes would become delinquent, the charge confirmed pursuant to this section shall not result in a lien against such real property but instead shall be transferred to the unsecured roll for collection.

(e) Whenever a railroad, gas, water, or electric utility right-of-way or electric line right-of-way is included within such service area, or

zone thereof, the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the charges authorized only if, and to the extent that, it is found that it will benefit from the particular extended service, and the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the same penalties, and the same procedure and sale, in case of delinquency as other properties in such service area or zone. In determining whether or not the railroad, gas, water, or electric utility right-of-way or electric line right-of-way benefits from the extended service, its use as a right-of-way for a railroad, gas, water, or electric utility shall be presumed to be permanent.

SEC. 1.5. Chapter 10 (commencing with Section 60400) is added to Division 2 of Title 6 of the Government Code, to read:

CHAPTER 10. FLOOD CONTROL DISTRICT BENEFIT ASSESSMENTS

60400. As used in this chapter, "district" means any flood control district or any maintenance area formed pursuant to Chapter 4.5 (commencing with Section 12878) of Part 6 of Division 6 of the Water Code, which district or area is authorized under the principal act of the district to levy or to have levied on its behalf an ad valorem assessment or ad valorem tax within the district, or any zone thereof, and Levee District No. 1 of Sutter County formed pursuant to Chapter 349 of the Statutes of 1873–74.

60401. In addition to levying an ad valorem tax or ad valorem assessment for flood control services, the board of supervisors may, by ordinance, and an independent board of directors of a flood control district may, by resolution, levy an assessment on each parcel of real property within the district, or any zone thereof, on the basis of estimated benefit sufficient to cover the cost not otherwise offset by other available revenue of providing flood control services within the district, or any zone thereof, except that the board of supervisors shall not impose an assessment upon a federal or state governmental agency or another local agency. Benefits received may be determined on the basis of the proportionate storm water runoff from each parcel.

60402. Whenever the board of supervisors levies an assessment, the board of supervisors shall first have a written report, containing a description of each parcel and the amount of the assessment for each parcel, prepared and filed with the clerk of the board of supervisors and the clerk shall fix a time, date, and place for a hearing upon the report. Prior to the date of the hearing, a notice of the hearing shall be published pursuant to Section 6066 of the Government Code and at least three notices shall be posted in public places within the district.

At the hearing, the board of supervisors shall hear and consider all protests. At the conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any assessment and shall make its determination upon each assessment described in the

report and thereafter, by resolution, shall confirm the assessments.

60403. The confirmed assessment shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes, except that, if for the first year such assessment is levied the real property on which the assessment is levied has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of county taxes would become delinquent, the confirmed assessment shall not result in a lien against the real property but shall be transferred to the unsecured roll.

60404. Whenever a railroad right-of-way is included within the district, the railroad right-of-way shall be assessed only if, and to the extent that, it is found that it will be benefited, and the railroad right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquency as are other parcels in the district. In determining whether or not the railroad right-of-way benefits, its use as a right-of-way for a railroad shall be presumed to be permanent.

60405. The board of supervisors may thereafter, in each year, prior to the time of fixing the county tax rate estimate the cost of providing flood control services within the district, or any zone thereof, during the ensuing year. The board of supervisors may, in addition to all other taxes, levy for purposes of providing flood control services an assessment each year upon the real property in the district, or any zone thereof, sufficient to pay such expense.

60406. (a) The board of supervisors shall place before the voters of the district or zone, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the district or zone.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the district or zone, as the case may be.

(c) The proposition is approved if a majority of those voting approve the proposition.

(d) In the case of flood control districts having countywide jurisdiction, but governed by an independent board of directors, the functions of the board of supervisors as specified in this chapter may be performed by such board of directors.

SEC. 2. Section 1550.4 is added to the Streets and Highways Code, to read:

1550.4. As an alternative to imposing the property tax for road maintenance, the board of supervisors may, by ordinance, levy an

assessment on each parcel of real property within the district on the basis of estimated benefit sufficient to cover the cost, not otherwise offset by other available revenue, of installing, operating, and maintaining street lights within the district, except that the board of supervisors shall not impose an assessment upon a federal or state governmental agency or another local agency.

SEC. 3. Section 1550.5 is added to the Streets and Highways Code, to read:

1550.5. Whenever the board of supervisors levies an assessment, the board of supervisors shall first have a written report, containing a description of each parcel and the amount of the assessment for each parcel, prepared and filed with the clerk of the board of supervisors and the clerk shall fix a time, date, and place for a hearing upon the report. Prior to the date of the hearing, a notice of the hearing shall be published pursuant to Section 6066 of the Government Code and, in addition, at least three notices shall be posted in public places within the district.

At the hearing, the board of supervisors shall hear and consider all protests. At the conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any assessment and shall make its determination upon each assessment described in the report and thereafter, by resolution, shall confirm the assessments.

SEC. 4. Section 1550.6 is added to the Streets and Highways Code, to read:

1550.6. The confirmed assessment shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes; except that, if for the first year such assessment is levied the real property on which the assessment is levied has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of county taxes would become delinquent, the confirmed assessment shall not result in a lien against the real property but shall be transferred to the unsecured roll.

SEC. 4.5. Section 1550.7 is added to the Streets and Highways Code, to read:

1550.7. Whenever a railroad, gas, water, or electric utility right-of-way or electric line right-of-way is included within the district, the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be assessed only if, and to the extent that, it is found that it will benefit, and the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquency as other parcels in the district. In determining whether or not the railroad, gas, water, or electric utility right-of-way or electric line right-of-way benefits, its use as a right-of-way for a railroad, gas, water, or electric utility shall be presumed to be permanent.

SEC. 4.7. Section 1550.8 is added to the Streets and Highways

Code, to read:

1550.8. (a) The board of supervisors shall place before the voters of the district, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the district.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the district voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the district.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 5. Section 5830 of the Streets and Highways Code is amended to read:

5830. The board of supervisors shall thereafter, in each year, prior to the time of fixing the county tax rate, estimate the cost of maintaining and operating the improvements to be maintained and operated within the maintenance district during the ensuing year. The board of supervisors shall decide whether or not the cost of maintaining and operating the improvement shall be borne wholly or partially by the maintenance district and shall, in addition to all other taxes, fix a special tax rate for the real property within the maintenance district, or for lighting purposes levy an assessment on each parcel of real property within the maintenance district on the basis of the estimated benefit to the parcel, sufficient to raise an amount of money to cover the expense of maintaining the improvements during the ensuing year, or such portion of the amount as the board of supervisors shall determine shall be borne by the maintenance district, and the board of supervisors shall levy a special assessment tax or, for lighting purposes, an assessment each year upon the real property in the maintenance district sufficient to pay such expense, or the portion thereof, which shall be paid by the maintenance district.

SEC. 6. Section 5830.1 is added to the Streets and Highways Code, to read:

5830.1. Whenever the board of supervisors levies an assessment for lighting purposes, the board of supervisors shall first have a written report, containing a description of each parcel and the amount of the assessment for each parcel, prepared and filed with the clerk of the board of supervisors and the clerk shall fix a time, date, and place for a hearing upon the report. Prior to the date of the hearing, a notice of the hearing shall be published pursuant to Section 6066 of the Government Code and, in addition, at least three notices shall be posted in public places within the district.

At the hearing, the board of supervisors shall hear and consider all

protests. At the conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any assessment and shall make its determination upon each assessment described in the report and thereafter, by ordinance, shall confirm the assessments.

SEC. 6.5. Section 5830.2 is added to the Streets and Highways Code, to read:

5830.2. (a) The board of supervisors shall not levy assessments pursuant to Section 5830.1 unless it has adopted an ordinance to do so. The board of supervisors shall place before the voters of the district, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the district.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the district.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 7. Section 5831 of the Streets and Highways Code is amended to read:

5831. (a) The special assessment tax or the assessment, as the case may be, shall be levied and collected at the same time and in the same manner as the general tax levy for county purposes and when collected shall be paid into the county treasury to the credit of the fund of the maintenance district and be used for the payment of the expenses of the district. The board of supervisors may control and order the expenditure thereof for such purposes.

(b) With respect to the assessment, if for the first year such assessment is levied the real property on which the assessment is levied has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of county taxes would become delinquent, the confirmed assessment shall not result in a lien against the real property but shall be transferred to the unsecured roll.

SEC. 8. Section 5832.6 of the Streets and Highways Code is amended to read:

5832.6. If a maintenance district is organized in any year too late for the levy of a special assessment tax or an assessment, as the case may be, in that year or in the next ensuing year, the board of supervisors is hereby authorized to transfer funds of the county not immediately needed for county purposes to the maintenance district fund of the district to be used for the payment of the expenses of the district until such time as special assessment tax or assessment, as the

case may be, receipts are available therefor. The board of supervisors shall include in the levy of special assessment taxes or assessments for the district for the first fiscal year in which a tax or an assessment may be levied, a sum sufficient to repay to the county the amounts so transferred to the district for the portion or portions of the preceding fiscal year or years for which no levy of taxes or assessments was made for that purpose and the amounts so transferred shall be retransferred to the county treasury from the maintenance district fund of the district out of the first available receipts from the tax or assessment levy.

SEC. 9. Section 5832.7 of the Streets and Highways Code is amended to read:

5832.7. Any area of a maintenance district, or of a temporary zone formed pursuant to Section 5855 in a district, which is included in a city by annexation or incorporation after a loan has been made shall continue to be taxed or assessed for the repayment of its proportionate share of the unpaid balance of the loan.

SEC. 10. Section 5835.5 of the Streets and Highways Code is amended to read:

5835.5. Pursuant to a resolution adopted by its board of supervisors, a county may lend any available county funds to a county maintenance district for the replacement of obsolete equipment, or to defray unusual maintenance costs. Any such loan may be restricted for use in a temporary zone formed under the provisions of Section 5855 in a district. The loan shall bear interest at a rate to be fixed by the board of supervisors, and shall be repaid in approximately equal installments over a period not to exceed 10 years. Any funds lent to the district, or zone, are appropriated for the purposes for which the loan was made. Any area of a district, or of a temporary zone in a district, which is included in a city by annexation or incorporation after a loan has been made shall continue to be taxed or assessed for the repayment of its proportionate part of the unpaid balance of the loan.

If a zone is formed to be responsible for the loan, the board of supervisors shall, in the first fiscal year in which a special tax or assessment may be levied in the zone, and in each succeeding year of the duration of the zone, levy a special tax or assessment upon the taxable property in the zone for the purpose of repaying with interest the amount lent to the district by the county. When the loan has been repaid, the zone shall terminate.

In case of emergency, the board of supervisors may also borrow funds from another maintenance district and the board of supervisors may lend available district funds to another maintenance district. Such loans shall be subject to the same terms and conditions as loans made from county funds.

SEC. 11. Section 5839 of the Streets and Highways Code is amended to read:

5839. At the time fixed for the hearing or to which it may be continued, the board of supervisors shall hear and pass upon the

proposal and any objections which may be filed to the inclusion of any property within the proposed annexation.

The board of supervisors may, by order entered upon its minutes, determine that such territory or any part thereof may be annexed to the district and may order that the boundaries of the district be altered to include such territory if one or more of the following facts exist:

(a) The territory to be annexed will be benefited by annexation.

(b) The annexation will allow economies and efficiencies in the administration or operation of an existing lighting system in the territory to be annexed.

SEC. 12. Section 5840 of the Streets and Highways Code is amended to read:

5840. If any portion of the territory annexed to a maintenance district comprises a portion of another maintenance district formed under the provisions of this chapter, a highway lighting district organized pursuant to Part 4 (commencing with Section 19000) of Division 14, or a sewer maintenance district formed under the provisions of Chapter 4 (commencing with Section 4860), Part 3, Division 5 of the Health and Safety Code, the annexation of such territory shall not become complete unless and until any outstanding contract of the other district of which such territory is a part has expired or such contract, with the consent of the parties thereto, has been modified or canceled so as to relieve the other district of further obligation to pay for future contract obligations within the portion of the territory so withdrawn, and the funds of such other district remaining on hand upon the completion of such annexation shall have been apportioned between the maintenance district to which the territory was annexed and the other district from which it was withdrawn. The division of such funds shall be prorated in the proportion that the assessed value of the real property of the territory so withdrawn bore to the total assessed value of the real property within the district prior to such withdrawal.

SEC. 13. Section 5841 of the Streets and Highways Code is amended to read:

5841. If the territory annexed to a maintenance district includes within its boundaries all of another maintenance district formed under the provisions of this chapter, a highway lighting district organized pursuant to Part 4 (commencing with Section 19000) of Division 14, or a sewer maintenance district formed under the provisions of Chapter 4 (commencing with Section 4860), Part 3, Division 5 of the Health and Safety Code, upon such annexation becoming complete by the adoption of the order of the board of supervisors, the prior existing district so annexed shall thereupon be dissolved. Any funds of the district remaining on hand at the time of the annexation shall be transferred to the maintenance district to which such territory is annexed and any contracts or obligations of the previously existing district shall become the obligations of the maintenance district to which it is annexed.

SEC. 14. Section 5841.5 is added to the Streets and Highways Code, to read:

5841.5. Notwithstanding any other provision of law, subsequent to annexation of such territory and dissolution of the annexed district, the maintenance district shall assume all of the assets and liabilities of the dissolved district and shall be entitled to all of the property tax revenues to which the territory annexed would have been entitled had the territory not been so annexed.

SEC. 15. Section 19161 of the Streets and Highways Code is amended to read:

19161. Upon institution of proceedings pursuant to Section 19160, if the governing body determines that it will be just and equitable and in the public interest for the additional cost, if any, of installation and maintenance of additional lights to be paid by the district as a whole, it shall immediately estimate the cost of installing and maintaining the additional lights, and shall use such reserve funds as may have been accumulated for such purposes to the extent necessary. In the regular tax levy for the first fiscal year in which it is possible to do so, the governing body shall include a tax upon the taxable property within the district at the equalized value thereof, or an assessment on each parcel of real property within the district on the basis of the estimated benefit to the parcel, sufficient to pay the cost of installing and maintaining for one year the additional lights. If sufficient reserve funds are available or will be available from the tax or assessment levy already made, or after the tax or assessment levy has been made, the governing body shall proceed with the installation of the additional lights.

SEC. 15.5. Section 19161.1 is added to the Streets and Highways Code, to read:

19161.1. (a) The board of supervisors shall not levy assessments pursuant to Section 19161 unless it has adopted an ordinance to do so. The board of supervisors shall place before the voters of the district, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the district.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the district.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 16. Section 19170 of the Streets and Highways Code is amended to read:

19170. If the board of supervisors determines with respect to a

petition for the replacement of lights filed in conformity with this chapter, that

(a) It is just and equitable, and in the public interest, that the obsolete lighting system be replaced as provided in this chapter and that the proposed temporary zone be formed, and

(b) The petition was signed by resident taxpayers representing 60 percent or more of the total assessed valuation of all taxable property within the territory proposed to be formed into a zone, the board shall by resolution, entered in its minutes, fix and describe the boundaries of the proposed zone in such manner that any territory which will not be benefited by inclusion therein, or which is not contiguous thereto, or which is not described in the petition, shall not be included therein; shall declare the zone established, designating it by an identifying name or number; and shall specify the purposes and duration thereof, not to exceed 10 years from the beginning of the next ensuing fiscal year in which a special tax or assessment levy may be made in the zone.

SEC. 17. Section 19171 of the Streets and Highways Code is amended to read:

19171. With respect to a petition for the replacement of lights which includes no request for the establishment of a temporary zone, if the board of supervisors determines that it will be just and equitable and in the public interest for the additional cost, if any, of removing the obsolete lighting system and its replacement with a modern county- or utility-owned lighting system to be paid by the district as a whole, the board of supervisors shall immediately estimate the cost of replacement of the obsolete system and installation and maintenance of the modern system, and shall include in the regular tax levy for the first fiscal year in which it is possible to do so, a tax upon the taxable property within the district at the equalized value thereof, or an assessment on each parcel of real property within the district on the basis of the estimated benefit to the parcel, sufficient to pay such cost of replacement, installation and maintenance. After the tax or assessment levy has been made, the governing body shall proceed with the replacement of the obsolete system and the installation and maintenance of the modern system.

SEC. 18. Section 19175 of the Streets and Highways Code is amended to read:

19175. The board of supervisors may, from time to time, transfer moneys to the district, for the benefit of the zone, from any available funds of the county. Any moneys so transferred are hereby appropriated, and shall be used, for the payment of any currently payable expenses incurred by reason of the removal of the obsolete system and the installation of the modern system proposed for the zone, and for the cost of maintenance thereof prior to December 1st of the first fiscal year in which a special tax or assessment may be levied in and on behalf of the zone. All costs of maintenance of the modern system, subsequent to that date, shall be budgeted and included in the general levy of taxes or assessments, as the case may

be, in and on behalf of the district as a whole.

SEC. 19. Section 19176 of the Streets and Highways Code is amended to read:

19176. The board of supervisors shall, in the first fiscal year in which a special tax or assessment, as the case may be, may be levied in and on behalf of the zone, levy a special tax or assessment upon the taxable property therein for the purposes of the zone, and shall include in the levy a sum sufficient to repay to the county the amounts transferred to the district pursuant to Section 19175. The amounts so transferred shall be retransferred to the county treasury from the first available receipts from the special levy in the zone.

Thereafter, in the succeeding fiscal year or years during which the temporary zone remains in existence, the board of supervisors shall levy a special tax or assessment therein sufficient to pay any additional costs or charges incurred by reason of the removal of the obsolete system and the installation of the modern system therein, which may by contract be made payable in such year or years.

All special taxes or assessments levied in and on behalf of a zone, pursuant to this section, are in addition to any taxes or assessments levied therein for and on behalf of the district as a whole.

SEC. 19.5. Section 19176.1 is added to the Streets and Highways Code, to read:

19176.1. (a) The board of supervisors shall not levy assessments pursuant to Section 19176 unless it has adopted an ordinance to do so. The board of supervisors shall place before the voters of the zone, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the zone.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the zone.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 20. Section 19177 of the Streets and Highways Code is amended to read:

19177. A zone shall remain in existence for the period of time specified in the resolution of the board of supervisors which established it, and shall thereafter automatically terminate; provided, there are then no outstanding obligations payable from special taxes or assessments to be levied in the zone.

SEC. 21. Section 19180 of the Streets and Highways Code is amended to read:

19180. On or before the first day of September of each year, the

governing body shall make an estimate of the cost, not otherwise offset by other available revenue, of conducting and maintaining the district for the ensuing fiscal year, and shall include therein the cost of installing and maintaining such additional lights as may have been petitioned for by the residents of the district as well as the cost of any other things which may be necessary or proper for carrying out the purposes of this part, including a levy of tax or assessment not to exceed 10 percent of the total levy for other purposes for the purpose of accumulating reserve for installation of additional lights which, in the opinion of the governing board, may be petitioned for before the proceeds of another tax or assessment levy will be available for use for such purposes.

SEC. 22. Section 19180.1 is added to the Streets and Highways Code, to read:

19180.1. Whenever the board of supervisors levies an assessment, the board of supervisors shall first have a written report, containing a description of each parcel and the amount of the assessment for each parcel, prepared and filed with the clerk of the board of supervisors and the clerk shall fix a time, date, and place for a hearing upon the report. Prior to the date of the hearing, a notice of the hearing shall be published pursuant to Section 6066 of the Government Code and, in addition, at least three notices shall be posted in public places within the district.

At the hearing, the board of supervisors shall hear and consider all protests. At the conclusion of the hearing, the board of supervisors may adopt, revise, change, reduce, or modify any assessment and shall make its determination upon each assessment described in the report and thereafter, by ordinance, shall confirm the assessments, except that the board of supervisors shall not impose an assessment upon a federal or state governmental agency or another local agency.

SEC. 22.5. Section 19180.2 is added to the Streets and Highways Code, to read:

19180.2. (a) The board of supervisors shall not levy assessments pursuant to Section 19180.1 unless it has adopted an ordinance to do so. The board of supervisors shall place before the voters of the district, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the district.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the district.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 23. Section 19181 of the Streets and Highways Code is amended to read:

19181. (a) When the estimate has been made or the assessment has been confirmed, the board of supervisors of the county shall, at the time of levying county taxes, levy a special tax upon all of the taxable property within the district at the equalized value thereof, or an assessment on each parcel of real property within the district on the basis of the estimated benefit to the parcel in accordance with the confirmed assessment, sufficient to raise the amount of the estimate.

(b) The confirmed assessment shall be collected at the same time and in the same manner as a general tax levy for county purposes; except that, if for the first year such assessment is levied the real property on which the assessment is levied has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of county taxes would become delinquent, the confirmed assessment shall not result in a lien against the real property but shall be transferred to the unsecured roll.

(c) Whenever a railroad, gas, water, or electric utility right-of-way or electric line right-of-way is included within the district, the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the special tax or assessment only if, and to the extent that, it is found that it will benefit from the installation and maintenance of such lights, and the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquency as other parcels in the district. In determining whether or not the railroad, gas, water, or electric utility right-of-way or electric line right-of-way benefits, its use as a right-of-way for a railroad, gas, water, or electric utility shall be presumed to be permanent.

SEC. 24. Section 19182 of the Streets and Highways Code is amended to read:

19182. If a district is organized in any year too late for the levy of a tax or assessment in that year or in the next ensuing year, the board of supervisors is hereby authorized to transfer funds of the county not immediately needed for county purposes to the funds of the district to be used for the payment of the expenses of the district until such time as tax or assessment receipts are available therefor. The governing body may authorize the immediate installation of the lighting system in the district, and shall include in the levy of taxes or assessments for the district for the first fiscal year in which a tax or assessment may be levied, a sum sufficient to repay to the county the amounts so transferred to the district for the portion or portions of the preceding fiscal year or years for which no levy of taxes or assessments was made for that purpose, and the amounts shall be retransferred to the county treasury out of the first available receipts

from the tax or assessment levy.

SEC. 25. Section 19184 of the Streets and Highways Code is amended to read:

19184. The special tax or assessment, as the case may be, shall be levied, computed, entered, collected, and enforced at the same time, in the same manner, by the same persons and with the same penalties and priority of lien as other taxes for county purposes and when collected shall be paid into the county treasury to the credit of the fund of the district and shall be used only for the payment of the expenses of the district.

SEC. 26. Section 19185 of the Streets and Highways Code is amended to read:

19185. Pursuant to a resolution adopted by the board of supervisors, a county may lend any available county funds to a district for the replacement of obsolete lighting system equipment. Any such loan may be restricted for use in a temporary zone in a district. The loan shall bear interest at a rate to be fixed by the board of supervisors and shall be repaid in approximately equal installments over a period not to exceed 10 years. Any funds lent to the district are appropriated for the purposes for which the loan was made. Any area of a district, or of a temporary zone in a district, which is included in a city by annexation or incorporation after a loan has been made shall continue to be taxed or assessed for the repayment of its proportionate part of the unpaid balance of the loan.

If a zone is formed, the board of supervisors shall, in the first fiscal year in which a special tax or assessment may be levied in the zone, and in each succeeding year of the duration of the zone, levy a special tax upon the taxable property or assessment in the zone for the purpose of repaying the amount lent to the district by the county. When the loan has been repaid, the zone shall terminate.

SEC. 27. Section 19230 of the Streets and Highways Code is amended to read:

19230. Any portion of the territory of a highway lighting district may be withdrawn therefrom. Proceedings for the withdrawal of territory may be instituted by the board of supervisors upon its own motion, or by filing with the board of supervisors a petition signed by 50 or more freeholders or by a majority thereof if there are less than 100, within the territory desired to be withdrawn from the district requesting the withdrawal of the territory and describing the exterior boundaries of the territory so sought to be withdrawn.

SEC. 28. Section 19231 of the Streets and Highways Code is amended to read:

19231. The board of supervisors shall fix a time and place for the hearing on the motion or the petition and for hearing protests against the continuance of the remaining territory as a highway lighting district. The time fixed for the hearings shall not be less than 15 nor more than 30 days after the motion or receipt of the petition.

SEC. 29. Section 19233 of the Streets and Highways Code is amended to read:

19233. Any person interested may appear at the hearing and object to the withdrawal of territory from the district or may object to the continuance of the remaining territory as a highway lighting district. The board of supervisors shall consider and pass upon all objections, and the board of supervisors may order the withdrawal or may grant the petition for withdrawal either in whole or in part, and by resolution declare the district reestablished excluding from the district the territory withdrawn if it finds that one or more of the following facts exist:

(a) The territory to be withdrawn will be benefited by withdrawal.

(b) The withdrawal will allow economies and efficiencies in administration or operation of an existing lighting system in the territory to be withdrawn.

The decision of the board of supervisors on all objections and protests which are made shall be final and conclusive.

SEC. 30. Section 19253 of the Streets and Highways Code is amended to read:

19253. If at the time of the election to dissolve the district there is any indebtedness of the district outstanding, the vote to dissolve shall dissolve the district for all purposes except the levy and collection of taxes or assessments, as the case may be, for the payment of such outstanding indebtedness. From the time the district is thus dissolved until the indebtedness is fully paid, the legislative body of the city which is entitled to the property of the district as provided for in Section 19252 or, if there is no such city, the board of supervisors of the county wherein the district is located shall be the ex officio governing body of the district. That body shall levy such taxes or assessments and perform such other acts as may be necessary to pay the outstanding indebtedness of the district.

SEC. 31. Section 19270 of the Streets and Highways Code is amended to read:

19270. Upon the inclusion of all of the territory embraced in any highway lighting district within one or more incorporated cities, either by annexation proceedings or by the incorporation of the cities, the district may be dissolved. Such dissolution shall be effective upon the filing with the State Board of Equalization, the governing body of the district, and the county assessor of a copy of a resolution of the legislative body of the city, or of a joint resolution of the legislative bodies of all the cities, declaring the district dissolved. The remaining unencumbered funds of the district shall be distributed and administered as provided in this chapter. No tax or assessment shall be levied after dissolution.

Any one city may withdraw its territory from the district in the manner provided by Section 19290.

SEC. 32. Section 19280 of the Streets and Highways Code is amended to read:

19280. A district organized under this part may be dissolved by resolution of the board of supervisors if all of the territory in the

district has been annexed to a maintenance district for street lighting organized pursuant to Chapter 26 (commencing with Section 5820), Part 3, Division 7 and which shall provide service to the area and shall assume all of the assets and liabilities of the dissolved district.

Subsequent to annexation into a maintenance district for street lighting, and the dissolution of the highway lighting district formed pursuant to this part, all of the property tax revenues that would have accrued to the highway lighting district formed pursuant to this part, if it had remained a highway lighting district, shall accrue to the annexing maintenance district.

SEC. 33. Section 19305 of the Streets and Highways Code is amended to read:

19305. If the board of supervisors determines, with respect to a petition for additional lights filed in conformity with this chapter, that

(a) It is just and equitable, and in the public interest, that the proposed temporary zone be formed, and

(b) The petition was signed by resident taxpayers representing 60 percent or more of the total assessed valuation of all taxable property within the territory proposed to be formed into a zone,

the board shall by resolution, entered in its minutes, fix and describe the boundaries of the proposed zone in such manner that any territory which will not be benefited by inclusion therein, or which is not contiguous thereto, or which is not described in the petition, shall not be included therein; shall declare the zone established, designating it by an identifying name or number; and shall specify the purposes and duration thereof, not to exceed three years from the beginning of the next ensuing fiscal year in which a special tax levy or assessment may be made in the zone.

SEC. 34. Section 19306 of the Streets and Highways Code is amended to read:

19306. If the board of supervisors determines, with respect to a petition for annexation filed in conformity with this chapter, that

(a) The petition for annexation should be granted in whole or in part, pursuant to Chapter 12 (commencing with Section 19210), and

(b) It is just and equitable, and in the public interest, that the proposed temporary zone be formed, and

(c) That the petition was signed by resident taxpayers representing 60 percent or more of the total assessed valuation of all taxable property within the area therein proposed to be annexed,

the board, in addition to those proceedings required by Chapter 12, shall by resolution entered in its minutes, declare the annexed territory established as a temporary zone with boundaries coterminous with the boundaries of the territory annexed, designating the zone by an identifying name or number; and shall specify the purposes and duration thereof, not to exceed three years from the beginning of the next ensuing fiscal year in which a special

tax or assessment levy may be made therein.

SEC. 35. Section 19310 of the Streets and Highways Code is amended to read:

19310. The board of supervisors may, from time to time, transfer moneys to the district, for the benefit of the zone, from any available funds of the county. Any moneys so transferred shall bear interest at a rate to be fixed by the board of supervisors and are hereby appropriated, and shall be used, for the payment of any currently payable expenses incurred by reason of the installation of the lights proposed for the zone, and for the cost of maintenance thereof prior to December 1st of the first fiscal year in which a special tax or assessment may be levied in and on behalf of the zone. All costs of maintenance of the lights, subsequent to that date, shall be budgeted and included in the general levy of taxes or assessments, as the case may be, in and on behalf of the district as a whole.

SEC. 36. Section 19310.5 of the Streets and Highways Code is amended to read:

19310.5. Any area of the district, or of a zone in the district, which is included in a city by annexation or incorporation after a loan has been made shall continue to be taxed or assessed for the repayment of its proportionate share of the unpaid balance of the loan.

SEC. 37. Section 19311 of the Streets and Highways Code is amended to read:

19311. The board of supervisors shall, in the first fiscal year in which a special tax or assessment, as the case may be, may be levied in and on behalf of the zone, levy a special tax or assessment upon the taxable property therein for the purposes of the zone, and shall include in the levy a sum sufficient to repay to the county the amounts transferred to the district pursuant to Section 19310. The amounts so transferred shall be retransferred to the county treasury from the first available receipts from the special levy in the zone.

Thereafter, in the succeeding fiscal year or years during which the temporary zone remains in existence, the board of supervisors shall levy a special tax or assessment therein sufficient to pay any additional costs or charges incurred by reason of the installation of the lights therein, which may by contract be made payable in such year or years.

All special taxes or assessments levied in and on behalf of a zone, pursuant to this section, are in addition to any taxes or assessments levied therein for and on behalf of the district as a whole.

SEC. 37.5. Section 19311.1 is added to the Streets and Highways Code, to read:

19311.1. (a) The board of supervisors shall not levy assessments pursuant to Section 19311 unless it has adopted an ordinance to do so. The board of supervisors shall place before the voters of the zone, either before the initial ordinance takes effect or within one year thereafter, the question whether the district shall be authorized to levy assessments.

If the majority of those voting disapprove of such authority, no

subsequent ordinance levying assessments for any succeeding fiscal year shall be adopted by the board of supervisors without the prior approval of the voters of the zone.

Subsequent election or elections to secure such approval shall not be held more than once a year.

(b) The approval of the voters may be secured at a district or countywide election, or by a ballot mailed to each property owner or registered voter of the zone.

(c) The proposition is approved if a majority of those voting approve the proposition.

SEC. 38. Section 19312 of the Streets and Highways Code is amended to read:

19312. A zone shall remain in existence for the period of time specified in the resolution of the board of supervisors which established it, and shall thereafter automatically terminate; provided, there are then no outstanding obligations payable from special taxes or assessments to be levied in the zone.

SEC. 39. Section 19328 is added to the Streets and Highways Code, to read:

19328. Notwithstanding any other provision of law, the district resulting from the consolidation of two or more districts shall assume all of the assets of the separate districts so consolidated and shall be entitled to all of the property tax revenues to which each of the separate districts so consolidated would have been entitled had the districts not been consolidated.

SEC. 40. Section 22557 of the Streets and Highways Code is repealed.

SEC. 41. Section 22552.1 is added to the Streets and Highways Code, to read:

22552.1. Notwithstanding Section 22555, a mailed notice of hearing shall not be required upon formation of a new district, or annexation, detachment, dissolution, or consolidation of an existing district, as provided in this part if the clerk publishes a notice in accordance with Section 6066 of the Government Code.

SEC. 42. Section 22555 of the Streets and Highways Code is amended to read:

22555. (a) Posted notices of hearings for the formation or consolidation of an assessment district or for the annexation of territory to an existing district shall be headed "Notice of Improvement" in letters at least one inch in height. The notices, not less than three in all, shall be posted at intervals of not more than 300 feet along all streets within the proposed assessment district or within the territory proposed to be annexed to or consolidated with an existing district, as the case may be. Posting of notice of those hearings shall be completed at least 10 days prior to the date of hearing specified therein.

(b) Notwithstanding subdivision (a), notices of hearings for the formation or consolidation of an assessment district, or for the annexation of territory to an existing district, need not be posted

when such notices are mailed to all property owners, whether resident or nonresident, within the territory to be annexed, consolidated, or formed as provided in Section 22556.

SEC. 42.5. Section 22595 is added to the Streets and Highways Code, to read:

22595. Whenever a railroad, gas, water, or electric utility right-of-way or electric line right-of-way is included within an assessment district, the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be included in the initiating resolution, the engineer's report, and the resolution of intention. The railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be assessed only if, and to the extent that, it is found that it will benefit from the installation and maintenance of the proposed improvement, and the railroad, gas, water, or electric utility right-of-way or electric line right-of-way shall be subject to the same penalties, and the same procedure and sale, in the event of delinquency as other parcels in the assessment district. In determining whether or not the railroad, gas, water, or electric utility right-of-way or electric line right-of-way benefits, its use as a right-of-way for a railroad, gas, water, or electric utility shall be presumed to be permanent.

SEC. 43. Section 22605 of the Streets and Highways Code is amended to read:

22605. The legislative body, either in a single proceeding or by separate proceedings, may order one or any combination of the following changes of organization:

(a) The annexation of territory to an existing assessment district formed under this part.

(b) The detachment of territory from an existing assessment district formed under this part.

(c) The dissolution of an existing assessment district formed under this part.

(d) The consolidation into a single assessment district formed under this part of any combination of two or more of any of the following:

(1) An existing assessment district formed pursuant to this part.

(2) An existing lighting, street lighting, maintenance, or tree planting district formed pursuant to Chapter 26 (commencing with Section 5820) of Part 3 of Division 7, Part 1 (commencing with Section 18000), Part 2 (commencing with Section 18300), Part 3 (commencing with Section 18600), or Part 4 (commencing with Section 19000) of Division 14, or Part 1 (commencing with Section 22000) of this division, or pursuant to any procedural ordinance adopted by a charter city.

SEC. 44. Section 22608.1 is added to the Streets and Highways Code, to read:

22608.1. If all of the owners of property within the territory proposed to be formed into an assessment district, or proposed to be annexed to an existing assessment district, have given written

consent to the proposed formation, consolidation, or annexation, the territory may be formed into an assessment district, or annexed to or consolidated with an existing assessment district, as the case may be, without notice and hearing or filing of an engineers report, or both.

SEC. 45. Section 22608.2 is added to the Streets and Highways Code, to read:

22608.2. In the event that an ordinance requires the installation of any improvements described in this part by a subdivider, the resolution of intention may state that the territory owned by the subdivider comes under the terms of such ordinance and order that such territory be formed into an assessment district, or annexed to an existing assessment district, without notice and hearing or filing of an engineers report, or both.

SEC. 46. Section 22611 is added to the Streets and Highways Code, to read:

22611. Notwithstanding any other provision of law, the single assessment district resulting from a consolidation under this article shall assume all assets and liabilities of the districts consolidated and shall be entitled to all of the property tax revenues to which each of the separate districts involved in the consolidation would have been entitled had such districts not been so consolidated.

SEC. 47. Section 22627 of the Streets and Highways Code is repealed.

SEC. 47.5. Section 22624 of the Streets and Highways Code is amended to read:

22624. After approval of the report, either as filed or as modified, the legislative body shall adopt a resolution of intention. The resolution shall:

(a) Declare the intention of the legislative body to levy and collect assessments within the assessment district for the fiscal year stated therein, except that it shall not impose an assessment upon a federal or state governmental agency or another local agency.

(b) Generally describe the existing and proposed improvements and any substantial changes proposed to be made in existing improvements.

(c) Refer to the assessment district by its distinctive designation and indicate the general location of the district.

(d) Refer to the report of the engineer, on file with the clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.

(e) Give notice of the time, as fixed by Section 22625, and the place for hearing by the legislative body on the levy of the proposed assessment.

SEC. 48. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because this act is in accordance with the request of a local governmental entity or entities which desired legislative

authority to carry out the program specified in this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 49. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(a) The approval of Proposition 13 (Article XIII A of the California Constitution) by the voters of California has substantially reduced the tax revenues available to lighting districts. Annexations and consolidations of districts for street lighting will allow economies and efficiencies in the operation of street lighting systems and thus mitigate the effect of reduced revenues.

(b) The Landscaping and Lighting Act of 1972 requires that notices of hearings on the formation or consolidation of an assessment district, or annexation of territory thereto, be posted at not more than 300 feet intervals as well as published and mailed. Completion of posting in large proposed districts may not be financially feasible and should be dispensed with if notices are mailed to all property owners.

Due to the foregoing, it is necessary that this act go into immediate effect.

CHAPTER 262

An act to amend Section 35028 of the Water Code, relating to water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 19, 1979 Filed with Secretary of State July 19, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 35028 of the Water Code is amended to read:

35028. After the entry of the order establishing divisions within a district, one director shall be elected from each division and shall be a holder of title to land therein.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

California water districts are landowner voting districts subject to the Uniform District Election Law. Directors are elected in such districts at large unless the board of directors petitions for the

creation of divisions whereupon directors are elected by division. Directors elected at large must be holders of title to land within the district but need not be residents of the district. Directors elected by division under current law must be holders of title to land within the district and must be a resident of the division. There is no reason for this distinction and its continuance will effectively prevent otherwise qualified and competent individuals from seeking election to the board of directors when the district has petitioned for elections by division. Since the next general district election will take place in November, 1979, to insure the preservation of the public peace, health, and safety it is necessary that this act take immediate effect.

CHAPTER 263

An act to amend Section 954.5 of the Streets and Highways Code, and to repeal Section 2 of Chapter 259 of the Statutes of 1978, relating to transportation.

[Approved by Governor July 19, 1979 Filed with Secretary of State July 19, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 954.5 of the Streets and Highways Code is amended to read:

954.5. (a) The board of supervisors may, by resolution, terminate the maintenance of any county highway if it finds that the highway is unnecessary for the public convenience.

(b) Evidence that a county highway is unnecessary for the public convenience shall be taken at a public hearing set in accordance with the procedures for the abandonment of a county highway in Sections 955 and 956. Notice of such hearing shall be mailed to the owner of any property served by that portion of a county highway subject to the termination of maintenance. A county highway may be deemed unnecessary for the public convenience on the basis of any of the following:

(1) The county highway does not provide the primary access to occupied properties.

(2) Traffic on the county highway is intermittent and of low volume.

(3) The county highway is impassable for more than six months and there is no demand that it be reopened.

(c) A certified copy of the order terminating maintenance shall be recorded as provided in Section 956.

(d) If the board of supervisors resumes maintenance of a county highway on which maintenance was terminated under this section, a notice of maintenance shall be recorded in the office of the county recorder.

(e) If a determination is made that maintenance is no longer necessary, the county shall post signs clearly visible from the traveled highway at the beginning and end of the highway and at any intersection on the highway indicating that the county no longer maintains the highway. The sign shall read as follows: "This road is not maintained. _____ County is not responsible for any loss or injury suffered by reason of its use." The county shall provide adequate maintenance to ensure that the signs remain posted in the appropriate places and the message is legible. Once such action is taken and duly recorded and the required signs are posted, the county shall not be held liable for the death of or injury to a vehicle owner, operator, or passenger, or for damage to a vehicle or its contents, resulting from a dangerous condition on such highway.

SEC. 2. Section 2 of Chapter 259 of the Statutes of 1978 is repealed.

CHAPTER 264

An act to amend Sections 29142.2, 29142.4, and 29142.8 of, and to add Section 29142.5 to, the Public Utilities Code, relating to transportation, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 19, 1979 Filed with Secretary of State July 19, 1979]

The people of the State of California do enact as follows:

SECTION 1. It is the intent of the Legislature that the Alameda-Contra Costa Transit District, the San Francisco Bay Area Rapid Transit District, and the San Francisco municipal railway system continue vital transit services and that there be developed a financial management plan to adjust to property tax revenues lost to these operators as a result of Article XIII A of the California Constitution.

SEC. 2. Section 29142.2 of the Public Utilities Code is amended to read:

29142.2. Except as otherwise provided in Section 29142.4 and notwithstanding Section 7271 of the Revenue and Taxation Code, after deduction for the cost of the State Board of Equalization in administering the transactions and use tax, the amounts available for distribution on or before March 31, 1978, with respect to the tax imposed prior to January 1, 1978, shall be allocated to the San Francisco Bay Area Rapid Transit District. All other amounts collected under the ordinance adopted pursuant to Section 29140 and available for distribution shall be allocated as follows:

(a) Seventy-five percent to the San Francisco Bay Area Rapid Transit District.

(b) Twenty-five percent shall be allocated by the Metropolitan Transportation Commission to the San Francisco Bay Area Rapid Transit District, the City and County of San Francisco for its municipal railway system, and the Alameda-Contra Costa Transit District for transit services on the basis of regional priorities established by the commission. On and after July 1, 1980, the allocations by the commission to these transit operators for transit services shall be in accordance with the criteria in the financial management plan submitted to the Legislature pursuant to Section 29142.5.

SEC. 3. Section 29142.4 of the Public Utilities Code is amended to read:

29142.4. No funds shall be allocated to an entity pursuant to Section 29142.2, after January 1, 1978, unless, as determined by the Metropolitan Transportation Commission, the transit operator:

(a) Is a participating member of a transit operator coordinating council which the commission shall establish to better coordinate routes, schedules, fares, and transfers among the San Francisco Bay area transit operators and to explore potential advantages of joint ventures in areas such as marketing, maintenance, and purchasing. The commission shall be a member of the council.

(b) Establishes, for the period for which the funds are allocated, fare levels such that fare revenues equal at least 33 percent of its operating cost, which shall be all of its costs in the expense object classes, exclusive of the costs of the depreciation and amortization expense object classes, of the uniform system of accounts and records adopted by the State Controller pursuant to Section 99243. The allocation period shall not be less than one calendar quarter nor longer than one fiscal year, as determined by the commission. For purposes of this subdivision, the two special transit service districts of the Alameda-Contra Costa Transit District shall be considered separate transit districts. On and after July 1, 1981, the commission may grant, any operator which was in compliance with the 33 percent requirement prior to that date, a credit not to exceed 5 percent to meet that requirement on the basis of special operating characteristics of its transit system, including, but not limited to, its transfer and special fare policies. In no event shall the combined fare revenues of the three operators, excluding any credit granted by the commission, be less than 33 percent of their combined operating cost.

(c) Has complied with standards established by the commission pursuant to Section 66517.5 of the Government Code.

SEC. 4. Section 29142.5 is added to the Public Utilities Code, to read:

29142.5. The Metropolitan Transportation Commission, in coordination with the Alameda-Contra Costa Transit District, the San Francisco Bay Area Rapid Transit District, and the City and County of San Francisco, shall develop and submit to the Legislature, not later than February 11, 1980, a financial management plan to

continue the vital transit services of these transit operators. The financial management plan shall include recommendations on the need for, and sources of, any additional revenues and shall propose criteria upon which revenues are to be allocated. These criteria shall include, but not be limited to, consideration of local tax contributions and fare levels, coordination of services, and other measures designed to encourage the provision of efficient and effective transit services.

SEC. 5. Section 29142.8 of the Public Utilities Code is amended to read:

29142.8. (a) Any portion of the transactions and use tax revenues available for allocation and not allocated by the Metropolitan Transportation Commission shall be invested through the Surplus Money Investment Fund. The amount invested and the accrued interest therefrom shall be available for allocation by the commission.

(b) Any funds which accumulated during a period an operator is not in compliance with Section 29142.4 may be allocated to any operator in compliance with that section at the time of allocation.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

18300. (a) As used in this article, "open-end loan" means a loan or loans made by an industrial loan company pursuant to a loan agreement which expressly states that it is made pursuant to this

section and pursuant to which:

(1) The industrial loan company may permit the borrower to obtain advances of money from the industrial loan company from time to time or the industrial loan company may advance money on behalf of the borrower from time to time as directed by the borrower.

(2) The amount of each advance and the charges and other permitted costs are debited to an account.

(3) The charges are computed from time to time on the unpaid balances of the borrower's account, excluding from the computation any unpaid charges other than permitted fees, costs and expenses.

(4) The borrower has the privilege of paying the account in full at any time or in monthly installments.

(b) Subject to the written approval of the commissioner of the industrial loan company's plan of business for making open-end loans as not being misleading or deceptive and subject to regulations the commissioner may promulgate with respect to open-end loans under Section 18347, an industrial loan company may make open-end loans pursuant to this section and may contract for and receive thereon charges as set forth in Section 18212. Such charges may be calculated on an amount not exceeding the greater of:

(1) The actual daily unpaid balances of the open-end account in the billing cycle for which the charge is made, in which case one-thirtieth of the monthly rate may be charged for each day the unpaid balance is outstanding.

(2) The average daily unpaid balance of the open-end account in the billing cycle for which the charge is made, which is the sum of the amount unpaid each day during that cycle divided by the number of days in that cycle. The amount unpaid on a day is determined by adding to the balance unpaid as of the beginning of that day all advances and other debits and deducting all payments and other credits made or received as of that day.

The billing cycle shall be monthly. A billing cycle is monthly if the closing date of that cycle is the same date each month or does not vary by more than four days from the regular date.

(c) No industrial loan company shall enter into any agreement for an open-end loan that provides for a minimum payment that would result in the full repayment of principal over more than the maximum periods set forth below opposite the respective size of loans.

Principal amount of loan	*Maximum period*
Less than $1,500	24 months and 15 days
$1,500 but less than $2,500	36 months and 15 days
$2,500 but less than $4,000	48 months and 15 days
$4,000 but less than $6,000	60 months and 15 days
$6,000 but less than $10,000	84 months and 15 days

The minimum payment shall be determined by the amount of the

initial loan advance and shall continue at that amount until a subsequent loan advance is made, at which time the minimum payment shall be determined by the amount of the unpaid balance of the loan after the advance and including the advance. Minimum payments after each advance shall be determined in the same manner.

(d) On open-end loans the industrial loan company may contract for and receive the fees, costs and expenses permitted on other loans, including those permitted by Sections 18215, 18218, 18290, 18294, and 18412, subject to all of the conditions and restrictions set forth in those sections with the following variations:

(1) The charge for credit life insurance shall be on a monthly basis. No credit life insurance written in connection with an open-end loan shall be cancelled by the lender because of delinquency of the borrower in the making of the minimum payments thereon unless one or more of such payments is past due for a period of 90 days or more, and the lender shall advance to the insurer the amounts required to keep the insurance in force during such period, which amounts may be debited to the borrower's account.

(e) An industrial loan company shall not make an open-end loan in excesss of ten thousand dollars ($10,000) principal amount.

(f) The loan contract shall provide for payment of minimum payments complying with subdivision (c). All loans made pursuant to this section shall be repayable by equal or substantially equal monthly payments during the term of the loan.

(g) In lieu of applying the provisions of Section 18290, the provisions contained herein shall apply to open-end loans.

An industrial loan company may provide insurance on the life of one or more borrowers with the borrower's consent. The form of the insurance shall be approved by the Commissioner of Insurance and shall be in an amount not in excess of the indebtedness. The amount charged to the borrower for such insurance shall not exceed the amount provided in paragraph (1) or (2) following, whichever is less:

(1) The premium rate filed with the Commissioner of Insurance for the coverage provided pursuant to Article 5.9 (commencing with Section 799.1) of Chapter 1 of Part 2 of Division 1 of the Insurance Code and which has not been disapproved by him.

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as is fixed by the Commissioner of Insurance by a valid and effective regulation hereafter adopted.

Notwithstanding Section 18291, any such life insurance shall be in force as soon as the loan is made or coverage is agreed upon, whichever is later.

(h) The open-end loan agreement shall contain the name and address of the industrial loan company and shall disclose the nature

of the security taken, if any, the method of determining the minimum payments which will be required to repay the initial advance, and any subsequent advances on the loan, and the agreed rate of charge.

(i) At the time the open-end loan agreement is made the industrial loan company shall obtain from the borrower a signed statement as to whether any person has performed any act as a broker in connection with the making of the loan. If such statement discloses a broker or other person has participated, the company shall obtain a full statement of all sums paid or payable to the broker or other person. The open-end loan agreement and the statement required by this subdivision shall be kept for a period of two years after the date the loan has been paid in full, or has matured according to its terms, or has been charged off.

(j) Except in the case of an account which the industrial loan company deems to be uncollectible, or with respect to which delinquency collection procedures have been instituted, the company shall deliver or cause to be delivered to the borrower, or any one thereof, for each billing cycle at the end of which there is an outstanding balance in the account or with respect to which a finance charge is imposed, a statement setting forth the outstanding balance in the account at the beginning of the billing cycle, the date and amount of any subsequent loan advance during the period, the amounts and dates of crediting to the account during the billing cycle for payments, the amount of any finance charge debited to the account during the billing cycle, the annual percentage rate of finance charged determined under Regulation Z promulgated by the Board of Governors of the Federal Reserve System under the Federal Consumer Credit Protection Act, the balance on which the finance charge was computed, the closing date of the billing cycle, the outstanding balance on that date, and the minimum monthly payment required in the absence of any additional advance. If there has been any change in the nature of the security for the loan since the next preceding advance, the statement shall contain or be accompanied by a statement of the nature of the security for the loan after such change.

(k) An industrial loan company shall not take any instrument in connection with an open-end loan in which blanks are left to be filled in after execution.

(*l*) Subdivision (a) of Section 18205, and Sections 18206, 18214, 18222, 18231, and 18235 shall not apply to open-end loans.

(m) An industrial loan company shall not make an open-end loan secured by real property in whole or in part.

(n) An industrial loan company shall not charge for, offer or provide credit disability insurance in connection with an open-end loan.

(o) This section shall not apply to loans other than open-end loans.

SEC. 8. Section 18629 of the Financial Code is amended to read:

18629. Notwithstanding the provisions of any premium finance

agreement to the contrary, any insured may pay the obligation in full at any time before maturity of the final installment. If he does so, he shall receive a refund credit of the unearned finance charge computed in accordance with Section 18635 or 18637, except where the amount of the refund credit is less than one dollar ($1) no refund need be made, and except that where the earned finance charge amounts to less than the minimum finance charge permitted by Section 18627, the company may retain as an earned finance charge a sum equal to the minimum permitted by Section 18627 or the maximum prescribed by Section 18627, whichever is applicable.

SEC. 9. Article 5 (commencing with Section 18634) is added to Chapter 8 of Division 7 of the Financial Code, to read:

Article 5. Charges on Scheduled Balances

18634. This article is applicable only to premium finance agencies.

18635. Whenever the interest or charges, or interest and charges deducted in advance exceed the maximum provided by this division, by reason of subsequent repayment of the loan, a new loan, refinancing, or otherwise, or any portion thereof prior to maturity, such excess shall be rebated to the borrower or credited on any balance owing by the borrower to the company. The rebate shall be the difference between the total of the precomputed charge, any charge for extending the first due date, plus any default or deferment charges and the charges at the contract rate computed on unpaid principal balances for the number of days actually elapsed by applying each payment first to charges and the remainder to principal. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the company in full payment of the loan contract.

18636. (a) As an alternative to the provisions of Section 18635, if a loan is repayable in substantially equal and consecutive monthly installments of principal and charges combined, the first of which is due not less than 15 days nor more than one month and 15 days from the date the loan is made, a company may precompute charges and apply payments as provided in this article.

(b) The total charges which would be earned if the loan contract were repaid exactly according to its terms, at the monthly rate stated in the loan contract, may be precomputed when the loan is made and added to the principal of the loan. Every payment may be applied to the combined total of principal and precomputed charges until the loan contract is fully paid.

(c) The portion of the precomputed charge applicable to any particular monthly installment period shall bear the same ratio to the total precomputed charge, excluding any adjustment made for a first period of more or less than one month, as the balance scheduled to be outstanding during that monthly period bears to the sum of all monthly balances scheduled originally by the loan contract.

18637. If a loan contract made under Section 18636 is prepaid in full by cash, a new loan, refinancing or otherwise before the final installment date, the borrower shall receive a rebate of the portion of the precomputed charge applicable to the full installment periods following the installment date nearest the date of such prepayment; provided, however, that if prepayment in full occurs on or before the third installment date the rebate shall be the difference between the total precomputed charge and the charges at the contract rate computed on unpaid principal balances by applying each payment first to charges and the remainder to principal. After the third installment date, any prepayment made on or before the 15th day following an installment date shall be deemed to have been made on the installment date preceding such prepayment. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the company in full payment of the loan contract.

18638. A special rebate of precomputed charges shall be made if three or more, but not all, installments are prepaid in full at any one time either in one transaction or over a period of time on a loan made under Section 18636. The special rebate shall be equal to the portion of precomputed charge applicable to the last installment period multiplied by the total number of full installment periods such installments and any subsequent installments are prepaid. Such special rebate shall be computed and made at the termination of the loan contract and shall be an addition to any required rebate for prepayment in full.

18640. A deferment charge may be charged and collected on a loan made under Section 18636 if the payment date of all wholly unpaid installments on which no default charge has been collected is deferred one or more full months and the loan contract so provides. Such deferment charge shall not exceed the portion of precomputed charge applicable, prior to deferment, to the first deferred monthly installment period multiplied by the number of months the maturity of the contract is deferred. Such number of months shall not exceed the number of full installments which are in default on the date of deferment or which may become due within 15 days of such date. When a deferment charge is made, no portion of the precomputed charge shall apply to the installment periods in which no installment payment is required by reason of the deferment. In computing any default charge or required rebate, the portion of the precomputed charge applicable to each deferred balance and installment period following the deferment period and prior to the deferred maturity shall remain the same as that applicable to such balances and periods under the original contract of loan. Such charge may be collected at the time of deferment or at any time thereafter. Any payment received at the time of deferment may be applied first to the deferment charge and the remainder, if any, applied to the unpaid balance of the loan contract; provided, however, if such payment is sufficient to pay, in addition

to the appropriate deferment charge, any installment which is in default and the applicable default charge, it shall be first so applied and any such installment shall not be deferred nor subject to the deferment charge.

18642. If the maturity of a loan made under Section 18636 is accelerated for any reason, the company shall make the same refund or credit as would be required if the loan contract was paid in full on the date of acceleration and the unpaid balance shall be treated as the unpaid principal balance and thereafter the unpaid balance of the loan contract shall bear charges at the agreed rate of charge if the loan contract so provides.

18643. Notwithstanding any other provision of law not within this article, with respect to precomputed loans, premium finance agencies derive authority only from this article.

SEC. 10. Section 18705 of the Financial Code is amended to read:

18705. The provisions of subdivisions (b) and (c) of Section 18116, subdivision (a) of Section 18117, and subdivision (a) of Section 18147, and of Sections 18006, 18008, 18009, 18010, 18022, 18023, 18024, 18040, 18041, 18120, 18130, 18131, 18132, 18134, 18136, 18137, 18139, 18165, 18205, 18206, 18207, 18208, 18210, 18211, 18212, 18214, 18216, 18217, 18219, 18220, 18222, 18230, 18231, 18233, 18234, 18266, 18268, 18269, 18270, 18271, 18272, 18273, 18274, 18346, 18357 (b), 18436, 18437, 18439, 18441, 18442, and 18455 shall not apply to a mortgage banker or to any loan made by a mortgage banker.

