(1) To comply with Section 22454, the loan contract shall provide for payment of minimum payments complying with subdivision (c).

(2) To comply with Section 22455, the licensee shall deliver to or at the direction of the borrower at the time of each loan advance an amount equal to the face value of the advance.

(g) In lieu of subdivision (a) of Section 22458.1, Section 22468, and subdivision (a) of Section 22473, the following provisions shall apply to open end loans:

(1) A licensee may provide insurance on the life of one or more borrowers, with his or her consent, the form to be approved by the Insurance Commissioner, and in an amount not in excess of the amount of the indebtedness. If life insurance is provided, and if the insured dies when there is an outstanding open end loan indebtedness, the insurance shall be sufficient to pay the total amount due on the loan outstanding on the date of his or her death without any exception, reservation or limitation. Any life insurance as is provided shall be in force as soon as the loan is made or coverage is agreed upon, whichever is later. No credit life insurance written in connection with an open end loan shall be canceled by the lender because of delinquency of the borrower in the making of the minimum payments thereon unless one or more of the payments is past due for a period of 90 days or more, and the lender shall advance to the insurer the amounts required to keep the insurance in force during that period, which amounts may be debited to the borrower's account.

(2) The open end loan agreement shall contain the name, address, and license number of the personal property broker and shall disclose the nature of the security taken, the method of determining the minimum payments which will be required to repay the initial advance and any subsequent advances on the loan, and the agreed rate of charge.

(3) Except in the case of an account which the licensee deems to

be uncollectible, or with respect to which delinquency collection procedures have been instituted, the licensee shall deliver or cause to be delivered to the borrower, or any one thereof, for each billing cycle at the end of which there is an outstanding balance in the account or with respect to which a finance charge is imposed, a statement setting forth the outstanding balance in the account at the beginning of the billing cycle, the date and amount of any subsequent loan advance during the period, the amounts and dates of crediting to the account during the billing cycle for payments, the amount of any finance charge debited to the account during the billing cycle, the annual percentage rate of finance charge determined under Regulation Z promulgated by the Board of Governors of the Federal Reserve System under the Federal Consumer Credit Protection Act, the balance on which the finance charge was computed, the closing date of the billing cycle, the outstanding balance on that date, and the minimum monthly payment required in the absence of any additional advance. If there has been any change in the nature of the security for the loan since the next preceding advance, the statement shall contain or be accompanied by a statement of the nature of the security for the loan after such change.

(h) Subdivision (e) of Section 22473 shall not apply to an open end loan with respect to which there is no balance outstanding if the open end loan agreement continues in effect.

(i) Section 22480 shall not apply to open end loans.

(j) Nothing in this section may be construed to limit the authority of the commissioner to disapprove advertising with respect to open end loans pursuant to Section 22414.

(k) This section shall not apply to loans other than open end loans.

(a) The cost of each examination of a licensee or a person subject to this division shall be paid to the commissioner by the licensee or person examined, and the commissioner may maintain an action for the recovery of the cost in any court of competent jurisdiction. In determining the cost of an examination, the commissioner may use the estimated average hourly cost for all persons performing examinations of licensees or other persons subject to this division for the fiscal year.

(b) For the purpose of this section only, no person other than a licensee shall be deemed to be a person subject to this division until the person is determined to be a person subject to this division by an administrative hearing in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code or by a judicial hearing in any court of competent jurisdiction.

(a) For loans of a principal amount of less than ten thousand dollars ($10,000).

(b) For loans of ten thousand dollars ($10,000) or more and any other business.

(c) The commissioner may permit information pertaining to expenses in the annual report to be reported in totals by categories without separation as to types of loans, and may make such other rules from time to time as may be necessary to obtain adequate information pertaining to the licensee.

The report shall be made under oath and in the form prescribed by the commissioner.

SEC. 9. Section 24451.2 of the Financial Code is amended and renumbered to read:

24451.1. As an alternative to the charges authorized by Section 24451 a licensee may contract for and receive charges at a rate not exceeding 1.6 percent per month on the unpaid principal balance.

SEC. 10. Section 24452 of the Financial Code is amended to read:

24452. (a) As used in this division, "open end loan" means a loan or loans made by a licensee pursuant to a loan agreement which expressly states that it is made pursuant to this section and pursuant

to which:

(1) The licensee may permit the borrower to obtain advances of money from the licensee from time to time or the licensee may advance money on behalf of the borrower from time to time as directed by the borrower.

(2) The amount of each advance and the charges and other permitted costs are debited to an account.

(3) The charges are computed from time to time on the unpaid balances of the borrower's account, excluding from the computation any unpaid charges other than permitted fees, costs and expenses.

(4) The borrower has the privilege of paying the account in full at any time or in monthly installments.

(b) Subject to the written approval of the commissioner of the licensee's plan of business for making open end loans as not being misleading or deceptive and subject to regulations the commissioner may promulgate with respect to open end loans under Section 24400, a licensee may make open end loans pursuant to this section and may contract for and receive thereon charges as set forth in Sections 24451, 24451.1, and 24454.1. These charges may be calculated on an amount not exceeding the greater of:

(1) The actual daily unpaid balances of the open end account in the billing cycle for which the charge is made, in which case one-thirtieth of the monthly rate may be charged for each day the unpaid balance is outstanding.

(2) The average daily unpaid balance of the open end account in the billing cycle for which the charge is made, which is the sum of the amount unpaid each day during that cycle divided by the number of days in that cycle. The amount unpaid on a day is determined by adding to any balance unpaid as of the beginning of that day all advances and other debits and deducting all payments and other credits made or received as of that day.

The billing cycle shall be monthly. A billing cycle is monthly if the closing date of the cycle is the same date each month or does not vary by more than four days from the regular date.

(c) No licensee shall enter into any agreement for an open end consumer loan that provides for a minimum monthly payment that would result in the full repayment of principal over more than the maximum periods set forth below opposite the respective size of loans.

Principal amount of loan	*Maximum period*
Less than $1,500	24 months and 15 days
$1,500 but less than $2,500	36 months and 15 days
$2,500 but less than $4,000	48 months and 15 days
$4,000 but less than $6,000	60 months and 15 days
$6,000 but less than $10,000	84 months and 15 days

The minimum payment shall be determined by the amount of the initial loan advance and shall continue at that amount until a

subsequent loan advance is made, at which time the minimum payment shall be determined by the amount of the unpaid balance of the loan after the advance and including the advance. Minimum payments after each advance shall be determined in the same manner.

(d) On open end loans the licensee may contract for and receive the fees, costs, and expenses permitted on other loans, including those permitted by subdivisions (a), (b), (c), and (d) of Section 24458 and subdivision (d) of Section 24458.1, except that the charge for credit life insurance under Section 24458.1 shall be on a monthly basis and shall be actuarially consistent with the single premium rate for the same coverage approved or fixed by the Insurance Commissioner under Section 24458.1, or in accordance with a schedule of monthly rates filed with and not disapproved by the Insurance Commissioner.

(e) A licensee may not take real property as security, in whole or in part, for an open end loan under this section.

(f) Sections 24454 and 24455 shall apply to open end loans with the following variations:

(1) To comply with Section 24454, the loan contract shall provide for payment of minimum payments complying with subdivision (c).

(2) To comply with Section 24455, the licensee shall deliver to or at the direction of the borrower at the time of each loan advance an amount equal to the face value of the advance.

(g) In lieu of subdivision (a) of Section 24458.1, Section 24468, and subdivision (a) of Section 24473, the following provisions shall apply to open end loans:

(1) A licensee may provide insurance on the life of one or more borrowers, with his or her consent, the form to be approved by the Insurance Commissioner, and in an amount not in excess of the amount of the indebtedness. If life insurance is provided, and if the insured dies when there is an outstanding open end loan indebtedness, the insurance shall be sufficient to pay the total amount due on the loan outstanding on the date of his or her death without any exception, reservation or limitation. Any life insurance as is provided shall be in force as soon as the loan is made or coverage is agreed upon, whichever is later. No credit life insurance written in connection with an open end loan shall be canceled by the lender because of delinquency of the borrower in the making of the minimum payments thereon unless one or more of the payments is past due for a period of 90 days or more, and the lender shall advance to the insurer the amounts required to keep the insurance in force during that period, which amounts may be debited to the borrower's account.

(2) The open end loan agreement shall contain the name, address, and license number of the consumer finance lender and shall disclose the nature of the security taken, if any, the method of determining the minimum payments which will be required to repay the initial advance and any subsequent advances on the loan, and the agreed

rate of charge.

(3) Except in the case of an account which the licensee deems to be uncollectible, or with respect to which delinquency collection procedures have been instituted, the licensee shall deliver or cause to be delivered to the borrower, or any one thereof, for each billing cycle at the end of which there is an outstanding balance in the account or with respect to which a finance charge is imposed, a statement setting forth the outstanding balance in the account at the beginning of the billing cycle, the date and amount of any subsequent loan advance during the period, the amounts and dates of crediting to the account during the billing cycle for payments, the amount of any finance charge debited to the account during the billing cycle, the annual percentage rate of finance charge determined under Regulation Z promulgated by the Board of Governors of the Federal Reserve System under the Federal Consumer Credit Protection Act, the balance on which the finance charge was computed, the closing date of the billing cycle, the outstanding balance on that date, and the minimum monthly payment required in the absence of any additional advance. If there has been any change in the nature of the security for the loan since the next preceding advance, the statement shall contain or be accompanied by a statement of the nature of the security for the loan after such change.

(h) Subdivision (e) of Section 24473 shall not apply to an open end loan with respect to which there is no balance outstanding if the open end loan agreement continues in effect.

(i) Section 24480 shall not apply to open end loans.

(j) Nothing in this section may be construed to limit the authority of the commissioner to disapprove advertising with respect to open end loans pursuant to Section 24414.

(k) This section shall not apply to loans other than open end loans.

SEC. 11. Section 24455 of the Financial Code is amended to read:

24455. Except as provided in Section 24451.3 and in Article 3 (commencing with Section 24480) no charges on loans made pursuant to this division shall be paid, deducted, or received in advance, or compounded. Sec. 1691 et seq; P.L. 93-495) and Regulation B promulgated by the Board of Governors of the Federal Reserve System (12 C.F.R. 202 et seq.).

For the purposes of this section, "borrower" includes any husband and wife whether jointly or severally obligated.

If such a proceeding is pending or instituted, surrender of a license becomes effective at such time and upon such conditions as the commissioner determines.

SEC. 15. Section 24601 of the Financial Code is amended to read:

For the purpose of discovering violations of this division or securing information required by him in the administration and enforcement of this division, the commissioner may at any time investigate the loans and business and examine the books, accounts, records, and files used in the business, of every person engaged in the business of a consumer finance lender or broker, whether the person acts or claims to act as principal or agent, or under or without the authority of this division. [Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1339 of the Health and Safety Code is amended to read:

1339. The Legislature hereby finds and declares that:

(a) In many areas, small, rural general acute care hospitals are experiencing financial difficulties brought upon partially because of governmental regulations and underutilization of acute care beds.

(b) Closure of such facilities, in most cases, would represent a direct threat to the health and well-being of both the resident and tourist populations served by these facilities.

(c) Availability and accessibility to primary and preventive health care services could be greatly improved through coordination with existing resources in the area.

(d) Because of the special attributes of the small, rural general acute care hospital, such as longevity, focus of community support, critical geographic location, and availability of services, such facilities could serve as the major focal point for the promotion of health and the delivery of health care services within the rural community.

(e) There is a lack of systematic study and evaluation of the economics of efficiently operating small rural hospitals and the ways in which these hospitals might more effectively meet the health needs of their communities.

SEC. 2. Section 1339.3 of the Health and Safety Code is repealed.

SEC. 3. Section 1339.3 is added to the Health and Safety Code, to read:

1339.3. It is, therefore, the intent of the Legislature to designate certain general acute care hospitals as primary health service hospitals, which will facilitate the diversification of the small rural hospital. The designation shall apply only to those general acute care hospitals that meet the criteria set forth in this article and which are designated by the state department.

SEC. 4. Section 1339.5 of the Health and Safety Code is amended to read:

(c) "Swing bed" means beds licensed for general acute care pursuant to Section 1250.1 which may, subject to the provisions of this article, be used as skilled nursing beds, as classified in Section 1250.1. Swing beds shall retain the general acute care bed classification, for the purposes of Part 1.5 (commencing with Section 4371) of Division 1.

SEC. 5. Section 1339.7 of the Health and Safety Code is amended to read:

1339.7. The state department shall administer the program authorized in this article. In administering the program, the state department shall do all of the following:

(b) Establish criteria for the health service plans pursuant to Section 1339.15.

(c) Review a general acute care hospital's health service plan based upon recommendations of the local health systems agency, input from local public meetings, recommendations of the medical advisory panel, as appropriate, and the adequacy of the plan in meeting the criteria established pursuant to this section. The state department shall approve, deny, or defer the plan in whole or in part and shall notify the hospital of its findings, in writing, within 120 days after receipt of the plan. The plan shall be deemed approved if the hospital has not received notification from the state department within the 120-day period.

(d) Negotiate and grant exceptions to the licensure requirements for general acute care hospitals that are necessary to serve the purposes of this article when the granting of such exceptions do not jeopardize the health and welfare of the patients. Exceptions that are granted shall be consistent with the primary health service hospital's plan and any amendments thereto.

(e) Convene an advisory panel to review the medical-surgical and obstetrical services proposed as part of the primary hospital service plan and make recommendations to the state department on the medical appropriateness of those services according to the primary health service hospital's proposed plan. The panel shall include, but not be limited to, a rural hospital administrator, a rural family practice physician and surgeon, a rural hospital nurse administrator, an internist, a primary care mid-level practitioner, and a physician and surgeon from a hospital which serves as a referral center for rural hospitals.

(f) Issue evidence of primary health service hospital designation and evidence of the number of acute care beds approved as swing beds pursuant to paragraph (4) of subdivision (b) of Section 1339.15.

(g) Monitor the performance of the primary health service hospital to assure compliance with such hospital's plan and licensure requirements from which such hospitals are not exempt.

(h) Immediately upon the denial of a primary health service hospital's health service plan, or a portion thereof, notify the hospital in writing. Within 20 days after the state department mails the notice, the hospital may present a written petition for a hearing to the state department. Upon receipt by the state department of the petition in proper form, the petition shall be set for hearing. The proceedings shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the state department has all the powers granted therein.

(i) Compile and make available to health systems agencies and primary health service hospitals, information regarding state and federal funding programs for which the primary health service hospital may be eligible, the procedures necessary to apply for funding, and a description of how such requests may be incorporated into a primary health service hospital's plan and opportunities for diversification of services, the requirements and feasibility, and the procedures for development of such services.

(j) On behalf of primary health service hospitals, seek appropriate federal waivers consistent with the intent of this act.

(k) Contract with one or more health systems agencies to perform the functions specified in subdivision (c) of Section 1339.11.

(*l*) Develop or assist hospitals submitting a primary health service plan pursuant to Section 1339.15 to develop the following:

(1) Alternative methods of filing claims which reduce administrative costs.

(2) Alternative methods of Medi-Cal payment to hospitals.

(3) Other methods of filing claims which reduce administrative costs.

SEC. 21. Section 1339.25 of the Health and Safety Code is amended to read:

1339.25. Implementation of this article shall be consistent with federal rules and regulations in effect on January 1, 1979, and as adopted on or after such date. In keeping with the intent in enacting this article and to the extent permitted by federal law, each department within the Health and Welfare Agency may waive requirements, provide exemptions to the enforcement of statutes upon which the requirements were based, allow flexible enforcement of regulations and policies, and make resources available which are necessary for the administration of this article, including technical assistance to primary health service hospitals in developing their health service plans.

SEC. 22. Section 1339.27 of the Health and Safety Code is repealed.

CHAPTER 1011

An act to amend Section 11105 of, and to add Section 14007.6 to, the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 11105 of the Welfare and Institutions Code is amended to read:

11105. (a) No person shall be granted aid under this part unless he is a resident of this state.

(b) Where a recipient of aid under Chapter 2 (commencing with Section 11200) receives an aid payment at an address outside of this state for two consecutive months, the recipient's eligibility shall be terminated where the county has made inquiry of the recipient pursuant to Section 11100, and where the recipient has not responded to this inquiry by clearly showing that he or she has (1) not established residence elsewhere; and (2) been prevented by illness or other good cause from returning to this state.

(c) If a recipient whose aid is terminated pursuant to subdivision (b) reapplies for aid, payments shall be restored provided all other eligibility criteria are met if this individual can prove both of the following:

(1) His or her permanent residence is in this state.

(2) That residence has not been established in any other state which can be considered to be of a permanent nature.

(d) Nothing in this section shall be construed as limiting Aid to

Families with Dependent Children-Foster Care payments to children placed out of state by California children's placement agencies.

SEC. 2. Section 14007.6 is added to the Welfare and Institutions Code, to read:

14007.6. (a) A recipient who maintains a residence outside of this state for a period of at least two months shall not be eligible for services under this chapter where the county has made inquiry of the recipient pursuant to Section 11100, and where the recipient has not responded to this inquiry by clearly showing that he or she has (1) not established residence elsewhere; and (2) been prevented by illness or other good cause from returning to this state.

(b) If a recipient whose services are terminated pursuant to subdivision (a) reapplies for services, services shall be restored provided all other eligibility criteria are met if this individual can prove both of the following:

(2) That residence has not been established in any other state which can be considered to be of a permanent nature.

SEC. 3. The State Department of Social Services and the State Department of Health Services shall, if necessary, seek waivers from any provision of federal law inconsistent with the provisions of this act.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 1012

An act to repeal, add, and repeal Article 3 (commencing with Section 1480) of Chapter 2.5 of Division 2 of the Health and Safety Code, relating to health, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Article 3 (commencing with Section 1480) of Chapter 2.5 of Division 2 of the Health and Safety Code is repealed.

SEC. 2. Article 3 (commencing with Section 1480) is added to Chapter 2.5 of Division 2 of the Health and Safety Code, to read:

Article 3. Mobile Intensive Care Paramedics

1480. As used in this article:

(a) "Mobile intensive care paramedics" means a paramedic (EMT-P) who meets the qualifications specified in Section 1797.172.

(b) "Mobile intensive care units" means any emergency vehicles staffed by mobile intensive care paramedics or mobile intensive care nurses and equipped to provide remote intensive care or cardiac care to the sick or injured at the scene of medical emergencies or during transport to general acute care hospitals.

1481.3. Any county conducting a program pursuant to Division 2.5 (commencing with Section 1797) may provide courses of instruction and training leading to certification as a mobile intensive care paramedic. Where such instruction and training are provided to public employees other than employees of the county or employees of a fire protection district within the county, a fee may be charged sufficient to defray the cost of such instruction and training. Where such instruction and training are provided to any other persons such fee shall be charged. However, such fee may be reduced to the extent of any federal funds obtained for the purpose of providing such instruction and training.

1481.5. The Emergency Medical Service Authority may, by regulation, prescribe standardized insignias or emblems for patches which may be affixed to the clothing of a mobile intensive care paramedic or a mobile intensive care nurse.

1482.5. (a) Authority for patient health care management in a medical emergency shall be vested in that licensed or certified health care professional, which may include any paramedic or other prehospital emergency personnel, at the scene of the emergency who is most medically qualified specific to the provision of rendering emergency medical care. If such licensed or certified health care professional is not available, the authority shall be vested in the most appropriate medically qualified representative of public safety agencies who may have responded to the scene of the emergency.

(b) If any county desires to establish a unified command structure for patient management at the scene of a medical emergency within such county, a committee may be established in such county comprised of representatives of the agency responsible for county emergency medical services, the county sheriff's department, the California Highway Patrol, public prehospital-care provider agencies serving the county, and public fire, police, and other affected emergency-service agencies within the county. The membership and duties of the committee shall be established by an agreement for the joint exercise of powers under Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code.

(c) Notwithstanding subdivision (a), authority for the management of the scene of a medical emergency shall be vested in the appropriate public safety agency having primary investigative authority. The scene of a medical emergency shall be managed in a

manner designed to minimize the risk of death or health impairment to the patient and to other persons who may be exposed to the risks as a result of the emergency condition, and priority shall be placed upon the interests of those persons exposed to the more serious and immediate risks to life and health. Public safety officials shall consult emergency medical services personnel or other authoritative health care professionals at the scene in the determination of relevant risks.

1484. This article shall remain in effect only until January 1, 1984, and as of such date is repealed unless a later enacted statute, which is chaptered on or before January 1, 1984, deletes or extends such date.

1484.1. During the clinical internship portion of the training program specified in Section 1797.172, mobile intensive care paramedic interns shall be supervised continuously by a physician or registered nurse.

During the field internship portion of the training program specified in Section 1797.172, mobile intensive care paramedic trainees may perform all the services enumerated in Section 1797.172, provided that they are supervised and accompanied by a certified mobile intensive care paramedic, a physician, or a mobile intensive care nurse.

1484.2. The county health officer or county designated physician shall establish, pursuant to Sections 1797.172 and 1797.210, criteria necessary to maintain certification as a mobile intensive care paramedic or a mobile intensive care nurse including, but not limited to:

(a) A formal program of continuing education.

(b) Continuous service as a mobile intensive care paramedic or a certified mobile intensive care nurse.

(c) Retesting at two-year intervals, which shall include a performance examination and may include written examinations and oral examinations.

1484.3. No agency, public or private, shall advertise or disseminate information to the public that the agency provides paramedic rescue or paramedic ambulance service unless that agency does, in fact, provide mobile intensive care units on a continuous 24 hours-per-day basis. If advertising or information regarding the agency's paramedic rescue or paramedic ambulance service appears on any vehicle it may only appear on those mobile intensive care unit vehicles utilized solely to provide service on a continuous 24 hours-per-day basis.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

On January 1, 1981, Division 2.5 (commencing with Section 1797) was added to the Health and Safety Code by Chapter 1260 of the Statutes of 1980, creating the Emergency Medical Services Authority in California under the Health and Welfare Agency. At the same

time, Sections 1760, 1760.6, 1761, 1765, 1767, and 1769 of the Health and Safety Code were repealed. Certain provisions of Article 3 (commencing with Section 1760) of Chapter 9 of Division 2 of the Health and Safety Code, known as the Wedworth-Townsend Paramedic Act, were included in Division 2.5 and are now permanent law. These provisions include Section 1481.1 and Section 1482, relating to minimum training standards and scope of practice for paramedics. Other important provisions of Article 3, however, are not included in Division 2.5 and will remain in effect only until January 1, 1982, unless further legislative action is taken. One such provision is Section 1482.5, relating to a line of authority for patient health care management at the scene of medical emergencies.

In order to prevent any confusion for local jurisdictions and emergency medical service programs resulting from a lack of continuity in the law, it is necessary that this act take effect immediately.

CHAPTER 1013

(i) Develop and implement a statewide plan to alleviate problems related to inappropriate alcohol use and to overcome the barriers to their solution as described in Section 11760.1, and review and revise such plan annually. In preparing the plan, the department shall take into consideration the local plans submitted by counties pursuant to this part. In addition, the recommendations of the State Advisory Board on Alcohol-Related Problems shall be taken into consideration in the development and revision of the statewide plan. In order to avoid duplication of efforts in developing statewide plans, the department shall consult with the Office of Statewide Health Planning and Development to adopt a uniform format and policies for the development of the statewide alcohol plan to facilitate its incorporation in the state health plan. The department shall submit an annual report to the Legislature no later than January 31st of each year which incorporates the state plan. The report shall also include, but not be limited to, the information specifically required pursuant to provisions of this part.

(j) Assist and cooperate with the Office of Statewide Health Planning and Development in the drafting and adoption of the state health plan to assure inclusion of appropriate provisions relating to alcohol problems.

(m) Encourage the utilization, support, assistance, and dedication of interested persons in the community in order to increase the number of persons with alcohol problems who voluntarily seek appropriate services to alleviate such problems.

(n) Evaluate or require the evaluation, including the collection of appropriate and necessary information, of alcohol programs pursuant to Chapter 6 (commencing with Section 11825).

(o) Perform all other duties specifically required pursuant to this part.

SEC. 2. Section 11780 of the Health and Safety Code is amended to read:

Of the members first appointed by the Governor, the Senate Rules Committee, and the Speaker, two out of each five appointments, as selected by the appointing power, shall hold office for three years, two out of each five, as selected by the appointing power, shall hold office for two years, and one out of each five, as selected by the appointing power, shall hold office for one year. After these initial terms, each member shall be appointed for a term of three years. A member of the board may be replaced by the appointing power, upon recommendation of the board, for failure to attend board meetings.

(c) Members shall have a professional or personal interest in, and commitment to, alleviating alcohol problems. It is the intent of the Legislature that the appointing powers make appointments that include representatives from various economic, social, and occupational groups, and allow for geographic distribution throughout the state. No member of the board may be an employee or member of the board of directors of an organization which is a direct recipient of any state funds pursuant to a contract with a department, which shall include compensation for contracted services or membership on an advisory body or board of directors of such recipient organization. No spouse of any person described in the preceding sentence may be a member of the board.

(d) The board shall meet at least once every three months and may meet as often as required, as a full board or in committees, to implement the provisions of this section. All meetings of the board, and any committees thereof, shall be open to the public and adequate notice shall be provided in advance to interested persons.

(e) The members shall select the chair of the board annually and adopt bylaws as appropriate to carrying out its duties.

(f) Members of the board shall serve without compensation, but shall receive reimbursement for travel and other necessary expenses actually incurred in the performance of their official duties.

(g) The board shall advise the director on the major policy issues relating to the implementation by the department of the provisions of this part and on any other related matters the director refers to it, shall encourage public understanding of the nature of alcohol problems, and encourage support throughout the state for development and implementation of effective alcohol programs. (k) The board shall review the statewide plan developed pursuant to subdivision (i) of Section 11770, and shall submit its comments and recommendations regarding the plan to the Director of Alcohol and Drug Programs.

CHAPTER 1014

An act to amend Section 14017.5, of the Welfare and Institutions Code, relating to public social services.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 14017.5 of the Welfare and Institutions Code is amended to read:

14017.5. The department shall not issue identification cards to Medi-Cal recipients on a statewide basis until (1) a pilot project has been completed which indicates that the General Fund savings from reduced unauthorized use of Medi-Cal cards more than offsets the costs of issuing the identification cards, and (2) the Legislature has specifically appropriated the funds necessary to issue identification cards to Medi-Cal beneficiaries.

If identification cards are issued by the department on a pilot project or statewide basis, the department shall notify providers that current Medi-Cal beneficiaries have been issued identification cards in accordance with Section 14017. At that time, it shall be the responsibility of the provider prior to rendering nonemergency Medi-Cal reimbursable services to persons presenting themselves as Medi-Cal beneficiaries to verify the person's identity by matching the name and signature on their identification card issued by the department or their valid California driver's license or California

identification card issued by the Department of Motor Vehicles, against a signature executed at the time of service and further by visually verifying their likeness to the photograph on the identification card or driver's license. If the provider complies in good faith, he or she shall not be held responsible by having payments withheld by the state.

CHAPTER 1015

(a) That such commutation is necessary for the protection of the person entitled thereto, or for the best interest of the applicant. In determining what is in the best interest of the applicant, the appeals board shall consider the general financial condition of the applicant, including but not limited to, the applicant's ability to live without periodic indemnity payments and to discharge debts incurred prior to the date of injury.

(b) That commutation will avoid inequity and will not cause undue expense or hardship to the applicant.

(c) That the employer has sold or otherwise disposed of the greater part of his assets or is about to do so.

(d) That the employer is not a resident of this state.

CHAPTER 1016

An act to add and repeal Chapter 5.5 (commencing with Section 4901) of Division 2 of the Public Utilities Code, relating to radiotelephone utilities, and making an appropriation therefor.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 5.5 (commencing with Section 4901) is added to Division 2 of the Public Utilities Code, to read:

CHAPTER 5.5. RADIOTELEPHONE UTILITY RATE FUND AND FEES

4901. This chapter is enacted for the purpose of defining a class of telephone corporation to be known as radiotelephone utilities and to create a special fund to administer and enforce the provisions of this code conferring upon the commission jurisdiction to certificate and regulate the rates and conditions of service of telephone corporations which provide domestic public land mobile radio service to the public or any portion thereof for compensation within this state.

4902. (a) Except as provided in subdivision (b), as used in this chapter, "radiotelephone utility" includes every telephone corporation as defined in Section 234 which provides domestic public land mobile radio service, whether one-way or two-way, to or for the public or any portion thereof for compensation within this state pursuant to the provisions of Part 22 of the Rules and Regulations of the Federal Communications Commission (47 C.F.R. 22.0 et seq.) or which is otherwise found by the commission to be rendering such service in a manner requiring certification under this code.

(b) "Radiotelephone utility" does not include the following:

(1) Any telephone corporation also engaged in the business of affording public landline message telephone service.

(2) Any subsidiary or affiliate of a telephone corporation, specified in paragraph (1), which subsidiary or affiliate is eligible to make application for frequencies allocated under Part 22 of the Rules and Regulations of the Federal Communications Commission (47 C.F.R. 22.0 et seq.) to common carriers also engaged directly or indirectly in the business of affording public landline message telephone service, as those terms are used in those rules and regulations.

4903. As used in this chapter, "DPLMRS revenue" includes all revenues from domestic public land mobile radio service furnished from transmission facilities located in this state, as reported by each radiotelephone utility operating in this state in its "Annual Report of Licensee and Domestic Public Land Mobile Radio Service", or "Form L," as submitted to the Federal Communications Commission, or such other form as the commission may designate pursuant to Section 4904.

4904. Every radiotelephone utility operating in this state shall file with the commission, on or before April 30 of each year, a copy of Form L, as filed with the Federal Communications Commission and a statement of the DPLMRS revenues received during the previous calendar year from transmitters licensed by the Federal Communications Commission located in this state. If, for any reason,

a radiotelephone utility does not file a Form L with the Federal Communications Commission, it shall nonetheless comply with the reporting requirements of this chapter. The commission may designate another form as the form required to be filed with the commission for purposes of this chapter.

4905. As of January 1, 1983, and following its receipt of the annual reports pursuant to Section 4904, the commission shall levy and collect a total of sixty thousand dollars ($60,000) in fees from the radiotelephone utilities subject to its jurisdiction, with each such utility directed to pay that part of that total which equals the ratio of its total DPLMRS revenues during the prior calendar year, as reported to the Federal Communications Commission, and the total of all such revenues reported by all radiotelephone utilities subject to the jurisdiction of the commission.

4906. All fees collected by the commission pursuant to Sections 4905 and 4907 shall be deposited in the Radiotelephone Utility Rate Fund, which is hereby created in the State Treasury. The money in the fund is continuously appropriated to the commission in augmentation of the current appropriation for the support of the commission for the purpose of administering and enforcing the provisions of this code applicable to radiotelephone utilities in this state, including the payment of the salary and related expenses for one staff position, the holder of which shall devote full time to administering those provisions of this code, and the rules and orders of the commission, applicable to the certification and regulation of rates and conditions of service of those radiotelephone utilities.

4907. Every person or corporation intending to furnish radiotelephone service in this state under circumstances requiring new or additional certification by the commission shall make application pursuant to Section 1001 not later than 30 days after the grant by the Federal Communications Commission of the requisite construction permit or license. Notwithstanding Section 1904, an application to the commission pursuant to Section 1001 shall be accompanied by a filing fee of four hundred dollars ($400).

4908. Fees paid pursuant to Section 4905, exclusive of any penalties for delinquency, shall be allowed by the commission as an ordinary operating expense for purposes of establishing rates or charges. The commission shall authorize each person or corporation subject to Section 4904 to annually adjust its rates or charges for intrastate services so as to collect from its customers and subscribers an amount equal to the amount of the fee required by Section 4905.

4909. If any person or corporation subject to this chapter is in default of the preparation and submission of any report or the payment of any fee required by this chapter, for a period of 30 days or more, the commission may estimate from all available information the appropriate fee pursuant to Section 4905, and may add to the amount of that estimated fee a penalty not to exceed 25 percent of the amount resulting from the failure, refusal, or neglect of the person or corporation to prepare and submit the report or to pay the

fee.

If the default extends to 60 days following receipt of notification of the default, the commission may suspend or revoke the certificate of public convenience and necessity, permit, or other operating authority of the person or corporation.

4910. This chapter shall remain in effect only until January 1, 1985, and on that date is repealed unless a later enacted statute chaptered on or before January 1, 1985, deletes or extends that date.

SEC. 2. Notwithstanding Item 8660-001-001 of the Budget Act of 1982, the fees collected pursuant to Section 4905 shall not be included within the amount of those additional fees which are to offset the unencumbered balance of the funds appropriated by that item and subject to transfer to the General Fund.

SEC. 3. This is an urgency statute necessary for the immediate preservation of the public peace, health or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Except as provided in Section 18945, the director or the director's designee shall hear appeals brought by any person as to the application of any rule or regulation promulgated pursuant to this part, except a building standard published in the State Building Standards Code, to such person under any facts and circumstances presented to the director or the director's designee by the person alleging that the application or enforcement of any other rule or regulation by the department under the facts and circumstances is an erroneous or unlawful application or enforcement of the other rule or regulation by the department. Any appeal shall be submitted through the designated local agency.

Any appeal alleging erroneous or unlawful application by the department of a building standard published in the State Building Standards Code may be brought pursuant to the provisions of Chapter 5 (commencing with Section 18945) of Part 2.5.

The director or the director's designee shall not, however, hear any appeals regarding local regulations which have been adopted pursuant to Sections 17958.5 and 17958.7.

SEC. 2. Section 17931 of the Health and Safety Code is amended to read:

17931. The department may promulgate rules pertaining to hearing appeals. All rules shall be made in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part

1 of Division 3 of Title 2 of the Government Code.

SEC. 3. Section 17932 of the Health and Safety Code is amended to read:

17932. A decision of the director or the director's designee made pursuant to Section 17930 is final, except for such action as may be taken by a court as permitted or required by law.

SEC. 3.3. Section 50086 of the Health and Safety Code is amended to read:

50086. "Mortgage loan" means a long-term loan which is secured by a mortgage and is made for permanent financing, including refinancing of existing mortgage obligations as authorized by regulation of the agency, of a housing development or a residential structure in the state, or a buy-down mortgage loan secured by a mortgage as authorized by regulation of the agency, of an owner-occupied unit in this state.

SEC. 3.5. Section 50461 of the Health and Safety Code is repealed.

SEC. 4. Section 50662 of the Health and Safety Code is amended to read:

50662. The department shall adopt regulations establishing terms upon which deferred-payment rehabilitation loans may be made. The amount of a deferred-payment rehabilitation loan shall in no case exceed the costs of meeting rehabilitation standards. The amount, when combined with other financing provided, shall in no case exceed the combined costs of meeting rehabilitation standards and refinancing existing indebtedness. Except for loans made to local agencies pursuant to Section 50664, deferred-payment rehabilitation loans shall bear interest at the rate of 3 percent per annum on the unpaid principal balance. In the discretion of the department, which may differentiate among the types of programs specified in Section 50663, such interest shall either be payable periodically as it accrues during the term of the loan or payment of interest shall be deferred until payment of the principal is due. However, regulations of the department may provide for waiver of interest payments when a local public entity or nonprofit corporation contracting pursuant to Section 50663 remits to the department in advance on behalf of the borrower a sum equal to not less than 15 percent of the original principal balance, which may be in lieu of interest. The regulations of the department may also provide for payment of interest as accrued, in circumstances determined appropriate by the department to serve the purposes of this chapter. In the case of a deferred-payment rehabilitation loan to an elderly person who is the owner of an owner-occupied one-to-four family residence, the note and deed of trust securing the loan shall require payment of the obligation upon transfer of the property. Notwithstanding any other provisions of this chapter, the department may permit the making of a deferred-payment rehabilitation loan to an elderly person of low income who is the owner of an owner-occupied dwelling without requiring that other financing be provided to the extent of the owner's ability to afford the cost of such other financing. In the case

of a deferred-payment rehabilitation loan to a nonelderly person who is the owner of an owner-occupied one-to-four family residence, payment shall be required after five years or upon transfer of the property, whichever first occurs. However, the loan may be renewed for additional five-year terms so long as the property is not transferred and the owner is unable to refinance the obligation when the debt comes due. In the case of a deferred-payment rehabilitation loan to an owner of a residence other than an owner-occupied one-to-four family residence, payment shall be required after five years unless it is determined by the department that a longer term is required to ensure the economic feasibility of obtaining other rehabilitation financing or accepting subsidies. The loan may be renewed for up to five additional five-year terms so long as persons of low income residing in the residence will benefit. The department shall establish standards and determine eligibility for renewal. Regulations of the department shall permit the assumption of a deferred-payment rehabilitation loan authorized by this section when the property which has been rehabilitated by such loan is transferred to a person who meets the eligibility requirements of this section, as determined by the department.

SEC. 5. Section 50680 of the Health and Safety Code is amended to read:

50680. The Legislature finds and declares that recent deemphasis of programs of institutional care for the developmentally disabled, the mentally disordered, and the physically disabled has resulted in participation by many of such persons in programs of rehabilitation, education, and social services within the community. Because of the outpatient status of persons enrolled in such programs, there is a need to provide housing for them which will aid in accomplishment and maintenance of the objectives of such programs, thereby minimizing the numbers of developmentally disabled, mentally disordered, and physically disabled persons in public institutions and improving the quality of life for such persons. In order to assist in providing the variety of living arrangements required for such purpose, it is necessary that the state cooperate with cities, counties, cities and counties, and nonprofit corporations in obtaining federal housing subsidies therefor.

It is the intent of the Legislature in enacting this chapter to vest in the Department of Housing and Community Development authority to obtain federal housing subsidies for housing for persons requiring supportive care, as defined in this part.

SEC. 6. Section 50682 of the Health and Safety Code is amended to read:

50682. As used in this chapter, "developmentally disabled" means affected by a disability specified in subdivision (a) of Section 4512 of the Welfare and Institutions Code rendering the affected person eligible to participate in programs of rehabilitation, education, or social services conducted by or on behalf of a public agency, and also means persons affected by such a disability.

SEC. 7. Section 50684 of the Health and Safety Code is amended to read:

50684. As used in this chapter, "mentally disordered" means affected by a mental disorder rendering the affected person eligible to participate in programs of rehabilitation, education, or social services conducted by or on behalf of a public agency, and also means persons affected by such a mental disorder.

SEC. 8. Section 50685 of the Health and Safety Code is amended to read:

50685. As used in this chapter, "physically disabled" means affected by a physical disability rendering the affected persons eligible to participate in programs of rehabilitation, education, or social services conducted by or on behalf of a public agency, and also means persons affected by such a physical disability.

SEC. 9. Section 50685.5 of the Health and Safety Code is amended to read:

50685.5. As used in this chapter, "persons requiring supportive services" means persons who are eligible to receive housing assistance pursuant to federal law because of financial inability to provide adequate housing for themselves or persons dependent upon them, who are or will be participating in programs of rehabilitation, education, or social services, and who meet any of the following criteria:

(a) The person shall have been determined to be developmentally disabled, but not requiring institutional care, by the State Department of Developmental Services, a regional center established pursuant to Section 4620 of the Welfare and Institutions Code, or by the designated representative thereof.

(b) The person shall have been determined to be mentally disordered, but not requiring institutional care, by a local director of mental health services, by the State Department of Mental Health, or by the designated representatives thereof.

(c) The person shall have been determined to be physically disabled by the State Department of Rehabilitation or by the designated representatives thereof.

SEC. 10. Section 50686 of the Health and Safety Code is amended to read:

50686. Notwithstanding any other provision of law, the department shall have all the powers granted to housing authorities pursuant to Part 2 (commencing with Section 34200) of Division 24 for the purpose of obtaining financial subsidies or assistance from any agency of the United States to provide leased housing pursuant to this chapter for persons requiring supportive services.

SEC. 11. Section 50686.5 of the Health and Safety Code is amended to read:

50686.5. Any local agency or nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code which is providing, or proposes to provide, housing for persons requiring supportive services may apply

to the department for assistance in obtaining federal housing subsidies therefor.

SEC. 12. Section 50687 of the Health and Safety Code is amended to read:

50687. Notwithstanding the provisions of Section 50688, for the purposes of this chapter the department may do any or all of the following:

(a) Enter into contracts with any agency of the United States for the purpose of obtaining funds for dispersal to local agencies, nonprofit corporations, and owners and developers of housing to subsidize housing for persons requiring supportive services.

(b) Enter into contracts with local agencies, nonprofit corporations, and owners and developers of housing for persons requiring supportive services for the purpose of disbursing federal housing subsidies.

SEC. 13. Section 50687.5 of the Health and Safety Code is amended to read:

50687.5. The department, after consultation with the State Department of Developmental Services, the State Department of Rehabilitation, or the State Department of Mental Health, may adopt, amend or repeal regulations for the administration of this chapter. The State Department of Developmental Services or the State Department of Mental Health shall review all applications submitted pursuant to this chapter for assistance in obtaining federal housing subsidies and shall recommend priorities on the basis of need and greatest impact.

The Department of Housing and Community Development shall submit applications for federal housing subsidies for persons requiring supportive services.

SEC. 14. Section 50688 of the Health and Safety Code is amended to read:

50688. The Legislature finds and declares that proper housing serves as a stabilizing factor and is an important facet of any program designed to rehabilitate mentally disordered, developmentally disabled, and physically disabled persons and that the disruption of continued occupancy in a dwelling could cause a setback in treatment in particular cases. It is, therefore, the intent of the Legislature that persons who have received housing under a program established pursuant to Section 50680 shall be allowed to continue to receive rental housing assistance payments subsidies after termination of participation in a public program of rehabilitation, education, or social services if the persons meet the criteria established by federal regulations governing low-rent housing programs.

SEC. 15. Section 50689 of the Health and Safety Code is amended to read:

50689. (a) It is the intent of the Legislature in enacting this section to provide housing assistance for the developmentally or physically disabled, and mentally disordered where such assistance

is for the purpose of providing a transition from an institutional to an independent setting, and where such assistance is administered in the context of ongoing local programs leading to rehabilitation and independence.

(b) The department shall establish a program for the purpose of housing assistance for the physically or developmentally disabled, or mentally disordered. The department shall contract with local agencies or nonprofit corporations incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code which provide supportive services for such individuals, where such services are designed to provide a transition to independent living. The local agencies or nonprofit corporation shall ensure that recipients of housing assistance are income qualified under guidelines for programs of the federal Department of Housing and Urban Development under Section 8 of the United States Housing Act of 1937, as amended (42 United States Code 1437(f)), and shall not contract for housing which exceeds such guidelines for fair market rents for the Section 8 program. Public and private agencies participating in the program established pursuant to this section shall be those whose program philosophies and activities conform substantially to the principles of community living under Chapter 12 (commencing with Section 4830) of Division 4.5, community residential treatment under Chapter 5 (commencing with Section 5450) of Part 1 of Division 5, and independent living under Chapter 8 (commencing with Section 19800) of Part 2 of Division 10, of the Welfare and Institutions Code.

(c) Any local agency making application for housing assistance payments to the department shall, in its application, explain how such housing assistance payments are part of its ongoing programs to establish independent living for its disabled clientele. The department, in reviewing such applications, may consult with the Department of Developmental Disabilities, the Department of Mental Health, and the Department of Rehabilitation.

(d) In order to receive housing assistance payments for any specific structure pursuant to the provisions of this section, the local agency or nonprofit corporation shall not contract for rental of more than 12 units, or for rental of space for more than 24 persons, in the structure. No individual shall remain in a payment assisted unit for more than 18 months.

SEC. 16. Section 50777 of the Health and Safety Code is amended to read:

50777. (a) The department, directly or through a government agency or mortgage lender, and subject to the provisions of subdivision (a) of Section 50776, may provide financial assistance to nonprofit corporations and stock cooperative corporations to enable these corporations to develop or purchase a mobilehome park, ownership of which will be transferred within a reasonable time to shareholders or owners who are persons and families of low or moderate income. Such financial assistance shall not exceed 49

percent of the purchase price or development costs of the mobilehome park which may be directly attributed to the number or ratio of persons or families with incomes, not in excess of the median income of the county, who will occupy the park. Assistance pursuant to this subdivision shall not render a person or household ineligible for assistance pursuant to subdivision (b).

(b) The department, directly or through a governmental agency or mortgage lender, and subject to the provisions of subdivision (a) of Section 50776, may provide financial assistance to persons or families with incomes not in excess of the median income for the county in which the mobilehome park is located to enable such persons or families to purchase a share in a stock cooperative corporation which owns a mobilehome park. In order to be eligible for assistance pursuant to this section, these persons and families in addition shall be limited to households (1) which do not currently own residential property and have not owned any residential property, other than a mobilehome not affixed to a permanent foundation, for at least three years, (2) which have not previously received any assistance pursuant to this chapter and (3) which, without financial assistance pursuant to this section, would be unable to acquire a dwelling unit, mobilehome, or a share in a stock cooperative. Such assistance shall not exceed 49 percent of the purchase price paid by the household for the share in the stock cooperative. The department may establish a maximum purchase price for such shares. Upon sale or transfer of a share the purchase of which is assisted pursuant to this section, the shareholder shall pay to the department an amount proportionate to the percentage of the initial purchase price which was paid with financial assistance provided by the department pursuant to this section, as adjusted for improvements made by the corporation or shareholder. The contract for assistance may require that the department not receive in repayment less than the amount of assistance originally provided. The adjustment for improvements shall be made as set forth in Section 50776.

(c) In no event shall the assistance provided pursuant to subdivision (a) or (b) be used to reduce the purchaser's downpayment below 3 percent of the total purchase price.

(d) Upon sale or transfer of a mobilehome park assisted pursuant to this section, the corporation which owns such park shall pay to the department an amount proportionate to the percentage of the initial purchase price or development cost which was paid by the department pursuant to this section, as adjusted for improvements made by the corporation. The contract for assistance may require that the department not receive in repayment less than the amount of assistance originally provided. The adjustment for improvements shall be made as set forth in Section 50776. For this purpose "improvements" shall be defined by regulations of the department, adopted in accordance with the provisions of Chapter 3.5 (commencing with Section 11340) of Part 1 of Division 3 of Title 2

of the Government Code, and shall be limited to substantial repairs, renovations or additions which increase the value of the mobilehome park or of the shares of the corporation or which bring such mobilehome parks or mobilehomes within mobilehome parks assisted pursuant to this section into conformance with local or state building or housing standards.

(e) Financial assistance shall be provided pursuant to a contract which requires, among other things, restrictions on occupancy, including owner occupancy maintenance and payment of the full amount of taxes and insurance by the shareholders. Every contract required by this section shall be secured by a deed of trust, security, or other interest determined adequate by the department to protect the interests of the state. The deeds of trust, security, or other instruments shall be recorded in the office of the county recorder of the county in which such mobilehome park is located.

(f) Any contract pursuant to this section may permit the recipient of financial assistance to terminate the contract required by this section upon payment to the department of the amount which would be owed to the department if the mobilehome park or share in a stock cooperative, as the case may be, were sold at fair market value at the time of such repayment. These contracts, subject to regulations adopted by the department, may also permit partial repayments prior to sale or transfer.

(g) Contracts pursuant to this section shall also require that the recipient comply with all terms and conditions of, and make all payments required by, any instrument secured by the park or shares in the stock cooperative.

SEC. 3. Section 18711 of the Business and Professions Code is amended to read:

18711. Except as provided in subdivision (d) of Section 18653 and Section 18713, every club licensed under this chapter shall, within 72 hours after the determination of every contest, match, or exhibition for which an admission fee is charged and received, furnish to the commission a written report duly verified by one of its officers, showing the number of tickets issued or sold for such contest, match, or exhibition, the amount of the gross receipts or value thereof, and the gross price charged directly or indirectly and no matter by whom received, for the sale, lease, or other exploitation of broadcasting and television rights of such contest, match, or exhibition, and without any deductions, except for expenses incurred for the announcer, telephone line connection, and transmission mobile equipment facility, which may be deducted from the gross base taxable when such expense is shown as an indirect overhead or loss and is approved by the commission. Such club shall also, within the same time, pay to the commission a tax, exclusive of any federal taxes paid thereon, of one cent ($0.01) for each twenty cents ($0.20), or fraction thereof, except for professional boxing clubs which shall pay one cent ($0.01) for each fifty cents ($0.50) or fraction thereof, of the amount paid for admission to such contest, match, or exhibition, and of the gross price as described above for the sale, lease, or other exploitation of broadcasting or television rights thereof, except that in no case shall such tax be less than fifty dollars ($50). Application for such a permit shall be on a form supplied by the commission and shall contain such information as the commission deems necessary, including the locations where such telecasts are to be viewed. A permit shall be issued for each location where such telecast is to be viewed. The fee for a permit is fifty dollars ($50) each. The permit may be denied only for the following reasons:

(a) That the information required by the commission is not supplied by the applicant.

(b) That the applicant is currently in default on the payment of any taxes or fees required by this article.

SEC. 5. Section 18721 of the Business and Professions Code is amended to read:

In no event, however, shall the tax be less than fifty dollars ($50). The tax shall apply uniformly at the same rate to all persons subject to the tax. The tax on admission applies to the amount actually paid for admission, and not to the regular established price. No tax is due in the case of a person admitted free of charge.

CHAPTER 1022

An act to amend Section 17740 of the Education Code, relating to schools, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 17740 of the Education Code is amended to read:

17740. Except as provided in Section 17741, no project shall be approved, the building area of which, when added to the area of adequate school construction existing in the applicant school district at the time of application, will provide a total area of school building construction per unit of estimated average daily attendance in excess of that computed in accordance with Sections 17743, 17744, 17745, and 17746.

As used in Sections 17741.5, 17743, 17744, 17745, and 17746, "maximum area" means maximum area of school building construction and "attendance unit" means unit of estimated average daily attendance.

As used in this section and Sections 17745 and 17746, "attendance center" means a school maintained or to be maintained at a given location within a district.

No estimate of average daily attendance made by an applicant district for the purpose of justifying an application for an elementary school project shall be made for a longer time than the third fiscal year beyond the fiscal year in which an application is made, or in the case of an application for a junior high school or high school project, for a longer time than the fourth fiscal year beyond the fiscal year in which the application is made. Except as otherwise provided by the board, the estimates of average daily attendance shall be based upon the number of family dwellings and mobilehome parks, as defined in Section 18214 of the Health and Safety Code, under construction or newly constructed and never occupied in the district and the number of children residing in the district. In no case shall an estimate be given effect unless approved by the board.

For the purposes of this chapter, pupils attending grades 7 and 8 in an elementary district, but residing in a high school district which maintains one or more junior high schools, shall not be considered in determining or estimating the average daily attendance of the elementary district, unless one of the following conditions is met:

(a) The elementary district is maintaining and has continuously maintained grades 7 and 8 since a date prior to January 1, 1975.

(b) The elementary district by a vote of the electorate at an election held on June 2, 1981, withdraws its 7th and 8th grade pupils from the high school district.

(c) The elementary district by a vote of the electorate at an election held on November 4, 1980, withdraws its 7th and 8th grade pupils from the high school district and the high school district continues to qualify for a project, other than a project pursuant to Section 17741, on the basis of the remaining 7th and 8th grade pupils. In no event shall a facility be constructed for the withdrawn 7th and 8th grade pupils at a distance less than four miles from the nearest proposed or existing junior high facility.

When such pupils are so considered in determining or estimating the average daily attendance of the elementary district, such pupils

shall not be considered in determining or estimating average daily attendance of the high school district for junior high school purposes.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Since 7th and 8th grade students in at least one school district in the state will go without school housing during the 1982–83 fiscal year, unless a statute is enacted authorizing the Department of General Services to recompute the maximum area of school building construction pursuant to Section 1 of this act, it is necessary that this act take effect immediately.

CHAPTER 1023

An act to create the Fox Canyon Groundwater Management Agency and prescribing the boundaries, organization, operation, management, financing, and other powers and duties of the agency.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. This act shall be known and may be cited as the Fox Canyon Groundwater Management Agency Act.

Article 1. Creation

Sec. 102. A groundwater management agency is hereby created in Ventura County to be known as the Fox Canyon Groundwater Management Agency. The agency shall be governed by a board of directors as specified in Section 401, shall have the boundaries specified in Section 201, and shall exercise the powers granted by this act for purposes of groundwater management within the boundaries of the agency, together with such other powers as are reasonably implied and necessary and proper to carry out the objectives and purposes of the agency. The Legislature hereby finds and declares that the preservation of the groundwater resources within the territory of the agency for agricultural and municipal and industrial uses is in the public interest and that the creation of the agency pursuant to this act is for the common benefit of water users.

Article 2. Boundaries

Sec. 201. For the purposes of this act, the boundaries of the agency shall include all land overlying the Fox Canyon aquifer.

Sec. 202. The agency's initial boundaries shall be established by

the county board of supervisors after a noticed public hearing. The boundaries shall be depicted on a map which shall be adopted by the county board of supervisors and thereafter recorded in the office of the county recorder.

Sec. 203. The board may adjust the agency's boundaries in the same manner prescribed for establishment of the agency's initial boundaries if it determines that the territory overlying the Fox Canyon aquifer is different than the territory theretofore shown on the recorded map of the agency's boundaries.

Article 3. Definitions

Sec. 301. Unless otherwise indicated by their context, the terms defined in this article govern the interpretation of this act.

Sec. 302. "Agency" means the Fox Canyon Groundwater Management Agency established by this act.

Sec. 303. "Aquifer" means a geologic formation or structure that transmits water in sufficient quantities to supply pumping wells or springs. A confined aquifer is an aquifer with an overlying less permeable or impermeable layer.

Sec. 304. "Available supply" means that quantity of groundwater which can be withdrawn in any given year from a groundwater basin or aquifer without resulting in or aggravating conditions of overdraft, subsidence, or groundwater quality degradation. Available supply of a groundwater basin or aquifer includes the natural water supply, imported water, or other water which has been spread to a basin or aquifer or otherwise added to a basin or aquifer, and return flows to the basin or aquifer attributable to these sources reaching the groundwater basin or aquifers in the course of use.

Sec. 305. "Board" means the board of directors of the agency as more particularly described in Section 401.

Sec. 305.5. "Conjunctive use" means the coordinated operation of a groundwater basin and groundwater and surface water supplies. Conjunctive use includes increased groundwater use or decreased groundwater replenishment with surface supplies in years when surface supplies are less than normal and, in years of more abundant surface supplies, the increased use of surface water in lieu of groundwater, either to allow groundwater levels to recover or to replenish artificial groundwater supplies. Conjunctive use also includes long-term storage of water in a groundwater basin.

Sec. 306. "County" means the County of Ventura.

Sec. 307. "Extraction" means the act of obtaining groundwater by pumping or other controlled means.

Sec. 308. "Extraction facility" means any device or method for the extraction of groundwater within a groundwater basin or aquifer.

Sec. 309. "Groundwater" means water beneath the surface of the earth within the zone below the water table in which the soil is completely saturated with water.

Sec. 310. "Groundwater basin" means a geologically and

hydrologically defined area containing one or more aquifers which store and transmit water yielding significant quantities of water to wells.

Sec. 311. "Groundwater management activities" means programs, measures, or actions taken to preserve, protect, and enhance groundwater resources within the territory of the agency.

Sec. 312. "Groundwater rights adjudication" means the determination of substantially all rights in a groundwater basin or the area subject to the adjudication.

Sec. 313. "Lower aquifer system" means the Grimes, Hueneme, and Fox Canyon aquifers.

Sec. 314. "Member agency" means the United Water Conservation District, the county, the cities, and the special districts and mutual water companies entitled to representation on the agency's board of directors as specified in Section 401.

Sec. 315. "Notice" or a "noticed hearing" means the notice required by Section 6061 of the Government Code.

Sec. 316. "Off-basin use" means extracting groundwater from groundwater basins or aquifers for use on land not overlying the basin or aquifer.

Sec. 317. "Operator" means a person who operates a groundwater extraction facility. In the event the agency is unable to determine who operates a particular extraction facility, then "operator" shall mean the person to whom the extraction facility is assessed by the county assessor or, if not separately assessed, the person who owns the land upon which the extraction facility is located.

Sec. 318. "Overdraft" means the condition of the groundwater basin or aquifer where the average annual amount of water extracted exceeds the average annual supply of water to a basin or aquifer.

Sec. 319. "Person" includes any state or local governmental agency, private corporation, firm, partnership, individual, group of individuals, or, to the extent authorized by law, any federal agency.

Sec. 320. "Program" means a groundwater management program prepared by the agency pursuant to this act.

Sec. 321. "Recharge" means the natural or artificial replenishment of groundwater storage by percolation or injection of one or more sources of water at the surface.

Sec. 322. "Replenishment" means spreading water over a permeable area for the purpose of allowing it to percolate to groundwater basins or aquifers, or otherwise adding water to groundwater basins or aquifers.

Sec. 323. "Supplemental water" means surface water or groundwater imported from outside the watershed or watersheds of the groundwater basin or aquifer and flood waters that are conserved and saved within the watershed or watersheds which would otherwise have been lost or would not have reached the groundwater basin or aquifers.

Sec. 324. "Temporary surplus" means the amount of water that

can be extracted from a groundwater basin or aquifer, without permanently adversely affecting the available supply of that groundwater basin or aquifer, to provide storage space for natural or artificial recharge that would be lost during wet years if it could not be stored in the groundwater basin or aquifer.

Sec. 325. "United" means the United Water Conservation District of Ventura County.

Sec. 326. "Water year" means the period from October 1 of one calendar year through September 30 of the following calendar year.

Sec. 327. "Well interference" means a substantial water level decline in a short time period in a localized area caused by pumping from extraction facilities.

Article 4. General Provisions

Sec. 401. The agency shall be governed by the board of directors. The board shall consist of five members. One member shall be chosen by United and one member shall be chosen by the county. The representatives of the county and United shall be chosen by their respective governing boards from their board members whose districts or divisions overlie at least in part the territory of the agency. One member shall be chosen from the members of the city councils of the cities whose territory at least in part overlies the territory of the agency. One member shall be chosen from the members of the governing boards of the following mutual water companies and special districts not governed by the county board of supervisors which are engaged in water activities and whose territory at least in part overlies the territory of the agency: the Alta Mutual Water Company, the Anacapa Municipal Water District, the Berylwood Mutual Water Company, the Calleguas Municipal Water District, the Camrosa County Water District, the Del Norte Mutual Water Company, the Pleasant Valley County Water District, and the Zone Mutual Water Company. The members representing United, the county, the cities, and the special districts and mutual water companies shall serve for a two-year term of office or until the member is no longer an eligible official of the member agency and may serve for more than one term of office. The city member shall be chosen at a public meeting where each city is represented by its mayor. The special district and mutual water company member shall be chosen at a public meeting where each special district and mutual water company is represented by the chairman of its governing board. The fifth member of the board shall be chosen by the other four members for a two-year term to represent agricultural interests within the territory of the agency. The fifth member shall reside and be actively and primarily engaged in agriculture within the territory of the agency. Actively and primarily engaged in agriculture means deriving at least 75 percent of income from agriculture. The other four members shall select the fifth member from a list of at least five nominations from the Ventura County Farm Bureau and the

Ventura County Agricultural Association acting jointly. The five nominees need not be members of either organization. An alternate board member shall be selected by each appointing agency or group in the same manner as the regular member was selected, and that alternate shall act in place of the regular member from each appointing agency or group in case of absence or inability to act.

Sec. 402. No provision of this act shall be construed as denying to the county, United, or any other member agency any rights or powers they already have or which they may be granted.

The agency shall not involve itself in activities normally and historically undertaken by its member agencies, such as the construction and operation of dams, spreading grounds, pipelines, flood control facilities, and water distribution facilities, or the wholesale and retail sale of water, but shall limit its activities to planning, managing, controlling, preserving, and regulating the extraction and use of groundwater within the territory of the agency.

Sec. 403. The board may adopt ordinances for the purpose of regulating, conserving, managing, and controlling the use and extraction of groundwater within the territory of the agency. All ordinances shall be adopted, after noticed public hearings by a majority vote of the board. Notice of the adoption of all ordinances shall be given. The ordinances of the agency shall become effective on the 31st day after adoption except that the board may, by the vote of at least four members of the board, dispense with notice of public hearing and adopt an emergency ordinance which shall become effective immediately upon adoption, if the board determines that the public health, safety, or welfare so requires.

Sec. 404. Any person who intentionally violates any provision of this act or any agency ordinance shall be guilty of an infraction and may be required to pay a fine to the agency of not to exceed five hundred dollars ($500).

Sec. 405. Any person who negligently or intentionally violates any provision of this act or any agency ordinance may also be liable civilly to the agency for a sum not to exceed one thousand dollars ($1,000) per day for each day of such violation, in addition to any other penalties that may be prescribed by law.

Sec. 406. Upon the failure of any person to comply with any provision of this act or any agency ordinance the agency may petition the superior court for a temporary restraining order, preliminary or permanent injunction, or such other equitable relief as may be appropriate. The right to petition for injunctive relief is an additional right to those which may be provided elsewhere in this act or otherwise allowed by law.

Sec. 407. The agency may petition the superior court of the county to recover any sums due the agency. In order to preserve and manage the groundwater resources within its territory, the agency may also commence, maintain, intervene in, defend, compromise, and assume the costs and expenses of legal actions and administrative proceedings now or hereafter begun involving groundwater,

including, but not limited to, groundwater rights adjudication.

Sec. 408. The agency may contract with the county or United for staff and other services and may hire such other contractors and consultants as it considers appropriate.

Sec. 409. The agency may exclude from any of the requirements of this act, or the operation of any ordinance, any operator who extracts less than a minimum amount of groundwater as specified by ordinance adopted by the board.

Article 5. Studies and Investigations

Sec. 501. The agency may collect data and conduct technical and other investigations of all kinds in order to carry out the provisions of this act. All hydrological investigations and studies carried out by or on behalf of the agency shall be conducted by or under the supervision of licensed engineers or other persons qualified in groundwater geology or hydrology.

Sec. 502. The agency shall prepare annually or receive from its member agencies reports on groundwater and supplemental water supplies and conditions in the territory of the agency, including groundwater management and conjunctive use objectives and a plan for implementation of those objectives.

Sec. 503. The agency may recommend and encourage waste water reuse and other water development projects, where those projects will enhance and contribute to the responsible management of groundwater resources, as part of it's annual plan for implementation of groundwater management objectives.

Article 6. Groundwater Management Plans

Sec. 601. The agency shall develop, adopt, and implement a plan to control extractions from the Oxnard and Mugu aquifers with the objective of balancing water supply and demand in the Oxnard Plain of Ventura County by the year 2000.

Sec. 602. (a) The agency shall develop and adopt a lower aquifer management plan for future extractions from the lower aquifer system. As a part of this plan the agency shall determine the hydrologic characteristics of the lower aquifer system in the following geographical areas:

(1) Las Posas Basins.

(2) Pleasant Valley Basin.

(3) Oxnard Plain Basin (including forebay).

(4) Offshore area.

(b) For each such area the lower aquifer system management plan shall estimate the following:

(1) Existing groundwater storage.

(2) The average annual change in storage for the period 1980–2010.

(3) Groundwater storage for the year 2010.

(4) Long-term recoverable storage, including an estimate of nonrecoverable storage.

(5) The expected adverse effects of projected extractions.

(c) The lower aquifer system management plan shall include a policy for the issuance of new well permits for lower aquifer system wells which takes into consideration the location of proposed wells and area of use, projected extractions from the wells, and the effect of the extractions on existing users and on storage in the lower aquifer system. In developing the lower aquifer system management plan the agency shall consider a ban on new irrigated acreage or new municipal water system wells. As a further part of the lower aquifer system management plan the agency shall develop a contingency plan to deal with the possible occurrence of on-land seawater intrusion within the lower aquifer system. This contingency plan shall consider the possibility that new demands could result from upper aquifer system wells that may become inoperative.

(d) Notwithstanding any other provision of this act, the agency shall not regulate existing extraction from the lower aquifer system until the agency has completed and adopted its lower aquifer system management plan, unless it has determined at a noticed public hearing that there is evidence of inland seawater intrusion in the lower aquifer system or that there is less than 50 years of water supply remaining in any one of the groundwater basins listed in subdivision (a) which comprise the lower aquifer system. If the agency makes the requisite findings and seeks to regulate extractions prior to adoption of the lower aquifer system management plan, it may regulate extractions from one or more of the groundwater basins comprising the lower acquifer system without having to regulate extractions from the others by adopting a basin management plan. The impacts associated with regulating extractions within one or more basins upon all other basins within the system must be evaluated by the agency and incorporated in the basin management plan before it can be adopted and implemented.

Sec. 603. The plans required pursuant to this article shall be completed and adopted within three years after the effective date of this act.

Article 7. Groundwater Management

Sec. 701. If the board determines after a noticed public hearing, and consideration of any relevant investigations, studies, and evidence that groundwater management activities are necessary in order to improve or protect the quantity or quality of groundwater supplies within a groundwater basin or aquifer, the board may, by ordinance, exercise any of the following powers:

(a) Require conservation practices and measures within the affected portion of its territory.

(b) Control groundwater extractions by regulating, limiting, or suspending extractions from extraction facilities, the construction of

new extraction facilities, the enlarging of existing extraction facilities, and the reactivation of abandoned extraction facilities.

(c) Commence and prosecute legal actions to enjoin unreasonable uses or methods of use of water within the agency or outside the territory of the agency to the extent those uses or methods of use adversely affect the groundwater supply within the agency.

(d) Impose spacing requirements on new extraction facility construction to minimize well interference.

(e) Impose reasonable operating regulations on extraction facilities to minimize well interference, including requiring pumpers to operate on a rotation basis.

Sec. 702. The availability of supplemental water to any operator shall not subject that operator to regulations more restrictive than those imposed on other operators.

Article 8. Registration of Groundwater Extraction Facilities

Sec. 801. The agency may, by ordinance, require extraction facilities to be registered with the agency within 30 days of notice being given to the operator of the extraction facility.

Sec. 802. The agency may require, by ordinance, that the operator of a registered extraction facility provide the agency annually with the following information regarding the extraction facility:

(a) The name and address of the operator of the extraction facility.

(b) The name and address of the owner of the land upon which the extraction facility is located.

(c) A description of the equipment associated with the extraction facility.

(d) The location of the water extraction facility.

Sec. 803. It shall be a violation to extract groundwater from any extraction facility required to be registered unless the extraction facility has been registered with the agency.

Sec. 804. The agency may, by ordinance, require extraction facilities to be equipped with waterflow measuring devices installed and calibrated by the agency or, at the agency's option, by the extraction facility operator.

Sec. 805. It shall be a violation to extract groundwater from any extraction facility required to be equipped with a waterflow measuring device unless the extraction facility has been so equipped.

Sec. 806. When an extraction facility is equipped with a waterflow measuring device, the record of extraction, as disclosed by the waterflow measuring device, may at the election of the board be presumed to be accurate, and if so shall be used as the basis for computing the water extraction of the extraction facility in completing the groundwater extraction statement.

Sec. 807. The agency may, by ordinance, require proof of the

accuracy of the waterflow measuring device from the operator and may, absent adequate proof of accuracy, order the operator at the operator's sole cost to have the waterflow measuring device calibrated in a manner acceptable to the agency. If the agency has probable cause to believe that the extraction of groundwater from any extraction facility is in excess of the amount reported in groundwater extraction statements, or if no statements are filed covering an extraction facility, the agency may investigate the extraction of water from each extraction facility.

Sec. 808. It shall be a violation for any person to intentionally injure, alter, remove, reset, adjust, manipulate, obstruct, or in any manner interfere or tamper with any waterflow measuring device affixed to any extraction facility as required by this act or any agency ordinance so that the waterflow measuring device improperly or inaccurately measures and records water extraction.

Sec. 809. The board may, by ordinance, establish reasonable methods to be used in computing the amount of water extracted by extraction facilities.

Sec. 810. The agency may, by ordinance, require the operator of each extraction facility to file annually with the agency or a member agency a groundwater extraction statement that contains, but is not limited to, the following information:

(a) Total extraction in acre-feet of water from the extraction facility for the preceding year.

(b) The static groundwater level for the extraction facility.

(c) A description of the location of the extraction facility.

(d) The crop types or other uses and the acreage served by the extraction facility.

(e) The method of measuring or computing groundwater extraction.

Each groundwater extraction statement shall be verified by a written declaration under penalty of perjury that the information contained in the statement is true and correct. The operator of an extraction facility which has been permanently abandoned after the effective date of this act shall give written notice of the abandonment to the agency.

Sec. 811. It shall be a violation for any person who is required to file a groundwater extraction statement, not to do so.

Sec. 812. It shall be a violation for any person, with intent to evade any provision or requirement of this act, to file a false or fraudulent groundwater extraction statement with the agency.

Article 9. Management Charges

Sec. 901. Each year the board may fix a management charge for the purpose of paying the costs of initiating, carrying on, and completing any of the powers, purposes, and groundwater management activities for which the agency is organized.

Sec. 902. Management charges shall be paid upon presentation

one-quarter each by United, the county, the cities whose territory at least in part overlies the territory of the agency, and the special districts and mutual water companies described in Section 401. For example, if four cities overlie the territory of the agency, each of those four cities shall pay one-quarter of one-quarter of such management charges, and similarly if four special water districts and four mutual water companies overlie the territory of the agency, each special water district and mutual water company shall pay one-eighth of one-quarter of the management charges.

Sec. 903. The board may fix management charges for the first three years only after the effective date of this act.

Article 10. Groundwater Extraction Charges

Sec. 1001. The agency may, by ordinance, levy groundwater extraction charges on the extraction of groundwater from all water extraction facilities within the territory of the agency for the purposes of paying the costs of initiating, carrying on, and completing any of the powers, purposes and groundwater management activities described in this act.

Sec. 1002. The Legislature hereby finds and determines that the groundwater management activities of the agency are of equal benefit to all operators of groundwater extraction facilities within the territory of the agency.

Sec. 1003. The groundwater extraction charge rate shall be uniform for groundwater extraction within the territory of the agency.

Sec. 1004. Groundwater extraction charges shall be calculated on the basis of groundwater extraction statements required to be filed pursuant to this act.

Sec. 1005. If any operator of any extraction facility fails to pay the groundwater extraction charge when due, the agency shall charge and collect interest at the rate of 1½ percent each month on the delinquent amount of the groundwater extraction charge. In addition, the agency may exercise any of the provisions of Sections 75630 to 75633, inclusive, of the Water Code for the purpose of collecting delinquent groundwater extraction charges.

Sec. 1006. All moneys collected by the agency pursuant to this act shall be available for expenditure by the agency in carrying out its groundwater management functions pursuant to this act.

Sec. 1007. The groundwater extraction charge shall not exceed fifty cents ($0.50) per acre foot pumped per year.

Sec. 1008. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act, and because certain costs which may be incurred by a local agency or

school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1024

An act to repeal Section 12151 to the Welfare and Institutions Code, relating to public assistance.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 12151 of the Welfare and Institutions Code is repealed.

CHAPTER 1025

An act to amend Section 15200.4 of the Welfare and Institutions Code, relating to public social services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 15200.4 of the Welfare and Institutions Code is amended to read:

15200.4. (a) In administering the Aid to Families with Dependent Children program provided for under Chapter 2 (commencing with Section 11200), excluding provisions relating to foster care, the director may impose sanctions as provided by this section to assure adequate county administration performance. Fiscal sanctions may be imposed against a county only if the department has conducted, within the county, a statistically reliable and valid case sample with a confidence level of at least 95 percent.

(b) The director may hold counties financially liable for aid paid to ineligible persons and aid paid to eligible persons in excess of the amount to which they are entitled as represented by a dollar error rate. There shall be established annually in the Budget Act a dollar error rate standard which shall be the basis for computing a county's liability under this section for the two subsequent quality control review periods for which error rates are generated. Counties which exceed the standard during the sanction period may be apportioned

a sanction no greater than the state share of the Aid to Families with Dependent Children program payments multiplied by the amount by which the statistical measure of the lower point estimate of their error rate exceeded the standard.

(c) If a federal fiscal sanction is imposed against the state as a result of the state's dollar error rate being above the federally established tolerance level, the director shall pass the sanction on to the counties in accordance with regulations adopted by the director which establish a method for equitable distribution of the sanction. The amount assessed to any county may be reduced or set aside if the director finds that extenuating circumstances existed and that imposition of the full sanction amount would unfairly penalize the county.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Since pending fiscal sanctions create undue hardships on local government financing, and the provisions of this act are essential for removing these hardships, it is necessary that this act go into immediate effect.

CHAPTER 1026

An act to add Article 9.5 (commencing with Section 426) to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, relating to health.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Article 9.5 (commencing with Section 426) is added to Chapter 2 of Part 1 of Division 1 of the Health and Safety Code, to read:

Article 9.5. Indoor Environmental Quality

426. The Legislature finds and declares that:

(a) The people of the State of California have a primary interest in the quality of the indoor environment in which they live.

(b) As people spend greater portions of time each day indoors, the environmental quality of our buildings becomes increasingly important.

(c) Changes in building design, materials, construction, and operation have resulted in significant changes in indoor environmental quality.

(d) Activities and use of chemical products, appliances, power equipment, wear and tear of structural decorative materials, thermal factors, and mechanical ventilation are degrading the indoor environment, thereby creating mounting dangers to the public health, safety, and welfare.

426.2. The Legislature, in view of the findings and declarations specified in Section 426, declares that the public interest shall be safeguarded by a coordinated, coherent state effort to protect and enhance the indoor environmental quality in residences, public buildings, and offices in the state.

426.4. For the purpose of this article, "indoor environmental quality" means the environment inside a residential dwelling, including a house or apartment, or inside a school, office, public building, or other facility to which the general public has access. The term "indoor environmental quality" shall not include industrial working environments.

426.6. The State Department of Health Services shall coordinate efforts to assess, protect, and enhance indoor environmental quality.

426.8. The State Department of Health Services shall conduct and promote the coordination of research, investigations, experiments, demonstrations, surveys, and studies relating to the causes, effects, extent, prevention, and control of indoor pollution.

SEC. 2. Section 1 of this act shall become operative only if the Statutes of 1982 include an appropriation which is specifically for the purposes of the provisions enacted by this act.

CHAPTER 1027

An act to add and repeal Sections 3482.6 and 3482.7 of the Civil Code, and to amend Sections 21682, 21684, and 21687 of the Public Utilities Code, relating to aviation.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that it is in the public interest to continue and maintain a program of annual grants to eligible public airports. It is further in the public interest that the Department of Transportation maintain the minimum administrative control over the annual grant program consistent with insuring that limited funds available are expended in a timely fashion on eligible projects which are of benefit to the state's airport system.

SEC. 1.5. Section 3482.6 is added to the Civil Code, to read:

3482.6. (a) No action for damages alleged to have been caused by aircraft noise, brought pursuant to the provisions of this part, may

be maintained against an airport owned and operated by a county or city and county but physically located in another county or city and county operating in compliance with the noise standards adopted by the Department of Transportation pursuant to Section 21669 of the Public Utilities Code including an airport operating in compliance with a variance issued to the airport by the Department of Transportation.

(b) No action may be maintained against an airport owned and operated by a county or city and county but physically located in another county or city and county by any person unless that person resides in an area where the level of noise exceeds the applicable criterion for residential areas established by the noise standards adopted by the Department of Transportation pursuant to Section 21669 of the Public Utilities Code.

(c) In no event shall the provisions of this section be used to prevent any legal action by any resident of a city of over 2,000,000 population.

(d) This section shall remain in effect only until January 1, 1985, and on that date is repealed unless a later enacted statute which is chaptered on or before that date deletes or extends that date.

SEC. 1.6. Section 3482.7 is added to the Civil Code, to read:

3482.7. (a) If, in any civil action, the operations of any airport owned and operated by a county or city and county but physically located in another county or city and county holding a permit issued by the Department of Transportation pursuant to Section 21662 of the Public Utilities Code are found to be a nuisance, they shall be deemed to be a permanent nuisance and not a continuing nuisance.

(b) In no event shall the provisions of this section be used to prevent any legal action by any resident of a city of over 2,000,000 population.

(c) This section shall remain in effect only until January 1, 1985, and on that date is repealed unless a later enacted statute which is chaptered on or before that date deletes or extends that date.

SEC. 2. Section 21682 of the Public Utilities Code is amended to read:

21682. (a) The department shall establish individual revolving fund subaccounts for eligible airports in the Aeronautics Account of the State Transportation Fund. Money payable under this section shall be credited to individual airport subaccounts annually, and may be accumulated for a maximum period of five years.

(b) The department shall, subject to Section 21684, credit from the Aeronautics Account to each public entity owning and operating an airport or airports under a valid permit issued by the department for every airport which has less than 85,000 annual enplanements the sum of five thousand dollars ($5,000) annually for each such airport. These funds shall be paid to public entities upon request for expenditure on preapproved eligible projects. Eligible public entities may submit applications for the withdrawal of credited funds for expenditure on proposed projects in letter form to the

department for review and approval. Projects identified shall be for airport and aviation purposes and operation and maintenance purposes. Payment under this section is conditioned upon each public entity proving to the satisfaction of the department that no more than 85,000 enplanements occurred at each airport for which funding is being sought. No payment made under this section is transferable, but shall be expended only upon the airport for which the payment is made; provided, that the department may grant a waiver in extenuating circumstances. The department may establish such accounting systems as it deems necessary to provide for the cumulation and expenditure of funds under this subdivision.

(c) If, in any year, there is insufficient money in the Aeronautics Account to make the credits specified in subdivision (b), the department shall, subject to Section 21684, credit to each such public entity subaccount an amount which is equal to the total amount of money in the Aeronautics Account multiplied by a percentage equivalent to the proportion which the airport or airports of the public entity for which credit is required to be made pursuant to subdivision (b) bear to the total number of airports for which credit is required to be made pursuant to subdivision (b).

(d) No payment shall be made under this section to any public entity for any airport on which general or commercial aviation activities are substantially restricted if the airport is licensed to conduct such activities by the department. The department shall determine whether or not general or commercial aviation activities are restricted.

(e) The department shall adopt rules and regulations and establish procedures to effect prompt payment to public entities for eligible airport projects from money credited pursuant to this section.

SEC. 3. Section 21684 of the Public Utilities Code, as amended by Section 1 of Chapter 532 of the Statutes of 1981, is amended to read:

21684. (a) No payment shall be made to a public entity pursuant to this article unless the public entity has established a special aviation fund in which all payments received by a public entity under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made to a public entity pursuant to Section 21682 or 21683 unless the public entity deposits in its special aviation fund, for expenditures solely for airport and aviation purposes, a sum from nonstate or nonfederal funds based on a rate established annually by the commission as matching funds. The commission shall establish a rate of at least 10 percent and not exceeding 50 percent of the nonfederal funded portion. However, the rate shall be uniform for all entities and projects within a particular year. In no event shall the sum deposited in the special aviation fund be less than 10 percent of the total eligible project costs.

Notwithstanding the provisions of this subdivision requiring matching funds, the department shall pay a sum of five thousand dollars ($5,000) annually to each city, county, airport district, or the

University of California owning and operating an airport in accordance with Section 21682.

(b) No payment shall be made for any airport to the University of California pursuant to this article unless the university has established a special aviation fund in which all payments received by the university under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made for any airport to the University of California pursuant to Section 21682 or 21683 unless the university deposits in its special aviation fund, for expenditure solely for airport and aviation purposes, a sum from nonstate or nonfederal funds based on the rate established annually by the commission pursuant to subdivision (a), or unless a city located within 10 miles of the airport, or the county within which the airport is located, pays to the university a sum based on the rate established by the commission pursuant to subdivision (a). However, any sums so deposited by the university or paid by the city or county may be considered jointly as meeting the requirements of this section. The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

(c) Payments made by the department pursuant to Section 21682 and funds provided by public entities to match these payments may be accrued for a period of not more than five years. Extension of time for accrual of these funds for major projects shall be obtained from the department.

(d) This section shall remain in effect only until July 1, 1986, and as of that date is repealed, unless a later enacted statute, which is chaptered before July 1, 1986, deletes or extends that date.

SEC. 4. Section 21684 of the Public Utilities Code, as amended by Section 2 of Chapter 532 of the Statutes of 1981, is amended to read:

21684. (a) No payment shall be made to a public entity pursuant to this article unless the public entity has established a special aviation fund in which all payments received by a public entity under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made to a public entity pursuant to Section 21682 or 21683 unless the public entity deposits in its special aviation fund, for expenditures solely for airport and aviation purposes, a sum at least equal to the amount to be paid by the commission or the department pursuant to these sections.

(1) Notwithstanding the provisions of this subdivision requiring matching funds, the department shall pay a sum of five thousand dollars ($5,000) annually to a county with a population of under 1,000, as determined by the last federal decennial census, for the purpose of constructing and maintaining an airport.

(2) Notwithstanding the provisions of this subdivision requiring matching funds, the department shall pay the sum of five thousand dollars ($5,000) annually to each city, county, airport district, or the University of California owning and operating an airport or airports

in accordance with Section 21682.

(b) No payment shall be made for any airport to the University of California pursuant to this article unless the university has established a special aviation fund in which all payments received by the university under this article shall be deposited for expenditure solely for airport and aviation purposes. No payment shall be made for any airport to the University of California pursuant to Section 21682 or 21683 unless the university deposits in its special aviation fund each year, for expenditure solely for airport and aviation purposes, a sum from nonstate or nonfederal funds at least equal to the amount to be paid by the commission or the department pursuant to these sections, or unless a city located within 10 miles of the airport or the county within which the airport is located pays to the university a sum at least equal to the amount to be paid by the commission or the department pursuant to these sections. However, any sums so deposited by the university or paid by the city or county may be considered jointly as meeting the requirements of this section. The payments received from a city or county pursuant to these sections are to be expended solely for the airport and for aviation purposes related to such airport. All payments received by the university shall be deposited in its special aviation fund.

(c) Payments made by the department pursuant to Section 21682 and funds provided by public entities to match these payments may be accrued for a period of not more than five years. Extension of time for accrual of these funds for major projects must be obtained from the department.

(d) This section shall become operative on July 1, 1986.

SEC. 5. Section 21687 of the Public Utilities Code is amended to read:

21687. (a) Whenever any airport, for which payments have been made from the Aeronautics Account or any predecessor fund, ceases to be used as an airport open to the general public for a period in excess of one year, the public entity to which such payments were made shall pay to the state, which payments shall be deposited in the Aeronautics Account, an amount computed by the Controller. The amount shall equal the total of all payments made for such airport from the Aeronautics Account during the preceding 20 years less 5 percent of the amount of a particular payment multiplied by the number of years since the payment was made, or the unused balance, whichever is greater. This section shall not be applicable to an airport that is replaced by a comparable facility, as determined by the department, within a period of one year.

(b) This section shall not apply in the case of an airport for which the department has on or after January 1, 1981, suspended the airport permit and for which payments made pursuant to this article are being expended to correct the deficiency or condition which resulted in the suspension of the airport's permit.

SEC. 6. The Legislature finds and declares that Sections 1.5 and 1.6 of this act are necessary since special facts and circumstances

applicable to airports situated outside the jurisdiction of the public agency owner or operator, and not generally applicable, make the accomplishment of this purpose impossible by any general law. These provisions constitute a recognition by the Legislature of the unique problems that face public agency operators of airports which are not located within their own jurisdictions in terms of assuring the approval of their own residents for public works projects through the political processes. The Legislature further declares that the purpose of this act is impossible to accomplish by any general law, and that special legislation applicable only to these airports and their operators is therefore necessary.

SEC. 7. If any provision of this act or the application thereof to any person or circumstances is held invalid, such invalidity shall not affect other provisions or applications of the act which can be given effect without the invalid provision or application, and to this end the provisions of this act are severable.

(2) The CARE program links existing educational welfare and job training programs and moneys into a cooperative unit to help the CARE enrollee break out of the welfare cycle into the productive career world

(3) The CARE program is a cooperative effort involving the State Employment Development Department, the State Department of Social Services, local county welfare departments, the Chancellor's office of the California Community Colleges, and the individual community colleges through extended opportunity programs and services.

(4) A special outreach and support effort targeted specifically to welfare recipients is needed to assist them in succeeding in a community college setting.

(5) Many welfare recipients with children are desirous of preparing for employment through job-relevant study in a community college towards the completion of high school diploma requirements, attainment of an associate of arts degree, or other college-specific certificates, but cannot do so because of lack of child care and transportation services.

(6) It is the intent of the Legislature that the number of welfare recipients enrolled in the CARE program be maintained and expanded so that welfare recipients may be given an opportunity to expand their education and job training opportunities, and thereby enhance their employability and minimize their need for welfare assistance. It is also the intent of the Legislature that welfare recipients become convinced that they and their children are important, that they are capable, and that with proper support they can break the welfare dependency cycle through education and job training.

SEC. 2. Article 4 (commencing with Section 79150) is added to Chapter 9 of Part 48 of the Education Code, to read:

CHAPTER 1030

An act relating to the State Lands Commission, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 13, 1982 Filed with Secretary of State September 14, 1982]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares as follows:

(a) Chapter 145 of the Federal Statutes of 1853 granted to the State of California from the public domain the 16th and 36th sections

of every township for the support of schools. Because some of the sections to which the state was entitled had been sold, preempted, or included within Indian, military, or other reservations, or were otherwise disposed of by the United States, prior to survey, the state could select other public lands as indemnity or in-lieu lands. In December 1978, the Bureau of Land Management and the State Lands Commission, after completing a comprehensive audit, concluded that the State of California was entitled to select not less than 62,423.59 acres.

(b) Two sections of land lost to the federal government are located within the Naval Petroleum Reserve at Elk Hills in Kern County. They comprise 1,332.39 acres of known recoverable oil reserves estimated at 60 million barrels. The State Lands Commission is working with the Bureau of Land Management to establish the value of these two parcels and to identify federal lands of similar mineral character and value to select in-lieu of the Elk Hills parcels. Approximately 50 currently producing federal leases have been nominated for consideration. Based upon preliminary estimates, the state should receive between twenty million dollars ($20,000,000) and twenty-five million dollars ($25,000,000) in the current fiscal year and thirty-five million dollars ($35,000,000) to fifty million dollars ($50,000,000) each fiscal year thereafter, at current oil prices. That revenue would be deposited in the General Fund pursuant to Section 6217.5 of the Public Resources Code.

(c) In determining the value of mineral resources, the State Lands Commission will obtain the services of an expert appraiser of oil and gas reserves. In addition, the commission, in the management and supervision of the acquired mineral lands, will need increased staff to perform engineering and geological studies, production inspections, environmental reviews and resource assessments, and accounting and auditing services. The commission's primary management objective is to provide an orderly and controlled system for exploration and development of oil and gas resources while maintaining public safety and protection of the environment and, at the same time, maximizing revenue to the state.

SEC. 2. The sum of five hundred fifty thousand dollars ($550,000) is hereby appropriated from the General Fund to the State Lands Commission in augmentation of Item 3560-001-001 of the Budget Act of 1982 (Chapter 326, Statutes of 1982) for new positions, professional and consulting services, and related costs incurred by the State Lands Commission.

SEC. 3. Notwithstanding any other provision of law, the sum of five hundred fifty thousand dollars ($550,000) shall be deposited in the General Fund from tidelands oil and gas revenues after the allocation of revenues pursuant to subdivision (a) of Section 6217 of the Public Resources Code and before any other allocation provided by law.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within

the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to expedite the acquisition of certain lands by the state and to thereby maximize revenues to the state in the current and succeeding fiscal years, it is necessary that this act take effect immediately.

CHAPTER 1031

An act to add Chapter 7 (commencing with Section 15985) to Part 13 of Division 3 of Title 2 of the Government Code, to amend Sections 226, 730.3, and 5384 of, and to repeal Section 730.5 of, the Public Utilities Code, relating to transportation of passengers.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

15986. No county, city, or district may impose a special license or fee for social service transportation provided by a nonprofit social service transportation provider organization or by a for-profit transportation provider, operating under local license or franchise, which provides social service transportation pursuant to contract with a nonprofit social service transportation provider organization.