SEC. 11. This act shall become operative on April 1, 1980, and shall apply only to loan contracts entered into on and after such date.

Such reimbursement shall be expended for maintenance, upkeep, and improvement of jail conditions, facilities, and services. Before the county is reimbursed by the department, the total amount of all charges against that county authorized by law for services rendered by the department shall be first deducted from the gross amount of reimbursement authorized by this section. In order that such services may continue without interruption, it is necessary that this act take effect immediately.

CHAPTER 275

An act to amend Sections 16429.1, 53601 and 53635 of the Government Code, relating to local agency funds.

[Approved by Governor July 19, 1979. Filed with Secretary of State July 19, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 16429.1 of the Government Code is amended to read:

16429.1. There is in the State Treasury the Local Agency Investment Fund, which fund is hereby created. All money in the fund is hereby appropriated without regard to fiscal years to carry out the purpose of this section. The State Controller shall maintain a separate account for each governmental unit having deposits in this fund.

Notwithstanding any other provisions of law, a local government official, with consent of the governing body of that agency, having money in its treasury not required for immediate needs, may remit such money to the State Treasurer for deposit in the Local Agency Investment Fund for the purpose of investment.

The local governmental unit has the exclusive determination of the length of time its money will be on deposit with the State Treasurer.

The State Treasurer may refuse to accept deposits into the fund if, in the judgment of the State Treasurer, such deposit would adversely affect the state's portfolio.

The State Treasurer may invest the money of the fund in securities prescribed in Section 16430. The State Treasurer may elect to have the money of the fund invested through the Surplus Money Investment Fund as provided in Article 4 (commencing with Section 16470) of Chapter 3 of Part 2 of Division 4 of Title 2.

Money in the fund shall be invested to achieve the objective of the fund which is to realize the maximum return consistent with safe and prudent treasury management.

An agency may hold deeds of trust or mortgages, including mortgages insured under Title II of the National Housing Act, as security for financing residential construction and may pledge or assign the same as security for repayment of revenue bonds. Such deeds of trust or mortgages may be assigned to, and held on behalf of the agency by, any bank or trust company appointed to act as trustee or fiscal agent by the agency in

any indenture or resolution providing for issuance of bonds pursuant to this chapter. An agency may establish the terms and conditions of financing, which shall be consistent with the provisions of any applicable federal or state law under which the financing is to be insured.

Bond anticipation notes may be paid from the proceeds of sale of the bonds of the agency in anticipation of which they were issued. Bond anticipation notes and agreements relating thereto and the resolution or resolutions authorizing such notes and agreements may contain any provisions, conditions, or limitations which a bond, agreement relating thereto, or bond resolution of the agency may contain except that any such note or renewal thereof shall mature at a time not later than two years from the date of the issuance of the original note.

(b) Every issue of its revenue bonds shall be a special obligation of the redevelopment agency payable from all or any part of the revenues specified in this chapter. The revenue bonds shall be negotiable instruments for all purposes, subject only to the provisions of such bonds for registration.

SEC. 6. Section 33780 of the Health and Safety Code is amended to read:

33780. In the discretion of the agency, any revenue bonds issued under the provisions of this chapter may be secured by a trust agreement by and between the agency and a corporate trustee or trustees, which may be any trust company or bank having the powers of a trust company within or without this state. Such a trust agreement or the resolution providing for the issuance of revenue bonds may pledge or assign the revenues to be received or proceeds of any contract or contracts pledged, and may convey or mortgage any residence the construction of which is to be financed out of the proceeds of such revenue bonds. Such trust agreement or the resolution providing for the issuance of bonds may provide for the assignment to such corporate trustee or trustees of mortgage or construction loans, to be held by such trustee or trustees on behalf

of the agency for the benefit of the bondholders. Such trust agreement or resolution providing for the issuance of revenue bonds may contain such provisions for protecting and enforcing the rights and remedies of the bondholders as may be reasonable and proper and not in violation of law, including such provisions as may be included in any resolution or resolutions of the agency authorizing the issuance of the revenue bonds. Any bank or trust company doing business under the laws of this state which may act as depositary of the proceeds of revenue bonds or of revenues or other moneys may furnish such indemnity bonds or pledge such securities as may be required by the agency. Any such trust agreement may set forth the rights and remedies of the bondholders and of the trustee or trustees, and may restrict the individual right of action by bondholders. In addition to the foregoing, any such trust agreement or resolution may contain such other provisions as the agency may deem reasonable and proper for the security of the bondholders. All expenses incurred in carrying out the provisions of such trust agreement or resolution may be treated as a part of the cost of residential construction.

SEC. 7. Section 33790 of the Health and Safety Code is amended to read:

33790. An agency may not finance mortgage or construction loans which have not been authorized by prior written agreement between the agency and the participating party. All agreements for such loans shall provide that the architectural and engineering design of the residential construction shall be subject to such standards as may be established by the agency and that the work of such residential construction shall be subject to such supervision as the agency deems necessary.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Existing law requires certain community redevelopment agency construction and mortgage loans to be insured. Provisions in the Insurance Code, however, prohibit the insuring of construction loans. In order to make the provisions of existing law workable and to permit redevelopment construction loans for housing, including housing for persons of low and moderate income, and to implement certain housing construction programs as soon as possible, it is necessary for this act to take effect immediately.

3. The unpaid balance of cash price, which is the difference between items 1 and 2.

4. The cost to the buyer of any insurance, the premium for which is included in the contract balance. Any such cost for credit life or disability insurance may be included in the finance charge if the amount thereof is separately stated on the face of the contract.

5. The amounts, if any, paid or to be paid to any public officer in connection with the transaction and for license, certificate of title, and registration fees imposed by law.

6. The amount of any city, county, or city and county imposed fee

or tax for a mobilehome.

7. The amount of any mobilehome escrow fee.

8. The amount of the state fee for issuance of a certificate of compliance or certificate of waiver pursuant to Section 9889.56 of the Business and Professions Code.

9. The amount, if any, charged by the dealer for documentary preparation. If a dealer charges a buyer a documentary preparation charge, then the contract shall contain a notice advising the buyer that such charge is not a governmental fee.

10. The amount of the unpaid balance, which is the sum of items 3, 4, 5, 6, 7, 8, and 9.

11. The amount of the finance charge, and the annual percentage rate as defined in the Federal Truth-In-Lending Act (15 U.S.C. 1601 et seq.).

12. The total of payments, which is the sum of items 6 and 7, payable by the buyer to the seller, the number of installments required, the amount of each installment, and the date for payment of the installments.

13. The names and addresses of all persons to whom the notice required under Section 2983.2 and permitted under Sections 2983.5 and 2984 of this code is to be sent.

14. A notice, in at least 8 point bold type if the contract is printed, reading as follows: "Notice to the buyer: (1) Do not sign this agreement before you read it or if it contains any blank spaces to be filled in. (2) You are entitled to a completely filled-in copy of this agreement. (3) Under the law, you have the right to pay off in advance the full amount due and under certain conditions to obtain a partial refund of the finance charge. (4) If you default in the performance of your obligations under this agreement, the vehicle may be repossessed and you may be subject to suit and liability for the unpaid indebtedness evidenced by this agreement."

15. A notice to the buyer, in writing, and, if printed, in type no smaller than 8 point, that complaints concerning unfair or deceptive practices or methods by the seller shall be referred to the seller and, if the complaint is not resolved, may be referred to the Department of Motor Vehicles, Division of Compliance, 2570 24th Street, Sacramento, 95818.

(b) If any charge for insurance (other than for credit life or disability) is included in the contract balance and disbursement of any part thereof be made more than one year after the date of the conditional sale contract, any finance charge on the amount to be disbursed after one year shall be computed from the month the disbursement is to be made to the due date of the last installment under the conditional sale contract.

(c) The amount of the finance charge in any conditional sale contract for the sale of a motor vehicle, with or without accessories, shall not exceed 1 percent of the unpaid balance multiplied by the number of months (computed on the basis of a full month for any fractional month period in excess of 15 days) elapsing between the

date of the contract and the due date of the last installment, or twenty-five dollars ($25), whichever is greater. The contract may provide for a delinquency charge or charges on any installment in default for a period of not less than 10 days in an amount not to exceed in the aggregate 5 percent of the installment, which amount may be collected only once on any installment regardless of the period during which it remains in default. The contract may provide for reasonable collection costs and fees in the event of delinquency.

(d) Any provision in any conditional sale contract for the sale of a motor vehicle to the contrary notwithstanding, the buyer shall have the privilege of paying at any time in full the indebtedness evidenced by the contract. Whenever an indebtedness is liquidated prior to maturity by prepayment or refinancing, or upon surrender or repossession and disposition of the motor vehicle, the holder shall thereupon refund to the buyer the unearned portion of the finance charge. The refund may be made in cash or credited to the amount due on the obligation of the buyer. The amount of the refund shall represent at least as great a proportion of the finance charge as the sum of the periodic time balances payable more than 15 days after the date of prepaying (or other event entitling the buyer to the refund) bears to the sum of all of the periodic time balances under the schedule of installments in the contract. The provisions of this subdivision shall not impair the right of the seller or his assignee to receive delinquency charges on delinquent installments and reasonable costs and fees as provided in subdivision (c) of this section. Where the amount of such refund is less than one dollar ($1), no refund need be made. Where the finance charge, after computing the refund, amounts to less than twenty-five dollars ($25), there may be retained an amount equal to twenty-five dollars ($25).

(e) Notwithstanding any other provision of this chapter to the contrary, in the event any required downpayment on which no finance charge is imposed is to be made by the buyer to the seller on a conditional sale contract after the date of such contract but prior to the date of the second payment otherwise scheduled, the amount of such payment may be shown in such contract as a deferred portion of the cash downpayment or as a deduction from the amount of the unpaid balance, and shall be included in the total of payments.

(f) Notwithstanding any other provision of this chapter to the contrary, in any instance in which vendor's single-interest insurance is to be written in connection with a conditional sale contract, a conditional sale contract complying with the applicable disclosure requirements of Regulation Z, as in effect on the date of such contract, shall be deemed to comply with the requirements of paragraphs 1 to 9, inclusive, of subdivision (a), irrespective of any difference between the provisions of that regulation and this chapter with respect to any information to be disclosed, the terminology, form or content of such disclosures, the amounts to be included in or manner of determining the unpaid balance, the finance charge or any other item of information to be disclosed, or otherwise. This

subdivision shall have no application to the determination of the amount of the unpaid balance, the finance charge, or any other amount for the purpose of computing the maximum permissible finance charge or the refund of any unearned portion of the finance charge under subdivisions (c) and (d), respectively, or for the purpose of computing any penalty under Section 2983.1.

(g) Notwithstanding any other provision of this chapter to the contrary, any information required to be disclosed in a conditional sale contract under this chapter may be set forth in terminology required or permitted under Regulation Z, as in effect at the time such disclosure is made. Nothing contained in this chapter shall be deemed to prohibit the disclosure in such contract of additional information required or permitted under Regulation Z, as in effect at the time such disclosure is made.

(h) If the requirements of this section are otherwise met, the preparation and use of a separate document for escrow instructions under Section 11950 of the Vehicle Code, relating to the sale of mobilehomes, shall not violate the single-document requirement of subdivision (a).

SEC. 2. Section 11713.1 of the Vehicle Code, as amended by Section 13.5 of Chapter 1162 of the Statutes of 1978, is amended to read:

11713.1. It shall be unlawful and a violation of this code for the holder of any dealer's license issued under this article to do any of the following:

(b) To advertise the total price of a vehicle without including all costs to the purchaser at time of sale, except sales tax, vehicle registration fees, the fee charged by the state for the issuance of the certificate of compliance or certificate of waiver pursuant to Section 9889.56 of the Business and Professions Code, finance charges, mobilehome escrow fees, the amount of any city, county, or city and county imposed fee or tax for a mobilehome, and any dealer documentary preparation charge. The dealer documentary preparation charge shall not exceed twenty dollars ($20).

(c) To exclude from the advertisement of a vehicle for sale that there will be added to the advertised total price at the time of sale, charges for sales tax, vehicle registration fees, the fee charged by the state for the issuance of the certificate of compliance or certificate of waiver pursuant to Section 9889.56 of the Business and Professions Code, finance charges, mobilehome escrow fees, the amount of any city, county, or city and county imposed fee or tax for a mobilehome, and any dealer documentary preparation charge.

(d) To represent the dealer documentary preparation charge as a governmental fee.

(e) To refuse to sell a vehicle to any person at the advertised total price, exclusive of sales tax, vehicle registration fees, the fee charged

by the state for the issuance of the certificate of compliance or certificate of waiver pursuant to Section 9889.56 of the Business and Professions Code, finance charges, mobilehome escrow fees, the amount of any city, county, or city and county imposed fee or tax for a mobilehome, and dealer documentary preparation charge, which charges shall not exceed twenty dollars ($20) while such vehicle remains unsold, unless the advertisement states the advertised total price is good only for a specified time and such time has elapsed.

SEC. 3. Section 1 of this act shall become operative on January 1, 1980.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that this may be accomplished at the earliest possible time, it is necessary that this act take immediate effect.

Whenever, under the provisions of this section, warrants drawn on trust funds became void, the moneys in the county treasury represented by such warrants may be transferred to the general fund of the county by the county auditor unless disposition is otherwise provided by law.

Any such new warrant shall be subject to the same limitations as the original warrant which it replaces.

(c) If, at any time after a period of two years from the date on which the original warrant became void, or during such other period of time as specified by ordinance, the payee or assignee presents such warrant to the governing body of the agency on which the warrant was drawn, the governing body may adopt an order instructing the county auditor to draw a new warrant in favor of the payee or assignee in the same amount as the original warrant, if the governing body determines that it would be inequitable or unreasonable under the facts of the individual case not to do so, and money is available in the county treasury to make payment on the indebtedness. Any such new warrant shall be subject to the same limitations as the original warrant which it replaces.

The Superintendent of Public Instruction shall develop a budget procedure for the disbursement of funds appropriated under this section to ensure equal treatment of participating students and to further ensure that such funds do not supplant existing money currently provided from other public sources. The appropriated money shall be used for the following purposes:

SEC. 2. Article 3 (commencing with Section 2550) is added to Chapter 12 of Part 2 of the Education Code, to read:

Article 3. Computation of Revenue Limits

2550. The Superintendent of Public Instruction shall perform the computations prescribed in this section for each county superintendent of schools.

(a) The Superintendent of Public Instruction shall make the following computations to determine the revenue limits for special education programs operated by county superintendents of schools:

(1) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall determine the 1978–79 revenue limits for each of the programs specified in subdivisions (b), (c), and (d) of Section 2500, as computed pursuant to Section 6 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978. The Superintendent of Public Instruction shall increase each of such revenue limits by a percentage equal to the inflation allowance calculated in Section 2557.

(2) For special education tuition charges for which county superintendents of schools were authorized to levy a tax pursuant to Section 2505, the Superintendent of Public Instruction shall calculate a revenue limit by dividing the total tuition actually paid for the 1977–78 fiscal year by the total average daily attendance of pupils educated for the county superintendent by the districts in the county for the 1977–78 fiscal year. For the 1979–80 fiscal year, the Superintendent of Public Instruction shall increase such revenue limit by a percentage equal to the inflation allowance calculated in Section 2557.

(3) For programs operated pursuant to Section 56604 for which county superintendents were previously reimbursed pursuant to Section 42902, the Superintendent of Public Instruction shall calculate a revenue limit equal to each county superintendent's expenditures per unit of average daily attendance in such programs in the 1977–78 fiscal year. For the 1979–80 fiscal year, the Superintendent of Public Instruction shall increase such revenue limit by a percentage equal to the inflation allowance calculated in Section 2557.

(4) For programs operated pursuant to Section 56818, the Superintendent of Public Instruction shall calculate a revenue limit equal to each county superintendent's expenditures per instructional hour in such programs in the 1977–78 fiscal year. For the 1979–80 fiscal year, the Superintendent of Public Instruction shall increase such revenue limit by a percentage equal to the inflation allowance calculated in Section 2557.

(5) For duties established pursuant to subdivisions (a), (b), (c), and (d) of Section 56314, the Superintendent of Public Instruction shall determine an amount equal to five dollars ($5) for a county of the first class, six dollars ($6) for a county of the second class, seven dollars ($7) for a county of the third class, eight dollars ($8) for a county of the fourth class, and ten dollars ($10) for each county in any other class, multiplied by the number of pupils in the county

receiving special education services. County class shall be determined pursuant to Section 1205.

(6) The Superintendent of Public Instruction shall multiply the amounts calculated in paragraphs (1) to (5), inclusive, by the estimated number of classes, units of average daily attendance, instructional hours or pupils receiving special education services, as appropriate, for the 1979–80 fiscal year, with the exception of the amount in paragraph (3), which shall be multiplied by the units of average daily attendance for the 1978–79 fiscal year or the estimated units of average daily attendance for the 1979–80 fiscal year, as appropriate in each county.

(7) The total amount determined in paragraph (6) may be used for any of the programs specified in this subdivision.

(b) The Superintendent of Public Instruction shall make the following computations to determine the revenue limits for special schools and classes operated by county superintendents of schools:

(1) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall determine the 1978–79 revenue limits for the programs specified in subdivision (e) of Section 2500, as computed pursuant to Section 6 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978. The Superintendent of Public Instruction shall increase such revenue limits by a percentage equal to the inflation allowance calculated in Section 2557.

(2) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall determine the allowances which county superintendents receive per unit of average daily attendance in programs operated pursuant to Section 1980 or 48633.

(3) The Superintendent of Public Instruction shall multiply the amounts calculated in paragraphs (1) and (2) by the estimated number of units of average daily attendance for such programs for the 1979–80 fiscal year.

(4) The total amount calculated in paragraph (3) may be used for any of the programs specified in this subdivision.

(c) The Superintendent of Public Instruction shall make the following computations to determine the amount to be allocated for vocational/technical schools and classes operated by county superintendents of schools:

(1) For the 1979–80 fiscal year, for programs operated pursuant to Section 52301, the Superintendent of Public Instruction shall determine the 1978–79 revenue limits specified in Section 52317, as computed pursuant to Section 6 of Chapter 292, Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978. The Superintendent of Public Instruction shall increase such revenue limit by a percentage equal to the inflation allowance calculated in Section 2557. The Superintendent of Public Instruction shall then multiply this adjusted revenue limit by the estimated number of units of average daily attendance for such programs for the 1979–80 fiscal year. For purposes of this paragraph, such estimate shall include only

average daily attendance earned by students concurrently enrolled in regular high school programs and by adults enrolled in short term vocational programs.

(2) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall determine the revenue limits for programs operated pursuant to Sections 1791 and 2520, as computed pursuant to Section 6 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978. The Superintendent of Public Instruction shall increase such revenue limits by a percentage equal to the inflation allowance calculated in Section 2557.

(3) The total amount calculated in paragraphs (1) and (2) may be used for any of the programs specified in this subdivision.

2551. The Superintendent of Public Instruction shall perform the computations prescribed in this section to determine each county superintendent's revenue limit for county superintendent responsibilities and district services:

(a) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall calculate the revenue limit for programs operated pursuant to Sections 1510 and 2506, as computed pursuant to Section 6 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978. The Superintendent of Public Instruction shall increase such revenue limit by a percentage equal to the inflation allowance calculated in Section 2557.

(b) For the 1979–80 fiscal year and for each fiscal year thereafter, the Superintendent of Public Instruction shall increase the amount calculated in subdivision (a) by the amounts computed according to Sections 2507.5 and 2510, and the amount of increased cost pursuant to Section 2507.7 for the 1978–79 fiscal year.

(c) The total amounts for each program calculated pursuant to subdivision (a) may be used for any of the services or programs specified in this section.

2552. The Superintendent of Public Instruction shall make the following computations to determine each county superintendent's revenue limit for expenditures of county superintendents of schools previously authorized and funded by a tax levied and collected pursuant to Section 2504:

(a) For the 1979–80 fiscal year, the Superintendent of Public Instruction shall determine the greater of the amount levied and collected pursuant to Section 2504, or expended for the purposes specified in Section 2504, in fiscal year 1976–77 or 1977–78, not to exceed the maximum amount that could have been levied and collected pursuant to Section 2504 in the year selected. The Superintendent of Public Instruction shall increase this amount by a percentage equal to the inflation allowance calculated in Section 2557.

(b) The total amount determined in subdivision (a) shall be restricted to expenditures specified in Section 2504, to be used in any of the programs specified in Sections 2550 and 2551, except those programs specified in paragraph (2) of subdivision (c) of Section

2550.

2553. For major capital outlay projects which cannot be funded by other revenue sources, county superintendents of schools shall be eligible for capital outlay funds in the same manner as specified by law for school districts. Any funds apportioned to the county superintendent pursuant to this section shall be restricted to the purposes of this section.

2554. In each fiscal year, beginning with fiscal year 1979–80, for tuition for students attending schools in adjoining states, the Superintendent of Public Instruction shall apportion an amount to each county superintendent sufficient to pay the amounts required or allowed to be paid pursuant to Sections 2002 to 2006, inclusive.

2555. Beginning July 1, 1979, the Superintendent of Public Instruction shall apportion an amount to each county superintendent sufficient for payments required pursuant to any school building aid law previously funded by a tax levied pursuant to Section 2503.

2556. For the purposes of the allocation of property tax revenues for the 1979–80 fiscal year and each fiscal year thereafter pursuant to Part 0.5 (commencing with Section 95) of Division 1 of the Revenue and Taxation Code, property tax revenues received for the 1977–78 fiscal year pursuant to Sections 41203 and 84203 of the Education Code, or for the 1978–79 fiscal year pursuant to Section 2 of Chapter 51, Statutes of 1979, shall be deemed to be property tax revenues received by the county superintendent of schools.

2557. (a) For the 1979–80 fiscal year, the inflation allowance shall be the same as the percentage increase applied to the revenue limits of school districts for the 1979–80 fiscal year pursuant to paragraph (1) of subdivision (b) of Section 42237.

(b) For the 1980–81 fiscal year and each fiscal year thereafter, the prior year revenue limits per average daily attendance, class, or instructional hour, determined in Section 2550, and the prior year total revenue limits determined in Sections 2551 and 2552, except those specified in paragraph (5) of subdivision (a) of Section 2550, shall be increased by a percentage equal to the percentage increase applied to the statewide average revenue limit for unified school districts for the then current fiscal year. The resulting amounts shall then be multiplied by the estimated number of classes, units of average daily attendance, instructional hour or pupils receiving special education services, as appropriate for the then current fiscal year.

2558. Notwithstanding any other provision of law, for the 1979–80 fiscal year and each fiscal year thereafter, the Superintendent of Public Instruction shall apportion state aid to county superintendents of schools pursuant to the provisions of this section.

(a) The Superintendent of Public Instruction shall total the amounts computed for the fiscal year pursuant to Sections 2550, 2551, 2552, 2554, 2555, and 2557. For the 1979–80 fiscal year only, the amount in this subdivision shall be multiplied by a factor of 0.994.

(b) The Superintendent of Public Instruction shall subtract from

the amount determined in subdivision (a) the sum of: (1) local property tax revenues received in the then current fiscal year, and tax revenues received pursuant to Section 2556 in the then current fiscal year, (2) state and federal categorical aid for the fiscal year, (3) district contributions pursuant to Sections 1705 and 52321 for the fiscal year, and other applicable local contributions and revenues, (4) unsecured and prior year taxes for the fiscal year, and the amounts, if any, to be received pursuant to Part 18.5 (commencing with Section 38101) of the Revenue and Taxation Code and Chapter 3 (commencing with Section 16140) of Part 1 of Division 4 of Title 2 of the Government Code, and (5) any amounts that the county superintendent of schools was required to maintain as restricted and not available for expenditure in the 1978–79 fiscal year as specified in the second paragraph of subdivision (c) of Section 6 of Chapter 292, Statutes of 1978, as amended by Chapter 51, Statutes of 1979.

(c) The remainder computed in subdivision (b) shall be distributed in the same manner as state aid to school districts from funds appropriated to Section A of the State School Fund.

(d) If the remainder determined pursuant to subdivision (b) is a negative amount, no state aid shall be distributed to that county superintendent of schools pursuant to subdivision (c), and an amount of funds of that county superintendent equal to such negative amount shall be deemed restricted and not available for expenditure during the current fiscal year. In the next fiscal year, such amount shall be considered local property tax revenue for purposes of the operation of paragraph (1) of subdivision (b) of this section.

SEC. 3. Article 1 (commencing with Section 14000) of Chapter 1 of Part 9 of the Education Code is repealed.

SEC. 4. Article 1 (commencing with Section 14000) is added to Chapter 1 of Part 9 of the Education Code, to read:

Article 1. Sources, Conditions of Apportionments, Amounts of Support Per Average Daily Attendance

14000. It is the intent of the Legislature that the administration of the laws governing the financial support of the public school system in this state be conducted within the purview of the following principles and policies:

The system of public school support should be designed to strengthen and encourage local responsibility for control of public education. Local school districts and community college districts should be so organized that they can facilitate the provision of full educational opportunities for all who attend the public schools. Local control is best accomplished by the development of strong, vigorous, and properly organized local school administrative units. It is the state's responsibility to create or facilitate the creation of local districts of sufficient size to properly discharge local responsibilities and to spend the tax dollar effectively.

The system of public school support should assure that state, local, and other funds are adequate for the support of a realistic funding level. It is unrealistic and unfair to the less wealthy districts to provide for only a part of the financing necessary for an adequate educational program.

The system of public school support should permit and encourage local school districts and community college districts to provide and support improved district organization and educational programs. The system of public school support should prohibit the introduction of undesirable organization and educational practices, and should discourage any such practices now in effect. Improvement of programs in particular districts is in the interests of the state as a whole as well as of the people in individual districts, since the excellence of the programs in some districts will tend to bring about program improvement in other districts.

The system of public school support should make provision for the apportionment of state funds to local districts on a strictly objective basis that can be computed as well by the local districts as by the state. The principle of local responsibility requires that the granting of discretionary powers to state officials over the distribution of state aid and the granting to these officials of the power to impose undue restriction on the use of funds and the conduct of educational programs at the local level be avoided.

The system of public school support should effect a partnership between the state, the county, and school and community college districts, with each participating equitably in accordance with its relative ability. The respective abilities should be combined to provide a financial plan between the state and the local agencies for public school support. Toward this support program, each county and district, through a uniform method, should contribute in accordance with its true financial ability.

The system of public school support should provide for essential educational opportunities for all who attend the public schools. Provision should be made in the financial plan for adequate financing of all educational services.

The broader based taxing power of the state should be utilized to raise the level of financial support in the properly organized but financially weak districts of the state, thus contributing greatly to the equalization of educational opportunity for the students residing therein. It should also be used to provide a minimum amount of guaranteed support to all districts, for such state assistance serves to develop among all districts a sense of responsibility to the entire system of public education in the state.

14002. (a) The Controller shall during each fiscal year commencing with the 1980–81 fiscal year, transfer from the General Fund of the state to that portion of the State School Fund restricted for elementary and high school purposes, hereinafter called Section A of the State School Fund such sums, in addition to the sums accruing from other sources, as shall provide in Section A of the State

School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, of one hundred eighty dollars ($180).

(b) The Controller shall also transfer, as needed during each fiscal year commencing with the 1980–81 fiscal year, such additional amounts from the General Fund to Section A of the State School Fund as are certified from time to time by the Superintendent of Public Instruction to be necessary to meet actual computed apportionments from Section A of the State School Fund for the purposes set forth in Section 41301; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, one thousand two hundred sixty-eight dollars ($1,268) for the 1980–81 fiscal year and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction.

(c) In addition to the amounts authorized to be transferred to Section A of the State School Fund under subdivisions (a) and (b), the Controller shall transfer from the General Fund to Section A of the State School Fund during the fiscal year, upon certification of the Superintendent of Public Instruction, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Sections 41300 and 41301, an amount not to exceed the lesser of: (1) 1 percent of the total apportionment from Section A of the State School Fund in the preceding fiscal year for the purposes set forth in Sections 41300 and 41301, or (2) the net amount, if any, by which the total amounts authorized to be transferred from the General Fund to Section A of the State School Fund under subdivisions (a) and (b) in prior fiscal years have exceeded the total amounts actually apportioned in prior fiscal years for the purposes set forth in Sections 41300 and 41301.

(d) The Controller shall also transfer to Section A of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts for any of the purposes set forth in Sections 41300 and 41301 and such additional amounts shall be allowed and apportioned by the Superintendent of Public Instruction and warrants therefor drawn by the Controller in the manner provided in Sections 41050, 46304, and 84503 and in this article, Article 2 (commencing with Section 14040), Article 3 (commencing with Section 41330) of Chapter 3, and Article 1 (commencing with Section 41600) of Chapter 4 of Part 24.

(e) The amounts transferred under subdivisions (a) and (b) of this section shall be cumulatively increased by the following amounts:

(1) In the 1981–82 fiscal year, by 7 percent.

(2) In the 1982–83 fiscal year and each fiscal year thereafter, by 6 percent.

14002.5. In making the computation prescribed by subdivision (b) of Section 14002, the Controller shall cumulatively increase the seventy-nine cents ($0.79) amount prescribed by that subdivision by 6 percent annually, and shall cumulatively increase the twenty-one dollar and fifty cents ($21.50) amount prescribed by that subdivision by 6 percent annually.

14004. In addition to all other funds appropriated and transferred to Section A of the State School Fund, the Controller shall annually transfer from the General Fund to Section A of this State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state as certified by the Superintendent of Public Instruction of fourteen cents ($0.14).

14004.5. (a) In addition to all other funds appropriated and transferred to Section A of the State School Fund, the Controller shall annually transfer from the General Fund to Section A of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all the county superintendents of schools in the state as certified by the Superintendent of Public Instruction, of twenty-one dollars and eighty cents ($21.80) for fiscal year 1978–79 and thirty-four dollars and fifty-one cents ($34.51) for fiscal year 1979–80, for apportionments allowed pursuant to Article 5 (commencing with Section 56300) of Chapter 2 of Part 30.

(b) Funds appropriated pursuant to this section and funds available pursuant to Section 41301 shall be used for Part 30 (commencing wth Section 56000) including the Master Plan for Special Education (Chapter 2 (commencing with Section 56300) of Part 30). For the 1977–78 fiscal year, the superintendent shall adjust all special education allowances not previously adjusted pursuant to Chapter 219 of the Statutes of 1977 by 6 percent.

It is the intent of the Legislature that pursuant to the provisions of Chapter 1247 of the Statutes of 1977, and subject to future budget acts, the funds provided in subdivision (a) for the purpose of providing special education services pursuant to Section 56300 shall be sixty-three dollars and fifty-six cents ($63.56) for the 1980–81 fiscal year and one hundred thirteen dollars and eighty-two cents ($113.82) for the 1981–82 fiscal year.

14005. (a) The amount to be transferred to Section A of the State School Fund under Section 14002 shall in each fiscal year be adjusted for errors of average daily attendance reported in prior fiscal years. Adjustment of such errors will be subject to the time limitations as provided in Section 41341. Such adjustments with regard to the amount to be transferred to Section A of the State School Fund shall be at the state's rate of contribution under Section 14002 in effect in

the fiscal year to which the error applied, and shall be applied in accordance with the purposes set forth under Section 41300. The amount of any adjustment shall not, however, cause the amount to be transferred to Section A of the State School Fund during any fiscal year under Section 14002 to be less than one hundred eighty dollars ($180) per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state.

(b) If in any fiscal year the amount transferred to Section A of the State School Fund under Section 41304 is reported to be in error, the Superintendent of Public Instruction shall notify the Controller of such error, and he shall add to or withhold from the next apportionment moneys due the district by transfers from or returns to the General Fund of such erroneous amounts.

14007. In addition to all other funds appropriated and transferred to Section A of the State School Fund, the Controller shall annually transfer from the General Fund to Section A of the State School Fund for apportionment during the fiscal year a total amount of nine cents ($0.09) per pupil in average daily attendance during the preceding fiscal year credited to all elementary, high, and unified school districts and to all county superintendents of schools in the state, as certified by the Superintendent of Public Instruction, for the purposes of Section 41301.5.

14020. (a) The Controller shall during each fiscal year transfer from the General Fund of the state to that portion of the State School Fund restricted for community college purposes, hereinafter called Section B of the State School Fund, such sums, in addition to the sums accruing from other sources, as shall provide in Section B of the State School Fund for apportionment during the fiscal year a total amount per pupil in average daily attendance during the preceding fiscal year credited to all community colleges and adult schools maintained in conjunction with community colleges in the state, as certified by the Chancellor of the California Community Colleges, of one hundred eighty dollars ($180).

(b) The Controller shall also transfer, as needed during each fiscal year, such additional amounts from the General Fund to Section B of the State School Fund as are certified from time to time by the Chancellor of the California Community Colleges to be necessary to meet actual computed apportionments from the State School Fund for the purposes set forth in Section 84300; provided that the total of such additional amounts transferred in a fiscal year shall not exceed, except pursuant to subdivision (c) of this section, four hundred thirty-four dollars and four cents ($434.04) for the 1979–80 fiscal year and fiscal years thereafter, per pupil in average daily attendance during the preceding fiscal year credited to all community colleges in the state, as certified by the Chancellor of the California Community Colleges. Beginning in fiscal year 1979–80, the dollar amount in this subdivision shall be increased annually by 8 percent in fiscal year 1980–81, 7 percent in fiscal year 1981–82, and 6 percent

in fiscal year 1982–83 and each fiscal year thereafter, over the amount applicable for the preceding fiscal year.

(c) In addition to the amounts authorized to be transferred to Section B of the State School Fund from the General Fund under subdivisions (a) and (b), the Controller shall transfer from the General Fund to Section B of the State School Fund during the fiscal year, upon certification of the Chancellor of the California Community Colleges, if necessary to meet actual computed apportionments for the fiscal year for the purposes set forth in Section 84300, an amount not to exceed 1 percent of the total apportionment from Section B of the State School Fund in the preceding fiscal year for the purposes set forth in Section 84300.

(d) The Controller shall also transfer to Section B of the State School Fund any additional amounts appropriated thereto by the Legislature in augmentation of any of the amounts prescribed for any of the purposes set forth in Section 84300, and such additional amounts shall be allowed and apportioned by the Chancellor of the California Community Colleges and warrants therefor drawn by the Controller in the manner provided in this article and Article 2 (commencing with Section 14040) of this chapter.

14021. (a) The amount to be transferred to Section B of the State School Fund under Section 14020 shall in each fiscal year be adjusted for errors of average daily attendance reported in prior fiscal years. Adjustment of such errors are subject to the time limitations as provided in Section 84330. Such adjustments with regard to the amount to be transferred to Section B of the State School Fund shall be at the state's rate of contribution under Section 14020 in effect in the fiscal year to which the error applied, and shall be applied in accordance with the purposes set forth under Section 84300. The amount of any adjustment shall not, however, cause the amount to be transferred to Section B of the State School Fund during any fiscal year under Section 14020 to be less than one hundred eighty dollars ($180) per pupil in average daily attendance during the preceding fiscal year credited to all community colleges and adult schools maintained in conjunction with community colleges in the state.

14035. The county school service fund contingency account is hereby established in the General Fund. In each fiscal year the amount credited to the account shall be one hundred thousand dollars ($100,000). Notwithstanding any provision of Section 14002 to the contrary, the amount to be credited to the county school service fund contingency account each fiscal year shall not be transferred from the General Fund as required or authorized to be transferred by Section 14002 but the amounts required or authorized to be transferred by Section 14002 shall be reduced by the amount to be credited to the contingency account and shall remain in the General Fund to the credit of the contingency account.

The money in the General Fund to the credit of the contingency account shall be transferred by the Controller to the State School Fund in amounts as are certified from time to time by the

Superintendent of Public Instruction to be necessary to meet actual costs to reimburse county superintendents of schools for expenses incurred in providing emergency education to pupils and making financial grants to school districts pursuant to Section 1602 and to reimburse county superintendents of schools for the actual and necessary travel expenses incurred in connection with cooperative county publication projects by the county superintendent of schools or members of his staff, and to reimburse county superintendents of schools for expenses incurred in making emergency financial grants to school districts pursuant to Section 1886.

The amount credited, pursuant to this section, in each fiscal year to the county school service fund contingency account in the General Fund shall be reduced by the amount of the balance remaining to the account on June 30 of the preceding fiscal year and an equal reduction shall be made in the amount of the reduction in the amounts required or authorized to be transferred under Section 14002 in accordance with this section.

SEC. 5. Section 16096.5 is added to the Education Code, to read:

16096.5. From any moneys in the State School Building Aid Fund available for the purposes of this chapter, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

SEC. 6. Section 16250 of the Education Code is amended to read:

16250. Not to exceed two million four hundred twelve thousand two hundred thirty-three dollars and forty-nine cents ($2,412,233.49) of the amount of the proceeds of bonds issued under the State School Building Aid Law of 1966 may be expended pursuant to this article. The funds shall be allocated by the State Allocation Board to a joint powers board of education for the construction of a permanent campus for a newly created regional occupation center school to be located in the south bay area of Los Angeles County, having a population in excess of 1,070,000, and a potential average daily attendance in excess of 10,000 persons. Not to exceed four hundred thousand dollars ($400,000) of such sum shall be allocated and expended for architectural and engineering services in connection with the construction.

Sections 16000 to 16006, inclusive, Sections 16009, 16018 and 16021, inclusive, shall be applicable to the administration of this article, unless the context of this article, as determined by the board requires otherwise.

SEC. 7. Article 6.5 (commencing with Section 16255) of Chapter 8 of Part 10 of the Education Code is repealed.

SEC. 8. Chapter 24 (commencing with Section 17780) is added to Part 10 of the Education Code, to read:

CHAPTER 24. TRANSFER OF EXCESS FUNDS

17780. Notwithstanding any other provision of law, whenever moneys transferred to the General Fund each year from (1) moneys deposited in the Public School Building Loan Fund pursuant to Section 15735, and (2) moneys deposited in the State School Building Aid Fund pursuant to Section 16080, are in excess of the amounts required to reimburse the General Fund on account of principal and interest due and payable for that fiscal year on all school building aid bonds outstanding against the state, an amount equal to such excess is appropriated from the General Fund for purposes of the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700) of this part) and Section 39619. The Controller shall transfer, as directed by the State Allocation Board, such appropriated amount to the State School Building Lease-Purchase Fund and to the State School Deferred Maintenance Fund, which is hereby established.

SEC. 9. Chapter 25 (commencing with Section 17785) is added to Part 10 of the Education Code, to read:

CHAPTER 25. EMERGENCY SCHOOL CLASSROOM LAW OF 1979

Article 1. General Provisions

17785. This chapter may be cited as the Emergency School Classroom Law of 1979.

17786. In adopting this chapter, the Legislature recognizes that the ad valorem tax is no longer available as a source of revenue for the construction of necessary school facilities. The Legislature considers that the greatest need in school construction is for classrooms for the education of public school pupils. It is the intent of the Legislature to satisfy this primary need to the greatest extent possible before providing any additional educational facilities, regardless of how desirable such additional facilities may be.

17787. As used in this chapter:

(a) "Board" means the State Allocation Board.

(b) "State School Building Aid Fund" means that fund established pursuant to Section 16096.

(c) "Lessee" means a school district or county superintendent of schools to whom the board has leased a portable classroom pursuant to this chapter.

17788. In addition to such other powers and duties as are granted the board by this chapter, other statutes, or the State Constitution, the board shall have the power to do each of the following:

(a) Establish such qualifications not in conflict with other provisions of this chapter, as it deems will best serve the purposes of this chapter, for determining the eligibility of school districts and county superintendents of schools to lease portable classrooms under this chapter.

(b) Establish such procedures and policies in connection with the administration of this chapter as it deems necessary.

(c) Adopt such rules and regulations for the administration of this chapter requiring such procedure, forms, and information, as it may deem necessary.

(d) Have constructed, furnished, equipped, or otherwise require whatever work is necessary to place, portable classrooms on school sites where needed.

(e) Own, have maintained, and lease portable classrooms to qualifying school districts and county superintendents of schools.

(f) From any moneys in the State School Building Aid Fund available for purposes of this chapter, the board shall make available to the Director of General Services such amounts as it determines necessary to provide the assistance, pursuant to this chapter, required by Section 15504 of the Government Code.

17789. The board shall lease portable classrooms to qualifying school districts and county superintendents of schools for not less than one dollar ($1) per year, nor more than two thousand dollars ($2,000) per year, for each portable classroom, and shall require the lessees to undertake all necessary maintenance, repairs, renewal, and replacement to ensure that a project is at all times kept in good repair, working order, and condition. All costs incurred for this purpose shall be borne by the lessee.

17790. The board shall require lessees to insure at their own expense for the benefit of the state, any leased portable classroom which is the property of the state, against such risks, including liability from the use thereof, in such amounts as the board may deem necessary to protect the interest of the state. All payments resulting from claims made against such insurance shall be made payable to and retained by the board for deposit in the State School Building Aid Fund.

17791. The board shall have authority to adopt rules establishing priorities for the acquisition and leasing of classrooms to those school districts and county superintendents of schools the pupils of which will benefit most. The board may make exceptions from established priorities when it determines that to do so will benefit the pupils affected.

17792. No portable classrooms shall be made available to any school district unless such district furnishes evidence, satisfactory to the board, that the district has no available bond proceeds which could be used for the purchase of classroom facilities.

17793. The board shall have prepared for its use, performance specifications for portable classrooms complying with Sections 39140 to 39156, inclusive, which are capable of being economically moved, and bids for the construction of which can be solicited from more than one responsible bidder. The board shall from time to time solicit bids from, and award to, the lowest responsible competitive bidder, contracts for the construction or purchase of only such numbers of portable classrooms as have been approved for lease to eligible school

districts and county superintendents of schools.

17794. If at any time the board determines that a lessee's need for particular portable classrooms which were made available to the lessee pursuant to this chapter has ceased, the board may take possession of such portable classrooms and may lease them to other eligible districts or county superintendents of schools, or if there is no longer a need for such portable classrooms, the board may dispose of them to public or private parties in such manner as it deems to be in the best interests of the state.

Any revenue which is derived from a lease or other disposition of such portable classrooms pursuant to this section shall be deposited in the State School Building Aid Fund.

17795. The State Board of Education may waive application of the penalty provisions of Section 41376 for school districts which during the school year used portable classrooms leased pursuant to this chapter.

SEC. 10. Chapter 15 (commencing with Section 23400) of Part 13 of the Education Code is repealed.

SEC. 11. Chapter 15 (commencing with Section 23400) is added to Part 13 of the Education Code, to read:

23400. The school districts and other agencies employing members of the State Teachers' Retirement System shall contribute monthly to the Teachers' Retirement Fund 8 percent of the total of the salaries upon which members' contributions are based.

There is hereby appropriated each fiscal year from the General Fund to the State Teachers' Retirement Fund, beginning July 1, 1980, the sum of one hundred forty-four million three hundred thousand dollars ($144,300,000) cumulatively increased or decreased beginning July 1, 1980, by an amount which reflects the change in the California Consumer Price Index in the preceding fiscal year. This index is defined as the average of the composite annual Consumer Price Indexes for the Los Angeles-Long Beach area and the San Francisco-Oakland area, published by the Bureau of Labor Statistics of the United States Department of Labor.

23402. In addition to the appropriation provided by Section 23401, there is hereby appropriated annually from the General Fund to the Teachers' Retirement Fund, the amounts specified below:

24303. The State Controller shall transfer, in equal monthly payments, from the General Fund to the Teachers' Retirement Fund, the amounts specified in Sections 23401 and 23402.

23404. Employer and state contributions made to the system are to finance the employer obligation for all of the members of the system and, therefore, shall not be credited to the individual accounts of the members of the system. Such contributions shall be held in the reserves of the system to finance the employers' share of the cost of all benefits payable by the system. Under no circumstances shall employer contributions be allocated or awarded to individual members, retirants, their spouses or beneficiaries.

23405. Any employer, other than the state, on behalf of any group of members or any member, may elect to make tax-sheltered annuity contributions for the purpose of providing additional benefits. An election by an employer to make such contributions does not require any member to make contributions and such contributions shall continue in effect for such period as shall be specified in the election filed with the board and a member shall acquire no right by reason of his employment while such election is in effect to a continuation of such contributions beyond the period specified in the election.

Whenever in this part provision is made with respect to accumulated tax-sheltered annuity contributions of a member, such term shall include contributions made by an employer pursuant to this section.

Contributions made by an employer under this section are excluded from "compensation" and "salary" as provided in Section 22114.

SEC. 12. Section 24105 of the Education Code is repealed.

Notwithstanding any other provision of law, the governing board of any school district may enter into a lease or agreement for any school facilities pursuant to this article with a nonprofit corporation organized under Division 2 (commencing with Section 5000) of Title 1 of the Corporations Code if the articles of incorporation or bylaws of the nonprofit corporation provide: (a) that no person shall be eligible to serve as a member or director of the nonprofit corporation, except a person initially approved by resolution of the governing board of the school district, and (b) that no part of the net earnings of the nonprofit corporation shall inure to the benefit of any member, private shareholder, individual, person, firm, or corporation, excepting only the school district.

The owner's development lien shall be binding upon successors in interest, during their ownership, of any portion of such land affected thereby and each person having an interest therein derived through any owner of the land owned by the covenantor.

The covenant running with the land created by the owner's development lien as provided in this section constitutes a valid covenant notwithstanding the fact that it is created in connection with only one estate and is imposed upon a single parcel and is intended to be for the benefit of a school district or districts who are not a landowner or owners.

39327.2. The sale of bonds for the accomplishment of a school facilities plan shall be subject to the approval of the State Treasurer. Prior to the sale of any such bonds, the State Allocation Board shall

39327.3. Any rental payments required by any lease or agreement entered into pursuant to this article may be paid in annual installments or may be prepaid from state funds or other funds of the school district permissible by law to be used for such purposes at any time during the period of the lease or agreement.

39327.4. Whenever the governing board is of the opinion that a lease or agreement should be entered into with a nonprofit corporation, the board shall adopt a resolution of intention which shall state the following:

(a) The intention of the board to formulate a school facilities plan for the school district or a portion thereof.

(b) A description of the facilities to be included within such school facilities plan.

(c) The estimated expense of carrying out such school facilities plan.

(d) That a map depicting the exterior boundaries of the territory to be benefited by the school facilities plan, as well as schematic drawings depicting the facilities included within such plan, are on file with the secretary of the school district and are available for inspection by any person or persons interested.

(f) The intention of the board to cause the formation of a nonprofit corporation the purpose of which is to issue bonds to finance the construction of the facilities included within the school facilities plan and to lease such facilities to the school district.

(g) That the costs to be financed by the nonprofit corporation include, but are not limited to, the costs of land, construction, engineering, capitalized interest not to exceed the period of construction plus two years, architects, State Treasurer and State Allocation Board services, legal and financial consulting fees, bond issuance costs, including a discount not to exceed 10 percent, and reserve funds.

(h) That in the event the nonprofit corporation issues bonds in increments, that bond proceeds may be pooled as shall lease payments for school facilities.

(i) That pursuant to Section 39327.8, an owner's development lien shall be imposed to the benefit of the school district on all real property described in the map on file with the secretary of the school district, exclusive of that real property which is subject to or becomes subject to restrictions that preclude development thereon, for the total amount of the nonprofit corporation's bonded indebtedness,

together with an amount not to exceed 8 percent per year thereon.

(j) That the school district may enforce such lien, as to any amount or amounts in default, by judicial foreclosure proceedings as provided for in Section 39328.4.

(k) That the owner's development lien provided for in this article shall be imposed with the consent of all owners within the final map of the boundaries in equal amounts on each acre or portion thereof within the territory to be benefited by the school facilities plan.

(*l*) That the proposed facilities may or may not be constructed within the boundaries of the territory to be benefited by the school facilities plan as depicted on the map described in subdivision (d).

(m) That the benefited property may include noncontiguous territory and that additional area may subsequently be included by the governing board, subject to assuming a pro rata share of all obligations incurred or to be incurred, plus an amount not less than all costs actually paid.

39327.5. Subsequent to the adoption of the resolution pursuant to Section 39327.4, the secretary of the school district shall mail a copy of such resolution to each owner of property within the territory to be benefited from the school facilities plan as shown on the last equalized assessment roll, as well as the persons that the secretary can reasonably determine may have an interest in such property, except for those persons who have filed written waivers to receive copies of the resolution with the secretary of the district. A copy of the resolution shall be published pursuant to Section 6066 of the Government Code. The school district also shall give such notice to any persons who have in writing requested notice of such proceedings. The secretary of the district also shall mail copies of the resolution to any beneficiary under any deeds of trust on property within the territory to be benefited by the school facilities plan unless written waivers to receive such copies have been filed with the secretary of the school district.

Any owner of real property or owner of an interest in real property, such as a trustee or beneficiary under a deed of trust or similar secured interest, may file written objections to the implementation of the school facilities plan with the secretary of the district, which written objections shall be filed with the secretary no later than 30 days from the date of the mailing of a copy of the resolution.

39327.6. No sooner than 30 days from the date mailing occurs pursuant to Section 39327.5, the governing board of the school district may consider all written objections filed with the secretary of the school district and may, at its discretion, discontinue proceedings pursuant to this article or may adopt, after consideration of written objections, a resolution ordering the implementation of the school facilities plan for the purpose and for the benefit of that territory described in the resolution of intention, provided the owners described in Section 39327.5 have consented in writing to the owner's development lien.

39327.7. The resolution ordering implementation of the school facilities plan shall state the following:

(a) A metes and bounds legal description of the real property to which an owner's development lien is be to imposed;

(b) The names of all owners of record of the real property to which an owner's development lien is to be imposed;

(c) The total amount of the nonprofit corporation's bonded indebtedness secured by the owner's development lien to benefit the school district as described in subdivision (i) of Section 39327.4;

(d) The real property described in the resolution shall be subject to an owner's development lien for a pro rata share on each acre or portion thereof pursuant to the provisions of this article;

(e) That all owners of the real property described in the resolution have consented to the implementation of the owner's development lien; and

(f) That a lease or agreement will be entered into with a nonprofit corporation.

39327.8. After adoption of the resolution ordering implementation of the school facilities plan, such resolution shall be recorded with the county recorder of the county or counties in which such real property subject to the owner's development lien is located.

Upon recordation of the resolution, an owner's development lien is hereby created and attaches to the real property described therein for the cost of implementing the school facilities plan.

39327.9. No sooner than 90 days from the date a resolution is recorded pursuant to Section 39327.8, a nonprofit corporation which has entered into a lease or agreement with the school district pursuant to this article may issue bonds for the purpose of financing all or a portion of the school facilities plan approved pursuant to procedures of this article.

39328. Except as provided in Section 2192.1 of the Revenue and Taxation Code, an owner's development lien imposed for the purposes of this article shall have priority over all fixed special assessment liens, tax liens, or other liens which may thereafter be created against the property. From and after the date of the recording of the owner's development lien, all persons shall be deemed to have notice of the contents thereof.

39328.1. Additional territory may be added to the area described as being benefited by the school facilities plan in the discretion of the governing board, provided the owners consent to the imposition of a lien for all present and future obligations as set forth in the school facilities plan and agree to pay to the district an amount at least equal to all costs incurred from the adoption of the school facilities plan, including its preparation, through the effective date of such modification of the boundary.

Any additional territory added to the area benefited by the school facilities plan pursuant to this section shall be the subject of a resolution described in Section 39327.7 and recorded pursuant to

Section 39327.8.

39328.2. The school district may annually levy any owner's development lien imposed for its benefit against all property benefited by the school facilities plan in amounts sufficient for the district to meet its lease or rental obligations under any lease or agreement entered into pursuant to this article. Such owner's development liens shall be levied in equal amounts on each acre or portion thereof within the territory. Any payment made from state or other district funds shall be used to adjust any levy to be made in the year following such payment.

A school district electing to utilize the provisions of this article may enter into an agreement with the county tax collector for the collection of the annual amounts levied pursuant to this section. The county tax collector shall be entitled to a fee for the reasonable value of such services.

39328.3. An owner's development lien may be released by the board, provided funds are deposited with such board to pay the pro rata amount on each acre or portion thereof, plus any costs of redemption of present and future, if any, debt for the implementation of the adopted school facilities plan.

Upon release of any owner's development lien pursuant to this section, the board shall adopt a resolution specifically providing a legal description of the real property and the record title owners thereof subject to such release. The resolution shall be recorded with the county recorder of the county or counties in which such real property is located.

(B) Elementary districts with more than 100 and less than 901 units of ADA.

(C) High school districts with less than 301 units of ADA.

(D) Unified districts with less than 1501 units of ADA.

(E) Elementary districts with greater than 900 units of ADA.

(F) High school districts with greater than 300 units of ADA.

(G) Unified districts with greater than 1500 units of ADA.

(b) In the 1979–80 fiscal year, the county superintendent shall adjust each school district's revenue limit computed pursuant to subdivision (a) as follows:

(1) Divide the district's prior year revenue limit into the prior year's statewide weighted mean revenue limit for that type of district and multiply that result by the product of 0.086 and the amount determined in subparagraph (G) of paragraph (5) of subdivision (a).

(2) The amount determined in paragraph (1) shall be added to the district's 1978–79 fiscal year revenue limit computed pursuant to paragraph (4) of subdivision (a). That result shall be the district's revenue limit per unit of average daily attendance for the 1979–80 fiscal year.

(c) The county superintendent shall determine the district's total revenue limit for the 1979–80 fiscal year by adding the following:

(1) The amount obtained by multiplying the revenue limit determined pursuant to subdivision (b) by the sum of the second principal apportionment regular average daily attendance, and the product of 0.6 multiplied by the summer average daily attendance

for graduating high school seniors.

(2) The amount determined pursuant to Sections 42239, 42241.7, 42243.6, 42245, and 46605.

(3) The amounts for meals for needy pupils and for development centers for handicapped pupils determined in subparagraph (A) of paragraph (2) of subdivision (a) multiplied by 1.07, and adjusted for pupil participation.

(4) An amount for each unit of adult average daily attendance in the 1978–79 fiscal year for the programs specified in subdivision (b) of Section 41976 as follows:

(A) Determine for each district its 1978–79 fiscal year adult revenue limit per unit of average daily attendance as modified by the appropriate percentage in subdivision (c), (d), or (e) of Section 2 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978, as amended by Chapter 119 of the Statutes of 1979.

(B) For districts with an adult revenue limit as determined in subparagraph (A) which is less than the 1978–79 fiscal year statewide average adult revenue limit computed pursuant to subparagraph (A), the adult revenue limit for the 1979–80 fiscal year shall be the amount determined in subparagraph (A) multiplied by 1.07.

(C) For districts with a revenue limit as determined in subparagraph (A) which is between the statewide average adult revenue limit computed pursuant to subparagraph (A) for the 1978–79 fiscal year and the product of 1.07 times that amount the adult revenue limit for 1979–80 fiscal year shall be 1.07 times the 1978–79 fiscal year statewide average adult revenue limit.

(D) For districts with a revenue limit as determined in subparagraph (A) which is greater than 1.07 times the statewide average adult revenue limit computed pursuant to subparagraph (A) the amount computed pursuant to subparagraph (A) for the 1979–80 fiscal year shall be the amount determined in subparagraph (A) except that for any units of adult average daily attendance in excess of that reported for the second principal apportionment of the 1978–79 fiscal year, the adult revenue limit shall be 1.07 multiplied by the 1978–79 fiscal year statewide average adult revenue limit.