SEC. 2. Section 226 of the Public Utilities Code, as amended by Chapter 185 of the Statutes of 1982, is amended to read:

226. (a) "Passenger stage corporation" includes every corporation or person engaged as a common carrier, for

compensation, in the ownership, control, operation, or management of any passenger stage over any public highway in this state between fixed termini or over a regular route except those, 98 percent or more of whose operations as measured by total route mileage operated, which are exclusively within the limits of a single city or city and county, or whose operations consist solely in the transportation of bona fide pupils attending an institution of learning between their homes and that institution.

For the purposes of this section, the percentage of the route mileage within the limits of any city shall be determined by the Public Utilities Commission on the first day of January of each year, and the percentage so determined shall be presumed to continue for the year.

(b) "Passenger stage corporation" does not include that part of the operations of any corporation or person engaged in the ownership, control, operation, or management of any passenger stage over any public highway in this state, whether between fixed termini or over a regular route or otherwise, engaged in the transportation of any pupils or students to and from a public or private school, college or university or to and from activities of a public or private school, college or university, where the rate, charge, or fare for that transportation is not computed, collected, or demanded on an individual fare basis.

This exemption does not apply if the primary purpose for the transportation of those persons is to make a profit. "Profit," as used in this subdivision, does not include the recovery of the actual costs incurred in owning and operating a vanpool vehicle, as defined in Section 668 of the Vehicle Code.

(d) "Passenger stage corporation" does not include that part of the operations of any corporation or person engaged in the ownership, control, operation or management of any medical transportation vehicles.

(e) "Passenger stage corporation" does not include the transportation of persons which is ancillary to commercial river rafting and is for the sole purpose of returning passengers to the point of origin of their rafting trip.

(f) "Passenger stage corporation" does not include social service transportation delivered by a nonprofit social service transportation provider or a locally licensed or franchised for-profit transportation provider which operates, in dedicated vehicles, social service transportation pursuant to contract with a nonprofit social service transportation provider organization as long as the provider does not use a vehicle designed for carrying more than 16 persons including

the driver or does not operate vehicles which offer transportation services over regularly scheduled or fixed routes.

SEC. 3. Section 730.3 of the Public Utilities Code is amended to read:

730.3. The commission shall notify every state and local public agency and corporation operating a passenger transit system making a written request for such notification before approving any rate increase for the passenger transportation services of any railroad or passenger state corporation within the territory served by such public transit system.

SEC. 4. Section 730.5 of the Public Utilities Code is repealed.

5384. The commission shall issue permits to persons, who are otherwise qualified, whose passenger carrier operations fall into the following categories:

The permits shall be limited to a 50-mile radius of operation from the home terminal.

CHAPTER 1034

An act to amend Section 33.1 of the Monterey County Flood Control and Water Conservation District Act (Chapter 699 of the Statutes of 1947), relating to the Monterey County Flood Control and Water Conservation District.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 33.1 of the Monterey County Flood Control and Water Conservation District Act (Chapter 699 of the Statutes of 1947) is amended to read:

Sec. 33.1. Any territory in the district lying within the watershed within which a zone is situated may be annexed to such zone pursuant to this section. Territory which is in or annexed to one zone may be annexed to such other zone pursuant to this section.

Notwithstanding any other provisions of this act, the following shall apply with respect to the annexation of new territory to any zone:

(a) A petition for annexation by election signed by 25 percent of

the freeholders residing in the territory proposed to be annexed as shown by the last equalized assessment roll of the county shall be presented to the board. The petition shall designate specifically the boundaries of the territory proposed to be annexed and its assessed valuation as shown by the last equalized assessment roll and shall ask that the territory be annexed to the zone. The petition shall be accompanied by a bond in the sum of not less than one hundred dollars ($100), to be approved by the board and filed with the clerk of the board as security for the payment by the petitioners of the reasonable cost of the election on annexation, in the event that at the election less than a majority of the votes cast are in favor of annexation. The petition shall be verified by the affidavit of one of the petitioners. The petition shall be published by the petitioners for at least two weeks preceding its hearing in a newspaper of general circulation published in the zone, if there is one, or, if not, in a newspaper of general circulation published in the district, together with a notice stating the number of signers of the petition, the time when the petition will be presented to the board and that all persons interested may appear and be heard. It shall not be necessary to publish the names of the signers. At the time specified for the hearing, the board shall hear the petition and may adjourn the hearing from time to time. Upon final hearing of the petition, the board, if it approves the petition as originally presented or in a modified form, shall make an order describing the exterior boundaries of the territory proposed to be annexed and ordering that an election be held in such territory for the purpose of determining whether or not the territory shall be annexed to the zone. The order shall fix the day of the election, which shall be within 60 days from the date of the order, and shall show the boundaries of the territory proposed to be annexed to the zone and shall set forth the measure to be submitted to the voters of such territory and shall designate the precincts, polling places and election officers for such election and state the times between which the polls shall be open. The order shall be published pursuant to Government Code Section 6066. This order shall be entered in the minutes and is conclusive evidence of a due presentation of a proper petition, and of the fact that each of the petitioners was, at the time of the signing and presentation of the petition, qualified to sign. The election shall be held and conducted as provided in Chapter 1 (commencing with Section 22000), Part 1, Division 12 of the Elections Code and sample ballots and polling place cards shall be mailed as provided in Elections Code Section 10012. If a majority of the votes in the territory proposed to be annexed at an election called therein by the board for that purpose are in favor of the annexation, the clerk of the board shall make and cause to be entered in the minutes and endorsed on the petition an order approving the petition and the petition shall be filed. The entry is conclusive evidence of the fact and regularity of all prior proceedings of every kind required by law and of the facts stated in the entry. The board at its next regular meeting after the entry shall,

by an order, alter the boundaries of the zone and annex to it the territory described in the petition. The order of the board is conclusive evidence of the validity of all prior proceedings leading up to the annexation and recited in the order, and from and after the order the territory is part of the zone. If, at the election, less a majority of the votes in a territory proposed to be annexed are in favor of the annexation of the territory to the zone, the signers of the petition shall, within 10 days after the canvassing of the votes of the election, pay to the board the reasonable cost of the election and, if not paid within 10 days, the board may sue on the bond to recover the cost of the election. If the result of the election is against annexation, the board shall, by order, disapprove the petition and enter the order in its minutes. No other proceeding shall be taken in relation thereto until the expiration of six months from the presentation of the petition, except to collect the costs of the election.

(b) A petition for annexation without election signed by the owners of real property in the territory proposed to be annexed, which real property represents at least 75 percent of the total assessed valuation of real property in the territory as shown by the last equalized county assessment roll, shall be presented to the board. The petition shall designate specifically the boundaries of the territory and the assessed valuation of real property therein as shown by the last equalized county assessment roll and shall show the amount of real property owned by each of the petitioners and its assessed valuation as shown by the last equalized county assessment roll. The petition shall ask that the territory be annexed to the zone. The petition shall be verified by the affidavit of one of the petitioners. It shall be published by petitioners at least two weeks preceding the hearing in a newspaper of general circulation published in the zone, if there is one, or, if not, in a newspaper of general circulation published in the district. With the petition there shall be published a notice stating the number of signers of the petition, the time when the petition will be presented to the board and stating that all persons interested may appear and be heard. It shall not be necessary to publish the names of the signers. A printed copy of the petition and notice as so published shall be mailed pursuant to Government Code Sections 53520 to 53523, inclusive. At the time designated the board shall hear the petition and any person interested, and may adjourn the hearing from time to time. Upon the hearing of the petition, the board shall determine whether or not it is for the best interests of the zone and the territory that the territory be annexed to the zone and the board may modify the boundaries of the territory proposed to be annexed as set forth in the petition by decreasing the area of such territory. If the board upon final hearing determines that it is for the best interests of the zone and of the territory proposed to be annexed that the territory be annexed, it shall make an order describing the boundaries of the territory proposed to be annexed and shall alter the boundaries of the zone

and annex to it the territory described in the petition and the territory is then a part of the zone.

(c) A petition for annexation without election signed by 100 percent of the owners of real property in the territory proposed to be annexed may be presented to the board. The petition shall designate specifically the boundaries of the territory and shall ask that the territory be annexed to the zone. The petition shall be verified by the affidavit of one of the petitioners. The board shall then determine, upon reviewing the petition, whether or not it is for the best interest of the zone and the territory that the territory be annexed to the zone. The board may modify the boundaries of the territory proposed to be annexed as stated in the petition by decreasing the area of the territory. If the board determines that it is for the best interest of the zone and of the territory proposed to be annexed that the territory be annexed, the board shall make an order describing the boundaries of the territory proposed to be annexed and shall alter the boundaries of the zone and annex to it the territory described in the petition, and the territory is then a part of the zone.

(d) No petition or request for annexation by any of the above-mentioned methods shall be accepted by the board if a zone annexation petition involving any of the same territory is pending before it for annexation to the same zone.

(e) An order for annexation may be by ordinance or resolution. Whenever any new territory is annexed to a zone, the territory thereupon becomes subject to all the liabilities and entitled to all the benefits of the zone. Any order for annexation may provide for or be made subject to the payment of a fixed or determinable amount of money for the acquisition, transfer, use, or right of use of all or any part of the existing property, real or personal, of the zone. The board may provide that payment of all such amounts shall be either: (1) in lump sums: or (2) in semiannual installments with interest thereon at a rate not to exceed 12 percent over a period not to exceed 10 years beginning on July 1 following the next succeeding March 1, and, in such event, the board shall provide in such ordinance that the total of each such sum to be paid by each parcel shall constitute a lien on such parcel as of noon on the next succeeding March 1, the same as the lien for general district and zone taxes; that such semiannual installments shall be paid and collected at the same time and in the same manner and by the same persons as, and together with and not separately from, general district and zone taxes and shall be delinquent at the same time and thereafter subject to the same delinquency penalties; and that all laws applicable to the levy, collection and enforcement of general district and zone taxes, including, but not limited to, those pertaining to delinquency, correction, cancellation, refund and redemption shall be applicable to such installments.

(f) Notwithstanding any other provision of this section, noncontiguous territory may not be annexed to either Zone 2 or

Zone 2A.

CHAPTER 1035

An act to add Section 61601.95 to the Government Code, and to amend Sections 16, 50, and 51 of the Bighorn Mountains Water Agency Law (Chapter 1175 of the Statutes of 1969), relating to local agencies.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 61601.95 is added to the Government Code, to read:

61601.95. (a) Notwithstanding Sections 61600 and 61601, whenever the Board of Directors of the Lake Arrowhead Community Services District determines, by resolution, that it is feasible, economically sound, and in the public interest for the district to acquire, construct, and operate facilities for the collection, treatment, and disposal of sewage and waste water of inhabitants outside its boundaries, the board shall adopt those additional purposes by resolution entered in the minutes, and the powers of the district may be exercised therefor if the electors of the district approve. In no event shall the district provide sewer services to inhabitants outside of its district boundaries if the inhabitants are included within another public agency currently providing sewer services, unless that public agency consents to the sewer services by resolution or ordinance. 'Public agency," as used in this section, includes a city, county, district, municipal or public corporation, or any other political subdivision of the state, but shall not include a public utility subject to the jurisdiction, control, and regulation of the Public Utilities Commission.

(b) The Lake Arrowhead Community Services District may not proceed with an election to approve the provision of those additional purposes specified in subdivision (a), unless the provision of the additional purposes is approved by the local agency formation commission. A proposal for the provision of the services specified in subdivision (a) shall be made by the adoption of a resolution of application by the district board and filed with the executive officer of the local agency formation commission. Upon the filing of a resolution of application, the executive officer shall set the matter for hearing by the commission and give notice thereof in the manner provided by Part 4 (commencing with Section 56250) of Division 1 of Title 6.

SEC. 2. The Legislature finds and declares that the Lake Arrowhead Community Services district has a special need for the

power to provide for the collection, treatment, and disposal of sewage and waste water of inhabitants outside its boundaries, as set forth in Section 2.5 of this act, in order to insure that these services are available to those inhabitants. The Legislature further finds and declares that this problem is not common to all districts formed under the Community Services District Law. It is, therefore, hereby declared that a general law cannot be made applicable within the meaning of Section 16 of Article IV of the California Constitution, and that the enactment of Section 61601.95 of the Government Code as a special law is necessary for the solution of problems existing with respect to the Lake Arrowhead Community Services District.

SEC. 3. Section 16 of the Bighorn Mountains Water Agency Law (Chapter 1175 of the Statutes of 1969) is amended to read:

Sec. 16. All powers, privileges and duties vested in or imposed upon the Bighorn Mountains Water Agency incorporated hereunder shall be exercised and performed by and through the board of directors; provided, however, that the exercise of any and all executive, administrative and ministerial powers may be by said board of directors delegated and redelegated to any of the officers created hereby and by the board of directors acting hereunder.

The board of directors shall have the power:

(1) To fix the time and place or places at which its regular meetings shall be held, and shall provide for the calling and holding of special meetings.

(2) To fix the location of the principal place of business of the agency and the location of all offices and departments maintained hereunder.

(3) To prescribe by ordinance a system of business administration and to create any and all necessary offices and to establish and reestablish the powers and duties and compensation of all officers and employees and to require and fix the amount of all official bonds necessary for the protection of the funds and property of the agency.

(4) To prescribe by ordinance a system of civil service.

(5) To delegate and redelegate by ordinance to officers of the agency power to employ clerical, legal, and engineering assistants and labor, and under such conditions and restrictions as shall be fixed by the directors, power to bind the agency by contract.

(6) To prescribe a method of auditing and allowing or rejecting claims and demands.

(7) Any improvement or unit of work, when the cost according to the estimate of the engineer will exceed twenty-five thousand dollars ($25,000), shall be done by contract and shall be let to the lowest responsible bidder or bidders as provided in this section. The board shall first determine whether the contract shall be let as a single unit for the whole of the work, or divided into severable convenient parts. The board shall advertise for bids by three (3) insertions in a daily newspaper of general circulation or by two (2) insertions in a weekly newspaper of general circulation printed and published in the agency, if there is a newspaper printed and published in the agency,

inviting sealed proposals for the construction or performance of the improvement or work. The call for bids shall state whether the work shall be performed in one unit or divided into parts. The work may be let under a single contract or several contracts, as stated in such call. The board shall require the successful bidders to file with the board good and sufficient bonds to be approved by the board conditioned upon the faithful performance of the contract and upon the payment of their claims for labor and material. The bonds shall comply with Chapter 3 (commencing with Section 4200) of Division 5 of Title 1 of the Government Code. The board may reject any and all bids and readvertise, or by a two-thirds vote may elect to undertake such work by force account. In the event no proposals are received, or the estimated cost of the work does not exceed twenty-five thousand dollars ($25,000), or the work consists of channel protection, maintenance work, or emergency work when necessary in order to protect life and property from impending flood damage, the board may have the work done by force account without advertising for bids. The agency may purchase in the open market without advertising for bids, materials and supplies for use in any work, either under contract or by force account; provided, however, that materials and supplies for use in any new construction work or improvement, except work referred to in the preceding sentence, may not be purchased if the cost thereof exceeds twenty-five thousand dollars ($25,000), without advertising for bids and awarding the contract therefor to the lowest responsible bidder.

(8) To fix the rates at which water should be sold, and to establish different rates for different classes or conditions of service; provided, that rates shall be uniform for like classes or conditions of service throughout the agency, but any special water rate fixed in accordance with terms and conditions of annexation, shall be deemed to be a rate for a different class or condition of service.

SEC. 4. Section 50 of the Bighorn Mountains Water Agency Law (Chapter 1175 of the Statutes of 1969) is amended to read:

Sec. 50. The agency, by ordinance, may fix, on or before the first day of July in any calendar year, a water standby or availability charge within the agency or in any improvement district thereof to which water is made available by the agency through underground or by surface facilities, whether the water is actually used or not. The standby charge shall not exceed ten dollars ($10) per acre per year for each acre of land within the agency or any improvement district thereof or ten dollars ($10) per year for any parcel of less than one acre. The ordinance fixing a standby charge shall be adopted by the board only after adoption of a resolution setting forth the particular schedule or schedules of charges proposed to be established by ordinance and after notice and hearing in the manner prescribed in the District Reorganization Act of 1965 (commencing with Section 56000 of the Government Code), except that no notice or hearing shall be required in any year in which there is no increase in the schedule or schedules of charges levied during the previous year,

provided that the current schedule or schedules of charges levied are posted in a prominent place easily accessible to public view in the offices of the agency. The ordinance fixing a standby charge may establish schedules varying the charges according to land uses, water uses, and degree of water availability. On or before the third Monday in August, the board shall furnish in writing to the board of supervisors and the county auditor of each affected county a description of each parcel of land within the agency upon which a charge is to be levied and collected for the current fiscal year, together with the amount of standby charge fixed by the district on each parcel of land. The board shall direct that, at the time and in the manner required by law for the levying of taxes for county purposes, the board of supervisors shall levy, in addition to any other tax it levies, a standby charge in the amounts for the respective parcels fixed by the board. All county officers charged with the duty of collecting taxes shall collect agency standby charges with the regular tax payments to the county. Such charges shall be collected in the same form and manner as county taxes are collected and shall be paid to the agency. Charges fixed by the agency shall be a lien on all the property benefited thereby. Liens for such charges shall be of the same force and effect as other liens for taxes, and their collection may be enforced by the same means as provided for the enforcement of liens for state and county taxes.

SEC. 5. Section 51 of the Bighorn Mountains Water Agency Law (Chapter 1175 of the Statutes of 1969) is amended to read:

Sec. 51. The agency may issue negotiable promissory notes pursuant to this section, bearing interest at a rate not to exceed the rate specified in Article 7 (commencing with Section 53530) of Chapter 3 of Part 1 of Division 2 of Title 5 of the Government Code, for the purpose of acquiring funds to finance the construction or acquisition of administrative offices, construction headquarters, commercial offices, or facilities for similar agency purposes and for the acquisition of land for agency purposes. The maturity of such promissory notes shall not be later than 10 years from the date thereof. The total aggregate amount of such notes outstanding at any one time may be at least equal to one hundred thousand dollars ($100,000), but shall not exceed the lesser of either five hundred thousand dollars ($500,000) or 1 percent of the assessed valuation of the taxable property in the agency or, if the assessed valuation is not obtainable, 1 percent of the county auditor's estimate of the assessed valuation of the taxable property in the agency evidenced by his certificate. Promissory notes issued pursuant to subdivision 11 of Section 15 may be disregarded in computing the aggregate amount of notes that may be issued pursuant to this section.

CHAPTER 1036

An act to amend Sections 99268.5 and 99314.5 of, and to add and repeal Section 99270.2 of, the Public Utilities Code, relating to transportation.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 14, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 99268.5 of the Public Utilities Code is amended to read:

99268.5. (a) Commencing with claims for the 1980–81 fiscal year, no funds shall be allocated under this article in any fiscal year to an operator providing services using vehicles for the exclusive use of elderly and handicapped persons, unless the operator maintains, for the fiscal year, a ratio of fare revenues to operating cost, as defined by subdivision (a) of Section 99247, for such services at least equal to one-tenth or to the ratio it had for such services during the 1978–79 fiscal year, whichever is greater.

(b) Notwithstanding subdivision (a), an operator which provides both exclusive transportation services for elderly and handicapped persons and regular scheduled public transportation services may be allocated funds under this article for the exclusive service if the combined services qualify under Section 99268.1, 99268.2, 99268.3, or 99268.4, as the case may be, and the ratio of fare revenues to operating cost for the combined service shall not be less than the ratio required in order to make allocations to the operator for its regular scheduled services.

(c) In a county which had less that 500,000 population as determined by the 1970 federal decennial census and greater than 500,000 in population as determined by the 1980 federal decennial census, an operator in the county shall maintain a rate of fare revenues to operating cost, as defined by subdivision (a) of Section 99247, at least equal to one-fifth if serving an urbanized area or one-tenth if serving a nonurbanized area.

SEC. 2. Section 99270.2 is added to the Public Utilities Code, to read:

99270.2. If an operator serves an area that was first designated as an urbanized area in the 1980 federal decennial census, the transportation planning agency may grant the operator time, but not after July 1, 1985, to meet the ratio of fare revenues to operating cost required of an operator serving an urbanized area.

This section shall remain in effect only until July 1, 1985, and as of that date is repealed, unless a later enacted statute, which is chaptered before July 1, 1985, deletes or extends that date.

SEC. 3. Section 99314.5 of the Public Utilities Code, as added by Chapter 322 of the Statutes of 1982, is amended to read:

99314.5. (a) No funds allocated pursuant to Section 99313.3 or 99314.3 shall be allocated to an operator unless (1) it is eligible for allocations under Article 4 (commencing with Section 99260), without considering any funds to be allocated to it pursuant to those sections, and (2) it is receiving the maximum allocation allowable under that article or it is in a county in which funds may be allocated for purposes specified in Section 99400.

(b) No funds allocated pursuant to Section 99313.3 shall be allocated to a city or county for purposes specified in subdivisions (b) and (c) of Section 99400 unless it is eligible for allocations under Article 8 (commencing with Section 99400) for those purposes, without considering any funds to be allocated to it pursuant to that section.

(c) The funds may be allocated to an operator for its operating cost only if the operator is not precluded, by any contract entered into on or after June 28, 1979, from employing part-time drivers or contracting with common carriers of persons operating under a franchise or license and if the operator is in compliance with Section 99268.1, 99268.2, 99268.3, 99268.4, 99268.5, or 99268.9, whichever is applicable to it. No person who was a full-time employee of an operator on June 28, 1979, shall have his or her employment terminated or his or her regular hours of employment, excluding overtime, reduced by the operator as a result of it employing part-time drivers or contracting with those common carriers.

(d) It is the intent of the Legislature that, in allocating the funds, the transportation planning agencies and the county transportation commissions, and the San Diego Metropolitan Transit Development Board, give priority consideration to claims to offset reductions in federal operating assistance and the unanticipated increase in the cost of fuel, to enhance existing public transportation services, and to meet high-priority regional, countywide, or areawide public transportation needs.

SECTION 1. Section 5302 of the Unemployment Insurance Code is amended to read:

5302. (a) Whenever a registrant fails or refuses to appear for appraisal, or a certified registrant fails or refuses to accept employment or to otherwise participate in a work incentive or employment preparation program, the department shall determine whether the individual had good cause for such failure or refusal.

(b) The department shall exhaust efforts toward conciliatory resolution of disputes before it issues a notice of intended deregistration. The purpose of this effort is to encourage the participant to continue in the Work Incentive Program or the Employment Preparation Program. The conciliatory effort shall begin no later than 10 days following the date of failure or refusal to participate as determined under subdivision (a). The conciliation effort may continue for a period not to exceed 30 days. However, either the department or the registrant, upon written request, may terminate this period sooner when either believes that conciliation will not resolve the dispute. The department shall advise the registrant of the right to terminate the conciliation effort and, when necessary, assist the registrant in preparing a written request to do so.

SEC. 2. Section 5304 of the Unemployment Insurance Code is amended to read:

5304. (a) If the department determines that a registrant without good cause failed or refused to appear for appraisal, or a certified registrant without good cause fails or refuses to accept employment or to otherwise participate in a work incentive or employment preparation program and the conciliation period specified in Section 5302 has ended, it shall mail to the registrant a notice of intended deregistration within two working days after the end of the conciliation period.

(b) The notice shall include:

(1) A detailed explanation of the reason for the action and the consequence of refusal or failure to cooperate without good cause.

(2) Notification of the registrant's right to a hearing if the registrant believes that the proposed action is incorrect and the registrant files a written request for a hearing as prescribed in Section 5305.

(3) Notice that the proposed action shall be implemented if a hearing request is not received within the prescribed time.

(4) Instructions and required forms for requesting a hearing.

(5) An offer to assist with preparation of the hearing request.

(6) Notice that the registrant may be represented at the hearing by counsel or other authorized representative appointed by the registrant, and that the registrant and his or her representative, if any, shall have the opportunity to confront and cross-examine opposing witnesses.

(7) Notice that the registrant shall be permitted to present material evidence and testimony at the hearing that is not already

in the record.

Upon determination that individuals registered under Section 11310 have failed to meet all the conditions of eligibility for unemployment insurance, the county shall make a good cause determination under standards established by the department. These standards shall be the same as those which govern the Work Incentive Program. Applicants and recipients who are exempt from work registration under Section 11310 and who are apparently eligible for unemployment insurance benefits shall, as a condition of eligibility, apply for and accept any unemployment insurance benefits for which the Employment Development Department determines they are eligible. The department shall establish by regulations the standards to determine apparent eligibility for unemployment insurance.

SEC. 5. Section 11308 of the Welfare and Institutions Code, as amended by Chapter 3 of the 1981–82 First Extraordinary Session, is amended to read:

11308. (a) Upon notification by the Employment Development Department that, pursuant to Chapter 4 (commencing with Section 5300) of Division 2 of the Unemployment Insurance Code, an individual registered pursuant to Section 11310 has been found to have failed or refused to appear for appraisal, to accept employment, or to otherwise participate in a work incentive program, the county

(c) If an individual is a volunteer registrant and a recipient of aid under this chapter and has failed or refused to participate in the work incentive program without good cause, the sanctions specified in subdivision (a) shall apply, but the sanctions specified in subdivision (b) shall not apply.

(d) For the purposes of this section, the term "principal wage earner" shall be defined as the parent who earns the greatest amount of income during the 2-year period immediately preceding application for benefits.

(e) The sanctions provided by this section shall become effective on the first day of the first payment-month that the sanctioned individual's needs are removed from aid under this chapter.

(f) In the event the provisions of this section conflict with federal law, the department shall adopt regulations to conform state regulations to federal law.

SEC. 6. Section 11310 of the Welfare and Institutions Code is amended to read:

(8) An individual who is working not less than 30 hours per week in unsubsidized employment which is expected to last a minimum of 30 days. This exemption continues to apply if there is a temporary break in full-time employment which is expected to last no longer than 10 working days.

(c) Any individual not required to register with the Employment Development Department may choose to register voluntarily for manpower services, training, and employment, and may withdraw such registration at any time without loss of eligibility for aid under this chapter, if his or her status has not changed in a way which would require registration.

The unemployed parent in a family which qualifies for assistance under paragraph (2) of subdivision (a) of Section 11201 shall be provided job search assistance, employment services, training, and other supportive services as specified for the Employment Preparation Program pursuant to Article 3.5 (commencing with Section 11325) in those sites where the Employment Preparation Program is implemented.

CHAPTER 1040

An act to amend Section 2484 of the Business and Professions Code, and to amend Section 411.30 of the Code of Civil Procedure, relating to podiatrists.

[Approved by Governor September 13, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 2484 of the Business and Professions Code is amended to read:

2484. On and after January 1, 1983, in addition to any other requirements of this chapter, before a certificate to practice podiatric medicine may be issued, each applicant shall show by evidence satisfactory to the committee that he or she has satisfactorily completed one year of approved postgraduate podiatric surgical training in a general acute care facility. If an approved postgraduate podiatric surgical training residency was not available nationally for the applicant, a one-year preceptorship approved by the committee may be substituted until January 1, 1986.

SEC. 2. Section 411.30 of the Code of Civil Procedure is amended to read:

411.30. (a) In any action for damages arising out of the professional negligence of a person holding a valid physician's and surgeon's certificate issued pursuant to Chapter 5 (commencing with Section 2000) of Division 2 of the Business and Professions Code, or of a person holding a valid dentist's license issued pursuant to Chapter 4 (commencing with Section 1600) of Division 2 of the Business and Professions Code, or of a person holding a valid podiatrist's certificate issued pursuant to Article 22 (commencing with Section 2460) of Chapter 5 of Division 2 of the Business and Professions Code on or before the date of service of the complaint on any defendant, the plaintiff's attorney shall file the certificate specified in subdivision (b).

(b) A certificate shall be executed by the attorney for the plaintiff declaring one of the following:

(1) That the attorney has reviewed the facts of the case, that the attorney has consulted with at least one physician and surgeon, dentist, or podiatrist who is licensed to practice and practices in this state or any other state or teaches at an accredited college or university and who the attorney reasonably believes is knowledgeable in the relevant issues involved in the particular action, and that the attorney has concluded on the basis of such review and consultation that there is reasonable and meritorious cause for the filing of such action.

(2) That the attorney was unable to obtain the consultation required by paragraph (1) because a statute of limitations, including

the provisions of Section 581a, would impair the action and that the certificate required by paragraph (1) could not be obtained before the impairment of the action. If a certificate is executed pursuant to this paragraph, the certificate required by paragraph (1) shall be filed within 60 days after service of the complaint.

(3) That the attorney was unable to obtain the consultation required by paragraph (1) because the attorney had made three separate good faith attempts with three separate physicians and surgeons, dentists, or podiatrists to obtain such consultation and none of those contacted would agree to such a consultation.

(c) Where a certificate is required pursuant to this section, only one such certificate shall be filed notwithstanding that multiple defendants have been named in the complaint or may be named at a later time.

(d) Where the attorney intends to rely solely on the doctrine of "res ipsa loquitur", as defined in Section 646 of the Evidence Code, or exclusively on a failure to inform of the consequences of a procedure, or both, this section shall be inapplicable. The attorney shall certify upon filing of the complaint that the attorney is solely relying on the doctrines of "res ipsa loquitur" or failure to inform of the consequences of a medical procedure or both, and for that reason is not filing a certificate required by this section.

(e) If a request by the plaintiff for the defendant's records has been made pursuant to Section 1158 of the Evidence Code, and if the defendant has failed to produce such records within the time limits specified by that section, the time for filing the certificate of merit shall be extended for the period by which the time for furnishing records set forth in Section 1158 of the Evidence Code is exceeded by the defendant to a maximum of 60 days after which the requirement for the certificate is voided.

(f) For purposes of this section, and subject to Evidence Code Section 912, an attorney who submits a certificate as required by paragraph (1) or (2) of subdivision (b) has a privilege to refuse to disclose the identity of the physician or surgeon, dentist, or podiatrist consulted and the contents of such consultation. Such privilege shall also be held by the physician or surgeon, dentist, or podiatrist so consulted, provided when the attorney makes a claim under paragraph (3) of subdivision (b) that he was unable to obtain the required consultation with the physician and surgeon, dentist, or podiatrist, the court may require the attorney to divulge the names of physicians and surgeons, dentists, or podiatrist refusing such consultation.

(g) A violation of the provisions of this section may constitute unprofessional conduct and be grounds for discipline against the attorney.

(h) The failure to file a certificate required by this section shall be grounds for a demurrer pursuant to Section 430.10.

(i) The provisions of this section shall not be applicable to a plaintiff who is not represented by an attorney.

(j) This section is repealed as of January 1, 1984.

An act to amend Sections 9801, 9802, 9805, 9807, 9810, 9827, 9830, and 9831 of, and to repeal Section 9806 of, the Unemployment Insurance Code, relating to youth employment.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 9801 of the Unemployment Insurance Code is amended to read:

9801. The Legislature hereby makes the following declaration of purpose and intent in enacting the Youth Employment and Development Act of 1977.

It is the public policy of the State of California to provide for a comprehensive youth services program which will establish a leadership role in the development of local programs for youth employment, to provide legislation enabling the State of California to receive funds available to states through the enactment of the Comprehensive Employment and Training Act of 1973, as amended, and to develop a long-range plan for improving the transition of youth from school to work.

SEC. 2. Section 9802 of the Unemployment Insurance Code is amended to read:

9802. In enacting the Youth Employment and Development Act of 1977, the Legislature further finds and declares that:

(a) In 1980, over 350,000 youth under age 25 were unemployed and comprised approximately half the total unemployed in California.

(b) While the number of California's youth is decreasing in relationship to other age groups, the number of unemployed inner-city youth continues to increase.

(c) Existing youth employment program resources are insufficient in size and scope to reduce unemployment rates for youth.

(d) Structural unemployment problems based on lack of skills and education deficiencies must be addressed through innovative programs combining work experience and education.

(e) Many young people face a life of inadequate income, failure, and loss of respect because of the inability of the economy to absorb them into the work force. The state also faces an enormous loss in human potential and productive capacity as well as accelerating social costs related to crime, poverty and the attendant problems resulting from unemployment.

It is hereby declared to be the intent of the Legislature to establish within the Employment Development Department and the California Conservation Corps the responsibility for youth

employment and development. This responsibility shall be carried out in concert with other state agencies mandated to provide services to youth and in conjunction with prime sponsors as described by Public Law 93-203, the Comprehensive Employment and Training Act of 1973, as amended, or its successor.

SEC. 3. Section 9805 of the Unemployment Insurance Code is amended to read:

9805. The Employment Development Department may conduct the following programs:

(a) Youth on-the-job training programs and work experience in the private sector, such employment to be subsidized on the basis of regulations developed by the department.

(b) Youth service programs providing work experience and opportunities for skill development through employment on projects of positive public benefit that are designed to provide human or community services or to conserve and maintain public recreational and community facilities. These programs may include youth services corps programs in which, notwithstanding the provisions of Section 9811, participating youths may receive lump-sum honorariums instead of wages.

(c) Projects to facilitate the transition of youth from school to work, which may include, but shall not be limited to, the following:

(1) Youth education and work experience voucher payment plans, to test the feasibility of providing youth with more flexibility and freedom in selecting their own courses of instruction and enabling them to negotiate with employers for work experience and training. Such vouchers may be used to compensate an employer for wage costs and may be used for basic subsistence and work-related expenses. Funds from Section 11333 of the Welfare and Institutions Code may be utilized as a voucher payment.

(2) Basic education which an eligible youth receives as a complement to work-experience contracts, to test the feasibility of funding innovative educational components which are linked to the worksite training which the individual receives on the job.

(3) The Employment Development Department, the Department of Education, the Chancellor's office of the Community Colleges, and the Division of Apprenticeship Standards in the Department of Industrial Relations shall cooperate in the development of the innovative demonstration projects described in paragraphs (1) and (2) of this subdivision. Schools involved in these projects may award academic credit to participating youth.

(d) Innovative demonstration projects to provide youths with basic education, training, employment, or other related services for youths who are parents of dependent children under paragraph (2) of subdivision (a) of Section 11201 of the Welfare and Institutions Code, to test the feasibility of reducing the dependency of the parents on public assistance.

(e) Summer youth employment programs, especially those designed to enhance local efforts to encourage private sector hiring

of youth in paid work experience. To the maximum extent possible, these programs shall represent collaborative activities among local communities, businesses and industries, schools, and other local groups, with the state's assistance aimed at enhancing locally designed projects that reflect the participating communities' unique needs, resources, and priorities. In addition, whenever possible, summer youth programs sponsored under this subdivision shall integrate state technical assistance with federal funding provided for employment and training of youth.

SEC. 4. Section 9806 of the Unemployment Insurance Code is repealed.

SEC. 5. Section 9807 of the Unemployment Insurance Code is amended to read:

9807. (a) The department may enter into contractual arrangements with public and private organizations for carrying out projects in furtherance of the programs described in this chapter. The department shall, in awarding such contracts, give priority consideration to projects which address the severity of unemployment among youth of minority backgrounds residing in inner-city neighborhoods. The department shall monitor and evaluate such controls to ensure that terms and conditions are being met.

(b) In the event that suitable contractors are not available, the department shall conduct projects in furtherance of the programs described in this chapter.

SEC. 6. Section 9810 of the Unemployment Insurance Code is amended to read:

9810. Youth eligible for employment under this chapter shall have reached the age of 16, but not age 22, and shall be unemployed at the time of enrollment. Priority in selection for employment shall be given to youth who are experiencing the most severe barriers in obtaining employment or who are unemployed parents qualifying for aid under paragraph (2) of subdivision (a) of Section 11201 of the Welfare and Institutions Code.

SEC. 7. Section 9827 of the Unemployment Insurance Code is amended to read:

9827. The department shall act as recipient of funds available under the Comprehensive Employment and Training Act of 1973, as amended, or its successor, which shall augment funds available from state revenues for the purposes of this chapter, provided, however, that funds available from the federal Young Adult Conservation Corps, which was established pursuant to the federal Youth Employment and Demonstration Projects Act of 1977 (Public Law 95-93), shall be received and administered by the California Conservation Corps.

SEC. 8. Section 9830 of the Unemployment Insurance Code is amended to read:

9830. The department shall report to the Legislature, on or before February 1 of each year, its progress in implementing this

chapter, including the number of persons participating in each type of program authorized by this chapter. The report shall also include information on the nature and extent of youth unemployment in California and on barriers to youth employment, and shall contain recommendations for actions to improve youth employment and training programs and delivery systems.

SEC. 9. Section 9831 of the Unemployment Insurance Code is amended to read:

9831. This chapter shall remain in effect only until December 31, 1987, and as of that date is repealed, unless a later enacted statute, which is chaptered before December 31, 1987, deletes or extends that date. The Legislative Analyst shall report to the Legislature, no later than January 1, 1987, his recommendations concerning the extension of this chapter beyond December 31, 1987.

This chapter shall be operative only during those fiscal years for which a specific appropriation is made in the Budget Act to carry out the provisions of the chapter.

A county superintendent of schools shall report average daily attendance to the Superintendent of Public Instruction for such funding.

SEC. 3. The Department of General Services and the Department of Corrections shall investigate the feasibility of establishing prison work programs to operate record storage and retrieval systems for appropriate departments of state government. That liability shall not extend to the person employing the employee or retaining the independent contractor, unless that person is separately guilty of any action violating any provision of this part.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 84308 is added to the Government Code, to read:

84308. (a) No elected or appointed officer, or alternate, or candidate for office, who serves on a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), shall accept, solicit, or direct a contribution of two hundred fifty dollars ($250) or more, from any person, or his or her agent, who has an application for a license, permit, or other entitlement for use pending before any body of which the officer or alternate is a member and for three months following the date a decision is rendered on the application or from any person, or his or her agent, who actively supports or opposes the application;

provided, however, that the officer or alternate knows or has reason to know that the person who supports or opposes the application has a financial interest, as that term is used in Article 1 (commencing with Section 87100) of Chapter 7. This prohibition shall apply regardless of whether the officer, alternate or candidate accepts, solicits, or directs the contribution for himself or herself or on behalf of any other officer, alternate, or candidate for office.

(b) Prior to rendering any decision on an application for a license, permit or other entitlement for use pending before a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), each member and alternate acting in the capacity of a member who has received a contribution to be used in a federal, state, or local election in an amount of two hundred fifty dollars ($250) or more from an applicant or any person who supports or opposed the application, and who has a financial interest, within the preceding 12 months must disclose that fact. No elected or appointed officer or alternate or candidate for office who serves on a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), shall vote on any application for a license, permit or other entitlement for use pending before any body of which the officer or alternate is a member if the officer, alternate, or candidate for office has willfully or knowingly received a contribution to be used in a federal, state, or local election in an amount of two hundred fifty dollars ($250) or more within the preceding 12 months from the applicant or his or her agent, or from any person, or his or her agent who actively supports or opposes the application; provided, however, that the officer or alternate or candidate for office knows or has reason to know that the person who supports or opposes the application has a financial interest, as that term is described with respect to public officials in Article 1 (commencing with Section 87100) of Chapter 7, in the decision.

If an officer, alternate or candidate for office who receives a contribution to be used in a federal, state, or local election which would otherwise require disqualification under this section, returns the contribution within 30 days from the time he or she knows, or should have known, about the contribution and the application for a license, permit, or other entitlement for use, he or she shall be permitted to vote on the application.

Nothing in this section shall be construed to imply that any contribution subject to being reported under the Political Reform Act of 1974 shall not be so reported.

(c) Whenever any person applies to a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), for a license, permit, or other entitlement for use, that person shall include with his or her application a statement disclosing any contribution to be used in a federal, state, or local election in an amount of two hundred fifty dollars ($250) or more made by the applicant, or his or her agent, if any, to any member, alternate, or candidate of the board or commission before which the

application is pending and which have been made within the last 12 months of the date of the application to any such member, alternate or candidate. Whenever any person actively supports or opposes a license, permit, or other entitlement for use pending before a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), that person shall submit a statement to such board or commission disclosing any contribution to be used in a federal, state, or local election in an amount of two hundred fifty dollars ($250) or more made within the last 12 months by the active supporter or opponent or his or her agent, if any, to any member, alternate, or candidate of that board or commission. No person, or his or her agent, who has an application for a license, permit, or other entitlement for use pending before any quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), or a person who actively supports or opposes the application shall make a contribution of two hundred fifty dollars ($250) or more, to any elected or appointed officer, or alternate or candidate of that board or commission for three months following the date a decision is rendered on the application. The majority shareholder of a closed corporation that has an application for a license, permit, or other entitlement for use pending before a quasi-judicial board or commission, other than those governmental bodies specified in subdivision (d), is subject to the disclosure and prohibition requirements specified in subdivisions (a), (b), and this subdivision.

(d) Legislative bodies such as city councils, county boards of supervisors, and the State Legislature while acting as a body or a committee thereof are exempted from the coverage of this section. However, this section applies to any member of such a legislative body who serves as a voting member on another quasi-judicial board or commission which considers individual applications for licenses, permits, or entitlements for use. State constitutional officers who serve on a board or commission as a requirement of their constitutional office are not subject to the provisions of this section.

For purposes of this section, a person actively supports or opposes an application if he or she lobbies in person for or against the application, testifies in person for or against the application, or otherwise acts to influence members or alternates of the board or commission for or against the application, and the person has a financial interest, as described in Article 1 (commencing with Section 87100) of Chapter 7, which will be affected by the decision.

SEC. 2. The Legislature finds and declares that the provisions of this act further the purpose of the Political Reform Act of 1974 within the meaning of subdivision (a) of Section 81012 of the Government Code.

(8) Perinatal Health Clinics.
(9) Primary Care Clinics.
(10) Maternal and Child Health Grants.

Consolidation may include combining two or more specialized programs or the development of a single planning, evaluation, budgeting and reporting process for two or more programs which share a common target population. The department may submit more than one proposal for consolidation if two or more groupings of programs merit consolidation.

Each proposal shall be developed after a review by the department of consolidation efforts proposed or developed by the counties. In the design of the proposal, the department shall consider how state level plans may assist further development of these local efforts.

The department shall consult with the Department of Finance to develop a simplified budget and reporting format for programs which are recommended for consolidation.

The Department of Finance shall make such modifications in the California Fiscal Information System as it deems necessary to accommodate proposed program consolidation.

The Office of Statewide Health Planning and Development shall consult with the department with respect to the implementation of the provisions of this section. The Office of Statewide Health Planning and Development shall incorporate recommendations for the consolidation of maternal, child and adolescent health services in applicable policy plans adopted after the effective date of this act.

SEC. 2. Section 116.7 is added to the Health and Safety Code, to read:

116.7. Each state level consolidation proposal shall include plans for the development of the following:

(a) Common eligibility standards for programs included within the consolidated proposal, or, if federal law requires different eligibility standards for such programs, a common method for determining eligibility.

(b) A single form for the collection of necessary data from individuals, or a uniform format shared by all programs included in the consolidated proposal.

(c) A single form for reporting service delivery to the state.

(d) Shared plans, budgets and fiscal accountability mechanisms, including audit procedures.

(e) Common intake points for services included in the consolidated system, which includes eligibility determination,

referral services, and follow through.

(f) A unified case management system.

(g) A method of determining the needs of, and developing services to, special populations.

(h) Implementation plans which propose solutions to any identified significant barriers or gaps in service.

SEC. 3. Section 117 is added to the Health and Safety Code, to read:

117. The director may seek and grant such waivers which the department determines are reasonably necessary for the implementation of the department's proposed consolidations.

SEC. 4. Section 117.5 is added to the Health and Safety Code, to read:

117.5. It is the intent of the Legislature that the duties and responsibilities provided for in Sections 116.5 and 116.7 be accomplished by utilizing existing staff resources, and that no additional funding be provided other than that which is appropriated by the Legislature in the annual Budget Act.

CHAPTER 1054

An act to amend Sections 66701 and 68055.1 of, to amend the headings of Title 7.3 (commencing with Section 66700) and Chapter 2 (commencing with Section 68055) of Title 7.8 of, to add Article 3.5 (commencing with Section 66788) to Chapter 2 of Title 7.3 of, and to repeal Chapter 1 (commencing with Section 68000) of Title 7.8 of, to repeal Sections 68055.4, 68055.6, and 68055.8 of, the Government Code, relating to solid waste, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. The heading of Title 7.3 (commencing with Section 66700) of the Government Code, is amended to read:

TITLE 7.3. SOLID WASTE MANAGEMENT, RESOURCE RECOVERY, AND RECYCLING

SEC. 2. Section 66701 of the Government Code is amended to read:

66701. The Legislature finds and declares as follows:

(a) The increasing volume and variety of solid wastes being generated throughout the state, coupled with the often inadequate existing methods of managing such wastes, are creating conditions which threaten the public health, safety, and well-being by

contributing to air, water, and land pollution, to the production of flies, rodents, and litter, to the waste of dwindling natural resources, and to the general deterioration of the environment.

(b) The foregoing situation arises from the interaction of a number of factors, including rapid population increase, decentralized urban growth, industrial expansion, agricultural changes, transportation improvements, and technological developments in the manufacturing, packaging, and marketing of consumer products, which collectively are placing planning, economic, and resource base limitations upon the availability of land for solid waste disposal.

(c) The traditional methods of solid waste management in this state directed largely to land disposal may not meet future requirements for eliminating environmental pollution and conserving natural resources.

(d) Methods of solid waste management emphasizing source reduction, recovery, conversion, and recycling of all solid wastes are essential to the long-range preservation of the health, safety, and well-being of the public, to the economic productivity and environmental quality of the state, and to the conservation of the state's remaining natural resources.

(e) The burden placed on existing solid waste management systems to collect disposed and littered products and the need to reduce energy and other resource consumption make it imperative that the present high level of recycling activities be continued and that resource recovery systems be developed to process all recyclable materials, as well as other energy rich components of solid waste.

SEC. 3. Article 3.5 (commencing with Section 66788) is added to Chapter 2 of Title 7.3 of the Government Code, to read:

Article 3.5. Technical and Financial Assistance

66788. Through the provision of technical and financial assistance, the board shall support projects and activities to achieve the goals and fulfill its responsibilities under this title.

66788.1. No funds shall be expended for any of the projects and activities eligible for assistance pursuant to this article, unless funds are appropriated therefor by the Legislature.

66788.2. Projects and activities eligible for state financial assistance shall be limited to the following:

(a) Research and development projects.

(b) Projects that demonstrate a new or innovative process, technology, or system.

(c) Technical studies.

(d) Practices to improve solid waste management health and safety practices in California.

(e) Public awareness, education, and participation programs.

66789. Before awarding state financial assistance, the board shall

determine that the project or activity meets all of the following requirements:

(a) The project or activity helps to increase the cost effectiveness and environmental quality of solid waste management in California.

(b) The funds do not replace existing funding which would be used for the same purposes.

(c) The project or activity is applicable to the statewide resolution of solid waste management problems.

(d) The project or activity is consistent with the county solid waste management plans and has the explicit support of the affected local jurisdictions.

66789.1. The board shall, to the maximum extent feasible, award state financial assistance to those projects and activities which can demonstrate all of the following:

(a) The commitment of matching funds by the proponent of the project or activity.

(b) The long-term economic viability of the project or activity.

66789.2. The board shall provide, by regulations, procedures for the disbursement, oversight, and audit of funds and the evaluation of the effectiveness of projects and activities assisted pursuant to this article.

66789.3. (a) Before providing state financial assistance to recycling projects, the board shall determine that the project to be financed meets all of the following conditions:

(1) The project shall test or demonstrate a new or innovative technology or system for recovering recyclable materials.

(2) The applicant shall provide sufficient evidence for the board to find that the materials to be collected are not being recovered and would not otherwise be recovered without state financing pursuant to this article.

(3) The materials collected will be absorbed in an existing materials recovery operation, or the materials, by being collected, will create a new market.

(b) The board shall not provide state financial assistance to an applicant, or to any entity owned or operated by an applicant, if that applicant is purchasing or will be purchasing recyclable materials, other than the usual components of recyclable municipal and household waste, at a location within the same general geographic area as an existing recycling operation and those purchases will divert the waste away from the existing recycling operations which also purchase these recyclable materials.

For the purposes of this subdivision, "usual components of recyclable municipal and household waste" includes only those items commonly left at the curb for municipal curbside collection.

66789.4. (a) The board, upon determining that an advance payment is essential for the effective implementation of a project or activity receiving assistance pursuant to this article, and to the extent funds are available and appropriated subsequent to July 1, 1982, may advance not more than once each fiscal year, to a community-based

private nonprofit agency with which it has contracted for the delivery of services, an amount not to exceed 25 percent of the annual allocation to be made to the agency pursuant to the contract during the fiscal year. Advance payments may be provided for services to be performed under any contract that meets either of the following conditions:

(1) The total annual contract amount is two hundred thousand dollars ($200,000) or less.

(2) The contract is with any community-based private nonprofit agency with modest reserves and potential cash flow problems.

(b) No advance payment shall be made if the total annual contract exceeds two hundred thousand dollars ($200,000) without the prior approval of the Department of Finance.

(c) The board shall develop a plan, subject to the approval of the Department of Finance, to establish control procedures for advance payments. The plan shall include a procedure whereby the board determines whether or not an advance payment is essential for the effective implementation of a particular program being funded.

SEC. 4. Chapter 1 (commencing with Section 68000) of Title 7.8 of the Government Code is repealed.

SEC. 5. The heading of Chapter 2 (commencing with Section 68055) of Title 7.8 of the Government Code, is amended to read:

CHAPTER 2. LITTER RECEPTACLES

SEC. 6. Section 68055.1 of the Government Code is amended to read:

68055.1. Unless the context otherwise requires, the definitions as set forth in this section govern the construction of this chapter.

(h) "Solid waste" means all putrescible and nonputrescible solid, semisolid, and liquid wastes.

SEC. 7. Section 68055.4 of the Government Code is repealed.

SEC. 11. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to provide for the continued efficient implementation of solid waste management and recycling programs, it is necessary that this act take effect immediately.

CHAPTER 1055

An act relating to the state highways.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. (a) Notwithstanding any other provision of law, the Department of Transportation may offer to the City of Soledad, for sale at less than fair market value and under the terms and conditions determined by the department to be in the interests of the state, the old maintenance station site in the city and the parcel of property with the maintenance foreman's house and shed which is located adjacent to the old maintenance station site.

(b) The sales price to the city of the parcels of property with improvements shall not exceed 58 percent of the fair market value of the land plus the fair market value of the improvements. Fair market value of the parcels of property and the improvements shall be determined at the time of the acquisition by the city.

(c) The Legislature finds and declares that the City of Soledad contributed five hundred dollars ($500) of the twelve hundred dollar ($1,200) purchase price of the land to be sold under this section when the department originally purchased the land in 1926.

CHAPTER 1056

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 3041.7 of the Penal Code is amended to read:

The Board of Prison Terms shall provide by rule for the invitation of the prosecutor of the county from which the prisoner was committed, or his representative, to represent the interests of the people at any such hearing. The Board of Prison Terms shall notify the prosecutor and the Attorney General at least 30 days prior to the date of the hearing.

Notwithstanding Section 12550 of the Government Code, the prosecutor of the county from which the prisoner was committed, or his representative, who shall not be the Attorney General, shall be the sole representative of the interests of the people.

CHAPTER 1057

An act to add Article 4.5 (commencing with Section 19130) to Division 5 of Title 2 of the Government Code, relating to personal services contracts.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Article 4.5 (commencing with Section 19130) is added to Division 5 of Title 2 of the Government Code, to read:

Article 4.5. Personal Services Contracts

19130. The purpose of this article is to establish standards for the use of personal services contracts.

(a) Personal services contracting is permissible to achieve cost savings when all the following conditions are met:

(1) The contracting agency clearly demonstrates that the proposed contract will result in actual overall cost savings to the

state, provided that:

(A) In comparing costs, there shall be included the state's additional cost of providing the same service as proposed by a contractor. These additional costs shall include the salaries and benefits of additional staff that would be needed and the cost of additional space, equipment, and materials needed to perform the function.

(B) In comparing costs, there shall not be included the state's indirect overhead costs unless these costs can be attributed solely to the function in question and would not exist if that function was not performed in state service. Indirect overhead costs shall mean the pro rata share of existing administrative salaries and benefits, rent, equipment costs, utilities and materials.

(C) In comparing costs, there shall be included in the cost of a contractor providing a service any continuing state costs that would be directly associated with the contracted function. These continuing state costs shall include, but not be limited to, those for inspection, supervision, and monitoring.

(2) Proposals to contract out work shall not be approved solely on the basis that savings will result from lower contractor pay rates or benefits. Proposals to contract out work shall be eligible for approval if the contractor's wages are at the industry's level and do not significantly undercut state pay rates.

(3) The contract does not cause the displacement of civil service employees. The term "displacement" includes layoff, demotion, involuntary transfer to a new class, involuntary transfer to a new location requiring a change of residence, and time base reductions. Displacement does not include changes in shifts or days off, nor does it include reassignment to other positions within the same class and general location.

(4) The contract does not adversely affect the state's affirmative action efforts.

(5) The savings shall be large enough to ensure that they will not be eliminated by private sector and state cost fluctuations that could normally be expected during the contracting period.

(6) The amount of savings clearly justify the size and duration of the contracting agreement.

(7) The contract is awarded through a publicized, competitive bidding process.

(8) The contract includes specific provisions pertaining to the qualifications of the staff that will perform the work under the contract, as well as assurance that the contractor's hiring practices meet applicable nondiscrimination, affirmative action standards.

(9) The potential for future economic risk to the state from potential contractor rate increases is minimal.

(10) The contract is with a firm. A "firm" means a corporation, partnership, nonprofit organization or sole proprietorship.

(11) The potential economic advantage of contracting is not outweighed by the public's interest in having a particular function

performed directly by state government.

(b) Personal services contracting also shall be permissible when any of the following conditions can be met:

(1) The functions contracted are exempted from civil service by Section 4 of Article VII of the California Constitution, which describes exempt appointments.

(2) The contract is for a new state function and the Legislature has specifically mandated or authorized the performance of the work by independent contractors.

(3) The services contracted are not available within civil service, cannot be performed satisfactorily by civil service employees, or are of such a highly specialized or technical nature that the necessary expert knowledge, experience or ability are not available through the civil service system.

(4) The services are incidental to a contract for the purchase or lease of real or personal property. Contracts under this criterion, known as "service agreements," shall include, but not be limited to, agreements to service or maintain office equipment or computers that are leased or rented.

(5) The legislative, administrative, or legal goals and purposes cannot be accomplished through the utilization of persons selected pursuant to the regular civil service system. Contracts are permissible under this criterion to protect against a conflict of interest or to insure independent and unbiased findings in cases where there is a clear need for a different, outside perspective. These contracts shall include, but not be limited to, obtaining expert witnesses in litigation.

(6) The nature of the work is such that the Government Code standards for emergency appointments apply. Such contracts shall conform with Article 4 (commencing with Section 19120) of Division 5 of Title 2 of the Government Code.

(7) State agencies need private counsel because a conflict of interest on the part of the Attorney General's office prevents it from representing the agency without compromising its position. Such contracts shall require the written consent of the Attorney General, pursuant to Section 11040 of the Government Code.

(8) The contractor will provide equipment, materials, facilities, or support services that could not feasibly be provided by the state in the location where the services are to be performed.

(9) The contractor will conduct training courses for which appropriately qualified civil service instructors are not available, provided that permanent instructor positions in academies or similar settings shall be filled through civil service appointment.

(10) The services are of such an urgent, temporary, or occasional nature that the delay incumbent in their implementation under civil service would frustrate their very purpose.

(c) All persons who provide services to the state under conditions the board determines constitute an employment relationship shall, unless exempted from civil service by Section 4 of Article VII of the

California Constitution, be retained under an appropriate civil service appointment.

19131. Any state agency proposing to execute a contract pursuant to subdivision (a) of Section 19130 shall notify the State Personnel Board of its intention. All organizations that represent state employees who perform the type of work to be contracted, and any person or organization which has filed with the board a request for notice, shall be contacted immediately by the State Personnel Board upon receipt of this notice so that they may be given a reasonable opportunity to comment on the proposed contract. Departments or agencies submitting proposed contracts are required to retain and provide all data and other information relevant to the contracts and necessary for a specific application of the standards set forth in subdivision (a) of Section 19130. Any employee organization may request, within 10 days of notification, the State Personnel Board to review any contract proposed or executed pursuant to subdivision (a) of Section 19130. The review shall be conducted in accordance with the provisions of subdivision (b) of Section 14826.6. Upon such a request, the State Personnel Board shall review the contract for compliance with the standards specified in subdivision (a) of Section 19130.

19132. The State Personnel Board, at the request of an employee organization that represents state employees, shall review the adequacy of any proposed or executed contract which is of a type enumerated in subdivision (b) of Section 19130. The review shall be conducted in accordance with the provisions of subdivision (c) of Section 14826.6. However, a contract that was reviewed at the request of an employee organization when it was proposed need not be reviewed again after its execution.

CHAPTER 1058

An act to amend Sections 27423 and 51142 of the Government Code, and to amend Sections 38902, 38903, 38904, 38905, and 38908 of, to add Section 38905.1 to, to repeal Sections 38905 and 38906 of, and to repeal Chapter 4 (commencing with Section 38301) of Part 18.5 of Division 2 of, the Revenue and Taxation Code, relating to timber taxation, and making an appropriation therefor.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 27423 of the Government Code is amended to read:

27423. (a) On or before May 1, 1977, the assessor of each county for the local roll and the State Board of Equalization for the board

roll shall determine the annual assessed value attributable to timber, as defined in subdivision (a) of Section 431 of the Revenue and Taxation Code, of each tax rate area for the 1972–73 to 1974–75 fiscal years, inclusive. Such values shall be from the corrected, equalized assessment roll for each such year, including escape assessments subsequently added to the roll. Escape assessments determined subsequent to June 30, 1975, for any of the three fiscal years specified shall be reported to the county auditor who shall certify to the Controller a revision in the amounts of average annual property tax revenue attributable to timber for each affected taxing jurisdiction on or before July 15, 1977, and July 15 of each year thereafter.

(b) Using the assessed values determined pursuant to subdivision (a), on or before June 1, 1977, the auditor of each county shall determine the average annual property tax revenues attributable to timber of each taxing agency for the 1972–73 to 1974–75 fiscal years, inclusive; provided, that if a taxing agency was in existence for less than the entire period, the average for such agency shall be determined by dividing the appropriate amount of property tax revenues by either one year or two years, whichever figure corresponds most nearly to the duration of existence of the agency within such period.

If the average value of the secured roll of a community college district which is attributable to timber over the period of fiscal years 1972–73 to 1974–75, inclusive, meets or exceeds 20 percent, then the auditor shall use a rate which when multiplied by that district's average annual assessed value attributable to timber will produce an amount equivalent to the total amount of property taxes raised by that district in the 1976–77 fiscal year.

For purposes of this section, "average annual property tax revenue attributable to timber" of each school district which levied an areawide tax rate in one or more of fiscal years 1972–73 to 1974–75, inclusive, shall be the product of (1) the amount of money the district received as its reallocation from the areawide fund (not the amount of its own contribution raised from its actual areawide tax rate) for each such fiscal year, and (2) a factor produced by the amount of annual assessed value attributable to timber divided by the amount of all assessed value, within the school district, for each such fiscal year.

Each county auditor shall certify to the Controller a list of this amount for each taxing agency in the county and the total of all such amounts for the county. The auditor shall keep such records for each tax rate area as necessary to make distribution of funds pursuant to Section 38906 of the Revenue and Taxation Code.

(c) The Controller may require that all information pertinent to subdivisions (a) and (b) be retained and may inspect all calculations of the county assessor and county auditor. The Controller or the board may adjust and correct any calculation deemed to be inaccurate. The sum of each county's calculations as adopted by the Controller shall be known as that county's "annual yield tax revenue

guarantee", and shall be certified to the county auditor on or before August 15, 1977.

(d) On or before July 15, 1977, and July 15 of each year thereafter, the auditor shall certify to the Controller the new or revised amount of property tax revenue attributable to timber for each taxing agency which, effective after July 1 of the preceding calendar year and on or before July 1 of the current calendar year, either (1) underwent "governmental reorganization," as described in Section 2295 of the Revenue and Taxation Code, or (2) underwent "functional consolidation," as described in Section 2305 of the Revenue and Taxation Code, or (3) gained approval from its voters to levy an additional property tax rate, effective with the next succeeding fiscal year.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency formed subsequent to June 30, 1975, shall be calculated as follows:

(1) The average annual assessed value attributable to timber shall be the sum of the values of the tax rate areas, as determined by the assessor or the board pursuant to subdivision (a), which correspond to the new agency's boundaries, as if that agency had actually existed during fiscal years 1972–73 to 1974–75, inclusive, and this sum shall be multiplied by

(2) A tax rate represented by 80 percent of the maximum tax rate the new taxing agency was authorized by the voters to levy in its first full year of operation.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency formed prior to June 30, 1975, which annexes territory subsequent to that date, shall have added to it the sum of the values of the tax rate areas, as determined by the assessor or the board pursuant to subdivision (a) which corresponds to the territory which was annexed, multiplied by the average total tax rate levied during fiscal years 1972–73 to 1974–75, inclusive, by the taxing agency which annexed the territory.

For purposes of this subdivision, the average annual property tax revenue attributable to timber for a taxing agency which subsequent to June 30, 1975, has transferred to it by functional consolidation the responsibility of levying a property tax rate to pay the cost of a new service or program shall have added to it the sum of the average annual assessed value attributable to timber for that agency multiplied by the additional property tax rate to be incurred in the first year pursuant to the functional consolidation. For a taxing agency which subsequent to June 30, 1975, has transferred from it the responsibility of levying a property tax rate for a service or program, the average annual property tax revenue attributable to timber shall be reduced by the sum of the annual assessed value attributable to timber for that agency multiplied by the average tax rate levied by the taxing agency during fiscal years 1972–73 to 1974–75, inclusive, for the support of such service or program.

For purposes of this subdivision, when an additional property tax

rate is approved by the voters of a taxing agency in the preceding fiscal year, such agency shall have its average annual property tax revenue attributable to timber revised in the same manner as for a functional consolidation in which responsibility for the funding of a new service or program is added; provided, that such revision will extend only for the same period of time as that authorized by the voters for the existence of the additional voted property tax rate.

(e) On or before August 15, 1977, and August 15 of each year thereafter, the Controller shall certify to each county auditor the revisions certified by the auditor pursuant to subdivision (a) or (d) in the average annual property tax revenue attributable to timber for one or more taxing agencies, to take effect in the current fiscal year. The Controller shall adjust and correct any calculation deemed to be inaccurate, prior to such certification. The amount added to or deducted from a county's previous annual yield tax revenue guarantee will be the property tax revenue attributable to timber, as certified to the Controller by the county auditor pursuant to subdivision (d). The revised annual yield tax revenue guarantee shall take effect for payments made to the county pursuant to subdivision (a) of Section 38905 of the Revenue and Taxation Code in the current fiscal year, and shall remain in effect until subsequent revision under this subdivision.

(f) Upon receipt of the amount certified by the Controller pursuant to subdivision (c) or (e), the county auditor shall within 10 days certify to each taxing agency its share of this amount, and shall deliver to the county treasurer a schedule of these amounts for all taxing agencies in the county, to govern distribution of moneys pursuant to subdivision (a) of Section 38905 of the Revenue and Taxation Code.

(g) For the purposes of this section, in the case of a change in the boundaries of a tax rate area, the assessor or the board shall determine the base year timber value by parcel in each tax rate area affected by the boundary change and the auditor shall apportion the property tax revenue attributable to timber according to this determination.

(h) For the purposes of this section "tax rate area" means a geographical area in which there is a unique combination of tax levies.

(i) For purposes of this section, a taxing agency is deemed to be in existence in any year in which the agency levies a property tax rate. Any taxing agency which was operational prior to June 30, 1975, but levied no property tax rate, may subsequent to that date establish an average annual property tax revenue attributable to timber pursuant to subdivision (d), as a governmental reorganization, in the year next succeeding the year in which it first levies a property tax rate.

(j) For purposes of this section, when computing the property tax revenues attributable to timber for a school district which levied an areawide tax rate during one or more of fiscal years 1972–73 to

1974–75, inclusive, the county auditor shall in his computations of the revenues produced by such a rate use the revenues actually apportioned to the district from the county's areawide fund, and not the revenues raised from the levy of the areawide rate and contributed to the county's areawide fund by said district.

SEC. 1.5. Section 51142 of the Government Code is amended to read:

51142. (a) Upon immediate rezoning of a parcel in a timberland preserve zone, a tax recoupment fee shall be imposed on the owner of the land. Within 90 days following rezoning of land in the timberland preserve the county assessor shall reassess the rezoned parcels on the basis of the value of the property in its rezoned use. The assessor shall certify this value to the owner of the land and to the county auditor. The owner may appeal this new valuation in the same manner as an assessment appeal. Except when under such an appeal, after such certification the auditor shall, in cases of immediate rezoning, within 10 days compute the tax recoupment fee and certify the amount to the tax collector. The tax collector shall notify the owner in writing of the amount and due date of the fee. Fees shall be due 60 days after receipt of notification.

(b) The tax recoupment fee shall apply only in cases of immediate rezoning and shall be a multiple of the difference between the amount of the tax last levied against the property when zoned as timberland preserve and the amount equal to the assessed valuation of the rezoned property times the tax rate of the current levy for the tax rate area, such multiple to be chosen from the following table according to subdivision (c):

Such proportional share shall be the ratio of each county's share, determined pursuant to subdivision (c) or (e) of Section 27423 of the Government Code, to the total of such shares in the state.

For the 1978–79 fiscal year through and including the 1982–83 fiscal year, the Controller shall transmit to the county treasurer 100 percent of the annual yield tax revenue guarantee certified pursuant to either subdivision (c) or (e) of Section 27423 of the Government Code. These amounts shall be distributed on the following dates of the fiscal year for which they are made: 50 percent on November 30, and 50 percent on May 31. The county auditor shall allocate moneys received under this subdivision among taxing agencies in the proportions accorded the respective agencies in the county's annual yield tax revenue guarantee as certified pursuant to either subdivision (c) or (e) of Section 27423 of the Government Code.

(b) The Controller shall transmit to the Timber Tax Reserve Fund the balance of any money in excess of two hundred fifty thousand dollars ($250,000) in the Timber Tax Fund on June 1, 1978, and on June 1 of each year thereafter following allocation pursuant to subdivision (a); provided, that if the balance in the Timber Tax Reserve Fund, following such transmittal, is eight million dollars ($8,000,000) or more, the amount above seven million dollars ($7,000,000) shall be distributed by the Controller as provided in subdivision (a) of Section 38906, and county auditors shall then distribute receipts as provided in subdivision (b) of Section 38906.

(c) In the event that the balance in the Timber Tax Fund is insufficient to make an allocation provided for in this section, the Controller shall transfer sufficient money to the fund from the Timber Tax Reserve Fund to make the allocation. In the event that there are insufficient funds in the Timber Tax Reserve Fund required to make the allocations provided in this section, each county's share shall be reduced pro rata.

(d) This section shall remain in effect only until August 1, 1983, and on that date is repealed.

(1) For the 1983–84 fiscal year, 50 percent of the balance in Timber Tax Fund shall be transmitted to county treasurers based on the annual yield tax revenue guarantee certified for each county pursuant to subdivision (c) or (e) of Section 27423 of the Government Code. The remaining 50 percent of the balance in the fund shall be transmitted to county treasurers in the same proportion that the balance to be transmitted was generated from each county, as certified by the State Board of Equalization.

(c) It is the intent of the Legislature that the provisions of subdivision (a) shall provide a final and conclusive disposition of the problem of allocating yield tax revenues among counties entitled to those revenues.

SEC. 8. Section 38906 of the Revenue and Taxation Code is repealed.

SEC. 9. Section 38908 of the Revenue and Taxation Code is amended to read:

(a) The base fiscal year revenues for each district shall include the amount of timber yield tax minimum revenue guarantee, as certified pursuant to Section 27423 of the Government Code.

(b) For purposes of determining the amount of the state's general apportionment, the amount of timber yield tax revenue shall be considered local revenue and subtracted, along with property tax revenues and motor vehicle license fees, from the total revenues of the district.

CHAPTER 1059

An act to amend Sections 1245.230 and 1250.410 of the Code of Civil Procedure, and to amend Section 7267.2 of the Government Code, relating to eminent domain.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1245.230 of the Code of Civil Procedure is amended to read:

1245.230. In addition to other requirements imposed by law, the resolution of necessity shall contain all of the following:

(a) A general statement of the public use for which the property is to be taken and a reference to the statute that authorizes the public entity to acquire the property by eminent domain.

(b) A description of the general location and extent of the property to be taken, with sufficient detail for reasonable identification.

(c) A declaration that the governing body of the public entity has found and determined each of the following:

(1) The public interest and necessity require the proposed project.

(2) The proposed project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury.

(3) The property described in the resolution is necessary for the proposed project.

(4) That the offer required by Section 7267.2 of the Government Code has been made to the owner or owners of record.

If at the time the governing body of a public entity is requested to adopt a resolution of necessity and the project for which the property is needed has been determined by the public entity to be an emergency project, which project is necessary either to protect or preserve health, safety, welfare, or property, the requirements of Section 7267.2 of the Government Code need not be a prerequisite to the adoption of an authorizing resolution at the time. However, in those cases the provisions of Section 7267.2 of the Government Code shall be implemented by the public entity within a reasonable time thereafter but in any event, not later than 90 days after adoption of the resolution of necessity.

SEC. 2. Section 1250.410 of the Code of Civil Procedure is amended to read:

1250.410. (a) At least 30 days prior to the date of the trial on issues relating to compensation, the plaintiff shall file with the court and serve on the defendant its final offer of compensation in the proceeding and the defendant shall file and serve on the plaintiff its

final demand for compensation in the proceeding. Such offers and demands shall be the only offers and demands considered by the court in determining the entitlement, if any, to litigation expenses. Service shall be in the manner prescribed by Chapter 5 (commencing with Section 1010) of Title 14 of Part 2.

(b) If the court, on motion of the defendant made within 30 days after entry of judgment, finds that the offer of the plaintiff was unreasonable and that the demand of the defendant was reasonable viewed in the light of the evidence admitted and the compensation awarded in the proceeding, the costs allowed pursuant to Section 1268.710 shall include the defendant's litigation expenses.

In determining the amount of such litigation expenses, the court shall consider the offer required to be made by the plaintiff pursuant to Section 7267.2 of the Government Code and any other written offers and demands filed and served prior to or during the trial.

(c) If timely made, the offers and demands as provided in subdivision (a) shall be considered by the court on the issue of determining an entitlement to litigation expenses.

SEC. 3. Section 7267.2 of the Government Code is amended to read:

7267.2. Prior to adopting a resolution of necessity pursuant to Section 1245.230 and initiating negotiations for the acquisition of real property, the public entity shall establish an amount which it believes to be just compensation therefor, and shall make an offer to the owner or owners of record to acquire the property for the full amount so established. The offer may be conditioned upon the legislative body's ratification of the offer by execution of a contract of acquisition or adoption of a resolution of necessity or both. In no event shall such amount be less than the public entity's approved appraisal of the fair market value of the property. Any decrease or increase in the fair market value of real property to be acquired prior to the date of valuation caused by the public improvement for which the property is acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to physical deterioration within the reasonable control of the owner or occupant, shall be disregarded in determining the compensation for the property. The public entity shall provide the owner of real property to be acquired with a written statement of, and summary of the basis for, the amount it established as just compensation. Where the property involved is owner occupied residential property and contains no more than four residential units, the homeowner shall, upon request, be allowed to review a copy of the appraisal upon which the offer is based. Where appropriate, the just compensation for the real property acquired and for damages to remaining real property shall be separately stated.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there

are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

(b) The county superintendent of schools having jurisdiction shall, for the fiscal year for which the withdrawal of the 7th and 8th grade program becomes effective, make the following adjustment to the revenue limit per unit of average daily attendance of the high school district after the calculation of the annual inflation increase to the revenue limit pursuant to Section 42238. For the purposes of this calculation, the prior fiscal year shall mean the fiscal year prior to the fiscal year in which the reorganization becomes effective.

(1) Subtract the revenue limit per unit of average daily attendance for the prior fiscal year of the elementary district withdrawing its 7th and 8th grade program from the revenue limit per unit of average daily attendance of the high school district for the prior fiscal year.

(2) Multiply the difference determined in paragraph (1) by the number of units of average daily attendance generated in the high school district in the prior fiscal year by students attending grades 7 and 8 who resided within the boundaries of the elementary district withdrawing the 7th and 8th grade program.

(3) Divide the product determined in paragraph (2) by the second principal apportionment units of average daily attendance for the prior fiscal year in the high school district, exclusive of the average daily attendance generated in the high school district in the prior fiscal year by pupils attending grades 7 and 8 who resided within boundaries of the elementary district withdrawing the 7th and 8th grade program. For the purposes of this paragraph, the second principal apportionment units of average daily attendance shall exclude all concurrently enrolled pupils attending classes for adults or regional occupational centers or programs.

(4) The amount per unit of average daily attendance determined pursuant to paragraph (3) shall be a permanent addition to the revenue limit per unit of average daily attendance of the high school district determined pursuant to Section 42238.

(c) This section shall remain in effect only until January 1, 1985, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1985, deletes or extends that date.

SEC. 2. This act will become effective January 1, 1983, pursuant to Section 8 of Article IV of the Constitution. However, it is the intent of the Legislature to make changes in state apportionments to school districts in the 1982–83 fiscal year. Therefore, this act shall be deemed operative for the entire 1982–83 fiscal year as though it had been enacted into law and become effective July 1, 1982. The Superintendent of Public Instruction and other public officers may, for such purposes, take all necessary steps to effect the midfiscal year transition involved, including adjusting allowance computations, apportionments, and disbursements ordered from Section A of the State School Fund.

CHAPTER 1066

An act to amend Sections 10270.98 and 10498 of the Insurance Code, relating to insurance.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 10270.98 of the Insurance Code is amended to read:

10270.98. Group disability policies may provide, among other things, that the benefits payable thereunder are subject to reduction if the individual insured has any other coverage (other than individual policies or contracts) providing hospital, surgical or medical benefits, whether on an indemnity basis or a provision of service basis, resulting in such insured being eligible for more than 100 percent of the covered expenses.

Except as permitted by this section and by Section 10323, 10369.5, 10369.6, or 11515.5, and except in the case of group practice prepayment plan contracts which do not provide for coordination of benefits, to the extent they provide for a reduction of benefits on account of other coverage with respect to emergency services that are not obtained from providers that contract with the plan, no group or individual disability insurance policy or service contract issued by nonprofit hospital service plans operating under Chapter 11A (commencing with Section 11491) of Part 2 of Division 2 shall limit payment of benefits by reason of the existence of other insurance or service coverage.

The policy provisions authorized by this section shall contain a provision that payments of funds may be made directly between insurers and other providers of benefits. Such policy provisions shall also contain a provision that if benefits are provided in the form of services rather than cash payments the reasonable cash value of each service rendered shall be deemed to be both an allowable expense and a benefit paid. The reasonable cash value of any contractual benefit provided to the insured in the form of service rather than cash payment by or through any hospital service organization or medical service organization or group-practice prepayment plan shall be deemed an expense incurred by the insured for such service, whether or not actually incurred, and the liability of the insurer shall be the same as if the insured had not been entitled to any such service benefit, unless the policy contains a provision authorized by Section 10323, 10369.5 or 10369.6 in the case of an individual disability policy, or by this section, in the case of a group disability policy.

This section shall not be construed to require that benefits payable under group disability policies be subject to reduction by the benefit amounts payable under Chapter 3 (commencing with Section 2800) of Part 2 of Division 1 of the Unemployment Insurance Code.

The provisions of this section, and all regulations adopted pursuant thereto pertaining to coordination of benefits with other group disability benefits, shall apply to all employers, labor-management trustee plans, union welfare plans (including those established in conformity with 29 U.S.C. 186), employer organization plans or employee benefit organization plans, health care service plan contracts, pursuant to regulations adopted by the Commissioner of

Corporations which shall be uniform with those issued under this section for those plans that elect to coordinate benefits, group practice, individual practice and any other prepayment coverage for medical or dental care or treatment not otherwise subject to the provisions of this section whenever such plan, contract or practice provides hospital, surgical, medical or dental benefits to employees or agents who are also covered under one or more additional group disability policies which are subject to this section or health care service plans.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 3 of Chapter 1086 of the Statutes of 1970 is amended to read:

Sec. 3. The city shall establish the Humboldt Bay Fund in such manner as may be approved by the State Lands Commission, and the city shall deposit therein all moneys received directly from, or indirectly attributable to, the tide and submerged lands granted to the city. An annual statement of financial condition and operations, to conform with such requirements as the State Lands Commission may prescribe, shall be submitted to the State Lands Commission by the city on or before September 30th of each year for the preceding fiscal year. In furtherance of its management and administration over granted tide and submerged lands, the State Lands Commission shall audit, or cause to be audited, the operations and all books and records of the city. Further, the city shall prepare and submit to the State Lands Commission, for its review and approval, an annual budget with respect to all revenues and expenditures regarding tide and submerged lands granted to the city. All moneys received from the Controller pursuant to Section 18 of this act shall be deposited in

the Humboldt Bay Fund and may be used by the city for the purposes for which revenues accruing from or out of the use of the granted tidelands may be used pursuant to the provisions of this act.

Prior to June 30, 1979, and prior to June 30 of each succeeding year, the city shall pay to the Controller a sum that is not less than 15 percent of the amount of the money deposited by the city into the Humboldt Bay Fund during the preceding fiscal year, after deducting from the fund the principal and interest payments required by the currently outstanding 1973 Municipal Harbor Improvement Revenue Bond issue, and after the credit for reverted funds provided for in Section 18 of this act. Moneys received from the Controller pursuant to Section 18 of this act shall not be included in the calculation of the amount deposited into the Humboldt Bay Fund. Payments made to the Controller pursuant to this section shall be in lieu of all obligations incurred by the city pursuant to this section as amended by Section 2 of Chapter 1252 of the Statutes of 1971 and prior to the amendment of this section during the 1977–78 Regular Session of the Legislature.

In the event the city fails to make any payment required to be made hereby for any reason whatsoever, the State Board of Equalization, upon the order of the Controller, shall deduct the amount of that payment from the sales and use taxes to be paid to the city thereafter pursuant to Section 7204 of the Revenue and Taxation Code and shall pay the same to the Controller.

All payments made by the city and the State Board of Equalization shall be considered as oil revenues and dry gas revenues payable to the state pursuant to Chapter 138 of the Statutes of 1964, First Extraordinary Session, during the year they are received.

For the purposes of Section 7 of this act, such amounts paid to the Controller by the city shall be considered as current and accrued operating costs and expenditures directly related to the operation and maintenance of tideland trust activities.

The sum of seven hundred fifty thousand dollars ($750,000), or so much thereof as may be necessary, is hereby appropriated to the General Fund from the oil and dry gas revenues payable to the state under Chapter 138 of the Statutes of 1964, First Extraordinary Session, pursuant to Section 6217 of the Public Resources Code during the 1978–79 fiscal year, and shall be transferred by the Controller to the General Fund during the 1978–79 fiscal year immediately prior to making the allocation to the California Water Fund pursuant to subdivision (b) of Section 6217 and after making the allocations pursuant to subdivision (a) of Section 6217. The sum thus transferred to the General Fund is hereby appropriated to the Controller, who shall pay that sum to the Humboldt Bay Fund as follows: in the 1978–79 fiscal year and each fiscal year thereafter, a sum equal to 50 percent of the sum expended by the City of Eureka during each fiscal year in the prosecution or

defense of any action or proceeding involving the title to, or the boundaries of, tidelands or submerged lands granted to the City of Eureka by the Legislature along the Humboldt Bay waterfront; and during the 1978–79 fiscal year, the additional sum of two hundred fifty thousand dollars ($250,000) from the seven hundred fifty thousand dollars ($750,000) appropriated by this section.

However, notwithstanding the foregoing, any funds in excess of the sum of two hundred thousand dollars ($200,000) remaining in the General Fund pursuant to this section on the effective date of the amendment of this section at the 1981–82 Regular Session of the Legislature which have not been paid to the Humboldt Bay Fund pursuant to this section shall no longer be available in the General Fund for the purposes of this section, and shall on that date be deemed to be oil and dry gas revenues payable by the Controller to the state under Chapter 138 of the Statutes of 1964, First Extraordinary Session, pursuant to Section 6217 of the Public Resources Code. Commencing with the payment required to be made prior to June 30, 1983, the City of Eureka shall receive a credit against the amount required to be paid to the Controller pursuant to Section 3 of this act for the amount of funds which revert from the General Fund pursuant to the provisions of this section, and the city shall not thereafter be required to make any payment to the Controller pursuant to Section 3 of this act until the city receives a credit for the entire amount so reverted from the General Fund.

The adopted rules and regulations shall include provisions requiring that the financial independence of a student classified as a nonresident seeking reclassification as a resident shall be included among the factors to be considered in the determination of residency.

The adopted rules and regulations shall, beginning the 1983–84 school year, exempt nonresident students who have been appointed to serve as graduate student teaching assistants, graduate student research assistants, or graduate student teaching associates on any campus of the University of California or the California State University, and who have been employed on a 0.49 or more time basis, from the requirement of demonstrating his or her financial independence under this section for purposes of reclassification as a resident.

A student shall be considered financially independent for purposes of this section if the applicant meets all of the following requirements: (a) has not and will not be claimed as an exemption for state and federal tax purposes by his or her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application, (b) has not and will not receive more than seven hundred fifty dollars ($750) per year in financial assistance from his or her parent in the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application, and (c) has not lived and will not live for more than six weeks in the home of his or her parent during the calendar year the reclassification application is made and in any of the three calendar years prior to the reclassification application.

CHAPTER 1071

An act to add Section 4351.5 to the Civil Code, and to amend Section 26840.3 of the Government Code, relating to family law.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 4351.5 is added to the Civil Code, to read:

4351.5. (a) Notwithstanding the provisions of Section 4351, in proceedings under Sections 4450 and 4503, the superior court has jurisdiction to award reasonable visitation rights to a person who is a party to the marriage that is the subject of the proceeding with respect to a minor child of the other party to the marriage, if visitation by that person is determined to be in the best interests of the minor child.

(b) If a stepparent has petitioned or otherwise applied for an order of reasonable visitation rights pursuant to this section, the court shall set the matter of visitation rights for mediation. The purpose of the mediation proceeding shall be to effect a settlement of the issue of visitation rights of all parties. The mediator shall meet the minimum qualifications required of a counselor of conciliation as provided in Section 1745 of the Code of Civil Procedure.

(c) Mediation proceedings shall be held in private and shall be confidential, and all communications, verbal or written, from the parties to the mediator made in a proceeding pursuant to this section shall be deemed to be official information within the meaning of Section 1040 of the Evidence Code.

(d) The mediator shall have the authority to exclude counsel from participation in the mediation proceedings where, in the discretion of the mediator, exclusion of counsel is deemed by the mediator to be appropriate or necessary. The mediator shall have the duty to assess the needs and interests of the child involved in the controversy and shall be entitled to interview the child when the mediator deems such interview appropriate or necessary.

(e) The mediator may, consistent with local court rules, render a recommendation to the court as to the visitation of the child. The mediator may, in cases where the parties have not reached agreement as a result of the mediation proceeding, recommend to the court that an investigation be conducted pursuant to Section 4602, or that other action be taken to assist the parties to effect a resolution of the controversy prior to any hearing on the issues. The mediator may, in appropriate cases, recommend that mutual

restraining orders be issued, pending determination of the controversy, to protect the well-being of the child involved in the controversy. Any agreement reached by the parties as a result of the mediation shall be reported to the court and to counsel for the parties by the mediator on the day set for mediation or any time thereafter designated by the court.

(f) A natural parent who is not a party to the proceeding shall not be required to participate in the mediation proceedings; however, failure to participate shall be a waiver of that parent's right to object to any settlement reached by the other parties during mediation or to require a hearing on the matter.

(g) If the issue of visitation rights of all parties is not settled by agreement of all parties who participate in mediation, the mediator shall so inform the court in writing and the court shall set the matter of visitation rights for hearing. Each natural parent and the stepparent seeking visitation rights shall be given an opportunity to appear and be heard on that issue.

(h) Notice of mediation and of any hearing to be held pursuant to this section shall be given to the stepparent seeking visitation rights, to each of the parents of the child, and to the counsel of record of each of the parents in any proceeding under Section 4450 or 4503 with regard to their marriage. The notice shall be given by certified mail, return receipt requested, postage prepaid, to the last known address of each of the parents and his or her counsel.

(i) Any visitation right granted to a stepparent pursuant to this section shall not conflict with any visitation or custodial right of a natural or adoptive parent who is not a party to the proceeding.

SEC. 2. Section 26840.3 of the Government Code is amended to read:

26840.3. (a) The superior court in any county may, for the support of the family conciliation court or for conciliation and mediation services provided pursuant to Section 4607 of the Civil Code, or for mediation services provided pursuant to Section 4351.5 of the Civil Code, upon action of the board of supervisors to provide all space costs and indirect overhead costs from other sources, increase:

(1) The fee for filing a petition, except a joint petition filed pursuant to Section 4551 of the Civil Code, for dissolution of a marriage, legal separation, or nullity of a marriage, and the fee for a response to such a petition, by an amount not to exceed seventeen dollars ($17).

(2) The fee for issuing a marriage license, by an amount not to exceed five dollars ($5).

(3) The fee for issuing a marriage certificate pursuant to Section 4213 of the Civil Code, by an amount not to exceed five dollars ($5).

(b) The funds shall be paid to the county treasury and an amount equal thereto shall be used exclusively to pay the costs of maintaining the family conciliation court or conciliation and mediation services provided pursuant to Section 4607 or 4351.5 of the Civil Code.

SEC. 3. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

Such benefits or payments, prior to actual payment, shall be exempt without filing a claim of exemption, as provided in Section 690.50.

(i) Professionally prescribed health aids for the assignor or a dependent of the assignor.

(j) The assignor's right to receive—

(1) A social security benefit, unemployment compensation, or a local public assistance benefit;

(4) Alimony, support, or separate maintenance, to the extent reasonably necessary for the support of the assignor and any dependent of the assignor;

(5) A payment under a stock bonus, pension, profit sharing, annuity, or similar plan or contract on account of illness, disability, death, age, or length of service, to the extent reasonably necessary for the support of the assignor and any dependent of the assignor, unless—

SEC. 4. Section 1255.7 is added to the Unemployment Insurance Code, to read:

1255.7. (a) The Department of Social Services shall notify the director whether an individual filing a claim for unemployment compensation after October 1, 1982, owes child support obligations as defined under subdivision (g).

(b) Pursuant to Section 11350.5 of the Welfare and Institutions Code, the department shall deduct and withhold child support obligations as defined under subdivision (g) from any unemployment compensation payable to an individual who owes these obligations.

(c) Any amount deducted and withheld under subdivision (b)

shall be paid by the department to the Department of Social Services.

(d) Any amount deducted and withheld under subdivision (b) shall for all purposes be treated as if it were paid to the individual as unemployment compensation and paid by the individual to the Department of Social Services.

(e) For purposes of subdivisions (a) through (d), "unemployment compensation" means any compensation payable under this division, except Part 2 (commencing with Section 2601), but including amounts payable by the department pursuant to an agreement under any federal unemployment compensation law.

(f) This section applies only if appropriate arrangements have been made for reimbursement by the Department of Social Services for the administrative costs incurred by the Employment Development Department.

(g) For purposes of this section, "child support obligations" means obligations which are being enforced pursuant to a plan described in Section 454 of the Social Security Act which has been approved by the Secretary of Health and Human Services under Part D of Title IV of the Social Security Act.