(d) In no event shall the amount computed pursuant to this section be less than the product of 1.02 times the amount computed pursuant to Section 2 of Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978, and Chapter 119 of the Statutes of 1979, exclusive of funds expended for the purposes of child development programs.

(e) The Superintendent of Public Instruction shall apportion to each school district in the 1979–80 fiscal year the amount determined in this section less the sum of: (1) the district's property tax revenue received pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of the Revenue and Taxation Code; (2) the amount, if any, received pursuant to Part 18.5 (commencing with Section 38101) of the Revenue and Taxation Code; (3) the amount if any, received

pursuant to Chapter 3 (commencing with Section 16140) of the Government Code; (4) prior year taxes and taxes on the unsecured roll; (5) fifty percent of the amount received pursuant to Section 41603.

42237.5. (a) For a high school district maintaining a junior high school program in which 7th and 8th grade pupils are in attendance from one or more elementary school districts situated within the high school district, the county superintendent of schools shall adjust the revenue limit computed pursuant to Section 42237, by performing the following computation for each elementary school district from which pupils are in attendance.

(1) Multiply the difference between the high school revenue limit per unit of average daily attendance computed pursuant to Section 42237 and the elementary school district's revenue limit per unit of average daily attendance computed pursuant to Section 42237 by 75 percent.

(2) Compute the difference between the elementary school district tuition rate computed pursuant to Section 37062 and the elementary school district revenue limit per unit of average daily attendance computed pursuant to Section 42237.

(3) If the amount determined in paragraph (1) exceeds the amount determined in paragraph (2), then multiply the difference between the amount computed in paragraph (1) and the amount computed in paragraph (2) by the 7th and 8th grade average daily attendance for the elementary school district. If the amount computed in paragraph (1) is less than the amount computed in paragraph (2), then the difference between the amount computed in paragraph (1) and the amount computed in paragraph (2) shall be deemed to be zero.

(4) Compute the excess, if any, of the elementary school district tuition rate computed pursuant to Section 37062 over the high school district revenue limit per unit of average daily attendance computed pursuant to Section 42237, and multiply the excess by the 7th and 8th grade average daily attendance for the elementary school district.

(b) The total adjustment to the high school revenue limit shall be the sum of the adjustments computed in paragraph (3) of subdivision (a) for each of the elementary school districts minus the sum of the amounts computed in paragraph (4) of subdivision (a) for each of the elementary school districts. Total adjustments so computed which are negative shall be deemed to be zero.

(c) The provisions of this section shall not be applicable to high school districts maintaining a junior high school program for which the high school district revenue limit computed pursuant to Section 42237 exceeds 120 percent of the amount prescribed by subparagraph (F) of paragraph (5) of subdivision (a) of Section 42237.

(d) The provisions of this section shall not be applicable to high school districts maintaining a junior high school program for which no tuition is received pursuant to Section 37062.

42238. (a) For the 1980–81 fiscal year and each fiscal year thereafter the county superintendent of schools shall determine a revenue limit for each school district in the county pursuant to this section.

(b) For the 1980–81 fiscal year, each district with a revenue limit per unit of average daily attendance computed for the 1979–80 fiscal year pursuant to paragraph (2) of subdivision (b) of Section 42237, excluding any funds resulting from an adjustment pursuant to Section 42950 as it read prior to amendment by Chapter 238 of the Statutes of 1979, shall receive the maximum inflation adjustment if that revenue limit is less than the following amounts:

(1) Elementary districts with less than 101 units of average daily attendance, one thousand seven hundred dollars ($1,700).

(2) Elementary districts with more than 100 units of average daily attendance, one thousand three hundred fifty dollars ($1,350).

(3) High school districts with less than 301 units of average daily attendance, one thousand nine hundred dollars ($1,900).

(4) High school districts with more than 300 units of average daily attendance, one thousand seven hundred dollars ($1,700).

(5) Unified districts with less than 1,501 units of average daily attendance, one thousand five hundred twenty-five dollars ($1,525).

(6) Unified districts with more than 1,500 units of average daily attendance, one thousand five hundred dollars ($1,500).

For computation of revenue limits for the 1981–82 fiscal year and each fiscal year thereafter, the amounts specified in paragraphs (1) through (6) shall be cumulatively increased by the amount of the maximum inflation adjustment for the preceding fiscal year.

(c) For the 1980–81 fiscal year, each district with a revenue limit per unit of average daily attendance computed for the 1979–80 fiscal year pursuant to paragraph (2) of subdivision (b) of Section 42237 shall receive the minimum inflation adjustment if that revenue limit is more than the following amounts:

(1) Elementary districts with less than 101 units of average daily attendance, two thousand two hundred dollars ($2,200).

(2) Elementary districts with more than 100 units of average daily attendance, one thousand eight hundred fifty dollars ($1,850).

(3) High school districts with less than 301 units of average daily attendance, two thousand four hundred dollars ($2,400).

(4) High school districts with more than 300 units of average daily attendance, two thousand two hundred dollars ($2,200).

(5) Unified districts with less than 1,501 units of average daily attendance, two thousand and twenty-five dollars ($2,025).

(6) Unified districts with more than 1,500 units of average daily attendance, two thousand dollars ($2,000).

For the commputation of revenue limits for the 1981–82 fiscal year and each fiscal year thereafter, the amounts specified in paragraphs (1) through (6) shall be cumulatively increased by the amount of the difference between the maximum inflation adjustment prescribed in subdivision (d) for the preceding fiscal year and one hundred dollars

($100).

(d) The maximum inflation adjustment shall be one hundred fifty dollars ($150) for the 1980–81 fiscal year; one hundred thirty-nine dollars ($139) for the 1981–82 fiscal year; one hundred thirty dollars ($130) for the 1982–83 fiscal year; and, one hundred thirty-eight dollars ($138) for the 1983–84 fiscal year and each fiscal year thereafter. The minimum inflation adjustment in each fiscal year shall be the amount of the maximum inflation adjustment reduced by sixty-five dollars ($65).

(e) Utilizing the district revenue limit per unit of average daily attendance for the preceding fiscal year computed pursuant to paragraph (2) of subdivision (b) of Section 42237 or this section, as the case may be, the county superintendent of schools shall compute an inflation adjustment as follows:

(1) For districts with a revenue limit per unit of average daily attendance in the preceding fiscal year which was less than the amount specified in subdivision (b), the maximum inflation allowance plus an additional amount not to exceed twenty-five dollars ($25) if the district will qualify for the maximum inflation adjustment in the next succeeding fiscal year.

(2) For districts with a revenue limit per unit of average daily attendance in the preceding fiscal year which was greater than the amount specified in subdivision (b), but less than the amount specified in subdivision (c), determine the difference between the prior year amount specified in subdivision (c) and the district's prior year revenue limit per unit of average daily attendance. Multiply that difference by 65 and divide that product by the difference between the prior year amounts specified in subdivisions (b) and (c). This result added to the minimum inflation adjustment specified in subdivision (d) shall be the inflation adjustment.

(3) For districts with a revenue limit per unit of average daily attendance in the preceding fiscal year which was equal to or greater than the amount specified in subdivision (c) the inflation adjustment shall be the minimum inflation adjustment specified in subdivision (d).

(f) The amount computed pursuant to subdivision (e) shall be added to the revenue limit per unit of average daily attendance computed pursuant to paragraph (2) of subdivision (b) of Section 42237, excluding any funds resulting from an adjustment pursuant to Section 42950 as it read prior to amendment by Chapter 238 of the Statutes of 1979, for the 1980–81 fiscal year, or the amount computed pursuant to this subdivision for the 1981–82 fiscal year and each fiscal year thereafter. This amount shall be known as the school district revenue limit per unit of average daily attendance for the fiscal year for which it was computed.

(g) The county superintendent of schools shall determine the district's total revenue limit for the current year by adding the following:

(1) The amount obtained by multiplying the revenue limit

determined pursuant to subdivision (d) by the sum of the second principal apportionment regular average daily attendance and summer average daily attendance for graduating high school seniors and pupils participating in summer school programs in grades 7 to 12, inclusive, who do not meet the district's adopted proficiency standards.

(2) The amount determined pursuant to Sections 42239, 42241.7, and 42243.6.

(3) The amounts computed in the preceding fiscal year for development centers for handicapped pupils and meals for needy pupils programs multiplied by 1.06, and adjusted for pupil participation.

(4) The amount per unit of adult average daily attendance for the preceding fiscal year multiplied by the product of 1.06 and the number of units of adult average daily attendance for the programs specified in subdivision (b) of Section 41976; provided that in no event shall the amount per unit of adult average daily attendance exceed 1.06 times the prior year maximum.

(h) In no event shall the amount computed pursuant to this section in the 1980–81 fiscal year be less than the product of 1.02 times the amount computed pursuant to subdivision (d) of Section 42237.

(i) The Superintendent of Public Instruction shall apportion to each school district in the 1980–81 fiscal year and in each fiscal year thereafter, the amount determined in this section less the sum of:

(1) The district's property tax revenue received pursuant to Chapter 6 (commencing with Section 95) of Part 0.5 of the Revenue and Taxation Code.

(2) The amount, if any, received pursuant to Part 18.5 (commencing with Section 38101) of the Revenue and Taxation Code.

(3) The amount, if any, received pursuant to Chapter 3 (commencing with Section 16140) of the Government Code.

(4) Prior year taxes and taxes on the unsecured roll.

(5) Fifty percent of the amount received pursuant to Section 41603.

42239. A district may add in Section 42237 or 42238 for purposes of increasing the district's revenue limit for the budget year a portion of its loss in average daily attendance when it is anticipated that the estimated second principal apportionment units of average daily attendance, excluding defined adults and summer school average daily attendance, will be less than those of the preceding year. Loss of average daily attendance due to district reorganization shall not be considered in this calculation. The number of units of average daily attendance to be added is determined as follows:

(a) When the reduction in average daily attendance is 1 percent or more of the preceding year average daily attendance, the district is entitled to two adjustments determined as follows:

(1) The estimated average daily attendance of the budget year may be increased by 75 percent of the reduction.

(2) The estimated average daily attendance of the next succeeding budget year may be increased by 50 percent of the reduction.

(b) When the reduction in average daily attendance is less than 1 percent of the preceding year average daily attendance no adjustment is allowed on account of that reduction, nor does it have any bearing on adjustments made pursuant to paragraph (2) of subdivision (a).

(c) The amount calculated in subdivision (a) times the revenue limit per unit of average daily attendance shall be considered an addition to the district revenue limit.

For the purposes of this section, the amount which may be added to the district's revenue limit on account of the adjustments authorized pursuant to subdivision (a) is the revenue limit per unit of average daily attendance computed pursuant to Section 42237 or 42238.

This amount of adjustment in estimated units of average daily attendance shall be allowed without requiring a reduction in the revenue limit in the subsequent year which otherwise would be required pursuant to Section 42245, except that to the extent that actual data differs from the estimated unit of average daily attendance used in this section, Section 42245 shall be applicable.

42239.5. Any gain or loss of average daily attendance used in the revenue limit calculation in Section 42238 which is due to reclassifying high school average daily attendance to adult average daily attendance pursuant to Chapter 323 of the Statutes of 1976 shall not be used in determining the amount allowed in Section 42239.

Any gain or loss of average daily attendance used in the revenue limit calculation in Section 42238 which is due to attendance in regional occupational centers or programs pursuant to Sections 52321 and 52324 shall not be used in determining the amount allowed in Section 42239.

42240. From funds appropriated for such purposes, the Superintendent of Public Instruction shall apportion funds to school districts pursuant to this section in an amount not to exceed fourteen million six hundred thousand dollars ($14,600,000) in each fiscal year for the 1979–80 and 1980–81 fiscal years.

The revenue limit of each school district with less than 2,501 units of average daily attendance for the second principal apportionment in the 1978–79 fiscal year and approved home to school transportation costs in excess of 3 percent of its general fund total expense of education in the 1978–79 fiscal year shall be increased in the 1979–80 fiscal year and 1980–81 fiscal year by an amount not to exceed the difference between its approved home to school transportation costs in the 1978–79 fiscal year and 3 percent of the district general fund total expense of education in the 1978–79 fiscal year.

In the event that apportionments resulting from the revenue limit increase prescribed by this section exceed fourteen million six

hundred thousand dollars ($14,600,000), the Superintendent of Public Instruction shall adjust on a pro rata basis such apportionments so that the total amount in each fiscal year does not exceed such amount.

This section shall remain in effect only until July 1, 1981, and as of such date is repealed, unless a later enacted statute, which is chaptered before July 1, 1981, deletes or extends such date.

42241.7. (a) For the 1978–79 fiscal year, and each fiscal year thereafter, the revenue limit of any elementary, high, or unified school district authorized pursuant to Sections 42237 and 42238 may be increased by an amount sufficient to provide additional revenue equal to the expenditures estimated to be incurred by the district in the budget year in complying with the following provisions of the Unemployment Insurance Code: Sections 605 and 803, Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1, or Article 3 (commencing with Section 976) of Chapter 4 of Part 1 of Division 1, less the actual expenditures incurred by the district in the 1975–76 fiscal year in complying with the following provisions of the Unemployment Insurance Code: Section 605.2 and Article 6 (commencing with Section 821) of Chapter 3 of Part 1 of Division 1.

(b) If, at the end of any fiscal year, the actual expenditures of the district specified in subdivision (a) are less than the revenue derived from the increase in revenue limit provided in subdivision (a) for that fiscal year, the difference shall be used in the following fiscal year exclusively for expenditures required pursuant to the Unemployment Insurance Code provisions specified in subdivision (a).

(c) If, at the end of any fiscal year, the actual expenditures of the district specified in subdivision (a) exceed the revenue derived from the increase in revenue limit provided in subdivision (a) for that fiscal year, the difference may be added to the increase in revenue limit, authorized pursuant to this section, in the following fiscal year.

42243.6. The revenue limit of a school district, as determined under Section 42237 or 42238, may be increased by the amount necessary to pay costs mandated by the courts, as defined in Section 2205 of the Revenue and Taxation Code, pursuant to final court orders issued after January 1, 1978, to pay costs mandated by the federal government, as defined in Section 2206 of the Revenue and Taxation Code, pursuant to any federal statutes or regulations enacted or issued after January 1, 1978, and to pay costs mandated by an initiative enactment, as defined in Section 2206.5 of the Revenue and Taxation Code, by means of any initiative statutes or amendments adopted or enacted after January 1, 1978.

The Controller may audit any revenue limit increase under this section and any data related to the establishment thereof. If the Controller determines that such limit exceeds a limit which would be necessary to meet the federally mandated, initiative-mandated, or court-mandated costs, or if the Controller determines that such limit has been increased to pay any cost mandated by a court which has

resulted from litigation entered into in order to avoid the revenue limits established by this chapter, or if the Controller determines that a school district has erroneously concluded that it is subject to costs mandated by the courts or costs mandated by the federal government, the Controller shall immediately notify the governing board of the school district of such determination, and the school district shall reduce its revenue limit by an appropriate amount for the next succeeding fiscal year. In the event that a school district fails to make such a reduction in its revenue limit, the Controller shall request the Attorney General to bring an action under Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure to force a reduction in the limit.

An increase in the revenue limit heretofore or hereafter established pursuant to the provisions of this section shall not be invalidated and may continue to be in effect to meet recurring costs resulting from any program or activity undertaken or implemented by a school district in order to comply with a mandate by the federal government, by initiative enactment, or by the courts, notwithstanding the reversal, repeal, stay, or invalidation of such mandate, if the reversal, repeal, stay, or invalidation of the mandate occurred or occurs after the school district has increased its revenue limit to satisfy continuing contractual obligations entered into in order to undertake, implement or continue the mandated program or activity.

The increase in the revenue limit shall not continue in effect if the reversal, repeal, stay, or invalidation of the mandate is upheld by a final court order.

42244.7. Whenever a special education program is transferred from a school district to a county superintendent of schools pursuant to Section 1710, the revenue limit of such district shall be reduced by the amount of excess cost which the district expended from its revenue limit for such program during the prior fiscal year. This excess cost shall not include expenditures of income from federal sources of tuition.

42245. Whenever any computation required by this article results, because of estimating or other errors, in a total revenue limit in an amount more or less than actual data would have produced, the revenue limit for the succeeding fiscal year shall be reduced by an amount equal to the amount of the error if the total produced was more, and may be increased by an amount up to the amount of the error if the total produced was less.

42246. For the purposes of this article, the Superintendent of Public Instruction shall prescribe regulations which will provide consistent and uniform implementation of the law herein.

SEC. 32. Section 45452 is added to the Education Code, to read:

45452. When a city or county or city and county fails or refuses to adopt standards under which the city or county or city and county shall provide school crossing guards, the governing board of a school district which employs personnel to act as guards at pedestrian

crossings to ensure the safety of elementary school children shall be reimbursed from funds including, but not limited to, those collected pursuant to Sections 42200 and 42201 of the Vehicle Code.

SEC. 33. Section 52045 of the Education Code is repealed.

SEC. 34. Section 52171 of the Education Code is amended to read:

52171. At least once during each school year, the district shall assess each limited-English-speaking pupil. The pupil's achievement in comprehending, reading, and writing English and, to the extent assessment instruments are available, the second language of instruction shall be assessed. At least annually there shall be submitted to the Department of Education an evaluation of pupil progress for every program which has been approved pursuant to this article. The evaluation report shall identify variables, including other programs, which may have affected pupil academic achievement.

It shall also include, but not be limited to, reading comprehension and speaking skills, in English and, to the extent assessment instruments are available, the primary language.

This section shall take effect on July 1, 1978.

SEC. 35. Section 54057 of the Education Code is repealed.

SEC. 36. Section 54057 is added to the Education Code, to read:

54057. There is hereby appropriated from the General Fund to Section A of the State School Fund the sum of eighteen million dollars ($18,000,000) in augmentation of Item 319 of the Budget Act of 1979 for the 1979–80 fiscal year.

SEC. 36.2. Section 56364 of the Education Code is repealed.

SEC. 36.4. Section 56364 is added to the Education Code, to read:

56364. (a) For the 1979–80 fiscal year and each fiscal year thereafter, there is hereby annually appropriated thirty-nine million eight hundred thousand dollars ($39,800,000) for the purposes specified in this section. This appropriation is in addition to the amount provided in the Budget Act for the then current fiscal year for the purposes of apportionment pursuant to this article.

(b) From funds provided in this section and in the Budget Act for apportionment pursuant to this article, each responsible local agency shall receive up to two thousand two hundred ninety-six dollars ($2,296) per pupil approved for funding pursuant to Section 56360. Each responsible local agency that operated programs pursuant to this chapter in the 1977–78 fiscal year shall receive at least the same amount per pupil that was received by such responsible local agency in the 1977–78 fiscal year.

(c) For the 1979–80 fiscal year only, first priority for funds provided in this section and in Item 323 of Chapter 259 of the Statutes of 1979 shall be to fund the per pupil limit specified in subdivision (a) for responsible local agencies that actually operated under this chapter in the 1978–79 fiscal year.

SEC. 37. Section 60200 of the Education Code is amended to read:

60200. The state board shall adopt instructional materials for use in kindergarten and grades 1 through 8 for governing boards, subject

to Section 60265 and to the following provisions:

(a) At least biennially, adoptions shall be made for all applicable levels for the following categories: (1) language arts, (2) mathematics, (3) reading, (4) science, (5) social science, (6) bilingual or bicultural subjects, and (7) any other subject, discipline, or interdisciplinary areas for which the state board may determine the need and desirability for instructional materials to promote the maximum efficiency of pupil learning.

(b) While categories may be designated to be adopted in alternate years, the state board shall adopt not less than five but no more than 15 of any of the following for each subject in each grade: (a) instructional materials, (b) instructional materials systems, (c) instructional materials sets, and, (d) a combination of instructional materials, instructional materials systems, and instructional materials sets, as the state board may select. However, less than five items per subject, per grade may be adopted when the state board establishes that adequate materials are not available for certain grades and subjects. The state board shall not adopt more than two instructional materials sets for each subject in each grade.

(c) In the event that a district board establishes to the satisfaction of the state board that the state-adopted instructional materials do not promote the maximum efficiency of pupil learning in the district, the state board shall authorize that district board to use its instructional materials' credits to purchase, through the Department of Education, materials as specified by the state board, in accordance with standards and procedures established by the state board.

(d) The state board shall establish procedures to provide the most open and flexible submissions, as to timing and processing, to provide collections of instructional materials which, when taken as a whole, illustrate diverse points of view; represent cultural pluralism and provide a broad spectrum of knowledge, information, and a cross section of opinions; and allow for a combination of approaches and media to best meet the goals of a program and the needs of pupils.

(e) Upon making an adoption, the state board shall make available to listed publishers and manufacturers and all school interests a listing of instructional materials. Items placed upon lists shall remain thereon, and be available for procurement through the state's systems of financing, for a period of not less than four years following the date of initial use as established pursuant to subdivision (i). All previous adoptions shall be integrated on lists and made available by subject and level.

(f) The state board may approve multiple lists of instructional materials, without designating a grade or subject, and the state board may designate more than one grade or subject whenever the state board designates that a single subject designation or a single grade designation would not promote the maximum efficiency of pupil learning. Any materials so designated may be placed on single grade or single subject lists, or multigrade or interdisciplinary lists, or may be placed on separate lists including other materials with similar

grade or subject designations; however, all materials so designated shall be adopted subject to the limitations of subdivision (b).

(g) A composite listing in the format of an order form may be used to meet the requirements of this section.

(h) The lists maintained pursuant to this section shall not be deemed to control the use period by any local district.

(i) The state board shall, at the time of initiating the call for bids for instructional materials, establish the date upon which such state-adopted materials shall initially be available for use by the pupils.

SEC. 38. Section 60265 of the Education Code is amended to read:

60265. After any instructional material, including any state-adopted textbook, has been placed in use by a district board subsequent to a biennial adoption, it shall be retained in use by the district for a period of not less than two years after the date of its first use.

Any textbook which has been placed in use by a district board prior to July 1, 1974, pursuant to a state board adoption made prior to August 15, 1972, may be retained in use by the district up to but not beyond the date determined by the state board pursuant to subdivision (e) of Section 60200 for the second biennial adoption in that particular subject.

However, the Superintendent of Public Instruction may exempt materials from these requirements whenever the district board demonstrates that the continued use of the material will contribute to the maximum efficiency of pupil learning.

SEC. 38.5. Part 34 (commencing with Section 62000) is added to the Education Code, to read:

It is not the intent of the Legislature in enacting this section to remove resources from students with special needs, or to cease efforts to improve the schools.

62002. If the Legislature does not enact legislation to continue a program listed in Section 62000, the funding of such programs shall continue for the general purposes of that program as specified in the provisions relating to the establishment and operation of the program. Such funds shall be disbursed according to the identification criteria and allocation formulas for the program in effect on the date the program shall cease to be operative pursuant to Section 62000, both with regard to state-to-district and district-to-school disbursements. Such funds shall be used for the intended purposes of the program, but all relevant statutes and regulations adopted thereto regarding the use of such funds shall not be operative, except as specified in Section 62002.5.

62002.5. Parent advisory committees and school site councils which are in existence pursuant to statutes or regulations as of January 1, 1979, shall continue subsequent to the termination of funding for the programs terminated by this chapter. Any school receiving funds from Economic Impact Aid or Bilingual Education Aid subsequent to the termination of such programs as provided in this chapter, shall establish a school site council in conformance with the requirements in Section 52012. The functions and responsibilities of such advisory committees and school site councils shall continue as prescribed by the appropriate law or regulation in effect as of January 1, 1979.

62003. The Department of Education shall apportion the funds specified in Section 62002 to school districts and shall audit the use of such funds to ensure that such funds are expended for eligible pupils according to the purposes for which the legislation was originally established for such programs.

62004. The Auditor General shall audit, on a sampling basis, school districts' use of the funds specified in Section 62002.

62005. If the Superintendent of Public Instruction determines that a school district did not comply with the provisions of this chapter, any apportionment subsequently made pursuant to Section 62003 shall be reduced by two times the amount the superintendent determines was not used in compliance with the provisions of this chapter.

62006. The Legislature shall begin immediately a detailed study which shall insure that each funding source and program be scrutinized regarding, but not limited to, the:

(1) Appropriateness of identification formulas in determining which children have special needs.

(2) Appropriateness of allocation formulas and adequacy of funding.

(3) Effectiveness of programs.

(4) Appropriateness of local control.

(5) Appropriateness of state level involvement in monitor, review, and auditing to assure that funds are being used efficiently, economically, and legally.

(6) Appropriateness of costs of administration at all levels of operating these programs.

(7) Appropriateness of Department of Education administration of categorical programs.

SEC. 39. Section 84370 of the Education Code is amended to read:

84370. (a) No community college district, other than one newly formed, shall, except as otherwise provided in this article, receive its full apportionment from the State School Fund unless it has maintained the regular day schools of the district for at least 175 days during the next preceding fiscal year.

(b) For the purposes of this article, the Board of Governors of the California Community Colleges shall establish standards to determine whether the districts within its jurisdiction have maintained the regular day schools of the district for at least 175 days during the next preceding fiscal year.

(c) If a community college district fails to maintain its schools for the required 175 days, the Board of Governors shall withhold from that district's apportionment the product of 0.01143 times the district's apportionment for each additional day the district would have had to maintain its schools in order to meet the requirement prescribed by this section. This subdivision shall apply retroactively to fiscal year 1975–76 and each fiscal year thereafter.

SEC. 40. Chapter 5 (commencing with Section 84700) of Part 50 of the Education Code is repealed.

SEC. 41. Chapter 5 (commencing with Section 84700) is added to Part 50 of the Education Code, to read:

CHAPTER 5. COMMUNITY COLLEGE APPORTIONMENT

Article 1. Fiscal year 1979–80 Funding

84700. For the 1979–80 fiscal year, the chancellor shall apportion state aid to community college districts, except those addressed by Section 84706, according to the following procedure:

(a) The 1979–80 fiscal year revenues for each community college district shall be its base 1979–80 fiscal year revenues, as defined in Section 84701; plus or minus the average daily attendance adjustment based on incremental costs, as defined in Section 84702; plus the inflation adjustment specified in Section 84703; plus the urban district or small college assistance specified in Section 84704, if applicable; plus the capital outlay or lease/purchase assistance, if any, as specified in Section 84705.

(b) The chancellor shall adjust the amounts determined pursuant to subdivision (a) to provide for prior year adjustments or adjustments which are required pursuant to Sections 84330, 84737 and 84904, as well as adjustments for the effects of annexation or transfer of territory occurring after June 30, 1978.

(c) The chancellor shall also adjust the amounts provided by this article so that:

(1) After deducting the amount received pursuant to Section 84704 from the amounts provided by this article, each district receives at least 1.04 times its fiscal year 1978–79 revenues. Fiscal year 1978–79 revenues shall be defined as those revenues received pursuant to Chapter 292 of the Statutes of 1978, as amended by Chapter 332 of the Statutes of 1978; except that revenues derived for that year on account of Sections 84006 and 85100 shall be excluded.

The provisions of this subdivision shall not apply to any district whose base 1979–80 fiscal year revenues are determined pursuant to Section 84706.

(2) After deducting the amount received pursuant to Section 84704 from the amounts provided by this article, no district receives more than 1.08 times the sum of its fiscal year 1978–79 revenues, as defined in paragraph (1) plus the inflation adjustment as computed pursuant to Section 84703.

(3) No district receives more than a 15 percent per unit increase over its 1978–79 revenues per unit of average daily attendance.

(d) From the 1979–80 fiscal year revenues of each community college district, as adjusted by subdivision (b) or (c), the chancellor shall subtract local property tax revenues, and local tax revenues specified by law for the general operating support of community colleges, exclusive of bond interest and redemption. The remainder shall be the state general apportionment for each such district.

(e) The State Controller shall draw warrants on the State Treasury in favor of the county treasurer of each county containing a community college district at such times and in such amounts as determined by the chancellor; provided that no more than 75

percent of the state general apportionment provided for in this section shall be made prior to February 1, 1980.

(f) On or before February 15, 1980, the chancellor shall publish, and shall provide to the Legislature, a report on revenues per unit of average daily attendance in the community colleges. The report shall include comparisons on a district-by-district basis, as well as on a statewide basis, of revenues per unit of average daily attendance for fiscal years 1978–79 and 1979–80. The report shall also include information on the amounts of actual and estimated sources of revenue that comprise the base for the calculation of revenues per unit of average daily attendance.

(g) For purposes of this article, "average daily attendance" and "attendance ADA" shall mean the attendance of state residents attending within the district.

84701. The base 1979–80 fiscal year revenues for each community college district shall be determined according to the following procedure:

(a) For each district which declined 7 percent or less in average daily attendance between fiscal years 1977–78 and 1978–79, the chancellor shall:

(1) Determine each such district's revenues for the 1977–78 fiscal year by combining its 1977–78 second principal net regular apportionment and state aid for the State Teachers' Retirement System, 1977–78 property tax revenues, 1977–78 income from counties, and tuition transfers received from other districts for average daily attendance generated in 1977–78. From this amount the chancellor shall subtract:

(A) Revenues derived for fiscal year 1977–78 from the capital outlay matching tax authorized by Section 85100.

(B) Revenues derived for fiscal year 1977–78 from bond interest and redemption.

(C) Revenues derived for fiscal year 1977–78 from the tax authorized by Section 84006.

(D) Payments made for fiscal year 1977–78 to other districts for tuition transfers.

(2) The chancellor shall divide the result in paragraph (1) by the average daily attendance for the district in fiscal year 1977–78, thereby computing revenues per unit of average daily attendance for fiscal year 1977–78.

(3) The chancellor shall multiply the 1977–78 revenues per unit of average daily attendance, as computed pursuant to paragraph (2), times the average daily attendance for the district in fiscal year 1978–79. The result shall be the district's base 1979–80 fiscal year revenues.

(b) For each district which declined more than 7 percent in average daily attendance between fiscal years 1977–78 and 1978–79, the chancellor shall determine the district's revenues for fiscal year 1977–78 in the manner specified in paragraph (1) of subdivision (a), and multiply the result times 0.93. The product shall be the district's

base 1979–80 fiscal year revenues.

84702. The base 1979–80 fiscal year revenues for each community college district shall be adjusted for changes in average daily attendance based on incremental costs according to the following procedure:

(a) For each district which declined more than 7 percent in average daily attendance between fiscal years 1977–78 and 1978–79, the average daily attendance for fiscal year 1978–79 shall be defined as 0.93 times the district's average daily attendance for fiscal year 1977–78. For each district which declined 7 percent or less between fiscal years 1977–78 and 1978–79, the average daily attendance for fiscal year 1978–79 shall be the average daily attendance reported by the district for that fiscal year.

(b) The chancellor shall determine the increase or decrease in the number of units of average daily attendance reported by each district between fiscal years 1978–79 and 1979–80, in accordance with the definitions specified in subdivision (a).

(c) The chancellor shall multiply the increase or decrease in such units of average daily attendance by the incremental cost rate. For districts reporting 3,000 or more units of average daily attendance for fiscal year 1978–79, and which have decreased in average daily attendance since 1978–79, the incremental cost rate is defined as two-thirds of the district's revenues per unit of average daily attendance for 1978–79. For districts reporting fewer than 3,000 units of average daily attendance for fiscal year 1978–79, and for districts which have increased in average daily attendance since 1978–79, the incremental cost rate is defined as two-thirds of the statewide revenues per unit of average daily attendance for 1978–79.

(d) For districts which have increased in the number of units of average daily attendance reported bewtween fiscal years 1978–79 and 1979–80, the chancellor shall add the amount computed pursuant to subdivision (c) to the amount computed pursuant to Section 84701. For districts which have decreased in the number of units of average daily attendance reported between fiscal years 1978–79 and 1979–80, the chancellor shall subtract the result computed pursuant to subdivision (c) from the amount computed pursuant to Section 84701.

84703. (a) For districts reporting 3,000 or more units of average daily attendance for fiscal year 1978–79, the chancellor shall add to the amounts determined pursuant to Sections 84701 and 84702 the product of: 0.089 times the statewide revenues per unit of average daily attendance for fiscal year 1977–78; times the quotient of statewide revenues per unit of average daily attendance for fiscal year 1977–78 divided by district revenues per unit of average daily attendance for fiscal year 1977–78; times the average daily attendance for the district for fiscal year 1979–80.

(b) For districts reporting fewer than 3,000 units of average daily attendance for fiscal year 1978–79, the chancellor shall add to the amounts determined pursuant to Sections 84701 and 84702 the

product of: 0.089 times the statewide revenues per unit of average daily attendance for fiscal year 1977–78; times the small district multiplier specified in former Section 84764 or 84765, except using attendance ADA; times the quotient of statewide revenues per unit of average daily attendance for fiscal year 1977–78 divided by district revenues per unit of average daily attendance for fiscal year 1977–78; times the average daily attendance for the district for fiscal year 1979–80.

(c) For purposes of this section, statewide revenues per unit of average daily attendance shall be the quotient of the total of all districts' base revenues, as computed pursuant to Section 84701, divided by the total statewide average daily attendance for fiscal year 1977–78.

84704. (a) The chancellor shall increase district revenues computed pursuant to this article for each of those districts whose second principal apportionment average daily attendance for fiscal year 1977–78 exceeds 28,000, by an amount equal to fifteen dollars ($15) times the 1979–80 average daily attendance reported for each of those districts.

(b) The chancellor shall adjust the district revenues computed pursuant to this article for any multi-college community college district which for the 1977–78 fiscal year included one or more small colleges of less than 3,000 units of average daily attendance, which are located more than 15 miles from the district office; provided that the colleges were in operation on or before July 1, 1977, and accredited by this time as separate institutions by the accrediting commission for community and junior colleges of the Western Association of Schools and Colleges; except that a college in any district that is eligible for the allowance allowed pursuant to Section 84704(a) will not be eligible for the allowance provided in this subdivision.

For each such eligible community college district, the chancellor shall add to the district's revenues, computed pursuant to this article, one-half of the difference between:

(1) The revenue that would have resulted during 1978–79 by applying the small district formula, pursuant to Sections 84764 and 84765, except using attendance ADA, to those units of average daily attendance reported for the small college or colleges within that district; and

(2) The revenues that would have resulted by applying the district's base revenue, computed pursuant to Section 84701, per unit of average daily attendance during 1978–79 to those units of average daily attendance reported for the small college or colleges within that district.

If the amount computed pursuant to paragraph (1) is less than the amount computed pursuant to paragraph (2), there shall be no adjustment made pursuant to this subdivision.

84705. For fiscal year 1979–80, community college districts shall also receive an amount equal to the sum of:

(a) Revenues derived for fiscal year 1978–79, pursuant to Section 84904, from the capital outlay matching tax authorized by Section 85100; provided that the purpose for which the tax was levied has not been fulfilled prior to July 1, 1979; and

(b) Revenues derived for fiscal year 1978–79, pursuant to Section 84904, from the lease/purchase tax authorized by Section 84006; provided that the purpose for which the tax was levied has not been fulfilled prior to July 1, 1979.

84706. For each community college district whose fiscal year 1978–79 revenues per unit of average daily attendance exceeds 2.0 times the statewide average for districts reporting less than 3,000 units of average daily attendance, or 2.0 times the statewide average for all districts, whichever is applicable, the chancellor shall apportion general state aid according to the procedure specified in this article; except that each such district's base 1979–80 fiscal year revenues shall be 1.07 times the amount actually expended by the district during 1977–78 fiscal year for operating expenses defined in objects 1000-5000 of the Community College Budget and Accounting Manual, instead of the amount computed pursuant to Section 84701.

84709. In lieu of the amounts which would otherwise be appropriated pursuant to Sections 14020 and 84301 for the purpose of funding the excess direct cost of providing special facilities, special educational material, educational assistance, mobility assistance, transportation, program accountability, and program developmental services for handicapped students enrolled at community colleges, the sum of fifteen million eight hundred thousand dollars ($15,800,000) is hereby appropriated from the General Fund to the Chancellor of California Community Colleges for the purpose of funding such excess direct costs during the 1979–80 fiscal year.

84715. The Board of Governors, in accordance with rules and regulations adopted by it, shall annually review the need for state funds from Section B of the State School Fund to provide for community college district program changes that require funds which exceed those otherwise provided by this article; and shall include an estimate of such need in its budget for each year. To be eligible for funding, such program changes must have been identified in district plans submitted to the chancellor's office, or by the Board of Governors. Districts receiving program change funding shall report on the use of such funds in accordance with regulations adopted by the board.

The Board of Governors shall study the participation rates of community college districts, and shall recommend, if appropriate, program change funding proposals pursuant to this section for the 1980–81 fiscal year. The study shall include, but not be limited to the following criteria: participation rate of the district and availability of alternate existing programs in the geographic area.

84716. The chancellor of the California Community Colleges shall conduct a study and recommend policy on the determination of credit and noncredit courses, and submit the report to the

Legislature and the California Postsecondary Education Commission on or before January 1, 1980. The California Postsecondary Education Commission shall review the chancellor's office report and make recommendations to the Legislature on or before March 1, 1980.

84717. The chancellor shall conduct a study on the incremental cost rate used in Section 84702 of this article, including a study of the various cost factors that are part of this overall rate. Prior to January 5, 1980, the chancellor shall make recommendations to the Legislture on appropriate changes in this rate or its components.

84718. The chancellor's office shall conduct a study to determine the purposes of transfers which districts made from their general fund to all other funds in 1977–78 and shall report to the Legislature by January 1, 1980.

84719. In lieu of the amounts which would otherwise be appropriated for transfer from the General Fund in the State Treasury to Section B of the State School Fund pursuant to Section 14020 of the Education Code, there is hereby appropriated for transfer by the State Controller as needed during the 1979–80 fiscal year from the General Fund in the State Treasury to Section B of the State School Fund, in addition to the sums accruing to Section B of the State School Fund from other sources, for apportionment pursuant to Article 1 (commencing with Section 84700) of Chapter 5, Part 50 of the Education Code, during the 1979–80 fiscal year, not to exceed the sum of nine hundred sixty million two hundred thousand dollars ($960,200,000). However, no more than 75 percent of the appropriation made by this section shall be disbursed prior to February 1, 1980.

The appropriation made pursuant to this section shall be allocated in the following manner:

(1) For purposes of the state general apportionment for fiscal year 1979–80, exclusive of the apportionment pursuant to Section 84704 of the Education Code, nine hundred fifty-six million one hundred seventy thousand dollars ($956,170,000).

(2) For purposes of subdivision (a) of Section 84704 of the Education Code, two million two hundred ninety thousand dollars ($2,290,000).

(3) For purposes of subdivision (b) of Section 84704 of the Education Code, one million seven hundred forty thousand dollars ($1,740,000).

Article 2. Fiscal Year 1980–81 Funding

84720. For the 1980–81 fiscal year, the chancellor shall apportion general state aid to community college districts according to the following procedure:

(a) The 1980–81 fiscal year revenues for each community college district shall be its base 1980–81 fiscal year revenues, as defined in Section 84721; plus or minus the average daily attendance adjustment based on incremental costs, as defined in Section 84722;

plus the inflation adjustment specified in Section 84723; plus the capital outlay or lease purchase assistance, if any, as specified in Section 84724.

(b) The chancellor shall adjust the amount determined pursuant to subdivision (a) to provide for prior year adjustments or adjustments which are required pursuant to Sections 84330, 84737 and 84904, as well as adjustments for the effects of annexation for transfer of territory occurring after June 30, 1978.

(c) For any district whose revenues computed pursuant to this article are less than 1.01 times the revenues received by the district for fiscal year 1978–79, as defined in paragraph (1) of subdivision (c) of Section 84700, the district shall receive 1.01 times its fiscal year 1978–79 revenues in lieu of amounts computed pursuant to this article.

(d) From the 1980–81 fiscal year revenues of each community college district the chancellor shall subtract local property tax revenues and/or other local tax revenues specified by law for the general operating support of community colleges, exclusive of bond interest and redemption. The remainder shall be the state general apportionment for each such district.

(e) The State Controller shall draw warrants on the State Treasury in favor of the County Treasurer of each county containing a community college district at such times and in such amounts as determined by the chancellor; provided that no more than 75 percent of the state general apportionment provided for in this section shall be made prior to February 1, 1981.

(f) On or before February 15, 1981, the chancellor shall publish, and shall provide to the Legislature, a report on revenues per unit of average daily attendance in the community colleges. The report shall include comparisons on a district-by-district basis, as well as on a statewide basis, of revenues per unit of average daily attendance for fiscal years 1979–80 and 1980–81. The report shall also include information on the amounts of actual and estimated sources of revenue that comprise the basis for the calcuation of revenues per unit of average daily attendance.

(g) For purposes of this article "average daily attendance" and "attendance ADA" shall mean the attendance of state residents attending within the district.

84721. The base 1980–81 fiscal year revenues for each community college district shall be the sum of those revenues received pursuant to Sections 84701 to 84704, inclusive, and 84706.

84722. The base 1980–81 fiscal year revenues for each community college district shall be adjusted for changes in average daily attendance based on incremental costs according to the following procedure:

(a) The chancellor shall determine the increase or decrease in the number of units of average daily attendance reported by each district between fiscal years 1979–80 and 1980–81.

(b) The chancellor shall multiply the increase or decrease in such

units of average daily attendance by the incremental cost rate. For districts reporting 3,000 or more units of average daily attendance for fiscal year 1980–81, and which have decreased in average daily attendance since 1979–80, the incremental cost rate is defined as two-thirds of the district's revenues per unit of average daily attendance for 1979–80. For districts reporting fewer than 3,000 units of average daily attendance for fiscal year 1980–81, and for districts which have increased in average daily attendance since 1979–80, the incremental cost rate is defined as two-thirds of the statewide revenues per unit of average daily attendance for 1979–80.

(c) For districts which have increased in the number of units of average daily attendance reported between fiscal years 1979–80 and 1980–81, the chancellor shall add the amount computed pursuant to subdivision (b) to the amount computed pursuant to Section 84721. For districts which have decreased in the number of units of average daily attendance reported between fiscal years 1979–80 and 1980–81, the chancellor shall subtract the result computed pursuant to subdivision (b) from the amount computed pursuant to Section 84721.

84723. (a) For district's reporting 3,000 or more units of average daily attendance for fiscal year 1979–80, the chancellor shall add to the amount determined pursuant to Sections 84721 and 84722 the product of: the percentage change in the California Consumer Price Index for the 1979 calendar year, as determined by the State Controller, or 7 percent, whichever is lesser; times the statewide revenues per unit of average daily attendance for fiscal year 1979–80; times the quotient of statewide revenues per unit of average daily attendance for fiscal year 1979–80 divided by district revenues per unit of average daily attendance for fiscal year 1979–80; times the average daily attendance for the district for fiscal year 1980–81.

(b) For districts reporting fewer than 3,000 units of average daily attendance for fiscal year 1979–80, the chancellor shall add to the amount determined pursuant to Sections 84721 and 84722 the product of: the percentage change in the California Consumer Price Index for the 1979 calendar year, as determined by the State Controller, or 7 percent, whichever is lesser; times the statewide revenues per unit of average daily attendance for fiscal year 1979–80; times the small district multiplier specified in former Section 84764 or 84765, except using attendance ADA; times the quotient of statewide revenues per unit of average daily attendance for fiscal year 1977–78 divided by district revenues per unit of average daily attendance for fiscal year 1977–78; times the average daily attendance for the district for fiscal year 1980–81.

(c) For purposes of this section, statewide revenues per unit of average daily attendance shall be the quotient of the total of all districts' base revenues, as computed pursuant to Section 84721 divided by the total statewide average daily attendance for fiscal year 1979–80.

84724. For fiscal year 1980–81, community college districts shall

also receive an amount equal to the sum of:

(a) Revenues derived for fiscal year 1978–79, pursuant to Section 84904, from the capital outlay matching tax authorized by Section 85100; provided that the purpose for whch the tax was levied has not been fulfilled prior to July 1, 1980; and

(b) Revenues derived for fiscal year 1978–79 pursuant to Section 84904, from the tax authorized by Section 84006; provided that the purpose for which the tax was levied has not been fulfilled prior to July 1, 1980.

84725. It is the intent of the Legislature that the following categorical programs be funded in the 1980–81 fiscal year by the Budget Act of that year:

(a) Child care and cooperative preschool programs.

(b) Education opportunity programs and services.

84726. The board of governors, in accordance with rules and regulations adopted by it, shall annually review the need for state funds from Section B of the State School Fund to provide for community college district program changes that require funds which exceed those otherwise provided by this article; and shall include an estimate of such need in its budget for each year. To be eligible for funding, such program changes must have been identified in district plans submitted to the chancellor's office, or by the Board of Governors. Districts receiving program change funding shall report on the use of such funds in accordance with regulations adopted by the Board.

84728. In lieu of the amounts which would otherwise be appropriated for transfer from the General Fund in the State Treasury to Section B of the State School Fund pursuant to Section 14020 of the Education Code, there is hereby appropriated for transfer by the State Controller as needed during the 1980–81 fiscal year from the General Fund in the State Treasury to Section B of the State School Fund, in addition to the sums accruing to Section B of the State School Fund from other sources, for apportionment pursuant to this article during the 1980–81 fiscal year, not to exceed the sum of one billion forty seven million dollars ($1,047,000,000). However, no more than 75 percent of the appropriation made by this section shall be disbursed prior to February 1, 1981.

84729. In lieu of the amounts which would otherwise be appropriated pursuant to Sections 14020 and 84301 for the purpose of funding the excess direct cost of providing special facilities, special educational material, educational assistance, mobility assistance, transportation, program accountability, and program developmental services for handicapped students enrolled at community colleges, the sum of fifteen million eight hundred thousand dollars ($15,800,000) is appropriated from the General Fund to the Chancellor of the California Community Colleges for the purpose of funding such excess direct costs during the 1980–81 fiscal year.

84730. (a) No community college district providing services in the special areas specified in subdivision (b) of this section shall

receive any apportionment or allocation from Section B of the State School Fund unless the district maintains a proportional level of service in each service in each fiscal year, beginning in the 1980–81 fiscal year.

(b) The Chancellor's Office of the California Community Colleges shall adopt standards for the determination of proportional level of service in the following areas:

(1) Adult non-credit programs for substantially handicapped persons.

(2) Summer school non-credit programs for substantially handicapped persons.

In no case shall the proportional level of service be less than that required in Section 19.5 of the Budget Act of 1978 (Ch. 359, Stats. 1978.).

(c) The condition imposed by this section may be waived by the Chancellor of the California Community Colleges upon certification from the community college district that the local demand for the program is less than the required proportional level of service.

SEC. 42. Section 84897 of the Education Code is amended to read:

84897. This article shall remain in effect until July 1, 1981, and of such date is repealed.

SEC. 42.5. Section 84904 of the Education Code is amended to read:

84904. (a) The chancellor shall distribute the amount appropriated by subdivision (b) of Section 84902 so that each district receives the same percentage of its target budget after deducting the sum of (1) the apportionment made pursuant to Section 84903 (exclusive of the special apportionment for handicapped), (2) available local property tax revenues, and (3) available district reserves.

SEC. 44. Section 10500 of the Government Code is amended to read:

10500. The Legislature finds that auditing is now conducted by various state agencies and recognizes the needs of the executive branch of the state government for periodic and special audits of the revenues and expenditures of any state agency, and the accounting and fiscal reporting systems established in state agencies, as a means of insuring the proper and lawful expenditure of state funds. The Legislature, also, recognizes the necessity of an independent audit, in addition to the audit conducted within the executive branch of state government, for the use of both the executive and legislative branches of the state government in establishing a sound fiscal and administrative policy for the government of the state.

Therefore, it is the desire of this Legislature that the internal auditing be coordinated in the executive branch of the government in the interest of economy and efficiency. It is also the desire of the Legislature to create the Office of the Auditor General, whose primary duties shall be to examine and report annually upon the financial statements prepared by the executive branch of the state and to perform such other related assignments, including performance audits, as may be requested by the Legislature. The authority of the office under the direction of the Joint Legislative Audit Committee is confined to examining and reporting and is in no way to interfere with adequate internal audit to be conducted by the executive branch of the government.

The Legislature also finds that a significant portion of the state budget consists of subventions to local governments and, therefore, it is necessary for the Legislature to establish independent fiscal oversight capability necessary to determine funding priorities and to evaluate the efficiency and necessity of state supported local programs and state programs adminstered by local governments.

SEC. 45. Section 10527 of the Government Code is amended to read:

10527. The Auditor General during regular business hours shall have access to, and authority to examine, any and all books, accounts, reports, vouchers, correspondence files, and other records, bank accounts, and money or other property, of any agency of the State whether created by the Constitution or otherwise, and any public entity, including any city, county, and special district which receives state funds, and it shall be the duty of any officer or employee of any such agency, having such records or property in his possession or

under his control, to permit access to, and examination thereof upon the request of the Auditor General or his authorized representative. Any officer or person who shall fail or refuse to permit such access and examination, shall be guilty of a misdemeanor.

SEC. 46. Section 10528 of the Government Code is amended to read:

10528. The Auditor General, with the approval of the Joint Legislative Audit Committee, shall examine and report annually upon the financial statements prepared by the executive branch of the state to the end that the Legislature will be informed as to the adequacy of such financial statements in compliance with generally accepted accounting principles applied on a basis consistent with that of the preceding fiscal year. In making such examination, he is authorized to make such audit examination of accounts and records, accounting procedures and internal auditing performance as the Joint Legislative Audit Committee may determine and specifically designate to be necessary to disclose all material facts necessary to proper reporting to the Legislature in accordance with the statement of purposes set forth in Section 10500. He shall make such special audits and investigations, including performance audits, of any state agency whether created by the Constitution or otherwise, and any public entity, including any city, county, and special district which receives state funds, as requested by the Legislature or any committee of the Legislature.

SEC. 46.5. Section 16115 of the Government Code is amended to read:

16115. (a) Out of the amount appropriated by Section 16100, the Controller shall pay on or before September 15th of each year to each county auditor the amount claimed under subdivision (a) of Section 16113.

(b) Out of the amount appropriated by Section 16100, the Controller shall pay on or before December 30th of each year to the county auditor one-half of the amount claimed under subdivision (b) of Section 16113 and shall pay the other one-half so claimed on or before April 30th.

(c) Prior to paying any claim pursuant to subdivisions (a) and (b), the Controller shall reduce the amount of a county's share by an amount equal to the amount for that county of excess transfer as determined pursuant to paragraph (3) of subdivision (b) of Section 16260.

(d) "Excess transfer" is that amount by which the sum of money subtracted pursuant to paragraphs (2) and (3) of subdivision (b) of Section 16260 exceeds the amount in paragraph (1) of such subdivision.

(e) The amount of excess transfer subtracted pursuant to subdivision (c) shall serve to reduce the county amount only and not any amount for any school district, community college district, county superintendent of schools, or other local agency, other than the county.

SEC. 47. Section 16117 is added to the Government code, to read:

16117. Notwithstanding any other provision of law, for the 1979–80 fiscal year only, the Controller shall reduce proportionately the amounts paid pursuant to Section 16113 for that fiscal year, so that counties in the aggregate will receive seventeen million four hundred thousand dollars ($17,400,000) less than they would otherwise receive, and so that cities in the aggregate will receive twenty-one million dollars ($21,000,000) less than they would otherwise receive.

SEC. 47.1. Section 16250 of the Government Code is amended to read:

16250. (a) Out of the amount appropriated by Section 16100, there shall be allocated to the cities in this state, for the 1978–79 fiscal year only, two hundred fifty million dollars ($250,000,000) to be distributed as provided in subdivisions (b), (c), and (d) of this section.

(2) From the amount determined pursuant to paragraph (1), there shall be subtracted the amount determined for each city in 1978–79 pursuant to Section 26912.1.

(3) The remainder determined pursuant to paragraph (2) shall be aggregated for all cities in the state.

(4) The Controller shall then determine what the percentage of the amount computed for each city pursuant to paragraph (2) is of the total statewide amount computed pursuant to paragraph (3).

(5) The percentage determined pursuant to paragraph (4) shall be applied to the two hundred fifty million dollars ($250,000,000) to determine each city's dollar share of the surplus allocation.

(c) From each city's dollar share of the total allocation, there shall be subtracted an amount equal to one-third of the amount by which the city's general fund reserve balance on July 1, 1978, as defined in subdivision (e), exceeds 5 percent of the city's 1977–78 total revenues. However, this subdivision shall not apply to a city formed during or after fiscal year 1977–78.

(d) The amount determined in paragraph (5) of subdivision (b) minus the amount determined in subdivision (c) shall be distributed to each city by the Controller in accordance with the following schedule:

33 percent—on August 31, 1978, or a subsequent date if the information needed by the Controller is not available by this date.

33 percent—on December 10, 1978.

34 percent—on May 10, 1979.

(e) For the purposes of this section, "General Fund reserve" includes the unappropriated fund balance as of June 30, 1978 of the General Fund. "General Fund reserves" shall not include:

(1) Noncash assets such as stores, inventory, property and

buildings, or other investments purchased prior to June 6, 1978.

(3) Any amounts restricted by law or court order.

(4) Any amounts committed to a capital outlay project approved prior to June 6, 1978, by the city council.

(g) Funds distributed under this section shall be distributed first for police and fire protection programs in order not to jeopardize the health and safety of the community. The legislative body shall ensure that the level of police and fire protection programs actually provided in the 1977–78 fiscal year shall be continued in the 1978–79 fiscal year. However, this subdivision shall not apply to a city formed during or after fiscal year 1977–78.

Nothing in this section shall prevent the legislative body from reviewing and establishing its police and fire protection program in the 1978–79 fiscal year in a manner which will make such program more efficient and effective.

Any determination by a city council implementing this section is hereby declared to be a legislative act.

(h) The Controller shall make any necessary reconciliation no later than August 30, 1979.

(i) Notwithstanding any other provision of law, out of the amount appropriated by Section 16100, there shall be allocated to cities formed during or after fiscal year 1977–78, the sum of two hundred twenty-one thousand dollars ($221,000) to be distributed by the Controller on May 10, 1979, as follows:

(b) (1) For each county and city and county, the amount of property taxes collected, plus the amount of homeowners' and business inventory exemption reimbursements, for the 1977–78 fiscal year shall be computed by the Controller.

(2) From the amount determined pursuant to paragraph (1), there shall be subtracted the amount determined for each county

and city and county in 1978–79 pursuant to Section 26912.1.

(3) From the remainder determined pursuant to paragraph (2), there shall be subtracted the dollar amount of a county's obligation in 1978–79 relieved by Sections 33 and 34 of Chapter 292 of the Statutes of 1978.

(4) The amount determined pursuant to paragraph (3) shall be aggregated for counties and cities and counties in the state.

(5) The Controller shall then determine what the percentage of the amount computed for each county and city and county pursuant to paragraph (3) is of the total statewide amount computed pursuant to paragraph (4).

(6) The percentage determined pursuant to paragraph (5) shall be applied to the amount described in subdivision (a), modified by subdivision (x) if applicable, to determine the dollar share of the surplus allocation for each county and city and county.

(c) From each county's or city and county's surplus allocation, there shall be subtracted an amount equal to one-third of the amount by which the county's or city and county's county general fund reserve balance on July 1, 1978, as defined in subdivision (e), exceeds 5 percent of the county's or city and county's total 1977–78 revenues.

(d) The remainder determined in subdivision (b) minus the amount determined in subdivision (c), if positive, shall be distributed to each county and city and county by the Controller in accordance with the following schedule:

(3) Any amounts restricted by law or court order.

(4) Any amounts committed to a capital outlay project approved prior to June 6, 1978, by the board of supervisors.

(f) For the purpose of this section, the amount of property tax collections pursuant to existing law for the purpose of making annual payments for the interest and principal on outstanding general obligation bonds or other indebtedness approved by the voters prior to July 1, 1978, shall be excluded from all calculations.

(g) Funds distributed pursuant to this section shall be given first for police, sheriff, and fire protection programs in order not to jeopardize the health and safety of the community. The legislative body shall ensure that the level of police, sheriff, and fire protection programs actually provided in the 1977–78 fiscal year shall be

Nothing in this section shall prevent the legislative body from reviewing and establishing its police, sheriff, and fire protection program in the 1978–79 fiscal year in a manner which will make such program more efficient and effective.

Any determination by the legislative body implementing this section is hereby declared to be a legislative act.

(e) A finding is made by the city council or board of supervisors that the facilities to be constructed from such fees or the land to be dedicated, or both, is consistent with the general plan.

The ordinance may specify the methods for mitigating the conditions of overcrowding which the school district shall consider when making the finding required by subdivision (b) of Section 65971.

If the payment of fees is required, such payment shall be made at the time the building permit is issued.

Only the payment of fees may be required in subdivisions containing 50 parcels or less.

SEC. 54. Section 65979 is added to the Government Code, to read:

65979. After a school district has received an apportionment pursuant to the Leroy F. Greene State School Building Lease-Purchase Law of 1976 (Chapter 22 (commencing with Section 17700) of Part 10 of the Education Code), the city or county shall not be permitted thereafter, pursuant to this chapter or pursuant to any other school facilities financing arrangement such district may have with builders of residential developments, to levy any fee or to require the dedication of any land within the attendance area of the district.

Failure to provide the recommendation of fees to be assessed within the 60-day period shall constitute a waiver by the governing body of the school district of its authority to request fees pursuant to this chapter.

SEC. 57. Section 66434.1 is added to the Government Code, to read:

66434.1 In the event that an owner's development lien has been created pursuant to the provisions of Article 2.5 (commencing with

The notice shall state that the property subdivided is subject to an owner's development lien and that each parcel created by the recordation of the final map shall be subject to a prorated amount of the owner's development lien on a per acre or portion thereof basis.

SEC. 58. Section 11836 of the Health and Safety Code is amended to read:

Where the services specified in the approved program budget are provided pursuant to other general health or social programs, only that portion of the service dealing with the prevention of alcoholism, and the treatment and rehabilitation of alcoholics and their families may be financed under this division.

For the purposes of this section, "county program budget" shall mean the total of state funds to be advanced to the county and the required county match.

This section shall become operative on July 1, 1982.

95. For the purpose of this chapter,

(a) "Local agency" means a city, county, city and county, and special district, as such terms are defined in Article 1 (commencing with Section 2201) of Chapter 3 of Part 4; provided, that the Bay Area Air Quality Management District shall be considered a special district.

(c) "Property tax revenue" includes the amount of state reimbursement for the homeowners' and business inventory exemptions.

"Property tax revenue" does not include the amount of property tax levied for the purpose of making payments for the interest and principal on outstanding general obligation bonds or other indebtedness approved by the voters prior to July 1, 1978, including tax rates levied pursuant to Part 10 (commencing with Section 15000) of Division 1 of, and Sections 39308, 39311, 81338, and 81341 of the Education Code, and Section 26912.7 of the Government Code.

In the case of a jurisdictional change pursuant to Section 99, the area subject to such change shall constitute a new tax-rate area.

(h) "State assistance payments" means:

(1) For counties and cities and counties, amounts determined pursuant to subdivision (b) of Section 16260 of the Government Code, increased by the amount specified for each county pursuant to Section 94 of the act adding this section to the Revenue and Taxation Code, with the resultant sum reduced by an amount derived by the calculation made pursuant to Section 16713 of the Welfare and Institutions Code.

(2) For cities, 82.91 percent of the amounts determined pursuant to subdivisions (b) and (i) of Section 16250 of the Government Code plus for any city an additional amount equal to one-half of the amount of any outstanding debt as of June 30, 1978, for "museums" as shown in the State Controller's "Annual Report of Financial Transactions of Cities for Fiscal Year 1977–78."

(3) For special districts, 95.24 percent of the amounts received pursuant to Chapter 3 (commencing with Section 16270) of Part 1.5 of Division 4 of Title 2 of the Government Code, Section 35.5 of Chapter 332 of the Statutes of 1978, and Chapter 12 of the Statutes of 1979.

(i) "City clerk" means the clerk of the governing body of a city or city and county.

96. For the 1979–80 fiscal year only, property tax revenues shall be allocated by the county auditor, subject to the allocation and payment of funds as provided for in subdivision (b) of Section 33670 of the Health and Safety Code, to each jurisdiction as follows:

(a) Each local agency shall be allocated an amount of property tax revenue equal to the sum of the amount of property tax revenue allocated pursuant to Section 26912 of the Government Code to each local agency for the 1978–79 fiscal year, modified by any adjustments required by Section 99, and increased by the amount of state assistance payments allocated to each local agency.

(b) The auditor shall determine the school entities' share of the 1979–80 property tax revenue by subtracting the state assistance payments allocated to local agencies within the county in the 1978–79 fiscal year from the aggregate amount of property tax revenue allocated pursuant to Section 26912 of the Government Code to all school entities within the county in the 1978–79 fiscal year. The amount of the difference shall be the 1979–80 school entities' share of property taxes for fiscal year 1979–80, and shall be allocated to the school entities in the same proportion as the allocation made to such jurisdictions in the 1978–79 fiscal year.

(c) The difference between the total amount of property tax revenue and the amounts allocated pursuant to subdivisions (a) and

(b) shall be allocated pursuant to Section 98.

(d) For the purposes of computing property tax allocations for the 1978–79 fiscal year and each year thereafter, the county auditor shall recompute the 1978–79 property tax allocation for any city which levied a utility users' tax prior to 1978 but repealed such tax prior to December 31, 1977. For such cities, property tax revenues for the 1975–76, 1976–77, and 1977–78 fiscal years shall be deemed to include revenue from the city's utility users' tax for those respective years.

97. For the 1980–81 fiscal year and each fiscal year thereafter, property tax revenues shall be allocated by the county auditor, subject to allocation and payment of funds as provided for in subdivision (b) of Section 33670 of the Health and Safety Code, to each jurisdiction in the following manner:

(a) Each jurisdiction shall be allocated an amount of property tax revenue equal to the amount of property tax revenue allocated pursuant to this chapter, notwithstanding the provisions of Section 98.6, to each jurisdiction in the prior fiscal year, modified by any adjustments required by Section 99.

(b) The difference between the total amount of property tax revenue and the amounts allocated pursuant to subdivision (a) shall be allocated pursuant to Section 98, and shall be known as the "annual tax increment".

98. The difference between the total amount of property tax revenue and the amounts allocated pursuant to subdivisions (a) and (b) of Section 96 or subdivision (a) of Section 97, shall be allocated, subject to allocation and payment of funds as provided for in subdivision (b) of Section 33670 of the Health and Safety Code, as follows:

(a) Within each tax-rate area, the auditor shall determine an amount of property tax revenue by multiplying the value of the change in taxable assessed value from the prior to the current fiscal year by a tax rate of four dollars ($4) per one hundred dollars ($100) of assessed value.

(b) Each amount determined pursuant to subdivision (a) shall be divided by the total of all such amounts computed for tax rate areas within the county.

(c) The difference between the total amount of property tax revenue for the county and the sum of the amounts allocated pursuant to subdivisions (a) and (b) of Section 96 or subdivision (a) of Section 97 shall be computed.

(d) The amount determined pursuant to subdivision (c) shall be multiplied by the quotients determined pursuant to subdivision (b) to derive, for each tax rate area, the amount of property tax revenue attributable to changes in assessed valuation.

(e) The amount of property tax revenue determined pursuant to subdivision (d) shall be distributed to the various jurisdictions whose boundaries include the tax-rate area in the same proportion that the total property tax revenue allocated to the jurisdiction with respect to the tax-rate area in the prior year bears to the total property tax

revenue allocated to all jurisdictions in the tax-rate area in the prior year.

(f) For the 1979–80 fiscal year only:

(1) The amount of property tax revenue, attributable to the tax-rate area, for each jurisdiction for the prior fiscal year shall be considered to be the total property tax revenue for such jurisdiction for fiscal year 1978–79 allocated among tax-rate areas in the same proportion which the taxable assessed valuation for fiscal year 1978–79 in each tax-rate area bears to the total taxable assessed valuation of all tax-rate areas in which the jurisdiction was located in fiscal year 1978–79.

(2) Property tax revenue received by local agencies in the prior fiscal year shall include the amount of state assistance payments allocated to each local agency, allocated among tax-rate areas in proportion to the jurisdiction's taxable assessed valuation within each tax-rate area for the 1978–79 fiscal year.

(3) Property tax revenue received by school entities in the prior fiscal year shall be reduced by the adjustments required by subdivision (b) of Section 96, allocated among tax-rate areas, in proportion to the school entity's taxable assessed valuation within each tax-rate area for the 1978–79 fiscal year.

98.6. (a) Notwithstanding any other provision of this chapter, the amount allocated pursuant to Sections 96 or 97, and 98, to a special district, as defined in Article 1 (commencing with Section 2201) of Chapter 3 of Part 4, excluding multi-county districts, shall be reduced by an amount computed as follows:

(1) A ratio shall be computed for each such special district equal to the amount of state assistance payment received by such special district for the 1978–79 fiscal year divided by the sum of such state assistance payment for the special district plus the amount of property tax revenue allocated to the special district for the 1978–79 fiscal year pursuant to Section 26912 of the Government Code.

(2) The amount by which the allocation pursuant to Sections 96 or 97, and 98, shall be reduced shall be equal to such allocation multiplied by the factor computed for the district pursuant to paragraph (1).

(3) The total of all amounts computed for special districts within each county shall be deposited in the county's Special District Augmentation Fund, which shall be allocated pursuant to subdivision (b).

(b) There is hereby created a Special District Augmentation Fund in each county to augment the revenues of special districts The auditor shall, on or before July 10 of each year, notify each governing body, as defined in Section 16271 of the Government Code, of the amount allocated to it pursuant to this section.

Within 15 days of such notice, the governing body shall hold a public hearing for the purpose of determining the distribution of such funds. The governing body shall send written notice to the legislative body of each special district which is not governed by the

board of supervisors or the city council and shall publish such notice in a newspaper of general circulation in the county not less than three days prior to the hearing. The notice shall include the following: (1) The amount of funds available to special districts, and (2) the time and place of the hearing.

Within 30 days of the notice of allocation, the governing body shall determine the amount of funds to be disbursed to each special district. The funds provided for by this shall be used exclusively for special districts and shall not be used for any general county or municipal expenses.

The county auditor shall disburse funds to the special district in the same manner as disbursements which are made from the county treasurers property tax trust fund.

98.8. In addition to the amounts provided for in Section 98.6, pursuant to a resolution adopted by its governing board, a county or city may distribute funds to any special district from any available county or city sources.

99. (a) For the purposes of the computations required by this chapter:

(1) In the case of a jurisdictional change, other than a city incorporation or a formation of a district as defined in Section 2215 of the Revenue and Taxation Code, the auditor shall adjust the amount of property tax revenue determined pursuant to Section 96 or 97, for each local agency whose service area or service responsibility would be altered by such jurisdictional change, as determined pursuant to subdivision (b).

(2) In the case of a city incorporation or a formation of a district as defined in Section 2215 of the Revenue and Taxation Code, the auditor shall assign the amount of property tax revenues determined pursuant to Section 54790.3 of the Government Code to the newly formed city or district and shall make the adjustment as determined by Section 54790.3 in the amount of property tax revenue determined pursuant to Section 96 or 97 for each local agency whose service area or service responsibilities would be altered by such incorporation or formation.

(b) Prior to the effective date of any jurisdictional change, other than a city incorporation or a formation of a district as defined in Section 2215 of the Revenue and Taxation Code, the governing bodies of all agencies whose service areas or service responsibilities would be altered by such change shall meet to determine the amount of property tax revenues to be exchanged between and among such affected agencies. Notwithstanding any other provision of law, no such jurisdictional change shall become effective until each county and city included in such negotiation agrees, by resolution, to accept the negotiated exchange of property tax revenues.

In the event that such a jurisdictional change would affect the service area or service responsibility of one or more special districts, the board of supervisors of the county or counties in which such district or districts are located shall, on behalf of the district or

districts, negotiate any exchange of property tax revenues.

During any negotiation period, all revenue from the annual tax increment attributable to the tax-rate area or areas within the territory subject to the jurisdictional change for the affected agencies and which has not yet been distributed to such affected agencies for the fiscal year or years in which negotiations take place shall be impounded. The auditor shall determine the amount of revenue to be impounded based on the statement received from the executive officer pursuant to subdivision (e). The auditor shall not allocate any such revenue until he or she receives notice that an agreement has been reached pursuant to this subdivision.

Upon adoption of any resolution pursuant to this paragraph, the adopting agencies shall notify the county auditor who shall make the appropriate adjustments as provided in subdivision (a).

(c) In addition to the filings required pursuant to Chapter 8 (commencing with Section 54900) of Part 1 of Division 2 of Title 5 of the Government Code, a copy of the statement as provided by Section 54901 of the Government Code shall be forwarded to the auditor of each county within which any affected agency is located.

(d) Except as otherwise provided in sudivision (e), for the purpose of determining the amount of property tax to be allocated in 1979–80 and thereafter for those local agencies which were affected by a jurisdictional change which was effective during fiscal year 1978–79, the auditor shall impound all revenue from the annual tax increment attributable to the tax-rate area or areas within the territory subject to the jurisdictional change for such affected local agencies, until such local agencies determine by resolution the amount of property tax revenues to be exchanged between and among such affected agencies and notify the auditor of such determination.

(e) For purposes of the computations made pursuant to this section, in the case of a city incorporation, which occurred during the 1978–79 fiscal year, the amount of property tax revenue considered to have been received by such jurisdiction for the 1978–79 fiscal year shall be equal to two-thirds of the amount of property tax revenue projected in the final local agency formation commission staff report pertaining to such incorporation multiplied by the proportion that the total amount of property tax revenue received by all jurisdictions within the county for the 1978–79 fiscal year bears to the total amount of property tax revenue received by all jurisdictions within the county for the 1977–78 fiscal year.

100. (a) On or before August 31, 1979, and on or before June 30 of each year thereafter, any jurisdiction may request that the amount computed for it pursuant to this chapter be reduced for the next fiscal year by a specified amount. Upon such request, the county auditor shall compute an effective tax rate reduction by dividing the amount of property tax revenue to be reduced by the taxable assessed value on the secured roll of the jurisdiction and multiplying the quotient by 100. The effective tax rate reduction shall be applied

to the taxable assessed value on each secured roll tax bill for property within the jurisdiction, and the resulting amount shall be subtracted from the property tax owed by the taxpayer which is attributable to the tax rate provided by subdivision (b) of Section 2237. This subtracted amount shall be shown on each such tax bill with a notation reading: "Tax reduction by (name of jurisdiction)." The same effective tax rate reduction shall be applied in a comparable manner to the taxable assessed value on the next succeeding unsecured roll tax bill for property within the jurisdiction.

(b) Notwithstanding any other provision of law, if a school entity acts pursuant to subdivision (a), the state shall not increase school apportionments to such school entity to make up the reduction in property tax revenues.

(c) Effective tax rate reductions made pursuant to this section shall not be taken into account in computing property tax allocations pursuant to Sections 95 to 99, inclusive, of this chapter.

CHAPTER 7. EXCESS TAX REVENUES

100.1. The Superintendent of Public Instruction shall determine in August of each year the total statewide roll of assessed value as reported to the State Board of Equalization. Commencing with the 1979–80 fiscal year, the Superintendent shall determine the percentage increase in assessed value during the current year compared to the previous year. The Superintendent shall further determine the extent to which the actual percentage increase in statewide assessed value exceeds the target assessed value estimate for revenue needs.

(b) For the purposes of this section, the target assessed value estimate for revenue needs shall be:

For fiscal year 1979–80	10.0 percent
For fiscal year 1980–81	9.0 percent
For fiscal year 1981–82	8.5 percent
For fiscal year 1982–83	8.0 percent

For fiscal years 1983–84 and thereafter, such estimated percentage increase in assessed value shall be made by the Board of Equalization, with the concurrence of the Department of Finance, and shall be published in the Governor's budget.

(c) The superintendent shall perform the following calculations:

(1) He or she shall calculate the percentage difference between actual assessed value growth and the target assessed value estimate for revenue needs and shall multiply the difference by the actual reported assessed value for the current year.

(2) He or she shall calculate the percentage of property tax revenues allocated for school districts during the preceding year compared to the total property tax revenues allocated for school districts, cities, counties, and special districts for the preceding fiscal year.

(3) He or she shall multiply the percentage of school district

property tax revenue derived in paragraph (2) by the excess assessed value growth computed in paragraph (1), and this product shall be multiplied by .04. This amount shall annually be transferred from the State General Fund to the State School Building lease-purchase Fund, or its successor.

100.2. (a) Notwithstanding any other provision of law, the Controller shall reduce the cigarette tax subvention and, if necessary, the business inventory tax reimbursement to a local jurisdiction by an amount of excess sales tax computed pursuant to subdivision (b).

(b) (1) Each city, county, and city and county shall estimate in its budget for the next fiscal year the amount of the 1 percent local sales tax to be collected in that fiscal year.

(2) Each city, county, and city and county shall estimate in its budget the amount of the 1 percent local sales tax in the current fiscal year, adjusted for changes in cost of living and population in the jurisdiction.

(3) The amount, if any, by which the amount estimated pursuant to paragraph (1) exceeds the amount estimated pursuant to paragraph (2) shall be identified in the budget.

(4) From the amount identified in the budget pursuant to paragraph (3), the jurisdiction shall subtract any amount necessary to bring the jurisdiction up to the appropriations limit provided in the Constitution, prior to the reduction of any proceeds of taxes

(5) One-half of the remainder shall be identified as "excess sales tax."

(6) Each jurisdiction shall report its estimate of excess sales tax quarterly to the Controller.

(c) The amount withheld by the Controller pursuant to subdivision (a) shall be transferred to the State School Building Lease-Purchase Fund established pursuant to Section 17708 of the Education Code, or its successor, and shall be used solely for the construction of new school buildings for grades K—12.

(d) For the purposes of this section:

(1) "Jurisdiction" shall mean city, county, or city and county.

(2) "Change in population" shall mean the estimate transmitted to jurisdictions pursuant to Section 2227 of the Revenue and Taxation Code.

(3) "Cost of living" shall mean the Consumer Price Index for the United States as reported by the United States Department of Labor, or successor agency of the United States Government. However, the change in cost of living from the preceding year shall in no event exceed the change in California per capita personal income from the preceding year.

(e) The Controller shall make adjustments during the year to adjust the reductions of subdventions pursuant to subdivision (a) to correct for estimating errors.

(f) The Controller may adopt rules and regulations to carry out the provisions of this section.

(g) This section shall become operative only if a constitutional

amendment which limits state and local spending is approved by the voters at the special election held November 6, 1979.

100.3. (a) Notwithstanding any other provision of law, the Controller shall reduce the cigarette tax subvention and, if necessary, the business inventory tax reimbursement to a local jurisdiction by an amount of excess property tax computed pursuant to subdivision (b).

(b) (1) Each city, county, and city and county shall estimate in its budget for the next fiscal year the amount of property tax to be collected in that fiscal year.

(2) Each city, county, and city and county shall estimate in its budget the amount of property tax in the current fiscal year, adjusted for changes in cost of living and population in the jurisdiction.

(3) The amount, if any, by which the amount estimated pursuant to paragraph (1) exceeds the amount estimated pursuant to paragraph (2) shall be identified in the budget.

(4) From the amount identified in the budget pursuant to paragraph (3), the jurisdiction shall subtract any amount necessary to bring the jurisdiction up to the appropriations limit provided in the Constitution, prior to the reduction of any proceeds of taxes.

(5) One-fourth of the remainder shall be identified as "excess property tax."

(6) Each jurisdiction shall report its estimate of excess property tax quarterly to the Controller.

(c) The amount withheld by the Controller pursuant to subdivision (a) shall be transferred to the State School Building Lease-Purchase Fund established pursuant to Section 17708 of the Education Code, or its successor, and shall be used solely for the construction of new school buildings for grades K—12.

(d) For the purposes of this section:

(1) "Jurisdiction" shall mean city, county, or city and county.

(2) "Change in population" shall mean the estimate transmitted to jurisdictions pursuant to Section 2227 of the Revenue and Taxation Code.

(3) "Cost of living" shall mean the Consumer Price Index for the United States as reported by the United States Department of Labor, or successor agency of the United States Government. However, the change in cost of living from the preceding year shall in no event exceed the change in California per capita personal income from the preceding year.

(e) The Controller shall make adjustments during the year to adjust the reductions of subventions pursuant to subdivision (a) to correct for estimating errors.

(f) The Controller may adopt rules and regulations to carry out the provisions of this section.

(g) This section shall become operative only if a constitutional amendment which limits state and local spending is approved by the voters at the special election held November 6, 1979.

CHAPTER 8. THE DEFLATOR

100.5. (a) For the 1980–81 fiscal year, if the total of General Fund revenues and transfers for fiscal year 1980–81 plus the amount of General Fund surplus available for appropriation as of June 30, 1980, as estimated on June 10, 1980, by the Joint Legislative Budget Committee, assisted by the Department of Finance and the Legislative Analyst, is less than twenty billion six hundred million dollars ($20,600,000,000), the amount of local assistance for fiscal year 1980–81 shall be reduced as provided in subdivision (c). If Senate Bill 165 of the 1979 Regular Session is enacted, the estimate shall be made by the Commission on State Finance, rather than by the Joint Legislative Budget Committee.

(b) For the 1981-82 fiscal year and each fiscal year thereafter, the Governor's budget shall include an estimated amount of available resources comparable to that determined pursuant to subdivision (a). If the amount of the Governor's budget exceeds by more than one hundred million dollars ($100,000,000), the total of General Fund revenues and transfers for the fiscal year plus the amount of General Fund surplus available for appropriation, as estimated in the manner provided in subdivision (a) on June 10 of the prior fiscal year, then the amount of local assistance for the fiscal year shall be reduced as provided in subdivision (c).

(c) The reductions provided in subdivision (a) or (b) shall be made in the following manner:

(1) Fifty percent of the reduced amount shall be deducted from the county, city and county, city and special district share of the business inventory exemption reimbursement and the homeowners' exemption reimbursement. The reduction in these reimbursement payments shall be made in proportion to the amount of "state assistance payments" as defined in subdivision (h) of Section 95 of the Revenue and Taxation Code for each county, city and special district. For purposes of this section, "state assistance payments" for counties and cities and counties shall not be adjusted by the amount specified in Section 94 of the act adding this section to the Revenue and Taxation Code.

(2) Notwithstanding the provisions of Sections 41970 to 41972, inclusive, of the Education Code, 50 percent of the reduced amount shall be deducted by the Superintendent of Public Instruction from the amounts allowed pursuant to subdivision (f) of Section 41301 of the Education Code to all elementary, high school and unified school districts, and county offices of education; and by the Chancellor's Office of the California Community Colleges from the amounts allowed pursuant to subdivision (a) of Section 84301 of the Education Code to all community college districts. The reduction in these state school fund apportionments shall be made in proportion to the amount each local educational agency's apportionment pursuant to subdivision (f) of Section 41301 or subdivision (a) of Section 84301 of the Education Code bears to 50 percent of the reduced amount

provided for in subdivision (a) or (b); except that no educational agency shall receive less than one hundred twenty dollars ($120) per unit of average daily attendance from all state sources.

(d) The reductions provided by this section shall be effective for any fiscal year unless a concurrent resolution stating a contrary finding is enacted by the Legislature on or before June 30 of each year.

SEC. 60. Article 4 (commencing with Section 2260), Article 5 (commencing with Section 2270), Article 6 (commencing with Section 2285), Article 7 (commencing with Section 2295), and Article 8 (commencing with Section 2305) of Chapter 3 of Part 4 of Division 1 of the Revenue and Taxation Code shall not apply to property tax rates only for the 1979–80 fiscal year.

SEC. 61. Section 5705 of the Welfare and Institutions Code, as amended by Section 30 of Chapter 292 of the Statutes of 1978, is amended to read:

5705. Commencing with the 1979–80 fiscal year, the net cost of all services specified in the approved County Short-Doyle Plans, other than the state hospital services provided on and after January 1, 1980, shall be paid by the state, irrespective of where or by whom the services are provided, except for services to be financed from other public or private sources as indicated in the County Short-Doyle Plan. State hospital services shall be financed on a basis of 90 percent state funds, and 10 percent county funds commencing January 1, 1980. CHAPTER 4.1. CENTRALIZED DELIVERY SYSTEM

10815. The department shall ensure the efficient, effective, and equitable administration of public assistance programs by implementing in all counties by July 1, 1984, in accordance with the provisions of this chapter a centralized delivery system for the following public assistance programs: AFDC-U, AFDC-FG, AFDC-BHI, food stamps, Medi-Cal eligibility, aid for adoption of children, special adult programs, and, to the extent feasible, social services and child support enforcement programs. Any county may elect to contract with the state for determination of benefits for other public social service programs.

10816. The system shall have the following goals:

(a) Prompt and accurate verification of eligibility.

(b) Accurate computation and timely disbursal of benefits for such public assistance programs.

(c) Equitable, timely, and consistent treatment of recipients within each program.

(d) Reduction of administrative complexity.

(e) Strict enforcement of management and fiscal controls.

(f) Collection of management information.

10817. The department shall seek advice and assistance from counties in the planning and implementation of the system so that efficient, effective, and equitable administration of public assistance programs can be maintained.

10818. The department shall submit to the Joint Legislative Budget Committee by June 1, 1980, a detailed work plan for the implementation of the centralized delivery system. The work plan shall include at least the following:

The department may delay implementation of the system until July 1, 1984, in counties whose dollar error rates for overpayments and payments to ineligibles prior to the implementation of the system are significantly below the statewide average. If the implementation is delayed in such counties, the counties shall make available their data on a timely basis so that a statewide file on public assistance recipients can be maintained.

The state shall pay the additional aid furnished for such work- or training-connected expenses and child care expenses after a deduction therefrom of any funds received from the United States government.

It is the intent of this section to make maximum use of federal funds that are available to provide training, work-related expenses, and allowances for child care services. Accordingly, the state shall be required to pay such expenses under that plan which provides the greatest financial participation by the United States government.

Day care services shall be provided pursuant to Chapter 2 (commencing with Section 8200) of Part 6 of the Education Code in order to permit persons qualified for aid under this chapter to participate in the work incentive program authorized by Division 2 (commencing with Section 5000) of the Unemployment Insurance Code. In the event that the federal government does not provide funding for the non-AFDC collection of child support from noncustodial parents and the non-AFDC determination of paternity in the case of a child born out of wedlock, the state shall pay 75 percent of such non-AFDC administrative costs. The county responsible for the care of the child in a foster home is responsible for administering the payment provided for by this section in adoptive placements arranged by the department or any licensed adoption agency and in cases in which a child receiving aid to families with dependent children in a foster home is adopted by his foster parents and the department or designated adoption agency joins in the petition for adoption.

The amount of financial assistance and the time period for which it may be given, shall be determined by the department or the agency but shall not exceed the age of majority of the child. Prior to the expiration of the extension period, if there is a continuing need, a parent may repetition the department or the designated licensed adoption agency for a new period of termination. (b) For the 1979–80 fiscal year, each county shall submit a plan and budget within 90 days of the effective date of this part. For the 1979–80 fiscal year, the amount specified in subdivision (a) of Section 16702 shall be allocated to each county within 30 days of the effective date of this part. 16701. (a) "County health services" means public health services, outpatient health services, and inpatient health services provided directly by the county or financed or purchased by the county through grants, contracts or agreements but shall not include services provided pursuant to Division 5 (commencing with Section 11750) of the Health and Safety Code.

16702. The net county costs of health services specified in each county budget shall be financed in each county with assistance from the County Health Services Fund in accordance with the following:

(a) An annual grant of three dollars ($3) per capita based upon population estimates of the Department of Finance as of July 1 of the previous fiscal year; and

(c) Commencing July 1, 1980, and each July 1 thereafter, the amounts specified in subdivisions (a) and (b) shall be adjusted to reflect any increases or decreases in the cost of living. The average of the separate indices of the cost of living for Los Angeles and San Francisco as published by the U. S. Bureau of Labor Statistics shall be used as the basis for determining the changes in the cost of living. The Department of Health Services shall compare the average index for the December preceding the July in which the cost-of-living adjustment is effective with the average index for the month of December of the previous year. The percentage increase or decrease in the average index shall then be multiplied by the amounts specified in subdivisions (a) and (b) as previously adjusted pursuant

to this subdivision.

16703. The sum of the amounts for all the counties set forth in Section 16702 is appropriated annually from the General Fund for deposit in the County Health Services Fund which is hereby created. The expenditure of funds from the County Health Services Fund shall be made by the State Department of Health Services without regard to fiscal year and shall be available for expenditure for one fiscal year subsequent to the fiscal year in which the original appropriation was made.

16704. Funds from the County Health Services Fund shall be allocated to the governing body of each county annually in accordance with the following procedures:

(a) The allocation of the amount determined in subdivision (a) of Section 16702 shall be made to each governing body upon submission of the plan and budget as required by Section 16700. Such funds shall be expended for county health services.

(b) The allocation of the amount up to the maximum determined in subdivision (b) of Section 16702 shall be made upon application by the governing body of each county and upon signing of an agreement between the governing body and the State Director of Health Services. In such agreement, the county shall agree to expend funds in accordance with the plan and budget submitted pursuant to Section 16700 and shall agree to net county costs for county health services of county funds in the same amount as the funds requested under this paragraph.

(c) The agreement shall provide for reports of expenditures and information and shall constitute a contractual obligation. The State Director of Health Services shall not have the authority to disapprove the county health services plan or to require the additional expenditure of county funds for health services beyond that required by this section and Section 16707.

16705. (a) A county shall be entitled to receive up to its maximum allocation under subdivision (b) of Section 16704 even if it proposes in its budget to spend less for county health services than the amount required to obtain the maximum allocation, only if all of the following conditions are met:

(1) There would be no detrimental impact on the public in the case of public health services and indigents in the case of inpatient and outpatient services; and

(2) There would be no impairment in the county's ability to carry out the service levels specified in its county health services plan; and

(3) The determination of whether the requirements provided by paragraphs (1) and (2) are met is made according to procedures specified in subdivision (b); and

(4) In no case shall the state pay more than 60 percent of the amount derived by subtracting subparagraph (B) from subparagraph (A) below:

(A) Total net county costs for health services in the proposed budget.

(B) The amount of the annual grant received by the county pursuant to subdivision (a) of Section 16704.

(b) The determination in paragraphs (1) and (2) of subdivision (a) shall be made in the following manner:

(1) Within 30 days of adoption of the county health services plan and budget, the county board of supervisors shall hold a public hearing to determine whether the amount of such reduction is detrimental to the health needs of the public in the case of public health services or detrimental to the health care needs of the indigent in the case of outpatient or inpatient health services and whether or not such reduction would impair the county's ability to carry out the service levels specified in its county health services plan. Notice of such hearing shall be published at least once in a newspaper of general circulation not less than 10 days before such hearing.

(2) The county board of supervisors shall make a finding based on the public hearing that such reductions are or are not detrimental and whether or not such reduction would impair the county's ability to carry out the service levels specified in its county health services plan. The county shall transmit immediately to the director a copy of the finding, together with the written evidence on which the finding was based.

(3) The State Director of Health Services shall make the final determination as to whether the proposed reductions in expenditures for county health services detrimentally affects the public in the case of public health services or detrimentally affects the indigents in the case of outpatient and inpatient services and whether or not such reduction would impair the county's ability to carry out the service levels specified in its county health services plan.

16706. Commencing in the 1980–81 fiscal year, the distribution of funds pursuant to this part shall be made prospectively on a quarterly basis in accordance with regulations of the department. The director shall make adjustments in succeeding fiscal years for failure to comply with the terms of the agreement.

16707. Savings that occur in the County Health Services Fund due to a lack of applications for funds or for failure of counties to expend funds as required to qualify for funding under this part may be allocated by the State Director of Health Services upon application by the governing body of any county in accord with special needs and priorities established by the director. Such funds shall only be expended if a county agrees to net expenditures of county funds in the same amounts.

16708. Expenditures subject to payment shall include expenditures for salaries of personnel, facilities and services provided through contract, operation, service and maintenance costs, depreciation of county facilities, and such other expenditures as may be approved by the director.

16709. In those counties where an existing independent district

provides public health services, the plan, budget, and agreement shall provide for continuation and funding of such services.

16710. In those counties where the governing body of a city has not transferred to the county enforcement authority of applicable public health statutes and regulations, such county shall, in the plan, budget, and agreement, provide for continuation and funding of such services.

16711. Submission of a plan and a county budget shall not relieve any county of its indigent health care obligation under Section 17000, nor shall it restrict the ability of the state or any interested person or persons to obtain any judicial relief to which they may be otherwise entitled.

16712. The State Department of Health Services shall adopt any regulations necessary to implement this part. The department may adopt such regulations on an emergency basis pursuant to Article 4 (commencing with Section 11420) of Chapter 4.5 of Division 3 of Title 2 of the Government Code, based on the finding by the department that such regulations are necessary to assure that counties receive funding for health services on a timely basis in order to promote and protect the health and safety of the people of California.

16713. For the purposes of carrying out the provisions of this part and subdivision (a) of Section 96 of the Revenue and Taxation Code, each county auditor shall determine an amount equal to that derived by the following steps:

SEC. 102. Notwithstanding any other provision of law for the 1979–80 fiscal year, any local agency required by law to adopt a budget shall adopt such budget no later than September 30, 1979.

Any other deadlines required for the development of the budget may be delayed 30 days.

SEC. 103. Sections 8, 18, 19, 20, 21, and 28.5 of this act shall be operative on July 1, 1980.

SEC. 105. (a) No appropriation is made by this act, nor is any obligation created thereby under Section 2231 or 2234 of the Revenue and Taxation Code, for the reimbursement of any local agency or school district for any costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act.

(b) Notwithstanding Section 905.2 of the Government Code, Section 2253 of the Revenue and Taxation Code, or any other provision of law, no local agency or school district shall have standing to make a claim to the State Board of Control for any costs incurred by it under this act pursuant to Part 3 (commencing with Section 900) of Division 3.6 of Title 1 of the Government Code or pursuant to Article 3.5 (commencing with Section 2250) of Chapter 3 of Part 4 of Division 1 of the Revenue and Taxation Code.

(d) The Legislature finds and declares that the complete waiver of the provisions of Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code is justified for the following reasons:

(2) This act is part of an overall legislative program implementing Article XIII A of the California Constitution, which includes billions of dollars of local assistance to local agencies.

(3) There are administrative savings as well as costs mandated by the provisions of this act.

SEC. 106. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The adoption of Article XIII A of the California Constitution has reduced the amount of property tax revenues available to local government and schools to meet operating and certain debt expenses, and may cause the curtailment or elimination of programs and services which are vital to the state's public health, safety, education, and welfare. In order that such services not be interrupted, it is necessary that this act take effect immediately.

CHAPTER 283

1285. (a) No patient shall be detained in a health facility solely for the nonpayment of a bill.

(b) For the purposes of this section, "detained" means the intentional confinement of a patient in a health facility without authorization of the patient or such other person as may be authorized to provide consent to such care on behalf of the patient.

(c) Any person who is detained in a health facility solely for the nonpayment of a bill shall have a cause of action against the health facility for such detention, which may be brought by such person or such person's parent, guardian, conservator, or other legal representative.

Such a cause of action may be brought against the health facility, proprietor, lessee or their agents, or against any such person, corporation, association, or directors thereof. Any person who has been detained in a health facility, solely for the nonpayment of a bill, who has brought an action for such detention, shall have a right to recover general and punitive damages, court costs, and reasonable attorneys fees actually incurred and such other relief as the court in its discretion may allow.

(d) Violation of subdivision (a) of this section is a misdemeanor punishable as prescribed in Section 1290.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 284

An act to amend Sections 11125, 11409.7, 11421, 11423, and 11424 of the Government Code, relating to state agencies, and declaring the urgency thereof, to take effect immediately.

The agenda need not include a list of any witnesses expected to appear at the meeting.

(b) Emergency meetings held for the purpose of adopting emergency regulations pursuant to Section 11421 require no prior notice or agenda, except that the agency shall make a reasonable effort to contact any persons requesting notice pursuant to this section or Section 11423, or both.

CHAPTER 286

An act to amend Sections 61765.3, 61765.4, 61765.5, and 61765.6 of, and to add Sections 61621.2, 61621.3, and 61621.4 to, the Government Code, relating to community services districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 24, 1979 Filed with Secretary of State July 24, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 61621.2 is added to the Government Code, to read:

61621.2. A district may elect to have any, or all, rates or charges,

or delinquencies, for street lighting purposes collected on the tax roll in any forthcoming fiscal year in the same manner, by the same persons, and at the time as, together with and not separately from, its general taxes in the manner prescribed in Sections 61765.2 to 61765.6, inclusive, of this code. In such event, the district shall cause a written report to be prepared and filed by the secretary, which report shall contain a description of each parcel of real property and the amount of the rates or charges, or delinquencies, for street lighting purposes for each parcel for the year.

SEC. 2. Section 61621.3 is added to the Government Code, to read:

61621.3. In lieu of the collection procedures for rates and charges, and delinquencies, for street lighting purposes provided in Sections 61621 and 61621.2, a district may record, in the office of the county recorder of the county in which such real property is located, a certificate specifying the amount, interest, penalty due, the name and last known address of the person liable therefor, and that such charges remain delinquent for a period of 60 days. From the time of recordation of the certificate, the amount required to be paid for rates and charges, and delinquencies, for street lighting purposes, together with interest and penalty thereon, constitutes a lien upon all real property of the delinquent property owner in the county. The lien created by recording the certificate shall have the force, effect, and priority of a judgment lien and shall continue for three years from the time of recording unless sooner released or otherwise discharged.

The district shall include a statement on its bill to each delinquent property owner of any lien for rates and charges, and delinquencies, for street lighting purposes created pursuant to this section.

SEC. 3. Section 61621.4 is added to the Government Code, to read:

61621.4. A district which elects to have any, or all, rates or charges or delinquencies for street lighting purposes collected on the tax roll pursuant to the provisions of Section 61621.2, or to establish a service charge lien pursuant to the provisions of Section 61621.3, shall reimburse the county for the expenses the county may reasonably incur as a result of the obligations created pursuant to such sections.

SEC. 4. Section 61765.3 of the Government Code is amended to read:

61765.3. At the time stated in the notice, the board shall hear and consider all objections or protests, if any, to the report referred to in the notice and may continue the hearing from time to time. Upon the conclusion of the hearing, the board may adopt, revise, change, reduce, or modify an assessment, or any charges or delinquencies for street lighting purposes, or overrule any or all objections. The board shall make its determination upon each assessment, or each charge or delinquency for street lighting purposes, as described in the report which determination shall be final. The board may make appropriate adjustments that may be necessary as a result of the equalization of

the assessment roll subsequent to the filing of the report.

SEC. 5. Section 61765.4 of the Government Code is amended to read:

61765.4. On or before the 10th day of August of each year following such final determination, the secretary shall file with the county auditor a copy of the report with a statement endorsed thereon over the secretary's signature that it has been finally adopted by the board and the auditor shall enter the amount of the assessments, or the charges for street lighting purposes, against the respective lots or parcels of land as they appear on the current assessment roll. If the property is not described on the roll, the auditor may enter the description thereon together with the amounts of the assessments, or the charges or delinquencies for street lighting purposes, as shown in the report.

SEC. 6. Section 61765.5 of the Government Code is amended to read:

61765.5. The amount of the assessments or the charges for street lighting purposes shall constitute a lien against the lot or parcel of land against which the assessment or the charge for street lighting purposes has been imposed as of noon on the first Monday in March immediately preceding the date of levy.

SEC. 7. Section 61765.6 of the Government Code is amended to read:

61765.6. The county tax collector shall include the amounts of the assessment, or the charges or delinquencies for street lighting purposes, on bills for taxes levied against the respective lots and parcels of land. Thereafter the amount of the assessments, or the charges or delinquencies for street lighting purposes, shall be collected at the same time and in the same manner and by the same persons as, together with and not separately from, the general taxes for the district, and shall be delinquent at the same time and thereafter be subject to the same delinquency penalties. All laws applicable to the levy, collection, and enforcement of general taxes of the district, including, but not limited to, those pertaining to the matters of delinquency, correction, cancellation, refund, and redemption, are applicable to such assessments, or such charges or delinquencies for street lighting purposes. Provided, however, that if for the first year such charge for street lighting purposes is levied, the real property to which such charge relates has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of such taxes appear on the roll, then the charge or delinquency for street lighting purposes assessed pursuant to this section shall not result in a lien against such property, but instead shall be transferred to the unsecured roll for collection.

SEC. 8. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because self-financing authority is provided in this act to

cover costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Recently, some community services districts have taken on the added responsibility of street lighting services for the purposes of consolidating entities and maintaining such services by imposing rates and charges. In order to economically enforce and obtain collection of such charges for services already being rendered, it is necessary that the provisions of this act go into effect immediately.

SEC. 3. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, there shall be no appropriation made by this act pursuant to these sections because self-financing authority is provided in this act to cover costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. It is recognized, however, that a local agency or school district may pursue any other remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

17299. (a) Notwithstanding any other provisions in this part to the contrary, in the case of a taxpayer who derives rental income from substandard housing located in this state, no deduction shall be allowed for interest, taxes, depreciation, or amortization paid or incurred in the taxable year with respect to such substandard housing, except as provided in subdivision (c).

(b) Substandard housing means housing which (1) has been determined by a state or local government regulatory agency to violate state law or local codes dealing with health, safety, or building; and (2) after written notice of violation by the regulatory agency, specifying the applicability of this section, has not been brought to a condition of compliance within six months after the date of the notice or the time prescribed in the notice, whichever period is later; or on which good faith efforts for compliance have not been commenced, as determined by the regulatory agency. The regulatory agency may, for good cause shown, extend the

compliance date prescribed in a violation notice.

(c) When the period specified in subdivision (b) has expired without compliance, the regulatory agency shall mail to the taxpayer a notice of noncompliance. The notice of noncompliance shall be in such form and shall include such information as may be prescribed by the Franchise Tax Board, shall be mailed by certified mail to the taxpayer at his last known address, and shall advise the taxpayer (1) of an intent to notify the Franchise Tax Board of such noncompliance within 10 days unless an appeal is filed, (2) where an appeal may be filed, and (3) a general description of the tax consequences of such filing with the Franchise Tax Board. Appeals shall be made to the same body and in the same manner as appeals from other actions of the regulatory agency. If no appeal is made within 10 days or after disposition of the appeal if the regulatory agency is sustained, the regulatory agency shall notify the Franchise Tax Board of such noncompliance. No deduction shall be allowed for the items provided in subdivision (a) from the date of the notice of noncompliance until the date the regulatory agency determines that the substandard housing has been brought to a condition of compliance. The regulatory agency shall mail to the Franchise Tax Board and the taxpayer a notice of compliance, which notice shall be in such form and include such information as may be prescribed by the Franchise Tax Board. In the event the period of noncompliance does not cover an entire taxable year, the deductions shall be denied at the rate of one-twelfth for each full month during the period of noncompliance.

If the property is owned by more than one owner or if recorded title is in the name of a fictitious owner, the notice requirements provided in subdivision (b) and this subdivision shall be satisfied for each owner if the notices are mailed to one owner or to the fictitious name owner at the address appearing on the latest available property tax bill. However, notices made pursuant to this subdivision shall not relieve the regulatory agency from furnishing taxpayer identification information required to implement this section to the Franchise Tax Board.

(d) For the purposes of this section, a notice of noncompliance shall not be mailed by the regulatory agency to the Franchise Tax Board if:

(1) The rental housing was rendered substandard solely by reason of earthquake, flood or other natural disaster except where such condition remains for more than three years after the disaster,

(2) The owner of the rental housing has secured financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard, and has commenced repairs or other work necessary to bring such housing into compliance or

(3) The owner of rental housing which is not within the meaning of housing accommodation as defined by subdivision (d) of Section 35805 of the Health and Safety Code has attempted to:

(A) Secure financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard; and

(B) Such financing is denied solely because such housing is located in a neighborhood or geographical area in which financial institutions do not provide financing for rehabilitation of any such housing.

(e) The provisions of this section do not apply to deductions from income derived from property rendered substandard solely by reason of a change in applicable state or local housing standards unless such violations cause substantial danger to the occupants of such property, as determined by the regulatory agency which has served notice of violation pursuant to subdivision (b).

(f) The owner of rental housing found to be in noncompliance shall, upon total or partial divestiture of interest in such property, immediately notify the regulatory agency of the name and address of the person or persons to whom the property has been sold or otherwise transferred and the date of the sale or transference.

(g) By July 1st of each year, the regulatory agency shall report to the appropriate legislative body of its jurisdiction the following information, for the preceding calendar year, regarding its activities to secure code enforcement, which shall be public information:

(10) The number of cases where compliance is achieved after a notice of noncompliance has been mailed to the Franchise Tax Board; and

(11) The number of instances of disallowance of tax deductions by the Franchise Tax Board resulting from referrals made by the regulatory agency. This information may be filed in a supplemental report in succeeding years as it becomes available.

Appeals shall be made to the same body and in the same manner as appeals from other actions of the regulatory agency. If no appeal is made within 10 days or after disposition of the appeal if the regulatory agency is sustained, the regulatory agency shall notify the Franchise Tax Board of such noncompliance. No deduction shall be allowed for the items provided in subdivision (a) from the date of the notice of noncompliance until the date the regulatory agency determines that the substandard housing has been brought to a condition of compliance. The regulatory agency shall mail to the Franchise Tax Board and the taxpayer a notice of compliance, which notice shall be in such form and include such information as may be prescribed by the Franchise Tax Board. In the event the period of noncompliance does not cover an entire income year, the deductions shall be denied at the rate of one-twelfth for each full month during the period of noncompliance.

If the property is owned by more than one owner or the recorded title is in the name of a fictitious owner, the notice requirements provided in subdivision (b) and this subdivision shall be satisfied for each owner if the notices are mailed to one owner or to the fictitious name owner at the address appearing on the latest available property tax bill. However, notices made pursuant to this subdivision shall not relieve the regulatory agency from furnishing taxpayer identification information required to implement this section to the Franchise Tax Board.

(d) For the purposes of this section, a notice of noncompliance shall not be mailed by the regulatory agency to the Franchise Tax Board if:

(1) The rental housing was rendered substandard solely by reason of earthquake, flood or other natural disaster except where such condition remains for more than three years after the disaster,

(2) The owner of the rental housing has secured financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard, and has commenced repairs or other work necessary to bring such housing into compliance, or

(3) The owner of rental housing which is not within the meaning of housing accommodation, as defined in subdivision (d) of Section 35805 of the Health and Safety Code, has attempted to:

(A) Secure financing to bring such housing into compliance with those laws or codes which have been violated, causing such housing to be classified as substandard; and

(B) Such financing is denied solely because such housing is

located in a neighborhood or geographical area in which financial institutions do not provide financing for rehabilitation of any such housing.

(e) The provisions of this section do not apply to deductions from income derived from property rendered substandard solely by reason of a change in applicable state or local housing standards unless such violations cause substantial danger to the occupants of such property, as determined by the regulatory agency which has served notice of violation pursuant to subdivision (b).

(f) The owner of rental housing found to be in noncompliance shall, upon total or partial divestiture of interest in such property, immediately notify the regulatory agency of the name and address of the person or persons to whom the property has been sold or otherwise transferred and the date of the sale or transference.

(g) By July 1st of each year, the regulatory agency shall report to the appropriate legislative body of its jurisdiction the following information, for the preceding calendar year, regarding its activities to secure code enforcement, which shall be public information:

(1) The number of written notices of violation issued for substandard dwellings under subdivision (a);

(2) The number of violations complied with within the period prescribed in subdivision (a),

(3) The number of notices of noncompliance issued pursuant to subdivision (c);

(4) The number of appeals from those notices pursuant to subdivision (c);

(5) The number of successful appeals by owners;

(6) The number of notices of noncompliance mailed to the Franchise Tax Board pursuant to subdivision (c);

(7) The number of cases in which a notice of noncompliance was not sent pursuant to the provisions of subdivision (d);

(8) The number of extensions for compliance granted pursuant to subdivision (b) and the mean average length of such extensions;

(9) The mean average length of time from the issuance of a notice of violation to the mailing of a notice of noncompliance to the Franchise Tax Board where such notice is actually sent to the Franchise Tax Board;

(10) The number of cases where compliance is achieved after a notice of noncompliance has been mailed to the Franchise Tax Board; and

(11) The number of instances of disallowance of tax deductions by the Franchise Tax Board resulting from referrals made by the regulatory agency. This information may be filed in a supplemental report in succeeding years as it becomes available.

CHAPTER 293

An act to amend Sections 54.1 and 54.2 of the Civil Code, and to add Section 17253.5 to the Revenue and Taxation Code, relating to handicapped persons.

[Approved by Governor July 24, 1979. Filed with Secretary of State July 24, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 54.1 of the Civil Code is amended to read:

54.1. (a) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to accommodations, advantages, facilities, and privileges of all common carriers, airplanes, motor vehicles, railroad trains, motorbuses, streetcars, boats or any other public conveyances or modes of transportation, telephone facilities, hotels, lodging places, places of public accommodation, amusement or resort, and other places to which the general public is invited, subject only to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

As used in this section, "telephone facilities" means tariff items and other equipment and services which have been approved by the Public Utilities Commission to be used by physically disabled persons in a manner feasible and compatible with the existing telephone network provided by the telephone companies.

(b) (1) Blind persons, visually handicapped persons, deaf persons, and other physically disabled persons shall be entitled to full and equal access, as other members of the general public, to all housing accommodations offered for rent, lease, or compensation in this state, subject to the conditions and limitations established by law, or state or federal regulation, and applicable alike to all persons.

(2) "Housing accommodations" means any real property, or portion thereof, which is used or occupied, or is intended, arranged, or designed to be used or occupied, as the home, residence, or sleeping place of one or more human beings, but shall not include any accommodations included within subdivision (a) or any single-family residence the occupants of which rent, lease, or furnish for compensation not more than one room therein.

(3) Nothing in this subdivision shall require any person renting, leasing or providing for compensation real property to modify his property in any way or provide a higher degree of care for a blind person, visually handicapped person, deaf person, or other physically disabled person than for a person who is not physically disabled.

(4) Except as provided in paragraph (5) of this subdivision, nothing in this part shall require any person renting, leasing, or providing for compensation real property, if such person refuses to accept tenants who have dogs, to accept as a tenant a physically disabled person who has a dog.

(5) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person or visually handicapped person on

the basis that such person uses the services of a guide dog, or to a deaf person on the basis that such person uses the services of a signal dog, or to refuse to permit such a blind person or visually handicapped person to keep a guide dog, or a deaf person to keep a signal dog, on the premises.

Except in the normal performance of duty as a mobility or signal aid, nothing contained in this paragraph shall be construed to prevent the owner of a housing accommodation from establishing such terms in a lease or rental agreement which reasonably regulates the presence of guide dogs or signal dogs on the premises of a housing accommodation, nor shall this paragraph be construed to relieve a tenant from any liability otherwise imposed by law for real and personal property damages caused by such a dog when proof of same exists.

As used in this subdivision, "guide dog" means any guide dog or seeing-eye dog which was trained by a person licensed under the provisions of Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code

As used in this subdivision "signal dog" means any dog trained to alert a deaf person, or person whose hearing is impaired, to intruders or sounds.

(6) It shall be deemed a denial of equal access to housing accommodations within the meaning of this subdivision for any person, firm, or corporation to refuse to lease or rent housing accommodations to a blind person, visually handicapped person, deaf person, or other physically disabled person on the basis that such physically disabled person is partially or wholly dependent upon the income of his spouse, if the spouse is a party to the lease or rental agreement. Nothing in this subdivision shall, however, prohibit a lessor or landlord from considering the aggregate financial status of a physically disabled person and his spouse

(c) Persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code, may take dogs, for the purpose of training them as guide dogs, in any of the places specified in paragraphs (a) and (b), above. Such persons shall carry and display, upon request, identification in such form as shall be prescribed by the State Board of Guide Dogs for the Blind

SEC. 2. Section 54.2 of the Civil Code is amended to read

54.2. (a) Every totally or partially blind person, or deaf person, or person whose hearing is impaired, shall have the right to be accompanied by a guide dog or signal dog, especially trained for the purpose, in any of the places specified in Section 54.1 without being required to pay an extra charge for the guide dog or signal dog, provided that he shall be liable for any damage done to the premises or facilities by such dog

(b) Persons licensed to train guide dogs for the blind pursuant to Chapter 9.5 (commencing with Section 7200) of Division 3 of the Business and Professions Code, may take dogs, for the purpose of

training them as guide dogs, in any of the places specified in Section 54.1 without being required to pay an extra charge for the guide dog. Such a person shall, however, be liable for any damage done to the premises or facilities by such dog.

Such persons shall carry and display, upon request, identification in such form as shall be prescribed by the State Board of Guide Dogs for the Blind.

(c) As used in this section the terms "guide dog" and "signal dog", shall have the meanings specified in Section 54.1.

SEC. 3. Section 17253.5 is added to the Revenue and Taxation Code, to read:

17253.5. Notwithstanding any other provision of law, expenses incurred by a visually handicapped person or deaf person in connection with the care and maintenance of a guide dog or signal dog, including, but not limited to, veterinary fees, shall be deductible pursuant to Section 17253.

As used in this section the terms "guide dog" and "signal dog" shall have the meanings specified in Section 54.1 of the Civil Code.

CHAPTER 294

An act to amend Sections 6102, 6103, 6105, 6106, 6106.1, 6107, and 6111 of, and to repeal Section 9111 of, the Commercial Code, relating to bulk transfers, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 24, 1979 Filed with Secretary of State July 24, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 6102 of the Commercial Code is amended to read:

6102. (1) A "bulk transfer" is any transfer in bulk and not in the ordinary course of the transferor's business of a substantial part of the materials, supplies, merchandise, or other inventory (Section 9109) of an enterprise subject to this division.

(2) A transfer of a substantial part of the equipment (Section 9109) of such an enterprise is also a bulk transfer.

(3) The enterprises subject to this division are all those whose principal business is the sale of merchandise, including those who manufacture what they sell, or that of a baker, cafe or restaurant owner, garage owner, or cleaner and dyer.

(4) Except as limited by the following section all bulk transfers of goods located within this state are subject to this division.

(5) The word "transfer" as used in this division does not include the creation or modification of a security interest.