SEC. 5. Section 1342 of the Unemployment Insurance Code is amended to read:

1342. Any waiver by any person of any benefit or right under this code is invalid, except as provided by Section 1255.7. Benefits under this code, incentive payments provided by Division 2 (commencing with Section 5000), and payments to an individual under a plan or system established by an employer which makes provisions for his employees generally, or for a class or group of his employees, for the purpose of supplementing unemployment compensation benefits, are not subject to assignment, release, or commutation, and are exempt from attachment and execution pursuant to Sections 690.175 and 690.18 of the Code of Civil Procedure, except as provided by Section 1255.7. Any agreement by any individual in the employ of any person or concern to pay all or any portion of the contributions required of his employer under this division is void.

SEC. 6. Section 4001 of the Unemployment Insurance Code is amended to read:

4001. The purpose of this part is to provide that payment of extended compensation, in accordance with the "Federal-State Extended Unemployment Compensation Act of 1970", as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), shall be made, for any week of unemployment which begins in the individual's eligibility period, to individuals who have exhausted all rights to regular compensation under this division and who have no rights to regular compensation with respect to such week under this division or any other state unemployment compensation law or to compensation under any other federal law. For purposes of this section, an individual shall have exhausted his rights to regular compensation under any state law (A) when no

payments of regular compensation can be made under such law because such individual has received all regular compensation available to him based on wage credits for his base period, or (B) when his rights to such compensation have terminated by reason of the expiration of the benefit year with respect to which such rights existed. Except where inconsistent with the provisions of the "Federal-State Extended Unemployment Compensation Act of 1970", as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), the terms and conditions of this division which apply to claims for regular compensation and to the payment thereof shall apply to claims for extended compensation and to the payment thereof under such federal act. This part shall be operative on September 25, 1982, and extended compensation shall be payable as provided by the Federal-State Extended Unemployment Compensation Act of 1970, as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), subject to limitations provided by that act, with respect to weeks of unemployment and extended benefit periods beginning after September 25, 1982. The provisions of this section in effect prior to the amendments by the Omnibus Budget Reconciliation Act of 1981 shall continue to apply to weeks beginning after November 28, 1970, and before September 25, 1982.

SEC. 7. Section 4003 of the Unemployment Insurance Code is amended to read:

4003. (a) The provisions and definitions of terms in the "Federal-State Extended Unemployment Compensation Act of 1970," as amended by the federal Omnibus Budget Reconciliation Act of 1981 (Public Law 97–35), apply to this part. "Federal-state extended benefits" means benefits payable under this part.

(b) There is an "on" indicator for purposes of federal-state extended benefits for a week in which the rate of insured unemployment for that week and the immediately preceding 12 weeks equals or exceeds either of the following:

(1) One hundred twenty percent of the average of the rates for the corresponding 13-week period ending in each of the preceding two calendar years, and equals or exceeds 5 percent.

(2) Six percent.

(c) There is an "off" indicator for a week in which the rate of insured unemployment for that week and the immediately preceding 12 weeks is less than 6 percent and also less than either of the following:

(1) One hundred twenty percent of the average of the rates for the corresponding 13-week period ending in each of the preceding two calendar years.

(2) Five percent.

(d) For purposes of this section, the rate of insured unemployment for a 13-week period shall be determined by reference to the average monthly covered employment for the first four of the most recent six calendar quarters ending before the close

of the period. This section shall be effective with respect to compensation for weeks of unemployment after September 25, 1982. The provisions of this section in effect prior to that date shall continue to apply to weeks after March 30, 1977, but prior to September 25, 1982.

(e) The indicators specified in subdivisions (b) and (c) shall be operative only if mandated or permitted by federal law. Any amendments to the Federal-State Extended Unemployment Compensation Act of 1970, enacted before January 1, 1983, which mandate or permit any reduction in the insured unemployment rate indicator described in this section shall be operative on the effective date of the amendment.

SEC. 8. Section 4552 of the Unemployment Insurance Code is amended to read:

4552. An unemployed individual is eligible to receive federal-state extended benefits with respect to any week only if the director finds that:

(a) An extended compensation account has been established for him or her.

(b) The week is within an extended benefit period and his or her eligibility period.

(c) He or she meets the eligibility requirements of Part 1 (commencing with Section 100) of this division, except those excluded under subdivision (b) of Section 4002.

(d) He or she is not subject to disqualification for normal benefits under any provision of Part 1 (commencing with Section 100) of this division. If the individual has been subject to disqualification under subdivision (b) of Section 1257, he or she has satisfied subdivision (b) of Section 1260 and, during a week following the first week of disqualification, has done either of the following:

(1) Performed service in bona fide employment during a week on a full-time basis.

(2) Performed service in bona fide employment during a week from which service he or she earned remuneration at least equal to his or her weekly benefit amount.

(e) With respect to compensation payable to any individual for any week beginning after September 25, 1982, he or she had earnings from employment subject to the provisions of this division which exceed 40 times his or her most recent weekly benefit amount in the base period in which he or she exhausted all rights to regular compensation.

SEC. 9. Section 11350.5 of the Welfare and Institutions Code is repealed:

SEC. 10. Section 11350.5 is added to the Welfare and Institutions Code, to read:

11350.5. (a) To the extent required by Section 454 of the Social Security Act, the following actions shall be taken in order to enforce child support obligations which are not being met. Whenever a child support judgment has been rendered by a court of this state against

a support judgment debtor who is entitled to any unemployment compensation as provided for in Division 1 (commencing with Section 100), except for Part 2 (commencing with Section 2601), of the Unemployment Insurance Code, the district attorney may file with the State Department of Social Services certification of support judgment or support order verifying under penalty of perjury that there is or has been an order for support with sums overdue thereunder. The department shall periodically present and update, by deletions and additions, a list of the certified support judgments to the Employment Development Department.

(b) Notwithstanding any other provision of law, the Employment Development Department shall withhold the amounts specified below from the judgment debtor's unemployment compensation and shall periodically forward them to the State Department of Social Services for distribution to the appropriate certifying county. The amount withheld shall be equal to 25 percent of each weekly unemployment compensation payment, rounded down to the nearest whole dollar, which is due the support judgment debtor identified on the certified list. However, the amount withheld may be reduced to a lower whole dollar amount through a written agreement between the judgment debtor and district attorney's office or through an order of the court. The State Department of Social Services shall resolve any claims for refunds of amounts overwithheld by the Employment Development Department.

(c) No later than the time of the first withholding, the judgment debtor shall be notified of all of the following:

(1) That his or her unemployment compensation benefits have been reduced by a court-ordered child support judgment pursuant to the provisions of this section.

(2) The address and phone number of the district attorney's office which submitted the certificate of support judgment.

(d) The judgment debtor may ask the appropriate court for an equitable division of the judgment debtor's unemployment compensation income to take into account the needs of all the persons the judgment debtor is required to support.

(e) The State Department of Social Services and the Employment Development Department shall enter into any agreements necessary to carry out the provisions of this section.

SEC. 11. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because this act implements a federal law or regulation and involves only "costs mandated by the federal government," as defined by Section 2206 of the Revenue and Taxation Code.

SEC. 12. An anticipated one million five hundred ninety-one thousand dollars ($1,591,000) in savings resulting from the implementation of Section 4 of this act shall be applied toward reducing the State General Fund expenditures (Item 5180-101-001 of

the Budget Act of 1982), when appropriated by the Legislature.

An anticipated one million seven hundred seventy-three thousand dollars ($1,773,000) in savings resulting from the implementation of Section 4 of this act shall be applied toward reducing the Federal Trust Fund expenditures (Item 5180-101-866 of the Budget Act of 1982), when appropriated by the Legislature.

SEC. 13. The sum of six hundred forty-one thousand dollars ($641,000) is hereby appropriated according to the following schedule:

(a) The sum of one hundred sixty thousand dollars ($160,000) is appropriated from the General Fund to the Department of Social Services in augmentation of Item 5180-001-001(a) of the Budget Act of 1982.

(b) The sum of four hundred eighty-one thousand dollars ($481,000) is appropriated from the Federal Trust Fund to the Department of Social Services for augmentation of Item 5180-001-866(a) of the Budget Act of 1982.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The Federal Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35) requires that California law be amended as proposed by this act. Unless California enacts this act to be operative not later than October 1, 1982, California's unemployment insurance program will be out of conformity with the mandates of federal law under Public Law 97-35. This would seriously disrupt California's economy by the imposition of burdensome federal taxes on California employers and imperil the payment of unemployment benefits by the denial of federal funds to pay for the administration of the payment of the benefits to unemployed claimants in California. In order to preserve California's unemployment insurance system and assure uninterrupted payment of unemployment benefits in the interest of the public peace, health, or safety, it is necessary that this act take effect immediately.

CHAPTER 1073

An act to amend Sections 1256, 1280, 3503, 3504, 3552, 3652, 4001, 4003, and 4552 of the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1256 of the Unemployment Insurance Code is amended to read:

1256. An individual is disqualified for unemployment compensation benefits if the director finds that he or she left his or her most recent work voluntarily without good cause or that he or she has been discharged for misconduct connected with his or her most recent work.

An individual is presumed to have been discharged for reasons other than misconduct in connection with his or her work and not to have voluntarily left his or her work without good cause unless his or her employer has given written notice to the contrary to the director within five days after the termination of service, setting forth facts sufficient to overcome the presumption. The presumption provided by this section is rebuttable.

An individual whose employment is terminated under the compulsory retirement provisions of a collective-bargaining agreement to which the employer is a party, shall not be deemed to have left his or her work without good cause.

An individual may be deemed to have left his or her most recent work with good cause if he or she leaves employment to accompany his or her spouse to a place from which it is impractical to commute to the employment.

SEC. 3. Section 3503 of the Unemployment Insurance Code is amended to read:

3503. For the purposes of this part:

(a) "Extended duration benefits" means the extended unemployment compensation benefits payable under this part.

(b) "Normal benefits" means the unemployment compensation benefits payable under Part 1 (commencing with Section 100) of this division.

(c) "Exhaustee" means an individual who is not entitled to normal benefits due to either of the following:

(1) He or she has an unexpired benefit year and has exhausted his or her normal benefits.

(2) His or her most recent benefit year expired in the week in

which he or she filed a primary claim or in the immediately preceding 13 calendar weeks and he or she is not entitled to establish a benefit year.

(d) "Insured unemployment rate" for a week means the percentage arrived at by dividing:

(1) The average weekly number of individuals filing claims for regular compensation for weeks of unemployment with respect to the period consisting of the week and the immediately preceding 12 weeks, by

(2) The average monthly covered employment for the same period.

The director shall interpret this definition in accordance with regulations and guidelines prescribed by the United States Secretary of Labor which are applicable to subdivision (e) of Section 203 of the federal act.

(e) "Extended benefit period" means the period beginning with the third week after the first week for which there is an "on" indicator, and ending with the third week after the first week for which there is an "off" indicator, except no extended benefit period shall last for a period of less than 13 consecutive weeks and no extended benefit period may begin before the 14th week after the close of a prior extended benefit period. There is an "on" indicator for a week if the insured unemployment rate equals or exceeds 6 percent. There is an "off" indicator for a week if the insured unemployment rate is less than 6 percent.

(f) "Primary claim" means the first claim for extended duration benefits filed by an exhaustee with an effective date within an extended benefit period for the purpose of establishing an extended duration award and an extended duration period.

(g) "Extended duration award" means the maximum amount of extended duration benefits allowable under this part to an eligible exhaustee.

(h) "Extended duration period" means a period beginning with the first day of the week with respect to which an exhaustee filed a valid primary claim and ending with the last week which begins on or before the last day of the fifth calendar month following the calendar month which contains the extended duration week or a major portion of the extended duration week in which the valid primary claim was filed.

(i) "Parent benefit year" means the benefit year with respect to which an individual becomes an exhaustee.

(j) "Federal act" means the "Federal-State Extended Unemployment Compensation Act of 1970".

SEC. 4. Section 3504 of the Unemployment Insurance Code is amended to read:

3504. The director shall during the week immediately preceding each calendar week compute the insured unemployment rate for that calendar week. The computation shall be a public record.

SEC. 5. Section 3552 of the Unemployment Insurance Code is

amended to read:

3552. An unemployed individual is eligible to receive extended duration benefits with respect to any week only if the director finds that:

(a) An extended duration award has been established for the individual.

(b) The week is:

(1) Within the extended duration period of the award; and

(2) Within an extended benefit period.

(c) He or she meets the eligibility requirements of Part 1 (commencing with Section 100) of this division, except those excluded under subdivision (b) of Section 3502.

(d) He or she is not subject to disqualification, and is not under disqualification for normal benefits, under any provision of Part 1 (commencing with Section 100) of this division.

(e) He or she has during his or her base period been paid wages for employment by employers of not less than 40 times his or her weekly benefit amount.

For the purpose of this section "wages" includes wages due to an individual but unpaid within the time limit provided by law.

(f) During any week within an extended benefit period under the federal act, the provisions of subdivision (d) of Section 4552 and Sections 4553, 4554, 4555, and 4556 shall apply to claims filed under this part.

SEC. 6. Section 3652 of the Unemployment Insurance Code is amended to read:

3652. An exhaustee who desires to claim extended duration benefits shall file a valid primary claim. A primary claim for extended duration benefits shall be valid only if its effective date is within an extended benefit period and the individual filing it is an unemployed exhaustee. For the purpose of determining whether a primary claim is a "valid primary claim" within the meaning of this section, an individual otherwise unemployed shall be deemed unemployed even though wages, as defined in Section 1252, which are for a period subsequent to the termination of performance of services are payable with respect to the week for which the individual files the claim.

SEC. 7. Section 4001 of the Unemployment Insurance Code is amended to read:

4001. The purpose of this part is to provide that payment of extended compensation, in accordance with the "Federal-State Extended Unemployment Compensation Act of 1970", as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), shall be made, for any week of unemployment which begins in the individual's eligibility period, to individuals who have exhausted all rights to regular compensation under this division and who have no rights to regular compensation with respect to such week under this division or any other state unemployment compensation law or to compensation under any other federal law. For purposes of this section, an individual shall have exhausted his or her rights to regular

compensation under any state law (A) when no payments of regular compensation can be made under such law because such individual has received all regular compensation available to the individual based on wage credits for his base period, or (B) when his rights to such compensation have terminated by reason of the expiration of the benefit year with respect to which such rights existed. Except where inconsistent with the provisions of the "Federal-State Extended Unemployment Compensation Act of 1970", as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), the terms and conditions of this division which apply to claims for regular compensation and to the payment thereof shall apply to claims for extended compensation and to the payment thereof under such federal act. This part shall be operative on September 25, 1982, and extended compensation shall be payable as provided by the Federal-State Extended Unemployment Compensation Act of 1970, as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), subject to limitations provided by that act, with respect to weeks of unemployment and extended benefit periods beginning after September 25, 1982. The provisions of this section in effect prior to the amendment of this section by the 1981–82 Regular Session of the Legislature shall continue to apply to weeks beginning after November 28, 1970, and before September 25, 1982.

SEC. 8. Section 4003 of the Unemployment Insurance Code is amended to read:

4003. (a) The provisions and definitions of terms in the "Federal-State Extended Unemployment Compensation Act of 1970," as amended by the federal Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), apply to this part. "Federal-state extended benefits" means benefits payable under this part.

(b) Effective with respect to compensation for weeks of unemployment beginning after September 25, 1982, the determination of whether there has been a state "on" or "off" indicator beginning or ending any extended benefit period shall be made as provided in subsection (d) of Section 203 of the Federal-State Extended Unemployment Compensation Act of 1970, as amended by the Omnibus Budget Reconciliation Act of 1981 (Public Law 97-35), as if (i) paragraph (1) of such subsection (d) did not contain subparagraph (A) thereof, and (ii) the figure "5 per centum" in subparagraph (B) of paragraph (1) of such subsection (d) were "6 per centum," except that notwithstanding any provision of subdivision (d), any week for which there would otherwise be a state "on" indicator shall continue to be such a week and shall not be determined to be a week for which there is a state "off" indicator. There is a state "off" indicator for a week if, for the period consisting of such week and the immediately preceding 12 weeks, either subparagraph (A) or (B) of paragraph (1) was not satisfied.

(c) The provisions of this section in effect prior to the amendment of this section by the 1981–82 Regular Session of the Legislature shall continue to apply to weeks beginning prior to September 25, 1982,

but after March 30, 1977.

SEC. 9. Section 4552 of the Unemployment Insurance Code is amended to read:

4552. An unemployed individual is eligible to receive federal-state extended benefits with respect to any week only if the director finds that:

(a) An extended compensation account has been established for him or her.

(b) The week is within an extended benefit period and his or her eligibility period.

(c) He or she meets the eligibility requirements of Part 1 (commencing with Section 100) of this division, except those excluded under subdivision (b) of Section 4002.

(d) With respect to compensation payable to any individual for any week beginning after September 25, 1982, he or she had earnings which equal or exceed 40 times his or her most recent weekly benefit amount in the base period in which he or she exhausted all rights to regular compensation.

(e) He or she is not subject to disqualification for normal benefits under any provision of Part 1 (commencing with Section 100) of this division. If the individual has been subject to disqualification under subdivision (b) of Section 1257, he or she has satisfied subdivision (b) of Section 1260 and, during a week following the first week of disqualification, has done either of the following:

(1) Performed service in bona fide employment during a week on a full-time basis.

(2) Performed service in bona fide employment during a week from which service he or she earned remuneration at least equal to his or her weekly benefit amount.

SEC. 10. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 11. Notwithstanding Section 2231.5 of the Revenue and Taxation Code, this act does not contain a repealer, as required by that section; therefore, the provisions of this act shall remain in effect unless and until they are amended or repealed by a later enacted act.

SEC. 12. Sections 3, 4, 5, and 6 of this act, which amend Sections 3503, 3504, 3552, and 3652 of the Unemployment Insurance Code, respectively, shall apply to the payment of extended benefits for weeks of unemployment beginning after September 25, 1982.

SEC. 13. The amendment to Section 1256 of the Unemployment Insurance Code made by Section 1 of this act is intended to restore the law as it was construed prior to the decision by the First District of the California Court of Appeal in Norman v. California Unemployment Insurance Appeals Board, 1 Civ. No. 52713, and to endorse the

policy of the Employment Development Department, as expressed in its regulations, which distinguishes persons who are married or whose marriage is imminent from others in determining whether a person has left his or her most recent work without good cause when he or she leaves employment to accompany another person to a place from which it is impractical to commute to that employment.

(a) If Assembly Bill No 2856 of the 1981–82 Regular Session is chaptered, takes effect, and amends Sections 4001, 4003, and 4552 of the Unemployment Insurance Code, Sections 7, 8, and 9 of this bill, which amend the same sections of the Unemployment Insurance Code, shall not become operative.

(b) If Assembly Bill 3154 of the 1981–82 Regular Session is chaptered, takes effect, and amends Section 1280 of the Unemployment Insurance Code to increase the maximum weekly benefit amount payable under the unemployment compensation law to an amount higher than the amount provided in Section 2 of this act, Section 2 of this act, which also amends Section 1280 of the Unemployment Insurance Code, shall not become operative.

CHAPTER 1074

An act to add and repeal Chapter 3.5 (commencing with Section 10200) of Part 1 of Division 3 of the Unemployment Insurance Code, relating to the Employment Training Panel.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 3.5 (commencing with Section 10200) is added to Part 1 of Division 3 of the Unemployment Insurance Code, to read:

CHAPTER 3.5. EMPLOYMENT TRAINING PANEL

10200. The Legislature declares as follows:

(a) There are an inadequate number of jobs in this state to meet the needs of those seeking employment.

(b) Despite the large number of unemployed job seekers, many employers in new and expanding industries are having difficulty finding the skilled workers they need. A similar problem exists in industries where overall employment may not be expanding but where there is an acute need for skilled workers in particular occupations.

(c) Under existing law, all employer taxes paid into the unemployment insurance system compensate unemployment insurance recipients for being out of work. The intent of this chapter

is to use a small portion of employer taxes to put unemployment insurance recipients to work by encouraging employers to locate and expand facilities in this state and training unemployment insurance recipients in skills needed by employers.

(d) The purpose of this chapter is to establish an employment training program which shall foster job creation, minimize employers' unemployment costs, and meet employers' needs for skilled workers by providing skills training to unemployment insurance claimants, recent exhaustees of unemployment insurance who have remained unemployed, and potentially displaced workers who would otherwise become unemployment insurance claimants. It is the intent of the Legislature that all training funded through this chapter result in jobs for those who successfully complete the training.

(e) The funds made available by this chapter shall supplement but not displace funds available through existing programs conducted by employers themselves and public programs such as the California Worksite Education and Training Act, the Youth Employment and Development Act, or apportionment funds allocated to the community colleges, regional occupational centers and programs, or other local educational agencies. In addition, it is further the intention of the Legislature that programs developed pursuant to this chapter shall not replace, parallel, supplant, compete with, or duplicate in any way already existing approved apprenticeship programs.

10201. As used in this chapter:

(a) "Employer" means any employer subject to Part 1 (commencing with Section 100) of Division 1 of the Unemployment Insurance Code, except any public entity, as defined by paragraph (3) of subdivision (a) of Section 135 of that code, and any nonprofit organization, as described in Section 608 of that code.

(b) "Eligible participant" means any person who, prior to beginning training or employment pursuant to this chapter, was either (1) unemployed and either receiving unemployment insurance benefits, or had exhausted eligibility for unemployment insurance benefits within the previous 52 weeks, or (2) is employed but is determined by the panel to be likely to be displaced and therefore claiming unemployment insurance benefits.

(c) "Panel" means the Employment Training Panel created by Section 15382.

(d) "Fund" means the Employment Training Fund created by Section 1610.

(e) "Department" means the Employment Development Department.

(f) "Training agency" means any private training entity or local educational agency.

10202. (a) There is hereby established in the department the Employment Training Panel consisting of seven persons with experience and a demonstrated interest in business management

and employment relations.

(b) Two members of the panel shall be appointed by the Speaker of the Assembly, two members of the panel shall be appointed by the President pro Tempore of the Senate, and three members of the panel shall be appointed by the Governor. The Governor shall designate a member to chair the panel, and the person so designated shall serve as the chair of the panel at the pleasure of the Governor.

(c) The members of the panel shall serve for two-year terms, except that of the initial members of the panel, one initial appointee of each appointing power shall serve for a one-year term.

(d) Members of the panel shall receive their necessary expenses, and per diem of one hundred dollars ($100).

10203. The panel may meet as necessary at locations throughout the state.

10204. The panel may designate local review panels to review and recommend proposals to the panel for final approval. Recommendations shall be based on the following:

(a) Local labor market demand.

(b) The capabilities and past performance of local training agencies and employers.

(c) In-kind contributions by employers, including, but not limited to, equipment, instructors, and training facilities.

(d) The priorities established in subdivision (b) of Section 10205.

The panel shall have the authority to withdraw its designation from those local review panels which do not meet these standards.

10205. The panel shall do all of the following:

(a) Solicit proposals and write contracts on the basis of proposals made directly to it and on the basis of the recommendations of the local review panels. Contracts may be written with any employer or any group of employers acting jointly or any training agency for the purpose of providing employment training. These contracts shall be in the form of fixed-fee performance contracts. Notwithstanding any provision of law to the contrary, contracts entered into pursuant to this chapter shall not be subject to competitive bidding procedures. No contract shall be written for a period of more than 18 months.

(b) Allocate the Employment Training Fund. In doing so, the panel shall seek to facilitate the employment of the maximum number of eligible participants in jobs with definite career potential and long-term job security. In no case shall the statewide allocation be based solely on population. Nothing in this chapter shall be construed to preclude the panel from entering into contracts with employers, groups of employers, or training agencies for the provision of training in multijurisdictional areas of the state. In writing contracts, priority shall be given to employers and training for employers who are expanding their business enterprises in this state, to employers and training for employers who are establishing enterprises in areas targeted for economic development by the Department of Economic and Business Development, and to employers and training for employers in industries in which there

are critical skills shortages. Preference shall be given to apprenticeship and similar training in which a person is employed at the commencement of training.

(c) Establish minimum standards for the consideration of proposals, which shall include, but not be limited to, the identification of employers who will employ successful trainees, the number of jobs available, the skill requirements for the identified jobs, the projected cost per trainee, and the wage level of the available jobs. No proposal shall be considered which proposes training for employment covered by a collective-bargaining agreement unless the signatory labor organization agrees in writing.

(d) Ensure the provision of adequate fiscal and accounting controls for, monitoring and auditing of, and other appropriate technical and administrative assistance to, projects funded by this chapter.

(e) Provide for evaluation of projects funded by this chapter. Individual project evaluations shall contain a summary description of the project, the number of persons entering training, the number of persons completing training, the number of persons employed at the end of the project, the number of persons still employed three months after the end of the project, the wages paid, the total costs of the project, and the total reimbursement received from the Employment Training Fund.

(f) Report annually to the Legislature, by September 30, on projects operating during the previous state fiscal year. These annual reports shall provide separate summaries of (1) projects completed during the year, including their individual and aggregate performance and cost; and (2) projects not completed during the year, briefly describing each project and identifying approved contract amounts by contract and for this category as a whole. The first annual report is due September 30, 1984.

(g) Expedite the processing of contracts for firms considering locating or expanding businesses in the state, as determined by the Department of Economic and Business Development.

10206. The panel may allocate money in the fund for any of the following purposes:

(a) Reimbursement of actual training costs incurred by employers and training agencies and for reasonable administrative costs.

(b) Costs of program administration incurred under this chapter.

(c) Costs of the Legislative Analyst's program evaluation conducted pursuant to Section 15395.

10207. Programs approved under Chapter 2.7 (commencing with Section 9900) of Division 3 of the Unemployment Insurance Code may apply to the panel for funding for programs that further the purposes of this chapter.

10208. Nothing in this chapter shall be construed to preclude any employer from contracting with any public or private training entity for services, subject to the approval of the panel.

10209. (a) Contracts shall only be made with employers, groups

of employers, or training agencies for job-linked training which provides specific skills for career advancement or which is preparatory for, and leads directly to, jobs with definite career potential and long-term job security.

(b) Payments shall be made in accordance with a performance contract under which partial payments may be made during training, a partial payment may be made on placement or retention of each trainee, and not less than 25 percent of the negotiated fee is withheld until the trainee has been retained in employment for 90 days after the end of training.

10210. Contracts shall be made with training agencies only if the training agency can demonstrate all of the following:

(a) The training agency has a satisfactory record of past performance in the placement and retention of former trainees and employer satisfaction with former trainees.

(b) Unemployment compensation benefits paid to an

unemployed individual during any benefit year shall be charged against the account of his or her employer during his or her base period, but if the individual performed services in employment for more than one employer during his or her base period, unemployment compensation benefits paid to him or her shall be charged against the respective accounts of the employers in the proportion that the total wages paid to the individual in employment for each employer bears to the total wages paid to the individual in employment for all employers during the base period.

(c) The director shall credit the interest earned by the Unemployment Fund to each positive reserve employer account in proportion to the amount the account bears to the total of all positive reserve accounts.

(2) Contributions paid pursuant to Section 978.5.

(3) Positive balances in reserve accounts canceled pursuant to Section 1029.

(2) Second priority may be given to the extinction of obligations due at the time of payment with respect to which a lien has been recorded. CHAPTER 1076

An act to amend Section 11628 of the Insurance Code, relating to insurance.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 11628 of the Insurance Code is amended to read:

11628. (a) No admitted insurer, licensed to issue and issuing motor vehicle liability policies as defined in Section 16450 of the

Vehicle Code, shall fail or refuse to accept an application for such insurance, to issue such insurance to an applicant therefor, or issue or cancel such insurance under conditions less favorable to the insured than in other comparable cases, except for reasons applicable alike to persons of every race, language, color, religion, national origin, ancestry, or the same geographic area; nor shall race, language, color, religion, national origin, ancestry, or location within a geographic area of itself constitute a condition or risk for which a higher rate, premium, or charge may be required of the insured for such insurance.

As used in this section "geographic area" means a portion of this state of not less than 20 square miles defined by description in the rating manual of an insurer or in the rating manual of a rating bureau of which the insurer is a member or subscriber. In order that geographic areas used for rating purposes may reflect homogeneity of loss experience, a record of loss experience for such geographic area shall include the breakdown of actual loss experience statistics by zip code area (as designated by the United State Postal Service) within each geographic area for family owned private passenger motor vehicles and lightweight commercial motor vehicles, under 1½-ton load capacity, used for local service or retail delivery, normally within a 50-mile radius of garaging, and which are not part of a fleet of five or more motor vehicles under one ownership. A record of loss experience for such geographic area, including such statistical data by zip code area, shall be available for examination by the commissioner. Differentiation in rates between geographical areas shall not constitute unfair discrimination.

As used in this section, "language" means the inability to speak, read, write, or comprehend the English language.

(b) No admitted insurer, licensed to issue and issuing motor vehicle liability insurance policies as defined in Section 16450 of the Vehicle Code, shall fail or refuse to accept an application for such insurance, refuse to issue such insurance to an applicant therefor, or cancel such insurance solely for the reason that the applicant for such insurance or any insured is employed in a specific occupation.

Nothing in this section shall prohibit an insurer from:

(1) Considering the occupation of the applicant or insured as a condition or risk for which a higher rate or discounted rate may be required or offered for coverage in the course and scope of his or her occupation.

(2) Charging a deviated rate to any classification of risks involving a specific occupation, or grouping thereof, if the rate meets the requirements of Chapter 9 (commencing with Section 1850) of Part 2 of Division 1 and is based upon actuarial data which demonstrates a significant actual historical differential between past losses or expenses attributable to the specific occupation, or grouping thereof, and the past losses or expenses attributable to other classification of risks. For purposes of compiling such actuarial data for a specific occupation or grouping thereof, a person shall be deemed employed

in the occupation in which that data is compiled if: (A) the majority of his or her employment during the previous year was in the occupation, or (B) the majority of his or her aggregate earnings for the immediate preceding three-year period were derived from the occupation, or (C) the person is a member in good standing of a union which is an authorized collective-bargaining agent for persons engaged in the occupation.

Nothing in this section shall be construed to include in the definition of "occupation" active duty service in the Armed Forces of the United States or self-employment in a business operated out of an applicant's or insured's place of residence or persons engaged in the renting, leasing, selling, repossessing, rebuilding, wrecking or salvaging of motor vehicles.

(c) Nothing in this section shall limit or restrict the ability of an insurer to refuse to accept an application for or refuse to issue or cancel such insurance for the reason that it is a commercial vehicle or based upon the consideration of a vehicle's size, weight, design or intended use.

(d) It is the intent of the Legislature that actuarial data by occupation may be examined for credibility by the commissioner on the same basis as any other automobile insurance data which he or she is empowered to examine.

(e) The provisions of this section shall be known and may be cited as the "Rosenthal-Robbins Auto Insurance Nondiscrimination Law."

CHAPTER 1077

An act to amend Sections 4401, 4402, 4404, 4405, 4406, 4407, 4408, and 4418 of, and to add Sections 4407.3 and 4407.5 to, the Labor Code, relating to workers' compensation, and declaring the urgency thereof, to take effect immediately.

4404. Insofar as not inconsistent with the provisions of this chapter, all of the provisions of this division shall pertain to asbestos workers and their dependents for purposes of furnishing workers' compensation asbestos workers' benefits thereto.

SEC. 3. Section 4405 of the Labor Code is amended to read:

4405. Where the conditions of compensation exist under this division the right to recover workers' compensation asbestos workers' benefits pursuant to the provisions of this chapter is a temporary remedy for injury to an asbestos worker against the Asbestos Workers' Account, and such asbestos worker or his or her dependents shall make all reasonable effort to establish the identity of the employer responsible for securing the payment of compensation.

SEC. 4. Section 4406 of the Labor Code is amended to read:

4406. (a) Payments as advances on workers' compensation asbestos workers' benefits shall be furnished an asbestos worker for injury resulting in asbestosis, or the dependents of the asbestos worker in the case of his or her death due to asbestosis, subject to the provisions of this division, if all of the following conditions occur:

(1) The asbestos worker demonstrates to the account that at the time of exposure, the asbestos worker was performing services and was acting within the scope of his or her duties in an occupation that subjected the asbestos worker to the exposure to asbestos.

(2) The asbestos worker demonstrates to the account that he or she is suffering from asbestosis.

(3) The asbestos worker demonstrates to the account that he or she developed asbestosis from the employment.

(4) The asbestos worker is entitled to compensation for asbestosis as otherwise provided for in this division.

(b) The findings of the account with regard to the conditions in subdivision (a) shall not be evidence in any other proceeding.

(c) The account shall require the asbestos worker to submit to an independent medical examination unless the information and assistance officer, in consultation with the medical director or his or her designee, determines that there exists adequate medical evidence that the worker developed asbestosis from the employment.

SEC. 5. Section 4407 of the Labor Code is amended to read:

4407. When the account determines that the conditions in Section 4406 have occurred, payments as advances on workers'

compensation asbestos workers' benefits shall be provided in accordance with this chapter, notwithstanding the right of the asbestos worker to secure compensation as otherwise provided for in this division.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 8046 of the Fish and Game Code is amended to read:

8046. Every person operating under a license issued pursuant to this article shall, in addition to the license fee and the tax required under Section 8045, pay an additional privilege tax of one cent ($0.01) for each pound, or fraction thereof, of thresher shark or bonito (mako) shark purchased, received, or taken by him or her. The moneys collected by the department pursuant to this section shall be expended solely for purposes of the study required by and the costs of administering Article 16 (commencing with Section 8560) of Chapter 2 of this part.

Collection of the privilege tax imposed by this section shall begin on October 1, 1980.

This section shall remain in effect only until January 1, 1985, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1985, deletes or extends that date.

SEC. 2. Section 8394.5 is added to the Fish and Game Code, to read:

8394.5. The fee for the permit issued pursuant to Section 8394 shall be one hundred fifty dollars ($150). This permit fee shall not apply to the holder of a valid drift gill net shark and swordfish permit required under Article 16 (commencing with Section 8560) of Chapter 2.

SEC. 3. Article 16 (commencing with Section 8560) is added to Chapter 2 of Part 3 of Division 6 of the Fish and Game Code, to read:

Article 16. Drift Gill Net Shark and Swordfish Fishery

8560. The Legislature finds and declares as follows:

(a) The drift gill net shark fishery is expanding at a rapid rate.

(b) The principal species taken by the fishery are long-lived and have a low rate of reproduction.

(c) The drift gill net shark fishery affects the important swordfish and marlin fisheries.

Therefore, the department shall study the drift gill net shark fishery for biological and fishery management purposes and shall

prepare a report on the status of the thresher shark and swordfish resources off California and on the effects of the fishery on other resources and submit this report to the Legislature on or before January 1, 1985.

8561. (a) Notwithstanding Sections 8394 and 8603, shark and swordfish may not be taken for commercial purposes with drift gill nets except under a nontransferable, revocable drift gill net shark and swordfish permit issued annually by the department. These permits may be revoked or suspended by the commission, when requested by the department, upon a conviction for a willful violation of any provision of this article, Article 1 (commencing with Section 8601) or Article 5 (commencing with Section 8680) of Chapter 3, or violation of any condition of the permit by the permittee or the permittee's agent, servant, employee, or person acting under the permittee's direction or control.

(b) A drift gill net shark and swordfish permit shall not be required for the taking of sharks with drift gill nets with a mesh size smaller than eight inches in stretched mesh and twine size no. 18 or the equivalent of this twine size or smaller. A drift gill net shark and swordfish permit shall not be required for the taking of sharks north of a line extending west magnetically from Point Arguello.

8562. Applications for a drift gill net shark and swordfish permit shall be made on such forms and contain such information as the department may require. This permit requirement is in addition to any other commercial fishing requirements. Applications delivered to a department office after April 30, or if mailed, postmarked after April 30, shall not be accepted unless approved by the commission pursuant to Section 8569.

8563. (a) Except as provided in subdivision (b), the permittee shall be aboard the vessel and shall be in possession of a valid drift gill net shark and swordfish permit when engaged in operations authorized by the permit.

(b) A permittee may have any person serve in his or her place on the permittee's vessel and engage in fishing under his or her drift gill net shark and swordfish permit for not more than 15 calendar days in any one year, except that a longer period may be allowed in the event of serious illness. A permittee shall notify the department's Long Beach office of a substitution of 15 days or less per calendar year, by certified letter or telegram at least 24 hours prior to the commencement of the trip. Written authorization for a substitution of greater than 15 days shall be obtained from the director and shall be given only on the director's finding that the permittee will not be available to engage in the activity due to serious illness, supported by medical evidence. An application for a substitution of greater than 15 days shall be made to the Department of Fish and Game, Headquarters Office, Sacramento, and shall contain such information as the director may require. Any denial of the substitution may be appealed to the commission.

8564. When the permittee applies for a drift gill net shark and

swordfish permit, the permittee shall specify the vessel he or she will use in operations authorized by the permit. Transfer to another vessel shall be authorized by the department upon receipt of a written request from the permittee prior to commencing a trip on another vessel.

8565. Each permittee shall keep an accurate record of his or her fishing operations in a logbook furnished by the department. The fishing record for each trip shall be completed before any fish is landed.

8566. Drift gill net shark and swordfish permits shall only be issued to the owner or operator of a currently registered fishing vessel, who meets one of the following requirements:

(a) Possessed a valid permit to take sharks with drift gill nets with mesh size eight inches or greater in stretched mesh, or with twine size no. 18 or greater, during the 1980–81, 1981–82, or 1982–83 drift gill net shark fishery season.

(b) Landed at least 5,000 pounds of swordfish in each of three calendar years during the period January 1, 1977, through December 31, 1981. Only landings of swordfish that can be verified by landing receipts submitted to the department pursuant to Section 8011 and by landing records maintained by the department shall be used to determine qualification for the permit.

The cost of this permit shall be one hundred fifty dollars ($150) and shall be valid, unless revoked, until April 1, 1984.

This section shall remain in effect only until April 1, 1984, and as of that date is repealed unless a later enacted statute which is chaptered before April 1, 1984, deletes or extends that date.

8567. A drift gill net shark and swordfish permit shall be valid, unless revoked, from April 1 to March 31 of the following year or, if issued after the beginning of that term, for the remainder thereof. The fee for this permmit shall be one hundred fifty dollars ($150).

This section shall become operative on April 1, 1984.

8568. Drift gill net shark and swordfish permits shall be issued in two categories:

(a) A category of prior permittees, which shall consist of drift gill net shark and swordfish permittees who meet all of the following requirements:

(1) Possess a valid permit for the use of gill nets authorized pursuant to Section 8681.

(2) Possessed a valid drift gill net shark and swordfish permit during the preceding season and that permit was not subsequently revoked.

(3) During one of the two immediately preceding permit years, either landed at least 5,000 pounds of swordfish or shark or landed shark or swordfish for which the permittee was paid at least five thousand dollars ($5,000). Landings shall be verified by the applicant's submission of landing receipts as provided in Section 8011.

(b) A category of new entrants. An applicant shall be eligible for

this category if he or she does not qualify as a prior permittee and possesses a valid permit for the use of gill nets authorized pursuant to Section 8681.

This section shall become operative on April 1, 1984.

8569. Any applicant who qualifies as a prior permittee pursuant to subdivision (a) of Section 8568 shall be issued a drift gill net shark and swordfish permit. Any person whose application has been denied may appeal to the commission, submitting circumstances surrounding nonqualification for the permit, and request classification as a prior permittee. The commission may classify the appellant as a prior permittee if it finds the nonqualification of the permit was for reasons beyond the control of the applicant under the circumstances and may establish conditions for the issuance of a permit if the appellant's permit was previously revoked, or if the appellant did not apply on or before April 30.

This section shall become operative on April 1, 1984.

8570. (a) The number of drift gill net shark and swordfish permits available for new entrants shall be the difference between the number of permits issued to prior permittees and 150, if the number of prior permittees is less than 150. If the number of prior permittees is 150 or greater, no permits shall be available for new entrants.

(b) Whenever there are more applicants than there are permits available in the new entry category, a drawing shall be held to determine who will receive permits in that category. The drawing shall be held on the Wednesday closest to May 15, at the office of the Department of Fish and Game, Long Beach, California.

This section shall become operative on April 1, 1984.

8573. Drift gill nets may be used to take shark and swordfish under the permit provided in this article and are subject to the following restrictions:

(a) Nets shall not be in the water from two hours after sunrise to two hours before sunset.

(b) Nets greater than 6,000 feet in length shall not be used.

(c) Any end of the net not attached to the permittee's vessel shall be marked by a pole with a radar reflector. The reflector shall be at least six feet above the surface of the ocean and not less than 10 inches in any dimension except thickness. The permittee's permit number shall be permanently affixed to at least one buoy or float attached to the radar reflector staff. The permit number shall be at least one and one-half inches in height and all markings shall be at least one-quarter inch in width.

8574. Drift gill nets with mesh size less than 14 inches in stretched mesh shall not be used to take shark and swordfish by permittees operating under a drift gill net shark and swordfish permit.

This section shall become operative on May 1, 1985.

8575. Drift gill nets, used to take shark and swordfish under the permit provided in this article, shall not be used:

(a) From May 1 through July 31, within six nautical miles westerly,

northerly, and easterly of the shoreline of San Miguel Island between a line extending six nautical miles west magnetically from Point Bennett and a line extending six nautical miles east magnetically from Cardwell Point and within six nautical miles westerly, northerly, and easterly of the shoreline of Santa Rosa Island between a line extending six nautical miles west magnetically from Sandy Point and a line extending six nautical miles east magnetically from Skunk Point.

(b) From May 1 through July 31, within 10 nautical miles westerly, southerly, and easterly of the shoreline of San Miguel Island between a line extending 10 nautical miles west magnetically from Point Bennett and a line extending 10 nautical miles east magnetically from Cardwell Point and within 10 nautical miles westerly, southerly, and easterly of the shoreline of Santa Rosa Island between a line extending 10 nautical miles west magnetically from Sandy Point and a line extending 10 nautical miles east magnetically from Skunk Point.

8576. Drift gill nets shall not be used to take shark or swordfish from February 1 through April 30.

Swordfish may be taken under a permit issued pursuant to this article, subject to the following conditions:

(a) From May 1 through September 15, the incidental landings of swordfish, in pounds, by any person operating under a permit issued pursuant to this article, shall not exceed his or her landings of thresher and bonito (mako) shark, in pounds, during any calendar month. If the department determines, at any time, that the landings of swordfish in pounds by any drift gill net shark and swordfish permit holder exceeded his or her landings of shark during any calendar month, the department shall notify the permittee that his

or her permit is suspended for a period of at least two weeks, as determined by the department, beginning 48 hours after that notice has been posted by certified mail. If the permittee's permit has been suspended for a violation of this section previously during the season, the department shall notify the permittee that his or her permit is suspended for the remainder of the season, beginning 48 hours after that notice has been posted by certified mail.

(b) All landings of swordfish by holders of a drift gill net shark and swordfish permit shall be included in any determination provided in subdivision (a), regardless of whether a harpoon or drift gill net was used to take the swordfish; except that landings of swordfish shall not be included in that determination only if the permittee, who also possesses a valid permit issued pursuant to Section 8394, has surrendered his or her drift gill net shark and swordfish permit to the department. A permittee may surrender his or her permit by notifying the department's Long Beach office of his or her intentions by telegram or certified letter and by sending or delivering his or her permit to an office of the department. A permittee may reclaim his or her permit at any time during regular working hours, if the permit has not been suspended or revoked.

(c) From September 16 through January 31, swordfish may be taken under a permit issued pursuant to this article.

8577. Notwithstanding Section 8394, the director may close the drift gill net shark and swordfish fishery, the swordfish harpoon fishery, or any area where either or both fisheries are conducted, if, after a public hearing, he or she determines the action is necessary to protect the swordfish or thresher shark and bonito (mako) shark resources. If the take of either thresher and bonito (mako) shark or swordfish exceeds 1.5 million pounds during any 12-month period commencing on April 1, the department shall evaluate the status of that resource and determine if a closure is necessary. The determination shall be based on, but not be limited to, an analysis of catch-per-unit-of-effort data, the age and size composition of the catch, information of the relative contribution of individual year-classes to the fishery, and the variability of this information from prior seasons.

The director shall reopen a fishery or any fishing areas previously closed pursuant to this section if he or she determines that the conditions which necessitated the closure no longer exist.

8578. The manner of giving notice for the purposes of subdivision (a) of Section 8576 and Section 8577 shall be prescribed by regulations of the Fish and Game Commission.

8579. A permittee shall be subject to the provisions of this article whenever the permittee is using a drift gill net, unless the permittee has surrendered his or her permit to the department. A permittee may surrender his or her permit by notifying the department's Long Beach office of his or her intentions by telegram or certified letter and by sending or delivering his or her permit to a department office. A permittee may reclaim his or her permit at any time during regular

working hours, if the permit has not been suspended or revoked.

8580. It is unlawful for any permittee to sell swordfish taken by him or her to other than the persons described in Sections 8042 and 8044, or except as provided in Section 8015.

8581. Any license issued pursuant to Section 8040 or 8044 may be revoked or suspended by the commission, when requested by the department, upon a conviction for a violation of subdivision (a) of Section 8011 for failure to report, or for inaccurately reporting, shark or swordfish landings by fishermen operating under permits issued pursuant to Section 8394 or 8561.

8582. (a) The Legislature finds and declares that the intent of this article is not to permit or encourage the taking of marlin for commercial purposes.

(b) It shall be a misdemeanor for any person operating under a permit pursuant to this article to sell or possess for sale or personal use any marlin. In the event a marlin is taken incidentally in a drift gill net, the permittee shall notify the department immediately that the fish is on the boat. No marlin may be removed from the boat except for delivery to the department.

8583. This article shall remain in effect only until January 1, 1988, and as of that date is repealed unless a later enacted statute which is chaptered before January 1, 1988, deletes or extends that date.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 2. LICENSING

Article 1. Generally

26200. No person shall engage in the business of a commercial finance lender and make commercial loans in connection with which charges in excess of the rate permitted by paragraph (2) of Section 1 of Article XV of the California Constitution are contracted for, charged, or received, without obtaining a license from the commissioner.

26201. An application for a license under this division shall be in such form and contain such information as the commissioner may by rule require and shall be filed upon payment of the fee specified in Section 26202. A license issued pursuant to an application filed under this section shall be designated a master license.

26201.1. (a) A person licensed pursuant to an application filed under Section 26201 may conduct business under this division, either directly or through one or more subsidiary corporations, at such locations as are authorized by the commissioner pursuant to this section. An application to establish a location pursuant to this section shall be in such form and contain such information as the commissioner may by rule require, and shall be filed upon payment of the fee specified in Section 26202. A license issued pursuant to an application filed under this section shall be designated a subsidiary license.

(b) On approval of an application filed pursuant to this section, the commissioner shall issue an original license endorsed to authorize the conduct of business at the location specified in the application.

(c) For the purposes of this section, "subsidiary corporation"

means a corporation which is wholly owned by a licensee.

(d) This section does not apply to changes in the address or location of a location previously authorized or licensed under this section.

26202. At the time of filing the application, the applicant shall pay to the commissioner the sum of one hundred dollars ($100) as a fee for investigating the application and two hundred dollars ($200) as an application fee. The investigation fee and application fee are not refundable if an application is denied or withdrawn.

26203. The applicant shall file with the application financial statements prepared in accordance with generally accepted accounting principles, and acceptable to the commissioner, which indicate a net worth of at least twenty-five thousand dollars ($25,000). A licensee shall maintain a net worth of at least twenty-five thousand dollars ($25,000) at all times.

26206. Upon the filing of an application pursuant to Sections 26201 and 26201.1 and the payment of the fees, the commissioner shall investigate the applicant, and its general partners if the applicant is a partnership, and its officers and directors if the applicant is a corporation or association. If the commissioner determines that the applicant has satisfied the provisions of this division and does not find facts constituting reasons for denial as specified in Section 26210, the commissioner shall issue and deliver a license to the applicant to engage in business in accordance with the provisions of this division.

26207. The license shall state the name of the licensee, and if the licensee is a partnership, the names of its general partners, and if a corporation or an association, the date and place of its incorporation or organization and the address of the licensee's principal business location in this state. On the approval and licensing of a location pursuant to Section 26201.1, the commissioner shall issue an original license endorsed to show the address of the authorized location and, if applicable, the name of the subsidiary corporation licensed to operate the location.

26208. (a) Each licensee shall pay to the commissioner its pro rata share of all costs and expenses, reasonably incurred in the administration of this division, as estimated by the commissioner for the ensuing year and any deficit actually incurred or anticipated in the administration of the program in the year in which such assessment is made. The pro rata share shall be the proportion which a licensee's gross income bears to the aggregate gross income of all licensees as shown by the annual financial reports to the commissioner.

(b) On or before the 30th day of May in each year, the commissioner shall notify each licensee by mail of the amount assessed and levied against it and that amount shall be paid within 20 days thereafter. If payment is not made within 20 days, the commissioner shall assess and collect a penalty in additon to the assessment, of 1 percent of the assessment for each month or part of

a month that the payment is delayed or withheld.

(c) In the levying and collection of the assessment, a licensee shall not be assessed for or be permitted to pay less than one hundred fifty dollars ($150) per year.

(d) If a licensee fails to pay the assessment on or before the 30th day of June following the day upon which payment is due, the commissioner may by order summarily suspend or revoke the license issued to such licensee. If, after such an order is made, a request for hearing is filed in writing and a hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date. During any period when its license is revoked or suspended, a licensee shall not conduct business pursuant to this division except as may be permitted by order of the commissioner. However, the revocation, suspension, or surrender of a license shall not affect the powers of the commissioner as provided in this division.

26209. The commissioner may by regulation require licensees to file at such times as he or she may specify such information as he or she may reasonably require regarding any changes in the information provided in any application filed pursuant to this division.

26210. (a) Upon reasonable notice and opportunity to be heard, the commissioner may deny the application for any of the following reasons:

(1) A false statement of a material fact has been made in the application.

(2) Any officer, director, or member of the applicant has, within the last 10 years, (i) been convicted of or pleaded nolo contendere to a crime, or (ii) committed any act involving dishonesty, fraud, or deceit, which crime or act is substantially related to the qualifications, functions, or duties of a person engaged in business in accordance with the provisions of this division.

(3) The applicant or any officer, director, or member of the applicant has violated any provision of this division or the rules thereunder or any similar regulatory scheme of a foreign jurisdiction.

(b) The application shall be considered withdrawn within the meaning of this section if the applicant fails to respond to a written notification of a deficiency in the application within 90 days of the date of the notification.

(c) The commissioner shall within 60 days from the filing of a full and complete application for a license with the fees, either issue a license or file a statement of issues prepared in accordance with the provisions of Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

26211. The proceedings for a denial of a license shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the commissioner has all the powers granted therein.

26212. All money paid or collected under this division shall be deposited in the State Treasury to the credit of the General Fund.

The administration of this division shall be supported out of the General Fund.

26401. (a) A license shall be conspicuously posted in the place of business authorized by the license.

(b) A license is not transferable or assignable. A license issued to a partnership or limited partnership is not transferred or assigned within the meaning of this section by the death, withdrawal, or admission of a partner, general partner, or limited partner, unless the death, withdrawal, or admission dissolves the partnership to which the license was issued.

26403. (a) If a licensee desires to change its place of business to a street address other than that designated in its license, such person shall give written notice to the commissioner at least 10 days prior to the change. The commissioner shall then attach a written approval of the change and the date of the approval.

(b) If notice is not given at least 10 days prior to such change as required by subdivision (a), the commissioner may assess a civil penalty on the licensee of not to exceed five hundred dollars ($500).

26406. Licensees shall keep and use in their business, books, accounts, and records which will enable the commissioner to determine if the licensee is complying with the provisions of this division and with the rules and regulations made by the commissioner. On any loan secured in whole or in part by real property in which loan proceeds were disbursed to an independent escrow holder, licensees shall retain records and documents as set forth by rule of the commissioner adopted pursuant to Section 26400.

Upon request of the commissioner, licensees shall file an authorization for disclosure to the commissioner of financial records of the licensed business pursuant to Section 7473 of the Government Code.

26407. Licensees shall preserve their books, accounts, and records, including cards used in the card system, if any, for at least two years after making the final entry on any loan recorded therein.

26407.5. Nothing contained in Sections 26406 and 26407 shall require the maintenance or preservation of original records, provided that any information requested by the commissioner can be furnished within 48 hours excluding Saturdays, Sundays, and holidays as defined in Section 6700 and 6701 of the Government Code.

26408. Each licensee shall file a report with the commissioner

annually on or before the 15th day of March, giving such relevant information as the commissioner reasonably requires concerning the business and operations during the preceding calendar year of each licensed place of business within the state conducted by the licensee. The individual annual reports filed pursuant to this section shall be made available to the public for inspection.

The report shall be made under oath and in the form prescribed by the commissioner.

26410. The commissioner shall make and file annually with the Department of Corporations as a public record a composite of the annual reports and any comments on the reports that he or she deems in the public interest.

26411. No person shall advertise, print, display, publish, distribute, or broadcast, or cause or permit to be advertised, printed, displayed, published, distributed, or broadcast, in any manner, any statement or representation with regard to the business subject to the provisions of this division, including the rates, terms or conditions for making or negotiating loans, which is false, misleading, or deceptive, or which omits to state material information that is necessary to make the statements therein not false, misleading, or deceptive, or, in the case of a licensee, which refers to the supervision of such business by the state or any department or official of the state.

26414. No advertising copy shall be used after its use has been disapproved by the commissioner and the licensee is notified in writing of such disapproval.

26415. The commissioner may require licensees to maintain a file of all advertising copy for a period of 90 days from the date of its use. The file shall be available to the commissioner upon request.

Article 2. Loan Regulations

26466. A loan that is secured by a lien on real property upon which an owner-occupied, single-family residence is situated may not be secured by a lien on personal property as well, with the exception of an assignment of rents in a mortgage or deed of trust.

CHAPTER 4. REVOCATION AND PENALTIES

Article 1. Revocation and Suspension of Licenses

26600. (a) Licenses issued under this division remain in effect until they are surrendered, revoked, or suspended.

(b) Surrender of a license becomes effective 30 days after receipt of an application to surrender the license or within a shorter period of time as the commissioner may determine, unless a revocation or suspension proceeding is pending when the application is filed or a proceeding to revoke or suspend or to impose conditions upon the surrender is instituted within 30 days after the application is filed. If such a proceeding is pending or instituted, surrender of a license

becomes effective at such time and upon such conditions as the commissioner determines.

26601. For the purpose of discovering violations of this division or securing information required by him or her in the administration and enforcement of this division, the commissioner may at any time investigate the loans and business and examine the books, accounts, records, and files used in the business, of every person engaged in the business of a commercial finance lender, whether the person acts or claims to act as principal or agent, or under or without the authority of this division. For the purpose of examination the commissioner and his or her representative shall have free access to the offices and places of business, books, accounts, papers, records, files, safes, and vaults of all these persons.

26602. In making any examination or investigation the commissioner may, for a reasonable time not exceeding 30 days, take possession of the books, records, accounts, and other papers pertaining to the business and place a keeper in exclusive charge and custody of the books, records, accounts, and other papers in the office or place where they are usually kept. During possession no person shall remove or attempt to remove any of the books, accounts, papers, records, files, safes, and vaults, or any part thereof, except in compliance with a court order or written consent of the commissioner.

26603. The officers, employees, partners, directors, and stockholders may inspect and examine the books, accounts, papers, records, files, safes, and vaults while they are in the custody of the commissioner, and employees may make entries therein reflecting current operations or transactions.

26604. The power of investigation and examination by the commissioner is not terminated by the surrender, suspension, or revocation of any license issued by him.

26605. Whenever the commissioner deems it necessary for the general welfare of the public, he has continuous authority to exercise the powers set forth in this division whether or not an application for a license has been filed with the commissioner, any license has been issued, or if issued, has been suspended or revoked.

26606. The commissioner may require the attendance of witnesses and examine under oath all persons whose testimony he requires relative to loans or business regulated by this division or to the subject matter of any examination, investigation, or hearing.

26608. (a) The cost of each examination of a licensee or a person subject to this division shall be paid to the commissioner by the licensee or person examined, and the commissioner may maintain an action for the recovery of such cost in any court of competent jurisdiction. In determining the cost of an examination, the commissioner may use the estimated average hourly cost for all persons performing examinations of licensees or other persons subject to this division for the fiscal year.

(b) For the pupose of this section only, no person other than a

licensee shall be deemed to be a person subject to this division until the person is determined to be a person subject to this division by an administrative hearing in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code or by a judicial hearing in any court of competent jurisdiction.

26609. After an examination, investigation, or hearing under this division, if the commissioner deems it of public interest or advantage, he or she may certify a record to the proper prosecuting official of the county or city in which the act complained of, examined, or investigated, occurred.

26610. The commissioner may require the production for examination in this state of all books, records, and supporting data used by the licensee in the preparation of reports to the commissioner. The books, records, and supporting data shall be made available for examination by the commissioner within 10 days after written demand.

26611. The commissioner may upon three days' notice and a hearing, suspend any license for a period not exceeding 30 days, pending investigation.

26612. Any licensee may surrender any license by delivering to the commissioner written notice that he or she surrenders his or her license, but surrender of the license does not affect the licensee's civil or criminal liability for acts committed prior to surrender of the license.

26613. Whenever in the opinion of the commissioner any person is engaged in business as commercial finance lender as defined in this division without a license from the commissioner, or any licensee is violating any provision of this division, the commissioner may order that person or licensee to desist and to refrain from engaging in the business or further violating this division. If, after the order is made, a written request for a hearing is filed and no hearing is held within 30 days thereafter, the order is rescinded.

26614. Whenever the commissioner believes from evidence satisfactory to the commissioner that any person has violated or is about to violate any provision of this division, or any provision of any order, license, decision, demand, or requirement, the commissioner may bring an action, or the commissioner may request the Attorney General to bring an action in the name of the people, against that person, to enjoin that person from continuing the violation or engaging therein or doing any act in furtherance thereof. In the action the court may enter an order or judgment awarding such preliminary or final injunction as is proper.

26615. (a) The commissioner shall suspend or revoke any license, upon notice and reasonable opportunity to be heard, if the commissioner finds any of the following:

(1) That the licensee has failed to comply with any demand, ruling, or requirement of the commissioner made pursuant to and within the authority of this division.

(2) That the licensee has violated any provision of this division or any rule or regulation made by the commissioner under and within the authority of this division.

(3) That any fact or condition exists which, if it had existed at the time of the original application for such license, reasonably would have warranted the commissioner in refusing originally to issue the license.

(b) A master license may not be suspended or revoked pursuant to this section as a result of any action or failure to act by a subsidiary licensee unless grounds exist for the suspension or revocation of the master license pursuant to this section. An order suspending or revoking a license or imposing sanctions against a licensee shall not affect other licensed locations unless expressly so stated in the order.

26615.7. The commissioner may by order summarily suspend or revoke the license of any licensee if such person fails to file the report required by Section 26408 within 10 days after notice by the commissioner that such report is due and not filed. If, after such an order is made, a request for hearing is filed in writing within 30 days and the hearing is not held within 60 days thereafter, the order is deemed rescinded as of its effective date.

26616. The revocation, suspension, expiration, or surrender of any license does not impair or affect the obligation of any preexisting lawful contract between the licensee and any borrower.

26617. Except in cases in which the time for setting the hearing is shortened as provided in this division, the proceedings under this article shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and in all cases the commissioner has all the powers granted therein.

26618. Every order, decision, license, or other official act of the commissioner is subject to judicial review in accordance with law.

Article 2. Penalties

26653. Any person including the several members, officers, directors, agents, and employees of licensees, who willfully violates or participates in the violation of any provision of the rules, orders, and regulations of the commissioner, or the provisions of this division is guilty of a misdemeanor.

CHAPTER 1083

An act to amend Sections 11342, 11346.4, and 11346.7 of, and to add Section 11346.53 to the Government Code, relating to administrative regulations.

[Approved by Governor September 14, 1982. Filed with Secretary of State September 15, 1982.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature finds and declares that:

(1) Laws and regulations designed for application to large scale entities have been applied uniformly to small businesses even though the problems that gave rise to government action may not have been caused by those smaller businesses.

(2) Uniform state regulatory and reporting requirements have in numerous instances imposed unnecessary and disproportionately burdensome demands, including legal, accounting and consulting costs, upon small businesses with limited resources.

(3) The practice of treating all regulated businesses as equivalents may lead to inefficient use of regulatory agency resources, enforcement problems, and, in some cases, to actions inconsistent with health, safety, environmental and economic welfare legislation enacted by the Legislature.

(4) Alternative regulatory approaches which do not conflict with the stated objectives of applicable statutes may be available which minimize the significant economic impact of rules upon small businesses.

(5) Therefore, it is the purpose of this act, which shall be known as the Small Business Regulatory Flexibility Act, to establish a principle of regulatory practice whereby agencies shall endeavor, consistent with the objectives of the regulation and of applicable statutes, to fit regulatory and informational requirements to the scale of the businesses subject to regulation.

(6) It is also the intent of the Legislature that the duties and

If the adoption, amendment, or repeal of a regulation proposed in such notice is not completed and transmitted to the office within such period of one year, a notice of the proposed action shall again be issued pursuant to the provisions of this article.

Once the adoption, amendment, or repeal is completed and approved by the office, no further adoption, amendment or repeal to the noticed regulation shall be made without subsequent notice being given.

The office may refuse to publish a notice submitted to it if the agency has failed to comply with the provisions of this article.

The Office of Administrative Law shall make the California Administrative Notice Register available to the public and state

SEC. 4. Section 11346.53 is added to the Government Code, to read:

Submissions may include the following considerations:

"(A) The establishment of differing compliance or reporting requirements or timetables which take into account the resources available to small businesses.

"(B) Consolidation or simplification of compliance and reporting requirements for small businesses.

"(C) The use of performance standards rather than design standards.

"(D) Exemption or partial exemption from the regulatory requirements for small businesses."

(b) If a state agency in adopting or amending any administrative regulation determines that such action will not have a significant adverse economic impact on small business, it shall make such a declaration in the notice of proposed action.

(c) An agency's determination and declaration that a proposed regulation may have or will not have a significant, adverse impact on small businesses shall not be grounds for the office to refuse to publish the notice of proposed action.

SEC. 5. Section 11346.7 of the Government Code, as amended by Chapter 327 of the Statutes of 1982, is amended to read:

11346.7. Every agency subject to the provisions of this chapter shall:

(4) A description of any alternatives the agency has identified that would lessen any adverse impact on small businesses. It is not the intent of this subdivision to require the agency to artificially construct alternatives or to justify why it has not identified alternatives.

(b) Prepare and submit to the office with the adopted regulation a final statement of reasons which shall include all of the following:

(1) An update of the information contained in the initial statement of reasons.

(2) A determination as to whether the regulation imposes a mandate on local agencies or school districts. If the determination is that the regulation does contain a local mandate, the agency shall state whether the mandate is reimbursable pursuant to Section 2231 of the Revenue and Taxation Code. If the agency finds that the mandate is not reimbursable it shall state the reasons for that finding.

(3) A summary of each objection or comment made regarding the regulation, together with an explanation of how the proposed regulation has been amended to accommodate each objection or comment, or the reasons for rejecting each objection or comment.

(4) An explanation setting forth the reasons for rejecting any proposed alternatives that would lessen the adverse economic impact on small businesses.

(c) Prepare and submit to the office with the adopted regulation an updated informative digest containing a clear and concise summary of the immediately preceding laws and regulations, if any, relating directly to the adopted, amended, or repealed regulation and the effect of the adopted, amended, or repealed regulation. The informative digest shall be drafted in a format similar to the Legislative Counsel's digest on legislative bills.

A state agency which adopts or amends a regulation mandated by federal law or regulations, the provisions of which are identical to a previously adopted or amended federal regulation, shall be deemed

to have complied with the provisions of this section if a statement to the effect that a federally mandated regulation or amendment to a regulation is being proposed, together with a citation to where an explanation of the provisions of the regulation can be found, is included in the notice of proposed adoption or amendment prepared pursuant to Section 11346.5. However, the agency shall comply fully with the provisions of this chapter with respect to any provisions in the regulation which the agency proposes to adopt or amend which are different from the corresponding provisions of the federal regulation.

SEC. 16. Section 654 of the Welfare and Institutions Code is repealed.

SEC. 17. Section 654 is added to the Welfare and Institutions Code, to read:

654. In any case in which a probation officer, after investigation of an application for petition or other investigation he or she is authorized or directed to make pursuant to this chapter concludes that a minor is within the jurisdiction of the juvenile court or will probably soon be within such jurisdiction, he or she may, in lieu of filing a petition to declare a minor a ward of the court under Section 601 or requesting that a petition be filed by the prosecuting attorney to declare a minor a ward of the court under Section 602 or subsequent to dismissal of a petition already filed, and with consent of the minor and the minor's parent or guardian, delineate specific programs of supervision for the minor, for not to exceed six months, and attempt thereby to adjust the situation which brings the minor within the jurisdiction of the court or creates the probability that he or she will soon be within such jurisdiction. Nothing in this section shall be construed to prevent the probation officer from filing a petition or requesting the prosecuting attorney to file a petition at any time within the six-month period. If the probation officer determines that the minor has not involved himself or herself in the specific programs within 60 days, the probation officer shall immediately file a petition or request that a petition be filed by the prosecuting attorney. However, when in the judgment of the probation officer the interest of the minor and the community can be protected, the probation officer shall make a diligent effort to proceed under this section.

The program of supervision of the minor undertaken pursuant to this section may call for the minor to obtain care and treatment for the misuse of restricted dangerous drugs or addiction to narcotics from a county mental health service or other appropriate community agency.

Further, the probation officer with the consent of the minor and the minor's parent or guardian may provide any of the following services in lieu of filing a petition:

(a) Maintain and operate sheltered-care facilities, or contract with private or public agencies to provide such services. The placement shall be limited to a maximum of 90 days. Counseling services shall be extended to the sheltered minor and his or her family during this period of diversion services. The minor and his or her parents may be required to make full or partial reimbursement for the services rendered the minor and his or her family during the diversion process. Referrals for sheltered-care diversion may be made by the minor, his or her family, schools, any law enforcement agency, or any other private or public social service agency.

(b) Maintain and operate crisis resolution homes, or contract with private or public agencies offering those services. Residence at the facilities shall be limited to 20 days during which period individual and family counseling shall be extended the minor and his or her family. Failure to resolve the crisis within the 20-day period may result in the minor's referral to a sheltered-care facility for a period not to exceed 90 days. Referrals shall be accepted from the minor, his

or her family, schools, any law enforcement agency, or any other private or public social service agency. The minor, his or her parents, or both, may be required to reimburse the county for the cost of services rendered at a rate to be determined by the county board of supervisors.

(c) Maintain and operate counseling and educational centers, or contract with private and public agencies, societies or corporations whose purpose is to provide vocational training or skills. The centers may be operated separately or in conjunction with crisis resolution homes to be operated by the probation officer. The probation officer may make referrals to the appropriate existing private or public agency offering similar services when available.

At the conclusion of the program of supervision undertaken pursuant to this section, the probation officer shall prepare and maintain a followup report of the actual program measures taken.

This section shall remain in effect only until January 1, 1985, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1985, deletes or extends that date.

SEC. 18. Section 654 is added to the Welfare and Institutions Code, to read:

654. In any case in which a probation officer, after investigation of an application for a petition or any other investigation he or she is authorized to make concludes that a minor is within the jurisdiction of the juvenile court or will probably soon be within that jurisdiction, the probation officer may, in lieu of filing a petition to declare a minor a dependent child of the court or a minor or a ward of the court under Section 601 or requesting that a petition be filed by the prosecuting attorney to declare a minor a ward of the court under Section 602 or subsequent to dismissal of a petition already filed, and with consent of the minor and the minor's parent or guardian, delineate specific programs of supervision for the minor, for not to exceed six months, and attempt thereby to adjust the situation which brings the minor within the jurisdiction of the court or creates the probability that the minor will soon be within that jurisdiction. Nothing in this section shall be construed to prevent the probation officer from filing a petition or requesting the prosecuting attorney to file a petition at any time within the six-month period. If the probation officer determines that the minor has not involved himself or herself in the specific programs within 60 days, the probation officer shall immediately file a petition or request that a petition be filed by the prosecuting attorney. However, when in the judgment of the probation officer the interest of the minor and the community can be protected, the probation officer shall make a diligent effort to proceed under this section.

The program of supervision of the minor undertaken pursuant to this section may call for the minor to obtain care and treatment for the misuse of restricted dangerous drugs or addiction to narcotics from a county mental health service or other appropriate community agency.

Further, this section shall authorize the probation officer with consent of the minor and the minor's parent or guardian to provide the following services in lieu of filing a petition:

(a) Maintain and operate sheltered-care facilities, or contract with private or public agencies to provide these services. The placement shall be limited to a maximum of 90 days. Counseling services shall be extended to the sheltered minor and his or her family during this period of diversion services. The minor and his or her parents may be required to make full or partial reimbursement for the services rendered the minor and his or her family during the diversion process. Referrals for sheltered-care diversion may be made by the minor, his or her family, schools, law enforcement or any other private or public social service agency.

(b) Maintain and operate crisis resolution homes, or contract with private or public agencies offering these services. Residence at these facilities shall be limited to 20 days during which period individual and family counseling shall be extended the minor and his or her family. Failure to resolve the crisis within the 20-day period may result in the minor's referral to a sheltered-care facility for a period not to exceed 90 days. Referrals shall be accepted from the minor, his or her family, schools, law enforcement or any other private or public social service agency. The minor, his or her parents, or both, may be required to reimburse the county for the cost of services rendered at a rate to be determined by the county board of supervisors.

(c) Maintain and operate counseling and educational centers, or contract with private and public agencies, societies, or corporations whose purpose is to provide vocational training or skills. The centers may be operated separately or in conjunction with crisis resolution homes to be operated by the probation officer. The probation officer shall be authorized to make referrals to the appropriate existing private or public agencies offering similar services when available.

At the conclusion of the program of supervision undertaken pursuant to this section, the probation officer shall prepare and maintain a followup report of the actual program measures taken.

SEC. 19. The provisions of Sections 4, 7, 10, 13, and 18 of this act shall be effective January 1, 1985.

The people of the State of California do enact as follows:

SECTION 1. Section 629.5 of the Welfare and Institutions Code is amended to read:

629.5. (a) In any case in which a minor is referred to the probation officer by a school because of an act of school violence committed prior to January 1, 1983, the probation officer shall notify the school making the referral of the status, progress, and final action on the case and shall specify the reasons for the particular action.

(b) Whenever a minor is referred to the probation officer for an act of school violence, committed on or after January 1, 1983, the probation officer shall do both of the following:

(2) Report the final disposition of the case to the principal of the school where the minor is enrolled at the time of the final disposition and to the principal of any school at which the minor enrolls during the calendar year following the final disposition of the case. When reporting the final disposition of the case, the probation officer shall specify the reasons for the disposition.

(c) A school shall destroy any report received pursuant to this section not later than two calendar years after receipt of the report. However, if the minor has committed a separate act of school violence during that two-year period, the school may retain the report for two calendar years following that act.

(1) Against any person on the grounds of any public or private elementary school, junior high school, four-year high school, senior high school, technical school, opportunity school, or regional opportunity center during the period extending from one hour before classes begin until one hour after classes end.

(B) While the victim is engaged in any school activity.

(C) While the victim is traveling to or from the school where he or she is enrolled.

(3) Against any teacher or other employee of a school with which the minor is affiliated at the time of the incident, regardless of the place or hour of the incident.

This subdivision applies to an unlawful threat to inflict an injury

upon any person if the threat is made under any of the above sets of circumstances or if the minor who makes the threat or any agent of the minor indicates that the threat is to be carried out under any of those sets of circumstances.

(e) For purposes of this section, a minor is "affiliated" with all of the following schools:

(1) Any school where he or she is enrolled, including but not limited to a school from which he or she is suspended.

(2) Any school that he or she is attending while suspended from another school.

(3) Any school from which he or she was expelled during the six months preceding the incident.

629.5. In any case in which a minor is referred to the probation officer by a school because of an act of school violence, the probation officer shall notify the school making the referral of the status, progress, and final disposition of the case and shall specify the reasons for the action taken in the matter.

SEC. 3. The provisions of Section 2 of this act shall be operative January 1, 1989.

SEC. 4. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

The people of the State of California do enact as follows:

SECTION 1. Section 725.5 is added to the Welfare and Institutions Code, to read:

725.5. In determining the judgment and order to be made in any case in which the minor is found to be a person described in Section 602, the court shall consider, in addition to other relevant and

material evidence, (1) the age of the minor, (2) the circumstances and gravity of the offense committed by the minor, and (3) the minor's previous delinquent history.

CHAPTER 1091

An act to amend Sections 626 and 652 of, and to add Section 626.5 to, the Welfare and Institutions Code, relating to juvenile court law.

[Approved by Governor September 15, 1982. Filed with Secretary of State September 16, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 626 of the Welfare and Institutions Code is amended to read:

626. If an officer who takes a minor into temporary custody under the provisions of Section 625 determines that the minor does not need to be brought to the attention of the juvenile court, he or she shall thereafter take one of the following actions:

(a) He or she may release the minor.

(b) He or she may deliver or refer the minor to a public or private agency with which the city or county has an agreement or plan to provide shelter care, counseling, or diversion services to minors so delivered.

In determining which disposition of the minor he or she will make, the officer shall prefer the alternative which least restricts the minor's freedom of movement, provided that alternative is compatible with the best interests of the minor and the community.

SEC. 2. Section 652 of the Welfare and Institutions Code is amended to read:

652. Whenever the probation officer has cause to believe that there was or is within the county, or residing therein, a person within the provisions of Section 601 or 602, the probation officer shall immediately make such investigation as he or she deems necessary to determine whether proceedings in the juvenile court should be commenced. However, this section does not require an investigation by the probation officer with respect to a minor delivered or referred to an agency pursuant to subdivision (b) of Section 626, unless that agency requests the probation officer to do so.

SEC. 3. Section 626.5 is added to the Welfare and Institutions Code, to read:

626.5. If an officer who takes a minor into temporary custody under the provisions of Section 625 determines that the minor should be brought to the attention of the juvenile court, he or she shall thereafter take one of the following actions:

(a) He or she may prepare in duplicate a written notice to appear before the probation officer of the county in which the minor was

taken in custody at a time and place specified in the notice. The notice shall also contain a concise statement of the reasons the minor was taken into custody. The officer shall deliver one copy of the notice to the minor or to a parent, guardian, or responsible relative of the minor and may require the minor or his or her parent, guardian, or relative, or both, to sign a written promise that either or both will appear at the time and place designated in the notice. Upon the execution of the promise to appear, the officer shall immediately release the minor. The officer shall, as soon as practicable, file one copy of the notice with the probation officer.

(b) He or she may take the minor without unnecessary delay before the probation officer of the county in which the minor was taken into custody, or in which the minor resides, or in which the acts took place or the circumstances exist which are alleged to bring the minor within the provisions of Section 601 or 602, and deliver the custody of the minor to the probation officer. In no case shall he or she delay the delivery of the minor to the probation officer for more than 24 hours if the minor has been taken into custody without a warrant on the belief that he or she has committed a misdemeanor.

In determining which disposition of the minor he or she will make, the officer shall prefer the alternative which least restricts the minor's freedom of movement, provided that alternative is compatible with the best interests of the minor and the community.

(3) The appropriate advisory committee did not have an adequate opportunity to review the request.

Further, for a request to waive any provision of Article 3 (commencing with Section 52160) of Chapter 7, the request did not include a written summary of objections, if any, to the request made by the bilingual advisory committee required pursuant to Section 52176.

(4) Pupil and teacher protection is jeopardized.

(c) A waiver shall be approved or renewed by the State Board for the period of time requested by the governing board of a district, but not to exceed two years.

SEC. 3. Due to the unique circumstances concerning the kindergarten program of the Pasadena Unified School District, the Legislature hereby finds and declares that a general statute cannot be made applicable within the meaning of Section 16 of Article IV of the Constitution.

[Approved by Governor September 15, 1982. Filed with Secretary of State September 16, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 13826 of the Penal Code is amended to read:

(d) On or before April 1, 1983, the executive director shall prepare and issue written program and administrative guidelines and procedures for the Gang Violence Suppression Program, consistent with this chapter. The rights and benefits provided a person in Sections 19775.5, 19775.9, 19780, and 19997.6 shall not extend to or be granted to a person, who after January 1, 1956, voluntarily requests and obtains an extension of his or her original term of enlistment, service, or tour of duty in the recognized military service of the United States.

These rights and benefits shall not extend to or be granted to a person who was on an indefinite tour of duty, or on a tour of duty in excess of four years' duration in the recognized military service as of January 1, 1956, and who continued on that duty after January 1, 1960.

These rights and benefits shall not extend to or be granted to a person who was ordered to, or enlisted in the recognized military service after January 1, 1956, for an indefinite tour of duty or for a tour of duty in excess of four years' duration and who continues on that duty for more than four years from the first day of ordered active duty or enlistment.

Whenever the State Personnel Board or the Department of Personnel Administration finds that the time limitations imposed by this section are unreasonable to a person it shall be within the discretion of the board or the department to grant an extension of the rights and benefits to an individual for not to exceed three additional years. This section, rather than Section 395.1 of the Military and Veterans Code, governs the rights and benefits of state civil service employees.

SEC. 11. Section 19785 of the Government Code is amended to read:

If the board finds that the employee is not able for any reason arising out of the military service to carry out the usual duties of the position he or she then holds, it shall order the employee placed in a position in which the board finds he or she is capable of performing the duties in the same class or a comparable class in the same or any other state department, bureau, board, commission, or office under this part and the rules of the board covering transfer of an employee from a position under the jurisdiction of one appointing power to a position under the jurisdiction of another appointing power, without the consent of the appointing powers, where a vacancy may be made available to him or her under the provisions of this part and the rules of the board, but in no event shall the transfer constitute a promotion within the meaning of this part and the rules of the board. If a layoff is made necessary to place an employee in a position in the same class or a comparable class in accordance with the provisions of this section, the layoff shall be made under the provisions of Section 19997.3, provided that no employee who was employed prior to September 16, 1940, shall be laid off as a result of the placing of an employee in the same class or a comparable class under this section.

The board may order the employee reinstated to the department, bureau, board, commission, or office from which he or she was transferred either upon request of the employee or the appointing power from which transferred. The reinstatement may be made after a hearing as provided in this section if the board finds that the employee is at the time of the hearing able to perform the duties of the position.

CHAPTER 1096

An act to amend Section 653f of the Penal Code, relating to solicitation.

[Approved by Governor September 15, 1982. Filed with Secretary of State September 16, 1982.]

(c) Every person who solicits another to commit rape by force or violence, sodomy by force or violence, oral copulation by force or violence, or any violation of Section 264.1, 288 or 289, is punishable by imprisonment in a state prison for two, three or four years.

(d) An offense charged in violation of subdivision (a), (b) or (c) must be proved by the testimony of two witnesses, or of one witness and corroborating circumstances.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1097

An act to add Section 25360 to the Government Code, and to amend Section 14101 of the Penal Code, relating to crimes.

25360. A county may establish and maintain a facility to provide security for victims of and witnesses to crimes who have been or may be subjected to threats or intimidation for the purpose of dissuading or preventing them from attending or giving testimony at any trial, proceeding, or inquiry authorized by law.

SEC. 2. Section 14101 of the Penal Code is amended to read:

14101. (a) There is hereby created in the Governor's office the California Commission on Crime Control and Violence Prevention for the purpose of studying the root causes of violence in our society.

(b) The commission shall:

(2) Sponsor and conduct public hearings, conferences and other efforts, collect and disseminate information, and issue periodic reports relating to its findings concerning the root causes of violent

behavior.

(3) Make findings, conclusions, and recommendations applicable to its relevant areas of study, as specified in Section 14102, that will assist in the prevention and detection of the root causes of violent behavior. Any such recommendation shall contain a discussion of the immediate and long-term possible impacts of each area of study, as well as specific proposals for immediate implementation, especially looking toward the development of a broader and deeper public awareness of the root causes of, and possible solutions for, crime and violence, and hopefully leading to voluntary, more responsible personal preventative action (rather than governmental mandate), but also including, but not limited to, possible legislation, departmental regulations, funding for research, and other matters of state policy and administration.

(4) Develop a program or a series of programs for immediate and long-term implementation individually and personally by the people of California that will impact upon the root causes and the incidence of violent activities. Such programs shall focus upon preventing the development of the causes of violence and the rehabilitation of individuals, and shall contain recommendations for the effective dissemination and implementation of such programs in the major social, political, economic, and geographic centers of our state, including but not limited to, the home, the schools, and the work place.

(7) Apply to the federal government or any agency thereof, and to any other source or agency, whether public or private, for a gift or grant of funds, up to five hundred thousand dollars ($500,000), for any of the purposes of this title. The commission may also establish a separate nonprofit public benefit corporation to accept funds for the purposes of this title and to implement the commission's findings and recommendations.

(c) The commission shall consist of 25 members, who shall be broadly reflective of the general public, including ethnic minorities, women, and persons from varying economic levels, and who shall consult with the Attorney General, the Director of Social Services, and the Superintendent of Public Instruction.

The membership of the commission shall include the Attorney General or a designee, the Secretary of the Health and Welfare Agency or a designee, and the Superintendent of Public Instruction or a designee. In addition, the Attorney General shall appoint one other citizen member. Three citizen members shall be appointed by each of the following: the Senate Rules Committee, the Speaker of the Assembly, and the Judicial Council. The League of California

Cities and the County Supervisors Association of California shall each provide a list of five names to the Governor, who shall appoint two commission members from each list. In addition, the Governor shall appoint eight more commission members. Each appointing authority shall make the required appointments within 30 days of the effective date of this title.

In the event of a resignation, the inability of a member to continue service, or other vacancy, a new member shall be appointed to the commission by the original appointing authority in accordance with the requirements applicable to an original appointment.

The commission shall elect its chairperson and shall hire an executive director who shall employ such staff as is appropriate. The commission may delegate to an executive committee comprised of its members the responsibility of overseeing the operations of the commission. Such delegation, however, shall not release a commission member from the obligations imposed by this title. Office facilities and other in-kind services shall be provided by the Health and Welfare Agency.

In making appointments to the commission, each appointing authority shall be responsible for appointing persons from different backgrounds, abilities, interests, and opinions to create a balanced commission, reflective of the areas to be studied by the commission. The Governor or a designee shall call the first meeting of the commission within 45 days of the effective date of this title.

Commissioners shall be reimbursed for their travel and per diem expenses.

The commission shall expire March 31, 1983.

CHAPTER 1098

An act to amend Sections 136.1 and 1328 of the Penal Code, relating to intimidation of witnesses and victims.

[Approved by Governor September 15, 1982 Filed with Secretary of State September 16, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 136.1 of the Penal Code is amended to read:

136.1. (a) Except as provided in subdivision (c), every person who knowingly and maliciously prevents or dissuades or attempts to so prevent or dissuade any witness or victim from attending or giving testimony at any trial, proceeding, or inquiry authorized by law is

guilty of a misdemeanor.

(b) Except as provided in subdivision (c), every person who attempts to prevent or dissuade another person who has been the victim of a crime or who is witness to a crime from doing any of the following is guilty of a misdemeanor:

(1) Making any report of such victimization to any peace officer or state or local law enforcement officer or probation or parole or correctional officer or prosecuting agency or to any judge

(2) Causing a complaint, indictment, information, probation or parole violation to be sought and prosecuted, and assisting in the prosecution thereof.

(3) Arresting or causing or seeking the arrest of any person in connection with such victimization.

(c) Every person doing any of the acts described in subdivision (a) or (b) knowingly and maliciously under any one or more of the following circumstances, is guilty of a felony punishable by imprisonment in the state prison for two, three, or four years under any of the following circumstances:

(1) Where the act is accompanied by force or by an express or implied threat of force or violence, upon a witness or victim or any third person or the property of any victim, witness, or any third person.

(2) Where the act is in furtherance of a conspiracy.

(3) Where the act is committed by any person who has been convicted of any violation of this section, any predecessor law hereto or any federal statute or statute of any other state which, if the act prosecuted was committed in this state, would be a violation of this section.

(4) Where the act is committed by any person for pecuniary gain or for any other consideration acting upon the request of any other person. All parties to such a transaction are guilty of a felony.

(d) Every person attempting the commission of any act described in subdivisions (a), (b), and (c) is guilty of the offense attempted without regard to success or failure of such attempt. The fact that no person was injured physically, or in fact intimidated, shall be no defense against any prosecution under this section.

(e) Nothing in this section precludes the imposition of an enhancement for great bodily injury where the injury inflicted is significant or substantial.

(f) The use of force during the commission of any offense described in subdivision (c) shall be considered a circumstance in aggravation of the crime in imposing a term of imprisonment under subdivision (b) of Section 1170.

SEC. 2. Section 1328 of the Penal Code is amended to read:

1328. A subpoena may be served by any person, except that the defendant may not serve a subpoena in the criminal action to which he is a party, but a peace officer must serve in his county any subpoena delivered to him for service, either on the part of the people or of the defendant, and must, without delay, make a written

return of the service, subscribed by him, stating the time and place of service. The service is made by delivering a copy of the subpoena to the witness personally.

Whenever any peace officer designated in Section 830 is required as a witness before any court or magistrate in any action or proceeding in connection with a matter regarding an event or transaction which he has perceived or investigated in the course of his duties, a subpoena requiring his attendance may be served either by delivering a copy to such peace officer personally or by delivering two copies to his immediate superior or agent designated by his immediate superior to receive such service. If service is made upon the immediate superior or agent designated by the immediate superior, the immediate superior or such agent shall deliver a copy of the subpoena to the peace officer as soon as possible and in no event later than such time as will enable the peace officer to comply with the subpoena.

If the immediate superior or his designated agent upon whom service is attempted to be made knows he will be unable to deliver a copy of the subpoena to the peace officer within such time as will allow the peace officer to comply with the subpoena, such immediate superior or agent may refuse to accept service of process and is excused from any duty, liability, or penalty arising in connection with such service, upon notifying the server of such fact.

If an immediate superior or his agent is tendered service of a subpoena less than five working days prior to the date of hearing, and he is not reasonably certain he can complete the service, he may refuse acceptance.

If an immediate superior or agent upon whom service has been made, subsequently determines that he will be unable to deliver a copy of the subpoena to the peace officer within such time as will allow the peace officer to comply with the subpoena, the immediate superior or agent shall notify the server or his office or agent not less than 48 hours prior to the hearing date indicated on the subpoena, and is thereby excused from any duty, liability, or penalty arising because of his failure to deliver a copy of the subpoena to the peace officer. The server, so notified, is therewith responsible for preparing the written return of service and for notifying the originator of the subpoena if required.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1101

An act to add Sections 136.5 and 171b to the Penal Code, relating to weapons.

No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1102

An act to amend Sections 607 and 1769 of the Welfare and Institutions Code, relating to the Youth Authority.

[Approved by Governor September 15, 1982. Filed with Secretary of State September 16, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 607 of the Welfare and Institutions Code is amended to read:

control ordered pursuant to Section 1800.

SEC. 2. Section 1769 of the Welfare and Institutions Code is amended to read:

1769. CHAPTER 1103

An act to amend Section 48922 of the Education Code, to amend Section 853.6 of the Penal Code, and to amend Section 827 of, and add Section 653.1 to, the Welfare and Institutions Code, relating to crimes.

[Approved by Governor September 15, 1982. Filed with Secretary of State September 16, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 48922 of the Education Code is amended to read:

48922. When a petition is requested in juvenile court or a complaint filed in any court alleging that a minor of compulsory school attendance age or any pupil currently enrolled in a public school in a grade to and including grade 12 is a person using, selling, or possessing narcotics or other hallucinogenic drugs or substances, or for having inhaled or breathed the fumes of, or ingested any poison classified as such in Section 4160 of the Business and Professions Code, the district attorney may, within 48 hours, provide written notice to the superintendent of the school district of attendance, notwithstanding the provisions of Section 827 of the Welfare and Institutions Code, and to the pupil's parent or guardian.