SEC. 2. Section 6103 of the Commercial Code is amended to read:

6103. The following transfers are not subject to this division:

(1) A transfer subject to subdivision (h) of Section 3440 of the Civil Code;

(2) Assignments for the benefit of all the creditors of the transferor, and subsequent transfers by the assignee thereunder;

(3) Transfers of property subject to a lien or other security interest in settlement or realization of such lien or other security interest;

(4) Sales by executors, administrators, receivers, trustees in bankruptcy, or any public officer under judicial process;

(5) Sales made in the course of judicial or administrative proceedings for the dissolution or reorganization of a corporation and of which notice is sent to the creditors of the corporation pursuant to order of the court or administrative agency;

(6) Transfers of property which is exempt from execution;

(7) The transfer of goods in a warehouse where a warehouse receipt has been issued therefor by a warehouseman (Section 7102) and a copy of such receipt is kept at the principal place of business of the warehouseman and at the warehouse in which said goods are stored;

(8) A transfer which is subject to and complies with Article 5 (commencing with Section 24070) of Chapter 6 of Division 9 of the Business and Professions Code, except that such transfer shall be subject to subdivision (1) of Section 6105 insofar as it refers to Section 6107, Section 6107 other than paragraph (e) of subdivision (1) thereof, and subdivision (a) of Section 6111.

SEC. 3. Section 6105 of the Commercial Code is amended to read:

6105. (1) Any bulk transfer subject to this division except one made by auction sale (Section 6108) is fraudulent and void against any creditor of the transferor unless the transferee gives notice of the transfer in the manner and within the time hereafter provided (subdivision (6) of Section 6106, where applicable, and Section 6107).

(2) The term "noticed sale date" as used in this division means the date set forth in the notice provided for in subdivision (1) of Section 6107 on or after which the bulk transfer may be consummated.

SEC. 4. Section 6106 of the Commercial Code is amended to read:

6106. (1) This section applies only to a bulk transfer where the consideration is less than one million dollars ($1,000,000) and is substantially all cash or an obligation of the transferee to pay cash in the future to the transferor or a combination thereof.

(2) Upon every bulk transfer subject to this section except one made by sale at auction it is the duty of the transferee (or, if the transaction is handled through an escrow, the escrow agent) to apply the consideration in accordance with the provisions of this section so far as necessary to pay those debts of the transferor for which claims are due and payable on or before the noticed sale date and are filed in writing on or prior to the date specified as the last date to file claims with the person designated in the notice to receive claims. This duty of the transferee or escrow agent runs to each creditor

timely filing such a claim.

(3) If the transferor disputes whether a claim is due and payable on the noticed sale date or the amount of any claim, the transferee or escrow agent shall withhold from distribution the amount thereof (or the pro rata amount under subdivision (2) of Section 6106.1) and shall send a written notice to the claimant filing the claim on or before two business days after the distribution that the amount will be paid to the transferor (or to the other claimants in accordance with subdivision (2) of Section 6106.1, as the case may be) unless attached within 25 days from the mailing of the notice. Any portion of the amount withheld which is not attached by the claimant within such time shall be paid by the transferee or escrow agent to the transferor (or to the other claimants in accordance with subdivision (2) of Section 6106.1 if they have not been paid in full). An attachment of any amount so withheld shall be limited in its effect to the amount withheld for the attaching claimant and shall give the attaching claimant no greater priority or rights with respect to his claim than the claimant would have had if the claim had not been disputed. For purposes of this subdivision, a claimant may obtain the issuance of an attachment for a claim which is less than five hundred dollars ($500) and which otherwise meets the requirements of Section 483 010 of the Code of Civil Procedure or which is a secured claim or lien of the type described in Section 483.010 of the Code of Civil Procedure. The remedy in this subdivision shall be in addition to any other remedies the claimant may have, including any right to attach the property intended to be transferred or any other property.

(4) If the cash consideration payable is not sufficient to pay all of the claims filed in full, where no escrow has been established pursuant to Section 6106.1 the transferee shall follow the procedures specified in subdivisions (1) through (3) of Section 6106.1.

(5) The transferee or escrow agent, as the case may be, shall within 45 days after the transferee takes legal title to any of the goods either pay to the extent of the cash consideration the claims filed and not disputed (or the applicable portion thereof to the extent of the cash consideration under subdivision (2) of Section 6106.1) or institute an action in interpleader pursuant to subdivision (b) of Section 386 of the Code of Civil Procedure and deposit the consideration with the clerk of the court pursuant to subdivision (c) of that section. Such action shall be brought in the appropriate court for the county where the transferor had its principal place of business in this state. Sections 386.1 and 386.6 of the Code of Civil Procedure shall apply in such action

(6) The notice shall state, in addition to the matters required by Section 6107, the name and address of the person with whom claims may be filed and the last date for filing claims, which shall be the business day before the noticed sale date Claims shall be deemed timely filed only if actually received by the person designated in the notice to receive claims before the close of business on the day

specified in the notice as the last date for filing claims.

(7) Nothing contained in this section shall release any security interest or other lien on the property which is the subject of the bulk transfer except upon the voluntary release thereof by the secured party or lienholder.

SEC. 5. Section 6106.1 of the Commercial Code is amended to read:

6106.1. In any case where the notice of a bulk transfer subject to Section 6106 states that claims may be filed with a person who is an escrow agent, the intended transferee shall deposit with the escrow agent the full amount of the purchase price or consideration. If at the time the transfer is otherwise ready to be consummated the amount of cash deposited or agreed to be deposited at or prior to consummation in the escrow is insufficient to pay in full all of the claims filed with the escrow agent, the escrow agent shall:

(1) (a) Delay the distribution of the consideration and the passing of legal title for a period of not less than 25 days nor more than 30 days from the date the notice required in paragraph (b) of this subdivision is mailed; and

(b) Within five business days after the time the transfer would otherwise have been consummated, send a written notice to each claimant who has filed a claim stating the total consideration deposited or agreed to be deposited in the escrow, the name of each claimant who filed a claim against the escrow and the amount of each claim, the amount proposed to be paid to each claimant, the new date scheduled for the passing of legal title pursuant to paragraph (a) of this subdivision and the date on or before which distribution will be made to claimants which shall not be more than five days after the new date specified for the passing of legal title.

(c) If no written objection to the distribution described in the notice required by paragraph (b) of this subdivision is received by the transferee or escrow agent, as the case may be, prior to the new date specified in such notice for the passing of legal title, the transferee or escrow agent, as the case may be, shall not be liable to any person to whom the notice required by paragraph (b) was sent for any good faith error which may have been committed in allocating and distributing the consideration as stated in such notice.

(2) Distribute the consideration in the following order of priorities:

(a) All obligations owing to the United States, to the extent given priority by federal law

(b) Secured claims, including statutory and judicial liens, to the extent of the consideration fairly attributable to the value of the properties securing such claims and in accordance with the priorities provided by law; provided, however, that a secured creditor shall participate in the distribution pursuant to this subdivision only if a release of lien is deposited by such secured creditor conditioned only upon receiving an amount equal to such distribution

(c) Escrow and professional charges and broker's fees attributable

directly to the sale.

(d) Wage claims given priority by Section 1205 of the Code of Civil Procedure.

(e) All other tax claims.

(f) All other unsecured claims pro rata, including any deficiency claims of partially secured creditors.

(3) To the extent that an obligation of the transferee to pay cash in the future is a part of the consideration and the cash consideration is not sufficient to pay all claims filed in full, apply all principal and interest received on such obligation to the payment of claims in accordance with subdivision (2) until they are paid in full before making any payment to the transferor. In such case, the notice pursuant to subdivision (1) shall state the amount, terms and due dates of the obligation and the portion of the claims expected to be paid thereby.

No funds shall be drawn from the escrow, prior to the actual closing and completion of the escrow, for the payment, in whole or in part, of any commission, fee or other consideration as compensation for a service which is contingent upon the performance of any act, condition, or instruction set forth in an escrow.

SEC. 6. Section 6107 of the Commercial Code is amended to read:

6107. (1) The notice to creditors (Section 6105) shall state:

(a) That a bulk transfer is about to be made;

(b) The names and business addresses of the transferor and, except in the case of a sale at auction, the transferee, and all other business names and addresses used by the transferor within three years last past so far as known to the transferee;

(c) The location and general description of the property to be transferred;

(d) The place, and the date on or after which, the bulk transfer is to be consummated; and

(e) Whether or not the bulk transfer is subject to Section 6106, and if so subject, the matters required by subdivision (6) of Section 6106.

(2) The notice shall be

(a) Recorded in the office of the county recorder in the county or counties in which the property to be transferred is located at least 12 business days before the bulk transfer is to be consummated or the sale by auction is to be commenced; and

(b) Published at least once in a newspaper of general circulation published (i) in the judicial district in which the property is located and (ii) in the judicial district, if different, in which the chief executive office of the transferor, or, if the chief executive office is not in California, the principal business office in California, is located, if in either case there is one, and if there is none, then in a newspaper of general circulation in the county embracing such judicial district, at least 12 business days before the bulk transfer is to be consummated or the sale by auction is to be commenced; and

(c) Delivered or sent by registered or certified mail at least 12

business days before the bulk transfer is to be consummated or the sale by auction is to be commenced to the county tax collector in the county or counties in which the property to be transferred is located.

If the property to be transferred is located in more than one judicial district, the publication required by paragraph (b) of subdivision (2) shall be in a newspaper published in the judicial district where a greater portion of the property is located, on the date the notice is published, than in any other judicial district, or in the county embracing such judicial district, as the case may be. As used in this section, "business day" means any day other than a Saturday, Sunday or a day observed as a holiday by the California state government.

SEC. 7. Section 6111 of the Commercial Code is amended to read:

6111. (a) No action under this division shall be brought nor levy made more than one year after the date on which the transferee took possession of the goods unless the transfer has been concealed. If the transfer has been concealed, an action may be brought or levy made within one year after its discovery by the creditor bringing such action or making such levy or after it should have been discovered by such creditor in the exercise of reasonable diligence, whichever first occurs.

(b) If a bulk transfer is subject to and complies with Section 6106, no levy shall be made by a creditor of the transferor on the proceeds of sale in the hands of the transferee or escrow agent after the transferee takes legal title to the goods, except to the extent of that creditor's share of the proceeds pursuant to Section 6106 and 6106.1.

SEC. 8. Section 9111 of the Commercial Code is repealed.

SEC. 9. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect any other provision or application of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 10. Section 8 of Chapter 490 of the Statutes of 1978 shall continue to govern the operative date of the amendment made by Section 7 of that act and reflected in Section 7 of this act.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

(5) Uniformed security guards, regularly employed and compensated as such by persons engaged in any lawful business, while actually engaged in protecting and preserving the property of their employers and uniformed alarm agents employed by an alarm company operator while on duty. Nothing in this paragraph shall be construed to prohibit cities and counties from enacting ordinances requiring alarm agents to register their name.

(f) As used in this section "prohibited area" means any place where it is unlawful to discharge a weapon.

(g) A firearm shall be deemed to be loaded for the purposes of this section when there is an unexpended cartridge or shell, consisting of a case which holds a charge of powder and a bullet or shot, in, or

(j) Nothing in this section is intended to preclude the carrying of any loaded firearm, under circumstances where it would otherwise be lawful, by a person who reasonably believes that the person or property of himself or another is in immediate danger and that the carrying of such weapon is necessary for the preservation of such person or property.

(k) Nothing in this section is intended to preclude the carrying of a loaded firearm by any person while engaged in the act of making or attempting to make a lawful arrest.

(*l*) Nothing in this section shall prevent any person from having a loaded weapon, if it is otherwise lawful, at his place of residence, including any temporary residence or campsite.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

A recent interpretation of the provisions of the Business and Professions Code would require, as of July 1, 1979, armored vehicle guards of contract carriers operating pursuant to California Highway Patrol and Public Utilities Commission authority to fulfill specified training requirements pursuant to Chapter 1426 of the Statutes of 1976 due to an inadvertent chaptering out of an express exemption of such personnel contained in Chapter 1426. To avoid a costly and unnecessary impact on such carriers, it is necessary that this act go into effect immediately.

CHAPTER 297

An act to amend Section 66452.6 of the Government Code, relating to subdivisions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 66452.6 of the Government Code is amended to read:

66452.6. (a) An approved or conditionally approved tentative map shall expire 12 months after its approval or conditional approval, or after such additional period of time as may be prescribed by local ordinance, not to exceed an additional 18 months.

(b) The period of time specified in subdivision (a) shall not include any period of time during which a water or sewer moratorium, imposed after approval of the tentative map, is in existence, provided however, that the length of such moratorium does not exceed five years.

Once such a moratorium is terminated, the map shall be valid for the same period of time as was left to run on the map at the time that the moratorium was imposed; provided, however, that if such remaining time is less than 120 days, the map shall be valid for 120 days following the termination of the moratorium.

This subdivision shall apply to a tentative map approved or conditionally approved prior to January 1, 1978, including any map which has expired during a moratorium which was imposed on or after April 1, 1977.

(c) The period of time specified in subdivision (a) shall not include any period of time during which a lawsuit has been filed and is pending in a court of competent jurisdiction involving the approval or conditional approval of a tentative map if a stay of such time period is approved by the local agency pursuant to this section. Within 10 days of the service of the initial petition or complaint in such lawsuit upon the local agency, the subdivider may apply to the local agency for a stay pursuant to the local agency's adopted procedures. Within 40 days after receiving such application, the local agency shall either stay the time period for up to five years or deny the requested stay. The local agency may, by ordinance, establish procedures for reviewing such requests, including, but not limited to, notice and hearing requirements, appeal procedures and other administrative requirements.

This subdivision may be applied to tentative maps approved or conditionally approved prior to the effective date of the act amending this section to add this subdivision, if the subdivider makes application for a stay to the local agency within 60 days after the

effective date of such act.

(d) The expiration of the approved or conditionally approved tentative map shall terminate all proceedings and no final map or parcel map of all or any portion of the real property included within such tentative map shall be filed without first processing a new tentative map.

(e) Upon application of the subdivider filed prior to the expiration of the approved or conditionally approved tentative map, the time at which such map expires may be extended by the legislative body or by an advisory agency authorized to approve or conditionally approve tentative maps for a period or periods not exceeding a total of two years. If the advisory agency denies a subdivider's application for extension, the subdivider may appeal to the legislative body within 15 days after the advisory agency has denied the extension.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order that the changes made by this act apply to approved or conditionally approved tentative subdivision maps which would otherwise expire prior to January 1, 1980, it is necessary that this act take effect immediately.

CHAPTER 298

CHAPTER 299

An act to add Sections 657 and 35780.5 to the Vehicle Code, relating to vehicles.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979.]

(b) This section shall have no application to highways which are part of the national system of interstate and defense highways when such application would prevent this state receiving any federal funds for highway purposes, and in such event the provisions of law applicable to the maximum permissible width of any such load in effect on December 31, 1979, shall remain applicable to such load.

CHAPTER 300

An act to amend Section 11480 of, and to add and repeal Article 6 (commencing with Section 11260) to Chapter 5 of Division 10 of, the Health and Safety Code, relating to drugs, and making an appropriation therefor.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Article 6 (commencing with Section 11260) is added to Chapter 5 of Division 10 of the Health and Safety Code, to read:

Article 6. Cannabis Therapeutic Research Program

11260. The Legislature finds and declares that the potential medicinal value of cannabis sativa has received insufficient study due to a lack of financial incentives for the undertaking of appropriate research by private drug manufacturing concerns. Individual physicians cannot feasibly utilize cannabis in clinical trials because of governmental controls which involve expensive, time consuming approval and monitoring procedures.

The Legislature further finds and declares that limited studies at the University of California at Los Angeles and elsewhere indicate that cannabis and certain of its derivatives possess valuable and in some cases unique therapeutic properties, including the ability to relieve nausea and vomiting which routinely accompany chemotherapy and irradiation used to treat cancer patients. Cannabis has been shown to be potentially effective in reducing intraocular pressure in glaucoma patients who do not respond well to conventional medications.

The Legislature further finds and declares that, in enabling individual physicians and their patients to participate in a state sponsored program for the investigational use of cannabis and its derivatives, qualified physicians and surgeons throughout the state will be able to study the benefits of the drug in a controlled clinical setting and additional knowledge will be gained with respect to dosage and effects. The Research Advisory Panel shall endeavor to include in the program onocologists in diverse geographic locations in California.

It is the intent of the Legislature in enacting this article to encourage research into the therapeutic applications of cannabis and its derivatives in cancer patients. This would allow qualified onocologists approved by the Research Advisory Panel to provide the drug on a compassionate basis to seriously ill persons not responding to conventional treatment who would otherwise have no lawful access to it. It is further the intent of the Legislature to facilitate clinical trials of cannabis and its derivatives, particularly with respect to persons suffering from cancer, and who would be benefitted by use of the drug.

This article is limited to clinical trials and research into therapeutic applications of cannabis and should not be construed as either encouraging or sanctioning the social use of marijuana.

11261. The Research Advisory Panel specified in Section 11480

shall establish a pilot program for research into the medical uses of cannabis sativa and its derivatives. Under the program, the Research Advisory Panel shall act as a sponsor of statewide investigational studies utilizing as drug investigators individual physicians and surgeons who elect to participate in accordance with the protocols developed by the Research Advisory Panel. Participating physicians and surgeons shall receive no compensation from the Research Advisory Panel, but may charge subjects for medical services provided in connection with the program.

The Research Advisory Panel shall endeavor to include in the program clinical trials with respect to patients suffering from cancer. If the Research Advisory Panel deems it appropriate, clinical trials for glaucoma patients may also be included in the pilot project in a later phase of the project.

Participants in the program are exempt from state prosecution for possession and distribution of marijuana, with respect to use of marijuana authorized by this article.

11262. The Research Advisory Panel shall adopt guidelines for review of applications for participation in the pilot program authorized by this article. The Research Advisory Panel shall develop one or more protocols governing investigational uses of cannabis or its derivatives included in the pilot program. Additionally, all investigational use of cannabis or its derivatives pursuant to the program shall be approved as specified in Section 26678 or 26679, and shall be subject, as applicable, to the provisions of Chapter 1.3 (commencing with Section 24170) of Division 20 and Article 4 (commencing with Section 26668) of Division 21 of this code and Title 2.1 (commencing with Section 3500) of Part 3 of the Penal Code.

The Research Advisory Panel shall approve participating physicians and surgeons for conduct of the actual clinical trials. The Research Advisory Panel is responsible for monitoring such clinical trials, overseeing the distribution of cannabis or its derivatives to participating physicians and surgeons, and maintaining records for purposes of the program based upon data supplied by participating physicians and surgeons.

11263. Any physician and surgeon may apply to the Research Advisory Panel to conduct clinical trials of cannabis or any of its derivatives. The application shall follow the guidelines of the Research Advisory Panel. No patient shall be included in an application, unless the patient's consent is first obtained. The applications, their contents, and related correspondence and records shall be confidential and are not subject to disclosure under Chapter 3.5 (commencing with Section 6250) of Division 7 of Title 1 of the Government Code.

Each application shall be reviewed by the Research Advisory Panel in executive session, which may in its discretion require an appearance by the applicant or copies of pertinent medical records of proposed patient subjects.

The provisions of Chapter 4.5 (commencing with Section 11371) and Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code are not applicable to the pilot program conducted pursuant to this article.

11264. The Research Advisory Panel may contract for pharmaceutical formulation, testing for purity and potency, and distribution of cannabis and cannabinoids to be supplied to physicians and surgeons participating in the program. If possible, all such substances shall be obtained from the National Institute on Drug Abuse or any other federal agency authorized to supply cannabis for authorized research. However, in the event such supplies are unavailable or insufficient, the Research Advisory Panel may utilize cannabis and cannabinoids obtainable from other sources, including marijuana seized and forfeited to the state pursuant to Chapter 8 (commencing with Section 11470) of this division.

Any reasonable costs incurred by the Research Advisory Panel in obtaining or testing cannabis or cannabinoids shall be charged to participating physicians and surgeons, who may seek reimbursement from their research subjects.

11265. Each participating physician and surgeon shall account to the Research Advisory Panel for cannabis or cannabinoids supplied to the physician and surgeon pursuant to this article. The Research Advisory Panel shall provide forms for this purpose. Participating physicians and surgeons shall maintain such other records as the Research Advisory Panel may require for proper administration of this article. If the Research Advisory Panel determines that a participating physician and surgeon has not proceeded in the manner specified in the applicable protocol or has otherwise misused cannabis or cannabinoids supplied pursuant to this article, the Research Advisory Panel shall immediately terminate participation of the physician and surgeon in the pilot program.

11266. The pilot program shall be terminated, unless extended by the Legislature, four years after the date cannabis or its derivatives are first distributed to patients under the program or December 31, 1984, whichever first occurs. The Research Advisory Panel shall annually report to the Legislature on the status and results of the pilot program, with a final report to be submitted on or before January 30, 1985. The reports shall specify the number of participating physicians and patients, the amount of cannabis and its derivatives used in the program, the cost involved, and a summary of findings made concerning therapeutic uses of cannabis and its derivatives. The reports shall also contain recommendations concerning continuance of the pilot program.

11270. This article shall remain in effect only until June 30, 1985, and as of such date is repealed, unless a later enacted statute, which is chaptered before June 30, 1985, deletes or extends such date.

SEC. 2. Section 11480 of the Health and Safety Code is amended to read:

11480. The Legislature finds that there is a need to encourage further research into the nature and effects of marijuana and hallucinogenic drugs and to coordinate research efforts on such subjects.

There is a Research Advisory Panel which consists of a representative of the State Department of Health, a representative of the California State Board of Pharmacy, a representative of the Attorney General, a representative of the University of California who shall be a pharmacologist or physician or a person holding a doctorate degree in the health sciences, a representative of a private university in this state who shall be a pharmacologist or physician or a person holding a doctorate degree in the health sciences, a representative of a statewide professional medical society in this state who shall be engaged in the private practice of medicine and shall be experienced in treating controlled substance dependency, and a representative appointed by and serving at the pleasure of the Governor, who shall hold a doctorate degree in the health sciences and shall have experience in drug abuse or controlled substance research. The Governor shall annually designate the private university and the professional medical society represented on the panel. Members of the panel shall be appointed by the heads of the entities to be represented, and they shall serve at the pleasure of the appointing power.

The Research Advisory Panel shall appoint two special members to the Research Advisory Panel, who shall serve at the pleasure of the Research Advisory Panel only during the period Article 6 (commencing with Section 11260) of Chapter 5 of this division remains effective. Such additional members shall be physicians and surgeons, and who shall be board certified in onocology, ophthalmology, or psychiatry.

The panel shall annually select a chairman from among its members.

The panel may hold hearings on, and in other ways study, research projects concerning marijuana or hallucinogenic drugs in this state. Members of the panel shall serve without compensation, but shall be reimbursed for any actual and necessary expenses incurred in connection with the performance of their duties.

The panel may approve research projects, which have been registered by the Attorney General, into the nature and effects of marijuana or hallucinogenic drugs, and shall inform the Attorney General of the head of such approved research projects which are entitled to receive quantities of marijuana pursuant to Section 11478.

The panel may withdraw approval of a research project at any time, and when approval is withdrawn shall notify the head of the research project to return any quantities of marijuana to the Attorney General.

The panel shall report annually to the Legislature and the Governor those research projects approved by the panel, the nature of each research project, and, where available, the conclusions of the

research project.

SEC. 3. The sum of one hundred thousand dollars ($100,000) is hereby appropriated from the General Fund to the Research Advisory Panel for expenditure for the purposes of Article 6 (commencing with Section 11260) of Chapter 5 of Division 10 of the Health and Safety Code during the initial 12 months of development and conduct of the pilot research program authorized by such provisions.

CHAPTER 301

An act to add and repeal Section 16024.5 of the Education Code, and to amend Section 4 of Chapter 206 of the Statutes of 1978, Section 2 of Chapter 8 of the Statutes of 1977, as amended by Chapter 204 of the Statutes of 1978, relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 16024.5 is added to the Education Code, to read:

16024.5. Notwithstanding Section 16024, any conditional apportionment made to a district subsequent to July 1, 1978, which became void as a result of failure to sell bonds in amounts prescribed by the board in a nine-month period, shall become reinstated and final without further action by the board if bonds in the amounts originally prescribed by the board are purchased by the Farmers Home Administration and placed on deposit in the state school building fund of the district.

This section shall remain in effect only until February 1, 1980, and as of such date is repealed, unless a later enacted statute, which is chaptered before February 1, 1980, deletes or extends such date.

SEC. 2. The San Juan Ridge Union Elementary School District recently built and occupied a new elementary school to replace other schools which did not meet Field Act standards. The new school served approximately 200 elementary school pupils of the district. In February of 1977 the new school was completely destroyed by fire, leaving pupils of the district with no school to attend for the remainder of the 1976–77 school year and for the 1977–78 school year.

Chapter 8 of the Statutes of 1977 and Chapter 204 of the Statutes of 1978 authorize the San Juan Ridge Union Elementary School District to house pupils in specified schools in the district during the construction of replacement facilities and exempt such schools, until June 30, 1979, from Field Act standards.

Since the enactment of Chapter 8 of the Statutes of 1977 and Chapter 204 of the Statutes of 1978, enrollment in the San Juan Ridge Union Elementary School District has dramatically increased so that the replacement facilities are inadequate to house pupils of the district.

The governing board of the district considered alternative means of educating pupils during the school building shortage. However, the board determined that the only feasible alternative is to house pupils temporarily in buildings that do not meet Field Act standards until additional facilities can be provided.

SEC. 2.5. Section 4 of Chapter 206 of the Statutes of 1978 is amended to read:

Sec. 4. The governing board of the Potter Valley Community Unified School District may continue to use the buildings referred to in Section 3 until June 30, 1980. During such period of continued use, the buildings shall not be subject to any of the provisions of Article 3 (commencing with Section 39140) or Article 6 (commencing with Section 39210) of Chapter 2 of Part 3 of Division 3 of the Education Code.

SEC. 3. Section 2 of Chapter 8 of the Statutes of 1977, as amended by Chapter 204 of the Statutes of 1978, is amended to read:

Sec. 2. The San Juan Ridge Union Elementary School District is hereby authorized to house pupils in the North San Juan Elementary School, the Birchville Elementary School, and the North Columbia School, and during the period of temporary use those schools shall not be subject to any of the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code. The exemption provided by this section shall remain in effect until June 30, 1982.

SEC. 4. The Placer Union High School District, in 1976-77, levied a special tax pursuant to former Section 39230 of the Education Code. Proceeds thereof were used to complete renovation of Placer Union High School which was in need of rehabilitation and replacement of structurally inadequate school facilities. Not all of the proceeds collected were needed for complete renovation of the buildings of Placer Union High School. The Earl Crabbe Gymnasium at Placer Union High School was built in 1937, and is in need of renovation.

SEC. 5. Notwithstanding Section 39233 of the Education Code, the Placer Union High School District may use funds previously raised pursuant to former Section 39230 of the Education Code, but not required for completing the renovation and replacement of facilities not in compliance with the Field Act, for renovation of the Earl Crabbe Gymnasium at Placer Union High School.

SEC. 6. In the fiscal year 1978–79 the Board of Supervisors of El Dorado County failed to levy a tax upon the property in El Dorado Union High School District sufficient to raise for the district the amount to be withheld by the State Controller during the fiscal year 1978–79 under Section 16335 of the Education Code. Although the board of supervisors has agreed to levy the necessary tax during the

fiscal year 1979–80, the 1978–79 annual repayments of apportionments to be made under the State School Building Aid Law of 1952 remain outstanding. The adoption of Article XIII A of the California Constitution has made it impossible for the district to raise the necessary moneys.

SEC. 7. (a) The State Controller shall adjust the total amount of the deductions from apportionments made to the El Dorado Union High School District pursuant to Section 16335 of the Education Code for the 1978–79 fiscal year by the amount of money to be withheld by the State Controller during the fiscal year 1978–79, as required by Section 16335 of the Education Code, and as certified by the county auditor. The apportionments from the State School Fund for the district shall be increased by the amount of such adjustment.

(b) For the fiscal year 1979–80, the State Controller shall add to the amounts to be deducted under Section 16214 of the Education Code from the apportionments to El Dorado Union High School District the amounts of any reductions in any such deductions effected during the fiscal year 1978–79, pursuant to subdivision (a), but shall not add to the amounts so deducted any interest on account of the delay in repayment.

SEC. 8. The Black Butte Union Elementary School District has an enrollment of 208 pupils, but its facilities were originally designed for only 124 pupils. To alleviate the overcrowded conditions, Black Butte Union Elementary School has leased mobile classrooms for the past three years. Current law prohibits the school district from extending such lease beyond the initial three years if the leased facility does not meet Field Act standards. Black Butte Union Elementary School District has currently entered into a building program to purchase relocatable classrooms which meet Field Act standards. Until such purchases can be made, the school district must continue to use the leased mobile classrooms.

SEC. 9. The governing board of the Black Butte Union Elementary School District may continue to use the facilities referred to in Section 8 until June 30, 1980. During such period of continued use, the facilities shall not be subject to any of the provisions of Article 3 (commencing with Section 39140) or Article 6 (commencing with Section 39210) of Chapter 2 of Part 3 of the Education Code.

SEC. 10. The Lincoln Unified School District is hereby authorized to house pupils in the Career High School buildings and during the period of temporary use such school buildings shall not be subject to any of the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code. The exemption provided by this section shall remain in effect until June 30, 1982.

SEC. 11. The Main Prairie Continuation High School of the Dixon Unified School District is hereby authorized to conduct classes in the arts and crafts building located at the Dixon May Fairgrounds and during the period of temporary use such school buildings shall not be

subject to any of the provisions of Article 3 (commencing with Section 39140) and Article 6 (commencing with Section 39210) of Chapter 2 of Part 23 of the Education Code. The exemption provided by this section shall remain in effect until June 30, 1982.

SEC. 12. Due to the unique circumstances concerning the building of school facilities in the small rural school districts named in Sections 2, 2.5, 3, 4, 5, 8, 10, and 11 of this act and the unique circumstances surrounding the financing of school buildings in the El Dorado Union High School District, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution.

SEC. 13. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Existing school facilities in the San Juan Ridge Union Elementary School District and the Lincoln Unified School District are insufficient to house the increased pupil population. Authorization for the districts to house pupils temporarily in school buildings that do not satisfy Field Act standards expires on June 30, 1979. In order to permit the districts to use such buildings after the expiration date so that necessary educational services can be provided without interruption, and in order to begin renovation on the existing gymnasium at Placer Union High School which is in need of immediate repair to make it safe for pupils at the school, it is necessary that this act take effect immediately.

Conditional apportionments granted to some school districts will become void pursuant to existing law. In order for these apportionments to be reinstated and made final before the apportionment becomes void, it is necessary that this act take effect immediately.

In the El Dorado Union High School District, the board of supervisors failed to levy a tax sufficient to provide the full amount of the 1978–79 annual repayments of apportionments made under the State School Building Aid Law of 1952. If this act does not take effect immediately, the State Controller would be required by Section 16214 of the Education Code to deduct the total amount of the annual repayment for such district in equal amounts from the February through May installments of the apportionments to be made to the district from the State School Fund. In order to defer the deduction at the earliest time possible and to avoid seriously depleting the general fund of such district and consequently affecting the educational opportunities afforded to the children of the district, it is necessary that this act take effect immediately.

The building program at Potter Valley Community Unified School District has not been completed. Authorization for the district to use two nonconforming buildings that do not satisfy Field Act standards expires at the end of the 1978–79 school year. In order to permit the district to use such buildings after the expiration date so that

necessary educational services can be provided without interruption, it is necessary that this act take effect immediately.

The Black Butte Union Elementary School District is presently leasing facilities which do not meet Field Act standards. The district is leasing these facilities and the lease expires June 30, 1979. In order to permit the district to re-lease such facilities beyond the three-year limitation after the expiration date of the present lease so that necessary educational services can be provided without interruption, it is necessary for this act to take effect immediately.

In order for the Main Prairie Continuation High School located in the Dixon Unified School District to continue to provide necessary educational services without interruption, it is necessary that this act take effect immediately.

CHAPTER 302

An act to amend Sections 1001.4, 1002.28, and 1005.4 of, to add Section 1003.16 to, and to repeal Section 1005.3 of, the Military and Veterans Code, relating to revenue debentures, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 1001.4 of the Military and Veterans Code is amended to read:

1001.4. All debentures shall bear the facsimile signature of the Director of Veterans Affairs and the Deputy Director of Veterans Affairs and shall be authenticated by the trustee. The seal of the Department of Veterans Affairs shall be impressed, mechanically reproduced or imprinted by facsimile upon each debenture. The interest coupons attached to any debenture shall bear a facsimile of the signature of the Director of Veterans Affairs. In case any such official whose signature or countersignature appears on the debentures or coupons shall cease to be such official before the debentures so signed or countersigned shall have been actually executed or delivered, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if he had remained in office until the delivery of the debentures, and such debentures and coupons shall be issued and shall be as binding upon the department as though the person who signed such debentures or coupons had been such official on the date borne by the debentures or coupons and on the date of delivery. Any such debentures may be signed and sealed on behalf of the department by such person as at the actual date of execution of such debentures shall be the Director of Veterans Affairs or the Deputy Director of Veterans Affairs, as the

case may be, although on such date as may be borne by such debentures any such person shall not have been such official.

SEC. 2. Section 1002.28 of the Military and Veterans Code is amended to read:

1002.28. The State Treasurer shall act as trustee for the department and the holders of its bonds, to receive and disburse all the revenues applicable to the payment of the principal of or interest on the bonds, including any reserve fund, sinking fund or other fund established for the further securing of the bonds. The department may provide in any resolution of issuance for the appointment of a trustee, other than the State Treasurer, to represent and enforce rights of holders of bonds of the department if, and in the manner and under conditions, provided in the resolution authorizing the bonds, such trustee shall be a bank or trust company duly qualified to do business in this state.

SEC. 3. Section 1003.16 is added to the Military and Veterans Code, to read:

1003.16. (a) Notwithstanding any other provision of this chapter, and in lieu of a pledge of revenues as security for any debentures issued pursuant to this chapter, the department may assign or pledge an undivided interest in the assets of the Veterans' Farm and Home Building Fund of 1943 as security for such debentures. Such undivided interest so assigned or pledged shall not exceed the amount of principal and interest of the debentures secured thereby, and shall be secondary and subordinate to any interest or right of the people and the holders of general obligation bonds in the fund under any general obligation veterans bond act.

(b) In such event, the department shall deposit the proceeds of the sale of such debentures and the revenues therefrom in the Veterans' Farm and Home Building Fund of 1943, and money may be withdrawn therefrom in accordance with law upon requisition of the department for the purpose of carrying out the provisions of this chapter and of the Veterans' Farm and Home Purchase Act of 1943 and the Veterans' Farm and Home Purchase Act of 1974. The department may create such accounts or funds within the Veterans' Farm and Home Building Fund of 1943 as may be appropriate or desirable for carrying out the provisions of this section.

(c) Further, in such event, and notwithstanding the provisions of Section 1006.15, the interest rates on veterans' purchase contracts shall be established as provided in Section 987.87.

SEC. 4. Section 1005.3 of the Military and Veterans Code is repealed.

SEC. 5. Section 1005.4 of the Military and Veterans Code is amended to read:

1005.4. Whenever a bank or trust company is acting as trustee by reason of any default, or for the protection of the interests of the debenture holders, the bank or trust company as such trustee, shall take such action as the holders or registered owners of 20 percent in principal amount of all the debentures then outstanding shall request

in writing, provided that the bank or trust company as such trustee may request reasonable security before taking any action so requested.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Under present provisions of the Veterans' Revenue Debenture Act of 1970, the Department of Veterans Affairs is required to issue revenue bonds pledged to different securities, which constitutes an unsound financial practice. Under this act, all veterans will be treated equally in the rate of interest charged pursuant to a Cal-Vet farm or home purchase contract, and potentially great savings may accrue to the department by eliminating the need for separate accounting systems for the different bonds. In order that these benefits may become realized as soon as possible, it is necessary that this act become effective immediately.

CHAPTER 303

An act to amend Section 1370 of the Health and Safety Code, relating to health care service plans.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 1370 of the Health and Safety Code is amended to read:

1370. Every plan shall establish procedures in accordance with department regulations for continuously reviewing the quality of care, performance of medical personnel, utilization of services and facilities, and costs. Notwithstanding any other provision of law, there shall be no monetary liability on the part of, and no cause of action for damages shall arise against, any person who participates in quality of care or utilization reviews by peer review committees which are composed chiefly of physicians and surgeons or dentists, or both, for any act performed during such reviews if such person acts without malice, has made a reasonable effort to obtain the facts of the matter, and believes that the action taken is warranted by the facts, and neither the proceedings nor the records of such reviews shall be subject to discovery, nor shall any person in attendance at such reviews be required to testify as to what transpired thereat.

The above prohibition relating to discovery or testimony shall not apply to the statements made by any person in attendance at such a review who is a party to an action or proceeding the subject matter of which was reviewed, or to any person requesting hospital staff

privileges, or in any action against an insurance carrier alleging bad faith by the carrier in refusing to accept a settlement offer within the policy limits, or to the commissioner in conducting surveys pursuant to Section 1380.

This section shall not be construed to confer immunity from liability on any health care service plan. In any case in which, but for the enactment of the preceding provisions of this section, a cause of action would arise against a health care service plan, such cause of action shall exist notwithstanding the provisions of this section.

CHAPTER 304

An act to amend Section 65860 of the Government Code, relating to city zoning.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 65860 of the Government Code is amended to read:

65860. (a) County or city zoning ordinances shall be consistent with the general plan of the county or city by January 1, 1974. A zoning ordinance shall be consistent with a city or county general plan only if:

(i) The city or county has officially adopted such a plan, and

(ii) The various land uses authorized by the ordinance are compatible with the objectives, policies, general land uses, and programs specified in such a plan.

(b) Any resident or property owner within a city or a county, as the case may be, may bring an action in the superior court to enforce compliance with the provisions of subdivision (a). Any such action or proceedings shall be governed by Chapter 2 (commencing with Section 1084) of Title 1 of Part 3 of the Code of Civil Procedure. Any action or proceedings taken pursuant to the provisions of this subdivision shall be taken within 90 days of the enactment of any new zoning ordinance or the amendment of any existing zoning ordinance as to said amendment or amendments.

(c) In the event that a zoning ordinance becomes inconsistent with a general plan by reason of amendment to such a plan, or to any element of such a plan, such zoning ordinance shall be amended within a reasonable time so that it is consistent with the general plan as amended.

(d) Notwithstanding Section 65803, this section shall apply in a charter city of 2,000,000 or more population to a zoning ordinance adopted prior to January 1, 1979, which zoning ordinance shall be consistent with the general plan of such city by July 1, 1982

CHAPTER 305

An act to add Section 933.1 to the Penal Code, relating to grand juries.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 933.1 is added to the Penal Code, to read:

933.1. A grand jury may at any time examine the books and records of any agency as defined in Section 33100 of the Health and Safety Code, and, in addition to any other investigatory powers granted by this chapter, may investigate and report upon the method or system of performing the duties of such agency.

CHAPTER 306

An act to amend Section 933.5 of the Penal Code, relating to grand juries.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 933.5 of the Penal Code is amended to read:

933.5. A grand jury may at any time examine the books and records of any special-purpose assessing or taxing district located wholly or partly in the county or the local agency formation commission in the county, and, in addition to any other investigatory powers granted by this chapter, may investigate and report upon the method or system of performing the duties of such district or commission.

CHAPTER 307

An act to amend Sections 1941.1, 1941.2, and 1942 of the Civil Code, relating to landlord and tenant.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 1941.1 of the Civil Code is amended to read:

1941.1. A dwelling shall be deemed untenantable for purposes of Section 1941 if it substantially lacks any of the following affirmative standard characteristics:

(a) Effective waterproofing and weather protection of roof and exterior walls, including unbroken windows and doors.

(b) Plumbing or gas facilities which conformed to applicable law in effect at the time of installation, maintained in good working order.

(c) A water supply approved under applicable law, which is under the control of the tenant, capable of producing hot and cold running water, or a system which is under the control of the landlord, which produces hot and cold running water, furnished to appropriate fixtures, and connected to a sewage disposal system approved under applicable law.

(d) Heating facilities which conformed with applicable law at the time of installation, maintained in good working order.

(e) Electrical lighting, with wiring and electrical equipment which conformed with applicable law at the time of installation, maintained in good working order.

(f) Building, grounds and appurtenances at the time of the commencement of the lease or rental agreement in every part clean, sanitary, and free from all accumulations of debris, filth, rubbish, garbage, rodents and vermin, and all areas under control of the landlord kept in every part clean, sanitary, and free from all accumulations of debris, filth, rubbish, garbage, rodents, and vermin.

(g) An adequate number of appropriate receptacles for garbage and rubbish, in clean condition and good repair at the time of the commencement of the lease or rental agreement, with the landlord providing appropriate serviceable receptacles thereafter, and being responsible for the clean condition and good repair of such receptacles under his control.

(h) Floors, stairways, and railings maintained in good repair.

SEC. 2. Section 1941.2 of the Civil Code is amended to read:

1941.2. (a) No duty on the part of the landlord to repair a dilapidation shall arise under Section 1941 or 1942 if the tenant is in substantial violation of any of the following affirmative obligations, provided the tenant's violation contributes substantially to the existence of the dilapidation or interferes substantially with the landlord's obligation under Section 1941 to effect the necessary repairs:

(1) To keep that part of the premises which he occupies and uses clean and sanitary as the condition of the premises permits.

(2) To dispose from his dwelling unit of all rubbish, garbage and other waste, in a clean and sanitary manner.

(3) To properly use and operate all electrical, gas and plumbing fixtures and keep them as clean and sanitary as their condition permits.

(4) Not to permit any person on the premises, with his permission,

to willfully or wantonly destroy, deface, damage, impair or remove any part of the structure or dwelling unit or the facilities, equipment, or appurtenances thereto, nor himself do any such thing.

(5) To occupy the premises as his abode, utilizing portions thereof for living, sleeping, cooking or dining purposes only which were respectively designed or intended to be used for such occupancies.

(b) Paragraphs (1) and (2) of subdivision (a) shall not apply if the landlord has expressly agreed in writing to perform the act or acts mentioned therein.

SEC. 3. Section 1942 of the Civil Code is amended to read:

1942. (a) If within a reasonable time after written or oral notice to the landlord or his agent, as defined in subdivision (a) of Section 1962, of dilapidations rendering the premises untenantable which the landlord ought to repair, the landlord neglects to do so, the tenant may repair the same himself where the cost of such repairs does not require an expenditure more than one month's rent of the premises and deduct the expenses of such repairs from the rent when due, or the tenant may vacate the premises, in which case the tenant shall be discharged from further payment of rent, or performance of other conditions as of the date of vacating the premises. This remedy shall not be available to the tenant more than twice in any 12-month period.

(b) For the purposes of this section, if a tenant acts to repair and deduct after the 30th day following notice, he is presumed to have acted after a reasonable time. The presumption established by this subdivision is a rebuttable presumption affecting the burden of producing evidence and shall not be construed to prevent a tenant from repairing and deducting after a shorter notice if all the circumstances require shorter notice.

(c) The tenant's remedy under subdivision (a) shall not be available if the condition was caused by the violation of Section 1929 or 1941.2.

(d) The remedy provided by this section is in addition to any other remedy provided by this chapter, the rental agreement, or other applicable statutory or common law.

SEC. 4. The amendments to Section 1942 of the Civil Code made by the 1979–80 Regular Session of the Legislature shall not apply to any lease, option, or other agreement executed prior to January 1, 1980. Such amendments shall be applicable, however, to a lease or hiring of a dwelling which is renewed by agreement, or is presumed to have been renewed pursuant to Section 1945, on or after January 1, 1980.

CHAPTER 308

An act to amend Section 22825.1 of the Government Code, relating to state employees' health insurance, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1979. Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 22825.1 of the Government Code is amended to read:

SECTION 1. Section 66465 of the Government Code is amended to read:

66465. The subdivider shall present to the county recorder evidence that, at the time of the filing of the final or parcel map in the office of the county recorder, the parties consenting to such filing are all of the parties having a record title interest in the real property being subdivided whose signatures are required by this division, as shown by the records in the office of the recorder, otherwise the map shall not be filed.

For purposes of this section and Sections 66436, 66439, and 66447, a public entity which has obtained a prejudgment order for possession of property pursuant to Section 1255.410 of the Code of Civil Procedure shall be deemed to be the record title owner of the property or property interests described in the order, provided the order for possession has not been stayed or vacated pursuant to Section 1255.420, 1255.430, or 1255.440 of the Code of Civil Procedure, no motion therefor is pending before the court, and the time prescribed by Section 1255.420 of the Code of Civil Procedure for filing a motion for relief from the order has passed.

CHAPTER 310

An act to amend Sections 35539 and 35539.1 of the Water Code, relating to water districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 35539 of the Water Code is amended to read:

35539. In addition to, and as an alternative to, the powers contained in this division, the board may by resolution determine and declare that it is necessary to levy a special assessment of an equal amount upon each acre of developed land, upon each acre of undeveloped land, or both, within the district or within zones established pursuant to Sections 35534 and 35535 in order to cause just and equitable sharing among the district's landowners of all or any portion of the district obligations for the next year in excess of receipts from water charges, as reflected in the district's annual estimate of obligations filed pursuant to Section 36552 or 37206, and such resolution shall declare that a public hearing shall be held thereon at a specified time and place at which all interested persons may appear and be heard.

SEC. 2. Section 35539.1 of the Water Code is amended to read:

35539.1. The resolution shall be published pursuant to Section 6066 of the Government Code in a newspaper of general circulation published in each county in which district lands are located. A copy of the resolution shall be mailed, postage prepaid, to each holder of title to land within the district as shown by the last equalized assessment roll of the district, or, if the district has theretofore elected to use the last equalized county assessment roll or rolls for district assessment purposes, a copy of the resolution shall be mailed, postage prepaid, to each holder of title to land of the county or counties in which district lands are located.

The hearing may be adjourned from time to time at the discretion of the board and at its conclusion the board may determine and by a new resolution declare the amount of and levy a special assessment upon each acre of developed land in an equal amount per acre, upon each acre of undeveloped land in an equal amount per acre, or both, within the district, or within zones, sufficient to defray all or any part of the district obligations for the next year in excess of receipts from water charges, as reflected in the district's annual statement of obligations filed pursuant to Section 36554 or 37206.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to the adoption of Article XIII A of the California Constitution, the Kern Delta Water District has been required to discontinue collection of its special assessment under Section 35537 of the Water Code on an ad valorem basis. In order to solve its cash flow difficulties, the district has imposed a statutorily permissible flat rate acreage assessment on all developed land. Such assessment is inequitable in that not all developed acreage equally utilizes services of the district. This act would permit the district to more equitably

finance costs by permitting the imposition of a flat rate acreage assessment within zones designated by the level of services received from the district. In order to provide a more equitable assessment for the maximum protection of the public, it is necessary that this act go into immediate effect.

CHAPTER 319

An act to amend Section 2931 of the Penal Code, relating to prisoners.

[Approved by Governor July 25, 1979 Filed with Secretary of State July 25, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 2931 of the Penal Code is amended to read:

2931. (a) In any case in which an inmate was sentenced to the state prison pursuant to Section 1170, or if he committed a felony before July 1, 1977, and he would have been sentenced under Section 1170 if the felony had been committed after July 1, 1977, the Department of Corrections shall have the authority to reduce the term prescribed under such section by one-third for good behavior and participation consistent with subdivision (d) of Section 1170.2. A document shall be signed by a prison official and given to the inmate, at the time of compliance with Section 2930, outlining the conditions which the inmate shall meet to receive the credit. The conditions specified in such document may be modified upon any of the following:

(1) Mutual consent of the prisoner and the Department of Corrections.

(2) The transfer of the inmate from one institution to another.

(3) The department's determination of the prisoner's lack of adaptability or success in a specific program or assignment. In such case the inmate shall be entitled to a hearing regarding the department's decision.

(4) A change in custodial status.

(b) Total possible good behavior and participation credit shall result in a four-month reduction for each eight months served in prison or in a reduction based on this ratio for any lesser period of time. Three months of this four-month reduction, or a reduction based on this ratio for any lesser period, shall be based upon forebearance from any or all of the following activities:

(1) Assault with a weapon; or escape.

(2) Physically assaultive behavior; possession of a weapon without permission; possession of controlled substances without prescription; attempt to escape; or urging others by words or acts, with the intent to cause a riot, to commit acts of force or violence, at a time and place under circumstances which produce a clear and present and immediate danger of a riot which results in acts of force or violence; or active participation in a riot that results in acts of force or violence.

(3) Intentional destruction of state property valued in excess of fifty dollars ($50); falsification of a significant record or document; possession of escape tools without permission; or manufacture, sale or unauthorized possession or use of alcoholic beverages or any substance defined as a poison in Schedule D of Section 4160 of the Business and Professions Code; or urging of others by words or acts, with the intent to cause a riot, to commit acts of force or violence at a time and place under circumstances which present a clear and present and immediate danger of a riot, or committing any act, with the intent to precipitate a riot, at a time and place under circumstances which present a clear and present and immediate danger of a riot. Activities specified in paragraph (1) may result in a maximum denial of good behavior credit of 45 days for each such prohibited activity. Activities specified in paragraph (2) may result in a maximum denial of good behavior credit of 30 days for each such prohibited activity. Activities specified in paragraph (3) may result in a maximum denial of good behavior credit of 15 days for each such prohibited activity. Nothing in this section shall prevent the Department of Corrections from seeking criminal prosecution for violations of law.

(c) One of the four months reduction, or a formula based on this ratio for a lesser period, shall be based solely upon participation in work, educational, vocational, therapeutic or other prison activities. Failure to succeed after demonstrating a reasonable effort in the specified activity shall not result in loss of participation credit. Failure to participate in the specified activities can result in a maximum loss of credit of 30 days for each failure to participate. However, those confined either by choice or due to behavior problems shall be given specified activities commensurate with the custodial status.

CHAPTER 320

An act to amend Section 21230 of the Government Code, relating to retirement of public employees.

[Became law without Governor's signature July 26, 1979. Filed with Secretary of State July 26, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 21230 of the Government Code is amended to read:

21230. Notwithstanding Section 21224, the adjustments in allowances for local members provided by this article for time commencing on and after the annual adjustment date next following January 1, 1975, shall be subject to the following limitations:

(a) No adjustment shall be made for any year for which the adjustment is less than 1 percent of the base allowance.

(b) No monthly allowance in any year may exceed an amount equal to the base allowance increased by 3, 4, or 5 percent per year compounded for the number of years intervening between the end of the base year and the beginning of the calendar year in which the adjustment is made. A contracting agency shall designate the applicable percentage and may amend its contract to increase the percentage.

(c) No monthly allowance in any year shall be less than the base allowance.

(d) No adjustment shall be made in any year in which the actuarial interest rate is less than 5.25 percent.

Provided, however, that adjusted allowances in years following the year in which the contract of an agency subject to this section is terminated may not exceed the adjusted allowance in the year of contract termination or the amount determined in accordance with subdivision (b) of Section 21224, whichever is the greater.

For the purposes of this section, all contributions, liabilities, actuarial interest rates, and other valuation factors shall be determined on the basis of actuarial assumptions and methods which, in the aggregate, are reasonable and which, in combination, offer the actuary's best estimate of anticipated experience under the system.

The additional employer contributions required as a result of making this section applicable shall be computed as a level percentage of member compensation. The additional contribution rate required at the time this section is added to a contract shall not be less than the sum of (1) the actuarial normal cost, plus (2) the additional contribution required to amortize the increase in accrued liability attributable to benefits elected under this section over a period of not more than 30 years from the date this section becomes effective in the public agency's contract.

This section shall not apply to any contracting agency, unless and

until the agency elects to be subject to the provisions of this section by amendment to its contract made in the manner prescribed for approval of contracts or, in the case of contracts made after January 1, 1975, by express provision in such contract making the contracting agency subject to the provisions of this section.

SECTION 1. A sum not to exceed seventeen thousand sixty-eight dollars and eighteen cents ($17,068.18) is hereby appropriated from the General Fund to the Superintendent of Public Instruction for allocation to the San Juan Union Elementary School District for actual expenditures for the repair of structural damage suffered at the San Juan Elementary School when a major support beam in the school's multi-purpose room failed in February 1977.

SEC. 2. Due to the unique circumstances concerning the school subject to the provisions of this act, the Legislature finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution.

CHAPTER 322

An act to amend Sections 3226, 3356, and 3744 of, to add Sections 3423, 3423.2, 3423.3, 3423.4, 3423.6, 3423.8, and 3423.9 to, and to repeal Section 3423 of, the Public Resources Code, to amend Sections 6757, 7872, 8996, 16063, 18881, 26161, 30322, and 32363 of the Revenue and Taxation Code, and to amend Section 1703 of the Unemployment Insurance Code, relating to taxation.

[Approved by Governor July 26, 1979 Filed with Secretary of State July 27, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 3226 of the Public Resources Code is amended to read:

3226. Within 30 days after service of an order, pursuant to Sections 3224 and 3225, or Section 3237, or if there has been an appeal from the order to the director, within 30 days after service of the

decision of the director, or if a review has been taken of the order of the director, within 10 days after affirmance of the order, the owner or operator shall commence in good faith the work ordered and continue it until completion. If the work has not been commenced and continued to completion, the supervisor shall appoint necessary agents who shall enter the premises and perform the work. An accurate account of the expenditures shall be kept. Any amount so expended shall constitute a lien against real or personal property of the owner or operator pursuant to the provisions of Section 3423.

Notwithstanding any other provisions of Section 3224, 3225, or 3237, if the supervisor determines that an emergency exists, he may order or undertake such actions as he deems necessary to protect life, health, property, or natural resources.

SEC. 2. Section 3356 of the Public Resources Code is amended to read:

3356. If a review is not taken within 10 days, or if taken, in case the decision of the director is affirmed, any charge, including penalty and interest thereon, imposed by the director shall constitute a lien which upon recordation or filing pursuant to subdivision (c) or (d) of Section 3423, attaches to real or personal property. The lien upon the property shall be enforced in the same manner as are other liens on real property and personal property of the debtor. Upon the request of the supervisor, the State Controller shall bring an action for the enforcement of the lien in the manner provided in this chapter.

SEC. 3. Section 3423 of the Public Resources Code is repealed.

SEC. 4. Section 3423 is added to the Public Resources Code, to read:

3423. (a) If any person fails to pay any charge or penalty imposed under this chapter at the time that it becomes due and payable, the amount thereof, including penalties and interest, together with any costs in addition thereto, shall thereupon be a perfected and enforceable state tax lien upon all property and rights to property whether real or personal, tangible or intangible, including all after-acquired property and rights to property, belonging to such person and located in the state. Such lien shall not continue for more than 10 years unless recorded or filed as provided in this section.

For the purpose of this section only, "due and payable" means the date the charges required to be paid pursuant to Section 3420 are assessed under this chapter.

(b) With respect to real property or any rights therein, at any time after creation of the lien pursuant to subdivision (a), the Controller may record in the office of the county recorder of the county in which such real property is located a notice of state tax lien as specified in subdivision (d).

The lien created by subdivision (a) shall not be valid as to real property against the right, title or interest of:

(1) A successor in interest of the taxpayer without knowledge

of the lien;

(2) A holder of a security interest;

(3) A mechanic's lienor; or

(4) A judgment lien creditor,

where such right, title or interest was acquired or perfected prior to recording of a notice of state tax lien as provided in this subdivision.

(c) With respect to personal property, whether tangible or intangible, at any time after creation of the lien pursuant to subdivision (a) the Controller may file a notice of state tax lien with the Secretary of State pursuant to Chapter 14.5 (commencing with Section 7220) of Division 7 of Title 1 of the Government Code.

The lien created by subdivision (a) shall not be valid as to personal property against:

(1) The holder of a security interest therein whose interest is perfected pursuant to Section 9303 of the Uniform Commercial Code prior to the time the notice of the state tax lien is filed as herein provided;

(2) Any person, other than a person liable for the tax, who acquires his interest in the property under the law of this state without knowledge of the lien or who perfects his interest in accordance with the law of this state prior to the time that the notice of state tax lien is filed as herein provided;

(3) A buyer in the ordinary course of business, as defined in subdivision (9) of Section 1201 of the Uniform Commercial Code, who, under Section 9307 of such code, would take free of a security interest created by his seller;

(4) Any person, other than a person liable for the tax, who, notwithstanding the prior filing of the notice of state tax lien:

(A) Is holder in due course of a negotiable instrument, as defined in Section 3302 of the Uniform Commercial Code;

(B) Is a holder to whom a negotiable document of title has been duly negotiated as provided in Section 7501 of the Uniform Commercial Code;

(C) Is a bona fide purchaser of a security, as defined in Section 8302 of the Uniform Commercial Code;

(D) Is a purchaser of chattel paper, as defined in Section 9105(1)(b) of the Uniform Commercial Code, or an instrument, as defined in Section 9105(1)(i) of such code, who gives new value and takes possession of it in the ordinary course of business;

(E) Is a holder of a purchase money security interest, as defined in Section 9107 of the Uniform Commercial Code;

(F) Is a collecting bank holding a security interest in items being collected, accompanying documents and proceeds, pursuant to Section 4208 of the Uniform Commercial Code;

(I) Acquires without actual knowledge of the state tax lien a security interest in or a claim in or under any policy of insurance including unearned premiums;

(J) Acquires any right or interest in property subject to a certificate of title statute of another jurisdiction under the law of which indication of a security interest on the certificate of title is required as a condition of perfection of such security interest.

(d) The notice of state tax lien recorded or filed pursuant to subdivision (b) or (c) shall include the name and last known address of the person liable for the tax, the amount of the tax, a statement that the tax shall be a lien upon all real or personal property and rights to such property, including all after-acquired property and rights to property belonging to such person, and a statement that the Controller has complied with all the provisions of this part in the computation and levy of the amount assessed.

(e) Any lien arising pursuant to this section shall continue for 10 years from the date of recording or filing of a notice of state tax lien pursuant to subdivision (b) or (c), unless sooner released or otherwise discharged. The lien may, within 10 years from the date of the recording or filing of the notice of state tax lien or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by recording or filing a new notice of state tax lien in the office of the county recorder of any county or with the Secretary of State as provided in subdivision (b) or (c), and from the time of such recording or filing the lien shall be extended for 10 years unless sooner released or otherwise discharged.

(f) Notwithstanding the provisions of Sections 688 and 688.1 of the Code of Civil Procedure, in the event the taxpayer is a party to an action or special proceeding in which the taxpayer may become entitled to property or a money judgment, a lien created pursuant to subdivision (a) shall extend to the taxpayer's cause of action and any judgment in favor of the taxpayer subsequently procured in such action or proceeding. Notice of such a lien shall be given to all parties who prior thereto have made an appearance in the action and to judgment creditors who prior thereto have been granted a lien or an order permitting intervention under Section 688.1 of the Code of Civil Procedure. Such lien shall have priority from the time of filing of the notice in the action. No compromise, dismissal, settlement, or satisfaction shall be entered into by or on behalf of the taxpayer with any other party, lienor or intervenor in the action without the consent of the Controller unless the lien is sooner satisfied or discharged. The judge or clerk of the court shall endorse upon the judgment recovered in such action or proceeding a statement of the existence of the lien, the time of the filing of the notice in the action and the place where entered, and any abstract issued upon the judgment shall contain, in addition to the matters set forth in Sections 674 and 688.1 of the Code of Civil Procedure, a statement of the lien in favor of the Controller.

(g) Any lien, and any rights or causes of action under such lien,

heretofore recorded in any county pursuant to former Section 3423, shall continue in full force and effect for a period of 10 years from the date of last recordation or extension thereof and may, within said period of 10 years, be further extended in the manner provided for in subdivision (e) of this section. Upon recordation of an extension, the lien shall have the same effect as a lien filed pursuant to this section. Such extended lien shall have the same priority as it originally had under the law in effect prior to January 1, 1980.

SEC. 5. Section 3423.2 is added to the Public Resources Code, to read:

3423.2. A warrant may be issued by the State Controller or his duly authorized representative for the collection of any charges, interest and penalties and for the enforcement of any such lien directed to the sheriff or constable and shall have the same effect as a writ of execution. It may and shall be levied and sale made pursuant to it in the manner and with the same effect as a levy of and a sale pursuant to a writ of execution.

SEC. 6. Section 3423.3 is added to the Public Resources Code, to read:

SEC. 7. Section 3423.4 is added to the Public Resources Code, to read:

3423.4. The sheriff or constable shall receive, upon the completion of his services pursuant to a warrant, and the Controller is authorized to pay to him the same fees and commissions and expenses in connection with services pursuant to said warrant as are provided by law for similar services pursuant to a writ of execution; provided, that fees for publication in a newspaper shall be subject to approval by the Controller rather than by the court; said fees, commissions and expenses shall be an obligation of the person or persons liable for the payment of said charges and may be collected from such person or persons by virtue of the warrant or in any other manner provided in this article for the collection of such charges.

SEC. 8. Section 3423.6 is added to the Public Resources Code, to read:

3423.6. In the event that the lien of the charges, penalties or interest attaches to real property from which the oil or gas is extracted and more than one parcel of property is included within the lien, the Controller may release by certificate pursuant to Section 3423.8 from the lien of said charges, interest, penalties and costs, upon payment by the owner of any parcel or parcels of property of his proportionate share of the assessment of the oil or gas extracted from all land included within said lien owned by him.

SEC. 9. Section 3423.8 is added to the Public Resources Code, to read:

3423.8. The Controller may at any time release all or any portion of the property subject to the lien from the lien or subordinate the lien to other liens if he determines that the charges are sufficiently secured by a lien on other property of the taxpayer or that the release or subordination of the lien will not endanger or jeopardize the collection of such charges. A certificate by the Controller to the effect that any property has been released from the lien herein provided for or that such lien has been subordinated to other liens shall be conclusive evidence that the property has been released or that the lien has been subordinated as provided in the certificate.

SEC. 10. Section 3423.9 is added to the Public Resources Code, to read:

3423.9. It is expressly provided that the remedies provided herein of the state shall be cumulative and that no action by the Controller shall be construed to be an election on the part of the state, or of any of its officers, to pursue any remedy hereunder to the exclusion of any other remedy for which provision is made in this article.

SEC. 11. Section 3744 of the Public Resources Code is amended to read:

3744. Within 30 days after service of an order, pursuant to Section 3743, or if there has been an appeal from the order to the board, within 30 days after service of the decision of the board, or if a review has been taken of the order of the board, within 10 days after affirmance of the order, the owner or operator shall commence in good faith the work ordered and continue it until completion. If the work has not been commenced and continued to completion, the supervisor shall appoint necessary agents who shall enter the premises and perform the work. An accurate account of the expenditures shall be kept. Any amount so expended shall constitute a lien against the real or personal property of the owner or operator upon which the work is done and such lien shall have the force, effect, and priority of a judgment lien pursuant to the provisions of Section 3772.

SEC. 12. Section 6757 of the Revenue and Taxation Code is amended to read:

6757. (a) If any person fails to pay any amount imposed under this part at the time that it becomes due and payable, the amount thereof, including penalties and interest, together with any costs in addition thereto, shall thereupon be a perfected and enforceable state tax lien upon all property and rights to property whether real or personal, tangible or intangible, including all afteracquired property and rights to property, belonging to such person and located in the state. Such lien shall not continue for more than 10 years unless recorded or filed as provided in this section.

CHAPTER 323

An act relating to school districts, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1979. Filed with Secretary of State July 27, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding Section 4411 of the Education Code, in counties with an average daily attendance of four hundred twenty-five thousand (425,000) to seven hundred forty-nine thousand nine hundred ninety-nine (749,999), inclusive, the cost of preparation and distribution of the statement setting forth the arguments in favor of, and those opposed to, the recommendations of county committees to form a unified district whose boundary is coterminous with an elementary school district and the cost of any election held hereunder, on or after June 1, 1979, shall be borne by the elementary school district, and shall be paid out of its funds.

This section shall remain in effect only until July 1, 1980, and as of such date is repealed, unless a later enacted statute, which is chaptered before July 1, 1980, deletes or extends such date.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because this act is in accordance with the request of a local governmental entity or entities which desired legislative authority to carry out the program specified in this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to change the existing statutory law concerning the costs of elections recommended by county committees on school district organization involving the proposed formation of a unified school district whose boundary is coterminous with an existing elementary school district's boundary, and so permit the holding of such elections at the earliest possible time, it is necessary that this act take immediate effect.

CHAPTER 324

An act to add Sections 9146 and 9147 to the Government Code, relating to the Joint Legislative Budget Committee, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 26, 1979. Filed with Secretary of State July 27, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 9146 is added to the Government Code, to read:

9146. Any state agency which is required or permitted by federal law or regulation to establish or alter a federal aid allocation formula to a local agency shall notify the Joint Legislative Budget Committee not less than 60 days prior to the effective date of the establishment or change in the federal aid allocation formula. The chairman of the Joint Legislative Budget Committee may grant a waiver of the 60-day notification period after receipt of the notification.

The chairman shall inform members of the Joint Legislative Budget Committee of his intention to waive the 60-day notification period after such notification. If no objection is received within 10 days, he shall proceed to grant the waiver of the 60-day notification period.

The notification shall contain the federal law or regulation necessitating or authorizing the establishment or change, a description of the proposed allocation formula to be established or changed, as the case may be, and an estimate of the resulting increase or decrease in federal aid allocated to the affected local agency.

When requested by the chairman or by any member of the committee, or when the Legislature is in session, when requested by the chairman of the committee, the Joint Legislative Budget Committee shall schedule a hearing on the proposed allocation formula to be established or changed, as the case may be.

"Local agency" as used in this section, means any city, county, city and county, special district, school district, community college district, and county office of education.

The establishment or changes in federal aid allocation formulas affecting less than one hundred thousand dollars ($100,000) in federal aid in any fiscal year shall be exempt from the provisions of this section.

The provisions of this section shall not apply to any reallocation of funds by a state agency from or to a local agency if the state agency finds that either of the following conditions, or both, exist:

(a) The local agency cannot spend its entire allocation within the period established by the federal government.

(b) The failure to spend the funds could lead to their recapture by the federal government or to a reduced allocation of federal funds

in subsequent years.

SEC. 2. Section 9147 is added to the Government Code, to read:

9147. If a state agency finds that there is imminent danger of irreparable harm to the public peace, health, safety, or welfare of the state if it does not establish or alter a federal aid allocation formula without undue delay and complying with the provisions of Section 9146, it shall request a waiver of the requirements of Section 9146 through notification to the Joint Legislative Budget Committee. The notification shall include a written statement containing the following information:

(a) The specific facts constituting the need for the emergency establishment or change in the federal aid allocation formula.

(b) Reference to the authority of the state agency to establish or change the federal aid allocation formula.

(c) A description of the proposed allocation formula to be established or changed.

(d) An estimate of the resulting increase or decrease in federal aid allocated to the affected local agency.

(e) The name and telephone number of the state agency officer to whom inquiries concerning the emergency establishment or change in a federal aid allocation formula may be made.

The Joint Legislative Budget Committee shall respond concerning its actions on the waiver request within 10 days of receipt of the notification. A failure to respond to the notice requesting a waiver within the period prescribed shall be deemed a granting of the request.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

In order to insure that prior to the 1979–80 fiscal year no substantial federal funding to local agencies is altered by a state agency without proper legislative review, it is essential that this act take immediate effect.

CHAPTER 325

All notes issued, including renewal notes, and the interest thereon shall be payable from the proceeds of the sale of the bonds, the revenues of the project, any appropriations made for that purpose or all such sources, and not otherwise, except that in the event that the sale of the bonds shall not have occurred prior to the maturity of the notes issued in anticipation thereof, the board, with the approval of the State Board of Control, may issue renewal notes in order to pay the notes then maturing. No renewal notes shall be issued after the sale of the bonds in anticipation of which the original note was issued.

Revenue bond anticipation notes may be secured by a pledge of, and lien upon, the proceeds of the sale of bonds, the revenues of the project and any other legally available funds.

A resolution authorizing the issuance of revenue bond anticipation notes may include such provisions as the board deems necessary or advisable for the security of the notes issued thereunder, and may include any and all provisions authorized to be included in indentures by this article.

10751. (a) No person shall knowingly buy, sell, offer for sale, receive, or have in his possession, any vehicle or component part thereof from which the manufacturer's serial or identification number has been removed, defaced, altered or destroyed, unless such vehicle or component part has attached thereto an identification number assigned or approved by the department in lieu of the manufacturer's number.

(b) Whenever such vehicle or component part comes into the custody of a peace officer it shall be destroyed, sold, or otherwise disposed of under the conditions as provided in an order by the court having jurisdiction. No court order providing for disposition shall be issued unless the person from whom the property was seized and all claimants to the property whose interest or title is on registration records in the Department of Motor Vehicles are provided a post-seizure hearing by the court having jurisdiction within 60 days after the seizure. This subdivision shall not apply with respect to such vehicle or component part used as evidence in any criminal action or proceeding. (3) A statement that the person from whom the property was seized, and all claimants to the property whose interest or title is on registration records in the Department of Motor Vehicles, will receive written notification of the date, time, and place of the hearing within five days, excluding Saturdays, Sundays, and holidays, after the seizure.

Before extending such season the director shall consider written findings of the department regarding the state of the crab resource which consider, but are not limited to, population and maturity. The director may extend the season only if the written findings do not conclude that such extension will damage the crab resource. In no case shall the season be extended past August 31. The director shall order closure of the season at any time during the extension if he determines that further fishing will damage the crab resource.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The 1979 crab season north of the southern boundary of Mendocino County closes July 15, 1979, and in order for the provisions of this act to govern the 1979 season, it is necessary that this act take effect immediately.

The lien has the force, priority, and effect of a judgment lien and shall continue for 10 years from the date of the filing of the certificate unless sooner released or otherwise discharged. Any such transfer shall provide that if the land is not used for the contemplated purpose during the period of 25 years following the sale, the land shall revert to the state. The Director of General Services may provide additional terms and conditions as he determines to be in the best interest of the state.

SEC. 267 Section 423 of the Revenue and Taxation Code is amended to read·

423. Except as provided in Section 423.7, when valuing enforceably restricted open-space land, other than land used for the production of timber for commercial purposes, the board for purposes of surveys required by Section 1815 of this code and the county assessor shall not consider sales data on lands, whether or not enforceably restricted, but shall value such lands by the capitalization of income method in the following manner:

(a) The annual income to be capitalized shall be determined as follows:

(1) Where sufficient rental information is available the income shall be the fair rent which can be imputed to the land being valued based upon rent actually received for the land by the owner and upon typical rentals received in the area for similar land in similar use, where the owner pays the property tax Any cash rent or its equivalent considered in determining the fair rent of the land shall be the amount for which comparable lands have been rented, determined by average rents paid to owners as evidenced by typical land leases in the area, giving recognition to the terms and conditions of the leases and the uses permitted within the leases and within the enforceable restrictions imposed.

(2) Where sufficient rental information is not available, the income shall be that which the land being valued reasonably can be expected to yield under prudent management and subject to applicable provisions under which the land is enforceably restricted. There shall be a rebuttable presumption that "prudent management" does not include use of the land for a recreational use, as defined in subdivision (n) of Section 51201 of the Government Code, unless the land is actually devoted to such use.

(3) Notwithstanding any other provision herein, if the parties to an instrument which enforceably restricts the land stipulate therein an amount which constitutes the minimum annual income per acre to be capitalized, then the income to be capitalized shall not be less than the amount so stipulated

For the purposes of this section income shall be determined in accordance with rules and regulations issued by the board and with this section and shall be the difference between revenue and

expenditures. Revenue shall be the amount of money or money's worth, including any cash rent or its equivalent, which the land can be expected to yield to an owner-operator annually on the average from any use of the land permitted under the terms by which the land is enforceably restricted including, but not limited to, that from the production of salt and from typical crops grown in the area during a typical rotation period as evidenced by historic cropping patterns and agricultural commodities grown. When the land is planted to fruit-bearing or nut-bearing trees, vines, bushes or perennial plants, the revenue shall not be less than the land would be expected to yield to an owner-operator from other typical crops grown in the area during a typical rotation period, as evidenced by historic cropping patterns and agricultural commodities grown Proceeds from the sale of the land being valued shall not be included in the revenue from the land.

Expenditures shall be any outlay or average annual allocation of money or money's worth that has been charged against the revenue received during the period used in computing such revenue. Those expenditures to be charged against revenue shall be only those which are ordinary and necessary in the production and maintenance of the revenue for that period. Expenditures shall not include depletion charges, debt retirement, interest on funds invested in the land, interest on funds invested in trees and vines valued as land as provided by Section 429, property taxes, corporation income taxes, or corporation franchise taxes based on income. When the income used is from operating the land being valued or from operating comparable land, amounts shall be excluded from the income to provide a fair return on capital investment in operating assets other than the land, to amortize depreciable property, and to fairly compensate the owner-operator for his operating and managing services.

(b) The capitalization rate to be used in valuing land pursuant to this article shall not be derived from sales data and shall be the sum of the following components:

(1) An interest component to be determined by the board and announced no later than September 1 of the year preceding the assessment year and which was the yield rate for long-term United States government bonds, as most recently published by the Federal Reserve Board, rounded to the nearest one-quarter (1/4) percent.

(2) A risk component which shall be a percentage determined on the basis of the location and characteristics of the land, the crops to be grown thereon and the provisions of any lease or rental agreement to which the land is subject; and

(3) A component for property taxes which shall be a percentage equal to the estimated total tax rate applicable to the land for the assessment year times the assessment ratio. The estimated total tax rate shall be the cumulative rates used to compute the state's reimbursement of local governments for revenues lost on account of homeowners' property tax exemptions in the tax rate area in which

the enforceably restricted land is situated.

14301 (a) The department shall determine, by actuarial methods, prospective per capita rates of payment for services provided under this chapter for Medi-Cal beneficiaries enrolled in a prepaid health plan. The rates of payment shall be determined annually, shall be effective no later than the first day of July each year, and shall not exceed the total per capita amount (including cost of administration) which the department estimates (with appropriate adjustments to provide actuarial equivalence) would be payable for all services and requirements covered under the prepaid health plan contract if all such services and requirements were to be furnished to Medi-Cal beneficiaries. In the event that there is any delay in the payment of said new annual rates determined pursuant to this subdivision, continued payment to the prepaid health plan of the rate in effect at the time the delay occurred shall be interim payment only, and shall be subject to increase or decrease, as the case may be, to the level of the new annual rates effective as of the first day of July. The per capita rates shall be determined by sound actuarial methods on the basis of age, sex, and aid categories. The contract shall provide the specific per capita rates which the state shall pay the prepaid health plan each month for each beneficiary enrolled in the prepaid health plan, a detailed description of the specific actuarial method or methods and assumptions used in determining per capita rates, and a summary of the data base, including cost and utilization rates, which was used to determine per capita rates In addition, the director shall engage and rely upon the

services of an actuary or consulting actuary in determining prospective per capita rates.

(b) Any prepaid health plan with an operating experience and scale of operation deemed by the department to be insufficient to justify the application of an actuarially determined per capita rate, shall be reimbursed on a cost basis up to the fee-for-service maximum for services provided until such time as the director determines that a per capita lump sum method is reasonable, but not to exceed a period of one year. For purposes of this section, costs shall be net of intercompany profits in those circumstances where any of the following persons have a substantial financial interest, as defined by Section 14478, in any vendor to the prepaid health plan or any vendor to a subcontractor of the plan:

(1) Any person also having a substantial financial interest in the plan.

(2) Any director, officer, partner, trustee or employee of the plan.

(3) Any member of the immediate family of any person designated in (1) or (2).

(c) In the event that during a contract term, or at the time of contract renewal in those instances where the time of contract renewal differs from the time of annual rate determination, any change occurs which was unforeseen or not considered at the time per capita rates were determined and which affects the validity of any of the results of the actuarial methods used in determining per capita rates, or any change occurs in the obligations of any prepaid health plan affecting the cost to the prepaid health plan of performing the contract, where changes are required by a change in federal or state law or regulation, or by a change in the interpretation and implementation of the law or regulation by the department, the per capita rates determined pursuant to subdivision (a) shall be redetermined in the manner provided by subdivision (a) to reflect such change. During such period of time as is required to redetermine the per capita rates, the continued payment to a prepaid health plan of the per capita rates in effect at the time the change in the obligation of the prepaid health plan is made shall be considered interim payments, and shall be subject to increase or decrease, as the case may be, effective as of the first day of the month in which the change in the obligation of the prepaid health plan is effective.

(d) The obligations of a prepaid health plan shall be changed only by contract or contract amendment wherein payment for the changes, whether payment results in an increase or decrease in the prior per capita rates paid to a prepaid health plan, shall be determined in accordance with this section and paid to affected prepaid health plans at the time the changes are effective.

(e) Nothing contained in this section shall be construed as removing from a prepaid health plan the risk of beneficial or adverse effects, including inflation, which normally result from contracting to furnish health services

SEC. 415. Section 2 of Chapter 19 of the Statutes of 1978 is amended to read:

Sec. 2. (a) The Legislature hereby finds and declares that a high rate of turnover among staff in intermediate care facilities and skilled nursing facilities diminishes the quality of care rendered to patients in such facilities. The Legislature further finds that the turnover among employees of such facilities is substantially attributable to the fact that the wages paid such employees are generally lower than the wages paid employees of other health care institutions in similar job classifications. It is the intent of the Legislature that Medi-Cal reimbursement rates for skilled nursing facilities and intermediate care facilities, to the extent feasible, be set at levels sufficient to allow such employees to be paid at wages which are sufficient to reduce turnover among such employees, in order to improve the level and quality of patient care.

(b) The Legislature further finds that the rates for wages contained in this act were developed with recognition of the costs of increased wages and related benefits. It is the intent of the Legislature that the funds resulting from the Medi-Cal rate increases provided in this section be used for wage increases and for costs of normal benefit increases related to the wage and salary increases.

(c) Notwithstanding any other provision of law, the State Director of Health Services shall establish and implement regulations effective March 1, 1978, that establish a payment rate for intermediate care facilities and skilled nursing facilities as defined in

Section 1250 of the Health and Safety Code, which is sufficient to provide an increase of two dollars and twenty-eight cents ($2.28) per patient-day with respect to skilled nursing facilities and one dollar and eighty-four cents ($1.84) per patient-day with respect to intermediate care facilities, for wages and benefits of nonadministrative employees. The increase required by this section shall be in addition to any future mandatory increases required by federal or state law. Such rate shall provide funding for the portion of additional costs necessary to implement the wage and benefit increase required by this section attributable to Medi-Cal patients. The portion of such additional costs shall be the same as the ratio of Medi-Cal patients to the total patients in the facility.

(d) Each skilled nursing facility or intermediate care facility shall certify that funds received pursuant to this section for the period commencing March 1, 1978, to and including June 30, 1978, are expended for employee wages and benefits, except if the entry level wages of the lowest paid nonadministrative employee of a skilled nursing facility or an intermediate care facility exceeds three dollars and ninety-seven cents ($3.97) per hour on the effective date of this section, the funds received pursuant to regulations adopted pursuant to this section shall be used to ensure the continued delivery of quality care in such facility. The base, from which employee wages and benefits are increased pursuant to this section, shall be the facility payroll for the month of December, 1977, but including only nonovertime hours worked by covered employees, plus any amount received pursuant to Section 1439.7 of the Health and Safety Code For purposes of determining the amount of Medi-Cal funds to be distributed for employee wages and benefits, the total Medi-Cal patient-days recorded by the facility in the month of December, 1977, shall be multiplied by the amount per patient-day specified in subdivision (c) of this section.

(e) The director shall inspect relevant payroll and personnel records of skilled nursing facilities and intermediate care facilities which are reimbursed for Medi-Cal patients under the rate of reimbursement established pursuant to subdivision (c) of this section to insure that the wage and benefit increases provided for have been implemented

(f) Any facility which is paid under the rate provided for in which the director finds has not made the wage and benefit increases provided for shall be liable to the state for the amount of funds paid to such facility based upon the wage and benefit requirements provided for by this section but not distributed to employees for wages and benefits plus a penalty equal to 10 percent of the funds not so distributed.

(g) On or before July 1, 1978, and annually thereafter, each skilled nursing facility or intermediate care facility shall certify to, and in the manner prescribed by, the director, all of the following

(1) All nonadministrative employees of such facility employed less than three months receive at least an entry level wage

amounting to the prevailing federal minimum wage rate plus 50 percent of the average hourly wage increase established pursuant to this section for that facility during the period March through June, 1978.

(2) All nonadministrative employees of such facility employed three months or more receive at least the prevailing federal minimum wage rate plus the average hourly wage increase established pursuant to this section for that facility during the period March through June, 1978; provided, however, that no employee then employed shall receive a wage less than that which such person received pursuant to this section for the period March through June, 1978, after July 1, 1978.

(3) Any wage increase required pursuant to subdivision (a) of Section 1338 of the Health and Safety Code is in addition to any minimum wages provided in this subdivision

SEC. 416. Section 1 of Chapter 74 of the Statutes of 1978 is amended to read:

(b) Except as otherwise provided in this section, the city or its successors shall not, at any time, grant, convey, give, or alienate the lands, or any part thereof, to any individual, firm, or corporation for

any purposes whatever; except, that the city or its successors may grant franchises thereon for a period not exceeding 50 years for wharves and other public uses and purposes and may lease the lands, or any part thereof, for a period not exceeding 50 years for purposes consistent with the trust upon which the lands are held by the state and with the uses specified in this section.

(c) The lands shall be improved without expense to the state; provided, however, that nothing contained in this act shall preclude expenditures for the development of the lands for the purposes authorized by this act, by the state, or any board, agency, or commission thereof, or expenditures by the city of any funds received for such purpose from the state or any board, agency, or commission thereof.

(d) In the management, conduct, operation, and control of the lands or any improvements, betterments, or structures thereon, the city or its successors shall make no discrimination in rates, tolls, or charges for any use or service in connection therewith.

(e) The state shall have the right to use without charge any transportation, landing, or storage improvements, betterments, or structures constructed upon the lands for any vessel or other watercraft or railroad owned or operated by the state.

(f) There is hereby reserved to the people of the state the right to fish in the waters on the lands with the right of convenient access to the waters over the lands for such purpose, which rights shall be subject, however, to such rules and regulations as are necessary for the accomplishment of the purposes specified in subdivision (a) of this section.

(g) Notwithstanding any provision of this section to the contrary, the city may lease the lots located within Parcels A, B, and C described in Section 6 of this act for the purposes set forth in this section and for a period not to exceed 50 years. The consideration to be received by the city for such leases shall be the fair market rental value of such lots as finished subdivided lots with streets constructed and all utilities installed. The form of such leases and the range of consideration to be received by the city shall be approved by the State Lands Commission prior to the issuance of any such lease. All money received by the city from such existing and future leases of such lots shall be deposited in the city tideland capital fund in accordance with the provisions of this act.

(h) With the approval of the State Lands Commission, the city may transfer portions of the lands granted by this act, or held pursuant to this act, to the state acting by and through the State Lands Commission, for lease to the Department of Fish and Game for an ecological reserve or wildlife refuge, or both, and other compatible uses to be undertaken by the department; provided, however, that if at any time the Department of Fish and Game no longer uses such portions of the lands so transferred by the city to the state for such purposes, the lands so transferred shall revert to the city to be held pursuant to the provisions of this act. Upon approving

such a transfer from the city to the state, the State Lands Commission shall lease the lands so transferred to the Department of Fish and Game. The public benefit shall be the sole consideration to be received by the State Lands Commission from the Department of Fish and Game for that lease. Any and all income received by the Department of Fish and Game from the lands so leased shall be used only in connection with the department's improvement and administration of the leased lands.

(i) The city shall establish a separate tidelands trust fund or funds in such manner as may be approved by the State Lands Commission, and the city shall deposit in the fund or funds all moneys received directly from, or indirectly attributable to, the granted tidelands in the city

(j) In accordance with the provisions of this act, the city, acting either alone or jointly with another local or state agency, may use revenues accruing from or out of the use of the granted tidelands for any or all of the purposes set forth in this act. Such revenues may be deposited in one or more reserve funds for use in accordance with the terms and conditions set forth in this act

(k) As to the accumulation and expenditure of revenues for any single capital improvement on the granted lands involving an amount in excess of two hundred fifty thousand dollars ($250,000) in the aggregate, the city shall file with the State Lands Commission a detailed description of such capital improvement not less than 90 days prior to the time of any disbursement therefor or in connection therewith Within 90 days after the time of such filing, the State Lands Commission may determine and notify the city that such capital improvement is not in the statewide interest and benefit or is not authorized by the provisions of subdivision (j) of this section. The State Lands Commission may request the opinion of the Attorney General on the matter; and, if it does so, a copy of such opinion shall be delivered to the city with the notice of its determination In the event the State Lands Commission notifies the city that such capital improvement is not authorized, the city shall not disburse any revenue for or in connection with such capital improvement unless and until it is determined to be authorized by a final order or judgment of a court of competent jurisdiction. The city is authorized to bring suit against the state for the purpose of securing such an order or adjudication, which suit shall have priority over all other civil matters. Service of process shall be made upon the Executive Officer of the State Lands Commission and the Attorney General, and the Attorney General shall defend the state in such suit If judgment be given against the state in such suit, no costs shall be recovered against it

(*l*) On June 30, 1978, and on June 30 of every third fiscal year thereafter, that portion of the city tideland trust revenues in excess of two hundred fifty thousand dollars ($250,000) remaining after deducting current and accrued operating costs and expenditures directly related to the operation or maintenance of tideland trust

activities shall be deemed excess revenues. However, any funds deposited in a reserve fund for future capital expenditures or any funds used to retire bond issues for the improvement or operation of the granted lands shall not be deemed excess revenue. Capital improvements of the granted lands for purposes authorized by this act, including such improvements on lands transferred to the state pursuant to subdivision (h) of this section and paid for by the city, may be considered as expenditures for the purpose of determining excess revenues, provided, however, that if made after the effective date of this act they may be so considered only if made in accordance with subdivision (k) of this section. The excess revenue, as determined pursuant to this subdivision, shall be allocated as follows 85 percent shall be transmitted to the State Treasurer for deposit in the General Fund in the State Treasury, and 15 percent shall be retained by the city for deposit in the trust fund for use for any purpose authorized by subdivision (j) of this section.

(m) At the request of the city, the State Lands Commission shall grant an extension of time, not to exceed 30 calendar days, for filing any report or statement required by this act, which was not filed due to mistake or inadvertence.

(n) In the event that the city fails or refuses to file with the State Lands Commission any report, statement, or document required by any provision of this act, or any extension period granted pursuant to this act, or fails or refuses to carry out the terms of this act, the Attorney General shall, upon the request of the State Lands Commission, bring such judicial proceedings for correction and enforcement as are appropriate and shall act to protect any improvements to, or assets situated upon, the granted lands or diverted therefrom The State Lands Commission shall notify the Chief Clerk of the Assembly and the Secretary of the Senate within 30 days of the occurrence of such failure or refusal and of actions taken as a result thereof.

(o) The State Lands Commission shall, from time to time, recommend to the Legislature such amendments as it may deem necessary in the terms and conditions of this act.

(p) The State Lands Commission shall, from time to time, institute a formal inquiry to determine that the terms and conditions of this act, and amendments thereto, have been complied with in good faith

(q) On or before December 31 of each year, the State Lands Commission shall report to the Chief Clerk of the Assembly and to the Secretary of the Senate the full details of any transaction or condition reported to the commission pursuant to this act which it deems in probable conflict with the requirements of this act or with any other provision of law Upon request by resolution of either house of the Legislature, or upon formal request of the State Lands Commission made only after a noticed public hearing at which the city has been given an opportunity to express fully any disagreement with the commission's findings or to describe any extenuating

circumstances causing the violation, the Attorney General shall bring an action in the Superior Court in the County of Orange to declare that the grant under which the city holds such tidelands and submerged lands is revoked for gross and willful violation of the provisions of this act or any other provision of law or to compel compliance with the requirements of this act and any other provision of law.

(r) The city shall cause to be made and filed annually with the State Lands Commission a detailed statement of receipts and expenditures by it of all rents, revenues, issues, and profits in any manner arising after the effective date of this act from the granted lands or any improvements, betterments, or structures thereon.

(s) The Department of Fish and Game shall establish the funds and make the deposits required by subdivision (i) of this section and shall prepare and file statements required by subdivision (r) of this section as to any lands transferred to the state pursuant to subdivision (h) of this section.

(t) The provisions of Chapter 2 (commencing with Section 6701) of Part 2 of Division 6 of the Public Resources Code shall be applicable to this section. The provisions of Section 6359 of the Public Resources Code shall not be applicable to this section.

(u) Notwithstanding any other provision of this act, the city shall pay to the state all revenues received from the production of oil, gas, and other minerals derived from or attributable to the real property described in Section 6 of this act and the real property acquired by the city pursuant to Section 2 of this act. Whenever practicable, the city shall obtain the mineral rights in real property acquired pursuant to Section 2 of this act

CHAPTER 375

An act to amend Section 3097 of the Civil Code, relating to contractors.

[Approved by Governor July 27, 1979. Filed with Secretary of State July 27, 1979]

The people of the State of California do enact as follows:

SECTION 1 Section 3097 of the Civil Code is amended to read:

3097. "Preliminary 20-day notice (private work)" means a written notice from a claimant that is given prior to the recording of a mechanic's lien and prior to the filing of a stop notice, and is required to be given under the following circumstances:

(a) Except one under direct contract with the owner or one performing actual labor for wages, or an express trust fund described in Section 3111, every person who furnishes labor, service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the owner or reputed owner, to the original contractor, or reputed contractor, and to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(b) Except the contractor, or one performing actual labor for wages, or an express trust fund described in Section 3111, all persons who have a direct contract with the owner and who furnish labor,

service, equipment, or material for which a lien otherwise can be claimed under this title, or for which a notice to withhold can otherwise be given under this title, must, as a necessary prerequisite to the validity of any claim of lien, and of a notice to withhold, cause to be given to the construction lender, if any, or to the reputed construction lender, if any, a written preliminary notice as prescribed by this section.

(c) The preliminary notice referred to in subdivisions (a) and (b) shall be given not later than 20 days after the claimant has first furnished labor, service, equipment, or materials to the jobsite, and shall contain the following information:

(1) A general description of the labor, service, equipment, or materials furnished, or to be furnished, and if there is a construction lender, he shall be furnished with an estimate of the total price thereof in addition to the foregoing.

(2) The name and address of such person furnishing such labor, service, equipment, or materials.

(3) The name of the person who contracted for purchase of such labor, service, equipment, or materials.

(4) A description of the jobsite sufficient for identification.

(5) The following statement in boldface type:

NOTICE TO PROPERTY OWNER

If bills are not paid in full for the labor, services, equipment, or materials furnished or to be furnished, a mechanic's lien leading to the loss, through court foreclosure proceedings, of all or part of your property being so improved may be placed against the property even though you have paid your contractor in full. You may wish to protect yourself against this consequence by (1) requiring your contractor to furnish a signed release by the person or firm giving you this notice before making payment to your contractor or (2) any other method or device which is appropriate under the circumstances.

(6) If such notice is given by a subcontractor who is required pursuant to a collective-bargaining agreement to pay supplemental fringe benefits into an express trust fund described in Section 3111, such notice shall also contain the identity and address of such trust fund or funds.

If an invoice for such materials contains the information required by this section, a copy of such invoice, transmitted in the manner prescribed by this section shall be sufficient notice.

A certificated architect, registered engineer, or licensed land surveyor who has furnished services for the design of the work of improvement and who gives a preliminary notice as provided in this section not later than 20 days after the work of improvement has commenced shall be deemed to have complied with subdivisions (a) and (b) with respect to architectural, engineering, or surveying services furnished, or to be furnished.

(d) If labor, service, equipment, or materials have been furnished to a jobsite by a person who elected not to give a preliminary notice as provided in subdivision (a) or (b), such person shall not be precluded from giving a preliminary notice not later than 20 days after furnishing other labor, service, equipment, or materials to the same jobsite. Such person shall, however, be entitled to claim a lien and a notice to withhold only for such labor, service, equipment, or material furnished within 20 days prior to the service of such notice, and at any time thereafter.

(e) Any agreement made or entered into by an owner, whereby the owner agrees to waive the rights or privileges conferred upon him by this section shall be void and of no effect.

(f) The notice required under this section may be served as follows·

(1) If the person to be notified resides in this state, by delivering the notice personally, or by leaving it at his address of residence or place of business with some person in charge, or by first-class registered or certified mail, postage prepaid, addressed to the person to whom notice is to be given at his residence or place of business address or at the address shown by the building permit on file with the authority issuing a building permit for the work, or at an address recorded pursuant to subdivision (j) of this section.

(2) If the person to be notified does not reside in this state, by any method enumerated in paragraph (1) of this subdivision If such person cannot be served by any of such methods, then notice may be given by first-class certified or registered mail, addressed to the construction lender or to the original contractor.

(3) When service is made by first-class certified or registered mail, service is complete at the time of the deposit of such registered or certified mail.

(g) A person required by this section to give notice to the owner and to an original contractor, and to a person to whom a notice to withhold may be given, need give only one such notice to the owner, and to the original contractor and to the person to whom a notice to withhold may be given with respect to all materials, service, labor, or equipment he furnishes for a work of improvement, which means the entire structure or scheme of improvements as a whole, unless the same is furnished under contracts with more than one subcontractor, in which event, the notice requirements must be met with respect to materials, services, labor, or equipment furnished to each such contractor.

If a notice contains a general description required by subdivision (a) or (b) of the materials, services, labor, or equipment furnished to the date of notice, it is not defective because, after such date, the person giving notice furnishes materials, services, labor, or equipment not within the scope of such general description

(h) Where the contract price to be paid to any subcontractor on a particular work of improvement exceeds four hundred dollars ($400), the failure of that contractor, licensed under Chapter 9

(commencing with Section 7000) of Division 3 of the Business and Professions Code, to give the notice provided for in this section, constitutes grounds for disciplinary action by the Registrar of Contractors.

Where such notice is required to contain the information set forth in paragraph (6) of subdivision (c), a failure to give such notice, including such information, that results in the filing of a lien or the delivery of a stop notice by the express trust fund to which such obligation is owing constitutes grounds for disciplinary action by the Registrar of Contractors against the subcontractor if the amount due such trust fund is not paid.

(i) Every city, county, city and county, or other governmental authority issuing building permits shall, in its application form for a building permit, provide space and a designation for the applicant to enter the name, branch, designation, if any, and address of the construction lender and shall keep the information on file open for public inspection during the regular business hours of the authority.

If there is no known construction lender, that fact shall be noted in such designated space. Any failure to indicate the name and address of the construction lender on such application, however, shall not relieve any person from the obligation to give to the construction lender the notice required by this section.

(j) A mortgage, deed of trust, or other instrument securing a loan, any of the proceeds of which may be used for the purpose of constructing improvements on real property, shall bear the designation "Construction Trust Deed" prominently on its face and shall state all of the following: (1) the name and address of the lender, and the name and address of the owner of the real property described in the instrument, and (2) a legal description of the real property which secures the loan and, if known, the street address of the property The failure to be so designated or to state any of the information required by this subdivision shall not affect the validity of any such mortgage, deed of trust, or other instrument.

Failure to provide such information on such an instrument when recorded shall not relieve persons required to give preliminary notice under this section from such duty.

The county recorder of the county in which such instrument is recorded shall indicate in the general index of the official records of the county that such instrument secures a construction loan.

(k) Every contractor and subcontractor who is required pursuant to a collective-bargaining agreement to pay supplementary fringe benefits into an express trust fund described in Section 3111, and who has failed to do so shall cause to be given to such fund and to the construction lender, if any, or to the reputed construction lender, if any, not later than the date such payment due to such fund became delinquent, a written notice containing:

(1) The name of the owner and the contractor

(2) A description of the jobsite sufficient for identification.

(3) The identity and address of the express trust fund.

(4) The total number of straight time and overtime hours on each such job, payment for which the contractor or subcontractor is delinquent to the express trust.

(5) The amount then past due and owing

Failure to give such notice shall constitute grounds for disciplinary action by the Registrar of Contractors

(*l*) Every written contract entered into between a property owner and an original contractor shall provide space for the owner to enter his name and address of residence; and place of business if any. The original contractor shall make available the name and address of residence of the owner to any person seeking to serve notice required by this section.

However, the general municipal election immediately following the adoption of the ordinance shall be held on the second Tuesday in April in the next ensuing even-numbered year following the adoption of the ordinance. At such election the city clerk shall cause a notice to be included in the sample ballot mailings informing the voters of the change in the election date. Such notice shall also inform the voters that as a result in the change in the election date, elected city officeholders' terms in office will be extended.

If a city adopts an ordinance pursuant to subdivision (a), the second ensuing municipal election following the adoption of the ordinance and each municipal election thereafter shall be conducted on the date specified in subdivision (a), unless the ordinance in question is later repealed by the legislative body.

SEC. 6. If any provision of this act or the application thereof to any person or circumstance is held invalid, such invalidity shall not affect any other provision or application of this act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

SEC. 7. This act shall become operative on October 1, 1979.

SEC. 8. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

The Bankruptcy Reform Act of 1978 (P. L. No. 95-598) becomes operative on October 1, 1979. The new bankruptcy law totally revises the manner of dealing with priorities, exemptions, and the recovery of preferences in a proceeding under that act. This act makes conforming revisions in the law relating to assignments for the benefit of creditors. It is therefore necessary that this act take immediate effect so that it may become operative on October 1, 1979.

CHAPTER 395

An act to amend Sections 18724 and 18732 of the Education Code, relating to public libraries, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 27, 1979 Filed with Secretary of State July 27, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 18724 of the Education Code is amended to read:

18724. The duties of the state board shall be to adopt rules, regulations, and general policies for the implementation of this chapter. In addition, the state board, consistent with the terms and provisions of this chapter, shall have the following powers and duties:

(a) To direct the State Librarian in the administration of this chapter.

(b) To review for its approval all annual proposals submitted under this chapter.

(c) To annually submit budget proposals as part of the annual budget of the Department of Education.

(d) To expend the funds appropriated for the purpose of implementing the provisions of this chapter.

(e) To require participating libraries and systems to prepare and

submit any reports and information which are necessary to carry out the provisions of this chapter, and to prescribe the form and manner for providing such reports and information

(f) To develop formulas for the equitable allocation of reimbursements under Sections 18731, 18743, 18744, and 18765. Such formulas shall be submitted to the Department of Finance for approval.

(g) To require that any public library participating in programs authorized by this chapter provide access to its bibliographic records and materials location information consistent with the legislative policy of encouraging the sharing of resources between libraries.

SEC. 2. Section 18732 of the Education Code is amended to read:

18732. If two or more public library jurisdictions wish to consolidate their libraries into a single library agency, an establishment grant in the annual maximum amount of twenty-thousand dollars ($20,000) shall be made to the newly consolidated library jurisdiction for each of two years, provided that notice of such consolidation is filed with the State Librarian within one year after the consolidation.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution. The facts constituting such necessity are:

Beginning with the 1979–80 fiscal year, participation in specified library programs is conditioned on maintaining certain local funding. The maintenance of such funding will be hindered by implementation of the provisions of Article XIII A of the California Constitution. In order to ensure continued participation in the specified programs in the entire 1979-80 fiscal year, it is necessary that this act take effect immediately.

CHAPTER 396

An act to add Section 1039 to the Public Utilities Code, relating to carriers.

[Approved by Governor July 27, 1979 Filed with Secretary of State July 27, 1979]

The people of the State of California do enact as follows:

SECTION 1 Section 1039 is added to the Public Utilities Code, to read·

1039 (a) Notwithstanding Section 226 or 1035, or Section 654 1 or 654.2 of the Penal Code, the County of San Diego may by ordinance regulate the operations of any passenger jitney service 98 percent or more of whose operations as measured by total route mileage operated are exclusively within the limits of the County of

San Diego and more than 2 percent of whose operations as measured by total route mileage operated are outside the limits of a single city within the county. For purposes of this section, the percentage of route mileage within the County of San Diego or within any city within such county shall be determined by the commission pursuant to Section 226.

(b) For purposes of this section, the term "passenger jitney service" includes every corporation or person engaged as a common carrier, for compensation, in the ownership, control, operation, or management of a passenger transportation service by motor vehicles of not more than 15 passenger capacity, excluding the driver, which operate between fixed termini and over a regular route and generally on short, nonscheduled, headways.

(c) This section shall remain in effect only until January 1, 1985, unless a later enacted statute which becomes effective on or before that date deletes or extends that date.

SEC. 2. The Legislature finds and declares that Section 1 of this act is necessary since special facts and circumstances applicable to the County of San Diego and not generally applicable make the accomplishment of this purpose impossible by any general law. San Diego County is unique in this state in that no public transportation route or corridor extends into any adjacent county. The Legislature further finds and declares that in order to permit the County of San Diego to regulate local jitney transportation service as a demonstration project the purpose of this act is impossible to accomplish by any general law and special legislation applicable only to the County of San Diego is therefore necessary.

CHAPTER 397

An act to add and repeal Article 16 (commencing with Section 53970) of Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code, relating to police and fire protection, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor July 27, 1979. Filed with Secretary of State July 27, 1979]

The people of the State of California do enact as follows:

SECTION 1. Article 16 (commencing with Section 53970) is added to Chapter 4 of Part 1 of Division 2 of Title 5 of the Government Code, to read:

Article 16 Police and Fire Protection Funds

53970. As used in this article, "local agency" means any city, county, city and county, special district, or any other municipal or

public corporation or district which is authorized by law to provide fire protection and prevention services. "Local agency" also means any community services district which is authorized by law to provide police protection.

53971 As used in this article, "legislative body" means the city council or board of trustees in the case of a city, the board of supervisors in the case of a county or a city and county, or the board of directors, trustees, or governors or other governing body in the case of a special district or any other municipal or public corporation or district.

53971.5. As used in this article, "ordinance" includes "resolution" where the local agency is authorized to act only by resolution.

53972. Any local agency which provides fire protection or prevention services directly, by contract with another local agency, or which provides such services pursuant to Section 25643 or the Fire Protection District Law of 1961, Part 2.7 (commencing with Section 13801) of Division 12 of the Health and Safety Code, or which provides police protection pursuant to Division 3 (commencing with Section 61000) of Title 6 of the Government Code may, by ordinance adopted after notice and public hearing, determine and propose for adoption a standby or availability charge for fire suppression service and a standby or availability charge for police protection, or either of such charges, pursuant to this article, except that a local agency which fixes such a charge shall not impose such charge upon a federal or state governmental agency or another local agency. Such propositions shall be submitted to the voters of the affected area, zone, or district, and shall take effect upon approval of two-thirds of the voters voting upon the propositions.

53973 The ordinances submitted to voter approval pursuant to the provisions of Section 53972, shall specify the amount of the standby or availability charge or charges. Such charge or charges shall be levied on a parcel, class of improvement to property, or use of property basis, or a combination thereof, within the boundaries of the local agency. Each of such charges may be charged to any parcel, improvement, or use of property to which fire suppression service or police protection, respectively, may be made available and may be imposed for the purpose of obtaining, furnishing, operating, and maintaining fire suppression or police protection equipment or apparatus or for the purpose of paying the salaries and benefits to firefighting or police protection personnel, or both, whether or not such fire suppression service or police protection is actually used by or upon such parcel, improvement, or use of property.

(b) The legislative body shall establish schedules varying each of such standby or availability charges according to the value of the benefits to such parcel, improvement, or use of property and according to the availability of such fire suppression or police protection equipment, apparatus, or personnel to the affected parcel, improvement, or use of property charged It may restrict either of such charges to areas lying within one or more zones or

areas of benefits established in such local agency. Neither of such charges shall exceed, in the aggregate, the estimated costs of providing fire suppression services or police protection, respectively, in such areas, zones, or local agency.

(c) Each of such charges, or both, may be levied in the amount approved pursuant to the provisions of Section 53972 until amended or superseded by a new ordinance adopted pursuant to the provisions of this article or until repealed pursuant to an ordinance adopted by the legislative body.

53974 (a) For the first fiscal year following the effective date of this article in which a standby or availability charge for fire suppression services or police protection, or both, is proposed to be imposed or amended pursuant to Section 53972, the legislative body shall cause a written report to be prepared and filed with the clerk of the local agency which shall contain a description of each lot or parcel of property proposed to be subject to either of such charges, the amount of each of such charges for each such lot or parcel for such fiscal year, the basis of each of such charges, and the schedule of each of such charges.

(b) The clerk shall cause notice of the filing of such report and of a time, date, and place of hearing thereon to be published pursuant to Section 6066 of the Government Code and to be posted in at least three public places within the local agency. The clerk shall also cause a copy of the notice of the filing of such report and of the time, date, and place of hearing thereon to be mailed to each parcel or property owner whose property would be subject to such assessment. Such notice shall be mailed at least two weeks prior to the date set for hearing to those persons whose name and address appear on the last equalized county assessment roll, the State Board of Equalization assessment roll, or as known to the clerk.

(c) At any time not later than the hour set for the hearing, any holder, whether a fee owner, lessee, or otherwise, of the interest in the property which is proposed to be charged and who will be obligated to pay any such proposed charge, or charges, may make written protest against the proposed assessment. Such protest shall be in writing, shall contain a description of the property and the interest in the property which each signer thereof represents, sufficient to identify the property, and, if the signers are not shown on the last equalized assessment roll as the owners of such property, shall contain or be accompanied by written evidence that such signers are the holders of such property interest proposed to be charged and who will be obligated to pay such proposed charge. All such protests shall be delivered to the county clerk and, for the purposes of Section 53975, no other protests or objections shall be considered

(d) At the time, date, and place stated in the notice the legislative body shall hear and consider all objections or protests, if any, to the report referred to in the notice and shall also hear and determine all protests as provided in Section 53975 The legislative body may

continue the hearing from time to time.

(e) Any written protest may be withdrawn, in writing, by the person who made the protest at any time prior to the conclusion of the protest hearing or any such adjournment thereof.

53975 (a) If the legislative body finds that the protest is made by holders of property interests proposed to be charged and who will be obligated to pay the proposed standby or availability charge for fire suppression service or the standby or availability charge for police protection representing more than one-half of the total amount of expected revenue from either of such proposed charges, respectively, and protests are not withdrawn so as to reduce the same to less than a majority, the proceedings on the proposed assessment so protested shall be terminated unless the protests are overruled by an affirmative vote of four-fifths of the members of the legislative body.

(b) If it shall be necessary, in order to find whether a majority protest exists, to determine whether any or all of the signers of written protests are the holders of property interests proposed to be charged and who will be obligated to pay such proposed charge, or charges, the legislative body shall make such determination from the latest equalized assessment roll, any written evidence submitted with a written protest, and any other evidence received at the hearing. The legislative body shall be under no duty to obtain or consider any other evidence as to such holding of property interests, and its determination of valid protests shall be final and conclusive

54976. (a) If no protests or objections in writing have been delivered to the clerk up to the hour set for hearing thereon, or if such valid protests have been found by the legislative body to be less than a majority, or have been overruled, the legislative body may, upon the conclusion of the hearing adopt, revise, change, reduce, or modify each or any standby or availability charge The legislative body shall make a determination upon each such charge as described in the report or as determined at the hearing, and thereafter, by ordinance, shall determine and assess such charges.

(b) The legislative body may provide for the collection of the standby and availability charges in the same manner, and subject to the same penalties as, other charges and taxes fixed and collected by, or on behalf of the local agency. If such charges are collected by the county, the county may deduct its reasonable costs incurred for such service before remittal of the balance to the local agency's treasury

53977 (a) No standby or availability charge shall be levied pursuant to Section 53972 unless it meets all of the following requirements.

(1) The amount of the standby and availability charge imposed on each parcel, improvement, or use of property charged is directly related to the benefit to each parcel, improvement, or use of property charged which will be derived from fire suppression services or police protection for which such charge is levied which is obtained, furnished, operated, and maintained by the revenues

derived from such charges.

(2) The annual aggregate amount of either of such charges does not exceed:

(A) The estimated annual cost of either fire suppression services or police protection for which such charge is levied in the affected area, zone, or local agency in the next succeeding year, including any necessary debt service for purchase of firefighting or police protection equipment or apparatus or construction or purchase of facilities for fire suppression or police protection activities, in accordance with other provisions of law, and including no more than 5 percent of such amount for delinquencies.

(B) In addition to the amount determined in subparagraph (A) of this paragraph, for the fire suppression standby and availability charge, the actual annual cost of fire suppression services rendered in the affected area, zone, or local agency in the preceding year, if any, or for the police protection standby and availability charge, the actual annual cost of police protection, which exceeded the estimated annual cost of such service made pursuant to subparagraph (A) of this paragraph for the preceding year; provided, however, no addition shall be made pursuant to this subparagraph if an estimate was not made, or a standby or availability charge was not imposed in such preceding year for such service.

(3) The revenue derived from fire suppression standby and availability charges or a police protection charge imposed pursuant to Section 53972 is not used to pay the costs of any service not directly related to fire suppression services or police protection for which such charge is imposed, which costs were previously totally funded from ad valorem property taxes in such area, zone, or local agency, or for fire protection and prevention services or police protection, respectively, not of direct benefit to each parcel, improvement, or use of property charged.

(4) The revenue from such charges is segregated and used for no other purposes of the local agency, the annual amount of such charges are adjusted annually pursuant to paragraph (2), and any reserve carried forward is reasonable in amount for fire suppression purposes or police protection, respectively, consistent with this subdivision and for no other purposes.

(5) The amount of such standby and availability charges, and the fire suppression services or police protection for which such charges are assessed, are reasonable in amount relating to the affected area, zone, or local agency served, and reasonable in amount relating to the parcel, improvement, or use of property charged, as determined by the legislative body of the local agency.

(b) This section does not limit or prohibit the levy or collection of any other fee, charge, or tax, or any license or service fee or charge for police protection or fire prevention or protection services, including, but not limited to, recovery of fire suppression costs and other fire prevention and protection costs other than fire

suppression, including training, licensing, inspection, issuance of permits, and fire safety law enforcement, as provided by other provisions of law.

53978. (a) Any local agency which provides fire protection or prevention services directly, by contract with another local agency, or which provides such services pursuant to Section 25643 of this code or the Fire Protection District Law of 1961, Part 2.7 (commencing with Section 13801) of Division 12 of the Health and Safety Code, or which provides police protection pursuant to Division 3 (commencing with Section 61000) of Title 6 of the Government Code, may, by ordinance, determine and propose for adoption a special tax for fire protection and prevention and a special tax for police protection, or either of such special taxes, other than ad valorem property taxes, pursuant to this section. Such proposition shall be submitted to the voters of the affected area or zone, or of the district, and shall take effect upon approval of two-thirds of the voters voting upon such proposition. The local agency which fixes such a special tax shall not, however, impose such tax upon a federal or state governmental agency or another local agency.