SEC. 2. Section 853.6 of the Penal Code is amended to read:

853.6. (a) In any case in which a person is arrested for an offense declared to be a misdemeanor and does not demand to be taken

before a magistrate, that person may, instead of being taken before a magistrate, be released according to the procedures set forth by this chapter. If the arresting officer or his or her superior determines that the person should be released, the officer or superior shall prepare in duplicate a written notice to appear in court, containing the name and address of the person, the offense charged, and the time and place where and when the person shall appear in court. If the person is not released prior to being booked and the officer in charge of the booking or his or her superior determines that the person should be released, the officer or superior shall prepare a written notice to appear in a court.

(b) Unless waived by the person, the time specified in the notice to appear must be at least 10 days after arrest if the duplicate notice is to be filed by the officer with the magistrate.

(c) The place specified in the notice shall be the court of the magistrate before whom the person would be taken if the requirement of taking an arrested person before a magistrate were complied with, or shall be an officer authorized by that court to receive a deposit of bail.

(d) The officer shall deliver one copy of the notice to appear to the arrested person, and the arrested person, in order to secure release, shall give his or her written promise so to appear in court by signing the duplicate notice which shall be retained by the officer. Thereupon the arresting officer shall immediately release the person arrested from custody.

(e) The officer shall, as soon as practicable, file the duplicate notice, as follows:

(1) It shall be filed with the magistrate if the offense charged is an infraction.

(2) It shall be filed with the magistrate if the prosecuting attorney has previously directed the officer to do so.

(3) The duplicate notice and underlying police reports in support of the charge or charges shall be filed with the prosecuting attorney in cases other than those specified in paragraphs (1) and (2).

If the duplicate notice is filed with the prosecuting attorney, he or she, within his or her discretion, may initiate prosecution by filing the notice or a formal complaint with the magistrate specified therein within 25 days from the time of arrest. If the prosecution is not to be initiated, the prosecutor shall send notice to the person arrested at the address on the notice to appear. The failure by the prosecutor to file the notice or formal complaint within 25 days of the time of the arrest shall not bar further prosecution of the misdemeanor charged in the notice to appear; however, any further prosecution shall be preceded by a new and separate citation or an arrest warrant.

Upon the filing of the notice with the magistrate by the officer, or the filing of the notice or formal complaint by the prosecutor, the magistrate may fix the amount of bail which in his or her judgment, in accordance with the provisions of Section 1275 of the Penal Code, will be reasonable and sufficient for the appearance of the defendant

and shall indorse upon the notice a statement signed by him or her in the form set forth in Section 815a. The defendant may, prior to the date upon which he or she promised to appear in court, deposit with the magistrate the amount of bail thus set. Thereafter, at the time when the case is called for arraignment before the magistrate, if the defendant shall not appear, either in person or by counsel, the magistrate may declare the bail forfeited, and may in his or her discretion order that no further proceedings shall be had in such case, unless the defendant has been charged with violation of Section 374b or 374e of this code or of Section 11357, 11360, or 13002 of the Health and Safety Code, or a violation punishable under Section 5008.7 of the Public Resources Code, and he or she has previously been convicted of a violation of that section or punishable under that section, except in cases where the magistrate finds that undue hardship will be imposed upon the defendant by requiring him or her to appear, the magistrate may declare the bail forfeited and order that no further proceedings shall be had in such case.

Upon the making of such order that no further proceedings be had, all sums deposited as bail shall forthwith be paid into the county treasury for distribution pursuant to Section 1463.

(f) No warrant shall issue on such charge for the arrest of a person who has given such a written promise to appear in court, unless and until he or she has violated that promise or has failed to deposit bail, to appear for arraignment, trial or judgment, or to comply with the terms and provisions of the judgment, as required by law.

(g) The officer shall indicate on the notice to appear whether he or she desires the arrested person to be booked as defined in subdivision 21 of Section 7. In such event, the magistrate shall, before the proceedings are finally concluded, order the defendant to be booked by the arresting agency.

(h) A peace officer may use the written notice to appear procedure set forth in this section for any misdemeanor offense in which the officer has arrested a person pursuant to Section 836 or in which he or she has taken custody of a person pursuant to Section 847.

(i) If the arrested person is not released pursuant to the provisions of this chapter prior to being booked by the arresting agency, then at the time of booking the arresting officer, the officer in charge of such booking or his or her superior officer, or any other person designated by a city or county for this purpose shall make an immediate investigation into the background of the person to determine whether he or she should be released pursuant to the provisions of this chapter. Such investigation shall include, but need not be limited to, the person's name, address, length of residence at that address, length of residence within this state, marital and family status, employment, length of that employment, prior arrest record, and such other facts relating to the person's arrest which would bear on the question of his or her release pursuant to the provisions of this chapter.

(j) Whenever any person is arrested by a peace officer for a misdemeanor, other than an offense described in subdivision (b) of Section 11357 or subdivision (c) of Section 11360 of the Health and Safety Code, and is not released with a written notice to appear in court pursuant to this chapter, the arresting officer shall indicate, on a form to be established by his or her employing law enforcement agency, which of the following was a reason for such nonrelease:

(1) The person arrested was so intoxicated that he or she could have been a danger to himself or herself or to others.

(2) The person arrested required medical examination or medical care or was otherwise unable to care for his or her own safety.

(3) The person was arrested for one or more of the offenses listed in Section 40302 of the Vehicle Code.

(4) There were one or more outstanding arrest warrants for the person.

(5) The person could not provide satisfactory evidence of personal identification.

(6) The prosecution of the offense or offenses for which the person was arrested or the prosecution of any other offense or offenses would be jeopardized by immediate release of the person arrested.

(7) There was a reasonable likelihood that the offense or offenses would continue or resume, or that the safety of persons or property would be imminently endangered by release of the person arrested.

(8) The person arrested demanded to be taken before a magistrate or refused to sign the notice to appear.

(9) Any other reason, which shall be specifically stated on the form by the arresting officer.

The form shall be filed with the arresting agency as soon as practicable and shall be made available to any party having custody of the arrested person, subsequent to the arresting officer, and to any person authorized by law to release him or her for custody before trial.

SEC. 3. Section 653.1 is added to the Welfare and Institutions Code, to read:

653.1. Notwithstanding the provisions of Section 653, in the case of an affidavit alleging that the minor committed an offense described in Section 602, the probation officer shall cause the affidavit to be immediately taken to the prosecuting attorney if it appears to the probation officer that the minor has been referred to the probation officer for any violation of an offense listed in subdivision (b) of Section 707 and that offense was allegedly committed when the minor was 16 years of age or older. If the prosecuting attorney decides not to file a petition, he or she may return the affidavit to the probation officer for any other appropriate action.

SEC. 4. Section 827 of the Welfare and Institutions Code is amended to read:

827. (a) Except as provided in Section 828, a petition filed in any

juvenile court proceeding, reports of the probation officer, and all other documents filed in any such case or made available to the probation officer in making his report, or to the judge, referee or other hearing officer, and thereafter retained by the probation officer, judge, referee, or other hearing officer, may be inspected only by court personnel, the minor who is the subject of the proceeding, his parents or guardian, the attorneys for such parties, and such other persons as may be designated by court order of the judge of the juvenile court upon filing a petition therefor.

(b) Notwithstanding subdivision (a), written notice of the filing of a petition in juvenile court, alleging that a minor of compulsory school age is a person using, selling, or possessing narcotics or a controlled substance, may be provided by the district attorney, within 48 hours, to the superintendent of the school district of attendance, pursuant to Section 48922 of the Education Code. The district attorney need not obtain a court order prior to providing this notice to the superintendent.

(b) Any offense set forth in subdivision (a) of this section which is accomplished by force or violence is punishable by imprisonment in the state prison for a term of two, four, or six years. The need to protect society, the nature and seriousness of the offense, the interests of justice, the suitability of the minor to the training and treatment offered by the Youth Authority, and the needs of the minor shall be the primary considerations in the court's determination of the appropriate disposition for the minor.

CHAPTER 1106

An act to add Chapter 2.5 (commencing with Section 17300) to Division 6 of the Financial Code, relating to escrow agents.

When Guaranty Corporation commences operations, its members in good standing shall not be subject to Section 17203.1.

17312. Each person licensed pursuant to the provisions of this division shall participate as a member in Guaranty Corporation in accordance with this chapter and rules to be established by the board of directors of Guaranty Corporation.

17314. Upon voluntary surrender of a member's license or branch licenses, and with the written consent of the commissioner, the membership fee paid to Guaranty Corporation applicable to the surrendered license shall be refunded, provided that no claims pursuant to Section 17330 have been filed by the member against the guaranty fund, the commissioner has not commenced an investigation against the member with respect to potential liability on the part of Guaranty Corporation, and two years and one day has passed since the surrender of the member's license or branch licenses. A refund of the membership fee upon voluntary surrender of the membership shall be subject to the same requirements as the voluntary surrender of the member's license.

(b) If by April 15 of the first full year after organization and establishment of Guaranty Corporation, the guaranty fund does not contain an amount (excluding any unpaid demand made pursuant to Section 17330) equal to one million three hundred fifty thousand dollars ($1,350,000) plus the premium amount for the bond required by Section 17314, then each member shall be assessed an amount equal to the ratio of the member's average liability for trust obligations as reflected in the most recent report required by Section 17348 to the amount deficient in the guaranty fund. The assessment shall be levied on each member no later than May 1 pursuant to Section 17310.

(c) If by April 15 of the second full year after organization and establishment of Guaranty Corporation, the guaranty fund does not contain an amount (excluding any unpaid demand made pursuant to Section 17330) equal to two million twenty-five thousand dollars ($2,025,000) plus the premium amount for the bond required by Section 17314, then each member shall be assessed the amount of deficiency as set forth in subdivision (b).

(d) If by April 15 of the third full year after organization and establishment of the Guaranty Corporation, the guaranty fund does

not contain an amount (excluding any unpaid demand made pursuant to Section 17330) equal to 1 percent of the members' average liability for trust obligations, then each member shall be assessed the amount of deficiency as set forth in subdivision (b).

(e) In the event the amount in the guaranty fund equals 2 percent or more of the total average trust obligations for all members as reflected in the most recent report required by Section 17348, Guaranty Corporation may remit to each member any amount in the guaranty fund in excess of 1½ percent of the total average trust obligations for all members. The amount which may be remitted to each member shall be an amount equal to the ratio of the member's most recent assessment to the total amount to be remitted. If a member has not paid any assessment or has not paid the full amount of any assessment, the amount of remittance shall first be applied to pay the member's unpaid assessment liability.

(f) The membership fee shall be considered a tangible asset of the member in all financial statements.

(g) After the third full year of operation of Guaranty Corporation, the amount in the guaranty fund shall at all times be equal to 1 percent of the total average trust obligations as reported to the commissioner pursuant to Section 17348. Guaranty Corporation shall immediately levy an assessment, as set forth in subdivision (b), on each member should the guaranty fund fall below the required amount.

17321. Guaranty Corporation shall send a written notice of assessment to each member assessed within 15 days after the levy of any assessment. Amounts assessed shall be paid to Guaranty Corporation by each member assessed not later than 90 days following written notice of assessment.

17322. A report of each levy of assessment shall be made to the commissioner within 10 days after the levy.

17323. In the event any member fails to pay an assessment when due, Guaranty Corporation shall report the default in writing to the commissioner within 24 hours of the default, and shall within 30 days after default bring an action in law or in equity to enforce payment. If Guaranty Corporation does not bring such an action within the time specified, the commissioner may bring an action in law or in equity to enforce such payment.

Article 4. General Provisions

17330. Any member who suffers a loss of trust obligations due to embezzlement, theft, or mysterious disappearance may file a claim with Guaranty Corporation for the amount of the loss.

17331. Guaranty Corporation shall not, in any one calendar year, be required to pay any claims that exceed in the aggregate the total in the fund after allowance for all amounts to be added to the member's account during the year by assessment as provided in this chapter. With the written consent of the commissioner, Guaranty

Corporation shall have the authority to borrow against future assessments to pay claims which exceed in the aggregate the total amount in the fund.

Whenever the commissioner has taken possession of the property and business of Guaranty Corporation, Guaranty Corporation within 10 days after the taking, if it deems itself aggrieved thereby, may apply to the superior court in the county in which the head office of Guaranty Corporation is located to enjoin further proceedings. The court, after citing the commissioner to show cause why further proceedings should not be enjoined, and after a hearing and a determination of the facts upon the merits, may dismiss the application or enjoin the commissioner from further proceedings and direct the commissioner to surrender the property and business to Guaranty Corporation, or make a further order as may be just.

17335. An appeal may be taken from the judgment of the court by the commissioner or by Guaranty Corporation in the manner provided by law for appeals from the judgment of a superior court. An appeal from the judgment of the court does not operate as a stay of the judgment unless the court, on good cause, so orders. No bond need be given if the appeal is taken by the commissioner, but if the appeal is taken by Guaranty Corporation a bond shall be given as required by Sections 917.2 and 917.5 of the Code of Civil Procedure as a condition to any stay.

(e) For the purposes of conducting an examination or investigation, Guaranty Corporation or its appointee shall have free access to the offices and places of business, books, accounts, papers, records, files, safes and vaults of the member.

(f) Costs and expenses for such examination or investigation shall be paid by Guaranty Corporation.

(g) Guaranty Corporation, any member of Guaranty Corporation, an agent of Guaranty Corporation or of its members, or any person who uses any information obtained under this section for any purpose not authorized herein is guilty of a misdemeanor.

Upon request of the commissioner, Guaranty Corporation shall furnish an authorization for disclosure to the commissioner of financial records of funds pursuant to Section 7473 of the Government Code.

17338. Income from investments shall be recorded in an income account and be used to defray expenses of administration. Income from investments that exceeds an amount determined by the board of directors to be adequate to provide for current expenses may be credited to members' accounts. Each member's account shall receive credit ratably based on the account balance, for the amount of the excess. 17343. No provision of the Insurance Code shall apply to Guaranty Corporation.

17344. The operation of Guaranty Corporation shall at all times be subject to the regulation of the commissioner and the commissioner's duly designated representatives. The commissioner and the commissioner's duly designated representatives may at any time investigate the affairs and examine the books, accounts, records, and files used by Guaranty Corporation. The commissioner and the commissioner's duly designated representatives shall have free access to the offices, books, accounts, papers, records, files, safes, and vaults of Guaranty Corporation.

The commissioner may institute an action for the recovery of costs and expenses incurred in the administration of this chapter in any court of competent jurisdiction.

CHAPTER 1107

An act to amend Section 1242.7 of the Business and Professions Code, and to amend Section 1250.3 of the Health and Safety Code, relating to health services, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 16, 1982. Filed with Secretary of State September 17, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 1242.7 of the Business and Professions Code is amended to read:

1242.7. (a) The State Department of Health Services shall, within six months after the effective date of this section, adopt rules and regulations prescribing minimum training standards for persons employed as hemodialysis technicians.

(b) Each dialysis clinic or dialysis unit within a licensed clinic or hospital, as defined respectively in Sections 1204 and 1250 of the Health and Safety Code, or any person operating or using dialysis equipment, other than a dialysis patient, shall have available to the department for review and approval, its training program and test for hemodialysis technicians. The test shall be administered by personnel performing the training at each dialysis clinic or dialysis unit and shall include written, oral and practical examinations designed to accurately test the proficiency of personnel in training on the type of dialyzer and equipment utilized at the dialysis clinic or dialysis unit. Six months after the adoption of rules and regulations

pursuant to subdivision (a), those dialysis clinics or dialysis units without an approved training program and test shall not be permitted to train personnel until they submit and receive approval for a training program and test by the department. A training program and test which is neither approved nor rejected by the department within 30 days after submission shall be deemed to be approved. In the case of persons employed as hemodialysis technicians on the effective date of this section, the test shall be taken and passed within one year of the effective date of this section or their employment shall be terminated. Any person employed as a hemodialysis technician on the effective date of this section may perform venipuncture and arterial puncture for the purpose of providing dialysis treatment for a patient as defined by regulations of the department.

(c) Personnel in training shall be classified as dialysis technician trainees and shall be immediately supervised by a licensed physician and surgeon or by a licensed registered nurse whenever the trainee is involved in direct patient care prior to passing the test. Persons employed as hemodialysis technicians on the effective date of the act amending this section during the second year of the 1981–82 Regular Session of the Legislature who have taken and been notified of their failure to successfully complete the approved test shall be reclassified as dialysis technician trainees. These persons shall be immediately supervised by a licensed physician and surgeon or by a licensed registered nurse whenever involved in direct patient care, and shall be required to successfully complete the approved test within six months after taking their first test or their employment shall be terminated.

(d) Each dialysis unit shall make available to the department the names of individuals employed by them as dialysis technicians and evidence that those persons have completed the approved training and successfully passed the approved test. Evidence of completion of the training program and passage of the prescribed test shall include the particular type of dialyzer and equipment upon which the individual was trained and tested and shall be a part of the individual's personnel records.

(e) The department may revoke or suspend the license of any dialysis clinic or unit or any licensed clinic or hospital for any violation of any provision of this section.

(f) For the purposes of this section, the following terms shall have the following meanings:

(1) "Hemodialysis technician" means an unlicensed health care provider who is employed by a hemodialysis clinic or unit for the purpose of participating in the direct treatment of patients undergoing hemodialysis. The treatment of patients includes performing venipuncture and arterial puncture for the purpose of providing dialysis treatment for a patient, as defined by regulations of the department.

(2) "Immediate supervision" means supervision of dialysis

treatment in the same room in which the dialysis treatment is being performed.

SEC. 2. Section 1250.3 of the Health and Safety Code is amended to read:

1250.3. (a) As defined in Section 1250, "health facility" includes the following type: "Chemical dependency recovery hospital" means a health facility which provides 24-hour inpatient care for persons who have a dependency on alcohol or other drugs, or both alcohol and other drugs. Such care shall include, but not be limited to, the following basic services: patient counseling, group therapy, physical conditioning, family therapy, outpatient services, and dietetic services. Each facility shall have a medical director who is a physician and surgeon licensed to practice in this state.

(b) The Legislature finds and declares that problems related to the inappropriate use of alcohol or other drugs, or both alcohol and other drugs are widespread and adversely affect the general welfare of the people of the State of California. It is the intent of the Legislature that the chemical dependency recovery hospital will provide an innovative inpatient treatment program for persons who have a dependency on alcohol or drugs, or both alcohol and other drugs. The Legislature further finds and declares that significant cost reductions can be achieved by chemical dependency recovery hospitals when both of the following conditions exist:

(1) Architectural requirements established by the state department encourage a flexible and open construction approach which significantly reduce capital construction costs.

(2) Programs are designed to provide comprehensive inpatient treatment yet permit substantial flexibility in the use of qualified personnel to meet the specific needs of the patients of the facility.

(c) Beds classified as chemical dependency recovery beds in a general acute care hospital or acute psychiatric hospital or a freestanding facility which is owned or leased by the general acute care hospital or the acute psychiatric hospital and which is located on the same premises or adjacent premises thereof, not to exceed a 15-mile radius within the same health facility planning area, as defined January 1, 1981, by the Office of Statewide Health Planning and Development and is under the administrative control of the general acute care hospital or the acute psychiatric hospital, shall be used exclusively for alcohol or other drug dependency treatment, or both alcohol and other drug dependency treatment. No general acute care hospital or acute psychiatric hospital or a freestanding facility, as defined in this subdivision, shall, without fulfilling the requirements of the licensing laws and health planning laws, convert beds classified as chemical dependency recovery beds to any other bed classification or provide new chemical dependency recovery beds by increasing bed capacity.

(d) Chemical dependency recovery services may be provided as a supplemental service in existing general acute care beds and acute psychiatric beds in a general acute care hospital or in existing acute

psychiatric beds in an acute psychiatric hospital or in existing beds in a freestanding facility, as defined in subdivision (c). When providing chemical dependency recovery services as a supplemental service, the general acute care hospital, acute psychiatric hospital, or freestanding facility, as defined in subdivision (c), shall provide the supplemental services in a distinct part of the hospital or freestanding facility, provided that the distinct part satisfies the criteria established by law and regulation for approval as a chemical dependency recovery supplemental service. A distinct part means an identifiable unit of a hospital or a freestanding facility, as defined in subdivision (c), accommodating beds, and related services, including, but not limited to, contiguous rooms, a wing, a floor or a building that is approved by the State Department of Health Services for a specific purpose. Notwithstanding any other provisions of this subdivision, an acute psychiatric hospital which provides all of the basic services specified in subdivison (b) of Section 1250 may, subject to the approval of the state department, have all of its licensed acute psychiatric beds approved for chemical dependency recovery services. Chemical dependency recovery services provided under this subdivision shall not require a separate license or reclassification of beds under the health planning laws.

(e) If the chemical dependency recovery hospital is not a supplemental service of a general acute care hospital, it shall have agreements with one or more general acute care hospitals providing for 24-hour emergency service and pharmacy, laboratory, and such other services as the state department may require.

(f) Any reference in any statute to Section 1250 shall be deemed and construed to also be a reference to this section.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Existing law prohibits a dialysis clinic or dialysis unit from training hemodialysis technicians until it submits and receives approval for a training program and test which is in conformance with regulations prescribing minimum training standards for persons employed as hemodialysis technicians required to be adopted by the State Department of Health Services by July 1, 1982. In addition, persons employed as hemodialysis technicians face the termination of their employment unless they take and pass, before January 1, 1983, a test which is in conformance with these same regulations. The State Department of Health Services has not yet adopted these regulations. In order to protect patients undergoing hemodialysis, hemodialysis technicians, dialysis clinics, and dialysis units from undue injury because of the failure of the State Department of Health Services to adopt these regulations, and to require the department to grant approval of acute psychiatric beds in acute psychiatric hospitals for chemical dependency recovery services at the earliest possible time, it is necessary that this act go into

immediate effect.

CHAPTER 1108

An act to amend, repeal, and add Section 65858 of the Government Code, relating to local agencies.

[Approved by Governor September 16, 1982 Filed with Secretary of State September 17, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 65858 of the Government Code is amended to read:

65858. (a) Without following the procedures otherwise required preliminary to the adoption of a zoning ordinance, the legislative body, to protect the public safety, health and welfare, may adopt as an urgency measure an interim ordinance prohibiting any uses which may be in conflict with a contemplated zoning proposal which the legislative body, planning commission or the planning department is considering or studying or intends to study within a reasonable time. Such urgency measure shall require a four-fifths vote of the legislative body for adoption. Such interim ordinance shall be of no further force and effect 45 days from its date of adoption. After notice pursuant to Section 65856 and public hearing, the legislative body may extend such interim ordinance for 10 months and 15 days and subsequently extend such interim ordinance for one year. Any such extension shall also require a four-fifths vote for adoption. Not more than the two such extensions may be adopted.

(b) Alternatively, an interim ordinance may be adopted by a four-fifths vote following notice pursuant to Section 65856 and public hearing, in which case it shall be of no further force and effect 45 days from its date of adoption. After notice pursuant to Section 65856 and public hearing, the legislative body may by a four-fifths vote extend such interim ordinance for 22 months and 15 days.

(c) The legislative body shall not adopt or extend any interim ordinance pursuant to this section unless the ordinance contains a finding that there is a current and immediate threat to the public health, safety, or welfare, and that the approval of additional subdivisions, rezonings, land use permits, variances, building permits, or any other applicable entitlement for use which is required in order to comply with a zoning ordinance would result in a threat to public health, safety, or welfare.

(d) Ten days prior to the expiration of an interim ordinance or any extension, the legislative body shall issue a written report describing the measures taken to alleviate the condition which led to the adoption of the ordinance.

(e) When any such interim ordinance has been adopted, every

subsequent ordinance adopted pursuant to this section, covering the whole or a part of the same property, shall automatically terminate and be of no further force or effect upon the termination of the first such ordinance or any extension thereof as herein provided.

This section shall remain in effect only until January 1, 1989, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends such date.

SEC. 2. Section 65858 is added to the Government Code, to read:

65858. Without following the procedures otherwise required preliminary to the adoption of a zoning ordinance, the legislative body, to protect the public safety, health and welfare, may adopt as an urgency measure an interim ordinance prohibiting any uses which may be in conflict with a contemplated zoning proposal which the legislative body, planning commission or the planning department is considering or studying or intends to study within a reasonable time. Such urgency measure shall require a four-fifths vote of the legislative body for adoption. Such interim ordinance shall be of no further force and effect four months from its date of adoption. After notice pursuant to Section 65856 and public hearing, the legislative body may extend such interim ordinance for eight months and subsequently extend such interim ordinance for one year. Any such extension shall also require a four-fifths vote for adoption. Not more than the two such extensions may be adopted. Alternatively, an interim ordinance may be adopted by a four-fifths vote following notice pursuant to Section 65856 and public hearing, in which case it shall be of no further force and effect one year from its date of adoption. After notice pursuant to Section 65856 and public hearing, the legislative body may by a four-fifths vote extend such interim ordinance for one year. When any such interim ordinance has been adopted, every subsequent ordinance adopted pursuant to this section, covering the whole or a part of the same property, shall automatically terminate and be of no further force or effect upon the termination of the first such ordinance or any extension thereof as herein provided.

This section shall become operative January 1, 1989.

SEC. 3. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

CHAPTER 1109

An act to add Section 19802.5 to the Government Code, relating to merit system requirements.

[Approved by Governor September 16, 1982. Filed with Secretary of State September 17, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 19802.5 is added to the Government Code, to read:

19802.5. Notwithstanding the provisions of Sections 19801 and 19803, and after the State Personnel Board approves the memorandum of understanding standards, the State Personnel Board may waive administration of all or part of a local agency merit system where administration of merit system standards, including, but not limited to, certification, appointment and other transactions, layoff and reinstatement, position classifications, compensation standards, and disciplinary action are established pursuant to a legally binding memorandum of understanding negotiated between the local agency governing board and an employee organization recognized pursuant to applicable law representing employees engaged in federally supported programs under Section 19800. Upon request of the local agency governing board and the recognized employee organization, such waivers shall be granted on any or all standards following determination by the State Personnel Board that the provisions of the memorandum of understanding maintain merit system standards to the extent necessary to qualify for federal funds. All merit system standards waivers shall be subject to periodic audit, approval, or revocation by the State Personnel Board. Upon revocation of a waiver, the State Personnel Board may require any additional information as a condition of waiver reinstatement.

CHAPTER 1110

The people of the State of California do enact as follows:

SECTION 1. Section 4949 is added to the Business and Professions Code, to read:

4949. The provisions of this chapter shall not prohibit an

acupuncturist from another state or country, who is not a certified acupuncturist in this state, who is the invited guest of a professional acupuncture association or scientific acupuncture foundation, or an acupuncture training program which is approved under Section 4939, solely from engaging in professional education through lectures, clinics, or demonstrations. The guest acupuncturist may engage in the practice of acupuncture in conjunction with these lectures, clinics, or demonstrations for a maximum of six months, but may not open an office or appoint a place to meet patients or receive calls from patients or otherwise engage in the practice of acupuncture.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that master acupuncturists from other countries and states may lecture and demonstrate techniques in this state in the fall, it is necessary that this act take effect immediately.

CHAPTER 1112

An act to add Article 2.4 (commencing with Section 283) to Chapter 2 of Division 1 of Part 1 of the Health and Safety Code, relating to health.

The people of the State of California do enact as follows:

SECTION 1. Article 2.4 (commencing with Section 283) is added to Chapter 2 of Division 1 of Part 1 of the Health and Safety Code, to read:

Article 2.4. Community-Based Perinatal System

283.5. It is the intent of the Legislature in enacting this article to maintain, to the extent resources are available, a permanent statewide community-based comprehensive perinatal system to provide care and services to low-income pregnant women and their infants who are considered underserved in terms of comprehensive perinatal care.

It is also the intent of the Legislature that the statewide, community-based, comprehensive perinatal health care program be developed by the State Department of Health Services to conform with the guidelines set forth in this article, and be integrated and coordinated with the perinatal access program in Article 2.5 (commencing with Section 288).

It is further the intent of the Legislature that these guidelines allow each applicant the flexibility to design a system specific to the nature of the community and the needs of the clients.

It is further the intent of the Legislature that the Director of Health Services, in allocating funds available for programs which provide comprehensive perinatal care, follow the guidelines and principles developed in this article.

284. The following definitions shall govern the construction of this article:

(a) "Community-based comprehensive perinatal care" means a range of prenatal, delivery, postpartum, infant, and pediatric care services delivered in an urban community or neighborhood, rural area, city or county clinic, city or county health department, freestanding birth center, or other health care provider facility by health care practitioners trained in methods of preventing complications and problems during and after pregnancy, and in methods of educating pregnant women of these preventive measures, and who provide a continuous range of services. The health care practitioners shall, through a system of established linkages to other levels of care in the community, consult with, and, when appropriate, refer to, specialists.

(b) "Low income" means all persons of childbearing age eligible for Medi-Cal benefits under Chapter 7 (commencing with Section 14000) and all persons eligible for public social services for which federal reimbursement is available, including potential recipients. "Potential recipients" shall include the pregnant woman and her infant in a family where current social, economic and health conditions of the family indicate that the family would likely become a recipient of financial assistance within the next five years.

(c) "Prenatal care" means care received from conception until the completion of labor and delivery.

(d) "Perinatal care" means care received from the time of conception through the first year after birth.

These contracts, grants, or agreements shall be made in medically underserved areas or areas with demonstrated need.

Nothing in this section shall be construed to prevent reallocation of resources or use of new moneys for the development of new community-based comprehensive perinatal systems in underserved areas or areas with demonstrated need, and supplementation of systems already in existence.

285.5. (a) The state department shall seek any federal waiver or waivers that may be necessary to maximize funds from the federal government including, but not limited to, funds provided under Title 19 of the Social Security Act to provide funds for a full range of preventive perinatal services.

(b) The state department shall, in preparing its budget for submission each year, coordinate all funding sources intended primarily for perinatal care made available through the Budget Act to maximize the delivery of perinatal care services and to avoid duplication of programs and funding.

(c) The state department shall develop and implement a uniform sliding fee schedule for women provided perinatal care through the perinatal care services program. The fee schedule shall be based on family size and income, but in no case shall the fee exceed the actual cost of the services provided. The department shall not implement any schedule developed pursuant to this section sooner than 30 days after the state department has provided the chairperson of the Joint Legislative Budget Committee and the chairperson of the fiscal committee of each house with the developed schedule.

All free clinics, as defined in paragraph (2) of subdivision (a) of Section 1204 shall be exempt from the provisions of this subdivision.

285.7. The state department shall monitor the delivery of services under contracts, grants, and agreements provided for in this article

through a uniform health data collection system which utilizes epidemiologic methodology. The department may collect data from providers receiving funds through this program as necessary to evaluate program effectiveness.

285.9. The goals of the community-based comprehensive perinatal health care system shall be:

(a) To decrease and maintain the decreased level of perinatal, maternal, and infant mortality and morbidity in the State of California.

(b) To support methods of providing comprehensive prenatal care which prevent prematurity and the incidence of low birth weight infants.

286. The program objectives of the community-based comprehensive perinatal health care system shall be the following:

(a) To ensure continuing availability and accessibility to early prenatal care within the areas presently served and to develop a community-based comprehensive perinatal system in other areas of the state that are medically underserved or have demonstrated need.

(b) To assure the appropriate level of maternal, newborn and pediatric care services necessary to provide the healthiest outcome for mother and infant.

(c) To ensure postpartum, family planning, and followup care through the first year of life, and referral to an ongoing primary health care provider.

(d) To include support and ancillary services such as nutrition, health education, public health nursing, and social work which have been demonstrated to decrease maternal, perinatal, and infant mortality and morbidity, as components of comprehensive perinatal care.

(e) To ensure that care shall be available regardless of the patient's financial situation.

(f) To ensure, to the extent possible, that the same quality of care shall be available to all pregnant women.

(g) To promote program flexibility by recognizing the needs within an area and providing for unique programs to meet those needs.

(h) To emphasize preventive health care as a major component of any perinatal program, and to support outreach programs directed at low-income pregnant women which will encourage early entry into, and appropriate utilization of, the perinatal health care system.

286.5. In processing and awarding contracts, grants, or agreements pursuant to this article, the State Department of Health Services shall evaluate the ability of applicants to meet, to the maximum extent possible, the following criteria:

(a) The applicant's prior experience in providing community-based, comprehensive perinatal care and services to low-income women and infants.

(b) The applicant's ability to provide comprehensive perinatal care, either directly or through subcontract. Those services

(d) Whether the area which is, or which will be, serviced by the applicant is medically underserved or has otherwise demonstrated the need for comprehensive, community-based perinatal services.

(e) The applicant's ability to use an appropriate multidisciplinary staff working as a team, in consultation with obstetricians, pediatricians, and family practitioners when appropriate, to provide a full range of comprehensive perinatal care services. Staffing patterns shall reflect, to the maximum extent feasible, at all levels, the cultural, linguistic, ethnic, and other social characteristics of the community served. This staff shall include at least one of those persons described in paragraphs (1) to (3), inclusive, of this subdivision, as follows, and may include, but not be limited to, a combination of those persons described in paragraphs (4) to (10), inclusive, of this subdivision, as follows:

(1) Coordinate specific linkages with one another.

(2) Subcontract the services specified in this article.

(3) Provide additional services not specifically listed in this article.

These additional services shall include, but shall not be limited to the Women, Infants, and Children (WIC) food supplement program, services offered by local health departments, and public and private social welfare agencies. Nothing contained in this article shall be construed to prohibit a subcontractor from being reimbursed pursuant to a fee for service, capitation, or other payment mechanism.

(b) All services and educational materials shall be provided in the primary languages of the clients served, provided that there are at least 5 percent or 100 persons, whichever is less, of the total beneficiary population served annually by each facility, who share language other than English and who are limited-English speaking. "Limited-English speaking" means a person who uses a language other than English in order to communicate effectively.

(c) Health care providers applying for a contract, grant, or agreement under this article shall indicate the manner in which their service elements will be coordinated with existing community resources and services and with hospitals of all levels in the area to ensure each client receives the appropriate level or care at the appropriate time. The department may require written agreements between contractors and hospital or hospitals in the area regarding delivery services, and protocols for referral and transfer when special treatment services are required. The state department may, when requested by the grantee or contractor, assist in achieving coordination and written agreements pertaining to the delivery of these services.

287.5. The provisions contained in this article shall be subject to the normal Budget Act process and shall be operative to the extent funds are appropriated for this purpose.

(b) Any employer who violates subdivision (a) is liable to the employee affected in the amount of the wages, and interest thereon, of which the employee is deprived by reason of the violation, and in an additional equal amount as liquidated damages.

(c) The provisions of this section shall be administered and enforced by the Division of Labor Standards Enforcement. If the division finds that an employer has violated this section, it may supervise the payment of wages and interest found to be due and unpaid to employees under subdivision (a). The name of any employee who submits to the division a complaint regarding an alleged violation of subdivision (a) shall be kept confidential by the division until validity of the complaint is established by the division, or unless such confidentiality must be abridged by the division in order to investigate the complaint. The division shall take all proceedings necessary to enforce the payment of any sums found to be due and unpaid to such employees.

(f) The department or division may commence and prosecute, unless otherwise requested by the employee or affected group of employees, a civil action on behalf of the employee and on behalf of a similarly affected group of employees to recover unpaid wages and liquidated damages under subdivision (a), and in addition shall be entitled to recover costs of suit. The consent of any employee to the bringing of any such action shall constitute a waiver on the part of the employee of the employee's cause of action under subdivision (g) unless such action is dismissed without prejudice by the department or the division, except that such employee may intervene in such suit or may initiate independent action if such suit has not been determined within 180 days from the date of the filing of the complaint.

(g) Any employee receiving less than the wage to which the employee is entitled under this section may recover in a civil action the balance of such wages, including interest thereon, and an equal

amount as liquidated damages, together with the costs of the suit and reasonable attorney's fees, notwithstanding any agreement to work for a lesser wage.

(h) A civil action to recover wages under subdivision (a) may be commenced no later than two years after the cause of action occurs, except that a cause of action arising out of a willful violation may be commenced no later than three years after the cause of action occurs.

(i) If an employee recovers amounts due the employee under subdivision (b), and also files a complaint or brings an action under subdivision (d) of Section 206 of Title 29 of the United States Code which results in an additional recovery under federal law for the same violation, the employee shall return to the employer the amounts recovered under subdivision (b), or the amounts recovered under federal law, whichever is less.

SEC. 2. Section 1199 of the Labor Code is amended to read:

1199. (b) Upon the request of any county, the director shall designate cancer as a disease required to be reported in that county if the director determines that the cancer data to be compiled, and the format thereof, will be compatible for use in conjunction with cancer data compiled and used by the state department. All cancers diagnosed or treated in the county shall thereafter be reported to the

representative of the state department authorized to compile the cancer data or any individual, agency, or organization cooperating with such representative.

CHAPTER 1123

An act relating to agriculture.

[Approved by Governor September 16, 1982. Filed with Secretary of State September 17, 1982]

The people of the State of California do enact as follows:

SECTION 1. Agriculture is the number one industry in California and is continuing to grow in importance to the state, nation, and the world. The current infestation of the Mediterranean fruit fly may require that up to 200 California crops be fumigated prior to shipment. In addition, many California crops currently exported to foreign markets must be fumigated.

The most universally accepted alternative to currently registered chemical fumigants is Picowave processing or food irradiation. Safety studies on this subject have been conducted over the last 30 years.

In November 1980 the Joint Expert Committee of the Food and Agricultural Organization of the United Nations (FAO), the International Atomic Energy Agency (IAEA) and the World Health Organization (WHO) approved the irradiation of food at doses up to 1 megarad.

Further study of dosimetry and efficacy is needed before the full potential of the process can be realized.

The Legislature finds and declares that because of its potential ability to replace chemical fumigation of many of California's crops and because, in addition to disinfestation, Picowave processing can be used to extend shelf life and to sterilize foods, the commercial use of Picowave processing is consistent with the public interest.

The Legislature also finds and declares that dosimetry and efficacy studies will expedite full utilization of Picowave processing.

SEC. 2. The Department of Food and Agriculture shall engage in dosimetry and efficacy studies of Picowave processing in conjunction with the University of California, the State Department of Health Services, the Department of Industrial Relations, the United States Department of Agriculture, the United States Food and Drug Administration, and the National Bureau of Standards. These agencies are to be provided with the research criteria adopted for the studies and are to monitor the research studies in order to assure that anticipated regulatory approval of Picowave processing will be forthcoming without unnecessary delay.

CHAPTER 1124

An act to amend Sections 1502, 1530.5, and 1533 of the Health and Safety Code, relating to community care facilities.

[Approved by Governor September 16, 1982 Filed with Secretary of State September 17, 1982.]

(6) "Small family home" means any residential facility providing 24-hour care for six or fewer foster children who are mentally disordered, developmentally disabled, or physically handicapped and who require special care and supervision as a result of their disabilities.

1530.5. (a) The state department, in establishing regulations, including provisions for periodic inspections, under this chapter for foster family homes providing 24-hour care for six or fewer foster children, shall consider such homes as private residences, and shall establish regulations for such foster family homes as an entirely separate regulation package from regulations for all other community care facilities. CHAPTER 1128

An act to add Chapter 4.1 (commencing with Section 18950) to Part 3 of Division 9 of the Food and Agricultural Code, relating to agriculture.

[Approved by Governor September 16, 1982. Filed with Secretary of State September 17, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 4.1 (commencing with Section 18950) is added to Part 3 of Division 9 of the Food and Agricultural Code, to read:

CHAPTER 4.1. CALIFORNIA MEAT AND POULTRY SUPPLEMENTAL INSPECTION ACT

Article 1. Definitions and Short Title

18940. This chapter shall be known and may be cited as the California Meat and Poultry Supplemental Inspection Act and supplements the provisions of the California Meat and Poultry Inspection Act, Chapter 4 (commencing with Section 18650).

18940.5. Unless the context otherwise requires, the definitions contained in Article 1 (commencing with Section 18650) of Chapter 4 govern the construction of this chapter.

18941. "Inspector" means an employee of the department authorized to perform inspection functions under Chapter 4 (commencing with Section 18650) and under this chapter.

18942. "Licensed livestock meat inspector" means a person who is licensed by the director to perform inspection functions under this chapter.

18943. "Livestock" means any cattle, sheep, swine, and goat whether alive or dead.

18944. "Livestock product" means any carcass, part of the carcass, meat, or meat food product of any livestock.

18945. "Slaughter" means the stunning, bleeding, eviscerating, skinning, splitting, and preparing of livestock for human consumption.

18946. "Custom livestock slaughterhouse" means a licensed establishment where livestock are slaughtered and prepared for the owners of the livestock.

18947. "Meat processing establishment" means a licensed establishment required to be inspected by Chapter 4 (commencing with Section 18650) where livestock or poultry products are prepared by curing, drying, smoking, or rendering or where livestock products of swine are cooked, and the products are sold on the premises to household consumers.

18948. "Sanitary" means free from dirt, filth, and contamination and free from any other substance or organisms which are known to be injurious to human health or which would render the product adulterated.

18949. "Establishment" means any business, firm, or facility that is required to be licensed by the director under this chapter.

Article 2. General Provisions

18950. The Legislature finds and declares that:

(a) Sausage products, cured and smoked meat products, and custom slaughtered carcasses which are processed and sold at retail meat processing establishments are an important source of the food supply in California; and it is essential and in the public interest that the health and welfare of consumers of these products are protected by ensuring that meat, both slaughtered and processed, is wholesome and not adulterated.

(b) Meat processing establishments and custom slaughter establishments exempt from federal inspection have been required to be inspected in California.

(c) There is a public demand for specialty meat food products and there has been an increase in the number of meat processing establishments manufacturing these products.

(d) Specialty meat food products are sold and displayed in meat markets and are difficult to distinguish from United States Department of Agriculture inspected and passed products.

18951. The Legislature further finds and declares that:

(a) A significant number of persons raise their own animals or purchase their animals alive and then have them slaughtered.

(b) Rather than have their animals slaughtered under unsanitary conditions, those persons would prefer to have their animals slaughtered at sanitary slaughter establishments and have an informed determination made as to the fitness of the carcasses and parts for food.

(c) With the reduction in number of United States Department

of Agriculture inspected slaughter plants in California, there has been a substantial increase in small custom slaughter houses to serve that need.

18952. The objectives of this chapter are to require sanitation and wholesomeness inspection at licensed custom slaughter establishments and licensed meat processing establishments exempt from federal inspection and to provide a cost-effective program using trained and licensed establishment personnel under department supervision.

Article 3. Regulations

18960. The director may adopt, by regulation, standards and requirements relating to inspection, sanitation, facilities, equipment, reinspection, preparation, processing, buying, selling, transporting, storing, identification, recordkeeping, registration and labeling, and marking for carrying out the purposes of this chapter.

18961. The director, by regulation, may adopt provisions of the rules and regulations made under federal acts with such changes therein as he or she deems appropriate to make them applicable to operations and transactions subject to this chapter.

18962. The director may adopt, by regulation, provisions to examine applicants for the position of licensed livestock meat inspector.

Article 4. Inspection Granting and Withdrawal

18970. (a) Prior to the issuance of a license to an establishment required to be licensed pursuant to Article 8 (commencing with Section 19010), the establishment shall meet the department's building and equipment standards.

(b) Building plans and specifications shall be submitted to the director for approval prior to any intended construction or major reconstruction for any establishment licensed pursuant to Article 8 (commencing with Section 19010).

18971. The director shall investigate the sanitary conditions of each establishment required to be licensed pursuant to Article 8 (commencing with Section 19010) and shall withdraw or otherwise refuse to provide inspection services at any establishment where the sanitary conditions are such as to render adulterated or permit adulteration of any livestock product or poultry product which is prepared or handled at such establishment. No such establishment shall be operated without inspection.

18972. The director may inspect, reinspect, or order the reinspection of any livestock or poultry product which is slaughtered, processed, or stored in an establishment licensed pursuant to Article 8 (commencing with Section 19010).

18973. (a) Licensed livestock meat inspectors and department inspectors are authorized to supervise the operations of licensed

establishments, to order the establishments not to operate until required standards are met, and to cease operations when the standards are violated. These persons are also authorized to require withholding from movement, sale, or the delivery of products which may be unfit, because the products were derived from unfit animals or processed in unsanitary conditions and to require denaturing and condemnation of the unfit products.

(b) The director may immediately withdraw or refuse to provide inspection services to any establishment under this chapter that fails to cease operations, hold any retained product, or destroy any condemned product in accordance with the order of a department inspector or licensed livestock meat inspector. It is unlawful to violate any such order.

18974. The director may order any labeling or containers to be withheld from use if he or she determines that the labeling is false or misleading or the containers are of a misleading size or form.

18975. If an action of a livestock meat inspector or department inspector in condemning any livestock or poultry product is questioned, appeal by the licensed establishment operator may be made to the immediate supervisor of the inspector and from his or her decision appeal may be made to the Chief of the Bureau of Meat Inspection. The operator shall abide by the decision of the inspector until or unless the decision is modified by the supervisor or the chief.

18976. If slaughtering, carcass preparation, or processing of any meat, meat products, poultry, or poultry products, or training of licensed livestock meat inspectors is conducted in an establishment licensed under Article 8 (commencing with Section 19010) during hours considered overtime for state employees or on legal holidays, the owner or operator of the establishment shall, by contract or agreement with the department, pay the additional costs for salaries and expenses for persons employed by the department, as determined by the director, to conduct the necessary inspection work or training during the overtime period.

18977. The director may require a deposit to pay for the overtime charges which he or she shall deposit in the General Fund, and may refuse inspection if the deposit is not made in a timely fashion. The director shall withdraw inspection services at any establishment licensed under Article 8 (commencing with Section 19010) that does not pay the overtime charges 15 days after the mailing of an invoice therefor.

The reasonable cost of such incarceration shall not exceed the amount determined by the board of supervisors of the county to be the actual average cost thereof on a per-day basis. The court may, in its discretion, hold additional hearings during the probationary period. The court may, in its discretion before such hearing, order the defendant to file a statement setting forth his or her assets, liability and income, under penalty of perjury, and may order the defendant to appear before a county officer designated by the board of supervisors to make an inquiry into the ability of the defendant to pay all or a portion of such costs. At the hearing, the defendant shall be entitled to have the opportunity to be heard in person or to be represented by counsel, to present witnesses and other evidence, and to confront and cross-examine adverse witnesses. A defendant represented by counsel appointed by the court in the criminal proceedings shall be entitled to such representation at any hearing held pursuant to this section. If the court determines that the defendant has the ability to pay all or a part of the costs, the court may set the amount to be reimbursed and order the defendant to pay that sum to the county in the manner in which the court believes reasonable and compatible with the defendant's financial ability. The court shall order that such payments be made as a condition of probation.

If practicable, the court shall order payments to be made on a monthly basis and the payments shall be made payable to the county officer designated by the board of supervisors. The order may be enforced as a violation of the terms and conditions of such probation upon willful failure to pay.

A payment schedule for reimbursement of the costs of incarceration pursuant to this section based upon income shall be developed by the county officer designated by the board of supervisors and approved by the presiding judges of the municipal and superior courts.

(b) The term "ability to pay" means the overall capability of the defendant to reimburse the costs, or a portion of the costs, of incarceration and shall include, but shall not be limited to, the defendant's:

(1) Present financial obligations, including family support obligations, and fines, penalties and other obligations to the court.

(2) Reasonably discernible future financial position. In no event shall the court consider a period of more than one year from the date of the hearing for purposes of determining reasonable discernible future position.

(3) Likelihood that the defendant shall be able to obtain employment within the one year period from the date of the hearing.

(4) Any other factor or factors which may bear upon the defendant's financial ability to reimburse the county for the costs.

(c) All sums paid by a defendant pursuant to this section shall be deposited in the general fund of the county.

(d) The foregoing provisions of this section shall be operative in a county upon the adoption of an ordinance to that effect by the board of supervisors. Such ordinance shall include a designation of the county officer responsible for collection of moneys ordered pursuant to this section and shall include a determination, to be reviewed annually, of the average per-day costs of incarceration in the county jail or other local detention facility.

SEC. 2. Section 1203.1d is added to the Penal Code, to read:

1203.1d. In determining the amount of an order made pursuant to this code requiring a defendant to make reparation or restitution to a victim of a crime, to pay any money as reimbursement for legal assistance provided by the court, to pay any cost of probation or probation investigation, or to pay any cost of jail or other confinement, the court, after determining the amount of any fine and penalty assessments, shall first determine the amount of restitution to any victim to be ordered and shall then determine the amount of any reimbursement for legal costs and, then, of any reimbursement for probation or incarceration costs.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1133

SEC. 3. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 4. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into

immediate effect. The facts constituting the necessity are:

To ensure, as soon as possible, that people and property within any jail or correctional facility are better protected against injury or damage as a result of arson by an inmate, it is necessary that this act go into immediate effect.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1135

An act to amend Sections 18930 and 18950 of, and to add Section 18801.1 to, the Government Code, relating to state civil service.

[Approved by Governor September 16, 1982. Filed with Secretary of State September 17, 1982.]

The people of the State of California do enact as follows:

Examinations may be assembled or unassembled, written or oral, or in the form of a demonstration of skill, or any combination of these; and any investigation of character, personality, education and experience and any tests of intelligence, capacity, technical knowledge, manual skill, or physical fitness which the board deems are appropriate, may be employed.

SEC. 2.5. Section 18950 of the Government Code is amended to read:

18950. Vacancies in positions shall be filled insofar as consistent with the best interests of the state from among employees holding positions in appropriate classes, and appropriate promotional lists shall be established to facilitate this purpose, except as provided in Section 18930. Examinations shall be held on an open, nonpromotional basis when, in the judgment of the board, open competition will produce eligible lists with more highly skilled qualified candidates and is consistent with the best interests of the state.

The board may prescribe conditions under which state employees, persons on leave of absence, and persons whose names are on appropriate reemployment lists, may be permitted to compete in promotional examination and to attain eligibility for appointment.

The board may further prescribe conditions under which eligibility may be transferred from one promotional list to another promotional list when such lists are for the same class and have been established as a result of the same or a similar examination.

CHAPTER 1137

An act to add Section 61765.8 to the Government Code, to amend Sections 16470 and 16658 of the Public Utilities Code, to amend Sections 25806 and 25929 of, to add Section 56042 to, and to add Chapter 6.5 (commencing with Section 56095) to Part 1 of Division 17 of, the Water Code, and to amend Sections 3 and 14 of the Siskiyou County Flood Control and Water Conservation District Act (Chapter 2121 of the Statutes of 1959), relating to special districts.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 61765.8 is added to the Government Code, to read:

61765.8. Notwithstanding Section 61765, in the Golden Hills Community Services District, the water standby or availability charge shall not exceed thirty dollars ($30) per year for each acre of land on which the charge is levied or thirty dollars ($30) per year for a parcel less than one acre.

This section, applicable only to the Golden Hills Community Services District, is necessary because of the unique and special water management and financing problems in the area included within the district.

SEC. 2. Section 16470 of the Public Utilities Code is amended to read:

16470. Charges added to an assessment are a lien on the land, except that if, during the year preceding the date on which the first installment of real property taxes which evidence the charges appears on the roll, any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, then the lien which would otherwise be imposed by this section shall not attach to such property and the district shall within three years after the amount is due file for record in the office of any county recorder a certificate specifying the amount, interest, and penalty due, the name and address as it appears on the records of the district of the person liable for the same, and the fact that the district has complied with all provisions of this part in the determination of the amount required to be paid. From the time of recordation of the certificate, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards and before the lien expires acquired by him. The lien has the force, effect, and priority of a judgment lien and shall continue for 10 years from the time of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from the date

of the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

SEC. 3. Section 16658 of the Public Utilities Code is amended to read:

16658. District taxes are a lien on the property on which they are levied, except that if, during the year preceding the date on which the first installment of real property taxes which evidence the charges appears on the roll, any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, then the lien which would otherwise be imposed by this section shall not attach to such real property and the costs of such charges relating to such property shall be transferred to the unsecured roll for collection. The enforcement of the collection of district taxes may be had in the same manner and by the same means as is provided by law for the enforcement of liens for county taxes.

SEC. 4. Section 25806 of the Water Code is amended to read:

25806. (a) In case any charges for water and other services or either remain unpaid the amount of the unpaid charges may, in the discretion of the district:

(1) If unpaid at the time specified for delivery of the assessment book to the collector, be added to and become a part of the annual assessment levied upon the real property upon which the water for which the charges are unpaid was used and upon the real property subject to the charges for any other district services and shall constitute a lien on that real property. However, if, during the year preceding the date on which the first installment of real property taxes which evidence the charges appears on the roll, any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, then the lien which would otherwise be imposed by this subdivision shall not be added to and become part of the annual assessment nor shall it attach to such real property.

(2) Be secured at any time by filing for record in the office of the county recorder of any county, a certificate specifying the amount of such charges and the name and address of the person liable therefor.

From the time of recordation of the certificate, the amount required to be paid together with interest and penalty constitutes a lien upon all real property in the county owned by the person or afterwards, and before the lien expires, acquired by him. The lien has the force, priority, and effect of a judgment lien and shall continue for 10 years from the date of the filing of the certificate unless sooner released or otherwise discharged. The lien may, within 10 years from

the filing of the certificate or within 10 years from the date of the last extension of the lien in the manner herein provided, be extended by filing for record a new certificate in the office of the county recorder of any county and from the time of such filing the lien shall be extended to the real property in such county for 10 years unless sooner released or otherwise discharged.

(b) Where the county assumes the responsibility of assessment and collection pursuant to Chapter 7 (commencing with Section 26500) of this part, the amount of the unpaid charges may be added to and become part of the annual assessment levied upon the real property upon which the water for which the charges are unpaid was used and upon the real property subject to the charges for any other district services and shall constitute a lien on that real property upon recordation of the order confirming the assessment in the office of the county recorder of the county in which the real property is situated. However, if, during the year preceding the date on which the first installment of real property taxes which evidence the charges appears on the roll, any real property to which such lien would attach has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, then the lien which would otherwise be imposed by this subdivision shall not attach to such real property and the costs of such water and services or either, as confirmed, relating to such property shall be transferred to the unsecured roll for collection.

SEC. 5. Section 25929 of the Water Code is amended to read:

25929. The collector shall attend at the time and place specified in the assessment notice to receive assessment payments.

The collector shall accept payment of current year assessments even though prior year delinquencies on the real property may exist. The acceptance of the payment shall not in any manner affect the validity of any proceeding or action previously taken pursuant to Chapter 5 (commencing with Section 26075) or Chapter 6 (commencing with Section 26225) of this part.

SEC. 6. Section 56042 is added to the Water Code, to read:

56042. All ordinances of a county drainage district shall be adopted by the board of directors of the district, and shall be certified to, recorded, and published in the same manner as ordinances of a county. The initiative and referendum powers are hereby granted to the electors of a county drainage district to be exercised in relation to the enactment or rejection of ordinances of a county drainage district in accordance with the procedure established by the laws of this state for the exercise of those powers in relation to counties.

SEC. 7. Chapter 6.5 (commencing with Section 56095) is added to Part 1 of Division 17 of the Water Code, to read:

CHAPTER 6.5. DRAINAGE FEES

56095. In addition to all of the powers enumerated in this part, a county drainage district shall have the power to adopt by resolution and carry out any definite plan or system for accomplishing, facilitating, or financing all work which may be lawfully accomplished by a county drainage district and to enforce the plan or system by resolution. In order to carry out the plan or system, a district shall have the power, by ordinance, to prescribe, revise, and collect fees and charges for providing storm drainage facilities, including drainage outfall facilities, furnished or to be furnished to any new building, improvement, or structure constructed or to be constructed in the district; and whenever a storm drainage problem is referred to the district by any county or city located in whole or in part within the boundaries of the district, to require the installation of drainage improvements necessary or convenient for the needs of the district, including, but not limited to, residential, subdivision, commercial, and industrial drainage needs. Any county or city is hereby authorized to refer all drainage control problems arising under the Subdivision Map Act (commencing with Section 66410 of the Government Code) or otherwise to a county drainage district for solution. Revenues derived by a district under this chapter shall be used only to acquire, construct, reconstruct, maintain, and operate storm drainage facilities, including drainage outfall facilities, consistent with the plan or system.

SEC. 8. Section 3 of the Siskiyou County Flood Control and Water Conservation District Act (Chapter 2121 of the Statutes of 1959) is amended to read:

Sec. 3. The objects and purposes of this act are to provide, to the extent that the board may deem expedient or economical, for the control and disposition of the storm, flood, and other waters of said district and to that end the district is hereby created to be a body corporate and politic and as such shall have power:

(a) To have perpetual succession.

All costs of relocating or altering or otherwise changing existing works or structures shall be paid by the district; provided, however, that all costs of relocating or otherwise changing any portion of a state highway shall be paid for from funds available for rights-of-way for flood control purposes and not from funds appropriated for state highway purposes.

(h) To construct, maintain, repair and operate all levees, bulkheads, walls of rock or other material, pumps, dams, channels, conduits, pipes, ditches, canals, reservoirs, drains, tunnels, poles, posts, wires, lamps, powerplants, railroads, dredgers and all other auxiliary, incidental, necessary or convenient agencies, work or improvements that may be required to carry out, facilitate, repair, maintain and complete the same.

(w) Nothing herein contained shall be deemed to permit the district or its board of directors to acquire or interfere in existing water rights and water uses and facilities for distribution of the same on an involuntary basis, but nothing herein shall be deemed to prohibit negotiating and acquisition of existing rights, uses, and privileges in water by negotiation.

SEC. 9. Section 14 of the Siskiyou County Flood Control and Water Conservation District Act (Chapter 2121 of the Statutes of 1959) is amended to read:

The board is authorized to hold, use, acquire, manage, occupy and possess said property, as provided herein if the board determines by resolution duly passed and entered in their minutes, that any district property, real or personal, is no longer necessary to be retained for the uses and purposes of the district, it may thereafter sell or otherwise dispose of said property, or lease the same, in the manner provided by law for the disposition and sale of property of counties, except that the title to real property, water rights or waterworks shall not be conveyed or alienated except by a vote of the electors at an election held for that purpose.

However, nothing in this section is intended to preclude the board from conveying or alienating title to real property, water rights, or waterworks on such terms and conditions as the board deems appropriate when the board deems it necessary, expedient, or advantageous to the full exercise and economic enjoyment of district purposes.

CHAPTER 1138

An act to amend Sections 34212, 34213, 34312, 34314, 34315, 34316.5, 34328, and 34354 of, and to add Section 34312.3 to, the Health and Safety Code, relating to housing.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 34212 of the Health and Safety Code is amended to read:

34212. "Housing project" means any work or undertaking to be

financed in whole or in part by the federal government or a state public body or to which the federal government or a state public body extends assistance by supplying all or part of the labor, by guaranteeing the payment of liens, or otherwise, for any one or a combination of the following purposes:

(a) To demolish, clear, or remove buildings from any slum area. Such work or undertaking may embrace the adaptation of the area to public purposes, including parks or other recreational or community purposes.

(b) To provide decent, safe, and sanitary urban or rural dwellings, apartments, or other living accommodations for persons of low income and persons and households eligible for housing assistance pursuant to Section 34312.3. Such work or undertaking may include buildings, land, equipment, facilities, and other real or personal property for necessary, convenient, or desirable appurtenances, streets, sewers, water service, parks, site preparation, gardening, administrative, community, health, recreational, educational, welfare, or other purposes.

"Housing projects" also includes the planning of the buildings and improvements, the acquisition of property, the demolition of existing structures, the construction, reconstruction, alteration, and repair of the improvements, and all other work in connection therewith.

For the purposes of this section, "state public body" means the state, any city, county, city and county, borough, commission, district, authority, or other subdivision or public body of the state.

SEC. 1.5. Section 34213 of the Health and Safety Code is amended to read:

34213. "Persons of low income" means persons or families whose income does not exceed that permitted by Section 50079.5, or persons or families eligible as lower-income households for assistance provided by state or federal housing programs intended primarily to assist lower-income households, as defined by Section 50079.5.

SEC. 2. Section 34312 of the Health and Safety Code is amended to read:

34312. Within its area of operation, an authority may undertake any of the following:

(a) Prepare, carry out, acquire, lease, and operate housing projects for persons of low income as authorized by this chapter and housing developments for persons of low income as authorized by Part 3 (commencing with Section 50900) of Division 31.

(b) Provide for the construction, reconstruction, improvement, alteration, or repair of all or part of any housing project.

(c) Provide leased housing to persons of low income.

(d) Provide financing for the construction or rehabilitation (including refinancing of existing obligations on the property to be rehabilitated) of dwelling accommodations for persons of low income, and for other persons when acting pursuant to authorization contained in Part 13 (commencing with Section 37910) of this division or Part 3 (commencing with Section 50900) of Division 31,

subject only to the limitations on income of borrowers or residents prescribed by the statutory provisions under which the authority is acting. With respect to financing activities conducted pursuant to Part 3 (commencing with Section 50900) or Part 4 (commencing with Section 51600) of Division 31, the authority shall obtain certification as a qualified mortgage lender pursuant to Section 50094.

(e) Provide counseling, referral, and advisory services to persons and families of low or moderate income in connection with the purchase, rental, occupancy, maintenance, or repair of housing.

(f) Provide such security, as the authority deems necessary, for the protection of a project and its inhabitants.

(g) Assist housing projects pursuant to Section 34312.3.

SEC. 3. Section 34312.3 is added to the Health and Safety Code, to read:

34312.3. An authority may develop, rehabilitate, or finance housing projects, including, but not limited to, housing projects pursuant to Chapter 7 (commencing with Section 52075) of Part 5 of Division 31; or participate in the development, rehabilitation, or financing of housing projects; or purchase, sell, lease, own, operate, or manage housing projects so assisted, subject to all of the following requirements:

(a) Except as prescribed by subdivision (b), for a period of at least 20 years, all housing projects assisted pursuant to this section shall be available to, on a priority basis, or occupied by, persons and families of low or moderate income, as defined by Section 50093, and not less than 20 percent of all such assisted units shall be available to, on a priority basis, or occupied by, persons and families of low income at affordable housing cost. "Affordable housing cost" shall be consistent with the requirements of Section 50052.5 or with any program requirements of a federal or state subsidy utilized in the housing development. To the extent that the requirements of this subdivision differ from the requirements of Chapter 7 (commencing with Section 52075) of Part 5 of Division 31, when a housing project is financed pursuant to Chapter 7, the requirements of this subdivision shall control.

(b) A housing project may be assisted for households other than those set forth in subdivision (a). The revenues derived from the sale, lease, or rent of such a housing project shall be established at a level which at least ensures the economic feasibility of the project. Any portion of these revenues determined by the authority to be excess shall be made available only to further assist housing provided for lower-income households.

(c) In determining whether the percentage requirements of subdivision (a) have been achieved, the following terms and conditions shall be applied:

(1) No unit shall be included in ascertaining the number of lower-income units required by subdivision (a) if the tenant in that unit receives housing payment assistance pursuant to Section 8 of the

United States Housing Act of 1937, or its successor programs, or state programs providing similar levels of rental assistance.

(2) The requirement that 20 percent of the housing units assisted pursuant to this section shall apply to the aggregate number of units assisted pursuant to subdivisions (a) and (b).

(3) The provisions of this section shall apply only to housing units first assisted after January 1, 1983, and the percentage requirements of subdivision (a) shall be complied with by January 1, 1986, and on January 1 of each even-numbered year thereafter.

(4) The percentage requirement shall be achieved within each of the following categories: (1) rental housing development; (2) homeownership development; and (3) rehabilitation financing.

(d) No resident in housing units assisted pursuant to this section shall be denied continued occupancy or ownership because, after admission, the resident's family income increases to exceed the eligibility level. However, the authority shall ensure that percentage requirements of subdivision (a) continue to be met by providing the next available unit or units to persons of low income.

(e) For the purposes of financing housing projects pursuant to Chapter 7 (commencing with Section 52075) of Part 5 of Division 31, a "housing project" has the same meaning as "multifamily rental housing project" as used in Chapter 7 (commencing with Section 52075) of Part 5 of Division 31.

(f) It is the intent of the Legislature, and the Legislature declares, that housing authorities are the local entities with primary responsibility for providing affordable housing for low- and very-low-income households within their jurisdictions. However, recognizing that affordable housing projects only for low-income households cannot be adequately assisted or developed with currently available funds, and that excess funds from housing projects assisted pursuant to this section can be utilized to further assist in the provision of affordable housing for lower-income households, it is the intent of the Legislature that the authorization of this section is to be used to enhance and supplement the traditional housing authority role of providing affordable housing only for low-income households.

SEC. 4. Section 34314 of the Health and Safety Code is amended to read:

34314. An authority may arrange or contract for the furnishing by any person or agency, public or private, of services, privileges, works, or facilities for, or in connection with, a housing project assisted pursuant to Section 34312.3, or the occupants thereof. Notwithstanding anything to the contrary contained in this chapter or in any other law, an authority may include in any contract let in connection with a project stipulations requiring that the contractor and any subcontractors comply with requirements as to minimum wages and maximum hours of labor and any conditions which the Federal Government has attached to its financial aid of the project.

SEC. 5. Section 34315 of the Health and Safety Code is amended

to read:

34315. An authority may:

(a) Lease or rent any dwellings, houses, accommodations, lands, buildings, structures, or facilities embraced in any housing project assisted pursuant to Section 34312.3 and establish and revise the rents or charges for them.

(b) Own, hold, and improve real or personal property.

(c) Purchase, lease, obtain option upon, acquire by gift, grant, bequest, devise, or otherwise any real or personal property or any interest in property.

(d) Acquire any real property by eminent domain.

(e) Sell, lease, exchange, transfer, assign, pledge, or dispose of any real or personal property or any interest in it.

(f) Insure or provide for the insurance of any real or personal property or operations of the authority against any risks or hazards.

(g) Lend upon the security of a mortgage or deed of trust, directly or by purchase from one or more qualified mortgage lenders, in connection with the sale of real property to persons of low income, the financing of construction or rehabilitation pursuant to this part, or the implementation of government housing and rehabilitation financing programs for persons of low income, and for other persons when acting pursuant to authorization contained in Part 13 (commencing with Section 37910) of this division or Part 3 (commencing with Section 50900) of Division 31, subject only to the limitations on income of borrowers or residents prescribed by the statutory provisions under which the authority is acting. With respect to financing activities conducted pursuant to Part 3 (commencing with Section 50900) or Part 4 (commencing with Section 51600) of Division 31, the authority shall obtain certification as a qualified mortgage lender pursuant to Section 50094.

(h) Procure insurance or guarantees from the federal government or the California Housing Finance Agency or from any person licensed to insure mortgages in this state of the payment of all or part of any debts, whether or not incurred by the authority, secured by mortgages or deeds of trust on any property included in any of its housing projects or otherwise financed pursuant to this chapter or secured by mortgages or deeds of trust pursuant to Part 13 (commencing with Section 37910) of this division or Part 3 (commencing with Section 50900) of Division 31.

SEC. 6. Section 34316.5 of the Health and Safety Code is amended to read:

34316.5. The proceeds of bonds issued pursuant to this part to finance housing as provided in subdivision (d) of Section 34312, Section 34312.3, and subdivision (g) of Section 34315 and revenues accruing to the agency on account of such a program may be invested in any securities or obligations authorized by the resolution providing for issuance of the bonds or authorized by its trust indenture, when the bond proceeds or revenues are not immediately required to provide financing under the program. Such investments

may include mortgage obligations on single-family dwellings purchased from a state or federally chartered bank or savings and loan association pursuant to a repurchase agreement under which the bank or savings and loan association will repurchase the mortgage obligation on or before a specified date and for a specified amount, provided that the mortgage or the repurchase agreement shall be insured by a mortgage insurance company licensed to insure mortgages in the State of California and qualified to provide insurance on mortgages purchased by the Federal Home Loan Mortgage Corporation or the Federal National Mortgage Association.

The authority provided in this section is additional and alternative to any other authorization for investment contained in this part or other provisions of law.

SEC. 7. Section 34328 of the Health and Safety Code is amended to read:

34328. At least once a year, an authority shall file with the clerk of the respective city or county and with the Department of Housing and Community Development a report of its activities for the preceding year. This report shall contain information adequate for the city, county, or department to determine that the requirements of Section 34312.3 have been met for any activity undertaken pursuant to that section. An authority shall make either directly or through any national, regional, or state housing association or organization of which it may be a member, recommendations with reference to additional legislation or other action which it deems necessary to carry out the purposes of this chapter, to the respective legislative bodies having jurisdiction thereof.

SEC. 8. Section 34354 of the Health and Safety Code is amended to read:

34354. By resolution, an authority may authorize bonds. The resolution, its trust indenture, or mortgage may provide for:

(a) The issuance of bonds in one or more series.

(b) The date the bonds shall bear.

(c) The date of maturity.

(d) The interest rate, not exceeding 12 percent a year.

(e) The denomination of the bonds.

(h) The rank or priority of the bonds.

(i) The manner of execution of the bonds.

(j) The medium of payment in which the bonds are payable.

(k) The place of payment.

(*l*) The terms of redemption, with or without premium.

CHAPTER 1139

An act to add and repeal Chapter 2.5 (commencing with Section 401) to Part 1 of Division 1 of, and to add Article 8 (commencing with Section 631) to Chapter 3 of Part 1 of Division 1 of, the Public Utilities Code, relating to the Public Utilities Commission.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 2.5 (commencing with Section 401) is added to Part 1 of Division 1 of the Public Utilities Code, to read:

CHAPTER 2.5. PUBLIC UTILITIES COMMISSION REIMBURSEMENT FEES

Article 1. Collection and Disposition of Fees

401. It is the intent of the Legislature, in enacting this chapter, that the fees levied and collected pursuant thereto shall produce only enough revenues to fund the commission for all of the following:

(a) Its authorized budget for each fiscal year to regulate water and sewer system corporations, less that amount to be paid from special accounts or funds except that established by this chapter, reimbursements, federal funds, and the unencumbered balance from the preceding year.

(b) A reserve, in addition to the commission's total authorized annual budget to regulate water and sewer system corporations, to be determined by the commission based on its past and projected operating experience.

(c) Any adjustment appropriated by the Legislature.

402. (a) There is hereby created, in the General Fund, the Public Utilities Commission Utilities Reimbursement Account.

(b) All fees collected by the commission pursuant to this chapter shall be transmitted to the State Treasurer quarterly for deposit in the account.

(c) Notwithstanding any other provision of law, all fees and charges collected pursuant to this code by the commission from each person and corporation subject to Section 411 shall be deposited in the account, in addition to the fee authorized by Section 411.

403. All fees paid pursuant to this chapter, exclusive of any penalties for delinquency, shall be allowed by the commission as an ordinary operating expense for purposes of establishing rates or charges. The commission shall authorize each person or corporation subject to Section 411 to annually adjust its rates or charges for intrastate services so as to collect from its customers or subscribers an amount equal to the amount of the fee required by that section.

404. If any person or corporation subject to this chapter is in default of the preparation and submission of any report or the payment of any fee required by this chapter for a period of 30 days or more, the commission may suspend or revoke the certificate of public convenience and necessity, permit, or other operating authority of the person or corporation, may estimate from all available information the appropriate fee, and may add to the amount of that estimate a penalty not to exceed 25 percent of the amount on account of the failure, refusal, or neglect to prepare and submit such report or to pay such fee, and the person or corporation shall be estopped to complain of the amount of the commission's estimate. Upon payment of the fee and penalty, if applicable, the certificate, permit, or other operating authority of the person or corporation suspended in accordance with this section shall be reinstated.

The commission may grant a reasonable extension of the 30-day period to any person or corporation upon written application and a showing of the necessity of the extension.

Upon revocation of any certificate, permit, or other operating authority pursuant to this section, all fees in default shall become due and payable immediately.

405. The commission may bring an action, in its own name or in the name of the people of the state, in any court of competent jurisdiction, for the collection of delinquent fees estimated under Section 404, or for an amount due, owing, and unpaid to it, as shown by report filed by the commission, together with a penalty of 25 percent for the delinquency.

406. The commission may authorize refunds of the fees provided for in this chapter when the fees were collected in error.

407. The commission may adopt rules that it deems necessary to carry out the provisions of this chapter.

Article 2. Water and Sewer System Corporations

411. The commission shall annually determine, subject to approval of the Department of Finance, a fee to be paid by every water and sewer system corporation subject to the jurisdiction of the commission, so as to produce a total amount equal to that amount established in the authorized commission budget for the same year, including an appropriate reserve, to regulate water and sewer system corporations less the amount to be paid from special accounts, reimbursements, federal funds, and any other revenues, and the amount of unencumbered funds from the preceding year.

412. The commission shall establish the fee pursuant to Section 411 in accordance with the following:

(a) In its annual budget request, the commission shall specify the amount of its budget to be financed by the fee.

(b) The commission shall allocate the amount of its budget to be financed by the fee among the persons and corporations subject to

Section 411 based on the ratio that each person's or corporation's gross intrastate revenues bears to the total gross intrastate revenues for all such persons and corporations.

413. Each person and corporation subject to Section 411 shall make payment of the required fee in accordance with the following schedule:

(a) Every person and corporation with gross intrastate revenues of seven hundred fifty thousand dollars ($750,000) or less shall make payment of the fee to the commission on an annual basis on or before January 15th.

(b) Every other person and corporation not subject to subdivision (a) shall make payment of the fee on a quarterly basis between the first and 15th day of July, October, January, and April.

414. The commission may require every person and corporation subject to this article to furnish any information and report to the commission at such time as it shall specify to enable the commission to make the allocations pursuant to Section 412.

415. As used in this article:

(a) "Fee" means that monetary amount determined in accordance with this article.

(b) "Gross intrastate revenues" means those revenues from a water or sewer system corporation and its related operations subject to the jurisdiction of the commission and accounted for according to the uniform system of accounts maintained by the commission. For purposes of this article, the amount of gross intrastate revenues of a water or sewer system corporation or related business subject to the jurisdiction of the commission shall be the gross intrastate operating revenues set forth in the annual report of the corporation or related business to the commission for the preceding year.

Article 3. Temporary Provisions

441. The Director of Finance may authorize the commission to borrow not to exceed one million six hundred thousand dollars ($1,600,000) for purposes of implementing this chapter from any fund or account, including, but not limited to, the Transportation Rate Fund, the State Energy Resources Conservation and Development Special Account, and the State Energy Resources Conservation and Development Reserve Account, deemed appropriate by the Director of Finance. The commission shall repay the loan with interest to be determined in accordance with Section 16314 of the Government Code.

442. Notwithstanding Section 40031 of the Revenue and Taxation Code, the State Board of Equalization shall establish the surcharge on the consumption of electricity in this state at the maximum rate authorized by Section 40032 of the Revenue and Taxation Code.

SEC. 2. Article 8 (commencing with Section 631) is added to Chapter 3 of Part 1 of Division 1 of the Public Utilities Code, to read:

Article 8. Reimbursement for Consultant and Advisory Services

631. In addition to the requirements of Article 1 (commencing with Section 1001) of Chapter 5 and any other provisions of law, the commission shall require every electrical corporation and every gas corporation proposing to construct or modify any electric plant or gas plant at a cost in excess of one hundred million dollars ($100,000,000) to reimburse the commission for expenses of such consultants or advisory services as the commission deems necessary for either or both of the following:

(a) The processing of an application for certification of the plant.

(b) The processing of an application for approval of any rate increase reflecting the inclusion of the cost of the plant in the rates of the corporation. This subdivision applies to any plant for which the costs of construction or modification are approved for inclusion in the corporation's rates on or after January 1, 1983.

632. For purposes of Section 631, the requirements of Sections 11042, 13070, 14615, 14780, and 14782 of the Government Code do not apply to the activities of the commission required pursuant to this article.

SEC. 3. If Assembly Bill 2361 of the 1981–82 Regular Session is chaptered and adds Chapter 2.5 (commencing with Section 401) to Part 1 of Division 1 of the Public Utilities Code, and this act is chaptered after that bill adding those provisions, this act shall not become operative, or if this act is chaptered before that bill adding those provisions, this act, as of the operative date of that bill adding those provisions, is repealed.

CHAPTER 1140

An act to add Section 31301 to the Vehicle Code, relating to vehicles, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 31301 is added to the Vehicle Code, to read:

31301. (a) No person shall transport any explosive substance, flammable liquid, liquefied petroleum gas or poisonous gas in a tank truck, trailer, or semitrailer through the Caldecott Tunnel located on State Highway, Route 24, near the Alameda-Contra Costa County boundary, connecting Oakland with Contra Costa County in the East Bay area at any time other than between the hours of 3 a.m. to 5 a.m.

(b) The Department of Transportation may, in compliance with the requirements of Article 1 (commencing with Section 22400) of

Division 11, determine and declare a reduced speed limit, lower than the maximum speed of 55 miles per hour, found most appropriate for traffic safety between the hours of 3 a.m. and 5 a.m.

(c) Nothing in this section shall be construed as a limitation or restriction on the power of the Department of Transportation, conferred by any other provision of law, to adopt regulations with regard to the movement of vehicles, including, but not limited to, tank truck vehicles transporting any cargo specified under subdivision (a) through the Caldecott Tunnel.

If, pursuant to any such other law, the Department of Transportation adopts or amends regulations after the effective date of this section, which adopted or amended regulations govern the movement of vehicles subject to subdivision (a), then on the operative date of those regulations, this section shall no longer be operative.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

Nothing in this section shall authorize a pension fund or retirement system to make deposits at less than the otherwise applicable rate of interest nor prohibit the fund of system from depositing funds with other financial institutions or under other

conditions.

(b) Any new mobilehome park that is developed after January 1, 1982, is not subject to the provisions of this section until 75 percent of the spaces have been rented for the first time.

However, nothing in this section shall prevent a local agency from prohibiting the use of a storage tank repaired by an interior-coating process if the tank fails to meet any additional requirements for underground storage tanks imposed by the local agency.

CHAPTER 1148

An act to amend Sections 45060 and 87833 of, and to add Sections 45061 and 87834 to, the Education Code, relating to public employer-employee relations.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 45060 of the Education Code is amended to read:

45060. Except as provided in Section 45061, the governing board of each school district when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for

the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a statewide professional organization which authorizes such statewide organization to receive membership dues on its behalf and for the purpose of paying his pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district of such dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period. The governing board shall each month draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to such organization during the month. The district shall retain and deposit in the general fund of the district the total amounts deducted from the employee's salary payment for the purpose of paying the employee's pro rata share of the costs incurred by the district in making the dues deductions provided for in this section. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making such deduction.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is a change in the amount required for such payment to the organization, the employee organization shall provide the employee with adequate and necessary data on such change at a time sufficiently prior to the effective date of the change to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the change at a time sufficiently prior to the effective date of the change to allow the employer an opportunity to make the necessary adjustments and with a copy of the notification of the change which has been sent to all concerned employees.

The governing board shall not require the completion of a new deduction authorization when a dues change has been effected or at any other time without the express approval of the concerned employee organization.

SEC. 1.3. Section 45060 of the Education Code is amended to read:

45060. Except as provided in Section 45061, the governing board of each school district, when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or

otherwise connected with a statewide professional organization which authorizes the statewide organization to receive membership dues on its behalf and for the purpose of paying his or her pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district of the dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period.

Unless otherwise provided in an agreement negotiated pursuant to Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, the governing board shall, no later than the 10th day of each pay period for certificated employees, draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to that organization for the previous pay period and shall transmit the total amount to that organization no later than the 15th day of each pay period for certificated employees. When timely transmittal of dues payments by a county is necessary for a school district to comply with the provisions of this section, the county shall act in a timely manner. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making the deduction.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is a change in the amount required for the payment to the organization, the employee organization shall provide the employee with adequate and necessary data on the change at a time sufficiently prior to the effective date of the change to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the change at a time sufficiently prior to the effective date of the change to allow the employer an opportunity to make the necessary adjustments and with a copy of the notification of the change which has been sent to all concerned employees.

The governing board shall not require the completion of a new deduction authorization when a dues change has been effected or at any other time without the express approval of the concerned employee organization.

SEC. 1.5. Section 45060 of the Education Code is amended to read:

45060. Except as provided in Sections 45061 and 45062, the governing board of each school district, when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or

in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a statewide professional organization which authorizes the statewide organization to receive membership dues on its behalf and for the purpose of paying his or her pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district of the dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period. The governing board shall each month draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to the organization during the month. The district shall retain and deposit in the general fund of the district the total amounts deducted from the employee's salary payment for the purpose of paying the employee's pro rata share of the costs incurred by the district in making the dues deductions provided for in this section. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making the deduction.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is a change in the amount required for the payment to the organization, the employee organization shall provide the employee with adequate and necessary data on the change at a time sufficiently prior to the effective date of the change to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the change at a time sufficiently prior to the effective date of the change to allow the employer an opportunity to make the necessary adjustments and with a copy of the notification of the change which has been sent to all concerned employees.

The governing board shall not require the completion of a new deduction authorization when a dues change has been effected or at any other time without the express approval of the concerned employee organization.

SEC. 1.7. Section 45060 of the Education Code is amended to read:

45060. Except as provided in Sections 45061 and 45062, the governing board of each school district, when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a

statewide professional organization which authorizes the statewide organization to receive membership dues on its behalf and for the purpose of paying his or her pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district of the dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period.

Unless otherwise provided in an agreement negotiated pursuant to Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code, the governing board shall, no later than the 10th day of each pay period for certificated employees, draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to that organization for the previous pay period and shall transmit the total amount to that organization no later than the 15th day of each pay period for certificated employees. When timely transmittal of dues payments by a county is necessary for a school district to comply with the provisions of this section, the county shall act in a timely manner. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making the deduction.

The revocable written authorization shall remain in effect until expressly revoked in writing by the employee. Whenever there is a change in the amount required for the payment to the organization, the employee organization shall provide the employee with adequate and necessary data on the change at a time sufficiently prior to the effective date of the change to allow the employee an opportunity to revoke the written authorization, if desired. The employee organization shall provide the public school employer with notification of the change at a time sufficiently prior to the effective date of the change to allow the employer an opportunity to make the necessary adjustments and with a copy of the notification of the change which has been sent to all concerned employees.

The governing board shall not require the completion of a new deduction authorization when a dues change has been effected or at any other time without the express approval of the concerned employee organization.

SEC. 2. Section 45061 is added to the Education Code, to read:

45061. The governing board of each school district when drawing an order for the salary or wage payment due to a certificated employee of the district shall, with or without charge, reduce the order for the payment of service fees to the certified or recognized organization as required by an organizational security arrangement between the exclusive representative and a public school employer as provided under Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code. However, the

organizational security arrangement shall provide that any employee may pay service fees directly to the certified or recognized employee organization in lieu of having such service fees deducted from the salary or wage order.

If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of service fees to the certificated or recognized organization, the board shall deduct from the amount transmitted to the organization on whose account the payments were deducted the actual costs, if any, of making the deduction. No charge shall exceed the actual cost to the district of the deduction. These actual costs shall be determined by the board and shall include startup and ongoing costs.

SEC. 3. Section 87833 of the Education Code is amended to read:

87833. Except as provided in Section 87834, the governing board of each community college district when drawing an order for the salary payment due to a certificated employee of the district, shall with or without charge reduce the order by the amount which it has been requested in a revocable written authorization by the employee to deduct for the purpose of paying the dues of the employee for membership in any local professional organization or in any statewide professional organization, or in any other professional organization affiliated or otherwise connected with a statewide professional organization which authorizes such statewide organization to receive membership dues on its behalf and for the purpose of paying his pro rata share of the costs incurred by the district in making the deduction. No charge shall exceed the actual cost to the district for such dues deduction. Any revocation of a written authorization shall be in writing and shall be effective commencing with the next pay period. The governing board shall each month draw its order upon the funds of the district in favor of the organization designated by the employee for an amount equal to the total of the dues deductions made with respect to such organization during the month. The district shall retain and deposit in the general fund of the district the total amounts deducted from the employee's salary payment for the purpose of paying the employee's pro rata share of the costs incurred by the district in making the dues deductions provided for in this section. If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of dues, the board shall deduct from the amount transmitted to the organization on whose account the dues payments were deducted the actual costs of making such deduction.

SEC. 4. Section 87834 is added to the Education Code, to read:

87834. The governing board of each community college district when drawing an order for the salary or wage payment due to a certificated employee of the district shall, with or without charge, reduce the order for the payment of service fees to the certified or recognized organization as required in an organizational security

arrangement between the exclusive representative and a public school employer as provided under Chapter 10.7 (commencing with Section 3540) of Division 4 of Title 1 of the Government Code. However, the organizational security arrangement shall provide that any employee may pay service fees directly to the certified or recognized employee organization in lieu of having the service fees deducted from the salary or wage order.

If the employees of a district do not authorize the board to make a deduction to pay their pro rata share of the costs of making deductions for the payment of service fees to the certificated or recognized organization, the board shall deduct from the amount transmitted to the organization on whose account the payments were deducted the actual costs, if any, of making the deduction. No charge shall exceed the actual cost to the district of the deduction. These actual costs shall be determined by the board and shall include startup and ongoing costs.

SEC. 5. It is the intent of the Legislature that if this bill and Assembly Bill 2467 or Assembly Bill 2967, or both, are chaptered and become effective January 1, 1983, each of the bills amend Section 45060 of the Education Code, and this bill is chaptered last, that amendments proposed by each of the bills which are chaptered be given effect as follows:

(1) If this bill and Assembly Bill 2467 are both chaptered and become effective January 1, 1983, both bills amend Section 45060 of the Education Code, but Assembly Bill 2967 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Assembly Bill 2467, the amendments proposed by both bills shall be given effect and incorporated in Section 45060 in the form set forth in Section 1.3 of this act. Therefore, if this bill and Assembly Bill 2467 are both chaptered and become effective January 1, 1983, both bills amend Section 45060, this bill is chaptered after Assembly Bill 2467, and Assembly Bill 2967 is not chaptered or as chaptered does not amend that section, Section 1.3 of this act shall be operative and Sections 1, 1.5, and 1.7 of this act shall not become operative.

(2) If this bill and Assembly Bill 2967 are both chaptered and become effective January 1, 1983, both bills amend Section 45060 of the Education Code, but Assembly Bill 2467 is not chaptered or as chaptered does not amend that section, and this bill is chaptered after Assembly Bill 2967, the amendments proposed by both bills shall be given effect and incorporated in Section 45060 in the form set forth in Section 1.5 of this act. Therefore, if this bill and Assembly Bill 2967 are both chaptered and become effective January 1, 1983, both bills amend Section 45060, this bill is chaptered after Assembly Bill 2967, and Assembly Bill 2467 is not chaptered or as chaptered does not amend that section, Section 1.5 of this act shall be operative and Sections 1, 1.3, and 1.7 of this act shall not become operative.

(3) If this bill and Assembly Bill 2467 and Assembly Bill 2967 are all chaptered and become effective January 1, 1983, all three bills amend Section 45060 of the Education Code, and this bill is

chaptered after Assembly Bill 2467 and Assembly Bill 2967, the amendments proposed by all three bills shall be given effect and incorporated in Section 45060 in the form set forth in Section 1.7 of this act. Therefore, if this bill and Assembly Bill 2467 and Assembly Bill 2967 are all chaptered and become effective January 1, 1983, all three bills amend Section 45060 of the Education Code, and this bill is chaptered after Assembly Bill 2467 and Assembly Bill 2967, Section 1.7 of this act shall be operative and Sections 1, 1.3, and 1.5 of this act shall not become operative.

SEC. 6. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 1149

An act to add Sections 61601.10 and 61601.11 to the Government Code, relating to community services districts.

[Approved by Governor September 17, 1982 Filed with Secretary of State September 20, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 61601.10 is added to the Government Code, to read:

61601.10. In addition to the powers which may be exercised pursuant to Section 61600, whenever the Board of Directors of the El Dorado Hills Community Services District determines by resolution, entered in the minutes, that it is feasible, economically sound, and in the public interest, and if a majority of the voters voting on the proposition vote in favor of the adoption of the additional purpose pursuant to Section 61601, the district may enforce the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district, and assume the duties of the architectural control committee for each tract within the boundaries of the district and for other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of development within the district as adopted in the covenants, conditions, and restrictions. However, the district shall exercise the duties of an architectural control committee for any tract only to the extent authorized by the covenants, conditions, and restrictions applicable to the tract.

The power to carry on that activity may be divested in the same manner as the power was acquired.

For the purposes of this section, "tract" means any parcel of land

for which the county has authorized development.

SEC. 2. Section 61601.11 is added to the Government Code, to read:

61601.11. In addition to the powers which may be exercised pursuant to Section 61600, whenever the Board of Directors of the El Dorado Hills Community Services District determines by resolution, entered in the minutes, that it is feasible, economically sound, and in the public interest, and if a majority of the voters voting on the proposition vote in favor of the adoption of the additional purpose pursuant to Section 61601, the district may acquire, construct, own, operate, control or use, within or without or partly within and partly without the district, works for supplying its inhabitants with electricity, and may purchase and distribute any such service from any other district, person, or company. However, regarding any works or facilities of any privately owned public utility that is doing business in El Dorado County on January 1, 1983, the district shall not acquire, except by mutual agreement between the district and the utility, any of these works or facilities for the generation of electric power, or take possession of any of these works or facilities prior to judgment in an eminent domain proceeding. For these purposes, the district shall have all of the power and authority to issue revenue bonds, pursuant to Section 61613.1, which authorizes the issuance of revenue bonds for other types of revenue producing enterprises. Whenever any of such works, or the electrical energy made available thereby, is not used or employed to its fullest capacity for the benefit of the district or its inhabitants, the district may employ such surplus works or energy to supply service outside the boundaries of the district upon such terms and conditions as the board determines to be for the best interests of the district.

SEC. 3. The Legislature finds and declares that the El Dorado Hills Community Services District has a special need for the power to enforce the covenants, conditions, and restrictions adopted for each tract within the boundaries of the district and to assume the duties of the architectural control committee for each tract within the boundaries of the district and for such other tracts as may be annexed from time to time, for the purpose of maintaining uniform standards of development within the district as adopted in such covenants, conditions, and restrictions. It is, therefore, hereby declared that a general law cannot be made applicable and that the addition of Section 61601.10 to the Government Code is necessary for the solution of the problems existing in the El Dorado Hills Community Services District.

SEC. 4. The Legislature finds and declares that the El Dorado Hills Community Services District has a special need to exercise powers relating to providing electricity within the area of the district. The cost of electrical energy is increasing greatly. There is no natural gas available to the area, forcing reliance upon electrical energy for all household utility needs. Sources of electric power may be available to the area within the district that are unique and

peculiar to the area, and which would not be available to community services districts generally. Formation of a new district with such power may not be possible in view of the existence within the territory of an irrigation district, a county water district, and the El Dorado Hills Community Services District. The Legislature further finds and declares that this problem is not common to all districts formed under the Community Services District Law, Division 3 (commencing with Section 61000) of Title 6 of the Government Code. It is, therefore, hereby declared that a general law cannot be made applicable and that the enactment of Section 61601.11 of the Government Code as a special law, is necessary for the solution of problems existing in the El Dorado Hills Community Services District.

SEC. 5. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the local agency or school district has the authority to levy service charges, fees, or assessments sufficient to pay for the program or level of service mandated by this act.

CHAPTER 1150

An act to add Chapter 6 (commencing with Section 801) to Part 1 of Division 1 of the Food and Agricultural Code, relating to agriculture.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Chapter 6 (commencing with Section 801) is added to Part 1 of Division 1 of the Food and Agricultural Code, to read:

CHAPTER 6. STATE AGRICULTURAL POLICY

Article 1. General Provisions

801. This chapter shall be known and may be cited as the Thurman Agricultural Policy Act.

802. The Legislature finds and declares the following:

(a) Agriculture is the number one industry in California, which is the leading agricultural state in the country.

(b) Although California's cultivated land accounts for approximately 3 percent of the country's entire supply of farmland, the state has historically produced about 10 percent of the farm cash receipts in the United States.

(c) California leads the nation in the production of approximately

50 different crops and livestock products.

(d) The diversity of the state's agriculture is truly impressive, for over 250 different commodities are grown here.

(e) Family owned farms produce most of the food and fiber produced by the California agricultural industry.

803. The Legislature further finds and declares that, regardless of the findings in Section 802, this state does not presently have a formal agricultural policy. That policy should guide decisionmaking by the Legislature so that the needs of the agricultural industry can be considered for the benefit of the residents of this state, each of whom is directly and indirectly affected by California agriculture.

Article 2. Agricultural Policy

821. As part of promoting and protecting the agricultural industry of the state and for the protection of the public health, safety, and welfare, the Legislature shall provide for a continuing sound and healthy agriculture in California, and shall encourage a productive and profitable agriculture, by reviewing the impact of actions taken on the following factors:

(a) Productive agricultural land.

(b) Agricultural water supplies.

(c) Agricultural energy resources.

(d) Pest control and pest exclusion, detection, and eradication activities.

(e) Agricultural labor.

(f) Agricultural production tools, including, but not limited to, fertilizers and implements of husbandry.

(g) Marketing agricultural products in the domestic and foreign markets.

(h) Agricultural research, education, and agricultural extension programs.

(i) Agricultural transportation and distribution systems.

(j) Agricultural financing.

(k) Family owned farms.

(*l*) Activities of county agricultural commissioners.

(m) Agricultural exhibits at state-supported fairs.

CHAPTER 1151

An act relating to the disposition of real property owned by the state, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Notwithstanding any provisions of law to the contrary, the Director of General Services, with the approval of the Director of Corrections and the State Public Works Board, may sell or exchange at fair market value, and upon those terms and conditions and with reservations and exceptions which in his or her opinion may be in the best interest of the state, approximately 320 acres of land, located in the south half of Section 35, Township 18 South, Range 1 West, S.B.B.&M., in the County of San Diego.

Prior to the sale or exchange of the real property specified in this section, the director shall offer the right of first refusal to 10 acres of that property to any public entity leasing that real property.

SEC. 2. Any cost or expense incurred in the disposition of this property may be reimbursed from the proceeds of the disposition. The disposition shall be exempt from the provisions of Sections 11011 to 11011.9, inclusive, 54220 to 54225, inclusive, and 54235 to 54239, inclusive, of the Government Code, and Sections 21000 to 21174, inclusive, of the Public Resources Code.

SEC. 3. If the property is sold, the Director of General Services shall accept and reserve to the state all mineral deposits, as defined in Section 6407 of the Public Resources Code, below a depth of 500 feet, together with the right to prospect for, mine, and remove the deposits. The rights to prospect for, mine, and remove the deposits shall be limited to those areas of the property conveyed which the director determines to be reasonably necessary for the removal of the resources and deposits.

SEC. 4. Any additional funds realized over and above the land exchange and cost related thereto shall revert to the Department of Corrections to be used for additional site acquisition, architectural planning, schematics, working drawings, and construction.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution, and shall go into immediate effect. The facts constituting the necessity are:

The Department of Correction's capacity to house prison inmates has been exceeded. To avoid or minimize serious overcrowding, and to rectify unsafe conditions in existing state prisons, it is necessary that this act take effect immediately.

CHAPTER 1152

An act to add and repeal Section 22810.1 of the Government Code, relating to public employees' health benefits, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 22810.1 is added to the Government Code, to read:

22810.1. Notwithstanding any other provision of law, a state miscellaneous member who retired for disability may enroll in an approved health benefit plan if the board finds all of the following:

(a) The retired member applies for such enrollment within 15 days of notification by the board of eligibility.

(b) The retired member enrolled in a rehabilitation program which ended more than 120 days after separation from state service.

(c) The retired member was enrolled in a health benefit plan at the time of separation from active employment.

This section shall remain in effect only until February 1, 1983, and, as of such date is repealed, unless a later enacted statute, which is chaptered before February 1, 1983, deletes or extends such date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to correct an inequity resulting in the loss of health coverage for annuitants of the Public Employees' Retirement System currently disabled and retired from state service, it is necessary that this act take immediate effect.

CHAPTER 1153

An act to amend Sections 9890.31 and 9924 of the Business and Professions Code, relating to employment agencies.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

CHAPTER 1160

An act to amend Sections 37911, 37912, and 37922 of the Health and Safety Code, relating to residential rehabilitation.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 37911 of the Health and Safety Code is amended to read:

37911. The Legislature hereby finds and declares that it is necessary and essential that cities, counties, and cities and counties, and redevelopment agencies and housing authorities within such cities, counties, and cities and counties, be authorized to make long-term, low-interest loans to finance residential rehabilitation in depressed residential areas in order to encourage the upgrading of property in such areas. Unless such local agencies intervene to provide some form of assistance to finance residential rehabilitation, many depressed residential areas will deteriorate at an accelerated pace because property owners are not able to obtain rehabilitation loans from private sources.

The Legislature further finds and declares that many depressed residential areas contain scattered vacant parcels and residences that are so severely deteriorated that they must be demolished. The existence of such conditions in residential rehabilitation areas often impedes the progress of residential rehabilitation and improvement. It is, therefore, necessary that local agencies be authorized to include new construction in the form of residential infill construction as an integral part of a residential rehabilitation financing program.

The Legislature also finds and declares that preservation of existing housing stock is a primary purpose of this part. Much housing exists that can be preserved if moved from one location to another. It is, therefore, necessary that local agencies be authorized to include such preservation in the form of move-on residences.

SEC. 2. Section 37912 of the Health and Safety Code is amended to read:

37912. Unless the context otherwise requires, the following definitions shall govern the construction of this part:

(a) "Bonds" means any bonds, notes, interim certificates, debentures, or other obligations issued by a local agency pursuant to this part and which are payable exclusively from the revenues, as defined in subdivision (k), and from any other funds specified in this part upon which the bonds may be made a charge and from which they are payable.

(b) "Citizen participation" means action by the local agency to provide persons who will be affected by residential rehabilitation financed under the provisions of this part with opportunities to be involved in planning and carrying out the residential rehabilitation program. "Citizen participation" shall include, but not be limited to, all of the following and in the order provided below:

(1) Holding a public meeting prior to the original hearing by the legislative body for the purpose of considering selection of the area

for designation and determining the method of notice to property owners which will be used pursuant to paragraph (3).

(2) Consultation with an elected or appointed citizen advisory board of a proposed residential rehabilitation area. The members of the board shall include, to the greatest extent feasible, representatives of resident owners, nonresident owners, and resident tenants of both single-family and multiple-family residential structures who are not apartment managers, resident agents, or employees of property owners. The duties of the board are to develop a plan for public improvements and the rules and regulations for implementation of the proposed residential rehabilitation program.

(3) Dissemination of information relating to the time and location of the hearing, boundaries of the proposed residential rehabilitation area, and a general description of the proposed residential rehabilitation program by one of the following methods as determined by the legislative body at the public meeting provided in paragraph (1):

(A) At least seven days prior to the original hearing, by mailing to all real property owners within the proposed residential rehabilitation area at the address shown on the latest assessment roll and by distribution to residents of the proposed residential rehabilitation area in a manner determined to be appropriate by the local agency.

(B) After express findings by the legislative body at the public meeting provided in paragraph (1) at lower expense and effective notice at least equal to the mailed and distributed notice provided in subparagraph (A), by a method determined by the legislative body which includes, but is not limited to, publication of such notice pursuant to Section 6066 of the Government Code and posting of such notice at no less than three prominent places within the proposed residential redevelopment area and distribution to residents of the proposed residential rehabilitation area in a manner determined to be appropriate by the local agency.

"Citizen participation" also includes any other means of citizen involvement determined appropriate by the legislative body.

Public meetings and consultations held to implement the requirements of citizen participation shall be conducted by a planning or rehabilitation official designated by the legislative body. Public meetings shall be held at times and places convenient to residents and property owners.

(c) "Financing" means the lending of moneys or any other thing of value, or the purchase of a loan previously made by a qualified mortgage lender in accordance with rules and regulations of the local agency, for the purpose of residential rehabilitation and may, in the discretion of the legislative body, include any or all of the following:

(1) Refinancing of outstanding indebtedness of the participating party with respect to property which is subject to residential rehabilitation by such participating party.

(2) Financing or refinancing the cost incurred by a participating party in acquiring real property for the purpose of residential rehabilitation, including residential infill construction and move-on residences.

(3) Financing the acquisition of residences within a residential rehabilitation area which have been previously rehabilitated or constructed with financing pursuant to this part.

(d) "Legislative body" means the city council, board of supervisors, or other legislative body of the local agency.

(e) "Local agency" means any of the following:

(1) Any city, county, or city and county.

(2) Any redevelopment agency functioning pursuant to Part 1 (commencing with Section 33000).

(3) Any housing authority functioning pursuant to Part 2 (commencing with Section 34200).

(f) "Move-on residence" means a previously occupied single family or multifamily residential structure moved from a location to a vacant lot inside a residential rehabilitation area, or outside a residential rehabilitation area if the single-family or multi-family residential structure is for occupancy for persons or families of low or moderate income.

(g) "Participating party" means any person, company, corporation, partnership, firm, local agency, political subdivision of the state, or other entity or group of entities requiring financing for residential rehabilitation pursuant to the provisions of this part. No elective officer of the state or any of its political subdivisions shall be eligible to be a participating party under the provision of this part.

(h) "Qualified mortgage lender" means a mortgage lender authorized by a local agency to do business with the agency and to aid in financing pursuant to this part on behalf of the agency, for which service the qualified mortgage lender will be reasonably compensated. Such a mortgage lender shall be a state or national bank, federal or state-chartered savings and loan association, or trust company or mortgage banker which is capable of providing service or otherwise aiding in the financing authorized by this part. Nothing in any other provision of state law shall prevent such a lender from serving as a qualified mortgage lender pursuant to this part.

(i) "Residential rehabilitation" includes the following:

(1) The construction, reconstruction, renovation, replacement, extension, repair, betterment, equipping, developing, embellishing, or otherwise improving residences consistent with standards of strength, effectiveness, fire resistance, durability, and safety, so that such structures are satisfactory and safe to occupy for residential purposes and are not conducive to ill health, transmission of disease, infant mortality, juvenile delinquency, or crime because of any one or more of the following factors:

(A) Defective design and character of physical construction.

(B) Faulty interior arrangement and exterior spacing.

(C) Inadequate provision for ventilation, lighting, and sanitation.

(D) Obsolescence, deterioration, and dilapidation.

(2) Residential infill construction, where authorized by the comprehensive residential rehabilitation financing program.

(3) A qualified home improvement loan, which has the same meaning as Section 103 (A) of the Federal Internal Revenue Code of 1954, as amended by Public Law 96-499, December 5, 1980.

(4) With respect to a move-on residence, where authorized by the comprehensive residential rehabilitation financing program, the acquisition prior to relocation of, movement of, installation of, and rehabilitation of, a move-on residence and purchase of a move-on residence that has previously been rehabilitated with financing under this part.

(5) Acquisition of real property for the purpose of rehabilitation or residential infill construction pursuant to paragraph (1), (2), or (4), if authorized by the comprehensive residential rehabilitation financing program.

(6) Purchase of residences within a residential rehabilitation area which have been previously rehabilitated or constructed with financing under this part, if authorized by the comprehensive residential rehabilitation financing program.

(7) Relocation payments required or authorized by Section 37922.2 or by Section 7265.3 of the Government Code in connection with rehabilitation of a residence financed pursuant to this part, or in connection with demolition of a structure for the purpose of making land available for residential infill construction financed pursuant to this part. The cost of relocation payments may be included in the principal amount of a loan made to a participating party or may be paid directly from bond proceeds.

(j) "Residential infill construction" means the construction of new single-family or multifamily residences, excluding commercial or mixed residential and commercial structures and residential hotels, on vacant lots in residential rehabilitation areas, including lots cleared by demolition of an existing structure. However, the cost of demolition of existing structures shall not be eligible for financing under this part, and it is the intent of the Legislature that local agencies shall adopt lending policies and criteria which will encourage rehabilitation of existing residences in residential rehabilitation areas wherever possible.

(k) "Residence" means real property improved with a residential structure and, in residential rehabilitation areas only, also includes real property improved with a commercial or mixed residential and commercial structure which, in the judgment of the local agency, is an integral part of a residential neighborhood. "Residence" also includes condominium and cooperative dwelling units, and includes both real property improved with single-family residential structures and real property improved with multiple-family residential structures.

"Residence" also includes residential hotels in which not less than one-half of the occupied dwelling units are occupied on a

nontransient basis. A dwelling unit shall be deemed to be used on a nontransient basis for such purpose if the term of the tenancy is one month or longer or if the tenant has resided in the unit for more than 30 days. In a residential hotel, individual dwelling units need not have cooking facilities or individual sanitary facilities. However, for purposes of this subdivision, a residential hotel does not include dormitories, fraternity and sorority houses, hospitals, sanitariums, rest homes, or trailer parks and courts.

(*l*) "Rehabilitation standards" means the applicable local or state standards for the rehabilitation of residences located in residential rehabilitation areas or rehabilitated pursuant to Section 37922.1, including any higher standards adopted by the local agency as part of its residential rehabilitation financing program.

(m) "Revenues" means all amounts received as repayment of principal, interest, and all other charges received for, and all other income and receipts derived by, the local agency from the financing of residential rehabilitation, including moneys deposited in a sinking, redemption, or reserve fund or other fund to secure the bonds or to provide for the payment of the principal of, or interest on, the bonds and such other moneys as the legislative body may, in its discretion, make available therefor.

(n) "Residential rehabilitation area" means the geographical area designated by the local agency as one for inclusion in a comprehensive residential rehabilitation financing program pursuant to the provisions of this part.

SEC. 3. Section 37922 of the Health and Safety Code is amended to read:

(a) Criteria for selection of residential rehabilitation areas by the local agency which shall include findings by the local agency that:

(1) There are a substantial number of deteriorating structures in the area which do not conform to community standards for decent, safe, sanitary housing.

(2) Financial assistance from the local agency for residential rehabilitation is necessary to arrest the deterioration of the area.

(3) Financing of residential rehabilitation in the area is economically feasible.

However, these findings are not required when the residential rehabilitation area is a redevelopment project area to which the provisions of the Community Redevelopment Law (Part 1 (commencing with Section 33000)) apply.

(b) Procedures for selection of residential rehabilitation areas by the local agency which shall include:

(1) Provisions for citizen participation in selection of residential rehabilitation areas.

(2) Provisions for a public hearing by the governing body of the local agency prior to selection of any particular residential rehabilitation area by the local agency.

(c) A commitment that, subject to budgeting and fiscal limitations of the local agency, rehabilitation standards will be enforced in 95 percent of the residences in each residential rehabilitation area.

(d) Guidelines for financing rehabilitation of existing residences, which shall be subject to the following limitations:

(1) Unless insured or guaranteed in whole or in part by an instrumentality of the United States or the State of California or by a person licensed to insure loans in this state, outstanding loans on the property to be rehabilitated, including the amount of the loans for rehabilitation, shall not exceed 80 percent of the anticipated after-rehabilitation value of the property to be rehabilitated, except that the local agency may authorize loans, which are neither insured nor guaranteed, of up to 95 percent of the anticipated after-rehabilitation value of the property if such loans are made for the purpose of rehabilitating the property for residential purposes, there is demonstrated need for such higher limit, and there is a high probability that the value of the property will not be impaired during the term of the loan. Outstanding loans on property to be rehabilitated may be authorized up to 97 percent of the anticipated after-rehabilitation value of the property, if the person to whom the loan is made is of low income, as defined in Section 50093. A nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code or a cooperative housing corporation, as defined in subdivision (a) of Section 17265 of the Revenue and Taxation Code, may be authorized a loan not exceeding either 98 or 100 percent of the estimated after-rehabilitation value or of its total development cost, according to the standards for nonprofit housing sponsors set forth in Section 50958, if the dwelling units within the residence rehabilitated with financing under this part are committed for the period during which the loan is outstanding for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

(2) The maximum repayment period for such residential rehabilitation loans shall be 40 years or four-fifths of the economic life of the structure, whichever is less.

(3) Except as authorized in this paragraph, the maximum amount loaned for rehabilitation, exclusive of costs of acquisition, or exclusive of refinancing, for each dwelling unit and for each commercial unit which is, or is part of, a "residence" within the meaning of that term as defined in this part, shall be forty-five thousand dollars ($45,000). Financing provided pursuant to this part by the redevelopment agency of a city and county may exceed such limitation with respect to loans for rehabilitation of one-to-four unit dwellings, provided the total amount financed, including any amount loaned for acquisition or refinancing, shall not exceed eighty thousand dollars ($80,000) per

dwelling unit or 90 percent of the after-rehabilitation value specified in paragraph (1), whichever is less, regardless of whether the loan is or is not insured or guaranteed.

(4) No more than 20 percent of any loan for such residential rehabilitation shall be used for residential rehabilitation which is not required under the local agency's rehabilitation standards except that in the case of owner-occupied one- to four-dwelling-unit properties, up to 40 percent of the loan for such residential rehabilitation may be used for residential rehabilitation not required under the local agency's rehabilitation standards.

(5) Except with respect to move-on residences, loans shall not be made for the purpose of refinancing the outstanding indebtedness of a participating party with respect to property which is subject to residential rehabilitation or for financing the acquisition of property which has been, or is to be, subject to residential rehabilitation, unless the cost, including in such costs any amounts previously expended for residential rehabilitation of that property by a participating party, within a residential rehabilitation area or a redevelopment project area established at the time of such expenditure, of meeting the rehabilitation standards is at least 20 percent of the principal amount of the loan.

(e) Guidelines for financing residential infill construction within any residential rehabilitation area which is approved for such a program by the legislative body. The guidelines for residential infill construction shall be subject to the following limitations:

(1) Unless insured or guaranteed in whole or in part by an instrumentality of the United States or the State of California or by a person licensed to insure loans in this state, outstanding loans on the property, including the amount of the loans for residential infill construction, shall not exceed 80 percent of the anticipated value of the property, following completion of the construction, except that the local agency may authorize loans, which are neither insured nor guaranteed, of up to 90 percent of the anticipated value of the property following completion of the construction, if such loans are made for the purpose of constructing residences containing two or more dwelling units. A nonprofit corporation incorporated pursuant to Part 1 (commencing with Section 9000) of Division 2 of Title 1 of the Corporations Code or a cooperative housing corporation, as defined in subdivision (a) of Section 17265 of the Revenue and Taxation Code, may be authorized a loan not exceeding 100 percent of the estimated value of the property following completion of construction, if the dwelling units constructed with financing under this part are committed for the period during which the loan is outstanding for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

(2) The maximum repayment period for loans for residential infill construction shall be 40 years or four-fifths of the economic life of the structure, whichever is less.

(f) Guidelines for financing the purchase of residences previously rehabilitated or constructed with financing under this part, if authorized by the legislative body, which shall be subject to the following limitations:

(1) Purchasers of single-family dwellings eligible to receive such financing shall be persons or families of low or moderate income.

(2) All rental dwelling units in the residence financed shall be committed for the period during which the loan is outstanding for occupancy by persons and families of low or moderate income, as defined by Section 50093. Upon recordation of the deed, other instrument of conveyance, lease, or instrument of financing in the office of the county recorder of the county in which the real property is located, the rental dwelling units reserved for occupancy by persons of low income shall remain for such occupancy for not less than 30, nor more than 55, years. Such recorded agreement shall be binding upon successors in interest.

(3) Unless insured or guaranteed in whole or in part by an instrumentality of the United States or the State of California or by a person licensed to insure loans in this state, outstanding loans on the property to be acquired shall not exceed 80 percent of the value of the property, except that the local agency may authorize loans, which are neither insured nor guaranteed, of up to 90 percent of the value of the property if such loans are made for the purpose of financing residences containing two or more dwelling units. A nonprofit corporation incorporated pursuant to, or otherwise made subject to the provisions of, Part 2 (commencing with Section 5110) of Division 2 of Title 1 of the Corporations Code or a cooperative housing corporation, as defined in subdivision (a) of Section 17265 of the Revenue and Taxation Code, may be authorized a loan not exceeding 100 percent of the value of the property, if the dwelling units within the residence are committed for the period during which the loan is outstanding for occupancy by persons or families who are eligible for financial assistance specifically provided by a governmental agency for the benefit of occupants of the residence.

(4) The maximum repayment period for acquisition loans shall be 40 years or four-fifths of the economic life of the property, whichever is less.

(g) No more than 35 percent of the aggregate principal amount of all loans made in a residential rehabilitation area may be for residential infill construction or acquisition financing.

(h) A requirement that a plan for public improvements necessary to successful rehabilitation of the residential rehabilitation area be developed, with citizen participation, for each residential rehabilitation area and that the plan for public improvements be adopted by the local agency prior to the financing of residential rehabilitation in any residential rehabilitation area, together with a commitment that, subject to budgetary and fiscal limitations, such plan will be carried out by the local agency.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 33760.5 of the Health and Safety Code is amended to read:

33760.5. (b) Within its territorial jurisdiction, an agency may determine the location and character of any residential construction to be financed under the provisions of this chapter and may make mortgage or construction loans to participating parties through qualified mortgage lenders, or purchase mortgage or construction loans without premium made by qualified mortgage lenders to participating parties for financing residential construction of multifamily rental units occupied by, or in the case of projects financed with mortgages insured under Title II of the National Housing Act (Public Law 73-479, as amended) intended for occupancy by, persons and families of low or moderate income, as defined in Section 50093, outside of a redevelopment area to the extent required by Section 103(b) (4) (A) of the Internal Revenue Code.

(c) Not less than 20 percent of the total number of multifamily rental units outside of a project area financed or for which financing has been extended or committed pursuant to this chapter during any calendar year shall be occupied by, or made available to, lower-income households, as defined in Section 50079.5. Not less than 10 percent of the total number of such rental units shall be occupied by, or made available to, very low-income households, as defined in Section 50105.

(d) The provisions of subdivision (c) shall apply for a period of not less than 20 years from the date units financed pursuant to this section are first made available for occupancy. However, in the event federal rent subsidies become unavailable to tenants and projects in the agency's jurisdiction, the requirements of this subdivision and subdivision (c) shall not apply.

(e) This section shall remain in effect only until January 1, 1984, and as of such date is repealed, unless a later enacted statute, which

is chaptered before January 1, 1984, deletes or extends such date.

(b) Any licensee required to be licensed under this chapter who fails to make application for a license when required shall, in addition to the fees required pursuant to subdivision (a), pay a penalty of 50 percent of the license fee.

(c) Permit the use of his or her dealer's license, supplies, or books by any other person for the purpose of permitting that person to engage in the sale of mobilehomes or commercial coaches required to be registered under this code, or to permit the use of the dealer's license, supplies, or books to operate a branch location to be used by any other person, if, in either situation, the licensee has no financial or equitable interest or investment in the mobilehomes or commercial coaches sold by, or the business of, or branch location used by, the person, or has no such interest or investment other than commissions, compensations, fees, or any other thing of value received for the use of the dealer's license, supplies, or books to engage in the sale of mobilehomes or commercial coaches.

(d) Advertise any specific mobilehome or commercial coach for

sale without identifying the mobilehome or commercial coach by its serial number.

(e) Advertise the total price of a mobilehome or commercial coach without including all costs to the purchaser at time of delivery at the dealer's premises, except sales tax, title and registration fees, the fee charged by the state for the issuance of the certificate of compliance or certificate of waiver pursuant to Section 9889.56 of the Business and Professions Code, finance charges, and any dealer documentary preparation charge. The dealer documentary preparation charge shall not exceed twenty dollars ($20).

(f) Exclude from the advertisement of a mobilehome or commercial coach for sale information to the effect that there will be added to the advertised total price at the time of sale, charges for sales tax, title and registration fees, escrow fees, and any dealer documentary preparation charge.

(g) Represent the dealer documentary preparation charge as a governmental fee.

(h) Fail to exercise reasonable supervision over the activities of employees who negotiate or promote the sale of manufactured homes, mobilehomes, or commercial coaches.

(i) Not post the salesperson's license in a place conspicuous to the public on the premises where they are actually engaged in the selling of mobilehomes and commercial coaches for the employing dealer. The license shall be displayed continuously during their employment. If a salesperson's employment is terminated, the dealer shall return the license to the salesperson.

(j) Offer for sale, rent, or lease within this state a new mobilehome, manufactured home, or commercial coach whose manufacturer is not licensed under this part.

SEC. 10. Section 18062.8 of the Health and Safety Code is amended to read:

18062.8. It is unlawful for any manufacturer, or distributor licensed under this code to do any of the following:

(a) Refuse or fail to deliver, in reasonable quantities and within a reasonable time after receipt of an order from a dealer having a franchise for the retail sale of any new mobilehome or commercial coach sold or distributed by the manufacturer or distributor, any new mobilehome or commercial coach or parts or accessories to new mobilehomes or commercial coaches that are covered by the franchise, if the mobilehome or commercial coach, parts or accessories are publicly advertised as being available for delivery or actually being delivered. This subdivision is not violated, however, if the failure is caused by acts or causes beyond the control of the manufacturer, manufacturer branch, distributor, or distributor branch.

(b) Prevent or require or attempt to prevent or require, by contract or otherwise, any change in the capital structure of a dealership, if the dealer at all times meets any reasonable capital standards agreed to by the dealer and the manufacturer or

distributor, and also provided that no change in capital structure shall cause a change in the principal management or have the effect of a sale of the franchise without the consent of the manufacturer or distributor.

(c) Prevent or require, or attempt to prevent or require, a dealer to change the executive management of a dealership, other than the principal dealership operator or operators, if the franchise was granted the dealer in reliance upon the personal qualifications of that person or persons.

(d) Prevent or require, or attempt to prevent or require, by contract or otherwise, any dealer, or any officer, partner, or stockholder of any dealership, to participate in the sale or transfer of any part of the interest of any of them to any other person or persons. No dealer, officer, partner, or stockholder shall, however, have the right to sell, transfer, or assign the franchise, or any right thereunder, without the consent of the manufacturer or distributor if the consent is not unreasonably withheld.

(e) Prevent, or attempt to prevent, a dealer from receiving fair and reasonable compensation for the value of the franchised business. There shall be no transfer or assignment of the dealer's franchise without the consent of the manufacturer or distributor, if the consent is not unreasonably withheld.

(f) Obtain money, goods, services, or any other benefit from any other person with whom the dealer does business, on account of, or in relation to, the transaction between the dealer and any other person, other than for compensation for services rendered, unless the benefit is promptly accounted for, and transmitted to, the dealer.

(g) Require a dealer to prospectively assent to a release, assignment, novation, waiver, or estoppel which would relieve any person from liability imposed by this part or to require any controversy between a dealer and a manufacturer or distributor to be referred to any person other than the department, if the referral would be binding on the dealer. This subdivision shall not, however, prohibit arbitration before an independent arbitrator.

(h) Increase prices of mobilehomes or commercial coaches which the dealer had ordered for private retail consumers prior to the dealer's receipt of the written official price increase notification. A sales contract signed by a private retail consumer shall constitute evidence of each order. In the event of manufacturer price reductions, the amount of any reduction received by a dealer shall be passed on to the private retail consumer by the dealer if the retail price was negotiated on the basis of the previous higher price to the dealer. Price reductions shall apply to all mobilehomes and commercial coaches in the dealer's inventory which were subject to the price reduction. Price differences applicable to new model or series mobilehomes or commercial coaches at the time of the introduction of new models or series shall not be considered a price increase or price decrease. Price changes caused by either of the following shall not be subject to the provisions of this subdivision:

(1) The addition to a mobilehome or commercial coach of required or optional equipment pursuant to state or federal law.

(2) Revaluation of the United States dollar in the case of foreign-made mobilehomes or commercial coaches.

(i) Fail to pay to a dealer, within a reasonable time following receipt of a valid claim by a dealer thereof, any payment agreed to be made by the manufacturer or distributor to the dealer by reason of the fact that a new mobilehome or commercial coach of a prior year model is in the dealer's inventory at the time of introduction of new model mobilehomes or commercial coaches. A manufacturer or distributor shall not authorize or enable any new model to be delivered by dealers at retail more than 30 days prior to the eligibility date of the model change allowance payment for prior year model mobilehomes or commercial coaches.

(j) Deny the widow or heirs designated by a deceased owner of a dealership, the opportunity to participate in the ownership of the dealership or successor dealership under a valid franchise for a reasonable time after the death of the owner.

(k) Offer any refunds or other types of inducements to any dealer or other person for the purchase of new mobilehomes or commercial coaches of a certain make and model to be sold to the state or any political subdivision thereof without making the same offer to all other dealers in the same make and model within the relevant market area.

(*l*) Employ a person as a distributor who has not been licensed pursuant to this chapter.

(m) Deny any dealer the right of free association with any other dealer for any lawful purpose.

(n) Compete with a dealer in the same make and model operating under an agreement or franchise from a manufacturer or distributor in the relevant market area. A manufacturer or distributor shall not, however, be deemed to be competing when operating a dealership either temporarily for a reasonable period, or in a bona fide retail operation which is for sale to any qualified independent person at a fair and reasonable price, or in a bona fide relationship in which an independent person has made a significant investment subject to loss in the dealership and can reasonably expect to acquire full ownership of the dealership on reasonable terms and conditions. A distributor shall not be deemed to be competing when a wholly owned subsidiary corporation of the distributor sells mobilehomes or commercial coaches at retail, if, prior to January 1, 1970, such subsidiary corporation has been a wholly owned subsidiary of the distributor and engaged in the sale of mobilehomes or commercial coaches at retail.

(o) Unfairly discriminate among its franchisees with respect to warranty reimbursement or authority granted its franchisees to make warranty adjustments with retail customers.

(p) Sell mobilehomes or commercial coaches to persons not licensed under this part for resale.

(q) Fail to exercise reasonable supervision over the activities of employees who negotiate or promote the sale of manufactured homes, mobilehomes, or commercial coaches.

SEC. 11. Section 18063.5 of the Health and Safety Code is repealed.

SEC. 12. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

(c) Notwithstanding Chapter 8 (commencing with Section 7300) of Division 6 or any other provision of the law to the contrary, if the governing body of a city makes an appointment pursuant to subdivision (a), the clerk shall not accept for filing any statement of write-in candidacy which is submitted after 5 p.m. on the 50th day prior to the regularly scheduled municipal election.

In the event that an appointment to office is made in a particular legislative district pursuant to subdivision (a), that appointment shall not affect the conduct of the municipal election in other legislative districts of the city.

SEC. 2. Section 22844 of the Elections Code is amended to read:

No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because this act is in accordance with the request of a local agency or school district which desired legislative authority to carry out the program specified in this act.

CHAPTER 1167

An act to amend Section 30233 of the Public Resources Code, relating to coastal resources.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 30233 of the Public Resources Code is amended to read:

30233. (a) The diking, filling, or dredging of open coastal waters, wetlands, estuaries, and lakes shall be permitted in accordance with other applicable provisions of this division, where there is no feasible less environmentally damaging alternative, and where feasible mitigation measures have been provided to minimize adverse environmental effects, and shall be limited to the following:

(1) New or expanded port, energy, and coastal-dependent industrial facilities, including commercial fishing facilities.

(2) Maintaining existing, or restoring previously dredged, depths in existing navigational channels, turning basins, vessel berthing and mooring areas, and boat launching ramps.

(3) In wetland areas only, entrance channels for new or expanded boating facilities; and in a degraded wetland, identified by the Department of Fish and Game pursuant to subdivision (b) of Section 30411, for boating facilities if, in conjunction with such boating facilities, a substantial portion of the degraded wetland is restored and maintained as a biologically productive wetland. The size of the wetland area used for boating facilities, including berthing space, turning basins, necessary navigation channels, and any necessary support service facilities shall not exceed 25 percent of the degraded wetland.

(4) In open coastal waters, other than wetlands, including streams, estuaries, and lakes, new or expanded boating facilities.

(5) Incidental public service purposes, including, but not limited to, burying cables and pipes or inspection of piers and maintenance of existing intake and outfall lines.

(6) Mineral extraction, including sand for restoring beaches, except in environmentally sensitive areas.

(7) Restoration purposes.

(8) Nature study, aquaculture, or similar resource-dependent activities.

(b) Dredging and spoils disposal shall be planned and carried out to avoid significant disruption to marine and wildlife habitats and water circulation. Dredge spoils suitable for beach replenishment should be transported for such purposes to appropriate beaches or into suitable longshore current systems.

(c) In addition to the other provisions of this section, diking, filling, or dredging in existing estuaries and wetlands shall maintain or enhance the functional capacity of the wetland or estuary. Any alteration of coastal wetlands identified by the Department of Fish and Game, including, but not limited to, the 19 coastal wetlands identified in its report entitled, "Acquisition Priorities for the Coastal Wetlands of California", shall be limited to very minor incidental public facilities, restorative measures, nature study, commercial fishing facilities in Bodega Bay, and development in already

developed parts of south San Diego Bay, if otherwise in accordance with this division.

For the purposes of this section, "commercial fishing facilities in Bodega Bay" means that not less than 80 percent of all boating facilities proposed to be developed or improved, where such improvement would create additional berths in Bodega Bay, shall be designed and used for commercial fishing activities.

(d) Erosion control and flood control facilities constructed on watercourses can impede the movement of sediment and nutrients which would otherwise be carried by storm runoff into coastal waters. To facilitate the continued delivery of these sediments to the littoral zone, whenever feasible, the material removed from these facilities may be placed at appropriate points on the shoreline in accordance with other applicable provisions of this division, where feasible mitigation measures have been provided to minimize adverse environmental effects. Aspects that shall be considered before issuing a coastal development permit for such purposes are the method of placement, time of year of placement, and sensitivity of the placement area.

CHAPTER 1168

An act to amend Section 9505 of, and to add Section 6370.5 to, the Revenue and Taxation Code, relating to taxation.

(c) This section shall not be applicable to the state or any of its political subdivisions.

SEC. 2. Section 9505 of the Revenue and Taxation Code is amended to read:

9505. After deducting its cost in administering the tax, the State

Board of Equalization shall transmit the net revenues to the county periodically as promptly as possible for distribution in accordance with the allocation agreement between the county and cities. The transmittals from the Board of Equalization to counties and the transmittal from counties to cities shall be made at least twice in each calendar quarter.

SEC. 3. Notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made by this act and the state shall not reimburse any local agency for any sales and use tax revenues lost by it under this act.

CHAPTER 1169

An act to amend Section 13531.5 of the Business and Professions Code, relating to the sale of petroleum products.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 13531.5 of the Business and Professions Code is amended to read:

13531.5. (a) Except as provided in subdivision (b), every sign, statement, or advertising medium which indicates the price of gasoline or other motor vehicle fuel for sale from the premises shall show the actual price per gallon or liter of gasoline or other motor vehicle fuel including taxes, together with the word or words "gasoline" or "motor fuel" and the trade name or brand and grade designation of the gasoline or other motor vehicle fuel product advertised for sale by the advertising medium.

(b) Until the time that 75 percent of the businesses selling gasoline or other motor vehicle fuel at retail in this state do so by the liter, such time to be determined by the department, a person selling gasoline or other motor vehicle fuel by the liter shall be authorized to advertise its price by displaying on that sign either its price per liter or its price per gallon. After that time, but not prior to July 1, 1981, every person selling gasoline or other motor vehicle fuel shall be required to advertise its price by displaying on the sign its price per liter, regardless of whether the gasoline or other motor vehicle fuel is sold by the liter or by the gallon.

(c) The numerals indicating the price on the sign shall be of uniform size and at least six inches in height. All letters or numerals used in designating the brand name, or the words "no brand," on the sign shall not be less than one-third the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width. All letters or numerals used in designating the product, such as "gasoline" or other

motor fuel, shall be not less than one-third the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width, except that these letters or numerals need not be larger than four inches in height. All letters or numerals on the sign designating the grade of the gasoline or motor fuel shall be not less than one-sixth the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width, except that these letters or numerals need not be larger than four inches in height. Except as provided in subdivision (b), if gasoline or other motor vehicle fuel is sold by the liter and advertised, the word "liter" shall be displayed on the sign in letters not less than one-third the size of the numerals designating the price; and the height of the letters shall not be more than twice the dimension of the width .

(d) No person offering for sale or selling any gasoline or motor vehicle fuel from any place of business in the State of California shall post or display a sign or statement or other advertising medium reading, in substance, "save" a designated amount, or a designated amount per gallon or liter, such as "save 5 cents" or "save 5 cents per gallon or liter," or using the expression "off" a designated amount, such as "5 cents off" or "5 cents less," or "discount" of a given amount, such as "5 cents discount," or otherwise using the words "save," "off," "discount," "less," "below," or any of them, or a word or words of similar meaning or other phraseology indicating a reduced price, unless there is posted and displayed in letters and numerals of at least equal size and as part of the same sign, statement, or other advertising medium, the total price, or prices per gallon or liter, including all taxes from which the reduction will be made, the reduction given and the total net price per gallon, including all taxes, at which gasoline or other motor vehicle fuel is being sold or offered for sale. Words shall be used to explain the reduced price, the amount of reduction, and the price from which the reduction is made. The words shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

(e) In the event that the same brand or grade of gasoline or motor fuel is sold at different prices from the dispensing devices on the premises of any single place of business, it shall be unlawful for any person to post or display any sign or advertising medium which indicates or shows or advertises a price of the brand or grade unless the sign or advertising medium indicates, shows, or advertises in letters or numerals of equal size each of the higher prices, including all taxes, for which the brand or grade is sold, offered for sale, or advertised for sale and unless the sign or advertising medium explains the conditions under which the brand or grade is advertised for sale, at different prices. The words of explanation shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

(f) In the event that the same grade of gasoline or other motor vehicle fuel is sold at different prices from the dispensing devices on

the premises of any single place of business, the various prices at which the same grade of gasoline or other motor vehicle fuel is sold shall all be advertised in the same form, either in the form of price per gallon or in the form of price per liter, as authorized or required by law.

(g) Nothing in this section shall be construed to prohibit any person who has posted or displayed any sign or advertising medium in conformity with the requirements of this chapter from displaying any additional signs or advertising media that state the price of one or more brands or grades of gasoline sold or offered for sale at the premises, provided that the conditions of the sale of the brand or grade of gasoline are included in the additional sign or advertising. The words explaining the conditions shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

SEC. 2. Section 13531.5 of the Business and Professions Code is amended to read:

13531.5. (a) Except as provided in subdivision (b), every sign, statement, or advertising medium which indicates the price of gasoline or other motor vehicle fuel for sale from the premises shall show the actual price per gallon or liter of gasoline or other motor vehicle fuel including taxes, together with the word or words "gasoline" or "motor fuel" and the trade name or brand and grade designation of the gasoline or other motor vehicle fuel product advertised for sale by the advertising medium.

(b) Until the time that 75 percent of the businesses selling gasoline or other motor vehicle fuel at retail in this state do so by the liter, such time to be determined by the department, a person selling gasoline or other motor vehicle fuel by the liter shall be authorized to advertise its price by displaying on that sign either its price per liter or its price per gallon. After that time, but not prior to July 1, 1981, every person selling gasoline or other motor vehicle fuel shall be required to advertise its price by displaying on the sign its price per liter, regardless of whether the gasoline or other motor vehicle fuel is sold by the liter or by the gallon.

(c) The numerals indicating the price on the sign shall be of uniform size and at least six inches in height. All letters or numerals used in designating the brand name, or the words "no brand," on the sign shall not be less than one-third the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width. All letters or numerals used in designating the product, such as "gasoline" or other motor fuel, shall be not less than one-third the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width, except that these letters or numerals need not be larger than four inches in height. All letters or numerals on the sign designating the grade of the gasoline or motor fuel shall be not less than one-sixth the size of the numerals designating the price; and the height of the letters or numerals shall not be more than twice the dimension of the width, except that these

letters or numerals need not be larger than four inches in height. Except as provided in subdivision (b), if gasoline or other motor vehicle fuel is sold by the liter and advertised, the word "liter" shall be displayed on the sign in letters not less than one-third the size of the numerals designating the price; and the height of the letters shall not be more than twice the dimension of the width.

(d) (1) Except as specified in paragraph (2), no person offering for sale or selling any gasoline or motor vehicle fuel from any place of business in the State of California shall post or display a sign or statement or other advertising medium reading, in substance, "save" a designated amount, or a designated amount per gallon or liter, such as "save 5 cents" or "save 5 cents per gallon or liter," or using the expression "off" a designated amount, such as "5 cents off" or "5 cents less," or "discount" of a given amount, such as "5 cents discount," or otherwise using the words "save," "off," "discount," "less," "below," or any of them, or a word or words of similar meaning or other phraseology indicating a reduced price, unless there is posted and displayed in letters and numerals of at least equal size and as part of the same sign, statement, or other advertising medium, the total price, or prices per gallon or liter, including all taxes from which the reduction will be made, the reduction given and the total net price per gallon, including all taxes, at which gasoline or other motor vehicle fuel is being sold or offered for sale. Words shall be used to explain the reduced price, the amount of reduction, and the price from which the reduction is made. The words shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

(2) Notwithstanding any other provision of this division, a person offering for sale or selling any motor vehicle fuel from any place of business in this state may post, as an attachment to an existing price sign, a sign or statement which uses the expression "cash discount" of a given amount, such as "less 5 cents per gallon cash discount," provided the following conditions are met:

(A) There is posted and displayed as part of the same advertising medium the price or prices per gallon or liter, including all taxes, from which the discount is taken, and the amount of the discount per gallon or liter. The height of the numerals indicating the discount shall not exceed the height of the numerals in the advertised price.

(B) (i) Words, clearly shown in letters at least one-third the size of the numerals indicating the prices, shall be used to explain the conditions and any limitations under which a discount is offered and shall clearly indicate that the discount is to be deducted from the advertised price or (ii) an advertising medium shall be displayed which complies with subdivisions (e) and (f).

(C) The advertising medium posted or displayed shall not be false, deceptive, or misleading in any particular.

(D) There shall be available for each customer's reference a chart showing the amount of discount for each type unit being sold (gallon/liter) or fraction thereof in one cent increments, or the retail

dispensers used to dispense fuel at the discount price shall be set to compute the total sale at the discounted price per gallon or liter and shall be clearly labeled "Includes Cash Discount" in letters not less than one inch in height.

For purposes of this paragraph, the gasoline or motor vehicle fuel shall be sold in the same unit of measurement (e.g., gallons or liters) in which the discount and the gross price are advertised. The "gross price" means the total price, including all taxes, but excluding the discount.

(e) In the event that the same brand or grade of gasoline or motor fuel is sold at different prices from the dispensing devices on the premises of any single place of business, it shall be unlawful for any person to post or display any sign or advertising medium which indicates or shows or advertises a price of the brand or grade unless the sign or advertising medium indicates, shows, or advertises in letters or numerals of equal size each of the higher prices, including all taxes, for which the brand or grade is sold, offered for sale, or advertised for sale and unless the sign or advertising medium explains the conditions under which the brand or grade is advertised for sale, at different prices. The words of explanation shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

(f) In the event that the same grade of gasoline or other motor vehicle fuel is sold at different prices from the dispensing devices on the premises of any single place of business, the various prices at which the same grade of gasoline or other motor vehicle fuel is sold shall all be advertised in the same form, either in the form of price per gallon or in the form of price per liter, as authorized or required by law.

(g) Nothing in this section shall be construed to prohibit any person who has posted or displayed any sign or advertising medium in conformity with the requirements of this chapter from displaying any additional signs or advertising media that state the price of one or more brands or grades of gasoline sold or offered for sale at the premises, provided that the conditions of the sale of the brand or grade of gasoline are included in the additional sign or advertising. The words explaining the conditions shall be clearly shown in letters at least one-third the size of the numerals indicating the prices.

SEC. 3. It is the intent of the Legislature, if this bill and Assembly Bill 3373 are both chaptered and become effective January 1, 1983, both bills amend Section 13531.5 of the Business and Professions Code, and this bill is chaptered after Assembly Bill 3373, that the amendments to Section 13531.5 of the Business and Professions Code proposed by both bills be given effect and incorporated in Section 13531.5 of the Business and Professions Code in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Assembly Bill 3373 are both chaptered and become effective January 1, 1983, both amend Section 13531.5 of the Business and Professions Code, and this bill is chaptered after

Assembly Bill 3373, in which case Section 1 of this act shall not become operative.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 56261.1 of the Government Code is amended to read:

56261.1. (a) If a majority of the members of each of the legislative bodies of two or more districts adopt substantially similar resolutions of application making proposals either for the consolidation of all the districts or for the reorganization of all or any part of the districts into a single district, the commission shall approve, or conditionally approve, the proposal. The commission shall authorize the board of supervisors to order the consolidation or reorganization without an election, except as otherwise provided in subdivision (b). The board of supervisors shall hold at least one noticed public hearing on the proposal within 30 days after approval of the application by the commission.

(b) An election shall only be held if the board of supervisors finds either of the following:

(1) In the case of a resident-voter district, that the territory is uninhabited, or in the case of a landowner-voter district, that the territory is uninhabited and a petition requesting that the proposal be submitted to confirmation by the voters has been signed by at least 25 percent of the number of landowners within the territory subject to the consolidation or reorganization, owning at least 25 percent of the assessed value of land therein.

(2) In the case of inhabited territory, that a petition requesting that the proposal be submitted to confirmation by the voters has been signed by either of the following:

If a petition has been filed, the board of supervisors shall approve the proposal subject to confirmation by the voters of the district pursuant to Sections 56386 and 56440.

(c) Before ordering any material change in the provisions or the terms and conditions of the consolidation or reorganization, as set forth in the proposals of the districts, the commission shall direct the executive officer to give each district mailed notice thereof. The commission shall not, without the written consent of all districts, take any further action on the consolidation or reorganization for 30 days following such mailing. Upon written demand by any of the districts, filed with the executive officer during that 30-day period, the commission shall make determinations upon the proposals only after notice and hearing thereon. If no such demand is filed, the commission may make such determinations without notice and hearing.

SEC. 2. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

In addition, on or before January 1, 1983, that person shall maintain registration as a "psychological assistant," and to be entitled to use that title, shall have completed all requirements for a master's degree from an accredited or approved university, college, or professional school. On and after January 1, 1980, a master's degree in (1) psychology, or (2) education with the field of specialization in psychology or counseling psychology from an accredited or approved university, college, or professional school shall be required of all new registrants as psychology assistants.

(c) The person is at all times under the immediate supervision, as defined in regulations adopted by the committee, of a licensed psychologist, or board certified psychiatrist, who shall be responsible for insuring that the extent, kind, and quality of the psychological services he or she performs are consistent with his or her training and experience and be responsible for his or her compliance with the provisions of this chapter and regulations duly adopted hereunder, including those provisions set forth in Section 2960.

(d) The licensed psychologist, board certified psychiatrist, contract clinic, psychological corporation, or medical corporation, has registered the psychological assistant with the committee. The registration shall be renewed annually in accordance with regulations adopted by the committee.

No licensed psychologist may register, employ, or supervise more

than three psychological assistants at any given time unless specifically authorized to do so by the committee. No board certified psychiatrist may register, employ, or supervise more than one psychological assistant at any given time. No contract clinic, psychological corporation, or medical corporation may employ more than 10 such assistants at any one time. No contract clinic may register, employ, or provide supervision for more than one psychological assistant for each designated full-time staff psychiatrist who is qualified and supervises the psychological assistants. No psychological assistant may provide psychological services to the public for a fee, monetary or otherwise, except as an employee of a licensed psychologist, licensed physician, contract clinic, psychological corporation, or medical corporation.

(e) The psychological assistant shall comply with regulations that the committee may, from time to time, duly adopt relating to the fulfillment of requirements in continuing education.

(f) No person shall practice as a psychological assistant who is found by the committee to be in violation of the provisions of Section 2960 and the rules and regulations duly adopted thereunder.

SEC. 2. Section 1204.1 of the Health and Safety Code is amended to read:

1204.1. In addition to the primary care clinics and specialty clinics specified in Section 1204, clinics eligible for licensure pursuant to this chapter include psychology clinics. A "psychology clinic" is a clinic which provides psychological advice, services, or treatment to patients, under the direction of a clinical psychologist as defined in Section 1316.5, and is operated by a tax-exempt nonprofit corporation which is supported and maintained in whole or in part by donations, bequests, gifts, grants, government funds, or contributions which may be in the form of money, goods, or services. In a psychology clinic, any charges to the patient shall be based on the patient's ability to pay, utilizing a sliding fee scale. No corporation other than a nonprofit corporation, exempt from federal taxation under paragraph (3), subsection (c) of Section 501 of the Internal Revenue Code of 1954, as amended, or a statutory successor thereof, shall operate a psychology clinic.

Each psychology clinic licensed pursuant to this section shall comply with the provisions of Part 2 (commencing with Section 13100) of Division 12.

Only a psychology clinic may be licensed under this chapter to exclusively provide psychological advice, services, or treatment. However, nothing in this subdivision precludes clinics specified in Section 1204 from providing psychological advice, services, or treatment as included within, or adjunctive to, medical advice, services, or treatment provided by such clinics. Failure to comply with the requirements of this section may be grounds for denial, revocation, or suspension of the license.

This section shall remain in effect only until January 1, 1988, and as of such date is repealed, unless a later enacted statute, which is

chaptered on or before January 1, 1988, deletes or extends such date.

CHAPTER 1173

An act to amend Section 43204 of, and to add Section 43009.5 to, the Health and Safety Code, relating to motor vehicle warranties.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 43009.5 is added to the Health and Safety Code, to read:

43009.5. (a) If, based on a review of information derived from a statistically valid and representative sample of vehicles, the state board determines that a substantial percentage of any class or category of vehicles certified under the optional standards of Section 43101.5, and of Section 1960.15 of Title 13 of the California Administrative Code, exhibits, prior to 75,000 miles or seven years, whichever occurs first, an identifiable, systematic defect in a component listed in paragraph (2) of subdivision (c) of Section 1960.15, which causes a significant increase in emissions above those exhibited by vehicles free of defects and of the same class or category and having the same period of use and mileage, the state board may invoke its enforcement authority under Section 43105 to require remedial action by the vehicle manufacturer. The remedial action shall be limited to owner notification and repair or replacement of the defective component. As used in this section, the term "defect" shall not include failures which are the result of abuse, neglect, or improper maintenance.

(b) Nothing in this section shall limit or otherwise affect the recall authority of the state board, except as provided in subdivision (a).

SEC. 2. Section 43204 of the Health and Safety Code is amended to read:

43204. (a) The manufacturer of each motor vehicle and each motor vehicle engine shall warrant to the ultimate purchaser and each subsequent purchaser that the motor vehicle or motor vehicle engine is:

(1) Designed, built, and equipped so as to conform, at the time of sale, with the applicable emission standards specified in this part.

(2) Free from defects in materials and workmanship which cause such motor vehicle or motor vehicle engine to fail to conform with applicable regulations for its useful life as determined pursuant to subdivision (b).

(b) As used in subdivision (a), "useful life" of a motor vehicle or motor vehicle engine means:

(1) In the case of light-duty motor vehicles, and motor vehicle

engines used in such motor vehicles, a period of use of five years or 50,000 miles, whichever first occurs, except that, in the case of fuel metering and ignition systems and their component parts which are contained in the state board's "Emissions Warranty Parts List" dated December 14, 1978 (items I(A), I(C), III(A), III(C), III(E), IX(A), and IX(B)), and which are contained in vehicles or vehicle engines certified to the optional standards pursuant to Section 43101.5 and subject to subdivision (a) of Section 43009.5, "useful life" means a period of use of two years or 24,000 miles, whichever occurs first.

(2) In the case of any other motor vehicle or motor vehicle engine, a period of use of five years or 50,000 miles, whichever first occurs, unless the state board determines that a period of use of greater duration or mileage is appropriate.

CHAPTER 1174

An act to amend Sections 3202, 9402 and 9403 of the Commercial Code, relating to commercial transactions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 17, 1982 Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 3202 of the Commercial Code is amended to read:

3202. (1) Negotiation is the transfer of an instrument in such form that the transferee becomes a holder. If the instrument is payable to order it is negotiated by delivery with any necessary indorsement; if payable to bearer it is negotiated by delivery.

(2) An indorsement must be written by or on behalf of the holder and on the instrument or on a paper so firmly affixed thereto as to become a part thereof. An indorsement on a paper so affixed shall be valid and effective even though there is sufficient space on the instrument to write the indorsement.

(3) An indorsement is effective for negotiation only when it conveys the entire instrument or any unpaid residue. If it purports to be of less it operates only as a partial assignment.

(4) Words of assignment, condition, waiver, guaranty, limitation or disclaimer of liability and the like accompanying an indorsement do not affect its character as an indorsement.

SEC. 2. Section 9402 of the Commercial Code is amended to read:

9402. (1) A financing statement is sufficient if it gives the names of the debtor and the secured party, is signed by the debtor, gives an address of the secured party from which information concerning the security interest may be obtained, gives a mailing address of the debtor and contains a statement indicating the types, or describing

the items, of collateral. A financing statement should include the debtor's trade name or style, if any, if known to the secured party, but a failure to include such trade name or style shall not under any circumstances affect the validity of the financing statement. A financing statement may be filed before a security agreement is made or a security interest otherwise attaches. When the financing statement covers crops growing or to be grown, the statement must also contain a description of the real estate concerned. When the financing statement covers timber to be cut or covers minerals or the like (including oil and gas) or accounts subject to subdivision (5) of Section 9103, or when the financing statement is filed as a fixture filing (Section 9313) and the collateral is goods which are or are to become fixtures, the statement must also comply with subdivision (5). A copy of the security agreement is sufficient as a financing statement if it contains the above information and is signed by the debtor. A certified copy of a financing statement or security agreement is sufficient as a financing statement if the original thereof was filed in this state.

(2) A financing statement which otherwise complies with subdivision (1) is sufficient when it is signed by the secured party instead of the debtor if it is filed to perfect a security interest in or as a fixture filing covering:

(a) Collateral already subject to a security interest in another jurisdiction when it is brought into this state or when the debtor's location is changed to this state. Such a financing statement must state that the collateral was brought into this state or that the debtor's location was changed to this state under such circumstances; or

(b) Proceeds under Section 9306, if the security interest in the original collateral was perfected. Such a financing statement must describe the original collateral and give the date of filing and the file number of the prior financing statement; or

(c) Collateral as to which the filing has lapsed. Such a financing statement must include a statement to the effect that the prior financing statement has lapsed and give the date of filing and the file number of the prior financing statement; or

(d) Collateral acquired after a change of name, identity or corporate structure of the debtor (subdivision (7)). Such a financing statement must include a statement that the name, identity or corporate structure of the debtor has been changed and give the date of filing and the file number of the prior financing statement and the name of the debtor as shown in the prior financing statement.

(3) A form substantially as follows is sufficient to comply with subdivision (1):

Name of debtor (or assigner) _____
Address _____
Name of secured party (or assignee) _____
Address _____
Debtor's trade name or style, if any _____

1. This financing statement covers the following types (or items) of property: (Describe) _____

2. (If collateral is crops) The above-described crops are growing or are to be grown on: (Describe real estate) _____

_____

3. (If applicable) The above goods are or are to become fixtures on* (Describe real estate) _____

_____

and this financing statement is to be recorded in the real estate records. (If the debtor does not have an interest of record) The name of a record owner is _____

4. (If products of collateral are claimed) Products of the collateral are also covered.

(Use whichever is applicable)

_____
Signature of debtor (or assigner)

_____
Signature of secured party (or assignee)

*Where appropriate substitute either "The above timber is standing on . . . . ." or "The above mineral or the like (including oil and gas) or accounts will be financed at the wellhead or minehead of the well or mine located on . . . . ."

(4) A financing statement may be amended by filing a writing signed by both the debtor and the secured party, or by the secured party alone in the case of an amendment pursuant to subdivision (7). An amendment does not extend the period of effectiveness of a financing statement. If any amendment adds collateral, it is effective as to the added collateral only from the filing date of the amendment. In this division, unless the context otherwise requires, the term "financing statement" means the original financing statement and any amendments.

(5) A financing statement covering timber to be cut or covering minerals or the like (including oil and gas) or accounts subject to subdivision (5) of Section 9103, or a financing statement filed as a fixture filing (Section 9313) where the debtor is not a transmitting utility, must show that it covers this type of collateral, must recite that it is to be recorded in the real estate records, and the financing statement must contain a description of the real estate sufficient if it were contained in a mortgage of the real estate to give constructive notice of the mortgage under the law of this state. If the debtor does not have an interest of record in the real estate, the financing statement must show the name of a record owner. A financing statement filed as a fixture filing (Section 9313) where the debtor is not a transmitting utility must also recite either that it is filed as a fixture filing or that it covers goods which are or are to become fixtures.

(6) A mortgage is effective as a financing statement filed as a fixture filing from the date of its recording if:

(a) The goods are described in the mortgage by item or type;

and

(b) The goods are or are to become fixtures related to the real estate described in the mortgage; and

(c) The mortgage complies with the requirements for a financing statement in this section other than a recital that it is to be filed in the real estate records; and

(d) The mortgage is duly recorded.

No fee with reference to the financing statement is required other than the regular recording and satisfaction fees with respect to the mortgage.

(7) A financing statement sufficiently shows the name of the debtor if it gives the individual, partnership or corporate name of the debtor, whether or not it adds other trade names or names of partners. Where the debtor so changes his name or in the case of an organization its name, identity or corporate structure that a filed financing statement becomes seriously misleading, the filing is not effective to perfect a security interest in collateral acquired by the debtor more than four months after the change, unless a new appropriate financing statement or an appropriate amendment to the filed financing statement is filed before the acquisition of the collateral by the debtor. A filed financing statement remains effective with respect to collateral transferred by the debtor even though the secured party knows of or consents to the transfer.

(8) A financing statement substantially complying with the requirements of this section is effective even though it contains minor errors which are not seriously misleading. A financing statement filed as a fixture filing (Section 9313) where the debtor is not a transmitting utility is not effective if it does not recite that it is to be recorded in the real estate records and either that it is filed as a fixture filing or that it covers goods which are or are to become fixtures.

(9) A financing statement substantially complying with the requirements of this section creates a security interest only to the extent of the interest of the debtor.

(10) No person or entity acting for or on behalf of the parties to a financing statement shall incur any liability for the consequences of recording a financing statement in the real estate records, and no action may be brought or maintained against any such person or entity as a result of the recordation.

SEC. 3. Section 9403 of the Commercial Code is amended to read:

9403. (1) Presentation for filing of a financing statement, tender of the filing fee and acceptance of the statement by the filing officer constitutes filing under this division.

(2) Except as provided in subdivision (6), a filed financing statement is effective for a period of five years from the date of filing. The effectiveness of a filed financing statement lapses on the expiration of such five-year period unless a continuation statement is filed prior to the lapse. If a security interest perfected by filing exists at the time insolvency proceedings are commenced by or

against the debtor, the security interest remains perfected until termination of the insolvency proceedings and thereafter for a period of 60 days or until expiration of the five-year period, whichever occurs later. Upon such lapse the security interest becomes unperfected unless it is perfected without filing. If the security interest becomes unperfected upon lapse, it is deemed to have been unperfected as against a person who became a purchaser or lien creditor before lapse. If a fixture filing is effective at the time insolvency proceedings are commenced by or against the debtor, the fixture filing remains effective until termination of the insolvency proceedings and thereafter for a period of 60 days or until expiration of the five-year period or termination pursuant to subdivision (6), whichever occurs later. Upon lapse of a fixture filing, it is deemed to have been ineffective as against a person who became a purchaser or lien creditor before lapse.

(3) A continuation statement may be filed by the secured party of record within six months prior to the expiration of the five-year period specified in subdivision (2). Any such continuation statement must be signed by the secured party of record, identify the original statement by giving the date and the names of the parties thereto and the file number thereof and state that the original statement is continued. A continuation statement filed to continue the effectiveness of a financing statement filed as a fixture filing (Section 9313) is not effective unless the following requirements are met:

(a) If the debtor did not have an interest of record in the real estate as of the date of the filing of the original statement, the continuation statement shall contain the name of a record owner of the real estate as of the date of the filing of the original statement.

(b) The continuation statement shall contain substantially the following statement: "This continuation statement is filed to continue the effectiveness of a financing statement filed as a fixture filing"; provided, that such statement shall clearly indicate the intent to continue the effectiveness of a financing statement as a fixture filing.

Upon timely filing of the continuation statement, the effectiveness of the original statement is continued for five years after the last date to which the filing was effective whereupon it lapses in the same manner as provided in subdivision (2) unless another continuation statement is filed prior to such lapse. Succeeding continuation statements may be filed in the same manner to continue the effectiveness of the original statement. The filing officer may remove a lapsed financing statement and related filings from the files and destroy them immediately if he has retained a microfilm or other photographic record, or in other cases after one year after the lapse. The filing officer shall so arrange matters by physical annexation of financing statements to continuation statements or other related filings, or by other means, that if he physically destroys the financing statements of a period more than five years past, those which have been continued by a continuation statement or which are still

effective under subdivision (6) shall be retained. The filing officer shall not destroy a financing statement and related filings as to which he has received written notice that there is an action pending relative thereto or that insolvency proceedings have been commenced by or against the debtor.

(4) Except as provided in subdivision (7) a filing officer shall mark each financing statement with a consecutive file number and with the date and time of filing and shall hold the statement or a microfilm or other photographic copy thereof for public inspection. In addition the filing officer shall index the statement according to the name of the debtor and shall note in the index the file number and the address of the debtor given in this statement. The filing officer shall mark each continuation statement with the date and time of filing and shall index the same under the file number of the original financing statement.

(5) The uniform fee for filing, indexing and furnishing filing data (subdivision (1) of Section 9407) for an original financing statement, an amendment or a continuation statement shall be three dollars ($3) if the statement is in the standard form prescribed by the Secretary of State and otherwise shall be four dollars ($4).

(6) If the debtor is a transmitting utility (subdivision (5) of Section 9401) and a filed financing statement so states, it is effective until a termination statement is filed. A real estate mortgage which is effective as a fixture filing under subdivision (6) of Section 9402 remains effective as a fixture filing until the mortgage is released or satisfied of record or its effectiveness otherwise terminates as to the real estate.

(7) A financing or continuation statement covering collateral described in paragraph (b) of subdivision (1) of Section 9401 or filed as a fixture filing shall be recorded and indexed by the filing officer in the real property index of grantors under the name of the debtor and any owner of record shown on the financing statement. A financing or continuation statement so recorded and indexed and containing a description of real property affected thereby shall constitute constructive notice from the time of its acceptance for recording to any purchaser or encumbrancer of the real property of the security interest in such collateral.

SEC. 4. Any financing statement or continuation statement to continue the effectiveness of a financing statement filed on or after July 8, 1981, which is in conformity with the requirements of Section 9402 or 9403 of the Commercial Code, as these sections are amended by this act, shall be deemed to be sufficient and effective.

SEC. 5. It is the intent of the Legislature that the amendments to Section 3202 of the Commercial Code contained in Section 1 of this act shall only be given prospective application.

SEC. 6. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order to clarify ambiguities with respect to the filing of financing statements to perfect a security interest in property which have arisen as a result of amendments enacted by Chapter 148 of the Statutes of 1981, it is necessary that this act take effect immediately.

CHAPTER 1175

An act to amend Section 728.2 of the Public Utilities Code, relating to public utilities, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 728.2 of the Public Utilities Code is amended to read:

728.2. (a) Except as provided in subdivision (b), the commission shall have no jurisdiction or control over classified telephone directories or commercial advertising included as part of the corporation's alphabetical telephone directories, including the charges for and the form and content of such advertising, except that the commission shall investigate and consider revenues and expenses with regard to the acceptance and publication of such advertising for purposes of establishing rates for other services offered by telephone corporations.

(b) If the commission determines, after a hearing, that any federal action would impair its ability to investigate and consider revenues and expenses with regard to the acceptance and publication of telephone directory advertising for the purpose of establishing rates for other services offered by any telephone corporation, the commission shall have the jurisdiction to regulate commercial advertising in alphabetical and classified directories of telephone corporations, except as provided in this subdivision.

(1) The commission's jurisdiction to regulate commercial advertising in alphabetical and classified directories of telephone corporations under this subdivision shall be limited to the rates and charges for commercial directory advertising, except that the commission shall investigate and consider revenues and expenses of telephone corporations related to that advertising for purposes of establishing rates for other services offered by telephone corporations.

(2) The commission shall also have no jurisdiction over the following:

(i) The form and content of the advertising in alphabetical and classified directories of telephone corporations.

(ii) The form and content of the directories in which that

advertising appears.

(iii) Directory advertising practices.

(iv) The determination of the geographic areas served by those directories.

(v) Complaints by any corporation or person regarding directory advertising.

(3) The commission, by its own motion or on petition of any telephone corporation, may, after a hearing, issue an order relinquishing the jurisdiction assumed under this subdivision, except its jurisdiction to investigate and consider the revenues and expenses specified in paragraph (1) if the commission determines that relinquishing the jurisdiction will not affect its ability to investigate and consider those revenues and expenses. As used in this subdivision, "federal action" means the introduction of a bill in Congress, an order of the Federal Communications Commission, or an order or decision of any federal court which would prohibit state regulatory agencies which have no jurisdiction over directory advertising from considering revenues from this source for ratemaking purposes.

SEC. 2. The Legislature declares that, for purposes of any federal action relating to commercial advertising in telephone directories, the enactment of this act shall not be construed as a limitation on the ability of the Public Utilities Commission to investigate and consider revenues and expenses related to that advertising for purposes of establishing rates for other services offered by telephone corporations.

SEC. 3. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

Since federal legislation, which is currently being considered by Congress, would prohibit state regulatory agencies which have no jurisdiction over directory advertising from considering revenues from this source for ratemaking purposes, it is necessary that this act take effect immediately.

CHAPTER 1176

An act to amend Sections 18620 and 18621 of, and to add Section 18738.1 to, the Business and Professions Code, relating to boxing.

Notwithstanding the provisions of Section 1322 of the Government Code, the additional members of the commission provided for by the amendments to this section enacted at the 1982 portion of the 1981–82 Regular Session of the Legislature shall not require the confirmation of the Senate.

SEC. 2. Section 18621 of the Business and Professions Code is amended to read:

18621. Members of the commission shall be appointed for a four-year term.

Vacancies occurring shall be filled by appointment in the same manner for the unexpired term.

SEC. 3. Section 18738.1 is added to the Business and Professions Code, to read:

(c) The commission shall, by administrative regulation, establish by January 1, 1984, standards for a safety boxing glove which shall be consistent with the requirements of subdivision (a). Commencing January 1, 1984, the commission shall require the use of that safety

(d) The commission may, by regulation, exempt title fights from the requirements of this section.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1177

An act to add Section 14780.7 to the Government Code, relating to state research contracts.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 14780.7 is added to the Government Code, to read:

14780.7. (a) When contracting for research services, except for agricultural or medical research services, a state agency shall, at the same time requests for proposals to perform the research services are circulated to members of the private sector, circulate requests for proposals to perform the research services to the officer responsible for research contracts at each campus of the University of California and the California State University, for distribution to the faculty. If any faculty members are interested in the request, the officer shall notify the agency within two weeks from the date on which the request was circulated.

(b) Faculty members interested in the request shall submit their proposals to perform the research services to the agency within 30 days from the date on which the request was circulated.

(c) The provisions of this section shall not apply to any research project relating to postsecondary education which, as determined by the agency, involves a conflict of interest, nor to any contract for research services entered into by the California Postsecondary Education Commission.

CHAPTER 1178

An act to amend Sections 35150, 35229.5, 54784, and 54790 of, to amend and repeal Section 35051 of, to add Section 35105 to, and to add and repeal Sections 35150.5 and 56250.5 of, the Government Code, relating to cities.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 35051 of the Government Code is amended to read:

35051. "Urban service area" means existing developed, undeveloped, or agricultural land, either incorporated or unincorporated, within a city's sphere of influence, which is currently served by existing urban facilities, utilities, and services or are proposed to be served by urban facilities, utilities, and services in the first five years of a city's adopted capital improvement program. The boundary around such an urban area shall be called the "urban service area boundary" and shall be developed in cooperation with a city and adopted by a commission pursuant to policies adopted by the commission in accordance with Sections 54774 and 54774.5.

This section shall remain in effect only until January 1, 1989, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1989, deletes or extends such date.

The processing fee shall be deposited with the conducting authority after the adoption of a resolution initiating proceedings by the conducting authority. The deposit of the processing fee shall be made within such period as the conducting authority may specify. No further action shall be taken upon the resolution until the processing fee is deposited.

SEC. 3. Section 35150 of the Government Code, as amended by Section 1.5 of Chapter 855 of the Statutes of 1981, is amended to read:

35150. The commission shall have the powers and duties set forth in Chapter 6.6 (commencing with Section 54773) of Part 1, Division 2, Title 5, and such additional powers and duties as are specified in this part, including the following:

(a) To review and approve or disapprove with or without amendment, wholly, partially, or conditionally proposals for the incorporation of cities, for changes of organization of cities, and

municipal reorganizations; provided, however, that a commission shall not have the power to disapprove an annexation, initiated by resolution, of contiguous territory which the commission finds is either (1) surrounded or substantially surrounded by the city to which the annexation is proposed or by such city and a county boundary or the Pacific Ocean if the territory to be annexed is substantially developed or developing, is not prime agricultural land as defined in Section 35046, is designated for urban growth by the general plan of the annexing city, and is not within the sphere of influence of another city or, (2) located within an urban service area which has been delineated and adopted by a commission, which is not prime agricultural land, as defined in Section 35046, and is designated for urban growth by the general plan of the annexing city.

As a condition to the annexation of an area, which is surrounded or substantially surrounded by the city to which the annexation is proposed, the commission may require, where consistent with the purposes of this chapter, that the annexation include the entire island of surrounded or substantially surrounded territory.

(b) With regard to a proposal for annexation or detachment of territory to, or from, a city, or with regard to a proposal for municipal reorganization which includes annexation or detachment, to determine whether territory proposed for annexation or detachment, as described in its resolution approving the annexation, detachment, or municipal reorganization, is inhabited or uninhabited. (5) That the proposal is consistent with the city's adopted general plan.

(6) That the territory is contiguous to existing city limits.

(c) All annexations which involve territory for which the land use designation in the city's general plan has changed from the time that the city's urban service area was last adopted by the commission, and

(d) An appeal to the commission may also be made by submission of a resolution of appeal adopted by the legislative body of a special district solely for the purpose of determining whether some or all of the territory contained in the annexation proposal should also be annexed or detached from that special district.

(e) Any petition under subdivision (c) or resolution under subdivision (d) shall be submitted to the executive officer of the commission within 15 days of the adoption by the legislative body of the city of the resolution approving the annexation. The executive officer of the commission shall schedule the hearing for the next regular meeting of the commission as is practicable. The commission may set a reasonable appeal fee.

Except in the case of counties with not more than two cities where a local commission's rules and regulations authorize members' participation pursuant to Section 54784.1, when the commission is considering a proposal for the annexation of territory to a city of which one of the members of the commission is an officer, the member is disqualified from participating in the proceedings of the commission with respect to the proposal and the alternate member shall serve and vote in his or her place for such purpose.

Except in the case of a member appointed pursuant to subdivision (d) of Section 54780.1 or subdivision (b) of Section 54780.2, a city selection committee, may, at the time it appoints a member or alternate, provide that such member or alternate is disqualified from voting on annexations to the city of which such member is a representative.

In the event the office of a regular city member becomes vacant the alternate member is authorized to serve and vote in his or her place until the appointment and qualification of a regular city member to fill the vacancy.

In the event the office of a regular city member becomes vacant

the alternate member is authorized to serve and vote in place of that regular city member until the appointment and qualification of a regular city member to fill the vacancy.

SEC. 7. Section 54790 of the Government Code, as amended by Section 3 of Chapter 855 of the Statutes of 1981, is amended to read:

54790. The commission shall have the following powers and duties, subject to the limitations upon its jurisdiction herein set forth:

(2) The formation of special districts.

(3) The annexation of territory to local agencies, (other than local agencies the annexation of territory to which is required to be made pursuant to the provisions of Division 1 (commencing with Section 56000) of Title 6); provided, however, that a commission shall not have the power to disapprove an annexation, initiated by resolution, of contiguous territory which the commission finds is either (1) surrounded or substantially surrounded by the city to which the annexation is proposed or by such city and a county boundary or the Pacific Ocean if the territory to be annexed is substantially developed or developing, is not prime agricultural land as defined in Section 35046, and is designated for urban growth by the general plan of the annexing city or, (2) located within an urban service area which has been delineated and adopted by a commission, which is not prime agricultural land, as defined in Section 35046 and is designated for urban growth by the general plan of the annexing city. A commission shall not impose any conditions which would directly regulate land use, property development, or subdivision requirements. When the development purposes are not made known to the annexing agency, the annexation shall be reviewed on the basis of the adopted plans and policies of the annexing agency. Nothing in this paragraph, however, shall be construed as prohibiting a commission from requiring, as a condition to annexation, that a city prezone the territory to be annexed provided that the commission shall not specify how, or in what manner, the territory shall be prezoned.

(4) The exclusion of territory from a city.

(5) The disincorporation of a city.

(g) To waive the restrictions of Section 35010 if it finds that the application of the restrictions would be detrimental to the orderly development of the community and that the area that would be enclosed by the annexation or incorporation is so located that it cannot reasonably be annexed to another city or incorporated as a new city.

(h) To waive the application of Section 25210.90 if it finds the application would deprive an area of a service needed to insure the health, safety, or welfare of the area's residents and if it finds that such waiver would not affect the ability of a city to provide any service; provided, however, that within 60 days of the inclusion of the territory within the city, the governing body may adopt a resolution nullifying the waiver.

This section shall remain in effect only until January 1, 1988, and as of such date is repealed, unless a later enacted statute, which is chaptered before January 1, 1988, deletes or extends such date.

SEC. 8. Section 56250.5 is added to the Government Code, to read:

56250.5. (a) Notwithstanding any other provision of this part, the commission shall not have any authority to review a reorganization which includes an annexation to any city in Santa Clara County of unincorporated territory which is within the urban service area of the city if the reorganization is initiated by resolution of the legislative body of the city within two years after the date upon which the urban service area is delineated and adopted by the commission.

(4) That the proposal does not create islands or areas in which it

would be difficult to provide municipal services.

(5) That the proposal is consistent with the city's adopted general plan.

(6) That the territory is contiguous to existing city limits.

(c) All reorganizations which involve territory for which the land use designation in the city's general plan has changed from the time that the city's urban service area was last adopted by the commission, and which are processed by a city pursuant to this section shall be subject to an appeal to the commission upon submission of a petition of appeal, signed by at least 50 registered voters in the county .

(d) An appeal to the commission may also be made by submission of a resolution of appeal adopted by the legislative body of a special district solely for the purpose of determining whether some or all of the territory contained in the reorganization proposal should also be annexed or detached from that special district.

(e) Any such petition under subdivision (c) or resolution under subdivision (d) shall be submitted to the executive officer of the commission within 15 days of the adoption by the legislative body of the city of the resolution approving the annexation. The executive officer of the commission shall schedule the hearing for the next regular meeting of the commission as is practicable. The commission may set a reasonable appeal fee.

Therefore, Section 6.5 of this act shall become operative only if this bill and Assembly Bill 2004 are both chaptered and become effective January 1, 1983, both amend Section 54784, and this bill is chaptered after Assembly Bill 2004, in which case Section 6 of this act shall not become operative.

SEC. 10. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

The report of the examiners shall be made available to the licensee and may be received as direct evidence in a proceeding conducted pursuant to Section 2297.

The licensee's refusal to comply with an order compelling examination shall constitute grounds for the suspension or revocation of the licensee's certificate.

If the division determines that there is insufficient evidence to bring an action against the licensee, then all records of the proceedings shall be kept confidential and are not subject to discovery or subpoena. If no further proceedings are conducted pursuant to Section 2297 during a period of three years from the date of the determination, the division shall purge and destroy all records pertaining to the proceedings under this section. SEC. 2. Section 2297 of the Business and Professions Code is amended to read:

(b) Suspending the licensee's right to practice for a period not exceeding one year.

(c) Revoking the licensee's certificate.

(d) Taking such other action in relation to the licensee as the division in its discretion deems proper.

The division shall not reinstate a suspended or revoked certificate until it has received competent evidence of the absence or control

SEC. 3. Section 2299 of the Business and Professions Code is amended to read:

2299. In reinstating a certificate which has been revoked or suspended under Section 2297, the Division of Medical Quality may impose terms and conditions to be followed by the licensee after the certificate has been reinstated. (c) Requiring the licensee to submit to a complete diagnostic examination by one or more physicians and surgeons appointed by the division. If the division requires the licensee to submit to such an examination, the division shall receive and consider any other report of a complete diagnostic examination given by one or more physicians and surgeons of the licensee's choice.

(d) Requiring the licensee to undergo continuing treatment.

(e) Restricting or limiting the extent, scope, or type of practice of the licensee.

[Approved by Governor September 17, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Article 12.5 (commencing with Section 820) is added to Chapter 1 of Division 2 of the Business and Professions Code, to read:

Article 12.5. Mental Illness or Physical Illness

820. Whenever it appears that any person holding a license, certificate or permit under this division, under any initiative act referred to in this division, under Chapter 17 (commencing with Section 9000) of Division 3, or under Chapter 4 (commencing with Section 17800) of Part 3 of Division 7 may be unable to practice his or her profession safely because the licentiate's ability to practice is impaired due to mental illness, or physical illness affecting competency, the licensing agency may order the licentiate to be examined by one or more physicians and surgeons or psychologists designated by the agency. The report of the examiners shall be made available to the licentiate and may be received as direct evidence in proceedings conducted pursuant to Section 822.

821. The licentiate's failure to comply with an order issued under Section 820 shall constitute grounds for the suspension or revocation of the licentiate's certificate or license.

822. If a licensing agency determines that its licentiate's ability to practice his or her profession safely is impaired because the licentiate is mentally ill, or physically ill affecting competency, the licensing agency may take action by any one of the following methods:

(a) Revoking the licentiate's certificate or license.

(b) Suspending the licentiate's right to practice.

(c) Placing the licentiate on probation.

(d) Taking such other action in relation to the licentiate as the licensing agency in its discretion deems proper.

The licensing agency shall not reinstate a revoked or suspended certificate or license until it has received competent evidence of the absence or control of the condition which caused its action and until it is satisfied that with due regard for the public health and safety the person's right to practice his or her profession may be safely reinstated.

823. Notwithstanding any other provisions of law, reinstatement of a licentiate against whom action has been taken pursuant to Section 822 shall be governed by the procedures in this article. In reinstating a certificate or license which has been revoked or suspended under Section 822, the licensing agency may impose terms and conditions to be complied with by the licentiate after the certificate or license has been reinstated. The authority of the licensing agency to impose terms and conditions includes, but is not

limited to, the following:

(a) Requiring the licentiate to obtain additional professional training and to pass an examination upon the completion of the training.

(b) Requiring the licentiate to pass an oral, written, practical, or clinical examination, or any combination thereof to determine his or her present fitness to engage in the practice of his or her profession.

(c) Requiring the licentiate to submit to a complete diagnostic examination by one or more physicians and surgeons or psychologists appointed by the licensing agency. If the licensing agency requires the licentiate to submit to such an examination, the licensing agency shall receive and consider any other report of a complete diagnostic examination given by one or more physicians and surgeons or psychologists of the licentiate's choice.

(d) Requiring the licentiate to undergo continuing treatment.

(e) Restricting or limiting the extent, scope or type of practice of the licentiate.

824. The licensing agency may proceed against a licentiate under either Section 820, or 822, or under both sections.

825. As used in this article with reference to persons holding certificates as physicians and surgeons, "licensing agency" means the Division of Medical Quality.

826. The proceedings under Sections 821 and 822 shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the licensing agency and the licentiate shall have all the rights and powers granted therein.

827. Notwithstanding the provisions of Article 9 (commencing with Section 11120) of Chapter 1 of Part 1 of Division 3 of Title 2 of the Government Code, relating to public meetings, the licensing agency may convene in closed session to consider any evidence relating to the licentiate's mental or physical illness obtained pursuant to the proceedings under Section 820. The licensing agency shall only convene in closed session to the extent that it is necessary to protect the privacy of a licentiate.

828. If the licensing agency determines, pursuant to proceedings conducted under Section 820, that there is insufficient evidence to bring an action against the licentiate pursuant to Section 822, then all licensing agency records of the proceedings, including the order for the examination, investigative reports, if any, and the report of the physicians and surgeons or psychologists, shall be kept confidential and are not subject to discovery or subpoena. If no further proceedings are conducted to determine the licentiates fitness to practice during a period of five years from the date of the determination by the licensing agency of the proceeding pursuant to Section 820, then the licensing agency shall purge and destroy all records pertaining to the proceedings. If new proceedings are instituted during the five-year period against the licentiate by the licensing agency, the records, including the report of the physicians

and surgeons or psychologists, may be used in the proceedings and shall be available to the respondent pursuant to the provisions of Section 11507.6 of the Government Code.

SEC. 3. Chapter 11 (commencing with Section 15600) is added to Part 3 of Division 9 of the Welfare and Institutions Code, to read:

CHAPTER 11. ABUSE OF THE ELDERLY AND OTHER DEPENDENT ADULTS

Article 1. Legislative Findings and Intent

15600. The Legislature recognizes that dependent adults may be subjected to abuse, neglect, or abandonment and that this state has a responsibility to protect such persons.

The Legislature further recognizes that a significant number of these persons are elderly. The Legislature desires to direct special attention to the needs and problems of the elderly, recognizing that these persons constitute a significant and identifiable segment of the population and that they are more subject to risks of abuse, neglect, and abandonment.

The Legislature declares that if this state is to foster and promote community services for the economic, social, and personal well-being of its citizens, as desired by the Legislature, it must take steps designed to protect those persons described in this section.

15601. The purposes of this act are to:

(a) Encourage health care providers, social service workers, and community members in general to report suspected cases of abuse of dependent adults.

(b) Collect information on the numbers of abuse victims, circumstances surrounding the act of abuse, and other data which will aid the state in establishing adequate services to aid all victims of abuse in a timely, compassionate manner.

(c) Provide for protection under the law for all those persons who report suspected cases of abuse, provided that the report is not made with malicious intent.

15602. This chapter shall remain in effect only until January 1, 1986, and on that date is repealed unless a later enacted statute, which is chaptered before that date, deletes or extends the date.

Article 2. Definitions

15610. As used in this chapter:

(1) The term "abuse" means the infliction of injury, intimidation, cruel punishment, or other treatment with resulting physical harm or pain or mental suffering, or the deprivation by a care-giver of goods or services which are necessary to avoid physical harm or mental suffering.

(2) "Neglect" means the failure of any person having the care or custody of a dependent adult to exercise that degree of care which a reasonable person in a like position would exercise.

Neglect includes, but is not limited to:

(a) Failure to assist in personal hygiene, or in the provision of food and clothing for a dependent adult.

(b) Failure to provide the medical care for the physical and mental health needs of a dependent adult. No person shall be deemed neglected or abused for the sole reason that he or she voluntarily relies on treatment by spiritual means through prayer alone in lieu of medical treatment.

(c) Failure to protect a dependent adult from health and safety hazards.

(d) Failure to prevent a dependent adult from suffering malnutrition.

(3) The term "abandonment" refers to the desertion or willful foresaking of a dependent adult by a care-giver.

Physical abuse includes, but is not limited to, direct beatings, sexual assault, unreasonable physical constraint, or prolonged deprivation of food or water.

(5) The term "mental suffering" means deliberately subjecting a person to fear, agitation, confusion, severe depression, or other forms of serious emotional distress, through threats, harassment, or other forms of intimidating behavior.

(6) The term "dependent adult" means any person residing in California who has attained the age of 18 years or older who has physical, mental, or financial limitations which restrict his or her individual ability to carry out normal activities of daily living, ability to protect his or her own rights, and which threaten the individual's capacity to live an independent life.