(b) The ordinance submitted to voter approval pursuant to the provisions of subdivision (a), shall specify the amount of each of such special taxes. Each of such special taxes shall be levied on a parcel, class of improvement to property, or use of property basis, or a combination thereof, within the local agency to which fire protection services or police protection are made available, for the purpose of obtaining, furnishing, operating, and maintaining fire suppression and police protection equipment or apparatus or either such service, respectively, for paying the salaries and benefits to firefighting and police protection personnel or either such personnel, respectively, and for such other necessary fire protection and prevention expenses and police protection expenses, respectively, or either such expenses of the local agency in such area, zone, or local agency to which fire protection and prevention services or police protection, or both, are made available

(c) The amount of each such special tax established by the legislative body, and approved by the voters of the local agency, may be varied to each parcel, improvement, or use of property based on the degree of availability of fire protection and prevention services or police protection, respectively, in the affected area, and may restrict such charges to areas lying within one or more zones or areas established in such local agency.

(d) The legislative body may provide for the collection of the special taxes in the same manner and subject to the same penalty as, or with, other charges and taxes fixed and collected by the local agency, or by the county on behalf of the local agency. If such special taxes are collected by the county on behalf of the local agency, the county may deduct its reasonable costs incurred for such service before remittal of the balance to the local agency

(e) The revenues from each of such special taxes shall be used for

the service for which it was imposed, and for no other purpose.

(f) This section does not limit or prohibit the levy or collection or any other fee, charge, or tax, or any license or service fee or charge for fire prevention or protection services or police protection as provided by other provisions of law.

53980. The provisions of this article shall remain in effect only until June 30, 1983, and on such date are repealed, unless a later enacted statute, which is chaptered before such date, deletes or extends such date.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because self-financing authority is provided in this act to cover costs that may be incurred by it in carrying on any program or performing any service required to be carried on or performed by it by this act. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of the Revenue and Taxation Code.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

In order for cities, counties, cities and counties, and special districts and other local public agencies which provide fire protection and prevention services and community services districts which provide police protection to plan expenditures and revenues in the upcoming fiscal year for the providing of fire protection and prevention for their citizens, it is, therefore, necessary that this act take immediate effect.

SECTION 1. Section 6385 of the Revenue and Taxation Code is amended to read·

6385. (a) There are exempted from the computation of the amount of the sales tax the gross receipts from sales of tangible personal property to a common carrier, shipped by the seller via the purchasing carrier under a bill of lading whether the freight is paid in advance, or the shipment is made freight charges collect, to a point outside this state and the property is actually transported to the out-of-state destination for use by the carrier in the conduct of its business as a common carrier The term "common carrier," as used in this section, with respect to water transportation, shall be deemed

to include any vessel engaged, for compensation, in transporting persons or property in interstate or foreign commerce.

(b) There are exempted from the computation of the amount of the sales tax the gross receipts from sales of tangible personal property, other than aircraft fuel and petroleum products, purchased by a foreign air carrier and transported by the foreign air carrier to a foreign destination for use by the air carrier in the conduct of its business as a common carrier by air of persons or property. To qualify for this exemption, the foreign air carrier shall timely furnish to the seller a certificate in writing that the property shall be transported and used in the manner described in this subdivision. Such certificate shall be substantially in the form prescribed by the board. Acceptance in good faith of such a certificate shall relieve the seller from liability for the sales tax. The foreign air carrier shall maintain records in this state, such as a copy of a bill of lading, an air waybill or cargo manifest, documenting its transportation of the tangible personal property to a foreign destination.

(c) Pursuant to subdivision (b), any use of the property by the purchasing foreign air carrier, other than that incident to delivery of the property to the foreign air carrier and the transportation of the property by the carrier to a foreign destination and subsequent use in the conduct of its business as a common carrier, or a failure of the foreign air carrier to document its transporting the property to a foreign destination, shall subject the carrier to liability for payment of sales tax as if it were a retailer making a retail sale of the property at the time of such use or failure, and the cost of the property to it shall be deemed to be the gross receipts from such retail sale

(d) "Foreign air carrier" as used in this section means a foreign air carrier as defined in Section 1301 of Title 49 of the United States Code

SEC. 2 It is the intention of the Legislature not to change the existing exemption and required documentation for exemption for purchases of aircraft fuel and petroleum products.

SECTION 1. Section 12340.3 of the Insurance Code is amended to read·

(d) The issuance, by a title insurer, of a letter of indemnity. Any such letter of indemnity shall be limited to and issued solely for the purpose of enabling an underwritten title company, with whom the title insurer has an underwriting agreement, to continue to transact an escrow business during that period of time required by the underwritten title company to comply with an increase in the statutory net worth requirements imposed as a condition to the transaction of the business of title insurance by an underwritten title company. A title insurer may charge a reasonable fee in connection with the issuance of any such letter. No rate or form filing shall be required with respect to any such letter of indenmity

SEC. 2. Section 12389 of the Insurance Code is amended to read:

12389 (a) An underwritten title company as defined in Section 12340.5, which shall be a stock corporation, may engage in the business of preparing title searches, title reports, title examinations, certificates or abstracts of title, upon the basis of which a title insurer writes title policies, provided that

(1) Only domestic corporations may be licensed under this

section and no underwritten title company, as defined in Section 12340.5, shall become licensed under this section, or change the name under which it is licensed or operates, unless it has first complied with the provisions of Section 881.

(2) Depending upon the county or counties in which the company is licensed to transact business, it shall maintain required minimum net worth as follows:

Aggregate number of documents recorded and documents filed in the offices of the county recorders in the preceding calendar year in all counties where the company is licensed to transact business

Number of documents	Amount of required minimum net worth
Less than 50,000	$75,000
50,000 to 100,000	120,000
100,000 to 500,000	200,000
500,000 to 1,000,000	300,000
1,000,000 or more	400,000

"Net worth" is defined as the excess of assets over all liabilities and required reserves. It may carry as an asset the actual cost of its title plant provided the value ascribed to such asset shall not exceed the aggregate value of all other assets.

Where a title plant of an underwritten title company is not being currently maintained, the asset value of such plant shall not exceed its asset value as determined in the preceding paragraph as of the date to which such plant is currently maintained, less 1/10th thereof for each succeeding year or part thereof that such plant is not being currently maintained. For the purposes of this section, a title plant shall be deemed currently maintained so long as it is used in the normal conduct of the business of title insurance, and (1) the owner thereof continues regularly to obtain and index title record data to such plant or to a continuation thereof in a format other than that previously used, including, but not limited to, computerization of such data, or (2) the owner thereof is a participant, in an arrangement for joint use of a title plant system regularly maintained in any format, provided such owner is contractually entitled to receive a copy of the title record data contained in such jointly used title plant system during the period of such owner's participation therein, either periodically or upon termination of such participation, at a cost not to exceed the actual cost of duplication of such title record data.

An underwritten title company at all times shall maintain current assets of at least ten thousand dollars ($10,000) in excess of its current liabilities, as such current assets and liabilities may be defined pursuant to regulations made by the commissioner. In making such

regulations, the commissioner shall be guided by generally accepted accounting principles followed by certified public accountants in this state.

(3) Such an underwritten title company shall obtain from the commissioner a license to transact its business. Such license shall not be granted until the applicant conforms to the requirements of this section and all other provisions of this code specifically applicable to applicant. After issuance the holder shall continue to comply with the requirements as to its business set forth in this code, in the applicable rules and regulations of the commissioner and in the laws of this state.

Any underwritten title company who possesses, or is required to possess, a license pursuant to this section shall be subject as if an insurer to the provisions of Article 8 (commencing with Section 820) of Chapter 1 of Part 2 of Division 1 of this code and shall be deemed to be subject to authorization by the Insurance Commissioner within the meaning of subdivision (e) of Section 25100 of the Corporations Code.

Such license may be obtained by filing an application on a form prescribed by the commissioner accompanied by a filing fee of three hundred dollars ($300). Such license when issued shall be for an indefinite term and shall expire with the termination of the existence of the holder, subject to the annual renewal fee imposed under Sections 12415 and 12416

An underwritten title company seeking to extend its license to an additional county shall pay a one hundred seventy-five dollar ($175) fee for each such additional county, and shall furnish to the commissioner evidence, at least sufficient to meet the minimum net worth requirements of paragraph (2), of its financial ability to expand its business operation to include such additional county or counties

(4) Such an underwritten title company shall furnish an audit to the commissioner on the forms provided by the commissioner annually, either on a calendar year basis on or before March 31st or, if approved in writing by the commissioner in respect to any individual company, on a fiscal year basis on or before 90 days after the end of the fiscal year The time for furnishing any such audit may be extended, for good cause shown, on written approval of the commissioner for a period, not to exceed 60 days. Failure to submit an audit on time, or within such extended time as the commissioner may grant, shall be grounds for an order by the commissioner to accept no new business pursuant to subdivision (d). Such audits shall be private, except that a synopsis of the balance sheet on a form prescribed by the commissioner may be made available to the public

The audits shall be made in accordance with generally accepted auditing standards by an independent certified public accountant or independent licensed public accountant approved by the commissioner specifically for the particular company Approval of an auditor for a particular company shall not be deemed to be a

licensing of the auditor nor approval of the auditor for any other company or any other purpose. Any such approval, or the renewal thereof, shall automatically expire on the first day of January in the fifth calendar year following the date of original or renewal approval. The fee for filing an application for such approval or the renewal thereof shall be seventeen dollars and fifty cents ($17.50). The fee for filing the audit shall be thirty-seven dollars and fifty cents ($37.50).

The commissioner may deny or revoke approval or renewal of approval of an auditor for any of the following reasons.

(i) Adverse result in any proceeding before the State Board of Accountancy affecting the auditor's license;

(ii) The auditor has an affiliation with the underwritten title company or any of its officers or directors which would prevent his reports on the company from being reasonably objective;

(iii) The auditor has suffered conviction of any misdemeanor or felony based on his activities as an accountant; or

(iv) Judgment adverse to the auditor in any civil action finding him guilty of fraud, deceit or misrepresentation in the practice of his profession.

Any company which fails to file any audit or other report on or before the date it is due shall pay to the commissioner a penalty fee of one hundred dollars ($100) and on failure to pay such or any other fee or file the audit required by this section shall forfeit the privilege of accepting new business until the delinquency is corrected.

(b) Such an underwritten title company may engage in the escrow business and act as escrow agent provided that:

(1) All funds deposited with the company in connection with any escrow shall be deposited in a bank in a separate trust account, and such funds shall be the property of the person or persons entitled thereto under the provisions of the escrow and segregated escrow by escrow in the records of the company. Such funds shall not be subject to any debts of the company and shall be used only to fulfill the terms of the individual escrow under which the funds were accepted and none of such funds shall be used until all conditions of the escrow have been met

Bona fide drafts executed by persons fully responsible financially may at the option of the company, be deemed the equivalent of funds already cleared into such bank deposit unless another law of this state prohibits such persons from tendering such drafts to escrow holders for the purpose of closing escrows.

Any interest received on funds deposited with the company in connection with any escrow which are deposited in a bank shall be paid over to the depositing party to the escrow and shall not be transferred to the account of the company.

(2) It shall maintain record of all receipts and disbursements of escrow funds

(3) It shall deposit seven thousand five hundred dollars ($7,500) for each county in which it transacts business in some form permitted by Section 12351 with the commissioner who shall forthwith make a

special deposit thereof in the State Treasury and such deposit shall be subject to the provisions of Sections 12353, 12356, 12357, and 12358 and as long as there are no claims against the deposit all interest and dividends thereon shall be paid to the depositor. The deposit shall be for the security and protection of persons having lawful claims against the depositor growing out of escrow transactions with it. Such deposit shall be maintained until four years after all escrows handled by the depositor have been closed.

(A) The commissioner may release such deposits prior to the passage of such four-year period upon presentation of evidence satisfactory to the commissioner of either a statutory merger of the depositor into a licensee or certificate holder subject to the jurisdiction of the commissioner, or a valid assumption agreement under which all liability of the depositor stemming from escrow transactions handled by it is assumed by a licensee or certificate holder subject to the jurisdiction of the commissioner.

(B) With the foregoing exceptions, the deposit shall be returned to the depositor or lawful successor in interest following the four-year period, upon presentation of evidence satisfactory to the commissioner that there are no claims against the deposit stemming from escrow transactions handled by the depositor. If the commissioner has evidence of one or more claims against the depositor, and the depositor is not in conservatorship or liquidation, the commissioner may interplead the deposit by special endorsement to a court of competent jurisdiction for distribution on the basis that claims against the depositor stemming from escrow transactions handled by it have priority in such distribution over other claims against the depositor.

(c) The commissioner shall, whenever it appears necessary, examine the business and affairs of a company licensed under this section. All such examinations shall be at the expense of the company.

(d) At any time that the commissioner determines, after notice and hearing, that a company licensed under this section has willfully failed to comply with any of the provisions of this section, the commissioner shall make his order prohibiting the company from conducting its business for a period of not more than one year.

Any company violating such an order is subject to seizure under Article 14 (commencing with Section 1010) of Chapter 1 of Part 2 of Division 1 is guilty of a misdemeanor and may have its license revoked by the commissioner. Any person aiding and abetting any company in a violation of such an order is guilty of a misdemeanor.

The purpose of this section is to maintain the solvency of the companies subject to this section and to protect the public by preventing fraud and requiring fair dealing. In order to carry out such purposes the commissioner may make reasonable rules and regulations to govern the conduct of its business of companies subject to this section.

The name under which each underwritten title company is

licensed shall at all times be an approved name. Each such company shall be subject to the provisions of Article 14 (commencing with Section 1010) and Article 14.5 (commencing with Section 1065.1) of Chapter 1 of Part 2 of Division 1.

Such rules and regulations shall be adopted, amended or repealed in accordance with the procedure provided in Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 3. An underwritten title company licensed to conduct the business of an underwritten title company on the effective date of this act and which does not meet the increased minimum net worth requirements established by this act is hereby granted a period of not less than two years nor more than four years, from the effective date of this act, to achieve such compliance, provided, however, any such underwritten title company which engages in the escrow business shall, as a condition to further engaging in such escrow business, file with the commissioner a letter of indemnity. Any such letter shall be issued by a title insurer with which the underwritten title company has an underwriting agreement. The letter of indemnity shall name the commissioner as the indemnitee on behalf of all persons who have engaged in escrow transactions with the underwritten title company during the period the letter is in effect. Any such letter of indemnity shall operate to indemnify any person or entity for any financial loss they may incur as a direct result of any fraudulent or dishonest act on the part of an officer or employee of the underwritten title company in connection with their conduct of an escrow. The maximum liability assumed under a letter of indemnity shall be prescribed by the commissioner in an amount not to exceed two hundred thousand dollars ($200,000). Any such letter of indemnity shall remain in effect for the period of time such underwritten title company is granted to achieve compliance with the new minimum net worth requirements established by this act or until such time as the underwritten title company achieves such compliance, which ever shall first occur. The determination to grant an underwritten title company a period of in excess of two, but not more than four, years to achieve compliance with the new net worth requirements established by this act shall be in the discretion of the commissioner, provided, however, in the exercise of such discretion no underwritten title company shall be required to cease the conduct of the business of title insurance for failure to achieve compliance with such requirements absent a showing that such company has not attempted, in good faith, to achieve compliance with the new net worth requirements of this act.

SEC. 4 This is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Due to the recent adoption of endorsements to standard fidelity bonds issued in this state, which endorsements are unacceptable to

the Department of Insurance, underwritten title companies are encountering extreme difficulty in obtaining fidelity coverage which is a necessary prerequisite to their conducting an escrow business. This inability to obtain coverage which is satisfactory to the Department of Insurance has resulted in the issuance of cease and desist orders by the department and may result in the future issuance of similar orders affecting the right underwritten title companies to continue to do business in this state. It is therefore necessary to provide an alternative to a fidelity bond so as to permit underwritten title companies to continue to conduct their business in this state. It is therefore necessary that this act take effect immediately.

(b) As used in this section:

(1) "Artist" means the individual or individuals who create a work of fine art.

(d) The artist shall retain at all times the right to claim authorship, or, for just and valid reason, to disclaim authorship of his or her work of fine art.

(e) To effectuate the rights created by this section, the artist may commence an action to recover or obtain any of the following:

(2) Shall exist in addition to any other rights and duties which may now or in the future be applicable.

(3) Except as provided in paragraph (1) of subdivision (h), may not be waived except by an instrument in writing expressly so providing which is signed by the artist.

(h) (1) If a work of fine art cannot be removed from a building without substantial physical defacement, mutilation, alteration, or destruction of such work, the rights and duties created under this section, unless expressly reserved by an instrument in writing signed by the owner of such building and properly recorded, shall be deemed waived. Such instrument, if properly recorded, shall be binding on subsequent owners of such building.

(2) If the owner of a building wishes to remove a work of fine art which is a part of such building but which can be removed from the building without substantial harm to such fine art, the rights and duties created under this section shall apply unless the owner has diligently attempted without success to notify the artist, or, if the artist is deceased, his heir, legatee, or personal representative, in writing of his intended action affecting the work of fine art, or unless he did provide notice and that person failed within 90 days either to remove the work or to pay for its removal. If such work is removed at the expense of the artist, his heir, legatee, or personal representative, title to such fine art shall pass to that person.

Upon recordation of the long-term contract with the county recorder of the county in which the real property is situated, the contract shall run with the land and be binding upon successors in interest of the contracting landowners for the duration of the contract. Such recorded long-term contract may provide that the failure of the contracting landowner to pay for district service or services as required by contract, shall, upon recordation of a certificate in the office of the county recorder in the county in which the land is situated, constitute a lien with the priority of a judgment lien which delinquency may be collected and enforced in the manner provided in this act for the collection and enforcement of district assessments. Such contracts may be acknowledged or proved, certified, and recorded in like manner and with like effect as grants of real property, and all statutory provisions relating to the recording or nonrecordation of conveyances of real property, and to the effect thereof, shall apply to such contracts with like effect.

Sec. 137. This resolution shall be published in the district pursuant to Section 6066 of the Government Code in a newspaper of general circulation published in the county of the district's office, with first publication to be at least 14 days prior to the time fixed for hearing, and a copy of such resolution shall be mailed, postage prepaid, to each holder of title to land within the district at his address as shown upon the last equalized assessment roll of the county in which the land is situated. Any error, omission, or mistake in such mailing, or any failure of any person to receive such copy, shall not invalidate the proceedings pursuant to this section. The hearing may be adjourned from time to time at the discretion of the board and at its conclusion the board shall by resolution determine the zones of benefit established, if any, the share of benefits received by each zone arising from the district's operations, expressed as a percent, the criteria for establishing each such zone and the percentage expressed, together with a map in such detail to delineate the geographical area of such zone. The zones and the percentages may be amended from time to time or abolished in the same manner required for original adoption.

SEC. 3. Section 17922 of the Health and Safety Code, as amended by Chapter 62 of the Statutes of 1979, is amended to read:

17922. (4) The Uniform Mechanical Code of the International Conference of Building Officials and the International Association of Plumbing and Mechanical Officials.

(5) The National Electrical Code of the National Fire Protection Association.

In promulgating regulations the commission shall consider local conditions and any amendments to the uniform codes referred to in this section. In the absence of adoption by regulation, the most recent editions of the uniform codes referred to in this section shall be considered to be adopted and in effect one year after the date of publication.

(b) Except as provided in Section 17959.5, local use zone requirements, local fire zones, building setback, side and rear yard requirements, and property line requirements are hereby specifically and entirely reserved to the local jurisdictions notwithstanding any requirements found or set forth in this part.

(c) Regulations governing alteration and repair of existing buildings and moving of apartment houses and dwellings shall permit the replacement, retention, and extension of original materials and the continued use of original methods of construction as long as the hotel, lodginghouse, motel, apartment house, or dwelling, or portions thereof, or building and structure accessory thereto, complies with the rules and regulations of the commission or alternative local standards adopted pursuant to Section 17920.7 and does not become or continue to be a substandard building. Building additions or alterations which increase the area, volume, or size of an existing building, and foundations for apartment houses and dwellings moved, shall comply with the requirements specified in this part, or in rules and regulations adopted pursuant to this part, for new buildings or structures. However, such additions and alterations shall not cause the building to exceed area or height limitations applicable to new construction.

(d) Regulations adopted by the commission pursuant to this section governing alteration and repair of existing buildings shall permit the use of alternate materials, appliances, installations, devices, arrangements, or methods of construction if the material, appliance, installation, device, arrangement, or method is, for the purpose intended, at least the equivalent of that prescribed in this part and the rules and regulations promulgated pursuant thereto in performance, safety, and for the protection of life and health. Regulations governing abatement of substandard buildings shall permit those conditions prescribed by Section 17920 3 which do not

endanger the life, limb, health, property, safety, or welfare of the public or the occupant thereof.

(e) No local enforcement agency may prohibit the use of materials, appliances, installations, devices, arrangements, or methods of construction specifically permitted by the commission to be used in the alteration or repair of existing buildings, but such materials, appliances, installations, devices, arrangements, or methods of construction may be specifically prohibited by local ordinance as provided pursuant to Section 17958.5.

(f) No local ordinance may permit any action or proceeding to abate violations of regulations governing maintenance of existing buildings, unless the building is a substandard building or the violation is a misdemeanor.

SEC. 3.5. Section 17958.11 is added to the Health and Safety Code, to read:

17958.11. (a) Any city or county may adopt alternative building regulations for the conversion of commercial or industrial buildings, or portions thereof, to joint living and work quarters. As used in this section, "joint living and work quarters" means residential occupancy by a family maintaining a common household, or by not more than four unrelated persons, of one or more rooms or floors in a building originally designed for industrial or commercial occupancy which include (1) cooking space and sanitary facilities in conformance with local building standards adopted pursuant to Section 17958 or 17958.5 and (2) adequate working space reserved for, and regularly used by, one or more persons residing therein.

The alternative building regulations adopted pursuant to this section shall be applicable in those geographic areas specifically designated for such occupancy, or as expressly permitted by a redevelopment plan with respect to a redevelopment project area. The alternative building regulations need not impose the same requirements as regulations adopted pursuant to Section 17922, except as otherwise provided in this section, but in permitting repairs, alterations, and additions necessary to accommodate joint living and work quarters, the alternative building regulations shall impose such requirements as will, in the determination of the local governing body, protect the public health, safety, and welfare.

(b) The Legislature hereby finds and declares that a substantial number of manufacturing and commercial buildings in urban areas have lost manufacturing and commercial tenants to more modern manufacturing and commercial premises, and that the untenanted portions of such buildings constitute a potential resource capable, when appropriately altered, of accommodating joint living and work quarters which would be physically and economically suitable particularly for use by artists, artisans, and similarly-situated individuals The Legislature further finds that the public will benefit by making such buildings available for joint living and work quarters for artists, artisans, and similarly-situated individuals because (1) conversion of space to joint living and work quarters provides a new

use for such buildings contributing to the revitalization of central city areas, (2) such conversion results in building improvements and rehabilitation, and (3) the cultural life of cities and of the state as a whole is enhanced by the residence in such cities of large numbers of persons regularly engaged in the arts.

(c) The Legislature further finds and declares that (1) persons regularly engaged in the arts require larger amounts of space for the pursuit of their artistic endeavors and for the storage of materials therefor, and of the products thereof, than are regularly found in dwellings, (2) the financial remunerations to be obtained from a career in the arts are generally small, (3) persons regularly engaged in the arts generally find it financially difficult to maintain quarters for their artistic endeavors separate and apart from their places of residence, (4) high property values and resulting rental costs make it particularly difficult for persons regularly engaged in the arts to obtain the use of the amount of space required for their work, and (5) the residential use of such space is accessory to the primary use of such space as a place of work.

It is the intent of the Legislature that local governments have discretion to define geographic areas which may be utilized for joint living and work quarters and to establish standards for such occupancy, consistent with the needs and conditions peculiar to the local environment. The Legislature recognizes that building code regulations applicable to residential housing may have to be relaxed to provide joint living and work quarters in buildings previously used for commercial or industrial purposes.

SEC. 4.5. Section 17980 of the Health and Safety Code, as amended by Chapter 62 of the Statutes of 1979, is amended to read:

17980. (a) If any building is constructed, altered, converted, or maintained in violation of any provision of, or of any order or notice giving a reasonable time to correct such violation issued by an enforcement agency pursuant to, this part and rules and regulations promulgated thereunder, or if a nuisance exists in any building or upon the lot on which it is situated, the enforcement agency shall after 30 days' notice to abate such nuisance institute any appropriate action or proceeding to prevent, restrain, correct, or abate the violation or nuisance.

(b) Whenever the enforcement agency has inspected or caused to be inspected any building and has determined that such building is a substandard building, the enforcement agency shall commence proceedings to abate the violation by repair, rehabilitation, vacation, or demolition of the building. The enforcement agency shall not require the vacating of a residential building unless it concurrently requires expeditious demolition or repair to comply with the provisions of this part and rules and regulations hereunder. The owner shall have the choice of repairing or demolishing However, if the owner chooses to repair, the enforcement agency shall require that the building be brought into compliance according to a reasonable and feasible schedule for expeditious repair. The

enforcement agency may require vacation and demolition or may itself vacate the building, repair, demolish, or institute any other appropriate action or proceeding, if repair work is not done as scheduled or if the owner does not make a timely choice of repair or demolition.

(c) Notwithstanding the provisions of subdivision (b) of this section and notwithstanding local ordinances, tenants in a residential building shall be provided notice of an order to demolish, of the enforcement agency's decision to demolish, or of the issuance of a demolition permit following upon abatement order of an enforcement agency.

SEC. 5. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 6. It is the intent of the Legislature, if this bill and Senate Bill 811 are both chaptered and become effective January 1, 1980, both bills amend Section 17920 of the Health and Safety Code, and this bill is chaptered after Senate Bill 811, that the amendments to Section 17920 proposed by both bills be given effect and incorporated in Section 17920 in the form set forth in Section 1.5 of this act. Therefore, Section 1.5 of this act shall become operative only if this bill and Senate Bill 811 are both chaptered and become effective January 1, 1980, both amend Section 17920, and this bill is chaptered after Senate Bill 811, in which case Section 1 of this act shall not become operative.

CHAPTER 438

An act to amend Sections 14016.5, 14300, 14301, 14405, and 14408 of the Welfare and Institutions Code, relating to prepaid health plans.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 14016.5 of the Welfare and Institutions Code is amended to read:

14016.5. The director shall require that, at the time of determining or redetermining the eligibility of a Medi-Cal beneficiary who resides in an area served by a prepaid health plan and is eligible to enroll in such a plan, the county shall inform the Medi-Cal beneficiary of options available to him regarding methods of receiving Medi-Cal benefits and shall inquire whether the beneficiary wishes to choose any particular method.

SEC. 2. Section 14300 of the Welfare and Institutions Code is amended to read:

14300. The department shall conduct a public hearing at least 30 days prior to the execution of an initial contract with a prepaid health plan and within 120 days prior to the renewal of a prepaid health plan contract to hear and receive evidence on the ability of the prepaid health plan to fulfill its responsibilities under the contract. The hearing shall be conducted in the county within which the prepaid health plan is located, or in the case of a prepaid health plan situated in more than one county, in the county where the largest number of Medi-Cal beneficiaries are enrolled in the plan

Notice of the time, date, and place of the hearing shall be mailed to the following:

(a) The prepaid health plan applying for the contract or contract renewal.

(b) Medi-Cal beneficiaries enrolled in the prepaid health plan subject to the hearing.

(c) Any interested party who requests notification of public hearings conducted pursuant to this section.

The department shall present evidence and make a finding of fact as to the ability of the prepaid health plan to comply with its previous and proposed contract obligations.

No contract shall be renewed unless the department makes a finding based upon the evidence presented at the public hearing, including evidence presented by the department, that the prepaid health plan has complied substantially with its contract obligations.

SEC. 3. Section 14301 of the Welfare and Institutions Code is amended to read:

14301 (a) The department shall determine, by actuarial methods, prospective per capita rates of payment for services provided under this chapter for Medi-Cal beneficiaries enrolled in a prepaid health plan. The rates of payment shall be determined annually, shall be effective no later than the first day of July each year, and shall not exceed the total per capita amount (including cost of administration) which the department estimates (with appropriate adjustments to provide actuarial equivalence) would be payable for all services and requirements covered under the prepaid health plan contract if all such services and requirements were to be furnished to Medi-Cal beneficiaries under the fee-for-service Medi-Cal program provided for by Chapter 7 (commencing with Section 14000) of this part. In the event that there is any delay in the payment of said new annual rates determined pursuant to this subsection, continued payment to the prepaid health plan of the rate in effect at the time the delay occurred shall be interim payment only, and shall be subject to increase or decrease, as the case may be, to the level of the new annual rates effective as of the first day of July. The per capita rates shall be determined by sound actuarial methods on the basis of age, sex, and aid categories. The contract shall provide the specific per capita rates which the state shall pay the prepaid health plan each month for each beneficiary enrolled in the prepaid health plan, a detailed description of the specific actuarial method or methods and assumptions used in determining per capita rates, and a summary of the data base, including cost and utilization rates, which was used to determine per capita rates. In addition, the director shall engage and rely upon the services of an actuary or consulting actuary in determining prospective per capita rates.

(b) Any prepaid health plan with an operating experience and scale of operation deemed by the department to be insufficient to justify the application of an actuarially determined per capita rate, shall be reimbursed on a cost basis up to the fee-for-service maximum for services provided until such time as the director determines that a per capita method is reasonable, but not to exceed a period of one year For purposes of this section, costs shall be net of intercompany profits in those circumstances where any of the following persons have a substantial financial interest, as defined by Section 14478, in any vendor to the prepaid health plan or any vendor to a

subcontractor of the plan:

(1) Any person also having a substantial financial interest in the plan.

(2) Any director, officer, partner, trustee or employee of the plan.

(3) Any member of the immediate family of any person designated in (1) or (2).

(c) The obligations of a prepaid health plan shall be changed only by contract or contract amendment. Any such change may be made during a contract term or at the time of contract renewal, where there is a change in obligations required by federal or state law or regulation, or required by a change in the interpretation or implementation of any such law or regulation. If any such change in obligations occurs which affects the cost to a prepaid health plan of performing under the terms of its contract, then the per capita rates under the contract may be redetermined in the manner provided by subdivision (a) to reflect such change. During such period of time as is required to redetermine the per capita rates, payment to a prepaid health plan of the per capita rates in effect at the time such change occurred shall be considered interim payments and shall be subject to increase or decrease, as the case may be, effective as of the date on which such change is effective.

(d) The obligations of a prepaid health plan shall be changed only by contract or contract amendment wherein payment for the changes, whether payment results in an increase or decrease in the prior per capita rates paid to a prepaid health plan, shall be determined in accordance with this section and paid to affected prepaid health plans.

(e) Nothing contained in this section shall be construed as removing from a prepaid health plan the risk of beneficial or adverse effects, including inflation, which normally result from contracting to furnish health services.

SEC. 4. Section 14405 of the Welfare and Institutions Code is amended to read:

14405. The director shall make available such information as is necessary to enable Medi-Cal beneficiaries to exercise an informed choice in receiving benefits under this chapter. For this purpose each prepaid health plan shall provide marketing material to the director for distribution to all prospective enrollees in the plan's service area. Such marketing material shall include the following:

(a) A description of all services and benefits provided by the prepaid health plan.

(b) The location of facilities where benefits and services are provided.

(c) The hours and days when services are available at each of the facilities

(d) The names of and addresses where each primary care physician, dentist, optometrist, or psychologist provides health services to enrollees of the prepaid health plan.

(e) The names and addresses of each hospital which has agreed to

provide health services to the enrollees.

(f) Names and addresses of each pharmacy providing pharmaceutical services to the enrollees

(g) Transportation arrangements, both routine and emergency, offered by the prepaid health plan.

(h) Any other information as the department may require.

SEC. 5 Section 14408 of the Welfare and Institutions Code is amended to read:

14408. (a) Notwithstanding the provisions of Section 14118, and except as otherwise prohibited by law, a prepaid health plan which has entered into a contract with the department pursuant to this chapter may make the benefits known to potential enrollees by methods approved by the department.

(b) No prepaid health plan or marketing organization shall engage in marketing activities prior to written approval by the department. All marketing activities and procedures shall be approved by the department prior to being used by a prepaid health plan or marketing organization The department may approve, disapprove, or withdraw approval of any marketing activity or procedure. The department shall require the discontinuance of any marketing activity or procedure for which the department withdraws approval.

The prepaid health plan shall be responsible for all presentations by their official representatives and for their ethical and professional conduct.

(c) All printed or illustrated material prepared by the prepaid health plan for dissemination to enrollees or to prospective enrollees shall be submitted to the department prior to such dissemination. The department shall acknowledge receipt of the printed or illustrated material within five days, and shall approve or disapprove such material for dissemination within 60 days after the date of notification that the material has been received. The department may withdraw approval of such material previously approved and order its dissemination discontinued Where the department notifies the prepaid health plan of its disapproval or withdrawal of approval, the prepaid health plan shall have the right to meet and confer with the director or his designee and demonstrate the purpose and reasonable basis for the distribution of such material to enrollees and potential enrollees

(d) On or after January 1, 1980, door-to-door solicitation of Medi-Cal enrollees shall not be permitted except by authorization of the department. Prior to authorizing a continuation of door-to-door solicitation, the department shall make a written finding of fact, for each plan for which the department proposes to permit a continuation of door-to-door solication, that alternative methods of marketing and enrollment are insufficient to guarantee enrollment stability for the prepaid health plan The authorization to continue door-to-door solicitation shall apply to each plan for which the department has made such a finding of fact and shall continue for a

period not to exceed one year, except that the department may extend such authorization an additional year by making a new finding of fact. In permitting door-to-door solicitation of Medi-Cal enrollees, it is the intent of the Legislature that the department shall develop alternative enrollment procedures to maximize enrollment stability and growth in prepaid health plans

SEC. 2. Section 13143.6 of the Health and Safety Code is amended to read:

13143.6. (a) The State Fire Marshal, with the advice of the State Board of Fire Services, shall prepare and adopt regulations establishing minimum standards for the prevention of fire and for the protection of life and property against fire in any building or structure used or intended for use as a home or institution for the housing of any person of any age when such person is referred to or placed within such home or institution for protective social care and supervision services by any governmental agency. Regulations adopted pursuant to this subdivision shall establish minimum standards relating to the means of egress and the adequacy

of exits, the installation and maintenance of fire extinguishing and fire alarm systems, the storage, handling, or use of combustible or flammable materials or substances, and the installation and maintenance of appliances, equipment, decorations, and furnishings that may present a fire, explosion, or panic hazard. Such minimum standards shall be predicated on the height, area, and fire-resistive qualities of the building or structure used or intended to be used.

Any building or structure within the scope of this subdivision used or intended to be used for the housing of more than six nonambulatory persons shall have installed and maintained in proper operating condition an automatic sprinkler system approved by the State Fire Marshal. In adopting regulations pursuant to this subdivision, the State Fire Marshal shall give reasonable consideration to the continued use of existing buildings' housing occupancies established prior to March 4, 1972

In preparing and adopting regulations pursuant to this subdivision, the State Fire Marshal shall also secure the advice of the appropriate governmental agencies involved in the affected protective social care programs in order to provide compatibility and maintenance of operating programs in this state.

Any governmental agency that refers any person to, or causes their placement in, any home or institution subject to this section shall, within seven days after the referral or placement, request verification of conformance to the fire safety standards adopted by the State Fire Marshal pursuant to this section from the fire authority having jurisdiction pursuant to Sections 13145 and 13146. Any referral or placement in homes or institutions subject to this section shall be subject to rescission if the fire authority having jurisdiction subsequently informs the governmental agency that it is unable to give the requested verification

(b) Notwithstanding any other provision of law, facilities which are subject to the provisions of subdivision (a) and which are used for the housing of persons, none of whom are physically or mentally

handicapped or nonambulatory persons within the meaning of Section 13131, shall not be required to have installed an automatic sprinkler system or an automatic fire alarm system. In adopting regulations affecting facilities specified in this subdivision, the State Fire Marshal shall take into consideration the ambulatory and nonhandicapped status of persons housed in such facilities.

Such written permission shall not be valid unless it includes a description of the land satisfying the requirements of Section 67683 and the address and telephone number of the landowner.

Persons harvesting five or fewer native plants, for purposes other than resale, and persons cutting, removing, harvesting, transporting, or possessing any dead mesquite or palo verde, for purposes other than resale, in amounts less than one cord shall not be required to obtain and exhibit any permits, tags and seals, or wood receipts.

CHAPTER 447

An act to amend Section 16035 of the Education Code, relating to school buildings, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 16035 of the Education Code is amended to read:

16035. The board may approve, in whole or in part, an application submitted by a school district under Section 16024 and in such amount, not exceeding the amount applied for, as the board may deem appropriate.

The board may, upon approval of the application, in whole or in part, and subsequently from time to time, make a conditional apportionment or conditional apportionments not exceeding in the aggregate the total amount determined by the board as aforesaid, to the applicant school district from the State School Building Aid Fund for such portion or portions of the construction project as the board determines the district is ready to proceed with. If the board has approved an application and made an apportionment as to a portion or portions of a construction project, the board may approve the remaining portion or portions of the construction project and make an additional apportionment or apportionments within five years after the original approval without requiring a district to issue additional bonds. The board may also make an additional apportionment or apportionments for a period of time in excess of five years after the original approval without requiring a district to issue additional bonds if it has made a finding that such additional apportionment or apportionments are justified by virtue of the fact that state funds were not available for apportionment within the two-year period after the original approval because of the inability of the state to sell authorized state bonds within the maximum permitted interest rate.

If the board determines that the actual cost is in excess of the estimated cost of the specific school plant facilities or sites for which an apportionment to a district has been made, or for which a district's application has been approved in whole or in part pursuant to this section, the board may make an additional apportionment to such district in an amount equal to such excess even though such additional apportionment will result in the total apportionments to the district exceeding the amount of the application originally approved by the board. Before such additional apportionment becomes final the district, pursuant to Section 16058, shall hold an election to repay the amount of such additional apportionment which is in excess of the amount which the district has previously voted to repay. Such additional apportionment shall become final when the county superintendent of schools transmits to the board and the State Controller a certificate in duplicate stating that the school district has authorized the acceptance and expenditure of the necessary amount of such excess. If such additional apportionments are made by the board within five years after the original approval, except an apportionment made final pursuant to subdivision (c) of Section 16058, the district shall not be required to issue additional

bonds

Except as otherwise provided in this section, all provisions of this chapter relating to apportionments shall apply to apportionments made under this section.

Whenever an apportionment has heretofore been made or is hereafter made to a district for a site and the district heretofore or hereafter proposes to acquire the site through negotiation or condemnation but the total acquisition cost thereof, plus all other costs incidental to either the acquisition or condemnation of the site, exceeds or exceeded the apportionment for the site, the board may at any time hereafter make an additional apportionment to provide for the differential in total acquisition cost without the district being required to issue additional bonds to qualify, providing the board finds (1) that it is in the interest of the state to proceed with the acquisition despite the acquisition costs, and (2) that the district is unable to provide, or it would be a hardship to require it to provide, the excess costs. The board may also, in its discretion, as a condition of making such apportionment, require the district to repay in full all or any part of the excess apportionment, under such terms and conditions as the board deems desirable, and the district shall be empowered and obligated to comply if it accepts the excess apportionment, notwithstanding any other law to the contrary; provided, (1) that no such repayment shall be required from any source that would be exempt from required contribution toward the cost of a project under Sections 16024 and 16031 (excepting amounts in the General Fund raised by taxes to pay any judgment requiring such repayment), and (2) that any portion of the apportionment not required to be repaid in full, shall be repayable in the same manner as a construction apportionment.

Approval of an application under this section shall not be construed as creating or implying any obligation, commitment or promise on the part of the board or the state to make apportionments under this chapter

SEC. 2. This act is an urgency statute necessary for the immmediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

Due to inflationary construction prices school districts are finding it difficult to obtain bids within their budgets, complete approved construction projects, and qualify for specified apportionments within two years of the original approval of such projects. In order to prevent, at the earliest possible date, certain school districts from losing the ability to qualify for such apportionments, it is necessary that this act take effect immediately.

The decision of the committee shall be final.

5325 When the person conducting the election has selected the arguments for and against the measure which will be printed and distributed to the voters, he shall send copies of the argument in favor of the measure to the authors of the argument against, and copies of the argument against to the authors of the argument in favor.

The authors may prepare and submit rebuttal arguments not exceeding 250 words.

The rebuttal arguments shall be filed with the county clerk not more than 10 days after the final date for filing direct arguments. Words used in the title shall not be counted when determining the length of any rebuttal argument.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 76420 of the Education Code is amended to read:

76420. The governing board of any community college district may appoint a supervisor of health, or supervisors of health, consisting of a physician, clinical psychologist, psychiatrist, nurse, oculist, dentist, optometrist, otologist, podiatrist, audiologist, dental hygienist, or any one or more of such persons. In case of the appointment of more than one supervisor of health the supervisors may, in the discretion of the board, all be chosen from any one of the classes designated

The board may also appoint such number of school audiometrists, physical therapists, and occupational therapists as it may deem necessary to work under the direction of the supervisor of health and may provide for the compensation of such employees. No money set aside for the payment of instructors' salaries or for library purposes shall be used for this purpose.

Notwithstanding any other provision of law, the governing board of any community college district may appoint or employ psychological interns, as defined by Section 76426, to augment and provide student health services.

Such interns shall be under the direction of a licensed clinical psychologist or psychiatrist, and such psychologist or psychiatrist shall work with the supervisor of health to coordinate services provided by psychological interns.

SEC. 2. Section 76426 is added to the Education Code, to read:

76426 (a) As used in this article "psychological intern" means a person enrolled in the doctoral program in clinical psychology or social psychology at an accredited college or university, or a person who has been awarded the doctorate in clinical psychology or social psychology, who provides services, as described in subdivision (c), under the direction of a licensed clinical psychologist or psychiatrist.

(b) A psychological intern shall not be required to hold a credential or certification document issued by the Board of Governors of the Community Colleges, the Commission for Teacher

Preparation and Licensing, or any other state agency.

SEC. 3. The provisions of this act permitting the governing board of any community college district to appoint or employ psychological interns, as defined in Section 2 of this act, do not constitute a change in, but are declaratory of existing law.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are:

There is and has been a compelling need to have psychological interns appointed or employed by the governing boards of community college districts to augment student health care services. The governing boards of several community college districts have recognized this need and, acting under the permissive authority of Section 72233 of the Education Code, have appointed or employed such interns. A restrictive interpretation of the Education Code has prevented other governing boards from so augmenting their student health care services.

In order to affirm the permissive authority of the code and to clarify the authorization given to governing boards of community college districts to appoint or employ interns so that such interns may be appointed or employed at the earliest time possible, it is necessary that this act take effect immediately.

CHAPTER 463

An act to amend Sections 9841 and 9844 of, to add Section 9844.5 to, and to repeal Chapter 14 (commencing with Section 22250) of Division 8 of, the Business and Professions Code, relating to electronic and appliance repair.

(2) Making any false promises of a character likely to influence, persuade, or induce a customer to authorize the repair, service, or maintenance of the equipment covered by this chapter.

(3) Acting for more than one customer in a transaction without the knowledge or consent of all parties thereto.

(4) Any other conduct which constitutes fraud or dishonest dealing.

(5) Conduct constituting incompetence or negligence.

(7) Any willful departure from or disregard of accepted trade standards for good and workmanlike repair.

(8) Conviction of a crime which has a substantial relationship to the qualifications, functions and duties of a registrant under this chapter, in which event the record of the conviction shall be conclusive evidence thereof.

(b) The director may also refuse to validate, or may invalidate temporarily or permanently, the registration of a service dealer if the applicant or registrant, as the case may be, has committed acts or crimes constituting grounds for denial of licensure under Section 480.

(c) The director may also refuse to validate, or may invalidate temporarily or permanently, the registration of a service dealer if the applicant or registrant, as the case may be, will be or is holding the registration for the benefit of a former registrant whose registration has been revoked and who will still have some involvement in the applicant's or new registrant's business.

SEC 2 Section 9844 of the Business and Professions Code is amended to read:

SEC. 5. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because this act creates a new crime or infraction, eliminates a crime or infraction, or changes the penalty for a crime or infraction. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 464

An act to amend Sections 10471, 10474, and 10474 5 of the Business and Professions Code, relating to real estate.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows:

SECTION 1 Section 10471 of the Business and Professions Code is amended to read

10471. (a) When any aggrieved person obtains a final judgment in any court of competent jurisdiction against any person or persons licensed under this part, under grounds of fraud, misrepresentation, deceit, or conversion of trust funds arising directly out of any transaction when the judgment debtor was licensed and performed acts for which a license is required under this part, and which cause of action occurred on or after July 1, 1964, the aggrieved person may, upon the judgment becoming final, file a verified application in the court in which the judgment was entered for an order directing payment out of the separate account in the Real Estate Fund for education, research, and recovery purposes of the amount of actual and direct loss in such transaction up to the sum of ten thousand dollars ($10,000) of the amount unpaid upon the judgment, provided that nothing shall be construed to obligate such separate account for more than ten thousand dollars ($10,000) per transaction regardless

of the number of persons aggrieved or parcels of real estate involved in such transaction.

In the case of a small claims court judgment, the aggrieved person shall file the verified application in the justice or municipal court in which the judgment was entered in favor of the aggrieved person. Such court shall then make a determination as to whether the small claims court judgment was based on facts consituting grounds for recovery under this section and may enter an order directing payment of such small claims court judgment out of the separate account in the Real Estate Fund for education, research, and recovery purposes.

A copy of the verified application shall be served upon the commissioner and the judgment debtor and a certificate or affidavit of such service filed with the court.

(b) Notwithstanding subdivision (a), the liability of that portion of the separate account in the Real Estate Fund for education, research, and recovery purposes, for which the cause of action occurred on or after January 1, 1980, shall not exceed twenty thousand dollars ($20,000) per transaction, for any transaction which is a basis for the judgment or judgments, regardless of the number of persons aggrieved or the number of parcels of real estate involved, or the number of licensees who participated in the transaction.

SEC. 2 Section 10474 of the Business and Professions Code is amended to read:

10474. If the court finds after the hearing that the claim should be levied against the portion of the separate account in the Real Estate Fund for education, research, and recovery purposes allocated for the purpose of carrying out the provisions of this article, the court shall enter an order directed to the commissioner requiring payment from the separate account in the Real Estate Fund for education, research, and recovery purposes of whatever sum it shall find to be payable upon the claim pursuant to the provisions of and in accordance with the limitations contained in this article.

Notwithstanding any other provision of this article, the liability of that portion of the separate account in the Real Estate Fund for education, research, and recovery purposes allocated for the purposes of this article shall:

(a) Not exceed twenty thousand dollars ($20,000) for any one licensee for which the cause of action occurred on or after July 1, 1964, and prior to January 1, 1975.

(b) Not exceed forty thousand dollars ($40,000) for any one licensee for which the cause of action occurred on or after January 1, 1975, and prior to January 1, 1980.

(c) Not exceed one hundred thousand dollars ($100,000) for any one licensee for which the cause of action occurred on or after January 1, 1980

SEC 3 Section 10474 5 of the Business and Professions Code is amended to read

10474 5 If the amount of liability of the separate account in the

Real Estate Fund for education, research, and recovery purposes, whichever is applicable, as provided for in Section 10474 is insufficient to pay in full the valid claims of all aggrieved persons by whom claims have been filed against any one licensee, such amount shall be distributed among them in the ratio that their respective claims bear to the aggregate of such valid claims, or in such other manner as the court deems equitable. Distribution of such moneys shall be among the persons entitled to share therein, without regard to the order of priority in which their respective judgments may have been obtained or their claims have been filed. Upon petition of the separate account in the Real Estate Fund for education, research, and recovery purposes, the court may require all claimants and prospective claimants against one licensee to be joined in one action, to the end that the respective rights of all such claimants to the separate account in the Real Estate Fund for education, research, and recovery purposes may be equitably adjudicated and settled.

CHAPTER 465

An act to amend Sections 11158 and 14006 of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows.

SECTION 1. Section 11158 of the Welfare and Institutions Code is amended to read

11158 The Legislature recognizes that certain property and rights owned by a recipient, including a recipient of aid to families with dependent children, are of negligible value in enabling the recipient to meet his present needs, and cannot be classified as available resources of the recipient. It is the purpose of this section to designate such property and rights.

For the purposes of evaluating the personal property of a recipient, the value of the following items, in the aggregate, shall be whatever amount paid exceeds one thousand dollars ($1,000):

(a) Money or securities placed in an irrevocable trust for funeral, cremation, or interment expenses with any of the trustees mentioned in Section 7736 of the Business and Professions Code or Section 8775 of the Health and Safety Code.

(b) Life or burial insurance purchased specifically for funeral, cremation, or interment expense, which is placed in an irrevocable trust or which has no loan or surrender value available to the recipient

(c) Securities issued by a licensed cemetery authority which by their terms are convertible into payment for funeral, cremation, or

interment expenses.

For the purposes of evaluating the personal property of a recipient, interment plots as defined in Section 7022 of the Health and Safety Code shall be deemed to have no value.

SEC. 2. Section 14006 of the Welfare and Institutions Code is amended to read:

14006. For the purposes of Sections 14005.4 and 14005.7, the term "other resources" means the real or personal property, or any combination of both, held by a medically needy or medically indigent individual.

The amount of other resources is limited to not more than one thousand five hundred dollars ($1,500) for an aged, blind or disabled individual, or not more than three thousand dollars ($3,000) for an aged, blind or disabled individual and his spouse. For a medically needy family person or for a medically indigent person or family, this limit shall be established at not less than one thousand five hundred dollars ($1,500) and not more than three thousand dollars ($3,000), in accordance with family size. In addition, a medically needy or medically indigent person or family may retain other property in accordance with the provisions of Sections 11153.7, 11158, and 12152 of this code and any additional resources allowed under the provisions of Title XVI of the Social Security Act. The director, to meet the requirements of the Federal Social Security Act and to insure the highest percentage of federal financial participation in the program provided by this chapter, may decrease or increase the amounts set forth herein. If the holdings are in the form of real property, the value shall be computed on the basis of four times the assessed value less the unpaid amount of any encumbrance of record. If the holdings consist of money on deposit, the value shall be the actual amount thereof. If the holdings are in any other form of personal property or investment, except life insurance, the value shall be the conversion value as of the date of application or the anniversary date of such application. If the holdings are in the form of life insurance, the value shall be the cash value as of the policy anniversary nearest the date of such application.

The value of property holdings shall be determined as of the date of application and, if the person is found eligible, this determination shall establish the amount of such holdings to be considered during the ensuing 12 months except as provided in the following paragraph:

A new determination to govern during the succeeding 12 months shall be made on the first anniversary date of the application or such alternate date as may be established following the acquisition of additional holdings as provided in the following paragraph and on each succeeding anniversary date thereafter.

If any person shall by gift, inheritance, or other manner, acquire additional holdings during any such interval, other than from his own earnings, he shall immediately report such acquisition, and the anniversary date shall become the date of such acquisition.

In establishing standards for the determination of the reasonable portion of property valuation applicable to the costs of health care, the director shall provide for application of not less than 1 percent of the value of holdings in excess of the limitations and exemptions set forth in Section 11153.7.

SEC. 3. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, there shall be no appropriation made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local government by this act can be accomplished with no additional cost to local government. It is recognized, however, that a local agency or school district may pursue any other remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 466

An act to amend Sections 22451, 22458.1, and 22480 of, and to add Section 22481 to, the Financial Code, relating to loans.

[Approved by Governor September 5, 1979 Filed with Secretary of State September 5, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 22451 of the Financial Code is amended to read:

22451. Every licensee who lends any sum of money may contract for and receive charges at a rate not exceeding the sum of the following:

(a) 2½ percent per month on that part of the unpaid principal balance of any loan up to, including, but not in excess of two hundred twenty-five dollars ($225).

(b) 2 percent per month on that portion of the unpaid principal balance in excess of two hundred twenty-five dollars ($225) up to, including, but not in excess of nine hundred dollars ($900).

(c) 1½ percent per month on that part of the unpaid principal balance in excess of nine hundred dollars ($900) up to, including, but not in excess of one thousand six hundred fifty dollars ($1,650).

(d) 1 percent per month on any remainder of such unpaid balance in excess of one thousand six hundred fifty dollars ($1,650).

SEC. 2. Section 22458 1 of the Financial Code is amended to read:

22458.1. Credit life insurance on the life of a borrower and credit disability insurance shall not be deemed to be a collateral sale, purchase, or agreement within the terms of Section 22004, 22456 or 22457 when such insurance is provided in accordance with the provisions of the Insurance Code and this section.

(a) A licensee may provide insurance on the life of one or more

borrowers and credit disability insurance to provide indemnity for payments becoming due on the indebtedness, with his or her consent, the form to be approved by the Insurance Commissioner and in an amount not in excess of the amount of the indebtedness and may collect from the borrower an amount not in excess of that permitted by subdivision (d) of this section If the loan is prepaid in full by cash, a new loan, refinancing or otherwise (except by said insurance) before the final installment date the borrower shall receive a rebate of said amount computed in accordance with the formula approved by the Insurance Commissioner pursuant to Section 779.14 of the Insurance Code. When charges for the loan are precomputed in accordance with Section 22480, any permitted deferment charge may be computed on the combined total of the precomputed charge and the life or credit disability insurance charge. Only one such amount may be collected in connection with any loan contract irrespective of the number of borrowers, and only one borrower need be insured. Such amount may be deducted from the principal of the loan. If such life or disability insurance is provided, and if the insured borrower dies or becomes disabled during the term of the loan contract, the insurance shall be sufficient to pay the total amount due on the loan (excluding unearned charges) outstanding on the date of his death, or all amounts which become due on the loan thereafter during the period of such disability, as the case may be, without any exception, reservation or limitation, subject, however, to the provisions of Section 22458.2. Any such life or disability insurance as is provided shall be in force as soon as the loan is made.

(b) No licensee shall decline new or existing insurance which meets or exceeds the standards set forth in this section, nor prevent any borrower from obtaining such insurance coverage from other sources. A licensee shall not require credit life or disability insurance as a condition of making a loan

(c) If a borrower procures such insurance by or through a licensee, the statement required by Section 22473 shall disclose the cost thereof to the borrower, and the licensee shall deliver or cause to be delivered to the borrower a copy of the policy, certificate, or other evidence thereof, within a reasonable time. In the event a licensee provides credit disability insurance pursuant to this division, the licensee shall also deliver an understandable written statement to the borrower detailing the conditions when the borrower will be entitled to make a claim under the insurance policy and the procedure to be followed in making such claim. This statement shall be first approved by the commissioner.

(d) The amount charged to the borrower for such insurance shall not exceed in the case of credit life insurance the amount provided in (1) or (2) following, whichever is less, or, in the case of credit disability insurance, unless a regulation has been promulgated and established pursuant to subdivision (e) of this section, in which case the amount charged shall not exceed the amount prescribed by such

regulation, the amount provided in (1) following:

(1) The premium rate filed with the Insurance Commissioner for the coverage provided pursuant to Article 5.9 (commencing with Section 779.1) of Chapter 1, Part 2, Division 1 of the Insurance Code and which has not been disapproved by him, or

(2) Fifty cents ($0.50) per year per one hundred dollars ($100) of indebtedness (and in the same proportion for longer or shorter maturities and larger or smaller amounts) or such different maximum as shall have been fixed by the Insurance Commissioner by a valid and effective regulation adopted on or after December 31, 1961, and applicable to all licensees under the Personal Property Broker Law.