(7) The term "goods or services which are necessary to avoid physical harm or mental suffering" includes but is not limited to: (a) the provision of medical care for physical and mental health needs, (b) assistance in personal hygiene, (c) possessing adequate clothing, (d) adequately heated and ventilated shelter, (e) protection from health and safety hazards, (f) protection from malnutrition, under those circumstances where the results include but are not limited to, malnutrition and deprivation of necessities or physical punishment, and (g) transportation and assistance necessary to secure any of the needs set forth in paragraphs (a) through (f). No person shall be deemed neglected or abused for the sole reason that he or she voluntarily relies on treatment by spiritual means through prayer alone in lieu of medical treatment.

(8) The term "care-giver" means, any person, health facility, community care facility, clinic, home health agency or legal guardian

or conservator who provides goods or services necessary to avoid physical harm, or mental suffering, and who performs duties.

(9) The term "nursing home ombudsman" means the long-term care ombudsman of the Department of Aging, the ombudsman coordinators of that department, and the persons acting in the capacity of regional ombudsman on behalf of approved organizations as described in Chapter 9 (commencing with Section 9700) of Division 8.5.

Article 3. Data Base Method of Reporting Requirements

15620. The State Department of Social Services shall submit a report to the Legislature and Governor on the characteristics of abuse victims. The State Department of Social Services shall incorporate any and all comments or observations on abuse of the elderly. The State Department of Social Services shall design the report form by April 1, 1983. The counties, or the designated contract agency shall begin using the form by January 1, 1984.

15620.5. The State Department of Social Services shall report to the Legislature by July 31, 1985.

15621. The evaluation and report shall include, but not be limited to, the following areas of inquiry:

(a) An estimation of the extent of the problem.

(b) The nature of adult abuse, including data concerning the following:

(1) The age of each dependent person 18 years of age or older reported as having been abused, neglected, or abandoned.

(2) The type of incident specified as abuse, either physical or mental, neglect, or abandonment.

(3) The frequency of abuse reported in a general time frame such as daily, weekly, monthly, sporadically, or unknown.

(4) The location, including demographic information as to urban versus rural incidents of, as well as a differentiation between, institutional and home abuse.

(c) The relationship of the suspected abuser to the abused.

(d) A standardized reporting mechanism. The form to be utilized shall be developed by the department, which shall be responsible for collecting the data, collating statistical information and delegating a central reporting area for the collection of the data. Full recognition is given that complete data may not be available for each incident reported. The name of the abused and all persons reporting suspected cases shall at all times be confidential.

(e) Information discussing the availability of services for those dependent persons reported as having been abused, neglected, or abandoned.

(f) Recommendations by the department, in cooperation with the Department of Aging regarding further study or needed policy changes, including legislation. Specific recommendations for unmet needs shall be identified.

Information on institutional abuse filed with the State Department of Health Services district licensing and certification offices shall be included in the report. The State Department of Health Services and the State Department of Social Services shall coordinate the confidential exchange of this information.

Article 4. Reports of Abuse

15630. Any person witnessing or suspecting that a dependent adult is being or has been subject to abuse may report suspected cases to the county adult protective services agency.

Any person reporting under this article is immune from civil or criminal liability due to, or arising out of failure to file a report. Any person who reports under this section is also immune from civil or criminal liability, unless such person acted in bad faith or with a malicious purpose.

No employee shall be discharged, suspended, disciplined, or harassed for making a report pursuant to this article.

15631. The County Board of Supervisors may designate a voluntary or private nonprofit community agency to receive reports filed pursuant to this article.

Each county adult protective agency or designated contract agency shall maintain an inventory of all public and private service agencies available to assist victims of abuse as defined by Section 15610. This inventory shall be used to refer victims in the event that the county adult protective services agency cannot resolve the immediate needs of the victim, and to serve the victim on a long-term, followup basis. The intent of this section is to acknowledge that limited funds are available to resolve all suspected cases of abuse reported to a county adult protective services agency. Counties are encouraged to establish a formal agreement with the local nursing home ombudsman programs to help resolve suspected cases of abuse occurring in an institutional setting.

SEC. 4. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made, in connection with implementation of this act, by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 5. It is the intent of the Legislature, if this bill and Assembly Bill 1985 are both chaptered and amend Section 12940 of the Government Code, and this bill is chaptered after Assembly Bill 1985, that the amendments to Section 12940 proposed by both bills be given effect and incorporated in Section 12940 in the form set forth in Section 2 of this act. Therefore, Section 2 of this act shall become operative only if this bill and Assembly Bill 1985 are both chaptered, both amend Section 12940, and Assembly Bill 1985 is chaptered

before this bill, in which case Section 1 of this act shall not become operative.

(a) All charter bus services authorized to be performed by a public transportation system receiving funding under this chapter shall contribute financially to the reduction of deficits incurred in the operation of scheduled route service. In addition, the charter bus service shall not interfere with regularly scheduled service to the public or compete unfairly with private operators where the private operators are willing and able to provide charter bus service.

(b) Except as provided in subdivision (d), charter bus service rates and minimums shall be established which are either of the following:

(1) At least equal to the average of the three lowest current rates charged by private charter bus carriers actually operating charters originating in the same service area of the public transportation system during the prior year.

CHAPTER 1188

[Approved by Governor September 18, 1982. Filed with Secretary of State September 20, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Division 18.5 (commencing with Section 32000) is added to the Elections Code, to read:

DIVISION 18.5. CALIFORNIA ELECTION CAMPAIGN FUND ACT

CHAPTER 1. FINDINGS AND POLICY

32000. This division shall be known and may be cited as the California Election Campaign Fund Act.

32001. The Legislature finds and declares:

(a) Candidates are now frequently dependent on large contributions from wealthy individuals and interest groups for campaign financing. Individuals and interest groups who make large contributions thus may enjoy disproportionate access to public officials and influence in government decisionmaking. Large contributions may also impede the solicitation of small contributions.

(b) This act seeks to reduce candidate dependence on large contributions and the excessive influence of large contributors, by providing qualified political parties with a campaign fund based on small contributions, which fund shall be used to assist candidates under the direction of the state parties and certain of their elected representatives.

CHAPTER 2. DESIGNATION BY INDIVIDUALS

32002. (a) Every individual, who is lawfully able to make contributions to qualified political parties in California, may designate the payment of one dollar ($1), five dollars ($5), ten dollars ($10), or twenty-five dollars ($25), in addition to his or her

income tax liability to be paid over to the California Election Campaign Fund in accordance with the provisions of this chapter. In the case of a joint return of individuals, each spouse may separately designate that one dollar ($1), five dollars ($5), ten dollars ($10), or twenty-five dollars ($25), shall be paid to that fund.

(b) For the purposes of subdivision (a), the California income tax liability of an individual for any taxable year is the amount of his or her total income tax liability for that taxable year pursuant to the applicable provisions of the Revenue and Taxation Code.

(c) If an individual chooses to contribute an amount as provided for in subdivision (a) to the California Election Campaign Fund under subdivision (a), he or she shall designate on the applicable California tax return which of the qualified political parties of the State of California the contribution shall benefit. The Franchise Tax Board shall revise the forms for reporting California tax liability in accordance with this section.

CHAPTER 3. PAYMENTS TO QUALIFIED POLITICAL PARTIES

32003. For all licenses except retail package off-sale beer and wine licenses, upon receipt of an application for a license or for a transfer of a license and the applicable fee, the department shall make a thorough investigation to determine whether the applicant and the premises for which a license is applied qualify for a license. The department shall also determine whether the provisions of this division have been complied with, and shall investigate all matters connected therewith which may affect the public welfare and morals. The department shall deny an application for a license or transfer of a license if either the applicant or the premises for which a license is applied do not qualify for a license under this division.

The department further may deny an application for a license if issuance of such license would tend to create a law enforcement problem, or if issuance would result in or add to an undue concentration of licenses and the applicant fails to show that public convenience or necessity would be served by such issuance.

This section shall remain in effect until January 1, 1984, and as of such date is repealed.

The department shall also determine whether the provisions of this division have been complied with, and shall investigate all matters directly related to the issuance or transfer of such license which may affect the public welfare and morals. The department shall not, however, investigate any matters connected with the operation of a premises, such as

The department shall also reject any protests against an off-sale beer and wine retail alcoholic beverage license which are based on evidence, information or conditions resulting from operation of the premises, such as operating hours, parking availability or operating noise, not resulting solely from the sale of alcoholic beverages. If the department rejects a protest as provided in this section and issues a license, a protestant whose protest has been rejected may, within 10 days after the issuance of the license, file an accusation with the department alleging the grounds of protest as a cause for revocation of the license and the department shall hold a hearing as provided in Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

15119. The elections official of any county or city using voting or vote tabulating equipment shall inspect the machines or devices at least once every two years to determine their accuracy. Any county or city using leased or rented equipment shall determine if the equipment has been inspected for accuracy within the last two years before using it for any election. The inspection shall be made in accordance with regulations adopted and promulgated by the Secretary of State. The elections official shall certify the results of the inspection to the Secretary of State.

15120. If the Secretary of State has reason to believe that a local inspection of equipment is not adequate, he or she may cause the equipment to be reexamined, at any time prior to six months before a statewide election, to insure that they tabulate votes accurately.

For the purpose of reexamining voting equipment the Secretary

of State may employ not more than three expert technicians at a cost to be determined by the Secretary of State. The compensation of the technicians shall be paid by the county using the equipment examined.

The Secretary of State may make all arrangements for the time and place to examine the voting equipment, and shall furnish a complete report of the findings of the examining engineers to the Governor, to the Attorney General, to each county elections official, to the chairmen of the elections committees of the Assembly and Senate, and to the manufacturer of the equipment.

The Secretary of State has the right to withdraw his or her approval previously granted under this article of any voting system or part of a voting system should it be defective or prove unacceptable after such review. Six months' notice must be given before withdrawing approval unless the Secretary of State for good cause shown shall make a determination that a shorter notice period is necessary. Any withdrawal by the Secretary of State of his or her previous approval of a voting system or part of a voting system shall not be effective as to any election conducted within six months of such withdrawal.

(1) Fifty cents ($0.50) per statement when requested in advance on a monthly basis for one or more years.

(2) One dollar ($1) per statement when requested for only one month.

(3) Five dollars ($5) if requested for a single cumulative statement giving all the information described above back to the last statement rendered.

If the mortgagee, beneficiary or vendor transmits to the mortgagor, trustor or vendee a monthly statement or passbook showing moneys received for interest and principal repayment and received and held in and disbursed from an impound or trust account, if any, the mortgagee, beneficiary or vendor shall be deemed to have complied with this section.

No increase in the monthly rate of payment of a mortgagor, trustor or vendee on a real property sale contract for impound or trust accounts shall be effective until after the mortgagee, beneficiary or vendor has furnished the mortgagor, trustor or vendee with an itemized accounting of the moneys presently held by it in the accounts, and a statement of the new monthly rate of payment, and an explanation of the factors necessitating the increase.

The provisions of this section shall be in addition to the obligations of the parties as stated by Section 2943 of this code.

(d) A statement that the applicant has no information or belief that the claim is discharged in a proceeding under Title 11 of the United States Code (Bankruptcy) or that the prosecution of the action is stayed in a proceeding under Title 11 of the United States Code (Bankruptcy).

(e) A description of the property to be attached under the writ of attachment and a statement that the plaintiff is informed and believes that such property is subject to attachment. Where the defendant is a corporation, a reference to "all corporate property which is subject to attachment pursuant to subdivision (a) of Code of Civil Procedure Section 487.010" satisfies the requirements of this subdivision. Where the defendant is a partnership or other unincorporated association, a reference to "all property of the partnership or other unincorporated association which is subject to attachment pursuant to subdivision (b) of Code of Civil Procedure Section 487.010" satisfies the requirements of this subdivision. Where the defendant is a natural person, the description of the property shall be reasonably adequate to permit the defendant to identify the specific property sought to be attached.

SEC. 31. Section 484.050 of the Code of Civil Procedure is amended to read:

484.050. The notice of application and hearing shall inform the defendant of all of the following:

(a) A hearing will be held at a place and at a time, to be specified in the notice, on plaintiff's application for a right to attach order and a writ of attachment.

(b) The order will be issued if the court finds that the plaintiff's claim is probably valid and the other requirements for issuing the order are established. The hearing is not for the purpose of determining whether the claim is actually valid. The determination of the actual validity of the claim will be made in subsequent proceedings in the action and will not be affected by the decisions at the hearing on the application for the order.

(c) The amount to be secured by the attachment is the amount of the defendant's indebtedness claimed by the plaintiff over and above all claims which would reduce the amount of the plaintiff's recovery.

(d) If the right to attach order is issued, a writ of attachment will be issued to attach the property described in the plaintiff's application unless the court determines that such property is exempt from attachment or that its value clearly exceeds the amount necessary to satisfy the amount to be secured by the attachment. However, additional writs of attachment may be issued to attach other nonexempt property of the defendant on the basis of the right to attach order.

(e) If the defendant desires to oppose the issuance of the order,

the defendant shall file with the court and serve on the plaintiff a notice of opposition and supporting affidavit as required by Section 484.060 not later than five days prior to the date set for hearing.

(f) If the defendant claims that the personal property described in the application, or a portion thereof, is exempt from attachment, the defendant shall include that claim in the notice of opposition filed and served pursuant to Section 484.060 or file and serve a separate claim of exemption with respect to the property as provided in Section 484.070. If the defendant does not do so, the claim of exemption will be barred in the absence of a showing of a change in circumstances occurring after the expiration of the time for claiming exemptions.

(g) The defendant may obtain a determination at the hearing whether real or personal property not described in the application or real property described in the application is exempt from attachment by including the claim in the notice of opposition filed and served pursuant to Section 484.060 or by filing and serving a separate claim of exemption with respect to the property as provided in Section 484.070, but the failure to so claim that the property is exempt from attachment will not preclude the defendant from making a claim of exemption with respect to the property at a later time.

(h) Either the defendant or the defendant's attorney or both of them may be present at the hearing.

(i) The notice shall contain the following statement: "You may seek the advice of an attorney as to any matter connected with the plaintiff's application. The attorney should be consulted promptly so that the attorney may assist you before the time set for hearing."

SEC. 32. Section 484.070 of the Code of Civil Procedure is amended to read:

484.070. (a) If the defendant claims that the personal property described in the plaintiff's application, or a portion of such property, is exempt from attachment, the defendant shall claim the exemption as provided in this section. If the defendant fails to make the claim or makes the claim but fails to prove that the personal property is exempt, the defendant may not later claim the exemption except as provided in Section 482.100.

(b) If the defendant desires to claim at the hearing that real or personal property not described in the plaintiff's application or real property described in the plaintiff's application is exempt from attachment, in whole or in part, the defendant shall claim the exemption as provided in this section. Failure to make the claim does not preclude the defendant from later claiming the exemption. If the claim is made as provided in this section but the defendant fails to prove that the property is exempt from attachment, the defendant may not later claim that the property, or a portion thereof, is exempt except as provided in Section 482.100.

(c) The claim of exemption shall:

(1) Describe the property claimed to be exempt.

(2) Specify the statute section supporting the claim.

(d) The claim of exemption shall be accompanied by an affidavit supporting any factual issues raised by the claim and points and authorities supporting any legal issues raised.

(e) The claim of exemption, together with any supporting affidavit and points and authorities, shall be filed and served on the plaintiff not less than five days before the date set for the hearing.

(f) If the plaintiff desires to oppose the claim of exemption, the plaintiff shall file and serve on the defendant, not less than two days before the date set for the hearing, a notice of opposition to the claim of exemption, accompanied by an affidavit supporting any factual issues raised and points and authorities supporting any legal issues raised. If the plaintiff does not file and serve a notice of opposition as provided in this subdivision, no writ of attachment shall be issued as to the property claimed to be exempt. If all of the property described in the plaintiff's application is claimed to be exempt and the plaintiff does not file and serve a notice of opposition as provided in this subdivision, no hearing shall be held and no right to attach order or writ of attachment shall be issued and any temporary protective order issued pursuant to Chapter 6 (commencing with Section 486.010) immediately expires.

(g) If the plaintiff files and serves a notice of opposition to the claim as provided in this section, the defendant has the burden of proving that the property is exempt from attachment.

SEC. 33. Section 484.090 of the Code of Civil Procedure is amended to read:

484.090. (a) At the hearing, the court shall consider the showing made by the parties appearing and shall issue a right to attach order, which shall state the amount to be secured by the attachment determined by the court in accordance with Section 483.015 or 483.020, if it finds all of the following:

(1) The claim upon which the attachment is based is one upon which an attachment may be issued.

(2) The plaintiff has established the probable validity of the claim upon which the attachment is based.

(3) The attachment is not sought for a purpose other than the recovery on the claim upon which the attachment is based.

(b) If, in addition to the findings required by subdivision (a), the court finds that the defendant has failed to prove that all the property sought to be attached is exempt from attachment, it shall order a writ of attachment to be issued upon the filing of an undertaking as provided by Sections 489.210 and 489.220.

(c) If the court determines that property of the defendant is exempt from attachment, in whole or in part, the right to attach order shall describe the exempt property and prohibit attachment of the property.

(d) The court's determinations shall be made upon the basis of the pleadings and other papers in the record; but, upon good cause shown, the court may receive and consider at the hearing additional

evidence, oral or documentary, and additional points and authorities, or it may continue the hearing for the production of the additional evidence or points and authorities.

SEC. 34. Section 484.100 of the Code of Civil Procedure is amended to read:

484.100. The court's determinations under this chapter shall have no effect on the determination of any issues in the action other than issues relevant to proceedings under this chapter nor shall they affect the rights of the plaintiff or defendant in any other action arising out of the same claim of the plaintiff or defendant. The court's determinations under this chapter shall not be given in evidence nor referred to at the trial of any such action.

SEC. 35. Section 484.110 of the Code of Civil Procedure is amended to read:

484.110. (a) Neither the failure of the defendant to oppose the issuance of a right to attach order under this chapter nor the defendant's failure to rebut any evidence produced by the plaintiff in connection with proceedings under this chapter shall constitute a waiver of any defense to the plaintiff's claim in the action or any other action or have any effect on the right of the defendant to produce or exclude evidence at the trial of any such action.

(b) Neither the failure of the plaintiff to oppose the issuance of an order reducing the amount to be secured by the attachment under this chapter nor the plaintiff's failure to rebut any evidence produced by the defendant in connection with proceedings under this chapter shall constitute a waiver of any defense to the defendant's claim in the action or any other action or have any effect on the right of the plaintiff to produce or exclude evidence at the trial of any such action.

SEC. 36. Section 484.320 of the Code of Civil Procedure is amended to read:

484.320. The application shall be executed under oath and shall include all of the following:

(a) A statement that the plaintiff has been issued a right to attach order under Article 1 (commencing with Section 484.010) or that the court has found pursuant to Section 485.240 that the plaintiff is entitled to a right to attach order.

(b) A statement of the amount to be secured by the attachment.

(c) A description of the property to be attached under the writ of attachment and a statement that the plaintiff is informed and believes that the property is subject to attachment. The description shall satisfy the requirements of Section 484.020.

(d) A statement that the applicant has no information or belief that the claim is discharged in a proceeding under Title 11 of the United States Code (Bankruptcy) or that the prosecution of the action is stayed in a proceeding under Title 11 of the United States Code (Bankruptcy).

SEC. 37. Section 484.340 of the Code of Civil Procedure is amended to read:

484.340. The notice of application and hearing shall inform the defendant of all of the following:

(a) The plaintiff has applied for a writ of attachment to attach the property described in the application.

(b) A hearing will be held at a place and at a time, to be specified in the notice, to determine whether the plaintiff is entitled to the writ.

(c) A writ of attachment will be issued to attach the property described in the plaintiff's application unless the court determines that the property is exempt from attachment or that its value clearly exceeds the amount necessary to satisfy the amount to be secured by the attachment.

(d) If the defendant claims that the property described in the application, or a portion thereof, is exempt from attachment, the defendant may file with the court and serve on the plaintiff a claim of exemption with respect to the property as provided in Section 484.350 not later than five days prior to the date set for hearing. If the defendant fails to make such a claim with respect to personal property, the defendant may not later claim the exemption in the absence of a showing of a change in circumstances occurring after the expiration of the time for claiming exemptions.

(e) Either the defendant or the defendant's attorney or both of them may be present at the hearing.

(f) The notice shall contain the following statement: "You may seek the advice of an attorney as to any matter connected with the plaintiff's application. The attorney should be consulted promptly so that the attorney may assist you before the time set for hearing."

(a) If the defendant claims that the property described in the plaintiff's application, or a portion of such property, is exempt from attachment, the defendant may claim the exemption as provided in this section. If the defendant fails to make a claim with respect to personal property, or makes a claim with respect to real or personal property but fails to prove that the property is exempt, the defendant may not later claim the exemption except as provided in Section 482.100.

(b) The claim of exemption shall:

(1) Describe the property claimed to be exempt.

(2) Specify the statute section supporting the claim.

(c) The claim of exemption shall be accompanied by an affidavit supporting any factual issues raised by the claim and points and authorities supporting any legal issues raised.

(11) Final money judgments, pursuant to Section 488.480.

(12) Interest of a defendant in personal property in the estate of a decedent, pursuant to Section 488.485.

(b) If a registered process server levies on property pursuant to subdivision (a), the registered process server shall do all of the following:

(1) Comply with the applicable levy, posting, and service provisions of Article 2 (commencing with Section 488.300).

(2) Deliver any undertaking required by Section 488.465.

(3) Request any third person served to give a garnishee's memorandum to the levying officer in compliance with Section 488.610.

(c) Within five days after levy under this section, all of the following shall be filed with the levying officer:

(1) The writ of attachment.

(2) An affidavit of the registered process server stating the manner of levy performed.

(3) Proof of service of the copy of the writ and notice of attachment on other persons as required by Article 2 (commencing with Section 488.300).

(4) Instructions in writing, as required by the provisions of Section 488.030.

(d) Upon receipt of the fee provided by Section 26721 of the Government Code, the levying officer shall perform all other duties under the writ as if the levying officer had levied under the writ and shall return the writ to the court. The levying officer is not liable for actions taken in conformance with the provisions of this title in reliance on information provided to the levying officer under subdivision (c) except to the extent that the levying officer has actual knowledge that the information is incorrect. Nothing in this subdivision limits any liability the plaintiff or registered process server may have if the levying officer acts on the basis of incorrect information provided under subdivision (c).

(e) The fee for services of a registered process server under this section may, in the court's discretion, be allowed as a recoverable cost. If allowed, the amount of the fee to be allowed is governed by Section 1032b.

488.090. Except as otherwise provided by statute, where the

method of levy upon property requires that property be taken into custody or where the levying officer is otherwise directed to take property into custody, the levying officer may do so by any of the following methods:

(a) Removing the property to a place of safekeeping.

(b) Installing a keeper.

(c) Otherwise obtaining possession or control of the property.

488.100. The levying officer has a special lien, dependent upon possession, on personal property levied upon in the amount of the levying officer's costs for which an advance has not been made.

488.110. A third person shall claim an interest in property attached in the manner provided for third-party claims under Division 4 (commencing with Section 720.010) of Title 9.

488.120. In any case where property has been levied upon and, pursuant to a levy, a copy of the writ of attachment and a notice of attachment are required by statute to be posted or to be served on or mailed to the defendant or other person, failure to post, serve, or mail the copy of the writ and the notice does not affect the attachment lien created by the levy.

488.130. (a) The levying officer to whom the writ of attachment is delivered shall return the writ to the court from which the writ issued, together with a report of the levying officer's actions. The return shall be made promptly in accordance with the plaintiff's instructions given to the levying officer but in no event later than 60 days after the levying officer receives the writ.

(b) The levying officer shall make a full inventory of property attached and return the inventory with the writ.

488.140. (a) The levying officer is not liable for actions taken in conformance with the provisions of this title, including actions taken in conformance with the provisions of this title in reliance on information contained in the written instructions of the plaintiff except to the extent the levying officer has actual knowledge that the information is incorrect. Nothing in this subdivision limits any liability the plaintiff may have if the levying officer acts on the basis of incorrect information given in the written instructions.

(b) Unless the levying officer is negligent in the care or handling of the property, the levying officer is not liable to either the plaintiff or the defendant for loss by fire, theft, injury, or damage of any kind to personal property while (1) in the possession of the levying officer either in a warehouse or other storage place or in the custody of a keeper or (2) in transit to or from a warehouse or other storage place.

Article 2. Methods of Levy

488.300. If the method of levy under a writ of execution is incorporated by this article, for the purposes of this article references in Article 4 (commencing with Section 700.010) of Chapter 3 of Division 2 of Title 9 to:

(a) "Judgment creditor" shall be deemed references to the

plaintiff.

(b) "Judgment debtor" shall be deemed references to the defendant.

(c) "Notice of levy" shall be deemed references to a notice of attachment.

488.305. At the time of levy pursuant to this article or promptly thereafter, the levying officer shall serve a copy of the writ of attachment and a notice of attachment on the defendant.

488.315. To attach real property, the levying officer shall comply with Section 700.015 and the recorder shall index the copy of the writ of attachment and a notice of attachment as provided in that section.

488.325. To attach (1) growing crops, (2) timber to be cut, or (3) minerals or the like (including oil and gas) to be extracted or accounts receivable resulting from the sale thereof at the wellhead or minehead, the levying officer shall comply with Section 700.020 and the recorder shall index the copy of the writ of attachment and a notice of attachment as provided in that section.

488.335. Unless another method of attachment is provided by this article, to attach tangible personal property in the possession or under the control of the defendant, the levying officer shall take the property into custody.

488.345. Unless another method of attachment is provided by this article, to attach tangible personal property in the possession or under the control of a third person, the levying officer shall comply with Section 700.040.

488.355. (a) To attach personal property in the custody of a levying officer, the plaintiff or levying officer shall comply with subdivision (a) of Section 700.050.

(b) The levying officer having custody of the property shall comply with the writs in the order they are received and is not subject to the provisions of Article 4 (commencing with Section 488.600).

488.365. To attach goods in the possession of a bailee (as defined in Section 7102 of the Commercial Code) other than one who has issued a negotiable document of title therefor, the levying officer shall comply with Section 700.060.

488.375. (a) Except as provided by Section 488.385, to attach equipment of a going business in the possession or under the control of the defendant, the levying officer shall file with the office of the Secretary of State a notice of attachment, in the form prescribed by the Secretary of State, which shall contain all of the following:

(1) The name and mailing address of the plaintiff.

(2) The name and last known mailing address of the defendant.

(3) The title of the court where the action is pending and the cause and number of the action.

(4) A description of the specific property attached.

(5) A statement that the plaintiff has acquired an attachment lien on the specified property of the defendant.

(b) Upon presentation of a notice of attachment under this section for filing, and tender of the filing fee to the office of the Secretary of State, the notice of attachment shall be filed, marked, and indexed in the same manner as a financing statement. The fee for filing in the office of the Secretary of State is the same as the fee for filing a financing statement in the standard form.

(c) Upon the request of any person, the Secretary of State shall issue a certificate showing whether there is on file in that office on the date and hour stated therein any notice of attachment filed against the equipment of a particular person named in the request. If a notice of attachment is on file, the certificate shall state the date and hour of filing of each such notice and any notice affecting any such notice of attachment and the name and address of the plaintiff. The fee for the certificate issued pursuant to this subdivision is the same as the fee for a certificate issued pursuant to Section 9407 of the Commercial Code. Upon request, the Secretary of State shall furnish a copy of any notice of attachment or notice affecting a notice of attachment for the fee for a copy prescribed by subdivision (2) of Section 9407 of the Commercial Code.

(d) The fee for filing, indexing, and furnishing filing data for a notice of extension of attachment is the same as the fee for a continuation statement under Section 9403 of the Commercial Code. The fee for filing, indexing, and furnishing filing data for a notice of release of attachment is the same as the fee for a statement of release under Section 9405 of the Commercial Code.

488.385. (a) To attach a vehicle or vessel for which a certificate of ownership has been issued by the Department of Motor Vehicles, or a mobilehome or commercial coach for which a certificate of title has been issued by the Department of Housing and Community Development, which is equipment of a going business in the possession or under the control of the defendant, the levying officer shall file with the appropriate department a notice of attachment, in the form prescribed by the appropriate department, which shall contain all of the following:

(1) The name and mailing address of the plaintiff.

(2) The name and last known mailing address of the defendant.

(3) The title of the court where the action is pending and the cause and number of the action.

(4) A description of the specific property attached.

(5) A statement that the plaintiff has acquired an attachment lien on the specific property of the defendant.

(b) Upon presentation of a notice of attachment, notice of extension, or notice of release under this section for filing and tender of the filing fee to the appropriate department, the notice shall be filed and indexed. The fee for filing and indexing the notice is three dollars ($3).

(c) Upon the request of any person, the department shall issue its certificate showing whether there is on file in that department on the date and hour stated therein any notice of attachment filed against

the property of a particular person named in the request. If a notice of attachment is on file, the certificate shall state the date and hour of filing of each such notice of attachment and any notice affecting any such notice of attachment and the name and address of the plaintiff. The fee for the certificate issued pursuant to this subdivision is three dollars ($3). Upon request, the department shall furnish a copy of any notice of attachment or notice affecting a notice of attachment for a fee of one dollar ($1) per page.

488.395. Except as provided by Sections 488.325 and 488.405:

(a) To attach farm products or inventory of a going business in the possession or under the control of the defendant, the levying officer shall place a keeper in charge of the property for the period prescribed by subdivisions (b) and (c). During the keeper period, the business may continue to operate in the ordinary course of business provided that all sales are final and are for cash or its equivalent. For the purpose of this subdivision, a check is the equivalent of cash. The levying officer is not liable for accepting payment in the form of a cash equivalent. The keeper shall take custody of the proceeds from all sales unless otherwise directed by the plaintiff.

(b) Subject to subdivision (c), the period during which the business may continue to operate under the keeper is:

(1) Ten days, if the defendant is a natural person and the writ of attachment has been issued ex parte pursuant to Article 3 (commencing with Section 484.510) of Chapter 4 or pursuant to Chapter 5 (commencing with Section 485.010).

(2) Two days, in cases not described in paragraph (1).

(c) Unless some other disposition is agreed upon by the plaintiff and the defendant, the levying officer shall take the farm products or inventory into exclusive custody at the earlier of the following times:

(1) At any time the defendant objects to placement of a keeper in charge of the business.

(2) At the conclusion of the applicable period prescribed by subdivision (b).

(d) A defendant described in paragraph (1) of subdivision (b) may claim an exemption pursuant to subdivision (b) of Section 487.020 by following the procedure set forth in subdivision (c) of Section 482.100 except that the requirement of showing changed circumstances under subdivision (a) of Section 482.100 does not apply. Upon a showing that the property is exempt pursuant to subdivision (b) of Section 487.020, the court shall order the release of the exempt property and may make such further order as the court deems appropriate to protect against frustration of the collection of the plaintiff's claim. The order may permit the plaintiff to attach farm products or inventory of the going business and proceeds or after-acquired property, or both, by filing pursuant to Section 488.405 and may provide reasonable restrictions on the disposition of the property previously attached.

488.405. (a) This section provides an alternative method of attaching farm products or inventory of a going business in the possession or under the control of the defendant, but this section does not apply to property described in Section 488.325. This section applies if the plaintiff instructs the levying officer to attach the farm products or inventory under this section.

(b) To attach under this section farm products or inventory of a going business in the possession or under the control of the defendant, the levying officer shall file a notice of attachment with the Secretary of State.

(c) Except as provided in subdivisions (d) and (e), the filing of the notice of attachment gives the plaintiff an attachment lien on all of the following:

(1) The farm products or inventory described in the notice.

(2) Identifiable cash proceeds (as that term is used in Section 9306 of the Commercial Code).

(3) If permitted by the writ of attachment or court order, after-acquired property.

(d) The attachment lien created by the filing of the notice of attachment under this section does not extend to either of the following:

(1) A vehicle or vessel required to be registered with the Department of Motor Vehicles or a mobilehome or commercial coach required to be registered pursuant to the Health and Safety Code.

(2) The inventory of a retail merchant held for sale except to the extent that the inventory of the retail merchant consists of durable goods having a unit retail value of at least five hundred dollars ($500). For the purposes of this paragraph, "retail merchant" does not include (A) a person whose sales for resale exceeded 75 percent in dollar volume of the person's total sales of all goods during the 12 months preceding the filing of the notice of attachment or (B) a cooperative association organized pursuant to Chapter 1 (commencing with Section 54001) of Division 20 of the Food and Agricultural Code (agricultural cooperative associations) or Part 3 (commencing with Section 13200) of Division 3 of Title 1 of the Corporations Code (Fish Marketing Act).

(e) If property subject to an attachment lien under this section becomes a fixture (as defined in Section 9313 of the Commercial Code), the attachment lien under this section is extinguished.

(f) The notice of attachment shall be in the form prescribed by the Secretary of State and shall contain all of the following:

(1) The name and mailing address of the plaintiff.

(2) The name and last known mailing address of the defendant.

(3) The title of the court where the action is pending and the cause and number of the action.

(4) A description of the farm products and inventory attached.

(5) A statement that the plaintiff has acquired an attachment lien on the described property and on identifiable cash proceeds (as that

term is used in Section 9306 of the Commercial Code) and, if permitted by the writ of attachment or court order, on after-acquired property.

(g) Upon presentation of a notice of attachment under this section for filing and tender of the filing fee to the office of the Secretary of State, the notice of attachment shall be filed, marked, and indexed in the same manner as a financing statement. The fee for filing in the office of the Secretary of State is the same as the fee for filing a financing statement in the standard form.

(h) Upon the request of any person, the Secretary of State shall issue a certificate showing whether there is on file in that office on the date and hour stated therein any notice of attachment filed against the farm products or inventory of a particular person named in the request. If a notice of attachment is on file, the certificate shall state the date and hour of filing of each such notice of attachment and any notice affecting any such notice of attachment and the name and address of the plaintiff. The fee for the certificate issued pursuant to this subdivision is the same as the fee for a certificate issued pursuant to Section 9407 of the Commercial Code. Upon request, the Secretary of State shall furnish a copy of any notice of attachment or notice affecting a notice of attachment for the fee for a copy prescribed by subdivision (2) of Section 9407 of the Commercial Code.

(i) The fee for filing, indexing, and furnishing filing data for a notice of extension of attachment is the same as the fee for a continuation statement under Section 9403 of the Commercial Code. The fee for filing, indexing, and furnishing filing data for a notice of release of attachment is the same as the fee for a statement of release under Section 9405 of the Commercial Code.

488.415. To attach personal property used as a dwelling, the levying officer shall comply with Section 700.080.

488.425. If a vehicle or vessel is attached and a certificate of ownership has been issued by the Department of Motor Vehicles for the vehicle or vessel and the certificate of ownership is still in effect, or if a mobilehome or commercial coach is attached and a certificate of title has been issued by the Department of Housing and Community Development for the mobilehome or commercial coach and the certificate of title is still in effect, the levying officer shall comply with Section 700.090.

488.435. (a) To attach chattel paper, the levying officer shall comply with Section 700.100.

(b) In addition to any other rights created by a levy on chattel paper, the levy creates a lien on the defendant's rights in specific goods subject to the chattel paper.

488.440. To attach an instrument, the levying officer shall comply with Section 700.110.

488.445. To attach a negotiable document of title, the levying officer shall comply with Section 700.120.

488.450. To attach a security, the levying officer shall comply with

Section 8317 of the Commercial Code.

488.455. (a) To attach a deposit account, the levying officer shall personally serve a copy of the writ of attachment and a notice of attachment on the financial institution with which the deposit account is maintained.

(b) At the time of levy or promptly thereafter, the levying officer shall serve a copy of the writ of attachment and a notice of attachment on any third person in whose name the deposit account stands.

(c) Subject to Section 488.465, during the time the attachment lien is in effect, the financial institution shall not honor a check or other order for the payment of money drawn against, and shall not pay a withdrawal from, the deposit account that would reduce the deposit account to an amount less than the amount attached. For the purposes of this subdivision, in determining the amount of the deposit account, the financial institution shall not include the amount of items deposited to the credit of the deposit account that are in the process of being collected.

(d) During the time the attachment lien is in effect, the financial institution is not liable to any person for any of the following:

(1) Performance of the duties of a garnishee under the attachment.

(2) Nonpayment of a check or other order for the payment of money drawn or presented against the deposit account where the nonpayment is pursuant to the requirements of subdivision (c).

(3) Refusal to pay a withdrawal from the deposit account where the refusal is pursuant to the requirements of subdivision (c).

(e) When the amount attached pursuant to this section is paid to the levying officer, the attachment lien on the attached deposit account terminates.

488.460. (a) To attach property in a safe-deposit box, the levying officer shall personally serve a copy of the writ of attachment and a notice of attachment on the financial institution with which the safe-deposit box is maintained.

(b) At the time of levy or promptly thereafter, the levying officer shall serve a copy of the writ of attachment and a notice of attachment on any third person in whose name the safe-deposit box stands.

(c) Subject to Section 488.465, during the time the attachment lien is in effect, the financial institution shall not permit the removal of any of the contents of the safe-deposit box except pursuant to the attachment.

(d) The levying officer may first give the person in whose name the safe-deposit box stands an opportunity to open the safe-deposit box to permit the removal pursuant to the attachment of the attached property. The financial institution may refuse to permit the forcible opening of the safe-deposit box to permit the removal of the attached property unless the plaintiff pays in advance the cost of forcibly opening the safe-deposit box and of repairing any damage

caused thereby.

(e) During the time the attachment lien is in effect, the financial institution is not liable to any person for any of the following:

(1) Performance of the duties of a garnishee under the attachment.

(2) Refusal to permit access to the safe-deposit box by the person in whose name it stands.

(3) Removal of any of the contents of the safe-deposit box pursuant to the attachment.

488.465. (a) The provisions of this section apply in addition to the provisions of Sections 488.455 and 488.460 if any of the following property is attached:

(1) A deposit account standing in the name of a third person or in the names of both the defendant and a third person.

(2) Property in a safe-deposit box standing in the name of a third person or in the names of both the defendant and a third person.

(b) The plaintiff shall provide, and the levying officer shall deliver to the financial institution at the time of levy, an undertaking given by a corporate surety authorized to execute the undertaking by Section 1056. The undertaking shall be for not less than twice the amount of the attachment or, if a lesser amount in a deposit account is sought to be levied upon, not less than twice the lesser amount. The undertaking shall indemnify any third person rightfully entitled to the property against actual damage by reason of the attachment of the property and shall assure to the third person the return of the property upon proof of the person's right thereto. The undertaking need not name the third person specifically but may refer to the third person generally in the same manner as in this subdivision. If the provisions of this subdivision are not satisfied, the attachment is ineffective and the financial institution shall not comply with the requirements of this section or with the attachment.

(c) Upon delivery of the undertaking to the financial institution, the financial institution shall immediately mail or deliver a notice of the delivery of the undertaking to the third person in whose name the deposit account or safe-deposit box stands. If mailed, the notice shall be sent by registered or certified mail addressed to the person's last address known to the financial institution. The financial institution shall deliver the undertaking as directed by the third person.

(d) Notwithstanding Article 4 (commencing with Section 488.600), from the time of levy and delivery of the undertaking to the financial institution until 15 days after the notice is mailed or delivered under subdivision (c) if no objection to the undertaking is made or, if such objection is made, until the court determines that the undertaking is sufficient, the financial institution shall not do any of the following:

(1) Honor a check or other order for the payment of money drawn against, or pay a withdrawal from, the deposit account that would reduce the deposit account to less than the amount attached.

For the purposes of this paragraph, in determining the amount of the deposit account, the financial institution shall not include the amount of items deposited to the credit of the deposit account that are in the process of being collected.

(2) Permit the removal of any of the contents of the safe-deposit box except pursuant to the writ.

(e) The financial institution is not liable to any person for any of the following during the period prescribed in subdivision (d):

(1) Nonpayment of a check or other order for the payment of money drawn or presented against the deposit account where the nonpayment is pursuant to the requirements of subdivision (d).

(2) Refusal to pay a withdrawal from the deposit account where the refusal is pursuant to the requirements of subdivision (d).

(3) Refusal to permit access to the safe-deposit box by the person in whose name it stands.

(4) Removal of any of the contents of the safe-deposit box pursuant to the attachment.

(f) An objection to the undertaking may be made by any person claiming to be rightfully entitled to the property attached. The objection shall be made in the manner provided by Article 1 (commencing with Section 489.010) of Chapter 9.

(g) Upon the expiration of the period prescribed in subdivision (d), the financial institution shall comply with the attachment and Sections 488.455 and 488.460 apply.

488.470. (a) Unless another method of attachment is provided by this article, to attach an account receivable or general intangible, the levying officer shall personally serve a copy of the writ of attachment and a notice of attachment on the account debtor.

(b) If an attachment is made under subdivision (a) and payments on the account receivable or general intangible are made to a person other than the defendant (whether pursuant to a security agreement, assignment for collection, or otherwise), the levying officer shall, if so instructed by the plaintiff, personally serve a copy of the writ of attachment and a notice of attachment on such third person. Service of the copy of the writ and notice of attachment on the third person is an attachment of any amounts owed to the defendant by the third person.

488.475. (a) The following property may be attached pursuant to this article notwithstanding that the property levied upon is the subject of a pending action or special proceeding:

(1) Real property.

(2) Growing crops, timber to be cut, or minerals or the like (including oil and gas) to be extracted or accounts receivable resulting from the sale thereof at the wellhead or minehead.

(3) Tangible personal property in the possession or under the control of the defendant or in the custody of a levying officer.

(4) The interest of a defendant in personal property in the estate of a decedent, whether the interest arises by testate or intestate succession.

(b) Except as provided in subdivision (a), attachment of property that is the subject of an action or special proceeding pending at the time of the attachment is not effective.

(c) If attachment is attempted but is ineffective under subdivision (b) and the levying officer has requested a garnishee's memorandum under Section 488.610 in connection with the ineffective attachment, the garnishee's memorandum shall include the following information in addition to that required by Section 488.610:

(1) A statement that the attachment of the property is not effective because the property is the subject of a pending action or special proceeding.

(2) The title of the court and the cause and number of the pending action or proceeding.

(d) For the purpose of this section, an action or proceeding is pending from the time the action or proceeding is commenced until judgment has been entered and the time for appeal has expired or, if an appeal is filed, until the appeal has been finally determined.

(e) Nothing in this section affects or limits the right of the plaintiff to obtain a lien pursuant to Article 3 (commencing with Section 491.410) of Chapter 11.

488.480. (a) As used in this section, "final money judgment" means a money judgment after the time for appeal from the judgment has expired or, if an appeal is filed, after the appeal has been finally determined.

(b) To attach a final money judgment, the levying officer shall file a copy of the writ of attachment and a notice of attachment with the clerk of the court that entered the final money judgment. The court clerk shall endorse upon the judgment a statement of the existence of the attachment lien and the time it was created. If an abstract of the judgment is issued, it shall include a statement of the attachment lien in favor of the plaintiff.

(c) At the time of levy or promptly thereafter, the levying officer shall personally serve a copy of the writ of attachment and a notice of attachment on the judgment debtor obligated to pay the final money judgment attached. The filing with the court clerk pursuant to subdivision (b) is not, of itself, notice to the judgment debtor obligated to pay the attached judgment so as to invalidate any payments made by him or her that would otherwise be applied to the satisfaction of the attached judgment.

488.485. (a) To attach the interest of the defendant in personal property in the estate of a decedent, whether the interest arises by testate or intestate succession, the levying officer shall personally serve a copy of the writ of attachment and a notice of attachment on the personal representative of the decedent. The attachment does not impair the powers of the representative over the property for the purposes of administration.

(b) The personal representative shall report the attachment to the court in which the estate is being administered when any

petition for distribution is filed. If a decree orders distribution to the defendant, the court making the decree shall order the attached property to be deliverd to the levying officer. The property may not be delivered to the levying officer until the decree distributing the propety has become final. To the extent the property delivered to the levying officer is not necessary to satisfy the attachment, it shall be released to the defendant.

(c) Promptly after the property is delivered to the levying officer pursuant to subdivision (b), the levying officer shall serve a notice describing the property on the defendant. Notwithstanding Sections 484.070, 484.350, 484.530, and 485.610, a claim of exemption for the property described in the notice may be made within 10 days after the notice was served on the defendant.

Article 3. Lien of Attachment

488.500. (a) A levy on property under a writ of attachment creates an attachment lien on the property from the time of levy until the expiration of the time provided by Section 488.510.

(b) Except as provided in subdivisions (c) and (d), if property subject to an attachment lien is transferred or encumbered, the property transferred or encumbered remains subject to the lien after the transfer or encumbrance to the same extent that the property would remain subject to an execution lien pursuant to Sections 697.720 to 697.750, inclusive.

(c) Except as otherwise provided in this title, if equipment is attached pursuant to Section 488.375 or farm products or inventory is attached pursuant to Section 488.405, the attachment lien on the property covered by the attachment lien has the same force and effect as a judgment lien on personal property created at the same time would have pursuant to Sections 697.590 to 697.620, inclusive.

(d) If equipment consisting of a vehicle, vessel, mobilehome, or commercial coach is attached pursuant to Section 488.385, the attachment lien on the specified property does not affect the rights of a person who is a bona fide purchaser or encumbrancer and obtains possession of both the property and its certificate of ownership issued by the Department of Motor Vehicles or its certificate of title or registration card issued by the Department of Housing and Community Development. If the levying officer obtains possession of the certificate of ownership or certificate of title or registration card, the attachment lien has the priority of the lien of a lien creditor under Section 9301 of the Commercial Code as of the time possession is obtained by the levying officer. If the levying officer does not obtain possession of the certificate of ownership or certificate of title or registration card, the attachment lien has the same force and effect as an unperfected security interest that attached at the same time as the notice of attachment was filed.

(e) If an attachment lien is created on property that is subject to the lien of a temporary protective order or a lien under Article 1

(commencing with Section 491.110) of Chapter 11, the priority of the attachment lien relates back to the date the earlier lien was created. Nothing in this subdivision affects priorities or rights of third persons established while the lien of the temporary protective order or the lien under Article 1 (commencing with Section 491.110) of Chapter 11 was in effect as determined under the law governing the effect of such lien.

488.510. (a) Unless sooner released or discharged, any attachment shall cease to be of any force or effect, and the property levied upon shall be released from the operation of the attachment, at the expiration of three years from the date of issuance of the writ of attachment under which the levy was made.

(b) Notwithstanding subdivision (a), upon motion of the plaintiff, made not less than 10 or more than 60 days before the expiration of the three-year period and upon notice of not less than five days to the defendant whose property is attached, the court in which the action is pending may, by order filed prior to the expiration of the period and for good cause, extend the time of the attachment for a period not exceeding one year from the date on which the attachment would otherwise expire.

(c) The levying officer shall serve notice of the order upon any person holding property pursuant to an attachment and shall record or file the notice in any office where the writ and notice of attachment are recorded or filed prior to the expiration of the period described in subdivision (a) or any extension thereof. Where the attached property is real property, the plaintiff or the plaintiff's attorney, instead of the levying officer, may record the required notice.

(d) Any attachment may be extended from time to time in the manner prescribed in this section, but the maximum period of the attachment, including the extensions, shall not exceed eight years from the date of issuance of the writ of attachment under which the levy of attachment was made.

(e) The death of the defendant whose property is attached does not terminate the attachment.

Article 4. Duties and Liabilities of Third Persons After Levy

488.600. (a) Sections 701.010, 701.020, 701.040, 701.050, and 701.060 prescribe duties and liabilities of a third person under a levy made under this title.

(b) For the purposes of this section, references in Sections 701.010, 701.020, 701.040, 701.050, and 701.060 to:

(1) "Amount required to satisfy the judgment" shall be deemed references to the amount required to satisfy the amount to be secured by the attachment.

(2) "Execution lien" or "lien" shall be deemed references to the attachment lien.

(3) "Judgment creditor" shall be deemed references to the

plaintiff.

(4) "Judgment debtor" shall be deemed references to the defendant.

(5) "Levy" shall be deemed references to levy of attachment.

(6) "Notice of levy" shall be deemed references to notice of attachment.

(7) "Release" of property shall be deemed references to release of property pursuant to this title.

(8) "Satisfaction or discharge of the judgment" shall be deemed references to the satisfaction or termination of the attachment.

(9) "Writ" or "writ of execution" shall be deemed references to a writ of attachment.

488.610. (a) At the time of service of a copy of the writ of attachment and a notice of attachment on a third person, the levying officer shall request the third person to give the levying officer a garnishee's memorandum containing the information required by this section. Within 10 days after the request is made, the third person shall mail or deliver the garnishee's memorandum to the levying officer whether or not the levy is effective.

(b) The garnishee's memorandum shall be executed under oath and shall contain the following information:

(1) A description of any property of the defendant sought to be attached that is not delivered to the levying officer and the reason for not delivering the property.

(2) A statement of the amount and terms of any obligation to the defendant sought to be attached that is due and payable and is not paid to the levying officer and the reason for not paying the obligation.

(3) A statement of the amount and terms of any obligation to the defendant sought to be attached that is not due and payable at the time of levy.

(4) A description of claims and rights of other persons to the attached property or obligation that are known to the third person and the names and addresses of those other persons.

(c) If a garnishee's memorandum is received from the third person, the levying officer shall promptly mail or deliver a copy of the memorandum to the plaintiff and attach the original to the writ when it is returned to the court. If a garnishee's memorandum is not received from the third person, the levying officer shall so state in the return.

(d) Except as provided in subdivisions (e) and (f), if a third person does not give the levying officer a garnishee's memorandum within the time provided in subdivision (a) or does not provide complete information, the third person may, in the court's discretion, be required to pay the costs and reasonable attorney's fees incurred in any proceedings to obtain the information required in the garnishee's memorandum.

(e) Notwithstanding subdivision (a), where a deposit account or property in a safe deposit box is attached, the financial institution

need not give a garnishee's memorandum to the levying officer if the financial institution fully complies with the levy and, if a garnishee's memorandum is required, the garnishee's memorandum need provide information with respect only to property which is carried on the records available at the office or branch where the levy is made.

(f) Notwithstanding subdivision (a), the third person need not give a garnishee's memorandum to the levying officer if both of the following conditions are satisfied:

(1) The third person has delivered to the levying officer all of the property sought to be attached.

(2) The third person has paid to the levying officer the amount due at the time of levy on any obligation to the defendant that was attached and there is no additional amount that thereafter will become payable on the obligation levied upon.

Article 5. Management and Disposition of Attached Property

488.700. (a) If property has been or is sought to be attached, the court may appoint a receiver or order the levying officer to take any action the court orders that is necessary to preserve the value of the property, including but not limited to selling the property, if the court determines that the property is perishable or will greatly deteriorate or greatly depreciate in value or that for some other reason the interests of the parties will be best served by the order. An order may be made under this subdivision upon application of the plaintiff, the defendant, or a person who has filed a third-party claim pursuant to Division 4 (commencing with Section 720.010) of Title 9. The application shall be made on noticed motion if the court so directs or a court rule so requires. Otherwise, the application may be made ex parte.

(b) If the levying officer determines that property is extremely perishable or will greatly deteriorate or greatly depreciate in value before a court order pursuant to subdivision (a) could be obtained, the levying officer may take any action necessary to preserve the value of the property or may sell the property. The levying officer is not liable for a determination made in good faith under this subdivision.

(c) Except as otherwise provided by order of the court, a sale of the property pursuant to this section shall be made in the manner provided by Article 6 (commencing with Section 701.510) of Chapter 3 of Division 2 of Title 9 and the proceeds shall be deposited in the court to abide the judgment in the action. Notwithstanding subdivisions (b) and (d) of Section 701.530, notice of sale shall be posted and served at a reasonable time before sale, considering the character and condition of the property.

(d) If a receiver is appointed, the court shall fix the daily fee of the receiver and may order the plaintiff to pay the fees and expenses of the receiver in advance or may direct that the whole or any part

of the fees and expenses be paid from the proceeds of any sale of the property. Except as otherwise provided in this section, the provisions of Chapter 5 (commencing with Section 564) and Chapter 5a (commencing with Section 571) of Title 7 govern the appointment, qualifications, powers, rights, and duties of a receiver appointed under this section.

488.710. (a) As used in this section, "instrument" means a check, draft, money order, or other order for the withdrawal of money from a financial institution, the United States, any state, or any public entity within any state.

(b) If an instrument is payable to the defendant on demand and comes into the possession of a levying officer pursuant to this title, the levying officer shall promptly endorse and present the instrument for payment.

(c) The levying officer shall endorse the instrument by writing on the instrument (1) the name of the defendant, (2) the name and official title of the levying officer, and (3) the title of the court and the cause in which the writ was issued. The endorsement is as valid as if the instrument were endorsed by the defendant. No financial institution or public entity on which the instrument is drawn is liable to any person for payment of the instrument to the levying officer rather than to the defendant by reason of the endorsement. No levying officer is liable by reason of endorsing, presenting, and obtaining payment of the instrument. The funds or credit resulting from the payment of the instrument shall be held by the levying officer subject to the lien of attachment.

(d) If it appears from the face of the instrument that it has been tendered to the defendant in satisfaction of a claim or demand and that endorsement of the instrument is considered a release and satisfaction by the defendant of the claim or demand, the levying officer shall not endorse the instrument unless the defendant has first endorsed it to the levying officer. If the defendant does not endorse the instrument to the levying officer, the levying officer shall hold the instrument for 30 days and is not liable to the defendant or to any other person for delay in presenting it for payment. At the end of the 30-day holding period, the levying officer shall return the instrument to the maker.

488.720. (a) The defendant may apply by noticed motion to the court in which the action is pending or in which the judgment in the action was entered for an order releasing the attachment of property to the extent that the value of the defendant's interest in the property clearly exceeds the amount necessary to satisfy the amount to be secured by the attachment.

(b) The notice of motion shall state the grounds on which the motion is based and shall be accompanied by an affidavit supporting any factual issues raised and points and authorities supporting any legal issues raised.

(c) At the hearing on the motion, the court shall determine the value of the defendant's interest in the property and order the

release of the attachment of the property to the extent that the value of the defendant's interest in the property attached clearly exceeds the amount necessary to satisfy the amount to be secured by the attachment. After entry of judgment in the action in which the property was attached, the court shall also take into consideration in determining whether the attachment is clearly excessive the value of any property not attached in the action that (1) has been levied upon pursuant to a writ of execution issued to satisfy the judgment in the action or (2) otherwise has been sought to be applied to the satisfaction of the judgment in the action.

(d) The court's determinations shall be made upon the basis of the pleadings and other papers in the record; but, upon good cause shown, the court may receive and consider at the hearing additional evidence, oral or documentary, and additional points and authorities, or it may continue the hearing for the production of the additional evidence or points and authorities.

488.730. (a) The levying officer shall release attached property when the levying officer receives a written direction to release the property from the plaintiff's attorney of record or, if the plaintiff does not have an attorney of record, from the plaintiff or when the levying officer receives a certified copy of a court order for release or when otherwise required to release the property. The release extinguishes any attachment lien in favor of the plaintiff on the property released.

(b) If the property to be released has been taken into custody under the levy, it shall be released to the person from whom it was taken unless otherwise ordered by the court. If the person does not claim the property to be released, the levying officer shall retain custody of the property and shall serve on the person a notice of where possession of the property may be obtained. If the person does not claim the property within 30 days after the notice is served, the levying officer shall sell the property (other than cash and property which does not have a value exceeding its face value) in the manner provided by Article 6 (commencing with Section 701.510) of Chapter 3 of Division 2 of Title 9. The levying officer shall deposit the proceeds of sale and cash, after first deducting the levying officer's costs, with the county treasurer of the county where the property is located payable to the order of the person. If the amount deposited is not claimed by the person or the legal representative of the person within five years after the deposit is made, by making application to the treasurer or other official designated by the county, it shall be paid into the general fund of the county.

(c) If the property to be released has not been taken into custody under the levy, the levying officer shall release the attachment by issuing a written notice of release and serving it on the person who was served with a copy of the writ and a notice of attachment to create the lien.

(d) If the property to be released was levied upon by recording or filing a copy of the writ and a notice of attachment, the levying officer shall record or file a written notice of release in the same

office.

(e) The levying officer is not liable for releasing an attachment in accordance with this section and no other person is liable for acting in conformity with the release.

488.740. If the defendant recovers judgment against the plaintiff and no timely motion for vacation of judgment or for judgment notwithstanding the verdict or for a new trial is filed and served and is pending and no appeal is perfected and undertaking executed and filed as provided in Section 921, any undertaking received from the defendant in the action, all the proceeds of sales and money collected by the levying officer, and all the property attached remaining in the levying officer's hands shall be delivered to the person from whom it was collected or taken, unless otherwise ordered by the court; and the court shall order the discharge of any attachment made in the action and the release of any property held thereunder.

SEC. 50.5. Section 488.080 is added to the Code of Civil Procedure, to read:

488.080. (a) A registered process server may levy under a writ of attachment on the following types of property:

(1) Real property, pursuant to Section 488.315.

(2) Growing crops, timber to be cut, or minerals or the like (including oil and gas) to be extracted or accounts receivable resulting from the sale thereof at the wellhead or minehead, pursuant to Section 488.325.

(3) Personal property in the custody of a levying officer, pursuant to Section 488.355.

(4) Equipment of a going business, pursuant to Section 488.375.

(1) The writ of attachment.

(2) An affidavit of the registered process server stating the manner of levy performed.

(3) Proof of service of the copy of the writ and notice of attachment on other persons as required by Article 2 (commencing with Section 488.300).

(4) Instructions in writing, as required by the provisions of Section 488.030.

The levying officer is not liable for actions taken in conformance with the provisions of this title in reliance on information provided to the levying officer under subdivision (c) except to the extent that the levying officer has actual knowledge that the information is incorrect. Nothing in this subdivision limits any liability the plaintiff or registered process server may have if the levying officer acts on the basis of incorrect information provided under subdivision (c).

(e) The fee for services of a registered process server under this section may, in the court's discretion, be allowed as a recoverable cost. If allowed, the amount of the fee to be allowed is governed by Section 1032.8.

SEC. 51. Section 489.240 of the Code of Civil Procedure is repealed.

SEC. 52. Section 489.320 of the Code of Civil Procedure is amended to read:

(b) The defendant shall file an undertaking to pay the plaintiff the amount of any judgment recovered by the plaintiff in the action against the defendant. The amount of the undertaking filed pursuant to this section shall be equal to the amount sought to be secured by the attachment. The court shall issue the order terminating the temporary protective order with respect to the defendant upon the condition that a sufficient undertaking be filed.

SEC. 53. Section 490.010 of the Code of Civil Procedure is amended to read:

490.010. A wrongful attachment consists of any of the following:

(a) The levy under a writ of attachment or the service of a temporary protective order in an action in which attachment is not authorized, except that it is not a wrongful attachment if both of the following are established:

(1) The levy was not authorized solely because of the prohibition of subdivision (c) of Section 483.010.

(2) The person who sold or leased, or licensed for use, the property, furnished the services, or loaned the money reasonably believed that it would not be used primarily for personal, family, or household purposes.

(b) The levy under a writ of attachment or the service of a temporary protective order in an action in which the plaintiff does not recover judgment.

(c) The levy under writ of attachment obtained pursuant to Article 3 (commencing with Section 484.510) of Chapter 4 or Chapter 5 (commencing with Section 485.010) on property exempt from attachment except where the plaintiff shows that the plaintiff reasonably believed that the property attached was not exempt from attachment.

SEC. 54. Section 490.020 of the Code of Civil Procedure is amended to read:

490.020. (a) The liability of a plaintiff for causing a wrongful attachment under Section 490.010 includes both of the following:

CHAPTER 11. ATTACHING PLAINTIFF'S MISCELLANEOUS REMEDIES

Article 1. Examination of Third Person

491.110. (a) Upon ex parte application by the plaintiff and proof by the plaintiff by affidavit or otherwise to the satisfaction of the proper court that the plaintiff has a right to attach order and that a third person has possession or control of property in which the defendant has an interest or is indebted to the defendant in an amount exceeding two hundred fifty dollars ($250), the court shall make an order directing the third person to appear before the court, or before a referee appointed by the court, at a time and place specified in the order, to answer concerning the property or debt. The affidavit in support of the plaintiff's application may be based on the affiant's information and belief.

(b) Not less than 10 days prior to the date set for the examination,

a copy of the order shall be:

(1) Served personally on the third person.

(2) Served personally or by mail on the defendant.

(c) If the property or the debt is described in the affidavit or application for an order under subdivision (a) in a manner reasonably adequate to permit it to be identified, service of the order on the third person creates a lien on the defendant's interest in the property in the third person's possession or control or on the debt owed by the third person to the defendant. The lien continues for a period of one year from the date of the order unless extended or sooner terminated by the court.

(d) The order shall contain the following statement in 14-point boldface type if printed or in capital letters if typed: "NOTICE TO PERSON SERVED. If you fail to appear at the time and place specified in this order, you may be subject to arrest and punishment for contempt of court and the court may make an order requiring you to pay the reasonable attorney's fees incurred by the plaintiff in this proceeding."

(e) The order is not effective unless, at the time it is served on the third person, the person serving the order tenders to the third person fees for the mileage necessary to be traveled from the third person's residence to the place of examination. The fees shall be in the same amount generally provided for witnesses when legally required to attend civil proceedings in the court where the examination proceeding is to be conducted.

491.120. In any proceeding for the examination of a third person under this article, witnesses, including the defendant, may be required to appear and testify before the court or referee in the same manner as upon the trial of an issue.

491.130. (a) The examination proceedings authorized by this article may be conducted by a referee appointed by the court. The referee may issue, modify, or vacate an order authorized by Section 491.190, may make a protective order authorized by Section 491.180, and may issue a warrant authorized by Section 491.160, and has the same power as the court to grant adjournments, to preserve order, and to subpoena witnesses to attend the examination, but only the court that ordered the reference has power to do any of the following:

(1) Punish for contempt for disobeying an order of the referee.

(2) Make an award of attorney's fees pursuant to Section 491.160.

(3) Determine a third-party claim under Section 491.170.

(b) Only a member of the State Bar of California is eligible for appointment as a referee pursuant to this article.

(c) Nothing in subdivision (a) limits the power of a court to appoint a temporary judge pursuant to Section 21 of Article VI of the California Constitution.

491.140. (a) If a corporation, partnership, association, trust, or other organization is served with an order to appear for an examination, it shall designate to appear and be examined one or

more officers, directors, managing agents, or other persons who are familiar with its property and debts.

(b) If the order to appear for an examination requires the appearance of a specified individual, the specified individual shall appear for the examination and may be accompanied by one or more officers, directors, managing agents, or other persons familiar with the property and debts of the corporation, partnership, association, trust, or other organization.

(c) If the order to appear for the examination does not require the appearance of a specified individual, the order shall advise the corporation, partnership, association, trust, or other organization of its duty to make a designation under subdivision (a).

491.150. (a) Except as otherwise provided in this section, the proper court for examination of a person under this article is the court that issued the writ of attachment.

(b) A person sought to be examined may not be required to attend an examination before a court located outside the county in which the person resides or has a place of business unless the distance from the person's place of residence or place of business to the place of examination is less than 150 miles.

(c) If a person sought to be examined does not reside or have a place of business in the county where the court that issued the writ is located, a court of similar jurisdiction in the county where the person resides or has a place of business is a proper court for examination of the person. If there is no court of similar jurisdiction in the county, a court of higher jurisdiction is a proper court.

(d) If the plaintiff seeks an examination of a person before a court other than the court that issued the writ, the plaintiff shall do all of the following:

(1) File with the court from which the order is sought a certified copy of the complaint in the pending action.

(2) Present to the court an affidavit in support of the application for the order stating the place of residence or place of business of the person sought to be examined.

(3) Make any necessary affidavit or showing for the examination as required by Section 491.110.

(4) At the time of filing the application for the order, pay a filing fee of twelve dollars ($12). No law library fee shall be charged.

491.160. (a) If an order requiring a person to appear for an examination was served by a sheriff, marshal, constable, a person specially appointed by the court in the order, or a registered process server, and the person fails to appear:

(1) The court may, pursuant to a warrant, have the person brought before the court to answer for the failure to appear and may punish the person for contempt.

(2) If the person's failure to appear is without good cause, the plaintiff shall be awarded reasonable attorney's fees incurred in the examination proceeding.

(b) A person who willfully makes an improper service of an order

for an examination which subsequently results in the arrest pursuant to subdivision (a) of the person who fails to appear is guilty of a misdemeanor.

491.170. (a) Subject to subdivision (b), if a third person examined pursuant to this article claims an interest in the property adverse to the defendant or denies the debt, the court may, if the plaintiff so requests, determine the interests in the property or the existence of the debt. Such a determination is conclusive as to the plaintiff, the defendant, and the third person, but an appeal may be taken from the determination in the manner provided for appeals from the court in which the proceeding takes place. The court may grant a continuance for a reasonable time for discovery proceedings, the production of evidence, or other preparation for the hearing.

(b) The court may not make the determination provided in subdivision (a) if the third person's claim is made in good faith and any of the following conditions is satisfied:

(1) The court would not be a proper court for the trial of an independent civil action (including a creditor's suit) for the determination of the interests in the property or the existence of the debt, and the third person objects to the determination of the matter under subdivision (a).

(2) At the time an order for examination pursuant to this article is served on the third person a civil action (including a creditor's suit) is pending with respect to the interests in the property or the existence of the debt.

(3) The court determines that the interests in the property or the existence of the debt should be determined in a creditor's suit.

(c) Upon application of the plaintiff made ex parte, the court may make an order forbidding transfer of the property to the defendant or payment of the debt to the defendant until the interests in the property or the existence of the debt is determined pursuant to subdivision (a) or until a creditor's suit may be commenced and an order obtained pursuant to Section 491.340. An undertaking may be required in the discretion of the court. The court may modify or vacate the order at any time with or without a hearing on such terms as are just.

(d) Upon application of the plaintiff upon noticed motion, the court, if it determines that the defendant probably owns an interest in the property or that the debt probably is owed to the defendant, may make an order forbidding the transfer or other disposition of the property to any person or forbidding payment of the debt until the interests in the property or the existence of the debt is determined pursuant to subdivision (a) or until a creditor's suit may be commenced and an order obtained pursuant to Section 491.340. The court shall require the plaintiff to furnish an undertaking as provided in Section 529. The court may modify or vacate the order at any time after notice and hearing on such terms as are just.

491.180. In any proceeding under this article, the court may, on motion of the person to be examined or on its own motion, make such

protective orders as justice may require.

491.190. (a) Except as provided in subdivision (b), at the conclusion of a proceeding pursuant to this article:

(1) The court may order the defendant's interest in the property in the possession or under the control of the third person or a debt owed by the third person to the defendant to be attached in the manner and under the conditions provided by this title or to be delivered or paid to the levying officer if the levying officer has a writ of attachment permitting the attachment of the property or debt. After the property or debt has been attached, the order may be enforced as provided in Section 491.360. The order creates a lien on the property or debt. The lien continues for a period of one year from the date of the order unless the court extends or reduces the period of the existence of the lien.

(2) If the property or debt has previously been attached, the court may make an order determining the third person's liability, and the order may be enforced as provided in Section 491.360.

(b) If a third person examined pursuant to this article claims an interest in the property adverse to the defendant or denies the debt and the court does not determine the matter as provided in subdivision (a) of Section 491.170, the court may not make an order under subdivision (a) of this section, but may make an order pursuant to subdivision (c) or (d) of Section 491.170 forbidding transfer or payment to the extent authorized by that section.

491.200. A lien created under this article continues on property subject to the lien notwithstanding the transfer or encumbrance of the property subject to the lien unless the transfer or encumbrance is made to a person listed in Section 697.740.

Article 2. Creditor's Suit

491.310. If a third person has possession or control of property in which the defendant has an interest or is indebted to the defendant and the property or debt has been subjected to an attachment lien, the plaintiff may bring an action against the third person to enforce the third person's liability under this title.

491.320. The defendant shall be joined in an action brought pursuant to this article but is not an indispensable party. The residence of the defendant may not be considered in the determination of proper venue unless otherwise provided by contract between the defendant and the third person.

491.330. (a) Except as provided in subdivision (b), an action shall be commenced pursuant to this article before the expiration of the later of the following times:

(1) The time when the defendant may bring an action against the third person concerning the property or debt.

(2) One year after creation of an attachment lien on the property or debt pursuant to this title if the lien is created at the time when the defendant may bring an action against the third person

concerning the property or debt.

(b) An action may not be commenced pursuant to this article if the attachment lien is not in effect.

(c) If an action is commenced pursuant to this article within the time permitted in this section, the action may be prosecuted to judgment so long as the attachment lien or a lien of the plaintiff on the same property pursuant to Title 9 (commencing with Section 680.010) is in effect.

491.340. The plaintiff may apply to the court in which an action under this article is pending for either or both of the following:

(a) An order restraining the third person from transferring the attached property to the defendant or from paying the attached debt to the defendant. The order shall be made on noticed motion if the court so directs or a court rule so requires. Otherwise, the order may be made on ex parte application. The order shall remain in effect until judgment is entered in the action or until such earlier time as the court may provide in the order. An undertaking may be required in the discretion of the court. The court may modify or vacate the order at any time with or without a hearing on such terms as are just.

(b) A temporary restraining order or a preliminary injunction or both, restraining the third person from transferring to any person or otherwise disposing of the attached property, pursuant to Chapter 3 (commencing with Section 525) of Title 7, and the court may make, dissolve, and modify such orders as provided therein.

491.350. There is no right to a jury trial in an action under this article.

491.360. If the plaintiff establishes the liability of the third person, the court shall render judgment accordingly. The judgment may be enforced in the same manner as it could be enforced if it had been obtained by the defendant against the third party; but, prior to entry of judgment in favor of the plaintiff against the defendant, any money or property obtained in enforcing the judgment against the third party shall be paid or delivered into court to abide the judgment in the action of the plaintiff against the defendant or shall be held by a levying officer, or otherwise held, as ordered by the court.

491.370. Costs incurred by or taxed against the plaintiff in an action under this article may not be recovered from the defendant.

Article 3. Lien in Pending Action or Proceeding

491.410. (a) If the plaintiff has obtained a right to attach order and the defendant is a party to a pending action or special proceeding, the plaintiff may obtain a lien under this article, to the extent required to secure the amount to be secured by the attachment, on both of the following:

(1) Any cause of action of the defendant for money or property that is the subject of the other action or proceeding.

(2) The rights of the defendant to money or property under any judgment subsequently procured in the other action or proceeding.

(b) To obtain a lien under this article, the plaintiff shall file a notice of lien and a copy of the right to attach order in the other pending action or special proceeding.

Failure to serve all parties as required by this subdivision does not affect the lien created by the filing under subdivision (b), but the rights of a party are not affected by the lien until the party has notice of the lien.

(d) For the purpose of this article, an action or special proceeding is pending until the time for appeal from the judgment has expired or, if an appeal is filed, until the appeal has been finally determined.

491.420. The notice of lien under Section 491.410 shall contain all of the following:

(a) A statement that a lien has been created under this article and the title of the court and the cause and number of the pending action or proceeding in which the notice of lien is filed.

(b) The name and last known address of the defendant.

(c) The name and address of the plaintiff.

(d) The title of the court where the plaintiff's action against the defendant is pending and the cause and number of the action.

(e) The amount required to secure the amount to be secured by the attachment at the time the notice of lien is filed in the action or proceeding.

(f) A statement that the lien attaches to any cause of action of the defendant that is the subject of such action or proceeding and to the defendant's rights to money or property under any judgment subsequently procured in the action or proceeding.

(g) A statement that no compromise, dismissal, settlement, or satisfaction of the pending action or proceeding or any of the defendant's rights to money or property under any judgment procured therein may be entered into by or on behalf of the defendant, and that the defendant may not enforce the defendant's rights to money or property under any judgment procured in the pending action or proceeding by a writ or otherwise, unless one of the following requirements is satisfied:

(1) The prior approval by order of the court in which the action or proceeding is pending has been obtained.

(2) The written consent of the plaintiff has been obtained or the plaintiff has released the lien.

491.430. (a) The court in which the action or special proceeding subject to the lien under this article is pending may permit the plaintiff who has obtained the lien to intervene in the action or proceeding pursuant to Section 387.

(b) For the purpose of subdivision (a) of Section 491.460, a plaintiff shall be deemed to be a party to the action or special proceeding even though the plaintiff has not become a party to the action or proceeding under subdivision (a).

491.440. (a) Except as provided in subdivision (c) of Section 491.410, unless the lien is released, the judgment recovered in the action or special proceeding in favor of the defendant may not be enforced by a writ or otherwise, and no compromise, dismissal, settlement, or satisfaction of the pending action or special proceeding or the judgment procured therein may be entered into by or on behalf of the defendant, without the written consent of the plaintiff or authorization by order of the court obtained under subdivision (b).

(b) Upon application by the defendant, the court in which the action or special proceeding subject to the lien under this article is pending or the judgment procured therein is entered may, in its discretion, after a hearing, make an order described in subdivision (a) that may include such terms and conditions as the court deems necessary. The application for an order under this subdivision shall be made on noticed motion. The notice of motion shall be served on the plaintiff.

491.450. (a) If a lien is created pursuant to this article, the court clerk shall endorse upon the judgment recovered in the action or special proceeding a statement of the existence of the lien and the time it was created.

(b) Any abstract issued upon the judgment shall include a statement of the lien in favor of the plaintiff.

491.460. (a) If the defendant is entitled to money or property under the judgment in the action or special proceeding and a lien created under this article exists, upon application of any party to the action or special proceeding, the court may order that the defendant's rights to money or property under the judgment be attached or otherwise applied to the satisfaction of the lien created under this article as ordered by the court. Application for an order under this section shall be on noticed motion. The notice of motion shall be served on all other parties.

(b) If the judgment determines that the defendant has an interest in property, the court may order the party having custody or control of the property not to transfer the property until it can be attached or otherwise applied to the satisfaction of the lien created under this article.

(c) If the court determines that a party (other than the defendant) having notice of the lien created under this article has transferred property that was subject to the lien, or has paid an amount to the defendant that was subject to the lien, the court shall render judgment against the party in an amount equal to the lesser of the following:

(1) The value of the defendant's interest in the property or the amount paid to the defendant.

(2) The amount of the plaintiff's lien created under this article.

(d) A judgment or order under this section may be enforced in the same manner as it could be enforced if it had been obtained by the defendant against the third party; but, prior to entry of judgment in favor of the plaintiff against the defendant, any money or property obtained in enforcing the judgment or order against the third party shall be paid or delivered into court to abide the judgment in the action of the plaintiff against the defendant or shall be held by a levying officer, or otherwise held, as ordered by the court.

CHAPTER 1199

An act to amend Sections 1120 and 1215.1 of, and to add Section 1120.1a to, the Probate Code, relating to estates.

[Approved by Governor September 20, 1982. Filed with Secretary of State September 21, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1120 of the Probate Code is amended to read:

1120. (a) A trust created by a will is not subject to the continuing jurisdiction of the superior court, unless the testator provides otherwise. Article 2 (commencing with Section 1138) shall be applicable to the trust to the extent that the will or article does not provide otherwise.

(b) When a trust created by a will continues after distribution, and the testator provides that the superior court shall not lose jurisdiction of the estate by final distribution, the superior court shall retain jurisdiction for the purpose of determining to whom the property shall pass and be delivered upon final or partial termination of the trust, to the extent that the determination is not concluded by the decree of distribution, of settling the accounts and passing upon the acts of the trustee, of authorizing the trustee to accept additions to the trust from sources other than the estate of the decedent, and for the other purposes hereinafter set forth. Any trustee appointed

by will, or appointed to execute a trust created by will, may, from time to time pending the execution of the trust, or at the termination thereof, render for settlement his or her accounts and report his or her acts as trustee, before the superior court in which the will was probated. For that purpose, the trustee shall present to the court a verified account and report, setting forth the accounts in detail, reporting his or her acts as trustee, and showing the condition of the trust estate. If the trustee dies or becomes incompetent, the account and report shall be presented by the trustee's executor, administrator, guardian, or conservator. In the event the trustee dies or becomes incompetent, and there is no executor, administrator, guardian, or conservator appointed for the trustee's estate, or in the event the trustee absconds, the court may compel the attorney for the deceased, incompetent, or absconding trustee to present the account and report to the extent that the attorney has information or records available for that purpose. The account and report of the attorney need not be verified. A fee shall be allowed to the attorney by the court for this service.

The trustee may also petition such court, from time to time, for instructions as to the administration of the trust for authority to accept additions to the trust from any source or sources other than the estate of the decedent, and for authority to exercise the powers authorized by Section 1120.2 of this code. The court may hear the petition and instruct or authorize the trustee by order rendered before or after any distribution to the trustee. When the trustee files the petition before any distribution of the estate to the trustee, the trustee shall, in addition to any other notice required, cause notice of the hearing to be mailed to the personal representative and shall further cause notice of the hearing to be mailed to all persons, including heirs, legatees, and devisees, at their last known address, to whom the court may order notice to be given, and shall, upon filing the petition and before giving notice thereof, secure from the court an order designating the persons in addition to the personal representative and the beneficiaries to whom the court requires that notice be given, or an order that notice to the personal representative and the beneficiaries is the only notice that shall be required.

When it appears from the allegations of the petition that the trustee seeks instructions to exercise a power not conferred upon the trustee or seeks authority to exercise the powers authorized by Section 1120.2, the petition shall set forth the particulars of and the necessity for the action sought to be taken.

The clerk shall set the hearing upon the account and report or petition for settlement or instructions. The trustee shall cause notice of the hearing to be given to the beneficiaries, including all persons in being who shall or may participate in the corpus or income of the trust, at their last known addresses, as provided in Section 1200.5, whether they have requested special notice or given notice of appearance or not. In addition to the above notice, when the petition

relates to the exercise of a power not conferred or seeks authority to exercise the powers authorized by Section 1120.2, a copy of the petition shall be attached to and mailed with copies of the notice which are mailed and the court or judge shall, at least 10 days before the return day, appoint a suitable person who shall appear and act as guardian ad litem of any person or persons of a designated class, who are not ascertained, or who are not in being, and who may become beneficiaries or may so participate in the trust. None of the provisions of Section 373 of the Code of Civil Procedure shall apply to the appointment.

(c) In addition to the provisions of subdivision (b), the personal representative of the decedent's estate, prior to final distribution, or the trustee, beneficiary, or remainderman, before or after final distribution, may petition the superior court to amend or conform the trust provisions of the decedent's will in the manner required to qualify the decedent's estate for the charitable estate tax deduction permitted by federal law. The petition may include a request to add to the trust provisions of the decedent's will the mandatory governing instrument requirements for a charitable remainder trust, as required by final regulations and rulings of the United States Internal Revenue Service. Notice of the petition shall be given to the Attorney General. No amendment or conformation may be ordered by the court without having first received written agreement to the proposed changes or disclaimer of interest from all interested parties in the trust. The execution of an agreement shall not be construed to be a contest under any provisions of the will prohibiting will contests. The existence of a spendthrift or similar protective provision in the trust shall not make this subdivision inapplicable to that trust.

SEC. 2. Section 1120.1a is added to the Probate Code, to read:

1120.1a. This section shall only apply to trusts described in subdivision (a) of Section 1120 which were created by a will executed before July 1, 1977.

(a) The trustee of such a trust shall give notice on or before July 1, 1983, or within six months after the initial funding of the trust, whichever occurs later, by registered or certified mail to each beneficiary, including all persons in being who shall or may participate in the corpus or income of the trust, at their last known addresses, containing the following information:

(1) A statement that as of January 1, 1983, Section 1120 of the Probate Code was amended to remove the necessity for mandatory court supervision of the trust.

(2) A statement that, unless the terms of trust limit or eliminate such authority, Section 1138.1 of the Probate Code gives the beneficiary and remainderman the right to petition a court to determine important matters relating to the administration of the trust, and a copy of the text of Section 1138.1.

(3) A statement that each income beneficiary, as defined in subdivision (1) of Section 730.01 of the Civil Code, and any other

beneficiary or remainderman upon written request to the trustee, is entitled to a statement of the income and principal receipts and disbursements of the trust at least annually.

(4) A statement that the beneficiary or remainderman is entitled to petition a court to settle the accounts and pass upon the acts of the trustee.

(5) The name and location of the superior court in the county in which it is appropriate to file a petition pursuant to Section 1138.1.

(6) When no trustee is a trust company, as defined in Section 107 of the Financial Code, a statement that a hearing will be held by the superior court named in paragraph (5) to obtain approval of the court and determine the conditions, if any, for the removal of the trust from the continuing jurisdiction of the court.

The trustee shall file with the court which previously had jurisdiction over the administration of the trust proof of service of the notice set forth in this subdivision on or before August 1, 1983, or within seven months after the initial funding of the trust, whichever occurs later.

(b) The trustee shall furnish, at least annually, and at termination of the trust, a statement of the income and principal receipts and disbursements that have occurred since the immediately preceding statement to each income beneficiary, as defined in subdivision (1) of Section 730.01 of the Civil Code, and to each other beneficiary or remainderman who has made written request therefor.

(c) Within 90 days after the end of each fiscal year of the trust, the trustee shall furnish to each of the persons described in subdivision (b) a summary setting forth the following:

(1) The cost of each trust asset.

(2) The present value of each asset as of the end of the fiscal year of the trust.

(3) The total present value of all assets as of the end of the current and immediately preceding fiscal year of the trust.

(4) The net income for the current and immediately preceding fiscal year of the trust.

(5) Trustee compensation for the current and immediately preceding fiscal year of the trust.

The summary shall also state that the recipient may petition a court pursuant to Section 1138.1 to obtain a court review, shall set forth a copy of the text of Section 1138.1, and shall give the name and location of the appropriate court in which to file a petition.

(d) Notwithstanding the provisions of subdivision (a) of Section 1120, with respect to a trust where no trustee is a trust company, as defined in Section 107 of the Financial Code, the trustee may only remove the trust from the continuing jurisdiction of the superior court with the approval of the court. To obtain such approval the trustee shall file a verified petition with the clerk setting forth the trust accounts in detail, reporting his or her acts as trustee, showing the condition of the trust estate, and attaching a true copy of the trust instrument. Thereupon the clerk shall set the petition for hearing by

the court. Notice of the hearing shall be given, along with the notice required by subdivision (a), at least 30 days before the hearing to all those persons who are entitled to receive the notice required by subdivision (a). At the hearing the court may receive testimony from any interested person and may grant or deny the petition, or require a bond as a condition of granting the petition, as the court in its discretion deems fit.

(e) When a beneficiary or remainderman is a minor, ward or conservatee, any notice, statement, or summary required to be sent to the beneficiary or remainderman by this section shall be sent to the parent, guardian, or conservator, as the case may be, of the beneficiary or remainderman. In addition, if the trustee, at the time the notice required by subdivision (a) is sent, has actual knowledge that a beneficiary or remainderman who is not a minor, ward, or conservatee is being assisted by another individual in the handling of his or her personal affairs, the trustee shall send the notice required by subdivision (a) to both that individual and the beneficiary or remainderman and, upon the written request of either of them, shall also send the statements and summaries required by subdivisions (b) and (c) to both of them.

(f) Where the trust is a charitable trust subject to Article 7 (commencing with Section 12580) of Chapter 6 of Part 2 of Division 3 of Title 2 of the Government Code, upon the vesting of any charitable interest created by the trust the trustee shall thereafter furnish to the Attorney General the statements and summaries required by subdivisions (b) and (c) without the necessity of any written request. A charitable interest is deemed to be vested within the meaning of this subdivision as of the time when it is first ascertainable that income or corpus is, or in the future will be, paid to a charity or applied for a charitable purpose. Notwithstanding the provisions of Section 1138, the Attorney General may petition the court to settle the account and pass upon the acts of the trustee as provided in Section 1138.1.

SEC. 3. Section 1215.1 of the Probate Code is amended to read:

1215.1. Subject to other provisions of this article, it is a sufficient compliance with Sections 1120, 1120.1a, 1123.5, 1125, 1125.1, 1126, 1138.6, 1139.7, and 1139.15, insofar as they require notice to be given to the beneficiaries of, or persons interested in the trust, or to beneficiaries or remaindermen, including all persons in being who shall or may participate in the corpus or income of the trust, to give notice in the cases hereinafter provided, as follows:

(1) When an interest has been limited on any future contingency to persons who shall compose a certain class upon happening of a certain event without further limitation, notice shall be given to the persons in being who would constitute the class if such event had happened immediately before the commencement of the proceedings.

(2) When an interest has been limited to a living person, and the same interest, or a share therein, has been further limited upon the

happening of a future event to the surviving spouse or to persons who are, or may be, the distributees, heirs, issue or other kindred of such living person, notice shall be given to such living person.

(3) Except as otherwise provided in subdivision (2) when an interest has been limited upon the happening of any future event to a person, or a class of persons, or both, and the same interest, or a share of such interest, has been further limited upon the happening of an additional future event to another person, or a class of persons, or both, notice shall be given to the person or persons in being who would take the interest upon the happening of the first such event.

(3) Are administered by trained personnel in conformance with the instructions provided by the producer of such tests and other assessment materials, except that individually administered tests of intellectual or emotional functioning shall be administered by a psychometrist or credentialed school psychologist where available. It is not the intent of the Legislature to require that new personnel be hired for this purpose.

(c) Tests and other assessment materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient.

(d) Tests are selected and administered to best ensure that when a test administered to a pupil with impaired sensory, manual, or speaking skills produces test results that accurately reflect the pupil's aptitude, achievement level, or any other factors the test purports to measure and not the pupil's impaired sensory, manual, or speaking skills unless those skills are the factors the test purports to measure.

(e) No single procedure is used as the sole criterion for determining an appropriate educational program for an individual with exceptional needs.

(f) The pupil is assessed in all areas related to the suspected disability including, where appropriate, health and development, vision, including low vision, hearing, motor abilities, language function, general ability, academic performance, self-help, orientation and mobility skills, communication skills, career and vocational abilities and interests, and social and emotional status. A developmental history is obtained, when appropriate. For pupils with residual vision, a low vision assessment shall be provided in

accordance with guidelines established pursuant to Section 56136.

(g) The assessment of a pupil, including the assessment of a pupil with a suspected low incidence disability, shall be conducted by persons knowledgeable of that disability. Special attention shall be given to the unique educational needs, including, but not limited to, skills and the need for specialized services, materials, and equipment consistent with guidelines established pursuant to Section 56136.

(b) The proposed assessment plan given to parents shall meet all the following requirements:

(3) Explain the types of assessments to be conducted.

(4) State that no individualized education program will result from the assessment without the consent of the parent.

(c) No assessment shall be conducted unless the written consent of the parent is obtained prior to the assessment except pursuant to subdivision (e) of Section 56506. However, the public education agency may initiate a due process hearing pursuant to Chapter 5 (commencing with Section 56500) to show that its assessment is appropriate. If the final decision resulting from the due process hearing is that the assessment is appropriate, the parent still has the right for an independent educational assessment, but not at public expense.

If the parent obtains an independent educational assessment at private expense, the results of the assessment shall be considered by the public education agency with respect to the provision of free, appropriate public education to the child, and may be presented as evidence at a due process hearing pursuant to Chapter 5 (commencing with Section 56500) regarding such child.

Such person shall be qualified to interpret the results if the results or recommendations, based on such assessment, are significant to the

development of the pupil's individualized education program and subsequent placement.

(e) For pupils with suspected learning disabilities, at least one member of the individualized education program team, other than the pupil's regular teacher, shall be a person who has observed the pupil's educational performance in an appropriate setting. (b) Agencies with a fiscal year 1980–81 assigned reimbursement rate which is greater than the fiscal year 1980–81 standard reimburse-

ment rate, but not greater than 125 percent of the fiscal year 1980–81 standard reimbursement rate, shall receive the full inflation adjustment. Such agencies shall not apply for, and the Superintendent of Public Instruction shall not grant, any increase in their assigned reimbursement rates.

(c) Agencies with a fiscal year 1980–81 assigned reimbursement rate which is greater than 125 percent of the fiscal year 1980–81 standard reimbursement rate shall receive 75 percent of the full inflation adjustment. An amount equal to the remaining 25 percent of the full inflation adjustment for such agencies is hereby set aside for the purpose of allocation by the Superintendent of Public Instruction to increase assigned reimbursement rates of agencies as specified in subdivision (a).

(d) For purposes of allocation to child development agencies, the provisions of this section shall be deemed to have been in effect for the entire 1981–82 fiscal year.

(e) The Legislature recognizes the fact that the provisions of this section, while applying for the entire 1981–82 fiscal year pursuant to subdivision (d), represent a modification of the requirements in effect prior to the effective date of this act. Under such previously existing requirements, child development agencies with fiscal year 1980–81 assigned reimbursement rates in excess of the fiscal year 1980–81 standard reimbursement rate, depending upon the extent of such excess, were required to use part or all of any additional allocations over and above their fiscal year 1980–81 assigned reimbursement rate to increase average daily enrollment. Pursuant to the provisions of this section, such increases in average daily enrollment are not required. To the extent that child development agencies increased their average daily enrollment during the fiscal year 1981–82 pursuant to such previously existing requirements, they shall not be eligible for reimbursement for such additional average daily enrollment.

Child development agencies that increased their average daily enrollment under the previously existing requirements shall receive the full inflation adjustment for the fiscal year 1981–82. Such eligibility shall only apply to an agency with a fiscal year 1981–82 assigned reimbursement rate between 100-125 percent of the fiscal year 1981–82 standard reimbursement rate.

of Finance shall report to the Senate Committees on Education and Finance and to the Assembly Committees on Education and Ways and Means on the status of interagency agreements regarding the fiscal responsiblities for the provision of services to handicapped children pursuant to Sections 56475 and 56476 of the Education Code.

SEC. 73. Within six months after the effective date of this act, the State Department of Education shall develop an individualized education program form and process that minimizes the use of school district personnel in the assessment and placement of individuals with exceptional needs that receive only speech and language services, provided that the requirements of Public Law 94-142 and regulations adopted pursuant to that act are met.

SEC. 74. (a) For the 1982–83 fiscal year only, the state shall not fund instructional personnel services units in special education local plan areas for programs operated pursuant to Part 30 (commencing with Section 56000) of the Education Code in excess of the number of such units operated and funded at the second principal apportionment for the 1981–82 fiscal year, including units serving pupils in licensed children's institutions.

This restriction shall not apply to either of the following:

(1) Programs transferred between special education local plan areas, provided the transfers are subject to the provisions of Section 56828.

(2) Units added by special education local plan areas to accommodate students who were served by nonpublic schools during the 1981–82 fiscal year, if the state reimbursement for those units does not exceed the state reimbursement for nonpublic school costs for those students during the 1981–82 fiscal year.

(b) Each local plan area shall report to the county superintendent of schools the number of instructional personnel services units to which the local plan area is entitled, but which it will not utilize in any fiscal year. The county superintendent may redistribute those units for the fiscal year in which they were reported to other local plan areas within the county according to the following priorities:

(1) Units needed as a result of increased numbers of individuals with exceptional needs placed in licensed children's institutions and foster homes within a local plan area.

(2) Units needed due to increased enrollment within the local plan area.

The redistribution of units among local plan areas within a county shall be reported as transfer units and shall be subject to the provisions of Section 56828.

(b) Sixteen million dollars ($16,000,000) shall be used to fund the 1981–82 fiscal year deficiency in programs funded pursuant to Article 8 (commencing with Section 56770) of Part 30 of the Education Code.

SEC. 76. From the funds appropriated in Item 6100-161-001 of the Budget Act of 1982 (Ch. 326, Stats. 1982), the amount of eighty-four thousand seven hundred dollars ($84,700) shall be allocated to the Los Gatos Union School District, in addition to any other funds they would receive for special education programs and services, on behalf of a licensed children's institution program operated in 1979–80.

SEC. 77. The Legislative Analyst shall, by March 1, 1983, report to the Legislature regarding the funding of special education programs in licensed children's institutions. The report shall make recommendations regarding the restructuring or continuation of the current funding mechanism.

SEC. 78. It is the intent of the Legislature not to fund the deficit in the transportation portion of special education in the 1982–83 fiscal year.

It is further the intent of the Legislature that school districts and county offices of education should reduce transportation costs in special education by using regular home-to-school transportation to transport special education pupils whenever feasible and appropriate.

SEC. 79. It is the intent of the Legislature, if this bill and Assembly Bill 2652 are both chaptered and become effective on or before January 1, 1983, both bills amend Section 56320 of the Education Code, and this bill is chaptered after Assembly Bill 2652, that Section 56320 of the Education Code, as amended by Section 15 of this act, shall remain operative until the effective date of Assembly Bill 2652, and that on the effective date of Assembly Bill 2652, Section 56320 of the Education Code, as amended by Section 15 of this act, be further amended in the form set forth in Section 15.5 of this act to incorporate the changes in Section 56320 proposed by Assembly Bill 2652. Therefore, if this bill and Assembly Bill 2652 are both chaptered and

become effective on or before January 1, 1983, and Assembly Bill 2652 is chaptered before this bill and amends Section 56345, Section 23.5 of this act shall become operative on the effective date of Assembly Bill 2652.

SEC. 81. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

SEC. 82. Notwithstanding any other provision of law, no appropriation is made by this act and the state shall not reimburse any local agency for any tax revenues lost by it under Section 67 of this act.

SEC. 83. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the provisions of this bill apply to as much of the 1982–83 fiscal year as possible, and to promote the orderly implementation of school district budgets, it is necessary that this act take effect immediately.

CHAPTER 1202

An act to add and repeal Section 19610.3 of the Business and Professions Code, relating to horseracing, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 19610.3 is added to the Business and Professions Code, to read:

19610.3. In addition to the amounts required or allowed to be deducted from the parimutuel pools as provided by this chapter, every racing association other than the California Exposition and State Fair or a county or district agricultural association fair which conducts a racing meeting may elect permanently to deduct an additional amount up to 0.33 of 1 percent from the total parimutuel wagers placed within its inclosure.

The amounts deducted pursuant to this section shall be distributed to the city in which the racing meeting is conducted or, if the meeting is conducted outside the limits of any city, to the county in which the racing meeting is conducted. If a city or county has elected by ordinance to receive a distribution from a racing association under this section, it shall not at any time thereafter assess or collect, with

respect to an event conducted by that racing association, any license or excise tax or fee, including, but not limited to, any admission, parking, or business tax, or any tax or fee levied solely upon the racing association conducting a racing meeting or any racing patron. Further, a city or county electing to receive a distribution under this section shall continue to provide ordinary and traditional municipal services, such as police services and traffic control, in connection with racing meetings. "Ordinary and traditional services," as used in this section, shall mean those services provided by the city or county at no charge to the racing association in 1981. If an eligible city or county does not elect to receive a distribution under this section, the amount deducted shall be paid to the state as an additional license fee.

This section shall remain in effect only until January 1, 1988, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1988, deletes or extends that date.

SEC. 2. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order that the provisions of this act will take effect during the 1982 racing season, it is necessary that this act take effect immediately.

CHAPTER 1203

An act to amend Sections 9 and 2943 of the Civil Code, to amend Section 3123 of the Commercial Code, to amend Sections 777, 855, 865.2, 865.4, 5612.5, 6601, 6602, 7412, 11110 and 14409.2 of the Financial Code, to amend Sections 1155 and 1156 of the Government Code, to amend Section 19835 of the Health and Safety Code, and to amend Section 11715 of the Insurance Code, relating to financial transactions and institutions, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 9 of the Civil Code is amended to read:

9. All other days than those mentioned in Section 7 are to be deemed business days for all purposes; provided, that as to any act appointed by law or contract, or in any other way, to be performed by, at, or through any bank organized under the laws of or doing business in this state, Saturday is a holiday and not a business day; and provided, that any act appointed by law or contract, or in any other way, to be performed on any day which is an optional bank holiday

as defined in Section 3123 of the Commercial Code, by, at, or through any bank or branch or office thereof, whether acting in its own behalf or in any other capacity whatsoever, may be performed on such optional bank holiday if the bank or branch or office thereof by, at, or through which such act is to be performed is open for the transaction of business on such optional bank holiday, or, at the option of the person obligated to perform the act, it may be performed on the next succeeding business day which is not a Saturday; and provided further, that as to any act appointed by law or contract, or in any other way, to be performed by, at, or through any bank organized under the laws of or doing business in this state, if July 4th, September 9th, or December 25th falls on a Saturday, the preceding Friday is a holiday and not a business day.

SEC. 2. Section 2943 of the Civil Code is amended to read:

2943. As used in this section:

(a) "Beneficiary" means a mortgagee or beneficiary of a deed of trust, or his assignees.

(b) "Entitled person" means the trustor or mortgagor, or his successor in interest, in the mortgaged or trust property, or any part thereof, any beneficiary under a subordinate deed of trust, any other person having a subordinate lien or encumbrance of record thereon, the escrow holder licensed as an agent pursuant to Division 6 (commencing with Section 17000) of the Financial Code, or the party exempt by virtue of Section 17006 of the Financial Code who is acting as the escrow holder.

A beneficiary, or his authorized agent, shall, on the written demand of an entitled person, or his authorized agent, made at any time before, or within two months after, the recording of a notice of default under a mortgage or deed of trust, if the power of sale therein is to be exercised, or otherwise made more than 30 days prior to entry of the decree of foreclosure, prepare and deliver to the person demanding it, a true, correct, and complete copy of the note and any subsequent modification thereto, and a written statement showing:

(a) The amount of the unpaid balance of the obligation secured by the mortgage or deed of trust and the interest rate, together with the total amounts, if any, of all overdue installments of either principal or interest, or both.

(b) The amounts of periodic payments, if any.

(c) The date on which the obligation is due in whole or in part.

(d) The date to which real estate taxes and special assessments have been paid to the extent such information is known to the lender.

(e) The amount of hazard insurance in effect and the term and premium of such insurance to the extent such information is known to the lender.

(f) The amount in an account, if any, maintained for the accumulation of funds with which to pay taxes and insurance premiums.

(g) The nature and, if known, the amount of any additional

charges, costs, or expenses paid or incurred by the beneficiary which have become a lien on the real property involved.

Where the entitled person or the entitled person's authorized agent includes in the written demand a specific request for a copy of the deed of trust or mortgage, it shall be furnished with the written statement at no additional charge.

The beneficiary may, before delivering a statement, require reasonable proof that the person making the demand is, in fact, an entitled person or an authorized agent of an entitled person, in which event the beneficiary shall not be subject to the penalties of this section until 21 days after receipt of the proof herein provided for. A statement in writing signed by the entitled person appointing an authorized agent when delivered personally to the beneficiary or delivered by registered return receipt mail shall constitute reasonable proof as to the identity of an agent. Similar delivery of a policy of title insurance, preliminary report issued by a title company, original or photographic copy of a grant deed or certified copy of letters testamentary, guardianship, or conservatorship shall constitute reasonable proof as to the identity of a successor in interest, provided the person demanding a statement is named as successor in interest in the document.

Delivery of the statement by the beneficiary, as herein referred to, shall mean depositing or causing to be deposited in the United States mail an envelope, with postage prepaid, containing a copy of the statement, addressed to the person whose name and address is set forth in the demand therefor.

If a beneficiary for a period of 21 days after receipt of such written demand willfully fails to prepare and deliver such statement, he is liable to the entitled person for all damages which he may sustain by reason of such refusal and, whether or not actual damages are sustained, he shall forfeit to the entitled person the sum of three hundred dollars ($300). Each such failure to prepare and deliver such a statement, occurring at a time when, pursuant to this section, the beneficiary is required to prepare and deliver the statement, creates a separate cause of action, but a judgment awarding an entitled person such forfeiture, or damages and forfeiture, for any such failure to prepare and deliver a statement bars recovery of such damages and forfeiture for any other failure to prepare and deliver a statement, with respect to the same obligation, in compliance with a demand therefor made within six months before or after the demand as to which the award was made.

If the beneficiary has more than one branch, office or other place of business, then the demand shall be made to the branch or office at which the payments of the obligation are made, and the statement, unless it specifies otherwise, shall be deemed to apply only to the unpaid balance owing to or payable at the branch or office secured by the mortgage or deed of trust.

The beneficiary may make a charge not to exceed fifty dollars ($50) for furnishing the required statement, except that no charge

shall be made for such statement unless such charge has been specifically provided for in such mortgage or deed of trust, and that this requirement for provision for such charge in the instrument shall not apply to mortgages or deeds of trust insured by the Federal Housing Administrator or guaranteed by the Administrator of Veterans Affairs.

This section applies only to mortgages and deeds of trust executed on or after January 1, 1964.

SEC. 3. Section 3123 of the Commercial Code is amended to read:

3123. (1) Every instrument is payable at the time fixed therein without grace. When the day of maturity falls upon Sunday, Saturday or a holiday, the instrument is payable on the next succeeding business day which is not a Saturday. Where the day of maturity of the instrument falls on an optional bank holiday or the instrument would except for the foregoing provision be payable on an optional bank holiday and it is payable by or at a banking house or any branch or separate office thereof, and the particular banking house or branch or separate office thereof by or at which the instrument is payable is open for the transaction of business on such optional bank holiday, the holder of the instrument may at his option present the instrument for payment at the banking house or branch or separate office thereof by or at which the instrument is payable on the optional bank holiday or on the next succeeding business day which is not a Saturday. An instrument payable on demand is not to be presented for payment on Sunday, Saturday, or a holiday but is to be presented for payment on the next succeeding business day which is not a Saturday, except that where the instrument is payable by or at a banking house or any branch or separate office thereof and the particular banking house or branch or separate office thereof by or at which the instrument is payable is open for the transaction of business on an optional bank holiday, the holder of the instrument may at his option present the instrument for payment at the banking house or branch or separate office thereof by or at which the instrument is payable on such optional bank holiday or on the next succeeding business day which is not a Saturday.

(2) For the purpose of this section "holiday" includes, if July 4th, September 9th, or December 25th falls on a Saturday, the preceding Friday.

(3) For the purpose of this section "optional bank holiday" means any closing of a bank because of an emergency, as that term is defined in the Bank Extraordinary Situation Closing Act (Chapter 20 (commencing with Section 3600) of Division 1 of the Financial Code), Good Friday commencing at 3 p.m. and every holiday referred to in Sections 6700 and 6701 of the Government Code, except the following:

(a) January 1st.
(b) July 4th.
(c) September 9th, known as "Admission Day."

(f) The last Monday in May.

(g) The first Monday in September.

(h) Good Friday from 12 noon until 3 p.m..

(i) The Thursday in November appointed as Thanksgiving Day.

(j) Every Sunday.

777. (a) Notwithstanding the provisions of Sections 1051, 1052, and 1054 of the Labor Code and Section 2947 of the Penal Code, a commercial bank licensed to do business in California under the laws of this state or of the United States, or officer or employee thereof, may deliver fingerprints taken of an applicant for employment to local, state, or federal law enforcement agencies for the purpose of obtaining information as to the existence and nature of a criminal record, if any, of the applicant relating to convictions, and to any arrest for which the applicant is released on bail or on his or her own recognizance pending trial, for the commission or attempted commission of a crime involving robbery, burglary, theft, embezzlement, fraud, forgery, bookmaking, receiving stolen property, counterfeiting, or involving checks or credit cards or using computers.

(b) The Department of Justice shall, pursuant to Section 11105 of the Penal Code, and a local agency may, pursuant to Section 13300 of the Penal Code, furnish to the officer of the bank responsible for the final decision regarding employment of the applicant, or to his or her designees having responsibilities for personnel or security decisions in the usual scope and course of their employment with the bank, summary criminal history information when requested pursuant to this section. If, upon evaluation of the criminal history information received pursuant to this section, the bank determines that employment of the applicant would constitute an unreasonable risk to the bank or its customers, the applicant may be denied employment.

(c) A request for records pursuant to this section made of the Department of Justice shall be on a form approved by the department. The department may charge a fee to be paid by the requesting bank pursuant to subdivision (e) of Section 11105 of the Penal Code. No request shall be submitted without the written consent of the applicant.

(d) Any criminal history information obtained pursuant to this section is confidential and no recipient shall disclose its contents other than for the purpose for which it was acquired.

SEC. 5. Section 855 of the Financial Code is amended to read:

855. (a) No later than 10 days, and no sooner than 60 days prior to the maturity date of any time deposit described in subdivision (g), a bank shall notify the depositor, in writing, of the maturity date.

(b) The notification shall also inform the depositor of the length of time available to the depositor for affecting the status of the deposit after the maturity date.

(c) If no interest is paid beyond the maturity date, and after such date the deposit shall be considered a demand deposit, the depositor shall be so informed.

(d) If, pursuant to an agreement, the deposit after maturity again constitutes a time deposit, the depositor shall be informed of the rate of interest and new maturity date. However, if the rate of interest is not ascertainable when the notice is sent, the notice shall state when the rate of interest will become available, and shall inform the depositor how to obtain the rate. If the rate of interest may vary over the term of the deposit, the bank shall inform the depositor of the initial rate of interest, the circumstances under which such variation may occur, and the method of determining the rate of interest.

(e) It is the intent of the Legislature that banks not be precluded from supplying depositors with additional written notices of the maturity date and the new rate of interest in the event the deposit becomes a new time deposit.

(f) This section is not applicable to:

(1) Time deposits represented by instruments payable to bearer.

(2) Time deposits which contemplate subsequent deposits to the account having the same maturity date as the initial deposit, as to which the bank has agreed to pay the balance in the account to the depositor or to credit the balance to another account of the depositor which is not a time deposit on an annual or more frequent basis.

(3) Time deposits having a fixed-term maturity of not more than 90 days.

(g) For the purposes of this section, time deposit includes an account which consists of funds deposited to the credit of one or more natural persons or an association, organization, partnership, or corporation operated primarily for religious, philanthropic, charitable, educational, fraternal, or other similar purposes; and does not include accounts which consist of funds deposited to the credit of an association, organization, partnership, or corporation operated for profit.

SEC. 6. Section 865.2 of the Financial Code is amended to read:

865.2. A bank shall maintain information about: (1) the amount or, if no amount can be stated, the method of determining the amount of each charge which the bank may impose on an account; (2) the rate of interest, the annual yield, and the method that will be used in computing and paying interest on the account, if any, including any provision for nonpayment of interest on deposits made after the beginning of the interest payment period or withdrawn before the end of such period; and (3) the effective date thereof. The information shall be available to the public at each office in California at which such accounts are maintained in one or both of the following ways: (1) in written materials displayed and available to the public in an area of the bank open to the public; or (2) in any form of

communication; provided that written materials displayed in an area of the bank open to the public tell how to get the information.

SEC. 7. Section 865.4 of the Financial Code is amended to read:

865.4. (a) Except as hereafter provided, prior to the time of accepting the initial deposit into an account, a bank shall furnish a written statement or statements to the depositor, which the depositor may retain, setting forth the information described in Section 865.2.

If the depositor is not physically present at a branch office of the bank at the time the initial deposit is accepted and the written statement has not been furnished previously, the bank shall deliver the written statement to the depositor personally, or mail or deliver it to the depositor at the address shown on the records of the bank for that account, not later than 10 days after the date of the initial deposit.

(b) (1) Except as provided in subdivision (c), before any charge which has been disclosed in a statement furnished to a depositor is increased for that account, or any charge which has not been disclosed in a statement furnished to a depositor is imposed on that account, or any charge is imposed on an account if a statement has not been furnished as required by subdivision (a), the bank shall deliver to the depositor personally, or mail or deliver to the depositor at the address shown on the records of the bank for that account, a written statement or statements disclosing the increased charge or new charge in a manner provided in subdivision (a), or the written statement or statements required by subdivision (a), not less than 15 days prior to the date on which the charge is to be increased or first imposed, unless such charge or change therein is required by law or regulation.

(2) Except with respect to an account in which the rate of interest may vary, or as provided in subdivision (c), before a bank makes a change in the rate of interest or the method or frequency of computing or paying interest such that the annual yield will be less favorable to a depositor than under the previous rate, method, or frequency, the bank shall deliver to the depositor personally, or mail or deliver to the depositor at the address shown on the records of the bank for that account, a written statement or statements disclosing such change not less than 15 days prior to the effective date of such change, unless such change is required by law or regulation.

(c) With respect to an account established prior to July 1, 1977, unless previously furnished, a bank shall deliver to its depositors personally, or mail or deliver to its depositors at the address shown on the records of the bank for those accounts which are demand deposits, not later than July 1, 1977, and for those accounts which are savings and time deposits, not later than January 31, 1978, a current written statement or statements disclosing the information described in Section 865.2 which is in effect at that time.

(d) If there is more than one depositor with respect to an account, the bank need furnish the information required by this section to

only one of them.

(e) An unincorporated association of natural persons may execute a written waiver of the requirements of this section when establishing an account which provides for specially negotiated arrangements with respect to the charges, interest rate, and method or frequency of computing and paying interest applicable to such account.

(f) For the purposes of the second paragraph of subdivision (a), a bank is not required to make subsequent initial disclosures solely because a depositor makes or authorizes subsequent deposits which individually may bear different rates of interest notwithstanding that federal or state law or regulation treat such deposits as separate accounts, if the deposits are made or authorized in accordance with an arrangement contemplating a series of deposits which individually may bear different rates of interest, and that disclosure has been furnished at the time the arrangement was established or at a later time prior to the acceptance of a particular deposit for which a subsequent initial disclosure would otherwise be required by this section.

SEC. 8. Section 5612.5 of the Financial Code, as added by Senate Bill No. 1364 of the 1981–82 Regular Session of the Legislature, is amended to read:

5612.5. (a) Notwithstanding the provisions of Sections 1051, 1052, and 1054 of the Labor Code and Section 2947 of the Penal Code, a savings and loan association or officer or employee thereof may deliver fingerprints taken of an applicant for employment to local, state, or federal law enforcement agencies for the purpose of obtaining information as to the existence and nature of a criminal record, if any, of the applicant relating to convictions, and to any arrest for which the applicant is released on bail or on his or her own recognizance pending trial, for the commission or attempted commission of a crime involving robbery, burglary, theft, embezzlement, fraud, forgery, bookmaking, receiving stolen property, counterfeiting, or involving checks or credit cards or using computers.

(b) The Department of Justice shall, pursuant to Section 11105 of the Penal Code, and a local agency may pursuant to Section 13300 of the Penal Code, furnish to the officer of the savings and loan association responsible for the final decision regarding employment of the applicant, or to his or her designees having responsibilities for personnel or security decisions in the usual scope and course of their employment with the savings and loan association, summary criminal history information when requested pursuant to this section. If, upon evaluation of the criminal history information received pursuant to this section, the savings and loan association determines that employment of the applicant would constitute an unreasonable risk to the savings and loan association or its customers, the applicant may be denied employment.

(c) A request for records pursuant to this section made of the

Department of Justice shall be on a form approved by the department. The department may charge a fee to be paid by the requesting savings and loan association pursuant to subdivision (e) of Section 11105 of the Penal Code. No request shall be submitted without the written consent of the applicant.

(d) Any criminal history information obtained pursuant to this section is confidential and no recipient shall disclose its contents other than for the purpose for which it was acquired.

SEC. 9. Section 6601 of the Financial Code is amended to read:

6601. An association shall maintain information about: (1) the amount or, if no amount can be stated, the method of determining the amount of each charge which the association may impose on an account; (2) the rate of interest, the annual yield, and method that will be used in computing and paying interest on the account, if any, including any provision for nonpayment of interest on deposits made after the beginning of the interest payment period or withdrawn before the end of such period; and (3) the effective date thereof. If the depositor is not physically present at a branch office of the association at the time the initial deposit is accepted and the written statement has not been furnished previously, the association shall deliver the written statement to the depositor personally, or mail or deliver it to the depositor at the address shown on the records of the association for that account, not later than 10 days after the date of the initial deposit.

(2) Except with respect to an account in which the rate of interest may vary, or as provided in subdivision (c), before an association makes a change in the rate of interest or the method or frequency of computing or paying interest such that the annual yield will be less favorable to a depositor than under the previous rate, method, or frequency, the association shall deliver to the depositor personally, or mail or deliver to the depositor at the address shown on the records of the association for that account, a written statement or statements disclosing such change not less than 15 days prior to the effective date of such change, unless such change is required by law or regulation.

(f) For the purposes of the second paragraph of subdivision (a), an association is not required to make subsequent initial disclosures solely because a depositor makes or authorizes subsequent deposits which individually may bear different rates of interest notwithstanding that federal or state law or regulation treat such deposits as separate accounts, if the deposits are made or authorized in accordance with an arrangement contemplating a series of deposits which individually may bear different rates of interest, and that disclosure has been furnished at the time the arrangement was established or at a later time prior to the acceptance of a particular deposit for which a subsequent initial disclosure would otherwise be required by this section.

shall be so informed.

(d) If, pursuant to an agreement, the fixed-term savings account certificate is renewed, the depositor shall be informed of the rate of interest and new maturity date. However, if the rate of interest is not ascertainable when the notice is sent, the notice shall state when the rate of interest will become available, and shall inform the depositor how to obtain the rate. If the rate of interest may vary over the term of the deposit, the association shall inform the depositor of the initial rate of interest, the circumstances under which such variation may occur, and the method of determining the rate of interest.

SEC. 18. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

The statutory holiday schedule for banks located in this state with respect to holidays which fall on a Saturday is at variance with the holiday schedule of the Federal Reserve System and that of financial institutions located in other money market centers of the nation. Sections 1 and 3 of this act would bring about this necessary conformity. In addition, new deposit accounts have been recently authorized for banks and savings and loan associations which were not contemplated at the time of enactment of existing disclosure requirements, and some of such requirements are operationally impracticable with respect to these new accounts. In order, therefore, to bring about the necessary holiday conformity for

December 25th of this year and to insure that depositors can obtain the benefit of the new deposit accounts, it is necessary that this act take effect immediately.

SEC. 19. Sections 4, 8, 12, and 13 of this act shall become operative only if Senate Bill 1364 of the 1981–82 Regular Session of the Legislature is chaptered, this bill is chaptered after Senate Bill 1364, and no other bill is chaptered after Senate Bill 1364 and before this bill which amends Sections 777, 5612.5, 11110, and 14409.2 of the Financial Code as added by Senate Bill 1364.

SEC. 20. Sections 2, 4, 8, 12, 13, 14, 15, 16 and 17 of this act shall become operative on January 1, 1983.

of the teacher's academic training to determine the equivalencies to the requirements for approved programs or teaching experience pursuant to subdivision (c) and the passing of the approved state examination.

(b) A college or university training program shall consist of not less than 24 approved semester units, or quarter unit equivalents, which shall include, but need not be limited to, an emphasis on the teaching of pupils of limited-English proficiency in accordance with the standards for approval established by the commission, including:

(2) Psychosocial and cultural factors in language acquisition.

(3) Theories and methods of bilingual education.

(4) Analysis of the English language for teaching purposes.

(5) Theories and methods of teaching English to speakers of other languages.

(6) Testing, diagnosis, language assessment, and evaluation.

The uniform state examination, and the variations thereof, shall be approved by the commission. State Department of

Education personnel who are familiar with bilingual education and language development, researchers, linguists, bilingual educators, and ESOL practitioners shall be consulted in the preparation of the examination contents and procedures. Costs incurred for the participation of these participants in the development of the state examination shall be borne by their respective agencies.

44480. The commission shall require that any institution desiring to establish a language development specialist program shall submit plans to the commission for review. The submitted plans may be approved or rejected by the commission.

44480.5. The Legislature recognizes that there is a need for language development specialists, as defined in subdivision (a) of Section 44476, to augment the number of bilingual-crosscultural teachers needed to develop English language skills for pupils of limited-English proficiency. Therefore, it is the intent of the Legislature that the commission shall develop the state examination for the assessment of the competencies in a timely manner and to the extent that funds are made available under priorities to be established by the commission.

44481. Fees for the state examination for a certificate of competence as a language development specialist, and any necessary rules and regulations, shall be established at a rate not to exceed the fees established for other certificates of competence. A portion of the fee, as determined by the commission, shall be used to pay for the development of the state examination.

SEC. 3. Section 52163 of the Education Code is amended to read:

52163. Unless the context otherwise requires, the definitions set forth in this section shall govern the construction of this article.

(a) "Basic bilingual education" is a system of instruction which builds upon the language skills of the pupil and which consists of, but is not limited to, all of the following:

(1) A structured English language development component with daily instruction leading to the acquisition of English language proficiency, including English reading and writing skills.

(2) A structured primary language component with daily basic skills instruction in the primary language for the purpose of sustaining achievement in basic subject areas until the transfer to English is made.

As the pupil develops English language skills, the amount of instruction offered through English shall increase.

(b) "Bilingual-bicultural education" is a system of instruction which uses two languages, one of which is English, as a means of instruction. It is a means of instruction which builds upon and expands the existing language skills of each participating pupil, which will enable the pupil to achieve competency in both languages.

This instruction shall include all of the following:

(1) Daily instruction in English language development which shall include:

(A) Listening and speaking skills.

(B) Reading and writing skills; formal instruction in reading and writing of English shall be introduced when appropriate criteria are met.

(2) Language development in the pupil's primary language, including oral and literacy skills.

(3) Reading in the pupil's primary language.

(4) Selected subjects taught in the pupil's primary language.

(5) Development of an understanding of the history and culture of California and the United States, as well as an understanding of customs and values of the cultures associated with the languages being taught.

(c) (1) "Experimental bilingual programs" are:

(A) Innovative programs which are consistent with the provisions of this article, including, but not limited to, the requirements for bilingual teaching personnel pursuant to Section 52165, and the requirements for English language and primary language development pursuant to this section. Such programs may include new management approaches, greater emphasis on team teaching, or other appropriate improvements which expand the learning opportunities of pupils of limited-English proficiency. Unless waivers of code sections are required, the board need not approve such projects. A description of each such innovative program shall be included with the consolidated application for program funding and an annual evaluation of such programs shall be included in the multiple-funded program evaluation required pursuant to Section 33403.

(B) Planned variation programs for the purpose of comparing and improving language development programs for pupils of limited-English proficiency. The primary focus shall be on appropriate instruction for pupils of limited-English proficiency whose English skills are superior to their skills in their primary language. Such program shall be authorized by the board in up to 150 classrooms in districts which are representative of the state both geographically and by size. Not more than 15 such classrooms shall be approved in any one district. Such programs shall not result in segregation. For districts proposing a planned variation program, the staffing requirements of Section 52165 may be partially or totally waived by the board provided that the district has an inadequate number of certified bilingual teachers, that certified bilingual teachers are not replaced, that present level of effort is not reduced, and that the proposed language development program is appropriate. For each participating classroom there shall be another similar classroom in the district which has fully implemented and is in compliance with the other provisions of this article.

(2) Initial guidelines, criteria, and procedures for experimental programs shall be developed by the department not later than March 1, 1981. Proposals for planned variation programs shall include, but need not be limited to:

(4) Nothing contained in this subdivision shall be construed to permit the operation of experimental bilingual and planned variation programs contrary to the purposes or intent of this article and other state or federal statutes and regulations promulgated for and on behalf of pupils of limited-English proficiency. The primary goal of all such programs shall be to teach the pupil English.

(d) "Secondary level language development program" is a program in grades 7 to 12 which provides a prescriptive English language program that systematically develops a pupil's listening and speaking skills, knowledge of linguistic and grammatical structure leading to proficiency in reading and writing English. The prescriptive English language program shall be based on the diagnosis of a pupil's language skills pursuant to Sections 52164 and 52164.1 and shall be conducted as an integral instructional program of English curriculum for not less than one full period a day or its equivalent for the purpose of providing pupils with minimum English language competencies pursuant to subdivision (e). The primary goal of such programs shall be to teach pupils the English language.

In addition to the prescriptive English language program required by this subdivision, a secondary level language development program shall provide primary language instructional support to sustain academic achievement in nonelective content subject areas required for high school graduation consistent with current law.

Instruction in a secondary level language development program shall be provided either by a language development specialist, or by a certified bilingual-crosscultural teacher, who has received the recommendation of the local superintendent of schools verifying in writing that the teacher is competent and qualified to teach an English-as-a-second-language component, as measured by the district's personnel evaluation system.

School districts offering an instructional program pursuant to this subdivision shall not be required to provide a secondary level individual learning program, as defined in subdivision (e), but shall be required to maintain records documenting all parental notices and of the continuing evaluation of pupil needs and services.

A school district may make a secondary level language development program available to pupils enrolled in grade 6 whenever that grade is maintained by the district in a middle school comprised of any of grades 6, 7, 8, or 9.

(e) "Secondary level individual learning program" is an individualized systematic program of instruction which meets the needs of limited-English-proficient pupils and builds upon their language skills in order to develop proficiency in English. This program shall be offered in a manner consistent with the United States Supreme Court decision in Lau vs. Nichols (414 U.S. 563), the Equal Education Opportunities Act of 1974 (20 U.S.C. Sec. 1701 et seq.) and federal regulations promulgated pursuant to such court decisions and federal statutes. The primary goal of all such programs shall be to teach the pupil English.

(f) "Elementary level individual learning program" is any program of instruction for a pupil of limited-English proficiency in which any one of the three program options described in subdivision (a), (b), or (c) is individualized to meet the needs of the pupil of limited-English proficiency and is offered in a manner consistent with the requirements of this article. Such instruction shall be offered in a manner consistent with the United States Supreme Court decision in Lau v. Nichols (414 U.S. 563), the Equal Educational Opportunities Act of 1974 (20 U.S.C. Sec. 1701 et seq.), and federal regulations promulgated pursuant to such court decisions and federal statutes. The primary goal of all such programs shall be to teach the pupil English.

(g) "Primary language" is a language other than English which is the language the pupil first learned or the language which is spoken in the pupil's home.

Pupils who have no proficiency in their primary language are not included within this definition.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 25345 of the Health and Safety Code, as amended by Chapter 496 of the Statutes of 1982, is amended to read:

25345. (a) There is hereby imposed a tax, payable annually, and to be collected by the board, upon each ton or fraction thereof, of waste and material specified in Section 25342, according to the formula specified herein. The board shall set the base tax rate upon the waste and material specified in Section 25342 in accordance with the following formula:

$$\text{Base tax rate} = \frac{(\$10{,}000{,}000\text{-}M)}{(0.15W_1+W_2+2W_3+0.01W_4)}$$

where:

(1) "M" is the existing unobligated balance in the fund (M shall equal zero (0) for June 30, 1982). As used in this article, "unobligated balance" means all unencumbered funds in the account as of June 30, as estimated on March 1 of each year, less:

(A) Any funds in the reserve account for emergencies established by Section 25354.

(B) Any remaining principal of the loan authorized by Section 25332.

(C) Any interest due on any remaining principal of the loan authorized by Section 25332.

(D) Any funds paid as taxes for the following fiscal year.

(E) Any funds received from the federal government pursuant to the federal act.

The unobligated balance shall not be less than zero (0).

(2) W_1 is the total amount in tons of waste and material specified in subdivision (a) of Section 25344.

(3) W_2 is the total amount in tons of waste specified in subdivision (b) of Section 25344.

(4) W_3 is the total amount in tons of waste specified in subdivision (c) of Section 25344.

(5) W_4 is the total amount in tons of waste specified in subdivision (d) of Section 25344.

(b) On or before May 1 of each year, using the formula specified in subdivision (a), the board shall determine the base tax rate for the current year.

(c) The tax imposed upon each person subject to Section 25342 shall be assessed according to the following formula:

$$\text{Tax} = (\text{base tax rate}) \times (0.15P_1+P_2+2P_3+0.01P_4)$$

where:

(1) "Base tax rate" equals the figure determined pursuant to subdivision (a).

(2) P_1 is the amount in tons of waste and material specified by the person pursuant to subdivision (a) of Section 25342.

(3) P_2 is the amount in tons of waste specified by the person pursuant to subdivision (b) of Section 25342.

(4) P_3 is the total amount in tons of waste specified by the person pursuant to subdivision (c) of Section 25342.

(5) P_4 is the total amount in tons of waste specified by the person pursuant to subdivision (d) of Section 25342.

(d) On or before May 1 of each year, the board shall send to each person subject to Section 25342 a notice of assessment.

(e) On or before July 1 of each year, each person subject to Section 25342 shall pay to the board the amount of the assessment as stated in the notice. The tax under this chapter shall not be imposed again on hazardous waste or extremely hazardous waste if the waste, or any portion thereof, is removed subsequently to another place for disposal and if the person has paid the amount of assessment for the waste in accordance with this section before the removal thereof.

(f) The tax provided for in this section shall not apply to local vector control agencies which have entered into a cooperative agreement pursuant to Section 2426 or to county agricultural commissioners if the local vector control agencies or county agricultural commissioners generate or dispose of hazardous wastes resulting from their control activities, if they comply with the recordkeeping requirements of this chapter and all of the requirements of Chapter 6.5 (commencing with Section 25100) and regulations adopted pursuant thereto.

SEC. 2. Section 25345.5 is added to the Health and Safety Code, to read:

25345.5. Neither the recordkeeping requirements of Section 25342 nor the tax provided in Section 25345 shall apply to local health officers or county agricultural commissioners if the local health officers or county agricultural commissioners are conducting voluntary hazardous waste collection programs and if the total quantities collected are limited to 1,000 kg. or less per month from all sources; provided, however, that they comply with all requirements of Chapter 6.5 (commencing with Section 25100) and regulations adopted pursuant thereto. For the purposes of this section, "voluntary hazardous waste collection program" means a program in which small quantities of hazardous wastes are received from nonindustrial sources, stored, and ultimately transferred to a licensed hazardous waste disposal site. Any hazardous waste collections in excess of 1,000 kg. per month shall be subject to all requirements of this chapter and Chapter 6.5 (commencing with Section 25100) and regulations adopted pursuant thereto, including, but not limited to, those providing for payment of taxes and recordkeeping.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 14617 of the Government Code is repealed.

SEC. 2. Section 14780 of the Government Code is amended to read:

14780. Except as provided by Article 5 (commencing with Section 14831), all contracts entered into by any state agency for (a) the hiring or purchase of equipment, supplies, materials, and elementary school textbooks, (b) services, whether or not the same involve the furnishing or use of equipment, materials or supplies or are performed by an independent contractor, (c) the construction, alteration, improvement, repair or maintenance of property, real or personal, or (d) the performance of work or services by such state agency for or in cooperation with any person, or public body, are of no effect unless and until approved by the Department of General Services. Every such contract shall be transmitted with all papers, estimates, and recommendations concerning it to the department and, if approved by the department, shall be effective from the date of such approval. This section shall apply to any state agency which by general or specific statute is expressly or impliedly authorized to enter into transactions referred to herein. This section and Article 5 (commencing with Section 14831) shall not apply to any contract let by the Trustees of the California State University and Colleges involving an expenditure of less than one hundred thousand dollars ($100,000) or by a department under the State Contract Act or the State College Contract Law, nor to any contract of a type specifically

mentioned and authorized to be entered into by the Department of Transportation under Section 14035 or 14035.5 of the Government Code, Sections 99316 to 99319, inclusive, of the Public Utilities Code or the Streets and Highways Code, nor any contract entered into by the Department of Transportation which is not funded by money derived by state tax sources but, rather, is funded by money derived from federal or local tax sources, nor to any contract let by the Legislature, nor to any contract entered into under the authority of Chapter 4 (commencing with Section 11770) of Part 3 of Division 2 of the Insurance Code.

This section shall remain in effect only until January 1, 1987, and as of that date is repealed, unless a later enacted statute, which is chaptered before January 1, 1987, deletes or extends that date.

SEC. 3. Section 14780 of the Government Code, as added by Section 6.5 of Chapter 867 of the Statutes of 1981, is amended to read:

14780. Except as provided in Article 5 (commencing with Section 14831), all contracts entered into by any state agency for (a) the hiring or purchase of equipment, supplies, materials, and elementary school textbooks, (b) services, whether or not the same involve the furnishing or use of equipment, materials, or supplies or are performed by an independent contractor, (c) the construction, alteration, improvement, repair, or maintenance of property, real or personal, or (d) the performance of work or services by such state agency for or in cooperation with any person or public body, are of no effect unless and until approved by the Department of General Services. Every such contract shall be transmitted with all papers, estimates, and recommendations concerning it to the department and, if approved by the department, shall be effective from the date of such approval. This section shall apply to any state agency which by general or specific statute is expressly or impliedly authorized to enter into transactions referred to herein. This section and Article 5 (commencing with Section 14831) shall not apply to any contract let by a department under the State Contract Act or the State College Contract Law, nor to any contract of a type specifically mentioned and authorized to be entered into by the Department of Transportation under the Streets and Highways Code, nor any contract entered into by the Department of Transportation which is not funded by money derived by state tax sources but, rather, is funded by money derived from federal or local tax sources, nor to any contract let by the Legislature, nor to any contract entered into under the authority of Chapter 4 (commencing with Section 11770) of Part 3 of Division 2 of the Insurance Code.

This section shall become operative January 1, 1987.

SEC. 4. Section 14784 of the Government Code is amended to read:

14784. The department may except from this chapter certain classes or types of contracts of any particular state agency and authorize it to enter into such contracts without submitting them for approval. Written notice of exceptions shall be given to the state

agency and the Controller.

SEC. 5. (a) The Legislature finds and declares as follows:

(1) Each year state agencies enter into a large number of contracts for the performance of work or services they require to implement and administer the programs for which they have responsibility.

(2) The system which has been established for the review and approval of contracts by the Department of General Services, the Department of Finance and the State Personnel Board is uncoordinated, time-consuming, costly and has not established accountability in the administration and management of contracts.

(3) The procedures governing contract administration do not adequately assure that state agencies establish the purpose of, and need for, contracts, award contracts through competition, and evaluate the work done by contractors.

(4) The Department of General Services was established to centralize the business management functions and services of state government, take advantage of specialized techniques and skills, provide uniform management practices, and insure a continuing high level of efficiency and economy.

(b) The Legislature, therefore, declares its intent that the Department of General Services shall have sole responsibility for supervising contracting and the administration of contracts in state government as provided in this article. It is the intent of the Legislature that the purpose of such supervision is to ensure that an orderly process for the control of the contracting function is established and that state agencies with express or implied authority to contract for the performance of work or services exercise that authority in accordance with applicable law, rules, and regulations.

SEC. 6. Article 5 (commencing with Section 14831) is added to Chapter 6 of Division 3 of Title 2 of the Government Code, to read:

Article 5. Contracts for Services

14831. The provisions of this article shall apply to all contracts entered into by any state agency for services to be rendered to the state, whether or not the same involves the furnishing or use of equipment, materials or supplies or are performed by an independent contractor. Except as provided in Section 14834, all contracts subject to the provisions of this article are of no effect unless and until approved by the Department of General Services. Every such contract shall be transmitted with all papers, estimates, and recommendations concerning it to the department and, if approved by the department, shall be effective from the date of approval. This article shall apply to any state agency which by general or specific statute is expressly or impliedly authorized to enter into the transactions referred to in this section. This article shall not apply to contracts for the construction, alteration, improvement, repair, or maintenance of real property, contracts for

architectural and engineering services subject to the provisions of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1, or to contracts which are expressly excepted from the provisions of Section 14780.

14831.5. The Department of Finance may establish those controls over approval of contracts by the Department of General Services as are necessary to assure that approval is consistent with program and budgetary determinations of the Department of Finance. The controls established under this section shall not be constructed in a fashion or be construed in a manner which would authorize the Department of Finance to establish a separate program for reviewing and approving contracts in the place of, or in addition to, the program administered by the Department of General Services pursuant to this article. The Department of Finance, when it has reason to believe that a proposed contract is not in compliance with its program and budgetary determinations, may direct a state agency to transmit the contract to it for review. It is the intent of the Legislature, however, that any review of this type shall be restricted to individual contracts and shall occur only if no alternative course of action satisfactory to the Department of Finance is available.

14831.6. (a) The State Personnel Board may establish such standards and controls over approval of contracts by the Department of General Services as are necessary to assure that such approval is consistent with the merit employment principles and requirements contained in Article VII of the California Constitution. The substantive provisions of the standards shall be established at the discretion of the State Personnel Board. The specific procedures for contract review pursuant to such standards shall be established jointly by the board and the department.

It is the intent of the Legislature that except as provided in this section, the standards and controls established under this subdivision shall not be constructed in such a fashion or construed in such a manner as to authorize the State Personnel Board to establish a separate program for reviewing and approving each and every contract in the place of, or in addition to, the program administered by the Department of General Services pursuant to this article. The State Personnel Board may, when it has reason to believe that a proposed contract is not in compliance with the provisions of Section 19130, and shall, when requested to do so by an employee organization representing state employees, direct a state agency to transmit the contract to it for review.

(b) The State Personnel Board shall direct any state agency to transmit to it for review any contract proposed or executed pursuant to subdivision (a) of Section 19130, if the review has been requested by an employee organization notified pursuant to Section 19131. The review shall occur prior to any review conducted by the Department of General Services. The board shall restrict its review to the question as to whether the contract complies with the provisions of subdivision (a) of Section 19130 and any additional standards and

controls established pursuant to subdivision (a) of this section. The board may disapprove the contract only if it determines that the contract does not comply.

The board shall delegate the review of such a contract to the executive officer of the board. Within 15 days of its receipt, the executive officer shall notify the employee organization which requested the review whether he or she intends to approve or disapprove it. If the employee organization requests it, the executive officer shall grant the employee organization the opportunity to present its case against the contract and the reasons why the contract should be referred to the board for a hearing. Upon a showing of good cause by the employee organization, the executive officer shall schedule the disputed contract for a hearing before the board for the purpose of receiving evidence and hearing arguments concerning the propriety of the disputed contract. In any case, the executive officer shall approve or disapprove the contract or refer it to the board for a hearing within 30 days of its receipt. The reasons for a decision by the executive officer, or the board, approving or disapproving the contract shall be stated in writing.

(c) A contract proposed or executed pursuant to subdivision (b) of Section 19130 shall be reviewed by the State Personnel Board if the board receives a request to conduct such a review from an employee organization representing state employees. Any such review shall be restricted to the question as to whether the contract complies with the provisions of subdivision (b) of Section 19130. The board shall delegate the review of such a contract to the executive officer of the board. If the employee organization requests it, the executive officer shall grant the employee organization the opportunity to present its case against the contract and the reasons why the contract should be referred to the board for a hearing. Upon a showing of good cause by the employee organization, the executive officer shall schedule the disputed contract for a hearing before the board for the purpose of receiving evidence and hearing arguments concerning the propriety of the disputed contract. The executive officer shall approve or disapprove the contract or refer it to the board for a hearing within 30 days of its receipt. The reasons for the decision by the executive officer, or the board, approving or disapproving the contract shall be stated in writing.

(d) Contracts subject to State Personnel Board review under this section shall not become effective unless and until approval is granted.

14832. State agencies which enter into contracts subject to the provisions of this article shall document the need for each contract on a form prescribed by the Department of General Services. The agency shall do all of the following:

(1) Identify and fully describe the specific problem, administrative requirement, program need, or other circumstance the contract is intended to address and which makes the contract necessary.

(2) State the specific intended purpose of the contract and describe the services or product which will result.

(3) Describe how the agency will use the contract product and how that use will fill the need which makes the contract necessary.

(4) State the basis for the agency's determination that contracting is the most effective method for achieving the agency's purpose.

(5) Transmit the completed form to the Department of General Services.

14832.1. (a) Subject to the provisions of Section 14833.2, no state agency shall draft, or cause to be drafted, any invitation to bid or request for proposal, in connection with the awarding of a contract, in such a manner as to limit the bidding directly or indirectly to any one bidder.

(b) Any contract awarded in violation of subdivision (a) shall be void.

14832.2. (a) Except as provided by subdivision (b), state agencies shall secure at least three competitive bids or proposals for each contract.

(b) Three competitive bids or proposals are not required in any of the following cases:

(1) In cases of emergency where a contract is necessary for the immediate preservation of the public health, welfare, or safety, or protection of state property.

(2) When the agency awarding the contract has advertised the contract in the California State Contracts Register and has solicited all potential contractors known to the agency but has received less than three bids or proposals.

(3) The contract is with another state agency or with a local governmental entity.

(4) The contract meets the conditions prescribed by the Department of General Services pursuant to subdivision (a) of Section 14833.2.

(c) Any agency which has received less than three bids or proposals on a contract shall document, in a manner prescribed by the Department of General Services, the names and addresses of the firms or individuals it solicited for bids or proposals.

14832.5. Whenever a contract subject to the provisions of this article is awarded under a procedure which provides for competitive bidding, the bids shall be publicly opened at the time stated in the invitation for bids and the dollar amount of each bid shall be read. No bids shall be considered which have not been received at the place, and prior to the closing time for bids, stated in the invitation for bids.

14832.6. After opening, all bids shall be available for public inspection.

14832.7. Whenever a contract is awarded under a procedure which provides for competitive bidding, but the contract is not to be awarded to the low bidder, the low bidder shall be notified by telegram five working days prior to the award of the contract. Upon

written request by any bidder who has submitted a bid, notice of the proposed award shall be posted in a public place in the offices of the contracting agency at least five working days prior to awarding the contract. If, prior to the award, any bidder files a protest with the state agency against the awarding of the contract on the ground that he or she is the lowest responsible bidder meeting the specifications for the contract, the contract shall not be awarded until either the protest has been withdrawn or the Department of General Services has decided the matter.

Within five days after filing the protest, the protesting bidder shall file with the department a full and complete written statement specifying the grounds for the protest.

The Department of General Services shall establish written procedures for deciding protests.

14832.8. (a) Contracts subject to the provisions of this article may be awarded under a procedure which makes use of a request for proposal. State agencies which use this procedure shall include in the request for proposal a clear, precise description of the work to be performed or services to be provided, a description of the format which proposals shall follow and the elements they shall contain, the standards the agency will use in evaluating proposals, the date on which proposals are due and the timetable the agency will follow in reviewing and evaluating them.

State agencies which use a procedure which makes use of a request for proposal shall evaluate proposals and award contracts in accordance with the provisions of either subdivision (b) or subdivision (c). No proposals shall be considered which have not been received at the place, and prior to the closing time, stated in the request for proposal.

(b) State agencies which use the evaluation and selection procedure in this subdivision shall include in the request for proposal, in addition to the information required by subdivision (a), a requirement that bidders submit their proposals with the bid price and all cost information in a separate, sealed envelope.

Proposals shall be evaluated and the contract awarded in the following manner:

(1) All proposals received shall be reviewed to determine those which meet the format requirements and the standards specified in the request for proposal.

(2) The sealed envelopes containing the bid price and cost information for those proposals which meet the format requirements and standards shall then be publicly opened and read.

(3) The contract shall be awarded to the lowest responsible bidder meeting the standards.

(c) State agencies which use the evaluation and selection procedure in this subdivision shall include in the request for proposal, in addition to the information required by subdivision (a), a description of the methods which will be used in evaluating and scoring the proposals.

Proposals shall be evaluated and the contract awarded in the following manner:

(1) All proposals shall be reviewed to determine which meet the format requirements specified in the request for proposal.

(2) All proposals meeting the formal requirements shall then be submitted to an agency evaluation committee which shall evaluate and score the proposals using the methods specified in the request for proposal. All proposals and all evaluation and scoring sheets shall be available for public inspection at the conclusion of the committee scoring process.

(3) The contract shall be awarded to the bidder whose proposal is given the highest score by the evaluation committee.

(d) Nothing in this section shall require the awarding of the contract if no proposals are received containing bids offering a contract price which in the opinion of the state agency is a reasonable price.

14832.9. Contracts awarded under the provisions of Section 14832.8 shall be awarded only after a notice of the proposed award has been posted in the offices of the contracting agency for five working days. If, prior to the award, any bidder files a protest against the awarding of the contract, the contract shall not be awarded until either the protest has been withdrawn or the Department of General Services has decided the matter.

Within five days after filing the protest, the protesting bidder shall file with the department a full and complete written statement specifying the grounds for the protest. Protests shall be limited to the following grounds:

(a) The agency failed to follow the procedures specified in either subdivision (b) or (c) of Section 14832.8.

(b) The agency failed to apply correctly the standards for reviewing the format requirements or evaluating the proposals as specified in the request for proposal.

(c) The agency used the evaluation and selection procedure in subdivision (b) of Section 14832.8, but is proposing to award the contract to a bidder other than the lowest responsible bidder.

(d) The agency used the evaluation and selection procedure in subdivision (c) of Section 14832.8, but failed to follow the methods for evaluating and scoring the proposals specified in the request for proposal.

(e) The agency used the evaluation and selection procedure in subdivision (c) of Section 14832.8, but is proposing to award the contract to a bidder other than the bidder given the highest score by the agency evaluation committee.

The Department of General Services shall establish written procedures for deciding protests under this section.

14833. Contracts may provide for progress payments to contractors for work performed or costs incurred in the performance of the contract, provided that not less than 10 percent of the contract amount shall be withheld pending final completion of the contract

and an evaluation of the contractor's performance and work product, as required by Section 14833.1.

No state agency shall make progress payments on a contract unless it first has established procedures, approved by the Department of General Services, which will ensure that the work or services contracted are being delivered in accordance with the contract.

14833.1. Each state agency shall conduct an evaluation of each contract awarded. The evaluation shall be prepared within 30 days of completion of the contract and shall have two purposes, as follows:

(a) An evaluation of the performance of the contractor in doing the work or delivering the services for which the contract was awarded. The agency shall report on all of the following:

(1) Whether the contracted work or services were completed as specified in the contract.

(2) Whether the contracted work or services met the quality standards specified in the contract.

(3) Whether the contractor fulfilled all the requirements of the contract.

(4) Factors outside the control of the contractor which caused difficulties in contractor performance.

(5) Other information as may be required by the Department of General Services.

The evaluation shall be carried out on a form prescribed by the Department of General Services and one copy shall be filed with the department within 30 days of the completion of the contract.

(b) An evaluation of the contracted work or services in furthering the objectives of the contracting agency. The agency shall do all of the following:

(1) Evaluate the contract product or services rendered in light of the specific problem, administrative requirement, program need, or other circumstances which made the contract necessary.

(2) Evaluate the use of the contract product by the agency.

14833.2. The Department of General Services shall prescribe the following:

(a) The conditions under which a contract may be awarded without competition, and the methods and criteria which shall be used in determining the reasonableness of contract costs when a contract is awarded without competition.

(b) Any special requirements for evaluating multiple-year contracts which the department deems necessary to protect the financial interest of the state.

14833.5. The Department of Personnel Administration shall establish a program for training state agency contracting personnel in contract administration and contract management. The cost of training state agency contracting personnel shall be paid by state agencies out of their appropriations for personnel training. The Department of Personnel Administration shall, prior to establishing the training program required by this section, consult with the Department of General Services concerning the training curriculum

and the development of a training manual on contract administration.

14833.6. The department shall report to the Legislature, in accordance with such procedures as the Legislature may require, those contracts entered into by state agencies which the Legislature specifies in the Budget Act.

14834. (a) The Department of General Services shall exempt from its approval contracts under fifty thousand dollars ($50,000) awarded by any state agency which are of a class or type that the department finds may be entered into without the department's approval. Exemptions shall be granted to any state agency which:

When the department receives such a request but refuses to grant the exemption, it shall state in writing the reasons for the refusal. It is the intent of the Legislature that the department shall actively implement the provisions of this section and shall exempt from its approval as wide a range of classes or types of contracts as is consistent with proper administrative controls and the best interests of the state.

(c) This section shall become operative on July 1, 1983.

14834.1. (a) The department shall conduct an audit at least once in each three-year period of the contracting program of any state agency which has been granted the exemption provided by Section 14834.

(b) The exemption provided by Section 14834 may be withdrawn by the department at any time that the department finds that the state agency to which the exemption has been granted is out of compliance with the requirements of Section 14834. In any case where the exemption is withdrawn, the department shall state in writing, the reasons for the withdrawal and shall specify the actions the state agency is required to take before the exemption again may be requested.

CHAPTER 1208

An act to amend Section 14784 of, to add Article 4 (commencing with Section 14830) to Chapter 6 of Part 5.5 of Division 3 of Title 2 of, and to repeal Sections 14830.4 and 14830.6 of, the Government Code, relating to state government.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 14784 of the Government Code is amended to read:

14784. The department may except from this chapter certain classes or types of contracts of any particular state agency and authorize it to enter into such contracts without submitting them for approval. Written notice of exceptions shall be given to the state agency and the Controller.

SEC. 2. Article 4 (commencing with Section 14830) is added to Chapter 6 of Part 5.5 of Division 3 of Title 2 of the Government Code, to read:

Article 4. Consulting Services Contracts

14830. The Legislature of the State of California hereby finds and declares there is a present and growing need to reduce state fiscal expenditures, whenever and wherever it is practicable to do so.

The Legislature further finds and declares that fees for consulting services contracts are a major budget item for many departments and agencies.

The Legislature further finds and declares that many agencies are awarding consulting services contracts without adequate competition; that there are inadequate controls over payments for

consulting services contracts; that there is sometimes improper administration of consulting services contracts; that reports produced by consulting services contracts are often not used; and that there is inaccurate reporting of consulting services contracts.

Therefore, in order to achieve accountability and reduced fiscal expenditures, it is the intent of the Legislature, in enacting this article, to ensure the development of methods of applying cost-benefit standards, standards of initial merit for awarding consulting services contracts, and standards for determining product benefit of such contracts.

14830.1. (a) "Consulting services contract," as used in this article, means all services which are of an advisory nature, provide a recommended course of action or personal expertise, have an end product which is basically a transmittal of information either written or verbal and which is related to the governmental functions of state agency administration and management and state agency program management or innovation, and which are obtained by awarding a procurement-type contract.

The product may include anything from answers to specific questions to design of a system or plan, and includes workshops, seminars, retreats, and conferences for which paid expertise is retained by contract.

(b) "Consulting services contract" does not include any of the following:

(1) Contracts between a state agency or department and the federal government.

(2) Contracts with local agencies, as defined in Section 2211 of the Revenue and Taxation Code, to subvene federal funds for which no matching state funds are required.

(3) Contracts for the development, maintenance, administration, or use of licensing or proficiency testing examinations.

(4) Contracts for architectural and engineering services subject to the provisions of Chapter 10 (commencing with Section 4525) of Division 5 of Title 1.

(5) Contracts which are expressly excepted from the provisions of Section 14780.

(6) Contracts entered into by the California State University.

(c) The following consulting services contracts are exempt from the advertising and bidding requirements of this article:

(1) Contracts which are temporary or time-limited appointments to a nontesting civil service classification for the purpose of meeting a time-limited employment need. Selection and compensation for these appointments shall be made in accordance with state civil service requirements. Payment under a consulting service contract may be on the basis of each hour or day devoted to the task or in one lump sum for the end product.

(2) Contracts that can only be performed by a public entity as defined in subdivision (b) of Section 605 of the Unemployment Insurance Code.

(3) Contracts for the work or services of one state, local, or federal agency by another state, local, or federal agency.

(4) Contracts for which only per diem and travel expenses are paid and there is no payment for services rendered.

(5) Contracts solely for the purpose of obtaining expert witnesses for litigation.

(6) Contracts for legal defense, legal advice, or legal services.

14830.2. "State agency or department" as used in this article, means every state office, department, division, bureau, board, or commission, but does not include the Legislature, the courts, or any agency in the judicial branch of government.

14830.3. (a) Each state agency or department shall designate at least one currently existing person or position within the state agency or department as a contract manager. Every contract manager shall have knowledge of legal contractual arrangements.

(b) The Department of Personnel Administration shall establish a program for training state agency contracting personnel in contract administration and contract management. The cost of training state agency contracting personnel shall be paid by state agencies out of their appropriations for personnel training. The Department of Personnel Administration shall, prior to establishing the training program required by this section, consult with the Department of General Services concerning the training curriculum and the development of a training manual on contract administration.

14830.4. (a) Beginning on January 1, 1983, and each quarter thereafter, each state agency and department shall prepare a report pursuant to this section which includes a list of the consultant contracts into which it has entered during the previous three months or the period otherwise specified by this section. The listing shall include the following information:

(1) The name and identification of each contractor.

(2) The type of bidding entered into, the number of bidders, whether the low bidder was accepted, and if the low bidder was not accepted, an explanation of why the contract was a sole-source contract.

(3) The amount of the contract price.

(4) Whether the contract was a sole-source contract, and why the contract was a sole-source contract.

(5) The purpose of the contract and the potential beneficiaries.

(6) The date on which the initial contract was signed, the date on which the work began and was completed.

The report shall also include a separate listing of consultant contracts completed during the quarter, with the same information as above.

(b) The report required by this section shall also include a list of any contracts underway during that quarter on which any change was made regarding the following:

(1) The completion date of the contract.

(2) The amount of money to be received by the contractor, if it exceeds 3 percent of the original contract price.

(3) The purpose of the contract or duties of the contractor. A brief explanation shall be given if the change in purpose is significant.

(c) The report due on March 30 of each year shall include the above information for each consultant contract entered into or completed during the preceding nine months, rather than the quarterly report. The June 30 report shall be an annual report of the preceding 12 months. Copies of the quarterly and annual reports shall be sent within 10 days after the end of the quarter to the Legislative Analyst, the Department of Finance, the Auditor General, the Senate Finance Committee, and the Assembly Ways and Means Committee.

(d) State agencies and departments shall not utilize the temporary budget allocation process as a means of circumventing the requirements of this section.

14830.5. All consulting services contracts are of no effect unless and until approved by the Department of General Services. Every such contract shall be transmitted with all papers, evaluation forms, estimates, and recommendations concerning it to the department and, if approved by the department, shall be effective from the date of approval.

14830.6. Except as provided in Sections 14830.7 and 14830.8, the Department of General Services shall have sole responsibility for supervising contracting, including the state agency and department application of the pre- and post-evaluation mechanism, and the administration of contracts in state government as provided in this article during the 1982–83, 1983–84, and 1984–85 fiscal years only. During this period, each consulting services contract for an amount of ten thousand dollars ($10,000) or more shall be subject to the approval of the department. It is the intent of the Legislature that the purpose of this supervision is to ensure that an orderly process for the control of the contracting function is established and that state agencies with express or implied authority to contract for the performance of work or services exercise that authority in accordance with applicable law.

This section shall remain in effect only until July 1, 1985, and on that date is repealed.

14830.7. (a) The State Personnel Board may establish such standards and controls over approval of consulting services contracts by the Department of General Services as are necessary to assure that such approval is consistent with the merit employment principles and requirements contained in Article VII of the California Constitution. The substantive provisions of the standards shall be established at the discretion of the State Personnel Board. The specific procedures for contract review pursuant to such standards shall be established jointly by the board and the department.

It is the intent of the Legislature that except as provided in this

section, the standards and controls established under this subdivision shall not be constructed in such a fashion or construed in such a manner as to authorize the State Personnel Board to establish a separate program for reviewing and approving each and every contract in the place of, or in addition to, the program administered by the Department of General Services pursuant to this article. The State Personnel Board may, when it has reason to believe that a proposed contract is not in compliance with the provisions of Section 19130, and shall, when requested to do so by an employee organization representing state employees, direct a state agency to transmit the contract to it for review.

(b) The State Personnel Board shall direct any state agency to transmit to it for review any consulting services contract proposed or executed pursuant to subdivision (a) of Section 19130, if the review has been requested by an employee organization notified pursuant to Section 19131. The review shall occur prior to any review conducted by the Department of General Services. The board shall restrict its review to the question as to whether the contract complies with the provisions of subdivision (a) of Section 19130 and any additional standards and controls established pursuant to subdivision (a) of this section. The board may disapprove the contract only if it determines that the contract does not comply.

The board shall delegate the review of such a contract to the executive officer of the board. Within 15 days of its receipt, the executive officer shall notify the employee organization which requested the review whether he or she intends to approve or disapprove it. If the employee organization requests it, the executive officer shall grant the employee organization the opportunity to present its case against the contract and the reasons why the contract should be referred to the board for a hearing. Upon a showing of good cause by the employee organization, the executive officer shall schedule the disputed contract for a hearing before the board for the purpose of receiving evidence and hearing arguments concerning the propriety of the disputed contract. In any case, the executive officer shall approve or disapprove the contract or refer it to the board for a hearing within 30 days of its receipt. The reasons for a decision by the executive officer, or the board, approving or disapproving the contract shall be stated in writing.

(c) A consulting services contract proposed or executed pursuant to subdivision (b) of Section 19130 shall be reviewed by the State Personnel Board if the board receives a request to conduct such a review from an employee organization representing state employees. Any such review shall be restricted to the question as to whether the contract complies with the provisions of subdivision (b) of Section 19130. The board shall delegate the review of such a contract to the executive officer of the board. If the employee organization requests it, the executive officer shall grant the employee organization the opportunity to present its case against the contract and the reasons why the contract should be referred to the

board for a hearing. Upon a showing of good cause by the employee organization, the executive officer shall schedule the disputed contract for a hearing before the board for the purpose of receiving evidence and hearing arguments concerning the propriety of the disputed contract. The executive officer shall approve or disapprove the contract or refer it to the board for a hearing within 30 days of its receipt. The reasons for the decision by the executive officer, or the board, approving or disapproving the contract shall be stated in writing.

(d) Contracts subject to State Personnel Board review under this section shall not become effective unless and until approval is granted.

14830.8. The Department of Finance may establish controls over approval of contracts by the Department of General Services which are necessary to assure that approval is consistent with program and budgetary determinations of the Department of Finance. The controls established under this section shall not be constructed in any fashion or construed in any manner which authorizes the Department of Finance to establish a separate program for reviewing and approving contracts in the place of, or in addition to, the program administered by the Department of General Services pursuant to this article. The Department of Finance may, when it has reason to believe that a proposed contract is not in compliance with its program and budgetary determinations, direct a state agency or department to transmit the contract to it for review. It is the intent of the Legislature, however, that this review shall be restricted to individual contracts and shall occur only if no alternative course of action satisfactory to the Department of Finance is available.

14830.9. (a) The Department of General Services shall exempt from its approval consulting services contracts under fifty thousand dollars ($50,000) awarded by any state agency which are of a class or type that the department finds may be entered into without the department's approval. Exemptions shall be granted to any state agency which:

(1) Designates an agency officer as responsible and directly accountable for the agency's contracting program.

(2) Establishes written policies and procedures and a management system which will ensure that agency contracting activities comply with applicable provisions of law and regulations.

(3) Establishes a plan for ensuring that contracting personnel are adequately trained in contract administration and contract management.

(4) Conducts an annual internal audit of the contracting program and reports to the department as it may require.

(5) Establishes procedures for reporting to the department and the Legislature on such contracts as the Legislature may require in the Budget Act.

(b) Any state agency may request the Department of General Services to exempt from its approval classes or types of contracts

under this section. When the department receives such a request but refuses to grant the exemption, it shall state in writing the reasons for the refusal. It is the intent of the Legislature that the department shall actively implement the provisions of this section and shall exempt from its approval as wide a range of classes or types of contracts as is consistent with proper administrative controls and the best interests of the state.

(c) This section shall become operative on July 1, 1983.

14830.10. (a) The department shall conduct an audit at least once in each three-year period of the contracting program of any state agency which has been granted the exemption provided by Section 14830.9.

(b) The exemption provided by Section 14830.9 may be withdrawn by the department at any time that the department finds that the state agency to which the exemption has been granted is out of compliance with the requirements of Section 14830.9. In any case where the exemption is withdrawn, the department shall state in writing the reasons for the withdrawal and shall specify the actions the state agency is required to take before the exemption again may be requested.

14830.11. Consulting services contracts subject to the approval of the Department of General Services shall also have approval for a modification or amendment thereto, with the following exception:

An amendment to a consulting services contract which only extends the original time for completion of performance for a period of one year or less is exempt. If the original contract was subject to approval by the Department of General Services, then one fully executed copy, with Contract Transmittal Standard Form 15, explaining the reason for the extension, shall be sent to the Legal Office of the Department of General Services. A contract may only be amended once under this exemption.

Contracts let or awarded on the basis of a law requiring competitive bidding may be modified or amended only if the contract so provides or if authorized by the law requiring competitive bidding.

If an amendment to a consulting services contract has the effect of giving the contract as amended an increase in monetary amount, or an agreement by the state to indemnify or save harmless any person, the amendment shall be approved by the Department of General Services.

14830.12. (a) On or before January 1, 1983, the Department of General Services shall prepare and submit standardized pre- and post-evaluation forms to every state agency or department. Upon receipt, each state agency or department shall use the forms to evaluate all consulting services contracts.

The Department of General Services shall devise standards and criteria for the pre- and post-evaluation forms. These standardized pre- and post-evaluation forms shall consist of a form for assessing the need and value of the consulting services contract to the state, and

a form for assessing the usability and utility of the completed consulting services contract.

(b) The Auditor General shall review the pre- and post-consulting services contract standardized form prepared by the Department of General Services for efficaciousness and communicate his or her comments to the Legislature and to the Department of General Services.

In addition, the Auditor General shall periodically, during the 1982–83, 1983–84, and 1984–85 state fiscal years, randomly select and audit contracts to determine if the contract has effectively been evaluated in accordance with the standard evaluation forms, if the contracts are cost effective, and if the pre- and post-evaluation forms are effective.

14830.13. State agencies which enter into consulting services contracts shall document the need for each contract by doing all of the following on the pre-evaluation form:

(a) Identify and fully describe the specific problem, administrative requirement, program need, or other circumstance the contract is intended to address and which makes the contract necessary.

(b) State the specific intended purpose of the contract and describe the services or product which will result.

(c) Describe how the agency will use the contract product and how that use will fill the need which makes the contract necessary.

(d) State the basis for the agency's determination that contracting is the most effective method for achieving the agency's purpose.

(e) Include a description of the product benefit and the estimated number of persons served by such a benefit.

(f) State the cost of contract, and the bidding mechanism planned.

14830.14. Each state agency shall conduct a post-evaluation of each consulting services contract which it executes by completing the post-evaluation form. The post-evaluation shall be prepared within 30 days of completion of the contract and shall have two purposes, as follows:

(a) An evaluation of the performance of the contractor in doing the work or delivering the services for which the contract was awarded. The agency shall report on all of the following:

(1) Whether the contracted work or services were completed as specified in the contract, and reasons for and amount of any cost overruns.

(2) Whether the contracted work or services met the quality standards specified in the contract.

(3) Whether the contractor fulfilled all the requirements of the contract.

(4) Factors outside the control of the contractor which caused difficulties in contractor performance.

(5) Other information as may be required by the Department of General Services.

One copy of the form shall be filed with the department within 30 days of the completion of the contract.

(b) An evaluation of the contracted consulting services in furthering the objectives of the contracting agency. The agency shall do all of the following:

(1) Evaluate the contract product or services rendered in light of the specific problem, administrative requirement, program need, or other circumstances which made the contract necessary.

(2) Evaluate the use of the contract product by the agency.

14830.15. (a) The contractor shall be advised in writing on the standard contract form that his or her performance under the contract will be evaluated.

(b) A copy of each post-evaluation shall be sent to the legal office of the Department of General Services. These evaluations shall not be public records. The legal office shall act as a central depository for all state agencies making evaluation or desiring information on a contractor's record with the state and shall send a copy of any post-evaluation report to the director of any state agency upon receiving a written request stating the reason for the request. These post-evaluations shall remain on file for a period of 36 months only.

In addition, one copy of a standardized contractor evaluation form shall be sent to Electronic Data Processing Control and Development Office of the Department of Finance, if a consultant has performed an electronic data processing related service.

Failure to send a post-evaluation to the legal office of the Department of General Services, shall be grounds for rejection of future contracts or modification of exemptions.

14830.16. As of January 1, 1983, the following provisions shall apply to all consulting services contracts:

(a) Each state agency or department shall, regardless of the fiscal amount involved, use available private resources only when the quality of work of private resources is of at least equal quality compared with the state agency or department operated resources.

(b) Any state agency or department which enters into or expects to enter into more than one consulting services contract with the same individual, business firm, or corporation within a 12-month period for an aggregate amount of ten thousand dollars ($10,000) or more, shall notify, in writing, the Department of General Services and shall have each contract that exceeds an aggregate amount of ten thousand dollars ($10,000) approved by the Department of General Services.

(c) Each state agency or department shall, prior to signing a consulting services contract, regardless of the fiscal amount involved, prepare a detailed criteria and mandatory progress schedule for the performance of the contract and shall require each selected contractor to provide a detailed analysis of the costs of performing the contract.

(d) No consulting services contract shall be commenced prior to formal approval by the Department of General Services or, if the

department's approval is not otherwise required, by the director of the state agency or department. No payments for any consulting services contract shall be made prior to this approval of the award.

(e) No consulting services contractor shall be awarded a contract unless either of the following apply:

(1) The state agency or department has reviewed a contractor evaluation form on file with the Department of General Services in accordance with Section 14830.14.

(2) If the contractor has not performed a previous contract for any state entity, a completed resume for each contract participant who will exercise a major administrative role or major policy or consultant role, as identified by the contractor, shall be attached to the contract for public record.

(f) The Department of General Services may require special evaluation procedures for multiyear contracts between the pre-evaluation and post-evaluation otherwise required by this article, or for contracts calling for special evaluation procedures beyond the pre-evaluation and post-evaluation.

(g) Any sole-source contract for consulting services shall be listed in the State Contracts Register. The information contained in the listing shall include the contract recipient, amount, and services covered.

14830.17. (a) Subject to the provisions of Section 14830.25, no state agency shall draft, or cause to be drafted, any invitation to bid or request for proposal, in connection with the awarding of a consulting services contract, in such a manner as to limit the bidding directly or indirectly to any one bidder.

(b) Any contract awarded in violation of subdivision (a) shall be void.

14830.18. (a) Except as provided by subdivision (b), state agencies shall secure at least three competitive bids or proposals for each consulting services contract.

(b) Three competitive bids or proposals are not required in any of the following cases:

(1) In cases of emergency where a contract is necessary for the immediate preservation of the public health, welfare, or safety, or protection of state property.

(2) When the agency awarding the contract has advertised the contract in the California State Contracts Register and has solicited all potential contractors known to the agency but has received less than three bids or proposals.

(3) The contract is with another state agency or with a local governmental entity.

(4) The contract meets the conditions prescribed by the Department of General Services pursuant to subdivision (a) of Section 14830.25.

(c) Any agency which has received less than three bids or proposals on a contract shall document, in a manner prescribed by the Department of General Services, the names and addresses of the

firms or individuals it solicited for bids or proposals.

14830.19. Whenever a consulting services contract is awarded under a procedure which provides for competitive bidding, the bids shall be publicly opened at the time stated in the invitation for bids and the dollar amount of each bid shall be read. No bids shall be considered which have not been received at the place, and prior to the closing time for bids, stated in the invitation for bids.

14830.20. After opening, all bids shall be available for public inspection.

14830.21. Whenever a consulting services contract is awarded under a procedure which provides for competitive bidding, but the contract is not to be awarded to the low bidder, the low bidder shall be notified by telegram five working days prior to the award of the contract. Upon written request by any bidder who has submitted a bid, notice of the proposed award shall be posted in a public place in the offices of the contracting agency at least five working days prior to awarding the contract. If, prior to the award, any bidder files a protest with the state agency against the awarding of the contract on the ground that he or she is the lowest responsible bidder meeting the specifications for the contract, the contract shall not be awarded until either the protest has been withdrawn or the Department of General Services has decided the matter.

Within five days after filing the protest, the protesting bidder shall file with the department a full and complete written statement specifying the grounds for the protest.

The Department of General Services shall establish written procedures for deciding protests.

14830.22. (a) Consulting services contracts may be awarded under a procedure which makes use of a request for proposal. State agencies which use this procedure shall include in the request for proposal a clear, precise description of the work to be performed or services to be provided, a description of the format which proposals shall follow and the elements they shall contain, the standards the agency will use in evaluating proposals, the date on which proposals are due and the timetable the agency will follow in reviewing and evaluating them.

State agencies which use a procedure which makes use of a request for proposal shall evaluate proposals and award contracts in accordance with the provisions of either subdivision (b) or subdivision (c). No proposals shall be considered which have not been received at the place, and prior to the closing time, stated in the request for proposal.

(b) State agencies which use the evaluation and selection procedure in this subdivision shall include in the request for proposal, in addition to the information required by subdivision (a), a requirement that bidders submit their proposals with the bid price and all cost information in a separate, sealed envelope.

Proposals shall be evaluated and the contract awarded in the following manner:

(1) All proposals received shall be reviewed to determine those which meet the format requirements and the standards specified in the request for proposal.

(2) The sealed envelopes containing the bid price and cost information for those proposals which meet the format requirements and standards shall then be publicly opened and read.

(3) The contract shall be awarded to the lowest responsible bidder meeting the standards.

(c) State agencies which use the evaluation and selection procedure in this subdivision shall include in the request for proposal, in addition to the information required by subdivision (a), a description of the methods which will be used in evaluating and scoring the proposals.

Proposals shall be evaluated and the contract awarded in the following manner:

(1) All proposals shall be reviewed to determine which meet the format requirements specified in the request for proposal.

(2) All proposals meeting the formal requirements shall then be submitted to an agency evaluation committee which shall evaluate and score the proposals using the methods specified in the request for proposal. All proposals and all evaluation and scoring sheets shall be available for public inspection at the conclusion of the committee scoring process.

(3) The contract shall be awarded to the bidder whose proposal is given the highest score by the evaluation committee.

(d) Nothing in this section shall require the awarding of the contract if no proposals are received containing bids offering a contract price which in the opinion of the state agency is a reasonable price.

14830.23. Contracts awarded under the provisions of Section 14830.22 shall be awarded only after a notice of the proposed award has been posted in the offices of the contracting agency for five working days. If, prior to the award, any bidder files a protest against the awarding of the contract, the contract shall not be awarded until either the protest has been withdrawn or the Department of General Services has decided the matter.

Within five days after filing the protest, the protesting bidder shall file with the department a full and complete written statement specifying the grounds for the protest. Protests shall be limited to the following grounds:

(a) The agency failed to follow the procedures specified in either subdivision (b) or subdivision (c) of Section 14830.22.

(b) The agency failed to apply correctly the standards for reviewing the format requirements or evaluating the proposals as specified in the request for proposal.

(c) The agency used the evaluation and selection procedure in subdivision (b) of Section 14830.22, but is proposing to award the contract to a bidder other than the lowest responsible bidder.

(d) The agency used the evaluation and selection procedure in

subdivision (c) of Section 14830.22, but failed to follow the methods for evaluating and scoring the proposals specified in the request for proposal.

(e) The agency used the evaluation and selection procedure in subdivision (c) of Section 14830.22, but is proposing to award the contract to a bidder other than the bidder given the highest score by the agency evaluation committee.

7591.6. The director, taking into consideration the recommendations of the advisory board, may establish and enforce such rules and regulations as may be reasonable and necessary for the examination and licensing of applicants, for the conduct of licensees, and for the general enforcement of the various provisions of this chapter in the protection of the public.

7591.7. The chief or his or her designee may inspect, examine, or investigate the relevant records, books, accounts, and files created and maintained by the alarm company operator. The chief shall have access to those relevant business records, not including client

information relating to the operational integrity of the alarm system, necessary to the examination for the purpose of performing a random audit to determine compliance with the provisions of this chapter.

7591.8. The director with the concurrence of the disciplinary review committee may automatically suspend a firearm qualification card if it is determined that the continued possession of such a card by the card holder presents an undue hazard to public safety which may result in substantial injury to another.

The citation and fine assessment shall be in writing and shall describe with particularity the nature of the violation, including specific reference to the provision of law determined to have been violated. The citation shall contain an order of abatement fixing a reasonable time for abatement of the violation and may contain assessment of an administrative fine. The amount of the fine for any single investigation or audit of an alarm company operator, a qualified manager, or an alarm agent shall not exceed two thousand five hundred dollars ($2,500).

A citation and fine assessment shall inform the alarm company operator, qualified manager, or alarm agent that if he or she desires a review by the Alarm Company Operator Disciplinary Review Committee, the review shall be requested by written notice to the chief within 30 days of the issuance of the citation and assessment, as appropriate. If a review is not requested pursuant to this section, payment of any fine shall not constitute an admission of the violation charged. A review shall be held pursuant to the provisions of Section 7591.19.

If the alarm company operator, qualified manager, or alarm agent fails to request a review or fails to pay the assessed fine within 30 days of the assessment, the director may suspend the license, certificate, or registration of the person 30 days after the assessment.

(6) Been refused a license under this chapter or had a license revoked.

(7) Been an officer, partner, or manager of any person who has been refused a license under this chapter or whose license has been suspended or revoked.

The bureau may deny a license, certificate, or registration pursuant to this section only if the crime or act is substantially related to the qualifications, functions, or duties of the license, certificate, or registration for which application has been made.

The denial of a license, certificate, or registration shall be in writing and shall describe the basis for the denial. The denial shall inform the applicant that if he or she desires a review by the disciplinary review committee the review shall be requested within 30 days of the issuance of the denial. A review shall be held pursuant to the provisions of Section 7591.19.

(b) Notwithstanding any other provision of this chapter, no person shall be denied a license, certificate, or registration solely on the basis that he or she has been convicted of a felony, if he or she has obtained a certificate of rehabilitation pursuant to Chapter 3.5 (commencing with Section 4852.01) of Title 6 of Part 3 of the Penal Code, or solely on the basis that he or she has been convicted of a misdemeanor, if he or she has met all applicable requirements of the criteria of rehabilitation as provided in Section 7591.12.

The licensee, qualified manager, or alarm agent shall not have a right to a review or a hearing if the denial is made pursuant to this section.

7591.12. (a) When considering the denial, suspension, or revocation of a license, certificate, or registration, for which application has been made under this chapter, the chief, in evaluating the rehabilitation of the applicant and his or her present eligibility for a license, certificate, or registration shall consider all the following criteria:

(1) The nature and severity of the act or crime under consideration as grounds for denial.

7593.1. Each individual applicant and each qualified manager, partner of a partnership, and designated officers of a corporation shall submit with the application, one personal identification form provided by the chief upon which shall appear a photograph taken within one year immediately preceding the date of the filing of the application together with two legible sets of fingerprints and personal description of each such person, respectively. The identification form shall include residence addresses and employment history for the previous five years.

7593.2. If the applicant for license is an individual, the application shall state the full name of the individual, his or her social security number, and the full residence address of the applicant and that the applicant is to be personally and actively in charge of the business for which the license is sought, or if any other qualified manager is to be actively in charge of the business, the application shall so state and set forth the name of that person. Reinstatement of a canceled license shall not prohibit the bringing of disciplinary proceedings for any act committed in violation of this chapter during the period the license is canceled.

7593.13. A suspended alarm company operator license is subject to expiration and shall be renewed as provided in this article, but renewal of the license does not entitle the licensee, while the license remains suspended and until it is reinstated, to engage in the licensed activity, or in any other activity or conduct in violation of the order or judgment by which the license was suspended.

7593.14. An alarm company operator whose license has been canceled pursuant to this article, may obtain a new license only upon compliance with all of the provisions of this chapter relating to the issuance of an initial license.

7594.5. The individual deemed to be actively in charge of the business shall be the qualified manager, as defined in this chapter, and the certificate of the qualified manager shall be prominently displayed below the alarm company operator's license. Such individual shall spend an average of 51 percent of the usual business hours in the conduct of the business at the licensed location. Such individual shall share equally with the licensee the responsibility for compliance with this chapter.

Article 8. Powers to Arrest and Registration of Employees

7598. For purposes of this article, a "licensee" means a licensed alarm company operator.

7598.1. Every person entering the employ of a licensee, performing the function of an alarm agent who responds to alarm systems shall complete a course in the exercise of the powers to arrest, prior to being assigned to a duty location responding to an alarm system.

Evidence of completion shall consist of certification by the licensee or instructor that the exercise of the powers to arrest course has been taught, the date the course was taught, and certification by the employee that the instruction was received. Evidence of completion of the powers to arrest shall be maintained in the licensee's employee records and made available to the bureau upon request.

A qualified manager is not required to register under this article.

7598.2. The course of training in the exercise of the power to arrest may be administered, tested, and certified by any licensee. The department may approve any person or school to teach the course in the exercise of the power to arrest. The course of training shall be approximately two hours in length and cover the following topics:

(a) Responsibilities and ethics in citizen arrest.

(b) Relationship with the public police in arrest.
(c) Limitations on security guard power to arrest.
(d) Restrictions on searches and seizures.
(e) Criminal and civil liabilities.
(1) Personal liability.
(2) Employer liability.

The department shall make available a guide book as a standard for teaching the course in the exercise of the power to arrest. The department shall encourage additional training and may provide a training guide recommending additional courses.

7598.3. No employee of a licensee performing the function of an alarm agent who responds to alarm systems shall be issued a firearms qualification card until proper certification by the instructor that the exercise of the power to arrest course has been taught and the employee's certification that the instruction was received has been delivered to the department.

7598.4. Within three working days after commencing employment, any employee performing the function of alarm agent, who is not currently registered with the bureau, shall submit to the bureau a completed application for registration, two classifiable fingerprint cards, and the appropriate registration fee. No application is required to be submitted if the employee terminated employment within the three working days. "Within three working days" means 72 hours from the time an employee is first compensated for alarm agent services by a licensee.

7598.5. The application for registration under this article shall be on a form prescribed by the director and shall be accompanied by the fee as prescribed in this chapter.

7598.6. The application shall be verified and shall include the following:

(a) The full name, residence address, telephone number, date of birth, and social security number of the employee.

(b) The name, address, telephone number, and license number of the employer and the date the employment commenced.

(c) A statement as to whether the employee has been convicted of a misdemeanor, excluding minor traffic violations.

(d) A statement as to whether the employee has been convicted of a felony.

7598.7. An employee of a licensee may be assigned to work with a temporary application for registration until the bureau issues a registration card or denies the application for registration. A temporary application shall be a copy of the initial application. Any alarm agent employee assigned to work must carry either a temporary application or a valid registration.

7598.8. No employee of a licensee shall carry or use a firearm unless the employee has in his or her possession a valid alarm agent registration card and a valid firearm qualification card issued pursuant to this chapter.

7598.9. The bureau, upon receipt of a criminal offense record or

record of a subsequent arrest from the California Department of Justice, shall make an immediate determination of fitness for registration of applicants for registration or firearms qualification permit, when information contained in the records of the Department of Justice makes such a determination possible. Applications for registration of those determined to be unfit shall be immediately denied.

The bureau shall keep a current and accurate record of the individuals who have applied for and been denied registration or firearms qualification permits. A listing consisting of individual names and other pertinent identifying information may be made of those individuals who have been denied. The listing may be updated bimonthly and made available to interested licensees and law enforcement agencies.

7598.11. If the chief determines that an applicant's criminal history contains arrest information for which there appears no disposition, the chief shall issue a notice to the applicant allowing the applicant 45 days for the applicant to provide documentation concerning the disposition of the arrest or arrests.

The notice shall be sent to the applicant and shall provide sufficient information to assist the applicant in complying with the chief's request. A copy of the notice shall be sent to the applicant's last known employer. If the applicant fails to respond within 45 days, the applicant's employment shall be automatically suspended until the bureau obtains the necessary documentation to approve or deny the application.

7598.12. If the chief and the disciplinary review committee determine that continued employment of an applicant or registrant, in his or her current capacity, may present an undue hazard to public safety, the licensee, upon proper notification from the chief, shall suspend the applicant or registrant from employment in that capacity until action, to approve or deny the application for registration or to suspend or revoke the registration, has become final.

7598.14. Upon approval of an application for registration, the chief shall cause to be issued to the applicant, at his or her last-known address, a registration card in a form approved by the director. A photo identification card shall be furnished upon written request of the applicant, submission of two recent photographs of the applicant, and payment of the fee prescribed by this chapter. In the event of the loss or destruction of the card, the cardholder may apply to the bureau for a certified replacement of the card, stating the circumstances surrounding the loss, and pay a two-dollar ($2) certification fee, whereupon the bureau shall issue a certified replacement of the card.

7598.16. A licensee shall at all times be responsible for ascertaining that his or her employees subject to registration are currently registered or have made proper application for registration as provided in this article. The licensee may not have in his or her

employment a person whose registration has expired, or been revoked, denied, suspended, or canceled.