(e) Each two years beginning in 1961, the commissioner shall, not later than 90 days after the date when licensees are required to file annual reports pursuant to Section 22408 compile and send to the Insurance Commissioner the total dollar amount of all death and disability claims paid on insured borrowers together with data from which the amounts at risk may be calculated, the sum of the total charges collected by such licensees for such insurance and data as to the actual costs to such licensees for providing and servicing such insurance (excluding any sums paid to or received from insurance companies) for each of the 12 months during each of the preceding years being reported upon. The Insurance Commissioner shall study the data so furnished by the Commissioner of Corporations together with any trend factors established by other California credit life and disability insurance experience and shall promulgate and establish a general regulation fixing the maximum which may be charged for such insurance by licensees hereunder having due regard to the relation of the total amount of death and disability claims paid to the amounts at risk during the same period, and a reasonable margin for contingencies and cost and compensation to licensees for providing and servicing such insurance, plus the premium taxes payable on the probable premiums to be charged by insurers, plus the probable, but not unreasonable, markup to be added by insurers to the risk cost. Any such changed maximum rate of premium or identifiable charge shall not affect any insurance then in force on borrowers. Any regulation under this section shall be adopted after a hearing and in accordance with Chapter 4.5 (commencing with Section 11371) of Part 1 of Division 3 of Title 2 of the Government Code.

SEC. 3. Section 22480 of the Financial Code is amended to read:

22480. This article applies only to loan contracts payable in substantially equal and consecutive monthly installments of principal and charges combined, the first of which is due not less than 15 days nor more than one month and 15 days from the date the loan is made. In lieu of computing charges and applying payments as provided in Section 22454, a licensee may precompute charges and apply payments as follows:

(a) The total charges which would be earned if the contract were repaid exactly according to its terms, at the monthly rate stated in

the contract, may be precomputed when the loan is made and added to the principal of the loan. For the purpose of computation a month shall be that period of time from any date in one month to the corresponding date in the next month and if there is no such corresponding date, then to the last day of such next month. The principal amount of the loan shall be its face value as referred to in Section 22455. Every payment may be applied to the combined total of principal and precomputed charges until the contract is fully paid. The acceptance of payment of charges on loans made under the provisions of this article shall not be deemed to constitute payment, deduction or receipt thereof in advance nor compounding under Section 22455. Such precomputed charges shall be subject to the following adjustments:

(1) The portion of the precomputed charge applicable to any particular monthly installment period shall bear the same ratio to the total precomputed charge, excluding any adjustment made for a first period of more than one month, as the balance scheduled to be outstanding during that monthly period bears to the sum of all monthly balances scheduled originally by the contract of loan.

(2) If the loan contract is paid in full by cash, a new loan, refinancing or otherwise, the borrower shall receive a rebate of that portion of the precomputed charge which rebate shall be the difference between the total precomputed charge and the charges at the contract rate computed in accordance with the provisions of Section 22454 or 22454.1. The tender, by the borrower or at his request, of an amount equal to the unpaid balance less the required rebate must be accepted by the licensee in full payment of the contract.

(3) If three or more, but not all, installments are prepaid in full at any one time all of the prior charges for the loan shall be recalculated and all subsequent charges for the remaining term of the loan shall be recalculated by applying each payment first to charges and the remainder to principal in accordance with the provisions of Section 22454 or 22454.1.

(4) If the payment date of all wholly unpaid installments on which no default charge has been collected is deferred one or more full months and the contract so provides, the licensee may charge and collect a deferment charge. Such deferment charge shall not exceed the portion of precomputed charge applicable, prior to deferment, to the first deferred monthly installment period multiplied by the number of months the maturity of the contract is deferred. Such number of months shall not exceed the number of full installments which are in default on the date of deferment or which may become due within 15 days of such date. When a deferment charge is made, no portion of the precomputed charge shall apply to the installment periods in which no installment payment is required by reason of the deferment. In computing any default charge or required rebate, the portion of the precomputed charge applicable to each deferred balance and installment period following the deferment period and

prior to the deferred maturity shall remain the same as that applicable to such balances and periods under the original contract of loan. Such charge may be collected at the time of deferment or at any time thereafter. Any payment received at the time of deferment may be applied first to the deferment charge and the remainder, if any, applied to the unpaid balance of the contract; provided, however, if such payment is sufficient to pay, in addition to the appropriate deferment charge, any installment which is in default and the applicable default charge, it shall be first so applied and any such installment shall not be deferred nor subject to the deferment charge.

(5) In the event of default of more than 10 days in the payment of one-half or more of any scheduled installment, the licensee may charge and collect a default charge not exceeding an amount equal to the portion of the precomputed charge applicable to the final installment period. Such charge may not be collected more than once for the same default and may be collected at the time of such default or at any time thereafter. If such default charge is deducted from any payment received after default occurs, and such deduction results in the default of a subsequent installment, no charge may be made for the resulting default.

(6) A borrower and licensee may agree that the first installment due date may be not more than 15 days more than one month and the amount of such installment may be increased by one-thirtieth of the portion of the precomputed charge applicable to a first installment of one month for each extra day.

(b) The statement to be given to the borrower as provided in subdivision (a) of Section 22473 and the contract shall disclose in addition to other required information the principal amount of the loan exclusive of charges and the basis for computing the refund of precomputed charges in case of prepayment in full or acceleration of maturity and for computing default and deferment charges. The delivery of a receipt for each payment showing the total amount of each payment is compliance with subdivision (d) of Section 22473.

(c) If the maturity of the contract when the charges are precomputed is accelerated for any reason, the licensee shall make the same refund or credit as would be required if the contract was paid in full on the date of acceleration and the unpaid balance shall be treated as the unpaid principal balance and thereafter the unpaid balance of the contract shall bear charges at the agreed rate of charge if the loan contract so provides.

SEC 4 Section 22481 is added to the Financial Code, to read:

22481. With respect to precomputed loans, licensees shall be subject only to, comply only with and derive authority only from Section 22480, notwithstanding any other provision of law which is not within this division.

SEC. 5. The amendments made to Sections 22451, 22458.1 and 22480 of the Financial Code by this act shall apply only to loan contracts entered into on or after January 1, 1980

(b) Educational assessment service. The educational assessment service shall consist of professional specialists representing health services, psychology, social work, speech, language, hearing, and special education, who shall conduct assessments as appropriate and participate in the development of the individualized education program and make recommendations for placement of pupils referred to the education assessment service.

For each pupil whose individualized education program is being determined by an educational assessment service team, a

psychological and health assessment of that pupil shall have been conducted.

The educational assessment service team shall determine the content of the individualized education program and make placement recommendations for pupils who attend special classes or centers and for any pupil who will attend a school or program other than the pupil's normal school of attendance, except for pupils at home or in a hospital for a short-term physical disability, and for any pupil who requires a more intensive study.

procedures and criteria in effect at the time of such admission shall be admitted to programs under this chapter on the same basis as pupils recommended by a school appraisal team or an educational assessment service.

(c) The parent of the pupil shall be notified in writing in ordinary and concise language and in the primary language of the pupil's home, of the findings of the assessment, the recommended educational decision, and the reasons therefor. The notice shall state that:

(1) A conference with the parent and his or her representative will be scheduled upon request.

(2) If the parent disagrees with the recommended educational decision, he or she has the right to procure, at public expense, an independent educational assessment of the child from qualified specialists, as defined by rules and regulations of the board, which assessment will become a part of the pupil's record. However, if a fair hearing panel formed pursuant to Section 56341.3 determines that the recommended educational assessment and decision obtained by the local educational agency is appropriate, the parent still has the right to an independent educational assessment, but not at public expense.

(3) The parent has the right to have the recommended educational decision reviewed.

(d) The psychological assessment of pupils under procedures required by subdivision (i) of Section 56301 shall be conducted by a credentialed school psychologist who is adequately trained and prepared to assess cultural and ethnic factors.

Such an interim placement may be made without the complete documentation specified in subdivision (a). Before the expiration of the 30-day period such interim placement shall be reviewed by the school appraisal team or the educational assessment service and a final recommendation shall be made by the team or service in accordance with the requirements of this chapter. The team or service may utilize information, records, and reports from the admission proceedings of the school district or county program from which the pupil transferred

Within 30 calendar days after the petition for review has been filed, the superintendent or his or her designee or designees shall render a written, reasoned decision, which shall be the final administrative determination. Within 30 calendar days following the filing of such petition, a copy of the written decision shall be transmitted to the parent and the responsible local agency to inform them of the effective date of that determination and to notify either party of the right to appeal to a court of competent jurisdiction Upon the request of either party, the superintendent may extend the 30-day time limit

Each fiscal year the amount set forth in this subdivision shall be adjusted for inflation. The adjustment factor shall be jointly determined by the Department of Education and the Department of Finance.

At any time during the term of the contract the parent, nonpublic school, or responsible local agency may request a review of the pupil's individualized educational program by the educational assessment service. Changes in the administrative or financial agreements of the contract which do not alter the educational services or placement may be made at any time during the term of the contract as mutually agreed by the nonpublic school and the responsible local agency.

This examination shall include use of adaptive behavior scales. The State Board of Education shall adopt guidelines pertaining to the selection and use by school districts of adaptive behavior scales and instruments. If the language spoken in the home is other than English, such interviews shall be conducted in the language of the home.

In the case of a pupil whose primary home language is other than English, the psychological evaluation shall be conducted in the pupil's primary home language It shall be administered by a

After the individual psychological evaluation is completed, the psychologist shall confer with the parent or guardian or his authorized representative regarding the recommendation to the admission committee. Following the admission committee meeting, a committee member shall meet with the parent or guardian or his authorized representative to discuss the committee conclusion and to obtain written permission for placement.

It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 1205.5 is added to the Health and Safety Code, to read:

1205.5. Nothing in this section shall, however, be construed to exempt a clinic subject to this section from the requirement for a certificate of need with respect to projects specified in subdivision (c), (d), or (e) of Section 437 10, or with respect to changes of licensure category occurring subsequent to initial licensure as a specialty clinic pursuant to this section

A clinic which has been verified by the Licensing and Certification Division of the State Department of Health Services and the Office of Statewide Health Planning and Development as having (1) provided surgical services, (2) been licensed as an outpatient clinic and (3) been eligible to receive Medi-Cal reimbursement as an outpatient clinic in connection with such surgical services, before September 26, 1978, and which meets the requirements for licensure as a surgical clinic, need not operate on an open-staff basis in order to be licensed as a surgical clinic.

SEC. 2 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are

Unless immediate legislative action is taken, uncertainties resulting from the implementation of Chapter 1147 of the Statutes of 1978 may require outpatient clinics providing necessary surgical and kidney dialysis services to suspend their current services with attendant great medical and financial hardship to patients and the clinics.

CHAPTER 491

An act to add Section 22017 to the Government Code, relating to public employees.

[Approved by Governor September 7, 1979. Filed with Secretary of State September 7, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 22017 is added to the Government Code, to read:

22017. Notwithstanding any other provision of law, the state and any public agency may establish a separate object of appropriation or a subobject of appropriation within salaries and employee benefits for the payment of compensation to employees who are on approved leaves of absence on account of sickness. An act to amend Section 17500 of the Business and Professions Code, relating to untrue advertising.

[Approved by Governor September 7, 1979. Filed with Secretary of State September 7, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 17500 of the Business and Professions Code is amended to read:

17500. It is unlawful for any person, firm, corporation or association, or any employee thereof with intent directly or indirectly to dispose of real or personal property or to perform services, professional or otherwise, or anything of any nature whatsoever or to induce the public to enter into any obligation

relating thereto, to make or disseminate or cause to be made or disseminated before the public in this state, or to make or disseminate or cause to be made or disseminated from this state before the public in any state, in any newspaper or other publication, or any advertising device, or by public outcry or proclamation, or in any other manner or means whatever, any statement, concerning such real or personal property or services, professional or otherwise, or concerning any circumstance or matter of fact connected with the proposed performance or disposition thereof, which is untrue or misleading, and which is known, or which by the exercise of reasonable care should be known, to be untrue or misleading, or for any such person, firm, or corporation to so make or disseminate or cause to be so made or disseminated any such statement as part of a plan or scheme with the intent not to sell such personal property or services, professional or otherwise, so advertised at the price stated therein, or as so advertised. Any violation of the provisions of this section is a misdemeanor punishable by imprisonment in the county jail not exceeding six months, or by a fine not exceeding two thousand five hundred dollars ($2,500), or by both.

SEC 2 Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, there shall be no appropriation made by this act pursuant to these sections because the Legislature recognizes that during any legislative session a variety of changes to laws relating to crimes and infractions may cause both increased and decreased costs to local agencies and school districts which, in the aggregate, do not result in significant identifiable cost changes. Paragraph (2) of subdivision (c) of Section 2253.2 of that code precludes the State Board of Control from considering claims for costs incurred by the creation of a new crime or infraction or by changes in the penalty for a crime or infraction, but the Department of Finance shall make the report required by Section 2246 of that code on costs mandated by this act.

CHAPTER 493

The people of the State of California do enact as follows:

SECTION 1. Section 798 55 of the Civil Code is amended to read.

798.55 (a) The Legislature finds and declares that, because of the high cost of moving mobilehomes, the potential for damage resulting therefrom, the requirements relating to the installation of mobilehomes, and the cost of landscaping or lot preparation, it is

necessary that the owners of mobilehomes occupied within mobilehome parks be provided with the unique protection from actual or constructive eviction afforded by the provisions of this chapter.

(b) The management shall not terminate or refuse to renew a tenancy, except for a reason specified in this article and upon the giving of written notice to the tenant in the manner prescribed by Section 1162 of the Code of Civil Procedure, to remove the mobilehome from the park within a period of not less than 60 days, which period shall be specified in the notice.

SEC. 2. The amendment of this section made at the 1979–80 Regular Session of the Legislature does not constitute a change in, but is declaratory of, existing law.

SEC. 3. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, there shall be no appropriation made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local government by this act are minor in nature and will not cause any financial burden to local government. It is recognized, however, that a local agency or school district may pursue any other remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 495

The people of the State of California do enact as follows:

SECTION 1. Section 1170.3 of the Penal Code is amended to read:

1170.3. The Judicial Council shall seek to promote uniformity in sentencing under Section 1170, by:

(a) The adoption of rules providing criteria for the consideration of the trial judge at the time of sentencing regarding the court's decision to:

(1) Grant or deny probation.

(2) Impose the lower or upper prison term.

SEC. 3. Article 10.5 (commencing with Section 55701) is added to Chapter 6 of Division 20 of the Food and Agricultural Code, to read:

Article 10.5. Liens on Livestock Sold or Delivered to Meatpackers

The lien shall commence on the date of the transfer of possession of the livestock to the meatpacker and shall have priority over all other liens upon, and security interests in, the livestock and the identifiable proceeds and products thereof, without regard to the time of attachment or perfection of such other liens or security interests and shall remain a lien upon the livestock and the identifiable proceeds and products thereof notwithstanding sale, exchange, or other disposition thereof.

The statement shall be in writing, verified by the oath of the person filing, and shall contain all of the following:

(1) The name and address of the person filing

(2) A statement of the amount demanded by the person filing the statement after deducting all credits and offsets.

55703. Except as provided in this section, any lien created under Section 55702 shall continue in force for a period of five years from the date of filing of the notice of lien. The lien shall cease at the expiration of five years unless the claimant thereof, or his assignee, or successor in interest, brings suit to foreclose the lien, in which case the lien continues in force until such lien foreclosure suit is finally determined and closed. If such foreclosure proceeding is not prosecuted to trial within two years after the commencement thereof, the court may in its discretion dismiss the foreclosure suit.

The plaintiff in any such lien foreclosure suit may have the property upon which such lien subsists attached, as provided in the Code of Civil Procedure.

Any number of persons claiming liens under this article may join in the same action and when separate actions are commenced, the court may consolidate them. Whenever the sale of the property subject to any lien or liens provided for in this article, under the judgment or decree of foreclosure of such lien or liens, results in a deficiency of proceeds, the proceeds shall be divided pro rata among the lien claimants whose liens are established, regardless of the order in which the liens were created or the order in which the suits to foreclose same were commenced, and the judgment or decree for the deficiency may be docketed against the party personally liable therefor and his sureties, in the same manner and with the same effect as in actions for the foreclosure of security interests.

Any person bringing such personal action may take out a separate attachment therefor, notwithstanding his lien or the amount of his debt In the affidavit to procure an attachment pursuant to such personal action, such person shall state that the attachment is made

pursuant to this section, and the judgment, if any, obtained by the plaintiff in such personal action shall not be construed to impair or merge any lien held by such person under this article Any money collected on such personal judgment shall be credited on the amount of such lien in any action brought to enforce the lien.

55704. Any rights or remedies granted to a person who sells livestock pursuant to this article, are in addition to any other rights or remedies provided by law for such seller.

SEC. 3.5 Section 56109 of the Food and Agricultural Code is amended to read·

CHAPTER 498

An act to amend Section 16058, relating to school building aid, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979.]

The people of the State of California do enact as follows:

SECTION 1. Section 16058 of the Education Code is amended to read:

16058. No apportionment to a school district shall become final unless (a) the total amount of outstanding bonds of the district exceeds ninety-five percent (95%) of the basic bond requirement of the district on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars ($25,000) of the basic

bond requirement of the district on the date the conditional apportionment is made, or (b) if the total amount of the bonds of the district outstanding and unpaid is within twenty-five thousand dollars ($25,000) of the basic bond requirement of the district, as of the date on which the conditional apportionment is made, or (c) the district has issued and sold pursuant to this section, and as a condition to the initial conditional apportionment, an amount of bonds equal to the total cost of the project for which the apportionment was made, including necessary contingencies. At the time the board makes a conditional apportionment pursuant to Section 16024, it shall determine the total amount of bonds which shall be issued and sold by such district, the proceeds of which shall be applied toward the cost of the project for which the apportionment is sought The amount so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section. Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of such bonds by the district. The amount of any apportionment for a construction project made as a consequence of applying district bond proceeds toward the reduction of prior apportionments pursuant to this section instead of applying the district bond proceeds toward the cost of such construction project, shall be excluded in determining the amount chargeable against the apportionments authorized by the electorate of the district to be accepted, expended and repaid. It is hereby declared that this provision, added by the amendment to this section enacted at the 1958 First Extraordinary Session of the Legislature, is not intended as a change in the law, but rather as a declaration of existing law

Any provision of this code to the contrary notwithstanding, whenever the electors of a district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made district, subsequent to any requirement by the board for the sale of bonds in connection with an apportionment, authorize the issuance of bonds for any purpose for which an apportionment could lawfully be made, such authorization shall, in addition to the purposes specified, be deemed to constitute the consent of the electors to apply the proceeds of the bonds so required to be sold by the board toward the reduction of any apportionment previously made to such district Any bond funds used to reduce any apportionment pursuant to this section shall be transferred to the State School Building Aid Fund and shall be available for reapportionment by the board The amount so determined by the board shall be not less than the minimum amount required for such apportionment to become final under this section

Any apportionment made by the board pursuant to Section 16024 shall be conditioned upon the approval and sale of such bonds by the district

No apportionment to a school district under this chapter shall become final, nor any agreement authorized by Section 16042 be entered into unless at an election called by the governing board of the district, two-thirds of the qualified electors of the district voting thereat have authorized the governing board to accept, expend and repay as provided in this chapter and apportionment under the provisions thereof or, with respect to said agreement, to obligate the district in an amount equal to or in excess of the maximum amount which the district could be obligated bonds, except that the ballot shall contain substantially the following words:

"Shall the governing board of the district be authorized (1) to accept and expend an apportionment from the State of California under and subject to the provisions of Chapter 8 (commencing with Section 16000) of Part 10 of Division 1 of Title 1 of the Education Code, which amount is subject to repayment as provided by said chapter, or (2) to enter into an agreement or agreements with the state pursuant to Section 16042 of the Education Code, which will at the time of such agreement or agreements (or at the time of any subsequent act of the governing board, or for which it is responsible, contemplated or permitted thereby) commit the district to a total expenditure in connection with all such agreements of not more than _____dollars ($_____), or both. Yes_____ No_____ "

SEC 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting such necessity are

New arbitrage regulations of the Internal Revenue Service disqualify from income tax exemption school bonds, the proceeds of which are used to refund other bonds, such as state bonds which are the basis of state loan funds. School building projects currently under construction which utilize state loan funds are in immediate need of additional moneys to meet existing contract commitments. In order to avoid the refunding problem and to make school bonds marketable so that contract commitments can be met as soon as possible, and, so the school loan program can continue, it is necessary that this act take effect immediately

(a) Prescribe, by regulation, lighting, insulation climate control system, and other building design and construction standards which increase the efficiency in the use of energy for new residential and new nonresidential buildings. Such standards shall be cost effective, when taken in their entirety, and when amortized over the economic life of the structure when compared with historic practice. The commission shall periodically update the standards and adopt such revisions as in its judgment it deems necessary. In prescribing standards for insulation, the commission shall take into consideration the standards developed pursuant to Chapter 11 (commencing with Section 19870) of Part 3 of Division 13 of the Health and Safety Code, which standards shall only be operative until the date one year after the date that the commission adopts regulations for energy insulation

for residential buildings pursuant to this subdivision. Such standards shall become effective no sooner than one year after the date of adoption or revision. No new appliance manufactured on or after the effective date of such standards may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. One year after the effective date of such standards, no new appliance, regardless of the date of manufacture, may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. Such standards shall be drawn so that they do not result in any added total costs to the consumer over the designed life of the appliances concerned

(d) Recommend minimum standards of efficiency for the operation of any new facility at a particular site which are technically and economically feasible. No site and related facility shall be certified pursuant to Chapter 6 (commencing with Section 25500) of this division, unless the applicant certifies that standards recommended by the commission have been considered, which certification shall include a statement specifying the extent to which conformance with the recommended standards will be achieved.

Whenever the provisions of this section and the provisions of Chapter 11 5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code are in conflict, the commission shall be governed by the provisions of such chapter of the Health and

Six months after the commission adopts regulations pursuant to this subdivision, no city, county, city and county, or state agency shall issue a permit for any building unless the building satisfies the standards prescribed by the commission pursuant to this subdivision or subdivision (b) of this section which are in effect on the date an application for a building permit is filed

Such standards shall be performance standards and shall be promulgated in terms of energy consumption per gross square foot of floor space, but may also include devices, systems, and techniques required to conserve energy The standards shall be cost effective when taken in their entirety, and when amortized over the economic life of the structure when compared with historic practices The commission shall periodically review the standards and adopt such revisions as in its judgment it deems necessary. A building that satisfies the standards prescribed pursuant to this subdivision need not comply with the standards prescribed pursuant to subdivision (a) of this section. The commission shall comply with the provisions of this subdivision before January 1, 1981

date of such standards may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. One year after the effective date of such standards, no new appliance, regardless of the date of manufacture, may be sold or offered for sale in the state, unless it is certified by the manufacturer thereof to be in compliance with such standards. No site and related facility shall be certified pursuant to Chapter 6 (commencing with Section 25500) of this division, unless the applicant certifies that standards recommended by the commission have been considered, which certification shall include a statement specifying the extent to which conformance with the recommended standards will be achieved.

Whenever the provisions of this section and the provisions of Chapter 11.5 (commencing with Section 19878) of Part 3 of Division 13 of the Health and Safety Code are in conflict, the commission shall be governed by the provisions of such chapter of the Health and Safety Code to the extent of such conflict.

CHAPTER 509

An act to add Section 50028 to the Government Code, relating to coin-operated viewers.

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979]

The people of the State of California do enact as follows:

SECTION 1 Section 50028 is added to the Government Code, to read.

50028. (a) The legislative body of any county, city, or city and county, whether general law or chartered, may adopt, by ordinance,

such rules and regulations as it deems necessary, which require any coin-operated viewing machine to have permanently attached thereto a tally counter which will count each coin, and accumulate such count or the accumulated amount of money, deposited in such coin-operated viewing machine. Such tally counter shall be resistant to tampering, and shall not be capable of being reset to a lower number, and shall display the count in such a manner that the accumulated total is readily visible near the coin insertion slot or opening. For the purposes of this section, "coin-operated viewing machine" means any projector, machine, television, or other device which displays for viewing motion pictures, projection slides, filmstrips, photographic pictures, video tapes, or drawings, and which is operated by the viewer, or for the viewer, by means of inserting a coin into the device, an attachment thereto, an enclosure surrounding such device, or any other device electrically or mechanically connected thereto. For the purposes of this section, "coin" means any physical object, including, but not limited to, a piece of metal issued by the federal government as money. "Coin-operated viewing machine" does not include an electronic video game of skill wherein the image is created, generated, or synthesized electronically, or coin-operated television receivers which display commercial or public service broadcasts.

(b) Notwithstanding any other provision of law, any county ordinance adopted pursuant to this section shall be enforceable within the incorporated, as well as the unincorporated, area of the county, whether general law or chartered, unless a city ordinance in direct conflict with such county ordinance has been adopted, in which case such county ordinance shall be enforceable in the area of the county outside of such city.

(c) (1) Any person who violates the provisions of the ordinance adopted pursuant to this section shall be subject to a civil penalty not to exceed ten thousand dollars ($10,000) for each such machine and each day in which such violation occurs.

(2) In determining the amount of such penalty, the court shall take into consideration all relevant circumstances, including but not limited to, the frequency of inspection, the cash flow through such machine, the amount of revenue derived by other such machines in the vicinity, prior revenues generated, the nature and persistence of the violation, and prior violations by the same person or establishment.

(d) No peace officer, as defined in Section 830 of the Penal Code, shall check such tally counters, provided, however, that an ordinance adopted pursuant to this section may provide for checking of such tally counters by a person or persons employed by the adopting county, city, or city and county, other than a peace officer, on a predetermined schedule.

(e) The provisions of this section shall not be construed to limit, or otherwise affect, any other power of a county, city, or city and county to license, tax, or regulate business or commercial enterprises

or property within their jurisdiction, but shall be in addition to such powers

SEC 2 The Legislature finds and declares that there are many private business facilities in this state which provide coin-operated viewing machines which display motion and other pictures in private enclosures, that there is insufficient recordkeeping and tallying capability on such machines to prevent "skimming" by removing coins without reporting such income to the detriment of the taxing authority of state and local government The Legislature further finds and declares that such machines are not uniformly distributed in this state, and that the problem is, therefore, one which may best be adopted and enforced at the local level of government.

CHAPTER 510

An act to amend and renumber the heading of Article 4 (commencing with Section 19170) of, and to add Article 4 (commencing with Section 19160) to, Chapter 2 of Part 3 of Division 13 of the Health and Safety Code, relating to building standards

Article 4 Earthquake Hazardous Building Reconstruction

19160 The Legislature finds and declares that.

(a) Because of the generally acknowledged fact that California will experience moderate to severe earthquakes in the foreseeable future, increased efforts to reduce earthquake hazards should be encouraged and supported

(b) Tens of thousands of buildings subject to severe earthquake hazards continue to be a serious danger to the life and safety of hundreds of thousands of Californians who live and work in them in the event of an earthquake

(c) Improvement of safety to life is the primary goal of building reconstruction to reduce earthquake hazards.

(d) In order to make building reconstruction economically feasible for, and to provide improvement of the safety of life in, seismically hazardous buildings, building standards enacted by local

government for building reconstruction may differ from building standards which govern new building construction

19161 Each city, city and county, or county, may assess the earthquake hazard in its jurisdiction and identify buildings subject to its jurisdiction as being hazardous to life in the event of an earthquake if such buildings were constructed prior to the adoption of local building codes requiring earthquake resistant design of buildings, are constructed of unreinforced masonry bearing wall construction, and exhibit any of the following characteristics

(1) Exterior parapets or ornamentation that may fall,

(2) Exterior walls that are not anchored to the floors or roof;

(3) Lacks an effective system to resist seismic forces.

Structural evaluations made pursuant to this section shall be made by an architect as defined in Section 5500 of the Business and Professions Code, or a civil or structural engineer registered pursuant to the provisions of Chapter 7 (commencing with Section 6700) of Division 3 of the Business and Professions Code, or a building inspector of the enforcing agency, as described in Section 17960, supervised by such an architect or civil or structural engineer

19162 Notwithstanding the provisions of Section 19100 or 19150 or any other provision of law, the governing body of any city, city and county, or county may, by ordinance, establish building reconstruction standards applicable to the reconstruction of any buildings identified by the city, city and county, or county as being hazardous to life in the event of an earthquake, pursuant to Section 19161 Such building reconstruction standards may be applied uniformly throughout the city, city and county, or county, or may be applied in specific areas designated by the city, city and county, or county

19163 Any local ordinance adopted pursuant to Section 19162 shall require that

(a) Any reconstruction of any building identified as being hazardous to life in the event of an earthquake shall provide for the reasonable adequacy of

(1) Unreinforced masonry walls to resist normal and inplane seismic forces,

(2) The anchorage and stability of exterior parapets and ornamentation,

(3) The anchorage of unreinforced masonry walls to the floors and roof,

(4) Floor and roof diaphragms,

(5) The development of a complete bracing system to resist earthquake forces

(b) Reconstruction of any building or portions of any building shall be designed to resist and withstand the seismic forces from any direction as set forth in the building reconstruction standards using the allowable working stresses adopted pursuant to this article

(c) The governing board of any city, city and county, or county may establish, by ordinance, standards and procedures to fulfill the intent of paragraph (2) of subdivision (a) without regard to the remainder of the requirements specified above

19163.5. Except as otherwise provided in Chapter 1 (commencing with Section 15000) of Division 12.5, an ordinance adopted by a city, city and county, or county pursuant to Section 19163, may establish higher standards for the reconstruction of those structures or buildings which are needed for emergency purposes after an earthquake in order to preserve the peace, health, and safety of the general public, including but not limited to, hospitals and other medical facilities having surgery or emergency treatment areas, fire and police stations, government disaster operations centers, and public utility and communication buildings deemed vital in emergencies

19164. Any city, city and county, or county may assign allowable working stresses to existing materials based on substantiating research data or engineering judgment Such allowable working stresses shall be limited by a safety factor which is reasonably commensurate with the importance of the element in which the material is used. In the event the local jurisdiction does not have the ability to assign such allowable working stresses, it may employ as a consultant the office of the State Architect. Allowable working stresses prepared by the office of the State Architect for any city, city and county, or county shall be subject to approval by the Seismic Safety Commission.

19165. Any city, city and county, or county adopting an ordinance establishing seismically hazardous building reconstruction standards applicable to the reconstruction of buildings identified as being hazardous to life in the event of an earthquake, shall file for informational purposes with the Department of Housing and Community Development a copy of such standards and all subsequent amendments.

19166. Any building identified as being a seismic hazard to life and reconstructed in compliance with building reconstruction standards adopted pursuant to this article and properly maintained, shall not, within a period of 15 years, be identified as a seismic hazard to life pursuant to any local building standards adopted after the date of the building reconstruction unless such building no longer meets the seismically hazardous building reconstruction standards under which it was reconstructed.

19167. Any city, city and county, or county, and its employees, are not liable for any injury or property damage resulting from the effect of an earthquake upon a building reconstructed pursuant to seismic building reconstruction standards adopted pursuant to Sections 19162 and 19164

19168 Nothing in this article shall apply to those buildings and structures governed by the provisions of Chapter 1 (commencing with Section 15000) of Division 12.5 of this code or Article 3 (commencing with Section 39140) of Chapter 2 of Part 23 of the Education Code or Article 7 (commencing with Section 81130) of Chapter 1 of Part 49 of the Education Code or any state-owned buildings or structures located in any city, city and county, or county

19169 The Seismic Safety Commission shall review and assess the effectiveness of building reconstruction standards adopted pursuant

to this article and shall recommend any necessary changes to the Legislature on or before June 30, 1985.

SEC. 2. Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to these sections because the duties, obligations, or responsibilities imposed on local agencies or school districts by this act are such that related costs are incurred as part of their normal operating procedures. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 518

An act to amend Sections 469, 533, 534, and 1605 of the Revenue and Taxation Code, relating to taxation.

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 469 of the Revenue and Taxation Code is amended to read:

469. In any case in which locally assessable trade fixtures and business tangible personal property owned, claimed, possessed or controlled by a taxpayer engaged in a profession, trade, or business has a full value of two hundred thousand dollars ($200,000) or more, the assessor shall audit the books and records of such profession, trade, or business at least once each four years. If the board determines the value of property pursuant to Chapter 2 (commencing with Section 1815) of Part 3 of this division, such determination may be deemed an audit by the assessor for purposes of this section.

Equalization of the property by a county board of equalization or assessment appeals board pursuant to Chapter 1 (commencing with Section 1601) of Part 3 of this division shall not preclude a subsequent audit and shall not preclude the assessor from levying an escape assessment in appropriate instances, but shall preclude an escape assessment being levied on that portion of any such assessment which was the subject of any such equalization hearing.

If the result of an audit for any year discloses property subject to an escape assessment, then the original assessment of all property of the assessee at the location of the profession, trade, or business for that year shall be subject to review, equalization and adjustment by the county board of equalization or assessment appeals board pursuant to Chapter 1 (commencing with Section 1601) of Part 3 of this division, except in those instances when such property had previously been equalized for the year in question.

If the audit for any particular tax year discloses that the property of the taxpayer was incorrectly valued or misclassified for any cause, to the extent that this error caused the property to be assessed at a higher value than the assessor would have entered on the roll had such incorrect valuation or misclassification not occurred, then the assessor shall notify the taxpayer of the amount of the excess valuation or misclassification, and the fact that a claim for cancellation or refund may be filed with the county as provided by Sections 4986 and 5096.

SEC. 2. Section 533 of the Revenue and Taxation Code is amended to read:

533. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be entered on the roll prepared or being prepared in the assessment year when it is so discovered and, if this is not the roll for the assessment year in which it escaped assessment, the entry shall be followed with "Escaped assessment for year 19__ pursuant to Sections _____ of the Revenue and Taxation Code."

If the assessments are made as a result of an audit which discloses that property assessed to the party audited has been incorrectly assessed either for a past tax year for which taxes have been paid and a claim for refund is not barred by Section 5097 or for any tax year for which the taxes are unpaid, the tax refunds resulting from the incorrect assessments shall be an offset against proposed tax liabilities, including accumulated penalties and interest, resulting from escaped assessments for any tax year covered by the audit. If such tax refunds exceed any proposed tax liabilities, including accumulated penalties and interest, the party audited shall be notified by the tax collector of the amount of the excess and of the fact that a claim for cancellation or refund may be filed with the county as provided by Section 4986 or 5096. In the event that the assessment caused an excess payment of taxes and therefore resulted in an overpayment by the state for property tax relief as provided by Section 219, then subsequent subventions for property tax relief shall be reduced by the amount of such overpayment.

SEC. 3. Section 534 of the Revenue and Taxation Code is amended to read·

534. Assessments made pursuant to Article 3 (commencing with Section 501) of this chapter or pursuant to this article shall be treated like, and taxed at the same rate applicable to, property regularly assessed on the roll on which it is entered, unless the assessment relates to a prior year and then the tax rate of the prior year shall be applied

No such assessment shall be effective for any purpose, including its review, equalization and adjustment by the Board of Equalization, until the assessee has been notified thereof personally or by United States mail at his address as contained in the official records of the county assessor. Receipt of the assessee of a tax bill based on such assessment shall suffice as such notice

SEC. 4. Section 1605 of the Revenue and Taxation Code is amended to read:

1605. (a) An assessment made outside of the regular assessment period is not effective for any purpose, including its review, equalization and adjustment by the county board, until the assessee has been notified thereof personally or by United States mail at his address as contained in the official records of the county assessor. Receipt by the assessee of a tax bill based on said assessment shall suffice as such notice.

(b) Upon application for reduction pursuant to subdivision (a) of Section 1603, such assessment shall be subject to review, equalization and adjustment by the county board. The application must be filed with the clerk no later than 60 days after the date on which the assessee was notified.

(c) In counties where assessment appeals boards have not been created and are not in existence, at any regular meeting, the board of supervisors, on the request of the assessor or any taxpayer, shall sit as the county board to equalize any assessments made by the assessor outside the regular assessment period for such assessments Notwithstanding any other provision of law to the contrary, in any county in which assessment appeals boards have been created and are in existence, the time for equalization of assessments made outside the regular assessment period for such assessments, including assessments made pursuant to Sections 501, 503, 504, 531, and 531.1, shall be prescribed by rules adopted by the board of supervisors.

(d) If an audit of the books and records of any profession, trade, or business pursuant to Section 469 of this code discloses property subject to an escaped assessment for any year, then the original assessment of all property of the assessee at the location of the profession, trade, or business for that year shall be subject to review, equalization and adjustment by the county board of equalization or assessment appeals board pursuant to Chapter 1 (commencing with Section 1601) of Part 3 of this division, except in those instances when such property had previously been equalized for the year in question by the county board of equalization or assessment appeals board The application must be filed with the clerk no later than 60 days after the date on which the assessee was notified. Receipt by the assessee of a tax bill based upon said assessment shall suffice as such notice.

SEC. 5 Notwithstanding Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act pursuant to those sections because the Legislature finds and declares that there are no new duties, obligations, or responsibilities imposed on local government by this act that require reimbursement. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code

As used in this section, "handicapped person" and "handicapped applicant" refer only to persons who have suffered an impairment of physical ability because of amputation or loss of function which impairment has been compensated for, when necessary, by vehicle equipment adaptation or modification; or who have suffered an impairment of hearing which impairment has been compensated for, when necessary, either by sensory equipment adaptation or modification; or who have suffered an impairment of speech; provided, that the insurer may require a handicapped applicant for such insurance or the renewal of such insurance to furnish proof that he or she has qualified for a new or renewed drivers license through the California Department of Motor Vehicles since the occurrence of the handicapping condition.

If such insurer can justify a higher rate, premium, or charge for handicapped persons with actuarial evidence, a higher rate, premium, or charge may be required.

CHAPTER 528

An act to add Section 13418 to the Water Code, relating to water pollution, and declaring the urgency thereof, to take effect immediately

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979]

The people of the State of California do enact as follows:

SECTION 1. Section 13418 is added to the Water Code, to read:

13418 Notwithstanding any provision of this chapter or any other provision of law, including, but not limited to, the provisions of Chapter 47 and 137 of the Statutes of 1966, First Extraordinary Session, Chapter 1679 of the Statutes of 1967, Chapter 1356 of the Statutes of 1969, and Chapter 920 of the Statutes of 1970, or the provisions of any existing loan contract entered into pursuant to this chapter or any other such provision of law, there shall be a two-year moratorium following the effective date of this section on that portion of the principal and interest payments otherwise required in repayment of funds heretofore loaned to the North Tahoe Public Utility District, the Tahoe City Public Utility District, the South Tahoe Public Utility District, the Truckee Sanitary District, the Squaw Valley County Water District, and the Alpine Springs County Water District pursuant to this chapter or any act of the Legislature authorizing a state loan for the purpose of permitting any such agency to construct necessary sewage and storm drainage facilities to prevent and control water pollution in the area served by such agency, equal in percentage, as determined by the Department of Finance, to the percentage of property tax revenues lost to the agency by reason of the adoption of Article XIII A of the California Constitution, unless moneys are otherwise available for such repayment from state allocations or the sale of bonds authorized on or before July 1, 1978, but unissued. The provisions of this section do not apply to any sums which are required to be repaid immediately or in accordance with an accelerated time schedule pursuant to a duly entered stipulated judgment between the State of California and the Tahoe City Public Utility District. Interest on loans shall accrue during the moratorium period and be repaid by the recipients of the loans, in addition to the normal principal and interest payments

SEC. 2. The Legislature hereby finds and declares that the provisions of this act are necessary because the adoption of Article XIII A of the California Constitution has impaired the ability of public agencies to repay state loans made to such agencies for the purpose of permitting such agencies to construct necessary sewage and storm drainage facilities to prevent and control water pollution. The Legislature further declares that the provisions of this act are justified because of special circumstances existing within the Lake Tahoe Basin. State law has mandated that all waste within the Lake Tahoe watershed be transported outside the Lake Tahoe watershed in order to preserve the high quality of the waters of Lake Tahoe and to preserve the clarity and beauty of the waters of Lake Tahoe for the benefit of all the people of California.

SEC 3 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect The facts constituting such necessity are:

In order to provide for the provisions of this act to become effective during the current fiscal year and to insure the ability of public agencies to repay state loans made to such agencies for the purpose of permitting such agencies to construct necessary sewage and storm drainage facilities to prevent and control water pollution, it is necessary that this act go into immediate effect.

CHAPTER 529

An act to add Section 1182.4 to the Labor Code, relating to the Industrial Welfare Commission, and declaring the urgency thereof, to take effect immediately

[Approved by Governor September 7, 1979 Filed with Secretary of State September 7, 1979]

The people of the State of California do enact as follows.

SECTION 1. Section 1182.4 is added to the Labor Code, to read:

1182 4. (a) No student employee of an organized camp shall be subject to a minimum wage or maximum hour order of the commission if the employee receives a weekly salary of at least 85 percent of the minimum wage for a 40-hour week, regardless of the number of hours per week the employee might work at the organized camp If the student employee works less than 40 hours per week, the employee shall be paid at least 85 percent of the minimum hourly wage for each hour worked.

(b) An organized camp may deduct the value of meals and lodging from the salary of a student employee pursuant to appropriate orders of the commission.

(c) As used in this section, "organized camp" means an organized camp, as defined in Section 18897 of the Health and Safety Code, which meets the standards of the American Camping Association.

SEC. 2 This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect The facts constituting such necessity are:

Organized camps, which provide much needed community services, are unable to bear the financial impact of the state minimum wage and maximum hour orders of the Industrial Welfare Commission, and this bill would provide fiscal relief for these camps. In order that organized camps have relief from the commission's orders before the camps open in the summer of 1979, it is necessary that this act take effect immediately

CHAPTER 530

An act to amend Section 11114 of the Penal Code, relating to identification of dead bodies.

Such written declaration, signed by a peace officer, is sufficient authority for the dentist or dentists to release the missing person's dental records.

(b) When a person reported missing has not been found within 45 days, the sheriff, chief of police, or other law enforcement authority initiating and conducting the investigation for the missing person shall confer with the coroner or medical examiner prior to the preparation of a missing person report. SECTION 1 It is the intent of the Legislature in enacting this act to assist the Governor in the evaluation of appointees or nominees to judicial office by providing the Governor with as much information and valued judgment regarding the judicial qualifications of a candidate as is possible prior to the time such appointment or nomination takes effect. It is the further intent of the Legislature to preserve the confidentiality of information gathering and evaluation procedures for the purpose of ensuring the ability of the State Bar to assist the Governor by making the fullest investigation possible concerning the qualifications of a candidate for judicial office and in order to encourage persons to come forward and provide information without fear of legal reprisal or other consequences for their candid expression of views and comments concerning the qualifications of any candidate. It is also the intent of the Legislature to encourage members of the State Bar and sitting judges to be available for judicial appointment without undue risk of attendant publicity from surprise adverse criticism after an appointment to judicial office is made.

SEC 2 Section 12011 5 is added to the Government Code, to read·

12011 5. (a) In the event of a vacancy in a judicial office to be filled by appointment of the Governor or in the event that a declaration of candidacy is not filed by a judge and the Governor is required under subdivision (d) of Section 16 of Article VI of the Constitution to nominate a candidate, the Governor shall first submit to a designated agency of the State Bar of California the names of all potential appointees or nominees for such judicial office for evaluation of their judicial qualifications

(b) The membership of the designated agency of the State Bar

responsible for evaluation of judicial candidates shall consist of attorney members and public members with the ratio of public members to attorney members determined, to the extent practical, by the ratio established in Sections 6013, 6013.4, and 6013 5, inclusive, of the Business and Professions Code It is the intent of this subdivision that the designated agency of the State Bar responsible for evaluation of judicial candidates shall be broadly representative of the ethnic, sexual and racial diversity of the population of California and composed in accordance with Sections 11140 and 11141 of the Government Code. The further intent of this subdivision is to establish a selection process for membership on the designated agency of the State Bar responsible for evaluation of judicial candidates under which no member of such agency shall provide inappropriate, multiple representation for purposes of this subdivision.

(c) Upon receipt from the Governor of the names of candidates for judicial office and their completed personal data questionnaires, the State Bar shall employ appropriate confidential procedures to evaluate and determine the qualifications of each candidate with regard to his or her ability to discharge the judicial duties of the office to which the appointment or nomination shall be made. Within 90 days of submission by the Governor of the name of a potential appointee for judicial office, the State Bar shall report in confidence to the Governor its recommendation whether the candidate is exceptionally well-qualified, well-qualified, qualified or not qualified and the reasons therefor, and may report, in confidence, such other information as the State Bar deems pertinent to the qualifications of the candidate

(d) In determining the qualifications of a candidate for judicial office, the State Bar shall consider, among other appropriate factors, his or her industry, judicial temperament, honesty, objectivity, community respect, integrity, health, ability, and legal experience.

(e) The State Bar shall establish and promulgate rules and procedures regarding the investigation of the qualifications of candidates for judicial office by the designated agency. Such rules and procedures shall establish appropriate, confidential methods for disclosing to the candidate the subject matter of substantial and credible adverse allegations received regarding the candidate's health, physical or mental condition, or moral turpitude which, unless rebutted, would be determinative of the candidate's unsuitability for judicial office. No provision of this section shall be construed as requiring that any rule or procedure be adopted which permits the disclosure to the candidate of information from which the candidate may infer the source, and no information shall either be disclosed to the candidate nor be obtainable by any process which would jeopardize the confidentiality of communications from persons whose opinion has been sought on the candidate's qualifications

(f) All communications, written, verbal or otherwise, of and to the

Governor, the Governor's authorized agents or employees, including, but not limited to, the Governor's Legal Affairs Secretary and Appointments Secretary, or of and to the State Bar in furtherance of the purposes of this section are absolutely privileged from disclosure and confidential, and any communication made in the discretion of the Governor or the State Bar with a candidate or person providing information in furtherance of the purposes of this section shall not constitute a waiver of such privilege or a breach of confidentiality.

(g) When the Governor has appointed a person to a trial court who has been found not qualified by the designated agency, the State Bar may make public this fact after due notice to the appointee of its intention to do so, but no such notice or disclosure shall constitute a waiver of privilege or breach of confidentiality with respect to communications of or to the State Bar concerning the qualifications of the appointee.

(h) When the Governor has nominated or appointed a person to the Supreme Court or court of appeal in accordance with subdivision (d) of Section 16 of Article VI of the State Constitution, the Commission on Judicial Appointments may invite, or the State Bar's governing board or its designated agency may submit to the commission its recommendation, and the reasons therefor, but no such disclosure shall constitute a waiver of privilege or breach of confidentiality with respect to communications of or to the State Bar concerning the qualifications of the nominee or appointee.

(i) No person or entity shall be liable for any injury caused by any act or failure to act, be it negligent, intentional, discretionary, or otherwise, in the furtherance of the purposes of this section, including, but not limited to, providing or receiving any information, making any recommendations, and giving any reasons therefor. As used in this section, the term "State Bar" means its governing board and members thereof, the designated agency of the State Bar and members thereof, and employees and agents of the State Bar

(j) At any time prior to the receipt of the report from the State Bar specified in subdivision (c) the Governor may withdraw the name of any person submitted to the State Bar for evaluation pursuant to this section.

(k) No candidate for judicial office may be appointed until the State Bar has reported to the Governor pursuant to this section, or until 90 days have elapsed after submission of the candidate's name to the State Bar, whichever occurs earlier The requirement of this subdivision shall not apply to any vacancy in judicial office occurring within the 90 days preceding the expiration of the Governor's term of office, provided, however, that with respect to such vacancies and with respect to nominations pursuant to subdivision (d) of Section 16 of Article VI of the Constitution, the Governor shall be required to submit any candidate's name to the State Bar in order to provide it an opportunity, if time permits, to make an evaluation

(*l*) Nothing in this section shall be construed as imposing an

additional requirement for an appointment or nomination to judicial office, nor shall anything in this section be construed as adding any additional qualifications for the office of a judge.

(m) If any provision of this section other than a provision relating to or providing for confidentiality or privilege from disclosure of any communication or matter, or the application of any such provision to any person or circumstances, shall be held invalid, the remainder of this section to the extent it can be given effect, or the application of such provision to persons or circumstances other than those as to which it is held invalid, shall not be affected thereby, and to this extent the provisions of this section are severable If any other act of the Legislature conflicts with the provisions of this section, this section shall prevail

5600 This part shall be known and may be cited as the Short-Doyle Act This part is intended to organize and finance

community mental health services for the mentally disordered in every county through locally administered and locally controlled community mental health programs. The goals of the community mental health programs provided under this part are:

(a) To assist persons who are institutionalized, or who have a high risk of becoming institutionalized, because of a mental disorder, to lead lives which are as normal and independent as possible, consistent with their individual capacities and desires.

CHAPTER 3 5 OFFICE OF ADMINISTRATIVE LAW

Article 1 General

11340 The Legislature finds and declares as follows:

(a) There has been an unprecedented growth in the number of administrative regulations in recent years

(b) The language of many regulations is frequently unclear and unnecessarily complex, even when the complicated and technical nature of the subject matter is taken into account. The language is often confusing to the persons who must comply with the regulations.

(c) Substantial time and public funds have been spent in adopting regulations, the necessity for which has not been established.

(d) There exists no central office in state government with the power and duty to review regulations to ensure that they are written in a comprehensible manner, are authorized by statute and are consistent with other law

11340.1. The Legislature therefore declares that it is in the public interest to establish an Office of Administrative Law which shall be charged with the orderly review of adopted regulations. It is the intent of the Legislature that the purpose of such review shall be to reduce the number of administrative regulations and to improve the quality of those regulations which are adopted It is the intent of the Legislature that neither the Office of Administrative Law nor the court should substitute its judgment for that of the rulemaking agency as expressed in the substantive content of adopted regulations

11340 2 (a) The Office of Administrative Law is hereby established in state government The office shall be under the direction and control of an executive officer who shall be known as the director The director's term of office shall be coterminous with that of the appointing power, except that he shall be subject to

reappointment.

(b) The director shall have the same qualifications as a hearing officer and shall be appointed by the Governor subject to the confirmation of the Senate.

11340.3. The director may employ and fix the compensation, in accordance with law, of such professional assistants and clerical and other employees as is deemed necessary for the effective conduct of the work of the office.

"Regulation" does not mean or include any form prescribed by a state agency or any instructions relating to the use of the form, but this provision is not a limitation upon any requirement that a regulation be adopted pursuant to this part when one is needed to implement the law under which the form is issued.

(c) "Order of repeal" means any resolution, order or other official act of a state agency which expressly repeals a regulation in whole or in part

(d) "Office" means the Office of Administrative Law.

11342.1 Except as provided in Section 11344, nothing in this chapter confers authority upon or augments the authority of any state agency to adopt, administer, or enforce any regulation. Each regulation adopted, to be effective, must be within the scope of authority conferred and in accordance with standards prescribed by other provisions of law

11342 2 Whenever by the express or implied terms of any statute a state agency has authority to adopt regulations to implement, interpret, make specific or otherwise carry out the provisions of the statute, no regulation adopted is valid or effective unless consistent and not in conflict with the statute and reasonably necessary to effectuate the purpose of the statute

Article 3. Filing and Publication

CHAPTER 579

An act to amend Sections 30001, 99207, 99221, 99233.2, 99285, 130100, 130261, and 130292 of, to add Section 30952 to, and to add Article 7 (commencing with Section 130370) and Article 8 (commencing with Section 130380) to Chapter 4 of Division 12 of, the Public Utilities Code, relating to transportation.

[Approved by Governor September 12, 1979 Filed with Secretary of State September 12, 1979]

The people of the State of California do enact as follows.

SECTION 1 Section 30001 of the Public Utilities Code is amended to read

30001 The Legislature hereby finds and declares

(a) There is an imperative need for a comprehensive mass rapid transit system in the southern California area, and particularly in Los Angeles County Diminution of congestion on the streets and

highways in Los Angeles will facilitate passage of all Californians motoring through the most populous area of this state and will especially benefit domiciliaries of that county who reside both within and without the rapid transit district It is, further, the declared policy of the state to foster the development of trade and the movement of people in and around the Los Angeles area for the benefit of the entire state, and one of the purposes of the Southern California Rapid Transit District is to further this policy.

(b) In view of the limited powers of the Los Angeles Metropolitan Transit Authority (herein sometimes referred to as "authority") it has become apparent that the authority is unable to solve the transit problems of the southern California area and provide the needed comprehensive mass rapid transit system.

(c) It is, therefore, necessary to provide a successor corporation to the authority, to wit: a transit district, and to establish such transit district governed by representatives of the governmental agencies in the southern California area so that there will be sufficient power and authority to solve the transportation problems in the southern California area and to provide the needed comprehensive mass rapid transit system.

(d) It is evident, therefore, that such a transit district may plan to meet the transit needs and problems of the whole southern California area; and that the estimates of future population growth for the southern California area make it imperative that a comprehensive plan for rapid transit contain projections of population trends extending over the next 30 years.

SEC 2. Section 30952 is added to the Public Utilities Code, to read·

30952. (a) Notwithstanding any provision of Article 7.7 (commencing with Section 53859), Chapter 4, Part 1, Division 2, Title 5 of the Government Code, the district may borrow money for the purchases of buses or transportation facilities, or for capital improvement, by the issuance of grant anticipation notes issued pursuant to that article that are payable from money committed but not appropriated, or payable on specific dates or events, under a grant made pursuant to Chapter 21 (commencing with Section 1601) of Title 49 of the United States Code and evidenced by an appropriate document of intent.

(b) In addition to the grant money that may be pledged for the payment of the notes pursuant to Section 53859.06 of the Government Code, the district may pledge as security, on such terms as it deems appropriate, the buses or other transportation facilities acquired with the proceeds of the notes

SEC. 3 Section 99207 of the Public Utilities Code is amended to read

(b) "Included municipal operator" also means the City and County of San Francisco and the Counties of Alameda and Contra Costa with respect to any portion of the unincorporated area thereof, and any city in those counties, which is outside the area of the Alameda-Contra Costa Transit District and which is not receiving adequate local public transportation services, as determined by the Metropolitan Transportation Commission, from any of the transit districts which includes the county or city, taking into consideration, among other things, the amount of such services needed in the county or city, the cost to provide such services, and the amount of such services provided in other areas of the transit district as compared to their needs

(c) "Included municipal operator" also means any city within the County of Sacramento which (1) is outside the activated boundaries of the Sacramento Regional Transit District, (2) contracts with the district for transit services, and (3) provides local transit services within the city that the Sacramento Regional Area Planning Commission annually determines can be better provided by the city than the district, taking into consideration, among other things, the amount and the nature of the services required in the city, the ability of the district to provide the services, the coordination of the services with district services, the remoteness of the city in relation to other district services, the cost of providing the services, the funds available to provide the services, and the amount of services provided in other areas of the district compared to their needs

(d) "Included municipal operator" also means any city or unincorporated area within the County of Los Angeles (1) that is not receiving adequate local public transportation services, as determined by the Los Angeles County Transportation Commission, from either the Southern California Rapid Transit District or any currently "included municipal operator" as defined in this section, and (2) that meets the criteria established by the Los Angeles County Transportation Commission, taking into consideration, among other things, the cost to provide such services, the amount of such services needed in the county or city, the funds available to provide such services, and the amount of such services provided in other areas of the county as compared to their needs