7598.17. A registration shall expire on the 31st day of December of the second calendar year following the date of issuance; and every two years thereafter. At least 60 days prior to the expiration of a registration, a registrant who desires to renew his or her registration shall forward to the bureau a copy of his or her current registration card, along with the renewal fee as set forth in this chapter, to the bureau for renewal of his or her registration.

The licensee shall provide to any employee information regarding procedures for renewal of registration.

An expired registration may not be renewed. A person with an expired registration may become eligible for employment, in a position for which registration is required, by applying for a new registration in the manner required of persons not previously registered.

If the renewed registration card has not been delivered to the registrant, prior to the date of expiration of the prior registration, the registrant may present evidence of renewal to substantiate continued registration, for a period not to exceed 90 days after the date of expiration.

7598.18. Any applicant or registrant shall notify the chief, in writing, within 30 days after any change in his or her residence address. The director may automatically suspend the registration of any person who fails to notify the bureau of any change of address within 30 days.

Any registration suspended pursuant to this section may only be reinstated upon the payment of a fee of fifteen dollars ($15).

Article 9. Prohibited Acts and Citations for Registered Employees

7598.50. The director may assess fines as enumerated in this article pursuant to Section 7591.9. Assessment of administrative fines shall be independent of any other action by the bureau, or any local, state, or federal governmental agency, which may result from a violation of this article.

7598.51. An alarm agent shall carry on his or her person, while on duty, either a valid and current registration card or a temporary application for registration.

A fine of ten dollars ($10) may be assessed for the first violation of this section and a fine of twenty-five dollars ($25) for each subsequent violation.

7598.53. An alarm agent who responds to an alarm system shall wear a prominently displayed patch or other designation which clearly identifies the name of the licensee. An alarm agent who carries a deadly weapon while responding to an alarm system shall wear a recognizable uniform with a prominently displayed patch or other designation which clearly identifies the name of the licensee.

The uniform must be distinguishable from the uniforms worn by local regular law enforcement officers. A violation of this section may result in a fine of twenty-five dollars ($25) for each violation.

Article 10. Alarm Company Operators—Qualifications and Examination

7599. Except as otherwise provided in this chapter, an applicant for a qualified manager certificate for an alarm company operator license shall:

(a) Have had at least two years' experience in alarm company work or the equivalent thereof as determined by the chief.

A year's experience shall consist of not less than 2,000 hours of actual compensated alarm company work performed by each applicant preceding the filing of an application.

Applicants shall substantiate the claimed years and hours of qualifying experience and the exact details as to the character and nature thereof by written certifications from employers, subject to independent verification by the chief as he or she may determine. In the event the applicant is unable to supply a written certification from an employer, the applicant may offer such other written certifications as may be properly considered by the chief. In addition, applicants shall supply such evidence for consideration, as may be required by the chief.

7599.5. Examinations shall be given at least once every other month at such places and on such specific dates as the director may from time to time determine and fix.

7599.6. In order to be eligible for an initial examination, an applicant shall have completed and filed his or her application together with the application fee prescribed by this chapter in the office of the bureau in Sacramento, California, and have his or her experience independently verified by the bureau, not later than 20 days prior to the next scheduled examination date. Applicants shall not be scheduled until a thorough investigation has been concluded

by the bureau. Applicants whose applications are not completed and filed within the time limits of this section may, at the discretion of the chief, be scheduled for the next scheduled examination.

7599.7. If an applicant fails to pass an initial examination or fails to appear as scheduled for an examination, he or she shall not be eligible for any subsequent examination except upon payment of the reexamination fee for each subsequent examination, accompanied by a completed application for reexamination duly filed within the time limits and conditions relating to applications for original examinations provided in Section 7599.6.

7599.8. All applicants shall be examined concerning their competency, experience, and qualifications by the chief. The chief may take testimony of anyone in regard thereto under oath.

7599.9. If an applicant fails to complete his or her application within one year after it has been filed, or fails to take the examination within a one-year period after becoming eligible therefor, the application shall be considered to be abandoned. An application submitted subsequent to the abandonment of a former application shall be treated as a new application.

7599.10. Every qualified manager certificate issued under this chapter shall be subject to the same renewal provisions which apply to an alarm company operator license as set forth in Sections 7593.11, 7593.12, 7593.13, and 7593.14.

Article 11. Alarm Company Operators—Licensed and Registered Locations

7599.20. For purposes of this article, "branch office" means any additional location, other than the alarm company operator's principal place of business, where the selling, monitoring, installation, or servicing of alarms is administered, directed, or controlled.

A telephone answering service or a telephone call forwarding device shall not be deemed to be a branch office.

7599.21. Any licensed alarm company operator, who maintains or proposes to maintain a branch office as defined in this article, shall apply and qualify for a branch office registration.

7599.22. The application for a branch office registration under this article shall be on a form prescribed by the director and shall be accompanied by the fee as set forth in this chapter.

7599.23. The application shall include:

7599.25. Each branch office registration shall be managed and supervised by a designated branch office manager. However, each registered branch office and designated branch office manager is under the active management supervision of the qualified manager of the licensee. A branch office may be maintained for 60 days from the date of initial registration under the direction of the qualified manager of the licensee.

7599.29. Every branch office registration issued under this chapter shall be subject to the same renewal provisions which apply to a license as set forth in Sections 7593.11, 7593.12, 7593.13, and 7593.14.

Article 12. Alarm Company Operators—Conduct of Business, Prohibited Acts and Citations

7599.30. The director may assess fines for any violation as enumerated in this article, pursuant to Section 7591.9.

7599.31. For purposes of this article, "licensee" means an alarm company operator. A licensee shall at all times be responsible for those actions of his or her employees, including his or her qualified manager, performed in violation of this chapter, when acting within the course and scope of his or her employment.

7599.32. A licensee shall, within 30 days after such change, notify the bureau of any change of its officers required to be named pursuant to Section 7593.4. Applications, on forms prescribed by the director, shall be submitted by all new officers. The director may deny the application of a new officer if the director determines that the officer has committed any act which constitutes grounds for the denial of a license pursuant to Section 7591.10. A Notice of Warning may be issued for the first violation of this section and a fine of twenty-five dollars ($25) for each subsequent violation.

7599.33. No licensee shall conduct business as defined in Section 7599.20 from any location other than that location for which a license or branch office registration was issued. A violation of this section may result in a fine of twenty-five dollars ($25) for each violation.

A current and valid firearm qualification card which indicates the specific caliber of the firearm which may be carried shall be deemed evidence of proficiency. A firearm qualification permit is not valid unless the employee holds a valid, current registration card. With respect to other deadly weapons, evidence of proficiency shall include a certificate from a training facility, certifying that the employee is

proficient in the use of that particular deadly weapon. A violation of this section may result in a fine of two hundred fifty dollars ($250) for each violation.

7599.41. A licensee shall maintain an accurate and current record of all firearms or other deadly weapons that are in the possession of the licensee, or of any employee of the licensee, while on duty. A violation of this section may result in a fine of one thousand dollars ($1,000) for each violation.

7599.48. No licensee, or officer, partner, manager, or employee of a licensee, shall knowingly make any false report to his or her employer or client for whom information is being obtained. A violation of this section may result in a fine of one hundred dollars ($100) for the first violation, and five hundred dollars ($500) for each subsequent violation.

7599.49. No licensee shall abandon the completion of any installation of an alarm system without legal excuse. A violation of this section may result in a fine of one hundred dollars ($100) for the first violation and five hundred dollars ($500) for each subsequent violation.

7599.50. No licensee shall willfully depart from or disregard any plans or specifications, or in the absence of specific requirements, within the plans or specifications of accepted trade standards for good and workerlike construction in any material respect and prejudicial to another, without consent of the owner or his or her duly authorized representative, and without the consent of the person entitled to have the particular installation of alarm system substantially completed in accordance with such plans and specifications. (g) A statement setting forth that upon completion of the installation of the alarm system, the alarm company shall thoroughly instruct the purchaser in the proper use of the alarm system.

(n) The fee for a "Certificate of Licensure" shall be twenty-five dollars ($25).

7599.71. The director shall furnish one copy of any issue or edition of the licensing law, rules and regulations, manuals, or guides to any applicant or licensee without charge. The director shall charge and collect a fee equivalent to the cost of producing such laws, rules and regulations, manuals, or guides, plus sales tax for each additional copy which may be furnished on request to any applicant or licensee, and for each copy furnished on request to any other person. All moneys derived, pursuant to this section except for any sales tax collected, are hereby continuously appropriated to the bureau to cover the costs of producing copies of such laws, rules and regulations, manuals or guides. All moneys collected for sales tax shall be remitted to the Board of Equalization.

7599.72. The department shall receive and account for all money derived from the operation of this chapter and, at the end of each month, shall report that money to the State Controller and shall pay it to the State Treasurer, who shall keep the money in the Private Investigator Fund.

SEC. 13. It is the intent of the Legislature, if this bill and Assembly Bill 2456 are both chaptered and become effective January 1, 1983, both bills amend Sections 7512.4, 7514, 7521, and 7523 of the Business and Professions Code, and this bill is chaptered after Assembly Bill 2456, that the amendments to Sections 7512.4, 7514, 7521, and 7523 proposed by both bills be given effect and incorporated in Sections 7512.4, 7514, 7521, and 7523 in the form set forth in Sections 3.5, 4.5, 6.5, and 7.5 of this act. Therefore, Sections 3.5, 4.5, 6.5, and 7.5 of this act shall become operative only if this bill and Assembly Bill 2456 are both chaptered and become effective January 1, 1983, both amend Sections 7512.4, 7514, 7521, and 7523, and this bill is chaptered after Assembly Bill 2456, in which case Sections 3, 4, 6, and 7 of this act shall not become operative.

SEC. 14. It is the intent of the Legislature, if this bill and Assembly Bill 3484 are both chaptered and become effective January 1, 1983, both bills amend Section 7550.5 of the Business and Professions Code, and this bill is chaptered after Assembly Bill 3484, that the amendments to Section 7550.5 proposed by both bills be given effect and incorporated in Section 7550.5 in the form set forth in Section 9.5 of this act. SEC. 15. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

CHAPTER 1211

An act to add Section 11017.6 to the Government Code, relating to administrative regulations.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 11017.6 is added to the Government Code, to read:

11017.6. Every state agency responsible for implementing a

statute which requires interpretation pursuant to the Administrative Procedure Act shall prepare, by January 30 of each year, a rulemaking calendar for that year. The rulemaking calendar shall be prepared in accordance with a format specified by the Office of Administrative Law, approved by the head of the department or, if the rulemaking agency is an entity other than a department, by the officer, board, commission, or other entity which has been delegated the authority to adopt, amend, or repeal regulations, and published in the California Administrative Notice Register. The preparation of the rulemaking calendar shall not preclude adoption of a regulation that is not included in the rulemaking calendar but which is required by circumstances not reasonably anticipated at the time that the rulemaking calendar is prepared.

The rulemaking calendar shall consist of two schedules as follows:

(a) A schedule which describes the rulemaking necessary to implement statutes enacted during the previous year. The schedule shall include the projected dates on which the agency plans to:

(1) Publish the notice of proposed action for each rulemaking.

(2) Schedule a public hearing if one is required or requested.

(3) Adopt the regulations.

(4) Submit the regulations to the Office of Administrative Law for review.

In addition, the schedule shall identify the organizational unit within the agency which is responsible for each rulemaking and the name and telephone number of the agency officer to whom inquiries concerning the rulemaking may be directed.

(b) A schedule which describes all other rulemaking the agency plans to propose, to implement or interpret other statutes enacted during years prior to the previous year. The schedule shall contain the same information concerning rulemaking as is required in the schedule prepared under subdivision (a), and a report on the status of all uncompleted rulemaking that was described on previous calendars.

In addition to publishing the rulemaking calendar in the California Administrative Notice Register, state agencies subject to the provisions of this section shall send the calendar to the author of each statute enacted during the previous year for which the agency has responsibility, together with an explanation of the priority the agency has given the statute in the rulemaking calendar.

CHAPTER 1212

An act to amend, repeal, and add Section 1804 of the Vehicle Code, relating to vehicles.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1804 of the Vehicle Code is amended to read:

1804. The abstract shall be made upon a form furnished or approved by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the commercial or noncommercial nature or the license plate number of the vehicle involved in the offense, the date of hearing, and the judgment.

As to any abstract for which the original arrest and final conviction was for a violation of Section 23101 or 23102, as those sections read before January 1, 1982, or Section 23152 or 23153, the abstract shall contain a statement indicating the percentage of alcohol, by weight, in the person's blood whenever that percentage was determined by a chemical test. The information regarding the chemical test shall be compiled only when it is readily available to the clerk of the court. All information required to be compiled pursuant to this paragraph shall be kept confidential in the records of the department and shall not be reported upon any driving record of any individual. The information required to be compiled pursuant to this paragraph shall not be released to any other public or private agency, except for research and statistical summary purposes and, for those purposes, the name and address of the person and any other identifying information shall not be disclosed.

The Legislature finds and declares that blood-alcohol percentages have valuable research potential in providing statistical summary information on impaired drivers but that a specific blood-alcohol percentage is only an item of evidence for purposes of criminal and licensing sanctions imposed by law. The Legislature recognizes that the accuracy of the determination of a specific blood-alcohol percentage is not the critical determination in a conviction for driving under the influence of an alcoholic beverage if the blood-alcohol percentage exceeds the statutory amount. The Legislature finds and declares that the blood-alcohol percentage should not be used by the department for imposing licensing sanctions and the greater or lesser amount of the blood-alcohol percentage should not be used for any other rating purposes.

This section shall remain in effect only until January 1, 1989, and as of that date is repealed, unless a later enacted statute which is chaptered on or before January 1, 1989, deletes or extends that date.

SEC. 2. Section 1804 is added to the Vehicle Code, to read:

1804. The abstract shall be made upon a form furnished or approved by the department and shall contain all necessary information to identify the defendant, the date and nature of the offense, the commercial or noncommercial nature or the license

plate number of the vehicle involved in the offense, the date of hearing, and the judgment.

This section shall become operative on January 1, 1989.

SEC. 3. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

CHAPTER 1213

An act to amend Sections 1632, 1636, and 1753 of, and to add Section 1657 to, the Business and Professions Code, relating to dentistry, and making an appropriation therefor.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 1632 of the Business and Professions Code is amended to read:

1632. The applicant shall give demonstrations of his or her skill in operative dentistry, prosthetic dentistry, diagnosis and treatment of periodontics, and his or her judgment in diagnosis-treatment planning. The examination may be supplemented by an oral examination.

SEC. 2. Section 1636 of the Business and Professions Code is amended to read:

1636. (a) Notwithstanding the provisions of subdivision (c) of Section 1628, a person who has had issued to him a degree of doctor of dental medicine or doctor of dental surgery by a foreign dental school listed by the World Health Organization, or by a foreign dental school approved by the Board of Dental Examiners, shall be eligible for examination as hereinafter provided upon complying with subdivisions (a) and (b) of Section 1628 and furnishing all of the following documentary evidence satisfactory to the board, that:

(1) He has completed in a dental school or schools a resident course of professional instruction in dentistry for the full number of academic years of undergraduate courses required for graduation.

(2) Subsequent thereto, he has had issued to him by such dental school, a dental diploma or a dental degree, as evidence of the completion of the course of dental instruction required for graduation.

(b) Examination by the board of a foreign-trained dental applicant shall be a progressive examination given in the following sequence:

(1) Examination in writing which shall be comprehensive and sufficiently thorough to test the knowledge, skill and competence of the applicant to practice dentistry, and both questions and answers shall be written in the English language.

Such written examination may be the National Board of Dental Examiners' examination. A foreign-trained applicant who passes the written examination shall be permanently exempt from retaking such examination.

Those applicants who have passed the California written examination shall be permanently exempt from retaking any written examination, except any examination required for continuing education purposes.

(2) Demonstration of applicant's skill in restorative technique. An applicant must obtain a minimum grade of 75 percent in each subsection of the restorative technique examination to be deemed to have passed such examination; provided, however, that an applicant who obtains a grade of 85 percent in any subsection of such examination shall be exempt from retaking such subsection for two years following the date of the examination in which a grade of 85 percent was obtained. Every applicant who passes the entire restorative technique examination shall be permanently exempt from retaking such examination.

(c) An applicant who has successfully completed the written examination and the restorative technique examination shall be eligible to take and shall pass the examinations in diagnosis-treatment planning, prosthetic dentistry, diagnosis and treatment of periodontics, and operative dentistry in the identical manner in which such examinations are taken by and administered to other dental applicants. Exemptions in such examinations shall be applied to foreign-trained applicants in the same manner as they are applied to other dental applicants.

(d) All exemptions previously obtained by foreign-trained applicants which have been recognized by the board shall remain in effect for two years following the effective date of the amendments to this section made at the 1975 portion of the 1975–76 session of the Legislature.

SEC. 3. Section 1657 is added to the Business and Professions Code, to read:

1657. A licensed dentist may operate one mobile dental clinic or unit registered as a dental office or facility. The mobile dental clinic or unit shall be registered and operated in accordance with regulations established by the board, provided such regulations are not designed to prevent or lessen competition in service areas. A mobile dental clinic or unit registered and operated in accordance with the rules, and which has paid the fees, which may be established by the board, shall otherwise be exempted from the provisions of this article and Article 3.5 (commencing with Section 1658).

SEC. 4. Section 1753 of the Business and Professions Code is amended to read:

1753. The board shall license as a registered dental assistant a person who submits written evidence, satisfactory to the board, of either one of the following requirements:

(a) Graduation from an educational program in dental assisting approved by the board, and satisfactory performance on a written examination required by the board. On and after January 1, 1984, every applicant seeking licensure as a registered dental assistant pursuant to this subdivision shall provide evidence of his or her satisfactory performance on a written and practical examination required by the board.

(b) Satisfactory work experience of more than 18 months as a dental assistant and satisfactory performance on a written examination required by the board. The board shall give credit toward the 18 months work experience referred to in this subdivision to persons who have graduated from a dental assisting program in a postsecondary institution approved by the Department of Education or in a secondary institution, regional occupational center, or regional occupational program, that are not, however, approved by the board pursuant to subdivision (a). Such credit shall equal the total weeks spent in classroom training and internship on a week-for-week basis not to exceed 16 weeks. The board, in cooperation with the Superintendent of Public Instruction, shall establish the minimum criteria for the curriculum of such nonboard approved programs. Additionally, the board shall notify those programs only if the program's curriculum does not meet established minimum criteria, as established for board-approved registered dental assistant programs, except any requirement that the program be given in a postsecondary institution. Graduates of programs not meeting established minimum criteria shall not qualify for satisfactory work experience as defined by this section. In addition, on and after January 1, 1984, every applicant seeking licensure as a registered dental assistant pursuant to this subdivision shall provide evidence of his or her satisfactory performance in a written and practical examination required by the board.

The Committee on Dental Auxiliaries shall review and report to the board, on or before January 1, 1982, on the number of nonboard approved programs in existence and the minimum criteria recommended for nonboard approved programs.

CHAPTER 1214

[Approved by Governor September 21, 1982 Filed with Secretary of State September 22, 1982]

The people of the State of California do enact as follows:

SECTION 1. Section 1043 of the Education Code is amended to read:

1043. Upon the adoption of a resolution by the board of supervisors of the county consenting to the transfer of the functions specified in this section, the functions specified in this section shall be transferred from the county board of supervisors to the county board of education. The functions, including, but not limited to, the receipt of petition and reports and other papers, are those specified in Sections 35001, 35002, 35676, 35698, 35699, 35703, 35704, 35705, 35722, 35723, 35724, 72002, 74100, 74104, 74131, 74132, 74134, 74151, 74153, 74156, 74250, 74251, and 74295.

Upon the adoption of such resolution, any reference, with respect to that county, in such sections to the board of supervisors shall be deemed to be a reference to the county board of education of that county and any reference to the clerk of the county board of supervisors shall be deemed to be a reference to the secretary of the county board of education of that county.

4021. Upon the order of the State Board of Education issued pursuant to Section 4020, the county board of education of a county succeeds to and is vested with all duties, powers, purposes, responsibilities, and jurisdiction formerly vested in the county committee on school district organization of that county.

PART 46. DISTRICT REORGANIZATION OR FORMATION

CHAPTER 1. LEGISLATIVE INTENT AND DEFINITIONS

Article 1. Legislative Intent and Purpose

74000. It is the intent of the Legislature that procedures prescribed by the provisions of this part be utilized solely for purposes of reorganizing existing community college districts or forming new community college districts.

It is also the intent of the Legislature to utilize the organization of districts as they exist on January 1, 1982, and the master plan for school district organization in each county, which was developed and approved prior to January 1, 1982, as the basis for future reorganization of districts.

The Legislature hereby declares as its policy that all of the territory of the state shall be included within a community college district, except that territory located within a county where the county residents accounted for fewer than 350 units of average daily attendance in the state's community colleges during the preceding fiscal year. The territory located within such a county may be included within a community college district pursuant to the procedures prescribed by the provisions of Article 2 (commencing with Section 74130) of Chapter 2.

74001. On and after January 1, 1983, the provisions of Part 3 (commencing with Section 4000) and Articles 2 and 3 (commencing with Section 35720) of Chapter 4 of Part 21 shall apply to actions to reorganize community college districts, as may be applicable.

Article 2. Definitions

74010. Unless the context otherwise requires, the definitions set forth in this article govern the construction of this part.

74011. "District" means a community college district.

74012. (a) "Component school district" means a high school or unified school district which is included within a community college district.

(b) "Nondistrict territory" means a high school or unified school district which is not included within any community college district.

74013. "Former district" means a district which has been wholly included in another district. The boundaries of a former district are

those of the district as it existed immediately prior to being wholly included in another district.

74014. An "action to reorganize districts" means an action to transfer all or part of a district to another district, to annex nondistrict territory to a district, to form a new district, or to otherwise alter the boundaries of a community college district, or any combination of such actions.

74015. "County committee" means the county committee on school district organization, organized and acting as provided for in Article 1 (commencing with Section 4000) of Chapter 1 of Part 3, or the county board of education, organized and acting as provided for in Article 2 (commencing with Section 4020) of Chapter 1 of Part 3, and performing the duties as described in Articles 2 and 3 (commencing with Section 35720) of Chapter 4 of Part 21.

CHAPTER 2. INITIATION OF PETITION AND LOCAL REVIEW PROCEDURES

Article 1. Transfer

74100. An action to reorganize one or more districts by the transfer of territory to another district is initiated upon the filing of a petition with the county superintendent of schools having jurisdiction. A petition to reorganize districts by the transfer of territory to another district shall be signed by either of the following:

(a) Where the petition is to transfer territory currently located in one district, at least 25 percent of the registered voters residing in the territory proposed to be transferred shall sign the petition. Where the petition is to transfer territory currently located in two or more districts, at least 25 percent of the registered voters residing in the territory proposed to be transferred in each district shall sign the petition.

(b) A majority of the members of each of the governing boards of the districts which would be affected by the proposed reorganization.

74102. In any petition to reorganize districts by transfer, there shall be designated no more than three of the petitioners as chief petitioners for the purpose of receiving notice of any public hearings to be held on the petition.

74103. The persons securing the signatures to a petition of electors to reorganize districts shall attach thereto an affidavit that all persons who signed the petition did so in the presence of the affiant and that each signature is a genuine signature of the person whose name it purports to be.

74104. The county superintendent of schools, within 30 days after the petition for reorganization is filed, shall examine the petition and, if he or she finds it to be sufficient and signed as required by law, shall transmit the petition simultaneously to the county committee, the governing board of each affected district, and the chancellor's office.

Notwithstanding any provision of this article to the contrary, if the transfer involves a minor change in district boundaries, defined as a transfer of territory involving less than 5 percent of the territory of the district from which the transfer is being made, the petition may be transmitted directly to the county board of supervisors by the county superintendent of schools, without submission to the county committee on school district organization. The procedure specified in this paragraph may not be utilized more than once every five years.

74105. Within 90 days after receipt of the petition, the county committee shall hold one or more public hearings on the petition at a regular or special meeting in each of the districts affected by the petition. Notice of the public hearing shall be given at least 10 days in advance of the date of the hearing to the chief petitioners, to the governing board of all districts affected by the proposed transfer, and to all other persons requesting notice of the hearing.

74106. (a) The county committee may add to the petition any appropriate provisions which were not included in the petition as filed, and may amend any provision which was so included.

(b) At least 10 days before the public hearing on the petition, the county committee shall make available to the public and to the governing boards affected by the petition, a description of the petition and a report which includes a description or analysis of all the following:

(5) A description of how the property, obligations, and bonded indebtedness of existing districts will be divided.

(6) Whether the reorganization will significantly affect racial or ethnic composition of districts.

(7) Determination of impact of proposed change upon boards of trustees.

(8) A draft statement of the terms of the agreement regarding all conditions of the transfer, when applicable, for consideration by governing boards of affected districts.

(9) Whether the change is compatible with the district master plan of the county.

74107. Within 90 days after affording the public an opportunity to comment on the petition, the report, and the recommendations included in the report, the county committee shall forward a copy of the petition and the report documents to each district governing board for review. No transfer shall be made unless a majority of the members of the governing board of the district to which the territory is to be transferred sign a statement agreeing to all conditions of the

transfer at a public meeting conducted for that purpose. Upon completion of the public meeting, the receiving governing board shall return the petition and statement of agreement, together with a notice of action, to the county committee.

74108. The county committee may approve a petition only if either of the following conditions are met:

(a) The petition is to transfer uninhabited territory from one district to another and the owner of the territory, or a majority of the owners of the territory, and the governing board of the receiving district involved in the transfer consent to the transfer.

(b) The petition is to transfer inhabited territory and all the following conditions are satisfied.

(1) The governing board of the receiving district has consented to all conditions of transfer by an agreement signed by a majority of the members of the board.

(D) The transfer will not significantly affect the racial or ethnic composition of the districts affected.

(E) The transfer will not decrease educational opportunities for residents of all districts involved.

74109. Whenever a county committee approves a petition, within 10 days it shall transmit a copy of the approved petition, together with any related information or recommendations, to the Chancellor of the California Community Colleges for review.

74110. Whenever a county committee rejects a petition, it shall notify the chief petitioners of its action and provide in writing the basis for rejection.

The county committee need not accept a new petition on the same territory filed within 12 months of its decision.

Article 2. Annexation

74130. Provisions of this article shall apply only to petitions to include in an existing community college district a high school or unified school district which is contiguous to that community college district and presently not in any community college district subject to provisions of Section 74000.

74137. The governing board of the district to which the territory is to be transferred shall set a date for a public hearing on the petition which shall be within 60 days of the receipt of the petition pursuant to subdivision (b) of Section 74134, and the county superintendent shall notify the chief petitioners of the times and places of the hearings, where appropriate. At the hearings, interested persons shall be given an opportunity to present their views on the petition. The governing board of the receiving district then shall either approve or deny the petition. No annexation shall be made unless a majority of the members of the governing board of the receiving district sign a statement agreeing to all conditions of the transfer at the hearings. Upon completion of the hearings, the governing board of the receiving district shall return the petition, together with a notice of action, to the county committee.

74138. The county committee may approve the petition only if all of the following conditions are met:

(a) The governing board of the receiving district has consented to all conditions of annexation by an agreement signed by a majority of the members of the board.

CHAPTER 3. REVIEW BY STATE AGENCIES

74201. (a) Any person who questions the findings of a county committee that a proposed transfer of territory will not adversely affect the racial or ethnic composition of the colleges of the districts affected by the proposal may file an appeal with the board of governors within 30 days after a decision based upon the finding has been made. The appeal shall be based upon factual and statistical evidence.

(b) If the board of governors denies an appeal filed pursuant to subdivision (a), the decision of the county committee shall stand.

(c) If the board of governors rejects the findings of the county committee, the county committee shall hold another hearing in order to reconsider its decision based upon the findings of the board of governors.

74202. Upon receipt of an approved petition, the board of governors may make whatever inquiries or studies are necessary to validate information and recommendations submitted by the county committee prior to making a recommendation to the board of governors. When it is necessary for the board of governors to evaluate a reorganization proposal, each county superintendent of schools and every other county officer in the counties affected and the superintendents of the districts affected shall provide the information required to complete the review.

74203. The board of governors may return the petition for reorganization to the county committee for its reconsideration of

information found to be incorrect in the proposal. The county committee shall take whatever action it deems necessary to verify the original proposal or to resubmit a corrected proposal pursuant to procedures described in Sections 74105 and 74106.

After affording interested persons an opportunity to present their views on the proposal, the board of governors shall give notice of approval or disapproval to the county committee and county superintendents of schools having jurisdiction over any of the districts whose boundaries would be affected by the reorganization.

Whenever a proposal is disapproved, the board of governors shall provide in writing the basis for rejection.

CHAPTER 4. ELECTIONS AND BOARD SUPERVISORS PROCEDURES

Article 1. Elections

74230. If approval is given pursuant to Section 74205 to a reorganization proposal which results in an increase in taxes levied on behalf of the districts involved or which requires changes in district governing boards, the county superintendent of schools, within 30 days after receiving notification pursuant to Section 74205, shall call an election. The election shall be called in the manner prescribed in Part 4 (commencing with Section 5000), and shall be conducted at the next available regular election scheduled in the territory of districts defined in the approved proposal according to the procedures prescribed by Sections 35757 to 35764, inclusive.

74231. If approval is given pursuant to Section 74205 to a reorganization proposal, the county superintendent of schools, within 30 days after receiving notification pursuant to Section 74205, shall call an election. The election shall be called in the manner prescribed in Part 4 (commencing with Section 5000), and shall be conducted at the next available regular election scheduled in the territory defined in the approved petition, according to the procedures prescribed by Sections 35757 to 35764, inclusive.

Article 2. Board of Supervisors Procedures

74250. After the board of supervisors receives official notification that an action to reorganize districts has been approved as provided by law, the board of supervisors shall issue an order to change

districts where required by the action, and to establish or reestablish the boundaries of the districts affected by the action. The order shall be entered in the county's record of districts.

If the action results in a change of district boundaries of the type described in Section 54900 of the Government Code, the order of the board of supervisors shall include the legal description of each district changed in the action and, immediately after making the order, the board of supervisors shall cause a copy of the order and a map or plat indicating the boundaries established for each district affected by the order to be filed as required by Chapter 8 (commencing with Section 54900) of Part 1 of Division 2 of Title 5 of the Government Code.

74251. (a) An action to reorganize districts is complete when the board of supervisors makes the order pursuant to Section 74250.

(b) After the expiration of one year from the date of the order, the order shall be conclusive evidence that the district has been legally organized, or the boundaries legally changed, as the case may be, and no suit shall be maintained which questions the validity of the organization or change of boundaries.

(c) For purposes of district tax revenues and governance, the order shall be effective as of the beginning of the succeeding fiscal year.

CHAPTER 5. MISCELLANEOUS

Article 1. Territory of Districts

74260. On or after January 1, 1983, the boundaries of each district shall be coextensive with the boundaries of the component districts included within it, unless otherwise approved under the provisions of Sections 74108 and 74157.

74261. When the boundaries of a component school district are for any cause changed, the territory added to, or removed from, the component school district shall, at the same time, be included in, or excluded from, the district.

74262. On or after January 1, 1983, a district shall not be reorganized to include territory which is separated from other portions of the territory of the district.

74263. Whenever territory is transferred or added by means of reorganization to another district in which trustee areas have been established, the territory being transferred shall become a part of the trustee areas to which it is contiguous. In the event that the territory being transferred is contiguous to more than one trustee area, terms of agreement to the transfer may include provisions for the division of the transferred territory among the trustee areas to which it is contiguous.

74264. Territory within the boundaries of a city may not be withdrawn from a district governed by a board provided for in the charter of the city without the consent of the governing board of the

district.

Article 2. Personnel in Reorganized Districts

74270. The reorganization of any district or districts shall not affect the classification of certificated employees already employed by any district affected. Such employees shall have the same status with respect to their classification by the district, including time served as probationary employees of the district, after the reorganization as they had prior to it. If the reorganization results in the college or other place in which any such employee is employed being maintained by another district, the employee, if a permanent employee of the district which formerly maintained such college or other place of employment, shall be employed as a permanent employee of the district which thereafter maintains the college or other place of employment, unless the employee elects prior to February 1 of the year in which the action will become effective for all purposes to continue in the employ of the first district.

If the employee is a probationary employee of the district which formerly maintained the college or other place of employment, he or she shall be employed by the district which thereafter maintains the college or other place of employment, unless the probationary employee is terminated by the district pursuant to Section 44948, 44949, or 44955, and, if not so terminated, his or her status with respect to classification by that district shall be the same as it would have been had the college or other place of employment been continued to be maintained by the district which formerly maintained it. As used in this paragraph, "the college or other place in which any such employee is employed" and all references thereto, includes, but is not limited to, the services or program which, as a result of any reorganization of a district, will be provided by another district, regardless of whether any particular building or buildings in which that service or program was conducted is physically located in the new district and regardless of whether any new district resulting from the reorganization elects to provide for the education of its students by contracting with another school district until such time as the district constructs its own facilities.

74271. The reorganization of any district, or districts, shall not affect the rights of persons employed in positions not requiring certification qualifications to retain the salary, leaves, and other benefits which they would have had had the reorganization not occurred, and in the manner provided in this section:

(a) All employees of every district which is included in any other district shall become employees of the new district.

(b) When a portion of the territory of any district becomes part of another district, employees regularly assigned to perform their duties in the territory affected shall become employees of the acquiring district. Employees whose assignments pertained to the affected territory, but whose employment situs was not in such

territory, may elect to remain with the original district or become employees of the acquiring district.

(c) When the territory of any district is divided between, or among, two or more districts and the original district ceases to exist, employees of the original district regularly assigned to perform their duties in any specific territory of such district shall become employees of the district acquiring the territory. Employees not assigned to specific territory within the original district shall become employees of any acquiring district at the election of the employees.

(d) Employees regularly assigned by the original district to any college in the district shall be employees of the district in which the college is located. Except as provided in this section, nothing in this section shall deprive the governing board of the acquiring district from making reasonable reassignments of duties.

Article 3. Disposition of Records, Funds, Property, and Obligations When Reorganized

74280. The agreement of transfer required by Section 74107 shall provide for the allocation of funds, property, and obligations affected by the transfer, except for bonded indebtedness. The following procedure may be used to determine such allocation:

(a) The real property and personal property and fixtures normally situated thereat shall be the property of the district in which the real property is located.

(b) All other property, funds, and obligations, except bonded indebtedness, shall be divided pro rata among the districts in which the territory of the former district is included. The basis for the division and allocation shall be the assessed valuation of the part of the former district which is included within each of the districts.

74281. If a dispute arises between the governing boards of the districts concerning the division of funds, property, or obligations, a board of arbitrators shall be appointed which shall resolve the dispute. The board shall consist of one person selected by the district from which the territory is withdrawn, one person selected by the district of which it has become a part, and a third person appointed by the county superintendent of schools having jurisdiction. If more than one county superintendent of schools has jurisdiction over the affected districts, county superintendents involved shall jointly appoint an arbitrator. The districts involved may mutually agree that the person appointed as arbitrator by the county superintendent of schools may act as sole arbitrator of the matters to be submitted to arbitration. The necessary expenses and compensation of the arbitrators shall be divided equally between the districts, and the payment of the portion of the expenses is a legal charge against the funds of the school districts. The arbitrator or arbitrators shall make a written finding on the matter submitted to arbitration. The written finding and determination of a majority of the board of arbitrators is final and binding upon the districts submitting the question to the

board of arbitration.

74282. Any funds derived from the sale of the bonds issued by the former district shall be used for the acquisition, construction, or improvement of college property only in the territory which comprised the former district or to discharge the bonded indebtedness of the former district, except that if the bonded indebtedness is assumed by the new district, the funds may be used in any area of the new district for the purposes for which the bonds were originally voted.

74283. If all the territory of any district becomes part of two or more districts, and the inclusion in the two or more districts of the several portions of territory comprising the whole of the original district is effective for all purposes on the same date, the records of the original district shall be disposed of as follows:

(a) All records of the original district which are required by law to be kept on file shall be deposited with the governing board of the district which, after the reorganization has become effective for all purposes, has located within its boundaries the former office of the superintendent of the original district.

(b) Records of employees shall be transferred to the district thereafter employing the personnel or thereafter maintaining the last place of employment.

(c) Records of students shall be transferred to the district which, after the date on which the reorganization becomes effective for all purposes, maintains the college in which a student was last enrolled.

74284. Notwithstanding any provisions of this article, exchanges of property tax revenues between districts as a result of reorganization shall be determined pursuant to subdivision (h) of Section 99 of the Revenue and Taxation Code.

Article 4. Bonded Indebtedness of Districts When Reorganized

74290. The provisions of this article shall apply only to the reallocation of bonded indebtedness incurred prior to July 1, 1978.

74291. When a district is reorganized, the liability for taxation for the outstanding bonded indebtedness of the district or the territory affected thereby is as provided in this article. The authorities whose duty it is to levy taxes for the payment of principal and interest on the outstanding bonds shall levy the taxes upon the districts affected in such proportions as are provided in, or are determined under, the authority of this article.

74292. No territory shall be taken from any district having any outstanding bonded indebtedness and made a part of another district where the action, if taken, would so reduce the last equalized assessed valuation of a district from which the territory was taken that the outstanding bonded indebtedness of the district would exceed 5 percent of the assessed valuation remaining in the district for the level maintained, on the date the reorganization is effective.

74293. When any district is in any manner merged with one or

more districts so as to form a single district by any procedure, the district so formed is liable for all of the outstanding bonded indebtedness of the districts united or merged.

74294. When territory is taken from one district and transferred to another district and the area transferred contains no college property or buildings, the territory shall drop any liability for outstanding bonded indebtedness in the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of the district of which it becomes a part.

74295. (a) When territory is taken from one district and transferred to another district by any procedure and the area transferred contains college buildings or property, the district to which the territory is annexed shall take possession of the building and the equipment on the day when the annexation becomes effective for all purposes. The territory transferred shall cease to be liable for the bonded indebtedness of the district of which it was formerly a part and shall automatically assume its proportionate share of the outstanding bonded indebtedness of any district of which it becomes a part.

(b) The acquiring district shall pay the original district the greatest of the amounts determined under provisions of paragraph (1) or (2).

(1) The proportionate share of the outstanding bonded indebtedness of the original district, which proportionate share shall be in the ratio which the total assessed valuation of the transferring territory bears to the total assessed valuation of the original district in the year immediately preceding the date on which the annexation is effective for all purposes. This ratio shall be used each year until the bonded indebtedness for which the acquiring district is liable has been repaid.

(2) That portion of the outstanding bonded indebtedness of the original district which was incurred for the acquisition or improvement of school lots or buildings, or fixtures located therein, and situated in the territory transferred.

(c) The county board of supervisors shall compute for the reorganized districts an annual tax rate for bond interest and redemption which will include the bond interest and redemption on the outstanding bonded indebtedness specified in paragraph (1) or (2) of subdivision (b). The tax rate shall be levied in excess of any other ad valorem property tax authorized or required by law and shall not be included in the computation of the limitation specified in subdivision (a) or Section 1 of Article XIII A of the California Constitution.

(2) Lease and capital outlay commitments calculated pursuant to Section 84609.

(3) Workload increases in accordance with subdivision (g) of Section 84605.

(4) Program changes calculated pursuant to Section 84640.

(b) Unless otherwise provided in this article, in cases where total available funds are less than the total amount calculated for all districts for a particular purpose, the chancellor shall apportion funds for that purpose to each district eligible for the funds by multiplying the amounts determined in paragraphs (1) and (2):

(1) The total amount available for the purpose divided by the total of all districts' calculated amounts for that purpose.

(2) The calculated amount for that purpose for the district during the fiscal year.

SEC. 7. Section 84630.5 is added to the Education Code, to read:

(1) Lease and capital outlay commitments calculated pursuant to Section 84609.

(2) Inflation adjustments calculated pursuant to Section 84608.

(3) Workload increases in accordance with subdivision (g) of Section 84605.

(c) Unless otherwise provided in this article, in cases where total available funds are less than the total amount calculated for all districts for a particular purpose, the chancellor shall apportion funds for that purpose to each district eligible for the funds by multiplying

the amounts determined in paragraphs (1) and (2):

(1) The total amount available for the purpose divided by the total of all districts' calculated amounts for that purpose.

(2) The calculated amount for that purpose for the district during the fiscal year.

SEC. 8. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the Legislature finds and declares that there are savings as well as costs in this act which, in the aggregate, do not result in additional net costs.

SEC. 9. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

"State safety service," with respect to a member who becomes a state safety member pursuant to this section, shall also include service prior to the operative date of this section.

This section shall not become applicable to any member included in a classification until such time as a ruling or regulation authorizing the inclusion of persons employed in that classification within the definition of "policeman" is issued by the federal agency for purposes of Section 218(d) (5) (A) of the Social Security Act (42 U.S.C. Sec. 418(d) (5) (A)).

The board shall cause ballots to be distributed to each active and retired member of the system in advance of each election, and shall provide for the return of the voted ballots to the Secretary of State without cost to the member. The ballots cast shall be canvassed by the Secretary of State. The board may require all persons who perform election duties to certify, under penalty of perjury, that they properly performed those duties.

SEC. 2. Section 20393 of the Government Code is amended to read:

20393. Notwithstanding any other provision of this part, a member who is credited with five or more years of service shall have the right to elect, not later than 90 days after the date upon which notice of such right is mailed by this system to the member's latest address on file in the office of this system, whether to leave such accumulated contributions on deposit in the retirement fund.

established under the County Employees Retirement Law of 1937. All contributions accumulated up to the time of revocation may then be withdrawn. A member whose membership continues under this section is subject to the same age and disability requirements as apply to other members for service or for disability retirement. After the qualification of such member for retirement by reason of age, which shall be the lowest age applicable to any membership category in which the member has credited service, or disability, the member shall be entitled to receive a retirement allowance based upon the amount of the member's accumulated contributions and service standing to the member's credit at the time of retirement and on the employer contributions held for the member and calculated in the same manner as for other members, except that the provisions in this part for minimum service and disability retirement allowances shall not apply to the member, unless the member meets such minimum service requirements. If a basic death benefit becomes payable under Article 5 (commencing with Section 21360) of Chapter 9 of this part because of death before retirement of such a member, the average annual compensation earnable in the year preceding the date of termination of such service, rather than in the year preceding death, shall be used in computing such benefit under such Article 5 of Chapter 9.

The provisions of this section, as it read prior to June 21, 1971, shall continue with respect to a member whose membership continued under this section on such date.

SEC. 3. Section 20492 of the Government Code is amended to read:

20492. The contract shall include in this system all firemen, policemen, county peace officers, and other employees of the contracting agency, except as exclusions in addition to the exclusions applicable to state employees may be agreed to by the agency and the board. Such exclusions shall be based on groups of employees such as by departments or duties, and not on individual employees, and such exclusions of groups may be made by amendments to contracts, with respect to future entrants into such a group. The board may disapprove the exclusion of any group, if in its opinion the exclusion adversely affects the interest of this system. Membership in this system is compulsory for all employees included under a contract.

SEC. 4. Section 20492.1 is added to the Government Code, to read:

20492.1. Notwithstanding Section 20805, a contracting agency may amend its contract to remove exclusions prospectively only, and without creating liability for prior service.

SEC. 5. Section 20527.1 of the Government Code is amended to read:

20527.1. The employer contribution rate adopted under this part or because of amendments to the contract or to the Retirement Law, apply to all compensation upon the basis of which member's

contributions are deducted after those percentages became or become effective, without regard to the time when the service was rendered for which the compensation is paid.

If correction of the amount of compensation reported requires additional contracting agency contributions, such contributions shall be computed using the employer rate in effect at the time of the adjustment. All computations of contracting agency contributions made on or before January 1, 1983, as a result of correction of the amount of compensation reported are hereby ratified, confirmed, and validated and no adjustment shall be made, or right of recovery recognized, in respect to any such computation.

SEC. 6. Section 20632 is added to the Government Code, to read:

20632. An election by any member or any employer to make additional contributions in accordance with Section 20630 shall be effective only if filed with the board on or before June 30, 1983. Additional contributions may be made on and after July 1, 1983, in accordance with the terms of an election filed on or before June 30, 1983. A refund of accumulated additional contributions or an application of accumulated additional contributions as payment of any required contribution under Section 20631 shall terminate the privilege of making additional contributions if such refund or application occurs on or after July 1, 1983.

SEC. 7. Section 20654.3 of the Government Code is amended to read:

20654.3. A member of the Judges' Retirement System, the Legislators' Retirement System, the State Teachers' Retirement System, the University of California Retirement System, or a retirement system established under the County Employees Retirement Law of 1937, who has withdrawn accumulated contributions from this system shall have the right to redeposit such contributions, subject to the same conditions as imposed for redeposits of accumulated contributions by Section 20654, including such right as he would have had under Section 20023.1 had he not withdrawn his contributions.

Provisions of this section extending a right to redeposit accumulated contributions withdrawn from this system shall also apply to members of any retirement system established under Chapter 2 (commencing with Section 45300) of Division 5 of Title 4 with respect to which an ordinance complying with Section 45310.5 has been filed with and accepted by the board or any retirement system established by or pursuant to the charter of a city or city and county or by any other public agency of this state which system, in the opinion of the board, provides a similar modification of rights and benefits because of membership in this system and with respect to which the governing body of such city, city and county or public agency and the board have entered into agreement pursuant to Section 20042.

A member who elects to redeposit under this section shall have the same rights with respect thereto as a member who has elected

pursuant to Section 20393 to leave his accumulated contributions on "deposit in the fund."

Notwithstanding any other provision of this section, redeposit may be made within 90 days following the effective date of the amendment to this section during the 1973–74 Regular Session by any person who retired under the retirement system of the University of California after January 1, 1972, and prior to such effective date. Final compensation for such persons shall be computed as though retirement under this system and the university system had been concurrent.

SEC. 8. Section 20685 of the Government Code is amended to read:

20685. (a) If a basic death benefit has become or becomes payable before the payment of the total amount the member elected to pay under any election with respect to normal contributions, arrears contributions, or public service credit permitted under this part, the member's entire compensation, or the service upon which that total amount was based, as the case may be, shall be included in the computation of the portion of the death benefit which is provided in subdivision (b) of Section 21361, and the unpaid balance of the total amount shall not be paid to this system, nor shall it be included in the member's accumulated contributions which constitute a part of the basic death benefit.

(b) Any balance of any such total amount remaining unpaid at the death of the member on account of whom a special death benefit is payable or at the retirement of a member for industrial disability shall become due and payable forthwith, except that the survivor of a member who died under circumstances under which a special death benefit is payable and who had authorized payroll deductions may elect to continue such deductions from the survivor allowance in lieu of the lump-sum payment otherwise required. If the balance is not paid, the portion of such unpaid amount representing contributions on compensation earned in the membership applicable to the member at the time of injury resulting in death shall be deducted from the benefit otherwise payable and the system shall be discharged from any liability for any annuity or benefit with respect to any remainder of such unpaid contribution.

(c) Any balance of such total amount remaining unpaid at the time of retirement for service or ordinary disability, or at death, with respect to which a benefit is payable under Section 21365.5 shall become due and payable forthwith, except that the survivor of a member who died under circumstances under which a benefit under Section 21365.5 is payable and who had authorized payroll deductions may elect to continue such deductions from the survivor allowance in lieu of a lump-sum payment of the balance due. If the balance is not paid, the service credit included in the election shall be reduced proportionately and any prior service dependent on completion of payments eliminated for purposes of computing the allowance but not for purposes of determining entitlement to an

allowance.

(d) Notwithstanding any provision of subdivision (b) or (c), a member who retires after January 1, 1976, before payment of the total amount which he elected to pay, may elect to pay the balance due, or the total amount if no payroll deductions had been made prior to retirement, by deductions from his retirement allowance equal to those which he authorized as payroll deductions. In such case service credit included in the election shall not be reduced, nor shall any prior service dependent on completion of payments be eliminated for purposes of computing the allowance. Any balance of such total amount remaining unpaid upon the death of such member shall be treated in the same manner as unpaid balances are treated if a special death benefit is payable, except that the survivor of a retired member who had authorized deductions from his retirement allowance in accordance with this subdivision, and who is eligible for a monthly allowance, may elect to continue such deductions from his allowance in lieu of the lump-sum payment otherwise required.

(e) Interest paid with respect to redeposit of contributions, arrears contributions, or public service credit permitted under this part, prior to date of retirement or death of the member, shall be credited to the member's individual account. Interest paid after the date of retirement or death of the member shall be credited to the retirement fund pursuant to Section 20203.

SEC. 8.5. Section 20750.83 is added to the Government Code, to read:

20750.83. The state shall make the increased contributions required on account of liability for benefits provided by Section 20017.94 from social security contributions which would have been payable by the employer had Section 20017.94 not been enacted up to an amount necessary to fully fund the cost of such benefits.

SEC. 9. Section 20803.9 is added to the Government Code, to read:

20803.9. "State safety service," with respect to a member who becomes a state safety member pursuant to Sections 20017.93 and 20017.94, shall also include service prior to the operative date of the section as an officer or employee of the Department of Parks and Recreation or the Military Department.

SEC. 10. Section 20834.12 is added to the Government Code, to read:

20834.12. Credit for prior service shall be granted to each local member who rendered service to a public agency if that agency or a function of that agency is assumed by a contracting agency or a public agency which thereafter becomes a contracting agency.

The future annual costs incurred pursuant to this section shall be determined in the manner prescribed for actuarial investigations and valuations in Article 1 (commencing with Section 20450) of Chapter 4 of this part and shall be made public at a public meeting at least two weeks prior to the election by a public agency to be subject to the provisions of this section.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by contract or by amendment to its contract made in the manner prescribed for approval of contracts.

SEC. 11. Section 20930.31 is added to the Government Code, to read:

20930.31. "Public service" with respect to a local member also means service rendered to a public agency if that agency or a function of that agency is assumed by a contracting agency or a public agency which thereafter becomes a contracting agency.

This section shall not apply to any contracting agency nor to the employees of any contracting agency unless and until the agency elects to be subject to the provisions of this section by contract or by amendment to its contract made in the manner prescribed for approval of contracts.

SEC. 12. Section 22013.10 is added to the Government Code, to read:

22013.10. (a) "Policeman" as used in this part, also includes persons employed in positions set forth in Section 20017.94; provided, such designation is not contrary to any definition, ruling, or regulation relating to the term "policeman" issued by the federal agency for the purposes of Section 218(d)(5)(A) of the Social Security Act (42 U.S.C. Sec. 418(d)(5)(A)).

(b) This section shall not become operative until such time as a ruling or regulation authorizing the inclusion of persons employed in classifications set forth in Section 20017.94 of the Government Code within the definition of "policeman" is issued by the federal agency for purposes of Section 218(d)(5)(A) of the Social Security Act (42 U.S.C. Sec. 418(d)(5)(A)).

SEC. 13. Notwithstanding Section 6 of Article XIII B of the California Constitution and Section 2231 or 2234 of the Revenue and Taxation Code, no appropriation is made by this act for the purpose of making reimbursement pursuant to these sections. It is recognized, however, that a local agency or school district may pursue any remedies to obtain reimbursement available to it under Chapter 3 (commencing with Section 2201) of Part 4 of Division 1 of that code.

SEC. 14. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

In order for the provisions of this act to become applicable to elections during 1982, it is necessary for this act to take effect immediately.

CHAPTER 1221

An act to amend Section 68511.3 of the Government Code, relating to proceedings in forma pauperis.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 68511.3 of the Government Code is amended to read:

68511.3. (a) The Judicial Council shall formulate and adopt uniform forms and rules of court for litigants proceeding in forma pauperis. Such rules shall provide: (1) for standard procedures for considering and determining applications for permission to proceed in forma pauperis, including, in the event of a denial of such permission, a written statement detailing the reasons for denial and an evidentiary hearing where there is a substantial evidentiary conflict; (2) for standard procedures to toll relevant time limitations when a pleading or other paper accompanied by such an application is timely lodged with the court and delay is caused due to the processing of the application to proceed in forma pauperis; (3) for proceeding in forma pauperis at every stage of the proceedings at both the appellate and trial levels of the court system; (4) for the confidentiality of the financial information provided to the court by such litigants; (5) that the court may authorize the clerk of the court, county financial officer, or other appropriate county officer to make reasonable efforts to verify the litigant's financial condition without compromising the confidentiality of the application; and (6) that permission to proceed in forma pauperis be granted (A) to litigants who declare under penalty of perjury that they are receiving benefits pursuant to the Supplemental Security Income (SSI) and State Supplemental Payments (SSP) programs (Sections 12200-12205.2 of the Welfare and Institutions Code), the Aid to Families with Dependent Children (AFDC) program (42 United States Code 601-644), the Food Stamp program (7 United States Code 2011-2027) or Section 17000 of the Welfare and Institutions Code and (B) to litigants who declare under penalty of perjury that their monthly income is 125 percent or less of the current monthly poverty threshold annually established by the Community Services Administration pursuant to Section 625 of the Economic Opportunity Act of 1964, as amended, and who submit a financial statement setting forth each item which makes up their monthly income in support of such averment as part of such declaration. Such rules shall further provide that the court shall grant permission to proceed in forma pauperis in any other instance in which, in its discretion, such permission is appropriate because the litigant is unable to proceed without using money which is necessary for the

use of the litigant or the litigant's family to provide for the common necessaries of life.

(b) The forms and rules shall provide for the disclosure of all of the following:

(1) The current address of the litigant, and of each adverse party if known to the litigant.

(2) The date of birth of the litigant, and of each adverse party if known to the litigant.

(3) The name of any person paid by the litigant to prepare, or to assist in the preparation of, the documents presented to the court, and the amount of money paid.

The information furnished by the litigant shall be used by the court in determining his or her ability to pay all or a portion of the fees and costs.

(c) At any time within three years after the court has granted a litigant permission to proceed in forma pauperis, the clerk of the court, county financial officer, or other appropriate county officer may notify the court of any changed financial circumstances which may enable the litigant to pay all or a portion of the fees and costs which had been waived. The court may authorize the clerk of the court, county financial officer or other appropriate county officer to require the litigant to appear before and be examined by the court; provided, that no litigant shall be required to appear more than once in any four-month period. The court may then order the litigant to pay to the county such sum and in such manner as the court believes is compatible with the litigant's financial ability.

In any action or proceeding in which the litigant whose fees and costs have been waived would have been entitled to recover those fees and costs from another party to the action or proceeding had they been paid, the court may assess the amount of the waived fees and costs against such other party and order the other party to pay that sum to the county.

Execution may be issued on any order provided for in this subdivision in the same manner as on a judgment in a civil action, and not otherwise.

(d) The clerk of the court may dispose of applications for in forma pauperis status three years after the date of filing without the need for microfilming, or the clerk may dispose of applications immediately upon their being microfilmed.

CHAPTER 1222

An act to add Chapter 1.5 (commencing with Section 11145) to Title 1 of Part 4 of the Penal Code, relating to criminal records, making an appropriation therefor, and declaring the urgency thereof, to take effect immediately.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. The Legislature reaffirms its commitment to protecting the youth of California by searching, on a national basis, the criminal records of prospective state and local government employees who will be working with children.

The Legislature recognizes that this national search has, until recently, been conducted using the services of the Federal Bureau of Investigation and that these services have been temporarily suspended by the Reagan administration.

Therefore, the Legislature declares that an alternative system for conducting a national search of criminal records must be established and used until the Federal Bureau of Investigation once again provides such services.

SEC. 2. Chapter 1.5 (commencing with Section 11145) is added to Title 1 of Part 4 of the Penal Code, to read:

CHAPTER 1.5. NATIONAL SEARCH OF CRIMINAL RECORDS

11145. In lieu of a national check of fingerprint records conducted by the Federal Bureau of Investigation through the California Department of Justice, state agencies shall contract with an independent vendor to conduct a national search of the individuals' criminal records, as provided in this chapter.

11146. This chapter applies to:

(a) The California Commission for Teacher Preparation and Licensing, in licensing of all teaching and services credential applicants, pursuant to Section 44341 of the Education Code.

(b) The State Department of Social Services in licensing those community care facility operators providing services to children as mandated in Section 1522 of the Health and Safety Code.

11147. In order that a thorough search may be conducted, the agencies listed in Section 11146 shall require applicants, as a condition of employment or licensing, to provide (a) their social security and drivers' license numbers, (b) educational history, (c) three personal references, (d) a five-year employment and residence history, and, (e) if appropriate, any other names they may have been known under. This information shall be provided under penalty of perjury.

11148. The agencies listed in Section 11146 may contract with any vendor demonstrating the capability to conduct such background searches in a timely manner and with the assurance of complete confidentiality. Any such vendor shall (a) be a licensed private investigator as defined in Section 7521 of the Business and Professions Code; (b) have been in business for at least five years; (c) be able to furnish bank references; (d) provide a minimum of one million

dollars ($1,000,000) in liability insurance, with the contracting agency being named as an additional insured; and (e) be able to provide services, via subcontracts if necessary, in all areas of the state.

No contract shall be let unless it provides therein that the cost per applicant for a search, including administrative costs, shall not exceed forty dollars ($40). The state shall not be liable for any amount in excess of forty dollars ($40) per applicant.

11149. In order to expedite the work of the vendor, all applications submitted to the vendor shall include the results of the fingerprint checks conducted by the California Department of Justice.

11149.1. Vendors are exempted from any provisions of Chapter 1 (commencing with Section 1798) of Title 1.8 of Part 4 of Division 3 of the Civil Code which prevent the vendor from conducting the national search of individual criminal records required by this chapter.

11149.2. Notwithstanding any other provision of law, applicants may be charged for the actual cost of the national search required by this statute, including administrative costs, not to exceed forty dollars ($40).

11149.3. Any vendor or employee of a vendor who knowingly furnishes a record or information obtained from a record to a person who is not authorized by law to receive the record or information shall be guilty of a misdemeanor and fined not more than five thousand dollars ($5,000), or imprisoned in a county jail for not more than one year, or both.

11149.4. Any vendor or employee of a vendor who intentionally discloses information, not otherwise public, which that person knows or should reasonably know was obtained from confidential information, shall be subject to a civil action for invasion of privacy by the individual to whom the information pertains.

In any successful action brought under this section, the complainant, in addition to any special or general damages awarded, shall be awarded a minimum of two thousand five hundred dollars ($2,500) in exemplary damages as well as attorney's fees and other litigation costs reasonably incurred in the suit.

The right, remedy, and cause of action set forth in this section shall be nonexclusive and is in addition to all other rights, remedies, and causes of action for invasion of privacy, inherent in Section 1, Article I of the California Constitution.

SEC. 3. The provisions contained in this act shall remain operative only until the Federal Bureau of Investigation reinstates its national fingerprint services.

SEC. 4. No appropriation is made and no reimbursement is required by this act pursuant to Section 6 of Article XIII B of the California Constitution or Section 2231 or 2234 of the Revenue and Taxation Code because the only costs which may be incurred by a local agency or school district will be incurred because this act creates a new crime or infraction, changes the definition of a crime

or infraction, changes the penalty for a crime or infraction, or eliminates a crime or infraction.

SEC. 5. This act is an urgency statute necessary for the immediate preservation of the public peace, health, or safety within the meaning of Article IV of the Constitution and shall go into immediate effect. The facts constituting the necessity are:

This act would provide necessary protection to the youth of the State of California.

CHAPTER 1223

An act to amend Section 6388.5 of the Revenue and Taxation Code, relating to taxation, to take effect immediately, tax levy.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 6388.5 of the Revenue and Taxation Code is amended to read:

6388.5. Notwithstanding Section 6388, whenever a new trailer or semitrailer with an unladen weight of 6,000 pounds or more which has been manufactured outside this state is purchased for use without this state and is delivered by the manufacturer or dealer to the purchaser within this state, and the purchaser drives or moves the vehicle to any point outside this state within 30 days from and after the date of delivery or whenever a new trailer or semitrailer with an unladen weight of 6,000 pounds or more which has been manufactured in this state is purchased for use without this state and is delivered by the manufacturer or dealer to the purchaser within this state, and the purchaser drives or moves the vehicle to any point outside this state within 75 days from and after the date of delivery, there are exempted from the taxes imposed by Part 1 (commencing with Section 6001), Part 1.5 (commencing with Section 7200), and Part 1.6 (commencing with Section 7251) the gross receipts from the sale of and the storage, use or other consumption of the vehicle within the state, provided that the purchaser furnishes the following to the manufacturer or dealer:

(a) Written evidence of an out-of-state license and registration for the vehicle.

(b) The purchaser's affidavit attesting that he or she purchased the vehicle from a dealer at a specified location for use exclusively outside this state, or exclusively in interstate or foreign commerce, or both.

(c) The purchaser's affidavit that the vehicle has been moved or driven to a point outside this state within the appropriate period of either 30 days or 75 days of the date of the delivery of the vehicle to

him or her.

SEC. 2. Notwithstanding Section 2230 of the Revenue and Taxation Code, no appropriation is made by this act and the state shall not reimburse any local agency for any sales and use tax revenues lost by it under this act.

SEC. 3. This act provides for a tax levy within the meaning of Article IV of the Constitution and shall go into immediate effect.

CHAPTER 1224

An act to amend Section 53638 of the Government Code, relating to local agencies.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 53638 of the Government Code is amended to read:

53638. (a) The deposit shall not exceed the total of the paid-up capital and surplus of any depositary bank. For the purposes of this subdivision, paid-up capital shall be deemed to include capital notes and debentures.

(b) The deposit shall not exceed the total of the net worth of any depositary savings and loan association, except that deposits not exceeding a total of five hundred thousand dollars ($500,000) may be made to a savings and loan association without regard to the net worth of that depositary, if such deposits are insured or secured as required by law.

CHAPTER 1225

An act to amend Sections 401, 402, 409, 1030, 1332, 3701, and 4701 of the Unemployment Insurance Code, relating to unemployment insurance.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 401 of the Unemployment Insurance Code is amended to read:

401. There is in the department an Appeals Division consisting of the California Unemployment Insurance Appeals Board and its employees. The appeals board consists of seven members. Five

members shall be appointed by the Governor, subject to the approval of the Senate. One member shall be appointed by the Speaker of the Assembly, and one member shall be appointed by the Senate Rules Committee. Two of the members of the appeals board shall be attorneys at law admitted to practice in the State of California. The other members need not be attorneys. Each member of the board shall devote his full time to the performance of his duties. The chairman and each member of the board shall receive the annual salary provided for by Chapter 6 (commencing with Section 11550) of Part 1 of Division 3 of Title 2 of the Government Code. The Governor shall designate the chairman of the appeals board from the membership of the appeals board. The person so designated shall hold the office of chairman at the pleasure of the Governor. The chairman shall designate a member of the appeals board to act as chairman in his absence.

SEC. 2. Section 402 of the Unemployment Insurance Code is amended to read:

402. Each member of the appeals board shall serve for a term of four years and until his successor is appointed and qualifies. The term of office of each member of the board appointed pursuant to the 1967 amendment to this section shall also be for four years; provided, however, that of the two board members first appointed pursuant to such amendments, one shall be appointed for a term which shall expire July 1, 1970, and one for a term which shall expire July 1, 1971.

A vacancy shall be filled by the appointing power by appointment for the unexpired term. A vacancy filled by the Governor shall be subject to the approval of the Senate.

SEC. 3. Section 409 of the Unemployment Insurance Code is amended to read:

409. The chairman shall assign cases before the board to any two members thereof for consideration and decision. Assignments by the chairman of members to such cases shall be rotated on such a basis so as to equalize the workload of the members but with the composition of the members so assigned being varied and changed to assure that there shall never be a fixed and continuous composition of members. Except as otherwise provided, the decision of the two members assigned the case shall be the decision of the appeals board. In the event that the two members do not concur in the decision, the chairman or another member of the board designated by the chairman shall be assigned to the panel and shall resolve the impasse. A case shall be considered and decided by the appeals board acting as a whole at the request of any member of the appeals board.

The appeals board shall meet as a whole at such times as the chairman may direct to consider and pass on such matters as the chairman may bring before it, and to consider and decide cases which present issues of first impression or which will enable the appeals board to achieve uniformity of decisions by the respective members.

The appeals board, acting as a whole, may designate certain of its

decisions as precedents. The appeals board, acting as a whole, may on its own motion reconsider a previously issued decision solely to determine whether or not such decision shall be designated as a precedent decision. Decisions of the appeals board acting as a whole shall be by a majority vote of its members. The director and the appeals board referees shall be controlled by such precedents except as modified by judicial review.

The decisions of the appeals board shall contain a statement of the facts upon which the decision is based, and a statement of the decision itself and the reasons therefor. If the appeals board issues decisions other than those designated as precedent decisions, anything incorporated in such decisions shall be physically attached to and be made a part of such decisions. All decisions designated as precedents shall be published in such manner as to make them available for public use. The appeals board may make such reasonable charge for publications as it deems necessary to defray the cost of their publication and distribution.

SEC. 4. Section 1030 of the Unemployment Insurance Code is amended to read:

1030. (a) Any employer who is entitled under Section 1327 to receive notice of the filing of a new or additional claim may, within 10 days after mailing of such notice, submit to the department any facts within its possession disclosing whether the claimant left such employer's employ voluntarily and without good cause or was discharged from such employment for misconduct connected with his or her work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his or her leaving to return to school at the close of, his or her vacation period, or whether the claimant left such employer's employ to accompany his or her spouse to or join her or him at a place from which it is impractical to commute to such employment, to which a transfer of the claimant by the employer is not available, and at which the spouse has secured employment. The period during which the employer may submit such facts may be extended by the director for good cause.

(b) Any base period employer who is not entitled under Section 1327 to receive notice of the filing of a new or additional claim and is entitled under Section 1329 to receive notice of computation may, within 15 days after mailing of such notice of computation, submit to the department any facts within its possession disclosing whether the claimant left such employer's employ voluntarily and without good cause or was discharged from such employment for misconduct connected with his or her work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his or her leaving to return to school at the close of, his or her vacation period, or whether the claimant left such employer's employ to accompany his or her spouse to or join her or him at a place from which it is impractical to commute to such employment, to which a transfer of the claimant by the employer is

not available, and at which the spouse has secured employment. The period during which the employer may submit such facts may be extended by the director for good cause.

(c) The department shall consider such facts together with any information in its possession. If the employer is entitled to a ruling under subdivision (b) or to a determination under Section 1328, the department shall promptly notify the employer of its ruling as to the cause of the termination of the claimant's employment. The employer may appeal from a ruling or reconsidered ruling to a referee within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling. The 20-day period may be extended for good cause, which shall include, but not be limited to, mistake, inadvertence, surprise, or excusable neglect. The director shall be an interested party to any appeal. The department may for good cause reconsider any ruling or reconsidered ruling within either five days after the date an appeal to a referee is filed or, if no appeal is filed, within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling, except that any ruling or reconsidered ruling which relates to a determination which is reconsidered pursuant to subdivision (a) of Section 1332 may also be reconsidered by the department within the time provided for reconsideration of such determination.

(d) For purposes of this section only, if the claimant voluntarily leaves such employer's employ without notification to the employer of the reasons therefor, and if the employer submits all of the facts within its possession concerning such leaving within the applicable time period referred to in this section, such leaving shall be presumed to be without good cause.

(e) An individual whose employment is terminated under the compulsory retirement provisions of a collective-bargaining agreement to which the employer is a party shall not be deemed to have voluntarily left his or her employment without good cause.

SEC. 5. Section 1332 of the Unemployment Insurance Code is amended to read:

1332. (a) The department may for good cause reconsider any determination within 15 days after an appeal to a referee is filed. If no appeal is filed, the department may for good cause reconsider any determination within 20 days after mailing or personal service of the notice of determination. The department may, if a claimant has not filed an appeal to a referee from any determination which finds that a claimant is ineligible or disqualified, for good cause also reconsider the determination during the benefit year or extended duration period or extended benefit period to which the determination relates. The department shall give notice of any reconsidered determination to the claimant and any employer or employing unit which received notice under Sections 1328 and 1331 and the claimant or employer may appeal therefrom in the manner prescribed in Section 1328.

The director shall designate individuals to review and reconsider

appealed determinations. No individual designated shall be the same individual who made the initial determination in the same matter.

(b) The department may for good cause reconsider any computation or recomputation provided for in this article during the benefit year or extended duration period to which the notice of computation or recomputation relates, except that no recomputation may be considered with respect to any issue considered or under consideration in an appeal taken from a denial of recomputation. The department shall promptly notify the claimant and each of the claimant's base period employers of the recomputation. The claimant and any base period employer may protest the accuracy of the recomputation as prescribed in Section 1330.

SEC. 6. Section 3701 of the Unemployment Insurance Code is amended to read:

3701. (a) Any employer who is entitled under Section 3654 to notice of the filing of a primary claim or additional claim and who, within 10 days after mailing of such notice, submits to the department any facts within its possession disclosing whether the exhaustee left the most recent employment with such employer voluntarily and without good cause or was discharged from such employment for misconduct connected with his or her work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his or her leaving to return to school at the close of, his or her vacation period, or whether the claimant left such employer's employ to accompany his or her spouse to or join her or him at a place from which it is impractical to commute to such employment, to which a transfer of the claimant by the employer is not available, and at which the spouse has secured employment, shall be entitled to a ruling as prescribed by this section. The period during which the employer may submit such facts may be extended by the director for good cause.

(b) The department shall consider such facts together with any information in its possession. If the employer is entitled to a determination pursuant to Section 3655, the department shall promptly notify the employer of its ruling as to the cause of the termination of the exhaustee's most recent employment. The employer may appeal from a ruling or reconsidered ruling to a referee within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling. The 20-day period may be extended for good cause, which shall include, but not be limited to, mistake, inadvertence, surprise, or excusable neglect. The director shall be an interested party to any appeal. The department may for good cause reconsider any ruling or reconsidered ruling within either five days after the date an appeal to a referee is filed or, if no appeal is filed, within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling, except that any ruling or reconsidered ruling which related to a determination is reconsidered pursuant to subdivision (a) of Section 1332 may also be reconsidered

by the department within the time provided for reconsideration of such determination.

(c) For purposes of this section only, if the claimant voluntarily leaves such employer's employ without notification to the employer of the reasons therefor, and if the employer submits all of the facts within its possession concerning such leaving within the applicable time period referred to in this section, such leaving shall be presumed to be without good cause.

(d) An individual whose employment is terminated under the compulsory retirement provisions of a collective-bargaining agreement to which the employer is a party shall not be deemed to have voluntarily left his or her employment without good cause.

(e) Rulings under this section shall have the effect prescribed by Section 1032.

SEC. 7. Section 4701 of the Unemployment Insurance Code is amended to read:

4701. (a) Any employer who is entitled under Section 4654 to notice of the filing of an application or additional claim and who, within 10 days after mailing of such notice, submits to the department any facts within its possession disclosing whether the individual left the most recent employment with such employer voluntarily and without good cause or was discharged from such employment for misconduct connected with his or her work, or whether the claimant was a student employed on a temporary basis and whose employment began within, and ended with his or her leaving to return to school at the close of, his or her vacation period, or whether the claimant left such employer's employ to accompany his or her spouse to or join her or him at a place from which it is impractical to commute to such employment, to which a transfer of the claimant by the employer is not available, and at which the spouse has secured employment, shall be entitled to a ruling as prescribed by this section. The period during which the employer may submit such facts may be extended by the director for good cause.

(b) The department shall consider such facts together with any information in its possession. If the employer is entitled to a determination pursuant to Section 4655, the department shall promptly issue to the employer its ruling as to the cause of the termination of the individual's most recent employment. The employer may appeal from a ruling or reconsidered ruling to a referee within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling. The 20-day period may be extended for good cause, which shall include, but not be limited to, mistake, inadvertence, surprise, or excusable neglect. The director shall be an interested party to any appeal. The department may for good cause reconsider any ruling or reconsidered ruling within either five days after the date an appeal to a referee is filed or, if no appeal is filed, within 20 days after mailing or personal service of notice of the ruling or reconsidered ruling, except that any ruling or

reconsidered ruling which relates to a determination which is reconsidered pursuant to subdivision (a) of Section 1332 may also be reconsidered by the department within the time provided for reconsideration of such determination.

(c) For purposes of this section only, if the claimant voluntarily leaves such employer's employ without notification to the employer of the reasons therefor, and if the employer submits all of the facts within its possession concerning such leaving within the applicable time period referred to in this section, such leaving shall be presumed to be without good cause.

(d) An individual whose employment is terminated under the compulsory retirement provisions of a collective-bargaining agreement to which the employer is a party shall not be deemed to have voluntarily left his or her employment without good cause.

(e) Rulings under this section shall have the effect prescribed by Section 1032.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Section 14999.11 is added to the Government Code, to read:

(b) The department shall submit its report to the Governor and to the Legislature by January 1, 1984.

CHAPTER 1228

An act to add Division 36 (commencing with Section 56000) to the Health and Safety Code, relating to urban development.

[Approved by Governor September 21, 1982. Filed with Secretary of State September 22, 1982.]

The people of the State of California do enact as follows:

SECTION 1. Division 36 (commencing with Section 56000) is added to the Health and Safety Code, to read:

DIVISION 36. LARGE SCALE URBAN DEVELOPMENT

CHAPTER 1. LEGISLATIVE FINDINGS AND DECLARATIONS

56001. The Legislature finds and declares:

(a) That there is a severe shortage within this state of decent and affordable housing for persons of all income levels and a concurrent need for the creation of new economic opportunities to preserve and enhance the economic well-being of the state's citizens and its economy.

(b) That it is in the interest of the public health, safety, and welfare to encourage large scale urban developments, both within and without cities, which are planned and designed to provide for the development of needed housing and jobs in a balanced and pleasing environment which includes parks and open space.

(c) That it is the intent of the Legislature to provide, through this division, a legal framework and economic climate which will preserve the concepts of home rule and local control; establish a mechanism for a single combined approval process for major developments, including planning, facilities construction, and financing process; enhance the ability of local government to protect agricultural and environmental interests; and provide incentive to the private sector as means toward accomplishment of these goals.

CHAPTER 2. GENERAL PROVISIONS AND DEFINITIONS

56010. This division shall be known and may be cited as the Urban Development Incentive Act.

56011. The definitions in this chapter shall govern the construction and interpretation of this division.

50612. "Affordable housing cost" means, in the case of a person or family of low income, monthly payments for residential property consistent with the requirement of Section 50052.5. In the case of other occupant persons or families, rent for residential property shall not be more than the percentage of the adjusted income of the occupant person or family as permitted under regulations of the United States Department of Housing and Urban Development issued pursuant to Section 8 of the United States Housing Act of 1937, but not in excess of the market rental value for comparable property and housing costs shall not be in excess of 35 percent of gross income.

56013. "Legislative body" means the elected governing body of a city, county, or city and county.

56014. "Large scale urban development" means development of a single parcel, or of separate contiguous parcels as a unified whole, of at least 1000 acres in area and which otherwise meets the criteria set forth in Section 56032.

56015. "Low and moderate income" means those income levels defined in Section 50093.

56016. "Open space" means open space land as defined in Section 65560 of the Government Code.

56017. "Site" means that land area under the jurisdiction of a legislative body circumscribed by legally defined boundaries which is proposed for, or designated as, a large scale urban development.

56018. "Sponsor" means a joint venture, a nonprofit corporation, a proprietary entity, any other legally constituted private or public entity, or some combination thereof which owns, or is the legal representative for the owner or owners of, the site.

CHAPTER 3. IMPLEMENTATION AND ADMINISTRATION

56030. The provisions of this division shall not be applicable in any city, county, or city and county, until adopted by the legislative body by ordinance.

56030.5. Each legislative body shall have the power to do all of the following:

(a) Designate the areas which may be developed as large scale urban developments.

(b) Approve, disapprove, modify, or condition each plan for the development of a large scale urban development, including design and aesthetic considerations, to ensure that the purposes of this division are carried out.

(c) Monitor each large scale urban development to ensure that the approved plan is followed and to include in each plan penalties or other provisions necessary to ensure that the plan is carried out as specified in a timely way.

(d) Adopt a schedule of fees which may be levied on, and paid by, sponsors who submit a plan for a large scale urban development

pursuant to this division; such fees may be in an amount necessary to defray all the costs of the city, county, or city and county in receiving, processing, monitoring, and enforcing the plan. If it is determined that the area is wholly or partially within the sphere of influence of a city and the city, pursuant to Section 56033.5 , assumes jurisdiction over the area by annexation, any fees therefor paid by the sponsor to the county shall be refunded.

(e) Establish, by ordinance, such other criteria in addition to those set forth in this division, and not inconsistent herewith, for a plan to qualify for certification as a large scale urban development as the legislative body may deem necessary and desirable in furtherance of the purposes of this division.

(f) Perform such other functions as are necessary to carry out its responsibilities under this division.

56031. A sponsor desiring to have a site designated as a large scale urban development shall file with the clerk of the legislative body an application therefor accompanied by a plan for such development which complies with the requirements of Section 56032 and such fee or fees as may be established pursuant to subdivision (d) of Section 56030. The clerk of the legislative body, or any other official designated by the legislative body, shall reject any application which:

(a) Lies wholly or partially outside the jurisdiction of the city, county, or city and county.

(b) Is smaller than 1,000 acres.

(c) Lies wholly or partially within an agricultural preserve created pursuant to the Williamson Act (Chapter 7 (commencing with Section 51200) of Part 1 of Division 1 of Title 5 of the Government Code).

56032. A plan for a large scale urban development shall contain, as a minimum, all of the following elements:

(a) A legal description of the exterior boundaries of the site proposed as a large scale urban development together with a map encompassing such area and delineating thereon the boundaries.

(b) A comprehensive plan for the financing of public improvements and services, including both the costs of capital outlay and the costs of operation and maintenance pursuant to Section 56036. The plan shall address public improvement financing measures to be taken in the event that the sponsor falls behind the construction schedule set out in the plan, or if the sponsor abandons the project at any point.

(c) A specific timetable for the completion of each phase of the development.

(d) A comprehensive development plan which is consistent with state and local general plan requirements, and which specifies the uses to which the proposed parcels will be dedicated. At least 20 percent of the gross acreage shall be set aside for open space or park purposes. If the comprehensive development plan is not consistent with the applicable local general plan, it shall be accompained by any necessary general plan amendment which may be considered

simultaneously with the development application. However, any amendment of the general plan pursuant to this subdivision shall not be counted as a general plan amendment for the purposes of subdivision (a) of Section 65361 of the Government Code.

(e) Information on the number of jobs to be created in the large scale urban development and an assessment of the income levels of the jobs. The plan shall provide for development of a balance of jobs and housing that would maximize the opportunities of large scale urban development residents to work there. If the legislative body finds that the sponsor is not making adequate efforts to achieve this balance between jobs and housing at the end of each three-year period following approval of the plan, the legislative body shall take whatever actions it deems necessary to ensure that balance, including halting the issuance of development approvals.

(f) A detailed plan for the provision of housing for all income ranges based on the identified housing needs created by the large scale urban development. Not less than 25 percent of the housing units shall be affordable to low- and moderate-income households. The plan shall provide that, at the end of each three-year period from the time of approval of the plan, at least 25 percent of the housing units completed or under construction shall be affordable to low- and moderate-income households. The timetable required pursuant to subdivision (c) shall provide for the development of housing in accordance with the provisions of this subdivision.

(g) An evaluation of the impact, if any, of the plan on agricultural lands located within, or in proximity to, the area to be included within the plan and on crop production of these lands. The evaluation shall include, at a minimum, an assessment of the economic impact of converting agricultural lands to other uses, the necessity of preserving lands in agricultural use, and any adverse impact which the development of a large scale urban development pursuant to this division would have on agricultural operations in proximity to the large scale urban development. The legislative body shall, based on the findings of these evaluations, require measures necessary to mitigate the adverse impact, if any, of the large scale urban development on agricultural lands and crop production within or in proximity to the proposed boundaries of the large scale urban development.

(h) A detailed plan for the development of commercial and industrial sites which may be necessary to provide a balanced economic base for the large scale urban development and to provide economic opportunities for the residents of the large scale urban development.

(i) A comprehensive plan for the development of public facilities, such as transit and schools, which may be required to meet the needs of the large scale urban development.

(j) An evaluation of impact of the plan on the capacity of existing sewer facilities and water resources in contiguous cities and in other affected areas.

(k) An evaluation of the impact of the plan on existing or planned industrial and commercial developments in contiguous cities.

(*l*) An evaluation of the impact of the plan on air and water quality within the region in which the large scale urban development is to be located and on the public service facilities within that region.

56032.5. The legislative body shall adopt such standards, regulations, and procedures as are necessary or convenient to implement the plans under this division.

56033. Within 30 working days after the filing of an application pursuant to Section 56031, the clerk of the legislative body, or any other official designated by the legislative body, shall determine whether the proposal meets the requirements of Sections 56031, 56032, and 56032.5. If the application does not meet these requirements, no further processing of the application shall occur until the sponsor submits an amended application.

56033.5. If a proposed large scale urban development lies wholly or partially within a sphere of influence of a city, as approved pursuant to Section 54774 of the Government Code, the legislative body shall notify the city. Within 30 days, the city may request and shall receive a 120-day delay in any further proceedings pursuant to this division. If the city and the legislative body agree to the proposed large scale urban development, the legislative body may resume proceedings pursuant to this division. During the 120-day delay period, the city may request and the legislative body may order modification to the proposed large scale urban development, or the city may initiate proceedings for an annexation pursuant to Section 35100 or 56195 of the Government Code. If the city obtains approval of the local agency formation commission for an annexation within the 120-day delay period, the legislative body shall suspend processing of the application until the conducting agency completes its actions. If the local agency formation commission rejects a city annexation proposal within the 120-day delay period, the legislative body may resume proceedings pursuant to this division.

56034. When it appears the plan meets the requirements of Sections 56032, 56032.5, 56033.5, 56036, and 56040, the legislative body shall schedule a public hearing on the application and plan and shall provide notice of such hearing pursuant to Section 6063 of the Government Code.

56035. (a) In addition to the notice required pursuant to Section 56034, the legislative body shall provide notice of the hearing and proposed plan to all persons, including businesses, corporations, or other public or private entities, shown on the last equalized assessment roll as owning real property within 300 feet of the property which is included within the plans and to each city, county, or city and county contiguous to the proposed site.

(b) The notice required by this section shall be given by at least one of the following methods:

(1) Direct mailing to the owners.

(2) Posting of notice by the legislative body on and off the site in the area where the large scale urban development is to be located.

(3) Delivery of notice by any means other than mail to the owners.

(4) Any other method reasonably calculated by the legislative body to provide actual notice of the hearing.

(5) Nothing in this section shall preclude the legislative body from providing additional notice by other means.

56036. (a) Prior to approving a plan pursuant to this division and the designation of a site as a large scale urban development, each public agency which would provide services to residents within the large scale urban development shall be requested to submit, within 90 days, to the legislative body information with respect to the costs to that agency of providing services to these residents. This information shall include an estimate of the costs of providing services to the large scale urban development which shall be based on the assumption that services provided to the large scale urban development will be provided at a level comparable to that provided in other jurisdictions with comparable service needs, the projected revenues from new development in the large scale urban development, and the amount of funds, if any, required by the public agency to meet the difference between the revenues generated and the costs of providing services to new residents.

(b) The legislative body, as a condition of approving a plan and designating a site, may, based on the information received pursuant to this section, require the sponsor to provide for payment of revenues to the public agency in an amount required to cover the costs of service which exceed the revenue generated. For the purposes of this subdivision, "the costs of services" shall mean the costs of providing services based on the estimates of providing services to the large scale urban development as calculated pursuant to subdivision (a) and as approved by the legislative body. "The costs of services" shall also include those costs of administration which are directly attributable to provision of services and the costs of capital outlay and maintenance which may be imposed on other jurisdictions.

56037. The legislative body may adopt an ordinance to combine and modify the procedures and requirements of any or all of the following within a single approval process to expedite its decisionmaking:

(a) The following provisions of Chapter 3 (commencing with Section 65100), of Division 1 of Title 7 of the Government Code:

(1) Article 6 (commencing with Section 65350), relating to the adoption of a general plan.

(2) Article 7 (commencing with Section 65400), relating to the administration of the general plan.

(3) Article 8 (commencing with Section 65450), relating to the authority for and scope of specific plans.

(4) Article 9 (commencing with Section 65500), relating to the

procedure for adoption of specific plans and regulations.

(5) Article 10 (commencing with Section 65550), relating to the administration of specific plans and regulations.

(b) Chapter 4 (commencing with Section 65800) of Division 1 of Title 7 of the Government Code, relating to zoning regulations, except for Sections 65852.3, 65852.7, 65860, 65863.6, 65863.7, 65913, and 65913.1.

56038. All proceedings under this division shall comply with all applicable provisions of the Knox-Nisbet Act, Chapter 6.6 (commencing with Section 54773) of Part 1 of Division 2 of Title 5 of the Government Code, the Municipal Organization Act, Part 2 (commencing with Section 35000) of Division 2 of Title 4 of the Government Code, and the District Reorganization Act, Division 1 (commencing with Section 56000) of Title 6 of the Government Code.

56039. All structures constructed within a large scale urban development shall conform to all applicable local or state building standards.

56040. The legislative body is hereby designated the lead agency and shall certify an environmental impact report in accordance with the provisions of the California Environmental Quality Act (Division 13 (commencing with Section 21000) of the Public Resources Code) prior to approving a large scale urban development. When an environmental impact report has been certified for a large scale urban development pursuant to this section, no subsequent or supplemental environmental impact report shall be required by the lead agency or by any responsible agency unless one or more of the following events occur:

(a) Substantial changes are proposed in the project which will require major revisions of the environmental impact report.

(b) Substantial changes occur with respect to the circumstances under which the project is being undertaken which will require major revisions of the environmental impact report.

(c) New information, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available. No person shall have standing to bring an action or proceeding to attack, review, set aside, void, or annul a finding of a legislative body made at a public hearing pursuant to this section unless he or she has participated in that public hearing. However, this provision shall not be applicable if the legislative body failed to give notice of the public hearing as required by law. For purposes of this provision, a person has participated in the public hearing if he or she has submitted either oral or written testimony regarding the proposed determination, finding, or decision prior to the close of the hearing.

56041. A legislative body is specifically authorized to establish a streamlined, single permit process in addition to or in conjunction with the provisions of Section 65913.3 of the Government Code, to expedite development in furtherance of the purposes of this division.

56042. The legislative body may contract with any public or private agency for services provided by that agency to a large scale urban development.

56043. If a large scale urban development is situated entirely in unincorporated territory and the legislative body determines that all or any of the necessary governmental or proprietary services required to meet the needs of the large scale urban development cannot or will not be provided by an existing public agency or privately owned public utility, the legislative body may form a county service area or annex to an existing county service area by filing, with the county recorder and other agencies required by law, the appropriate documents.

56044. No local agency shall annex any part of a large scale urban development without the approval of the legislative body which created it and without presenting a plan to the legislative body illustrating that the financing of the area to be annexed and the area not annexed will not be jeopardized and that the user fees, taxes, or other revenue sources applicable to these areas will not be higher because of the annexation.

56045. Notwithstanding Section 54790.3 of the Government Code and Section 93.1 of the Revenue and Taxation Code, no county service area created pursuant to Section 56043 shall receive an exchange of property tax revenues from another local agency without its approval.

56046. A large scale urban development shall cease to be subject to this division (a) upon completion of the large scale urban development or (b) 10 years after designation of the site by the legislative body, whichever occurs first. However, the legislative body may, upon application prior to the expiration of the 10-year period and for good cause shown, extend the expiration date.

56047. Nothing in this division shall be construed to supersede the provisions of Division 20 (commencing with Section 30000) of the Public Resources Code.

56048. If any provision of this division or the application thereof to any person or circumstances is held invalid, that invalidity shall not affect other provisions or applications of the division which can be given effect without the invalid provision or application, and to this end the provisions of this division are severable.

CHAPTER 4. HOUSING INCENTIVE REVENUE BOND ACT

56075. The Legislature intends to enact legislation creating a Housing Incentive Revenue Bond Act to enable local governing bodies to make housing loans to eligible persons.
